PREFACE

This Republication constitutes a republication of the general and permanent ordinances of the City of Wichita, Kansas.

Source materials used in the preparation of the Code was the 1972 Code, as supplemented through Ordinance No. 46-624, passed July 19, 2005. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the comparative tables appearing in the back of this Code, the reader can locate any section of the Wichita Code, as supplemented, and any subsequent ordinance included herein.

The chapters of the Code have been conveniently arranged in alphabetical order, and the various sections within each chapter have been catchlined to facilitate usage. Notes which tie related sections of the Code together and which refer to relevant state law have been included. A table listing the state law citations and setting forth their location within the Code is included at the back of this Code.

Chapter and Section Numbering System

The chapter and section numbering system used in this Code is the same system used in many state and local government codes. Each section number consists of two parts separated by a dash. The figure before the dash refers to the chapter number, and the figure after the dash refers to the position of the section within the chapter. Thus, the second section of chapter 1 is numbered 1-2, and the first section of chapter 6 is 6-1. Under this system, each section is identified with its chapter, and at the same time new sections can be inserted in their proper place by using the decimal system for amendments. For example, if new material consisting of one section that would logically come between sections 6-1 and 6-2 is desired to be added, such new section would be numbered 6-1.5. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject. The next successive number shall be assigned to the new article or division. New chapters may be included in the same manner. If the new material is to be included between chapters 12 and 13, it will be designated as chapter 12.5.) Care should be taken that the alphabetical arrangement of chapters is maintained when including new chapters.

Page Numbering System

The page numbering system used in this Code is a prefix system. The letters to the left of the dash are an abbreviation which represents a certain portion of the volume. The number to the right of the dash represents the number of the page in that portion. In the case of a chapter of the Code, the number to the left of the dash indicates the number of the chapter. In the case of an appendix to the Code, the letter immediately to the left of the dash indicates the letter of the appendix. The following are typical parts of codes of ordinances, which

may or may not appear in this Code at this time, and their corresponding prefixes:

CHARTER	C-1
CHARTER COMPARATIVE TABLE	CHT-1
CODE	1:1
CODE COMPARATIVE TABLES	CCT-1
STATE LAW REFERENCE TABLE	SR-1
CHARTER INDEX	CHTi-1
CODE INDEX	CDi-1

Indexes

The indexes have been prepared with the greatest of care. Each particular item has been placed under several headings, some of which are couched in lay phraseology, others in legal terminology, and still others in language generally used by local government officials and employees. There are numerous cross-references within the indexes themselves which stand as guideposts to direct the user to the particular item in which the user is interested.

Looseleaf Supplements

A special feature of this publication is the looseleaf system of binding and supplemental servicing of the publication. With this system, the publication will be kept up-to-date. Subsequent amendatory legislation will be properly edited, and the affected page or pages will be reprinted. These new pages will be distributed to holders of copies of the publication, with instructions for the manner of inserting the new pages and deleting the obsolete pages.

Keeping this publication up-to-date at all times will depend largely upon the holder of the publication. As revised pages are received, it will then become the responsibility of the holder to have the amendments inserted according to the attached instructions. It is strongly recommended by the publisher that all such amendments be inserted immediately upon receipt to avoid misplacing them and, in addition, that all deleted pages be saved and filed for historical reference purposes.

Acknowledgments

This publication was under the direct supervision of Eric Grant, Vice-President of Supplementation, and Janet Cramer, Editor, of the Municipal Code Corporation, Tallahassee, Florida. Credit is gratefully given to the other members of the publisher's staff for their sincere interest and able assistance throughout the project.

The publisher is most grateful to Gary E. Rebenstorf, Director of Law and City Attorney, and Joe Allen Lang, First Assistant Attorney, for their cooperation and assistance during the progress of the work on this publication. It is hoped that their efforts and those of the publisher have resulted in a Code of

Ordinances which will make the active law of the City readily accessible to all citizens and which will be a valuable tool in the day-to-day administration of the City's affairs.

Checklist of Up-to-Date Pages

(This checklist will be updated with the printing of each Supplement)

From our experience in publishing Looseleaf Supplements on a page-for-page substitution basis, it has become evident that through usage and supplementation many pages can be inserted and removed in error.

The following listing is included in this Code as a ready guide for the user to determine whether the Code volume properly reflects the latest printing of each page.

In the first column all page numbers are listed in sequence. The second column reflects the latest printing of the pages as they should appear in an up-to-date volume. The letters "OC" indicate the pages have not been reprinted in the Supplement Service and appear as published for the original Code. When a page has been reprinted or printed in the Supplement Service, this column reflects the identification number or Supplement Number printed on the bottom of the page.

In addition to assisting existing holders of the Code, this list may be used in compiling an up-to-date copy from the original Code and subsequent Supplements.

The table below allows users of this Code to quickly and accurately determine what ordinances have been considered for codification in each supplement. Ordinances that are of a general and permanent nature are codified in the Code Book and are considered "Includes." Ordinances that are not of a general and permanent nature are not codified in the Code Book and are considered "Omits."

In addition, by adding to this table with each supplement, users of this Code of Ordinances will be able to gain a more complete picture of the Code's historical evolution.

A CHARTER ORDINANCE EXEMPTING THE CITY OF WICHITA, KANSAS, FROM CERTAIN PROVISIONS OF K.S.A. 13-1348a, AS AMENDED BY SECTION 40, CHAPTER 173, OF THE 1981 SESSION LAWS OF KANSAS, RELATING TO THE ISSUANCE OF GENERAL OBLIGATION BONDS FOR PARKS, PARKWAYS, BOULEVARDS OR AIRPORT PURPOSES, PROVIDING SUBSTITUTE PROVISIONS THEREFOR, AND REPEALING CHARTER ORDINANCE NO. 59.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF WICHITA, KANSAS:

SECTION 1. The governing body of the City of Wichita, Kansas, by the power vested in it by Article 12, Section 5, of the Constitution of the State of Kansas, hereby elects to and exempts itself from and makes inapplicable to it that part of K.S.A. 13-1348a, as amended by Section 40, Chapter 173 of the 1981 Session Laws of Kansas, pertaining to the issuance of general obligation bonds for parks, parkways, boulevards or airport purposes, which part reads as follows, to-wit:

"No bonds shall be issued under authority conferred by this section until the question of the issuance of such bonds has been submitted to a vote of the qualified electors of the city at a general or regular city election or a special bond election and a majority of the electors voting on the question have voted in favor thereof.

In lieu of the foregoing election requirements, where, by resolution of a board of park commissioners or airport authority, net income of an airport facility is pledged to the municipality for payment of bonds issued hereunder, a resolution may be adopted by the governing body of the municipality stating the purpose for which such bonds are to be issued, and the total amount of the bonds proposed to be issued along with a finding by the governing body that revenues pledged by resolution of the board of park commissioners or airport authority will be sufficient to retire general obligation bonds issued hereunder. Such resolution and finding by the governing body of the municipality shall be published once each week for two consecutive weeks in the official newspaper of such municipality. Whereupon such bonds may be issued unless a petition requesting election on the proposition signed by electors or such city equal in number to not less than two per cent (2%) of the municipality who voted at the last preceding general election, is filed with the Clerk of such municipality within sixty (60) days following the last publication of such resolution. In the event such petition is filed, the governing body of such municipality shall submit the proposition to the voters at an election called for such purpose and held not less than thirty (30) days nor more than sixty (60) days after the filing of such petition. No bonds shall be issued unless a majority of the electors voting on such proposition vote in favor thereof. Such election shall be called and held in the manner provided by the general bond law." and the City hereby provides a substitute provision as set out in Section 2 hereof.

SECTION 2. Bonds issued under authority of K.S.A. 13-1348a, as amended by Section 40, Chapter 173 of the 1981 Session Laws of Kansas, and as further modified by this Charter Ordinance, are authorized to be issued without an election. The Board of Park Commissioners of the City of Wichita, Kansas, or the Airport Authority of the City of Wichita, Kansas, may pledge by resolution, but such shall not be required to pledge, the net income of a park facility or an airport facility for payment of such bonds so issued.

SECTION 3. Charter Ordinance No. 59 is hereby repealed.

SECTION 4. This Charter Ordinance shall be published once a week for two consecutive weeks in the official city newspaper.

A CHARTER ORDINANCE EXEMPTING THE CITY OF WICHITA, KANSAS, FROM THE PROVISIONS OF K.S.A. 13-1008d THROUGH K.S.A. 13-1008h AND PROVIDING SUBSTITUTE AND ADDITIONAL PROVISIONS ON THE SAME SUBJECT, RELATING TO SIDEWALKS AND THE FINANCING OF SAME.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF WICHITA, KANSAS:

SECTION 1. The City of Wichita, Kansas, a commission-manager city of the first class, by the power vested in it by Article 12, Section 5, of the Constitution of the State of Kansas, hereby elects to exempt itself from, and makes inapplicable to it, the provisions of K.S.A. 13-1008d through 13-1008h, and provide substitute and additional provisions as hereinafter set forth in this ordinance. Such referenced provisions are either enactments or a part thereof which are applicable to other cities, but are not applicable uniformly to all cites or all cities of the same class.

SECTION 2. (a) Any city of the first class having a population of not less than sixty thousand (60,000) is authorized to construct, reconstruct and/or repair sidewalks within the city and to levy special assessments therefore upon the owners of lots and tracts abutting thereon.

(b) It shall be the duty of the owner of the abutting property to keep sidewalk in repair. When any sidewalk becomes inadequate or unsafe for travel thereon, the Director of Operations and Maintenance or his authorized representative may, after giving five days' written notice by certified mail, return receipt requested, to the owner or his or her agent, if known, of the necessity therefore, make all necessary repairs, construction or reconstruction at any time. The construction, reconstruction and/or repairs may be made by force account or by contract and an account of the cost thereof shall be kept and reported to the governing body.

(c) The cost of all sidewalks constructed under the provisions of this act shall be assessed to the property abutting on such sidewalks.

(d) When a sidewalk or sidewalks has or have been constructed, reconstructed and/or repaired, special assessments shall be levied for the expense thereof. The governing body shall, as soon as the cost is ascertained, levy an assessment against the lots or pieces of land chargeable therefore, by ordinance, and the property owner shall have thirty (30) days after the publication of the ordinance within which to make full payment of the assessment. The City Clerk shall mail a notice not less than fifteen (15) days prior to the end of the thirty (30) days to the owner of record of the property, but failure of the owner to receive notice shall not affect the validity of the assessment. The governing body of said city may issue bonds in the manner provided in the general bond law to finance the unpaid balance of any such special assessments or the cost of construction, reconstruction and repair may be financed until the assessment is paid, out of the fund provided for the maintenance of streets or general improvement fund if such cost has been budgeted as an expense of such fund, and when the assessment and the interest thereon are paid, they shall be credited to such fund.

(e) The cost of constructing, reconstructing and repairing all sidewalks abutting on lots or pieces of land belonging to the city or the United States, and that portion of the sidewalk extending from the projected property line to the curb and which does not abut on and which is not in front of or along side of any lot or piece of land, shall be paid for by the city unless the United States shall pay the cost of the sidewalk abutting on property owned by the United States, and may be paid for out of the fund provided for the maintenance of streets or general improvement fund or by the issuance of bonds and the levying of taxes to pay such bonds.

(f) The temporary financing of repairs may be borne by the city out of the fund for maintaining streets or out of the general fund or general improvement fund or temporary notes may be issued during construction, reconstruction or repair of such sidewalks and before the issuance of sidewalk bonds.

(g) The assessment may be levied to be paid in one installment or in not more than five installments at the discretion of the governing body, and when installments are certified to the county clerk, interest at the rates specified on the bonds hereinabove authorized to be issued shall be added; provided, that when bonds are not issued, the interest on the installments shall be equal to the average net interest cost incurred by the city in its issuance of general obligation bonds next preceding the assessment. The assessment shall include the cost of materials, labor, engineering and supervision, publication expense, cost of printing bonds, if applicable, removing old sidewalk, and all other expenses properly chargeable against the project; provided, that certain costs not ascertained at the time of figuring the expense, such as publication of the assessment ordinance, printing of bonds, etc., may be estimated; provided, that the costs relating to bonds shall be deducted if the assessment is paid within the thirty days provided for herein.

SECTION 3. This is a Charter Ordinance and shall take effect sixty-one days after final publication unless a sufficient petition for a referendum is filed and a referendum held on the ordinance as provided in Article 12, Section 5, Subdivision (c) (3) of the Constitution of Kansas, in which case the ordinance shall become effective by a majority of the electors voting thereon.

SECTION 1. Exemption from Kansas Statutes Annotated. The City of Wichita, Kansas, a council-manager city of the first class, by the power vested in it by Article II, Section 5 of the Constitution of the State of Kansas, hereby elects to exempt itself from, and make inapplicable to it the provisions of Kansas States Annotated 13-10,136 as amended at Chapter 64, 1991 Session Laws of the State of Kansas, 13-10,137, 13-10,138 as amended at Chapter 64, 1991 Session Laws of the State of Kansas, and 13-10,139 and amendments thereto, and provides substitute and additional provisions as hereinafter set forth in this Charter Ordinance. Such building or buildings, facilities or equipment shall be maintained and operated for the affairs of any federal, state, city, school district, Sedgwick County, Kansas, municipal corporation, quasi-municipal corporation, political subdivision or body politic, or agency thereof, (hereafter jointly referred to as "Governmental Agencies") doing business, maintaining an office or rendering a public service within Sedgwick County, Kansas.

(b) The Commission may acquire land and facilities located within Sedgwick County that are adjacent to or near any educational institution under the supervision and control of the state board of regents or may acquire by lease, land and facilities located within Sedgwick County that constitute a part of the campus of any such institution. The governing body of the City or Sedgwick County may designate any surplus from such tax levy as may be necessary to guarantee the rentals under any such lease, and the City or Sedgwick County is hereby exempted from the provisions of K.S.A. 10-1101 to 10-1122, inclusive, and 79-2925, and amendments thereto, to the extent necessary to enable the City or Sedgwick County to make covenant to effect such guarantee.

SECTION 3. ORDINANCE SPECIFICATIONS. The ordinance that creates the Commission shall specify the functions of the Commission and shall specify the number of members for the governing body of the Commission, which shall not be fewer than three nor more than nine, except where the Commission will provide for leasing of equipment or the leasing of a building or buildings and/or facilities to a city, Sedgwick County, a school district, state university or state agency, in which case the governing body of such

Such resolution shall be published once a week for two consecutive weeks in the official City newspaper.

(c) No construction shall be let or approved and no equipment shall be purchased by the Commission until after the expiration of the protest period provided under this section.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF WICHITA, KANSAS:

SECTION 1. Section 8 of Charter Ordinance No. 112 as amended by Section 1 of Charter Ordinance No. 126 is hereby amended to read as follows:

"SECTION 8. Revision of Boundary Lines. Commencing in July of 1990, in July of 1992, in July of 2002, and in July of every tenth year thereafter, the Council shall appoint a commission of the electors of the City who shall examine the plan of districts and shall, by September 30 of each such year, recommend to the Council such revisions in the boundary lines of the districts so as to meet the requirements stated below in Section 9. On or prior to December 31 of each such year, the Council by ordinary ordinance shall re-establish the district boundaries as recommended by the commission of electors or shall reject, in whole or in part the recommendations of the commission of electors and reestablish the boundaries as it sees fit so as to meet the requirements stated below in Section 9. The Council shall certify the boundaries so re-established to the Election Commissioner of Sedgwick County. The commission appointed to recommend revisions to district lines shall have at least one elector from each district.

Any territory hereafter annexed to or consolidated with the City of Wichita, Kansas, shall at the time of such annexation or consolidation be added to an adjacent district or districts by an ordinary ordinance of the Council; provided that if any territory annexed or consolidated prior to June 1 of the year preceding a City election shall contain qualified voters sufficient in number to upset the approximate equality of the established districts by a deviation of ten percent (10%) or more, the Council shall provide for redistricting the City in accord with the procedures described in this section.

In the event that the revision of district boundaries shall result in an incumbent Council member residing outside that member's district, such Council member shall continue to be qualified to serve until the completion of the term for which elected. Further, if a Council member moves out of the district from which elected within four (4) months of the end of the members term, such member shall continue to be qualified to complete the term for which elected."

SECTION 2. Section 9 of Charter Ordinance No. 112 is hereby amended to read as follows:

"SECTION 9. Requirements for Re-establishing District Boundary Lines. The boundary lines for the six (6) Council districts shall be re-established by the commission of electors and Council so as to:

1. Contain within each district a population which to the greatest extent feasible is equal to one-sixth (1/6) of the total population of the City, but which under no circumstances shall be greater or less than one-sixth (1/6) of the total population of the City by more than five percent (5%), based on the U.S. decennial census or upon the most current population data then available.

2. Maintain a reasonably compact area in each district and avoid any noncontiguous zones or any unusually exaggerated extension of district lines.

3. Follow election precinct lines as established by the Sedgwick County Election Commissioner and be described in terms of the wards and precincts contained in each district.

4. Avoid use of number of registered voters by party or other partisan data.

5. Maintain, as much as possible, the integrity of broadly cohesive areas of interest."

SECTION 3. Repeal. The originals of Charter Ordinance No. 126 and Section 9 of Charter Ordinance No. 112 of the City of Wichita, Kansas, are hereby repealed.

CHARTER ORDINANCE NO. 212

A CHARTER ORDINANCE AMENDING SECTION 2 OF CHARTER ORDINANCE NO. 139 OF THE CITY OF WICHITA, KANSAS, PERTAINING TO DELAY OF SPECIAL ASSESSMENTS, AND REPEALING THE ORIGINAL OF SAID SECTION.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF WICHITA, KANSAS:

SECTION 1: The provisions of Section 2 of Charter Ordinance No. 139 of the City of Wichita, Kansas, are hereby amended to read as follows:

SECTION 2. DELAY OF SPECIAL ASSESSMENTS. The City Council may authorize and provide for a delay in or an abatement of the payment of special assessments for the cost of constructing public improvements subject to the conditions and in the manner provided for herein.

(a) The City Council may authorize and provide for a delay in the payment of a part or all of an assessment for the costs of constructing a parking facility located within a parking district that is being financed under authorization of Charter Ordinance 138 if the property the delay is being sought for, at the time bonds are issued, provides off-street parking on the property that meets off-street parking requirements for the use the property is subject to at that time. Delayed assessments shall be due and payable at the time the use of such property changes to a use that requires more off-street parking spaces than are being provided for on the property. The delay of the payment of assessments may, at the discretion of the City Council, be continued on a partial basis on the portion of the assessment that exceeds the cost of the parking spaces that are needed to meet off-street parking requirements. E.g., if the property was originally assessed for 20 spaces and only 12 spaces are

needed, then the delay for payment of assessment can be continued on the portion of the assessment that equals the 8 spaces that will not be used.

(b) The City Council may authorize and provide for a delay in the payment of special assessments for the cost of constructing public improvements in unplatted and undeveloped areas of the City. The City Council may provide for a delay in the commencement of payment of some or all special assessments upon such property for a designated period not to exceed fifteen years or until such property is platted or developed if the same occurs prior to the conclusion of the period designated. In the event such property has not developed 50% of its area at the conclusion of the period designated, an additional extension of ten years before commencement of payments may be granted to such property. All assessments shall be due and payable at the time such property, or any portion thereof, is platted or developed, or at the expiration of the designated period or any extension of such period. The payments for such property, or any portion thereof, shall be spread against such property, or any portion thereof as if the time for payment of the special assessments had not been delayed. When payments become due on a portion of the property, the payments against such property shall be spread in a pro rata manner based on the ratio the area of such property bears to the area of the entire property originally delayed. For the purpose of this act, undeveloped areas shall mean those areas which:

(1) are in excess of 2½ acres;

(2) have not been platted;

(3) are undeveloped;

(4) have a population density of less than one family per acre;

(5) are not served by such public improvement; and,

(6) neither the owner of such area nor such owner's spouse, nor any entity in which either has greater than 5% ownership interest has petitioned for this improvement.

(c) In addition, in the case of special assessments for drainage improvements on property which has been platted for development the City Council may authorize and provide for a delay in the payment of special assessments for the cost of constructing storm water drainage improvements on such property, for a designated period of not to exceed five years or such earlier time as of which street improvements are approved for the property, as referenced in (4) below, or the letter or credit referenced in (3), below, is released. Storm water drainage deferral is subject to the following conditions:

(1) The property for which the storm water drainage improvements are deferred must be platted and must not yet be served by street pavement (either public or private).

(2) The property eligible for the storm water drainage deferral must not exceed fifty percent (in either size and/or lot count) of the benefit.

(3) A letter of credit in the amount of 35% of the storm water drainage project cost must be provided per the requirements of the City of Wichita and, for a benefit district utilizing storm water drainage deferral the release of the letter of credit shall end the deferral period.

(4) If or when street pavement, either publically or privately funded, is approved for any lot

within the benefit district for which the storm water sewer assessment is deferred, the development deferral for all lots will expire. Approval of streets will be defined as awarding of the contract for publically constructed streets, or the final plan approval for private street improvements.

(d) The City Council may authorize and provide for a delay in or abatement of the payment of all or any portion of special assessments for the construction of public improvements levied against residential property when, in the opinion of the City Council such payment would work a hardship on the owners of such property. The City Council may provide conditions and requirements for qualification for any such delay or abatement, either by way of ordinance adopted by the City Council or by way of regulations and policies promulgated by the city pursuant to City Council direction."

SECTION 2. The original of Section 2 of Charter Ordinance No. 139 of the City of Wichita, Kansas, is hereby repealed.

SECTION 3. This ordinance shall be published once each week for two consecutive weeks.

SECTION 4. This is a charter ordinance and shall take effect sixty-one days after final publication unless a sufficient petition for a referendum is filed and a referendum held on the ordinance as provided in Article 12, Section 5, Subsection (c)(3) of the Constitution of the State of Kansas, in which case the ordinance shall become effective if approved by a majority of the electors voting thereon.

Each municipal court judge shall be evaluated annually according to procedures established by the City Council. Such evaluation shall determine if the judge is qualified to continue to serve as a municipal court judge and if a merit increase should be granted. The evaluation process shall be set forth by a policy adopted by the City Council. The judges shall give their full time to the duties of their office. The judges shall be eligible for all City employment benefits and participation in the city retirement system.

SECTION 6. No judge of the municipal court shall engage in the practice of law.

SECTION 7. Any person who is selected as a municipal court judge shall:

(a) Be a citizen of the United States and a resident of Sedgwick County, Kansas, at the time of his or her selection as well as the time for taking and holding office;

(b) Have been regularly admitted to practice law in the State of Kansas; and

(c) Comply with the residency requirements set forth in City Council Policy No. 25; and

(d) For a period of not less than three years, have engaged in the active practice of law as a lawyer, judge of a court of record or any court in this state, full-time teacher of law in any accredited law school or any combination thereof.

SECTION 8. The judges of the municipal court shall, with the assistance of the City Attorney and the municipal court administrator, prescribe and adopt rules of practice and procedure for the municipal court not inconsistent with sound principles of municipal court administration of justice, this ordinance or with the ordinances of the City or the laws of this state. Said rules shall be revised and updated.

SECTION 9. (a) There is hereby established a Municipal Judge Nominating Commission, which

shall consist of five (5) members. Two (2) non-lawyer members of the nominating commission shall be appointed by the City Council. The other three (3) members of the nominating commission shall be lawyers nominated by the governing body of the Wichita Bar Association and appointed by the City Council. In the event the Wichita Bar Association does not nominate members, three (3) lawyers shall be appointed by the City Council. Each member of the commission shall be a qualified elector of the City of Wichita. The commission shall appoint one of its members as chairperson and one as vice-chairperson under such procedures and for such term as the commission may determine by majority vote. The members of the commission shall serve for such term as is provided by ordinance for appointive boards and commissions. Vacancies shall be filled in the same manner as the original appointment.

(b) Whenever a vacancy occurs in the office of municipal court judge, or whenever a vacancy will occur in such office on a specified future date, the City Attorney shall give notice of such vacancy or expiration of term of office to the Chairperson of the nominating commission. The Chairperson shall call an organizing meeting of the commission to be held with five (5) days after receipt of such notice for the purpose of nominating persons for appointment to such office. The commission shall determine the rules necessary for the conduct of its proceedings and the discharge of its duties. The commission shall not take any final action except at regularly scheduled meetings. A majority of the members of the commission shall constitute a quorum to do business, but no final action shall be taken except upon a vote of the majority of the members of the commission.

(c) Applications for the office of municipal court judge shall be submitted to the City Clerk in such time, manner, and form as may be determined by the City Manager. The City Clerk shall forward the same to the nominating commission.

(d) It shall be the duty of the commission to nominate not less than three (3) persons for each municipal court judge office which is vacant or which term has or will expire, and shall submit the names of the persons so nominated to the City Council. Any person so nominated shall have the qualifications prescribed by statute and ordinance. In order that a vacancy in the office of municipal court judge does not exist for an inordinate length of time, the commission shall conduct the business of selecting nominees for appointment to such office and certifying the same to the City Council as promptly and expeditiously as possible, having due regard for the importance of selecting the best possible nominees. In no event shall the commission submit its nominations to the City Council more than thirty (30) days after notice, unless the City Council permits the extension of such period.

(e) An incumbent municipal court judge shall be deemed to be a candidate for reappointment unless the judge notifies the City Clerk prior to sixty (60) days from the end of his or her term that he or she does not seek to be reappointed. If there is no notification, it shall be assumed that the incumbent wishes to remain in office. The City Council shall have the discretion to consider and vote whether to reappoint an incumbent municipal court judge without referral to the nominating commission. In making its determination, the Council may consider the judge's annual evaluations in determining if such judge should be retained. If the City Council does not exercise its discretion to consider and vote to reappoint an incumbent judge, the procedure for filling a vacancy set out in subsections (b), (c) and (d) of this ordinance will be invoked. In such an instance, an incumbent judge shall be a candidate for nomination under such procedure.

(f) The City Council shall appoint one of the nominees so submitted, or reject all nominees and request the nomination by the commission of additional nominees. If the commission declines to nominate additional nominees within thirty (30) days after being so requested by the City Council, the City Council shall make the appointment from among the persons indicating an interest in the office.

(g) An appointee to the office of municipal court judge shall take and hold office for the term or remainder thereof provided herein, and until reappointed or until a successor is appointed.

SECTION 10. Judges of the municipal court of Wichita, Kansas, shall be subject to recall or removal as provided in the Rules of the Kansas Supreme Court Relating to Judicial Conduct. Further, the chief judge and the two senior district court judges of the Eighteenth Judicial District will act as a committee with the authority to suspend a judge of the municipal court for good cause shown.

Judges may be removed or not retained by the City Council for violations of the City's Human Resources policies or based upon the results of an annual performance evaluation performed by the City Council.

SECTION 11. (Amended and repealed—See Charter Ordinance No. 242, § 3.)

SECTION 12. The originals of Charter Ordinances Nos. 90, 117, 135, 142, 152, 186, 191 and 207 of the Code of the City of Wichita, Kansas, are hereby repealed.

SECTION 13. This ordinance shall be published once each week for two consecutive weeks in the official city paper.

(b) A law enforcement officer may detain a person arrested for violation of a municipal ordinance in protective custody for a period not to exceed six hours, including custody in a city or county jail, if such officer has probable cause to believe that: (1) such person may cause injury to oneself or others, or damage to property; and (2) there is no responsible person or institution to which such person might be released. (a) The chief municipal judge shall establish a schedule of fines which shall be imposed for municipal ordinance violations that are classified as ordinance traffic infractions. Also, the municipal judge may establish a schedule of fines which shall be imposed for the violation of certain other ordinances. Such fines shall be imposed upon a voluntary entry of appearance and upon a plea of guilty or no contest to a complaint alleging such violation. The following traffic violations are specifically excluded from any schedule of fines:

The complaint shall not have been complied with if a check is not honored for any reason, or the fine is not paid in full prior to the time specified in the notice to appear. Provided, however, that if it be shown to the court that the person filing such motion or application is indigent, the court may, in its discretion, waive the costs provided for herein and the court shall make a finding of indigency and shall note upon the motion, application or order resulting therefrom that the costs referred to herein have been waived.

SECTION 9. (Amended and repealed—See Charter Ordinance No. 229, §§ 1, 2.)

SECTION 10. The municipal judge may parole any person confined to jail as a result of a conviction of a violation of a City ordinance and may set such conditions and restrictions of such parole as the judge sees fit to impose, for a term of parole not exceeding two years, and may at any time discharge such person for good cause shown; provided, however, that nothing herein shall authorize or empower the municipal judge to grant parole to any person confined to jail as a result of a conviction of a violation of a City ordinance which provides for a mandatory, minimum sentence of imprisonment, before such person has served such minimum sentence.

The term of parole ordered by the court is subject to renewal and extension for additional periods not exceeding an additional two years for any misdemeanor case upon the municipal court's finding that the defendant has not yet successfully completed the conditions imposed therein within the original term of such parole.

After notice and hearing, the municipal judge may revoke such parole for violation of conditions by directing the Chief of Police or the warrant office to execute the sentence and again confine the accused person to jail for the time specified by the court, which shall not exceed the initial jail sentence imposed, less the time served.

SECTION 11. (a) Whenever a person is found guilty of the violation of an ordinance, the municipal judge may, unless otherwise required by law to impose a mandatory, minimum sentence or fine, imprisonment, or both: (1) release the person without imposition of sentence; (2) release the person on probation after the imposition of sentence, without imprisonment or the payment of a fine or a portion thereof, subject to conditions imposed by the court; (3) impose a sentence of house arrest as provided for in K.S.A. 21-6609, and amendments thereto; or (4) impose such sentence of fine, imprisonment or both, as may be authorized for the ordinance violation.

(b) Whenever a person is found guilty of the violation of an ordinance and there is evidence that the act constituting the violation of the ordinance was substantially related to the possession, use or ingestion of a cereal malt beverage or an alcoholic beverage by such person, the judge may, in addition to the disposition authorized by subsection (a), order such person to attend and satisfactorily complete an alcohol or drug education or training program certified by the chief judge or licensed by the Secretary of Social and Rehabilitation Services or the Secretary of the Department for Children and Families.

(c) Except as provided in subsection (d), in addition to or in lieu of any other sentence authorized by law, whenever a person is convicted of having violated, while under 21 years of age, Section 4.04.017, 4.04.040, 11.38.158 or Chapter 5.26 of the Code of the City of Wichita, and amendments thereto, the municipal judge shall order such person to submit to and complete an alcohol and drug evaluation by a community-based alcohol and drug safety action program certified pursuant to K.S.A. 8-1008, and amendments thereto, and to pay a fee not to exceed the fee established by that statute for such evaluation. If the judge finds that the person is indigent, the fee may be waived.

(d) If the person is 18 or more years of age, but less than 21 years of age and is convicted of a violation of Section 4.04.017, and amendments thereto, involving cereal malt beverage, the provisions of subsection (c) are permissive and not mandatory;

(e) In addition to any other sentence authorized by law, whenever a person is convicted of any criminal offense, the municipal judge shall determine whether the defendant committed a domestic violence offense, as defined by Section 1.06.010. If the judge determines that the defendant has committed a domestic violence offense, the court shall place a domestic violence designation on the criminal case and shall sentence the defendant, in addition to any conditions set forth in paragraph (f) below, to undergo a domestic violence offender assessment conducted by a certified batterer intervention program and follow all recommendations made by such program unless otherwise ordered by the court. The court may order a domestic violence offender assessment prior to sentencing if the assessment or evaluation would assist the court in determining an appropriate sentence. The entity completing the assessment or evaluation shall provide the assessment or evaluation and recommendations to the court and the court shall provide the domestic violence offender assessment to any entity responsible for supervising such defendant. A defendant ordered to undergo a domestic violence offender assessment shall be required to pay for the assessment and, unless otherwise ordered by the court, for completion of all recommendations.

The court shall not place a domestic violence designation on the criminal case and the defendant shall not be subject to the provisions of this section only if the court finds on the record that:

(1) the defendant has not previously committed a domestic violence offense or participated in a diversion upon a complaint alleging a domestic violence offense; and

(2) the domestic violence offense was not used to coerce, control, punish, intimidate or take revenge against a person with whom the offender is involved or has been involved in a dating relationship or against a family or household member.

(f) The court may impose any conditions of probation or suspension of sentence that the court deems proper, including, but not limited to, requiring that the defendant:

(1) Avoid such injurious and vicious habits, as directed by the court or the probation officer;

(2) avoid such persons or places of disreputable or harmful character, as directed by the court or the probation officer;

(3) report to the probation office as directed;

(4) permit the probation officer to visit the defendant at home or elsewhere;

(5) work faithfully at suitable employment insofar as possible;

(6) remain within the state unless the court grants permission to leave;

(7) pay a fine or costs, applicable to the ordinance violation, in one or several sums and in the manner as directed by the court;

(8) support the defendant's dependents;

(9) reside in a residential facility located in the community and participate in educational counseling, work and other correctional or rehabilitative programs;

(10) perform community or public service work for local governmental agencies, private corporations organized not for profit, or charitable or social service organizations performing services for the community;

(11) perform services under a system of day fines whereby the defendant is required to satisfy fines, costs or reparation or restitution obligations by performing services for a period of days determined by the court on the basis of ability to pay, standard of living, support obligations and other factors;

(12) make reparation or restitution to the aggrieved party for the damage or loss caused by the defendant's crime, in an amount and manner determined by the court and to the person specified by the court; or

(13) reimburse the city, in accordance with any order made under subsection (g), for all or part of the reasonable expenditures by the city to provide counsel and other defense services to the defendant.

(g) In addition to or in lieu of any other sentence authorized by law, whenever a person is found guilty of the violation of an ordinance the judge may order such person to reimburse the city for all or a part of the reasonable expenditures by the city to provide counsel and other defense services to the defendant. In determining the amount and method of payment of such sum, the court shall take account of the services provided, the financial resources of the defendant and the nature of the burden that payment of such sum will impose. A defendant who has been required to pay such sum and who is not willfully in default in the payment thereof may at any time petition the court which sentenced the defendant to waive payment of such sum or any unpaid portion thereof. If it appears to the satisfaction of the court that payment of the amount due will impose manifest hardship on the defendant or the defendant's immediate family, the court may waive payment of all or part of the amount due or modify the method of payment.

CHARTER ORDINANCE NO. 228

A CHARTER ORDINANCE ESTABLISHING THE METHODS OF BUILDING PUBLIC IMPROVEMENT PROJECTS, EXEMPTING THE CITY OF WICHITA, KANSAS FROM THE PROVISIONS OF K.S.A. 13-1017 AND REPEALING CHARTER ORDINANCES 111, 151, 158, 198, 203, AND 222.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF WICHITA, KANSAS:

SECTION 1. "Exemption from K.S.A. 13-1017.

The City of Wichita, Kansas, a city of the first class by the power invested in it by Article 12, Section 5 of the Constitution of the State of Kansas, hereby elects to and does exempt itself from and makes inapplicable to it K.S.A. 13 1017, which applies only to cities of the first class and applies to said City, and provides substitute and additional provisions as herein set forth."

SECTION 2. "Requirements - Public Improvements.

(a) Before the construction or reconstruction of any sidewalk, curb, gutter, bridge, pavement, sewer or the public improvement of any street, highway, public grounds, or construction, reconstruction or demolition of any public building or facility, or any other kind of public improvement in the City of Wichita is commenced or ordered by the governing body, or by the governing body of any Board, Authority, or other agency of the City which is granted the authority to make public improvements by the statutes of the State of Kansas, or under their authority, a detailed estimate of the cost of the improvements shall be made under oath by the City Engineer (or some other competent and credentialed city staff person). Such estimate shall be submitted to the appropriate governing body for its action thereon. In all cases where the estimated cost of the contemplated building, facility or other improvement amounts to more than fifty thousand dollars ($50,000.00), the governing body of the City, Board, Authority, or other agency of the City shall by a resolution determine whether the work can best be

accomplished by the City forces or by contract. If the work is to be done by other than City forces, sealed proposals for the improvements shall be invited by advertisement, published by the City or any Board, Authority or other agency of the City once in the official City paper or as otherwise allowed by statute or ordinance. The appropriate governing body shall thereafter let all such work by contract to the lowest responsive and responsible bidder, if there is any whose bid does not exceed the estimate; provided that the appropriate governing body, in lieu of awarding the bid to the lowest responsive and responsible bidder, may reject all bids submitted. If all bids submitted exceed the estimated cost, the governing body may reject all bids or may accept the bid and contract with the lowest responsive and responsible bidder exceeding the engineer's estimate, if the governing body finds that course of action to be in the best interest of the City.

(b) If the governing body rejects all responsive and responsible bids submitted or chooses to not enter into a contract at the lowest price exceeding the engineer's estimate, the same proceedings as before shall be repeated. Thereafter, if no responsive and responsible bid is received, the governing body shall have power to make the improvements within the estimated cost thereof and shall further have the power to purchase the necessary tools, machinery, apparatus, and materials; employ the necessary labor; and construct the necessary plant or plants for the purpose of carrying into effect the provisions of this ordinance.

(c) The City Council may adopt by resolution a pre-bid qualification policy for bidders that sets standards that bidders must meet and maintain to be eligible to bid on City public improvement projects. If a pre-bid qualification policy is established, then the City shall not accept bids from bidders who do not meet pre-bid qualification standards that have been set for the public improvement project being bid. The City Council may adopt by ordinance the pre qualification standards used by any federal or State of Kansas agency, or those of any other Kansas municipality for standard or elective application to City projects, or may by resolution authorize staff to establish independent pre-bid qualification standards.

(d) The City Council may also adopt by resolution a policy on change orders. If a change order policy is adopted then change orders exceeding fifty thousand dollars ($50,000.00), shall be exempt from bid requirements and exempt from separate City Council approval set forth herein, up to the authority limit pre-approved by City Council resolution. A policy that exempts bid requirements and separate City Council approval shall apply only to change orders that arise from unforeseen conditions that are discovered after bids are let and shall apply only to change orders that do not expand the scope of work to be performed under the original contract. A change order policy shall set a default authority level for staff on change orders exceeding fifty thousand dollars ($50,000.00) at ten percent (10%) of the original bid, but may allow City Council to set a staff authority level for change orders on any specific project at either a lesser or greater ratio to the original bid.

(e) This section should not be construed to include any repair or maintenance work not amounting to substantial alteration, addition or change to any structure, street or facility. 'Public improvement' as used herein shall not include the making of repairs or the maintenance of any building, street, sidewalk or other public facility in the City by employees of the City, of a Board, Authority, or other agency of the City and shall not include the making of any expenditures from the City, Board, Authority, or other agency of the City for such purposes."

SECTION 3. "Commencement of Improvement.

Before any type of public improvement is commenced, the money to pay for the same shall be available in the City Treasury as provided by law or provision may be made for the issuance of internal improvement bonds to pay for any such improvements as provided by law."

SECTION 4. "Exemptions from Bid Requirements.

