Sec. 10.24.220. Prevention of unnecessary damage to paving.
Sec. 10.24.230. Inspection of route over which building moved; repair of damages.
Sec. 10.24.240. Restriction as to hours of moving, etc., in certain areas and on certain streets.
Sec. 10.24.250. Protection of trees; notice to director of parks.
Sec. 10.24.260. Lights required from dusk to dawn.
Sec. 10.24.270. Compliance with the manual on uniform traffic control required.
Sec. 10.24.280. Interference with traffic; notice to emergency services; flaggers required.
Sec. 10.24.290. Blocking streets; prohibition.
Sec. 10.24.300. Interference with overhead infrastructure, etc.; notice to person owning or controlling; cost of repair.
Sec. 10.24.310. Compliance with chapter required; penalty.

*__Editor's note—__Ord. No. 50-181 §§ 1—33, adopted April 26, 2016, amended chapter 10.24 in its entirety to read as herein set out. Former chapter 10.24 §§ 10.24.010—10.24.300, pertained to similar subject matter and derived from Ord. No. 15-668 §§ 1, 2, 5—9; Ord. No. 19-152 § 20; Ord. No. 19-963 § 1; Ord. No. 22-815 § 1; Ord. No. 33-580; and Ord. No. 40-057 § 1.

Sec. 10.24.010. Definitions.

As used in this Chapter the following words and phrases shall have the meanings set forth below:

(a) Building. Means any Structure used or intended for supporting or sheltering any use or occupancy that is:

(1) Two hundred (200) square feet or more in floor space;

(2) Thirteen and a half (13.5) feet in loaded height; or

(3) Is not a house trailer as defined in Section 11.04.126.

(b) Moving Contractor. Means a contractor who has been licensed as required by Section 10.24.070 of this Chapter to obtain required permits for the moving of a Building over public streets, alleys, or rights of way.

(c) Moving Permit. Means the permit issued by the City permitting a Building to move over public streets, alleys, or rights of way, as provided in Section 10.24.030.

(d) Person. Means any individual, firm, association, company, partnership, or other legal entity.

(Ord. No. 50-181 § 1, 4-26-16; Ord. No. 50-338 § 1, 10-11-16)

Sec. 10.24.020. Prerequisites to apply for a moving permit.†

Before moving any Building over, along or upon any of the streets, alleys, or rights of way, a moving permit shall be obtained. The following prerequisites shall be required before such moving permit shall be obtained:

(a) File a permit bond with the City Clerk which shall be approved as to form by the City Attorney, in the sum of one hundred thousand (100,000) dollars, which bond shall be signed by a surety company which is authorized to transact business

†__Case law reference—__For case upholding authority of city to require such bond, see *Tandy v. City of Wichita,* 266 P. 930.

in the state. Such bond shall provide for compensation for all damages resulting from the moving of the Building.

(b) Provide a certificate of insurance of at least three hundred thousand (300,000) dollars from a company authorized to provide insurance in the State of Kansas and naming the City as an additional insured. Such insurance shall provide for compensation for all damages resulting from the moving of the Building, including but not limited to costs associated with the removal, cutting or raising of, and the replacement of wires, conduits, pipes or other equipment, all expenses or bills which may be incurred by reason of the damage, removal or relocation of such equipment to allow the passage of such Structure, and all necessary expenses which may be incurred by the Park Department (City of Wichita) in the furnishing of protection to the city trees for the moving of the Structure over, along or upon any streets, alleys, and right of ways of the City.

(c) Agree to indemnify, defend, and hold harmless the City from any and all claims, actions, suits, or demands for damages or injuries to persons or property, regardless of nature or character, resulting from the moving of the Building.

(d) File an application with the Metropolitan Area Building and Construction Department (MABCD), including a fee of one hundred (100) dollars, such application shall include a detailed description of the route for moving the Building, including the starting and ending points of such route, and for any Building being moved from outside the City, a report by a structural engineer licensed in the State of Kansas determining the Structure is safe and suitable to be moved, and including any special requirements necessary for such moving. Upon receipt of the application, the Director of the MABCD, or designee, shall inspect the Building to determine compatibility with the new location if such location is within the City and whether any other changes of any type should be made to such Building before or after moving.

(e) Agree to comply with any special conditions imposed by the Director of the MABCD for the safety and welfare of the public.

(f) Obtain a Building permit for the new location if the Building is to be relocated within the city limits of Wichita. The Building permit shall include any footing/foundation and require the updating of the electrical, plumbing and mechanical systems to the current Wichita/Sedgwick County Unified Building and Trade Code.

(Ord. No. 50-181 § 2, 4-26-16; Ord. No. 50-338 § 2, 10-11-16)

Sec. 10.24.030. Inspection of building.

Every person having complied with the requirements of Section 10.24.020, who desires to move any Building over, along or upon any of the streets, alleys, or rights of way of the City shall, before beginning the removal of such Building, file an application with MABCD for an inspection of the Building to be removed. Upon the filing of such application, such person shall pay a permit/inspection fee of one hundred (100) dollars. MABCD shall then inspect the Building to determine whether or not it is safe to move such Building, and also to determine if any structural changes should be made in such Building before or after moving. If it is unsafe to move such Building, the Director of MABCD, or designee, shall refuse to issue a removal permit, or if it is determined that certain changes are necessary before or after the Building is moved, a condition of the moving permit shall be an agreement that the permitee will comply with such conditions as may be imposed to protect the public. If the permit is denied, the applicant may appeal the Director's denial to the Board of Code Standard and Appeals, by filing a notice of appeal within ten days of the Director's decision.

(Ord. 50-181 § 3, 4-26-16; Ord. No. 50-338 § 3, 10-11-16)

Sec. 10.24.040. Approval of route by director of parks.

The Director of Parks or designee is authorized to require a route consistent with minimal damage to City trees and may require the planting of trees necessary to remediate any damage. The Director of Parks shall provide the moving contractor an estimate of costs for moving, modifying, or otherwise disturbing any existing City trees or related infrastructure.
(Ord. 50-181 § 4, 4-26-16; Ord. No. 50-338 § 4, 10-11-16)

Sec. 10.24.050. Approval of route by maintenance engineer.

Upon approval of the permit by the Director of MABCD, the Maintenance Engineer or designee shall review the proposed route to insure a route consistent with public safety and a minimum amount of damage. The Maintenance Engineer shall provide the moving contractor an estimate of costs for moving, modifying, or otherwise disturbing any existing City facilities. If the initial route proposed is determined by the Maintenance Engineer to not be feasible, the applicant shall be given an opportunity to submit an alternate route for review.
(Ord. 50-181 § 5, 4-26-16; Ord. No. 50-338 § 5, 10-11-16)

Sec. 10.24.060. Issuance of permit.

The moving permit shall be issued after approval has been granted by the Maintenance Engineer, the Director of MABCD and the Parks Director, the moving contractor has obtained a license under this Chapter and the moving contractor's annual license is current and valid.

Denial of the permit may be appealed to the City Council pursuant to the provisions set forth in Section 2.04.235 of the Code of the City of Wichita.
(Ord. 50-181 § 6, 4-26-16; Ord. No. 50-338 § 6, 10-11-16)

Sec. 10.24.070. License required.

It is unlawful for any Person to perform or cause to be performed any work as a moving contractor without first having obtained a moving contractor's license and the appropriate moving permit.
(Ord. 50-181 § 7, 4-26-16; Ord. No. 50-338 § 7, 10-11-16)

Sec. 10.24.075. Licensing authority.

The MABCD shall issue licenses to approved moving contractors as outlined in the Wichita/Sedgwick County Unified Building and Trade Code. Licenses may be revoked or suspended as outlined in the Wichita/Sedgwick County Unified Building and Trade Code. The moving contractor license shall entitle the holder thereof to contract for and perform any act as a moving contractor. The bi-annual license fee for a moving contractor shall be two hundred (200) dollars, which shall be valid for two calendar years and shall not be prorated.
(Ord. No. 50-181 § 8, 4-26-16; Ord. No. 50-338 § 8, 10-11-16)

Sec. 10.24.080. Payment of cost of damages.

The moving contractor shall be responsible for all damages caused by the moving of a Building. Damages to trees, property, infrastructure, or Right-of-Way shall be the responsibility of the moving contractor upon being presented with a statement by the Department of Public Works & Utilities and/or the Park Department, showing the cost of repairing such damage, which shall be paid within ninety (90) days of invoicing.
(Ord. No. 50-181 § 9, 4-26-16; Ord. No. 50-338 § 9, 10-11-16)

Sec. 10.24.090. Requirements during movement of building.

A copy of the moving permit shall accompany the Building being moved at all times and must be presented upon request. The Permittee shall notify emergency services (911) and Kansas One Call, prior to moving the Building.
(Ord. No. 50-181 § 10, 4-26-16; Ord. No. 50-338 § 10, 10-11-16)

Sec. 10.24.095. Falsification of moving permit; invalidation.

Falsification of a moving permit or deviation from any of the permit's conditions shall invalidate the permit.
(Ord. No. 50-181 § 11, 4-26-16)

Sec. 10.24.100. Duty to halt moving.

The City Manager, the Traffic Engineer, the Maintenance Engineer, the Director of Parks, the Director of MABCD, their agents, and any sworn law enforcement officer shall have the duty and power to stop the moving of any Building when a valid permit to move such Building is not presented upon request or when such moving is being done in a dangerous, careless or inefficient manner, likely to lead to serious damage to paving, curb, gutter or any other public Structures, due to a lack of proper equipment for such moving, inexperienced employees, lack of proper supervision, or from any other cause.
(Ord. 50-181 § 12, 4-26-16; Ord. No. 50-338 § 11, 10-11-16)

Sec. 10.24.110. Building being moved into city halted pending compliance.

All buildings being moved into the corporate limits of the city shall be halted outside the city limits until all provisions of this chapter have been satisfied.
(Ord. No. 50-181 § 13, 4-26-16)

Sec. 10.24.120. Use of license to secure permits for another.

No person shall allow another to use another's name or bond in securing permits to move any building.
(Ord. No. 50-181 § 14, 4-26-16)

Sec. 10.24.130. Private sewers and utilities to be sealed off and/or disconnected; duty of mover.

Before any Building is moved, it shall be the responsibility of the mover to ensure and verify all utilities are appropriately and safely disconnected. Sanitary sewer systems serving such Structures or Buildings shall be severed and sealed safely, subject to Section 16.04.020. The seal will be inspected by the Director of MABCD under the procedure established in Section 16.04.360.
(Ord. No. 50-181 § 15, 4-26-16; Ord. No. 50-338 § 12, 10-11-16)

Sec. 10.24.140. Requirements as to small one-story structures, garages, accessory, structures.

Whenever a Structure is moved that does not require a Building permit, the entities involved in moving such Structure, by moving the Structure, agree to indemnify, defend, and hold harmless the City from any and all claims, actions, suits, or demands for damages or injuries to persons or property, regardless of nature or character, resulting from the moving of the Structure. Such moving may require a City and/or State of Kansas oversize or overweight permit.

No permit or bond shall be required for the moving of any small one-story Structures not over thirteen feet (13) high, such as garages or accessory Buildings, when such Structures have less than two hundred (200) square feet of floor area and at least one dimension does not exceed twelve (12) feet. Every person shall before moving any such Structure, notify Sedgwick County Emergency Communications (911). Every person shall, when moving any such Structure, use a reasonable degree of care so that no damage results to any person or property. In case damage to persons or property results from such moving, the City shall not be held liable for any such damage.
(Ord. 50-181 § 16, 4-26-16; Ord. No. 50-338 § 13, 10-11-16)

Sec. 10.24.150. Exceptions as to construction offices or cook shacks.

No moving permit or bond shall be required for the moving of any construction office or cook shack when such Structure is permanently mounted upon a vehicle meeting the require-

ments of Title 11. Every person shall, when moving any such Building or Structure, use a reasonable degree of care so that no damage results to any person or property. In case damage to persons or property results from such moving, the City shall not be held liable for any such damage.
(Ord. No. 50-181 § 17, 4-26-16; Ord. No. 50-338 § 14, 10-11-16)

Sec. 10.24.160. Compliance with chapter required.

Every person, when moving any Structure over, upon or along the streets, alleys, or public right of ways, shall observe the rules and regulations contained in this Chapter.
(Ord. No. 50-338 § 15, 10-11-16)

Sec. 10.24.170. Maximum axle weights, damage.

The requirements of K.S.A. § 9-1911 et seq. shall apply to all vehicles used to move buildings with regards to a maximum axle loading. Loads shall be configured in such a manner as to minimize damage to the streets, gutters, curbs, and other property. Any entity causing damage to any property shall be liable for such damage.
(Ord. No. 50-181 § 19, 4-26-16)

Sec. 10.24.180. Planks may be placed under wheels.

The traffic engineer may specify the use of load-distributing devices when moving any building or structure. In general, such devices shall be at least nominal two-inch by twelve-inch lumber, a minimum of two times the supported tire diameter in length, and free of checks, splits, rough edges, splinters, or warping.
(Ord. No. 50-181 § 20, 4-26-16)

Sec. 10.24.190. Driving stakes into pavement, etc.

In no case shall any person moving any building drive any stake in the pavement. Stakes may be in the right-of-way, but not in such a position as may cause damage.
(Ord. No. 50-181 § 21, 4-26-16)

Sec. 10.24.200. Moving over bridges, culverts, and other structures.

No building shall be moved over any bridge, culvert, or other similar structure without first verifying the load capacity of the structure and obtaining specific written approval from the traffic engineer.
(Ord. No. 50-181 § 22, 4-26-16)

Sec. 10.24.210. Report of commencement and completion of moving.

Prior to moving any building, the mover shall give actual notice to the maintenance engineer and the MABCD of the time the building will be moved. Such notice shall be given during regular office hours. Arrival of the building at its final destination shall also be reported to the maintenance engineer and the MABCD within one business day.
(Ord. No. 50-181 § 23, 4-26-16)

Sec. 10.24.220. Prevention of unnecessary damage to paving.

Every person, when moving any Structure or Building over, along or upon the streets, alleys, or public right of ways of the City, shall use a reasonable degree of care to prevent any unnecessary damage, unless such damage is directed by the Maintenance or Traffic Engineer to expedite moving of the Building or Structure, to any paving, curb, gutter, sidewalk, catch basin or other public Structures.
(Ord. No. 50-338 § 16, 10-11-16)

Sec. 10.24.230. Inspection of route over which building moved; repair of damages.

The route over which a building has been moved shall be inspected by the maintenance engineer within two business days after the building is reported moved. The maintenance engineer shall ascertain what damage, if any, has been done to the paving or other public structures and shall proceed to repair the damage.
(Ord. No. 50-181 § 25, 4-26-16)

Sec. 10.24.240. Restriction as to hours of moving, etc., in certain areas and on certain streets.

No building shall be moved or left standing upon any city street except between the hours of 1:00 a.m. and 6:00 a.m. without written permission of the traffic engineer.
(Ord. No. 50-181 § 26, 4-26-16)

Sec. 10.24.250. Protection of trees; notice to director of parks.

Every Person moving any Building shall use reasonable care to prevent injury to trees. The Person or contractor shall notify the Director of Parks when moving of such Building begins in order that the Director of Parks may take the necessary steps for the protection of trees along the moving route, at the expense of the Person moving the Building.
(Ord. No. 50-181 § 27, 4-26-16; Ord. No. 50-338 § 17, 10-11-16)

Sec. 10.24.260. Lights required from dusk to dawn.

Every Person moving any Building shall keep amber lights on such Building and on the machinery used in moving the Building from dusk to dawn. A sufficient number of amber lights shall be used to make the obstruction safe.
(Ord. No. 50-181 § 28, 4-26-16; Ord. No. 50-338 § 18, 10-11-16)

Sec. 10.24.270. Compliance with the manual on uniform traffic control required.

All requirements of the current edition of the Manual on Uniform Traffic Control Devices regarding temporary traffic control must be followed.
(Ord. No. 50-181 § 29, 4-26-16)

Sec. 10.24.280. Interference with traffic; notice to emergency services; flaggers required.

If, at any time during the moving of any Building or Structure, it is unsafe for vehicles to pass by the Building or Structure or the public welfare is endangered, the Person moving the Building or Structure shall immediately inform Sedgwick County Emergency Communications by calling 911. The Person moving the Building or Structure shall also post flaggers at the intersecting streets ahead and behind of the Building to detour traffic.
(Ord. No. 50-181 § 30, 4-26-16; Ord. No. 50-338 § 19, 10-11-16)

Sec. 10.24.290. Blocking streets; prohibition.

No building shall be left in such a position as to block the entire roadway. Unless it is impossible to do so, a passage of at least ten feet on one side of the building shall be left at all times.
(Ord. No. 50-181 § 31, 4-26-16)

Sec. 10.24.300. Interference with overhead infrastructure, etc.; notice to person owning or controlling; cost of repair.

If any Building will not pass under any overhead infrastructure, including wires, cables, streetlights, signs, or signals, the Person moving such Building shall give at least seventy-two (72) hours' actual notice to the Person owning or controlling the infrastructure of the intention to move such Building and at least eight (8) hours' actual notice of the time of the actual moving of such Building. The Person owning or controlling such infrastructure shall then raise, cut, or remove the same for a reasonable length of time for such Building to pass. Such infrastructure shall then, at the infrastructure's owner's discretion, be repaired and put in as good condition as before the raising, cutting or removal at the expense of the Person moving such Building. The owner of any overhead infrastructure existing lower than specified by this Code or by any other ordinances of the City must reinstall such infrastructure to current code specifications without charge.
(Ord. No. 50-181 § 32, 4-26-16; Ord. No. 50-338 § 20, 10-11-16)

Sec. 10.24.310. Compliance with chapter required; penalty.

Failure to comply with any provision of this Chapter is a misdemeanor punishable by a fine up to five hundred (500) dollars and/or imprisonment up to six (6) months.
(Ord. No. 50-181 § 33, 4-26-16; Ord. No. 50-338 § 21, 10-11-16)

CHAPTER 10.28. SIDEWALK CLEANING

Sec. 10.28.010. Permit required—Bond—Insurance.
Sec. 10.28.020. Use of unmetered water.
Sec. 10.28.030. Application—Approval.
Sec. 10.28.040. Revocation.
Sec. 10.28.050. Hours of operation.
Sec. 10.28.060. Permit fee.
Sec. 10.28.070. Section 11.40.080 inapplicable.

Sec. 10.28.010. Permit required—Bond—Insurance.

Each person engaging in the business of mechanically washing or cleaning sidewalks shall first obtain a revocable permit from the city. Each applicant for a permit shall be required to provide a bond or insurance guaranteeing payment to the city for any and all damages to streets, pavement, sidewalks, curbs, gutters, trees, signs, meters, traffic devices and all other public improvements located on or adjacent to city sidewalks on which the person operates cleaning equipment. The bond or insurance will be in the amount of ten thousand dollars. In addition to the above, each applicant shall carry liability insurance naming the city of Wichita as an additional party insured with a requirement of ten days' advance notice to the city for cancellation of the policy. The policy shall be in the amounts of twenty-five thousand dollars for one person, fifty thousand dollars for one accident or occurrence, five thousand dollars for property damage. The insurance shall provide that the City of Wichita shall be held harmless from any and all claims, actions, suits or demands for damages or injuries to persons or property which may be caused by the operation of cleaning equipment or negligent acts or omissions of any servant, agent or employee of the applicant.
(Ord. No. 29-334 § 1)

Sec. 10.28.020. Use of unmetered water.

Any use of nonmetered city water is prohibited, unless a valid contract with the water department has been negotiated.
(Ord. No. 29-334 § 2)

Sec. 10.28.030. Application—Approval.

Each application for revocable permit will contain a description of the equipment to be used and its gross weight when fully loaded with water or other cleaning solutions. The approval of the city engineer shall be required prior to the issuance of any permit. Approval shall not be given when, in his opinion, the equipment is too heavy for use on city sidewalks.
(Ord. No. 29-334 § 3)

Sec. 10.28.040. Revocation.

Regardless of the issuance of a permit, when, in the opinion of the city engineer, excessive damage is occurring to public property, the permit may be revoked by the engineer, with the right to appeal the revocation to the board of city commissioners.
(Ord. No. 29-334 § 4)

Sec. 10.28.050. Hours of operation.

The operation and use of sidewalk cleaning equipment shall be limited to the hours between eight p.m. and seven a.m., and further, the operator may not operate the equipment, even in the permitted hours, when the sidewalks are heavily congested, and will cease and desist operation of the equipment if advised by the city.
(Ord. No. 29-334 § 5)

Sec. 10.28.060. Permit fee.

The fee for a permit shall be one hundred dollars per year.
(Ord. No. 29-334 § 6)

Sec. 10.28.070. Section 11.40.080 inapplicable.

The provisions of Section 11.40.080 are hereby waived and held not to apply to equipment permitted hereunder.
(Ord. No. 29-334 § 7)

CHAPTER 10.30. SURPLUS REAL ESTATE

Sec. 10.30.010. Purchase and sale of surplus real estate acquired in connection with public purposes.

Sec. 10.30.010. Purchase and sale of surplus real estate acquired in connection with public purposes.

(a) If the city council finds that it is in the public interest, the city may acquire real property for any immediate or future public purpose. Such purchase may, at the city's discretion, include parcels or remnants of parcels when such purchase is beneficial to the city. The city may issue general obligation bonds to finance the cost of such purchase under applicable home rule or statutory authority.

(b) Any conveyance of real property shall be subject to city policies and procedures. Whenever the city has acquired real property, the city may sell such property or any portion of such property. If acquisition of the property was made through tax-exempt financing, the sale of such property may impact the tax-exempt status of the outstanding debt obligations and should be considered prior to sale. Upon sale of said property, the city council shall authorize the mayor to execute a deed conveying said property.

(Ord. No. 38-412 § 1; Ord. No. 50-183 § 1, 4-16-16)

CHAPTER 10.32. RESERVED*

*__Editor's note—__Ord. No. 50-340, adopted Oct. 11, 2016, repealed chapter 10.32, §§ 10.32.010—10.32.160. The former chapter 10.32 pertained to landscaping and parking lot screening and derived from Ord. No. 41-510 §§ 14—18; Ord. No. 42-937 § 2; Ord. No. 43-658 §§ 1, 2; Ord. No. 42-494 §§ 1, 2, 5—8, 10, 11; Ord. No. 50-184 §§ 1—11, 13, adopted April 26, 2016. For similar provisions, the user's attention is directed to chapter 28.06.

CHAPTER 10.34. FEES

Sec. 10.34.010. Permit and license processing charges.
Sec. 10.34.020. Cost of inspections and permitting process.
Sec. 10.34.030. Annual permit fees for non-residential properties—Established.
Sec. 10.34.040. Same—Residential properties—Established.

Sec. 10.34.010. Permit and license processing charges.

In accordance with the provisions of Title 10, permit and license processing charges will be as established in the following table.

Permit or License	*Charge*
Use of right-of-way permit - one time processing charge	$125.00
Use of Easement Permit - one time processing charge	$330.00
Contractor License Exam	$ 70.00
Contractor License Fee (per year)	$ 60.00
Sidewalk permit - 20 feet or fewer (per address)	$ 95.00
Sidewalk permit - more than 20 feet (per address)	$110.00
Overweight Vehicle	$ 55.00
Wheel Chair ramp/Curb Cut/Flumes (per address)	$105.00
Dirt cut permit (per block)	$160.00
Pavement Cut permit (per block)	$105.00
Above Ground Structure Permit (each)	$255.00
Test well (each)	$100.00
Parking meter hood (per day, each)	$ 20.00
Use of street permit—Base Processing Charge (each)	$ 55.00
Use of street permit (per square foot)	$ 0.009
Temporary asphalt/unpaved permit (per address)	$ 60.00
Revisit penalty (per revisit)	$ 50.00

(Ord. No. 50-189 § 1, 4-26-16; Ord. No. 52-006, § 2, 12-27-22)

Sec. 10.34.020. Cost of inspections and permitting process.

The charges in this chapter are intended to offset the actual cost of inspections and the recovery of the costs of the permitting process. Beginning in 2016, the charges in Section 10.34.010 above and in Sections 10.34.030 and 10.34.040 below may be adjusted by applying an increase commensurate with a running average of the Consumer Price Index for all Urban Consumers (CPI-U) for the preceding three years; this charge and the adjustment thereof shall be determined by the city engineer and be adjusted in $5.00 increments except for the use of street permit charges, which shall be adjusted in $0.001 increments.

(Ord. No. 50-189 § 2, 4-26-16; Ord. No. 50-587, § 1, 9-12-17)

Sec. 10.34.030. Annual permit fees for non-residential properties—Established.

In accordance with the provisions of chapter 10.08, annual fees will be as established in the following tables.

Any applicant desiring a use permit, shall, upon approval of application, pay a fee as required by this section. The annual permit fees for use permits shall be as set forth in this section. Except as described in section 10.08.210 (e), the minimum annual permit fee for use permits shall be $25.00.

	Encroachment Description	*Annual Fee*
(1)	At-grade scales for vehicles.	$ 0.65 / square ft.
(2)	Ventilation and other ducts, sidewalk elevators, and similar structures.	$ 0.65 / square ft.
(3)	Bridges, roofs, canopies, and similar structures.	$ 0.30 / square ft.
(4)	Clocks, sculptures, and similar structures.	$25.00 / each
(5)	Fences, walls, retaining walls, and similar structures.	$ 1.00 / linear ft.
(6)	Overhead hoist beams and cranes.	$31.00 / each
(7)	Permanent flag poles and light poles supported by public property, (not permitted in footway).	$25.00 / each
(8)	Fire escapes, steps, docks, loading platforms, or landings.	$12.50 / square ft.
(9)	Tunnels for private use.	$ 0.25 / cubic ft.
(10)	Tanks under public property, including necessary connection pipes and other appurtenances. All tank installations shall be regulated by the international building code, the international fire code, and any applicable city e-zoning ordinances, and any other applicable regulations. No tank installation shall be used for storage of material with a flash point below 37.8ºC (100.0ºF), as listed on the material's MSDS sheet.	$ 0.15 / gallon of capacity
(11)	Manholes, coalholes, vaults or subsurface spaces other than tunnels. The space shall be measured from the private property line to the outside of the wall enclosing the space and from the floor of the space to the traffic surface.	$ 0.05 / cubic ft.
(12)	Car tracks (private, not operated by common carrier).	$ 2.50 / linear ft.
(13)	Pipe lines, wires, or conduits not exceeding five hundred feet in length and two feet in diameter that are not public utilities.	$ 1.50 / linear ft.
(14)	Pipes over two feet in diameter are not permitted except by special permission of the city engineer.	Determined by city engineer
(15)	Pipes exceeding five hundred feet in length.	$ 2.50 / linear ft.
(16)	Use of streets, alleys or other public right-of-way. This section is for any use not categorized including paved parking in the right-of-way.	
	(a)In the area bounded on the south by the centerline of Waterman Street, on the west by the centerline of the Arkansas River, on the north by the centerline of Central Street, and on the east by the centerline of Washington Street.	$ 1.00 / square ft.
	(b)In the remainder of the city the use of the five thousand square feet of land or less.	$ 0.50 / square ft.
	(c)In the remainder of the city, the use of five thousand square feet of land or more is subject to the approval of the city manager.	Determined by city manager
(17)	Use of drainage dedications or easements for purposes such as gardens or fenced-in areas.	$ 0.03 / square ft.
(18)	Wells, either supply or discharge, on public property, including necessary connection pipes and appurtenances.	$25.00 / each
(19)	Bollards.	$ 5.00 / each
(20)	Benches.	$25.00 / each
(21)	Open drainage structures of any type.	$ 0.50 / square ft.
(22)	Any other encroachment, including planters.	$10.00 / square ft.
(23)	"Sandwich board" signs with an area of twelve square feet or less (subject to approval by MABCD).	$25.00 / sign plus MABCD fees

	Encroachment Description	*Annual Fee*
(24)	All other signs, per square foot of sign face (one side only) (subject to approval by MABCD).	$ 1.00 / square ft. plus MABCD fees

(Ord. No. 50-189 § 2, 4-26-16)

Sec. 10.34.040. Same—Residential properties—Established.

Any permittee desiring a use permit for use by a single-family residence shall, upon approval of application, pay a fee as required by this section. The annual permit fees for use permit shall be as set forth in this section. The minimum annual permit fee for use permits shall be $25.00.

	Encroachment Description	*Annual Fee*
(1)	Brick pavers or colored/tinted/stamped/embossed concrete that complies with the requirements of the Americans with Disabilities Act.	$ 0.10 / square ft.
(2)	Fences, walls, retaining walls, and similar structures, provided any such structures are "good neighbor" structures, with the finished side facing the right-of-way or the adjacent property.	$ 0.25 / linear ft.
(3)	Drainage flumes, walkways, or any flatwork other than standard drive approaches or sidewalks that comply with the requirement of the Americans with Disabilities Act.	$ 0.10 / square ft.

(Ord. No. 50-189 § 2, 4-26-16)

CHAPTER 10.36. STREET PERFORMERS

Sec. 10.36.010. Purpose.
Sec. 10.36.020. Definitions.
Sec. 10.36.030. Performance restrictions.
Sec. 10.36.035. Performances requiring a permit.
Sec. 10.36.040. Integration with existing Code.
Sec. 10.36.050. Enforcement.
Sec. 10.36.060. [Exclusion.]
Sec. 10.36.070. Severability.

Sec. 10.36.010. Purpose.

The City Council finds that the existence in the City of street performers provides a public amenity that enhances the character of the City and seeks to encourage such performances in a manner consistent with the overall public interest. The City Council also recognizes that street performers seek to and do draw crowds for their performances. Such crowds can create serious safety problems by inhibiting the ability of pedestrians to move safely on sidewalks and through crosswalks and by impeding the response time of safety personnel. Such crowds can limit access to and egress from businesses and residences. This chapter imposes reasonable time, place, and manner restrictions on street performers engaged in First Amendment expression to the extent necessary to ensure the safety of performers, their audiences and the general public, the orderly movement of traffic, and to prevent unreasonable interference with residents' enjoyment and peace and quiet in their homes, or the ability of businesses to operate and conduct their businesses.
(Ord. No. 46-895, § 1, 3-2-06)

Sec. 10.36.020. Definitions.

For the purposes of this chapter, the following words or phrases shall have the meanings stated:

(a) Charge. To require someone to pay a fee or to set, negotiate or establish a fee for a performance. Seeking voluntary contributions through passing around a hat, leaving open an instrument case or other receptacle, or soliciting donations of any amount after a performance is not a charge.

(b) Entrance. Any point of entry into or egress from to a structure, whether by vehicle or pedestrian; or any point of entry into or egress from a defined, private, outdoor space, such as a permitted under City Code section 10.04.131 and amendments thereto. The entrance shall include the outer edge of all doors, vestibules, driveways and emergency exits.

(c) Handicrafts. Objects made either by hand or with the help of devices used to shape or produce the objects through such methods as weaving, carving, stitching, sewing, lacing, and beading, including, but not limited to, objects such as jewelry, pottery, silver work, leather goods, and trinkets. Handicrafts are not likely to communicate a message, idea, or concept to others, are often mass-produced or produced with limited variation, and often have functional utility apart from any communicative value they might have. Handicrafts do not include visual art.

(d) Perform. To engage in the following activities: playing musical instruments, singing, dancing, acting, pantomiming, puppeteering, acts of illusion, juggling, reciting, creating visual art in its entirety, or similar expressive conduct. "Perform" shall not include: the provision of personal services such as hair weaving or massage; the application of substances to others' skin, including, but not limited to, paints, dyes and inks; the creation of visual art which is mass produced or produced with limited variation or other activity that is primarily the creation handicrafts.

(e) Performer or Street Performer. An individual who performs in a public area, for the purpose of providing public entertainment or who creates visual art in its entirety, or engages in similar expressive conduct for the pleasure of passers-by.

(f) Public Areas. Sidewalks, parks, and all other outdoor, public spaces located in

the City. These areas are described in judicial opinions as traditional public fora.

(g) Residence. Any interior space within a structure that is designed for or actually used as a dwelling, whether or not currently occupied.

(h) Sculpture. A three dimensional work of art which is created through shaping solid material such as wood, stone, clay, plastic or metal by carving, modeling, or similar methods.

(i) Street. The entire width between the curb lines or the lateral lines of a roadway or every way publicly maintained when part thereof is open to the use of the public for purposes of vehicular traffic. As used in this chapter, the word "street" shall include any public road, highway, street, avenue, thoroughfare, trafficway, boulevard, alley, lane and any other public way for vehicular traffic, unless the context clearly indicates otherwise.

(j) Visual Art. Drawings, paintings, and constructions applied to paper, cardboard, canvas, or other similar medium through the use of brush, pastel, crayon, pencil or other similar object, and sculptures.

(Ord. No. 46-895, § 2, 3-2-06; Ord. No. 50-440, § 1, 4-25-17)

Sec. 10.36.030. Performance restrictions.

(a) No performer shall perform:

(1) Within 10 feet of any bus stop, or within the property of the Wichita Transit Center;

(2) Within 10 feet of any marked pedestrian crosswalk or any street corner, including the intersection of any two or more streets;

(3) Within 10 feet of any entrance of any structure during the hours that any business on the premises is open to the public or to persons having or conducting lawful business within those premises.

(4) Within 10 feet of any entrance to any parking lot or parking garage.

(5) Within 10 feet of any entrance to any building that contains one or more residences.

(6) Within 10 feet of any fire hydrant, standpipe connection or fire control sprinkler connection.

(7) Within any area of the Dwight D. Eisenhower National Airport property or Col. James Jabara Airport property designated by the Federal Aviation Agency or Transportation Security Agency as a secured zone. The Director of Airports may place additional, reasonable restrictions on street performers consistent with the non-public forum status of these properties.

(8) Within a street, unless the performer holds a valid parade license for the date and time coinciding with the performance, issued under Chapter 3.14 of this Code, or has written permission to participate in an ongoing parade from the holder of the permit issued under Chapter 3.14 for that parade.

(9) Within 50 feet of the boundaries of an approved community event or within 50 feet of any person participating in an event for which a permit has been issued by the Park and Recreation Department. This restriction shall extend for the duration of the approved or permitted period. This restriction shall not apply if the performer has written permission to perform within the area described in such permits from the approval holder or permit holder.

(10) Within 50 feet of another performer.

(b) A performer and the performer's equipment may not block or obstruct the free and safe movement of pedestrians. No performer shall place any object or position his or her person on a public sidewalk in a manner that causes there to be less than a four-foot width of clear space on that sidewalk for pedestrian passage. If a sufficient crowd gathers to observe a performer such that passage of the public through a public area is blocked or obstructed, a police officer, or

fire or parks official may disperse that portion of the crowd that is blocking or obstructing the passage of the public. Those refusing to disperse may be cited with a violation of Section 5.48.020 or Section 10.04.070 of this Code, as appropriate. If a performer cannot conduct a performance in a location without blocking or obstructing the passage of the public, a police officer or fire or parks official may cause the performer to leave the location or require that the performer relocate his or her equipment, but shall not prevent the performer from occupying another location in compliance with this Chapter.

(c) No performer shall construct, erect, or maintain any stage, platform, or similar elevated structure used to support any portion of a performer's body weight.

(d) No performer shall use any object or engage in any activity in a manner that can cause serious bodily injury to any person.

(e) No performer shall use any generator, storage battery, or any other power source in a manner that poses a fire or public safety hazard.

(f) No performer shall connect or maintain an electrical cord to a City power source without permission from the City Manager or the Manager's designee. It shall be the responsibility of a performer who utilizes any connection of an electrical cord to an adjacent building to ensure that the connection is safe and is maintained in such a manner as to prevent any tripping hazard.

(g) No performer shall litter his or her performance site.

(h) No performer shall use, or prevent the public from using, any public bench, waste receptacle, newspaper vending rack or enclosure, or other street furniture during the performance except for such items that are within the required safety perimeter.

(i) No performer shall attach any object to, or damage any streetlight, traffic light or utility pole, any sign or signposts, any tree, shrub or any landscaping or any statue, fountain or other item of pre-existing public art in a performance or use any such item as a standard, support or holder for any sign.

(j) No minor under the age of 16 shall perform unless the minor is at all times accompanied by a responsible adult 18 years of age or older.

(k) No performer shall perform in a public area between the hours of 11:00 p.m. and 8:00 a.m. Sunday through Thursday and 12:00 midnight and 8:00 a.m. on Friday and Saturday.

(l) No performer shall perform with more instruments, props, equipment, merchandise, or other items than the performer can reasonably transport or remove at one time.

(m) No performer shall place his or her instruments, props, equipment, merchandise, or other items in a public area for more than two hours without performing in accordance with the provisions of this chapter.

(n) No performer shall leave his or her instruments, props, equipment, merchandise, or other items unattended. Unattended items in a public area constitute a public nuisance, and are subject to removal as abandoned property.

(o) No performer shall perform so that any aspect of the performance creates a sound that is in violation of Chapter 7.41 of this Code.

(p) No performer shall block or obstruct a curb cut.

(q) No performer shall engage in unlawful advertising, as defined in Chapter 5.04 of this Code.

(r) No performer shall perform on any bike path without prior approval from the City Manager or the Manager's designee.
(Ord. No. 46-895, § 3, 3-2-06; Ord. No. 50-440, § 2, 4-25-17)

Sec. 10.36.035. Performances requiring a permit.

(a) A performer who performs for a charge or offers merchandise for sale upon public areas shall first obtain a street and sidewalk vending license and be subject to all applicable provisions of Chapter 3.97 of this Code and amendments

thereto, including restrictions pertaining to allowable locations for such vending. A performer who performs without charge, and does not offer merchandise for sale, shall not be required to obtain a street and sidewalk vending license. A performer may solicit voluntary contributions after a performance, and may receive them in any receptacle. A donation of a suggested amount solicited after a performance shall be considered a voluntary contribution.

(b) No performer shall use any torch, flame or caustic or flammable substances without having first obtained the required permit from the Wichita Fire Department.
(Ord. No. 50-440, § 3, 4-25-17)

Sec. 10.36.040. Integration with existing Code.

Any performer in compliance with the performance restrictions of this chapter shall not be deemed guilty of loitering under Chapter 5.48 of this Code nor guilty of soliciting in a park, under Section 9.04.060 of this Code, nor shall such performer be required to obtain a permit under Sections 9.04.030, 9.04.070, or 9.04.080 of this Code.
(Ord. No. 46-895, § 4, 3-2-06; Ord. No. 50-440, § 4, 4-25-17)

Sec. 10.36.050. Enforcement.

(a) Any person who is convicted of violating any of the performance restrictions or of failing to obtain any of the permits imposed or required by this chapter shall be guilty of a misdemeanor, which shall be punishable as follows:

(1) For a first offense, by a fine not less than $100, nor more than $250, or imprisonment for a definite term which shall not exceed thirty (30) days, or by both such fine and imprisonment;

(2) For a second offense, by a fine not less than $250, nor more than $500, or imprisonment for a definite term which shall not exceed three (3) months, or by both such fine and imprisonment;

(3) For a third and subsequent offense, by a fine of not less than $500, nor more than $1,000, or imprisonment for a definite term which shall not exceed six (6) months, or by both such fine and imprisonment.

(b) In addition to the penalties previously described in this section, the City may seek an injunction against any performer through civil action in any court of competent jurisdiction to enjoin further violations of the performance restrictions described in this chapter, or to enjoin street performance by a given performer entirely.
(Ord. No. 46-895, § 4, 3-2-06; Ord. No. 50-440, § 5, 4-25-17)

Sec. 10.36.060. [Exclusion.]

Except as otherwise provided in this Chapter, no public area shall be excluded from performances except by: (1) action of the City Council, or (2) by decision of the Chief of Police or his designee in the case of a public safety emergency, which decision shall be effective immediately for up to 7 consecutive days on up to two instances annually.
(Ord. No. 46-895, § 6, 3-2-06)

Sec. 10.36.070. Severability.

If any provision in this chapter shall be deemed to be unconstitutional or otherwise invalid, the validity of the remaining provisions within this chapter shall not be affected.
(Ord. No. 46-895, § 7, 3-2-06)

Sec. 11.04.405. Work-site utility vehicle defined.

*__Note—__Ordinance history; Ord. No. 29-319 §§ 1, 10—14, Ord. No. 30-982 § 1.

Sec. 11.04.005. Generally.

The following words and phrases when used in this title shall, for the purpose of this title and

other traffic ordinances, have the meanings respectively ascribed to them in this chapter except when the context otherwise requires.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.007. All-terrain vehicle defined.

"All-terrain vehicle" means any motorized nonhighway vehicle 55 inches or less in width measured from the outside of one tire rim to the outside of the other tire rim, having a dry weight of 1,500 pounds or less and traveling on three or more nonhighway tires and having a seat designed to be straddled by the operator. As used in this section, "nonhighway tire" means any pneumatic tire six inches or more in width, designed for use on wheels with a rim diameter of 14 inches or less.
(Ord. No. 50-861, § 1, 9-25-18; Ord. No. 52-633, § 1, 3-25-25)

Sec. 11.04.010. Alley.

"Alley" means access to the rear or side lots or buildings in urban districts and not intended for the purpose of through vehicular traffic.
(Ord. No. 39-080 (part))

Sec. 11.04.012. Arterial street.

"Arterial street" means any U. S. or state numbered route, controlled access highway or other major radial or circumferential street or highway designated by local authorities within their respective jurisdictions as part of a major arterial system of streets or highways. (See Section 11.96.100 for a listing of arterial streets)
(Ord. No. 37-322 § 1)

Sec. 11.04.015. Authorized emergency vehicles.

"Authorized emergency vehicle" means such fire department vehicles, police vehicles and ambulances as are publicly owned and such other publicly owned vehicles as are designated by the Secretary of Transportation pursuant to K.S.A. 8-2010.
(Ord. No. 30-080 (part))

Sec. 11.04.020. Bicycle.

"Bicycle" means every vehicle propelled by human power upon which any person may ride having two or more wheels, any of which is more than twenty inches in diameter.
(Ord. No. 30-080 (part))

Sec. 11.04.025. Bus.

"Bus" means every motor vehicle designed for carrying more than ten passengers and used for the transportation of persons; and every motor vehicle, other than a taxicab, designed and used for the transportation of persons for compensation.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.030. Business district.

"Business district" means the territory contiguous to and including a highway when within any six hundred feet along such highway there are buildings in use for business or industrial purposes, including but not limited to hotels, banks, or office buildings, railroad stations and public buildings which occupy at least three hundred feet of frontage on one side or three hundred feet collectively on both sides of the highway.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.035. Bus loading zones.

"Bus loading zones" mean portions of streets described, designated and established by the traffic engineer as zones to be used exclusively for the expeditious loading and unloading of passengers into or from busses.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.040. Chauffeur.

"Chauffeur" means every person who is employed by another for the principal purpose of driving a motor vehicle and every person who drives a school bus transporting school children or any motor vehicle when in use for the transportation of persons or property for compensation.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.045. Chief of police.

"Chief of police" means the chief of police of the city, or any member of the police department of the city designated by the chief of police to act in his place.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.050. City manager.

"City manager" means the city manager of the city or any member of any department of the city designated by the city manager to act in his place and stead in carrying out the provisions of this title.
(Ord. No. 39-080; (part))

Sec. 11.04.055. Commission, Secretary, Department.

(a) "Commission" means the Secretary of Transportation;

(b) "Secretary" means the Secretary of Transportation;

(c) "Department" means the Department of Transportation.
(Ord. No. 39-080 (part))

Sec. 11.04.057. Community service officer.

"Community Service Officer" means an individual designated by the Chief of Police who is authorized to enforce the provisions of Title 11, direct traffic and impound vehicles.
(Ord. No. 50-948, § 1, 3-19-19)

Sec. 11.04.060. Congested area or district.

Congested area means all streets and portions of streets, excluding alleys, within the area described as follows: All the area bounded Central on the north including all property abutting Central on the north, Washington Street on the east, including all property abutting Washington to the east, the Arkansas River on the west, including all property abutting the Arkansas River on the west and Kellogg Drive on the south, including all property abutting Kellogg Drive on the south.
(Ord. No. 40-853 § 1; Ord. No. 50-642, § 1, 12-19-17)

Sec. 11.04.065. Controlled access highway.

"Controlled access highway" means every highway, street or roadway in respect to which owners or occupants of abutting lands and other persons have no legal right of access to or from the same except at such points only and in such manner as may be determined by the public authority having jurisdiction over such highway, street or roadway.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.070. Crosswalk.

"Crosswalk" means:

(a) That portion of a roadway at an intersection included within the connections of the lateral lines of sidewalks on opposite sides of the highway measured from the curbs, or, in the absence of curbs, from the edges of the traversable roadway;

(b) Any portion of a roadway at an intersection or elsewhere distinctly indicated for pedestrian crossing by lines or other markings on the surface.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.080. Diagonal parking.

"Diagonal parking" means the standing or parking of a motor vehicle on a public street or municipal parking lot with the long axis of the vehicle extending away from the street, curb, roadway edge or municipal parking lot curb at an angle and the front of the vehicle next to the curb.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.082. Divided highway.

"Divided highway" means a highway divided into two or more roadways by leaving an intervening space or by a physical barrier or by a clearly indicated dividing section so constructed as to impede vehicular traffic.
(Ord. No. 39-080 (part))

Sec. 11.04.083. Dockless electric-assisted scooter sharing system.

Dockless Electric-Assisted Scooter Sharing System means an electric-assisted scooter share

program in which companies distribute electric-assisted scooters throughout a city to be rented per trip. These scooters can be locked at any lawful location and not at a set location. Scooters are tracked via GPS and can be located by users.
(Ord. No. 51-049, § 4, 6-18-19)

Sec. 11.04.085. Double parking.

"Double parking" means the standing or stopping of a vehicle in the line of traffic and (a) to the rear of a vehicle angle parked, or to the rear of a space where a vehicle may be parked at any angle to the curb or edge of the roadway, or (b) to the roadway side of a vehicle parked parallel with the curb or edge of the roadway or the roadway side of the space in which a vehicle may be parked parallel to the curb or edge of the roadway.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.087. Drag race.

"Drag Race" is defined as the operation of two or more vehicles from a point side by side at accelerating speeds in a competitive attempt to outdistance each other, or the operation of one or more vehicles over a common selected course, from the same point to the same point, for the purpose of comparing the relative speeds or power of acceleration of such vehicle or vehicles within a certain distance or time limit.
(Ord. No. 51-640, § 1, 9-28-21)

Sec. 11.04.090. Driver.

"Driver" means every person who drives or is in actual physical control of a vehicle.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.092. Driveway-towaway operation.

"Driveway-towaway operation" means any operation in which any motor vehicle, trailer or semitrailer, singly or in combination, new or used, constitutes the commodity being transported, when one set or more of wheels of any such vehicle are on the roadway during the course of transportation, whether or not any such vehicle furnishes the motive power.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.093. Electric-assisted scooter.

Electric-assisted scooter means a self-propelled vehicle which is part of a Dockless Electric-Assisted Scooter Sharing System that has at least two wheels in contact with the ground, an electric motor, handlebars, a brake and a deck that is designed to be stood upon by the user when riding. Electric-assisted scooter does not include a vehicle that is powered by gasoline; or a motorized skateboard as defined by this Title.
(Ord. No. 51-049, § 5, 6-18-19)

Sec. 11.04.095. Entrance to public or private driveway or roadway.

"Entrance to public or private driveway or roadway" means that portion of the driveway or roadway lying between the curb line or lateral lines of a roadway and the adjacent property line.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.097. Essential parts.

"Essential parts" means all integral and body parts of a vehicle of a type required to be registered hereunder, the removal, alteration or substitution of which would tend to conceal the identity of the vehicle or substantially alter its appearance, model, type or mode of operation.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.100. Exhibition of speed or acceleration.

"Exhibition of speed or acceleration" is defined as those acts which cause or create unnecessary rapid acceleration, unnecessary tire squeal, skid, smoke, or slide upon acceleration or stopping including the casting of tread, gravel, dirt or other road surface materials from the tires; acts that simulate a temporary race; acts that cause the vehicle to unnecessarily turn abruptly, sway or lose traction with the road surface, acts that include driving a vehicle at a higher rate of speed than other vehicles in the same position and abruptly cutting in and out of such slower traffic. Exhibition of speed includes motorcycle stunting such as standing on the seat while the motorcycle

is in motion and lifting the front wheel from the ground as the vehicle is in motion, also known as wheelies.
(Ord. No. 51-640, § 2, 9-28-21)

Sec. 11.04.105. Farm tractor.

"Farm tractor" means every motor vehicle designated and used primarily as a farm implement power unit operated with or without other attached farm implements in any manner consistent with the structural design of such power unit.
(Ord. No. 44-851 § 1)

Sec. 11.04.112. Foreign vehicle.

"Foreign vehicle" means every vehicle of a type required to be registered hereunder brought into this state from another state, territory or country other than in the ordinary course of business by or through a manufacturer or dealer and not registered in this state.
(Ord. No. 39-080 (part))

Sec. 11.04.115. Frontage road.

"Frontage road" means a highway, road or street which is auxiliary to and located on the side of another highway, road or street which is auxiliary to abutting property and adjacent areas and for control of access to another highway, road or street.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.117. Golf cart defined.

"Golf Cart" means a motor vehicle that has not less than three wheels in contact with the ground, an unladen weight of not more than 1,800 pounds, is designed to be and is operated at not more than 25 miles per hour and is designed to carry not more than four persons, including the driver. Such term shall not include All-Terrain Vehicles "ATV" as defined by Section 11.04.007 or K.S.A. 8-1402a, Micro Trucks as defined by Section 11.04.157 or K.S.A. 8-1494 or Work-site Utility Vehicle "UTV" as defined by Section 11.04.405 or K.S.A. 8-1493.
(Ord. No. 52-633, § 2, 3-25-25)

Sec. 11.04.120. Governing body.

"Governing body" means the board of city commissioners of the City of Wichita.
(Ord. No. 39-080 (part))

Sec. 11.04.125. Gross weight.

"Gross weight" means the weight of a vehicle without load, plus the weight of any load thereon.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.126. House trailer.

"House trailer" means:

(a) A trailer or semitrailer which is designed, constructed and equipped as a dwelling place, living abode or sleeping place, either permanently or temporarily, and is equipped for use as a conveyance on streets and highways; or

(b) A trailer or a semitrailer whose chassis and exterior shell is designed and constructed for use as a house trailer, as defined in paragraph (a), but which is used instead permanently or temporarily for the advertising, sales, display or promotion of merchandise or services, or for any other commercial purpose except the transportation of property for hire or the transportation of property for distribution by a private carrier.

(Ord. No. 31-232 § 1 (part))

Sec. 11.04.127. Identifying numbers.

"Identifying numbers" means the numbers, and letters if any, of a vehicle designated by the Division of Motor Vehicles for the purpose of identifying the vehicle.
(Ord. No. 39-080 (part))

Sec. 11.04.130. Implement of husbandry.

"Implement of husbandry" means every vehicle designed or adapted and used exclusively for agricultural operations and only incidentally moved or operated upon the highways. Such term shall include, but not be limited to, a fertilizer spreader, except as otherwise provided in this section, or any "nurse tank" used in connection therewith, regardless of ownership.

A truck-mounted fertilizer spreader used or manufactured principally to spread animal dung is not an implement of husbandry for the purpose of this chapter.
(Ord. No. 39-080 (part))

Sec. 11.04.135. Intersection.

"Intersection" means:

(a) The area embraced within the prolongation or connection of the lateral curb lines, or if none, then the lateral boundary lines of the roadways of two highways which join one another at, or approximately at, right angles, or the area within which vehicles traveling upon different highways joining at any other angle may come in conflict;

(b) Where a highway includes two roadways thirty feet or more apart, then every crossing of each roadway of such divided highway by an intersecting highway shall be regarded as a separate intersection. In the event such intersecting highway also includes two roadways thirty feet or more apart, then every crossing of two roadways of such highways shall be regarded as a separate intersection.

(Ord. No. 31-232 § 1 (part))

Sec. 11.04.140. Laned roadway.

"Laned roadway" means a roadway which is divided into two or more clearly marked lanes for vehicular traffic.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.145. License collector.

"License collector" means the treasurer of the city or any other person designated to act in his stead.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.150. Loading zone.

"Loading zone" means portions of streets described, designated and established by the traffic engineer as zones to be used exclusively for the expeditious loading and unloading of passengers or merchandise into or from a motor vehicle.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.152. Mail.

"Mail" means to deposit in the United States mail properly addressed and with postage prepaid.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.155. Metal tire.

"Metal tire" means every tire the surface of which, in contact with the highway, is wholly or partly of metal or other hard nonresilient material.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.157. Micro utility truck defined.

"Micro utility truck" means any motor vehicle which is not less than 48 inches in width, has an overall length, including the bumper, of not more than 160 inches, has an unladen weight, including fuel and fluids, of more than 1,500 pounds, can exceed 40 miles per hour as originally manufactured and is manufactured with a metal cab. "Micro utility truck" does not include a work-site utility vehicle.
(Ord. No. 52-633, § 3, 3-25-25)

Sec. 11.04.160. Motorcycle.

"Motorcycle" means every motor vehicle having a seat or saddle for use of the rider and designed to travel on not more than three wheels in contact with the ground, but excluding a tractor.
(Ord. No. 31-231 § 1 (part))

Sec. 11.04.165. Motor-driven cycle.

"Motor-driven cycle" means every motorcycle, including every motor scooter or moped, with a motor which produces not to exceed five brake horsepower, and every bicycle with a motor attached.
(Ord. No. 39-080 (part))

Sec. 11.04.170. Motor vehicle.

"Motor vehicle" means every vehicle which is self-propelled and every vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated upon rails.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.172. Motorized bicycle defined.

"Motorized bicycle" means every device having two tandem wheels or three wheels which may be propelled by either human power or helper motor, or by both, and which has:

(a) A motor which produces not more than 3.5 brake horsepower;

(b) a cylinder capacity of not more than 130 cubic centimeters;

(c) an automatic transmission; and

(d) the capability of a maximum design speed of no more than 30 miles per hour except a low power cycle.

(Ord. No. 50-861, § 2, 9-25-18)

Sec. 11.04.175. Municipal judge.

"Municipal judge" means the judge of the municipal court of the city.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.180. Nonresident.

"Nonresident" means every person who is not a resident of the city.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.185. No parking zones.

"No parking zones" mean portions of highways described, designated and established by the traffic engineer as zones within which parking is prohibited at all times.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.190. Official time standard.

Whenever certain hours are specified, they mean standard time or daylight savings time as may be in current use in this city.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.191. Official traffic control devices.

"Official traffic control devices" mean all signs, signals, markings and devices not inconsistent with this ordinance, placed or erected by authority of a public body or official having jurisdiction for the purpose of regulating, warning or guiding traffic; or for the purpose of regulating parking.
(Ord. No. 39-080 (part); Ord. No. 52-326, § 1, 1-9-24)

Sec. 11.04.195. Operator.

"Operator" means every person, other than a chauffeur, who drives or is in actual physical control of a motor vehicle upon a highway or who is exercising control over or steering a vehicle being towed by a motor vehicle.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.200. Owner.

"Owner" means a person who holds the legal title of a vehicle, or in the event a vehicle is the subject of an agreement for the conditional sale or lease thereof with the right of purchase upon performance of the conditions stated in the agreement, and with an immediate right of possession vested in the conditional vendee or lessee, or in the event a mortgagor of a vehicle is entitled to possession, then such conditional vendee or lessee or mortgagor shall be deemed the owner for the purpose of this title.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.205. Parallel parking.

"Parallel parking" means:

(a) On streets with curbs, the standing or parking of a motor vehicle, viewed from the rear, with the right hand wheels thereof parallel and within twelve inches of the right hand curb or roadway edge, subject to exceptions permitting left side parallel parking as hereinafter provided;

(b) On streets without curbs, the standing or parking of a motor vehicle, viewed from the rear, with the right hand wheels thereof parallel with the right edge of the

roadway and so that at least twenty feet of the width of the roadway remains for the free movement of vehicular traffic.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.210. Parking zone—Regulated.

"Parking zone-regulated" means all portions of a street or municipal parking lot described, designated and established by the City Council as zones within which the parking of motor vehicles shall be controlled and regulated with the aid of one or more timing devices, gates or meters herein collectively referred to as parking meters. The City Council delegates designation of regulated parking zones to the City Traffic Engineer pursuant to Section 11.52.010.
(Ord. No. 31-232 § 1 (part); Ord. No. 52-326, § 2, 1-9-24)

Editor's note—Ord. No. 52-326, § 2, adopted Jan. 9, 2024, amended the title of § 11.04.210 to read as herein set out. The former § 11.04.210 title pertained to parking meter zone.

Sec. 11.04.215. Park or parking.

"Park" or "parking" means the standing of a vehicle, whether occupied or not.
(Ord. No. 39-080 (part))

Sec. 11.04.217. Passenger car.

"Passenger car" means every motor vehicle, except motorcycles and motor-driven cycles, designed for carrying ten passengers or less and used for the transportation of persons.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.220. Pass, passing.

"Pass" and "passing" means the movement of a vehicle when it overtakes and proceeds past another vehicle moving in the same direction in the same lane or a parallel lane.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.225. Pedestrian.

"Pedestrian" means any person afoot.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.240. Pneumatic tire.

"Pneumatic tire" means every tire in which compressed air is designed to support the load.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.245. Pole trailer.

"Pole trailer" means any two-wheel vehicle used as a trailer with bolsters that support the load, and do not have a rack or body extending to the tractor drawing the load.
(Ord. No. 44-851 § 2)

Sec. 11.04.250. Police officer.

"Police officer" means every law enforcement officer authorized to direct or regulate traffic or make arrests for violations of traffic regulations.
(Ord. No. 39-080 (part))

Sec. 11.04.255. Private road or driveway.

"Private road or driveway" means every way or place in private ownership and used for vehicular travel by the owner and those having express or implied permission from the owner, but not by other persons.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.257. Public right-of-way.

"Public right-of-way" means the entire width of the area from property line to property line including that area between the roadway and the abutting private property line.
(Ord. No. 41-522 § 1)

Sec. 11.04.259. Racing.

Racing is defined as the use of one or more vehicles in an attempt to outgain, outdistance or prevent another vehicle from passing, to arrive at a given destination ahead of another vehicle or vehicles, or to test the physical stamina or endurance of drivers over long distance driving routes.
(Ord. No. 51-640, § 3, 9-28-21)

Sec. 11.04.260. Railroad.

"Railroad" means a carrier of persons or property upon cars operated upon stationary rails.
(Ord. No. 39-080 (part))

Sec. 11.04.265. Railroad sign or signal.

"Railroad sign or signal" means any sign, signal or device erected by authority of a public body or official or by a railroad and intended to give notice of the presence of railroad tracks or the approach of a railroad train.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.270. Railroad train.

"Railroad train" means a steam engine, electric or other motor with or without cars coupled thereto, operated upon rails.
(Ord. No. 39-080 (part))

Sec. 11.04.271. Recreational vehicle.

"Recreational vehicle" means a vehicular-type unit built on or for use on a chassis and designed primarily as living quarters for recreational, camping, vacation or travel use and which has its own motive power and which has a body width not exceeding one hundred two inches and a boy length not exceeding forty-five feet. "Recreational vehicle" shall include converted buses, motor homes, and house boats.
(Ord. No. 44-851 § 3)

Sec. 11.04.272. Registration.

"Registration" means the registration certificate or certificates and registration plates issued under the laws of this state pertaining to the registration of vehicles.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.273. Required front yard.

"Required front yard" means either the platted front yard or the area between the innermost portion of a sidewalk or front property line and the face of a dwelling structure with a minimum distance of twenty-five feet and a maximum distance of thirty-five feet.
(Ord. No. 41-522 § 2)

Sec. 11.04.274. Required side yard.

"Required side yard" means either the platted side yard or a minimum six-foot area on a comer lot adjacent to the street right-of-way in the AA, A, RB, R5 and R6 residential districts or the platted or minimum five-foot area in B residential district.
(Ord. No. 41-522 § 3)

Sec. 11.04.275. Residence district.

"Residence district" means the territory contiguous to and including a highway not comprising a business district when the property on such highway for a distance of three hundred feet or more is in the main improved with residences or residences and buildings in use for business.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.280. Right-of-way.

"Right-of-way" means the right of one vehicle or pedestrian to proceed in a lawful manner in preference to another vehicle or pedestrian approaching under such circumstances of direction, speed and proximity as to give rise to danger of collision unless one grants precedence to the other.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.285. Road tractor.

"Road tractor" means every motor vehicle designed and used for drawing other vehicles and not so constructed as to carry any load thereon either independently or any part of the weight of a vehicle or load so drawn.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.290. Roadway.

"Roadway" means the portion of a highway improved, designed or ordinarily used for vehicular travel, exclusive of the berm or shoulder. In the event a highway includes two or more separate roadways, the term "roadway" as used herein shall refer to any such roadway separately, but not to all such roadways collectively.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.300. School bus.

