**4.** That any attempt to divert any of such funds to other purposes or projects or any failure to give high priority to the completion of such projects shall constitute a breach of the official City policy herein established; shall be a violation of the terms, spirit and purpose of this chapter; and shall constitute sufficient grounds for the removal of such officer or employee from his or her office or position; and

**5.** That a Special Temporary Sales Tax Fund 2008 will be created to which all of the sales tax received from such temporary sales tax, and the interest thereon, will be appropriated and deposited on a monthly basis as soon as received by the City; that all expenditures for the projects and purposes herein enumerated shall be made from such Special Temporary Sales Tax Fund 2008; that an accurate record of the status of such fund shall be maintained by the Mayor or the Mayor's designee and shall be available for inspection by any person during normal office hours.

**B. Specific projects and purposes.** The only projects and purposes for which expenditures of proceeds from the temporary sales taxes may lawfully be made are as set forth below:

**1.** The projects and purposes listed in Title 43-F, which shall be given funding priority over the projects listed in Section 100.B.2 of this Chapter. Provided, however, that any revenue bond funding package may include additional project(s) as listed in Section 100.B.2, so long as the projects listed in Title 43-F have been previously funded for the amounts set forth in Title 43-F, or the projects listed in Title 43-F will be funded by the proposed revenue bond funding package for the amounts set forth in Title 43-F.

**2.** New Special Temporary Sales Tax Fund 2008 projects and purposes for which expenditures of proceeds from the temporary sales tax may lawfully be made are as follows:

**C. Cost estimates.** While the cost estimates shown above are believed to be accurate, it must be recognized that the exact cost of each project may vary from the estimate shown.

**D.** The Mayor and the City Council shall determine project priority on an annual basis through the budget process.

It is the intention of the City of Tulsa and is the official City policy herein established that all such projects shall be completed as funds are made available.

If, on or after June 30, 2014, the Council has determined that all of the projects listed in Subsection B, above, will be completed with existing and projected funds and that excess funds will be available for additional projects, the Council will so advise the Mayor, and such excess funds shall be expended for capital projects. All such additional projects shall be recommended by the Mayor and approved by the Council.

*(Ord. No. 21878, § 1, 8-28-2008; Ord. No. 23321, § 1, 6-25-2015)*

**Section 101. Sales Tax Overview Committee.**

**A. Committee created.** There is hereby created a committee which shall be known as the Sales Tax Overview Committee (STOC) 2008 Temporary Tax which shall consist of twenty-one (21) citizens who shall be qualified electors of the City of Tulsa. The members shall serve without compensation. No member of the Committee shall be an elected public official. The Committee shall terminate when all funds generated by the Special Extended Sales Tax 2008 have been expended.

**B. Appointment and terms.** Members of the Sales Tax Overview Committee 2006 Extension shall continue to serve as the STOC 2008 Temporary Tax. Terms shall be as provided by Title 43-C. All members of the Committee shall serve until their respective successors are appointed and qualified.

**C. Vacancies.** In the event of vacancies on the Committee, appointments to fill such vacancies shall be for the remainder of the unexpired terms. A member of the Committee shall have vacated his or her position on the Committee if such member fails to attend three (3) consecutive meetings; provided, however, that the vacancy so created shall not prohibit the reappointment to the Committee of such member.

**D. City Clerk to maintain Committee roster.** All appointments to the Committee shall be filed with the City Clerk of the City of Tulsa, and the City Clerk shall maintain a list of the current members of the Committee.

**E. Elected officials, municipal personnel and agencies to assist.** The facilities, personnel, elected officials and agencies of the municipal government are hereby directed to be available and to cooperate with the Committee to accomplish the objectives and purposes herein set forth. Copies of City reports and records pertaining to the receipts and expenditures of the proceeds of the sales tax extension shall be made available to the Committee upon request.

**F. Monthly report to Overview Committee.** The Mayor or the Mayor's designee shall provide to the Sales Tax Overview Committee and the City Council a monthly report on the status of the Special Temporary Sales Tax Fund 2008 and the projects listed in this chapter. The monthly report shall include, with reference to each project, current information on:

**1.** The estimated cost;

**2.** The amount of total appropriations;

**3.** The amount of total expenditures;

**4.** A statement of completion status;

**5.** A summary of all budget transfers; and

**6.** The amount of any unencumbered and unallocated fund balance within the Special Temporary Sales Tax Fund 2008.

Said monthly report shall be in addition to any reports that the Mayor or the Mayor's designee is required by law to provide.

**G. Meetings and report of Overview Committee.** The Committee shall meet at least once each month beginning with the month of January, 2009. The monthly meeting shall be at least seven (7) days prior to the first meeting of the Council in the following month. At the first meeting of the Council of each month, beginning with the month of February, 2009, the Chairman or other member designated by the Committee shall attend the regular meeting of the Council of the City of Tulsa and make any report, comment or recommendation which the Committee deems to be warranted or, at the option of the Committee, a written report from the Committee may be submitted monthly to the Council. A time for the presentation of such report shall be reserved on the agenda for the first City Council meeting of every month beginning February, 2009, until the sales tax revenues have been fully expended for the projects and purposes set forth in this title.

*(Ord. No. 21878, § 1, 8-28-2008)*

## Section 102. Establishment of Special Temporary Sales Tax Fund 2008 for revenue from the temporary sales taxes.

There is hereby established a special revenue fund which shall be known as the Special Temporary Sales Tax Fund 2008 ("Special Revenue Fund").

All officers and employees of the City of Tulsa are hereby ordered to take all necessary action to cause the funds generated by the temporary sales taxes, including interest received from the investment thereof, to be deposited in the Special Revenue Fund as soon as received by the City of Tulsa.

None of the monies in the Special Revenue Fund shall ever be encumbered or expended for any purpose other than those purposes set forth in this chapter. Any violation of this provision will subject the persons violating this mandate to removal from their respective offices or positions.

The City Treasurer of the City shall take whatever action is necessary to ensure the timely investment of all monies within the Special Revenue Fund and to ensure that all such funds shall always be readily available for immediate expenditure for the projects and purposes set forth in this chapter.

The Mayor, Council and all officers and employees of the City having budgetary duties and responsibilities shall take all necessary and timely action to cause the necessary appropriation of the revenues of the temporary sales taxes to the Special Temporary Sales Tax Fund 2008, to the end that the records and data shall always be readily available, and the funds will be encumbered and expended only for the projects and purposes set forth in this chapter.

*(Ord. No. 21878, § 1, 8-28-2008)*

## Section 103. Procedure to amend or repeal this chapter.

**A. Mandatory duty of Secretary of Council.** The City of Tulsa, having made a solemn pledge to the citizens of Tulsa regarding the expenditures of the revenue from the temporary sales tax, and having enacted this chapter to establish the official City policy with regard to such revenue, hereby pledges that this chapter shall remain in force during the entire period of collection and expenditure of the revenues generated by the temporary sales taxes for the projects and purposes herein enumerated.

Any attempt to amend or repeal this chapter can lawfully occur only by placing such proposal on the official agenda of the City Council which agenda is prepared by the office of the Secretary of the Council ("Secretary").

In the event a request is ever made by any party to place the issue of the amendment or repeal of this chapter on any agenda of the City Council, the Secretary is hereby specifically prohibited from placing such issue on any such agenda until full compliance with the following requirements have been made.

**1.** The Secretary shall forthwith (within twenty-four [24] hours) notify all major newspapers, all television stations and all radio stations then located within the City of Tulsa of the request for amendment or repeal of this chapter.

**2.** The Secretary shall forthwith notify the general public of such request by a press conference officially called by the Secretary and held at the City Hall, to which all of the below-named newspapers, radio and television stations shall be invited.

**3.** The Secretary shall forthwith cause a public notice to be given in the Tulsa Daily World and The Oklahoma Eagle, specifically setting forth fully the nature, purpose and extent of the request and the date the matter will first be placed on the agenda for public hearing before the City Council, which date shall be a date more than fifteen (15) days from the date of first publication of such notice. The notice shall be published once a week for two (2) consecutive weeks.

**4.** The Secretary shall, upon performance of all of the above acts, execute and deliver to the Council of the City of Tulsa written certification as to the time and manner of the performance of the foregoing duties herein assigned, which certification shall be filed as a part of the permanent records of the City in the office of the City Clerk, and shall be available for inspection or copying at all reasonable times.

**B. Procedure before Council.** No official action shall be taken by the Council of the City of Tulsa upon any request to amend or repeal this chapter until the following acts and procedures have been complied with:

**1.** The Council shall have examined the written certification of the Secretary concerning the acts required to be performed by Subsection 103.A above, and shall have satisfied itself that all such acts have been duly and timely performed; and

**2.** The Council shall have held at least two (2) public hearings on the proposal (one (1) of which shall be held at night), which hearings shall be at least seven (7) days apart, and the first of which shall have been more than fifteen (15) days from the date of first publication of the notice given by the Secretary setting forth the nature of the request to amend or repeal this chapter as above provided.

*(Ord. No. 21878, § 1, 8-28-2008)*

# TITLE 43-H 2014 SALES TAX POLICY

## Chapter 1. Extension of 1.1% Sales Tax (Capital Projects)

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. EXTENSION OF 1.1% SALES TAX (CAPITAL PROJECTS)

Section 100. Declaration of official policy of City and pledge to the citizens.
Section 101. Sales Tax Overview Committee.
Section 102. Establishment of Special Fund for Revenue from the 2014 Extended 1.1% Sales Tax.
Section 103. Procedure to amend or repeal this chapter.

### Section 100. Declaration of official policy of City and pledge to the citizens.

**A.** The City of Tulsa hereby pledges to the citizens of Tulsa:

**1.** That all funds received by the City from extending a sales tax levy of one and one-tenth percent (1.1%) for the period of time beginning July 1, 2014, and continuing until the full amount of five hundred sixty-three million, seven hundred thousand dollars and no cents ($563,700,000.00) has been collected, but in no event continuing beyond seven (7) years, namely June 30, 2021, which will be voted upon November 12, 2013 (the "2014 Extended 1.1% Sales Tax") will be spent only for those projects and purposes set forth herein;

**2.** That none of such funds shall ever be spent for any other purpose;

**3.** That every officer and employee of the City is hereby ordered to give high priority to the completion of such projects at the earliest possible date;

**4.** That any attempt to divert any of such funds to other purposes or projects or any failure to give high priority to the completion of such projects shall constitute a breach of City policy herein established; shall be a violation of the terms, spirit and purpose of this chapter; and shall constitute sufficient grounds for the removal of such officer or employee from his or her office or position; and

**B. Specific projects and purposes.** The only projects and purposes for which expenditures of proceeds from the 2014 Extended 1.1% Sales Tax may lawfully be made are as follows:

**C. Cost estimates.** While the cost estimates shown above are believed to be accurate, the exact cost of each project may vary from the estimate shown.

**D.** The Mayor and the City Council shall determine project priority on an annual basis through the budget process.

**E.** It is the intention of the City of Tulsa and is the official City policy herein established that all such projects and purposes shall be commenced as funds are made available.

**F.** When City financial and auditing staff and the Sales Tax Overview Committee shall determine that the full amount of five hundred sixty-three million, seven hundred thousand dollars and no cents ($563,700,000,00) has been collected from this sales tax, but in no event later than seven (7) years, namely June 30, 2021, and has been devoted to the projects listed above, and so advise the Mayor and City Council, and when the Mayor and City Council approve said determination by City financial and auditing staff and the Sales Tax Overview Committee, the Mayor shall recommend to the City Council the repeal of this chapter.

**G.** If at the general election on November 12, 2013 the 2014 Extended 1.1% Sales Tax shall fail to receive the approval of a majority of voters voting thereon, then to the extent of the said failure, this Ordinance or part hereof shall have no force or effect.

*(Ord. No. 22922, § 1, 8-27-2013; Ord. No. 23322, § 1, 6-25-2015; Ord. No. 23691, § 1, 5-24-2017; Ord. No. 24027, § 1, 11-7-2018; Ord. No. 24259, § 1, 11-6-19; Ord. No. 24385, § 1, 6-17-2020; Ord. No. 24704, § 1, 10-27-2021)*

**Section 101. Sales Tax Overview Committee.**

**A. Sales Tax Overview Committee created.** There is hereby created a committee which shall be known as the 2014 Extended 1.1% Sales Tax Overview Committee (STOC) which shall consist of twenty-one (21) citizens who shall be qualified electors of the City of Tulsa. The members shall serve without compensation. No member of STOC shall be an elected public official. STOC shall terminate when all funds generated by the 2014 Extended 1.1% Sales Tax have been expended.

**B. Appointment and terms.** Members of the current STOC shall continue to serve as the 2014 Extended 1.1% STOC. Terms shall be as provided by Title 43-C. All members of STOC shall serve until their respective successors are appointed and qualified.

**C. Vacancies.** In the event of vacancies on STOC, appointments to fill such vacancies shall be for the remainder of the unexpired terms. A member of STOC shall have vacated his or her position on STOC if such member fails to attend three (3) consecutive meetings; provided, however, that the vacancy so created shall not prohibit the reappointment to STOC of such member.

**D. City Clerk to maintain STOC roster.** All appointments to STOC shall be filed with the City Clerk of the City of Tulsa, and the City Clerk shall maintain a list of the current members of STOC.

**E. Elected officials, municipal personnel and agencies to assist.** The facilities, personnel, elected officials and agencies of the municipal government are hereby directed to be available and to cooperate with STOC to accomplish the objectives and purposes herein set forth. Copies of City reports and records pertaining to the receipts and expenditures of the proceeds of the sales tax extension shall be made available to STOC upon request.

**F. Monthly report to STOC.** The Mayor or the Mayor's designee shall provide to the Sales Tax Overview Committee and the City Council a monthly report on the status of the 2014 Extended 1.1% Sales Tax Fund and the projects listed in this chapter. The monthly report shall include, with reference to each project or program, current information on:

**1.** The estimated cost;

**2.** The amount of total appropriations;

**3.** The amount of total expenditures;

**4.** A statement of completion status;

**5.** A summary of all budget transfers; and

**6.** The amount of any unencumbered and unallocated fund balance within the 2014 Extended 1.1% Sales Tax Fund.

Said monthly report shall be in addition to any reports that the Mayor or the Mayor's designee is required by law to provide.

**G. Meetings and report of STOC.** STOC shall meet at least once each month beginning with the month of July, 2014. The monthly meeting shall be at least seven (7) days prior to the first meeting of the City Council in the following month. At the first meeting of the Council of each month, beginning with the month of August, 2014, the Chairman or other member designated by STOC shall attend the regular meeting of the Council and make any report, comment or recommendation which STOC deems to be warranted or, at the option of STOC, a written report from STOC may be submitted monthly to the Council. A time for the presentation of such report shall be reserved on the agenda for the first City Council meeting of every month beginning August, 2014, until the sales tax revenues have been fully expended for the projects and programs set forth in this title.

*(Ord. No. 22922, § 1, 8-27-2013)*

## Section 102. Establishment of a special fund for revenue from the 2014 Extended 1.1% Sales Tax.

**A.** There is hereby established a special revenue fund which shall be known as the 2014 Extended 1.1% Sales Tax Fund.

**B.** All officers and employees of the City of Tulsa are hereby ordered to take all necessary action to cause the funds generated by the 2014 Extended 1.1% Sales Tax, including interest received from the investment thereof, to be deposited into the 2014 Extended 1.1% Sales Tax Fund as soon as received by the City of Tulsa.

**C.** None of the monies in the 2014 Extended 1.1% Sales Tax Fund shall ever be encumbered or expended for any purpose other than those purposes set forth in this chapter, unless amended pursuant to Section 103, below. Any violation of this provision will subject the persons violating this mandate to removal from their respective offices or positions.

**D.** The City Treasurer of the City shall take whatever action is necessary to ensure the timely investment of all monies within the 2014 Extended 1.1% Sales Tax Fund and to ensure that all such funds shall always be readily available for immediate expenditure for the projects and purposes set forth in this chapter.

**E.** The Mayor, Council and all officers and employees of the City having budgetary duties and responsibilities shall take all necessary and timely action to cause the necessary appropriation of the revenues of the sales taxes to the 2014 Extended 1.1% Sales Tax Fund, to the end that the records and data shall always be readily available, and the funds will be encumbered and expended only for the projects and programs set forth in this chapter.

*(Ord. No. 22922, § 1, 8-27-2013)*

## Section 103. Procedure to amend or repeal this chapter.

**A. Mandatory duty of Secretary of Council.** The City of Tulsa, having made a solemn pledge to the citizens of Tulsa regarding the expenditures of the revenue from the 2014 Extended 1.1% Sales Tax, and having enacted this chapter to establish the official City policy with regard to such revenue, hereby pledges that this chapter shall remain in force during the entire period of collection and expenditure of the revenues generated by the 2014 Extended 1.1% Sales Tax for the projects and programs herein enumerated.

Any attempt to amend or repeal this chapter can lawfully occur only by placing such proposal on the official agenda of the City Council which agenda is prepared by the office of the Secretary of the Council ("Secretary").

In the event a request is ever made by any party to place the issue of the amendment or repeal of this chapter on any agenda of the City Council, the Secretary is hereby specifically prohibited from placing such issue on any such agenda until full compliance with the following requirements has been made.

**1.** The Secretary shall forthwith (within twenty-four (24) hours) notify all major newspapers, all major television stations and all major radio stations then located within the City of Tulsa of the request for amendment or repeal of this chapter.

**2.** The Secretary shall forthwith notify the general public of such request by a press conference officially called by the Secretary and held at City Hall, to which all of the below-named newspapers, radio and television stations shall be invited.

**3.** The Secretary shall forthwith cause a public notice to be sent to the Tulsa World and The Oklahoma Eagle, specifically setting forth fully the nature, purpose and extent of the request and the date the matter will first be placed on the agenda for public hearing before the City Council, which date shall be a date more than fifteen (15) days from the date of first publication requested for such notice. The Secretary shall request that the notice be published once a week for two (2) consecutive weeks.

**4.** The Secretary shall, upon performance of all of the above acts, execute and deliver to the Council of the City of Tulsa written certification as to the time and manner of the performance of the foregoing duties herein assigned, which certification shall be filed as a part of the permanent records of the City in the office of the City Clerk, and shall be available for inspection or copying at all reasonable times.

**B. Procedure before Council.** No official action shall be taken by the Council of the City of Tulsa upon any request to amend or repeal this chapter until the following acts and procedures have been complied with:

**1.** The Council shall have examined the written certification of the Secretary concerning the acts required to be performed by Subsection 103 A. above, and shall have satisfied itself that all such acts have been duly and timely performed; and

**2.** The Council shall have held at least two (2) public hearings on the proposal (one (1) of which shall be held at night), which hearings shall be at least seven (7) days apart, and the first of which shall have been more than fifteen (15) days from the date of first publication of the notice given by the Secretary setting forth the nature of the request to amend or repeal this chapter as above provided.

*(Ord. No. 22922, § 1, 8-27-2013)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

# TITLE 43-I 2017 LIMITED-PURPOSE PUBLIC SAFETY PERMANENT SALES TAX POLICY

## Chapter 1. Limited-Purpose Public Safety Permanent Sales Tax

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. LIMITED-PURPOSE PUBLIC SAFETY PERMANENT SALES TAX

Section 100. Declaration of official policy of City and pledge to the citizens.
Section 101. Establishment of a special fund for revenue from the 2017 Limited-Purpose Public Safety Permanent Sales Tax.
Section 102. Procedure to amend or repeal this chapter.

### Section 100. Declaration of official policy of City and pledge to the citizens.

**A.** The City of Tulsa hereby pledges to the citizens of Tulsa:

**1.** That all funds received by the City from the permanent sales tax levy of sixteen one-hundredths of one percent (.16%) for the period of time beginning January 1, 2017, and continuing until July 1, 2021, on which date it shall increase to a twenty-six one-hundredths of one percent (.26%) permanent sales tax (the "2017 Limited-Purpose Public Safety Permanent Sales Tax") will be spent only for those purposes set forth herein;

**2.** That none of such funds shall ever be spent for any other purpose, unless this ordinance is amended as provided herein;

**3.** That the City shall begin such expenditures at the earliest reasonable date;

**B.** Specific purposes. The purposes for which expenditures of proceeds from the 2017 Limited-Purpose Public Safety Permanent Sales Tax may lawfully be made are as follows:

Tulsa Police Department: additional police officers, and equipment for said police officers; new or additional equipment for law enforcement purposes; and possible contract services.

Tulsa Fire Department: additional firefighters, and equipment for said firefighters; new or additional firefighting and rescue equipment; and construction of fire stations and/or renovation of existing fire stations.

Other functions, including the 911 Call Center, new or additional personnel, maintenance, equipment and supplies.

**C.** The fifteen (15) year permanent funding is estimated to be as follows:

| | |
|---|---|
| Police Department (including 911) | $202,000,000 |
| Fire Department | 70,000,000 |
| TOTAL | $272,000,000 |

**D.** It is the intent of this Limited-Purpose Tax to create a special fund, to be utilized in addition to General Fund expenditures currently and historically allocated for public safety funding. It is not the intent of this Tax to supplant such public safety funding. Such expenditures have been as follows:

**Police & Fire Annual Adopted Budgets**

General Fund
(in millions of dollars)

| | FY12 | FY13 | FY14 | FY15 | FY16 |
|---|---|---|---|---|---|
| **Police** | $ 78 | $ 83 | $ 88 | $ 89 | $ 95 |

| | FY12 | FY13 | FY14 | FY15 | FY16 |
|---|---|---|---|---|---|
| % of Adopted Budget | 31% | 30% | 33% | 34% | 34% |
| **Fire** | $ 61 | $ 64 | $ 67 | $ 67 | $ 69 |
| % of Adopted Budget | 24% | 23% | 25% | 26% | 25% |
| **Total Adopted Budget** | $ 254 | $ 273 | $ 268 | $ 261 | $ 275 |

**E.** The Mayor and the City Council shall determine project priority on an annual basis through the budget process.

**F.** If at the special election on April 5, 2016 the 2017 Limited-Purpose Public Safety Permanent Sales Tax shall fail to receive the approval of a majority of voters voting thereon, then to the extent of the said failure, this Ordinance or part hereof shall have no force or effect.

*(Ord. No. 23423, § 1, 3-3-2016)*

### Section 101. Establishment of a special fund for revenue from the 2017 Limited-Purpose Public Safety Permanent Sales Tax.

**A.** There is hereby established a limited-purpose special revenue fund which shall be known as the 2017 Limited-Purpose Public Safety Permanent Sales Tax Fund.

**B.** All officers and employees of the City of Tulsa are hereby ordered to take all necessary action to cause the funds generated by the 2017 Limited-Purpose Public Safety Permanent Sales Tax, including interest received from the investment thereof, to be deposited into the 2017 Limited-Purpose Public Safety Permanent Sales Tax Fund as soon as received by the City of Tulsa.

**C.** None of the monies in the 2017 Limited-Purpose Public Safety Permanent Sales Tax Fund shall ever be encumbered or expended for any purpose other than those purposes set forth in this chapter, unless amended pursuant to Section 102, below. Any violation of this provision will subject the persons violating this mandate to removal from their respective offices or positions.

**D.** The City Treasurer of the City shall take whatever action is necessary to ensure the timely investment of all monies within the 2017 Limited-Purpose Public Safety Permanent Sales Tax Fund and to ensure that all such funds shall always be readily available for immediate expenditure for the purposes set forth in this chapter.

**E.** The Mayor, Council and all officers and employees of the City having budgetary duties and responsibilities shall take all necessary and timely action to cause the necessary appropriation of the revenues of the sales taxes to the 2017 Limited-Purpose Public Safety Permanent Sales Tax Fund, to the end that the records and data shall always be readily available, and the funds will be encumbered and expended only for the programs set forth in this chapter.

*(Ord. No. 23423, § 1, 3-3-2016)*

### Section 102. Procedure to amend or repeal this chapter.

**A. Mandatory duty of Secretary of Council.** The City of Tulsa, having made a solemn pledge to the citizens of Tulsa regarding the expenditures of the revenue from the 2017

Limited-Purpose Public Safety Permanent Sales Tax, and having enacted this chapter to establish the official City policy with regard to such revenue, hereby pledges that this chapter shall remain in force during the entire period of collection and expenditure of the revenues generated by the 2017 Limited-Purpose Public Safety Permanent Sales Tax for the programs herein enumerated.

Any attempt to amend or repeal this chapter can lawfully occur only by placing such proposal on the official agenda of the City Council which agenda is prepared by the office of the Secretary of the Council ("Secretary").

In the event a request is ever made by any party to place the issue of the amendment or repeal of this chapter on any agenda of the City Council, the Secretary is hereby specifically prohibited from placing such issue on any such agenda until full compliance with the following requirements has been made.

**1.** The Secretary shall forthwith (within twenty-four [24] hours) notify all major newspapers, all major television stations and all major radio stations then located within the City of Tulsa of the request for amendment or repeal of this chapter.

**2.** The Secretary shall forthwith notify the general public of such request by a press conference officially called by the Secretary and held at City Hall, to which all of the below-named newspapers, radio and television stations shall be invited.

**3.** The Secretary shall forthwith cause a public notice to be sent to the Tulsa World and The Oklahoma Eagle, specifically setting forth fully the nature, purpose and extent of the request and the date the matter will first be placed on the agenda for public hearing before the City Council, which date shall be a date more than fifteen (15) days from the date of first publication requested for such notice. The Secretary shall request that the notice be published once a week for two (2) consecutive weeks.

**4.** The Secretary shall, upon performance of all of the above acts, execute and deliver to the Council of the City of Tulsa written certification as to the time and manner of the performance of the foregoing duties herein assigned, which certification shall be filed as a part of the permanent records of the City in the office of the City Clerk, and shall be available for inspection or copying at all reasonable times.

**B. Procedure before Council.** No official action shall be taken by the Council of the City of Tulsa upon any request to amend or repeal this chapter until the following acts and procedures have been complied with:

**1.** The Council shall have examined the written certification of the Secretary concerning the acts required to be performed by Subsection 102.A above, and shall have satisfied itself that all such acts have been duly and timely performed; and

**2.** The Council shall have held at least two (2) public hearings on the proposal (one (1) of which shall be held at night), which hearings shall be at least seven (7) days apart, and the first of which shall have been more than fifteen (15) days from the date of first publication of the notice given by the Secretary setting forth the nature of the request to amend or repeal this chapter as above provided.

*(Ord. No. 23423, § 1, 3-3-2016)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

# TITLE 43-J 2017 LIMITED-PURPOSE .085% STREET MAINTENANCE AND PUBLIC TRANSPORTATION PERMANENT SALES TAX

## Chapter 1. Levy of .085% Street Maintenance and Public Transportation Permanent Sales Tax

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. LEVY OF .085% STREET MAINTENANCE AND PUBLIC TRANSPORTATION PERMANENT SALES TAX

Section 100. Declaration of official policy of City and pledge to the citizens.
Section 101. Establishment of a special fund for revenue from the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax.
Section 102. Procedure to amend or repeal this chapter.

### Section 100. Declaration of official policy of City and pledge to the citizens.

**A.** The City of Tulsa hereby pledges to the citizens of Tulsa:

**1.** That all funds received by the City from the permanent sales tax levy of eighty-five thousandths of one percent (.085%) beginning January 1, 2017 (the "2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax") will be spent only for maintaining and supporting public streets, traffic and public transportation ("transit") systems, funding capital projects, operations, salaries and maintenance, purchasing rolling stock, fuel, materials and supplies, and paying debt service on indebtedness issued for such purposes.

The fifteen (15) year permanent funding is estimated to be as follows:

| | |
|---|---|
| Street Maintenance and Traffic | $45,000,000 |
| Transit Operations and Capital | 57,000,000 |
| **TOTAL** | $102,000,000 |

**2.** That none of such funds shall ever be spent for any other project or purpose, unless this ordinance is amended as provided herein;

**3.** That the City shall commence these projects as funds are made available, and shall complete such projects at the earliest possible date;

**B.** It is the intent of this Limited-Purpose Tax to create a special fund, to be utilized in addition to General Fund expenditures currently and historically allocated to street and transit funding. It is not the intent of this Tax to supplant such street and transit funding from the General Fund. Such expenditures have been as follows:

**Transit and Streets Annual Adopted Budgets**

General Fund
(in millions of dollars)

| **FY** | **2012** | **2013** | **2014** | **2015** | **2016** |
|---|---|---|---|---|---|
| **Transit** | 7.5 | 7.9 | 7.9 | 7.5 | 7.6 |
| % | 3.0% | 2.9% | 2.9% | 2.9% | 2.8% |
| **Streets** | 23 | 22.7 | 21.8 | 20.1 | 17 |
| % | 9.1% | 8.3% | 8.1% | 7.7% | 6.2% |
| **Total Budget** | 254 | 273 | 268 | 261 | 275 |

**C.** The Mayor and the City Council shall determine project priority on an annual basis through the budget process.

**D.** If at the special election on April 5, 2016 the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax shall fail to receive the approval of a majority of voters voting thereon, then to the extent of the said failure, this Ordinance or part hereof shall have no force or effect.

*(Ord. No. 23424, § 1, 3-3-2016)*

### Section 101. Establishment of a special fund for revenue from the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax.

**A.** There is hereby established a special revenue fund which shall be known as the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax Fund.

**B.** All officers and employees of the City of Tulsa are hereby ordered to take all necessary action to cause the funds generated by the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax, including interest received from the investment thereof, to be deposited into the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax Fund as soon as received by the City of Tulsa.

**C.** None of the monies in the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax Fund shall ever be encumbered or expended for any capital projects or purposes other than those identified projects and purposes, unless amended pursuant to Section 102, below. Any violation of this provision will subject the persons violating this mandate to removal from their respective offices or positions.

**D.** The City Treasurer of the City shall take whatever action is necessary to ensure the timely investment of all monies within the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax Fund and to ensure that all such funds shall always be readily available for immediate expenditure for identified capital projects and purposes.

**E.** The Mayor, Council and all officers and employees of the City having budgetary duties and responsibilities shall take all necessary and timely action to cause the necessary appropriation of the revenues of the sales taxes to the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax Fund, to the end that the records and data shall always be readily available, and the funds will be encumbered and expended only for identified capital projects and programs.

*(Ord. No. 23424, § 1, 3-3-2016)*

### Section 102. Procedure to amend or repeal this chapter.

**A.** Mandatory duty of Secretary of Council. The City of Tulsa, having made a solemn pledge to the citizens of Tulsa regarding the expenditures of the revenue from the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax, and having enacted this chapter to establish the official City policy with regard to such revenue, hereby pledges that this chapter shall remain in force during

the entire period of collection and expenditure of the revenues generated by the 2017 Limited-Purpose .085% Street Maintenance and Public Transportation Permanent Sales Tax for the capital projects and programs herein enumerated.

Any attempt to amend or repeal this chapter can lawfully occur only by placing such proposal on the official agenda of the City Council which agenda is prepared by the office of the Secretary of the Council ("Secretary").

In the event a request is ever made by any party to place the issue of the amendment or repeal of this chapter on any agenda of the City Council, the Secretary is hereby specifically prohibited from placing such issue on any such agenda until full compliance with the following requirements has been made.

**1.** The Secretary shall forthwith (within twenty-four (24) hours) notify all major newspapers, all major television stations and all major radio stations then located within the City of Tulsa of the request for amendment or repeal of this chapter.

**2.** The Secretary shall forthwith notify the general public of such request by a press conference officially called by the Secretary and held at City Hall, to which all of the below-named newspapers, radio and television stations shall be invited.

**3.** The Secretary shall forthwith cause a public notice to be sent to the Tulsa World and The Oklahoma Eagle, specifically setting forth fully the nature, purpose and extent of the request and the date the matter will first be placed on the agenda for public hearing before the City Council, which date shall be a date more than fifteen (15) days from the date of first publication requested for such notice. The Secretary shall request that the notice be published once a week for two (2) consecutive weeks.

**4.** The Secretary shall, upon performance of all of the above acts, execute and deliver to the Council of the City of Tulsa written certification as to the time and manner of the performance of the foregoing duties herein assigned, which certification shall be filed as a part of the permanent records of the City in the office of the City Clerk, and shall be available for inspection or copying at all reasonable times.

**B.** Procedure before Council. No official action shall be taken by the Council of the City of Tulsa upon any request to amend or repeal this chapter until the following acts and procedures have been complied with:

**1.** The Council shall have examined the written certification of the Secretary concerning the acts required to be performed by Subsection 102.A above, and shall have satisfied itself that all such acts have been duly and timely performed; and

**2.** The Council shall have held at least two (2) public hearings on the proposal (one (1) of which shall be held at night), which hearings shall be at least seven (7) days apart, and the first of which shall have been more than fifteen (15) days from the date of first publication of the notice given by the Secretary setting forth the nature of the request to amend or repeal this chapter as above provided.

*(Ord. No. 23424, § 1, 3-3-2016)*

# TITLE 43-K 2017 LIMITED-PURPOSE ECONOMIC DEVELOPMENT TEMPORARY SALES TAX POLICY

## Chapter 1. Levy of Limited-Purpose Economic Development Temporary Sales Tax

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. LEVY OF LIMITED-PURPOSE ECONOMIC DEVELOPMENT TEMPORARY SALES TAX

Section 100. Declaration of official policy of City and pledge to the citizens.
Section 101. Sales Tax Overview Committee.
Section 102. Establishment of a special fund for revenue from the 2017 Limited-Purpose Economic Development Temporary Sales Tax.
Section 103. Procedure to amend or repeal this chapter.

### Section 100. Declaration of official policy of City and pledge to the citizens.

**A.** The City of Tulsa hereby pledges to the citizens of Tulsa:

**1.** That all funds received by the City from the Limited-Purpose Economic Development Temporary Sales Tax levy of Three Hundred Five Thousandths of One Percent (.305%) beginning January 1, 2017, increasing to Eight Hundred Five Thousandths of One Percent (.805%) on July 1, 2021, then decreasing to Three Hundred Five Thousandths of One Percent (.305%) on July 1, 2025 and expiring on December 31, 2031 (the "2017 Limited-Purpose Economic Development Temporary Sales Tax ") will be spent only for those projects and purposes set forth herein, and paying debt service on indebtedness issued for such purposes;

**2.** That none of such funds shall ever be spent for any other purpose, unless this ordinance is amended as provided herein;

**3.** That the City shall complete such projects at the earliest possible date;

**B. Specific projects and purposes.** The only projects and purposes for which expenditures of proceeds from the 2017 Limited-Purpose Economic Development Temporary Sales Tax may lawfully be made are as follows:

| **Arkansas River Infrastructure & Amenities (City of Tulsa Share)** | |
|---|---|
| Zink Lake and Related Amenities | $63,000,000 |
| Low-Water Dam with Recreational Gates & Flume and New Pedestrian Bridge | |
| Mitigation, Bank Stabilization & Outfall Protection | |
| South Tulsa/Jenks Lake and Related Amenities | $64,214,000 |
| Low-Water Dam and Pedestrian Bridge | |
| East Bank Park, Boat Dock, and Abutment Improvements | |
| Vensel Creek Park and Boat Dock | |
| East Bank Trail Connection from Low-Water Dam to Vensel Creek | |
| Mitigation, Bank Stabilization & Outfall Protection | |
| Turkey Mountain Urban Wilderness | $7,600,000 |
| Levee District #12 Rehabilitation - Local Matching Funds | $5,000,000 |
| New Trail, East Bank-101st to Cousins Park (Design and Matching Funds) | $4,000,000 |
| 23rd & Jackson Redevelopment Site - Relocation Study, Design & Acquisition | $1,000,000 |
| **Gilcrease Museum Facilities Improvements** | $65,000,000 |
| **Cox Business Center and Arena District Master Plan** | $55,000,000 |
| **Tulsa Fairgrounds** | $30,000,000 |
| **Airport Infrastructure** | $27,300,000 |

| | |
|---|---|
| **Tulsa Zoo & Living Museum** | $25,000,000 |
| **Langston University - Tulsa Healthcare Professions Complex Expansion** | $16,250,000 |
| **BMX National Headquarters** | $18,600,000 |
| **South Mingo Corridor** | $15,000,000 |
| **Public Schools - Safety First Initiative** | $14,500,000 |
| **Capital Equipment (non-Public Safety)** | $12,000,000 |
| **Citywide & Route 66 Beautification and Reinvestment** | $11,000,000 |
| **Peoria-Mohawk Business Park** | $10,000,000 |
| **Public Schools - Partnership with Union, Jenks & Tulsa Public Schools in Teacher Retention, Recruitment, and Training Efforts** | $10,000,000 |
| **Community Health Connection East Clinic** | $9,975,000 |
| **Air National Guard F35 Simulator Training Center** | $9,400,000 |
| **Discovery Lab - Tulsa Children's Museum Permanent Site** | $8,000,000 |
| **Peoria Connection - North Peoria Avenue, 56th St. to Mohawk Blvd.** | $7,000,000 |
| **TCC Career Placement** | $5,320,000 |
| **McCullough Park** | $3,600,000 |
| **Mohawk Sports Complex** | $3,500,000 |
| **GO Plan - Priority Projects Identified in the Bicycle/Pedestrian Master Plan** | $3,125,000 |
| **Route 66 Village Train Depot** | $3,000,000 |
| **Tulsa Arts Commission** | $2,250,000 |
| **Tulsa Performing Arts Center Trust -** for planning and design to modernize the PAC, including, but not limited to, the renovation of the four existing theaters | $1,000,000 |
| **SUBTOTAL** | **$510,634,000** |

**C. Cost estimates.** While the cost estimates shown above are believed to be accurate, the exact cost of each project may vary from the estimate shown.

**D.** The project entitled 'South Tulsa/Jenks Lake and Related Amenities' is contingent on additional funding to be provided by the City of Jenks, the Muscogee (Creek) Nation, and/or other potential funding partners for other aspects of the entire project, which includes a long-term operating and maintenance endowment for both dams and related amenities.

The City of Tulsa will contribute no more than Sixty-Four Million Two Hundred Fourteen Thousand Dollars ($64,214,000), to the project entitled 'South Tulsa/Jenks Lake and Related Amenities', as described above. If a Memorandum of Understanding is not executed by December 31, 2022 pledging that the other funding partners will provide a minimum of Thirty-Two Million Eight Hundred Sixty-Two Thousand Dollars ($32,862,000), for the project (including design, permits, and construction of the South Tulsa/Jenks dam, access and abutment improvements; environmental mitigation, bank stabilization and outfall protection; trails; debt service on bonds issued for these purposes; and the operating and maintenance endowment), funding hereby allocated by the City of Tulsa for this project Sixty-Four Million Two Hundred Fourteen Thousand Dollars ($64,214,000) may be reallocated according to the provisions of this

ordinance, provided that Eighteen Million Dollars ($18,000,000) will first be reallocated to a long-term operating and maintenance endowment for Zink Lake and Related Amenities.

If other projects and purposes described in Section 100(B) above cannot be completed due to circumstances beyond the control of the City of Tulsa, funding allocated for such projects and purposes will be reallocated according to the provisions of this ordinance.

**E.** The Mayor and the City Council shall determine project priority on an annual basis through the budget process.

**F.** It is the intention of the City of Tulsa and is the official City policy herein established that all such projects and purposes shall be commenced as funds are made available.

**G.** If at the special election on April 5, 2016 the 2017 Limited-Purpose Economic Development Temporary Sales Tax shall fail to receive the approval of a majority of voters voting thereon, then to the extent of the said failure, this Ordinance or part hereof shall have no force or effect.

*(Ord. No. 23425, § 1, 3-3-2016; Ord. No. 23637, § 1, 2-8-2017; Ord. No. 24129, § 1, 5-8-2019; Ord. No. 24386, § 1, 6-17-2020; Ord. No. 24495, § 1, 12-9-2020)*

### Section 101. Sales Tax Overview Committee.

**A. Sales Tax Overview Committee created.** There is hereby created a committee which shall be known as the 2017 Limited-Purpose Economic Development Temporary Sales Tax Overview Committee (STOC) which shall consist of twenty-one (21) citizens who shall be qualified electors of the City of Tulsa. The members shall serve without compensation. No member of STOC shall be an elected public official. STOC shall terminate when all funds generated by the 2017 Limited-Purpose Economic Development Temporary Sales Tax have been expended, or when the tax shall have expired.

**B. Appointment and terms.** Members of the current STOC shall continue to serve as the 2017 Limited-Purpose Economic Development Temporary STOC. Terms shall be as provided by Title 43-C. All members of STOC shall serve until their respective successors are appointed and qualified.

**C. Vacancies.** In the event of vacancies on STOC, appointments to fill such vacancies shall be for the remainder of the unexpired terms. A member of STOC shall have vacated his or her position on STOC if such member fails to attend three (3) consecutive meetings; provided, however, that the vacancy so created shall not prohibit the reappointment to STOC of such member.

**D. City Clerk to maintain STOC roster.** All appointments to STOC shall be filed with the City Clerk of the City of Tulsa, and the City Clerk shall maintain a list of the current members of STOC.

**E. Elected officials, municipal personnel and agencies to assist.** The facilities, personnel, elected officials and agencies of the municipal government are hereby directed to be available and to cooperate with STOC to accomplish the objectives and purposes herein set forth. Copies of City reports and records pertaining to the receipts and expenditures of the proceeds of the sales tax extension shall be made available to STOC upon request.

**F. Monthly report to STOC.** The Mayor or the Mayor's designee shall provide to the Sales Tax Overview Committee and the City Council a monthly report on the status of

the 2017 Limited-Purpose Economic Development Temporary Sales Tax Fund and the projects listed in this chapter. The monthly report shall include, with reference to each project or program, current information on:

**1.** The estimated cost;

**2.** The amount of total appropriations;

**3.** The amount of total expenditures;

**4.** A statement of completion status;

**5.** A summary of all budget transfers; and

**6.** The amount of any unencumbered and unallocated fund balance within the 2017 Limited-Purpose Economic Development Temporary Sales Tax Fund.

Said monthly report shall be in addition to any reports that the Mayor or the Mayor's designee is required by law to provide.

**G. Meetings and report of STOC.** STOC shall meet at least once each month beginning with the month of December, 2016. The monthly meeting shall be at least seven (7) days prior to the first meeting of the City Council in the following month. At the first meeting of the Council of each month, beginning with the month of January, 2017, the Chairman or other member designated by STOC shall attend the regular meeting of the Council and make any report, comment or recommendation which STOC deems to be warranted or, at the option of STOC, a written report from STOC may be submitted monthly to the Council. A time for the presentation of such report shall be reserved on the agenda for the first City Council meeting of every month beginning January, 2017, until the sales tax revenues have been fully expended for the projects and programs set forth in this title.

*(Ord. No. 23425, § 1, 3-3-2016)*

## Section 102. Establishment of a special fund for revenue from the 2017 Limited-Purpose Economic Development Temporary Sales Tax.

**A.** There is hereby established a special revenue fund which shall be known as the 2017 Limited-Purpose Economic Development Temporary Sales Tax Fund.

**B.** All officers and employees of the City of Tulsa are hereby ordered to take all necessary action to cause the funds generated by the 2017 Limited-Purpose Economic Development Temporary Sales Tax, including interest received from the investment thereof, to be deposited into the 2017 Limited-Purpose Economic Development Temporary Sales Tax Fund as soon as received by the City of Tulsa.

**C.** None of the monies in the 2017 Limited-Purpose Economic Development Temporary Sales Tax Fund shall ever be encumbered or expended for any purpose other than those purposes set forth in this chapter, unless amended pursuant to Section 103, below. Any violation of this provision will subject the persons violating this mandate to removal from their respective offices or positions.

**D.** The City Treasurer of the City shall take whatever action is necessary to ensure the timely investment of all monies within the 2017 Limited-Purpose Economic Development Temporary Sales Tax Fund and to ensure that all such funds shall always be readily available for immediate expenditure for the projects and purposes set forth in this chapter.

**E.** The Mayor, Council and all officers and employees of the City having budgetary duties and responsibilities shall take all necessary and timely action to cause the necessary appropriation of the revenues of the sales taxes to the 2017 Limited-Purpose Economic Development Temporary Sales Tax Fund, to the end that the records and data shall always be readily available, and the funds will be encumbered and expended only for the projects and programs set forth in this chapter.

*(Ord. No. 23425, § 1, 3-3-2016)*

**Section 103. Procedure to amend or repeal this chapter.**

**A. Mandatory duty of Secretary of Council.** The City of Tulsa, having made a solemn pledge to the citizens of Tulsa regarding the expenditures of the revenue from the 2017 Limited-Purpose Economic Development Temporary Sales Tax, and having enacted this chapter to establish the official City policy with regard to such revenue, hereby pledges that this chapter shall remain in force during the entire period of collection and expenditure of the revenues generated by the 2017 Limited-Purpose Economic Development Temporary Sales Tax for the projects and programs herein enumerated.

Any attempt to amend or repeal this chapter can lawfully occur only by placing such proposal on the official agenda of the City Council which agenda is prepared by the office of the Secretary of the Council ("Secretary").

In the event a request is ever made by any party to place the issue of the amendment or repeal of this chapter on any agenda of the City Council, the Secretary is hereby specifically prohibited from placing such issue on any such agenda until full compliance with the following requirements has been made.

**1.** The Secretary shall forthwith (within twenty-four (24) hours) notify all major newspapers, all major television stations and all major radio stations then located within the City of Tulsa of the request for amendment or repeal of this chapter.

**2.** The Secretary shall forthwith notify the general public of such request by a press conference officially called by the Secretary and held at City Hall, to which all of the below-named newspapers, radio and television stations shall be invited.

**3.** The Secretary shall forthwith cause a public notice to be sent to the Tulsa World and The Oklahoma Eagle, specifically setting forth fully the nature, purpose and extent of the request and the date the matter will first be placed on the agenda for public hearing before the City Council, which date shall be a date more than fifteen (15) days from the date of first publication requested for such notice. The Secretary shall request that the notice be published once a week for two (2) consecutive weeks.

**4.** The Secretary shall, upon performance of all of the above acts, execute and deliver to the Council of the City of Tulsa written certification as to the time and manner of the performance of the foregoing duties herein assigned, which certification shall be filed as a part of the permanent records of the City in the office of the City Clerk, and shall be available for inspection or copying at all reasonable times.

**B. Procedure before Council.** No official action shall be taken by the Council of the City of Tulsa upon any request to amend or repeal this chapter until the following acts and procedures have been complied with:

**1.** The Council shall have examined the written certification of the Secretary concerning the acts required to be performed by Subsection 103.A above, and shall have satisfied itself that all such acts have been duly and timely performed; and

**2.** The Council shall have held at least two (2) public hearings on the proposal (one (1) of which shall be held at night), which hearings shall be at least seven (7) days apart, and the first of which shall have been more than fifteen (15) days from the date of first publication of the notice given by the Secretary setting forth the nature of the request to amend or repeal this chapter as above provided.

*(Ord. No. 23425, § 1, 3-3-2016)*

# TITLE 43-L 2021 SALES TAX POLICY

## Chapter 1. 2021 Miscellaneous Capital Improvements Temporary Sales Tax

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## Chapter 1. 2021 Miscellaneous Capital Improvements Temporary Sales Tax

Section 100. Declaration of official policy of City and pledge to the citizens.
Section 101. Sales Tax Overview Committee.
Section 102. Establishment of 2021 Miscellaneous Capital Improvements Temporary Sales Tax Fund.
Section 103. Procedure to amend or repeal this chapter.

## CHAPTER 1. 2021 MISCELLANEOUS CAPITAL IMPROVEMENTS TEMPORARY SALES TAX

### Section 100. Declaration of official policy of City and pledge to the citizens.

**A.** The City of Tulsa hereby pledges to the citizens of Tulsa:

**1.** That all funds received by the City from the 2021 Miscellaneous Capital Improvements Temporary Sales Tax will be spent only for those projects and purposes as set forth herein. The levy of forty-five one-hundredths of one percent (.45%), is set to begin on either July 1, 2021 or upon collection of $563,700,000.00 pursuant to the 2014 Extended 1.1% Sales Tax, whichever occurs first, and to continue until June 30, 2025, when it shall become ninety-five one-hundredths of one percent (.95%), and continue at ninety-five one-hundredths of one percent (.95%) from July 1, 2025 until either December 31, 2025 or until One Hundred Ninety-Three Million Dollars and No Cents ($193,000,000.00) is collected, whichever occurs first.

**2.** That none of such funds shall ever be spent for any other purpose, unless this ordinance is amended according to the procedures set forth below;

**3.** That every officer and employee of the City is hereby ordered to give high priority to the completion of such projects at the earliest possible date;

**4.** That any attempt to divert any of such funds to other purposes or projects or any failure to give high priority to the completion of such projects shall constitute a breach of City policy herein established; shall be a violation of the terms, spirit and purpose of this chapter; and shall constitute sufficient grounds for the removal of such officer or employee from his or her office or position; and

**B.** **Specific projects and purposes.** The only projects and purposes for which expenditures of proceeds from the 2021 Miscellaneous Capital Improvements Temporary Sales Tax may lawfully be made are as follows:

| Temporary Sales Tax Projects | |
|---|---|
| **Capital Equipment (Police Vehicles and Lab Equipment, Heavy Equipment, etc.)** | $50,750,000 |
| **City Facilities** | |
| Citywide Public Facilities - Maintenance and Rehabilitation | $7,000,000 |
| Tulsa Zoo Entrance and Parking | $6,000,000 |
| Gilcrease Museum Mechanical, Electrical, Plumbing | $6,000,000 |
| Greenwood Cultural Center Facility Rehabilitation | $5,340,000 |
| ADA Improvements for City Facilities | $5,000,000 |
| ADA Improvements for City Parks | $3,000,000 |

| | |
|---|---|
| Citywide Public Facilities - Roofs | $2,460,000 |
| Animal Shelter Phase II | $2,080,000 |
| Police Courts Building | $1,000,000 |
| One Technology Center - Maintenance and Rehabilitation | $1,000,000 |
| 600 Civic Center - Equipment Relocation | $200,000 |
| **Park & Recreation** | |
| Park Facilities Roof, HVAC, Infrastructure Rehabilitation/Replacement, Security Upgrades | $10,125,000 |
| Upgrade, Add, or Renovate Outdoor Park Play Amenities | $5,500,000 |
| Tennis Court Major Rehabilitation, Repurpose, or Replacement | $4,800,000 |
| Fred Johnson Park Rehabilitation and Replacement | $3,125,000 |
| Swan Lake Rehabilitation | $1,700,000 |
| Hill Park Improvements | $2,750,000 |
| Mohawk Park Rehabilitation and Renovation | $1,000,000 |
| Citywide Park System Parking Rehabilitation | $1,000,000 |
| **Tulsa Fire Department** | |
| Fire Apparatus and Equipment | $23,000,000 |
| 911 Station Alert System | $3,000,000 |
| **Tulsa Police Department** | |
| Police Helicopter Replacement | $4,500,000 |
| Computer Aided Dispatch (CAD) | $660,000 |
| Municipal Lockup Data Storage | $510,000 |
| **Economic Development Infrastructure** | $6,500,000 |
| **Community Development Priority Projects** | $9,000,000 |
| **Parking Facility, Veterans Hospital** | $8,000,000 |
| **Transit-MTTA - Critical Deferred Maintenance and Aging Vehicle Replacement, and Transit Infrastructure** | $18,000,000 |
| **Temporary Sales Tax Total** | **$193,000,000** |

**C. Cost estimates.** While the cost estimates shown above are believed to be accurate, the exact cost of each project may vary from the estimate shown.

**D.** The Mayor and the City Council shall determine project priority on an annual basis through the budget process. Funding for the project/purpose entitled "Community Development Priority Projects" (above) shall be equally divided among the nine City Council districts and appropriated by the City Council for projects meeting the following criteria:

**1.** The project must be for a public purpose;

**2.** The project must conform to the City's Comprehensive Plan; and

**3.** The project must promote safe and attractive neighborhoods and/or commercial districts, economic vitality, safe and affordable housing, public recreational opportunities, and/or transportation options.

**E.** It is the intention of the City of Tulsa and is the official City policy herein established that all such projects and purposes shall be commenced as funds are made available.

**F.** When City financial and auditing staff and the Sales Tax Overview Committee shall determine that the full amount of one hundred ninety-three million dollars and no

cents ($193,000,000.00) has been collected from this sales tax, but in no event later than December 31, 2025, and has been devoted to the projects listed above, and so advise the Mayor and City Council, and when the Mayor and City Council approve said determination by City financial and auditing staff and the Sales Tax Overview Committee, the Mayor shall recommend to the City Council the repeal of this Ordinance.

**G.** If at the special election on November 12, 2019 the 2021 Miscellaneous Capital Improvements Temporary Sales Tax shall fail to receive the approval of a majority of voters voting thereon, then this chapter shall have no force or effect.

*(Ord. No. 24180, § 1, 8-7-19; Ord. No. 24387, § 1, 6-17-2020; Ord. No. 24640, § 1, 7-21-2021)*

**Section 101. Sales Tax Overview Committee.**

**A. Sales Tax Overview Committee created.** There is hereby created a committee which shall be known as the 2021 Miscellaneous Capital Improvements Temporary Sales Tax Overview Committee (STOC) which shall consist of twenty-one (21) citizens who shall be qualified electors of the City of Tulsa. The members shall serve without compensation. No member of STOC shall be an elected public official. STOC shall terminate when all funds generated by the 2021 Miscellaneous Capital Improvements Temporary Sales Tax have been expended.

**B. Appointment and terms.** Members of the current STOC shall continue to serve as the 2021 Miscellaneous Capital Improvements Temporary STOC. Terms shall be as provided by Title 43-C. All members of STOC shall serve until their respective successors are appointed and qualified.

**C. Vacancies.** In the event of vacancies on STOC, appointments to fill such vacancies shall be for the remainder of the unexpired terms. A member of STOC shall have vacated his or her position on STOC if such member fails to attend three (3) consecutive meetings; provided, however, that the vacancy so created shall not prohibit the reappointment to STOC of such member.

**D. City Clerk to maintain STOC roster.** All appointments to STOC shall be filed with the City Clerk of the City of Tulsa, and the City Clerk shall maintain a list of the current members of STOC.

**E. Elected officials, municipal personnel and agencies to assist.** The facilities, personnel, elected officials and agencies of the municipal government are hereby directed to be available and to cooperate with STOC to accomplish the objectives and purposes herein set forth. Copies of City reports and records pertaining to the receipts and expenditures of the proceeds of the sales tax extension shall be made available to STOC upon request.

**F. Monthly report to STOC.** The Mayor or the Mayor's designee shall provide to the Sales Tax Overview Committee and the City Council a monthly report on the status of the 2021 Miscellaneous Capital Improvements Temporary Sales Tax Fund and the projects listed in this chapter. The monthly report shall include, with reference to each project or program, current information on:

**1.** The estimated cost;

**2.** The amount of total appropriations;

**3.** The amount of total expenditures;

**4.** A statement of completion status;

**5.** A summary of all budget transfers; and

**6.** The amount of any unencumbered and unallocated fund balance within the 2021 Miscellaneous Capital Improvements Temporary Sales Tax Fund.

Said monthly report shall be in addition to any reports that the Mayor or the Mayor's designee is required by law to provide.

**G. Meetings and report of STOC.** STOC shall meet at least once each month beginning with the month of July, 2021. The monthly meeting shall be at least seven (7) days prior to the first meeting of the City Council in the following month. At the first meeting of the Council of each month, beginning with the month of August, 2021, the Chairman or other member designated by STOC shall attend the regular meeting of the Council and make any report, comment or recommendation which STOC deems to be warranted or, at the option of STOC, a written report from STOC may be submitted monthly to the Council. A time for the presentation of such report shall be reserved on the agenda for the first City Council meeting of every month beginning August, 2021, until the sales tax revenues have been fully expended for the projects and programs set forth in this title.

*(Ord. No. 24180, § 1, 8-7-19)*

## Section 102. Establishment of 2021 Miscellaneous Capital Improvements Temporary Sales Tax Fund.

**A.** There is hereby established a special revenue fund which shall be known as the 2021 Miscellaneous Capital Improvements Temporary Sales Tax Fund.

**B.** All officers and employees of the City of Tulsa are hereby ordered to take all necessary action to cause the funds generated by the 2021 Miscellaneous Capital Improvements Temporary Sales Tax, including interest received from the investment thereof, to be deposited into the 2021 Miscellaneous Capital Improvements Temporary Sales Tax Fund as soon as received by the City of Tulsa.

**C.** None of the monies in the 2021 Miscellaneous Capital Improvements Temporary Sales Tax Fund shall ever be encumbered or expended for any purpose other than those purposes set forth in this chapter, unless amended pursuant to Section 103, below. Any violation of this provision will subject the persons violating this mandate to removal from their respective offices or positions.

**D.** The City Treasurer of the City shall take whatever action is necessary to ensure the timely investment of all monies within the 2021 Miscellaneous Capital Improvements Temporary Sales Tax Fund and to ensure that all such funds shall always be readily available for immediate expenditure for the projects and purposes set forth in this chapter.

**E.** The Mayor, Council and all officers and employees of the City having budgetary duties and responsibilities shall take all necessary and timely action to cause the necessary appropriation of the revenues of the sales taxes to the 2021 Miscellaneous Capital Improvements Temporary Sales Tax Fund, to the end that the records and data shall always be readily available, and the funds will be encumbered and expended only for the projects and programs set forth in this chapter.

*(Ord. No. 24180, § 1, 8-7-19)*

## Section 103. Procedure to amend or repeal this chapter.

**A. Mandatory duty of Secretary of Council.** The City of Tulsa, having made a solemn pledge to the citizens of Tulsa regarding the expenditures of the revenue from the 2021 Miscellaneous Capital Improvements Temporary Sales Tax, and having enacted this chapter to establish the official City policy with regard to such revenue, hereby pledges that this chapter shall remain in force during the entire period of collection and expenditure of the revenues generated by the 2021 Miscellaneous Capital Improvements Temporary Sales Tax for the projects and programs herein enumerated.

Any attempt to amend or repeal this chapter can lawfully occur only by placing such proposal on the official agenda of the City Council which agenda is prepared by the office of the Secretary of the Council ("Secretary").

In the event a request is ever made by any party to place the issue of the amendment or repeal of this chapter on any agenda of the City Council, the Secretary is hereby specifically prohibited from placing such issue on any such agenda until full compliance with the following requirements has been made.

**1.** The Secretary shall forthwith (within twenty-four [24] hours) notify all major newspapers, all major television stations and all major radio stations then located within the City of Tulsa of the request for amendment or repeal of this chapter.

**2.** The Secretary shall forthwith notify the general public of such request by a press conference officially called by the Secretary and held at City Hall, to which all of the below-named newspapers, radio and television stations shall be invited.

**3.** The Secretary shall forthwith cause a public notice to be sent to the Tulsa World and The Oklahoma Eagle, specifically setting forth fully the nature, purpose and extent of the request and the date the matter will first be placed on the agenda for public hearing before the City Council, which date shall be a date more than fifteen (15) days from the date of first publication requested for such notice. The Secretary shall request that the notice be published once a week for two (2) consecutive weeks.

**4.** The Secretary shall, upon performance of all of the above acts, execute and deliver to the Council of the City of Tulsa written certification as to the time and manner of the performance of the foregoing duties herein assigned, which certification shall be filed as a part of the permanent records of the City in the office of the City Clerk, and shall be available for inspection or copying at all reasonable times.

**B. Procedure before Council.** No official action shall be taken by the Council of the City of Tulsa upon any request to amend or repeal this chapter until the following acts and procedures have been complied with:

**1.** The Council shall have examined the written certification of the Secretary concerning the acts required to be performed by Subsection 103.A above, and shall have satisfied itself that all such acts have been duly and timely performed; and

**2.** The Council shall have held at least two (2) public hearings on the proposal (one (1) of which shall be held at night), which hearings shall be at least seven (7) days apart, and the first of which shall have been more than fifteen (15) days from the date of first publication of the notice given by the Secretary setting forth the nature of the request to amend or repeal this chapter as above provided.

*(Ord. No. 24180, § 1, 8-7-19)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

# TITLE 43-M 2023 TEMPORARY SALES TAX POLICY

## Chapter 1. Levied of the 2023 Temporary Sales Tax

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. LEVIED OF THE 2023 TEMPORARY SALES TAX

Section 100. Declaration of Official Policy of City and Pledge to the Citizens.
Section 101. Sales Tax Overview Committee.
Section 102. Establishment of 2023 Temporary Sales Tax Fund.
Section 103. Procedure to amend or repeal this title.

### Section 100. Declaration of Official Policy of City and Pledge to the Citizens.

The City of Tulsa has levied the 2023 Temporary Sales Tax of ninety-five one-hundredths of one percent (.95%), Title 43 TRO Section 100.5, Ordinance No. 25041 to commence upon the expiration of the 2021 Miscellaneous Capital Improvements Temporary Sales Tax (Title 43-L TRO), that is, December 31, 2025, or when One Hundred Ninety-Three Million Dollars and No Cents ($193,000,000.00) has been collected, whichever occurs first. This tax levy will be voted on at a special election on August 8, 2023, pursuant to Title 68 Oklahoma Statutes, Section 2705.

**A.** The City of Tulsa hereby pledges to the citizens of Tulsa:

**1.** That ALL funds received by the City from the 2023 Temporary Sales Tax will be spent ONLY for those projects and purposes set forth herein, unless amended pursuant to Section 103, below;

**2.** That none of such funds shall ever be spent for any other purpose, unless amended pursuant to Section 103, below;

**3.** That every officer and employee of the City is hereby ordered to give high priority to the completion of such projects at the earliest possible date;

**4.** That any attempt to divert any of such funds to other purposes or projects, unless amended pursuant to Section 103, below, or any failure to give high priority to the completion of such projects shall constitute a breach of City policy herein established; shall be a violation of the terms, spirit and purpose of this Title; and shall constitute sufficient grounds for the removal of such officer or employee from his or her office or position; and

**B.** Specific projects and purposes. The only projects for which expenditures of proceeds from the 2023 Temporary Sales Tax may lawfully be made are as follows along with paying debt service on indebtedness issued for such purposes:

| | |
|---|---|
| Citywide street rehabilitation, repair, and maintenance | $51,100,000 |
| Additional costs for completion of previously approved street projects listed in Improve Our Tulsa Proposition No. 1 approved at an election held on November 12, 2019 | $27,075,000 |
| Citywide bridge replacement and rehabilitation | $4,800,000 |
| Citywide project engineering inspection and testing | $2,500,000 |
| Citywide street project construction completion incentives | $4,000,000 |

| | |
|---|---|
| City matching funds for Federal or State grants for Citywide Street Projects | $14,400,000 |
| Citywide traffic engineering needs | $16,670,000 |
| Citywide American Disabilities Act Transition Plan Implementation | $3,750,000 |
| Citywide sidewalks | $1,650,000 |
| Citywide alleys | $400,000 |
| Cox Business Convention Center - building, safety, and security improvements | $18,800,000 |
| Mohawk Park - improvements | $2,545,000 |
| Page Belcher Golf Course - renovation | $4,000,000 |
| Citywide Parks - improvements | $3,025,000 |
| Citywide Regional Trails - improvements | $3,000,000 |
| Citywide Facilities - maintenance and improvements | $20,000,000 |
| River Parks - maintenance building | $5,000,000 |
| Housing Initiatives | $75,000,000 |
| Kirkpatrick Heights/Greenwood Area - plan implementation | $5,000,000 |
| Neighborhoods - revitalization and improvements | $15,000,000 |
| City vehicles, equipment, and technology | $94,300,000 |
| Tulsa Fire Department - apparatus and vehicles | $58,500,000 |
| **TOTAL** | **$430,515,000** |

**C.** Cost estimates. While the cost estimates shown above are believed to be accurate, the exact cost of each project may vary from the estimate shown.

**D.** The Mayor and the City Council shall determine project priority on an annual basis through the budget process. Funding for the project/purpose entitled "Housing Initiatives" (above) shall be allocated and appropriated to implement a project plan adopted by resolution, after presentation and consideration of recommendations from the City of Tulsa's Housing, Homelessness and Mental Health Task Force.

**E.** It is the intention of the City of Tulsa and is the official City policy herein established that all such projects and purposes shall be commenced as funds are made available.

*(Ord. No. 25042, § 1, 5-24-2023)*

### Section 101. Sales Tax Overview Committee.

**A. Sales Tax Overview Committee Created.** There is hereby created a committee which shall be known as the 2023 Temporary Sales Tax Overview Committee (STOC) which shall consist of twenty-one (21) citizens who shall be qualified electors of the City of Tulsa. The members shall serve without compensation. No member of STOC shall be an elected public official. STOC shall terminate when all funds generated by the 2023 Temporary Sales Tax have been expended or on June 30, 2030, whichever occurs earlier.

**B. Appointment and terms.** Members of the current STOC shall continue to serve as the 2023 Temporary STOC. Terms shall be as provided by Title 43-C. All members of STOC shall serve until their respective successors are appointed and qualified.

**C. Vacancies.** In the event of vacancies on STOC, appointments to fill such vacancies shall be for the remainder of the unexpired terms. A member of STOC shall have vacated his or her position on STOC if such member fails to attend three (3) consecutive meetings; provided, however, that the vacancy so created shall not prohibit the reappointment to STOC of such member.

**D. City Clerk to Maintain STOC Roster.** All appointments to STOC shall be filed with the City Clerk of the City of Tulsa, and the City Clerk shall maintain a list of the current members of STOC.

**E. Elected Officials, Municipal Personnel and Agencies to Assist.** The facilities, personnel, elected officials and agencies of the municipal government are hereby directed to be available and to cooperate with STOC to accomplish the objectives and purposes herein set forth. Copies of City reports and records pertaining to the receipts and expenditures of the proceeds of the sales tax shall be made available to STOC upon request.

**F. Monthly report to STOC.** The Mayor or the Mayor's designee shall provide to the Sales Tax Overview Committee and the City Council a monthly report on the status of the 2023 Temporary Sales Tax Fund and the projects listed in this Title. The monthly report shall include, with reference to each project, current information on:

**1.** The estimated cost;

**2.** The amount of total appropriations;

**3.** The amount of total expenditures;

**4.** A statement of completion status;

**5.** A summary of all budget transfers; and

**6.** The amount of any unencumbered and unallocated fund balance within the 2024 Capital Projects Temporary Sales Tax Fund.

Said monthly report shall be in addition to any reports that the Mayor or the Mayor's designee is required by law to provide.

**G. Meetings and Report of STOC.** STOC shall meet at least once each month beginning with the month of January, 2026. The monthly meeting shall be at least seven (7) days prior to the first meeting of the City Council in the following month. At the first meeting of the Council of each month, beginning with the month of February 2026, the Chairman or other member designated by STOC shall attend the regular meeting of the Council and make any report, comment or recommendation which STOC deems to be warranted or, at the option of STOC, a written report from STOC may be submitted monthly to the Council. A time for the presentation of such report shall be reserved on the agenda for the first City Council meeting of every month beginning February, 2026, until the sales tax revenues have been fully expended for the projects set forth in this title or June 30, 2030, whichever occurs sooner.

*(Ord. No. 25042, § 1, 5-24-2023)*

**Section 102. Establishment of 2023 Temporary Sales Tax Fund.**

**A.** There is hereby established a special revenue fund which shall be known as the 2023 Temporary Sales Tax Fund.

**B.** All officers and employees of the City of Tulsa are hereby ordered to take all necessary action to cause the funds generated by the 2023 Temporary Sales Tax, including interest received from the investment thereof, to be deposited into the 2023 Temporary Sales Tax Fund as soon as received by the City of Tulsa.

**C.** None of the monies in the 2023 Temporary Sales Tax Fund shall ever be encumbered or expended for any purpose other than those projects set forth in this Title, unless amended pursuant to Section 103, below. Any violation of this provision will subject the persons violating this mandate to removal from their respective offices or positions.

**D.** The City Treasurer of the City shall take whatever action is necessary to ensure the timely investment of all monies within the 2023 Temporary Sales Tax Fund and to ensure that all such funds shall always be readily available for immediate expenditure for the projects set forth in this Title.

**E.** The Mayor, Council and all officers and employees of the City having budgetary duties and responsibilities shall take all necessary and timely action to cause the necessary appropriation of the revenues of the sales taxes to the 2023 Temporary Sales Tax Fund, to the end that the records and data shall always be readily available, and the funds will be encumbered and expended only for the projects set forth in this Title.

*(Ord. No. 25042, § 1, 5-24-2023)*

**Section 103. Procedure to amend or repeal this title.**

**A. Mandatory Duty of Secretary of Council.** The City of Tulsa, having made a solemn pledge to the citizens of Tulsa regarding the expenditures of the revenue from the 2023 Temporary Sales Tax, and having enacted this Title to establish the official City policy with regard to such revenue, hereby pledges that this Title shall remain in force during the entire period of collection and expenditure of the revenues generated by the 2023 Temporary Sales Tax for the projects herein enumerated.

Any attempt to amend or repeal this Title can lawfully occur only by placing such proposal on the official agenda of the City Council which agenda is prepared by the office of the Secretary of the Council ("Secretary").

In the event a request is ever made by any party to place the issue of the amendment or repeal of this Title on any agenda of the City Council, the Secretary is hereby specifically prohibited from placing such issue on any such agenda until full compliance with the following requirements has been made.

**1.** The Secretary shall forthwith (within twenty-four (24) hours) notify all major newspapers, all major television stations and all major radio stations then located within the City of Tulsa of the request for amendment or repeal of this Title.

**2.** The Secretary shall forthwith notify the general public of such request by a press conference officially called by the Secretary and held at City Hall, to which all of the below-named newspapers, radio and television stations shall be invited.

**3.** The Secretary shall forthwith cause a public notice to be sent to a newspaper of general circulation in the City of Tulsa, specifically setting forth fully the nature, purpose and extent of the request and the date the matter will first be placed on

the agenda for public hearing before the City Council, which date shall be a date more than fifteen (15) days from the date of first publication requested for such notice. The Secretary shall request that the notice be published once a week for two (2) consecutive weeks.

**4.** The Secretary shall, upon performance of all of the above acts, execute and deliver to the Council of the City of Tulsa written certification as to the time and manner of the performance of the foregoing duties herein assigned, which certification shall be filed as a part of the permanent records of the City in the office of the City Clerk, and shall be available for inspection or copying at all reasonable times.

**B. Procedure before Council.** No official action shall be taken by the Council of the City of Tulsa upon any request to amend or repeal this Title until the following acts and procedures have been complied with:

**1.** The Council shall have examined the written certification of the Secretary concerning the acts required to be performed by Subsection 103 A. above, and shall have satisfied itself that all such acts have been duly and timely performed; and

**2.** The Council shall have held at least two (2) public hearings on the proposal (one (1) of which shall be held at night), which hearings shall be at least seven (7) days apart, and the first of which shall have been more than fifteen (15) days from the date of first publication of the notice given by the Secretary setting forth the nature of the request to amend or repeal this Title as above provided.

*(Ord. No. 25042, § 1, 5-24-2023)*

## Chapter 1. City of Tulsa Hotel Tax Code

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. CITY OF TULSA HOTEL TAX CODE

Section 100. Definitions.
Section 101. Imposition of tax; exemptions.
Section 102. Records to be kept.
Section 103. Returns.
Section 104. Payment of tax.
Section 105. Assessment and determination of tax.
Section 106. Refunds.
Section 107. Notices.
Section 108. Remedies exclusive.
Section 109. Proceedings to recover tax.
Section 110. General powers of the Mayor.
Section 111. Administration of oaths and compelling testimony.
Section 112. Licenses and registration.
Section 113. Discount, delinquent taxes.
Section 114. Interest and penalties.
Section 115. Confidential records.
Section 116. Amendments.
Section 117. Provisions cumulative.
Section 118. Creation of funds.
Section 119. Effective date.
Section 120. Perpetuation of tax.

### Section 100. Definitions.

Unless a different meaning clearly appears from the context, for the purposes of this chapter, the following words and phrases shall have the meanings given herein.

**A.** **Person** shall mean an individual, partnership, society, association, joint stock company, corporation, estate, receiver, trustee, assignee, referee or any other person acting in a fiduciary or representative capacity, whether appointed by a court or otherwise, or any combination of the above acting as a unit.

**B.** **Operator** shall mean any person operating a hotel in this City, included, but not limited to, the owner, proprietor, lessee, sublessee, mortgagee in possession, licensee or any other person otherwise operating such hotel.

**C.** **Occupant** shall mean a person who, for a consideration, uses, possesses or has the right to the use or possession of any room or rooms in a hotel under any lease, concession, permit, right of access, license to use or other agreement, or otherwise.

**D.** **Occupancy** shall mean the use or possession or the right to the use or possession of any room or rooms in a hotel.

**E.** **Hotel** shall mean any building or buildings, trailer or other facility in which the public may, for consideration, obtain sleeping accommodations in which five (5) or more rooms are used for the accommodation of such guests, whether such rooms are in one (1) or several structures. The term shall include hotels, apartment hotels, motels, tourist homes, houses or courts, lodging houses, inns, rooming houses, trailer houses, trailer motels, dormitory space where bed space is rented to individuals or groups, apartments not occupied by "permanent residents," as that term is hereinafter defined, and all

other facilities where rooms or sleeping facilities or space are furnished for a consideration. As defined herein, "hotel" shall not include hospitals, sanitariums or nursing homes.

**F.** **Room** shall mean any room or rooms of any kind in any part or portion of a hotel which is available for, let for the use of, or possessed for the purpose of lodging or sleeping.

**G.** **Rent** shall mean the consideration received for occupancy valued in money, whether received in money or otherwise, including all receipts, cash, credits and property or services of any kind or nature, without any deduction therefrom whatsoever. Rent does not include the cost of any tax or assessment imposed by a governmental taxing entity for occupancy of a room or the cost of ancillary services or charges, including but not limited to food and beverages, parking fees, equipment fees, early check-in or late check-out fees, or damage recoupment.

**H.** **Permanent resident** shall mean any occupant who has or shall have the right of occupancy of any room or rooms in the same hotel for at least thirty (30) consecutive days during the current calendar year or preceding year.

**I.** **Return** shall include any return filed or required to be filed as herein provided.

**J.** **Mayor** shall mean the duly elected Mayor of the City of Tulsa, Oklahoma, or his designated representative.

*(Ord. No. 15876; Ord. No. 25386, § 1, 8-21-2024; Ord. No. 25603, § 1, 6-18-2025)*

**Section 101. Imposition of tax; exemptions.**

**A.** There is hereby levied an excise tax of five percent (5%) upon the gross proceeds or gross receipts derived from the rent from every occupancy of a room or rooms in a hotel in this City, except that the tax shall not be imposed where the rent is less than at the rate of Ten Dollars ($10.00) per day.

**B.** No tax shall be imposed hereunder upon a permanent resident.

**C.** No tax shall be imposed hereunder upon the United States insofar as it is immune from taxation, the state of Oklahoma, nor any municipality or other political subdivision of the state.

**D.** No tax shall be imposed upon persons who are residents of Oklahoma and have been honorably discharged from active service in any branch of the Armed Forces of the United States or Oklahoma National Guard and who have been certified by the United States Department of Veterans Affairs or its successor to be in receipt of disability compensation at the one hundred (100) percent rate and the disability shall be permanent and have been sustained through military action or accident or resulting from disease contracted while in such active service and registered with the veterans registry created by the Oklahoma Department of Veterans Affairs.

**E.** The tax to be collected shall be stated and charged separately from the rent and shall be shown separately on any record thereof at the time when the occupancy is arranged or contracted and charged for, and upon every evidence of occupancy or any bill, statement or charge made for such occupancy issued or delivered by the operator. The tax shall be paid by the occupant to the operator as trustee for and on account of the City, and the operator shall be liable for the collection thereof and for the payment of the tax. The operator and any officer of any corporate operator shall be personally

liable for the tax collected or required to be collected under this title, and the operator shall have the same right in respect to collecting the tax from the occupant or in respect to nonpayment of the tax by the occupant as if the tax were a part of the rent for the occupancy payable at the same time such tax shall become due and owing, including all rights of eviction, dispossession, repossession and enforcement of any innkeeper's lien that he may have in the event of nonpayment of rent by the occupant; provided, however, that the City of Tulsa shall be joined as a party in any action or proceeding brought by the operator to collect or enforce collection of the tax.

**F.** Such taxes, penalty and interest due hereunder shall at all times constitute a prior, superior and paramount claim as against the claim of unsecured creditors and may be collected by suit as any other debt.

**G.** Where the occupant has failed to pay and the operator has failed to collect a tax as imposed by this chapter, then, in addition to all other rights, obligations and remedies provided, such tax shall be payable by the occupant directly to the City, and it shall be the duty of the occupant to file a return thereof with the Mayor and to pay the tax imposed thereon to the Mayor, within fifteen (15) days after such tax was due.

**H.** The Mayor may, whenever he deems it necessary for the proper enforcement of this chapter, provide by regulation that the occupant shall file returns and pay directly to the Mayor the tax herein imposed at such times as returns are required to be filed and payment over made by the operator.

**I.** The tax imposed by this section shall be paid upon any occupancy on or after September 1, 1971, although such occupancy is had pursuant to a contract, lease or other arrangement made prior to September 1, 1971. Where rent is paid, charged, billed or falls due on either weekly or other term basis, the rent so paid, charged, billed or falling due shall be subject to the tax herein imposed to the extent that it covers any portion of the period after September 1, 1971, and such payment, bill, charge or rent due shall be apportioned on the basis of the ratio of the number of days falling within such portion to the total number of days covered thereby. Where any tax has been paid hereunder upon any rent which has been ascertained to be worthless, the Mayor may, by regulation, provide for credit or refund of the amount of such tax upon application as provided herein.

**J.** For the purpose of the proper administration of this chapter, and to prevent evasion of the tax hereby imposed, it shall be presumed that all rentals are subject to the tax until facts to the contrary are established; and the burden of providing that a rent for occupancy is not taxable hereunder shall be upon the operator or the occupant.

**K.** No operator shall advertise or hold out to the public in any manner, directly or indirectly, that the tax imposed by this chapter is not considered as an element in the rent charged to the occupant.

*(Ord. No. 13288; Ord. No. 25386, §§ 2, 3, 8-21-2024)*

### Section 102. Records to be kept.

Every operator shall keep records of every occupancy and of all rent paid, charged or due thereon and of the tax payable thereon in such form as the Mayor may, by regulation, require. Such records shall be available for inspection and examination at any time upon

demand by the Mayor or a duly authorized agent or employee of the City, and shall be preserved for a period of three (3) years, except that the Mayor may consent to their destruction within that period or may require that they be kept longer.

### Section 103. Returns.

**A.** Every operator, on or before the last day of each month, shall file with the Mayor a return of occupancy and of rents and of the taxes payable thereon for the preceding calendar month. The date of filing shall be the date of delivery to the Mayor.

**B.** The Mayor may permit or require returns to be made by shorter or longer periods and upon such dates as he may specify. The form of return shall be prescribed by the Mayor and shall contain such information as he may deem necessary for the proper administration of this code. The Mayor may require amended returns to be filed within twenty (20) days after notice, containing the information specified in the notice.

**C.** If a return required by this chapter is not filed or if a return when filed is incorrect or insufficient on its face, the Mayor shall take the necessary steps to enforce the filing of a return or an amended return.

*(Ord. No. 16630)*

### Section 104. Payment of tax.

At the time of filing a return of occupancy and of rents, each operator shall pay to the City the taxes imposed upon the rents included in such return, as well as all other moneys collected by the operator acting or purporting to act under the provisions of this chapter. All taxes for the period for which a return is required shall be due and payable on or before the date fixed for the filing of the return for such period, without regard to whether a return is filed or whether the return correctly filed shows the amount of rents and the taxes due. If any operator has twice failed to pay taxes on or before the date fixed for payment of such taxes or if any operator refuses to pay the taxes or if the Mayor has reasonable grounds for belief that any operator is about to cease business or leave the state or remove or dissipate assets, or if, for any similar reason he deems it necessary to protect revenues due hereunder, the Mayor may require an operator to file with the City either a performance and payment bond, as detailed herein, or in lieu of this bond, an escrow account or an irrevocable letter of credit as detailed herein. Should the operator not submit either a performance and payment bond, an escrow account or an irrevocable letter of credit within fifteen (15) days of notice to do so, the Mayor may conduct a hearing to suspend the license pursuant to the revised ordinances of the City of Tulsa. The performance bond, irrevocable letter of credit or escrow account shall be provided as follows:

**A.** A performance and payment bond in a form acceptable to the City, naming the operator as obligee thereof, executed by a surety acceptable to the City and authorized to do business in the state of Oklahoma, in a sum equal to the city-wide average daily room rental rate, to be ascertained by the Mayor, times the number of rooms available for rent within the hotel multiplied by a factor of thirty (30), times five percent (5%); or

**B.** An irrevocable letter of credit in a form acceptable to the City, executed by the operator and a federally insured financial institution acceptable to the City, providing for a sum equal to the city-wide average daily room rental rate, to be ascertained by the Mayor, times the number of rooms available for rent within the hotel multiplied by a factor of thirty (30), times five percent (5%); or

**C.** An escrow account held by the City in a sum equal to the city-wide average daily room rental rate, to be ascertained by the Mayor, times the number of rooms available for rent within the hotel multiplied by a factor of thirty (30), times five percent (5%).

*(Ord. No. 16958)*

## Section 105. Assessment and determination of tax.

If a return required by this chapter is not filed, or if a return when filed is incorrect or insufficient, the amount of tax due shall be assessed by the Mayor from such information as may be obtainable and, if necessary, the tax may be estimated on the basis of external indices, such as number of rooms, location, scale of rents, comparable rents, types of accommodations and services, number of employees or other factors. Written notice of such assessments shall be given to the person liable for the collection and payment of the tax. Such assessment shall finally and irrevocably fix and determine the tax, unless the person

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

against whom it is assessed, within ten (10) days after the giving of such assessment, shall apply in writing to the Council of the City of Tulsa for a hearing, or unless the Mayor, at his discretion, shall reassess the same. After such hearing, the Council of the City of Tulsa shall give written notice of its determination to the person against whom the tax is assessed. If the taxes and interest due are not paid within ten (10) days of assessment or reassessment by the Mayor or determination by the Council, in addition to the taxes and interest, the operator shall pay a penalty equal to ten percent (10%) of the taxes due.

*(Ord. No. 16630)*

**Section 106. Refunds.**

**A.** In the manner provided in this section, the Mayor shall refund or credit any tax erroneously, illegally or unconstitutionally collected if written application to the Mayor for such refund shall be made within two (2) years from the date of payment thereof. For like causes, and in the same period, a refund may be so made upon the initiative and the order of the Mayor. Whenever a refund is made, the reasons therefor shall be stated in writing. Such application may be made by the person upon whom such tax was imposed and who has actually paid the tax. Such application may also be made by the person who has collected and paid such tax to the City, provided that the application is made within two (2) years of the payment by the occupant to the operator; but no refund of money shall be made to the operator until he shall first establish to the satisfaction of the Mayor, under such regulations as the Mayor may prescribe, that he has repaid to the occupant the amount for which the application for refund is made. The Mayor, in lieu of any refund required to be made, may allow credit therefor on payments due from the applicant.

**B.** An application for a refund or credit made, as herein provided, shall be deemed an application for a revision of any tax, penalty or interest complained of, and the Mayor may receive evidence with respect thereto. After making his determination, the Mayor shall give notice thereof to the applicant. Such determination shall be final unless the applicant, within ten (10) days after such notice of determination, shall apply in writing to the Council for a hearing. After such hearing, the Council shall give written notice of its determination to the applicant.

**C.** A person shall not be entitled to revision, refund or credit of a tax under this section if he has had a hearing or an opportunity for a hearing as provided in this chapter and has failed to avail himself of the remedies therein provided.

*(Ord. No. 15876)*

**Section 107. Notices.**

Notices provided for under this chapter shall be deemed to have been given when such notices have been delivered personally to the operator or deposited in the United States mail to the last known address of the operator.

**Section 108. Remedies exclusive.**

The remedies provided by Sections 105 and 106 of this chapter shall be exclusive remedies available to any person for the review of tax liability imposed by this chapter.

## Section 109. Proceedings to recover tax.

**A. Civil remedies.**

**1.** Whenever any operator, occupant or other person shall fail to collect and/or pay over any tax, or to owe any tax, penalty or interest imposed by this chapter as herein provided, the Mayor may authorize the Director of Finance to file notice of liens on behalf of the City of Tulsa against the real estate upon which the hotel is located and/or against all franchises, property and rights to property, whether real or personal, then belonging to or thereafter acquired by the person owing the tax pursuant to 68 O.S.Supp.1996, § 2701, and 68 O.S.1991, § 2704.

**2.** The liens shall, upon proper filing, attach to the real estate and/or personal property then owned or thereafter acquired by the debtor, whether such property is used by the debtor in the operation of business or is under the authority of an assignee, trustee or receiver for the benefit of creditors, from the date such taxes are due and payable as allowed by 68 O.S.1991, § 2704.

**3.** The Director of Finance shall notify the person owing the tax by personal service or by certified mail that the City of Tulsa will file such liens if any delinquent lodging taxes, interest and/or penalties are not paid within fifteen (15) days of receiving such notice.

**4.** The Mayor may also authorize the City Attorney to institute an action in personam and in rem to enforce payment and collect any delinquent lodging taxes, penalties and/or interest.

**B. Criminal penalties.** In addition to all civil penalties provided by this chapter, the wilful failure or refusal of any operator, occupant or other person to make reports and/or remittances as herein required or the making of any false and fraudulent report for the purpose of avoiding or escaping payment of any tax or portion thereof rightfully due under this chapter shall be an offense and, upon conviction thereof, the offending operator, occupant or other person shall be punished by a fine of not more than Five Hundred Dollars ($500.00), excluding costs, and/or by imprisonment in the City jail for a period of not more than ninety (90) days.

*(Ord. No. 16958)*

## Section 110. General powers of the Mayor.

In addition to all other powers granted to the Mayor, he is hereby authorized and empowered:

**A.** To make, adopt and amend rules and regulations appropriate to the carrying out the provisions of this chapter for the purposes thereof;

**B.** To extend, for cause shown, the time for filing any return for a period not exceeding sixty (60) days; and, for cause shown, to waive, remit or reduce penalties or interest;

**C.** To delegate his functions hereunder to a deputy or other employee or employees of the City;

**D.** To assess, reassess, determine, revise and readjust the taxes imposed by this chapter; and

**E.** To prescribe methods for determining the taxable and non-taxable rents.

### Section 111. Administration of oaths and compelling testimony.

**A.** The Mayor, or employees or agents of the City duly designated and authorized by him, shall have the power to administer oaths and take affidavits in relation to any matter or proceeding in the exercise of their powers and duties under this chapter. The Mayor shall have the power to subpoena and require the attendance of witnesses and the production of books, papers and documents to secure information pertinent to the performance of his duties hereunder and of the enforcement of this chapter, and to examine them in relation thereto.

**B.** Any person who shall refuse to testify or to produce books or records, or who shall testify falsely in any material matter pending before the Mayor shall be guilty of an offense punishable by a fine of not more than Five Hundred Dollars ($500.00), excluding costs, and/or by imprisonment in the City jail for a period of not more than ninety (90) days.

*(Ord. No. 16385)*

### Section 112. Licenses and registration.

Every new operator shall file, within three (3) days of engaging in the hotel business, an application for license and registration pursuant to the Revised Ordinances of the City of Tulsa. The Mayor shall, within five (5) days after such registration, issue to each operator a license empowering such operator to collect the tax from the occupant. Such license shall be permanently displayed by the operator in such manner that it may be seen by and may come to the notice of all occupants and persons seeking occupancy. Such license shall be nonassignable and nontransferable and shall be surrendered immediately to the Mayor upon the cessation of business at the hotel named, or upon its sale or transfer.

*(Ord. No. 16958)*

### Section 113. Discount, delinquent taxes.

**A.** At the time of filing the returns required under this chapter with the Mayor, the operator shall remit therewith to the Mayor, except as thereinafter provided, ninety-seven percent (97%) of the tax due under the provisions of this chapter; provided that the tax is delivered to the Mayor on or before the 15th of the month for the preceding calendar month's return, or if transmitted by mail, that the date of postmark by the U.S. Postal Service is on or before the 15th day of the month for the preceding month's return. In the event that payment of any tax due is not made by the 15th of the month, the operator forfeits his claim to the three percent (3%) discount and must remit to the Mayor one hundred percent (100%) of the taxes due. If the filing of the return and remittance of the taxes due are received by the Mayor after the last day of the month, the taxes are then delinquent and the operator shall pay, in addition to one hundred percent (100%) of the taxes due, interest and penalties as prescribed in Subsection 114.A. of this chapter.

**B.** The discount granted by this section shall remunerate the operator for keeping tax records, filing reports and remitting the tax when due as required by this chapter.

*(Ord. Nos. 15876, 16630)*

## Section 114. Interest and penalties.

**A.** If an operator fails to file a return or remit the taxes due prior to the last day of the month, the operator shall pay, in addition to one hundred percent (100%) of the taxes due, the following interest and penalties:

**1.** One and one-half percent (1½%) interest per month on the total amount of taxes due from the last day of the month to the date of filing; and

**2.** A penalty of ten percent (10%) of the total amount of the taxes due.

**B.** In addition to the penalties provided herein, the following persons shall be guilty of an offense and, upon conviction thereof, shall be punished by imprisonment in the City jail for a period of not more than ninety (90) days and/or by a fine of not more than Three Hundred Dollars ($300.00), excluding costs:

**1.** Any operator or occupant who wilfully fails to file a return as required by this chapter, or who files or causes to be filed, or makes or causes to be made, or causes to be given any return, certificate, affidavit, representation, information, testimony or statement required or authorized by this chapter which is wilfully false;

**2.** Any operator who wilfully fails to file a bond required by this chapter or who wilfully fails to file a registration certificate and such data in connection therewith as the Mayor may require, by regulation or otherwise, or who fails to display or surrender the license as required by this chapter, or who assigns or transfers such license;

**3.** Any operator who wilfully fails to charge separately from the rent the tax herein imposed, or who wilfully fails to state such tax separately on any evidence of occupancy and on any bill, statement or receipt of rent issued or employed by the operator, or who wilfully fails or refuses to collect tax from the occupant;

**4.** Any operator who wilfully refers or causes reference to be made to this tax in a form or manner other than that required by this chapter; and

**5.** Any operator who wilfully fails to keep the records required by this chapter.

**C.** The affidavit of the Mayor to the effect that a tax has not been paid, that a return, bond or registration certificate has not been filed, or that information has not been supplied pursuant to the provisions of this chapter, shall be presumptive evidence thereof.

*(Ord. Nos. 15876, 16630)*

## Section 115. Confidential records.

The confidential and privileged nature of the records and files concerning the administration of this tax is legislatively recognized and declared, and to protect the same, the provisions of 68 O.S.Supp.1996, § 205, and each subsection thereof, are hereby adopted by reference and made fully effective and applicable to administration of this tax as if they were herein set forth in full.

## Section 116. Amendments.

The people of the City of Tulsa, Oklahoma, shall by their approval of this chapter at the election hereinafter provided, authorize the Council of the City of Tulsa, Oklahoma, by ordinance duly enacted, to make such changes or additions in the method and manner of

administration and enforcing this chapter as may be necessary or proper for efficiency and fairness, except that the rate of the tax herein provided shall not be changed without approval of the qualified electors of the City of Tulsa as herein provided.

**Section 117. Provisions cumulative.**

The provisions hereof shall be cumulative and in addition to any and all other taxing provisions of the City.

**Section 118. Creation of funds.**

**A.** The first two percent (2%) of all taxes levied and collected pursuant to this chapter shall be deposited into the General Fund of the City of Tulsa and shall be available to pay expenses incurred by the City of Tulsa in the enforcement of this chapter. "Enforcement," as used in this chapter, shall include expenses incurred in monitoring the collection, expenditure, and auditing of the hotel tax.

**B.** There is hereby established a special fund to be known as the Convention & Visitors Fund of the City of Tulsa. Forty-five percent (45%) of all taxes levied and collected pursuant to this chapter shall be deposited into this fund. This fund shall be used to market and promote tourism and the use of convention facilities in the City of Tulsa, and to serve the needs of visitors and encourage their economic activity in the City of Tulsa.

**C.** There is hereby established a special fund to be known as the Convention & Tourism Facilities Fund of the City of Tulsa. Forty-eight and five tenths percent (48.5%) of all taxes levied and collected pursuant to this chapter, together with all income derived from the investment of the taxes referred to in this Section, shall be deposited into the fund. This fund shall be used and expended by the City of Tulsa to construct, reconstruct, operate, maintain, and repair buildings and facilities to foster the development of the City as a convention and tourist destination, and to acquire land in connection therewith.

**D.** There is hereby established a special fund to be known as the Economic Development Fund of the City of Tulsa. Four and five-tenths percent (4.5%) of all taxes levied and collected pursuant to this chapter shall be deposited into the fund. This fund shall be used and expended to research, adopt, and implement plans, policies and proposals to facilitate the economic development of the City of Tulsa.

**E.** Actual disbursements shall be made only by warrants drawn, approved, and executed as required for other disbursements by the City.

*(Ord. Nos. 15305, 16591, 17408; Ord. No. 23112, § 1, 5-1-2014; Ord. No. 23294, § 1, 5-21-2015; Ord. No. 24107, § 1, 4-3-2019; Ord. No. 24643, § 1, 7-21-2021)*

**Section 119. Effective date.**

This code shall become effective on and after November 1, 1980, subject to approval of a majority of the registered voters of the City of Tulsa, Oklahoma, voting on same in manner prescribed by 11 O.S.Supp.1980, §§ 16-101 and 16-112.

*(Ord. No. 14846)*

**Section 120. Perpetuation of tax.**

In the event the provisions of this chapter relating to the Economic Development Fund or the Convention Fund be declared invalid by any court of competent jurisdiction, the tax

levied pursuant to this chapter shall continue to be levied and collected for general revenue purposes; and it is specifically declared to be the intention of the governing body of the City of Tulsa that the tax is to be levied and collected, notwithstanding the invalidity of any other section of this chapter.

# TITLE 45 CITY OF TULSA USE TAX CODE

## Chapter 1. City of Tulsa Use Tax Code

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. CITY OF TULSA USE TAX CODE

Section 100. Use tax levied.
Section 101. Exemptions.
Section 102. Time when due, returns, payment.
Section 103. Bracket system.
Section 104. Tax constitutes debt.
Section 105. Collection of tax by retailer or vendor.
Section 106. Collection by retailer or vendor maintaining a place of business out of state or both within and outside the state, permits.
Section 107. Revoking permits.
Section 108. Deductions allowed vendors or retailers of other states.
Section 109. Interest and penalties.
Section 110. Waiver of interest and penalties.
Section 111. Erroneous payments.
Section 112. Fraudulent returns.
Section 113. Records confidential.
Section 114. Provisions cumulative.
Section 115. Definitions.
Section 116. Tax collector defined.
Section 117. Classification of taxpayers.
Section 118. Subsisting state permits.
Section 119. Purposes of revenue.
Section 120. Effective date.

### Section 100. Use tax levied.

There is hereby levied, for the storage, use or other consumption of tangible personal property purchased or brought into the City of Tulsa, a use tax of three and sixty-five one hundredths (3.65 or 3 65/100) percent of the purchase price of such property. Such tax shall be paid by every person storing, using or otherwise consuming within the City tangible personal property purchased or brought into the City. The tax levied herein shall be paid at the time of importation or storage of the property within the City and shall be assessed only on property purchased outside Oklahoma; provided, however, that the tax levied herein shall not be levied against tangible personal property intended solely for use outside the City but which is stored in the City pending shipment outside the City or which is temporarily retained in the City for the purpose of fabrication, repair, testing, alteration, maintenance or other service. Any person liable for payment of the tax authorized herein may deduct from such tax any local or municipal sales tax previously paid on such goods or services; provided, however, that the amount deducted shall not exceed the amount that would have been due if the taxes imposed by the City had been levied on the sale of such goods or services.

*(Ord. No. 16232; Ord. No. 22423, § 1, 4-28-20110, eff. 10-1-2011; Ord. No. 23020, § 1, 1-16-2014; Ord. No. 23574, § 1, 10-26-2016)*

### Section 101. Exemptions.

The provisions of this chapter shall not apply:

**A.** In respect to the use of an article of tangible personal property brought into the City by a nonresident individual visiting in this City for his or her personal use or enjoyment while within the City;

**B.** In respect to the use of tangible personal property purchased for resale before being used;

**C.** In respect to the use of any article of tangible personal property on which a tax equal to or in excess of that levied by both the Oklahoma use tax code and the City of Tulsa use tax code has been paid by the person using such tangible personal property in the City, whether such tax was levied under the laws of Oklahoma or any other state or municipality of the United States. If any article of tangible personal property has already been subjected to a tax by Oklahoma or any other state or municipality in respect to its sale or use in an amount less than the tax imposed by the Oklahoma use tax code and the City of Tulsa use tax code, the provisions of this chapter shall also apply to it by a rate measured by the difference only between the rate provided by both the Oklahoma use tax code and the City of Tulsa use tax code, and the rate by which the previous tax upon the sale or use was computed; provided, however, that no credit shall be given for taxes paid in another state or municipality if that state or municipality does not grant like credit for taxes paid in Oklahoma and the City of Tulsa;

**D.** In respect to the use of machinery and equipment purchased and used by persons establishing new manufacturing or processing plants in the City of Tulsa and machinery and equipment purchased and used by persons in the operation of manufacturing plants already established in the City; provided, however, that this exemption shall not apply unless such machinery and equipment is incorporated into and is directly used in the process of manufacturing property subject to taxation under the sales tax code for the City of Tulsa; the term "manufacturing plants" shall mean those establishments primarily engaged in manufacturing or processing operations and generally recognized as such;

**E.** In respect to the use of tangible personal property now specifically exempted from taxation under the sales tax code of the City;

**F.** In respect to the use of any article of tangible personal property brought into the City by an individual with intent to become a resident of this City where such personal property is for such individual's personal use or enjoyment;

**G.** In respect to the use of any article of tangible personal property used or to be used by commercial airlines or railroads; or

**H.** In respect to livestock purchased outside Oklahoma and brought into the City of Tulsa for feeding or breeding purposes, and which livestock is later resold.

### Section 102. Time when due, returns, payment.

The tax levied by this chapter is due and payable at the time and in the manner and form prescribed for payment of the state use tax under the use tax code of the state of Oklahoma.

### Section 103. Bracket system.

The bracket system guidelines established by the Oklahoma Tax Commission for the collection of sales taxes, including any amendment of same, are hereby adopted for convenience in collecting both the state of Oklahoma use tax and the City of Tulsa use tax. The use of the bracket system guidelines does not relieve the retailer or vendor from the duty and liability to remit to the tax collector an amount equal to the applicable percentage of the purchase price of such property as required by state law and these revised ordinances.

**Section 104. Tax constitutes debt.**

Such taxes, penalty and interest due hereunder shall at all times constitute a prior, superior and paramount claim as against the claims of unsecured creditors and may be collected by suit as any other debt.

**Section 105. Collection of tax by retailer or vendor.**

Every retailer or vendor maintaining places of business both within and outside the state of Oklahoma and making sales of tangible personal property from a place of business outside this state for use in this City shall, at the time of making such sales, collect the use tax levied by this chapter from the purchaser and give to the purchaser a receipt therefor in the manner and form prescribed by the Tax Commission, if the Tax Commission shall, by regulation, require such receipt. Each retailer or vendor shall list with the Tax Commission the name and address of all his agents operating in this City and the location of any and all distribution or sales houses or offices or other places of business in this City.

**Section 106. Collection by retailer or vendor maintaining a place of business out of state or both within and outside the state, permits.**

The Tax Commission may in its discretion, upon application, authorize the collection of the tax herein levied by any retailer or vendor not maintaining a place of business within this state but who makes sales of tangible personal property for use in this City and by the out-of-state place of business of any retailer or vendor maintaining places of business both within and outside Oklahoma and making sales of tangible personal property at such out-of-state place of business for use in this City. Such retailer or vendor may be issued, without charge, a permit to collect such taxes, by the Tax Commission, in such manner and subject to such regulations and agreements as it shall prescribe. When so authorized, it shall be the duty of such retailer or vendor to collect the tax upon all tangible personal property sold to his knowledge for use within this City. Such authority and permit may be canceled when at any time the Tax Commission considers that such tax can more effectively be collected from the person using such property in this City. Provided, however, that in all instances where such sales are made or completed by delivery to the purchaser within this City by the retailer or vendor in such retailer's or vendor's vehicle, whether owned or leased (not by common carrier), such sales or transactions shall continue to be subject to applicable City sales tax at the point of delivery; and the tax shall be collected and reported under taxpayer's sales tax permit number accordingly.