None of the requirements found in Section 2 of this Charter Ordinance shall apply under the following circumstances:

(a) To improvements which are constructed on or to real estate owned by the City of Wichita and leased to a tenant industry under the authority of K.S.A. 12-1740, *et seq*., as amended. In such cases, the tenant industry shall contract for such improvements, provided, that all the provisions of the Lease Agreement between the City of Wichita and such tenant industry and all City Codes shall be applicable to the construction of such improvements, provided, further that before the commencement of any such construction work the tenant industry shall provide instrument(s) of surety guaranteeing the full and faithful completion of construction of such improvements and in an amount to be approved by the City of Wichita, and provided, further that no funds derived from tax levies shall be employed in such construction;

(b) To public improvements which are to be constructed on or to real estate owned, in whole or in part, by the City of Wichita and which public improvements are to be constructed by a developer pursuant to a development agreement between the City of Wichita and such developer; provided, that such developer has been chosen to develop such public improvements in accordance with all requirements of law and the procedures and policies of the City of Wichita; provided, further that all the provisions of such development agreement between the City of Wichita and the developer and all City Codes shall be applicable to the construction of such public improvements, provided, further that before the commencement of any such construction work the developer shall provide instruments of surety guaranteeing the full and faithful completion of construction of such improvements and in an amount to be approved by the City of Wichita, and provided, further that the provisions of this subsection may only be utilized if the governing body has, prior to the commencement of the construction of such public improvements, conducted a public hearing to consider whether to implement the provisions of this subsection and adopted an ordinance approving the said construction under the provisions of this Charter Ordinance, which ordinance shall be approved by at least two-thirds of the members of the governing body."

SECTION 5. "Design-Build Projects.

(a) The requirements of Section 2 of this Charter Ordinance shall also not apply to projects that are constructed according to a design-build method of construction. For purposes herein 'design-build' shall be defined to mean a method of constructing public improvements in which one company or a consortium of companies are responsible for both design and construction under a lump-sum, fixed price or a not to exceed price contract that covers both design and construction activities. This method is used to obtain the greatest constructed value for the disclosed project budget. A design-build project shall be initiated by the City seeking invitations for proposals. Invitations for proposals shall contain project conditions, requirements and parameters.

(b) Design-build proposals shall set forth initial design concepts and the scope of work to be provided. Design-build projects shall be awarded on the basis of the greatest public value to be obtained, measured by design concepts, choice of and utilization of materials to best advantage, experience of company or consortium of companies submitting proposals, life cycle costing and upon other pertinent criteria that shall be set by the City Council prior to the acceptance of proposals. The City Council reserves the right to reject all proposals submitted."

SECTION 6. "Construction Manager at Risk Projects.

(a) The requirements of Section 2 of this Charter Ordinance shall also not apply to projects that are constructed according to a construction manager at risk method of construction. For purposes herein, 'construction manager at risk' shall be defined to mean

a method of constructing public improvements in which one company or a consortium of companies is responsible for completion of a project at an agreed constructed value and on an agreed schedule, and is required to solicit competitive bids for the trade packages developed for the project and to enter into the trade contracts with the lowest responsible bidders. The competitive bids obtained on the trade packages shall be available for review and audit by the City and its representatives within three days upon request.

(b) The construction manager at risk method may be used when the City Council finds that to do so will serve the public interest due to any of the following criteria: the potential of substantial savings of time or money, the ability to overlap design and construction phases is required to meet the needs of the end user, the need for an accelerated schedule to make repairs resulting from an emergency or exigency, or the project presents significant phasing or technical complexities or both requiring the use of an integrated team of designers and contractors to solve project challenges.

(c) A construction manager at risk project shall be initiated by the City presenting invitations for proposals. A construction manager at risk shall be selected before completion of construction documents, and as early as the initiation of the project. Invitations for proposals shall contain project conditions, requirements and parameters. Submitted proposals shall address the proposer's experience with similar projects and the project delivery system, references from design professionals and owners of projects constructed using this delivery system, the proposer's project management approach, its identification and intended solution to the presenting project challenges, its bonding capacity, an overview of its preconstruction services, construction planning services, construction coordination services and safety plan, along with stated fees for all services, including general conditions, overhead and profits.

(d) The construction manager at risk contract shall be awarded on the basis of the greatest public value to be obtained, measured by the criteria and elements of each project as identified in this Section, all of which are to be set by the City Council prior to the acceptance of proposals. The City Council reserves the right to reject all proposals submitted."

SECTION 7. Repeal.

Charter Ordinances No. 111, 151, 158, 198, 203 and 222 are hereby repealed.

SECTION 8. Publication.

This Charter Ordinance shall be published once each week for two consecutive weeks in the official City paper.

SECTION 9. Effective date.

This is a Charter Ordinance which shall take effect sixty-one (61) days after final publication, unless a sufficient petition for a referendum is filed requiring a referendum be held on the Ordinance as provided in Article 12, Section 5, Subsection (c)(3) of the Constitution of the State of Kansas, in which case the Ordinance shall become effective if approved by a majority of the electors voting thereon.

Passed by the Governing Body, not less than two thirds of the members elect voting in favor thereof, this 28 day of March, 2017.

SECTION 6. Retirement System Funding.

(a) From and after August 7, 1999, each Member of Plan A shall contribute eight percent (8%) of Salary earned and accruing after such date, each Member of Plan B shall contribute six percent (6%) of Salary earned and accruing after such date, and each Member of Plan C-79 shall contribute seven percent (7%) of Salary earned and accruing after such date as their share of the cost of the benefits provided herein.

(1) To provide for any unfunded accrued liability, the City shall contribute a sum sufficient to amortize such liability over a period of not more than twenty years.

(2) The amount of City contribution provided in this section shall be established by applying percentage rates of contribution as actuarially determined to the salaries being paid to the Members during each payroll period, and the resulting amounts shall be remitted by the City to the Retirement System concurrently with the payment of the salaries of the Members.

(3) For the purpose of funding all obligations of the Retirement System under the provisions of this ordinance over and above Member contributions and other income accruing to the Retire-

(4) The City shall pick up the employee contribution required by subsection (a) of this section for all Salary earned after the effective date of this subsection. The contributions so picked up shall be treated as employer contributions in determining tax treatment under the Internal Revenue Code. The City shall pick up these employee contributions from funds established and available in the salaries account, which fund would otherwise have been designated as employee contributions and paid to the Retirement System. Employer contributions picked up by the City pursuant to this subsection shall be treated for all other purposes of this and other laws of the City in the same manner and to the same extent as employer contributions made prior to the effective date of this subsection. This subsection is effective for pay periods beginning on and after January 1, 1994.

(5) Forfeitures may be used to reduce City contributions but should not be used to increase benefits, in compliance with Section 401(a)(8) of the Internal Revenue Code.

SECTION 7. Composition; Expenditures.

(1) Distribution of a Member's benefit must begin by the required beginning date, which is the later of the April 1 following the calendar year in which the Member attains age 70 ½ or April 1 of the year following the calendar year in which the Member retires. (2) The Member's entire interest must be distributed over the Member's life or the lives of the Member and a designated beneficiary, or over a period not extending beyond the life expectancy of the Member or of the Member and a designated beneficiary. The life expectancy of a Member or the Member's spouse may not be recalculated after the benefits commence;

(3) The Retirement System, pursuant to a qualified domestic relations order, may establish separate benefits for a Member and nonmember;

(4) If a Member dies before the required distribution of the Member's benefits has begun, the Member's entire interest much be either:

(A) distributed (in accordance with federal regulations) over the life or life expectancy of the designated beneficiary, with the distributions beginning no later than December 31 of the calendar year immediately following the calendar year in which the Member died; or

(B) distributed within five years of the Member's death;

(5) If a Member dies after the required distribution of benefits has begun, the remaining portion of the Member's interest must be distributed at least as rapidly as under the method of distribution before the Member's death;

(6) The amount of an annuity paid to a Member's beneficiary may not exceed the maximum determined under the incidental death benefit requirement of Section 401(a)(9)(G) of the Internal Revenue Code, and the minimum distribution incidental benefit rule under Treasury Regulation Section 1.401(a)(9)-6, Q&A 2;

(7) The death and disability benefits provided by the Retirement System are limited by the incidental benefit rule set forth in Section 401(a)(9)(G) of the Internal Revenue Code, and Treasury Regulation Section 1.401-1(b)(1)(i) or any successor regulation thereto. As a result, the total death or disability benefits payable may not exceed 25% of the cost for all of the Members' benefits received from the Retirement System; and

(8) Notwithstanding the other provisions of this rule or the provisions of the Treasury Regulations, benefit options may continue so long as the option satisfies Section 401(a)(9) of the Internal Revenue Code based on a reasonable and good faith interpretation of that section.

(c) The Board is authorized to expend funds for the following purposes: clerical and secretarial work, stationery, supplies and printing; and professional services of actuaries, accountants, physicians, and attorneys, the foregoing list not being intended to limit or exclude expenditures for other proper purposes.

(d) The Board may not engage in a transaction prohibited by section 503(b) of the Internal Revenue Code.

(e) Effective as of July 1, 1989, the Board will determine the amount of any benefit that is determined on the basis of actuarial assumptions using assumptions adopted by the Board by rule; such benefits will not be subject to employer discretion. The Board rules adopted for this purpose are incorporated into this section as part of the plan document.

SECTION 8. Accounting and Actuarial.

(a) The assets of the Retirement System shall be held for the express purposes set forth in the provisions of this ordinance. An adequate system of accounts and records shall be established and maintained.

(b) An actuarial experience study of the Retirement System shall be made at least once every five (5) years by an actuary engaged by the Board to check demographic and economic assumptions used in the calculations of liabilities and costs. An annual actuarial valuation of the Retirement System shall be made as of December 31st of each year for the purpose of establishing its financial condition and checking its current operating experience.

(c) Any excess balance in the Retirement System as determined in such valuation shall be applied to reduce the City's rate of contribution in succeeding years. Such contribution adjustments shall be made upon recommendation of the actuary.

SECTION 9. Management-Policy Direction.

The Retirement System continued and maintained by this ordinance shall be construed to be a trust, separate and distinct from all other entities. The responsibility for the direction and operation of the Retirement System, and for making effective the provisions hereof, is hereby vested in a Board. The Board shall consist of sixteen (16) Members, as follows:

(a) The City Manager, or an individual appointed by the City Manager (the City Manager's Designee);

(b) The Chief of the Police Department and the Chief of the Fire Department;

(c) Seven (7) trustees appointed by the City Council who need not be employees of the City. Trustees appointed by the Council shall be appointed for such terms and shall be subject to such limitation of terms as adopted by ordinance;

(d) Three (3) Police Officers and three (3) Fire Officers, each having at least five (5) years of Service, who shall be Members of the Retirement System and shall be elected by the Members from the respective occupational groups according to rules of election to be adopted by the Board. Elected trustees shall serve four-year terms expiring on December 31st of the fourth year following their election;

(e) The City Manager's designee shall serve a two (2) year term ending on August 31st of the second year following appointment;

If a vacancy occurs in the office of elected trustees, a successor shall be elected for the unexpired term of office within thirty (30) days by a special election, unless the regular bi-annual election occurs sooner. If a vacancy occurs in the office of an appointive trustee, such vacancy shall be filled for the unexpired term in the same manner as the office was previously filled;

(g) Each trustee shall take an oath that, so far as it devolves upon the trustee, the trustee will diligently and honestly administer the affairs of the Board, and that the trustee will not knowingly or willfully permit to be violated any of the provisions of the ordinances applicable to the Retirement System. Such oath shall be subscribed by the trustee making it, and certified by the officer before whom it is taken, and immediately filed with the City Clerk. A trustee shall be deemed to have qualified for membership on the Board when such oath shall have been filed;

(h) Subject to the limitations prescribed herein, the Board shall from time to time establish rules and regulations for the administration of the Retirement System and to implement the provisions of this ordinance as may be required. It shall hold regular meetings at least quarterly in each year and such special meetings as may be deemed necessary. The annual meeting shall be held in the month of January of each year. All meetings shall be open to the public. A record of proceedings of all meetings shall be kept by the Board;

(i) Each trustee shall be entitled to one (1) vote on the Board, and the concurrence of a majority vote of the trustees present at the meeting shall be necessary; provided, however, that in all matters relating to: (1) changes in the ordinances requiring City Council action; (2) Disability applications; (3) hiring or dismissal of consultants; and (4) alteration of the Investment Committee's recommendations for investment advisor, actuary, asset allocation plan and investment policy, at least nine (9) affirmative votes shall be required for passage; and

(j) A trustee shall receive no Salary while serving in that capacity, provided, however, that Police and Fire Officers elected to the Board shall be permitted to receive their regular Salary from the City of Wichita.

SECTION 10. Officers and Their Duties.

The Board shall have the following officers, whose duties shall be prescribed by the by-laws to be adopted by the Board:

(a) A President, a First Vice President, and a Second Vice President shall be elected from among its trustees.

(b) The Administrator of the Retirement System shall be the Pension Manager who is appointed to such position by the City Manager.

(c) The City Treasurer, ex-officio, shall be treasurer of the Retirement System.

(d) The City Attorney, ex-officio, shall be legal counsel to the Board, and shall represent the Board in all litigation affecting the Retirement System.

(e) An actuary shall be appointed to serve as technical advisor in the administration of the Retirement System on matters pertaining to the technical and actuarial aspects thereof.

(f) A specializing physician or physicians shall be appointed at the discretion of the Board to pass upon claims for Service Connected and non-Service Connected Disability benefits, on medical questions pertaining to such claims, and on any other matters requiring medical advice that may arise in administration of the Retirement System.

SECTION 11. Administration.

Subject to the direction of the Board, the Administrator of the Retirement System shall:

(a) Employ such clerical and professional services as may be required for the proper operation of the Retirement System, whose compensation shall be fixed by the City Council;

(b) Establish and maintain records, files, and accounts in such form and scope as will give effect to the requirements of the Retirement System in accordance with the provisions hereof;

(c) Accumulate actuarial data concerning the operating experience of the Retirement System in such form as is necessary for the annual actuarial valuations and periodic actuarial studies in accordance with the recommendations of the actuary;

(d) Prepare periodic reports as may be required for the efficient administration of the Retirement System;

(e) The Administrator shall also prepare each year the annual report of the Board, to be submitted to the City Council embodying, among other things, a statement of assets, liabilities and reserves certified by the actuary, an accountant's balance sheet supported by a statement of income and expenditures, a listing of investments owned by the Retirement System, a detailed statement of investments acquired and disposed of during the year covered by the report, and such other financial and statistical data as may be deemed necessary for a proper interpretation of the condition of the Retirement System and the results of its operations. The Board shall cause to be distributed among the Members of the Retirement System a synopsis of such annual report.

SECTION 12. Investments.

(a) The Board shall invest and reinvest any portion of the Fund not needed for immediate benefit payments through a joint investment fund comprised of assets of the Wichita Employees' Retirement System and Police & Fire Retirement Systems (which may do business, in the aggregate, under the name "Wichita Retirement System" or "Wichita Retirement Systems"). The joint investment fund shall be overseen by an investment committee comprised of trustee representatives elected from both Boards and a City Manager's designee (to be known as "The Joint Investment Committee as Trustees of the Wichita Retirement Systems"), which committee shall be authorized to execute agreements with investment managers, actuaries, custodians, subcustodians and consultants on behalf of the Wichita Retirement Systems. The administrator shall be an ex-officio, non-voting Member of the investment committee.

(b) To achieve the investment objective of making the Fund as productive as possible, the following standards and limitations are set forth:

(1) In investing and reinvesting monies in the Fund and in acquiring, retaining, managing, and disposing of investments of the Fund, there shall be exercised the judgment and care under the circumstances then prevailing which people of prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to specula-

tion, but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety of their capital. Within the limitations of the foregoing standard and subject to the following requirements, there may be acquired, retained, managed, and disposed of as investments of the Fund every kind of investment which people of prudence, discretion, and intelligence acquire, retain, manage, and dispose of for their own account;

(2) The proportion of the funds invested in corporate preferred and common stocks shall not exceed seventy percent (70%);

(3) Investments may be made in any pooled arrangement such as a mutual fund, separate account, or commingled fund operated by a qualified investment counselor, an insurance company, or a bank;

(4) Investments managed by in-house staff will be restricted to high-grade marketable fixed income securities;

(5) Other investments separately managed by a qualified investment counselor, an insurance company, or a bank, who represent that they act as a fiduciary, will be handled similarly to most other clients of the managing firm, except for holdings of money market instruments or their equivalent;

(6) The Board shall impose whatever limitations are deemed appropriate under its investment policy statement;

(7) The proportion of the Fund invested in securities of a corporation organized under the laws of a country other than the United States of America and securities issued by a foreign country or political subdivision thereof shall not exceed a total of thirty-five percent (35%);

(8) Notwithstanding any contrary provision in this ordinance, assets of the Retirement System may be transferred to a group trust meeting the requirements of Revenue Ruling 2011-1 that is operated or maintained exclusively for the commingling and collective investment of monies provided that the funds in the group trust consist exclusively of trust assets of pension, profit-sharing and stock bonus trusts or custodial accounts qualifying under Section 401(a) of the Internal Revenue Code that are exempt under Section 501(a) of such Code; individual retirement accounts that are exempt under Section 408(e) of the Internal Revenue Code; eligible governmental plan trusts or custodial accounts under Section 457(b) of the Internal Revenue Code that are exempt under Section 457(g) of such Code; custodial accounts under Section 403(b)(7) of the Internal Revenue Code; retirement income accounts under Section 403(b)(9) of the Internal Revenue Code; and governmental plans under Section 401(a)(24) of the Internal Revenue Code. Following the investment committee's selection of such a group trust for investment, and upon the transfer of assets of the Retirement System to such group trust, the group trust shall be deemed adopted as a part of each of the plans of the Retirement System as required by Revenue Ruling 2011-1 for the duration of such investment.

For purposes of valuation, the value of the interest maintained by the plan in such group trust shall be the fair market value of the portion of the group trust held for the plan, determined in accordance with generally recognized valuation procedures.

(c) Nothing in this ordinance, however, shall be construed so as to give the Board at any time authority to invest directly or indirectly in any:

(1) Real estate; except in pooled arrangements such as a mutual fund, separate account or commingled fund operated by a qualified investment counselor or an insurance company. The amount of such investment shall not exceed ten percent (10%) of the Fund;

(2) Private equity; except in a commingled fund-of-funds vehicle operated by a registered investment advisor or a bank. The amount of such investment shall not exceed ten percent (10%) of the Fund;

(3) Timber; except in a commingled fund vehicle operated by a registered investment advisor or a bank. The amount of such investment shall not exceed ten percent (10%) of the Fund;

(4) Mortgages secured by real estate, except insured mortgages under Titles 203, 207, 220 and 221 of the Federal Housing Act;

(5) Oil and gas leases or royalties; or

(6) Commodities (including but not limited to wheat, gold, gasoline, options, or financial futures); provided, however, that the restriction on investments contained in this paragraph shall not apply to funds which are invested in a mutual fund, separate account or commingled fund operated by a registered investment advisor or insurance company.

(d) The Board shall have the power to hold, purchase, sell, assign, transfer, and dispose of any of the securities in which monies of the Retirement System have been invested, as well as the proceeds from such investments, and any other property belonging to the Retirement System.

(e) All investments shall be clearly marked to indicate ownership of the Retirement System, and to the extent possible, shall be registered in its name. No securities shall be purchased or sold, or in any manner hypothecated, except by action of the Board duly entered in the record of its proceedings.

(f) Any limitations affecting the purchase of securities shall be applicable only at the time of purchase and shall not require the liquidation of an investment at any time.

(g) No trustee or employee of the Board shall have any direct interest in the income or gains from any investment made by the Board, nor shall any such person receive any pay or emolument for services in connection with any investment. No trustee or employee of the Board shall become an endorser or surety, or in any manner an obligor for money loaned or borrowed from the Retirement System. Proof that any such person has violated any of these restrictions shall make him guilty of a misdemeanor or larceny, as the case may be, and such person shall be punishable therefore as provided by law.

SECTION 13. Distribution of Contributions.

(a) Any Member withdrawing from Service prior to retirement shall be entitled to a distribution, in a single sum, of the Member's accumulated contributions. Those Members withdrawing from Service after December 31, 1999 shall receive interest at the rate of five percent (5%) per year on such contributions, which shall be credited to accumulated contributions as of the last day of December of each year beginning with the year 1999 through the year 2006. Beginning January 31, 2007 interest shall be credited monthly to accumulated contributions at the rate of five percent (5%) per year, compounded monthly. No interest shall be allowed in any case in which the contributions, and any prior interest earned, were in the fund for any period following termination. The payment of a distribution under the provisions of this section shall automatically effect a waiver and forfeiture of all of such Member's accrued rights and benefits in the Retirement System. The Board may, in its sole discretion, withhold payment of a distribution for a period of not to exceed ninety (90) days after receipt of a written request for the same.

(b) Any Member who has received such distribution shall be considered a new Member under Plan C-79 upon re-employment provided that if such Member shall render at least three (3) years of Service following such Member's latest re-employment, such Member shall be entitled to regain his or her previously forfeited Service credits upon repayment of all amounts received as refunds, including Regular Interest from date of refund to date of repayment. The time and manner of making such repayments shall be fixed by the Board. Any Member who terminates employment and leaves the Member's contributions in the Retirement System, if rehired, shall be classified as a Member under Plan C-79.

(c) Upon death of a Member leaving no survivors eligible for a benefit from the Retirement System, such Member's accumulated contributions plus interest, if applicable, shall be paid in a single sum to such person or persons as the member shall have nominated by written designation duly executed and filed with the Board. If no such designation shall have been made, payment shall be made to the Member's legal representative.

(d) After termination of all benefit payments to the Member, surviving spouse, and/or Minor Children, a distribution shall be made to the designated beneficiary or legal representative of the Member, surviving spouse, or Minor Children consisting of the excess, if any, of the Member's accumulated contributions, together with interest thereon if applicable, over all such benefit payments made by the Retirement System to or for the benefit of the Member.

(e) Optional direct transfer of eligible rollover distribution shall be as required under Section 401(a)(31) of the Internal Revenue Code.

SECTION 14. Eligibility for Service Retirement; Indexing Deferred Benefits.

(a) Under Plan A or Plan B, any Member having at least twenty (20) years of Service may retire and receive a Service retirement benefit.

(b) Under Plan C-79, all Police and Fire Officers employed on or after January 1, 1979, having at least twenty (20) years of Service, and having attained age fifty (50), may retire on a Service retirement benefit; provided, that from and after January 1, 1979, any Member who has completed thirty (30) years of Service shall be eligible to receive, regardless of age, a retirement benefit, computed in accordance with a Service retirement benefit.

(c) A Member under Plan C-79 having at least twenty (20) years of Service may retire prior to the attainment of age fifty (50) by leaving active Service as a Police or Fire Officer of the City; leaving the Member's contributions in the Retirement Fund; and deferring the payment of the Member's retirement benefits until the Member has attained age fifty (50). If such Member has a Deferral Period of at least one (1) full month, such Member shall be entitled to a retirement benefit calculated as follows:

(1) A base retirement benefit calculated under Section 15 and

(2) A benefit (which may calculate as no actual increase in benefits), which shall be calculated for each calendar year or full months, in the case of a partial year in such Member's Deferral Period.

(3) The benefit calculation in subparagraph (2) shall be the base benefit calculation in subparagraph (1) adjusted annually for each calendar year or full months in the Member's Deferral Period. The determination of whether a Member is due a benefit increase for a specific calendar year in which the Member has at least one (1) full month of Deferral Period shall be made by determining, for that calendar year, the smaller of (1) 1.055; or (2) the ratio of national average earnings for the second preceding calendar year to national average earnings for the third preceding calendar year. If the smaller of these two amounts is greater than 1.0, the Member shall be entitled to a benefit increase for that calendar year equal to the Member's base retirement benefit, as calculated under subparagraph (1), multiplied by such smaller amount. Any benefit increase for a partial year in the Member's Deferral Period shall be pro-rated for each month, based on the full year increase.

(d) A Member under Plan C-79 with at least ten (10) years of Service may withdraw from Service and elect to leave such Member's contributions in the Retirement System until such time as such Member is eligible to receive a retirement benefit. If such Member has a Deferral Period of at least one (1) full month, such Member shall be entitled to a retirement benefit calculated as provided for above.

(e) For purposes of compliance with the Internal Revenue Code and related guidance, the normal retirement benefit, which is the benefit calculated under Section 15(c), for a

Member under Plan C-79 is non-forfeitable upon attainment of normal retirement age, which is age fifty-five (55), and the completion of ten (10) years of service, whichever is later. The retirement benefit is only payable after a Withdrawal from Service and is subject to the provisions of Sections 31 and 32. This subsection is not to be construed as a reduction or limitation of rights heretofore existing, nor as an indication that vested benefits would be forfeitable before the stated age is attained.

SECTION 15. Calculation of Retirement Benefit.

(a) Any Member in Plan A or Plan B having twenty (20) years or more of Service may make application to be retired, and if such application is made, the Board shall retire such Member and shall pay such Member a monthly benefit in an amount equal to fifty percent (50%) of such Member's Final Average Salary at date of his or her retirement, plus an additional two and one-half percent (2.50%) per year for each year above twenty (20) years up to a maximum of seventy-five percent (75%) of Final Average Salary. For purposes of computing a retirement benefit, unused Sick Leave will be added to Service so long as the computed benefit does not exceed seventy-five percent (75%) of Final Average Salary. The accumulated, unused Sick Leave shall not be used to meet the twenty (20) year Service requirement. A fractional period of Service of less than a full year shall be considered in the calculation of the benefit.

(b) Any Member in Plan C-79 having twenty (20) years or more of Service and who has attained the age of fifty (50) years may make application to be retired, and if such application is made, the Board shall retire such Member and shall pay such Member a monthly benefit in an amount equal to fifty percent (50%) of such Member's Final Average Salary at date of retirement, plus an additional two and one-half percent (2.50%) per year for each year above twenty (20) years up to a maximum of seventy-five percent (75%) of Final Average Salary. For purposes of computing the retirement benefit, unused Sick Leave will be added to Service so long as the computed benefit does not exceed seventy-five percent (75%) of Final Average Salary. The accumulated, unused Sick Leave shall not be used to meet the twenty (20) year Service requirement. A fractional period of Service of less than a full year shall be considered in the calculation of the benefit.

(c) Any Member having ten (10) years and less than twenty (20) years of Service may become a Deferred Retiree by electing to leave such Member's contributions and interest, if any, in the Retirement System. If such Member leaves the Member's contributions and interest in the Retirement System until the Member reaches age fifty-five (55) years, the Member shall be entitled to a retirement benefit as calculated in Section 14(d) herein. (Such benefit shall be calculated by multiplying the Member's years of Service by an amount equal to two and one-half percent (2.50%) and multiplying that product by the Member's Final Average Salary.) Upon retirement and commencement of the receipt of the retirement benefit, such Member shall not be entitled to any survivor's benefits.

SECTION 16. Military Service.

(a) Notwithstanding any provisions of this plan to the contrary, contributions, benefits, and service credit with respect to qualified military service will be provided in accordance with Section 414(u) of the Internal Revenue Code.

(b) Effective with respect to deaths occurring on or after January 1, 2007, while a Member is performing qualified military service (as defined in chapter 43 of title 38, United States Code), to the extent required by Section 401(a)(37) of the Internal Revenue Code, survivors of a Member in a State or local retirement or pension system, are entitled to any additional benefits that the system would provide if the Member had resumed employment and then died, such as accelerated vesting or survivor benefits that are contingent on the Member's death while employed.

(c) Beginning January 1, 2009, to the extent required by Sections 3401(h) and 414(u)(12) of the Internal Revenue Code, a Member receiving differential wage payments (while the Member is performing qualified military service (as defined in chapter 43 of title 38, United States Code))

from an employer shall be treated as employed by that employer and the differential wage payment shall be treated as earned compensation. This provision shall be applied to all similarly situated Members in a reasonably equivalent manner.

SECTION 17. Monthly Payments.

Any benefit hereunder shall be payable in monthly installments.

SECTION 18. Optional Annuity.

An optional annuity, as herein provided, means a benefit computed according to the approximate equivalent formula recommended by the actuary and adopted by the Board, payable during the lifetime of the specified beneficiary only if such beneficiary survives the Retiree who was receiving a reduced Service retirement annuity. In the event that:

(a) the specified beneficiary predeceases the Retiree; or,

(b) the Retiree revokes the election at the time of a divorce from the specified beneficiary; or,

(c) the Retiree remarries after a divorce from the specified beneficiary;

the optional annuity election shall terminate, and the Retiree's reduced Service retirement annuity shall revert to the Service retirement annuity calculated for the Member had the Member not selected the optional annuity. This recalculated Service retirement annuity shall be payable beginning the first of the month following notice of the event causing termination of the optional annuity election.

The amount of the optional annuity shall be that specified in the Member's notice of election, and shall not, in any event, be more than the amount of the Member's reduced Service retirement annuity.

If the election has not been earlier terminated by one of the events identified in (a), (b) or (c), above, the optional annuity shall begin on the day following the death of the Retiree.

SECTION 19. Permanent Service-Connected Disability Benefits.

Any Member, who shall, while engaged in the performance of his or her duties, be permanently injured or disabled, other than as the result of an occupational disease, and upon an examination by a physician or physicians appointed by the Board of Trustees, be found to be physically or mentally disabled as a result of such permanent Disability or injury so as to render him incapable to perform the duties of the position held by the Member at date of Disability, shall be entitled to be retired, and the Board of Trustees shall thereupon order such Member's retirement and upon being retired, the Member shall be paid a benefit equal to seventy-five percent (75%) of the Salary in effect on the date when Salary payments ceased. The benefit shall be established according to the charter ordinance that is in effect at the time Salary payments ceased.

Any Police or Fire Officer incurring an occupational disease due to service-connected causes, who upon examination by a physician or physicians appointed by the Board is found by at least two (2) out of three (3) such physicians to be physically or mentally disabled as the direct result and proximate cause of such disease so as to render him incapable to perform the duties of the position held by the Member at date of Disability, shall be entitled to be retired at a benefit equal to fifty percent (50%) of his or her Salary in effect upon the date when Salary payments ceased. The benefit shall be established according to the charter ordinance that is in effect at the time Salary payments ceased.

The Board of Trustees may, when they deem it advisable, call back for re-examination by a physician, any Member retired by reason of permanent Disability under the provisions of this ordinance, and if said examination discloses that said Member is then able to perform his or her duties in said department, he or she may be returned to Service; and if said Member, upon request, fails or refuses to return to duty, then all payments from said System shall cease.

The Disability benefit shall be recomputed when the Member attains age fifty-five (55). At such time the Member attains age fifty-five (55), the Disability benefit shall be recomputed in the same manner as a Service retirement benefit

which would have been received had the Member been continuously in Service in the grade occupied at date absence on account of Disability began, subject to periodic Salary changes in such grade. In such a case, Service credit shall be granted during the period of payment of the Disability benefit, prior to attainment of age fifty-five (55), toward the recomputed Disability benefit.

SECTION 20. Non-Service Connected Disability.

Any Member having at least seven (7) years of credited Service, under the age of fifty-five (55) years, who becomes totally and permanently disabled due to any cause other than Service-Connected Disability, while an employee of the City, shall be entitled to a Non-Service Connected Disability benefit. The benefit shall be equal to thirty percent (30%) of the Final Average Salary plus one (1) percentage point for each year of Service above seven (7) years, up to a maximum of fifty percent (50%) of Final Average Salary. Accumulated unused Sick Leave will be added to Service so long as the computed benefit does not exceed fifty percent (50%) of Final Average Salary. The benefit shall be reduced by any amounts received by the Member from public funds as Salary, or other forms of compensation during Disability, exclusive of payments under Federal Social Security.

Non-Service Connected Disability shall be considered total and permanent if it results in some impairment of mind or body due to mental or physical incapacity resulting from external force, or violence, or disease that substantially precludes a Member from performing with reasonable regularity the substantial and material parts of any gainful work or occupation that the Member would be competent to perform were it not for the fact that the impairment is founded upon conditions which render it reasonably certain that it will continue indefinitely.

The benefit shall be payable during continuing Disability of the Member, but the Member shall be subject to periodic medical examinations as herein provided.

Should a Member recover from Disability and re-enter the Service of the City as a Police or Fire Officer, and shall render at least three (3) years of Service thereafter, the Member shall be credited for Service retirement benefit purposes with the periods of time during which the Member shall have received a Non-Service Connected Disability benefit; otherwise, such Member re-entering Service shall not be entitled to Service credit for the periods of such Disability.

Disability incurred while in military service shall not be considered for benefits under the provisions of this ordinance.

A Non-Service Connected Disability shall begin to accrue upon commencement of Disability, provided that if the Member is receiving Salary, the benefit shall begin to accrue from the date Salary has ceased. If written application for the benefit shall not have been filed with the Board prior to the expiration of ninety (90) days from date of Disability, the benefit shall begin to accrue from the date application therefore has been filed, but in no event prior to the time when payments to the Member on account of Salary have ceased.

SECTION 21. Administration of Disability Annuities.

(a) The determination of Disability from any cause shall be made upon the basis of reports of examinations made by at least two (2) physicians designated by the Board.

(b) A Member receiving service-connected or non-Service Connected Disability benefits shall be required, at the discretion by the Board of Trustees, to submit to an examination at least once each year by a physician or physicians designated by the Board to establish that the Member is incapacitated for active Service as a Police or Fire Officer and is entitled to continue to receive a Disability benefit. The Board may terminate a Disability benefit upon evidence that the Member is no longer disabled for Service. If such termination occurs and the Member does not re-enter the Service, he or she shall be entitled to a refund of the excess, if any, of the contributions made by the Member, without interest, over the amounts received by the Member on the Disability benefit.

If medical examination or an investigation made by the Board discloses that the Member is engaged in or is able to engage in any gainful occupation resulting in earnings for services rendered in any capacity, payment of the Disability benefit shall be reduced to an amount which, when added to the Member's income from such gainful occupation, does not exceed the rate of Salary currently being paid for the rank similar to that held by the Member at commencement of Disability.

(c) Each Member in receipt of a Disability benefit shall submit to the Board at least once each year, an authenticated copy or duplicate original of the Member's complete United States Income Tax Return, being a statement of income from gainful occupation for the preceding twelve (12) months. Any adjustment in benefit payments, as aforesaid, shall be based upon such statement of income.

(d) Should any Member receiving a Disability benefit refuse to submit to a medical examination or supply the Board with required statements of income, as herein above provided, benefit payments by the Retirement System shall be discontinued until compliance with the provisions hereof. Should such refusal continue for one (1) year, all rights of the Member to any Disability benefit shall be revoked by the Board. Upon finding that a Member receiving a Disability benefit has deliberately falsified information contained in his or her statement of income, all rights of the Member in any Disability benefit shall be revoked by the Board.

SECTION 22. Backward Deferred Retirement Option Plan (DROP).

(a) Any Member eligible to retire on or after January 1, 2001 may, at the time of applying for retirement benefits, elect a backward DROP benefit with payment as provided herein. A Member electing a backward DROP must select an effective backward DROP date. The Member must be eligible to receive a Service retirement benefit on the effective backward DROP date.

(b) The maximum allowable DROP Period for a backward DROP is sixty (60) months. The DROP Period is the period between the Member's effective backward DROP date and the date of the Member's Withdrawal from Service.

(c) For purposes of benefit calculations, the Member's retirement date will be the effective backward DROP date.

(d) A Member's unused Sick Leave credit at the Member's date of election of the backward DROP may be added to the Member's Service at the Member's effective backward DROP date.

(e) The Member's monthly retirement benefit is calculated as of the Member's effective backward DROP date and is payable at the Member's Withdrawal from Service.

(f) The Member's DROP benefit is calculated by:

(1) multiplying the Member's monthly retirement benefit from (e), times the number of months selected by the Member as the backward DROP Period;

(2) plus any applicable post-retirement adjustments;

(3) plus interest at an annual rate of five percent (5%) compounded monthly.

(g) Application for withdrawal of the DROP account balance shall be made within ninety (90) days of the Member's Withdrawal from Service. Payment of the amount calculated in (f) shall be made only in a lump sum payment, a direct rollover, or some combination of the two.

SECTION 23. Service-Connected Death.

(a) Upon death of a Member, regardless of the Member's age or length of Service, resulting directly from service-connected causes; or an occupational disease if the Member had at least five (5) years of Service, and in the case of an occupational disease if death occurred within three (3) years from the date of commencement of the disease and the cessation of Salary payments to the Member, whichever is later, a surviving spouse shall be entitled to a benefit equal to fifty percent (50%) of the Member's final Salary at the date of the Member's death. This benefit payable to a surviving spouse hereunder shall be payable during such surviving spouse's lifetime.

(b) If such Member is also survived by a Minor Child or Minor Children, each such child shall be entitled to a benefit of ten percent (10%) of such Member's final Salary. Such benefit shall be paid to the custodial parent or guardian/ conservator of each such child. The combined payments to a surviving spouse and Minor Children shall in no event exceed seventy-five percent (75%) of such Member's final Salary. In the event that the combined payments do exceed such amount, the benefit of the surviving spouse shall be reduced so that combined payments equal seventy-five percent (75%) of such Member's final Salary. At the time that combined payments no longer exceed such amount, the benefit of the surviving spouse shall be increased so that combined payments equal seventy-five percent (75%) of such Member's final Salary, but in no event shall the benefit of the surviving spouse be an amount greater than fifty percent (50%) of such Member's final Salary.

(c) If such Member dies leaving no surviving spouse, each Minor Child of such Member then surviving shall be entitled to a benefit of twenty percent (20%) of such Member's final Salary. Such benefit shall be paid to the custodial parent or guardian/conservator of each child. The combined payments on account of such Minor Children shall not exceed sixty percent (60%) of such Member's final Salary. In the event that combined payments exceed such amount, the benefits for such children shall be reduced pro rata so that total payments equal sixty percent (60%) of such Member's final Salary.

(d) Benefits paid on account of Minor Children shall terminate upon the first to occur of the following:

(1) The Minor Child reaching the age of eighteen (18) years;

(2) Death of the Minor Child; or

(3) Marriage of the Minor Child.

(e) The determination of whether death is Service-Connected or not shall be made in the manner provided for in the administration of Disability benefits.

SECTION 24. Non-Service Connected Death.

(a) Upon death of a Member who has at least three (3) years of Service:

(1) whose death is not due to Service-Connected causes; or

(2) who is on Sick Leave receiving Salary on the date of death and whose death is not due to Service-Connected causes; or

(3) who is on approved leave of absence extending not more than twelve (12) continuous months on the date of death and whose death is not due to Service-Connected causes,

the surviving spouse of such Member shall be eligible to receive a benefit if such surviving spouse was the lawfully wedded spouse at the time of the death of such Member. Such surviving spouse shall continue to be eligible to receive a benefit for such spouse's lifetime. The amount of such benefit shall be as calculated in subparagraph (c) below and shall be subject to adjustment as provided in subparagraph (e) below.

