now or as the Director concludes may in the future be located within the rights-of-way. The Director shall establish an ideal cross section identifying the lateral and vertical position of each class of potential user. All permits issued by the City involving the installation or replacement of facilities shall be reviewed as to the proper corridor for the facility.

2. **Variance.** Any Grantee facility which is located in the rights-of-way in a position at variance with the corridors established by the Director shall move the facility at its own expense to its assigned position within the rights-of-way no later than at the time of the next reconstruction of the facility or roadway reconstruction which requires utility relocation by the City of the area where the facility is located. This requirement may be waived by the Director for good cause shown, upon a written request giving due consideration of such factors as the remaining economic life of the facilities, public safety, customer service needs or hardship to the Grantee.

3. **Interference.** Grantee shall not place any fixtures or equipment where the same will interfere with any existing utility or improvement. Grantee shall locate its facilities in such a manner as not to interfere unnecessarily with the usual traffic patterns (vehicular or pedestrian) or with the rights or reasonable convenience of owners of property that abut any rights-of-way.

**C. Construction Standards.**

1. **Depth.**

   **a.** After the operative date of this franchise, Grantee's facilities installed or replaced in rights-of-way shall be installed or replaced at depths which comply with all applicable state and federal rules and regulations establishing minimum safety standards for the design, construction, maintenance and operation of pipelines. Depth shall be measured from the lower of existing grade or proposed future grade as set forth on plans or other specifications existing at the time such lines are installed or replaced. In connection with such installation or replacement, fill and/or backfill materials and methods shall conform to the latest City standards.

   **b.** Unless agreed to in writing in advance by the Director, the local requirements for depth of installed facilities shall be, at a minimum, as follows:

      (1) Twenty-four (24) inches in green areas,

      (2) Twenty-four (24) inches below a projected slope from the flowline of a ditch at a three (3) horizontal and one (1) vertical slope,

      (3) Forty-eight (48) inches under a roadway measured from the surface of said roadway to the top of the installation,

      (4) Forty-eight (48) inches under a stormwater or creek channel design flowline, and

      (5) Cross under all water lines at a minimum separation of twenty-four (24) inches.

      (6) The City may require Grantee's facilities be placed at a greater depth than minimum depths as defined by local, state, or federal standards to facilitate known projects or to correct deficiencies.

      (7) Existing facilities shall be exempt from these depth requirements.

2. **Backfilling/testing.** Excavations shall be promptly backfilled according to standards on file with the Director and the earth shall be restored to original grade to assure no hazard to vehicular, animal, or pedestrian traffic. Upon request by the City, Grantee shall perform all necessary compaction tests in accordance with the latest design and construction specifications approved and disseminated by the Director setting forth requirements for backfill and paving cut repairs (e.g., standard concrete pavement cut and repair; standard asphalt pavement cut and repair, etc.). All test reports shall be submitted to the Director.
3. **Pavement Cutting.** Grantee shall comply with the latest pavement cut standards followed by the City.
4. **Replacement.** The replacement of any sidewalk, any driving surface, and the base of any roadway shall be the responsibility of the City's paving cut contractor, unless otherwise approved by the Director. All repairs and replacements shall comply with the City's Engineering Standards, pursuant to engineering plans on file with the City and may require additional removal to the nearest joint in all directions. Surface replacements shall be completed no later than ten (10) calendar days from completion of the underlying construction project. Specialty pavement sections must be constructed to restore the pavement to its original or an improved condition.
5. **Trenching.** Grantee shall not proceed with additional trench work exceeding a maximum of five hundred (500) feet of open trench without the approval of a City inspector.
6. **Crossings.** All underground crossings of paved roadways and stormwater and creek channels shall be made by a bore method approved by the Director. Any alternate method shall be approved by the Director, and then submitted to the ROW Administrator and Traffic Operations. Voids and all holes shall be properly grouted. Crossings shall be at approximately right angles, when possible, to the roadway and in no case shall any facility be placed in any culvert or drainage pipe.
7. **Erosion.** Erosion prevention measures shall be incorporated into all work within the rights-of-way as described in the City's Stormwater Criteria Manual. All gutters, ditches, and other drainage features shall be maintained free and unobstructed of sediment, dirt, and debris. The handling, grading, excavating, or moving of excess construction materials or the movement or cleaning of construction vehicles or equipment shall be conducted in such a manner that materials and washout will not be deposited into catch basins, gutters, ditches, or areas where runoff may carry materials into any public or private stormwater system.
8. **Obsolete or Abandoned Facilities.** Whenever Grantee's facilities are no longer used by Grantee and Grantee has no plans for any future use of those facilities, then Grantee shall remove those facilities that are at or above grade and restore the area in accordance with City standards.

D. **Dimension and Location Criteria.** Maximum dimensions and location of associated, above ground Facilities, including but not limited to junction boxes, duct banks, electric generators, repeaters, antennas, satellite dishes, or equipment cabinets, shall meet the following criteria:

1. The "Elevation View" shall not exceed thirty (30) square feet without written approval of the Director.

**2.** Associated equipment shall not be installed in such a manner so as to obstruct the view of drivers upon or entering a public street. Equipment, excluding poles, exceeding a height of twenty-four (24) inches shall not be placed within any intersection "sight-distance triangle" as defined in Title 24, Section 103, Tulsa Revised Ordinances.

**3.** No Facilities shall be placed so as to obstruct the flow of pedestrian traffic, and in no case result in less than four (4) feet of clear sidewalk, without the approval of the Director.

**4.** Grantee's Facilities shall comply with the latest design guidelines and regulations associated with the Americans with Disabilities Act. Grantee's non-compliant Facilities shall be relocated in accordance with the terms of this franchise.

**E. Miscellaneous Standards.**

**1. Construction Zone Identification.** Whenever the Grantee or Grantee's agent excavates or obstructs any portion of the rights-of-way, Grantee shall erect a temporary sign displaying either:

**a.** The name of the Grantee or Grantee's agent involved in the project, and the City permit number authorizing the activity; or

**b.** The name of the Grantee and a local telephone number or toll free number manned during regular business hours by a person who is knowledgeable about the construction project.

The sign shall be visible from any adjacent traffic lane and shall be maintained throughout the duration of the project.

**2. Vehicle Identification.** All vehicles used, parked, or stored by or on behalf of Grantee within a permitted construction zone shall be clearly marked, providing the name of the Grantee or Grantee's agent. Any unmarked vehicles shall be subject to all moving and parking ordinances. Private vehicles shall not be allowed to be parked or stored within any permitted work zone at any time.

**3. Due Care.** All Facilities and connections in, over, under, and upon the streets of the City, wherever situated or located, shall at all times be kept and maintained in a safe, suitable, and substantial condition, and in good order and repair.

*(Ord. No. 22415, § 1, 5-19-2011; Ord. No. 22852, § 1, 4-4-2013)*

## Section 308. Duty to move or alter facilities.

**A.** City reserves the right to construct or permit to be constructed cables, electric conduits, water, sewer, stormwater drainage system, gas or other pipelines and to do or permit to be done any underground work deemed necessary and proper by the City, along, across, over or under the rights-of-way. In doing or permitting such work to be done, the City shall not be liable to the Grantee for any damages to Grantee, willful and grossly negligent acts excepted.

**B.** Whenever by reason of establishing a grade or changes in the grade of any rights-of-way and/or public easements, or in the location or manner of construction of any, cables, electric conduits, water, sewer, stormwater drainage system, gas or other pipelines, it shall be deemed necessary by the City to alter or change Grantee's distribution system,

Grantee shall make such alterations or changes within a reasonable time, not to exceed six (6) months, as ordered in writing by the City, without claim for reimbursement or compensation for damages against City.

**C.** If City shall require the Grantee to adapt or conform its facilities, or to in any way alter, relocate or change its property to enable any other person, firm, corporation or entity (whether public or private), other than the City, to use the rights-of-way or public easements, the Grantee shall be reimbursed by the person, firm corporation or entity desiring or occasioning such change, alteration or relocation. Grantee shall make such alterations, relocations or changes within a reasonable time, not to exceed six (6) months, as ordered in writing by the City.

**D.** If the City shall require the Grantee to adapt or conform its facilities, or to in any way alter, relocate or change its property, and then for design changes within City's control and not due to unforeseen conditions, which require Grantee to adapt or conform the same facilities again for the same improvement, Grantee shall be reimbursed by the City for such alteration, relocation or change.

**E.** If City shall require Grantee to in any way alter, relocate or change its facilities from a private easement, then Grantee shall be reimbursed by the City for such alteration, relocation or change. Reimbursable costs shall be limited to facilities of like size.

**F.** "Person," "firm," "corporation," and "entity" as used in the preceding Subsection 308.C shall not include regular departments of the City, or any trust or authority formed by or for the benefit of City, for public utility purposes, or whose revenues are subsidized by or contribute to the general funds of the City, but shall include any other agency, whether acting in a governmental or non-governmental capacity, including, but not limited to, any urban renewal authority, or any other agency or authority, which as a part of its program clears whole tracts of land within the City limits and relocates citizens for the purpose of eliminating urban blight or similar aims.

**G.** The foregoing shall not alter the Grantee's prior rights or obligations within a pre-existing, private easement established prior to the dedication of rights-of-way in establishing the party responsible for the expense of any City required alteration, relocation or change of facilities. The Grantee shall maintain its prior rights when Grantee is requested by City to alter, relocate or change its facilities previously in a private easement.

*(Ord. No. 22415, § 1, 5-19-2011)*

## Section 309. Indemnification of the City.

**A.** Except as provided herein, Grantee shall, at its sole cost and expense, indemnify, hold harmless, and defend the City, its elected and appointed officials, officers, boards, commissions, commissioners, agents, employees, and volunteers against any and all claims, suits, causes of action (whether frivolous or otherwise), proceedings, and judgments for damages or equitable relief arising out of the installation, construction, maintenance, or operation of facilities by Grantee; or in any way arising out of Grantee's enjoyment or exercise of the privileges granted by the City or applicable law, regardless of whether the act or omission complained of is authorized, allowed, or prohibited by the City, other applicable law, or the terms of any grant to occupy the

rights-of-way, except to the extent such damages were caused by the negligence or intentional conduct of the City or its officers, agents or authorized contractors and subcontractors.

**B.** This indemnity provision includes, but is not limited to, the City's reasonable attorneys' fees incurred in defending against any such action, claim, suit (whether frivolous or otherwise), or proceeding, as well as the reasonable value of any services rendered by the City Attorney or City staff or employees.

**C.** Nothing in this franchise shall be construed to waive any immunity the City enjoys under applicable law or the Oklahoma Constitution.

**D.** Acceptance of the provisions of this section shall be a condition of all rights-of-way construction permits.

*(Ord. No. 22415, § 1, 5-19-2011)*

### Section 310. Grantee's rules and regulations.

The Grantee shall have the right to make and enforce such reasonable rules and regulations as it may deem necessary for the extension of its facilities, the sale of its natural gas and the prudent conduct of its business, provided that such rules and regulations shall neither be in conflict with the laws of the state of Oklahoma, the orders, rules or regulations of the Corporation Commission of Oklahoma or other regulatory authority, nor with the ordinances and regulations of the City insofar as they are consistent with the jurisdiction of the Corporation Commission of Oklahoma or other regulatory authority.

*(Ord. No. 22415, § 1, 5-19-2011)*

### Section 311. Maintenance and inspection of records.

**A.** Grantee shall at all times make and keep full and complete plats, maps and other records showing the location and size of all facilities comprising Grantee's system within the corporate limits of the City of Tulsa. Such plats, maps and any other records shall show the location and nature of all other works, structures, equipment and appurtenances comprising Grantee's system within the corporate limits of the City of Tulsa. Grantee shall further permit the City to inspect and audit during regular business hours the relevant books and records by Grantee in the ordinary course of business.

**B.** After completion of construction on each project, Grantee shall provide final as-recorded construction and acquisition Facility maps, which shall be submitted to the City. Such as-recorded maps shall be based upon post-construction inspections to verify location. Copies of as-recorded maps in a digital format acceptable to the City shall be submitted to the City, unless otherwise exempted.

**C.** Grantee agrees to make available within the corporate limits of the City of Tulsa all books, papers and records pertaining to its business carried on by it in or through the City of Tulsa, for the purpose of affording the City the opportunity to enforce the terms of this franchise and particularly to collect its franchise fee. Grantee shall further permit the City to inspect and audit during regular business hours the relevant books and records kept by Grantee in the ordinary course of business. City shall promptly

notify Grantee in writing of areas newly annexed into or deannexed from the corporate limits of the City, and Grantee shall update its records for the purpose of payment of franchise fees as soon as reasonably practicable after receiving such notice.

*(Ord. No. 22415, § 1, 5-19-2011)*

**Section 312. Consideration for Franchise: Franchise and volumetric rate fees.**

**A.** In consideration for the rights and privileges enjoyed under this franchise, Grantee agrees to pay the City, as a franchise fee, a sum equal to three percent (3%) of Grantee's gross cash receipts from the transportation, distribution or sale of natural gas for domestic, commercial or industrial consumption within the corporate limits of the City of Tulsa. All sums due from Grantee shall be in lieu of all other franchise, license, or occupation taxes or fees, which may be levied or attempted to be levied on Grantee by the City

**B.** Beginning November 1, 2015 and continuing through and including October 31, 2020 the franchise fee provided in Subsection 312.A shall be adjusted and Grantee shall pay the City a sum equal to three and five one-hundredths percent (3.05%) of its gross cash receipts from the transportation, distribution or sale of natural gas for domestic, commercial, and industrial consumption within the City. Beginning November 1, 2020 the franchise fee provided in Subsection 312.A shall be adjusted and Grantee shall pay the City a sum equal to three and one-tenth percent (3.10%) of its gross cash receipts from the transportation, distribution or sale of natural gas for domestic, commercial, and industrial consumption within the City.

**C.** For the purpose of determining Grantee's franchise fee for transport gas, Grantee shall pay the City a Volumetric Rate fee, which shall be the sum equal to the then-current Volumetric Rate multiplied by the number of Dth of transport gas transported or distributed through Grantee's facilities within the corporate limits of the City by Grantee or by any third-party to transport customers for consumption within the City.

**D.** In the event a customer of Grantee does not pay a monthly bill from Grantee in full, Grantee shall prorate its payments of remissions to the City for sums due on that particular bill so that the amount actually paid by the customer to Grantee on the bill is distributed to Grantee for the natural gas commodity and transportation or distribution service and to the City for sums due on the bill in proportion to the percentage of the total bill actually paid by the customer. In the event Grantee actually collects any outstanding amounts due on a past due, unpaid or partially paid monthly bill to a customer, then Grantee shall pay Grantor its proportionate share of sums due to the City on such bill.

**E.** All sums due from Grantee under Section 312 above shall be payable monthly on or before the 25th day of each month for the preceding calendar month, which sums shall be in lieu of all other franchise, license, or occupation taxes or fees, which may be levied or attempted to be levied on Grantee by the City.

**F.** Grantee shall have the right to seek from the City a waiver by the City of the payment of the Volumetric Rate fee due under this franchise as follows:

**1.** The Volumetric Rate fee may be waived by the City only on a case-by-case basis as to specific transport customers and only when the specific transport customer meets all of the criteria for the waiver specified in this Subsection 312.F; and

**2.** To seek the waiver, Grantee shall file an application for the waiver with the Director of Finance on a form to be provided by the Director of Finance; and

**3.** Documentary evidence shall be attached to the application as required by the Director of Finance or as deemed necessary by Grantee; and

**4.** The Director of Finance shall review and investigate the application and advise the Grantee in writing of the Finance Director's proposed recommendation thereon within fifteen (15) business days after the filing of the application. After advising Grantee of the proposed recommendation, the Finance Director shall make a final recommendation on the application no later than twenty (20) business days after issuing the Finance Director's proposed recommendation, unless Grantee otherwise requests, with the final recommendation to be filed with the City Clerk of City and mailed to Grantee; provided, as part of the review and investigation process, the Director of Finance may request additional information or documents from Grantee as reasonably deemed necessary for Finance Director's evaluation of and recommendation on the application. When such a request is made, the Grantee shall reasonably cooperate and comply with such request and upon the failure of the Grantee to so reasonably cooperate or comply, the Finance Director may delay the processing of the recommendation until such cooperation or compliance is given; provided further, the Grantee may extend the time lines set forth in this paragraph 312.F.4; and

**5.** At the same time the Finance Director's recommendation is filed with the City Clerk under paragraph 312.F.4 above, the Director shall notify Grantee of the date of a proposed public hearing before the governing body on the application, which hearing shall be held within fifteen (15) business days after the recommendation of the Director of Finance is filed with the City Clerk, as provided for by paragraph 312.F.4 above. The governing body of the City shall then hold the public hearing to determine whether the waiver application shall be approved or disapproved; and

**6.** At the public hearing provided for in paragraph 312.F.5 above, the governing body shall review and consider the application for a waiver of the Volumetric Rate fee for Grantee in regard to transport gas delivered to the transport customer mentioned in the application and may hear additional evidence and arguments for or against the application from the Finance Director, Grantee, and/or others and shall then determine whether or not all of the following criteria have been established by Grantee:

   **a.** That the transport customer has access to a lawful, economically feasible alternative through interstate commerce for the transportation of an adequate supply of natural gas to the transport customer by way of interstate gas pipelines owned and/or operated by an interstate pipeline company (the "alternative interstate gas transportation service"); and

   **b.** That Grantee has not played any role whatever in obtaining the alternative interstate gas transportation service for the transport customer; and

   **c.** That the alternative interstate gas transportation service would be provided to the transport customer by the interstate pipeline company at a cost less than the combined cost of Grantee's transportation fee plus the Volumetric Rate fee that Grantee would pay to City under this Ordinance for natural gas or transport gas provided or delivered to the transport customer; and

**d.** That due to the factors listed under subparagraphs 312.F.6.a and c above, the Grantee would lose the transport customer's business unless the Volumetric Rate fee due under this Ordinance is waived by the City; and

**e.** That due to the factors listed in subparagraphs 312.F.6.a, c and d above, the City would lose all sums due and payable to it under this Ordinance by Grantee for natural gas or transport gas provided or delivered to the transport customer unless the Volumetric Rate fee due under this Ordinance is waived by the City; and

**f.** That due to the factors listed in subparagraph 312.F.6.e above and/or other material factors, the granting of a waiver of the Volumetric Rate fee for Grantee in regard to Transport Gas delivered to the Transport Customer is in the best interests of the City.

**7.** Following the hearing and determination required by paragraphs 312.F.5 and 312.F.6 above, the governing body of City shall either approve or disapprove the application for a waiver. If all criteria set forth above in subparagraphs 312.F.6.a through f, inclusive, have been established by Grantee, then the governing body shall approve the waiver application; but otherwise the application shall be denied. If the application is denied, the governing body shall make specific findings of fact and conclusions of law based on such criteria. The final decision of the governing body on the waiver application, including the findings of fact and conclusions of law for a denial, shall be reduced to writing by the City Clerk and signed by the presiding officer of the governing body within ten (10) days of the date of the decision by the governing body, and immediately upon such signature by the presiding officer, the City Clerk shall mail a copy of the written decision to Grantee.

**8.** A waiver of the Volumetric Rate fee approved under this section shall be retroactive to the date of the filing of the application for waiver by Grantee, and the date of such filing shall be considered to be the effective date of the waiver for all purposes of this franchise.

**9.** A waiver of the Volumetric Rate fee approved hereunder shall be valid for a term of one (1) year, after which it shall lapse unless the Grantee seeks, and the governing body approves, an extension of the waiver for an additional one-year period in accordance with the terms of this Subsection 312.F.

**10.** Any denial by the governing body of City of an application for a waiver of the Volumetric Rate fee under this Subsection 312.F may be appealed to the district court by Grantee as provided for in Title 12 Oklahoma Statutes, Section 951.

*(Ord. No. 22415, § 1, 5-19-2011)*

## Section 313. Right to renegotiate Franchise (reopener).

**A.** If, after acceptance of this Ordinance, any legislation, rule, regulation, or regulatory order is enacted that significantly restructures the natural gas utility industry in a manner that affects the compensation provided to the City or paid by Grantee or rights granted to Grantee or the City, then either party, on the sixtieth month anniversary of the effective date of this franchise and every sixtieth month anniversary thereafter, may request renegotiation of the franchise by giving thirty (30) calendar days written notice to the other.

**B.** Upon receipt of such notice to renegotiate, the parties shall endeavor to address the issue of a revised franchise and make reasonable efforts to resolve the issue. If after a period of six (6) months from receipt of said notice, the parties are unable to reach an agreement on a revised franchise, either party shall have the option, for a period of six (6) months thereafter, to terminate the franchise upon giving twelve (12) months advance written notice.

**C.** If agreement is reached on a revised franchise between the City and Grantee, the issue of revision of the franchise shall be submitted for election by the qualified electors of the City of Tulsa in accordance with applicable laws. If a majority of the qualified electors of the City of Tulsa vote against the revision of the franchise, the franchise then in effect will continue in full force and effect until the end of the term provided for herein.

**D.** An unsuccessful election held pursuant to the provisions of this Section shall not prevent either party from subsequently requesting renegotiation of the franchise under Subsection 313.A above if, after the unsuccessful election, any additional legislation, rule, regulation, or regulatory order is enacted that significantly restructures the natural gas utility industry in a manner that affects the compensation provided to the City or paid by Grantee or rights granted to Grantee or the City.

*(Ord. No. 22415, § 1, 5-19-2011)*

**Section 314. Election required.**

This franchise shall not become effective until it shall be approved by a majority of the qualified electors voting thereon residing within the corporate limits of the City of Tulsa at an election called for that purpose, and a special election is hereby called for the purpose of submitting to the qualified electors residing in the City of Tulsa, the question of approval or disapproval of this Ordinance, which election shall be held on the 9th day of August 2011, between the hours prescribed by law. The Mayor of the City of Tulsa is hereby authorized and directed to issue a proper and lawful call and proclamation of such special election to be held on such date for such purpose and the executive officers of said City are hereby directed to give due and lawful notice of such election and submission of said question to the electors of said City, prescribing in the proclamation and notice of the proposition to be voted upon, the time of opening and closing the polls, the number and location of the polling places, and all other things prescribed by law, or the Ordinances of the City of Tulsa, Oklahoma.

*(Ord. No. 22415, § 1, 5-19-2011)*

**Section 315. Severability.**

If any section, sentence, clause or phrase of this Ordinance or any part thereof is for any reason found to be invalid by a court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance or any part thereof.

*(Ord. No. 22415, § 1, 5-19-2011)*

**Section 316. Acceptance and effective date.**

In the event this Ordinance is approved by a majority vote of said electors voting hereon at said special election, the Grantee shall file with the City Clerk of the City of Tulsa, within

ten (10) business days after the official canvass of the votes and declaration by the governing body of the results thereof, a written acceptance of this franchise. This Ordinance shall become effective and operative on the date of filing of such acceptance.

*(Ord. No. 22415, § 1, 5-19-2011)*

**Section 317. Repealer.**

Ordinance No. 16620 is hereby repealed; and all ordinances and parts of ordinances in conflict herewith are hereby repealed.

as is necessary for the efficient operation by Grantee of the remaining portions of its Plants and Systems for the transmission, distribution, provision and sale of electric energy and related services.

2. **Rollbacks and refunds.** If the City Council determines that the current Basic Cable Service Rates, as submitted, exceed the Reasonable Rate Standard or that the Cable Operator's Cost-of-Service Showing justifies lower rates, the City Council may order the rates reduced in accordance with subsection G. or H. above, as applicable. **I. Decision.** The City Council's decision concerning the proposed rate increase, shall be adopted by formal resolution. If a rate increase proposed by a Cable Operator is disapproved in whole or in part, or if objections were made by other parties to the proposed rate increase, the resolution shall state the reasons for the decision. Objections may be made at the public hearing by a person requesting the Council Secretary record the objection or may be submitted in writing at anytime before the decision resolution is adopted.

**2.** In cases where initial or proposed rates comply with the Reasonable Rate Standard, the City Council may request additional information only in order to document that the Cable Operator's rates are in accord with the Reasonable Rate Standard.

**B. Request for confidentiality.**

**1.** A Cable Operator submitting information to the City Council may request in writing that the information not be made routinely available for public inspection. A copy of the request shall be attached to and cover all of the information and all copies of the information to which it applies.

**2.** If feasible, the information to which the request applies shall be physically separated from any information to which the request does not apply. If this is not feasible, the portion of the information to which the request applies shall be identified.

**3.** Each request shall contain a statement of the reasons for withholding inspection and a statement of the facts upon which those reasons are based.

**4.** Informal requests which do not comply with the requirements of this subsection, shall not be considered.

**C. City Council action.** Requests which comply with the requirements of Subsection B. shall be acted upon by the City Council. The City Council shall grant the request if the Cable Operator presents, by a preponderance of the evidence, a case for nondisclosure consistent with applicable federal regulations. If the request is granted, the ruling shall be placed in a public file in lieu of the information withheld from public inspection. If the Cable Operator does not establish a case for nondisclosure and the City Council denies the request, the City Council shall take one (1) of the following actions:

**1.** If the information has been submitted voluntarily without any direction from the City, the Cable Operator may request that the City return the information without considering it. Ordinarily, the City will comply with such a request; however, when the public interest so requires, the information shall be made available for public inspection.

**2.** If the information was required to be submitted by the City Council, the information shall be made available for public inspection.

**D. Appeal.** If the City Council denies the request for confidentiality, the Cable Operator may seek review of that decision from the FCC within five (5) working days of the City Council's decision, and the release of the information shall be stayed pending review.

*(Ord. No. 18125)*

**Section 1005. Automatic rate adjustments.**

**A. Annual inflation adjustment.** In accordance with FCC regulations, the Cable Operator may adjust its capped base per Channel rate for the Basic Cable Service Tier annually by the final Gross National Product Price Index.

**B. Other external costs.**

**1.** FCC regulations allow the Cable Operator to increase its Basic Cable Service Rates automatically to reflect certain external cost factors to the extent that the increase in cost of those factors exceeds the Gross National Product Price Index. These factors include retransmission consent fees, programming costs, state and local taxes applicable to the provision of cable television service and costs of permit or franchise requirements. The total cost of an increase in a permit or franchise fee may be automatically added to the permitted per Channel charge for the Basic Cable Service Tier, without regard to its relation to the Gross National Product Price Index.

**2.** For all categories of external costs other than retransmission consent and permit or franchise fees, the starting date for measuring changes in external costs for which the basic service per Channel rate may be adjusted shall be the date on which the Basic Cable Service Tier becomes subject to regulation or February 28, 1994, whichever occurs first. The permitted per channel charge may not be adjusted for costs of retransmission consent fees or changes in those fees incurred before October 6, 1994.

**C. Notification and review.** The Cable Operator shall notify the City at least thirty (30) days in advance of a rate increase based on automatic adjustment items. The City shall review the increase to determine whether the item or items qualify as automatic adjustments. If the City makes no objection within thirty (30) days of receiving notice of the increase, the increase may go into effect.

*(Ord. No. 18125)*

**Section 1006. Enforcement.**

**A. Refunds.** The City may order the Cable Operator to refund to subscribers a portion of previously paid rates under the following circumstances:

**1.** A portion of the previously paid rates have been determined to be in excess of the permitted tier charge or above the actual cost of equipment; or

**2.** The Cable Operator has failed to comply with a valid rate order issued by the City.

**B. Default.** Failure of the Cable Operator to comply with a final rate decision or refund order shall constitute a default under provisions of the permit or franchise of the Cable Operator.