**Section 107. Revoking permits.**

Whenever any retailer or vendor not maintaining a place of business in this state, or both within and outside this state, and authorized to collect the tax herein levied, fails to comply with any of the provisions of this chapter, the Oklahoma use tax code or any order, rules or regulations of the Tax Commission, the Tax Commission may, upon notice and hearing as provided for in 68 O.S.1991, § 1408, by order revoke the use tax permit, if any, issued to such retailer or vendor, and if any such retailer or vendor is a corporation authorized to do business in this state may, after notice and hearing provided by state law, cancel such corporation's license to do business in this state and shall issue a new license only when such corporation has complied with the obligations under this chapter, the Oklahoma use tax code or any order, rules or regulations of the Tax Commission.

### Section 108. Deductions allowed vendors or retailers of other states.

Returns and remittances of the tax herein levied and collected shall be made to the Tax Commission at the time and in the manner, form and amount as prescribed for returns and remittances required by the Oklahoma use tax code; and remittances of tax collected hereunder shall be subject to the same discount as may be allowed by the Oklahoma use tax code for the collection of state use taxes.

### Section 109. Interest and penalties.

Title 68 O.S.Supp.1996, § 217, is hereby adopted and made a part of this chapter, and interest and penalties at the rates and in the amounts as therein specified are hereby levied and shall be applicable in cases of delinquency in reporting and paying the tax levied by this chapter; provided, however, that the failure or refusal of any retailer or vendor to make and transmit the reports and remittances of tax in the time and manner required by this chapter shall cause such tax to be delinquent. In addition, if such delinquency continues for a period of five (5) days, the retailer or vendor shall forfeit his claim to any discount allowed under this chapter.

### Section 110. Waiver of interest and penalties.

The interest or penalty or any portion thereof accruing by reason of a retailer's or vendor's failure to pay the City use tax herein levied may be waived or remitted in the same manner as provided for such waiver or remittance as applied in administration of the state use tax provided in 68 O.S.Supp.1996, § 220; and to accomplish the purposes of this section, the applicable provisions of Section 220 are hereby adopted by reference and made a part of this chapter.

### Section 111. Erroneous payments.

Refund of erroneous payment of the City use tax herein levied may be made to any taxpayer making such erroneous payment in the same manner and procedure, and under the same limitations of time, as provided for administration of the state use tax as set forth in 68 O.S.Supp.1996, § 227; and to accomplish the purpose of this section, the applicable provisions of Section 227 are hereby adopted by reference and made a part of this chapter.

### Section 112. Fraudulent returns.

In addition to all civil penalties provided by this chapter, the willful failure or refusal of any taxpayer to make reports and remittances herein required, or the making of any false and fraudulent report for the purpose of avoiding or escaping payment of any tax portion thereof rightfully due under this chapter shall be a misdemeanor offense, and upon conviction thereof, the offending taxpayer shall be punished by a fine of not more than Five Hundred Dollars ($500.00), excluding costs, fees, and assessments, and/or by imprisonment in the City jail for a period of no more than sixty (60) days. Each day a violation exists shall constitute a separate violation.

*(Ord. No. 22774, § 1, 10-4-2012)*

### Section 113. Records confidential.

The confidential and privileged nature of the records and files concerning the administration of the City use tax is legislatively recognized and declared and, to protect the same, the

provisions of 68 O.S.Supp.1996, § 205 of the state uniform tax procedure and each subsection thereof, are hereby adopted by reference and made fully effective and applicable to the administration of the City use tax as if herein set forth in full.

**Section 114. Provisions cumulative.**

The provisions hereof shall be cumulative and in addition to any and all other taxing provisions of the City ordinances.

**Section 115. Definitions.**

The definitions of words, terms and phrases contained in the Oklahoma use tax code, 68 O.S.Supp.1996, § 1401, are hereby adopted by reference and made a part of this chapter. In addition thereto, the following words and terms shall be defined as follows:

**A. City** shall mean the City of Tulsa, Oklahoma; and

**B. Transaction** shall mean sale.

**Section 116. Tax collector defined.**

The term "tax collector" as used herein means the department of the City government or the official agency of the state, duly designated according to law or contract authorized by law, to administer the collection of the tax herein levied.

**Section 117. Classification of taxpayers.**

For the purpose of this chapter, the classification of taxpayers hereunder shall be as prescribed by state law for purposes of the Oklahoma use tax code.

**Section 118. Subsisting state permits.**

All valid and subsisting permits to do business issued by the Tax Commission pursuant to the Oklahoma use tax code are, for the purpose of this chapter, hereby ratified, confirmed and adopted in lieu of any requirement for an additional City permit for the same purpose.

**Section 119. Purposes of revenue.**

It is hereby declared to be the purpose of this chapter to provide revenues for the support of the functions of the municipal government of the City, and any and all revenues derived hereunder may be expended by the governing body of the City for any purpose for which funds may be lawfully expended as authorized by the Charter of the City of Tulsa and the state of Oklahoma. Subject to and consistent with the annual budget process as detailed in the Charter, 15% of the revenue generated by the use tax levied in Section 100 hereof, shall be deposited in the fund created by Title 43-K Tulsa Revised Ordinances to be used to pay debt service on indebtedness issued in support of the projects and purposes set forth therein. The deposit of use taxes authorized herein shall not continue past the retirement of the subject indebtedness, unless specifically extended by ordinance.

*(Ord. No. 23574, § 2, 10-26-2016)*

**Section 120. Effective date.**

This code shall become effective on and after May 1, 1983.

*(Ord. No. 15580)*

## CHAPTER 1. GENERAL ADMINISTRATIVE FEES

Section 100. Uniform Building Code commission fees.
Section 101. Code compliance process meeting fee.
Section 102. Application of general administrative fees.
Section 103. Permit system maintenance fee.
Section 104. Permit cancellation fee.
Section 105. Penalty fee for work started prior to obtaining a permit.
Section 106. Addendums, resubmitted, or revised plans fee.
Section 107. Minimum permit fee.
Section 108. Inspection fee.
Section 109. Reinspection fee.
Section 110. Off-duty recall inspection fee.
Section 111. Record retention fee.
Section 112. Failure to obtain approval prior to concealment or occupancy—Penalty.
Section 113. Continuation after stop work order—Penalty.
Section 114. Fee for appeal to Board of Appeals.
Section 115. Disposition of abandoned escrow deposits.
Section 116. Fees waived for governmental entities.
Section 117. System development fee.
Section 118. Payment of permit fees requiring plans review.
Section 119. Accounts for payment of fees.
Section 120. Replacement registration fee.
Section 121. Administrative review fee.
Section 122. Nuisance abatement extension fee.
Section 123. Nuisance and nuisance abatement administrative fees.
Section 124. Reinstatement of permits.

### Section 100. Uniform Building Code commission fees.

**A.** A fee of Four Dollars ($4.00) shall be collected pursuant to 59 O.S. Section 1000.25 on all building permits and/or construction permits, as defined therein, and upon the renewal of said permits. This fee is for all permits issued by the City which authorize work governed by codes within the purview of the Oklahoma Uniform Building Code Commission (OUBCC) in compliance with 59 O.S. Section 1000.25.

**B.** All fees collected pursuant to this ordinance shall be deposited into a separate account for that purpose.

**C.** All fees collected for the Uniform Building Code Commission pursuant to this ordinance, shall be remitted by the City monthly directly to the State Treasury for deposit into the Oklahoma Uniform Building Code Commission Revolving Fund created pursuant to 59 O.S. Section 1000.28.

**D.** As further provided in 59 O.S. Section 1000.25, an administrative fee of Fifty Cents ($0.50) shall be collected by the City on all building permits and/or construction permits, which are the subject matter hereof, and on the renewal of said permits, and said fees shall be retained by the City as reimbursement for the administrative expenses incurred to meet the obligations of collecting, accounting for, and remitting these fees on behalf of the OUBCC.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 101. Code compliance process meeting fee.

A meeting between City of Tulsa staff and a development project team for the purpose of examining and discussing the project team's design code concepts and/or for the purpose of developing code compliant design concepts is highly recommended. If a code compliance development meeting is requested by any party, including the owner, the fee for such meeting shall be Four Hundred Dollars ($400.00)

Infrastructure Predevelopment Meeting - see Section 901.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 102. Application of general administrative fees.

The fees codified in this chapter are imposed and shall be applied to each permit, license, certificate, and registration governed by this Title 49, unless specifically provided otherwise in any individual chapters. The fees established in this Title 49, Tulsa Revised Ordinances, shall supersede and replace any fees codified in Titles 11, 11-A, 11-C; 14, 35, 50, 51, 52, 55, 56, and 59, Tulsa Revised Ordinances, unless expressly provided otherwise, herein.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 103. Permit system maintenance fee.

A surcharge of Five Dollars ($5.00) shall be charged on each permit, license, certificate, or registration processed.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 104. Permit cancellation fee.

When a written request to cancel a permit is received within one hundred eighty (180) days of the last permit activity, a Ninety Dollar ($90.00) cancellation fee shall be assessed in addition to a Sixty-Four Dollar ($64.00) fee for each inspection that has been performed or review completed which was not previously covered by an application fee. Permit fees will be refunded with the exception of the administrative fees pursuant to Chapter 1 of this title and the permit application fee as assessed in Chapter 3 of this title. License, registration, or certificate fees shall be non-refundable.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 105. Penalty fee for work started prior to obtaining a permit.

If work is started prior to the issuance of any required permit, a penalty fee shall be charged in addition to the regular permit fee. The penalty fee shall be Two Hundred Fourteen Dollars ($214.00) or three times (3x) the cost of the regular fee, whichever is greater. The payment of such a penalty fee shall not relieve any person from fully complying with all the requirements of this Code, nor shall such payment exempt the person from further penalty prescribed by ordinance.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 106. Addendums, resubmitted, or revised plans fee.

All plans submitted as addendums or plans required to be resubmitted or revised pursuant to any code regulated by this title shall be assessed with an additional fee of One Hundred Dollars ($100.00) This fee shall be non-refundable.

**Exception:** This section shall not be applicable to plans or addendums submitted pursuant to Chapter 9 of this title.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 107. Minimum permit fee.

A minimum fee of Eighty Dollars ($80.00) shall apply to any permit.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 108. Inspection fee.

The cost of each permit shall cover inspections unless specified otherwise. For sections where the number of inspections is specified, any additional inspections requested, including partials and reinspection's, shall be made at the minimum rate of Sixty-Two Dollars ($62.00) per inspection.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 109. Reinspection fee.

For any permit where a re-inspection is required due to faulty work or work not completed or ready for inspection when the code official is notified to make such inspection, each re-inspection shall be assessed a fee of Seventy-Five Dollars ($75.00) unless otherwise provided for in this title. All re-inspection fees shall be paid prior to the re-inspection being made.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 110. Off-duty recall inspection fee.

Any inspection requiring a code official or inspector who is off duty to be recalled to duty that is not continuous with the inspector's regular work period shall be subject to a recall inspection fee assessed, paid, and collected at a rate of One Hundred Fifty Dollars ($150.00) per hour, with a minimum assessed inspection time of two (2) hours.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 111. Record retention fee.

In addition to any permit, license, certificate, or registration fee or minimum fee, a fee of Two Dollars ($2.00) per page shall be charged for record retention.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 112. Failure to obtain approval prior to concealment or occupancy—Penalty.

Work shall not be done beyond the point indicated in each successive inspection without first obtaining the approval of the code official. Work that is covered or concealed, placed in operation, or a structure that is occupied without approval of the code official shall be in violation of the code and shall be penalized by the imposition of a civil fine in the amount of One Hundred Dollars ($100.00) for each occurrence and may result in a hearing before the applicable Appeals Board. Each day that a violation continues shall be deemed a

separate offense. The assessment or payment of this penalty shall not relieve any person from fully complying with all requirements imposed by law, nor shall such payment exempt the person from further penalty provided by law.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 113. Continuation after stop work order—Penalty.**

Any person who shall continue any work in or about the structure after having been served with a stop-work order, except such work as any such person is directed to perform to remove a violation or unsafe condition, shall be punished by a civil fine in the amount of One Thousand Dollars ($1,000.00) for each occurrence. Each day that a violation continues shall be deemed a separate offense.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 114. Fee for appeal to Board of Appeals.**

A fee of Two Hundred Fifty Dollars ($250.00) shall be charged upon the filing of an application by any person, firm, corporation, limited liability company, or other entity for an appeal to the Board of Appeals from any decision of a code official. Upon a successful appeal to either the Board of Appeals or the City Council, fifty percent (50%) of this fee shall be refunded to the applicant.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 115. Disposition of abandoned escrow deposits.**

Whenever monies deposited into an escrow account held by the City pursuant to any section of Titles 11, 11-A, 11-C, 14, 35, 50, 51, 52, 55, 56, and 59, Tulsa Revised Ordinances, and the monies have not been expended and the account has been inactive for one (1) year or more from the date of the last charge or deposit, it shall be presumed abandoned and shall be disposed of pursuant to 11 O.S. Supp. 2016, § 22-136, as amended.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 116. Fees waived for governmental entities.**

Unless specified otherwise in a specific section, all permit or inspection fees shall be collected by the City of Tulsa on any public work or improvement performed by or for any city, county, state, or federal governmental entity, unless approved by the Director of Development Services or the Director's designated representative of a written request for an exemption submitted by the entity showing just cause, alternative consideration or proposing an exchange of services in lieu of the fee. Such an exemption shall not constitute waiver of any ordinance requiring the issuance of such permits or the performance of specified inspections, and it shall apply only to such permits or certificates of inspection issued directly to the governmental entity involved. Fees-in-lieu of detention, penalty fees, and after hour inspection fees shall not be waived.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 117. System development fee.**

In addition to any license, permit, certificate, or registration fee, or minimum fee, a fee of Five and 50/100 Dollars ($5.50) plus eight percent (8%) of the license, permit, certificate, or registration fee shall be charged for continued system development and maintenance.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 118. Payment of permit fees requiring plans review.**

Upon acceptance of an application for a permit, an application fee shall be paid. The application, and all associated required documents and plans shall then be reviewed. Upon approval, the applicant shall be notified that the permit is approved and advised of what remaining fees are due. For any permit to be valid, it shall have been paid for in full and posted at the job site prior to beginning construction. Payments for permits shall be due upon notification to an applicant that the permit has been approved and is ready for issuance. Any permit not paid for within thirty (30) days after notification may be deemed void and any application fee shall then be forfeited.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 119. Accounts for payment of fees.**

Any person or entity may deposit with the City of Tulsa monies to be used for permit or license related fees. Such deposit shall authorize the City to use the funds therein for the payment of any and all permits, inspection, or penalty fees. Such funds shall be held in trust on behalf of the person or entity in a non-interest-bearing account. Any account that remains inactive for more than twelve (12) months will be disposed of in accordance with Section 115 of this ordinance.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 120. Replacement registration fee.**

In the event any registrant's registration card is lost or destroyed, a duplicate may be obtained by submitting a signed, written request and payment of a Twenty-Three Dollars ($23.00) replacement fee.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 121. Administrative review fee.**

Any person, firm, corporation, or limited liability company requesting an administrative review for the purpose of considering an alternative construction solution for "equivalency" to the code shall pay a fee of Two Hundred and Eighty-Two Dollars ($282.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 122. Nuisance abatement extension fee.**

An extension of fourteen (14) days in which to self-abate the nuisance may be applied for by paying a nuisance abatement extension fee of Sixty-Four Dollars ($64.00) per extension. Qualifications for the extension are specified in Title 24, Section 201.F.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## Section 123. Nuisance and nuisance abatement administrative fees.

Administrative fees chargeable for nuisance abatement shall be as follows:

| | |
|---|---|
| Initial nuisance | $300.00 |
| Summary abatement | $300.00 |
| Demolition | $500.00 |

Said fees shall be recoverable against the party maintaining, operating, or permitting a nuisance.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## Section 124. Reinstatement of permits.

Any person, firm, corporation, or limited liability company desiring to have their expired, canceled, or voided permit reinstated must provide a written request showing just cause. If approved by the Director, code official, or designee, the permit will be reinstated and a fee of One Hundred Dollars ($100.00) shall be charged.

*(Ord. No. 25351, § 1, 7-17-2024)*

## CHAPTER 2. ANNUAL PERMIT FEES

Section 200. Annual permit fees.
Section 201. Annual building permit.
Section 202. Annual plumbing permit.
Section 203. Annual mechanical permit.
Section 204. Annual electrical permit.

### Section 200. Annual permit fees.

Pursuant to Title 50, Tulsa Revised Ordinances, the fee for all annual permits issued to any qualified person, firm, corporation, limited liability company, or other entity owning and operating a commercial, industrial, utility, processing, or institutional plant within the City of Tulsa shall be computed on the basis of the gross square footage of the building(s) or structure(s) for which the annual permit is issued. The fees established in this Title 49, Tulsa Revised Ordinances, Chapter 2 shall supersede and replace any fees codified in Title 50, Tulsa Revised Ordinances. In addition to the fees listed below, administrative fees pursuant to Chapter 1 of this title shall be required.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 201. Annual building permit.

The fee for all annual building permits shall be computed on the basis of the gross square footage of the applicable building(s) or structure(s) at a rate of Two Dollars ($2.00) per one thousand (1,000) square feet.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 202. Annual plumbing permit.

The fee for all annual plumbing permits shall be computed on the basis of the gross square footage of the applicable building(s) or structure(s) at a rate of Two Dollars ($2.00) per one thousand (1,000) square feet.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 203. Annual mechanical permit.

The fee for all annual mechanical permits shall be computed on the basis of the gross square footage of the applicable building(s) or structure(s) at a rate of Two Dollars ($2.00) per one thousand (1,000) square feet.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 204. Annual electrical permit.

The fee for all annual electrical permits shall be computed on the basis of the gross square footage of the applicable building(s) or structure(s) at a rate of Two Dollars ($2.00) per one thousand (1,000) square feet.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 3. BUILDING PERMIT FEES

Section 300. Building permit fees—General.
Section 301. Building permit application fee.
Section 302. Building permit fee.
Section 303. Certificates of occupancy and zoning clearance fees.
Section 304. Carport permit fee.
Section 305. Expediting fee.
Section 306. Storm shelter permit fee.
Section 307. Fire suppression system permits application fee.
Section 308. Fire suppression system permit fee.
Section 309. Fire suppression hood permit fee.
Section 310. Fire alarm system permits application fee.
Section 311. Fire alarm system permit fee.
Section 312. Fire standpipe system permits application fee.
Section 313. Fire standpipe system permit fee.
Section 314. Demolition fee and bond.
Section 315. Tent permit fee.
Section 316. Special assembly permit fee.
Section 317. Sign permit fee.
Section 318. Temporary residential use permit fee.
Section 319. Moving of buildings and structures application fee.
Section 320. Moving of buildings and structures permit fee.
Section 321. Moving an oversized building permit fee.
Section 322. House moving cash deposit.
Section 323. Fee for moving buildings or structures from outside the city limits.
Section 324. House mover's bond and insurance.
Section 325. House mover's escort fee.
Section 326. House mover's license fee.
Section 327. Professional home builder's registration fee.

### Section 300. Building permit fees—General.

The fees for all building permits issued pursuant to Title 51, Tulsa Revised Ordinances, shall be as established in this Title 49, Tulsa Revised Ordinances, Chapter 3. The fees established in this chapter shall supersede and replace any fees codified in Title 51, Tulsa Revised Ordinances, Chapters 1 through 5. In addition to the fees listed below, administrative fees pursuant to Chapter 1 of this title shall be required.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 301. Building permit application fee.

An application fee shall be charged for each building permit. The building permit application fee shall be based on the declared valuation of the construction, as determined by the following schedule:

| Declared Valuation | Fee |
|---|---|
| $0 to $15,000.00 | $64.00 |
| $15,000.01 to $100,000.00 | $98.50 |

| Declared Valuation | Fee |
|---|---|
| Above $100,000.00 | $0.97/$1,000 Value |

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 302. Building permit fee.

A. A building permit fee shall be assessed for each building permit issued. Such fee shall be decreased by the amount of any previously paid building permit application fee. A building permit fee shall be based on the value of the construction, as determined by the following schedule:

| Estimated Valuation | Fee |
|---|---|
| $0 to $5,000.00 | $133.00 |
| $5,000.01 to $40,000.00 | $213.00 |

**B.** For estimated valuation in excess of Forty Thousand Dollars ($40,000.00) but less than or equal to One Hundred Fifty Thousand Dollars ($150,000.00), calculated in One Thousand Dollar ($1,000.00) increments to the closest One Thousand Dollars ($1,000.00), the fee shall be Six Dollars ($6.00) per thousand of the estimated valuation.

**C.** For estimated valuation in excess of One Hundred Fifty Thousand Dollars ($150,000.00), calculated in One Thousand Dollar ($1,000.00) increments to the closest One Thousand Dollars ($1,000.00), the additional fee shall be at the rate of Three Dollars ($3.00) per thousand of the estimated valuation above One Hundred Fifty Thousand Dollars ($150,000.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 303. Certificates of occupancy and zoning clearance fees.

**A.** Certificate of occupancy fee for a new building with an associated building permit ..... $70.00

**B.** Residential certificate of occupancy associated with a new single-family residence, new duplex, or new townhouse ..... $34.00

**C.** Certificate of occupancy fee for existing buildings or change in use only... $384.00

**D.** Temporary or partial certificate of occupancy ..... $367.00

**E.** Certificate of occupancy update..... $384.00

**F.** Zoning clearance permit fee for any construction or for a site with or without improvements (commercial)..... $92.00

**G.** Zoning clearance permit fee for construction or for a site with or without improvements (residential) ..... $75.50

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 304. Carport permit fee.

The fee for a carport permit shall be Ninety-Eight Dollars ($98.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 305. Expediting fee.

In addition to the permit fee, a nonrefundable fee for expediting permits shall be:

**A.** Professional home builders ..... $121.00

**B.** Residential fast track ..... $500.00

**C.** Commercial priority review (interior remodel with no change of use) ..... $500.00

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024; Ord. No. 25572, § 1, 5-21-2025)*

### Section 306. Storm shelter permit fee.

Storm shelter permit fee shall be a flat fee with no other administrative, zoning, or watershed fees applicable with the exception of Section 100, Uniform Building Code Commission fees.

**A.** Indoor storm shelter ..... $88.00

**B.** Outdoor storm shelter ..... $132.00

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 307. Fire suppression system permits application fee.

**A.** The application fee for an automatic fire suppression system shall be Seventy-Five Dollars ($75.00). A permit for the installation of the fire suppression system shall not be issued by a code official until the plans have been approved by the Fire Marshal.

**Exception:** A permit for five (5) or less sprinkler heads may be issued with approval via telephone without any application fee or plans review.

**B.** A code official shall not issue a permit for installation of an automatic fire suppression system until the person, firm, corporation, limited liability company, or other entity installing the same shall have on file with the City of Tulsa a surety bond in the amount of Two Thousand Five Hundred Dollars ($2,500.00). Such bond shall be in a form satisfactory to the City, guaranteeing payment of all obligations and guaranteeing installation in accordance with the provisions of Title 51, Tulsa Revised Ordinances.

**C.** No person, firm, or corporation shall install fire suppression systems unless licensed as provided in 59 O.S. 2001, §§ 1800.1, et seq., as amended, and the rules and regulations adopted pursuant to 59 O.S. 2001, §§ 1800.1, et seq. The fee for such license shall be pursuant to Chapter 14, Section 1450 of this title.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 308. Fire suppression system permit fee.

The fee for a fire suppression system permit shall be based upon the number of sprinkler heads involved. The following fees shall include a maximum of four (4) inspections, unless otherwise indicated:

| No. of Heads | Fee |
|---|---|
| 1—5 (One (1) inspection) | $113.00 |
| 6—20 (Two (2) inspections) | $157.00 |
| 21—100 (Two (2) inspections) | $225.00 |
| 101—200 (Three (3) inspections) | $276.00 |
| 201—300 | $313.00 |
| 301—400 | $419.50 |

| No. of Heads | Fee |
|---|---|
| 401—500 | $519.00 |
| 501—600 | $625.00 |
| 601—750 | $781.00 |

For permits issued for systems containing more than Seven Hundred Fifty (750) heads, the fee shall be Seven Hundred Eighty-One Dollars ($781.00), plus Eighty-Five Cents ($0.85) per additional head, with one (1) additional inspection included for each One Hundred Twenty-Five (125) heads over Seven Hundred Fifty (750).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 309. Fire suppression hood permit fee.

The fee for a fire suppression hood permit shall be Seventy-Three and 75/100 Dollars ($73.75) per hood.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 310. Fire alarm system permits application fee.

**A.** An application fee of Seventy-Five Dollars ($75.00) shall be charged for each fire alarm system permit. A permit for the installation of the fire alarm system shall not be issued by a code official until the plans have been approved by the Fire Marshal.

**Exception:** A permit for five (5) or less fire alarm devices, not including the panel, may be issued with approval via telephone without any application fee or plans review.

**B.** No person, firm, or corporation shall install fire alarm systems unless licensed as provided in 59 O.S. 2001, §§ 1800.1, et seq., as amended, and the rules and regulations adopted pursuant to 59 O.S. 2001, §§ 1800.1, et seq. The fee for such license shall be pursuant to Chapter 14, Section 1450 of this title.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 311. Fire alarm system permit fee.

The fee for a fire alarm system permit shall be based upon the number of fire alarm devices involved. The following fees shall include a maximum of four (4) inspections, unless otherwise indicated:

| | |
|---|---|
| 1—5 (One (1) inspection) | $113.00 |
| 6—20 (Two (2) inspections) | $157.00 |
| 21—100 (Two (2) inspections) | $225.00 |
| 101—200 (Three (3) inspections) | $419.00 |
| 201—300 | $625.00 |
| 301—400 | $830.00 |
| 401—500 | $1,036.00 |
| 501—600 | $1,245.00 |
| 601—750 | $1,550.00 |

For permits issued for systems containing more than Seven Hundred Fifty (750) devices, the fee shall be One Thousand Five Hundred Fifty Dollars ($1,550.00), plus One Dollar and 75/100 ($1.75) per additional device, with one (1) additional inspection included for each One Hundred Twenty-Five (125) devices over Seven Hundred Fifty (750).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

### Section 312. Fire standpipe system permits application fee.

An application fee of Seventy-Five Dollars ($75.00) shall be assessed for each fire standpipe system permit.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 313. Fire standpipe system permit fee.

The fee for a fire standpipe system permit shall be Forty-Three and 50/100 Dollars ($43.50) per standpipe per floor.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 314. Demolition fee and bond.

**A.** The fee for a permit to demolish any building or structure, or any portion of a building or structure, shall be One Hundred Thirty-Three Dollars ($133.00). See Chapter 13 Section 1302 of this Title for the fees associated with the required sewer plug permit.

**B.** The amount of bond required for protecting owners adjacent to a permitted demolition from damage shall be in the minimum amount of Five Thousand Dollars ($5,000.00), provided that this amount may be increased by the code official, if in the opinion of the code official the location of the building to be demolished or destroyed requires a larger bond. The code official, or designated representative, may waive the requirement of bond if the official is satisfied that the particular building or structure can be demolished or destroyed without damage to adjoining buildings or properties.

**C.** No person, firm, or corporation shall be issued a demolition permit until such time the proof of asbestos inspection has been submitted as required by the state of Oklahoma Department of Environmental Quality. Excluded from the requirements of this subsection C are privately owned residential structures having four (4) or fewer dwelling units.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 315. Tent permit fee.

Tent permit fee shall be Ninety Dollars ($90.00) for the first tent, plus Twenty-Nine Dollars ($29.00) for each additional tent on the same permit and on the same site.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 316. Special assembly permit fee.

For each permit allowing a special assembly or amusement on private property in buildings not designed for assembly, amusement, and/or the number of occupants requested shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 317. Sign permit fee.

No permit required for any sign work shall be issued and no sign for which such permit is required shall be erected unless the person, firm, corporation, limited liability company, or other entity erecting it shall have paid all applicable fees designated below:

**A.** Minimum sign fee ..... $81.00

**B.** Application fee(s): Each applicant for an outdoor advertising sign or business sign shall be charged a fee, when an application is made, which shall be non-refundable and shall be counted as part of the total sign permit fee upon issuance of the permit ..... $81.00

**C.** Outdoor advertising signs: zoning clearance and plan review fee ..... $464.00

**D.** Business signs: zoning clearance and plan review fee ..... $190.00

**E.** Interior electrical sign ..... $190.00

**F.** Border neon sign ..... $190.00

**G.** Inflatable non-rigid or tethered balloon ..... $127.00

**H.** Temporary sign ..... $127.00

**I.** Remove and rehang (same size and same location)..... $127.00

**J.** Sign inspections or reviews requiring no application fee or minimum sign fee:

**1.** Promotional business sign ..... $81.00

**2.** Remove only ..... $81.00

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 318. Temporary residential use permit fee.

The permit fee for the temporary residential occupancy of a building or structure, or part thereof, shall be One Hundred Sixty-Six and 50/100 Dollars ($166.50), payable when the permit is issued.

*(Ord. No. 24664, § 1, 8-25-2021)*

### Section 319. Moving of buildings and structures application fee.

The application fee for moving any building or structure from one lot to another over public right-of-way shall be Eighty-One Dollars ($81.00). Such fee shall be non-refundable and shall be counted as part of the total permit fee upon issuance of the permit.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 320. Moving of buildings and structures permit fee.

The permit fee for moving any building or structure from one lot to another over public right-of-way shall be Two Hundred Forty-Seven Dollars ($247.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 321. Moving an oversized building permit fee.

In addition to all other permit fees, a fee of Three Hundred Eighty-Four Dollars ($384.00) shall be assessed for the moving of any oversized building or structure over any public right-of-way, as defined in Title 51, Chapter 4, Section 1303.12.1, Tulsa Revised Ordinances.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 322. House moving cash deposit.**

Pursuant to Title 51, Chapter 4, Tulsa Revised Ordinances, Section 1303.4, prior to the issuance of a house mover license, the license applicant shall deposit with the City of Tulsa One Thousand Dollars ($1,000.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 323. Fee for moving buildings or structures from outside the city limits.**

Pursuant to Title 51, Chapter 4, Tulsa Revised Ordinances, Section 1303.14, a license applicant for a permit to move a building or structure from a location outside the corporate limits into the City of Tulsa shall be assessed an inspection fee equal to Eighty-Four Dollars ($84.00), plus Sixty-Two Cents ($0.62) per mile for the round trip to and from the structure and 175 East 2nd Street, Tulsa, Oklahoma for the sole purpose of measuring the structure.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 324. House mover's bond and insurance.**

**A.** Pursuant to Title 51, Chapter 4, Tulsa Revised Ordinances, Section 1303.3, the bond required to be given by a licensed house mover for the benefit of the City and any private person or corporation sustaining damages under the conditions of such bond shall be in the amount of Ten Thousand Dollars ($10,000.00).

**B.** Pursuant to Title 51, Chapter 4, Tulsa Revised Ordinances, Section 1303.5, the amount of general liability insurance which a house mover shall provide to indemnify the City and the public for claims arising out of work to be performed shall be not less than Ten Thousand Dollars ($10,000.00) for bodily injury to or death of one (1) person in one (1) accident; in an amount not less than Twenty-Five Thousand Dollars ($25,000.00) for personal injury or death of more than one (1) person in one accident; and in an amount not less than Five Thousand Dollars ($5,000.00) for property damage. The policy providing such coverage shall not be canceled or modified without giving at least thirty (30) days' written notice to the City of Tulsa.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 325. House mover's escort fee.**

Pursuant to Title 51, Chapter 4, Tulsa Revised Ordinances, Section 1303.13.3, an applicant for a permit to move a building or structure shall have a Police Escort. Associated fees incurred with such service will be handled through the Tulsa Police Department, separate from the moving permit fees. City of Tulsa personnel will provide escort on an "as needed" basis as determined by City of Tulsa Traffic Engineering. When this escort is required, the house mover will be assessed a fee equal to Sixty-Four Dollars ($64.00) per hour, per escort, with a two-hour minimum, plus Sixty-Two Cents ($0.62) per mile per round trip traveled for the move of each building or structure requiring a permit.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## Section 326. House mover's license fee.

Pursuant to Title 51, Chapter 4, Tulsa Revised Ordinances, Section 1303, any person engaging in house moving shall pay a license fee of One Hundred Seventy-Eight dollars ($178.00) per annum. All house mover certificates of registration shall expire on the last day of the house mover's birth month.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## Section 327. Professional home builder's registration fee.

Any builder desiring to apply for permits as a Professional Home Builder shall register as a Professional Home Builder in accord with the Initial Registration or Annual Registration Renewal guidelines of the Professional Home Builder Program. The builder shall pay an annual registration fee of One Hundred Seventy-Eight Dollars ($178.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## CHAPTER 4. ELECTRICAL PERMIT FEES

Section 400. Electrical permit fees—General.
Section 401. Residential (one- and two-family dwellings)—New construction and additions only.
Section 402. Commercial or industrial—New construction, additions, and major remodels only.
Section 403. Low density projects such as parking garages, shell buildings, and warehouses.
Section 404. Other electrical work.
Section 405. Registration fees.

### Section 400. Electrical permit fees—General.

The fees for all electrical permits, licenses, certificates, and registrations issued pursuant to Title 52, Tulsa Revised Ordinances shall be as established in this Title 49, Tulsa Revised Ordinances, Chapter 4. The fees established in this chapter shall supersede and replace any fees codified in Title 52, Tulsa Revised Ordinances, Chapter 1. In addition to the fees listed below, administrative fees pursuant to Chapter 1 of this Title shall be required.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 401. Residential (one- and two-family dwellings)—New construction and additions only.

**A.** Electrical permit fees for residential one- and two-family dwellings, involving new construction and additions only, shall be a total of the electric service fee, as determined in Subsection 404.A of this chapter, plus a base fee determined by the size of the construction designated below:

| | |
|---|---|
| 1—2,000 sq. ft. | $230.00 |
| 2,001—6,000 sq. ft. | $293.00 |
| Each additional 1,000 sq. ft. | $58.00 |

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 402. Commercial or industrial—New construction, additions, and major remodels only.

**A.** Electrical permit fees for commercial or industrial construction, involving new construction only, shall be a total of the electric service fee, as determined in Subsection 404.A of this chapter, plus a base fee determined by the size of the construction designated below:

| | |
|---|---|
| 1—2,500 sq. ft. | $293.00 |
| 2,501—10,000 sq. ft. | $344.00 |
| 10,001—25,000 sq. ft. | $562.00 |
| 25,001—50,000 sq. ft. | $779.00 |
| 50,001—75,000 sq. ft. | $997.00 |
| 75,001—100,000 sq. ft. | $1,179.00 |
| Each additional 5,000 sq. ft. | $64.00 |

**B.** Electrical permit fees for commercial or industrial construction, involving additions, and major remodels only, shall be a total of the electric service fee (when required), as determined in Subsection 404.A of this chapter, plus a base fee determined by the size of the construction designated below:

| | |
|---|---|
| 1—2,500 sq. ft. | $189.00 |
| 2,501—10,000 sq. ft. | $207.00 |
| 10,001—25,000 sq. ft. | $344.00 |
| 25,001—50,000 sq. ft. | $476.00 |
| 50,001—75,000 sq. ft. | $607.00 |
| 75,001—100,000 sq. ft. | $745.00 |
| Each additional 5,000 sq. ft. | $64.00 |

**Note:** On remodel projects having less than fifty percent (50%) of the space in the area involved, the fees shall be as provided in Section 404 of this chapter.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 403. Low density projects such as parking garages, shell buildings, and warehouses.

Electrical permit fees for low density projects such as parking garages, shell buildings, and warehouses shall be a total of the electric service fee (when required), as determined in Subsection 404.A of this chapter, plus a base fee determined by the size of the construction designated below:

| | |
|---|---|
| 1—2,500 sq. ft. | $144.00 |
| 2,501—10,000 sq. ft. | $161.00 |
| 10,001—25,000 sq. ft. | $305.00 |
| 25,001—50,000 sq. ft. | $453.00 |
| 50,001—75,000 sq. ft. | $593.00 |
| 75,001—100,000 sq. ft. | $739.00 |
| Each additional 5,000 sq. ft. | $64.00 |

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 404. Other electrical work.

The following fees shall apply to residential, commercial, or industrial work not covered in Sections 401 through 403 of this chapter:

| | | |
|---|---|---|
| **A.** | Electrical service (first 100 amps) | $98.00 |
| | Each additional 100 amps, or portion thereof | $18.00 |
| **B.** | Swimming pools | $235.00 |
| **C.** | Generator | $235.00 |
| | Each additional | $118.00 |
| **D.** | HVAC unit | $81.00 |
| | Each additional | $11.89 |

| | | |
|---|---|---|
| **E.** | Transformer | $81.00 |
| | Each additional | $11.89 |
| **F.** | Motor | $81.00 |
| | Each additional | $11.89 |
| **G.** | Elevator/escalator | $81.00 |
| | Each additional | $11.89 |
| **H.** | Electrical equipment: | |
| | 1—25 | $81.00 |
| | Each additional | $2.68 |
| **I.** | Reconnect fee | $81.00 |

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 405. Registration fees.**

**A.** All Electrical Contractor certificates of registration shall expire on the last day of the contractor's birth month.

| | |
|---|---|
| Electrical Contractor | $178.00 |

**B.** Renewal applications for electrical contractors may be made in person, by mail to the Permit Center, or online at the Citizen Self Service portal. A photocopy of the current state license shall accompany the application form and the check or money order for the required fee; online renewal can be paid by MasterCard or Visa.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## CHAPTER 5. MECHANICAL PERMIT FEES

Section 500. Mechanical permit fees—General.
Section 501. Fee schedule.
Section 502. Registration fees.

### Section 500. Mechanical permit fees—General.

The fees for all mechanical permits, licenses, certificates, and registrations issued pursuant to Title 59, Tulsa Revised Ordinances, shall be as established in Title 49, Tulsa Revised Ordinances, Chapter 5. The fees established in this chapter shall supersede and replace any fees codified in Title 59, Tulsa Revised Ordinances, Chapters 1 and 2. In addition to the fees listed below, administrative fees pursuant to Chapter 1 of this title shall be required.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 501. Fee schedule.

Permit and inspection fees for all mechanical work shall be as set forth in this section.

| | | |
|---|---|---|
| **A.** | Gas piping per meter | $41.00 |
| | Plus, per opening | $2.68 |
| **B.** | Heating appliance, each | $35.00 |
| **C.** | Air compressors and tanks, per receiver | $35.00 |
| **D.** | Boilers 200,000 BTU and above | $41.00 |
| **E.** | Refrigeration/chiller | $47.00 |
| **F.** | Hydronic piping | $41.00 |
| | Plus, hot, or chilled water piping, per opening | $2.68 |
| **G.** | Geothermal piping | $41.00 |
| **H.** | Duct systems | $35.00 |
| **I.** | Exhaust fan and/or vent, each | $18.00 |
| **J.** | Removal and replacement of rooftop units for purposes of re-roofing, flat fee | $35.00 |
| **K.** | Exhaust hood | $81.00 |
| **L.** | Paint booth | $81.00 |
| **M.** | VAV box | $35.00 |
| **N.** | Other mechanical equipment not specified above, each | $35.00 |

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 502. Registration fees.

**A.** The following fees shall be assessed for the certificates of registration listed and their renewals:

| | |
|---|---|
| Boiler Repair Contractor | $178.00[1] |
| Mechanical Contractor | $178.00[2] |
| Stationary Engineer | $64.00[3] |
| Process Steam Boiler | $41.00[3] |

**B.** Renewal applications may be made in person, by mail to the Permit Center, or online at the Citizen Self Service portal. A photocopy of the current state license, when applicable, shall accompany the application form and the check or money order for the required fee; online renewal can be paid by MasterCard or Visa.

[1] This fee shall be waived if the contractor is registered with the City of Tulsa as a Mechanical Contractor.

[2] All Mechanical Contractor certificates of registration shall expire on the last day of the contractor's birth month.

[3] Failure to renew within thirty (30) days of expiration shall subject the licensee to a penalty of Eighteen Dollars ($18.00) per month until renewed. Pursuant to Title 59 Section 200G, when any operator's license has expired for one (1) year or more, the license holder shall retest in accordance with Title 59 Section 200E.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## CHAPTER 6. MANUFACTURED HOMES PERMIT FEES

Section 600. Manufactured homes permit fees and bonds—General.
Section 601. Zoning clearance permit fee.
Section 602. Manufactured home permit fees.
Section 603. Temporary, nonresidential use of manufactured home permit fee.

### Section 600. Manufactured homes permit fees and bonds—General.

The fees for all manufactured homes permits issued pursuant to Title 51, Tulsa Revised Ordinances, shall be as established in this Title 49, Tulsa Revised Ordinances, Chapter 6. The fees and bond amounts established in this chapter shall supersede and replace any fees codified in Title 51, Tulsa Revised Ordinances, Chapters 2 and 3. In addition to the fees listed below, administrative fees pursuant to Chapter 1 of this title shall be required.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 601. Zoning clearance permit fee.

Zoning clearance permit fees will be in accordance with subsection 303F. (commercial) or subsection 303G. (residential) of this title.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 602. Manufactured home permit fees.

The following manufactured home permit fees shall be assessed for all work provided for in this section and shall cover a maximum of one (1) inspection, unless specified otherwise:

**A.** Manufactured home permit outside of a manufactured home park (two (2) inspections) ..... $178.00

**B.** Blocking and anchoring ..... $81.00

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 603. Temporary, nonresidential use of manufactured home permit fee.

Pursuant to Title 51, Tulsa Revised Ordinances, subsection 302.A, any person who desires to use a manufactured home on a temporary basis for a field or local branch office, demonstration, or for a charitable and nonprofit purpose shall apply for such permit by filing an application with the code official, accompanied by a nonrefundable application fee of One Hundred Thirty-Nine Dollars ($139.00), payable to the City of Tulsa. Applications for an extension of such temporary use shall be accompanied by a nonrefundable application fee of Seventy Dollars ($70.00).

**Exception:** Temporary construction trailers used solely in conjunction with permitted, ongoing construction shall be exempt from compliance with this section.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 7. THIRD PARTY PLAN REVIEW AND INSPECTIONS

Section 700. Payments to third party providers.
Section 701. Registration of third-party provider.
Section 702. Renewal of third-party provider registration.
Section 703. Issuance of permits and fees.

The fees for all building permits issued through the Third-Party Plan Review and Inspection Program ("Program") shall be as established in this Title 49, Tulsa Revised Ordinances, Chapter 7. In addition to the fees listed below, administrative fees pursuant to Chapter 1 of this Title shall be required.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 700. Payments to third party providers.

The Owner, Developer, or his/her authorized representative is responsible for all payment for services rendered by the Third-Party Provider. The City of Tulsa is not a party to the contract between the Owner or Developer and the Third-Party Provider. All fees and costs associated with the services rendered by a Third-Party Provider are the sole responsibility of the Owner or Developer. Any monetary claims that arise from incomplete, inaccurate, or defective plan review and/or inspections provided by the Third-Party Provider shall be remedied without cost to the City of Tulsa.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 701. Registration of third-party provider.

Any person or entity interested in registering as a Third-Party Provider for the Program must make application as stipulated in the Third-Party Plan Review and Inspection Manual ("Manual") and must pay a non-refundable registration fee of Two Hundred Fifty Dollars ($250.00). If approved, the Third-Party Provider may provide services pursuant to the Program in accordance with the Manual for a twelve-month term.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 702. Renewal of third-party provider registration.

A person or entity approved as a Third-Party Provider must submit a renewal application at least sixty (60) days prior to the anniversary date of the initial approval as a Third-Party Provider, along with a non-refundable registration fee of Two Hundred Seventy-Five Dollars ($275.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 703. Issuance of permits and fees.

The fee for issuing a permit pursuant to the Program shall be the calculated permit fee payable to the City of Tulsa. This fee shall be non-refundable.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 8. PLUMBING PERMIT FEES

Section 800. Plumbing permit fees—General.
Section 801. Fee schedule.
Section 802. Outside of City permit/inspection fee.
Section 803. Registration fees.

### Section 800. Plumbing permit fees—General.

The fees for all plumbing permits, licenses, certificates, and registrations issued pursuant to Title 56, Tulsa Revised Ordinances, shall be as established in Title 49, Tulsa Revised Ordinances, Chapter 8. The fees established in this chapter shall supersede and replace any fees codified in Title 56, Tulsa Revised Ordinances, Chapter 1. In addition to the fees listed below, administrative fees pursuant to Chapter 1 of this title shall be required.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 801. Fee schedule.

Permit and inspection fees for all plumbing work shall be as set forth in this section.

| | | |
|---|---|---|
| **A.** | Gas Piping per meter | $41.00 |
| | Plus, per opening | $2.6887.00 |
| **B.** | Backflow prevention assembly fee | $79.00 |
| **C.** | Interceptor/separator fee | $150.00 |
| **D.** | Water heater fee | $35.00 |
| **E.** | Water service fee | $35.00 |
| **F.** | Plumbing fixtures, appliances, and appurtenances (except those listed above)—Base fee, including the first fixture, appliance, or appurtenance | $81.00 |
| | Plus, each additional fixture, appliance, or appurtenance | $3.31 |

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 802. Outside of City permit/inspection fee.

All permits/inspections requiring a code official or a plumbing inspector to travel outside the corporate limits of the City of Tulsa to perform an inspection shall be subject to a permit/inspection fee of Ninety-Two Dollars ($92.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 803. Registration fees.

**A.** All Plumbing contractor certificates of registration shall expire on the last day of the contractor's birth month.

| | |
|---|---|
| Plumbing Contractor | $178.00 |

**B.** Renewal applications may be made in person, by mail to the Permit Center, or online at the Citizen Self Service portal. A photocopy of the current state license shall accompany the application form and the check or money order for the required fee; online renewal can be paid by MasterCard or Visa.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 9. INFRASTRUCTURE DEVELOPMENT PERMIT FEES

Section 900. General.
Section 901. Predevelopment meeting.
Section 902. Contracts.
Section 903. Plan review.
Section 904. Escrow.
Section 905. County fees paid through the City of Tulsa.
Section 906. Rights-of-way permits.

### Section 900. General.

**A. Stormwater and streets.** Fees for licenses, certificates and registrations issued pursuant to Title 35 Tulsa Revised Ordinances shall be as established in this Title 49 Tulsa Revised Ordinances, Chapter 9.

**B. Waterworks and sewerage.** Fees for licenses, requirements, and permits pursuant to Title 11C Tulsa Revised Ordinances shall be as established in this Title 49 Tulsa Revised Ordinances, Chapter 9. The fees established in this chapter shall supersede and replace any fees codified in Title 11C Tulsa Revised Ordinance.

**C.** Administrative fees pursuant to Chapter 1 of this title shall only be required for Section 906 of this chapter.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 901. Predevelopment meeting.

A predevelopment meeting between City of Tulsa staff and the engineer, the owner, or both, for a proposed infrastructure development project is required prior to any infrastructure submittal. The fee for such meeting shall be Four Hundred Dollars ($400.00), which shall be credited toward the fees charged for the review of associated plans, if and when they are submitted within one (1) year from date of first meeting.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 902. Contracts.

**A. Engineer's annual contract.** Engineers desiring to prepare plans for an infrastructure development project in the City of Tulsa shall enter into an annual Engineer's Contract with the City and pay a contract fee of Two Hundred Seventy-Five Dollars ($275.00) per year.

**B. Contractor's annual contract.** Contractor's desiring to construct infrastructure development projects within the City of Tulsa shall enter into an annual Contractor's Contract with the City and pay a contract fee of Two Hundred Seventy-Five Dollars ($275.00) per year.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 903. Plan review.

**A. Initial submittal and review fee.** Applications for infrastructure development plans involving stormwater, street, water, and sewer main improvements, shall be assessed an initial submittal fee equal to Eight Hundred Dollars ($800.00), plus Three Hundred

Fifty Dollars ($350.00) per plan sheet reviewed. The initial submittal fee shall provide for an initial review and two (2) additional reviews in response to City comments, at no additional charge.

**B. Additional plan reviews.** Development plans requiring a fourth and/or subsequent review shall be charged an additional fee of Four Hundred Fifty Dollars ($450.00) per sheet reviewed.

**C. Addendums.** Plan reviews after the original plans have been approved will be charged an additional fee of Two Hundred Fifty Dollars ($250.00) per sheet.

**D. IDP major construction permit.** When an IDP Major Construction permit is required pursuant to Title 35, Tulsa Revised Ordinances, Chapter 3, no additional fee shall be required if review fees were paid pursuant to Section 903 of this chapter.

**E. IDP minor construction permit.** When an IDP Minor Construction permit is required pursuant to Title 35, Tulsa Revised Ordinance, Chapter 2, a plan review fee of Two Hundred Fifty Dollars ($250.00) will be assessed. Reference Chapter 400 Section 401.2 of the Infrastructure Development Process Manual.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024; Ord. No. 25572 § 2, 5-21-2025)*

## Section 904. Escrow.

Developers desiring to construct infrastructure development projects in the City of Tulsa shall deposit funds into an escrow account sufficient to pay for the following fees prior to permit issuance:

**A. General.**

1. **Field inspection.** Before any permit shall be issued for the construction, reconstruction, replacement, or alteration of any infrastructure development improvement, the applicant shall pay a field inspection fee of Two Hundred Thirty-Five Dollars ($235.00) per day for the estimated number of days of construction. The actual amount will be billed or credited once the work is complete.
2. **Testing and quality assurance.** For quality assurance testing of all infrastructure development improvements the applicant shall pay an estimated fee of Two Hundred Dollars ($200.00) per day for the estimated construction duration. The actual amount will be billed or credited once the work is complete.
3. **ODEQ fees.** Applications for sanitary sewer improvements and new water mains shall be subject to a review for compliance with Oklahoma Department of Environmental Quality (ODEQ) requirements. Before any permit shall be issued for the construction, reconstruction, replacement, or alteration of any such improvement, the applicant shall be assessed a fee according to the current fees established by ODEQ.

**B. Water mains force account.** For all taps onto water mains, the applicant shall pay a connection fee equal to Two Hundred Dollars ($200.00) per connection.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024; Ord. No. 25572 § 3, 5-21-2025)*

## Section 905. County fees paid through the City of Tulsa.

**A. Plat copy fee.** A fee shall be assessed per plat according to the current fees established by Tulsa County and shall be paid to the City of Tulsa at the time a draft final plat is submitted.

**B. Filing of easements.** Filing fees shall be required for easements that will be filed by the City for private developments. The fees for these filings shall be collected according to the current fees established by Tulsa County.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## Section 906. Rights-of-way permits.

**A. Rights-of-way minor construction permit.** When a rights-of-way minor construction permit is required pursuant to Title 35, Tulsa Revised Ordinances, Chapter 4, an application fee of Two Hundred Forty-Two Dollars ($242.00) shall be charged in addition all other applicable permit fees as identified in Title 11, Chapter 12. Contractors for this work must have an annual contract with the City of Tulsa in accordance with Title 35. This section shall not apply to "Rights-of-Way Occupants," and their contractors as defined in Title 11, Chapter 12.

**B. Sidewalk and driveway permit fee.** The location of the proposed work shall determine the fees and bonds and the proposed work shall be defined and established by referencing the adopted and currently effective Tulsa Metropolitan Area Major Street and Highway Plan.

1. **Non-arterial sidewalk and driveway permit.** Any person applying for a residential use permit to construct or repair any sidewalk, driveway, or curb in the City of Tulsa Non-Arterial Rights-of-Way shall be required to provide a good and sufficient bond or insurance, or a combination of both, in favor of the City of Tulsa in the sum of not less than Five Thousand Dollars ($5,000.00). Contractors applying for commercial use permits to construct or repair any sidewalk, driveway, or curb in the City of Tulsa Non-Arterial Rights-of-Way shall reference Title 35, Chapter 2 for bonding, insurance, and annual contract requirements. The permit fee for this work shall be Two Hundred Forty-Two Dollars ($242.00).
2. **Arterial sidewalk and driveway permit.** Contractors constructing or repairing any sidewalk, driveway, or curb in the City of Tulsa Arterial Rights-of-Way shall reference Title 35, Chapter 2 for bonding, insurance, and annual contract requirements.

**C. Right-of-way temporary use of street fees.** The location of the proposed work shall determine the fees and insurance and the proposed work shall be defined and established by referencing the adopted and currently effective Tulsa Metropolitan Area Major Street and Highway Plan.

1. **Non-arterial temporary use of streets.** Any person applying for a permit to temporarily use the City's non-arterial rights-of-way shall pay the City of Tulsa a permit fee equal to Two Hundred Forty-Two Dollars ($242.00). Inspection fee based on Title 49, Section 108. Temporary use of street permits will be issued according to Title 35, Section 500. It does not include the construction described in paragraph 906.A. above.

2. **Arterial temporary use of streets.** Contractors requesting temporary use of street permits in the City of Tulsa Arterial Rights-of-Way shall reference Title 35, Chapter 2 for insurance requirements. If the placement is in an arterial street, fees required by Title 11, Chapter 12 will apply.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## CHAPTER 10. SPECIAL EVENT PERMIT FEES

Section 1000. Special event permit fees—General.
Section 1001. Minor event permit fee.
Section 1002. Major event permit fee.
Section 1003. Oversize/overweight load permit fee.
Section 1004. Film permit fee.

The fees for all special event permits shall be as established in Title 49, Tulsa Revised Ordinances, Chapter 10. In addition to the non-refundable application fees listed below, administrative fees pursuant to Chapter 1 of this title shall be required.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1000. Special event permit fees—General.

Any person, firm, corporation, limited liability company, or other entity applying for a permit to temporarily use the public rights-of-way or private property for the purpose of a special event shall pay the non-refundable application fee as specified below. Administrative fees pursuant to Chapter 1 of this title shall be required.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1001. Minor event permit fee.

A minor event shall mean any special event organized and conducted that utilizes private property. The non-refundable application fee assessed shall be Eighty Dollars ($80.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1002. Major event permit fee.

A major event shall mean any special event organized and conducted that utilizes public rights-of-way. The non-refundable application fee assessed shall be Two Hundred Forty-Two Dollars ($242.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1003. Oversize/overweight load permit fee.

Any person, firm, corporation, limited liability company, or other entity applying for an oversize/overweight load permit to traverse City of Tulsa streets, other than house moving as issued according to Chapter 3, Section 320 of this title, shall pay a non-refundable application fee as set forth in this section.

**A.** Single oversize/overweight load ..... $80.00

**B.** Monthly oversize/overweight load..... $242.00

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1004. Film permit fee.

Any person, firm, corporation, limited liability company, or other entity desiring a permit for any outdoor filmmaking which will block pedestrian and/or vehicular traffic, or which will take place on public or private property shall pay a non-refundable application fee as set forth in this section.

**A.** Event on private property..... $80.00

**B.** Event on public rights-of-way..... $242.00

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## CHAPTER 12. STORMWATER DRAINAGE SERVICE FEES

Section 1200. Stormwater drainage service fees—General.
Section 1201. Watershed permit application fee.
Section 1202. Stormwater impact review fee.
Section 1203. Floodplain (FP) watershed development permit fee.
Section 1204. Elevation certificate and floodproof certificate review fee.
Section 1205. Floodway (FW) watershed development permit fee.
Section 1206. Rate used in calculating fee-in-lieu of detention.

### Section 1200. Stormwater drainage service fees—General.

The fees for all permits, licenses, certificates, registrations, and stormwater drainage services provided pursuant to Title 11-A, Tulsa Revised Ordinances, shall be as established in Title 49, Tulsa Revised Ordinances, Chapter 12. Administrative fees pursuant to Chapter 1 of this Title shall be required. The fees established in this chapter shall supersede and replace any fees codified in Title 11-A, Tulsa Revised Ordinances, Chapters 2 and 3, and adopted by resolution in the City's Stormwater Management Criteria Manual.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1201. Watershed permit application fee.

The application fee for a watershed permit shall be Sixty-Four Dollars ($64.00). Such fee shall be non-refundable and shall be counted as part of the total permit fee upon issuance of the permit. Applicants shall deposit sufficient funds into an escrow account to pay the following fees prior to permit issuance:

1. **Field Inspection:** The applicant shall pay a field inspection fee of Two Hundred Thirty-Five Dollars ($235.00) per day for the estimated number of days of construction for work performed pursuant to a watershed permit. The actual amount will be billed or credited to once the work is complete.

2. **Testing and quality assurance:** For quality assurance testing related to a watershed permit, the applicant shall pay an estimated fee of Two Hundred Dollars ($200.00) per day for the estimated construction duration. The actual amount will be billed or credited once the work is complete.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024; Ord. No. 25572 § 4, 5-21-2025)*

### Section 1202. Stormwater impact review fee.

The fee assessed an applicant for the review and permit of stormwater connection, stormwater drainage, and earth change, issued pursuant to Title 11-A, Tulsa Revised Ordinances, paragraph 302B.4, shall be:

**A.** Commercial ..... $350.00

**B.** Residential ..... $207.00

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1203. Floodplain (FP) watershed development permit fee.**

The fee assessed an applicant for Floodplain (FP) Watershed Development Permit, issued pursuant to Title 11-A, Tulsa Revised Ordinances, paragraph 302.B.2, shall be Fifty-Seven Dollars ($57.00) per acre of development in the floodplain or floodplain alteration, provided that the minimum fee assessed shall be One Hundred Twenty-One Dollars ($121.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1204. Elevation certificate and floodproof certificate review fee.**

The fee assessed an applicant for the review of elevation certificates or floodproof certificates shall be One Hundred Twenty-One Dollars ($121.00) for each certificate.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1205. Floodway (FW) watershed development permit fee.**

The fee assessed an applicant for a Floodway (FW) Watershed Development Permit, issued pursuant to Title 11-A, Tulsa Revised Ordinances, paragraph 302.B.1, shall be Eight Hundred Sixty-Five Dollars ($865.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1206. Rate used in calculating fee-in-lieu of detention.**

Pursuant to City's Stormwater Management Criteria Manual, Section 1301.4, whenever the City, in its discretion, offers a landowner or developer the option of paying a fee-in-lieu of providing on-site detention of stormwater runoff, the fee shall be calculated as provided in Section 1301.4, using a rate of Seventy-Four Cents ($0.74) per square foot of new impervious development.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## CHAPTER 13. WATER AND SANITARY SEWER FEES

Section 1300. Water and sewer fees—General.
Section 1301. Water meter and detector check installation.
Section 1302. Sanitary sewer permit fees.

### Section 1300. Water and sewer fees—General.

**A.** The fees for all water and sewer permit, licenses, certificates and registrations and services provided pursuant to Title 11-C Tulsa Revised Ordinances shall be as established in Title 49 Tulsa Revised Ordinances, Chapter 13. In addition to the fees listed below, administrative fees pursuant to Chapter 1 of this title shall be required. The fees established in this chapter shall supersede and replace the fees codified in Title 11-C Tulsa Revised Ordinances, Chapters 2 and 5.

**B.** Pursuant to Title 35 Certified Contractors must have an Annual IDP Contract with the City that shows they are qualified to install water taps and/or sewer taps if the sewer tap is in the City rights-of-way.

**C.** The permit fees shown in Section 1301 below include review and inspection fees only. The cost of required City furnished water meters varies depending upon size and current cost to the City. These costs will be added to the cost of the permit. A table showing the water meter costs is shown on the permitting website. The table will be updated whenever acquisition costs for the city change.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1301. Water meter and detector check installation.

**A.** Meters less than three (3) inches ..... $234.00
plus AMR meter

**B.** Meters three (3) inches and larger ..... $884.00
plus AMR meter

**C.** Detector Check Assemblies* ..... $884.00
plus AMR meter

AMR - Automatic Meter Read

*Contractor furnishes all materials.

Applicants shall deposit sufficient funds into an escrow account to pay the following fees prior to permit issuance:

1. **Field inspection:** The applicant shall pay a field inspection fee of Two Hundred Thirty-Five Dollars ($235.00) per day for the estimated number of days of construction for work performed pursuant to a permit issued for installation of a water meter and/or detector check. The actual amount will be billed or credited to once the work is complete.
2. **Testing and quality assurance:** For quality assurance testing related to the installation of a water meter and/or detector check, the applicant shall pay an estimated fee of Two Hundred Dollars ($200.00) per day for the estimated construction duration. The actual amount will be billed or credited once the work is complete.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024; Ord. No. 25572 § 5, 5-21-2025)*

## Section 1302. Sanitary sewer permit fees.

**A.** Add on, cleanout, permanent plug, plug septic, route/repair, and wreck building first..... $88.50

**B.** Private lift station, new tap, off septic, reconnect, service line only, and temporary plug ..... $125.00

**C.** Backwater valve ..... $88.50

**D.** **Temporary sanitary sewer plugs security deposit.** Title 11C requires the owner to deposit Ten Thousand Dollars ($10,000.00) security deposit prior to the issuance of a Temporary Plug Permit. This fee will be reimbursed if a permanent Reconnect Permit is issued, and the work passes inspection within ninety (90) days. If not, the deposit will be forfeited and the city will permanently plug the line tap.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## CHAPTER 14. FIRE PREVENTION CODE FEES

Section 1400. Fire prevention code fees—General.
Section 1401. Aerosol products operational permit fee.
Section 1402. Amusement buildings operational permit fee.
Section 1403. Aviation facilities operational permit fee.
Section 1404. Carnivals and fairs operational permit fee.
Section 1405. Cellulose nitrate film operational permit fee.
Section 1406. Combustible dust-producing operations operational permit fee.
Section 1407. Combustible fibers operational permit fee.
Section 1408. Compressed gases operational permit fee.
Section 1409. Covered mall buildings operational permit fee.
Section 1410. Cryogenic fluids operational permit fee.
Section 1411. Cutting and welding operational permit fee.
Section 1412. Dry cleaning plants operational permit fee.
Section 1413. Exhibits and trade show operational permit fees.
Section 1414. Explosives operational permit fee.
Section 1415. Fire hydrant and valves operational permit fee.
Section 1416. Flammable and combustible liquids operational permit fee.
Section 1417. Removal or closure of any flammable or combustible liquid ground storage tank operational permit fee.
Section 1418. Floor finishing operational permit fee.
Section 1419. Fruit and crop ripening operational permit fee.
Section 1420. Fumigation and thermal insecticidal fogging operational permit fee.
Section 1421. Hazardous materials operational permit fee.
Section 1422. Hpm facilities operational permit fee.
Section 1423. High-piled storage operational permit fee.
Section 1424. Hot work operations operational permit fee.
Section 1425. Industrial ovens operational permit fee.
Section 1426. Lumber yards and woodworking plants operational permit fee.
Section 1427. Liquid- or gas-fueled vehicles or equipment in assembly buildings operational permit fee.
Section 1428. Lp-gas operational permit fee.
Section 1429. Magnesium operational permit fee.
Section 1430. Miscellaneous combustible storage operational permit fee.
Section 1431. Open burning operational permit fee.
Section 1432. Open flames and torches operational permit fee.
Section 1433. Open flames and candles operational permit fee.
Section 1434. Organic coatings operational permit fee.
Section 1435. Places of assembly operational permit fee.
Section 1436. Private hydrants operational permit fee.
Section 1437. Pyrotechnic special effects material operational permit fee.
Section 1438. Pyroxylin plastics operational permit fee.
Section 1439. Refrigeration equipment operational permit fee.
Section 1440. Repair garages and motor fuel-dispensing facilities operational permit fee.
Section 1441. Rooftop heliports operational permit fee.
Section 1442. Spraying or dipping operational permit fee.
Section 1443. Storage of scrap tires and tire byproducts operational permit fee.

Section 1444. Temporary membrane structures, tents, and canopies operational permit fee.
Section 1445. Tire-rebuilding plants operational permit fee.
Section 1446. Waste handling operational permit fee.
Section 1447. Wood products operational permit fee.
Section 1448. Security gates operational permit fee.
Section 1449. Key boxes operational permit fee.
Section 1450. Fire protection system installation license and testing fee.
Section 1451. State or federal license inspection fee.
Section 1452. Fee for training employees in private enterprises.
Section 1453. Construction permit fee.
Section 1454. On-site inspection fee.

**Section 1400. Fire prevention code fees—General.**

The fees for all permits, licenses, certificates, registrations, and services provided pursuant to Title 14, Tulsa Revised Ordinances, shall be as established in this Title 49, Tulsa Revised Ordinances, Chapter 14.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1401. Aerosol products operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.1, the fee assessed on initial startup for an operational permit required to manufacture, store, or handle an aggregate quantity of Level 2 or Level 3 aerosol products in excess of 500 pounds (227 kg) net weight shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1402. Amusement buildings operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.2, the fee assessed on initial startup for an operational permit required to operate a special amusement building shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1403. Aviation facilities operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.3, the fee assessed on initial startup for an operational permit required to use a Group H or Group S occupancy for aircraft servicing or repair and aircraft fuel-servicing vehicles shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1404. Carnivals and fairs operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.5, the fee assessed on initial startup for an operational permit required to conduct a carnival or fair shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1405. Cellulose nitrate film operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.6, the fee assessed for an operational permit required to store, handle, or use cellulose nitrate film in a Group A occupancy shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1406. Combustible dust-producing operations operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.7, the fee assessed on initial startup for an operational permit required to operate a grain elevator, flour starch mill, feed mill, or a plant pulverizing aluminum, coal, cocoa, magnesium, spices or sugar, or other operations producing combustible dusts shall be One Hundred Thirty-Five Dollars ($135.00)

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1407. Combustible fibers operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.8, the fee assessed on initial startup for an operational permit required for the storage and handling of combustible fibers in quantities greater than one hundred (100) cubic feet (2.8 $m^3$) shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1408. Compressed gases operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.9, the fee assessed on initial startup for an operational permit for the storage, use or handling at normal temperature and pressure (NTP) of compressed gases in excess of the amounts listed in Table 105.6.9 of the ICC International Fire Code, as adopted by reference in Title 14 Tulsa Revised Ordinances, shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1409. Covered mall buildings operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.10, the fee assessed for an operational permit required for the following shall be One Hundred Thirty-Five Dollars ($135.00).

1. The placement of retail fixtures and displays, concession equipment, displays of highly combustible goods and similar items in the mall.
2. The display of liquid- or gas-fired equipment in the mall.
3. The use of open-flame or flame-producing equipment in the mall.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1410. Cryogenic fluids operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.11, the fee assessed on initial startup for an operational permit required to produce, store, transport on site, use,

handle or dispense cryogenic fluids in excess of the amounts listed in Table 105.6.11 of the ICC International Fire Code, as adopted by reference in Title 14 Tulsa Revised Ordinances, shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1411. Cutting and welding operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.12, the fee assessed for an operational permit required under special circumstances as determined by the Fire Code Official to conduct cutting or welding operations within the jurisdiction shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1412. Dry cleaning plants operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.13, the fee assessed on initial startup for an operational permit required to engage in the business of dry cleaning or to change to a more hazardous cleaning solvent used in existing dry-cleaning equipment shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1413. Exhibits and trade show operational permit fees.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.14, the fee assessed on initial startup for an operational permit required to operate exhibits and trade shows shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1414. Explosives operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.15, the fee assessed for an operational permit required for the manufacture, storage, handling, sale, or use of any quantity of explosive, explosive material, fireworks, or pyrotechnic special effects within the scope of Chapter 56 shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1415. Fire hydrant and valves operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.16, the fee assessed under extraordinary circumstances as determined by the Fire Code Official for an operational permit required to use or operate fire hydrants or valves intended for fire suppression purposes which are installed on water systems and accessible to a fire apparatus access road that is open to or generally used by the public shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## Section 1416. Flammable and combustible liquids operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.17, the fee assessed shall be One Hundred Thirty-Five Dollars ($135.00) on initial startup for an operational permit required to:

1. Use or operate a pipeline for the transportation within facilities of flammable or combustible liquids. This requirement shall not apply to the off-site transportation in pipelines regulated by the Department of Transportation (DOT), nor does it apply to piping systems.
2. Store, handle or use Class I liquids in excess of five (5) gallons (19 L) in a building or in excess of ten (10) gallons (37.9 L) outside of a building, except that a permit is not required for the following:
    a. The storage or use of Class I liquids in the fuel tank of a motor vehicle, aircraft, motorboat, mobile power plant or mobile heating plant, unless such storage, in the opinion of the code official, would cause an unsafe condition.
    b. The storage or use of paints, oils, varnishes, or similar flammable mixtures when such liquids are stored for maintenance, painting, or similar purposes for a period of not more than thirty (30) days.
3. Store, handle or use Class II or Class IIIA liquids in excess of twenty-five (25) gallons (95 L) in a building or in excess of sixty (60) gallons (227 L) outside a building, except for fuel oil used in connection with oil-burning equipment.
4. Remove Class I or Class II liquids from an underground storage tank used for fueling motor vehicles by any means other than the approved, stationary on-site pumps normally used for dispensing purposes.
5. Operate tank vehicles, equipment, tanks, plants, terminals, wells, fuel-dispensing stations, refineries, distilleries, and similar facilities where flammable and combustible liquids are produced, processed, transported, stored, dispensed, or used.
6. Place temporarily out of service (for more than ninety (90) days) an underground, protected above-ground or above-ground flammable or combustible liquid tank.
7. Change the type of contents stored in a flammable or combustible liquid tank to a material which poses a greater hazard than that for which the tank was designed and constructed.
8. Manufacture, process, blend or refine flammable or combustible liquids.
9. Engage in the dispensing of liquid fuels into the fuel tanks of motor vehicles at commercial, industrial, governmental, or manufacturing establishments.
10. Utilize a site for the dispensing of liquid fuels from tank vehicles into the fuel tanks of motor vehicles at commercial, industrial, governmental, or manufacturing establishments.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1417. Removal or closure of any flammable or combustible liquid ground storage tank operational permit fee.

Pursuant to Title 14 Tulsa Revised Ordinances, Section 105.6.17, the fee assessed for an operational permit required for the removal or closure of any flammable or combustible liquid ground storage tank shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1418. Floor finishing operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.18, the fee assessed under extraordinary circumstances as determined by the Fire Code Official for an operational permit required for floor finished or surfacing operations exceeding Three Hundred Fifty (350) square feet (33 $m^2$) using Class I or Class II liquids shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1419. Fruit and crop ripening operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.19, the fee assessed on initial startup for an operational permit required to operate a fruit-, or crop-ripening facility or conduct a fruit-ripening process using ethylene gas shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1420. Fumigation and thermal insecticidal fogging operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.20, the fee assessed on initial startup for an operational permit required to operate a business of fumigation or thermal insecticidal fogging and to maintain a room, vault, or chamber in which a toxic or flammable fumigant is used shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1421. Hazardous materials operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.21, the fee assessed on initial startup for an operational permit required to store, transport on site, dispense, use, or handle hazardous materials in excess of the amounts listed on Table 105.6.21 of the ICC International Fire Code, as adopted by reference in Title 14 Tulsa Revised Ordinances, shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1422. HPM facilities operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.22, the fee assessed on initial startup for an operational permit required to store, handle, or use hazardous production materials shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1423. High-piled storage operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.23, the fee assessed on initial startup for an operational permit required to use a building or portion thereof as a high-piled storage area exceeding five hundred (500) square feet (46 $m^2$) shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1424. Hot work operations operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.24, the fee assessed under extraordinary circumstances as determined by the Fire Code Official shall be One Hundred Thirty-Five Dollars ($135.00) for an operational permit required for hot work including, but not limited to:

1. Public exhibitions and demonstrations where hot work is conducted.
2. Use of portable hot work equipment inside a structure.

   **Exception:** Work that is conducted under a construction permit.
3. Fixed-site hot work equipment such as welding booths.
4. Hot work conducted within a hazardous fire area.
5. Application of roof coverings with the use of an open-flame device.
6. When approved, the Fire Code Official shall issue a permit to carry out a Hot Work Program.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1425. Industrial ovens operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.25, the fee assessed on initial startup for an operational permit required for operation of industrial ovens regulated by Chapter 30 shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1426. Lumber yards and woodworking plants operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.26, the fee assessed on initial startup for an operational permit required for the storage or processing of lumber exceeding one hundred thousand (100,000) board feet (8,333 $ft^3$) (236 $m^3$) shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1427. Liquid- or gas-fueled vehicles or equipment in assembly buildings operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.27, the fee assessed for an operational permit required to display, operate, or demonstrate liquid- or gas-fueled vehicles or equipment in assembly buildings shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1428. LP-gas operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.28, the fee assessed under extraordinary circumstances as determined by the Fire Code Official shall be One Hundred Thirty-Five Dollars ($135.00) for an operational permit required for:

1. Storage and use of LP-gas.

   **Exception:** A permit is not required for individual containers with a 500-gallon (1,893 L) water capacity or less serving occupancies in Group R-3.

2. Operation of cargo tankers that transport LP-gas.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1429. Magnesium operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.29, the fee assessed on initial startup for an operational permit required to melt, cast, heat treat or grind more than ten (10) pounds (4.54 kg) of magnesium shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1430. Miscellaneous combustible storage operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.30, the fee assessed for an operational permit required to store in any building or upon any premises in excess of two thousand five hundred (2,500) cubic feet (71 $m^3$) gross volume of combustible empty packing cases, boxes, barrels or similar containers, rubber tires, rubber, cork or similar combustible material shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1431. Open burning operational permit fee.

Pursuant to Title 14 Tulsa Revised Ordinance, Section 105.6.32, the fee assessed for an operational permit required to kindle or maintain an open fire shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1432. Open flames and torches operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.33, the fee assessed for an operational permit required to remove paint with a torch; or to use a torch or open-flame device in a hazardous fire area shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

### Section 1433. Open flames and candles operational permit fee.

Pursuant to Title 14 ICC International Fire Code, Section 105.6.34, the fee assessed for an operational permit required to use an open flame or candle in certain areas or establishments shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1434. Organic coatings operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.35, the fee assessed on initial startup for an operational permit required for any organic-coating manufacturing operation producing more than one (1) gallon (4 L) of an organic coating in one (1) day shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1435. Places of assembly operational permit fee.**

Pursuant to Title 14 Tulsa Revised Ordinance, Section 105.6.36.1, the fee assessed for an approved Occupant Load sign shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1436. Private hydrants operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.37, the fee assessed for an operational permit required for the removal from service, use or operation of private fire hydrants shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1437. Pyrotechnic special effects material operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.38, the fee assessed for an operational permit required for the use and handling of pyrotechnic special effects materials shall be One Hundred Thirty-Five Dollars ($135.00). A monthly fee of Five Hundred Dollars ($500.00) is optional for repetitive indoor pyrotechnic events with approval form the Fire Marshal's office.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1438. Pyroxylin plastics operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.39, the fee assessed for an operational permit required for storage or handling of more than twenty-five (25) pounds (11 kg) of cellulose nitrate (pyroxylin) plastics and for the assembly or manufacture of articles involving pyroxylin plastics shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1439. Refrigeration equipment operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.40, the fee assessed on initial startup for an operational permit required to operate a mechanical refrigeration unit or system regulated by Chapter 6 shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1440. Repair garages and motor fuel-dispensing facilities operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.41, the fee assessed for an operational permit required under special circumstances as determined by the Fire Code Official for operation of repair garages and automotive, marine, and fleet motor fuel-dispensing facilities shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1441. Rooftop heliports operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.42, the fee assessed on initial startup for an operational permit required for the operation of a rooftop heliport shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1442. Spraying or dipping operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.43, the fee assessed on initial startup for an operational permit required to conduct a spraying or dipping operation utilizing flammable or combustible liquids or the application of combustible powders regulated by Chapter 24 shall be Ninety Dollars ($90.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1443. Storage of scrap tires and tire byproducts operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.44, the fee assessed annually for an operational permit required to establish, conduct, or maintain storage of scrap tires and tire byproducts that exceeds two thousand five hundred (2,500) cubic feet (71 $m^3$) of total volume of scrap tires and for indoor storage of tires and tire byproducts shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1444. Temporary membrane structures, tents, and canopies operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.45, the fee assessed for an operational permit required to operate an air-supported temporary membrane structure or a tent having an area in excess of two hundred (200) square feet (19 $m^2$), or a canopy in excess of four hundred (400) square feet (37 $m^2$) shall be according to Title 49 Chapter 3.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1445. Tire-rebuilding plants operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.46, the fee assessed for an operational permit required for the operation and maintenance of a tire-rebuilding plant shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1446. Waste handling operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.47, the fee assessed for an operational permit required for the operation of wrecking yards, junk yards and waste material-handling facilities shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1447. Wood products operational permit fee.**

Pursuant to Title 14 ICC International Fire Code, Section 105.6.48, the fee assessed for an operational permit required to store chips, hogged material, or plywood in excess of two hundred (200) cubic feet (6 $m^3$) shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1448. Security gates operational permit fee.**

Pursuant to Title 14 Tulsa Revised Ordinance, Section 105.6.49, the fee assessed for an operational permit required to operate a security gate installed across a fire apparatus access road shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1449. Key boxes operational permit fee.**

Pursuant to Title 14 Tulsa Revised Ordinance, Section 105.6.50, the fee assessed for an operational permit required for each key box regulated by Section 506 and Section 607 of the ICC International Fire Code, as adopted by reference in Title 14 Tulsa Revised Ordinances, shall be Ninety Dollars ($90.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1450. Fire protection system installation license and testing fee.**

Pursuant to Title 14 Tulsa Revised Ordinance, Section 105.6.51, any firm performing work on the installation, maintenance or testing of fire alarm and detection systems or automatic fire-extinguishing systems shall register their Oklahoma State contractor's license with the City of Tulsa Permit Center. The fee for contractor license registration shall be One Hundred Ninety-Five Dollars ($195.00) annually.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1451. State or federal license inspection fee.**

Pursuant to Title 14 Tulsa Revised Ordinance, Section 105.6.52, the fee assessed for any inspection performed pursuant to state or federal licensing requirements shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**Section 1452. Fee for training employees in private enterprises.**

Pursuant to Title 14 Tulsa Revised Ordinance, Section 105.6.53, the fee assessed for fire safety and fire protection training provided to employees working for a private business entity shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## Section 1453. Construction permit fee.

Pursuant to Title 14 Tulsa Revised Ordinance, Section 105.7, the fee assessed for each construction permit issued pursuant to Sections 105.7.1 through 105.7.18 of the ICC International Fire Code, 2015 Edition, as adopted by reference in Title 14 Tulsa Revised Ordinances, shall be One Hundred Thirty-Five Dollars ($135.00).

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## Section 1454. On-site inspection fee.

Pursuant to Title 14 ICC International Fire Code, Section 106.2.1, any person, firm, corporation or limited liability company failing to respond to a self-inspection request within thirty (30) days of the date postmarked on the envelope mailed to the self-inspection recipient shall be subject to an on-site inspection by the fire code official and the recipient shall be assessed a One Hundred Thirty-Five Dollars ($135.00) inspection fee.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

## CHAPTER 15. URBAN DESIGN PERMIT FEES

Section 1500. Urban Design Permit Fee Schedule.

### Section 1500. Urban Design Permit Fee Schedule.

The fees for Uban Design Permits are as follows:

**A.** Initial Application fee for Tables and Chairs program, Sidewalk Café program, and Parklet program: $150.00.

**B.** Renewal Application fee for Tables and Chairs program, Sidewalk Café program, and Parklet Program: $100.00.

**C.** Resubmission or amendment fee for Tables and Chairs program, Sidewalk Café program, and Parklet program: $86.00.

**D.** Metered parking space fee for Private Parklet (per space): $1,175.00.

**E.** Metered parking space fee for Public Parklet (per space): $585.00.

**F.** Reinspection fee (each additional inspection): $58.00.

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 16. UTILITY COORDINATION FEES

Section 1600. Closures.
Section 1601. License agreements.
Section 1602. Construction agreements.
Section 1603. Public Property Use/Occupancy Permit.

### Section 1600. Closures.

**A.** Easement closure ..... $1,500.00

**B.** ROW/alley/airspace closure ..... $1,500.00

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024; Ord. No. 25572 § 6, 5-21-2025)*

### Section 1601. License agreements.

**A.** Commercial, office, industrial and multi-family ..... $1,500.00

**B.** Residential, single-lot, single-family ..... $750.00

**C.** Decorative concrete flatwork, i.e.: diamond scored, stained, rock salt ..... $300.00

**D.** Any other item not affixed and fits within a nine square feet footprint .... $300.00 each item

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024; Ord. No. 25572 § 7, 5-21-2025)*

### Section 1602. Construction agreements.

**A.** Commercial, office, industrial and multi-family ..... $1,500.00

**B.** Residential, single lot, single-family ..... $750.00

*(Ord. No. 24664, § 1, 8-25-2021; Ord. No. 25351, § 1, 7-17-2024; Ord. No. 25572 § 8, 5-21-2025)*

### Section 1603. Public Property Use/Occupancy Permit.

**A.** Commercial, office, industrial and multi-family, up to three locations, with a fee of $300.00 for each additional location, total ..... $1,500.00

**B.** Residential, single lot, single family, up to three locations, with a fee of $300.00 for each additional location, total ..... $750.00

**C.** Any other item not affixed and fits within a 9 square feet footprint, for each item ..... $300.00

*(Ord. No. 25351, § 1, 7-17-2024; Ord. No. 25572 § 9, 5-21-2025)*

## CHAPTER 17. PLANNING AND ZONING FEES

Section 1701. Planning commission application fees.
Section 1702. Board of adjustment application fees.

### Section 1701. Planning commission application fees.

The fees for applications submitted to the Tulsa Metropolitan Area Planning Commission (TMAPC) for properties located within the City of Tulsa are as follows:

| | | |
|---|---|---|
| **A.** | Rezoning (all zoning districts except otherwise specified) | $1,800.00 |
| **B.** | Optional development plan or corridor development plan | $400.00 |
| **C.** | Master planned development or corridor district rezoning | $2,200.00 |
| **D.** | Major amendment to a master planned development, corridor development plan, optional development plan, or a planned unit development | $2,000.00 |
| **E.** | Minor amendment to master planned development, corridor development plan, optional development plan or a planned unit development | $900.00 |
| **F.** | Detail site plan, landscape plan, or sign plan | $400.00 |
| **G.** | Minor revision to detail site plan or landscape plan | $200.00 |
| **H.** | Planned unit development abandonment concurrent with rezoning | $300.00 |
| **I.** | Planned unit development abandonment not concurrent with rezoning | $1,800.00 |
| **J.** | Establishment of an overlay district | $4,000.00 |
| **K.** | Alternative compliance landscape plan | $550.00 |
| **L.** | Minor revision to an alternative compliance landscape plan | $250.00 |
| **M.** | Other agenda item for consideration by the TMAPC for which no fee is established | $100.00 |
| **N.** | Comprehensive plan map amendment | $1,200.00 |
| **O.** | Preliminary plat | $1,200.00 |
| **P.** | Final plat review (includes one revision) | $950.00 |
| **Q.** | Each additional revision of a final plat | $200.00 |
| **R.** | Minor subdivision plat | $1,000.00 |
| **S.** | Access point(s) changed on recorded plat | $250.00 |
| **T.** | Extension of approval of subdivision plat, preliminary or final | $250.00 |
| **U.** | Authorization for an accelerated release of a building permit | $700.00 |
| **V.** | Exempt land division | $250.00 |
| **W.** | Lot split or lot line adjustment | $500.00 |
| **X.** | Development regulations compliance | $500.00 |

*(Ord. No. 25477, § 1, 12-4-2024)*

### Section 1702. Board of adjustment application fees.

The fees for applications submitted to the City of Tulsa Board of Adjustment (BOA) are as follows:

| | | |
|---|---|---|
| **A.** | Variance or non-use-related special exception | $800.00 |

| | | |
|---|---|---|
| **B.** | Special exception, use-related | $950.00 |
| **C.** | Each additional variance | $400.00 |
| **D.** | Each additional special exception | $300.00 |
| **E.** | Administrative adjustment | $430.00 |
| **F.** | Modification of previously approved site plan or conditions | $650.00 |
| **G.** | Appeal of decision of administrative official | $900.00 |
| **H.** | Other agenda item for consideration by the BOA for which no fee is established | $100.00 |
| **I.** | Reconsideration request | $100.00 |
| **J.** | Reconsideration processing fee | $500.00 |

*(Ord. No. 25477, § 1, 12-4-2024)*

# TITLE 50 ANNUAL PERMITS

## Chapter 1. Annual Permits

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. ANNUAL PERMITS

Section 100. Permits authorized.
Section 101. Work limitations under annual permits.
Section 102. Minimum requirements for annual permits.
Section 103. Application for issuance of annual permit.
Section 104. Processing of annual permit applications.
Section 105. Issuance of approved annual permits.
Section 106. Inspections.
Section 107. Permit fees.
Section 108. Revocation of annual permit.
Section 109. Mayor defined.

### Section 100. Permits authorized.

Notwithstanding any existing requirements or limitations heretofore established by the City of Tulsa for the issuance of permits authorizing electrical, mechanical, building and plumbing work within the City of Tulsa, the Mayor may authorize, in individual cases, upon showing justified need and the meeting of the requirements established herein, the issuance of an annual permit to any qualified person, firm or corporation owning and operating a commercial, industrial, utility, processing or institutional plant within the City of Tulsa.

### Section 101. Work limitations under annual permits.

All work authorized by an annual permit shall be performed only by the regularly employed full-time employees of the permit holder who meet all licensing and/or registration requirements for the work they perform as established by the Revised Ordinances of the City of Tulsa. Any work which is not performed by the permit holder's permanent work force, as identified on the personnel roster hereinafter required, shall be performed by a contractor who meets the licensing and registration requirements of the City of Tulsa to perform such work in the City of Tulsa; and such contractor shall obtain separate permits and his work shall receive such inspections as may be required by the provisions of the applicable code (building, electrical, plumbing or mechanical) adopted by the City of Tulsa. No increase in ground cover, square footage, the height of any building or structure, or modification/relocation of any exitway or fire wall shall be permitted under an annual permit. All work accomplished under an annual permit shall comply with all requirements of the governing code (building, electrical, mechanical or plumbing) and shall be inspected in the manner hereinafter specified. No project shall be commenced under an annual permit which requires more than four hundred (400) man-hours to complete. For purposes of this section, the term "project" is defined to include staged or incremental work which, when completed, accomplishes a single purpose. Man-hours required to complete separate stages or increments shall cumulate for the purpose of calculating total man-hours required to complete any project.

### Section 102. Minimum requirements for annual permits.

All applicants for annual permits shall be required to establish:

**A.** That the applicant employs full-time personnel who are duly and properly licensed and/or registered by the City of Tulsa as qualified to perform the building, electrical, mechanical or plumbing work for which an annual permit is required; and

**B.** That the day-to-day operation of the applicant's facility requires, or would require, the issuance of numerous permits for the purpose of allowing the applicant to perform required incidental machinery repairs, equipment component replacements or modifications, or recurring minor alterations and/or replacement of building and/or electrical and/or mechanical and/or plumbing components governed by the Revised Ordinances of the City of Tulsa; and

**C.** That the building or buildings for which an annual permit is requested consist of at least two hundred thousand (200,000) square feet of gross floor area.

### Section 103. Application for issuance of annual permit.

Unless otherwise directed or approved by the Mayor, an application for the issuance of an annual permit shall be submitted in letter form to the Deputy Director of Customer Services, Public Works Department, and shall contain, as a minimum, the following information.

**A.** Initial applications shall contain:

**1.** A comprehensive statement detailing the nature and extent of the work which will be performed, identification of the field of work (i.e., mechanical, electrical, building or plumbing) for which an annual permit is requested, and a full and complete breakdown of the gross square footage within the building or buildings in which all work authorized by an annual permit would be performed;

**2.** A statement which identifies any unique needs of the applicant which would be met by the issuance of an annual permit;

**3.** Any additional statements which the applicant may wish to make to demonstrate its qualifications for the requested annual permit; and

**4.** A personnel roster which contains the names of the applicant's full-time employees who will do all work authorized by the requested annual permit, which shall individually identify:

**a.** Trade specialties, by field and skill level, and

**b.** License and/or registration numbers of all contractor, journeyman or apprentice licenses issued by the City of Tulsa.

**B.** Renewal applications shall contain:

**1.** A statement that there is no change in the information originally submitted by the applicant or, if any changes have occurred or are contemplated, a full description of all changes and proposed changes; and

**2.** A current personnel roster containing all information as required in Subsection A.4., above.

### Section 104. Processing of annual permit applications.

**A.** Upon receipt of an annual permit application, the Deputy Director of Customer Services shall within thirty (30) days make such inquiry into the merits of the application as he may deem necessary and advisable. Thereafter, he shall forward such application to the Mayor with his recommendation thereon. The Mayor shall thereafter consider such application and may grant the requested annual permit upon a finding that the public welfare will be served by its issuance; provided, however, that the Mayor, in granting a requested annual permit, may prescribe appropriate conditions

and safeguards and may further require any guarantee or bond which he may deem necessary to insure compliance with any condition or limitation which may be imposed.

**B.** The Mayor shall notify the applicant in writing of his decision, and his decision shall be final unless within ten (10) days of the receipt of the notice the applicant files with the City Clerk a petition for review of the Mayor's decision by the Council.

If a petition for review is filed with the Clerk, the Secretary of the Council shall, within five (5) days of such filing, provide written notice to the petitioner and to the Mayor of the date of the public hearing, which date shall be within twenty (20) days of the filing of the petition for review. At the conclusion of the hearing, the Council may grant or deny the application for annual permit, may itself impose conditions or safeguards and/or may require a guarantee or bond necessary to insure compliance with any conditions or limitations it may impose.

**C.** Renewal permits shall be issued on an annual basis by the Deputy Director of Customer Services upon the same terms and conditions as initially authorized by the Mayor. Any application for a renewal of an annual permit which requests any modification of any previously imposed requirement or condition, or which otherwise in any manner changes the nature or scope of the work authorized by a previously approved permit, shall require the approval of the Mayor prior to its issuance, and such renewal application shall be processed as an initial application.

### Section 105. Issuance of approved annual permits.

Upon final approval and the payment of all required fees, the Deputy Director of Customer Services shall issue the annual permit. If any special limitations or restrictions have been imposed upon the permit by the Mayor, the applicant or a responsible official acting on behalf of the applicant, shall acknowledge receipt of such specially limited permit by endorsing the copy of the permit maintained by the Deputy Director of Customer Services. All annual permits shall be applicable only to those buildings or structures specifically identified on the face of the annual permit.

### Section 106. Inspections.

All work authorized by an annual permit shall be subject to inspection as provided herein.

**A. Records required.** All work performed by an annual permit holder shall be noted in a log or register maintained by the permit holder which shall identify the general nature of the work and the dates such work was initiated and completed. Such record shall be open for inspection at all times by the Deputy Director of Customer Services of the City of Tulsa or his designated inspectors, and the work listed therein shall be subject to inspection both on a spot basis and on an annual basis. After an annual inspection, the permit holder may discard such log or register containing the work performed in the twelve (12) month period preceding the date of the annual inspection.

**B. Notice required.** Any work to be performed under an annual permit which will require more than three hundred (300) man-hours to complete shall be brought to the attention of the Deputy Director of Customer Services in writing prior to the commencement of such work; and at the option of the Deputy Director, such work may be inspected during its progress.

**C. Violations observed during inspections.** A written list itemizing all violations noted during any inspection by the Deputy Director of Customer Services or his authorized inspectors shall be furnished to the permit holder, and a follow-up inspection shall thereafter be made to insure that all cited violations are corrected. The permit holder shall either promptly correct all noted violations or initiate an appeal from the decision of the Inspector to the technical administrative board having jurisdiction over the cited violation.

**Section 107. Permit fees.**

**A. Annual permit fees.** The fee for all annual permits shall be computed on the basis of the gross square footage of the building(s) or structure(s) for which the annual permit is issued as follows:

1. **Annual Building Permit:** One and 05/100 Dollars ($1.05) per one thousand (1,000) square feet;
2. **Annual Plumbing Permit:** One and 05/100 Dollars ($1.05) per one thousand (1,000) square feet;
3. **Annual Mechanical Permit:** One and 05/100 Dollars ($1.05) per one thousand (1,000) square feet; and
4. **Annual Electrical Permit:** One and 05/100 Dollars ($1.05) per one thousand (1,000) square feet.

**B. Additional fees.** In addition to fees assessed for annual permits, the following fees shall be assessed:

1. **Permit and licensing system maintenance fee.** A permit surcharge of Four Dollars ($4.00) shall be charged on each permit to maintain the permit and licensing system.
2. **Record retention fee.** In addition to any permit or license fee, a fee of One and 30/100 Dollars ($1.30) per page shall be charged for the retention of permits, licenses and associated data by microfilming, computer imaging or other method of record storage.
3. **Penalty fee authorized.** If work is started prior to issuance of the required permit, a penalty fee shall be charged in addition to the regular permit fee. The penalty fee shall be One Hundred Thirty-Two Dollars ($132.00) or triple the cost of the regular fee, whichever is greater; provided, that for emergency work started outside regular business hours, including weekends and holidays, a permit must be obtained no later than the first work day after the work is started. Upon satisfactory proof of such emergency, no penalty fee shall be required.

   The assessment or payment of this fee shall not relieve any person from fully complying with all requirements of this code, nor shall such payment exempt the person from further penalty, such as suspension or revocation of any certificate of registration.
4. **Failed inspection fee.** Failed inspections due to faulty work, or work not completed or ready for inspection when the code official is notified to make such inspection shall be assessed additional fees at Thirty-Two Dollars ($32.00) per inspection.

5. **Concealment fee.** Work that is covered or concealed without the approval of the code official is in violation of the code and shall be subject to a civil penalty in an amount not exceeding Fifty-Two and 50/100 Dollars ($52.50) for each occurrence. The assessment or payment of this penalty shall not relieve any person from fully complying with all the requirements of this title nor shall such payment exempt the person from further penalty provided by law.
6. **Appeals fee.** A fee of Thirty-Two Dollars ($32.00) shall be charged for an appeal from the code official's decision in enforcing this title. Upon a successful appeal to either a board of appeals or the City Council, this fee shall be refunded to the applicant.

*(Ord. No. 20628)*

**Section 108. Revocation of annual permit.**

**A.** Any annual permit issued by the City of Tulsa may be revoked by the Mayor upon a finding that:

1. The permit holder has performed or allowed the performance of work not authorized by the annual permit or has violated any special terms or conditions imposed upon such permit;
2. The permit holder has refused to permit the inspection of all work performed by the permit holder pursuant to an annual permit;
3. The permit holder has performed work in buildings or structures not covered by the annual permit, without obtaining required individual permits authorizing such work; or
4. The permit holder has made a misrepresentation of a material fact in his application for issuance of an annual permit or in his application for renewal of his annual permit.

**B.** If an annual permit is revoked by the Mayor, the Mayor shall notify the holder of the permit in writing and the Mayor's decision shall be final unless, within ten (10) days of receipt of such notice, the holder of the permit shall file with the City Clerk a petition for review of the Mayor's decision by the Council.

If a petition for review of the Mayor's decision is timely filed with the Clerk, the Secretary of the Council shall, within five (5) days of such filing, notify the petitioner and the Mayor of the date of the public hearing which date shall be within twenty (20) days of the filing of the petition for review. At the conclusion of the hearing, the Council may approve or rescind the Mayor's revocation of the annual permit, may impose conditions or safeguards and/or may require a guarantee or bond necessary to insure compliance with any condition or limitation which it may impose.

**C.** Any aggrieved person who suffers, sustains or incurs direct personal detriment as a consequence of the issuance or renewal of an annual permit, may petition the Mayor, in writing, to revoke an annual permit for the reasons herein stated. The Mayor shall notify the petitioner of his decision in writing, and his decision shall be final unless, within ten (10) days of receipt of such notice, the petitioner shall file with the City Clerk a petition for review by the Council.

If a petition for review of the Mayor's decision is timely filed with the Clerk, the Secretary of the Council shall, within five (5) days of such filing, notify the petitioner,

the permit holder and the Mayor of the date of the public hearing, which date shall be within twenty (20) days of the filing of the petition for review. At the conclusion of the hearing, the Council may approve or rescind the Mayor's decision.

## Section 109. Mayor defined.

For the purposes of this chapter, Mayor shall mean the Mayor of the City of Tulsa or his authorized representative.

# CHAPTER 1. ICC INTERNATIONAL BUILDING CODE, 2018 EDITION, ADOPTED

Section 100. Adoption of the ICC International Building Code, 2018 Edition.
Section 101. Amendments to the ICC International Building Code, 2018 Edition.

## Section 100. Adoption of the ICC International Building Code, 2018 Edition.

A certain document, three (3) copies of which are on file in the office of the City Clerk of the City of Tulsa, Oklahoma, being marked and designated as the *ICC International Building Code*, 2018 Edition, as published by the International Code Council, Inc., hereinafter the "Building Code" is hereby adopted for the control of buildings and structures other than detached one- and two-family dwellings and townhouses, as herein provided. Each and all of the regulations, provisions, penalties, terms and conditions of the *ICC International Building Code*, 2018 Edition, are hereby referred to, adopted and made a part hereof as if fully set out in this chapter with the amendments thereto, prescribed in Section 101 of this chapter.

*(Ord. Nos. 18094, 19117, 20828, 21782; Ord. No. 22761, § 1, 9-20-2012; Ord. No. 22898, § 1, 6-27-2013; Ord. No. 22999, § 1, 12-12-2013; Ord. No. 23394, § 1, 10-29-2015; Ord. No. 24829, § 1, 5-25-2022)*

## Section 101. Amendments to the ICC International Building Code, 2018 Edition.

The following sections of the ICC International Building Code, 2018 Edition are hereby added, deleted or amended to read as follows:

**101.1 Title - Amendatory.** These regulations shall be known and may be cited as the "Building Code of the City of Tulsa, Oklahoma," hereinafter referred to as the "Building Code" or "this code."

**101.2 Scope - Amendatory.** The provisions of this code shall apply to the construction, alteration, relocation, enlargement, replacement, repair, equipment, use and occupancy, location, maintenance, removal and demolition of every building or structure or any appurtenances connected or attached to such buildings or structures.

**Exceptions:**

1. Detached one- and two-family dwellings and multiple single-family dwellings (town houses) not more than three stories above grade plane in height with a separate means of egress and their accessory structures shall comply with the International Residential Code for One and Two Family Dwellings of the City of Tulsa, Oklahoma, Title 51, Tulsa Revised Ordinances, Chapter 2.
2. One- and two-family dwellings or townhouses relocated or moved inside the corporate limits of the City shall comply with the provisions of the Building Code of the City of Tulsa Title 51, Tulsa Revised Ordinances, Chapter 1.

**101.4.3 Plumbing - Amendatory.** The provisions of the International Plumbing Code, as adopted in the Plumbing Code of the City of Tulsa, Oklahoma, Title 56, Tulsa Revised Ordinances shall apply to the installation, alteration, repair and replacement of plumbing systems, including equipment, appliances, fixtures, fittings and appurtenances, and where connected to a water or sewage system, and all aspects of a medical gas system. Regulations promulgated by the Oklahoma Department of

Environmental Quality (ODEQ) and published in Oklahoma Administrative Code (OAC), Title 252, Chapter 641, entitled "Individual and Small Public On-site Sewage Disposal Systems" shall apply to private sewage disposal systems.

**101.4.7 Existing buildings - Amendatory.** Existing buildings undergoing repair, alterations or additions, change of occupancy or relocation shall be permitted to comply with the International Existing Building Code of the City of Tulsa, Oklahoma, Title 51, Tulsa Revised Ordinances, Chapter 4.

**101.5 Conflict with Other Ordinances or Statutes - Added.** No provisions of this code shall be held to deprive any federal or state agency or any municipal authority having jurisdiction, of any power or authority which it had on the effective date of this code or of any remedy then existing for the enforcement of its orders.

**102.7 Buildings Owned by the City of Tulsa - Added.** Buildings and structures owned by the City of Tulsa which are located inside or outside the corporate limits of the City, shall comply with the requirements of this code.

**103.1 Enforcement Agency - Amendatory.** The term "Department of Building Safety," as used within the ICC International Building Code, 2018 Edition shall mean the Development Services Division of the Planning and Development Department of the City of Tulsa or other department, division or section of the City of Tulsa authorized and directed to enforce the provisions of this code.

**103.4 Code of Ethics - Added.** Staff members of the Development Services Division of the Planning and Development Department of the City of Tulsa shall ascribe to and be guided in professional conduct as code officials and department representatives as stipulated within Title 12, Chapter 6 "Ethics Code," Tulsa Revised Ordinances.

**103.5 Qualifications of Code Officials - Added.** The building official and deputies, otherwise known as "code officials," shall have experience in commercial or residential building work, as determined by their job descriptions and responsibilities, and possess certification by the International Code Council, Inc. or other testing agencies, as approved by the Director of the Planning and Development Department.

