Any such appeal to the district court shall not stay the denial, suspension or revocation of the license, or any modification imposed thereupon by the city council.

No license to operate a funeral escort service shall be issued until these conditions are met. As proof of compliance with these conditions, and before any license to operate a funeral escort service shall be issued, the applicant shall:

Such policy shall contain all of the conditions required by the laws of the state and by the insurance commissioner of the state and shall provide for actual notice to the city of any changes to be made in such policy.

(2) An applicant may file with the city clerk an insurance policy approved as to form and endorsement by the city attorney which complies with all the requirements of subsection (a)(1) of this section, except that such policy may be of a blanket type so long as each and every vehicle operated by the licensee under this chapter is covered by said policy at all times such vehicle is operated to provide funeral escort services, even though such vehicle may not be specifically described in such policy.

Such notice shall set forth the reasons for the suspension or revocation, and shall inform the licensee that such an order may be appealed to the city council by filing a written request with the city clerk within ten days from the date contained on the notice. Upon receipt of such notice, the city clerk shall notify the chief of police who shall forward all relevant information and exhibits to the city clerk within ten days. The city council shall hear the matter on the record and may affirm or reverse the action of the chief of police. An order of suspension or revocation shall be stayed during the pendency of any such appeal. The licensee may appeal the decision of the city council to the district court of the county in the manner provided by state statute. An order suspending or revoking a license hereunder shall not be stayed by an appeal from the city council to the district court.

All references in this chapter to the grant of a "franchise" and the rights and obligations of a "franchisee" shall likewise apply to the grant of a "license" and the rights and obligations of a "licensee" without the necessity of stating "franchise or license" except where the context clearly indicates application only to a franchise.
(Ord. No. 44-845 § 3.4)

Sec. 3.93.090. Nature of grant of franchise.

Franchises granted under authority of this chapter shall not convey title, equitable or legal, in the right-of-way, and gives only the right to occupy right-of-way, for the purposes and for the period stated in the individual franchises. A franchise does not excuse the franchisee from obtaining appropriate access or pole attachment agreements before locating its facilities on another person's facilities.
(Ord. No. 44-845 § 3.5)

Sec. 3.93.100. Acceptance.

No franchise or license granted under this chapter shall be effective until the franchisee or licensee shall have executed a written agreement setting forth the particular terms and provisions under which the rights to occupy and use the right-of-way will be granted. Such agreement may incorporate by reference provisions of this chapter, a right-of-way management ordinance, or other code provisions or city regulations. Written acceptance of a franchise in the manner provided by state law may constitute the writing required by this subsection.
(Ord. No. 44-845 § 3.6)

Sec. 3.93.110. Term.

A. The specific length of the term of the franchises granted hereunder shall be set out in the individual franchise. The term of the franchise notwithstanding, upon written request of either the city or a franchisee, the franchise may be reviewed at any time after four years from the effective date of the franchise and either the city or the franchisee may propose amendments to any provision of the franchise by giving thirty days written notice to the other of the amendment(s) desired. The city and franchisee shall negotiate in good faith in an effort to agree upon mutually satisfactory amendment(s).

B. Upon written request of either the city or the franchisee, the city and the franchisee shall negotiate in good faith in an effort to agree upon mutually satisfactory amendment(s) at any time upon any of the following events:

1. Change in federal, state or local law, regulation or order which materially affects any rights or obligations of either the city or a franchisee, including but not limited to the scope of the grant to the franchisee or the compensation to be received by the city;
2. Change in the structure or operation of the communications industry or the service provided though the system which materially affects any rights or obligations of either the city or a franchisee, including but not limited to the scope of the grant to the franchisee or the compensation to be received by the city;
3. Any other material and unintended change or shift in the economic benefit the city or the franchisee relied upon and anticipated upon entering into the franchise.

C. The compensation provision of the individual franchise shall be reopened and renegotiated in good faith if communication consumers within the city have access to alternative providers of communications services who use the right-of-way and do not pay a franchise fee or other payment substantially equivalent to what is required under this chapter and the franchise, which results in the application of compensation requirements that are discriminatory and not competitively neutral with respect to the franchisee. The use of right-of-way provisions of a franchise shall be reopened and renegotiated if consumers within the city have access to alternative providers of communications services through systems who use the right-of-way and do not have

requirements on the use of right-of-way substantially equivalent to the requirements of this chapter or a franchise, which results in a material and unfair disadvantage to the franchisee. Upon any such event, the city shall have up to one hundred eighty days after written request of the franchisee in which to restore competitive neutrality, provided that any adjustment in compensation resulting from renegotiations under this subsection C shall be effective no later than ninety days after receipt of such written request.

D. Failure of the city and franchisee to agree upon mutually satisfactory amendments or to successfully renegotiate the materially affected provisions of the franchise under subsection B or C of this section shall give rise to dispute resolution as follows: At the expiration of one hundred eighty days from the date of the written request (or sooner if requested by both the city and the franchisee) the city and the franchisee shall each select a representative who shall jointly select a third representative. The three representatives shall hear the positions of the city and franchisee and shall determine the matters in disagreement by majority vote. Such decision shall be presented to the city and the franchisee as the renegotiated language under subsection B or C of this section. Rejection of the dispute resolution by either the city or the franchisee shall give rise to a right to terminate the franchise, or at the option of the parties, the franchise shall remain in effect according to its then existing terms.

E. The franchise shall remain in effect according to its terms pending completion of any review or renegotiation provided by this section.
(Ord. No. 44-845 § 3.7)

Sec. 3.93.120. Amendment and renewal.

Any amendment of a franchise shall be subject to the procedures of the Franchise Act, K.S.A. 12-2001, et seq. No franchise or license shall be extended in term or renewed until any ongoing violations or defaults in the performance of the franchise or license agreement or the requirements of this chapter have been cured, or a plan detailing the corrective action to be taken by the franchisee or licensee has been approved by the city.
(Ord. No. 44-845 § 3.8)

Sec. 3.93.130. Use of right-of-way—Police powers—Franchisees' use subordinate.

Facilities shall be placed with adequate clearance from existing public or private utilities in the right-of-way or a public project so as not to impact or be impacted by such public or private utilities or improvements or public project. Every franchisee shall construct and maintain its facilities in accordance with all applicable federal, state and local laws, including all permit requirements, fee payments, and all other city codes and chapters in effect as of the date of the ordinance codified in this chapter or hereinafter adopted to the extent not in contravention of state or federal law. The grant of a franchise pursuant to this chapter does not in any way impact the continuing authority of the city through the proper exercise of its home rule powers to adopt and enforce ordinances necessary to provide for the health, safety and welfare of the public. In granting a franchise the city makes no express or implied representation or warranty regarding its rights to authorize the installation or construction of facilities on any particular segment of right-of-way. The burden and responsibility for making all such determinations in advance of construction or installation shall be entirely upon the franchisee. The use of the right-of-way authorized by a franchise granted pursuant to this chapter shall in all matters be subordinate to the city's use and rights therein, except to the extent that the city's use of the right-of-way is for the provision of commercial communications services. A franchisee shall coordinate the placement of its facilities in a manner that minimizes adverse impact on public and private improvements, as reasonably determined by the city engineer.
(Ord. No. 44-845 § 3.9)

Sec. 3.93.140. No interference.

Every franchisee shall construct and maintain its facilities so as not to interfere with other users of the right-of-way. Except as may otherwise be provided, a franchisee shall notify all residents affected by the proposed work prior to commencement of such work. Notice shall include, where reasonably possible, ten days in advance of construction, a letter, and/or door hanger describing

the work to be done, time of beginning and completing the work, the name of the company, and a phone number to contact the company seven days a week, twenty-four hours a day. All construction and maintenance by a franchisee or its subcontractors shall be performed in accordance with industry standards. All facilities determined by the city engineer to be in interference shall be moved by the franchisee at the franchisee's own expense.
(Ord. No. 44-845 § 3.10)

Sec. 3.93.150. Exclusion of certain locations/facilities.

Prior to a franchisee's installation of any facilities in the right-of-way and after it provides the city with its proposed plans for the facilities, the city may in its reasonable discretion designate certain locations or facilities in the right-of-way to be excluded from use by a franchisee for its facilities, including but not limited to ornamental or similar specially-designed streets lights, or other facilities or locations which, in the reasonable judgment of the city engineer do not have electrical service adequate or appropriate for the franchisee's facilities or cannot safely bear the weight or wind loading thereof, or any other facility or location that in the reasonable judgment of the city engineer is incompatible with the proposed facilities or would be rendered unsafe or unstable by the installation, provided that all franchisees are treated in a similar manner. The city engineer may further exclude certain other facilities that have been designated or planned for other use or are not otherwise available for use by a franchisee due to engineering, technological, proprietary, legal, or other limitations or restrictions as may be reasonably determined by the city. The city shall provide a written explanation for any denial for a particular location and shall work with a franchisee to identify other suitable routes.
(Ord. No. 44-845 § 3.11)

Sec. 3.93.160. Location, type and design of facilities subject to approval.

A. The design, location, and nature of all facilities shall be subject to the reasonable review and approval of the city engineer in a nondiscriminatory manner. This is a means to properly manage and control all right-of-way usage in the city, and to protect the public health, safety, and welfare. The review and approval is to ensure efficient coordination relating to right-of-way use relating to public and private utilities and to evaluate the configuration and size of facilities that may be located in the right-of-way or other public or private property.

B. Except as provided herein, all facilities constructed by a franchisee shall be placed underground unless otherwise agreed to by the city.

1. Whenever any one or more existing facilities for electrical, cable, or communications services are located underground in the right-of-way, all new or replacement facilities shall be placed underground.
2. Where there are obstructions in the right-of-way such as trees, shrubs, utilities, commercial signs, manmade structures, or other like obstructions which make the cost of underground construction unreasonable, a franchisee may request waiver of this requirement, in which event the city will not unreasonably withhold its consent.
3. When a franchisee is allowed to place facilities above ground under this section, the franchisee may attach its facilities to an existing utility pole pursuant to a properly executed agreement with the pole owner; provided, however, that any necessary replacement of the pole in order to accommodate the attachment shall be subject to the proper exercise of the city's police powers, and in no instance shall a franchisee erect a new pole within an existing aerial pole line absent the city's prior authorization.
4. Aboveground pedestals, vaults, or other aboveground facilities, may be installed only if approved by the city where alternative underground facilities are not feasible or where underground requirements are otherwise waived pursuant to this section, and shall generally be located behind the sidewalk where feasible and shall be screened from public view. Facil-

ities in rear lot easements shall be exempt from the screening requirements except when they are within fifty feet of a street or highway.

5. The underground requirements of this subsection B shall not apply to the maintenance and repair of existing facilities, as determined by the city engineer.

C. Except as may otherwise be provided by other applicable chapters of the city, where reasonable and appropriate and where adequate public right-of-way exist, a franchisee shall place aboveground facilities underground in conjunction with city capital improvement projects and/or at specific locations requested by the city provided that such placement is practical, efficient, and economically feasible.

D. Wired access point antenna located on the right-of-way, other city-owned, or controlled property shall not be authorized by this chapter, but shall require a separate lease or use agreement with the city. Wireless facilities shall be subject to the wireless ordinance of the city.

E. All facilities, whether on right-of-way or public or private property, shall also be subject to size and height limitations or other applicable zoning restrictions in accordance with any generally applicable ordinance adopted by the city.
(Ord. No. 44-845 § 3.12)

Sec. 3.93.170. Co-location and additional facilities requirements—Planned infrastructure.

A. Prior to trenching and/or constructing any new or additional underground conduit within the right-of-way, a franchisee shall certify in writing to the city engineer that it has made appropriate inquiry to all existing utilities and other entities possessing a right to occupy the right-of-way as to the availability of existing or planned trenching and/or conduit that the franchisee could reasonably utilize to meet its needs, and that no such conduit is available or planned at a reasonable cost by any other entity on the time schedule reasonably needed by franchisee. Entities contacted for purposes of this section shall respond to the contacting party within fifteen working days following such request.

B. All entities subject to this chapter shall make space in its trench and/or conduit within the right-of-way available to other franchisees consistent with the federal requirements of 47 U.S.C. Section 224.

C. Upon a determination that no such trenching and/or conduit is available, a franchisee may trench and/or install new conduit pursuant to the following requirements:

1. The franchisee shall provide written notification of the proposed construction activity to all other existing utilities and franchise holders, who shall have fifteen days from the receipt of such notification to indicate in writing to the city and the franchisee as to whether they desire to jointly undertake the construction of such trenching and/or conduit or otherwise co-locate their facilities or a system at such time. Any utility or franchise holder electing to jointly construct or co-locate its facilities or a system with that of franchisee shall share in the pro-rata costs of such construction or co-location of facilities and/or system reasonably incurred by franchisee and shall participate in the project on the same time schedule as reasonably established by both the franchisee and the city acting through the utility location and coordination council established by Sections 2.12.1093, et seq., of this Code.

2. When a franchisee installs any new trench and/or conduit, the franchisee shall, at the request of the city engineer to enable co-location by city or other entities, install sufficient additional space and/or conduit or other related facilities to meet the city's planned infrastructure needs and needs of other entities planning development of facilities in the area. Such excess conduit shall at the option of the franchisee either (1) be owned by the city, or (2) be owned by a franchisee. If ownership of the conduit is transferred to the city, the city shall reimburse the franchisee in the amount of the incremental cost of the labor and material of installing the excess conduit simultaneous with the franchisee's con-

duit. Such reimbursements are subject to review and approval by the city. If the franchisee retains ownership of the excess conduit, the franchisee shall be obligated to make such conduit and/or trench space available to any other user of the rights-of-way on a nondiscriminatory basis at not more than the prorata cost of that portion of the excess conduit determined by the total labor and material cost of all facilities at that location. Such requirements shall be administered and applied on a competitively neutral and nondiscriminatory basis to maximize the available space in the rights-of-way and to minimize the total number of excavations and cost of total communications infrastructure installation.

(Ord. No. 44-845 § 3.13)

Sec. 3.93.180. Right-of-way management code.

The city reserves its rights to adopt a right-of-way management and construction standards chapter of general applicability pursuant to its public health, safety and welfare authority which shall apply to any franchise granted pursuant to this chapter except where inconsistent with a material term of any such franchise.

(Ord. No. 44-845 § 3.14)

Sec. 3.93.190. Underground facility locating service.

A franchisee shall cooperate with and participate fully in a reputable underground facility locating service and shall participate in Kansas One Call to insure that damage and/or interference with other underground facilities occupants is minimized.

(Ord. No. 44-845 § 3.15)

Sec. 3.93.200. Conditions relating to private property.

If (1) a franchisee should in the course of the construction and/or reconstruction of the system elect to place underground facilities in the public utility easement on private property where there was, at the time of the franchisee's election, space available for the installation of such plant within the right-of-way, and (2) a franchisee should fail, neglect or refuse to take pre-construction photography (or videography) of the condition of any private property upon which underground construction is to occur, a franchisee shall have the burden of proof as to the condition of the private property prior to the initiation of such construction in any subsequent complaint resolution, arbitration or judicial procedure between a franchisee and the private property owner. If a franchisee enters private property for the purposes of construction where there is no dedicated public easement, the franchisee shall first secure the private property owner's written consent.

(Ord. No. 44-845 § 3.16)

Sec. 3.93.210. Permit requirements.

This chapter and individual franchises establish the general rules and scope of authority for a franchisee to construct and maintain its communications system within the right-of-way. The franchisee is still required to obtain individual permitting approval from the city engineer prior to engaging in actual construction of its specific facilities within the right-of-way. At least fifteen days before the beginning of any installation, removal or relocation of its facilities, a franchisee shall submit detailed plans of the proposed action to the city engineer. The city engineer shall, within fifteen days of receipt of such plans, either approve the plans or inform the franchisee of the reasons for disapproval. The franchisee shall designate a responsible contact person with whom representatives of the city engineer can communicate with on all matters relating to facilities installation and maintenance.

A. Prior to any excavation within the right-of-way, a franchisee shall obtain a permit, pay all applicable fees, and perform such work in accordance with applicable provisions of the city ROW management code, and any ordinances or regulations that may be adopted by the city regarding excavation work.

B. Every franchisee shall post a bond with the city in accordance with the city's ordinances in an amount determined by the city engineer, to guarantee the timeliness

and quality of any construction, repair and restoration work, including damage to public or private property, and to guarantee the removal of its facilities from the city's right-of-way should such removal be required upon the expiration of its franchise. Such bond amount shall not exceed the estimated costs of the specific construction activity, and within six months of satisfactory completion of the construction project the bond amount shall be reduced to an amount of no more than one tenth of the initial face amount of the bond. The city attorney in the reasonable exercise of its discretion may waive the bond requirements upon a sufficient demonstration of self-insurance.