*(Ord. No. 18125)*

**Section 1007. Review of annual requests for an adjustment in Basic Cable Service Rates.**

**A. Selection of the annual rate adjustment method.** A Cable Operator in the City who elects to increase the rates for the Basic Cable Service Tier or associated equipment not more than annually shall notify the City of their proposed annual filing date prior to filing. If the City Council rejects the filing date chosen by a Cable Operator for good cause, the City and the Cable Operator shall negotiate in good faith to reach a mutually acceptable date. If no agreement can be reached, the City Council may set the filing date up to sixty (60) days later than the date chosen by the Cable

Operator. A Cable Operator may elect to change its annual filing date from year-to-year, provided that at least twelve (12) months shall pass before a Cable Operator can implement its next annual adjustment.

**B. Notice.** A Cable Operator in the City who elects to increase the rates for the Basic Cable Service Tier or associated equipment annually shall file a request with the City at least ninety (90) days before the Cable Operator desires the increase to take effect. A Cable Operator may give subscribers notice of its proposed rate changes at the time it files its request with the City; provided such notice states that the proposed changes are subject to approval by the City Council. Regardless, a Cable Operator shall notify all subscribers of any proposed increase at least thirty (30) days before the Cable Operator desires the increase to take effect.

**C. Expedited determination and public hearing.**

**1.** Within ninety (90) days from the date a Cable Operator files its request with the City and before taking action on the requested rate increase, the City Council shall hold at least one public hearing at which interested persons may express their views and record objections.

**2.** An interested person who wishes to make an objection to the proposed rate increase may request the Council Secretary to record the objection during the public hearing or may submit the objection in writing anytime before the decision resolution is adopted. In order for an objection to be made part of the record, the objector shall provide the Council Secretary with the objector's name and address.

**3.** If the City Council is able to expeditiously determine that the Cable Operator's rate increase request for basic cable service is within the FCC's Reasonable Rate Standard, as determined by the applicable Price Cap, the City Council shall act to approve the rate increase within ninety (90) days from the date the Cable Operator filed its request with the City. However, if the City Council or its designee concludes that the Cable Operator submitted a facially incomplete filing, the City Council's deadline for issuing a decision, the date on which rates may go into effect if no decision is issued, and the period for which refunds are payable shall be tolled while the City Council is waiting for the information, provided that, in order to toll the effective dates, the City Council or its designee shall notify the Cable Operator of the incomplete filing within forty-five (45) days of the date the filing is made.

**D. Extended review period.** If the City Council takes no action within ninety (90) days from the date the Cable Operator filed its request with the City, the proposed rates shall go into effect at the end of the review period, subject to a prospective rate reduction and refund, upon the City Council subsequently issuing a decision disapproving such rates. However, in order for such a prospective rate reduction and refund to be valid, if the Cable Operator inquires whether the City intends to issue a rate order after the ninety (90) day review period, the City Council or its designee shall notify the Cable Operator of its intent in this regard within fifteen (15) days of the Cable Operator's inquiry. If the proposed rate goes into effect before the City Council issues a rate order, the City shall have twelve (12) months from the date the Cable Operator filed for the rate adjustment to issue its order. In the event the City Council does not act within the twelve (12) month period, it may not order a refund or a prospective rate reduction with respect to the rate filing.

**E. Price Cap analysis.** If a Cable Operator presents its request for a rate increase as being in compliance with the FCC's Price Cap, the City Council shall review the rate, using the Price Cap analysis in accordance with the standard form authorized by the FCC. Based on the City Council's findings, Basic Cable Service Rates shall be established as follows:

**1.** If the proposed Basic Cable Service Rate increase is within the Price Cap established by the FCC, the proposed rates shall become the new Basic Cable Service Rates.

**2.** If the proposed Basic Cable Service Rate increase exceeds the Price Cap established by the FCC, the City Council shall disapprove the proposed rate increase and order a Basic Cable Service Rate that is in compliance with the Price Cap.

**F. Decision.** The City Council's decision concerning the requested rate increase, shall be adopted by formal resolution. If a rate increase proposed by a Cable Operator is disapproved in whole or in part, or if objections were made by other parties to the proposed rate increase, the resolution shall state the reasons for the decision. If the Cable Operator is only permitted a smaller increase than was provided for in its notice, the Cable Operator must provide an explanation to subscribers on the bill in which the rate adjustment is implemented. If the Cable Operator is not permitted any of the rate increase provided for in its notice, the operator shall provide an explanation to subscribers within sixty (60) days of the date of the City Council's decision. Additional advance notice shall only be required in the event that the rate exceeds the previously noticed rate.

**G. Refunds.**

**1.** The City Council may order refunds of subscribers' Basic Cable Service Rate payments, with interest, if:

**a.** The City Council was unable to make a decision within the original ninety (90) day review period as described in Subsection C., above; and

**b.** The Cable Operator implemented the rate increase at the end of the original ninety (90) day review period; and

**c.** The City Council determines that the rate increase as submitted exceeds the applicable Price Cap and disapproves any portion of the rate increase.

**2.** The method for paying any refund and the interest rate shall be in accordance with FCC regulations as directed in the City Council's decision resolution.

**H. Appeal.** The City Council's decision concerning Basic Cable Service Rates may be appealed to the FCC in accordance with applicable federal regulations.

The Director of Health, after proper identification, shall not be denied access at reasonable times in or upon any private or public property, except private residences, for the purposes of inspection and investigating any condition which the Director shall have reasonable cause to believe to be an air pollution source.

### Section 706. Rules and regulations.

The Board may prepare standards, rules and regulations which it deems necessary to protect the public health and safety and to carry out the requirements of the Clean Air Code. Such standards, rules and regulations shall be recommended to the City Council and the County Commission for their adoption.

## Section 707. Control of open burning.

**A. Purpose.** It is the purpose of this regulation to establish controls in the open burning of combustible material to prevent undesirable levels of air contaminants in the atmosphere.

**B. Open burning restrictions.** No person shall cause, suffer, allow or permit the open burning of refuse, trade waste, salvage waste, agricultural waste or other combustible material except as may be allowed in compliance with Subsection C herein.

**C. Exceptions to restriction against open burning.**

**1.** Regardless of provisions of Subsection B, in areas of low population density in which no private or municipal refuse service is available, the open burning on residential premises of refuse originating in dwelling units on the same premises shall not be a violation of this code. The Director of Health, after consultation with public agencies and private facilities concerned with refuse collection and disposal, shall select and publish the specific boundaries of areas in which such open burning of refuse will not be in violation of this code. In selecting such areas, he shall issue a density of one (1) dwelling unit per ten (10) acres as an approximate definition of areas of low population density. The Director of Health shall select and publish revised boundaries of such areas at least once every two (2) years to reflect changes in population density and available refuse service.

**2.** Outdoor burning in connection with the preparation of food shall be permitted.

**3.** Campfires and fires used solely for recreational purposes or for ceremonial occasions shall be permitted.

**4.** Fires set for purpose of training public or private fire-fighting personnel shall be permitted with the approval of the Director.

**5.** Fires set or required by a public officer for the abatement of nuisances and which are necessary in carrying out public health functions shall be permitted with the approval of the Director.

**6.** The burning of trees, brush and shrubs in a properly designed, operated and maintained open pit incinerator is permitted on the premise from which the trees, brush and shrubs originated if approval prior to burning has been granted by the Director.

**7.** The open burning of trade wastes may be permitted when it can be shown that such open burning is necessary and in the interest of public health. Any person intending to engage in open burning of trade wastes shall file a request with the Director of Health. The request shall be made on forms provided by the Tulsa City-County Health Department. The Director shall respond to the request within three (3) working days after receipt of request.

**8.** The open burning of plant life grown on the premises in the course of any agricultural operation may be permitted when it can be shown that such open burning is necessary and in the interest of public health. Any person intending to dispose of plant life by open burning shall file a request to do so with the Director of Health on forms provided by the Director.

**9.** Any open burning permitted under provisions of paragraphs 1, 6, 7 and 8 shall be begun only during the following time period: from three (3) hours after sunrise until three (3) hours before sunset. Additional fuel may not be intentionally added to the fire except during the time period prescribed herein.

## Section 708. Incinerators.

**A. Purpose.** It is the purpose of this regulation to control the emissions of air contaminants from incinerators in the City of Tulsa.

**B. General provisions.**

**1.** No person shall burn refuse in any incinerator, except in a multiple chambered incinerator or in equipment determined by the Director to be equally effective for the purpose of air pollution control. These incinerating devices shall make full and proper use of components and appurtenances thereof to ensure the most efficient and complete combustion.

**2.** No person shall cause, suffer, allow or permit the emission into the open air from any incinerator equipment fly ash or other particulate in quantities greater than the allowable emissions as determined by the use of the formula:

$$"Y" = 0.01221X^{0.7577}$$

where "X" is the charge rate (lbs. per hour) and "Y" is the allowable emissions. Solid fuels charged will be considered as part of the refuse waste, but No. 1 and 2 fuel oil and gaseous fuels and combustion air will not be so considered.

**3.** No person shall cause, suffer, allow or permit the discharge from an incinerator of any air contaminant in quantities detrimental to health or property or adversely affecting the use or enjoyment of property.

**C. Multiple chambered incinerators.**

**1.** No person shall cause, suffer or allow the operation of a multiple chambered incinerator unless:

**a.** It is provided with an auxiliary burner for the purpose of maintaining a temperature of at least eight hundred degrees (800°) F. in the primary combustion chamber; and

**b.** It is provided with a secondary burner for use when necessary to eliminate smoke.

**2.** No person shall cause, suffer, allow or permit the discharge into the outdoor atmosphere:

**a.** From any incinerator burning less than two hundred (200) pounds of refuse per hour, particulate matter to exceed three tenths (0.3) grains per standard cubic foot of dry flue gas, adjusted to twelve percent (12%) carbon dioxide and calculated as if no auxiliary fuel had been added; or

**b.** From any incinerator burning two hundred (200) or more pounds of refuse per hour, particulate matter to exceed two tenths (0.2) grains per standard cubic foot of dry flue gas adjusted to twelve percent (12%) carbon dioxide and calculated as if no auxiliary fuel had been used.

## Section 709. Control of visible emissions.

**A. Purpose.** It is the purpose of this regulation to prevent undesirable ambient concentrations of smoke and particulate matter through regulation of visible emissions.

**B. Control of smoke and visible emissions.**

**1. General prohibition.** No person owning, leasing or controlling the operation of any air contaminant source shall willfully, negligently or through failure to provide necessary equipment or facilities or through failure to take necessary precaution, permit the emission from the contaminant source of such quantities of air contamination as will cause a condition of air pollution.

**2. Visible emissions.**

**a.** No person shall cause, suffer, allow or permit the discharge of any fumes, aerosol, mist, gas, smoke, vapor, particulate matter or any combination thereof of a shade or density equal to or darker than a number one (1) on the Ringelmann Chart or twenty percent (20%) equivalent opacity.

**b.** Subparagraph 2a shall not apply to:

(1) Smoke or visible emissions emitted during the cleaning of a fire, the building of a new fire or short-term occurrence, the shade or density of which is not darker than Number two and one-half (2½) of the Ringlemann Chart or fifty percent (50%) opacity for a period aggregating no more than five (5) minutes in any sixty (60) consecutive minutes or more than twenty (20) minutes in any twenty-four (24) hour period;

(2) Smoke resulting from fires covered by the exception outlined in Section 707; or

(3) An emission where the presence of uncombined water is the only reason for failure to meet the requirements of Subparagraph 2a.

**3. Method of measurement.** The Ringelmann Chart and its opacity equivalents shall be used in grading the shade or opacity of visible air contaminant emissions. The Director of Health may specify other means of measurement which give comparable result or results of greater accuracy.

## Section 710. Control of particulate emissions from specific activities.

**A.** It is the purpose of this regulation to prevent undesirable ambient concentrations of particulate matter originating from specific industrial activities in the City of Tulsa.

**B. General prohibition.** No person owning, leasing or controlling the operation of any air contaminant source shall willfully, negligently or through failure to provide necessary equipment or facilities or through failure to take necessary precaution, permit the emission from the air contaminant source of such quantities of air contamination as will cause a condition of air pollution.

**C. Emission of particulate matter from industrial processes.**

**1. General provisions.**

**a.** This section applies to any operation, process or activity, except:

(1) The burning of fuel for indirect heating in which the products of combustion do not come directly into contact with process material;

(2) The burning of refuse; and

(3) The processing of salvageable refuse by burning.

**b.** The process weight per hour, referred to in this section, shall be based on the normal operation of maximum capacity of the equipment; and if such normal

maximum capacity should be increased by process or equipment changes, the new normal maximum capacity shall be used as the process weight in determining the allowable emissions.

2. **Emission limitations.** No person shall cause, suffer, allow or permit the emission of particulate matter from any source in excess of:

   **a.** The amount shown in Table 1 for the process weight allocated to such source; and

   **b.** A concentration of thirty hundredths (0.30) grains per standard dry cubic foot of exhaust gases.

**D. Emission of particulate matter from fuel burning equipment.**

1. No person shall cause, suffer, allow or permit particulate matter caused by the combustion of fuel to be discharged from any stack or chimney into the atmosphere, in excess of the hourly rates set forth in the following Table I:

**TABLE I**

2. For heat input between any two (2) consecutive heat inputs stated in the preceding table, maximum allowable emissions of particulate matter are shown in Table II below.

3. For the purposes hereof, heat input shall be calculated using the aggregate heat content of all fuels (using the upper limits of the range heating value) whose products of combustion pass through the stack or chimney.

4. When two (2) or more fuel burning units are connected to a single stack, the combined heat input of all units connected to the stack shall be used to determine the allowable emission from the stack.

**5.** When a single fuel burning unit is connected to two (2) or more stacks, the allowable emission from all the stacks combined shall not exceed that allowable for the same unit connected to a single stack.

Interpolation of the data in this table for process weight rates up to 60,000 lb/hr shall be accomplished by use of the equation:

$$E = 4.10\ (p^{0.67})$$

and interpolation and extrapolation of the data for process weight rates in excess of 60,000 lb/hr shall be accomplished by use of the equation:

$$E = [55.0\ (p^{0.11})]\ -40$$

where E = rate of emission in lb/hr and P = process weight rate in tons/hr.

## Section 711. Malfunction of equipment and emergency conditions.

**A. Purpose.** It is the purpose of this regulation to control air pollution during irregularities and malfunction of equipment and during emergency conditions.

**B. Scheduled maintenance.** In the case of a shutdown of air pollution control equipment for necessary scheduled maintenance, the person responsible for this equipment shall report the intent to shut down such equipment to the Director at least twenty-four (24) hours prior to the planned shutdown. Such prior notice shall include, but is not limited to, the following:

**1.** Identification of the specific facility to be taken out of service as well as its location and permit number;

**2.** The expected length of time that the air pollution control equipment will be out of service;

**3.** The nature and quantity of emissions of air contaminants likely to occur during the shutdown period;

**4.** Measures, such as the use of off-shift labor and equipment, that will be taken to minimize the length of the shutdown period;

**5.** The reasons that it would be impossible or impractical to shutdown the source operation during the maintenance period; and

**6.** If the estimated or actual duration is greater than seventy-two (72) hours, application shall be made for a variance.

**C. Equipment malfunction.** In the event that any emission source, air pollution control equipment or related facility malfunctions in such a manner as to cause the emission of air contaminants in violation of this code, the person responsible for such equipment shall immediately notify the Director of such failure or breakdown and provide a statement giving all pertinent facts, including the estimated duration of the breakdown. The Director shall be notified when the condition causing the failure or breakdown has been corrected and the equipment is again in operation. If the estimated or actual duration is greater than seventy-two (72) hours, application shall be made for a variance.

**D. Emergency provisions.** In the event that an air pollution emergency exists, the person in charge of the facility shall notify the Director immediately. Notwithstanding any other provisions of this code, upon receipt of evidence that a source of pollution or a combination of sources of pollution present an air pollution emergency, the Director shall take such action as may be necessary to abate the alleged pollution.

## Section 712. Permit to construct and operate required.

**A. Scope and purpose.** This regulation is adopted to define Air Resource Management Requirements, to protect and enhance Air Resources of the City of Tulsa and to assure attainment and maintenance of the ambient air quality through the use of a construction and operation permit system.

**B. General requirements for permits to construct.** No person shall cause or permit the construction of a new source or the modification, reconstruction or relocation of a source, without first obtaining a permit to construct from the Director, approving the location and the design of such source and assuring compliance with applicable rules, regulations and ambient air quality standards. Any person who violates the requirements of this section shall be deemed to be creating a public nuisance.

**C. Application for permits to construct.**

**1.** A separate application is required for each source described in Subsection B which has the potential of emitting pollutants to the atmosphere.

**2.** Each application shall be signed by the applicant. The signature of the applicant shall constitute an agreement that the applicant assumes responsibility for the construction, modification, reconstruction, relocation and use of the proposed source in accordance with this code.

**D. Information required for permits to construct.** Each application for a permit to construct shall be accompanied by two (2) complete copies of plans and specifications showing how the proposed source is designed and will be operated and how air pollutants will be controlled.

**E. Standards for granting permits to construct.**

**1.** No permit to construct shall be granted unless the applicant demonstrates that:

**a.** The source is designed and will be constructed to operate without causing a violation of federal, state and local air pollution laws;

**b.** The source is designed, built and equipped in accordance with the best available control technology (BACT);

**c.** The source will not endanger maintenance nor attainment of any applicable ambient air quality standard; and

**d.** The source will provide reasonable, practical and available control measures for those air contaminants not controlled by the above regulations if the Director determines such controls are necessary and in the interest of public health, welfare and property.

**2.** The Director may establish special conditions if it appears likely from all of the information submitted that, as a result of the conditions, the source will satisfy the requirements of this subsection.

**F. Action on applications for permits to construct.**

**1.** The application shall be acted upon within thirty (30) days of receipt of a complete application for a permit to construct. The Director shall notify the applicant in writing of his approval, conditional approval or denial of the application.

**2.** If any application is denied, the Director shall set forth his objections in the notice of denial. If the objection cannot be resolved by conference and conciliation, the applicant may appeal pursuant to the provisions of this chapter.

**G. Cancellation of a permit to construct.**

**1.** The Director shall cancel a permit to construct if the construction has not begun within eighteen (18) months from the date of issuance, or if the work involved in the construction is suspended for eighteen (18) months or more.

**2.** An applicant may secure an extension of the expiration date by written request to the Director stating the reasons for the extension. Extensions may be granted for a period of not more than eighteen (18) additional months.

**H. General requirements for permits to operate.** No person shall cause, suffer or allow the operation of a source constructed after October 1, 1972, without a state or City permit to operate.

**1.** Within sixty (60) days of startup of a new, modified or reconstructed source, an application for a permit to operate must be filed with the Director.

**2.** No owner or operator shall cause or permit the operation of a new, modified or reconstructed source if the Director denies or revokes a permit to operate.

**3.** Sources existing on the effective date of this ordinance shall have sixty (60) days in which to secure a permit to operate.

**I. Applications for permits to operate.** Applications for a permit to operate shall include two (2) signed application forms. Plans and specifications need not be submitted unless changes have been made since issuance of permit to construct.

**J. Asbestos permits required.** A permit shall be required prior to commencing any asbestos renovation or demolition project at any facility.

For the purposes of this subsection, the terms "project" and "facility" shall be defined as follows: "project" shall mean any renovation or demolition operation at any one (1) facility submitted under separate notification; "facility" shall mean any institutional, commercial or industrial structure, installation or building (excluding apartment buildings having no more than four (4) dwelling units).

**K. Standards for granting permits to operate.** No permit to operate a source shall be granted unless the applicant shows that the source has satisfied the requirements of the applicable rules, regulations, and has been constructed, modified or reconstructed in accordance with the requirements and conditions contained in the permit to construct.

**L. Performance testing for permits to operate.** Before a permit to operate a source is granted, the applicant may be required to conduct performance tests in accordance with Section 717 herein. The test will be made at the expense of the applicant. The Director shall monitor performance tests conducted by the applicant and may also conduct performance tests.

**M. Action on applications for permits to operate.**

**1.** The Director shall act within a seventy-five (75) day period on an application for a permit to operate and shall notify the applicant in writing of his approval, conditional approval or denial of the application. The seventy-five (75) day period shall begin when all test data, plans and specifications are received. The source may operate during this review period.

**2.** If any application is denied, the Director shall set forth his objections in the notice of denial. If the objection cannot be resolved by conference and conciliation, the applicant may appeal pursuant to Section 718.

**N. Conditional permits to operate.** The holder of a permit to operate shall comply with the conditions contained in his permit as well as with all applicable delegated federal, state and local laws.

**O. Suspension or revocation of permits to operate.**

**1.** A permit may be revoked or suspended for willful or continued violation of code or permit conditions.

**2.** Suspension or revocation of a permit to operate shall become final thirty (30) days after service of notice on the holder of the certificate unless the violation is corrected or appealed to the review board pursuant to Section 718.

**3.** A permit to operate which has been revoked pursuant to these provisions shall be surrendered forthwith.

**P. Transfer of permit.** A permit to operate shall not be transferred to another person or location. If a transfer of ownership or location occurs, a new permit to operate is

necessary, but the cost of the new permit shall be one-half (½) the amount provided in Subsection Q. Transfer of stock does not constitute change of ownership unless such transfer results in a change of the controlling fifty percent (50%) interest.

**Q. Permit fees required.**

**1. Definitions.** For the purpose of this subsection, the following words and phrases shall have the meanings given herein.

**a. Major source** means any new or modified stationary source which directly emits or has the capability at maximum design capacity, and if appropriately permitted, authority to emit one hundred (100) tons per year or more of a given pollutant.

**b. Minor source** means any source for which a permit is required but is not a major source.

**c. Permit renewal** means the process whereby operating permits are extended for another one-year term. In no case shall the term "permit renewal" be construed to allow the imposition of additional permit requirements not otherwise required or authorized by law or ordinance.

**d. Relocate** means to move a source from one (1) geographical location to another. The term shall not include *de minimis* moves within the proximity of the original site, or contiguous areas when such moves are readily observable by inspectors.

**e. Annual permit renewal fee equivalent** means the annual fee assessed on facilities which, because of the date of startup or construction, are exempt from the requirements to have a permit.

**2. Construction and operating permit fees - new sources.** All new permits, the construction permit application for which is received after the effective date of this section, will be assessed a fee which must accompany the application, in accordance with the following schedule.

**a. Major source.**

| | |
|---|---|
| (1) Construction permit | $2,000.00 |
| (2) Operating permit | $1,500.00 |

**b.** Minor source (actually emitting twenty-five (25) tons, but less than one hundred (100) tons per year of any one (1) pollutant and minor NSPS sources)

| | |
|---|---|
| (1) Construction permit | $1,000.00 |
| (2) Operating permit | $250.00 |

**c.** Minor source (emitting more than one (1) pound per hour, but less than twenty-five (25) tons per year of any one (1) pollutant)

| | |
|---|---|
| (1) Construction permit | $200.00 |
| (2) Operating permit | $100.00 |
| (3) Asbestos renovation/demolition permit | $50.00 |

**3. Review to determine applicability - new sources.** Upon submittal of a written request, a One Hundred Dollar ($100.00) determination fee and any relevant

information needed to make a permit determination, the Tulsa City-County Health Department will make a determination of whether or not a permit is required. If a determination is made that a permit is required, the One Hundred Dollar ($100.00) fee will be credited against the construction and operation permit fees. If it is determined that a permit is not required, the One Hundred Dollar ($100.00) fee will be retained by the Tulsa City-County Health Department to cover the cost of making the determination.

**4. Permit renewal and renewal equivalents.**

**a. Applicability.**

(1) The Tulsa City-County Health Department shall annually assess and collect a permit renewal fee or permit renewal fee equivalent from all facilities in the County according to their classification as set forth in Table III below. Assessments for existing facilities grandfathered from permit requirements (i.e., permit renewal fee equivalents) shall be made in the same manner and on the same basis as a new facility of the same type (permit renewal fees).

(2) New facilities shall not be subject to a permit renewal fee until a minimum of one (1) year shall have elapsed from the operating permit application due date.

**b. Facility classification.**

(1) Any new facility for which an appropriate classification does not exist shall be assigned a classification and class number in Table III as a permit condition.

(2) Any existing facility for which an appropriate classification does not exist shall be assigned a facility classification and class number in the same manner as (b)(1) above except that:

(a) Such assignment shall be made in writing, setting forth the reasons why the facility has been assigned to any particular category; and

(b) Any person aggrieved by such assignment shall be entitled to a hearing on the reasonableness of the assignment.

**c. *De Minimis*.**

(1) A permit renewal fee or renewal fee equivalent shall not be required, regardless of the requirement to have a permit, provided that total emissions from the facility do not exceed ten (10) tons per year for any one (1) criteria pollutant.

(2) Exceptions to the ten (10) ton *de minimis* facilities are the service station industry and the dry cleaning industry.

**d. Assessments.**

(1) Fees established under this section shall be assessed and paid on the basis of facility classification as identified in Table III. The annual fee collected for a facility in any class shall be determined by multiplying the class number for the facility, as determined by Table III, by Fifty Dollars

($50.00). In no case shall more than one (1) fee per source be assessed, unless such source shall constitute two (2) or more facilities as defined herein.

(2) On or before the first working day of each year, the Tulsa City-County Health Department will mail fee assessments to all facilities subject to this regulation. Such assessments shall be made pursuant to data contained in the emissions inventory and shall set forth:

(a) The facility classification;

(b) The class number assigned to the facility; and

(c) The amount of the fee that is to be remitted to the Tulsa City-County Health Department.

(3) Service stations and dry cleaners shall be assessed on an annual renewal fee of Twenty-Five Dollars ($25.00).

(4) For the calendar year 1989, fee assessments will be mailed on or about the effective date of this regulation and shall be due in the Offices of the Tulsa City-County Health Department, Air Quality Control, thirty (30) days from the date of receipt of the assessment.

**e. Exemption.** Fees set out herein shall not apply to oil and gas wells and their associated facilities or oil and gas pipelines and their associated facilities involved in the production (prior to custody transfer) of oil and gas. This exemption does not apply to storage facilities with greater than ten thousand (10,000) BBL. total capacity, compressor facilities on transmission lines and gas processing facilities.

**f. Fees.** Fees will be paid by check or money order made payable to the reviewing agency, Tulsa City-County Health Department. No cash will be accepted. Fees shall be due in the Offices of the Tulsa City-County Health Department thirty (30) days from the date of postmark. A ten (10) calendar day grace period will be given before any enforcement action will be taken. Upon the expiration of the ten-day grace period, notices of violation (NOV) may be issued. Further action will be in accordance with Sections 718 and 720 of this chapter.

**g. No pre-emption.** The fee provisions set forth herein shall apply to those permits, renewals and renewal fee equivalents processed by the Tulsa City-County Health Department and are not intended to preempt any state fee program.

**R. Exemptions.** Permits to construct or operate shall not be required for:

**1.** The installation or alteration of an air contaminant detector, air contaminant recorder, combustion controller or combustion shut-off device;

**2.** An air conditioning or ventilating system not designed to remove air contaminants generated by or released from process equipment;

**3.** Fuel-burning equipment which uses natural gas as a fuel for space heating, air conditioning or heated water, or which is used in a private dwelling or which has a BTU input of less than five hundred thousand (500,000) BTU per hour;

**4.** Stationary internal combustion engines smaller than two hundred forty (240) cubic inches per cylinder;

**5.** Laboratory equipment used exclusively for chemical or physical analyses; and

**6.** Changes which do not increase or change the characteristics of the emissions.

**S. Opportunity for public review and comment.**

**1.** The permit application and Tulsa City-County Health Department review for sources with potential emissions greater than one hundred (100) tons per year or one thousand (1,000) pounds per day of any air contaminant must be available for review in a suitable public building in the geographical area affected by the proposed source, project or facility. The letter of intent of the Director to approve or disapprove the application shall accompany the review package.

**2.** The Director will advertise in a prominent local newspaper the availability and location of all items described above. The format of the announcement will be adequate to ensure that the public is aware that an air pollution source is to be constructed. The notice shall be published once per week for a five (5) week period. The cost of publication will be borne by the applicant.