"School bus" means every motor vehicle owned by a public or governmental agency and operated for the transportation of children to or from school, or to and from activities, or privately owned and operated for compensation for such transportation of children. The term "activities" as used herein mean school activities and contests in the field of athletics, music, forensics, dramatic and any other interschool extracurricular activities by pupils enrolled in any of the grades from seven to twelve, inclusive.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.305. School crossing.

"School crossing" means a crosswalk which is clearly marked by transverse lines across a roadway and is authorized by school children on their route to and from school. All school crossings are equipped with school crossing symbol signs and school advance symbol signs.
(Ord. No. 32-279 (part); Ord. No. 31-232 § 1 (part))

Sec. 11.04.310. School zone.

"School zone" means that roadway or portion thereof customarily used by students of a public or private school and which has been set aside and designated by the erection of plainly visible symbol signs indicating the extent of such zone.
(Ord. No. 36-285 (part))

Sec. 11.04.312. School speed zone.

"School speed zone" means that roadway or portion thereof customarily used by students of a public elementary or private elementary school which has been set aside and designated by:

(1) The erection of signs indicating reduced school speed limits; or

(2) Traffic signal devices having two alternating flashing yellow lenses, herein referred to as speed limit sign beacons; or

(3) Two-section yellow and red traffic signal which dwells in flashing yellow until activated, then changes to steady yellow followed by steady red with an advance sign indicating "school speed limit 20 when signal is operating."

(Ord. No. 36-285 (part))

Sec. 11.04.315. Semitrailer.

"Semitrailer" means every vehicle of the trailer type so designed and used in conjunction with a motor vehicle that some part of its weight and that of its load rests upon or is carried by another vehicle.
(Ord. No. 44-851 § 4)

Sec. 11.04.317. Sideshow.

"Sideshow" is defined as an informal demonstration of automotive stunts. Common activities at sideshows include doughnuts and ghost riding. The latter involves driving a car, opening the door and climbing out, sometimes onto the hood, sometimes standing or dancing next to the car while the car continues to roll.
(Ord. No. 51-640, § 4, 9-28-21)

Sec. 11.04.320. Sidewalk or sidewalk area.

"Sidewalk" or "sidewalk area" means that portion of a street between the curb lines, or the lateral lines of a roadway, and the adjacent property line, intended for use by pedestrians. Such area includes both any paved sidewalk and any unpaved area between the lateral lines of a roadway and the adjacent property line.
(Ord. No. 41-522 § 4)

Sec. 11.04.322. Skateboard.

"Skateboard" means a device for riding upon, either for sport or transportation, which is propelled by human power, consisting of an oblong piece of wood or other rigid material mounted upon wheels or rollers, but excluding wagons, scooters, strollers, carts and toy vehicles.
(Ord. No. 41-230 § 1)

Sec. 11.04.325. Reserved.
(Ord. No. 50-896, § 10, 11-27-18)

Sec. 11.04.330. Specially constructed vehicle.

"Specially constructed vehicle" means any vehicle which was not originally constructed under a distinctive name, make, model or type, or which, as originally otherwise constructed, has been materially altered by the removal of essential parts or by addition or substitution of essential parts, new or used, derived from other vehicles or makes of vehicles.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.332. Spectate.

"Spectate" means being present at an illegal motor vehicle speed contest, sideshow, motorcycle stunting or exhibition of speed, or at a location where preparations are being made for such activities, for the purpose of viewing, observing, watching, or witnessing the event as it progresses. Spectator includes any individual at the location of the event without regard to whether the individual arrived at the event by driving a vehicle, riding as a passenger in a vehicle, walking, or arriving by some other means. Unintentional witnesses or passersby to such events are not considered spectators, as a spectator is one who attends an event for the purpose of viewing it.
(Ord. No. 51-640, § 5, 9-28-21)

Sec. 11.04.335. Stand or standing.

"Stand" or "standing" means the halting of a vehicle, whether occupied or not.
(Ord. No. 39-080 (part))

Sec. 11.04.340. State.

"State" means the State of Kansas.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.345. Stop—Required.

"Stop" when required means complete cessation from movement.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.350. Stop or stopping—Prohibited.

"Stop" or "stopping" when prohibited means any halting even momentarily of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or traffic control sign or signal.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.355. Street or highway.

"Street" or "highway" means the entire width between property lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular traffic. Where the word "highway" or the word "street" is used in this title, it means street, avenue, boulevard, thoroughfare, trafficway, alley and any other public way for vehicular travel by whatever name unless the context clearly indicates otherwise.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.360. Taxicab stands.

"Taxicab stands" means portions of streets described, designated and established by the traffic engineer as zones used exclusively by taxicabs for the purpose of loading and unloading passengers.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.365. Through traffic.

"Through traffic" means vehicular traffic passing through a section of roadway without an origin or destination within such section of roadway or such that the origin or destination cannot be practicably accessed by another route.
(Ord. No. 39-080 (part); Ord. No. 50-896, § 1, 11-27-18)

Editor's note—Ord. No. 50-896, § 1, adopted Nov. 27, 2018, changed the title of § 11.04.365 from through highway to through traffic.

Sec. 11.04.370. Traffic.

"Traffic" means pedestrians, ridden or herded animals, vehicles and other conveyances either singly or together, while using any highway for purposes of travel.
(Ord. No. 39-080 (part))

Sec. 11.04.375. Traffic engineer, city.

"City traffic engineer" means the traffic engineer of the city, and any member of the traffic engineering division of the department of operations and maintenance designated by the city traffic engineer to act in his place and stead in carrying out this title.
(Ord. No. 39-080 (part))

Sec. 11.04.380. Trailer.

"Trailer" means every vehicle without motive power, designed for carrying persons or property wholly on its own structure and to be drawn by a motor vehicle.
(Ord. No. 44-851 § 5)

Sec. 11.04.385. Truck.

"Truck" means any vehicle with a gross vehicle weight rating (GVWR) of over fourteen thousand pounds (14,000 lbs.) or any vehicle required to register as a Commercial Motor Vehicle under State Law.
(Ord. No. 44-851 § 6; Ord. No. 50-896, § 2, 11-27-18)

Sec. 11.04.390. Truck loading zones.

"Truck loading zones" means portions of streets described, designated and established by the traffic engineer as zones to be used for the expeditious loading and unloading of merchandise during certain designated hours into or from trucks.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.395. Truck tractor.

"Truck tractor" means every motor vehicle designed and used primarily for drawing other vehicles and not so constructed as to carry a load other than a part of the weight of the vehicle and load so drawn.
(Ord. No. 31-232 § 1 (part))

Sec. 11.04.400. Vehicle.

"Vehicle" means every device in, upon or by which any person or property is or may be transported or drawn upon a highway, except electric personal assistive mobility device or devices moved by human power or used exclusively upon stationary rails or tracks.
(Ord. No. 39-080 (part); Ord. No. 50-317 § 1, 9-13-16)

Sec. 11.04.405. Work-site utility vehicle defined.

"Work-Site Utility Vehicle" or "UTV" means any motor vehicle which is not less than 48 inches in width, has an unladen weight, including fuel and fluids, of more than 800 pounds and is equipped with four or more nonhighway tires, a steering wheel and bench or bucket-type seating allowing at least two people to sit side-by-side, and may be equipped with a bed or cargo box for hauling materials. "Work-site utility vehicle" does not include a micro utility truck.
(Ord. No. 52-633, § 4, 3-25-25)

CHAPTER 11.08. RESERVED*

*__Editor's note—__Ord. No. 50-948, § 6, adopted Mar. 19, 2019, repealed Ch. 11.08, §§ 11.08.010—11.08.40, 11.08.045, 11.08.050—11.08.070, which pertained to traffic division, and derived from Ord. No. 29-318 § 11; Ord. No. 29-319 §§ 6, 8, 9; Ord. No. 31-291, § 1; Ord. No. 32-939; Ord. No. 39-082 (part); Ord. No. 41-522, § 5; and Ord. No. 50-688, § 1, adopted Apr. 17, 2018.

CHAPTER 11.10. TRAFFIC ENGINEER

Sec. 11.10.010. Office established—Appointment.
Sec. 11.10.020. Duties.
Sec. 11.10.030. Approves traffic regulations.
Sec. 11.10.040. Tests traffic-control devices.

Sec. 11.10.010. Office established—Appointment.

The office of city traffic engineer is hereby established. The city traffic engineer shall be appointed by the city manager, and he shall exercise the powers and duties as provided in this title and other traffic ordinances of this city.
(Ord. No. 29-319 § 15(a))

Sec. 11.10.020. Duties.

It is the general duty of the traffic engineer to determine the installation and proper timing and maintenance of traffic-control devices, to measure, to conduct engineering investigation of traffic conditions and to cooperate with other city officials in the development of ways and means to improve traffic conditions, and to carry out the additional powers and duties imposed by the city manager or by this title and other traffic ordinances of this city.
(Ord. No. 29-319 § 15(b))

Sec. 11.10.030. Approves traffic regulations.

The chief of police by and with the approval of the city traffic engineer is hereby empowered to make regulations necessary to make effective the provisions of this title and other traffic ordinances of this city and to make and enforce temporary or experimental regulations to cover emergencies or special conditions. Such temporary regulations shall remain in effect until rescinded or codified into the Code of the City of Wichita.
(Ord. No. 39-083)

Sec. 11.10.040. Tests traffic-control devices.

The city traffic engineer may test traffic-control devices under actual conditions of traffic.
(Ord. No. 29-319 § 16(b))

CHAPTER 11.12. ACCIDENTS*

Sec. 11.12.010. Reserved.
Sec. 11.12.020. Reserved.
Sec. 11.12.030. Duty to give information and render aid: attended vehicle or property.
Sec. 11.12.040. Duty upon striking unattended vehicle or property.
Sec. 11.12.050. Reserved.
Sec. 11.12.060. Reserved.
Sec. 11.12.070. When driver unable to report.
Sec. 11.12.080. False information.
Sec. 11.12.090. Penalty.

Sec. 11.12.010. Reserved.

Editor's note—Ord. No. 50-858, § 5, adopted Sept. 25, 2018, repealed § 11.12.010, which pertained to accident involving death or personal injuries and derived from Ord. No. 32-940 (part); and Ord. No. 30-982 § 2.

Sec. 11.12.020. Reserved.

Editor's note—Ord. No. 50-858, § 5, adopted Sept. 25, 2018, repealed § 11.12.020, which pertained to accident involving damage to vehicle and derived from Ord. No. 30-982 § 3.

Sec. 11.12.030. Duty to give information and render aid: attended vehicle or property.

(a) The driver of any vehicle involved in an accident resulting in an injury to any person or damage to any attended vehicle or property shall:

(1) immediately stop such vehicle at the scene of such accident, or as close thereto as possible, but shall then immediately return to and in every event shall remain at the scene of the accident until the driver has fulfilled the requirements of 11.12.030 (a)(2); and

(2) shall give such driver's name, address and the registration number of the vehicle such person is driving, and upon request shall exhibit such person's driver's license or permit to drive, the name of the company with which there is in effect a policy of motor vehicle liability insurance covering the vehicle involved in the accident and the policy number of such policy to any person injured in such accident or to the driver or occupant of or person attending any vehicle or other property damaged in such accident, and shall give such information and upon request exhibit such license or permit and the name of the insurer and policy number, to any police officer at the scene of the accident or who is investigating the accident.

(3) Such driver, insofar as possible, shall immediately make efforts to determine whether any person involved in such accident was injured or killed, and shall render to any person injured in such accident reasonable assistance, including the carrying, or the making of arrangements for the carrying of such person to a physician, surgeon or hospital for medical or surgical treatment if it is apparent that such treatment is necessary, or if such carrying is requested by the injured person.

(b) If no police officer is present, the driver of any vehicle involved in such accident, or any occupant of such vehicle 18 years of age or older, shall immediately report such accident, by the quickest available means of communication, to the nearest office of a duly authorized police authority if:

(1) There is apparently property damage of $1,000 or more;

(2) any person involved in the accident is injured or killed; or

(3) the persons specified in subsection (a) are not present or in condition to receive such information.

(Ord. No. 50-858, § 1, 9-25-18)

Editor's note—Ord. No. 50-858, § 1, adopted Sept. 25, 2018, amended § 11.12.030 in its entirety to read as herein set out. Former § 11.12.030 pertained to duty to give information and render aid, and derived from Ord. No. 38-872 § 1.

*__Note—__Ordinance history; Ord. No. 19-139 §§ 14—17, 19; Ord. No. 25-195 § 1; Ord. No. 25-196 § 1.

Cross reference—For duties of traffic division as to accident investigations, studies, records, and reports, see §§ 11.08.040 through 11.08.080.

Sec. 11.12.040. Duty upon striking unattended vehicle or property.

The driver of any vehicle which collides with or is involved in an accident with any vehicle or other property which is unattended resulting in damage to such other vehicle or property, shall immediately stop and shall either locate and notify the operator or owner of such vehicle or other property of such driver's name and address and the registration number of the vehicle such driver was driving or shall attach securely in a conspicuous place in or on such vehicle or other property a written notice giving such driver's name and address and the registration number of the vehicle such driver was driving and without unnecessary delay shall notify the nearest office of a duly authorized police authority.
(Ord. No. 50-858, § 3, 9-25-18)

Editor's note—Ord. No. 50-858, § 3, adopted Sept. 25, 2018, amended § 11.12.040 in its entirety to read as herein set out. Former § 11.12.040 pertained to duty upon striking unattended vehicle, and derived from Ord. No. 39-084 (part).

Sec. 11.12.050. Reserved.

Editor's note—Ord. No. 50-858, § 5, adopted Sept. 25, 2018, repealed § 11.12.050, which pertained to duty upon striking fixtures upon a highway and derived from Ord. No. 30-982 § 6.

Sec. 11.12.060. Reserved.

Editor's note—Ord. No. 50-858, § 5, adopted Sept. 25, 2018, repealed § 11.12.060, which pertained to duty to report accidents and derived from Ord. No. 39-084 (part); Ord. No. 32-279 (part); and Ord. No. 30-982 § 7.

Sec. 11.12.070. When driver unable to report.

Whenever the driver of a vehicle is physically incapable of making a required accident report, and there was another occupant in the vehicle at the time of the accident capable of making a report, such occupant shall make or cause to be made said report.
(Ord. No. 30-982 § 8)

Sec. 11.12.080. False information.

It is unlawful for any person to give information in oral or written reports as required in this chapter knowing or having reason to believe that such information is false.
(Ord. No. 32-940 (part); Ord. No. 30-982 § 9)

Sec. 11.12.090. Penalty.

Any person convicted of a violation of any of the provisions of this chapter shall be punished by a fine of not more than $2,500 or by imprisonment for not more than one year, or by both such fine and imprisonment.
(Ord. No. 32-940 (part); Ord. No. 50-858, § 4, 9-25-18)

CHAPTER 11.13. MOTOR VEHICLE LIABILITY INSURANCE

Sec. 11.13.010. Motor vehicle liability insurance coverage required.
Sec. 11.13.020. False information.
Sec. 11.13.030. Proof of violation.
Sec. 11.13.040. Penalty.
Sec. 11.13.050. Exclusions.

Sec. 11.13.010. Motor vehicle liability insurance coverage required.

(a) Every owner of a motor vehicle shall provide motor vehicle liability insurance coverage in accordance with the Kansas Automobile Injury Reparations Act, K.S.A. 40-3101 et seq. and amendments thereto, for every motor vehicle owned by such person, unless such motor vehicle: (1) is included under an approved self-insurance plan as provided in K.S.A. 40-3104(f) and amendments thereto; (2) is used as a driver training motor vehicle, as defined in K.S.A. 72-5015, and amendments thereto, in an approved driver training course by a school district or an accredited nonpublic school under an agreement with a motor vehicle dealer, and such motor vehicle liability insurance coverage is provided by the school district or accredited nonpublic school; (3) is included under a qualified plan of self-insurance approved by an agency of the state in which such motor vehicle is registered and the form prescribed in subsection (b) of K.S.A. 40-3106; or (4) is expressly exempted under the laws of this state.

(b) An owner of an uninsured motor vehicle shall not permit the operation thereof upon street or highway or upon property open to use by the public within the city limits, unless such motor vehicle is expressly exempted from said requirements pursuant to the laws of this state.

(c) No person shall knowingly drive an uninsured motor vehicle upon a street or highway or upon property open to use by the public within the city limits, unless such motor vehicle is expressly exempted from said requirements pursuant to the law of this state.

(d) Any person operating a motor vehicle upon a street or highway or upon property open to use by the public within the city limits, shall display, upon demand, evidence of financial security, as provided in K.S.A. 40-3107 and amendments thereto, to a law enforcement officer. The law enforcement officer shall issue a notice to appear to any person who fails to display evidence of financial security upon such demand. The law enforcement officer shall attach a copy of the insurance verification form prescribed by the Secretary of Revenue to the copy of the citation or notice to appear forwarded to the court.

No citation or notice to appear shall be issued to any person for failure to provide proof of financial security when evidence of financial security meeting the standards of subsection (e) of this section is displayed upon demand of a law enforcement officer. Whenever the authenticity of such evidence is questionable, the law enforcement officer may initiate the preparation of the insurance verification form prescribed by the Secretary of Revenue by recording information from the evidence of financial security displayed, and shall immediately forward the form to the Department of Revenue.

(e) Unless the insurance company subsequently submits an insurance verification form indicating that insurance was not in force, no person charged with violating any of the provisions of this section shall be convicted if such person produces in court, within ten days of the date of arrest or receiving notice to appear, evidence of financial security for the motor vehicle operated, which was valid at the time of arrest, or issuance of the citation or notice to appear. For the purpose of this section, evidence of financial security shall be provided by a policy of motor vehicle liability insurance, an identification card or certificate of insurance issued to the policyholder by the insurer which provides the name of the insurer, the policy number and the effective and expiration dates of the policy, or a certificate of self-insurance signed by the commissioner of insurance.

Upon the production in court of evidence of financial security, the court shall record the information displayed thereon on the insurance verification form prescribed by the Secretary of Rev-

enue, immediately forward such form to the Department of Revenue, and stay further proceedings on the matter pending a request from the prosecuting attorney that the matter be set for trial.
(Ord. No. 44-457 § 1)

Sec. 11.13.020. False information.

(a) It is unlawful for the owner of a motor vehicle registered or required to be registered in the state to give false information concerning financial security for the operation of such motor vehicle as required by this chapter.

(b) It is unlawful for any person, firm or corporation to give false information concerning another's financial security for the operation of a motor vehicle registered or required to be registered in the state, knowing or having reason to believe that such information is false.
(Ord. No. 38-872 § 3)

Sec. 11.13.030. Proof of violation.

Evidence that a motor vehicle, registered or required to be registered in the state, has been operated within the city limits together with proof of records of the Division of Motor Vehicles indicating that the owner of such vehicle did not have financial security as required under this chapter, shall be prima facie evidence that the owner did, at the time and place alleged, operate or permit such motor vehicle to be operated without having in full force and effect financial security required by the provisions of this chapter.
(Ord. No. 38-872 § 4)

Sec. 11.13.040. Penalty.

Any person convicted of violating any of the provisions of this chapter shall be deemed guilty of a misdemeanor, and shall be punished by a mandatory fine of not less than three hundred dollars nor more than one thousand dollars or by imprisonment for not more than six months, or by both such fine and imprisonment. Any person convicted of violating any of the provisions of this chapter within three years of any such prior conviction shall be deemed guilty of a misdemeanor and shall be punished by a fine of not less than eight hundred dollars nor more than two thousand five hundred dollars or by imprisonment for not more than one year, or by both such fine and imprisonment.
(Ord. No. 44-457 § 2)

Sec. 11.13.050. Exclusions.

(a) This chapter shall not apply to motor carriers of property or passengers regulated by the corporation commission of the state.

(b) This chapter shall not apply to vehicle dealers, as defined in K.S.A. 8-2401 and amendments thereto, for vehicles being offered for sale by such dealers.
(Ord. No. 44-457 § 3)

CHAPTER 11.16. ENFORCEMENT*

Sec. 11.16.010. Title applicability—Exceptions.
Sec. 11.16.020. Obedience required.
Sec. 11.16.030. Reserved.
Sec. 11.16.040. Enforcement of traffic laws.
Sec. 11.16.045. Records of violations.
Sec. 11.16.047. Investigation of accidents.
Sec. 11.16.050. Obedience to police required.
Sec. 11.16.060. Public employees—Obedience to regulations required.
Sec. 11.16.070. Persons propelling pushcarts or riding bicycles or animals to obey traffic regulations.
Sec. 11.16.080. Coasters, roller skates—Use restricted.
Sec. 11.16.085. Skateboards—Use restricted.
Sec. 11.16.090. Real property owners—Noninterference of title.
Sec. 11.16.100. Duty of driver upon approach of authorized emergency vehicle.

Sec. 11.16.010. Title applicability—Exceptions.

The provisions of this title relating to the operation of vehicles refer exclusively to the operation of vehicles upon highways, except: (a) where a different place is specifically referred to in a given section; and (b) the provisions of Chapter 11.12 and Sections 11.24.020, 11.38.150, 11.38.155, 11.38.160 and 11.38.170 of this title shall apply upon highways and elsewhere throughout the city.
(Ord. No. 32-941 (part); Ord. No. 30-982 § 10; Ord. No. 50-948, § 2, 3-19-19)

Sec. 11.16.020. Obedience required.

It is unlawful for any person to do any act forbidden or fail to perform any act required in this title.
(Ord. No. 30-982 § 11)

Sec. 11.16.030. Reserved.

Editor's note—Ord. No. 50-948, § 6, adopted Mar. 19, 2019, repealed § 11.16.030, which pertained to police department enforcement duty, and derived from Ord. No. 30-982 § 12.

*__Note—__Ordinance history; Ord. No. 19-139 §§ 20, 21, 23-28; Ord. No. 19-563 § 3.

Sec. 11.16.040. Enforcement of traffic laws.

(a) As set forth in this Code, it is the duty of the police department to enforce the traffic ordinances of this city and all of the state traffic laws applicable to traffic in this city, to make arrests for traffic violations, to investigate accidents and to cooperate with the City Traffic Engineer and the City Manager's Office in the administration of the traffic and parking laws and in developing ways and means to improve traffic conditions.

(b) Police officers of the city shall at all times be empowered to enforce the provisions of this and other traffic ordinances of this city and temporary and emergency rules and regulations of the Chief of Police, and may at any time direct and control traffic in person or by visible or audible signals, provided, that any officer or Community Service Officer actively directing traffic in the event of a fire, temporary traffic congestion or other emergency, or to expedite the flow of traffic or to safeguard pedestrians, may by proper signal cause any vehicle or pedestrian to stop at or pass through any intersection whether the same be controlled by an official traffic control sign or device, or to disregard a sign otherwise provided by ordinance.

(c) The Chief of Police shall have the authority to designate special Community Service Officers to direct traffic, impound vehicles, and investigate traffic accidents. The Community Service Officer shall have authority to enforce traffic provisions under Title 11 and issue citations. Community Service Officers may issue citations pursuant to Title 11, but are not authorized to make arrests.

(d) The City Manager or a designee is authorized to appoint city employees or retain independent contractors as designated Parking Control Officers for the purpose of facilitating the enforcement of the city's parking ordinances and issuing citations for such violations. The Metropolitan Area Building and Construction Department is also authorized to enforce parking provisions of this Title.

(e) Whenever any motor vehicle is parked in violation of any of the provisions of this Title, a citation consisting of a notice of violation with the following information:

(1) The state license number of the vehicle in violation;

(2) The time at which such vehicle was in violation;

(3) The location, by the nearest street address, of the vehicle in violation, or the number of the parking meter and, if available, the number of the parking space indicating that the motor vehicle occupying that parking space is or has been parking in violation; and

(4) Other facts which are necessary to a thorough understanding of the circumstances attending such violation, shall be attached to every vehicle violating any parking provisions of this Title, instructing such owner or operator to answer the charges of said violation before the municipal court of the city.

(Ord. No. 50-948, § 3, 3-19-19; Ord. No. 52-326, § 3, 1-9-24)

Editor's note—Ord. No. 50-948, § 3, adopted Mar. 19, 2019, amended § 11.16.040 in its entirety to read as herein set out. Former § 11.16.040 pertained to police officer—duties generally, and derived from Ord. No. 30-92, § 13; and Ord. No. 45-492, § 1, adopted Nov. 5, 2002.

Sec. 11.16.045. Records of violations.

As required by state statute, the police department shall keep a record of all violations of traffic ordinances of this city or of the state traffic laws of which any person has been charged. The records shall be so maintained as to show the total and types of all violations.
(Ord. No. 50-948, § 4, 3-19-19)

Sec. 11.16.047. Investigation of accidents.

(a) It is the duty of the police department, to investigate traffic accidents and to arrest and assist in the prosecution of those persons charged with the violations of law causing or contributing to such accidents.

(b) The police department is required to investigate and prepare a written motor vehicle accident report of any motor vehicle accident occurring within the corporate limits of the city, and in which any one or more of the following incidents exist:

(1) The personal injury or death of any person has occurred,

(2) The driver of any vehicle involved in the accident fails to immediately stop such vehicle at the scene of the accident in accordance with Chapter 11.12,

(3) The driver of any vehicle involved in the accident is driving the vehicle while under the influence of intoxicating liquor or drugs contrary to Section 11.38.150 and 11.38.155 of this title,

(4) Where the total property damage resulting from the collision exceeds an apparent extent of more than $1,000.

(c) The police department shall cooperate with the city traffic engineer in conducting studies of accidents and determining remedial measures to reduce traffic accidents and promote public safety.

(d) The police department shall ensure the maintenance of a record of all traffic accidents, warnings, arrests, convictions and complaints reported for each driver is maintained.
(Ord. No. 50-948, § 5, 3-19-19)

Sec. 11.16.050. Obedience to police required.

(a) No person shall knowingly fail or refuse to comply with any lawful order or direction of any police officer or Community Service Officer of this city vested by law with authority to direct, control or regulate traffic and shall be guilty as provided by subsection (d)(1).

(b) No person shall disobey or drive around any traffic cones, or other traffic marking or directional devices, or an occupied or unoccupied police vehicle that is utilizing its emergency or hazard lights and has been placed in a position as to block vehicles from proceeding through a

lane of traffic, an accident scene, fire scene, crime scene or any other official law enforcement activity.

(c) (1) Any driver of a motor vehicle who knowingly fails or refuses to bring such driver's vehicle to a stop for a pursuing police vehicle or police bicycle, when given visual or audible signal to bring the vehicle to a stop, shall be guilty as provided by subsection (d)(2).

(2) Any driver of a motor vehicle who knowingly otherwise flees or attempts to elude a pursuing police vehicle or police bicycle, when given visual or audible signal to bring the vehicle to a stop, shall be guilty as provided by subsection (d)(2).

(3) It shall be an affirmative defense to any prosecution under subsection (c)(1) that the driver's conduct in violation of such paragraph was caused by such driver's reasonable belief that the vehicle or bicycle pursuing such driver's vehicle is not a police vehicle or police bicycle.

(d) (1) Every person convicted of violating subsections (a) and (b) is guilty of a misdemeanor and shall be punished in the manner provided in Section 1.04.060 of this Code.

(2) Every person convicted of violating subsection (c) is guilty of a misdemeanor and a first conviction is punishable by a maximum term of 6 months in jail, a $1,000 fine, or a combination of both. A second conviction is punishable by a maximum term of 12 months jail, a $2,500 fine, or a combination of both.

(e) The signal given by the police officer may be by hand, voice, emergency light or siren:

(1) If the officer giving such signal is within or upon an official police vehicle or police bicycle at the time the signal is given, the vehicle or bicycle shall be appropriately marked showing it to be an official police vehicle or police bicycle; or

(2) If the officer giving such signal is not utilizing an official police vehicle or police bicycle at the time the signal is given, the officer shall be in uniform, prominently displaying such officer's badge of office at the time the signal is given.

(f) For the purpose of this section:

(1) "Conviction" means a final conviction without regard to whether sentence was suspended or probation granted after such conviction. Forfeiture of bail, bond or collateral deposited to secure a defendant's appearance in court, which forfeiture has not been vacated, shall be equivalent to a conviction. For the purpose of determining whether a conviction is a first, second, third or subsequent conviction in sentencing under this section it is irrelevant whether an offense occurred before or after conviction for a previous offense.

(2) "Appropriately marked" official police vehicle or police bicycle shall include, but not be limited to, any police vehicle or bicycle equipped with functional emergency lights or siren or both and which the emergency lights or siren or both have been activated for the purpose of signaling a driver to stop a motor vehicle.

(Ord. No. 32-941 (part); Ord. No. 31-232 § 19; prior Ord. No. 30-982 § 14; Ord. No. 51-093, § 1, 9-10-19; Ord. No. 51-888, § 1, 6-28-22)

Sec. 11.16.060. Public employees—Obedience to regulations required.

(a) The provisions of this title applicable to the drivers of vehicles upon the highways shall apply to the drivers of all vehicles owned or operated by the United States, this state, or any county, city, town, district or any other political subdivision of the state, subject to such specific exceptions as are set forth in this title, or by state law with reference to authorized emergency vehicles.

(b) The driver of any authorized emergency vehicle, when responding to an emergency call or when in the pursuit of an actual or suspected violator of the law, or when responding to but not

upon returning from a fire alarm may exercise the privileges set forth in this section, but subject to the condition herein stated.

(c) The driver of an authorized emergency vehicle may:

(1) Park or stand irrespective of the provisions of this title;

(2) Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation, and in no event shall an ambulance operating under emergency conditions proceed through a red or stop signal or stop sign at a speed in excess of ten miles per hour;

(3) Exceed the maximum speed limits so long as he does not endanger life or property;

(4) Disregard regulations governing direction of movement or turning in specified directions.

(d) The exemptions herein granted to an authorized emergency vehicle shall apply only when such vehicle is making use of audible signals meeting the requirements of Section 11.60.130 of this title, and visual signals meeting the requirements of Section 11.60.200 of this title, except that an authorized emergency vehicle operated as a police vehicle need not be equipped with or display a red light visible from in front of the vehicle.

(e) The foregoing provisions shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons, nor shall such provisions protect the driver from the consequences of his reckless disregard for the safety of others.

(f) Unless specifically made applicable, the provisions of this title which relate to the operation of vehicles upon a highway, except those contained in Sections 11.16.050, 11.38.150 and 11.38.160 of this title, shall not apply to persons, teams, motor vehicles and other equipment while actually engaged in work upon the surface of a highway, but shall apply to such persons and vehicles when traveling to or from such work.
(Ord. No. 32-941 (part); Ord. No. 31-232 § 2; prior Ord. No. 30-982 § 15)

Sec. 11.16.070. Persons propelling pushcarts or riding bicycles or animals to obey traffic regulations.

Every person riding a bicycle or an animal or driving any animal drawing a vehicle upon a roadway shall be subject to the provisions of this title applicable to the driver of a vehicle, except those provisions of this title which by their nature can have no application.
(Ord. No. 30-982 § 16)

Sec. 11.16.080. Coasters, roller skates—Use restricted.

(1) No person upon roller skates, or riding in or by means of any coaster, toy vehicle or similar device shall go upon any roadway except while crossing a street on a crosswalk, and when so crossing such person shall be granted all of the rights and shall be subject to all of the duties applicable to pedestrians.

(2) The provisions of this section shall not apply to the use of skateboards, which is covered in Section 11.16.085 of this title.
(Ord. No. 41-230 § 2)

Sec. 11.16.085. Skateboards—Use restricted.

(1) It is unlawful within the city for any person upon a skateboard:

(a) To go upon any street or highway in the city except while crossing a street on a crosswalk, and when so crossing such person shall be granted all of the rights and shall be subject to all of the duties applicable to pedestrians.

(b) To go upon any property, whether publicly or privately owned, within the area bounded by the east bank of the Arkansas River from the point where the river flows under the Central Avenue Bridge

to the point where the river flows under the Kellogg Street Bridge, thence east along the north side of Kellogg Street to a point where the Kellogg Street overpass crosses above the west line of Washington Avenue, thence north to the north line of Third Street, thence west to the west line of Broadway Avenue, thence north to the north line of Central Avenue, and thence west to the east bank of the Arkansas River to the point of beginning.

This subsection shall not apply to:

(i) Paved areas within the bounded area described herein which are set aside for bicycle use and commonly referred to as bicycle paths, however, the use of ramps (portable or otherwise) or any similar device is prohibited upon all areas designated as bicycle paths within the city;

(ii) Property which is specifically intended for commercial skateboard use, such as a skateboard park or similar facility;

(iii) Property where the owner has given permission for the use of skateboards and such property is clearly and visibly marked by a sign or signs indicating that skateboard use is allowed hereon. Such signs shall have lettering of at least one and one-half inches high and one-half inch wide. For signs required hereunder, the provisions of Chapter 24.04 of this Code shall have no application.

(c) To go upon or in any city-owned parking lot or parking garage.

(d) To go upon any other parking lot, parking garage or property within the city when such property is clearly and visibly marked by a sign or signs indicating that skateboard use is prohibited thereon. Such signs shall have lettering of at least one and one-half inches high and one-half inch wide. For signs required hereunder, the provisions of Chapter 24.04 of this Code shall have no application. When such signs are present upon privately owned property, the police department shall be authorized thereby to enforce the provisions of this section.

(e) To coast or otherwise move upon a skateboard in a reckless manner on any public sidewalk within the city, or without exercising due care for the safety of others using the sidewalks, or to otherwise endanger or interfere with pedestrian traffic.

(2) Violation of any of the provisions of this section is a misdemeanor and shall be punished by a fine of not more than five hundred dollars.

(3) In addition to the penalty for violation of this section, any skateboard may be seized in connection with said violation and may, in the discretion of the trial court be released back to the rightful owner upon their appearance in court or may otherwise be destroyed by the chief of police when the property is no longer needed for evidence.
(Ord. No. 41-230 § 3)

Sec. 11.16.090. Real property owners—Noninterference of title.

Nothing in this title shall be construed to prevent the owner of real property used by the public for purposes of vehicular travel by permission of the owner and not as a matter of right from prohibiting such use, or from requiring other or different or additional conditions than those specified in this title, or otherwise regulating such use as may seem best by such owner.
(Ord. No. 30-982 § 18)

Sec. 11.16.100. Duty of driver upon approach of authorized emergency vehicle.

(a) Upon the immediate approach of an authorized emergency vehicle making use of audible and visual signals meeting the requirements of Sections 11.60.165, 11.60.200, and 11.60.230(d), of this title, and amendments thereto, or of a police vehicle properly and lawfully making use of an audible signal only,

the driver of every other vehicle shall do the following unless otherwise directed by a police officer:

(1) Yield the right-of-way;

(2) Immediately drive to a position parallel to and as close as possible to the right-hand edge or curb of the roadway clear of any intersection; and

(3) Stop and remain in such position until the authorized emergency vehicle has passed.

(b) The driver of a motor vehicle upon approaching a stationary authorized emergency vehicle, when the authorized emergency vehicle is making use of visual signals meeting the requirements of Sections 11.60.155(d) and 11.60.165 of this title, and amendments thereto, shall do either of the following:

(1) If the driver of the motor vehicle is traveling on a highway that consists of at least two lanes that carry traffic in the same direction of travel as that of the driver's motor vehicle, the driver shall proceed with due caution and, if possible and with due regard to the road, weather and traffic conditions, shall change lanes into a lane that is not adjacent to that of the stationary authorized emergency vehicle; or

(2) If the driver is not traveling on a highway of a type described in subsection (b)(1) of this section, or if the driver is traveling on a highway of that type but it is not possible to change lanes or if to do so would be unsafe, the driver shall proceed with due caution, reduce the speed of the motor vehicle and maintain a safe speed for the road, weather and traffic conditions.

(c) This section shall not operate to relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons using the highway.
(Ord. No. 45-956 § 1; Ord. No. 39-085)

CHAPTER 11.20. TRAFFIC-CONTROL DEVICES*

Sec. 11.20.010. Placement.
Sec. 11.20.020. Standards.
Sec. 11.20.030. Driver's obedience required.
Sec. 11.20.040. Unauthorized or interfering sign.
Sec. 11.20.050. Defacing prohibited.
Sec. 11.20.060. Lights.
Sec. 11.20.080. Flashing or dark traffic signals.
Sec. 11.20.090. Fire lane designation.
Sec. 11.20.120. Crosswalk and safety zone.
Sec. 11.20.150. Compliance to school and playground zones.
Sec. 11.20.160. No-passing zone designation.
Sec. 11.20.170. Truck routes designation.

Sec. 11.20.010. Placement.

The city traffic engineer shall place and maintain traffic-control signs, signals and devices when and as required under this title and other traffic ordinances of this city to make effective the provisions of this title and such ordinances, and may place and maintain such additional traffic-control devices as he may deem necessary to regulate traffic under this title and other traffic ordinances of this city or under state law, or to guide or warn traffic.
(Ord. No. 30-982 § 20)

Sec. 11.20.020. Standards.

All traffic-control signs, signals and devices shall conform to the "Manual on Uniform Traffic Control Devices" currently approved by the State Department of Transportation, or revisions thereto. All signs and signals required under this title for a particular purpose shall so far as practicable, be uniform as to type and location throughout the city. All traffic-controlled devices so erected and not inconsistent with the provisions of state law or this title shall be official traffic-control devices.
(Ord. No. 39-086 (part))

Sec. 11.20.030. Driver's obedience required.

(a) The driver of any vehicle shall obey the instructions of any official traffic-control device applicable thereto placed in accordance with the provisions of this title, unless otherwise directed by a police officer, subject to the exceptions granted the driver of an authorized emergency vehicle in this title.

(b) No provisions of this title for which official traffic-control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that official traffic-control devices are required, such section shall be effective, even though no devices are erected or in place.

(c) Whenever official traffic-control devices are placed in position approximately conforming to the requirements of this title, such devices shall be presumed to have been so placed by the official act or direction of lawful authority, unless the contrary shall be established by competent evidence.

(d) Any official traffic-control device placed pursuant to the provisions of this title and purporting to conform to the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of this title, unless the contrary shall be established by competent evidence.
(Ord. No. 31-232 § 3; Ord. No. 30-982 § 22)

Sec. 11.20.040. Unauthorized or interfering sign.

(a) No person shall place, maintain or display upon or in view of any highway any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic-control device or any railroad sign or signal, and no person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal bearing thereon any commercial advertising. This shall not be deemed to prohibit the erection upon private property

*__Note—__Ordinance history; Ord. No. 39-319 §§ 17—33; Ord. No. 30-516.

adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs.

(b) Every such prohibited sign, signal or marking is hereby declared to be a public nuisance and the city traffic engineer is hereby empowered to remove the same or cause it to be removed without notice.
(Ord. No. 39-086 (part); Ord. No. 30-982 § 23)

Sec. 11.20.050. Defacing prohibited.

(a) No person shall without lawful authority attempt to or in fact, alter, deface, injure, knock down, or remove any official traffic-control device or any railroad sign or signal or any inscription, shield or insignia thereon, or any other part thereof.

(b) No person shall, without lawful authority, wilfully, intentionally or negligently attempt to or in fact alter, deface, injure, knock down or remove any traffic-control device placed in the roadway for the purpose of marking and identifying freshly painted traffic lines. No person shall drive any vehicle across freshly painted traffic lines so marked and so identified.
(Ord. No. 30-982 § 24)

Sec. 11.20.060. Lights.

Whenever traffic is controlled by traffic-control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination, only the colors green, red and yellow shall be used, except for special pedestrian signals carrying a word legend, and said lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) *Green Indication.*

(1) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection at the time such signal is exhibited.

(2) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(3) Unless otherwise provided by a pedestrian control signal, as provided in section 11.20.070 of this chapter, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) *Steady Yellow Indication.*

(1) Vehicular traffic facing a steady yellow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic shall not enter the intersection.

(2) Pedestrians facing a steady yellow signal, unless otherwise directed by a pedestrian control signal as provided in section 11.20.070 of this chapter, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and no pedestrian shall then start to cross the roadway.

(c) *Steady Red Indication.*

(1) Vehicular traffic facing a steady red signal alone shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection, and shall remain standing until an indication to proceed is shown, except as provided in subsection

(c)(2), (3) and (4) of this subsection. Any turn provided for in said paragraphs (2), (3) and (4) shall be governed by the applicable provisions of section 11.28.030 of the Code of the City of Wichita.

(2) Unless a sign is in place prohibiting a turn, vehicular traffic facing a steady red signal may cautiously enter the intersection to make a right turn after stopping as required by subsection (c)(1) of this section. After stopping, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection or junction of roadways. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within the adjacent crosswalk and to other traffic lawfully using the intersection.

(3) Unless a sign is in place prohibiting a turn, vehicular traffic upon a roadway restricted to one-way traffic facing a steady red signal at the intersection of such roadway with another roadway restricted to one-way traffic which is proceeding to the left of such vehicular traffic, may cautiously enter the intersection to make a left turn after stopping as required by subsection (c)(1) of this section. After stopping, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection or junction of roadways. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(4) The driver of a motorcycle or a person riding a bicycle facing any steady red signal, which fails to change to a green light within a reasonable period of time because of a signal malfunction or because the signal has failed to detect the arrival of the motorcycle or bicycle because of its size or weight, shall have the right to proceed subject to the rules stated herein.

After stopping, the driver or rider shall yield the right-of-way to any vehicle in or near the intersection or approaching on a roadway so closely as to constitute an immediate hazard during the time such driver or rider is moving across or within the intersection or junction of roadways. Such motorcycle or bicycle traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(5) Unless otherwise directed by a pedestrian-control signal as provided in K.S.A. 8-1509, and amendments thereto, pedestrians facing a steady circular red or red arrow signal alone shall not enter the roadway.

(d) *Steady Red with Green Arrow.*

(1) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow, but shall not interfere with other traffic or endanger pedestrians lawfully within a crosswalk.

(2) No pedestrian facing such signal shall enter the roadway.

(e) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made,

but in the absence of any such sign or marking, the stop shall be made at the signal.

(Ord. No. 38-874 § 1; Ord. No. 49-031, § 1, 7-12-2011)

Sec. 11.20.080. Flashing or dark traffic signals.

(a) Unless directed by a police officer or an official traffic control device, whenever an illuminated flashing red or yellow light is used in a traffic signal or the traffic signal has no indication illuminated, it shall require obedience by vehicular traffic as follows:

(1) Flashing Red or Dark (Stop Signal). When a red lens is illuminated with rapid intermittent flashes or there are no lenses illuminated, drivers of vehicles shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic before entering it, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(2) Flashing Yellow (Caution Signal). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(b) This section shall not apply at railroad grade crossings. Conduct of drivers approaching railroad grade crossings shall be governed by the provisions set forth in Section 11.36.080 of this title.

(Ord. No. 50-642, § 2, 12-19-17)

Editor's note—Ord. No. 50-642, § 2, adopted Dec. 19, 2017, amended § 11.20.080 in its entirety to read as herein set out. Former § 11.20.080 pertained to flashing traffic signals and derived from Ord. No. 39-086 (part).

Sec. 11.20.090. Fire lane designation.

The city manager shall have the authority, upon the joint recommendation of the fire chief and the city traffic engineer, to designate fire lanes along which fire trucks and equipment shall proceed in making fire calls; provided, however, that in emergencies and as necessity requires, runs of fire equipment may be made on other than fire lane streets and alleys, in the discretion of the officer in charge of such equipment.

(Ord. No. 30-982 § 28)

Sec. 11.20.120. Crosswalk and safety zone.

The city traffic engineer is authorized:

(a) To designate and shall hereafter maintain, or cause to be maintained, by appropriate traffic-control devices, marks or lines upon the surface of the roadway, crosswalks at intersections where in his opinion there is particular danger to pedestrians crossing the roadway and at such other places as he may deem necessary;

(b) To establish safety zones or safety islands in the center of any crosswalk at an intersection wherever he deems such may be necessary for the protection of pedestrians and the design of such safety zones or safety islands shall be approved by the traffic engineer.

(Ord. No. 39-086 (part); Ord. No. 30-982 § 31)

Sec. 11.20.150. Compliance to school and playground zones.

(a) Where hand signs are being used by persons for the purpose of aiding school children in crossing streets, the driver of any vehicle upon the streets where such signs are used shall bring his vehicle to a complete stop when a sign is being waved, held out over the curbline or otherwise displayed so as to indicate a cessation of movement. The vehicle shall remain stationary while children are crossing the street. When said signs are withdrawn, the driver of such vehicle may proceed unless prohibited by other traffic-control devices.

(b) The driver of any vehicle, upon entering a posted school speed zone or a posted playground speed zone, shall reduce his speed to the posted

speed or less while within said zones during the periods of time such posted speed zones are in effect, which are as follows:

(1) In school speed zones which are designated by a sign indicating "School Speed Limit 20 When Children Are Present," the speed limit between seven-thirty a.m. and four-thirty p.m. shall be twenty miles per hour when:

(A) An elementary school child or children are occupying a marked crosswalk;

(B) An elementary school child or children are waiting at the curb or on

the shoulder of the roadway and are about to cross the roadway by way of the marked crosswalk;

(C) An elementary school child or children are present or walking along roadway, either on the adjacent sidewalk or, in the absence of sidewalks, on the shoulder within the posted school speed limit zone.

(2) In school speed zones which are designated by a sign that includes a flashing speed limit beacon, the speed limit shall be twenty miles per hour during all times when the flashing speed limit beacons are flashing.

(3) In school speed zones which are designated by a two-section yellow and red traffic signal and an advance sign indicating "School Speed Limit 20 When Signal Is Operating," the speed limit shall be twenty miles per hour during all times when the traffic signal is operating.

(4) In playground speed zones which are designated by a sign indicating "Playground, Speed Limit 20 When Children Are Present," the speed limit between eight-fifteen a.m. and nine-forty-five p.m. of any day commencing with Memorial Day and through Labor Day shall be twenty miles per hour.

(c) No driver of a vehicle shall pass another vehicle in a school or playground speed zone except on multilane roads where passing is permissible and then only if passing may be accomplished without changing lanes while within the school or playground speed zone.

(d) Whenever traffic is controlled by traffic-control signals exhibiting the colors yellow or red, the following regulations will be in effect:

(1) Flashing Yellow (Caution Signal). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles shall proceed through the intersection or pass such signals with caution.

(2) Solid Yellow Alone When Shown Following Flashing Yellow or Caution Signal. Vehicular traffic facing the signal shall stop before entering the nearest crosswalk at the intersection. If the stop cannot be made in safety, a vehicle may be driven cautiously through the intersection or may cautiously pass such signals.

(3) Red Alone or "Stop." Vehicular traffic facing the signal shall stop before entering the nearest crosswalk or at such other point as may be indicated by a clearly visible line on the surface of the roadway and shall remain standing until flashing yellow or "caution" is shown alone.

(Ord. No. 39-086 (part); Ord. No. 37-891; Ord. No. 36-605; Ord. No. 36-285 (part))

Sec. 11.20.160. No-passing zone designation.

The traffic engineer is authorized to designate where overtaking and passing or driving to the left of the roadway would be especially hazardous and may, by appropriate signs or markings on the roadway, indicate the beginning and end of such zones, and when such signs or markings are in place and clearly visible to an ordinarily observant person, every driver of a vehicle shall obey the directions thereof.

(Ord. No. 31-232 § 6; Ord. No. 30-982 § 35)

Sec. 11.20.170. Truck routes designation.

The traffic engineer shall place and maintain appropriate signs on the portions of the streets designated as truck routes and at other points deemed advisable in order to route trucks and commercial vehicles over alternate or bypass routes.

(Ord. No. 30-982 § 36)

CHAPTER 11.22. INTERSECTIONS

Sec. 11.22.010. Obstructing view prohibited.
Sec. 11.22.020. Exceptions to Section 11.22.010.
Sec. 11.22.030. Applicability of chapter.
Sec. 11.22.040. Abatement notice—Time limit.
Sec. 11.22.050. Authority of the city engineer.
Sec. 11.22.060. Abatement by city—Assessment.
Sec. 11.22.070. Penalty.

Sec. 11.22.010. Obstructing view prohibited.

The traffic engineer or the traffic engineer's designee shall determine, based on engineering judgment, the AASHTO publication, "A Policy on Geometric Design of Highways and Streets," (current edition), and this section, if a sight obstruction exists. Sight obstructions shall be prohibited at controlled and uncontrolled intersections of public streets.

Uncontrolled intersections. In all areas, on private or public property at any corner formed by intersecting streets, it is unlawful to install, set out, maintain, allow to remain, or allow the installation, setting out or maintenance of any sign, fence, hedge, shrubbery, natural growth or any other obstruction to view, regardless of nature, within the vision triangle as determined by a triangle whose sides are ninety feet measured along the centerlines of the approach streets from their point of intersection.

Controlled intersections. In all areas, on private or public property, at any corner formed by intersecting streets where the right-of-way is assigned to the major street and the minor street is stop-controlled, it is unlawful to install, set out, maintain, allow to remain, or allow the installation, setting out or maintenance of any sign, fence, hedge, shrubbery, natural growth or any other obstruction to view, regardless of nature, within the vision triangle. This vision triangle shall have its shorter side equal to one-half the major street width plus fifteen feet and the longer side equal to distance determined in the following tables:

Required Sight Distance

(Ord. No. 39-087; Ord. No. 50-188 § 1, 4-26-16)

Sec. 11.22.020. Exceptions to Section 11.22.010.

The provisions of Section 11.22.010 shall not apply to permanent buildings, public utility poles, hedges trimmed to a height of less than thirty-three inches above gutter grade, trees, the trunks of which are at all times kept trimmed of limbs and sucker growth to a height of at least six feet above the gutter grade or the limbs of which overhang the public street are at all times kept trimmed of branches to a height of at least thirteen feet six inches above the street level, or plant species, not planted in the form of hedge, which are so planted and trimmed as to leave at all times a clear and unobstructed crossview; ornamental fence not exceeding four feet in height, provided the ratio of the solid portion of the fence to the open shall not exceed one to four; supporting members appurtenant to permanent building existing on September 1, 1974; official warning signs or signals; places where the contour of the ground is such that there can be no cross-visibility at the intersection; or to signs mounted ten feet or more above the gutter grade whose supports do not constitute an obstruction.
(Ord. No. 33-421 (part))

Sec. 11.22.030. Applicability of chapter.

No obstruction to cross-visibility shall be determined to be excepted from the application of this chapter because of its being in existence on September 1, 1974, unless expressly exempt by the terms of this chapter.
(Ord. No. 33-421 (part))

Sec. 11.22.040. Abatement notice—Time limit.

(a) When, in the opinion of the traffic engineer, an obstruction to visibility exists, as prohibited in this chapter, it is his duty to give notice in writing by certified letter addressed to the property owner or owners complained against, provided that the notice shall specify in what manner a traffic hazard has been alleged to exist. The notice shall direct the removal by the property owner or owners of the structures, trees or other obstructions which constitute the traffic hazard. The notice shall provide that such structures, trees or other obstructions shall be removed within ten days.

(b) The property owner shall be allowed ten days in which to comply with the order of the traffic engineer; provided, however, that any

person or persons aggrieved by any such order may, within said ten-day period, submit a written request to the traffic engineer for a hearing before the city engineer wherein said person may appeal the traffic engineer's interpretation of Section 11.22.010 and/or Section 11.22.020 as these sections are being applied against them and/or further, may request that the city engineer grant a variance to the strict enforcement of Section 11.22.010 and/or Section 11.22.020.
(Ord. No. 34-243 (part); Ord. No. 50-642, § 3, 12-19-17)

Sec. 11.22.050. Authority of the city engineer.

(a) Appeals. The City Engineer shall have the power to hear and decide appeals where it is alleged that the Traffic Engineer's interpretation is in error in any order, requirement, decision or determination whereby the Traffic Engineer orders the abatement of a sight obstruction.

(b) Variances. The City Engineer may authorize, in specific cases, a variance from the specific terms of Section 11.22.010 which shall not be contrary to the public interest and where, owing to specific conditions, a literal enforcement of the conditions of Section 11.22.010, in an individual case, would result in unnecessary hardship; and provided, that the spirit of Section 11.22.010 shall be observed, public safety and welfare secured, and substantial justice done. A request for a variance may be granted upon the finding of the City Engineer that the following conditions have been met: (1) That the sight obstruction would not prevent a driver from taking evasive maneuvers to prevent an accident; (2) That a strict enforcement of Section 11.22.010 would result in an unnecessary hardship upon the individual requesting the variance; (3) That the existing alleged sight obstruction does not prevent a clear and unobstructed crossview of persons or objects approaching the intersection; and (4) That granting the variance desired will not be opposed to the general spirit and intent of Section 11.22.010.

(c) Appeal. Any Person, official or governmental agency dissatisfied with any order or determination of the City Engineer may appeal such order or determination to the City Council within ten (10) days of the issuance of the order. An appeal taken to the City Council shall be conducted in accordance with the provisions of Section 2.04.235 of the Code of the City of Wichita.

(d) Review of Existing Variances. Any variance to the sight obstruction ordinance that has been granted in the past shall be subject to review by the City Engineer at any time after a one-year (1) period has passed from the date the variance was granted. In said review, the City Engineer shall determine if all necessary conditions upon which the first variance was granted still exist. If the conditions necessary for granting the variance do not exist, the City Engineer shall withdraw the variance. The property owner shall thereafter remove the sight obstruction within twenty (20) days after the City Engineer withdraws the variance or shall appeal the City Engineer's ruling to the City Council within twenty (20) days after the City Engineer withdraws the variance. The property owner shall be given notice of the fact that a hearing is to be held to review the variance previously granted by the City Engineer in the same manner as described in Section 11.22.040(a) and said notice shall be given at least twenty (20) days in advance of the date the hearing is scheduled. The Traffic Engineer shall have the authority to request the City Engineer to review any variance previously granted.
(Ord. No. 50-188 § 2, 4-26-16; Ord. No. 50-339 § 1, 10-11-16)

Editor's note—Ord. No. 50-188 § 2, adopted Apr. 26, 2016, repealed the former section 10.22.050, and enacted a new section as set out herein. The former section 10.22.050 pertained to same—assessment and derived from Ord. No. 34-243 (part)).

Sec. 11.22.060. Abatement by city—Assessment.

(a) If, within ten days after the mailing of the notice by the Traffic Engineer, the owner or owners of the lot or parcel of land have failed, refused or neglected to remove the obstruction or have failed to request a hearing before the City Engineer as provided in Section 11.22.040, then the Traffic Engineer shall cause the sight obstruction to be removed.

(b) In the event the owner or owners request a hearing before the City Engineer and the City Engineer determines a sight obstruction exists and/or that a variance should not be granted, then the owner or owners shall remove the sight obstruction within twenty days from the date of hearing or shall file an appeal from the City Engineer to the City Council within twenty days of the hearing. The Traffic Engineer shall cause the sight obstruction to be removed if the owner or owners have failed to remove the obstruction or have failed to request a hearing before the City council within twenty days following the hearing.

(c) In the event the owner or owners request a hearing before the City Council and the City Council determines that the ruling or order of the City Engineer ordering the sight obstruction to be removed should be affirmed, then the owner or owners shall remove the sight obstruction within twenty days of the hearing before the City Council. The Traffic Engineer shall cause the sight obstruction to be removed if the owner or owners have failed to remove the sight obstruction within the twenty-day period following the hearing.

(d) The cost of removal of the sight obstruction shall be certified by the Traffic Engineer to the City Clerk, who shall cause the costs to be assessed against the particular lots or pieces of land in front of or abutting upon the street or alley or road right-of-way from which the obstructions were so removed.
(Ord. No. 34-243 (part); Ord. No. 50-896, § 3, 11-27-18)

Sec. 11.22.070. Penalty.

The failure of the owner to remove a sight obstruction after a final determination has been made that a sight obstruction exists and after the expiration of the appropriate removal time set out in Section 11.22.060 above shall constitute an offense punishable by a penalty of ten dollars and every day said owner fails to remove it shall be a separate and distinct offense.
(Ord. 34-243 (part))

CHAPTER 11.24. SPEED*

Sec. 11.24.010. Minimum speed.
Sec. 11.24.020. Maximum speed.
Sec. 11.24.030. Authorized emergency vehicle exempted.
Sec. 11.24.040. Speed limit on streets described in Section 11.96.010.
Sec. 11.24.050. Speed contest prohibited—Violation deemed misdemeanor.

Sec. 11.24.010. Minimum speed.

(a) No person shall drive a motor vehicle at such slow speed as to impede the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

(1) Movement of traffic is impeded when:

(A) Vehicles behind the slow-moving vehicle are forced to slow or stop when it would otherwise be lawful for them to proceed;

(B) Vehicles at a traffic signal are unable to proceed through on a green light due to the slow speed of the impeding vehicle.

(b) Whenever the governing body determines on the basis of an engineering and traffic investigation that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the governing body may determine and declare a minimum speed limit below which no person shall drive a vehicle except when necessary for safe operation or in compliance with law.
(Ord. No. 39-088 (part); Ord. No. 30-982 § 37)

Sec. 11.24.020. Maximum speed.

(a) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions then existing. In every event, speed shall be so controlled as may be necessary to avoid colliding with any person, vehicle or other conveyance on or entering the highway in compliance with legal requirements and the duty of all persons to use due care.

(b) Except when a special hazard exists that requires lower speed, the limits specified in this section or established as hereinafter authorized shall be maximum lawful speeds and no person shall drive a vehicle on a highway at a speed in excess of such maximum limits.

(1) No driver, when passing through a school speed zone in a school zone or a playground speed zone in a playground zone shall, during the hours posted, operate any vehicle at a speed in excess of that which is posted.

(2) The following speed shall be lawful, but any speed in excess of such limits shall be unlawful: Thirty miles per hour on all streets within the city limits other than those listed in Section 11.96.010 of this title and subsection (1) above.

(3) The following speed shall be lawful, but any speed in excess of such limits shall be unlawful: Thirty miles per hour on all streets within the city limits other than those listed in Section 11.96.010 of this title, and subsections (1) and (2) above.

(c) The driver of every vehicle shall, consistent with the requirements of subsection (a) of this section, drive at an appropriate reduced speed when approaching and crossing an intersection, or railroad grade crossing, when approaching and going around a curve, when approaching a hill crest, when traveling upon any narrow or winding roadway, and when special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions.

(1) No person shall drive a vehicle in excess of a temporarily reduced speed limit posted for a hazardous work area in or on the street and established by a temporary regulation created pursuant to Section 11.10.030.

(d) In every charge of violation of this section, except charges for violations of subsections (a) and (c) of this section, the complaint, also the summons, warrants or notice to appear, shall

*__Note—__Ordinance history; Ord. No. 29-319 §§ 39—41.

specify the speed at which the defendant is alleged to have driven, also the speed limit applicable at the location.
(Ord. No. 40-562 § 1)

Sec. 11.24.030. Authorized emergency vehicle exempted.

The speed limitations set forth in this chapter and other traffic ordinances of this city shall not apply to authorized emergency vehicles when responding to emergency calls and the drivers thereof sound audible signal by bell, siren or exhaust whistle. This provision shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons using the street or highway, nor shall it protect the driver of any such vehicle from the consequences of a reckless disregard of the safety of others. In no event shall an ambulance be driven at a speed greater than fifteen miles per hour over the posted speed limit.
(Ord. No. 32-942 (part); Ord. No. 30-982 § 39)

Sec. 11.24.040. Speed limit on streets described in Section 11.96.010.

It is hereby determined, upon the basis of an engineering and traffic investigation, that the speed permitted by state law upon those streets or portions thereof described in Section 11.96.010, is greater or less than is necessary for safe operation of vehicles thereon by reason of the designation and sign-posting of such streets as through streets, or by reason of widely spaced intersections. It is hereby declared that the speed limit upon those streets or portions thereof described in Section 11.96.010, except as provided in Section 11.20.150, shall be therein stated, which speeds so declared shall be effective at the time specified therein when signs are erected giving notice thereof. Any driver exceeding the schedule and posted speed limit shall be guilty of an infraction and shall be fined in an amount not to exceed $500.
(Ord. No. 35-382 (part); Ord. No. 48-825, § 1, 9-21-10; Ord. No. 51-093, § 2, 9-10-19)

Sec. 11.24.050. Speed contest prohibited—Violation deemed misdemeanor.

(a) Purpose of Act.

(1) The City Council finds and declares that motor vehicle racing, speed contests, drag racing, sideshow and exhibitions of speed or acceleration conducted in the city limits of Wichita are dangerous and illegal.

(2) Drag racing, sideshows, stunting and exhibitions of speed and acceleration pose an immediate threat to the health and safety of the public, interfere with pedestrian and vehicular traffic, create a public nuisance, and inhibit private business owners from enjoying the use of their property within the city.

(3) Illegal street racers accelerate to high speeds endangering oncoming traffic, pedestrians, or vehicles parked or moving nearby. Several streets in Wichita are known to law enforcement and the community as a ground for street racing. The police department receives numerous complaints regarding this activity on streets and in parking lots. The mere presence of spectators at these events fuels the illegal street racing and creates an environment in which these illegal activities can flourish.