(b) Upon death of a Retiree:

(1) who is receiving Service or Non-Service Connected Disability pension benefits on the date of death; or

(2) who is receiving a Service retirement benefit or is a Deferred Retiree and has at least twenty (20) years of Service at the date of death,

the surviving spouse of such Retiree shall be eligible to receive a benefit if i) such surviving spouse was the lawfully wedded spouse of such Retiree on the date such Retiree retired or began receiving either a Service or Non-Service Connected Disability pension benefit, and ii) such surviving spouse is at least forty (40) years of age at the time of the death of such Retiree, or if less than forty (40) years of age has, at the time of death of such Retiree, the care and custody of a Minor Child or Children of such Retiree. A surviving spouse who is not eligible to receive a benefit because such surviving spouse is less than forty (40) years of age shall become eligible to receive a benefit on the date that such surviving spouse attains the age of forty (40) years, so

long as such surviving spouse has not remarried. A surviving spouse who is eligible to receive a benefit shall continue to receive a benefit for such spouse's lifetime so long as such surviving spouse does not remarry after the date such Retiree dies and prior to such surviving spouse attaining the age of forty (40) years. The amount of such benefit shall be calculated as provided in subparagraph (c) below and shall be subject to adjustment as provided in subparagraph (e) below.

(c) Subject to adjustment because of the requirements of subparagraph (e) below, the benefit to be paid to a surviving spouse who is eligible to receive such a benefit under either paragraph (a) or (b) above, shall be equal to thirty-five percent (35%) of such Member or Retiree's Final Average Salary, increased by one percentage point for each year of Service greater than three (3) years, up to a maximum benefit of fifty percent (50%) of Final Average Salary. Provided, however, for a Member or Retiree under Plan B, such benefit shall be equal to fifty percent (50%) of such Member or Retiree's final Salary.

(d) If a Member or Retiree dies under circumstances set out in subsection (a) or (b) above, each surviving Minor Child of such Member or Retiree shall be entitled to a benefit as calculated herein and subject to adjustment because of the requirements of subparagraph (e) below. The amount of such benefit, if a benefit is also being paid to a surviving spouse of such Member or Retiree, shall be ten percent (10%) of such Member or Retiree's Final Average Salary. The amount of such benefit, if no benefit is being paid to a surviving spouse of such Member or Retiree, shall be fifteen percent (15%) of such Member or Retiree's Final Average Salary. The benefit for a Minor Child shall be paid to the custodial parent or conservator of each such Minor Child. When a Minor Child is receiving a ten percent (10%) benefit and the benefit being paid to a surviving spouse of the Member or Retiree on account of whose death each benefit was initially paid is terminated, the benefit to be paid to such Minor Child shall increase to fifteen percent (15%) of such Member or Retiree's Final Average Salary.

(e) (1) The combined monthly benefit payment to a surviving spouse and Minor Children shall not exceed sixty-six and two-thirds percent (66 2/3%) of the Final Average Salary of the Member or Retiree on account of whose death the benefits are being paid. In the event that the calculation of such benefit results in such combined monthly benefit payment in excess of that amount, the benefit of the surviving spouse shall be reduced so that the combined monthly benefit payment equals sixty-six and two-thirds percent (66 2/3%) of such Member or Retiree's Final Average Salary. The benefit for such surviving spouse shall be increased at such time as the combined monthly benefit payment no longer exceeds such sixty-six and two-thirds percent (66 2/3%) limit, but in no event shall such increase result in such surviving spouse's benefit exceeding the amount originally calculated under subsection (c). When no benefit is being paid to a surviving spouse because the benefit calculated for the surviving spouse has been reduced to zero because of the adjustment set out above, any adjustment to the benefits paid to Minor Children because the combined monthly benefit payments exceed sixty-six and two-thirds percent (66 2/3%) of such Member or Retiree's Final Average Salary shall be made pro rata among such Member or Retiree's Minor Children, and such adjustment shall continue until the combined monthly benefit payment can be paid to eligible Minor Children without exceeding such sixty-six and two-thirds percent (66 2/3%) limit.

(2) The combined monthly benefit payment to Minor Children where there is no benefit being paid to a surviving spouse because no surviving spouse is eligible for such a benefit shall not exceed fifty percent (50%) of the Final Average Salary of the Member or Retiree on account of whose death the benefits are being paid. In the event that combined monthly payments exceed such amount, the benefit of each such Minor Child shall be reduced

pro rata so that combined monthly payments equal fifty percent (50%) of such Member or Retiree's Final Average Salary. In no event shall the benefit paid a Minor Child exceed fifteen percent (15%).

(3) The combined monthly benefit payment to a surviving spouse and Minor Children or to Minor Children shall not exceed the amount of the monthly Service retirement or Disability retirement benefit being paid on the date of the death of the Retiree on account of whose death such benefit payments are being made. In the event that the calculation of such benefit results in a combined monthly benefit payment in excess of such amount, i) the benefit of the surviving spouse shall be reduced so that the combined monthly benefit payment equals such Service retirement or Disability retirement benefit; or ii) if no benefit payment is being paid to a surviving spouse, the benefits of all Minor Children shall be reduced pro rata so that the combined monthly benefit payment equals such Service retirement or Disability retirement benefit. Once reduced, these benefit payments shall be increased in the same manner and subject to the same limitations as set forth in (e) (1) and (e) (2) above.

(f) Benefit payments for a Minor Child shall terminate upon such child reaching eighteen (18) years of age, the death of such child, or the marriage of such child, whichever shall occur first.

(g) The surviving spouse of a Retiree who retired on or after January 1, 2000 and thereafter dies under circumstances set out in subsections (b)(1) or (b)(2) above, shall not be limited by either the age requirement or the remarriage limitations set forth in subparagraph (b) herein. Provided, however that such surviving spouse, in order to be eligible to receive a benefit, shall have been such Retiree's lawfully wedded spouse for at least twelve (12) months immediately preceding the death of such Retiree.

(h) A Member who, on or after January 1, 2000, selects an effective backward DROP date which is prior to January 1, 2000, shall nevertheless be considered to have retired on or after January 1, 2000 for the purposes of determining the eligibility of such Member's surviving spouse for a benefit.

(i) For a Member or Retiree under Plan B, benefit payments on account of Minor Children shall be paid only if such Member or Retiree dies leaving no surviving spouse or dies leaving a surviving spouse who remarries prior to age forty (40). Under either such circumstance, the Minor Children of such Member or Retiree shall share equally a benefit equal to fifty percent (50%) of such Member or Retiree's final Salary.

SECTION 25. Post Retirement Adjustments.

For all Members retiring for any reason from and after February 1, 1974, upon completion of thirty-six (36) months of retirement, the monthly retirement benefits payable to such Retiree, or the monthly retirement benefits payable to the spouse or the Minor Child or Children of such Retiree, shall be increased two percent (2%) per year based on the original benefit, not compounded.

SECTION 26. Funeral Benefit.

The designated beneficiary of a Member who retired after November 21, 1973 under either Plan A, Plan B, or Plan C-79 shall be paid a funeral benefit of seven hundred fifty dollars ($750.00).

SECTION 27. Assignments Prohibited.

The right to a refund or a service retirement, Disability, death, or any benefit under the provisions of this ordinance, whatever name called, is personal with the recipient thereof, and the assignment or transfer of any such benefit, or any part thereof shall be void, except as may be provided herein. Any such refund or benefit shall not answer for debts contracted by the person receiving the same, and it is the intention of this ordinance that they shall not be subject to execution, attachment, garnishment, or affected by any judicial proceedings, except such benefit or any accumulated contributions due and owing

from the System to any recipient are subject to claims of an alternate payee under a "qualified domestic relations order".

SECTION 28. Qualified Domestic Relations Orders.

As used in this section, the terms "alternate payee" and "qualified domestic relations order" shall have the meaning ascribed to them in section 414(p) of the Internal Revenue Code. The City of Wichita shall not be a party to any action under Article 10 of Chapter 60 of the Kansas Statutes Annotated but is subject to orders from such actions issued by the district court of the county where such action was filed and may also accept orders which it deems to be qualified under this section from courts having jurisdiction of such actions outside the State of Kansas. Orders from such actions shall specify either a specific amount or specific percentage of the amount of the benefit or any accumulated contributions due and owing from the Fund and to be distributed to the alternate payee. The order must contain the following information:

(a) Name, address, and social security number of the employee and alternate payee;

(b) Clearly identifies the appropriate Police & Fire Retirement System and plan;

(c) Creates or recognizes the existence of an alternate payee's rights to, or assigns to an alternate payee the right to receive a portion of the benefits otherwise payable to the employee;

(d) The date of marriage and divorce/separation;

(e) Statement that the benefit is payable only at the time of retirement of the employee or at the time the employee withdraws from Service, if the employee withdraws his or her contributions from the Fund;

(f) That the benefit is payable only during the lifetime of the retired employee or alternate payee should the alternate payee predecease the employee;

(g) Payment to the alternate payee shall be a lump sum if payment to the employee is lump sum, monthly if payment to the employee is monthly; and

(h) An employee who elects to participate in the DROP shall be treated as having retired for the purposes of a qualified domestic relations order.

The order to be qualified cannot allow the calculation of the lump sum payment or monthly benefit to be calculated in a manner which results in a payment or benefit in excess of the limits of the plan; cannot allow the alternate payee to be named as a surviving spouse or a survivor at the death of the retired employee; and cannot allow the alternate payee to name a beneficiary.

SECTION 29. Current Retiree Benefit Catch-Up Provision.

For Retirees who have been receiving a Service or Disability retirement benefit for ten (10) years or more as of January 1, 2000, and for the surviving spouses of deceased Retirees who retired and began receiving a Service or Disability retirement benefit prior to January 1, 1990, the pension benefit payable to such Retirees and such surviving spouses shall be increased by a factor of two percent (2%) per year for each year since such Retiree or the deceased Retiree began receiving a Service retirement benefit. This increase is a one-time benefit adjustment. This increase shall be applied to both the base pension benefit and any post-retirement adjustment, combined. The increased pension benefit calculated under this section shall in no event exceed $8,183.00 annually.

SECTION 30. Special Provisions for Safety Officers Employed by the Wichita Airport Authority.

Safety officers employed by the Wichita Airport Authority of the City of Wichita on June 29, 1996 shall be transferred on that date from the Wichita Employees' Retirement Plans to the Police and Fire Retirement System's Plan C-79. Notwithstanding provisions of any other sec-

tions contained herein, the following provisions shall be applicable for such safety officers transferred as of June 29, 1996:

(a) Service credit under the Wichita Employees' Retirement Plans shall be considered Service for purposes of meeting Service eligibility requirements for benefits under the Police and Fire Retirement System Plan C-79;

(b) Service under the Wichita Employees' Retirement Plans shall not be considered in the determination of the amount of any benefit payable by the Police and Fire Retirement System Plan C-79, unless the Member has purchased Permissive Service Credit for that period of employment under Section 38; and

(c) Under no circumstances will the total retirement benefit payable to a safety officer as a result of this transfer exceed an amount equal to seventy-five percent (75%) of his or her Final Average Salary regardless whether the source of the benefit is the Wichita Employees' Retirement System or the Police and Fire Retirement System.

SECTION 31. Re-employment of Retirees.

(a) Any Member under the Retirement System who is receiving a retirement benefit and who is re-employed as a commissioned Police or Fire Officer with the City of Wichita, or in a non-commissioned position under the Wichita Employee's Retirement System, shall have such Member's retirement benefit immediately suspended, and no benefit payments shall be made during the entire time such Member is so employed. However, nothing is intended to prohibit such member from participation in the appropriate retirement system and the accrual of additional Service for credit.

(b) Upon termination of such employment as a commissioned officer, payment of the retirement benefit shall be resumed; provided, however, nothing herein shall be construed to prohibit the employment of a retired police or fire commissioned officer in an advisory or consultant capacity on an independent contractor basis.

(c) Under no circumstances will the total retirement benefit payable to a re-employed Member exceed an amount equal to seventy-five percent (75%) of his or her Final Average Salary regardless whether the source of the benefit is the Wichita Employees' Retirement System or the Police and Fire Retirement System.

SECTION 32. Fraud.

Any person who knowingly makes a false statement in connection with the application for or the receipt of benefits, or falsifies or permits to be falsified, any record or records of this Retirement System, in an attempt to defraud the Retirement System, shall forfeit all rights to benefits hereunder. The Retirement System and the City shall have the right to recover by setoff or otherwise, any payments based on such false statement or falsified record.

SECTION 33. Limited Extension of Option and its Effective Date.

Any Police or Fire Officer who had previously elected to participate in Plan B shall have an option at any time prior to retirement to elect participation in Plan A by paying into the Retirement System a sum of money, without interest, equal to the difference in contributions which would have been paid by such Police or Fire Officer had they elected Plan A on January 1, 1965; provided, that once having made such election, such Police or Fire Officer shall not be permitted to revert back to Plan B.

SECTION 34. Benefit and Disability Rights Under Prior Laws Saved.

This ordinance shall not affect the rights nor decrease the Disability or retirement benefits of any Member or such Member's beneficiaries, who has died, been permanently disabled, or retired under any previously authorized and existing pension or retirement system. Any Member in service at the time of the effective date of this ordinance, who is at said time entitled to a benefit under any previously authorized pension or Retirement System shall not have such benefit reduced by virtue of the application of the provisions of this ordinance.

SECTION 35. Invalidity of Part.

If any provisions of this ordinance or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this ordinance, which can be given effect without the invalid provision or application, and to this extent, the provisions of this ordinance are declared to be severable.

SECTION 36. Compliance with Code Section 415 Limitations on Contributions and Benefits.

a) Notwithstanding any other provisions of the Retirement System to the contrary, the Member contributions paid to and retirement benefits paid from the plan shall be limited to such extent as may be necessary to conform to the requirements of Section 415 of the Internal Revenue Code for a qualified pension plan.

(b) *Participation in Other Qualified Plans: Aggregation of Limits.*

(1) The 415(b) limit with respect to any Member who at any time has been a Member in any other defined benefit plan as defined in Section 414(j) of the Internal Revenue Code maintained by the Member's employer in this plan shall apply as if the total benefits payable under all such defined benefit plans in which the Member has been a Member were payable from one (1) plan.

(2) The 415(c) limit with respect to any Member who at any time has been a Member in any other defined contribution plan as defined in Section 414(i) of the Internal Revenue Code maintained by the Member's employer in this plan shall apply as if the total annual additions under all such defined contributions plans in which the Member has been a Member were payable from one (1) plan.

(c) *Basic 415(b) Limitation.*

(1) Before January 1, 1995, a Member may not receive an annual benefit that exceeds the limits specified in Section 415(b) of the Internal Revenue Code, subject to the applicable adjustments in that section. On and after January 1, 1995, a Member may not receive an annual benefit that exceeds the dollar amount specified in Section 415(b)(1)(A) of the Internal Revenue Code, subject to the applicable adjustments in Section 415(b) of the Internal Revenue Code and subject to any additional limits that may be specified in the Retirement System. In no event shall a Member's benefit payable under the plan in any limitation year be greater than the limit applicable at the annuity starting date, as increased in subsequent years pursuant to Section 415(d) of the Internal Revenue Code and the regulations thereunder.

(2) For purposes of Section 415(b) of the Internal Revenue Code, the "annual benefit" means a benefit payable annually in the form of a straight life annuity (with no ancillary benefits) without regard to the benefit attributable to after-tax employee contributions (except pursuant to Section 415(n) of the Internal Revenue Code) and to rollover contributions (as defined in Section 415(b)(2)(A) of the Internal Revenue Code). The "benefit attributable" shall be determined in accordance with Treasury Regulations.

(d) *Adjustments to Basic 415(b) Limitation for Form of Benefit.*

If the benefit under the plan is other than the form specified in subsection (c)(2), then the benefit shall be adjusted so that it is the equivalent of the annual benefit, using factors prescribed in Treasury Regulations.

(1) If the form of benefit without regard to the automatic benefit increase feature is not a straight life annuity or a qualified joint and survivor annuity, then the preceding sentence is applied by either reducing the Section 415(b) of the Internal Revenue Code limit applicable at the annuity starting date or adjusting the form of benefit to an actuarially equivalent amount [determined using the assumptions specified in Treasury Regulation

Section 1.415(b)-1(c)(2)(ii)] that takes into account the additional benefits under the form of benefit as follows:

(2) For a benefit paid in a form to which Section 417(e)(3) of the Internal Revenue Code does not apply [a monthly benefit], the actuarially equivalent straight life annuity benefit that is the greater of (or the reduced limit applicable at the annuity starting date which is the "lesser of" when adjusted in accordance with the following assumptions):

(A) The annual amount of the straight life annuity (if any) payable to the Member under the plan commencing at the same annuity starting date as the form of benefit to the Member, or

(B) The annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the form of benefit payable to the Member, computed using a 5% interest assumption (or the applicable statutory interest assumption) and (i) for years prior to January 1, 2009, the applicable mortality tables described in Treasury Regulation Section 1.417(e)-1(d)(2) (Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62), and (ii) for years after December 31, 2008, the applicable mortality tables described in Section 417(e)(3)(B) of the Internal Revenue Code (notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Section 417(e)(3)(B) of the Internal Revenue Code); or

(3) For a benefit paid in a form to which Section 417(e)(3) of the Internal Revenue Code applies [a lump sum benefit], the actuarially equivalent straight life annuity benefit that is the greatest of (or the reduced Section 415(b) of the Internal Revenue Code limit applicable at the annuity starting date which is the "least of" when adjusted in accordance with the following assumptions):

(A) The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using the interest rate and mortality table, or tabular factor, specified in the plan for actuarial experience;

(B) The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using a 5.5 percent interest assumption (or the applicable statutory interest assumption) and (i) for years prior to January 1, 2009, the applicable mortality table for the distribution under Treasury Regulation Section 1.417(e)-1(d)(2) (the mortality table specified in Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62), and (ii) for years after December 31, 2008, the applicable mortality tables described in Section 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Section 417(e)(3)(B) of the Internal Revenue Code; or

(C) The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable (computed using the applicable interest rate for the distribution under Treasury Regulation Section 1.417(e)-1(d)(3) (the 30-year Treasury rate (prior to January 1, 2007, using the rate in effect for the month prior

to retirement, and on and after January 1, 2007, using the rate in effect for the first day of the plan year with a one-year stabilization period)) and (i) for years prior to January 1, 2009, the applicable mortality rate for the distribution under Treasury Regulation Section 1.417(e)-1(d)(2) (the mortality table specified in Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62), and (ii) for years after December 31, 2008, the applicable mortality tables described in Section 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Section 417(e)(3)(B) of the Internal Revenue Code), divided by 1.05.

(e) *Benefits Not Taken into Account for 415(b) Limitation.*

For purposes of this section, the following benefits shall not be taken into account in applying these limits:

(1) Any ancillary benefit which is not directly related to retirement income benefits;

(2) That portion of any joint and survivor annuity that constitutes a qualified joint and survivor annuity;

(3) Any other benefit not required under Section 415(b)(2) of the Internal Revenue Code and Treasury Regulations thereunder to be taken into account for purposes of the limitation of Section 415(b)(1) of the Internal Revenue Code.

(f) *Other Adjustments in 415(b) Limitation.*

(1) In the event the Member's retirement benefits become payable before age sixty-two (62), the limit prescribed by this section shall be reduced in accordance with Treasury Regulations pursuant to the provisions of Section 415(b) of the Internal Revenue Code, so that such limit (as so reduced) equals an annual straight life benefit (when such retirement income benefit begins) which is equivalent to a one hundred sixty thousand dollar ($160,000) (as adjusted) annual benefit beginning at age sixty-two (62).

(2) In the event the Member's benefit is based on at least fifteen (15) years of service as a full-time employee of any police or fire department or on fifteen (15) years of military service, the adjustments provided for in (1) above shall not apply.

(3) The reductions provided for in (1) above shall not be applicable to pre-retirement disability benefits or pre-retirement death benefits.

(g) *Ten Thousand Dollar ($10,000) Limit.*

Notwithstanding the foregoing, the retirement benefit payable with respect to a Member shall be deemed not to exceed the 415 limit if the benefits payable, with respect to such Member under this plan and under all other qualified defined benefit pension plans to which the Member's employer contributes, do not exceed ten thousand dollars ($10,000) for the applicable limitation year and for any prior limitation year and the employer has not at any time maintained a qualified defined contribution plan in which the Member participated.

(h) *Effect of COLA without a Lump Sum Component on 415(b) Testing.*

Effective on and after January 1, 2009, for purposes of applying the limits under Section 415(b) of the Internal Revenue Code (the "Limit") to a Member with no lump sum benefit, the following will apply:

(1) a Member's applicable Limit will be applied to the Member's annual benefit in the Member's first limitation year without regard to any cost of living adjustments under Section 25;

(2) to the extent that the Member's annual benefit equals or exceeds the Limit, the Member will no longer be eligible for cost

of living increases until such time as the benefit plus the accumulated increases are less than the Limit; and

(3) thereafter, in any subsequent limitation year, a Member's annual benefit, including any cost of living increases under Section 25, shall be tested under the then applicable benefit Limit including any adjustment to the Section 415(b)(1)(A) of the Internal Revenue Code dollar limit under Section 415(d) of the Internal Revenue Code, and the regulations thereunder.

(i) *Effect of COLA with Lump Sum Component on 415(b) Testing.*

On and after January 1, 2009, with respect to a Member who receives a portion of the Member's annual benefit in a lump sum, a Member's applicable Limit will be applied taking into consideration cost of living increases as required by Section 415(b) of the Internal Revenue Code and applicable Treasury Regulations.

(j) *Section 415(c) Limitations on Contributions and Other Additions.*

After-tax Member contributions or other annual additions with respect to a Member may not exceed the lesser of $40,000 (as adjusted pursuant to Section 415(d) of the Internal Revenue Code) or 100% of the Member's compensation.

(1) Annual additions are defined to mean the sum (for any year) of employer contributions to a defined contribution plan, Member contributions, and forfeitures credited to a Member's individual account. Member contributions are determined without regard to rollover contributions and to picked-up employee contributions that are paid to a defined benefit plan.

(2) For purposes of applying Section 415(c) of the Internal Revenue Code and for no other purpose, the definition of compensation where applicable will be compensation actually paid or made available during a limitation year, except as noted below and as permitted by Treasury Regulation Section 1.415(c)-2, or successor regulation; provided, however, that Member contributions picked up under Section 414(h) of the Internal Revenue Code shall not be treated as compensation.

(3) Compensation will be defined as wages within the meaning of Section 3401(a) of the Internal Revenue Code and all other payments of compensation to an employee by an employer for which the employer is required to furnish the employee a written statement under Sections 6041(d), 6051(a)(3) and 6052 of the Internal Revenue Code and will be determined without regard to any rules under Section 3401(a) of the Internal Revenue Code that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as exception for agricultural labor in Section 3401(a)(2) of the Internal Revenue Code).

(A) However, for limitation years beginning after December 31, 1997, compensation will also include amounts that would otherwise be included in compensation but for an election under Section 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b) of the Internal Revenue Code. For limitation years beginning after December 31, 2000, compensation shall also include any elective amounts that are not includible in the gross income of the Member by reason of Section 132(f)(4) of the Internal Revenue Code.

(B) For limitation years beginning on and after January 1, 2009, compensation for the limitation year shall also include compensation paid by the later of 2½ months after a Member's severance from employment or the end of the limitation year that includes the date of the Member's severance from employment if:

(I) the payment is regular compensation for services during the Member's regular

working hours, or compensation for services outside the Member's regular working hours (such as overtime or shift differential), commissions, bonuses or other similar payments, and, absent a severance from employment, the payments would have been paid to the Member while the Member continued in employment with the employer; or

(II) the payment is for unused accrued bona fide sick, vacation or other leave that the Member would have been able to use if employment had continued; or

(III) payments pursuant to a nonqualified unfunded deferred compensation plan, but only if the payments would have been paid to the Member at the same time if the Member had continued employment with the employer and only to the extent that the payment is includible in the Member's gross income.

Any payments not described in paragraph (B) above are not considered compensation if paid after severance from employment, even if they are paid within 2½ months following severance from employment, except for payments to a Member who does not currently perform services for the employer by reason of qualified military service (within the meaning of Section 414(u)(1) of the Internal Revenue Code) to the extent these payments do not exceed the amounts the Member would have received if the Member had continued to perform services for the employer rather than entering qualified military service.

A Member who is in qualified military service (within the meaning of Section 414(u)(1) of the Internal Revenue Code) shall be treated as receiving compensation from the employer during such period of qualified military service equal to (i) the compensation the Member would have received during such period if the Member were not in qualified military service, determined based on the rate of pay the Member would have received from the employer but for the absence during the period of qualified military service, or (ii) if the compensation the Member would have received during such period was not reasonably certain, the Member's average compensation from the employer during the twelve month period immediately preceding the qualified military service (or, if shorter, the period of employment immediately preceding the qualified military service).

(C) Back pay, within the meaning of Treasury Regulation Section 1.415(c)-2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

(4) For limitation years beginning on or after January 1, 2009, a Member's compensation for purposes of subsection (k) shall not exceed the annual limit under Section 401(a)(17) of the Internal Revenue Code.

(k) *Service Purchases under Section 415(n)*.

Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, if a Member makes one or more contributions to purchase permissive service credit under the plan, then the requirements of Section 415(n) of the Internal Revenue Code will be treated as met only if:

(1) the requirements of Section 415(b) of the Internal Revenue Code are met,

determined by treating the accrued benefit derived from all such contributions as an annual benefit for purposes of Section 415(b) of the Internal Revenue Code, or

(2) the requirements of Section 415(c) of the Internal Revenue Code are met, determined by treating all such contributions as annual additions for purposes of Section 415(c) of the Internal Revenue Code.

(3) For purposes of applying this section, the system will not fail to meet the reduced limit under Section 415(b)(2)(C) of the Internal Revenue Code solely by reason of this subparagraph and will not fail to meet the percentage limitation under Section 415(c)(1)(B) of the Internal Revenue Code solely by reason of this section.

(4) For purposes of this section the term "permissive service credit" means service credit-

(A) recognized by the system for purposes of calculating a Member's benefit under the system,

(B) which such Member has not received under the system, and

(C) which such Member may receive only by making a voluntary additional contribution, in an amount determined under the system, which does not exceed the amount necessary to fund the benefit attributable to such service credit.

Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, such term may include service credit for periods for which there is no performance of service, and, notwithstanding clause (B), may include service credited in order to provide an increased benefit for service credit which a Member is receiving under the system.

(5) The system will fail to meet the requirements of this section if-

(A) more than five years of nonqualified service credit are taken into account for purposes of this subparagraph, or

(B) any nonqualified service credit is taken into account under this paragraph before the member has at least five years of participation under the system.

(6) For purposes of paragraph (5), effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, the term "nonqualified service credit" means permissive service credit other than that allowed with respect to-

(A) service (including parental, medical, sabbatical, and similar leave) as an employee of the Government of the United States, any State or political subdivision thereof, or any agency or instrumentality of any of the foregoing (other than military service or service for credit which was obtained as a result of repayment described in Section 415(k)(3) of the Internal Revenue Code),

(B) service (including parental, medical, sabbatical, and similar leave) as an employee (other than as an employee described in clause (A)) of an education organization described in Section 170(b)(1)(A)(ii) of the Internal Revenue Code which is public, private, or sectarian school which provides elementary or secondary education (through grade 12), or a comparable level of education, as determined under the applicable law of the jurisdiction in which the service was performed,

(C) service as an employee of an association of employees who are described in clause (A), or

(D) military service (other than qualified military service under Section 414(u) of the Internal Revenue Code) recognized by the system.

In the case of service described in clause (A), (B), or (C), such service will be nonqualified service if recognition of such service would cause a Member to receive a retirement benefit for the same service under more than one plan.

(7) In the case of a trustee-to-trustee transfer after December 31, 2001, to which Section 403(b)(13)(A) of the Internal Revenue Code or Section 457(e)(17)(A) of the Internal Revenue Code applies (without regard to whether the transfer is made between plans maintained by the same employer)-

(A) the limitations of paragraph (5) will not apply in determining whether the transfer is for the purchase of permissive service credit, and

(B) the distribution rules applicable under federal law to the system will apply to such amounts and any benefits attributable to such amounts.

(8) For an eligible Member, the limitation of Section 415(c)(1) of the Internal Revenue Code shall not be applied to reduce the amount of permissive service credit which may be purchased to an amount less than the amount which was allowed to be purchased under the terms of a Plan as in effect on August 5, 1997. For purposes of this paragraph an eligible Member is an individual who first became a Member in the system before January 1, 1998.

(l) *Modifications of Contributions for 415(c) and 415(n) Purposes.*

Notwithstanding any other provision of law to the contrary, the system may modify a request by a Member to make a contribution to the system if the amount of the contribution would exceed the limits provided in Section 415 of the Internal Revenue Code by using the following methods:

(1) If the law requires a lump sum payment for the purchase of service credit, the system may establish a periodic payment plan for the Member to avoid a contribution in excess of the limits under Section 415(c) or 415(n) of the Internal Revenue Code.

(2) If payment pursuant to subparagraph (1) will not avoid a contribution in excess of the limits imposed by Section 415(c) or 415(n) of the Internal Revenue Code, the system may either reduce the Member's contribution to an amount within the limits of those sections or refuse the Member's contribution.

(m) *Repayments of Cashouts.*

Any repayment of contributions (including interest thereon) to the plan with respect to an amount previously refunded upon a forfeiture of service credit under the plan or another governmental plan maintained by the Retirement System shall not be taken into account for purposes of Section 415 of the Internal Revenue Code, in accordance with applicable Treasury Regulations.

(n) *Reduction of Benefits Priority.*

Reduction of benefits and/or contributions to all plans, where required, shall be accomplished by first reducing the Member's benefit under any defined benefit plans in which the Member participated, such reduction to be made first with respect to the plan in which the Member most recently accrued benefits and thereafter in such priority as shall be determined by the plan and the plan administrator of such other plans, and next, by reducing or allocating excess forfeitures for defined contribution plans in which the Member participated, such reduction to be made first with respect to the plan in which the Member most recently accrued benefits and thereafter in such priority as shall be established by the plan and the plan administrator for such other plans provided, however, that necessary reductions may be made in a different manner and priority pursuant to the agreement of the plan and the plan administrator of all other plans covering such Member.

SECTION 37. Direct Rollovers of Defined Benefit Plan Distributions.

(a) Except as otherwise indicated herein, this section shall apply to all rollovers made after December 31, 2001.

(b) For purposes of compliance with Section 401(a)(31) of the Internal Revenue Code, this section applies notwithstanding any contrary provision or retirement law that would otherwise limit a distributee's election to make a rollover. A distributee may elect, at the time and in the manner prescribed by the Board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(1) "Eligible rollover distribution" means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or the life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under Section 401(a)(9) of the Internal Revenue Code; the portion of any distribution that is not includible in gross income; and any other distribution that is reasonably expected to total less than $200 during the year. Effective January 1, 2002, a portion of a distribution will not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only (i) to an individual retirement account or annuity described in Section 408(a) or (b) of the Internal Revenue Code or to a qualified defined contribution plan described in Section 401(a) of the Internal Revenue Code, that agrees to separately account for amounts so transferred (and earnings thereon), including separately accounting for the portion of the distribution that is includible in gross income and the portion of the distribution that is not so includible; (ii) on or after January 1, 2007, to a qualified defined benefit plan described in Section 401(a) of the Internal Revenue Code or to an annuity contract described in Section 403(b) of the Internal Revenue Code, that agrees to separately account for amounts so transferred (and earnings thereon), including separately accounting for the portion of the distribution that is includible in gross income and the portion of the distribution that is not so includible; or (iii) on or after January 1, 2008, to a Roth IRA described in Section 408A of the Internal Revenue Code. Effective January 1, 2002, the definition of an eligible rollover distribution also includes a distribution to a surviving spouse, or to a spouse or former spouse who is an alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code.

(2) "Eligible retirement plan" means any of the following that accepts the distributee's eligible rollover distribution:

(A) an individual retirement account described in Section 408(a) of the Internal Revenue Code;

(B) an individual retirement annuity described in Section 408(b) of the Internal Revenue Code;

(C) an annuity plan described in Section 403(a) of the Internal Revenue Code;

(D) a qualified trust described in Section 401(a) of the Internal Revenue Code;

(E) effective January 1, 2002, an annuity contract described in Section 403(b) of the Internal Revenue Code;

(F) effective January 1, 2002, a plan eligible under Section 457(b) of the Internal Revenue Code that is maintained by a state, political

subdivision of a state, or any agency or instrumentality of a state or a political subdivision of a state that agrees to separately account for amounts transferred into that plan from the Retirement System; or

(G) effective January 1, 2008, a Roth IRA described in Section 408A of the Internal Revenue Code.

(3) "Distributee" means an employee or former employee. It also includes the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code. Effective January 1, 2007, a distributee further includes a nonspouse beneficiary who is a designated beneficiary as defined by Section 401(a)(9)(E) of the Internal Revenue Code. However, a nonspouse beneficiary may rollover the distribution only to an individual retirement account or individual retirement annuity established for the purpose of receiving the distribution, and the account or annuity will be treated as an "inherited" individual retirement account or annuity.

(4) "Direct rollover" means a payment by the plan to the eligible retirement plan specified by the distributee.

(c) Rollover contributions and/or direct rollovers of distributions made after December 31, 2001 will be accepted for the purchase of prior or future service credit from the types of plans specified.

(d) The plan will accept a direct rollover of an eligible rollover distribution from:

(1) A qualified plan described in Section 401(a) or 403(a) of the Internal Revenue Code.

(2) An annuity contract described in Section 403(b) of the Internal Revenue Code.

(3) An eligible plan under Section 457(b) of the Internal Revenue Code which is maintained by a state, political subdivision of a state, or an agency or instrumentality of a state or political subdivision of a state.

(e) The plan will accept a participant contribution of an eligible rollover distribution from:

(1) A qualified plan described in Section 401(a) or 403(a) of the Internal Revenue Code.

(2) An annuity contract described in Section 403(b) of the Internal Revenue Code.

(3) An eligible plan under Section 457(b) of the Internal Revenue Code which is maintained by a state, political subdivision of a state, or an agency or instrumentality of a state or political subdivision of a state.

(f) The plan will accept a participant rollover contribution of the portion of a distribution from an individual retirement account or annuity described in Section 408(a) or 408 (b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be includible in gross income.

SECTION 38. Permissive Service Credit Purchases.

Subject to any applicable limitations in Section 36 of this Charter Ordinance, Members in current pay status shall be permitted to purchase Permissive Service Credit, based on Other Governmental Employment or Past Wichita Employment, provided the Member is not using such prior period of employment to establish service credit under any other Wichita or other governmental retirement system. The Permissive Service Credit shall be applied like Service as an increased benefit accrual factor ("multiplier"), for purposes of Sections 15(a), 15(b), 15(c), 20, 22(e)(for purposes of computing benefit as of effective backward DROP date) and 24(c). The increased multiplier may be purchased in bi-weekly increments in an amount not to exceed 12.5% of final average salary (5 years of service). In the case of Permissive Service Credit based on Past Wichita Employment, such credit shall also be counted like Service for purposes of meeting minimum Service period qualifications

for benefits and retirement allowances under Sections 14(b), 14(c), 14(d), 14(e), 15(a), 15(b), 15(c), 20 (except it shall not be treated as Service "rendered" after reemployment under the fourth paragraph of such section), 22(a), 23 and 24 of this Retirement System.

Permissive Service Credit shall not be granted until the Member has paid to the Plan the full actuarial cost thereof, as determined by the System, together with any fees for determining such cost. Purchases may be funded in whole or in part with a rollover from another qualified plan, as permitted by Section 37 of this Charter Ordinance. The Board shall establish a uniform rule for the implementation of this provision. The cost of such Permissive Service Credit purchase shall be determined as the increase in the actuarial present value of the Member's plan benefit after the purchase as compared to the actuarial present value of the Member's plan benefit before the purchase, and the calculations shall be based on actuarial assumptions adopted by the Board upon the recommendation of the Actuary.

Any Member wishing to determine the cost of purchasing service credit hereunder shall be required to pay the actual cost of any fee to determine the actuarial cost of the service credit, regardless of whether or not the service credit is actually purchased.

The total benefits actually paid from the Retirement System to the Member or his or her beneficiaries after the Permissive Service Credit Purchase shall be guaranteed to be not less than the total amount of contributions that the Member has made, including money transfers for Permissive Service Credit Purchases.

SECTION 39. The Original of Charter Ordinance No. 215 of the City of Wichita, Kansas, is hereby repealed.

SECTION 40. Publication.

This ordinance shall be published once each week for two (2) consecutive weeks in the official city newspaper.

SECTION 41. Petition for Referendum.

This is a charter ordinance and shall take effect sixty-one (61) days after final publication unless a sufficient petition for a referendum is filed and a referendum held on the ordinance as provided in Article 12, Section 5, Subdivision (c)(3), of the Constitution of Kansas, in which case the ordinance shall become effective if approved by a majority of the electors voting thereon.

and shall have such failure resolved as soon as practicable, but not less than two business days.

(c) No such report need be made concerning property or merchandise acquired from another licensee involving the purchase or other acquisition from the other licensee, where the other licensee has made the reports required by this section with respect to such property or merchandise.

(d) All records required by this Section, including those submitted electronically, shall be maintained by the pawnbroker at the pawnbroker's place of business for not less than two (2) years following the date of the transaction.

(e) Every pawnbroker, agent or employee of such pawnbroker or dealer who fails, neglects or refuses to make the reports called for by this Section, or who reports any material matter falsely to the Chief of Police or his designee, is guilty of a violation of this Charter Ordinance.

(e) Reports made pursuant to this Section shall be available for inspection only by law enforcement officers, City, County and District Attorneys and their employees, for law enforcement purposes.

(f) Where used consumer cellular phones or electronic devices are sold, traded, exchanged or involved in any other transaction and such devices are received through the use of an automated kiosk, such property and/or transaction is not subject to the reporting requirements of Subsection (a) if:

(1) As a part of the record of the transaction, the following information is documented: the date, time and place of the transaction; the legal name, date of birth, residence and phone number of the seller; a detailed description of the device or devices, including the brand name, color, model number, title or name, size, markings, serial number and/or any other identifying number; the amount paid for the device or devices, and the employee or live representative remotely handling the transaction. Such records shall be submitted to the Wichita Police Department within twenty-four (24) hours after receipt of the consumer cellular phone or electronic device in a manner designated by the Wichita Police Department. All information submitted under this subsection shall be kept confidential for law enforcement use only and shall not be a public record. Such records must be retained by the business operating the automated kiosk for a period not less than two (2) years following the date of the transaction.

(2) At the time of the transaction, in order to accept the used consumer cellular phones or electronic device, the business will cross-reference the identifying features of the device in a national lost and stolen database and will refuse to accept any device that has been recorded as lost or stolen in the database."