**3.** The Director may cause a public hearing to be held if interested persons show all pertinent air pollution data were not considered or if an error can be shown in the application or agency review. Requests for public hearing must be made within seven (7) days of final publication.

## Section 713. Control of fugitive dust.

**A. Purpose.** It is the purpose of this regulation to control air pollution which results from fugitive dust in the City of Tulsa.

**B. Fugitive dust.** No person shall cause or permit the handling, transporting or disposition of any substance or material which is likely to be scattered by the air or wind, or is susceptible to being airborne or windborne or to operate or maintain or cause to be operated or maintained any premise, open area, right-of-way, storage pile of materials, vehicle or construction, alteration, demolition or wrecking operation or any other enterprise, which involves any material or substance likely to be scattered by the wind or air, or susceptible to being windborne or airborne that would be classified as air pollution without taking reasonable precautions or measures to minimize atmospheric pollution.

**C. Precautions.** The Director may require such reasonable precautions and shall include, where applicable, but shall not be limited to the following:

**1.** Use, where possible, of water or chemicals for control of dust in the demolition of existing buildings or structures, construction operations, the grading of roads, driveways and parking lots or the clearing of land;

**2.** Application and maintenance of asphalt, road oil, water or suitable chemicals on dirt roads, driveways and parking lots, materials stockpiles and other surfaces which can be the source of airborne dust;

**3.** Installation and use of hoods, fans and dust collectors to enclose and vent the handling of dusty materials or the use of water sprays or other acceptable measures to suppress the dust emission during handling; adequate containment methods shall be employed during sandblasting or other similar operations;

**4.** Covering, at all times, when in motion, open-bodied trucks transporting materials likely to become airborne;

**5.** The prompt removal of earth or other material from paved roads, driveways and parking lots on which earth or other material has been deposited by trucking, earth moving equipment or erosion by water; and

**6.** The planting and maintenance of vegetative ground cover.

**D. Damage to adjacent properties.** No person shall cause or permit the discharge of any visible fugitive dust emissions beyond the property line on which the emissions originate in such a manner as to damage or to interfere with the use of adjacent properties or the maintenance, or attainment of ambient air quality standards.

## Section 714. Control of emissions of organic material.

**A. Purpose.** It is the purpose of this regulation to control the emissions of organic vapors during the storage, transport or dispensing of organic materials.

**B. Storage of volatile organic compounds - four hundred (400)—forty thousand (40,000) gallons (nine and one-half (9.5)—nine hundred fifty-three (953) bbls).**

**1.** No person shall store or permit the storage of gasoline or other volatile organic compounds in any stationary storage container with a nominal capacity greater than four hundred (400) gallons (nine and one-half (9.5) bbls) and less than forty thousand (40,000) gallons (nine hundred fifty-two and four-tenths (952.4) bbls) unless such container is equipped with a submerged fill pipe or is bottom filled. No person shall store or permit the storage of gasoline or other volatile organic compounds in any stationary storage container with a nominal capacity greater than two thousand (2,000) gallons (forty-seven and one-half (47.5) bbls) and less than forty thousand (40,000) gallons (nine hundred fifty-two and four-tenths (952.4) bbls) unless such container is equipped with a vapor control system that has an efficiency of no less than ninety (90) percent by weight of the volatile organic compounds contained in the displaced vapors and is equipped with a pressure relief valve in the atmospheric vent system which maintains a pressure of sixteen (16) ounces per square inch and one-half (½) ounce per square inch vacuum.

**2.** The vapor recovery system shall include the following:

**a.** A vapor-light return line from the storage container to the delivery vessel and a system that will ensure that the vapor return line is connected before gasoline or volatile organic compounds can be transferred into the container (i.e., poppeted connectors from the storage container to the delivery vessel);

**b.** A float vent valve assembly must be installed in the vapor return/vent line on new and existing dual point installations; however, for coaxial installations on

existing stations, a vent sleeve extending six (6) inches below the top of the tank will be allowed; sleeves may be equipped with a one-sixteenth (1/16)-inch air bleed hole;

**c.** The cross sectional area of the vapor recovery line must be at least half of the cross sectional area of the liquid delivery line; and

**d.** Other equipment that has a total collection efficiency no less than ninety percent (90%) by weight of the total hydrocarbon compounds in the displaced vapor, provided that approval of the proposed design, installation and operation is obtained from the Director prior to start of construction.

**3.** Exemptions to this regulation may be granted, provided that the owner or operator shows to the satisfaction of the Director that the container is used exclusively for agricultural purposes or that the facility, based on the most current twelve (12) months' data, dispenses one hundred twenty thousand (120,000) gallons per year or less.

**4.** Compliance with this subsection must be accomplished by the affected owner or operator by October 1, 1987.

**C. Emission of gasoline vapors from gasoline transport vessels.**

**1.** The vapor-laden vessels shall meet the following requirements:

**a.** The transport vessel must be maintained so as to be vapor tight except during sampling, gauging or inspection; these activities shall not be done while loading or unloading; and

**b.** The transport vessel must be equipped, operated and maintained to receive vapors from the gasoline service stations and retain these vapors until they are delivered to an authorized vapor recovery or disposal system.

**2.** Compliance with this subsection must be accomplished by the affected owner or operator by October 1, 1987.

**D. Compliance for vapor tightness.**

**1.** Each gasoline transport vessels delivering or receiving gasoline in the City of Tulsa and Tulsa County must be tested one (1) time per year for vapor tightness. The test must be consistent with Appendix "A," EPA Guidelines Series Document, "Control of Volatile Organic Compound Leaks from Gasoline Tank Trucks and Vapor Collection Systems," EPA 450/2-78-051, or an equivalent method as determined by the Director.

**a.** Tests shall be performed by the owner or a reputable transport service company. Service companies methods and procedures must be certified by Tulsa City-County Health Department.

**b.** A tag showing the date of pressure test and date of certification must be posted on the rear panel of tank. These tags will be supplied by the Tulsa City-County Health Department.

**c.** Terminal owners or operators shall not knowingly allow the gasoline transport to be filled at the terminal if the certification tag is out of date or missing.

**2.** To ensure the integrity of the program outlined in C.1, the Tulsa City-County Health Department will conduct periodic vapor leak testing. This testing must be

consistent with Appendix "B," EPA Guidelines Series Document, "Control of Volatile Organic Compound Leaks from Gasoline Tank Trucks and Vapor Collection Systems," EPA 450/2-78-051.

**a.** Vessels with defective equipment such as boots, seals, hoses and leaky pressure or vacuum relief valves must be repaired within five (5) days.

**b.** Vessels which fail the vapor test by having leaks that exceed five thousand (5,000) ppm must be repaired within ten (10) days.

**c.** Repairs must be made by the owner or a supplier certified by Tulsa City-County Health Department.

**d.** Letters from the vessel owner certifying compliance, with proof of repair attached, must be sent to the Tulsa City-County Health Department within five (5) days.

**e.** Failure to comply with any provision of this subsection will subject the vessel to sanctions which may include removal from service.

**3.** Compliance with this subsection must be accomplished by the affected owner or operator by October 1, 1987.

**E. Loading.** All loading of the above organic material storage tanks shall be conducted by tight fill.

**F. Exemptions:**

**1.** Methane ($CH_4$).

**2.** Any organic material with a vapor pressure less than one and one-half (1.5) psia under actual storage temperatures and pressures.

**3.** Crude oil defined as follows: produced, non-refined hydrocarbon which has a gravity equal to or less than fifty (50) API gravity at sixty degrees (60°) Fahrenheit, as measured in the stock tank and when flashed to the atmospheric stock tank from the final release separator and/or treating facility, loses no more than one and one-half (1.5) percent of the stock tank volume or twenty-five (25) standard cubic feet per barrel of stock tank oil.

**4.** The storage and/or loading of organic materials used for agricultural purposes on farms or ranches.

*(Ord. No. 16838)*

## Section 715. Control of air pollution from sulfur compounds.

**A. Purpose.** It is the purpose of this regulation to control emission of sulfur compounds from stationary sources in the City of Tulsa and thereby to promote and protect the health and welfare of its residents.

**B. Limitation of ambient conditions.** No person shall cause, suffer, allow or permit the emission of sulfur compounds from any premise in such a manner and amounts that the concentrations attributable to such emissions exceed the following at any place beyond the boundary of the property on which the source is located:

$SO_2$

1350 ug/$m^3$ - Three-minute average

1200 ug/$m^3$ - One-hour average

650 ug/$m^3$ - Three-hour average

130 ug/$m^3$ (.05 ppm) Twenty-four-hour average

$H_2SO_4$ and/or $SO_3$ calculated as $H_2SO_4$ 10 ug/$m^3$ (2.45 x $10^{-3}$ ppm)

$H_2S$ 70 ug/$m^3$ (.05 ppm)

Determination of violations may be made either by ambient air monitoring at the property line on which the source is located or by atmospheric diffusion modeling. Testing procedures, diffusion models and equipment to determine whether or not emissions standards required by this subsection are met shall be approved by the Director.

**C. Emission limitation from point sources.** No person shall cause, suffer, allow or permit the discharge into the atmosphere of sulfur compounds from any stack, vent or other such exhaust system, in excess of the following:

**1. Existing installation:**

$SO_2$ 5.32 g/$m^3$ (2,000 ppm)

$H_2SO_4$ and/or $SO_3$ in any combination calculated as $H_2SO_4$

70 mg/$m^3$ (17 ppm) $H_2S$ 140 mg/$m^3$ (100 ppm)

**2. New installations:**

$SO_2$ 1.3 g/$m^3$ (500 ppm)

$H_2SO_4$ and/or $SO_3$ in any combination calculated as $H_2SO_4$ 50 mg/$m^3$ (12.3 ppm)

$H_2S$ 140 mg/$m^3$ (100 ppm)

Where:

g = grams

mg = milligrams

ug = micrograms

ppm = parts per million

Testing procedures and equipment to determine whether or not emissions standards required by this subsection are met shall be approved by the Director.

**D. Specific new source process weights limitations.** No person shall cause, suffer, allow or permit the emission of sulfur compounds into the atmosphere from the following specific new sources in excess of the amounts shown below.

**1. Sulfuric acid plants.**

**a.** $SO_2$ - Two (2) kgm per metric ton (four (4) pounds per ton) of $H_2SO_4$ produced, the total production being expressed as one hundred percent (100%) $H_2SO_4$.

**b.** $H_2SO_4$ - .075 kgm per metric ton (0.15 pounds per ton) of acid produced, the production being expressed as one hundred percent (100%) $H_2SO_4$.

**c.** Visible emission of ¼ Ringelmann (five percent (5%) opacity).

**2. Fuel burning equipment.**

**a.** $SO_x$ measured as $SO_2$ - .36 gm/106 calories (0.2 pounds/$10^6$ BTU), heat input derived from gaseous fossil fuel.

**b.** $SO_x$ measured as $SO_2$ - 1.4 gm/$10^6$ calories (0.8 pounds/$10^6$ BTU), heat input derived from liquid fossil fuel.

**c.** $SO_x$ measured as $SO_2$ - 2.2 gm/$10^6$ calories (1.2 pounds/$10^6$ BTU), heat input derived from solid fossil fuel.

**d.** Where different states of fuels are burned simultaneously, the following formula will apply:

$$[x(.36) + y(1.4) + z(2.2)] / (x + y + z) = \text{Total Heat Input}$$

Where "x" is the percent of total heat input derived from gaseous fuels, "y" is the percent of total heat input derived from liquid fuels; "z" is the percent of total heat input derived from solid fuels.

**3. Nonferrous smelters.** The emission of sulfur oxides, calculated as sulfur dioxide, from new nonferrous smelters is restricted according to the following equations as a maximum two-hour average:

**a.** Copper Smelters: $Y = 0.2X$

**b.** Zinc Smelters: $Y = 0.564X^{0.85}$

**c.** Lead Smelters: $Y = 0.98X^{0.77}$

Where X - Total sulfur fed to smelter (one (1) lb/hr)

Where Y - Sulfur dioxide emissions (one (1) lb/hr)

**4. Paper pulp mill.** The emission of sulfur oxides, calculated as sulfur dioxide, from the blow pits, washer vents, storage tanks, digester, relief and recovery furnace of any new paper pulp mill shall not exceed eighteen (18) pounds per air dried ton of pulp produced, maximum two-hour average.

**E. Hydrogen sulfide emission limit from new petroleum or natural gas processing equipment.** No person shall cause, suffer or allow the discharge into the atmosphere of hydrogen sulfide from any new petroleum or natural gas processing equipment without removal of the hydrogen sulfide from the exhaust gas or oxidizing it to sulfur dioxide in a system which ensures at all times complete combustion of the hydrogen sulfide with the exhaust gas then being emitted from a stack at least fifty (50) feet in height. Efficiency of these removal or oxidation systems shall not allow emission of more than three tenths (0.3) pounds per hour of hydrogen sulfide as a two-hour maximum, with a maximum efficiency required of ninety-five percent (95%) and a minimum efficiency required of ninety percent (90%) of the hydrogen sulfide in the exhaust gas.

**F. Applicability.** In any situation in which more than one (1) requirement of this regulation is applicable, the more restrictive provision shall govern.

*(Ord. No. 13740)*

## Section 716. Continuous monitoring of emissions, recording and reporting.

**A. Purpose.** It is the purpose of this regulation to provide for continuous monitoring of sources of air pollution, thereby maintaining a continuous record of pollutant emission.

**B. General provisions.** The Director may require the owner or operator of any air contaminant source to:

**1.** Install, use and maintain continuous monitoring equipment, in situ, the design, method and calibration of which the Director shall approve;

**2.** Sample and report emissions in accordance with methods which the Director shall prescribe;

**3.** Establish and maintain records of monitoring and data which shall be prepared and calculated daily, in units approved by the Director; and

**4.** Make records and data available to the Director at any reasonable time.

### Section 717. Sampling, testing and reporting.

**A.** The Director may conduct tests of emissions of air contaminants of any source. Upon request of the Department, the person responsible for the source to be tested shall provide necessary ports in stocks or ducts to provide compliance with procedures approved by the Director and such other safe and proper sampling and testing facilities including, but not limited to, scaffolding and access, but exclusive of instruments and sampling devices as may be necessary for proper determination of the emission of air contaminants.

**B.** The Director may require the owner or operator responsible for emissions of air contaminants to conduct tests of such emissions. Such tests shall be conducted, performed and reported in accordance with methods as the Director shall prescribe.

**1.** A pre-test plan shall be submitted to the Director of Health twenty (20) working days prior to the proposed test date. Written approval or disapproval of a pre-test plan shall be completed within not more than ten (10) working days after receipt of the plan.

**2.** The Director will furnish self-duplicating data sheets to the person responsible for performing each test. These data sheets must be completed during the sample and the duplicate copy given to the Director's on-site representative immediately upon completion of each test run.

### Section 718. Right of review and exceptions.

There is hereby created an Environmental Review Board ("Review Board") composed of five (5) members. One member shall be selected by the Environmental Advisory Council from its membership. Four (4) members shall be appointed by the Board. The Review Board shall select annually a Chairman from among its members. Meetings shall be called by the Chairman. Three (3) members shall constitute a quorum.

**A.** When, in the opinion of the Director, a violation of this Clean Air Code ("the Code") exists, he may by conference, conciliation and persuasion, endeavor to the fullest extent possible to eliminate such violation. In case of the failure by conference, conciliation and persuasion to correct or remedy any claimed violation, the Director may cause to have issued and served personally or by certified mail a written order upon the person complained against. The order shall specify the provisions of the Code alleged to constitute a violation thereof and shall order that the necessary corrective action be taken within a reasonable time to be prescribed in such order. Any such order shall become final and enforceable, unless the person or persons named therein request in writing a hearing before the Review Board no later than fifteen (15) days after the date such order is served. The notice of hearing shall be delivered in person or by certified mail to the alleged violator or violators not less than ten (10) days before the time set for hearing. Provided, however, that the aforementioned right of review shall not preclude the issuing of code citations or the filing of criminal charges.

**B.** The respondent to the order may file a written answer thereto and may appear at such hearing in person or by representative, with or without counsel, and may make oral

argument, offer testimony or cross examine witnesses in support of the complaint, or take any combination of such actions. In all proceedings before the Review Board, with respect to any alleged violation of the Code, the burden of proof shall be upon the Director.

**C.** The Review Board shall make such final determination as it shall deem appropriate under the circumstances and it shall request the Director of Health to issue a final order in accordance with its findings. The Director shall notify the respondent thereof in writing by certified mail.

**D.** The Review Board may appoint such hearing officers, review panels or technical advisers as it deems necessary to assist it in the hearings herein authorized; provided, however, that if a hearing officer or review panel is appointed to take testimony and evidence, a written transcript of the record shall be made and the hearing officer or review panel shall make written findings of fact, conclusions of law and recommended action to the Review Board. The review panel shall be confined to the factual record made at the hearing. The Review Board shall reverse or remand the order of the Director only if it finds that the order is not supported by reliable probative and substantial evidence in the whole record or that the order is legally incorrect. The final determination of the Board shall be in writing and shall contain findings of fact and conclusions of law.

**E.** Either party may appeal an adverse ruling by the Review Board to the City Council of the City of Tulsa by filing a written notice of appeal with the City Clerk within forty-eight (48) hours. Such appeal shall be heard by the City Council at the next available meeting following the filing of such appeal. Any appeal heard by the City Council shall be confined to the factual record made at the hearing of the Review Board or hearing officer.

## Section 719. Variances.

Any person seeking a variance from the Clean Air Code shall do so by filing a petition for variance with the Director of Health. The Director shall promptly investigate such petition and make a recommendation to the Review Board as to the disposition thereof. Upon receiving the recommendation of the Director, the Review Board shall set a date for public hearing thereon and shall prescribe the length and type of notice to be given by the petitioner. Such hearing shall be held as provided above, except the burden of proof shall be on the petitioner. The Review Board may grant individual variances beyond the limitations prescribed in this code.

## Section 720. Penalties.

Any person who violates any provision of the Clean Air Code or any final order issued by the Director of Health pursuant to the provisions of this code and fails to permanently cease such violation of such order within ten (10) days after receipt of notice from the Department of Health specifying such violation shall be deemed to be guilty of a misdemeanor and upon conviction thereof shall be punished by imprisonment in the City jail for not more than ninety (90) days and/or by a fine of not more than Three Hundred Dollars ($300.00), excluding costs. Each day of violation shall be considered a separate offense.

*(Ord. No. 13740)*

## Section 721. Limitations.

Nothing in this code shall be construed to:

**A.** Abridge, limit, impair, create, enlarge or otherwise affect substantially or procedurally the right of any person to damages or other relief on account of injury to persons or property and to maintain any action or other appropriate proceeding therefor;

**B.** Grant to the Board any jurisdiction or authority with respect to air contamination existing solely within commercial and industrial plants, works or shops;

**C.** Affect the relations between employers and employees with respect to or arising out of any condition or air contamination or air pollution; or

**D.** Supersede or limit the applicability of any law or ordinance relating to sanitation, industrial health or safety.

## CHAPTER 9. SEPTIC TANKS

Section 900. Definitions.
Section 901. License required.
Section 902. Permit required.
Section 903. Percolation test required.
Section 904. Permit and inspection fee.
Section 905. Collection and deposit of fees.
Section 906. Prohibited locations.
Section 907. Construction regulations.
Section 908. Hook-up to public sanitary sewer system required.

### Section 900. Definitions.

The following definitions shall apply in the interpretation and the enforcement of this chapter:

**A.** **Septic tank installer** means any person, firm or corporation which engages in the business of installing or repairing septic tank systems;

**B.** **Septic tank system** means all or any portion of any structure or system receiving waste products by pipe from any residence, business or industrial plant, other than those connected directly to an approved sanitary sewer; and

**C.** **Director** means the Director of the City-County Health Department or his authorized representative.

### Section 901. License required.

Any person who installs or repairs a septic tank system or systems shall obtain a license from the Director. A knowledge of plumbing shall not be required for a license but all such applicants shall show a knowledge of the construction, installation, operation and use of septic tank systems. Upon satisfactory proof of having the required knowledge in construction of septic tank systems, the Director shall, upon the payment of an annual fee of Fifty Dollars ($50.00), issue a license to install and repair septic tank systems; provided that such person shall first file a bond unto the City of Tulsa with the Director in the sum of Two Thousand Dollars ($2,000.00) with a surety company authorized to do business in the state of Oklahoma, as surety thereon to the effect and on the conditions that he, the principal, the surety or either of them shall pay damages to any person resulting from the faulty or improper construction of any septic tank system constructed or repaired by him and that he shall faithfully perform the duties relating to such trade and shall comply with all conditions of the Revised Ordinances of the City of Tulsa relating to the same. In addition to the bond hereinabove required, the applicant shall also deposit with the Director the sum of Two Hundred Dollars ($200.00) as a security deposit which will guarantee the payment of permit inspection fees. Such deposit shall be used to cover any delinquent or unpaid permit inspection fees and such may be deducted therefrom, as hereinafter provided. Violation of any of the provisions of this chapter or any condition of term of such license shall be deemed grounds for revocation or suspension of such license. A hearing regarding the suspension or revocation of such license shall be conducted by the Environmental Review Board as created in Section 718 of this title.

Prior to such action, the Director shall notify the license holder in writing, stating the reasons for which the license is subject to revocation and advising that the license shall be revoked or suspended at the end of five (5) days following the service of such notice, unless a written request for a hearing is filed with the Director, by the license holder, within such five (5) day period. The notice of hearing shall be delivered in person or by certified mail to the license holder not less than ten (10) days before the time set for hearing.

Notwithstanding the provisions contained herein, an owner may install a septic tank system on his own property, without a license, provided that he takes out the necessary permits and meets all other requirements as outlined in this chapter. Payment shall be made for the permit upon application.

**Section 902. Permit required.**

Before any person shall construct, repair or install any septic tank system within the corporate limits of the City of Tulsa wherever the plumbing system is connected directly or indirectly with the waterworks systems of the City of Tulsa, he shall obtain a permit therefor from the Tulsa City-County Health Department. The refusal, failure or neglect to obtain such a permit before commencing such construction, repair or installation shall be unlawful, and each day thereafter in which such work shall be unlawful and a separate offense.

It shall be unlawful for any owner or agent in charge of any premises in the City of Tulsa or any premises outside the City, wherever the plumbing system is connected directly or indirectly with the waterworks system of the City of Tulsa, to install or allow to be installed any septic tank system without meeting the requirements of this chapter for proper permit and inspection by the City-County Health Department.

**Section 903. Percolation test required.**

A percolation test shall be required to determine the acceptability of soil before any person shall construct or install any septic tank system within the corporate limits of the City of Tulsa. Such percolation test shall be conducted in accordance with ODH Bulletin No. 600 and shall be performed by the Tulsa City-County Health Department, or persons certified by the Oklahoma State Department of Health.

**Section 904. Permit and inspection fee.**

An inspection fee of Twenty-Five Dollars ($25.00) shall be paid to the Director of the Tulsa City-County Health Department upon the issuance of each permit to build, repair or install a septic tank system. Upon the payment of the inspection fee, it shall be the duty of the Director to inspect the plans of the proposed construction, the location and actual construction. Upon the completion of the work, the Director shall approve the septic tank system before any connection or use of the system is made. Any reinspection of a septic tank system shall be made only at an additional fee of Twenty-Five Dollars ($25.00) for each reinspection.

All permit and inspection fees herein enumerated shall be paid to the Director of the Tulsa City-County Health Department and shall be charged to the licensed septic tank system installer on a monthly basis; and they shall be billed by the Tulsa City-County Health Department on the first of each month for all permit and inspection fees assessed during

the preceding month. Such fees shall then be due and payable at once and if not paid in full by the 10th of the month in which billed, the total amount due and unpaid shall be deducted from the cash deposit of the licensed septic tank system installer in payment of such fees, at which time the issuance of permits to the particular licensed septic tank system installer shall be suspended until and unless the cash deposit is supplemented to bring it up to the required amount.

*(Ord. No. 15666)*

### Section 905. Collection and deposit of fees.

All fees collected by the Tulsa City-County Health Department under authority of these regulations shall be deposited with the County Treasurer of Tulsa County pursuant to 19 O.S.1991, § 681, and shall be transferred and added to the Health Department's appropriations pursuant to 63 O.S.Supp.1996, § 1-206.1.

**5.** The interior of the premises shall be configured in such a manner that there is an unobstructed view from a manager's station of every area of the interior of the premises to which a patron is permitted access for any purpose, excluding restrooms. **9.** It shall be the duty of the operator and it shall also be the duty of any agents and employees present to ensure that no viewing area is occupied by more than one (1) patron or customer at a time.

**10.** It shall be the duty of the operator and it shall also be the duty of any agents and employees present to ensure that no viewing area shall have any hole or opening into an adjacent viewing area.

**C.** A person having a duty under paragraphs 1 through 10 of Subsection A, above, commits an offense if he knowingly fails to fulfill that duty.

Section 1904. First response certificate issuance.
Section 1905. First response certificate renewal.

### Section 1900. Title.

This chapter may be cited as the "Intrusion Alarm Certification Ordinance."

*(Ord. Nos. 18188, 19721; Ord. No. 23129, § 1, 6-9-2014)*

### Section 1901. Purpose.

**A.** The purpose of this chapter is to encourage residential and commercial alarm users to assume increased responsibility for maintaining the mechanical reliability and the proper use of intrusion alarm systems, to prevent unnecessary police emergency response to false alarms and protect the emergency response capability of the City. A study of alarm responses for the City of Tulsa indicated that false alarms are caused almost exclusively by either human failure to use the system properly or mechanical failure resulting from malfunction or poor design. By coming to the understanding that, other than actual criminal activity, there is no valid reason for an alarm to activate, the police can better target responses to crime.

**B.** This chapter draws a distinction between police response to requests by individual persons and police response to requests made by mechanical devices. It is the policy of the City of Tulsa Police Department to respond to valid requests for service. Nothing in this chapter lessens or increases that responsibility. It is also understood that many requests for service to mechanical activations are not valid calls for service and the resident does not want the police to respond.

*(Ord. Nos. 18188, 19721; Ord. No. 23129, § 1, 6-9-2014)*

### Section 1902. Definitions.

Utility vehicles, if properly used, can be an effective way to travel for short distances within the City. ### Section 2500. Purpose.

The availability of small vehicles and new funding models have attracted numerous vendors to the shared active transportation business. While there are a number of benefits for communities in attracting small vehicles, some cities have experienced public safety challenges and concerns over clutter in the public right-of-way when small vehicles are placed on streets and sidewalks without the benefit of permits or agreements, or when small vehicles are abandoned outside of the service area. To mitigate these challenges, minimize risk and liability, and maximize the public benefits of shared active transportation, this ordinance creates a permit process which provides a clear path for shared active transportation companies and takes advantage of their expertise and motivation to implement this emerging mobility option.

**B.** Each permit shall be active for one (1) year from the date of issuance.

**C.** The initial permit fee, and subsequent permit renewal fees, shall be as provided in Title 49 of the Tulsa Revised Ordinances. The fee shall include the appropriate application fee, an inspection fee, and other fees as applicable.

The public property repair and maintenance fee shall pay the cost of installation, maintenance and repair of City's infrastructure related to or necessitated by the shared active transportation program.

**E.** All operators shall also pay the City a public infrastructure and education fee of Thirty Dollars ($30.00) per small vehicle, per year, calculated based upon the maximum fleet size requested and approved in the permit application. Should an increase in fleet size be approved in accordance with Section 2505 of this chapter, this fee amount shall also

be increased to reflect the new maximum fleet size. This fee is to provide funding for capital costs associated with the implementation of the City's bicycle and pedestrian master plan and for educating the public regarding related provisions of the Tulsa Revised Ordinances.