(4) This Chapter is adopted to prohibit racing activities and to prohibit spectators at illegal street races. By discouraging spectators, the acts of organizing and participating in illegal street races will be discouraged and public safety enhanced.

(b) No person shall drive any vehicle except on a designated track or area built for such activity:

(1) In any race, speed competition or contest, drag race or acceleration contest, test of physical endurance, or sideshow, and no person shall in any manner participate in any such race, competition, contest, test, or sideshow.

(2) In a manner to display an exhibition of speed or acceleration.

(c) No person shall knowingly spectate any race, speed competition, drag race, acceleration contest, test of physical endurance or sideshow.

(d) Exceptions.

(1) Nothing in this section prohibits law enforcement officers and/or their agents from being spectators at illegal motor vehicle drag races, speed contests, sideshows, motorcycle stunting, reckless driving, or exhibitions of speed in the course of their official duties.

(2) The provisions of this section shall not apply to races or sideshows which are part of a community event or festival license pursuant to Chapter 3.11 of the Code of the City of Wichita or to such activities which occur on public or private racetracks intentionally built and utilized for such activities.

(e) Penalty.

(1) Penalty for violation of Subsection (b)(1). Every person convicted of violating Subsection (b)(1) is guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than one thousand five hundred dollars and/or six months imprisonment. Upon a first conviction of a violation of Subsection (b)(1), the court shall impose a fine not less than two hundred fifty dollars and mandatory monitored house arrest of not less than seven consecutive days. Upon a second conviction of a violation of Subsection (b)(1) or any equivalent of K.S.A. 8-1565, the court shall impose a fine of not less than five hundred dollars and a mandatory monitored house arrest of not less than 30 consecutive days. Upon a third or a subsequent conviction of a violation of Subsection (b)(1) or any equivalent of K.S.A. 8-1565, the court shall impose a fine of not less than one thousand dollars and a mandatory monitored house arrest sentence of not less than 90 consecutive days. The fines and minimum sentences are mandatory and may not be remitted or suspended by the court. At the judge's discretion the mandatory minimum sentence of house arrest may be served in the Sedgwick County Jail or work release.

(2) Penalty for violation of Subsection (b)(2). Every person convicted of violating Subsection (b)(2) is guilty of a misdemeanor and upon conviction shall be punished by a fine of not to exceed $1,500 dollars and not less than $250 and/or 6 months imprisonment.

(3) Penalty for violation of Subsection (c). Every person convicted of violating Subsection (c) of this section is guilty of an infraction and upon conviction shall be punished by a fine not to exceed $1,500 and not less than $250.

(f) Impound.

(1) The City of Wichita declares that any vehicle used during the commission of a violation of Section 11.24.050(b)(1) of the Code of the City of Wichita is a public nuisance per se, and while in the possession of driver, the vehicle constitutes a continuing danger to the comfort, repose, health or safety of City residents, visitors, businesses and neighborhoods, rendering them insecure in life and in the use of property. Due to the existence of such public nuisance, the City declares it is necessary to provide for the impoundment of such vehicle used by driver and to hold the vehicle from further use by the involved driver for the mandatory holding period provided for by this section. The purpose of such impoundment and mandatory holding period is to abate the public nuisance per se declared herein. The procedures for such impoundment are set forth in this section.

(2) If probable cause is found that a person engaged in a violation of Subsection (b)(1) of this section, the driver of the vehicle shall be arrested for the violation and transported to Sedgwick County Jail. If the arrested party has no prior convic-

tions for violations of this code or violations of racing in other jurisdictions, the vehicle shall be impounded and eligible for release after 72 hours. The driver and/or registered owner is responsible for all tow and impound fees as required by Section 11.97.030. As required by state law, the Wichita Police Department shall notify the driver at the time of arrest where the car is being impounded.

(3) Upon arrest following a prior conviction of Subsection (b)(1) of this Chapter, the driver of the vehicle shall be arrested for the violation and transported to Sedgwick County Jail. The offending vehicle shall be impounded for 20 consecutive days. The driver and/or registered owner is responsible for all tow, storage and impound fees as required by Section 11.97.030.

(4) If probable cause of a violation of Section 11.24.050(b)(1) exists, and the car is abandoned or the suspect was not apprehended, the vehicle shall be impounded and eligible for release after 72 hours. The registered owner is responsible for all tow and impound fees as required by Section 11.97.030. The owner will be notified of the impoundment by mail the following business day at the address listed on the vehicle registration.

(5) Upon a written request to the Municipal Court within five business days of the impound, the arrested driver or the registered owner of the vehicle may contest the impound and a hearing shall be held in accordance with the provisions of Section 11.97.040 of the Code of the City of Wichita. The impound shall be declared valid if there was probable cause of a violation of Subsection (b)(1) this Chapter. The judge may release the vehicle prior to the expiration of the mandatory impound if a substantial hardship is proven by the challenging party. If the court finds there was probable cause of a violation, the person retrieving the vehicle shall pay all costs associated with the impound prior to its release, even if the vehicle is released early.

(6) If the owner of the impounded vehicle fails to retrieve the vehicle from impound, the vehicle may be auctioned in accordance with K.S.A. 8-1101 et. seq.

(7) The final disposition of any criminal charge will not invalidate a tow or act as a basis for the return of any impound fees.

(g) Severability. The provisions of this Chapter are severable and should any such provision be declared unconstitutional or unenforceable, such declaration shall not affect any of the remaining provisions thereof.

(Ord. No. 39-088 (part); Ord. No. 51-640, § 6, 9-28-21)

CHAPTER 11.28. TURNING*

Sec. 11.28.010. "U" turns prohibited—Where.
Sec. 11.28.020. Disobedience of signs or signals prohibited.
Sec. 11.28.030. Required position and method of turning vehicles.
Sec. 11.28.040. Turning movements and required signals.
Sec. 11.28.050. Hand and arm signals—Lights.
Sec. 11.28.060. Left turn—Driver to yield.

Sec. 11.28.010. "U" turns prohibited—Where.

(a) It is unlawful for the driver of any vehicle to turn the vehicle so as to proceed in the opposite direction unless such movement can be made in safety and without interfering with other traffic.

(b) No vehicle shall be turned so as to proceed in the opposite direction:

(1) Upon any curve, or upon the approach to, or near the crest of a grade, where the vehicle cannot be seen by the driver of any other vehicle approaching from either direction within five hundred feet;

(2) At any other location when official traffic control devices giving notice of such prohibition are erected upon or at the entrances to the highway or part thereof affected as may be most appropriate.

(Ord. No. 41-413 § 1)

Sec. 11.28.020. Disobedience of signs or signals prohibited.

Whenever authorized signs are erected indicating that no right, left, through movement, no turns, or "U" turn is permitted, no driver of a vehicle shall disobey the directions of any such sign. When authorized marks, buttons or other indications are placed within an intersection indicating the course to be traveled by vehicles turning thereat, no driver of a vehicle shall disobey the directions of such indications.

(Ord. No. 30-982 § 43)

*__Note—__Ordinance history; Ord. No. 29-319 §§ 42—49.

Sec. 11.28.030. Required position and method of turning vehicles.

(a) The driver of a vehicle intending to turn shall do so as follows:

(1) *Right turns.* Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(2) *Left turns.* The driver of a vehicle intending to turn left shall approach the turn in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle. Whenever practicable, a left turn at an intersection shall be made to the left of the center of the intersection, and any left turn shall be made so as to leave the intersection or other location in the extreme left-hand lane lawfully available to traffic moving in the same direction as such vehicle on the roadway being entered.

(b) *Two-way left turn lanes.* Where a special lane for making left turns by drivers proceeding in opposite directions has been indicated by official traffic control devices: (1) A left turn shall not be made from any other lane; (2) a vehicle shall not be driven in the lane except when preparing for or making a left turn from or into the roadway or when preparing for or making a U-turn when otherwise permitted by the law.

(c) The governing body may cause official traffic control devices to be placed and thereby require and direct that a different course from that specified in this section be traveled by vehicles turning, and when such devices are so placed no driver of a vehicle shall turn a vehicle other than as directed and required by such device.

(Ord. No. 50-318 § 1, 9-13-16)

Editor's note—Ord. No. 50-318 § 1, Sept. 13, 2016, repealed the former section 11.28.030, and enacted a new section as set out herein. The former section 11.28.030 pertained to procedure at intersection and derived from Ord. No. 30-982 § 44.

Sec. 11.28.040. Turning movements and required signals.

(a) No person shall turn a vehicle or move right or left upon a roadway unless and until such movement can be made with reasonable safety, nor without giving an appropriate signal in the manner hereinafter provided.

(b) A signal of intention to turn or move right or left when required shall be given continuously during not less than the last one hundred feet traveled by the vehicle before turning.

(c) No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided herein to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

(d) The signals required on vehicles by Section 11.60.150 of this title, shall not be flashed on one side only on a disabled vehicle, flashed as a courtesy or "do pass" signal to operators of other vehicles approaching from the rear, nor be flashed on one side only of a parked vehicle except as may be necessary for compliance with this section.
(Ord. No. 31-232 § 10; prior Ord. No. 30-982 § 45; Ord. No. 49-184 § 1, 1-24-2012)

Sec. 11.28.050. Hand and arm signals—Lights.

(a) All signals herein required to be given by hand and arm shall be given from the left side of the vehicle in the following manner and such signals shall indicate as follows:

(1) *Left turn*—Hand and arm extended horizontally;

(2) *Right turn*—Hand and arm extended upward;

(3) *Stop or decrease of speed*—Hand and arm extended downward.

(b) When a motor vehicle is equipped with illuminated directional signal devices front and rear, and stop signal lamp or lamps on rear, such devices may be used in lieu of such hand and arm signals when in proper working order.

(c) Any stop or turn signal when required herein shall be given either by means of the hand and arm or by a signal lamp or lamps except as otherwise provided in subsection (d).

(d) Any motor vehicle in use on a highway shall be equipped with, and required signal shall be given by, signal lamps when the distance from the center of the top of the steering post to the left outside limit of the body, cab or load of such motor vehicle exceeds twenty-four inches, or when the distance from the center of the top of the steering post to the rear limit of the body or load thereof exceeds fourteen feet. The latter measurement shall apply to any single vehicle, also to any combination of vehicles.
(Ord. No. 31-232 § 11; prior Ord. No. 30-982 § 46)

Sec. 11.28.060. Left turn—Driver to yield.

The driver of a vehicle intending to turn left within an intersection or into any alley, private road or driveway shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection, or so close to the intersection, alley, private road or driveway as to constitute an immediate hazard.
(Ord. No. 39-089 (part))

CHAPTER 11.32. ONE-WAY STREETS AND ALLEYS*

Sec. 11.32.010. One-way roadway—Rotary traffic island.

Sec. 11.32.010. One-way roadway—Rotary traffic island.

(a) The governing body may designate any highway, roadway, part of a roadway or specific lanes, streets, alleys or other ways upon which vehicular traffic shall proceed in one direction at all or such times as shall be indicated by official traffic control devices.

(b) Upon a roadway so designated for one-way traffic, a vehicle shall be driven only in the direction designated at all or such times as shall be indicated by official traffic control devices.

(c) A vehicle passing around a rotary traffic island shall be driven only to the right of such island.
(Ord. No. 31-232 § 8; prior Ord. No. 30-982 § 49)

*__Note—__Ordinance history; Ord. No. 19-139 §§ 66—68.

CHAPTER 11.36. SPECIAL STOPS*

Sec. 11.36.010. Through streets designated.
Sec. 11.36.020. Signs at through streets.
Sec. 11.36.030. Other intersections where stop or yield required.
Sec. 11.36.040. Stop signs—Yield signs.
Sec. 11.36.050. Emerging from alley, driveway, building.
Sec. 11.36.060. Crossing railroad tracks.
Sec. 11.36.070. Entering intersection, crosswalk or railroad grade crossing.
Sec. 11.36.080. Obedience to signal indicating approach of train.

Sec. 11.36.010. Through streets designated.

Those streets and parts of streets described in Section 11.96.030 are hereby declared to be through streets.
(Ord. No. 30-982 § 50)

Sec. 11.36.020. Signs at through streets.

(a) The governing body may designate through highways and erect stop signs or yield signs at specified entrances thereto, or may designate any intersection as a stop intersection or as a yield intersection and erect stop signs or yield signs at one or more entrances to such intersection.

(b) Every stop sign and every yield sign shall be erected as near as practicable to the nearest line of the crosswalk on the near side of the intersection or, if there is no crosswalk, then as near as practicable to the nearest line of the intersecting roadway.

(c) Except when directed to proceed by a police officer or traffic-control signal, every driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, shall stop at a clearly marked stop line, but if none, then at a point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection.

(d) The driver of a vehicle approaching a yield sign if required for safety to stop shall stop before entering the crosswalk, at a clearly marked stop line, but if none, then at a point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway.
(Ord. No. 32-279 (part); Ord. No. 30-982 § 51)

Sec. 11.36.030. Other intersections where stop or yield required.

The city traffic engineer is hereby authorized to determine and designate intersections where particular hazard exists upon other than through streets and to determine (a) whether vehicles shall stop at one or more entrances to any such intersection, in which event he shall cause to be erected a stop sign at every such place where a stop is required, or (b) whether vehicles shall yield the right-of-way to vehicles on a different street at such intersections, as prescribed in paragraph (a) of Section 11.36.040, in which event he shall cause to be erected a yield sign at every place where obedience thereto is required.
(Ord. No. 30-982 § 52)

Sec. 11.36.040. Stop signs—Yield signs.

(a) Preferential right-of-way may be indicated by stop signs or yield signs as authorized in Section 11.36.020.

(b) Except when directed to proceed by a police officer, every driver of a vehicle approaching a stop sign shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it. After having stopped, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time when such driver is moving across or within the intersection, or junction of roadways. Such driver shall yield the right-of-way to pedestrians within an adjacent crosswalk.

*__Note—__Ordinance history; Ord. No. 29-319 §§ 51—60.

(c) The driver of a vehicle approaching a yield sign shall, in obedience to such sign, slow down to a speed reasonable for the existing conditions and, if required for safety to stop, shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, than at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it. After slowing or stopping, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection, or junction of roadways. Such driver shall yield the right-of-way to pedestrians within an adjacent crosswalk. If a driver is involved in a collision with a vehicle in the intersection or junction of roadways or with a pedestrian in an adjacent crosswalk, after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of the driver's failure to yield the right-of-way.
(Ord. No. 30-982 § 53; Ord. No. 48-332, § 1, 6-2-09)

Sec. 11.36.050. Emerging from alley, driveway, building.

Every operator of a vehicle emerging from an alley, building or building entrance, private road or driveway shall stop such vehicle immediately prior to driving onto a sidewalk or onto the sidewalk area extending across such alley, building or building entrance, road or driveway, or in the event there is no sidewalk area, shall stop at the point nearest the street to be entered where the driver has a view of approaching traffic thereon, and shall yield the right-of-way to all approaching vehicles and pedestrians who are so close as to constitute an immediate hazard.
(Ord. No. 31-232 § 14; Ord. No. 30-982 § 54)

Sec. 11.36.060. Crossing railroad tracks.

(a) The driver of any motor vehicle carrying passengers for hire, or of any school bus carrying any school child, or of any vehicle carrying explosive substances or flammable liquids as a cargo or part of a cargo, or of any vehicle designed and used for the carrying of flammable liquids, before crossing at grade any track or tracks of a railroad not equipped with visible electric or mechanical signal devices, crossing gates or human flagmen, shall stop such vehicle within fifty feet but not less than fifteen feet from the nearest rail of such railroad, and while so stopped shall listen and look in both directions along such track for any approaching train and for signals indicating the approach of a train, except as hereinafter provided, and shall not proceed until he can do so safely. After stopping as required herein and upon proceeding when it is safe to do so, the driver of any vehicle shall cross only in such gear of the vehicle that there will be no necessity for changing gears while traversing such crossing, and the driver shall not shift gears while crossing the track or tracks.

(b) No stop need be made at any such crossing where a police officer directs traffic to proceed.

(c) This section shall not apply to municipal buses or taxicabs.
(Ord. No. 39-090 (part); Ord. No. 32-943; Ord. No. 31-232 § 13; Ord. No. 30-982 § 55)

Sec. 11.36.070. Entering intersection, crosswalk or railroad grade crossing.

No driver shall enter an intersection or marked crosswalk, or drive onto any railroad grade crossing, unless there is sufficient space on the other side of the intersection, crosswalk or railroad grade crossing to accommodate the vehicle he is operating without obstructing the passage of other vehicles, pedestrians or railroad trains, notwithstanding any traffic control signal indication to proceed.
(Ord. No. 33-463)

Sec. 11.36.080. Obedience to signal indicating approach of train.

(a) Whenever any person driving a vehicle approaches a railroad grade crossing, the driver of such vehicle shall stop within fifty feet but not less than fifteen feet from the nearest rail of

such railroad, and shall not proceed until he can do so safely. The foregoing requirements shall apply when:

(1) A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train or other on-track equipment;

(2) A crossing gate is lowered or when a human flagman gives or continues to give a signal of the approach or passage of a railroad train or other on-track equipment;

(3) A railroad train or other on-track equipment approaching within approximately one thousand five hundred feet of the highway crossing emits a signal audible from such distance and such railroad train or other on-track equipment, by reason of its speed or nearness to such crossing, is an immediate hazard;

(4) An approaching railroad train or other on-track equipment is plainly visible and is in hazardous proximity to such crossing.

(b) No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed.
(Ord. No. 39-090 (part); Ord. No. 51-093, § 3, 9-10-19)

CHAPTER 11.37. TRAFFIC REGULATIONS FOR FUNERAL PROCESSIONS

Sec. 11.37.060. Funeral processions—Other drivers to yield right-of-way.
Sec. 11.37.070. Funeral processions—Right-of-way, exceptions.
Sec. 11.37.010. Funeral procession—Definition.
Sec. 11.37.020. Funeral escort vehicle—Designation as emergency vehicle required.
Sec. 11.37.030. Funeral escort vehicles and operators.
Sec. 11.37.040. Funeral processions—Number of escort vehicles required.
Sec. 11.37.050. Funeral processions—Lights and hazard warning lamps required.
Sec. 11.37.060. Funeral processions—Other drivers to yield right-of-way.
Sec. 11.37.070. Funeral processions—Right-of-way, exceptions.
Sec. 11.37.080. Duty of drivers leaving a funeral procession.
Sec. 11.37.090. Funeral processions—Speed.
Sec. 11.37.095. Funeral processions—Distance.
Sec. 11.37.100. Funeral processions prohibited during certain hours.
Sec. 11.37.110. Funeral escort vehicles—Reckless operation.

Sec. 11.37.010. Funeral procession—Definition.

For the purposes of this chapter, a funeral procession is defined as a group of vehicles moving along the roadway in an orderly manner in connection with funeral ceremonies.
(Ord. No. 46-202, § 1, 7-20-04)

Sec. 11.37.020. Funeral escort vehicle—Designation as emergency vehicle required.

No person shall engage in the operation of a vehicle while escorting a funeral procession within the corporate limits of the city unless such vehicle has been designated as an authorized emergency vehicle pursuant to the statutes of the State of Kansas, and unless such vehicle is equipped with the appropriate lighting and other equipment mandated for authorized emergency vehicles by state law. For the purposes of this chapter, a person will be deemed to be escorting a funeral procession if the person is hired to direct or control traffic for a funeral procession while escorting or accompanying the procession through the streets and highways of the city.
(Ord. No. 46-202, § 2, 7-20-04)

Sec. 11.37.030. Funeral escort vehicles and operators.

(a) Any vehicle being operated as a funeral escort vehicle shall be clearly and visibly marked with the words "Funeral Escort" in letters at least four (4) inches in height on both the driver's and passenger's side of said vehicle.

(b) No funeral escort vehicle shall be equipped with any decal, placard, sign or any insignia which is similar to, or which could be confused with, official police insignia, nor shall any such vehicle display the word "Police," "Official" or "Officer". Any vehicle used as a funeral escort vehicle shall be subject to inspection at any time by the chief of police or the chief's authorized designee.

(c) No operator or passenger of a vehicle which is escorting a funeral procession shall wear any uniform that is the same color or design as those worn by officers of the Wichita Police Department, nor any badge or cap that resembles an official police officer badge or cap, or displays the word "Police," "Official" or "Officer." Further, operators of funeral escort vehicles shall not carry firearms of any kind.
(Ord. No. 46-202, § 3, 7-20-04)

Sec. 11.37.040. Funeral processions—Number of escort vehicles required.

Every funeral procession shall have no less than three (3) funeral escort vehicles accompanying the procession through the streets and highways of the city.
(Ord. No. 46-202, § 4, 7-20-04)

Sec. 11.37.050. Funeral processions—Lights and hazard warning lamps required.

The driver of every vehicle in a funeral procession shall maintain lighted headlights and shall turn on the vehicle hazard warning lamps on

such driver's vehicle at all times the vehicle is being operated as a part of a funeral procession. (Ord. No. 46-202, § 5, 7-20-04)

Sec. 11.37.060. Funeral processions—Other drivers to yield right-of-way.

A funeral escort vehicle which is operating as an emergency vehicle pursuant to state law and as required by this Code shall have the right-of-way over all other vehicles as set forth in Section 11.16.100 of this Code and any amendments thereto. Upon the immediate approach of a funeral procession, the driver of every other vehicle shall yield the right-of-way, immediately drive to a position parallel to and as close as possible to the right-hand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the funeral procession has passed. No driver shall drive between, alongside nor pass the vehicles comprising a funeral procession while they are in motion, except as otherwise directed by a police officer. This provision shall not apply to authorized emergency vehicles as designated by state law, nor shall the passing prohibited in this subsection apply to limited access highways.
(Ord. No. 46-202, § 6, 7-20-04)

Sec. 11.37.070. Funeral processions—Right-of-way, exceptions.

(a) Each vehicle which is participating in a lawfully escorted funeral procession and is identified by lighted headlamps and flashing vehicle hazard warning lamps as required by this chapter shall have the right-of-way over all other vehicles at any intersection, regardless of official traffic control devices. However, no driver in a funeral procession shall proceed through a red light or operate contrary to any traffic control device unless directed to do so by the authorized funeral escort(s).

(b) Drivers of vehicles in funeral processions shall yield the right-of-way to all other emergency vehicles as required by law, and further, shall at all times be subject to and obey the lawful order of any police officer.

(c) Operators of vehicles in a funeral procession shall exercise due care when participating in a funeral procession and avoid colliding with any other vehicle or pedestrian in accordance with K.S.A. 8-1535 and amendments thereto; and

(d) Operators of vehicles in a funeral procession shall not have the right-of-way at an intersection if the vehicle is more than 300 feet behind the immediately preceding vehicle in the funeral procession.
(Ord. No. 46-202, § 7, 7-20-04; Ord. No. 51-887, § 1, 6-28-22)

Sec. 11.37.080. Duty of drivers leaving a funeral procession.

The driver of any vehicle leaving a funeral procession shall do so only by making a right hand turn, and only when such turn can be made safely. At no time shall a driver of a vehicle in a funeral procession leave such procession by making a left hand turn, unless directed to do so by any police officer or authorized funeral escort.
(Ord. No. 46-202, § 8, 7-20-04)

Sec. 11.37.090. Funeral processions—Speed.

Vehicles in a funeral procession shall proceed at a maximum speed of 10 miles per hour below the posted speed limit on any public street or highway, however, if a funeral procession is traveling on a highway or interstate with a posted minimum speed limit, the funeral procession shall proceed at the posted minimum speed limit.
(Ord. No. 46-202, § 9, 7-20-04)

Sec. 11.37.095. Funeral processions—Distance.

All vehicles in a funeral procession shall follow the proceeding vehicle in the funeral procession as closely as is practical and safe.
(Ord. No. 51-887, § 2, 6-28-22)

Editor's note—Ord. No. 51-887, § 2, adopted June 28, 2022, set out provisions intended for use as § 11.37.100. Inasmuch as there were already provisions so designated, and at the editor's discretion, these provisions have been included as § 11.37.095.

Sec. 11.37.100. Funeral processions prohibited during certain hours.

Funeral processions using any arterial street shall not start between the hours of 7:00 a.m. and 9:00 a.m. or between the hours of 4:30 p.m. and 6:30 p.m. on Monday through Friday of any week.
(Ord. No. 46-202, § 10, 7-20-04)

Sec. 11.37.110. Funeral escort vehicles—Reckless operation.

No driver of a funeral escort vehicle shall operate said vehicle in a reckless or negligent manner, which operation unreasonably endangers the safety of any person or the public at large, or causes an unreasonable risk of damage to either public or private property.
(Ord. No. 46-202, § 11, 7-20-04)

CHAPTER 11.38. DRIVING RULES AND REGULATIONS*

Sec. 11.38.010. Advertising vehicles.
Sec. 11.38.020. Obstructing driver's view, control.
Sec. 11.38.030. Following fire apparatus.
Sec. 11.38.040. Driving over fire hose.
Sec. 11.38.050. Street barriers.
Sec. 11.38.060. Depositing harmful objects on streets.
Sec. 11.38.070. Backing vehicles.
Sec. 11.38.080. Driving on sidewalk.
Sec. 11.38.090. Attaching smaller vehicles to motor vehicles.
Sec. 11.38.100. Avoidance of traffic-control devices.
Sec. 11.38.110. Passengers—Unlawful when.
Sec. 11.38.130. Reserved.
Sec. 11.38.140. Refusals of alcohol testing.
Sec. 11.38.150. Driving under the influence of alcohol and/or drugs unlawful—Penalty.
Sec. 11.38.155. Driving a commercial vehicle while under the influence of alcohol and/or drugs illegal—Penalty—Testing and reporting.
Sec. 11.38.157. Reserved.
Sec. 11.38.158. Transportation of alcoholic beverages in opened containers upon a highway or street unlawful; exceptions; report of prior convictions.
Sec. 11.38.160. Reckless driving—Penalty.
Sec. 11.38.170. Careless driving.
Sec. 11.38.175. Inattentive driving.
Sec. 11.38.180. Driving on down grades.
Sec. 11.38.190. Driving on right side of roadway required—Exceptions.
Sec. 11.38.200. Passing—Rules.
Sec. 11.38.210. Passing—On right.
Sec. 11.38.215. Passing stationary vehicles.
Sec. 11.38.220. Driving across barrier prohibited—Exception.
Sec. 11.38.230. Overtaking and passing—Vehicles proceeding in opposite direction.
Sec. 11.38.240. Three or more lanes—Driving rules.
Sec. 11.38.250. Driving on left side of roadway prohibited—Exception.
Sec. 11.38.260. Following another vehicle too closely.
Sec. 11.38.270. Right-of-way intersections.
Sec. 11.38.280. Driving in safety zone prohibited.
Sec. 11.38.285. Motor vehicle safety belt use.
Sec. 11.38.290. Passing in "no passing" zones prohibited.
Sec. 11.38.300. State license plate required.
Sec. 11.38.310. Vehicle registration.
Sec. 11.38.320. Liability of driver.
Sec. 11.38.330. Overtaking and passing school bus.
Sec. 11.38.340. Vehicle door opening.
Sec. 11.38.350. Operation of snowmobiles on streets.
Sec. 11.38.355. Operation of all-terrain vehicles; where; when; exceptions.
Sec. 11.38.360. Televisions, headphones.
Sec. 11.38.370. Child passenger safety act.
Sec. 11.38.380. Loud sound amplification systems in vehicles prohibited—Penalty.
Sec. 11.38.390. Unlawful text messaging.

*__Note—__Ordinance history; Ord. No. 29-319 §§ 61—91.

Sec. 11.38.010. Advertising vehicles.

No person without a properly issued license by the license collector shall operate any vehicle on any street for the primary purpose of advertising. Such operation shall be in conformance with the provisions of Title 3.
(Ord. No. 30-982 § 58)

Sec. 11.38.020. Obstructing driver's view, control.

(a) No person shall drive a vehicle when it is so loaded as to obstruct the view of the driver to the front or sides of the vehicle or as to interfere with the driver's control of the driving mechanism of the vehicle.

(b) No passenger in a vehicle shall ride in such position as to interfere with the operator's view ahead or to the sides, or to interfere with his control of the driving mechanism of the vehicle.
(Ord. No. 30-982 § 59)

Sec. 11.38.030. Following fire apparatus.

(a) The driver of any vehicle other than one on official business shall not follow any fire apparatus traveling in response to a fire alarm closer than five hundred feet or drive into or park such vehicle within the block where fire apparatus has stopped in answer to a fire alarm.

(b) Every person convicted of violating any provision of this section is guilty of a misdemeanor and shall be punished by a fine of not more than five hundred dollars or by imprisonment for not more than one year, or by fine and imprisonment.
(Ord. No. 32-944 (part); Ord. No. 30-982 § 60)

Sec. 11.38.040. Driving over fire hose.

(a) No vehicle shall be driven over any unprotected hose of a fire department when laid down on any public street, private roadway or

private driveway, to be used at any fire or alarm of fire, without the consent of the fire department official in command.

(b) Every person convicted of violating the provisions of this section is guilty of a misdemeanor and shall be punished by a fine of not more than five hundred dollars, or by imprisonment for not more than one year, or by both such fine and imprisonment.
(Ord. No. 39-092 (part); Ord. No. 32-944 (part); Ord. No. 30-982 § 61)

Sec. 11.38.050. Street barriers.

Whenever any street or alley or part thereof is closed for repair, rebuilding, construction or reconstruction and suitable warning signs and barricades in accordance with "The Barricade Manual" published by the traffic engineering section of the engineering department of the City of Wichita, March, 1981, which is included herein by reference and made a part hereof, shall be erected at all intersections of the closed street or alley and all other streets and alleys or at any other locations as set out in said manual, it is unlawful for any person or operator without authority from the proper official to:

(a) Destroy or remove any barricade, warning sign, light or torch used to close the street or alley or warn the public of the closing;

(b) Drive on that portion of the street or alley that is closed; provided, however, that nothing in this section shall be construed as prohibiting the regular authorities of the city, state or federal government from having free access to the work at all times.

(Ord. No. 39-092 (part))

Sec. 11.38.060. Depositing harmful objects on streets.

(a) No person shall throw or deposit upon any highway any glass bottle, glass, nails, tacks, wire, cans or any other substance likely to injure any person, animal or vehicle upon such highway.

(b) Any person who drops, or permits to be dropped or thrown, upon any highway any destructive or injurious material shall immediately remove the same or cause it to be removed.

(c) Any person removing a wrecked or damaged vehicle from a highway shall remove any glass or other injurious substance dropped upon the highway from the vehicle.

(d) No vehicle shall be driven or moved on any highway unless the vehicle is so constructed or loaded as to prevent any of its load from dropping, sifting, leaking or otherwise escaping therefrom, except that sand may be dropped for the purpose of securing traction, or water or other substance may be sprinkled on a roadway in cleaning or maintaining such a roadway.

(e) Every person convicted of violating any provision of this section is guilty of a misdemeanor and shall be punished by a fine of not more than five hundred dollars, or by imprisonment for not more than one year, or by both such fine and imprisonment.
(Ord. No. 32-944 (part); Ord. No. 30-982 § 63)

Sec. 11.38.070. Backing vehicles.

(a) The driver of a vehicle shall not back the same unless such movement can be made with safety and without interfering with other traffic.

(b) The driver of any vehicle parked at an angle to the curb shall, subject to the limitations of this section, back such vehicle into the nearest travelled portion of the roadway so as not to obstruct oncoming traffic.

(c) The driver of a vehicle shall not back the same upon any shoulder or roadway of any controlled access highway.
(Ord. No. 39-092 (part); Ord. No. 30-982 § 64)

Sec. 11.38.080. Driving on sidewalk.

The driver of a vehicle shall not drive on any sidewalk or sidewalk area except at a permanent or temporary driveway open and suitable for the purpose.
(Ord. No. 39-092 (part))

Sec. 11.38.090. Attaching smaller vehicles to motor vehicles.

No person riding upon any motorcycle, moped, bicycle, coaster, sled, roller skates or any toy vehicle shall attach the same or himself to any moving vehicle upon any roadway.
(Ord. No. 39-092 (part))

Sec. 11.38.100. Avoidance of traffic-control devices.

No person shall utilize the entrance or driveway of any private property within one hundred fifty feet of any street intersection for the purpose of avoiding or circumventing a traffic-control device.
(Ord. No. 39-092 (part))

Sec. 11.38.110. Passengers—Unlawful when.

(a) It is unlawful for any person to ride on any vehicle or upon any portion thereof not designated or intended for the use of passengers when the vehicle is in motion. It is unlawful for the operator of any vehicle to allow any person to ride on any vehicle or upon any portion thereof not designed or intended for the use of passengers when the vehicle is in motion. This provision shall not apply to an employee engaged in necessary discharge of duty.

(b) It is unlawful for any person operating a motor-driven cycle to permit any person to ride with him on such vehicle as a passenger or rider except where the motor-driven cycle is equipped with a sidecar or tandem seat with a foot rest for a passenger. Further it is unlawful for more than one person to occupy or ride in the sidecar or tandem seat at any one time.
(Ord. No. 39-092 (part))

Sec. 11.38.130. Reserved.

Editor's note—Formerly, said section pertained to Funeral procession—Driving through prohibited and derived from Ord. No. 39-092 (part).

Sec. 11.38.140. Reserved.

Editor's note—Ord. No. 50-174 § 1, adopted April 19, 2016, repealed section 11.38.140, which pertained to refusals of alcohol testing and derived from Ord. No. 49-294 § 1, adopted June 26, 2012.

Sec. 11.38.150. Driving under the influence of alcohol and/or drugs unlawful—Penalty.

(a) No person shall operate or attempt to operate any vehicle within the city while:

(1) The alcohol concentration in the person's blood or breath, as measured within three hours of the time of operating or attempting to operate a vehicle is .08 or more;

(2) Under the influence of alcohol to a degree that renders the person incapable of safely driving a vehicle;

(3) The alcohol concentration in the person's blood or breath as shown by any competent evidence is .08 or more. For the purposes of this section, "any competent evidence" includes (1) Alcohol concentration tests obtained from samples taken three hours or more after the operation or attempted operation of a vehicle, and (2) readings obtained from a partial alcohol concentration test on a breath testing machine;

(4) Under the influence of any drug or combination of drugs to a degree that renders the person incapable of safely driving a vehicle; or

(5) Under the influence of a combination of alcohol and any drug or drugs to a degree that renders the person incapable of safely driving a vehicle.

(b) Violation of this section is a misdemeanor. Upon a first conviction of a violation of this section, a person shall be sentenced to not less than 48 consecutive hours nor more than six months imprisonment or, in the court's discretion, one hundred hours of public service, and fined not less than $750.00 nor more than $1,000.00. The person convicted shall serve at least 48 consecutive hours' imprisonment or 100 hours of public service either before or as a condition of any grant of probation or suspension, reduction of sentence or parole. The court may place the person convicted under a house arrest program to serve the remainder of the sentence only after such person has served 48 consecutive hours' imprisonment.

(c) On a second conviction of a violation of this section, a person shall be sentenced to not less than 90 days nor more than one year imprisonment and fined not less than $1,250.00 nor more than $1,750.00. The person convicted shall serve at least five consecutive days' imprisonment before the person is granted probation, suspension or reduction of sentence or parole or is otherwise released. The five days' imprisonment mandated by this subsection may be served in a work release program only after such person has served 48 consecutive hours' imprisonment; provided, such work release program requires such person to return to confinement at the end of the each day in the work release program. The person convicted, if placed into a work release program, shall serve a minimum of 120 hours of confinement. Such 120 hours of confinement shall be a period of at least 48 consecutive hours of imprisonment followed by confinement hours at the end of and continuing to the beginning of the offender's work day. The court may place the person convicted under a house arrest program, to serve the five days' imprisonment mandated by this subsection only after such person has served 48 consecutive hours' imprisonment. The person convicted, if placed under house arrest, shall be monitored by an electronic monitoring device, which verifies the offender's location. The offender shall serve a minimum of 120 hours of confinement within the boundaries of the offender's residence. Any exceptions to remaining within the boundaries of the offender's residence provided for in the house arrest agreement shall not be counted as part of the 120 hours.

(d) On a third offense, unless such person has a prior conviction which occurred within the preceding ten years, not including any period of incarceration, the person convicted shall be sentenced to not less than 90 days nor more than one year's imprisonment and fined not less than $1,750.00 nor more than $2,500.00. The person convicted shall not be eligible for release on probation, suspension or reduction of sentence or parole until the person has served at least 90 days' imprisonment. The 90 days' imprisonment mandated by this subsection may be served in a work release program only after such person has served 48 consecutive hours' imprisonment, provided such work release program requires such person to return to confinement at the end of each day in the work release program. The person convicted, if placed into a work release program, shall serve a minimum of 2,160 hours of confinement. Such 2,160 hours of confinement shall be a period of at least 48 consecutive hours of imprisonment followed by confinement hours at the end of and continuing to the beginning of the offender's work day. The court may place the person convicted under a house arrest program, to serve the 90 days imprisonment mandated by this subsection only after such person has served 48 consecutive hours imprisonment, the person convicted, if placed under house arrest, shall be monitored by an electronic monitoring device, which verifies the offender's location. The offender shall serve a minimum of 2,160 hours of confinement within the boundaries of the offender's residence. Any exceptions to remaining within the boundaries of the offender's residence provided for in the house arrest agreement shall not be counted as part of the 2,160 hours.

(e) In addition, prior to sentencing for any conviction, the court shall order the person to participate in an alcohol and drug evaluation conducted by a provider in accordance with K.S.A. 8-1008, and amendments thereto. The person shall be required to follow any recommendations made by the provider after such evaluation, unless otherwise ordered by the court.

(f) If a person is charged with a violation of this section involving drugs, the fact that the person is or has been entitled to use the drug under the laws of this state shall not constitute a defense against the charge.

(g) Any person 18 years of age or older convicted of violating this section who had one or more children under the age of 18 years in the vehicle at the time of the offense shall have such person's punishment enhanced by one month of imprisonment. This imprisonment must be served consecutively to any other minimum mandatory penalty imposed for a violation of this section. Any enhanced penalty imposed shall not exceed the maximum sentence allowable by law. During

the service of the enhanced penalty, the judge may order the person on house arrest, work release or other conditional release.

(h) The court may establish the terms and time for payment of any fines, fees, assessments and costs imposed pursuant to this section. Any assessment and costs shall be required to be paid not later than 90 days after imposed, and any remainder of the fine shall be paid prior to the final release of the defendant by the court.

(i) In lieu of payment of a fine imposed pursuant to this section, the court may order that the person perform community service specified by the court. The person shall receive a credit on the fine imposed in an amount equal to $5.00 for each full hour spent by the person in the specified community service. The community service ordered by the court shall be required to be performed not later than one year after the fine is imposed or by an earlier date specified by the court. If by the required date the person performs an insufficient amount of community service to reduce to zero the portion of the fine required to be paid by the person, the remaining balance of the fine shall become due on that date.

(j) The court shall electronically report every plea of guilty or conviction of a violation of this section and every diversion agreement entered into in lieu of further criminal proceedings or a complaint alleging a violation of this section to the Kansas Bureau of Investigation Central Repository, including any finding regarding the alcohol concentration in the offender's blood or breath. Prior to sentencing under the provisions of this section, the court shall request and shall receive from the Division and Kansas Bureau of Investigation, a record of all prior convictions obtained against such person for any violations of any of the motor vehicle laws of the state.

(k) For the purpose of determining whether a conviction is a first or second, in sentencing under this section:

(1) 'Conviction' includes (A) Entering into a diversion agreement in lieu of further criminal proceedings on a complaint alleging an offense described in this section, Section 11.38.155 of the Code of the City of Wichita, K.S.A. 8-1567 or K.S.A. 8-2,411 and (B) conviction of a violation of an ordinance of a city in this state, a resolution of a county in this state or any law of another jurisdiction that would constitute an offense that is comparable to the offense described in (k)(7);

(2) Multiple convictions of any crime described in this section arising from the same arrest shall only be counted as one conviction;

(3) Only convictions for violating this section or the provisions of K.S.A. 8-1567 and amendments thereto occurring on or after July 1, 2001 shall be taken into account when determining the sentence to be imposed for a first or second offender. Nothing in this provision shall be construed as preventing any court from considering any convictions or diversion occurring during the person's lifetime in determining the sentence to be imposed within the limits provided for a first or second offense;

(4) Any convictions for a violation of the following sections which occurred during a person's lifetime shall be taken into account, but only convictions occurring when such person was 18 years of age or older: (A) driving a commercial motor vehicle under the influence, K.S.A. 8-2,144, and amendments thereto, or Section 11.38.155 of the Code of the City of Wichita; (B) operating a vessel under the influence of alcohol or drugs, K.S.A. 32-1131, and amendments thereto; (C) involuntary manslaughter while driving under the influence of alcohol or drugs, K.S.A. 21-3442, prior to its repeal, or subsection (a)(3) of K.S.A. 2011 Supp. 21-5405, and amendments thereto; and (D) aggravated battery as described in K.S.A. 2017 Supp. 21-5413(b)(3) or (b)(4), and amendments thereto; and (E) aggravated vehicular homicide, K.S.A. 21-3405a, prior to its repeal, or vehicular battery, K.S.A. 21-3405b, prior to its repeal, if the crime was committed while committing a violation of K.S.A. 8-1567, and amendments thereto;

(5) It is irrelevant whether an offense occurred before or after conviction for a previous offense.

(6) A person may enter into a diversion agreement in lieu of further criminal proceedings for a violation of this section, and amendments thereto, or a state statute or ordinance which prohibits the acts of this section, and amendments thereto, only once during the person's lifetime.

(7) For the purposes of determining whether an offense is comparable, the following shall be considered: (A) the name of the out-of-jurisdiction offense; (B) the elements of the out-of-jurisdiction offense; and (C) whether the out-of-jurisdiction offense prohibits similar conduct to the conduct prohibited by the closest approximate City of Wichita or Kansas offense.

(l) Suspension, restriction or suspension and restriction of the driving privileges of a person convicted of a violation of this section should be done in accordance with the provisions of K.S.A. 8-1014 and 8-1015, and amendments thereto.

(m) The court shall be authorized to order any person convicted of a violation of this section to pay restitution to any victim who has suffered loss due to the violation for which the person was convicted.

(n) No plea bargaining agreement shall be entered into nor shall any judge approve a plea bargaining agreement entered into for the purpose of permitting a person charged with a violation of this section to avoid the mandatory penalties established by this section. For the purpose of this subsection, entering into a diversion agreement established pursuant to K.S.A. 12-4413 et seq. and amendments thereto, shall not constitute plea bargaining.

(o) The alternatives set out in subsection (a) of this section may be pleaded in the alternative, and the city may, but shall not be required to, elect one or more of such alternatives prior to submission of the case of the fact finder.

(p) For the purpose of this section:

(1) 'Alcohol concentration' means the number of grams of alcohol per 100 milliliters of blood or per 210 liters of breath;

(2) 'Imprisonment' includes any restrained environment in which the court and law enforcement agency intend to retain custody and control of a defendant and such environment has been approved by the City Council.

(3) 'Drug' includes toxic vapors.

(4) 'Toxic vapors' are defined as including the following substances or products containing such substances: (a) Alcohols, including methyl, isopropyl, propyl or butyl; (b) Aliphatic acetates, including ethyl, methyl, propyl or methyl cellosolve acetate; (c) acetone; (d) Benzene (e) Carbon tetrachloride; (f) Cyclohexane; (g) Freons, including freon 11 and freon 12; (h) Hexane; (i) Methyl ethyl ketone; (j) Methyl isobutyl ketone (k) Naptha; (l) Perchlorethylene; (m) Toluene; (n) Trichloroethane; and/or Xylene.

(q) Should any court declare any subsection, clause or provision of this section to be unconstitutional, such decision shall affect only such subsection, clause or provision so declared unconstitutional and shall not affect any other subsection, clause or provision of this section.

(r) The Municipal Court shall have jurisdiction over a violation of this section occurring prior to July 1, 2011, and on or after July 1, 2006, which is concurrent with the jurisdiction of the district court for violation of K.S.A. 8-1567, and amendments thereto, notwithstanding that the elements of this section are the same as the elements of K.S.A. 8-1567, and amendments thereto, that would constitute, and be punished as a felony.

(Ord. No. 45-347 § 1; Ord. No. 44-998 § 1; Ord. No. 47-507 § 1, 6-26-07; Ord. No. 49-023 § 1, 6-21-2011; Ord. No. 49-292 § 1, 6-26-2012; Ord. No. 50-806, § 1, 6-26-18)

Sec. 11.38.155. Driving a commercial vehicle while under the influence of alcohol and/or drugs illegal—Penalty—Testing and reporting.

(a) No person shall operate any commercial motor vehicle, as defined in K.S.A. 8-2,128, and amendments thereto, within the city while:

(1) The alcohol concentration in the person's blood or breath, as shown by any competent evidence, including other competent evidence, as defined in paragraph (1) of subsection (f) of K.S.A. 8-1013, and amendments thereto, is .04 or more;

(2) The alcohol concentration in the person's blood or breath, as measured within three hours of the time of driving a commercial motor vehicle, is .04 or more; or

(3) Committing a violation of section 11.38.150 or K.S.A. 8-1567(a), and amendments thereto.

(b) Upon a first conviction of a violation of this section, a person shall be sentenced to not less than 48 consecutive hours nor more than six months imprisonment or, in the court's discretion, 100 hours of public service, and fined not less than $750.00 nor more than $1,000.00. The person convicted must serve at least 48 consecutive hours' imprisonment or 100 hours of public service either before or as a condition of any grant of probation or suspension, reduction of sentence or parole.

(c) On a second conviction of a violation of this section, a person shall be sentenced to not less than 90 days nor more than one year's imprisonment and fined not less than $1,250.00 nor more than $1,750.00. The person convicted must serve at least five consecutive days' imprisonment before the person is granted probation, suspension or reduction of sentence or parole or is otherwise released. The five days' imprisonment mandated by this subsection may be served in a work release program only after such person has served 48 consecutive hours' imprisonment, provided such work release program requires such person to return to confinement at the end of the each day in the work release program. The person convicted, if placed into a work release program, shall serve a minimum of 120 hours of confinement. Such 120 hours of confinement shall be a period of at least 48 consecutive hours of imprisonment followed by confinement hours at the end of and continuing to the beginning of the offender's work day. The court may place the person convicted under a house arrest program, to serve five days' imprisonment mandated by this subsection only after such person has served 48 consecutive hours' imprisonment. The person convicted, if placed under house arrest shall be monitored by an electronic monitoring device, which verifies the offender's location. The offender shall serve a minimum of 120 hours of confinement within the boundaries of the offender's residence. Any exceptions to remaining within the boundaries of the offender's residence provided for in the house arrest agreement, shall not be counted as part of the 120 hours.

(1) In addition, prior to sentencing for any conviction, the court shall order the person to participate in an alcohol and drug evaluation conducted by a provider in accordance with K.S.A. 8-1008, and amendment thereto. The person shall be required to follow any recommendations made by the provider after such evaluation, unless otherwise ordered by the court.

(d) Any person 18 years of age or older convicted of a violation of this section who had one or more children under the age of 18 years in the vehicle at the time of the offense shall have such persons' punishment enhanced by one month of imprisonment. This imprisonment shall be served consecutively to any other minimum mandatory penalty imposed for a violation of this section. Any enhanced penalty imposed shall not exceed the maximum sentence allowable by law. During the service of the enhanced penalty, the judge may order the person on house arrest, work release or other conditional release.

(e) If a person is charged with a violation of this section involving drugs, the fact that the person is or has been entitled to use the drug under the laws of this state shall not constitute a defense against the charge.

(f) The court may establish the terms and time for payment of any fines, fees, assessments and costs imposed pursuant to this section. Any assessment and costs shall be required to be paid not later than 90 days after imposed, and any remainder of the fine shall be paid prior to the final release of the defendant by the court.

(g) In lieu of payment of a fine imposed pursuant to this section, the court may order that the person perform community service specified by the court. The person shall receive a credit on the fine imposed in an amount equal to $5.00 for each full hour spent by the person in the specified community service. The community service ordered by the court shall be required to be performed not later than one year after the fine is imposed or any an earlier date specified by the court. If by the required date the person performs an insufficient amount of community service to reduce to zero the portion of the fine required to be paid by the person, the remaining balance of the fine shall become due on that date.

(h) The court shall electronically report every conviction of a violation of this section to the division. Prior to sentencing under the provisions of the section, the court shall request and shall receive from the: (1) Division a record of all prior convictions obtained against such person for any violation of any of the motor vehicle laws of this state; and (2) Kansas Bureau of Investigation central repository all criminal history record information concerning such person.

(i) For the purpose of determining whether a conviction is a first, second, third or subsequent conviction in sentencing under this section:

(1) 'Conviction' includes (A) Entering into a diversion agreement in lieu of further criminal proceedings on a complaint alleging a violation of a crime described in this section, Section 11.38.150 of the Code of the City of Wichita, K.S.A. 8-1567 or K.S.A. 8-2,411 and (B) conviction of a violation of an ordinance of a city in this state, a resolution of a county in this state or any law of another jurisdiction that would constitute an offense that is comparable to the offense described in this chapter.

(2) Only convictions for violating Section 11.38.150 or the provisions of K.S.A. 8-1567 and amendments thereto occurring on or after July 1, 2001 shall be taken into account when determining the sentence to be imposed for a first or second offender. Nothing in this provision shall be construed as preventing any court from considering any convictions or diversion occurring during the person's lifetime in determining the sentence to be imposed within the limits provided for a first or second offense;

(3) It is irrelevant whether an offense occurred before or after conviction for a previous offense.

(4) Any convictions for a violation of the following sections which occurred during a person's lifetime shall be taken into account, but only convictions occurring when such person was 18 years of age or older: (A) driving a commercial motor vehicle under the influence, K.S.A. 8-2,144, and amendments thereto, or Section 11.38.155 of the Code of the City of Wichita; (B) operating a vessel under the influence of alcohol or drugs, K.S.A. 32-1131, and amendments thereto; (C) involuntary manslaughter while driving under the influence of alcohol or drugs, K.S.A. 21-3442, prior to its repeal, or subsection (a)(3) or (a) (5) of K.S.A. 2011 Supp. 21-5405, and amendments thereto; and (D) aggravated battery as described in K.S.A. 2017 Supp. 21-5413(b)(3) or (b)(4), and amendments thereto; and (E) aggravated vehicular homicide, K.S.A. 21-3405a, prior to its repeal, or vehicular battery, K.S.A. 21-3405b, prior to its repeal, if the crime was committed while committing a violation of K.S.A. 8-1567, and amendments thereto;

(5) For the purposes of determining whether an offense is comparable, the following shall be considered: A. The name of the out-of-jurisdiction offense; B. the elements of the out-of-jurisdiction offense; and C. whether the out-of-jurisdiction offense prohibits similar conduct to the

conduct prohibited by the closest approximate City of Wichita or Kansas offense.

(j) For the purpose of this section:

(1) 'Alcohol concentration' means the number of grams of alcohol per 100 milliliters of blood or per 210 liters of breach.

(2) 'Imprisonment' shall include any restrained environment in which the court and law enforcement agency intend to retain custody and control of a defendant and such environment has been approved by the City Council and

(3) 'Drug' includes toxic vapors as such term is defined in K.S.A. 21-36a12, and amendments thereto.

(k) The court shall be authorized to order any person convicted of a violation of this section to pay restitution to any victim who has suffered loss due to the violation for which the person was convicted.

(l) No plea bargaining agreement shall be entered into nor shall any judge approve a plea bargaining agreement entered into for the purpose of permitting a person charged with a violation of this section to avoid the mandatory penalties established by this section. For the purpose of this subsection, entering into a diversion agreement established pursuant to K.S.A. 12-4413 et seq. and amendments thereto, shall not constitute plea bargaining.

(m) The alternatives set out in subsection (a) of this section may be pleaded in the alternative, and the city may, but shall not be required to, elect one or more of such alternatives prior to submission of the case of the fact finder.
(Ord. No. 41-587 § 2; Ord. No. 47-053 § 1, 6-27-06; Ord. No. 49-023 § 2, 6-21-11; Ord. No. 49-292 § 2, 6-26-12; Ord. No. 50-806, § 2, 6-26-18)

Sec. 11.38.157. Reserved.

Editor's note—Ord. No. 50-687, § 1, adopted Apr. 17, 2018, repealed § 11.38.157, which pertained to refusal to submit to a preliminary breath test—penalty, and derived from Ord. No. 45-359 § 1; and Ord. No. 49-023 § 3, adopted June 21, 2011.

Sec. 11.38.158. Transportation of alcoholic beverages in opened containers upon a highway or street unlawful; exceptions; report of prior convictions.

(a) As used in this section, "alcoholic beverage" means any alcoholic liquor, as defined by Section 4.04.010(b) of the Code of the City of Wichita and amendments thereto, or any cereal malt beverage, as defined by Section 4.04.010(i) of the Code of the City of Wichita and amendments thereto.

(b) No person shall transport in any vehicle upon a public highway, street or alley, within the corporate limits of the city, any alcoholic beverage unless such beverage is:

(1) In the original unopened package or container, the seal of which has not been broken and from which the original cap, cork or other means of closure has not been removed;

(2) (A) In the locked rear trunk or rear compartment, or any locked outside compartment which is not accessible to any person in the vehicle while it is in motion; or

(B) If a motor vehicle is not equipped with a trunk, behind the last upright seat or in an area not normally occupied by the driver or a passenger; or

(3) In the exclusive possession of a passenger in a vehicle which is a recreational vehicle, as defined by Section 11.04.271 of the Code of the City of Wichita and amendments thereto, or a bus, as defined by Section 11.04.025 of the Code of the City of Wichita and amendments thereto, who is not in the driving compartment of such vehicle or who is in a portion of such vehicle from which the driver is not directly accessible.

(c) Violation of this section is a misdemeanor punishable by a fine of not more than $200 or by imprisonment for not more than six months, or both.

(d) Except as provided in subsection (f) upon conviction or adjudication of a second or subsequent violation of this section, the judge, in addition to any other penalty or disposition ordered pursuant to law, shall suspend the person's driver's license or privilege to operate a motor vehicle on the streets and highways of this state for one year.

(e) Upon suspension of a license pursuant to this section, the court shall require the person to surrender the license to the court, which shall transmit the license to the division of motor vehicles of the department of revenue, to be retained until the period of suspension expires. At that time, the licensee may apply to the division for return of the license. If the license has expired, the person may apply for a new license, which shall be issued promptly upon payment of the proper fee and satisfaction of other conditions established by law for obtaining a license unless another suspension or revocation of the person's privilege to operate a motor vehicle is in effect.

(f) As used in this section, "highway" and "street" have the meanings provided by Section 11.04.355 of the Code of the City of Wichita and amendments thereto.

(g) In lieu of suspending the driver's license or privilege to operate a motor vehicle on the highways of this state of any person convicted of violating this section, as provided in subsection (d), the judge of the court in which such person was convicted may enter an order which places conditions on such person's privilege of operating a motor vehicle on the highways of this state, a certified copy of which such person shall be required to carry any time such person is operating a motor vehicle on the highways of this state. Any such order shall prescribe the duration of the conditions imposed, which in no event shall be for a period of more than one year for a second violation.

Upon entering an order restricting a person's license hereunder, the judge shall require such person to surrender such person's driver's license to the judge who shall cause it to be transmitted to the division of vehicles, together with a copy of the order. Upon receipt thereof, the division of vehicles shall issue without charge a driver's license which shall indicate on its face that conditions have been imposed on such person's privilege of operating a motor vehicle and that a certified copy of the order imposing such conditions is required to be carried by the person for whom the license was issued any time such person is operating a motor vehicle on the highways of this state. If the person convicted is a nonresident, the judge shall cause a copy of the order to be transmitted to the division and the division shall forward a copy of it to the motor vehicle administrator, of such person's state of residence. Such judge shall furnish to any person whose driver's license has had conditions imposed on it under this section a copy of the order, which shall be recognized as a valid Kansas driver's license until such time as the division shall issue the restricted license provided for in this section.

Upon expiration of the period of time for which conditions are imposed pursuant to this subsection, the licensee may apply to the division for the return of the license previously surrendered by such licensee. In the event such license has expired, such person may apply to the division for a new license, which shall be issued immediately by the division upon payment of the proper fee and satisfaction of the other conditions established by law, unless such person's privilege to operate a motor vehicle on the highways of this state has been suspended or revoked prior thereto. If any person shall violate any of the conditions imposed under this subsection, such person's driver's license or privilege to operate a motor vehicle on the highways of this state shall be revoked for a period of not less than 60 days nor more than one year by the judge of the court in which such person is convicted of violating such conditions.

(h) It shall be an affirmative defense to any prosecution under this section that an occupant of the vehicle other than the defendant was in exclusive possession of the alcoholic liquor.

(i) The court shall report to the division every conviction of a violation of this section or of a city ordinance or county resolution that prohibits the acts prohibited by this section. Prior to sentencing under the provisions of this section, the court

shall request and shall receive from the division a record of all prior convictions obtained against such person for any violations of any of the motor vehicle laws of this state.

(j) For the purpose of determining whether a conviction is a first, second or subsequent conviction in sentencing under this section:

(1) "Conviction" includes being convicted of a violation of an ordinance of any city, or resolution of any county, which prohibits the acts that this section prohibits;

(2) Only convictions occurring in the immediately preceding five years, including prior to the effective date of this act, shall be taken into account, but the court may consider other prior convictions in determining the sentence to be imposed within the limits provided for a first, second or subsequent offender, whichever is applicable; and

(3) It is irrelevant whether an offense occurred before or after conviction for a previous offense.

(Ord. No. 47-057 § 1, 6-27-06; Ord. No. 51-886, § 1, 6-28-22)

Sec. 11.38.160. Reckless driving—Penalty.

(a) Any person who drives any vehicle in wilful or wanton disregard for the safety of persons or property is guilty of reckless driving.

(b) Every person convicted of reckless driving shall be punished upon a first conviction by imprisonment for a period of not less than five days nor more than ninety days, or pay a fine of not less than twenty-five dollars nor more than five hundred dollars, or by both such fine and imprisonment, and on a second or subsequent conviction shall be punished by imprisonment for not less than ten days nor more than six months, or by a fine of not less than fifty dollars nor more than five hundred dollars, or by both such fine and imprisonment.

(Ord. No. 30-982 § 73)

Sec. 11.38.170. Careless driving.

(a) No person shall operate or halt any vehicle in such a manner as to indicate a careless or heedless disregard for the rights or safety of others, or in such a manner as to endanger, or be likely to endanger, any person or property. Any driver who does so shall be considered to be prima facie in violation of this section; provided, however, that this section shall not apply to a vehicle driven by a person upon property owned by him.

(b) No driver while driving shall engage in any other activity which interferes with the safe control of his vehicle.

(c) No person shall engage in any activity or commit any act which interferes with a driver's safe operation of a vehicle.

(Ord. No. 39-092 (part); Ord. No. 32-944 (part); Ord. No. 30-982 § 74)

Sec. 11.38.175. Inattentive driving.

Any driver whose vehicle, because of his driving error or negligent inattention, collides with another vehicle, a person or fixed object, shall be deemed guilty of inattentive driving and in violation of this section.

(Ord. No. 32-944 (part))

Sec. 11.38.180. Driving on down grades.

(a) The driver of any motor vehicle when traveling upon a down grade shall not coast with the gears of such vehicle in neutral.

(b) The driver of a commercial motor vehicle when traveling upon a down grade shall not coast with the clutch disengaged.

(Ord. No. 30-982 § 75)

Sec. 11.38.190. Driving on right side of roadway required—Exceptions.

(a) Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

(1) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movements;

(2) When an obstruction exists making it necessary to drive to the left of center of the highway; provided, that any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;

(3) Upon a roadway divided into three marked lanes for traffic under the rules applicable thereon; or

(4) Upon a roadway restricted to one-way traffic.

(b) Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction, or when preparing for a left turn at an intersection or into a private road or driveway.

(c) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the centerline of the roadway, except when authorized by official traffic control devices designating certain lanes to the left of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under subsection (a)(2) of this section: however, this subsection shall not be construed as prohibiting the crossing of the centerline in making a left turn into or from an alley, private road or driveway.
(Ord. No. 39-092 (part); Ord. No. 30-982 § 76)

Sec. 11.38.200. Passing—Rules.

The following rules shall govern the overtaking and passing of vehicles and bicycles proceeding in the same direction, subject to those limitations, exceptions and special rules hereinafter stated:

(a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(b) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

(c) (1) The driver of a vehicle overtaking a bicycle proceeding in the same direction shall pass to the left thereof at a distance of not less than three feet and shall not again drive to the right side of the roadway until safely clear of the overtaken bicycle.