SECTION 4: The original of Section 5 of Charter Ordinance No. 206 is hereby amended to read as follows:

"SECTION 21. **Secondhand Dealers and Precious Metal Dealers**. Items acquired to be held:

(a) Every secondhand dealer and precious metal dealer (except persons whose dealership in secondhand merchandise is limited exclusively to used motor vehicle sales) shall segregate the property purchased or received from the property purchased or received from other sellers and attach to the property or to the container in which the property is held a tag indicating the name of the seller and the date on which the property was purchased or received. Further, every secondhand dealer and precious metal dealer shall retain possession of the purchased property at the licensed premises and withhold the property from resale or salvage use for fourteen (14) calendar days from the date of the transaction and shall make the purchased property available for inspection at his/her place of business by any police officer or other official designated by the chief of police during regular business hours while in his/her possession. However, the provisions of this section do not apply to property or transactions designated in Section 20(d) as being exempt from the reporting requirements.

(b) When a police officer has reasonable cause to believe that any property received by a secondhand dealer or precious metal dealer is stolen, the police officer may place a hold notice upon the property. All property upon which a hold notice has been placed must be held by the dealer at the local place of business for sixty (60) calendar days unless released sooner by authority of the Police Chief or his designee. After sixty (60) calendar days,

unless other disposition is authorized by the Police Chief or his designee, the hold is automatically released and the secondhand dealer, or precious metal dealer may dispose of the property.

(c) The holding requirements of Subsection (a) shall not apply to phonographic records, cassette tapes, compact discs or video games when such items are not purchased, traded, pawned or sold in conjunction with an operation system or stereo equipment. Items which are sold, purchased, traded or pawned during any normal business day to or from the same individual shall be considered "sold in conjunction" for the holding requirements in this section.

(d) The holding requirements of Subsection (a) shall not apply to used consumer cellular phones or electronic devices that are sold, traded, exchanged or involved in any other transaction and such devices are received through the use of an automated kiosk, if:

(1) Such devices received are shipped to a secure off-site location as approved by the Chief of the Wichita Police Department or the Chief's designee. Devices shipped under this subsection must be held for thirty (30) calendar days after submitting the complete report required in Section 20(f)(a) to the Wichita Police Department, subject to return and inspection by any officer of the Wichita Police Department upon request. The off-site location may be located outside of the City of Wichita and/or the State of Kansas.

(2) The licensee shall comply within twenty-four (24) hours with a request from the Wichita Police Department to open the automated kiosk to allow officers the opportunity to inspect any device within such kiosk or to review any recorded data therein.

(3) Any items found to be recorded as stolen or otherwise subject to a civil or criminal investigation must be shipped to any requesting law enforcement officer with all shipping costs to be borne by the secondhand goods dealer."

SECTION 5. The originals of Section 2 of Charter Ordinance No. 192 and Sections 2, 4, and 5 of Charter Ordinance No. 206 are hereby repealed.

SECTION 6. This Charter Ordinance shall be published once each week for two consecutive weeks in the official City paper.

CHARTER ORDINANCE NO. 236

A CHARTER ORDINANCE EXEMPTING THE CITY OF WICHITA, KANSAS, FROM THE PROVISIONS OF K.S.A. 13-1209 AND K.S.A. 13-1210 AND PROVIDING SUBSTITUTE AND ADDITIONAL PROVISIONS ON THE SAME SUBJECT RELATING TO WATERWORKS IMPROVEMENTS AND THE ISSUANCE OF BONDS FOR THE PURPOSE OF PAYING FOR SAID IMPROVEMENTS.

WHEREAS, Article 12, § 5 of the Constitution of the State of Kansas (the "Act") empowers cities to determine their local affairs and government and provides that such power and authority granted thereby to cities shall be liberally construed for the purpose of giving to cities the largest measure of self-government, including passing charter ordinances which exempt such cities from non-uniform statutes and acts of the Kansas Legislature; and

WHEREAS, the City of Wichita, Kansas (the "City") is a city duly created and organized, under the laws of the State of Kansas; and

WHEREAS, K.S.A. 13-1209 and K.S.A. 13-1210 are part of an enactment of the Kansas Legislature (K.S.A. 13 1209 *et seq.*) relating to the purchase, construction or extension of waterworks, including in areas outside of the corporate boundaries of the city and the issuance of bonds for such purposes, which enactment is applicable to the City, but is not uniformly applicable to all cities within the State of Kansas; and

WHEREAS, the City Council of the City (the "Governing Body") desires, by charter ordinance, to exempt the City from the provisions of K.S.A. 13-1209 and K.S.A. 13-1310, and to provide substitute and additional provisions therefor.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF WICHITA, KANSAS:

Section 1. Exemption. The City, by virtue of the powers vested in it by the Act, hereby elects to exempt itself from and hereby makes inapplicable to it the provisions of K.S.A. 13-1209

and K.S.A. 13-1210, and does hereby provide the following substitute and additional provisions in place thereof:

(a) The City of Wichita, Kansas (the "City") shall have full power and authority to purchase, construct or extend waterworks for the purpose of supplying the City and its inhabitants with water, and may maintain, operate and regulate the same, and prescribe the rates at which water shall be furnished; and the City may acquire, by purchase or appropriate proceedings in condemnation, all grounds deemed necessary either within or without the City upon which to erect such works, and upon which to lay pipes and mains for the purpose of conveying water to consumers; and for the purpose of protecting, maintaining and operating such works, the City shall have the same jurisdiction over any grounds acquired outside of the City for such purposes, as if such grounds were within the City.

(b) The City is hereby authorized to make waterworks improvements authorized and in the manner provided for in the General Improvement and Assessment law as contained in K.S.A. 12-6a01 *et seq*. (the "General Improvement Law"), and in those areas beyond the corporate limits of the City and within (5) miles thereof, including areas that include territory within other cities within such distance; provided that such other cities shall have consented to the making of such improvements. The financing of such waterworks improvements, including the levy of special assessments, shall be made as provided for in the General Improvement Law as if the improvements were located within the corporate limits of the City. The City is hereby authorized to impose upon the properties served with waterworks improvements pursuant to the authority granted herein, user fees which may be based upon the cost of operation and maintenance of such waterworks improvements and also the recovery of an equitable portion of the capital improvement cost of any such improvements originally charged to or assessed within the property within the corporate limits of such city. The user fees authorized shall be a lien against the real property served by such waterworks improvements and may be collected in the same manner as delinquent real estate taxes.

(c) The City shall have the power and authority to issue general obligation bonds as provided by law, and the proceeds derived from the sale of the same, or such part thereof as may be necessary, may be used by such city for the purpose of acquiring said grounds and for the purpose of purchasing, constructing or extending such waterworks. As an alternative, the City may also issue general obligation bonds to pay the costs of improvements constructed pursuant to the authority provided in subsection (b) hereof; such bonds to be issued as provided for in the General Improvement Law.

Section 2. Severability. If any provision or section of this Charter Ordinance is deemed or ruled unconstitutional or otherwise illegal or invalid by any court of competent jurisdiction, such illegality or invalidity shall not affect any other provision of this Charter Ordinance. In such instance, this Charter Ordinance shall be construed and enforced as if such illegal or invalid provision had not been contained herein.

Section 3. Effective Date. This Charter Ordinance shall be published once a week for two consecutive weeks in the official City newspaper, and shall take effect sixty-one (61) days after final publication, unless a petition signed by a number of electors of the City equal to not less than ten percent (10%) of the number of electors who voted at the last preceding regular City election shall be filed in the office of the Clerk, demanding that this Charter Ordinance be submitted to a vote of the electors, in which event this Charter Ordinance shall take effect when approved by a majority of the electors voting at an election held for such purpose.

PASSED with at least a two-thirds (2/3) vote of the entire Governing Body of the City of Wichita, Kansas, on September 15, 2020 and signed by the Mayor.

Sec. 1.04.210. Appointment of counsel for indigent defendants.

(a) The administrative judge of the municipal court shall prepare and file in the office of the clerk of the municipal court a list of attorneys who are eligible for assignment to represent indigent persons accused of municipal offenses. Such list shall be prepared pursuant to guidelines established by the administrative judge.

(b) Except as provided in section 1.04.065 of this Code, in all cases pending before the municipal court in which the defendant is subject to a sentence of a term of incarceration, the judge of the municipal court presiding at the defendant's first appearance shall advise the defendant, if he or she appears without counsel, that he or she is entitled to counsel unless defendant waives such entitlement, and that counsel will be appointed to represent the defendant if it is determined that the defendant is not financially able to employ an attorney.

(c) If it is determined that the defendant is not able to employ counsel, as provided in subsection (f) of this section, the court shall appoint an attorney, unless the defendant waives his or her right to counsel, from the list provided in subsection (a) of this section, or at the option of the court, may appoint counsel as provided for in subsection (k) hereof. However, when a written determination has been filed with the court by the city attorney, as provided for in section 1.04.065 of this Code, counsel shall not be appointed to represent the defendant.

(d) If, after the attorney's appointment, the attorney learns that the defendant has funds or other resources sufficient to enable the defendant to employ counsel, or that the city attorney has filed a written determination with the court that a sentence of incarceration will not be sought should the defendant be found guilty of the pending charge or charges, as provided in section 1.04.065 of this Code, the attorney shall so advise the court and ask permission to withdraw from the case or to be permitted to accept the compensation from the defendant for services.

(e) When any defendant who is entitled to have the assistance of counsel claims to be financially unable to employ counsel, the court shall require that the defendant file an affidavit containing such information and in the form adopted by the administrative judge. The court may interrogate the defendant under oath as to the contents of the affidavit; may require the

defendant to produce evidence upon the issue of the defendant's financial condition; and may require the city attorney, a city law enforcement officer or other municipal court employee to investigate and report upon the financial condition of the defendant.

(f) Upon the basis of the information provided for by subsection (e) of this section, the court shall determine whether the defendant is financially unable to employ counsel. In making such determination, the court shall consider the defendant's assets and income; the amount needed to support the defendant and the defendant's

immediate family; the anticipated cost of effective representation by employed counsel; and any property conveyed by the defendant without adequate monetary consideration after commission of the alleged offense. If the defendants assets and income are not sufficient to cover the anticipated cost of effective representation by employed counsel taking into account the nature of the proceedings, the defendant shall be determined indigent in full or in part and the court shall appoint an attorney as provided in subsection (c) of this section. If the court determines that the defendant is financially able to employ counsel, or that the city attorney has filed a written determination with the court that a sentence of incarceration will not be sought should the defendant be found guilty of the pending charge or charges, as provided in section 1.04.065 of this Code, the court shall so advise the defendant and shall give the defendant a reasonable opportunity to employ an attorney of the defendant's own choosing.

(g) The court shall inform the defendant for whom counsel is appointed that the amount expended by the city in providing counsel and other defense services may be entered as a judgment against the defendant if the defendant is convicted and found to be financially able to pay the amount, and that an action to recover such amount may be brought against any person to whom the defendant may have transferred or conveyed any of the defendant's property without adequate monetary consideration after the date of the commission of the alleged crime. A determination by the court that the defendant is financially unable to employ counsel or pay other costs or the defendant's defense may preclude a recovery from the defendant but may not preclude recovery from any person to whom the defendant may have transferred any property without adequate monetary consideration after the date of the commission of the alleged crime.

(h) The determination that a defendant is indigent shall be subject to review at any time by the court.

(i) An attorney who performs services as provided in this section shall be entitled to compensation at the conclusion of such services. Compensation for such services shall be paid in accordance with the standards provided in this section. Claims for compensation shall be certified by the claimant and shall be reviewed and approved by one or more judges of the municipal court before whom the services were performed. Each claim shall be supported by a written statement specifying in detail the time expended, the services rendered, the expenses incurred, and any other compensation or reimbursement received. Upon review and approval by the judge or judges of the municipal court, each claim for compensation shall be submitted to the clerk of the municipal court, who shall then be authorized to pay the claim.

(j) A fee schedule is established for the determination of the amount of compensation to be paid to court-appointed counsel in the municipal court:

(1) Driving under the influence of alcohol and/or drugs:

(a) Preparation time: fifteen dollars per hour;

(b) Trial time: twenty dollars per hour; and

(c) Maximum compensation for both preparation time and in-court time shall not exceed one hundred dollars.

(2) All other misdemeanor cases:

(a) Preparation time: fifteen dollars per hour;

(b) Trial time: twenty dollars per hour; and

(c) Maximum compensation for both preparation time and in-court time shall not exceed fifty dollars.

(3) All cases in which a guilty or nolo contendere plea is entered or in which diversion is granted:

(a) Preparation time: fifteen dollars per hour;

(b) In-court time: twenty dollars per hour; and

(c) Maximum compensation for both preparation time and in-court time shall not exceed thirty dollars.

(k) In lieu of appointing an attorney from a list of attorneys as provided for in subsection (c) and compensating such appointed attorney as provided for above, the court may contract with an eligible attorney or attorneys to provide a defense for all defendants in municipal court who are determined to be indigent and where no conflict exists which would preclude representation by an attorney or attorneys. (Ord. No. 51-738, § 2, 4-19-22; Ord. No. 52-248, § 1, 8-15-23)

Editor's note—Ord. No. 52-248, § 1, adopted Aug. 15, 2023, amended the title of § 2.04.237 to read as herein set out. The former § 2.04.237 title pertained to Council Appeal Panel—Titles 3 and 4 license denial or suspension appeals.

Sec. 2.04.238. Appeals from license suspensions, revocations, or imposition of administrative penalties due to gambling violations.

(a) Preamble.

Whereas, the City Council finds that in recent years there has been a proliferation of illegal gambling machines in bars, gas stations and other convenience stores;

Whereas, gambling devices are illegal when not offered in a state or tribal casino. Unregulated gambling devices are placed to specifically target lower income citizens;

Whereas, the City of Wichita has an important governmental interest in protecting its citizens from unregulated and unfair gambling devices;

Whereas, such devices are leased to some businesses with assurances of their legality. The proliferation of machines in the community has led citizens and business owners to believe that such machines are legal;

Whereas, the City Council wishes to treat all licensees and businesses equally, and be transparent in its intent to regulate and prohibit these devices; and

Wherefore, the City of Wichita enacts specific license penalties for licensed businesses that permit gambling devices on their premises.

(b) Following an appeal from the suspension, revocation or the assessment of an administrative penalty for a violation of state or local gambling laws, the following penalties shall be imposed by the City Council or Council Appeal panel if staff's determination is upheld:

(1) On a first offense, the licensee will receive a written warning of violation or notice of such violation by the service of a Search Warrant. No suspension will be ordered by City staff or the appeal panel.

(2) On a second offense, the license will be suspended for 90 days.

(3) On a third or subsequent offense, the license will be suspended for one year.

(4) On appeal, only a finding of extraordinary circumstances would dictate a more lenient or harsher penalty be imposed by the City Council.

(c) For the purposes of this section gambling device is defined in Section 5.36.010(d).
(Ord. No. 52-248, § 2, 8-15-23)

Sec. 2.04.240. Conduct of council business—Presiding officer.

The mayor shall preside at all meetings of the city council. In the absence of the mayor, the vice mayor shall preside. In the absence of both the mayor and the vice mayor, the next-in-line in the order of succession, designated pursuant to Section 2.04.032 of this Code, acting vice mayor shall preside. The chair shall be relinquished to such senior officer of the council that may be present at any time during council meetings. The presiding officer may make motions, second motions and debate from the chair subject only to such limitations of debate as by the same rules are imposed on all members. The presiding officer shall not be deprived of any of the rights and privileges of a council member by reason of acting as the presiding officer. He or she shall refrain from preempting the floor and shall recognize other members of the council in their turn for comment, motion and debate.

The presiding officer shall direct the conduct of and shall preserve strict order and decorum in all meetings of the council. He or she shall decide all questions of order subject, however, to an appeal to the council in which event a majority (four) vote of the council shall determine conclusively such question of order; shall direct the sergeant-at-arms to carry out the orders and instructions of the chair for the purpose of maintaining order and decorum in the council meeting; shall determine the order of discussion and debate; shall recognize as nearly as possible those individuals desiring to speak in the order in which requests are made to the chair; shall conduct council meetings strictly in accordance with the rules and procedures adopted by the council; shall issue the necessary and appropriate reprimands to those individuals who are out of order; and shall direct the clerk to record such reprimands and votes of censure as may be directed by the council under Section 2.04.330. In the event it shall become necessary to remove any person from a council meeting or to place any such person under arrest for violation of the order and decorum of the meeting, the complaint for prosecution shall be signed by the presiding officer whose actions in such matters if approved by a majority (four) of the council shall be saved harmless by the city.

If requested to do so by any council member, the presiding officer shall explain his or her rulings in connection with any particular point of order and shall refer to the city attorney any inquiries from individual council members with respect to interpretations of council rules of procedure. The ruling of the city attorney shall be final insofar as the interpretation of the rules may be concerned and such interpretation shall be observed by the presiding officer in his or her orders and conduct of the meeting.
(Ord. No. 47-858, § 31, 3-28-08)

Sec. 2.04.250. Conduct of council business—Appeals.

Any member of the council may appeal a ruling of the presiding officer, providing such appeal is

made immediately following the ruling to be appealed. In all cases of appeal, the decision of the majority (four) of the council shall be final. In the event that appeals are sustained against rulings or orders of the presiding officer, then the city clerk shall record a notice of such appeal and the action taken with an appropriate notation on the minutes of each meeting concerned.
(Ord. No. 47-858, § 32, 3-28-08)

Sec. 2.04.260. Conduct of council business—Attendance.

All members shall attend all meetings of the council excepting only when they are unable to do so because of illness, absence from the city or unavoidable press of other business. Members shall be prompt in attendance and those members who are tardy shall not be privileged to review actions taken prior to their attendance. Members shall refrain from absenting themselves from council meetings in order to influence voting, to delay business of the city, to make it impossible for the council to proceed in an orderly manner or otherwise to impose restrictions on the council. Members shall advise either the mayor or the city manager at least twenty-four hours in advance, except in the most unusual cases, of their intention to be absent and shall advise either the mayor or the city manager when they will be available at a later date in order that meetings may be adjourned to specific dates if necessary. Members shall accord each other the same courtesy and consideration in absences that they might request for themselves and shall not ask that any city business be delayed because of their absence from meetings except under the most unusual circumstances.

Member shall not leave the city council bench or the city council meetings except as they shall be excused for cause by the presiding officer. Members shall refrain from coming and going throughout city council meetings and from unnecessary or undue interruption of the meetings by repeated absences from the bench.
(Ord. No. 47-858, § 33, 3-28-08)

Sec. 2.04.270. Conduct of council business—Quorum.

A quorum shall consist of a majority of the members of the council who shall be authorized to transact ordinary and usual city business at any council meeting; provided, however, that four affirmative votes shall be required to approve matters of general policy, to revoke general policy matters previously approved, to remove officers of the council, to discharge or to employ the city manager, to adopt a vote of censure, to adopt ordinances, to adopt resolutions, to overrule previous decisions adopted by a vote of the majority (four) of the council, to overrule recommendations of the city manager, or to overrule recommendations of any advisory board or commission (except in actions in which a greater number is required by this Code or state statute). In those cases where a quorum is present but votes are passed, the majority of votes cast (exclusive of votes passed) shall prevail in those cases where sufficient prevailing votes are cast to qualify actions under the rules of procedure.
(Ord. No. 47-858, § 34, 3-28-08; Ord. No. 52-362, § 3, 4-9-24)

Sec. 2.04.280. Conduct of council business-Voting.

All members of the city council shall discharge the responsibility of their elective office and shall vote on all matters coming before the city council except in those particular cases of conflict of interest approved by the presiding officer in which case a member may request permission and may be authorized to pass his or her vote. Unless a member of the city council votes audibly to the contrary or unless a member of the city council is granted permission by the presiding officer to pass his or her vote on a particular matter, his or her silence in voting shall be recorded as an affirmative vote. Any member of the city council shall be entitled to ask for a roll call vote, in which case the presiding officer shall direct the clerk to poll the individual members in alphabetical order with the presiding officer being polled last. Written votes as required by rules of procedure shall not be waived in favor of voice votes except by unanimous consent of all city council members present at the particular meeting such waiver is desired. Members shall be permitted to qualify or to explain their votes and to ask that such explanation be recorded in the minutes by the clerk as a matter for the

record. Members absent from city council meetings at the time votes are cast shall not be privileged to cast their vote at a later time although such members shall be privileged to request the clerk to record them later in the meeting as being for or against the question providing such request is made during the course of the same meeting with the knowledge of all the council members present and with the approval of the presiding officer. Votes cast shall not be changed after a question has been decided and after intervening matters have been placed before the city council. Reconsideration of a matter in accordance with the rules of the city council shall entitle a completely new vote if such recommendation prevails and such new vote shall not be considered a changed vote.
(Ord. No. 47-858, § 35, 3-28-08)

Sec. 2.04.290. Conduct of council business—Decorum.

(a) *COUNCIL MEMBERS.* During city council meetings, council members shall preserve order and decorum and shall neither by conversation or otherwise delay or interrupt the proceedings or the peace of the city council nor refuse to obey the orders of the presiding officer or the rules of the city council. Every council member desiring to speak shall address the chair and upon recognition by the presiding officer shall confine himself or herself to the question under debate and shall avoid all personalities and indecorous language. Every council member desiring to question the administrative staff shall address the question to the city manager who shall be entitled either to answer the enquiries or to designate some member of his or her staff for that purpose. A council member, once recognized shall not be interrupted while speaking unless called to order by the presiding officer, unless a point of order is raised by another member or unless the speaker chooses to yield to questions from another member. If a council member is called to order while the member is speaking, the member shall cease speaking immediately until the question of order is determined. If ruled to be in order, the member shall be permitted to proceed. If ruled to be not in order, the member shall remain silent or shall alter his or her remarks so as to comply with rules of the city council. All members of the city council shall accord the utmost courtesy to each other, to city employees and to public members appearing before the city council and shall refrain at all times from rude and derogatory remarks, reflections as to integrity, abusive comments and statements as to motives and personalities. Council members shall confine their questions as to the particular matters before the city council and in debate shall confine their remarks to the issues before the city council. Council members shall be removed from the meeting for failure to comply with decisions of the presiding officer or for continued violations of the rules of the city council. If the presiding officer fails to act, any member may move to require the presiding officer to enforce the rules and the affirmative vote of a majority (four) of the members present shall require the presiding officer to act.

Except by consent of the majority of the members, no member shall speak longer than five minutes at any one time and not more than once on the same motion until all other members have had an opportunity to speak to the motion.

(b) *ADMINISTRATIVE STAFF MEMBERS AND EMPLOYEES.* Members of the administrative staff and employees of the city shall observe the same rules of procedure and decorum applicable to members of the council. While the presiding officer shall have the authority to preserve decorum in council meetings insofar as staff members and city employees are concerned, the city manager also shall be responsible to the council for the orderly conduct and decorum of all city employees under his or her direction and control. The city manager shall take such disciplinary action as may be necessary to insure that such decorum is preserved at all times by city employees in council meetings. Any person desiring to address the council shall be recognized by the chair, shall state his or her name for the record and shall limit his or her remarks to the matter under discussion. All remarks and questions addressed to the council shall be addressed to the council as a whole and not to any individual member thereof. No staff member, other than staff member having the floor, shall enter into any discussion either directly or indirectly without permission of the presiding officer.

(c) *MEMBERS OF PUBLIC.* Members of the public attending council meetings also shall observe the same rules of propriety, decorum and good conduct applicable to members of the council. Any person making personal, impertinent or slanderous remarks or who becomes boisterous while addressing the council or while attending the council meeting, shall be removed from the room if the sergeant-at-arms is directed by the presiding officer, and such person shall be barred from further audience before the council or further attendance in council meetings. Unauthorized remarks from the audience, clapping, stamping of feet, whistles, yells and similar demonstrations shall not be permitted by the presiding officer who shall call for order and if the call for order is not obeyed, direct the sergeant-at-arms to remove such offenders from the room. Aggravated cases shall be prosecuted on an appropriate complaint signed by the presiding officer. In case the presiding officer shall fail to act, any member of the council may move to require him or her to act, to enforce the rules and an affirmative vote of the majority (four) of the members shall require the presiding officer to act. Any member of the public desiring to address the council shall be recognized by the chair, shall advance to the microphone, shall state his or her name and address in an audible tone for the record and shall limit his or her remarks to the question under discussion. All remarks and questions addressed to the council shall be addressed to the council as a whole and not to any individual member thereof. All remarks and questions addressed to the administration of the city shall be addressed to the city manager and not to any individual city employee. No person other than the members of the council and the person having the floor shall enter into any discussion either directly or through a member of the council without the permission of the presiding officer.

The presiding officer may grant permission to nonmembers to address the council for not more than five minutes, provided there is no objection of any member of the council. If there is an objection, permission may be granted by a majority vote of the members present. By the same procedure, the limit of five minutes may be extended.

Members of the public wishing to speak for longer periods of time than five minutes are urged to contact the city manager prior to the meeting. Topics, which are unusually detailed or complicated, thus requiring a longer time for presentation, may be presented in writing to the city manager prior to the meeting to allow for printing and distribution to the council.
(Ord. No. 47-858, § 36, 3-28-08)

Sec. 2.04.300. Conduct of council business—Point of personal privilege.

Any member of the council shall have the right to raise a point of personal privilege during any council meeting. Except under the most unusual circumstances, such requests shall not be disapproved by the presiding officer or by a majority (four) of the council members.
(Ord. No. 47-858, § 37, 3-28-08)

Sec. 2.04.310. Conduct of council business—Point of order.

Any member of the council may raise a point of order at any time, both with respect to the conduct of the meeting, the procedure that is being followed, or any remarks that are being made. Points of order that are raised with respect to rules of procedure may be referred to the city attorney for a ruling, which shall be accepted as final by the presiding officer. Points of order raised with respect to indecorous or improper remarks made by any member of the council, by a member of the administrative staff of the city or by any member of the public shall be ruled upon immediately by the presiding officer. If such remarks are determined to be out of order, the presiding officer shall instruct the person speaking to cease such remarks and shall instruct the city clerk to delete such remarks from the record and to indicate for the record that such remarks have been deleted as having been ruled out of order. In the event a question is raised by a council member as to the propriety of the remarks themselves, the member raising the question shall be privileged to ask that the remarks either be repeated or be read from the record, in which case then the presiding officer shall make the appropriate ruling. Such remarks having been ruled upon and declared as out of order, all further

remarks of a similar type shall cease immediately. In the event such remarks do not cease, the presiding officer shall be obliged to terminate any further remarks and, in cases where such action is warranted, shall instruct the sergeant-at-arms to remove the offender from the meeting room.
(Ord. No. 47-858, § 38, 3-28-08)

Sec. 2.04.320. Conduct of council business—Reprimand.

In the event of indecorous behavior or improper conduct during council meetings or in the events remarks do not cease when ruled out of order by the chair, the presiding officer shall be obliged to issue a formal reprimand and to instruct the city clerk to include such reprimand as part of the official minutes of the meeting. In the event the presiding officer fails to issue a reprimand when such action is appropriate, any member of the council may move such a reprimand, which if approved by a majority (four) of the council, the presiding officer shall direct the city clerk to record the reprimand as a matter for record in the official minutes of the meeting.
(Ord. No. 47-858, § 39, 3-28-08)

Sec. 2.04.330. Conduct of council business—Censure

Action lacking propriety and good taste in manners and conduct, improper language and repeated and continued violations of the rulings of the chair shall make any member of the commission, any member of the city staff or any member of the public liable to a vote of censure for such improper action.
(Ord. No. 47-858, § 40, 3-28-08)

Sec. 2.04.340. Conduct of council business—Motions.

Generally speaking, action of the council shall be indicated by a vote of the council members present at each meeting after motions have been made and seconded by individual council members. Because of the small number of members (seven) of the council, the usual procedures established by Roberts' Rules of Order and customary parliamentary procedure are not always applicable, such rules and procedures having been developed essentially for larger groups. Therefore, simplified rules of procedure shall be established insofar as parliamentary procedure is concerned and motions by the individual council members shall be restricted to the following:

(a) *TO DISPOSE OF A MATTER WITHOUT ACTION.* In order to dispose of a matter without action by the council either affirmatively or negatively, and after such matter has been properly presented to the council from the appropriate agenda, the following motions shall be in order:

(1) "To receive and file" (not debatable).

(2) "To defer" (debatable). The motion to defer should state the length of time of the deferral, as recommended by Council members and/or staff, which time should be no longer than necessary.

(3) "To refer" (not debatable). Such action shall be appropriate in connection with investigation and report.

(4) "To postpone indefinitely" (debatable). This motion may be used to remove an item from the agenda without prejudice to said item so that it may be returned to the agenda at any later date in accordance with established procedure.

(b) *TO DISPOSE OF A MATTER WITH AFFIRMATIVE OR NEGATIVE ACTION.* In order to dispose of a matter with affirmative or negative action by the council after such matter has been presented properly from the appropriate agenda and after appropriate comment and recommendation from the city manager and public members present, the following motions shall be in order and shall be debatable:

(1) "To approve" (debatable). A specific recommendation or proposal.

(2) "To disapprove" (debatable). A specific recommendation or proposal.

(3) "To request" (debatable). A specific action.

(4) "To direct" (debatable). A specific action.

(c) *TO AMEND A MOTION.* In order to amend motions previously made, the motion "to amend" shall be in order. An amendment may clarify, modify, or be inconsistent with the original mo-

tion or may directly conflict with the spirit of the original motion, but it must have direct bearing upon the subject of that motion. A motion shall be amended before a vote has been taken. Motions to amend shall be debatable providing the original motion was a debatable motion.

(d) *TO SUBSTITUTE A MOTION.* In order to substitute a motion for a motion which has already been made and seconded, a motion "to substitute" shall be in order providing that the substitute motion shall be made immediately after the original motion has been made and seconded and before a vote has been taken. Substitute motions shall be made only once and shall be debatable providing the original motion was a debatable motion. Substitute motions shall not be used for purposes of confusing the issue.

(e) *TO RECONSIDER A MOTION.* In order that a motion previously passed may be placed before the council for reconsideration, a motion to "reconsider" shall be in order providing such motion to reconsider is made by a member of the side prevailing on the vote of the original motion, providing that any member may second a motion to reconsider, providing that such motion to reconsider shall be made during the same meeting that the original motion was passed and providing further that motions to reconsider shall be made only once on any particular subject in each meeting. Motions to reconsider shall be not debatable.

(f) *TO SUSPEND A RULE.* In order to suspend temporarily any particular rule for a particular purpose not contrary to statute or city ordinance, a motion "to suspend" a rule shall be in order and such a motion shall be not debatable. Suspension of a rule shall take effect for the particular rule in question only for the particular time in a particular meeting in question and shall not be considered as a permanent suspension of a rule. A motion to suspend a rule requires a majority vote of the members (four), providing that the rules with respect to written ballot shall not be suspended except by unanimous consent of the council.

(g) *TO REPRIMAND.* In order to reprimand any member of the administrative staff, any member of the public or member of the council, a motion "to reprimand" shall be in order providing such motion shall be made for a specific violation or for repeated violation of council rules and providing such motion shall be made after the particular matter under discussion and debate by the council has been brought to vote and conclusion. Motions to reprimand require the approval of a majority of the council members (four) and shall be not debatable.

(h) *TO CENSURE.* In order to accomplish a vote of censure, a motion "to censure" shall be in order providing such motion shall be made for a specific violation or for repeated violation of council rules and providing such motion shall be made after the particular matter under discussion and debate by the council shall have been brought to vote and conclusion. Motions to censure require the approval of a majority of the council and shall be not debatable.

(i) *TO AMEND A RULE.* In order to amend a rule of the council that is not codified in this chapter, a motion "to amend a rule" shall be in order providing proper notice of such intention to amend shall have been placed on the agenda at some previous meeting providing one week's notice. A motion to amend a rule shall require a majority vote of council and shall be not debatable.

(j) *TO ADJOURN A MEETING.* In order to adjourn a council meeting, a motion "to adjourn" shall be in order providing such motion is made at the ordinary or usual conclusion of business on the agenda and providing that motions to adjourn shall not be used to embarrass, to harass, to foreclose discussion and debate or for any other purpose other than the orderly termination of council proceedings at such times as may be appropriate in each particular meeting. Motions to adjourn shall require the vote of a majority of the council members and shall be not debatable and shall take precedence over any other motions at the end of council meetings and any other actions except points of order or privilege.
(Ord. No. 47-858, § 41, 3-28-08)

Sec. 2.04.350. Conduct of council business—Individual actions.

In addition to motions which may be made and seconded by members of the council, there shall

be certain actions which individual members shall be privileged to take at appropriate times without the necessity of such actions being placed in the form of motions. All such actions are subject to decision of the presiding officer or appeal, providing the appeal is made immediately after and in connection with the ruling of the chair. The following individual actions or requests shall be authorized:

(a) TO RAISE A POINT OF ORDER shall be made at any time by any member who alleges the rules of procedure are being violated. (See Section 2.04.310.)

(b) TO RAISE A POINT OF PERSONAL PRIVILEGE shall be made by any member desiring to request such personal privileges as may be authorized by the rules of procedure, providing that such request shall be made at the conclusion of any individual items of business on the agenda. (See Section 2.04.300.)

(c) TO REQUEST ADDITIONAL INFORMATION shall be made at any appropriate time during a council meeting.

(d) TO ENQUIRE shall be made at any appropriate time during a council meeting.

(e) TO COMMENT shall be made at any appropriate time during a council meeting.

(f) TO APPEAL shall be made immediately following and in connection with a ruling of the presiding officer. (See Section 2.04.250.)

(g) TO RECESS shall be made at any reasonable time and for any reasonable purposes during meetings, providing such requests shall not be made during debate or discussion or immediately prior to a vote or for purpose of influencing a vote or for harassing other members or individuals appearing before the council.

(h) TO BE EXCUSED FROM THE MEETING shall be made at reasonable times for good and sufficient reasons, providing that such requests shall not be made immediately prior to vote on any matters under debate or discussion or for the purpose of delaying action on any matters under consideration or for the purpose of reducing the number of members present in order to influence a vote or for the purpose of preventing a quorum being present to conduct business.

(i) TO PASS A VOTE shall be made in connection with any vote in which a member of the council may have a conflict of interest and shall not be used for the purpose of evading a vote or delaying or obstructing business.

(j) TO REQUEST A PARLIAMENTARY RULING shall be made at any time a member alleges the rules of procedure are being violated or at any time a member requests clarification either of rulings that have been made by the presiding officer or rulings that may be applicable under certain circumstances. (i) The Issuer shall provide the Annual Financial Information on or before December 31 of each year (the "Report Date"), beginning in December 1996, to each then existing NRMSIR and the SID, if any. (iii) If a Material Event occurs, the Issuer shall provide a Material Event Notice in a timely manner to the MSRB and the SID, if any. Each "Material Event Notice" shall be so captioned, and shall prominently state the date, title and CUSIP numbers of the Bonds to which the Material Event(s) covered by the Material Event Notice pertain(s).

(iv) The Issuer shall provide, in a timely manner, to the MSRB and to the SID, if any, notice of any failure by the Issuer to provide Annual Financial Information on or before the Report Date to each then existing NRMSIR and the SID (if any) as required by the terms of this Section 2.05.010(b).

This Section 2.05.010(b) may be amended without the consent of the holders or beneficial owners of any Bond(s), following the delivery by the Issuer to each then existing NRMSIR and the SID, if any, of the proposed amendment and the opinion of nationally recognized bond counsel to the effect that such amendment, and giving effect thereto, will not adversely affect the adequacy of this Section 2.05.010(b) or the adequacy of the Issuer's subsequent conduct for purposes of compliance with the Rule, provided, however, that no such amendment will be made unless the following conditions are satisfied:

(i) The amendment may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the Issuer, or type of business conducted;

(ii) The undertaking, as amended, would have complied with the requirements of the Rule at the time of any primary offering to which the undertaking applies, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances;

A notice of the change in accounting principles will be sent to the NRMSIRs or the MSRB, and the appropriate SID, if any.

(6) Any failure by the Issuer to perform in accordance with this Section 2.05.010(b) shall not constitute an "Event of Default" or "Default" within the meaning of any Ordinance(s) authorizing the issuance of any of the Bonds, and the rights and remedies provided to holders or beneficial owners of the Bonds under such Ordinance(s) upon the occurrence of such a "Default" or such an "Event of Default" shall not apply to any such failure.

(7) If any of the foregoing provisions or terms of this Section 2.05.010(b), or any application thereof, is held invalid, the invalidity shall not affect other applications of the provisions or terms of this Section 2.05.010(b) which reasonably can be given effect without the invalid provision or term or the application thereof, and to this end, the provisions of this Section 2.05.010(b) are declared to be severab1e:

(8) None of the provisions of this Section 2.05.010(b) are in any way intended to impose upon, or result in an assumption by, the City of Wichita or any of its officers, agents or employees, of any special duty or any civil law duty of care as to which any breach or alleged breach thereof could give rise to any claim for damages in tort, and the City hereby expressly disclaims any such duty or responsibility for damages, including (but not limited to) any direct, indirect, special or consequential damages. The provisions of this Section 2.05.010(b) shall not, in any way, create liability or a basis for liability on the part of the City of Wichita, Kansas or any officer or employee thereof for any damages that result from failure of the Issuer to timely perform any portion, provision, term or condition of the written undertaking on its part established herein, or for any damages that result from reliance upon any provision of this Section 2.05.010(b) or any administrative decision lawfully made thereunder. However, nothing in this subsection shall operate or be construed to limit the rights of any holder or beneficial owner of any Bond to seek enforcement of the undertakings herein expressed through proceedings for a decree of specific performance in equity.

This Section 2.05.020(b) may he amended without the consent of the holders or beneficial owners of any Note(s), following the delivery by the Issuer to each then existing NRMSIR and the SID, if any, of the proposed amendment and the opinion of nationally recognized bond counsel to the effect that such amendment, and giving effect thereto, will not adversely affect the adequacy of this Section 2.05.020(b) or the adequacy of the Issuer's subsequent conduct for purposes of compliance with the Rule, provided, however, that no such amendment will be made unless the following conditions are satisfied:

(i) The amendment may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the Issuer, or type of business conducted;

(ii) The undertaking, as amended, would have complied with the requirements of the Rule at the time of any primary offering to which the undertaking applies, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances;

(6) Any failure by the Issuer to perform in accordance with this Section 2.05.020(b) shall not constitute an "Event of Default" or "Default" within the meaning of any Ordinance(s) authorizing the issuance of

any of the Notes, and the rights and remedies provided to holders or beneficial owners of the Notes under such Ordinance(s) upon the occurrence of such a "Default" or such an "Event of Default" shall not apply to any such failure.

(7) If any of the foregoing provisions or terms of this Section 2.05.020(b), or any application thereof, is held invalid, the invalidity shall not affect other applications of the provisions or terms of this Section 2.05.020(b) which reasonably can be given effect without the invalid provision or term or the application thereof, and to this end, the provisions of this Section 2.05.020(b) are declared to be severable.

The provisions of this Section 2.05.020(b) shall not, in any way, create liability or a basis for liability on the part of the City of Wichita, Kansas or any officer or employee thereof for any damages that result from failure of the Issuer to timely perform any portion, provision, term or condition of the written undertaking on its part established herein, or for any damages that result from reliance upon any provision of this Section 2.05.020(b) or any administrative decision lawfully made thereunder. However, nothing in this subsection shall operate or be construed to limit the rights of any holder or beneficial owner of any Note to seek enforcement of the undertakings herein expressed through proceedings for a decree of specific performance in equity.