**F.** Shared active transportation programs that are:

**1.** Managed by free operators, or

**2.** Are incorporated as a nonprofit organization and receive public financial assistance,

**B.** Dockless small vehicle sharing systems may be located on public right-of-way or other public property so long as they do not obstruct or interfere with the public's use of said right-of-way or property. A user, having activated and used the small vehicle in accordance with the operator's rules, may leave the small vehicle at any designated lawful location, subject to Section 2506 of this ordinance, within the system's service area. In such instances, the City will attempt to notify the permitted operator as soon as reasonably practicable thereafter. The City will not be liable for any damages that occur as a result of this removal. The operator shall pay for the cost of such removal.

In order to increase the maximum number of small vehicles, an operator must demonstrate that, on average, each small vehicle in their fleet is being used more than three (3) times per day. Operators may request an increase to their fleet size above the maximum amount up to one time per month, provided that at least two (2) months have elapsed after their initial permit issuance. ## Section 403. Summary abatement.

If the City of Tulsa causes a building or structure to be boarded or secured in accordance with the procedures provided for in this title, and if the notice to abate as provided in Section 201 provides that any subsequent need for boarding or securing the building within a twenty-four (24) month period after the initial boarding of the building may be summarily boarded or secured by the City, and the costs of such summary boarding or securing shall be assessed against the owner, and that a lien may be imposed on the property to secure such payment, all without further prior notice to the property owner or mortgage holder, then any subsequent need for boarding or securing within said twenty-four (24) month period may be done summarily without any further prior notice to the property owner or mortgage holder. Any summary abatement within said twenty-four (24) month period by the City automatically extends the period for summary abatements as outlined herein by the City an additional twenty-four (24) months. At the time of each summary boarding or securing, the City shall notify the property owner and mortgage holder of the boarding or securing and the costs thereof. The notice shall state that the property owner or mortgage holder may file an appeal within ten (10) business days after the date said notice was mailed by filing a Notice of Appeal in writing with the Enforcement Official and with the City Clerk. The appeal shall be in accordance with the procedure outlined in Section 205 of this title. Unless otherwise determined on appeal, the costs of such abatement shall be determined and collected, together with all remedial civil penalties imposed, as provided in Section 209 of this title; provided, however, that this section shall not apply if the records of the County Clerk show that the property was transferred after notice was given pursuant to Section 201 herein.

*(Ord. Nos. 17942, 21596; Ord. No. 22271, § 4, 7-15-2010; Ord. No. 22995, § 11, 12-12-2013)*

## Section 404. Condemnation of dilapidated buildings.

**A.** A dilapidated building within the municipal limits of the City of Tulsa, Oklahoma may be torn down and/or removed in accordance with the following procedures:

**1.** At least ten (10) business days' notice shall be given to the owner of the property before a hearing shall be held by the City to determine if the property is dilapidated and has become detrimental to the health, safety or welfare of the general public and the community, or if the property creates a fire hazard which is dangerous to other property. A copy of the notice shall be posted on the property to be affected. In addition, a copy of the notice shall be sent by mail to the property owner at the address shown by the current year's tax rolls in the office of the County Treasurer. Written notice shall also be mailed to any mortgage holder as shown by the records in the office of the County Clerk to the last-known address of the mortgage holder. At the time of mailing of notice to any property owner or

mortgage holder, the Enforcement Official shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the addressee. However, if neither the property owner nor mortgage holder can be located, notice may be given by posting a copy of the notice on the property or by publication as defined in 11 O.S.1991, § 1-102, and any and all amendments thereto. The notice may be published once not less than ten (10) business days prior to any hearing or action by the City pursuant to the provisions of this chapter.

**2.** A hearing shall be held by a Hearing Officer to determine if the property is dilapidated and has become detrimental to the health, safety or welfare of the general public and the community, or if the property creates a fire hazard which is dangerous to other property. The Hearing Officer shall be appointed and designated, in writing, by the Mayor.

**3.** Pursuant to a finding that the condition of the property constitutes a detriment or a hazard and that the property would be benefited by the removal of such conditions, the Hearing Officer may cause the dilapidated building to be torn down and removed. The Hearing Officer shall fix reasonable dates for the commencement and completion of the work. The City Clerk shall immediately file a notice of dilapidation and lien with the County Clerk describing the property, the findings of the City (Hearing Officer) at the hearing, and stating that the City claims a lien on the property for the destruction and removal costs and that such costs are the personal obligation of the property owner from and after the date of the filing of the notice. The agents of the City are granted the right of entry on the property for the performance of the necessary duties as a governmental function of the municipality if the property owner does not perform the work within the dates fixed by the Hearing Officer.

**4.** The Enforcement Official shall determine the actual cost of the dismantling and removal of dilapidated buildings and any other expenses that may be necessary in conjunction with the dismantling and removal of the buildings, including the cost of notice and mailing. The City Clerk shall forward a statement of the actual cost attributable to the dismantling and removal of the building and a demand for payment of such costs, by mail to the property owner. In addition, a copy of the statement shall be mailed to any mortgage holder at the last-known address for the mortgagee. At the time of mailing of the statement of costs to any property owner or mortgage holder, the City shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the addressee. If the City dismantles or removes any dilapidated buildings, the cost to the property owner shall not exceed the actual cost of the labor, maintenance and equipment required for the dismantling and removal of the dilapidated buildings and the cost of notice and mailing. If dismantling and removal of the dilapidated buildings is done on a private contract basis, the contract shall be awarded to the lowest and best bidder.

**5.** When payment is made to the City for costs incurred, the City Clerk shall file a release of lien, but if payment attributable to the actual cost of dismantling and removal of the buildings is not made within six (6) months from the date of the mailing of the statement to the owner of such property, the City Clerk shall forward

a certified statement of the amount of the cost to the County Treasurer of the county in which the property is located. The costs shall be levied on the property and collected by the County Treasurer as are other taxes authorized by law. Until finally paid, the costs and the interest thereon shall be the personal obligation of the property owner from and after the date of the notice of dilapidation and lien is filed with the County Clerk. In addition the cost and the interest thereon shall be a lien against the property from the date the notice of the lien is filed with the county clerk. The lien shall continue until the cost is fully paid. The lien shall be coequal with the lien of *ad valorem* taxes and all other taxes and special assessments and shall be prior and superior to all other titles and liens against the property as provided for in 11 O.S.Supp.1998, § 22-112, and any and all amendments thereto.

**B.** Any property owner may take an appeal to the City Council where it is alleged there is error in any order, requirement, decision or determination by the Hearing Officer. Such appeal shall be taken by filing written notice of appeal with the City Clerk within ten (10) business days after the administrative order, requirement, decision or determination has been rendered. The Council shall hold a hearing and may reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from and may make such order, requirement, decision or determination as ought to be made. An appeal stays all proceedings in furtherance of the action appealed from.

**C.** The provisions of this section shall not apply to any property zoned and used for agricultural purposes.

# TITLE 24-A NEGLECTED VACANT BUILDINGS REGISTRY AND MAINTENANCE

**Chapter 2. Registration and Inspection of Neglected Vacant Building**

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. FINDINGS AND PURPOSE

Section 100. Findings and Purpose.
Section 101. Definitions.

### Section 100. Findings and Purpose.

It is the finding of the City of Tulsa that neglected vacant buildings and residential structures are unsightly, unsafe, and have a negative effect on the community. If left unoccupied and unmonitored, these buildings and residential structures will fall into a state of disrepair, become a haven for criminal activity, and create a blight on the area. The purpose of this title is to protect the health, safety, morals and welfare of the citizens of Tulsa by establishing a program for identifying and registering neglected vacant buildings and residential structures, to set forth the responsibilities of owners of such properties, and to speed the rehabilitation or demolition of neglected vacant buildings and residential structures.

*(Ord. No. 22269, § 1, 7-15-2010)*

### Section 101. Definitions.

### Section 200. Neglected vacant building and residential structure registration and plan.

**A.** The owner of a neglected vacant building or residential structure shall register with the Working in Neighborhoods/Neighborhood Inspector's Office no later than thirty (30) days after any building or residential structure becomes a "neglected vacant building/residential structure," as defined herein, or not later than thirty (30) days after the date of mailing by an Enforcement Officer of notice of the requirement to register. An Enforcement Officer may identify neglected vacant buildings or residential structures through his/her routine inspection process as well as through notification by residents, neighborhood associations, community groups, and others that a building or residential structure may be eligible for inclusion on the registry. Notice may be sent by first class mail to the owner at the address shown by the current year's tax rolls in the Tulsa County Treasurer's Office. At the time of mailing of the notice to the owner, the City shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the addressee. Notice will be deemed received by the owner or any other addressee, as the case may be, upon personal delivery or three (3) days after the date the notice is placed in United States mail with proper postage. The City of Tulsa may also post notices on the subject property. However, the City's failure to post notices will not constitute a defense to any enforcement proceeding or collection of fines.

**B.** If the owner fails to register the subject property within thirty (30) days following the date of mailing of the notice required in A above, the City may prepare and file in the office of the County Clerk of the county wherein the property is located a notice describing the property, the reason it is deemed a neglected vacant structure in accordance with this title and placing the owner and his or her successors on notice of the requirement to comply with this title.

**C.** The registration will be submitted on forms provided by the Working in Neighborhoods Department or Tulsa Fire Department's Fire Marshal's Office and will include the following information:

**1.** A description of the premises, i.e., square footage, number of stories, age of the building, and most recent use of the building or residential structure;

**4.** A name, address, and telephone number of an authorized, responsible natural person (not a corporation, partnership, or limited liability company) who is authorized to act for the owner and is a local resident who can be reached at all times during business and non-business hours in case of an emergency. The address must include a street address; a post office box is not acceptable;

**5.** A neglected vacant building or residential structure plan as described in Subsection 200.D hereof; and

**6.** Insurance verifications per Section 202 hereof.

The Working in Neighborhoods/Neighborhood Inspector's Office may consult with the Tulsa Fire Department/Fire Marshal's Office, and/or the Development Services Department, as the case may be, to determine the appropriate plan. The plan, at a minimum, must include one (1) of the following three (3) proposals for the property:

**1.** If the building or residential structure is to be demolished, a demolition plan indicating the proposed time frame for demolition;

**2.** If the building or residential structure is to remain unoccupied, a plan for the securing of the building in accordance with standards approved by the Working in Neighborhoods/Neighborhood Inspectors, along with the procedure that will be used to maintain the property as code compliant, and a statement of the reason(s) why the building or residential structure should be left unoccupied; or

**3.** If the building or residential structure is to be returned to appropriate occupancy or use, rehabilitation plans for the building or residential structure. The rehabilitation plans will not exceed three hundred sixty-five (365) days from the date of submission and will include progress benchmarks at least every four (4) months, unless the Working in Neighborhoods/Neighborhood Inspector's Office grants an extension. Any repairs, improvements, or alterations to the property must comply with any applicable zoning, housing, historic preservation, and all applicable building codes. The building must be secured in accordance with the requirements of this title during the rehabilitation.

**4.** Should the owner elect option 2 (structure to remain unoccupied) or 3 (structure to be rehabilitated) then, in addition to the written plan the owner must (1) submit the insurance as described in Section 202 hereafter or (2) deposit with the City to be held in escrow, an amount of cash sufficient to cover the costs of demolition of the subject structure in the event the owner fails to perform as promised in the plan.

**E.** If the plan is approved, a written Notice prepared by the City's Working in Neighborhoods Department will be recorded in the office of the Tulsa County Clerk containing information regarding the registration of the subject property pursuant to this title and the plan selected by the owners.

**F.** If the plan is approved, the owner will comply with all applicable laws and codes. The owner will notify the Working in Neighborhoods/Neighborhood Inspector's Office of any

changes in the plan at least thirty (30) days prior to the change. If the plan or timetable for the vacant building/residential structure is revised in any way, the revisions must be in writing and must meet the approval of the Enforcement Officer.

**G.** The owner and any subsequent owner will keep the building secured and safe and the building and grounds properly maintained as provided hereafter.

**H.** Failure of the owner or any subsequent owner to maintain the building or residential structure and premises as required herein will be grounds for the City to do any or all of the following:

**1.** Cause the building or residential structure to comply with this title and bill the costs of same to the owner as provided hereafter in Section 203, Maintenance of Property;

**2.** Revoke the rehabilitation plans; and

**3.** Subject the owner to fees and penalties as provided herein.

The Mayor, based on appropriate documentation indicating a scheduling necessity or cost reduction as a result of an exception, can authorize exceptions to any written policy or procedure.

## CHAPTER 12-A. STREET PERFORMERS

Section 100. Purpose.
Section 200. Definitions.
Section 300. Rules and regulations.
Section 400. Exclusion of public areas.
Section 500. Penalty.

### Section 100. Purpose.

Street performers provide a public amenity that enhances the character of the City. The City seeks to encourage such performances in a manner consistent with the overall public interest. The City also recognizes that street performers seek to and do draw crowds to their performances. This can create serious safety problems by impacting the ability of pedestrians to move safely on sidewalks and through crosswalks by impeding the response time of safety personnel. It can also impact access to and egress from businesses. Cognizant that street performers are engaged in First Amendment activities, this chapter imposes reasonable time, place and manner restrictions on street performers to the extent necessary to ensure the safety of performers, their audiences and the general public and to prevent unreasonable interference with residents' enjoyment of peace and quiet in their homes or the ability of businesses to conduct business.

## CHAPTER 1. INTRODUCTION AND DEFINITIONS

Section 100. Introduction.
Section 101. Definitions.
Section 102. Construction.

### Section 100. Introduction.

The City of Tulsa, Oklahoma, a municipal corporation, pursuant to Oklahoma statutory enabling legislation then codified as 11 O.S.Supp.1957, §§ 1531, *et seq.,* and now codified as 11 O.S.1991, §§ 48-101, *et seq.*, as amended, adopted an ordinance to provide a pension and retirement system for eligible employees of the City and related governmental entities effective May 1, 1960, which has been amended from time to time. This title shall be operative retroactive to January 1, 1989, except as may thereafter be amended, and shall be named "The Municipal Employees' Retirement Plan."

All rights and benefits of an employee whose Termination of Employment, as herein defined, occurred prior to January 1, 1989, shall be determined solely by the provisions in effect at the time of that Termination of Employment, including the benefit rate in effect at the time of such Termination of Employment, unless otherwise specifically provided herein.

*(Ord. No. 17300)*

### Section 101. Definitions.

For the purpose of this title, the following words and phrases shall have the meanings stated in this section:

**A. Actuarial accrued liability.** The portion of the present value of fully projected benefits accrued as of the valuation date.

**B. Actuarial equivalent.** The benefit of equivalent value, computed on the basis of an appropriate Mortality Table as approved by the Board of Trustees. The mortality table used for purposes of adjusting any benefit or limitation under Subsection 415(b)(2)(B), (C) or (D) of the Internal Revenue Code of 1986, as amended, is the table prescribed in Rev. Rul. 2001-62.

**C. Actuarially Determined Employer Contribution (ADEC).** The Employers periodic required contribution, expressed as a percentage of earnings of all participating employees, as determined by adding the normal cost to the amortization of the unfunded actuarial accrued liability, and as reported in the annual actuarial examination required by Section 1005 hereof.

**D. Actuary.** An independent, qualified actuary selected by the Board of Trustees.

**E. Basic employee contributions.** The mandatory contributions described in Section 301 hereof.

**F. Board of Trustees.** The Board of Trustees of The Municipal Employees' Retirement Plan provided for in Section 1000 hereof.

**G. Closed amortization schedule.** Beginning January 1, 2016, the Employer's total unfunded actuarial accrued liability will be amortized as a level percent of the total earnings of Employees in the Plan, over a closed period of thirty (30) years. At the beginning of each plan year thereafter, the amortization schedule will decrease by one year, so that the projected unfunded actuarial accrued liability for December 31, 2046,

will be no greater than zero dollars. The closed amortization schedule will continue beyond December 31, 2046 so long as the Plan has an actuarial accrued liability greater than zero dollars.

**H. Continuous employment.** A period or periods of employment by an Employee while making Basic Employee Contributions to the Plan, plus periods of employment by an Employee during which the Employee is not allowed to make Basic Employee Contributions to the Plan because the Employee does not satisfy the Plan's minimum service requirements or (prior to September 1, 1990) the Plan's minimum age requirements.

**I. Credited interest.**

1. **Basic employee contributions.** Credited interest on Basic Employee Contributions shall mean interest at an annual percentage rate of three and one-half percent (3.5%) for the period May 1, 1960, through December 31, 1972; four percent (4%) for the period January 1, 1973, through December 31, 1974; and five percent (5%) for periods on and after January 1, 1975, or such other rate as may be established from time to time by the Board of Trustees.
2. **Reserved.**
3. **Computation of interest.** Computation of credited interest for any given year shall be based on the total amount of each Participant's Basic Employee Contributions and previously credited interest, if any, on deposit in the fund immediately before the first day of the preceding calendar year. Such credited interest shall be computed monthly and credited annually. The credited interest shall be applied as that prior year's interest, except that in the event of a Participant's termination of employment or death on any day other than December 31st, credited interest shall be computed to include only credit for all full months Participant's funds were on deposit with the Plan.

**J. Credited service.** A period which is included in the calculation of the amount of a Participant's retirement income. A Participant's credited service shall be determined in accordance with Chapter 5 herein.

**K. Earnings.** The monthly base earnings payable to a Participant by the Employer, excluding payments for overtime, reimbursement for travel or other expenses, service pay or other special payments. On and after January 1, 1989, such Earnings shall include any amounts defined as Basic Employee Contributions. Earnings shall also include amounts which would be payable as base earnings but for election by the Participant to defer such earnings under a plan deemed to be a qualified plan described in Sections 125, 401, 403 or 457 of the Internal Revenue Code of 1986, as amended. Effective January 1, 1989, earnings for any plan year will be limited to the first Two Hundred Thousand Dollars ($200,000.00) of Earnings (or such other amount determined in accordance with Code Section 415(d)). Effective January 1996, for each Participant who first becomes a Participant in the Plan after 1995 earnings for any plan year will be limited to the first One Hundred Fifty Thousand Dollars ($150,000.00) of earnings (or such other amount determined in accordance with Code Section 401(a)(17)). For purposes of calculating Earnings received on or after January 1, 2002, the limitation under Section 401(a)(17) of the Code is increased to Two Hundred Thousand Dollars ($200,000.00), as adjusted.

**L. Employee.** A permanent and full time, classified or unclassified employee of the Employer. Employees shall be considered full time if their positions are typically scheduled for a normal work week of forty (40) hours or more. However, employees who were participating in the Plan and required to work less than forty (40) hours per week on January 1, 1974, shall be eligible to continue such participation in the Plan so long as they are otherwise eligible.

**M. Employer.** The City of Tulsa, Oklahoma; the Indian Nations Council of Governments; the City of Tulsa-Rogers County Port Authority; the Tulsa Airport Improvement Trust; the Tulsa City-County Library; the Metropolitan Tulsa Transit Authority; the Tulsa River Parks Authority; and the Tulsa Authority for Economic Opportunity.

**N. Final average earnings.**

**1.** General: Final Average Earnings are the average monthly earnings of a Participant during the thirty (30) months, whether consecutive or not, in which Participant's aggregate earnings shall have been highest, selected from the last sixty (60) months prior to the Participant's Termination of Employment. This calculation excludes any period of employment during which an Employee has no earnings payable, and excludes months where an Employee has less than seventy-five percent (75%) of the normal hours worked. When the last sixty (60) months prior to Termination of Employment contain any excluded months as described in the preceding sentence, the sixty (60) month period is not extended to include additional months immediately preceding the sixty (60) month period. Instead, the highest thirty (30) months used in the average are taken from such period which has fewer than sixty (60) months.

**2.** If the Participant has fewer than thirty (30) months of earnings during such sixty (60)-month period, the thirty (30)-month average shall be taken over such fewer months of Earnings during such sixty (60)-month period, excluding any months during which no Earnings were paid to the Participant.

**3.** If the Participant shall have been employed for fewer than thirty (30) complete months, all of the complete months during the total period of employment shall be used for the purpose of determining final average earnings. For purposes of this section, a 'complete month' is defined as 75 percent (75%) or more of the workdays in the given month.

**4.** For purposes of computing final average earnings of a Participant who retires after July 1, 2002, and whose earnings were reduced by the fiscal year 2002-2003 temporary, general wage rollback of approximately two and seven-tenths percent (2.7%), the Participants earnings for the month of June 2002 shall be the Participant's earnings during months within fiscal year 2002-2003 for which the Participants earnings were so reduced, unless the Participant has attained higher earnings, in which event, the higher monthly earnings shall be used.

**O. Funded ratio.** The ratio of the Plan's current assets to the present value of earned benefits, as determined by the Plan's actuary, by any method acceptable to the Governmental Accounting Standards Board (GASB).

**P. Legislative body.** The governing body of the City of Tulsa, Tulsa, Oklahoma, a municipal corporation, as established by the currently existing or any subsequently amended Charter of the City of Tulsa, Oklahoma.

**Q Long-term disability.** Disability of a Participant which results in such Participant's becoming qualified for and receiving long-term disability benefits under the terms of an insurance program, then available through the Employer to its Employees, or which disability results in such Participant's receiving disability benefits under the provisions of the Social Security Act.

**R. Normal cost.** The portion of the cost of projected benefits allocated to the current plan year. The normal cost for which the Employer is responsible equals the total normal cost for the Plan reduced by Employee Contributions.

**S. Normal retirement date.** The first day of the month after a person reaches sixty-five (65) years of age or on the sixty-fifth birthday, if that is the first day of the month.

**T. Reserved**

**U. Participant.** An Employee who has met all the requirements for eligibility to participate in the Plan, has become included in the Plan, as provided in Chapter 2 herein, and who continues to have rights or contingent rights to benefits payable under the Plan.

**V. Plan.** The Municipal Employees' Retirement Plan as established by the provisions of this title.

**W. Plan improvement.** Any change made to the Plan which results in a richer benefit to Participants.

**Z. Retirement fund or fund.** The Employee Retirement Fund described in Section 1100 hereof held in trust and established to provide the benefits and administrative costs required by the Plan.

**AA. Staff Member.** The City personnel who assist the Board of Trustees in carrying out the duties and responsibilities of the Municipal Employees' Retirement Plan.

**BB. Termination of employment.** The retirement, resignation or other voluntary or involuntary cessation of an Employee's employment with the Employer.

**CC. Unfunded actuarial accrued liability.** The excess, if any of the actuarial accrued liability over the actuarial value of assets.

Whenever herein used, the masculine gender shall include the feminine gender and, if applicable, the singular shall include the plural. The words "hereof," "herein," "hereunder" or any other compounding of the word "here" shall mean and refer to the entire Plan rather than to any particular provision or section of this title, unless specifically delineated as such.

Section 301. Contributions by Participants.
Section 302. Mandatory duty of Secretary of Council.

**A. No amendment or repeal.** The Employer funding requirements set forth in this Section shall remain in force unless and until the requirements set forth in Section 302 for amendment or repeal are met.

**B. Plan years prior to January 1, 2016.**

**1.** For Plan Years prior to January 1, 2016, the Employer shall make contributions to the Fund in such amounts and at such times as shall be necessary to provide the benefits set forth herein and in accordance with the provisions of any law applicable to the Plan.

**2.** Subject to the provisions of Section 302 hereof, all contributions made by the Employer to the Fund shall be irrevocable and shall be used solely for the exclusive benefit of Participants and their beneficiaries and to defray reasonable expenses of the Plan or Fund. Forfeitures arising because of death or Termination of Employment before a Participant becomes eligible for a benefit from the Plan or arising for any other reason shall be applied to reduce the cost of the Plan, not to increase the benefits otherwise payable to Participants. Employer contributions shall be deposited in the Fund no later than five (5) calendar days following each payday, and in such amounts as the Board of Trustees in conjunction with the annual actuarial examination shall determine necessary to keep the Fund actuarially sound, subject to the appropriation of funds by the Employer.

**C. Plan years beginning January 1, 2016.**

**1.** For all Plan Years beginning with the Plan Year beginning January 1, 2016, the Employer shall make contributions to the Fund in amounts not less than eleven and one-half percent (11.5%) of the total Earnings of its Participants in the Plan, or in the amount of the Actuarially Determined Employer Contribution for that Plan Year, whichever is greater and in accordance with the provisions of any law applicable to the Plan.

**2.** If the Funded Ratio, as determined in the annual actuarial study required by Section 1005 herein, equals or exceeds one hundred twenty percent (120%), then the Employer is eligible to reduce the Employer contribution below the amount required by this paragraph for the next Plan Year. In the event that the Employer contribution is so reduced, the Employer must continue to make contributions that are equal to or greater than the Normal Cost, plus any remaining obligations under the Closed Amortization Schedule. In no event will the Employer contribution decrease by more than one percent (1.00%) between a Plan Year and the immediately subsequent Plan Year.

---

***Editor's note—**Ord. No. 24476, § 1, adopted November 4, 2020, repealed the former Ch. 3, §§ 300—302, and enacted a new Ch. 3 as set out herein. The former Ch. 3 pertained to similar subject matter and derived from Ord. Nos. 17199, 20812; Ord. No. 22425, § 1, 4-28-2011, eff. 10-1-2011; Ord. No. 23058, § 1, 2-13-2014; Ord. No. 23382, § 2, 10-1-15.

**3.** If the annual actuarial study shall at any time result in a finding that the Funded Ratio is less than one hundred and twenty percent (120%), the Employer shall resume making the minimum Employer contribution required by this paragraph no later than the next Plan Year after such finding.

**4.** Subject to the provisions of Section 302 hereof, all contributions made by the Employer to the Fund shall be irrevocable and shall be used solely for the exclusive benefit of Participants and their beneficiaries and to defray reasonable expenses of the Plan or Fund. Forfeitures arising because of death or Termination of Employment before a Participant becomes eligible for a benefit from the Plan or arising for any other reason shall be applied to reduce the cost of the Plan, not to increase the benefits otherwise payable to Participants. Employer contributions shall be deposited in the Fund no later than five (5) calendar days following each pay day, in such amounts as are described herein.

**D. Plan years beginning January 1, 2025.**

**1.** For all Plan Years beginning with January 1, 2025, the Employer shall make contributions to the Fund in amounts not less than seventeen percent (17%) of the total Earnings of its Participants in the Plan, or in the amount of the Actuarially Determined Employer Contribution for that Plan Year, whichever is greater and in accordance with the provisions of any law applicable to the Plan. In determining the Actuarially Determined Employer Contribution, both Employer and Basic Employee Contributions will be taken into account.

**2.** Once the Funded Ratio, as determined in the annual actuarial study required by Section 1005 herein, equals or exceeds one hundred percent (100%), the Employer is eligible to reduce the Employer contribution below the amount required by paragraph D.1. for the next Plan Year. However, in the event of a reduction, the Employer must continue to contribute an amount equal to or greater than the Normal Cost, plus any remaining obligations under the Closed Amortization Schedule.

**3.** In a Plan Year following a Plan Year in which the funded ratio was at least one hundred percent (100%), if the annual actuarial study determines that the funded ratio falls below one hundred percent (100%), the Employer shall resume making the Employer contribution required by paragraph D.1. no later than the next Plan Year following such a finding, except that the Employer contribution shall not increase more than two percent (2%) each year.

**4.** In no event shall the Employer's contribution decrease by more than one percent (1%) between a Plan Year and the immediately subsequent Plan Year.

**5.** Subject to the provisions of Section 302 hereof, all contributions made by the Employer to the Fund shall be irrevocable and shall be used solely for the exclusive benefit of Participants and their beneficiaries and to defray reasonable expenses of the Plan or Fund. Forfeitures arising because of death or Termination of Employment before a Participant becomes eligible for a benefit from the Plan or arising for any other reason shall be applied to reduce the cost of the Plan, not to increase the benefits otherwise payable to Participants. Employer contributions shall be deposited in the Fund no later than five (5) calendar days following each pay day, in such amounts as are described herein.