**104.2.1 Determination of substantially improved or substantially damaged existing buildings and structures in flood hazard areas - Amendatory.** For applications for reconstruction, rehabilitation, repair, alteration, addition or other improvement of existing buildings or structures located in flood hazard areas, the building official shall determine if the proposed work constitutes substantial improvement or repair of substantial damage. Where the building official determines that the proposed work constitutes substantial improvement or repair of substantial damage, and where required by this code, the building official shall require the building to meet the requirements of Section 1612. The cost used in the substantial improvement determination shall be the cumulative costs of all previous improvements for a specific building or structure occurring during the immediate past 10-year period.

**104.10.1 Flood Hazard Areas, and Areas Prone to Flooding - Amendatory.** The code official shall not grant modifications to any provision related to flood hazard areas and areas prone to flooding, as established by the current City of Tulsa Regulatory Floodplain Map Atlas, without the grant of a variance by the Stormwater Drainage and Hazard Mitigation Advisory Board, as provided in Title 11-A, Tulsa Revised Ordinances.

**105.1.1 Annual permit - Amendatory.** An annual permit is a yearly permit which represents a group of individual permits for each alteration to an already approved electrical, gas, mechanical or plumbing installation. The building official is authorized to issue an annual permit upon application therefor to any person, firm or corporation regularly employing one or more qualified tradespersons in the building, structure or on the premises owned or operated by the applicant for the permit.

**105.1.2 Annual Permit Records - Amendatory.** The person to whom an annual permit is issued shall keep a detailed record of alterations made under such annual permit, in accordance with Title 50, Tulsa Revised Ordinances, titled "Annual Permits." The code official shall have access to such detailed records of alterations at all times or such records shall be filed with the code official as designated. At the completion of the entity's annual permit term, the applicant shall file such detailed records of alterations with the building official. Pursuant to the authority of 59 O.S. § 1000.25, the building official shall collect fees for each individual permit which is part of the annual permit once the detailed records are submitted and remit such fees to the OUBCC.

**105.1.3 By Whom an Application is Made - Added.** An application for a permit shall be made by the owner or lessee of the building or structure, or the agent of either, or by the licensed architect or engineer employed in connection with the proposed work. If an application is made by a person other than the owner in fee, it shall be accompanied by an affidavit of the owner or the qualified applicant or a signed statement of the qualified applicant witnessed by the code official or the official's designee, informing that the proposed work is authorized by the owner in fee and that the applicant is authorized to make such application. The full names and addresses of the owner, lessee, applicant, and the responsible officers, if the owner or lessee is not a natural person, shall be stated on the application. The owner of the building or structure, or the owner's authorized agent(s), shall at all times retain ownership rights and authority for use and control of such application and any related subsequent permits issued pursuant to this code.

**105.3.1.1 Bond Required - Added.** The code official, or designated representative, shall not issue a permit for the demolition or destruction of a building or structure until a suitable bond has been provided, protecting the adjacent owners from damages. Such bond shall be in the minimum amount as provided in Title 49, Tulsa Revised Ordinances, Chapter 3, and may be increased if in the opinion of the code official the location of the building to be demolished or destroyed requires a larger bond. The code official, or designated representative, may waive the requirement of bond if the official is satisfied that the particular building or structure can be demolished or destroyed without damage to adjoining buildings or properties.

**105.3.3 Payment of Permit Fees - Added.** Upon acceptance of application for a permit, an application fee shall be paid. Upon approval, the applicant shall be notified the permit is ready and advised of what remaining fees are due. In order for the permit to be valid, all fees shall have been paid in full and the permit posted at the job site prior to beginning construction. Payments for permits are due upon notification to the applicant that the permit is approved and is ready for issuance. Any permit not paid for within thirty (30) days after notification may be deemed void by the code official and the application fee shall then be forfeited.

**105.3.4 Eating or Drinking Establishments - Added.** Each applicant for a permit for a structure to be used as an eating or drinking establishment shall provide two (2) additional copies of the Plans and specifications for the proposed structure. The Tulsa City-County Health Department shall review the documents for compliance with the Food Code of the City of Tulsa, as provided in the Tulsa Revised Ordinances.

**105.3.5 Zoning Clearance Permit Required - Added.** The code official shall not issue a building permit for any building or structure until and unless the code official is furnished a zoning clearance permit stating that the use or occupancy of such building or structure complies with, or, upon completion, will comply with applicable zoning ordinances of the City of Tulsa.

**105.3.6 Alarm Industry Act Adopted and Incorporated by Reference - Added.** The Alarm Industry Act, Title 59 O.S. Section 1800.1 et seq. as amended is hereby adopted by reference and incorporated into this code as if set out at-length here, save and except any portions which may be added, deleted or amended in this title.

**105.3.6.1 Fire Extinguisher Industry Act Adopted and Incorporated by Reference - Added.** The Fire Extinguisher Industry Act, Title 59 O.S. Supp. 2007, Section 1820.1 et seq. as amended is hereby adopted by reference and incorporated into this code as if set out at-length here, save and except any portions which may be added, deleted or amended in this title.

**105.3.6.2 Fire Sprinkler Permits - Added.** The code official shall not issue a permit for the installation, alteration or repair, of fire sprinkler systems, and related equipment, including standpipes, and hose connections to fire sprinkler systems, air line systems used in connection with fire sprinkler systems, and to connect tanks and pumps, until the person, firm, corporation or limited liability company installing the same shall have on file with the City of Tulsa a surety bond in the amount of Two Thousand Five Hundred Dollars ($2,500.00). Such bond shall be on a form satisfactory to the City, guaranteeing payment of all obligations and guaranteeing the work to be installed in accordance with the provisions of this code. No person, firm, corporation or limited liability company shall install automatic fire sprinkler systems unless licensed as provided in Title 59 O.S. Section 1800.1 et seq., as amended, and related rules and regulations.

**105.3.6.3 Licensing - Added.** All fire alarm and fire sprinkler systems governed by this code shall be installed, inspected and repaired by licensed firms and technicians in compliance with occupational licensing laws and regulations promulgated by the Oklahoma Department of Labor, and published in the Oklahoma Administrative Code (OAC), Section 380:75. All fire extinguisher systems governed by this code shall be installed, inspected and repaired by licensed firms and technicians in compliance with occupational licensing laws and regulations promulgated by the Oklahoma State Fire Marshal Commission, and published in the Oklahoma Administrative Code (OAC), Section 265:50.

**107.2.2 Fire Protection System Shop Drawings - Amendatory.** Shop drawings for the fire protection system(s) shall be submitted to indicate conformance with this code and the construction documents. An application for a permit shall be submitted prior to the start of system installation. Any applicant for a permit that begins construction activities prior to an approved permit being issued shall be proceeding at their own risk. Regardless, a permit shall be required before a rough-in inspection may be

requested for the system(s) and prior to the system(s) being concealed. Shop drawings shall contain all information required by installation standards referenced in Chapter 9 of this code.

**107.2.6 Site plan - Amendatory.** The construction documents submitted with the application for permit shall be accompanied by a site plan showing to scale the size and location of new construction and existing structures on the site, property boundaries, distances from lot lines, the established grades and the proposed finished grades, easements, rights-of-way, utilities and, as applicable, flood hazard areas, floodways, design flood elevations and finished floor elevations; and it shall be drawn in accordance with an accurate boundary line survey. In the case of demolition, the site plan shall show construction to be demolished and the location and size of existing structures and construction that are to remain on the site or plot. The building official is authorized to waive or modify the requirement for a site plan where the application for permit is for alteration or repair or where otherwise warranted.

**107.3.5 Approval of Water and Sewer Plans - Added.** If the property is not served by an adequate public water supply or public sanitary sewer system, each applicant for a permit for a structure requiring a water supply and sewage disposal shall develop the site in accordance with adopted City ordinances.

**108.3 Temporary Power - Amendatory.** The building official is authorized to give permission to temporarily supply and use power in part of an electrical installation before such installation has been fully completed and the final inspection has been approved. The part covered by the temporary permit shall comply with the requirements specified for temporary lighting, heat, or power in the Electrical Code of the City of Tulsa, Title 52, Tulsa Revised Ordinances.

**109.2 Schedule of permit fees - Amendatory.** All permit and inspection fees for work encompassed in this chapter shall be paid in accordance with the schedule established in Title 49, Tulsa Revised Ordinances Chapters 1 and 3.

**109.3 Building Permit Valuations - Amendatory.** The applicant for a permit shall provide an estimated permit value at the time of application. Permit valuations shall include total value of work, including materials and labor, for which the permit is being issued, such as electrical, gas, mechanical, plumbing equipment, and permanent systems. If, in the opinion of the building official, the valuation is underestimated on the application, the permit shall be (1) denied, or (2) approved using an adjusted valuation substituted by the building official, or (3) approved using a valuation submitted by the applicant based upon detailed estimates meeting the approval of the code official. Final building permit valuation shall be set by the building official.

**110.3.3 Lowest Finished Floor Elevation - Amendatory.** When a lowest finished floor elevation is specified in a permit for structures located in flood hazard areas or areas prone to flooding, as established by the current City of Tulsa Regulatory Floodplain Map Atlas, no further vertical construction shall be performed after approval of the slab or floor, until an elevation certificate, verifying the lowest floor elevation, has been received and approved by the code official. The elevation certificate shall be prepared by a land surveyor or engineer who is licensed by the State of Oklahoma, using an appropriate form provided by the code official.

**110.3.3.1 Final Floodplain Elevation Certificate - Added.** Prior to the final inspection, a final elevation certificate shall be required for structures located in areas

prone to flooding, as established by the current City of Tulsa Regulatory Floodplain Map Atlas. The final elevation certificate shall be prepared by a land surveyor or engineer licensed by the State of Oklahoma, using an appropriate form provided by the code official. The certificate shall confirm the lowest finished floor elevation and verify the lowest elevation of mechanical equipment. A certificate of occupancy shall not be issued unless the final elevation certificate is approved by the code official.

**110.3.3.2 Flood-proofing Certificate - Added.** In lieu of elevating a non-residential structure, or non-residential portions of a mixed-use structure, to the specified finished floor elevation as provided in Sections 110.3.3 and 110.3.3.1 of this code, a non-residential structure, or nonresidential portions of a mixed-use structure, located in flood hazard areas or areas prone to flooding, as established by the current City of Tulsa Regulatory Floodplain Map Atlas, undergoing substantial improvement, may be flood-proofed in accordance with other sections of this code. An engineer or architect licensed by the State of Oklahoma shall prepare a certificate of flood-proofing and submit it to the code official for approval prior to the final inspection. The certificate shall be in an appropriate form provided by the code official.

**110.3.8 Energy Efficiency Inspection-Deleted.** Section 110.3.7 of the ICC International Building Code, 2018 Edition is intentionally deleted from this code.

**110.6 Approval required - Amendatory.** No work shall be done beyond the point indicated in each successive inspection without first obtaining the approval of the code official. Upon notification, the code official shall make the requested inspections and shall either indicate the portion of the construction that is satisfactory as completed, or notify the permit holder or an agent of the permit holder where it fails to comply with this code. Any portions that do not comply shall be corrected and such portion shall not be covered, concealed or occupied until authorized by the code official. Work that is covered or concealed, or occupied without approval of the code official shall be in violation of this code and shall be penalized by the imposition of a civil fine as provided in Title 49, Tulsa Revised Ordinances, Chapter 1, for each occurrence and may result in a hearing before the Board of Appeals. Each day, or portion thereof, during which a violation is committed, continued or permitted shall be deemed a separate offense. The assessment or payment of this penalty shall not relieve any person from fully complying with all requirements of this code nor shall such payment exempt the person from further penalty provided by law.

**113.1 Board of Appeals Created - Amendatory.** In order to hear and decide appeals of orders, decisions, or determinations made by the building, fire, or other code officials relative to the application and interpretation of Tulsa Revised Ordinances Titles 14, 51, 52, 56, or 59, there shall be and is hereby created a Board of Appeals.

**113.1.1 Membership of Board - Added.** The Board shall be composed of the following thirteen (13) members and two (2) alternates, appointed by the Mayor and confirmed by the City Council:

Thirteen (13) Members:

One (1) electrical contractor

One (1) mechanical or plumbing contractor

One (1) mechanical stationary engineer

One (1) fire protection contractor

One (1) commercial building contractor

One (1) residential building contractor

One (1) structural engineer

One (1) mechanical, electrical, or plumbing consultant engineer

One (1) fire protection engineer

One (1) architect

One (1) member of the Home Builders Association of Greater Tulsa

One (1) member of the Building Owners and Managers Association of Tulsa

One (1) mayoral designee

Two (2) Alternates of similar qualification as any Member:

Alternates may be called upon to ensure quorum of the board during times when a sufficient number of regular members is not available. Alternates shall receive notices and all meeting materials and may attend all meetings. They will serve as voting members only when needed to provide a quorum.

Appointments shall be for terms of three (3) years and shall commence on July 1. Upon death, removal, or resignation of any member, a new member shall be appointed to serve out the unexpired term. Members shall serve until their successors are duly appointed and qualified.

**113.1.2 Election of Officers - Added.** At the July meeting of each year, the Board shall elect one of its members as chairman and one as vice-chairman, both to serve for the ensuing year. The code official shall serve, ex-officio, as a non-voting secretary of the Board. The fire code official shall serve, ex-officio, as a non-voting member of the Board.

**113.1.3 Meetings of Board - Added.** The Board shall meet at the call of the chairman or three (3) members of the Board. Seven (7) members of the Board shall constitute a quorum. Insofar as possible, all business meetings shall be conducted in accordance with the parliamentary rules set forth in Robert's Rules of Order. The Office of Building Inspection shall maintain records of all proceedings of Board meetings. Prior to each meeting, a complete agenda and the minutes of the previous meeting shall be provided to all Board members.

**113.1.4 Attendance - Added.** Each member of the Board shall attend all Board meetings except for reasons beyond the member's control. Any member who misses three (3) consecutive meetings of the Board shall be recommended to the Mayor for removal and replacement.

**113.1.5 Powers and Duties of the Board - Added.**

**1.** The Board shall hear all appeals from decisions of the building, fire, or other code officials and shall interpret the provisions of the applicable code whenever a dispute arises as to the meaning or intent of any provision. In the event of a dispute between interested parties, the code official may, as necessary, order part or all of the construction work to cease; provided that within twenty (20) days after an order from the code official has been issued, the appellant may file a written notice of appeal with the Board. Thereafter the appellant may proceed with the work at the appellant's own risk, pending determination of the dispute.

**2.** The Board shall serve as an advisory board to the Council with respect to technological advances in equipment standards, in installation and performance, and other matters related.to buildings and structures.

**3.** The Board shall adopt rules of procedure for the transaction of its business. The Board shall have the authority to establish ad hoc committees and select appropriate representatives with technical expertise and experience to provide guidance and recommendations on specific and focused issues as may be desired.

**4.** The Board may suspend, revoke, or cancel any License or Certificate of Registration issued pursuant to the City of Tulsa Electrical, Mechanical, or Plumbing Codes (Titles 52, 56 or 59) if it has reason to believe or finds that the holder of the License or Certificate has:

**a.** Made a material misstatement in the application for any License or Certificate or renewal thereof; or

**b.** Loaned or illegally used the License or Certificate; or

**c.** Violated any provisions of the City's applicable codes.

**113.1.6 Initiation of an Appeal - Added.** Any person aggrieved by a decision of the building, fire, or other code officials may appeal the decision to the Board of Appeals. The initiation of such an appeal shall be in writing and shall be filed with the City Clerk and the Code Official whose decision is being appealed no later than twenty (20) days after the code official's decision was made known to the aggrieved person. The notice of appeal shall:

**1.** Set forth in detail the precise decision or requirement being appealed;

**2.** State precisely why the decision or requirement is in error;

**3.** Designate the section(s) of the code, other ordinances or statute(s) which support(s) the appellant's position; and

**4.** Be accompanied by a fee as provided in Title 49, Tulsa Revised Ordinances, Chapter 1.

**113.1.7 Board Investigation and Hearing - Added.** Upon receipt by the Board of a written notice of appeal filed by the code official or any aggrieved person, or upon the Board's own motion, the Board shall make such investigation into the complaint which it may deem necessary and hold a hearing upon the appeal.

**113.1.8 Notice of Hearing - Added.** The Board shall meet upon notice from the chairman within twenty (20) days of the filing of an appeal or at a stated periodic meeting. The appellant shall be notified by regular mail of the date, time and place of the hearing which shall include:

**1.** A statement of the date, time, place and nature of the hearing;

**2.** A statement of the legal authority and jurisdiction under which the hearing is to be held;

**3.** A reference to the particular section(s) of the code and rules involved;

**4.** A short, plain statement of the complaint or appeal and a statement of the issues before the Board;

**5.** A statement that the nature of the proceeding before the Board will be an informal inquiry into the complaint at which time an opportunity will be afforded for the individual to respond to the allegations in the notice of appeal by the presentation of testimony or documentary evidence; and

**6.** A statement that the individual has a right to be represented by legal counsel.

**113.1.9 Board Decision Upon Hearing an Appeal - Added.**

**1.** At the conclusion of a hearing on an appeal, the Board shall affirm, modify, or reverse the decision of the code official by a concurring vote of a majority present.

**2.** A decision of the Board on a technical dispute shall be res judicata and the Board may, in its discretion, refuse to hear appeals involving interpretation of codes, statutes or ordinance provisions upon which a decision by the Board has been previously made. When the Board determines that a decision made by it has industry-wide implications, the Board may direct its secretary to advise all registered contractors by letter of such decision.

**3.** Any rulings, requirements, decisions or interpretations of the Board shall be final and binding upon all parties, unless appealed to the City Council.

**113.1.10 Suspension or Revocation of Certificates of Registration - Added.**

**1.** Written Complaint. Upon receipt of a written complaint to the Board, filed by the code official or any aggrieved person, or upon the Board's own motion, the Board shall make any investigation into the complaint which it may deem necessary and thereafter shall conduct a hearing upon such complaint.

**2.** Notice of Hearing. Within ten (10) days after the filing of a written complaint, the Board shall serve written notice of the complaint upon the Certificate holder. The notice shall be served either personally or by certified mail, return receipt requested, at least ten (10) days prior to any scheduled hearing and shall include:

**2.1.** A statement of the time, place, and nature of the hearing;

**2.2.** A statement of the legal authority and jurisdiction under which the hearing is to be held;

**2.3.** A reference to the particular section(s) of the code and rules involved;

**2.4.** A short, plain statement of the complaint and a statement of the issues before the Board;

**2.5.** A statement that the nature of the proceeding before the Board will be an informal inquiry into the complaint, at which time an opportunity will be afforded the individual to respond to the allegations in the complaint by the testimony of witnesses, or by documentary evidence;

**2.6.** A statement that the individual has a right to be represented by legal counsel; and

**2.7.** A statement that, based upon the evidence presented at the hearing, the Board may deny, suspend, revoke, or cancel the individual's Certificate of Registration.

**3.** Determining Vote. A decision to deny, suspend, revoke, or cancel a Certificate of Registration shall require the concurring vote of a majority present.

**113.1.11 Enforcement of Board Action Stayed - Added.** If any ruling, requirement, decision or interpretation of the Board is appealed to the City Council, the enforcement of the Board's action shall automatically be stayed until the Council has rendered a final decision.

**113.4 Appeals to the City Council from the Board - Added.**

1. Any person(s) aggrieved by a decision of the Board may perfect an appeal to the City Council by filing a written notice of appeal with the City Clerk and with the Secretary of the City Council within ten (10) days from the date of the action by the Board. Such notice shall specify the grounds for the appeal. A hearing on the appeal shall be commenced by the Council no later than thirty (30) days from the date the notice of appeal was filed with the City Clerk.
2. The City Council shall have jurisdiction to affirm, modify, reverse, or remand the action of the Board. Where practical difficulties or an unnecessary hardship will result from the strict application of this code, the Council shall have the power, in a specific case, to grant a variance from any provision, in accordance with the general purpose and intent of the code, so that the public health, safety, convenience, prosperity, and general welfare may be secured and substantial justice done. Any such variance shall not be construed as an amendment or a general waiver of any provision of this code.

**113.5 Appeal from City Council Action - Added.** Any rulings, requirements, decisions or interpretations of the City Council shall be final and binding upon all parties, provided that any right of appeal to the courts shall not be abrogated.

**113.6 Computation of Time - Added.** In computing any period of time prescribed or allowed by this title, the day of the act, event, or default from which the designated period of time begins to run shall not be included. The last day of the period computed shall be included, unless it is a legal holiday as recognized by the City of Tulsa, or any other day when the office of the City Clerk does not remain open for public business until its regularly scheduled closing time, in which event the period shall run until the end of the next day which is not a legal holiday or a day when the office of the City Clerk does not remain open for public business until its regularly scheduled closing time. Unless the context of a period of time clearly indicates otherwise, a period of time prescribed in days shall be calendar days, including holidays and any other day when the office of the City Clerk is not open for public business until its regularly scheduled closing time.

**114.4 Violation Penalties - Amendatory.** It shall be unlawful and a misdemeanor offense for any person, firm, corporation or limited liability company to violate any of the provisions of this code, fail to comply with any of the requirements thereof, or erect, construct, repair, alter or change the occupancy of a building or structure in violation of approved construction documents, a directive of the code official, or of a permit or certificate issued under the provisions of this code. Any person, firm, corporation or limited liability company convicted of a violation of this code shall be guilty of a misdemeanor offense and shall be punished by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees and assessments, or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day, or portion thereof, during which a violation is committed, continued or permitted shall be deemed a separate offense.

**114.5 Abatement of Violation - Added.** The imposition of civil or criminal penalties prescribed in this code shall not preclude the City Attorney from instituting appropriate action to restrain or enjoin unlawful construction, the illegal occupancy of a building, or to stop an illegal act, conduct, business, or operation of systems, or to abate any such violation.

**115.3 Unlawful Continuance - Amendatory.** It shall be unlawful and a misdemeanor offense for any person, firm, corporation or limited liability company to continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition. Any person, firm, corporation or limited liability company convicted of a violation of this section shall be guilty of a misdemeanor offense and shall be punished by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees and assessments, or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day, or portion thereof, during which a violation is committed, continued or permitted shall be deemed a separate offense.

**Section 117. Emergency Measures - Added.**

**117.1 Imminent Danger - Added.** When, in the opinion of the code official, there is an imminent danger of failure or collapse of a building that endangers life, or when any building or part of a building has fallen and life is endangered by the occupation of the building, or when there is actual or imminent danger to the building occupants or those in the proximity of any structure because of explosives, explosive fumes or vapors, or the presence of toxic fumes, gases, or materials, or operation of defective or dangerous equipment, the code official is authorized and empowered to order and require the occupants to vacate the premises immediately. The code official shall then cause to be posted at each entrance to such structure a notice reading as follows: "THIS STRUCTURE IS UNSAFE AND ITS OCCUPANCY HAS BEEN PROHIBITED BY THE CODE OFFICIAL." It shall then be unlawful and a misdemeanor offense for any person to enter such structure except for the purpose of securing the structure, making the required repairs, removing the hazardous condition, or demolishing it.

**117.2 Temporary Safeguards - Added.** Notwithstanding other provisions of this code, whenever, in the opinion of the code official, the unsafe condition of any building or structure creates an imminent peril to life or property, the code official shall order the necessary work to be done, including the boarding up of openings, to render the building or structure temporarily safe and shall cause such other action to be taken as the code official deems necessary to temporarily abate the unsafe condition.

**117.3 Temporary Closure of Structures or Streets Due to Unsafe Condition - Added.** When necessary for public safety, the code official shall be authorized to temporarily close any unsafe structure and any adjacent sidewalk, street, alley, public way, or place, and prohibit access until the unsafe condition of the structure is abated.

**202 Definitions - Amendatory.**

Safe room - Added. A building or structure or portions thereof, constructed in accordance with ICC/NSSA Standard for the design and construction of Storm Shelters® (ICC 500®) and constructed to provide near-absolute protection for its occupants from severe wind storm events such as tornados.

**(1)** Community safe room. A safe room designed and constructed in accordance with the Federal Emergency Management Agency (FEMA) document P-361 entitled "Design and Construction Guidance for Community Safe Rooms®" ("FEMA P-361®"), intended to provide life-safety protection for more than 16 persons.

**(2)** Other safe room. A safe room designed and constructed in accordance with FEMA P-361® Design and Construction Guidance for Community Safe Rooms or FEMA P-320® entitled "Taking Shelter from the Storm: Building a Safe Room for your Home or Small Business®", located in a residence or non-residential building or structure, intended to provide life-safety protection for 16 people or less.

**CAPACITOR ENERGY STORAGE SYSTEM.** A stationary, rechargeable energy storage system consisting of capacitors, chargers, controls and associated electrical equipment designed to provide electrical power to a building or facility. The system is typically used to provide standby or emergency power, an uninterruptable power supply, load shedding, load sharing or similar capabilities.

**INTERMODAL SHIPPING CONTAINER.** A six-sided steel unit originally constructed as a general cargo container used for the transport of goods and materials.

**305.2.4 Seven or fewer children in a detached dwelling - Added.** A facility such as the above within a detached dwelling and having seven or fewer children receiving such day care shall be permitted to comply with the International Residential Code® (IRC®). This number shall include children two and one-half years or less of age.

**305.2.5 Eight to 12 children in a detached dwelling - Added.** A facility such as the above within a detached dwelling and having eight to 12 children receiving such day care shall comply with the IRC® provided an automatic sprinkler system is installed in accordance with Section 903.3.1.3 or Section P2904 of the IRC®. This number shall include children two and one-half years or less of age.

**310.4 Residential Group R-3.** Residential Group R-3 occupancies where the occupants are primarily permanent in nature and not classified as a Group R-1, R-2, R-4 or I, including:

**(A)** Buildings that do not contain more than two dwelling units.

**(B)** Care facilities that provide accommodations for five or fewer persons receiving care.

**(C)** Congregate living facilities (nontransient) with 16 or fewer occupants.

**(i)** Boarding houses (nontransient).

**(ii)** Convents.

**(iii)** Dormitories.

**(iv)** Fraternities and sororities.

**(v)** Monasteries.

**(D)** Congregate living facilities (transient) with 10 or fewer occupants - Boarding houses (transient).

**(E)** Lodging houses (transient) with four or fewer guest rooms and no more than 2 persons per room.

**310.4.2 Lodging houses.** Owner-occupied lodging houses with four or fewer guest rooms and no more than 2 persons per room shall be permitted to be constructed in accordance with the International Residential Code®.

**310.5.3 Lodging houses - Amendatory.** Owner-occupied lodging houses with four or fewer guest rooms shall be permitted to be constructed in accordance with the IRC®.

**403.4.8.2. Fuel line piping protection.** Fuel lines supplying a generator set inside a building shall be separated from areas of the building other than the room the generator is located in, by one of the following methods:

**(A)** A fire-resistant pipe-protection system that has been tested in accordance with UL 1489. The system shall be installed as tested and in accordance with the manufacturer's installation instructions, and shall have a rating of not less than 2 hours. Where the building is protected throughout with an automatic fire sprinkler system installed in accordance with Section 903.3.1.1, the required rating shall be reduced to 1 hour.

**(B)** An assembly that has a fire-resistance rating of not less than 2 hours. Where the building is protected throughout with an automatic sprinkler system installed in accordance with Section 903.3.1.1, the required fire-resistance rating shall be reduced to 1 hour.

**(C)** Other approved methods.

**406.7.2.1 Canopies used to support lighter-than-air gaseous systems.** Canopies that are used to shelter dispensing operations where flammable compressed gases are located on the roof of the canopy shall be in accordance with the following:

**(A)** The canopy shall meet or exceed Type I construction requirements.

**(B)** Operations located under canopies shall be limited to refueling only.

**(C)** The canopy shall be constructed in a manner that prevents the accumulation hydrogen of gas.

**406.7.2.2 Canopies sheltering units and devices that dispense lighter-than-air gas.** Where CNG, LNG, or Hydrogen motor fuel dispensing devices are installed beneath a canopy, the canopy shall be designed to prevent the accumulation or entrapment of ignitable vapors, including provisions for natural or mechanical ventilation means, or all electrical equipment installed beneath the canopy or within the enclosure shall be suitable for Class I, Division 2 hazardous (classified) locations. Tank vents that are installed within or attached to the canopy shall extend a minimum of 5 feet (1524 mm) above the highest projection of the canopy. Compression and storage equipment located on the top of the canopy shall be in accordance with current State of Oklahoma adopted International Fire Code®, Section 2309.

**407.5 Smoke barriers - Amendatory.** Smoke barriers shall be provided to subdivide every story used by persons receiving care, treatment or for sleeping, and to divide other stories with an occupant load of 50 or more persons, into no fewer than two smoke compartments. Such stories shall be divided into smoke compartments with an area of not more than 22,500 square feet (2092 square meters) in Group I-2 Condition 1 and Condition 2. The distance of travel from any point in a smoke compartment to a smoke barrier door shall be not greater than 200 feet (60960 millimeters). The smoke barrier shall be in accordance with Section 709.

## [F] TABLE 414.5.1 ADDITION

| MATERIAL | CLASS | Barricade construction (Explosion Control Method) | Explosion (deflagration) venting or explosion (deflagration) prevention systems [b] (Explosion Control Method) |
|---|---|---|---|
| **HAZARD CATEGORY** | | | |
| Combustible dusts [c] | - | Not Required | Required |
| Cryogenic flammables | - | Not Required | Required |
| Explosives | Division 1.1 | Required | Not Required |
| Explosives | Division 1.2 | Required | Not Required |
| Explosives | Division 1.3 | Not Required | Required |
| Explosives | Division 1.4 | Not Required | Required |
| Explosives | Division 1.5 | Required | Not Required |
| Explosives | Division 1.6 | Required | Not Required |
| Flammable gas | Gaseous | Not Required | Required |
| Flammable gas | Liquefied | Not Required | Required |
| Flammable liquid | IA [d] | Not Required | Required |
| Flammable liquid | IB [e] | Not Required | Required |
| Organic peroxides | U | Required | Not Required |
| Organic peroxides | I | Required | Not Required |
| Oxidizer liquids and solids | 4 | Required | Not Required |
| Pyrophoric gas | - | Not Required | Required |
| Unstable (reactive) | 4 | Required | Not Required |
| Unstable (reactive) | 3 Detonable | Required | Not Required |
| Unstable (reactive) | 3 Non detonable | Not Required | Required |
| Water-reactive liquids and solids | 3 | Not Required | Required |
| | 2 [g] | Not Required | Required |
| **SPECIAL USES** | | | |
| Acetylene generator rooms | - | Not Required | Required |
| Electrochemical energy storage systems [i] | - | Not Required | Required |
| Grain processing | - | Not Required | Required |
| Liquefied petroleum gas-distribution facilities | - | Not Required | Required |
| Where explosion hazards exist [f] | Detonation | Required | Not Required |
| Where explosion hazards exist [f] | Deflagration | Not Required | Required |

**419.1 General - Amendatory.** A live/work unit shall comply with Sections 419.1 through 419.9.

**Exceptions:**

**1.** Dwelling or sleeping units that include an office that is less than 10 percent of the area of the dwelling unit are permitted to be classified as dwelling units with accessory occupancies in accordance with Section 508.2.

**2.** Group B, M, and F occupancies that are located in a detached dwelling unit complying with the limitations of Section 419.1.1 shall be permitted to be constructed in accordance with the IRC®.

**419.1.1 Limitations - Amendatory.** The following shall apply to all live/work areas:

**1.** The nonresidential portion of the live/work unit is permitted to be not greater than 2,500 square feet (232 square meters) in area;

**2.** The nonresidential area is permitted to be not more than 50 percent of the area of each live/work unit;

**3.** The nonresidential area function shall be limited to the first or main floor only of the live/work unit; and

**4.** Not more than five nonresidential workers or employees are allowed to occupy the nonresidential area at any one time.

**423 Storm Shelters and Safe Rooms - Amendatory.**

**423.1 General - Amendatory.** In addition to other applicable requirements in this code, storm shelters and safe rooms shall be constructed in accordance with the definitions and this section.

**423.1.1 Scope - Amendatory.** This section applies to the construction of above or below ground storm shelters or safe rooms constructed as separate detached buildings, or rooms within buildings, structures, or portions thereof for the purpose of providing safe refuge from storms that produce high winds, such as tornados. Any room or structure, as may be used as a place of refuge during a severe wind storm event, shall not be defined as a storm shelter or safe room unless specifically designed to the requirements as listed in Section 423.

**423.2 Definitions - Amendatory.** The following terms are defined in Chapter 2 of this code:

**1.** SAFE ROOM.

- **a.** Community safe room.
- **b.** Other safe room.

**2.** STORM SHELTER.

- **a.** Community storm shelter.
- **b.** Residential storm shelter.

**423.5 Required - Added.** Where storm shelters and safe rooms are provided, they shall be provided in compliance with ICC 500® except as required by Sections 423.5.1 through 423.5.1.1.

**423.5.2 Signage.** All signs, as outlined in ICC 500® Sections 108, 504.1, 504.1.1 and 504.1.2 shall comply with the applicable requirements of ICC A117.1®.

**423.5.2.1 Entrance signage.** Entrance signage, as outlined in ICC 500® Section 504.1.1 shall not be required at exterior entrances where the shelter can be accessed from within a host building and is only open to the occupants of the host building.

**423.5.3 Roof live load reduction for shelters.** Roof live load reduction in Section 1607.13.2.1 (Equation 16-26) shall not be allowed for roof live loads stipulated under ICC 500® Section 303.2.

**423.5.4 Design wind speed.** For storm shelters, the minimum design wind speed for the entire State of Oklahoma shall be 250 miles per hour.

**423.5.5 Usable storm shelter floor area.** The usable storm shelter floor area shall be determined by ICC 500® Section 501.1.2.1 or 501.1.2.2.

**Exception:** Areas within privacy enclosures for sanitary facilities shall not be included in the usable floor area calculations.

**423.5.6 Door operation.** Means of egress doors shall be operable from the inside without the use of keys or special knowledge or effort.

**423.5.6.1 Additional door and shutter operation.** Doors and shutters designed to protect windows or other unprotected openings not in a required means of egress in storm shelters shall be operable from the inside without the use of keys or special relocatable tools.

**423.5.7 Height of storm shelter.** When determining the location of natural ventilation in accordance with ICC 500® Section 702.1.1.1, the height of the storm shelter shall be defined as an average of the vertical dimensions from the floor elevation to the bottom of the storm shelter deck or to the underside of a hard ceiling within the storm shelter.

**423.5.8 Additional facilities for storm shelters.** Where the required number of sanitation facilities for the storm shelter exceeds the number of facilities provided for the normal occupancy of the space, the additional facilities shall be permitted to be temporary sanitary fixtures, chemical toilets, or other means approved by the authority having jurisdiction. Temporary toilets, chemical toilets, or other approved means shall have temporary or permanent privacy enclosures such as fabric, portable screens, or other means approved by the authority having jurisdiction. Privacy enclosures shall have minimum clear inside dimensions of 5 feet by 5 feet (1524 mm by 1524 mm).

**423.5.9. Sanitary facilities support systems.** Support systems for the temporary sanitation facilities (e.g. bladders, storage tanks or vessels, etc.) shall be capable of supplying water and containing waste for the design capacity of the tornado shelter.

**423.5.10 Conversion of plumbing systems.** ICC 500® Section 702.2.4 is omitted.

**423.5.11 First aid kit.** An ANSI compliant first aid kit rated for the number of storm shelter occupants, as listed in the construction documents, shall be supplied in all tornado shelters.

**429 Cultivation, Extraction and Processing of Plant Material.**

**429.1 General.** Plant growing facilities that utilize carbon dioxide enrichment systems in accordance with Section 5307.4 of the International 17 Fire Code® and plant processing or extraction facilities in accordance with Chapter 39 of the International Fire Code® shall also comply with Sections 429.2 through 429.6.

**429.2 Construction.** The construction of buildings used for the extraction process that include the act of extraction of the oils and fats by use of solvent, desolventizing of the raw material, production of the miscella, distillation of the solvent from the miscella and solvent recovery shall comply with this section.

**Exception:** Extraction process that utilizes nonhazardous solvents or carbon dioxide.

**429.2.1 Noncombustible construction.** Extraction equipment and processes utilizing materials classified as physical hazards in accordance with Section 307 of the International Fire Code® shall be located in a room constructed of noncombustible materials.

**429.2.2 Prohibited occupancies.** Extraction equipment and extraction processes utilizing materials classified as physical hazards in accordance with Section 307 of the International Fire Code® shall not be located in any building containing a Group A, E, I, or R occupancy.

**429.3 Equipment location.** The extraction equipment and extraction processes utilizing materials classified as physical hazards in accordance with Section 307 of the International Fire Code® as solvents shall be located in a room dedicated to extraction and the room shall not be used for any other purpose. There shall be no storage of solvents in the extraction room.

**429.4 Interior finish.** Interior finish of walls and ceilings in plant growing, processing and extraction facilities shall comply with this section and Section 803.

**429.4.1 Plastic, mylar and other thin sheeting.** Plastic, mylar and other thin sheeting that covers any walls or ceilings shall comply with this section and Section 803.

**429.4.1.1 Installation.** Plastic, mylar and other thin sheeting shall not be hung from ceilings or suspended overhead structures to create divider walls or rooms.

**429.5 Emergency power system.** For extraction processes utilizing hydrocarbon gases or liquids as solvents, the extraction room lighting and ventilation system shall be provided with emergency power in accordance with Section 2702.

**429.6 Means of egress.** Extraction rooms utilizing materials classified as physical hazards in accordance with Section 307 of the International Fire Code® shall have a minimum of one exit access door that swings in the direction of egress travel. The exit access door shall be equipped with panic hardware or fire exit hardware and a self-closing or automatic-closing device.

[Source: Added at 38 Ok Reg 2573, eff 9-14-2021.]

Table 509 Incidental uses. Omitted: Stationary storage battery systems having an energy capacity greater than the threshold quantity specified in Table 1206.2 of the *International Fire Code*.

| ROOM OR AREA | SEPARATION AND/OR PROTECTION |
|---|---|
| Furnace room where any piece of equipment is over 400,000 Btu per hour input | 1 hour or provide automatic sprinkler system |
| Rooms with boilers where the largest piece of equipment is over 15 psi and 10 horsepower | 1 hour or provide automatic sprinkler system |
| Refrigerant machinery room | 1 hour or provide automatic sprinkler system |

| ROOM OR AREA | SEPARATION AND/OR PROTECTION |
|---|---|
| Hydrogen fuel gas rooms, not classified as Group H | 1 hour in Group B, F, M, S and U occupancies |
| Hydrogen fuel gas rooms, not classified as Group H | 2 hours in Group A, E, I and R occupancies |
| Incinerator rooms | 2 hours and provide automatic sprinkler system |
| Paint shops, not classified as Group H, located in occupancies other than Group F | 2 hours; or 1 hour and provide automatic sprinkler system |
| In Group E occupancies, laboratories and vocational shops not classified as Group H | 1 hour or provide automatic sprinkler system |
| In Group I-2 occupancies, laboratories not classified as Group H | 1 hour and provide automatic sprinkler system |
| In ambulatory care facilities, laboratories not classified as Group H | 1 hour or provide automatic sprinkler system |
| Laundry rooms over 100 square feet | 1 hour or provide automatic sprinkler system |
| In Group I-2, laundry rooms over 100 square feet | 1 hour |
| Group I-3 cells and Group I-2 patient rooms equipped with padded surfaces | 1 hour |
| In Group I-2, physical plant maintenance shops | 1 hour |
| In ambulatory care facilities or Group I-2 occupancies, waste and linen collection rooms with containers that have an aggregate volume of 10 cubic feet or greater | 1 hour |
| In other than ambulatory care facilities and Group I-2 occupancies, waste and linen collection rooms over 100 square feet | 1 hour or provide automatic sprinkler system |
| In ambulatory care facilities or Group I-2 occupancies, storage rooms greater than 100 square feet | 1 hour |
| Electrical installations and transformers | See Sections 110.26 through 110.34 and Sections 450.8 through 450.48 of NFPA 70 for protection and separation requirements. |

| 1. For SI: 1 square inch equals 645.2 mm. | | | | | | | | |
| 2. Fire-resistance-rated glazing tested to ASTME E-119 in accordance with Section 716.1.2.3 shall be permitted, in the maximum size tested. | | | | | | | | |
| 3. Under the column heading "Fire-rated glazing marking door vision panel," W refers to the fire-resistance rating of the glazing, not the frame. | | | | | | | | |
| 4. See Section 716.1.2.2.1 and Table 716.1(1) for additional permitted markings. | | | | | | | | |

**[F] 903.2.1.2 Group A-2 - Amendatory.** An automatic sprinkler system shall be provided for fire areas containing Group A-2 occupancies and intervening floors of the building where one of the following conditions exists:

**1.** The fire area exceeds 5,000 square feet (465.5 $m^2$ ).

**2.** The fire area has an occupant load of 100 or more.

**3.** The fire area is located on a floor other than the level of exit discharge serving such occupancies.

**4.** A fire area with nightclub occupancy regardless of occupant load, where the total overall occupant load density is denser than 10 square feet (.93 $m^2$ ) per occupant.

**5.** Existing nightclubs not undergoing a change in fire area in alteration work shall be provided with an automatic sprinkler system in accordance with Section 1103.5.4 of the International Fire Code, 2018 Edition, as adopted by the City of Tulsa.

**[F] 903.2.7 Group M - Amendatory.** An automatic sprinkler system shall be provided throughout buildings containing a Group M occupancy where one of the following conditions exists:

**1.** A Group M fire area exceeds 12,000 square feet (1115 $m^2$ ).

**2.** A Group M fire area is located more than three stories above grade plane.

**3.** The combined area of all Group M fire areas on all floors, including any mezzanines, exceeds 24,000 square feet (2230 $m^2$ ).

**4.** A Group M occupancy where the cumulative area used for the display and sale of upholstered furniture or mattresses exceeds 5,000 square feet (464 $m^2$ ).

**[F] 903.2.9 Group S-1 - Amendatory.** An automatic sprinkler system shall be provided throughout all buildings containing a Group S-1 occupancy where one of the following conditions exists:

**1.** A Group S-1 fire area exceeds 12,000 square feet (1115 $m^2$).

**2.** A Group S-1 fire area is located more than three stories above grade plane.

**3.** The combined area of all Group S-1 fire areas on all floors, including any mezzanines, exceeds 24,000 square feet (2230 $m^2$).

**4.** A Group S-1 fire area used for the storage of commercial motor vehicles where the fire area exceeds 5,000 square feet (464 $m^2$).

**5.** A Group S-1 occupancy used for the storage of upholstered furniture or mattresses exceeds 2,500 square feet (232 $m^2$).

**Exception:** Self-service storage facility where the fire area is less than 5,000 square feet (464 $m^2$).

**[F] 903.4.2 Alarms - Amendatory.** Approved audible and visual devices shall be connected to every automatic sprinkler system. Such sprinkler water-flow alarm devices shall be activated by water flow equivalent to the flow of a single sprinkler of the smallest orifice size installed in the system. Alarm devices shall be provided on the address side of the exterior of the building above the fire department connection (FDC) or in an approved location. Where a fire alarm system is installed, actuation of the automatic sprinkler system shall actuate the building fire alarm system.

**[F] 907.2.3 Group E.** A manual fire alarm system that activates the occupant notification signal in accordance with Section 907.5 and installed in accordance with Section 907.6 shall be installed in Group E occupancies. When automatic sprinkler systems or smoke detectors are installed such systems or detectors shall be connected to the building fire alarm system.

**Exceptions:**

**1.** A manual fire alarm system is not required in Group E occupancies with an occupant load of 50 or less.

**2.** Manual fire alarm boxes are not required in Group E occupancies where all of the following apply:

2.1 Interior corridors are protected by smoke detectors.

2.2 Auditoriums, cafeterias, gymnasiums and similar areas are protected by heat detectors or other approved detection devices.

2.3 Shops and laboratories involving dusts or vapors are protected by heat detectors or other approved detection devices.

2.4 The capability to activate the evacuation signal from a central point is provided.

2.5 In buildings where normally occupied spaces are provided with a two-way communication system between such spaces and a constantly attended receiving station from where a general evacuation alarm can be sounded, except in locations specifically designated by the fire code official.

**3.** Manual fire alarm boxes shall not be required in Group E occupancies where all of the following apply:

3.1 The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1.

3.2 The fire alarm system will activate on sprinkler waterflow.

3.3 Manual activation is provided from a normally occupied location.

**907.2.22 Energy Storage Systems.** An automatic smoke detection system or radiant-energy detection system shall be installed in rooms, areas, and walk-in units containing energy storage systems as required in Section 1206 of the International Fire Code®.

**907.2.23 Omitted.**

**[F] 911.1.3. Size.** The fire command center shall be not less than 0.015 percent of the total building area of the facility served or 200 square feet (19 square meters) in area, whichever is greater, with a minimum dimension of 0.7 times the square root of the room area or 10 feet (3048 mm), whichever is greater.

**Exception:** When approved by the fire code official the fire command center can be reduced in size to not less than a minimum of 96 square feet (9 $m^2$) with a minimum dimension of 8 feet (2438 mm).

**[F] 912.1 Installation - Amendatory.** Fire department connections shall be installed in accordance with the NFPA standard applicable to the system design and shall comply with Sections 912.1.1 through 912.6.

**[F] 912.1.1 Fire Department Connection Inlet Size - Added.** The fire department connection shall be a 5" (130 mm) Quick-Connect Connection with a 30° angle elbow for risers larger than 3" (78 mm) in size. A single 2½" (65 mm) NH Standard Thread inlet is permitted for risers 3" and smaller. Fire department connections on NFPA 13R systems shall be a minimum of a single 2½" (65 mm) NH Standard Thread inlet.

**1003.4 Floor Surface.** Circulation paths of the means of egress shall have a slip-resistant surface and be securely attached. Floor surfaces that are a part of a means of egress shall have a solid surface. A floor for this purpose is also defined as the space between a floor surface and a guard if it projects beyond the edge of a floor.

**Exceptions:**

**(A)** Where approved by the Building Official, openings in floor surfaces shall be a size that does not permit the passage of ½-inch-diameter (12.7 mm) sphere. Elongated openings shall be placed so that the long dimension is perpendicular to the direction of travel.

**(B)** Where approved by the Building Official in Group F, H and S occupancies, other than areas of parking structures accessible to the public, openings in the floor surface shall not be prohibited provided a sphere with a diameter of 1⅛ inches (29 mm) cannot pass through the opening.

**1008.2.3 Exit discharge.** Illumination shall be provided along the path of travel for the exit discharge from each exit to the public way. Illumination may be provided by the building or other site lighting such as street lighting.

**Exceptions:**

**(A)** Illumination shall not be required where the path of exit discharge meets both of the following requirements:

**(i)** The path of exit discharge is illuminated from the exit to a safe dispersal area complying with Section 1028.5.

**(ii)** A dispersal area shall be illuminated to a level not less than 1 foot-candle (11 lux) at the walking surface.

**(B)** Buildings that comply for a single exit in accordance with Table 1006.2.1.

**1010.1.9.4 Locks and latches - Amendatory.** Locks and latches shall be permitted to prevent operation of doors where any of the following exists:

**1.** Places of detention or restraint.

**2.** In buildings in occupancy Group A having an occupant load of forty-nine (49) or less, Groups B, F, M and S, and in places of religious worship, the main door or doors are permitted to be equipped with key-operated locking devices from the egress side provided:

**2.1** The locking device is readily distinguishable as locked,

**2.2** A readily visible durable sign is posted on the egress side, on or adjacent to the door stating: THIS DOOR TO REMAIN UNLOCKED WHEN THIS SPACE IS OCCUPIED. The sign shall be in letters 1 inch (25 mm) high on a contrasting background, and

**2.3** The use of the key-operated locking device is revocable by the building official for due cause.

**3.** Where egress doors are used in pairs, approved automatic flush bolts shall be permitted to be used, provided that the door leaf having the automatic flush bolts does not have a doorknob or surface-mounted hardware.

**4.** Doors from individual dwelling or sleeping units of Group R occupancies having an occupant load of 10 or less are permitted to be equipped with a night latch, dead bolt or security chain, provided such devices are openable from the inside without the use of a key or tool.

**5.** Fire doors after the minimum elevated temperature has disabled the unlatching mechanism in accordance with listed fire door test procedures.

**1010.1.9.8 Delayed Egress Locks - Amendatory.** Delayed egress locking systems shall be permitted to be installed on doors serving any occupancy except Group A, E and H occupancies, in buildings that are equipped throughout with an automatic sprinkler system in accordance with Section 903.3.1.1 or an approved automatic smoke or heat detection system installed in accordance with Section 907. The locking system shall be installed and operated in accordance with all of the following items:

**1.** The delay electronics of the delayed egress locking system shall deactivate upon actuation of the automatic sprinkler system or automatic fire detection system, allowing immediate, free egress.

**2.** The delay electronics of the delayed egress locking system shall deactivate upon loss of power controlling the lock or lock mechanism, allowing immediate free egress.

**3.** The delayed egress locking system shall have the capability of being deactivated at the fire command center, and other approved locations.

**4.** An attempt to egress shall initiate an irreversible process that shall allow such egress in not more than fifteen (15) seconds when a physical effort to exit is applied to the egress side door hardware for not more than 3 seconds. Initiation of the irreversible process shall activate an audible signal in the vicinity of the door. Once the delay electronics have been deactivated, rearming the delay electronics shall be by manual means only.

**Exceptions:**

**4.1** Where approved, a delay of not more than 30 seconds is permitted on a delayed egress door.

**4.2** The release of the latch is permitted to be reversed by manual over-ride either by security personnel, the tenant, or from the fire command center to cause the latch to remain in a locked mode, provided the vicinity of the door that is locked out is equipped with both a 2-way audio and a 1-way video that are connected to the security personnel, the tenant, or the command center.

**5.** The egress path from any point shall not pass through more than one delayed egress locking system.

**Exception:** In Group I-2 or I-3 occupancies, the egress path from any point in the building shall pass through not more than two delayed egress locking systems provided the combined delay does not exceed 30 seconds.

**6.** A sign shall be provided on the door and shall be located above and within 12 inches (305 mm) of the door exit hardware.

**6.1.** For doors that swing in direction of egress, the sign shall read PUSH UNTIL ALARM SOUNDS. DOOR CAN BE OPENED IN 15 [30] SECONDS.

**6.2.** For doors that swing in the opposite direction of egress, the sign shall read PULL UNTIL ALARM SOUNDS. DOOR CAN BE OPENED IN 15 [30] SECONDS.

**6.3.** The sign shall comply with the visual character requirements in ICC A117.1.

**Exception:** Where approved, in Group I occupancies, the installation of a sign is not required where care recipients who because of clinical needs require restraint or containment as part of the function of the treatment area.

**7.** Emergency lighting shall be provided on the egress side of the door.

**8.** The delayed egress locking system units shall be listed in accordance with UL 294.

**1010.1.9.7.1 Electrical Locking System - Added.** Buildings permitted prior to 1999 that are not in compliance with Section 1010.1.9.7 of this code shall be permitted to utilize an electrical locking system with the following conditions, provided, the building is equipped throughout with an automatic sprinkler system in accordance with Section 903 of this code, and an approved automatic smoke or heat detection system installed in accordance with Section 907 of this code:

**1.** The electrical locking system shall be interconnected with the automatic sprinkler system and automatic fire detection system such that it unlocks upon actuation of the automatic sprinkler system or automatic fire detection system.

**2.** The electrical locking system shall unlock upon loss of power controlling the lock or locking mechanism. The door locks shall not be connected to an emergency power system.

**3.** A constantly and internally lit button with three-fourths inch (¾") minimum surface dimension shall be provided forty-eight inches (48") above the floor and within twelve inches (12") of the door on the latch side, together with an immediately adjacent sign reading "PRESS BUTTON IF EMERGENCY DOOR OPERATION IS NEEDED" of two inch (2") high letters in contrasting color to the sign surface. Equivalent Braille signage shall be provided on the sign surface, mounted forty-eight inches (48") minimum from the floor to the bottom of Braille text. Activation of the button by pressing under a force not exceeding one-half (½) pound will immediately operate a voice communication system connected to a

central control point that is constantly attended that is not required to be within the building, with the ability for the central control point to immediately contact another person to respond to the emergency.

**4.** Emergency lighting and exit light fixture shall be provided.

**5.** Electrical Locking System locks provided under this section shall be required to be tested annually by an Electronic Access Control Hardware company during the annual fire alarm inspection to assure they function as required in items 1 and 2 of this section.

**6.** An occupant within the building shall be provided with at least one (1) direct access to an exit without being required to pass through a door equipped with such electrical locking system.

**7.** An occupant within the building shall not be required to pass through more than one (1) door equipped with such electrical locking system before entering an exit.

**1010.1.9.12 Stairway Doors - Amendatory.** Interior stairway means of egress doors shall be openable from both sides without the use of a key or special knowledge or effort.

**Exceptions:**

**1.** Stairway discharge doors shall be openable from the egress side and shall only be locked from the opposite side.

**2.** This section shall not apply to doors arranged in accordance with Section 403.5.3.

**3.** In stairways serving not more than four (4) stories, doors are permitted to be locked from the side opposite the egress side, provided they are openable from the egress side and capable of being unlocked simultaneously without unlatching upon a signal from the fire command center, if present, or a signal by emergency personnel from a single location inside the main entrance to the building.

**4.** Stairway exit doors shall be openable from the egress side and shall only be locked from the opposite side in Group B, F, M and S occupancies where the only interior access to the tenant space is from a single exit stairway where permitted in Section 1006.3.2.

**5.** Stairway exit doors shall be openable from the egress side and shall only be locked from the opposite side in Group R-2 occupancies where the only interior access to the dwelling unit is from a single exit stairway where permitted in Section 1006.3.2.

**6.** Doors on stair enclosures shall be permitted to be equipped with hardware that prevents reentry into the interior of the building, provided that:

6.1. There are at least two (2) levels where it is possible to leave the stair enclosure, and

6.2. There shall be not more than four (4) floors intervening between floors where it is possible to leave the stair enclosure, and

6.3. Re-entry is possible on the top or next to the top floor permitting access to another exit, and

6.4. Doors permitting re-entry are identified as such on the stair side of the door.

**1010.1.9.13 Fail-safe Electronic Locks - Added.** Except for Group A, E and H occupancies, approved fail-safe electronic locks shall be permitted to be installed on doors serving any occupancy in buildings that are equipped throughout with an automatic sprinkler system in accordance with Section 903.3.1.1 and an approved automatic smoke or heat detection system installed in elevator lobbies and machine rooms as required for elevators with recall capabilities, provided that the fail-safe electronic locks comply with all the conditions in paragraphs 1 through 6 below, to access a required exit other than the first required exit.

**1.** The fail-safe electronic lock shall unlock upon actuation of the automatic fire sprinkler system, or automatic smoke or heat detection system.

**2.** The fail-safe electronic lock shall unlock upon loss of power to the electronic locking system.

**3.** The fail-safe electronic lock shall unlock upon loss of power to the building.

**4.** The fail-safe electronic lock shall not be supplied with emergency and/or back-up power.

**5.** The fail-safe electronic lock when unlocked shall not be reset until after the emergency no longer exists.

**6.** Fail-safe electronic locks provided under this section shall be required to be tested annually by an Electronic Access Control Hardware company during the annual fire alarm inspection to assure they function as required in items 1 thru 5 of this section.

**Exceptions:**

1. In addition to the above requirements, where fail-safe electronic locks in accordance with this section are used to secure elevator or stair lobbies that are not provided with direct access to an exit, the lobbies shall be provided with a 2-way communication system with a central station that can be located anywhere inside or outside of the building, provided it is manned twenty-four (24) hours, seven (7) days a week. The communication system shall be tested monthly to ensure operational condition. The lobby shall also be provided with a location sign that indicates its location in the building. Direction to exits shall be provided with exit lights as required by this code.
2. In addition to the above requirements, where fail-safe electronic locks in accordance with this section are used to secure elevator or stair lobbies that are not provided with direct access to an exit in buildings that are not equipped with a sprinkler system in accordance with Section 903.3.1.1 of this code, the lobbies shall have a manual fire alarm pull station tied into the building fire alarm system, in addition to a 2-way communication system with a central station that can be located anywhere inside or outside of the building. The central station shall also be manned twenty-four (24) hours, seven (7) days a week, and shall be tested monthly to ensure operational condition. The lobby shall also be provided with a

location sign that indicates its location in the building. Direction to exits shall be provided with exit lights as required by this code. An informational sign is not required for the manual fire alarm pull station.

3. In addition to the above requirements, where fail-safe electronic locks in accordance with this section are installed on stairway doors and its operation requires a primary release from the egress side to release the locking mechanism which is not integral to the latch, a secondary push-button release shall be required to be installed on the egress side, as a back-up unlocking operation, in the event of failure of the primary release mechanism.

**1010.1.10 Panic and fire exit hardware.** Doors serving a Group H occupancy and doors serving rooms or spaces with an occupant load of 50 or more in a group A or E occupancy shall not be provided with a latch or lock other than panic hardware or fire exit hardware.

**Exceptions:**

**1.** A main exit of a Group A occupancy shall be permitted to have locking hardware in accordance with Section 1010.1.9.3, Item 2.

**2.** Doors serving a Group A or E occupancy shall be permitted to be electromagnetically locked in accordance with Section 1010.1.9.9.

**3.** Electrical rooms rated 1200 amperes or more and over 6 feet (1829 mm) wide, and that contain overcurrent devices, switching devices or control devices with exit or exit access doors, shall be equipped with panic hardware or fire exit hardware. The doors shall swing in the direction of egress travel.

**4.** Where electrical equipment rated 800 amperes or more that contains overcurrent devices, switching devices, or control devices is installed and there is a personnel door(s) intended for entrance to and egress from the working space less than 25 feet (7.6 m) from the nearest edge of the working space, the personnel door shall be equipped with panic hardware or fire exit hardware. The door(s) shall open in the direction of egress.

**1011.1 General - Amendatory.** Stairways serving occupied portions of a building, and exterior stairways traversed by human traffic, shall comply with the requirements of Sections 1011.2 through 1011.13, notwithstanding the general scoping provisions of Section 1001.1. Alternating tread devices shall comply with Section 1011.14. Ships ladders shall comply with Section 1011.15. Ladders shall comply with Section 1011.16. These requirements shall not be applicable to stairs or steps in swimming and wading pools; play structures; building systems equipment; and similar structures.

**Exception:** Within rooms or spaces used for assembly purposes, stepped aisles shall comply with Section 1029.

**1015.6 Mechanical equipment, systems and devices - Amendatory.** Guards shall be provided where various components that require services are located on a roof or elevated structure and have a condition as set forth in Sections 1015.6.1 through 1015.6.3. The guard shall be constructed so as to prevent the passage of a sphere 21 inches (533 mm) in diameter.

**Exception:** When approved by the authority having jurisdiction, guards are not required where permanent fall arrest/restraint anchorage connector devices that

comply with ANSI/ASSE Z 359.1 are affixed for use during the entire roof covering lifetime. The devices shall be reevaluated for possible replacement when the entire roof covering is replaced. The devices shall be placed not more than 10 feet (3048 mm) on center along hip and ridge lines and placed not less than 10 feet (3048 mm) from roof edges and the open sides of walking surfaces.

**1015.6.1 Roof edge - Added.** Guards shall be provided when components are located within 10 feet (3048 mm) of a roof edge or open side of a walking surface or elevated structure and such edge or open side is located more than 30 inches (762 mm) above the floor, roof, or grade below. The guard shall extend not less than 30 inches (762 mm) beyond each end of the component that requires service.

**1015.6.2 Skylights - Added.** Guards shall be provided when a skylight is within 10 feet (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the skylight.

**Exceptions:**

1. Guards are not required when the skylight is located at least 42 inches (1067 mm) above the highest point of the walking surface adjacent to the skylight or component.
2. Guards are not required if some other provision for skylight fall-thru protection is provided and approved by the authority having jurisdiction.

**1015.6.3 Roof hatch - Added.** Guards shall be provided when a roof hatch is within 10 feet (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the roof hatch. If the component is within 10 feet (3048 mm) of the ladder access side of the roof hatch, the guard shall incorporate a self-closing, self-latching gate. The gate shall have a top edge of not less than 42 inches (1067 mm) above the elevated surface adjacent to the gate and shall not allow the passage of a 21 inch (533 mm) sphere.

**1015.7 Roof access - Amendatory.** Guards shall be provided where the roof hatch opening is located within 10 feet (3048 mm) of a roof edge or open side of a walking surface and such edge or open side is located more than 30 inches (762 mm) above the floor, roof or grade below. The guard shall be constructed so as to prevent the passage of a sphere 21 inches (533 mm) in diameter.

**Exception:** When approved by the authority having jurisdiction, guards are not required where permanent fall arrest/restraint anchorage connector devices that comply with ANSI/ASSE Z 359.1 are affixed for use during the entire roof covering lifetime. The devices shall be reevaluated for possible replacement when the entire roof covering is replaced. The devices shall be placed not more than 10 feet (3048 mm) on center along hip and ridge lines and placed not less than 10 feet (3048 mm) from roof edges and the open sides of the walking surfaces.

**1016.2.1 Multiple Tenants - Amendatory.** Where more than one tenant occupies any one floor of a building or structure, each tenant space, dwelling unit and sleeping unit shall be provided with access to the required exits without passing through adjacent tenant spaces, dwelling units and sleeping units.

**Exceptions:**

1. The means of egress from a smaller tenant space shall not be prohibited from passing through a larger adjoining tenant space where such rooms or spaces of

the smaller tenant occupy less than 10 percent of the area of the larger tenant space through which they pass; are the same or similar occupancy group; a discernible path of egress travel to an exit is provided; and the means of egress into the adjoining space is not subject to locking from the egress side. A required means of egress serving the larger tenant space shall not pass through the smaller tenant space or spaces.

**2.** Means of egress to the required second exit through another tenant space shall not be prohibited in buildings permitted prior to October 27, 1972.

**3.** Existing means of egress through another tenant space, approved on or after October 27, 1972 and prior to January 1, 2008, shall be permitted to remain. Newly created means of egress through another tenant space shall not be permitted in buildings permitted on or after October 27, 1972.

**1507.12.1 Slope - Amendatory.** Section 1507.12.1 of the ICC International Building Code, 2018 Edition is adopted as published, provided that an Exception to Section 1507.12.1 is added to read as follows:

**Exception - Added:** The roof design slope may be reduced to ⅛:12 when structural calculations have been provided to demonstrate compliance with Section 1611.2 of this code and warranties have been provided for the roof membrane in a ⅛:12 installation.

**1507.13.1 Slope - Amendatory.** Section 1507.13.1 of the ICC International Building Code, 2018 Edition is adopted as published, provided that an Exception to Section 1507.13.1 is added to read as follows:

**Exception - Added:** The roof design slope may be reduced to ⅛:12 when structural calculations have been provided to demonstrate compliance with Section 1611.2 of this code and warranties have been provided for the roof membrane in a ⅛:12 installation.

**1511.3.1.1 Exceptions. Addition:** A roof recover shall not be permitted where any of the following conditions occur:

**1.** Where the existing roof or roof covering is water soaked or has deteriorated to the point that the existing roof or roof covering is not adequate as a base for additional roofing.

**2.** Where the existing roof covering is slate, clay, cement or asbestos-cement tile.

**3.** Where the existing roof has two or more applications of any type of roof covering.

**4.** Where the existing roof has one or more applications of asphalt shingles, additional applications of asphalt shingles shall not be permitted

**1603.1.7 Flood design data - Amendatory.** For buildings located in whole or in part in flood hazard areas as established in Section 1612.3, the documentation pertaining to design, if required in Section 1612.5, shall be included and the following information, referenced to the datum on the City of Tulsa Regulatory Floodplain Map Atlas shall be shown, regardless of whether flood loads govern the design of the building:

**1.** Flood design class assigned according to ASCE 24.

**2.** The elevation of the proposed lowest floor, including the basement.

**3.** The elevation to which any nonresidential building will be dry floodproofed.

**1604.10 Loads on storm shelters.** Loads and load combinations on storm shelters shall be determined in accordance with Section 423.5.3 and ICC 500®.

**1609.3(1) Basic Wind Speeds, V, for Risk Category II Buildings and Other Structures.**

Notes: Addition

Footnote 6. Location-specific basic wind speeds shall be permitted to be determined using www.hazards.atcouncil.org.

**1609.3(2) Basic Wind Speeds, V, for Risk Category III Buildings and Other Structures.**

Notes: Addition

Footnote 6. Location-specific basic wind speeds shall be permitted to be determined using www.hazards.atcouncil.org.

**1609.3(3) Basic Wind Speeds, V, for Risk Category IV Buildings and Other Structures.**

Notes: Addition

Footnote 6. Location-specific basic wind speeds shall be permitted to be determined using www.hazards.atcouncil.org.

**1611.1 Design rain loads - Amendatory.** Each portion of a roof shall be designed to sustain the load of rainwater that will accumulate on it if the primary drainage system for that portion is blocked plus the uniform load caused by water that rises above the inlet of the secondary drainage system at its design flow. The design rainfall for the secondary drainage system shall be based on a rainfall rate of 10.2 inches per hour.

(Equation 16-35)

R equals 5.2 (d with a subscript "s" plus d with a subscript "h")

For SI: R equals 0.0098 (d with a subscript "s" plus d with a subscript "h") where:

**(i)** d with a subscript "h" equals Additional depth of water on the undeflected roof above the inlet of secondary drainage system at its design flow (in other words, the hydraulic head) in inches (mm).

**(ii)** d with a subscript "s" equals Depth of water on the undeflected roof up to the inlet of secondary drainage system when the primary drainage system is blocked (in other words, the static head) in inches (mm).

**(iii)** R equals Rain load on the undeflected roof, in psf (kN divided by square meters). Where the phrase "undeflected roof" is used, deflections from loads (including dead loads) shall not be considered when determining the amount of rain on the roof. [Source: Added at 38 Ok Reg 2573, eff. 9-14-2021.]

**1612.1 General - Amendatory.** Within flood hazard areas as established in Section 1612.3 of this code, all new construction of buildings, structures and portions of buildings and structures, including substantial improvements and restoration of substantial damage to buildings and structures, shall be designed and constructed to resist the effects of flood hazards and flood loads, in accord with all applicable City ordinances. For buildings that are located in more than one (1) flood hazard area, the provisions associated with the most restrictive flood hazard area shall apply.

**1612.1.1 Definitions - Amendatory.** Section 1612.2 of the ICC International Building Code, 2018 Edition is adopted as published, provided that the following definitions in Section 1612.2 are amended to read as follows:

**BASE FLOOD - Amendatory.** A flood having a one-percent (1%) chance of being equaled or exceeded in any given year, and is a regulatory flood as defined in applicable City ordinances.

**DESIGN FLOOD - Amendatory.** A flood associated with the greater of the following two areas:

**1.** An area with a flood plain subject to a one-percent (1%) or greater chance of flooding in any year (100 year, 24 hour storm); or

**2.** An area designated as a flood hazard area on a community's flood hazard map, or otherwise lawfully designated.

**EXISTING BUILDING OR EXISTING STRUCTURE - Amendatory.** A building or structure for which a legal building permit has been issued. For application of provisions in flood hazard areas, an existing structure is any building or structure for which the start of construction commenced before the effective date of the community's first flood plain management code, ordinance or standard.

**FLOOD HAZARD AREA - Amendatory.** For all buildings or structures located inside the corporate limits of the City of Tulsa, the flood hazard area shall be as designated on the adopted City of Tulsa Regulatory Floodplain Map Atlas.

**FLOODWAY - Amendatory.** The channel of the river, creek or other watercourse and the adjacent land areas that must be reserved in order to discharge a base flood without cumulatively increasing the water surface elevation as prescribed by applicable City ordinances.

**SUBSTANTIAL IMPROVEMENT - Amendatory.** Any repair, reconstruction or improvement of a structure, the cost of which equals or exceeds fifty percent (50%) of the market value of the structure, either before the improvement or repair is started or, if the structure has been damaged and is being restored, before the damage occurred. For purposes of this definition "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term shall not include:

**1.** Any project(s) for improvement of a structure to comply with existing health, sanitary or safety code specifications which are solely necessary to assure safe living conditions, or

**2.** Any alterations of a structure listed on the National Register of Historic Places or state inventory of historic places.

The cost used in the substantial improvement determination shall be the cumulative costs of all previous improvements for a specific building or structure occurring during the immediate past 10-year period.

**1612.3 Establishment of Flood Hazard Areas - Amendatory.** To establish flood hazard areas, the City, by the passage and approval of a resolution, shall adopt a flood hazard map and supporting data. The flood hazard map shall include, at a minimum, areas of special flood hazard as currently identified by the Federal Emergency

Management Agency in an engineering report entitled "The Flood Insurance Study for City of Tulsa, Oklahoma," as amended or revised with the accompanying Flood Insurance Rate Map (FIRM) and Flood Boundary and Floodway Map (FBFM) and related supporting data, together with any revisions. The adopted City of Tulsa Regulatory Floodplain Map Atlas and supporting data are hereby adopted by reference and incorporated as part of this section.

**1612.3.1 Design flood elevations - Amendatory.** Where design flood elevations are not included in the flood hazard areas established in Section 1612.3, or where floodways are not designated, the building official is authorized to require the applicant to:

**1.** Obtain and reasonably utilize any design flood elevation and floodway data available from a federal, state, or other source; or

**2.** Determine the design flood elevation and/or floodway in accordance with accepted hydrologic and hydraulic engineering practices used to define special flood hazard areas. Determinations shall be undertaken by an engineer licensed by the State of Oklahoma who shall document that the technical methods used reflect currently accepted engineering practices and meet the guidelines of the Stormwater Drainage Criteria Manual.

**1612.2 Design and construction - Amendatory.** The design and construction of buildings and structures located in flood hazard areas shall be in accordance with Chapter 5 of ASCE 7 and ASCE 24 and Title 11 A, Tulsa Revised Ordinance, Chapter 3. The lowest finished floor elevation together with attendant utility and sanitary facilities shall be at least one (1) foot above the regulatory flood elevation.

**1612.4 Flood hazard documentation - Amendatory.** The following documentation shall be prepared and sealed by a land surveyor or engineer licensed by the State of Oklahoma and submitted to the building official:

**1.** For construction in flood hazard areas:

**1.1.** The elevation of the lowest floor, including the basement, as required by the lowest floor elevation inspection in Section 110.3.3 and for the final inspection in Section 110.3.3.1.

**1.2.** For fully enclosed areas below the design flood elevation where provisions to allow for the automatic entry and exit of floodwaters do not meet the minimum requirements in Section 2.6.2.1 of ASCE 24, construction documents shall include a statement that the design will provide for equalization of hydrostatic flood forces in accordance with Section 2.6.2.2 of ASCE 24.

**1.3.** For dry floodproofed nonresidential buildings, construction documents shall include a statement that the dry floodproofing is designed in accordance with ASCE 24.

**ADDED Table 1704.2**

| Category of Inspection | Required Certification |
|---|---|
| High Strength Steel Bolting and Steel Erection | High Strength Steel Bolting and Steel Erection: (I) ICC Structural Steel and Bolting Special Inspector. (II) AWS/ AISC Certified Structural Steel Inspector. (III) EIT with relevant experience. (IV) PE with relevant experience |
| Steel Welding | (I) ICC Structural Welding SI. (II) AWS Certified Welding Inspector |

| Category of Inspection | Required Certification |
|---|---|
| Nondestructive Testing | ASNT SNT-TC-1A, NDT Level II or III |
| Prestressed Concrete | (I) ICC Prestressed Concrete Special Inspector. (II) PTI Level 1 Unbonded Post-Tension Inspector. (III) ACI Concrete Field Tech 1 Certification (for field testing only). (IV) EIT with relevant experience. (V) PE with relevant experience. |
| Reinforced Concrete Post installed Structural Anchors | (I) ICC Reinforced Concrete Special Inspector. (II) ACI Concrete Construction Special Inspector. (III) ACI Concrete Field Tech I Certification (for field testing only). (IV) EIT with relevant experience. (V) PE with relevant experience |
| Masonry Construction | (I) ICC Structural Masonry Special Inspector. (II) EIT with relevant experience. (III) PE with relevant experience |
| Soils | (I) NICET II. (II) ICC Soils SI. (III) EIT with relevant experience. (IV) PE with relevant experience |
| Driven deep foundation, Cast-in place deep foundations, Helical pile foundations, Excavation | (I) NICETT II (geotechnical or construction, or construction material testing or soils. (II) EIT with relevant experience. (III) PE with relevant experience |
| Sprayed fire-resistant materials, Mastic and intumescent fire-resistance coatings | (I) ICC Spray-applied Fireproofing Special Inspector. (II) UL approved Spray-applied Fireproofing Inspector. (III) EIT with relevant experience. (IV) PE with relevant experience. (V) RA with relevant experience |
| Exterior insulation and finish systems (EIFS) | (I) AWCI EIFS Inspector (II) EIT with relevant experience. (III) PE with relevant experience. (IV) RA with relevant experience |
| Fire-resistant penetrations and joints | (I) UL approved firestop inspector. (II) FM approved firestop inspector. (III) Inspector otherwise approved by the AHJ |
| Testing for smoke control | (I) AABC technical certification. (II) EIT with relevant experience. (III) PE with relevant experience |

Footnotes Table 1704.2:

**(1)** The special inspector shall meet one of the required certifications listed for the applicable category of inspection.

**(2)** Applicants shall comply with one of the following education and experience requirements in addition to the required certifications:

**(I)** Oklahoma Professional Engineer or Oklahoma Registered Architect and a minimum of three months of relevant work experience.

**(II)** Bachelor of Science Degree in Engineering, Architecture, or Physical Science and a minimum of six months of relevant work experience.

**(III)** Two years of verified college or technical school and a minimum of one year of relevant work experience.

**(IV)** High school or equivalent graduate and a minimum of one year of relevant work experience.

**(3)** Oklahoma Professional Engineer or Oklahoma Registered Architect competent in the specific category are exempt from the required certifications listed in this table, but are subject to on-site assessment of competence by the authority having jurisdiction.

**(I)** AA stands for Associate of Arts (degree).

**(II)** AABC stands for Associated Air Balance Council.

**(III)** ACI stands for American Concrete Institute.

**(IV)** ANSI stands for American National Standards Institute.

**(V)** API stands for American Petroleum Institute.

**(VI)** ANST stands for American Society for Nondestructive Testing.

**(VII)** ASTM stands for American Society for Testing and Materials.

**(VIII)** AWCI stands for Association of the Wall and Ceiling Industry.

**(IX)** AWS stands for American Welding Society.

**(X)** BS stands for Bachelor of Science (degree).

**(XI)** CWI stands for Certified Welding Inspector.

**(XII)** EIFS stands for Exterior insulation and finish system.

**(XIII)** FM stands for Factory Mutual Global.

**(XIV)** IAS stands for International Accreditation Service.

**(XV)** IBC stands for International Building Code.

**(XVI)** ICC stands for International Code Council.

**(XVII)** ICC-ES stands for ICC Evaluation Service.

**(XVIII)** NDT stands for Nondestructive testing.

**(XIX)** NICET stands for National Institute for Certification of Engineering Technologists.

**(XX)** PE stands for Professional engineer.

**(XXI)** RDP stands for Registered design professional.

**(XXII)** SI stands for Special inspector.

**(XXIII)** SIA stands for Special inspection agency.

**(XXIV)** UL stands for Underwriters Laboratories.

**(XXV)** EIT stands for Engineer in Training [Source: Added at 38 Ok Reg 2573, eff 9-14-2021].

**1807.2.4 Guards - Added.** Where retaining walls with differences in grade level on either side of the wall in excess of four (4) feet are located closer than two (2) feet to a walk, path, parking lot or driveway on the high side, the retaining walls shall be provided with guards that are constructed in accordance with Section 1013.0 of this code or other approved protective measures.

**1809.4 Depth and width of footings - Amendatory.** The minimum depth of footings below the undisturbed ground surface shall be 12 inches (305 mm). Where applicable, the requirements of Section 1809.5 shall also be satisfied. The minimum width of footings shall be 12 inches (305 mm).

**Exception:** Single story free-standing building meeting all of the following conditions may be permitted without footings:

1. Assigned to Occupancy Category 1, in accordance with Section 1604.5;
2. Light-frame wood or metal construction;
3. Area of 400 square feet (37 square meters) or less;
4. Eave height of 10 feet (3048 mm) or less; and
5. Building height of 15 feet (4575 mm) or less.

Such buildings shall have an approved wooden floor, or shall be placed on a concrete slab having a minimum thickness of 3½ inches (89 mm). Buildings shall be anchored to resist uplift as required by Section 1609.

**1809.5 Frost Protection - Amendatory.** Except where otherwise protected from frost, foundation walls, piers and other permanent supports of buildings and structures shall be protected by one or more of the following methods: extending a minimum of eighteen inches (18") below the finish grade; constructing in accordance with American Society of Civil Engineers (ASCE) Reference Standard Number 32; or erecting on solid rock.

**Exception:** Free-standing buildings meeting all of the following conditions may not be required to be protected:

1. Classified in Occupancy Category I, in accordance with Section 1604.5 of this code;
2. Area of 600 square feet or less for light-frame construction or 400 square feet or less for other than light-frame construction; and
3. Eave height of ten feet (10') or less.

Footings shall not bear on frozen soil unless such frozen condition is of a permanent character.

**1809.8 Plain Concrete Footings - Deleted.** Section 1809.8 of the ICC International Building Code, 2018 Edition is intentionally deleted from this code.

**2702.1.2 Fuel-line piping protection.** Fuel lines supplying a generator set inside a high-rise building shall be separated from areas of the building other than the room the generator is located in, by one of the following methods:

**(A)** A fire-resistant pipe-protection system that has been tested in accordance with UL 1489. The system shall be installed as tested and in accordance with the manufacturer's installation instructions, and shall have a rating of not less than 2 hours. Where the building is protected throughout with an automatic fire sprinkler system installed in accordance with Section 903.3.1.1, the required rating shall be reduced to 1 hour.

**(B)** An assembly that has a fire-resistance rating of not less than 2 hours. Where the building is protected throughout with an automatic sprinkler system installed in accordance with Section 903.3.1.1, the required fire-resistance rating shall be reduced to 1 hour.

**(C)** Other approved methods.

**2703 Lightning Protection Systems.**

**2703.1 General.** Where provided, lightning protection systems shall comply with Sections 2703.2 through 2703.4.

**2703.2 Installation.** Lighting protection systems for all new buildings and additions shall be installed in accordance with one of the following standards:

**(A)** NFPA® 780.

**(B)** UL 96A.

**Exception:** UL 96A shall not be utilized for structures used for the production, handling, or storage of ammunition, explosives, flammable liquids or gases, and other explosive ingredients including dust.

**2703.3 Additions to existing systems.** Where additions are constructed to a building containing a lighting protection system, the existing building's lightning protection system shall be properly interconnected to the new lightning protection system.

**2703.4 Surge protection.** Surge protective devices shall be installed for all normal and emergency electrical systems and all communication systems in accordance with Section 2703.2 and NFPA® 70. [Source: Added at 38 Ok Reg 2573, eff 9-14-2021.]

**2902.4.1 Directional signage - Amendatory.** Directional signage indicating the route to the required public toilet facilities in Group A, B, I, M, and R-1 occupancies shall be posted in a lobby, corridor, aisle, or similar space, such that the sign can be readily seen from the main entrance to the building or tenant space. Only one sign at each main entrance that is intended for public use shall be required.

**Exceptions:**

1. Group A occupancies that are part of an overall group E occupancy need not have directional signage.
2. Private-use Group B occupancies need not have directional signage.

[Source: Added at 38 Ok Reg 2573, eff 9-14-2021.]

**3001.5.1 Oklahoma Department of Labor - Added.** The design, construction, installation, alteration, repair, and maintenance of elevators and conveying systems and their components shall conform to State of Oklahoma Elevator Safety Act, 59 O.S. Section 3020, et seq., and the Elevator Safety Administrative Rules: Title 380, Oklahoma Department of Labor, Chapter 70, Elevator Safety Act Rules.

**3101.1 Scope.** The provisions of this chapter shall govern special building construction including membrane structures, temporary structures, pedestrian walkways and tunnels, automatic vehicular gates, awnings and canopies, marquees, signs, towers, antennas, relocatable buildings, swimming pool enclosures and safety devices, solar energy systems, and intermodal shipping containers.

**3103.1.2 Permit required - Amendatory.** Temporary structures covering an area in excess of 200 square feet, including connecting areas or spaces with a common means of egress or entrance which are used or intended to be used for the gathering together of ten (10) or more persons, shall not be erected, operated or maintained for any purpose without obtaining a permit from the code official.

**Section 3107. Signs - Amendatory.**

**3107.1 Scope - Amendatory.** In addition to the general requirements of this code governing the design and construction of all structures, the provisions of Section 3107 of this code shall control the special structures and construction features pertaining to signs.

**3107.2 General - Added.** Section 3107 of this code shall govern the construction, alteration, repair and maintenance of outdoor signs together with the associated and auxiliary devices related to structural and fire safety. Section 2611 of this code shall govern approved light transmitting plastic interior wall signs. Section 402.16 of this code shall govern approved plastic signs in covered mall buildings.

**3107.3 Definitions - Added.** The following words and terms, for the purposes of this title and as used elsewhere in this code, shall have the meanings ascribed to them as follows:

**Sign:** Sign shall have the same meaning as defined in the City of Tulsa Zoning Code, Title 42, Tulsa Revised Ordinances ("Zoning Code").

**Sign Types:**

**Electrical Sign:** Electrical sign shall mean any sign that includes wiring, fixtures, appurtenances, and provision for connection to an electrical power supply, not including signs illuminated by an external light source.

**Marquee Sign:** Marquee sign shall mean a sign attached to or hung from a marquee, canopy or other covered structure, projecting from and supported by the building and extending beyond the building wall, building line or street lot line.

**3107.4 Zoning Law - Added.** Where more restrictive in respect to location, purpose, size or height of signs, the limitations of Tulsa's Zoning Code, Title 42, Tulsa Revised Ordinances that affect required light and ventilation requirements and occupancy of land shall take precedence over the regulations of this code.

**3107.5 Permits and Construction Documents - Added.** Permits for signs shall be required as specified in Sections 3107.5.1 and 3107.5.2 of this code, except as provided for in Section 3107.5.3 of this code. Construction documents shall be prepared and filed in accordance with Sections 3107.5.4 and 3107.5.5 of this code.

**3107.5.1 New Signs - Added.** A new sign shall not be erected, constructed, altered or maintained except as provided for in this code and until a permit has been issued by the code official.

**3107.5.1.1 Outdoor Advertising Signs - Added.** An application for an outdoor advertising sign for which a State of Oklahoma permit is required under the provisions of 69 O.S. 2001 §§ 1271 et seq., the Oklahoma Highway Code of 1968 Highway Advertising Control Act of 1968 shall have a copy of the state's permit attached.

**3107.5.2 Alterations - Added.** No sign shall be enlarged or relocated unless such sign conforms to the provisions of this Section 3107 of this code applicable to new signs, or until a proper permit has been secured. The changing of movable parts of an approved sign that is designed for such changes, or the repainting or reposting of display matter, shall not be deemed an alteration, provided that the conditions of the original approval and the requirements of this section are not violated.

**3107.5.3 Permit Exemptions - Added.** No permit shall be required for the signs specified in Sections 3107.5.3.1 through 3107.5.3.5 of this code. This exemption shall not be construed to relieve the owner of the sign from responsibility for the sign's erection and maintenance in a safe manner.

**3107.5.3.1 Wall Signs - Added.** No permit shall be required for one sign painted on the surface of a fence or approved building wall, or any non-illuminated wall sign on a building or structure, which is not more than ten (10) square feet in area.

**3107.5.3.2 Sale or Rent - Added.** No permit shall be required for ground signs erected to announce the sale or rent of property, provided that such signs are not more than twenty-five (25) square feet in area.

**3107.5.3.3 Transit Directions - Added.** A permit shall not be required for the erection or maintenance of a ground sign designating the location of a transit line, a railroad station or other public carrier provided that such signs are not more than three (3) square feet in area.

**3107.5.3.4 Street Signs - Added.** No permit shall be required for ground signs erected by a city, state or federal agency for street and traffic direction.

**3107.5.3.5 Projecting Signs - Added.** No permit shall be required for a projecting sign not exceeding two and one-half (2½) square feet of display surface.

**3107.5.4 Construction Documents and Owner's Consent - Added.** Before any permit shall be issued for the erection of a sign, construction documents shall be filed with the code official showing the dimensions, materials and required details of construction, including loads, stresses and anchorage. The applications shall be accompanied by the written consent of the owner or lessee of the premises upon which the sign is to be erected.

**3107.5.5 Identification - Added.** Every sign for which a permit has been issued and which is erected, constructed or maintained, shall be plainly identified by the name of the person, firm, corporation or limited liability company owning, erecting, maintaining or operating such sign. The method and location of this identification shall appear on construction documents filed with the code official.

**3107.5.6 Permit Expiration - Added.** Permits for business or outdoor advertising signs which have not been utilized within six (6) months from the date of issuance shall be null and void. "Business signs" and "outdoor advertising signs" shall have the same meaning as defined in the Zoning Code. The term "utilized" shall mean actual installation of the sign.

**3107.6 Maintenance and Inspection - Added.** Sign maintenance and inspection shall comply with Sections 3107.6.1 through 3107.6.4 of this code.

**3107.6.1 Removal - Added.** The code official is authorized to order the removal of any sign that is not maintained in accordance with the provisions of this section.

**3107.6.2 Maintenance - Added.** All signs for which a permit is required, together with all supports, braces, guys and anchors, shall be kept in repair in accordance with the provisions of Section 3107 of this code and Chapter 1 of this title. Where not galvanized or constructed of approved corrosion-resistant noncombustible materials, signs shall be painted.

**3107.6.3 Housekeeping - Added.** The owner or lessee of every sign shall maintain the immediate premises occupied by the sign in a clean, sanitary and healthful condition.

**3107.6.4 Inspection - Added.** Every sign shall be subject to inspection and approval.

**3107.7 General Requirements - Added.** All signs shall be designed and constructed to comply with the provisions of this code related to materials, loads and stresses, and with the requirements of Sections 3107.7.1 through 3107.7.5 of this code.

**3107.7.1 Wind Load - Added.** All signs shall be designed and constructed to withstand wind pressure as provided for in Section 1609 of this code.

**3107.7.2 Earthquake Load - Added.** Signs designed to withstand wind pressures shall be considered capable of withstanding earthquake loads, except as provided for in Section 1613 of this code.

**3107.7.3 Illumination - Added.** No sign shall be illuminated by other than electrical means, and electrical devices and wiring shall be installed in accordance with the requirements of the National Electrical Code, as adopted by the City of Tulsa. Any open spark or flame shall not be used for display purposes unless specifically approved.

**3107.7.4 Use of Combustibles - Added.** The requirements of Sections 3107.7.4.1 and 3107.7.4.2 of this code shall apply to combustible materials for signs.

**3107.7.4.1 Ornamental Features - Added.** Wood or approved plastic as provided for in Chapter 26 of this code, or other materials of combustible characteristics similar to wood, used for moldings, cappings, nailing blocks, letters and latticing shall comply with Section 3107.8 of this code and shall not be used for other ornamental features of signs, unless approved.

**3107.7.4.2 Internally Illuminated Signs - Added.** Except as provided for in Sections 402.7.3 and 2611.0 of this code, where internally illuminated signs have sign facings of wood or approved combustible plastic, the area of such facing section shall not be more than 120 square feet and the wiring for electrical lighting shall be entirely enclosed in the sign cabinet, with a clearance of not less than two (2) inches from the facing material. The dimensional limitation of 120 square feet shall not apply to sign facing sections made from flame resistant-coated fabric (ordinarily known as "flexible sign face plastic") that weighs less than twenty (20) ounces per square yard and which, when tested in accordance with National Fire Protection Association (NFPA) Standard Reference Number 701, meets the fire propagation performance requirements of both Test 1 and Test 2, or which, when tested in accordance with the approved test method, exhibits an average burn time of two (2) seconds or less and a burning extent of five and ninetenths (5.9) inches (150 mm) or less for ten specimens.

**3107.8 Maximum Height of Ground Signs - Added.** Ground signs may be erected to a height above the ground as permitted by the Zoning Code, when constructed entirely of noncombustible material. If constructed of combustible materials, ground signs shall not be erected more than thirty-five (35) feet in height measured from the highest part of the sign to the ground at any point immediately below the sign. Applications for permits for ground signs over forty (40) feet in height shall include engineering calculations and drawings by a Professional Engineer registered in the State of Oklahoma. Such calculations shall bear the engineer's seal and certification that the design meets the requirements of this code.

**3107.9 Roof Signs - Added.** Roof signs shall be prohibited to the extent provided within the City of Tulsa Zoning Code, Title 42, Tulsa Revised Ordinance.

**3107.10 Wall Signs - Added.** Wall signs shall comply with Sections 3107.10.1 and 3107.10.2 of this code.

**3107.10.1 Materials - Added.** Wall signs which have an area exceeding forty (40) square feet shall be constructed of metal or other approved noncombustible materials, except for nailing rails and as provided for in Section 3107.7.4 of this code.

**3107.11 Projecting Signs - Added.** Projecting signs shall comply with Sections 3107.11.1 through 3107.11.4 of this code.

**3107.11.1 Materials - Added.** Projecting signs shall be constructed entirely of metal or other approved noncombustible material except as provided for in Section 3107.7.4 of this code.

**3107.11.2 Maximum Projection - Added.** A projecting sign shall not extend beyond a vertical plane that is two (2) feet inside the curb line.

**3107.11.3 Clearance - Added.** A vertical clearance of not less than eight (8) feet shall be provided below all parts of projecting signs.

**3107.11.4 Additional Loads - Added.** Projecting sign structures which will be used to support an individual on a ladder or other servicing device, whether or not specifically

designed for the servicing device, shall be capable of supporting the anticipated additional load, but not less than a 100-pound concentrated horizontal load and a 300-pound concentrated vertical load applied at the point of assumed or most eccentric loading. The building component to which the projecting sign is attached shall also be designed to support the additional loads.

**3107.12. Marquee Signs - Added.** Marquee signs shall comply with Sections 3107.12.1 through 3107.12.3 of this code.

**3107.12.1 Materials - Added.** Marquee signs shall be constructed entirely of metal or other approved noncombustible material except as provided for in Section 3107.7.4 of this code.

**3107.12.2 Attachment - Added.** Marquee signs shall be attached to approved marquees that are constructed in accordance with Section 3107.12.2 of this code.

**3107.12.2.1 Marquees - Added.** A marquee is a permanent roofed structure including attached objects or decorations, attached to and supported by the building.

**3107.12.2.1.1 Projection and Clearance - Added.** The horizontal clearance between a marquee and the curb line shall not be less than two (2) feet. A marquee projecting more than two-thirds of the distance from the property line to the curb line shall not be less than ten (10) feet above the ground or pavement below.

**3107.12.3 Dimensions - Added.** Marquee signs shall not project beyond the perimeter of the marquee.

**3107.13 Temporary Signs - Added.** Temporary signs shall comply with Sections 3107.13.1 through 3107.13.4 of this code.

**3107.13.1 Banner and Cloth Signs - Added.** Temporary banner and cloth signs, constructed of combustible material, which are attached to or suspended from a building, shall be constructed in an approved manner and shall be securely supported. Such signs and banners shall be removed as soon as torn or damaged, or not later than the maximum allowable time period as provided in the Tulsa Zoning Code after erection, whichever is the earlier.

**3107.13.2 Maximum Size - Added.** Temporary signs shall be subject to the aggregate square footage display surface area limitations of the zoning district in which they are located, as prescribed in the City of Tulsa Zoning Code, Title 42, Tulsa Revised Ordinances. Temporary signs of combustible construction shall not be more than ten (10) feet in one dimension nor more than five hundred (500) square feet in area.

**3107.13.3 Supports - Added.** Where more than one hundred (100) square feet in area, temporary signs and banners shall be constructed and fastened to supports that are capable of withstanding the design loads listed in Section 1609 of this code.

**3107.13.4 Special Permits - Added.** Temporary signs, which extend across streets or other public spaces shall be subject to special approval of the City Council or other authority having jurisdiction.

**3107.14 Illuminated Signs - Added.** Illuminated signs shall comply with Sections 3107.14.1 through 3107.14.3 of this code.

**3107.14.1 Certificates - Added.** All electrically illuminated signs shall be certified as to electric wiring and devices by the agency having jurisdiction, and all wiring and accessory electrical equipment shall conform to the requirements of the National Electrical Code, as adopted by the City of Tulsa.

**3107.14.2 Additional Permits - Added.** Electrical permits shall be issued for the erection or maintenance of illuminated signs.

**3107.14.3 Re-lettering Signs - Added.** The requirements of Section 3107 of this code shall not apply to the re-lettering of illuminated signs, except where such re-lettering requires a change of wiring or piping of the sign.

**3107.15 Portable Signs - Added.** Portable signs shall conform to all requirements for ground, roof, projecting, flat and temporary signs where such signs are used in a similar capacity. The requirements of this section shall not be construed to require portable signs to have connections to surfaces, tie-downs or foundations where provisions are made by temporary means or configuration of the structure to provide stability for the expected duration of the installation.

**3107.15.1 Electrical - Added.** Portable signs that require electrical service shall have a positive connecting device on the sign. Electrical service lines to the sign shall be protected from damage from all anticipated traffic.

**3107.16 Prohibited Signs and Locations - Added.** The signs, devices and locations described in Sections 3107.16.1 and 3107.16.2 of this code shall be specifically prohibited.

**3107.16.1 Portable Signage - Added.** Vehicles and trailers shall not be used for on- or off-premise signage, primarily as static displays, advertising a product or service, nor utilized as storage, shelter or distribution points for commercial products or services to the public.

**3107.16.2 Power Line Clearance - Added.** No sign, or portion of a sign, shall be located or maintained within ten (10) feet of any high voltage overhead conductor. "High Voltage" shall mean a voltage.in excess of seven hundred fifty (750) volts between conductors, or between any single conductor and the ground. "Overhead conductors" shall mean all bare or insulated conductors installed above the ground except those conductors that are de-energized and grounded or those that are enclosed in iron pipe or other metal covering of equal strength.

**3114 Intermodal Shipping Containers.**

**3114.1 General.** The provisions of Section 3114 and other applicable sections of this code, shall apply to intermodal shipping containers that are repurposed for use as buildings or structures or as a part of buildings or structures.

**Exceptions:**

Intermodal shipping containers previously approved as existing relocatable buildings complying with Chapter 14 of the International Existing Building Code®.

Energy Storage Systems (ESS) located in intermodal shipping containers complying with Chapter 12 of the International Fire Code®.

Intermodal shipping containers that are listed as equipment complying with the standard for equipment, such as air chillers, engine generators, modular data centers, and other similar equipment.

Intermodal shipping containers housing or supporting experimental equipment are exempt from the requirements of Section 3114 provided they comply with all of the following:

**(i)** Such units shall be single stand-alone units supported at grade level and used only for occupancies as specified under Risk Category I in Table 1604.5;

**(ii)** Such units are located a minimum of 8 feet from adjacent structures and are not connected to a fuel gas system or fuel gas utility; and

**(iii)** In hurricane-prone regions and flood hazard areas, such units are designed in accordance with the applicable provisions of Chapter 16.

**3114.2 Construction documents.** The construction documents shall contain information to verify the dimensions and establish the physical properties of the steel components, and wood floor components, of the intermodal shipping container in addition to the information required by Sections 107 and 1603.

**3114.3 Intermodal shipping container information.** Intermodal shipping containers shall bear an existing data plate containing the following information as required by ISO 6346 and verified by an approved agency. A report of the verification process and findings shall be provided to the building owner.

Manufacturer's name or identification number

Date manufactured

Safety approval number

Identification number

Maximum operating gross mass or weight (kg) (lbs.)

Allowable stacking load for 1.8G (kg) (lbs.)

Transverse racking test force (Newtons)

Valid maintenance examination date

Where approved by the building official, the markings and existing data plate are permitted to be removed from the intermodal shipping containers before they are repurposed for use as buildings or structures or as a part of buildings or structures.

**3114.4 Protection against decay and termites.** Wood structural floors of intermodal shipping containers shall be protected from decay and termites in accordance with the applicable provisions of Section 2304.12.1.1.

**3114.5 Under-floor ventilation.** The space between the bottom of the floor joists and the earth under any intermodal shipping container, except spaces occupied by basements with cellars, shall be provided with ventilation in accordance with Section 1202.4.

**3114.6 Roof assemblies.** Intermodal shipping container roof assemblies shall comply with the applicable requirements of Chapter 15. Exception: Single-unit stand-alone intermodal shipping containers not attached to, or stacked vertically over, other intermodal shipping containers, buildings or structures.

**3114.7 Joints and voids.** Joints and voids that create concealed spaces between intermodal shipping containers, that are connected or stacked, at fire-resistance-rated walls, floor or floor/ceiling assemblies and roofs or roof/ceiling assemblies shall be protected by an approved fire-resistant joint system in accordance with Section 715.

**3114.8 Structural.** Intermodal shipping containers which conform to ISO 1496-1 that are repurposed for use as buildings or structures, or as a part of buildings or structures, shall be designed in accordance with Chapter 16 and this section.

**3114.8.1 Foundations.** Intermodal shipping containers repurposed for use as a permanent building or structure shall be supported on foundations or other supporting structures designed and constructed in accordance with Chapters 16 through 23 of this code.

**3114.8.1.1 Anchorage.** Intermodal shipping containers shall be anchored to foundations or other supporting structures as necessary to provide a continuous load path for all applicable design and environmental loads in accordance with Chapter 16.

**3114.8.2 Welds.** All new welds and connections shall be equal to or greater than the original connections.

**3114.8.3 Structural design.** The structural design for the intermodal shipping containers repurposed for use as a building or structure, or as part of a building or structure, shall comply with Section 3114.8.4 or 3114.8.5.

**3114.8.4 Detailed design procedure.** A structural analysis meeting the requirements of this section shall be provided to the building official to demonstrate the structural adequacy of the intermodal shipping containers.

**Exception:** Intermodal shipping containers designed in accordance with Section 3114.8.5.

**3114.8.4.1 Material properties.** Structural material properties for existing intermodal shipping container steel components shall be established by material testing where the steel grade and composition cannot be identified by the manufacturer's designation.

**3114.8.4.2 Seismic design parameters.** The seismic force-resisting system shall be designed and detailed in accordance with one of the following:

Where all or portions of the corrugated steel container sides are considered to be the seismic force-resisting system, design and detailing shall be in accordance with the ASCE 7 Table 12.2-1 requirements for light-frame bearing-wall systems with shear panels of all other materials,

Where all or portions of the corrugated steel container sides are retained, but are not considered to be the seismic force-resisting system, an independent seismic force resisting system shall be selected, designed and detailed in accordance with ASCE 7 Table 12.2-1, or

Where all or portions of the corrugated steel container sides are retained and integrated into a seismic force-resisting system other than as permitted by Section 3114.8.2 Item 1, seismic design parameters shall be developed from testing and analysis in accordance with Section 104.11 and ASCE 7 Section 12.2.1.1 or 12.2.1.2.

**3114.8.4.3 Allowable shear value.** The allowable shear values for the intermodal shipping container corrugated steel sheet panel side walls and end walls shall be demonstrated by testing and analysis in accordance with Section 104.11. Where penetrations are made in the side walls or end walls designated as part of the lateral force-resisting system, the penetrations shall be substantiated by rational analysis.

**3114.8.5 Simplified structural design of single-unit containers.** Single-unit intermodal shipping containers conforming to the limitations of Section 3114.8.5.1 shall be permitted to be designed in accordance with the simplified structural design provisions of this section.

**3114.8.5.1 Limitations.** Use of Section 3114.8.5 is subject to all of the following limitations:

The intermodal shipping container shall be a single-unit, stand-alone unit supported on a foundation and shall not be in contact with or supporting any other shipping container or other structure.

The intermodal shipping container top and bottom rails, corner castings, and columns or any portion thereof shall not be notched, cut, or removed in any manner.

The intermodal shipping container shall be erected in a level and horizontal position with the floor located at the bottom.

The intermodal shipping container shall be located in Seismic Design Category A, B, C or D. (22) Section 3.

**3114.8.5.2. Simplified structural design.** Where permitted by Section 3114.8.5.1, single-unit, stand-alone intermodal shipping containers shall be designed using the following assumptions for the corrugated steel shear walls:

The appropriate detailing requirements contained in Chapters 16 through 23,

Response modification coefficient, R equals 2,

Over strength factor, $^{*}$ equals 2.5,

Deflection amplification factor, C equals 2, and

Limits on structural height, h equals 9.5 feet (2900 mm).