(iii) Material Event Notices.

(3) So long as the Rule continues to require an undertaking to make ongoing disclosure as established herein, or performance of prior such undertakings, then, with respect to all of the Notes issued subject to such requirements which remain Outstanding:

(i) The City shall provide the Annual Financial Information in Prescribed Form in accordance with EMMA to the MSRB, on or before the Report Date. The City may adjust the Report Date if the City changes its fiscal year by providing written notice of the change of fiscal year and the new Report Date to the MSRB; provided that the new Report Date shall not exceed one year from the end of the new fiscal year and provided further that the period between the final Report Date relating to the former fiscal year and the initial Report Date relating to the new fiscal year shall not exceed one year in duration. It shall be sufficient if the City provides to the MSRB the Annual Financial Information by specific reference to documents available to the public on the MSRB's Internet Web site, or filed with the SEC.

(ii) If not provided as part of the Annual Financial Information, the City shall provide the Audited Financial State-

ments when and if available to the MSRB in Prescribed Form in accordance with EMMA.

(iii) If a Material Event occurs, the City shall file a Material Event Notice in a timely manner not in excess of ten business days after the occurrence of the event in Prescribed Form in accordance with EMMA with the MSRB. Each "Material Event Notice" shall be so captioned, and shall prominently state the date, title and CUSIP numbers of the Notes to which the Material Event(s) covered by the Material Event Notice pertain(s).

(iv) The City shall provide in Prescribed Form in accordance with EMMA in a timely manner to the MSRB notice of any failure by the City to provide Annual Financial Information on or before the Report Date to the MSRB as required by the terms of this Section 2.05.020(e).

(4) The information listed in Subsection (e)(2) shall be provided by the City to the MSRB, at www.emma.msrb.org, in the Prescribed Form or to such other location and by such other method of transmitting information that is approved by the SEC.

(5) This Section 2.05.020(e) or any provision hereof, shall be subject to nullification and repeal in the event that the City first delivers to the MSRB, an opinion of nationally recognized bond counsel to the effect that those portions of the Rule that require this Section 2.05.020(e) as a condition for particular underwriter conduct, or any such provision, are invalid, have been repealed retroactively or otherwise do not apply to the Notes. This Section 2.05.020(e) may be amended without the consent of the holders or beneficial owners of any Note(s), following the delivery by the City to the MSRB, of the proposed amendment and the opinion of nationally recognized bond counsel to the effect that such amendment, and giving effect thereto, will not adversely affect the adequacy of this Section 2.05.020(e) or the adequacy of the City's subsequent conduct for purposes of compliance with the Rule, provided, however, that no such amendment will be made unless the following conditions are satisfied:

(i) The amendment may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the City, or type of business conducted;

(ii) The undertaking, as amended, would have complied with the requirements of the Rule at the time of any primary offering to which the undertaking applies, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances;

(iii) The amendment does not materially impair the interests of holders, as determined either by parties unaffiliated with the City (such as the trustee or bond counsel) or by approving vote of holders of the Notes pursuant to the terms of the governing instrument(s) at the time of the amendment;

(iv) If the amendment changes the type of operating data or financial information provided pursuant to the City's undertaking, the Annual Financial Information containing the amended operating data or financial information will explain, in narrative form, the reasons for the amendment and the impact of the change in the type of operating data or financial information being provided; and

(v) If the amendment alters portions of the City's undertaking specifying the accounting principles to be followed in preparing financial state-

ments, the Annual Financial Information for the year in which the change is made will present a comparison between the financial statements or information prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles, which comparison should include a qualitative (and to the extent reasonably feasible, quantitative) discussion of the differences in the accounting principles and the impact of the change in principles on the presentation of the financial information. A notice of the change in accounting principles will be sent to the MSRB.

(6) Any failure by the City to perform in accordance with this Section 2.05.020(e) shall not constitute an "Event of Default" or "Default" within the meaning of any ordinance(s) or resolution(s) authorizing the issuance of any of the Notes, and the rights and remedies provided to holders or beneficial owners of the Notes under such ordinance(s) or resolution(s) upon the occurrence of such a "Default" or such an "Event of Default" shall not apply to any such failure.

(7) If any of the foregoing provisions or terms of this Section 2.05.020(e), or any application thereof, is held invalid, the invalidity shall not affect other applications of the provisions or terms of this Section 2.05.020(e) which reasonably can be given effect without the invalid provision or term or the application thereof, and to this end, the provisions of this Section 2.05.020(e) are declared to be severable.

(8) None of the provisions of this Section 2.05.020(e) are in any way intended to impose upon, or result in an assumption by, the City or any of its officers, agents or employees, of any special duty or any civil law duty of care as to which any breach or alleged breach thereof could give rise to any claim for damages in tort, and the City hereby expressly disclaims any such duty or responsibility for damages, including (but not limited to) any direct, indirect, special or consequential damages. The provisions of this Section 2.05.020(e) shall not, in any way, create liability or a basis for liability on the part of the City or any officer or employee thereof for any damages that result from failure of the City to timely perform any portion, provision, term or condition of the written undertaking on its part established herein, or for any damages that result from reliance upon any provision of this Section 2.05.020(e) or any administrative decision lawfully made thereunder. However, nothing in this subsection shall operate or be construed to limit the rights of any holder or beneficial owner of any Note to seek enforcement of the undertakings herein expressed through proceedings for a decree of specific performance in equity.

(9) This Section 2.05.020(e) shall inure solely to the benefit of the holders of the Notes as required by Section (b)(5)(i) of the Rule, and shall create no rights in any other person or entity.

(10) The City shall maintain records of all disclosure made pursuant to this Section 2.05.020(e), including the content of such disclosure, the names of the entities with whom such disclosure was filed and the date of filing such disclosure.

(11) The City may, from time to time, appoint or engage an agent to assist it in carrying out its obligations under this Section 2.05.020(e) and may discharge any such agent with or without appointing a successor agent.

(12) Nothing in this Section 2.05.020(e) shall be deemed to prevent the City from disseminating any other information, using the means of dissemination set forth in this subsection or any other means of communication, or including any other information in any Annual Financial Information or notice of occur-

rence of a Material Event in addition to that which is required by this Section 2.05.020(e). If the City chooses to include any information from any document or notice of occurrence of a Material Event in addition to that which is specifically required by this Section 2.05.020(e), the City shall not have any obligation under this Section 2.05.020(e) to update such information or include it in any future disclosure or notice of the occurrence of a Material Event.

Editor's note—Ord. No. 50-933, § 1, adopted Mar. 5, 2019, changed the title of § 2.05.020 from undertaking to provide ongoing disclosure in connection with City of Wichita general temporary notes issued for distribution through public offering to undertaking to provide ongoing disclosure in connection with City of Wichita general obligation temporary notes issued for distribution through public offering.

CHAPTER 2.06. NONDISCRIMINATION

Sec. 2.06.010. Policy prohibiting discrimination.
Sec. 2.06.020. Nondiscrimination in contracting.
Sec. 2.06.030. Definitions.
Sec. 2.06.040. Civil rights declared.
Sec. 2.06.050. Unlawful discriminatory practices.
Sec. 2.06.060. Interpretation.
Sec. 2.06.070. Enforcement.
Sec. 2.06.080. Severability.

Sec. 2.06.010. Policy prohibiting discrimination.

The practice or policy of discrimination against persons by reason of their actual or perceived age, color, disability, familial status, gender identity, genetic information, national origin or ancestry, race, religion, sex, sexual orientation, veteran status or any other factor protected by law ("protected class") is a matter of concern to the City, since such discrimination not only threatens the rights and privileges of the inhabitants of the City but also menaces the institutions and foundations of a free democratic state. It is hereby declared the policy of the City, in exercise of its police power for the protection of the public safety, health and general welfare, for the maintenance of business and good government, and for the promotion of the City's trade and commerce, to eliminate and prevent discrimination or segregation based on a protected class. It is further declared to be the policy of the City to assure equal opportunity and encouragement for every person, regardless of their membership in a protected class, to secure and hold, without discrimination, employment in any field of work or labor for which the person is otherwise properly qualified; to assure equal opportunity for all persons within this City to full and equal public accommodations and the full and equal use and enjoyment of the services, facilities, privileges and advantages of all governmental departments or agencies, and to assure equal opportunity for all persons within this City in housing, without distinction on account of membership in a protected class.
(Ord. No. 51-654, § 1, 10-12-21; Ord. No. 52-279, § 1, 10-24-23)

Sec. 2.06.020. Nondiscrimination in contracting.

(a) It is the policy of the City to promote the principles of equal opportunity in its contracting activities by assuring that those seeking to do business with the City will treat contractors, subcontractors, and employees equally and will not engage in discrimination against their contractors, subcontractors, or employees because of their age, color, disability, familial status, gender identity, genetic information, national origin or ancestry, race, religion, sex, sexual orientation, veteran status or any other factor protected by law ("protected class").

(b) It is also the policy of the City to ensure that work performed on behalf of the City is done in a cost effective and high-quality manner. Employees who are treated fairly are more productive in their jobs and less likely to change jobs, thus helping to ensure that government contracts are both cost effective and completed in a professional manner.

(c) All City contracts for goods or services shall include provisions prohibiting discrimination in employment and in the performance of contracts on the basis of age, color, disability, familial status, gender identity, genetic information, national origin or ancestry, race, religion, sex, sexual orientation, veteran status or any other factor protected by law ("protected class"). This prohibition shall extend to retaliation for opposition to any practices forbidden under this Section, against any person seeking accommodations, advantages, facilities, privileges, services, or membership in all business, social, or other establishments or organizations operated by that contractor. All contractors shall include a similar provision in all subcontracts.

In order to protect specific individuals within the City from discrimination on the basis of an individual's protected classification, it shall be a duty of each individual or entity doing business within the City to not commit the following Unlawful Discriminatory Practices:

(a) Employment - It shall be an Unlawful Discriminatory Practice for an Employer to refuse to hire or employ, or to discharge from employment or to otherwise discriminate against an otherwise qualified individual in compensation or in terms, conditions, or privileges of employment, because of an individual's protected classification. This chapter shall not apply to a Religious Organization with respect to the employment of individuals performing work connected with the carrying on of the organization's religious teaching, ministry, religious duties or practices, advancement of religion, or other religious activities.

(b) Housing - It shall be an Unlawful Discriminatory Practice for an individual

For purposes of this subsection, "protected class" includes not only the protected classes listed in Section [2.06.010] of this [chapter], but also citizenship.

This provision shall not apply to the Rent of real property containing dwelling units occupied or intended to be occupied by no more than four persons or families living independently of each other if the owner actually maintains and occupies one of such dwelling units as the owner's residence. Additionally, nothing in this Chapter shall prohibit:

(1) A Religious Organization or any nonprofit institution or organization operated, supervised or controlled by or in conjunction with a Religious Organization, from limiting the sale, rental or occupancy of real property or Rental Housing which it owns or operates for other than a commercial purpose to individuals of the same religion or individuals who promote the religious principles for which it is established or maintained, or from giving preference to such individuals.

(2) A Nonprofit Fraternal or Social Association/Corporation, which as an incident to its primary purpose or purposes provides real property or Rental Housing which it owns or operates for other than a commercial purpose, from limiting the rental or occupancy of such real property or Rental Housing to individuals who are members or individuals who promote the principles for which it is established or maintained, or from giving preference to such individuals.

Sec. 2.06.060. Interpretation.

Nothing in this Chapter shall be construed to:

(a) Prohibit an Employer from requiring an Employee, during the Employee's hours at work, to adhere to reasonable dress or grooming standards not prohibited by other provisions of federal, state, or local law.

(b) Require an Employer to hire unqualified individuals or to retain Employees when there is a legitimate non-discriminatory or non-retaliatory reason to hire another candidate or terminate employment, or prevent any adverse action against an

Employee that would have been taken regardless of the Employee's membership in a protected class.

(c) Prohibit an Employer from requiring all of its Employees, as a condition of employment, to utilize the Employer's applicable established internal human resource procedure(s) to address any allegation of discrimination or retaliation in the workplace. The fact that an Employer requires an Employee to utilize the Employer's applicable established internal human resource procedure(s) to address any allegation of discrimination or retaliation in the workplace shall not, in itself, be deemed a violation of this Chapter. However, an Employee may simultaneously file a complaint with the City as provided in this Chapter, and completion of the Employer's procedures is not a prerequisite to filing a complaint with the City.

(d) Require any person or entity subject to this Chapter to make changes requiring a building permit to any existing facility, except as otherwise required by law.

(e) Prohibit an Employer or Place of Public Accommodation from posting signs for restrooms and dressing rooms based on gender.

(f) Prohibit a Nonprofit Fraternal or Social Association/Corporation or Religious Organization from limiting membership as is calculated by the association/corporation or organization to promote the principles for which it is established or maintained.

(g) Be construed or applied in a manner that violates any law or unlawfully infringes upon any rights under the First Amendment of the United States Constitution, Section 7 of the Kansas Constitution Bill of Rights, the Adoption Protection Act (K.S.A. 60-5322, and amendments thereto), or the Kansas Preservation of Religious Freedom Act (K.S.A. 60-5301 et seq., and amendments thereto).

(h) Make it lawful to retaliate against individuals for exercising their rights to oppose unlawful discrimination.

(Ord. No. 51-654, § 6, 10-12-21)

Sec. 2.06.070. Enforcement.

(a) An Aggrieved Individual may file a written complaint with the City Clerk that the individual has been, or is being, subjected to an alleged Unlawful Discriminatory Practice(s) as prohibited by this Chapter. The complaint may be filed personally or through an attorney (or if a minor, through the minor's parent, legal guardian or attorney) and shall be completed on a form provided by the City. The complaint form shall state the names and contact information of the Aggrieved Individual, the individual(s) and/or entity/entities alleged to have committed the Unlawful Discriminatory Practice(s), a description of the alleged unlawful conduct, and all other information as may be required by the form provided by the City. The complaint form shall only be considered complete if all information required by the City's form has been provided to the extent such information is reasonably available to the Aggrieved Individual.

(b) The complaint form must be filed within one-hundred eighty (180) Days of the alleged Unlawful Discriminatory Practice, unless the act complained of constitutes a continuing pattern or practice of discrimination, in which event, it must be filed within one-hundred eighty (180) Days of the last act of discrimination.

(c) The complaint may be referred to a mediator selected by the City Manager from a list of mediators approved in advance by the City Council. Mediation costs will be paid by the City.

(d) If mediation is not successfully completed within sixty (60) Days of the referral, or a party chooses not to pursue mediation, the complaint shall be referred to the Investigator.

(e) Upon receipt of a completed complaint, the Investigator shall notify the Respondent(s) of the complaint, providing sufficient details related to the complaint so the Respondent(s) may respond. The Investigator shall give the Respondent(s) thirty (30) Days to file a written

answer to the complaint, and to provide any documentation or evidence related to the complaint. The Investigator may, at the request of Respondent(s), extend the answer period an additional thirty (30) Days. If the Respondent accused of violating the provisions of this Chapter is the City, the City will engage an independent Investigator who shall not otherwise be an Employee, agent, or contractor of the City. If the Respondent is the City, nothing in this Chapter shall affect the employee grievance processes in contract or policy.

(f) Following the conclusion of the answer period, the Investigator may initiate an investigation period, requesting that the Aggrieved Individual and/or Respondent(s) provide additional information, documentation, statements or testimony as needed to facilitate the investigation of the complaint. This investigation period shall be concluded within a reasonable period of time following the submission of additional information, documentation, or testimony.

(g) Upon conclusion of the investigation period, the Investigator shall forward all evidence and other information received during the investigation to the Law Department. The Law Department will make a determination whether probable cause exists that: (i) the Respondent(s) committed an Unlawful Discriminatory Practice, and (ii) imposition of a penalty pursuant to this Chapter:

(1) Would not constitute an unlawful burden of a person's right to exercise of religion pursuant to Section 7 of the Kansas Constitution Bill of Rights or the Kansas Preservation of Religious Freedom Act (K.S.A. 60-5301 et seq., and amendments thereto), or an unlawful burden of a person's freedom of speech, expression, or association (as protected by the First Amendment of the United States Constitution or the Kansas Constitution); or

(2) If imposition of a penalty would constitute a burden, application of such burden to the person would be in furtherance of a compelling governmental interest and such application would be the least restrictive means of furthering that compelling governmental interest.

(h) If the Law Department finds that probable cause does not exist, then the Law Department shall notify the Aggrieved Individual and the Respondent(s) within a reasonable period of time, and this notification shall be considered a final order and no further action shall be taken by the City.

(i) If the Law Department finds probable cause does exist, the Law Department shall notify the Aggrieved Individual and Respondent(s) and request conciliation and settlement. If a party refuses to participate in conciliation and settlement, or if a settlement agreement is not executed within sixty (60) Days of the date of the finding of probable cause (unless such time is extended by the Law Department for good cause and with the agreement of all parties), the matter shall be referred to the Hearing Officer for review, who shall sit as an Administrative Judge for purposes of this Chapter.

(j) Upon referral to the Hearing Officer, the Hearing Officer shall schedule a hearing on the complaint. The parties shall be given ten (10) Days' written notice via certified mail of the date, time, and place of the hearing. At such hearing, the parties and the Law Department shall be entitled to call witnesses and to present such other evidence as appropriate. The hearing shall be conducted in accordance with such procedures as may be established by the Hearing Officer, but the rules of evidence used in courts of law need not be strictly enforced.

(k) Any determination of the Hearing Officer that the Respondent(s) committed an Unlawful Discriminatory Practice shall be issued in writing within sixty (60) Days of the hearing, shall be based upon the preponderance of the evidence, and shall set forth the essential elements and facts of the determination. If the Hearing Officer finds that a civil violation of this Chapter has occurred, the Hearing Officer may impose a civil penalty upon the Respondent(s) in the amount of up to $2,000 for each violation. The prevailing party is free to pursue their reasonable and necessary costs and fees accrued during the case.

Any fines collected under this section shall be used to offset the costs of enforcement of this Chapter. The Hearing Officer is further authorized, in his or her discretion and in lieu of a civil penalty, to require reasonable educational requirements or community service upon the Respondent to address violations of this Chapter, by written order. Hearings shall be recorded or transcribed by a court reporter, and transcripts of hearings shall be maintained by Municipal Court.

(l) The filing of a complaint for the alleged violation of this Chapter or a response thereto shall in no way preclude any party from seeking other relief under state or federal law. Appeals from any final determination of the Hearing Officer shall be made pursuant to K.S.A. 60-2101(d) and its amendments.
(Ord. No. 51-654, § 7, 10-12-21)

Sec. 2.06.080. Severability.

Should any section, subsection, sentence, clause or phrase of this Chapter, or the application thereof to any person or circumstance, be declared unconstitutional, invalid or unenforceable, such determination shall not affect the validity of the remaining portions of this Chapter.
(Ord. No. 51-654, § 8, 10-12-21)

CHAPTER 2.07. CODE OF ETHICS

Sec. 2.07.010. Purpose.
Sec. 2.07.020. Definitions.
Sec. 2.07.030. Code of ethics.
Sec. 2.07.040. Ethics Board; ethics officer; procedures.
Sec. 2.07.050. Whistleblower protection.
Sec. 2.07.060. Severability.

Sec. 2.07.010. Purpose.

This Chapter hereby establishes the Code of Ethics for City Officials. The purpose of this Code of Ethics is to establish minimum ethical standards of conduct for elected and appointed officials of the City and to provide procedures for investigating alleged violations of the Code of Ethics. It is intended to prevent unethical behavior, avoid the appearance of impropriety, provide meaningful redress, and encourage transparency.

Government service is a public trust, and those who serve the public as part of its government must perform and discharge their duties consistent with the highest moral principles, serving always the best interests of the City and its citizens. Representative government is based on the consent of the governed, under a system whereby every citizen has a right to expect those who govern or serve in the government to act not for themselves but for the governed as a whole. Because government can act only through its officials and employees, it is ever incumbent upon them to honor the public trust and instill confidence in government by their own integrity and conduct in all official actions.

The provisions of this Code of Ethics will be considered in addition to other legal requirements addressing ethical behavior of elected and appointed officials of the City. If this Code of Ethics and another legal requirement apply to the same behavior in question, the two will be interpreted in harmony if possible, but if not, the more specific legal requirement will govern.

Sec. 2.12.010. Policies for boards and commissions—Minimum standards of conduct and qualifications of appointive members of boards and commissions.

The following rules and regulations shall govern the qualifications and conduct of members appointed to the regulatory and advisory boards and commissions of the City, except as provided hereinafter:

(1) All persons appointed to any board or commission shall be residents of the city or shall reside within the territory subject to the jurisdiction of the respective board or commission, except in the case of members of the technical boards hereafter identified. Persons appointed to the board of electrical appeals, the board of code standards and appeals, the board of appeals of air conditioning, refrigeration and warm air heating, the board of appeals of plumbers and gas fitters, or the successors thereof, shall not be subject to residency requirements, provided that non-residents shall not make up more than two members less than a quorum of any such technical board, and provided further, that any non-resident member shall maintain a city-issued certificate or license pertaining to a trade covered by the board on which the non-member serves.

(2) No person regularly employed on a full-time basis by the City shall be appointed to any board or commission except in the case of members of the personnel advisory board and the employee retirement board.

(3) No member of the immediate family of any member of the city council shall be appointed to a City board or commission.

(4) Except as otherwise provided, no person shall be appointed for service as a member of more than one board or commission of the City at the same time; provided, that persons selected to serve on the citizens advisory committee for the workable program for community improvement and members of the Wichita Sustainability Integration Board shall be exempt from the provisions of this subsection.

(5) No person shall be appointed to any board or commission who has served for eight consecutive years on such same board or commission unless two years have elapsed since the last service. Provided, that service prior to July 1, 1987, shall not be counted in determining eligibility for appointment under this provision.

(6) Except when otherwise required by statute, as nearly as practicable, fifty percent of all members of City boards and commissions shall be public members whose business or professions are not related directly to the affairs conducted by the board or commission to which such persons are appointed.

(7) Voting. All City boards and commissions shall discharge the responsibility of their appointive office and shall vote on all matters coming before the board or commission, except in those particular cases of conflict of interest approved by the presiding officer, in which case a member may request permission and may be authorized to pass his vote. Unless a member of the board or commission votes audibly to the contrary, or unless a member of the board or commission is granted permission by the presiding officer to pass his vote on a particular matter, his silence in voting shall be recorded as an affirmative vote.

(8) Conflict of Interest. Each board or commission member of the city shall refrain from violating any of the statutes of the state (K.S.A. 75-4301 et seq.) which regulate conflicts of interest of public officers and employees, where such statutes are applicable to the board or commission members.

(9) Public Participation. It is the policy of the city to allow public participation on items coming before each board and commission in open meeting. Following the presentation of each item on the agenda, the matter shall be opened for discussion from the floor by members of the public. Each public member shall be subject to a limitation of five minutes for each presentation unless extended by a vote of the majority of the board or commission. The presiding officer shall have the discretion to reasonably limit public comment where such presentation is exercised in a dilatory manner, is unduly repetitious or is not pertinent to the agenda item. Such time standards shall not be construed to restrict public discussion or hearings where otherwise controlled by ordinance or state or federal law. Rules of decorum as provided in this Code for members of the public before the City Council shall be observed where appropriate. Any members of the public shall be allowed to submit items for the agenda, except for items pertaining to personnel, litigation, and other matters subject to executive session. Members of the public desiring to so present matters to the board or commission shall submit a request in writing stating the name of the individual(s) desiring to be heard and the matter to be presented, which request shall be submitted in the time and matter provided by such board or commission for placing items on its agenda. Items for the agenda unusually detailed or complicated, thus requiring more than five minutes for

presentation, may be presented in writing prior to the meeting to allow for duplication and distribution to the board or commission.

(Ord. No. 45-794 § 1; Ord. No. 40-038 § 1; Ord. No. 51-626, § 1, 9-14-21)

Such deferral shall be based on eligibility criteria and subject to the conditions set out in Section 2.24.075 of this Code.
(Ord. No. 42-824 § 1)

Sec. 2.24.075. Eligibility criteria for indefinite deferral of payment of special assessments.

(a) The following criteria are established to determine those property owners eligible

for indefinite deferral of payment of special assessments pursuant to the provisions of Section 2.24.070:

(1) Applicant must own the property assessed or be purchasing the property under a valid land sales contract;

(2) Applicant must reside in the property assessed;

(3) Property for which a deferral is sought must be located within the limits of the city and shall be a parcel not exceeding two acres in size and shall be a single building site; provided, however, that if a property owner meets all the criteria of this section except that the property assessed exceeds two acres in size, the property owner shall be eligible for indefinite deferral of that portion of the special assessment against such property equivalent to the ratio two acres bears to the total acreage of the property assessed;

(4) Applicant's family's adjusted gross annual income shall not exceed the U.S. Department of Housing and Urban Development's median income family limits, very low-income level, based on the actual median income for the city. These guidelines are subject to change on an annual basis and shall be applied hereunder based on the then existing guidelines. Further, the annual principal and interest on the assessments must be in excess of one percent (1.0%) of the owners' adjusted gross annual income as reported for federal income tax purposes.

An applicant or family member of an applicant who is a disabled person and/or over the age of sixty-five years and who is a head of household shall be counted as three persons in determining household size. An applicant or family member of an applicant who is not a head of household but who is disabled and/or over the age of sixty-five years shall be counted as two persons in determining family size.

(5) The appraised value of the property for which the deferral is being sought cannot exceed the average home value for existing homes within the Wichita MSA. This amount shall be obtained from the Wichita State University Center for Real Estate.

(b) The following terms, for the purposes of this chapter of the city code, shall have the have the following meanings:

(1) "Disabled person" means any person who has a physical or mental impairment that substantially limits one or more major life activities.

(2) "Head of household" means any person who, at the time application is made for deferral, is eligible to file a federal income tax return as head of household or is eligible to file a joint tax return under the Internal Revenue Code of the United States. Only one spouse may be designated as head of household.

(3) "Major life activities" means functions such as caring for oneself, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working.

(4) "Physical or mental impairment" means any physiological disorder or condition, cosmetic disfigurement or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotion or mental illness, and a specific learning disability. The term "physical or mental impairment" in-

cludes but is not limited to such diseases and conditions as orthopedic, visual, speech and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and drug addiction or alcoholism.

(c) An applicant who meets the eligibility requirements of this section and who is granted an indefinite deferral of payment of special assessments shall consent to the filing of a lien against the applicant's property in the amount of the special assessment deferred. At the time of application, the applicant will be required to pay the cost of the filing and subsequent release of the lien. The fee for such filing and release shall be determined by the Register of Deeds and is subject to change. An applicant who is granted a deferral shall be required to furnish the city any information necessary to confirm the applicant's continued eligibility. In addition, before special assessment payments are deferred for years subsequent to the year in which deferral is first granted, the applicant shall consent to the filing of a lien against the applicant's property in the amount of each yearly special assessment payment which is deferred.

(d) Deferred payments of special assessments granted under the provisions of this section shall become due and payable upon a transfer of ownership of the property; except that transfer by way of gift, devise or interstate succession to a person or persons eligible for deferral hereunder shall not cause such deferred payments to become due and payable.

(e) It is the intent of this section to provide a hardship deferral of special assessments on owner-occupied residential property for those years when payment is due and in which the owner(s) are eligible for such deferral. In years in which such payment is due and the owner is not eligible, the special assessment payment will be due and payable for that year in the same manner as for other property in the improvement district. It is the intent of the governing body in providing this program for hardship deferral of special assessments that the full amount of the original assessment (principal and interest) against properties whose owner(s) are granted deferral(s) will ultimately be paid to the city.

(f) Nothing contained herein shall be interpreted to limit the governing body's authority to adopt other provisions for the deferral of special assessments or to reduce or abate special assessments when it deems it advisable to do so under criteria it deems appropriate.

Such delay of special assessments shall be established and provided for in city council policy. Such city council policy may provide for partial abatement of such delayed assessment from the date an assessment is first spread through the fifteenth year from the date the assessment is spread. The policy may provide for total abatement after year fifteen.

(Ord. No. 39-845 § 2; Ord. No. 38-660 (part))

The city clerk will also file with the county register of deeds a notice stating that special assessments have been deferred and identifying the property. The city clerk shall, when certifying such special assessments to the county clerk, note thereon the words "payment deferred indefinitely." Such special assessments, when levied and certified, and if they become due upon change in property ownership to a noneligible owner or change in use of said property according to the schedule in Section 2.24.080 of this Code, shall be collected as other taxes.

For the purpose of this chapter, owner-occupied residential property means property zoned for residential use or property zoned other than residential but where actual use is residential.
(Ord. No. 36-660 (part))

Sec. 2.24.110. Provision for payment of principal and interest required for bonds issued for improvements for which the governing body has granted an indefinite deferral of payment.

That portion of the bonds issued for payment of costs of improvements in the improvement district which are payable by the city at large for such properties granted indefinite deferral of payment of assessment shall be considered bonds payable by the city at large and not bonds the cost of which are payable from special assessments. Upon change in ownership to a noneligible owner or change in property use, the costs incurred by the city at large by reason of and during the time of deferral of payment of assessments shall be paid by special assessments against the property in accordance with the time period of such change and amount due as set out in the schedule in Section 2.24.080 of this Code and the proceeds thereof paid into the general bond and interest fund of the city. Upon determination that such indefinitely deferred special assessments have become due, the city clerk shall notify the county clerk of the balance of such assessment that is to be collected in the manner provided by law. In no event shall said amount exceed the original assessment plus prorated interest which would have been charged initially if such deferral had not been granted.

In determining whether or not a person is under the influence, the presumption set forth in Section 11.38.150(a)(1) of this Code, and amendments thereto, shall apply. Sec. 2.28.010. Purpose.

The purpose of the Wichita employees' retirement plan, hereinafter referred to as the "retirement plan," is to establish an orderly means whereby noncommissioned personnel employed by the city who have attained retirement age or who have become disabled as set forth in this chapter may be retired from active service without prejudice and without inflicting a hardship on the employees retired, and to enable employees to accumulate reserves for themselves and their dependents to provide for old age, disability, death and termination of employment, and for the purpose of effecting economy and efficiency in the administration of governmental affairs. To accomplish this purpose, the city has established the Wichita employees' retirement plan, which shall consist of Plan No. 1, Plan No. 2 and Plan No. 3, which plans shall be managed by one board of trustees to be known as the Wichita employees' retirement board of trustees. Plan No. 1 shall apply to all employees who were employed prior to July 18, 1981 and who chose to remain in this plan by making an election in writing prior to December 18, 1981. Plan No. 2 shall apply to all employees hired or rehired on or after July 18, 1981 and prior to January 1, 1994, those employees who voluntarily elected, in writing, to convert from Plan No. 1 to Plan No. 2 prior to December 18, 1981, and those employees who transfer from Plan No. 3. Plan No. 3 shall apply to all employees hired on or after January 1, 1994, who have not become members of Plan No. 2.

It is the intent that the Wichita employees' retirement plan be established as a qualified governmental pension plan under Section 401(a) and 414(d) of the Internal Revenue Code. Retirement plan assets are to be held in a trust as required under Section 401(a) of the Internal Revenue Code. The board shall distribute the corpus and income of the retirement plan to the members and their beneficiaries in accordance with the retirement plan's law. At no time prior to the satisfaction of all liabilities with respect to members and their beneficiaries shall any part of the corpus and income be used for, or diverted to, purposes other than the exclusive benefit of the members and their beneficiaries. Upon complete or partial termination of the retirement plan, the

rights of members to benefits accrued to the date of termination, to the extent funded, or to the amounts in their accounts are nonforfeitable, and amounts in their accounts may be distributed to them.
(Ord. No. 44-812 § 1)

(3) One hundred percent after seven years service;

(c) Forfeited city contributions (the difference between those city contributions vested as in (b)(1), (2) or (3) above and the city's matching contributions) shall be applied toward contributions the city would otherwise be required to deposit in the fund.
(Ord. No. 44-812 § 5)

This election must be in writing and once made shall be irrevocable. If the employee does not advise the executive secretary to the contrary, it shall be conclusively presumed that the employee desires to participate in Plan No. 2;

(b) If the employee elects to continue in Plan No. 3, the balance of the employee's account on the date of election shall remain a part of Plan No. 3 and the employee shall be entitled only to those benefits which are provided vested employees under Plan No. 3.

(c) An employee electing to continue in Plan No. 3 shall assume self-direction responsibility with respect to the employee's vested account.
(Ord. No. 45-392 § 2; Ord. No. 44-812 § 6)

Sec. 2.28.070. Composition; expenditures.

(a) The fund shall consist of all moneys received from contributions made by employees, refunds made by employees on re-employment, investments, earnings and moneys paid into such fund by the city.

(b) All benefits paid from the retirement plan shall be distributed in accordance with the requirements of Section 401(a)(9) of the Internal Revenue Code and the regulations under that section, as applicable to a governmental plan within the meaning of Section 414(d) of the Internal Revenue Code. This is being adopted in accordance with Section 823 of the Pension Protection Act of 2006. In order to meet these requirements, the retirement plan shall be administered in accordance with the following provisions:

(1) Distribution of a member's benefit must begin by the required beginning date, which is the later of the April 1st following the calendar year in which a participant attains age 70 ½ or the April 1st of the year following the calendar year in which the member retires. If a member fails to apply for retirement benefits by the later of either of those dates, the Board shall begin distribution of the monthly benefit as required by this rule in the form provided in Sections 2.28.120 or 2.28.210;

(2) The member's entire interest must be distributed over the member's life or the

lives of the member and a designated beneficiary, or over a period not extending beyond the life expectancy of the member or of the member and a designated beneficiary. The life expectancy of a member or the member's spouse may not be recalculated after the benefits commence;

(3) The retirement system, pursuant to a qualified domestic relations order, may establish separate benefits for a member and nonmember;

(4) If a member dies before the required distribution of the member's benefits has begun, the member's entire interest must be either:

(A) distributed (in accordance with federal regulations) over the life or life expectancy of the designated beneficiary, with the distributions beginning no later than December 31st of the calendar year immediately following the calendar year in which the member died; or

(B) distributed within five years of the member's death;

(5) If a member dies after the required distribution of benefits has begun, the remaining portion of the member's interest must be distributed at least as rapidly as under the method of distribution before the member's death;

(6) The amount of an annuity paid to a member's beneficiary may not exceed the maximum determined under the incidental death benefit requirement of Section 401(a)(9)(G) of the Internal Revenue Code, and the minimum distribution incidental benefit rule under Treasury Regulation Section 1.401(a)(9)-6, Q&A-2;

(7) The death and disability benefits provided by the retirement system are limited by the incidental benefit rule set forth in Section 401(a)(9)(G) of the Internal Revenue Code and Treasury Regulation Section 1.401-1(b)(1)(i) or any successor regulation thereto. As a result, the total death or disability benefits payable may not exceed 25% of the cost of all of the members' benefits received from the retirement system; and

(8) Notwithstanding the other provisions of this rule or the provisions of the Treasury Regulations, benefit options may continue so long as the option satisfies Section 401(a)(9) of the Internal Revenue Code based on a reasonable and good faith interpretation of that section.

(c) The board is authorized to expend funds for the following purposes: clerical and secretarial work, stationery, supplies and printing; and professional services of actuaries, accountants, physicians and attorneys, the foregoing list not being intended to limit or exclude expenditures for other proper purposes.

(d) The board may not engage in a transaction prohibited by Section 503(b) of the Internal Revenue Code.

(e) Effective as of July 1, 1989, the Board will determine the amount of any benefit that is determined on the basis of actuarial assumptions using assumptions adopted by the Board by rule; such benefits will not be subject to employer discretion. The Board rules adopted for this purpose are incorporated into this section as part of the plan document.
(Ord. No. 44-812 § 7; Ord. No. 48-344, § 1, 6-16-09)

(c) Administration.

(1) Any elected or appointed member of the board shall be removed from the board after due notice and hearing for nonattendance at three consecutive meetings or for absence of more than fifty percent of the meetings held during any twelve-month period of time. A meeting canceled for lack of a quorum is considered a meeting for purposes of recording attendance. The pension manager will provide written notice to the non-attending board member and the city manager. A vacancy shall be declared unless the board member requests a hearing within ten days after notice is provided. In the case of a board member appointed by the city council, any hearing shall be conducted and determined by the city council. In the case of a board member elected at-large by employees, any hearing shall be conducted by the board at its next regular meeting, and a majority vote will be necessary to reinstate such board member. (3) In the case of a vacancy in the administrative office of the city manager, the person designated as the acting official shall immediately take office only until the appointment and qualification of a permanent successor;

(4) The president and vice-presidents of the board shall be elected by members of the board. The city manager shall appoint an employee to serve as executive secretary of the board and keep such records and minutes as the city manager and the board may prescribe. The city treasurer, ex officio, is designated as the custodian of the fund and shall post such additional bond as the board may deem necessary;

(5) The board shall meet once a month on the third Wednesday, and shall meet more or less often as determined by the president or executive secretary;

(6) The board is authorized and directed to establish and maintain proper accounts necessary to give effect to this chapter, in accordance with generally accepted accounting principles as issued by the governmental accounting standards board. The board shall adopt and file with the city clerk rules and regulations for the administration of this chapter, and for the direction and supervision of the fund consistent with the provisions thereof;

(7) The board shall make recommendations to the city council as to sources of funds for meeting the city's share of the cost of the fund and as to probable cost of the

system as between employees under the jurisdiction of the city manager, the library board and the art museum;

(8) All expense incurred by the board shall be paid from the fund; and

(9) The board may also recommend to the city council any changes or amendments to this chapter.

(Ord. No. 46-227 § 1; Ord. No. 44-812 § 8)

Sec. 2.28.090. Investment authority.