**B. Basic employee contributions.** Each Participant shall be required to contribute toward the cost of the Plan an amount equal to two percent (2%) of Earnings. This contribution rate shall increase to the percentages as follows:

| Effective Date | Amount of Contribution |
|---|---|
| 8/1/89 | 3.00% of Earnings |
| 7/1/90 | 4.00% of Earnings |
| 7/1/11 | 5.00% of Earnings |
| 7/1/12 | 6.00% of Earnings |
| 7/1/14 | 6.50% of Earnings |
| 1/3/21 | 7.5% of Earnings |
| 9/25/22 | 8.00% of Earnings |

The Participant's first contribution, following their entry date into the Plan as determined by Chapter 2, Section 200, will be calculated based on Earnings for the entire payroll period during which their entry date falls. Contributions shall be made by each Participant on each payroll date to the Retirement Fund and shall be designated as Employer contributions pursuant to Section 414(h)(2) of the Internal Revenue Code of 1986. Such designation is contingent upon the contributions being excluded from the Participant's gross income for federal income tax purposes. For all other purposes of the Plan, such contributions shall be considered to be employee contributions. Credited Interest shall be earned on Basic Employee Contributions.

**B. Layoffs.** Credited Service shall be preserved during layoffs authorized by the Employer, unless the Participant elects to withdraw contributions as described in Sections 402 or 706 hereof. Time while on such leave or while so laid off shall not be deemed to be Credited Service for the purposes of the Plan if thirty (30) days or more in duration but temporary absence for which pay is received during a Leave of Absence or Layoff of less than thirty (30) days shall be counted, as Credited Service.

**C. Military Service.** Effective on and after December 12, 1994, notwithstanding any provision of this Plan to the contrary, contributions, benefits and service credit with respect to qualified military service will be provided in accordance with Section 414(u) of the Internal Revenue Code of 1986, as amended. A Participant who returns to employment with the Employer from qualified military service during the period within which reemployment rights are guaranteed by law will receive service credit with respect to the Participant's period of qualified military service (within the

meaning of Section 414(u)(1) of the Internal Revenue Code) in accordance with Section 414(u) of the Internal Revenue Code and applicable regulations, and as described in Subsections 1, 2 and 3 below.

2. **Crediting Military Service for All Purposes Other than Vesting.** For purposes other than vesting as described in Subsection 504.C.1 above, a Participant's qualified military service counts only to the extent the Participant elects to make contributions to the Fund for all or part of the period of qualified military service, as described in Subsection 504.C.3 below.
3. **Contributions for Periods of Qualified Military Service.** This Subsection 504.C.3 applies to a Participant who returns to employment with the Employer from qualified military service during the period within which reemployment rights are guaranteed by law. The Participant may elect to contribute to the Fund all or a part of the contributions the Participant would have made according to Section 301.A if the Participant had remained continuously employed by the Employer throughout the period of the Participant's qualified military service. The amount of contributions the Participant may make according to this Subsection 504.C.3 shall be determined on the basis of the Participant's Earnings in effect immediately before the qualified military service and the terms of the Plan at that time. A Participant may make such contributions during a period beginning on the Participant's reemployment with the Employer and lasting for the shorter of five (5) years or three (3) times the Participant's period of qualified military service. To the extent the Participant makes contributions permitted by this Subsection, the Participant will receive Credited Service described in Chapter 5 for the period of qualified military service to which the contributions relate.
4. **Survivor Benefits for Deaths During Military Service.** Effective January 1, 2007, if a Participant dies while performing qualified military service (within the meaning of Section 414(u)(1) of the Internal Revenue Code), the Participant shall be treated as having a Termination of Employment with the Employer due to his death for purposes of any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan.

**D. Long-Term Disability.**

1. A Participant who has a Leave of Absence or Termination of Employment due to disability, regardless of when the disability is determined to be a Long-Term Disability, will cease accrual of Credited Service at the end of the month in which the Participant ceased receiving Earnings, except as otherwise provided in Subsection 504.D.2 below.
2. The following rules shall apply to a Participant who, before January 1, 2017 has a Leave of Absence or Termination of Employment due to a disability that is subsequently determined to be a Long-Term Disability and who has five (5) or more years of Continuous Employment at the time of such Leave of Absence or Termination of Employment:
   a. The Participant shall continue to accrue Credited Service during such disability retroactively to the last day the Participant received Earnings.

**b.** If the Participant later becomes fifty-five (55) years of age while still receiving benefits for Long-Term Disability or during the period pending approval of benefits for Long-Term Disability after proper application thereof, the Participant may become eligible for the special joint and survivor's income option as defined in paragraph 701.A.3 hereof upon proper application.

**c.** If the Participant dies during a period of Long-Term Disability or, if fifty-five (55) years of age or older, dies after having made proper application for Long-Term Disability benefits but prior to approval of such benefits, such Participant shall, for the purposes of computing any survivor's benefits in this title (including the Automatic Spouse's Death Benefit in Section 801 hereof), receive Credited Service for all time spent on such Long-Term Disability up to the first day of the month in which the Participant died, if the Board of Trustees determines the applicant would have been determined eligible for Long-Term Disability.

**d.** The Participant shall receive Credited Service toward calculation of benefits for all time spent on such Long-Term Disability if the Participant:

(1) Subsequently recovers from a Long-Term Disability or ceases to be eligible for benefits for Long-Term Disability and does not return to active employment for the Employer within thirty (30) days immediately following such cessation of benefits, or

(2) Attains fifty-five (55) years of age while on Long-Term Disability and elects to take early retirement while still on Long-Term Disability or within the thirty (30) days immediately following a cessation of benefits for Long-Term Disability.

**E. Reemployment after Termination.**

**1.** A Participant who experiences a Termination of Employment, receives a refund of their Basic Employee Contributions in accordance with Section 402 or Section 706 and who subsequently returns to employment shall be eligible to repurchase the Credited Service and Continuous Employment from that Participant's initial term of employment. If an Employee is a Participant on July 1, 1995, that Participant must make the repurchase prior to July 1, 1996. Otherwise, such a purchase must be made within twelve months of the Employee's resumption of Basic Employee Contributions to the Plan. The Employee may not repurchase portions of the Credited Service and Continuous Employment; it must be repurchased in its entirety. The repurchase is made pursuant to actuarial determinations based on the age of the Employee and the period of Credited Service subject to repurchase. Credited Service and Continuous Employment can only be reactivated pursuant to this provision.

**2.** A Participant who has terminated employment after becoming vested as described in Section 401 hereof and who has not withdrawn his Employee Contributions and who subsequently returns to employment will resume accrual of Credited Service upon his resumption of contributions to the Plan.

**3.** A Participant whose Employment began prior to July 1, 2018, and who has terminated Employment after becoming vested as described in Section 401 hereof, and who has not withdrawn his Employee contributions, and who returns to

Employment within one (1) year of such termination, will resume accrual of Credited Service upon his resumption of contributions to the Plan, and will remain eligible for the benefits set forth in this title for Participants whose Employment began prior to July 1, 2018.

**B. Application.** The increases are granted to each retired Participant or beneficiary of a Participant then receiving an income from the Fund and the resulting increased retirement income shall be paid monthly from the Fund. Provided, however:

**1.** That the increase effective January 1, 2006, is granted only to retired Participants with a retirement date prior to January 1, 2005, or to the beneficiaries of such retired Participants; and

### Section 606. Forfeiture of benefits.

**A.** Pursuant to the provisions of 11 O.S. Supp. 2012, § 1-110, as amended, a Participant, upon final conviction of, or pleading guilty or nolo contendere to, a felony for bribery, corruption, forgery or perjury or any other crime related to the duties of his or her employment in a state or federal court of competent jurisdiction shall forfeit the benefits provided by the Plan. The forfeiture of retirement benefits shall not occur if any such Participant received a deferred sentence, but retirement benefits shall not commence prior to completion of the deferred sentence. The forfeiture of retirement benefits required by this section shall not include the Participant's contributions to the Plan or Plan benefits that were vested as of August 26, 2011, the effective date of 11 O.S. Supp. 2012, § 1-110.

**B.** The forfeiture of Plan benefits as provided by Subsection A of this section shall also apply to any such Participant who, after leaving his or her employment, is convicted of, or pleads guilty or nolo contendere to, in a state or federal court of competent jurisdiction, a felony committed during such employment, where the felony is for bribery, corruption, forgery or perjury or any other crime related to the duties of his or her employment.

**C.** The forfeiture shall continue until such time as the conviction or guilty plea is reversed by the highest appellate court to which the Participant may appeal.

**D.** Upon receipt of the notice of forfeiture prescribed by 11 O.S. Supp. 2012, § 1-111, as amended, the Plan shall immediately suspend all benefits of the Participant, and shall notify the officer or employee of his or her right to a hearing to review whether the conviction or plea qualifies for forfeiture of benefits under this section. If the conviction or plea occurs in federal court or the notice of forfeiture is not forthcoming from the state prosecutor, the Plan may investigate and gather court documents and contact prosecutors to determine whether the conviction or plea qualifies under this section. Upon obtaining sufficient documentation of the conviction or plea, the Plan shall immediately suspend all benefits of the Participant, and notify the Participant of his or her right to a hearing to review whether the conviction or plea qualifies for forfeiture of benefits under this section.

**E.** All such hearings will be conducted according to the rules and regulations adopted by the Board of Trustees pursuant to its authority under Section 1001 hereof.

### Section 700. Normal forms of retirement income.

**A. Joint and Survivor Form for Married Participants.** Subject to Section 708, the normal form of retirement income payable under the Plan to a Participant who is married at the time payments commence shall be a joint and survivor income which shall be the Actuarial Equivalent of the Participant's benefit calculated as a life annuity form of payment. The joint and survivor income shall be payable monthly for the Participant's life and shall continue after the Participant's death at one-half (½) the Participant's then current monthly rate, payable to the surviving spouse, subject to the death benefits payable according to Chapter 8 hereof.

**B. Life Annuity Form for Unmarried Participants.** Subject to Section 708, the normal form of retirement income payable under the Plan to a Participant who is not married at the time payments commence shall be a life annuity, payable monthly for the Participant's life, subject to the death benefits payable according to Chapter 8 hereof.

*(Ord. No. 17981; Ord. No. 25547, § 15, 3-26-2025)*

### Section 701. Optional forms of retirement income.

Subject to Section 708, in lieu of the normal form of retirement income payable to a Participant under the terms of the Plan, such Participant may elect to receive a retirement income of Actuarial Equivalent in any one (1) of the following forms:

**A. Joint and Survivor Income Options.**

**1. Regular Form.** The regular form of a joint and survivor income option shall be a regular joint and survivor income to continue during the lifetime of the retired Participant and further to continue after the retired Participant's death at three-fourths (¾), two-thirds (⅔) or one-half (½) rate, according to the election of the Participant to a surviving spouse or other designated contingent annuitant during the lifetime of such annuitant. The Normal Retirement Income of a Participant who elects the regular joint and survivor income option shall be an Actuarial Equivalent to the life annuity form of payment.

**2. Regular Form with Pop-Up.** The regular form of a joint and survivor with pop-up income option shall be available only where the contingent annuitant is the

spouse of the Participant. The regular form of a joint and survivor with pop-up income option shall be the regular joint and survivor income described in the previous paragraph, provided further that if the spouse dies on or after the date that the joint and survivor income benefit has commenced and before the death of the Participant, the Participant's benefit shall convert to a life annuity benefit following the death of the spouse. Such conversion shall be effective on the first day of the month following the spouse's death. The regular form of a joint and survivor with pop-up income shall be available for election by the Participant regardless of whether the Participant elects the three-fourths (¾), two-thirds (⅔) or one-half (½) rate. The Normal Retirement Income of a Participant who elects the regular joint and survivor with pop-up income option shall be an Actuarial Equivalent to the life annuity form of payment.

3. **Special Form.** A special form of a joint and survivor income option shall be a special joint and survivor income formally elected in writing by a Participant on or after the Participant has acquired a vested interest, as provided in Sections 400 or 401 hereof, naming the Participant's spouse as contingent annuitant, to be paid at three-fourths (¾) or two-thirds (⅔) rate, according to the election of the Participant, to the Participant's surviving spouse in the event Participant dies after having attained fifty-five (55) years of age (if the Participant's Employment began before July 1, 2018) or sixty (60) years of age (if the Participant's Employment started on or after July 1, 2018) but prior to start of retirement income payments from the Plan. The benefits resulting from this election are in lieu of the automatic spouse benefit described in Section 801 hereof and are as described below. This benefit shall be effective on the first day of the month following the Participant's death.

   **a.** The surviving spouse of a Participant who has elected this special option and dies while it is in effect shall receive three-fourths (¾) or two-thirds (⅔) of the monthly benefit that would have been paid to the Participant in the form of a life annuity starting the first of the month in which the Participant died. This amount shall be reduced by seventy-five hundredths of one percent (.75%) for each full year in excess of five (5) years by which the age of the spouse is less than the age of the deceased Participant.

   **b.** If the Participant lives to receive retirement income payments from the Plan, the life annuity form of such payments shall be reduced as follows:

| Reduced Income to be Paid to Surviving Spouse Under Option Elected | Percentage Reduction in Retirement Income for Each Full Twelve-Month Period the Election was in Effect |
|---|---|
| ⅔ | .32% |
| ¾ | .48% |

   **c.** The election of this special joint and survivor income shall also be considered an election of a regular joint and survivor's income in the event the Participant survives until actual retirement, unless specifically revoked by the Participant prior to death or start of retirement income payments, in accordance with the provisions of Section 703 hereof.

**B. Reserved.**

**C. Partial Lump Sum Payment.**

1. **Eligibility.** A Participant whose benefit payments begin on or after March 1, 2000, and who is eligible for a Normal Retirement Income according to Section 600 or an Early Retirement Income according to Section 601 is eligible to elect a partial lump sum payment. Also, the surviving spouse of a Participant who is eligible for a benefit under Section 801 and whose benefit payments begin on or after March 1, 2000, is eligible to elect a partial lump sum payment.
2. **Amount of Lump Sum Payment.** An eligible Participant or surviving spouse may elect a partial lump sum payment equal to one (1), two (2) or three (3) times the annual benefit the Participant or surviving spouse would otherwise receive from the Plan in the form of a life annuity. The lump sum will be paid at the same time as the first annuity payment.
3. **Amount of Annuity Payment.** For an eligible Participant whose benefit payments begin on or after March 1, 2000 but before November 1, 2017, the factors in Appendix A will apply to determine the reduced percentage of the life annuity benefit payable to a Participant or surviving spouse who elects a partial lump sum benefit, based on the age of the Participant or surviving spouse when benefit payments begin and the number of years of annuity benefits paid as a partial lump sum. For an eligible Participant whose benefit payments begin on or after November 1, 2017, the appropriate Mortality Table, as adopted by the Board of Trustees, shall be used to determine the reduced percentage of the life annuity benefit payable to a Participant or surviving spouse who elects a partial lump sum benefit, based on the age of the Participant or surviving spouse when benefit payments begin and the number of years of annuity benefits paid as a partial lump sum.

*(Ord. Nos. 17300, 19730, 20908; Ord. No. 23748, § 1, 8-2-2017; Ord. No. 25547, § 15, 3-26-2025)*

## Section 702. Conditions relative to forms of retirement benefits.

**A. Election Deadline.** To become effective, an election of any form of retirement income must be made formally and in writing on a form provided for that purpose prior to the start of payment of such retirement income. A Participant may elect an optional form of retirement income or change the contingent annuitant at any time prior to the start of benefit payments.

**B. Change in Election.** The election of a form of retirement income shall become irrevocable upon commencement of benefit payments from the Plan.

*(Ord. No. 25547, § 15, 3-26-2025)*

## Section 703. Conditions relative to optional benefits.

**A. Spouse Consent.** If a Participant is married at the time benefits commence, the Participant's election of a partial lump sum payment or a form of retirement income other than a joint and survivor income payable to the Participant and spouse shall not be effective unless the spouse consents in writing to the partial lump sum, to the form of retirement income and to the contingent annuitant or beneficiary the Participant elects for that form of retirement income. The spouse's written consent must acknowledge the effect of the election and must be witnessed by a Plan representative

or a notary public. The spouse's written consent shall not be required if it is established to the satisfaction of a Plan representative that there is no spouse or the spouse cannot be located. Any consent by a spouse obtained under this provision shall be effective only with respect to such spouse.

**B. Death.** If a Participant shall have elected an optional form of retirement income; and

**1.** If the contingent annuitant shall die and the Participant shall notify the Plan Administrator of the death before the start of Participant's retirement income payments, the election shall be void;

**2.** Except as provided in paragraph 701A.3. hereof if the Participant shall die before the start of the Participant's retirement income payments, the election shall be void and the contingent annuitant shall not be entitled to an income under such option; or

**3.** If the contingent annuitant shall die after commencement of an optional form of retirement income but before the death of the retired Participant, such Participant shall continue to receive the income payable to that Participant in accordance with such election.

*(Ord. Nos. 17300, 17981, 19730, 20908; Ord. No. 25547, § 15, 3-26-2025)*

## Section 704. Level income option.

Participants who begin to receive a life annuity or joint and survivor annuity before their receipt of Social Security Normal Retirement Age (SSNRA) benefits as determined by Social Security may elect to have their retirement income adjusted to an Actuarial Equivalent so that the Participants will receive increased monthly amounts prior to SSNRA and reduced monthly amounts thereafter. The SSNRA elected must be rounded to a whole number value. This adjustment shall enable Participants to receive, pursuant to both the Plan and the Social Security Act, total monthly retirement income benefits in approximately level amounts for life. The adjustment shall be made according to tables prepared by the Actuary and approved by the Board of Trustees.

*(Ord. No. 25547, § 15, 3-26-2025)*

## Section 705. General requirements.

Notwithstanding any other provision of this title to the contrary, a form of retirement income payable from the plan shall satisfy the conditions given in this section.

**A. Latest Starting Date.** Payment of retirement income shall commence not later than April 1 of the calendar year following the later of:

**1.** The calendar year in which the Participant attains the applicable age as defined in Code section 401(a)(9)(C)(v); or

**2.** The calendar year in which Participant incurs a Termination of Employment.

**B. Minimum Required Distributions.** Effective January 1, 2003, all distributions from the Plan shall be made in accordance with the requirements of Internal Revenue Code Section 401(a)(9) as applicable to governmental plans, including the minimum incidental death benefit requirement of Internal Revenue Code Section 401(a)(9)(G).

*(Ord. No. 21971; Ord. No. 21971, § 1, 12-11-2008; Ord. No. 25189, § 1, 11-29-2023; Ord. No. 25547, § 15, 3-26-2025)*

**Section 706. Withdrawal of contributions by vested deferred participant.**

Any Participant entitled to a Vested Deferred Normal Retirement Income as provided in Section 603 hereof may withdraw their Basic Employee Contributions, with Credited Interest thereon, at any time prior to commencement of payment of the Participant's retirement income and shall thereupon cease to have any further rights under the Plan. Notwithstanding the foregoing, any Participant entitled to a payout of accrued sick leave who took payment of that leave shall not be eligible to withdraw their Basic Employee Contributions, with Credited Interest thereon.

*(Ord. No. 25547, § 15, 3-26-2025)*

**Section 707. Reemployment of a retired participant.**

**A. Benefits Cease.** The retirement income payable from the Fund to any retired Participant shall cease as of the first date of reemployment, if such Participant is reemployed as an Employee. Retirement income shall resume as of the first day of the month following Termination of Employment subject to the provisions of Subsection 707.C hereof. Such cessation or suspension of retirement income payable shall not affect the payment of retirement income after the death of a reemployed Participant under any optional form of benefit which shall at that time be in effect.

**B. Partial Lump Sum Recipients Not Eligible.** A retired Participant who has received a partial lump sum payment is not eligible for reemployment as an Employee.

**C. Contributions Resume.** Upon the reemployment of a retired Participant as an Employee, such Participant shall be required to make Basic Employee Contributions toward a retirement income in accordance with the provisions of Section 301 hereof.

**D. Benefits Redetermined.** The amount of the retirement income to be paid on the subsequent Termination of Employment of a Participant described in Subsection A shall be redetermined as the sum of 1. and 2. where:

**1.** Is the benefit in receipt at the time of reemployment that was suspended due to such reemployment, and if such benefit has been reduced on account of early retirement, the amount of the retirement, the income to be paid on the subsequent Termination of Employment shall be adjusted so that the amount of reduction made for early retirement on the previous retirement date will be adjusted to reflect the duration of the period for which benefits are suspended; and

**2.** Is the benefit accrued following reemployment based on the service and age from the date of reemployment to the date of subsequent retirement, where the benefits accrued will be based on the Plan's formula for computing retirement income and early retirement benefits at the time of the final Termination of Employment.

*(Ord. No. 20903; Ord. No. 25547, § 15, 3-26-2025)*

**Section 708. Small payment.**

In the event any benefit provided under the Plan is payable in an amount less than One Hundred Dollars ($100.00) monthly, the Participant may not elect a form of retirement income and instead a lump-sum settlement of Actuarial Equivalent shall be paid in full discharge of all liability in respect of such benefit. Distributions shall be made in accordance with Internal Revenue Code Section 401(a)(9), including Section 1.401(a)(9)-2 of the Federal Income Tax Regulations.

*(Ord. No. 25547, § 15, 3-26-2025)*

## Section 709. Direct rollover.

For eligible rollover distributions, a distributee may elect, at the time and in the manner prescribed by the Board of Trustees, to have any portion of the distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. For purposes of applying this section, the following definitions shall apply:

**A. Eligible Retirement Plan.** An eligible retirement plan is an individual retirement account described in Section 408(a) of the Internal Revenue Code of 1986, as amended, an individual retirement annuity described in Section 408(b) of the Code, an annuity plan described in Section 403(a) of the Code or a qualified trust described in Section 401(a) of the Code, that accepts the distributee's eligible rollover distribution. Effective January 1, 2002, an eligible retirement plan shall also mean an annuity contract described in Code Section 403(b) and an eligible plan under Code Section 457(b) which is maintained by a state, political subdivision of a state or agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relation order, as defined in Code Section 414(p). Effective January 1, 2008, an eligible retirement plan shall also mean a Roth IRA described in Section 408A(b) of the Internal Revenue Code, subject to any applicable limits described in Section 408A(c) of the Internal Revenue Code.

**B. Distributee.** A distributee includes an Employee or former Employee. In addition, the Employee's or former Employee's surviving spouse and the Employee's or former Employee's spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Code, are distributees with regard to the interest of the spouse or former spouse.

**C. Direct Rollover.** A direct rollover is a payment by the plan to the eligible retirement plan specified by the distributee.

**D. Eligible Rollover Distribution.** Any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one (1) of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Section 401(a)(9) of the Code; and the portion of any distribution that is not includable in gross income. For distributions made after December 31, 2007, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includable in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in Section 408(a) or (b) of the Internal Revenue Code, or in a direct trustee-to-trustee transfer to a qualified trust described in Section 401(a) of the Internal Revenue Code which is exempt from tax under Section 501(a) of the Internal Revenue Code or to an annuity contract described in Section 403(b) of the Internal Revenue Code, provided such trust or contract provides for separate accounting for

amounts so transferred (and earnings thereon), including separate accounting for the portion of such distribution which is includable in gross income and the portion of such distribution which is not so includable.

*(Ord. Nos. 18364, 20497; Ord. No. 21971, § 2, 12-11-2008; Ord. No. 22626, § 4, 2-2-2012; Ord. No. 25547, § 15, 3-26-2025)*

### Section 710. Distribution to individual retirement account of non-spouse beneficiary.

A Participant's non-spouse beneficiary may elect to have any portion of an eligible Plan distribution paid in a direct trustee-to-trustee transfer to an individual retirement account or annuity described in Section 401(c)(8)(B)(i) or (ii) of the Internal Revenue Code that is established to receive the Plan distribution on behalf of the beneficiary. For purposes of this section a trust maintained for the benefit of one (1) or more designated beneficiaries may be the beneficiary to the extent provided in rules prescribed by the Secretary of Treasury. If the Participant dies after the Participants required beginning date as defined in Section 704.A hereof, the required minimum distribution in the year of death may not be transferred according to this section. The requirements of Internal Revenue Code Section 402(c)(11) apply to distributions under this section.

*(Ord. No. 21971, § 3, 12-11-2008; Ord. No. 25547, § 15, 3-26-2025)*

The Board may, from time to time, withdraw from such commingled trust all or such part of the Trust Fund as the Board may deem advisable.

## ARTICLE V
## Duties of the Board

5.1 Duties. In addition to any duty or responsibility otherwise imposed on the Board by law or this Agreement, the Board shall:

**A.** Perform all of its functions hereunder with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent man acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.

**B.** Hold and administer the Trust Fund in trust, provided the Board may appoint a Custodian to hold the Trust Fund on behalf of the Board.

**C.** Maintain accurate and detailed accounts of all investments, receipts, disbursements and all other transactions affecting all or any portion of the Trust Fund. All accounts, books and records relating to such transactions shall be open to inspection and audit at any time during business hours by any person designated by the City.

**D.** Within sixty (60) days following the close of each calendar quarter or at such other time as agreed upon by the City and the Board, and within sixty (60) days after the removal or resignation of the Board as provided in Article X hereof, file with the City a written account listing all investments, receipts, disbursements and other transactions affected by it during such period or during the period from the last written accounting to the date of such removal or resignation, and stating the current book and market values of the Trust Fund. If the Board invests a part or all of the assets of the Trust Fund in one or more contracts issued by an insurance company or Investment Manager, delivery of such insurance company's or Investment Manager's annual report shall satisfy the requirements of this subsection as to such assets.

5.2 Contributions to the Plan. The Board shall have no duty to inquire into the accuracy or sufficiency of any contribution, or its source, or to take any action to compel the Employer to contribute to the Plan.

5.3 Payments from the Trust Fund. In order to provide for payments pursuant to the Plan, the Custodian shall from time to time on the written direction of the Board make payments from the Trust Fund to such persons, insurance companies, corporations or other entities, in such manner, in such amounts and for such purposes, including, but not limited to, purchases of annuity or other contracts issued by insurance companies as may be specified in the written directions of the Board, and upon any such payment, the amount thereof shall no longer constitute a part of the Trust Fund unless the payment is for a contract intended to be a part of the Trust Fund. Each such written direction shall include a certification by the Board that the payment accords with the Plan. The Custodian shall make such payments either directly to persons certified by the Board to be entitled to them or to the Board or its delegate for transmittal to such persons or as otherwise directed by the Board. The Custodian shall be liable for failure to make any payment of any kind only if it shall have been directed by the Board to make such payment and only if funds sufficient to make such payment shall be available from the Trust Fund. The Board shall not be responsible in any way with respect to the application of such payments or for the adequacy of the Trust Fund to meet and discharge any and all liabilities pursuant to the Plan.

## ARTICLE VI
## Powers of Board

In addition to, and not in limitation of, the powers stated in Article III, Section 3.1 and Article IV, Section 4.1 above or elsewhere in this Agreement, the Board shall have the following powers and authority in the control of the Trust Fund, all consistent with direction by an Investment Manager pursuant to Article III above. Each interpretation and decision made by the Board in fulfillment of its responsibilities under this Trust shall be final and binding on all parties unless a court with proper jurisdiction over the matter issues a final decision that the determination of the Board was arbitrary, capricious or made in bad faith and had no rational basis.

**A.** To purchase or subscribe for and to retain any securities or other property, and to sell, exchange, convey, transfer or otherwise dispose of, and also to grant options with respect to, any securities or other property held by it, by private contract or at public auction, or to surrender for cash value any contracts issued by an insurance company which may at any time constitute a part of the Trust Fund. Any sale may be made for cash or upon credit, or partly in cash and partly on credit. No person dealing with the Board shall be bound to see to the application of the purchase money or to inquire into the validity, expedience or propriety of any such sale or other disposition.