**3114.8.5.3 Allowable shear.** The allowable shear for the corrugated steel side walls (longitudinal) and end walls (transverse) for wind design and for seismic design using the coefficients of Section 3114.8.5.2 shall be in accordance with Table 3114.8.5.3 provided that all of the following conditions are met:

The total linear length of all openings in any individual side walls or end walls shall be limited to not more than 50 percent of the length of that side wall or end wall.

Any full height wall length, or portion thereof, less than 4 feet (305 mm) long shall not be considered as a portion of the lateral force-resisting system.

All side walls or end walls used as part of the lateral force-resisting system shall have an existing or new boundary element on all sides to form a continuous load path, or paths, with adequate strength and stiffness to transfer all forces from the point of application to the final point of resistance.

Where openings are made in container walls, floors, or roofs for doors, windows and other openings:

**(i)** The openings shall be framed with steel elements that are designed in accordance with Chapter 16 and Chapter 22.

**(ii)** The cross section and material grade of any new steel element shall be equal to or greater than the steel element removed.

A maximum of one penetration not greater than a 6-inch (152 mm) diameter hose for conduits, pipes, tubes or vents, or not greater than 16 square inches (10 322 $mm^2$) for electrical boxes, is permitted for each individual 8-foot length (2438 mm) lateral force resisting wall. Penetrations located in walls that are not part of the wall lateral force resisting system shall not be limited in size or quantity. Existing intermodal shipping container vents shall not be considered a penetration.

End wall door or doors designated as part of the lateral force-resisting system shall be welded closed.

**ADDED Table 3114.8.5.3**

| Container Designation[b] | Container Dimension (Nominal Length) | Container Dimension (Nominal Height) | Allowable Side Wall Shear Values (PLF)[ac] | Allowable End Wall Shear Values (PLF)[ac] |
|---|---|---|---|---|
| 1EEE | 45 feet (13.7 m) | 9.5 feet (2896 mm) | (PLF) of 75 | (PLF) of 843 |
| 1EE | 45 feet (13.7 m) | 9.5 feet (2896 mm) | (PLF) of 75 | (PLF) of 843 |
| 1AAA | 40 feet (12.2 m) | 9.5 feet (2896 mm) | (PLF) of 84 | (PLF) of 843 |
| 1AA | 40 feet (12.2 m) | 8.5 feet (2591 mm) | (PLF) of 84 | (PLF) of 843 |
| 1A | 40 feet (12.2 m) | 8.0 feet (2438 mm) | (PLF) of 84 | (PLF) of 843 |
| 1AX | 40 feet (12.2 m) | less than 8.0 feet (2438 mm) | (PLF) of 84 | (PLF) of 843 |
| 1BBB | 30 feet (9.1 m) | 9.5 feet (2896 mm) | (PLF) of 112 | (PLF) of 843 |
| 1BB | 30 feet (9.1 m) | 8.5 feet (2591 mm) | (PLF) of 112 | (PLF) of 843 |
| 1B | 30 feet (9.1 m) | 8.0 feet (2438 mm) | (PLF) of 112 | (PLF) of 843 |
| 1BX | 30 feet (9.1 m) | less than 8.0 feet (2438 mm) | (PLF) of 112 | (PLF) of 843 |
| 1CC | 20 feet (6.1 m) | 8.5 feet (2591 mm) | (PLF) of 168 | (PLF) of 843 |
| 1CX | 20 feet (6.1 m) | less than 8.0 feet (2438 mm) | (PLF) of 168 | (PLF) of 843 |
| 1D | 10 feet (3.0 m) | 8.0 feet (2438 mm) | (PLF) of 337 | (PLF) of 843 |
| 1DX | 10 feet (3.0 m) | less than 8.0 feet (2438 mm) | (PLF) of 337 | (PLF) of 843 |

Added Footnotes:

1. The allowable shear for the side walls and end walls of the intermodal shipping containers are derived from ISO 1496-1 and reduced by a factor of safety of 5.
2. Container designation type is derived from ISO 668.
3. Limitations of Section 3114.8.5.1 shall apply. [Source: Added at 38 Ok Reg 2573, eff 9-14-2021.]

**3201.3 Other Laws - Amendatory.** The provisions of this chapter shall not be construed to permit the violation of other laws or ordinances regulating the use and occupancy of public property or to prevent the holders of public right-of-way to grant special permission for encroachments in their rights-of-way greater than those permitted in Section 3202.

**Chapter 35 Referenced Standards - Amendatory.** The International Building Code, 2018 Edition Chapter 35, Referenced Standards, are amended to include the referenced standard of the American Society of Mechanical Engineers (ASME), the Federal Emergency Management Agency (FEMA) and ICC-500 as follows:

| ASME | American Society of Mechanical Engineers<br>3 Park Avenue<br>New York, NY 10016 | |

**Appendix G - Added.** The following appendix of the ICC International Building Code, 2018 Edition is specifically referred to, adopted and made a part of this code, as if fully set out in this chapter, with the amendments thereto:

**APPENDIX G FLOOD-RESISTANT CONSTRUCTION**

**Appendix G - Amendatory.** The following sections of Appendix G of the ICC International Building Code, 2018 Edition, entitled Flood-Resistant Construction, are amended to read as follows:

**G102.2 Establishment of Flood Hazard Areas - Amendatory.** Flood hazard areas shall be as established in Section 1612.3 of this code.

**G103.3 Determination of Design Flood Elevations - Amendatory.** If design flood elevations are not specified, the code official is authorized to require the applicant to:

**1.** Obtain, review and reasonably utilize data available from federal, state or other sources, or

**2.** Determine the design flood elevation in accordance with accepted hydrologic and hydraulic engineering techniques. Such analyses shall be performed and sealed by a Professional Engineer registered in the State of Oklahoma. Studies, analyses and computations shall be submitted in sufficient detail to allow review and approval by the code official. The accuracy of data submitted for such determination shall be the responsibility of the applicant.

**G103.4 Activities in Riverine Flood Hazard Areas - Amendatory.** In riverine flood hazard areas where design flood elevations are specified but floodways have not been designated, the code official shall not permit any new construction, substantial improvement or other development, including fill, unless the applicant submits an engineering analysis prepared and sealed by an engineer licensed by the State of Oklahoma, demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the design flood elevation as prescribed by applicable City ordinances.

**G103.5 Floodway encroachment - Amendatory.** Prior to issuing a permit for any floodway encroachment, including fill, new construction, substantial improvements and other development or land-disturbing activity, the building official shall require submission of a certification, prepared by an engineer licensed by the State of Oklahoma, along with supporting technical data, demonstrating that such development will not cause any increase of the base flood level.

**G103.5.1 Floodway revisions - Amendatory.** A floodway encroachment that increases the level of the base flood is authorized if the applicant has applied for a conditional Flood Insurance Rate Map (FIRM) revision and has received approval of the Federal Emergency Management Agency (FEMA). The conditional map revision shall be approved prior to issuing a permit for any floodway encroachment.

**G103.6.1 Engineering analysis - Amendatory.** The building official shall require submission of an engineering analysis, prepared by an engineer licensed by the State of Oklahoma, demonstrating that the flood-carrying capacity of the altered or relocated portion of the watercourse will not be decreased. Such watercourses shall be maintained in a manner that preserves the channel's flood-carrying capacity.

**G104.2 Application for Permit - Amendatory.** The applicant shall file an application in writing on a form furnished by the code official. Such application shall:

**1.** Identify and describe the development to be covered by the permit;

**2.** Describe the land on which the proposed development is to be conducted by legal description, street address or similar description that shall readily identify and definitely locate the site;

**3.** Include a site plan showing the delineation of flood hazard areas, floodway boundaries, flood zones, design flood elevations, existing and proposed ground elevations, property boundaries, existing and proposed finished floor elevations, proposed fill and excavation and drainage patterns and facilities;

**4.** Include in subdivision proposals and other proposed developments with more than 50 lots or larger than 5 acres, base flood elevation data in accordance with Section 1612.3.1 if such data are not identified for the flood hazard areas established in Section G102.2;

**5.** Indicate the use and occupancy for which the proposed development is intended;

**6.** Be accompanied by construction documents, grading and filling plans, drainage and storm plans and other information deemed appropriate by the code official;

**7.** State the valuation of the proposed work; and

**8.** Be signed by the applicant or the applicant's authorized agent.

**G401.1 Development in floodways - Amendatory.** Development or land-disturbing activity shall not be authorized in the floodway unless it has been demonstrated through hydrologic and hydraulic analyses performed in accordance with standard engineering practice, and prepared by an engineer licensed by the State of Oklahoma, that the proposed encroachment will not result in any increase in the base flood level.

**G501.1 Elevation - Amendatory.** All new and replacement manufactured homes to be placed or substantially improved in a flood hazard area shall be elevated such that the lowest floor of the manufactured home is elevated to one (1) foot or greater above the design flood elevation. A land surveyor or engineer licensed by the State of Oklahoma shall submit an Elevation Certificate to the Development Services Division of the Planning and Development Department of the City of Tulsa or other department, division or section of the City of Tulsa authorized and directed to enforce the provisions of this code that the elevation requirement has been met.

**Exception:** Manufactured Homes located in a licensed Mobile Home Park must be elevated to the level determined in the permitting process.

**G501.4 Protection of mechanical equipment and outside appliances - Amendatory.**

Mechanical equipment and outside appliances shall be elevated to one (1) foot or greater above the design flood elevation.

**G1001.1 Utility and miscellaneous Group U - Amendatory.** Utility and miscellaneous Group U includes buildings that are accessory in character and miscellaneous structures not classified in any specific occupancy in this code, including, but not limited to, agricultural buildings, aircraft hangars (accessory to a one- or two-family residence), barns, carports, fences more than 6 feet (1829 mm) high, grain silos (accessory to a residential occupancy), greenhouses, livestock shelters, detached private garages, retaining walls, sheds, stables and towers.

**G1001.4 Enclosures below design flood elevation - Amendatory.** Fully enclosed areas below the design flood elevation shall be constructed in accordance with ASCE 24 and shall be floodproofed.

**G1001.6 Protection of mechanical, plumbing and electrical systems - Amendatory.**

Mechanical, plumbing and electrical systems, including plumbing fixtures, shall be elevated to one (1) foot or greater above the design flood elevation.

*(Ord. No. 23590, § 1, 11-2-2016; Ord. No. 24829, § 1, 5-25-2022)*

# CHAPTER 2. ICC INTERNATIONAL RESIDENTIAL CODE FOR ONE- AND TWO-FAMILY DWELLINGS, 2018 EDITION, ADOPTED*

Section 200. Adoption of the ICC International Residential Code for One- and Two-Family Dwellings, 2018 Edition and as amended hereinafter.
Section 201. Amendments to the International Residential Code for One- and Two-Family Dwellings, 2018 Edition.
Section 202. Protection of existing rights and remedies.
Section 203. Violation penalties—Amendatory.

## Section 200. Adoption of the ICC International Residential Code for One- and Two-Family Dwellings, 2018 Edition and as amended hereinafter.

A certain document, one (1) copy of which is on file in the Office of the City Clerk, being marked and designated as the *International Residential Code for One- and Two-Family Dwellings*, 2018 Edition, as published by the International Code Council (ICC) and amended or revised as stated in Title 748 Uniform Building Code Commission—Chapter 20, is hereby adopted as a part of the Building Code of the City of Tulsa, Oklahoma, for regulating the design, construction, quality of materials, erection, installation, alteration, repair, location, relocation, replacement, addition to, or use of one- and two-family dwellings and townhouses not more than three (3) stories in height with separate means of egress in the City of Tulsa. Consistent with the adoption of this *International Residential Code*, 2018 Edition, there is hereby provided for the related issuance of permits and collection of fees. Each and all of the terms, conditions, regulations, and provisions of the *International Residential Code*, 2018 Edition, published by the ICC, as supplemented and amended, on file in the Office of the City Clerk of the City of Tulsa are hereby referred to, adopted and made a part of the Tulsa Revised Ordinances, as if fully set out in this chapter, with its amendments, as prescribed in Section 201 of this chapter and, as used in this Chapter 2, may be referred to as the "code."

*(Ord. No. 24935, § 1, 10-26-2022)*

## Section 201. Amendments to the International Residential Code for One- and Two-Family Dwellings, 2018 Edition.

The following provisions of the *International Residential Code for One- and Two-Family Dwellings*, 2018 Edition, are hereby added or amended to read as follows:

**R101.1 Title - Amendatory.** These provisions shall be known and may be cited as the Residential Code for One- and Two-Family Dwellings of the City of Tulsa" or as the "Tulsa Residential Building Code."

**R103.1 Enforcement agency - Amendatory.** The term "Department of Building Safety," as used within the *International Residential Code for One- and Two-Family Dwellings*, 2018 Edition shall mean the Planning and Development Department Development Services Division of the City of Tulsa or other department, division or section of the City of Tulsa authorized and directed to enforce the provisions of this code.

---

***Editor's note—**Ord. No. 24935, § 1, adopted October 26, 2022, amended Chapter 2 in its entirety to read as herein set out. Former Chapter 2, §§ 200—203, pertained to ICC International Residential Code for One- and Two-Family Dwellings, 2015 Edition, Adopted, and derived from Ord. No. 23589, § 1, 11-30-2016.

**R103.2 Appointment - Amendatory.** The "building official" or "code official," as used in this chapter and *International Residential Code for One- and Two-Family Dwellings*, 2018 Edition, as adopted by the City of Tulsa, shall be the official in charge of the enforcement of this code as appointed or otherwise designated by the Mayor.

**R103.4 Conflict of Interest Prohibited - Added.** Code officials shall ascribe to and be guided in professional conduct as City of Tulsa representatives as provided in Title 12, Chapter 6 "Ethics Code," Tulsa Revised Ordinances.

**R105.1.1 By Whom Application is Made - Added.** The application for a permit shall be made by the owner or lessee of the building or structure, or the agent of either or by the licensed engineer or architect employed in connection with the proposed work. If an application is made by a person other than the owner in fee, it shall be accompanied by an affidavit of the owner or the qualified applicant or a signed statement of the qualified applicant witnessed by the building official or designee informing that the proposed work is authorized by the owner in fee and that the applicant is authorized to make such application. The full names and addresses of the owner, lessee, applicant, and the responsible officers, if the owner or lessee is not a natural person, shall be stated on the application. The owner of the building or structure shall at all times retain ownership rights and authority for use and control of such application and any related subsequent permits issued pursuant to this code.

**R105.1.2 Zoning Clearance Required - Added.** The code official shall not issue a building permit for any building or other structure until and unless the code official is furnished a Zoning Clearance Permit issued by the zoning official stating that the use or occupancy of such building or structure complies with, or, upon completion, will comply with applicable zoning ordinances of the City of Tulsa.

**R105.1.3 Fire Sprinkler Permit - Added.** A permit shall be obtained before installing, altering or removing any portion of an automatic fire sprinkler system. The code official shall not issue a fire sprinkler permit for the installation of an automatic sprinkler system until the person, firm, corporation, or Limited Liability Company or other entity installing the same shall have on file with the City of Tulsa a surety bond in the amount of Two Thousand Five Hundred Dollars ($2,500.00). Such bond shall be on a form satisfactory to the City, guaranteeing payment of all obligations and guaranteeing installation in accordance with the provisions of this code. No person, firm, corporation, limited liability company or other entity shall install fire sprinkler systems unless licensed as provided in 59 O.S. 2001, § 1800.1, et seq., as amended, and related rules and regulations.

**R105.3 Application for permit - Amendatory.** To obtain a building permit, the applicant shall first file an application therefore in writing on a form furnished by the City of Tulsa for that purpose.

Such application shall:

1. Identify and describe the work to be covered by the permit for which application is made.
2. Describe the land on which the proposed work is to be done by legal description, street address or similar description that will readily identify and definitely locate the proposed building or work.
3. Indicate the use and occupancy for which the proposed work is intended.

**4.** Be accompanied by construction documents and other information as required in Section R106.1.

**5.** State the valuation of the proposed work.

**6.** Be signed by the applicant or the applicant's authorized agent.

**7.** Give such other data and information as required by the building official.

**R105.3.(a) License - Added.** All Electrical permits and required licensing shall be administered as described in Title 52, Tulsa Revised Ordinances. All Mechanical permits and required licensing shall be administered as described in Title 59, Tulsa Revised Ordinances. All Plumbing and required licensing shall be administered as described in Title 56, Tulsa Revised Ordinances.

**Exception:** Any homeowner may perform water supply and drainage plumbing work only, on the homeowner-occupied residence and property, provided all permits required pursuant to this code are obtained, without requiring the homeowner to possess a plumbing license.

**R105.3.1.1 Determination of substantially improved or substantially damaged existing buildings in flood hazard areas - Amendatory.** For applications for reconstruction, rehabilitation, addition, alteration, repair or other improvement of existing buildings or structures located in a flood hazard area as established by Table 301.2(1), the building official shall examine or cause to be examined the construction documents and shall make a determination with regard to the value of the proposed work. For buildings that have sustained damage of any origin, the value of the proposed work shall include the cost to repair the building or structure to its pre-damaged condition. If the building official finds that the value of the proposed work equals or exceeds fifty (50) percent of the market value of the building or structure before the damage has occurred or the improvement is started, the proposed work is a substantial improvement or restoration of substantial damage regardless of whether or not the proposed work affects the external dimensions of the building or structure and the building official shall require existing portions of the entire building or structure to comply with the requirements of Section R322.

For the purpose of this determination, a substantial improvement shall mean any repair, reconstruction, rehabilitation, addition or improvement of a building or structure, the cost of which equals or exceeds fifty (50) percent of the market value of the building or structure before the improvement or repair is started. Where the building or structure has sustained substantial damage, repairs necessary to restore the building or structure to its pre-damaged condition shall be considered substantial improvements regardless of the actual repair work performed. The cost used in the substantial improvement determination shall be the cumulative costs of all previous improvements for a specific building or structure occurring during the immediate past 10-year period. The term shall not include either of the following:

**1.** Improvements to a building or structure that are required to correct existing health, sanitary or safety code violations identified by the building official and that are the minimum necessary to ensure safe living conditions.

**2.** Any alteration of a historic building or structure, provided that the alteration will not preclude the continued designation as a historic building or structure. For the purposes of this exclusion, a historic building shall be any of the following:

**2.1** Listed or preliminarily determined to be eligible for listing in the National Register of Historic Places or State Inventory of Historic Places.

**2.2** Determined by the Secretary of the U.S. Department of Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined to qualify as an historic district.

**2.3** Designated as historic under a state or local historic preservation program that is approved by the Department of Interior.

**R105.3.3 Payment of Fees - Added.** Upon receipt of an application for a building permit, an application fee shall be paid. Upon approval the applicant shall then be notified the permit is ready and advised of what remaining fees are due. In order for the permit to be valid, it shall have been paid in full and posted at the job site prior to beginning construction. Payment for permits is due upon notification to applicant that the permit has been approved and is ready for issuance. Any permit not paid within thirty (30) days after notification may be deemed void by the code official and the application fee shall then be forfeited. An amendment to a permit shall not be released until the additional fee, if any, has been paid.

**R105.7 Placement of Permit - Amendatory.** A copy of the building permit shall be posted on the site of operations, visible from the street, and open to public inspection during the entire time of execution of the work and until the completion of the same.

**R106.2 Site plan or plot plan - Amendatory.** The construction documents submitted with the application for permit shall be accompanied by a site plan showing to scale the size and location of new construction and existing structures on the site; distances between structures and lot lines; property boundaries; distance to center of street(s); established grades and proposed finished grades; easements; rights-of-way; utilities; and as applicable, flood hazard areas and limits, floodways, design flood elevations and finished floor elevations; in accordance with an accurate boundary line survey. In the case of demolition, the site plan shall show construction to be demolished and the location and size of existing structures and construction that are to remain on the site or plot. The building official is authorized to waive or modify the requirement for a site plan where the application for permit is for alteration, repair, or demolition or where otherwise warranted.

**R108.1.1 Accounts - Added.** Every person or entity shall be issued an account number at the time of an initial permit application as established by Title 49, Tulsa Revised Ordinances.

**R108.2 Schedule of Permit Fees - Amendatory.** On buildings, structures, electrical, gas, mechanical and plumbing systems or alterations requiring a permit, a fee for each permit shall be paid as required, in accordance with the schedule as established by Title 49, Tulsa Revised Ordinances.

**R109.1.3 Floodplain Inspections, Finished Floor Elevation and Flood Vents - Amendatory.** When a minimum finished floor elevation is specified in a permit for structures located in a flood hazard area or areas prone to flooding, as established by the current City of Tulsa Regulatory Floodplain Map Atlas, no further vertical construction shall be performed after construction of the slab or floor until an elevation certificate, verifying the lowest floor elevation, and the size and location of any required flood vents, has been received and approved by the code official. The elevation certificate shall be prepared by a land surveyor or engineer licensed by the State of Oklahoma, using an appropriate form provided by the code official.

**R109.1.3.1 Final Floodplain Elevation Certificate - Added.** Prior to the final inspection, a final elevation certificate shall be required for those structures located in flood hazard areas or areas prone to flooding, as established by Table R301.2(1) of this code. The certificate, as approved by the code official, shall confirm the finished floor elevation, the size and location of flood vents, and shall verify the lowest elevation of mechanical, electrical and utility equipment. The certificate shall be prepared by a land surveyor or engineer licensed by the State of Oklahoma and shall be provided to the code official for approval. A Certificate of Occupancy shall not be issued unless the final elevation certificate is approved by the code official.

**R109.1.5.2 Placement of Erosion Control Inspection (PEC) - Added.** After issuance of a permit for work that involves disturbance of earth, and before any other earthwork begins, the permit applicant or the applicant's authorized agent shall (1) identify and mark property lines, easements and floodplains, (2) implement erosion control in accordance with the approved plan and/or Storm Water Pollution Prevention Plan, and (3) request a Placement of Erosion Control Inspection (PEC). No other work may be performed until the building official authorizes further construction activity. All construction including development, excavation, grading, regrading, paving, landfilling, berming, and diking of land shall be conducted so as to minimize erosion and prevent the discharge of pollutants (including, but not limited to rock, sand, and soil) into the municipal storm sewer system or onto adjacent occupied property. Persons conducting construction shall implement and maintain acceptable structural and/or nonstructural barriers for controlling erosion. Failure to install and maintain adequate erosion control may result in issuance of a stop work order on all trades by the building official.

**R109.1.6 Final Inspection - Amendatory.** Final inspection shall be made after the permitted work is complete and prior to occupancy. It shall be unlawful and an offense for any person, firm, corporation, or limited liability company, whether as owner, lessee, sublessee, or occupant, to use or occupy any structure regulated by this code or part thereof, or cause same to be done, until all required final inspections on all open permits have been made, except as authorized by the IRC 2018, Section R110.4.

**R109.4 Approval Required - Amendatory.** Work shall not be done beyond the point indicated in each successive inspection without first obtaining the approval of the code official. The code official upon notification shall make the requested inspections and shall either indicate the portion of the construction that is satisfactory as completed, or shall notify the permit holder or an agent of the permit holder wherein the same fails to comply with this code. Any portions that do not comply shall be corrected and such portion shall not be covered or concealed until authorized by the code official. Work that is covered or concealed, or a residence that is occupied without approval of the code official shall be in violation of this code and be penalized by the imposition of a civil fine in accordance with Title 49, Tulsa Revised Ordinances for each occurrence and may result in a hearing before the Board of Appeals as provided in Title 51, Chapter 1, Tulsa Revised Ordinances. The assessment or payment of this penalty shall not relieve any person, firm, corporation, or limited liability company from fully complying with all the requirements of this code nor shall such payment exempt the person, firm, corporation, or limited liability company or other entity from further penalty provided by law.

**SECTION R112 BOARD OF APPEALS**

**R112.1 General - Amendatory.** Appeals of orders, decisions or determinations made by the code official relative to the application and interpretation of this code, shall be made to the Board of Appeals as provided in Title 51, Chapter 1, Tulsa Revised Ordinances.

**R112.3 Qualifications - Amendatory.** The Board of Appeals shall consist of members who are qualified by experience and training to pass on matters pertaining to building construction. The membership of the Board shall be as established in Title 51, Chapter 1, Tulsa Revised Ordinances.

**R113.4 Violation Penalties - Amendatory.** It shall be unlawful and a misdemeanor offense for any person, firm, corporation, limited liability company or other entity to violate any of the provisions of this code, fail to comply with any of the requirements thereof, or to erect, construct, alter, repair or change the occupancy of any building or structure in violation of an approved plan or directive of the building official or of a permit or certificate issued under the provisions of this code. Any person, firm, corporation, limited liability company or other entity convicted of a violation of this code shall be guilty of a misdemeanor offense and shall be One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees, and assessments, punished by a fine of not more than or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day, or portion thereof, during which a violation is committed, or continued, shall be deemed a separate offense.

**CHAPTER 2 DEFINITIONS**

**SECTION R202 DEFINITIONS - Amendatory.** Definitions amended, deleted or added.

**BUILDING DRAIN - Amendatory.** That part of the lowest piping of a drainage system that receives the discharge from soil, waste, and other drainage pipes inside the building or structure and that extends 5 feet (1524 mm) in developed length of pipe beyond the exterior walls of the building and conveys the drainage to the building sewer.

**FLOOD HAZARD AREA - Added.** For all buildings or structures located inside the corporate limits of the City of Tulsa, the flood hazard area shall be as designated on the adopted City of Tulsa Regulatory Floodplain Map Atlas and the currently effective Flood Insurance Rate Maps (FIRM) established by the most current Tulsa Revised Ordinances Title 11-A incorporating the areas of special flood hazard.

**FLOODWAY - Added.** The channel of the river, creek or other watercourse and the adjacent land areas that must be reserved in order to discharge a base flood without cumulatively increasing the water surface elevation as prescribed by applicable City ordinances.

**[RE] HIGH-EFFICACY LAMPS - Amendatory.** Compact fluorescent lamps, light emitting diode (L.E.D.) type lamps, T-8 or smaller diameter linear fluorescent lamps, or lamps with a minimum efficacy of:

**1.** 60 lumens per watt for lamps over 40 watts;

**2.** 50 lumens per watt for lamps over 15 watts to 40 watts; and

**3.** 40 lumens per watt for lamps 15 watts or less.

**[RE] INSULATED SHEATHING - Added.** An insulating board having a thermal resistance of not less than R-2 of the core material.

**NATIONALLY RECOGNIZED TESTING LABORATORY - Added.** A testing facility given this designation from the United States Occupational Safety and Health Administration (OSHA) that provides product safety testing and certification services to manufacturers.

**[RB] ROOF RECOVER - Amendatory.** The process of installing an additional roof covering over a prepared existing roof covering without removing the existing roof covering.

**SAFE ROOM - Added.** A building or structure or portions thereof, constructed in accordance with ICC/NSSA Standard for the design and construction of Storm Shelters®, (ICC 500®), and constructed to provide near-absolute protection for its occupants from severe wind storm events such as tornados or hurricanes.

1. **Community safe room.** A safe room designed and constructed in accordance with the Federal Emergency Management Agency (FEMA) document P-361 entitled "Design and Construction Guidance for Community Safe Rooms® (FEMA P-361®), intended to provide life-safety protection for more than 16 persons.
2. **Other Safe Room.** A safe room designed and constructed in accordance with FEMA P-361® "Design and Construction Guidance for Community Safe Rooms" or FEMA P-320® entitled "Taking Shelter from the Storm: Building a Safe Room for your Home or Small Business®," located in a residence or non-residential building or structure, intended to provide life-safety protection for 16 persons or less.

**[RE] SKYLIGHT - Deleted.**

**[RE] SLEEPING UNIT - Deleted.**

**STORM SHELTER - Added.** A building, structure, or portions thereof, constructed in accordance with ICC 500® and designated for use during a severe wind storm event such as a hurricane or tornado.

1. **Community storm shelter.** A storm shelter not defined as a "Residential storm shelter."
2. **Residential storm shelter.** A storm shelter serving occupants of dwelling units and having an occupant load not exceeding 16 persons.

**SUBSTANTIAL IMPROVEMENT - Added.** See Section R105.3.1.1.

**[RB] SUNROOM - Amendatory.** A one-story structure attached to a dwelling with a glazing area in excess of 40 percent of the gross area of the structure's exterior walls and roof.

**[RB] THERMAL ISOLATION - Amendatory.** Physical and space conditioning separation from conditioned space(s) consisting of existing or new walls, doors, or windows. The conditioned space(s) shall be controlled as separate zones for heating and cooling or conditioned by separate equipment.

**[RE] U-FACTOR, THERMAL TRANSMITTANCE - Amendatory.** The coefficient of heat transmission (air to air) through a building envelope component or assembly, equal to the time rate of heat flow per unit area and unit temperature difference between the warm side and cool side air films (BTU/h x square feet x Fahrenheit).

**VENTILATION - Amendatory.** The natural or mechanical process of supplying conditioned or unconditioned air to, or removing such air from, any space.

**WHOLE-HOUSE MECHANICAL VENTILATION SYSTEM - Amendatory.** An exhaust system, supply system or combination thereof that is designed to mechanically exchange indoor air for outdoor air where operating continuously or through a programmed intermittent schedule to satisfy the whole-house ventilation rate.

## CHAPTER 3 BUILDING PLANNING

| *GROUNDSNOW LOAD* | *WIND DESIGN* | | *SEISMIC DESIGN CATEGORY* | *SUBJECT TO DAMAGE FROM* | | | *WINTER DESIGN TEMP* | *ICE BARRIER UNDER-LAYMENT REQUIRED* | *FLOOD HAZARDS* | *AIR FREEZING INDEX* | *MEAN ANNUAL TEMP* |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | *Speed (mph)* | *Topographic effects* | | *Weathering* | *Frostline Depth* | *Termite* | | | | | |
| 10 PSF | 115 | Yes | A | MODE RATE | 18" | YES | 12°F | No | See note a. | 442 | 60.3 |

[a.] Flood hazard areas within the corporate limits of the City of Tulsa shall include, at a minimum, special flood hazard areas as identified by the Federal Emergency Management Agency (FEMA) in the current effective Flood Insurance Studies for the City of Tulsa, as amended or revised with the accompanying Flood Insurance Rate Maps (FIRM) and related supporting data, together with any amendments or revisions; including the City of Tulsa Regulatory Floodplain Map Atlas and related supporting data; established by the most current Tulsa Revised Ordinances Title 11-A incorporating the areas of special flood hazard identified by FEMA in the scientific and engineering report entitled "Flood Insurance Study for Tulsa County, Oklahoma and Incorporated Areas" dated September 30, 2016; "Flood Insurance Study for Osage County, Oklahoma and Incorporated Areas" dated December 17, 2013; "Flood Insurance Study for Rogers County, Oklahoma and Incorporated Areas" dated September 30, 2016; "Flood Insurance Study for Wagoner County, Oklahoma and Incorporated Areas" dated September 30, 2016; with the accompanying FIRM include the following FIRM Panels; with any amendments or revisions.

### TABLE R302.1(1) EXTERIOR WALLS - Amendatory.

| *EXTERIOR WALL ELEMENT* | | *MINIMUM FIRE-RESISTANCE RATING* | *MINIMUM FIRE SEPARATION DISTANCE* |
|---|---|---|---|
| Walls | Fire-resistance rated | 1 hour-tested in accordance with ASTM E 119 or UL 263 with exposure from both sides | < 3 feet |
| | Not fire-resistance rated | 0 hours | ≥3 feet |
| Projections | Fire-resistance rated | 1 hour on the underside[a, b] | <3 feet |
| | Not fire-resistance rated | 0 hours | ≥3 feet |
| Openings in walls | Not allowed | N/A | < 3 feet |
| | Unlimited | 0 hours | ≥3 feet |
| Penetrations | All | Comply with Section R302.4 | < 3 feet |
| | | None required | ≥3 feet |

For SI: 1 foot = 304.8 mm.

N/A = Not Applicable.

[a.] Roof eave fire resistance rating shall be permitted to be reduced to 0 hours on the underside of the eave if fire blocking is provided from the wall top plate to the underside of the roof sheathing.

[b.] Roof eave fire resistance rating shall be permitted to be reduced to 0 hours on the underside of the eave provided that gable vent openings are not installed.

## TABLE R302.1(2) EXTERIOR WALLS — DWELLINGS WITH FIRE SPRINKLERS- Amendatory.

| *EXTERIOR WALL ELEMENT* | | *MINIMUM FIRE-RESISTANCE RATING* | *MINIMUM FIRE SEPARATION DISTANCE* |
|---|---|---|---|
| Walls | Fire-resistance rated | 1 hour-tested in accordance with ASTM E 119 or UL 263 with exposure from the outside | 0 feet |
| | Not fire-resistance rated | 0 hours | 3 feet[a] |
| Projections | Fire-resistance rated | 1 hour on the underside[b, c] | 2 feet[a] |
| | Not fire-resistance rated | 0 hours | 3 feet |
| Openings in walls | Not allowed | N/A | <3 feet |
| | Unlimited | 0 hours | 3 feet[a] |
| Penetrations | All | Comply with Section R302.4 | <3 feet |
| | | None required | 3 feet[a] |

For SI: 1 foot = 304.8 mm.

N/A = Not Applicable.

a. For residential subdivisions where all dwellings are equipped throughout with an automatic sprinkler system installed in accordance with Section P2904, the fire separation distance for nonrated exterior walls and rated projections shall be permitted to be reduced to 0 feet, and unlimited unprotected openings and penetrations shall be permitted, where the adjoining lot provides an open setback yard that is 6 feet or more in width on the opposite side of the property line.

b. The roof eave fire-resistance rating shall be permitted to be reduced to 0 hours on the underside of the eave if fire blocking is provided from the top wall plate to the underside of the roof sheathing.

c. The roof eave fire-resistance rating shall be permitted to be reduced to 0 hours on the underside of the eave provided that gable vent openings are not installed.

**R303.4 Mechanical ventilation.** Where the air infiltration rate of a dwelling is 5 air changes per hour or less where tested with a blower door at a pressure of 0.2 inch w.c. (50 Pa) or confirmed through visual testing in accordance with Section N1102.4.1.2, the dwelling unit shall be provided with whole-house mechanical ventilation in accordance with Section M1505.4.

**R309.3 Garages and Carports in Flood Hazard Areas - Amendatory.** For buildings located in flood hazard areas as established by Table 301.2(1), garage and carport floors shall be:

**1.** Elevated at least one (1) foot above the design flood elevation as determined in Section R322.2; or

**2.** Located below the design flood elevation, provided that they are at or above grade on not less than one side; are used solely for parking, building access, or storage; comply with the requirements of Section R322. The building shall not be converted to living space and used for human habitation without first becoming fully compliant with the provisions of this code and Title 11-A Chapter 3 Tulsa Revised Ordinances.

**R311.1 Means of egress - Amendatory.** Dwellings or garages (attached or detached from the dwelling) shall be provided with a means of egress in accordance with this section. The means of egress shall provide a continuous and unobstructed path of vertical and horizontal egress travel from all portions of the dwelling to the required egress door without traveling through a garage. The means of egress from the garage may travel through the adjacent dwelling. The required egress door shall open directly into a public way or to a yard or court that opens to a public way.

**R311.2 Egress door - Amendatory.** Not less than one egress door shall be provided for each dwelling unit or garage. The egress door shall be side-hinged and shall provide a clear width of not less than 32 inches (813 mm) where measured between the face of the door and the stop, with the door open 90 degrees (1.57 rad). The clear height of the door opening shall not be less than 78 inches (1981 mm) in height measured from the top of the threshold to the bottom of the stop. Other doors shall not be required to comply with these minimum dimensions. Egress doors shall be readily openable from the inside of the dwelling or garage without the use of a key or special knowledge or effort.

**R311.7.5.1 Risers - Amendatory.** The riser height shall be not more than 7¾ inches (196 mm). The riser shall be measured vertically between leading edges of the adjacent treads. The greatest riser height within any flight of stairs shall not exceed the smallest by more than ⅜ inch (9.5 mm) at rough-in. Risers shall be vertical or sloped from the underside of the nosing of the tread above at an angle not more than 30 degrees (0.51 rad) from the vertical. Open risers are permitted provided that the openings located more than 30 inches (762 mm), as measured vertically, to the floor or grade below do not permit the passage of a 4-inch-diameter (102 mm) sphere≤.

**Exceptions:**

**1.** The openings between adjacent treads is not limited on spiral stairways.

**2.** The riser height of spiral stairways shall be in accordance with Section R311.7.10.1.

**3.** The top and bottom riser in each flight of stairs may vary by ¾ inch (19 mm).

**R313.2 One- and two-family dwellings automatic fire systems.** This section, including the exception, has been moved to the newly created Appendix U, entitled "Appendix U, Automatic Fire Systems" and is not adopted as a part of the statewide minimum code for residential construction within the State of Oklahoma. This section has been renumbered in Appendix U to become U101.1. The section number R313.2 itself, will stay as part of this code for numbering alignment but will not have any requirements attached to it.

**R313.2.1 Design and installation.** "Appendix U, Automatic Fire Systems" and is not adopted as a part of the statewide minimum code for residential construction within the State of Oklahoma.

**R314.2.2 Alterations, repairs and additions - Amendatory.** Where alterations, repairs, or additions requiring a permit occur, or where one or more sleeping rooms are added or created in existing dwellings, the individual dwelling unit shall be equipped with smoke alarms located as required for new dwellings.

**Exceptions:**

**1.** Work involving the exterior surfaces of dwellings, such as the replacement of roofing or siding, the addition or replacement of windows or doors, or the addition of a porch or deck, are exempt from the requirements of this section.

**2.** Installation, alteration, or repairs of electrical, plumbing or mechanical systems are exempt from the requirements of this section.

**R314.6 Power source - Amendatory.** Smoke alarms shall receive their primary power from the building wiring when such wiring is served from a commercial source, and when primary power is interrupted, shall receive power from a battery. Wiring shall be permanent and without a disconnecting switch other than those required for overcurrent protection. Smoke alarms shall be interconnected. All required smoke alarms in the individual unit shall be connected to the same luminaire circuit.

**Exceptions:**

**1.** Smoke alarms shall be permitted to be battery operated when installed in buildings without commercial power.

**2.** Smoke alarms installed in accordance with Section R314.2.2 shall be permitted to be battery powered.

**R315.2.2 Alterations, repairs and additions - Amendatory.** Where alterations, repairs, or additions requiring a permit occur, or where one or more sleeping rooms are added or created in existing dwellings, the individual dwelling unit shall be equipped with carbon monoxide alarms located as required for new dwellings.

**Exceptions:**

**1.** Work involving the exterior surfaces of dwellings, such as the replacement of roofing or siding, the addition or replacement of windows or doors, or the addition of a porch or deck, are exempt from the requirements of this section.

**2.** Installation, alteration, or repairs of electrical, plumbing or mechanical systems are exempt from the requirements of this section.

**R322.1.6 Protection of mechanical, plumbing and electrical systems - Amendatory.** Electrical systems, equipment and components; heating, ventilating, air conditioning; plumbing appliances and plumbing fixtures; duct systems; and other service equipment shall be located at least one (1) foot above the elevation required in Section R322.2. If replaced as part of a substantial improvement, electrical systems, equipment and components; heating, ventilating, air conditioning; plumbing appliances and plumbing fixtures; duct systems; and other service equipment shall meet the requirements of this section. Systems, fixtures, and equipment and components shall not be mounted on or penetrate through walls intended to break away under flood loads.

**Exception:** Locating electrical systems, equipment and components; heating, ventilating, air conditioning; plumbing appliances and plumbing fixtures; duct systems; and other service equipment below the elevation required in Section R322.2 is permitted provided that they are designed and installed to prevent water from entering or accumulating within the components and to resist hydrostatic and hydrodynamic loads and stresses, including the effects of buoyancy, during the occurrence of flooding to the design flood elevation in accordance with ASCE 24. Electrical wiring systems are permitted to be located below the required elevation provided that they conform to the provisions of the electrical sections of this code for wet locations.

**R322.1.9 Manufactured homes - Amendatory.** The bottom of the frame of new and replacement manufactured homes on foundations that conform to the requirements of Section R322.2, shall be elevated at least one (1) foot above the elevations as specified in Section R322.2. The anchor and tie-down requirements of the applicable state and

federal requirements shall apply. The foundation and anchorage of manufactured homes to be located in identified floodways shall be designed and constructed in accordance with ASCE 24.

**R322.1.10 As-built elevation documentation - Amendatory.** A registered land surveyor or engineer licensed by the State of Oklahoma shall prepare and seal documentation of the elevations specified in Sections R109.1.3, R109.1.3.1, and R322.2.

**R322.2.1 Elevation Requirements - Amendatory.**

**1.** Buildings and structures in flood hazard areas shall have the lowest floors (including basement floors) elevated at least one (1) foot above the base flood elevation or the design flood elevation, whichever is higher.

**2.** In areas of shallow flooding (AO Zones), buildings and structures shall have the lowest floor (including a basement) elevated at least as high above the highest adjacent grade as the depth number specified in feet (mm) on the FIRM plus one (1) foot, or at least three (3) feet if a depth number is not specified.

**3.** Basement floors that are below grade on all sides shall be elevated at least one (1) foot above the base flood elevation, or the design flood elevation, whichever is higher.

**Exception:** Enclosed areas below the design flood elevation, including basements whose floors are not below grade on all sides, shall meet the requirements of Section R322.2.2 of this code.

**4.** Electrical systems, equipment and components; heating, ventilation, air conditioning; plumbing appliances and plumbing fixtures; duct systems; and other service equipment shall be located at least one (1) foot above the base flood elevation, or design flood elevation, whichever is higher. If replaced as part of a substantial improvement, electrical systems, equipment and components; heating, ventilation, air conditioning; plumbing appliances and plumbing fixtures; duct systems; and other service equipment shall meet the requirements of this section. Systems, fixtures, and equipment and components shall not be mounted on or penetrate through walls intended to break away under flood loads.

**R322.3 Coastal High Hazard Areas - Deleted; Section number retained but unused.**

**R323.1 General - Amendatory.** This section applies to the construction of above or below ground storm shelters and safe rooms constructed as separate detached buildings or rooms within buildings, structures, or portions thereof for the purpose of providing safe refuge from storms that produce high winds, such as tornados. Any room or structure, as may be used as a place of refuge during a severe windstorm event, shall not be defined as a storm shelter or safe room unless specifically designed and built to the requirements listed in Section 323. In addition to other applicable requirements in this code, storm shelters shall be constructed in accordance with ICC/NSSA 500.

**R323.2 Definitions - Added.** The following definitions are defined in Chapter 2 of this code:

**1.** SAFE ROOM

**a.** Community safe room.

**b.** Other safe room.

**2.** STORM SHELTER

**a.** Community storm shelter.

**b.** Residential storm shelter.

**R323.2.1 Design wind speed.** For storm shelters, the minimum design wind speed for the entire State of Oklahoma shall be 250 miles per hour.

**R323.2.2 In-ground storm shelters.** When installed in the floor of a garage, the rim of the storm shelter shall be raised a minimum of 1 inch (25 mm) above the highest point of the adjacent garage floor to resist surface drainage into the shelter. The floor around the shelter shall slope at a maximum slope of 1:8.

**R323.2.3 Height of storm shelter.** When determining the location of natural ventilation in accordance with ICC 500® Section 702.1.1.1, the height of the storm shelter shall be defined as an average of the vertical dimensions from the floor elevation to the bottom of the storm shelter deck or to the underside of a hard ceiling within the storm shelter.

**R323.2.4 Occupant density.** Residential storm shelters located in or adjacent to one- and two-family dwellings may exceed the occupant density in ICC 500® Table 502.4 and shall not be required to conform to the requirements of a community shelter.

**R326.1 General.** Residential swimming pools, spas, and hot tubs requiring a permit shall comply with Sections R326.2 through R326.4.

**R326.2 Enclosure.** Swimming pools shall be completely enclosed by a fence or barrier not less than 4 feet (1219 mm) in height or a screen enclosure. Openings in the fence or barrier shall not permit the passage of a 4-inch-diameter (102 mm) sphere.

**Exceptions:**

**(A)** Exception 1. Swimming pools, spas and hot tubs on lots in excess of 2 acres are exempt from the requirements.

**(B)** Exception 2. A swimming pool with a power safety cover or a spa with a safety cover complying with ASTM F 1346 need not comply with this section.

**R326.3 Gates.** Exterior pedestrian access doors or gates shall be self-closing and have a self-latching device. Doors or gates other than pedestrian access doors or gates shall have a self-latching device. Where the release mechanism of the self-latching device is located less than 54 inches (1372 mm) from the bottom of the door or gate, the release mechanism shall be located on the pool side of the door or gate, 3 inches (76 mm) or more below the top of the door or gate, and the door or gate and barrier shall be without openings greater than ½ inch (12.7 mm) within 18 inches (457 mm) of the release mechanism. Exception: Gates equipped with a locking device.

**R326.4 Suction outlet fitting assemblies.** Suction outlet fitting assemblies shall be listed and labeled in compliance with ANSI/APSP/ICC 16.

**R326.5 Entrapment avoidance.** Suction entrapment avoidance for pools and spas shall be provided in accordance with ANSI/APSP/ICC 7. Exception: Portable spas and portable exercise pools listed in accordance with UL 1563 or CSA C22.2 No 281.1.

**R327.3.1 Locations.**

**(A)** ESS (Energy Storage Systems) shall be installed only in the following locations:

(i) Item 1. Detached garages and detached accessory structures.

(ii) Item 2. Attached garages separated from the dwelling unit living space in accordance with Section R302.6.

(iii) Item. 3. Outdoors or on the exterior side of exterior walls located not less than 3 feet (914 mm) from doors and windows directly entering the dwelling unit.

(iv) Item 4. Enclosed utility closets, basements, storage or utility spaces within dwelling units with finished or noncombustible walls and ceilings. Walls and ceilings of unfinished wood-framed construction shall be provided with not less than ⅝-inch (15.9 mm) Type X gypsum wall board.

**(B)** ESS shall not be installed in sleeping rooms, or closets or spaces opening directly into sleeping rooms.

**R402.2 Concrete - Amendatory.** Concrete shall have a minimum specified compressive strength of fc, as shown in Table R402.2. Concrete subject to moderate or severe weathering as indicated in Table R301.2 (1) shall be air entrained as specified in Table R402.2. The maximum weight of fly ash, other pozzolans, silica fume, slag or blended cements that is included in concrete mixtures for garage floor slabs and for exterior porches, carport slabs and steps that will be exposed to deicing chemicals shall not exceed the percentages of the total weight of the cementitious materials specified in Section 19.3.3.4 of ACI 318. Materials used to produce concrete and testing thereof shall comply with the applicable standards listed in Chapters 19 and 20 of ACI 318 or ACI 332.

**Exception:** Interior concrete slabs on grade and enclosed garage slabs are not required to be air entrained.

**Table R403.1(1) Minimum width and thickness for concrete footings for light-frame construction (inches) - Amendatory. Footnote "b" is deleted.**

**Table R403.1(2) Minimum width and thickness for concrete footings for light-frame construction with brick veneer (inches) - Amendatory. Footnote "b" is deleted.**

**Table R403.1(3) Minimum width and thickness for concrete footings with cast-in-place concrete or fully grouted masonry wall construction (inches) - Amendatory. Footnote "b" is deleted.**

**Figure R403.1(1) Plain concrete footings with masonry and concrete stem walls in SDC A, B, and C[a, b, c, d, e, f, g] - Amendatory; footnote "g" added.**

**g.** See Section R403.1.1.1 and Section R403.1.1.2 for minimum reinforcement bar requirements.

**R403.1.1.1 Reinforcement of Footings - Added.** A minimum of four (4) five-eighths-inch reinforcement bars shall be placed horizontally, two (2) at the top and two (2) at the bottom, in each continuous footing. The continuous footing shall extend across below the garage door openings, unless otherwise designed by an engineer. Reinforcements shall be installed at the time of footing inspections.

**R403.1.1.2 Dowels in Footings - Added.** Unless otherwise designed by an engineer, dowels shall be required as follows and shall be installed at the time of footing inspection:

**1.** All cold joints between footings and foundation walls (stem walls) shall be tied together with a minimum size number four (4) dowels at every corner, and not to exceed four (4) feet (1828 mm) on center along the wall, with minimum embedment of 12 inches (304 mm) each into the footing and the foundation (stem) wall.

**2.** All cold joints between continuous footings and grade slab shall be tied together with a minimum size one-half (½) inch dowels at four (4) feet on center which shall extend from three (3) inches above the bottom of the footing and turn into the slab a minimum embedment of twenty-four (24) inches.

**3.** All cold joints between foundation (stem) walls and grade slab shall be tied together with a minimum size one-half (½) inch dowels at four (4) feet on center, with minimum embedment of 12 inches (304 mm) into the foundation (stem) wall and minimum embedment of twenty-four (24) inches into the slab.

**R403.1.6 Foundation anchorage - Amendatory.** Wood sill plates and wood walls supported directly on continuous foundations shall be anchored to the foundation in accordance with this section.

**1.** Cold formed steel framing shall be anchored directly to the foundation or fastened to wood sill plates anchored to the foundation. Anchorage of cold-formed steel framing shall be in accordance with this section and Section R505.3.1 or R603.3.1.

**2.** Wood sole plates at the exterior walls on monolithic slabs, wood sole plates of braced wall panels at building interiors on monolithic slabs and all wood sill plates shall be anchored to the foundation with minimum ½-inch-diameter (12.7 mm) anchor bolts spaced a maximum of 6 feet (1829 mm) on center or approved anchors or anchor straps spaced as required to provide equivalent anchorage to ½-inch-diameter (12.7 mm) anchor bolts. Bolts shall extend a minimum of 7 inches (178 mm) into concrete or grouted cells of concrete masonry units. The bolts shall be located in the middle third of the width of the plate. A nut and washer shall be tightened on each anchor bolt. There shall be a minimum of two bolts per plate section with one bolt located not more than 12 inches (305 mm) or less than seven bolt diameters from each end of the plate section. Interior bearing wall sole plates that are not part of a braced wall panel shall be positively anchored with approved fasteners. Hand driven cut or concrete nails are not approved fasteners. Sill plates and sole plates shall be protected against decay and termites where required by Sections R317 and R318.

**Exceptions:**

**1.** Walls 24 inches (610 mm) total length or shorter connecting offset braced wall panels shall be anchored to the foundation with a minimum of one anchor bolt located in the center third of the plate section and shall be attached to adjacent braced wall panels at corners as shown in Item 9 of Table R602.3(1).

**2.** Connection of walls 12 inches (305 mm) total length or shorter connecting offset braced wall panels to the foundation without anchor bolts shall be permitted. The wall shall be attached at corners as shown in Item 9 of Table R602.3(1).

**3.** Wood sole plates of braced wall panels at building interiors on monolithic slabs may be anchored using connector(s) with a shear capacity of 2,300 pounds and a tensile capacity of 800 pounds over a maximum span of 6 feet.

**R403.1.7.3 Foundation Elevation - Deleted; Section number retained but unused.**

**R403.1.9. Protection of footings - Added.** Trenching for work including but not limited to plumbing, electrical, storm shelters, and pools shall comply with this section. Trenching installed parallel to footings and walls shall not extend into the bearing

plane of a footing wall. The upper boundary of the bearing plane is a line that extends downward, at an angle of 45 degrees from horizontal, from the outside bottom edge of the footing wall.

**R506.2.1 Fill - Amendatory.** Fill material shall be free of vegetation and foreign material. The fill shall be compacted in 8 to 12 inch (203 mm to 305 mm) lifts to ensure uniform support of the slab, and except where approved, the fill depths shall not exceed 48 inches (1220 mm) for clean sand or gravel and 8 inches (203 mm) for earth.

**R506.2.3 Vapor retarder - Amendatory.** A six (6) mil (0.006 inch; 152 micrometers) polyethylene sheeting, other industry accepted vapor retarder products installed per manufacturer specifications or approved vapor retarder with joints lapped not less than six (6) inches (152 mm) shall be placed between the concrete floor slab and the base course or the prepared subgrade where no base course exists.

**Exception:** The vapor retarder may be omitted:

**1.** From detached garages, utility buildings and other unheated accessory structures.

**2.** From unheated storage rooms having an area of less than seventy (70) square feet (6.5 $m^2$) and carports.

**3.** From driveways, walks, patios and other flatwork not likely to be enclosed and heated at a later date.

**4.** Where approved by the building official, based on local site conditions.

**Table R602.3(1) Fastening schedule - Amendatory. Footnote "k" added. Top or bottom plate to stud[k].**

**k.** When 7/16 inch structural sheathing is used with a minimum nailing spacing of 6 inches (152 mm) on the edge and 12 inches (305 mm) in the field, two 3-inch x 0.131-inch nails are acceptable for end nail conditions for the top and bottom plate to stud connection.

**Table R602.3(3) Requirements for wood structural panel wall sheathing used to resist wind pressures[a, b, c, d] - Amendatory. Footnote "d" added.**

**d.** The following alternative fasteners will be acceptable with a wind exposure category of C or D, 0.099 inch x 2¼ inches at 3 inches on center along the edge and 6 inches on center in the field. Or, 0.113 inch x 2⅜ inches at 6 inches on center along the edge and 12 inches on center in the field.

**R602.10.5 Minimum length of a braced wall panel - Amendatory.** The minimum length of a braced wall panel shall comply with Table R602.10.5. For methods CS-WSP and CS-SFB, the minimum panel length shall be based on the adjacent clear opening height in accordance with Table R602.10.5 and Figure R602.10.5. Where a panel has an opening on either side of differing heights, the taller opening height shall be used to determine the panel length. For method CS-PF, it is permissible to begin the portal frame at 12½ feet (3810 mm) from the wall line end.

**R602.10.8 Braced wall panel connections - Amendatory.** Braced wall panels shall be connected to floor framing or foundations as follows:

**1.** Where joists are perpendicular to a braced wall panel above or below, a rim joist, band joist or blocking shall be provided along the entire length of the braced wall

panel in accordance with Figure R602.10.8(1). Fastening of top and bottom wall plates to framing, rim joist, band joist and/or blocking shall be in accordance with Table R602.3(1).

**2.** Where joists are parallel to a braced wall panel above or below, a rim joist, end joist or other parallel framing member shall be provided directly above and below the braced wall panel in accordance with Figure R602.10.8(2). Where a parallel framing member cannot be located directly above and below the panel, full-depth blocking at sixteen (16) inch (406 mm) spacing shall be provided between the parallel framing members to each side of the braced wall panel in accordance with Figure R602.10.8(2). Fastening of blocking and wall plates shall be in accordance with Table R602.3(1) and Figure R602.10.8(2).

**3.** Connections of braced wall panels to concrete or masonry shall be in accordance with Section R403.1.6.

**4.** Wood sole plates of braced wall panels at building interiors on monolithic slabs may be anchored using connector(s) with a shear capacity of two thousand three hundred (2,300) pounds and a tensile capacity of eight hundred (800) pounds over a maximum span of six (6) feet.

**R602.12 Simplified wall bracing - Amendatory.** Buildings meeting all of the conditions listed below shall be permitted to be braced in accordance with this section as an alternate to the requirements of Section R602.10. The entire building shall be braced in accordance with this section; the use of other bracing provisions of Section R602.10, except as specified herein, shall not be permitted.

**1.** There shall be not more than three stories above the top of a concrete or masonry foundation or basement wall. Permanent wood foundations shall not be permitted.

**2.** Floors shall not cantilever more than 24 inches (607 mm) beyond the foundation or bearing wall below.

**3.** Wall height shall not be greater than 12 feet (3658 mm).

**4.** The building shall have a roof eave-to-ridge height of 20 feet (6096 mm) or less.

**5.** Exterior walls shall have gypsum board with a minimum thickness of ½ inch (12.7 mm) installed on the interior side fastened in accordance with Table R702.3.5.

**6.** The structure shall be located where the ultimate design wind speed is less than or equal to 115 mph (51.4 m/s), and the exposure category is B or C.

**7.** The structure shall be located in Seismic Design Category A, B, or C for detached one- and two-family dwellings or Seismic Design Category A or B for townhouses.

**8.** Cripple walls shall not be permitted in three-story buildings.

**R602.12.2 Sheathing materials - Amendatory.** The following sheathing materials installed on the exterior side of exterior walls shall be used to construct a bracing unit as defined in Section R602.12.3. Mixing materials is prohibited.

**1.** Wood structural panels with a minimum thickness of 7/16 inch (11.11 mm) fastened in accordance with Table R602.3(3).

**2.** Structural fiberboard sheathing with a minimum thickness of ½ inch (12.7 mm) fastened in accordance with Table R602.3(1).

**R703.1 General -** Exterior walls shall provide the building with a weather-resistive exterior wall envelope. The exterior wall envelope shall include flashing as described in Section R703.4. Direct Applied Exterior Finish Systems Cement Board based stucco finish and direct applied masonry or stone shall comply with the following:

**(A)** Item 1. Direct applied masonry or stone shall comply with Section R703.7.3 Water-resistive barriers and product manufacture's installation specifications.

**(B)** Item 2. Cement Board Stucco Exterior Finish Systems shall be installed per manufacturer installation instructions and meet the minimum wall assembly details below. Products that make up the finished wall system that consists of base coat, secondary coat, reinforcing mesh and finish coat shall be of same manufacturer to ensure product/material compatibility and performance.

**2.1.** Approved Sheathing.

**2.2.** Base flashing at bottom of walls and roofs.

**2.3.** Water resistant barrier equal to or greater than 60-minute Grade D paper or ASTM D226.

**2.4.** Approved Cement Board for wall application base for exterior wall ASTM C1326.

**2.5.** Approved Cement Board Joint Reinforcement Coat and Mesh.

**2.6.** Base Coat.

**2.7.** Reinforcing Mesh ASTM E2098(Alkaline Resistant).

**2.8.** Second Base Coat.

**2.9.** Finish Coat.

**2.10.** Other Design Considerations: Separation distance from finish exterior grade must be 6 inches or greater. Separation from roofs must be 1 inch or greater. Through wall flashing must be provided at horizontal locations at dissimilar materials. Expansion joints, if needed, shall comply with finish system manufacturer recommendations. Expansion gaps are required around all windows, doors, or other dissimilar material integrated in the wall and joints are required to be sealed.

**(C) Exception:** Log walls designed and constructed in accordance with the provisions of ICC 400®.

**R703.4 Flashing - Amendatory.** Approved corrosion-resistant flashing shall be applied shingle-fashion in a manner to prevent entry of water into the wall cavity or penetration of water to the building structural framing components. Six (6) mil polyethylene sheeting is an approved corrosion-resistant flashing when not exposed to UV rays. Self-adhered membranes used as flashing shall comply with AAMA 711. Fluid-applied membranes used as flashings in exterior walls shall comply with AAMA 714. The flashing shall extend to the surface of the exterior wall finish. Approved corrosion-resistant flashings shall be installed at the following locations:

**1.** Exterior window and door openings. Flashing at exterior window and door openings shall extend to the surface of the exterior wall finish or to the water-resistive barrier complying with Section R703.2 for subsequent drainage.

Mechanically attached flexible flashings shall comply with AAMA 712. Flashing at exterior window and door openings shall be installed in accordance with one or more of the following:

**1.1.** The fenestration manufacturer's installation instructions and flashing instructions, or for applications not addressed in the fenestration manufacturer's instructions in accordance with the flashing manufacturer's instructions. Where flashing instructions or details are not provided, flashing to be installed per 1.2, 1.3, 1.4 or, pan flashing shall be installed at the sill of exterior window and door openings. Pan flashing shall be sealed or sloped in a such a manner as to direct water to the surface of the exterior wall finish or to the water-resistive barrier for subsequent drainage. Openings using pan flashing shall incorporate flashing or protection at the head and sides.

**1.2.** In accordance with the flashing design or method of a registered design professional.

**1.3.** In accordance with other approved methods.

**1.4.** Flashing above doors are not required where the door is covered by a minimum of 3 feet.

**2.** At the intersection of chimneys or other masonry construction with frame or stucco walls, with projecting lips on both sides under stucco copings.

**3.** Under and at the ends of masonry, wood or metal copings and sills.

**4.** Continuously above all projecting wood trim.

**5.** Where exterior porches, decks, or stairs attach to a wall or floor assembly of wood-frame construction.

**6.** At wall and roof intersections.

**7.** At built-in gutters.

**703.7.3 Water-resistive barriers.** Water-resistive barriers shall be installed as required in Section R703.2 and, where applied over approved sheathing, shall include a water-resistive vapor-permeable barrier with a performance at least equivalent to two layers of Grade D paper. The individual layers shall be installed independently such that each layer provides a separate continuous plane and any flashing, installed in accordance with Section R703.4 and intended to drain to the outer water-resistive barrier. Exception: Where the water-resistive barrier that is applied over wood-based sheathing has a water resistance equal to or greater than that of 60-minute Grade D paper and is separated from the stucco by an intervening, sustainably nonwater-absorbing layer or designed drainage space.

**R703.8 Anchored stone and masonry veneer, general.** R703.8 Anchored stone and masonry veneer, general. Anchored stone and masonry veneer shall be installed in accordance with this chapter, Table R703.3(1) and Figure R703.8. These veneers installed over a backing of wood or cold-formed steel shall be limited to the first story above grade plane and shall not exceed 5 inches (127 mm) in thickness. See Section R602.10 for wall bracing requirements for masonry veneer for wood-framed construction and Section R603.9.5 for wall bracing requirements for masonry veneer for cold-formed steel and connections. Anchored stone walls shall have an additional layer

of No. 15 asphalt felt complying with ASTM D226 for Type I felt or other approved water-resistance barrier to provide a bond break between the primary water-resistive barrier and the back side of stone or mortar.

**Exceptions:**

**(A)** Exception 1. For buildings in Seismic Design Categories A, B, and C, exterior stone or masonry veneer, as specified in Table R703.8(1) with a backing of wood or steel framing shall be permitted to the height specified in Table R703.8(1) above a noncombustible foundation.

**(B)** Exception 2. For detached one- and two-family dwellings in Seismic Design Categories D (subscript 0), D (subscript 1), and D (subscript 2), exterior stone or masonry veneer, as specified in Table 703.8(2) with a backing of wood framing shall be permitted to the height specified in Table 703.8(2) above a noncombustible foundation.

**Figure R703.8 Typical Masonry Veneer Wall Details[e, f, g] - Amendatory. Footnotes "f" and "g" added.**

**f.** Flashing to be done per Section R703.4, in accordance with a design from a registered design professional or in accordance with other approved methods or standard industry practices.

**g.** Flashing depicted under sill and above windows are not required with windows that have flanges for their primary attachment. Flange type windows shall be counter flashed into the weather-resistant barrier or installed per Section R703.4 and per window manufacturer's installation instructions.

**Figure R703.8.2.1 Exterior Masonry Veneer Support by Steel Angles[a] - Amendatory. Footnote "a" added.**

**a.** Flashing to be done per Section R703.4, in accordance with a design from a registered design professional or other approved methods as defined by the code for wall flashing.

**Figure R703.8.2.2 Exterior Masonry Veneer Support by Roof Members[a] - Amendatory. Footnote "a" added.**

**a.** Flashing to be done per Section R703.4, in accordance with a design from a registered design professional or other approved methods as defined by the code for wall flashing.

**R703.8.3.1 Allowable span — Amendatory.** The allowable span shall not exceed the values set forth in Table R703.8.3.1. Additionally a 3 inches x 3 inches x 3/16 inch (76 mm x 76 mm x 4.8 mm) steel angle 6 feet (1829 mm) long may be used to support 3 vertical feet (914 mm) of masonry veneer and a 3 inches x 3 inches x 3/16 inch (76 mm x 76 mm 4.8 mm) steel angle 5 feet (1524 mm) long may be used to support 4¼ vertical feet (1295 mm) of masonry veneer.

**R703.9.1 Exterior insulation and finish systems (EIFS).** Exterior insulation and finish systems (EIFS). EIFS shall comply with the following:

**1.** ASTM E2568.

**2.** EIFS shall be limited to applications over substrates of concrete or masonry wall assemblies.

**3.** Flashing of EIFS shall be provided in accordance with the requirements of Section R703.4.

**4.** EIFS shall be installed in accordance with same manufacturer's instruction as to ensure product/material compatibility and performance.

**5.** EIFS shall terminate not less than 6 inches (152 mm) above the finished ground level.

**6.** Decorative trim shall not be face-nailed through the EIFS.

**R703.9.2 Exterior insulation and finish systems (EIFS) with drainage.** Exterior insulation and finish systems (EIFS) with drainage. EIFS with drainage shall comply with the following:

**1.** ASTM E2568.

**2.** EIFS with drainage shall be required over all wall assemblies with the exception of substrates of concrete or masonry wall assemblies.

**3.** EIFS with drainage shall have an average minimum drainage efficiency of 90 percent when tested in accordance with ASTM E2273.

**4.** The water-resistive barrier shall comply with Section R703.2 or ASTM 2570.

**5.** The water-resistive barrier shall be applied between the EIFS and the wall sheathing.

**6.** Flashing of EIFS with drainage shall be provided in accordance with the requirements of Section R703.4.

**7.** EIFS with drainage shall be installed in accordance with the same manufacturer's instructions to ensure product/material compatibility and performance.

**8.** EIFS with drainage shall terminate not less than 6 inches (152 mm) above the finished ground level.

**9.** Decorative trim shall not be face-nailed through the EIFS.

**R801.3 Roof drainage - Deleted.**

**R802.3 Ridge - Added.** A ridge board used to connect opposing rafters shall be not less than 1 inch (25 mm) nominal thickness and not less in depth than the cut end of the rafter. Where ceiling joists or rafter ties do not provide continuous ties across the structure, a ridge beam shall be designed, in accordance with acceptable engineer practices, and supported on each end of the wall or girder, when roof loads exceed 10 per square foot pound dead loads and 20 per square foot pound live loads. In the case where rafters are used to support roof and finished ceiling (also known as a cathedral ceiling) with no connection of opposing rafters, ridge beam shall be designed, in accordance with acceptable engineer practices to carry one-half of tributary load of the roof.

**R802.4.1 Rafter size - Added.** Rafters shall be sized based on the rafter spans in Tables R802.4.1(1) through R802.4.1(8). Rafter spans shall be measured along the horizontal projection of the rafter. For other grades and species and for other loading conditions, refer to the AWC STJR. The tabulated rafter spans in Tables R802.4.1(1) through R802.4.1(8) assume ceiling joists are located at the bottom of the attic space or some other method of resisting the outward push of the rafter on the bearing walls, such as rafter ties is provided at that location. Where ceiling joists or rafter ties are located higher in the attic space, the rafter span in these tables shall be multiplied by

the following rafter reduction factors: Where ceiling joists or rafter ties are located at one-third the span of the rafter the adjustment factor is 0.67, at one-quarter of the span of the rafter the rafter adjustment factor is 0.76, at one-fifth the span of the rafter the adjustment factor is 0.83, at one-sixth of the span of the rafter, the adjustment factor is 0.90, and at two-fifteenths of the rafter or less, there is no need for adjusting the rafter capacity. Exception: Collar Ties. Installation of the collar ties to reduce the span of the rafters is permitted as shown in Figure R802.4.5. Collar ties shall be installed at every rafter and sized not less than the required size of the rafters they are connected.

**R802.4.2 Framing details - Amendatory.**

**(A)** Rafters shall be framed to a ridge board or to each other with a collar tie, gusset plate or ridge strap in accordance with Table R602.3(1). Rafters shall be nailed to the top wall plates in accordance with Table R602.3 (1) unless the roof assembly is required to comply with the uplift requirements of Section R802.11. Ridge board shall not be less than 1-inch (25 mm) nominal thickness and not less in depth and one size greater than the rafters attached to it.

**(B)** Where a 1-inch (25 mm) nominal thickness ridge is used, all rafters shall be framed not more than 1.5 inches (38 mm) offset from each other at the ridge board or if no ridge is used they should be framed directly opposite from each other with a gusset plate as a tie. When a nominal 2-inch rafter is used they may be offset with no limitations.

**R802.4.3 Hips and Valleys - Added.** Hip and valley rafters shall be not less than 2 inches (51 mm) nominal in thickness and not less in depth than the cut end of the rafter. Hip and valley rafters shall be supported at the ridge by a brace to a bearing partition, or beam, or be designated to carry and distribute the specific load at that point. Exception: The use of a "Blind Valley" also known as a "Farmers Valley" or "California Valley" will be allowed. In this type of valley, the main roof is framed as usual, it may or may not be sheathed and the intersecting roof is framed on top of the main roof. The two valley plates or sleeps lie on the top of the main roof rafters or sheathing and provide a nailing base for the jack rafters and the ridge board of the intersecting roof. A definition of a brace includes:

**(A)** Item 1. A triangular configuration of framing members with a horizontal tie and rafter members.

**(B)** Item 2. King post or similar.

**R802.5.1 Purlins - Amendatory.** Installation of purlins to reduce the span of rafters is permitted as shown in Figure R802.5.1. Purlins shall be sized no less than the required size of the rafters that they support. Purlins shall be continuous and shall be supported by two (2) inch by four (4) inch (51 mm by 102 mm) braces installed to bearing walls at a slope not less than forty-five (45) degrees from the horizontal. The braces shall be spaced not more than four (4) feet (1219 mm) on center and the unbraced length of braces shall not exceed eight (8) feet (2438 mm).

**Exception:** Braces may be spaced not more than six (6) feet (1,829 mm) on center if:

**1.** The purlin brace is two (2) inch by six (6) inch (51 mm by 153 mm),

**2.** Purlins shall be sized one (1) nominal size larger than the rafter they support, and

**3.** Unbraced length of braces shall not exceed eight (8) feet (2,438 mm).

**R802.5.2 Ceiling joists and rafter connections - Added.** Where ceiling joists run parallel to rafters, they shall be connected to rafters at the top wall plate in accordance with Table R802.5.2. Where ceiling joists are not connected to the rafters at the top of the wall plate, they shall be installed in the bottom third of the rafter height in accordance with Figure R802.4.5 and Table R802.5.2 Where ceiling joists do not run parallel to the rafters, the ceiling joists shall be connected to top plates in accordance with Table R602.3(1). Each rafter shall be tied across the structure with a rafter tie spaced 4 ft (1219 mm) on center. Where ceiling joists or rafter ties are not provided, the ridge formed by these rafters shall be supported by a wall or girder designed in accordance with accepted engineer practices.

**R802.7.1.2 Ceiling joists taper cut - Amendatory.** Taper cuts at the ends of the ceiling joists shall not exceed one-fourth the depth of the member in accordance with Figure R802.7.1.2.

**Exception:** For ceiling joists not carrying more than 25 pounds of tributary load (limited attic storage) then taper cut at end of joint may be able to be increased to D/2.

**R806.5 Unvented attic and unvented enclosed rafter assemblies - Added.** Unvented attics and unvented enclosed roof framing assemblies created by ceilings that are applied directly to the underside of the roof framing members and structural roof sheathing applied directly to the top of the roof framing members/rafters, shall be permitted where all of the following conditions are met:

**(A)** Item 1. The unvented attic space is completely within the building thermal envelope.

**(B)** Item. 2. Interior Class I vapor retarders are not installed on the ceiling side (attic floor) of the unvented attic assembly or on the ceiling side of the unvented enclosed roof assembly.

**(C)** Item 3. Where wood shingles or shakes are used, a minimum ¼-inch (6.4 mm) vented airspace separates the shingles or shakes and the roofing underlayment above the structural sheathing.

**(D)** Item 4. In climate Zones 5, 6, 7, and 8, any air-impermeable insulation shall be a Class II vapor retarder or shall have a Class II vaper retarder coating or covering in direct contact with the underside of the insulation.

**(E)** Item 5. Insulation shall comply with Item 5.3 and either Item 5.1 or 5.2:

**(i)** Item 5.1. Item 5.1.1, 5.1.2, 5.1.3, or 5.1.4 shall be met, depending on the air permeability of the insulation directly under the structural roof sheathing.

(I) Item 5.1.1 Where only air-impermeable insulation is provided it shall be applied in direct contact with the underside of the structural roof sheathing.

(II) Item 5.1.2 Where air-permeable insulation is installed directly below the structural sheathing, ridge board or sheet insulation shall be installed directly above the structural roof sheathing in accordance with the R-values in Table R806.5 for condensation control.

(III) Item 5.1.3. Where both air-impermeable and air-permeable insulation are provided, the air-impermeable insulation shall be applied in direct contact with the underside of the structural roof sheathing in accordance

with Item 5.1.1 and shall be in accordance with the R-values in Table R806.5 for condensation control. The air-permeable insulation shall be installed directly under the air-impermeable insulation.

(IV) Item 5.1.4 Alternatively, sufficient ridge board or sheet insulation shall be installed directly above the structural roof sheathing to maintain the monthly average temperature of the underside of the structural roof sheathing above 45 degrees Fahrenheit (7 degrees Celsius). For calculation purposes, an interior air temperature of 68 degrees Fahrenheit (20 degrees Celsius) is assumed and the exterior air temperature is assumed to be the monthly average outside air temperature of the three coldest months.

**(ii)** Item 5.2. In Climate Zones 1, 2, and 3, air-permeable insulation installed in unvented attics shall meet the following requirements:

(I) Item 5.2.1. An approved vapor diffusion port shall be installed not more than 12 inches (305 mm) from the highest point of the roof, measured vertically from the highest point of the roof to the lower edge of the port.

(II) Item 5.2.2. The port area shall be greater than or equal to 1:600 of the ceiling area. Where there are multiple ports in the attic, the sum of the port areas shall be greater than or equal to the area requirement.

(III) Item 5.2.3. The vapor-permeable membrane in the vapor diffusion port shall have a vapor permeance rating of greater than or equal to 20 perms when tested in accordance with Procedure A of ASTM E96.

(IV) Item 5.2.4. The vapor diffusion port shall serve as an air barrier between the attic and the exterior of the house.

(V) Item 5.2.5. The vapor diffusion port shall protect the attic against the entrance of rain and snow.

(VI) Item 5.2.6. Framing members and blocking shall not block the free flow of water vapor to the port. Not less than a 2-inch (51 mm) space shall be provided between any blocking and the roof sheathing. Air-permeable insulation shall be permitted within that space.

(VII) Item 5.2.7. The roof slope shall be greater than or equal to 3:12 (vertical/horizontal).

(VIII) Item 5.2.8. Where only air-permeable insulation is used, it shall be installed directly below the structural roof sheathing, on top of the attic floor, or on top of the ceiling.

(IX) Item 5.2.9. Air-impermeable insulation, where used in conjunction with air-permeable insulation, shall be directly above or below the structural roof sheathing and is not required to meet the R-value in Table 806.5. Where directly below the structural roof sheathing, there shall be no space between the air-impermeable insulation and the air-permeable insulation.

(X) Item 5.2.10. Where air-permeable insulation is used and is installed directly below the roof structural sheathing, air shall be supplied at a flow rate greater than or equal to 50 CFM (23.6 L/s) per 1,000 square feet (93 square meters) of ceiling. The air shall be supplied from ductwork

providing supply air to the occupiable space when the condition system is operating. Alternatively, the air shall be supplied by a supply fan when the conditioning system is operating. Exceptions: 1. Where both air-impermeable and air-permeable insulation are used, and the R-value in Table R806.5 is met, air supply to the attic is not required. 2. Where only air-permeable insulation is used and is installed in top of the attic floor, or on top of the ceiling, air supply to the attic is not required.

**(iii)** Item 5.3. Where preformed insulation board is used as the air-impermeable insulation layer, it shall be sealed at the perimeter of each individual sheet interior surface to form a continuous layer.

**Section 905.1.2 Ice barriers.**

**A. 905.1.2 Ice barriers.** In areas where there has been a history of ice forming along the eaves causing a backup of water as designated in Table R301.2(1), an ice barrier shall be installed for asphalt shingles, metal roof shingles, mineral-surfaced roll roofing, slate and slate-type shingles, wood shingles and wood shakes. The ice barrier shall consist of not fewer than two layers of underlayment cemented together, or a self-adhering polymer-modified bitumen sheet shall be used in place of normal underlayment and extend from the lowest edges of all roof surfaces to a point not less than 24 inches (610 mm) inside the exterior wall line of the building. On roofs with a slope equal to or greater than eight units vertical in 12 units horizontal (67 percent slope), ice barrier shall also be applied not less than 36 inches (914 mm) measured along the roof slope from the eave edge of the building.

**B.** A 36-inch wide (914 mm) ice barrier shall be installed in all valleys, run the length of the valley, and centered on the valley.

**C.** A 36-inch wide (914 mm) ice barrier shall be installed at all change in roof pitch in which the lower roof has a lower pitch than the upper roof. The ice barrier is run the length of the change in pitch and cemented on the change in pitch.

S**ection R905.2.1 Sheathing requirements - Amendatory.**

**R905.2.1 Sheathing requirements.** Asphalt shingles shall be fastened to solidly sheathed decks. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacturer's installation instructions, warped, split, cracked, deteriorated or rotten boards).

**R905.2.8.5 Drip edge - Amendatory.** A drip edge shall be provided at eaves and rake edges of shingle roofs. Adjacent segments of drip edge shall be overlapped not less than 2 inches (51 mm). Drip edges shall extend not less than ¼ inch (6.4 mm) below the roof sheathing and extend up back onto the roof deck not less than 2 inches (51 mm). Drip edges shall be mechanically fastened to the roof deck at not less than 12 inches (305 mm) on center with fasteners as specified in Section R905.2.5. Underlayment shall be installed over the drip edge along eaves and under the underlayment along rake edges.

**Exception:** If a nominal 1 inch by 2 inch (25 mm by 51 mm) shingle mold is used, attached to the fascia and the starter course of shingles is extended a minimum of ¼ inch (6.35 mm) and not more than 1 inch (25 mm) then a metal drip edge is not required.

**R905.3.1. Deck requirements - Added.** Concrete and clay tile shall be installed only over solid sheathing or spaced structural sheathing boards. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacture's installation instructions, warped, split, cracked deteriorated or rotten boards).

**R905.4.1 Deck requirements - Added.** Metal roof shingles shall be applied to a solid or closely fitted deck, except where the roof covering is specifically designed to be applied to spaced sheathing. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacture's installation instructions, warped, split, cracked deteriorated or rotten boards).

**R905.5.1 Deck requirements - Added.** Mineral-surfaced roll roofing shall be fastened to solidly sheathed roofs. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacture's installation instructions, warped, split, cracked deteriorated or rotten boards).

**R905.6.2 Deck requirements - Added.** Slate shingles shall be fastened to solidly sheathed roofs. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacture's installation instructions, warped, split, cracked deteriorated or rotten boards).

**R905.7.1 Deck requirements - Added.** Wood shingles shall be installed on solid or spaced sheathing. Where spaced sheathing is used, sheathing boards shall be not less than 1-inch by 4-inch (25 mm by 102 mm) nominal dimensions and shall be spaced on centers equal to the weather exposure to coincide with the placement of fasteners. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacture's installation instructions, warped, split, cracked deteriorated or rotten boards).

R**905.8.1 Deck requirements - Added.** Wood shakes shall be used only on solid or spaced sheathing. Where spaced sheathing is used, sheathing boards shall be not less than 1-inch by 4-inch (25 mm by 102 mm) nominal dimensions and shall be spaced on centers equal to the weather exposure to coincide with the placement of fasteners. Where 1-inch by 4-inch (25 mm by 102 mm) spaced sheathing is installed at 10 inches (254 mm) on center, additional 1-inch by 4-inch (25 mm by 102 mm) boards shall be installed between the sheathing boards. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacture's installation instructions, warped, split, cracked, deteriorated or rotten boards).

**R905.10.1 Deck requirements - Added.** Metal roof panel roof coverings shall be applied to solid or spaced sheathing, except where the roof covering is specifically designed to be applied to spaced supports. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for

fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacture's installation instructions, warped, split, cracked deteriorated or rotten boards).

**R905.16.1 Deck requirements - Added.** Photovoltaic shingles shall be applied to a solid or closely fitted deck, except where the roof covering is specifically designed to be applied over spaced sheathing. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacture's installation instructions, warped, split, cracked, deteriorated or rotten boards).

**R905.17.1 Deck requirements - Added.** BIPV roof panels shall be applied to a solid or closely fitted deck, except where the roof covering is specifically designed to be applied over spaced sheathing. Solidly sheathed decks shall be defined as sawn lumber boards or structural panels that provide a solid holding power for fasteners that do not have deficit conditions (gaps greater than those allowed by the roof covering manufacture's installation instructions, warped, split, cracked, deteriorated or rotten boards).

**R908.3.1.1. Roof re-cover - Amendatory.** A roof re-cover shall not be permitted where any of the following conditions occur:

**1.** Where the existing roof or roof covering is water soaked or has deteriorated to the point that the existing roof or roof covering is not adequate as a base for additional roofing.

**2.** Where the existing roof covering is slate, clay, cement or asbestos-cement tile.

**3.** Where the existing roof has two or more applications of any type of roof covering.

**4.** Where the existing roof has one or more application of asphalt shingles additional applications of asphalt shingles shall not be permitted.

**R1005.7 Factory-built chimney offsets - Amendatory.** Where a factory-built chimney assembly incorporates offsets, no part of the chimney shall be at an angle of more than 30 degrees (0.52 rad) from vertical at any point in the assembly and the chimney assembly shall not include more than four elbows.

**Exception:** Where chimneys are part of a listed and labeled factory-built fireplace they may be installed in accordance with the fireplace and chimney manufacturer's installation instructions.

**N1101.1 Scope - Amendatory.** This chapter regulates the energy efficiency for the design and construction of buildings regulated by this code.

**Exception:** This chapter does not apply to portions of the building envelope that do not enclose conditioned space.

**N1101.2 (R101.3) Intent - Deleted.**

**N1101.3 (R101.5.1) Compliance materials - Deleted.**

**N1101.4 Above code programs - Amendatory.** The building official or other authority having jurisdiction shall be permitted to deem a national, state, or local energy-efficiency program to exceed the energy efficiency required by this chapter. Buildings approved in writing by such an energy-efficiency program shall be considered in compliance with this chapter.

**N1101.5 (R103.2) Information on construction documents - Deleted.**

**N1101.5.1 (R103.2.1) Thermal envelope depiction - Deleted.**

**N1101.6 (R202) Defined Terms** - This section has been modified to delete the definition of a "ROOF RECOVER" from the list of defined terms in the chapter. Definitions for all other terms remain in the section and are applicable to the chapter.

**N1101.7 Climate zones - Amendatory** Climate zones from Figure N1107.1 or Table N1101.7 shall be used in determining the applicable requirements in Sections N1101 through N1111.

**Figure N1101.7 Climate zones - Amendatory.**

**Table N1101.7 Climate zones, moisture regimes, and warm-humid designations by state, county and territory - Amendatory.**

**N1101.7.1 Warm humid counties - Amendatory.** Warm humid counties are identified in Table N1101.7 by an asterisk.

**N1101.7.2 (R301.3) International climate zones - Deleted.**

**Table N1101.7.2(1) (R302.3.) (1) International climate zone definitions - Deleted.**

**N1101.7.2(2) (R301.3.) (2) International climate zone definitions - Deleted.**

**N1101.8 (R301.4) Tropical climate zone - Deleted.**

**N1101.9 (R302.1) Interior design conditions - Deleted.**

**N1101.10 Identification - Amendatory.** Materials, systems and equipment shall be identified in a manner that will allow a determination of compliance with the applicable provisions of this chapter.

**N1101.10.1 Building thermal envelope insulation - Amendatory.** An R-value identification mark shall be applied by the manufacturer to each piece of building thermal envelope insulation 12 inches (305 mm) or wider. Alternately, the insulation installers shall provide a certification listing the type, manufacturer and R-value of the insulation installed in each element of the building thermal envelope. For blown or sprayed insulation (fiberglass and cellulose), the initial installed thickness, settled thickness, settled R-value, installed density, coverage area and number of bags installed shall be listed on the certification. For sprayed polyurethane foam (SPF) insulation, the installed thickness of the area covered, and R-value of installed thickness shall be listed on the certificate. The insulation installer shall sign, date and post the certificate in a conspicuous location on the job site.

**N1101.10.1.1 Blown or sprayed roof/ceiling insulation - Amendatory.** The thickness of blown-in or sprayed roof/ceiling insulation (fiberglass or cellulose) shall be written in inches (mm) on markers that are installed at least once for every 300 square feet (28 square meters) throughout the attic space. The markers shall be affixed to the trusses or joists and marked with a minimum initial installed thickness with numbers not less than of 1 inch (25 mm) high. Each marker shall face the attic access opening. Spray polyurethane foam thickness and installed R-value shall be listed on the certificate provided by the insulation installer.

**N1101.10.2 Insulation mark installation - Amendatory.** Insulating materials shall be installed such that the manufacturer's R-value mark is readily observable upon inspection.

**N1101.10.3 Fenestration product rating - Amendatory.**

U-factors of fenestration products (windows, glazed doors, and skylights) shall be determined in accordance with NFRC 100 by an accredited, independent laboratory, and labeled and certified by the manufacturer.

Products lacking such a labeled U-factor shall be assigned a default U-factor from Table N1101.10.3(1) or N1101.10.3(2). The solar heat gain coefficient (SHGC) of glazed fenestration products (windows, glazed doors and skylights) shall be determined in accordance with NFRC 200 by an accredited, independent laboratory, and labeled and certified by the manufacturer. Products lacking such a labeled SHGC shall be assigned a default SHGC from Table 1103.10.3(3).

**Table N1101.10.3(1) Default glazed fenestration U-factors - Amendatory.**

**TABLE N1101.10.3(1)**
**DEFAULT GLAZED FENESTRATION U-FACTORS**

| *FRAME TYPE* | *SINGLE PANE* | *DOUBLE PANE* | *SKYLIGHT* | |
|---|---|---|---|---|
| | | | Single | Double |
| Metal | 1.20 | 0.80 | 2.00 | 1.30 |
| Metal with Thermal Break | 1.10 | 0.65 | 1.90 | 1.10 |
| Nonmetal or Metal Clad | 0.95 | 0.55 | 1.75 | 1.05 |
| Glazed Block | 0.60 | | | |

**Table N1101.10.3(2) Default door U-factors - Amendatory.**

**TABLE N1101.10.3(2)**
**DEFAULT DOOR U-FACTORS**

| *DOOR* | *U-FACTOR* |
|---|---|
| Uninsulated Metal | 1.20 |
| Insulated Metal | 0.60 |
| Wood | 0.50 |
| Insulated, nonmetal edge, max 45% glazing, any glazing double pane | 0.35 |

**Table N1101.10.3(3) Default glazed fenestration SHGC - Amendatory.**

**TABLE N1101.10.3(3)**
**DEFAULT GLAZED FENESTRATION SHGC**

| | *SINGLE GLAZED* | | *DOUBLE GLAZED* | | *GLAZED BLOCK* |
|---|---|---|---|---|---|
| | *Clear* | *Tinted* | *Clear* | *Tinted* | |
| SHGC | 0.8 | 0.7 | 0.7 | 0.6 | 0.6 |

**N1101.10.4 Insulation product rating - Amendatory.** The thermal resistance (R-value) of insulation shall be determined in accordance with the CFR Title 16, Part 460 in units of h x square foot x Fahrenheit/BTU at a mean temperature of 75 degrees Fahrenheit (24 degrees Celsius).

**N1101.10.4.1 (R303.1.4.1) Insulated siding - Deleted.**

**N1101.11 Installation - Amendatory.** All materials, systems and equipment shall be installed in accordance with the manufacturer's instructions and the provisions of this code.

**N1101.11.1 Protection of exposed foundation installation - Amendatory.** Insulation applied to the exterior basement walls, crawlspace walls, and the perimeter of slab-on-grade floors shall have a rigid, opaque and weather-resistance protective covering to prevent the degradation of the insulation's thermal performance. The protective covering shall cover the exposed exterior insulation and extend not less than 6 inches (153 mm) below grade.

**N1101.12 (R303.3) Maintenance information - Deleted.**

**N1101.13 Compliance - Amendatory.** Compliance shall be demonstrated by either meeting the requirements of the 2009 International Energy Conservation Code® or meeting the requirements of this chapter. Climate zones from figure N1101.7 or Table 1101.7 shall be used in determining the applicable requirements from this chapter.

**N1101.13.1 (R401.2.1). Tropical zone - Deleted.**

**N1101.14 (R401.3) Certificate - Deleted.** This section has been moved to the newly created Appendix W, entitled "Appendix W, Energy Efficiency" and is not adopted as a part of the statewide minimum code for residential construction within the State of Oklahoma. The section has been renumbered in Appendix W to become W101.1. The section number N1101.14 itself, will stay as part of the code for numbering alignment but will not have any requirements attached to it.

**N1102.1 (R402.1) General - Deleted.**

**N1102.1.1 (R402.1.1) Vapor retarder - Deleted.**

**N1102.1.2 Insulation and fenestration criteria - Amendatory.** The building thermal envelope shall meet the requirements of Table N1102.1.2 based on the climate zone specified in Section 1101.7.

**TABLE N1102.1.2 (R402.1.2) INSULATION AND FENESTRATION REQUIREMENTS BY COMPONENT**

| *CLIMATE ZONE* | *FENESTRATION U-FACTOR*[b] | *SKYLIGHT*[b] *U-FACTOR* | *GLAZED FENESTRATION SHGC*[b, e] | *CEILING R-VALUE* | *WOOD FRAME WALL R-VALUE* | *MASS WALL R-VALUE*[k] | *FLOOR R-VALUE* | *BASEMENT*[c] *WALL R-VALUE* | *SLAB*[d] *R-VALUE & DEPTH* | *CRAWL SPACE*[c] *WALL R-VALUE* |
|---|---|---|---|---|---|---|---|---|---|---|
| 3 | 0.38 | 0.55 | 0.3 | 30 | R13 | 8/13 | 19 | 5/13 | 0 | 5/13 |
| 4 except Marine | 0.32 | 0.55 | 0.4 | 49 | 20 or 13+5 | 8/13 | 19 | 10/13 | 10.2 ft | 10/13 |

**N1102.1.3 R-value computation - Amendatory.** Insulation material used in layers, such as framing cavity insulation, and insulation sheathing, shall be summed to compute the component R-value. The manufacturer's settled R-value shall be used for blown insulation. Computed R-values shall not include an R-value for other building materials or air films.

## TABLE N1102.1.4
## EQUIVALENT U-FACTORS[a]

| *CLIMATE ZONE* | *FENESTRATION U-FACTOR* | *SKYLIGHT U-FACTOR* | *CEILING U-FACTOR* | *FRAME WALL U-FACTOR* | *MASS WALL U-FACTOR[b]* | *FLOOR U-FACTOR* | *BASEMENT WALL U-FACTOR* | *CRAWL SPACE WALL U-FACTOR* |
|---|---|---|---|---|---|---|---|---|
| 3 | 0.36 | 0.55 | 0.035 | 0.082 | 0.098 | 0.047 | 0.091 | 0.136 |
| 4 except Marine | 0.32 | 0.55 | 0.026 | 0.06 | 0.098 | 0.047 | 0.059 | 0.065 |

**N1102.1.4 U-factor alternative - Amendatory.** An assembly with a U-factor equal to or less than that specified in Table N1102.1.4 shall be permitted as an alternative to the R-value in Table N1102.1.2.

**N1102.1.5 Total UA alternative - Amendatory.** If the total building thermal envelope UA (sum of U-factor times assembly area) is less than or equal to the total UA resulting from using the U-factors in Table 1102.1.4 (multiplied by the same assembly area as in the proposed building), the building shall be considered in compliance with Table N1102.1.2. The UA calculation shall be done using a method consistent with the ASHRAE Handbook of Fundamentals and shall include the thermal bridging effects of framing materials. The SHGC requirements shall be met in addition to UA compliance.

**N1102.2 Specific insulation requirements - Amendatory.**

**N1102.2.1. Ceilings with attic spaces - Amendatory.** Where Section R1102.1.2 requires R-38 insulation in the ceiling, installing R-30 insulation over 100 percent of the ceiling area requiring insulation shall satisfy the requirement for R-38 insulation wherever the full height of uncompressed R-30 insulation extends over the wall top plate at the eaves. Where Section N1102.1.2 requires R-49 insulation in the ceiling, installing R-38 insulation over 100 percent of the ceiling area requiring insulation shall satisfy the requirement for R-49 insulation wherever the full height of uncompressed R-38 insulation extends over the wall top plate at the eaves. This reduction shall not apply to the U-factor alternative approach in Section N1102.1.4 and the Total UA alternative in Section N1102.1.5.

**Exceptions:**

**(A)** Where Table 1102.2.1 Requires R-30 insulation in the ceiling and roof/ceiling assembly does not allow sufficient space for the required insulation, compressed batts shall be allowed at the perimeter of the building where insulation extends over top plates.

**(B)** Where the ceiling is formed by the rafter in a slope or vaulted ceiling from plate height to ceiling level of 2 feet, that slope shall be considered an extension of the wall up to 4 feet and be insulated with R-19.

**N1102.2.2 Ceilings without attic spaces - Amendatory.** Where Section N1102.1.2 would require insulation levels above R-30 and the design of the roof/ceiling assembly does not allow sufficient space for the required insulation, the minimum required insulation for such roof/ceiling assemblies shall be R-30. This reduction of insulation from the requirements of Section N1102.1.2 shall be limited to 500 square feet (46 square meters) or 20 percent of the total insulated ceiling area, whichever is less. Where Section N1102.1 would require insulation level R-30 and the design of the roof/ceiling assembly does not allow sufficient space for the required insulation, the

minimum required insulation for such roof/ceiling assemblies shall be R-19. This reduction of insulation from the requirements of Section N1102.1 shall be limited to 500 square feet (46 square meters) or 20 percent of the total insulated ceiling area, whichever is less.

**N1102.2.3 (R402.2.3) Eave baffle - Deleted.**

**N1102.2.4 Access hatches and doors - Amendatory.** Access doors from conditioned spaces to unconditioned spaces such as attics and crawl spaces shall be weatherstripped and insulated to a level equivalent to the insulation on the surrounding surfaces. Access shall be provided to all equipment that prevents damaging or compressing the insulation. A wood-framed or equivalent baffle or retainer is required to be provided when loose-fill insulation is installed, the purpose of which is to prevent the loose-fill insulation from spilling into the living space when the attic is opened, and to provide a permanent means of maintaining the installed R-value of the loose-fill insulation.

**N1102.2.5 Mass walls - Amendatory.** Mass walls for the purposes of this chapter shall be considered above-grade walls of concrete block, concrete, insulated concrete form (ICF), masonry cavity, brick (other than brick veneer), earth (adobe, compressed earth block, rammed earth) and solid timber/logs.

**N1102.2.6 Steel-frame ceilings, walls, and floors - Amendatory.** Steel-frame ceilings, walls, and floors shall meet the insulation requirements of Table N1102.2.6 or shall meet the U-factor requirements of Table N1102.1.4. The calculation of the U-factor for a steel-frame envelope assembly shall use a series-parallel path calculation method. Exception: In climate zones 1 and 2, the continuous insulation requirements in the Table N1102.2.6 shall be permitted to be reduced to R-3 for steel frame wall assemblies with studs spaced at 24 inches (610 mm) on center.

**Table N.1102.2.6**
**STEEL-FRAME CEILING, WALL AND FLOOR INSULATION (R-VALUE)**

| *WOOD FRAME R-VALUE REQUIREMENT* | *COLD-FORMED STEEL EQUIVALENT R-VALUE*[a] |
|---|---|
| **Steel Truss Ceiling**[b] | |
| R-30 | R-38 or R-30 + 3 or R-26 + 5 |
| R-38 | R-49 or R-038 + 3 |
| R-49 | R-38 + 5 |
| **Steel Joist Ceiling**[b] | |

| R-13 | R-19 in 2 × 6, R-19 + R-6 in 2 × 8 or 2 × 20 |

| *WOOD FRAME R-VALUE REQUIREMENT* | *COLD-FORMED STEEL EQUIVALENT R-VALUE[a]* |
|---|---|
| R-19 | R-19 + R-6 in 2 × 6, or R-19 + R-12 in 2 × 8 or 2 × 10 |
| a. Cavity insulation R-value is listed first, followed by continuous insulation R-value. | |
| b. Insulation exceeding the height of the framing shall cover the framing. | |

**N1102.2.7 (R402.2.7) Walls with partial structural sheathing - Deleted.**

**N1102.2.8 Floors - Amendatory.** Floor framing cavity insulation shall be installed to maintain permanent contact with the underside of the subfloor decking.

**N1102.2.9 Basement walls - Amendatory.** Exterior walls associated with conditioned basements shall be insulated from the top of the basement wall down to 10 feet (3048 mm) below grade or to the basement floor, whichever is less. Walls associated with unconditioned basements shall meet this requirement unless the floor overhead is insulated in accordance with Sections N1102.1.2 and N1102.2.8.

**N1102.2.10 Slab-on-grade floors - Amendatory.** Slab-on-grade floors with a floor surface less than 12 inches (305 mm) below grade shall be insulated in accordance with Table N1102.1.2. The insulation shall extend downward from the top of the slab on the outside or inside of the foundation wall. Insulation located below grade shall be extended the distance provided in Table N1102.1.2 by any combination of vertical insulation, insulation extending under the slab or insulation extending out from the building. Insulation extending away from the building shall be protected by pavement or by not less than 10 inches (254 mm) of soil. The top edge of the insulation installed between the exterior wall and the edge of the interior slab shall be permitted to be cut at a 45-degree (0.79 rad) angle away from the exterior wall. Slab-edge insulation is not required in jurisdictions designated by the building official as having a very heavy termite infestation.

**Exception - Added:** If foundation/slab insulation is used in vertical application on inside of stem wall and a slab ledge exists, ½-inch insulation in vertical position is allowed as a thermal break between slab edge and foundation wall so that slab can still bear on the horizontal ledge.

**N1102.2.11 Crawl space walls - Amendatory.** As an alternative to insulating floors over crawl spaces, crawl space walls shall be permitted to be insulated when the crawl space is not vented to the outside. Crawl space wall insulation shall be permanently fastened to the wall and extend downward from the floor to the finished grade level and then vertically and/or horizontally for at least an additional 24 inches (610 mm). Exposed earth in unvented crawl space foundations shall be covered with a continuous Class I vapor retarder in accordance with this code. All joints of the vapor retarder shall overlap by 6 inches (153 mm) and be sealed or taped. The edges of the vapor retarder shall extend not less than 6 inches (153 mm) up the stem wall and shall be attached to the stem wall.

**N1102.2.12 Masonry veneer - Amendatory.** Insulation shall not be required on the horizontal portion of the foundation that supports a masonry veneer.

**N1102.2.13 Thermally isolated sunroom insulation - Amendatory.** The minimum ceiling insulation R-values shall be R-19 in Zones 1 through 4 and R-24 in Zones 5

through 8. The minimum wall R-value shall be R-13 in all zones. New walls separating the sunroom from the conditioned space shall meet the building thermal envelope requirements.

**N1102.3 Fenestration - Amendatory.**

**N1102.3.1 U-factor - Amendatory.** An area-weighted average of fenestration products shall be permitted to satisfy the U-factor requirements.

**N1102.3.2 Glazed fenestration SHGC - Amendatory.** An area-weighted average of fenestration products more than 50-percent glazed shall be permitted to satisfy the solar heat gain coefficient (SHGC) requirements.

**N1102.3.3 Glazed fenestration exemption - Amendatory.** Up to 15 square feet (1.4 square meters) of glazed fenestration per dwelling unit shall be permitted to be exempt from U-factor and SHGC requirements in Section N1102.1.2. This exemption shall not apply to the U-factor alternative approach in N1102.1.4 and the total UA alternative approach in N1102.1.5.

**N1102.3.4 Opaque door exemption - Amendatory.** One side-hinged opaque door assembly up to 24 square feet (2.22 square meters) in area is exempted from the U-factor requirement in Section N1102.1.2. This exemption shall not apply to the U-factor alternative approach in Section N1102.1.4 and the total UA alternative in Section N1102.1.5.

**N1102.3.5 Thermally isolated sunroom U-factor - Amendatory.** For zones 4 through 8, the maximum fenestration U-factor shall be 0.50 and the maximum skylight U-factor shall be 0.75. New windows and doors separating the sunroom from conditioned space shall meet the building thermal envelope requirements.

**N1102.3.6 Replacement fenestration - Added.** Where some or all of an existing fenestration unit is replaced with a new fenestration product, including sash and glazing, the replacement fenestration unit shall meet the applicable requirements for U-factor and solar heat gain coefficient (SHGC) in Table N1102.1.2.

**N1102.4 Air leakage - Amendatory.**

**N1102.4.1 Building thermal envelope - Amendatory.** The building thermal envelope shall be durably sealed to limit infiltration. The sealing methods between dissimilar materials shall allow for differential expansion and contraction. The following shall be caulked, gasketed, weather-stripped or otherwise sealed with an air barrier material, suitable film or solid material.