(2) The driver of a vehicle may pass a bicycle proceeding in the same direction in a no-passing zone with the duty to execute the pass only when it is safe to do so.
(Ord. No. 30-982 § 77; Ord. No. 49-032 § 1, 7-12-11)

Sec. 11.38.210. Passing—On right.

(a) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(1) When the vehicle overtaken is making or about to make a left turn;

(2) Upon a street or highway with unobstructed pavement of sufficient width for two or more lines of vehicles moving lawfully in the direction being traveled by the overtaking vehicle;

(3) Upon a one-way street, or upon any roadway on which traffic is restricted to one direction of movement, where the roadway is free from obstructions and of sufficient width for two or more lines of moving vehicles.

(b) The driver of a vehicle may overtake and pass another vehicle upon the right only under the conditions permitting such movement in safety. Such movement shall not be made by driving off the roadway.
(Ord. No. 39-092 (part); Ord. No. 31-232 § 5; prior Ord. No. 30-982 § 78)

Sec. 11.38.220. Driving across barrier prohibited—Exception.

Whenever any highway has been divided into two or more roadways by leaving an intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle shall be driven only up the right-hand roadway unless directed or permitted to use another roadway by official traffic-control devices or police officers. No vehicle shall be driven over, across or within any such dividing space, barrier or section, except through an opening in such physical barrier or dividing section or space, or at a cross-over or intersection as established, unless specifically permitted by public authority.
(Ord. No. 30-982 § 79)

Sec. 11.38.230. Overtaking and passing—Vehicles proceeding in opposite direction.

Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction, each driver shall give to the other at least one-half of the main traveled portion of the roadway as nearly as possible.
(Ord. No. 39-092 (part))

Sec. 11.38.240. Three or more lanes—Driving rules.

Whenever any roadway which provides for vehicular traffic in two directions has been divided into three or more clearly marked lanes for traffic, the following rules, in addition to all others consistent herewith, shall apply:

(a) A vehicle shall be driven as nearly as practical entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into three lanes a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn or where such center lane is at the time allocated exclusively to traffic moving in the direction the vehicle is proceeding and is signposted to give notice of such allocation.

(c) Official traffic control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such sign.

(Ord. No. 32-944 (part); Ord. No. 30-982 § 81)

Sec. 11.38.250. Driving on left side of roadway prohibited—Exception.

(a) No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this article and such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and, in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any vehicle approaching from the opposite direction.

(b) No vehicle shall at any time be driven to the left side of the roadway under the following conditions:

(1) When approaching the crest of a grade or upon a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

(2) When approaching within one hundred feet of or traversing any intersection or railroad grade crossing;

(3) When the view is obstructed upon approaching within one hundred feet of any bridge, viaduct or tunnel;

(4) Where official signs are in place directing that traffic keep to the right, or a distinctive centerline is marked, which distinctive line also so directs traffic as declared in the sign manual adopted by the State Highway Commission.

(c) The foregoing limitations shall not apply upon a one-way roadway, nor under the conditions described in subsection (a)(2) of 11.38.190, nor to a driver of a vehicle turning left into or from an alley, private road or driveway.
(Ord. No. 39-092 (part); Ord. No. 30-982 § 82)

Sec. 11.38.260. Following another vehicle too closely.

(a) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

(b) The driver of any truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another truck or motor vehicle drawing another vehicle shall leave sufficient space, whenever conditions permit, so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a truck or motor vehicle drawing another vehicle from overtaking and passing any vehicle or combination of vehicles.

(c) Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions.
(Ord. 39-092 (part))

Sec. 11.38.270. Right-of-way intersections.

(a) When two vehicles approach or enter an intersection from different highways or streets at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right.

(b) The right-of-way rule declared in subsection (a) is modified at through highways and streets and otherwise as stated in this chapter.

(c) Notwithstanding other provisions of this section, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian and shall give warning by sounding the horn when necessary and shall exercise proper precaution upon observing any child or any obviously confused or incapacitated person.
(Ord. No. 36-681)

Sec. 11.38.280. Driving in safety zone prohibited.

No vehicle shall at any time be driven through or within a safety zone.
(Ord. No. 30-982 § 85)

Sec. 11.38.285. Motor vehicle safety belt use.

(a) As used in this section "passenger car" means a motor vehicle, manufactured or assembled after January 1, 1968, or a motor vehicle manufactured or assembled prior to 1968 which was manufactured or assembled with safety belts, with motive power designed for carrying ten passengers or fewer, including vans, but does not include a motorcycle, or motor-driven cycle.

(b) Except as provided in Subsection (d), each occupant of a passenger car manufactured with safety belts in compliance with Federal Motor Vehicle Safety Standard No. 208, who is 18 years of age or older, shall have a safety belt properly fastened about such person's body at all times when the passenger car is in motion.

(c) Each occupant of a passenger car manufactured with safety belts in compliance with Federal Motor Vehicle Safety Standard No. 208, who is at least 14 years of age but less than 18 years of age, shall have a safety belt properly fastened about such person's body at all times when the passenger car is in motion.

(d) This section does not apply to:

(1) An occupant of a passenger car who possesses a written statement from a

licensed physician that such person is unable for medical reasons to wear a safety belt system;

(2) Carriers of United States mail while actually engaged in delivery and collection of mail along their specified routes;

(3) Newspaper delivery persons while actually engaged in delivery of newspapers along their specified routes.

(e) Law enforcement officers shall not stop drivers for violations of Subsection (b) by a back seat occupant in the absence of another violation of law. A citation for violation of Subsection (b) by a back seat occupant shall not be issued without citing the violation that initially caused the officer to effect the enforcement stop.

(f) Persons violating Subsection (b) and amendments thereto, shall be fined $30.00 and no court costs. Persons violating Subsection (c) and amendments thereto shall be fined $60.00 and no court costs.

(g) The municipal court shall not report violations of this act to the Department of Revenue.

(h) For violations of Subsection (b), the Municipal Court Clerk shall remit $20.00 from each fine imposed to the state treasurer in accordance with the provisions of K.S.A. 75-4215 and amendments thereto.

(i) If any provision of this section or the application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the section which can be given effect without the invalid provisions or application, and to this end, the provisions of this section are severable.
(Ord. No. 40-731 § 1; Ord. No. 47-710 § 1, 12-11-07; Ord. No. 48-765 § 1, 7-13-10; Ord. No. 49-022 § 1, 6-21-11; Ord. No. 50-555, § 1, 7-11-17)

Sec. 11.38.290. Passing in "no passing" zones prohibited.

(a) Where signs or markings are in place to define a no-passing zone, as set forth in Section 11.20.160, no driver at any time shall drive on the left side of the roadway within such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone through its length.

(b) This section shall not apply when an obstruction exists making it necessary to drive to the left of center of the highway, nor shall it apply to the driver of a vehicle turning left into or from an alley, private road or driveway.
(Ord. No. 39-092 (part); Ord. No. 31-232 § 7; prior Ord. No. 30-982 § 86)

Sec. 11.38.300. State license plate required.

It is unlawful for any person to:

(a) Operate, or for the owner thereof to knowingly permit the operation, upon a street or highway of any vehicle which is not registered, or for which a certificate of title has not been issued or which does not have attached thereto and displayed thereon the license plate or plates assigned thereto by the division of motor vehicles for the current registration year, including any registration decal required to be affixed to any such license plate pursuant to K.S.A. 8-134, and amendments thereto, subject to the exemptions allowed in K.S.A. 8-135, 8-198 and 8-1751a and amendments thereto.

(b) Display, or cause or permit to be displayed, or to have in possession, any registration receipt, certificate of title, registration license plate or registration decal knowing the same to be fictitious or to have been canceled, revoked, suspended or altered. A violation of this subsection shall constitute a misdemeanor punishable by a fine of not less than one hundred dollars and forfeiture of the item. A mandatory court appearance shall be required of any person violating this subsection.

(c) Lend to or knowingly permit the use of, by one not entitled thereto, any registration receipt, certificate of title, registration license plate or registration decal issued to the person so lending or permitting the use thereof.

(d) Remove, conceal, alter, mask or deface the license number plate or plates, registration decal, or any other mark of identification upon any vehicle.

(e) Display any license plate assigned to the vehicle except as follows: The license plate assigned to the vehicle shall be attached to the rear thereof and shall be so displayed during the current registration year or years, and no Kansas registration plate for any other year shall appear on the front of the vehicle. Every license plate shall at all times be securely fastened to the vehicle to which it is assigned so as to prevent the plate from swinging, and at a height not less than twelve inches from the ground, measuring from the bottom of such plate, in a place and position to be clearly visible, and shall be maintained free from foreign materials and in a condition to be clearly legible.

The following classes of vehicles shall attach a license plate in the location or locations specifically stated:

1) The license plate issued for a truck tractor shall be attached to the front of the truck tractor;

2) The model year license plate issued for an antique vehicle or truck in accordance with K.S.A. 8-172, and amendments thereto, may be attached to the front of an antique vehicle;

3) A personalized license plate issued to a passenger vehicle or truck pursuant to K.S.A. 8-132(c), and amendments thereto, may be attached to the front of the passenger vehicle or truck;

4) The license plate issued for a motor vehicle used as a concrete mixer truck may be attached to either the front or rear of the vehicle; and

5) The license plate issued for a motor vehicle used as a dump truck with a gross weight of 26,000 pounds or more shall be attached to the front of the vehicle. The provisions of this paragraph shall not apply to such vehicle if such vehicle is registered as a farm truck.

(f) Carry or display a registered number plate or plates or registration decal upon any vehicle not lawfully issued for such vehicle.

Any person violating any of the provisions of paragraphs (a), (c), (d), (e) or (f) of this section shall be deemed guilty of a misdemeanor and shall be punished by a fine of not more than two thousand five hundred dollars, or by imprisonment for not less than thirty days nor more than six months, or by both such fine and imprisonment.
(Ord. No. 45-509 § 1; Ord. No. 43-348 § 1; Ord. No. 51-885, § 1, 6-28-22)

Sec. 11.38.310. Vehicle registration.

It is unlawful for any person to operate upon the public streets or alleys of the city any motor vehicle registered in the state, which has been registered in a county other than the one in which the owner resided or had his principal place of business at the time of the original registration for any calendar year.
(Ord. No. 30-982 § 88)

Sec. 11.38.320. Liability of driver.

(a) Any person driving or moving any vehicle upon any street, highway or highway structure shall be liable for all damage which such street, highway or highway structure or traffic-control devices erected thereon may sustain as a result of any illegal operation, driving or moving of such vehicle, or as a result of operating, driving or moving any vehicle weighing in excess of the maximum weight allowed by this title, but authorized by special permit issued as provided in this ordinance.

(b) Whenever such driver is not the owner of such vehicle, object or contrivance, but is so operating, driving or moving the same with the express or implied permission of such owner, the owner and driver shall be jointly and severally liable for any such damage.

(c) Such damage may be recovered in a civil action brought by the authorities in control of such highway or highway structure.
(Ord. No. 39-092 (part); Ord. No. 30-982 § 89)

Sec. 11.38.330. Overtaking and passing school bus.

(a) Every bus used for transportation of school children shall conform to the statutes of the state and all rules and regulations adopted by the Secretary of Transportation or other lawful authority relating to signs, colors and equipment.

(b) The driver of a vehicle meeting or overtaking from either direction any school bus stopped on the highway shall stop before reaching such school bus when there is in operation on said school bus flashing red lights and a stop signal arm, and said driver shall not proceed until such school bus resumes motion or said driver is signaled by the school bus driver to proceed or the flashing red lights and the stop signal arm are no longer actuated.

(c) Flashing red lights and stop signal arms may be actuated by the driver of said school bus whenever but only whenever such vehicle is stopped on the highway for the purpose of receiving or discharging school children. A school bus driver shall not actuate said special visual signals:

(1) At intersections or other places where traffic is controlled by traffic-control signals or police officers; or

(2) In designated school bus loading areas where the bus is entirely off the roadway.

(d) Every school bus shall bear upon the front and rear thereof plainly visible signs containing the words "school bus" in letters not less than eight inches in height. When a school bus is being operated upon a highway for purposes other than the actual transportation of children either to or from school or to or from interschool or intraschool functions or activities, or for maintenance, repair or storage purposes all markings thereon indicating "school bus" shall be covered or concealed.

(e) The driver of a vehicle upon a highway with separate roadways need not stop upon meeting or passing a school bus which is on a different roadway or when upon a controlled-access high-

way and the school bus is stopped in a loading zone which is a part of or adjacent to such highway and when pedestrians are not permitted to cross the roadway.
(Ord. No. 39-092 (part))

Sec. 11.38.340. Vehicle door opening.

No person shall open the door of a motor vehicle on the side available to moving traffic unless and until it is reasonably safe to do so, and can be done without interfering with the movement of other traffic, nor shall any person leave a door open on the side of a vehicle available to moving traffic for a period of time longer than necessary to load or unload passengers.
(Ord. No. 30-982 § 91)

Sec. 11.38.350. Operation of snowmobiles on streets.

No person shall operate a snowmobile on any controlled access street in the city. No person shall operate a snowmobile on any other street, except when crossing a street at a right angle, or when the use of the street by other motor vehicles is impossible because of snow, or when such operation is authorized by the authority having jurisdiction over the street.
(Ord. No. 33-466)

Sec. 11.38.355. Operation of all-terrain vehicles; where; when; exceptions.

(a) Except as provided in subsection (b), it shall be unlawful for any person to operate an all-terrain vehicle on any street or highway within the city limits.

(b) Notwithstanding the provisions of subsection (a), all-terrain vehicles may be operated on streets and highways:

1. If the all-terrain vehicle is owned and operated by a county department, or owned and operated by persons contracting with a county noxious weed department or the Kansas Department of Transportation; or
2. if the all-terrain vehicle is used by the Wichita Police Department or another department within the City of Wichita for official business; or
3. in accordance with Section 3.11.205 of the code of the City of Wichita.

(c) No all-terrain vehicle shall be operated on any public highway, street or road between sunset and sunrise unless equipped with lights as required by law for motorcycles.
(Ord. No. 50-859, § 1, 9-25-18)

Sec. 11.38.360. Televisions, headphones.

(a) No motor vehicle operated on the streets of this city shall be equipped with television-type receiving equipment so located that the viewer or screen is visible from the driver's seat.

(b) Subsection (a) does not prohibit the use of television-type receiving equipment used exclusively for safety or law enforcement purposes, if such use is approved by the superintendent of the Kansas Highway Patrol.
(Ord. No. 38-317 § 1)

Sec. 11.38.370. Child passenger safety act.

(a) Every driver as defined in K.S.A. 8-1416, and amendments thereto, who transports a child under the age of fourteen years in a passenger car as defined in subsection (e) of this section, within the city limits shall provide for the protection of such child by properly using:

(1) For a child under the age of four years an appropriate child passenger safety restraining system that meets or exceeds the standards and specifications contained in federal motor vehicle safety standard No. 213; or

(2) For a child four years of age, but under the age of eight years and who weights less than 80 pounds or is less than 4 feet 9 inches in height, an appropriate child passenger safety restraining system that meets or exceeds the standards and specifications contained in federal motor vehicle safety standard no. 213; or

(3) For a child eight years of age but under the age of fourteen years or who weighs more than 80 pounds or is more than 4 feet 9 inches in height, a safety belt manufactured in compliance with federal motor vehicle safety standard No. 208.

(b) If the number of children subject to the requirements of subsection (a) exceeds the number of passenger securing locations available for use by children affected by such requirements, and all of these securing locations are in use by children, then there is not a violation of this section.

(c) If a securing location only has a lap safety belt available, the provisions of subsection (a)(2) shall not apply and the child shall be secured in accordance with the provisions of subsection (a)(3).

(d) It is unlawful for any driver of a passenger car to violate the provisions of this section and upon conviction such driver shall be punished by a fine of sixty dollars. The failure to provide a child safety restraining system or safety belt for more than one child in the same passenger car at the same time shall be treated as a single violation.

(e) The $60 fine provided for in subsection (d) shall be waived if the driver convicted of violating subsection (a)(1) or (a)(2) of this section provides proof to the court that such driver has purchased or acquired the appropriate and approved child passenger safety restraining system. At the time of issuing the citation for a violation of subsection (a)(1) or (a)(2) of this section, the law enforcement officer shall notify the driver of the waiver provisions of this subsection.

(f) No driver charged with violating the provisions of this section shall be convicted if such driver produces proof in the municipal court that the child was fourteen years of age or older at the time the violation was alleged to have occurred.

(g) As used in this section "passenger car" means a motor vehicle, manufactured or assembled after January 1, 1968, or a motor vehicle manufactured or assembled prior to 1968 which was manufactured or assembled with safety belts, with motive power designed for carrying 10 passengers or fewer, including vans, but does not include a motorcycle, a trailer or a vehicle constructed either on a truck chassis registered for a gross weight or more than 12,000 pounds or a farm truck registered for a gross weight of more than 16,000 pounds.

(h) From and after the effective date of this section, and prior to July 1, 2007, a law enforcement officer shall issue a warning citation to anyone violating subsection (a)(2).
(Ord. No. 43-695 § 1; Ord. No. 47-043 § 1, 6-13-06)

Sec. 11.38.380. Loud sound amplification systems in vehicles prohibited—Penalty.

(a) No person operating a motor vehicle on a street, highway, alley, public park, parking lot, or driveway shall operate or permit the operation of any sound amplification system from within the vehicle so that the sound is plainly audible at a distance of fifty or more feet from the vehicle.

(b) "Sound amplification system" means any radio, tape player, compact disc player, loud speaker, or other electronic device used for the amplification of sound.

(c) "Plainly audible" means any sound produced by a sound amplification system from within the vehicle, which clearly can be heard at a distance of fifty feet or more. Measurement standards shall be by the auditory senses, based upon direct line of sight. Words or phrases need not be discernible and bass reverberations are included. The motor vehicle may be stopped, standing, parked or moving on a street, highway, alley, public park, parking lot, or driveway.

(d) It is an affirmative defense to a charge under this section that the operator was not otherwise prohibited by law from operating the sound amplification system, and that any of the following apply:

(1) The system was being operated to request medical or vehicular assistance or to warn of a hazardous road condition;

(2) The vehicle was an emergency or public safety vehicle;

(3) The vehicle was owned and operated by the city or a gas, electric, communications or refuse company;

(4) The system was used for the purpose of giving instructions, directions, talks, addresses, lecture or transmitting music to any persons or assemblages of persons in compliance with this Code; or

(5) The vehicle was used in authorized public activities, such as parades, fireworks, sports events, musical productions and other activities which have the approval of the department of the city authorized to grant such approval.

(e) Any person, individual, partnership, corporation or association who violates any of the provisions of this section is guilty of a misdemeanor, and upon conviction shall be punished by a mandatory fine of fifty dollars. The imposition of the fine established herein shall be mandatory and the court shall not waive, remit, suspend, parole or otherwise excuse the payment thereof, except that the court may order that the defendant perform community service specified by the court but such an order shall be entered only after the court has required the defendant to file an affidavit of such defendant's financial condition as required by Section 1.04.210(e) and amendments thereto, and the court has found from the information contained in the affidavit that the defendant is financially unable to pay the fines imposed.
(Ord. No. 43-461 § 1)

Sec. 11.38.390. Unlawful text messaging.

(a) As used in this section:

(1) *"Wireless communication device"* means any wireless electronic communication device that provides for voice or data communication between two or more parties, including, but not limited to, a mobile or cellular telephone, a text messaging device, a personal digital assistant that sends or receives messages, an audio-video player that sends or receives messages or a laptop computer. "Wireless communication device" does not include a device which is voice-operated and which allows the user to send or receive a text based communication without the use of either hand, except to activate or deactivate a feature or function.

(2) *"Write, send or read a written communication"* means using a wireless communication device to manually type, send or read a written communication, including, but not limited to, a text message, instant message, or electronic mail.

(b) Except as provided in subsections (c) and (d), no person shall operate a motor vehicle on a public road or highway while using a wireless communications device to write, send or read a written communication.

(c) The provisions of subsection (b) shall not apply to:

(1) A law enforcement officer or emergency service personnel acting within the course and scope of the law enforcement officer's or emergency service personnel's employment;

(2) A motor vehicle stopped off the regular traveled portion of the roadway;

(3) A person who reads, selects or enters a telephone number or name in a wireless communications device for the purpose of making or receiving a phone call;

(4) A person who receives an emergency, traffic or weather alert message; or

(5) A person receiving a message related to the operation or navigation of the motor vehicle.

(d) The provisions of subsection (b) shall not prohibit a person from using a wireless communications device while operating a moving motor vehicle to:

(1) Report current or ongoing illegal activity to law enforcement;

(2) Prevent imminent injury to a person or property; or

(3) Relay information between transit or for-hire operator and the operator's dispatcher, in which the device is permanently affixed to the motor vehicle.

(e) Upon conviction of a violation under this section, a fine of up to $500.00 shall be imposed. (Ord. No. 48-806 § 1, 8-24-2010)

CHAPTER 11.39. SNOW EMERGENCY

Sec. 11.39.010. Title.
Sec. 11.39.020. Definitions.
Sec. 11.39.030. Prohibition of parking.
Sec. 11.39.040. Stalled vehicles—Prohibited.
Sec. 11.39.050. Stalled vehicles—Removal from route.
Sec. 11.39.060. Announcement.
Sec. 11.39.070. Termination of parking prohibition.
Sec. 11.39.080. Precedence of chapter.
Sec. 11.39.100. Impoundment of vehicles.
Sec. 11.39.110. Violation—Summons.
Sec. 11.39.120. Violation—Misdemeanor.
Sec. 11.39.130. Snow emergency routes designated.

Sec. 11.39.010. Title.

This chapter shall be known and may be cited as the "snow emergency ordinance" of the City of Wichita, Kansas.
(Ord. No. 31-968 § 1)

Sec. 11.39.020. Definitions.

The following definitions shall apply in the interpretation and enforcement of this chapter.

(a) "Manager" means the city manager of the City of Wichita, or, in his absence, his duly designated and acting representative;

(b) "Roadway" means that portion of a street or highway improved, designed, or ordinarily used for vehicular travel, exclusive of the berm or shoulder;

(c) "Snow emergency routes" means those streets designated as such in accordance with the provisions of this chapter.

(d) "Snow tires" means tires mounted on drive wheels of motor vehicles which are especially designed to give effective traction on snow, mud, or ice covered streets by means of extra heavy duty tread with special high-traction patterns, except that no tire so defined shall be constructed to be a snow tire if it is damaged or worn to the extent that its performance would be substantially impaired;

(e) "Street, highway boulevard or avenue" means the entire width between property lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular traffic;

(f) "Tire chains" means metal chains mounted on drive wheel tires of motor vehicles which cross the tread of each such tire laterally in at least three different places;

(g) "Vehicle" means every device in, upon or by which any person or property may be transported or drawn upon a highway, except devices moved by human power or used exclusively upon stationary rails or tracks.

(Ord. No. 41-756 § 1)

Sec. 11.39.030. Prohibition of parking.

Whenever the manager finds, on the basis of falling snow, sleet, or freezing rain, or on the basis of a forecast (by the U.S. Weather Bureau or other weather service) of snow, sleet or freezing rain, that weather conditions will make it necessary that motor vehicle traffic be expedited and that parking on city streets be prohibited or restricted for snow plowing and other purposes, the manager shall put into effect a parking prohibition on parts of or all snow emergency routes as necessary by declaring it in a manner prescribed in this chapter.

Once in effect, a prohibition under this section shall remain in effect until terminated by announcement of the manager in accordance with this chapter, except that any street area which has become substantially clear of snow and ice from curb to curb for the length of the entire block shall be automatically excluded therefrom. While the prohibition is in effect, no person shall park or allow to remain parked any vehicle on any portion of a snow emergency route to which it applies; however, nothing in this section shall be construed to permit parking at any time or place where it is forbidden by any other provision of law.
(Ord. No. 31-968 § 3)

Sec. 11.39.040. Stalled vehicles—Prohibited.

No person operating a motor vehicle on a snow emergency route on which there is a covering of snow, sleet, or ice shall allow such vehicle to

become stalled wholly or partly because the drive wheels thereof are not equipped with effective tire chains or snow tires.

No person operating a motor vehicle on a part of a snow emergency route on which there is a covering of snow, sleet, or ice or on which there is a parking prohibition in effect shall allow such vehicle to become stalled because the motor fuel supply is exhausted or the battery has become inoperative.
(Ord. No. 31-968 § 4)

Sec. 11.39.050. Stalled vehicles—Removal from route.

Whenever a vehicle becomes stalled for any reason, whether or not in violation of this chapter, on any part of a snow emergency route on which there is a covering of snow, sleet, or ice or which there is a parking prohibition in effect, the person operating such vehicle shall take immediate action to have the vehicle towed or pushed off the roadway of such snow emergency route onto the first cross street which is not a snow emergency route. No person shall abandon or leave his vehicle in the roadway of a snow emergency route (regardless of whether he indicates, by raising the hood or otherwise, that the vehicle is stalled), except for the purpose of securing assistance during the actual time necessary to go to a nearby telephone or to a nearby garage, gasoline station, or other place of assistance and return without delay.
(Ord. No. 31-968 § 5)

Sec. 11.39.060. Announcement.

The manager shall cause each declaration made by him pursuant to this chapter to be publicly announced by means of broadcasts or telecasts from stations with a normal operating range covering the city, and he may cause such declaration to be further announced in newspapers of general circulation when feasible. Each announcement shall include a declaration of the traffic emergency due to the hazardous conditions of the streets, the prohibition against parking or stalling of vehicles on snow emergency routes, the duty of the vehicle operator to remove stalled vehicles, and the right of the city to remove or impound vehicles parked or stalled in violation of this chapter. Each announcement shall describe the action taken by the manager including the time it became or will become effective. A parking prohibition regulation declared by the manager shall not go into effect until at least two hours after it has been declared.
(Ord. No. 32-234 (part); Ord. No. 31-968 § 6)

Sec. 11.39.070. Termination of parking prohibition.

Whenever the manager finds that some or all of the conditions which give rise to a parking prohibition in effect pursuant to this chapter no longer exist, he may declare the prohibition terminated, in whole or in part, in a manner prescribed by this chapter, effective immediately upon announcement.
(Ord. No. 31-968 § 7)

Sec. 11.39.080. Precedence of chapter.

Any provision of this chapter which becomes effective by declaration of the manager shall, while temporarily in effect, take precedence over other conflicting provisions of law normally in effect, except that it shall not take precedence over provisions of law relating to traffic accidents, emergency travel of authorized emergency vehicles, or emergency traffic directions by a police officer.
(Ord. No. 31-968 § 8)

Sec. 11.39.100. Impoundment of vehicles.

Members of the police department are authorized to remove or have removed a vehicle from a street to the nearest garage or other place of safety (including another place on a street), or to a garage designated or maintained by the police department, or otherwise maintained by this city, when:

(a) The vehicle is parked on a part of a snow emergency route on which a parking prohibition is in effect;

(b) The vehicle is stalled on a part of a snow emergency route on which there is a covering of snow, sleet, or ice on which there is a parking prohibition in effect and the person who was operating such vehicle

does not appear to be removing it in accordance with the provisions of this chapter;

(c) The vehicle is parked in violation of any parking ordinance or provision of law and is interfering or about to interfere with snow removal operations.

Upon any vehicle being removed and impounded as provided herein, such vehicle shall be surrendered to the duly identified owner as provided for in Chapter 11.97 of this Code.

In any proceeding for the violation of the provisions of this chapter, the registration plate displayed upon the vehicle in violation shall constitute in evidence a prima facie presumption that the owner of such vehicle was the person who parked or placed such vehicle at the place where the violation occurred.
(Ord. No. 37-832)

Sec. 11.39.110. Violation—Summons.

Whenever any motor vehicle without a driver is found parked or left in violation of any provision of this chapter, and is not removed and impounded as provided for in this chapter, a summons issued in accordance with this title shall be attached to such motor vehicle instructing the owner or operator to answer the charges of said violations before the municipal court of the city, Chapter 11.92, Arrests and Penalties, of this Code is made a part of this chapter.
(Ord. No. 31-968 § 11)

Sec. 11.39.120. Violation—Misdemeanor.

Violation of any provision of this chapter is a misdemeanor.
(Ord. No. 31-968 § 13)

Sec. 11.39.130. Snow emergency routes designated.

The following streets or portions of streets within the city are designated as snow emergency routes:

Amidon Avenue, from south bank Arkansas River north of 15th Street North to Womer;

Armour Street, from U.S. Highway 54 to Douglas Avenue;

Broadway Avenue, from south city limits to north city limits;

Central Avenue, from McLean Boulevard to west city limits;

Central Avenue, from Seneca Street to east city limits;

Century II Drive, from Douglas Avenue to Main Street;

Douglas Avenue, from Hoover to Woodlawn Boulevard;

Douglas Avenue, from east city limits of Eastborough to Webb Road;

Edgemoor, from Mt. Vernon to 13th Street North;

Edwards, from Maple to U.S. Highway 54;

Emporia Avenue, from Orme to 13th Street North;

English Street, from Main Street to St. Francis Avenue;

First Street, from McLean Boulevard to Grove Street;

Forty-seventh Street South, from west city limits to east city limits;

George Washington Boulevard, from Lincoln Street to south city limits;

Gold Street, from 31st Street South to MacArthur Road;

Grove Street, from Lincoln Street to Central Avenue;

Harry Street, from Airport Road to Lear Jet entrance;

Harry Street, from Millwood to east city limits;

Hillside Avenue, from 31st Street South to north city limits;

Hydraulic Avenue, from south city limits to Murdock Avenue;

Lark Lane, from U.S. Highway 54 to south city limits;

Lewis Street, from McLean Boulevard to St. Francis Avenue;

Lincoln Street, from McLean Boulevard to Rock Road;

MacArthur Road, from west city limits to east city limits;

Main Street, from Orme to Murdock Avenue;

All sections of Maize Road within the city limits;

Maple, from McLean Boulevard to west city limits;

Market Street, from Orme to Murdock Avenue;

McLean Boulevard, from 31st Street South to Arkansas River north of 15th Street North;

Meridian Avenue, from 47th Street to Central Avenue;

Mosley Avenue, from Murdock Avenue to 21st Street North;

Zoo Boulevard from Central Avenue to north city limits.
(Ord. No. 39-326 § 1)

CHAPTER 11.40. COMMERCIAL VEHICLES*

Sec. 11.40.010. Truck traffic prohibited.
Sec. 11.40.020. Through traffic prohibited.

Sec. 11.40.010. Truck traffic prohibited.

(a) It is unlawful for any person to drive a truck, as defined in 11.04.385, upon any portion of the streets described in Section 11.96.060 when designated by an official traffic control device prohibiting such trucks unless:

1. The truck is delivering or picking up at a location on said portion of street; or
2. Such truck is delivering or picking up at a location that cannot practicably be accessed by another route.

(b) Trucks shall use the most direct route between origin and destination using arterial streets whenever practicable.
(Ord. No. 50-896, § 4, 11-27-18)

Editor's note—Ord. No. 50-896, § 4, adopted Nov. 27, 2018, amended § 11.40.010 in its entirety to read as herein set out. Former § 11.40.010, pertained to trucks over one ton, and derived from Ord. No. 39-870, § 1.

Sec. 11.40.020. Through traffic prohibited.

It is unlawful for any person to drive a vehicle through the portion of a street where through traffic, as defined by this code, is prohibited by an official traffic control device.
(Ord. No. 50-896, § 5, 11-27-18)

*__Note—__Ordinance history; Ord. No. 29-319 §§ 92—95.

CHAPTER 11.42. DRIVER'S AND CHAUFFEUR'S LICENSES

Sec. 11.42.010. Licenses required.
Sec. 11.42.015. Failure to produce license upon demand.
Sec. 11.42.017. Persons exempt from license.
Sec. 11.42.020. Reserved.
Sec. 11.42.025. Unlawful use of driver's license or identification cards; other unlawful acts relating thereto.
Sec. 11.42.030. Driving while license suspended, canceled or revoked.
Sec. 11.42.035. Violating driver's license restrictions.
Sec. 11.42.037. Circumvention of ignition interlock device; penalty.
Sec. 11.42.040. Failure to comply with a traffic citation.

Sec. 11.42.010. Licenses required.

(a) No person, except those expressly exempted as set forth in Section 11.42.017, shall drive or operate any motor vehicle upon a street, highway or alley in the city unless such person has a valid driver's license. No person shall be permitted to have more than one valid license at any time.

(b) Any person operating a motor vehicle shall be the holder of a driver's license that is classified for the operation of such motor vehicle, and any person operating a motorcycle that is registered in this state shall be the holder of a class M driver's license.

(c) Motorized bicycle. No person shall drive any motorized bicycle upon a street or highway unless such person has a valid driver's license which entitles the licensee to drive a motor vehicle in any class or classes.

(d) Defense. It shall be a defense to any charge under this section that the person charged produce in the Municipal Court the appropriate class driver's license issued to such person that was valid at the time of such person's arrest or issuance of a citation.

(e) Penalty. Violation of this section is a misdemeanor, and such sentence shall include a term of imprisonment of not more than six months and/or a $1,000.00 fine or both such fine and imprisonment.
(Ord. No. 29-319 § 96; Ord. No. 50-861, § 3, 9-25-18; Ord. No. 51-090, § 1, 9-10-19)

Sec. 11.42.015. Failure to produce license upon demand.

(a) Every licensee shall have such person's driver's license in such person's immediate possession at all times when operating a motor vehicle. However, no person charged with violating this section shall be convicted if such person produces in the Municipal Court a driver's license issued to such person that was valid at the time of arrest or issuance of a citation.

(b) Every licensee operating a motor vehicle shall promptly deliver such person's driver's license upon demand of any officer of a court of competent jurisdiction or any peace officer when the license is in such person's immediate possession at the time of the demand.

(c) Penalty. Violation of this section is a misdemeanor, and such sentence shall include a term of imprisonment for not more than 90 days or a fine of not more than $500 or both such fine and imprisonment.
(Ord. No. 51-090, § 2, 9-10-19)

Sec. 11.42.017. Persons exempt from license.

(a) The following persons are exempt from the license requirements of the motor vehicle drivers' license act:

(1) A nonresident who is at least 16 years of age and who has in such person's immediate possession a valid license issued to such nonresident in such person's home state or country may operate in this state any motor vehicle in class C or M, as designated in K.S.A. 8-234b, and amendments thereto;

(2) A nonresident who is at least 18 years of age and who has in such person's immediate possession a valid license issued to such nonresident in such person's home state or country which authorizes such person to operate any motor vehicle in class A or class B, as designated in K.S.A. 8-234b, and amendments thereto, may operate any such motor vehicle in this state, subject to the age limits applicable in this state to the operation of any type or class of vehicle operated by such person;

(3) Any nonresident who is at least 18 years of age, whose home state or country does not require the licensing of drivers, may operate any motor vehicle in class C or class M, as designated in K.S.A. 8-234b, and amendments thereto, for a period of not more than 90 days in any calendar year, if the motor vehicle so operated is duly registered in the home state or country of such nonresident;

(4) Any person while driving or operating during the hours between sunrise and sunset any farm tractor or implement of husbandry, from the farm residence to a field farmed in connection with such farm residence, or from one farm field to another.

(b) No exemption granted by this section shall apply to any person while such person's license to operate a motor vehicle is under suspension or revocation.
(Ord. No. 51-090, § 3, 9-10-19)

Sec. 11.42.020. Reserved.

Editor's note—Ord. No. 51-090, § 4, adopted Sept. 10, 2019, repealed § 11.42.020, which pertained to issuance of driver's and chauffer's licenses to minors under sixteen, and derived from Ord. No. 29-319, § 97.

Sec. 11.42.025. Unlawful use of driver's license or identification cards; other unlawful acts relating thereto.

(a) It is unlawful for any person within the city to commit any of the following acts:

(1) To lend any driver's license or identification card to any other person or knowingly permit the use thereof by another;

(2) To display or to represent as the person's own any driver's license or identification card not issued to the person;

(3) To fail or refuse to surrender to the division upon its lawful demand any driver's license which has been suspended, canceled or revoked or any identification card which has been canceled;

(4) Permit any unlawful use of a driver's license or identification card issued to the person;

(5) Photograph, photostat, duplicate or in any way reproduce any driver's license or identification card or facsimile thereof in such a manner that it could be mistaken for a valid driver's license or identification card, or display or have in possession any such photograph, duplicate, reproduction or facsimile unless authorized by law;

(6) Display or possess any photograph, photostat, duplicate or facsimile of a driver's license or identification card unless authorized by law;

(7) Display, cause or permit to be displayed or have in possession any fictitious or fraudulently altered driver's license or identification card;

(8) Display or cause or permit to be displayed any canceled, revoked or suspended driver's license, or any canceled identification card.

(b) Violation of any of the provisions of subsection (a) is a misdemeanor and shall be punished by not more than one year's imprisonment or by a fine of not more than two thousand five hundred dollars, or by both such fine and imprisonment.

(c) It shall be unlawful for any person to:

(1) Lend any driver's license or identification card to or knowingly permit the use of any driver's license or identification card by any person under twenty-one years of age for use in the purchase of any alcoholic liquor;

(2) Lend any driver's license or identification card to or knowingly permit the use of any driver's license or identification card by a person under the legal age for consumption of cereal malt beverage for use in the purchase of any cereal malt beverage;

(3) Lend any driver's license, identification card, or other form of identification to aid

another person in wrongfully obtaining a driver's license or replacement driver's license, or an identification card or replacement identification card;

(4) Display or cause to be displayed or have in possession any fictitious or fraudulently altered driver's license or identification card by any person under twenty-one years of age for use in the purchase of any alcoholic liquor or cereal malt beverage.

(d) Violation of any of the provisions of subsection (c) is a misdemeanor and upon a first conviction, the court shall impose a sentence of not less than one hundred hours of community service and not more than one year's imprisonment, and a fine of not less than two hundred dollars nor more than five hundred dollars. On a second and subsequent conviction, a person shall be punished by not more than one year's imprisonment or by a fine of not more than two thousand five hundred dollars, or by both such fine and imprisonment.

(e) The provisions of this section shall apply to any driver's license, nondriver's identification card, identification card, or other form of identification whether issued under the laws of the state of Kansas or issued under the laws of another state or jurisdiction.
(Ord. No. 43-509 § 1)

Sec. 11.42.030. Driving while license suspended, canceled or revoked.

(A) It is unlawful for any person within the city to authorize or knowingly permit a motor vehicle owned by such person or under such person's control to be driven by any person who has no legal right to do so, or who does not have a valid driver's license.

(B) The Clerk of the Municipal Court shall forward to the division a record of conviction of any person convicted in such court as soon as possible after such conviction in compliance with K.S.A. 8-2115.

(C) Any person who drives a motor vehicle on any street and/or alley in this city at a time when such person's privilege to do so is canceled, suspended or revoked or while such person's privilege to obtain a driver's license is suspended or revoked pursuant to K.S.A. 8-252a, and amendments thereto, shall be guilty of a misdemeanor.

(D) No person shall be convicted under this section if such person was entitled at the time of arrest under K.S.A. 8-257 and amendments thereto, to the return of such person's driver's license.

(E) The penalty for convictions of Section (C) shall be as follows:

(1) Upon a first conviction except as provided by Section (G) punishment by confinement of not more than six months, and a fine of not more than one thousand five hundred dollars shall be imposed. Upon a first conviction, such person shall be sentenced to at least five days of confinement and fined at least one hundred dollars.

(2) Upon a second or subsequent conviction and except as provided by Section (G), punishment by confinement of not more than one year, and a fine of not more than two thousand five hundred dollars shall be imposed. Such person shall not be eligible for parole until completion of five days of confinement. Such mandatory fine imposed shall be at least one hundred dollars.

(3) Upon a third or subsequent conviction and except as provided by Section (G), punishment by confinement of not more than one year, and a fine of not more than two thousand five hundred dollars shall be imposed. The person convicted shall be sentenced to not less than ninety (90) days of confinement and fined not less than one thousand five hundred dollars, if such person's privilege to drive a motor vehicle is canceled, suspended or revoked:

(a) Because such person refused to submit and complete any test of

blood, breath or urine requested by law enforcement excluding the preliminary screening test as set forth in K.S.A. 8-1012, and amendments thereto;

(b) Because such person was convicted of violating the provisions of K.S.A. 40-3104, and amendments thereto, or similar ordinance of any city or resolution of any county or a law of another state, which ordinance or law prohibits the acts prohibited by that statute, relating to motor vehicle liability insurance coverage;

(c) Because such person was convicted of vehicular homicide, K.S.A. 21-3405 prior to its repeal, or K.S.A. 21-5406 and amendments thereto, involuntary manslaughter while driving under the influence of alcohol or drugs, K.S.A. 21-3442, prior to its repeal or K.S.A. 21-5405(a)(3) and amendments thereto, or any other murder or manslaughter crime resulting from the operation of a motor vehicle;

(d) Because such person was convicted of being a habitual violator, K.S.A. 8-287, and amendments thereto, or similar ordinance of any city or resolution of any county or a law of another state, which ordinance or law prohibits the acts prohibited by that statute, relating to driving while being a habitual violator; or

(e) Pursuant to K.S.A. 8-286 and amendments thereto.

(4) Any person convicted and sentenced pursuant to the provisions Subsection (E)(3) shall not be eligible for release on probation, suspension or reduction of sentence or parole until the person has served at least ninety days imprisonment. The ninety days of confinement mandated by this subsection may be served in a work release program only after such person has served forty-eight consecutive hours of confinement provided such work release program requires such person to return to confinement at the end of each day in the work release program. The Court may place the person convicted under a house arrest program to serve the remainder of the minimum sentence only after such person has served forty-eight consecutive hours of confinement.

(F) If a person:

(1) Is convicted of a violation of Section (C) committed while the person's privilege to drive or privilege to obtain a driver's license was suspended or revoked for a violation of Section 11.38.150 of this Code, and amendments thereto, Section 11.38.140, or Section 11.38.155 of this Code and any amendments thereto, K.S.A. 8-1567, K.S.A. 8-2,144 or K.S.A. 8-1014 and any amendments thereto or any law of the state, ordinance of any city or law of another state which ordinance or law prohibits the acts prohibited by these sections; and

(2) Is or has been convicted of a violation of Section 11.38.150, or Section 11.38.155 of the Code of the City of Wichita of this Code, and amendments thereto, K.S.A. 8-1567, K.S.A. 8-2144 or K.S.A. 8-1014 and any amendments thereto or of any law of this state, ordinance of any city or law of another state which ordinance or law prohibits the acts prohibited by these sections, committed while the person's privilege to drive or privilege to obtain a driver's license was so suspended or revoked, the person shall not be eligible for suspension of sentence, probation or parole until the person has served at least ninety days of confinement and any fine imposed on such person shall be in addition to such a term of confinement.

(G) Except as otherwise provided, the mandatory fine and mandatory period of confinement set forth in Section E shall not apply to any person convicted of a violation of Section C committed while the person's privilege to drive or privilege to obtain a driver's license was

suspended or revoked for a violation of K.S.A. 8-2110 and amendment thereto, or any ordinance of any city, resolution of any county or a law of another state that prohibits the acts prohibited by those statutes other than K.S.A. 8-2110 and amendments thereto.

(H) For the purposes of determining whether a conviction is a first, second, third, or subsequent conviction, conviction includes a conviction of a violation of any ordinance of any city or a law of this or any other state, or resolution of any county, which is in substantial conformity with Section (C).

(Ord. No. 44-997 § 1; Ord. No. 47-060, § 1, 6-27-06; Ord. No. 47-357, § 1, 2-27-07; Ord. No. 47-506, § 1, 6-26-07; Ord. No. 49-293, § 1, 6-26-2012; Ord. No. 52-203, § 1, 6-27-23)

Sec. 11.42.035. Violating driver's license restrictions.

(a) It is unlawful for any person within the city to operate a motor vehicle in violation of the restrictions on such person's driver's license.

(b) Upon a first conviction a fine of not more than two hundred fifty dollars ($250.00) shall be imposed. The court shall suspend such person's privileges to operate a motor vehicle for a period of not less than 30 days and not more than two years.

Upon a second or subsequent conviction, a fine of not more than five hundred dollars ($500.00) shall be imposed. The court shall suspend such person's privilege to operate a motor vehicle for not less than ninety (90) days and not more than two years.

(c) For the purposes of determining whether a conviction is a first, second, third, or subsequent conviction, a conviction includes a conviction of a violation of any ordinance of any city or a law of this or any other state, or resolution of any county which is in substantial conformity with the provisions of this section.

(Ord. No. 47-357, § 2, 2-27-07)

Sec. 11.42.037. Circumvention of ignition interlock device; penalty.

(a) No person shall:

(1) Tamper with an ignition interlock device, circumvent it or render it inaccurate or inoperative;

(2) request or solicit another to blow into an ignition interlock device, or start a motor vehicle equipped with such device, providing an operable motor vehicle to a person whose driving privileges have been restricted to driving a motor vehicle equipped with such device;

(3) blow into an ignition interlock device, or start a motor vehicle equipped with such device, providing an operable motor vehicle to a person whose driving privileges have been restricted to driving a motor vehicle equipped with such device; or

(4) operate a vehicle not equipped with an ignition interlock device while such person's driving privileges have been restricted to driving a motor vehicle equipped with such device.

(b) Any person who is convicted of this section shall be deemed guilty of a misdemeanor and shall be punished by a fine not to exceed $2,500.00, or by imprisonment for not more than one year, or by both such fine and imprisonment.

(c) In addition to any other penalties provided by law:

(1) (A) On a first conviction of a violation of subsection (a)(1) or (a)(2), the division shall extend the ignition interlock restriction period on the person's driving privileges for an additional 90 days; and

(B) On a second or subsequent conviction of a violation of subsection (a)(1) or (a)(2), the division shall restart the original ignition interlock restriction period on the person's driving privileges; and

(2) On a conviction of a violation of subsection (a)(4), the division shall restart the original ignition interlock restriction period on the person's driving privileges.

(Ord. No. 50-860, § 1, 9-25-18)

Sec. 11.42.040. Failure to comply with a traffic citation.

(a) Failure to comply with a traffic citation means failure either to:

(1) Appear before the municipal court in response to a traffic citation and pay any fine and court costs imposed as ordered by the court; or

(2) Otherwise comply with a traffic citation as provided by law.

Failure to comply with a traffic citation is a misdemeanor, regardless of the disposition of the charge for which such citation was originally issued.

(b) In addition to penalties set forth under subsection (a), when a person fails to comply with a traffic citation, except for any violations provided in subparagraph (d)(1), the court shall mail notice to the person that if the person does not appear in municipal court or pay all fines, court costs and any penalties as ordered by the court within thirty days from the date of mailing, the Division of Vehicles will be notified to suspend the person's driving privileges unless such person is eligible for restricted driving privileges as set forth in K.S.A. 8-2110. Upon the person's failure to comply within such thirty days, the court shall electronically notify the Division of Vehicles, to suspend the person's driving privileges unless the court has determined, pursuant to a written order, that the person shall fulfill any requirements set forth by the court prior to the suspension. Failure to abide by the terms of the order shall result in the court notifying the Division of Vehicles that the person's driving privileges shall be suspended for the failure to comply with the traffic citation. Upon the court determining that the person is in substantial compliance with the traffic citation, the court shall notify the Division of Vehicles to end any suspension of the person's driving privileges.

(c) When the municipal court notifies the Division of Vehicles of a failure to comply with a traffic citation pursuant to subsection (b), the court shall assess a reinstatement fee pursuant to K.S.A. 8-2110, as amended. Such reinstatement fee shall be in addition to any fine or other penalty assessed by the court, and in addition to those municipal court costs set forth in Section 1.04.070. The court shall remit all reinstatement fees pursuant to K.S.A. 8-2110, as amended.

(d) (1) Violations of the following ordinances and the state statutes listed in K.S.A. 8-2110(C)(i) shall not provide the basis for a violation of this section: Section 4.04.025, Section 4.16.130, Section 5.24.010, Section 5.44.050, Section 11.38.050, Section 11.38.060, Section 11.38.110, Section 11.44.010, Section 11.44.030, Section 11.44.040, Section 11.44.045, Section 11.44.070, Section 11.48.120, Section 11.48.130, Section 11.48.150, Section 11.48.160, Section 11.48.170, Chapter 11.50, Chapter 11.52, and Section 11.60.120 of the Code of the City of Wichita.

(2) The provisions of this paragraph shall be construed and applied retroactively. A person may petition the court if the citation(s) which they failed to comply led to suspension of their driving privileges and were for violations listed in subsection (d)(1). If the court determines that the person committed an offense listed in subsection (d)(1) that does not provide the basis for a violation of this section and suspension of the person's driving privileges, the court shall immediately electronically notify the Division of Vehicles to end any suspension of the person's driving privileges.

(e) (1) Any conviction for a failure to comply pursuant to this section shall not be considered by the court in determining suspended or restricted driving privileges if such conviction is more than five years old.

(2) The provisions of this subsection shall be construed and applied retroactively.

(f) As used in this section, "substantial compliance" or "substantially complied" means the person has followed the orders of the court involving payments of fines, court costs and any

penalties and has not failed substantially in making payments or satisfying the terms of the court order.
(Ord. No. 40-630 § 1; Ord. No. 52-604, § 1, 1-7-25)

CHAPTER 11.44. PEDESTRIANS

Sec. 11.44.010. Subject to traffic control signals.
Sec. 11.44.015. Congested area.
Sec. 11.44.020. Crossing streets at corners.
Sec. 11.44.030. Crossing roadway at location other than crosswalk.
Sec. 11.44.035. Drivers to exercise due care.
Sec. 11.44.040. Walking in right half of crosswalk.
Sec. 11.44.045. Walking on sidewalks required—Exceptions.
Sec. 11.44.050. Reserved.
Sec. 11.44.055. Pedestrians' right-of-way on sidewalks.
Sec. 11.44.057. Pedestrian must yield right-of-way to authorized emergency vehicle.
Sec. 11.44.060. Blind pedestrian right-of-way, when use of equipment unlawful.
Sec. 11.44.070. Pedestrian under the influence of alcohol or drugs.
Sec. 11.44.075. Obedience of pedestrian to bridge and railroad signals required.
Sec. 11.44.080. Preamble.
Sec. 11.44.090. Definitions.
Sec. 11.44.100. Entering or staying upon a designated roadway or impeding the flow of traffic is prohibited.
Sec. 11.44.110. Penalty.
Sec. 11.44.120. Severability.

Sec. 11.44.010. Subject to traffic control signals.

(a) A pedestrian shall obey the instructions of any official traffic control device specifically applicable to such pedestrian unless otherwise directed by a police officer.

(b) Pedestrians shall be subjected to traffic control signals at intersections as provided in Section 11.20.060.

(c) At all other places pedestrian shall be accorded the privileges and shall be subject to the restrictions stated in this title.
(Ord. No. 40-854 § 1)

Sec. 11.44.015. Congested area.

In the congested area defined in Section 11.04.060, a pedestrian shall not cross a roadway at any point other than within a marked crosswalk or other than at an unmarked crosswalk at intersections; for purposes of this section the junction of an alley with another roadway does not constitute an intersection.
(Ord. No. 40-854 § 2)

Sec. 11.44.020. Crossing streets at corners.

(a) When traffic control signals are not in place or in operation, the driver of a vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield, to a pedestrian crossing the roadway within a crosswalk when the pedestrian is upon the half of the roadway upon which the vehicle is traveling, or when the pedestrian is approaching so closely from the opposite half of the roadways to be in danger.

(b) Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any vehicle approaching from the rear shall not overtake and pass such stopped vehicle.

(c) No pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close as to constitute an immediate hazard.

(d) Whenever pedestrian signals exhibiting indications of a WALKING PERSON (symbolizing WALK) and an UPRAISED HAND (symbolizing DONT WALK), such signals shall indicate as follows:

(1) A steady WALKING PERSON (symbolizing WALK) signal indication means that a pedestrian facing the signal indication is permitted to start to cross the roadway in the direction of the signal indication, possibly in conflict with turning vehicles. The pedestrian shall yield the right-of-way to vehicles lawfully within the intersection at the time that the WALKING PERSON (symbolizing WALK) signal indication is first shown.

(2) A flashing UPRAISED HAND (symbolizing DONT WALK) signal indication means that a pedestrian shall not start to cross the roadway in the direction of the signal indication, but that any pedestrian who has already started to

cross on a steady WALKING PERSON (symbolizing WALK) signal indication shall proceed to the far side of the traveled way of the street or highway, unless otherwise directed by a traffic control device to proceed only to the median of a divided highway or only to some other island or pedestrian refuge area.

(3) A steady UPRAISED HAND (symbolizing DONT WALK) signal indication means that a pedestrian shall not enter the roadway in the direction of the signal indication.

(e) Subsection (a) of this section shall not apply under the conditions stated in subsection (b) of Section 11.44.030.
(Ord. No. 40-854 § 3; Ord. No. 50-642, § 4, 12-19-17)

Sec. 11.44.030. Crossing roadway at location other than crosswalk.

(a) Every pedestrian crossing a roadway at any point other than within a marked crosswalk, or within an unmarked crosswalk at an intersection, shall yield the right-of-way to all vehicles upon the roadway.

(b) Any pedestrian crossing a roadway at a point where a pedestrian tunnel or an overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway.

(c) Between adjacent intersections at which traffic-control signals are in operation or in the congested areas which are described in Section 11.04.060, a pedestrian shall not cross a roadway at any point except in a marked crosswalk, pedestrian lane, or unmarked crosswalk at such intersections.

(d) No pedestrian shall cross a roadway intersection diagonally unless authorized by official traffic-control devices; and, when authorized to cross diagonally, pedestrians shall cross only in accordance with the official traffic-control devices pertaining to such crossing movements.

(e) For the purposes of this section, the term "intersection" shall not include the juncture of an alley with another roadway.
(Ord. No. 40-854 § 4)

Sec. 11.44.035. Drivers to exercise due care.

Notwithstanding other provisions of this chapter, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian and shall give warning by sounding the horn when necessary and shall exercise proper precaution upon observing any child or any obviously confused or incapacitated person.
(Ord. No. 40-854 § 5)

Sec. 11.44.040. Walking in right half of crosswalk.

Pedestrians shall move, whenever practicable, upon the right half of the crosswalks.
(Ord. No. 40-854 § 6)

Sec. 11.44.045. Walking on sidewalks required—Exceptions.

(a) Where a sidewalk is provided and its use is practicable, it shall be unlawful for any pedestrian to walk along and upon an adjacent roadway.

(b) Where a sidewalk is not available, any pedestrian walking along and upon a highway shall walk only on a shoulder, as far as practicable from the edge of the roadway.

(c) Where neither a sidewalk nor a shoulder is available, any pedestrian walking along and upon a highway shall walk as near as practicable to an outside edge of the roadway, and, if on a two-way roadway, shall walk only on the left side of the roadway.

(d) Except as otherwise provided in this section, any pedestrian upon a roadway shall yield the right-of-way to all vehicles upon the roadway.
(Ord. No. 40-854 § 7)

Sec. 11.44.050. Reserved.

Editor's note—Ord. No. 50-642, § 7, adopted Dec. 19, 2017, repealed § 11.44.050, which pertained to soliciting rides, business or contributions prohibited—exceptions, and derived from Ord. No. 44-814 § 1.

Sec. 11.44.055. Pedestrians' right-of-way on sidewalks.

The driver of a vehicle shall yield the right-of-way to any pedestrian on a sidewalk.
(Ord. No. 40-854 § 9)

Sec. 11.44.057. Pedestrian must yield right-of-way to authorized emergency vehicle.

(a) Upon the immediate approach of an authorized emergency vehicle making use of an audible signal and visual signals meeting the requirements of 11.60.200 and 11.60.230 of this title, or of a police vehicle properly and lawfully making use of an audible signal only, every pedestrian shall yield the right-of-way to the authorized emergency vehicle.

(b) This section shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons using the highway nor from the duty to exercise due care to avoid colliding with any pedestrian.
(Ord. No. 40-854 § 10)

Sec. 11.44.060. Blind pedestrian right-of-way, when use of equipment unlawful.

(a) The driver of a vehicle shall yield the right-of-way to any pedestrian carrying a clearly visible white cane or accompanied by a guide dog.

(b) It is unlawful for any person, unless totally or partially blind or otherwise incapacitated, while on any public street or highway, to carry a cane or walking stick which is white in color or white tipped with red.
(Ord. No. 40-854 § 11)

Sec. 11.44.070. Pedestrian under the influence of alcohol or drugs.

A pedestrian who is under the influence of alcohol or any drug to a degree which render such pedestrian a hazard shall not walk or be upon a street or highway except on a sidewalk.
(Ord. No. 40-854 § 12)

Sec. 11.44.075. Obedience of pedestrian to bridge and railroad signals required.

(a) No pedestrian shall enter or remain upon any bridge or approach thereto beyond the bridge signal, gate or barrier after a bridge operation signal indication has been given.

(b) No pedestrian shall pass through, around, over or under any crossing gate or barrier at a railroad grade crossing or bridge while such gate or barrier is closed or is being opened or closed.
(Ord. No. 40-854 § 13)

Sec. 11.44.080. Preamble.

Whereas, the City Council hereby finds that the high volume of motor vehicles travelling on congested roadways in the City of Wichita makes mixing pedestrian and the moving, slowing or temporarily stopping of motor vehicles in the same space, at the same time, inherently dangerous. The City Council finds that pedestrians distracting drivers from the task of driving by approaching a stopped vehicle, attracting and/or attempting to attract the attention of the driver of a motor vehicle for the purpose of inducing that driver to slow or stop the vehicle to facilitate the transfer of anything from the driver or occupant of the vehicle to the pedestrian or the transfer of anything by the pedestrian to the driver or passenger is hazardous to public safety, both for occupants of motor vehicles and for pedestrians;

The City Council further finds that the prohibitions set forth in this chapter are narrowly tailored to serve the significant interest of promoting and protecting the public health, safety and welfare and that said prohibitions leave open ample alternative channels of communication throughout the City;

Whereas, it is the intent of this section to protect the health, safety and general welfare of the citizens of the City of Wichita, to assure the free, orderly, undisrupted movement of motor vehicles on designated highways within the City limits, and to provide for the safety and interests of pedestrians and of occupants of motor vehicles located on designated roadways within the City of Wichita and to reduce the number of pedestrian and motor vehicle accidents occurring within the City; and

Whereas, pedestrians are increasingly using highways and roadways in ways for which the roads were not designed or intended. These uses include approaching vehicles when stopped or in use or staying upon medians and in the public right of way for purposes other than crossing the highway. These activities create safety hazards for pedestrians and distract drivers, making automobile accidents more likely. This chapter is designed to decrease the safety hazards by restricting such activity. These safety concerns are most acute in the busiest streets within the City of Wichita, identified as arterial streets, main trafficways and those within a congested district.
(Ord. No. 50-642, § 8, 12-19-17)

Sec. 11.44.090. Definitions.

As used in this section the following words and phrases shall have the following meanings:

"Alley" shall be defined as set forth in Section 11.04.010.

"Arterial Street" shall be defined as set forth in Section 11.04.012 and include those streets designated in 11.96.100.

"Chief of Police" means the Chief of Police or his or her designee.

"Congested Area" shall be defined as set forth in Section 11.04.060.

"Crosswalk" shall be defined as set forth in Section 11.04.070.

"Designated Roadway" includes the roadways, shoulders, islands, public right-of-ways or medians of any:

(1) Arterial Street or Main Trafficway;

(2) Street within a Congested Area;

(3) Street with a posted speed limit of 40 mph or greater.

"Driver" shall be defined as set forth in Section 11.04.090.

"Intersection" shall be defined as set forth in Section 11.04.135.

"Island" or Median" means the paved or unpaved area between traffic lanes dividing a street or highway into separates lanes of traffic traveling in opposite directions, or in the case of left or right turn lanes, vehicles traveling in the same direction.

"Main Trafficways" shall include those roadways designated in Section 11.96.120.

"Motor Vehicle" shall be defined as set forth in Section 11.04.170.

"Pedestrian" shall be defined as set forth in Section 11.04.225.

"Private Road" shall be defined as set forth in Section 11.04.255.

"Public Right of Way" shall be defined as set forth in Section 11.04.257.

"Roadway" shall be defined as set forth in Section 11.04.290.

"Sidewalk" shall be defined as set forth in Section 11.04.320.
(Ord. No. 50-642, § 9, 12-19-17)

Sec. 11.44.100. Entering or staying upon a designated roadway or impeding the flow of traffic is prohibited.

(a) It shall be unlawful for any person to go upon any designated roadway and enter onto such roadway or approach a vehicle stopped on the roadway or at an intersection for the purpose of inducing the driver of the motor vehicle to remain stopped, slow or stop the vehicle to facilitate a transfer of anything from the driver or occupant of the vehicle to the pedestrian or the transfer of anything by the pedestrian to the driver or occupant.

(b) Except in an emergency, it shall be unlawful for any person to be upon a public roadway to impede or disrupt the flow of traffic, or act in any manner that tends to impede or disrupt the flow of traffic, whether or not such traffic is actually present.