(a) Except as provided in subsection (c), the board shall invest and reinvest any portion of the fund not needed for immediate benefit payments through a unitized joint investment fund comprised of assets of the Wichita employees' and police and fire retirement systems. The joint investment fund shall be invested by an investment committee comprised of members from both boards and a city manager's designee. The executive secretary shall be an ex officio, non-voting member of the investment committee. To achieve the investment objective which is to make the moneys as productive as possible, certain standards and limitations (based on cost at time of purchase) are set forth in this section as follows:

(1) In investing and reinvesting moneys in the fund and in acquiring, retaining, managing and disposing of investments of the fund there shall be exercised the judgment and care under the circumstances then prevailing which people of prudence, discretion and intelligence exercise in the management of their own affairs, not in regard to speculation, but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety of their capital. Within the limitations of the foregoing standard and subject to the following requirements, there may be acquired, retained, managed and disposed of as investments of the fund every kind of investment which people of prudence, discretion and intelligence acquire, retain, manage and dispose of for their own account;

(2) The proportion of the funds invested in corporate, preferred and common stocks shall not exceed 70 percent;

(3) The proportion of the fund invested in securities of a corporation organized under the laws of a country other than the United States of America and securities issued by a foreign country or political subdivision thereof shall not exceed a total of 35 percent;

(4) Investments managed by in-house staff will be restricted to high-grade marketable fixed income securities;

(5) Investments may be made in any pooled arrangement such as a mutual fund, separate account, or commingled fund operated by a qualified investment counselor, an insurance company or a bank;

(6) Other investments separately managed by a qualified investment counselor, an insurance company or a bank, who represent that they act as a fiduciary, will be handled similarly to most other clients of the managing firm, except for holdings of money market instruments or their equivalent;

(7) The board shall impose whatever limitations are deemed appropriate under its investment policy statement;

(8) Notwithstanding any contrary provision in Chapter 2.28 of the Code of the City of Wichita, assets of the Fund may be transferred to a group trust meeting the requirements of Revenue Ruling 2011-1 that is operated or maintained exclusively for the commingling and collective investment of monies provided that the funds in the group trust consist exclusively of trust assets of pension, profit-sharing and stock bonus trusts or custodial accounts qualifying under Section 401(a) of the Internal Revenue Code that are exempt under Section 501(a) of such Code; individual retirement accounts that are exempt under Section 408(e) of the Internal Revenue Code; eligible governmental plan trusts or custodial accounts under Section 457(b) of the Internal Revenue Code that are exempt under Section 457(g) of such Code; custodial accounts under Section 403(b)(7) of the Internal Revenue Code; retirement income accounts under Section 403(b)(9) of the Internal Revenue Code; and governmental plans under Section 401(a)(24) of the Internal Revenue Code. Following the investment committee's selection of such a group

trust for investment, and upon the transfer of assets of the Fund to such group trust, the group trust shall be deemed adopted as a part of the retirement plan for the duration of such investment.

For purposes of valuation, the value of the interest maintained by the plan in such group trust shall be the fair market value of the portion of the group trust held for the plan, determined in accordance with generally recognized valuation procedures.

(b) Nothing in this chapter, however, shall be construed so as to give the board at any time authority to invest directly or indirectly in any:

(1) Real estate, except in pooled arrangement such as a mutual fund, separate account or commingled fund operated by a qualified investment counselor or an insurance company. The amount of such investments shall not exceed ten percent of the Fund;

(2) Private equity; except in a commingled fund-of-funds vehicle operated by a registered advisor or a bank. The amount of such investment shall not exceed ten percent of the Fund;

(3) Timber; except in a commingled fund vehicle operated by a registered investment advisor or a bank. The amount of such investment shall not exceed ten percent of the Fund;

(4) Mortgages secured by real estate, except insured mortgages under Titles 203, 207, 220 and 221 of the Federal Housing Act;

(5) Oil and gas leases or royalties; or

(6) Commodities (including but not limited to wheat, gold or gasoline, or financial futures); provided, however, that the restriction on investment contained in this paragraph shall not apply to funds which are invested in a mutual fund, separate account or commingled fund operated by a registered investment advisor or insurance company.

(c) The board shall not be responsible for investing or reinvesting any portion of an employee's vested account for which an employee has assumed self-direction responsibility of the investing and reinvesting of such an employees' vested account as provided for in Section 2.28.060 of this chapter.
(Ord. No. 45-392 § 3; Ord. No. 44-812 § 9; Ord. No. 47-451, § 2, 3-27-07; Ord. No. 48-918, § 1, 12-21-2010; Ord. No. 49-036, § 1, 7-19-2011)

Sec. 2.28.100. Termination of employment.

(a) An employee in Plan No. 1 or Plan No. 2 terminating employment with the city may upon written request to the board:

(1) Withdraw the total of all contributions made by the employee plus interest on such contributions at the rate of five percent per year compounded monthly; or

(2) If the employee has contributions eligible for rollover distribution as defined by Section 402(f)(2)(A) of the Internal Revenue Code;

(i) Elect to have all or a portion of such eligible contributions paid directly to an eligible retirement plan, as that term is further defined by Section 2.28.420, or traditional IRA; and

(ii) Withdraw any remaining contributions not rolled over under subsection (i); or

(ii) Withdraw any remaining contributions not rolled over under subsection (i).

Sec. 2.28.110. Eligibility for defined benefit retirement on account of age and service.

(a) *For employees under Plan No. 1:*

(1) For purposes of compliance with the Internal Revenue Code and related guidance, upon attaining the age of 60 years, and having at least seven years of service (whichever is later), an employee has a nonforfeitable right to his or her normal retirement benefit, which is the benefit calculated under Section 2.28.120(a)(1). The retirement benefit is only payable upon the employee's retirement. This subsection is not to be construed as a reduction or limitation of rights heretofore existing, nor as an indication that vested benefits would be forfeitable before the stated age is attained.

(2) An employee who has completed at least 30 years of service shall be eligible to receive a retirement benefit regardless of age. The amount of such benefit shall be calculated as provided in Section 2.28.120.

(3) An employee who has completed at least seven years of service and desires to retire voluntarily after having attained the age of 55 years and who has not yet attained the age of 60 years shall be eligible to receive a reduced retirement benefit. The amount of such benefit shall be calculated as provided in Section 2.28.120.

(4) An employee who has completed at least seven years of service may, upon terminating employment before age 60, receive a refund of his or her contributions with interest at five percent per year compounded monthly. Such employee may elect to leave his or her contribution in the fund and such employee shall be eligible for a retirement benefit at such time as the employee satisfies the age requirements of subsections (a)(1) or (3) of this section. The amount of such benefit shall be calculated as provided in Section 2.28.120 and Section 2.28.140.

(b) *For employees under Plan No. 2:*

(1) For purposes of compliance with the Internal Revenue Code and related guidance, upon attaining the age of 62 years, and having at least seven years of service (whichever is later), an employee has a nonforfeitable right to his or her normal retirement benefit, which is the benefit calculated under Section 2.28.120(b)(1). The retirement benefit is only payable upon the employee's retirement. This subsection is not to be construed as a reduction or limitation of rights heretofore existing, nor as an indication that vested benefits would be forfeitable before the stated age is attained.

(2) An employee who has completed at least seven years of service and desires to retire voluntarily after having attained the age of 55 years and who has not yet attained the age of 62 years shall be eligible to receive a reduced retirement benefit. The amount of such benefit shall be calculated as provided in Section 2.28.120.

(3) An employee who has completed at least seven years of service may, upon terminating employment before age 62, receive a refund of his or her contributions with interest at five percent per year compounded monthly. Such employee may elect to leave his or her contribution in the

fund and such employee shall be eligible for a retirement benefit at such time as the employee satisfies the age requirements of subsections (1) or (2) of this section. The amount of such benefit shall be calculated as provided in Section 2.28.120 and Section 2.28.140.

(Ord. No. 44-812 § 11; Ord. No. 47-451, § 4, 3-27-07; Ord. No. 49-036, § 2, 7-19-2011)

Sec. 2.28.120. Calculation of retirement benefits paid by reason of age and length of service.

(a) An employee under Plan No. 1 who retires by reason of age and service shall receive during his or her lifetime a retirement benefit, payable in equal monthly installments, based on the following:

(1) Those employees attaining the retirement age of sixty years, and having at least seven years of service, shall receive an annual retirement benefit calculated by multiplying such employee's final average salary by a factor calculated by multiplying such employee's years of service and any fraction thereof, by two and one-half percent. The maximum annual retirement benefit shall not be more than seventy-five percent of final average salary.

(2) Those employees who have completed thirty years of service shall be eligible to receive, regardless of age, a retirement benefit equal to seventy-five percent of final average salary.

(3) Those vested employees who elect to retire between fifty-five and sixty years of age, shall be entitled to a retirement benefit, equal to the benefit calculated under subsection (1) of this subsection; provided, however, such benefit shall be reduced by a percentage factor that is calculated by multiplying the number of full months needed for such employee to reach age sixty by the percentage set forth below which corresponds to such employee's full years of service at retirement as follows:

No. Years Service	*Reduction*
At least 30 years service	None
At least 29 but less than 30 years service	.05 of 1%
At least 28 but less than 29 years service	.10 of 1%
At least 27 but less than 28 years service	.15 of 1%
At least 26 but less than 27 years service	.20 of 1%
At least 25 but less than 26 years service	.25 of 1%
At least 24 but less than 25 years service	.30 of 1%
At least 23 but less than 24 years service	.35 of 1%
At least 22 but less than 23 years service	.40 of 1%
At least 21 but less than 22 years service	.45 of 1%
At least 7 but less than 21 years service	.50 of 1%

(4) In the event of retirement after December 31, 1993, by a person who has been employed in a joint department which has been transferred from the administrative control of the city to the administrative control of Sedgwick County, the reduction required by subsection (3) of this subsection shall be determined based upon the combined credited service with the city and the consecutive service with Sedgwick County following the transfer of the joint department. The pension benefit payable to such retiree, however, will in all other respects be based entirely upon the service earned by the person prior to the time of the transfer, final average salary at the time of the transfer, and the benefit formula in effect at the time of the transfer.

(b) An employee under Plan No. 2 who retires by reason of age and service shall receive during his or her lifetime a retirement benefit, payable in equal monthly installments, based on the following:

(1) Those employees attaining the retirement age of sixty-two years, and having at least

seven years of service, shall receive an annual retirement benefit calculated by multiplying such employee's final average salary by a factor calculated by multiplying such employee's years of service and any fraction thereof, by two and one-quarter percent. The maximum annual retirement benefit shall not be more than seventy-five percent of final average salary.

(2) Those vested employees who elect to retire between fifty-five and sixty-two years of age, shall be entitled to a retirement benefit, equal to the benefit calculated under subsection (1) of this subsection; provided, however, such benefit shall be reduced by a percentage factor that is calculated by multiplying the number of full months needed for such employee to reach age sixty-two by six tenths of one percent.

(3) In the event of retirement on or after January 1, 2002 by a person who has been employed in a joint department which has been transferred from the administrative control of the city to the administrative control of Sedgwick County, the pension benefit payable to such retiree shall be based upon the combined service with the city and the consecutive service with Sedgwick County following the transfer and the final average salary at the time of retirement.

(c) Benefits payable under Plan No. 1 or Plan No. 2 are subject to Section 401(a)(17) of the Internal Revenue Code.

(d) Salary in excess of the limitations set forth in Section 401(a)(17) of the Internal Revenue Code shall be disregarded.
(Ord. No. 45-127 § 3)

Sec. 2.28.121. Military service.

(a) Notwithstanding any provision of this plan to the contrary, contributions, benefits and service credit with respect to qualified military service will be provided in accordance with Section 414(u) of the Internal Revenue Code.

(b) Effective with respect to deaths occurring on or after January 1, 2007, while a member is performing qualified military service (as defined in chapter 43 of title 38, United States Code), to the extent required by Section 401(a)(37) of the Internal Revenue Code, survivors of a member in a State or local retirement or pension system, are

entitled to any additional benefits that the system would provide if the member had resumed employment and then died, such as accelerated vesting or survivor benefits that are contingent on the member's death while employed.

(c) Beginning January 1, 2009, to the extent required by Sections 3401(h) and 414(u)(2) of the Internal Revenue Code, a member receiving differential wage payments (while the member is performing qualified military service (as defined in chapter 43 of title 38, United States Code)) from an employer shall be treated as employed by that employer and the differential wage payment shall be treated as earned compensation. This provision shall be applied to all similarly situated individuals in a reasonably equivalent manner.
(Ord. No. 44-812 § 13; Ord. No. 48-344, § 2, 6-16-09)

Sec. 2.28.130. Purchase of future service under Plan No. 1 and Plan No. 2.

Any vested employee under Plan No. 1 or Plan No. 2 may purchase up to but not to exceed sixty months future service upon payment of the full actuarial cost of the service credit being purchased to include actuarial fees for determining the actuarial cost. Installment payments shall not be permitted.

Such employee wishing to determine the cost of purchasing service credit hereunder shall be required to pay the actual cost, if any, of the actuarial fee to determine the actuarial cost of the service credit regardless of whether or not the service credit is actually purchased.

The actuarial cost of service credit calculation is based on actuarial assumptions adopted by the board by rule.
(Ord. No. 44-812 § 14)

Sec. 2.28.140. Indexing of deferred retirement benefits.

An employee in Plan No. 1 or Plan No. 2 who terminates employment and elects to defer receipt of his or her retirement benefit or elects to leave his or her contributions in the fund until such time he or she is eligible to receive a retirement benefit, shall, if such employee has a deferral period of at least one full month, be entitled to a retirement benefit calculated as follows:

(a) A base retirement benefit calculated under Section 2.28.120; and

(b) A benefit (which may calculate as no actual increase in benefits) which shall be calculated for each calendar year or full months, in the case of a partial year in such employee's deferral period.

The benefit calculation in subsection (b) of this section shall be the base benefit calculation in subsection (a) adjusted annually for each calendar year or full months in the employee's deferral period. The determination of whether an employee is due a benefit increase for a specific calendar year in which the employee has at least one full month of deferral period shall be made by determining, for that calendar year, the smaller of (1) 1.055; or (2) the ratio of national average earnings for the second preceding calendar year to national average earnings for the third preceding calendar year. If the smaller of these two figures is greater than 1.0, the employee shall be entitled to a benefit increase for that calendar year in the amount of the employee's base retirement benefit, as calculated under subsection (a) of this section, multiplied by such smaller figure. Any benefit increase for a partial year in the employee's deferral period shall be pro-rated for each month, based on the full year increase.
(Ord. No. 44-812 § 15; Ord. No. 47-451, § 5, 3-27-07)

Sec. 2.28.150. Disability retirement.

(a) For employees under Plan No. 1:

(1) Service-Connected Disability. An employee shall be eligible for retirement and for a retirement benefit if he or she becomes permanently and totally disabled from engaging in the performance of any duties for the city which such employee might reasonably be expected to perform in view of his or her training, experience, and education; and such disability is shown to have arisen out of and in the course of his or her employment by the city. Such em-

ployee shall be eligible for a retirement benefit equal to sixty percent of the employee's salary in effect when salary payments ceased.

(2) Nonservice-Connected Disability. An employee having at least seven years of service, under the age of sixty years, who becomes permanently and totally disabled from engaging in the performance of any duties for the city which such employee might reasonably be expected to perform in view of his training, experience and education, shall be entitled to a retirement benefit. The retirement benefit in the case of a nonservice-connected disability shall be equal to thirty percent of the employee's final average salary, plus one percentage point for each year of service in excess of seven years, up to a maximum of fifty percent of final average salary.

(b) For employees under Plan No. 2:

(1) Service-Connected Disability. An employee shall be eligible for retirement and for a retirement benefit if he or she becomes permanently and totally disabled from engaging in the performance of any duties for the city which such employee might reasonably be expected to perform in view of his or her training, experience, and education, and such disability is shown to have arisen out of and in the course of his or her employment by the city. Such employee shall be eligible for a retirement benefit equal to fifty percent of the employee's salary in effect when salary payments ceased.

(2) Nonservice-Connected Disability. An employee having at least seven years of service, under the age of sixty-two years, who becomes permanently and totally disabled from engaging in the performance of any duties for the city which such employee might reasonably be expected to perform in view of his training, experience and education, shall be entitled to a retirement benefit. The retirement benefit in the case of a nonservice-connected disability shall be equal to twenty-five percent of the employee's salary in effect when salary payments ceased.

(c) For employees under Plan No. 3:

(1) Service-Connected Disability. An employee shall be eligible for retirement and for a retirement benefit if he or she becomes permanently and totally disabled from engaging in the performance of any duties for the city which such employee might reasonably be expected to perform in view of his or her training, experience, and education; and such disability is shown to have arisen out of and in the course of his or her employment by the city. Such employee shall be eligible for a retirement benefit equal to fifty percent of the employee's salary in effect when salary payments ceased; or receive a refund of the employee's Plan No. 3 vested account.

(2) Nonservice-Connected Disability. An employee having at least seven years of service, under the age of sixty-two years, who becomes permanently and totally disabled from engaging in the performance of any duties for the city which such employee might reasonably be expected to perform in view of his training, experience and education, shall be entitled to a retirement benefit. Such employee shall be eligible for a retirement benefit equal to twenty-five percent of the employee's salary in effect when salary payments ceased; or receive a refund of the employee's Plan No. 3 vested account.

(d) Administration of Disability Annuities.

(1) In order to obtain a disability retirement benefit, an employee shall apply in writing to the board. The board will establish rules and regulations governing the application process. The determination of disability from any cause shall be made by the board based upon medical information from examinations made by at least two physicians who may or may not be the claimant's physician or physicians and

any other relevant information. The retirement benefit may be made retroactive to the date when salary ceased.

(2) A member receiving either service-connected or nonservice-connected disability retirement benefits shall be required, at the discretion of the board, to submit to an examination at least once each year by a physician or physicians designated by the board to establish that the member is still disabled. The board may terminate a disability retirement benefit upon evidence that the member is no longer disabled. If such termination occurs and the member does not re-enter service, he or she shall be entitled to a refund of the excess, if any, of the contributions made by the member, without interest, over the amounts received by the member as disability retirement benefits.

(3) No disability retirement benefits shall be paid if the disability was caused by willful misconduct or intoxication of the disabled employee. Any amount received under the State Worker's Compensation Act (except medical expenses) shall be deducted from the disability retirement benefit.

(4) Each member receiving a disability retirement benefit shall submit to the board, once each year, a copy of the Federal Income Tax Return filed by the member for such year.

(g) Distribution of the DROP account will be made within ninety days of termination of employment.

(h) Payment of the retirement benefit will be made to the retired employee following termination of employment.

(i) Failure to complete the DROP period as a result of the employee's actions (e.g., voluntary resignation or termination with cause) would result in the loss of accrued interest under subsection (f) of this section.

(j) Employee contributions to the fund shall continue during the DROP period. In the event the employee doe not terminate employment at the end of the DROP period, employee contributions to the fund shall continue until termination of employment.

(k) This subsection applies after August 29, 2008, to an employee who is not participating in the DROP on August 29, 2008. An employee who elects a DROP period and then chooses to remain in active service beyond the DROP period shall be treated at retirement and termination of

employment as if the member had never participated in DROP except that sick leave used to increase service will not be reinstated. The member's retirement benefit shall be calculated taking into consideration the member's entire period of service and final average salary during that service, but in any event the maximum annual retirement benefit shall not be more than seventy-five percent of final average salary.

(l) This subsection applies after August 29, 2008, to an employee who is participating in the DROP on August 29, 2008. An employee who has elected a DROP period and then chooses to remain in active service beyond that DROP period (1) shall have his or her DROP account frozen as of the end of the elected DROP period and (2) shall only accrue additional service credit for the service that occurs after the DROP period (using the final average salary as of the commencement of the DROP period), but in any event the maximum annual retirement benefit, net of any applicable post retirement adjustments, shall not be more than seventy-five percent of the final average salary as of the commencement of the DROP period. In the event that the employee has already earned the maximum annual retirement benefit at his or her DROP election date, no additional service credit shall accrue. ment for an employee purchasing prior Plan No. 2 service before January 1, 1994 shall be prorated by the ratio that the current percentage of employee contribution bears to 4.1%.

(g) In the event the employee terminated employment, received a refund of contributions and was re-employed as a member of Plan No. 3, such employee may purchase credit for all or part of his or her prior service by paying into the fund an amount equal to the percentage of the amount refunded that the service credit being purchased bears to the prior service, plus seven percent annual interest, compounded monthly, from the date of refund to the date of purchase; provided, however, the amount of such payment for an employee purchasing prior Plan No. 1 service shall be calculated in the manner described in subsection (e) above; and provided further that the amount of such payment for an employee purchasing prior Plan No. 2 service shall be prorated by the ratio that the current percentage of employee contributions bears to 4.1%. The ratio to be applied for prorating the amount of payment for the purchase of prior Plan No. 2 service after February 18, 2000 shall be the current percent of employee contribution divided by the percentage of employee contributions in effect for such prior service.

(h) In the event the employee terminated employment, received a refund of contributions, was re-employed as a member of Plan No. 3 and purchased prior service in accordance with (d), (e), (f), or (g) above, such employee would achieve vesting as indicated in Section 2.28.050 (b). If such employee purchased seven or more years of service, such employee must make a plan election in accordance with Section 2.28.060 (a).

(i) The maximum number of years of service credit which can be purchased is ten years.

(Ord. No. 45-127 § 4; Ord. No. 47-451, § 10, 3-27-07)

Sec. 2.28.260. Employees of joint department transferred to Sedgwick County.

(a) Employees transferred to Sedgwick County who are vested members of Plan No. 1 or Plan No. 2 at the time of the transfer, may make a one-time election to continue participation in said plan if the actuarially required employee and employer contributions are made to the fund during the period of employment with Sedgwick County. In the event said contributions cease or are less than actuarially required, participation in Plan No. 1 or Plan No. 2 shall also cease.

(b) A member of the Wichita Employees' Retirement System who elects to remain a member of Plan No. 1 or Plan No. 2 as provided in (a) above, shall not be an employee of Sedgwick County for the purposes of this chapter. Sedgwick County shall be the employer of an employee who elects to continue participation in the retirement system for the limited purposes of filing reports and remitting contributions to the retirement system as required under this chapter.

(c) Employees transferred to the City of Wichita who are vested members of KPERS at the time of transfer, may make a one-time election to continue participation in said plan if the actuarially required employee and employer contributions are made to KPERS during the period of employment with the city. In the event said contributions cease or are less than actuarially required, participation in KPERS shall also cease.

(d) A member of KPERS who elects to remain a member of KPERS as provided in (c) above, shall not be an employee of the city for the purposes of this ordinance. The city shall be the employer of an employee who elects to continue participation in KPERS for the limited purposes of filing reports and remitting contributions to KPERS as required under this chapter.

(Ord. No. 45-127 § 5)

Sec. 2.28.270. Qualified domestic relations orders.

As used in this section, the term "alternate payee" and "qualified domestic relations order" shall have the meaning ascribed to them in Sec-

tion 414(p) of the Internal Revenue Code of 1954, as amended. The city shall not be a party to any action under Article 10 of Chapter 60 of the Kansas Statutes Annotated but is subject to orders from such actions issued by the district court of the county where such action was filed and may also accept orders which it deems to be qualified under this section from courts having jurisdiction of such actions outside the State of Kansas. Orders from such actions shall specify either a specific amount or specific percentage of the amount of the benefit or any accumulated contributions due and owing from the fund and to be distributed to the alternate payee. The order must contain the following information:

(a) Name, address and social security number of the employee and alternate payee;

(b) Clearly identifies the appropriate Wichita retirement system and plan;

(c) Creates or recognizes the existence of an alternate payee's rights to, or assigns to an alternate payee the right to receive a portion of the benefits otherwise payable to the employee;

(d) The date of marriage and of divorce/separation;

(e) Statement that the benefit is payable at the time of retirement of the employee or at the time the employee terminates his or her employment if the employee withdraws his or her contributions from the fund;

(f) That the benefit is payable only during the lifetime of the retired employee or alternate payee should the alternate payee predecease the employee; and

(g) Payment to the alternate payee shall be a lump sum if payment to the employee is lump sum, monthly if payment to the employee is monthly;

(h) An employee who elects to participate in the DROP shall be treated as having retired for the purposes of a qualified domestic relations order.

The order to be qualified cannot allow the calculation of the lump sum payment or monthly benefit to be calculated in a manner which results in a payment or benefit in excess of the limits of the plan; cannot allow the alternate payee to be named as a surviving spouse or a survivor at the death of the retired employee; and cannot allow the alternate payee to name a beneficiary.
(Ord. No. 44-812 § 28)

Sec. 2.28.280. Assignments prohibited—Not subject to sale, execution, garnishment, or attachment.

Any assignment by an employee, retired employee or beneficiary of any allowance or benefit payable under this chapter shall be null and void. Each such allowance and benefit shall be for the support of the employee or beneficiary entitled thereto, and shall not be subject to sale, execution, garnishment or attachment, except such allowance or benefit or any accumulated contributions due and owing from the fund to any recipient are subject to claims of an alternate payee under a qualified domestic relations order.
(Ord. No. 44-812 § 29)

Sec. 2.28.290. Resolving questions of eligibility.

The retirement board is authorized to resolve any questions of eligibility under the provisions of this chapter.
(Ord. No. 44-812 § 30)

Sec. 2.28.300. Reservation of right to amend or repeal chapter-vested rights.

The city council expressly saves and reserves unto itself the power and authority to amend, modify, supplement, repeal or abolish this chapter, and the retirement system created and reestablished hereby, at any time. No person shall acquire any vested rights hereunder, save and except those persons whose right to retire by reason of age and length of service shall not have those rights reduced or abridged. Provided, however, that in the event of termination or partial termination of the retirement system created by this chapter, all affected participants' interest under the plan as of the date of such termination or partial termination shall be nonforfeitable to

the extent funded. And further, that no funds contributed to the retirement system created by this chapter, by either the participants or the city, shall revert to the city for use for other purposes unless and until all obligations under the retirement system have been fully and finally satisfied.
(Ord. No. 44-812 § 31)

Sec. 2.28.400. Compliance with Code Section 415 Limitations on Contributions and Benefits.

(a) *[Limitation.]* Notwithstanding any other provisions of the retirement system to the contrary, the member contributions paid to and retirement benefits paid from the plan shall be limited to such extent as may be necessary to conform to the requirements of Section 415 of the Internal Revenue Code for a qualified pension plan.

(b) *Participation in Other Qualified Plans: Aggregation of Limits.*

(1) The 415(b) limit with respect to any member who at any time has been a member in any other defined benefit plan as defined in Section 414(j) of the Internal Revenue Code maintained by the member's employer in this plan shall apply as if the total benefits payable under all such defined benefit plans in which the member has been a member were payable from one (1) plan.

(2) The 415(c) limit with respect to any member who at any time has been a member in any other defined contribution plan as defined in Section 414(i) of the Internal Revenue Code maintained by the member's employer in this plan shall apply as if the total annual additions under all such defined contributions plans in which the member has been a member were payable from one plan.

(c) *Basic 415(b) Limitation.*

(1) Before January 1, 1995, a member may not receive an annual benefit that exceeds the limits specified in Section 415(b) of the Internal Revenue Code, subject to the applicable adjustments in that section. On and after January 1, 1995, a member may not receive an annual benefit that exceeds the dollar amount specified in Section 415(b)(1)(A) of the Internal Revenue Code, subject to the applicable adjustments in Section 415(b) of the Internal Revenue Code and subject to any additional limits that may be specified in the retirement system. In no event shall a member's benefit payable under the plan in any limitation year be greater than the limit applicable at the annuity starting date, as increased in subsequent years pursuant to Section 415(d) of the Internal Revenue Code and the regulations thereunder.

(2) For purposes of Section 415(b) of the Internal Revenue Code, the "annual benefit" means a benefit payable annually in the form of a straight life annuity (with no ancillary benefits) without regard to the benefit attributable to after-tax employee contributions (except pursuant to Section 415(n) of the Internal Revenue Code) and to rollover contributions (as defined in Section 415(b)(2)(A) of the Internal Revenue Code). The "benefit attributable" shall be determined in accordance with Treasury Regulations.

(d) *Adjustments to Basic 415(b) Limitation for Form of Benefit.* If the benefit under the plan is other than the form specified in subsection (c)(2), then the benefit shall be adjusted so that it is the equivalent of the annual benefit, using factors prescribed in Treasury Regulations.

(1) If the form of benefit without regard to the automatic benefit increase feature is not a straight life annuity or a qualified joint and survivor annuity, then the preceding sentence is applied by either reducing the Section 415(b) of the Internal Revenue Code limit applicable at the annuity starting date or adjusting the form of benefit to an actuarially equivalent amount [determined using the assumptions specified in Treasury Regulation Section 1.415(b)—1(c)(2)(ii)] that takes into account the additional benefits under the form of benefit as follows:

(2) For a benefit paid in a form to which Section 417(e)(3) of the Internal Revenue Code does not apply [a monthly benefit], the actuarially equivalent straight life annuity benefit that is the greater of (or the reduced Limit applicable at the annuity starting date which is the "lesser of" when adjusted in accordance with the following assumptions):

(A) The annual amount of the straight life annuity (if any) payable to the member

under the plan commencing at the same annuity starting date as the form of benefit to the member, or

(B) The annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the form of benefit payable to the member, computed using a five percent interest assumption (or the applicable statutory interest assumption) and (i) for years prior to January 1, 2009, the applicable mortality tables described in Treasury Regulation Section 1.417(e)-1(d)(2) (Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62), and (ii) for years after December 31, 2008, the applicable mortality tables described in Section 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Section 417(e)(3)(B) of the Internal Revenue Code); or

(3) For a benefit paid in a form to which Section 417(e)(3) of the Internal Revenue Code applies [a lump sum benefit], the actuarially equivalent straight life annuity benefit that is the greatest of (or the reduced Section 415(b) of the Internal Revenue Code limit applicable at the annuity starting which is the "least of" when adjusted in accordance with the following assumptions):

(A) The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using the interest rate and mortality table, or tabular factor, specified in the plan for actuarial experience;

(B) The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using a 5.5 percent interest assumption (or the applicable statutory interest assumption) and (i) for years prior to January 1, 2009, the applicable mortality table for the distribution under Treasury Regulation Section 1.417(e)-1(d)(2) (the mortality table specified in Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62), and (ii) for years after December 31, 2008, the applicable mortality tables described in Section 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Section 417(e)(3)(B) of the Internal Revenue Code); or

(C) The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable (computed using the applicable interest rate for the distribution under Treasury Regulation Section 1.417(e)-1(d)(3) (the 30-year Treasury rate (prior to January 1, 2007, using the rate in effect for the month prior to retirement, and on and after January 1, 2007, using the rate in effect for the first day of the plan year with a one-year stabilization period)) and (i) for years prior to January 1, 2009. the applicable mortality rate for the distribution under Treasury Regulation Section 1.417(e)-1(d)(2) (the mortality table specified in Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62), and (ii) for years after December 31, 2008, the applicable mortality tables described in Section 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue guidance implementing Section 417(e)(3)(B) of the Internal Revenue Code), divided by 1.05.

(e) *Benefits Not Taken into Account for 415(b) Limitation.* For purposes of this section, the following benefits shall not be taken into account in applying these limits:

(1) Any ancillary benefit which is not directly related to retirement income benefits;

(2) That portion of any joint and survivor annuity that constitutes a qualified joint and survivor annuity;

(3) Any other benefit not required under Section 415(b)(2) of the Internal Revenue Code and Treasury Regulations thereunder to be taken into account for purposes of the limitation of Section 415(b)(1) of the Internal Revenue Code.

(f) *Other Adjustments in 415(b) Limitation.*

(1) In the event that the member's retirement benefits become payable before age sixty-two (62), the limit prescribed by this section shall be reduced in accordance with Treasury Regulations pursuant to the provisions of Section 415(b) of the Internal Revenue Code, so that such limit (as so reduced) equals an annual straight life benefit (when such retirement income benefit begins) which is equivalent to a one hundred sixty thousand dollar ($160,000) (as adjusted) annual benefit beginning at age sixty-two (62).

(2) In the event the member's benefit is based on at least fifteen (15) years of service as a full-time employee of any police or fire department or on fifteen (15) years of military service, the adjustments provided in (1) above shall not apply.

(3) The reductions provided for in [subsection (f)] (1) above shall not be applicable to pre-retirement disability benefits or pre-retirement death benefits.

(g) *Less than Ten Years of Service Adjustment for [Section] 415(b) Limitations.* The maximum retirement benefits payable to any member who has completed less than ten (10) years of service shall be the amount determined under subsection (c) multiplied by a fraction, the numerator of which is the number of the member's years of service and the denominator of which is ten (10). The reduction provided by this subsection cannot reduce the maximum benefit below ten percent. The reduction provided for in this subsection shall not be applicable to pre-retirement disability benefits or pre-retirement death benefits.

(h) *Ten Thousand Dollar Limit.* Notwithstanding the foregoing, the retirement benefit payable with respect to a member shall be deemed not to exceed the [Section] 415[(b)] limit if the benefits payable, with respect to such member under this plan and under all other qualified defined benefit pension plans to which the member's employer contributes, do not exceed $10,000.00 for the applicable limitation year and for any prior limitation year and the employer has not at any time maintained a qualified defined contribution plan in which the member participated.

(i) *Effect of COLA without a Lump Sum Component on [Section] 415(b) Testing.* Effective on and after January 1, 2009, for purposes of applying the limits under Section 415(b) of the Internal Revenue Code ("the Limit") to a member with no lump sum benefit, the following will apply:

(1) A member's applicable Limit will be applied to the member's annual benefit in the member's first limitation year without regard to any cost of living adjustments under 2.28.160;

(2) To the extent that the member's annual benefit equals or exceeds the Limit, the member will no longer be eligible for cost of living increases until such time as the benefit plus the accumulated increases are less than the Limit; and

(3) Thereafter, in any subsequent limitation year, a member's annual benefit, including any cost of living increases under 2.28.160, shall be tested under the then applicable benefit Limit including any adjustment to the Section 415(b)(1)(A) of the Internal Revenue Code dollar limit under Section 415(d) of the Internal Revenue Code, and the regulations thereunder.

(j) *Effect of COLA with a Lump Sum Component on 415(b) Testing.* On and after January 1, 2009, with respect to a member who receives a portion of the member's annual benefit in a lump sum, a member's applicable Limit will be applied taking into consideration cost of living increases as required by Section 415(b) of the Internal Revenue Code and applicable Treasury Regulations.

(k) *Section 415(c) Limitations on Contributions and Other Additions.* After-tax member contributions or other annual additions with respect to a member may not exceed the lesser of $40,000.00 (as adjusted pursuant to Section 415(d) of the Internal Revenue Code) or 100% of the member's compensation.

(1) Annual additions are defined to mean the sum (for any year) of employer contributions to a defined contribution plan, member contributions, and forfeitures credited to a member's individual account. Member contributions are

determined without regard to rollover contributions and to picked-up employee contributions that are paid to a defined benefit plan.

(2) For purposes of applying Section 415(c) of the Internal Revenue Code and for no other purpose, the definition of compensation where applicable will be compensation actually paid or made available during a limitation year, except as noted below and as permitted by Treasury Regulation Section 1.415(c)-2, or successor regulation; provided, however, that member contributions picked up under Section 414(h) of the Internal Revenue Code shall not be treated as compensation.

(3) Compensation will be defined as wages within the meaning of Section 3401(a) of the Internal Revenue Code and all other payments of compensation to an employee by an employer for which the employer is required to furnish the employee a written statement under Sections 6041(d), 6051(a)(3) and 6052 of the Internal Revenue Code and will be determined without regard to any rules under Section 3401(a) of the Internal Revenue Code that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in Section 3401(a)(2) of the Internal Revenue Code).

(A) However, for limitation years beginning after December 31, 1997, compensation will also include amounts that would otherwise be included in compensation but for an election under Section 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b) of the Internal Revenue Code. For limitation years beginning after December 31, 2000, compensation shall also include any elective amounts that are not includible in the gross income of the member by reason of Section 132(f)(4) of the Internal Revenue Code.

(B) For limitation years beginning on and after January 1, 2009, compensation for the limitation year shall also include compensation paid by the later of 2½ months after a member's severance from employment or the end of the limitation year that includes the date of the member's severance from employment if:

(I) the payment is regular compensation for services during the member's regular working hours, or compensation for services outside the member's regular working hours (such as overtime or shift differential), commissions, bonuses or other similar payments, and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer; or

(II) the payment is for unused accrued bona fide sick, vacation or other leave that the member would have been able to use if employment had continued; or

(III) payments pursuant to a nonqualified unfunded deferred compensation plan, but only if the payments would have been paid to the member at the same time if the member had continued employment with the employer and only to the extent that the payment is includible in the member's gross income.

Any payments not described in paragraph (B) above are not considered compensation if paid after severance from employment, even if they are paid within 2½ months following severance from employment, except for payments to the member who does not currently perform services for the employer by reason of qualified military service (within the meaning of Section 414(u)(1) of the Internal Revenue Code) to the extent these payments do not exceed the amounts the member would have received if the member had continued to perform services for the employer rather than entering qualified military service.

A member who is in qualified military service (within the meaning of Section 414(u)(1) of the Internal Revenue Code)

shall be treated as receiving compensation from the employer during such period of qualified military service equal to (i) the compensation the member would have received during such period if the member were not in qualified military service, determined based on the rate of pay the member would have received from the employer but for the absence during the period of qualified military service, or (ii) if the compensation the member would have received during such period was not reasonably certain, the member's average compensation from the employer during the 12-month period immediately preceding the qualified military service (or, if shorter, the period of employment immediately preceding the qualified military service).

(C) Back pay, within the meaning of Treasury Regulation Section 1.415(c)-2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

(4) For limitation years beginning on or after January 1, 2009, a member's compensation for purposes of subsection (k) shall not exceed the annual limit under Section 401(a)(17) of the Internal Revenue Code.

(l) *Service Purchases under Section 415(n).* Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, if a member makes one or more contributions to purchase permissive service credit under the plan, then the requirements of Section 415(n) of the Internal Revenue Code will be treated as met only if:

(1) The requirements of Section 415(b) of the Internal Revenue Code are met, determined by treating the accrued benefit derived from all such contributions as an annual benefit for purposes of Section 415(b) of the Internal Revenue Code, or

(2) The requirements of Section 415(c) of the Internal Revenue Code are met, determined by treating all such contributions as annual additions for purposes of Section 415(c) of the Internal Revenue Code.

(3) For purposes of applying this section, the system will not fail to meet the reduced limit under Section 415(b)(2)(C) of the Internal Revenue Code solely by reason of this subparagraph and will not fail to meet the percentage limitation under Section 415(c)(1)(B) of the Internal Revenue Code solely by reason of this section.

(4) For purposes of this section the term "permissive service credit" means service credit:

(A) Recognized by the system for purposes of calculating a member's benefit under the system,

(B) Which such member has not received under the system, and

(C) Which such member may receive only by making a voluntary additional contribution, in an amount determined under the system, which does not exceed the amount necessary to fund the benefit attributable to such service credit.

Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, such term may include service credit for periods for which there is no performance of service, and, notwithstanding clause (B), may include service credited in order to provide an increased benefit for service credit which a member is receiving under the system.

(5) The system will fail to meet the requirements of this section if:

(A) More than five years of nonqualified service credit are taken into account for purposes of this subparagraph, or

(B) Any nonqualified service credit is taken into account under this paragraph before the member has at least five years of participation under the system.

(6) For purposes of paragraph (5), effective for permissive service credit contributions made in limitation years beginning after December 31,

1997, the term "nonqualified service credit" means permissive service credit other than that allowed with respect to:

(A) Service (including parental, medical, sabbatical, and similar leave) as an employee of the Government of the United States, any State or political subdivision thereof, or any agency or instrumentality of any of the foregoing (other than military service or service for credit which was obtained as a result of a repayment described in Section 415(k)(3) of the Internal Revenue Code),

(B) Service (including parental, medical, sabbatical, and similar leave) as an employee (other than as an employee described in clause (A)) of an education organization described in Section 170(b)(1)(A)(ii) of the Internal Revenue Code which is a public, private, or sectarian school which provides elementary or secondary education (through grade 12), or a comparable level of education, as determined under the applicable law of the jurisdiction in which the service was performed.