**(A)** All joints seams and penetrations.

**(B)** Site-built windows, doors and skylights.

**(C)** Openings between window and door assemblies and their respective jambs and framing.

**(D)** Utility penetrations.

**(E)** Dropped ceilings or chases adjacent to the thermal envelope.

**(F)** Knee walls.

**(G)** Walls and ceilings separating the garage from conditioned spaces.

**(H)** Behind tubs and showers on exterior walls.

**(I)** Common walls between dwelling units.

**(J)** Attic access openings.

**(K)** Rim joists junction.

**(L)** Other sources of infiltration.

**N1102.4.1.1 Air sealing and insulation - Amendatory.** Building envelope air tightness and insulation installation shall be demonstrated to comply with one of the following options given by Section N1102.4.1.2 or N1102.4.1.3.

**Table N.1102.4.1.1 BUILDING THERMAL ENVELOPE CRITERIA - Amendatory**

| *COMPONENT* | *AIR BARRIER CRITERIA* | *INSULATION INSTALLATION CRITERIA* |
|---|---|---|
| Walls | The junction of the foundation and sill plate shall be sealed. The junction of the top plate and the top exterior walls shall be sealed. Knee walls shall be sealed. | Cavities within corners and headers (in a 2 × 6 wall system or greater) of frame walls shall be insulated by completely filling the cavity with a material having a thermal resistance of not less than R-3 per inch. If used on wall systems, exterior thermal envelope insulation for framed walls shall be installed in substantial contact and in continuous alignment with the air barrier. |
| Electrical/phone box on exterior walls | The air barrier extends behind the building thermal envelope. Boxes that penetrate the building thermal envelope shall be air sealed to the subfloor, wall covering, or ceiling penetrated by the box or air-sealed boxes shall be installed. | Spaces behind boxes penetrating the thermal envelope shall have insulation cut or blow to fit or that readily conforms to the space around the box. |

**N1102.4.1.2 Testing option - Amendatory.** The building or dwelling unit may be tested and verified as having an air leakage rate of not exceeding five air changes per hour in Climate Zones 1, 2, and 3, and three air changes per hour in Climate Zones 4 through 8. Testing, if preformed shall be in accordance with RESNET/ICC 380, ASTM E779 or ASTM E1827 and reported at a pressure of 0.2-inch w.g. (50 Pascals). Where required by the building official, testing shall be conducted by an approved third party. A written report of the test shall be signed by the party conducting the test and provided to the building official, if requested. Testing shall be performed at any time after creation of all penetrations of the building thermal envelope. During testing:

**(A)** Exterior windows and doors, fireplace, and stove doors shall be closed, but not sealed beyond the intended weatherstripping or other infiltration measures.

**(B)** Dampers including exhaust, intake, makeup air, backdraft and flue dampers shall be closed, but not sealed beyond intended infiltration control measures.

**(C)** Interior doors, where installed at the time of the test shall be open.

**(D)** Exterior or interior terminations for continuous ventilation systems shall be sealed.

**(E)** Heating and cooling systems, where installed at the time of the test, shall be turned off.

**(F)** Supply and return registers, where installed at the time of the test, shall be fully open.

**Exception:** Visual testing of air barrier shall be allowed to assure leakage rate above or the Air Barrier and Insulation Checklist Table N1102.4.1.1 (R402.4.1.1) by a local jurisdictional inspection services or by approved third party.

**N1102.4.1.3 Visual Inspection - Added.** The items listed in Table N1102.4.1.1 applicable to the method of construction, are field verified. Where required by the code official, an approved party independent from the installer of the insulation or contractor, shall inspect the air barrier and insulation. Where no approved party inspects these items the air barrier components shall be viewed as a part of the frame inspection or insulation inspection by the Authority Having Jurisdiction.

**N1102.4.2 Fireplaces - Amendatory. New wood-burning fireplaces shall have outdoor combustion air.**

**N1102.4.3 Fenestration air leakage - Amendatory.** Windows, skylights and sliding glass doors shall have an air infiltration rate of no more than 0.3 cfm per square foot (1.5 L divided by square meters), and swinging doors no more than 0.5 cfm per square foot (2.5 L divided by square meters), when tested according to NFRC 400 or AAMA/WDMA/CSA 101/I.S.2/A440 by an accredited, independent laboratory and listed and labeled by the manufacturer. Exception: Site-built windows, skylights, and doors.

**N1102.4.4 (R402.4.4) Rooms containing fuel burning appliances - Deleted.**

**N1102.4.5 Recessed lighting - Amendatory.** Recessed luminaries installed in the building thermal envelope shall be sealed to limit air leakage between conditioned and unconditioned space. All recessed luminaries shall be IC-rated and labeled as meeting ASTM E 283 when tested at 1.57 psi (75 Pa) pressure differential with no more than 2.0 cfm (0.944 L/s) of air movement from the conditioned space to the ceiling cavity. All recessed luminaries shall be sealed with a gasket or caulk between the housing and the interior wall or ceiling cover.

**N1102.4.6 (R406.2.4.6) Air-sealed electrical and communication outlet boxes - Added.** Where selected for installation as permitted by Table N1102.4.1.1, air-sealed electrical and communication outlet boxes that penetrate the building thermal envelope shall be sealed to limit air leakage between conditioned and unconditioned spaces. Air-sealed electrical and communication outlet boxes shall be tested in accordance with NEMA OS 4. Requirement for Air-sealed Boxes for Electrical and Communication Applications and shall have an air leakage rate of not greater than 2.0 cfm (0.944 L/s) at a pressure differential of 1.57 psf (75 Pa). Electrical and communication outlet boxes shall be installed per the manufacturer's instructions and with any supplied components required to achieve compliance with NEMA OS 4.

**N1102.5 (R402.5) Maximum fenestration U-factor and SHGC (Mandatory) - Deleted.**

**N1103.1 Controls - Amendatory.** At least one thermostat shall be installed for each separate heating and cooling system.

**N1103.1.1 Programmable thermostat - Amendatory.** Where the primary heating system is a forced air furnace, at least one thermostat per dwelling unit shall be capable of controlling the heating and cooling system on a daily schedule to maintain different temperature set points at different times of the day. This thermostat shall include the capability to set back or temporarily operate the system to maintain zone temperature down to 55 degrees Fahrenheit (13 degrees Celsius) or up to 85 degrees Fahrenheit (29 degrees Celsius). The thermostat shall initially be programmed with a heating temperature set point no higher than 70 degrees Fahrenheit (21 degrees Celsius) and a cooling temperature set point no lower than 78 degrees Fahrenheit (26 degrees Celsius).

**N1103.1.2 Heat pump supplementary heat - Amendatory.** Heat pumps having supplementary electric-resistance heat shall have controls that, except during defrost, prevent supplemental heat operation when the heat pump compressor can meet the heating load.

**N1103.2 (R403.2) Hot water boiler outdoor temperature setback - Deleted.**

**Section N1103.3 Ducts - Amendatory.**

**N1103.3.1 Insulation - Amendatory.** Supply ducts in attics shall be insulated to a minimum of R-8. All other ducts shall be insulated to a minimum of R-6.

**Exception:** The minimums do not apply to ducts or portions thereof located completely inside the building thermal envelope.

**N1103.3.2 (R403.3.2) Sealing - Amendatory.** Ducts, air handler, plenums, start collar connections to plenum and filter boxes shall be sealed. Joints and seams shall comply with Section M1601.4.1. For duct systems with sheet metal Plenums, Y's and supply boots, only liquid applied sealants complying with 181 BM (Mastic or similar) shall be used to seal inner liners and start collars to plenum and any other seams in system

**N1103.3.2.1 (R403.2.1) Sealed air handler - Deleted.**

**N1103.3.3 (R043.3.3) Duct testing.** Ducts shall be pressure tested to determine air leakage by one of the following methods:

1. Item 1: Rough-in-test: Total leakage shall be measured with a pressure differential of 0.1-inch w.g. (25 Pa) across the system, including the manufacturer's air handler enclosure if installed at the time of the test. Registers shall be taped or otherwise sealed during the test.
2. Item 2: Post construction test: Total leakage shall be measured with a pressure differential of 0.1-inch w.g. (25 Pa) across the entire system, including manufacturer's air handler enclosure. Registers shall be taped or otherwise sealed during the test.

**Exceptions:**

1. Exception 1: A duct air-leakage test shall not be required where the ducts and air handlers are located entirely within the building thermal envelope.
2. Exception 2: A duct air-leakage test shall not be required for ducts serving heat or energy recovery ventilators that are not integrated with ducts serving heating or cooling systems.

**3.** Exception 3: Visual verification by Authority having Jurisdiction, approved agency or licensed inspector.

A written report of the results of the test shall be signed by the party conducting the test and provided to the building official.

**N1103.3.4 (R403.3.4) Duct leakage (Mandatory) - Deleted.**

**N1103.3.5 Building cavities - Amendatory.** Building framing cavities shall not be used as supply ducts.

**N1103.4 Mechanical system piping insulation - Amendatory.** Mechanical system piping capable of carrying fluids greater than 120 degrees Fahrenheit (49 degrees Celsius) or less than 55 degrees Fahrenheit (13 degrees Celsius) shall be insulated to an R-value of not less than R-3 or to the manufacturer's installation instructions, whichever is more stringent.

**N1103.4.1 (R403.4.1) Protection of piping insulation - Deleted.**

**N1103.5 Circulation service hot water systems - Amendatory.** Energy conservation measures for circulation service potable hot water systems shall be in accordance with Sections N1103.5.1 and N1103.5.2.

**N1103.5.1 Heated water circulation and temperature systems (Mandatory) - Amendatory.** Heated water circulation systems shall be in accordance with Section R1103.5.1.1. Heat trace temperature maintenance systems shall be in accordance with Section R1103.5.1.2. Automatic controls, temperature sensors and pumps shall be accessible. Manual controls shall be readily accessible.

**N1103.5.1.1 Circulation systems - Amendatory.** Heated water circulation systems shall be provided with a circulation pump. The system return pipe shall be a dedicated return pipe or a cold water supply pipe. Gravity and thermo-syphon circulation systems shall be prohibited. Controls for circulating hot water system pumps shall start the pump based on the identification of a demand for hot water within the occupancy. The controls shall automatically turn off the pump when the water in the circulation loop is at the desired temperature and when there is no demand for hot water.

**N1103.5.1.2 Heat trace systems - Amendatory.** Electric heat trace systems shall comply with IEEE 515.1 or UL 515. Controls for such systems shall automatically adjust the energy input to the heat tracing to maintain the desired water temperature in the piping in accordance with the times when heated water is used in the occupancy.

**N1103.5.2 Demand recirculation systems - Amendatory.** A water distribution system having one or more recirculation pumps that pump water from a heated water supply pipe back to the heated water source through a cold water supply pipe shall be a demand recirculation water system. Pumps shall have controls that comply with both of the following:

**(A)** The control shall start the pump upon receiving a signal from the action of a user of a fixture or appliance, sensing the presence of a user of a fixture or sensing the flow of hot or tempered water to a fixture, fitting or appliance.

**(B)** The control shall limit the temperature of the water entering the cold water piping to 104 degrees Fahrenheit (40 degrees Celsius).

**N1103.5.3 (R403.5.3) Hot water pipe insulation - Amendatory.** Insulation for hot water piping with a thermal resistance R-value of not less than R-3 shall be applied to the following:

**(A)** Item 1. Piping 1 inch (25 mm) and larger in nominal diameter.

**(B)** Item 2. Piping serving more than one dwelling unit.

**(C)** Item 3. Piping located outside the conditioned space.

**(D)** Item 4. This item has been stricken from the code.

**(E)** Item 5. This item has been stricken from the code.

**(F)** Item 6. Buried piping

**(G)** Item 7. Supply and return piping in recirculation systems other than demand recirculation systems.

**N1103.5.4 (R403.5.4) Drain water heat recovery units - Deleted.**

**N1103.6 Mechanical ventilation - Amendatory.** Outdoor air intakes shall have automatic or gravity dampers that close when the ventilation system is not operating.

**N1103.6.1 (R403.6.1) Whole-house mechanical ventilation system fan efficacy - Deleted.**

**Table N1103.6.1 (R403.6.1) Mechanical ventilation system fan efficacy - Deleted.**

**N1103.7 (R403.7) Equipment sizing and efficiency rating - Amendatory.** Heating and cooling equipment shall be sized in accordance with ACCA Manual S based on building loads calculated in accordance with ACCA Manual J or other approved heating and cooling calculation methodologies. New or replacement heating and cooling equipment shall have an efficiency rating equal to or greater than the minimum required by federal law for geographic location where the equipment is installed. Documentation demonstrating compliance with this section is to be provided to the authority having jurisdiction at the time a Mechanical Permit is requested on new one- and two-family dwellings and townhouses.

**N1103.8 (R403.8) Systems serving multiple dwelling units (Mandatory) - Deleted.**

**N1103.9 Snow melt system controls - Amendatory.** Snow- and ice-melting systems, supplied through energy service to the building shall include automatic controls capable of shutting off the system when the pavement temperature is above 50 degrees Fahrenheit (10 degrees Celsius), and no precipitation is falling and an automatic or manual control that will allow the shutoff when the outdoor temperature is above 40 degrees Fahrenheit (5 degrees Celsius).

**N1103.10 Pools - Amendatory.** Pools shall be provided with energy conservation measures in accordance with Sections N1103.10.2 through N1103.10.4.

**N1103.10.1 (R403.10.1) Residential pools and permanent residential spas - Deleted; Section number retained but unused.**

**N1103.10.2 Pool heaters - Amendatory.** All pool heaters shall be equipped with a readily accessible on-off switch to allow shutting off the heater without adjusting the thermostat setting. Pool heaters fired by natural gas or LPG shall not have continuously burning pilot lights.

**N1103.10.3 Time switches - Amendatory.** Time switches that can automatically turn off and on heaters and pumps according to a preset schedule shall be installed on swimming pool heaters and pumps.

**Exceptions:** Time switches shall not be installed where:

**(A)** Public health standards require 24-hour pump operation.

**(B)** Pumps are required to operate solar- and waste-heat-recovery pool heating systems.

**N1103.10.4 Pool covers - Amendatory.** Pools heated to more than 90 degrees Fahrenheit (32 degrees Celsius) shall have a pool cover with a minimum insulation value of R-12.

**N1103.11 (R403.11) Portable spas (Mandatory) - Deleted.**

**N1103.12 (R403.12) Residential pools and permanent residential spas - Deleted.**

**N1104 Lighting Systems - Amendatory.**

**N1104.1 Lighting equipment - Amendatory.** Not less than 75 percent of the lamps in permanently installed luminaries shall be high-efficacy lamps or not less than 75 percent of the permanently installed luminaries shall contain only high-efficacy lamps.

**Exception:** Low-voltage lighting is not subject to this requirement.

**N1104.1.1 (R401.1) Lighting equipment (Mandatory) - Deleted.**

**N1105 (R405) Simulated performance alternative (Performance) - Deleted.**

**Section N1105.4.2 (R405.4.2) Compliance report - Added.**

**(A)** Compliance software tools shall generate a report that documents that the proposed design complies with Section N1105.3. A compliance report on the proposed design shall be submitted with the application for the building permit. Upon completion of the building, a compliance report based on the as-built condition of the building shall be submitted to the building official before a certificate of occupancy is issued. Batch sampling of buildings to determine energy code compliance shall only be allowed for stacked multiple-family units.

**(B)** Compliance shall include information in accordance with Sections N1105.4.2.1 and N1105.4.2.2 When the proposed design of a building will be built on different sites where the cardinal orientation of the building on each site is different, compliance of the proposed design for the purposes of the application for the building permit shall be based on the worst-case orientation, worst-case configuration, worst-case building air leakage and worst-case duct leakage. Such worst-case parameters shall be used as inputs to the compliance software energy analysis.

**N1106 (R406) Energy rating index compliance alternative - Deleted.**

**Table N1106.4 (R406.4) Maximum Energy Rating Index - Added.**

| CLIMATE ZONE | ENERGY RATING INDEX |
|---|---|
| 3 | 64 |

**N1107 (R501) Existing Buildings - General - Deleted.**

**N1108 (R502) Additions - Deleted.**

**N1109 (R503) Alterations - Deleted.**

**N1110 (R504) Repairs - Deleted.**

**N1111 (R505) Change of occupancy or use - Deleted.**

**Part V Mechanical**

**M1308.2.4. Protection of refrigerant lines - Added.** Refrigerant lines shall not be installed less than one and one-half (1½) inches from the bottom side of roof decking unless protected from damage by an approved method.

**M1401.3 Equipment and appliance sizing - Amendatory.** Heating and cooling equipment and appliances shall be sized in accordance with ACCA Manual S or other approved sizing methodologies based on building loads calculated in accordance with ACCA Manual J or other approved heating and cooling calculation methodologies. Documentation demonstrating compliance with this section is to be provided to the authority having jurisdiction at the time a mechanical permit is required on new one- and two-family dwellings and townhouses.

**M1402.1 General - Amendatory.** Oil-fired central furnaces shall conform to ANSI/UL 727. Electric furnaces shall conform to UL 1995 or UL/CSA 60335-2-40.

**M1403.1 Heat pumps - Amendatory.** Electric heat pumps shall be listed and labeled in accordance with UL 1995 or UL/CSA 60335-2-40.

**M1411.8 Locking access port caps - Amendatory.** Refrigerant circuit access ports located outdoors shall be fitted with locking-type tamper-resistant caps or shall be otherwise secured to prevent unauthorized access. Shall apply to new and retrofit outdoor condensers only.

**M1412.1 Approval of equipment - Amendatory.** Absorption systems shall be installed in accordance with the manufacturer's instructions. Absorption equipment shall comply with UL 1995 or UL/CSA 60335-2-40.

**M14013.1 General - Amendatory.** Evaporative cooling equipment and appliances shall comply with UL 1995 or UL/CSA 60335-2-40 and shall be installed:

**M1502.3 Duct termination - Amendatory.** Exhaust ducts shall terminate on the outside of the building. Exhaust duct terminations shall be in accordance with the dryer manufacturer's installation instructions. If the manufacturer's instructions do not specify a termination location, the exhaust duct shall terminate not less than 3 feet (914 mm) in any direction from the openings into buildings nor less than 12 inches from finished ground level or other obstacles. Exhaust duct terminations shall be equipped with a backdraft damper. Additionally, exhaust shall not terminate within 3 feet (914 mm) of condensing units and a minimum 12 inches (305 mm) from the ground or any obstruction. Screens shall not be installed at the duct termination. Existing dryer terminations shall be exempt.

**M1502.4.2 Duct installation - Amendatory.** Exhaust ducts shall be supported at 4 feet (1219 mm) intervals and secured in place. The insert end of the duct shall extend into the adjoining duct or fitting in the direction of airflow. Ducts shall not be joined with screws or similar fasteners that protruded into the inside of the duct. Where dryer exhaust ducts are enclosed in wall or ceiling cavities, such cavities shall allow the installation of the duct without deformation.

## TABLE N1601.1.1

| DUCT SIZE | GALVANIZED | | APPROXIMATE ALUMINUM B & S GAGE |
|---|---|---|---|
| | Minimum thickness (inches) | Equivalent Galvanized Gage No. | |
| Round ducts and enclosed rectangular ducts | | | |
| 14" or less | 0.013 | 30 | 26 |
| Over 14" | 0.016 | 28 | 24 |
| Exposed rectangular ducts | | | |
| 14" or less | 0.016 | 28 | 24 |
| Over 14" | 0.019 | 26 | 22 |
| For SI: 1 inch = 25.4 mm. | | | |
| a. Ductwork that exceeds 20 inches by dimension or exceeds a pressure of 1 inch water gage (250Pa) shall be constructed in accordance with *SMACNA HVAC Duct Construction Standards Metal and Flexible*. | | | |

**Section M1601.4.1 Joints, seams, and connections - Amendatory.**

Longitudinal and transverse joints, seams and connections in metallic and nonmetallic ducts shall be constructed as specified in SMACNA HVAC Duct Construction Standards-Metal and Flexible and NAIMA Fibrous Glass Duct Construction Standards. Joints, longitudinal and transverse seams and connections in ductwork shall be securely fastened and sealed with welds, gaskets, mastics (adhesive), mastic-plus-embedded-fabric systems, liquid sealants or tapes. Tapes and mastics used to seal fibrous glass ductwork shall be listed and labeled in accordance with UL 181A and shall be marked "181A-P" for pressure-sensitive tape, "181 A-M" for mastic or "181 A-H" for heat sensitive tape.

Tapes and mastics used to seal metallic and flexible air ducts and flexible air connectors shall comply with UL 181B and shall be marked "181 B-FX" for pressure-sensitive tape or "181 BM" for mastic. Duct connections to flanges of air distribution system equipment shall be sealed and mechanically fastened. Mechanical fasteners for use with flexible nonmetallic air ducts shall comply with UL 181B and shall be marked 181B-C. Crimps joints for round metallic ducts shall have a contact lap of not less than 1 inch (25 mm) and shall be mechanically fastened by means of not less than three sheet-metal screws or rivets equally spaced around the joint.

Closure systems used to seal all ductwork shall be installed in accordance with the manufacturers' instructions.

**Exceptions:**

**(i)** Spray polyurethane foam shall be permitted to be applied without additional joint seals.

**(ii)** Where a duct connection is made that is partially inaccessible, three screws or rivets shall be equally spaced on the exposed portion of the joint so as to prevent a hinge effect.

**(iii)** For ducts having a static pressure classification of less than 2 inches of water column (500 Pa), additional closure systems shall not be required for continuously welded joints and seams and locking-type joints and seams of other than the snap-lock and button-lock types.

**(iv)** For duct systems with sheet metal plenums, Y's and supply boots, only liquid applied sealants complying with UL 181 BM (Mastic or similar) or equivalent method, shall be used to seal inner liners and start collars to plenum and any other seams in system.

**M1903.1.1 Electrical requirements - Amendatory.** In addition to the requirements of M1903.1, interconnection and all associated wiring shall be installed in accordance with NFPA 70, NEC®, 2017, Article 692 Fuel Cell Systems.

**PART VI - SOLAR THERMAL ENERGY SYSTEMS**

**M2301.2.21 Roof-mounted collectors - Amendatory.** The roof shall be constructed to support the loads imposed by roof-mounted solar collectors. Roof-mounted solar collectors that serve as a roof covering shall conform to the requirements for roof coverings in Chapter 9 of this code. Where mounted on or above the roof coverings, the collectors and supporting structure shall be constructed on noncombustible materials or fire-retardant-treated wood equivalent to that required for roof construction. A mechanical means of disconnect shall be installed on piping to allow the disconnecting and removal of collectors for service or replacement of the roof.

**PART VII - FUEL GAS.**

**G2413.1 General Considerations - Amendatory.** Piping systems shall be of such size and so installed as to provide a supply of gas sufficient to meet the maximum demand and supply gas to each appliance inlet at not less than the minimum supply pressure required by the appliance, but not less than one (1) inch to the first connected appliance.

**G2415.7.4 Protection of gas piping other than steel - Added.** Gas piping other than steel shall not be installed less than one and one-half (1½) inches from the bottom side of roof decking unless protected from damage by an approved method.

**G2415.12 Minimum burial depth - Amendatory.** Underground piping systems shall be installed a minimum depth of 18 inches (457.5 mm) below grade, except as provided for in Section G2415.12.1.

**G2415.13.1 Separation of gas piping from other piping systems - Added.** There shall be a minimum 12 inches of undisturbed or compacted earth separation between buried gas piping and any other electrical service lines, water piping or sewer piping systems.

**G2417.4.1 Test pressure - Amendatory.** The test pressure to be used shall be no less than 1½ times the proposed maximum working pressure, but not less than three (3) psi on a five (5) psi gauge registered in one-tenth pound increments or ten (10) psi on a thirty (30) psi gauge registered in one (1) pound increments. Where the test pressure exceeds 125 psig (862 kpa gauge), the test pressure shall not exceed a value that produces a hoop stress in the piping greater than 50 percent of the specified minimum yield strength of the pipe.

**G2417.6.2.1 General - Added.** At least one appliance shall be connected prior to final release of the gas meter.

**G2420.3.1 Location of Shut-off Valves - Added.**

**A.** Outlets for the individual manufactured homes and gas piping to any building supplied by the system shall be provided with a readily accessible, approved valve which cannot be locked in the open position.

**B.** A readily accessible valve shall be provided near the point of gas delivery for shutting off the entire manufactured home park system. The valve provided by the serving gas supplier may be considered acceptable for this purpose, provided it is readily accessible.

**G2420.5.4 Location, Protection and Sizing - Added.** The gas riser and shut-off valve to each manufactured home site shall be placed in the rear one-third section of the site, within eighteen (18) inches of the roadside wall of the manufactured home (ie., the right side of the manufactured home when viewing the tongue of the manufactured home). It shall be located and protected or supported so as to minimize the likelihood of damage by moving vehicles. The minimum size of the gas piping outlet at such site shall be three-fourths (¾) inch for other than undiluted liquefied petroleum gases.

**PART VIII - PLUMBING**

**P2503.4 Building sewer testing - Amendatory.**

**A.** Where required by local authority having jurisdiction, the building sewer shall be tested by insertion of a test plug at the point of connection with the public sewer, filling the building sewer with water and pressurizing the sewer to not less than 5-foot (1524 mm) head of water. The test pressure shall not decrease during a period of not less than 15 minutes. The building sewer shall be watertight at all points.

**B.** A forced sewer test shall consist of pressuring the piping to a pressure of not less than 5 psi (34.5 kPa) greater than the pump rating and maintaining such pressure for not less than 15 minutes. The forced sewer shall be watertight at all points.

**P2503.7 Water-supply system testing - Amendatory.** Upon completion of the water-supply system or a section of it, the system or portion completed shall be tested and proved tight under a water pressure of not less than the working pressure of the system or, for piping systems other than PVC or CPVC, by an air test of not less than fifty (50) psi (345 kPa). This pressure shall be held for not less than fifteen (15) minutes. The water used for tests shall be obtained from a potable water source.

**P2603.2.1 Protection against physical damage - Amendatory.** In concealed locations, where piping, other than cast-iron or galvanized steel, is installed through holes or notches in studs, joists, rafters or similar members less than 1½ inches (38 mm) from the nearest edge of the member, the pipe shall be protected by steel shield plates. Such shield plates shall have a thickness of not less than 0.0575 inch (1.463mm) (No. 16 Gage). Such plates shall cover the area of the pipe where the member is notched or bored and shall extend not less than 2 inches (51 mm) above sole plates and below top plates.

**P2603.4 Pipes through foundation walls - Amendatory.** A pipe that passes through a foundation wall shall be provided with a relieving arch, or a pipe sleeve shall be built into the foundation wall. The relieving arch or pipe sleeve shall conform to one of the materials listed in Table P3002.1(2). The sleeve shall be two pipe sizes greater than the pipe passing through the wall.

**P2603.5.1 Sewer depth - Amendatory.** Building sewers that connect to private sewage disposal systems shall be not less than 12 inches (305 mm) or as approved by the authority having jurisdiction below finished grade at the point of septic tank connection. Building sewers shall be not less than 12 inches (305 mm) below grade.

**P2704.1 General - Amendatory.** Slip joints shall be made with an approved elastomeric gasket and shall be installed from the fixture to within eighteen (18) inches downstream of the trap outlet seal. Fixtures with concealed slip-joint connections shall

be provided with an access panel or utility space at least twelve (12) inches (305 mm) in its smallest dimension or other approved arrangement so as to provide access to the slip-joint connections for inspection and repair.

**P2705.1 General - Added.** The installation of fixtures shall conform to the following: 9: Vanity countertops shall be permitted to extend a maximum of 1.5 inches (38.1 mm) into the water closet floor space.

**P2709.2 Lining required - Amendatory.**

Where required, the adjoining walls and floor framing which enclose on-site built-up shower receptors shall be lined with one (1) of the following materials:

**1.** Sheet lead,

**2.** Sheet copper,

**3.** Plastic liner material that complies with ASTM D 4068 or ASTM D 4551,

**4.** Hot mopping in accordance with Section P2709.2.3, or

**5.** Sheet-applied load bearing, bonded waterproof membranes that comply with ANSI A118.10.

The lining material shall extend not less than three (3) inches (76 mm) beyond or around the rough jambs and not less than three (3) inches (76 mm) above finished thresholds. Sheet-applied load bearing, bonded waterproof membranes shall be applied in accordance with the manufacturer's installation instructions.

**P2715.1 Laundry tray waste outlet - Amendatory.** Each compartment of a laundry tray shall be provided with a waste outlet not less than one and one-half (1½) inches (38 mm) in diameter and a strainer or crossbar to restrict the clear opening of the waste outlet.

**P2802.3 Solar Water heater panels means of disconnect - Amendatory.** When solar water heater panels are installed on the roof, a union shall be installed on all piping entering and exiting the solar panel to allow a mechanical means of disconnect for service or replacement of the roof.

**P2902.5.3 Lawn irrigation systems - Amendatory.** The potable water supply to lawn irrigation systems shall be protected against backflow by an atmospheric vacuum breaker, a pressure vacuum breaker assembly, a spill-resistant vacuum breaker, or a reduced pressure principle backflow prevention assembly. Valves shall not be installed downstream from an atmospheric vacuum breaker. Where chemicals are introduced into the system, the potable water supply shall be protected against backflow by a reduced pressure principle backflow prevention assembly.

**P2903.9.1 Service valve - Amendatory.** Each dwelling unit shall be provided with an accessible main shutoff valve near the entrance of the water service. The valve shall be of a full-open type having nominal restriction to flow. Additionally, the water service shall be valved at the curb or property line in accordance with local requirements.

**P2903.10 Hose bibb - Amendatory.** Hose bibbs subject to freezing, including the "frost-proof" type, shall be equipped with an accessible valve inside the building so that they can be controlled and/or drained during cold periods.

**Section P2904.1.1 Required sprinkler locations - Amendatory.** Sprinklers shall be installed to protect all areas of a townhouse dwelling unit.

**P2906.4 Water service pipe - Amendatory.** Water service pipe shall conform to NSF 61 and shall conform to one (1) of the standards listed in Table P2906.4. Water service pipe or tubing, installed underground and outside of the structure, shall have a minimum working pressure rating of not less than one hundred sixty (160) pounds per square inch at 73°F (1103 kPa at 23°C). Where the water pressure exceeds one hundred sixty (160) pounds per square inch (1103 kPa), piping material shall have a rated working pressure equal to or greater than the highest available pressure. Water service piping materials not third-party certified for water distribution shall terminate at least thirty (30) inches outside the exterior wall. Ductile iron water service piping shall be cement mortar lined in accordance with AWWA C104/A21.4.

**Table P2906.4 Water Service Pipe — Amendatory.**

| MATERIAL | STANDARD |
|---|---|
| Acrylonitrile butadiene styrene (ABS) plastic pipe | ASTM D 1527; ASTM D 2282 |
| Brass pipe | ASTM B 43 |
| Chlorinated polyvinyl chloride (CPVC) plastic pipe | ASTM D 2846; ASTM F 441; ASTM F 442; CSA B 137.6 |
| Copper or copper-alloy pipe | ASTM B 42; ASTM B 302 |
| Copper or copper-alloy tubing (Type K, WK, L, WL, M or WM) | ASTM B 75; ASTM B 88; ASTM B 251; ASTM B 447 |
| Cross-linked polyethylene/aluminum/cross-linked polyethylene (PEX-AL-PEX) pipe | ASTM F 1281; ASTM F 2262; CSA B 137.10M |
| Cross-linked polyethylene/aluminum/high-density polyethylene (PEX-AL-HDPE) | ASTM F 1986 |
| Cross-linked polyethylene (PEX) plastic tubing | ASTM F 876; ASTM F 877; CSA B 137.5 |
| Ductile iron water pipe | AWWA C151; AWWA C115 |
| Galvanized steel pipe | ASTM A 53 |
| Polyethylene/aluminum/polyethylene (PE-AL-PE) pipe | ASTM F 1282; CSA CAN/CSA-B137.9M |
| Polyethylene (PE) plastic pipe | ASTM D 2104; ASTM D 2239; CSA-B137.1 |
| Polyethylene (PE) plastic tubing | ASTM D 2737; CSA B137.1 |
| Polypropylene (PP) plastic pipe or tubing | ASTM F 2389; CSA B137.11 |
| Polyvinyl chloride (PVC) plastic pipe | ASTM D 1785; ASTM D 2241; ASTM D 2672; CSA B137.3 |
| Stainless steel (Type 304/304L) pipe | ASTM A 312; ASTM A 778 |
| Stainless steel (Type 316/316L) pipe | ASTM A 312; ASTM A 778 |

**P2906.9.1.4 PVC plastic pipe - Amendatory.** A clear or purple primer, or other approved primer that conforms to ASTM F 656 shall be applied to PVC solvent-cemented joints. Solvent cement for PVC plastic pipe conforming to ASTM D 2564 shall be applied to all joint surfaces.

**P3003.2 Prohibited joints - Amendatory.** Running threads and bands shall not be used in the drainage system. Drainage and vent piping shall not be drilled, tapped, burned or welded. The following types of joints and connections shall be prohibited:

**1.** Cement or concrete.

**2.** Mastic or hot-pour bituminous joints.

**3.** Joints made with fittings not approved for the specific installation.

**4.** Joints between different diameter pipes made with elastomeric rolling O-rings.

**5.** Solvent-cement joints between different types of plastic pipe.

**6.** Saddle-type fittings.

**Exception:** Saddle-type fittings may be used to connect the building sewer to a public sewer.

**P3003.9.2 Solvent cementing - Amendatory.** Joint surfaces shall be clean and free from moisture. A purple primer that conforms to ASTM F656 shall be applied. Solvent cement not purple in color and conforming to ASTM D2564, CSA B137.3 or CSA B181.2 shall be applied to all joint surfaces. The joint shall be made while the cement is wet and shall be in accordance with ASTM D2855. Solvent-cement joints shall be installed above or below ground.

**P3005.2.12 Cleanout Requirements for Residential Construction - Added.** All bathtub, lavatory, kitchen sink, mop or utility sink, and washing machine drains shall have an accessible cleanout which will allow for the cleaning or rodding of the drain line.

**A.** Cleanouts shall be the removable trap or threaded plug type and shall be the same diameter or greater than the pipe served.

**B.** When two (2) drains are combined with a sanitary cross fitting, a threaded plug-type cleanout shall be installed immediately upstream of the sanitary cross fitting.

**C.** Shower drains with two (2) inch traps are not required to have a cleanout if the developed length of the shower drain is no more than ten (10) feet in length.

**D.** Besides the main cleanout for the building sewer located just outside and downstream of the residence, a second cleanout shall be located upstream of the first floor water closet plumbed the greatest distance from the point the building sewer leaves the residence. This cleanout shall be the same diameter as the pipe it serves and be located at ground level and within five (5) feet of the building, or in the outside wall no higher than two (2) feet above ground level.

**P3008.1 Sewage backflow - Amendatory.** Where the flood level rims of plumbing fixtures are below the elevation of the manhole cover of the next upstream manhole in the public sewer, the fixtures shall be protected by a backwater valve installed in the building drain, branch of the building drain or horizontal branch serving such fixtures.

**PART VIII—ELECTRICAL**

**E3402.2 Penetrations of fire-resistance-rated assemblies - Amendatory.** Electrical installations in hollow spaces, vertical shafts and ventilation or air-handling ducts shall be made so that the possible spread of fire or products of combustion will not be substantially increased. Electrical penetrations through fire-resistance-rated walls, partitions, floors or ceilings shall be protected by approved methods to maintain the fire-resistance rating of the element penetrated. Penetrations of fire-resistance-rated walls shall be limited as specified in Section R302.4 (300.21).

**E3403.3 Listing and labeling - Amendatory.** Electrical materials, components, devices, fixtures and equipment shall be listed for the application, in accordance with NFPA 70, shall bear the label of an approved agency and shall be installed, and used, or both, in accordance with the manufacturer's installation instructions. [110.3(B)]

**E3404.7 Integrity of electrical equipment - Amendatory.** Internal parts of electrical equipment, including busbars, wiring terminals, insulators and other surfaces, shall not be damaged or contaminated by foreign materials such as paint, plaster, cleaners or abrasives, and corrosive residues. There shall not be any damaged parts that might adversely affect safe operation or mechanical strength of the equipment such as parts that are broken; bent; cut; deteriorated by corrosion, chemical action, or overheating. Foreign debris shall be removed from equipment. Damaged materials, equipment, appliances, and devices shall not be reused unless such elements have been reconditioned, tested, and placed in good and proper working condition and approved by a Nationally Recognized Testing Laboratory (NRTL), or by the manufacturer of the equipment. Electrical equipment damaged by natural or manmade events shall be reused only as recommended by the manufacturer of such equipment. [110.12(B)]

**E3501.1 Scope - Amendatory. Definition added.**

**UNFINISHED ROOM.** A room with either the floor decking and/or heating/air conditioning not installed.

**E3604.3 Point of Attachment - Amendatory.** The point of the overhead service entrance and attachment to the electric utility company's service wires on a building shall be a minimum of ten (10) feet above finished grade.

**Exception:** For existing structures with new overhead services, the point of attachment shall be nine (9) feet above the ground; and clearances shall be provided as required by the National Electrical Code.

**E3604.5 Service masts as supports - Amendatory.** Where a service mast is used for the support of service-drop conductors, it shall be of adequate strength or be supported by braces or guys to withstand the strain imposed by the service drop. Where raceway-type service masts are used, all equipment shall be approved. Only power service drop conductors shall be permitted to be attached to a service mast. The minimum size of rigid metal conduit (RMC) shall be two (2) inches for services up to and including two hundred (200) amperes, and two and one-half (2½) inches for services over two hundred (200) amperes.

**E3604.7 Compliance with Utility Company Regulations - Added.** All electric metering equipment, the ownership and responsibility for which rests with the electric utility company furnishing electricity to such meter, shall be placed, wired, installed and equipped in accordance with the rules and regulations of such electric utility company.

**E3702.3 Fifteen- and 20-ampere branch circuits - Amendatory.** A 15- or 20-ampere branch circuit shall be permitted to supply lighting units, or other utilization equipment, or a combination of both. The rating of any one cord-and-plug connected utilization equipment not fastened in place shall not exceed 80 percent of the branch-circuit ampere rating. The total rating of utilization equipment fastened in place, other than luminaries, shall not exceed 50 percent of the branch-circuit ampere rating where lighting units, cord-and-plug connected utilization equipment is not

fastened in place, or both, are also supplied. 20-Ampere general-purpose branch circuits shall supply a maximum of 10 outlets. 15-Ampere general-purpose branch circuits shall supply a maximum of 8 outlets. [210.23(A)(1) and (2)]

**E3901.1.1 Unfinished Rooms - Added.** Unfinished rooms located within new dwellings are not required to comply with this code as to the number and placement of receptacles and luminaries.

**E4003.12.1 Luminaires in Dwelling Unit Dressing Rooms - Added.** The dressing room is a room designed for the purpose of storage of clothing, which permits incandescent luminaires with open or partially enclosed lamps and pendant luminaires or lampholders when the dressing room shall have a distance of fifty-four (54) inches or greater from the sides and back of the closet walls, respectively, and continuing vertically to the closet ceiling parallel to the walls at a horizontal distance of the same. The dressing room may have incandescent luminaires with open or partially enclosed lamps and pendant light fixtures where the distance to the combustibles in any configuration is thirty (30) inches or greater to the nearest edge of the luminaire.

**E4206.4.1 Luminaires - Amendatory.** Luminaires shall not operate above the low-voltage contact limit as defined in E4202.1. [680.23(A)(4)].

**APPENDIX Q TINY HOUSES**

Appendix Q relaxes various requirements in the body of the code as they apply to houses that are 400 square feet in area or less. Attention is specifically paid to features such as compact stairs, including stair handrails and headroom, ladders, reduced ceiling heights in lofts and guard and emergency escape and rescue opening requirements at lofts.

**SECTION AQ101. - GENERAL.**

**AQ101.1 Scope.** This appendix shall be applicable to tiny houses used as single dwelling units. Tiny houses shall comply with this code except as otherwise stated in this appendix.

**SECTION AQ102. - DEFINITIONS.**

**AQ102.1 General.** The following words and terms shall, for the purposes of this appendix, have the meanings shown herein. Refer to Chapter 2 of this code for general definitions.

**EGRESS ROOF ACCESS WINDOW.** A skylight or roof window designed and installed to satisfy the emergency escape and rescue opening requirements of Section R310.2.

**LANDING PLATFORM.** A landing provided as the top step of a stairway accessing a loft.

**LOFT.** A floor level located more than 30 inches (762 mm) above the main floor, open to the main floor on one or more sides with a ceiling height of less than 6 feet 8 inches (2032 mm) and used as a living or sleeping space.

**TINY HOUSE.** A dwelling that is 400 square feet (37 m2) or less in floor area excluding lofts. Also called "Tiny Home", "Micro-Unit", "Micro House" or similar name.

**SECTION AQ103. - CEILING HEIGHT.**

**AQ103.1 Minimum ceiling height.** Habitable space and hallways in tiny houses shall have a ceiling height of not less than 6 feet 8 inches (2032 mm). Bathrooms, toilet

rooms and kitchens shall have a ceiling height of not less than 6 feet 4 inches (1930 mm). Obstructions including, but not limited to, beams, girders, ducts and lighting, shall not extend below these minimum ceiling heights.

**Exception:** Ceiling heights in lofts are permitted to be less than 6 feet 8 inches (2032 mm).

**SECTION AQ104. - LOFTS.**

**AQ104.1 Minimum loft area and dimensions.** Lofts used as a sleeping or living space shall meet the minimum area and dimension requirements of Sections AQ104.1.1 through AQ104.1.3.

**AQ104.1.1 Minimum area.** Lofts shall have a floor area of not less than 35 square feet (3.25 m2).

**AQ104.1.2 Minimum dimensions.** Lofts shall be not less than 5 feet (1524 mm) in any horizontal dimension.

**AQ104.1.3 Height effect on loft area.** Portions of a loft with a sloped ceiling measuring less than 3 feet (914 mm) from the finished floor to the finished ceiling shall not be considered as contributing to the minimum required area for the loft.

**Exception:** Under gable roofs with a minimum slope of 6 units vertical in 12 units horizontal (50-percent slope), portions of a loft with a sloped ceiling measuring less than 16 inches (406 mm) from the finished floor to the finished ceiling shall not be considered as contributing to the minimum required area for the loft.

**AQ104.2 Loft access.** The access to and primary egress from lofts shall be of any type described in Sections AQ104.2.1 through AQ104.2.4.

**AQ104.2.1 Stairways.** Stairways accessing lofts shall comply with this code or with Sections AQ104.2.1.1 through AQ104.2.1.5.

**AQ104.2.1.1 Width.** Stairways accessing a loft shall not be less than 17 inches (432 mm) in clear width at or above the handrail. The width below the handrail shall be not less than 20 inches (508 mm).

**AQ104.2.1.2 Headroom.** The headroom in stairways accessing a loft shall be not less than 6 feet 2 inches (1880 mm), as measured vertically, from a sloped line connecting the tread or landing platform nosings in the middle of their width.

**AQ104.2.1.3 Treads and risers.** Risers for stairs accessing a loft shall be not less than 7 inches (178 mm) and not more than 12 inches (305 mm) in height. Tread depth and riser height shall be calculated in accordance with one of the following formulas:

1. The tread depth shall be 20 inches (508 mm) minus four-thirds of the riser height.
2. The riser height shall be 15 inches (381 mm) minus three-fourths of the tread depth.

**AQ104.2.1.4 Landing platforms.** The top tread and riser of stairways accessing lofts shall be constructed as a landing platform where the loft ceiling height is less than 6 feet 2 inches (1880 mm) where the stairway meets the loft. The landing platform shall be 18 inches to 22 inches (457 to 559 mm) in depth measured from the nosing of the landing platform to the edge of the loft, and 16 to 18 inches (406 to 457 mm) in height measured from the landing platform to the loft floor.

**AQ104.2.1.5 Handrails.** Handrails shall comply with Section R311.7.8.

**AQ104.2.1.6 Stairway guards.** Guards at open sides of stairways shall comply with Section R312.1.

**AQ104.2.2 Ladders.** Ladders accessing lofts shall comply with Sections AQ104.2.1 and AQ104.2.2.

**AQ104.2.2.1 Size and capacity.** Ladders accessing lofts shall have a rung width of not less than 12 inches (305 mm), and 10-inch (254 mm) to 14-inch (356 mm) spacing between rungs. Ladders shall be capable of supporting a 200-pound (75 kg) load on any rung. Rung spacing shall be uniform within ⅜ inch (9.5 mm).

**AQ104.2.2.2 Incline.** Ladders shall be installed at 70 to 80 degrees from horizontal.

**AQ104.2.3 Alternating tread devices.** Alternating tread devices accessing lofts shall comply with Sections R311.7.11.1 and R311.7.11.2. The clear width at and below the handrails shall be not less than 20 inches (508 mm).

**AQ104.2.4 Ship's ladders.** Ship's ladders accessing lofts shall comply with Sections R311.7.12.1 and R311.7.12.2. The clear width at and below handrails shall be not less than 20 inches (508 mm).

**AQ104.2.5 Loft guards.** Loft guards shall be located along the open side of lofts. Loft guards shall be not less than 36 inches (914 mm) in height or one-half of the clear height to the ceiling, whichever is less.

**SECTION AQ105 - EMERGENCY ESCAPE AND RESCUE OPENINGS**

**AQ105.1 General.** Tiny houses shall meet the requirements of Section R310 for emergency escape and rescue openings.

**Exception:** Egress roof access windows in lofts used as sleeping rooms shall be deemed to meet the requirements of Section R310 where installed such that the bottom of the opening is not more than 44 inches (1118 mm) above the loft floor, provided the egress roof access window complies with the minimum opening area requirements of Section R310.2.1.

*(Ord. No. 24935, § 1, 10-26-2022; Ord. No. 25021, § 1, 4-19-2023)*

### Section 202. Protection of existing rights and remedies.

Nothing in this chapter shall be construed to affect any suit or proceeding pending in any court, or any rights acquitted, or liability incurred, or any cause or causes of action acquired or existing under any act or provision hereby repealed; nor shall this chapter require any changes in work which has been lawfully authorized prior to the adoption of this chapter, so long as such work is actually commenced within sixty (60) days after its adoption.

*(Ord. No. 24935, § 1, 10-26-2022)*

### Section 203. Violation penalties—Amendatory.

It shall be unlawful and a misdemeanor offense for any person, firm, corporation, limited liability company or other entity to violate any of the provisions of this code, fail to comply with any of the requirements thereof, or to erect, construct, alter, repair or change the occupancy of any building or structure in violation of an approved plan or directive of the building official or of a permit or certificate issued under the provisions of this code. Any person, firm, corporation, limited liability company or other entity convicted of a violation of this code shall be guilty of a misdemeanor offense and shall be punished by a fine of not

more than One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees, and assessments, or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day, or portion thereof, during which a violation is committed, or continued, shall be deemed a separate offense.

*(Ord. No. 24935, § 1, 10-26-2022)*

# CHAPTER 3. MANUFACTURED HOMES, MOBILE HOMES, MODULAR STRUCTURES, RECREATIONAL VEHICLES AND MOBILE HOME PARKS*

Section 300. Definitions.
Section 301. Use, occupancy and location of manufactured homes, mobile homes and modular structures.
Section 302. Temporary nonresidential use of manufactured homes, mobile homes and modular structures.
Section 303. General requirements for manufactured homes, mobile homes and recreational vehicle parks.
Section 304. Manufactured home subdivision and mobile home parks.
Section 305. Foundations and anchoring manufactured homes, mobile homes and certain recreational vehicles.
Section 306. Required inspection.
Section 307. Recreational vehicle parks.
Section 308. Flood hazard areas.
Section 309. Violation and appeal.
Section 310. Permits not transferable.
Section 311. Violation penalties.

## Section 300. Definitions.

For the purposes of this chapter, the following words and phrases shall have the meanings given herein:

**A.** **Mobile Home** shall mean a manufactured home built prior to the National Manufactured Housing Construction and Safety Act of 1974 (42 U.S.C. §§ 5401, *et seq.*); built on a permanent chassis and that complies with Standard for Mobile Homes, National Fire Protection Association (NFPA) 501, American National Standards Institute (ANSI) 119.1, in effect at the time that the unit was manufactured.

**B.** **Manufactured Home** shall mean a manufactured home built after the National Manufactured Housing Construction and Safety Act of 1974 (42 U.S.C. §§ 5401, *et seq.*).

**C.** **Mobile Home Parks** shall mean land used or intended to be used by two (2) or more mobile homes where sewer, water, gas, electric and other similar facilities are available to allow occupancy of such mobile homes as dwellings.

**D.** **Modular Structure** shall mean a transportable, non-vehicular, prefabricated structure, requiring an independent foundation, which is designed and constructed for movement from a point of fabrication to a permanent erection or location site.

**E.** **Dwelling** shall mean any structure or vehicle occupied or used primarily for a residential purpose which may or may not contain sleeping, bath, toilet, cooking and refrigeration facilities.

**F.** **Code Official** shall mean the officer or other designated authority charged with the administration and enforcement of this code.

---

***Editor's note—**Ord. No. 23590, § 1, adopted November 2, 2016, amended chapter 3 in its entirety to read as herein set out. Former chapter 3, §§ 300—309, pertained to mobile homes, modular structures, recreational vehicles and mobile home parks. See Code Comparative Table for complete derivation.

**G. Person** shall mean any individual, partnership, trust, association, corporation or combination thereof.

**H. Recreational Vehicle** shall mean a vehicular type unit designed primarily for temporary living quarters for recreational, camping or travel use, which either has its own motive power or is mounted on or towed by another vehicle and has its own potable water storage tank and waste storage tank.

A recreational vehicle may be any of the following:

1. **Motor Home** which shall mean a vehicular type unit designed to provide temporary living quarters for recreational, camping or travel use built on or permanently attached to a self-propelled motor chassis or on a chassis cab or van which is an integral part of the completed vehicle;
2. **Travel Trailer** which shall mean a vehicular unit mounted on wheels, designed to provide temporary living quarters for recreational, camping or travel use and of such size and weight as not to require special highway permits when towed by a motorized vehicle;
3. **Camping Trailer** which shall mean a vehicular portable unit mounted on wheels and constructed with collapsible partial side walls which fold for towing by another vehicle and unfold at the campsite to provide temporary living quarters for recreational, camping or travel use; or
4. **Truck Camper** which shall mean a portable unit constructed to provide temporary living quarters for recreational, travel or camping use, consisting of a floor, roof and sides, designed to be mounted on the bed of a pickup truck.

*(Ord. No. 23590, § 1, 11-2-2016)*

## Section 301. Use, occupancy and location of manufactured homes, mobile homes and modular structures.

The use, occupancy and location of manufactured homes, mobile homes and modular structures are governed by the provisions of the zoning code of the City of Tulsa, Title 42, Tulsa Revised Ordinances.

*(Ord. No. 23590, § 1, 11-2-2016)*

## Section 302. Temporary nonresidential use of manufactured homes, mobile homes and modular structures.

**A. Temporary permit required; requirements for issuance established.** Any person who desires to use a manufactured home, mobile home or a modular structure on a temporary basis for a field or local branch office, demonstration or for a charitable and nonprofit purpose, may do so upon issuance of a temporary mobile home permit by the code official of the City of Tulsa. The prospective user shall apply for such permit by filing a written application with the code official, accompanied by a nonrefundable application as set forth in Title 49, Tulsa Revised Ordinances. Such application shall include the exact location where the manufactured home, mobile home or modular structure will be placed, a full explanation and description of the use or activity which will be conducted within the manufactured home, mobile home or modular structure, and a statement specifying the period of time for which such temporary use will be required.

Upon a finding by the code official that the proposed use is permitted by this section, that such use will not exceed twelve (12) months in duration and upon the applicant's

posting a cash or surety removal bond as hereinafter required, the code official shall issue a temporary manufactured home, mobile home permit for any requested period of time not exceeding twelve (12) months.

The issuance of a temporary manufactured home or mobile home permit authorized by this section shall require the issuance of a zoning clearance certificate, but shall not require an occupancy certificate as provided by the building code of the City of Tulsa, Chapter 1, Title 51, Tulsa Revised Ordinances.

**B. Permit for extended use.** The use of any property as a temporary location site for a manufactured home, mobile home or modular structure in excess of twelve (12) months shall not be considered to be a temporary use within the meaning of this section and no additional temporary permits shall be issued by the code official; provided, however, that permits for extended temporary use beyond the initial twelve (12) months may be obtained by the following persons:

**1.** Building contractors involved with an ongoing construction project on the same property on which such mobile home or modular structure is located; and

**2.** Public schools (as defined in 70 O.S.2001, § 1-106) using such mobile home or modular structure as temporary classrooms.

The code official shall either issue the requested permit for extended use or deny the application in writing, giving the reasons for such denial, within ten (10) working days after the filing of such application. No extended use permit shall be issued for a period of time exceeding twelve (12) months. Extended use permits may be re-issued by the code official upon the expiration of an existing extended use permit.

**C. Limitations upon occupancy of temporarily located manufactured homes, mobile homes and modular structures.** Holders of temporary permits and their employees may occupy a manufactured home, mobile home or a modular structure on a twenty-four (24) hour basis, provided that: (1) such occupancy is accessory and subordinate to a principal nonresidential use of the property upon which such manufactured home, mobile home or modular structure is located; and (2) such twenty-four (24) hour occupancy does not thereby establish a dwelling unit within the meaning of the zoning code of the City of Tulsa, Title 42, Tulsa Revised Ordinances, unless otherwise permitted by a zoning variance granted by the Tulsa Board of Adjustment.

*(Ord. No. 23590, § 1, 11-2-2016)*

## Section 303. General requirements for manufactured homes, mobile homes and recreational vehicle parks.

**A. Manufactured homes, mobile homes and recreational vehicles in storage.** Manufactured homes, mobile homes and recreational vehicles not intended for occupancy may be parked only in a separately designated storage area within the manufactured home subdivision, mobile home park or recreational vehicle park or in another storage area authorized under the zoning code of the City of Tulsa, Title 42, Tulsa Revised Ordinances. When the mobile home or recreational vehicle is parked in a designated storage area, no fees or permits are required. When the mobile home is stored on a mobile home lot, it shall comply with the applicable bulk and area requirements in the zoning code of the City of Tulsa, Section 403, Chapter 4, Title 42,

Tulsa Revised Ordinances, and it shall be anchored according to the building code, Chapter 1, Title 51. Recreational vehicles stored on a mobile home lot shall be parked on the parking pad.

**B. Utility connections.** Electrical, mechanical and plumbing connections, where required, shall comply with the respective codes of the City of Tulsa.

**C. Fire hydrants.** Where existing fire hydrants are farther than one thousand (1,000) feet from the most distant mobile home or recreational vehicle space, additional fire hydrants shall be provided and located as required by the Fire Marshal of the City of Tulsa. The Fire Marshal shall approve or deny submitted plans within seven (7) days after receipt thereof.

**D. Street lighting.** Street lamps shall be positioned no less than every two hundred (200) feet throughout the park. Such lamps shall be twenty (20) feet above ground level and shall contain bulbs of at least one hundred (100) watts. All lamps shall be shaded and positioned so as to avoid glare on adjoining properties.

**E. Garbage cans.** Garbage cans must be enclosed, maintained in sanitary condition and located no farther than one hundred fifty (150) feet from any mobile home or recreational vehicle space.

*(Ord. No. 23590, § 1, 11-2-2016)*

## Section 304. Manufactured home subdivision and mobile home parks.

**A. Manufactured home subdivision permit, mobile home park permit, zoning clearance permit and fees.** No manufactured home subdivision or mobile home park shall be constructed, maintained, used or occupied within the City limits of the City of Tulsa unless and until a zoning clearance permit and a manufactured home subdivision or mobile home park permit have been issued by the code official and an annual fee as set forth in Title 49, Tulsa Revised Ordinances, has been paid.

**B. Site plan required.** No mobile home park permit shall be issued to any person until a site plan of the proposed park is filed with and approved by the code official of the City of Tulsa. The site plan shall show compliance with all requirements set forth herein for mobile home parks. The site plan shall be drawn to scale and shall be sufficiently detailed to show compliance with all requirements of this chapter.

**C. Land requirements.** All mobile home parks shall be constructed, maintained and/or operated in accordance with the provisions of the zoning code of the City of Tulsa, Title 42, Tulsa Revised Ordinances.

**D. Utilities.** Connections for electricity, gas, City water and City sanitary sewer shall be provided at each mobile home space.

*(Ord. No. 23590, § 1, 11-2-2016)*

## Section 305. Foundations and anchoring manufactured homes, mobile homes and certain recreational vehicles.

**A. General.** Manufactured home and mobile home anchoring and foundation systems shall be designed by an Oklahoma licensed engineer or in accordance with the Code of Federal Regulations, Title 24, Housing and Urban Development, Subtitle B, Chapter XX, part 3285.

**B. Additional requirements.** In addition to requirements for anchoring contained in Chapter 1, Title 51, Tulsa Revised Ordinances, the following requirements shall apply:

**1.** Patio awnings shall be installed according to manufacturer's instructions;

**2.** Accessory structures on the lot shall be securely anchored;

**3.** Tip-out rooms shall be anchored by an over-the-home tie at the end of each raised section; and

**4.** Clerestory roofs shall require an over-the-home tie at the end of each raised section.

**C. Recreational vehicles.** Recreational vehicles placed in a mobile home park and used as a residence shall be anchored in accordance with the requirements specified herein for a mobile home.

*(Ord. No. 23590, § 1, 11-2-2016)*

### Section 306. Required inspection.

Prior to the issuance of a permit to locate a manufactured home or mobile home within the corporate limits of the City of Tulsa, the code official of the City of Tulsa shall be afforded reasonable access to the manufactured home or mobile home to ascertain whether unsafe conditions exist. Such official shall be afforded similar access upon application by a person for renewal or extension of any permit provided by this chapter. Such reasonable access to any mobile home shall not be denied to the code official.

*(Ord. No. 23590, § 1, 11-2-2016)*

### Section 307. Recreational vehicle parks.

**A. Recreational vehicle park zoning clearance.** No recreational vehicle (RV) park shall be constructed, maintained, used or occupied within the city limits of the City of Tulsa unless and until a zoning clearance permit and an RV park permit have been applied for, an annual permit fee as set forth in Title 49, Tulsa Revised Ordinances has been paid and the permit has been issued by the code official.

**B. Site plan required.** No recreational vehicle park permit shall be issued to any person until a site plan of the proposed park is filed with and approved by the code official of the City of Tulsa. Such site plan shall show compliance with all requirements of this chapter for recreational vehicle parks. The site plan shall be drawn to scale and of sufficient detail to show compliance with all requirements of this chapter.

**C. Auxiliary facilities.** Recreational vehicle parks shall have permanent service buildings for laundry, toilet and bath or shower facilities. Such service buildings shall be located no closer than fifteen (15) feet and no farther than six hundred (600) feet from any recreational vehicle space. Permanent service facilities shall have adequate supplies of both hot and cold water, shall be adequately lighted at all times, shall be constructed of moisture resistant materials to permit frequent cleaning and washing and shall be heated in winter.

**D. Toilet facilities.** Separate toilet facilities shall be provided for males and females. One (1) flush type water closet, one (1) lavatory and one (1) shower facility shall be provided for each sex in all parks having nine (9) or fewer spaces. One (1) additional water closet, lavatory and shower facility shall be provided for each sex for each additional thirty (30) spaces or fraction of this number.

**E. Laundry facilities.** Laundry facilities shall consist of one (1) dual compartment lavatory, one (1) automatic washer and one (1) automatic dryer for each thirty (30) spaces or fraction of this number.

**F. Utilities.** All utility services and connections installed in recreational vehicle parks shall meet all applicable codes, rules and regulations.

*(Ord. No. 23590, § 1, 11-2-2016; Ord. No. 24023, § 1, 11-7-2018)*

### Section 308. Flood hazard areas.

New and replacement manufactured homes, mobile homes, modular structures and recreational vehicles to be located in flood hazard areas as established in Table R301.2(1) of Title 51 TRO Chapter 2 International Residential Code 2015 of the City of Tulsa shall comply with the applicable requirements of Section R322 (Title 51 TRO Chapter 2); Title 51 TRO Chapter 1 Appendix G: and Title 11-A TRO Chapter 3.

The bottom of the frame of new and replacement manufactured homes, mobile homes, modular structures and recreational vehicles on foundations shall be elevated at least one (1) foot above the design flood elevation. The anchor and tie-down requirements of the applicable state and federal requirements shall apply.

*(Ord. No. 23590, § 1, 11-2-2016)*

### Section 309. Violation and appeal.

Any violation of this chapter, state statutes or other applicable law shall constitute cause for denial or revocation of any permit required herein; provided, however, that upon denial or revocation of any permit, an appeal of the code official's action may be taken to the City Council by filing a notice of appeal with the code official and the City Clerk within ten (10) days of the code official's action.

*(Ord. No. 23590, § 1, 11-2-2016)*

### Section 310. Permits not transferable.

No permit granted pursuant to the provisions of this chapter shall be transferable.

*(Ord. No. 23590, § 1, 11-2-2016)*

### Section 311. Violation penalties.

It shall be unlawful and a misdemeanor offense for any person, firm, corporation, limited liability company or other entity to violate any of the provisions of this code, fail to comply with any of the requirements thereof, or to erect, construct, alter, repair or change the occupancy of any building or structure in violation of an approved plan or directive of the building official or of a permit or certificate issued under the provisions of the code. Any person, firm, corporation, limited liability company or other entity convicted of a violation of this code shall be guilty of a misdemeanor offense and shall be punished by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees, and assessments, or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day, or portion thereof, during which a violation is committed, or continued, shall be deemed a separate offense.

*(Ord. No. 23590, § 1, 11-2-2016)*

## CHAPTER 4. ICC INTERNATIONAL EXISTING BUILDING CODE, 2018 EDITION, ADOPTED.

Section 400. Adoption of the ICC International Existing Building Code, 2018 Edition.
Section 401. Amendments to the ICC International Existing Building Code, 2018 Edition.

### Section 400. Adoption of the ICC International Existing Building Code, 2018 Edition.

That certain document, three (3) copies of which are on file in the office of the City Clerk of the City of Tulsa, Oklahoma, being marked and designated as the ICC International Existing Building Code, 2018 Edition, as published by the International Code Council, Inc. (ICC), hereinafter the "Existing Building Code" is hereby adopted as an optional code for the control of buildings and structures other than detached one- and two-family dwellings, as herein provided. Each and all of the regulations, provisions, penalties, terms and conditions of the ICC International Existing Building Code, 2018 Edition, are hereby referred to, adopted and made a part hereof as if fully set out in this chapter with the amendments thereto, prescribed in Section 401 of this chapter.

*(Ord. No. 20245, 20827, 21781; Ord. No. 22760, § 1, 9-20-2012; Ord. No. 23001, § 1, 12-12-2013; Ord. No. 23396, § 1, 10-29-2015; Ord. No. 24829, § 2, 5-25-2022)*

### Section 401. Amendments to the ICC International Existing Building Code, 2018 Edition.

The following sections of the ICC International Existing Building Code, 2018 Edition, are hereby added, deleted or amended to read as follows:

**101.1 Title - Amendatory.** These regulations shall be known as the "Existing Building Code of the City of Tulsa, Oklahoma," hereinafter referred to as "this code."

**101.2.1 Optional Use of this Code - Added.** Buildings and structures located inside the corporate limits of the City and all City owned buildings and structures located inside or outside the corporate limits of the City shall have the option to comply with this code or the Building Code of the City of Tulsa, Title 51, Tulsa Revised Ordinances, Chapter 1.

**102.1.1 Applicability - Added.** The provisions of this code shall only apply to and govern buildings for which the initial building permit was issued prior to January 1, 1994.

**Exceptions:**

1. This code shall not apply to buildings and structures regulated by the International Residential Code for One- and Two-Family Dwellings of the City of Tulsa, Oklahoma, Title 51, Tulsa Revised Ordinances, Chapter 2. One- and two-family dwellings or townhouses relocated or moved inside the corporate limits of the City shall comply with the provisions of the Existing Building Code of the City of Tulsa Title 51, Tulsa Revised Ordinance, Chapter 4, Section 1301.
2. Chapters 1, 2, 4, 5, 6, 7, 13, 15 and 16 of the ICC International Existing Building Code, 2018 Edition shall be optional for any building for which the initial building permit was issued subsequent to January 1, 1994.

**103.1 Enforcement Agency - Amendatory.** The term "Department of Building Safety," as used within the ICC International Existing Building Code, 2018 Edition shall mean the Development Services Division of the Planning and Development Department of the City of Tulsa or other department, division or section of the City of Tulsa authorized and directed to enforce the provisions of this code.

**103.4 Code of Ethics - Added.** Staff members of the Development Services Division of the Planning and Development Department of the City of Tulsa shall ascribe to and be guided in professional conduct as code officials and department representatives, as provided within Title 12, Chapter 6, Tulsa Revised Ordinances, entitled "Ethics Code".

**103.5 Qualification of Code Officials - Added.** The building official and deputies, otherwise known as "code officials," shall be licensed as may be prescribed by statutes of the state of Oklahoma, possess experience in commercial or residential building work, as determined by their job descriptions and responsibilities and possess certification by the International Code Council, Inc., or other testing agencies, as approved by the Director of the Planning and Development Department, or the Director's designated representative.

**104.2.1 Determination of substantially improved or substantially damaged existing buildings and structures in flood hazard areas - Amendatory.** For applications for reconstruction, rehabilitation, repair, alteration, addition or other improvement of existing buildings or structures located in flood hazard areas, the building official shall determine where the proposed work constitutes substantial improvement or repair of substantial damage. Where the building official determines that the proposed work constitutes substantial improvement or repair of substantial damage, and where required by this code, the building official shall require the building to meet the requirements of the Building Code of the City of Tulsa Title 51, Tulsa Revised Ordinance, Chapter 1, Section 1612. The cost used in the substantial improvement determination shall be the cumulative costs of all previous improvements for a specific building or structure occurring during the immediate past 10-year period.

**104.10.1 Flood Hazard Areas, Areas Prone to Flooding - Amendatory.** The code official shall not grant modifications to any provision related to flood hazard areas and areas prone to flooding, as established by the current City of Tulsa Regulatory Floodplain Map Atlas, without the grant of a variance by the Stormwater Drainage and Hazard Mitigation Advisory Board, as provided in Title 11-A, Tulsa Revised Ordinances.

**104.10.2 Modifications Affecting Life and Fire Safety - Added.** Modifications affecting life and safety shall be approved by the fire code official and code official. The details of action granting modifications shall be recorded and entered in the files of the Development Services Division of the Planning and Development Department.

**105.1 Permits Required - Amendatory.** Any owner or owner's authorized agent who intends to construct, enlarge, alter, repair, move, demolish, substantially improve or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any electrical, gas, mechanical or plumbing system, the installation of which is regulated by this code, or to cause any such work to be performed, shall first make application to the building official and obtain the required permit.

**105.1.1 Annual permit - Amendatory.** An annual permit is a yearly permit which represents a group of individual permits for each alteration to an already approved

electrical, gas, mechanical or plumbing installation. The building official is authorized to issue an annual permit upon application therefor to any person, firm or corporation regularly employing one or more qualified tradespersons in the building, structure or on the premises owned or operated by the applicant for the permit.

**105.1.2 Annual Permit Records - Amendatory.** The person to whom an annual permit is issued shall keep a detailed record of alterations made under such annual permit, in accordance with Title 50, Tulsa Revised Ordinances, entitled "Annual Permits." The code official shall have access to such detailed records of alterations at all times or such records shall be filed with the code official as designated. At the completion of the entity's annual permit term, the applicant shall file such detailed records of alterations with the building official. Pursuant to the authority of 59 O.S. § 1000.25, the building official shall collect fees for each individual permit which is part of the annual permit once the detailed records are submitted and remit such fees to the OUBCC.

**105.1.3 By Whom an Application is Made - Added.** An application for a permit shall be made by the owner or lessee of the building or structure, or the agent of either, or by the licensed architect or engineer employed in connection with the proposed work. If an application is made by a person other than the owner in fee, it shall be accompanied by an affidavit of the owner or the qualified applicant or a signed statement of the qualified applicant witnessed by the code official or his designee, informing that the proposed work is authorized by the owner in fee and that the applicant is authorized to make such application. The full names and addresses of the owner, lessee, applicant and the responsible officers, if the owner or lessee is not a natural person, shall be stated on the application. The owner of the building or structure shall at all times retain ownership rights and authority for use and control of such application and any related subsequent permits issued pursuant to this code.

**105.2 Work Exempt from Permit - Amendatory.** Exemptions from permit requirements of this code shall comply with the Building Code of the City, Title 51, Tulsa Revised Ordinances, Section 105.2.

**105.3.3 Payment of Permit Fees - Added.** Upon acceptance of application for a permit, an application fee shall be paid. The permit and associated documents shall then be reviewed and, upon approval, the applicant shall be notified the permit is ready and advised of what remaining fees are due. In order for the permit to be valid, all fees shall have been paid in full and the permit posted at the job site prior to beginning construction. Payments for permits shall be due upon notification to applicant that the permit has been approved and is ready to be issued. Any permit not paid within thirty (30) days after notification may be deemed void by the code official and the application fee shall then be forfeited.

**105.3.4 Eating or Drinking Establishments - Added.** Each applicant for a permit for a structure to be used as an eating or drinking establishment shall provide two (2) additional copies of the Plans and specifications for the proposed structure. The Tulsa City-County Health Department shall determine whether the proposed construction for the eating or drinking establishment meets current health requirements as provided in the Tulsa Revised Ordinances.

**105.3.5 Zoning Clearance Permit Required - Added.** The code official shall not issue a building permit for any building or other structure until and unless the code

official is furnished a zoning clearance permit issued by the zoning official stating that the use or occupancy of such building or structure complies with or, upon completion, will comply with the applicable zoning ordinances of the City of Tulsa.

**105.3.6 Alarm Industry Act Adopted and Incorporated by Reference - Added.** Alarm Industry Act, Title 59 O.S. Section 1800.1 et seq. as amended is hereby adopted by reference and incorporated into this code as if set out at-length here, save and except any portions which may be added, deleted or amended in this title.

**105.3.6.1 Fire Extinguisher Industry Act Adopted and Incorporated by Reference - Added.** Fire Extinguisher Industry Act, Title 59 O.S. Supp. 2007, Section 1820.1 et seq. as amended is hereby adopted by reference and incorporated into this code as if set out at-length here, save and except any portions which may be added, deleted or amended in this title.

**105.3.6.2 Fire Sprinkler Permits - Added.** The code official shall not issue a permit for the installation, alteration or repair, of fire sprinkler systems, and related equipment, including standpipes, and hose connections to fire sprinkler systems, air line systems used in connection with fire sprinkler systems, and connect tanks and pumps, until the person, firm, corporation or limited liability company installing the same shall have on file with the City of Tulsa a surety bond in the amount of Two Thousand Five Hundred Dollars ($2,500.00). Such bond shall be on a form satisfactory to the City, guaranteeing payment of all obligations and guaranteeing the work to be installed in accordance with the provisions of this code. No person, firm, corporation or limited liability company shall install automatic fire sprinkler systems unless licensed as provided in Title 59 O.S. Section 1800.1 et seq., as amended, and related rules and regulations.

**105.3.6.3 Licensing - Added.** All fire alarm and fire sprinkler systems governed by this code shall be installed, inspected and repaired by licensed firms and technicians in compliance with occupational licensing laws and regulations promulgated by the Oklahoma Department of Labor, and published in the Oklahoma Administrative Code (OAC), Section 380:75. All fire extinguisher systems governed by this code shall be installed, inspected and repaired by licensed firms and technicians in compliance with occupational licensing laws and regulations promulgated by the Oklahoma State Fire Marshal Commission, and published in the Oklahoma Administrative Code (OAC), Section 265:50.

**106.2.2 Fire Protection System(s) Shop Drawings - Amendatory.** Shop drawings for fire protection systems shall be submitted to indicate conformance with this code and construction documents. An application for a permit shall be submitted prior to the start of system installation. Any applicant for a permit that begins construction activities prior to an approved permit being issued shall be proceeding at their own risk. Regardless, a permit shall be issued before a rough-in inspection may be requested for the system(s) and prior to the system(s) being concealed. Shop drawings shall contain all information required by the installation standards referenced in Chapter 9 of the International Building Code.

**106.2.6 Construction Documents Site plan - Amendatory.** The construction documents submitted with the application for permit shall be accompanied by a site plan showing to scale the size and location of new construction and existing structures on the site, property boundaries, distances from lot lines, the established grades and

the proposed finished grades, easements, rights-of-way, utilities and, as applicable, flood hazard areas, floodways, design flood elevations and finished floor elevations; and it shall be drawn in accordance with an accurate boundary line survey. In the case of demolition, the site plan shall show construction to be demolished and the location and size of existing structures and construction that are to remain on the site or plot. The building official is authorized to waive or modify the requirement for a site plan where the application for permit is for alteration or repair or where otherwise warranted.

**106.3.1.1 Approval of Water and Sewer Plans - Added.** If the property is not served by an adequate public water supply or public sanitary sewer system, each applicant for a permit for a structure requiring a water supply and sewage disposal shall develop the site in accordance with adopted City ordinances.

**107.3 Temporary Power - Amendatory.** The building official is authorized to give permission to temporarily supply and use power in part of an electrical installation before such installation has been fully completed and the final inspection has been approved. The part covered by the temporary permit shall comply with the requirements specified for temporary lighting, heat or power in the Electrical Code of the City of Tulsa, Title 52, Tulsa Revised Ordinances.

**108.2 Schedule of Permit Fees - Amendatory.** All permit and inspection fees for work encompassed in this chapter shall be paid in accordance with the schedule established in Title 49, Tulsa Revised Ordinances, Chapter 3.

**108.3 Building Permit Valuations - Amendatory.** The applicant for a permit shall provide an estimated permit value at time of application. Permit valuations shall include total value of work, including materials and labor, for which the permit is being issued, such as electrical, gas, mechanical, plumbing equipment and permanent systems. If, in the opinion of the code official, the valuation is underestimated on the application, the permit shall be (1) denied, or (2) approved using an adjusted valuation substituted by the code official or (3) approved using a valuation submitted by the applicant based upon detailed estimates meeting the approval of the code official. Final building permit valuation shall be set by the code official.

**109.3.3 Lowest Floor Floodplain Elevation Certificate - Amendatory.** For additions and substantial improvements to existing buildings in flood hazard areas, upon placement of the lowest floor, including basement, and prior to further vertical construction, the elevation documentation required in the Building Code of the City of Tulsa Title 51, Tulsa Revised Ordinance, Chapter 1, Section 110.3.3 shall be submitted to the code official.

**109.3.3.1 Final Floodplain Elevation Certificate - Added.** Prior to the final inspection, a final elevation certificate shall be required for additions and substantial improvements to existing buildings in flood hazard areas, as established by the current City of Tulsa Regulatory Floodplain Map Atlas. The final elevation certificate shall be prepared by a land surveyor or engineer licensed by the State of Oklahoma, using an appropriate form provided by the code official.

**109.3.3.2 Flood-proofing Certificate - Added.** In lieu of elevating an existing non-residential structure to a certified minimum finished floor elevation as provided in Sections 109.3.3 and 109.3.3.1 of this code, an existing non-residential structure located in an area prone to flooding, as established by the current City of Tulsa

Regulatory Floodplain Map Atlas, undergoing substantial improvement, may be flood-proofed in accordance with Building Code of the City of Tulsa Title 51, Tulsa Revised Ordinance, Chapter 1, Section 110.3.3.2.

**109.6 Approval Required - Amendatory.** No work shall be done beyond the point indicated in each successive inspection without first obtaining the approval of the code official. Upon notification, the code official shall make the requested inspections and shall either indicate the portion of the construction that is satisfactory as completed, or shall notify the permit holder or an agent of the permit holder where it fails to comply with this code. Any part that does not comply shall be corrected and such portion shall not be covered, concealed or occupied until authorized by the code official. Work that is covered or concealed, or occupied without approval of the code official shall be in violation of this code and shall be penalized by the imposition of a civil fine as provided in Title 49, Tulsa Revised Ordinances, Chapter 1, for each occurrence and may result in a hearing before the Board of Appeals as established by Title 51, Chapter 1, Tulsa Revised Ordinances. Each day, or portion thereof, during which a violation is committed, continued or permitted shall be deemed a separate offense. The assessment or payment of this penalty shall not relieve any person from fully complying with all requirements of this code nor shall such payment exempt the person from further penalty provided by law.

**110.1.1 Bond Required - Added.** The code official, or designated representative, shall not issue a permit for the demolition or destruction of a building or structure until a suitable bond has been provided, protecting the adjacent property from damages. Such bond shall be in the minimum amount as provided in Title 49, Tulsa Revised Ordinances, Chapter 3, and may be increased if in the opinion of the code official the location of the building to be demolished or destroyed requires a larger bond. The code official, or designated representative, may waive the requirement of bond if the official is satisfied that the particular building or structure can be demolished or destroyed without damage to adjoining buildings or properties.

**112.1 Appeals - Amendatory.** Any person aggrieved by a decision of the code official may appeal the decision to the Board of Appeals as established by Title 51, Chapter 1, Tulsa Revised Ordinances.

**113.4 Violation Penalties - Amendatory.** It shall be unlawful and a misdemeanor offense for any person or limited liability company to violate any of the provisions of this code, fail to comply with any of the requirements thereof, or erect, construct, repair, alter or change the occupancy of a building or structure in violation of approved construction documents, a directive of the code official, or of a permit or certificate issued under the provisions of this code. Any person or limited liability company convicted of a violation of this code shall be guilty of a misdemeanor offense and shall be punished by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees and assessments, or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day, or portion thereof, during which a violation is committed, continued or permitted shall be deemed a separate offense.

**113.5 Abatement of Violation - Added.** The imposition of civil or criminal penalties prescribed in this code shall not preclude the City Attorney from instituting appropri-

ate action to restrain or enjoin unlawful construction, the illegal occupancy of a building, or to stop an illegal act, conduct, business, or operation of systems or to abate any such violation.

**114.3 Unlawful continuance - Amendatory.** It shall be unlawful and a misdemeanor offense for any person or limited liability company to continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition. Any person or limited liability company convicted of a violation of this code shall be guilty of a misdemeanor offense and shall be punished by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees and assessments, or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day, or portion thereof, during which a violation is committed, continued or permitted shall be deemed a separate offense.

**117. Demolition - Deleted.** Section 117, including Sections 117.1, 117.2, 117.3 and 117.4 of the ICC International Existing Building Code, 2018 Edition are intentionally deleted from this code. (See Title 24, Tulsa Revised Ordinances, entitled "Nuisances," Chapters 1, 2 and 4, for related abatement and demolition activities relevant to existing buildings classified as nuisance, dilapidated or unsecured.)

**202 General Definitions - Amendatory.** Section 202.0 of the ICC International Existing Building Code, 2018 Edition is adopted as published, provided that the following definitions in Section 202 are amended to read as follows:

**Existing Building or Existing Structure - Amendatory.** A building or structure for which a legal building permit has been issued. For application of provisions in flood hazard areas, an existing structure is any building or structure for which the start of construction commenced before the effective date of the community's first floodplain management code, ordinance or standard.

**Flood Hazard Area - Amendatory.** For all buildings or structures located inside the city's corporate limits, the flood hazard area shall be as designated on the City of Tulsa Regulatory Floodplain Map Atlas.

**Substantial Improvement - Amendatory.** Any repair, reconstruction or improvement of a structure, the cost of which equals or exceeds fifty percent (50%) of the market value of the structure, either before the improvement or repair is started or, if the structure has been damaged and is being restored, before the damage occurred. For purposes of this definition "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. This term shall not, include:

1. Any project(s) for improvement of a structure to comply with existing health, sanitary or safety code specifications which are solely necessary to assure safe living conditions, or
2. Any alterations of a structure listed on the National Register of Historic Places or state inventory of historic places.

The cost used in the substantial improvement determination shall be the cumulative costs of all previous improvements for a specific building or structure occurring during the immediate past 10-year period.

**[FG] 702.6.1 International Fuel Gas Code - Amendatory.** The following sections of the International Fuel Gas Code shall constitute the fuel gas materials and methods requirements for Level 1 alterations.

**1.** All of Chapter 3, entitled General Regulations, except Sections 303.7 and 306.

**2.** All of Chapter 4, entitled Gas Piping Installations, except Sections 401.8 and 402.3.

**2.1.** Sections 401.8 and 402.3 shall apply when the work being performed increases the load on the system such that the existing pipe does not meet the size required by code. Existing systems that are modified shall not require resizing as long as the load on the system is not increased and the system length is not increased, even if the altered system does not meet code minimums.

**3.** All of Chapter 5, entitled Chimneys and Vents.

**4.** All of Chapter 6, entitled Specific Appliances.

**5.** All appliances shall be installed according to the manufacturer's installation instructions for service, repair or maintenance.

**804.2.1 High-rise Buildings - Amendatory.** In high-rise buildings, work areas shall be provided with automatic sprinkler protection.

**804.2.1.1 Supplemental Automatic Sprinkler System Requirements - Amendatory.** Highrise building owners shall produce a copy of, or enter into an agreement with the City of Tulsa providing that the owner shall install an automatic fire sprinkler system throughout the building by a specific date, approved by the code official. The code official shall provide the form of agreement to be used by the owner. Once this agreement is fully executed, it shall be filed in land records maintained by the appropriate County Clerk prior to the issuance of any associated permit.

**Exception:** Buildings that comply with Title 14, Tulsa Revised Ordinances, Chapter 1, *ICC International Fire Code* 2018 Edition Section 1103.5.7, as amended.

**804.2.2 Groups A, B, E, F-1, H, I, M, R-1, R-4, S-1, and S-2 - Amendatory.** In buildings with occupancies in Groups A, B, E, F-1, H, I, M, R-1, R-4, S-1, and S-2, work areas that include exits or corridors shared by more than one tenant or that have exits or corridors serving an occupant load greater than thirty (30) shall be provided with automatic sprinkler protection, where the work area is required to be provided with automatic sprinkler protection in accordance with the International Building Code applicable to new construction.

**804.2.2.2 Group R-2 - Added.** Work areas within R-2 occupancies shall be provided with automatic sprinkler protection.

**804.2.3 Stories without openings - Amendatory.** Work located in stories without openings, as determined in accordance with the International Building Code, shall be sprinklered where the work area is required to be sprinklered under the provisions of the International Building Code for newly constructed buildings.

**804.2.4 Other Required Suppression Systems - Amendatory.** In buildings and areas listed in Table 903.2.11.6 of the International Building Code, work areas that have exits or corridors shared by more than one (1) tenant or that have exits or corridors serving an occupant load greater than thirty (30) shall be provided with

automatic sprinkler protection where the work area is required to be provided with automatic sprinkler protection in accordance with the International Building Code applicable to new construction.

**805.2 General - Amendatory.** The means of egress shall comply with the requirements of this section.

**Exception:** Means of egress conforming to the requirements of the building code under which the building was constructed shall be considered compliant means of egress if, in the opinion of the code official and the fire code official, they do not constitute a distinct hazard to life.

**904.1.1 High-rise Buildings - Amendatory.** In high-rise buildings, automatic fire sprinkler protection shall be provided in compliance with the requirements of Sections 804.2.1 and 804.2.1.1 of this code.

**1203.2 Fire Safety-General - Amendatory.** Every historic building that does not conform to the construction requirements specified in this code for the occupancy or use and that constitutes a distinct fire hazard as defined herein shall be provided with an approved automatic fire extinguishing system as determined appropriate in the written joint opinion of the code official and the fire code official. However, an automatic fire-extinguishing system shall not be used to substitute for, or act as an alternative to, the required number of exits from any facility.

**1203.12 Automatic Fire-Extinguishing Systems-General - Amendatory.** Every historical building that cannot be made to conform to the construction requirements specified in the International Building Code for the occupancy or use, and that constitutes a distinct fire hazard shall be deemed to be in compliance if provided with an approved automatic fire extinguishing system.

**Exception:** When an alternative life-safety system is approved in the written joint opinion of the code official and the fire code official.

**1303 House Mover License - Added.**

**1303.1 License Required - Added.** Every person who shall engage in the business of moving buildings or structures which require moving permits within the City of Tulsa shall obtain a license from the City of Tulsa Permit & Licensing Center. This license shall be granted upon the terms and conditions specified in this code, and shall be subject to denial, suspension, revocation or cancellation for any violation of this code, pursuant to the procedures specified in Title 21, Section 111, Tulsa Revised Ordinances.

**1303.1.1 Application for License - Added.** Any applicant seeking a house mover license shall, at the time of application, pay all required fees and deposits, as provided in Title 49, Tulsa Revised Ordinances, Chapter 3; present evidence of public liability insurance coverage; and post all required bonds. In addition the applicant shall file with the code official an affidavit of ownership, containing the business name to be used by the applicant, the names and addresses of all principals or officers in the business, and the names of all agents or employees having a proprietary interest in the business.

**1303.1.2 Licensee Responsibility - Added.** Every person licensed to engage in the business of house moving shall ensure that the licensee's agents and employees comply with all requirements imposed by this code. For purposes of denial, suspension,

revocation or cancellation of a license issued under authority of this code, the license holder shall have the same responsibility for all acts of the licensee's agents and employees as though such acts were performed by the licensee.

**1303.2 Equipment Identification - Added.** All prime movers, tractors, trucks and other motorized vehicles owned, leased, rented, borrowed or otherwise under the control of a licensed house mover and being used for the preparation of, or moving of a building or structure shall be plainly identified by the name and municipal license number of the house mover displayed on the door panels of such vehicle at all times. Identification markings shall consist of numbers and letters not less than two (2) inches in height and of a contrasting color. All moving beams and moving dollies shall be marked with the owner's name which shall be painted, stenciled, branded or bead welded on each item in letters not less than two (2) inches in height.

**1303.3 Bond Required - Added.** The bond to be given by a licensed house mover shall be executed to the City of Tulsa as provided in Title 49, Tulsa Revised Ordinances, Chapter 3, with a surety company authorized to do business in the state of Oklahoma. The bond shall be for the benefit of the City and any private person or corporation sustaining damages under the conditions of the bond. Any private person, corporation or limited liability company shall be entitled to sue for payment on the bond, in their own name. The bond shall be conditioned, among other things, that if such license shall be granted, the licensee shall in all respects comply with the ordinances of the City of Tulsa relating to the moving of buildings or structures and to the use or obstruction of the streets, highways and other places of the City, and that the licensee will save, indemnify and protect the City from all liability which may arise or be occasioned either directly or indirectly from the moving of any building or structure by such licensee, licensee's agents, servants, employees, workers, contractors or subcontractors. The bond shall be further conditioned that the licensee shall pay all damages which may be caused to any person or to any property, either public or private, within the City of Tulsa by the licensee or the licensee's agents, servants, employees, workmen, contractors or subcontractors and that the licensee shall pay for all damages to property of others caused by a moving operation while engaged in any work in connection with the moving of any building or structure, including any loss or damages which may be sustained because of the stoppage of any business or industry located along the route over which such building or structure shall be moved, caused by the operation of moving such building or structure.

**1303.4 Cash Deposits - Added.** Prior to the issuance of a house mover license, the license applicant shall deposit with the City of Tulsa a sum of money as provided in Title 49, Tulsa Revised Ordinances, Chapter 3, for the purpose described in this Section 1303.4 of this code. This deposit, or any part of it, shall be used to reimburse the City of Tulsa for actual damages sustained by any public property owned by the City of Tulsa as a direct result of any moving operation under the supervision or control of the house mover. It shall be the duty of the Director of Planning and Development, or the Director's designated representative, to immediately repair damages to traffic control devices, which are necessary to operate properly for public safety. Any charges for such repairs will be taken from the cash deposit. Further, the Director of Planning and Development, or the Director's designated representative, will advise the licensee of any other damages to public property and, in the event that the licensee shall fail to

repair or restore all damaged public property within two (2) working days after receipt of such notice, any portion or all of such deposit may be used to reimburse the City of Tulsa for damages to public property. In the event such deposit is insufficient to make such repairs, the City of Tulsa may proceed against the surety on the bond posted by the licensed house mover for any and all expenses incurred in excess of the licensee's cash deposit. Such deposit shall also be a guarantee to cover delinquent or unpaid permit fees, zoning clearance fees, and all costs incurred in plugging sanitary sewer lines serving the house being moved and any such fees may be deducted from the cash deposit. Whenever any portion of such cash deposit is used under the direction of the code official, the Director of Planning and Development, or the Director's designated representative, shall notify the license holder in writing of the amount used in making such repairs, reimbursements or replacements specified in this Section 1303.4 and instruct the license holder to deposit a corresponding amount so as to keep the deposit at the required amount at all times. No work preparation permits or moving permits shall be issued by the code official until such additional deposit has been made. However, in the event it is necessary for the City to use all or any portion of such deposit as herein provided, then and in that event the license holder shall pay the sum of money as provided in Title 49, Tulsa Revised Ordinances, Chapter 3, which sum is declared to be the amount necessary to defray the reasonable cost and expense to the City in enforcing this provision, including bookkeeping and auditing expenses. Such sum of money as provided in Title 49, Tulsa Revised Ordinances, Chapter 3, shall be deducted from the deposit of the license holder and forthwith paid to the City of Tulsa upon the contingencies stated in this Section 1303.4.

**1303.5 Insurance - Added.** Every person who shall engage in the business of moving buildings and structures within the City of Tulsa shall maintain a current certificate of insurance on file in the office of the City Clerk of the City of Tulsa. Such insurance shall indemnify the City and the public for claims arising out of work to be performed under such license in amounts as provided in Title 49, Tulsa Revised Ordinances, Chapter 3.

**1303.6 City Council Approval Required - Added.** The City Council shall hold a hearing on each application transmitted from the City of Tulsa's Permit & License Center on any proposed house moving. The City Council shall approve the application as submitted or as amended, or deny the application.

**1303.6.1 Notice of Public Hearing Required - Added.** Notice shall be given of the public hearing before the City Council for the proposed move.

**1.** Upon acceptance of a permit application the Development Services Division of the Planning and Development Department of the City of Tulsa shall:

**1.1.** Require the applicant to furnish the names and mailing addresses of all owners of the real property, as shown by the relevant county's tax records, included in the proposed route of travel from the lot of origin to the first arterial street, as identified in the City's Major Street and Highway Plan, and from the last arterial street as defined in the Major Street and Highway Plan, to the final destination, if applicable;

**1.2.** Schedule a hearing date before the City Council;

**1.3.** Mail written notice to all owners of the real property included in the proposed route of travel from the lot of origin to the first arterial street and from the last

arterial street to the final destination, if applicable, indicating that an application for a house moving permit has been requested and when a hearing will be held.

**2.** Upon filing an application for a permit with the Development Services Division of the Planning and Development Department of the City of Tulsa, the house moving contractor shall post the affected property at least five (5) days before the date of the hearing. The notice shall state the date, time, and place of the hearing; the proposed move date; the name of the house moving Company; and other such information as the code official may deem necessary to provide adequate and timely public notice.

**1303.7 House Moving Permit - Added.**

**1303.7.1 Work Preparation Permit Required - Added.** No person, firm, corporation or limited liability company shall prepare a building or structure to be moved or relocated within the corporate limits of the City of Tulsa without a work preparation permit issued by the code official when:

**1.** The building or structure, when loaded for transit, has a width of more than fourteen (14) feet at its widest point as measured at the point of greatest projection at a right angle to the direction of travel; or

**2.** The building or structure, when loaded for transit, is more than thirteen (13) feet, six (6) inches high as measured from the roadway to the highest point on the roof; or

**3.** The building or structure is more than thirty (30) feet long.

**1303.7.1.1 Exclusions - Added.** No moving permit under the provisions of this code shall be required for the movement of mobile homes, structures, vehicles or trailers, which are designed to utilize integral wheels for movement. Structures which are to be moved along the streets of the City of Tulsa, which are not expressly excluded from the terms of this code, shall be moved only after obtaining the approval of the code official.

**1303.7.2 Application for Work Preparation Permit - Added.** The licensed house mover, or his authorized agent, shall file with the code official a written application for a moving permit, stating:

**1.** The type or kind of building to be moved;

**2.** The extreme dimensions of the building when loaded for transit, to include height, length and widths at both the base of the building walls and the widest point of overhanging eaves;

**3.** The present location of the building;

**4.** The street address of destination point within City or departure point from City;

**5.** The detailed description of the proposed route of travel to destination or to departure from the City limits;

**6.** The zoning clearance permit number, if applicable;

**7.** The building permit number for the destination point, if applicable;

**8.** The date and time requested for start and completion of the move;

**9.** The plumbing permit number for the sanitary sewer plug at the address of the building to be moved; and

**10.** Whether or not a single building is to be sectioned into parts for movement, and the dimensions of each section, if applicable.

Each application shall include a drawn diagram, clearly dimensioned, that states the widths at both the base of the building walls and at the widest point of overhanging eaves or other projection(s); the diagram shall show the roof ridgeline(s) and direction of travel during the move.

**1303.7.3 Self-Certification of Route - Added.** Every licensed house mover shall submit a written moving route certifying that the route is passable without obstructions such as but not limited to signs, trees, and high-line wires. If it is necessary to move any building or structure under an overpass, applicant shall certify that the height of the overpass is sufficient to accommodate the loaded height. The house mover is responsible for working with the utility companies to move lines or with the City of Tulsa to move/re-position signs or traffic lights, if necessary.

**1303.7.4 Display of Work Preparation Permit - Added.** Every work preparation permit shall be securely attached to the front of the building before preparations for movement or relocation have been initiated. The work preparation perm it shall remain attached to the building until the building has been moved to its final destination.

**1303.7.5 Pre-Move Inspection Required - Added.** No building or structure shall be moved to a new location within the corporate limits of Tulsa until such building has been inspected by the code official and found to be structurally sound.

**1303.7.6 Building Code Application - Added.** No building or structure shall be relocated within the City of Tulsa unless, in the opinion of the code official, such building can be made to comply with the requirements of this code which would govern the requirements for the erection of a new building at the proposed new location.

**1303.7.7 Zoning Clearance Permit Required - Added.** No building or structure shall be relocated within the corporate limits of the City of Tulsa without a zoning clearance permit as required by the Zoning Code of the City of Tulsa, Title 42, Tulsa Revised Ordinances.

**1303.8 Moving Permit - Added.**

**1303.8.1 Permit Required - Added.** Prior to moving any building or structure, or portion thereof, onto any City of Tulsa right-of-way and over or along such right-of-way, a moving permit for each building, structure, or portion thereof, authorizing each scheduled move, shall be obtained from the code official.

**1303.8.2 Application for Moving Permit - Added.** At least five (5) working days prior to the anticipated movement of any building or structure on any public right-of-way, the work preparation permit holder shall apply for a moving permit at the code official's office. An application for the permit shall contain the following information and attachments:

**1.** The work preparation permit number;

**2.** The street address of destination point within City or departure point from City;

**3.** The date and time requested for start and completion of the move.

**1303.9 Duties of Code Official - Added.** When a moving permit application is filed with the code official, it shall be the code official's duty to immediately notify the Fire Chief, the Chief of Police, and City of Tulsa Traffic Engineering.

**1303.10 Duties of the Permit Holder - Added.** It shall be the duty of the permit holder to:

1. Ensure an approved final inspection for the sewer plug was conducted prior to the razing of the structure;
2. Request an inspection of the structure when in the loaded position prior to the move;
3. Provide a 48-hour notice of the date and time of the move to the Permit Center; and
4. Give a 2-hour cancellation notice to the Permit Center in the event of cancellation of the move date.

**1303.11 Display of Moving Permit - Added.** The moving permit shall be placed at a conspicuously visible location and securely attached to the front of the building being moved, as determined by the direction of travel. The moving permit shall show the permit number, approved move date, scheduled time for the move and approved route for the move.

**1303.12 Oversized Buildings and Structures - Added.**

**1303.12.1 Oversized Buildings and Structures Defined - Added.** For purposes of this code, an oversized building or structure is defined as either:

1. A building or structure of a height of more than sixteen (16) feet from the ground to the highest point of the roof, as measured in the loaded condition;
2. A building or structure, when loaded for transit, having a width of more than thirty-two (32) feet at its widest point, as measured at the point of greatest projection at a right angle to the direction of travel; or
3. A building or structure, when loaded for transit, has a length not including the towing vehicle of more than sixty-five (65) feet as measured along the greatest projection in the direction of travel.

**1303.12.2 Movement of Oversized Buildings - Added.** A moving permit for an oversized building or structure, as defined in this code, shall not be issued by the code official until the code official receives written acknowledgment of clearance from overhead wire and cable right-of-way users, Tulsa Fire Department, Tulsa Police Department and Traffic Engineer stating that satisfactory arrangements have been made to ensure that all overhead wires, signals, and other facilities will either clear the moving building or that arrangements have been made to move such obstructions.

**1303.12.3 Routing Survey and Special Fee Required - Added.** An application for a moving permit to move an oversized building or structure as defined in this code shall be accompanied by a fee as provided in Title 49, Tulsa Revised Ordinances, Chapter 3. Such fee shall be in addition to all other permit fees required by this code.

**1303.13 Conduct of House Moving Operations - Added.**

**1303.13.1 Hours of Movement - Added.** The movement of any building or structure shall be restricted to the hours of 9:30 a.m. to 11:30 a.m. and 1:30 p.m. to 3:30 p.m. Monday through Friday, excluding holidays.

**1303.13.2 Lights Required - Added.** In the event the move cannot be completed during the hours specified in Section 1303.13.1 of this code, every building or structure, which occupies or travels upon any portion of a public right-of-way within the one-half (½) hour after sundown or within the one-half (½) hour before sunrise shall be marked

with at least six (6) continuously burning lights. One light shall be placed at each corner of the structure, and one light shall be placed in the middle of each side of the structure as determined by the direction of travel. Such lights shall be attached to indicate extreme width and length of the building. The color of the lights shall comply with the laws of the state of Oklahoma.

**1303.13.3 Motor Escort and Police Escort Required - Added.** Each building or structure requiring a permit to be moved shall be escorted by a Motor Escort service and Police Escort at all times while traveling on any public street or right-of-way within the City of Tulsa. The Police Escort is to be arranged through the Special Events Coordinator. Associated fees incurred with such service will be handled through the Special Events Office, separate from the moving permit fees. City of Tulsa personnel will provide escort on an "as needed" basis as determined by City of Tulsa Traffic Engineering. When this escort is required, an hourly fee plus mileage shall be collected to defray expenses incurred by the City, as provided in Title 49, Tulsa Revised Ordinances, Chapter 3.

**1303.13.4 Time Limitations on Moving Permits; Right-of-Way Changes - Added.** The work of preparing a building for moving and the actual moving of any building or structure on, over, along or across any street or highway shall be completed within three (3) months after the issuance of a work preparation permit. A moving permit shall be obtained in accordance with the requirements of this code prior to the moving of any building or structure on, over, along or across any street or highway. If a move is not performed as scheduled on the moving permit, a new moving permit shall be obtained from the code official without the payment of any additional fee; provided that if an approved right-of-way is found to be blocked in a manner which prevents its use at the time authorized on the right-of-way permit, an on-the-spot change in the scheduled right-of-way route may be obtained from the Tulsa Fire Chief. It shall be the duty of the Fire Chief to identify the alternate route authorized for use, and such alternate route shall be noted for record in the Fire Chiefs watch log. The absence of any entry in the Fire Chiefs watch log approving an alternative route shall constitute prima facie evidence that any departure from the route shown on the moving permit was unauthorized.

**1303.14 Moving Buildings or Structures into the City of Tulsa from Points Outside Municipal Limits - Added.** Moving buildings or structures into the City of Tulsa from points outside the municipal limits shall be approved by the code official. The code official shall collect an inspection fee as provided in Title 49, Tulsa Revised Ordinances, Chapter 3, for the round trip to and from the structure and 175 E 2nd St., Tulsa, Oklahoma. No building or structure which is destined to a point outside the corporate limits of the City of Tulsa shall be moved from a point outside the City of Tulsa on, over, along or across any street or highway in the City of Tulsa.

**1303.15 Delays En route; Delay in Movement After Preparation - Added.** When a structure has been prepared for movement, but the actual movement has not occurred within five (5) calendar days, all floor and first story openings into the building or structure shall be sealed with plywood or its equivalent in a manner sufficient to prevent the entry of children into the building or structure. When the movement of any building or structure is temporarily halted en route, and the building or structure is parked on private property for more than five (5) calendar days, such

building or structure shall be similarly secured, or, in the alternative, a full-time guard shall be maintained at the location. A building or structure shall not be parked or stored on a public right-of-way, or any portion thereof, without the prior approval of the Mayor or the Mayor's authorized representative. A building or structure shall not be parked or stored on private property without the property owner's prior consent and knowledge and without a zoning clearance permit issued by the code official.