C. Prior to the commencement of any construction or alteration of its facilities located in the right-of-way, a franchisee shall, if requested by the city engineer, furnish to the city engineer a subsurface utility engineering study based on available records maintained by existing utility companies, on the proposed route of construction, expansion or alteration, which must be approved by the city engineer. The study must consist of the following tasks:

1. All available plans, plats and other location data indicating the existence and approximate location of all facilities along the proposed construction route;
2. Completion of a visual survey and written record of the location and dimensions of any aboveground features of any underground facilities along the proposed construction route, including but not limited to manholes, valve boxes, utility boxes, post and visible street cut repairs;
3. Plot and incorporate the data obtained from completion of tasks 1 and 2 as set forth in this subsection, onto the franchisee's proposed system route maps, plan sheets and computer aided drafting and design (CADD) files; and
4. Provide all such data collected into a CADD file (or other format as may be identified by the city engineer) compatible with that used by the city engineer and deliver a copy to the city engineer.

(Ord. No. 44-845 § 3.17)

Sec. 3.93.220. Franchisees subject to wireless ordinances.

Any franchise notwithstanding, all franchisees operating wireless communications systems within the city are subject to all of the applicable ordinances and zoning requirements of the city related to such activities.
(Ord. No. 44-845 § 3.18)

Sec. 3.93.230. As-built drawings.

Every franchisee shall keep and maintain accurate records and as-built drawings, in both paper and electronic format, of all facilities (except customer service lines) constructed, reconstructed, or relocated in the right-of-way of arterial streets (as designated by Section 11.96.100) after the date hereof. Such facilities shall be horizontally and vertically located at least every one hundred feet and at any other alignment change. All points of facilities shall be horizontally located from street centerline, or section or quartersection lines or corners. Vertical locations on all points of facilities shall consist of elevations in either city datum or United States Geological Survey datum. The franchisee shall cooperate promptly and fully with the city and take all reasonable measures necessary to provide accurate and complete information regarding the nature and horizontal and vertical location of its facilities located within rights-of-way when requested by the city or its authorized agents for a public project. Such location and identification shall be at the sole expense of the franchisee without expense to the city, its employees, agents or authorized contractors.
(Ord. No. 44-845 § 3.19)

Sec. 3.93.240. Agent.

Every franchisee shall designate and maintain an agent, familiar with the facilities, who is

responsible for timely satisfaction of the information needs of the city and other users of the right-of-way.
(Ord. No. 44-845 § 3.20)

Sec. 3.93.250. Franchisees responsible for costs.

The franchisee shall be responsible for all costs borne by the city that are directly associated with a franchisee's installation, maintenance, repair, operation, use, and replacement of its facilities within the right-of-way, that are not otherwise accounted for as part of the permit fee established pursuant to the right-of-way ordinance. All such costs shall be itemized and the city's books and records related to these costs shall be made available upon request to the franchisee. The franchisee shall be responsible for its own costs incurred removing or relocation its facilities when required by the city due to city requirements relating to maintenance and use of the right-of-way for city purposes.
(Ord. No. 44-845 § 3.21)

ARTICLE 4. FRANCHISE AND LICENSE FEES

Sec. 3.93.260. Application fees.

No franchise shall be issued without submission of an application and payment of a nonrefundable application fee to the city of five thousand dollars. Every franchisee shall also be responsible for payment of any reasonable costs incurred by the city in processing these applications or in adapting or executing a franchise for use by the franchisee to the extent such costs exceed the application fees paid.
(Ord. No. 44-845 § 4.1)

Sec. 3.93.270. Franchise fees.

Every franchisee (but not licensee) shall pay to the city as compensation for the use of the right-of-way pursuant to any franchise granted under this chapter the following franchise fees to the city:

A. Interim Period. From the effective date of the ordinance codified in this chapter to June 30, 2002, franchisees providing communications services either originating or terminating within the city shall pay the sum of one dollar and eighty-one cents per month for each access line served by the franchisee within the city limits ("access line charge"), or at the option of a franchisee, five percent of gross receipts, provided that in no event during this "interim period" shall franchisee's total monthly payment be less than the amount due pursuant to an access line charge.

B. Effective July 1, 2002. Effective July 1, 2002 and thereafter, all franchisees providing communications services either originating or terminating within the city shall pay five percent of gross receipts.

C. Pass Through Services. Every franchisee that provides pass through services within the city who does not otherwise pay a gross receipts fee, shall pay an annual fee of two dollars and fifty cents per linear foot of right-of-way occupied by the franchisee's facilities. Beginning in 2003, the annual fee shall be adjusted in an amount equal to the change in the Consumer Price Index for all Urban Consumers (CPI-U) for the preceding year; this annual rate and the adjustment thereof shall be maintained by the city treasurer.

(Ord. No. 44-845 § 4.2)

Sec. 3.93.280. License fees.

Every licensee shall pay to the city the costs for the use of the right-of-way pursuant to any license granted under this chapter or a right-of-way management ordinance the following license fees to the city:

A. Application Fee. Prior to the grant of a license, an applicant for a license shall submit an application and make payment of a nonrefundable application fee based upon a charge of fifty cents per linear foot of right-of-way to be occupied by the facilities, up to a maximum of five thousand dollars. Every licensee shall also be responsible for payment of any reasonable costs incurred by the city in processing these applications or in adapting or exe-

cuting an agreement for use by the licensee to the extent such costs exceed the application fees paid.

B. License Fee. A licensee shall pay to the city an annual fee based upon two dollars and fifty cents per linear foot of right-of-way occupied by the licensee's facilities. Such annual fee may be adjusted to one dollar and twenty-five cents per linear foot for that portion of the right-of-way for which licensee would otherwise qualify for a minor street permit under the city code. Beginning in 2003, the annual fee shall be adjusted in an amount equal to the change in the Consumer Price Index for all Urban Consumers (CPI-U) for the preceding year; this annual rate and the adjustment thereof shall be maintained by the city treasurer.

(Ord. No. 44-845 § 4.3)

Sec. 3.93.290. Timing of payment of fees.

Unless otherwise agreed to as part of the franchise, all franchise fees shall be due and payable on a monthly basis within thirty calendar days of the last day of each preceding month, except that annual franchise and license fees shall be due and payable for each calendar year in a lump sum on or before July 1 of that calendar year. The annual fee shall be pro rated on a monthly basis from the effective date for the initial year of the franchise or license.
(Ord. No. 44-845 § 4.4)

Sec. 3.93.300. Interest on late payments and under payments.

If any franchise fee, or any portion thereof, is not postmarked or delivered on or before the due date, interest thereon shall accrue from the due date until received, at the applicable statutory interest rate.
(Ord. No. 44-845 § 4.5)

Sec. 3.93.310. Fee statement.

Each franchise fee payment shall be accompanied by a statement showing the manner in which the franchise fee was calculated. If any fee statement is determined to understate the fee owed, then such additional amount owed shall be made with a corrected statement, including interest on such amount as provided herein. Within ninety calendar days following the end of the calendar year, each person that paid a franchise fee shall submit a statement, certified as true, setting forth its gross receipts, and describing what revenues or receipts were included and excluded in the fee calculations for the calendar year, and describing any adjustments made in determining the franchise fee, or if applicable shall submit an accounting of the amount of linear feet of right-of-way occupied by the franchisee's facilities.
(Ord. No. 44-845 § 4.6)

Sec. 3.93.320. No accord and satisfaction.

No acceptance by the city of any franchise fee shall be construed as an accord that the amount paid is in fact the correct amount, nor shall acceptance of any franchise fee payment be construed as a release of any claim of the city.
(Ord. No. 44-845 § 4.7)

Sec. 3.93.330. Maintain records.

Every franchisee shall at all times maintain complete and accurate books of account and records of the business, ownership, and operations of the franchisee with respect to the system in a manner that allows the city to determine whether the franchisee has properly calculated its franchise fee in compliance with this chapter. Should the city reasonably determine that the records are not being maintained in such manner, the franchisee shall correct the manner in which the books and/or records are maintained so that the franchisee comes into compliance with this section for a period of five years. All financial books and records which are maintained in accordance with FCC regulations and the regulations of any governmental entity that regulates utilities in Kansas, and generally accepted accounting principles shall be deemed to be acceptable under this section.
(Ord. No. 44-845 § 4.8)

Sec. 3.93.340. Right of inspection.

The city or its designated representatives shall have the right to inspect, examine or audit, dur-

ing normal business hours and upon reasonable notice, all documents, records or other information that pertains to a franchisee's system and/or franchise fee obligations under this chapter and applicable franchise. In addition to access to the records of the franchisee for audits, upon request, a franchisee shall provide reasonable access to records necessary to verify compliance with the terms of this chapter and any franchise.
(Ord. No. 44-845 § 4.9)

Sec. 3.93.350. Payment of taxes—Franchise fee not a tax.

The franchise fees required herein as part of any franchise shall be in addition to, not in lieu of, all taxes, charges, assessments, licenses, fees and impositions otherwise applicable that are or may be imposed by the city, except that the franchisee shall be entitled to a credit in payment of franchise fees in the amount of any telecommunications service occupation tax due pursuant to Chapter 3.01 of this Code, as may be amended. The franchise fee is compensation for use of the right-of-way and shall in no way be deemed a tax of any kind.
(Ord. No. 44-845 § 4.10)

Sec. 3.93.360. Duty to notify city of resellers.

Within thirty days of a franchisee carrying any communications services of any reseller service provider through the franchisee's facilities, the franchisee shall notify the city of the name and address of such reseller service provider and provide to the city a written commitment as to the payment of franchise fees for the revenues attributable to such reseller service provider.
(Ord. No. 44-845 § 4.11)

Sec. 3.93.370. Sale or lease of conduit.

Except as otherwise may be provided by law, a franchisee shall not lease, sell or authorize the use of any conduit within the city's right-of-way to a nonaffiliated third person for the installation of that person's communications system for any purpose if that person has not obtained a duly issued franchise, or other grant by the city to use the right-of-way and which includes the authority to use or maintain such system.
(Ord. No. 44-845 § 4.12)

Sec. 3.93.380. Bundled services.

Gross receipts from bundled services shall be deemed attributable to services subject to the franchise fee. The burden will be on the franchisee to prove in a manner reasonably acceptable to the city that any receipt or charge is not intended to be included within gross receipts. For the purpose of calculating gross receipts, discounts shall be applied equally to all services; the same percentage of discount shall be applied to each service included in the bundled bill.
(Ord. No. 44-845 § 4.13)

ARTICLE 5. OPEN VIDEO SERVICE

Sec. 3.93.390. Open video service.

If a franchisee, granted a franchise pursuant to this chapter, intends to offer in the city open video services, it shall comply with all applicable federal, state and local laws, including rules of the Federal Communications Commission applicable to such service. The city may in its discretion modify the terms of a franchise or otherwise require a franchisee to obtain a separate franchise to implement such requirements as the city may be authorized to make applicable to a franchisee. This may include a payment of a franchise fee to the city of five percent of the open video system gross revenues, and conditions related to public, educational, and governmental access channels and funding.
(Ord. No. 44-845 § 5)

ARTICLE 6. TRANSFER OF OWNERSHIP

Sec. 3.93.400. Consent of city required.

No franchisee shall sell, transfer, lease, assign, sublet, or dispose of in whole or in part, either by forced or involuntary sale, or by ordinary sale, consolidation, or otherwise, a franchise granted hereunder or any of the rights or privileges granted by such franchise, without the prior written con-

sent of the city. Such consent shall not be unreasonably withheld, delayed or denied. The city reserves the right to be reimbursed for its reasonable costs relating to a transfer of ownership.
(Ord. No. 44-845 § 6.1)

Sec. 3.93.410. Exception to consent requirement.

Any assignment or transfer shall not require consent of the city when the franchise is assigned, sold or transferred between wholly-owned subsidiaries of a parent corporation, provided that the franchisee provides advance written notice to the city. In all such instances, the new franchisee shall be responsible for all franchise requirements and obligations.
(Ord. No. 44-845 § 6.2)

Sec. 3.93.420. Assigning franchise rights, interests and obligations.

Notwithstanding Section 3.93.400, the city acknowledges and agrees that a franchisee may assign or collaterally assign, in whole or in part, its rights, interests and obligations hereunder without limitation to any of its affiliates, any party providing financing to a franchisee, and any successors and assigns of the foregoing without the consent of the city. A franchisee will provide the city with notice of any such assignment. The city agrees that the holder of any security interest shall not be prevented or impeded by the city from enforcing such security interest and shall not terminate the franchise without the prior written consent of the assignee. The city shall execute all consents to assignment and/or acknowledgements of any security interest as are required by a franchisee to give effect to the foregoing. Such acknowledgements may contain an agreement to allow the holder of such security interest to cure defaults by the franchisee under this chapter or a franchise granted pursuant to it and consent to allow the assignment to the successors-in-interest of the holder of such security interest.
(Ord. No. 44-845 § 6.3)

ARTICLE 7. GENERAL CONDITIONS

Sec. 3.93.430. Compliance with laws.

A franchise granted pursuant to terms of this chapter shall include a provision which acknowledges that the city and the franchisee shall comply with all applicable federal, state and local laws, ordinances, regulations and policies, including, but not limited to, all laws, ordinances, regulations and policies relating to construction and use of public property.
(Ord. No. 44-845 § 7.1)

Sec. 3.93.440. Enforcement—Attorney's fees.

The city shall be entitled to enforce this chapter, and, any franchises granted pursuant to it, through all remedies lawfully available, and a franchisee shall pay the city reasonable attorneys' fees in the event that the franchisee is determined judicially to have violated the terms of this chapter or a franchise.
(Ord. No. 44-845 § 7.2)

Sec. 3.93.450. Advertising, signs or extraneous markings.

No franchisee shall place or cause to be placed any sort of signs, advertisements or other extraneous markings, whether relating to a franchisee or any other person or entity on the public right-of-way, except such necessary minimal markings as approved by the city as are reasonably necessary to identify the facilities for service, repair, maintenance or emergency purposes, or as may be otherwise required to be affixed by applicable law or regulation.
(Ord. No. 44-845 § 7.3)

Sec. 3.93.460. Tree protection.

In the attachment, installation, removal, reattachment, reinstallation, relocation or replacement or otherwise of the facilities, franchisees shall comply with the tree pruning ordinance of the city.
(Ord. No. 44-845 § 7.4)

Sec. 3.93.470. Forfeiture of privilege.

In case of failure on the part of a franchisee, its successors and assigns, to comply with any of the material provisions of this chapter or franchise granted hereunder, or if a franchisee, its successors and assigns, should do or cause to be done any act or thing prohibited by or in violation of the material terms of this chapter or a franchise,

the franchisee, its successors and assigns, shall forfeit all rights and privileges permitted herein, and all rights under the franchise shall cease, terminate and become null and void, provided that such forfeiture shall not take effect until the city shall carry out the following proceedings: Before the city proceeds to forfeit a franchise, it shall first serve a written notice upon the franchisee, setting forth in detail the neglect or failure complained of, and the franchisee shall have thirty days thereafter in which to cure the default by complying with the conditions of this chapter or the franchise. If at the end of such thirty day period the city determines that the conditions have not been complied with the city shall take action by an affirmative vote of the city council present at the meeting and voting, to terminate the franchise; setting out the grounds upon which such franchise is to be canceled or terminated. A franchisee may, upon thirty days notice to the city, appeal to district court.
(Ord. No. 44-845 § 7.5)

Sec. 3.93.480. Removal of facilities.

Upon expiration of a franchise, whether by lapse of time, by agreement between a franchisee and the city, or by forfeiture thereof, a franchisee shall remove, at its sole cost, from public property any and all of its facilities that are the subject of its franchise within a reasonable time after such expiration, not to exceed one hundred eighty days, and, it shall be the duty of the franchisee immediately upon such removal to restore the right-of-way from which the facilities are removed to as good a condition as the same were before the removal was effected and as otherwise required by the city. Notwithstanding the foregoing, upon request of a franchisee, the city may allow underground facilities to be left in place when it is not practical or desirable to require removal.
(Ord. No. 44-845 § 7.6)

Sec. 3.93.490. Relocation of facilities.