For purposes of this section, actions "tends to impede or disrupt the flow of traffic" if a pedestrian's presence or action creates a dangerous condition upon the roadway or otherwise interrupts the free flow of vehicles and/or pedestrians, except as already permitted upon areas designated for pedestrian crossing.

(c) No person, parent or legal guardian shall knowingly allow or permit an individual under the age of eighteen years of age to violate the provisions of Subsections (a) or (b).

(d) No person shall activate a pedestrian crosswalk signal for any purpose other than to stop traffic to allow such person to cross the roadway.

(e) It is *prima facie* evidence of a violation of Subsection (d) if the person stays at the intersection through two consecutive opportunities to legally cross the roadway. This may include a change in the traffic control signal or lack of traffic. After two such consecutive opportunities, such person shall not be considered to be "using the crosswalk" for purposes of the exceptions set forth below.

(f) No driver or operator of a motor vehicle shall park, stop or leave standing a vehicle on a designated roadway or suddenly decrease the speed of such vehicle or deviate from a traffic lane for the purpose of responding to persons violating Subsections (a), (b) or (d).

(g) Exceptions.

This chapter does not apply to:

(1) Persons in or upon public or private parking lots, alleys or private roads;

(2) Persons using a crosswalk to cross the roadway;

(3) Persons engaged in law enforcement, emergency or rescue activities, including providing assistance to an injured or disabled vehicle or person;

(4) Persons entering a vehicle as an invited passenger where it is lawful to do so, including, but limited to: activity permitted under Chapter 3.84 (taxis), Chapter 3.85 (limousines) and Chapter 3.88 (airport limousines) or other "for hire" transportation services, including public transportation services;

(5) Persons engaged in the repair or maintenance activities of the highway under the direction of the City of Wichita or State of Kansas;

(6) Streets or portions thereof that have been closed pursuant to express authorization from the City to include, but not be limited to: community events licensed pursuant to Chapter 3.11, parades licensed pursuant to Chapter 3.14 of the Code of the City of Wichita or Use of Right-of-Way or Use of a Street permit issued pursuant to Chapter 10.08 of the Code of the City of Wichita; and

(7) Persons entering the roadway for the purpose of conducting business with a food truck properly licensed pursuant to Chapter 3.15 or an ice cream vendor properly licensed pursuant to Chapter 3.89 of the Code of the City of Wichita.

(h) A violation of this ordinance is a traffic infraction. Individuals who are fourteen years or older may be charged with violation of this ordinance.

(Ord. No. 50-642, § 10, 12-19-17; Ord. No. 52-601, § 1, 1-7-25)

Editor's note—Ord. No. 52-601, § 1, adopted Jan. 7, 2025, amended the title of § 11.44.100 to read as herein set out. The former § 11.44.100 title pertained to entering or staying upon a designated roadway prohibited.

Sec. 11.44.110. Penalty.

Any person who violates the provisions of Section 11.44.100 is guilty of a misdemeanor. Upon a conviction, a person shall be sentenced to

a fine not to exceed five hundred (500) dollars and/or imprisonment not to exceed thirty (30) days.
(Ord. No. 50-642, § 11, 12-19-17)

Sec. 11.44.120. Severability.

If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this chapter.
(Ord. No. 50-642, § 12, 12-19-17)

CHAPTER 11.48. BICYCLES*

Sec. 11.48.010. Definitions.
Sec. 11.48.090. Lamps, brakes and other equipment on bicycles.
Sec. 11.48.100. Subject to traffic-control devices and traffic regulations.
Sec. 11.48.120. Riding on roadways and bicycle paths.
Sec. 11.48.130. Riding upon bicycles and carrying passengers.
Sec. 11.48.150. Hitching to moving vehicles.
Sec. 11.48.160. Bicycles and human-powered vehicles on sidewalks.
Sec. 11.48.170. Parking of bicycles.
Sec. 11.48.175. Impounding bicycles.
Sec. 11.48.180. Sale of unclaimed or impounded bicycles.
Sec. 11.48.190. Bicycling under the influence of drugs and/or alcohol.
Sec. 11.48.200. Penalties for violation of this Chapter.

Sec. 11.48.010. Definitions.

(a) *Bicycle.* "Bicycle" means every vehicle propelled by human power upon which any person may ride having two or more tandem wheels, any of which is more than fourteen inches in diameter, but does not include any mobility device as defined by the Americans with Disabilities Act.

(b) *Bike path.* "Bike path" or "bicycle path" means a paved route separated from car traffic and designated for bicycle use.

(c) *Bike lane.* "Bike lane" or "bicycle lane" means a portion of the roadway designated for bicycle use separated from autos by a paint stripe, raised divider, or marked by signs and/or paint on the roadway.

(d) *Bike route.* "Bike route" means a route designated on streets having low traffic volume, marked by signs and/or paint on the street.

(e) *Nighttime.* "Nighttime" as used in this Chapter means any time from a half hour after sunset to a half hour before sunrise, or at any other time when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the streets, highways or roadways are not clearly discernable at a distance of one thousand feet ahead.

The regulations of this Chapter applicable to bicycles shall apply whenever a bicycle is operated upon any sidewalk, street, roadway, highway, or public path set aside for the exclusive use of pedestrian and bicycle traffic, and shall also include all public parks and playgrounds or other property under the ownership, jurisdiction or control of the City, the Board of Park Commissioners or any other agency created to provide a public service in or adjacent to the City.

(Ord. No. 35-678 (part); Ord. No. 48-754 § 1, 6-22-2010)

Sec. 11.48.090. Lamps, brakes and other equipment on bicycles.

(a) Every bicycle when in use at nighttime shall be equipped with a lamp on the front which shall emit a white light visible from a distance of at least five hundred feet to the front and with a red reflector on the rear of a type approved by the Secretary of Transportation which shall be visible from all distances from one hundred feet to six hundred feet to the rear when directly in front of lawful lower beams of head lamps on a motor vehicle. A lamp emitting a red light visible from a distance of five hundred feet to the rear may be used in addition to the red reflector.

(b) Every bicycle shall be equipped with a brake which will enable the operator to make the braked wheel skid on dry, level, clean pavement.

(c) No person shall sell a pedal for use on a bicycle, unless such pedal is equipped with a reflector of a type approved by the Secretary of Transportation which is visible from the front and rear of the bicycle to which it is attached during darkness from a distance of two hundred

*__Editor's note—__Ord. No. 48-754 § 8, adopted June 22, 2010, amended Ch. 11.48 in its entirety to read as herein set out. Formerly said chapter pertained to similar subject matter and derived from Ord. No. 35-678(part) and subsequent amendatory ordinances.

__Cross reference—__As to carrying another person upon handlebars, frame, etc., see § 11.40.100. As to brake on bicycle with motor, see § 11.60.180. As to siren or whistle on bicycle, see § 11.60.190.

feet, and no person shall sell a new bicycle, unless it is equipped with pedals in accordance with the provisions of this Section.
(Ord. No. 35-678 (part))

Sec. 11.48.100. Subject to traffic-control devices and traffic regulations.

Every person riding a bicycle upon a street, highway or roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle by this Code except as to special ordinances so designated and except to those provisions of this Code which by their nature can have no application.
(Ord. No. 35-678 (part); Ord. No. 48-754 § 2, 6-22-2010)

Sec. 11.48.120. Riding on roadways and bicycle paths.

(a) Every person operating a bicycle upon a street, highway or roadway at less than the normal speed of traffic at the time and place and under the conditions then existing shall ride as near to the right side of the street, highway, or roadway as practicable, except under any of the following situations when:

(1) Overtaking and passing another bicycle or vehicle proceeding in the same direction;

(2) Preparing for a left turn at an intersection or into a private road or driveway; or

(3) Reasonably necessary to avoid conditions including, but not limited to, fixed or moving objects, parked or moving bicycles, pedestrians, animals, surface hazards or narrow width lanes that make it unsafe to continue along the right-hand edge of the street, highway or roadway.

(b) Any person operating a bicycle upon a one-way street, highway or roadway with two or more marked traffic lanes may ride as near to the left side of the roadway as practicable.

(c) Persons riding bicycles upon a roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles.

(d) Wherever a usable path for bicycles has been provided adjacent to a street, highway or roadway, bicycle riders shall use such path and shall not use the street, highway or roadway.

(e) For purposes of this Section, "narrow width lane" means a lane that is too narrow for a bicycle and a vehicle to travel safely side-by-side within the lane.
(Ord. No. 35-678 (part); Ord. No. 48-754 § 3, 6-22-2010)

Sec. 11.48.130. Riding upon bicycles and carrying passengers.

(a) A person riding a bicycle upon a street, highway, roadway, alley, bike path, bike lane or sidewalk of the City shall not ride other than upon or astride a permanent and regular seat attached thereto.

(b) No bicycle shall be used to carry more persons at one time than the number for which it is designed and equipped, provided, however, that a child who is less than five years of age may be carried on a bicycle by a person operating said bicycle if the following conditions are met:

(1) The person operating the bicycle must either be the parent or legal guardian of the child or have the consent of the parent or legal guardian;

(2) The child must be carried on a seat constructed on the rear of said bicycle, which seat must be a manufactured type that complies with the current Consumer Product Safety Commission Standards;

(3) An adult rider may carry a child in a wheeled child carrier designed for attachment to a bicycle.

(Ord. No. 35-678 (part); Ord. No. 48-754 § 4, 6-22-2010)

Sec. 11.48.150. Hitching to moving vehicles.*

It shall be unlawful for any person while riding a bicycle on the streets or highways of the City to hitch or otherwise attach himself onto other moving vehicles.
(Ord. No. 19-139 § 137)

*__Cross reference—__See also § 11.40.090.

Sec. 11.48.160. Bicycles and human-powered vehicles on sidewalks.

(a) A person operating a bicycle upon and along a sidewalk, or across a roadway upon and along a crosswalk, shall yield the right-of-way to any pedestrian and shall give an audible signal before overtaking and passing such pedestrian.

(b) A person operating a vehicle by human power upon and along a sidewalk or across a roadway upon and along a crosswalk, shall have all the rights and duties applicable to a pedestrian under the same circumstances.

(c) No bicycle shall be ridden upon sidewalks in the central business district except in designated areas.

(d) Subsections (a) and (c) of this Section shall not apply to members of the Wichita Police Department in and during the performance of their lawful duties.
(Ord. No. 42-489 § 1)

Sec. 11.48.170. Parking of bicycles.

It is unlawful for any person to park or leave a bicycle on public property where such bicycle blocks pedestrian travel or presents a traffic hazard.
(Ord. No. 35-678 (part); Ord. No. 48-754 § 5, 6-22-2010)

Sec. 11.48.175. Impounding bicycles.

Bicycles shall be impounded to the police department or to any other place of safety:

(a) When such bicycle is abandoned;

(b) When such bicycle is reported or determined to be stolen and is recovered; or

(c) When such bicycle is left parked on public property where that bicycle blocks pedestrian travel or presents a traffic hazard.

A bicycle impounded by the police department shall not be released until the bicycle has been investigated and the rightful owner is found and shows proof of ownership.
(Ord. No. 32-708 (part); Ord. No. 48-754 § 6, 6-22-2010)

Sec. 11.48.180. Sale of unclaimed or impounded bicycles.

Whenever a bicycle has been impounded for a period of thirty days and no claim of ownership or the right to possession thereof has been made and established to the satisfaction of the police department, such bicycle may be sold at public auction or distributed to benefit public welfare at the discretion of the police department after legal publication of the time, date and location of such sale or disposition.
(Ord. No. 32-708 (part); Ord. No. 48-754 § 7, 6-22-2010; Ord. No. 50-291 § 1, 7-26-16)

Sec. 11.48.190. Bicycling under the influence of drugs and/or alcohol.

(a) No person shall ride or attempt to ride a bicycle on any sidewalk, street, roadway, highway, or public path set aside for the exclusive use of pedestrian and bicycle traffic, including all public parks and playgrounds or other property under the ownership, jurisdiction or control of the city, the board of park commissioners or any other agency created to provide a public service, while under the influence of an alcoholic beverage or any drug, or under the combined influence of an alcoholic beverage and any drug to a degree which renders such person a hazard.

(b) Any person arrested for a violation of this section may request to have a chemical test made of the person's blood, breath, or urine for the purpose of determining the alcoholic or drug content of that person's blood, and, if so requested, the arresting officer shall have discretion as to the appropriate test to be performed.

(c) Any person, who, within the corporate limits of the city, violates any of the provisions of this chapter shall be guilty of a misdemeanor

and upon conviction shall be punished by a fine not to exceed $500.00, or by six months imprisonment, or by both such fine and imprisonment.
(Ord. No. 50-316 §§ 1, 2, 9-13-16)

Sec. 11.48.200. Penalties for violation of this Chapter.

Any person or representative of a firm covered by this Chapter, if convicted of a violation of any of the provisions of it, shall for the first conviction thereof be punished by a fine of not more than one hundred dollars; for a second such conviction within one year thereafter, such person shall be punished by a fine of not more than two hundred dollars; upon a third or subsequent conviction within one year after the first conviction, such person shall be punished by a fine of not more than five hundred dollars.
(Ord. No. 32-708 (part))

CHAPTER 11.50. ELECTRIC-ASSISTED SCOOTERS

Sec. 11.50.005. Preamble.
Sec. 11.50.010. Electric-assisted scooter operation.
Sec. 11.50.020. Operation of electric-assisted scooter while under the influence of drugs or alcohol.
Sec. 11.50.030. Prohibited parking of electric-assisted scooters
Sec. 11.50.040. Impoundment of electric-assisted scooters.
Sec. 11.50.080. Penalties.
Sec. 11.50.090. Severability.

Sec. 11.50.005. Preamble.

WHEREAS, pursuant to Art. 12, Section 5 of the Kansas Constitution, the City of Wichita is granted Home Rule Authority to pass ordinances not in conflict with the Constitution and laws of the State of Kansas or the law of the United States; and

WHEREAS, the City Council finds that this ordinance is not inconsistent with the provisions of the Constitution and laws of the United States and the State Kansas; and

WHEREAS, the City Council anticipates a profusion of shared electric-assisted scooters being deployed within the City by companies as part of the Dockless Electric-Assisted Scooter Sharing Systems; and

WHEREAS, such profusion and congestion of scooters, particularly in the City's Downtown areas, will produce unique safety and traffic concerns which are not present for scooters owned by private individuals; and

WHEREAS, currently there is no regulation or guidelines regarding the operation of such electric assisted scooters; and

WHEREAS, the City seeks to promote shared mobility in the short and long term to promote greater connectivity, access and quality of life and recognizes shared mobility is essential to improve air quality, reduce motor vehicle traffic and promote equitable and accessible systems of transportation; and

WHEREAS, the City Councils finds it is in the public's interest to establish policies and procedures for electric scooter sharing programs to improve mobility options while protections health, safety and general welfare of individuals and the community at large.
(Ord. No. 51-049, § 6, 6-18-19)

Sec. 11.50.010. Electric-assisted scooter operation.

(a) Except as set forth below, the operation of electric-assisted scooters shall be permitted upon a street, highway or roadway and on designated bicycle and multiuse paths and in designated areas.

(b) It shall be unlawful for any person to operate an electric-assisted scooter on the sidewalk.

(c) It shall be unlawful for any person to operate an electric-assisted scooter on a street with a posted speed limit of forty (40) miles per hour or higher unless there is a bike lane on such roadway.

(d) It shall be unlawful for any person to engage in any activity that interferes with the safe operation of the electric-assisted scooter.

(e) It shall be unlawful for any person to operate an electric assisted scooter in such a manner as to indicate a careless or heedless disregard for the rights or safety or others or in such a manner as to endanger or be likely to endanger any person or property.

(f) Every person riding an electric-assisted scooter upon a street, highway or roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle by this Title except as to special ordinances so designated and except to those provisions of this code which by their nature can have no application.

(g) Every person operating an electric-assisted scooter upon a street, highway or roadway at less than the normal speed of traffic shall ride as near to the right side of the street, highway or roadway as practicable except when:

(1) Preparing to make a left turn at an intersection or into a private drive or roadway; and

(2) Reasonably necessary to avoid conditions including, but not limited to, fixed or moving objects, parked or moving vehicles, bicycles, pedestrians, animals, surface hazards, or narrow width lanes that make it unsafe to continue along the right-hand edge of the street, highway or roadway.

For the purposes of this section, "Narrow width lane" means a lane that is too narrow for a bicycle or stand up electric-assisted scooter and a vehicle to travel safely side-by-side within the lane.

(h) Any person operating an electric-assisted scooter upon a one-way street, highway or roadway with two or more marked traffic lanes shall ride as near to the left side of the roadway as practicable.

(i) Persons riding electric-assisted scooters upon a street, highway, or roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles or electric-assisted scooters.

(j) No electric-assisted scooter shall be used to carry more persons at one time than the number for which it is designed or equipped.

(k) It shall be unlawful for any person while riding an electric-assisted scooter on the streets, highways, bicycle or multiuse paths of the City, to hitch or otherwise attach him or herself onto other moving vehicles.

(l) A person operating an electric-assisted scooter across a street, highway or a roadway or along a crosswalk shall yield the right of way to any pedestrian and shall give the audible signal before overtaking and passing such pedestrian.

(m) Any person operating an electric-assisted scooter across a roadway or along a crosswalk shall have all the rights and duties applicable to a pedestrian under the same circumstances.

(n) It shall be unlawful for any person to operate an electric-assisted scooter at nighttime without operation of a lamp on the front which emits a white light visible from a distance of at least 500 (five hundred) feet to the front and with a red reflector on the rear of a type approved by the Secretary of Transportation which shall be visible from all distances from 100 (one hundred) feet to 600 (six hundred) feet to the rear when directly in front of lawful lower beams of headlamps on a motor vehicle. A lamp emitting a red light visible from a distance of 500 (five hundred) feet to the rear may be used in addition to the red reflector.

As used in this section, nighttime means any time from a half hour before sunrise, or at any other time when due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the streets, highway or roadways are not clearly discernable at a distance of 1000 (one thousand) feet ahead.

(o) It shall be unlawful for any person to operate an electric-assisted scooter at a speed in excess of twenty (20) miles per hour.

(p) Vehicle registration and driver's license shall not be required for operation of an electric-assisted scooter.
(Ord. No. 51-049, § 7, 6-18-19; Ord. No. 52-367, § 1, 4-23-24)

Sec. 11.50.020. Operation of electric-assisted scooter while under the influence of drugs or alcohol.

(a) No person shall ride or attempt to ride an electric-assisted scooter on any sidewalk, street, roadway, highway, or public path set aside for the exclusive use of pedestrian and bicycle traffic, including all public parks and playgrounds or other property under the ownership, jurisdiction or control of the city, the board of park commissioners or any other agency created to provide a public service, while under the influence of an alcoholic beverage or any drug, or under the combined influence of an alcoholic beverage and any drug to a degree which renders such person a hazard.

(b) Any person arrested for a violation of this section may request to have a chemical test made of the person's blood, breath, or urine for the purpose of determining the alcoholic or drug

content of that person's blood, and, if so requested, the arresting officer shall have discretion as to the appropriate test to be performed.

(c) Any person, who, within the corporate limits of the city, violates any of the provisions of this chapter shall be guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed $500.00, or by six months imprisonment, or by both such fine and imprisonment.
(Ord. No. 51-049, § 8, 6-18-19)

Sec. 11.50.030. Prohibited parking of electric-assisted scooters

(a) It is unlawful for any person to park or leave an electric-assisted scooter on public property where such electric-assisted scooter blocks pedestrian's travel or presents a traffic hazard.

(b) It is unlawful for any person to park or leave an electric-assisted scooter in the area adjacent to or within the following areas:

1. Transit zones, including bus stops, shelters, passenger waiting areas and bus layover and staging zones, except at existing bicycles racks;
2. Loading zones;
3. Disabled parking zones;
4. Curb ramps;
5. Driveways and driveway approaches;
6. Motor Vehicle parking spaces;
7. Motor vehicle driving lanes or bicycle lanes; and
8. Entrances to private property or driveways.

(c) It is unlawful for any person to park or leave an electric-assisted scooter in any manner or to impede or interfere with the access to or from any building.
(Ord. No. 51-049, § 9, 6-18-19)

Sec. 11.50.040. Impoundment of electric-assisted scooters.

Electric-assisted scooters may be impounded or taken to any other place of safety by the police department or another authorized city representative when:

(a) The electric-assisted scooter is reported or determined to be stolen and is recovered; or

(b) The electric-assisted scooter is abandoned; or

(c) The electric-assisted scooter is left on public property where that scooter blocks pedestrian travel or presents a traffic hazard.

An impounded electric-assisted scooter shall not be released by the City until all necessary impound fees have been paid and the rightful owner is found and shows proof of ownership.
(Ord. No. 51-049, § 10, 6-18-19)

Sec. 11.50.080. Penalties.

Except as otherwise provided, the Administrative Municipal Court Judge shall establish a schedule of fines to be imposed for violations of this Chapter.
(Ord. No. 51-049, § 11, 6-18-19)

Sec. 11.50.090. Severability.

The provisions of this ordinance are severable and should any such provision be declared unconstitutional or unenforceable, such declaration shall not affect any of the remaining provisions hereof.
(Ord. No. 51-049, § 11, 6-18-19)

CHAPTER 11.51. OPERATION OF GOLF CARTS

Sec. 11.51.010. Definitions.
Sec. 11.51.020. Golf cart operations prohibited.
Sec. 11.51.050. Valid driver's license required age restriction.
Sec. 11.51.060. Insurance required.
Sec. 11.51.070. Golf cart operation requirements.
Sec. 11.51.080. Exclusions.
Sec. 11.51.090. Penalty.

Sec. 11.51.010. Definitions.

The following words, as used in this Chapter, have the meanings set forth below:

(a) "Golf Cart" means a motor vehicle as defined by Section 11.04.117. Such term shall not include All-Terrain Vehicles "ATV" as defined by Section 11.04.007 or K.S.A. 8-1402a, Micro Trucks as defined by Section 11.04.157 or K.S.A. 8-1494 or Work-Site Utility Vehicle "UTV" as defined by Section 11.04.405 of K.S.A. 8-1493.

(b) "Roadway" means the portion of a highway improved, designed, or ordinarily used for vehicular travel, exclusive of the berm or shoulder. In the event a highway includes two or more separate roadways, the term "Roadway" as used herein shall refer to any such roadway separately, but not to all such roadways collectively.

(c) "Slow-Moving Vehicle Emblem" has the same meaning as contained in K.S.A. 8-1717, and amendments thereto for purposes of this ordinance.
(Ord. No. 52-633, § 5, 3-25-25)

Sec. 11.51.020. Golf cart operations prohibited.

It shall be unlawful for any person to operate a Golf Cart:

(a) On any state highway, federal highway, or interstate highway within the corporate limits of the City of Wichita, including but not limited to: Interstate Highway I-135, Interstate Highway I-35, Interstate Highway I-235, Kansas Highway 96, Kansas Highway 15, Kansas Highway 42, Kansas Highway 254, and Kansas Highway 54. A Golf Cart shall not be used to cross any such highway.

(b) On any street or roadway with a speed limit on such street or roadway which exceeds thirty (30) miles per hour or more.

(c) Golf carts may cross roadways with speed limits exceeding thirty (30) miles per hour, but only at controlled intersections.

(d) On any sidewalk, jogging path, trail, or any location normally used for pedestrian traffic.

(e) On any bike trail, or any on-street bike lane or other location which is marked in a manner to designate its use by bicyclists.

(f) On or across public or private property without permission of the owner(s).
(Ord. No. 52-633, § 6, 3-25-25)

Sec. 11.51.050. Valid driver's license required age restriction.

(a) No person shall operate a Golf Cart on any street or roadway within the corporate limits of the City unless such person has a valid non-restricted driver's license.

(b) No person shall operate a Golf Cart on any street, roadway or sidewalk unless the operator is sixteen (16) years of age or older.

(c) No person shall knowingly allow the operation of a Golf Cart by an individual under 16 years or age or an individual without a valid driver's license on any street or roadway within the corporate limits of the City.

(d) Violation of Subsection (a) is a misdemeanor. Any person convicted of a violation of Subsection (a) shall be sentenced to a term of imprisonment of not more than six months and/or a $1,000.00 fine or both such fine and imprisonment.
(Ord. No. 52-633, § 7, 3-25-25)

Sec. 11.51.060. Insurance required.

(a) Every owner, driver or operator of a Golf Cart operated upon the public highways, streets, roads and alleys within the corporate limits of the City of Wichita, Kansas, shall provide liability coverage in accordance with Section 11.13.010 of the Code of the City of Wichita, and amendments thereto, and the Kansas Automobile Injury Reparations Act, K.S.A. 40-3101 et seq., and amendments thereto, upon request to a law enforcement officer.

(b) Any person convicted of violating any of the provisions of this section shall be deemed guilty of a misdemeanor and shall be punished by a mandatory fine of not less than three hundred dollars nor more than one thousand dollars or by imprisonment for not more than six months, or by both such fine and imprisonment. Any person convicted of violating any of the provisions of this section within three years of any such prior conviction shall be deemed guilty of a misdemeanor and shall be punished by a fine of not less than eight hundred dollars nor more than two thousand five hundred dollars or by imprisonment for not more than one year, or by both such fine and imprisonment.
(Ord. No. 52-633, § 8, 3-25-25)

Sec. 11.51.070. Golf cart operation requirements.

It shall be unlawful for any operator of a Golf Cart to operate a Golf Cart on a city street:

(a) Between sunset and sunrise unless such vehicle is properly equipped with: (1) lights as required by state law for motorcycles and (2) a properly mounted slow-moving vehicle emblem as required by K.S.A. 8-1717 and amendments thereto. The Slow-Moving Vehicle Emblem shall be mounted and displayed in compliance with K.S.A 8-1717 and amendments thereto;

(b) Fail to operate a Golf Cart to the extreme right of the roadway;

(c) Fail to yield to all vehicular, bicycle and pedestrian traffic;

(d) Fail to comply with the provisions of Chapter 11 of the Code of the City of Wichita. Persons operating a Golf Cart on streets, roads, alleys or any roadway are subject to all the duties applicable to the driver of a vehicle by the traffic provisions of Title 11 applicable to the driver of a vehicle, except as to special regulations in this Chapter except as to those provisions of law and ordinances which by their nature are inapplicable to such persons.

(e) Utilize the Golf Cart as a taxi or bus or for the commercial carrying of passengers or the hauling of freight.

(f) The number of occupants allowed on a golf cart shall be limited to the number of seats which are factory installed. Bench seats shall be limited to three (3) people.

(g) Occupants may not ride or sit in an area not designated or intended for use of passengers when the vehicle is in motion. Passengers are not allowed to ride on the lap of the operator or another passenger.

(h) Operators shall not allow any passenger to ride or sit in an area not designated or intended for use of passengers when the vehicle is in motion.

(i) It shall be unlawful for any person to operate a Golf Cart on any public roadway within the corporate limits of the city unless such vehicle is equipped with safety equipment that meets the equipment requirements under Article 17 of Chapter 8 of the Kansas Statutes Annotated and amendments thereto including, but not limited to:

(1) Stop Lamps;

(2) Tail Lamps;

(3) Rear Reflector;

(4) Brakes; and

(5) At least one functioning rear view mirror.

(Ord. No. 52-633, § 9, 3-25-25)

Sec. 11.51.080. Exclusions.

(a) The provisions of this Chapter are not applicable to the operation of any Golf Cart, ATV, Micro-Utility Truck or Work-Site Utility Vehicle or "UTV" by governmental entities in the course of any authorized duties.

(b) The provisions of this Chapter are not applicable to the operation of Golf Carts, ATV, Micro-Utility Truck or Work-Site Utility Vehicle "UTV" which are being operated on a closed street, alley or roadway as part of a licensed community event authorized by Section 3.11.205 of the Code of the City of Wichita.

(c) The provisions of this Chapter are not applicable to the operation of Golf Carts utilized solely on personal property, including public and private golf courses, which are not operated on the streets of the City of Wichita.
(Ord. No. 52-633, § 10, 3-25-25)

Sec. 11.51.090. Penalty.

Unless otherwise specified, a violation of this Chapter is punishable by a fine of not more than two hundred dollars ($200).
(Ord. No. 52-633, § 11, 3-25-25)

CHAPTER 11.52. PARKING

Sec. 11.52.010. City Traffic Engineer—Powers.
Sec. 11.52.020. Unlawful parking—Exceptions.
Sec. 11.52.025. Enforcement of Section 11.52.020(25).
Sec. 11.52.030. Parking restrictions.
Sec. 11.52.035. Enforcement of Sections 11.52.020(4) and 11.52.030.
Sec. 11.52.040. Parallel parking—Where permitted.
Sec. 11.52.045. Stopping or parking on main trafficway streets prohibited.
Sec. 11.52.050. Diagonal parking—Restrictions.
Sec. 11.52.055. Parking in central core area.
Sec. 11.52.060. Requirements for leaving vehicle.
Sec. 11.52.070. Moving from parking space.
Sec. 11.52.080. Parking in police car zone.
Sec. 11.52.090. Parking in the City Hall parking garage and adjacent parking lot—Permit parking.
Sec. 11.52.110. Parking procedures in lots in the Twenty-First Street area.
Sec. 11.52.115. Parking procedures in lots in the Old Town district.
Sec. 11.52.120. Establishment, designation and posting of municipal parking zones.
Sec. 11.52.130. Unlawful parking within a municipal parking lot or garage within a parking zone-regulated—Penalties.
Sec. 11.52.140. Municipal parking zone regulated by parking meters.
Sec. 11.52.150. Issuance, fees, requirements and display of temporary permits; duties of city officers.
Sec. 11.52.160. Parking in reserved parking areas within parking zones-regulated—Permits.
Sec. 11.52.170. Collectors.
Sec. 11.52.180. Appointment of special officers by City Manager.

Sec. 11.52.010. City Traffic Engineer—Powers.

(1) The City Traffic Engineer is authorized and directed to designate no-parking zones and restricted parking zones, taxicab stands, police car parking zones and parking zones-regulated consistent with public interest, convenience and necessity upon the streets and alleys of the city.

(2) The City Traffic Engineer is further authorized and directed to establish and designate the times and dates of enforcement for the parking of motor vehicles in parking zones-regulated and the restrictions by time or otherwise to be placed upon restricted parking zones-regulated where the same is deemed to be in the public interest.

(3) The City Traffic Engineer is further authorized to establish and designate the appropriate fees for parking in on-street and municipal off-street parking spaces, parking lots and parking garages (parking zones-regulated). The City Traffic Engineer shall utilize and duly consider information and advice from any contracted parking consultant in developing appropriate fee schedules. Fee schedules and parking zones-regulated designated pursuant to this Title, shall be based in part upon the cost of installation, maintenance and regulation of the lot and shall be established by the City Traffic Engineer with approval by the City Manager. Said fee schedules shall remain in effect until modified by the City Council.

(4) The City Traffic Engineer shall appropriately post or cause to be posted by official traffic control devices the no-parking zones, restricted parking zones and parking zones-regulated and give notice of the parking fees and potential penalties for violations. The presence of a parking meter in any form shall be sufficient notice that the parking area at that location is a parking zone—regulated.

(5) The time limit or other restriction placed upon any parking area shall become effective when the time limit or other restriction on parking is designated by an official traffic control device or signs erected upon the street or alley affected. The time limit placed upon parking meters shall become effective when such limit is designated on the respective parking meter or meters.

(6) To be effective, the time limits or other restrictions placed upon any parking zone—regulated shall be posted on an official traffic control device or devices erected upon the street or alley affected. The time allowing authorized parking for any parking space shall start and end when such limits are designated on the respective parking meter or meters by dial and flag mechanisms, receipt, or other means.

(7) All actions of the City Traffic Engineer under this Chapter shall be subject to the review and approval of the City Manager.

(Ord. No. 39-098 § 1; Ord. No. 52-326, § 4, 1-9-24)

Editor's note—Ord. No. 52-326, § 4, adopted Jan. 9, 2024, amended the title of § 11.52.010 to read as herein set out. The former § 11.52.010 title pertained to time limits.

Sec. 11.52.020. Unlawful parking—Exceptions.

It is unlawful, except when necessary to avoid conflict with other traffic or in obedience to traffic regulations or the directions of traffic control devices or a police officer:

(1) For any person or operator to park on any street, or alley in the city without paying the posted fee or for a longer time than shown on an official traffic control device or parking meter stating the maximum period for parking. It is unlawful for any vehicle to be parked on the same side of the street in the same block for a period or periods of time, the total of which is greater than the period of time so designated for parking on such street;

(2) For any person or operator, other than the operator of a taxicab or U.S. postal vehicle, to park in any taxicab stand when the same has been designated and marked as such;

(3) For any person or operator to park on any street, parking lot, or parking structure, whether private or public, at any time in any zone designated as a no-parking zone or to park a vehicle other than the model authorized in any zone that prohibits a certain model or size of vehicle;

(4) For any person or operator to park a motor vehicle on a sidewalk or in a sidewalk area;

(5) For any person or operator to park a motor vehicle in front of or within the approach to a public or private driveway or alley, or within eight feet of the line formed by the extension of either edge of the public or private driveway or alley;

(6) For any person or operator to stand or park a motor vehicle within an intersection;

(7) For any person or operator to park a motor vehicle within fifteen feet of a fire hydrant, provided such place is not in a parking zone-regulated;

(8) For any person or operator to stand or park a motor vehicle on a crosswalk;

(9) For any person or operator to stand or park a motor vehicle within twenty feet of a crosswalk at an intersection, not in a parking zone—regulated;

(10) For any person or operator to stand or park a motor vehicle within thirty feet of the approach of any flashing beacon, stop sign or official traffic signal located at the side of a roadway, not in a parking zone—regulated;

(11) For any person or operator to stand or park a motor vehicle between a safety zone and the adjacent curb or within thirty feet of points on the curb immediately opposite the ends of a safety zone, unless the City Traffic Engineer indicates a different length by signs or markings;

(12) For any person or operator to park a motor vehicle within fifty feet of the nearest rail of a railroad crossing or to park on or within six feet of a railroad track lying within a street;

(13) For any person or operator to stand or park a motor vehicle within twenty feet of the driveway entrance to any fire station, or on the side of the street opposite the entrance to any fire station within seventy-five feet of such entrance when designated by an official traffic control device;

(14) For any person or operator to stand or park a motor vehicle alongside or opposite any street excavation or obstruction when such stopping, standing or parking would obstruct traffic;

(15) For any person or operator to stand or park a motor vehicle on the roadway side of any vehicle stopped or parked at the edge or curb of a street;

(16) For any person or operator to stand or park a motor vehicle upon any bridge or other elevated structure upon a highway or within a highway tunnel;

(17) For any person or operator to move a motor vehicle not owned by such person into any of the above prohibited areas, into a no-parking zone, or away from a curb when such distance is unlawful;

(18) For any person or operator to park a motor vehicle on any street, alley, or right of way in the city for the purpose of advertising;

(19) For any person or operator of a motor vehicle to stop, stand, or park such vehicle for the purpose of loading or unloading children where such children are going to or returning from school, except upon the side of the street where the school is located;

(20) (a) For any person or operator to stand or park a motor vehicle in an alley except in the case of a truck which shall be permitted to park in any alley while actually engaged in loading or unloading, or for a period of time not to exceed thirty minutes; provided, that such truck shall not be parked or permitted to stand in any alley in such a manner or under such conditions as to leave available less than ten feet of width of the alleyway for a free movement of vehicular traffic, except that in alleys with less than sixteen feet of width for the free movement of vehicular traffic, trucks shall be parked either with the right wheels within six inches of a curb, where there is a curb or the right side of the vehicle within six inches of abutting buildings or loading docks, where no curb is provided; and

(b) For any person or operator to stand or park a motor vehicle in the Old Town overlay zoning district in those alleys which are not designated for parking by the City Traffic Engineer by appropriate signs, provided that only one side of an alley may be designated for parking and, provided further, that such alleys may be closed from time to time under the same procedure as used for street closures;

(21) For any person or operator to stand, or park any motor vehicle upon a street other than an alley in such a manner or under such conditions as to leave available less than ten feet of the width of the roadway for free movement of vehicular traffic;

(22) For any person or operator to park a motor vehicle on any street or alley in the City for the primary purpose of displaying it for sale;

(23) For any person or operator to park a motor vehicle on any street or alley in the City for the primary purpose of washing, greasing or repairing such vehicle except repairs necessitated by an emergency;

(24) For any person or operator, except when necessary for the loading or unloading of passengers, property, or merchandise, or the performance of services at a residence, to park a truck as defined in 11.04.385, a bus, recreational vehicle, tractor, road tractor, farm tractor, trailer, semitrailer or commercial vehicle as defined in Subsection (24)(a) of this section, on any street in a residential district, as defined in Section 11.04.275, for longer than two hours without having either a Use of Street Permit or a Use of Right of Way Permit issued under Chapter 10. In any twenty-four hour period, it is unlawful for any such vehicle to be parked on the same side of the street, in the same block, for a period or periods of time, the total of which is greater than two hours;

(a) As used in this section, "commercial vehicle" means any truck, van, panel truck, delivery van, trailer, semitrailer or pole trailer drawn by a motor vehicle, which vehicle is designed, used or maintained for the transportation of persons or the delivery of property for hire, compensation, profit or in the

furtherance of any commercial enterprise. The term "commercial vehicle" does not include vehicles typically used for passenger or commuting purposes which have a gross weight of twelve thousand pounds and under or motor vehicles which are licensed and registered as a passenger vehicle.

(25) (a)

(i) For any person or operator to stand or park a vehicle, as defined in K.S.A. 8-126 and amendments thereto, in any parking space designated as accessible parking without having on their person a current and valid disabled identification card or a state or county receipt for a temporary placard, and properly displaying a current and valid special license plate, permanent placard, disabled veteran license plate, or temporary placard issued pursuant to K.S.A. 8-161 or K.S.A. 8-1,125, and any amendments thereto, and such vehicle is actually being operated by or used for the transportation of a disabled person or disabled veteran. Only "Disabled Veteran" plates, not merely "Veteran" plates, are valid for using accessible parking.

(ii) For the purposes of this section, permanent or temporary placards must be suspended from the front windshield rearview mirror of a vehicle utilizing a parking space reserved for persons with disabilities so as to be maximally visible from the outside of the vehicle. Only when there is no rearview mirror shall the placard be displayed on the dashboard. Special license plates or disabled veteran license plates must be displayed on the vehicle in compliance with K.S.A. 8-133, and any amendments thereto.

(b) For any person or operator to stand or park a vehicle, as defined in K.S.A. 8-126 and amendments thereto, so that it blocks access to a designated accessible parking space, access aisle, or access area. For purposes of this subsection, "access aisle" shall be defined to be that area of whatever dimension or configuration immediately adjacent to a designated accessible parking space that is marked in any manner indicating it is to be used in conjunction with such designated disabled accessible parking space. "Access area" shall be defined to be that area of whatever dimension or configuration immediately adjacent to a designated accessible parking space that is marked in any manner indicating it is to be used in conjunction with such disabled accessible parking space.

(c) Violation of Subsections (25)(a) or (25)(b) of this Section is a misdemeanor punishable by a fine of not less than one hundred dollars.

(d) For any person or operator to stand or park a vehicle, as defined in K.S.A. § 8-126 and amendments thereto, in any parking space designated as accessible parking without properly displaying, as required by Subsection (25)(a)(ii) of this section, a current and valid special license plate, permanent placard, disabled veteran license plate, or temporary placard issued to such person or operator pursuant to K.S.A. § 8-161 or K.S.A. § 8-1,125, and any amendments thereto, and such vehicle is actually being

operated by or used for the transportation of a disabled individual or disabled veteran.

(e) Violation of Subsection (25)(d) of this section is a misdemeanor punishable by a fine of not less than fifty dollars.

(f) Persons operating vehicles that meet the requirements set forth in Subsection (25)(a) of this section may back into public parking spaces or park diagonally in two regular parking spaces if there are no accessible parking spaces available.

(g) Public and private accessible parking spaces shall conform to the requirements set forth in K.S.A. § 8-1,128, the Wichita Accessible Parking standards, and the federal Manual on Uniform Traffic Control, current edition.

(h) The provisions of Subsections (25) and (26) of this section shall be enforced on public and private property, and shall be applicable twenty-four hours a day. Private security personnel shall have authority to issue citations on private property that is under the control of such private security personnel's employer.

(i) Current and valid official identification devices issued to a person with a disability by any other state, district, territory or political subdivision in conformity with federal law shall be recognized as acceptable identification for purposes of Subsection (25)(a) of this section, except those issued to persons who have been residents of Kansas for at least sixty days. Identification devices issued by private entities shall not constitute acceptable identification for the purposes of Subsection (25)(a) of this Section.

(j) The imposition of the fine established in Subsections (25)(c), (25)(e) and (26)(d) of this section shall be mandatory and the court shall not waive, remit, suspend, parole or otherwise excuse or decrease the payment thereof, except that the court may order that the defendant perform community service specified by the court but such an order shall be entered only after the court has required the defendant to file an affidavit of such defendant's financial condition as required by Section 1.04.210(e) and amendments thereto, and the court has found from the information contained in the affidavit that the defendant is financially unable to pay the fines imposed.

(k) For purposes of this section, 11.52.020, "accessible parking space" shall be defined as set forth at K.S.A. § 8-1,128 and any amendments thereto. However, the terms "access ramp" and "access area" shall have the more broadly described definitions found within this Subsection (25) of 11.52.020.

(26) (a) For any person to utilize an accessible parking identification device which has expired or has been revoked or suspended by the secretary of revenue pursuant to Subsection (c) of K.S.A. § 8-1,125, and amendments thereto, or K.S.A. § 8-1,130b, and amendments thereto;

(b) For any person to utilize an accessible parking identification device issued to another person, agency or business, to park in any parking space designated as accessible parking or to otherwise utilize the parking privileges granted to persons with disabilities in K.S.A. 8-1,126, and amendments thereto, except when transporting or arriving to transport a person with a disability to whom or for whom the identification device was issued;

(c) For any person to display or cause or permit to be displayed, or to have

in possession any accessible parking placard or accessible parking identification card knowing the same to be fictitious or to have been canceled, revoked, suspended or altered;

(d) A violation of Subsection (26)(a), (26)(b) or (26)(c) of this section is a misdemeanor punishable by a fine of not less than one hundred dollars and no more than three hundred dollars.

(27) (a) For any person to abandon, park or leave unattended a vehicle on the property of another unless authorized by the owner or person in charge of such property to do so. Provided, however, that this subsection shall apply only when such property is clearly and visibly marked by a sign or signs having lettering of at least one and one-half inches high and one-half inch wide, specifically indicating that unauthorized parking is prohibited and further clearly and visibly marked by a sign or signs with lettering of at least one inch high and three-eighths inch wide indicating that unauthorized vehicles will be towed away at the owner's expense. For signs required hereunder, the provisions of Chapter 24.04 of this Code shall have no application.

(b) In any proceeding for the violation of this section, the registration plate displayed upon the motor vehicle in violation shall constitute in evidence a prima facie presumption that the owner of such motor vehicle was the person who parked or placed such motor vehicle at the place where the violation occurred.

(28) For any person to park in front of the entrance of any place where mail is received or within eight feet of a mailbox during the hours of 8:00 a.m. and 5:00 p.m., except Sundays.

(29) For any person to park in a parking zone—regulated with the vehicle backed into the parking space:

(a) Vehicles shall be parked with the front of the vehicle headed toward the front of the parking space;

(b) This Subsection 29 shall not apply to persons displaying and holding correct and valid disability identification as defined at Subsection 25(a)(i) of this Section.

(30) This section is specific only to parking citations and is not intended to limit when or how a private property owner shall remove unauthorized vehicles from private property.

(31) For any person to leave an unoccupied vehicle parked continuously upon any street of the city for forty-eight hours or more.

(a) The provisions of this section may not be defeated by a mere location change of any offending vehicle on the same side of the street within the same block;

(b) The offending vehicle may be ticketed for the violation or towed pursuant to Section 11.97.010(b).

(Ord. No. 46-550 § 1; Ord. No. 47-750, § 1, 2-5-08; Ord. No. 50-896, § 6, 11-27-18; Ord. No. 52-326, § 5, 1-9-24)

Sec. 11.52.025. Enforcement of Section 11.52.020(25).

(a) The City of Wichita accessible parking patrol is a volunteer program that is hereby created to assist the Wichita police department, identify violations pertaining to unlawful parking within accessible parking areas, as well as those who unlawfully block access zones, in violation of the Code of the City of Wichita, subsection (25) of Section 11.52.020, and amendments thereto.

(b) The City of Wichita accessible parking patrol program shall be maintained, supervised, and operated by the chief of police or his/her designee.

(c) The chief of police or his/her designee shall create policies and procedures for operation and supervision of the City of Wichita accessible parking patrol program.

(d) Volunteers of the City of Wichita accessible parking patrol program shall be given the authority to take photographs of violations pertaining to accessible parking areas and blocking access areas, in violation of the Code of the City of Wichita, subsection (25) of Section 11.52.020, in accordance with the policies and procedures adopted by the chief of police.

(e) Upon issuance of a citation by a law enforcement officer or special officer as provided in the Code of the City of Wichita, subsection (b) of Section 11.16.040, for a violation as contemplated by this section, service of the citation shall be by first class mail.

(f) A sum of one dollar of the fines collected for violation of subsection (25) of Section 11.52.020 and amendments thereto, shall be remitted to the Wichita police department for program expenses.
(Ord. No. 46-573 § 1)

Sec. 11.52.030. Parking restrictions.

(a) It is unlawful for any person or operator to park a motor vehicle on any portion of the required front yard of any lot within the city.

(b) It is unlawful for any person or operator to park a motor vehicle on any portion of the required side yard of any lot within the city.

(c) It is unlawful for any person or operator to park a motor vehicle on an unpaved surface.

(1) Parking surfaces shall be paved as required in Section 28.04.143 of this Code.

(Ord. No. 41-522 § 6)

Sec. 11.52.035. Enforcement of Sections 11.52.020(4) and 11.52.030.

In addition to law enforcement officers, the Office of Central Inspection of the City of Wichita, and the authorized representatives of such department shall be responsible for the enforcement of Sections 11.52.020(4) and 11.52.030 of the Code of the City of Wichita.
(Ord. No. 47-896, § 1, 5-20-08)

Sec. 11.52.040. Parallel parking—Where permitted.

On all streets, alleys and public ways of the city, except where diagonal parking is permitted by this title or other ordinance, motor vehicles shall be parked parallel to the curb in the manner set forth by Section 11.04.205, except that parallel parking of motor vehicles with the left-hand wheels within twelve inches of the left-hand curb is permitted on any street or portion of street which has been designated and established by this title or other ordinance as a one-way street.
(Ord. No. 29-319 § 112)

Sec. 11.52.045. Stopping or parking on main trafficway streets prohibited.

It is unlawful for any person or operator to stop or park a motor vehicle on any main trafficway as designated by Section 11.96.120 of this Code. For the purposes of this section no signs are required for enforcement of this section.
(Ord. No. 41-754 § 2)

Sec. 11.52.050. Diagonal parking—Restrictions.

(a) Diagonal parking of motor vehicles on the streets is permitted on cutbacks on streets not designated as through streets and as designated by official traffic control devices provided, however, that no motor vehicle which has an overall length of vehicle and load in excess of eighteen feet shall be parked diagonally upon such streets.

(b) Subject to 11.52.020(25)(f), parking of motor vehicles in parking zones-regulated shall be with the front wheels next to the curb at right angles;

provided, however, that no motor vehicle which has an overall length of vehicle and load exceeding eighteen feet shall be parked in parking zones-regulated.
(Ord. No. 50-642, § 5, 12-19-17; Ord. No. 52-326, § 6, 1-9-24)

Editor's note—Ord. No. 50-642, § 5, adopted Dec. 19, 2017, amended § 11.52.050 in its entirety to read as herein set out. Former § 11.52.050 pertained to diagonal parking—where permitted and derived from Ord. No. 40-855 § 1.

Sec. 11.52.055. Parking in central core area.

(a) The central core area shall include:

(1) The north and south sides of Douglas Avenue from the east bank of the Big Arkansas River on the west to the railroad overpass on the east;

(2) The east and west sides of St. Francis, Topeka, Emporia, and Broadway Avenues and Market and Main Streets from the south curb line of First Street to the north curb line of William Street; and

(3) The east and west sides of Civic Center Place and Waco Avenue from the south curb line of First Street to the north curb line of Douglas Avenue.

(b) All other provisions of this Code shall be in effect in the central core area and for the purposes of enforcement, the central core area shall be considered to a parking zone-regulated.

(c) The penalty for a violation of this section shall be as set forth in Section 11.92.040 of this Code, and any amendments thereto.
(Ord. No. 44-851 § 8; Ord. No. 52-326, § 7, 1-9-24)

Sec. 11.52.060. Requirements for leaving vehicle.

No person or operator shall leave a semi-trailer or trailer parked or standing on any street or alley in the city unless the trailer or semi-trailer is attached to a truck tractor or other motor vehicle that is capable of moving the trailer or semi-trailer.
(Ord. No. 45-963 § 1; Ord. No. 29-319 § 114)

Sec. 11.52.070. Moving from parking space.

No person shall move a vehicle from a parked position unless and until such movement can be made with due regard for the safety of persons and property.
(Ord. No. 29-319 § 115)

Sec. 11.52.080. Parking in police car zone.

It is unlawful, except when necessary to avoid conflict with other traffic or in obedience to traffic regulations or the directions of traffic-control devices or a police officer, for any person or vehicle operator, other than the operator of a police vehicle, to park in any police car parking zone when the same has been designated and marked as such.
(Ord. No. 31-285 § 1)

Sec. 11.52.090. Parking in the City Hall parking garage and adjacent parking lot—Permit parking.

(a) It is unlawful for any person to park in any parking space, within the City Hall parking garage, unless that person has a valid city parking permit that allows him or her to park in the designated area.

(b) It is unlawful for any person to park within any parking space located within the City Hall parking garage that is marked with a sign indicating use by a particular individual, office, vehicle or entity, unless that person is authorized to park in said marked and signed parking space. Such authorization is to be given by the property management department.

(c) Subject to 11.52.020(25)(f), whenever any parking space is marked with lines, it is unlawful for any person to park any vehicle on or across, or to extend any part of the vehicle over, any line or marking designating the parking space, or to park any vehicle in such a position that it is not entirely within the space designated by such lines or markings.

(d) It is unlawful for any person to park a motorcycle within the City Hall parking garage in any parking space which is not designated as motorcycle parking.

(e) It is unlawful for any person to park an automobile within the City Hall parking garage in any parking area which is designated as motorcycle parking.

(f) In those spaces located within a certain portion of the surface parking lot at City Hall located south of the City Hall parking garage, the property management department is authorized to issue parking permits to representatives of the news media upon payment of a fee of thirty dollars per year.

(g) In those spaces located within a certain portion of the surface parking lot at City Hall located south and west of the City Hall parking garage, it is unlawful for any person to park a vehicle in a parking space in an area reserved for official city vehicle parking or official police vehicle parking unless such person is authorized to park in said marked area. Signs shall be posted to notify the general public as to the areas where public parking is prohibited.

(h) It is unlawful for any person, who has been issued a City Hall parking garage permit, as provided in subsection (a) of this section, to park in any parking space within the portion of the surface lot at City Hall south and west of the City Hall parking garage which is designated as public parking.

(Ord. No. 43-196 § 1; Ord. No. 52-326, § 8, 1-9-24)

Editor's note—Ord. No. 52-326, § 8, adopted Jan. 9, 2024, amended the title of § 11.52.090 to read as herein set out. The former § 11.52.090 title pertained to parking in municipal parking garage and a certain parking lot—permit parking.

Sec. 11.52.110. Parking procedures in lots in the Twenty-First Street area.

The following requirements pertain to the parking lots owned and maintained by the city at 1411 East Twenty-First Street and on the northeast corner of Twenty-First Street and Market Street:

(1) Whenever any parking space is marked with lines designating that space, it shall be unlawful for any individual to park any vehicle on or across, or to extend any part of the vehicle over these lines or markings, or to park any vehicle in such a position that it is not entirely within the space designated by such lines or markings.

(2) Vehicles shall be parked with the front of the vehicle headed towards the front of the parking space and it shall be unlawful for any person to back any vehicle into any parking space.

(Ord. No. 35-005)

Sec. 11.52.115. Parking procedures in lots in the Old Town district.

The following requirements pertain in the parking lots owned and maintained by the city and on the streets and portions of the streets in the Old Town district. For purposes of this section, the Old Town district shall be the area bounded by the railroad right-of-way east of St. Francis Street and west of Washington Street on the west; Douglas Avenue on the south; Washington Street on the east: and Central on the north.

(a) Whenever any parking space is marked with lines designating or defining that space, it is unlawful for any person to park any vehicle on or across, or to extend any part of the vehicle over these lines or markings, or to park any vehicle in such a position that it is not entirely within the space designated or defined by such lines or markings.

(b) Vehicles shall be parked with the front of the vehicle facing towards the front of the parking space and it is unlawful for any person to back into any parking space.

(c) It is unlawful for any person to park at any time in any zone designated as a no-parking zone.

(d) (1) The city traffic engineer is authorized to establish and designate time limits or other restrictions for parking in the Old Town district. Any such time limits or other restrictions shall become effective when the same are set out on an official sign or signs erected in, on or adjacent to parking lots owned and maintained by the city or streets or portions of streets in the Old Town district.

(2) Whenever any parking lot owned and maintained by the city or any street or portion of a street in the Old Town district has been posted by the city traffic engineer with a sign or signs establishing time limits or other restrictions, it is unlawful for any person to park any motor vehicle in such lot or on such street or portion of a street for a period of time greater than the maximum time permitted by such sign or signs or in a manner contrary to any such restriction posted on such sign or signs.

(e) The city traffic engineer is authorized to establish loading and unloading zones for taxis, charter limousines and charter buses in the Old Town district. Any such zones shall be designated by the posting of an official sign or signs identifying the area as a loading zone for taxis, charter limousines and charter buses; prohibiting parking, loading or stopping in such zone by any other vehicles; and establishing the time periods when such restriction shall be in force. For purposes of this section, "charter limousine" shall mean any vehicle for hire which carries more than eight persons. It is unlawful for any person to stop or park any vehicle in a designated loading and unloading zone for taxis, charter limousines and charter buses during the time period established for such zone.

(f) A violation of subsection (e) of this section is a misdemeanor punishable by a fine of not less than one hundred dollars and no more than three hundred dollars.

(Ord. No. 46-609 § 1)

Sec. 11.52.120. Establishment, designation and posting of municipal parking zones.

(1) All lots designed for the parking of motor vehicles which are owned or leased by the City of Wichita at the time of passage of the ordinance codified in this section through 11.52.170, or which are subsequently acquired or developed, and which are not designated by other ordinances, are established as municipal parking zones.

(2) The city traffic engineer is authorized and directed to designate municipal parking zones consistent with the public interest, convenience and necessity.

(3) The city traffic engineer is further authorized and directed to establish and designate time limits, fee schedules, and other restrictions for municipal parking zones not inconsistent with this section through Section 11.52.170 where the same are deemed to be in the public interest. Fee schedules pursuant to this section shall be based in part upon the cost of installation, maintenance and regulation of the lot and shall be established by the city traffic engineer with approval by the city manager. Said fee schedules shall remain in effect until rescinded or codified into the Code of the City of Wichita.

(4) The city traffic engineer is authorized and directed to have lines or markings painted upon lots within municipal parking zones designating individual parking spaces to be used by motor vehicles.

(5) The city traffic engineer shall post or cause to be posted by official signs, the time limits, fees, and other restrictions as applicable in municipal parking zones.

(6) The time limits, fee schedules, and other restrictions placed upon any parking area within a municipal parking zone shall become effective

when said provisions are designated by an official sign or signs erected in, on or adjacent to a municipal parking zone.
(Ord. No. 39-837 § 1)

Sec. 11.52.130. Unlawful parking within a municipal parking lot or garage within a parking zone-regulated—Penalties.

It shall be unlawful for any person or operator to cause, allow, or permit any motor vehicle registered in such person's name, or operated or controlled by such person to:

(a) Park a motor vehicle within in a municipal parking lot or garage within a parking zone-regulated space, without paying the fee designated by the sign or signs, unless such person properly displays a current permit issued, pursuant to Section 11.52.150, and any amendments thereto, valid for the applicable lot; or

(b) Park a motor vehicle within a municipal parking lot or garage within a parking zone-regulated across any line or marking designating a parking space or park a motor vehicle in such a position that it is not entirely within the space designated by such lines or markings; or

(c) Park a motor vehicle within a municipal parking lot or garage in a parking zone-regulated parking space designated as reserved unless such person properly displays a permit issued pursuant to Section 11.52.160, and any amendments thereto, authorizing parking within the particular reserved section or space.

(Ord. No. 42-140 § 2; Ord. No. 52-326, § 9, 1-9-24)

Editor's note—Ord. No. 52-326, § 9, adopted Jan. 9, 2024, amended the title of § 11.52.130 to read as herein set out. The former § 11.52.130 title pertained to unlawful parking within a municipal parking zone—penalties.

Sec. 11.52.140. Municipal parking zone regulated by parking meters.

In any municipal parking zone or for any portion of a municipal parking zone regulated by parking meters, the provisions of Sections 11.68.030, 11.68.040, 11.68.060, 11.68.070, 11.68.080, 11.68.090, 11.68.100 and 11.68.110(b), are deemed to be effective and controlling.
(Ord. No. 39-837 § 3)

Sec. 11.52.150. Issuance, fees, requirements and display of temporary permits; duties of city officers.

(a) Upon payment of the required fee the City Traffic Engineer may issue or cause to be issued a temporary permit which would entitle the holder thereof to use any parking space not otherwise designated as reserved within a particularly described parking zone-regulated without paying the designated fee indicated by the parking meter regulating the authorized parking space. Said temporary permits shall be issued for a definite time period.

(b) Time restrictions and fee schedules for the temporary permits shall be determined by the City Traffic Engineer with approval by the City Manager and shall remain in effect until modified by the City Council.

(c) Temporary permits issued pursuant to this section shall describe the parking zone-regulated for which it is valid and shall be valid only in the so-described parking zone-regulated. Such permits shall be subject to available parking space and shall not in any manner be considered to guarantee the holder a parking space.

(d) The temporary permits issued pursuant to this section shall be displayed pursuant to rules established by the City Manager.
(Ord. No. 39-837 § 4; Ord. No. 52-326, § 10, 1-9-24)

Sec. 11.52.160. Parking in reserved parking areas within parking zones-regulated—Permits.

(a) The City Traffic Engineer with approval of the City Manager may, consistent with public interest, convenience or necessity, designate as reserved any or all parking spaces within a parking zone-regulated.

(b) It shall be unlawful to park in a parking space designated as reserved without the operator possessing and displaying a permit to do so. Signage describing this requirement and the fee for violation shall be adequate notice to the general public of this requirement.

(c) The City Manager may issue or cause to be issued parking permits granting the holder permission to park within a reserved area of a specific parking zone-regulated. Such permits shall identify the parking zone-regulated for which they are valid and may designate a particular parking space within the parking zone-regulated. If the permit designates a particular space within a reserved portion of a parking zone-regulated, the permit is valid for that space only.

(d) Permits issued pursuant to this section shall be displayed pursuant to rules established by the City Manager.

(e) Fee schedules for permits issued pursuant to this section shall be established by the City Manager, based in part upon the cost of installation, maintenance and regulation of the parking zone-regulated for which the permit is issued. Said fee schedules shall remain in effect until modified by the City Council.
(Ord. No. 39-837 § 5; Ord. No. 52-326, § 11, 1-9-24)

Editor's note—Ord. No. 52-326, § 11, adopted Jan. 9, 2024, amended the title of § 11.52.160 to read as herein set out. The former § 11.52.160 title pertained to parking in reserved parking areas of municipal parking areas of municipal parking zones—permits.

Sec. 11.52.170. Collectors.

The City Manager shall designate such collectors as are necessary to collect all moneys deposited in meter boxes or other receptacles designed for the collection of parking fees within parking zones-regulated. Said collectors may be city employees or independent contractors. Independent contractors shall carry commercial general liability insurance which covers any financial loss resulting from negligent or willful misconduct by an employee serving as a collector.
(Ord. No. 52-326, § 12, 1-9-24)

Sec. 11.52.180. Appointment of special officers by City Manager.