**1303.16 Required Right-of-Way Passage Clearance; Obstructions in Right-of-Way - Added.** Authorization obtained under this code for the use of public rights-of-way is conditioned upon observance of the following minimum requirements:

**1.** Movement on Certain Streets Restricted. A building or structure shall not be moved on, over, along or across any street or highway which is designated as either a primary or secondary arterial street on the City of Tulsa Major Street and Highway Plan, unless such building or structure shall be of a width so that there shall be an unobstructed passageway of at least ten (10) feet in width for vehicular traffic at all times during the movement of vehicular traffic in such street or highway.

**2.** Poles and Wires. Whenever it is necessary to raise or cut any overhead wire or cable to facilitate the moving of any structure, it shall be the duty of the house mover to give the overhead wire or cable right-of-way user owning, maintaining, or operating such poles, wires or cables at least twelve (12) hours written notice of when and where the removal of such poles or the raising or cutting of such wires or cables will be necessary. In cases where the wires or cables to be raised or cut contain either fire or police telephone or alarm systems, the Fire or Police Chief, as appropriate, shall be notified. After service of the required notice, it shall be the duty of the overhead wire and cable right-of-way user owning, operating or maintaining such poles, wires or cables to furnish competent workers to remove such poles or to raise or cut such wires or cables. The licensed mover shall be responsible for paying all actual expenses incurred by any overhead wire and cable right-of-way user in removing, raising or cutting any poles, wires or cables.

**3.** Trees and Fixtures. No tree on any street shall be injured or removed nor the branches of any tree cut or trimmed without the prior consent of the affected property owner.

**4.** Obstruction of Railway Tracks. If it is necessary to move any building or structure across any railway tracks, it shall be done in such a manner and at such time as to eliminate any interference with the operation of trains.

**1303.17 Additional Safety Requirements Authorized - Added.** The requirements of this code are to be construed as minimum requirements. In individual cases, the code official shall have the power and authority to require the use of additional precautionary safety measures other than those specifically identified in this code.

**1303.18 Required Inspection and Repairs - Added.** The code official shall be authorized to inspect, or to require approved professionals to inspect at the expense of the owner, the various structural parts of a relocated building to verify that structural components and connections have not sustained structural damage. Any repairs required by the code official, as a result of such inspection, shall be made prior to the

final approval. The code official shall be authorized to inspect the site of origin two (2) weeks after the move date to confirm that the lot has been cleared, cleaned, and safe from debris. In addition, the site must be properly vegetated to prevent soil erosion.

**1303.19 Violations and Penalties - Added.**

**1303.20 Fines and Imprisonment Authorized - Added.** Any person, firm, corporation or limited liability company convicted of a violation of any provision of Sections 1301 et seq. of this code or failing to comply with any requirements or conditions imposed by Sections 1301 et seq. of this code shall be guilty of a misdemeanor offense and shall be punished by a fine of not less than Three Hundred Dollars ($300.00) nor more than Five Hundred Dollars ($500.00), excluding costs, fees and assessments, or by imprisonment for a period not exceeding ninety (90) days, or by both such fine and imprisonment. For purposes of this section, such person, firm, corporation or limited liability company shall be deemed guilty of a separate offense for each day a violation is permitted to continue after receipt of a written notice of violation.

**1303.21 Revocation or Suspension of License Authorized - Added.** Notwithstanding the imposition of any fine or imprisonment authorized by this code, the code official shall have the power and authority to deny, suspend, revoke or cancel the license of any person, firm, corporation or limited liability company which violates any provision of this code, or fails to comply with any requirements or conditions imposed by this code.

**1401.2 Applicability - Amendatory.** Existing buildings or existing structures, for which the initial building permit was issued prior to January 1, 1994, in which there is work involving additions, alterations or changes of occupancy shall be made to conform to the requirements of this chapter or the provisions of Chapters 5 through 13. The provisions of Sections 1401.2.1 through 1401.2.5 of this code shall apply to existing occupancies that will continue to be, or are proposed to be, in Groups A, B, E, F, I-2, M, R and S. For the purposes of this Chapter 14, all references to Group S-1 shall apply to Group U. These provisions shall not apply to buildings with occupancies in Group H or Group I-1, I-3, or I-4.

**Chapter 16 Referenced Standards - Amendatory.**

Section 502. Spas and hot tubs.
Section 503. Barrier requirements.
Section 504. Entrapment protection for swimming pool and spa suction outlets.
Section 505. Atmospheric vacuum relief system required.
Section 506. Dual drain separation.
Section 507. Pool cleaner fittings.
Section 508. Flood hazard areas.
Section 509. Referenced standards.
Section 510. Violations and penalty.

### Section 500. Regulations for residential swimming pools, spas and hot tubs.

The provisions of this chapter shall control the design and construction of swimming pools, spas and hot tubs installed in or on the lot of a one- or two-family dwelling.

*(Ord. No. 23601, § 1, 11-30-2016)*

### Section 501. Swimming pools.

**A. In-ground pools.** In-ground pools shall be designed and constructed in conformance with *American National Standards Institute/National Spa and Pool Institute* (ANSI/NSPI) Standard Reference Number 5-99.

**B. Above-ground and on-ground pools.** Above-ground and on-ground pools shall be designed and constructed in conformance with *American National Standards Institute/National Spa and Pool Institute* (ANSI/NSPI) Standard Reference Number 4-99.

*(Ord. No. 23601, § 1, 11-30-2016)*

### Section 502. Spas and hot tubs.

**A. Permanently installed spas and hot tubs.** Permanently installed spas and hot tubs shall be designed and constructed in conformance with *American National Standards Institute/National Spa and Pool Institute* (ANSI/NSPI) Standard Reference Number 3-99.

**B. Portable spas and hot tubs.** Portable spas and hot tubs shall be designed and constructed in conformance with *American National Standards Institute/National Spa and Pool Institute* (ANSI/NSPI) Standard Reference Number 6-99.

*(Ord. No. 23601, § 1, 11-30-2016)*

### Section 503. Barrier requirements.

**A. Application.** These design controls are intended to provide protection against potential drowning and near drowning by restricting access to swimming pools, spas and hot tubs.

---

***Editor's note—**Ord. No. 23601, § 1, adopted November 30, 2016, amended chapter 5 in its entirety to read as herein set out. Former chapter 5, §§ 500—508, pertained to similar subject matter. See Code Comparative Table for complete derivation.

**B. Indoor and outdoor swimming pool.** An indoor or outdoor swimming pool, including an in-ground, above-ground or on-ground pool, hot tub or spa shall be provided with a barrier, which shall comply with the following:

**1.** Private swimming pools, hot tubs and spas, containing water more than twenty-four (24) inches in depth shall be completely surrounded by a fence or barrier at least forty-eight (48) inches in height above the finished ground level measured on the side of the barrier away from the pool.

**2.** The barrier shall have no opening in the barrier through which a spherical object four (4) inches in diameter can pass.

**3.** Access shall be restricted as follows:

**a.** Gates and doors in such barriers shall be self-closing and self-latching.

**b.** Where the self-latching device is less than fifty-four (54) inches above the bottom of the gate, the release mechanism shall be located on the poolside of the gate. Self-closing and self-latching gates shall be maintained such that the gate will positively close and latch when released.

**c.** Hinged doors and gates shall open outward from the pool.

**4.** For above-ground swimming pools where the sides of the pool are used as the barrier, any access ladder or steps shall be removable without tools and secured in an inaccessible position with a latching device not less than fifty-four (54) inches above the ground when the pool is not in use.

**5.** Access gates shall comply with the requirements of Section 503.B, Items 1. through 5., and shall be equipped to accommodate a locking device.

**a.** Pedestrian access gates shall open outward away from the pool and shall be self-closing and have a self-latching device.

**b.** Gates other than pedestrian access gates shall have a self-latching device.

**c.** Where gates are not equipped with a locking device, and the release mechanism of the self-latching device is located less than fifty-four (54) inches from the bottom of the gate, the release mechanism and openings shall comply with the following:

i. The release mechanism shall be located on the pool side of the gate at least three (3) inches below the top of the gate; and

ii. The gate and barrier shall have no opening larger than one-half (½) inch within eighteen (18) inches of the release mechanism.

**6.** Where a wall of a dwelling serves as part of the barrier, one (1) of the following conditions shall be met:

**a.** The pool shall be equipped with an approved safety pool cover that meets all requirements of ASTM International, formerly the *American Society for Testing and Materials* (ASTM) Specifications F 1346-91.

**b.** The pool shall incorporate removable mesh pool fencing that meets ASTM International, formerly the *American Society for Testing and Materials* (ASTM) Specifications F 2286 standards in conjunction with a gate that is self-closing and self-latching and can accommodate a key lockable device.

**c.** The residence shall be equipped with exit alarms on those doors providing direct access to the pool.

**d.** All doors providing direct access from the home to the swimming pool shall be equipped with a self-closing, self-latching device with a release mechanism placed no lower than fifty-four (54) inches above the floor.

**e.** Swimming pool alarms shall be placed in pools, which will sound upon detection of accidental or unauthorized entrance into the water. These alarms shall meet and be independently certified to the *American Society for Testing and Materials* (ASTM) Standard F 2208 "Standard Specification for Pool Alarms," which includes surfaced motion, pressure, sonar, laser, and infrared type alarms.

**f.** Other means of protection, may be substituted if the degree of protection afforded is equal to or greater than that afforded by any of the devices set forth above, and have been independently verified by an approved testing laboratory as meeting standards for those devices established by the *ASTM International*, formerly the *American Society for Testing and Materials* (ASTM) or the *American Society of Mechanical Engineers* (ASME), or as approved by the Building, Housing and Fire Prevention Appeals Board.

**Exception:** Swimming pools, spas or hot tubs with a safety cover, which complies with *ASTM International*, formerly the *American Society for Testing and Materials* (ASTM) F 1346-91, as listed in Section 107, shall be exempt from these provisions.

*(Ord. No. 23601, § 1, 11-30-2016)*

**Section 504. Entrapment protection for swimming pool and spa suction outlets.**

**A. General.** Suction outlets shall be designed to produce circulation throughout the pool or spa. Single-outlet systems, such as automatic vacuum cleaner systems, or multiple suction outlets, whether isolated by valves or otherwise, shall be protected against user entrapment.

**B. Entrapment avoidance.** Suction outlets shall be designed and installed in accordance with ANSI/APSP-7.

**C. Suction fittings.** Pool and spa suction outlets shall have a cover that conforms to *American National Standards Institute/National Spa and Pool Institute* (ANSI/NSPI) Standard Reference Number A112.19.8-2007, entitled *Suction Fittings for Use in Swimming Pools, Wading Pools, Spas, and Hot Tubs*, or an eighteen (18) inch by twenty-three (23) inch (eighteen (18) inches x twenty-three (23) inches) drain grate or larger, or an approved channel drain system.

**Exception:** Surface pool skimmers do not have to conform to ANSI/NSPI Standard.

*(Ord. No. 23601, § 1, 11-30-2016)*

**Section 505. Atmospheric vacuum relief system required.**

Pool and spa single- or multiple-outlet circulation systems shall be equipped with atmospheric vacuum relief with a manual release button. The vacuum relief system shall include at least one (1) approved or engineered method of the type specified as follows:

**A.** Safety vacuum release system conforming to *American Society of Mechanical Engineers* (ASME) Standard Reference Number A112.19.17, entitled *Manufacturers Safety Vacuum Release Systems (SVRS) for Residential and Commercial Swimming Pool, Spa, Hot Tub and Wading Pool*; or

**B.** A Gravity Drainage circulation system which is designed by an Engineer licensed in the state of Oklahoma.

*(Ord. No. 23601, § 1, 11-30-2016)*

### Section 506. Dual drain separation.

Single or multiple pump circulation systems shall have a minimum of two (2) suction outlets of the approved type. A minimum horizontal or vertical distance of three (3) feet shall separate the outlets. These suction outlets shall be piped so that water is drawn through them simultaneously through a vacuum-relief-protected line to the pump or pumps.

*(Ord. No. 23601, § 1, 11-30-2016)*

### Section 507. Pool cleaner fittings.

Where provided, vacuum or pressure cleaner fitting(s) shall be located in an accessible position(s) at least six (6) inches and not more than twelve (12) inches below the minimum operational water level or as an attachment to the skimmer(s).

*(Ord. No. 23601, § 1, 11-30-2016)*

### Section 508. Flood hazard areas.

**508.1 General.** The provisions of Section 508 shall control the design, construction and installation of pools and spas in flood hazard areas.

**508.2 Determination of impacts based on location.** Pools and spas located in flood hazard areas indicated in Title 51 TRO Chapters 1 and 2 shall comply with Section 508.2.1 or 508.2.2.

**Exception:** Pools and spas located in riverine flood hazard areas that are outside of designated floodways.

**508.2.1 Pools and spas located in designated floodways.** Where pools and spas are located in designated floodways, documentation shall be submitted to the code official that demonstrates that the construction of the pools and spas will not increase the design flood elevation at any point within the jurisdiction.

**508.2.2 Pools and spas located where floodways have not been designated.** Where pools and spas are located where design flood elevations are specified but floodways have not been designated, the applicant shall provide a floodway analysis that demonstrates that the proposed pool or spa and any associated grading and filling will not increase the design flood elevation more than one (1) foot at any point within the jurisdiction.

**508.3 Protection of equipment.** Equipment shall be elevated at least one (1) foot above the design flood elevation or be anchored to prevent flotation, and protected to prevent water from entering or accumulating within the components during conditions of flooding. An elevation certificate verifying the lowest elevation of mechanical, electrical, or utility equipment servicing the pool or spa shall be provided to the code official for approval pursuant to Title 51 TRO Chapter 2 Section R109.1.3.1.

*(Ord. No. 23601, § 1, 11-30-2016)*

## Section 509. Referenced standards.

Within this chapter, the following standards are specifically referred to, adopted and made a part of this chapter, as if fully set out, with amendments thereto, to read as follows:

| | |

*(Ord. No. 23601, § 1, 11-30-2016)*

## Section 510. Violations and penalty.

It shall be unlawful and a misdemeanor offense for any person, firm, corporation, limited liability company or other entity to violate any of the provisions of this code, fail to comply with any of the requirements thereof, or to erect, construct, alter, repair or change the occupancy of any building or structure in violation of an approved plan or directive of the building official or of a permit or certificate issued under the provisions of this code. Any person, firm, corporation, limited liability company or other entity convicted of a violation of this code shall be guilty of a misdemeanor offense and shall be punished by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees, and assessments, or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day, or portion thereof, during which a violation is committed, or continued, shall be deemed a separate offense.

*(Ord. No. 23601, § 1, 11-30-2016)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 6. SELF-CERTIFICATION PROGRAM FOR PLAN REVIEW

Section 601. Title; overview and purpose.
Section 602. Definitions.
Section 603. Approved professionals.
Section 604. Procedures.
Section 605. Approved professional ethics.
Section 606. Board of Appeals.

### Section 601. Title; overview and purpose.

**A. Title.** This chapter may be cited as the "self-certification program for plan review."

**B. Overview and purpose.** The self-certification program for plan review (the "SC program") is hereby implemented to establish an alternate method for building permit plan review and approval. The SC program offers persons or entities who plan to apply for a building permit for residential, commercial or industrial projects the option to use plan review services of certain private-sector approved professionals (as defined below). The development services department will accept certifications as to Building Code compliance by such approved professionals, in lieu of such services by the development services department staff, except in situations where there is concern as to whether a particular application should be approved or if the development services department determines that a particular application merits staff review before issuing a building permit.

*(Ord. No. 24061, § 1, 12-19-2018)*

### Section 602. Definitions.

For the purposes of this chapter and for the manual, as defined below, the following words and terms have the meanings ascribed to them by this section; words and terms not defined here have the meanings given to them in the applicable building codes, in the laws of the State of Oklahoma, and by common and ordinary usage:

**A. Agent:** A person authorized to act on behalf of another person or entity concerning a construction project.

**B. Applicant:** A person, firm, corporation, or other legal entity, acting personally or as an agent, desiring to construct, alter, replace or repair any building or structure located on real property and making application for a building permit.

**C. Approved professional:** A professional architect, landscape architect or engineer licensed or registered with the respective licensing authority regulating such profession in the State of Oklahoma, in good standing with such licensing authority.

**D. Authorized representative:** An individual, company, firm, or organization that is authorized by an Owner to apply for a building permit.

**E. Board:** The Board of Appeals established by the provisions of Ordinance No. 23394, codified at Title 51 of the Tulsa Revised Ordinances in Chapter 1.

**F. Building Code or Building Codes:** The various building and construction codes adopted by the City from time to time and codified in the Tulsa Revised Ordinances, including, without limitation, the Building Code prescribed by Title 51, the Electrical

Code prescribed by Title 52, the Property Maintenance Code prescribed by Title 55, the Plumbing Code prescribed by Title 56, the Mechanical Code prescribed by Title 59, and any applicable State Building Codes.

**G. Building Official:** The official or his/her designee authorized to administer and enforce the Building Codes.

**H. Building permit:** Formal written permission by the City of Tulsa to perform construction, alteration, repair or related activities within the municipal limits of the City of Tulsa or within its jurisdictional control, as required by ordinance.

**I. Contractor:** The person, firm, corporation, or other legal entity engaged in any aspect of construction of a building or structure, or a part thereof, including associated site improvements.

**J. Developer:** A person, firm, corporation or other legal entity that is either an owner of real property or the owner of an existing building or other improvement which is or which will be the subject of a permitted construction project, or under contract with the owner thereof to commence and complete a particular construction project or improvement to real property.

**K. Development Services Department:** The department of the City of Tulsa having jurisdiction and control over the issuance of building permits, construction and development permits, occupancy permits, and similar permits and approvals for the construction of buildings and improvements.

**L. Fee:** The charge to applicants for permits issued by the City of Tulsa as provided in Title 49 of the Revised Ordinances of the City of Tulsa.

**M. Lessee:** A person, firm, corporation or other legal entity that has the right to the use and occupancy of real property or a building, or a part thereof, pursuant to a written lease, according to the terms of such lease.

**N. Manual:** The Self-Certification Building Permit Program Manual created by the Development Services Department and approved by the Development Services Director detailing the SC program, which shall include the policies and procedures related to the program.

**O. Ordinance:** A legislative act of the City Council of the City of Tulsa which has become effective in accordance with the amended Charter of the City of Tulsa.

**P. Owner:** A property owner, building owner or project owner, as defined herein, and as may be applicable.

**Q. Owner, building:** A person, firm, corporation, or other legal entity possessing an ownership interest in a building or other structure.

**R. Owner, project:** A person, firm, corporation, or other legal entity, possessing, or who/which will acquire an ownership interest in real property or a building or other structure upon completion of a project.

**S. Owner, property:** A person, firm, corporation, or other legal entity possessing an ownership interest in real property.

**T. Program:** The administrative program to issue a building permit based on self-certification by an approved professional, as authorized by Part 2-Administration and Enforcement of the International Building Code, as amended from time to time, and which is referred to in this chapter as the "SC program".

**U. Project:** An organized undertaking at a specific location to complete pre-determined objectives for the planning, design, construction, repair, improvement or expansion of buildings or facilities, as detailed in construction plans, specifications and other related documents.

**V. Self-certification or statement of self-certification:** An official determination and declaration by an approved professional that the plans, specifications and other construction documents for a project for which a building permit is sought are in compliance with the Building Codes; and upon such certification, that the City of Tulsa may, in reliance of such certification, issue a building permit and conduct inspections without the City of Tulsa Development Services Department having reviewed such plans, specifications and other construction documents for code compliance. The approved professional so certifying shall bear the legal responsibility for compliance with the Building Codes.

**W. Self-certified building permit application:** The written application for a Building Permit submitted to the Development Services Department, which shall include a statement of self-certification, other required certifications, forms, checklists, plans, specifications and other documents as required by this chapter and/or the manual, in such format(s) as determined by the Development Services Department.

**X. Special inspections:** Field inspections of certain aspects of a project, both structural and non-structural in nature, in accordance with Chapter 17 of the International Building Code which requires specialized qualified expertise.

**Y. State Building Code:** The current version of any building code(s) adopted pursuant to state law and/or the by the Oklahoma Uniform Building Code Commission, including, but not limited to, the building codes contained in Title 748 at Chapter 20 of the Oklahoma Administrative Code.

**Z. State law:** Statutes of the State of Oklahoma or applicable provisions of the Oklahoma Administrative Code.

**AA. State license:** A license issued pursuant to the law of the State of Oklahoma to practice the following professions: Architecture, Landscape Architecture, or Engineering. Each State License must be current.

**BB. TRO:** The Revised Ordinances of the City of Tulsa.

*(Ord. No. 24061, § 1, 12-19-2018)*

### Section 603. Approved professionals.

**A. General.** An approved professional shall provide evidence of current licensure in the State of Oklahoma with each building permit application submitted to the SC program.

**B. Approved professional requirements.** An approved professional shall submit the following information and documents to the Development Services Department at the time of submission of a self-certified building permit application:

**1.** A copy of the approved professional's State license for which the individual will be providing services or proof of current licensing in the State of Oklahoma as an Architect, Landscape Architect or Engineer.

**2.** A copy of the approved professional's current driver's license or a current state or federally-issued identification that includes a photograph of the approved professional.

**3.** The address, telephone number, cellular telephone number, fax number and e-mail address of the approved professional, which shall be provided on or with the self-certified building permit application.

**C. Authorized practice areas of approved professionals.** An Architect licensed in Oklahoma is authorized to provide plan reviews and certifications for the SC program as an approved professional within the scope of the "practice of architecture" as defined in 59 O.S. § 46.3, and as may be amended from time to time. A Landscape Architect licensed in Oklahoma is authorized to provide plan reviews and certifications for the SC Program as an Approved Professional within the scope of the definition of "landscape architecture", and the practice thereof, as defined in 59 O.S. § 46.3, and as may be amended from time to time. A Professional Engineer licensed in Oklahoma is authorized to provide plan reviews and certifications for the SC program as an approved professional within the scope of the "practice of engineering" as defined in 59 O.S. § 475.2, and as may be amended from time to time.

**D. Standard of care.** Each Architect, Landscape Architect and Engineer shall perform self-certification services as an Approved Professional consistent with the professional skill and care ordinarily provided by Architects, Landscape Architects and Engineers practicing in the Tulsa, Oklahoma, geographic area under the same or similar circumstances.

*(Ord. No. 24061, § 1, 12-19-2018)*

## Section 604. Procedures.

**A. Permit applications.** An applicant shall submit to the Development Services Department, a completed Self-Certified building permit application, statement of self-certification, complete copies of all plans, drawings, specifications and all other supporting documents in a sufficient number thereof as required by the Development Services Department and/or as set forth in the manual. The applicant is responsible for ensuring that all documents submitted under the SC program have been signed, stamped and sealed by the approved professional along with the required statement of self-certification. In addition, the applicant must provide all pre-requisite permits and approvals which may be required by a particular project, including, but not limited to, a zoning clearance permit, a water/sewer/drainage-storm-water permit, infrastructure development process approval, floodplain development approval, and City-County Health Department approval. If all pre-requisite permits and approvals are not provided with the permit application, such applications will not be processed until the pre-requisite permits and approvals are secured and provided to the Development Services Department. Separate mechanical, electrical, plumbing and fire protection trade permits are required for each project as may be applicable. By execution of a statement of self-certification, an approved professional is making the professional determination that the plans, specifications and other construction documents relating to a project for which a building permit is sought are in compliance with the Building Codes. An approved professional cannot certify fire prevention or suppression systems.

**B. Plan reviews.**

**1.** The approved professional shall sign and stamp with the approved self-certification stamp as set forth in the manual, each and every page or sheet of all blueprints, plans and drawings, the first page or sheet of each specification

manual, and all other required supporting documents, if any (the "construction document(s)") to verify that the approved professional has reviewed all construction documents submitted by the applicant.

**2.** The self-certification stamp shall contain the following language:

I, being duly-registered as a Professional _____ (Architect, Landscape Architect or Engineer), in the State of Oklahoma and in good standing, hereby certify FOR THE SOLE PURPOSE OF CERTIFICATION OF CODE COMPLIANCE, under the terms of the City of Tulsa Self-Certification Program for Plan Review, that this Construction Document has been prepared by me, OR under my direct control and personal supervision, OR reviewed by me, and I declare that this Construction Document depicts a proposed construction that by application of the standard of professional due care complies with the currently-applicable Building Codes, laws, ordinances, codes, and standards for the design, construction, and declared occupancy of this Project within the City of Tulsa.

This certification is solely for the benefit of the City of Tulsa without intention to benefit any other person. It is non-transferable and may not be used for another purpose or by another person for any purpose. "Certification" and "certify" as used herein, is an expression of a professional opinion and is neither a warranty nor a guarantee.

Signed: _____

Date: _____

**3.** Building Permits shall be issued by the Development Services Department within a reasonable time upon receiving a complete self-certified building permit application, all required plans, drawings, specifications and other required supporting documents, as well as payment of all permit and application fees as required in Title 49 of TRO. Such permit and application fees shall be assessed at the same rate as projects that have been reviewed by Development Services Department staff. Acceptance of such plans, drawings, specifications and supporting documents on self-certified projects shall not constitute a representation or guarantee by the City of Tulsa of Building Code compliance, and all responsibility for Building Code compliance lies with the approved professional.

**4.** The Development Services Department may review and audit any self-certified building permit applications and all supporting plans, drawings, specifications and other required supporting documents prior to or after issuance of a building permit. If there are any deficiencies with regard to Building Code compliance, the Development Services Department may decline to issue a Building Permit or rescind a previously-issued building permit and stop further work on the project until such compliance issue is resolved. Violations of the Building Code(s), whether discovered at any time prior to construction commencing, during construction, or after final inspection of a project shall be corrected at the applicant's/owner's/developer's sole expense within a reasonable time as determined by the Development Services Department. Failure of the owner to correct any violations of the Building Code(s) may cause the project to be denied a certificate of occupancy. In addition, abatement proceedings may be commenced by the City of Tulsa if any Building Code violations or deficiencies are not corrected.

**5.** Projects for which a building permit has been issued pursuant to the SC program shall be inspected according to the normal construction inspection procedures of the City of Tulsa.

**6.** Fire protection/suppression system plans and specifications shall be reviewed and permitted by the City of Tulsa. Project plans shall be reviewed by the City of Tulsa for compliance with the Fire Protection Code.

*(Ord. No. 24061, § 1, 12-19-2018)*

### Section 605. Approved professional ethics.

**A.** An approved professional shall not suggest, direct or authorize the builder, fabricator, erector, contractor or sub-contractor to deviate from the approved construction documents or the applicable Building Codes without written approval by the responsible architect, structural engineer or geotechnical engineer and the City of Tulsa Development Services Department.

**B.** An approved professional shall contract directly with the applicant, owner or developer of a project, solely at the expense of such applicant, owner or developer for self-certification plan review services.

**C.** An approved professional shall observe and follow the Rules of Professional Conduct regulating the profession practiced by the approved professional as set forth in the Oklahoma Administrative Code in Title 55, Chapter 10, Subchapter 11, concerning Licensed Architects and Landscape Architects, and in Title 245, Chapter 15, Subchapter 9, concerning Professional Engineers, as each may be amended from time to time.

*(Ord. No. 24061, § 1, 12-19-2018)*

### Section 606. Board of Appeals.

To facilitate the implementation of the SC program, the Board of Appeals shall advise the Development Services Department regarding the adoption of policies and procedures required to implement the SC program as provided in this chapter.

*(Ord. No. 24061, § 1, 12-19-2018)*

## CHAPTER 7. THIRD-PARTY PLAN REVIEW AND INSPECTION PROGRAM

Section 701. Title; overview and purpose.
Section 702. Definitions.
Section 703. Third-Party Plan Review and Inspection Program.

### Section 701. Title; overview and purpose.

**A. Title.** This Chapter may be cited as the "Third-Party Plan Review and Inspection Program."

**B. Overview and Purpose.** The Third-Party Plan Review and Inspection Program (the "TPP Program") is hereby implemented to establish an alternate method for residential, commercial and industrial developers and contractors to procure plan review and inspection services from private providers, rather than the Development Services Department of the City of Tulsa. The TPP Program offers persons or entities who desire to obtain a building permit for a residential, commercial or industrial project the option to contract directly with an independent Third-Party Provider (as defined below) recognized by the City of Tulsa for plan review and related services, including all required building and construction inspections.

*(Ord. No. 24280, § 1, 12-18-19)*

### Section 702. Definitions.

For the purposes of this chapter, the following words and terms have the meanings ascribed to them by this section; words and terms not defined here have the meanings given to them in the applicable building codes, in the laws of the State of Oklahoma, and by common and ordinary usage:

**Applicant:** A person, firm, corporation, or other legal entity who is requesting formal approval as a Provider pursuant to the TPP Program.

**Authorized Provider:** An independent third-party building inspector who holds a current and valid Authorized Provider Inspector License, or equivalent licensure as issued by the Oklahoma Construction Industries Board, in accordance with the Oklahoma Inspectors Act. An Authorized Provider is not an employee or agent of the City of Tulsa, but is an independent contractor. An Authorized Provider may be licensed in more than one (1) license category or classification of inspector license issued by the Construction Industries Board.

**Building Code** or **Building Codes:** The various building and construction codes adopted by the City from time to time and codified in the Tulsa Revised Ordinances, including, without limitation, the Building Code prescribed by Title 51, the Electrical Code prescribed by Title 52, the Plumbing Code prescribed by Title 56, the Mechanical Code prescribed by Title 59, and any applicable State Building Codes.

**Building Official:** The official or the official's designee authorized to administer and enforce the Building Codes by the City of Tulsa.

**Building Permit:** Formal written permission by the City of Tulsa to perform construction, alteration, repair or related activities within the municipal limits of the City of Tulsa or within its jurisdictional control, as required by Ordinance.

**CIB:** The Construction Industries Board, a governmental agency of the State of Oklahoma, or its successor agency.

**City Building Inspector:** An employee of the City of Tulsa who inspects any phase of a construction Project for the purpose of enforcing compliance with the applicable Building Codes or standards and includes, but is not limited to, plumbing inspectors, electrical inspectors, mechanical inspectors and structural building inspectors.

**Contractor:** A person, firm, corporation, or other legal entity engaged in any aspect of construction of a building or structure, or a part thereof, including associated site improvements.

**Developer:** A person, firm, corporation or other legal entity that is either an owner of real property or the owner of an existing building or other improvement which is or which will be the subject of a permitted construction Project, or under contract with the owner thereof to commence and complete a particular construction Project or improvement to real property.

**Development Services Department:** The department of the City of Tulsa having jurisdiction and control over the issuance of building permits, construction and development permits, occupancy permits, and similar permits and approvals for the construction of buildings and improvements. Also referenced in this Chapter as the "DS Department".

**Director:** The Director of the Development Services Department of the City of Tulsa, or the successor to such Director.

**Fee:** The charge to applicants for permits or other authorizations issued by the City of Tulsa as provided in Title 49 of the Revised Ordinances of the City of Tulsa.

**Inspection:** The inspection of the various components of construction projects, including, but not limited to, plumbing, electrical, mechanical, structural or other aspects of building and construction, for the purpose of enforcing compliance with the applicable building codes or standards.

**Inspector:** A person who holds a current and valid Authorized Provider Inspector License or its equivalent as issued by the CIB, and who, in addition, meets the requirements to provide inspection services for a Provider, under the supervision of a Qualified Professional, for the specific type(s) of inspections to be performed as set forth in the Manual, for the purposes of providing building and construction inspections pursuant to the Program.

**Manual:** The document approved by the Development Services Director, or the Development Services Director's designee, detailing the processes, duties, responsibilities and compliance requirements related to the Third-Party Plan Review and Inspection Program.

**Ordinance:** A legislative act of the City Council of the City of Tulsa which has become effective in accordance with the Amended Charter of the City of Tulsa.

**Owner:** The owner of the real property upon which a construction project is being undertaken.

**Permitting Services:** Plan review and inspection services for a construction project.

**Plans Examiner:** A person who possesses current International Code Council ("ICC") certification as a Plans Examiner or Reviewer for the type of plan reviews to be performed as set forth in the Manual, for the purpose of providing building and construction plan examination and review services pursuant to the Program.

**Probation:** A period of time in which the Provider is directly monitored while permitted to continue to provide permitting services pursuant to the TPP Program, as a result of an enforcement action and the imposition of sanctions by the DS Department.

**Program:** See "Third-Party Plan Review and Inspection Program".

**Project:** An organized undertaking at a specific location to complete pre-determined objectives for the planning, design, construction, repair, improvement or expansion of buildings or facilities, as detailed in construction plans, specifications and other related documents.

**Provider:** A person or an entity with one or more employees knowledgeable and competent with respect to construction permitting, building construction processes and Building Codes and who is approved to provide third-party Permitting Services for a Project pursuant to a contract with an Owner or Developer. Also referred to in this chapter as a "Third-Party Provider". A Provider is not an employee or agent of the City of Tulsa, but is an independent contractor.

**Qualified Professional:** A professional engineer, architect, or landscape architect licensed in the State of Oklahoma, or someone possessing a Bachelor's Degree and who holds a current International Code Council ("ICC") certification of Master Code Professional, and who, in addition, meets the requirements to provide services as a Qualified Professional for a Provider as set forth in the Manual, pursuant to the Program.

**Removal:** Revocation by the DS Department of a Provider's ability to provide permitting services as authorized by the Program.

**Special Inspections:** Field inspections of certain aspects of a Project, both structural and non-structural in nature, in accordance with Chapter 17 of the International Building Code which requires specialized qualified expertise.

**State Building Code:** The current version of any building code(s) adopted pursuant to state law and/or by the Oklahoma Uniform Building Code Commission, including, but not limited to, the building codes contained in Title 748 at Chapter 20 of the Oklahoma Administrative Code.

**State Law:** Statutes of the State of Oklahoma or applicable provisions of the Oklahoma Administrative Code.

**Suspension:** Temporary rescission of a Provider's ability to provide permitting services authorized by the Program.

**Third-Party Plan Review and Inspection Program:** The independent third-party permitting services providing plan review and inspections established by this Chapter. Also referenced in this Chapter as the "Program" or the "TPP Program".

**TRO:** The Revised Ordinances of the City of Tulsa.

*(Ord. No. 24280, § 1, 12-18-19)*

## Section 703. Third-Party Plan Review and Inspection Program.

**A. General.** An applicant for a building permit who intends to utilize the TPP Program rather than the DS Department for plan review and inspection services shall follow the procedures set forth in the Manual, and as required by the DS Department.

**B. Third-Party Provider Requirements and Application.** A person or entity seeking to provide Third-Party Plan Review and Inspection Services, otherwise referred to as "Permitting Services", and seeking approval as a "Provider" within the City of Tulsa shall agree to and comply with the following:

**1.** An Applicant requesting approval as a Provider shall have an agreement with a Developer to provide Permitting Services for a particular Project.

**2.** An Applicant shall submit a completed "Application for Third-Party Provider Designation" ("application" hereinafter) as approved by the Director and as is set forth in the Manual, to the DS Department.

**3.** An Applicant shall provide a certificate of insurance evidencing current insurance coverages provided by an insurer authorized to transact insurance business in Oklahoma, at the time of submission of a new application or at the time of submission of a renewal application, as follows:

**i.** Professional Liability/Errors and Omissions Insurance with coverage of not less than One Million Dollars ($1,000,000.00) per occurrence, with an endorsement providing coverage for two (2) years after completion of each Project; and

**ii.** Workers Compensation Insurance which complies with Oklahoma statutory requirements and Employer's liability insurance with coverage of not less than One Hundred Thousand Dollars ($100,000.00) per occurrence, or the minimum policy coverage required by Oklahoma law, whichever is greater.

**4.** Providers shall furnish a replacement Certificate of Insurance to the DS Department when any required insurance policy expires or is canceled.

**5.** All Certificates of Insurance submitted must be approved by the Office of the City Attorney. Any deficient Certificates of Insurance must be corrected as required by the Office of the City Attorney.

**6.** Each required insurance policy shall provide by endorsement that thirty (30) days' prior written notice of cancellation shall be delivered by the insurer to the City, except that ten (10) days' written notice of cancellation shall be provided by the insurer due to non-payment of premium.

**7.** A Provider shall not cause or allow any required insurance policy to be canceled or to lapse without securing replacement insurance coverage so that there is no gap in coverage, and a Provider shall notify the DS Department of any change in insurance coverage within fifteen (15) days of such change. Failure by a Provider to maintain the required insurance coverage(s) is a violation of the conditions of approval as a Provider and may result in consequences up to and including removal from the TPP Program.

**8.** Submission of the application and application/registration fee of Two Hundred Fifty Dollars ($250.00) at the time the application is submitted to the DS Department.

**9.** By submission of an application, the Applicant represents that it is familiar with, and knowledgeable of all applicable State of Oklahoma and City of Tulsa construction codes and City of Tulsa ordinances, regulations and policies which are applicable to a construction Project, and that the applicant is in compliance with applicable laws of the State of Oklahoma, the ordinances of the City of Tulsa, the Manual, and all other applicable laws, rules and regulations.

**C. Application Approval and Designation as a Provider.** Upon receipt of a completed application from an Applicant and all required insurance certificates, any other information and supporting documentation required by the DS Department, and the non-refundable application and registration fee of Two Hundred Fifty Dollars ($250.00), the DS Department shall determine if the applicant meets the requirements to provide permitting services as a Provider, and shall either approve or deny the application. Upon approval, a Provider shall be issued an approval notice and Provider registration number by the DS Department, and such approval shall be valid for a twelve (12) month period, unless the Provider is later suspended or removed.

**D. Renewal Applications.** A person or entity that received approval in the preceding year from the DS Department and is in good standing as a Provider shall submit a renewal application in such form as is approved by the Director and the registration renewal fee of Two Hundred Fifty Dollars ($250.00) to the DS Department at least sixty (60) days prior to the expiration of the previous approval as a Provider. The renewal applicant must submit any new documents that may be required by the DS Department to update its records or to make a determination regarding the renewal application. Current certificates of insurance with the coverages required by the TPP Program shall be submitted with the renewal application. The DS Department, in its sole discretion, may provide a conditional six (6) month extension to a Provider to complete plan reviews and inspections for an ongoing Project. During the extension period, the renewal application must be submitted, processed and approved by the DS Department prior to the expiration of the extension period or the Provider shall be removed from the TPP Program. If a renewal application is not approved within the six (6) month extension period, a new application must be submitted and approved for an applicant to provide permitting services pursuant to the TPP Program. Renewal registration is valid for a twelve (12) month period, unless the Provider is later suspended or removed.

**E. Duty to Provide Current Information.** A Provider is required to notify the DS Department in writing if there is a material change in the information that was provided for a pending application, or for an approved Provider, within ten (10) business days after the material change. Failure to provide current material information required by the DS Department shall be grounds for rejection of an application and is a violation warranting administrative action as authorized by this chapter.

**F. Qualifications of Providers.** To be considered for DS Department approval as a Provider, an Applicant shall comply with the following:

**1.** An Applicant must have experience in the construction industry and must demonstrate knowledge of all applicable State of Oklahoma and City of Tulsa construction codes and City of Tulsa ordinances, regulations and policies which are applicable to a construction Project, as well as knowledge of the City of Tulsa's permitting processes and required inspections.

**2.** A Provider must maintain an office within the State of Oklahoma.

**3.** If a Provider is an artificial entity such as a corporation or a limited liability company, such entity must be registered with the Office of the Oklahoma Secretary of State and be in good standing.

**G. Provider Scope of Services.** Permitting Services shall be performed by the Provider as applicable to a specific Project, utilizing such licensed and certified Qualified Professionals, Plans Examiners, and Inspectors as may be necessary through completion of the Project and issuance of a Certificate of Occupancy. Permitting Services for the following-listed Project components shall be performed by the Provider, as necessary, as set forth in the Manual:

**1.** Private site infrastructure and utilities (grading, paving, water, sewer and stormwater drainage systems);

**2.** Zoning, subdivision, and development regulations compliance;

**3.** Architectural/Structural/Fire Safety (building/fire codes; except fire sprinklers/ standpipes, detection and alarm systems);

**4.** Accessibility;

**5.** Mechanical, Electrical; and Plumbing (MEP);

**6.** Energy Conservation;

**7.** Signs; and

**8.** Recommendations for the issuance of building permits, close-out permits and certificates of occupancy.

**H. Prohibited Provider Services and Necessary Approvals.** The following-listed processes and Project components are outside of the scope of Provider Permitting Services, except to the extent necessary to submit requests for approvals or to recommend approvals, as set forth in the Manual:

**1.** Granting approval of alternative materials, design, and methods of construction and equipment, or modification or deviation from any provision of the applicable codes, standards, regulations and policies;

**2.** Approval of work within a dedicated or planned public right-of-way;

**3.** Infrastructure Development Process (IDP) permitting services;

**4.** Approvals by the Board of Adjustment, the Tulsa Metropolitan Area Planning Commission (TMAPC), the Preservation Commission, and the City Council;

**5.** Projects within a Federal Emergency Management Agency (FEMA) and/or City of Tulsa regulatory floodplain;

**6.** Work in rights-of-ways occupied by utility franchisees of the City of Tulsa, including utility easements;

**7.** Fire Protection Systems (fire sprinklers, standpipes, detection and alarm systems);

**8.** Zoning approval;

**9.** Tulsa City-County Health Department approval;

**10.** Issuance of permits and certificates of occupancy; and

**11.** Other work as determined by the Building Official in writing as adopted by administrative rule.

The Developer and Provider are responsible for obtaining all necessary approvals of the type and from the proper authority as set forth in this subsection that may be required for a particular Project. In addition, it is the responsibility of the Developer and Provider to timely schedule and complete submittals, reviews, and inspections throughout the duration of a Project to its completion.

**I. Conflicts of Interest.** A Provider and Qualified Professionals, Plans Examiners and Inspectors shall at all times be in compliance with the Conflicts of Interest provisions as set forth in the Manual.

**J. Use of Qualified Professionals, Plans Examiners and Inspectors.** A Provider shall utilize one (1) or more Qualified Professionals, Plans Examiners, and Inspectors as is necessary for each Project. A Qualified Professional shall provide direct supervision of all plan reviews and inspections for a Project. The required certifications for a Qualified Professional, Plans Examiner and Inspector for each Project component for the purpose of Permitting Services shall be established by the Director and as set forth in the Manual. The Director may amend and modify the required certifications for Qualified Professionals, Plans Examiners and Inspectors.

**K. Areas of Permitting Services-Project Components.** The areas of Permitting Services for Project components are as follows:

**1.** Commercial Building Plan Review and Inspection;

**2.** Residential Only (One- and Two-Family Dwellings) Plan Review and Inspection;

**3.** Mechanical Plan Review and Inspection;

**4.** Electrical Plan Review and Inspection;

**5.** Water, Sewer, Drainage-Stormwater and Building Plumbing Plan Review and Inspection;

**6.** Energy Conservation Plan Review and Inspection;

**7.** Special Inspections; and

**8.** Any other Project component not listed in this subsection deemed necessary by the Director for completion of a particular Project.

**L. Appointment of Provider and Payments to Provider.** Prior to commencement of construction, the Developer or an authorized agent of the Developer shall provide the City with a notice of appointment of a Provider to engage in Permitting Services for a Project. The notice of appointment shall be in such form as approved by the Director. If a Developer is utilizing an agent, authorization of an agent of a Developer, in such form as approved by the Director, shall be submitted to the DS Department. The DS Department shall endeavor to approve or disapprove the use of a Provider for the Project within five (5) business days after receipt of the notice of appointment, and receipt of a completed application to be designated as a Provider. Upon approval of the Provider by the DS Department in accordance with this Chapter, Permitting Services related to the Project will be processed through the Provider, in accordance with this Chapter and the Manual. The Developer shall replace a Provider that has failed or ceased to perform as a Provider during a Project. The DS Department must approve a replacement Provider prior to the performance of Permitting Services. The Owner or Developer is responsible for payment of all services rendered by a Provider, and the

City of Tulsa shall not be liable for any unpaid sums due and owing to a Provider by an Owner or Developer. A Provider shall have no right of action against the City of Tulsa for unpaid fees and expenses due and owing by the Owner or Developer.

**M. Duties and Responsibilities of Provider.** The Provider shall utilize Qualified Professionals who shall provide direction and supervision of all plan reviews and inspections for a Project. In addition, other duties and responsibilities of a Provider are as follows:

1. **Recommendation to issue a required permit.** The recommendation to issue a permit shall be signed (and sealed, if applicable) by the Qualified Professional, and shall be submitted in such format as specified in the Manual. The recommendation to issue a permit shall be in a form provided by the DS Department, and shall include:
   - **a.** The Provider's name, and DS approval identification number;
   - **b.** Name and contact information of the Qualified Professional, and signature (and seal, where appropriate);
   - **c.** Project address;
   - **d.** List of plan reviews and name of plan reviewer;
   - **e.** Statements certifying that the discipline reviewed is completed; is in compliance with the applicable codes; and is recommended for the issuance of the permit;
   - **f.** A report identifying the Project code data;
   - **g.** An index of the approved drawings and specifications, including three (3) sets of the same.
2. **Additional Documentation Required.** Additional drawings and documents evidencing required approvals as set forth in subsection "H" of this section shall be submitted with the recommendation to issue the building permit. These required approvals are a prerequisite to the issuance of a building permit.
3. **Exclusive Inspection Responsibility.** The Provider shall ensure that all required inspections are performed and documented, except for inspections which must be performed by City Building Inspectors, such as Infrastructure Development Process installation or certain fire systems. The DS Department retains the right, but is not obligated, to inspect any Project being constructed pursuant to the Program at any time, without notice, to ensure compliance with the Program.
4. **Inspection Reports and Final Certificates.** With respect to inspections, inspection reports and final certificates, the Provider shall comply with the following:
   - **a.** The Provider shall ensure that all required inspections are performed as listed in the building codes, current as of the date of inspection. The inspection stages shall be rough and final inspections, and such other inspections as required by the DS Department. All site work and public infrastructure installed pursuant to an Infrastructure Development Process permit shall be inspected and accepted by the City of Tulsa as a condition to project close-out.
   - **b.** The Provider shall maintain all records of inspections and re-inspections. Prior to the completion of the Project, which is initiated by close-out of all

permits and the issuance of the final certificate of occupancy (where applicable), the Provider shall deliver a digital record of all inspection activities related to the project to the DS Department, plus an inspections final report signed (and sealed, if applicable) by the Qualified Professional.

**c.** Where a partial, temporary, or final certificate of occupancy is required (and for renewals of expired temporary certificates of occupancy), the Provider shall issue recommendation reports to the Developer to be presented to the DS Department for issuance. The Qualified Professional shall sign and wet-seal the reports. The reports must include the following:

i. Provider's name, address, and DS Department registration number.

ii. Name and contact information of the Qualified Professional.

iii. Project address and building permit number(s).

iv. Location and area (in square feet) of portions of the building requiring partial occupancy.

v. Occupant load of portions of building requiring partial occupancy.

vi. Expiration date of the temporary certificates of occupancy.

vii. Statement of approval for issuance of the partial, temporary, or final certificate of occupancy.

**5. On-Site Inspection Records.** When inspections are conducted, the Provider shall verify all relevant permits and approved drawings are on the site of the Project. Upon completion of an inspection, the Provider shall clearly communicate pass/fail inspection status to the contractor and retain the signed inspection records. The Provider shall verify that construction is in accordance with the approved plans. If a Developer does not correct a failed inspection, the Provider shall notify the DS Department within a reasonable time.

**6. Compliance Reviews and Audits by City.** The Provider shall maintain and keep current the records regarding all Projects under review or inspection. The Provider's Project records shall be available between 8:00 a.m. and 5:00 p.m., Monday through Friday (except legal holidays), in order for the DS Department to conduct compliance reviews and audits. Copies of these records shall be submitted to the DS Department in the event that the Provider ceases to perform during a Project under construction. In the event of an emergency with respect to a Project, such as a structural failure or other event which creates an unsafe condition for which work on a Project must cease, either temporarily or permanently, a Provider shall make Project records available to the DS Department immediately upon request.

**7. Staff Qualifications and Audits by City.** The Provider is responsible for maintaining all records regarding the evaluation, licensing, certifications, and continuing education requirements of its personnel, agents, and persons under contract with the Provider who provide services as a Qualified Professional, Plans Examiner or Inspector. In order to audit the qualifications and licensure of the Provider's staff, agents, or those under contract with the Provider, the DS Department may require submission of all or specific records pertaining to their qualifications and licensure.

8. **Records Retention.** The Provider shall retain all records of Projects for which the Provider has furnished services under this Program for a minimum of ten (10) years or for such period of time required by applicable Oklahoma law, including any applicable statute of limitations or repose, whichever is greater.

**N. Duties and Responsibilities of the DS Department.** The DS Department is responsible for enforcing compliance with the TPP Program and has the following responsibilities with respect to the administration of the TPP Program:

1. Administration of the Program as set forth in the City's ordinances and as specified in the Manual, as may be amended from time to time.
2. Issuance of permits, close-out of permits, and issuance of partial and final certificates of occupancy.
3. Performance of compliance reviews and audits of Providers.
4. Consideration and imposition of sanctions on Providers and anyone performing under a Provider as a Qualified Professional, Plans Examiner and Inspector, either as an employee of a Provider or under contract with a Provider.

**O. Program Compliance and Administration of Sanctions.** The DS Department is authorized to impose sanctions, up to and including removal of a Provider or anyone performing under a Provider as a Qualified Professional, Plans Examiner and Inspector, either as an employee of a Provider or under contract with a Provider, for failure to comply with this chapter, the Manual, the building codes, or the ordinances of the City of Tulsa. Such failure to comply, and violations of this Chapter, the Manual, the building codes or the ordinances of the City of Tulsa by a Provider or anyone performing under a Provider as a Qualified Professional, Plans Examiner and Inspector, either as an employee of a Provider or under contract with a Provider, may result in action by the DS Department, and depending on the severity of such noncompliance or violation, may include, but is not limited to, a written warning, probation, suspension, or removal from the Program as a Provider. For the purposes of subsections "O" and "P" of section 703 of this Chapter, the term "Provider" shall also encompass and include a Provider or anyone performing under a Provider as a Qualified Professional, Plans Examiner and Inspector, either as an employee of a Provider or under contract with a Provider. The various violations and the level of severity and range of possible sanction(s) is as set forth in the Manual.

**P. TPP Program Enforcement and Sanctions Procedures.** The DS Department shall take the following steps in ensuring compliance with the TPP Program if there is a determination that a failure to comply and/or one or more violations of the terms, conditions and requirements imposed by this chapter, the Manual, the building codes, or the ordinances of the City of Tulsa has occurred. Upon receipt of a complaint, or as part of its compliance oversight, the DS Department shall conduct an investigation to determine if the Provider acted improperly. Upon determining that the Provider is not in compliance with this chapter, the Manual, the building codes, the City's ordinances, or accepted industry practices, the DS Department may, in its sole discretion, take action(s) that may include, but are not limited to, the following:

1. The DS Department shall issue a letter via first class registered or certified mail with return receipt requested to the Provider and to the Developer of the Project stating the violation(s) and the sanction proposed to be imposed, providing a

reasonable opportunity to resolve or cure the noncompliance identified by the DS Department. Sanctions may consist of, but are not limited to, written warning, probation, suspension, or removal of a Provider from the TPP Program. Periods of probation or suspension shall be determined by the Director.

**2.** The Provider may submit a written appeal to the Director within fifteen (15) business days of the mailing date of official notification of the violation and sanction. The appeal may include evidence and written material supporting the Provider's position. The Director or the Director's designee shall schedule an administrative hearing regarding a written appeal within thirty (30) days after receipt of the same. After hearing an appeal, the Director or the Director's designee shall render a written decision within fifteen (15) days and shall mail the decision to the appellant by first-class mail, with written proof of mailing issued by the post office, or by registered or certified mail, return receipt requested.

**3.** All appeals from the decision of the Director or the Director's designee shall be heard pursuant to the procedures set forth in Title 51, Chapter 1, TRO.

**Q. Approval of the Manual and Amendments.** The Third-Party Plan Review and Inspection Manual, 2019 Edition, dated October 19, 2019, is hereby approved. The Director is authorized to make such amendments to the Manual that the Director deems is beneficial to the administration of the TPP Program which do not conflict with this chapter, without amending this chapter by ordinance. The Manual shall be re-dated as of the date of any amendments, and a current copy of the Manual shall be maintained by the Director in the offices of the DS Department.

# TITLE 52 ELECTRICAL CODE*

**Chapter 1. Administration**
**Chapter 2. Amendments to National Electrical Code, 2020 Edition**

*__Editor's note—__Ord. No. 24936, § 1, adopted October 26, 2022, amended Title 52 in its entirety to read as herein set out. Former Title 52, § 100, pertained to adoption of National Electrical Code, 2017 Edition (NFPA 70-2017), and derived from Ord. No. 24830, § 1, 5-25-2022.

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. ADMINISTRATION

Section 100. Adoption of National Electrical Code, 2020 Edition (NFPA 70-2020).
Section 101. Applicability.
Section 102. Office of electrical inspection.
Section 103. Approval.
Section 104. Permits.
Section 105. Inspections.
Section 106. Violations.
Section 107. Stop work order.
Section 108. Means of appeal - Added.
Section 109. Registration of electrical contractors.
Section 110. Registration fees - Added.

### Section 100. Adoption of National Electrical Code, 2020 Edition (NFPA 70-2020).

A certain document, three (3) copies of which are on file in the Office of the City Clerk of the City of Tulsa, Oklahoma being marked and designated as the National Electrical Code, 2020 Edition (NFPA 70-2020), as published by the National Fire Protection Association (NPFA), is hereby adopted as part of the Tulsa Revised Ordinances, hereinafter the "Electrical Code," for the installation, alteration, repair and regulation of electrical systems and equipment serving buildings and structures except detached one- and two-family dwellings and townhouses not more than three (3) stories above grade plane in height with a separate means of egress and whose accessory structures shall comply with Tulsa Revised Ordinances, Title 51 Chapter 2. Each and all of the terms, conditions, regulations, provisions, and penalties of the National Electrical Code, 2020 Edition (NFPA 70-2020) are hereby referred to, adopted and made a part of the Tulsa Revised Ordinances as if fully set out in this title, with amendments. As used in this title, the National Electrical Code, 2020 Edition (NFPA 70-2020), as amended by this title, may be referred to as the "code."

*(Ord. No. 24936, § 1, 10-26-2022)*

### Section 101. Applicability.

**101.1 Existing Structures - Added.** Except as otherwise provided in this title, this code shall not require the removal, alteration or abandonment of, nor prevent continued use of an existing electrical system.

**101.2 Alteration, Additions, or Repairs - Added.** The alteration, addition or repair of any electrical system shall conform to requirements for a new electrical system, without requiring the entire existing system to comply with all of the requirements of this code. Alterations, additions and repairs shall not cause an existing system to become unsafe or adversely affect the performance of the system. Where additions or alterations subject parts of an existing system to loads exceeding those permitted in this code, such parts shall be made to comply with this code.

**101.3 Referenced Standards - Added.** The standards referenced in this code shall be deemed incorporated by reference into this code, to the extent prescribed by each reference. Where differences occur between provisions of this code and the referenced standards, the provisions of this code shall apply.

**101.4 Maintenance - Added.** Electrical systems, equipment, materials and appurtenances, both existing and new, and parts thereof shall be maintained in a safe, hazard-free condition. Devices or safeguards that are required by this code shall be maintained in compliance with the code edition under which installed. The owner or the owner's designated agent shall be responsible for the maintenance of the electrical systems and equipment. To determine compliance with this provision, the code official shall have the authority to require that the electrical systems and equipment be re-inspected.

## Section 102. Office of electrical inspection.

**102.1 Authority Having Jurisdiction - Added.** Pursuant to Title 11, Tulsa Revised Ordinances, Chapter 2, the Director of Planning and Development, or the Director's designated representative, as provided by Title 51, Chapter 1, Section 103.2, Tulsa Revised Ordinances, shall direct the administration of the Electrical Code of the City of Tulsa.

**102.2 Conflict of Interest Prohibited - Added.** Electrical Inspectors shall ascribe to and be guided in professional conduct as City of Tulsa representatives, as provided in Title 12, Chapter 6, Tulsa Revised Ordinances, the "Ethics Code".

**102.3 Duties of Code Official - Added.** The code official shall enforce all of the provisions of this code and shall act on any question relative to the installation, alteration and operation of electrical systems and equipment.

**102.4 Authority to Disconnect Service Utilities - Added.** The code official shall have the authority to authorize disconnection of utility services or energy sources to the building, structure or system regulated by this code in case of an emergency where it is necessary to eliminate an immediate hazard to life or property or to abate a violation of this code. The code official shall notify the serving utility and, wherever possible, the owner and occupant of the building, structure or service system of the decision to disconnect prior to taking such action. If not notified prior to disconnecting, the owner or occupant of the building, structure or service system shall be notified in writing as soon as practical thereafter. A person shall not make utility service or energy source connections to systems regulated by this code, which have been disconnected or ordered to be discontinued by the code official, or the use of which has been ordered to be discontinued by the code official until the code official authorizes the reconnection and use of such systems.

**102.5 Authority to Condemn Electrical Systems - Added.** Wherever the code official determines that any electrical system, or portion thereof, regulated by this code has become hazardous to life, health or property, the code official shall order in writing that such electrical systems either be removed or restored to a safe condition. A time limit for compliance with such order shall be specified in the written notice. A person shall not use or maintain a defective electrical system or equipment after receiving such notice.

## Section 103. Approval.

**103.1 Approved Materials and Equipment - Added.** All materials, equipment, and devices approved by the code official for use under the administration of this code shall be constructed and installed in accordance with such approval.

**103.2 Alternative Materials and Equipment - Added.** The provisions of this code shall not prevent the installation of any material or prohibit any method of construction not specifically prescribed by this code, provided that the alternative material or method has

been approved by the code official. An alternative material or method of construction shall be approved when the code official finds that the proposed design satisfactorily complies with the intent of this code, and that the material, method, or work offered is for the purpose intended. Any and all alternative materials or methods of construction shall be equal to or greater in quality, strength, effectiveness, fire resistance, durability and safety than that prescribed in this code.

**103.3 Labeling - Added.** Electrical materials and equipment regulated by this code shall be listed and labeled by an Occupational Safety and Health Administration (OSHA) Nationally Recognized Testing Laboratory, indicating that they have been tested and evaluated for the intended application by an approved agency, unless they are otherwise approved as provided in this title.

**Exception: Unlabeled Equipment - Added.** The following procedures shall be employed for acceptance of any unlabeled equipment:

1. The appliance or equipment shall be investigated and tested by an engineer registered in the State of Oklahoma, who is qualified in the field of the specific appliance or equipment to be tested. The engineer shall not be affiliated in any manner with the manufacturing or distribution of the appliance or equipment.
2. A letter bearing the signature and seal of an engineer registered in the State of Oklahoma shall be furnished to the code official and shall include the following information:
   a. A statement requesting exemption from the labeling requirements set forth in the National Electrical Code.
   b. A specific description of the appliance or equipment with the model and serial numbers.
   c. The purpose the appliance or equipment is to serve.
   d. The type of investigation and test performed. Testing and evaluation shall be in accordance with National Fire Protection Association (NFPA) Standard 791, Recommended Practice and Procedures for Unlabeled Electrical Equipment Evaluations.
   e. The date and results of the investigation and test performed.
   f. A statement from the engineer that the equipment is safe for its intended use.
3. The installation of the appliance or equipment shall be approved upon acceptance of the letter by the code official.

**103.5 Construction Documents - Added.** Any construction documents, including plans and specifications that are required by this code or any other adopted code governing construction, shall be provided to the code official upon request.

## Section 104. Permits.

**104.1 Payment of Fees - Added.** No permit shall be issued until the fees prescribed in Title 49 Tulsa Revised Ordinances have been paid.

**104.2 Permit Required - Added.** No person, firm, partnership, corporation, or limited liability company shall do or cause to be done any electrical work without first having obtained an electrical permit. Electrical permits shall not be transferable.

**Exception.** Where equipment replacements and repairs must be performed in an emergency situation, the permit application shall be submitted within the next working business day.

**104.2.1 Qualification of Permit Applicants - Added.** No electrical permit shall be issued to any person, firm, partnership, corporation, or limited liability company until such person, firm, partnership, corporation or limited liability company has produced evidence of having in their possession the required licenses and registrations.

**104.3 Permit Not Required - Added.** A permit is not required for repairs that do not involve alteration or rearrangement of the electrical installation.

**104.4 Work Started Without a Permit - Added.** If work is initiated prior to the issuance of the required permit, a penalty fee shall be charged in accordance with Title 49, Tulsa Revised Ordinances. The assessment or payment of this fee shall not relieve any person from fully complying with all requirements of this code nor shall such payment exempt the persons from further penalty, such as suspension or revocation of their Certificate of Registration.

**104.5 Expiration of Permit - Added.** Unless extended by the code official, any permit shall be invalid if the authorized work is not commenced within six (6) months after issuance of the permit, or if the authorized work is suspended or abandoned for a period of six (6) months after the time work commenced.

**104.6 Revocation of Permit - Added.** The code official shall revoke any permit or approval issued pursuant to this code, in the event it is discovered that the permit or approval was issued based upon a false statement or misrepresentation of fact materially affecting the permit application or construction documents.

**104.7 Annual Permits - Added.** Annual permits shall be issued in accordance with Tulsa Revised Ordinances, Title 50.

**104.7.1 Annual Permit - Amendatory.** An annual permit is a yearly permit which represents a group of individual permits for each alteration to an already existing electrical, gas, mechanical or plumbing installation. The building official is authorized to issue an annual permit upon application therefor to any person, firm or corporation regularly employing one or more qualified tradespersons in the building, structure or on the premises owned or operated by the applicant for the permit.

**104.7.2 Annual permit records - Amendatory.** The person to whom an annual permit is issued shall keep a detailed record of alterations made under such annual permit. The building official shall have access to such detailed records of alterations at all times. At the completion of the entity's annual permit term, the applicant shall file such detailed records of alterations with the building official. Pursuant to the authority of 59 O.S. § 1000.25, the building official shall collect fees for each individual permit which is part of the annual permit once the detailed records are submitted and remit such fees to the OUBCC.

**Section 105. Inspections.**

**105.1 Inspection Required - Added.** Work shall be subject to inspection by the code official and such work shall remain accessible and exposed until approved. Approval as a result of an inspection shall not be construed as an approval of a violation of this code.

**105.2 Request for Inspection - Added.** It shall be the duty of the permit holder to request inspections.

**105.3 Work Open for Approval - Added.** Work that is covered or concealed without approval of the code official shall be subject to penalty as established by Title 49, Tulsa Revised Ordinances.

**105.4 Exception for Emergencies - Added.** For emergency work outside regular business hours, including weekends and holidays, a utility company may connect electrical service to any electrical installation which the utility company deems to be safe. In such cases, the utility company shall notify the Office of Electrical Inspection no later than the first work day after the electrical connection was made so the installation can be inspected.

**105.5 Final Inspection - Added.** Upon completion of the electrical work, the permit holder shall request a final inspection. If the work complies with the code, the code official shall issue a written notice indicating approval of the work. If the work does not comply with the code, the code official shall leave written notice identifying the deficiencies. Appropriate corrections and re-inspections shall be made before a final inspection is approved.

**105.6 Other Inspections - Added.** In addition to the inspections specified in this title, the code official is authorized to make or require other inspections to ensure compliance with the provisions of this code and other laws.

**105.7 Downtime and Reconnect Inspections - Added.** The electric utility is authorized to disconnect and reconnect an electrical service on permitted work before an inspection by the code official with the following conditions:

1. The service that is being altered is currently in use.
2. A permit has been issued for the work to be performed.
3. The request shall be made twenty-four (24) hours in advance and cleared with the electric utility provider.
4. The electrical contractor shall contact the City of Tulsa Permit Center and the application shall be forwarded to the electric utility provider.
5. Immediately upon completion of the installation, the electrical contractor shall call for an inspection.
6. The contractor, in advance of the inspection and in coordination with the electric utility provider shall remove all meter, cabinet, and panel covers.
7. Violation of these conditions may result in the electrical contractor being prohibited from requesting Downtime and Reconnect Inspections in the future.

**105.8 Right of Entry - Added.** Where it is necessary to make an inspection to enforce the provisions of this code, or where the code official has reasonable cause to believe that there exists in a structure or upon a premises a condition which is contrary to or in violation of this code which makes the structure or premises unsafe, dangerous or hazardous, the code official is authorized to enter the structure or premises at reasonable times to inspect or to perform the duties imposed by this code, provided that if such structure or premises be occupied that credentials be presented to the occupant and entry requested. If such structure or premises is unoccupied, the code official shall first make a reasonable effort to

locate the owner or other person having charge or control of the structure or premises and request entry. If entry is refused, the code official shall have recourse to the remedies provided by law to secure entry.

**Section 106. Violations.**

**106.1 Unlawful Acts - Added.** It shall be unlawful, an offense and a misdemeanor for any person, firm, partnership, corporation, or limited liability company to erect, construct, alter, repair, remove, demolish, or operate electrical equipment regulated by this code, or cause same to be done, in conflict with or in violation of any provision of this code.

**106.2 Notice of Violation - Added.** The code official shall serve a notice of violation or order on the person responsible for the erection, installation, alteration, extension, repair, removal, demolition, or operation of electrical equipment or systems in violation of this code. The order shall direct the person responsible to discontinue the illegal action or condition and to abate the violation. If corrective action is not taken, the code official may file a written complaint in Municipal Court or request the City Attorney to institute the appropriate proceeding in law.

**106.3 Violation Penalties - Added.** Any person violating any of the provisions of this code shall be guilty of a misdemeanor offense and, upon conviction thereof, shall be punished by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees, and assessments, or by imprisonment in the City Jail for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day that a violation continues after an order or notice has been served shall be deemed a separate offense.

**106.4 Abatement of Violation - Added.** Imposition of criminal penalties prescribed in this title shall not preclude the City Attorney from instituting appropriate action to restrain or enjoin unlawful construction, the illegal occupancy of a building, or to stop an illegal act, conduct, business, or operation of electrical equipment or systems, or to abate any such violation.

**Section 107. Stop work order.**

**107.1 Notice - Added.** Upon notice from the code official that work on any structure is being conducted contrary to the provisions of this code or in an unsafe and dangerous manner, such work shall be immediately stopped. A stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, or to the person doing the work. The stop work order shall state the conditions under which work will be permitted to resume. Where an emergency exists, the code official shall not be required to give a written notice prior to stopping the work.

**107.2 Unlawful Continuance - Added.** Any person who shall continue any work after having been served with a stop work order, except such work as he is directed to perform to remove a violation or unsafe condition, shall be guilty of a misdemeanor offense as prescribed in Section 106.2 of this title.

**107.3 Unsafe Electrical Systems - Added.** An electrical system that is unsafe, constitutes a fire or health hazard, or is otherwise dangerous to human life, as regulated by this code, is hereby declared an unsafe electrical system. Use of an electrical system regulated by this code constituting a hazard to health, safety or welfare by reason of

inadequate maintenance, dilapidation, fire hazard, disaster, damage or abandonment is hereby declared to be a public nuisance, and shall be abated by repair, rehabilitation, demolition or removal.

**Section 108. Means of appeal - Added.**

Appeals of orders, decisions or determinations made by the code official relative to the application and interpretation of this code, shall be made to the Board of Appeals as established by Title 51, Chapter 1, Tulsa Revised Ordinances.

**Section 109. Registration of electrical contractors.**

**109.1 General - Added.** No person, firm, limited liability company, or corporation shall be issued a permit, engage in or offer to engage in, by advertisement or otherwise, any electrical work in the City of Tulsa as a contractor unless such person, firm, limited liability company, or corporation has properly registered with the City of Tulsa. All contractors, journeymen, and apprentices shall carry their state license on their person at all times while performing electrical work within the City of Tulsa and shall display the same upon request from the code official or a police officer of the City of Tulsa. No person issued a contractor's license shall employ or supervise persons performing electrical work unless those person(s) are licensed or allow any apprentice to perform electrical work unless the apprentice shall have direct supervision by a properly licensed person.

**109.2 Requirements for Registration - Added.** No person, firm, partnership, corporation, or limited liability company shall be issued a Certificate of Registration unless the City shall have been furnished proof of the issuance of a current State of Oklahoma contractor license issued under the provisions of 59 O.S. 2001, § 1680 et seq., as amended, and the fees established in Title 49, Tulsa Revised Ordinances shall have been paid to the City.

**109.3 Transfer of Registration Prohibited - Added.** No person, firm, partnership, corporation, or limited liability company shall allow its name to be used by any other person, firm, partnership, corporation, or limited liability company to obtain any permit or do any electrical work under its registration.

**109.4 Registration after Revocation - Added.** No person, firm, partnership, corporation, or limited liability company shall be permitted to obtain a new registration within one (1) year from the date of revocation of any prior registration.

**109.5 Expiration of Registration - Added.** Registration of state licensed contractors shall expire on the birth date of the licensee each year.

**109.6 Identification of Service Vehicles - Added.** Every contractor shall identify all service vehicles used in the contractor's business with the company name and contractor's license number. Such letters and numbers shall be no less than two (2) inches in height, shall be of a contrasting color, and shall be placed on both sides of all service vehicles.

**109.7 Suspension or Revocation of Certificates of Registration - Added.** Certificates of Registration may be suspended or revoked by the Board of Appeals in accordance with Title 51, Chapter 1, Tulsa Revised Ordinances.

## Section 110. Registration fees - Added.

Fees shall be charged for certificates of registration and renewals in accordance with Title 49, Tulsa Revised Ordinances.

## CHAPTER 2. AMENDMENTS TO NATIONAL ELECTRICAL CODE, 2020 EDITION

Article 100. Definitions - Amendatory.

### ARTICLE 100. DEFINITIONS - Amendatory.

Article 100 of the National Electrical Code, 2020 Edition (NFPA 70-2020) is adopted as published, provided that the following definitions in Article 100 are added to read as follows:

**Bracketing - Added.** The installation of open wires, supported by metal or wood brackets, along or across the exterior of buildings.

**Nationally Recognized Testing Laboratory - Added.** A testing facility given this designation from the United States Occupational Safety and Health Administration (OSHA) that provides product safety testing and certification services to manufacturers.

**110.12 (B) Integrity of Electrical Equipment and Connections - Amendatory.** Internal parts of electrical equipment, including busbars, wiring terminals, insulators, and other surfaces, shall not be damaged or contaminated by foreign materials such as paint, plaster, cleaners, abrasives, or corrosive residues. There shall be no damaged parts that may adversely affect safe operation or mechanical strength of the equipment such as parts that are broken; bent; cut; or deteriorated by corrosion, chemical action or overheating. Damaged materials, equipment, appliances, and devices shall not be reused unless such elements have been reconditioned, tested, and placed in good and proper working condition and approved by a nationally recognized testing laboratory, or by the manufacturer of the equipment. Electrical equipment damaged by natural or man-made events shall be reused only as recommended by the manufacturer of such equipment.

**210.08 (F) Outdoor Outlets.** All outdoor outlets for dwellings, other than those covered in 210.8 (A) (3), Exception to (3), and for mini-split-type heating/ventilating/air-conditioning (HVAC) equipment and other HVAC units employing power conversion equipment as a means to control compressor speed, that are supplied by single-phase branch circuits rated 150 volts ot ground or less, 50 amperes or less, shall have ground-fault circuit-interrupter protection for personnel. Informational Note: Power conversion equipment is the term used to describe the components used in HVAC equipment that is commonly referred to as a variable speed drive. The use of power conversion equipment to control compressor speed differs from multistage compressor speed control. Exception: Ground-fault circuit-interrupter protection shall not be required on lighting outlets other than those covered in 210.8 (C).

**210.12 Arc-Fault Circuit Interrupter Protection - Added.** Arc-Fault Circuit Interrupter Protection shall be required for existing electrical systems that do not have AFCI protection when any new circuit or receptacle is added to the existing system.

**210.19 (A)(4) Other Loads - Amendatory.** Branch-circuit conductors that supply loads other than those specified in 210.2 and other than cooking appliances as covered in 210.19 (A)(3) shall have an ampacity sufficient for the loads served and shall not be smaller than 14 AWG. 20 ampere general-purpose branch circuits for dwellings shall supply a maximum

of 10 outlets, 15 ampere general-purpose branch circuits for dwellings shall supply a maximum of 8 outlets. 20 ampere general-purpose branch circuits for other than dwellings shall supply a maximum of 8 outlets.

**210.22.1 Permanent Labels - Added.** Permanent labels shall be installed to indicate the address or location served by individual meters for multi-occupancy buildings. The permanent labels shall be embossed or engraved plaques, screwed or riveted to the service disconnect.

**215.12.1 Color Coding; Identification of Ungrounded Conductors - Added.** Where more than one nominal voltage system exists in a building, each ungrounded system conductor shall be identified by phase and system as follows:

| 240/120 | 208/120 | 480/277 | Phase |
|---|---|---|---|
| Black | Black | Brown | A |
| Orange | Red | Orange | B |
| Blue | Blue | Yellow | C |
| White | White | Natural Gray | Neutral |

Other colors shall be used for special applications, such as travelers, etc.

**220.0 Load Calculations - Added.** Where an addition or alteration is made to an existing electrical system, an electrical load calculation shall be prepared to determine if the existing electrical service has the capacity to serve the added load, and the calculation shall be made available to the code official upon request.

**230.24.1 Bracketing Prohibited - Added.** There shall be no bracketing of wires to the exterior of buildings. Weather heads shall be so located that bracketing will not be necessary. This provision shall not apply to wires belonging to public utility companies providing service to existing buildings.

**230.26.1 Point of Attachment for Overhead Services - Added.** The point of the overhead service entrance and attachment to the electric utility company's service wires on a building shall be a minimum of ten (10) feet above the ground.

**Exception:** For existing structures with overhead services, the point of attachment shall be not less than nine (9) feet above the ground. Clearances shall be provided as required by the National Electrical Code.

**230.28.1 Service Masts as Supports - Added.** The minimum size of rigid metal conduit (RMC) shall be two (2) inches for services up to and including two hundred (200) amperes and two and one-half (2½) inches for services over two hundred (200) amperes.

**250.24.1 Ungrounded Systems.** Construction of new ungrounded services shall require the written special permission of the code official.

**250.53 (A)(2) Supplemental Electrode Required - Added.**

**250.53.1 Residential Remodels and Repairs.** A supplemental grounding electrode shall be required for complete residential rewires and for complete service changes. Repairs to existing services that are not replaced entirely, shall not require a supplemental grounding electrode where 25 ohms or less of resistance to earth is present.

**358.12.1 Electrical Metallic Tubing (EMT) Uses Not Permitted - Added.** EMT shall not be installed in concrete or underground.

**422.16 (B)(5) Gas-fired central furnaces.** Gas-fired furnaces supplying dwelling units shall be permitted to be connected by a flexible cord-and-plug. The cord and attachment plug shall have sufficient ampacity for the load and shall be routed or otherwise protected to prevent physical damage to the cord or attachment plug.

**505.7 (A) Implementation of Zone Classification System - Amendatory.** Classification of areas, engineering and design, selection of equipment and wiring methods shall be performed by a Registered Professional Engineer with expertise in Hazardous (Classified) Locations and Zone Systems. The installation of equipment and wiring methods, and inspections shall be performed by qualified persons.

**506.7 (A) Implementation of Zone Classification System - Amendatory.** Classification of areas, engineering and design, selection of equipment and wiring methods shall be performed by a Registered Professional Engineer with expertise in Hazardous (Classified) Locations and Zone Systems. The installation of equipment and wiring methods, and inspections shall be performed by qualified persons.

**555.30 (D) Luminaires and other electrical equipment.** Luminaires and electrical connections to luminaires or other electrical equipment shall be located not less than 5 feet horizontally from the nearest normal edge of the water. If a luminaire is within the 5 foot horizontal zone it must be 12 feet vertically.

**682.10 Electrical Equipment and Transformers.** Electrical equipment and transformers, including their enclosures, shall be specifically approved for the intended location. No portion of an enclosure for electrical equipment not identified for operation while submerged shall be located below the electrical datum plane. Luminaires or other electrical connections shall be located at least 5 feet (1524 mm) horizontally from the nearest edge of the water. If the luminaire is within 5 feet horizontally of the water edge it must be 12 foot vertically above the nearest edge of the water.

**680.23 (A)(4) Voltage Limitations.** No luminaries shall operate above the low voltage contact limit as defined in Section 680.2. This requirement shall apply to new installations, repair, replacement and modification of underwater luminaires. This section shall not apply to relamping if the line-voltage luminaire is protected by a Class A ground-fault circuit-interrupter.

**680.23.1 Underwater Luminaire(s) (Lighting) - Added.** All underwater lighting for swimming, wading, therapeutic, and decorative pools, fountains, hot tubs, and spas shall be supplied with not more than fourteen (14) volts. Where a plastic deck box is used, it shall be installed not less than two (2) feet away from the water's edge.

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 1. GENERAL RULES OF PROPERTY MAINTENANCE

Section 101. Overview.
Section 102. Applicability.
Section 103. Enforcement.
Section 104. Duties and powers of the code official.
Section 105. Approval.
Section 106. Violations.
Section 107. Notices and orders.
Section 108. Unsafe structures and equipment.
Section 109. Emergency measures.
Section 110. Appeals.
Section 111. Administrative equivalencies.
Section 112. Stop work order.
Section 113. Penalties.

### Section 101. Overview.

**101.1 Title.** These provisions shall be known and may be cited as the "Property Maintenance Code of the City of Tulsa" or as the "Tulsa Property Maintenance Code", hereinafter referred to as "this Code."

**101.2 Scope.** The provisions of this Code shall apply to all existing residential and nonresidential structures and all existing premises within the City of Tulsa, and constitute minimum requirements and standards for premises, structures, equipment and facilities for light, ventilation, space, heating, sanitation, protection from the elements, life safety, safety from fire and other hazards, and for safe and sanitary maintenance. This Code shall identify the responsibility of owners, operators and occupants and shall set forth the requisites for occupancy of existing structures and premises, and provide for administration, enforcement and penalties.

**101.3 Intent.** This Code shall be construed to secure its expressed intent, which is to ensure public health, safety and welfare insofar as they are affected by the continued occupancy and maintenance of structures and premises within the City of Tulsa. Existing structures and premises that do not comply with these provisions shall be altered or repaired to provide a minimum level of health and safety as required herein.

**101.4 Severability.** If a section, subsection, sentence, clause or phrase of this Code is, for any reason, held to be unconstitutional or otherwise unlawful, such decision shall not affect the validity of the remaining portions of this Code.

*(Ord. No. 23957, 7-11-2018)*

### Section 102. Applicability.

**102.1 General.** Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall govern. Where differences occur between provisions of this Code and the referenced standards, the provisions of this Code shall apply. Where, in a specific case, different sections of this Code specify different requirements, the most restrictive shall govern.

**102.2 Maintenance.** Equipment, systems, devices and safeguards required by this Code or a previous regulation or code under which the structure or premises was constructed, altered or repaired shall be maintained in good working order. No owner, owner's authorized agent, operator or occupant shall cause any service, facility, equipment or utility that is required under this section to be removed from, shut off from or discontinued for any occupied dwelling, except for such temporary interruption as necessary while repairs or alterations are in progress. The requirements of this Code are not intended to provide the basis for removal or abrogation of fire protection and safety systems and devices in existing structures. Except as otherwise specified herein, the owner or the owner's authorized agent shall be responsible for the maintenance of buildings, structures and premises.

**102.3 Application of other codes.** Repairs, additions or alterations to a structure, or changes of occupancy, shall be performed in accordance with the procedures and provisions of applicable City of Tulsa codes.

**102.4 Existing remedies.** The provisions in this Code shall not be construed to abolish or impair existing remedies or the jurisdiction of its officers or agencies relating to the removal or demolition of any structure that is dangerous, unsafe and insanitary.

**102.5 Workmanship.** Repairs, maintenance work, alterations or installations that are caused directly or indirectly by the enforcement of this Code shall be executed and installed in a workmanlike manner and installed in accordance with the manufacturer's instructions.

**102.6 Historic buildings.** The provisions of this Code shall not be mandatory for existing buildings or structures designated as historic buildings where such buildings or structures are judged by the Code official to be safe and in the public interest of health, safety and welfare.

**102.7 Referenced codes and standards.** The codes and standards referenced in this Code shall be those that are listed in Chapter 8 and considered part of the requirements of this Code to the prescribed extent of each such reference and as further regulated in Sections 102.7.1 and 102.7.2.

**Exception:** Where enforcement of a Code provision would violate the conditions of the listing of the equipment or appliance, the conditions of the listing shall apply.

**102.7.1 Conflicts.** Where conflicts occur between provisions of this Code and the referenced standards, the provisions of this Code shall apply.

**102.7.2 Provisions in referenced Code and standards.** Where the extent of the reference to a code or standard includes subject matter that is within the scope of this Code, the provisions of this Code, as applicable, shall take precedence over the provisions in the referenced code or standard.

**102.8 Requirements not covered by Code.** Requirements necessary for the strength, stability or proper operation of an existing fixture, structure or equipment, or for the public safety, health and general welfare, not specifically covered by this Code, shall be determined by the code official.

**102.9 Application of references.** References to chapter or section numbers, or to provisions not specifically identified by number, shall be construed to refer to such chapter, section or provision of this Code.

**102.10 Other laws.** The provisions of this Code shall not be deemed to nullify any provisions of local, state or federal law.

*(Ord. No. 23957, 7-11-2018)*

## Section 103. Enforcement.

**103.1 Enforcement Agency.** The Enforcement Agency for this Code shall be the Department of City Experience and any other department, division, or section of the City of Tulsa authorized and directed to enforce the provisions of this Code, and the Tulsa City-County Health Department.

**103.2 Appointment.** The "code official", as used in this chapter, shall be the Director of the Department of City Experience, the Director of any other department, division or section of the City of Tulsa authorized and directed to enforce this Code, the Director of the Tulsa City-County Health Department and such assistants as may be duly qualified, appointed and employed under the supervision of such directors to serve in the capacity of a code official.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 1, 8-30-2023)*

## Section 104. Duties and powers of the code official.

**104.1 General.** The code official is hereby authorized and directed to enforce the provisions of this Code. The code official shall have the authority to render interpretations of this Code and to adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies and procedures shall be in compliance with the intent and purpose of this Code. Such policies and procedures shall not have the effect of waiving requirements specifically provided for in this Code.

**104.2 Inspections.** The code official shall make all of the required inspections or shall accept reports of inspection by approved agencies or individuals. Reports of such inspections shall be in writing and be certified by a responsible officer of such approved agency or by the responsible individual. The code official is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise, subject to the approval of the appointing authority.

> **104.2.1 Engagement of professional expertise.** To determine the acceptability of technologies, processes, products, facilities, materials and uses attending the design, operation, or use of a building or premises subject to inspection by the code official, the code official is authorized to require the owner or owner's authorized agent to provide, without charge to the jurisdiction, a technical opinion and report and that design submittals to be prepared by and bear the stamp of a registered design professional, if needed. The opinion and report shall be prepared by a qualified engineer, specialist, laboratory, or fire safety specialty organization acceptable to the code official and shall analyze the violations designated by the code official for the property's design, operation or use of the building or premises and the facilities and appurtenances situated thereon. The final report shall recommend necessary changes.

**104.3 Right of entry.** Where it is necessary to make an inspection to enforce the provisions of this Code, or whenever the code official has reasonable cause to believe that there exists in a structure or upon a premises a condition in violation of this Code, the code official is authorized to enter the structure or premises at reasonable times to inspect or perform the

duties imposed by this Code, provided that if such structure or premises is occupied the code official shall present credentials to the occupant and request entry. If such structure or premises is unoccupied, the code official shall first make a reasonable effort to locate the owner, owner's authorized agent or other person having charge or control of the structure or premises and request entry. If entry is refused, the code official shall have recourse to the remedies provided by law to secure entry.

**104.4 Identification.** The code official shall carry proper identification when inspecting structures or premises in the performance of duties under this Code.

**104.5 Notices and orders.** The code official shall issue all necessary notices or orders to ensure compliance with this Code.

**104.6 Department records.** The code official shall keep official records of all business and activities of the department specified in the provisions of this Code. Such records shall be retained in the official records for the period required for retention of public records.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 2, 8-30-2023)*

## Section 105. Approval.

**105.1 Modifications.** Whenever there are practical difficulties involved in carrying out the provisions of this Code, the code official shall have the authority to grant modifications for individual cases upon application of the owner or owner's authorized agent, provided the code official shall first find that special individual reason makes the strict letter of this Code impractical, the modification is in compliance with the intent and purpose of this Code and that such modification does not lessen health, life and fire safety requirements. The details of action granting modifications shall be recorded and entered in the department files.

**105.2 Alternative materials, methods and equipment.** The provisions of this Code are not intended to prevent the installation of any material or to prohibit any method of construction not specifically prescribed by this Code, provided that any such alternative has been approved by a code official, upon a finding that the proposed design is satisfactory and complies with the intent of the provisions of this Code, and that the material, method or work offered is, for the purpose intended, at least the equivalent of that prescribed in this Code in quality, strength, effectiveness, fire resistance, durability and safety. Where the alternative material, design or method of construction is not approved, the code official shall respond in writing, stating the reasons the alternative was not approved.

**105.3 Required testing.** Whenever there is insufficient evidence of compliance with the provisions of this Code or evidence that a material or method does not conform to the requirements of this Code, or in order to substantiate claims for alternative materials or methods, the code official shall have the authority to require tests to be made as evidence of compliance at no expense to the City of Tulsa.

**105.3.1 Test methods.** Test methods shall be as specified in this Code or by other recognized test standards. In the absence of recognized and accepted test methods, the code official shall be permitted to approve appropriate testing procedures performed by an approved agency.

**105.3.2 Test reports.** Reports of tests shall be retained by the code official for the period required for retention of public records.

**105.4 Used material and equipment.** The use of used materials that meet the requirements of this Code for new materials is permitted. Materials, equipment and devices shall not be reused unless such elements are in good repair or have been reconditioned and tested where necessary, placed in good and proper working condition and approved by the code official.

**105.5 Approved materials and equipment.** Materials, equipment and devices approved by the code official shall be constructed and installed in accordance with such approval.

**105.6 Research reports.** Supporting data, where necessary to assist in the approval of materials or assemblies not specifically provided for in this Code, shall consist of valid research reports from approved sources.

*(Ord. No. 23957, 7-11-2018)*

## Section 106. Violations.

**106.1 Unlawful acts.** It shall be unlawful for a person, firm or corporation to be in conflict with or in violation of any of the provisions of this Code.

**106.2 Notice of violation.** The Code official shall serve a notice of violation or order in accordance with Section 107.

**106.3 Prosecution of violation.** Any person failing to comply with a notice of violation or order served in accordance with Section 107 shall be deemed guilty of a misdemeanor or civil infraction as determined by the local municipality, and the violation shall be deemed a strict liability offense. If the notice of violation is not complied with, the Code official shall institute the appropriate proceeding at law or in equity to restrain, correct or abate such violation, or to require the removal or termination of the unlawful occupancy of the structure in violation of the provisions of this Code or of the order or direction made pursuant thereto. Any action taken by the authority having jurisdiction on such premises shall be charged against the real estate upon which the structure is located and shall be a lien upon such real estate.

**106.4 Violation penalties.** Any person who shall violate a provision of this Code, or fail to comply therewith, or with any of the requirements thereof, shall be prosecuted within the limits provided by state or local laws. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

**106.5 Abatement of violation.** The imposition of the penalties herein prescribed shall not preclude the legal officer of the jurisdiction from instituting appropriate action to restrain, correct or abate a violation, or to prevent illegal occupancy of a building, structure or premises, or to stop an illegal act, conduct, business or utilization of the building, structure or premises.

**106.6 Property Manager.** During any abatement process pursuant to this Code, the City may require the owner of the property subject to the abatement, to provide a local contact person (not a corporation, partnership, or limited liability company) who is a resident of the City or County of Tulsa, or is a resident of a county abutting Tulsa County, to be contacted by the City regarding violations of this Code, or in the case of emergencies, and to respond to communications concerning the property subject to the abatement process. No subsequent action taken by the City shall be rendered ineffective due to the failure of the property owner to provide this information. No additional charge shall be assessed by the City due

to having to request this information. A property owner may designate more than one (1) local contract person so that the City has multiple points of contact during the abatement process.

**106.6.1 Local Contact Person.** The owner's local contact person or persons shall be immediately available to the City at all times, twenty-four (24) hours per day, seven days per week. When a local contact person is contacted with a person-to-person communication, or when a message is delivered to the contact person via telephone, voicemail, email, text message, or a combination of these methods, advising that there is a hazardous condition which is an imminent danger to the health, safety or continued habitability to any persons within any structure or habitable space, the contact person shall communicate with the code official or code enforcement officer initiating the contact within one hour and shall immediately commence action to correct such hazardous condition reported to them. Contact information shall include the name, address, phone numbers and e-mail address of the local contact person or persons, and such contact information shall be provided to the City by the property owner in such form as required by the City. The address must include a street address; a post office box is not acceptable. It shall be unlawful for any owner to fail to keep any local contact person's contact information current with the code official.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 3, 8-30-2023)*

## Section 107. Notices and orders.

**107.1 Notice to person responsible.** Whenever the code official determines that there has been a violation of this Code or has grounds to believe that a violation has occurred, notice shall be given in the manner prescribed in Sections 107.2 and 107.3 to the person responsible for the violation and premise as specified in this Code. Notices for designated unsafe structures procedures shall also comply with Section 108.3.

**107.2 Form.** Such notice prescribed in Section 107.1 shall be in accordance with all of the following:

1. Be in writing.
2. Include a description of the real estate sufficient for identification.
3. Include a statement of the violation or violations and why the notice is being issued.
4. Include a correction order allowing a reasonable time to make the repairs and improvements required to bring the dwelling unit or structure into compliance with the provisions of this Code.
5. Inform the property owner or owner's authorized agent of the right to appeal.
6. Include a statement of the right to file a lien in accordance with Section 106.3.

**107.3 Method of service.** Such notice shall be deemed to be properly served if a copy thereof is:

1. Delivered personally;
2. Sent by certified or first-class mail addressed to the last known address;
3. A copy of the notice shall be posted in a conspicuous place in or about the structure affected by such notice.

**107.4 Unauthorized tampering.** Signs, tags or seals posted or affixed by the Code official shall not be mutilated, destroyed or tampered with, or removed without authorization from the Code official.

**107.5 Penalties.** Penalties for noncompliance with orders and notices shall be as set forth in Section 106.4.

**107.6 Transfer of ownership.** It shall be unlawful for the owner of any dwelling unit or structure who has received a compliance order or upon whom a notice of violation has been served to sell, transfer, mortgage, lease or otherwise dispose of such dwelling unit or structure to another until the provisions of the compliance order or notice of violation have been complied with, or until such owner or the owner's authorized agent shall first furnish the grantee, transferee, mortgagee or lessee a true copy of any compliance order or notice of violation issued by the Code official and shall furnish to the Code official a signed and notarized statement from the grantee, transferee, mortgagee or lessee, acknowledging the receipt of such compliance order or notice of violation and fully accepting the responsibility without condition for making the corrections or repairs required by such compliance order or notice of violation.

*(Ord. No. 23957, 7-11-2018)*

## Section 108. Unsafe structures and equipment.

**108.1 General.** When a structure or equipment is found by the code official to be unsafe, or when a structure is found unfit for human occupancy, or is found unlawful, such structure shall be deemed unsafe pursuant to the provisions of this Code.

**108.1.1 Unsafe structures.** An unsafe structure is one that is found to be dangerous to the life, health, property or safety of the public or the occupants of the structure by not providing minimum safeguards to protect or warn occupants in the event of fire, or because such structure contains unsafe equipment or is so damaged, decayed, dilapidated, structurally unsafe or of such faulty construction or unstable foundation, that partial or complete collapse is possible.

**108.1.2 Unsafe equipment.** Unsafe equipment includes any boiler, heating equipment, elevator, moving stairway, electrical wiring or device, flammable liquid containers or other equipment on the premises or within the structure which is in such disrepair or condition that such equipment is a hazard to life, health, property or safety of the public or occupants of the premises or structure.

**108.1.3 Structure unfit for human occupancy.** A structure is unfit for human occupancy whenever the Code official finds that such structure is unsafe, unlawful or, because of the degree to which the structure is in disrepair or lacks maintenance, is insanitary, vermin or rat infested, contains filth and contamination, or lacks ventilation, illumination, sanitary or heating facilities or other essential equipment required by this Code, or because the location of the structure constitutes a hazard to the occupants of the structure or to the public.

**108.1.4 Unlawful structure.** An unlawful structure is one found in whole or in part to be occupied by more persons than permitted under this Code, or was erected, altered or occupied contrary to law.

**108.1.5 Dangerous structure or premises.** For the purpose of this Code, any structure or premises that has any or all of the conditions or defects described below shall be considered dangerous:

**1.** Any door, aisle, passageway, stairway, exit or other means of egress that does not conform to the approved building or fire Code of the jurisdiction as related to the requirements for existing buildings.

**2.** The walking surface of any aisle, passageway, stairway, exit or other means of egress is so warped, worn loose, torn or otherwise unsafe as to not provide safe and adequate means of egress.

**3.** Any portion of a building, structure or appurtenance that has been damaged by fire, earthquake, wind, flood, deterioration, neglect, abandonment, vandalism or by any other cause to such an extent that it is likely to partially or completely collapse, or to become detached or dislodged.

**4.** Any portion of a building, or any member, appurtenance or ornamentation on the exterior thereof that is not of sufficient strength or stability, or is not so anchored, attached or fastened in place so as to be capable of resisting natural or artificial loads of one and one-half the original designed value.

**5.** The building or structure, or part of the building or structure, because of dilapidation, deterioration, decay, faulty construction, the removal or movement of some portion of the ground necessary for the support, or for any other reason, is likely to partially or completely collapse, or some portion of the foundation or underpinning of the building or structure is likely to fail or give way.

**6.** The building or structure, or any portion thereof, is clearly unsafe for its use and occupancy.

**7.** The building or structure is neglected, damaged, dilapidated, unsecured or abandoned so as to become an attractive nuisance to children who might play in the building or structure to their danger, becomes a harbor for vagrants, criminals or immoral persons, or enables persons to resort to the building or structure for committing a nuisance or an unlawful act.

**8.** Any building or structure has been constructed, exists or is maintained in violation of any specific requirement or prohibition applicable to such building or structure provided by the approved building or fire Code of the jurisdiction, or of any law or ordinance to such an extent as to present either a substantial risk of fire, building collapse or any other threat to life and safety.

**9.** The building or structure which is being operated or lack thereof in a manner which has become an attractive nuisance for crime or enables persons to resort to the building or structure for committing a nuisance or an unlawful act.

**10.** Any building or structure, because of a lack of sufficient or proper fire-resistance-rated construction, fire protection systems, electrical system, fuel connections, mechanical system, plumbing system or other cause, is determined by the Code official to be a threat to life or health.

**11.** Any portion of a building remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned so as to constitute such building or portion thereof as an attractive nuisance or hazard to the public.

**108.2 Closing of vacant structures.** If the structure is vacant and unfit for human habitation and occupancy, and is not in danger of structural collapse, the Code official is authorized to post a placard of designated on the premises and order the structure closed up so as not to be an attractive nuisance. Upon failure of the owner or owner's authorized agent to close up the premises within the time specified in the notice, the Code official shall cause the premises to be closed and secured through any available public agency or by contract or arrangement by private persons and the cost thereof shall be charged against the real estate upon which the structure is located and shall be a lien upon such real estate and shall be collected by any other legal resource.

**108.2.1 Authority to disconnect service utilities.** The Code official shall have the authority to authorize disconnection of utility service to the building, structure or system regulated by this Code and the referenced Codes and standards set forth in Section 102.7 in case of emergency or placard structure where necessary to eliminate an immediate hazard to life or property or where such utility connection has been made without approval. The Code official shall notify the serving utility and, whenever possible, the owner or owner's authorized agent and occupant of the building, structure or service system of the decision to disconnect prior to taking such action. If not notified prior to disconnection the owner, owner's authorized agent or occupant of the building structure or service system shall be notified in writing as soon as practical thereafter.

**108.3 Notice.** Whenever the Code official has designated a structure or equipment under the provisions of this section, notice shall be posted in a conspicuous place in or about the structure affected by such notice and served on the owner, owner's authorized agent or the person or persons responsible for the structure or equipment in accordance with Section 107.3. If the notice pertains to equipment, it shall be placed on the designated equipment. The notice shall be in the form prescribed in Section 107.2.

**108.4 Placarding.** Upon failure of the owner, owner's authorized agent or person responsible to comply with the notice or order provisions within the time given, the code official shall post on the premises or on defective equipment a placard bearing the word "Notice of Designation" and a statement of the penalties provided for occupying the premises, operating the equipment or removing the placard.

**108.4.1 Placard removal.** The code official shall remove the placard or void the placard whenever the defect or defects upon which the designation and placarding action were based have been eliminated. Any person who defaces or removes a placard without the approval of the code official shall be subject to the penalties provided by this Code.

**108.5 Prohibited occupancy.** Any occupied structure placarded by the code official shall be vacated as ordered by the code official. Any person who shall occupy a placarded premises or shall operate placarded equipment, and any owner, owner's authorized agent or person responsible for the premises who shall let anyone occupy a placarded premises or operate placarded equipment shall be liable for the penalties provided by this Code.

**108.6 Abatement methods.** The owner, owner's authorized agent, operator or occupant of a building, premises or equipment deemed unsafe by the code official shall abate or cause to be abated or corrected such unsafe conditions either by repair, rehabilitation, demolition or other approved corrective action.

**108.7 Record.** The code official shall cause a report to be filed on an unsafe condition. The report shall state the occupancy of the structure and the nature of the unsafe condition.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 4, 8-30-2023)*

## Section 109. Emergency measures.

**109.1 Imminent danger.** When, in the opinion of the Code official, there is imminent danger of failure or collapse of a building or structure that endangers life, or when any structure or part of a structure has fallen and life is endangered by the occupation of the structure, or when there is actual or potential danger to the building occupants or those in the proximity of any structure because of explosives, explosive fumes or vapors or the presence of toxic fumes, gases or materials, or operation of defective or dangerous equipment, the Code official is hereby authorized and empowered to order and require the occupants to vacate the premises forthwith. The Code official shall cause to be posted at each entrance to such structure a notice reading as follows: "This Structure Is Unsafe and Its Occupancy Has Been Prohibited by the Code Official." It shall be unlawful for any person to enter such structure except for the purpose of securing the structure, making the required repairs, removing the hazardous condition or of demolishing the same.

**109.2 Temporary safeguards.** Notwithstanding other provisions of this Code, whenever, in the opinion of the Code official, there is imminent danger due to an unsafe condition, the Code official shall order the necessary work to be done, including the boarding up of openings, to render such structure temporarily safe whether or not the legal procedure herein described has been instituted; and shall cause such other action to be taken as the Code official deems necessary to meet such emergency.

**109.3 Closing streets.** When necessary for public safety, the Code official shall temporarily close structures and close, or order the authority having jurisdiction to close, sidewalks, streets, public ways and places adjacent to unsafe structures, and prohibit the same from being utilized.

**109.4 Emergency repairs.** For the purposes of this section, the Code official shall employ the necessary labor and materials to perform the required work as expeditiously as possible.

**109.5 Costs of emergency repairs.** Costs incurred in the performance of emergency work shall be paid by the jurisdiction. The legal counsel of the jurisdiction shall institute appropriate action against the owner of the premises or owner's authorized agent where the unsafe structure is or was located for the recovery of such costs.

**109.6 Hearing.** Any person ordered to take emergency measures shall comply with such order forthwith. Any affected person shall thereafter, upon petition directed to the appeals board, be afforded a hearing as described in this Code.

*(Ord. No. 23957, 7-11-2018)*

## Section 110. Appeals.

**110.1 Right to Appeal.** An appeal to the Hearing Officer may be taken by any person aggrieved (hereinafter "Appellant") where it is alleged there is error in any order, requirement, decision, or determination made by the code official.