A. Every franchisee shall promptly locate, remove, relocate or adjust any facilities located in a right-of-way if reasonably necessary and requested by the city for a public project. Such location, removal, relocation or adjustment for a particular public project shall be performed by the franchisee once without expense to the city, its employees, agents, or authorized contractors and shall be specifically subject to rules and regulations of the city pertaining to such; provided, that if the franchisee demonstrates to the satisfaction of the city that the facility was originally established in a private easement that thereafter became part of the right-of-way, the removal, relocation or adjustment shall be without expense to the franchisee. If additional location, removal, relocation or adjustment is the result of the inaccurate or mistaken information of the franchisee, the franchisee shall be responsible for costs associated with such without expense to the city.

B. The franchisee shall not be responsible for the expenses of relocation to accommodate any new public project for private development. The expenses attributable to such a project shall be the responsibility of the third party upon the request and appropriate documentation of the franchisee. Before such expenses may be billed to the third party, the franchisee shall be required to coordinate with the third party and the city on the design and construction to ensure that the work required is necessary and done in a cost effective manner. Upon the request of the franchisee or the third party, the allocation of expenses attributable to the project shall be made in the reasonable determination of the city. Eligible third parties may request to have the city specially assess those expenses billed by the franchisee under this section. The city will use its best efforts, but is not required, to continue to provide a location in the right-of-way for the franchisee's facilities as part of a public project, provided that the franchisee has cooperated promptly and fully with the city in the design of its facilities as part of the public project.

C. Every franchisee shall temporarily remove or raise or lower its wires or other facilities upon request of any other person requesting relocation of facilities and holding a validly issued building or moving permit of the city. The expense of such temporary removal, raising or lowering shall be paid by the party or parties requesting the same, and the franchisee may request such payment in advance. A franchisee shall be given not less than fifteen days written notice from the permit holder detailing the time and location of the moving

operations, and not less than twenty-four hours advance notice from the permit holder advising of the actual operation. The city shall not be liable for any such expense or notice requirement for the moving of houses or structures by the city or its contractors.
(Ord. No. 44-845 § 7.7)

Sec. 3.93.500. Nondiscrimination.

All franchises and licenses shall provide that a franchisee or licensee will not, on the grounds of race, color, sex, religion, national origin, ancestry, disability, or age discriminate or permit discrimination against any person in the use of city facilities or in activities under the franchise or license.
(Ord. No. 44-845 § 7.8)

ARTICLE 8. CONFIDENTIAL INFORMATION

Sec. 3.93.510. Confidential information.

By entering into a franchise, the franchisee acknowledges and agrees that the franchise and certain information required to be filed with the city pursuant to this chapter and such franchise are subject to inspection and copying by the public pursuant to the provisions of the Kansas Open Records Act, K.S.A. 45-215 et seq. To the extent allowed by Kansas law, if requested by a franchisee, the city shall preserve a franchisee's information obtained in the course of a franchisee's use of the right-of-way hereunder as confidential, and with the same degree of care in protecting its own confidential or proprietary information, however, in no event less than reasonable care. It is understood and agreed by a franchisee that the city has the right to disclose information obtained pursuant to this chapter to governmental agencies having requisite governmental or judicial authority over the terms of the franchise, provided that the city has given the franchisee prior written notice of impending disclosure and the franchisee has a reasonable opportunity to seek confidential status or protective order or other such appropriate remedy. The obligations under this Article 8 shall survive termination of such franchise.
(Ord. No. 44-845 § 8)

ARTICLE 9. LIABILITY AND INDEMNIFICATION

Sec. 3.93.520. Protection against harm or damage.

It shall be the responsibility of every franchisee to take adequate measures to protect and defend its facilities in the right-of-way from harm or damage. If the franchisee fails to accurately or timely locate facilities when requested, it has no claim for cost or damages against the city and its authorized contractors unless such party is responsible for the harm or damage by its negligence or intentional conduct. The franchisee shall be responsible to the city and its agents, representatives and authorized contractors for all damages including, but not limited to, delay damages, repair costs, down time, construction delays, penalties or other expenses of any kind arising out of the failure of the franchisee to perform any of its obligations under this chapter or franchise except to the extent the damaged party is responsible for the harm or damage by its negligence or intentional conduct. Provided, however, the city and its authorized contractors shall be responsible to take reasonable precautionary measures including calling for utility locations and observing marker posts when working near a franchisee's system.
(Ord. No. 44-845 § 9.1)

Sec. 3.93.530. City held harmless.

Every franchisee shall hold and save and defend the city its officers, employees, agents and authorized contractors, harmless from and against all claims, damages, expense, liability and costs including attorney fees, to the extent occasioned in any manner by the grant of a franchise to a franchisee or its enforcement by city and franchisee's occupancy including construction, operation, maintenance and use of the right-of-way, except to the extent otherwise specified in Section 3.93.520. In the event a claim shall be made or an action shall be instituted against the city arising from any of the causes enumerated in this section, then upon notice by the city to the franchisee, the franchisee shall assume liability for the defense of

such actions at the cost of the franchisee, subject to the option of the city to appear and defend, at its own cost, any such case.
(Ord. No. 44-845 § 9.2)

ARTICLE 10. INSURANCE

Sec. 3.93.540. Insurance required.

During the term of any franchise, unless specified otherwise, every franchisee shall obtain and maintain insurance coverage at its sole expense, with financially reputable insurers that are licensed to do business in the State of Kansas. Should the franchisee elect to use the services of an affiliated captive insurance company for this purpose, that company shall possess a certificate of authority from the Kansas Insurance Commissioner. The franchisee shall provide not less than the following insurance:

A. Workers' compensation as provided for under any worker's compensation or similar law in the jurisdiction where any work is performed with an employers' liability limit equal to the amount required by law.

B. Commercial general liability, including coverage for contractual liability and products completed operations liability on an occurrence basis and not a claims made basis, with a limit of not less than two million dollars combined single limit per occurrence for bodily injury, personal injury, and property damage liability. The city shall be included as an additional insured with respect to liability arising from the franchisee's operations under this chapter or the franchise.

(Ord. No. 44-845 § 10.1)

Sec. 3.93.550. Certificate of insurance.

A franchisee shall, as a material condition of its franchise, prior to the commencement of any work and prior to any renewal thereof, deliver to the city a certificate of insurance, satisfactory in form and content to the city, evidencing that the above insurance is in force and will not be cancelled or materially changed with respect to areas and entities covered without first giving the city thirty days prior written notice. The franchisee shall make available to the city on request the policy declarations page and a certified copy of the policy in effect, so that limitations and exclusions can be evaluated for appropriateness of overall coverage.
(Ord. No. 44-845 § 10.2)

Sec. 3.93.560. Liability not limited.

Nothing contained in this chapter or an individual franchise shall limit a franchisee's liability to the city to the limits of insurance certified or carried.
(Ord. No. 44-845 § 10.3)

ARTICLE 11. UNLAWFUL TO OPERATE WITHOUT A FRANCHISE

Sec. 3.93.570. Franchise required.

It is unlawful for any person to construct, operate or maintain a communications system or to provide communications services in the city utilizing city rights-of-way without a valid, unexpired franchise or license, unless otherwise specifically authorized under applicable federal or state law. Any person who violates any provisions of this chapter shall be guilty of a misdemeanor and shall be subject to a fine of two thousand five hundred dollars per day. The payment of such fine notwithstanding, all such violators shall be subject to all other applicable provisions of this chapter to the fullest extent allowed by law, including but not limited to the payment of a franchise fee.
(Ord. No. 44-845 § 11)

ARTICLE 12. INVALIDITY AND REMEDIES

Sec. 3.93.580. Validity of provisions.

The invalidity in whole or in part of any provision of this chapter shall not affect the validity of any other provision.
(Ord. No. 44-845 § 12.1)

Sec. 3.93.590. Franchise rights and remedies.

The right and remedies of the parties under a franchise shall be cumulative and in addition to

any other rights and remedies provided by law or equity. A waiver of a breach of any provision thereof shall not constitute a waiver of any other breach. The laws of the State of Kansas shall govern this chapter and any franchises granted hereunder.
(Ord. No. 44-845 § 12.2)

ARTICLE 13. EFFECTIVE DATE

Sec. 3.93.600. Effective date.

This chapter shall be included in the code of the City of Wichita and shall be effective upon passage and publication once in the official city paper.

Sec. 3.94.010. Findings and purpose.

It is hereby found that farmer's markets, as defined herein, operate businesses or conduct activities, in most cases, as retail operations and with a personal profit or non-profit purpose. The Governing Body finds that it is necessary, in the interest of the public health, safety, and welfare, to regulate the time, place, and manner of farmer's market activities within the City. It is the purpose of this chapter, therefore, to control certain farmer's market activities, to require certain licensing procedures, to assist in regulating farmer's markets, to protect consumers, and to protect adjoining property owners as well as the integrity of residential and commercial districts within the City.
(Ord. No. 47-026, § 1, 5-16-06)

Sec. 3.94.020. Definitions.

For the purpose of this chapter, the following words shall have the following meanings, unless the context otherwise requires.

(a) "Farmer's Market" means an outdoor place or market area with a formalized location where more than one Kansas farmer or grower gathers to sell agricultural products they have grown or raised. Other activities and other sellers may be accommodated at the market, but the sale of agricultural products shall be the focal point of the market activity. Other products that may be sold would typically include dried flowers, plants, nursery products, crafts and handicrafts that are made in the home, original artwork and certain prepared foods as approved by the City of Wichita Environmental Services Department, such as baked goods, preserves, pickles and cheese.

(b) "Person" means any individual, corporation, partnership, association or other entity.

(c) "Market Operator" means the person responsible for running and managing the farmer's market on a day-to-day, week-to-week and/or month-to-month basis. The Market Operator is the designated person responsible for operational decisions such as vendor selection and enforcement of the market's adopted and prescribed vendor rules and regulations. The market's rules and regulations must be in accordance with all relevant federal, state and local regulations. A copy of the rules and regulations for the market must be submitted to the City for review before a Farmer's Market license is issued.

(d) "Merchandise" means any agricultural produce, plants, nursery products, flowers, baked goods, handicrafts, goods, wares, food, food products, or any product of any kind that can be bought and sold.

(Ord. No. 47-026, § 2, 5-16-06)

Sec. 3.94.030. License required.

It shall be unlawful for any market operator or person, or any agent, servant or employee to engage in, carry on, or conduct a farmer's market without first having obtained the required license from the City. A separate farmer's market license is required for each location at which a farmer's market is held or conducted.
(Ord. No. 47-026, § 3, 5-16-06)

Sec. 3.94.040. License fees.

(a) An application for a farmer's market license shall be accompanied by a license application fee. Market operators may elect to include participating vendors and sellers who are otherwise required to be licensed by this Chapter as part of the market operator's license (but excluding those vendors or sellers defined in items (c)(i), and (c)(ii) below), or may elect to have participating vendors and sellers who are otherwise required to be licensed by the city separately obtain their required city licenses. The application fees for a farmer's market may be issued by the week, by the month, or on an annual basis per the following fee schedule:

Per week	$50.00
Per month	$75.00
Per 7 month growing season	$150.00

(b) A license shall be valid and effective only for the dates and times of operation set forth in the license, and for not longer than one seven month growing season, and no sales shall be conducted during any other hours on any other dates.

(c) A farmer's market license may be a blanket license for participating vendors, except for the following types of vendors, producers or sellers who are *required* to obtain their own separate City of Wichita license as set forth in the Code of the City of Wichita:

(i) Food vendors, food processors, food establishments or temporary food establishments as defined in State Law and by Chapter 7.22 of the Code of the City of Wichita. When a licensee is applying for said license solely to participate in an organized, city-licensed farmer's market, the license fees as set forth in Chapter 7.22 shall be waived.

(ii) Activities and/or operations of such a nature as to be considered an amusement ride, ride device, circus, carnival, rodeo or wild animal show per the Code of the City of Wichita.

(Ord. No. 47-026, § 4, 5-16-06)

Sec. 3.94.050. License nontransferable.

A license is not transferable to any other market operator, person, firm or corporation and cannot be used for any activity or at a location other than those listed on the application and approved for licensing.

(Ord. No. 47-026, § 5, 5-16-06)

Sec. 3.94.060. License application.

A farmer's market operator shall obtain a license through the City Treasurer's office. A license may be issued only upon the completion of a license application that shall be on a form provided by the City Treasurer. A separate farmer's market license is required for each location at which a farmer's market is held or conducted. The farmer's market application shall contain the following information:

(a) Name, date of birth and contact information of the market operator and applicant;

(b) The name and permanent address of the market operator making application, and, if the market operator is not an individual, the names and addresses of the officers of the corporation or members of the partnership, association, or other entity, as the case may be;

(c) If the market operator is a corporation, the name and permanent address of the market operator's registered agent or office;

the farmer's market license application. If any transient merchant vendor not included as part of the originally submitted and approved farmer's market license application subsequently participate in a licensed farmer's market, the market operator shall immediately provide the City required information for the vendor or vendors, or shall direct the transient merchant vendor or vendors to obtain required City transient merchant license or licenses. "Transient merchants" who participate in a farmer's market may separately apply for their own license with the City of Wichita if they are not included as part of the farmer's market license application. However, any participating "transient merchant" shall be licensed under either the farmer's market license or under their own separately-obtained "transient merchant" license;

(h) The specific date(s) and times for which the right to operate the farmer's market is desired;

(i) A sketch or drawing of the proposed farmer's market site showing the approximate dimensions of the area being used, the proximity to buildings, parking lots, rights-of-way or other such areas, and a description of any structure, implement, stand, display prop, or other such items used for the farmer's market, including signs, banners or other attention getting devices;

(j) The name, address, telephone number and written permission of the owner, or tenant in possession of the location described in the application, upon which the applicant intends to conduct the farmer's market operation and activities;

(k) A statement as to whether or not the market operator and applicant has within two years prior to the date of the application been convicted of any felony; and

(l) A signed statement from the market operator and applicant indicating that all of the information provided is true and correct.

The requirements of subsection (d) pertaining to providing proof of sales tax license information from the State of Kansas for all vendors and all requirements of subsection (g) shall not apply to any farmer's market operator operating upon City owned property pursuant to a lease or management agreement with the City. Any such market operator shall provide completed information regarding any and all participating vendors as required by the lease or management agreement with the City.
(Ord. No. 47-026, § 6, 5-16-06; Ord. No. 49-267, § 1, 5-8-2012)

Sec. 3.94.070. Issuance of license.

(a) A farmer's market license may be issued only upon completion of the application, payment of required license fees, and a showing that the farmer's market, activity, operator or licensee is not proposing to operate in violation of the prohibited acts stated in Section 3.94.110, or in violation of any state, federal or local law. Application for a farmer's market license shall be made not less than 10 business days prior to the date(s) for which the activity is scheduled. Upon receipt of a properly completed application for a farmer's market license, the City Treasurer shall refer the application to the appropriate city departments for investigation and recommendation regarding issuance of the license.

(b) If a license is not issued, written notice shall be mailed, faxed, electronically issued or hand delivered to the applicant indicating the reason for the denial, and shall also set forth information regarding the right of the applicant to appeal the denial.

(c) The issuance of a license shall not otherwise prohibit enforcement of this chapter or any other laws, and further, shall not authorize the licensee to operate his or her business in violation of the Wichita-Sedgwick County Unified Zoning Code, as set forth in Title 28 of this Code.
(Ord. No. 47-026, § 7, 5-16-06)

Sec. 3.94.080. Display of license.

A licensee shall be required to display the farmer's market license while any activities pursuant to the license are being conducted. The license shall be posted in plain view to all customers or others at the location, and to law enforcement officers and other enforcement officers of the city.
(Ord. No. 47-026, § 8, 5-16-06)

Sec. 3.94.100. Revocation of license.

(2) Fraud, misrepresentation or false statement made in the course of carrying on the business.

(3) Any violation of the provisions of this chapter.

(4) Any violation of Chapter 7.41 of the City Code, pertaining to the prohibition of loud and unnecessary noise.

(5) Any violation of the provisions of any lease or management agreement with the City of Wichita.

(b) The superintendent of central inspection shall notify the licensee of the revocation of his or her license in writing, setting forth the grounds for revocation, which shall be hand delivered to the licensee, or mailed to the licensee's permanent address appearing on the application. Upon five days' written notice to the person holding any license issued under the provisions of this chapter the Superintendent of Central Inspection shall have authority to revoke the license.

(c) Any person aggrieved by the revocation of a license as provided in this chapter shall have the right of appeal to the city council as set forth in Section 3.94.120(b).

Sec. 3.95.010. Findings and purpose.