The City Manager is authorized to appoint as many Parking Control Officers as he or she may think proper for the purpose of facilitating the enforcement of the city's parking ordinances in parking zones-regulated. Such Parking Control Officers shall have the authority to issue parking citations and/or issue and swear out complaints relating to violations of the city's parking ordinances in and on said parking zones-regulated. The City Manager may only appoint such special officers who are employees and/or agents of any person or company which has a current contract with the city to manage and/or operate such parking zones-regulated and which person or company is obligated under said contract to indemnify the city from any and all liability arising out of its carrying out of said contract and also obligated to carry commercial general liability insurance, and such other coverages and in such amounts as, in the opinion of the City Attorney, reasonably protect the city's interests. Authorized agents of such persons or companies shall be entrusted with the authority given special officers in this Section 11.52.180 without additional action by the City Manager.
(Ord. No. 42-986 § 1; Ord. No. 52-326, § 13, 1-9-24)

CHAPTER 11.56. LOADING AND UNLOADING

Sec. 11.56.010. Establishing zones.
Sec. 11.56.020. How zones are to be used.

Sec. 11.56.010. Establishing zones.

The city traffic engineer is authorized and instructed to designate and establish loading zones and truck loading zones which he deems to be in the public interest and to abolish the same when no longer needed or illegally used. The establishment of such zones shall become effective when such zones are appropriately designated. (Ord. No. 39-099 § 1)

Sec. 11.56.020. How zones are to be used.

It is unlawful:

(1) For any person or operator, other than the operator of a bus or U.S. postal vehicle, to stop or park a motor vehicle in any designated loading zone;

(2) For any person or operator to stop or park in any designated truck loading zone, other than the operator of a truck; it is further unlawful for the operator of a truck to stop or park in such truck loading zone for a period of time longer than is necessary for the expeditious loading and unloading of merchandise, and in no event in excess of fifteen minutes; provided, however, that no loading or unloading of merchandise shall take place from streets located in the congested area of the city as defined in Section 11.04.060, between the hours of four-thirty p.m. and six p.m. on weekdays; provided further, that all motor vehicles may park in truck loading zones between the hours of seven p.m. and seven a.m., and on Sundays and legal holidays;

(3) For any person or operator to stop or park in any designated loading zone for a period of time longer than is necessary for an expeditious loading or unloading of passengers or merchandise, and in no event in excess of fifteen minutes;

(4) For the operator of any tractor-trailer combination or truck having an overall length in excess of twenty-five feet to load or unload in a designated truck loading zone located in the congested area.

(Ord. No. 39-099 § 2; Ord. No. 50-642, § 6, 12-19-17)

CHAPTER 11.60. EQUIPMENT*

Sec. 11.60.010. Driving without proper equipment unlawful.

Sec. 11.60.300. Motorcycles—Riding position.
Sec. 11.60.310. Motorcycles—Operator rights and duties.
Sec. 11.60.320. Motorcycles—Driving rules.
Sec. 11.60.330. Reserved.

*__Cross references—__Ordinance history; Ord. No. 29-319 § 111; Ord. No. 29-378 §§ 1—26.

Sec. 11.60.010. Driving without proper equipment unlawful.

(a) It is a traffic infraction for any person to drive or move, or for the owner to cause or knowingly permit to be driven or moved on any highway, any vehicle or combination of vehicles which is in such unsafe condition as to endanger any person, or which does not contain those parts or is not at all time equipped with such lamps and other equipment in proper condition and adjustment as required in this chapter, or which is equipped in any manner in violation of this chapter, or for any person to do any act forbidden or fail to perform any act required under this chapter.

(b) Nothing contained in this chapter shall be construed to prohibit the use of additional parts and accessories on any vehicle not inconsistent with the provisions of this chapter.

(c) The provisions of this chapter with respect to equipment required on vehicles shall not apply to implements of husbandry, road machinery, road rollers or farm tractors except as specifically made applicable in this act.

(d) The provisions of this chapter with respect to equipment required on vehicles shall not apply to motorcycles or motordriven cycles, except as herein made applicable.
(Ord. No. 39-100 § 1)

Sec. 11.60.020. Headlamps.

(a) Every motor vehicle other than a motorcycle or motor-driven cycle shall be equipped with at least two white headlamps with at least one on each side of the front of the motor vehicle, which headlamps shall comply with the requirements and limitations set forth in this chapter.

(b) Every motorcycle and every motor-driven cycle shall be equipped with at least one and not more than two white headlamps which shall comply with the requirements and limitations set forth in this chapter, except that the headlamp of such motorcycle or motor-driven cycle shall be illuminated at all times while the vehicle is being operated on the streets of the city.

(c) Every headlamp upon every motor vehicle, including every motorcycle and motor-driven cycle, shall be located at a height of not more than fifty-four inches nor less than twenty-four inches to be measured as set forth in subsection (c) of Section 11.60.030, and shall not apply to vehicles mentioned in subsection (b) of Section 11.60.010. (Ord. No. 39-100 § 2)

Sec. 11.60.030. Lighting headlamps—When.

(a) Every vehicle, except as provided in subsection (b), upon a highway within this city shall at all times display lighted head and other lamps and illuminating devices as required for different classes of vehicles, subject to exceptions with respect to parked vehicles.

(1) From sunset to sunrise;

(2) When due to insufficient light or unfavorable atmospheric conditions, including smoke or fog, persons and vehicles on the street or highway are not clearly discernible at a distance of one thousand feet ahead; or

(3) When windshield wipers are in continuous use as a result of rain, sleet, or snow.

(b) Motorcycles, motor-driven cycles and motorized bicycles manufactured after January 1, 1978, shall display lighted head and tail lights at all times that such vehicles are operated on any street or highway.

(c) Whenever in this chapter requirement is declared as to the mounted height of lamps or devices, it means from the center of such lamp or device to the level ground on which the vehicle stands when such vehicle is without a load. (Ord. No. 33-459 (part); Ord. No. 50-319 § 1, 9-13-16)

Sec. 11.60.040. Lights, reflectors on vehicles.

(a) Every motor vehicle or trailer, semitrailer, pole trailer, and any other vehicle which is being drawn at the end of a combination of vehicles, shall be equipped with at least two taillamps mounted on the rear, which when lighted as required in Section 11.60.030, shall emit red light plainly visible from a distance of one thousand feet to the rear, except that passenger cars manufactured or assembled prior to July 1, 1959, shall have at least one taillamp. On a combination of vehicles, only the taillamps on the rearmost vehicle need actually be seen from the distance specified. On vehicles equipped with more than one taillamp, the lamps shall be mounted on the same level and as widely spaced laterally as practicable.

(b) Every taillamp upon every vehicle shall be located at a height of not more than seventy-two inches nor less than fifteen inches.

(c) Either a taillamp or a separate lamp shall be so constructed and placed as to illuminate with a white light the rear registration plate and render it clearly legible from a distance of fifty feet to the rear. Any taillamp or taillamps, together with any separate lamp or lamps for illuminating the rear registration plate, shall be so wired as to be lighted whenever the headlamps or auxiliary driving lamps are lighted.

(d) Every motor vehicle, trailer, semitrailer and pole trailer shall carry on the rear, either as a part of the taillamps or separately, two or more red reflectors meeting the requirements of this section; provided, that vehicles of the types mentioned in Section 11.60.050 shall be equipped with reflectors meeting the requirements of subsection (a) of Section 11.60.070 and subsection (a) of Section 11.60.080.

(e) Every such reflector shall be mounted on the vehicle at a height not less than fifteen inches nor more than sixty inches measured as set forth in subsection (c) of Section 11.60.030, and shall be of such size and characteristics and so mounted as to be visible from all distances within six hundred feet to one hundred feet from such vehicle when directly in front of lawful lower beams of headlamps, except that reflectors on vehicles manufactured or assembled prior to January 1, 1970, shall be visible at night from all distances within three hundred fifty feet to one hundred feet when directly in front of lawful upper beams of headlamps.
(Ord. No. 39-100 § 3)

Sec. 11.60.045. Lights on trucks and other special vehicles.

Sections 11.60.050, 11.60.060, 11.60.070, 11.60.080 and 11.60.090 relating to clearance lamps,

marker lamps and reflectors, shall apply as stated in said sections to vehicles of the type therein enumerated, namely buses, trucks, truck-tractors, motor homes, motor vehicles with mounted truck-campers, and trailers, semitrailers and pole trailers, respectively, when operated upon any highway, and said vehicle shall be equipped as required and all lamp equipment required shall be lighted at the times mentioned in Section 11.60.030. For purposes of the sections enumerated above, a truck-camper when mounted upon a motor vehicle shall be considered part of the permanent structure of that motor vehicle.
(Ord. No. 33-459 (part))

Sec. 11.60.050. Lights on vehicles of excess width or length.

In addition to other equipment required in this chapter, the following vehicles shall be equipped as herein stated:

(a) Buses, trucks, motor homes and motor vehicles with mounted truck-camper, eighty inches or more in overall width:

(1) On the front, two clearance lamps, one at each side, and on vehicles manufactured or assembled after July 1, 1959, three identification lamps meeting the specifications of subsection (f) hereof,

(2) On the rear, two clearance lamps, one at each side, and after July 1, 1959, three identification lamps meeting the specifications of subsection (f) hereof,

(3) On each side, two side marker lamps, one at or near the front and one at or near the rear,

(4) On each side, two reflectors, one at or near the front and one at or near the rear;

(b) Trailers and semitrailers eighty inches or more in overall width, except boat trailers and house trailers for which special permits are required, pursuant to K.S.A. 8-1911:

(1) On the front, two clearance lamps, one at each side,

(2) On the rear, two clearance lamps, one at each side, and on vehicles manufactured or assembled after July 1, 1959, three identification lamps meeting the specifications of subsection (f) hereof,

(3) On each side, two side marker lamps, one at or near the front and one at or near the rear,

(4) On each side, two reflectors, one at or near the front and one at or near the rear,

(c) Truck-tractors: On the front, two cab clearance lamps, one at each side, and on vehicles manufactured or assembled after July 1, 1959, three identification lamps meeting the specifications of subsection (f) hereof;

(d) Trailers, semitrailers and pole trailers thirty feet or more in overall length: On each side, one amber side marker lamp and one amber reflector, centrally located with respect to the length of the vehicle;

(e) Pole trailers:

(1) On each side, one amber side marker lamp at or near the front of the load,

(2) One amber reflector at or near the front of the load.

(3) On the rear-most support for the load, one combination marker lamp showing amber to the front and red to the rear and side, mounted to indicate maximum width of the pole trailer;

(f) Whenever required or permitted by this chapter, identification lamps shall be grouped in a horizontal row, with lamp centers spaced not less than six nor more than twelve inches apart and mounted on the permanent structure of the vehicle as close as practicable to the vertical centerline; provided, that where the cab of a vehicle is not more than forty-two inches wide at the front roof line, a single identification lamp at the center of the cab shall be deemed to comply with the requirements for front identification lamps;

(g) Boat trailers eighty inches or more in overall width:

(1) On each side, at or near the midpoint, one clearance lamp performing the function of both a front and rear clearance lamp,

(2) On each side, two side marker lamps, one at or near the front and one at or near the rear,

(3) On each side, two reflectors, one at or near the front and one at or near the rear.

(Ord. No. 39-100 § 4)

Sec. 11.60.060. Lights and colors.

(a) Front clearance lamps, identification lamps and those marker lamps and reflectors mounted on the front or on the side near the front of a vehicle shall display or reflect an amber color.

(b) Rear clearance lamps, identification lamps and those marker lamps and reflectors mounted on the rear or on the sides near the rear of a vehicle shall display or reflect a red color.
(Ord. No. 33-459 (part))

Sec. 11.60.070. Reflector mounting.

(a) Reflectors, when required by Section 11.60.050, shall be mounted at a height not less than twenty-four inches and not more than sixty inches above the ground on which the vehicle stands, except that if the highest part of the permanent structure of the vehicle is less than twenty-four inches, the reflector at such point shall be mounted as high as that part of the permanent structure will permit.

The rear reflectors on a pole trailer may be mounted on each side of the bolster or load.

Any required red reflector on the rear of a vehicle may be incorporated with the taillamp, but such reflector shall meet all the other reflector requirements of this chapter.

(b) Clearance lamps, so far as is practicable, shall be mounted on the permanent structure of the vehicle in such a manner as to indicate the extreme height and width of the vehicle, except that when rear identification lamps are required and are mounted as high as is practicable, rear clearance lamps may be mounted at optional height, and when the mounting of front clearance lamps results in such lamps failing to indicate the extreme width of the trailer, such lamps may be mounted at optional height, but must indicate as nearly as practicable the extreme width of the trailer. Clearance lamps on truck-tractors shall be located so as to indicate the extreme width of the truck-tractor cab. Clearance lamps and side marker lamps may be mounted in combination if illumination is given as required herein with reference to both.
(Ord. No. 33-459 (part))

Sec. 11.60.080. Size of reflectors.

(a) Every reflector upon any vehicle referred to in Section 11.60.050 shall be of such size and characteristics and so maintained as to be readily visible at nighttime from all distances within six hundred feet to one hundred feet from the vehicle when directly in front of lawful lower beams of headlamps, except that the visibility for reflectors on vehicles manufactured or assembled prior to January 1, 1970, shall be measured in front of lawful upper beams of headlamps. Reflectors required to be mounted on the sides of the vehicle shall reflect the required color of light to the sides, and those mounted on the rear shall reflect a red color to the rear.

(b) Front and rear clearance lamps and identification lamps shall be capable of being seen and distinguished under normal atmospheric conditions at the times lights are required at all distances between five hundred feet and fifty feet from the front and rear, respectively, of the vehicle.

(c) Side marker lamps shall be capable of being seen and distinguished under normal atmospheric conditions at the times lights are required at all distances between five hundred feet and fifty feet from the side of the vehicle on which mounted.
(Ord. No. 33-459 (part))

Sec. 11.60.090. Combination of vehicles.

Whenever motor and other vehicles are operated in combination during the time that lights

are required, any lamp except taillamps which, by reason of its location on a vehicle of the combination, would be obscured by another vehicle of the combination need not be lighted, but this shall not affect the requirement that lighted clearance lamps be displayed on the front of the foremost vehicle required to have clearance lamps, nor that all lights required on the rear of the rearmost vehicle of any combination shall be lighted.
(Ord. No. 33-459 (part))

Sec. 11.60.100. Excessive load size.

Whenever the load upon any vehicle extends to the rear four feet or more beyond the bed or body of such vehicle, there shall be displayed at the extreme rear end of the load at the times specified in Section 11.60.030 two red lamps visible from a distance of at least five hundred feet to the rear, two red reflectors visible at night from all distances within six hundred feet to one hundred feet to the rear when directly in front of lawful lower beams of headlamps and located so as to indicate maximum width, and on each side one red lamp visible from a distance of at least five hundred feet to the side and located so as to indicate maximum overhang. There shall be displayed at all other times on any vehicle having a load which extends beyond its sides or more than four feet beyond its rear, red flags not less than twelve inches square marking the extremities of such load at each point where a lamp would otherwise be required by this section.
(Ord. No. 33-459 (part))

Sec. 11.60.110. Lighting parked vehicles.

(a) Every vehicle shall be equipped with one or more lamps which, when lighted, shall display a white or amber light visible from a distance of one thousand feet to the front of the vehicle, and a red light visible from a distance of one thousand feet to the rear of the vehicle. The location of said lamp or lamps always shall be such that at least one lamp or combination of lamps meeting the requirements of this section is installed as near as practicable to the side of the vehicle which is closest to passing traffic.

(b) Whenever a vehicle is lawfully parked upon a street or highway during the hours between a half hour after sunset and a half hour before sunrise no lights need be displayed upon such parked vehicle.

(c) Whenever a vehicle is parked or stopped upon a roadway or shoulder adjacent thereof, whether attended or unattended, during the hours between a half hour after sunset and a half hour before sunrise and there is insufficient light to reveal any person or object within a distance of one thousand feet upon such highway, such vehicle so parked or stopped shall be equipped with and shall display lamps meeting the requirements of subsection (a) of this section.

(d) Any lighted headlamps upon a parked vehicle shall be depressed or dimmed.
(Ord. No. 39-100 § 5)

Sec. 11.60.120. Bicycle—Lighting.

Every bicycle operated upon the street or highway in the nighttime shall be equipped with a lamp on the front exhibiting a white light visible from a distance of at least five hundred feet to the front and with a lamp on the rear exhibiting a red light visible from a distance of five hundred feet to the rear; except that a red reflector meeting the requirements of this chapter may be used in lieu of a rear light.
(Ord. No. 30-982 § 114)

Sec. 11.60.130. Animal-drawn vehicle lights.

Every vehicle, including animal-drawn vehicles and vehicles referred to in subsection (c) of Section 11.60.020, not specifically required by the provisions of other sections of this chapter to be equipped with lamps or other lighting devices, shall be equipped at all times specified in Section 11.60.030 with at least one lamp displaying a white light visible from a distance of not less than one thousand feet to the front of the vehicle, and also shall be equipped with two lamps displaying red light visible from a distance of not less than one thousand feet to the rear of the vehicle or, as an alterative, one lamp displaying a red light visible from a distance of not less than one thousand feet to the rear and two red reflectors visible

from all distances of six hundred to one hundred feet to the rear when illuminated by the lawful lower beams of headlamps.
(Ord. No. 33-459 (part))

Sec. 11.60.140. Spot lamps—Auxiliary driving, passing and fog lamps.

(a) Spot Lamps. Any motor vehicle may be equipped with not to exceed two spot lamps, and every lighted spot lamp emitting a white light shall be so aimed and used that no part of the high intensity portion of the beam will strike the windshield, or any windows, mirror or occupant of another vehicle in motion. The limitations of this subsection shall not apply to a police vehicle used as an authorized emergency vehicle.

(b) Fog Lamps. Any motor vehicle may be equipped with not to exceed two fog lamps mounted on the front at a height not less than twelve inches nor more than thirty inches above the level surface upon which the vehicle stands and so aimed that when the vehicle is not loaded none of the high intensity portion of the light to the left of the center of the vehicle shall project, at a distance of twenty-five feet ahead, higher than a level of four inches below the level of the center of the lamp from which it comes. Lighted fog lamps meeting the above requirements may be used with lower headlamp beams as specified in subsection (a)(2) of Section 11.60.170.

(c) Auxiliary Passing Lamps. Any motor vehicle may be equipped with not to exceed two auxiliary passing lamps mounted on the front at a height not less than twenty-four inches nor more than forty-two inches above the level surface upon which the vehicle stands. The provisions of Section 11.60.170 shall apply to any combination of headlamps and auxiliary passing lamps.

(d) Auxiliary Driving Lamps. Any motor vehicle may be equipped with not to exceed two auxiliary driving lamps mounted on the front at a height not less than sixteen inches nor more than forty-two inches above the level surface upon which the vehicle stands. The provisions of Section 11.60.170 shall apply to any combination of headlamps and auxiliary driving lamps.
(Ord. No. 39-100 § 6)

Sec. 11.60.150. Stop lamps—Turn signals—Flashing signals.

(a) Any vehicle may be equipped and when required under this chapter shall be equipped with a stop lamp or lamps on the rear of the vehicle which shall display a red or amber light, or any shade of color between red and amber, visible from a distance of not less than three hundred feet to the rear in normal sunlight, and which shall be actuated upon application of the service or foot brake, and which may but need not be incorporated with one or more other rear lamps.

(b) Any vehicle may be equipped, and when required under this chapter shall be equipped, with electric turn signals which shall indicate an intention to turn by flashing lights showing to the front and rear of a vehicle or on a combination of vehicles on the side of the vehicle or combination toward which the turn is to be made. The lamps showing to the front shall be mounted on the same level and as widely spaced laterally as practicable, and when signaling shall emit amber light; provided, that on any vehicle manufactured prior to July 1, 1973, the lamps showing to the front may emit white or amber light, or any shade of light between white and amber. The lamps showing to the rear shall be mounted on the same level and as widely spaced laterally as practicable, and when signaling shall emit a red or amber light or any shade of color between red and amber. Turn signal lamps shall be visible from a distance of not less than five hundred feet to the front and rear in normal sunlight. Turn signal lamps may but need not be incorporated in other lamps on the vehicle.

(c) Every new motor vehicle sold within the city shall be equipped with turn signals meeting the requirements of subsection (b) of this section.
(Ord. No. 33-459 (part))

Sec. 11.60.155. Vehicle hazard warning lamps; warning lamps on police vehicles.

(a) Any vehicle may be equipped with lamps for the purpose of warning the operators of other vehicles of the presence of a vehicular traffic hazard requiring the exercise of unusual care in approaching, overtaking or passing.

(b) Every bus, truck, truck tractor, trailer, semitrailer or pole trailer eighty inches or more in overall width or thirty feet or more in overall length shall be equipped with lamps meeting the requirements of this section.

(c) Vehicular hazard warning signal lamps used to display such warning to the front shall be mounted at the same level and as widely spaced laterally as practicable, and shall display simultaneously flashing amber lights. On any vehicle manufactured prior to January 1, 1969, the lamps showing to the front may display simultaneously flashing white or amber lights, or any shade of color between white and amber. The lamps used to display such warning to the rear shall be mounted at the same level and as widely spaced laterally as practicable, and shall show simultaneously flashing amber or red lights, or any shade of color between amber and red. Such warning lights shall be visible from a distance of not less than five hundred feet in normal sunlight.

(d) Any police vehicle, when used as an authorized emergency vehicle, may be equipped with warning lamps mounted as widely spaced laterally as practicable, either inside such vehicle in front of the rear window or on the roof of such vehicle, and capable of displaying two alternately flashing amber lights to the rear of such vehicle. Such warning lamps may be used in lieu of or in combination with any other vehicular hazard signal lamps used to display such warning to the rear, and shall be visible from a distance of not less than five hundred feet in normal sunlight.
(Ord. No. 43-920 § 1)

Sec. 11.60.160. Side, courtesy, backup and identification lamps.

(a) Any motor vehicle may be equipped with not more than two side cowl or fender lamps which shall emit an amber or white light without glare.

(b) Any motor vehicle may be equipped with not more than one running board courtesy lamp on each side thereof which shall emit a white or amber light without glare.

(c) Any motor vehicle may be equipped with one or more backup lamps either separately or in combination with other lamps, but any such backup lamp or lamps shall not be lighted when the motor vehicle is in forward motion.

(d) Any vehicle eighty inches or more in overall width, if not otherwise required by Section 11.60.050, may be equipped with not more than three identification lamps showing to the front, which shall emit an amber light without glare and not more than three identification lamps showing to the rear which shall emit a red light without glare. Such lamps shall be mounted as specified in subsection (f) of Section 11.60.050.

(e) Any vehicle may be equipped with one or more side marker lamps and any such lamp may be flashed in conjunction with turn or vehicular hazard warning signals. Side marker lamps located toward the front of a vehicle shall be amber and side marker lamps located toward the rear shall be red.
(Ord. No. 33-459 (part))

Sec. 11.60.165. Lamps and lights on authorized emergency vehicles; alternately or simultaneously flashing head lamps.

(a) Except as provided in subsection (b) of this section, every authorized emergency vehicle, in addition to any other equipment required by this chapter, shall be equipped with signal lamps mounted as high and as widely spaced laterally as practicable, which shall be capable of displaying to the front two alternately flashing red lights located at the same level and to the rear two alternately flashing red lights located at the same level, or in lieu thereof, any such authorized emergency vehicle shall be equipped with at least one rotating or oscillating light, which shall be mounted as high as practicable on such vehicle and which shall display to the front and rear of such vehicle a flashing red light or alternate flashes of red and white lights or red and blue lights in combination. All lights required or authorized by this subsection shall have sufficient intensity to be visible at five hundred feet in normal sunlight. Every authorized emergency ve-

hicle may, but need not, be equipped with head lamps which alternately flash from high to low beam or simultaneously flash high to low beam.

(b) A police vehicle when used as an authorized emergency vehicle may, but need not, be equipped with:

(1) Head lamps which alternately flash from high to low beam or simultaneously flash from high to low beam;

(2) Flashing lights specified in subsection (a) of this section, but any flashing lights used on a police vehicle shall be red in color, other than the flashing lights specified in Section 11.60.155, and amendments thereto, rotating or oscillating lights, or alternately flashing head lamps or simultaneously flashing head lamps; or

(3) Rotating or oscillating lights, which may display a flashing red light or alternate flashes of red and blue lights in combination.

(Ord. No. 43-920 § 2)

Sec. 11.60.170. Directing beams.

(a) Except as hereinafter provided, the headlamps or the auxiliary driving lamp or the auxiliary passing lamp or combination thereof on motor vehicles shall be so arranged that the driver may select at will between distributions of light projected to different elevations, and in addition such lamps may be so arranged that such selection can be made automatically, subject to the following limitations:

(1) There shall be an uppermost distribution of light, or composite beam, so aimed and of such intensity as to reveal persons and vehicles at a distance of at least four hundred fifty feet ahead for all conditions of loading.

(2) There shall be a lowermost distribution of light, or composite beam, so aimed and of sufficient intensity to reveal persons and vehicles at a distance of at least one hundred fifty feet ahead; and on a straight level road under any condition of loading none of the high intensity portion of the beam shall be directed to strike the eyes of an approaching driver.

(b) Every new motor vehicle registered in this state which has multi-beam road-lighting equipment shall be equipped with a beam indicator which shall be lighted whenever the uppermost distribution of light from the headlamp is in use, and shall not otherwise be lighted. The indicator shall be so designed and located that when lighted it will be readily visible without glare to the driver of the vehicle so equipped.

(Ord. No. 33-459 (part))

Sec. 11.60.180. Head lamps; use of, exception.

Whenever a motor vehicle is being operated on a roadway or shoulder adjacent thereto during the times specified in Section 11.60.030, and any amendments thereto, the driver shall use a distribution of light, or composite beam, directed high enough and of sufficient intensity to reveal persons and vehicles at a safe distance in advance of the vehicle, subject to the following requirements and limitations:

(a) Whenever the driver of a vehicle approaches an oncoming vehicle within five hundred feet, such driver shall use a distribution of light, or composite beam, so aimed that the glaring rays are not projected into the eyes of the oncoming driver. The lowermost distribution of light or composite beam, specified in subsection (a)(2) of Section 11.60.170 and any amendments thereto, shall be dimmed to avoid glare at all times regardless of road contour and loading.

(b) Whenever the driver of a vehicle approaches another vehicle from the rear, within three hundred feet, except when engaged in the act of overtaking and passing, such driver shall use a distribution of light permissible under this chapter other than the uppermost distribution of light specified in subsection (a)(1) of Section 11.60.170 and any amendments thereto.

(c) The requirements of subsections (a) and (b) of this section shall not apply to autho-

rized emergency vehicles displaying alternately flashing or simultaneously flashing head lamps as provided in Section 11.60.165, and any amendments thereto.

(Ord. No. 43-920 § 3)

Sec. 11.60.190. Number of lamps required.

(a) At all times specified in Section 11.60.030, at least two lighted lamps shall be displayed, one on each side at the front of every motor vehicle except when such vehicle is parked subject to the regulations governing lights on parked vehicles.

(b) Whenever a motor vehicle equipped with headlamps as herein required is also equipped with any auxiliary lamps or a spot lamp or any other lamp on the front thereof projecting a beam of an intensity greater than three hundred candlepower, not more than a total of four of any such lamps on the front of a vehicle shall be lighted at any one time when upon a highway.

(Ord. No. 30-982 § 121)

Sec. 11.60.200. Prohibited lamps, exceptions for certain vehicles, including emergency vehicles and school, church, and day care buses.

(a) During the times specified in Section 11.60.030, and any amendments thereto, any lighted lamps or illuminating device upon a motor vehicle other than headlamps, spot lamps, auxiliary lamps, flashing turn signals, emergency vehicles warning lamps and school bus warning lamps which project a beam of light of an intensity greater than three hundred candlepower shall be so directed that no part of the high intensity portion of the beam will strike the level of the roadway on which the vehicle stands at a distance of more than seventy-five feet from the vehicle.

(b) Except as provided by subsection (e), Section 11.60.165, K.S.A. 8-1720 and K.S.A. 8-1730, and any amendments thereto, no person shall drive or move any vehicle or equipment upon any highway with any lamp or device thereon capable of displaying a red light visible from directly in front of the center thereof, nor shall any vehicle or equipment upon any highway have any lamp or device displaying any color of light visible from directly in front of the center thereof except white or amber or any shade of color between white and amber.

(c) Flashing lights are prohibited on motor vehicles, except as authorized or required in Sections 11.60.150, 11.60.155, 11.60.160(e), 11.60.165 and 11.60.210 of this Code, or in K.S.A. 8.1717,8-1720, 8-1721, 8-1722, 8-1723, 8-1730, 8-1730a, 8-1731 and any amendments thereto.

(d) The flashing lights described in Section 11.60.165 and in K.S.A. 8-1720, 8-1730 and 8-1730a, and any amendments thereto, shall not be used on any vehicle other than an authorized emergency vehicle, or a school bus, church bus or day care program bus, as defined in K.S.A. 8-1730a and any amendments thereto.

(e) A driver for a transportation network company who is logged on to the transportation network company's digital network may be equipped with a lighted device capable of displaying light visible from directly in front of the center of the vehicle. Such lighting device may display:

1. Steady light; and
2. Light of any color, except red.

(f) As used in this section, transportation network company means a corporation, partnership, sole proprietorship or other entity operating in Kansas that uses a digital network to connect transportation network company riders to transportation network company drivers who provide prearranged rides. A transportation network company shall not be deemed to control, direct or manage the personal vehicles or transportation network company drivers that connect to its digital network, except where agreed to by written contract.

(Ord. No. 43-920 § 4; Ord. No. 51-091, § 1, 9-10-19)

Sec. 11.60.210. Highway maintenance equipment—Light requirements.

It is unlawful to operate any snow removal and other highway maintenance and service

equipment on any highway unless the lamps thereon comply with and are lighted when and as required by the standards and specifications adopted by the State Highway Commission, as provided by K.S.A. 8-597a, as amended.
(Ord. No. 30-982 § 123)

Sec. 11.60.220. Brakes.

(a) Every motor vehicle or combination of vehicles other than a motorcycle, when operated upon a highway, shall be equipped with brakes adequate to control the movement of and to stop and hold such vehicle or combination of vehicles, including two separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two wheels. If these two separate means of applying the brake are connected in any way they shall be so constructed that failure to any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels.

Every motorcycle, and bicycle with motor attached, when operated upon a highway shall be equipped with at least one brake, which may be operated by hand or foot.

(b) The service brakes upon any motor vehicle or combination of vehicles shall be adequate to stop such vehicle or vehicles when traveling twenty miles per hour within a distance of thirty feet when upon dry asphalt or concrete pavement surface free from loose material where the grade does not exceed one percent.

Under the above conditions the hand brake shall be adequate to stop such vehicle or vehicles within a distance of fifty-five feet and said hand brake shall be adequate to hold such vehicle or vehicles stationary on any grade upon which operated.

Under the above conditions, the service brakes upon a motor vehicle equipped with two-wheel brakes only, and when permitted hereunder, shall be adequate to stop the vehicle within a distance of forty feet and the hand brake adequate to stop the vehicle within a distance of fifty-five feet.

All braking distances specified in this section shall apply to all vehicles mentioned, whether such vehicles are not loaded or are loaded to the maximum capacity permitted under the state law.

All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the wheels on opposite sides of the vehicles.

Every bicycle shall be equipped with a brake which will enable the operator to make the braked wheels slide on dry, level, clean pavement.
(Ord. No. 30-982 § 124)

Sec. 11.60.225. Compression brakes.

(a) It shall be unlawful for the driver of any motor vehicle to use or cause to be used or operated any compression release engine braking system without such motor vehicle being equipped with a muffler in accordance with K.S.A. 8-1739 and 11.60.240, and amendments thereto.

(b) As used in this section, "compression release engine braking system" means a hydraulically operated device that converts a power producing diesel engine into a power absorbing retarding mechanism.
(Ord. No. 51-194, § 1, 3-24-20)

Sec. 11.60.230. Horns—Sirens.

(a) Every motor vehicle when operated upon a highway shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less than two hundred feet, but no horn or other warning device shall emit an unreasonably loud or harsh sound or a whistle. The driver of a motor vehicle shall, when reasonably necessary to insure safe operation, give audible warning with his horn, but shall not otherwise use such horn when upon a highway.

(b) No vehicle shall be equipped with nor shall any person use upon a vehicle any siren or bell, except as otherwise permitted in this section.

(c) Any vehicle may be equipped with a theft alarm signal device which is so arranged that it cannot be used by the driver as an ordinary warning signal. Such a theft alarm signal device may use a whistle, bell, horn or other audible signal but shall not use a siren.

(d) Any authorized emergency vehicle shall, in addition to any other equipment and distinctive marking required by state law, be equipped with a siren, whistle, or bell, capable of emitting sound audible under normal conditions from a distance of not less than five hundred feet and of an approved type, but such siren shall not be used except when such vehicle is operated in response to but not returning from an emergency call or in the immediate pursuit of an actual or suspected violator of the law in which said latter events the driver of such vehicle shall sound said siren when necessary to warn pedestrians and other drivers of the approach thereof.
(Ord. No. 39-100 § 7)

Sec. 11.60.240. Mufflers and the operation of loud vehicles.

(a) Every vehicle shall be equipped and maintained so as to prevent excessive or unusual noise. Every motor vehicle at all times shall be equipped with a muffler or other effective noise-suppressing system in good working order and in constant operation, and no person shall use a muffler cut-out, by-pass or similar device.

(b) The engine and power mechanism of every motor vehicle shall be so equipped and adjusted as to prevent the escape of excessive fumes or smoke. As used in this section, excessive fumes or smoke is smoke that is thick or does not immediately evaporate or that lingers after emission. This smoke is blue, grey or black in color and is often accompanied by an unpleasant burning odor.

(c) The operation of any vehicle in such a manner as to create any loud, unnecessary, or usual noise that is excessive, disruptive, injures or endangers the comfort, repose, health or safety and interferes with the use or enjoyment of property by any person of reasonable sensibilities is a nuisance and unlawful.

(d) Penalty.

1. Upon conviction of a violation under (a) or (b) of this section, a fine of up to $500 shall be imposed.
2. Upon conviction of a violation under (c) of this section, a fine of at least $250 but not to exceed $2,500 shall be imposed.

(Ord. No. 39-100 § 8; Ord. No. 52-810, § 10, 9-16-25)

Editor's note—Ord. No. 52-810, § 10, adopted Sept. 16, 2025, amended the title of § 11.60.240 to read as herein set out. The former § 11.60.240 title pertained to mufflers.

Sec. 11.60.250. Mirrors.

(a) After January 1, 1975, every motor vehicle shall be equipped with a mirror mounted on the left side of the vehicle and so located as to reflect to the driver a view of the highway for a distance of at least two hundred feet to the rear of such motor vehicle.

(b) Every motor vehicle, except a motorcycle, shall be equipped with an additional mirror mounted either inside the vehicle approximately in the center or outside the vehicle on the right side and so located as to reflect to the driver a view of the highway for at least two hundred feet to the rear of such motor vehicle.

(c) All mirrors required by this section shall be maintained in good condition.
(Ord. No. 33-459 (part))

Sec. 11.60.260. Windshield stickers—Wipers—Obstructions.

(a) No person shall drive any motor vehicle with any sign, poster or other nontransparent material upon the front windshield, sidewings, side or rear windows of such vehicle other than a certificate or other paper required to be so displayed by law.

(b) The windshield on every motor vehicle shall be equipped with a device for cleaning rain, snow or other moisture from the windshield, which device shall be so constructed as to be controlled or operated by the driver of the vehicle.

(c) No person shall operate any motor vehicle upon a public roadway when the windshield, rear window or side windows of such vehicle is

obscured with snow, ice, frost or moisture which in any manner obstructs the operator's vision to the front, side or rear when the motor vehicle is in motion.

(d) No person shall operate any motor vehicle upon a public roadway with a windshield, rear window or side window which is cracked or shattered in any manner which obstructs the operator's vision.
(Ord. No. 39-100 § 9)

Sec. 11.60.265. One-way glass and other applications prohibited.

(a) No motor vehicle required to be registered in this state shall be operated within the city equipped with one-way glass or sun-screening device on or in the front windshield, sidewings, side windows, or rear windows that do not meet the following requirements:

(1) A sun-screening device when used in conjunction with the windshield shall be non-reflective and shall not be red, yellow or amber in color. A sun-screening device shall be used only along the top of the windshield and shall not extend downward beyond the AS 1 line, which is clearly defined and marked.

(2) A sun-screening device when used in conjunction with the side wings or side windows located at the immediate right and left of the driver, the side windows behind the driver and the rear most window shall be non-reflective; and

(3) The total light transmission shall not be less than 35% when a sun-screening device is used in conjunction with other existing sun-screening devices, but this sub-section shall not apply to the window of a law enforcement vehicle. Subsection (a)(3) shall not apply to the window of a law enforcement vehicle.

(b) The provisions of subsection (a) shall not apply to the installation, affixation, or application of a clear, colorless and transparent material that may be installed, affixed or applied to the windshields, side wings, side windows, or rear windows of a motor vehicle if the following conditions are met:

(1) The material has a minimum visible light transmittance of 78%;

(2) The window glazing with the material meets all requirements of federal motor vehicle safety standard no. 205, including the specified minimum light transmittance of 70% and the abrasion resistance of AS-14 glazing, as specified in that federal standard;

(3) The material is designed and manufactured to enhance the ability of the existing window glass to block the sun's harmful ultraviolet A or B rays;

(4) The driver or occupant of the vehicle possess a signed statement from a licensed physician or licensed optometrist that:

(A) Identifies with reasonable specificity the driver or occupant of the vehicle; and

(B) States that, in the physician's or optometrist's professional opinion, the equipping of the vehicle with the material is necessary to safeguard the health of the driver or occupant of the vehicle; and

(5) If the material described in this subsection tears or bubbles, or is otherwise worn to prohibit clear vision, it shall be removed or replaced.

(c) Any driver who is issued a citation for failure to possess a signed statement pursuant to subsection (c)(4) shall have 60 days to either produce in court a signed statement or remove the material described in the subsection (c). If such driver produces the signed statement or submits proof to the satisfaction of the court that the material described in subsection (c) has been removed, then the court shall dismiss the citation.

(d) This section shall not prohibit labels, stickers or other informational signs that are required or permitted by state law.

(e) No motor vehicle required to be registered in this state shall be operated within the city equipped with headlamps that are covered with any sun-screening device, adhesive film or other glaze or application which when such lamps are not in operation is highly reflective or otherwise nontransparent.

(f) For the purposes of this section, the following terms are defined:

1. "Sun screening devices" means a film material or device that is designed to be used in conjunction with motor vehicle safety glazing materials for reducing the effects of the sun;
2. "Light transmission" means the ratio of the amount of total light to pass through a product or material including any safety glazing material to the amount of the total light falling on the product or material and the glazing;
3. "Luminous reflectants" means the ratio of the amount of total light that is reflected outward by the product or material to the amount of the total light falling on the product or material;
4. "Nonreflective" means a product or material designed to absorb light rather than to reflect it.

(g) Any person convicted of violating the provisions of this section shall be guilty of a misdemeanor punishable pursuant to Section 1.04.060 of this Code.
(Ord. No. 39-100 § 10; Ord. No. 51-091, § 2, 9-10-19)

Sec. 11.60.270. Tires.

(a) Every solid rubber tire on a vehicle shall have rubber on its entire traction surface at least one inch thick above the edge of the flange of the entire periphery.

(b) No person shall operate or move on any highway any motor vehicle, trailer or semitrailer having any metal tire in contact with the roadway.

(c) No tire on a vehicle moved on a highway shall have on its periphery any block, stud, flange, cleat or spike or any other protuberances of any material other than rubber which projects beyond the tread of the traction surface of the tire, except that it shall be permissible to use farm machinery with tires having protuberances which will not injure the highway, and except that it shall be permissible to use tire chains of reasonable proportions upon any vehicle when required for safety because of snow, ice or other conditions tending to cause a vehicle to skid, and except that the State Highway Commission is authorized to approve tires with metallic or nonmetallic studs which will not injure the highway and to issue and enforce regulations establishing standards and specifications for the approval of such studs.

(d) The city manager may, in his discretion, issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of such movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this chapter.

(e) It is unlawful for any person to operate a motor vehicle having one or more tires in an unsafe condition. A solid rubber tire shall be deemed to be in an unsafe condition if it does not comply with the provisions of subsection (a) of this section. A pneumatic tire shall be deemed to be in an unsafe condition if it has:

(1) Any part of the ply or cord exposed;

(2) Any bump, bulge or separation;

(3) A tread design depth of less than one-sixteenth of an inch measured in any two or more adjacent tread grooves, exclusive of tie bars, or for those tires with tread wear indicators worn to the level of the tread wear indicators in any two tread grooves;

(4) A marking "not for highway use" or "for racing purposes only" or "unsafe for highway use";

(5) Tread or sidewall cracks, cuts or snags deep enough to expose the body cord;

(6) Been regrooved or recut below the original tread design depth, excepting special taxi tires which have extra undertread rubber and are identified as such; or

(7) Such other conditions as may be reasonably demonstrated to render it unsafe.

(f) A person in the business of selling tires shall not sell or offer for sale for highway use any tire which is in an unsafe condition or which has a tread depth of less than two thirty-seconds inch measured as specified in subsection (e) of this section.
(Ord. No. 33-459 (part); Ord. No. 30-982 § 129)

Sec. 11.60.280. Drawbars on towing vehicles.

(a) When one vehicle is towing another, the drawbar or other connection shall be of sufficient strength to pull, stop and hold all weight towed thereby, and said drawbar or other connection shall not exceed fifteen feet from one vehicle to the other except the connection between any two vehicles transporting poles, pipe, machinery or other objects of structural nature which cannot readily be dismembered.

(b) In addition to the drawbar connections between any two such vehicles, there shall be provided an adequate safety hitch.

(c) When one vehicle is towing another and the connection consists of a chain, rope or cable, there shall be displayed upon such connection a white flag or cloth not less than twelve inches square.
(Ord. No. 30-982 § 130)

Sec. 11.60.290. Motorcycles—Protective headgear, eye screens.

(a) No person under the age of eighteen shall operate or ride upon a motorcycle or a motorized bicycle unless wearing a helmet which complies with the minimum guidelines established by the

National Highway Traffic Safety Administration pursuant to the National Traffic and Motor Vehicle Safety Act of 1966 for helmets designed for use by motorcyclists and other motor vehicle users.

(b) No operator of a motorcycle or a motorized bicycle shall allow any passenger under the age of eighteen years to: (1) operate a motorcycle or motorized bicycle or to ride as a passenger upon a motorcycle or motorized bicycle without being in compliance with the provisions of subsection (a); or (2) operate a motorcycle or to ride as a passenger upon a motorcycle without being in compliance with the provisions of subsection (c) and (d);

(c) No person shall operate a motorcycle unless such person is wearing an eye-protective device which shall consist of protective glasses, goggles or transparent face shields which are shatter proof and impact resistant, except when the motorcycle is equipped with a windscreen, which has a minimum height of ten inches measured from the center of the handlebars.

(d) No person under the age of 18 years shall ride as a passenger on a motorcycle unless such person is wearing an eye-protective device which shall consist of protective glasses, goggles or transparent face shields which are shatter proof and impact resistant.

(e) This section shall not apply to persons riding within an enclosed cab or on a golf cart, nor shall it apply to any person operating or riding any industrial or cargo-type vehicle having three wheels and commonly known as a truckster.
(Ord. No. 43-529 § 2; Ord. No. 48-802 § 1, 8-24-2010)

Sec. 11.60.300. Motorcycles—Riding position.

(a) A person operating a motorcycle or motor-driven cycle shall ride only upon the permanent and regular seat attached thereto, and such operator shall not carry thereon any other person nor shall any other person ride on a motorcycle or motor-driven cycle unless such vehicle is designed to carry more than one person in which event a passenger may ride upon the permanent and regular seat if designed for two persons, or upon another seat firmly attached to the rear or side of the operator.

(b) A person shall ride upon a motorcycle only while sitting astride the seat, facing forward, with one leg on each side of the motorcycle.

(c) No person shall operate a motorcycle while carrying any package, bundle or other article which prevents him from keeping both hands on the handlebars.

(d) No operator shall carry any person, nor shall any person ride, in a position that will interfere with the operation or control of the motorcycle or the view of the operator.
(Ord. No. 31-232 § 21; Ord. No. 30-982 § 132)

Sec. 11.60.310. Motorcycles—Operator rights and duties.

Every person operating a motorcycle shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of any other vehicle under this title, except as to special regulations in Sections 11.60.290, 11.60.300, 11.60.320 and 11.60.330 inclusive, and in Section 11.38.090, and except as to those provisions of this title, which by their nature can have no application.
(Ord. No. 31-232 § 20)

Sec. 11.60.320. Motorcycles—Driving rules.

(a) All motorcycles are entitled to full use of a lane and no motor vehicle shall be driven in such a manner as to deprive any motorcycle of the full use of a lane. This subsection shall not apply to motorcycles operated two abreast in a single lane.

(b) The operator of a motorcycle shall not overtake and pass in the same lane occupied by the vehicle being overtaken.

(c) No person shall operate a motorcycle between lanes of traffic or between adjacent lines or rows of vehicles.

(d) Motorcycles shall not be operated more than two abreast in a single lane.

(e) Subsections (b) and (c) shall not apply to police officers in the performance of their official duties.
(Ord. No. 31-232 § 22)

Sec. 11.60.330. Reserved.

Editor's note—Ord. No. 50-320 § 1, adopted Sept. 13, 2016, repealed section 11.60.330, which pertained to motorcycles—footrests and handlebars and derived from Ord. No. 39-100 § 12.

CHAPTER 11.64. RESERVED*

*__Editor's note—__Ord. No. 45-965, adopted December 30, 2003, repealed Ch. 11.64 in its entirety. Formerly said chapter pertained to unattended vehicles and derived from Ord. No. 29-151, §§ 1, 3; Ord. No. 39-101, § 1.

CHAPTER 11.68. PARKING METERS*

Sec. 11.68.010. Establishment of parking zones-regulated.
Sec. 11.68.020. Installation of meters and marking of spaces.
Sec. 11.68.030. Operation of meters.
Sec. 11.68.040. Reserved.
Sec. 11.68.060. Use of slugs, etc., prohibited.
Sec. 11.68.070. Tampering, etc., with meters; hitching animals to.
Sec. 11.68.080. Vehicles to be parked wholly within marked spaces.
Sec. 11.68.090. Extending time beyond legal parking time.
Sec. 11.68.100. Use of metered space when parking is prohibited.
Sec. 11.68.110. Overtime parking.
Sec. 11.68.111. Permit parking for Century II events.
Sec. 11.68.120. Exceptions to required operation of parking meters.
Sec. 11.68.130. Same—Contents of application; form required.
Sec. 11.68.140. Same—Issuance of permits; duties of city officers.
Sec. 11.68.150. Same—Required fees; exceptions; deposit of funds; no refund.
Sec. 11.68.160. Same—Unlawful acts; use of parking spaces, unauthorized covering of parking meters, possession of hoods.

Sec. 11.68.010. Establishment of parking zones-regulated.

(a) The portion of streets listed in Section 11.96.050 are established as parking zones-regulated;

(b) The portion of lots listed in Section 11.96.050 are established as parking zones-regulated;

(c) The central core area defined in Section 11.52.055 is established as a parking zone-regulated; and

(d) Any additional area designated now or added or modified in the future by the City Traffic Engineer with the approval of the City Manager under authority of Section 11.52.010 is also established as a parking zone-regulated.
(Ord. No. 43-196 § 2; Ord. No. 52-326, § 14, 1-9-24)

Editor's note—Ord. No. 52-326, § 14, adopted Jan. 9, 2024, amended the title of § 11.68.010 to read as herein set out. The former § 11.68.010 title pertained to Establishment of parking meter zones.

*__Cross reference—__For authority of traffic engineer to establish the time limit for parking in parking meter zones, see § 11.52.010.

Sec. 11.68.020. Installation of meters and marking of spaces.

In all parking zones-regulated established by this Title, or subsequently established by the City Traffic Engineer with the approval of the City Manager, the City Traffic Engineer is authorized and directed to install meters in such number and at such places as in his or her judgment may be necessary to regulate, control and inspect the parking of motor vehicles therein, including the reservation of loading zones for trucks. Parking meter technology may include individual meter heads, pay stations regulating a group of parking spaces, monitored or self-operating access gates, remote, computerized monitoring utilizing the operator's smartphone technology, or any other methodology the city traffic engineer determines to be accurate and reliable. The City Traffic Engineer is further authorized to have lines or markings painted upon the curb or street or parking surfaces, designating the parking space for which such meter is to be used and the space in which each motor vehicle may park.
(Ord. No. 43-196 § 3; Ord. No. 52-326, § 15, 1-9-24)

Sec. 11.68.030. Operation of meters.

Parking meters may be of a design to accept payment in any, several or all of the following forms: paper bills, coins, credit cards, debit cards, smartphone or other internet payment or validation. However, no parking privileges shall be granted to extend beyond the time limit specified on the face of the official traffic control devices designating the parking zone-regulated regardless of the amount of payment deposited.
(Ord. No. 19-139 § 145; Ord. No. 52-326, § 16, 1-9-24)

Sec. 11.68.040. Reserved.

Editor's note—Ord. No. 52-326, § 17, adopted Jan. 9, 2024, repealed § 11.68.040, which pertained to collectors, and derived from Ord. No. 19-139, § 146.

Sec. 11.68.060. Use of slugs, etc., prohibited.

It is unlawful for any person or operator to deposit or cause to be deposited in any parking meter any slug, device or substitute for a coin of the United States, or a bent or damaged coin.
(Ord. No. 19-139 § 148)

Sec. 11.68.070. Tampering, etc., with meters; hitching animals to.

It is unlawful for any unauthorized person to open, or for any person to deface, damage, tamper with or wilfully break, destroy or impair the usefulness of, any parking meter installed pursuant to this chapter, or for any person to attach any animal thereto.
(Ord. No. 19-139 § 148)

Sec. 11.68.080. Vehicles to be parked wholly within marked spaces.

It is unlawful for any person or operator to park any motor vehicle across any line or marking designating the parking meter space, or to park a motor vehicle in such a position that it is not entirely within the space designated by such lines or markings.
(Ord. No. 19-139 § 148)

Sec. 11.68.090. Extending time beyond legal parking time.

It is unlawful for any person or operator to deposit payment in a parking meter for the purpose of increasing the parking time of any motor vehicle beyond the legal maximum parking time as established for such parking zone-regulated.
(Ord. No. 19-139 § 148; Ord. No. 52-326, § 18, 1-9-24)

Sec. 11.68.100. Use of metered space when parking is prohibited.

It is unlawful for any person or operator to park any motor vehicle in a parking zone-regulated space at any time when parking in such space is prohibited.
(Ord. No. 19-139 § 148; Ord. No. 52-326, § 19, 1-9-24)

Sec. 11.68.110. Overtime parking.

(a) It is unlawful for any person or operator to cause, allow or permit any motor vehicle registered in his or her name, or operated and controlled by him or her to be within a parking zone-regulated for more than the maximum time indicated on the meter of such parking zone-regulated.

(b) It is unlawful for any person or operator to cause, allow or permit any motor vehicle registered in his or her name, or operated or controlled by him or her, to be within a parking zone-regulated space for more than the maximum time indicated on the face of any official traffic control device designating the parking zone-regulated, or any time during which the space is illegally in use.
(Ord. No. 43-196 § 4; Ord. No. 52-326, § 20, 1-9-24)

Sec. 11.68.111. Permit parking for Century II events.

(a) The City Manager or his or her designee is authorized to issue permits designed in such fashion as would entitle the holder thereof to use certain parking zone-regulated spaces within an area bounded by the south curb line of Douglas Avenue, the Arkansas River, the Kellogg Flyover, and the west curb line of Main Street without the necessity of depositing payment in the parking meter regulating such space.

(b) Exceptions. Such permits shall apply only to regulated parking zone-regulated spaces within City-owned or leased lots within the area designated in subsection (a) and shall not allow the use of parking zone-regulated spaces on public streets or within the parking lot abutting and directly to the south of the former Central Branch Library without payment. The issuance of said permits shall be limited to participants of events taking place at Century II pursuant to a lease agreement with the City of Wichita and commensurate with the terms of such lease agreement. The effective date(s) and time(s) shall be clearly stated on the face of the permit, which must be displayed on the dashboard of the vehicle occupying the regulated parking zone space. A vehicle parked or standing in a regulated parking zone space during any time outside the effective date(s) and or time(s) on the face of the

permit shall be subject to a citation for meter violation and punished as set forth in Section 11.92.040.
(Ord. No. 32-215; Ord. No. 49-391 § 1, 11-20-2012; Ord. No. 52-326, § 21, 1-9-24)

Sec. 11.68.120. Exceptions to required operation of parking meters.

The following provisions constitute exceptions to any other provisions of this Title and any ordinance of the city requiring the operating of parking meters in designated parking zones-regulated or off-street parking facilities of the city. Any parking meter or meters need not be placed in operation by payment when the following conditions have been satisfied and a permit issued for the hooding or covering of such meter as follows:

(1) ELIGIBLE APPLICANTS. Upon application to and approval of the City Traffic Engineer and payment of the permit fee hereinafter provided, any of the following persons may obtain a permit for the hooding or covering of any parking meter or meters:

(a) Persons having a permit from the Metropolitan Area Building and Construction Department to encumber any street or sidewalk in connection with any building or wrecking project;

(b) Persons having a permit from the Metropolitan Area Building and Construction Department to perform any plumbing, electrical, heating, sign hanging or other project in any public way or on premises adjacent to any street, alley or sidewalk;

(c) Persons engaged in any public improvement under contract with the city or engaged in any work under supervision of the City Engineer;

(d) Public utilities (private or municipal) engaging in construction and maintenance work in or adjacent to any public way;

(e) Persons engaged in the business of moving personal property and effects from and to residential or commercial buildings adjacent to any public way;

(f) Persons licensed as funeral directors and holding services in any funeral home or church;

(g) Persons engaged in the repair and maintenance of building service installations and office equipment;

(h) Persons requiring temporary parking space immediately adjacent to commercial and industrial establishments for loading or unloading of building and office equipment of immediate necessity;

(i) Persons acting under the authority or requirements of the police and fire departments to provide temporary special use parking zones-regulated.

(2) APPROVAL OF APPLICATION. The City Traffic Engineer shall determine the necessity for the hooding and covering of any parking meter, and upon his or her approval of the application therefor, shall authorize the required parking meter or meters to be hooded in accordance with the application as approved. Upon the hooding or covering of the face of any parking meter, as hereinafter provided, the same need not be placed in operation by the deposit of payment otherwise required by this Title.

(3) EXCEPTIONAL CASES. Exceptions to the foregoing rules and regulations and payment of required fees may be made in appropriate cases involving special circumstances not covered by this section upon an application and a showing that the hooding or covering of any parking meter serves the public convenience and safety, and is in harmony with the other provisions of this Code; provided, that such exceptions shall be approved in advance by the City Manager, or in his or

her absence, by the City Traffic Engineer, or his or her duly authorized representative.

(Ord. No. 39-102 § 2; Ord. No. 52-326, § 22, 1-9-24)

Editor's note—Ord. No. 52-326, § 22, adopted Jan. 9, 2024, amended the title of § 11.68.120 to read as herein set out. The former § 11.68.120 title pertained to exceptions to required operation of parking meters by deposit of coins.

Sec. 11.68.130. Same—Contents of application; form required.

The following rules and regulations shall govern the making of the application of the issuance of any permit hereinbefore authorized:

(1) TIME OF FILING APPLICATION. The application under this chapter for a permit shall be made in writing and filed at least seventy-two hours in advance of the time any parking meter is to be hooded and not placed in operation; provided, that this requirement may be waived by the City Traffic Engineer in unusual circumstances which require the authorized hooding of any parking meter for emergency occupancy of any parking space.

(2) FORM OF APPLICATION. The application shall be on a form prepared by the City Traffic Engineer. The failure or refusal of any applicant to furnish information requested in such application shall be sufficient grounds for denial by the City Traffic Engineer. The application will show: the name and business of the applicant; the reason for the hooding of the parking meter or meters; evidence that a permit for the encumbering of any street has been issued by the Metropolitan Area Building and Construction Department (when the same is required by ordinance); the location and number of parking meters desired to be hooded and the day or dates and the hours the same are to be covered; a description and license number of vehicles to be parked or allowed to occupy parking meter spaces under the permit applied for (except in cases where applicant agrees to supervise and control occupancy of the parking spaces described in the permit); and such other information as may be required in such application form.

(3) EXHIBIT OF PERMIT. In all cases any permit issued hereunder shall be kept by the permittee (or his or her agent) at the location of the parking meters authorized to be covered, and shall be exhibited to any officer or employee of the city upon demand.

(Ord. No. 23-995 § 1; Ord. No. 52-326, § 23, 1-9-24)

Sec. 11.68.140. Same—Issuance of permits; duties of city officers.

When the application for a permit has been approved, the City Traffic Engineer shall endorse such approval over his or her signature and upon payment of required fee, shall execute the permit on the application form, and issue or cause to be issued the number of parking meter hoods shown by the application; provided, however, that no permit issued hereunder shall be for a period in excess of thirty days; and provided, further, nothing herein contained shall prohibit the reapplication and reissuance of permits for successive periods not to exceed thirty days each. The City Traffic Engineer shall jointly establish suitable procedures for the issuance, removing and accounting, for parking, meter hoods and the covering of parking meters as herein authorized.

(Ord. No. 39-102 § 3; Ord. No. 52-326, § 24, 1-9-24)

Sec. 11.68.150. Same—Required fees; exceptions; deposit of funds; no refund.

The fee for the hooding of any parking meter for each authorized day (or fraction thereof) shall be listed in section 10.34.010, unless modified by the City Traffic Engineer, for the entire parking space controlled by each such meter provided, however, each application will pay the required fee per meter for the total number of parking zone-regulated spaces controlled by that meter.

Under no circumstances will the permit fee or any portion thereof be refunded to any applicant.
(Ord. No. 45-683 § 1; Ord. No. 39-102 § 4; Ord. No. 50-185 § 1, 4-26-16; Ord. No. 52-326, § 25, 1-9-24)

Sec. 11.68.160. Same—Unlawful acts; use of parking spaces, unauthorized covering of parking meters, possession of hoods.

(a) It is unlawful for any person other than a person having a valid permit issued under authority of the foregoing provisions of this chapter, his or her authorized agents or employees to park or stand any vehicle in the street parking zone-regulated space adjacent to any parking meter covered or hooded in compliance with the aforesaid provisions of this chapter.

(b) It shall be further unlawful for any unauthorized person to cover or hood any parking meter, or to remove, tamper with, damage or destroy any official parking meter cover or hood of the city, or for any person to have in his possession any cover, hood or other device designed for the purpose of masking, covering or hooding of any parking meter contrary to the provisions of the foregoing sections of this chapter.

(c) Any person violating the provisions of Subsections (a) and (b) of this Section is guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than twenty-five hundred dollars for each violation.
(Ord. No. 23-995 § 1; Ord. No. 52-326, § 26, 1-9-24)

CHAPTER 11.80. SIZE, WEIGHT AND LOADS*

Sec. 11.80.010. Width of vehicles.
Sec. 11.80.020. Projecting loads on passenger vehicles.
Sec. 11.80.030. Height and length of vehicles.
Sec. 11.80.045. Securing loads on vehicles.
Sec. 11.80.050. Gross weight of vehicles and loads.
Sec. 11.80.055. Towing vehicles; connection and safety equipment.
Sec. 11.80.070. Special permits for oversize vehicles or overweight vehicles or loads—Appeal upon denial.
Sec. 11.80.080. Criminal penalties for violation of size and weight laws; exceptions.
Sec. 11.80.090. Enforcement of vehicle weight laws; officers may weigh vehicles; portable scales; required drive to stationary scales; off-loading or load redistribution required, when.

Sec. 11.80.010. Width of vehicles.

(a) The total outside width of any vehicle or the load thereon shall not exceed eight feet six inches, except as otherwise provided in this chapter, or as noted in Chapter 10.24, "Moving Buildings."

(b) The total outside width of a farm tractor shall not exceed ten feet.

(c) Whenever pneumatic tires, in substitution of the same type or other types of tires, are placed upon a vehicle the maximum width from the outside of one wheel and tire to the outside of the opposite wheel and tire shall not exceed eight feet six inches; but in such event, the outside width of the body of such vehicle or load thereon shall not exceed eight feet.

(d) The total outside width of the body of a bus, excluding all rearview mirrors, turn signal lamps and handholds equipment used in intercity transit operations or a bus used in local urban transit operations, shall not exceed eight feet six inches.

(e) (1) A vehicle may be loaded with bales of hay which shall not exceed twelve feet in width and a height as authorized by K.S.A. 8-1904, and amendments thereto.

(2) A farm vehicle may be loaded with bales of hay which shall not exceed twelve feet in width and a height as authorized by K.S.A. 8-1904, and amendments thereto. As used in this paragraph "farm vehicle" means a truck or truck-tractor registered under K.S.A. 8-143, and amendments thereto, as a farm truck or truck-tractor and used in combination with any type of trailer or semitrailer.