**110.1.1 Notice of Appeal from the Code Official.** An appeal from a notice or order issued pursuant to Section 107 of this Code shall be taken within ten (10) business days

from the date of the issuance of the notice provided for in Section 107, by filing with the City Clerk at 175 E. 2nd St., Room 260, Tulsa, OK 74103 a Notice of Appeal, specifying the name and mailing address of the Appellant and specifying the grounds for the appeal. The code official, upon receipt of notice from the City Clerk, shall forthwith transmit to the Nuisance Hearing Officer a summary of the matter and copies of all the papers constituting the record. Upon receipt of the record, the Nuisance Hearing Officer shall set the matter for hearing not less than seven (7) nor more than thirty (30) days from receipt of said record. Notice of the date, time, and place of said hearing shall be mailed by the code official by first class mail to Appellant at the address shown in the Notice of Appeal.

**110.1.2 Hearing Officer.** There is hereby appointed a Hearing Officer and alternate Hearing Officers who shall conduct the hearings and perform the duties set forth herein. The Municipal Court Administrator (Municipal Court Clerk) is appointed and shall serve as the Hearing Officer. The Hearing Officer shall appoint and designate one alternate to serve in the Hearing Officer's absence from one of the division head positions in the Municipal Court. The Mayor shall appoint and designate a second alternate Hearing Officer from the Mayor's staff to serve in the absence of the Hearing Officer and the first alternate.

**110.1.3 Stay of Proceedings.** An appeal stays all proceedings in furtherance of the action appealed from.

**110.2 Nuisance hearing officer's authority.** At a hearing before a Nuisance Hearing Officer, pursuant to any section of this title, should the Nuisance Hearing Officer find that a violation of this Code, or a nuisance, as defined by City Ordinances, exists, an Order to Abate shall be entered. Such an order shall authorize standard abatement procedures to be executed which, may include, among other reasonable actions, the following:

1. Immediate abatement by the City when the immediate welfare of life or property is at risk.
2. Self-abatement by any responsible party pursuant to a written work schedule prepared by the code official.
3. Should the responsible party not appear at a scheduled hearing, after being notified as provided in this title, or fail to make other curative arrangements acceptable to the Nuisance Hearing Officer, an order may be entered which allows to a date certain for the nuisance to be abated by any responsible party.
4. If a responsible party fails to abate the nuisance as ordered, without just cause, the Nuisance Hearing Officer shall be authorized to impose a remedial civil penalty against the responsible party in an amount not to exceed One Thousand Dollars ($1,000.00) per day for each day beyond the scheduled completion date that the nuisance remains unabated.
5. If just cause, as determined by the code official, prevents the responsible party from abating the nuisance, the order shall authorize the code official to allow up to two (2) fourteen (14) day extensions to abate any nuisance upon pre-payment of the extension fees.
6. The Nuisance Hearing Officer is authorized to summarily order a remedial civil penalty against the responsible party in an amount not to exceed One Thousand Dollars ($1,000.00) per day for each day the code official documents that a

recurring violation of this title by the same responsible party concerning the same property which is referenced in the Order of Abatement exists within the twenty-four (24) months following the issuance of the order.

**110.3 Appeals to the City Council.**

**110.3.1 Right to appeal.** An appeal to the City Council may be taken by any person aggrieved where it is alleged there is error in any order, requirement, decision, or determination made by the Nuisance Hearing Officer.

**110.3.2 Notice of appeal.** Any person aggrieved by a decision of the Nuisance Hearing Officer may file an appeal to the City by filing two copies of a written Notice of Appeal, specifying the name and address of the Appellant and the grounds for appeal, with the City Clerk at 175 E. 2nd Street, Room 260, Tulsa, OK 74103, within ten (10) business days of the date of the Nuisance Hearing Officer's decision. The Appellant shall obtain a form from the City Clerk, entitled 'Notice of Appeal to Council of Nuisance Hearing Officer Decision' and file two copies of the completed Notice of Appeal with the City Clerk. A hearing on the appeal shall be heard by the Council not later than thirty (30) calendar days from the date of filing the Notice of Appeal unless a later date is agreed to by Appellant. Notice of the date, time and place of the appeal hearing shall be mailed by the Council Secretary by first class mail to the Appellant at the address shown in the Notice of Appeal.

**110.3.3 City Council action.** The City Council shall hold a hearing and may reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from and may make such order, requirement, decision, or determination as ought to be made.

**110.3.4 Stay of proceedings.** An appeal stays all proceedings in furtherance of the action appealed from.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 5, 8-30-2023)*

**Section 111. Administrative equivalencies.**

**111.1. Purpose and intent of equivalencies.** In extraordinary circumstances, a code official may grant an equivalency to the owner of a property providing relief from strict compliance with the regulations of this Code, provided they are consistent with requirement of other codes and compliant with the purpose and intent of this Code. The intent of an equivalency is not to simply remove an inconvenience or financial burden that may result from compliance with applicable requirements. Equivalencies are intended to help alleviate an unnecessary hardship or practical difficulty that would be caused by strict enforcement of this Code or other code. They are intended to provide relief when requirements could render compliance impracticable because of some unique or special characteristics of the property, building, or structure.

**111.2 Authority to grant equivalencies.** Whenever there are practical difficulties involved in the enforcement of the provisions of this Code, the code official shall have the authority to grant equivalencies for individual cases upon application of the owner or the owner's authorized agent, provided the code official shall first find that extraordinary circumstances make the strict compliance of this Code impractical, the modification is in

compliance with the intent and purpose of this Code, and modification(s) do not lessen health, life and fire safety requirements of any other code. The details of action granting modifications shall be recorded and entered in department files."

*(Ord. No. 25116, § 6, 8-30-2023)*

**Section 112. Stop work order.**

**112.1 Authority.** Whenever the Code official finds any work regulated by this Code being performed in a manner contrary to the provisions of this Code or in a dangerous or unsafe manner, the Code official is authorized to issue a stop work order.

**112.2 Issuance.** A stop work order shall be in writing and shall be given to the owner of the property, to the owner's authorized agent, or to the person doing the work. Upon issuance of a stop work order, the cited work shall immediately cease. The stop work order shall state the reason for the order and the conditions under which the cited work is authorized to resume.

**112.3 Emergencies.** Where an emergency exists, the Code official shall not be required to give a written notice prior to stopping the work.

*(Ord. No. 23957, 7-11-2018)*

**Section 113. Penalties.**

**113.1 Penalties.** It shall be unlawful and a misdemeanor offense for any owner, operator, occupant, firm or other person to violate any of the provisions of this Code, fail to comply with any of the requirements thereof, or to occupy, maintain, erect, construct, alter, or repair any building or structure in violation of this Code. Any person, firm, corporation, or limited liability company convicted of a violation of this Code shall be guilty of a misdemeanor offense and shall be punished by a fine of not more than One Thousand, Two Hundred Dollars No Cents ($1,200.00), excluding costs, fees, and assessments, or by imprisonment for a period not exceeding one hundred eighty (180) days, or by both such fine and imprisonment. Each day, or portion thereof, during which a violation is committed, continued, or permitted shall be deemed a separate offense.

*(Ord. No. 23957, 7-11-2018)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 2. GENERAL PRINCIPLES AND INTERPRETATION

### Section 201. Definitions—General.

**201.1 Scope.** Unless otherwise expressly stated, the following terms shall, for the purposes of this Code, have the meanings shown in this chapter.

**201.2 Interchangeability.** Words stated in the present tense include the future; words stated in the masculine gender include the feminine and neuter; the singular number includes the plural and the plural, the singular.

**201.3 Terms defined in other Codes.** Where terms are not defined in this Code and are defined in the International Building Code, International Existing Building Code, International Fire Code, International Fuel Gas Code, International Mechanical Code, International Plumbing Code, International Residential Code, International Zoning Code or NFPA 70, such terms shall have the meanings ascribed to them as stated in those Codes.

**201.4 Terms not defined.** Where terms are not defined through the methods authorized by this section, such terms shall have ordinarily accepted meanings such as the context implies.

**201.5 Parts.** Whenever the words "dwelling unit," "dwelling," "premises," "building," "rooming house," "rooming unit," "housekeeping unit" or "story" are stated in this Code, they shall be construed as though they were followed by the words "or any part thereof."

**ANCHORED.** Secured in a manner that provides positive connection.

**APPROVED.** Acceptable to the Code official.

**BASEMENT.** That portion of a building which is partly or completely below grade.

**BATHROOM.** A room containing plumbing fixtures including a bathtub or shower.

**BEDROOM.** Any room or space used or intended to be used for sleeping purposes in either a dwelling or sleeping unit.

**CODE OFFICIAL.** The official who is charged with the administration and enforcement of this Code, or any duly authorized representative, including but not limited to the Director of the Department of City Experience; the Tulsa Fire Marshal; the Chief of the Tulsa Police Department; the director of any other department, division or section of the City of Tulsa authorized and directed to enforce this Code; the Director of the Tulsa City-County Health Department, and such assistants as may be duly qualified, appointed and employed under the supervision of such directors to serve in the capacity of a code official.

**COST OF SUCH DEMOLITION OR EMERGENCY REPAIRS.** The costs shall include the actual costs of the demolition or repair of the structure less revenues obtained if salvage was conducted prior to demolition or repair. Costs shall include, but not be limited to, expenses incurred or necessitated related to demolition or emergency repairs, such as asbestos survey and abatement if necessary; costs of inspectors, testing agencies or experts retained relative to the demolition or emergency repairs; costs of testing; surveys for other materials that are controlled or regulated from being dumped in a landfill; title searches; mailing(s); postings; recording; and attorney fees expended for recovering of the cost of emergency repairs or to obtain or enforce an order of demolition made by a Code official, the governing body or board of appeals.

**DETACHED.** When a structural element is physically disconnected from another and that connection is necessary to provide a positive connection.

**DETERIORATION.** To weaken, disintegrate, corrode, rust or decay and lose effectiveness.

**DWELLING UNIT.** A structure, or that part of a structure, which is lawfully used as a home, residence or sleeping place by one or more persons, with a room or group of rooms arranged, intended, or designed as a habitable space, containing kitchen, bath or shower, and sleeping facilities.

**EASEMENT.** That portion of land or property reserved for present or future use by a person or agency other than the legal fee owner(s) of the property. The easement shall be permitted to be for use under, on or above a said lot or lots.

**EQUIPMENT SUPPORT.** Those structural members or assemblies of members or manufactured elements, including braces, frames, lugs, snuggers, hangers or saddles, that transmit gravity load, lateral load and operating load between the equipment and the structure.

**EXTERIOR PROPERTY.** The open space on the premises and on adjoining property under the control of owners or operators of such premises.

**GARBAGE.** The animal or vegetable waste resulting from the handling, preparation, cooking and consumption of food.

**GUARD.** A building component or a system of building components located at or near the open sides of elevated walking surfaces that minimizes the possibility of a fall from the walking surface to a lower level.

**HABITABLE SPACE.** Space in a structure for living, sleeping, eating or cooking. Bathrooms, toilet rooms, closets, halls, storage or utility spaces, and similar areas are not considered habitable spaces.

**HISTORIC BUILDING.** Any building or structure that is one or more of the following:

1. Listed or certified as eligible for listing, by the State Historic Preservation Officer or the Keeper of the National Register of Historic Places, in the National Register of Historic Places.
2. Designated as historic under an applicable state or local law.
3. Certified as a contributing resource within a National Register or state or locally designated historic district.

**HOUSEKEEPING UNIT.** A room or group of rooms forming a single habitable space equipped and intended to be used for living, sleeping, cooking and eating which does not contain, within such a unit, a toilet, lavatory and bathtub or shower.

**IMMINENT DANGER.** A condition which could cause serious or life-threatening injury or death at any time.

**INFESTATION.** The presence, within or contiguous to, a structure or premises of insects, rats, vermin or other pests.

**INOPERABLE MOTOR VEHICLE.** A vehicle which cannot be driven upon the public streets for reason including but not limited to being unlicensed, wrecked, abandoned, in a state of disrepair, or incapable of being moved under its own power.

**LABELED.** Equipment, materials or products to which have been affixed a label, seal, symbol or other identifying mark of a nationally recognized testing laboratory, inspection agency or other organization concerned with product evaluation that maintains periodic inspection of the production of the above-labeled items and whose labeling indicates either that the equipment, material or product meets identified standards or has been tested and found suitable for a specified purpose.

**LET FOR OCCUPANCY or LET.** To permit, provide or offer possession or occupancy of a dwelling, dwelling unit, rooming unit, building, premise or structure by a person who is or is not the legal owner of record thereof, pursuant to a written or unwritten lease, agreement or license, or pursuant to a recorded or unrecorded agreement of contract for the sale of land.

**NEGLECT.** The lack of proper maintenance for a building or structure.

**OCCUPANCY.** The purpose for which a building or portion thereof is utilized or occupied.

**OCCUPANT.** Any individual living or sleeping in a building, or having possession of a space within a building.

**OPENABLE AREA.** That part of a window, skylight or door which is available for unobstructed ventilation and which opens directly to the outdoors.

**OPERATOR.** Any person who has charge, care or control of a structure or premises which is let or offered for occupancy.

**OWNER.** Any person, agent, operator, firm or corporation having legal or equitable interest in the property; or recorded in the official records of the state, county or municipality as holding title to the property; or otherwise having control of the property, including the guardian of the estate of any such person, and the executor or administrator of the estate of such person if ordered to take possession of real property by a court.

**PERSON.** An individual, corporation, partnership or any other group acting as a unit.

**PEST ELIMINATION.** The control and elimination of insects, rodents or other pests by eliminating their harborage places; by removing or making inaccessible materials that serve as their food or water; by other approved pest elimination methods.

**PREMISES.** A lot, plot or parcel of land, easement or public way, including any structures thereon.

**PUBLIC WAY.** Any street, alley or similar parcel of land essentially unobstructed from the ground to the sky, which is deeded, dedicated or otherwise permanently appropriated to the public for public use.

**ROOMING HOUSE.** A building arranged or occupied for lodging, with or without meals, for compensation and not occupied as a one- or two-family dwelling.

**ROOMING UNIT.** Any room or group of rooms forming a single habitable unit occupied or intended to be occupied for sleeping or living, but not for cooking purposes.

**RUBBISH.** Combustible and noncombustible waste materials, except garbage; the term shall include the residue from the burning of wood, coal, coke and other combustible materials, paper, rags, cartons, boxes, wood, excelsior, rubber, leather, tree branches, yard trimmings, tin cans, metals, mineral matter, glass, crockery and dust and other similar materials.

**SLEEPING UNIT.** A room or space in which people sleep, which can also include permanent provisions for living, eating and either sanitation or kitchen facilities, but not both. Such rooms and spaces that are also part of a dwelling unit are not sleeping units.

**STRICT LIABILITY OFFENSE.** An offense in which the prosecution in a legal proceeding is not required to prove criminal intent as a part of its case. It is enough to prove that the defendant either did an act which was prohibited, or failed to do an act which the defendant was legally required to do.

**STRUCTURE.** That which is built or constructed or a portion thereof.

**TENANT.** A person, corporation, partnership or group, whether or not the legal owner of record, occupying a building or portion thereof as a unit.

**TOILET ROOM.** A room containing a water closet or urinal but not a bathtub or shower.

**ULTIMATE DEFORMATION.** The deformation at which failure occurs and which shall be deemed to occur if the sustainable load reduces to 80 percent or less of the maximum strength.

**VENTILATION.** The natural or mechanical process of supplying conditioned or unconditioned air to, or removing such air from, any space.

**WORKMANLIKE.** Executed in a skilled manner; e.g., generally plumb, level, square, in line, undamaged and without marring adjacent work.

**YARD.** An open space on the same lot with a structure.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 7, 8-30-2023)*

## CHAPTER 3. STRUCTURE AND PREMISES STANDARDS

Section 301. General requirements.
Section 302. Exterior property areas.
Section 303. Swimming pools, spas and hot tubs.
Section 304. Exterior structure.
Section 305. Interior structure.
Section 306. Component serviceability.
Section 307. Handrails and guardrails.
Section 308. Rubbish and garbage.
Section 309 Pest elimination.

### Section 301. General requirements.

**GENERAL**

**301.1 Scope.** The provisions of this chapter shall govern the minimum conditions and the responsibilities of persons for maintenance of structures, equipment and exterior property.

**301.2 Responsibility.** The owner of the premises shall maintain the structures and exterior property in compliance with these requirements, except as otherwise provided for in this Code. A person shall not occupy as owner-occupant or permit another person to occupy premises that are not in a sanitary and safe condition and that do not comply with the requirements of this chapter. Occupants of a dwelling unit, rooming unit or housekeeping unit are responsible for keeping in a clean, sanitary and safe condition that part of the dwelling unit, rooming unit, housekeeping unit or premises which they occupy and control.

**301.3 Vacant structures and land.** Vacant structures and premises thereof or vacant land shall be maintained in a clean, safe, secure and sanitary condition as provided herein so as not to cause a blighting problem or adversely affect the public health or safety.

*(Ord. No. 23957, 7-11-2018)*

### Section 302. Exterior property areas.

**302.1 Sanitation.** Exterior property and premises shall be maintained in a clean, safe and sanitary condition. The occupant shall keep that part of the exterior property that such occupant occupies or controls in a clean and sanitary condition.

**302.2 Grading and drainage.** All premises shall be graded and maintained to prevent the erosion of soil and to prevent the accumulation of stagnant water thereon, or within any structure located thereon.

**Exception:** Approved retention areas and reservoirs.

**302.3 Sidewalks and driveways.** Sidewalks, walkways, stairs, driveways, parking spaces and similar areas shall be kept in a proper state of repair, and maintained free from hazardous conditions.

**302.4 Rodent harborage.** Structures and exterior property shall be kept free from rodent harborage and infestation. Where rodents are found, they shall be promptly exterminated by approved processes that will not be injurious to human health. After pest elimination, proper precautions shall be taken to eliminate rodent harborage and prevent re-infestation.

**302.5 Exhaust vents.** Pipes, ducts, conductors, fans or blowers shall not discharge gases, steam, vapor, hot air, grease, smoke, odors or other gaseous or particulate wastes directly upon abutting or adjacent public or private property or that of another tenant.

**302.6 Accessory structures.** Accessory structures, including detached garages, fences and walls, shall be maintained structurally sound and in good repair.

**302.7 Motor vehicles.** Except as provided for in other regulations, no inoperative or unlicensed motor vehicle shall be parked, kept or stored on any premises, and no vehicle shall at any time be in a state of major disassembly, disrepair, or in the process of being stripped or dismantled. Painting of vehicles is prohibited unless conducted inside an approved spray booth.

**Exception:** A vehicle of any type is permitted to undergo major overhaul, including body work, provided that such work is performed inside a structure or similarly enclosed area designed and approved for such purposes.

**302.8 Defacement of property.** No person shall willfully or wantonly damage, mutilate or deface any exterior surface of any structure or building on any private or public property by placing thereon any marking, carving or graffiti.

It shall be the responsibility of the owner to restore said surface to an approved state of maintenance and repair.

**Section 302.9 Properly marked mailboxes.** Mailboxes shall be clearly marked with address numbers and/or letters.

**Section 302.10 Properly maintained mailboxes.** Mailboxes shall be kept in good repair, properly maintained, and capable of performing the intended function.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25613, §§ 1, 2, 6-25-2025)*

**Section 303. Swimming pools, spas and hot tubs.**

**303.1 Swimming pools.** Swimming pools shall be maintained in a clean and sanitary condition, and in good repair.

**303.2 Enclosures.** Private swimming pools, hot tubs and spas, containing water more than twenty-four (24) inches (610 mm) in depth shall be completely surrounded by a fence or barrier not less than 48 inches (1219 mm) in height above the finished ground level measured on the side of the barrier away from the pool. Gates and doors in such barriers shall be self-closing and self-latching. Where the self-latching device is not less than 54 inches (1372 mm) above the bottom of the gate, the release mechanism shall be located on the pool side of the gate. Self-closing and self-latching gates shall be maintained such that the gate will positively close and latch when released from an open position of six (6) inches (152 mm) from the gatepost. No existing pool enclosure shall be removed, replaced or changed in a manner that reduces its effectiveness as a safety barrier.

**Exception:** Spas or hot tubs with a safety cover that complies with ASTM F 1346 shall be exempt from the provisions of this section.

*(Ord. No. 23957, 7-11-2018)*

## Section 304. Exterior structure.

**304.1 General.** The exterior of a structure shall be maintained in good repair, structurally sound and sanitary so as not to pose a threat to the public health, safety or welfare.

**304.1.1 Unsafe conditions.** The following conditions shall be determined as unsafe and shall be repaired or replaced to comply with the International Building Code or the International Existing Building Code as required for existing buildings:

**1.** The nominal strength of any structural member is exceeded by nominal loads, the load effects or the required strength;

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

**2.** The anchorage of the floor or roof to walls or columns, and of walls and columns to foundations is not capable of resisting all nominal loads or load effects;

**3.** Structures or components thereof that have reached their limit state;

**4.** Siding and masonry joints including joints between the building envelope and the perimeter of windows, doors and skylights are not maintained, weather resistant or water tight;

**5.** Structural members that have evidence of deterioration or that are not capable of safely supporting all nominal loads and load effects;

**6.** Foundation systems that are not firmly supported by footings, are not plumb and free from open cracks and breaks, are not properly anchored or are not capable of supporting all nominal loads and resisting all load effects;

**7.** Exterior walls that are not anchored to supporting and supported elements or are not plumb and free of holes, cracks or breaks and loose or rotting materials, are not properly anchored or are not capable of supporting all nominal loads and resisting all load effects;

**8.** Roofing or roofing components that have defects that admit rain, roof surfaces with inadequate drainage, or any portion of the roof framing that is not in good repair with signs of deterioration, fatigue or without proper anchorage and incapable of supporting all nominal loads and resisting all load effects;

**9.** Flooring and flooring components with defects that affect serviceability or flooring components that show signs of deterioration or fatigue, are not properly anchored or are incapable of supporting all nominal loads and resisting all load effects;

**10.** Veneer, cornices, belt courses, corbels, trim, wall facings and similar decorative features not properly anchored or that are anchored with connections not capable of supporting all nominal loads and resisting all load effects;

**11.** Overhang extensions or projections including, but not limited to, trash chutes, canopies, marquees, signs, awnings, fire escapes, standpipes and exhaust ducts not properly anchored or that are anchored with connections not capable of supporting all nominal loads and resisting all load effects;

**12.** Exterior stairs, decks, porches, balconies and all similar appurtenances attached thereto, including guards and handrails, are not structurally sound, not properly anchored or that are anchored with connections not capable of supporting all nominal loads and resisting all load effects; or

**13.** Chimneys, cooling towers, smokestacks and similar appurtenances not structurally sound or not properly anchored, or that are anchored with connections not capable of supporting all nominal loads and resisting all load effects.

**Exceptions:**

**1.** Where substantiated otherwise by an approved method.

**2.** Demolition of unsafe conditions shall be permitted where approved by the Code official.

**304.2 Protective treatment.** Exterior surfaces, including but not limited to, doors, door and window frames, cornices, porches, trim, balconies, decks and fences, shall be maintained in good condition. Exterior wood surfaces, other than decay-resistant woods,

shall be protected from the elements and decay by painting or other protective covering or treatment. Peeling, flaking and chipped paint shall be eliminated and surfaces repainted. Siding and masonry joints, as well as those between the building envelope and the perimeter of windows, doors and skylights, shall be maintained weather resistant and water tight. Metal surfaces subject to rust or corrosion shall be coated to inhibit such rust and corrosion, and surfaces with rust or corrosion shall be stabilized and coated to inhibit future rust and corrosion. Oxidation stains shall be removed from exterior surfaces. Surfaces designed for stabilization by oxidation are exempt from this requirement.

**304.3 Premises identification.** Buildings shall have approved address numbers placed in a position to be plainly legible and visible from the street or road fronting the property. These numbers shall contrast with their background. Address numbers shall be Arabic numerals or alphabet letters. Numbers shall be not less than 4 inches (102 mm) in height with a minimum stroke width of 0.5 inch (12.7 mm).

**304.4 Structural members.** Structural members shall be maintained free from deterioration, and shall be capable of safely supporting the imposed dead and live loads.

**304.5 Foundation walls.** Foundation walls shall be maintained plumb and free from open cracks and breaks and shall be kept in such condition so as to prevent the entry of rodents and other pests.

**304.6 Exterior walls.** Exterior walls shall be free from holes, breaks, and loose or rotting materials; and maintained weatherproof and properly surface coated where required to prevent deterioration.

**304.7 Roofs and drainage.** The roof and flashing shall be sound, tight and not have defects that admit rain. Roof drainage shall be adequate to prevent dampness or deterioration in the walls or interior portion of the structure. Roof drains, gutters and downspouts shall be maintained in good repair and free from obstructions. Roof water shall not be discharged in a manner that creates a public nuisance.

**304.8 Decorative features.** Cornices, belt courses, corbels, terra cotta trim, wall facings and similar decorative features shall be maintained in good repair with proper anchorage and in a safe condition.

**304.9 Overhang extensions.** Overhang extensions including, but not limited to, canopies, marquees, signs, metal awnings, fire escapes, standpipes and exhaust ducts shall be maintained in good repair and be properly anchored so as to be kept in a sound condition. Where required, all exposed surfaces of metal or wood shall be protected from the elements and against decay or rust by periodic application of weather-coating materials, such as paint or similar surface treatment.

**304.10 Stairways, decks, porches and balconies.** Every exterior stairway, deck, porch and balcony, and all appurtenances attached thereto, shall be maintained structurally sound, in good repair, with proper anchorage and capable of supporting the imposed loads.

**304.11 Chimneys and towers.** Chimneys, cooling towers, smoke stacks, and similar appurtenances shall be maintained structurally safe and sound, and in good repair. Exposed surfaces of metal or wood shall be protected from the elements and against decay or rust by periodic application of weather-coating materials, such as paint or similar surface treatment.

**304.12 Handrails and guards.** Every handrail and guard shall be firmly fastened and capable of supporting normally imposed loads and shall be maintained in good condition.

**304.13 Window, skylight and door frames.** Every window, skylight, door and frame shall be kept in sound condition, good repair and weather tight.

**304.13.1 Glazing.** Glazing materials shall be maintained free from cracks and holes.

**304.13.2 Openable windows.** Every window, other than a fixed window, shall be easily openable and capable of being held in position by window hardware.

**304.14 Insect screens.** Every door, window and other outside opening required for ventilation of habitable rooms, food preparation areas, food service areas or any areas where products to be included or utilized in food for human consumption are processed, manufactured, packaged or stored shall be supplied with approved tightly fitting screens of minimum 16 mesh per inch (16 mesh per 25 mm), and every screen door used for insect control shall have a self-closing device in good working condition.

**Exception:** Screens shall not be required where other approved means, such as air curtains or insect repellent fans, are employed.

**304.15 Doors.** Exterior doors, door assemblies, operator systems if provided, and hardware shall be maintained in good condition. Locks at all entrances to dwelling units and sleeping units shall tightly secure the door. Locks on means of egress doors shall be in accordance with Section 702.3.

**304.16 Basement hatchways.** Every basement hatchway shall be maintained to prevent the entrance of rodents, rain and surface drainage water.

**304.17 Guards for basement windows.** Every basement window that is openable shall be supplied with rodent shields, storm windows or other approved protection against the entry of rodents.

**304.18 Building security.** Doors, windows or hatchways for dwelling units, room units or housekeeping units shall be provided with devices designed to provide security for the occupants and property within.

**304.18.1 Doors.** Doors providing access to a dwelling unit, rooming unit or housekeeping unit that is rented, leased or let shall be equipped with a deadbolt lock designed to be readily openable from the side from which egress is to be made without the need for keys, special knowledge or effort and shall have a minimum lock throw of 1 inch (25 mm). Such deadbolt locks shall be installed according to the manufacturer's specifications and maintained in good working order. For the purpose of this section, a sliding bolt shall not be considered an acceptable deadbolt lock.

**304.18.2 Windows.** Operable windows located in whole or in part within 6 feet (1828 mm) above ground level or a walking surface below that provide access to a dwelling unit, rooming unit or housekeeping unit that is rented, leased or let shall be equipped with a window sash locking device.

**304.18.3 Basement hatchways.** Basement hatchways that provide access to a dwelling unit, rooming unit or housekeeping unit that is rented, leased or let shall be equipped with devices that secure the units from unauthorized entry.

**304.19 Gates.** Exterior gates, gate assemblies, operator systems if provided, and hardware shall be maintained in good condition. Latches at all entrances shall tightly secure the gates.

**304.20 Lead-Based Paint-Added.** Lead-based paint with a lead content of more than one-half percent (0.5%) shall not be applied to any interior or exterior surface of a dwelling, dwelling unit or child care facility, including fences and outbuildings at these locations. Existing interior and exterior painted surfaces of dwelling units and child care facilities that contain an excess of one-half percent (0.5%) lead shall be removed or covered with paneling or other suitable covering approved by the Code official. All paint known to be over one-half percent (0.5%) lead content shall be handled using lead safe work practices by a certified renovation firm in accordance with United States Environmental Protection Agency (EPA) requirements for renovation activities, Title 40 Code of Federal Regulations (CFR) Part 745.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 8, 8-30-2023)*

## Section 305. Interior structure.

**305.1 General.** The interior of a structure and equipment therein shall be maintained in good repair, structurally sound and in a sanitary condition. Occupants shall keep that part of the structure that they occupy or control in a clean and sanitary condition. Every owner of a structure containing a rooming house, housekeeping units, a hotel, a dormitory, two or more dwelling units or two or more nonresidential occupancies, shall maintain, in a clean and sanitary condition, the shared or public areas of the structure and exterior property.

**305.1.1 Unsafe conditions.** The following conditions shall be determined as unsafe and shall be repaired or replaced to comply with all City of Tulsa applicable Codes:

1. The nominal strength of any structural member is exceeded by nominal loads, the load effects or the required strength;
2. The anchorage of the floor or roof to walls or columns, and of walls and columns to foundations is not capable of resisting all nominal loads or load effects;
3. Structures or components thereof that have reached their limit state;
4. Structural members are incapable of supporting nominal loads and load effects;
5. Stairs, landings, balconies and all similar walking surfaces, including guards and handrails, are not structurally sound, not properly anchored or are anchored with connections not capable of supporting all nominal loads and resisting all load effects;
6. Foundation systems that are not firmly supported by footings are not plumb and free from open cracks and breaks, are not properly anchored or are not capable of supporting all nominal loads and resisting all load effects.

**Exceptions:**

1. Where substantiated otherwise by an approved method.
2. Demolition of unsafe conditions shall be permitted when approved by the Code official.

**305.2 Structural members.** Structural members shall be maintained structurally sound, and be capable of supporting the imposed loads.

**305.3 Interior surfaces.** Interior surfaces, including windows and doors, shall be maintained in good, clean and sanitary condition. Peeling, chipping, flaking or abraded paint shall be repaired, removed or covered. Cracked or loose plaster, decayed wood and other defective surface conditions shall be corrected.

**305.4 Stairs and walking surfaces.** Every stair, ramp, landing, balcony, porch, deck or other walking surface shall be maintained in sound condition and good repair.

**305.5 Handrails and guards.** Every handrail and guard shall be firmly fastened and capable of supporting normally imposed loads and shall be maintained in good condition.

**305.6 Interior doors.** Every interior door shall fit reasonably well within its frame and shall be capable of being opened and closed by being properly and securely attached to jambs, headers or tracks as intended by the manufacturer of the attachment hardware.

**305.7 Lead-Based Paint-Added.** Lead-based paint with a lead content of more than one-half percent (0.5%) shall not be applied to any interior or exterior surface of a dwelling, dwelling unit or child care facility, including fences and outbuildings at these locations. Existing interior and exterior painted surfaces of dwelling units and child care facilities that contain an excess of one-half percent (0.5%) lead shall be removed or covered with paneling or other suitable covering approved by the Code official. All paint known to be over one-half percent (0.5%) lead content shall be handled using lead safe work practices by a certified renovation firm in accordance with United States Environmental Protection Agency (EPA) requirements for renovation activities, Title 40 Code of Federal Regulations (CFR) Part 745.

*(Ord. No. 23957, 7-11-2018)*

## Section 306. Component serviceability.

**306.1 General.** The components of a structure and equipment therein shall be maintained in good repair, structurally sound and in a sanitary condition.

**306.1.1 Unsafe conditions.** Where any of the following conditions cause the component or system to be beyond its limit state, the component or system shall be determined as unsafe and shall be repaired or replaced to comply with the International Building Code or the International Existing Building Code as required for existing buildings:

**1.** Soils that have been subjected to any of the following conditions:

**1.1.** Collapse of footing or foundation system;

**1.2.** Damage to footing, foundation, concrete or other structural element due to soil expansion;

**1.3.** Adverse effects to the design strength of footing, foundation, concrete or other structural element due to a chemical reaction from the soil;

**1.4.** Inadequate soil as determined by a geotechnical investigation;

**1.5.** Where the allowable bearing capacity of the soil is in doubt; or

**1.6.** Adverse effects to the footing, foundation, concrete or other structural element due to the ground water table.

**2.** Concrete that has been subjected to any of the following conditions:

**2.1.** Deterioration;

**2.2.** Ultimate deformation;

**2.3.** Fractures;

**2.4.** Fissures;

**2.5.** Spalling;

**2.6.** Exposed reinforcement; or

**2.7.** Detached, dislodged or failing connections.

**3.** Aluminum that has been subjected to any of the following conditions:

**3.1.** Deterioration;

**3.2.** Corrosion;

**3.3.** Elastic deformation;

**3.4.** Ultimate deformation;

**3.5.** Stress or strain cracks;

**3.6.** Joint fatigue; or

**3.7.** Detached, dislodged or failing connections.

**4.** Masonry that has been subjected to any of the following conditions:

**4.1.** Deterioration;

**4.2.** Ultimate deformation;

**4.3.** Fractures in masonry or mortar joints;

**4.4.** Fissures in masonry or mortar joints;

**4.5.** Spalling;

**4.6.** Exposed reinforcement; or

**4.7.** Detached, dislodged or failing connections.

**5.** Steel that has been subjected to any of the following conditions:

**5.1.** Deterioration;

**5.2.** Elastic deformation;

**5.3.** Ultimate deformation;

**5.4.** Metal fatigue; or

**5.5.** Detached, dislodged or failing connections.

**6.** Wood that has been subjected to any of the following conditions:

**6.1.** Ultimate deformation;

**6.2.** Deterioration;

**6.3.** Damage from insects, rodents and other vermin;

**6.4.** Fire damage beyond charring;

**6.5.** Significant splits and checks;

**6.6.** Horizontal shear cracks;

**6.7.** Vertical shear cracks;

**6.8.** Inadequate support;

**6.9.** Detached, dislodged or failing connections; or

**6.10.** Excessive cutting and notching.

Exceptions:

**1.** Where substantiated otherwise by an approved method.

**2.** Demolition of unsafe conditions shall be permitted where approved by the Code official.

*(Ord. No. 23957, 7-11-2018)*

## Section 307. Handrails and guardrails.

**307.1 General.** Every exterior and interior flight of stairs having more than four risers shall have a handrail on one side of the stair and every open portion of a stair, landing, balcony, porch, deck, ramp or other walking surface that is more than 30 inches (762 mm) above the floor or grade below shall have guards. Handrails shall be not less than 30 inches (762 mm) in height or more than 42 inches (1067 mm) in height measured vertically above the nosing of the tread or above the finished floor of the landing or walking surfaces. Guards shall be not less than 30 inches (762 mm) in height above the floor of the landing, balcony, porch, deck, or ramp or other walking surface.

**Exception:** Guards shall not be required where exempted by the adopted building Code.

*(Ord. No. 23957, 7-11-2018)*

## Section 308. Rubbish and garbage.

**308.1 Accumulation of rubbish or garbage.** Exterior property and premises, and the interior of every structure, shall be free from any accumulation of rubbish or garbage.

**308.2 Disposal of rubbish.** Every occupant of a structure shall dispose of all rubbish in a clean and sanitary manner by placing such rubbish in approved containers.

**308.2.1 Rubbish storage facilities.** The owner of every occupied premises shall supply approved covered containers for rubbish, and the owner of the premises shall be responsible for the removal of rubbish.

**308.2.2 Refrigerators.** Refrigerators and similar equipment not in operation shall not be discarded, abandoned or stored on premises without first removing the doors.

**308.3 Disposal of garbage.** Every occupant of a structure shall dispose of garbage in a clean and sanitary manner by placing such garbage in an approved garbage disposal facility or approved garbage containers.

**308.3.1 Garbage facilities.** The owner of every dwelling shall supply one of the following: an approved mechanical food waste grinder in each dwelling unit; an approved incinerator unit in the structure available to the occupants in each dwelling unit; or an approved leak proof, covered, outside garbage container.

**308.3.2 Containers.** The operator of every establishment producing garbage shall provide, and at all times cause to be utilized, approved leak proof containers provided with close-fitting covers for the storage of such materials until removed from the premises for disposal.

*(Ord. No. 23957, 7-11-2018)*

## Section 309. Pest elimination.

**309.1 Infestation.** Structures shall be kept free from insect and rodent infestation. Structures in which insects or rodents are found shall be promptly exterminated by approved processes that will not be injurious to human health. After pest elimination, proper precautions shall be taken to prevent re-infestation.

**309.2 Owner.** The owner of any structure shall be responsible for pest elimination within the structure prior to renting or leasing the structure. Where the infestations are caused by defects in the structure, the owner shall be responsible for pest elimination.

**309.3 Single occupant.** The occupant of a one-family dwelling or of a single-tenant nonresidential structure shall be responsible for pest elimination on the premises.

**309.4 Multiple occupancy.** The owner of a structure containing two or more dwelling units, a multiple occupancy, a rooming house or a nonresidential structure shall be responsible for pest elimination in the public or shared areas of the structure and exterior property. If infestation is caused by failure of an occupant to prevent such infestation in the area occupied, the occupant shall be responsible for pest elimination.

**309.5 Occupant.** The occupant of any structure shall be responsible for the continued rodent and pest-free condition of the structure.

*(Ord. No. 23957, 7-11-2018)*

## CHAPTER 4. LIGHT, VENTILATION, AND OCCUPANCY LIMITATIONS

Section 401. Light, ventilation and occupancy limitations.
Section 402. Light.
Section 403. Ventilation.
Section 404. Occupancy limitations.

### Section 401. Light, ventilation and occupancy limitations.

**401.1 Scope.** The provisions of this chapter shall govern the minimum conditions and standards for light, ventilation and space for occupying a structure.

**401.2 Responsibility.** The owner of the structure shall provide and maintain light, ventilation and space conditions in compliance with these requirements. A person shall not occupy as owner-occupant, or permit another person to occupy, any premises that do not comply with the requirements of this chapter.

**401.3 Alternative devices.** In lieu of the means for natural light and ventilation herein prescribed, artificial light or mechanical ventilation complying with the International Building Code shall be permitted.

*(Ord. No. 23957, 7-11-2018)*

### Section 402. Light.

**402.1 Habitable spaces.** Every habitable space shall have not less than one window of approved size facing directly to the outdoors or to a court. The minimum total glazed area for every habitable space shall be 8 percent of the floor area of such room. Wherever walls or other portions of a structure face a window of any room and such obstructions are located less than 3 feet (914 mm) from the window and extend to a level above that of the ceiling of the room, such window shall not be deemed to face directly to the outdoors nor to a court and shall not be included as contributing to the required minimum total window area for the room.

**Exception:** Where natural light for rooms or spaces without exterior glazing areas is provided through an adjoining room, the unobstructed opening to the adjoining room shall be not less than 8 percent of the floor area of the interior room or space, but a minimum of 25 square feet (2.33 $m^2$). The exterior glazing area shall be based on the total floor area being served.

**402.2 Common halls and stairways.** Every common hall and stairway in residential occupancies, other than in one and two-family dwellings, shall be lighted at all times with not less than a 60-watt standard incandescent light bulb for each 200 square feet (19 $m^2$) of floor area or equivalent illumination, provided that the spacing between lights shall not be greater than 30 feet (9144 mm). In other than residential occupancies, means of egress, including exterior means of egress, stairways shall be illuminated at all times the building space served by the means of egress is occupied with not less than 1 foot candle (11 lux) at floors, landings and treads.

**402.3 Other spaces.** All other spaces shall be provided with natural or artificial light sufficient to permit the maintenance of sanitary conditions, and the safe occupancy of the space and utilization of the appliances, equipment and fixtures.

*(Ord. No. 23957, 7-11-2018)*

## Section 403. Ventilation.

**403.1 Habitable spaces.** Every habitable space shall have not less than one openable window. The total openable area of the window in every room shall be equal to not less than 45 percent of the minimum glazed area required in Section 402.1.

**Exception:** Where rooms and spaces without openings to the outdoors are ventilated through an adjoining room, the unobstructed opening to the adjoining room shall be not less than 8 percent of the floor area of the interior room or space, but not less than 25 square feet (2.33 $m^2$). The ventilation openings to the outdoors shall be based on a total floor area being ventilated.

**403.2 Bathrooms and toilet rooms.** Every bathroom and toilet room shall comply with the ventilation requirements for habitable spaces as required by Section 403.1, except that a window shall not be required in such spaces equipped with a mechanical ventilation system. Air exhausted by a mechanical ventilation system from a bathroom or toilet room shall discharge to the outdoors and shall not be recirculated.

**403.3 Cooking facilities.** Unless approved through the certificate of occupancy, cooking shall not be permitted in any rooming unit or dormitory unit, and a cooking facility or appliance shall not be permitted to be present in the rooming unit or dormitory unit.

**Exceptions:**

1. Where specifically approved in writing by the Code official.
2. Devices such as coffee pots and microwave ovens shall not be considered cooking appliances.

**403.4 Process ventilation.** Where injurious, toxic, irritating or noxious fumes, gases, dusts or mists are generated, a local exhaust ventilation system shall be provided to remove the contaminating agent at the source. Air shall be exhausted to the exterior and not be recirculated to any space.

**403.5 Clothes dryer exhaust.** Clothes dryer exhaust systems shall be independent of all other systems and shall be exhausted outside the structure in accordance with the manufacturer's instructions.

**Exception:** Listed and labeled condensing (ductless) clothes dryers.

*(Ord. No. 23957, 7-11-2018)*

## Section 404. Occupancy limitations.

**404.1 Privacy.** Dwelling units, hotel units, housekeeping units, rooming units and dormitory units shall be arranged to provide privacy and be separate from other adjoining spaces.

**404.2 Minimum room widths.** A habitable room, other than a kitchen, shall be not less than 7 feet (2134 mm) in any plan dimension. Kitchens shall have a minimum clear passageway of 3 feet (914 mm) between counter fronts and appliances or counter fronts and walls.

**404.3 Minimum ceiling heights.** Habitable spaces, hallways, corridors, laundry areas, bathrooms, toilet rooms and habitable basement areas shall have a minimum clear ceiling height of 7 feet (2134 mm).

**Exceptions:**

1. In one and two-family dwellings, beams or girders spaced not less than 4 feet (1219 mm) on center and projecting a maximum of 6 inches (152 mm) below the required ceiling height.
2. Basement rooms in one and two-family dwellings occupied exclusively for laundry, study or recreation purposes, having a minimum ceiling height of 6 feet 8 inches (2033 mm) with a minimum clear height of 6 feet 4 inches (1932 mm) under beams, girders, ducts and similar obstructions.
3. Rooms occupied exclusively for sleeping, study or similar purposes and having a sloped ceiling over all or part of the room, with a minimum clear ceiling height of 7 feet (2134 mm) over not less than one third of the required minimum floor area. In calculating the floor area of such rooms, only those portions of the floor area with a minimum clear ceiling height of 5 feet (1524 mm) shall be included.

**404.4 Bedroom and living room requirements.** Every bedroom and living room shall comply with the requirements of Sections 404.4.1 through 404.4.5.

**404.4.1 Room area.** Every living room shall contain not less than 120 square feet (11.2 $m^2$) and every bedroom shall contain not less than 70 square feet (6.5 $m^2$) and every bedroom occupied by more than one person shall contain not less than 50 square feet (4.6 $m^2$) of floor area for each occupant thereof.

**404.4.2 Access from bedrooms.** Bedrooms shall not constitute the only means of access to other bedrooms or habitable spaces and shall not serve as the only means of egress from other habitable spaces.

**Exception:** Units that contain fewer than two bedrooms.

**404.4.3 Water closet accessibility.** Every bedroom shall have access to not less than one water closet and one lavatory without passing through another bedroom. Every bedroom in a dwelling unit shall have access to not less than one water closet and lavatory located in the same story as the bedroom or an adjacent story.

**404.4.4 Prohibited occupancy.** Kitchens and non-habitable spaces shall not be used for sleeping purposes.

**404.4.5 Other requirements.** Bedrooms shall comply with the applicable provisions of this Code including, but not limited to, the light, ventilation, room area, ceiling height and room width requirements of this chapter; the plumbing facilities and water-heating facilities requirements of Chapter 5; the heating facilities and electrical receptacle requirements of Chapter 6; and the smoke detector and emergency escape requirements of Chapter 7.

**404.5 Overcrowding.** Dwelling units shall not be occupied by more occupants than permitted by the minimum area requirements of Table 404.5.

**TABLE 404.5**

| | *Minimum Area in Square Feet* | | |
|---|---|---|---|
| *Space* | *1—2 occupants* | *3—5 occupants* | *6 or more occupants* |
| Living Room | No Requirements | 120 | 150 |
| Dining Room | No Requirements | 80 | 100 |

| *Space* | *Minimum Area in Square Feet* | | |
|---|---|---|---|
| | *1—2 occupants* | *3—5 occupants* | *6 or more occupants* |
| Bedrooms | Shall comply with Section 404.4.1 | | |

**404.5.1 Sleeping area.** The minimum occupancy area required by Table 404.5 shall not be included as a sleeping area in determining the minimum occupancy area for sleeping purposes. Sleeping areas shall comply with Section 404.4.

**404.5.2 Combined spaces.** Combined living room and dining room spaces shall comply with the requirements of Table 404.5 if the total area is equal to that required for separate rooms and if the space is located so as to function as a combination living room/dining room.

**404.6 Efficiency unit.** Nothing in this section shall prohibit an efficiency living unit from meeting the following requirements:

1. A unit occupied by not more than one occupant shall have a minimum clear floor area of 120 square feet (11.2 $m^2$). A unit occupied by not more than two occupants shall have a minimum clear floor area of 220 square feet (20.4 $m^2$). A unit occupied by three occupants shall have a minimum clear floor area of 320 square feet (29.7 $m^2$). These required areas shall be exclusive of the areas required by Items 2 and 3.
2. The unit shall be provided with a kitchen sink, cooking appliance and refrigeration facilities, each having a minimum clear working space of 30 inches (762 mm) in front. Light and ventilation conforming to this Code shall be provided.
3. The unit shall be provided with a separate bathroom containing a water closet, lavatory and bathtub or shower.
4. The maximum number of occupants shall be three.

**404.7 Food preparation.** All spaces to be occupied for food preparation purposes shall contain suitable space and equipment to store, prepare and serve foods in a sanitary manner. There shall be adequate facilities and services for the sanitary disposal of food wastes and refuse, including facilities for temporary storage.

*(Ord. No. 23957, 7-11-2018)*

## CHAPTER 5. PLUMBING AND DRAINAGE SYSTEMS

Section 501. Plumbing facilities and fixture requirements.
Section 502. Required facilities.
Section 503. Toilet rooms.
Section 504. Plumbing systems and fixtures.
Section 505. Water system.
Section 506. Sanitary drainage system.
Section 507. Storm drainage.

### Section 501. Plumbing facilities and fixture requirements.

**501.1 Scope.** The provisions of this chapter shall govern the minimum plumbing systems, facilities and plumbing fixtures to be provided.

**501.2 Responsibility.** The owner of the structure shall provide and maintain such plumbing facilities and plumbing fixtures in compliance with these requirements. A person shall not occupy as owner-occupant or permit another person to occupy any structure or premises that does not comply with the requirements of this chapter.

*(Ord. No. 23957, 7-11-2018)*

### Section 502. Required facilities.

**502.1 Dwelling units.** Every dwelling unit shall contain its own bathtub or shower, lavatory, water closet and kitchen sink that shall be maintained in a sanitary, safe working condition. The lavatory shall be placed in the same room as the water closet or located in close proximity to the door leading directly into the room in which such water closet is located. A kitchen sink shall not be used as a substitute for the required lavatory.

**502.2 Rooming houses.** Not less than one water closet, lavatory and bathtub or shower shall be supplied for each four rooming units.

**502.3 Hotels.** Where private water closets, lavatories and baths are not provided, one water closet, one lavatory and one bathtub or shower having access from a public hallway shall be provided for each 10 occupants.

**502.4 Employees' facilities.** Not less than one water closet, one lavatory and one drinking facility shall be available to employees.

**502.4.1 Drinking facilities.** Drinking facilities shall be a drinking fountain, water cooler, bottled water cooler or disposable cups next to a sink or water dispenser. Drinking facilities shall not be located in toilet rooms or bathrooms.

**502.5 Public toilet facilities.** Public toilet facilities shall be maintained in a safe, sanitary and working condition in accordance with the International Plumbing Code. Except for periodic maintenance or cleaning, public access and use shall be provided to the toilet facilities at all times during occupancy of the premises.

*(Ord. No. 23957, 7-11-2018)*

### Section 503. Toilet rooms.

**503.1 Privacy.** Toilet rooms and bathrooms shall provide privacy and shall not constitute the only passageway to a hall or other space, or to the exterior. A door and interior locking device shall be provided for all common or shared bathrooms and toilet rooms in a multiple dwelling.

**503.2 Location.** Toilet rooms and bathrooms serving hotel units, rooming units or dormitory units or housekeeping units, shall have access by traversing not more than one flight of stairs and shall have access from a common hall or passageway.

**503.3 Location of employee toilet facilities.** Toilet facilities shall have access from within the employees' working area. The required toilet facilities shall be located not more than one story above or below the employees' working area and the path of travel to such facilities shall not exceed a distance of 500 feet (152 m). Employee facilities shall either be separate facilities or combined employee and public facilities.

**Exception:** Facilities that are required for employees in storage structures or kiosks, which are located in adjacent structures under the same ownership, lease or control, shall not exceed a travel distance of 500 feet (152 m) from the employees' regular working area to the facilities.

**503.4 Floor surface.** In other than dwelling units, every toilet room floor shall be maintained to be a smooth, hard, nonabsorbent surface to permit such floor to be easily kept in a clean and sanitary condition.

*(Ord. No. 23957, 7-11-2018)*

## Section 504. Plumbing systems and fixtures.

**504.1 General.** Plumbing fixtures shall be properly installed and maintained in working order, and shall be kept free from obstructions, leaks and defects and be capable of performing the function for which such plumbing fixtures are designed. Plumbing fixtures shall be maintained in a safe, sanitary and functional condition.

**504.2 Fixture clearances.** Plumbing fixtures shall have adequate clearances for usage and cleaning.

**504.3 Plumbing system hazards.** Where it is found that a plumbing system in a structure constitutes a hazard to the occupants or the structure by reason of inadequate service, inadequate venting, cross connection, back-siphonage, improper installation, deterioration or damage or for similar reasons, the Code official shall require the defects to be corrected to eliminate the hazard.

*(Ord. No. 23957, 7-11-2018)*

## Section 505. Water system.

**505.1 General.** Every sink, lavatory, bathtub or shower, drinking fountain, water closet or other plumbing fixture shall be properly connected to either a public water system or to an approved private water system. Kitchen sinks, lavatories, laundry facilities, bathtubs and showers shall be supplied with hot or tempered and cold running water in accordance with the International Plumbing Code.

**505.2 Contamination.** The water supply shall be maintained free from contamination, and all water inlets for plumbing fixtures shall be located above the flood-level rim of the fixture. Shampoo basin faucets, janitor sink faucets and other hose bibs or faucets to which hoses are attached and left in place, shall be protected by an approved atmospheric-type vacuum breaker or an approved permanently attached hose connection vacuum breaker.

**505.3 Supply.** The water supply system shall be installed and maintained to provide a supply of water to plumbing fixtures, devices and appurtenances in sufficient volume and at pressures adequate to enable the fixtures to function properly, safely, and free from defects and leaks.

**505.4 Water heating facilities.** Water heating facilities shall be properly installed, maintained and capable of providing an adequate amount of water to be drawn at every required sink, lavatory, bathtub, shower and laundry facility at a minimum temperature of 110°F (43°C). A gas-burning water heater shall not be located in any bathroom, toilet room, bedroom or other occupied room normally kept closed, unless adequate combustion air is provided. An approved combination temperature and pressure-relief valve and relief valve discharge pipe shall be properly installed and maintained on water heaters.

*(Ord. No. 23957, 7-11-2018)*

## Section 506. Sanitary drainage system.

**506.1 General.** Plumbing fixtures shall be properly connected to either a public sewer system or to an approved private sewage disposal system.

**506.2 Maintenance.** Every plumbing stack, vent, waste and sewer line shall function properly and be kept free from obstructions, leaks and defects.

**506.3 Grease interceptors.** Grease interceptors and automatic grease removal devices shall be maintained in accordance with this Code and the manufacturer's installation instructions. Grease interceptors and automatic grease removal devices shall be regularly serviced and cleaned to prevent the discharge of oil, grease, and other substances harmful or hazardous to the building drainage system, the public sewer, the private sewage disposal system or the sewage treatment plant or processes. Records of maintenance, cleaning and repairs shall be available for inspection by the Code official.

*(Ord. No. 23957, 7-11-2018)*

## Section 507. Storm drainage.

**507.1 General.** Drainage of roofs and paved areas, yards and courts, and other open areas on the premises shall not be discharged in a manner that creates a public nuisance.

*(Ord. No. 23957, 7-11-2018)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 6. MECHANICAL, HEATING AND ELECTRICAL SYSTEMS

Section 601. Mechanical and electrical requirements.
Section 602. Heating facilities.
Section 603. Mechanical equipment.
Section 604. Electrical facilities.
Section 605. Electrical equipment.
Section 606. Elevators, escalators and dumbwaiters.
Section 607. Duct systems.

### Section 601. Mechanical and electrical requirements.

**601.1 Scope.** The provisions of this chapter shall govern the minimum mechanical and electrical facilities and equipment to be provided.

**601.2 Responsibility.** The owner of the structure shall provide and maintain mechanical and electrical facilities and equipment in compliance with these requirements. A person shall not occupy as owner-occupant or permit another person to occupy any premises that does not comply with the requirements of this chapter.

*(Ord. No. 23957, 7-11-2018)*

### Section 602. Heating facilities.

**602.1 Facilities required.** Heating facilities shall be provided in structures as required by this section.

**602.2 Residential occupancies.** Dwellings shall be provided with heating facilities capable of maintaining a room temperature of 65°F in all habitable rooms, bathrooms and toilet rooms based on the winter outdoor design temperature for the locality indicated in Appendix D of the International Plumbing Code. Cooking appliances shall not be used, nor shall portable unvented fuel-burning space heaters be used, as a means to provide required heating.

**602.3 Heat supply.** Every owner and operator of any building who rents, leases or lets one (1) or more dwelling unit, rooming unit, dormitory or guestroom on terms, either expressed or implied, to furnish heat to the occupants thereof shall supply heat to maintain a temperature of not less than 65°F in all habitable rooms, bathrooms, and toilet rooms.

**602.4 Occupiable work spaces.** Indoor occupiable work spaces shall be supplied with heat to maintain a minimum temperature of 65°F during the period the spaces are occupied.

**Exceptions:**

1. Processing, storage and operation areas that require cooling or special temperature conditions.
2. Areas in which persons are primarily engaged in vigorous physical activities.

**602.5 Room temperature measurement.** The required room temperatures shall be measured 3 feet (914 mm) above the floor near the center of the room and 2 feet (610 mm) inward from the center of each exterior wall.

*(Ord. No. 23957, 7-11-2018)*

## Section 603. Mechanical equipment.

**603.1 Mechanical appliances.** Mechanical appliances, fireplaces, solid fuel-burning appliances, cooking appliances and water heating appliances shall be properly installed and maintained in a safe working condition, and shall be capable of performing the intended function.

**603.2 Removal of combustion products.** Fuel-burning equipment and appliances shall be connected to an approved chimney or vent.

**Exception:** Fuel-burning equipment and appliances that are labeled for unvented operation.

**603.3 Clearances.** Required clearances to combustible materials shall be maintained.

**603.4 Safety controls.** Safety controls for fuel-burning equipment shall be maintained in effective operation.

**603.5 Combustion air.** A supply of air for complete combustion of the fuel and for ventilation of the space containing the fuel-burning equipment shall be provided for the fuel-burning equipment.

**603.6 Energy conservation devices.** Devices intended to reduce fuel consumption by attachment to a fuel-burning appliance, to the fuel supply line thereto, or to the vent outlet or vent piping therefrom, shall not be installed unless labeled for such purpose and the installation is specifically approved.

*(Ord. No. 23957, 7-11-2018)*

## Section 604. Electrical facilities.

**604.1 Facilities required.** Every occupied building shall be provided with an electrical system in compliance with the requirements of this section and Section 605.

**604.2 Service.** The size and usage of appliances and equipment shall serve as a basis for determining the need for additional facilities in accordance with NFPA 70. Dwelling units shall be served by a three-wire, 120/240 volt, single-phase electrical service having a minimum rating of 60 amperes.

**604.3 Electrical system hazards.** Where it is found that the electrical system in a structure constitutes a hazard to the occupants or the structure by reason of inadequate service, improper fusing, insufficient receptacle and lighting outlets, improper wiring or installation, deterioration or damage, or for similar reasons, the Code official shall require the defects to be corrected to eliminate the hazard.

**604.3.1 Abatement of electrical hazards associated with water exposure.** The provisions of this section shall govern the repair and replacement of electrical systems and equipment that have been exposed to water.

**604.3.1.1 Electrical equipment.** Electrical distribution equipment, motor circuits, power equipment, transformers, wire, cable, flexible cords, wiring devices, ground fault circuit interrupters, surge protectors, molded case circuit breakers, low-voltage fuses, luminaires, ballasts, motors and electronic control, signaling and communication equipment that have been exposed to water shall be replaced in accordance with the provisions of all applicable City of Tulsa Codes.

**Exception:** The following equipment shall be allowed to be repaired where an inspection report from the equipment manufacturer or approved manufacturer's representative indicates that the equipment has not sustained damage that requires replacement:

**1.** Enclosed switches, rated a maximum of 600 volts or less;

**2.** Busway, rated a maximum of 600 volts;

**3.** Panelboards, rated a maximum of 600 volts;

**4.** Switchboards, rated a maximum of 600 volts;

**5.** Fire pump controllers, rated a maximum of 600 volts;

**6.** Manual and magnetic motor controllers;

**7.** Motor control centers;

**8.** Alternating current high-voltage circuit breakers;

**9.** Low-voltage power circuit breakers;

**10.** Protective relays, meters and current transformers;

**11.** Low- and medium-voltage switchgear;

**12.** Liquid-filled transformers;

**13.** Cast-resin transformers;

**14.** Wire or cable that is suitable for wet locations and whose ends have not been exposed to water;

**15.** Wire or cable, not containing fillers, that is suitable for wet locations and whose ends have not been exposed to water;

**16.** Luminaires that are listed as submersible;

**17.** Motors;

**18.** Electronic control, signaling and communication equipment.

**604.3.2 Abatement of electrical hazards associated with fire exposure.** The provisions of this section shall govern the repair and replacement of electrical systems and equipment that have been exposed to fire.

**604.3.2.1 Electrical equipment.** Electrical switches, receptacles and fixtures, including furnace, water heating, security system and power distribution circuits, that have been exposed to fire, shall be replaced in accordance with the provisions of all applicable City of Tulsa Codes.

**Exception:** Electrical switches, receptacles and fixtures that shall be allowed to be repaired where an inspection report from the equipment manufacturer or approved manufacturer's representative indicates that the equipment has not sustained damage that requires replacement.

*(Ord. No. 23957, 7-11-2018)*

## Section 605. Electrical equipment.

**605.1 Installation.** Electrical equipment, wiring and appliances shall be properly installed and maintained in a safe and approved manner.

**605.2 Receptacles.** Every habitable space in a dwelling shall contain not less than two separate and remote receptacle outlets. Every laundry area shall contain not less than one grounding-type receptacle or a receptacle with a ground fault circuit interrupter. Every bathroom shall contain not less than one receptacle. Any new bathroom receptacle outlet shall have ground fault circuit interrupter protection. All receptacle outlets shall have the appropriate faceplate cover for the location.

**605.3 Luminaires.** Every public hall, interior stairway, toilet room, kitchen, bathroom, laundry room, boiler room and furnace room shall contain not less than one electric luminaire. Pool and spa luminaires over 15 V shall have ground fault circuit interrupter protection.

**605.4 Wiring.** Flexible cords shall not be used for permanent wiring, or for running through doors, windows, or cabinets, or concealed within walls, floors, or ceilings.

*(Ord. No. 23957, 7-11-2018)*

## Section 606. Elevators, escalators and dumbwaiters.

**606.1 General.** Elevators, dumbwaiters and escalators shall be maintained in compliance with ASME A17.1. The most current certificate of inspection shall be on display at all times within the elevator or attached to the escalator or dumbwaiter, be available for public inspection in the office of the building operator or be posted in a publicly conspicuous location approved by the Code official. The inspection and tests shall be performed at not less than the periodic intervals listed in ASME A17.1, Appendix N, except where otherwise specified by the authority having jurisdiction.

**606.2 Elevators.** In buildings equipped with passenger elevators, not less than one elevator shall be maintained in operation at all times when the building is occupied.

**Exception:** Buildings equipped with only one elevator shall be permitted to have the elevator temporarily out of service for testing or servicing.

*(Ord. No. 23957, 7-11-2018)*

## Section 607. Duct systems.

**607.1 General.** Duct systems shall be maintained free of obstructions and shall be capable of performing the required function.

*(Ord. No. 23957, 7-11-2018)*

## CHAPTER 7. FIRE SAFETY

Section 701. Fire safety requirements.
Section 702. Means of egress.
Section 703. Fire-resistance ratings.
Section 704. Fire protection systems.

### Section 701. Fire safety requirements.

**701.1 Scope.** The provisions of this chapter shall govern the minimum conditions and standards for fire safety relating to structures and exterior premises, including fire safety facilities and equipment to be provided.

**701.2 Responsibility.** The owner of the premises shall provide and maintain such fire safety facilities and equipment in compliance with these requirements. A person shall not occupy as owner-occupant or permit another person to occupy any premises that do not comply with the requirements of this chapter.

*(Ord. No. 23957, 7-11-2018)*

### Section 702. Means of egress.

**702.1 General.** A safe, continuous and unobstructed path of travel shall be provided from any point in a building or structure to the public way. Means of egress shall comply with the Tulsa Fire Code TRO 14 The Fire Prevention Code of the City of Tulsa.

**702.2 Aisles.** The required width of aisles in accordance with the International Fire Code shall be unobstructed.

**702.3 Locked doors.** Means of egress doors shall be readily openable from the side from which egress is to be made without the need for keys, special knowledge or effort, except where the door hardware conforms to that permitted by the International Building Code.

**702.4 Emergency escape openings.** Required emergency escape openings shall be maintained in accordance with the Code in effect at the time of construction, and the following. Required emergency escape and rescue openings shall be operational from the inside of the room without the use of keys or tools. Bars, grilles, grates or similar devices are permitted to be placed over emergency escape and rescue openings provided the minimum net clear opening size complies with the Code that was in effect at the time of construction and such devices shall be releasable or removable from the inside without the use of a key, tool or force greater than that which is required for normal operation of the escape and rescue opening.

*(Ord. No. 23957, 7-11-2018)*

### Section 703. Fire-resistance ratings.

**703.1 Fire-resistance-rated assemblies.** The required fire-resistance rating of fire-resistance-rated walls, fire stops, shaft enclosures, partitions and floors shall be maintained.

**703.2 Opening protectives.** Required opening protectives shall be maintained in an operative condition. Fire and smokestop doors shall be maintained in operable condition. Fire doors and smoke barrier doors shall not be blocked or obstructed or otherwise made inoperable.

*(Ord. No. 23957, 7-11-2018)*

## Section 704. Fire protection systems.

**704.1 General.** Systems, devices and equipment to detect a fire, actuate an alarm, or suppress or control a fire or any combination thereof shall be maintained in an operable condition at all times in accordance with the International Fire Code.

**704.1.1 Automatic sprinkler systems.** Inspection, testing and maintenance of automatic sprinkler systems shall be in accordance with NFPA 25.

**704.1.2 Fire department connection.** Where the fire department connection is not visible to approaching fire apparatus, the fire department connection shall be indicated by an approved sign mounted on the street front or on the side of the building. Such sign shall have the letters "FDC" not less than 6 inches (152 mm) high and words in letters not less than 2 inches (51 mm) high or an arrow to indicate the location. Such signs shall be subject to the approval of the fire Code official.

**704.2 Single and multiple-station smoke alarms.** Single and multiple-station smoke alarms shall be installed in existing Group I-1 and R occupancies in accordance with Sections 704.2.1 through 704.2.3.

**704.2.1 Where required.** Existing Group I-1 and R occupancies shall be provided with single-station smoke alarms in accordance with Sections 704.2.1.1 through 704.2.1.4. Interconnection and power sources shall be in accordance with Sections 704.2.2 and 704.2.3.

**Exceptions:**

1. Where the Code that was in effect at the time of construction required smoke alarms and smoke alarms complying with those requirements are already provided.
2. Where smoke alarms have been installed in occupancies and dwellings that were not required to have them at the time of construction, additional smoke alarms shall not be required provided that the existing smoke alarms comply with requirements that were in effect at the time of installation.
3. Where smoke detectors connected to a fire alarm system have been installed as a substitute for smoke alarms.

**704.2.1.1 Group R-1.** Single or multiple-station smoke alarms shall be installed in all of the following locations in Group R-1:

1. In sleeping areas.
2. In every room in the path of the means of egress from the sleeping area to the door leading from the sleeping unit.
3. In each story within the sleeping unit, including basements. For sleeping units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.

**704.2.1.2 Groups R-2, R-3, R-4 and I-1.** Single or multiple-station smoke alarms shall be installed and maintained in Groups R-2, R-3, R-4 and I-1 regardless of occupant load at all of the following locations:

1. On the ceiling or wall outside of each separate sleeping area in the immediate vicinity of bedrooms.

2. In each room used for sleeping purposes.

3. In each story within a dwelling unit, including basements but not including crawl spaces and uninhabitable attics. In dwellings or dwelling units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.

**704.2.1.3 Installation near cooking appliances.** Smoke alarms shall not be installed in the following locations unless this would prevent placement of a smoke alarm in a location required by Section 704.2.1.1 or 704.2.1.2.

1. Ionization smoke alarms shall not be installed less than 20 feet (6096 m) horizontally from a permanently installed cooking appliance.

2. Ionization smoke alarms with an alarm-silencing switch shall not be installed less than 10 feet (3048 mm) horizontally from a permanently installed cooking appliance.

3. Photoelectric smoke alarms shall not be installed less than 6 feet (1829 mm) horizontally from a permanently installed cooking appliance.

**704.2.1.4 Installation near bathrooms.** Smoke alarms shall be installed not less than 3 feet (914 mm) horizontally from the door or opening of a bathroom that contains a bathtub or shower unless this would prevent placement of a smoke alarm required by Section 704.2.1.1 or 704.2.1.2.

**704.2.2 Interconnection.** Where more than one smoke alarm is required to be installed within an individual dwelling or sleeping unit, the smoke alarms shall be interconnected in such a manner that the activation of one alarm will activate all of the alarms in the individual unit. Physical interconnection of smoke alarms shall not be required where listed wireless alarms are installed and all alarms sound upon activation of one alarm. The alarm shall be clearly audible in all bedrooms over background noise levels with all intervening doors closed.

**Exceptions:**

1. Interconnection is not required in buildings that are not undergoing alterations, repairs or construction of any kind.

2. Smoke alarms in existing areas are not required to be interconnected where alterations or repairs do not result in the removal of interior wall or ceiling finishes exposing the structure, unless there is an attic, crawl space or basement available that could provide access for interconnection without the removal of interior finishes.

**704.2.3 Power source.** Single-station smoke alarms shall receive their primary power from the building wiring provided that such wiring is served from a commercial source and shall be equipped with a battery backup. Smoke alarms with integral strobes that are not equipped with battery backup shall be connected to an emergency electrical system. Smoke alarms shall emit a signal when the batteries are low. Wiring shall be permanent and without a disconnecting switch other than as required for overcurrent protection.

**Exceptions:**

1. Smoke alarms are permitted to be solely battery operated in existing buildings where no construction is taking place.
2. Smoke alarms are permitted to be solely battery operated in buildings that are not served from a commercial power source.
3. Smoke alarms are permitted to be solely battery operated in existing areas of buildings undergoing alterations or repairs that do not result in the removal of interior walls or ceiling finishes exposing the structure, unless there is an attic, crawl space or basement available that could provide access for building wiring without the removal of interior finishes.

**704.2.4 Smoke detection system.** Smoke detectors listed in accordance with UL 268 and provided as part of the building's fire alarm system shall be an acceptable alternative to single and multiple-station smoke alarms and shall comply with the following:

1. The fire alarm system shall comply with all applicable requirements in Section 907 of the International Fire Code.
2. Activation of a smoke detector in a dwelling or sleeping unit shall initiate alarm notification in the dwelling or sleeping unit in accordance with Section 907.5.2 of the International Fire Code.
3. Activation of a smoke detector in a dwelling or sleeping unit shall not activate alarm notification appliances outside of the dwelling or sleeping unit, provided that a supervisory signal is generated and monitored in accordance with Section 907.6.5 of the International Fire Code.

*(Ord. No. 23957, 7-11-2018)*

## CHAPTER 8. CHRONIC NUISANCE PROPERTY

Section 801. Chronic Nuisance Property Designation.
Section 802. Action.
Section 803. Review.
Section 804. Order.
Section 805. Conference.
Section 806. Placard.
Section 807. Violation.

### Section 801. Chronic Nuisance Property Designation.

A Chronic Nuisance Property is a dwelling or structure within which, or on the premises of which, any of the following has occurred:

1. Three (3) or more separate violations of criminal statutes of the State of Oklahoma and/or the criminal ordinances of the City of Tulsa in the dwelling or structure or on the premises of a dwelling or structure, or on property within one hundred (100) feet of a dwelling or structure or the premises of a dwelling or structure, within a twenty-four (24) month period; and/or
2. Three (3) or more violations of the City Code relating to property maintenance, nuisance, or zoning arising out of separate and distinct facts and circumstances within a twenty-four (24) month period;
3. Separate violations of the City of Tulsa Fire Prevention Code (Title 14 Tulsa Revised Ordinances) relating to Nuisance Fire Alarms, Section 109.3.2.2, more than five (5) times in any thirty (30) day period, or more than thirty-six (36) times in any twelve (12) month period; or
4. A combination of three (3) offenses from any of the above categories arising out of separate and distinct facts and circumstances which have been investigated, found to have substance, and appropriately documented by the Code Enforcement Officer or members of the Tulsa Police Department or Tulsa Fire Department, and regardless of whether the violation resulted in the initiation of formal court action.

*(Ord. No. 23957, 7-11-2018)*

### Section 802. Action.

Such violations need not result in court action or conviction, but must be appropriately documented by a member of the City of Tulsa Department of City Experience (DCE) Code Enforcement staff, Tulsa Police Department (TPD), or Tulsa Fire Department (TFD).

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 9, 8-30-2023)*

### Section 803. Review.

1. Tulsa Police Department and Tulsa Fire Department will refer cases to DCE Code Enforcement staff to confirm the validity of alleged violations of Chapter 8, Sections 801. These departments shall meet as needed and review locations with violations meeting Section 801.
2. If a property is reviewed and considered a Chronic Nuisance Property by the internal departments reviewing the case, DCE Code Enforcement staff will post a Notice of Violation per Section 107 and set the property for an Administrative Hearing using the

procedures found in Title 24, TRO, "Nuisances". The notice will inform the owner of the hearing date and list the necessary steps to abate the violations to include but not limited to:

**a.** Abate the violations; or

**b.** Contact DCE Code Enforcement staff to schedule a conference with City staff to present a plan of action before the hearing date listed;

**c.** Secure, mow, and clean entire property within ten (10) days of the Notice of Violation.

**3.** If the property is declared a Chronic Nuisance Property by the Administrative Hearing officer, DCE Code Enforcement staff will post the signed order on the property and mail a copy to the owner of record.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 9, 8-30-2023)*

### Section 804. Order.

**1.** DCE Code Enforcement staff will post the Order to Abate on the property designated a Chronic Nuisance Property. The order will inform the owner of the necessary steps to be taken, including, but not limited to:

**a.** Abate the violations; or

**b.** Contact DCE Code Enforcement staff to schedule a conference with City staff to present a plan of action before the hearing date listed;

**c.** Secure, mow, and clean entire property within ten (10) days of the order.

**2.** If the owner does not comply with the order, DCE Code Enforcement staff will execute the procedures contained in Section 806 of this Chapter to post a placard on the property.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 9, 8-30-2023)*

### Section 805. Conference.

**1.** The owner will be responsible for contacting DCE Code Enforcement staff to schedule a conference for the purpose of presenting a plan to abate all violations. If City staff accepts the plan, they will remove the placard from the property.

**2.** The scheduled conference will be attended by the owner or his/her representative, City staff from TPD, TFD, DCE and the Legal Department, one (1) councilor for the City Council district in which the property is located, and any other appropriate department or outside agency that is needed.

**3.** The owner or his/her representative will present a plan to City staff for review, comments, and suggestions. The plan will eliminate all current code violations and prevent future violations.

**4.** Once the plan is agreed upon, the owner will implement the plan and the placard will be removed.

**5.** DCE Code Enforcement staff will monitor the plan and, if at any point the plan is not being maintained, will refer the property back to the internal committee.

**6.** If the owner fails to remove the Chronic Nuisance Property violations within the time period prescribed by the plan, the property may be re-placarded and the City of Tulsa may execute additional abatement procedures as outlined in TRO 24.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 9, 8-30-2023)*

### Section 806. Placard.

**1.** If the owner does not comply with the order contained in Section 804 above, DCE Code Enforcement staff will proceed with the placard process pursuant to Section 108.4.

**2.** Occupancy or operation of the Chronic Nuisance Property after the posting of the placard is forbidden. Violators may be cited or arrested and prosecuted pursuant to Section 108 of this Code.

*(Ord. No. 23957, 7-11-2018; Ord. No. 25116, § 9, 8-30-2023)*

### Section 807. Violation.

**1.** No owner or occupant of any dwelling shall cause or allow such dwelling or premises to be, or become, a Chronic Nuisance Property.

**2.** An owner and/or occupant, as the case may be, shall be deemed to have caused or allowed a dwelling to be, or become, a Chronic Nuisance Property if:

**A.** The owner or occupant has personally committed the acts set forth in Chapter 8, 801.1;

**B.** Such acts were committed by invitees of the occupant or owner;

**C.** Such acts were committed by persons attending events or functions sponsored, permitted or allowed by the occupant or owner;

**D.** Such acts were committed by a combination of 801.2.2. A, B or C; or

**E.** The owner or occupant has been provided with the written notice of a Chronic Nuisance Property designation pursuant to Section 107, the facts alleged therein are true and the owner or occupant fails or refuses to abate the Chronic Nuisance Property designation.

*(Ord. No. 23957, 7-11-2018)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 9. BOARDING OF BUILDINGS

Section 901. Boarding standard.
Section 902. General.
Section 903. Materials.
Section 904. Installation.

### Section 901. Boarding standard.

**901.1 Scope.** The provisions of this chapter shall govern the minimum conditions and the responsibilities of persons for boarding and securing a structure by closing, boarding, or locking of any or all exterior opening so as to prevent entry into the building by use of normal or irregular means.

**901.2 Responsibility.** The owner of the premises shall maintain the structures and exterior property in compliance with these requirements. A person shall not occupy as owner-occupant or permit another person to occupy premises that are in whole or partially boarded up by irregular means as defined in this chapter.

*(Ord. No. 23957, 7-11-2018)*

### Section 902. General.

**902.1 General.** Windows and doors shall be boarded in an approved manner to prevent entry by unauthorized persons and shall be painted to correspond to the color of the existing structure.

**902.2 Normal Means.** Securing a structure by normal means will include locking exterior doors, windows and opening by use of the locking mechanism designed for normal use. Securing an exterior door or window by the use or mechanical securing such as screw or nails is not considered normal means. Secured by "Other Than Normal Means" shall mean a condition when a building or residential structure is secured by means other than those used by normal means.

**902.3 Other Than Normal Means.** Securing a structure by other than normal means will include but not limited to securing exterior doors, windows and opening the use of mechanical securing such as boards to cover the opening and fastening boards with screws or nails, which voids the use of the door or window for its original design and use.

*(Ord. No. 23957, 7-11-2018)*

### Section 903. Materials.

**903.1 Boarding sheet material.** Boarding sheet material shall be minimum ½ inch thick (1.27 cm) exterior grade plywood. Any other materials must be approved by the Code official prior to installation.

**903.2 Boarding framing material.** Boarding framing material shall be minimum nominal 2-inch by 4-inch (51 mm by 102 mm) solid sawn lumber complying with the International Building Code.

**903.3** The materials will be designed and of such color so as to blend in with the finish of the building.

**903.4 Boarding fasteners.**

1. Non-window and door opening. Boarding fasteners will be a minimum of 3 inch (7.62 cm) wood screws and counter sunk.

2. Windows. Boarding fasteners will be a minimum of ⅜ inch (.9525 cm) by 12 inch (30.48 cm) rounded head carriage bolts, ½ inch (1.27 cm) flat washers and ⅜ inch (.9525 cm) construction grade nut.

3. Doors. Boarding fasteners will be a minimum of ⅜ inch (.9525 cm) by 12 inch (30.48 cm) rounded head carriage bolts, ½ inch (1.27 cm) flat washers and ⅜ inch (.9525 cm) construction grade nut.

*(Ord. No. 23957, 7-11-2018)*

**Section 904. Installation.**

**904.1 Installation for openings not used for normal access.**

1. **Boarding installation.** The boarding installation shall be in accordance with Figures A103.1(1) and A103.1(2) and Sections 904.1(1) through 904.1(5).

2. **Boarding sheet material.** The boarding sheet material shall be cut to fit the door or window opening neatly or shall be cut to provide an equal overlap at the perimeter of the door or window.

3. **Windows.** The window shall be opened to allow the carriage bolt to pass through or the window sash shall be removed and stored. The 2-inch by 4-inch (51 mm by 102 mm) strong back framing material shall be cut minimum 2 inches (51 mm) wider than the window opening and shall be placed on the inside of the window opening 6 inches (152 mm) minimum above the bottom and below the top of the window opening. The framing and boarding shall be predrilled. The assembly shall be aligned and the bolts, washers and nuts shall be installed and secured.

4. **Door walls.** The door opening shall be framed with minimum 2-inch by 4-inch (51 mm by 102 mm) framing material secured at the entire perimeter and vertical members at a maximum of 24 inches (610 mm) on center. Blocking shall also be secured at a maximum of 48 inches (1219 mm) on center vertically. Boarding sheet material shall be secured with screws and nails alternating every 6 inches (152 mm) on center.

5. **Doors.** Doors shall be secured by the same method as for windows or door openings. One door to the structure shall be available for authorized entry and shall be secured and locked in an approved manner.

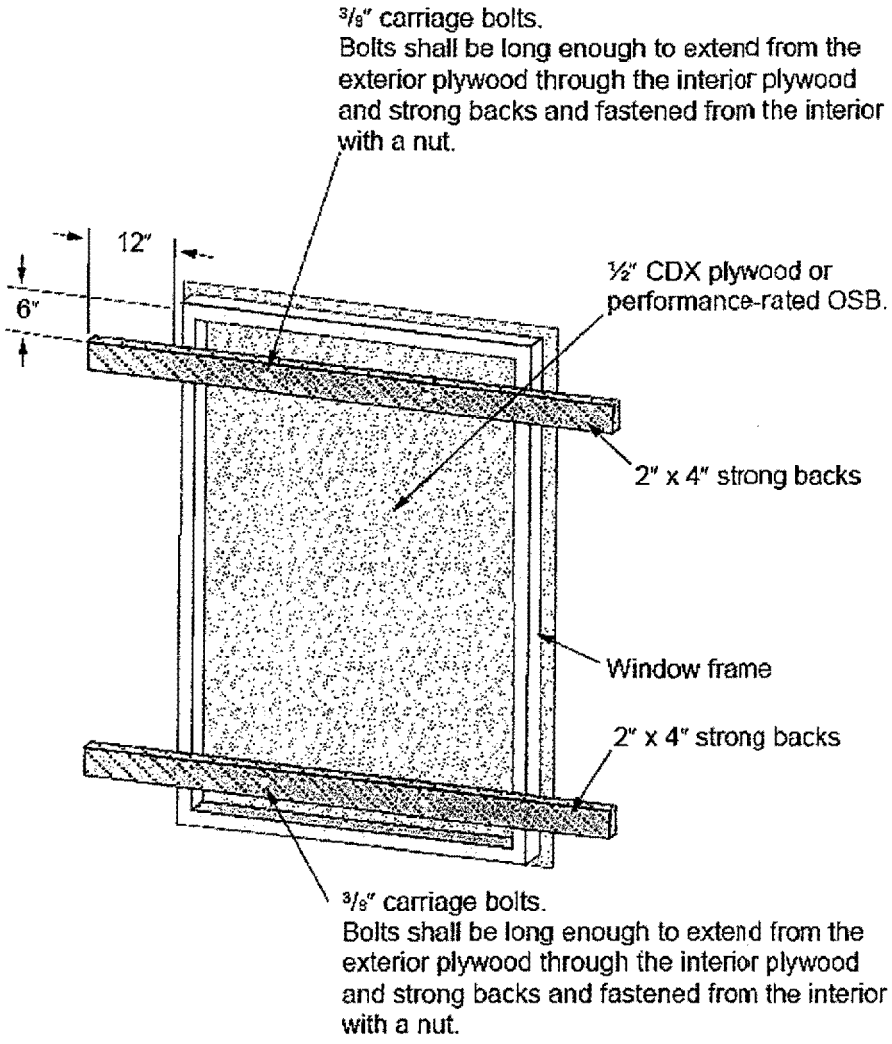

**FIGURE A103.1(1)**
**BOARDING OF DOOR OR WINDOW**

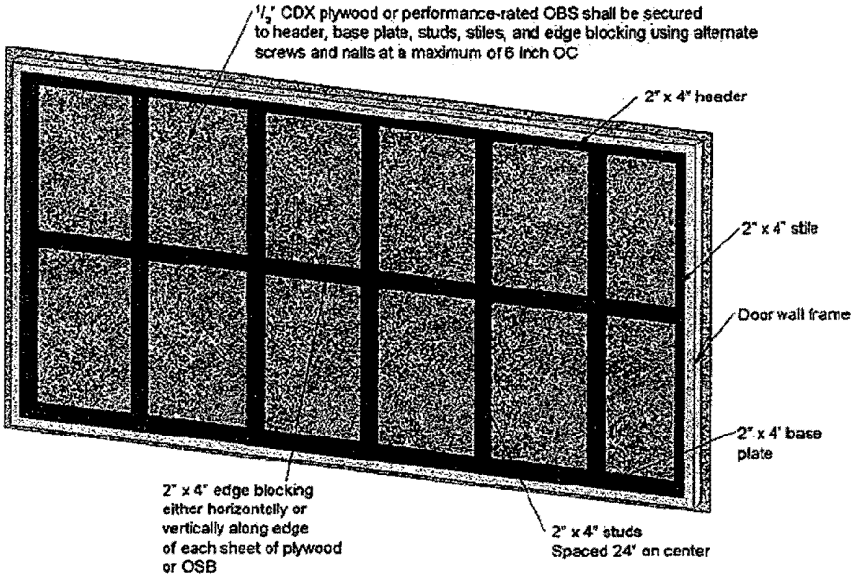

**FIGURE A1-3.1(2)**
**BOARDING OF DOOR WALL**

*(Ord. No. 23957, 7-11-2018)*

## CHAPTER 10. VACANT PROPERTIES

Section 1001. Neglected vacant properties.
Section 1002. General.
Section 1003. Neglected vacant properties.

### Section 1001. Neglected vacant properties.

**1001.1 Scope.** The provisions of this chapter shall govern the definitions and enforcement for vacant properties and minimum conditions by which these properties and structures must be maintained.

**1001.2 Responsibility.** The owner, owner's authorized agent, or operator of the premises shall maintain the structures and exterior property in compliance with these requirements, except as otherwise provided for in this Code. A person shall not occupy as owner-occupant or permit another person to occupy premises that are not in a sanitary and safe condition and that do not comply with the requirements of this chapter.

*(Ord. No. 23957, 7-11-2018)*

### Section 1002. General.

**1002.1 Unoccupied Vacant Properties.** Unoccupied means that condition when a building or residential structure or a portion thereof lacks the habitual presence of human beings who have a legal right to be on the premises, including buildings by which are maintained in a manner that results in no Code violation or structures ordered vacated by an Enforcement Officer, Tulsa Fire Department, Tulsa Police Department, or Tulsa Health Department. In determining whether a building or residential structure is unoccupied, the Enforcement Officer may consider these factors, among others:

1. Whether lawful residential or business activity has ceased;
2. The percentage of the overall square footage of the occupied to unoccupied space or the overall number of occupied and unoccupied units and their proximity to each other;
3. The building or residential structure is substantially devoid of contents or the fixtures or personal property located in the building or residential structure are of a minimal value;
4. The building or residential structure lacks utility services;
5. The building or residential structure is the subject of a foreclosure action;
6. Duration of vacancy; and/or
7. The presence or reoccurrence of Code violations.

**1002.2 Maintenance.** The owner, owner's authorized agent, or operator of the premises shall maintain the property in a manner that the property is immediately suitable for occupation. The basic personal property, utility infrastructure and mechanical equipment is intact and in place. If the property is under renovation the complete renovation is under construction for less than one year. The property's structures remain secured by normal means as listed in Section 901.

*(Ord. No. 23957, 7-11-2018)*

## Section 1003. Neglected vacant properties.

**1003.1 Neglected Vacant Properties** means a building, regardless of the use, the square footage or the presence of more than one living unit, a portion of a building, residential structure, or premises which is any one or more of the following:

**1.** Unoccupied and unsecured;

**2.** Unoccupied and secured by other than normal means in accordance with Section 901;

**3.** Unoccupied and an unsafe building or residential structure with suspected Code violations as determined by an Enforcement Officer;

**4.** Unoccupied and an Enforcement Officer has issued an order to correct Code violations;

**Exemptions:** For the purposes of this title, only the following properties are exempt:

**a.** All properties owned by the federal government, the state of Oklahoma, and all political subdivisions thereof.

**1003.2 Maintenance.** The owner, owner's authorized agent, or operator of the premises shall maintain the property in the following manner:

**1.** The owner will protect and maintain the exterior of the building or residential structure as follows:

**a.** Exterior walls, including foundations, will be maintained so that water does not penetrate into basements, cellars, or other interior areas. All exterior walls and foundations must be free of holes and crevices;

**b.** Exterior doors, windows, skylights, and similar openings will be maintained weather tight;

**c.** Exterior stairs, porches, entrance platforms, fire escapes, and the railings thereon shall be maintained in a safe and sound condition;

**d.** Roofs shall be maintained in weather tight condition;

**e.** Exterior surfaces shall be maintained in good condition. Surfaces not inherently resistant to deterioration shall be treated with a protective coating of paint or other suitable preservative;

**f.** The coverings for windows and doors shall comply with Chapter 9 of this Code. The materials will be designed and of such color so as to blend in with the finish of the building;

**g.** The premises shall be kept free of insects and vermin and will be treated if necessary;

**h.** All exterior signs, awnings, and lighting systems, if not removed, shall be maintained in a non-deteriorated and safe condition;

**i.** Structural members will be maintained to resist and prevent deterioration;

**j.** Ceilings, walls, floors, and stairways will be maintained in a non-deteriorated and safe condition;

**k.** Chimneys, smokestacks, flues, gas vents, smoke pipes, and connectors will be maintained structurally safe and smoke tight;

**l.** Fuel tanks will be maintained so as not to be a hazard or will be disconnected in a manner consistent with the International Fire Code;

**m.** Storm water drainage systems will be maintained so as to function properly and be kept free from obstructions, leaks, and defects. Sewage systems will be similarly maintained or will be sealed so as to prevent accumulation of sewage gases in buildings;

**n.** Electrical fixings, devices, wiring, and systems will be maintained safe in a manner which will avoid a potential source of ignition or shock or service will be discontinued; and

**o.** Elevators, dumbwaiters, and escalators will be maintained or taken out of service in accordance with applicable provisions of the building Code.

**Exceptions:**

**1.** Processing, storage and operation areas that require cooling or special temperature conditions.

**2.** Areas in which persons are primarily engaged in vigorous physical activities.

*(Ord. No. 23957, 7-11-2018)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 11. RESIDENTIAL RENTAL OCCUPANCY STANDARDS

Section 1100. Purpose and scope.
Section 1101. Definitions.
Section 1102. Duties and powers of the code official.
Section 1103. General residential rental property maintenance standards.
Section 1104. Plumbing systems and fixtures standards.
Section 1105. Sanitary facility standards.
Section 1106. Kitchen facility standards.
Section 1107. Electrical and lighting standards.
Section 1108. Heating and cooling standards.
Section 1109. Emergency escapes, egress, and smoke detectors.
Section 1110. Annual verification of fire safety device compliance.
Section 1111. Light and ventilation standards.
Section 1112. Interior sanitation standards.
Section 1113. Residential rental dwelling unit interior building standards.
Section 1114. Exterior residential rental dwelling unit building standards.
Section 1115. Residential rental property premises standards.

### Section 1100. Purpose and scope.

**1101.1 Purpose.** This chapter is enacted to provide for a sustained, habitable, safe, clean, and healthy living environment for residents, tenants, occupants, invitees, and members of the public on or within residential rental properties, in full compliance with the building and housing codes of the City of Tulsa.

**1101.2 Scope.** The provisions of this chapter shall apply to all residential rental properties and dwelling units within the City of Tulsa, and constitute minimum requirements and standards for premises, structures, equipment and facilities for light, ventilation, space, heating, sanitation, protection from the elements, life safety, safety from fire and other hazards, and for safe and sanitary maintenance. Any residential rental property or dwelling unit, by act, omission, or neglect, failing to comply with the minimum requirements and standards of this Code and chapter shall be a public nuisance.

*(Ord. No. 25115, § 1, 8-30-2023)*

### Section 1101. Definitions.

The words and phrases used in this chapter shall have the meanings defined in this section except when the context clearly and unambiguously requires a different meaning. Terms which are not defined in this Code shall have their common and ordinarily accepted meanings or such as the context may imply.

'**Blight**' or '**blighted**' shall mean a condition of a building or premises characterized by neglect or lack of maintenance or damage or graffiti or other similar conditions of disrepair, dilapidation or deterioration which may endanger life or property by fire or other causes or is conducive to ill health, transmission of diseases, rodent or insect infestation or is otherwise detrimental to the public health, safety, and welfare.

'**Building or housing code**' shall mean any law, ordinance or governmental regulation concerning fitness for habitation or the construction, maintenance, operation, occupancy, use or appearance of any residential rental property or residential rental dwelling unit, including but not limited to:

Title 14 Tulsa Revised Ordinances, the current adopted International Code Council (ICC) International Fire Code, as amended from time to time;

Title 24 Tulsa Revised Ordinances, titled 'Nuisances', as amended from time to time;

Title 51 Tulsa Revised Ordinances, Chapter 1, the current adopted ICC International Building Code, as amended from time to time;

Title 51 Tulsa Revised Ordinances, Chapter 2, the current adopted ICC International Residential Code for One- and Two-Family Dwellings, as amended from time to time;

Title 51 Tulsa Revised Ordinances, Chapter 4, the current adopted ICC International Existing Building Code, as amended from time to time;

Title 52 Tulsa Revised Ordinances, the current adopted National Electrical Code, as amended from time to time;

Title 55 Tulsa Revised Ordinances, titled 'Property Maintenance Code', as amended from time to time;

Title 56 Tulsa Revised Ordinances, the current adopted ICC International Plumbing Code, as amended from time to time; and

Title 59 Tulsa Revised Ordinances, the current adopted ICC International Mechanical Code, as amended from time to time.

'**Premises**' shall mean a residential rental dwelling unit and the structure of which it is a part, its facilities and appurtenances, the site, space or lot leased to the owner or resident of a mobile or manufactured home, and the grounds, areas and facilities held out for the use of a resident, tenant, occupant, invitee, or member of the public generally or the use of which is promised to them.

'**Residential rental dwelling unit**' shall mean a structure or building, or that part of a structure or building, with a habitable space used as a dwelling unit and is rented, leased or otherwise let for human occupancy.

'**Residential rental property**' shall mean any property or premises containing one or more residential rental dwelling units.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1102. Duties and powers of the code official.

**1102.1 General.** The code official is authorized and directed to enforce the provisions of this chapter. The code official shall have the authority to render interpretations of this chapter and to adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies and procedures shall be in compliance with the intent and purpose of this chapter. Such policies and procedures shall not have the effect of waiving requirements specifically provided for in this Code.

**1102.2 Inspections.** The code official shall make all required inspections or shall accept reports of inspection by approved agencies or individuals. Reports of such inspections shall be in writing and be certified by a responsible officer of such approved agency or by the

responsible individual. The code official is authorized to engage such expert opinion(s) as deemed necessary to report upon unusual technical issues that arise, subject to the approval of the appointing authority.

**1102.3 Identification.** A code official shall carry proper identification when inspecting structures or premises of a residential rental property in the performance of duties under this chapter.

**1102.4 Notices and orders.** A code official shall issue all necessary notices or orders to ensure compliance with this chapter.

**1102.5 Department records.** The code official shall keep official records of all business and activities of the department specified in this chapter. Such records shall be retained in the official records for the period required for retention of public records.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1103. General residential rental property maintenance standards.

**1103.1 Most restrictive provisions apply.** No residential rental property maintenance standards prescribed in this chapter shall be deemed to limit the enforcement of requirements of any building or housing code adopted by the City of Tulsa. Should a conflict exist, the more restrictive provisions of any applicable building or housing code shall control.

**1103.2 Safe and operable condition required.** All occupied dwelling units of a residential rental property, regardless of age or condition, and all parts of them shall be maintained in a safe and sanitary condition. All equipment, devices, safeguards and standards which are required by this chapter, or any building or housing code shall be maintained in a safe and operable condition.

**1103.3 Systems, fixture and appliance maintenance.** Every plumbing and electrical system, heating and cooling system, ventilating system, fixture and appliance shall be properly installed, maintained in a safe working condition, and shall be capable of performing the intended function(s).

**1103.4 Clean and safe exterior and premise maintenance.** All exterior property, premises and common areas shall be maintained in a clean, safe, and sanitary condition, free from deterioration and blighted conditions.

**1103.5 Exterior and premises health, safety and welfare.** The exterior and interior of a residential rental property building shall be maintained in good repair, be structurally sound, and in a safe and sanitary condition so as not to pose a threat to the health, safety or welfare of any resident, tenant, occupant, invitee, or member of the public.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1104. Plumbing systems and fixtures standards.

**1104.1 General.** Each residential rental dwelling unit within a residential rental property shall have a plumbing system maintained in good working condition, free from defects, leaks and obstructions. All plumbing fixtures, drains, waste and vent piping shall be maintained in proper working order, connected to an approved waste disposal system and shall be kept free from obstructions, leaks, and defects.

**1104.2 Water system.** A water system shall be installed and maintained to provide a supply of potable water to each fixture in sufficient volume and at pressures adequate such that the fixtures will function safely and properly, free from defects and leaks and will perform their intended function(s).

**1104.3 Water heating facilities.** Water heating facilities shall be properly installed and maintained and capable of providing a supply of water in sufficient volume at every required sink, lavatory, bathtub or shower and laundry facility, if provided, at a temperature of not less than one hundred ten degrees (110°) Fahrenheit.

**1104.4 Gas water heater location.** A gas burning water heater shall not be located in any room used or designed to be used for sleeping purposes, bathrooms, clothes closets or in a closet or other confined space opening into a bath or bedroom.

**1104.5 Temperature and pressure relief valve.** An approved combination temperature and pressure relief valve and relief valve discharge line shall be properly installed and maintained on water heaters.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1105. Sanitary facility standards.

**1105.1 Bathroom facilities required.** Every residential dwelling unit shall be provided with a bathroom equipped with functional plumbing fixtures consisting of a water closet, lavatory basin, and either a bathtub or shower.

**1105.2 Lavatory basins.** A lavatory basin is required in, or immediately adjacent to, any room containing a water closet. A kitchen sink shall not be substituted for the lavatory basin.

**1105.3 Bathroom fixture installation.** Each water closet, lavatory basin, bathtub and shower shall be installed in compliance with applicable building and housing codes and maintained free from defects and leaks. Each lavatory basin, bathtub and shower shall be supplied with hot or tempered and cold running water in sufficient volume necessary for its normal operation.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1106. Kitchen facility standards.

**1106.1 Kitchen required.** Every residential rental dwelling unit shall have a kitchen or kitchen area with space to store, prepare, and serve food in a sanitary manner.

**1106.2 Oven, range or stove, refrigerator required.** Unless otherwise provided by a rental agreement, every residential rental dwelling unit shall be equipped with an oven and range, or stove, and a refrigerator. Connections for each appliance listed in this subsection shall be provided in compliance with the applicable building or housing code. Each appliance shall be properly installed and operating in a manner for which the appliance was designed. The oven and range or stove and refrigerator may be provided by the owner or tenant as part of a rental agreement.

**1106.3 Kitchen sink required.** Every residential rental dwelling unit shall be provided with a kitchen sink properly installed, maintained free from defects and leaks, and supplied with hot and cold running water in sufficient volume necessary for its normal operation.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1107. Electrical and lighting standards.

**1107.1 Electrical service required.** Every residential rental dwelling unit shall have electrical service and lighting that is maintained in a hazard free condition and in a state of good repair. The capacity of all electrical systems shall be able to safely supply power to the existing appliances, fixtures, and facilities in the building.

**1107.2 Hazard free electrical system.** The electrical system for each residential rental dwelling unit shall be free from such hazards as broken wiring, non-insulated wiring, non-code authorized types of wiring, connections or insulation, exposed wiring on or within fixtures, overloaded circuits, missing receptacle, or switch covers, or badly cracked receptacles or switches.

**1107.3 Extension cord prohibitions.** Extension cords shall not be used in place of permanent wiring, allowed to run through doors, windows, or cabinets, or concealed within walls, floors, or ceilings.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1108. Heating and cooling standards.

**1108.1 Heating, cooling, and ventilation systems.**

**1108.1.1.** Heating, cooling and ventilation systems in any residential rental dwelling unit shall be maintained hazard-free, operational and in a state of good repair. Heating and cooling systems shall be free from hazards associated with ventilation, equipment status, mounting, electrical connections and other potential defects.

**1108.1.1.1 Heating requirements.** Every residential rental dwelling unit or building where such systems are installed shall have heating capable of safely maintaining a room temperature of sixty-five degrees (65°) Fahrenheit, heating all habitable rooms, bathrooms, flushing toilet rooms, be maintained in a safe working condition, and shall be capable of performing the intended function. Required heating shall be provided by permanently installed heating facilities. Cooking devices and portable space heaters shall not be used to satisfy this requirement or supplement permanent heating facilities in order to meet this standard.

**1108.1.1.2 Cooling requirements.** Every residential rental dwelling unit or building where such systems are installed shall have cooling capable of safely cooling all habitable rooms, bathrooms, flushing toilet rooms, be maintained in a safe working condition, and shall be capable of performing the intended function. Required cooling shall be provided by permanently installed cooling facilities and, excluding window units, portable cooling devices shall not be used to satisfy this requirement or supplement permanent cooling facilities in order to meet this standard.

**1108.1.1.3. Unvented combustion heaters prohibited.** No owner or tenant shall provide, install or allow to be installed or used any unvented portable space heaters burning solid, liquid or gaseous fuels.

**1108.1.1.4. Cooking appliances as heaters prohibited.** No owner, or tenant shall allow the use of any ovens, stoves or ranges, or other cooking appliances for the purpose of heating any portion of a residential rental dwelling unit.

**1108.1.2 Heating System removal prohibited.** Heating systems for residential rental dwelling units shall not be removed except for immediate repair or replacement.

**1108.1.3 Heating removed - occupancy prohibited.** Where a heating system has previously existed in a residential rental dwelling unit but has been removed, such dwelling unit shall not be occupied unless a heating system is installed.

**1108.1.4 Ducted cooling removal prohibited.** Ducted cooling systems, including refrigerant based systems and evaporative cooling systems, for residential rental dwelling units shall not be removed except for immediate repair or replacement.