It is hereby found that transient merchants operate businesses or conduct activities, in most cases, as retail operations or with a personal profit purpose. It is also found that transient merchants have operated temporary businesses or conducted activities in violation of municipal laws, have created traffic and parking problems, have trespassed on property, and have disturbed or annoyed residential and commercial districts. It is further found by the governing body that it is necessary, in the interest of the public health, safety, and welfare, for the governing body to regulate the time, place, and manner of transient merchant activities within the city.

It is the purpose of this chapter to therefore regulate transient merchant activities, to require a licensing procedure, to assist in identifying transient merchants, to protect consumers, and to protect property owners and the integrity of residential and commercial districts within the city.

The suspension shall be effective immediately upon verbal notification by the Chief of Police or Acting Chief or designee to the licensee, permit holder, manager, agent or representative and shall be effective for up to ten days as needed to restore order or to ensure the safety of the public. In lieu of suspension, the Chief of Police or Acting Chief may require additional conditions of operation including, but not limited to, restricted hours, additional security personnel, wands, security cameras, bag checks, and restrictions on type of bags allowed in common consumption areas. The Chief, or designee, shall promptly complete a report outlining the basis for the decision to suspend the permit and recommendations to adequately remedy the deficiencies of the common consumption area's security or safety plans. A copy of the report shall be provided to the City Manager on the first business day following the suspension or the placement of additional conditions. The Chief of Police or designee shall officially notify the permit holder in writing by depositing such notice in first class mail to the address listed on the permit the first business day after a suspension or imposition of additional conditions. The notice shall include the reason for the suspension or conditions, the length and dates of suspension, and rights of appeal.

(C) If the Chief of Police or designee is unable to affect personal notification of an emergency suspension, notice will be posted upon the permit holder's property and sent by first class mail to the primary contact or owner listed on the license.

(D) The permit holder or a designee shall meet with the Chief of Police or designee within three calendar days of an emergency suspension.

CHAPTER 5.22. UNLAWFUL POSSESSION OF CATALYTIC CONVERTERS

Sec. 5.22.010. Purpose.
Sec. 5.22.020. Unlawful possession of a catalytic converter.
Sec. 5.22.030. Penalty.

Sec. 5.22.010. Purpose.

Catalytic converter thefts are on the rise, in part, due to the ease and undetectable nature of committing these thefts in a matter of seconds using common tools such as a reciprocating saw. Loopholes in legislation ultimately protect criminals from prosecution unless a victim can be identified. Because catalytic converters are not traceable, locating a necessary victim to prosecute charges is nearly impossible. For the past several years, the majority of catalytic converter theft cases in the City of Wichita have gone unsolved, which is fundamentally unacceptable for the citizens.
(Ord. No. 51-962, § 1, 10-25-22)

Sec. 5.22.020. Unlawful possession of a catalytic converter.

(a) It shall be unlawful for any person to possess, accept, process, store, hold, keep, receive, reuse, or collect a catalytic converter that has been detached from a motor vehicle unless they can demonstrate a legitimate reason for such possession by producing either:

(2) An order from the court designating ownership of vehicle or the catalytic converter; or

(3) A bill of sale, purchase receipt, or vehicle title that includes the vehicle identification number of the source vehicle and accurate contact information for the owner of the source vehicle, signed by the owner of the source vehicle; or

(4) Proof that the catalytic converter belongs to a vehicle that is owned or was previously owned by the person in possession of the detached catalytic converter; or

(5) A work or service order that identifies the owner of the vehicle and the work or service being performed on the vehicle, so long as detachment of the catalytic converter is essential to the work performed.

(b) City officials or law enforcement personnel when acting within the scope of their employment disposing of lost, found, or stolen catalytic converters are exempt from the requirements of this section.

(c) Precious metal dealers or those who are regulated pursuant to K.S.A. 50-6109 et. seq. are exempt from the requirements of this section when acting within the scope of that statute.

(d) Failure to comply with the foregoing provisions shall result in the immediate confiscation of the catalytic converter by a law enforcement officer until such time as legal ownership may be determined or any criminal charges are adjudicated.

(e) "Catalytic converter" means a device installed in the exhaust system of a motor vehicle that uses a catalyst to convert pollutant gases into less harmful gases.
(Ord. No. 51-962, § 2, 10-25-22)

Sec. 5.22.030. Penalty.

(a) Any person convicted pursuant to this chapter shall be guilty of a misdemeanor, and shall be sentenced as follows: upon a first conviction, a person shall be sentenced to not more than six months imprisonment and fined not less than $250 nor more than $1,000. Upon a second or subsequent conviction a person shall be sentenced to not less than thirty days imprisonment nor more than one year's imprisonment, and fined not less than $500 nor more than $2,500. The person sentenced on a second or subsequent charge shall not be eligible for release on probation, suspension or reduction of sentence or parole until the person has served the minimum mandatory sentence as provided herein. Upon a

mandatory sentence, after 48 consecutive hours jail, the remainder may be served in work release or house arrest.

(b) A guilty finding, diversion or deferred judgment requires the catalytic converter be forfeited to the City of Wichita to be sold, destroyed or released to the rightful owner.
(Ord. No. 51-962, § 3, 10-25-22)

(Ord. No. 11-592 § 47)

Sec. 5.24.030. Reserved.

Editor's note—Ord. No. 47-082, § 1, adopted July 25, 2006, repealed § 5.24.030 in its entirety. Formerly said section pertained to disturbing the peace or quiet of a family, etc., and derived from Ord. No. 34-189(part).

Sec. 5.24.040. Same—Penalty.

Unless otherwise specified, violation of any of the provisions of this chapter constitutes a misdemeanor, and any violation thereof shall be punished by a fine of not more than $500.00, or one year imprisonment, or by both such fine and imprisonment.

WHEREAS, illicitly manufactured fentanyl is driving an increase in drug overdose deaths both nationally and in Kansas;

WHEREAS, the Centers for Disease Control (CDC) estimate that in the 12-month period ending October 2021, over 105,000 Americans died of drug overdoses and over 66 percent of those deaths were related to fentanyl and other synthetic opioids. In 2021, the United States suffered more fentanyl related deaths than gun related and auto related deaths combined;

WHEREAS, in order to save lives and reduce the number of overdoses caused by fentanyl, it is the desire of the City Council to allow individuals in the grip of addiction to possess and use fentanyl test strips without the threat of jail time for such possession, and to assure their own safety and prevent tragic overdoses; and

WHEREAS, it is the hope and desire of the City Council that law enforcement and the City Attorney utilize discretion in evaluating all the facts and circumstances as to whether criminal charges should be brought against individuals who possess fentanyl test strips.

(a) No person shall use or possess with intent to use:

(1) Any simulated controlled substance;

(2) Any drug paraphernalia to use, store, contain, conceal, inject, ingest, inhale or otherwise introduce into the human body a controlled substance, other than Marijuana, in violation of the Uniform Controlled Substances Act.

(d) The fact that an item has not yet been used or did not contain a controlled substance at the time of the seizure is not a defense to a charge that the item was possessed with the intention for use as drug paraphernalia.

(e) It shall not be a defense to charges arising under this section that the defendant was acting in an agency relationship on behalf of another part in a transaction involving a controlled substance.

(f) In determining whether an object is drug paraphernalia, a court or other authority shall consider, in addition to all other logically relevant factors, the following:

(1) Statements by an owner or person in control of the object concerning its use.

(8) Descriptive materials accompanying the object which explain or depict its use.

(9) National and local advertising concerning the object's use.

(10) Whether the owner or person in control of the object is a legitimate supplier of similar or related items to the community, such as a distributor or dealer of tobacco products.

(11) The manner in which the object is displayed for sale.

(12) The existence and scope of legitimate uses for the object in the community.

(13) Expert testimony concerning the object's use.

(14) Any evidence that alleged paraphernalia can or has been used to store a controlled substance or to introduce a controlled substance into the human body as opposed to any legitimate use for the alleged paraphernalia.

(15) Advertising of the item in magazines or other means which specifically glorify, encourage or espouse the illegal use, manufacture, sale or cultivation of controlled substances.

(g) It shall not be a violation of this section for any person to possess fentanyl test strips, unless such strips are possessed by the person for the purposes of the commission of a crime related to the sale and/or distribution of a controlled substance. For the purposes of this section, "fentanyl test strips" mean narcotic testing equipment used to determine the presence of fentanyl, synthetic controlled substance fentanyl analog or a fentanyl-related compound in a substance, drug or compound.

(2) Under circumstances which would give a reasonable person reason to believe that the substance is a controlled substance.

(b) If any one of the following factors is established, there shall be a presumption that distribution of a substance was under circumstances which would give a reasonable person reason to believe that a substance is a controlled substance:

(1) The substance was packaged in a manner normally used for the illegal distribution of controlled substances;

(2) The distribution of the substance included an exchange of or demand for money or other consideration for distribution of the substance and the amount of the consideration was substantially in excess of the reasonable value of the substance; or

Sec. 5.26.050. Policies for marijuana and marijuana paraphernalia offenses.

(a) On April 7, 2015, citizens voted to adopt an ordinance reducing the penalties for possession of small quantities of marijuana and marijuana paraphernalia to a criminal infraction. Based on this vote, it is the Council's intent to enact an ordinance consistent with the spirit and intent of the ordinance approved by the Wichita voters, while remaining in compliance with provisions and dictates of state law.

(b) The purpose of this section is to ensure that individuals over the age of twenty-one (21) years of age, other than those excluded herein, possessing a small quantity of marijuana or who possess drug paraphernalia, as defined by the chapter, utilized to contain, store, use, ingest, smoke or inhale marijuana, are not arrested and suffer only a fine and/or community service and no other punishment or penalty for the possession of a small quantity of marijuana and/or marijuana paraphernalia. suspects any individual over the age of twenty-one (21) years of age, other than those excluded herein, of possession of a small quantity of marijuana or marijuana paraphernalia, that person shall not be required to post bond, suffer arrest, be taken into custody for any purpose or detained for any reason other than the issuance of a summons, suffer incarceration, suffer loss of driver's license, or any other punishment or penalty other than the issuance of a summons and, if found guilty, a fine of up to fifty (50) dollars and all applicable court costs and laboratory fees. There shall be a strong presumption that the proper disposition of any such case by the court is limited to the assessment of a fifty (50) dollar fine and all applicable court costs.

(e) Subsection (d) shall not apply to persons:

(1) Who have been convicted of a felony within the preceding five (5) years; or

(2) Who have been convicted of a Class A misdemeanor within the preceding three (3) years; or

(Ord. No. 44-999 § 3)

Sec. 5.44.040. Illegal dumping.

(a) (1) It is unlawful for any Person to Illegally Dump Waste Matter, or to cause Waste Matter to be disposed of in a manner not otherwise authorized by this code or State or Federal law.

(2) If is unlawful for any Person owning or otherwise in possession or control of any real property within the City to permit or allow the Illegal Dumping of Waste Matter from such property to be Illegally Dumped, or to cause Waste Matter to be disposed of in a manner not otherwise authorized by this code or State or Federal law.

(3) It is unlawful for any Person to cause or permit the Illegal Dumping of Waste Matter on the right-of-way of any public highway, street, easement, thoroughfare, or upon any public property or grounds, or into any stream or dry watercourse within the City of Wichita.

(b) Each Person who participates in an act of Illegal Dumping is jointly and severally liable with any other Person who participates for all citations, fines, penalties or abatement costs related to the act of Illegal Dumping.

(c) In the criminal trial of a Person charged with violating this section, the fact finder may infer that the defendant did not have the right or authority to dump Waste Matter on private or public property if the property is owned or controlled by another Person, entity or government subdivision. The defendant has the burden of proving that he or she had the authority to dump the litter or Waste Matter and that the litter or Waste Matter dumped did not cause a public nuisance.

(d) Evidence showing any three or more items found in dumped Waste Matter to be identifiable or traceable to a specific individual shall constitute *prima facie* evidence that such waste matter was under the control of that individual and was so dumped or deposited where subsequently found with that individual's knowledge and consent. Such items shall include, but not be limited to, letters, bills, publications or other writings which display the name of the Person thereon, addressed to such Person or in any manner indicating that the item belongs or belonged to such Person. Presumptions in this section may be overcome by proof that the Person identified from the letters or other items caused the Waste Matter to be collected and transported for disposal at an approved site by a Person properly licensed to collect and dispose of Solid Waste or Waste Matter.

(e) Liability of owner or operator of vehicle or trailer used for Illegal Dumping. A vehicle or trailer owner is liable and responsible for Illegal Dumping when the owner's vehicle or trailer is used for Illegal Dumping irrespective of whether the owner knew or should have known of the intended use of the vehicle or trailer.

(f) Any Person violating this section is guilty of a misdemeanor. Each day that Waste Matter is placed, deposited, or dumped in violation of this section remains is a separate violation.

(g) This section does not restrict a private owner in the use of his or her own private property, unless the placing, depositing, or dumping of the Waste Matter on the property creates a public health and safety hazard, a public nuisance, or a fire hazard, as determined by the Director of the Metropolitan Area Building and Construction Department or the Department of Public Works and Utilities personnel.

(h) Except in cases for Major Violations as defined in subsection (k), any Person convicted of a violation of this section shall be punished by a mandatory fine of not less than $1,000 nor more than $2,500 upon a first conviction, or by imprisonment for not more than 12 months, or by both such fine and imprisonment. Upon a second or subsequent conviction by a mandatory fine of not less than $1,500 nor more than $2,500 or by imprisonment for not more than 12 months, or by both such fine and imprisonment. If upon the trial of any Person found guilty of a misdemeanor hereunder, it shall appear to the court that the violation complained of is continuing, the court shall enter such order as it shall deem appropriate to cause the violation to be abated.

(i) Except in unusual cases where the interests of justice would be best served by waiving or reducing the fine, the minimum fines provided by this section shall not be waived or reduced. Except that the court may order that the defendant perform community service specified by the court in lieu of the mandatory fines imposed, but such an order shall be entered only after the court has required the defendant to file an affidavit of such defendant's financial condition as required by Section 1.04.210(e) and amendments thereto, and the court has found from the information contained in the affidavit that the defendant is financially unable to pay the fines imposed.

(j) The court may require, in addition to any fine imposed upon a conviction, that, as a condition of probation and in addition to any other condition of probation, a Person convicted under this section remove, or pay the cost of removing, any Waste Matter which the convicted Person dumped or caused to be dumped upon public or private property.

(k) Except when the court requires the convicted Person to remove Waste Matter which he or she is responsible for dumping as a condition of probation, the court may, in addition to the fine imposed upon a conviction, require as a condition of probation, in addition to any other conditions of probation, that any Person convicted of a violation of this section pick up Waste Matter at a time and place within the jurisdiction of the court for not less than 12 hours.

(l) Major Violations: Major Violations are punishable as a misdemeanor and are subject to greater financial penalties because Illegal Dumping of this magnitude is a greater threat to the health, safety and welfare of the residents and the community and imposes a greater financial burden on the City to abate.

1. The following are considered Major Violations: (1) where the Illegal Dumping involves a Bulk Quantity, Harmful Waste Matter, mattress(es), tire(s), Household Furniture, Upholstered Furniture, an Appliance, Universal Waste, or Electronic Waste; or (2) where a Person received three citations for violations of this Chapter within a one-year period, the next instance of Illegal Dumping by that Person will be deemed a Major Violation.
2. A Person who commits a Major Violation shall be subject to a fine of $1,500 per violation or by imprisonment, not to exceed twelve (12) months in prison, or by such fine and imprisonment.

(m) Separate Violations: The following are considered separate instances of Illegal Dumping, each of which is subject to the above remedies:

1. Each individual mattress, individual tire, Appliance, item of Electronic Waste; item of Household Furniture, item of Upholstered Furniture, item of Universal Waste, or item of Harmful Waste Matter Illegally Dumped is a separate Major Violation. For example, Illegally Dumping both a mattress and an Appliance would constitute two (2) separate Major Violations, each of which is subject to the above penalty.
2. Each cubic yard of Waste Matter Illegally Dumped is a separate Major Violation. For example, Illegally Dumping two (2) cubic yards of Waste Matter would constitute two (2) separate Major Violations, each of which is subject to the above $1,500 penalty.
3. A Bulk Quantity of Waste Matter Illegally Dumped which also contains Harmful Waste Matter, a mattress, an Appliance, Upholstered Furniture, Household Furniture, or Electronic Waste may be cited both as a Bulk Quantity and separately as Harmful Waste Matter, a mattress, an Appliance, Universal Waste, Upholstered Furniture, Household Furniture, or Electronic Waste, and each constitutes a separate Major Violation. For example, Illegally Dumping an Appliance which measures more than a cubic yard would constitute two (2) separate Major Violations, each of which is subject to the above $1,500 penalty.
4. Each individual act or Illegal Dumping or Littering at the same location is a separate violation.
5. Each day an act of Illegal Dumping or Littering continues unabated is a separate violation.