(3) Any such vehicles under subsection (e)(1) or (e)(2) of this section so loaded shall not be moved during the period beginning thirty minutes after sunset and ending thirty minutes before sunrise. Any vehicle loaded with bales of hay as authorized by the exception in this subsection, with the load extending beyond eight and one-half feet, shall have attached thereto a sign which states "OVERSIZE LOAD" and the dimensions of the sign shall be a minimum of seven feet long and eighteen inches high. Letters shall be a minimum of ten inches high with a brush stroke of not less than one and two-fifths inches. The sign shall be readily visible from a distance of five hundred feet and shall be removed when the vehicle or load does not exceed the legal width. Each vehicle shall be equipped with red flags on all four corners of the oversized load.

(Ord. No. 43-963 § 1; Ord. No. 40-560 § 1)

Sec. 11.80.020. Projecting loads on passenger vehicles.

No passenger type vehicle shall be operated on any highway with any load carried extending beyond the line of the fenders on the left side of such vehicle nor extending more than six inches beyond the line of the fenders on the right side thereof.

(Ord. No. 19-139 § 190)

*__Cross reference—__As to lamps or flags on projecting loads, see § 11.60.100 of this Code.

Sec. 11.80.030. Height and length of vehicles.

(a) No vehicle unladen or with load shall exceed a height of fourteen feet, except as otherwise provided in this chapter.

(b) No motor vehicle or single truck shall exceed a length of forty-five feet extreme overall dimensions, excluding the front and rear bumpers, except as provided in subsection (c).

(c) The maximum legal length of truck, truck-tractor and trailer combinations shall be according to K.S.A. 8-1904 for the maximum size of trucks and trailers on interstate and other highways.

(d) The limitations in this section governing maximum length of a truck-tractor and semi-trailer or other combination of vehicles coupled together shall not apply to vehicles operating in the daytime when transporting poles, pipe, machinery or other objects of a structural nature which cannot readily be dismembered, and vehicles transporting such objects operated at nighttime by a public utility when required for emergency repair of public service facilities or properties, or when operated under special permit as provided in Section 11.80.070, but in respect to such night transportation every such vehicle and the load thereon shall be equipped with a sufficient number of clearance lamps on both sides and marker lamps upon the extreme ends of any projecting load to clearly mark the dimensions of such load.

(e) The limitations of this section governing the maximum length of combinations of vehicles shall not apply to a combination of vehicles consisting of a truck tractor towing a house trailer, if such combination of vehicles does not exceed an overall length of ninety-seven feet.

(f) The length limitations of this section shall not apply to stinger-steered automobile or boat transporters, driveaway saddlemount vehicle transport combinations or one truck and one trailer vehicle combination, loaded or unloaded, used in transporting a combine to be engaged in farm custom harvesting operations, as defined in subsection (d) of K.S.A. 8-143j, and amendments thereto. A stinger-steered automobile or boat transporter, drive-away saddlemount vehicle transport combination or one truck and one trailer vehicle combination, loaded or unloaded, used in transporting a combine to be engaged in farm custom harvesting operations, as defined in subsection (d) of K.S.A. 8-143j, and amendments thereto, shall not exceed an overall length limit of seventy-five feet, exclusive of front and rear overhang.

(g) The load upon any vehicle operated alone, or the load upon the front vehicle of a combination of vehicles, shall not extend more than three feet beyond the front wheels of such vehicle or the front bumper of such vehicle if it is equipped with such a bumper.
(Ord. No. 44-722 § 1)

Sec. 11.80.045. Securing loads on vehicles.

(a) No vehicle shall be driven or moved on any highway unless such vehicle is so constructed or loaded as to prevent any of its load from dropping, sifting, leaking or otherwise escaping therefrom, except that this section shall not prohibit the necessary spreading of any substance in highway maintenance or construction operations.

(b) No person shall operate on any highway any vehicle with any load unless said load and any covering thereon is securely fastened so as to prevent said covering or load from becoming loose, detached or in any manner a hazard to other users of the highway.
(Ord. No. 39-104 § 3)

Sec. 11.80.050. Gross weight of vehicles and loads.

(a) No vehicle or combination of vehicles shall be moved or operated on any street or road with a gross weight thereof that exceeds the limit as specified by the law of the state as set forth in K.S.A. 8-1901, 8-1908 and 8-1909 except as provided in Section 11.80.070.

(b) No vehicle or combination of vehicles shall be moved or operated on any bridge within the city with a gross weight thereof that exceeds the gross weight limit as posted on such bridge.
(Ord. No. 40-157 § 3)

Sec. 11.80.055. Towing vehicles; connection and safety equipment.

(a) When one vehicle is towing another, the drawbar, towbar or other connections shall be of sufficient strength to pull, stop and hold all weight towed thereby, and so designed, constructed and installed as to insure that any vehicle or motor vehicle towed on a legal, smooth, paved surface will follow in the path of the towing vehicle when it is moving in a straight line. In addition to the drawbar connections between any two such vehicles, there shall be provided an adequate safety hitch.

(b) When one vehicle is towing another and the connection consists of a chain, rope or cable, there shall be displayed upon such connection a white flag or cloth not less than twelve inches square.

(c) Motor vehicles in transit may be transported in combination by means of towbar, saddlemount or fullmount mechanisms, utilizing the motive power of one of the motor vehicles in such combination, except that not more than two vehicles in any such combination of motor vehicles in transit may be connected by means of a towbar mechanism. Whenever motor vehicles are transported as authorized in this subsection, such motor vehicles shall be connected securely in combination in accordance with rules and regulations adopted by the Secretary of Transportation, and any combination of such motor vehicles shall comply with the limitations prescribed by 11.80.030.

(d) Except as otherwise provided in subsection (c), not more than three vehicles, including the towing vehicle, in any combination of vehicles may be connected by means of a towbar mechanism, and if the three such vehicles are connected by towbar mechanisms, the towbar mechanism between the towing vehicle and the first towed vehicle, shall be equipped with an antisway mechanism. In addition, the second towed vehicle of every combination of vehicles so connected shall be equipped with service brakes acting on the wheels of at least one axle, and which are of a type approved by the safety department of the department of transportation and of such character as to be applied automatically and promptly.
(Ord. No. 39-104 § 4)

Sec. 11.80.070. Special permits for oversize vehicles or overweight vehicles or loads—Appeal upon denial.

(a) The city manager, upon the recommendation of the director of public works, may issue special permits to operate oversize or overweight vehicles or loads upon the streets and roads of the City of Wichita, as contemplated by K.S.A. 8-1911 and amendments thereto.

(b) The city may charge a fee for the issuance of such a special permit and the governing body shall establish a fee schedule which specifies the permit fee to be charged.

(c) The city manager, together with the director of public works, shall establish a policy for the issuance of special permits and such policy may include requirements that persons requesting such permits agree to conditions regarding time, manner and place of operation thereunder.

(d) It shall be unlawful for any person to operate a vehicle or to permit a vehicle to be operated on the streets and roads of the City of Wichita in violation of the terms and conditions of a special permit issued under this section. For purposes of this section, a person to whom a special permit is issued shall be deemed to have permitted the operation of a vehicle subject to such permit if such vehicle is moved on the streets and roads of the City of Wichita.

(e) A violation of the provisions of subsection (d) of this section shall be punishable by a fine of not more than one thousand dollars, in addition to any penalties or fines for violation of other provisions of this chapter. Each day any such violation of said subsection continued shall constitute a separate offense.

(f) Any person aggrieved by a decision of the city manager in denying a special permit under this section may appeal such decision to the governing body. Such appeal shall be filed within ten days of the decision appealed from and shall be in writing.
(Ord. No. 40-157 § 4)

Sec. 11.80.080. Criminal penalties for violation of size and weight laws; exceptions.

(a) It shall be unlawful for any person to operate a vehicle or to permit a vehicle to be operated on the streets and roads of the City of Wichita in violation of Chapter 11.80 of the Code of the City of Wichita, Kansas.

(b) Any person violating any of the provisions of Chapter 11.80 of the code of the City of Wichita, Kansas, except for the provisions of Sections 11.80.050 and 11.80.070, shall, upon conviction thereof, be fined an amount not to exceed five hundred dollars.

(c) Any person violating any of the provisions of Section 11.80.050 shall, upon a first conviction thereof, be fined the applicable following amount from one, but not both of the following schedules for moving a gross vehicle or combination of vehicles weighing in excess of the lawful maximum gross weight for such vehicle or combination of vehicles or for any axle or tandem, triple or quad axles thereof:

GROSS WEIGHT OF VEHICLE OR COMBINATION

Pounds Overweight	*Rate of Fine*
Up to 1000	$25.00
1001 to 2000	.03 per pound
2001 to 5000	.05 per pound
5001 to 7500	.07 per pound
7501 and over	.10 per pound

GROSS WEIGHT ON ANY AXLE OR TANDEM, TRIPLE OR QUAD AXLES

Pounds Overweight	*Rate of Fine*
Up to 1000	$25.00
1001 to 2000	.03 per pound
2001 to 5000	.06 per pound
5001 to 7500	.07 per pound
7501 and over	.10 per pound

For a second violation of this subsection within a two-year period, such person, upon conviction, shall be fined one and one-half times the applicable amount from one, but not both, of the above schedules. For a third violation of this subsection within a two-year period, such person, upon conviction, shall be fined two times the applicable amount from one, but not both, of the above schedules. For a fourth and each succeeding violation of this subsection within a two-year period, such person, upon conviction, shall be fined two and one-half times the applicable amount from one, but not both of the above schedules.

(d) Except as otherwise specifically provided in this chapter and Chapter 10.24, the provisions governing size, weight and load shall not apply to fire apparatus, road machinery, farm tractors or to implements of husbandry temporarily moved upon a highway, or to a vehicle operated under the terms of a currently valid special permit issued in accordance with Section 11.80.070 or K.S.A. 8-1911 and any amendments thereto.

(e) As used in this section, "conviction" means a final conviction without regard to whether sentence was suspended or probation granted after such conviction, and a forfeiture of bail bond or collateral deposited to secure a defendant's appearance in court, which forfeiture has not been vacated, is equivalent to a conviction.
(Ord. No. 40-157 § 5)

Sec. 11.80.090. Enforcement of vehicle weight laws; officers may weigh vehicles; portable scales; required drive to stationary scales; off-loading or load redistribution required, when.

(a) Any police officer having reason to believe that the gross weight of a vehicle or combination of vehicles or the cross weight on any axle or tandem axle is unlawful is authorized to require the driver to stop and submit to a weighing of the same by means of either portable or stationary scales and may require that such vehicle be driven to any scales suitable for this purpose within five miles. When portable scales are used for weighing for the purpose of this section, the location of such portable scales shall not be more than ten miles from any stationary scales whose accuracy is certified in accordance with law.

(b) Whenever a police officer, upon weighing a vehicle or combination of vehicles, determines that the weight is unlawful, such officer may require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of such vehicle or combination of vehicles or remove or redistribute the gross weight on any axle or tandem axles to satisfy the legal load limitations. All material so unloaded shall be cared for by the owner, lessee or operator of such vehicle at the risk of such owner, lessee or operator.

(c) Any driver of a vehicle or combination of vehicles who fails or refuses to stop and submit such vehicle or combination of vehicles to weighing as provided in this section or who fails or refuses when directed by an officer to comply with the provisions of this section, shall be guilty of a misdemeanor.

(Ord. No. 40-157 § 6)

CHAPTER 11.84. CONTROLLED ACCESS FACILITIES

Sec. 11.84.010. Establishment of controlled access facilities.
Sec. 11.84.020. Establishment of frontage roads.
Sec. 11.84.030. Unlawful use of controlled access facilities.

Sec. 11.84.010. Establishment of controlled access facilities.

Pursuant to the authority granted under K.S.A. 68-1902, the streets or parts of streets as described in Section 11.96.070 are established as controlled access facilities.
(Ord. No. 39-105 § 1)

Sec. 11.84.020. Establishment of frontage roads.

Pursuant to the authority granted under K.S.A. 68-1905, the streets or parts of streets described in Section 11.96.080 are established as frontage roads.
(Ord. No. 39-105 § 2)

Sec. 11.84.030. Unlawful use of controlled access facilities.

It shall be unlawful for any person:

(a) To drive a vehicle over, upon or across any curb, central dividing section or other separation or dividing line on controlled access facilities;

(b) To make a left turn or a semicircular or "U" turn except through an opening provided for that purpose in the dividing curb section, separation or line;

(c) To drive any vehicle except in the proper lane provided for that purpose and in the proper direction and to the right of the central dividing curb, separation section or line;

(d) To drive any vehicle into the controlled access facility from a frontage road except through an opening provided for that purpose in the dividing curb, dividing section or dividing line which separates such frontage road from the controlled access facility proper.

(Ord. No. 19-139 § 197)

CHAPTER 11.88. PARKS, AIRPORTS AND PUBLIC PROPERTY

Sec. 11.88.010. Vehicles not to be driven on public grounds.
Sec. 11.88.015. Motor vehicle parking.
Sec. 11.88.020. Speed restrictions.
Sec. 11.88.040. Use of roads or drives by trucks.
Sec. 11.88.050. Mounted riders.

Sec. 11.88.010. Vehicles not to be driven on public grounds.

(a) It is unlawful for any person to drive or park any vehicle upon any portion of the public parks, municipal airports or other public grounds of the city other than upon the street, roads, drives and boulevards designated for that purpose; provided, that vehicles may be parked in such places as are designated for that purpose by the city council, the board of park commissioners or other city agencies responsible for the regulation and supervision of said public grounds.

(b) It is unlawful for any person to ride or propel a bicycle upon any portion of the public parks, municipal airports or other public grounds of the city other than upon the streets, roads, drives, boulevards or paths designated for that purpose, or in such areas as are designated for bicycling use by the city commission, the board of park commissioners or any other city agencies responsible for the regulation and supervision of said public grounds.

(c) It is unlawful for any person to leave or park a bicycle in any portion of the public parks, municipal airports or other public grounds of the city other than in a bicycle parking rack when such is provided and there is space available.

(d) Nothing herein contained shall prevent any employee of the city, the board of park commissioners or the employees of any other city agency responsible for the regulation and supervision of said public grounds from performing their official duties, or any other person or business entity from performing work on the public grounds for and on behalf of such city, board or agency.
(Ord. No. 39-106 § 1)

Sec. 11.88.015. Motor vehicle parking.

The following requirements pertain to all paved parking lots located in parks and at park recreation facilities including, but not limited to, golf courses, recreation centers, swimming pools, tennis centers and picnic areas:

(a) Whenever individual motor vehicle parking spaces shall have been established and designated on any such parking lot, whether by lines painted upon the lot surface or by some other means, it shall be unlawful for any person to park a motor vehicle upon such lot in other than a marked parking space. Further, it shall be unlawful for any individual to park any motor vehicle on or across, or to extend any part of the motor vehicle over these lines or markings, or to park any motor vehicle in such a position that it is not entirely within the space designated by such lines or markings.

(b) Motor vehicles shall be parked in such parking space with the front of the vehicle headed towards the front of the parking space and it shall be unlawful for any person to back any motor vehicle into any parking space.

(c) It is unlawful for any person or operator to park a motor vehicle in any space in a parking lot, properly designated and marked as described in Section 28.04.141(4) as being restricted to accessible parking, when the motor vehicle does not bear a license plate or disabled identification card issued by the Director of Vehicles of the State of Kansas or some other state indicating the vehicle belongs to a disabled individual or a person responsible for the transportation of such disabled individual; or, when bearing such license plates, the motor vehicle is not being used for the transportation of such disabled individual.

(Ord. No. 39-106 § 2; Ord. No. 50-896, § 7, 11-27-18)

Sec. 11.88.020. Speed restrictions.

It is unlawful for any person to drive or ride within the park system or municipal airports at

a speed greater than the posted speed limit and, within certain parks listed below, at a speed greater than fifteen miles per hour, and along or near any designated playground, picnic or recreational area where reduced speed signs of fifteen miles per hour are posted:

O.J. Watson Park

Municipal Airports, except where traffic signs permit of greater speed.
(Ord. No. 39-106 § 3)

Sec. 11.88.040. Use of roads or drives by trucks.

It is unlawful for any person to drive or haul along, whether loaded or not loaded, any wagon, threshing machine, car or vehicle used for business purposes or for commercial or heavy hauling or traffic, upon any boulevard, park drive, or park road in the city; provided, that the board of park commissioners may authorize the issuing of a permit for the driving of motor trucks over or on park roads, drives, or boulevards for the purpose of conveying passengers or picnickers, or for transporting food, supplies or other articles for use at a picnic, meeting or gathering, or for transporting materials and supplies for use in the park.
(Ord. No. 39-106 § 4)

Sec. 11.88.050. Mounted riders.

It is unlawful for any person to ride any horse or other animal upon any boulevard, road or drive in any park, the municipal airports or public ground in the city at a gait faster than eight miles per hour; provided, that at all places where special trails or bridle paths have been prepared especially for mounted riders, such trails and paths shall be used and the roads and drives intended for motor and other vehicles shall not be used by such mounted riders. Mounted riders shall be prohibited from riding any horse or other animal upon grassed areas of any public park, municipal airport or public property. This section shall not apply to members of the Wichita police department during the performance of their lawful duties.
(Ord. 42-488 § 1)

CHAPTER 11.92. ARREST AND PENALTIES*

Sec. 11.92.010. Penalties.
Sec. 11.92.030. Illegal operation of a vehicle.
Sec. 11.92.040. Payments to avoid prosecution—Schedule of fines.
Sec. 11.92.060. Registration deemed prima facie evidence of identity of violator.
Sec. 11.92.070. Prosecution of Juvenile traffic offenders; disposition.

Sec. 11.92.010. Penalties.

(a) It is unlawful for any person to violate any of the provisions of this title.

(b) Every person convicted of a violation of any of the provisions of this title for which another penalty is not provided shall, upon conviction, be fined in an amount of not more than five hundred dollars.
(Ord. No. 32-948; Ord. No. 30-982 § 133)

Sec. 11.92.030. Illegal operation of a vehicle.

It is unlawful for the owner, or any other person, employing or otherwise directing the driver of any vehicle, to require or knowingly to permit the operation of such vehicle upon a highway in any manner contrary to this title.
(Ord. No. 30-982 § 135)

Sec. 11.92.040. Payments to avoid prosecution—Schedule of fines.

(a) The owner or operator of any motor vehicle which is parked in violation of any of the provisions of this Title and to which vehicle a citation had been attached may, within ten days of the date of such violation pay to the Wichita Municipal Court, as a penalty for and in full satisfaction of such violation, a fine as ordered by the Municipal Court Judge, but not less than the amounts set forth in the following schedule:

(1) Meter violation on the street contrary to 11.68.110(a).... $35.00

(2) Meter violation on a city lot contrary to 11.68.110(b).... $35.00

(3) Overtime parking in a 1 or 2 hour zone contrary to 11.52.020(1)..... $35.00

(4) Overtime parking in the central core area contrary to 11.52.055(b)..... $35.00

(5) Unlawful parking—Municipal parking zone contrary to 11.52.130(a)—(d)..... $35.00

(6) Parking in a no-parking zone contrary to 11.52.020(3).... $50.00

(7) Parking in an alley contrary to 11.52.020(20) $50.00

(8) Parking in a truck zone contrary to 11.52.020(3).... $50.00

(9) Parking left wheel to curb contrary to 11.52.040 ..... $50.00

(10) Parking on a sidewalk area contrary to 11.52.020(4).... $50.00

(11) Parking not wholly within marked spaces contrary to 11.68.080 ..... $50.00

(12) Parking on a private lot contrary to 11.52.020(26) .. $50.00

(13) ¾-ton vehicle parked on residential street contrary to 11.52.020(24) $50.00

(14) Any other parking violations not listed in (1)—(13) above, or for which no other specific penalty is set forth elsewhere in this code $50.00

(b) The failure of an owner or operator to pay to the Wichita Municipal Courts within ten days from the date of violation the appropriate amount as set forth in Subsection (a) herein shall render such owner or operator subject to the penalty provided in Section 11.92.010, and any amendments thereto, for violation of the provisions of this Title and shall include a minimum fine of

*__Note—__Ordinance history; Ord. No. 19-139 §§ 198—200; Ord. No. 19-563 §§ 1—3; Ord. No. 24-964, § 1.

not less than the appropriate amount required under Subsection (a) herein plus an additional fifty dollars for each violation.

(c) The City Traffic Engineer is authorized to create and maintain a schedule of the currently applicable fees associated with parking violations that varies from the schedule established in subsection (a) above in all parking zone-regulated spaces in the city. If the City Traffic Engineer does so, he or she shall post such schedule on the city's website along with the effective date of such changes. In addition to posting such information on the city's website, the City Traffic Engineer shall provide to the Wichita Municipal Court any proposed fine changes no less than 30 days prior to any such changes being implemented. Any variation from the subsection (a) schedule shall also be described on the official traffic control device or parking meter regulating the parking zone-regulated spaces in which the violation occurred. In default of such posting, the subsection (a) schedule shall be enforced.
(Ord. No. 42-140 § 3; Ord. No. 52-326, § 27, 1-9-24)

Sec. 11.92.060. Registration deemed prima facie evidence of identity of violator.

In any proceeding for the violation of the provisions of this title, the registration plate displayed upon the motor vehicle in violation shall constitute in evidence a prima facie presumption that the owner of such motor vehicle was the person who parked or placed such motor vehicle at the place where the violation occurred.
(Ord. No. 30-982 § 138)

Sec. 11.92.070. Prosecution of juvenile traffic offenders; disposition.

(a) Subject to the provisions of this section and of K.S.A. 8-2117 and amendments thereto, the municipal court of the City of Wichita has jurisdiction to hear prosecutions of traffic offenses involving any child 14 or more years of age but less than 18 years of age. The court, upon hearing the prosecution, may impose any fine authorized by law for a traffic offense, including a violation of Section 11.38.150 and amendments thereto, and may order that the child be placed in a juvenile detention facility, as defined by K.S.A. 38-1602 and amendments thereto, for not more than 10 days. If the child is less than 18 years of age, the child shall not be incarcerated in a jail as defined by K.S.A. 38-1602 and amendments thereto. If the statute under which the child is convicted requires a revocation or suspension of driving privileges, the court shall revoke or suspend such privileges in accordance with that statute. Otherwise, the court may suspend the license of any person who is convicted of a traffic offense and who was under 18 years of age at the time of commission of the offense. Suspension of a license shall be for a period not exceeding one year, as ordered by the court. Upon suspending any license pursuant to this section, the court shall require that the license be surrendered to the court and shall transmit the license to the division of vehicles with a copy of the court order showing the time for which the license is suspended. The court may modify the time for which the license is suspended, in which case it shall notify the division of vehicles in writing of the modification. After the time period has passed for which the license is suspended, reinstatement of the license shall be in accordance with the provisions of K.S.A. 8-2117 and amendments thereto.

(b) Instead of suspending a driver's license pursuant to this section, the court may place restrictions on the child's driver's privileges pursuant to K.S.A. 8-292 and amendments thereto.

(c) Instead of the penalties provided in subsections (a) and (b), the court may place the child under a house arrest program, pursuant to K.S.A. 21-4603b and amendments thereto, and sentence the child to the same sentence as an adult traffic offender under the provisions of this code.

(d) As used in this section, "traffic offense" means a violation of any section of this code which prohibits acts which would constitute a violation of the uniform act regulating traffic on highways as set forth in state law, a violation of articles 1 and 2 of chapter 8 of the Kansas Statutes Annotated, or a violation of K.S.A.

41-3104 and amendments thereto, and any violation of a section of this code which prohibits acts which are not violations of state laws and which relate to the regulation of traffic on the roads, highways or streets or the operation of self-propelled or nonself-propelled vehicles of any kind.
(Ord. No. 47-054, § 1, 6-27-06)

CHAPTER 11.96. SCHEDULES*

Sec. 11.96.010. Speed limits.
Sec. 11.96.020. One-way streets.
Sec. 11.96.030. Stop intersections.
Sec. 11.96.050. Parking zones-regulated.
Sec. 11.96.060. Trucks.
Sec. 11.96.070. Controlled-access facilities.
Sec. 11.96.080. Frontage roads.
Sec. 11.96.090. Traffic direction change.
Sec. 11.96.100. Arterial street designation.
Sec. 11.96.120. Main trafficway designation.

Sec. 11.96.010. Speed limits.

In accordance with the provisions of Section 11.24.040 of this Code, and when signs are erected giving notice thereof, the maximum speed limits, except as provided for in Section 11.20.150, should be as set forth in this schedule upon those streets or portions thereof, or areas of street system and at the time specified herein. The maximum speed limit on other streets or segments thereof other than those listed below is thirty miles per hour and no signage is required for enforcement.

Except as listed below, no residential speed limit may be lower than thirty miles per hour. The speed limit of on- and off-ramps to access-controlled highways is the speed limit of the highway until otherwise posted by a regulatory sign or by crossing or merging onto any public street. Speed bumps or humps shall not be installed on residential streets.

Name of Street and Portion Affected	Maximum Speed Limit (Miles Per Hour)
School, Playground, and Safety Zones As provided in Section 11.20.150 or as otherwise posted by the City Traffic Engineer	
Airport Road:	
From Kellogg Avenue to Harry Street	40
Amidon Avenue:	
From Thirty-third Street North to the south abutment of the Amidon Bridge over the Arkansas River	40
Arkansas Avenue:	
1. From Twenty-ninth Street North to Forty-sixth Street North	35
2. From Forty-sixth Street North to the north City limits	40
Armour Drive:	
From Kellogg Avenue to Lincoln Street	35
Broadway Avenue:	
1. From the north City limits to Twenty-first Street North	40
2. From Pawnee Avenue to Patterson Avenue	35

TOPEKA AVENUE, Tenth Street to Twenty-first Street;

EMPORIA STREET, Tenth Street to Twenty-first Street;

ST. FRANCIS STREET, Tenth Street to Seventeenth Street;

NIMS AVENUE, Central Avenue to Murdock Avenue;

NORTH RIVER BOULEVARD, Briggs Avenue to Thirteenth Street;

THIRTEENTH STREET, Hoover Road to Zoo Boulevard;

WEST RIVER BOULEVARD, Wiley Avenue to Briggs Avenue;

WEST CRAWFORD AVENUE, Custer Avenue to Meridian Avenue;

WEST HADDAN AVENUE, Custer Avenue to Meridian Avenue;

WEST SAVANNAH AVENUE, Custer Avenue to Meridian Avenue;

WEST MAXWELL AVENUE, Custer Avenue to Meridian Avenue;

SAINT PAUL AVENUE, W. 27th Street S. to Pawnee Avenue;

RICHMOND AVENUE, W. 27th Street S. to Pawnee Avenue;

WEST DALLAS STREET, S. St. Paul Street to S. Meridian Avenue; and

WEST ANITA STREET, S. St. Paul Street to S. Meridian Avenue.
(Ord. No. 39-108 § 5; Ord. No. 51-169, § 1, 1-14-20; Ord. No. 51-945, § 1, 9-20-22; Ord. No. 52-587, § 3, 12-17-24)

Sec. 11.96.070. Controlled-access facilities.

In accordance with the provisions of Section 11.84.010 of this code, the following streets or parts of streets are established as controlled-access facilities:

Interstate Route 235 from the south city limits to the north city limits;

Interstate Route 135 from the south city limits to the north city limits;

West Kellogg (U.S. Highway 54) from Main Street to the west city limits;

Southeast Boulevard (K-15) from Hydraulic Avenue to the south city limits;

Southwest Boulevard (K-42) from West Kellogg (U.S. 54) to the west city limits;

East Kellogg (U.S. 54) from Topeka Avenue to Roosevelt Avenue.
(Ord. No. 39-108 § 6)

Sec. 11.96.080. Frontage roads.

In accordance with the provisions of Section 11.84.020 of this code, the following streets or parts of streets are established as frontage roads:

(a) U.S. Highway 54 (Kellogg Avenue);

(1) From the west city limits (both sides) to the west line of the Wichita-Valley Center Flood Control Project;

(2) From the east line of Interstate 235 right-of-way (north side) to West Street;

(3) From the west line of Topeka Avenue (south side) to the north-south alley one-half block west of Topeka Avenue;

(4) From the east line of Edgemoor Street (south side) to the right bank of Gypsum Creek.

(5) From the west line of Ridgecrest Drive (north side) to the west line of Woodlawn Avenue;

(6) From the west line of Lakeside Drive (north side) to the right bank of Gypsum Creek,

(7) From the west side of Greenwich Road to a point approximately 2,000 feet west (south side);

(8) From a point approximately 2,000 feet east of Greenwich Road to a point approximately 1,000 feet west of the Kansas Turnpike crossing underneath U.S. Highway 54 (south side);

(9) From the east line of Greenwich Road to a point approximately 1,000 feet

west of the Kansas Turnpike crossing underneath U.S. Highway 54 (north side).

(b) George Washington Boulevard;

(1) From the south line of Bayley Avenue (both sides) to the north line of Harry Street;

(2) From the south line of Harry Street (west side) to the west line of Hillside Avenue;

(3) From the south line of Skinner Street (east side) to a point approximately 300 feet southeast of Hillside Avenue;

(4) From the north line of Clark Street to the south line of Kinkaid Avenue (west side);

(5) From the north line of Pawnee Avenue north to a point approximately 200 feet north of Elmwood Street (east side);

(6) From the north line of Pawnee Avenue to a point approximately 300 feet north of Pawnee Avenue (west side).

(c) West Central Avenue from the center line of Westlink Avenue (north side) to the west line of Caddy Lane.

(d) 47th Street South:

(1) From the east line of Seneca Street (north side) to a point approximately 200 feet east of LaClede Avenue.

(e) North Broadway from a point approximately 125 feet south of I-235 right-of-way to a point approximately 225 feet south of I-235 right-of-way (west side).

(f) Southwest Boulevard (K-42), (west side) from Harry Street to Young Street.

(Ord. No. 39-108 § 7)

Sec. 11.96.090. Traffic direction change.

(a) The city traffic engineer is authorized to determine and designate streets, parts of streets or specific lanes thereon upon which vehicular traffic shall proceed in one direction during one period and the opposite direction during another period of the day and shall place and maintain appropriate markings, signs, barriers or other devices to give notice thereof. The city traffic engineer may erect signs temporarily designating lanes to be used by traffic moving in a particular direction, regardless of the centerline of the roadway.

(b) It is unlawful for any person to operate any vehicle in violation of such markings, signs, barriers or other devices so placed in accordance with this section.

(Ord. No. 30-982 § 148)

Sec. 11.96.100. Arterial street designation.

The following streets within the city limits are designated arterial streets:

Amidon Avenue from the north line of Seventeenth Street extended to Thirty-third Street North;

Arkansas Avenue, from Twenty-First Street north to north city limits;

Broadway Avenue, from south city limits to north city limits;

Central Avenue, from west city limits to McLean Boulevard;

Central Avenue, from Seneca Street to east city limits;

Century II Drive from Douglas Avenue to Main Street;

Douglas Avenue, from West Street to Woodlawn Avenue;

Douglas Avenue, from east city limits of Eastborough to Webb Road;

Edgemoor Drive, from Mt. Vernon Road to Ninth Street;

Emporia Avenue, from Pawnee Avenue to Seventeenth Street North;

English Street, from Main Street to St. Francis Avenue;

Fifty-Fifth Street South, from west city limits to Hydraulic Avenue;

First Street, from McLean Boulevard to Grove Street;

Forty-Seventh Street South, from west city limits to east city limits;

George Washington Boulevard, from Lincoln Street to south city limits;

Greenwich Road, from north city limits to south city limits;

Grove Street, from Lincoln Street to Twenty-First Street North;

Harry Street, from Seneca Avenue to east city limits;

Hillside Avenue, from Thirty-First Street South to north city limits;

Hoover Street, from Southwest Boulevard (K-42) to south city limits;

Hydraulic Avenue, from south city limits to Central Avenue;

Interstate 135, from north city limits to Interstate 235;

Interstate 235, from north city limits to Kansas Turnpike Authority;

Kellogg Street (U.S. 54), from east city limits to west city limits;

Lewis Street, from McLean Boulevard to St. Francis Avenue;

Lincoln Street, from McLean Boulevard to Rock Road;

MacArthur Road, from west city limits to east city limits;

Main Street, from Pawnee Avenue to Thirteenth Street North;

Maize Road, all sections within city limits;

Maple Street, from McLean Boulevard to west city limits;

Market Street, from Pawnee Avenue to Twenty-First Street North;

McCormick Avenue, from McLean Boulevard to West Street;

McLean Boulevard, from Thirty-First Street to Arkansas River north of Fifteenth Street North;

Meridian Avenue, from south city limits to Central Avenue;

Meridian Avenue, from I-235 to the north city limits;

Mid-Continent Drive, from Harry Street to University Avenue;

Mosley Avenue, from Murdock Avenue to Twenty-First Street North;

Mt. Vernon Road, from Woodlawn Avenue to Broadway Avenue;

Murdock Avenue, from Waco Avenue to Cleveland Avenue;

Ninth Street, from Cleveland Avenue to Hillside Avenue;

Oliver Street, from south city limits to north city limits;

One Hundred Nineteenth Street West, all sections within city limits;

Park Place, from Thirteenth Street North to Twenty-First Street North;

Pawnee Avenue, from west city limits to Tyler Road;

Pawnee Avenue, from West Street to Kansas Turnpike Authority;

Pawnee Avenue, from Rock Road to east city limits;

Ridge Road, from University Avenue to north city limits;

Rock Road, all sections within city limits;

St. Francis Avenue, from Pawnee to Seventeenth Street North;

Second Street, from Seneca Street to Grove Street;

Seneca Street, from south city limits to Central Avenue;

Southeast Boulevard, from Washington Avenue to south city limits;

Southwest Boulevard (K-42), from west city limits to on-ramp westbound traffic U.S. Highway 54 (Kellogg Street);

Seventeenth Street North, from Waco Avenue to Oliver Street;

Thirteenth Street North, from west city limits to 1100 feet east of Ridge Road;

Thirteenth Street North, from Zoo Boulevard to east city limits;

Thirty-First Street South, from West Street to Broadway Avenue;

Thirty-First Street South, from Southeast Boulevard to Oliver Street;

Thirty-Seventh Street North, all sections within city limits;

Topeka Avenue, from Pawnee Avenue to Seventeenth Street North;

Twenty-Fifth Street North, from Interstate 235 to Arkansas Avenue;

Twenty-First Street North, from West Street to east city limits;

Twenty-Ninth Street North, from Amidon Avenue to Hydraulic Avenue;

Twenty-Ninth Street North, from Oliver Street to east city limits;

Tyler Road, from south city limits to north city limits;

Waco Avenue, from Douglas Avenue to Twenty-First Street North;

Washington Avenue, from Southeast Boulevard to Murdock Avenue;

Water Street, from Lewis Street to Waterman Street;

Water Street, from Douglas Avenue to Second Street;

Waterman Street, from Wichita Street to Hydraulic Avenue;

Webb Road, all sections within city limits;

West Street, from south city limits to Twenty-First Street North,

West Street, from K-96 Highway to north city limits;

Wichita Street, from First Street to Central Avenue;

William Street from Main Street to St. Francis Avenue;

Womer, from Thirty-Third Street North to I-235;

Woodlawn Avenue, from north city limits of Eastborough to north city limits;

Zoo Boulevard, from Central Avenue to north city limits.
(Ord. No. 39-108 § 8)

Sec. 11.96.120. Main trafficway designation.

The following streets within the city limits are designated main trafficways:

Amidon Avenue from the north line of Seventeenth Street extended to Thirty-third Street North;

Arkansas Avenue, from Twenty-first Street North to north city limits;

Broadway Avenue, from south city limits to Patterson Avenue;

Broadway Avenue, from Thirteenth Street to north city limits;

Central Avenue, from west city limits to McLean Boulevard;

Central Avenue, from Seneca Street to east city limits;

Douglas Avenue, from Edgemoor to Woodlawn Avenue;

Douglas Avenue, from east city limits of Eastborough to Webb Road;

Fifty-fifth Street South, from west city limits to Hydraulic Avenue;

Forty-seventh Street South, from west city limits to east city limits;

George Washington Boulevard, from Lincoln Street to south city limits;

Greenwich Road, from north city limits to south city limits;

Grove Street, from Lincoln Street to Elm Street;

Harry Street, from Seneca Avenue to east city limits;

Harry Street, from West Street to Meridian Avenue;

Hillside Avenue, from Thirty-first Street South to north city limits;

Hoover Street, from Southwest Boulevard (K-42) to south city limits;

Hydraulic Avenue, from Twenty-ninth Street North to north city limits;

Hydraulic Avenue, from south city limits to Harry Street;

Kellogg Street (U.S. 54), from east city limits to west city limits;

Lincoln Street, from Osage Street to Rock Road;

MacArthur Road, from west city limits to east city limits;

Maize Road, all sections within city limits;

Maple Street, from Seneca Street to west city limits;

McCormick Avenue, from Osage Street to West Street;

McLean Boulevard, from Thirty-first Street South to Arkansas River north of Fifteenth Street North;

Meridian Avenue, from south city limits to Maple Street;

Meridian Avenue, from Interstate 235 to the north city limits;

Mid-Continent Drive, from Harry Street to University Avenue;

Mosley Avenue, from Murdock to Twenty-first Street North;

Mt. Vernon Road, from Woodlawn Avenue to Southeast Boulevard (K-15);

Murdock Avenue, from Waco Avenue to Cleveland Avenue;

Oliver Street, from south city limits to north city limits;

One Hundred Nineteenth Street West, all sections within city limits;

One Hundred Twenty-seventh Street East, all sections within city limits;

Pawnee Avenue, from West Street to Kansas Turnpike Authority;

Pawnee Avenue, from Rock Road to east city limits;

Ridge Road, from University Avenue to north city limits;

Rock Road, all sections within city limits;

Seneca Street, from south city limits to Central Avenue;

Southeast Boulevard (K-15), from Washington Avenue to south city limits;

Southwest Boulevard (K-42), from west city limits to U.S. Highway 54 (Kellogg Street);

Seventeenth Street North, from Hillside Avenue to Oliver Street;

Thirteenth Street North, from west city limits to 1,100 feet east of Ridge Road;

Thirteenth Street North, from Zoo Boulevard to east city limits;

Thirty-first Street South, from West Street to Broadway Avenue;

Thirty-First Street South, from Southeast Boulevard (K-15) to Oliver Street;

Thirty-ninth Street North, from Toben to Webb Road;

Thirty-seventh Street North, all sections within city limits;

Toben, from Thirty-seventh Street North to Thirty-ninth Street North;

Twenty-fifth Street North, from Interstate 235 to Arkansas Avenue;

Twenty-first street North, from West Street to east city limits;

Twenty-ninth Street North, from Amidon Avenue to Hydraulic Avenue;

Twenty-ninth Street North, from Oliver Street to east city limits;

Tyler Road, from south city limits to north city limits;

Washington Avenue, from Southeast Boulevard (K-15) to First Street;

Washington Avenue, from Central Avenue to Murdock Avenue;

Webb Road, all sections within city limits;

West Street, from K-96 Highway to north city limits;

Womer Drive, from Thirty-third Street North to Interstate 235;

Woodlawn Avenue, from north city limits of Eastborough to north city limits;

Woodlawn Avenue, from south city limits to Kellogg Street (U.S. 54);

Zoo Boulevard, from Central Avenue to north city limits.
(Ord. No. 41-755 § 1)

CHAPTER 11.97. TOWING AND IMPOUNDMENT

Sec. 11.97.010. Authority to tow or impound without notice to owner.
Sec. 11.97.020. Notice after impoundment.
Sec. 11.97.030. Release procedures.
Sec. 11.97.040. Hearing procedures.
Sec. 11.97.050. Impoundment procedures—Nuisance vehicles.
Sec. 11.97.055. Establishment of payment plan program for assistance with payment of impound fees.
Sec. 11.97.060. Contract for towing and storage.
Sec. 11.97.070. Responsibilities of the contractor for towing and storage services.

Sec. 11.97.010. Authority to tow or impound without notice to owner.

(a) The police department, and all members thereof are authorized to remove and/or tow away, or have removed and towed away by commercial or city owned towing service to an impound lot or other safe place designated by the city, without notice to the owner or lawful custodian of such vehicle, all vehicles found under the hereinafter enumerated circumstances:

(1) When any vehicle upon a street, highway, bridge, or in any tunnel, is so disabled or unattended so as to constitute an obstruction to traffic and the person or persons in charge of the vehicle cannot safely operate the vehicle or are unable to provide for its custody or removal to a lawfully secure location; or

(2) When any vehicle is parked illegally in such a manner as to constitute a hazard or obstruction to the safe movement of traffic; or

(3) When the operator of any vehicle is arrested and taken into custody by the police department and such vehicle would thereby be left unattended and create a hazard or obstruction to the safe movement of traffic; or

(4) When any vehicle is found being driven on the streets and is not in proper or safe condition to be driven and cannot be removed safely to a lawfully secured location by the owner or operator; or

(5) When the driver is injured in an accident and is unable to provide for its custody or removal; or

(6) When a vehicle is parked on a snow emergency route or is otherwise in violation of Chapter 11.39 of this Code entitled "Snow Emergency", and amendments thereof; or

(7) When a vehicle is illegally parked in any area also designated by signs as a tow zone and to which a uniform traffic citation has been affixed to said vehicle or presented to the owner or operator of said vehicle; or

(8) When any vehicle is reported or determined to be stolen and is recovered; or

(9) When any vehicle is subject to seizure as evidence in a criminal prosecution; or

(10) When any vehicle is subject to seizure or forfeiture under the laws of this state or federal law.

(b) A vehicle is declared to be a public nuisance and any police officer or other authorized city employee may remove and impound such vehicle under the following circumstances:

(1) Whenever any unoccupied vehicle is left parked continuously upon any street of the city for forty-eight hours or more, and under these circumstances, it shall be the duty of the chief of police or the chief's designee to cause such motor vehicle to be removed and impounded. The provisions of this section may not be defeated by a mere location change of any offending vehicle on the same side of the street within the same block;

(2) When any unoccupied vehicle is found parked in or upon any regularly designated parking meter space, or in or upon any street, sidewalk or alley in

violation of any of the provisions of this title or any other traffic ordinance of the city.

(3) Vehicles which are subject to being towed and impounded pursuant to this subsection under conditions that do not constitute an immediate obstruction to the normal and safe movement of traffic and are determined to be abandoned shall not be towed or impounded until the motor vehicle has placed on its windshield or in another prominent location a sticker or placard indicating the vehicle is in violation of this chapter and shall be removed by the Wichita police department after forty eight hours from the time the sticker or placard was attached to the vehicle. The sticker or placard shall include such other information as the chief of police determines is necessary.

(c) A vehicle which is subject to being impounded under any other provision of this Code may not be towed until the owner or person entitled to lawful custody has been notified and given an opportunity to remove said vehicle within a reasonable time; provided, however, that where the owner or person entitled to custody cannot be located after a bona fide effort has been made to do so then such vehicle may be towed.
(Ord. No. 45-321 § 1; Ord. No. 42-460 § 1)

Sec. 11.97.020. Notice after impoundment.

(1) Whenever any motor vehicle is towed and impounded pursuant to the provisions of this Code, notice, if possible, shall be given for vehicles registered in Kansas to the registered owner, addressed to the address as shown on the certificate of registration, and to the lienholder of record, if any, in the county in which the title shows the owner resides, that such vehicle has been towed and impounded, the reasons for the tow, how the vehicle may be recovered to include the right of hearing set out in Section 11.97.040, and that unless the owner or lienholder takes action within fifteen days from the date of the mailing of the notice, proceedings may be instituted to sell the vehicle at auction or otherwise dispose of the vehicle to cover any costs accrued as a result of the towing and impounding. Said notice shall be by written notice provided to the owner of the motor vehicle at the time the motor vehicle is towed, provided the officer providing such notice has obtained written acknowledgment of receipt of the notice. In addition, said notice may be made by certified mail with return receipt requested. Notice by certified mail shall be mailed to the owner of vehicles displaying Kansas registration plates no later than close of business of the third business day after the towing. The police department shall use reasonable diligence in determining the title or registered owner of the vehicle. If the vehicle towed is registered in another state or country or bears no registration plate, then the police department shall initiate prompt action to apprise the owner of the vehicle's location and potential disposition.

(2) Any motor vehicle which has been impounded as provided in this section for thirty days or more shall be disposed of in the following manner:

If such motor vehicle has displayed thereon a registration plate issued by the division of vehicles and has been registered with the division, the public agency shall request verification from the division of vehicles of the last registered owner and any lienholders, if any. Such verification request shall be submitted to the division of vehicles not more than thirty days after such agency took possession of the vehicle. The public agency shall mail a notice by certified mail to the registered owner thereof, addressed to the address shown on the certificate of registration, and to the lienholder, if any, or record in the county in which the title show the owner resides, if registered in this state. The notice shall state that, if the owner or lienholder does not claim such motor vehicle and pay the removal and storage charges incurred by such public agency on it within fifteen days from the date of the mailing of the notice, it will be sold at public auction to the highest bidder for cash. The notice shall be mailed within ten days after receipt of verification of the last owner and any lienholders, if any, as provided in this subsection.

After fifteen days from date of mailing notice, the public agency shall publish a notice once a week for two consecutive weeks in a newspaper of general circulation in the county where such motor vehicle was abandoned and left, which notice shall describe the motor vehicle by name of maker, model, serial number, and owner, if known, and stating that it has been impounded by the public agency and that it will be sold at public action to the highest bidder for cash if the owner thereof does not claim it within ten days of the

date of the second publication of the notice and pay the removal and storage charges, and publication costs incurred by the public agency. If the motor vehicle does not display a registration plate issued by the division of vehicles and is not registered with the division, the public agency, after thirty days from the date of impoundment, shall request verification from the division of vehicles of the last registered owner and any lienholders, if any. Such verification request shall be submitted to the division of vehicles no more than thirty days after such agency took possession of the vehicle. The public agency shall mail a notice by certified mail to the registered owner thereof, addressed to the address as shown on the certificate of registration, and to the lienholder, if any, of record in the county in which the title shows the owner resides, if registered in this state. The notice shall state that if the owner or lienholder does not claim such motor vehicle and pay the removal and storage charges incurred by such public agency on it within fifteen days from the date of the mailing of the notice, it will be sold at public auction to the highest bidder for cash. The notice shall be mailed within ten days after receipt of verification of the last owner and any lienholders, if any, as provided in this subsection. After fifteen days from the date of mailing notice, the public agency shall publish a notice in a newspaper of general circulation in the county where such motor vehicle was abandoned and left, which notice shall describe the motor vehicle by name of maker, model, color and serial number and shall state that it has been impounded by said public agency and will be sold at public auction to the highest bidder for cash, if the owner thereof does not claim it within ten days of the date of the second publication of the notice and pay the removal charges incurred by the public agency.
(Ord. No. 46-553 § 1)

Sec. 11.97.030. Release procedures.

(A) All motor vehicles towed and impounded pursuant to the provisions of this Code shall be surrendered to the owner subject to the provisions of subsection (B) of this section, upon presentation of the following to the commercial or city tow service where the vehicle is impounded:

1. Proof of ownership of the vehicle by lawful title or other proof of lawful entitlement to the vehicle;
2. Proof of a driver's license or other valid photo identification;
3. Proof of valid registration; and
4. Payment of all storage charges and towing fees incurred in the towing and impounding of the vehicle must be made prior to release of the vehicle unless otherwise relieved of that requirement by application of the hearing provisions set forth in this chapter.

(B) Vehicles towed pursuant to subsection (a)(10) of Section 11.97.010 shall be disposed of pursuant to the Kansas Standard Asset Seizure and Forfeiture Act, K.S.A. 60-4101 et seq. and amendments thereto.
(Ord. No. 46-553 § 2)

Sec. 11.97.040. Hearing procedures.

(a) Owners or persons entitled to the lawful custody of impounded motor vehicles who wish to contest the validity of the motor vehicle tow may request a hearing for such purpose by notifying the Wichita municipal court clerk of the request in writing. The request shall state the grounds upon which the person requesting the hearing believes the impoundment invalid or unjustified. Absent exigent circumstances, such request must be made no later than five business days from impoundment of the vehicle or receipt of the notice of impoundment, whichever is later.

(b) A hearing for the purpose of determining the validity of the tow shall be held by the municipal court within seven days of receipt of proper request filed pursuant to this section, except where a vehicle has not yet been released from impoundment, in which case the court will set and conduct the hearing within three working days after such hearing is requested. The times of the hearing shall be set by the clerk of the municipal court.

(c) Pending such hearing, the owner or person lawfully entitled to custody of any impounded vehicle may retrieve the impounded vehicle upon payment of an amount equal to the towing and storage charges incurred by the vehicle. If such payment is made, the vehicle will be released immediately upon proof of entitlement thereof.

If the owner or person lawfully entitled to custody of any vehicle does not make advance payment of the charges, then such vehicle will remain in storage until a hearing is had.

(d) The owner(s) and any other person(s) who have an interest in the vehicle are only entitled to one hearing for each tow of that vehicle. Any person who fails to appear at the hearing without good cause will not be entitled to have such hearing rescheduled.

(e) If after hearing, the court determines that there was no factual basis for the impoundment of said vehicle, then the vehicle will be released to the owner or person lawfully entitled to custody thereof without costs, and any amount previously paid by such person for towing and storage charges will be returned to them by the wrecker service operator. If after hearing it is determined that the vehicle was lawfully towed, and towing and storage charges have been previously paid by the owner or person having lawful custody of the vehicle, then such payment may be retained by the wrecker service operator.

(f) If any owner or person lawfully entitled to custody of any impounded vehicle makes an advance payment of all towing and storage costs but does not appear at the designated time for hearing, such payment shall be forfeited to the wrecker service operator.

(g) Owners of vehicles which are stolen and impounded under the provisions of this title shall be responsible for payment of any charges in connection with towing or storage of any stolen vehicle.

(h) An appeal from an order of a municipal court judge made pursuant to this section of the code shall be directed to the Eighteen Judicial District Court of the State of Kansas pursuant to K.S.A. 60-2101(d) and amendments thereto.
(Ord. No. 45-321 § 4; Ord. No. 42-460 § 3)

Sec. 11.97.050. Impoundment procedures—Nuisance vehicles.

Whenever any vehicle is towed under the provisions of Sections 7.40.047 or 8.01.150 of this Code, and amendments thereto, disposition of such vehicle shall be in compliance with the procedures for impoundment, notice and public auction as set forth above, in compliance with K.S.A. 8-1102(a)(2), and amendments thereto. Following any sale by public auction of a vehicle determined to be a nuisance, the purchaser, or if none, the city, may obtain title to such vehicle pursuant to the procedures set forth in K.S.A. 12-1617e(b) and amendments thereto.
(Ord. No. 45-321 § 5; Ord. No. 42-460 § 4)

Sec. 11.97.055. Establishment of payment plan program for assistance with payment of impound fees.

a. Payment Plan for Impound Fees. The City Manager is authorized to establish an installment payment program for motor vehicle owners who are unable to pay fees incurred due to the impoundment of their motor vehicle pursuant to Section 11.97.010. Such program shall be consistent with the guidelines set forth below:

1. The owner (or renter) of the towed vehicle must be an individual. Businesses, including partnerships, trusts, for-profit corporations, and nonprofit corporations are not eligible to participate in the program.

2. All requests for assistance must be received within five (5) calendar days from the date of the tow or impound of the motor vehicle.
3. The owner must show proof of valid registration and ownership of the motor vehicle.
4. The owner must provide proof that they are economically disadvantaged.
5. The payment plan should provide for monthly installments of no more than twenty-five dollars ($25) for total amounts not to exceed six hundred dollars ($600). All fees should be paid within twenty-four (24) months.
6. The plan will limit repayment of the City's processing fee collected from impound contractors to five dollars ($5) or less for indigent persons.
7. Owners may only participate in one payment plan at any given time.

b. Homeless Fee Waiver.

1. The City Manager is also authorized to establish a program to provide a one-time waiver of impound fees, not to exceed $600, for individuals who are homeless.
2. Only individuals who are receiving homeless services and who are registered with the Homeless Management Information System at the time of impoundment of the motor vehicle are eligible for the waiver.

c. Reporting. A report regarding the number of payment plans approved, funds collected, and any funds waived will be submitted to the City Council in July 2023 so that Council may evaluate the continued need for and effectiveness of the program.
(Ord. No. 51-864, § 1, 6-7-22)

Sec. 11.97.060. Contract for towing and storage.

(a) The city may, after a competitive bid process, contract for the towing and storage of vehicles towed pursuant to the Code of the City of Wichita. Any such bid process shall be based on such specifications for towing and storage of vehicles as the city deems appropriate and in the public interest and the award of a contract for towing and storage of vehicles shall be based on the following factors:

(1) Amount of the bid;

(2) Integrity, skill and business judgment of the bidder;

(3) General experience in providing towing and storage services;

(4) Conduct and performance under previous towing/impound contracts with the City of Wichita or any other city as the same relates to honesty, promptness, skill, efficiency, and a satisfactory relationship with vehicle owners;

(5) Existing availability of equipment, facilities and personnel; and

(6) Financial ability and willingness to expand or improve available equipment, facilities and services.

(b) Upon the award of a contract under subsection (a) above, the contractor shall file with the city clerk a list setting out the name and location of each storage location of the contractor.
(Ord. No. 45-321 § 6; Ord. No. 48-758, § 3, 6-22-10)

Sec. 11.97.070. Responsibilities of the contractor for towing and storage services.

(a) Proof of Financial Responsibility. Any contract for towing and storage under the provisions of this chapter shall require the contractor to demonstrate proof of financial responsibility for any liability which the city may have as a result of any negligence, willful conduct, or breach of contract by the contractor, and for any damages which the owner of an impounded vehicle may sustain as a result of damages to or loss of the vehicle or its contents while in the custody of the contractor. Proof of financial responsibility shall be furnished by proof of insurance, by filing a surety bond, and/or by depositing cash in such amounts as the director of finance shall determine necessary.

(b) Notice to Owners. Any contract for towing and storage under provisions of this Chapter shall require the contractor to post conspicuous notice, at any location where vehicles are impounded, of the rights of vehicle owners under this chapter.
(Ord. No. 45-321 § 7)

CHAPTER 11.98. MOTOR-VEHICLE FUELS—DISABLED PERSONS*

Sec. 11.98.010. Dispensing of motor-vehicle fuels to disabled persons.

Sec. 11.98.010. Dispensing of motor-vehicle fuels to disabled persons.

Every dealer engaged in the retail sale of motor-vehicle fuels at any service station providing facilities for both self-service and full-service sales shall require any attendant whose duties include the dispensing of motor-vehicle fuels at full-service facilities to dispense motor-vehicle fuels into any motor vehicle parked at a self-service facility which displays a license plate issued to a disabled veteran pursuant to K.S.A. § 8-161, and amendments thereto, or a license plate or placard issued to a disabled individual pursuant to K.S.A. § 8-1.125, and amendments thereto, and such disabled veteran or disabled individual operating such motor vehicle is not accompanied by a person capable of dispensing motor-vehicle fuels. The price charged for such motor-vehicle fuel shall be the price charged the general public for motor-vehicle fuels dispensed at such self-service facility. Such service shall be provided only during hours in which full-service sales are offered to the general public and such attendant shall not be required to perform other services which are offered only at full-service facilities. The provisions herein set forth the policy of the City as to the dispensing of motor fuels to disabled individuals. The failure to comply with the provisions herein shall not be unlawful or punishable under Section 1.04.060 of the code of the City.
(Ord. No. 50-896, § 9, 11-27-18)

***Editor's note—**Ord. No. 50-896, § 9, adopted Nov. 27, 2018, amended Ch. 11.98 in its entirety to read as herein set out. Former Ch. 11.98, § 11.98,010, pertained to motor-vehicle fuels—handicapped persons, and derived from Ord. No. 40-051 § 1).

CHAPTER 11.99. PRIVATE TOWING REGULATIONS

Sec. 11.99.010. Purpose and intent.
Sec. 11.99.020. Definitions.
Sec. 11.99.030. Unlawful acts.
Sec. 11.99.040. Nonapplicability to governmental vehicles and tows.
Sec. 11.99.045. Fees for towing services.
Sec. 11.99.050. Penalty.

Sec. 11.99.010. Purpose and intent.

It is declared that the purpose and intent of this chapter is to protect the public and the rights of persons whose motor vehicles may be towed and stored by private towing services at the request of third parties.
(Ord. No. 46-552 § 1)

Sec. 11.99.020. Definitions.

As used in this chapter, the words and phrases defined in this section shall have the following meanings, unless the context otherwise requires:

A. "Towing" means the moving or removing or the preparation therefor of a motor vehicle for which a service charge is made, either directly or indirectly, of a motor vehicle from private property without the knowledge and actual consent of the owner or the person in legal possession of the vehicle.

B. "Tow truck" means any truck or other vehicle adapted or used for the purpose of towing, winching, carrying or otherwise removing another vehicle from a given location for commercial purposes.

C. "Storage" means the custody and control of a vehicle by a tow truck operator as a result of a third-party ordered tow.

D. "Tow operator" means any person engaged in the business of offering or providing a towing service for commercial purposes.

E. "Private property" means all property privately owned regardless of whether the property is open to public access.

F. "Person" means a natural person or a legal entity such as, but not limited to, an individual, firm, association, joint stock company, syndicate, partnership or corporation.
(Ord. No. 46-552 § 2)

Sec. 11.99.030. Unlawful acts.

It is unlawful and a violation of this chapter for any person to fail to comply with the following regulations when involved in the towing or request of towing of motor vehicles from private property:

A. Notification. The property owner or person requesting the towing of or the removal of a vehicle from private or public property shall, within one hour of completion of such towing or removal, notify the Wichita Police Department records bureau of the following information concerning the tow or removal:

(1) Vehicle make;

(2) Vehicle model;

(3) Vehicle year;

(4) Vehicle VIN;

(5) License plate number;

(6) Ultimate destination where vehicle is towed to and stored;

(7) Person ordering the tow;

(8) Address from which the vehicle is towed.

B. Notice and Sign Requirements. Except for property appurtenant to and obviously a part of a single-family residence, and except for instances when notice is personally given to the owner or other legally authorized person in control of the vehicle that the area in which that vehicle is parked is reserved or otherwise unavailable for unauthorized vehicles and thus are subject to being removed at the owner's or operator's expense, any property owner or person in legal possession of the property, prior to towing or removing any vehicle from private or public property without the consent of the owner or other legally authorized

person in control of that vehicle, must post a sign meeting the following requirements:

(1) The sign must be prominently placed at each driveway access or curb cut allowing vehicular access to the property, within five feet from the public right-of-way line. If there are no curbs or access barriers, the signs must be posted not less than one sign for each 25 feet of lot frontage;

(2) The sign must clearly indicate, in lettering of at least one and one-half inches high and one-half inch wide, that unauthorized parking is prohibited and further clearly marked with lettering of at least one inch high and three-eighths inch wide indicating that unauthorized vehicles will be towed away at the owner's expense;

(3) A business with twenty or fewer parking spaces satisfies the notice requirements of this section by prominently displaying a sign stating "Reserved parking for customers only. Unauthorized vehicles will be towed away at the owner's expense." in light-reflective letters on a contrasting background.

(Ord. No. 46-552 § 3)

Sec. 11.99.040. Nonapplicability to governmental vehicles and tows.

The provisions of this chapter shall not apply to law enforcement, firefighting, rescue squad, ambulance or other governmental vehicles which are marked as such, or to property owned by any governmental entity.

(Ord. No. 46-552 § 4)

Sec. 11.99.045. Fees for towing services.

As required by K.S.A. 8-1103(c), the following maximum fees for towing services, provided pursuant to this Chapter, shall be established as follows:

(a) *Towing.* There shall be a maximum charge of $120.00 for towing a vehicle from one point to another within the corporate limits of the City when requested by the owner of private property as provided for by this Chapter. Beginning on or after June 1, 2024, maximum towing charges will increase by four percent (4%) each year. Prices shall be rounded to the nearest dollar.

(b) *Heavy Duty Towing.* There shall be a maximum charge of $312 per hour, with a two hour minimum, for towing a vehicle weighing more than 10,000 pounds from one point to another within the corporate limits of the City when requested by the owner of private property as provided for by this Chapter. Beginning on or after June 1,2024, maximum heavy duty towing charges will increase each year by four percent (4%) each year. Prices shall be rounded to the nearest dollar.

(c) *Mileage.* In addition, mileage at the rate of $4.70 per mile from the point of hookup for each mile any vehicle is towed within the City may be charged. Towing shall be by way of the most reasonable direct route between the point of the tow's origination and its destination. Beginning on or after June 1, 2024, maximum towing charges will increase by four percent (4%) each year. Prices shall be rounded to the nearest tenth.

(d) *Storage Fee.* A maximum fee of $36.00 per day may be assessed for each 24-hour period or portion thereof for storage at the wrecker or tow company's facility. Beginning on or after June 1, 2024, maximum towing charges will increase by four percent (4%) each year. Prices shall be rounded to the nearest dollar.