**B.** To purchase and sell contracts or other properties through such broker or brokers as the Board may choose.

**C.** To vote upon any stocks, bonds or other securities; to give general or special proxies or powers of attorney with or without power of substitution; to appoint one or more individuals or corporations as voting trustees under voting trust agreements and pursuant to such voting agreements to delegate to such voting trustees discretion to vote; to exercise any conversion privileges, subscription rights or other options, and to make any payments incidental thereto; to oppose, or to consent to or otherwise participate in, corporate reorganizations or other changes affecting corporate securities, and to pay any assessments or charges in connection therewith; and generally to exercise any of the powers of an owner with respect to property held as part of the Trust Fund.

**D.** To cause any securities or other property to be registered in its own name or in the name of its nominee without designating the same as trust property, and to hold any investments in bearer form, but the books and records of the Board shall at all times show that all such investments are part of the Trust Fund. Any such registration or holding by the Board shall not relieve it from its responsibility for the safe custody and disposition of the Trust Fund in accordance with the terms and provisions of this Trust Agreement.

**E.** To hold cash, uninvested, for such length of time as the Board may deem prudent and in the best interests of the Trust created hereby without liability for interest thereon.

**F.** To make, execute, acknowledge and deliver any and all documents of transfer and conveyance including, but not limited to, deeds, leases, mortgages, conveyances, contracts, waivers and releases, and any and all other instruments that may be necessary or appropriate to carry out the powers herein granted.

**G.** To renew or extend or participate in the renewal or extension of any mortgage, upon such terms as may be deemed advisable, and to agree to a reduction in the rate of interest on any mortgage, or to any other modification or change in the terms of any mortgage, or of any guarantee pertaining thereto, in any manner and to any extent that may be deemed advisable for the protection of the Trust Fund or the preservation of the value of the investment; to waive any default whether in the performance of any covenant or conditions of any mortgage or in the performance of any guarantee or to enforce any such default in such manner and to such extent as may be deemed advisable; to exercise and enforce any and all rights of foreclosure, to bid in property on foreclosure, to take a deed in lieu of foreclosure with or without paying a consideration therefor, and in connection therewith to release the obligation on the bond secured by such mortgage and to exercise and enforce in any action, suit or proceeding at law or in equity any rights or remedies in respect of any such mortgage or guarantee.

**H.** To employ suitable agents and counsel (who may be agents or counsel for the City) and to pay their reasonable expenses and compensation.

7.1 Payment of Compensation and Expenses. The Board shall serve without compensation and shall be reimbursed for such reasonable expenses as approved by the Board and paid from the Trust Fund.

7.2 Payment of Taxes. The Board shall pay from the Trust Fund all taxes of any and all kinds whatsoever that may be levied or assessed under existing or future laws upon, or in respect of, the Trust Fund or its income.

## ARTICLE VIII
## Protection, Indemnification and Litigation

8.1 Limitation of Liability. Neither the City, its agents, the Board nor an Investment Manager shall be liable for the making, retention or sale of any investment, nor for any loss to, or diminution of the Trust Fund, unless due to its own negligence, misconduct or lack of good faith.

8.2 Reliance Upon Written Communications. Any Investment Manager shall provide the Board and Custodian with a written certification identifying the person or persons authorized to give instructions or directions on its behalf, and such certification shall be effective until a written revocation is filed with the Board and Custodian. The Board and Custodian may rely upon any written communication by such persons with respect to any instruction or direction of the Investment Manager and in continuing to rely upon such written communication until a subsequent written communication is filed with the Board and Custodian. The Board may act upon any instrument, written communication or paper believed by the Board to be genuine and to be signed or presented by the proper person or

persons, and the Board shall be under no duty to make any investigation or inquiry as to any statement contained in any such writing, but may accept the same as conclusive evidence of the truth and accuracy of the statements therein contained.

8.3 Indemnification of Board. The City agrees to provide a legal defense for the Board and to indemnify the Board for any legal fees the Board incurs resulting from or incident to any claimed breach of fiduciary duty by the Board relating to any sale or investment made, or act done, pursuant to any direction by an Investment Manager, all consistent with Article III above, or related to the retention of or failure to take any action with respect to any investment made, or act done, pursuant to direction by or in the absence of further directions by an Investment Manager.

8.4 Litigation. The Board shall have the power to commence or defend suits or legal or administrative proceedings and, with the consent of the City, to settle, compromise or submit to arbitration, any claims, debts or damages due or owing to or from the Trust Fund; provided, however, the Board shall not be required to institute suit or maintain any litigation to collect the proceeds of any insurance or other contract forming a part of the Trust Fund unless the Trust Fund holds sufficient funds for this purpose or unless it has been indemnified to its satisfaction for its counsel fees, costs, disbursements and all other expenses and liabilities to which it may be subjected by such suit; provided, further, that the Board may utilize the proceeds of any contract to meet expenses incurred in enforcing payment of such contract.

The Board shall not be obligated to participate in any suit or legal or administrative proceeding which would subject it to expense or liability unless such suit or proceeding is occasioned by the fault of the Board or involves a question of its fault or involves an alleged breach of fiduciary duty, obligation or responsibility by the Board, unless it be first indemnified by the City in an amount and manner satisfactory to it or be furnished with funds sufficient, in its sole judgment, to cover the same.

## ARTICLE IX
## Amendment

The City shall have the right at any time, and from time to time:

**A.** To amend this Trust Agreement in such manner as it may deem necessary or advisable in order to cause this Trust Agreement and the Plan to qualify or continue to qualify under the provisions of Section 401(a) and be exempt from taxation under the terms of Section 501(a) of the Internal Revenue Code and any such amendment may by its terms be retroactive to the extent permitted by applicable law; and

**B.** To amend this Trust Agreement in any other manner; however, no such amendment shall authorize or permit any part of the Trust Fund to be used for or diverted to purposes other than those stated in Article II, Section 2.2 hereof; no such amendment may cause or permit any portion of the Trust Fund to revert to or become the property of the City.

Any such amendment shall become effective upon delivery of a written instrument, executed by persons duly authorized, to the Board and upon endorsement by the Board of its receipt and of its written consent, if such consent is required.

## ARTICLE X

10.1 Termination by the City. The City shall have the right at any time to terminate this Trust Fund by delivering to the Board written notice of such termination.

10.2 Procedures Upon Termination. Upon the occurrence of any of the circumstances described in Section 10.1, the Board shall appraise the value of the Trust Fund and shall determine the allocation and the distribution of the Trust Fund, subject to the approval of the City.

10.3 Discharge of Board. Upon making such final distribution, the Board shall be discharged from all obligations under the Trust.

## ARTICLE XI
## General Provisions

11.1 Individual's Rights; Acquittance. Neither the establishment of the Trust Fund hereby created, nor any modification thereof nor the creation of any fund or account, nor the issuance of any annuity policy, nor the payment of any benefits, shall be construed as giving to any person any legal or equitable right against the City, or any officer or employee thereof, any Investment Manager, or the Board, or any insurance company except as provided by the terms of any such annuity policy, the Plan or applicable law. Under no circumstances shall the terms of employment of any Participant be modified or in any way affected hereby.

11.2 Nonalienation of Benefits. Except for indebtedness owing to the Trust Fund, benefits payable from the Trust Fund shall not be subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, charge, garnishment, execution or levy of any kind, either voluntary or involuntary, until such payment has been actually received by the person entitled to it. Any attempt to anticipate, alienate, sell, transfer, assign, pledge, encumber, charge or otherwise dispose of any right to benefits payable hereunder shall be void. Neither this Trust Fund nor the Board shall in any manner be liable for or be subject to the debts, contracts, liabilities, engagements or torts of any person entitled to benefits hereunder. If the terms of this section are contrary to the law governing in a particular circumstance, then, as to that circumstance, any such payment shall be so exempt to the maximum extent permitted by such law. This Section shall not apply to any benefit payable with respect to a Participant pursuant to a domestic relations order as defined in the Internal Revenue Code.

11.3 Exercise of Authority by the City. Whenever the City, under the terms of this Agreement, is permitted or required to do or perform any act, or matter or thing, it shall be done and performed by a properly authorized officer, agent, representative or employee.

11.4 Qualification. Subject to any amendment to this Trust Agreement which specifically expresses a contrary intention, the Trust existing hereunder is intended to be exempt from income tax under Section 501(a) of the Internal Revenue Code of 1986 and wherever possible shall be construed to carry out that intention. The Board shall take no action which would adversely affect the tax-exempt status of the Trust. The Board may demand assurances satisfactory to it that any action which it is directed to take will not adversely affect the tax-exempt status.

11.5 Severability. In the event any provision of this Agreement shall be considered illegal or invalid for any reason, said illegality or invalidity shall not affect the remaining provisions hereof, but such provisions shall be fully severable and this Agreement shall be construed and enforced as if such illegal or invalid provisions had never been inserted therein. Any provision herein providing for any indemnification or limitation upon the liability of any person or entity shall be construed to be fully effective except to the extent that such construction would relieve any person from responsibility or liability for any responsibility, obligation or duty imposed by Part 4, Title I of the Employee Retirement Income Security Act of 1974.

11.6 Communications. Any communication required or permitted by this Agreement to be made by any party hereto shall be deemed sufficiently given or served if in writing and delivered to the party to whom addressed or with postage prepaid, addressed to such party as shown on the records of the sender. Any communication required or permitted by this Agreement shall be deemed to have been received on the date of mailing or other delivery.

IN WITNESS WHEREOF, the City has caused this Agreement to be executed by its respective duly appointed officers and the Board has hereunto set his or her hand and seal as of the day, month and year first above written.

**E. Other Locations Eligible for the Fee-in-Lieu Option.** Required sidewalk construction may be deferred by the Deputy Director, in the Deputy Director's discretion, in locations otherwise requiring a sidewalk or sidewalk infrastructure, including locations within a Critical Sidewalk Area, based on one or more of the following factors demonstrated by the applicant:

**1.** Anticipated construction, known to the Deputy Director to be planned for the subject site, which will substantially damage or cause the replacement of sidewalks, if presently constructed;

**2.** Other factors not specified in this section deemed by the Deputy Director to make present sidewalk construction at the location in question impractical. The cost of construction of required sidewalk infrastructure, without other relevant factors being present, shall not make construction of a required sidewalk impractical.

In addition to one or more of the above-listed factors demonstrated by the applicant, the Deputy Director shall make a finding that deferral of sidewalk construction will not adversely impact pedestrian safety, mobility or connectivity. An applicant desiring to pay a fee-in-lieu for a location which may be eligible pursuant to the criteria established by this subsection shall submit an application to the Public Works Department, together with such other information and supporting documentation as may be required or necessary to process the application and determine the eligibility of the subject property. The Deputy Director, or the Director's designee, shall review the completed application and may approve deferral of sidewalk construction and payment of a fee-in-lieu if the project is eligible for the Fee-in-Lieu Option pursuant to the criteria set forth in this subsection. Such appeal shall be commenced by filing a notice of appeal to the Public Works Department within ten (10) business days after the date of denial of the application. The Public Works Director, or Public Works Director's designee, shall either affirm or reverse the decision appealed from in writing within thirty (30) calendar days after receipt of the appeal. If the appeal is granted and the decision of the Deputy Director is reversed, sidewalk construction shall be deferred, and the required fee-in-lieu shall be paid by the Applicant prior to issuance of the certificate of occupancy. If the appeal is denied, the required sidewalks shall be constructed prior to the issuance of a certificate of occupancy.

**G. Appeal to the City Council.** An applicant who has an appeal denied by the Public Works Director, or Public Works Director's designee, may appeal such decision to the City Council within ten (10) business days after the date of denial of the appeal by filing

The sections and provisions of this title are in each and every instance applicable to the drivers or operators of motor vehicles or motorcycles, and such other persons so designated, and the failure of any such person to obey the requirements of any such section or provision is hereby declared to be unlawful and an offense and punishable as prescribed.

### Section 301. Parties to a crime.

Every person who commits, attempts to commit, conspires to commit or aids or abets in the commission of any act declared in this title to be an offense, whether individually or in connection with one (1) or more other persons or as a principal, agent or accessory, shall be guilty of such offense; and every person who falsely, fraudulently, forcibly or wilfully induces, causes, coerces, requires, permits or directs another to violate any provisions of this title is likewise guilty of such offense.

### Section 302. Offenses by persons owning or controlling vehicles.

**A.** It is unlawful for the owner or any other person employing or otherwise directing the driver of any vehicle to require or knowingly to permit the operation of such vehicle upon a street in any manner contrary to law.

**B.** The provisions of Chapters 3, 4, 5, 6, 7, 8, 9, 11 and 12, applicable to drivers of vehicles in the City of Tulsa shall apply to the drivers of all vehicles owned or operated by the United States, the state of Oklahoma or any political subdivision of the state of Oklahoma, subject to such specific exceptions as are set forth in this title.

### Section 303. Citation on illegally parked vehicle.

Whenever any motor vehicle without driver is found parked, standing or stopped, in violation of any of the restrictions imposed by ordinance of the City of Tulsa, the police

officer finding such vehicle shall take its registration number and may take any other information displayed on the vehicle which may identify its ownership and shall conspicuously affix to such vehicle a traffic citation, on a form provided by the City of Tulsa.

### Section 304. Failure to comply with traffic citation attached to a parked vehicle.

If any violator of the traffic code restrictions on stopping, standing or parking does not appear in response to two (2) or more traffic summons affixed to his motor vehicle, the Clerk of the Municipal Court shall notify in writing the registered owner of such vehicle at the address listed on the vehicle's state registration records advising that a hearing will be held on a date certain to determine the vehicle a public nuisance as provided in Section 505 of this title, and to order impoundment. For the purposes of this section, impoundment shall be defined as the affixing of a wheel boot that restricts the vehicle's movement and/or the towing of the vehicle.

*(Ord. No. 20595)*

### Section 305. Authority to impound vehicles.

**A.** Members of the Police Department are hereby authorized to remove or cause to be removed a vehicle from a street or highway to the nearest garage designated or maintained by the Police Department or otherwise maintained by the City of Tulsa under the circumstances hereinafter enumerated:

**1.** When a vehicle has been declared a nuisance and ordered impounded by the court under the provisions of Section 505 of this title;

**2.** When a vehicle is left unattended upon any bridge, viaduct or causeway or in any tube or tunnel where such vehicle constitutes an obstruction to traffic;

**3.** When a vehicle upon a street or highway is so disabled or defective as to constitute an obstruction or hazard to traffic and/or the person or persons in charge of the vehicle are by reason of physical injury incapacitated to such an extent as to be unable to provide for its custody or removal;

**4.** When a vehicle is left unattended upon a street by reason of arrest of the driver or otherwise, or is so parked upon a street, highway or other public way as to constitute a definite hazard or obstruction to the normal movement of traffic;

**5.** When a vehicle is parked or left standing in excess of twenty-four (24) hours in violation of Section 519 of this title; or

**6.** When a vehicle is stopped by a police officer for an alleged violation of a City traffic ordinance or state traffic law or other ordinance or law applicable to the operation of a vehicle on a roadway, or a vehicle has been involved in an accident or collision investigated by a police officer, and the police officer has probable cause that the vehicle is not insured as required by the Compulsory Insurance Law of the state of Oklahoma. If, however, the owner or operator of the vehicle produces what appears to be a valid security verification form and the police officer is unable to confirm compliance through the online verification system or noncompliance by a subsequent investigation, the police officer shall be prohibited from impounding the vehicle and causing such vehicle to be towed and stored.

**B.** If the vehicle impounded has not been reclaimed within twenty-four (24) hours of the time of its impoundment, the Police Department of the City of Tulsa shall notify the vehicle's registered owner at the address provided by Service Oklahoma, or other state agency designated by the state of Oklahoma, of the place of impoundment of the vehicle.

### Section 306. Presumption in reference to illegal parking.

In any prosecution charging a violation of any ordinance of the City of Tulsa governing the standing or parking of a vehicle, proof that the particular vehicle described in the complaint was parked in violation of any such ordinance, together with proof that the defendant named in the complaint was at the time of such parking the registered owner of such vehicle, shall constitute in evidence a *prima facie* presumption that the registered owner of such vehicle was the person who parked or placed such vehicle at the point where and for the time during which such violation occurred.

### Section 307. Notice to appear in court.

**A.** Whenever a person is halted by a police officer for any violation of this title and is not taken before a magistrate as herein required or permitted, the officer shall prepare a written traffic citation containing a notice to appear in court, the name and address of the person, the state registration of his vehicle, if any, the offense charged, the time and place the person shall appear in court and such other pertinent information as may be necessary.

**B.** The time specified in the notice to appear must be at least five (5) days after the alleged violation unless the person charged with the violation shall demand an earlier hearing.

**C.** The place specified in the notice to appear must be before a municipal judge.

**D.** The person charged with the violation may give his written promise to appear in court by signing at least one (1) copy of the written traffic citation prepared by the officer, in which event, the officer shall deliver a copy of the citation to the person and thereupon the officer shall not take the person into physical custody for violation.

### Section 308. Authority of an officer at the scene of an accident.

Except for felonies, a police officer at the scene of a traffic accident may issue a written notice to appear, as provided in Section 307, to any driver of a vehicle involved in the accident when, based upon personal investigation, the officer has reasonable and probable grounds to believe that the person has committed any offense under the provisions of this title in connection with the accident.

### Section 309. Failure to obey notice to appear.

**A.** It shall be unlawful for any person to violate his written promise to appear given to an officer upon the issuance of a traffic citation regardless of the disposition of the charge for which such citation is originally issued.

**B.** A written promise to appear in court may be complied with by an appearance by counsel.

## Section 310. Procedure upon arrest for traffic violation.

**A.** In addition to other provisions of law for posting bail, any person, whether a resident of this state or a nonresident, who is arrested by a law enforcement officer solely for a misdemeanor violation of a state traffic law or municipal traffic ordinance shall be released by the arresting officer upon personal recognizance if:

**3.** Record the motor vehicle make, model and tag information;

**4.** Record the arraignment date and time on the citation; and

**5.** Permit the arrested person to sign a written promise to appear as provided for in the citation.

The arresting officer shall then release the person upon personal recognizance based upon the signed promise to appear. The citation shall contain a written notice to the arrested person that release upon personal recognizance based upon a signed written

promise to appear for arraignment is conditional and that failure to timely appear for arraignment shall result in the suspension of the arrested person's driving privilege and driver's license in Oklahoma, or in the nonresident's home state pursuant to the Nonresident Violator Compact.

*(Ord. Nos. 17040, 19116)*

**Section 311. When a person must be taken before a magistrate.**

If no magistrate is available, the defendant shall be placed in the custody of the appropriate municipal or county jailor or custodian, to be held until a magistrate is available or bail is posted as provided for by law or ordinance.

*(Ord. No. 17040)*

**Section 312. Release of defendant when magistrate not available.**

Whenever any person is taken into custody by an officer for the purpose of taking him before a magistrate or court as authorized or required in this chapter upon any charge other than a felony or the offenses enumerated in Section 310 and no magistrate is available and there is no bail schedule established by any such magistrate or court and no lawfully designated court clerk or other officer is available and authorized to accept bail on behalf of the magistrate or court, such person shall be released from custody upon the issuance to him of a written notice to appear and his signing a promise to appear.

**Section 313. When warrant to be issued.**

In the event any person fails to comply with a traffic citation given to such person or attached to a vehicle or fails to make appearance pursuant to a summons directing an appearance in the Municipal Court or if any person fails or refuses to deposit bail as required and within the time permitted by ordinance, the Clerk of the Municipal Court shall secure and issue a warrant for his arrest.

However, the procedure prescribed herein shall not otherwise be exclusive of any other method prescribed by law for the arrest and prosecution of a person for an offense of like ground.

**Section 316. Disposition and records of traffic citations, warrants and complaints.**

**B.** The Chief of Police or his designee may recommend dismissal of a traffic citation when it is obvious to the Chief of Police or his designee that the citation was erroneously issued, is patently faulty on its face or in the interests of justice. The Chief of Police or his designee shall write a memorandum to the Manager of the Criminal Division of the Legal Department recommending the dismissal of such citation with the facts and reasons for the recommendation.

**C.** Upon the filing of such duplicate copy in the appropriate records bureau of the Police Department as aforesaid, such citation may be disposed of only by trial in the Municipal Court or by other official action by the Judge of the Municipal Court or a prosecuting officer of such Court.

The Police Department shall maintain a list of all warrants assigned to it for service and the officers to which such warrants are assigned.

**F.** It shall be unlawful and official misconduct for any member of the Police Department, other officer or public employee to dispose of, alter or deface a traffic citation, any copy thereof or the record of the issuance or disposition of any traffic citation, complaint or warrant in a manner other than as required in this section.

**2.** Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation;

**3.** Exceed the maximum speed limits so long as he does not endanger life or property; or

**4.** Disregard regulations governing direction of movement or turning in specified directions.

Provided, however, the exemptions herein granted to an authorized emergency vehicle shall apply only when such vehicle is making use of the required emergency equipment hereinafter specified.

**B.** Authorized emergency vehicles, other than police vehicles, shall, in addition to any other equipment and distinctive markings required by ordinance, be equipped with both a siren, exhaust whistle or bell capable of giving an audible signal and with signal lamps mounted as high and as widely spaced laterally as practicable, which shall be capable of displaying to the front two (2) alternately flashing red lights located at the same level, and these lights shall have sufficient intensity to be visible at five hundred (500) feet in normal sunlight or, as an alternative, such emergency vehicles may use one (1) flashing red signal lamp so located at or near the top of the vehicle which, when lighted is visible for a distance of five hundred (500) feet in normal sunlight, both to the front and to the rear of the vehicle. Police vehicles, when used as an authorized emergency vehicle, shall be equipped with a siren capable of giving an audible signal, and need not be equipped with visual signals.

**C.** The provisions of this section shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons, nor shall such provisions protect the driver from the consequences of his reckless disregard for the safety of others.

**D.** Any ambulance company or operator responding to an emergency (priority one) call, shall immediately inform the Tulsa Police Department Dispatcher concerning the nature of the reported emergency and the points of origin and destination of its dispatched emergency vehicle.

## Section 604. Operation upon approach of authorized emergency vehicles.

Upon the approach of an authorized emergency vehicle making use of audible and visual signals meeting the requirements of the traffic ordinances of the City of Tulsa, or of a police vehicle properly making use of an audible signal only, the driver of every other vehicle shall yield the right-of-way to such emergency vehicle even when such vehicle is proceeding against an official traffic-control device, and shall immediately drive to a position which is clear of any intersection, parallel and as close as possible to the right-hand edge or curb of the street, alley or public or private roadway and shall stop and remain in such position until the authorized emergency vehicle has passed or stopped, except when otherwise directed by a police officer.

*(Ord. No. 14612)*

## Section 605. Following fire apparatus.

The driver of any vehicle, other than Police and Fire Department members, shall not follow an emergency vehicle traveling in response to an emergency call with siren sounding closer than five hundred (500) feet or drive into or park such vehicle within the block where emergency apparatus has stopped in answer to an emergency call.

## Section 606. Traffic-control signal lights.

Wherever vehicular traffic movement is controlled by an official traffic-control signal light device exhibiting green, yellow or red colored lights successively, such device shall control and be obeyed, as herein provided.

**A.** Vehicular traffic facing the green signal shall proceed right, left or straight through, unless a sign at such place prohibits any such movements; provided that the right-of-way shall be yielded to other vehicles or pedestrians lawfully in the intersection or signalized location, and a vehicle which enters on a green signal may complete such movement with safety even after the yellow or red signals appear.

**B.** Vehicular traffic facing a steady yellow signal is thereby warned that the red "stop" signal shall be exhibited immediately thereafter and such vehicular traffic shall not be crossing the intersection or signalized location when such red signal is successively exhibited.

**C.** Vehicular traffic facing a steady red signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection or signalized location, and shall remain standing until the green signal is shown alone, or, while the signal is still red, vehicular traffic may turn right, or turn left from a one-way street into a one-way street, from the appropriate lane after coming to the required stop, unless such turn on red is prohibited by a official sign. Such vehicular traffic making a turn on red shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

**D.** Vehicular traffic in a proper lane with a steady green arrow directional signal light or steady red with green arrow signal shall move as indicated by the pointing of the arrow to the left, right or straight ahead, and shall cautiously enter the intersection or signalized location only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

**E.** Whenever flashing signal lights are exhibited, such signals shall control vehicular traffic and be obeyed, as follows:

**1.** Flashing yellow shall indicate the driver of a motor vehicle is to proceed with utmost caution through the intersection or signalized location; and

**2.** Flashing red shall indicate that the driver of a motor vehicle shall come to a full stop and then proceed, yielding the right-of-way to all other traffic or pedestrians so close as to constitute an immediate hazard.

**F.** Vehicular traffic may turn, pursuant to the provisions of this Section, through a crosswalk while the pedestrian signal shows a "WALK" indication provided such turn may be completed without danger to or interference with pedestrian traffic.

**G.** In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

This section shall not be construed to prohibit the erection of highway signs or signals giving useful directional information and of such type that cannot be mistaken for official signs. ## Section 611. Yield signs.

The driver of a vehicle approaching a yield sign shall slow down to a speed reasonable for existing conditions or shall stop, if necessary, yielding the right-of-way to any pedestrian crossing the street on which he is driving and to any vehicle in the intersection or approaching on another street so closely as to constitute an immediate hazard.

**Director** shall mean the Chief Executive Officer of EMSA.

**Election Period** shall mean the month of August, 2014, and in all subsequent years the month of August immediately preceding the beginning of the next Program Year.

**Landlord** shall mean any person, company, corporation, or other entity which owns or manages residential living units and leases the residential living units to Tenants and is responsible for payment of the utility bills for the living units.

**Program Year** shall be from September 1 through August 31 of the next calendar year. Each Program Year shall be designated by the calendar year in which the program year expires (e.g., September 1, 2014, through August 31, 2015, shall be designated Program Year 2015). Notwithstanding such September 1, through August 31 period, Program Year 2014 for all Program participant single-family residential and multifamily residential water customers shall be extended through the months of July and August, 2014 at the Program Year 2014 charge of Three and $^{64}/_{100}$ Dollars ($3.64) per month per occupied residential living unit.

to affirmatively decline participation in the Medical Service Program, and so that Water Customers who have previously declined participation in the Medical Service Program may affirmatively elect to participate in the Medical Service Program.

**Water Customer** shall include all individuals permanently residing together in a residential living unit at a specific location, which living unit has water service billed directly to one (1) of the individuals residing in the residential living unit.

### Section 202. Nonparticipation election.

**A.** Any water customer or landlord who elects not to participate in the program for the next Program Year shall make a declaration of nonparticipation during the Election Period, or upon opening a water service account at a residential address. Such declaration may be on forms prescribed and approved by the Director and the Mayor, or may be by verbal request to City of Tulsa Customer Account Representatives, after the identity of the caller is conclusively established as the appropriate water customer, and the water customer affirmatively acknowledges any party receiving medical services from EMSA at that address will be responsible for the full costs associated with any medical services. A water customer's election of nonparticipation shall remain in effect for succeeding Program Years until the customer affirmatively elects to join the program. Any succeeding election must be made during the Election Period immediately preceding the next Program Year, or upon opening a water service account at a different residential address.

The written and signed acknowledgment described herein shall be maintained in the landlord's records and available for inspection as provided herein.

**C.** Failure to obtain and maintain on file the written acknowledgment from each tenant shall be a separate violation of this section. In addition, every thirty (30) day period from the beginning of a lease until written acknowledgment is received or the landlord elects for a property to participate in the program shall constitute a separate offense for each tenant affected.