(C) Service as an employee of an association of employees who are described in clause (A), or

(D) Military service (other than qualified military service under Section 414(u) of the Internal Revenue Code) recognized by the system.

In the case of service described in clause (A), (B), or (C), such service will be nonqualified service if recognition of such service would cause a member to receive a retirement benefit for the same service under more than one plan.

(7) In the case of a trustee-to-trustee transfer after December 31, 2001, to which Section 403(b)(13)(A) of the Internal Revenue Code or Section 457(e)(17)(A) of the Internal Revenue Code applies (without regard to whether the transfer is made between plans maintained by the same employer):

(A) The limitations of paragraph (5) will not apply in determining whether the transfer is for the purchase of permissive service credit, and

(B) The distribution rules applicable under federal law to the system will apply to such amounts and any benefits attributable to such amounts.

(8) For an eligible member, the limitation of Section 415(c)(1) of the Internal Revenue Code shall not be applied to reduce the amount of permissive service credit which may be purchased to an amount less than the amount which was allowed to be purchased under the terms of a Plan as in effect on August 5, 1997. For purposes of this paragraph an eligible member is an individual who first became a member in the system before January 1, 1998.

(m) *Modification of Contributions for 415(c) and 415(n) Purposes.* Notwithstanding any other provision of law to the contrary, the system may modify a request by a member to make a contribution to the system if the amount of the contribution would exceed the limits provided in Section 415 of the Internal Revenue Code by using the following methods:

(1) If the law requires a lump sum payment for the purchase of service credit, the system may establish a periodic payment plan for the member to avoid a contribution in excess of the limits under Section 415(c) or 415(n) of the Internal Revenue Code.

(2) If payment pursuant to subparagraph (1) will not avoid a contribution in excess of the limits imposed by Section 415(c) or 415(n) of the Internal Revenue Code, the system may either reduce the member's contribution to an amount within the limits of those sections or refuse the member's contribution.

(n) *Repayments of Cashouts.* Any repayment of contributions (including interest thereon) to the plan with respect to an amount previously refunded upon a forfeiture of service credit under the plan or another governmental plan maintained by the retirement system shall not be taken into account for purposes of Section 415 of the Internal Revenue Code, in accordance with applicable Treasury Regulations.

(o) *Reduction of Benefits Priority.* Reduction of benefits and/or contributions to all plans, where required, shall be accomplished by first reducing the member's benefit under any defined benefit plans in which the member participated, such reduction to be made first

with respect to the plan in which the member most recently accrued benefits and thereafter in such priority as shall be determined by the plan and the plan administrator of such other plans, and next, by reducing or allocating excess forfeitures for defined contribution plans in which the member participated, such reduction to be made first with respect to the plan in which the member most recently accrued benefits and thereafter in such priority as shall be established by the plan and the plan administrator for such other plans provided, however, that necessary reductions may be made in a different manner and priority pursuant to the agreement of the plan and the plan administrator of all other plans covering such member.
(Ord. No. 45-162 § 5; Ord. No. 48-344, § 6, 6-16-09; Ord. No. 48-918, § 2, 12-21-2010)

Sec. 2.28.410. Direct rollovers of defined contribution plan distributions.

(a) Except as otherwise indicated herein, this section shall apply to rollovers made after December 31, 2001.

(b) For purposes of compliance with Section 401(a)(31) of the Internal Revenue Code, this section applies notwithstanding any contrary provision or retirement law that would otherwise limit a distributee's election to make a rollover. A distributee may elect, at the time and in the manner prescribed by the Board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(1) *"Eligible rollover distribution"* means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or the life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under Section 401(a)(9) of the Internal Revenue Code; the portion of any distribution that is not includible in gross income; and any other distribution that is reasonably expected to total less than $200 during the year. Effective January 1, 2002, a portion of the distribution will not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only (i) to an individual retirement account or annuity described in Section 408(a) or (b) of the Internal Revenue Code or to a qualified defined contribution plan described in Section 401(a) of the Internal Revenue Code; (ii) on or after January 1, 2007, to a qualified defined benefit plan described in Section 401(a) of the Internal Revenue Code or to an annuity contract described in Section 403(b) of the Internal Revenue Code, that agrees to separately account for amounts so transferred (and earnings thereon), including separately accounting for the portion of the distribution that is includible in gross income and the portion of the distribution that is not so includible; or (iii) on or after January 1, 2008, to a Roth IRA described in Section 408A of the Internal Revenue Code. Effective January 1, 2002, the definition of eligible rollover distribution also includes a distribution to a surviving spouse, or to a spouse or former spouse who is an alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code.

(2) *"Eligible retirement plan"* means any of the following that accepts the distributee's eligible rollover distribution:

(A) An individual retirement account described in Section 408(a) of the Internal Revenue Code;

(B) An individual retirement annuity described in Section 408(b) of the Internal Revenue Code;

(C) An annuity plan described in Section 403(a) of the Internal Revenue Code;

Effective January 1, 2007, a distributee further includes a nonspouse beneficiary who is a designated beneficiary as defined by Section 401(a)(9)(E) of the Internal Revenue Code. However, a nonspouse beneficiary may rollover the distribution only to an individual retirement account or individual retirement annuity established for the purpose of receiving the distribution, and the account or annuity will be treated as an "inherited" individual retirement account or annuity.

(4) *"Direct Rollover"* means a payment by the plan to the eligible retirement plan specified by the distributee.

(Ord. No. 45-162 § 3; Ord. No. 48-344, § 4, 6-16-09)

Sec. 2.28.420. Reserved.

Editor's note—Ord. No. 48-344, § 5, adopted June 16, 2009, repealed § 2.28.420 in its entirety. Formerly, said section pertained to Defined benefit plan limit and derived from Ord. No. 45-162, § 4.

Sec. 2.28.430. Direct rollovers of defined benefit plan distributions.

(a) Except as otherwise indicated herein, this section shall apply to rollovers made after December 31, 2001.

(b) For purposes of compliance with Section 401(a)(31) of the Internal Revenue Code, this section applies notwithstanding any contrary provision or retirement law that would otherwise limit a distributee's election to make a rollover. A distributee may elect, at the time and in the manner prescribed by the Board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(1) *"Eligible rollover distribution"* means any distribution of all or any portion of the balance to the credit of the distributee, except than an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or the life expectancy) of the distributee or the

joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under Section 401(a)(9) of the Internal Revenue Code; the portion of any distribution that is not includible in gross income; and any other distribution that is reasonably expected to total less than $200 during the year. Effective January 1, 2002, a portion of a distribution will not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only (i) to an individual retirement account or annuity described in Section 408(a) or (b) of the Internal Revenue Code or to a qualified defined contribution plan described in Section 401(a) of the Internal Revenue Code; (ii) on or after January 1, 2007, to a qualified defined benefit plan described in Section 401(a) of the Internal Revenue Code or to an annuity contract described in Section 403(b) of the Internal Revenue Code, that agrees to separately account for amounts so transferred (and earnings thereon), including separately accounting for the portion of the distribution that is includible in gross income and the portion of the distribution that is not so includible; or (iii) on or after January 1, 2008, to a Roth IRA described in Section 408A of the Internal Revenue Code. Effective January 1, 2002, the definition of eligible rollover distribution also includes a distribution to a surviving spouse, or to a spouse or former spouse who is an alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code.

(2) *"Eligible retirement plan"* means any of the following that accepts the distributee's eligible rollover distribution:

(A) An individual retirement account described in Section 408(a) of the Internal Revenue Code;

(B) An individual retirement annuity described in Section 408(b) of Internal Revenue Code;

(C) An annuity plan described in Section 403(a) of the Internal Revenue Code;

(D) A qualified trust described in Section 401(a) of the Internal Revenue Code;

(E) Effective January 1, 2002, an annuity contract described in Section 403(b) of the Internal Revenue Code;

(F) Effective January 1, 2002, a plan eligible under Section 457(b) of the Internal Revenue Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or a political subdivision of a state that agrees to separately account for amounts transferred into that plan from the retirement system; or

(G) Effective January 1, 2008, a Roth IRA described in Section 408A of the Internal Revenue Code.

(3) *"Distributee"* means an employee or former employee. It also includes the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code. Effective January 1, 2007, a distributee further includes a nonspouse beneficiary who is a designated beneficiary as defined by Section 401(a)(9)(E) of the Internal Revenue Code. However, a nonspouse beneficiary may rollover the distribution only to an individual retirement account or individual retirement annuity established for the purpose of receiving the distribution, and the account or annuity will be treated as an "inherited" individual retirement account or annuity.

(4) *"Direct Rollover"* means a payment by the plan to the eligible retirement plan specified by the distributee.

(c) Rollover contributions and/or direct rollovers of distributions made after December 31, 2001, will be accepted for the purchase of prior or future service credit only from the types of plans specified.

(d) The plan will accept a direct rollover of an eligible rollover distribution from:

(1) A qualified plan described in Section 401(a) or 403(a) of the Internal Revenue Code.

(2) An annuity contract described in Section 403(b) of the Internal Revenue Code.

(3) An eligible plan under Section 457(b) of the Internal Revenue Code which is maintained by a state, political subdivision of a state, or an agency or instrumentality of a state or political subdivision of a state.

(e) The plan will accept a participant contribution of an eligible rollover distribution from:

(1) A qualified plan described in Section 401(a) or 403(a) of the Internal Revenue Code.

(2) An annuity contract described in Section 403(b) of the Internal Revenue Code.

(3) An eligible plan under Section 457(b) of the Internal Revenue Code which is maintained by a state, political subdivision of a state; or an agency or instrumentality of a state or political subdivision of a state.

(f) The plan will accept a participant rollover contribution of the portion of a distribution from an individual retirement account or annuity described in Section 408(a) or 408 (b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be includible in gross income.

As soon as administratively practicable following the participant's formal request, the participant's benefits hereunder shall be distributed to the participant or participant's beneficiaries in accordance with the provisions of Section 2.30.100 hereof.

Prior to termination of employment, a participant may terminate additional deferrals pursuant to the applicable terms of the plan. In the event a participant so terminates future deferrals hereunder while continuing participant's employment, the total amount deferred shall continue to be administered in accordance with the terms of this plan and the benefits attributable thereto shall only be distributed at such time and in such manner as is specified in Section 2.30.100 hereof.

The participant's deferred compensation account shall be credited with earnings thereon, if any, and shall be credited or debited, as the case may be, with the net amount of any gains or losses which may result from the investment of all or any portion of the amount in participant's deferred compensation account. The employer shall not be liable for any losses or any investment credited to any deferred compensation account.
(Ord. No. 43-665 § 13; Ord. No. 51-875, § 1, 6-21-22)

Sec. 2.30.080. Investment of trust assets.

The administrator shall have the sole authority to select the investment options available to participants for the investment of assets in the deferred compensation trust. Investments may be made available by the administrator in but not limited to insurance, annuities, all investments eligible under any city or state employee retirement programs and in such other investment sources as is permitted by applicable state law, including any self-directed brokerage option permitted by the plan.

The net interest, accumulations and increments resulting from the investments shall be credited to and held in the appropriate accounts for the benefit of participants until distribution as hereinafter specified.

As of the last day of each calendar quarter, this plan shall be in effect, and as of the day of termination of participant's employment, administrator, in coordination with any designated recordkeeper, shall cause to be prepared a statement of each participant's account showing the total amount deferred on the valuation date after deducting reasonable expenses therefrom. Reasonable expenses shall include, but not necessarily be limited to, accounting, legal, commissions, consulting and management fees. The only cost to be borne by the employer is that of payroll deduction. However, members of the management board are to receive no salary. The employer shall not be responsible for any loss due to the investment or failure of investment of funds and assets in the deferred compensation account, nor shall employer be required to replace any loss whatsoever which may result from the investment.
(Ord. No. 43-665 § 17; Ord. No. 51-875, § 1, 6-21-22)

Sec. 2.30.100. Employment termination.

For the purpose of the plan, participant's employment with employer is deemed to be terminated on the day after the last day the participant is on the employer's payroll when any of the following events occur:

a. Cessation of employment of participant (by resignation or otherwise) for the convenience of either participant, employer, or both;

b. Retirement of participant pursuant to the provisions of any plan for retirement by which employees of the employer may terminate their employment with the employer to a status commonly referred

to as "retired"; (employer's present employee benefits permit retirement for length of service or length of service and age or for physical disability);

c. Death of participant while an employee.
(Ord. No. 43-665 § 19)

Sec. 2.30.101. Participant selection of payment option of deferred benefits.

All such selections shall only become effective upon receipt by the administrator.

A participant may request a trustee-to-trustee transfer of assets to a governmental defined benefit plan for the purchase of permissible service credit (as defined in Internal Revenue Code section 415(n)(3)(A)) under such plan or a repayment to which Internal Revenue Code section 415 does not apply by reason of subsection (k)(3) thereof. Such participant may be an employee as defined in Section 2.30.020.
(Ord. No. 45-161 § 1; Ord. No. 43-665 § 21; Ord. No. 51-875, § 1, 6-21-22)

(a) As used in this section, the term "alternate payee" and "qualified domestic relations order" shall have the meaning ascribed to them in Section 414(p) of the United States Internal Revenue Code of 1954, as amended. The City of Wichita shall not be a party to any action under Article 10 of Chapter 60 of the Kansas Statutes Annotated but effective for all transfers, payments and distributions made after December 31, 2001, is subject to orders from such actions issued by the district court of the county where such action was filed and may also accept orders which it deems to be qualified under this section from courts having jurisdiction of such actions outside the State of Kansas. Orders from such actions shall specify either a specific amount or specific percentage of the total of the participant's account balance to be distributed to the alternate payee.

(b) The order must contain the following information:

Sec. 2.30.120. Financial hardships.

In the event of an unforeseeable emergency as defined in Section 2.30.020(p) of this chapter, a participant may request that the administrator, in coordination with any designated recordkeeper, pay to the participant all or a portion of such participant's total amount deferred to the date of payment. If the application for payment is approved by the administrator or recordkeeper, payment will be made within thirty days following such approval. Payment shall be limited strictly to that amount reasonably necessary to meet the situation constituting the unforeseeable emergency, and payments may not be made to the extent that a hardship is or may be relieved through reimbursement or compensa-

tion by insurance or otherwise, by liquidation of the participant's assets (to the extent such liquidation does not itself cause severe financial hardship), or by cessation of deferrals under the plan.
(Ord. No. 43-665 § 25; Ord. No. 51-875, § 1, 6-21-22)

Sec. 2.30.130. Exclusive benefit.

(Ord. No. 43-665 § 27)

Sec. 2.30.140. Designation of beneficiaries.

Each participant, by filing notice in writing with administrator or any designated recordkeeper, shall have the right to designate such beneficiary or beneficiaries who, if alive, shall receive any unpaid benefits hereunder in the event of a participant's death. Any such designation or designations may be revoked or changed from time to time by notice in writing filed by participant with administrator or designated recordkeeper. In the absence of any such designation, or the revocation of all prior designations without a new designation, or if any designated beneficiary or beneficiaries shall predecease participant, any such unpaid benefits at the death of participant shall be paid to participant's surviving spouse, or if none, to participant's estate. Such notice of beneficiary designation shall be in such form and contain such terms as administrator, in coordination with any designated recordkeeper, shall from time to time prescribe.
(Ord. No. 43-665 § 29; Ord. No. 51-875, § 1, 6-21-22)

Sec. 2.30.150. Nonalienation of interest.

Except for plan loans approved pursuant to the Loan Policy maintained by the administrator, no right or benefit of any participant or of such participant's beneficiary under this plan shall be subject to anticipation, alienation, assignment, sale, pledge, encumbrance or charge, and any attempt to otherwise anticipate, alienate, assign, sell, pledge, encumber or charge the same shall have no force or effect. If any participant or beneficiary shall violate the terms of this section, or shall become bankrupt, then such participant's or beneficiary's rights and benefits hereunder shall, in the sole and absolute discretion of administrator, cease and terminate, and in such event administrator shall hold or apply an amount equal to the then-value of such rights and benefits, or any part thereof, for the benefit of participant or such participant's beneficiary(ies), spouse, children or other dependents, or any of them, in such manner and in such amounts as city shall direct.
(Ord. No. 43-665 § 31; Ord. No. 49-017, § 1, 6-7-11; Ord. No. 51-875, § 1, 6-21-22)

Sec. 2.30.160. Employment rights.

The adoption and maintenance of this plan shall not, in and of itself, be deemed to constitute or be evidence of a contract of employment between any participant and employer. Nothing herein shall be deemed to give to any participant the right to be retained in the employ of employer or to interfere with the right of employer to discharge any participant at any time, subject only to the terms of such employment agreements as may otherwise exist between participant and employer. Conversely, nothing herein shall be deemed to give employer the right to require any participant to remain in its employ or to interfere with participant's right to terminate employment at any time.
(Ord. No. 43-665 § 33; Ord. No. 51-875, § 1, 6-21-22)

Sec. 2.30.170. Amendments or termination of plan.

Employer shall have the right to alter or amend this plan at any time or times, to any extent and in any manner it shall deem advisable or appropriate in order to incorporate changes made to the Internal Revenue Code or other applicable law, or to the basic plan document and/or adoption agreement, by action of the City Council in an open, public meeting.

(b) The City Clerk, or designee, as the LFIO, shall be responsible for the following duties:

(1) Prepare and provide educational materials and information regarding the KORA.

(2) Assist City employees and the public in resolving open records disputes.

(3) Respond to inquiries regarding open records matters.

(4) Prepare a brochure and other information about the KORA, the rights of requesters, responsibilities of the City, and procedures for inspecting and obtaining copies of public records.

(5) Display, distribute or otherwise make available, the brochure in the City Council office and all other City departments where it is available to members of the public who request public information in person, and have the brochure available online.

(6) Coordinate open records requests received by the City Clerk.

(7) Ensure that City employees are aware of the requirements of the KORA and their responsibilities pursuant to the KORA and the City Code.

(8) Be available to departmental personnel and requesters for consultation where the application of the law may be unclear and a ruling is necessary. The LFIO will consult with the Department of Law for legal review of records to be produced under the KORA and may consult with the City Manager's Office prior to making a final determination.

(Ord. No. 51-620, § 3, 8-17-21)

Sec. 2.76.040. Official records custodians by department, appointment and duties.

(a) All Department Directors are appointed as official record custodians for public records not on file in the office of the City Clerk that are kept and maintained within their respective departments.

(b) Each of the official custodians appointed in Subsection (a) of this section may designate any subordinate officers or employees to serve as record custodians. Whenever an official custodian appoints another person as a record custodian, the official custodian shall notify the City Clerk in writing of such designation and the City Clerk shall maintain a list of all such designations. It shall be the responsibility of the Department Directors to ensure that designated record custodians are kept up to date with any personnel or staffing changes.

(c) Duties of custodians. All department heads and employees appointed or designated under this section shall be responsible for the following duties and will consult with the LFIO and/or Law Department when questions arise under any of these responsibilities:

(1) Being knowledgeable of the provisions of the KORA and its application within their area of supervision.

(2) Knowing the types of public records maintained within the custodian's supervision and whether those records are open or exempted by the KORA.

(3) Being the point of contact for public requests for access to records and providing timely assistance and information upon request.

(4) Prominently displaying or making available to the public the brochure prescribed by the LFIO that contains basic information about the rights of a requester, responsibilities of a public agency, and the procedures for inspection or obtaining a copy of public records under the KORA.

(5) Assuring that the response to a request does not result in damage or disorganization to records under the custodian's supervision or does not cause excessive disruption of the department's essential functions, and advising the LFIO and Department of Law if it is determined that response to the request may cause such problems.

(6) Assuring that records are not removed from the department premises without written authorization from the record custodian.

(7) Coordinating a response to the request in a timely manner and consulting with the Department of Law when needed.

(Ord. No. 51-620, § 4, 8-17-21)

Sec. 2.76.050. Public request for access.

(a) All City offices keeping and maintaining open public records shall provide the public with the following information upon request:

(1) The local open records brochure.

(2) Regular office hours and any additional times in which inspection and copying of public records will be allowed.

(3) The title and location of the record custodians (City Clerk/LFIO, and designees) and departmental custodians.

The City Clerk/LFIO will provide each department with a list of records custodians.

(4) The fee schedule for access and copies.

(5) Procedures to be followed in requesting inspection or copying of records.

(Ord. No. 51-620, § 5, 8-17-21)

Sec. 2.76.060. Requests for records; general procedures.

Any person requesting access to an open public record shall abide by, and each records custodian shall apply the following general procedures:

(a) Consistent with the policy, duties and procedures established by the KORA, the City's official and appointed record custodians shall provide full access and assistance in a timely and efficient manner to persons who request access to open public records.

(b) Record custodians shall adopt and apply procedures which will ensure the protection and preservation of public records with respect to the manner in which such records are inspected and copied.

(c) Record custodians shall take necessary measures, not inconsistent with their duties, to ensure that the essential functions of the custodian's office, department or agency are not disrupted by requests for record inspection and copying.

(d) All persons requesting inspection of or a copy of open public records must make such request in writing, except as otherwise provided in this Chapter, and include their name, address and a reasonable description of the record document(s) they desire to inspect and copy. Although no particular form is required, the official custodian shall provide a City form for the requestor's convenience. No written request shall be required for requests made for records which have been reproduced for free public distribution.

(e) A written request shall be sufficient if it reasonably describes the record sought. In instances where the requester cannot provide sufficient information to identify a record, the custodian shall assist in making such identification, if possible.

(f) All record inspection and copying requests are to be submitted by the person requesting the record. The official or record custodian may demand reasonable identification of any person requesting a record.

(g) Hours for making requests in person for inspection and/or copying shall be all regular working hours for each day the office maintains regular working office hours.

(h) All record custodians are hereby authorized to impose fees for access to public records as set forth in Chapter 2.77 of this Code, and amendments thereto.

(i) Each request for access to open public records shall be responded to as soon as possible, but no later than the end of the third business day following the date that the request was received. If a response is not provided within three working days and must be delayed, the records custodian shall proceed as set forth within Section 2.76.110, and amendments thereto.

(j) The record custodian will allow access to an open public record only in the area of City Hall or other building in which the record is kept.

(k) The above procedure, as well as any other inspection and copying procedures shall be available in the office of the official custodian.

(Ord. No. 51-620, § 6, 8-17-21)

Sec. 2.76.070. Procedures for inspection of public records.

(a) Each department should handle requests for "inspection only" of records. Such requests shall be made in accordance with the provisions set forth in Section 2.76.060, and amendments thereto.

(b) All inspections of open public records shall be performed by, or under the supervision of, the record custodian responsible for such records. Under no circumstances will a public record be removed from such premises for public inspection. If the record custodian is unable to provide inspection access to the public record at the time of the request, the custodian may schedule the inspection for a time certain no later than the end of the third business day following the request.

(c) For requests where the record custodian believes that a specific record may be exempted from disclosure under the provisions of the KORA, the record custodian shall inform the requester that the record must be reviewed to determine if it is exempt from disclosure and that a response will be made to the requestor no later than the end of the third business day following the request. During that time period, the custodian shall contact the Law Department and obtain a legal opinion pertaining to the disclosure of such record. If the record is exempt from disclosure under the provisions of the KORA, the custodian, with direction from the Law Department, shall deny inspection thereof. If the record is determined to be an open public record, the custodian will contact the requestor no later than the end of the third business day following the request and schedule an inspection for a time certain.

(d) Where a request has been made for inspection of any open public record which is readily available to the record custodian, there will be no inspection fee charged to the requester. If the request for inspection requires search or retrieval of records, the requester should be notified of the estimated costs as set forth in Section 2.77.070 of this Code and amendment thereto, and that no work will be undertaken until there is payment of such estimated costs.
(Ord. No. 51-620, § 7, 8-17-21)

Sec. 2.76.080. Procedures for copying public records.

(a) Each department should handle all requests for copying records in accordance with the provisions set forth in Section 2.76.070, and amendments thereto.

(b) All copying of open public records shall be performed by, or under the supervision of, the record custodian responsible for such records.

(c) The requester should be notified of the estimated costs as set forth in Section 2.77.070 of this Code and amendments thereto, and that no work will be undertaken until there is payment of such estimated costs. When staff time needed to respond to a request will exceed five (5) hours or the estimated actual cost for staff time needed to fill the request exceeds two hundred dollars ($200), staff shall make reasonable efforts to contact the requester and engage in interactive communication about mitigating costs to fill the request. The requester is not obligated to mitigate costs. As used in this subsection, "reasonable efforts to contact the requester" means contacting the requester through the means of communication provided to the agency by the requester.

(d) If staff has made a reasonable effort to contact the requester and the requester has failed to respond by the end of the third business day, the records request will be deemed to be withdrawn until a subsequent contact has been made by the requester to the City of Wichita.

(e) In cases where a request for copies of a specific record or records requires search or retrieval of records, the requester should be notified of the estimated costs as set forth in Section 2.77.070 of this Code and amendment thereto, and that no work will be undertaken until there is payment of such estimated costs. Once records are located and/or retrieved, additional fees may be assessed for review of such records in order to determine whether the records, or any portion thereof, are open and copies may be provided. Costs may include the cost to review and redact the requested records but shall not include incidental costs incurred that are not attributable to furnishing the requested records. No copy fees shall be assessed when multiple copies of the record requested have been prepared for free public distribution or when the record custodian determines that the cost of charging and handling the fee exceeds the cost of providing a copy without charge.

(f) In cases where the records requested are available online, the record custodian shall so inform the requester and provide information on where the records may be accessed in lieu of making paper copies thereof. However, if the requester continues to request paper copies of the records, the record custodian shall provide paper copies after collecting the appropriate copy fees.

(g) Mechanical reproduction of a record shall not be undertaken when it is the judgement of the records custodian that any available means of mechanically reproducing the subject record is likely to cause damage to such record.

(h) Removal of open public records from the office where kept and maintained for purposes of making copies shall be permitted only with the written permission of the official department custodian. It shall be unlawful for any person to fail to return records that have been removed from any City department or facility at the time and place where such return has been promised. Upon conviction for a violation of this subsection, a person may be fined up to five hundred ($500) dollars, be sentenced to three (3) days in jail, or be both so fined and imprisoned.

(i) Record custodians are encouraged to provide copies of records electronically if possible, and to the extent allowed by law.
(Ord. No. 51-620, § 8, 8-17-21; Ord. No. 52-747, § 1, 6-17-25)

Sec. 2.76.090. Audio, video, photographic and other similar records—Procedures for access.

(a) Pursuant to the provisions of K.S.A. 45-219(a), and amendments thereto, a record custodian is not required to provide copies of videotapes or films, photographs, radio or recording tapes or discs, slides, graphics, illustrations or similar audio or visual items or devices unless such items or devices were shown or played at a public meeting of the City Council. This provision shall not apply to video, photos or audio items that are stored as computer data. Access to an audio or video recording made and retained by law enforcement as a criminal investigation record shall be allowed as set forth in Section 2.76.100 of this Chapter, and amendments thereto.

(b) A record custodian shall not be required to provide copies of any records or devices described in Subsection (a) herein that are copyrighted by a person other than the City of Wichita.

(c) If the records described in Subsection (a) herein are deemed to be open public records, a requester may be provided viewing or listening access in the office where the records are kept, or other area within City Hall or other City building or facility where equipment exists that allows such viewing or listening access. Such access shall be subject to the following procedures:

(1) Viewing or listening access shall be provided by advance appointment only to ensure that city staff is available to provide and monitor such viewing.

(2) City staff shall be present at all times during viewing or listening access with fees for staff time to be charged as set forth in Chapter 2.77 of this Code, and amendments thereto.

(3) Recording or photographing of such records is prohibited during viewing or listening access and no recording or photographic devices shall be allowed in the area where viewing or listening access is allowed.

(Ord. No. 51-620, § 9, 8-17-21)

Sec. 2.76.100. Audio, video or photographic records—Law enforcement—Procedure for access.

(a) Pursuant to the provisions of K.S.A. 45-254, and amendments thereto, every audio or video recording made and retained by law enforcement using a body camera or a vehicle camera shall be considered a criminal investigation record as defined in K.S.A. 45-217, and amendments thereto.

(b) Release and viewing access to such records of the Wichita Police Department shall be in accordance with the provisions and requirements of K.S.A. 45-254 (b)—(d), and amendments thereto.

(c) Release and viewing or listening access to video and audio records, as well as photographic records of the Wichita Police Department, may be additionally authorized by policies of the Chief of Police, in accordance with state law and as developed and set forth in writing in the Policy and Procedure Manual of the Wichita Police Department.

(d) When viewing or listening access to such records is provided, the procedures set forth in Section 2.76.090(c), and amendments thereto, shall be followed.
(Ord. No. 51-620, § 10, 8-17-21)

Sec. 2.76.110. Delay notice.

If a record custodian cannot respond to a request for open public records by the end of the third business day following the date that the request was received, a written delay notice shall be sent to the requester stating the reason for the delay and shall set forth a date by which the record will be made available. If a subsequent delay or delays become necessary, a written notice with a date by which the record will be made available shall be sent to the requester for every delay.
(Ord. No. 51-620, § 11, 8-17-21)

Sec. 2.76.120. Denial of requests.

A record custodian may deny a request for inspection and/or copies of records if it is determined that the records are not required by law to be disclosed, that such a request will place an unreasonable burden upon the City, or that such request was made with the intent to disrupt City activity. In no instance should a record custodian issue a denial of access to a public record without first consulting with the Law Department. When a denial is issued, it shall be done in writing and must provide the requester with information as to why the records access was denied and the statutory basis for such denial.
(Ord. No. 51-620, § 12, 8-17-21)

Sec. 2.76.130. Payment of fees.

(a) Fees for inspection and/or copying of public records are hereby authorized and shall be calculated by the record custodian in accordance with the amounts established in Chapter 2.77 of this Code, and amendments thereto.

(b) All fees collected for inspection and/or copying of public records shall be assessed, collected and remitted by the record custodian as set forth in Chapter 2.77 of this Code, and amendments thereto.

(c) No record copying charge shall be assessed against officers or employees of the City who make requests which are reasonably necessary to the performance of their official duties.
(Ord. No. 51-620, § 13, 8-17-21)

Sec. 2.76.140. Exceptions.

The provisions of this Chapter shall not apply to following:

(a) Information that is extracted from public records and routinely passed to citizens verbally during the normal course of business;

(b) Records produced pursuant to a subpoena, discovery order in a criminal or civil case or other court order for production of records; or

(c) Records obtained through an automated system set up for online purchase of such records.

(Ord. No. 51-620, § 14, 8-17-21)

(Ord. No. 51-621, § 1, 8-10-21)

Sec. 2.77.020. Statement of purpose, review.

It is the purpose of this Chapter to establish reasonable fees and charges for providing access to or copies of public records of the City to a records requester to avoid utilizing general funds of the City to subsidize these special services. Such fees and charges may also include, but are not limited to, other costs incurred such as inspection, research, search of data storage devices, extracting data from computerized databases, running data reports, organization and review of documents retrieved, postage and shipping. Only the actual cost of furnishing the records, including the cost of actual staff time to make the information available, may be assessed. The official record custodians shall periodically recommend to the City Council such changes in this Chapter as may be necessary to secure this purpose.
(Ord. No. 51-621, § 2, 8-10-21; Ord. No. 52-747, § 2, 6-17-25)

Sec. 2.77.030. Inspection/research fees.

(a) When a request has been made for inspection or copying of any public record which is not readily available to the record custodians, research, review and/or supervision fees shall be charged as follows:

(1) Staff personnel: $5.00 each 15-minute increment or portion thereof.

(2) Attorney time: $10.00 each 15-minute increment or portion thereof.

(3) Information Technology personnel: As set forth in Section 2.77.040, and amendments thereto.

(4) Retrieval of documents stored offsite at Underground Storage shall be the actual cost to the City per box, including staff time, in retrieving such records.

(b) Fees for staff time required to monitor the in-house inspection of documents or viewing or listening access to records as allowed by this code shall be charged at the applicable rate set forth in subsection (a), however, there shall be no charge for the first thirty (30) minutes of such staff time required.

(c) To determine applicable staff costs, the City shall use, in good faith, the lowest cost category of staff reasonably necessary to access or furnish copies of public records. Charges assessed shall not exceed the employee's salary or hourly rate not including the costs of employee benefits.
(Ord. No. 51-621, § 3, 8-10-21; Ord. No. 52-747, § 3, 6-17-25)

Sec. 2.77.040. Copying fees.

(a) When a request has been made for copying of any public record, a fee of $.25 per page may be charged for black and white photocopies and $1.00 per page for color copies. Such fees shall include the cost of labor, materials and equipment.

(b) For copying of any public records that cannot be reproduced by the City's photocopying equipment and must be copied offsite, the requestor shall be charged the actual cost to the City, including staff time, in reproducing such records.

(c) Mechanical reproduction of a record shall not be undertaken when it is the judgment of the record custodian that any available means of mechanically reproducing the subject records is likely to cause damage to such records.
(Ord. No. 51-621, § 4, 8-10-21)

Sec. 2.77.050. Computer data.

When a request has been made for inspection or copying of any public record which involves a search of data storage devices and/or extracting data from computerized databases or running data reports, fees shall be charged as follows:

(a) Information Technology staff time: $9.50 for each 15-minute increment or portion thereof.

(b) Where a request for computer data involves subsequent review of such data for a determination if the records are open public records, staff time required to review and make such determination will be charged as research fees set forth in Section 2.77.030 and amendments thereto.

(Ord. No. 51-621, § 5, 8-10-21)

Sec. 2.77.060. Additional copy/delivery fees.

(a) Where a request for open public records involves use of a data storage device to provide electronic copies of the records, the fee charged shall be $1.15 per CD or DVD disc and $5.00 per USB thumb drive. For any other data storage device, it shall be the actual cost to the City.

(b) Where a request for public records involves mailing or shipping such records, the charges shall be determined and assessed by the records custodian based upon the current postal rates for U.S. Mail service or actual shipping charges covering mailing and handling costs accrued in responding to requests.

(c) Where a request for public records involves faxing copies of such records, the fees shall be as follows:

(1) Local shall be $.25 per faxed page.

Any overage or underage in the prepayment shall be settled prior to inspection of the requested record or delivery of the requested copies.

(b) The requester should be notified of the estimated costs as set forth in Section 2.77.070 of this Code and amendments thereto, and that no work will be undertaken until there is payment of such estimated costs. When the staff time needed to respond to a request will exceed five (5) hours or the estimated actual cost for staff time needed to fill the request exceeds two hundred dollars ($200), staff shall make reasonable efforts to contact the requester and engage in interactive communication about mitigating costs to fill the request. The requester is not obligated to mitigate costs. As used in this subsection, "reasonable efforts to contact the requester" means contacting the requester through the means of communication provided to the agency by the requester.

(c) If staff has made a reasonable effort to contact the requester and the requester has failed to respond by the end of the third business day, the records request will be deemed to be withdrawn until a subsequent contact has been made by the requester to the City of Wichita.

(d) No record shall be made available to the requester for inspection or copies made thereof until such prepayment of fees has been made.

(e) A convenience fee may be charged per transaction consistent with City policy.

(f) No fees assessed by this Chapter shall be waived; however, the official department record custodian may exercise his or her discretion to waive any copying fee when such fee is less than $5.00.

All fees received by the record custodians with the exception of fees from the Airport are required to be paid to the City General Fund, and shall be remitted to the City Treasurer by the record custodians on a schedule to be determined by the City Treasurer.
(Ord. No. 51-621, § 8, 8-10-21)

Sec. 2.77.090. Exceptions.

The fees set forth by this Chapter shall not apply to the exceptions set forth in Section 2.76.140 of this Code and amendments thereto.

Any provider which only uses the distribution system of a franchised entity and which reports and pays a sum equal to the compensation calculated by Section 3.01.140(b) to the city through such franchised entity shall be exempt from the requirement of a separate franchise. Any interstate pipeline transportation company which is otherwise a provider under Sections 3.01.110 through 3.01.200 shall not be required to obtain a separate franchise under this section, provided that all users of such interstate pipeline transportation company who are located within the city shall obtain a franchise and shall report and pay a sum equal to the compensation calculated by Section 3.01.140(b) and a sum equal to five percent of the amount paid for the transportation of such natural gas.

(b) The franchise required under Sections 3.01.110 through 3.01.200 shall substantively contain the following elements:

3. The provider shall agree that the city shall have access to and the right to examine and audit all records reasonably necessary to verify the payment of the franchise fees. If any such payment is found to be incorrect, then payment shall be made upon a corrected statement. The provider shall agree that for each and every month, or any part thereof, that the franchise compensation remains unpaid after the same becomes due and payable by the provider, there shall be added as a late charge a sum equivalent to the statutory rate for interest on the unpaid amount.

In the event the provider owns or maintains all or any portion of a distribution system, it shall agree to provisions on the use of the public right-of-way and the construction, location, and relocation of facilities, and the quality of standards of service, all substantively equivalent to those of the franchised entities.

9. The provider shall agree to file its acceptance in writing of the provisions, terms, and conditions of the franchise with the city clerk within sixty days after final passage and approval of the franchise ordinance.

(a) Natural Gas Fees by a Provider Required to Have a Franchise. In consideration of and as compensation for the franchise granted to the provider by the city, the provider shall make an accounting on a monthly basis to the city of all sales, distribution, or transportation to any consumer or user for use within the city by the provider or by others through the distribution facilities of the provider. The provider shall pay the city a franchise fee calculated as follows:

(1) A sum equal to five percent of the gross receipts;

(2) A sum equal to the volumetric rate multiplied by the number of MCF of natural gas transported or distributed by the provider.

Such sums shall be adjusted for uncollectible receivables and uncollectible receivables which are later collected. Such payments shall be made to the city under procedures established by the city treasurer within thirty days of the last day of the month to which such accounting shall apply.

(b) Natural Gas Fees by a Provider Through a Franchised Entity. In consideration of and as compensation for the use of the public right-of-way, any provider using the distribution system of a franchised entity (other than provider) shall pay the city through the franchised entity a fee calculated in the manner provided in Section 3.01.140(a)(2). Such payments shall be made monthly under procedures established by the franchised entity.

In consideration of and as compensation for the franchise granted to the provider by the city, the provider shall make an accounting and provide compensation to the city for the transportation, distribution, and sale of other energy to any consumer or user for use within the city by the provider or by others through the distribution facilities of the provider. The provider shall pay the city a franchise fee that is calculated in a manner provided in each franchise that is substantially equivalent to the fees paid by providers of natural gas, taking into account the alternative form of the energy, its value per unit, and the amount of energy necessary for light, heat, power, or other purposes.

(Ord. No. 43-969 § 4)

Sec. 3.01.150. Natural gas—Adjustment of volumetric rate.