(Ord. No. 44-999 § 3; Ord. No. 49-256, § 25, 5-8-2012; Ord. No. 52-809, § 3, 9-16-25)

Sec. 5.44.050. Littering prohibited.

(a) It is unlawful to Litter, as defined in subsection (c), in or upon any public or private property. Any Person, firm, or corporation violating this section is guilty of an infraction.

(b) This section does not restrict a private owner in the use of his or her own property, unless the Littering of Waste Matter on the property creates a public health and safety hazard, a public nuisance, or a fire hazard, as determined by the Director of the Metropolitan Area Building and Construction Department or personnel of the Public Works and Utilities Department.

(c) If the throwing, dumping or depositing of Litter was done from a motor vehicle, it shall be presumed that the throwing, dumping or depositing was done by the driver of the motor vehicle. Presumptions in this section may be overcome by proof that the Person identified from the litter caused the litter to be collected and transported for disposal at an approved site by Person licensed by the city to collect and dispose of solid waste.

(d) A Person, firm, or corporation convicted of a violation of this section shall be punished by a mandatory fine of not less than one hundred dollars nor more than one thousand dollars upon a first conviction, by a mandatory fine of not less than two hundred fifty dollars nor more than one thousand dollars upon a second conviction, and by a mandatory fine of not less than five hundred dollars nor more than one thousand dollars upon a third or subsequent conviction.

(e) Except in unusual cases where the interests of justice would be best served by waiving or reducing the fine, the minimum fines provided by this section shall not be waived or reduced. Except that a court may order that the defendant perform community service specified by the court in lieu of the mandatory fines imposed, but such an order shall be entered only after the court has required the defendant to file an affidavit of such defendant's financial condition as required by Section 1.04.210(e) and amendments thereto, and the court has found from the information contained in the affidavit that the defendant is financially unable to pay the fines imposed.

(c) It shall be unlawful for any Person to scatter, dump, pile, leave or lay any litter upon any public street, public right-of-way, sidewalk, other public property, or upon any premises belonging to another Person.

Upon a second or subsequent conviction by a mandatory fine of not less than $1,000.00 nor more than $2,000.00 or by imprisonment for not more than 12 months, or by both such fine and imprisonment. Sec. 5.48.035. Loitering prohibited near entertainment establishments.

(a) *Purpose.* The City of Wichita finds that persons who loiter outside an entertainment establishment negatively impact the public's

safety and welfare. The areas outside these establishments have become the site of assaults and batteries. Prohibiting loitering outside entertainment establishments will assist law enforcement and club security staff in protecting entertainment establishment patrons and may decrease the incidence of crimes at these establishments by providing law enforcement officers with an additional crime-fighting tool that does not infringe on any person's basic rights.

(b) *Prohibition.* In the City of Wichita, it shall be unlawful for any person to loiter outside any entertainment establishment between the hours of 11 p.m. and 3 a.m.

(c) *Definitions.*

Lawful activity does not include any activity that can be conducted more than 25 feet from the entrance or exit of the entertainment establishment or more than 25 feet from any point on any lines formed at the entrance to an entertainment establishment.

(e) *Warning Required.* Before any law enforcement officer may cite or arrest a person under this subsection, the law enforcement officer or personnel working for the entertainment establishment must warn the person that his or her conduct is in violation of this ordinance and must give the person an opportunity to comply with the provisions of this ordinance.

Any person violating any provision of this Section a third time, and each subsequent time, within a three year period shall be guilty of a misdemeanor and shall be punished by a fine of not less than $500.00 or more than $1,000.00, or by imprisonment of not more than six months, or by both such fine and imprisonment.

(g) For the purposes of determining whether a conviction is a first, second, or subsequent conviction in sentencing under this section:

(1) "Conviction" includes being convicted of a violation of this section, or entering into a deferred judgment agreement in lieu of further criminal proceedings on a complaint alleging violation of this section.

(2) "Conviction" includes being convicted of a violation of a law of this state or of

another state or an ordinance of any municipality which prohibits the acts that this Section prohibit or entering into a diversion or deferred judgment agreement in lieu of further criminal proceedings in a case alleging a violation of such a law or ordinance;

(3) Only convictions occurring in the immediately preceding five years shall be taken into account, but the court may consider other prior convictions in determining the sentence to be imposed within the limits provided for a first or second offense, whichever is applicable.

(4) It is irrelevant whether an offense occurred before or after conviction for a previous offense.

(h) *Severability.* If any subsection, sentence, clause, phrase, or word of this Section be for any reason declared unconstitutional or invalid or ineffective by any court of competent jurisdiction, such decision shall not affect the validity or the effectiveness of the remaining portions of this Section.
(Ord. No. 49-751, § 8, 5-20-2014)

A determination of whether a sound violates this subsection shall include consideration of facts and circumstances, such as the cause, volume, intensity, nature, and duration, as well as consideration of the time of day or night and zoning and location of where the sound can be heard and the location from where such sound is emitting.

Failure to do so shall be considered to be in violation of this section.

(c) It shall be a defense to charges filed pursuant to subsection (a) of Section 5.63.010 that such noise levels did not exceed those set forth in Section 5.63.030. (b) Evidence that materials or devices were promoted to emphasize their prurient appeal or sexual provocative aspect shall be relevant in determining the question of the obscenity of such materials or devices. There shall be a presumption that a person promoting obscene materials or obscene devices did so recklessly if:

(1) The materials or devices were promoted to emphasize their prurient appeal; or

(2) The person is not a wholesaler and promotes the materials or devices in the course of the person's business.

(c) (1) Any material or performance is "obscene" if:

b. The average person applying contemporary community standards would find that the material or performance has patently offensive representations or descriptions of (A) ultimate sexual acts, normal or perverted, actual or simulated, including sexual intercourse or sodomy, or (B) masturbation, excretory functions, sadomasochistic abuse or lewd exhibition of the genitals; and

c. Taken as a whole, a reasonable person would find that the material, or performance, lacks serious literary, educational, artistic, political or scientific value.

(e) The provisions of this section which prescribe a criminal penalty for exhibit of any obscene motion picture shown in a commercial showing to the general public shall not apply to a projectionist, or assistant projectionist, if such projectionist or assistant projectionist has no financial interest in the show or in its place of presentation other than regular employment as a projectionist or assistant projectionist and no personal knowledge of the contents of the motion picture. The provisions of this section shall not exempt any projectionist or assistant projectionist from criminal liability for any act unrelated to projection of motion pictures in commercial showings to the general public.

(f) Promoting obscenity is declared to be a misdemeanor punishable upon conviction by a fine of not more than $2,500.00, or by imprisonment in the city jail for a period of not exceeding one year, or both such fine and imprisonment.

Sec. 5.68.230. Preamble.

Whereas, the City of Wichita has an important governmental interest in protecting order and morality, the city recognizes the societal disapproval of nudity in public places and among strangers, and has the constitutional power to combat this societal evil; and

Whereas, the City of Wichita has an important governmental interest in combating the secondary effects associated with nudity in public places where persons who are present appear nude or engage in sexual activity among strangers, and has the constitutional power to combat these societal evils; and

Whereas, the Supreme Court of the United States has held in *City of Renton v. Playtime Theaters, Inc.,* that the city may rely on relevant studies and evidence from other cities as the basis for its action taken to insure the public order and morality and combat the secondary effects associated with public nudity; and

Whereas, the city has reviewed information from studies and evidence developed for Adams County, CO, and the cities of Dallas, TX; Tucson, AZ; Garden Grove, CA; Oklahoma City, OK; Austin, TX; Indianapolis, IN; Phoenix, AZ; Amarillo, TX; and Los Angeles, CA, and that from these studies it is apparent that increased crime, especially crimes of a sexual nature, increased risk of public exposure to sexually transmitted diseases and other pathogens borne by human blood and bodily fluids, degradation of the aesthetic and commercial character of neighborhoods, depression of property values and degradation of the quality of life for the citizenry are all pernicious secondary effects of public nudity and the sexually oriented businesses which public nudity can encourage; and

Whereas, the Supreme Court of the United States has held in *Barnes v. Glen Theatre, Inc.,* that a governing body may prohibit nudity in public places to combat these societal evils; and

Whereas, the city desires to minimize and control these societal evils and thereby protect the health, safety, welfare and morals of the citizenry; to protect citizens from increased crime; preserve the quality of life; preserve property values, preserve the character of the city's neighborhoods and deter the spread of blight; and

Whereas, it is not the intent of the city to suppress any free expression protected by the First Amendment to the United States Constitution, but to enact a content neutral ordinance which addresses the societal evils of public nudity and its related secondary effects, with only incidental restrictions upon protected expression.

Wherefore, the City of Wichita enacts the ordinance codified in Sections 5.68.230 through 5.68.280 prohibiting nudity in a public place.

Sec. 5.68.275. Impoundment of vehicles involved in sex trafficking.

a. Purpose of Act.

1. Human trafficking endangers individuals and creates an environment that

prevents community members from enjoying the use of their property within the city.

2. Human trafficking is surrounded by and linked to a number of other crimes such as illegal narcotics, thefts, and crimes against persons.

3. The City of Wichita declares that any vehicle used immediately prior to or during the commission of a violation of Section 5.68.020 of the Code of the City of Wichita is a public nuisance per se, and while in the possession of the offender, the vehicle constitutes a continuing danger to the comfort, repose, health or safety of City residents, visitors, businesses and neighborhoods, rendering them insecure in life and in the use of property. Due to the existence of such public nuisance, the City declares it is necessary to impound the vehicle used by the offender and to hold the vehicle from further use by the offender for the mandatory holding period as provided for below. The purpose of such impoundment and mandatory holding period is to abate the public nuisance declared herein. The procedures for such impoundment are set forth as follows:

b. Impound.

1. If probable cause exists that a person is engaged in a violation of Section 5.68.020, that person shall be arrested for such violation and transported to Sedgwick County Jail. If the offender was driving a vehicle at the time of or immediately preceding the time the violation occurred, the vehicle shall be subject to being impounded. If the offender has no prior convictions for violations of this code or violations of similar offenses in other jurisdictions, the vehicle shall be impounded and eligible for release only after being impounded for a period of 72 hours. The offender and/or registered owner is responsible for all towing and impound fees as required by Section 11.97.030 of the Code of the City of Wichita. As required by state law, the Wichita Police Department shall notify the offender at the time of arrest where the impounded vehicle is being taken by the towing company.

2. If probable cause exists that a person is engaged in a violation of Section 5.68.020, that person shall be arrested for the violation and transported to Sedgwick County Jail. If the offender was driving a vehicle at the time of or immediately preceding the time the violation occurred, and the offender has a prior conviction for violations of this code or violations of similar offenses in other jurisdictions, the vehicle shall be impounded and eligible for release only after being impounded for a period of 20 consecutive days. The offender and/or registered owner is responsible for all towing, storage and impound fees as required by Section 11.97.030. As required by state law, the Wichita Police Department shall notify the offender, at the time of arrest, where the impounded vehicle is being taken by the towing company.

3. If probable cause exists that a person engaged in a violation of Section 5.68.020 of the Code of the City of Wichita, and the vehicle was abandoned or the suspect was not apprehended, the vehicle shall be impounded and eligible for release only after being impounded for a period of 72 hours. The registered owner is responsible for all towing and impound fees as required by Section 11.97.030. The owner will be notified of the impoundment and the location of the vehicle by mail the following business day at the address listed on the vehicle registration.

4. For the purposes of this Section, "similar offense" means a conviction of a violation of an ordinance of a city in this state, a resolution of a county in this state or any law of another jurisdiction that would constitute an offense that is comparable to the offense set forth in Section 5.68.020 of the Code of the City of Wichita.

5. Upon a written request to the Municipal Court, within five business days of the vehicle impound, the offender or the registered owner of the vehicle may contest the impoundment of the vehicle as provided for by this Section. The request shall state the grounds upon which the person requesting the hearing believes the impoundment invalid or unjustified and/or why the impoundment of the vehicle would constitute an undue hardship. A hearing shall be held in accordance with the provisions of Section 11.97.040 of the Code of the City of Wichita. The impound shall be declared lawful if there was probable cause that a violation of the provisions of Section 5.68.020 of the Code of the City of Wichita had occurred. If the Court determines that the impoundment did not comply with the provisions of this Section, the vehicle shall be ordered released immediately. If such a finding is made, all costs for impoundment and storage will be assessed to the City.

   Additionally, the judge, in his or her discretion, may release the vehicle prior to the expiration of the mandatory impound if undue hardship is shown by the offender or registered vehicle owner. If the court finds the offender or registered owner has shown that continued impoundment of the vehicle would constitute an undue hardship, the judge may order the vehicle released. If the vehicle is ordered released, the person retrieving the vehicle shall pay all costs associated with the impound prior to its release.
6. If the owner of the impounded vehicle fails to retrieve the vehicle from impound, the vehicle may be auctioned in accordance with K.S.A. 8-1101, *et seq*.
7. The final disposition of any criminal charge will not invalidate the impoundment of the vehicle or act as a basis for the return of any impound fees.

(b) The Municipal Court Judge, upon receiving such affidavit and petition, shall set the matter for hearing within five business days from the date that the petition and affidavit are filed. If it appears from the affidavit that there is an imminent threat to the life of the animal, then the Municipal Court may set the hearing as soon as practical. The Municipal Court shall direct notice of the violation be served on the owner or harborer of such animal by serving such person with a summons to appear and a copy of the affidavit filed with the court. animal, to remove that animal from the control and custody of the owner or harborer.

(d) If the Municipal Court Judge orders that such animal shall be seized and brought into custody, then the Animal Control Officer or a representative of a duly incorporated humane society shall take such animal into custody and shall inspect such animal, care for or treat such animal or place such animal under the care of a licensed veterinarian for treatment, boarding or other care. If the Supervisor of Animal Control determines, based on information from his or her staff, an officer of a humane society, or a licensed veterinarian, that the animal is diseased or disabled beyond recovery for any useful purpose, then such animal may be destroyed humanely as soon thereafter as is conveniently possible, subject to the right of appeal stated below in subsection (i). The City of Wichita shall not be responsible for any costs that are incurred by an incorporated humane society as to the care of an animal placed in the custody of a humane society or as to treatment of an animal under the custody of a humane society received from a licensed veterinarian.

(e) If the owner or harborer of such an animal is convicted of violating any provision of section 6.04.035 of this Code and if the Municipal Court Judge finds that such animal would in the future be subjected to treatment or actions by the owner or harborer which violates any provision of section 6.04.035, such animal shall not be returned to or remain with such person. Such animal may be turned over to the animal shelter, humane society or licensed veterinarian for sale or other disposition.

(f) Expenses incurred for the care, treatment or boarding of any animal taken into custody pursuant to subsection (d) pending prosecution of the owner or harborer of such animal for cruelty to animals shall be assessed to the owner or harborer as a cost of the case if the owner or harborer is adjudicated guilty of such crime.

(g) If an Animal Control Officer has taken possession of the animal, the Animal Control Officer may petition the Municipal Court to be allowed to place the animal for adoption or euthanize the animal after five business days following notification to the owner or harborer of such animal, unless the owner or harborer files a renewable cash or performance bond with the Clerk of the Municipal Court where the animal is being held, in an amount equal to not less than the cost of care and treatment of the animal for 30 days. If the animal remains in the custody of the animal shelter for a period exceeding 30 days, after written notice to the owner or harborer, the Supervisor of Animal Control or designee may request the Municipal Court Judge to increase the amount of the bond to cover the costs of care for the animal.

(h) If the owner or harborer of such animal is adjudicated not guilty or if the Municipal Court Judge, after an adjudication of guilt is made, finds that such animal should be returned, such person may redeem such animal within seventy-two hours. If such animal is not redeemed within 72 hours, then the entity operating the animal shelter caring for the animal shall have ownership of such animal and shall determine the disposition of such animal. Any proceeds derived from such sale or disposition shall be paid directly to the treasurer of the entity operating the animal shelter, and no part of such proceeds shall accrue to any individual.