*(Ord. Nos. 21517, 21599, 21794; Ord. No. 22477, § 2, 7-21-2011)*

## Section 203. Collection of service charges.

**A.** The service charges herein established for the use of medical service program shall be billed to each water customer monthly, along with the bill for water and other City utility services and such penalties as are now or may hereafter be established for water service bills, and shall carry the same due date as now or may hereafter be established for water service bills.

**B.** In the event any person, firm or corporation shall tender as payment of water service, medical service program, sanitary sewer nuisance abatement fees, sanitary sewer service, collection of solid waste service and/or service charge for the use of the City's stormwater drainage system an amount insufficient to pay in full all of the charges so billed, credit shall be given first to the charges for deposit, second to the service charge for the use of the City's stormwater drainage system, third to the charges for collection of solid waste, fourth to the charge for sanitary sewer service, fifth to any sanitary sewer nuisance abatement fees, sixth to the charge for the medical service program, seventh to the charges for water service and lastly to fees and penalties.

**C.** In the event any utility account shall become delinquent, water service may be terminated by the City until all delinquent charges shall be paid in full. The provisions for collection of charges provided herein shall be in addition to any rights or remedies which the City may have under the laws of the state of Oklahoma.

**D.** Disbursement of funds by the City to EMSA shall be upon the basis agreed to and approved through the annual budget process, or by subsequent budget amendments approved by the City Council.

**E.** [Reserved.]

**F.** City shall retain the medical service program revenue received from water customers that exceeds the cost of the program and a reserve equal to ten percent (10%) of EMSA's annual budgeted disbursements for the eastern division. Such excess revenue shall be retained by City in a rate stabilization fund. The rate stabilization fund shall only be used for the provision of medical service program services and related City administrative costs and services. The rate stabilization fund is to provide more level costs to water customers over time.

*(Ord. Nos. 21517, 21599; Ord. No. 22596, § 1, 12-1-2011)*

### Section 204. Adjustment of charges, appeal.

Any person who considers the EMSA medical service charges applicable to his residential living unit to be inaccurate or erroneous may request review thereof by the Director. In addition, any landlord who encounters special circumstances that would justify modifying the number of occupied units determined in accordance with the provisions of Section 201, such as fire, Act of God or renovations, may request review thereof by the Director. The determination by the Director may be appealed to the EMSA Medical Board by written notice of appeal filed with the Director within ten (10) days of the Director's determination. The decision of the Board may be appealed to the City Council by such person or by the Director by written notice of appeal filed with the City Clerk within ten (10) days of decision by the Board.

*(Ord. Nos. 21517, 21599)*

### Section 205. Penalty.

Unless otherwise provided in this chapter, any person violating any of the provisions of this chapter shall be guilty of an offense and, upon conviction, shall be punished by a fine of not more than One Thousand One Hundred Dollars ($1,100.00), excluding costs, fees and assessments.

**(2)** In the event that any like body politic and corporate hereafter shall succeed said County in the governmental authority, in respect to the subjects of the Trust Purposes, in the territory in which the Trust then shall be furnishing and providing facilities and services, then that successor to Tulsa County shall succeed said County as the Beneficiary.

**(3)** In the event that any part of the territory in which the Trust then shall be furnishing and providing any facilities or services hereafter shall become within the boundaries of any governmental entity of the State of Oklahoma, and such facilities or services, or the greatest portion thereof, shall become more properly (in the pattern of distribution of governmental functions) a function, authorized or proper, of such governmental entity, then that entity shall succeed the heretofore described entities as the Beneficiary hereunder upon acceptance of beneficial interest as provided by law.

**(4)** In the event (a) that any municipality or municipalities in Tulsa County shall desire that there be instituted by the Trust the providing or furnishing of facilities or services of a nature included in the purposes set forth in Section II of this instrument, within the municipal limites (sic) thereof, or (b) in the event that the territory or any parts thereof, in which the Trust shall be providing or furnishing facilities or services, hereafter shall become within the jurisdictional boundaries of more than one of the above described governmental entities and one or more (or a part thereof) of said facilities or services shall be an authorized or proper function of one such entity, and one or more (or a part thereof) shall be an authorized or proper function of another such entity, then all such entities collectively shall become Beneficiary hereunder upon acceptance of beneficial interest as provided

by law, and their respective proportionate shares of the beneficial interest hereunder shall be in and to those facilities and services and the distributed revenues therefrom (or such part thereof) which shall be performing or supplementing an authorized or proper function of such entity respectively and in like respective proportions.

It is the intention of this Section that, since the providing and furnishing of the Trust facilities and services described in Section III (a) of this instrument are the primary objectives of this Trust, the Beneficiary hereunder shall be the governmental entity or entities whose authorized or proper functions are being performed or supplemented by the Trust and in proportion to the extent of such performance or supplementation. The determination of any state of fact to make effective the said intention hereby is vested exclusively in the then Trustees (subject to any legally required acceptance of beneficial interest by the governing authorities of any entity affected), and such determination of any said fact or facts whereby any entity shall succeed to any beneficial interest hereunder shall be reduced to writing and filed for record in the same manner as this instrument: Provided that, anything in the foregoing to the contrary notwithstanding, the Beneficiary under this instrument shall be one or more governmental entities having jurisdiction over the territory (or portion thereof) in which the Trust shall be furnishing or providing its facilities or services, and the Trustees are not vested hereby with any power to designate a Beneficiary, their authority hereunder being limited to the determination of the existence or non-existence of states of fact with relation to the provisions of this Section whereby designated governmental entities ipso facto may succeed to beneficial interest hereunder.

**(b)** The Beneficiary shall have no legal title, claim or right to the Trust Estate, or to any part thereof; neither shall the Beneficiary, as such, have any authority, power or right whatsoever to do or transact any business whatsoever for, or on behalf of, or binding upon the Trustees or any of them or upon the Trust Estate; neither shall the Beneficiary have the right to control or direct the actions of the Trustees or any of them in respect of the Trust Estate, or any part thereof (sic); nor shall the Beneficiary have any right to demand or require any partition or distribution of the Trust Estate, or any part thereof. The Beneficiary shall be entitled solely to the benefits of this Trust, as administered by the Trustees hereunder, and at the termination of the Trust, as provided herein and then only, the Beneficiary shall receive the residue of the Trust Estate.

**(c)** Each distribution of money by the Trustees to the Beneficiary shall be paid to said Beneficiary for use by it for any authorized or proper function or purposes as directed by the governing body thereof, without restrictions or limitation by the Trustees.

**(d)** In the making of distribution of net operating income to the component entities of the Beneficiary under this instrument, the revenues and expenses from each kind of service or facility furnished or provided, and that portion of the Trust Estate used in connection therewith, shall be segregated by the Trustees. "Net operating income", from each kind of service or facility furnished or provided, is that money remaining of the gross income derived from the furnishing or providing of such service or facility after deducting therefrom (1) all charges, costs and expenses determined by the Trustees to be allocable to the furnishing or providing of such service or facility and (2)

all amounts determined by the Trustees to be a fair proportionate part of the total charges, costs and expenses of execution and performance of the Trust purposes as a whole. Net operating income from each kind of service or facility shall be distributed to the component Beneficiary entities the jurisdictional limits of which received such service or facility during the period next preceding such distributions; and distribution to each shall be in the direct proportion of the amounts received from within the jurisdictional limits of each distributee to the gross amount received by the Trust from said service or facility during said period.

**(e)** In the making of distributions of the net proceeds from the disposal of Trust assets to the component entities of the Beneficiary under this instrument, the service or facility in which said asset had been utilized shall be segregated, from the other services and facilities of the Trust, by the Trustees. "Net proceeds from the disposal of Trust assets" is that money remaining from the gross money proceeds of such disposal after deducting therefrom all charges, costs and expenses determined by the Trustees to be allocable to the disposal of said assets. Net proceeds from the disposal of Trust assets shall be made to the entities entitled thereto in the direct proportion of the amounts contributed by each, for acquisition of the installations of which said assets were a part, to the gross amounts so contributed by all distributees of said proceeds, or if no such contributions shall have been made, then in proportion of the value of the assets within the jurisdictional limits of each distributee to the entire of the value of the Trust estate as determined by the Trustees.

## IX.
## TERMINATION

**(a)** This Trust shall be irrevocable by the Trustors and shall terminate:

**(1)** When purposes set forth in Section III of this instrument shall have been fully executed and fulfilled; or

**(2)** In the event of the happening of any event or circumstance that would prevent said purposes from being executed and fulfilled AND all of the Trustees and the governing body of each Beneficiary, with the approval of the Governor of the State of Oklahoma, shall agree that such event or circumstance has taken place; provided, however, that all indebtedness of the Trust shall have been paid; or

**(3)** In the manner provided by Title 60, Section 180, Oklahoma Statutes, 1951; provided, however, that this Trust shall not be terminated by voluntary action if there be outstanding funded indebtedness or obligations of the Trust unless all owners of such indebtedness or obligations, or one authorized by them so to do, shall have consented in writing to such termination.

**(b)** Upon the termination of this Trust, the Trustees shall proceed to wind up the affairs of the Trust, and after payment of all debts and obligations out of Trust money, to the extent thereof, shall distribute the residue of the Trust money to the Beneficiary hereunder in the same manner as distribution made under Section VIII (c) of this instrument. Upon final distribution as aforesaid, the powers, duties and authority of the Trustees hereunder shall cease.

## X.
## PARTIAL INEFFECTIVENESS

The invalidity or ineffectiveness for any reason of any one or more words, phrases, clauses, paragraphs, subsections or sections of this instrument shall not affect the

remaining portions hereof so long as such remaining portions shall constitute a rational instrument. Any such invalid or ineffective portion was inserted conditionally upon it being valid or effective only; and this instrument shall be construed as if such invalid or ineffective portion had not been inserted herein.

## XI.
## COVENANT

The provisions hereof shall be binding upon the undersigned, their heirs, executors, administrators and assigns.

IN WITNESS WHEREOF we have hereunto set our hands, executing this Declaration of Trust in several multiple originals all of which constitute one and the same instrument, on this 18th day of August, 1959.

## APPENDIX II AMENDMENT TO DECLARATION OF TRUST OF THE TULSA COUNTY UTILITY SERVICES AUTHORITY.

WHEREAS, on August 18, 1959, there was created a public trust designated as "The Tulsa County Utility Services Authority", by Declaration of Trust filed for record in the office of the County Clerk of Tulsa County, Oklahoma, on said date and recorded in Book 2992 at pages 362-386; and

WHEREAS, said instrument made provision only for instituting the performance of trust purposes in unincorporated areas of Tulsa County, and for beneficial interest to be available to municipalities in said County only when the areas served by the Trust should come within their governmental jurisdiction; and

WHEREAS, the City of Tulsa desires that the said Authority construct and install certain sanitary sewage facilities outside the corporate limits of said City but to be operated as a part of the sanitary sewage facilities and to become the property of the said City when all indebtedness of the Authority, incurred in connection with said installation, has been paid; and

WHEREAS, it is deemed proper that municipalities in Tulsa County should be enabled to avail themselves of the benefits of the Authority and to receive beneficial interests thereunder to the extent of facilities or services furnished for such municipalities by the said trust; and

WHEREAS, at this time beneficial interest in said trust has been accepted only for the said Tulsa County and for the City of Tulsa;

NOW, THEREFORE, the undersigned Trustors and Trustees of The Tulsa County Utility Services Authority, by and with the consent and agreement of the governing body of Tulsa County and of the governing body of the City of Tulsa as evidenced by the acceptances of beneficial interest hereon endorsed, hereby contract, agree and covenant between themselves, and with and to each and every component of the Beneficiary of said trust, and with and to the State of Oklahoma, that they do declare that they will execute the trust created by the aforesaid Declaration of Trust as amended by this instrument as TRUSTEES for the Beneficiary and the components thereof, and that they do and will hold, receive and administer the Trust Estate IN TRUST solely for the use and benefit of said Beneficiary and the components thereof in the manner provided in said Declaration of Trust as amended hereby.

In pursuance of the foregoing, each and every of the provisions of the aforesaid Declaration of Trust of The Tulsa County Utility Services Authority, excepting only as hereinafter amended, hereby are re-contracted, re-covenanted and re-declared to be effective from and after endorsement hereon of acceptance of beneficial interest for each and every component of the Beneficiary by the governing body of each respectively. Said amendments are as follows:

### I.

Paragraph (a) of Article III of said Declaration of Trust hereby is amended to read as follows:

(a) To institute, furnish, provide and supply to the inhabitants, owners and occupants of property, and to industrial, commercial and mercantile establishments and enterprises,

located in Tulsa County, any or all improvements, services and physical facilities for the safeguarding of public health, the protection of persons and property, and the conservation and implementation of public welfare, of such kinds and characters that the same may be an authorized or proper function of the Beneficiary of this Trust, or any component thereof, or by law made subject to the supervision of its governing body or of its officers, which said improvements, services and physical facilities may be supplementary or wholly extraneous to any such improvement, service or physical facility that presently is, or hereafter may be furnished, provided or supplied by or under the supervision of the Beneficiary, or any component thereof.

**II.**

There hereby is added in Article VII a new paragraph to be designated as (d-2) as follows:

(d-2) To contract with any component of the Beneficiary, in relation to any facilities or services instituted by the Trustees for the present or future benefit of said component of the Beneficiary, for the latter to have and/or receive the exclusive benefits accrued or accruing from said facilities or services, upon the terms and conditions as shall be provided by such Contract, notwithstanding any other provision of the Declaration of Trust (as hereby amended) appearing to the contrary; and to do and perform all things necessary to comply with such Contract.

**III.**

Paragraph (a) (4) of Article VIII of said Declaration of Trust hereby is amended to read as follows:

(a) (4) In the event (a) that any municipality or municipalities in Tulsa County shall desire that there be instituted by the Trust the providing or furnishing of facilities or services of a nature included in the purposes set forth in Section II of this instrument, or (b) that the territory or any parts thereof, in which the Trust shall be providing or furnishing facilities or services, hereafter shall become within the jurisdictional boundaries of more than one of the above described governmental entities and one or more (or a part thereof) shall be an authorized or proper function of one such entity, and one or more (or a part thereof) shall be an authorized or proper function of another such entity, then each or all of such entities collectively shall become Beneficiary hereunder upon acceptance of beneficial interest as provided by law, and their respective proportionate shares of the beneficial interest hereunder shall be in and to those facilities and services and the distributed revenues therefrom (or such part thereof) which shall be performing or supplementing an authorized or proper function of such entity respectively and in like respective proportions: Provided, that any municipality aforesaid may limit the extent of its beneficial interest in the facilities or services provided by the Trust, and to distributions from the Trust, to a lesser interest than that to which it would be entitled under the foregoing, such limited acceptance to be evidenced by appropriate wording in the acceptance endorsement, but such limited acceptance of beneficial interest shall not prevent subsequent acceptance, from time to time, of a greater portion of the beneficial interest to which said municipality may be entitled under this paragraph; and Provided, further, that the Trustees may contract with any such municipality that the latter shall be entitled to sole beneficial interest in

any particular facility or facilities (and to all distributions therefrom) described in (a) of this Paragraph (a) (4), to the exclusion of any or all others which otherwise might become entitled to a proportionate beneficial interest therein.

**IV.**

Paragraph (d) of Article VIII of said Declaration of Trust hereby is amended to read as follows:

(d) In the making of distribution of net operating income to the component entities of the Beneficiary under this instrument, the revenues and expenses form each kind of service or facility furnished or provided, and that portion of the Trust Estate used in connection therewith, shall be segregated by the Trustees. "Net operating income", from each kind of service or facility furnished or provided, is that money remaining of the gross income derived from the furnished or providing of such service or facility after deducting therefrom (1) all charges, costs and expenses determined by the Trustees to be allocable to the furnishing or providing of such service or facility, and (2) all amounts determined by the Trustees to be a fair proportionate part of the total charges, costs and expenses of execution and performance of the Trust purposes as a whole. Net operating income from each kind of service or facility shall be distributed to the component Beneficiary which received such service or facility during the period next preceding such distributions; and distribution of net operating income from each facility or service furnished to more than one component of the Beneficiary shall be made to each in the direct proportion that the amounts so received in relation to each such component bears to the gross amount received by the Trust from said service or facility during said period.

IN WITNESS WHEREOF, we have hereunto set our hands this 19th day of July, 1961.

### I.
### CREATION OF TRUST

### II.
### NAME

The name of this Trust shall be, and the Trustees in their representative fiduciary capacity shall be designated as THE TULSA GERIATRIC & INFIRMARY AUTHORITY (hereinafter called "The Authority"). Under that name they shall, so far as practicable, conduct all business, and execute all instruments in writing, and otherwise perform their duties and functions in the execution of this Trust.

**(f)** To expend any funds coming into the hands of the Trustees as revenue or otherwise, in the enlargement, maintenance and operation of the Trust Estate and in payment of the costs and expenses of executing the purposes of the Authority, including (without limitation by specification) the payment of all indebtedness and obligations incurred for trust purposes or properly chargeable against the Trust Estate; and to distribute any residue or remainder of the said funds or any other of the Trust Estate to the Beneficiary as set forth in Section VIII of this instrument.

**(g)** Whenever the same shall be or become material, the purposes set forth in paragraphs (a) and (b) of this Section shall be deemed the primary objectives of the Authority, and the provisions of the paragraphs thereafter shall be deemed in implementation of and collateral to said primary objectives.

## IV.

This Authority shall have duration for the term of duration of the Beneficiary as hereinafter described, and until such time as its purposes shall have been fully executed and fulfilled, or until it shall be terminated as hereinafter provided.

## V.

## VI.
## THE TRUSTEES

**(a)** The Trustees hereunder, and their successors, do hereby contract, agree and covenant between themselves, with and to the State of Oklahoma, and with and to the

Beneficiary hereinafter described, as by law now in force and effect, that they will execute the Trust herein declared, created and constituted, as Trustees for the Beneficiary as hereinafter specified, and that they do and will receive, hold and administer the Trust Estate hereinabove described in trust, solely for the use and benefit of the said Beneficiary in the manner provided in this instrument, or in the absence of applicable provisions herein then in the manner provided by now existing law.

**(b)** The Trustees of the Authority shall be the following persons:

**(1)** The Mayor of the City of Tulsa, Oklahoma (or, in the event that the chief executive authority of said city be transferred to any other officer, then such chief executive officer) shall be ex officio the Chairman of Trustees;

**(2)** The undersigned four Trustees and their respective successors chosen as hereinafter set forth, all of whom shall be bona fide residents of the City of Tulsa.

**(c)** Each qualified Trustee shall continue as such until his successor shall have been qualified as provided in paragraph (g) of this Section.

**(d)** In the event of the death, resignation, removal of residence from the City of Tulsa, or inability to act of any Trustee, (other than an ex officio Trustee), the remaining Trustees shall elect a successor Trustee to fill the vacancy.

**(e)** The determination of the fact of a vacancy in a Trusteeship and of any right of a successor to qualify to Trusteeship shall be vested exclusively in the remaining Trustees, and their determination shall be final.

**(f)** The Trustees may contract, in connection with the incurring of any funded debt secured by the Trust Estate and/or its revenues, or any part of either or both, that Temporary Trustees may be appointed to act in place and instead of permanent Trustees, in respect of any part or all of the Trust Estate, in such number that such Temporary Trustees may constitute a majority of the Board of Trustees with relation to such property and operations of the Authority specified in said contract, in the event of a default as defined in the contract incurring said funded debt. Any such contract, if made, shall provide for the method of appointment of each such Temporary Trustee and the method of designating each permanent Trustee so to be temporarily supplanted. Each such Temporary Trustee who shall be appointed under the authority herein granted shall supplant, in all respects, the permanent Trustee so designated to the extent provided in said contract; and during the term of such Temporary Trustee, the permanent Trustee so supplanted shall be wholly without authority, duty or liability, under the terms of this instrument, insofar as the same relates to the property and operations specified in said contract. No such contract shall be authorized hereunder, however, which fails to make provisions for one or more permanent Trustees to continue with full power and authority during the term of all Temporary Trustees. All Temporary Trustees forthwith shall cease to be such upon the termination of all defaults by which their appointment would have been authorized under such contract, and the permanent Trustees so temporarily supplanted automatically shall be reinstated to full power and authority.

**(g)** All Trustees, and all Temporary Trustees appointed hereunder, shall qualify by a written acceptance of all of the terms of this instrument, duly acknowledged and filed in the same manner and in the same places that this instrument is acknowledged and

filed. All Trustees, permanent and Temporary, before assuming the powers and duties as such, also shall subscribe and file such oaths as shall be required by law of public officers of the State of Oklahoma; Provided, that if any Trustee shall have subscribed and filed such oaths to entitle him to qualify ex officio hereunder, said actions need not be duplicated.

**(h)** Upon each change of personnel of the Trustees hereunder, the Chairman of the Board of Trustees shall cause to be filed in the office of the County Clerk of Tulsa County, a certificate of the entire personnel of the Board of Trustees of the Trust.

**(i)** The acceptance of the office of Trustee of this Authority shall not constitute the Trustees hereunder, Temporary or permanent or both, to be in partnership or association. Each shall be an individual and wholly independent Trustee only.

**(j)** Notwithstanding any other provision of this instrument which shall appear to provide otherwise, no Trustee or Trustees shall have any power or authority to bind or obligate any other Trustee, or the Beneficiary or any component Beneficiary entity, in his or its individual capacity.

All persons, firms, associations, trusteeships, corporations, municipalities, governments and sovereignties contracting with any Trustee or Trustees, Temporary or permanent or both, shall take notice that all expense and obligations, and all debts, damage, judgments, decrees or liabilities incurred by any Trustee or Trustees, Temporary or permanent or both, and any of the foregoing incurred by any agent, servant or employee of the aforesaid Trustees, in the execution of the purposes of this Authority, whether arising from contract or tort, shall be solely chargeable to and payable out of the Trust Estate. In no event shall any Trustee, Temporary or permanent, in any manner be individually liable for any damage or injury to person or property, or for breach of contract or obligation, caused by, arising from, incident to, or growing out of the execution of this Authority, nor shall they, or any of them, be liable for the acts or omissions of each other, or of any agent, servant or employee of the aforesaid Trustees, or of another such Trustee; provided however, that the foregoing shall not apply to any breach of trust by any said Trustee.

## VII.
## POWERS AND DUTIES OF TRUSTEES

The Trustees, in the manner hereinafter set forth, shall do, or cause to be done, in lawful manner, all things which are incidental, necessary, proper or convenient to carry fully into effect the purposes enumerated in Section III of this instrument, the general authority hereby given being intended to make fully effective the power of the Trustees under this instrument; and said Trustees are specifically authorized (but their aforesaid general powers not limited thereby, notwithstanding any such specification), in effecting said purposes:

**(a)** To enter in and conduct and execute, apply for, purchase, or otherwise acquire franchises, property (real or personal and/or mixed), contracts, leases, rights, privileges, benefits, choses in action, or other things of value, and to pay for the same in cash, with bonds or evidences of indebtedness or otherwise;

**(b)** To acquire, own, hold, manage, and in any manner to convey, assign, dispose of, liquidate, compromise, or realize upon any contract, lease, right, privilege, benefit, chose in action, franchise, property (real or personal), or other thing of value, and to exercise all of the powers necessary or convenient in respect of same;

**(c)** To guarantee, acquire, purchase, hold, sell, assign, transfer, encumber, dispose of, and deal in the stocks, bonds, debentures, shares or evidences of interest or indebtedness of any corporation, association, municipality, government, sovereignty, trusteeship, firm, or individual, to enter into and perform any lawful contract in relation thereto, and to exercise all of the rights, powers and privileges in relation thereto to the same extent as a natural person might or could do;

**(d)** To enter into, make and perform contracts of every lawful kind, including, but not restricted to, management contracts, with any person, firm, association, corporation, trusteeship, municipality, government or sovereignty; and without limit as to amount, to draw, make, accept, indorse (sic), assume, guarantee, discount, execute and issue promissory notes, drafts, bills of exchange, acceptance, warrants, bonds, debentures, and other negotiable and transferable, or non-negotiable or non-transferable, instruments, obligations and evidences of secured or unsecured indebtedness, and if secured by mortgage, deeds of trust, or otherwise, upon any or all property of the Trust, and to pledge any or all income of the Trust, in the same manner and to the same extent as a natural person might or could do;

**(e)** To collect and receive any property, money, rents, or income of any sort, and to distribute the same, or any portion thereof, for the furtherance of the purposes enumerated in Section III of this instrument.

**(f)** The Trustees shall hold the legal title to all property at any time belonging to the Trust Estate in the name of the Trustees, and shall have and exercise exclusive management and control of the same, for the use and benefit of the Beneficiary, in the execution of the purposes of this Authority, and the right of said Trustees to manage, control and administer the said Authority, its properties, assets and business, shall be absolute and unconditional, free from the direction, control or management of the Beneficiary or any person or persons whatsoever other than a court of competent jurisdiction so to do.

**(g)** The Trustees may employ such agents, servants, and employees as they deem necessary, proper or convenient, and shall prescribe their duties and fix their compensation.

**(h)** The Trustees may contract for the furnishing of any services or the performance of any duties that they deem necessary, proper or convenient and pay for the same as they see fit to provide in such contract.

**(i)** The Trustees, by Resolution, may divide the duties of the Trustees hereunder, delegating all or any part of such duties to one or another of the Trustees as much as possible; but where specific duties are not delegated, a majority of the Trustees must act for the Authority.

**(j)** The Trustees may be compensated in the manner now provided by the Oklahoma Trust Act for services actually rendered and responsibility assumed; but not ex officio Trustee shall be compensated in any manner from the Trust Estate.

**(k)** The Trustees shall, in the name of the Authority as set forth in Section II hereof, or in their names as Trustees, bring any suit or action which, in their judgment, shall be necessary, proper, and convenient to protect the interests of the Authority, or to enforce any claim, demand or contract for the Authority, or to enforce any claim, demand or contract for the benefit thereof; and they likewise shall defend, in

their discretion, any suit against the Authority, or the Trustees or employees, agents or servants thereof. And the Trustees are expressly authorized, in their discretion, to compromise and settle prior to judgment any suit, action, claim or proceeding to which the Authority is interested, and to discharge the same out of the Trust Estate; and they specifically are authorized to pay or transfer out of the Trust Estate all sums of money or property necessary to discharge any judgment or decree rendered against them, or the Authority, together with all court or other costs, including counsel and attorney's fees, and also to pay out of the Trust Estate such sums of money, or transfer appropriate property thereof, for the purpose of settling, compromising or adjusting any claim or controversy, together with all costs and expenses connected therewith, and all such expenditures and transfers shall be treated as expenses of executing their trust.

**(l)** No bond shall be required of the Trustees, or any of them, unless they, by appropriate Resolution, so provide.

**(m)** All proceedings of the Trustees and all Resolutions adopted by them shall be kept in a record book and shall be subject to inspection, during customary business hours as public records of the State of Oklahoma.

**(n)** At their first meeting, the Trustees shall designate the time and place for regular meetings, which time and place shall not thereafter be changed unless at a meeting where all Trustees are present. ## THE TRUSTEES

**(a)** The Trustees hereunder, and their successors, do hereby contract, agree and covenant between themselves, with and to the State of Oklahoma, and with and to the Beneficiary hereinafter described, as by law now in force and effect, that they will execute the Trust herein declared, created and constituted, as Trustees for the Beneficiary as hereinafter specified, and that they do and will receive, hold and administer the Trust Estate hereinabove described in trust, solely for the use and benefit of the said Beneficiary in the manner provided in this instrument, or in the absence of applicable provisions herein then in the manner provided by now existing law.