**1108.1.5 Ducted cooling removed - occupancy prohibited.** Where a ducted refrigerant-based cooling system has previously existed in a residential rental dwelling unit but has been removed, such dwelling unit shall not be occupied unless a ducted refrigerant-based cooling system is installed or unless, prior to the effective date of the ordinance from which this section is derived, a ducted evaporative cooling system has been installed.

**1108.1.6 Ducted evaporative cooling removed - occupancy prohibited.** Where a ducted evaporative cooling system has previously existed in a residential rental dwelling unit but has been removed, such dwelling unit shall not be occupied unless a ducted evaporative cooling system or a ducted refrigerant-based cooling system is installed.

**1108.1.7. Non-ducted cooling removal prohibited.** Non-ducted cooling units, including refrigerant based cooling units and evaporative cooling units, shall not be removed except for immediate repair or immediate replacement or unless a ducted refrigerant-based cooling system or a ducted evaporative cooling system is available to provide cooling to the residential rental dwelling unit.

**1108.1.8. Non-ducted evaporative cooling removed - occupancy prohibited.** Where a non-ducted cooling unit has previously existed in a residential rental dwelling unit but has been removed, such dwelling unit shall not be occupied unless a non-ducted refrigerant-based cooling unit, a non-ducted evaporative cooling unit, a ducted refrigerant-based cooling system, or ducted evaporative cooling system is installed.

**1108.2 Evaporative cooling maintenance.** Evaporative cooling equipment shall be maintained in a condition free from excessive accumulation of rust, corrosion or mineral deposits that will limit proper operation and all mounting apparatus shall be structurally sound. Condensate from air cooling coils and the overflow from evaporative coolers shall be piped from the roof.

**1108.3 Removal of unused evaporative coolers required.** Unused, inoperable, and deteriorated evaporative coolers shall be removed from any residential rental dwelling unit.

*(Ord. No. 25115, § 1, 8-30-2023)*

**Section 1109. Emergency escapes, egress, and smoke detectors.**

**1109.1 Openable window or door unit required.** Any room used for sleeping within a residential rental dwelling unit must have at least one (1) openable window or door unit for

emergency escape or rescue in accordance with building or housing codes. The units shall be operable from the inside and provide a clear, unobstructed opening without the use of separate tools.

**1109.2 Egress components maintenance.** All egress components, including but not limited to interior and exterior walkways, landings, stairways, balconies, and sidewalks shall be maintained in a structurally-sound condition, free from any tripping hazard.

**1109.3 Fire Safety Systems and Extinguishers.**

**1109.3.1 Fire safety system maintenance.** Fire safety systems in the form of fire suppression and alarm systems shall be installed and maintained in good operating condition in accordance with the building or housing code edition in effect when the residential rental dwelling was constructed or altered. Fire suppression and alarm systems shall be inspected and tested annually in accordance with the provisions of the Fire Extinguisher Licensing Act, 59 O.S., Sections 1800.1 *et seq.*, Alarm and Locksmith Industry Rules, OAC 380:75, and properly display a current inspection tag.

**1109.3.2 Smoke alarms requirements.** If fire suppression and alarm systems are not required for a building, a smoke alarm is required for each residential rental dwelling unit. Smoke alarms may be battery-operated or may receive their power from the building wiring and shall be mounted in accordance with manufacturer's instructions on the ceiling or wall at a point centrally located in the corridor or area giving access to each sleeping area. Smoke alarms shall sound an alarm audible in all sleeping areas of the dwelling unit in which they are located.

**1109.3.3 Fire extinguisher installation and maintenance.** Fire extinguishers shall be installed, maintained, and readily accessible to residents, tenants, occupants, and invitees in accordance with the current building and housing codes. Fire extinguishers must be inspected annually in accordance with Fire Extinguisher Licensing Act, 59 O.S., Sections 1820.1 *et seq.*, Fire Extinguisher Industry Rules, OAC 265:50-5-1, and properly display a current inspection tag.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1110. Annual verification of fire safety device compliance.

**1110.1 Documentation of annual fire safety device verification.** Owners of residential rental dwelling units shall annually document verification of the proper operation of fire extinguishers, fire sprinkler systems (if present), and fire alarm and detection systems (if present) and produce it upon request of the code official. If, due to building and housing codes in place at the time of construction a fire alarm and detection system was not required for a building, the applicant shall provide verification of the presence and proper operation of a smoke alarm in each residential rental dwelling unit.

**1110.2 Acceptable documentation shall include:**

**1110.2.1 Fire Extinguishers:** Documentation from a licensed inspector verifying that all fire extinguishers have been inspected in the past twelve (12) months and are in working condition in accordance with the Fire Extinguisher Licensing Act, 59 O.S., Sections 1820.1 *et seq.*, and Fire Extinguisher Industry Rules, OAC 265:50-5-1.

**1110.2.2 Fire Sprinkler Systems and Fire Alarm and Detection Systems:** Documentation from a licensed inspector verifying that each system present in a

residential rental dwelling unit has been inspected and tested in the last twelve (12) months in accordance with the provisions of the Fire Extinguisher Licensing Act, 59 O.S., Sections 1800.1 *et seq.*, and Alarm and Locksmith Industry Rules, OAC 380:75. Documentation must indicate that each system has successfully passed the criteria for a green tag.

**1110.2.3 Smoke Alarms (Dwelling units without fire alarm and detection systems):**

**1110.2.3.1 Option 1:** Documentation from a qualified inspector indicating the presence and proper operation of each smoke alarm in each residential rental dwelling unit. Qualified inspectors shall be approved by the Tulsa Fire Marshal. Inspectors who possess a fire sprinkler or fire alarm license in accordance with the provisions of the Fire Extinguisher Licensing Act are deemed qualified and do not need specific approval by the Fire Marshal.

**1110.2.3.2 Option 2:** Self inspection and certification. A owner may certify the presence and proper operation of each smoke alarm in each building by conducting their own inspection and testing the operation of each device. This information shall be recorded on log sheets that are available from the Fire Marshal's Office. Each log sheet must be signed by the owner or the owner's designated representative.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1111. Light and ventilation standards.

**1111.1 Provision of natural light and ventilation.** Rooms within a residential rental dwelling unit with an exterior wall shall be provided with natural light by means of an exterior glazed opening facing to the outside and natural ventilation by means of an exterior opening vented directly to the outside. If natural ventilation by means of an exterior opening vented to the outside is not provided a mechanical ventilating system shall be provided.

**1111.2 Additional ventilation requirements.** Bathrooms, water closet compartments, laundry rooms and similar rooms in a dwelling unit shall be provided with natural ventilation by means of operable exterior openings. If natural ventilation by means of an exterior opening is not provided a mechanical ventilating system connected directly to the outside shall be provided.

*(Ord. No. 25115, § 1, 8-30-2023)*

## Section 1112. Interior sanitation standards.

The interior of every residential rental dwelling unit shall be kept free from the presence or apparent evidence of insect, rodent or vermin infestation, and shall be maintained free from any unsafe or unsanitary condition such as, but not limited to, excessive moisture, accumulation of garbage, food waste, trash, rubbish, refuse or litter or any condition which would promote or could harbor infestation by insects, rodents, vermin or other noxious pests.

*(Ord. No. 25115, § 1, 8-30-2023)*

**Section 1113. Residential rental dwelling unit interior building standards.**

**1113.1 Structural members.** All structural members, walls, floors, partitions, or ceilings of a residential rental dwelling unit shall be structurally sound and be capable of supporting the imposed loads.

**1113.2 Interior surfaces.** All interior wall and ceiling surfaces of a residential rental dwelling unit shall be maintained in good repair and free from loose plaster, sagging drywall or other defective surface conditions that may cause injury.

**1113.3 Handrails and guardrails.** Every handrail and guardrail of a residential rental dwelling unit shall be firmly fastened and capable of supporting normally imposed loads and shall be maintained in sound condition.

**1113.4 Stairways.** Every interior stairway of a residential rental dwelling unit shall be maintained in a structurally sound condition and free from any broken, rotted, weakened, or missing steps or tripping hazards.

*(Ord. No. 25115, § 1, 8-30-2023)*

**Section 1114. Exterior residential rental dwelling unit building standards.**

**1114.1 Foundations, walls, and roofs.** Every foundation, exterior wall, roof, and all exterior surfaces of a residential rental dwelling unit shall be structurally sound, maintained in a weathertight, watertight condition and vermin proof.

**1114.2 Exterior surfaces.** Exterior surfaces of residential rental dwelling unit and buildings on a residential rental property not naturally resistant to decay shall be treated with a protective coating of paint or other suitable preservative which will provide resistance to weathering and deterioration.

**1114.3 Roof coverings.** Roof coverings and flashings of a residential rental dwelling unit shall be free from any defects that admit rain or cause dampness in the walls or interior portion of the building.

**1114.4 Handrails and guardrails.** Every handrail and guardrail of a residential rental dwelling unit shall be firmly fastened and capable of supporting normally imposed loads and shall be maintained in sound condition.

**1114.5 Stairways and balconies.** Every outside stairway and balcony of a residential rental dwelling unit shall be maintained in sound condition and free from any broken, rotted, or missing steps or tripping hazards.

**1114.6 Doors and windows.** Every door, door frame, window, window frame, locking device and related hardware of a residential rental dwelling unit shall be properly installed and maintained in sound condition. Exterior doors and windows that provide access to a residential rental dwelling shall be equipped with locking devices and shall be maintained in a substantially weathertight condition. Window screening, if present, shall be maintained in good condition free from tears or holes or imperfections of the frame that could admit insects or other vermin.

*(Ord. No. 25115, § 1, 8-30-2023)*

**Section 1115. Residential rental property premises standards.**

**1115.1 Sidewalks and parking lots.** All sidewalks, walkways, parking lots and similar areas on the premises of a residential rental property shall be maintained free from potentially dangerous holes, depressions or projections that are likely to cause tripping or injury to a person or otherwise present a hazardous condition.

**1115.2 Parking areas.** Within any residential zoning district, no person shall park or store any vehicle on the premises of a residential rental property including, but not limited to, watercraft, camper shell, truck camper, or utility trailer in any portion of the side yard unless screened from the street and it is on an all-weather surface.

**1115.3 Drainage.** All premises of a residential rental property shall be maintained to prevent the accumulation of stagnant water when such water may cause an unhealthy or hazardous condition, become a breeding area for insects or cause damage to foundation walls.

**1115.4 Grass and weeds.** All premises of a residential rental property shall be maintained so that grass or weeds shall not attain a height of over twelve (12) inches.

**1115.5 Bushes, trees, and other vegetation.** All premises of a residential rental property shall be kept free from dry or dead bushes, trees, tumbleweeds or other vegetation which create a blighted condition, which may harbor insect or rodent infestations, or which is likely to become a fire hazard or result in a condition which may threaten the health and safety or welfare of occupants or adjacent property owners.

**1115.6 Abandoned or inoperable vehicles and graffiti.** All premises of a residential rental property shall be maintained free of abandoned or inoperable vehicles and graffiti visible from any public right-of-way or visible from any common area of a residential rental property.

**1115.7 Rubbish and debris.** All premises of a residential rental property shall be maintained free from an accumulation of garbage, trash, refuse, rubbish, debris, or other wastes except that which is deposited in proper containers for waste collection, which constitute a hazard to the health and safety of occupants or the public.

**1115.8 Items stored in public view.** No person shall place and/or store furniture, except furniture, sports or play equipment designed and placed for outdoor use, household equipment, appliances, construction or landscape material, cardboard material, plastic material, debris or similar materials in a location that is visible to a person standing upon any public street or sidewalk or any common area of a residential rental property.

**1115.9 Exterior insect control.** All premises of a residential rental property shall be kept free of insect and rodent infestation, other noxious pests, nesting places, and any other unsightly or unsanitary accumulation which could harbor insects, rodents or other vermin, in accordance with Section 309 of this Code

**1115.10 Swimming pools.** All swimming pools, architectural pools and spas of a residential rental property shall be maintained so as not to create a health or safety hazard, harbor insect infestation, be polluted, become stagnant or create a blighted condition. All enclosures, gates and doors shall be installed and properly maintained in accordance with building and housing codes.

**1115.11 Fences, screen walls and retaining walls.** All fences, screening walls and retaining walls on the premises of a residential rental property shall be safe and structurally sound.

**1115.12 Exterior lighting.** All exterior lighting of a residential rental property shall be properly maintained and capable of performing the intended function. Exterior lighting shall include parking, common area and security lighting.

*(Ord. No. 25115, § 1, 8-30-2023)*

# TITLE 56 PLUMBING CODE

## Chapter 1. ICC International Plumbing Code, 2018 Edition, Adopted

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

# CHAPTER 1. ICC INTERNATIONAL PLUMBING CODE, 2018 EDITION, ADOPTED

Section 100. Adoption of the ICC International Plumbing Code, 2018 Edition.
Section 101. Amendments to the ICC International Plumbing Code, 2018 Edition.

## Section 100. Adoption of the ICC International Plumbing Code, 2018 Edition.

A certain document, three (3) copies of which are on file in the Office of the City Clerk of the City of Tulsa, Oklahoma, being marked and designated as the ICC International Plumbing Code, 2018 Edition as published by the International Code Council, Inc. (ICC) is hereby adopted as a part of the Tulsa Revised Ordinances, hereinafter the "Plumbing Code of the City of Tulsa," for the control of plumbing standards serving buildings and structures except detached one- and two-family dwellings and townhouses not more than three (3) stories above grade plane in height with a separate means of egress and whose accessory structures shall comply with Tulsa Revised Ordinances, Title 51 Chapter 2. Each and all of the regulations, provisions, penalties, terms, and conditions of the ICC International Plumbing Code, 2018 Edition are hereby referred to, adopted, and made a part hereof as if fully set out in this chapter, with the amendments thereto, if any, as prescribed in Section 101 of this chapter and, as used in this chapter, may be referred to as the "code."

*(Ord. Nos. 18096, 19011, 20428; Ord. No. 21990, § 1, 1-16-2009; Ord. No. 22757, § 1, 9-20-2012; Ord. No. 23003, § 1, 12-12-2013; Ord. No. 23398, § 1, 10-29-2015; Ord. No. 24893, § 1, 8-24-2022)*

## Section 101. Amendments to the ICC International Plumbing Code, 2018 Edition.

The following sections of the ICC International Plumbing Code, 2018 Edition, are hereby added or amended to read as follows:

**101.1 Title - Amendatory.** These regulations shall be known as the "Plumbing Code of the City of Tulsa, Oklahoma," hereinafter referred to as the "Plumbing Code," or "this code."

**102.8.3 Highest Standard Governs - Added.** Nothing in this code shall be construed to prevent the enforcement of other ordinances or local regulations which prescribe higher plumbing standards than those which are provided herein.

**102.12 Outside of City - Added.** All the provisions of this code shall apply to persons, firms, or corporations doing plumbing work outside the City of Tulsa if such work is connected or to be connected, directly or indirectly, with the waterworks system of the City of Tulsa or to any sewer emptying, directly or indirectly, into the sewer system of the City of Tulsa.

**103.1 Authority Having Jurisdiction - Amendatory.** Pursuant to Title 11, Tulsa Revised Ordinances, Chapter 2, the Director of Planning and Development Department, or the Director's designated representative, as provided for by Title 51, Section 103.2 Tulsa Revised Ordinances, shall direct the administration of the Plumbing Code of the City of Tulsa.

**106.1 When required - Amendatory.** Any contractor who desires to construct, enlarge, alter, repair, move, demolish or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any

plumbing system, the installation of which is regulated by this code, or to cause any such work to be performed, shall first make application to the code official and obtain the required permit for the work.

**Exception:** Where equipment replacements and repairs must be performed in an emergency situation, the permit application shall be submitted within the next working business day.

**106.1.1 Annual Permit - Amendatory.** An annual permit is a yearly permit which represents a group of individual permits for each alteration to an already existing electrical, gas, mechanical or plumbing installation. The building official is authorized to issue an annual permit upon application therefor to any person, firm or corporation regularly employing one or more qualified tradespersons in the building, structure or on the premises owned or operated by the applicant for the permit.

**106.1.2 Annual Permit records - Amendatory.** The person to whom an annual permit is issued shall keep a detailed record of alterations made under such annual permit. The building official shall have access to such detailed records of alterations at all times. At the completion of the entity's annual permit term, the applicant shall file such detailed records of alterations with the building official. Pursuant to the authority of 59 O.S. § 1000.25, the building official shall collect fees for each individual permit which is part of the annual permit once the detailed records are submitted and remit such fees to the OUBCC.

**106.1.3 Tulsa Revised Ordinances, Title 50 - Added.** Annual permits shall be issued in accordance with Tulsa Revised Ordinances, Title 50.

**106.1.4 Separate Permit Required - Added.** A separate permit shall be required for each building within a complex and for each water meter when there is a multi-meter installation on a single building.

**106.6.1 Work Commencing Before Permit Issuance - Amendatory.** Any person who commences work on a plumbing system before obtaining the necessary permits shall be subject to penalty fees established in Title 49, Tulsa Revised Ordinances.

**106.6.2 Fee Schedule - Amendatory.** Permit and inspection fees for all plumbing work shall be in accordance with the schedule established in Title 49, Tulsa Revised Ordinances.

**106.6.3 Fee Refunds - Amendatory.** Fee refunds for all plumbing work shall be in accordance with the schedule established in Title 49, Tulsa Revised Ordinances.

**108.4 Violation Penalties - Amendatory.** Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter or repair plumbing work in violation of the approved construction documents or directive of the code official, or of a permit or certificate issued under the provisions of this code, shall be guilty of a misdemeanor offense, punishable by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00) or by imprisonment not exceeding six (6) months, or both such fine and imprisonment. Each day, or portion thereof, that a violation continues shall be deemed a separate offense.

**108.5 Stop Work Orders - Amendatory.** Upon notice from the code official, work on any plumbing system that is being done contrary to the provisions of this code or in a dangerous or unsafe manner shall immediately cease. Such notice shall be in writing and shall be given to the owner of the property, or to the owner's agent, or to the person

doing the work. The notice shall state the conditions under which work is authorized to resume. Where an emergency exists, the code official shall not be required to give a written notice prior to stopping the work. Any person who shall continue any work in or about the structure after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be guilty of a misdemeanor offense, and, upon conviction, shall be punished by a fine of no more than One Thousand Two Hundred Dollars ($1,200.00), excluding costs, fees, and assessments, or by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day, or portion thereof, that a violation continues after due notice has been served shall be deemed a separate offense.

**108.8 Fine Not Exclusive Penalty - Added.** The penalties herein prescribed shall not be exclusive and shall not prevent independent action by the Board of Appeals as established by Title 51, Chapter 1, Tulsa Revised Ordinances, to suspend or revoke the Certificate of Registration of any person, subject to the provisions of this code, and shall not prevent the City of Tulsa or its authorized officials from taking other action authorized by law to remedy the violation.

**SECTION 109 Means of Appeal - Amendatory.** Appeals of orders, decisions or determinations made by the code official relative to the application and interpretation of this code shall be made to the Board of Appeals as established by Title 51, Chapter 1, Tulsa Revised Ordinances.

**SECTION 111 Registration of Plumbing Contractors - Added.**

**111.1 General - Added.** No person, firm, or corporation shall be issued a permit, engage or offer to engage in, by advertisement or otherwise, any plumbing business, or do any plumbing work in the City of Tulsa, unless such person, firm, or corporation has registered with the City of Tulsa as herein provided. All contractors, journeymen, and apprentices shall carry on their person, at all times while performing plumbing work within the City of Tulsa, their state license and shall display the same upon request from the code official or a police officer of the City of Tulsa.

No person issued a contractor's license shall employ or supervise persons performing plumbing work unless those persons are licensed as provided herein. Nor shall any apprentice perform plumbing work unless the apprentice is directly supervised by a licensed plumbing contractor or journeyman.

**111.2 Requirements for Registration - Added.** No person, firm, or corporation shall be issued a Certificate of Registration until furnishing proof of a current State of Oklahoma Contractor license, issued under the provisions of 59 O.S. 2001," 1001, et seq., as amended, and paying the fees required by Tulsa Revised Ordinances, Title 49.

**111.3 Transfer of Registration Prohibited - Added.** No person, firm, or corporation shall allow his or its name to be used by any other person, firm, or corporation to obtain any permit for or do any work under his or its Certificate of Registration.

**111.4 Registration after Revocation - Added.** No person, firm, or corporation shall be permitted to obtain a new Certificate of Registration within one (1) year from the date of revocation of any prior registration.

**111.5 Registration Fees - Added.** Fees shall be charged for registration of state licensed plumbing contractors, in accordance with Title 49, Tulsa Revised Ordinances.

**111.6 Expiration of Registration - Added.** Registrations of state licensed plumbing contractors shall expire each year on the last day of the birth month of the registered individual.

**111.7 Identification of Service Vehicles - Added.** Every contractor shall identify all service vehicles used in his business with the company name and contractor's license number. Such identification shall be placed on both sides of all vehicles in letters and numbers no less than two (2) inches high and of a contrasting color.

**111.8 Suspension or Revocation of Certificates of Registration - Added.** Certificates of Registration issued pursuant to this Code may be suspended or revoked by the Board of Appeals in accordance with Title 51, Chapter 1, Tulsa Revised Ordinances.

**SECTION 202 General Definitions - Amendatory.**

**Building Drain - Amendatory.** That part of the lowest piping of a drainage system that receives the discharge from soil, waste, and other drainage pipes inside and that extends 5 feet (1524 mm) in developed length of pipe beyond the exterior walls of the building and conveys the drainage to the building sewer.

**305.3 Pipes through foundation walls - Amendatory.** Any pipe that passes through a foundation wall shall be provided with a relieving arch or a pipe sleeve built into the foundation wall. The relieving arch or pipe sleeve shall conform to one of the materials and standards listed in Title 702.2, or as approved. The sleeve shall be two pipe sizes greater than the pipe passing through the wall.

**305.4 Freezing - Amendatory.** Water, soil and waste pipes shall not be installed outside of a building, in attics or crawl spaces, concealed in outside walls, or in any other place subjected to freezing temperatures unless adequate provision is made to protect such pipes from freezing by insulation or heat or both. Exterior water supply system piping shall be installed not less than 6 inches (152 mm) below the frost line and not less than twenty-four (24) inches below grade.

**305.4.1 Sewer depth - Amendatory.** Building sewers that connect to private sewage disposal systems shall be a minimum of 12 inches (305 mm) below finished grade at the point of septic tank connection or as approved by the authority having jurisdiction. Building sewer lines shall be a minimum of 12 inches (305 mm) below grade.

**305.6 Protection against physical damage.** In concealed locations, where piping, other than cast-iron or galvanized steel, is installed through holes or notches in studs, joists, rafters or similar members less than 1 and one-half inches (38 mm) from the nearest edge of the member, the pipe shall be protected by steel shield plates. Such shield plates shall have a thickness of not less than 0.0575 inch (1.463 mm) (No. 16 gage). Such plates shall cover the area of the pipe where the member is notched or bored, and shall extend not less than 2 inches (51 mm) above sole plates and below top plates.

**312.2 Drainage and Vent Water Test - Amendatory.** A water test shall be applied to the drainage system either in its entirety or in sections. If applied to the entire system, all openings in the piping shall be tightly closed, except the highest opening, and the system shall be filled with water to the point of overflow. If the system is tested in sections, each opening shall be tightly plugged except the highest openings of the section under test, and each section shall be filled with water, but no section shall be

tested with less than a 5-foot (1524 mm) head of water. In testing successive sections, at least the upper 5 feet (1524 mm) of the next preceding section shall be tested so that no joint or pipe in the building, except the uppermost 5 feet (1524 mm) of the system, shall have been submitted to a test of less than a 5-foot (1524 mm) head of water. This pressure shall be held for at least 15 minutes. The system shall then be tight at all points.

**312.3 Drainage and vent air test - Amendatory.** Plastic piping shall not be tested using air. An air test shall be made by forcing air into the system until there is a uniform gauge pressure of 2.5 psi (17.25 kPa) or sufficient to balance a 5-inch (127 mm) column of mercury. This test shall be held for a period of not less than 15 minutes. Any adjustments to the test pressure required because of changes in ambient temperatures or the seating of gaskets shall be made prior to the beginning of the test period.

**312.6 Gravity Sewer Test - Amendatory.** Where required, gravity sewer tests shall consist of plugging the end of the building sewer at the point of connection with the public sewer, filling the building sewer with water, testing with not less than a 5-foot (1024 mm) head of water and maintaining such pressure for 15 minutes.

**312.10.1 Inspections - Amendatory.** Annual inspections shall be made of all backflow assemblies and air gaps to determine whether they are operable, in accordance with Chapter 1, Sections 104.3 and 105.3.2.

**314.2.1 Condensate disposal.** Condensate from all cooling coils and evaporators shall be conveyed from the drain pain outlet to an approved place of disposal. Such piping shall maintain a horizontal slope in the direction of discharge of not less than one-eighth unit vertical in 12 units horizontal (1-percent slope). Condensate drains shall be allowed to terminate to an approved pit or French drain consisting of a minimum of 24 inches by 24 inches by 24 inches (610 mm by 610 mm by 610 mm), or equivalent; of 1 inch (25 mm) washed rock. Such pits or French drains shall be located 30 inches (762 mm) minimum from outer edge of foundation to nearest edge of pit or French drain. Condensate shall not discharge into a street, alley or other areas so as to cause a nuisance

**314.2.3.1 Water-level monitoring devices.** On down-flow units and all other coils that do not have a secondary drain or provisions to install a secondary or auxiliary drain pan, a water-level monitoring device shall be installed inside the primary drain pan. This device shall shut off the equipment served in the event that the primary drain becomes restricted. Devices installed in the drain line shall not be permitted. **Exception:** This section shall not apply to appliances installed in areas outside on the ground or elevated structure where condensate overflow will not damage building components or contents.

**403.4.1 Directional signage.** Directional signage indicating the route to the required public toilet facilities in Group A, B, I, M, and R-1 occupancies shall be posted in a lobby, corridor, or aisle, or similar space, such that the sign can be readily seen from the main entrance to the building or tenant space. Only one sign at each main entrance that is intended for public use shall be required.

**Exceptions:** (A) Group A occupancies that are part of an overall Group E occupancy need not have directional signage. (B) Private-use Group B occupancies need not have directional signage.

**405.9 Slip Joint Connections - Amendatory.** Slip joints shall be made with an approved elastomeric gasket and shall only be installed from fixture outlet to within 18 inches (457 mm) downstream of trap outlet seal. Fixtures with concealed slip-joint connections shall be provided with an access panel or utility space at least 12 inches (305 mm) in its smallest dimension or other approved arrangement so as to provide access to the slip joint connections for inspection and repair.

**408.2 Water connection.** The water supply to a bidet shall be protected against backflow by an air gap or backflow preventer in accordance with Section 608.14.1, 608.14.2, 608.14.3, 608.14.5, or 608.14.6.

**410.4 Substitution.** Where restaurants provide drinking water in a container free of charge, drinking fountains shall not be required in those restaurants. In occupancy Group B, F, M, I-4 and S, with an occupant load less than 50, where drinking fountains are required, a water dispenser connected to the potable water distribution system shall be permitted to be substituted for the required drinking fountain. In occupancies other than restaurants where drinking fountains are required, water dispensers shall be permitted to be substituted for not more than 50 percent of the required number of drinking fountains.

**604.5 Size of fixture supply - Amendatory.** The minimum size of a fixture supply pipe shall be as shown in Table 604.5. The fixture supply pipe shall terminate not more than 30 inches (762 mm) from the point of connection to the fixture. A reduced size flexible water connector installed between the supply pipe and the fixture shall be of an approved type. The supply pipe shall extend to the floor or wall adjacent to the fixture. The minimum size of individual distribution lines utilized in gridded or parallel water distribution systems shall be as shown in Table 604.5.

**Exception:** The fixture supply pipe for domestic dishwashers and drinking fountains shall be permitted to be terminated more than 30 inches (762 mm) from the point of connection to the fixture.

**608.16.4 Protection by a vacuum breaker.** Openings and outlets shall be protected by atmospheric-type or pressure-type vacuum breakers. The vacuum breaker has a critical level installation height of not less than 12 inches (305 mm) above the highest elevation of downstream piping and flood level rim of the fixture of device. Fill valves shall be set in accordance with Section 415.3.1. Vacuum breakers shall not be installed under exhaust hoods or similar locations 10 that will contain toxic fumes or vapors. Pipe applied vacuum breakers shall be installed not less than 6 inches (152 mm) above the flood level rim of the fixture, receptor, or device served.

**608.17.5 Connections to Lawn Irrigation Systems - Amendatory.** The potable water supply to lawn irrigation systems shall be protected against backflow by an atmospheric-type vacuum breaker, a pressure-type vacuum breaker assembly, a spill resistant backflow preventer or a reduced pressure principle backflow preventer. A valve shall not be installed downstream from an atmospheric vacuum breaker. Where chemicals are introduced into the system, the potable water supply shall be protected against backflow by a reduced pressure principle backflow preventer assembly.

**701.2.1 Public System Availability - Added.** Availability of the public sewer system to any premise shall be determined by the Development Services Division of the City of Tulsa.

**705.10.2 Solvent cementing.** Joint surfaces shall be clean and free from moisture. A purple primer that conforms to ASTM F 656 shall be applied. Solvent cement not purple in color and conforming to ASTM D 2564, CSA B137.3, CSA B181.2 or CSA B182.1 shall be applied to all joint surfaces. The joint shall be made while the cement is wet and shall be in accordance with ASTM D 2855. Solvent-cement joints shall be permitted above or below ground.

**705.10.2 Solvent Cementing - Amendatory.** Joint surfaces shall be clean and free from moisture. A purple primer that conforms to ASTM F 656 shall be applied. Solvent cement not purple in color and conforming to ASTM D 2564, CSA B137.3, CSA B181.2 or CSA B182.1 shall be applied to all joint surfaces. The joint shall be made while the cement is wet and shall be in accordance with ASTM D 2855. Solvent-cement joints shall be permitted above or below ground.

**708.1.3 Building Drain and Building Sewer Junction - Amendatory.** The junction of the building drain and the building sewer shall be served by a cleanout that is located at the junction or within 12 feet (3658 mm) of the developed length of piping upstream of the junction. For the requirements of this section, the removal of the water closet shall not be required to provide cleanout access.

**801.1 Scope, Exception—Food Handling - Added.** Section 801.1 of the ICC International Plumbing Code, 2018 edition, is amended to provide the following exception: Plumbing in all food handling facilities shall comply with Title 17, Tulsa Revised Ordinances, Tulsa City County Health Department Food Code and meet the Inspection Code.

**802.1 Where required.** Foodhandling equipment, in other than dwelling units, clear-water waste, humidifiers, dishwashing machines and utensils, pots, pans and dishwashing sinks shall discharge through an indirect waste pipe as specified in Sections 802.1.1 through 802.1.7. Fixtures not required to be indirectly connected by this section and the exception to Section 301.6 shall be directly connected to the plumbing system in accordance with Chapter 7.

**903.1 Roof Extension - Amendatory.** Open vent pipes that extend through a roof shall be terminated not less than 10 inches (254 mm) above the roof. Where a roof is to be used for assembly or as a promenade, observation deck, sun bathing deck or similar purposes open vent pipes shall terminate not less than 7 feet (2134 mm) above the finished occupiable surface within 10 feet (3048 mm) horizontal distance.

**919.1 General.** Engineered vent systems shall comply with this section and the design, submittal, approval, inspection and testing requirements of Section 316.

**1003.4 Oil Separators required - Amendatory.** At repair garages where floor or trench drains are provided, car washing facilities, factories where oily and flammable liquid wastes are produced and hydraulic elevator pits, oil separators shall be installed into which oil-bearing, grease-bearing or flammable wastes shall be discharged before emptying into the building drainage system or other point of disposal.

**Exceptions:**

**(1)** An oil separator is not required in hydraulic elevator pits where an approved alarm system is installed. Such alarm systems shall not terminate the operation of pumps utilized to maintain emergency operation of the elevator by fire fighters.

**(2)** Oil separators shall not be required in a non-hydraulic elevator pit.

**1101.7 Roof design - Amendatory.** Roofs shall be designed for the maximum possible depth of water that will pond thereon as determined by the relative levels of roof deck and overflow weirs, scuppers, edges or serviceable drains in combination with the deflected structural elements. In determining the maximum possible depth of water, all primary roof drainage means shall be assumed to be blocked. The maximum possible depth of water on the roof shall include the height of the water required above the inlet of the secondary roof drainage means to achieve the required flow rate of secondary drainage means to accommodate the design rainfall rate as required by Section 1108.

**1101.9 Backwater valves.** Storm drainage systems shall be provided with backwater valves as required for sanitary drainage systems in accordance with Section 714.

**TABLE 1108.1 SIZE OF SECONDARY SCUPPERS FOR A 10.2-INCH PER HOUR RATE OF RAINFALL**

| *HEAD IN INCHES* | *HORIZONTALLY PROJECTED ROOF AREA (SQUARE FEET)* | | | | | | |
|---|---|---|---|---|---|---|---|
| | *LENGTH OF WEIR IN INCHES* | | | | | | |
| | *4* | *6* | *8* | *12* | *16* | *20* | *24* |
| 1 | 112 | 169 | 226 | 339 | 452 | 565 | 678 |
| 2 | 314 | 471 | 628 | 942 | 1256 | 1571 | 1885 |
| 3 | 565 | 848 | 1130 | 1696 | 2262 | 2828 | 3393 |
| 4 | 879 | 1319 | 1759 | 2637 | 3519 | 4399 | 5279 |

For SI: 1 inch = 25.4

**Notes:**

1. To adjust this table for other than a 10.2-inch design rainfall rate multiply the square footage on the table by 10.2 then divide by the design rainfall rate.
2. This table does not apply to scuppers with a vertical opening height that is less than the head height.

**Example:** For 4 inches of design rainfall rate, a 4 - inch longer scupper with a 1 - inch head would accommodate 286 square feet. (112 × 10.2)/4 = 286.

**1108.3 Sizing of Secondary Drains - Amendatory.** Secondary (emergency) roof drain systems and emergency scuppers shall be sized in accordance with Section 1106 except the design shall be based on a rainfall rate of 10.2 inches per hour. Scuppers shall be sized to prevent the depth of ponding water from exceeding that for which the roof was designed as determined by Section 1101.7. Scuppers shall not have an opening dimension of less than 4 inches (102 mm). The flow through the primary system shall not be considered when sizing the secondary roof drain system or secondary scuppers.

**1301.9.5 Overflow - Amendatory.** The storage tank shall be equipped with an overflow pipe having a diameter not less than that shown in Table 606.5.4. The overflow pipe shall be protected from insects or vermin and shall discharge in a manner consistent with storm water runoff requirements of the jurisdiction. The overflow pipe shall discharge at a sufficient distance from the tank to avoid damaging the tank foundation or the adjacent property. Drainage from overflow pipes shall be directed to prevent freezing on walkways. The overflow drain shall not be equipped with a shutoff valve. A cleanout shall be provided on each overflow pipe in accordance with Section 708.

**IPC® 2018 Chapter 15 Referenced Standards - Amendatory.** Chapter 15 of the IPC 2018 is adopted with the following modifications:

IBC® 18 International Building Code® as adopted and modified by the State of Oklahoma through the OUBCC.

IECC®-06 International Energy Conservation Code®.

1FC® 18 International Fire Code® as adopted and modified by the State of Oklahoma through the OUBCC.

IMC® 18 International Mechanical Code® as adopted and modified by the State of Oklahoma through the OUBCC.

IFGC® 18 International Fuel Gas Code® as adopted and modified by the State of Oklahoma through the OUBCC.

IRC® 15 International Residential Code® as adopted and modified by the State of Oklahoma through the OUBCC.

NFPA 70-14 National Electrical Code® as adopted and modified by the State of Oklahoma through OUBCC.

## CHAPTER 1. ICC INTERNATIONAL MECHANICAL CODE, 2018 EDITION

Section 100. Adoption of the ICC International Mechanical Code, 2018 Edition.
Section 101. Amendments to the ICC International Mechanical Code, 2018 Edition.

### Section 100. Adoption of the ICC International Mechanical Code, 2018 Edition.

A certain document, three (3) copies of which are on file in the Office of the City Clerk of the City of Tulsa, Oklahoma, being marked and designated as the *ICC International Mechanical Code*, 2018 Edition, as published by the *International Code Council* (ICC), is hereby adopted as a part of the Tulsa Revised Ordinances, hereinafter the "Mechanical Code," for the design, installation, alteration and inspections of mechanical systems serving buildings and structures except detached one- and two-family dwellings and townhouses not more than three (3) stories above grade plane in height with a separate means of egress and whose accessory structures shall comply with Tulsa Revised Ordinances, Title 51 Chapter 2. Each and all of the terms, conditions, regulations, provisions, and penalties of the *ICC International Mechanical Code,* 2018 Edition, are hereby referred to, adopted and made a part of the Tulsa Revised Ordinances as if fully set out in this title, with amendments, if any, as prescribed in Section 101 of this chapter and, as used in this Chapter 1, may be referred to as the "code."

*(Ord. No. 23436, § 1, 2-11-2016; Ord. No. 24894, § 1, 8-24-2022)*

### Section 101. Amendments to the ICC International Mechanical Code, 2018 Edition.

The following provisions of the *ICC International Mechanical Code*, 2018 Edition, are hereby added, deleted, or amended to read as follows:

**Chapter 1 — Administration**

**Section 101.1 Title—Amendatory.** This code shall be known as the "Mechanical Code of the City of Tulsa," and may be cited as the "Mechanical Code," or in this title as "this code."

**SECTION 103. OFFICE OF MECHANICAL INSPECTION—Amendatory**

**103.1 Authority Having Jurisdiction—Amendatory.** Pursuant to Title 11, Tulsa Revised Ordinances, Chapter 2, the Director of Planning and Development, or the Director's designated representative, as provided by Title 51, Chapter 1, Section 103.2, Tulsa Revised Ordinances, shall direct the administration of the Mechanical Code of the City of Tulsa.

**106.1 When Required—Amendatory.** A contractor who desires to erect, install, enlarge, alter, repair, remove, convert, or replace a mechanical system, the installation of which is regulated by this code, or to cause such work to be done, shall first make application and obtain the required permit for the work.

**Exception:** Where equipment replacements and repairs must be performed in an emergency situation, the permit application shall be submitted within the next working business day.

**106.1.1 Annual Permit—Amendatory.** An annual permit is a yearly permit which represents a group of individual permits for each alteration to an already existing electrical, gas, mechanical or plumbing installation. The building official is authorized

to issue an annual permit upon application therefor to any person, firm or corporation regularly employing one or more qualified tradespersons in the building, structure or on the premises owned or operated by the applicant for the permit.

**106.1.2 Annual permit records—Amendatory.** The person to whom an annual permit is issued shall keep a detailed record of alterations made under such annual permit. The building official shall have access to such detailed records of alterations at all times. At the completion of the entity's annual permit term, the applicant shall file such detailed records of alterations with the building official. Pursuant to the authority of 59 O.S. § 1000.25, the building official shall collect fees for each individual permit which is part of the annual permit once the detailed records are submitted and remit such fees to the OUBCC.

**106.1.3 Tulsa Revised Ordinances, Title 50—Added.** Annual permits shall be issued in accordance with Tulsa Revised Ordinances, Title 50.

**106.1.4 Air Compressor and Tank Permits—Added.** Permits for air compressors and tanks only, excluding piping for air distribution, may be issued to the owner or lessee, or the agent of either, of a building or structure in which the air compressors or tanks are to be installed, or to the contractor employed to perform the work.

**106.1.5 Separate Permit Required—Added.** A separate permit shall be required for each building within a complex and for each gas meter, when there is a multi-meter installation on a single building.

**106.1.6 City Owned Property—Added.** Buildings and structures owned by the City of Tulsa which are located inside or outside the corporate limits of the City, shall comply with the requirements of this code and require a permit for mechanical work.

**106.3 By Whom Application is Made—Amendatory.** No mechanical permit shall be issued to any person, firm, limited liability company, or corporation until such person, firm, limited liability company, or corporation has received a Certificate of Registration appropriate for the work contemplated.

**106.5.1 Work Commencing Before Permit Issuance—Amendatory.** Any person who commences work on a mechanical system before obtaining the necessary permits shall be subject to penalty fees established in Title 49, Tulsa Revised Ordinances.

**106.5.2 Fee Schedule—Amendatory.** Permit and inspection fees for all mechanical work shall be in accordance with the schedule established in Title 49, Tulsa Revised Ordinances.

**107.3.4 Carbon Monoxide Testing—Added.** When tests for carbon monoxide are required, tests shall be performed by an approved testing agency. The test results and other data necessary, shall be furnished to the code official and the code official shall determine conformance with this code.

**108.4 Violation Penalties—Amendatory.** Any person violating any of the provisions of this code shall be guilty of a misdemeanor offense and, upon conviction thereof, shall be punished by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00), excluding cost, fees, and assessments or by imprisonment in the City Jail for a period not exceeding six (6) months, or by both such fine and imprisonment. Each day or portion of a day that a violation continues shall be deemed a separate offense.

**108.7.4 Fine Not Exclusive Penalty—Added.** The penalties prescribed in this code shall not be exclusive or prevent independent action by the Board of Appeals as created

and provided in Title 51, Chapter 1, Tulsa Revised Ordinances to suspend or revoke the Certificate of Registration of any person subject to this code, and shall not prevent the City of Tulsa, or its authorized officials, from taking other action authorized by law to remedy the violation.

**SECTION 109. MEANS OF APPEAL—Amendatory.** Appeals of orders, decisions or determinations made by the code official relative to the application and interpretation of this code, shall be made to the Board of Appeals as established by Title 51, Chapter 1, Tulsa Revised Ordinances.

**SECTION 111.0. REGISTRATION OF MECHANICAL CONTRACTORS—Added.**

**111.1 General—Added.** No person, firm, limited liability company, or corporation shall be issued a permit, engage or offer to engage in, by advertisement or otherwise, any mechanical work in the City of Tulsa as a contractor unless such person, firm, limited liability company, or corporation has properly registered with the City of Tulsa. All contractors, journeymen, and apprentices shall carry their state license on their person at all times while performing mechanical work within the City of Tulsa and shall display the same upon request from the code official or a police officer of the City of Tulsa. No person issued a contractor's license shall employ or supervise persons performing mechanical work unless those person(s) are licensed or allow any apprentice to perform mechanical work unless the apprentice shall have direct supervision by a properly licensed person.

**111.2 Requirements for Registration—Added.**

**A. State Licensees.** Any person, firm, limited liability company, or corporation holding a current state of Oklahoma license or registration issued under the provisions of 59 O.S. Supp. 2005, §§ 1850.1, et seq., as amended, shall be issued a Certificate of Registration after paying the fees required by this code.

**B. City of Tulsa Licensees.** Any person, firm, or corporation holding a current City of Tulsa License or registration issued under the provisions of this ordinance shall be issued a Certificate of Registration after paying the fees as set forth in Title 49, Tulsa Revised Ordinances.

**C. Boiler Repair Contractor.** No person, firm, limited liability company, or corporation shall be registered as a Boiler Repair Contractor unless he shall have furnished proof of the issuance of a current State Department of Labor Boiler Repair Contractor's License issued under the provisions of the Oklahoma Boiler and Pressure Vessel Safety Act, 40 O.S. Supp. 2005, §§ 141.1, et seq. as amended, and shall have paid the required fees as set forth in Title 49, Tulsa Revised Ordinances.

**111.3 Expiration of Registration—Added.** Registration of state licensed contractors shall expire on the last day of their birth month of each year. Certificates of Registration, which have not been renewed thirty (30) days after expiration, shall not be renewed until the applicant possesses the state license referenced in Subsection 111.2.A of this code.

**111.4 Transferor Registration Prohibited—Added.** Certificates of Registration shall be nontransferable.

**111.5 Registration after Revocation—Added.** No person, firm, limited liability company, or corporation shall be permitted to obtain a new registration within one (1) year from the date of revocation of any prior registration.

**111.6 Identification of Service Vehicles—Added.** Every contractor shall identify all service vehicles used in the contractor's business with the company name and contractor's license number. Such letters and numbers shall be not less than two (2) inches in height, shall be of a contrasting color, and shall be placed on both sides of all vehicles.

**111.7 Suspension or Revocation of Certificates of Registration—Added.** Certificates of Registration may be suspended or revoked by the Board of Appeals as provided in Title 51, Chapter 1, Tulsa Revised Ordinances.

**112.0 Exemptions—Added.**

**A.** None of the technical provisions of this code shall apply to internal systems of factory-assembled package units as have been examined and rated by an approved testing laboratory or industry standards association, listed in *ICC International Mechanical Code*, 2015 Edition, Chapter 15, "Referenced Standards," as being suitable for their intended use. Alteration of any portion of such units subsequent to the aforementioned approval shall subject the entire unit to inspections by the code official and such further alteration as he may require to secure compliance with the intent of this code. Factory-assembled "plug-in" appliances are hereby exempted from the provisions of this code. Installation of gas lights or gas grills shall require a permit and the payment of the fee specified for gas-fired appliances to enable the inspector to check the location where installed for compliance with setback and other zoning requirements.

**B.** The licensing requirements of this code shall not apply to public utilities, public service corporations, rural electric associations or municipal utilities and their subsidiaries doing work on their own facilities or during the performance of energy audits, operational inspections, minor maintenance, or minor repairs on their own equipment.

**Chapter 2 - Definitions**

**202.0 General Definitions— Amendatory.**

In addition to the definitions contained in Section 202 of the *ICC International Mechanical Code*, 2018 Edition, the following words and terms shall, for the purposes of this title, have the meanings indicated in this Section 202.0:

**Apprentice.** Any person engaged in the work of installing, altering, or repairing equipment or apparatus regulated within the City of Tulsa, who is working under the direct personal supervision of a contractor or journeyman and subject to the limitations provided in this code.

**Combustible Material.** Any material not defined as noncombustible. Materials adjacent to or in contact with heat-producing appliances, vent connectors, gas vents, chimneys, steam and hot water pipes, and warm air ducts made of or surfaced with wood, compressed paper, plant fibers, or other materials that are capable of being ignited and burned. Such material shall be considered combustible even though flame proofed, fire-retardant treated, or plastered.

**Installation.** The initial physical placement of a system at a given location and the readying of same for use or service.

**Maintenance.** Wherever in this code any person is authorized to maintain any mechanical equipment, such authority shall be limited to the performance of repairs designed to avoid shut-downs. In regard to any installations incidental to maintaining such equipment in a running condition, such installations shall be confined to the replacement of parts broken, worn or defective, of a nature contained in or upon major units, and shall not permit the operator to install units, compressors, or any major portion of such equipment, nor shall such persons be permitted to perform any work in or upon such equipment which would by reason of the extent of such repairs, in fact, constitute a reinstallation.

**Mechanical Equipment and Apparatus.** All types of air conditioning, including heating equipment and refrigeration equipment, including but not limited to furnaces, boilers, gas-fired appliances and piping, ventilating apparatus, incinerators, pressure vessels, and all related fittings, vents, duct work, and safety or regulating devices.

**Public Occupancy.** Public occupancy shall mean open to public use by license or invitation. The term shall not mean:

**1.** Occupancy by custodial, building maintenance, or security personnel; or

**2.** Occasional occupancy by employees, tenants, and their invitees after normal working hours.

**Chapter 3 - General Regulations**

**301.15 Wind resistance—Amendatory.** Mechanical equipment, appliances and supports that are exposed to wind shall be designed and installed to resist the wind pressures determined in accordance with the International Building Code, SMACNA HVAC Duct Construction Standards - Metal and Flexible, and other approved methods.

**304.11 Guards—Amendatory.** Guards shall be provided where various components that require service are located on a roof or elevated structure and have a condition as set forth in Sections 304.11.1 through 304.11.3. The top of the guard shall be located not less than 42 inches (1067 mm) above the elevated surface adjacent to the guard. The guard shall be constructed so as to prevent the passage of a 21-inch diameter (533 mm) sphere and shall comply with the loading requirements for guards as specified in the International Building Code. Guards shall be provided at new components when added or replaced on an existing roof or elevated structure and have a condition as set forth in Sections 304.11.1 through 304.11.3.

**Exception:** When approved by the authority having jurisdiction, guards are not required where permanent fall arrest/restraint anchorage connector devices that comply with ANSI/ASSE Z 359.1 are affixed for use during the entire roof covering lifetime. The devices shall be reevaluated for possible replacement when the entire roof covering is replaced. The devices shall be placed no more than 10 feet (3048 mm) on center along hip and ridge lines and placed not less than 10 feet (3048 mm) from roof edges and the open sides of walking surfaces.

**304.11.1 Roof edge—Added.** Guards complying with Section 304.11 shall be provided when components are located within 10 feet (3048 mm) of a roof edge or open side of a

walking surface or elevated structure and such edge or open side is located more than 30 inches (762 mm) above the floor, roof, or grade below. The guard shall extend not less than 30 inches (762 mm) beyond each end of the component that requires service.

**304.11.2 Skylights—Added.** Guards complying with Section 304.11 shall be provided when a skylight is within 10 feet (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the skylight.

**Exceptions:**

**(A)** Guards are not required when the skylight is located at least 42 inches (1067 mm) above the highest point of the walking surface adjacent to the skylight or components.

**(B)** Guards are not required if some other provision for skylight fall-through protection is provided and approved by the authority having jurisdiction.

**304.11.1 Roof hatch—Added.** Guards complying with Section 304.11 shall be provided when a roof hatch is within 10 feet (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the roof hatch. If the component is within 10 feet (3048 mm) of the ladder access side of the roof hatch, the guard shall incorporate a self-closing, self-latching gate. The gate shall have a top edge of not less than 42 inches (1067 mm) above the elevated surface adjacent to the gate and shall not allow the passage of a 21 inch (533 mm) sphere. If a roof hatch exists within 10 feet of a roof edge that is located more than 30 inches (762 mm) above the floor, roof or grade below and a new component that requires services on that existing roof or elevated structure, then a guard complying with Section 304.11 shall be added between the existing roof hatch and the roof edge.

**305.5.1 Location and protection of refrigerant piping—Added.** Refrigerant piping installed within 1½ inches (38 mm) of the underside of roof decks shall be protected from damage caused by nails and other fasteners.

**306.5 Equipment and appliances on roofs or elevated structures—Amendatory.** Where equipment requiring access or appliances are located on an elevated structure or the roof of a building such that personnel will have to climb higher than 16 feet (4877 mm) above grade to access such equipment or appliances, an interior or exterior means of access shall be provided. Such access shall not require climbing over obstructions greater than 30 inches (762 mm) in height or walking on roofs having a slope greater than 4 units vertical in 12 units horizontal (33-percent slope). Such access shall not require the use of portable ladders. Where access involves climbing over parapet walls, the height shall be measured to the top of the parapet wall.

**(A)** Permanent ladders installed to provide the required access shall comply with the following minimum design criteria:

**(i)** The side railing shall extend above the parapet or roof edge not less than 30 inches (762 mm).

**(ii)** Ladders shall have rung spacing not to exceed 14 inches (356 mm) on center. The uppermost rung shall not be greater than 24 inches (610 mm) below the upper edge of the roof hatch, roof or parapet, as applicable.

**(iii)** Ladders shall have a toe spacing not less than 6 inches (152 mm) deep.

**(iv)** There shall be not less than 18 inches (457 mm) between rails.

**(v)** Rungs shall have a diameter not less than 0.75-inch (19 mm) and be capable of withstanding a 300 pound (136.1 kg) load.

**(vi)** Ladders over 30 feet (9144 mm) in height shall be provided with offset sections and landings capable of withstanding 100 pounds per square foot (488.2 kg divided by meters squared). Landing dimensions shall be not less than the width of the ladder served. A guard rail shall be provided on all open sides of the landing.

**(vii)** Climbing clearance. The distance from the centerline of rungs to the nearest permanent object on the climbing side of the ladder shall be not less than 30 inches (762 mm) measured perpendicular to the rungs. This distance shall be maintained from the point of ladder access to the bottom of the roof hatch. A minimum clear width of 15 inches (381 mm) shall be provided on both sides of the ladder measured from the midpoint of and parallel with the rungs except where cages or wells are installed.

**(viii)** Landing required. The ladder shall be provided with a clear and unobstructed bottom landing area having a minimum dimension of 30 inches (762 mm) by 30 inches (762 mm) centered in front of the ladder.

**(ix)** Ladders shall be protected against corrosion by an approved means.

**(x)** Access to ladders shall be provided at all times.

**(B)** Catwalks installed to provide the required access shall be not less than 24 inches (610 mm) wide and shall have railings as required for service platforms.

**Exceptions:**

**(i)** This section shall not apply to Group R-3 occupancies.

**(ii)** This section shall not apply to appliance replacement.

**307.2.1 Condensate disposal—Amendatory.** Condensate from all cooling coils and evaporators shall be conveyed from the drain pan outlet to an approved place of disposal. Such piping shall maintain a minimum horizontal slope in the direction of discharge of not less than one-eighth unit vertical in 12 units horizontal (1-percent slope). Condensate drains shall be allowed to terminate to an approved pit or French drain consisting of a minimum of 24 inches by 24 inches by 24 inches (610 mm by 610 mm by 610 mm), or equivalent; of 1 inch (25 mm) washed rock. Such pits or French drains shall be located 30 inches (762 mm) minimum from outer edge of foundation to nearest edge of pit or French drain. Condensate shall not discharge into a street, alley or other areas so as to cause a nuisance.

**307.2.3.1 Water-level monitoring devices—Amendatory.** On down-flow units and all other coils that do not have a secondary drain or provisions to install secondary or auxiliary drain pan, a water-level monitoring device shall be installed inside the primary drain pan. This device shall shut off the equipment served in the event that the primary drain becomes restricted. Devices installed in the drain line shall not be permitted.

**Exception:** This section shall not apply to appliances installed in areas outside on the ground or elevated structure where condensate overflow does not damage building components or contents.

**502.15 Repair garages.** Where Class I liquids or LP-gas are stored or used within a building having a basement or pit wherein flammable vapors could accumulate, the basement or pit shall be provided with ventilation designed in accordance with Section 2311.4.3 of the International Fire Code® to prevent the accumulation of flammable vapors therein.

**506.3.1.1 Grease duct materials—Amendatory.** Grease ducts serving Type I hoods shall be constructed of non-galvanized carbon steel having a minimum thickness of 0.0575 inch (1.463 mm) (No. 16 gage) or stainless steel not less than 0.0450 inch (1.14 mm) (No. 18 gage) in thickness.

**Exception:** Factory-built commercial kitchen grease ducts listed and labeled in accordance with UL 1978 and installed in accordance with Section 304.1.

**507.2 Type I hoods—Amendatory.** Type I hoods shall be installed where cooking appliances produce grease or smoke as a result of the cooking process. Type I hoods shall be installed over medium-duty, heavy-duty, and extra-heavy-duty cooking appliances.

**Exceptions:**

**(A)** A Type I hood shall not be required for an electric cooking appliance where an approved testing agency provides documentation that the appliance effluent contains 5 mg per cubic meter when tested at an exhaust flow rate of 500 cfm (0.236 cubic meters per second) in accordance with UL 710B.

**(B)** In non-commercial cooking occupancies a residential or Type II hood can be installed over a medium-duty residential appliance when approved.

**604.1 General—Amendatory.** Duct insulation shall conform to the requirements of Sections 604.2 through 604.13, the International Energy Conservation Code and SMACNA HVAC Duct Construction Standards - Metal and Flexible.

**805.3 Factory-built fireplaces.** Chimneys for use with factory-built fireplaces shall comply with the requirements of UL 127.

**805.4 Factory-built chimney offsets.** Where a factory-built chimney assembly incorporates offsets, no part of the chimney shall be at an angle of more than 30 degrees (.52 rad) form vertical at any point in the assembly and the chimney assembly shall not include more than four elbows.

**805.5 Support.** Where factory-built chimneys are supported by structural members, such as joists and rafters, such members shall be designed to support the additional load.

**805.6 Medium-heat appliances.** Factory-built chimneys for medium-heat appliances producing flue gases having a temperature above 1,000 degrees Fahrenheit (538 degrees Celsius) measured at the entrance to the chimney shall comply with UL 959.

**805.7 Decorative shrouds.** Decorative shrouds shall not be installed at the termination of factory-built chimneys except where such shrouds are listed and labeled for use with the specific factory-built chimney system and are installed in accordance with Section 304.1.

**805.8 Insulation shield.** Where factory-built chimneys pass through insulated assemblies, an insulation shield constructed of steel having a thickness of not less than 0.0187 inch (0.4712 millimeter) (No. 26 gage) shall be installed to provide clearance

between the chimney and the insulation material. The clearance shall be not less than the clearance to combustibles specified by the chimney manufacturer's installation instructions. Where chimneys pass through attic space, the shield shall terminate not less than 2 inches (51 millimeter) above the insulation materials and shall be secured in place to prevent displacement. Insulation shields provided as part of a listed chimney system shall be installed in accordance with the manufacturer's instructions.

**SECTION 1102.3. ACCESS PORT PROTECTION—Amendatory.** This section has been stricken from the code.

**1402.8.3 Piping has been modified to correct errata published by the ICC®.** The modification changes a specified chapter from "10" to "12." This section has been modified to read: 1402.8.3 Piping. Potable piping shall be installed in accordance with the 11 International Plumbing Code®. Hydronic piping shall be installed in accordance with Chapter 12 of this code. Mechanical system piping shall be supported in accordance with Section 305.

**Chapter 15 Referenced Standards—Amendatory.** Chapter 15 of the IMC 2018 is adopted with the following modifications:

IBC® 18 *International Building Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

IECC®-06 *International Energy Conservation Code*®.

IFC® 18 *International Fire Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

IMC® 18 *International Mechanical Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

IPC® 18 *International Plumbing Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

IFGC®-2018 *International Fuel Gas Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

IRC® 15 *International Residential Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

NFPA 70-44 17 *National Electrical Code*® as adopted and modified by the State of Oklahoma through OUBCC."

300A-06 Outline of Investigation for Extinguishing System Units for Residential Range Top Cooking Surfaces: 507.2.

*(Ord. No. 24894, § 1, 8-24-2022)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 2. STATIONARY ENGINEERS

Section 200. Examination and licensing of stationary engineers and process steam boiler operators.
Section 201. Mechanical equipment requiring licensed operators.

### Section 200. Examination and licensing of stationary engineers and process steam boiler operators.

**A. Examination of Stationary Engineers; Qualifications.** The Code Official shall approve all eligible Stationary Engineer and Process Steam Boiler Operator applicants. Examinations shall be appropriate to the license sought and shall reflect the knowledge and experience required to perform the work of the particular class. The examination for Process Steam Boiler Operators shall be limited to questions on the safe operating practices of process steam boilers.

**B. Examination Fees.** Examinations for each class of stationary engineer license shall be prepared by an independent testing agency.

**C. Experience.** Applicants for the following classes of licenses shall have the minimum experience designated for such class of license as follows:

**1. First Class Engineer's License.** All applicants for a First Class Engineer's License shall:

**a.** Have at least three (3) years' experience in the operation or assisting in the operation of boilers exceeding fifteen (15) psig steam or one hundred sixty (160) psig water pressure or 250° Fahrenheit water temperature and refrigeration or air conditioning units exceeding one hundred fifty (150) tons; or

**b.** Be a currently-licensed Mechanical Journeyman/Contractor who has had at least one (1) year of experience operating or assisting in the operation of the equipment described in Subsection 200.C.1.a, above; or worked for a Mechanical Contractor for at least three (3) consecutive years installing the equipment described in Subsection 200.C.1.a, above; or

**c.** Have a First Class Limited License and at least three (3) years' experience operating or assisting in the operation of the equipment described in Subsection 200.C.1.a, above; or have a First Class Limited License, having held such license for at least one (1) year and a certificate from an approved school certifying that the applicant has completed a City of Tulsa, Inspections Department, approved course covering the operation of chillers and boilers, and at least one (1) year of experience in the operation of the equipment described in Subsection 200.C.1.a, above; or

**d.** Be a currently-licensed Unlimited Mechanical Journeyman/Contractor in the state of Oklahoma who has a certificate from an approved school certifying that the applicant has completed a City of Tulsa, Inspections Department, approved course covering the operation of chillers and boilers, and at least one (1) year of experience in the operation of the equipment described in Subsection 200.C.1.a, above.

**2. First Class Limited Engineer's License.** All applicants for a First Class Limited Engineer's License shall:

**a.** Have at least one (1) year of experience in the operation or assisting in the operation of low or high pressure boilers and at least three (3) years' experience in the operation or assisting in the operation of refrigeration or air conditioning units exceeding one hundred fifty (150) tons; or

**b.** Be a currently-licensed Unlimited Mechanical Journeyman/Contractor in the state of Oklahoma who has had at least six (6) months of experience operating or assisting in the operation of low-pressure boilers with an operating temperature of less than 250° Fahrenheit and subject to pressure not exceeding fifteen (15) psig steam or one hundred sixty (160) psig water, and six (6) months of experience in the operation of refrigeration or air conditioning units exceeding one hundred fifty (150) tons, including all related pumps and apparatus, and who has a certificate from an approved school certifying that the applicant has completed a City of Tulsa, Inspections Department, approved course covering the operation of chillers and boilers.

**3. Third Class Engineer's License.** All applicants for a Third Class Engineer's License shall have at least one (1) years' experience in the operation or assisting in the operation of low or high pressure boilers.

**4. Steam Special Engineer's License.** All applicants for a Steam Special Engineer's License shall have a least three (3) years' experience in the operation or assisting in the operation of boilers exceeding fifteen (15) psig steam or one hundred sixty (160) psig water pressure.

**5. Refrigeration Special Engineer's License.** All applicants for a Refrigeration Special Engineer's License shall have at least three (3) years' experience in the operation or assisting in the operation of refrigeration or air conditioning units exceeding one hundred fifty (150) tons.

**6. Process Steam Boiler Operator's License.** All applicants for a Process Steam Boiler Operator's License shall pass a written examination, and:

**a.** Have a minimum of three (3) months' experience in the operation or assisting in the operation of Process Steam Boilers of over ten (10) horsepower (334,750 BTU/Hour) input; or

**b.** Have successfully completed a short course approved by the Code Official on the safe and proper operating practices for high pressure steam process application boilers.

When the operating experience of applicants for the Process Steam Boiler Operator's license is limited to process steam boilers of fifty (50) horsepower (1,673,750 BTU/Hour) input or less and subject to an operating pressure of one hundred fifty (150) psig or less, that experience can only be used toward the experience required for a Third Class license. All experience required for any of the aforementioned classes of license defined in this section and so claimed by an applicant for such class of license shall be proven by a notarized certification from former and present employers concerning the examinee's experience and qualifications. Only experience on the equipment itemized in Section 201 of this Code shall be considered.

**D. Retesting.** An applicant shall be permitted to retest in accordance with the following:

| | |
|---|---|
| Retesting: | The next testing date of the month following the failed test. |

**E. Issuance of Certificates of Competency.** Stationary Engineer applicants and Process Steam Boiler Operator applicants receiving a grade of seventy percent (70%) or higher on a required written examination shall be issued a Certificate of Competency.

All Certificates of Competency shall display the date of passage of the examination or, if issued without examination as provided in this chapter, the basis for the applicant's qualification. Such certificates shall be consecutively numbered and the Office of Mechanical Inspection shall keep a record of all certificates issued. Should a certificate be lost or destroyed, a duplicate may be obtained under a new registration number by submitting a signed, written request and payment of a replacement fee in accordance with the fee schedule in Title 49, Tulsa Revised Ordinances. Once replaced, the certificate which was lost or destroyed and its registration number shall be invalid.

**F. Issuance and Renewal of Stationary Engineer and Process Steam Boiler Operator Licenses.** Every holder of a current Stationary Engineer or Process Steam Boiler Operator Certificate of Competency shall be issued an annual license appropriate to such certificate by the Code Official upon payment of a license fee in accordance with the fee schedule in Title 49, Tulsa Revised Ordinances.

**G. Annual License Registration.** All Stationary Engineer and Process Steam Boiler Operator licenses shall expire on December 31 and shall be renewed annually. Failure to renew within thirty (30) days of expiration shall subject the former licensee to a penalty fee in accordance with the fee schedule in Title 49, Tulsa Revised Ordinances, per month, until renewal. When any operator's license has been expired for one (1) year or more, the license holder shall retest in accordance with section 200.E.

**H. Stationary Engineer License and Process Steam Boiler Operator Classifications Established and Work for Which Qualified Defined.** Stationary Engineer and Process Steam Boiler Operator licenses shall be issued to qualified applicants divided into the following categories:

1. **First Class Engineer's License.** Any person holding a First Class Engineer's License shall be qualified to operate and maintain all steam generating boilers, pressure vessels, super heaters, refrigeration plants, and air conditioning units of unlimited tonnage, horsepower, and pressures, and all of their related pumps and apparatus.
2. **First Class Limited Engineer's License.** Any person holding a First Class Limited License shall be qualified to operate and maintain all boilers with an operating temperature of less than 250° F. and subject to a pressure not exceeding 15 psig steam or 160 psig water and refrigeration and air conditioning units of unlimited tonnage including all related pumps and apparatus.
3. **Third Class Engineer's License.** Any person holding a Third Class Engineer's License shall be qualified to operate and maintain heating boilers with an operating temperature of less than 250° F. and subject to a pressure not to exceed 15 psig steam or 160 psig water and all related pumps and apparatus.
4. **Steam Special License.** Any person holding a Steam Special License may operate and maintain all boilers, engines, pumps, and related apparatus of unlimited size and pressure.
5. **Refrigeration Special License.** Any person holding a Refrigeration Special License may operate and maintain refrigeration plants and units of unlimited tonnage or horsepower.
6. **Process Steam Boiler Operator.** Any person holding a Process Steam Boiler Operator license may operate high pressure process steam boilers of fifty (50)

horsepower (1,673,750 BTU/Hour) input or less and subject to an operating pressure not to exceed 150 psig. Seventy-five percent (75%) of the total boiler capacity must be used for the process system operation.

**I. Display of Certificates and Licenses Required.** Licensees shall keep Certificates of Competency and current licenses displayed at all times in the place where they are employed so that same may be readily seen. In case a copy should be used, it must show the address where the original is displayed.

**J. Revocation and Suspension of Stationary Engineer and Process Steam Boiler Operator Licenses and Certificates of Competency.** Subject to the procedures governing the Board of Appeals as established by Title 51, Chapter 1, Tulsa Revised Ordinances, Stationary Engineer and Process Steam Boiler Operator Certificates of Competency or Stationary Engineer and Process Steam Boiler Operator Licenses may be denied, revoked, suspended, or canceled by the Board for incompetence, gross carelessness in the maintenance or operation of equipment, falsification of a registration document or intoxication while on duty or as otherwise authorized pursuant to Title 51, Chapter 1, Tulsa Revised Ordinances.

**K. Appeals to City Council.** Any person aggrieved by any decision of the Board shall have a right of appeal to the City Council in accordance with the procedures in Title 51, Chapter 1, Tulsa Revised Ordinances.

*(Ord. No. 23436, § 1, 2-11-2016; Ord. No. 24151, § 1, 6-26-2019; Ord. No. 24894, § 1, 8-24-2022; Ord. No. 25374, §§ 1—3, 7-31-2024)*

### Section 201. Mechanical equipment requiring licensed operators.

**A. Responsibility of Owner and Operator.** It shall be unlawful, a misdemeanor offense, and a violation of this code for any person, firm, limited liability company, corporation, or other legal entity owning or otherwise having control of the following mechanical equipment, to operate or to permit such equipment to be operated by any person who is not a properly licensed Stationary Engineer holding a current license and Certificate of Competency appropriate to the type, size, and pressure of such equipment. It shall further be unlawful and a misdemeanor offense for any person to operate the following equipment unless such person is duly licensed to operate such equipment:

**1.** All steam boilers of ten (10) horsepower or more, subject to an operating pressure of more than fifteen (15) pounds per square inch;

**2.** All steam boilers subject to an operating pressure of fifteen (15) pounds per square inch or less and all hot water boilers with an operating temperature exceeding 210° F., or having a capacity of over 3,000,000 BTU input, or aggregate total if manifolded together and located in a single confined space;

**3.** Any refrigeration and air conditioning units having a capacity of 150 tons, or 150 horsepower, or more. The provisions of this paragraph do not apply to units located outside of an occupied structure; or

**4.** All refrigeration and air conditioning plants of twenty (20) horsepower, or twenty (20) tons, whichever is greater, using Group 2 and 3 refrigerants as listed in Section 1104.1 of this code. The horsepower and tonnage of all such refrigeration and air conditioning plants shall be determined by aggregating all units greater than ten (10) horsepower or tons.

**B. Periods of Duty Established for Stationary Engineers and Process Steam Boiler Operator Operating Mechanical Equipment Requiring Licensed Operators.** A licensed operator shall personally remain on the premises, except as noted, where any of the mechanical equipment listed in Subsection 201.A of this chapter is in operation in accordance with the periods of duty specified in this section. Periods of operator duty shall be determined by the use and occupancy classification of the building or structure as defined in the ICC International Building Code 2018 Edition, as amended, within which such equipment is located, as follows:

| | | |
|---|---|---|
| 1. | Use Group A, Assembly Buildings | At all times during public occupancy while regulated equipment is in operation, or shall be monitored with computerized safety equipment with an immediate shutdown function and notification system.* |
| 2. | Use Group B, Business Buildings | At all times during public occupancy while regulated equipment is in operation, or shall be monitored with computerized safety equipment with an immediate shutdown function and notification system.* |
| 3. | Use Group E, Educational Buildings | At all times during public occupancy while regulated equipment is in operation, or shall be monitored with computerized safety equipment with an immediate shutdown function and notification system.* |
| 4. | Use Group F, Industrial Buildings | During each shift of work of the occupying industry, or shall be monitored with computerized safety equipment with an immediate shutdown function and notification system.* EXCEPTION: In facilities when the mechanical equipment is being operated by a Process Steam Boiler Operator, the operator shall be on the premises in accordance with Subsection 201.E. |
| 5. | Use Group H, High Hazard | At all times while regulated equipment is in operation; |
| 6. | Use Group I, Institutional Buildings | At all times while regulated equipment is in operation, or shall be monitored with computerized safety equipment with an immediate shutdown function and notification system.* |

| | | |
|---|---|---|
| 7. | Use Group M, Mercantile Buildings | During public occupancy while regulated equipment is in operation, or shall be monitored with computerized safety equipment with an immediate shutdown function and notification system.* |
| 8. | Use Group R, Residential Buildings: | |
| | a. R-1 Structures less than 4 stories | At start-up and shut-down; |
| | b. R-1 Structures of 4 stories or more | At all times while regulated equipment is in operation, or shall be monitored with computerized safety equipment with an immediate shutdown function and notification system.* |
| | c. R-2 Structures | At start-up and shut-down; |
| | d. R-3 Structures | None; |
| 9. | Use Group S, Storage | At start-up and shut-down; |
| 10. | Use Group U, Utility and Miscellaneous | The Code Official shall determine which of the above rules shall apply. Such determination shall be based upon the Use Group that the building or structure most nearly resembles. |

*A third-party certificate of compliance in a form acceptable to the Code Official, or their designee, signed and sealed by a Mechanical Engineer licensed in the State of Oklahoma shall be required and submitted annually.

"Public occupancy" shall mean open to public use by license or invitation. The term shall not mean occupancy by custodial, building maintenance, or security personnel, or occasional occupancy by employees, tenants, and their invitees after normal working hours."

**C. Daily operator log required.** A daily log shall be kept by all operators, showing the date and time each operator arrives on the job, with signature or initials. The log shall be kept in full view with certificate and license.

**D. Use of apprentice operators.** Operators may use assistants who have registered as apprentice operators. An apprentice operator shall not change any settings, make any adjustment, start, stop, work on, or repair equipment except in the presence of and under the direct supervision of a licensed operator. The licensed operator shall be directly responsible for the safe and lawful operation of any equipment where the operator's certificate and license are posted.

**E. Operating procedures for process steam boilers monitored by on-premises operators.** Start-up and shut-down procedures shall be posted in the boiler room. The certificate holder shall record in a log the operating conditions of the boiler at a minimum frequency at each day's start-up, at the mid-point of the daily operation and at the shut-down of the process steam boiler. The maximum time period between any two log entries by the certificate holder for a boiler in operation shall be six hours. Each log entry shall include as a minimum the date and time of the entry, the certificate

holder's signature, and a checklist of the status of the safety features of the boiler to include as a minimum the boiler operating pressure and the water level in the sight glass. The low water cut-off shall be cycled a minimum of once each operator's shift, and the pressure relief valve shall be lift tested monthly.

**F. Operating procedures for process steam boilers monitored with computerized safety equipment.** In use groups where Section 201(B) allows for computerized safety equipment monitoring, a third-party mechanical engineer shall annually confirm that the certificate holder has distributed operating start-up, shut-down, and remote operating procedures to all remote monitors. The certificate holder must have a system to digitally log the operating conditions of the boiler at minimum of every six (6) hours. Certificate holders must ensure that the low water cut-off is cycled manually or remotely a minimum of once each operator's shift. The pressure relief valve shall be lift tested monthly by an on-premises operator.

*(Ord. No. 24894, § 1, 8-24-2022; Ord. No. 25374, §§ 4—6, 7-31-2024)*

**[THIS PAGE INTENTIONALLY LEFT BLANK]**

## CHAPTER 3. ICC INTERNATIONAL FUEL GAS CODE, 2018 EDITION

Section 300. Adoption of the International Fuel Gas Code.
Section 301. Amendments to the ICC International Fuel Gas Code, 2018 Edition.

### Section 300. Adoption of the International Fuel Gas Code.

A certain document, three (3) copies of which are on file in the office of the City Clerk of the City of Tulsa, Oklahoma, being marked and designated as the *ICC International Fuel Gas Code*, 2018 Edition, as published by the International Code Council, Inc. (ICC), is hereby adopted as an amendment to the Tulsa Revised Ordinances, hereinafter the "Mechanical Code," for the installation of fuel gas piping systems, fuel gas appliances, gaseous hydrogen systems and related accessories serving buildings and structures except detached one- and two-family dwellings and townhouses not more than three (3) stories above grade plane in height with a separate means of egress and whose accessory structures shall comply with Tulsa Revised Ordinances, Title 51 Chapter 2. Each and all of the terms, conditions, regulations, provisions, and penalties of the *ICC International Fuel Gas Code*, 2018 Edition, are hereby referred to, adopted and made a part of the Tulsa Revised Ordinances as if fully set out in this chapter, with its amendments, if any, as prescribed in Section 301 of this chapter and, as used in this Chapter 3, may be referred to as the "code."

*(Ord. No. 23436, § 1, 2-11-2016; Ord. No. 24894, § 1, 8-24-2022)*

### Section 301. Amendments to the ICC International Fuel Gas Code, 2018 Edition.

The following provisions of the *ICC International Fuel Gas Code*, 2018 Edition, are hereby added, deleted, or amended to read as follows:

**Chapter 1 - Administration**

**106.1 When Required-Amendatory.** A contractor who desires to erect, install, enlarge, alter, repair, remove, convert, or replace a fuel gas piping system or fuel gas appliance, the installation of which is regulated by this code, or to cause such work to be done, shall first make application and obtain the required permit for the work contemplated.

**Exception:** Where equipment replacements and repairs must be performed in an emergency situation, the permit application shall be submitted within the next working business day.

**106.1.1 Annual Permit—Amendatory.** An annual permit is a yearly permit which represents a group of individual permits for each alteration to an already existing electrical, gas, mechanical or plumbing installation. The building official is authorized to issue an annual permit upon application therefor to any person, firm or corporation regularly employing one or more qualified tradespersons in the building, structure or on the premises owned or operated by the applicant for the permit.

**106.1.2 Annual permit records—Amendatory.** The person to whom an annual permit is issued shall keep a detailed record of alterations made under such annual permit. The building official shall have access to such detailed records of alterations at all times. At the completion of the entity's annual permit term, the applicant shall file such detailed records of alterations with the building official. Pursuant to the authority

of 59 O.S. § 1000.25, the building official shall collect fees for each individual permit which is part of the annual permit once the detailed records are submitted and remit such fees to the OUBCC.

**106.1.3 Tulsa Revised Ordinances, Title 50—Added.** Annual permits shall comply with Tulsa Revised Ordinances, Title 50.

**106.3 Application for permit—Amendatory.** No permit shall be issued to any person, firm, limited liability company, or corporation until such person, firm, limited liability company, or corporation has received a Certificate of Registration appropriate for the work contemplated.

**106.6.1 Work Commencing Before Permit Issuance—Amendatory.** Any person who commences work on a mechanical system before obtaining the necessary permits shall be subject to penalty fees established in Title 49, Tulsa Revised Ordinances.

**106.6.2 Fee Schedule—Amendatory.** Permit and inspection fees for all work shall be the same as set forth in Chapters 1 and 5 of Title 49, Tulsa Revised Ordinances.

**108.4 Violation Penalties—Amendatory.** Any person violating any of the provisions of this code shall be guilty of a misdemeanor offense and, upon conviction thereof, shall be punished by a fine of not more than One Thousand Two Hundred Dollars ($1,200.00), excluding cost, fees, and assessments or by imprisonment in the City Jail for a period not exceeding six (6) months or by both such fine and imprisonment. Each day that a violation continues shall be deemed a separate offense.

**108.7.2 Authority to disconnect service utilities—Amendatory.** The code official shall have the authority to require disconnection of utility service to eliminate an immediate hazard to life or property or to abate a violation of any provision of this code. The code official shall notify the serving utility and, where possible, the owner or the owner's authorized agent and occupant of the building, structure or service system of the decision to disconnect prior to taking such action. If not notified prior to disconnection, the owner or occupant of the building, structure or service system shall be notified in writing, as soon as practicable thereafter.

**Section 109. Means of Appeal—Amendatory.** Appeals of orders, decisions or determinations made by the code official relative to the application and interpretation of this code, shall be made to the Board of Appeals as established by Title 51, Chapter 1, Tulsa Revised Ordinances.

**306.5 Equipment and appliances on roofs or elevated structures.** Where equipment requiring access or appliances are located on an elevated structure or the roof of a building such that personnel will have to climb higher than 16 feet (4877 mm) above grade to access such equipment or appliances, an interior or exterior means of access shall be provided. Such access shall not require climbing over obstructions greater than 30 inches (762 mm) in height or walking on roofs having a slope greater than 4 units vertical in 12 units horizontal (33-percent slope). Such access shall not require the use of portable ladders. Where access involves climbing over parapet walls, the height shall be measured to the top of the parapet wall. (A) Permanent ladders installed to provide the required access shall comply with the following minimum design criteria: (i) The side railing shall extend above the parapet or roof edge not less than 30 inches (762 mm), (ii) Ladders shall have rung spacing not to exceed 14 inches (356 mm) on center. The upper-most rung shall be not more than 24 inches (610 mm)

below the upper edge of the roof hatch, roof or parapet, as applicable, (iii) Ladders shall have a toe spacing not less than 6 inches (152 mm) deep, (iv) There shall be not less than 18 inches (457 mm) between rails, (v) Rungs shall have a diameter not less than 0.75-inch (19 mm) and be capable of withstanding a 300-pound (136.1 kg) load, (vi) Ladders over 30 feet (9144 mm) in height shall be provided with offset sections and landings capable of withstanding 100 pounds per square foot (488.2 kg divided by meters squared). Landing dimensions shall be not less than 18 inches (457 mm) and not less than the width of the ladder served. A guard rail shall be provided on all open sides of the landing, (vii) Climbing clearance. The distance from the centerline of rungs to the nearest permanent object on the climbing side of the ladder shall be not less than 30 inches (762 mm) measured perpendicular to the rungs. This distance shall be maintained from the point of ladder access to the bottom of the roof hatch. A minimum clear width of 15 inches (381 mm) shall be provided on both sides of the ladder measured from the midpoint of and parallel with the rungs, except where cages or wells are installed, (viii) Landing required. The ladder shall be provided with a clear and unobstructed bottom landing area having a minimum dimension of 30 inches (762 mm) by 30 inches (762 mm) centered in front of the ladder, (ix) Ladders shall be protected against corrosion by approved means. (x) Access to ladders shall be provided at all times. (B) Catwalks installed to provide the required access shall be not less than 24 inches (610 mm) wide and shall have railings as required for service platforms.

**Exceptions:** (i) This section shall not apply to Group R-3 occupancies, (ii) This section shall not apply to appliance replacement.

**306.6 Guards—Amendatory.** Guards shall be provided where various components that require service are located on a roof or elevated structure and have a condition as set forth in Sections 306.1 through 306.6.3. The top of the guard shall be located not less than 42 inches (1067 mm) above the elevated surface adjacent to the guard. The guard shall be constructed so as to prevent the passage of a 21-inch diameter (533 mm) sphere and shall comply with the loading requirements for guards as specified in the International Building Code. Guards shall be provided at new components when added or replaced on an existing roof or elevated structure and have a condition as set forth in Sections 306.1 through 306.6.3.

**Exception:** When approved by the authority having jurisdiction, guards are not required where permanent fall arrest/restraint anchorage connector devices that comply with ANSI/ASSE Z 359.1 are affixed for use during the entire roof covering lifetime. The devices shall be reevaluated for possible replacement when the entire roof covering is replaced. The devices shall be placed no more than 10 feet (3048 mm) on center along hip and ridge lines and placed not less than 10 feet (3048 mm) from roof edges and the open sides of walking surfaces.

**306.6.1 Roof edge—Added.** Guards complying with Section 306.1 shall be provided when components are located within 10 feet (3048 mm) of a roof edge or open side of a walking surface or elevated structure and such edge or open side is located more than 30 inches (762 mm) above the floor, roof, or grade below. The guard shall extend not less than 30 inches (762 mm) beyond each end of the component that requires service.

**306.6.2 Skylights—Added.** Guards complying with Section 306.6 shall be provided when a skylight is within 10 feet (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the skylight.

**Exceptions:**

**(A)** Guards are not required when the skylight is located at least 42 inches (1067 mm) above the highest point of the walking surface adjacent to the skylight or components.

**(B)** Guards are not required if some other provision for skylight fall-through protection is provided and approved by the authority having jurisdiction.

**306.6.3 Roof hatch—Added.** Guards complying with Section 306.6 shall be provided when a roof hatch is within 10 feet (3048 mm) of the component that requires service. The guard shall extend 30 inches (762 mm) beyond the edge of the roof hatch. If the component is within 10 feet (3048 mm) of the ladder access side of the roof hatch, the guard shall incorporate a self-closing, self-latching gate. The gate shall have a top edge of not less than 42 inches (1067 mm) above the elevated surface adjacent to the gate and shall not allow the passage of a 21 inch (533 mm) sphere. If a roof hatch exists within 10 feet of a roof edge that is located more than 30 inches (762 mm) above the floor, roof or grade below and a new component that requires services on that existing roof or elevated structure, then a guard complying with Section 306.6 shall be added between the existing roof hatch and the roof edge.

**307.2.1 Condensate drains—Added.** Where condensing appliances are in locations subject to freezing conditions, the condensate drain line shall be protected from freezing in an approved manner and in accordance with manufacturer's installation instructions.

**310.1.1 CSST—Amendatory.** Corrugated stainless steel (CSST) gas piping systems and piping systems containing one or more segments of CSST shall be bonded to the electrical service grounding electrode system or, where provided, the lightning protection grounding electrode system.

**Exception:** Corrugated stainless steel gas piping or tubing products or systems that have been designed, manufactured and listed for installation without bonding to the grounding electrode system, shall be permitted to be installed in accordance with the manufacturer's installation instructions.

**307.2.3 Work on Consumer's Gas Piping Containing Unmeasured Gas—Added.** Repair, alterations, relocations, or any other work conducted on any portion of a consumer's gas piping, containing unmeasured gas, shall only be performed by a qualified person or installation agency authorized to do such work. When such work is done, the gas utility company shall be notified. The movement, connection, or disconnection of gas meters shall only be performed by gas utility company employees or others authorized by the gas utility company. For unmeasured gas pressure above three (3) psig, the line shall be tested at ninety (90) psig.

**402.1. General Considerations—Amendatory.** Piping systems shall be of such size and so installed as to provide a supply of gas sufficient to meet the maximum demand and supply gas to each appliance inlet at not less than the minimum supply pressure required by the appliance, but not less than 1" to the first connected appliance or regulator.

**404.7.4 Protection against physical damage—Added.** Gas piping other than steel piping installed less than 1½ inches from roof decking shall be protected against physical damage by an approved method.

**404.10.2 Separation of gas piping from other piping systems—Added.** There shall be a minimum 12 inches of undisturbed or compacted earth separation between buried gas piping and any other electrical service lines, water piping or sewer piping systems.

**404.12. Minimum burial depth—Amendatory.** Underground piping systems shall be installed a minimum depth of 18 inches (457 mm) below grade, except as provided for in Section 404.10.1.

**Exception:** Where a minimum depth of 18 inches (457 mm) of cover cannot be provided, the pipe shall be installed in conduit or bridged (shielded).

**406.4.1 Test pressure—Amendatory.** The test pressure to be used shall be no less than 1½ times the proposed maximum working pressure, but not less than 3 psi on a five (5) psi gauge registered in one-tenth pound increments or ten (10) psi on a fifteen (15) psi gauge registered in one pound increments or ten (10) psi on a thirty (30) psi gauge registered in one (1) pound increments. Where the test pressure exceeds 125 psig (862 kPa gauge), the test pressure shall not exceed a value that produces a hoop stress in the piping greater than 50 percent of the specified minimum yield strength of the pipe.

**406.6.2.1 General—Added.** At least one appliance shall be connected prior to final release of the gas meter.

**411.2.1 Location, Protection and Sizing of Riser—Added.** The gas riser to each manufactured home site shall be placed in the rear one-third (a) section of the site, within eighteen (18) inches of the roadside wall of the manufactured home (i.e., the right side of the manufactured home when viewing the tongue of the manufactured home). It shall be located and protected or supported so as to minimize the likelihood of damage by moving vehicles. The minimum size of the gas piping outlet at such a site shall be three-fourths (¾) inch for other than undiluted, liquefied petroleum gases.

**411.2.2 Location of Shut-off Valves—Added.**

**A.** Outlets for the individual manufactured homes and gas piping to any building supplied by the system shall be provided with a readily accessible, approved valve which cannot be locked in the open position.

**B.** A readily accessible valve shall be provided near the point of gas delivery for shutting off the entire manufactured home park system. The valve provided by the serving gas supplier may be considered acceptable for this purpose, provided it is readily accessible.

**412.5 Attendants.** Motor fuel-dispensing operations shall be conducted by qualified attendants or in accordance with Section 412.9 by persons trained in the proper handling of LP-gas.

**Exception:** When the dispensing equipment meets the guidelines of NFPA® 58 for "Low emission transfer" an attendant is not required.

**412.6.1 Low emission transfer.** When the dispensing equipment is installed in accordance with Section 6.30.5 of NFPA® 58 for "Low emission transfer," the transfer distance requirements in Table 6.7.2.1 and Section 6.27.4.3 of NFPA® 58 shall be reduced by one-half.

**412.9 Public fueling of motor vehicles.** (A) Self-service LP-gas dispensing systems, including key, code and card lock dispensing systems, shall be limited to the filling of permanently mounted containers providing fuel to the LP-gas-powered vehicle. (B) The requirements for self-service LP-gas dispensing systems shall be in accordance with the following: (i) The arrangement and operation of the transfer of product into a vehicle shall be in accordance with this section and Chapter 61 of the International Fire Code®, (ii) The system shall be provided with an emergency shut-off switch located within 100 feet (30 480 mm) of, but not less than 20 feet (6096 mm) from dispensers, (iii) The owner of the LP-gas motor fuel-dispensing facility or the owner's designee shall provide for the safe operation of the system and the training of users. Exception: If the LP-gas motor fuel-dispensing facility meets the requirements of a low emission transfer station per NFPA® 58, then training of the users is not the responsibility of the facility, (iv) The dispenser and hose-end valve shall release not more than 4 cubic centimeters of liquid to the atmosphere upon breaking the connection with the fill valve on the vehicle, (v) Fire extinguishers shall be provided in accordance with Section 2305.5 of the International Fire Code®, (vi) Warning signs shall be provided in accordance with Section 2305.6 of the International Fire Code®, (vii) The area around the dispenser shall be maintained in accordance with Section 2305.7 of the International Fire Code®.

**413.3.2 Warning signs.** Warning signs complying with Section 310 of the International Fire Code® shall be posted as follows: (A) Warning sign(s) shall be conspicuously posted within sight of each dispenser in the fuel dispensing area and shall state the following: (i) No smoking, (ii) Shut off motor, (iii) Flammable Gas, (iv) Natural gas vehicle fuel cylinders shall be inspected at intervals not exceeding 3 years or 36,000 miles to ensure safe operation of the vehicle, (v) Natural gas fuel cylinders past their end-of-life date shall not be refueled and shall be removed from service. (B) A warning sign with the words "NO SMOKING, FLAMMABLE GAS" shall be posted in all compressor and storage areas. (C) The lettering on the sign shall be legible and large enough to be visible from each point of transfer. (D) The service pressure of each dispenser shall be posted in view of the operator.

**413.5 Private fueling of motor vehicles.**

**(A)** Self-service CNG-dispensing systems, including key, code and card lock dispensing systems, shall be limited to the filling of approved, permanently mounted fuel containers.

**(B)** In addition to the requirements in the International Fire Code, the owner of a self-service CNG-dispensing facility shall ensure the safe operation of the system.

**413.8 Emergency shutdown devices.** A remote and local emergency manual shutdown device shall be provided. Upon activation, the emergency shutdown system shall automatically close valves between the main gas supply and the compressor and between the storage containers and dispensers, and automatically shut off the power supply to the compressor and the following associated devices: dispensing enclosures; remote pumps; power, control, and signal circuits; and electrical equipment in the hazardous (classified) locations surrounding the fuel dispensing enclosures. All labeled emergency shutdown devices shall be interconnected, whether required or not. Resetting from an emergency shutoff condition shall require manual intervention and the manner of resetting shall be approved by the Authority Having Jurisdiction.

**Exception:** In time-fill applications, in lieu of a defined remote and local emergency manual shutdown device, an emergency manual shutdown device shall be provided within 50 feet (15 240 mm) of each fixed point of dispensing hose attachment and located inside and outside the compressor area within 10 feet (3048 mm) of the main access to the compressor area.

**413.8.1 Remote emergency shutdown device.** A remote emergency manual shutdown device shall be located within 100 feet (30 480 mm) of, but not less than 20 feet (6096 mm) from all dispensing enclosures and shall be provided inside and outside the compressor area within 10 feet (3048 mm) of the main access to the compressor area. Exception: A remote emergency manual shutdown device may be located greater than 100 feet (30 480 mm) from one or more dispensing enclosures when within line of sight of the dispensing enclosures and approved by the Authority Having Jurisdiction. Section 413.8.2 Local emergency shutdown device. This section has been added to require a local emergency shutdown device be provided within 15 feet (4572 mm) of each dispensing enclosure. This section has been added to read: 413.8.2 Local emergency shutdown device. A local emergency manual shutdown device shall be located within 15 feet (4572 mm) of each dispensing enclosure.

**Chapter 8 Referenced Standards—Amendatory.** Chapter 8 of the IFGC 2018 is adopted with the following modifications:

IBC® 18 *International Building Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

IECC®-06 *International Energy Conservation Code*®.

IFC® 18 *International Fire Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

IMC® 18 *International Mechanical Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

IPC® 18 *International Plumbing Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

IRC® 15 *International Residential Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

NFPA 70-14 *National Electrical Code*® as adopted and modified by the State of Oklahoma through the OUBCC.

*(Ord. No. 23436, § 1, 2-11-2016; Ord. No. 24894, § 1, 8-24-2022)*

## CITY COUNCIL

The City Council form of government was voted in by a majority vote of the people in a general election on February 14, 1989. The amended Charter was approved by Governor Henry Bellmon on March 7, 1989, filed with the Oklahoma Secretary of State on March 8, 1989, and took effect May 8, 1990, except for Article VI, pertaining to elections, which took effect January 2, 1990.

The following City Councilors were voted in by a majority vote of the people in a general election on April 3, 1990, with an effective date of May 8, 1990:

| NAME | DISTRICT |
|---|---|
| B.S. Roberts | District 1D |
| Darla Hall | District 2D |
| Dorothy M. DeWitty | District 3D |
| Gary Watts | District 4D |
| Robert Nelson | District 5R |

| NAME | DISTRICT |
|---|---|
| James A. Hogue, Sr. | District 6D |
| John D. Benjamin | District 7R |
| Richard Polishuk | District 8D |
| Dewey F. Bartlett, Jr. | District 9R |

The following City Councilors were voted in by a majority vote of the people in a general election on March 3, 1992, with an effective date of April 6, 1992:

| NAME | DISTRICT |
|---|---|
| B.S. Roberts | District 1D |
| Darla D. Hall | District 2D |
| *Mike Patrick (Deceased 4/5/93) | District 3D |
| *Darrell Gilbert | District 3D |
| Gary L. Watts | District 4D |
| Robert Nelson | District 5R |
| James A. Hogue, Sr. | District 6D |
| John D. Benjamin | District 7R |
| Vickie Lee Cleveland | District 8R |
| Dewey F. Bartlett, Jr. | District 9R |

*Darrell Gilbert was appointed by a vote of the Council and sworn in on May 4, 1993, to serve as District 3 Councilor after the death of Councilor Patrick.

The following City Councilors were voted in by a majority vote of the people in a general election on March 1, 1994, with an effective date of April 4, 1994:

| NAME | DISTRICT |
|---|---|
| Joe Williams | District 1D |
| Darla D. Hall | District 2D |
| Darrell Gilbert | District 3D |
| Gary L. Watts | District 4D |
| *Robert G. Nelson (Deceased 10/31/94) | District 5R |
| *Melvin C. Rice | District 5R |
| **James A. Hogue, Sr. (Resigned 1/9/95) | District 6D/R |
| **Art Justis | District 6D |
| John D. Benjamin | District 7R |
| Vickie L. Cleveland | District 8R |
| Robert Gardner | District 9R |

*A special election was held January 10, 1995, at which time Melvin C. Rice was elected, and sworn in on January 17, 1995, to serve as District 5 Councilor after the death of Councilor Nelson.

The following City Councilors were voted in by a majority vote of the people in a general election on March 12, 1996, with an effective date of April 1, 1996:

| NAME | DISTRICT |
|---|---|
| Joe Williams | District 1D |
| Darla Hall | District 2D |
| David Patrick | District 3D |
| Gary Watts | District 4D |
| Sam Roop | District 5R |
| Art Justis | District 6D |
| Terry Doverspike | District 7R |
| Vickie L. Cleveland | District 8D |
| Robert Gardner | District 9R |

The following City Councilors were voted in by a majority vote of the people in a general election on March 10, 1998, with an effective date of April 4, 1998:

| NAME | DISTRICT |
|---|---|
| Joe Williams | District 1D |
| Darla Hall | District 2D |
| *David Patrick (Resigned 8/15/98) | District 3D |
| *Roscoe H. Turner | District 3D |
| Anna Falling | District 4R |
| Sam Roop | District 5R |
| Art Justis | District 6D |
| Terry Doverspike | District 7R |
| Vickie Cleveland | District 8D |
| Richard Braden Pringle, Jr. | District 9R |

*A special election was held November 3, 1998, at which time Roscoe H. Turner was elected, and sworn in on November 12, 1998, to serve as District 3 Councilor after the resignation of David Patrick.

The following City Councilors were voted in by a majority vote of the people in a general election on March 14, 2000, with an effective date of April 3, 2000:

| NAME | DISTRICT |
|---|---|
| Joe Williams | District 1D |
| Randi Miller | District 2R |
| Roscoe H. Turner | District 3D |
| Gary Watts | District 4D |
| Sam Roop | District 5R |
| Art Justis | District 6D |
| Clay Bird | District 7R |
| Todd Huston | District 8R |

| NAME | DISTRICT |
|---|---|
| R. Braden Pringle, Jr. | District 9R |

The following City Councilors were voted in by a majority vote of the people in a general election on March 12, 2002, with an effective date of April 1, 2002:

| NAME | DISTRICT |
|---|---|
| Joe Williams | District 1D |
| *Randi Miller (Resigned 11/15/02) | District 2R |
| *Chris Scott Medlock | District 2R |
| David Patrick | District 3D |
| Tom Baker | District 4D |
| Sam Roop | District 5R |
| Art Justis | District 6D |
| Randall Lynn Sullivan | District 7R |
| William L. Christiansen | District 8R |
| Susan Neal | District 9R |

*A special election was held February 11, 2003, at which time Chris Scott Medlock was elected, and sworn in on February 18, 2003, to serve as District 2 Councilor after the resignation of Randi Miller.

The following City Councilors were voted in by a majority vote of the people in a general election on March 9, 2004, with an effective date of April 5, 2004:

| NAME | DISTRICT |
|---|---|
| Jack R. Henderson | District 1D |
| Christopher S. Medlock | District 2R |
| *David Patrick | District 3D |
| *Roscoe H. Turner | District 3D |
| Tom Baker | District 4D |
| **Sam Roop (Resigned 2/18/05) | District 5R |
| **William Edward Martinson, Jr. | District 5R |
| James S. Mautino, Sr. | District 6R |
| Randall Lynn Sullivan | District 7R |
| William Christiansen | District 8R |
| Susan Neal | District 9R |

*Mr. Roscoe Turner, the Democratic opponent of David Patrick in the primary election, lost the primary election by four votes, and following a recount. There were no Republican candidates for District 3 and Republican voters in that district had been given ballots for the Democratic candidates. A Writ of Mandamus was issued to Judge Thomas Gillert and an evidentiary hearing was held March 12, 2004. Mr. Turner was able to sustain his burden of proof for a new election. A special election was held March 18, 2004, at which time Roscoe H. Turner was elected. He was sworn in on April 13, 2004, to serve as District 3 Councilor.

**A special election was held May 10, 2005, at which time William Edward Martinson, Jr., was elected, and sworn in on May 17, 2005, to serve as District 5 Councilor after the resignation of Sam Roop.

The following City Councilors were voted in by a majority vote of the people in a general election on April 4, 2006, with an effective date of April 10, 2006:

| NAME | DISTRICT |
|---|---|
| Jack R. Henderson | District 1D |
| Rick D. Wescott | District 2R |
| Roscoe H. Turner | District 3D |
| Maria Barnes | District 4D |
| *William Edward Martinson, Jr. | District 5R |
| Dennis K. Troyer | District 6D |
| John M. Eagleton | District 7R |
| William L. Christiansen | District 8R |
| Cason Carter | District 9R |

*The Tulsa County Election Board issued the Official Certificate of Votes for Council District 5 on May 26, 2006, following resolution of the protest contesting the election and the election results in District 5 filed by Jon Kirby. William Edward Martinson, Jr., was sworn in on June 13, 2006, to serve as District 5 Councilor.

The following City Councilors were voted in by a majority vote of the people in a general election on April 1, 2008, with an effective date of April 7, 2008:

| NAME | DISTRICT |
|---|---|
| Jack R. Henderson | District 1D |
| Rick D. Westcott | District 2R |
| David Patrick | District 3I |
| Eric Gomez | District 4R |
| William Edward Martinson, Jr. | District 5R |
| Dennis Troyer | District 6D |
| John M. Eagleton | District 7R |
| William Christiansen | District 8R |
| G. T. Bynum | District 9R |

The following City Councilors were voted in by a majority vote of the people in a general election on November 10, 2009, with an effective date of December 7, 2009:

| NAME | DISTRICT |
|---|---|
| Jack R. Henderson | District 1D |
| Rick D. Westcott | District 2R |
| Roscoe Turner | District 3D |
| Maria Barnes | District 4D |
| Chris Trail | District 5R |
| Jim Mautino | District 6R |

| Jack R. Henderson | District 1D |
| Blake Ewing | District 4R |
| Arianna R. Moore | District 7R |

## APPENDIX C INCORPORATION OF TULSA

January 18, 1898 - Town of Tulsa, Indian Territory, incorporated by decree of the United States Court for the Northern District of Indian Territory, sitting at Vinita.

Original townsite plat, containing 1440 acres, filed December 16, 1897.

Said plat and court proceedings are now on file in the office of the clerk of the United States Court for the Eastern District of Oklahoma, at Muskogee. The government survey of the Original Town of Tulsa made by J. Gus Patton was approved April 11, 1902.

July 28, 1903 - City of Second Class. (See Vol. No. 2 Record of Ordinances) U.S. Court, Western District, Muskogee, No. 4921 based on Resolution 5-11-03.

December 27, 1907 - City of First Class by proclamation of Governor. (See Vol. 5, Pg. 210, Record of Proceedings.)

July 3, 1908 - Charter adopted.

January 5, 1909 - Charter approved by Governor C.N. Haskell.