(i) An order issued by the Municipal Court Judge under this section may be appealed to the district court pursuant to the provisions contained in K.S.A. 60-2101(d) and amendments thereto. (Ord. No. 47-695, § 4, 12-4-07; Ord. No. 48-300, § 5, 3-24-09, eff. 7-1-09; Ord. No. 49-010, § 5, 5-24-11; Ord. No. 49-010(Corr. Copy), § 5, 7-11-11)

Sec. 6.04.040. Control and protection of animals in general.

(a) Any owner, keeper or harborer of any animal, other than cats, found running at large within the corporate limits of the city shall be deemed guilty of a misdemeanor. Knowledge or intention on the part of the owner, keeper or harborer shall not be elements of this offense. An Animal Services Officer may seize, impound and cause to be destroyed any such animal, including those animals not within the defini-

tions of the Kansas Pet Animal Act, using the procedures set out at K.S.A. 47-1710. The Supervisor of Animal Services may return the animal to its rightful owner, keeper or harborer upon request and may require the payment of a service charge and a boarding fee for days spent in confinement at the shelter prior to return of the animal. If any animal impounded for any reason is determined by the Animal Services Officer to require confinement separate from other like animals in order to protect the health and wellbeing of that animal, staff, the public, or other animals being housed at the animal holding facility due to any aggressive behavior and/or any disease or medical conditions, the boarding fee for such animal shall be twice the normal boarding fee established by the animal shelter.

Any person who is convicted of the charge of animal running at large shall be punished with a maximum fine not to exceed $1,000 and/or a jail sentence not to exceed 6 months. Mandatory minimum fines are as set forth below:

(1) Upon a first conviction, a fine of not less than $100.00 nor more than $1,000.00 shall be assessed.

(2) Upon a second conviction a fine of not less than $200.00 nor more than $1,000.00 shall be assessed.

(3) Upon a third or subsequent conviction, a fine of not less than $300.00 nor more than $1,000.00 shall be assessed and the owner must appear in Municipal Court.

(b) In addition to the penalties set forth in paragraph (a), the owner, keeper or harborer of any unaltered dog that has been impounded for running at-large shall be required to:

(1) Have an identification microchip implanted in the dog traceable to the current owner, and registered with the City of Wichita; and

(2) Have the dog surgically sterilized by a licensed veterinarian within thirty days of redemption of said dog, at his or her own expense. It shall be a violation of this ordinance to fail to have the dog surgically sterilized, or provide proof from a licensed veterinarian that said dog has previously been surgically sterilized, or has been surgically sterilized and microchipped within thirty days after redemption of said dog as indicated in this ordinance; or

(3) The owner, keeper or harborer may maintain the aforementioned dog intact by paying an additional unaltered animal fee, the amount of which shall be established by the Supervisor of Animal Services or designee, to redeem such dog from the Animal Shelter. Such dog may be maintained intact provided that the dog is not found to be running at large on any subsequent occurrence within the dog's lifetime.

(4) For any dog required to be surgically sterilized, the Supervisor of Animal Services shall collect payment for and issue a spay/neuter voucher at the time of the animal's redemption, and the owner, keeper or harborer shall provide documentation of the sterilization upon completion. Such voucher shall remain valid for thirty (30) days. Any owner, keeper or harborer failing to provide documentation of the sterilization procedure within thirty days of impoundment shall be deemed guilty of a misdemeanor. If the dog's owner had a valid dog license, such owner shall not receive a refund of the licensing fees paid for the altering or micro chipping of the dog. Upon the renewal of the license, the amount will be changed to reflect the altering and micro chipping of the dog.

(c) Upon the second occurrence of any intact dog impounded by Animal Services for running at large, the owner, keeper or harborer of such dog shall be required to have the animal surgically sterilized by a licensed veterinarian within thirty days of redemption of said dog at his or her own expense. For any animal required to be surgically sterilized, the Supervisor of Animal Services shall collect payment for and issue a spay/neuter voucher at the time of the animal's redemption, and the owner, keeper or harborer shall provide documentation of the sterilization upon completion. Any owner, keeper or harborer

failing to provide documentation of the sterilization procedure within thirty days of impoundment shall be deemed guilty of a misdemeanor.

(d) Animals which are kept on the premises of any pet store shall not be allowed, by the storeowner or any employee, to run at large inside the store or on the external premises of the pet store during business hours, and no person shall allow any animal under their care or control to run at large on the premises of any store during business hours. This provision shall not apply to animals participating in supervised training classes within an enclosed area of the store.

(e) Exceptions. In addition to exceptions enumerated in 6.04.218, animals may be permitted to run at large by authority of any federal, state or local law enforcement agency or by authority of a Department Head of the City of Wichita for official purpose or use so long as the animal is under the control of a trained handler.

(f) It is unlawful for any person to:

(1) Kill any squirrel or songbird within the corporate limits of the city, provided that it shall be permissible for Animal Services Officers or a person who has a wildlife control permit issued by the Kansas Department of Wildlife, Parks and Tourism to kill squirrels, skunks, birds, or other animals that have become so numerous as to cause destruction or nuisance to property or in the event of disease occurring among such squirrels, skunks, birds, or other animals that may be considered contagious to human beings;

(2) Interfere with or molest an animal used by the police or fire department of the city or other governmental agency or department in the performance of its lawful functions and duties or interfere with the handler of such animal in such a way that the handler is deprived of or inhibited in his control of such animal;

(6) Allow any unspayed female dog in season to be in an area where there is access by an unconfined male dog;

(7) Allow an unconfined male dog in an area where there is access to any unspayed female dog in season;

(8) Own, keep or harbor a dog over five months of age within the corporate limits of the city without such dog having a current vaccination against rabies performed by a veterinarian, and the owner thereof securing an annual license for such dog issued by the City Treasurer. The Chief of Police or designee shall have the authority to establish appropriate licensing fees for such animals;

(9) Own, keep or harbor a cat over five months of age within the corporate limits of the city without such cat having a current vaccination against rabies performed by a veterinarian licensed by the State of Kansas;

specified in this subsection, in proper brooder facilities by hatchers or persons engaged in the raising and selling of such animals and fowls for recognized animal husbandry or commercial purposes;

(11) Continuously picket a dog for more than one continuous hour, except that picketing of the same dog may resume after a hiatus of three continuous hours. A dog may not be picketed for a total time period exceeding three hours, in any twenty-four-hour period.

a. A chain, leash, rope, collaring device, tether, or any assembly or attachments thereto used to picket a dog shall not weigh more than one-eighth (⅛) of the animal's body weight, or due to weight, inhibit the free movement of the animal within the area picketed;

b. Dogs shall be picketed in such a manner as to prevent injury, strangulation, or entanglement on fences, trees, or other man made or natural obstacles;

c. It is unlawful to attach chains or other tether restraint implements directly to a dog without the proper use of a collar, harness, or other device designed for that purpose and made from a material that prevents injury to the animal.

Sec. 6.04.045. Dangerous dog—Determination by Supervisor of Animal Services.

(a) The Supervisor of Animal Services or designee, based on the facts available, may declare a dog to be dangerous or potentially dangerous based on any one of the following guidelines:

1. The nature of any attack committed or wound inflicted by the animal and the need to put the community and owner on notice that the dog has displayed the propensity to inflict wounds or engage in aggressive or menacing behavior; or

2. The past history and seriousness of any attacks or wounds inflicted by the animal; or

3. The dog has exhibited an aggressive and vicious propensity toward persons or domestic animals and is capable of inflicting serious physical harm or death or damage to property; or

4. The conditions under which the animal is kept and maintained which could contribute to, encourage, or facilitate aggressive behavior, such as, but not limited to, allowing the animal to run at large, tethering in excess of legal limits as defined in this chapter, physical property conditions, presence of young children, the elderly, or infirm within or residing near the home, any past violations of this chapter, and/or failing to provide proper care, food, shelter, or water; or

5. Whether the dog was owned or harbored primarily or in part for the purpose of dog fighting, or any dog trained for dog fighting;

6. In determining whether to deem a dog dangerous, the factfinder may consider potentially mitigating circumstances including, but not limited to, whether the bite or scratch was made in a playful manner without any sign of aggression or whether it was a response to pain, abuse, criminal trespass, or intentional provocation;

7. Prior to a determination that a dog is dangerous or potentially dangerous, Animal Services shall notify, by mail, email, telephone or in-person, the owner or harborer of a dog under consideration, that such dog is potentially subject to a dangerous dog determination. The notice shall outline the process set forth in the ordinance and the factors utilized to make such a determination. The owner/harborer may submit a written response of any mitigating circumstances or facts that the owner/harborer deems relevant to the determination, including witness statements and any other written evidence. Any response, evidence or other documents must be received by Animal Services within 72 hours of the notice to the owner/harborer. The 72 hour time period will include weekends and holidays.

(b) If a dog is deemed dangerous or potentially dangerous, the level shall be specified based on the nature of the attack or wound combined with the totality of circumstances. The guidelines per level are advisory in nature and shall not bind the factfinder to a particular level if the totality of circumstances warrants a higher or lower level.

1. Potentially Dangerous: A minor bite, nip, scratch or abrasion where skin contact or nicks may be evident but no vertical puncture wound exists; or an attack, without an actual bite, which inhibits movement and/or otherwise qualifies as an "attack" pursuant to Section 6.04.010.

2. Level 1: Any attack as defined by Section 6.04.010 or bite in an aggressive manner that pierces the skin; or any attack or bite subsequent to being deemed dangerous or potentially dangerous on a prior occasion.

3. Level 2: Any bite that requires medical attention; or any bite that includes deep punctures or bruising even when no medical attention is sought; or any attack or bite incident involving predatory aggressive behavior toward a human or other domesticated animal while running at large, including, but not limited to: chasing, stalking, circling, inhibiting movement, predatory or aggressive pack behavior; or any bite subsequent to being deemed dangerous or potentially dangerous on a prior occasion.

4. Level 3: Any severe bite to a human requiring significant medical attention, wound closure, or other emergency medical attention; or an attack or bite with a demonstrated history of bites or attacks; or repeated non-compliance with Animal Services requirements that indicates a risk to the public; or circumstances otherwise indicating a pronounced and obvious risk to public health or safety.

(c) If a dog is deemed dangerous or potentially dangerous, conditions may be required of the dog's owner or harborer to guarantee the safety of the public including, but not limited to, attendance at an approved education course, canine aggression workshop or management plan, sterilization, liability insurance, or safety equipment such as a mandatory enclosure or enhanced fencing.

(d) If a dog is deemed potentially dangerous or dangerous, the following conditions are minimum requirements that shall be ordered at each level:

1. Potentially dangerous requirements: mandatory signage and registration in accordance with Sections 6.04.047 and 6.04.048 and microchipping pursuant to Section 6.04.046(e). If there are no further incidents or indications of aggression,

either charged in court or uncharged, and all requirements have been met, upon application by the owner to the Supervisor of Animal Services, the potentially dangerous dog designation and all restrictions that accompany it, may be removed after 24 months. The decision to lift the designation is at the discretion of the Animal Services Supervisor or designee and may be appealed to an administrative hearing before a Municipal Court judge.

2. Level 1 and Level 2: mandatory signage and registration in accordance with Sections 6.04.047 and 6.04.048, microchipping pursuant to Section 6.04.046(e), and a letter of acknowledgement of dangerous dog status from a landlord if one exists. If there are no further incidents or indications of aggression, either charged in court or uncharged, and all requirements have been met, upon application by the owner to the Supervisor of Animal Services, the Level 1 Dangerous Dog designation and all restrictions that accompany it, may be removed after 36 months. The decision to lift the designation is at the discretion of the Animal Services Supervisor or designee and may be appealed to an administrative hearing before a Municipal Court judge. The designation may never be removed from a Level 2 determination.

3. Level 3: Euthanasia is mandatory.

(e) A dog that is harbored or maintained outside the city limits of Wichita, but committed acts within the city limits of Wichita that would deem it dangerous or potentially dangerous, may be deemed dangerous or potentially dangerous and any orders made pursuant to that determination will apply if the dog enters the city limits of Wichita.

(f) Dangerous dog—Notification procedure. If the Supervisor of Animal Services or a designee determines that a dog is dangerous or potentially dangerous, the disposition will be determined based on the facts available and consistent with the provisions of this chapter. The Supervisor of Animal Services or a designee may impound the dog and shall notify the owner of any such determination by personal service, residential service at the person's usual place of abode by leaving a copy of the notice with some person of suitable age and discretion residing therein, or by certified mail addressed to the owner's last known address, or addressed to the location where the dog is maintained. If service is by certified mail Animal Services shall request return receipt with instructions to the delivering postal employee to show to whom delivered, the date of delivery, and address where delivered. Service of process by certified mail shall be considered obtained upon the delivery. If the certified mail envelope is returned with an endorsement showing refusal of delivery, the Supervisor of Animal Services or designee shall send a copy of the notice to the defendant by ordinary, first-class mail. Service shall be considered obtained upon the mailing of this additional notice by first-class mail.

No. 48-300, § 7, adopted Mar. 24, 2009, effective July 1, 2009; Ord. No. 48-583, § 3, adopted Dec. 22, 2009; Ord. No. 49-010, § 7, adopted May 24, 2011; Ord. No. 49-010(Corr. Copy), § 7, adopted July 11, 2011).

Sec. 6.04.046. Dangerous dog—Failure to comply with orders.

(a) It is unlawful for an owner, keeper or harborer of a dangerous dog to permit the dog to be outside secure enclosure or home unless the dog is restrained by a substantial chain or leash and under physical restraint by a responsible person who is 18 years of age or older and possesses sufficient strength for physical control of the animal. In such event, the dangerous dog shall be securely muzzled and restrained with a chain or leash not exceeding four feet in length, and shall be under the direct control and supervision of the owner, keeper or harborer of the dangerous dog. The muzzle shall be made and used in a manner that will not cause injury to

the dog or interfere with its vision or respiration, but shall prevent it from biting any human or animal.

(b) Secure or approved enclosures required as a condition must be approved by the Supervisor of Animal Services or designee and be adequately lighted and kept in a clean and sanitary condition.

(c) The owner, keeper or harborer shall allow the access to the property where the dangerous animal is being harbored to facilitate inspections and insure compliance for the duration of the life of the animal or duration of the designation.

(d) If the owner, keeper or harborer of a dog that has been determined to be dangerous or potentially dangerous is required to have the animal surgically sterilized by a licensed veterinarian, it shall be completed within thirty days of the dangerous animal determination, at his or her own expense. For any animal required to be surgically sterilized, the Supervisor of Animal Services or designee shall collect payment for and issue a spay/neuter voucher at the time of the animal's redemption, and the owner, keeper or harborer shall provide documentation of the sterilization upon completion. If the dog's owner had a valid dog license, such owner shall not receive a refund of the licensing fees paid for the altering or microchipping of the dog. Upon the renewal of the license, the amount will be changed to reflect the altering and micro chipping of the dog.

(e) The owner, keeper or harborer of any dog that has been determined to be dangerous or potentially dangerous shall be required to have a microchip, traceable to the dangerous dog and the current owner, inserted into the dog and copies of documentation of said procedure available for review by the Supervisor of Animal Services. If the dog's owner had a valid dog license, such owner shall not receive a refund of the licensing fees paid for the altering or microchipping of the dog. Upon the renewal of the license, the amount will be changed to reflect the altering and microchipping of the dog.

(f) It is unlawful for anyone having prior felony convictions of Crimes Against Persons, Sex Offenses, Crimes Affecting Family Relationships and Children, and Crimes Involving Controlled Substances as defined in Chapter 21 of the Kansas Statutes Annotated to possess, harbor, own or reside on any premises with a dog deemed dangerous level 1 or 2 or 3.

(g) It shall be unlawful for any person to:

(1) Harbor, keep or maintain a dangerous dog level 1, 2 or 3 on property not owned by the person without the written consent of the landowner or for purposes of care or boarding; or

(2) Sell, barter or give away to another person a dog which has been deemed dangerous level 1, 2 or 3; or

(3) Own, keep or harbor more than two dogs which have been declared dangerous by this title; or

(4) Transfer ownership or long-term care of a dog deemed potentially dangerous to any person without a written acknowledgement of the court orders signed by the person receiving the potentially dangerous dog and filed with the Supervisor of Animal Services. The person receiving the dog shall sign a document acknowledging the dog is deemed potentially dangerous and agree to the requirements that accompany that designation and file such document with the Supervisor of Animal Services.

(5) After acknowledging ownership or long-term care of a dog deemed potentially dangerous, fail to comply with orders of fact-finder who deemed the dog potentially dangerous.