**(b)** The Trustees of the Authority shall be the following persons:

**1.** For six (6) months from the effective date of this Trust and thereafter until such time that not less than five (5) of the persons of any single class specified in the next sub-paragraph (2) shall have qualified as Trustees in the manner provided in paragraph (f) of this Section, the persons executing this instrument as Trustees shall be and constitute the Trustees of the Authority; and they and their respective successors (unless temporarily replaced pursuant to paragraph (e) of this Section) shall continue as the sole Trustees of the Authority until five (5) or more of the persons of any single class as aforesaid shall have so qualified. In the event of a vacancy, the remaining of said Trustees shall fill the same.

**2.** From and after the qualification, in the manner provided in paragraph (f) of this Section, of five (5) or more thereof, the Trustees of the Authority shall be ex officio the same persons that currently are members of the Utility Board of the City of Tulsa, Oklahoma, without distinction as to office held on said Board: Provided, in the event that the greater portion of the duties and powers of said Utility Board, relevant to the operational purposes of the Authority, shall be transferred to any other governmental officer, board, agency or instrumentality of the said City of Tulsa, every provision of this instrument referring to said Utility Board, or the persons who currently are members thereof, thereafter shall mean the latter and the personal incumbency thereof as the case may be: and Provided further, that if the Trustees of the Authority shall be persons who were members of said Utility Board at the time of their qualification as Trustees, said Trustees shall continue as sole Trustees until a majority of the persons entitled to trusteeship pursuant to the foregoing proviso shall have qualified in the manner provided in paragraph (f) of this Section. All provisions of this sub-paragraph shall be subject, however, to the provisions of paragraph (e) of this Section.

**3.** Notwithstanding anything to the contrary contained in sub-paragraph 2 of this Section, if at any time the number of persons eligible as a class to ex officio Trusteeship shall be reduced by governmental action, any person who, by such action, shall cease to be a member of said class forthwith shall cease to be a Trustee.

**(c)** Except as hereinbefore provided, each qualified Trustee shall continue as such until his successor shall have qualified as provided in paragraph (f) of this Section.

**(d)** The determination of the fact of a vacancy in a Trusteeship and of any right to qualify to Trusteeship shall be vested exclusively in the remaining Trustees, and their determination shall be final.

**(e)** The Trustees may contract, in connection with the incurring of any funded debt secured by the Trust Estate and/or its revenues, or any part of either or both, that Temporary Trustees may be appointed to act in place and instead of permanent Trustees, in respect of any part or all of the Trust Estate, in such number that such Temporary Trustees may constitute a majority of the Board of Trustees with relation to such property and operations of the Authority specified in said contract, in the event of a default as defined in the contract incurring said funded debt. Any such contract, if made, shall provide for the method of appointment of each such Temporary Trustee and the method of designating each permanent Trustee so to be temporarily supplanted. Each such Temporary Trustee who shall be appointed under the authority herein granted shall supplant, in all respects, the permanent Trustee so designated to the extent provided in said contract; and during the term of such Temporary Trustee, the permanent Trustee so supplanted shall be wholly without authority, duty or liability, under the terms of this instrument, insofar as the same relates to the property and operations specified in said contract. All Temporary Trustees forthwith shall cease to be such upon the termination of all defaults by which their appointment would have been authorized under such contract, and the permanent Trustees so temporarily supplanted automatically shall be reinstated to full power and authority.

**(f)** All Trustees, and all Temporary Trustees appointed hereunder, shall qualify by a written acceptance of all of the terms of this instrument, duly acknowledged and filed in the same manner and in the same places that this instrument is acknowledged and filed. All Trustees, permanent and Temporary, before assuming the powers and duties as such, also shall subscribe and file such oaths as shall be required by law of public officers of the State of Oklahoma: Provided, that if any Trustee shall have subscribed and filed such oaths to entitle him to qualify ex officio hereunder, said actions need not be duplicated.

**(g)** Upon each change of personnel of the Trustees hereunder, the Chairman of the Board of Trustees shall cause to be filed in the office of the County Clerk of each county in which this Declaration of Trust is filed, a certificate of the entire personnel of the Board of Trustees of the Trust.

**(h)** The acceptance of the office of Trustee of this Authority shall not constitute the Trustees hereunder, Temporary or permanent or both, to be in partnership or association, Each shall be an individual and wholly independent Trustee only.

**(i)** Notwithstanding any other provision of this instrument which shall appear to provide otherwise, no Trustee or Trustees shall have any power or authority to bind or obligate any other Trustee, or the Beneficiary or any component Beneficiary entity, in his or its individual capacity.

All persons, firms, associations, trusteeships, corporation, municipalities, governments and sovereignties contracting with any Trustee or Trustees, Temporary or permanent or both, shall take notice that all expense and obligations, and all debts, damage, judgments,

decrees or liabilities incurred by any Trustee or Trustees, Temporary or permanent or both, and any of the foregoing incurred by any agent, servant or employee of the aforesaid Trustees, in the execution of the purposes of this Authority, whether arising from contract or tort, shall be solely chargeable to and payable out of the Trust Estate. In no event shall any Trustee, Temporary or permanent, in any manner be individually liable for any damage or injury to person or property, or for breach of contract or obligation, caused by, arising from, incident to, or growing out of the execution of this Authority, nor shall they, or any of them, be liable for the acts or omissions of each other, or of any agent, servant or employee of the aforesaid Trustees, or of another such Trustee; provided however, that the foregoing shall not apply to any breach of trust by any said Trustee.

**(a)** The term "Beneficiary" as used in this instrument collectively and severally shall denote the corporate governmental entities for which the Authority shall be furnishing and providing, or proposes to furnish and provide the services and facilities described in Section III of this instrument, or any part thereof, and which shall have accepted beneficial interest under this instrument as provided by law, as follows:

**3.** In the manner provided by Title 60, section 180, Oklahoma Statutes, 1951; provided, however, that this trust shall not be terminated by voluntary action if there be outstanding indebtedness or fixed term obligations of the Trustees unless all owners of such indebtedness and obligations, or one authorized by them so to do, shall have consented in writing to such termination.

**(b)** This trust shall terminate as to any component entity of the Beneficiary:

**1.** When the purposes set forth in Section III of this instrument shall have been fulfilled in relation to said entity; or

**2.** In the event of the happening of any event or circumstance that would prevent said purposes from being executed and fulfilled in relation to said entity AND all of the trustees and the governing body of such component entity, with the approval of the Governor of the State of Oklahoma, shall agree that such event or circumstance has taken place; provided, however, that all indebtedness of the Authority in any manner payable from operations of the Authority, relating to said component entity, shall have been paid; or

## APPENDIX II AMENDENT TO TRUST INDENTURE (SECTIONS 302, 303, AND 304)

*("Exhibit A" in Ord. No. 15943)*

KNOW ALL MEN BY THESE PRESENTS:

This Amendment to Trust Indenture dated the 14th day of December, 1983, by and among the Board of Commissioners of The City of Tulsa, Oklahoma, the Utility Board of The City of Tulsa, Oklahoma (the "Board") and the Tulsa Metropolitan Water Authority (the "Authority") hereby amends the original Trust Indenture dated April 5, 1957, forming and creating the said Authority in the following respects:

**(A)** Subsection (e) of Section III of said Trust Indenture is amended to read as follows:

(e) To expend any funds coming into the hands of the Trustees as revenues or otherwise, in the enlargement, maintenance and operation of the Trust Estate and in payment of the costs and expenses of executing the purposes of the Authority, including (without limitation by specification) the payment of all indebtedness and obligations incurred for trust purposes or properly chargeable against the Trust Estate; and to expend or distribute any residue or remainder of the said funds or any other of the Trust Estate for the benefit of or to the components of the Beneficiary as set forth in Section VIII of this instrument, this to include, but not be limited to, the expenditure or obligation of such residue or remainder or any part thereof for purposes directly related to improvement of the working conditions and/or security of any one or more classes of employees of the Trust or of the Beneficiary.

**(B)** Section IV of said Trust Indenture is amended to read as follows:

**IV.**
**DURATION**

This Authority shall have duration for the term of duration of the Beneficiary as hereinafter described, and until such time as its purposes shall have been fully executed and fulfilled, or until it shall be terminated as hereinafter provided.

**(C)** Section VI of said Trust Indenture is amended to read as follows:

**VI.**
**THE TRUSTEES**

(a) The Trustees hereunder, and their successors, do hereby contract, agree and covenant between themselves, with and to the State of Oklahoma, and with and to the Beneficiary hereinafter described, as by law now in force and effect, that they will execute the Trust herein declared, created and constituted, as Trustees for the Beneficiary as hereinafter specified, and that they do and will receive, hold and administer the Trust Estate hereinabove described in trust, solely for the use and benefit of the said Beneficiary in the manner provided in this instrument, or in the absence of applicable provisions herein then in the manner provided by now existing law.

(b) Those persons who are members of the utility Board of the City of Tulsa as said Board is from time to time constituted shall serve ex officio as the Trustees of this Authority. Each successor to a member of the Utility Board shall, without

any further act, deed or conveyance other than those provided in subsection (d) of this section become a Trustee of this Trust and become fully vested with all the estate, properties, rights, powers, duties and obligations of his predecessor hereunder with like effect as if originally named as a Trustee herein.

(c) The Commissioner of Waterworks and Sewerage of the City of Tulsa shall ex officio serve as the Chairman of the Trustees and preside at all meetings and perform other duties designated by the Trustees. The Trustees may elect from their members a Vice-Chairman and a Secretary. The Vice-Chairman shall act in place of the Chairman during the latter's absence or incapacity to act.

(d) All Trustees shall qualify by a written acceptance of all of the terms of this instrument, duly acknowledged and filed in the offices of the Authority. All Trustees also shall subscribe and file such oaths as shall be required by law of public officers of the State of Oklahoma: Provided, that if any Trustee shall have subscribed and filed such oaths to entitle him to qualify ex officio hereunder, said actions need not be duplicated.

(e) The Trustees may contract, in connection with the incurring of any funded debt secured by the Trust Estate and/or its revenues, or any part of either or both, that Temporary Trustees may be appointed to act in place and instead of permanent Trustees, in respect of any part or all of the Trust Estate, in such number that such Temporary Trustees may constitute a majority of the Board of Trustees with relation to such property and operations of the Authority specified in said contract, in the event of a default as defined in the contract incurring said funded debt. Any such contract, if made, shall provide for the method of appointment of each such Temporary Trustee and the method of designating each permanent Trustee so to be temporarily supplanted. Each such Temporary Trustee who shall be appointed under the authority herein granted shall supplant, in all respects, the permanent Trustee so designated to the extent provided in said contract; and during the term of such Temporary Trustee, the permanent Trustee so supplanted shall be wholly without authority, duty or liability, under the terms of this instrument, insofar as the same relates to the property and operations specified in said contract. No such contract shall be authorized hereunder, however, which fails to make provision for one or more permanent Trustee to continue with full power and authority during the term of all Temporary Trustees. All Temporary Trustees forthwith shall cease to be such upon the termination of all defaults by which their appointment would have been authorized under such contract, and the permanent Trustees so temporarily supplanted shall be reinstated to full power and authority.

(f) Bonds, notes or other evidences of indebtedness of the Trust, together with all interest and premium or penalty thereon, shall not constitute an indebtedness, general or special, or liability of the State of Oklahoma or any political subdivision thereof, including the Beneficiary, and shall contain express provisions to such effect and to the effect that (i) neither the faith and credit nor the taxing power of the State or any political subdivision thereof, including the Beneficiary, is pledged to the payment of the principal of, premium or penalty, if any, or interest thereon, and (ii) such indebtedness is not a personal

obligation of any Trustee, officer, employee or agent of the Trust. Bonds, notes or other evidences of indebtedness shall be limited and special revenue obligations of the Trust and shall set out therein the revenues from which the same shall be payable and the property constituting the Trust Estate, or such portion thereof, which shall be assigned and pledged by the Trust to secure the payment thereof.

(g) The Trustees and the officers, employees and agents of the Trust shall not be charged personally with any liability whatsoever by reason of any act or omission committed or suffered in good faith or in the exercise of their honest discretion in the performance of such Trust or in the operation of the Trust Estate; but any act or liability for any omission or obligation of the Trustees in the execution of this Trust, or in the operation of the Trust Estate, shall extend to the whole of the Trust Estate or so much thereof as shall be assigned and pledged as security therefor to the extent necessary to discharge such liability or obligation.

The Trustees shall, however, have the authority to purchase personal liability insurance, assuming such insurance is commercially feasible and it is economically feasible to do so, insuring themselves individually, as well as any of the officers, agent and employees of the Trust or the Trustees shall deem necessary or desirable, in the performance of their respective obligations and responsibilities under the Trust.

(h) The acceptance of the office of Trustee of this Authority shall not constitute the Trustees hereunder, Temporary or permanent or both, to be in partnership or association. Each shall be an individual and wholly independent Trustee only.

(i) Notwithstanding any other provisions of this instrument which shall appear to provide otherwise, no Trustee or Trustees shall have any power or authority to bind or obligate any other Trustee, or the Beneficiary, in his or its individual capacity.

All persons, firms, associations, trusteeships, corporations, municipalities, governments and sovereignties contracting with any Trustee or Trustees, Temporary or permanent or both, shall take notice that all expense and obligations, and all debts, damage, judgments, decrees or liabilities incurred by any Trustee or Trustees, Temporary or permanent or both, and any of the foregoing incurred by any agent, servant or employee of the aforesaid Trustees, in the execution of the purposes of this Authority, whether arising from contract or tort, shall be solely chargeable to and payable out of the Trust Estate. In no event shall any Trustee, Temporary or permanent, in any manner be individually liable for any damage or injury to person or property, or for breach of contract or obligation, caused by, arising from, incident to, or growing out of the execution of this Authority, nor shall they, or any of them, be liable for the acts or omissions of each other, or of any agent, servant or employee of the aforesaid Trustees, or of another such Trustee; provided, however, that the foregoing shall not apply to any breach of trust by any said Trustee.

**(D)** Subsection (f) of Section VII of said Trust Indenture is amended to read as follows:

(f) The Trustees shall hold the legal title to all property at any time belonging to

the Trust Estate in the name of the Trustees, and shall have and exercise exclusive management and control of the same, for the use and benefit of the Beneficiary, in the execution of the purposes of this Authority, and the right of said Trustees to manage, control and administer the said Authority, its properties, assets and business, shall be absolute and unconditional, free from the direction, control or management of the Beneficiary, or any person or persons whatsoever other than a court of competent jurisdiction so to do.

**(E)** Subsection (n) of Section VII of said Trust Indenture is amended to read as follows:

(n) At their first meeting, the Trustees shall designate the time and place for regular meetings, which time and place shall not thereafter be changed unless at a meeting where a majority of the Trustees are present: Provided, that when all qualified Trustees are ex officio, a regular meeting may be held immediately following any meeting of the official body of which the said ex officio Trustees are the incumbents; provided, in all cases the Trustee shall comply in every respect with the requirements of State law in respect to notice posted or delivered for all regular and special meetings.

**(F)** Section VIII of said Trust Indenture is amended to read as follows:

**VIII.**
**BENEFICIARY**

(a) The Beneficiary under this instrument shall be the incorporated City of Tulsa, Oklahoma;

(b) The Beneficiary shall have no legal title, claim or right to the Trust Estate, or any part thereof, other than as provided by presently existing law relating to the title and interest of a beneficiary in trust property; neither shall the Beneficiary thereof, as such have any authority, power or right whatsoever to do or transact any business whatsoever for, or on behalf of, or binding upon the Trustees or upon the Trust Estate; neither shall the Beneficiary, as such, have any right to control or direct the actions of the Trustees in respect of the Trust Estate, or any part thereof; nor shall the Beneficiary have any right to demand or require a partition or distribution of the Trust Estate, or any part thereof. The Beneficiary shall be entitled solely to the benefits of this trust, as administered by the Trustees hereunder, and at the termination of this Trust, in whole or in part, all distributions and benefit expenditures shall be made to or among the Beneficiary or Beneficiaries as the Trustees and the governing body of the City of Tulsa may direct.

(c) Upon approval by the Board of Commissioners for The City of Tulsa and the Trustees of the Authority, and the appropriate acceptance of the beneficial interest thereby, any city, town or county may be added as a beneficiary under this Indenture. In such a case, all references to Beneficiary used herein shall be deemed, to the extent necessary, to refer to all political subdivisions, including The City of Tulsa, Oklahoma, which have accepted beneficial interest in this Trust.

**(G)** Section IX of said Trust Indenture is amended to read as follows:

## IX.
## MODIFICATION AND TERMINATION

(a) This Trust Indenture may be amended by a unanimous vote of all Trustees then in office, provided that such amendment shall be further approved by the governing board of The City of Tulsa, Oklahoma, as the original Beneficiary, before becoming effective.

Notwithstanding the foregoing, however, this Trust Indenture shall not be subject to alteration, amendment, revision or modification in any manner which would be adverse to the interest of the holders of any bonds, notes or other evidences or indebtedness of the Trust without the consent of holders of indebtedness who would be adversely affected, which consent may be given by less than all of such holders, if so provided in any resolution, indenture or agreement relating to such indebtedness; provided, that the Trustees may rely conclusively upon the advice of counsel, who may be counsel for the Trust, in determining that any such amendment would not be adverse to the interest of the holders of any bonds, notes or other evidences of indebtedness of the Trust.

(b) This trust shall be irrevocable by the Trustors or the Trustees and shall terminate:

**1.** When the purposes set forth in Section III of this instrument shall have been fully executed and fulfilled; or

**2.** Upon the happening of any event or circumstance that would prevent said purposes form being executed and fulfilled; provided that all of the Trustees and the governing body of the Beneficiary hereunder, shall agree that such event or circumstance has taken place; and provided, further, that all indebtedness of the Authority shall have been paid; or

**3.** In the manner provided by Title 60, Section 180, Oklahoma Statutes, 1951; provided, however, that this trust shall not be terminated by voluntary action if there be outstanding indebtedness or fixed term obligations of the Trustees unless all owners of such indebtedness and obligations, or one authorized by them so to do, shall have consented in writing to such termination.

(c) Upon complete termination of this trust, the Trustees shall proceed to wind up all of the affairs of the Authority affected by such termination, and after payment of all debts and obligations affected by such termination, out of the Trust Estate to the extent thereof, shall distribute the residue of the Trust Estate hereunder in the manner provided in Section VIII. Upon any distribution as aforesaid, the powers, duties and authority of the Trustees hereunder shall cease as to all services, facilities and properties involved in such distribution.

**(H)** Otherwise the original Trust Indenture shall remain in full force and effect.

COVENANTS AND AGREEMENTS OF THE CITY

In consideration of the covenants and agreements of the AUTHORITY, the AUTHORITY has agreed to establish and maintain the Operating Fund and the CITY will upon the delivery of the AUTHORITYS Bonds transfer funds to the Operating Fund to be used for the purposes specified herein. In connection with the Operating Fund the City shall act as the fiduciary-agent of the AUTHORITY, and the CITY shall promptly apply the moneys deposited therein to the uses and purposes specified in this Agreement and the Indenture. Subject to the proviso herein expressed the CITY may elect to deposit certain funds in the Operating Fund of the AUTHORITY and the CITY'S designated representative shall be empowered to draw upon such Operating Funds for the specific purposes prescribed in the Indenture. The AUTHORITY by official action shall designate an individual employee of the City as the CITY'S representative for purposes and uses of the Operating Fund. The

CITY and the UTILITY BOARD during the term of this Agreement subject to the inherent powers, duties and limitations expressed in the CITYS charter and applicable State law agree to cooperate and together to:

**A.** cooperate with the AUTHORITY in the adoption and approval of a schedule of uniform and non-discriminatory rates, fees and charges for the use of the SYSTEM and the facilities and services thereof all in accordance with the provisions set forth in the Indenture.

**B.** bill and collect rates, fees, tariffs and charges to each and every user of the SYSTEM and the facilities and services thereof and to enforce the payment of same by all available legal means including curtailment of service, and not to permit any free use of the SYSTEM and the facilities and services thereof except as may be furnished to or used by the CITY for municipal purposes and functions.

**C.** deposit the Gross Revenues on a daily basis, or as soon as practicable, to the credit of the Revenue Fund created pursuant to the Indenture or in the alternative subject to the conditions expressed herein to the Operating Fund as permitted by the Indenture or paragraph G of this Article III.

**D.** transfer funds from the Operating Fund of the Authority on or before the 25th day of each month in an amount sufficient to make all payments required under Section 5.05 paragraphs (1), (3), (4), (5) and (6) of the Indenture for the next succeeding month.

**E.** maintain books, accounts and records pertaining to the Operation and Maintenance Expenses of the SYSTEM, to account for such Operation and Maintenance Expenses and expenses for repairs, replacements and betterments of the SYSTEM; to account for all General Obligation Water Bond Contributions and Water Main Extension Payments and the General Fund Transfers remitted or caused to be remitted by the terms of the Indenture and to account for the General Fund Transfers, caused to be transferred in the manner prescribed herein or in the Indenture.

**F.** report or cause reports and recommendations, required to be submitted pursuant to the Indenture, to be furnished to the AUTHORITY (including but not limited to the direction as to the General Fund Transfers, projected monthly Operation and Maintenance Expenses, and recommendations as to the Renewal and Replacement Fund requirement).

**G.** Upon receipt of the Gross Revenues into the Revenue Fund, but in no case later than the 20th day of each month the Authority is to make (or cause to be made) the transfers or payments in the amounts and in the order of priority set-out in Section 5.05, of the Indenture. Provided however, if after the first month from the date of delivery of the Bonds and on or before the 25th day of each month thereafter the AUTHORITY shall have transferred from the Operating Fund to the Revenue Fund the amounts required under Section 5.05, paragraphs (1),(3),(4),(5) and (6) of the Indenture, the deposit of daily collections of Gross Revenues into the Revenue Fund shall not be required and such collections may be placed directly into the Operating Fund to be transferred as set-forth in the Indenture.

Assuming the timely application of the monies in the Operating Fund for the purposes above prescribed in paragraphs (1),(3),(4),(5) and (6) of Section 5.05 of the

Indenture, the Operating Fund shall be used to make the remaining transfers required by Section 5.05 of the Indenture. Under the terms of the proviso on or before the 10th of each month, the CITY shall advise the AUTHORITY by written statement of the sum of the actual monthly Operation and Maintenance Expenses for the last preceeding (sic) calendar month, and no later than the 20th day of each month the AUTHORITY shall provide for the payment of such Operation and Maintenance Expenses. Any failure to remit on the 25th day of each month the payments required to be made in the following month by Section 5.05 paragraphs (1),(3),(4),(5) and (6) of the Indenture, shall result in the daily deposit of Gross Revenues directly into the Revenue Fund, unless and until the AUTHORITY shall make current such remittances by the twenty-fifth (25th) day of the month.

**H.** prepare and file with the TRUSTEE written monthly statements, as follows: (a) on or before the 10th day of each month the actual Operation and Maintenance Expenses for the last preceeding (sic) calendar month and specifically setting-forth that amount either in excess of or less than the amount enumerated in the AUTHORITYS Annual Budget; (b) the CITYS require monthly General Obligation Water Bond Contribution if any, calculated for the last preceeding (sic) calendar month, and (c) the CITYS monthly obligation under the Water Main Extension Payments, if any, calculated for the last preceeding (sic) calendar month, and (d) the CITYS monthly General Fund Transfer calculated for the last preceeding (sic) calendar month. **J.** in the case of any monthly payments made on behalf of the AUTHORITY by the CITY from the Operating Fund and deposited into the various CITY funds and accounts established therefor, the CITY shall in all cases verify, receipt and account for such payments and transfers to the satisfaction of the AUTHORITY and the TRUSTEE.

**M.** cause the SYSTEM to be operated and maintained in first class condition and kept in good repair and not commit or allow any waste with respect to any of said property and to pay or cause to be paid or reimburse the CITY for the payment of the Operation and Maintenance Expenses of the SYSTEM. The term "Operation and Maintenance Expense(s)" means the reasonable and necessary current expenses of the AUTHORITY, the CITY or the UTILITY BOARD paid or accrued in operating, maintaining, repairing and insuring the SYSTEM, determined in accordance with generally accepted accounting procedures.

**N.** carry the insurance required to be carried by the AUTHORITY under the terms of the Indenture pertaining to any indebtedness incurred by the AUTHORITY.

**O.** keep the SYSTEM and each and every part thereof free and clear from all liens, claims and encumbrances of any nature or character whatever to the end and purpose that the priority of the liens and pledge provided for in the Indenture or other instruments securing or pertaining to any indebtedness of the AUTHORITY may at all time be maintained and preserved as paramount and superior.

**P.** take all necessary and appropriate actions to assist the AUTHORITY in observing and performing all of its duties and obligations imposed under any Indenture securing any of the indebtedness including but not limited to, the institution and protection of appropriate proceedings in eminent domain, and any and all action required to protect the resources required for the provision of a water supply adequate to meet the needs of the SYSTEM.

**Q.** take all prompt and diligent action necessary as it relates to the AUTHORITYS duty to establish and refer, or cause to be established and referred, for approval any revision of rates, fees and charges for the use of the SYSTEM and the facilities and services thereof so as to produce sufficient Gross Revenues to meet all legal requirements of the CITY, the AUTHORITY and the Indenture.

**R.** construct or assist the Authority in constructing any project and to provide for the supervision and administration of contracts for construction of the projects to be undertaken with the proceeds of any indebtedness or other available funds of the AUTHORITY, and the proceeds of any grants or gifts made available to the CITY by the AUTHORITY or any federal, state or private entity; to encumber (or to otherwise provide for the encumberance [sic]) said funds transferred to the CITY for purposes of constructing or acquiring (System) projects or materials; and further, to assist the AUTHORITY in advertising and preparing all documentation necessary to comply with the bidding requirements established by Oklahoma Law and to the extent the AUTHORITY provides funds the CITY hereby convenants (sic) to complete, or cause the completion, of the project or projects in accordance with the specification furnished by the AUTHORITY, the UTILITY BOARD and the CITY.

**S.** assist the AUTHORITY in the preparation of its Annual Budget. In this connection the information to be furnished by the CITY shall include but not necessarily be limited to: (i) monthly estimates based on historical data pertaining to Operation and Maintenance Expenses, (ii) estimates of renewal and replacement deposits for additions, respairs (sic) or betterments of the System, (iii) the monthly General Obligation Water Bond Contribution and Water Main Extension Payments and (iv) the estimated monthly General Fund Transfers set-forth as a percentage of Gross Revenues. The City shall be required to review and in its discretion approve the AUTHORITY'S Annual Budget prior to the same becoming effective.

**T.** provide the AUTHORITY no later than July 1 of each year with a certified copy of the offical (sic) action of the City whereby the City in its sole discretion assesses and establishes the General Fund Transfer, if any, set-forth as a percentage of Gross Revenues.

**U.** observe, abide by, perform and comply with all (a) conditions, requirements, duties and obligations intended to be performed by the CITY the terms of the Indenture or other instrument securing or pertaining to any indebtedness incurred by the AUTHORITY pertaining to the SYSTEM to the extent such Indenture shall have

been approved by the CITY, and (b) all requirements now or hereafter during the terms of this Agreement imposed by statute, rule, regulation or order enacted, adopted or issued by any competent governmental agency or authority (whether state or federal, legislative, executive or judicial).

**V.** In the event of the default of the AUTHORITY under the Indenture resulting in the appointment of a receiver or trustee (whether temporary or permanent) for the SYSTEM, perform all covenants and agreements contained herein with respect thereto, and if ordered by competent decree, to surrender possession of the SYSTEM for operating to such receiver or trustee.

**W.** So long as any bonds are outstanding under the Indenture, the City agrees not to issue any general obligation bonds for water system purposes, unless any resulting additional General Obligation Water Bond Contribution shall remain subordinated to all other Indenture payments. This covenant does not constitute a complete prohibition against the CITYS issuing such general obligation bonds in the future but does impose the condition that in order to do so, the Indenture must first be defeased, discharged or otherwise provided for to the satisfaction of the AUTHORITY and the TRUSTEE and this Agreement shall have been terminated.