The volumetric rate shall be recalculated annually by the city beginning January 1, 2000, based upon the settlement prices. The volumetric rate calculation form on file with the city clerk and incorporated herein by reference shall be used for the recalculation of the volumetric rate. The recalculation shall be effective each January 1st and shall be based on settlement prices for the twelve month period beginning in July of the second preceding year and ending in June of the preceding year. For the fifteenth day of each month during said twelve month period, the settlement prices for the next twelve months will be summed and divided by twelve to determine an average settlement price. The average settlement prices for each of the twelve months shall then be

summed and divided by twelve and multiplied by five percent to obtain the volumetric rate to be effective January 1st of the next succeeding year. The volumetric rate shall be calculated in July annually by the city and shall be effective upon filing of the completed volumetric rate calculation form with the city clerk without the requirement of amendment of the ordinance codified in Sections 3.01.110 through 3.01.200.

Such registration shall include the name, address, and agent for the provider and shall include such information on the method and means of transportation, distribution, or sale to consumers as may be reasonably required by the city for enforcement of Sections 3.01.110 through 3.01.200. The city shall have access to and the right to examine and audit such records necessary to verify the payment of compensation.

(b) Franchised entities may serve as the agent for providers using the distribution system of the franchised entity for the purpose of reporting and collection under Sections 3.01.110 through 3.01.200.

(c) Franchised entities with a current and effective franchise and any provider which reports and pays a sum equal to the fees calculated by Section 3.01.140(b) to the city through a franchised entity shall be exempt from the separate reporting and registration requirements of Sections 3.01.110 through 3.01.200.
(Ord. No. 43-969 § 6)

(b) Provided, however, that adult entertainment establishment or adult hotel licenses may be issued for all establishments engaged in the business of adult entertainment establishments or adult hotels as of the date of enactment of the ordinance codified in this chapter, that are located within five hundred feet of a church, public park, public or parochial school, residential zoning district, erotic dance studio as defined in Section 3.06.010 of this Code, or other adult entertainment establishment or adult hotel, so long as the premises are used or held for use as an adult entertainment establishment or adult hotel. This distance is to be measured from the nearest property line of the residential zoning district, church, public or parochial school, public park or other adult entertainment establishment or adult hotel to the nearest property line of the premises on which the adult entertainment establishment or adult hotel is located or of any parking lot designated to be used by the patrons of such an establishment. Provided, however, that:

(1) Such license, once issued, shall not be renewed to any person or premises not identified in the original license; further, that should such a licensed establishment cease to be used for such purpose for a period of ninety days or more, then and in that event, no new adult entertainment establishment or adult hotel license shall be issued for the establishment except as specifically provided by this chapter.

(2) Should a licensed establishment cease to be used for such purpose for a period of ninety days or more, then and in that event the existing license shall be deemed to expire at twelve a.m., noon, on the 91st calendar day of non-use. In no event shall this provision be construed to extend the term of a license issued under this section. Should a license expire pursuant to this provision, the licensee may make application to the license collector for a refund of the portion of license fee attributed to the remaining period of the license. All such applications must be filed at least thirty days prior to the end of the

original term of the license. No refunds shall be made for a period of time less than thirty days.

Periods of time during which such establishments are being remodeled or repaired because of normal wear and tear, desire to improve the quality of the premises, or damage caused by fire or natural disaster such as floods or windstorms, shall not be included in computing the above ninety-day period, provided, that any remodeling or repair must be commenced within ninety days after closure of any structure and completed within a reasonable time thereafter. The chief of police of the Wichita police department shall be notified in writing within thirty days of closing of such establishment for remodeling or repair, such notice to state the date of commencement and estimated or actual completion of remodeling or repair. Any establishment shall not be relicensed and shall cease to be used as an adult entertainment establishment or adult hotel if repair is not commenced within ninety days after such closure, if such repairs are not completed within a reasonable time thereafter and/or if the chief of police is not notified within the thirty-day time period.
(Ord. No. 41-431 § 12)

Sec. 3.05.160. Suspension and revocation of license.

(a) The chief of police after actual service of ten days' written notice to the person holding a license for an adult entertainment establishment or adult hotel pursuant to this title, shall have the authority to suspend such license for a period not to exceed thirty days, for any violation of the provisions of this chapter or other ordinances or statutes regulating conduct in adult entertainment establishments or adult hotels; provided, however that the licensee may appeal such order of suspension to the city council within seven days from the date of such order.

(b) The city council after actual service of ten days' written notice to the person holding a license for an adult entertainment establishment, pursuant to this title, may cause to be suspended for a period of not more than thirty days or may permanently revoke such license for the following reasons:

(1) If the licensee has fraudulently obtained the license by giving false information in the application therefor;

(2) If the licensee, manager, operator, or employee has violated any of the provisions of this chapter;

(3) If the licensee has become ineligible to obtain a license under this chapter;

(4) The nonpayment of any license fees payable hereunder;

(5) For knowingly employing a person who has been, within one year prior to the date of employment, or who during the period of employment is adjudged guilty of or participated in a diversion agreement after being charged with a felony or a morals charge, or within one year prior to employment has been released from probation from a felony or a morals charge.

Provided, that if any of the grounds for revocation herein enumerated are violated by an employee, a manager, or agent, then in absence of proof of knowledge by the licensee, there shall be no revocation, except as herein provided, but there may be a suspension of not more than thirty days; it being further provided that in the event any licensee is subjected to more than two such suspensions in any twelve-month period, his or her license may be revoked on the third such violation.

Upon appeal taken from an order of suspension or revocation the court may stay the order of suspension or revocation upon a showing by the appellant and a finding by the court that a substantial likelihood exists that the movant will eventually prevail on the merits and that the movant will suffer irreparable injury unless the stay is granted. If there is no stay by the court then the order of suspension or revocation shall not be suspended during the pendency of any such appeal. In case of the revocation of a license of any licensee, no new license shall be issued to such person or to any person acting for or on his or her behalf, for a period of six months after the revocation becomes effective.
(Ord. No. 41-431 § 13)

Sec. 3.05.170. Penalty.

Any person who violates any provision of this chapter is guilty of a misdemeanor and, upon

conviction thereof, shall be punished by a fine not to exceed five hundred dollars or by imprisonment for not more than ninety days, or by both such fine and imprisonment.
(Ord. No. 40-516 § 17)

Sec. 3.05.180. Injunctions.

The city attorney may bring an action in the District Court of the Eighteenth Judicial District or any other appropriate court having jurisdiction to enjoin the violation of said section of this Code.
(Ord. No. 40-516 § 18)

Sec. 3.05.190. Invalidity of part.

Sec. 3.06.010. Purpose.

The City of Wichita finds that some after-hours establishments within the city contribute to public intoxication, noise, disorderly conduct, assaults, violent crime and other similar problems connected primarily with the routine congregation of persons around such after-hours establishments, especially those which are managed without adequate security and attention to preventing these problems.

The City of Wichita finds that a significant amount of police resources are being expended to address safety issues at after-hours establishments and safety risks are abundant when City personnel are not allowed to enter the facility for safety checks on locked doors and fire suppression devices. The purpose of this Chapter is to regulate the operation of all after-hours establishments so as to minimize the negative effects and to preserve the public safety, health and welfare. (Ord. No. 50-863, § 2, 9-25-18)

Sec. 3.06.020. Definitions.

The following words, as used in this Chapter, have the meanings set forth below:

"After-hours establishment" means any building with an occupancy classification of A, B, E, F, H, M, or S pursuant to the 2018 International Building Code, and/or subsequent versions of the IBC adopted by the City of Wichita, which is used as a venue for a single event, series of events or ongoing activity or business, occurring alone or as part of another business, to which individuals, who are not employees or contractors of the business or establishment, are invited or allowed to enter or remain on the premises and which is open anytime between midnight and 6:00 a.m., and the property or building is not otherwise licensed for the sale of alcoholic beverages or cereal malt beverages or otherwise licensed by the City of Wichita or State of Kansas for a business at that location. This term shall apply to occupancy classified buildings that are owned, leased, or rented as venues for private parties. This term shall not include churches, hospitals, hotels, motels or other boarding houses or private homes. A combination of two or more of the following factors is prima facie evidence that an establishment is an "after-hours establishment":

1) Playing of music either recorded or live;

2) Entertainment such as trivia or games;

3) Sporting events in person or broadcasted on screens;

4) Crowds in excess of 20 people;

5) Alcoholic beverages present;

6) Food by an unlicensed vendor offered for purchase or as a benefit of paid entry;

7) Entry allowed only upon payment of a fee or membership;

8) Establishment monitored by security guards;

9) Advertisements or notifications on social media or by other means that invite the public to attend or participate in functions or activities located on the premises of such establishment.

"Alcoholic beverages" means any alcoholic liquor, as defined by Section 4.04.010(b) of the Code of the City of Wichita and amendments

thereto, or any cereal malt beverage, as defined by Section 4.04.010(h) of the Code of the City of Wichita and amendments thereto.

"Cereal malt beverages" means any fermented but undistilled liquor brewed or made from malt or from a mixture of malt or malt substitute or any flavored malt beverage, as defined in K.S.A. 41-2729, and amendments thereto, but does not include any such liquor which is more than 3.2% alcohol by weight.

"Chief of Police" means the Chief of the Wichita Police Department or designee.

"Conviction" or "violation" shall include, but is not limited to, being placed on diversion or being adjudged guilty upon entering a plea of no contest.

"Fire Chief" means the Chief of the Wichita Fire Department or designee.

"Games" mean an activity engaged in for diversion or amusement.

"License" means the authority to conduct the business of an after-hours establishment within the city limits.

"Licensee" means any person to whom a current license has been issued under this Chapter authorizing such person to conduct the business of an after-hours establishment within the city limits.

"MABCD" is the Metropolitan Area Building and Construction Department, its director and designees.

"Manager" means a person, regardless of the job title or description, who is operating the establishment or who has discretionary powers to organize, direct, carry on, or control the operations of an after-hours establishment. Authority to engage in one or more of the following functions is prima facie evidence that a person is a Manager of the after-hours establishment:

(1) Hire or terminate employees; or

(2) Contract for the purchase of furniture, equipment, or supplies, except for the occasional replenishment of stock; or

(3) Disburse funds of the business, except for the receipt of regularly replaced items of stock; or

(4) Make or participate in making policy decisions regarding operations of the Establishment.

"Music" as used in this Chapter shall apply to live musicians, disc jockeys, and all music amplified through speakers or loud enough to be heard outside of the establishment.

Sec. 3.07.005. Preamble.

Whereas, the City of Wichita has endeavored to license the operation of escort services within the city limits and has adopted regulation of said businesses to discourage their use to promote sexual activity among licensees and the general public; and

Whereas, courts in various jurisdictions of the United States have held that it is a legitimate exercise of a governing body's police powers to restrict through licensing the extent to which escort services may be utilized as devices to engage in sexually oriented businesses; and

Whereas, the City of Wichita has experienced a correlation between arrests for prostitution and other prohibited sexual activity and the operation of escort services; and

Whereas, the city desires to protect the health, safety and welfare of its citizenry; and

Whereas, it is not the intent of the city to suppress any right of free association protected by the First Amendment to the United States Constitution, but to enact a content neutral ordinance which addresses the public health concerns of escort services; and

Whereas, it is a proper exercise of governmental regulation to base fees on actual costs of review, issuance, enforcement and regulation of business and franchise licensing; and

Wherefore, the City of Wichita enacts this ordinance amending the current licensing ordinances applicable to escorts and escort services. (Ord. No. 45-909 § 1)

The daily register described in this section shall be subject to inspection at the request of any law enforcement officer who is making said request for inspection pursuant to said officer's lawful duties as a law enforcement officer. The refusal of a licensee to allow such an inspection shall not be a criminal violation of the ordinance codified in this chapter nor shall it be considered grounds for suspending, revoking or otherwise taking punitive measures or action against the licensee or the escort service's license. However, in the event of such a refusal, an inspection may be conducted upon the issuance of a valid search warrant, issued under the authority of K.S.A. 22-2501, and amendments thereto. The daily register described in this section shall be kept and maintained at the open office or licensed premises for a period of one year.

It is the purpose of this Chapter to establish a process for permitting community events to use City streets, parks, and City-owned facilities. The City recognizes that substantial community benefits may result from community events. They can provide cultural enrichment, promote economic vitality and enhance community identity. They may also provide funding opportunities for service organizations. This Chapter is to provide a coordinated process for managing community events occurring on public and private property to ensure the health and safety of event patrons, residents, workers, and other visitors; to prohibit illegal activities from occurring at the community events; and to protect the rights of community event permit holders. It is also the intent of the Council to protect the rights of people to engage in expressive activities in the City's public places and to establish the least restrictive and reasonable time, place and manner regulation of these activities, without regard to the expressive content of those activities.

In the event that the applicant fails to receive the franchise, then that portion of the application fee which has not been expended shall be returned to said applicant.

No provision of this chapter may be deemed or construed as to require the granting of a franchise when in the opinion of the commission it is not in the public interest.

(Ord. No. 32-354 § 2)

Sec. 3.16.030. Uses permitted by grantee.

Any franchise granted pursuant to the provisions of this chapter shall authorize and permit the grantee to engage in the business of operating and providing a CATV system in the city, and for that purpose to erect, install, construct, repair, replace, reconstruct, maintain and retain in, on, over, under, upon, across and along any public street, such poles, wires, cable, conductors, ducts, conduit, vaults, manholes, amplifiers, appliances, attachments and other property as may be necessary and appurtenant to the CATV system; and in addition, so to use, operate and provide similar facilities or properties rented or leased from other persons, firms or corporations, including but not limited to any public utility or other grantee franchised or permitted to do business in the city.

The grantee shall use existing poles, towers or other existing facilities wherever possible and it shall be the sole responsibility of the grantee to negotiate and enter into any and all contracts with the owner of such facilities to secure the necessary space thereon or therein for its operation under this franchise and the grantee shall permit any other utility or utilities by appropriate contract or agreement negotiated by the parties to use any and all facilities constructed or erected by the grantee. All the agreements and installations shall be subject to all existing and future ordinances and regulations of the city.

In the event that existing facilities are inadequate to carry or handle the request of the grantee herein and it becomes necessary to do extensive rebuilding or excavating of an existing utility, a permit for such rebuilding or excavating may be refused by the city engineer. Unless the refusal is appealed to the city commission within thirty days, it shall become final. The city commission will determine whether or not the order of the city engineer will stand in the event the order is appealed.

The grantee will not erect a separate system of poles in the city or on the street therein, but may erect poles where shown to be necessary when the necessity, the location and the style of pole have been approved by the city engineer. The erection of poles shall be subject to all existing and future ordinances and regulations of the city applicable thereto.

The grantee's transmission and distribution system, poles, wires and appurtenances shall be located, erected and maintained so as not to endanger or interfere with the lives of persons, or to interfere with improvements the city may deem proper to make, or to unnecessarily hinder or obstruct the free use of the streets, alleys, bridges or other public property. Removal of poles or equipment when necessary to avoid such interference will be at the grantee's expense.

The construction and maintenance of the transmission and distribution system shall be in accordance with the provisions of the National Electrical Safety Code of the National Board of Fire Underwriters, and such applicable ordinances and regulations of the City of Wichita affecting electrical installations, which may be presently in effect, or changed by future ordinances.

All installations of equipment shall be of permanent nature, durable and installed in accordance with good engineering practices, and of sufficient height to comply with all existing city regulations, ordinances and state laws so as not to interfere in any manner with the right of the public or individual property owner, and shall not interfere unduly with the travel and use of public places by the public during the construction, repair or removal thereof and shall not unduly obstruct or impede traffic.

In the maintenance and operation of its television transmission and distribution system in the streets, alleys and other public places, and in the course of any new construction or addition to its facilities, the grantee shall proceed so as to cause the least possible inconvenience to the general public.

The grantee shall not make nor cause to be made any opening or obstruction in the streets or other public places without first having obtained the permission of the director of public works.

The grantee may make a charge to subscribers for installation or connection to its CATV system and a fixed maximum monthly charge as filed and approved, as herein provided. No increase in the rates and charges to subscribers, as set forth in the schedule filed and approved with grantee's application, may be made without the prior approval of the commission expressed by resolution after giving notice of the increase and allowing for a public hearing thereon.
(Ord. No. 35-295 (part))

Sec. 3.16.040. Duration of franchise.

No franchise granted by the commission under this chapter shall be for a term in excess of fifteen years following the date of acceptance of such franchise by the grantee or the renewal thereof.

Any such franchise granted hereunder may be terminated prior to its date of expiration by the commission in the event that the commission shall have found, after thirty days' notice of any proposed termination and public hearing, that:

(a) The grantee has failed to comply with any provision of this chapter, or has, by act or omission, violated any term or condition of any franchise or permit issued hereunder; or

(b) Any provision of this chapter has become invalid or unenforceable and the commission further finds that such provision constitutes a consideration material to the grant of said franchise; or

(c) The city acquires the CATV system property of the grantee.

(Ord. No. 32-354 § 4)

Sec. 3.16.050. Franchise payments.

Any grantee granted a franchise under this chapter shall pay to the city, during the life of such franchise, a sum equal to a percentage of the gross annual receipts of the grantee. Such payment by the grantee to the city shall be made annually, or as otherwise provided in the grantee's franchise, by delivery of the same to the city treasurer.

The grantee shall file with the city, within thirty days after the expiration of any calendar year or portion thereof during which such franchise is in force, a financial statement prepared by a certified public accountant, showing in detail the gross annual receipts, as defined herein, of grantee during the preceding calendar year or portion thereof. It shall be the duty of the grantee to pay to the city, within fifteen days after the time for filing such statements, the sum hereinabove prescribed or any unpaid balance thereof for the calendar year or portion thereof covered by such statements.

The city shall have the right to inspect the grantee's records showing the gross receipts from which its franchise payments are computed and the right of audit and recomputation of any and all amounts paid under this chapter. No acceptance of any payment shall be construed as a release or as an accord and satisfaction of any claim the city may have for further or additional sums payable under this chapter or for the performance of any other obligation hereunder.

In the event of any holding over after expiration or other termination of any franchise granted hereunder, without the consent of the city, the

grantee shall pay to the city reasonable compensation and damages, of not less than one hundred percent of its total gross profits during said period.

(c) Any privilege claimed under any such franchise by the grantee in any street or other public property shall be subordinate to any prior lawful occupancy of the streets or other public property.

(d) Any such franchise shall be a privilege to be held in personal trust by the original grantee. It cannot in any event be sold, transferred, leased, assigned or disposed of, in whole or in part, either by forced or involuntary sale, or by voluntary sale, merger, consolidation or otherwise, without the prior consent of the commission expressed by resolution, and then only under such conditions as may therein be prescribed. Any such transfer or assignment shall be made only by an instrument in writing, a duly executed copy of which shall be filed in the office of the city clerk within thirty days after any such transfer of assignment. The consent of the commission may not be arbitrarily refused; provided, however, the proposed assignee must show financial responsibility and must agree to comply with all provisions of this chapter; and provided, further, that no such consent shall be required for a transfer in trust, mortgage or other hypothecation as a whole, to secure an indebtedness.

(e) Time shall be of the essence of any such franchise granted hereunder. The grantee shall not be relieved of his obligation to comply promptly with any of the provisions of this chapter or by any failure of the city to enforce prompt compliance.

(f) Any right or power in, or duty impressed upon, any officer, employee, department or board of the city shall be subject to transfer by the city to any other officer, employee, department or board of the city.

(g) The grantee shall have no recourse whatsoever against the city for any loss, cost, expense or damage arising out of any provision or requirement of this chapter or of any franchise issued hereunder or because of its enforcement.

(h) The grantee shall be subject to all requirements of city ordinances, rules, regulations and specifications heretofore or hereafter enacted or established.

(i) Any such franchise granted shall not relieve the grantee of any obligation involved in obtaining pole space from any department of the city, utility company, or from others maintaining poles in streets.

(j) Unless otherwise specifically provided, any franchise granted hereunder shall be in lieu of any and all other rights, privileges, powers, immunities and authorities owned, possessed, controlled or exercisable by grantee, or any successor to any interest of grantee, of or pertaining to the construction, operation or maintenance of any CATV system in the city; and the acceptance of any franchise hereunder shall operate, as between grantee and the city, as an abandonment of any and all of such rights, privileges, powers, immunities and authorities within the city, to the effect that, as between grantee and the city, any and all construction, operation and maintenance by any grantee of any CATV system in the city shall be, and shall be deemed and construed in all instances and respects to be, under and pursuant to the franchise, and not under or pursuant to any other right, privilege, power, immunity or authority whatsoever.
(Ord. No. 32-354 § 6)

Sec. 3.16.070. Rights reserved to city.

(a) Nothing herein shall be deemed or construed to impair or affect, in any way, to any extent, the right of the city to acquire the property of the grantee, either by purchase or through the exercise of the right of eminent domain, at a fair and just value, which shall not include any amount for the franchise itself or for any of the rights or privileges granted, and nothing herein contained shall be construed to contract away or to modify or abridge, either for a term or in perpetuity, the city's right of eminent domain.

(b) There is reserved to the city every right and power which is required to be reserved or provided by any ordinance of the city, and the grantee, by its acceptance of any franchise, agrees to be bound thereby and to comply with any action or requirements of the city in its exercise of such rights or power, heretofore or hereafter enacted or established.

(c) Neither the granting of any franchise hereunder nor any of the provisions contained herein shall be construed to prevent the city from granting any identical, or similar, franchise to any other person, firm or corporation, within all or any portion of the city.

(d) There is reserved to the city the power to amend any section or part of this chapter so as to require additional or greater standards of construction, operation, maintenance or otherwise, on the part of the grantee.

(e) Neither the granting of any franchise nor any provision hereof shall constitute a waiver or bar to the exercise of any governmental right or power of the city.

(f) The commission may do all things which are necessary and convenient in the exercise of its jurisdiction under this chapter and may determine any question of fact which may arise during the existence of any franchise granted hereunder. The city attorney is authorized and empowered to adjust, settle or compromise any controversy or charge arising from the operations of any grantee under this chapter, either on behalf of the city, the grantee or any subscriber, in the best interest of the public. Either the grantee or any member of the public who may be dissatisfied with the decision of the city attorney may appeal the matter to the commission for hearing and determination. (Ord. No. 32-354 § 7)

Sec. 3.16.080. Permits, installation and service.

(a) Within one hundred and twenty days after acceptance of any franchise, the grantee shall proceed with due diligence to obtain all necessary permits and authorizations, which are required in the conduct of its business, including, but not limited to, any utility joint use attachment agreements, microwave carrier licenses, and any other permits, licenses and authorizations to be granted by duly constituted regulatory agencies having jurisdiction over the operation of CATV systems, or their associated microwave transmission facilities. Grantee shall further obtain a letter of compliance from the Federal Communications Commission.

(b) Within one hundred and twenty days after obtaining all necessary permits, licenses and authorizations, grantee shall commence construction and installation of the CATV system.

(c) Within ninety days after the commencement of construction and installation of the system, grantee shall proceed to render service to subscribers, and the completion of the construction and installation shall be pursued with reasonable diligence thereafter, so that service to all areas designated on the map accompanying the application for franchise, as provided in Section 3.16.190, shall be provided within four years from the date that service was first provided. Grantee shall make reports to the city each sixty days after construction begins regarding the progress made toward completion of the system.

(d) Failure on the part of the grantee to commence and diligently pursue each of the foregoing requirements and to complete each of the matters set forth herein, shall be grounds for termination of all or any portion of such franchise, under and pursuant to the terms of Section 3.16.040; provided, however, that the commission in its discretion may extend the time for the commencement and completion of construction and installation for additional periods in the event the grantee, acting in good faith, experiences delays by reason of circumstances beyond his control.
(Ord. No. 35-295 (part))

Sec. 3.16.090. Property of grantee—Location.

(a) Any poles, wires, cable lines, conduits or other properties of the grantee to be constructed or installed in streets, shall be so constructed or installed only at such locations and in such man-

(b) The grantee shall not install or erect any facilities or apparatus in or on other public property, places or rights-of-way, or within any privately owned area within the city which has not yet become a public street but is designated or delineated as a proposed public street on any tentative subdivision map approved by the city, except those installed or erected upon public utility facilities now existing, without obtaining the prior written approval of the city engineer.

(c) In those areas and portions of the city where the transmission or distribution facilities of both the public utility providing telephone service and those of the utility providing electric service are underground or hereafter may be placed underground, then the grantee shall likewise construct, operate and maintain all of its transmission and distribution facilities underground. For the purposes of this subsection, "underground" includes a partial underground system, e.g., streamlining. Amplifiers in grantee's transmission and distribution lines may be in appropriate housings upon the surface of the ground as approved by the city engineer.
(Ord. No. 32-354 § 9)

Sec. 3.16.100. Property of grantee—Removal and abandonment.

(a) In the event that the use of any part of the CATV system is discontinued for any reason for a continuous period of twelve months, or in the event such system or property has been installed in any street or public place without complying with the requirements of grantee's franchise or this chapter, or the franchise has been terminated, canceled or has expired, the grantee shall promptly, upon being given ten days' notice, remove from the streets or public places all such property and poles of such system other than any which the city engineer may permit to be abandoned in place. In the event of such removal, the grantee shall promptly restore the street or other area from which such property has been removed to a condition satisfactory to the city engineer.

(b) Any property of the grantee remaining in place thirty days after the termination or expiration of the franchise shall be considered permanently abandoned. The city engineer may extend such time not to exceed an additional thirty days.

(c) Any property of the grantee to be abandoned in place shall be abandoned in such manner as the city engineer shall prescribe. Upon permanent abandonment of the property of the grantee in place, the property shall become that of the city, and the grantee shall submit to the city engineer an instrument in writing, to be approved by the city attorney, transferring to the city the ownership of such property.
(Ord. No. 32-354 § 10)

Sec. 3.16.110. Changes required by public improvements.

The grantee shall, at its expense, protect, support, temporarily disconnect, relocate in the same street or other public place, or remove from the street or other public place, any property of the grantee when required by the city engineer by reason of traffic conditions, public safety, street vacation, freeway and street construction, change or establishment of street grade, installation of sewers, drains, water pipes, power lines, signal lines and tracts of any other type of structures or improvements by public agencies; provided, however, that the grantee shall in all such cases have the privileges and be subject to the obligations to abandon any property of the grantee in place, as provided in Section 3.16.100.
(Ord. No. 32-354 § 11)

Upon failure of the grantee to commence, pursue, or complete any work required by law or by the provisions of this chapter or by its franchise to be done in any street or other public place, within the time prescribed, and to the satisfaction of the city engineer, the city engineer, at his option, may cause such work to be done and the grantee shall pay to the city the cost thereof in the itemized amounts reported by the city engineer, plus ten percent to the city within thirty days after receipt of such itemized report.
(Ord. No. 35-295 (part))

Sec. 3.16.130. Faithful performance bond.

The bond shall provide that thirty days' prior written notice of intention not to renew, cancellation or material change be given to the city.

(b) Neither the provisions of this section nor any bond accepted by the city pursuant hereto, nor any damages recovered by the city thereunder, shall be construed to excuse faithful performance by the grantee or limit the liability of the grantee under any franchise issued hereunder or for damages, either to the full amount of the bond or otherwise.
(Ord. No. 32-354 § 13)

Sec. 3.16.140. City indemnification.

(b) The grantee shall, concurrently with the filing of an acceptance of award of any franchise granted under this chapter, furnish to the city and file with the city clerk, and at all times during the existence of any franchise granted hereunder, maintain in full force and effect, at its own cost and expense, a general comprehensive liability insurance policy, in protection of the city, its officers, boards, commissions, agents and employees, in a company licensed to do business in the State of Kansas and a form satisfactory to the city attorney, protecting the city and all persons against liability for loss or damage for personal injury, death and property damage, occasioned by the operations of grantee under such franchise, with minimum liability limits of two hundred fifty thousand dollars for personal injury or death of any other person, and five hundred thousand dollars for personal injury or death of two or more persons in any one occurrence, and one hundred thousand dollars for damage to property resulting from any one occurrence.

(c) The policies mentioned in the foregoing paragraph shall name the city, its officers, boards, commissions, agents and employees, as additional insured and shall contain a provision that a written notice of cancellation or reduction in coverage of the policy shall be delivered to the city ten days in advance of the effective date thereof; if such insurance is provided by a policy which also covers grantee or any other entity or person other than those above named, then such policy shall contain the standard cross-liability endorsement.

Sec. 3.16.150. Inspection of property and records.

(a) At all reasonable times, the grantee shall permit any duly authorized representative of the city to examine all property of the grantee, together with any appurtenant property of the grantee situated within or without the city, and to examine and transcribe any and all maps and other records kept or maintained by the grantee or under its control which deal with the operations, affairs, transactions or property of the grantee with respect to its franchise. If any such maps or records are not kept in the city, or upon reasonable request made available in the city, and if the commission determines that all examination thereof is necessary or appropriate, then all travel and maintenance expense necessarily incurred in making such examination shall be paid by grantee.

(b) The grantee shall prepare and furnish to the city engineer and the director of administration at the times and in the form prescribed by either of the officers, such reports with respect to its operations, affairs, transactions or property, as may be reasonably necessary or appropriate to the performance of any of the rights, functions or duties of the city or any of its officers in connection with the franchise.

(c) The grantee shall at all times make and keep in the city full and complete plans and records showing the exact location of all CATV system equipment installed or in use in streets and other public places in the city.

(d) The grantee shall file with the city engineer, on or before the last day of March of each year, a current map or set of maps drawn to scale, showing all CATV system equipment installed and in place in streets and other public places of the city.

(b) The grantee shall pay to the city a sum of money sufficient to reimburse it for all publication expenses incurred by it in connection with the granting of a franchise pursuant to the provisions of this chapter. Such payment shall be made within thirty days after the city furnishes the grantee with a written statement of such expenses.

(c) The grantee shall maintain an office within the city limits at a location which subscribers may call without incurring added message or toll charges so that CATV maintenance service shall be promptly available to subscribers at all times.

(d) No person, firm or corporation in the existing service area of the grantee shall be arbitrarily refused service; provided, however, that the grantee shall not be required to provide service to any subscriber who does not pay the applicable connection fee or monthly service charge.

(e) Grantee shall build the cable system with the capacity for return communication on at least a nonvoice basis.

(f) Grantee shall comply with all the requirements of the Federal Communications Commission relating to CATV installations.
(Ord. No. 32-354 § 17)

Sec. 3.16.180. Agreement for use of utility poles and facilities.

When any portion of the CATV system is to be installed on existing utility poles and facilities, certified copies of the agreements for such joint use of poles and facilities shall be filed with the city clerk. The agreement shall indicate all charges therefor.
(Ord. No. 32-354 § 18)

Sec. 3.16.190. Application for franchise.

(a) Application for a franchise hereunder shall be in writing, shall be filed with the city clerk, and shall contain the following information:

(1) The name and address of the applicant. If the applicant is a partnership, the name and address of each partner shall also be set forth. If the applicant is a corporation, the application shall also state the names and addresses of its directors, main officers, major stockholders and associates, and the names and addresses of parent and subsidiary companies;

(2) A statement and description of the CATV system proposed to be constructed, installed, maintained or operated by the applicant; the proposed location of such system and its various components; the manner in which applicant proposes to construct, install, maintain and operate the same; and, particularly, the extent and manner in which existing or future poles or other facilities of other public utilities will be used for such system;

(3) A description, in detail, of the public streets, public places and proposed public streets within which applicant proposes or seeks authority to construct, install or maintain any CATV equipment or facilities; a detailed description of the equipment or facilities proposed to be constructed, installed or maintained therein; and the proposed specific location thereof;

(4) A map specifically showing and delineating the proposed service area or areas within which applicant proposes to provide CATV services and for which a franchise is requested, together with a calendar of construction for each area of said map;

(5) A statement or schedule in a form approved by the city manager of proposed rates and charges to subscribers for installation and services, and a copy of proposed service agreement between the grantee and its subscribers shall accompany the application. For unusual circumstances, such as underground cable required, or more than one hundred fifty feet of distance from cable to connection of service to subscribers, an additional installation charge over that normally charged for installation as specified in the applicant's proposal may be charged, with easements to be supplied by subscribers. For remote, relatively inaccessible subscribers within the city, service may be made available on the basis of cost of materials, labor and easements if required by the grantee;

(6) A copy of any contract, if existing, between the applicant and any public utility providing for the use of facilities of such public utility, such as poles, lines or conduits;

(7) A statement setting forth all agreements and understandings, whether written, oral or implied, existing between the applicant and any person, firm or corporation with respect to the proposed franchise or the proposed CATV operation. If a franchise is granted to a person, firm or corporation posing as a front or as the representative of another person, firm or corporation, and such information is not disclosed in the original application, such franchise shall be deemed void and of no force and effect whatsoever;

(8) A financial statement prepared by a certified public accountant, showing applicant's financial status and his finan-

cial ability to complete the construction and installation of the proposed CATV system;

(9) The commission may at any time demand, and applicant shall provide, such supplementary, additional or other information as the commission may deem reasonably necessary to determine whether the requested franchise should be granted;

(10) A statement setting forth those signals which the applicant would bring into the city, and in addition thereto, a program setting forth the channels to be used;

(11) A statement setting forth the number and proposals concerning public access channels, educational access channels and government access channels;

(12) A statement showing the amount of franchise payment to be made in accordance with Section 3.16.050 of this chapter.

(b) Upon consideration of any such application, the commission may refuse to grant the requested franchise or the commission may, by ordinance, grant a franchise for a CATV system to any such applicant as may appear from the application to be in its opinion best qualified to render proper and efficient CATV service to television viewers and subscribers in the city. The commission's decision in the matter shall be final. If favorably considered, the application submitted shall constitute and form part of the franchise as granted.

(c) Any franchise granted pursuant to this chapter shall include the following condition:

"The CATV system herein franchised shall be used and operated solely and exclusively for the purpose expressly authorized by ordinance of the City of Wichita, and no other purposes whatsoever."

Inclusion of the foregoing statement in any such franchise shall not be deemed to limit the authority of the city to include any other reasonable condition, limitation or restriction which it may deem necessary to impose in connection with such franchise pursuant to the authority conferred by this ordinance, nor shall it in any manner limit any right, grant or privilege authorized by the Federal Communications Commissions.

(d) The city commission may grant a conditional franchise based on the programming, as set forth in Section 3.16.190(a)(10) above, contingent upon a certificate of compliance from the Federal Communications Commission, and if the applicant fails to receive a certificate of compliance from the Federal Communications Commission, then the franchise shall be declared to be null and void.
(Ord. No. 32-354 § 19)

Sec. 3.16.200. Notice of application—Placing on agenda.

The application for franchise filed with the city clerk shall be carried as an item of notice on the city manager's agenda in accordance with the procedure established for placing items on the city manager's agenda, and notice of the application having been filed shall be placed in the official city newspaper and in any other news media determined by the city manager as appropriate, together with the date that a hearing will be held to consider said application. Not less than five weeks from the date the item appears on the city manager's agenda, a public hearing will be held in a regular city commission meeting. In the event additional applications are filed, they will be placed on the agenda as soon as possible for notice purposes, and the same procedure and publication of notice will be followed by the city manager, setting the hearing date to coincide with the earliest application filed, and in the event applications are filed, in the opinion of the city manager, too close to the hearing date to provide adequate time for notice, then the city commission may either extend the hearing date or set a date in the future for the late applications.

It is the intent herein that all applications be heard at the same public meeting if at all practical.

Upon acceptance of an application and approval of the applicant by the city commission, the city attorney shall prepare on ordinance granting a franchise to the successful applicant and the

ordinance shall be placed on first reading and notice of said ordinance published in the official city newspaper. Following one week's notice, the ordinance shall be placed on the city council agenda for passage and adoption.
(Ord. No. 32-354 § 20)

Sec. 3.16.210. Renewal of franchise.

Any franchise granted under this chapter is renewable at the application of the grantee, in the same manner and upon the same terms and conditions as required herein for obtaining the original franchise, except those which are by their terms expressly inapplicable; provided, however, that notice and public hearing shall be provided before any such franchise shall be renewed. It is expressly stated that the renewal of a franchise is at the option of the city council.
(Ord. No. 32-354 § 21)

Sec. 3.16.220. Acceptance and effective date of franchise.

(a) No franchise granted pursuant to the provisions of this chapter shall become effective unless and until the ordinance granting same has become effective and, in addition, unless and until all things required in this section and in Sections 3.16.130 and 13.16.140(a), (b) are done and completed, all of such things being declared to be conditions precedent to the effectiveness of any such franchise granted hereunder. In the event any of such things are not done and completed in the time and manner required, the council may declare the franchise null and void.

(b) Within thirty days after the adoption date of the ordinance awarding a franchise, the grantee shall file with the city clerk his written acceptance, in form satisfactory to the city attorney, of the franchise, together with the bond and insurance policies required by Sections 3.16.130 and 3.16.140(a), (b), respectively, and his agreement to be bound by and to comply with and to do all things required of him by the provisions of this chapter and the franchise. Such acceptance and agreement shall be acknowledged by the grantee before a notary public, and shall in form and content be satisfactory to and approved by the city attorney.
(Ord. No. 32-354 § 22)

Sec. 3.16.230. Violations.

(a) From and after the effective date of the ordinance codified herein, it is unlawful for any person to establish, operate or to carry on the business of distributing to any persons in this city any television signals or radio signals by means of a CATV system unless a franchise therefor has first been obtained pursuant to the provisions of this chapter, and unless such franchise is in full force and effect.

(b) From and after the effective date of the ordinance codified herein, it is unlawful for any person to construct, install or maintain within any public street in the city, or within any other public property of the city, or within any privately-owned area within the city which has not yet become a public street but is designated or delineated as a proposed public street on any tentative subdivision map approved by the city, any equipment or facilities for distributing any television signals or radio signals through a CATV system, unless a franchise authorizing such use of such street or property or area has first been obtained pursuant to the provisions of this chapter, and unless such franchise is in full force and effect.

The notice shall include the reason for the suspension or conditions, the length and dates of suspension, and rights of appeal.

(c) If the Chief of Police or designee or regulatory authority is unable to effect personal notification of an emergency suspension, notice will be posted upon the licensed property and sent by first class mail to the primary contact or owner listed on the license.

Sec. 3.30.010. Purpose.

The City of Wichita encourages the development of Arts and Culture and recognizes that having entertainment establishments provide a means for such activity. The City of Wichita further recognizes that having a variety of entertainment in the City promotes a rich and diverse cultural experience.

The City of Wichita also recognizes that entertainment establishments serving alcohol have demonstrated the potential for creating an environment where various types of disturbances, excessive noise and disorderly conduct by inebriated patrons may occur. These negative effects are adverse to the public safety and the quality of life in the community.

The City of Wichita finds and determines that some nightclubs and entertainment establishments within the City contribute to public intoxication, public urination, noise, disorderly conduct, assaults, and other similar problems connected primarily with the routine congregation of persons around such nightclubs, especially those which are managed without adequate security and attention to preventing these problems.

The City of Wichita finds that in the Old Town Entertainment District, a significant amount of police resources are being expended to address safety issues at large entertainment establishments located within the District.

The purpose of this Chapter is to regulate the operation of all entertainment establishments so as to minimize the negative effects and to preserve the public safety, health and welfare. It is not the City's intent to regulate or restrict the type or content of entertainment provided in these establishments. All licensees will be responsible for controlling patron conduct on the premises of such establishments, making adequate provisions for security and crowd control to minimize disturbances caused by the operation of such entertainment establishments.