(6) Fail to comply with boarding requirements: Once released by Animal Services, any dog deemed dangerous level 1 or 2 shall be cared for by a licensed veterinarian or boarding facility in the event that short term boarding or housing becomes necessary. It may also be maintained in the temporary care of an animal behaviorist professional who is tasked with

evaluating the dog's behavior. In the event of the owner's or harborer's absence, a dangerous dog may not be cared for by persons living outside the household other than a licensed veterinarian, animal behaviorist professional, training or boarding facility.

(h) Should a previously determined dangerous or potentially dangerous dog be found running at large attack or inflict injury upon any person or domesticated animal or a previously determined dangerous or potentially dangerous dog be found running at large in violation of this section and the owner or harborer has not complied with the orders of the dangerous dog orders, the Judge of the Municipal Court shall, in addition to any other penalty provided in section 6.04.190, order the dog destroyed. Provided, however, the Judge of the Municipal Court may, at his or her discretion, only for the question of ordering the dog destroyed consider whether the attack or injury was sustained by a person or animal who, at the time, was committing a criminal trespass or other tort upon the premises of the owner of the dog, or was tormenting, abusing, or assaulting the dog, or has, in the past, been observed or reported to have tormented, aroused, or assaulted the dog or was committing or attempting to commit a crime.

(i) Failure to comply with any orders of the Supervisor of Animal Services, designee or any factfinder related to a dog being deemed dangerous or potentially dangerous is a misdemeanor and is punishable in accordance with Section 6.04.190(a).

Sec. 7.08.010. Declaration of purpose and intent of code provisions regulating solid waste.

Under the authority of the provisions of K.S.A. 12-2010, et seq., K.S.A. 64-3401, et seq., and under home rule powers, it is declared that the protection of the public health, safety and welfare of the citizens, the protection of property values, and the maintenance of an environment conducive to quality living in the city, requires a solid waste management system that will provide safe and sanitary storage, collection, processing and disposal of all solid waste produced in the city. It is the policy of the city to provide a freedom of choice to citizens in selecting their solid waste collection agency and to provide unrestricted opportunity for free enterprise. It is further the policy of the city that the normal solid waste produced be stored in accordance with recognized standards and collected by solid waste collectors. While extensive recycling is not a reality, it is recognized that recycling technology will be developed. The city encourages recycling efforts and in the meanwhile will provide a basic solid waste management system, including storage, collection and disposal activities that will provide adequate flexibility for adjustment and incorporation of recycling at such time as it is developed for practical utilization. Until such time as total solid waste recycling and/or processing becomes a reality it is the intent of the city, in cooperation and coordination with Sedgwick County, to provide at least one satisfactorily operated sanitary landfill for the sanitary disposal of solid waste produced in the city and such solid waste produced in the county as determined by the Sedgwick County commission. While the city solid waste management plan includes the provision that the city is presently providing and plans to continue to provide at least one sanitary landfill for the disposal of all solid waste produced in the city, it is recognized that other appropriate disposal and/or processing facilities may be proposed. Such other disposal and/or processing facilities may be utilized by solid waste collectors for disposal and/or processing of residential bulky waste, tree waste, commercial trash, industrial solid waste, bulky waste, demolition and construction waste and hazardous waste without modification of the plan provided that such facility is licensed in accordance with the laws of the state.

A request

for a variance may be granted upon a finding by the health officer that all of the following conditions have been met:

(d) In granting a variance, the health officer may impose such conditions as he or she deems necessary to prevent and to control any littering; health hazard; nuisance; air, land or water pollution and to comply with the intent and purpose of all applicable local, state and federal laws. The health officer may also place any time limitations on the variance that he or she deems appropriate under the circumstances.

Any such solid waste collector feeling aggrieved at such revocation may appeal, within ten days, the action of the health officer to the city council.

(j) In addition to the remedy of prosecution and enforcement, the health officer is hereby authorized, empowered and directed on proper notice as herein provided to abate or suppress any violation of the chapter and for the purpose of carrying out provisions of this section the health officer is hereby authorized to enter into or upon any premises or establishment for the purpose of making a thorough examination after the presence of the health officer is made known if the premises are occupied and attended and to determine whether a violation exists. If, upon examination, the health officer determines that a violation exists, the health officer shall, after giving proper notice as herein provided to the owner or occupant of the premises or operator of the vehicle or equipment involved and after the opportunity for a hearing, proceed to cause the condition causing the violation to be abated or suppressed by enlisting the services of the director of the department of public works or private contractor and tax the cost thereof against the lot or tract of ground upon which the violation is located and maintained or against the property of the owner of the vehicle or equipment

Regulated spa pools shall have at least one marker (minimum four inches in numeral height) indicating maximum depth readily visible to users.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.100. First aid.

Every regulated swimming pool requiring lifeguards shall be equipped with a first aid kit which shall be kept ready for use, filled with supplies appropriate for the treatment of injuries consistent with the training required of lifeguards at Section 7.72.010.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.110. Control of access.

When any outdoor regulated swimming pool, wading pool or regulated spa pool is not open for use, access to the pool shall be prevented with a fence or wall enclosure, impenetrable by humans, at least sixty inches in height. Gates leading to such pools shall be latched when not under supervision of an adult. Such latch shall reasonably ensure against accidental or unauthorized access to the pool by children. In lieu of the fencing specified above a swimming or working pool may be protected and enclosed, when not under the supervision of an adult, by means of a power safety cover meeting the most recent specifications approved by the American Society for Testing and Materials for swimming pool covers under the fixed designation standard F 1346 (ASTM F 1346). Spa pools may be protected by a locked spa pool cover.

When any indoor regulated swimming pool, wading pool or regulated spa pool is not open for use, access to the pool shall be prevented by lockable doors or other structures which effectively prevent access.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.120. Disinfecting materials, methods and water quality standards.

Regulated swimming pools, spa pools, wading pools or other recreational water features when in use shall be continuously disinfected by a chemical which imparts an easily measured, free available residual effect. When chlorine is used, a free chlorine residual of at least 1.0 ppm shall be maintained in swimming pools while in operation. A free chlorine residual of at least 2.0 ppm shall be maintained in spa pools and wading pools. A free chlorine residual of at least 2.0 ppm at point of contact shall be maintained in other recreational water features when in operation. Free chlorine residuals shall not exceed 5.0 ppm in swimming pools, spa pools, wading pools or recreational water features when in use. If other disinfectants are used, residuals of equivalent disinfecting strength shall be maintained. A testing kit, approved by the health officer, for measuring the concentration of the disinfectant shall be provided at each regulated swimming pool, regulated spa pool, wading pool or other recreational water feature. The health officer may accept other disinfecting materials or methods when those materials have been adequately demonstrated to provide a satisfactory residual effect which is easily measured and determined to be equally as effective under conditions of use as the chlorine concentration required herein, while not being dangerous to public health, create objectionable physiological effects or impart toxic properties to the water. The disinfected water shall be maintained in an alkaline condition as indicated by a pH of not less than 7.0 and not over 8.0. A pH testing kit accurate to the nearest 0.2 pH unit

shall be provided at each regulated swimming pool, regulated spa pool, wading pool or other recreational water feature. The total alkalinity of the water shall be at least 80 ppm. and at most 180 ppm., as measured by the methyl-orange test. Chemicals used in controlling the quality of water shall be demonstrated as imparting no toxic properties to the water. Such chemicals as may be used for algae control shall be approved for use by the health officer. The water in a swimming pool, wading pool or spa pool shall have sufficient clarity at all times so that the main drain is clearly visible and sharply defined when observed from the edge of the pool at a point adjacent thereto. For spa pools, the maximum allowable water temperature shall not exceed one hundred four degrees Fahrenheit.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.121. Fecal and vomit accident response.

The text of this section must be posted, or kept readily available with daily pool maintenance records, for pool staff to reference in the case of a fecal accident. At such time as a fecal accident occurs at any regulated swimming pool, regulated spa pool, wading pool or other recreational water feature, the facility must be immediately closed and access to the water prohibited. The health officer must be notified of fecal accidents involving diarrhea at such time as they occur. The manager shall immediately make a fecal accident report on a form provided by the health officer. On that form the manager shall record each fecal accident, date and time of the event, time of health officer notification if required, whether the accident involved formed stool or diarrhea, and recording of the chlorine levels and pH at the time of observation of the accident. Before reopening the pool, the manager shall record the pH, the procedures followed in response to the fecal accident (including the process used to increase chlorine levels if necessary), and the contact time. The fecal accident report shall be maintained and kept readily accessible with daily records for inspection by the health officer. The manager shall follow the most current Center for Disease Control and Prevention (CDC) recommended procedures for responding to fecal accidents in chlorinated recreational water venues. Before the facility is reopened for use the manager shall at a minimum take the following steps as referenced from the CDC Fecal Accident Response Recommendations for Aquatics Staff:

For fecal accidents involving solid stool, or for vomit accidents

1. Direct everyone to leave the facility. If multiple facilities use the same filter—all facilities shall be shut down. Do not allow anyone to enter the contaminated facility(s) until all decontamination procedures are completed.
2. Remove as much of the fecal material or vomitus as possible using a net or scoop and dispose of it in a sanitary manner. Clean and disinfect the net or scoop. The net or scoop may be disinfected after cleaning by leaving the cleaned net or scoop immersed in the facility during facility disinfection. VACUUMING STOOL FROM THE FACILITY IS NOT RECOMMENDED.
3. Raise the chlorine to 2 ppm (if less than 2 ppm), and ensure the pH is between 7.2-7.5. This chlorine concentration was selected to keep the facility closure time to approximately thirty minutes. Other concentrations or closure times can be used as long as the CT inactivation value (Figure 1) is kept constant.
4. Maintain the chlorine concentration at least 2.0 ppm, pH 7.2-7.5, for at least twenty-five minutes before reopening the facility. The health officer may require higher chlorine levels in the presence of chlorine stabilizers such as chlorinated isocyanurates. Ensure that the filtration system is operating while the facility reaches and maintains the proper free available chlorine concentration during the disinfection process.

Figure 1-Giardia Inactivation for Formed Fecal Accident

Chlorine Levels (ppm)	*Disinfection Time**
1.0	45 minutes

Chlorine Levels (ppm)	*Disinfection Time**
2.0	25 minutes
3.0	19 minutes

* These closure times are based on a 99.9% inactivation of Giardia cysts by chlorine, pH 7.5, 77° F (25° C). The closure times were derived from the Environmental Protection Agency (EPA) Disinfection Profiling and Benchmarking Guidance Manual. These closure times do not take into account "dead spots" and other areas of poor facility water mixing.

For fecal accidents involving diarrhea:

1. Direct everyone to leave the facility. If multiple facilities use the same filter—all facilities shall be shut down. Do not allow anyone to enter the contaminated facility(s) until all decontamination procedures are completed.
2. Remove as much of the fecal material as possible using a net or scoop and dispose of it in a sanitary manner. Clean and disinfect the net or scoop. The net or scoop may be disinfected after cleaning by leaving the cleaned net or scoop immersed in the facility during facility disinfection. VACUUMING STOOL FROM THE FACILITY IS NOT RECOMMENDED.
3. Raise the free available chlorine concentration to at least 20 ppm and maintain the pH between 7.2 and 7.5. This chlorine and pH level should be sufficient to inactivate Cryptosporidium and should be maintained for at least eight hours, equivalent to a CT inactivation value of 9600 (Figure 2).
4. Ensure that the filtration system is operating while the facility reaches and maintains the proper chlorine level during disinfection. If necessary, consult an aquatics professional to determine and identify the feasibility, practical methods, and safety considerations before attempting the hyperchlorination of any facility.
5. Backwash the filter thoroughly after reaching the CT value. Be sure the effluent is discharged directly to waste and in accordance with City of Wichita regulations. Do not return the backwash through the filter. Where appropriate, replace the filter media.
6. Participants may be allowed back into the facility after the required CT value has been achieved and the chlorine level has been returned to the normal operating range allowed by Section 7.72.120.

Sec. 7.72.130. Cleaning.

Visible dirt on the bottom of a regulated swimming pool, wading pool or regulated spa pool shall be removed every twenty-four hours or more frequently as required. Visible scum or floating matter on the regulated swimming pool, wading pool or spa pool surface shall be removed every twenty-four hours by flushing or other effective means.

(Ord. No. 46-592 § 1 (part))

Sec. 7.72.140. Personal regulations.

A reasonable application of the following personal regulations shall be the responsibility of the manager of each regulated swimming pool, wading pool, regulated spa pool, or other recreational water feature:

1. All persons using a regulated swimming pool, wading pool or regulated spa pool, where a shower is provided, shall take a cleaning shower bath before entering the pool.
2. Where restrooms are provided at a regulated swimming pool, spa pool, or other

recreational water feature, all such restrooms shall have soap provided and available for hand washing.

3. Any person known to have any disease communicable through water shall be excluded from a regulated swimming pool, wading pool, regulated spa pool, or other recreational water feature. Persons having any considerable area of exposed subepidermal tissue, open blisters, or cuts shall be warned that these are likely to become infected and advised not to use the swimming pool, wading pool, regulated spa pool, or other recreational water feature. Where restrooms are provided at a regulated swimming pool, spa pool, or other recreational water feature, all such restrooms shall have soap provided and available for hand washing.

4. No running, boisterous or rough play, except supervised water sports, shall be permitted in the regulated swimming pool, wading pool, regulated spa pool, or other recreational water feature, or on the adjacent and nearby decks, runways, diving boards, floats, platforms or in dressing rooms and shower rooms.

The owner, lessee or manager of each regulated swimming pool, wading pool, regulated spa pool, or other recreational water feature shall keep a daily record on forms furnished by the health officer. This data shall include disinfectant concentration, pH level, and other measurements specified by the health officer. A copy of the current license for each regulated swimming pool, spa pool, or other recreational water feature shall be kept with the daily records. These records shall be made available to the health officer and shall be maintained on site for a period of at least one year.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.170. Order of closure.

The health officer, because of epidemics or an outbreak of sickness related to a regulated swimming pool, wading pool, regulated spa pool or other recreational water feature, or because of the potential of transmission of disease or sickness through a regulated swimming pool, wading pool, regulated spa pool or other recreational water feature or because of failure to comply with the requirements of this chapter, may as a preventive public health measure, order such regulated swimming pools, wading pools, regulated spa pools, or other recreational water features to be closed and/or sample and test the water for constituents deemed necessary by the health officer of such regulated swimming pools, wading pools, regulated spa pools, or other recreational water features and/or order such modifications of water treatment or operation and use as he or she deems necessary.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.180. Plans and specifications for construction.

No person shall begin construction of a regulated swimming pool, regulated spa pool, wading pool or other recreational water feature or shall substantially alter or reconstruct any regulated swimming pool, regulated spa pool, or other recreational water feature, without first having submitted plans and specifications to the health officer for review, and without receiving a copy of these submitted plans and specifications approved by the health officer. At least two copies of the plans and specifications shall be submitted to the health officer with at least one copy being returned. The plans shall be drawn to scale and accompanied by proper specifications so as to permit a comprehensive, review of the plans,

including the piping and hydraulic details. The plans shall include design drawings and sectional views showing all necessary dimensions of both the pool and surrounding area. The plans shall also include a piping diagram showing all inlets and outlets; filtration, aeration and recirculation systems; water supply and waste water disposal, in sufficient detail, as well as pertinent elevations and data to permit a hydraulic analysis of the system. The specifications shall contain details on all treatment equipment including catalog identification of pumps, chlorinators, chemical feeders, filters, strainers, interceptors, and related equipment. The plans shall also show details on all electrical equipment, decks and steps. The basis of plans review of regulated swimming pools, wading pools and regulated spa pools by the health officer shall be the Proposed Minimum Standards for Public Pools (and Public Spas) published by the National Spa and Pool Institute. The basis of plans review for recreational water features shall be Section 7.72.191 of the city code. Regulated swimming pools, wading pools, regulated spa pools and recreational water features and facilities shall be built in accordance with the plans as approved unless subsequent approval of changes has been given in writing by the health officer.

All parts of the regulated swimming pool, wading pool, regulated spa pool or recreational water feature must be designed, constructed, maintained and operated so there are no slip, trip or fall hazards or other conditions that may pose a safety hazard. If night operation is proposed, at least six foot-candles of light shall be provided to any regulated pool deck and area, the recreational water feature floor and the water feature area. Lighting that may be exposed to the water of such pool or feature shall not exceed fifteen volts, shall be installed in accordance with manufacturer's specifications and be approved for such use by UL or NSF.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.190. Inspection by health officer.

The manager of every regulated swimming pool, regulated spa pool, wading pool or other recreational water feature shall notify the health officer at the time of completion of construction to permit inspection of such regulated structures and equipment prior to being open for use by the public. No regulated swimming pool, regulated spa pool, wading pool or other recreational water feature shall be used by the public until such inspection has been made and full compliance with the requirements of these regulations has been met. The health officer is authorized to conduct additional inspections and obtain such water samples as he or she deems necessary to protect public health and insure continued compliance with all provisions of this chapter and shall have the right of entry at any reasonable hour to all regulated swimming pools, regulated spa pools, wading pools or other recreational water features for this purpose.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.191. Requirements for design and construction of recreational water features.

(1) Waters discharged from all recreational water features such as interactive fountains or spray features shall not pond on the feature floor but shall flow by gravity through a main drain fitting to a below-grade sump or collection system which discharges to a surge tank. Access adequate for service and maintenance shall be provided to the sump and surge tank. A means of vacuuming and completely draining the tank shall be provided. Stairs or a ladder and necessary equipment shall be provided as needed to ensure safe entry into the tank. When an underground sump is utilized an automatic skimmer system shall be provided to adequately remove floating debris from the sump and surge tank system.

(2) The total volume in the surge tank, including all piping, must be a minimum of four thousand gallons. The volume in the surge tank, including all piping, must also be a minimum of three times the flow rate of all attraction pumps and the recirculation pump(s) combined, e.g., if the flow rate of all pumps is two thousand gallons per minute, a volume of at least six thousand gallons would be required. An automatic water level controller shall be provided. An overfill waste line with air gap shall be provided.

(3) All recreational water features shall require a recirculation filter system. The recirculation system must be on a separate loop and not interconnected with the jet spray pump. The filter system shall be capable of filtering and treating the entire water volume of the water feature within thirty minutes. If the surge tank in use exceeds the required minimum volume as stated in subsection (2) of Section 7.72.191, the time the filter system shall be capable of filtering and treating the entire volume of the water feature may be increased proportionately; e.g., if a six thousand gallon tank is required, and a twelve thousand gallon tank is in use, the filtration and treatment time may be increased to within sixty minutes. The filter system shall draft from the lowest portion of the surge tank and return filtered and treated water to the tank via equally spaced inlet fittings. The flow rate through these fittings shall not exceed twenty gallons per minute (gpm).

(4) The suction intake of the jet spray pump in the surge tank must not be located in the immediate vicinity of the suction intake of the recirculation pump. It must be located as close as possible to the recirculation return line inlet fittings.

(5) The feature spray devices must be designed, constructed, and installed so that they do not create a safety hazard. Nozzles that spray from the ground level must be flush with the ground, with openings no greater than one-half inch. Spray devices that extend above the ground must be high enough so they can be clearly seen and are not a trip hazard. The flow rate through the feature nozzles of the water features shall not exceed twenty feet per second, unless justified by the fountain designer and the fountain system manufacturer, and approved by the health officer.

(6) All foggers and jet nozzle sprays that produce finely atomized mists must be connected to a separate potable water source.

(7) Chemical feeders shall be provided and the disinfection feeder shall be capable of feeding 12mg/L of free chlorine to the filter return piping. Automated oxidation reduction potential (ORP) and pH controllers with sensing probes shall be provided to assist in maintaining proper disinfection and pH levels. A separate point-source chlorinator may be required on the jet spray piping if the proper free chlorine residual required in Section 7.72.120 cannot be properly maintained.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.193. Additional requirements for regulated spa pools.

(1) Rooms which contain regulated spa pools shall be provided with adequate air circulation to prevent condensation on the walls.

(2) Spa pools shall have a precaution sign mounted adjacent to the entrance to the spa. The sign shall state the following with clearly legible letters: CAUTION. (1) Elderly persons and those suffering from heart disease, diabetes, high or low blood pressure should not enter the spa. (2) Unsupervised use by children is prohibited. (3) Do not use while under the influence of alcohol, anticoagulants, antihistamines, vasoconstrictors, vasodilators, stimulants, hypnotics, narcotics or tranquilizers. (4) Do not use alone. (5) Observe a reasonable time limit. Long exposures may result in nausea, dizziness or fainting.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.197. Waivers.

The health officer may grant a variance to the requirements of this chapter when alternative methods are available to attain the objectives of this chapter, or the health officer determines that the variance will not adversely affect public health and safety. Individuals aggrieved by any decision of the health officer relative to waivers may appeal to the city council by making a written request for such an appeal to the city clerk within ten days of such decision.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.200. Suspension and revocation of license.

(a) The health officer may, upon ten days written notice, suspend or revoke a license for any of the following reasons:

(1) Violations of this Code with the potential to affect the public health or safety;

(2) Repeated violations of this Code, found in consecutive inspections;

(3) Interference with the regulatory authority in the performance of its duty; or

(4) Continued operation after an order of closure.

(b) Before suspension or revocation, the health officer shall notify the owner, lessee or manager of the regulated swimming pool, wading pool, regulated spa pool or other recreational water feature of the reasons for which such license is subject to suspension or revocation. The license to operate the regulated swimming pool, wading pool, regulated spa pool, or other recreational water feature shall be suspended or revoked at the end of the ten days following service of such notice unless a written request for a hearing is filed with the health officer by the owner, lessee or manager of the regulated swimming pool, wading pool, regulated spa pool, or other recreational water feature within such ten-day period. If no request for hearing is filed within the ten-day period, the suspension or revocation of the license to operate the regulated swimming pool, wading pool, regulated spa pool, or other recreational water feature becomes final.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.201. Service of notice.

A notice provided for in this Code is properly served when it is personally served on the owner, lessee or manager of the regulated swimming pool, wading pool, regulated spa pool or other recreational water feature, or when it is sent by registered or certified mail, return receipt requested, to the last known address of the owner or lessee of the regulated swimming pool, wading pool, regulated spa pool or other recreational water feature. A copy of the notice shall be filed in the records of the health officer.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.202. Hearings and appeals.

The hearing provided for in this Code shall be conducted by the health officer at a time and place he or she designates. The health officer shall make a final finding based upon oral and written evidence presented at the hearing and shall sustain, modify or rescind any notice or order considered in the hearing. A written report of the hearing decision, including the reason(s) for such decision shall be furnished to the owner, lessee or manager of the regulated swimming pool, wading pool, regulated spa pool or other recreational water feature by the health officer within ten days after the hearing. An owner, lessee or manager of a regulated swimming pool, wading pool, regulated spa pool or other recreational water feature dissatisfied with the determination made by the health officer at the hearing may appeal such determination to the city council by filing written notice of such appeal with the city clerk within ten days of notice of the health officer's determination. Such appeal shall be heard by the city council at its next scheduled regular session following the filing of the notice of appeal.
(Ord. No. 46-592 § 1 (part))

Sec. 7.72.220. Penalty for violation of provisions of chapter.

(3) Any convictions occurring during the five years prior to the date of the occurrence shall be taken into account when determining the sentence to be imposed.

(4) Prior convictions on any property, dwelling or dwelling unit owned, managed or operated by the same individual or entity, or a prior entity owned, operated or controlled by the defendant shall be considered as a prior conviction for sentencing purposes.

(e) Each day that any violation to this chapter occurs, it shall constitute a separate offense and shall be punishable hereinafter as a separate violation.

(f) In addition, the Municipal Court Judge may issue an order that any nuisance be abated, with costs being assessed against the Defendant.

(g) Further, the Court may order that the property be re-inspected by the Director to insure that the property has been brought into compliance with the provisions of this Code. Sec. 9.05.040. Permits for existing encroachments—Standards, conditions and term for issuance of same.

(a) Any unlawful encroachment as described in section 9.05.020, and amendments thereto, upon park property that is in existence upon the date of passage of this chapter shall be subject to review by the director, who shall compile a list thereof. The director shall conduct a review of all existing encroachments subject to written standards developed for such purpose. These standards shall include, but not be limited to, the physical characteristics of the encroachment, the size of the encroachment, the purpose for or the use of the encroachment and whether the encroachment poses a public safety hazard. Additionally, an encroachment permit will not be granted allowing an encroachment to exist upon park property that is in violation of any land or deed restriction or is or has been acquired and/or developed with federal financial assistance provided by the National Park Service of the United States Department of the Interior in accordance with the Land and Water Conservation Fund Act of 1965, and amendments thereto. If a determination is made after review that an encroachment permit may be issued for the continued existence of the encroachment, written notice shall be served upon the owner and/or occupant of the property upon which the encroachment is located or that is associated with or adjacent to the encroachment by certified mail, return receipt requested, or by personal service. The notice shall describe the encroachment and provide options as set forth paragraphs (b), (c), (d), (e), (f) and (g) of this section regarding the continued existence of the encroachment.

(b) The recipient of the notice described in paragraph (a) herein shall have forty-five calendar days from the date of the notice to respond in writing thereto and inform the director of such person's intentions regarding maintaining the encroachment. Should the recipient elect to apply for an encroachment permit to maintain the encroachment, application for the permit must be made, and all conditions set forth in subparagraph (d) must be met, within forty-five additional calendar days from the date of the response to the director, provided, however, that an extension of one forty-five calendar day time period shall be granted if recipient demonstrates that due diligence is being exercised in making application for, and complying with the required conditions for such permit. If the recipient of the notice described in paragraph (a) herein fails to

respond to the notice or fails to complete an application for and comply with the conditions for an encroachment permit within the required period of time, the option to obtain an encroachment permit shall no longer be available to the owner and/or occupant of the property upon which the encroachment is located or that is associated with or adjacent to the encroachment. A notice to abate shall be sent to such person, following the process set forth in section 9.05.060 of this Code.

(c) An encroachment permit shall become null and void and subject to revocation by the director upon the sale or any change of ownership of the property upon which the encroachment is located or that is associated with or adjacent to the encroachment.

(d) An encroachment permit shall be issued to an applicant only if each of the following conditions are met:

(1) The encroachment must be in existence upon the effective date of the ordinance from which this section is derived to be eligible for an encroachment permit. No encroachment that comes into existence after the effective date of the ordinance from which this section is derived shall be eligible for such a permit.

(2) The encroachment must not present a public safety hazard. No encroachment permit will be issued if the existence thereof creates or causes a public safety hazard.

(3) The applicant must pay the required fee for the encroachment permit and must allow the director access to the applicant's property as necessary to photograph and otherwise document the encroachment as it exists at the time the encroachment permit is issued.

(4) The applicant must sign an agreement to indemnify, hold harmless and defend the city, the council, the board, and any of its agents or employees from and against any and all loss, damage, liability, cost or expense which arises, or is alleged to have arisen due to the existence of the encroachment.

(5) The applicant must acquire, at such applicant's own expense, general liability insurance in an amount not less than the maximum liability of a governmental entity for claims arising out of a single occurrence as provided by the Kansas Tort Claims Act or other similar future law (currently $500,000.00 per occurrence). The city shall be named as an additional insured under said policy and such policy shall properly protect and indemnify the city in an amount not less than aforesaid. The issuer may not cancel the insurance thereof without at least thirty days advance written notice to the director of park and recreation. A copy of such policy shall be furnished to city with the application for an encroachment permit and at the time of each annual renewal of such permit.

(6) The applicant shall not, nor permit anyone else to enlarge or expand the encroachment in any manner, nor shall such person erect, construct, install or place any encroachment in addition to that allowed by the encroachment permit required herein.

(7) The applicant shall sign a notice of encroachment which shall be in a form prepared and approved by the city attorney, and shall be filed with the office of the register of deeds for Sedgwick County. This chapter is intended to serve as notice to any subsequent purchaser of the property which is associated with the encroachment permit that the permit is null and void and subject to revocation and the encroachment subject to abatement upon any sale or change of ownership of said property.

(8) The encroachment for which an encroachment permit is issued shall be subject to any utility excavation or other work that must be done at the location of the encroachment by the city or any utility

operating under a city franchise. It shall be the responsibility of the permit holder to remove any or all of the encroachment, if necessary, for such work to proceed. Additionally, should damage to the encroachment occur during such utility excavation or other work, the city or utility operating under a city franchise will not be responsible for the repair or replacement of such encroachment if the encroachment is thereafter allowed by this chapter.

(9) The encroachment for which an encroachment permit is issued shall be subject to any redevelopment, change of use or to meet other needs of the park and recreation department regarding the park property where the encroachment is located, as determined by the council or the board.

(10) The applicant shall be subject to any additional terms, conditions and/or limitations placed upon the existing encroachment and made a part of the encroachment permit by the director, however, the applicant may, upon written request to the director, obtain a hearing before either the director or a designated hearing officer regarding such additional terms and conditions provided the request is received by the director within ten business days from the date of the issuance of the encroachment permit. Any hearing requested shall proceed in accordance with the provisions of section 9.05.080(a) of this Code.

(e) An encroachment permit shall be valid for a term of one year from the date of issuance and must be renewed on an annual basis, with payment of the required fee and subject to all requirements set forth in paragraph (d) of this section. Renewal must be made no later than thirty calendar days following the expiration date of the permit being renewed.

(f) The director is authorized, with the approval of the board, to implement an application process for the encroachment permit required by this section and setting any fees therefor.

(g) An encroachment permit shall be revoked by the director, if any of the following shall occur:

(1) Failure of any holder of an encroachment permit to maintain continued compliance with any of the conditions for obtaining such permit as set forth in paragraph (d) of this section;

(2) Failure of any holder of an encroachment permit to renew said permit within the time limits set forth in paragraph (e) of this section;

(3) The sale or change of ownership of the real property associated with an encroachment permit; or

(4) A determination by the council or the board regarding redevelopment of or changes in the use of the park property where the encroachment is located, in order to meet the needs of the department of park and recreation.

(h) Written notice of the revocation of an encroachment permit by the director shall be provided to the permit holder along with a notice to abate pursuant to the procedure set forth in section 9.05.060 of this Code. The notice shall include the reason for revocation of the encroachment permit and a statement that the recipient may, upon written request to the director, obtain a hearing before either the director or a designated hearing officer, provided the request is received by the director within ten business days from the date of the notice of revocation. Any hearing requested shall proceed in accordance with the provisions of section 9.05.080(a) of this Code. The provisions of the notice to abate shall be stayed pending the hearing on the permit revocation.

ID media shall be worn and displayed conspicuously on the outer garment of the person, in plain view above the waist, unless otherwise authorized by the Airport Authority.

(b) In the event ID media issued by the Airport Authority is damaged, lost or stolen, the company which employs or sponsors the person to which such identification was issued shall comply with procedures established by the Airport Authority and give immediate notice of such occurrence to the Airport Police and Fire Division. A replacement ID media shall not be reissued until such notice is received by the Airport Police and Fire Division and either the employee or the employer has paid to the Airport Authority the established fee for the issuance of replacement Airport ID media.

(c) All persons issued ID media by the Airport Authority, or the company employing or sponsoring such persons, shall pay to the Airport Authority the established fee for the issuance of original, renewal or replacement Airport security ID media. The company employing or sponsoring persons holding ID media shall be responsible for the immediate return of the ID media of any employees or sponsored persons who have separated or transferred from their employment at the Airport, or whose ID media has been demanded by the Airport Authority, and for paying to the Airport Authority the established fee for the failure to return the ID media of the employees or sponsored persons.

Eisenhower National Airport or any other Airport using ID media issued to any other person. In the event a person is discovered wearing the access and identification media of another person, unless such other person has previously reported that his or her access and identification media has been lost or stolen, both persons shall be considered to have violated the provisions of this Section.

(h) It shall be the responsibility of all persons working in a Secured Area, AOA, SIDA, Sterile Area or other Restricted Areas at Wichita Dwight D. A proper and appropriate security challenge shall be issued as defined in this Chapter. Persons found to be without current, correct and appropriate ID media or in an unauthorized area shall be immediately escorted from the area into a non-secured public area, and kept under visual observation until clear of the Secured Area, AOA, SIDA or Sterile Area and the challenging party shall immediately notify Airport Police and Fire. The Airport Authority shall have the right to confiscate the ID media of any person who violates the provisions of this Section, and to demand the return of the ID media of all persons employed or sponsored by a company violating this Section or whose lease, permit or license agreement with the Airport Authority allowing use of the Airport has expired, been cancelled or terminated. The Authority shall have the right to demand the return of and confiscate Airport Authority issued access and identification media for any violation by any person of Transportation Security Regulations, Security Directives, or the TSA approved Airport Security Plan.