(e) *Heavy Duty Storage Fee.* A maximum fee of $52.00 per day may be assessed for each 24-hour period or portion thereof for storage of vehicles weighing more than 10,000 pounds at the wrecker or tow company's facility. Beginning on or after June 1, 2024, the maximum heavy duty

storage charges will increase by four percent (4%) each year. Prices shall be rounded to the nearest dollar.

(f) Towing service companies shall provide to each owner or other responsible person an itemized bill indicating the amount for each service provided.

(Ord. No. 49-675, § 1, 3-25-14; Ord. No. 52-047, § 7, 4-4-23)

Sec. 11.99.050. Penalty.

Any person that violates the provisions of this chapter shall be fined not less than $100.00 nor more than $1,000.00. In addition to such fine the court may sentence any person convicted hereunder to no more than 30 days in jail.
(Ord. No. 46-552 § 5)

Title 12

RAILROADS

Ch. 12.04. In General

Ch. 12.08. Crossing Signals

CHAPTER 12.04. IN GENERAL*

Sec. 12.04.010. Duties of companies as to streets, etc., improvements—Generally.
Sec. 12.04.020. Duty of companies as to streets, etc., improvements—Payment of cost generally.
Sec. 12.04.030. Duty of companies as to streets, etc., improvements—Portion of street, etc., deemed used by companies.
Sec. 12.04.040. Duty of companies as to streets, etc., improvements—Procedure where railroad occupies space already occupied by another company.
Sec. 12.04.050. Duty of companies as to streets, etc., improvements—Cost to constitute lien if paid by city.
Sec. 12.04.055. Service of notice to comply.
Sec. 12.04.060. Penalty.
Sec. 12.04.065. Abandonment of tracks—Removal required.
Sec. 12.04.080. Reserved.
Sec. 12.04.090. Standing of cars near grade crossings.
Sec. 12.04.100. Erection and maintenance of railroad signals.
Sec. 12.04.110. Leaving vehicles on railroad property.
Sec. 12.04.120. Clinging to or climbing on trains, etc.
Sec. 12.04.130. Stealing rides.
Sec. 12.04.140. Applicability of Sections 12.04.110 and 12.04.120.

Sec. 12.04.010. Duties of companies as to streets, etc., improvements—Generally.

All railroad companies operating within the corporate limits of the city are required to keep the streets and alleys over which they run properly drained, and to light the same whenever directed by the city council, to construct, maintain and keep in repair to their full width all crossings over all streets, alleys and ditches used by them, to construct and maintain drains and culverts where crossed by any line of the railroad over all streets or alleys over which they run, and to comply with orders, of the city council, directing the laying and construction of railroad tracks, turnouts or switches and to regulate the grade of the same and requiring all such companies to conform to the grade of the streets and alleys of the city as they may be hereafter or are now established. Such crossings shall be constructed, maintained and repaired in accordance with specifications now on file in the department of public works.
(Ord. 40-061 § 1)

Sec. 12.04.020. Duty of companies as to streets, etc., improvements—Payment of cost generally.

Each of the railway companies referred to in Section 12.04.010 shall pay the cost of grading, paving, repaving, draining and repairing of streets and alleys used or occupied by each of such railway companies.
(Ord. No. 12-522 § 3)

Sec. 12.04.030. Duty of companies as to streets, etc., improvements—Portion of street, etc., deemed used by companies.

The portion of the street or alley used or occupied by railway companies, under the provisions of the two preceding sections, shall be deemed to be the space between their tracks and thirty inches on the outside of each of their rails and all of the space between two or more tracks, turnouts or switches.
(Ord. No. 40-061 § 2)

Sec. 12.04.040. Duty of companies as to streets, etc., improvements—Procedure where railroad occupies space already occupied by another company.

Any railway company occupying any street or alley already occupied by any company referred to in Section 12.04.010, in addition to paying for paving or repaving, as provided for in the preceding sections, shall pay one-half of the cost of

*__Case law reference—__For case relative to former ordinance of city (No. 9286) relative to railroads, see *City of Wichita vs. Wichita Union Terminal Railroad Co.* 127 Kans. 855, 275 P. 171.

__Cross reference—__As to exemption of railroads from provisions as to pyrotechnics, see § 15.08.070 of this Code. As to interference with railroad signs or signals, see § 11.20.050. For requirement that certain vehicles stop at all railroad grade crossings, see § 11.36.110. As to obedience to signal indicating approach of railroad train, see § 11.36.140.

paving or repaving between the tracks of the two roads when the distance between track centerlines is fifty feet or less.
(Ord. No. 40-061 § 3)

Sec. 12.04.050. Duty of companies as to streets, etc., improvements—Cost to constitute lien if paid by city.

The costs of improvement, as provided for in Section 12.04.010, in case the cost is paid by the city, shall be a lien upon the property and franchise of any such company and may be assessed and taxed against the property in the same manner as other taxes are levied as provided for under General Statutes 1949, Section 13-1904.
(Ord. No. 12-522 § 2)

Sec. 12.04.055. Service of notice to comply.

A railroad company that has constructed and is not maintaining a railroad crossing in a manner that is in compliance with the requirements set forth in Section 12.04.010 may be served with notice to comply by the city by serving written notice of such noncompliance upon the resident agent of the railroad company. Such written notice shall identify the location of the crossing that is not being maintained properly and such notice shall specify the condition that needs to be corrected to bring the same into compliance.
(Ord. No. 40-061 § 4)

Sec. 12.04.060. Penalty.

Any railroad company, after it has been served with notice in writing as provided in Section 12.04.055 to construct or maintain suitable grade crossings in compliance with 12.04.010 over its tracks at a public grade crossing and has failed, neglected or refused to commence the same within the space of ninety days after the service of such notice upon it, or thereafter fails, neglects or refuses to complete the same within one hundred eighty days after service of such notice upon it, shall, upon conviction thereof, be guilty of a misdemeanor. Each day that any violation of this chapter continues shall constitute a separate offense and shall be punishable as a separate violation.
(Ord. No. 37-591 § 3)

Sec. 12.04.065. Abandonment of tracks—Removal required.

(a) Railway companies, upon abandonment of use of railroad tracks located in streets, alleys and other public ways within the corporate limits of the city of Wichita, shall remove such railroad tracks and shall upon the removal of such railroad tracks repair the street, alley or other public way the railroad tracks are removed from to a condition that is equal to or better than the street, alley or other public way that is located on either side of the railroad track.

(b) The presence of railroad tracks in a street, alley or other public way after a railway company has abandoned the use of the railroad tracks is declared to be a public nuisance and the city attorney shall be authorized to bring appropriate legal action in the District Court of Sedgwick County, Kansas, to cause such railroad tracks to be removed and to take whatever other action is deemed to be appropriate.
(Ord. No. 37-625 § 1)

Sec. 12.04.080. Reserved.

Editor's note—Ord. No. 50-106, § 1, adopted Nov. 17, 2015, repealed § 12.04.080 which pertained to trains not to obstruct streets and derived from § 157 of Ord. No. 19-139.

Sec. 12.04.090. Standing of cars near grade crossings.

Whenever the tracks of a railroad cross a street or highway at a grade, it is unlawful to leave any railroad car or engine standing within thirty feet of the roadway unless the crossing is protected by a flagman.
(Ord. No. 19-139 § 158)

Sec. 12.04.100. Erection and maintenance of railroad signals.

At the railroad grade crossings listed in any schedule approved by the city council it shall be the duty of the designated railroad to maintain

and operate a clearly visible electrical or mechanical railroad signal of a type approved by the traffic engineer.
(Ord. No. 40-061 § 6)

Sec. 12.04.110. Leaving vehicles on railroad property.

It is unlawful for any person to drive or leave an automobile, truck or other vehicle upon the property of any railroad company, railroad trustee or railroad terminal company (each hereinafter referred to as railroad), in any area not established as a public road or crossing including areas adjoining any passenger, freight or terminal station or depot: (1) Except for such time as may be reasonably necessary, (a) for the purpose of then transacting business with or serving such railroad or tenant of such railroad or United States mail or railway express agency, at or on such station or depot property; or (b) for the purpose of then becoming a passenger or then taking, meeting or receiving freight, baggage or passengers at such station or depot; and (2) Except that this section shall not apply to tenants occupying space in or on such railroad property.
(Ord. No. 40-061 § 7)

Sec. 12.04.120. Clinging to or climbing on trains, etc.

Each person who climbs upon, holds to or in any manner attaches himself to any locomotive engine or freight or passenger car or train of any character, while the same is in motion or standing still is guilty of a misdemeanor.
(Ord. No. 3334 § 1)

Sec. 12.04.130. Stealing rides.

Every person who rides or attempts to ride upon any locomotive engine, railroad train of any character, or in or upon any part thereof, for the purpose of or with the intent of stealing a ride thereon, within the city, is guilty of a misdemeanor.
(Ord. No. 3334 § 1)

Sec. 12.04.140. Applicability of Sections 12.04.110 and 12.04.120.

Sections 12.04.110 and 12.04.120 shall not apply to any employee of a railroad company operating such train, locomotive or car, nor to any other person having business with or acting under legal authority of such railroad company.
(Ord. No. 40-061 § 8)

CHAPTER 12.08. CROSSING SIGNALS

Sec. 12.08.010. Purpose.
Sec. 12.08.020. Conformance to federal standards.
Sec. 12.08.030. Installation of signs required.
Sec. 12.08.070. Barricades.
Sec. 12.08.080. Street closure—Prior notification of traffic engineering section.
Sec. 12.08.090. Removal of sight obstructions.
Sec. 12.08.100. Violation—Fine.

Sec. 12.08.010. Purpose.

It is necessary for the safety, welfare and protection of the public that warning or protective devices be installed at all grade level intersections of streets and railroad tracks within the city as hereinafter provided.
(Ord. No. 31-670 § 1)

Sec. 12.08.020. Conformance to federal standards.

The installation, maintenance and/or operation of all grade crossing signs, signals and devices provided for herein shall, insofar as practical, be in accordance with the Manual on Uniform Traffic Control Devices, currently approved by the State Department of Transportation, or revisions thereto.
(Ord. No. 40-061 § 9)

Sec. 12.08.030. Installation of signs required.

Every railroad company maintaining a railroad track in or through the city, over which railroad trains are operated, and where no warning signs or protective devices exist as of the effective date of the ordinance codified in this chapter, shall install and maintain at each crossing where the streets of the city intersect such tracks at grade level reflectorized highway grade crossing signs. (W 10-2)(Cross-bucks)
(Ord. No. 40-061 § 10)

Sec. 12.08.070. Barricades.

When effecting any or all construction, railroad companies shall barricade all such construction projects in conformance with the manual entitled "Work Zone Traffic Control, Standards and Guidelines," published by the U.S. Department of Transportation, Federal Highway Administration, 1985 Edition, incorporated in this chapter by reference.
(Ord. No. 40-061 § 11)

Sec. 12.08.080. Street closure—Prior notification of traffic engineering section.

Railroad companies shall notify the traffic engineering section of the department of public works a minimum of one week prior to a proposed improvement which will require a full or partial street closing so that the traffic engineering section may provide any or all necessary notifications and design of detour routes and requiring signing. All construction and detour signing will be supplied by the railroad.
(Ord. No. 40-061 § 12)

Sec. 12.08.090. Removal of sight obstructions.

The city shall take any and all necessary action for the elimination of all removable sight obstructions.
(Ord. No. 40-061 § 13)

Sec. 12.08.100. Violation—Fine.

Every person or railroad company violating any of the provisions of Title 12 is guilty of a misdemeanor and, upon conviction, shall be fined a sum not to exceed one hundred dollars. Each violation shall constitute a separate offense.
(Ord. No. 40-061 § 14)

Title 13

(RESERVED)

Title 14

INDUSTRIES

Ch. 14.04. Self Regulation of Industries

Ch. 14.08. Industrial Districts

CHAPTER 14.04. SELF REGULATION OF INDUSTRIES

Sec. 14.04.010. Purpose—Policy.
Sec. 14.04.020. Definitions.
Sec. 14.04.030. Compliance—Certificate required.
Sec. 14.04.040. Conditions for qualification.
Sec. 14.04.050. Industrial compliance certificates.
Sec. 14.04.060. Renewal of industrial compliance, certificates.
Sec. 14.04.070. Inspection by central inspection superintendent—Revocation of industrial compliance certificate—Penalty for violations.
Sec. 14.04.080. Appeals.

Sec. 14.04.010. Purpose—Policy.

It is hereby declared to be the public policy of this city to provide the best possible climate for the operation of industry consistent with the city's duty to protect the health, safety and general welfare of the inhabitants. It is recognized that the enforcement procedures in the various technical codes were designed primarily for the guidance and regulation of the construction or remodeling of buildings, and that the application of such codes to the continuous technical activities of various industries who have adequate technical supervision of their own qualified to protect the interests of the public may become unduly burdensome and restrictive upon said industries. Accordingly, it is hereby declared necessary that such industries may, pursuant to the conditions of this chapter and after a showing of their willingness and ability to regulate themselves so as to protect public health and safety, qualify to supervise their own technical activities. (Ord. No. 26-262 § 1)

Sec. 14.04.020. Definitions.

For the purposes of this chapter, the following definitions shall apply:

The term TECHNICAL CODES shall refer to Chapters 15.12 and 16.08 and to Titles 18, 19, 21 and 22 of the Code of the City of Wichita which chapters and titles are commonly known respectively as the flammable liquids code, the drain layer's code, the building code, the electrical code, the plumbing and gas fitting code, and the air conditioning refrigeration and warm air heating code; and such terms shall include all amendments thereto.

The word INDUSTRY shall include every corporation, firm, and partnership which carries on a business within the city which is

(1) a public utility operating under a franchise or certificate of convenience and necessity from the city for the supplying of water, gas, steam, electricity, telephone service, or the transportation of passengers,

(2) a railroad operating under the control of the Interstate Commerce Commission, or

(3) a business included in the use regulations for the "E" light industrial district or the "F" heavy industrial district under Chapter 28.04 of the Code of the City of Wichita, as amended from time to time exclusive, however, of any business of a type included in such use regulations by reason of its being authorized under the use regulations pertaining to any other of the districts described in said Chapter 28.04.

The term QUALIFIED INDUSTRY shall mean any industry that has qualified under Section 14.04.040 hereof for self regulation of those activities and installations that would otherwise be subject to the technical codes.

The term TECHNICAL ACTIVITIES shall mean the doing of any work by the industry itself or under contract, or the use or installation of any materials, parts, or equipment which, except for the provisions of this chapter, would be subject to regulation of the city under one or more of the technical codes, and which is for the use of the industry itself in carrying on some other occupation.

The term ACCEPTABLE STANDARDS shall mean, as applied to any particular industry, any standards of materials or of performance contained in any of the following publications which are reasonably applicable to the technical activities of a particular industry's business operations: (1) those standards described and required by the National Building Code, 1955 Edition, together with the December 1957 amendments, published

by the National Board of Fire Underwriters; (2) those standards described and required by the Fire Prevention Code, 1960 Edition, published by said National Board of Fire Underwriters; or (3) those standards prescribed in the technical codes of the City of Wichita.

The term NEW CONSTRUCTION shall mean the erection of any new building or other facility either (1) detached from existing buildings or facilities, or (2) attached but constituting a substantial enlargement of ground surface area or cubical content of an existing building or facility.

All other words and phrases herein shall be given the same meaning as they would have under the provisions of the said technical codes.
(Ord. No. 26-262 § 2)

Sec. 14.04.030. Compliance—Certificate required.

A qualified industry shall comply with this chapter as to all its technical activities, and shall be regulated by the city under its technical codes only to the extent provided in this chapter, as long as such industry is the holder of a valid industrial compliance certificate issued pursuant to Section 14.04.050 hereof. Notwithstanding the terms of this chapter, however, a qualified industry shall be required to apply for and obtain a building permit as required by the technical codes before undertaking any new construction as above defined.
(Ord. No. 26-262 § 3)

Sec. 14.04.040. Conditions for qualification.

An industry shall be a qualified industry only when and so long as each of the following conditions is complied with to the reasonable satisfaction of the central inspection superintendent:

A. The industry's technical activities shall be covered by valid public liability insurance, written by a company (or companies) authorized to do business in the State of Kansas, with limits of not less than fifty thousand dollars for injury or death of any person, of not less than one hundred thousand dollars for property damage in any one occurrence, and of not less than three hundred thousand dollars in aggregate limits for any one occurrence.

B. The industry shall either:

1. have its technical activities covered by casualty insurance written by a company or companies which require compliance with national underwriting codes and which, to the satisfaction of the central inspection superintendent, enforce such compliance through inspections, which inspections are evidenced by written reports supplied to the industry, with reference to which the industry agrees (a) to file copies of such reports with the central inspection superintendent within ten days after their receipt by the industry, and (b) to comply with the requirements of such reports except as to any particular item which the central inspection superintendent finds to be unnecessary for compliance with acceptable standards; or

2. conduct its technical activities under the supervision of a licensed professional engineer who is a full time employee (or partner or owner) of the industry, or cause its technical activities to be checked periodically by an independent licensed professional engineer, qualified in the particular fields of such activities and licensed under the statutes of the State of Kansas as amended, who shall be responsible for certifying that such technical activities are being conducted in accordance with acceptable standards; or

3. cause its technical activities to be controlled by a full time employee (or partner or owner) who shall satisfy the respective board of examiners that he is reasonably capable by training and experience of interpreting and applying acceptable standards to the extent that the same are applicable to the operations of

the particular industry. There shall be on file with the central inspection superintendent at all times the name of such person, his residence address, and a statement signed by him setting forth in reasonable detail his qualifications and experience for said duties. If an industry uses separate individuals to supervise separate portions of the activities otherwise covered by the technical codes, separate statements shall be filed by each of the said supervising personnel.

C. The industry shall be the holder of a current industrial compliance certificate issued pursuant to Section 14.04.050 hereof.

(Ord. No. 26-262 § 4)

Sec. 14.04.050. Industrial compliance certificates.

Any industry desiring to become a qualified industry under Section 14.04.040 hereof shall file with the central inspection superintendent: (1) its application for an industrial compliance certificate on a form provided for that purpose by the central inspection superintendent, which form shall include an agreement that all its technical activities shall be conducted in accordance with acceptable standards, and an agreement that it will cause to be corrected any work found by the central inspection superintendent not to be in compliance, (2) an application fee of one hundred dollars, (3) a certificate or certificates of insurance showing the applicant's compliance with subsection A. of Section 14.04.040 hereof, and (4) such certificates or other proof reasonably necessary to show compliance with any one of conditions B(1), B(2), or B(3) of Section 14.04.040 hereof. Thereupon, the central inspection superintendent shall issue to such applicant an industrial compliance certificate evidencing the holder's compliance with this section.

In the interest of the protection of public health and safety prior to making a connection with any public facilities, including water, water lines, sewers and sewer lines, gas lines, or electric lines, the holder of an industrial compliance certificate shall first obtain a permit from the central inspection superintendent. As an alternative to obtaining a permit for a connection to such services, the holder may furnish to the central inspection superintendent, on a form to be provided by the central inspection superintendent, an account of the work done, material used, or equipment installed, including such as is still to be completed, by the industry and pertaining to such connection with such public facility. The information shall be delivered to the central inspection superintendent at least two business days prior to the proposed connection in order that the central inspection superintendent may exercise his right of inspection in accordance with the terms of this chapter. In the event the central inspection superintendent fails to inspect said work or installation within the time designated in the report submitted by the industry, the industry may proceed with the work or installation without the direct inspection of the central inspection superintendent, but all other requirements of this chapter shall be fully applicable thereto.

(Ord. No. 26-262 § 5)

Sec. 14.04.060. Renewal of industrial compliance, certificates.

At periodic intervals prescribed by the central inspection superintendent (which shall be not more often than semi-annually and not less often than bi-annually), each holder of an industrial compliance certificate shall file with the central inspection superintendent either (a) a current certificate of the chief inspector of a nationally recognized underwriting inspection bureau or a licensed professional engineer, or (b) such reasonable evidence as the central inspection superintendent may require, to the effect that the holder's plant continues to be operated in compliance with acceptable standards. Each industry holding a certificate hereunder shall annually pay, on or before the anniversary date of its industrial compliance certificate.

(Ord. No. 26-262 § 6)

Sec. 14.04.070. Inspection by central inspection superintendent—Revocation of industrial compliance certificate—Penalty for violations.

A. RIGHT OF ENTRY. The central inspection superintendent and the fire marshal shall at all reasonable times have the right of access to any

plant of a holder of an industrial compliance certificate for the purpose of making actual inspections to assure themselves that such holder is in compliance with the acceptable standards.

B. REVOCATION FOR NON-COMPLIANCE. Whenever the central inspection superintendent shall find, upon actual inspection, that a qualified industry's technical activities are not being conducted in general conformance with acceptable standards, then upon fifteen days' written notice to the holder the central inspection superintendent shall revoke said holder's industrial compliance certificate, unless within said fifteen days the industry shall bring its activities into conformance or shall appeal the ruling of the central inspection superintendent in accordance with Section 14.04.080 hereof. Upon final revocation of such a certificate an industry shall not be eligible to apply for re-issuance thereof for a period of ninety days, whereupon a new application may be filed in accordance with Section 14.04.050, hereof.

C. CORRECTIONS. If the central inspection superintendent shall find, upon actual inspection, that a qualified industry is in general compliance with acceptable standards but has failed to comply in some particular work in such a manner as may be dangerous to life or property, he shall by written order require the same to be corrected by the industry within such time as shall be reasonable under the circumstances. Neglect or refusal to comply with such order shall be grounds for revocation of the industry's certificate in accordance with paragraph B of this section, and the city may obtain relief by appropriate court action requiring correction of the matters out of compliance and may likewise seek in the police court of the City of Wichita the imposition of the penalty provisions of this chapter.

D. PENALTY. A breach of the foregoing paragraph (C) and failure to comply with the correction order of the central inspection superintendent shall constitute a breach of this chapter and shall subject the violator to penalties in the police court of the City of Wichita following a finding of guilty therein upon complaint of the central inspection superintendent. Such penalty shall be in the amount of five hundred dollars.
(Ord. No. 26-262 § 7)

Sec. 14.04.080. Appeals.

If any industry is aggrieved with any ruling, order, or decision of the central inspection superintendent made under this chapter, said industry may appeal the same to the appropriate board of examiners and appeals in the same manner and with the same effect as prescribed in the respective technical codes.
(Ord. No. 26-262 § 8)

CHAPTER 14.08. INDUSTRIAL DISTRICTS

Sec. 14.08.010. Purpose of chapter.
Sec. 14.08.020. Size—Zoning—Other criteria.
Sec. 14.08.040. Procedure of formation.
Sec. 14.08.050. Additions—Termination.
Sec. 14.08.055. Industrial compliance certificate.
Sec. 14.08.060. Severability.

Sec. 14.08.010. Purpose of chapter.

The purpose of this chapter shall be to promote, stimulate and develop the general economic welfare and prosperity of the City of Wichita through the promotion and advancement of industrial development in this city; to encourage and assist in the location of new industry and in the expansion of existing industrial development; and to promote the economic stability of this city by providing greater employment opportunities and diversification of industry, thus promoting the general welfare by authorizing the creation of an industrial district or districts and the enlargement thereof by an addition or additions thereto from time to time by the board of commissioners.
(Ord. No. 26-829 § 1)

Sec. 14.08.020. Size—Zoning—Other criteria.

Industrial districts shall contain at least one hundred sixty contiguous acres of land, located entirely within the corporate limits of the city of Wichita, more than one-half of which shall be zoned either "E," light industrial, or "F," heavy industrial, or a combination thereof, and which is developed for industrial purposes or held for future use for an industrial purpose. Further, the land within the industrial district shall not have had taxes levied against it for the payment of bonds and interest for bonds issued previously by the city. Industrial purposes, as used in this section, shall include those uses permitted in zoning districts "E," light industrial, or "F," heavy industrial.
(Ord. No. 36-926 (part))

Sec. 14.08.040. Procedure of formation.

Request for designation as an industrial district shall be submitted to the city manager for submission to the board of commissioners. The request shall be signed by the owners of at least fifty percent of the area proposed to be included in said district. Such request shall also include:

(a) A certified ownership list, prepared by a local abstract company, giving the owners of and legal description of all property owned by the persons submitting the aforementioned request for designation as an industrial district to the city manager.

(b) A description by metes and bounds, or by additions, of the total proposed district.

(c) Information, plot plans, and computations showing that this area meets the criteria established in Section 14.08.020 of this chapter.

(d) Aerial photographs or land use maps showing the location and nature of industrial activity located within said proposed district.

The city manager shall cause to have reviewed this information and shall submit his findings to the board of commissioners as to whether the request meets the requirements and criteria set forth in Section 14.08.020 of this chapter. Such findings and review shall be forwarded to the board of commissioners within thirty days from the receipt of such request. In the event such request meets the requirements and criteria of this chapter, the board of commissioners may create an industrial district as heretofore authorized.
(Ord. No. 26-829 § 4)

Sec. 14.08.050. Additions—Termination.

The board of city commissioners may approve the addition of any land to an industrial district formed under this chapter, if the land to be added to the industrial district is contiguous to the industrial district and meets the requirements and criteria established under this section of this chapter. No minimum acreage requirements shall apply to any addition added under this chapter.

Any time an industrial district does not meet the requirements of this section of this chapter, the board of city commissioners may terminate the industrial district.
(Ord. No. 36-926 (part))

Sec. 14.08.055. Industrial compliance certificate.

Any industry operating within an industrial district formed under this chapter shall be entitled to receive an industrial compliance certificate and to the benefits thereof under Chapter 14.04 of this code without being required to meet the conditions of Section 14.04.040 of said code if the industry meets the following requirements, and provided further that the industry will comply within one year after receiving temporary approval as set out herein:

(a) The industry maintains its home offices within the industrial district;

(b) The industry employs at least five hundred employees within the industrial district;

(c) The industry maintains valid public liability insurance, written by a company or companies authorized to do business in the state of Kansas, with limits of not less than fifty thousand dollars for injury or death of any person, of not less than one hundred thousand dollars for property damage in any one occurrence, and of not less than three hundred thousand dollars in aggregate limits for any one occurrence; and

(d) The industry submits an affidavit to the central inspection superintendent certifying that it meets requirements (a) through (c) of this section, and that its technical activities are conducted in compliance with acceptable standards, as defined at Section 14.04.020, and an application fee of one hundred dollars is submitted with the affidavit.

Thereupon, the central inspection superintendent shall issue to the industry a temporary industrial compliance certificate evidencing the industry's compliance with Chapter 14.04 of this code.

An industry holding an industrial compliance certificate under this chapter shall file annually a renewal fee of fifty dollars, and an affidavit stating that the industry continues to meet requirements (a) through (c) of this section. Failure to submit the affidavit and pay the fifty dollar renewal fee within thirty days after written notice of delinquency shall require the central inspection superintendent to cancel the industry's industrial compliance certificate.
(Ord. No. 36-926 (part))

Sec. 14.08.060. Severability.

If any clause, sentence or section of this chapter shall be held to be invalid, it shall not affect the remaining provisions of this chapter.
(Ord. No. 26-829 § 6)

Sec. 15.01.720. Appendix D, Section D107.1 amended—One or two family dwelling residential developments.
Sec. 15.01.730. Appendix D, Section D107.2 amended—Remoteness.

Sec. 15.01.010. Adoption of the International Fire Code.

The International Fire Code (IFC), as published by the International Codes Council, Inc., 2024 Edition, including Appendices B, C, D, E, F, G, H, I, J, K, N, and O are hereby adopted and incorporated herein by reference, subject to such amendments thereto as are set forth hereinafter.
(Ord. No. 52-878, § 1, 1-13-26)

Sec. 15.01.020. Chapter 1, Section 102.7 amended—Referenced Codes and Standards.

Chapter 1, Section 102.7 of the International Fire Code, 2024 Edition, is amended to read as follows:

102.7 Referenced Codes and Standards. The codes and standards referenced in this code shall be those that are listed in Chapter 80, and such codes and standards shall be considered to be part of the requirements of this code to the prescribed extent of each such reference and as further regulated in Sections 102.7.1 and 102.7.2. The fire code official has the authority to reference and enforce new or updated codes and standards.
(Ord. No. 52-878, § 2, 1-13-26)

Sec. 15.01.030. Chapter 1, Section 103.2 amended—Appointment.

Chapter 1, Section 103.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

103.2 Appointment The fire code official shall be appointed by the fire chief appointing authority of the jurisdiction. The fire code official shall not be removed from office except for cause and after full opportunity to be heard on specific and relevant charges by and before the appointing authority.
(Ord. No. 52-878, § 3, 1-13-26)

Sec. 15.01.040. Chapter 1, Section 105.1.1 amended—Permits required.

Chapter 1, Section 105.1.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

105.1.1 Permits required. Any property owner or authorized agent who intends to conduct an operation or business, or install or modify systems and equipment which is regulated by this Code, or to cause any such work to be done, shall first make application to the fire code official and obtain the required permit. Issued permits shall be kept on the premises designated therein at all times and

shall be readily available for inspection by the fire code official. In instances where laws or regulations are enforceable by departments other than the fire department, joint approval of the permit shall be obtained from all additional or necessary departments concerned.
(Ord. No. 52-878, § 4, 1-13-26)

Sec. 15.01.050. Chapter 1, Section 105.1.1.1 Incorporated—Permit Fees Required.

Chapter 1, Section 105.1.1.1 of the International Fire Code, 2024 Edition, is incorporated to read as follows:

105.1.1.1 Permit Fees Required. Permit fees shall be established by the fire code official with the approval of the City Manager. The schedule of fees shall be published and made available upon request by the fire code official.
(Ord. No. 52-878, § 5, 1-13-26)

Sec. 15.01.060. Chapter 1, Section 105.5.30 amended—LP-gas.

Chapter 1, Section 105.5.30 of the International Fire Code, 2024 Edition, is amended to read as follows:

105.5.30 LP-gas. An operational permit is required for:

1. Storage and use of LP-gas.

   Exception: A permit is not required for individual containers with a 125-gallon (473.1765 L) water capacity or less or multiple container systems having an aggregate quantity not exceeding 125 gallons (473.1765 L), serving occupancies in Group R-3.

2. Operation of cargo tankers that transport LP-gas.

Failure to obtain said permit could result in the fire code official ordering the removal of any tank over 125 gallons (473.1765 L) water capacity.
(Ord. No. 52-878, § 6, 1-13-26)

Sec. 15.01.070. Chapter 1 Section 105.5.36 amended—Open Burning.

Chapter 1, Section 105.5.36 of the International Fire Code, 2024 Edition, is amended to read as follows:

105.5.36 Open Burning: An operational permit is required for the kindling or maintaining of an open fire or a fire on any public street, alley, road, or other public or private ground. This includes fires in approved containers, incinerators, destructors, or those devices identified and approved by the fire code official. Instructions and stipulations of the permit shall be adhered to.

Exception: Recreational fires.
(Ord. No. 52-878, § 7, 1-13-26)

Sec. 15.01.080. Chapter 1, Section 105.5.58 incorporated—Mandated inspection.

Chapter 1, Section 105.5.58 of the International Fire Code, 2024 Edition, is incorporated to read as follows:

105.5.58 Mandated Inspections: An operational permit is required for mandated inspections. As mandated by any governing body by the public and/or private entity for the operation of the business.
(Ord. No. 52-878, § 8, 1-13-26)

Sec. 15.01.090. Chapter 1, Section 105.6.26 incorporated—Alternate Surface Paving Material.

Chapter 1, Section 105.6.26 of the International Fire Code, 2024 Edition, is incorporated to read as follows:

105.6.26 Alternate Surface Paving Material: A construction permit is required to install alternative surface paving material for fire apparatus access road.
(Ord. No. 52-878, § 9, 1-13-26)

Sec. 15.01.100. Chapter 1, Section 108.1 amended—Fees.

Chapter 1, Section 108.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

108.1 Fees. A permit shall not be issued until the fees have been paid, nor shall an amendment to a permit be released until the additional fee, if any, has been paid. Permit fees shall be established by the fire code official with the approval of the City Manager. The schedule of fees shall be published and made available upon request by the fire code official.

(Ord. No. 52-878, § 10, 1-13-26)

Sec. 15.01.110. Chapter 1, Section 110.3.1. incorporated—Test and Inspection Records.

Chapter 1, Section 110.3.1 of the International Fire Code, 2024 Edition, is hereby incorporated to read as follows: The following provisions shall be incorporated into and supplement the provisions of:

110.3.1 Test and inspection records. Required test and inspection records shall be available to the fire code official at all times or such records, as the fire code official designates, shall be filed with the fire code official. Contractors who perform inspection, testing and/or maintenance services on fire and life safety systems within the City of Wichita are required to electronically submit all compliant and non-compliant reports to the Wichita Fire Department via a method approved by the fire code official. The required test and inspection records shall be submitted to the fire code official within fourteen (14) days of testing and inspection. Any data management fees charged by third-party administrators to process, store and report such documentation, as approved, shall be the responsibility of the party submitting the report. Reports submitted other than in accordance with this section may not be accepted at the discretion of the fire code official.

(Ord. No. 52-878, § 11, 1-13-26)

Sec. 15.01.120. Chapter 1, Section 110.6 amended—Overcrowding.

Chapter 1, Section 108.6 of the International Fire Code, 2024 Edition, is amended to read as follows:

110.6 Overcrowding. No person shall permit overcrowding or admittance of any person beyond the approved capacity, as set forth in the International Building Code, of a building or a portion thereof. In determining whether the capacity of a building or any portion thereof has been exceeded, all persons within or upon the premises in question shall be considered, including patrons, guests, employees, entertainers and management personnel.

Upon finding any overcrowding conditions or obstructions in aisles, passageways or other means of egress, or any condition which constitutes a life safety hazard, the Fire Chief, the Chief's authorized agent, or any law enforcement officer shall be authorized to take such action as is necessary to ensure the safety of persons in and around the building or portion thereof, including causing the event or ongoing operation of business to be stopped until such condition or obstruction is corrected, or, upon approval of the Fire Chief, any Deputy Fire Chief or Fire Marshal, who may cause the premises to be locked until such condition is corrected.

In the event any building or portion thereof is ordered locked by the Fire Chief or the Chief's designee as provided herein, the owner or occupant of such building or portion thereof may appeal the order to the City Council within ten (10) calendar days from the date of the order. The appeal must be in writing and filed with the City Clerk and shall be heard promptly. Such an appeal shall stay the order locking the premises. In the event the order is upheld by the City Council, the owner or occupant of such building or portion thereof may appeal to the district court as provided by state law; however, such appeal shall not stay the order locking the premises.

Any person violating the provisions of this section shall be guilty of a misdemeanor and

in addition to the penalties provided herein, the court may, upon conviction, order the building or portion thereof in which the overcrowded conditions existed to be locked for a period not to exceed thirty (30) calendar days.

(Ord. No. 52-878, § 12, 1-13-26)

Sec. 15.01.130. Chapter 1, Section 113.4 amended—Violation penalties.

Chapter 1, Section 113.4 of the International Fire Code, 2024 Edition, is amended to read as follows:

113.4 Violation penalties. Persons who shall violate a provision of this Code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of the fire code official, or of a permit or certificate used under provisions of this Code, shall be deemed guilty of a misdemeanor, punishable by a fine of not less than $500 not more than $2,500 or by imprisonment not exceeding one year, or both such fine and imprisonment. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

(Ord. No. 52-878, § 13, 1-13-26)

Sec. 15.01.140. Chapter 1, Section 114.4 amended—Failure to comply.

Chapter 1, Section 114.4 of the International Fire Code, 2024 Edition, is amended to read as follows:

114.4 Failure to comply. Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be deemed guilty of a misdemeanor, punishable by a fine of not less than $500 or more than $2,500 or by imprisonment not exceeding one year, or both such fine and imprisonment.

(Ord. No. 52-878, § 14, 1-13-26)

Sec. 15.01.150. Chapter 2, Section 202 incorporated—Alley.

Alley means any public right-of-way or thoroughfare having a width of twenty (20) feet, intended to provide a secondary means of access to and from streets and lots.

(Ord. No. 52-878, § 15, 1-13-26)

Sec. 15.01.160. Chapter 3, Section 307.1.1 amended—Prohibited open burning.

Chapter 3, Section 307.1.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

307.1.1 Prohibited open burning. Open burning that is offensive or objectionable because of smoke or odor emissions or when atmospheric conditions or local circumstances make such fires hazardous, shall be prohibited. The fire code official is authorized to order the extinguishment by the permit holder or by the fire department of open burning that creates or adds to a hazardous or objectionable situation. Open burning shall be conducted between the hours of sunrise to sunset unless otherwise approved by the fire code official. Only firewood, limbs, and wood chips may be burned. Products such as paper, plastic, leaves, finished lumber, and rubbish are not allowed. Only onsite vegetation grown on the permit address can be burned.

Exception: Prescribed burning for the purpose of reducing the impact of wildland fire when authorized by the fire code official.

(Ord. No. 52-878, § 16, 1-13-26)

Sec. 15.01.170. Chapter 3, Section 307.2 amended—Permit required.

Chapter 3, Section 307.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

307.2 Permit required. A permit shall be obtained from the fire code official in accordance with Section 105.5.36 prior to kindling a fire for recognized silvicultural or range or wildlife management practices, open burning, use of an incinerator or destructor, prevention or

control of disease or pests, or a bonfire. Application for such approval shall only be presented by and permits issued to the owner, or the designee of the owner, of the land upon which the fire is to be kindled. Burn permit instructions and stipulations of the permit shall be adhered to.

(Ord. No. 52-878, § 17, 1-13-26)

Sec. 15.01.180. Chapter 3, Section 307.4 amended—Location.

Chapter 3, Section 307.4 of the International Fire Code, 2024 Edition, is amended to read as follows:

307.4 Location. The location for open burning shall not be less than 250 feet (76,200 mm) from any property line, structure or roadway, or within two (2) miles of any airport or flyway, or as approved by the fire code official, and provisions shall be made to prevent the fire from spreading to within 50 feet (15,240 mm) of any structure.

Exceptions:

1. Fires in approved containers that are not less than 15 feet (4,572 mm) from a structure with a pile size of 3 feet (914 mm) or less in diameter and 2 feet (610 mm) or less in height (i.e., outdoor fireplaces).

2. The minimum required distance from a structure shall be 25 feet (7,620 mm) when the pile size is 3 feet (914 mm) or less in diameter and 2 feet (610 mm) or less in height (i.e., recreational fires).

3. A variance to the distance requirement may be granted if a detailed fire control plan is presented for review and approval. The plan shall include but is not limited to: on-site water supply, burn pile size and location, signage to warn motorists, notification of nearby residents or building occupants, and constant supervision of burn site by a trained individual. Other conditions or requirements may be included due to other factors, such as proximity to occupied dwellings.

4. Fires in approved containers, incinerators, or destructors. Fires in containers, incinerators or destructors, or those approved by the fire code official and that are used per the manufacturer's instructions and are used for the destruction of wood waste, shall not be less than 150 feet (45,720 mm) from a property line, structure, roadway, airport or flyway, unless otherwise approved by the fire code official. A burn permit issued by the Wichita Fire Department, in compliance with Section 307.2 is required.

   Wood waste is defined as untreated wood and untreated wood products, including tree stumps (whole or chipped), trees, tree limbs (whole or chipped), bark, sawdust, chips, scraps, slabs, millings, and shavings. Wood waste does not include grass, grass clippings, bushes, shrubs, and clippings from bushes and shrubs from residential, commercial/retail, institutional, or industrial sources as part of maintaining yards or other private or public lands; construction, renovation, or demolition wastes, or clean lumber. Only firewood, limbs, and wood chips may be burned. Products such as paper, plastic, leaves, finished lumber and rubbish are not allowed. Only onsite vegetation grown on the permit address can be burned.

(Ord. No. 52-878, § 18, 1-13-26)

Sec. 15.01.190. Chapter 3, Section 307.4.3 amended—Portable outdoor fireplaces.

Chapter 3, Section 307.4.3 of the International Fire Code, 2024 Edition, is amended to read as follows:

307.4.3 Portable outdoor fireplaces. Portable outdoor fireplaces shall be used in accordance with the manufacturer's instructions and shall not be operated within 15 feet (3,048 mm) of a structure or combustible material. In addition, the following requirements shall be met:

1. Portable outdoor fireplaces shall be placed on a non-combustible surface and shall not be used on balconies or wood decks. **EXCEPTION**: Portable outdoor fireplaces used at one and two-family dwellings.

2. Portable outdoor fireplace use shall be discontinued when there is a ban or moratorium on burning issued by federal, state or local agencies. **EXCEPTION**: Portable outdoor fireplaces used at one and two-family dwellings.

3. Portable outdoor fireplaces shall not be used when the wind speed is in excess of 15 mph.

4. Portable outdoor fireplaces shall not be used within 500 feet (152,400 mm) of any shake shingle roof, unless provided with spark arrestor with a maximum ½ inch (12.7 mm) metal screen secured by metal wire, located on the vent/chimney.

5. Only firewood, limbs, and wood chips may be burned within the portable outdoor fireplace. Products such as paper, plastic, leaves, finished lumber and rubbish are not allowed.

(Ord. No. 52-878, § 19, 1-13-26)

Sec. 15.01.200. Chapter 5, Section 503.2.1 amended—Dimensions.

Chapter 5, Section 503.2.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

503.2.1 Dimensions. Fire apparatus access roads and alleys shall have an unobstructed width of not less than 20 feet (6,096 mm) drivable surface for single-family access and 24 feet (7,315 mm) for duplex and multi-family dwellings access, exclusive of shoulders, except for *approved* security gates in accordance with Section 503.6, and an unobstructed vertical clearance of not less than 13 feet 6 inches (4,115 mm).

(Ord. No. 52-878, § 20, 1-13-26)

Sec. 15.01.210. Chapter 5, Section 503.2.3 amended—Surface.

Chapter 5, Section 503.2.3 of the International Fire Code, 2024 Edition, is amended to read as follows:

503.2.3 Surface. Fire apparatus access roads shall be designed and maintained to support the imposed loads of fire apparatus and shall be surfaced with asphalt or concrete or as specified below so as to provide all-weather driving capabilities. Access roads shall be installed to one of the following criteria:

1. Asphalt - 8 inches (203.2 mm) or concrete - 8 inches (203.2 mm) thick; or

2. To city street standards.

   Minimum specified material thickness for a 6-month temporary access road shall be of concrete aggregate - 6 inches (152.4 mm) or AB3 rock - 6 inches (152.4 mm).

3. Alternate paving materials (Turfcrete/Grasscrete) - Alternative paving materials such as "Grass Crete" turf block or similar type materials may be used for Fire Department Access Roads under certain conditions. When submitting for permits the applicant shall include cut sheets of the proposed alternative material and the design criteria based upon the imposed load of fire apparatus weighing at least 75,000 pounds. The following conditions shall be met:

   a. A construction permit for the installation of the alternate paving material is required as specified in Section 105.6.26.

   b. Signs & Marking requirements shall be followed.

   c. Paving shall be structurally sound to preclude movement or disbanding with soil movement.

   d. The paving shall be field tested by the contractor in the presence of the Fire Code Official. Testing may include driving the access road by a

weight-verified vehicle. Prior to testing, the soil shall be soaked for three days in a row.

e. Prior to final approval, the engineer of record (civil or soils engineer) shall certify the installation.

f. Maximum distance of alternate paving material is 200 feet.

(Ord. No. 52-878, § 21, 1-13-26)

Sec. 15.01.220. Chapter 5, Section 506.1 amended—Where required.

Chapter 5, Section 501.6 of the International Fire Code, 2024 Edition, is amended to read as follows:

506.1 Where required: Where access to or within a structure or an area is restricted because for secured openings or where immediate access is necessary for life-saving or fire-fighting purposes, or where an automatic fire sprinkler system, fire alarm system or elevator(s) is/are present, the fire code official is authorized to require a key box to be installed in an approved location. The Knox Box brand is the only approved key box for the City of Wichita and shall contain keys to gain access as required by the fire code official.

(Ord. No. 52-878, § 22, 1-13-26)

Sec. 15.01.230. Chapter 5, Section 507.5.1.1—-Hydrants for FDC (standpipe, sprinkler systems and remote connections).

Chapter 5, Section 507.5.1.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

507.5.1.1 Hydrants for FDC (standpipe, sprinkler systems and remote connections). Buildings equipped with FDC's (standpipe, sprinkler system and/or remote connections) installed in accordance with Section 905 shall have a fire hydrant within 150 feet (45,720 mm) of the fire departments connection. The required hydrant shall be no closer than 40 feet (12,192 mm) to the structure. The required hydrant shall be no closer than 5 feet to the remote connection.

Exception: The distance shall be permitted to exceed 150 feet (45,720 mm) where approved by the fire code official.

(Ord. No. 52-878, § 23, 1-13-26)

Sec. 15.01.240. Chapter 5, Section 510.6.1 amended—Testing and proof of compliance.

Chapter 5, Section 510.6.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

510.6.1 Testing and proof of compliance. The owner of the building or owner's authorized agent shall have the in-building, two-way emergency responder communication coverage system inspected and tested annually or where structural changes occur including additions or remodels that could materially change the original field performance test. Testing shall consist of the following:

1. In-building coverage test as described in Section 510.5.4.

2. Signal boosters shall be tested to verify that the gain is the same as it was upon initial installation and the acceptance or set to optimize the performance of the system.

3. Backup batteries and power supplies shall be tested under load of a period of 1 hour to verify that they will properly operate during an actual power outage. If within the 1-hour test period the battery exhibits symptoms of failure, the test shall be extended for additional 1-hour periods until the integrity of the battery can be determined.

All active components shall be checked to verify operation within the manufacturer's specifications. At the conclusion of the testing, a report, which shall verify compliance with Section 510.5.4, shall be submitted to the fire code official in accordance with Section 110.3.

(Ord. No. 52-878, § 24, 1-13-26)

Sec. 15.01.250. Chapter 9, Section 901.4 amended—Fire protection and life safety systems.

Chapter 9, Section 901.4 of the International Fire Code, 2024 Edition, is amended to read as follows:

901.4 Fire protection and life safety systems. Fire protection systems shall be maintained in accordance with the original installation standards/codes for that system. Fire protection systems shall be extended, altered or modified as necessary to maintain and continue protection whenever the building is altered, remodeled or added onto. Installation and alterations to fire sprinkler systems shall be done in accordance with applicable standards and shall be performed by a person with a minimum of a NICET II or other approved equivalent certification. An approved City of Wichita licensed fire sprinkler contractor shall have a qualified person with a minimum NICET III certification in water-based fire protection systems layout or other approved equivalent certification. Installation and alterations to fire alarm systems shall be done in accordance with all applicable standards/codes and shall be performed by a person with a NICET II in fire alarm systems, or other approved equivalent certification. An approved City of Wichita licensed fire alarm contractor shall have a qualified person with a minimum NICET III in fire alarm systems or other approved equivalent certification.

(Ord. No. 52-878, § 25, 1-13-26)

Sec. 15.01.260. Chapter 9, Section 901.4.4 amended—Fire areas.

Chapter 9, Section 901.4.4 of the International Fire Code, 2024 Edition, is amended to read as follows:

901.4.4 Fire areas. Where buildings, or portions thereof, are divided into fire areas so as not to exceed the limits established for requiring a fire protection system in accordance with this chapter, such fire areas shall be separated by fire walls constructed in accordance with Section 706, fire barriers constructed in accordance with Section 707, or horizontal assemblies constructed in accordance with Section 711, or a combination thereof having a fire-resistance rating of not less than that determined in accordance with Section 707.3.10.

Exception: Building constructed prior to the adoption of the 2000 Edition of the International Building Code (April 2, 2002) and any building containing Group S-1 and F-1 Occupancies constructed prior to the adoption of the 2012 Edition of the International Building Code (May 1, 2016) may have a nonconforming fire area increased by not more than 25 percent of the fire area limitations, for the occupancy classification, as specified under Section 903.2 of the International Building Code. All additions to the fire area shall be considered as accumulative and subject to the limitations of the construction type.

(Ord. No. 52-878, § 26, 1-13-26)

Sec. 15.01.270. Chapter 9, 901.4.7.3 incorporated—Environment.

Chapter 9, Section 901.4.7.3 of the International Fire Code, 2024 Edition, is incorporated to read as follows:

901.4.7.3 Environment Automatic sprinkler system riser rooms and fire pump rooms shall be maintained at a temperature of not less than 40 degrees. Heating units shall be permanently installed (non-switched). Exterior riser rooms shall have low-temperature detection connected to the fire alarm system.

(Ord. No. 52-878, § 27, 1-13-26)

Sec. 15.01.280. Chapter 9, 903.2.1.2 amended—Group A-2.

Chapter 9, Section 903.2.1.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

903.2.1.2 Group A-2 An automatic sprinkler system shall be provided throughout stories containing Group A-2 occupancies and throughout all stories from the Group A-2 occupancy to and including the levels of exit discharge serving that occupancy where one of the following conditions exists:

1. The fire area exceeds 5,000 square feet (464 m^2).

2. The fire area has an occupant load of 100 or more.

   Exception: The fire area occupant load may go to 299 people if a 3rd exits in accordance with Section 1007.1.2 and Section 1016.2 and a manual fire alarm system that activates an occupant notification system in accordance with Section 907.5 is added that is approved by the fire code official or the building official or the plans examiner reviewing the project.

3. The fire area is located on a floor other than a level of exit discharge serving such occupancies.

(Ord. No. 52-878, § 28, 1-13-26)

Sec. 15.01.290. Chapter 9, Section 903.2.4.1 amended—Woodworking operations.

Chapter 9, Section 903.2.4.1 of the International Fire Code, 2024 Edition is amended to read as follows:

903.2.4.1 Woodworking operations An automatic sprinkler system shall be provided throughout all Group F-1 occupancy fire areas that contain woodworking operations in excess of 2,500 square feet (232 m^2) in area that generate finely divided combustible waste or use finely divided combustible materials.

Exception: A room or the aggregate area of rooms containing woodworking operations within a fire area, as defined by the International Building and Fire Codes, where the area is 2,500 square feet (232 m^2) or less. Walls which define rooms containing a wood working operation shall be of non-combustible construction. All doors shall have self-closing devices and any windows shall be fixed closed. All openings shall be maintained closed.

(Ord. No. 52-878, § 29, 1-13-26)

Sec. 15.01.300. Chapter 9, Table 903.2.8 amended—Group R.

Chapter 9, Table 903.2.8 of the International Fire Code, 2024 Edition, is amended to read as follows:

903.2.8 Group R An *automatic sprinkler system* installed in accordance with Section 903.3 shall be provided throughout all *buildings* with a Group R *fire area*.

Exceptions:

1. One- or two-family dwelling unit.

2. Dwelling units in three- and four-family dwellings separated from each other by wall and/or floor assemblies having not less than a 2-hour fire-resistance rating. Fire resistance-rated floor/ceiling and wall assemblies shall extend to and be tight against an exterior wall, and wall assemblies shall extend from the foundation to the underside of the roof sheathing. The roof shall be a minimum of class C roof covering, and the roof decking or sheathing is of non-combustible materials or approved fire-retardant-treated wood for a distance of 4 feet (1,219 mm) on each side of the wall or walls. There shall be no penetrations through this area of the roof deck or sheathing. Where buildings, or portions thereof, are arranged above or below adjacent units, and automatic sprinkler system shall be provided throughout all units.

(Ord. No. 52-878, § 30, 1-13-26)

Sec. 15.01.310. Chapter 9, Section 903.2.9 amended—Group S-1.

Chapter 9, Section 903.2.9 of the International Fire Code, 2024 Edition, is amended to read as follows:

903.2.9 Group S-1 An *automatic sprinkler system* shall be provided throughout all *buildings* containing a Group S-1 occupancy where one of the following conditions exists:

1. A Group S-1 *fire area* exceeds 12,000 square feet (1,115 m^2).

   Exception: A Group II or III aircraft hangar, as defined by NFPA 409, used of storage of aircraft only when the fire area exceeds 18,000 square feet (1,672 m^2). See Section 412.3.6.2 for fire area allowances for ancillary uses.

2. A Group S-1 *fire area* is located more than three stories *above grade plane*.

3. The combined area of all Group S-1 *fire areas* on all floors, including any *mezzanines*, exceeds 24,000 square feet (2,230 m^2).

4. A Group S-1 *fire area* used for the storage of *commercial motor vehicles* where the *fire area* exceeds 5,000 square feet (464 m^2).

5. A Group S-1 *fire area* used for the storage of lithium-ion or lithium metal powered vehicles where the *fire area* exceeds 500 square feet (46.4 m^2).

(Ord. No. 52-878, § 31, 1-13-26)

Sec. 15.01.320. Chapter 9, Section 903.2.10 amended—Group S-2 parking garages.

Chapter 9, Section 903.2.10 of the International Fire Code, 2024 Edition, is amended to read as follows:

903.2.10 Group S-2 parking garages An *automatic sprinkler system* shall be provided throughout *buildings* classified as parking garages where any of the following conditions exists:

1. Where the *fire area* of the enclosed parking garage in accordance with Section 406.6 exceeds 12,000 square feet (1,115 m^2).

2. Where the enclosed parking garage in accordance with Section 406.6 is located beneath other groups.

Exception: Enclosed parking garages located beneath Group R-3 occupancies.

(Ord. No. 52-878, § 32, 1-13-26)

Sec. 15.01.330. Chapter 9, Section 903.2.11.1.1 amended—Opening dimension and access.

Chapter 9, Section 903.2.11.1.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

903.2.11.1.1 Opening dimension and access Openings shall have a minimum dimension of not less than 30 inches (762 mm) in width and 48 inches (1,219 mm) in height. Access to such openings shall be provided for the fire department from the exterior and shall not be obstructed in a manner such that firefighting or rescue cannot be accomplished from the exterior.

(Ord. No. 52-878, § 33, 1-13-26)

Sec. 15.01.340. Chapter 9, Section 903.2.11.3 amended—Buildings 55 feet or more in height.

Chapter 9, Section 903.2.11.3 of the International Fire Code, 2024 Edition, is amended to read as follows:

903.2.11.3 Buildings 55 feet or more in height An *automatic sprinkler system* shall be installed throughout *buildings* that have one or more *stories* with an *occupant load* of 30 or more located 55 feet (16,764 mm) or more above the lowest level of fire department vehicle access, measured to the finish floor.

Exceptions:

1. Open parking structures.

2. Occupancies in Group F-2.

(Ord. No. 52-878, § 34, 1-13-26)

Sec. 15.01.350. Chapter 9, Section 907.5.1 amended—Alarm activation and annunciation.

Chapter 9, Section 907.5.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

907.5.1 Alarm activation and annunciation. Upon activation, fire alarm systems and/or dedicated function sprinkler monitor-

ing systems shall initiate occupant notification and shall annunciate at the fire alarm control unit, or where allowed elsewhere by Section 907, at a constantly attended location.
(Ord. No. 52-878, § 35, 1-13-26)

Sec. 15.01.360. Chapter 9, Section 910.2.1 amended—Group F-1 and S-1.

Chapter 9, Section 910.2.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

910.2.1 Group F-1 and S-1 Smoke and heat vents installed in accordance with Section 910.3 or a mechanical smoke removal system installed in accordance with Section 910.4 shall be installed in *buildings* and portions there of used as Group F-1 or S-1 occupancy having more than 50,000 square feet (4,645 m^2) of undivided area. In occupied portions of a *building* equipped throughout with an *automatic sprinkler system* in accordance with Section 903.3.1.1 where the upper surface of the story is not a roof assembly, a mechanical smoke removal system in accordance with Section 910.4 shall be installed.

Exceptions:

1. Group S-1 aircraft repair hangars.
2. Areas completely separated by noncombustible partitions so that no one area exceeds 50,000 square feet (4,645 m^2). Openings shall be provided with approved automatic or self-closing devices to enclosure of the opening.

(Ord. No. 52-878, § 36, 1-13-26)

Sec. 15.01.370. Chapter 9, Section 912.2.1 amended—Visible location.

Chapter 9, Section 912.2.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

912.2.1 Visible location Fire department connections shall be located on the street side of *buildings* or facing approved fire apparatus access roads, fully visible and recognizable from the street, fire apparatus access road or nearest point of fire department vehicle access or as otherwise *approved* by the *fire code official*. In addition, a horn/strobe device shall be installed directly above the fire department connection and shall activate in conjunction with the fire alarm system to indicate water flow.
(Ord. No. 52-878, § 37, 1-13-26)

Sec. 15.01.380. Chapter 9, Section 912.5 amended—Signs.

Chapter 9, Section 912.5 of the International Fire Code, 2024 Edition, is amended to read as follows:

912.5 Signs. A metal sign with raised letters not less than 4 inch (101.6 mm) in size shall be mounted on all fire department connections serving automatic sprinklers, standpipes or fire pump connections. Such signs shall read: "AUTOMATIC SPRINKLERS," "STANDPIPES," "TEST CONNECTION," "STANDPIPE AND AUTOSPKR" or "AUTOSPKR AND STANDPIPE," or a combination thereof as applicable.
(Ord. No. 52-878, § 38, 1-13-26)

Sec. 15.01.390. Chapter 9, Section 912.5.1 amended—Lettering.

Chapter 9, Section 912.5.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

912.5.1 Lettering. Each fire department connection (FDC) shall be designated by a sign with letters not less than 4 inch (101.6 mm) in height. For manual standpipe systems, the sign shall also indicate that the system is manual and that it is either wet or dry.
(Ord. No. 52-878, § 39, 1-13-26)

Sec. 15.01.400. Chapter 9, Section 1003.5 amended—Elevation change.

Chapter 9, Section 1003.5 of the International Fire Code, 2024 Edition, is amended to read as follows:

1003.5 Elevation change Where changes in elevation of less than 12 inches (305 mm) exist in the *means of egress*, sloped surfaces

shall be used. Where the slope is greater than one unit vertical to in 20 units horizontal (5-percent slope), *ramps* complying with Section 1012 shall be used. Where the difference in elevation is 6 inches (152 mm) or less, the *ramp* shall be equipped with either *handrails* or floor finish materials that contrast with adjacent floor finish materials.

Exceptions:

1. Steps at exterior doors comply with Section 1010.1.4.
2. A *stair* with a single riser or with two risers and a tread is permitted at locations not required to be *accessible* by the Americans with Disabilities Act ("ADA") where the risers and treads comply with Section 1011.5, the minimum depth of the tread is 13 inches (330 mm) and not less than one *handrail* complying with Section 1014 is provided within 30 inches (762 mm) of the centerline of the normal path of egress travel on the *stair*.
3. A step is permitted in *aisles* serving seating that has a difference in elevation less than 12 inches (305 mm) at locations not required to be *accessible* by the Americans with Disabilities Act ("ADA"), provided the risers and treads comply with Section 1030.14 and the *aisle* is provided with a *handrail* complying with Section 1030.16.

   Throughout a story in a Group I-2 occupancy, any change in elevation in portions of the *means of egress* that serve non-ambulatory *persons* shall be by means of a *ramp* or sloped walkway.

(Ord. No. 52-878, § 40, 1-13-26)

Sec. 15.01.410. Chapter 10, Section 1008.2 amended—Illumination required.

Chapter 10, Section 1008.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

1008.2 Illumination required The *means of egress* serving a room or space shall be illuminated at all times that the room or space is occupied.

Exceptions:

1. Occupancies in Group U.
2. Self-service storage units 100 square feet (9.3 m^2) or less in area and accessed directly from the exterior of the *building*.
3. Aisle access ways in Group A.
4. *Dwelling units* and *sleeping units* in Groups R-1, R-2 and R-3.
5. *Sleeping units* of Group I occupancies.

(Ord. No. 52-878, § 41, 1-13-26)

Sec. 15.01.420. Chapter 10, Section 1008.3.2 amended—Illumination level under emergency power.

Chapter 10, Section 1008.3.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

1008.3.2 Illumination level under emergency power Emergency lighting *facilities* shall be arranged to provide initial illumination that is not less than an average of 1 foot-candle (11 lux) and a minimum at any point of 0.1 foot-candle (1 lux) measured along the path of egress at floor level. Illumination levels shall be permitted to decline to 0.6 foot-candle (6 lux) average and a minimum at any point of 0.06 foot-candle (0.6 lux) at the end of the emergency lighting time duration. A maximum-to-minimum illumination uniformity ratio of 40 to 1 shall not be exceed. In Group I-2 occupancies, failure of single lamp in a luminaire shall not reduce the illumination level to less than 0.2 foot-candle (2.2 lux).

Exception: Emergency lighting *facilities* shall be arranged at intervals not to exceed 50 feet (15,240 mm) on center or 25 feet (7,620 mm) in any one direction along the path or egress. Obstructions or changes in direction or exit travel shall be considered the conclusion of the emergency light *facility*.

(Ord. No. 52-878, § 42, 1-13-26)

Sec. 15.01.430. Chapter 10, Section 1009.1 amended—Accessible means of egress required.

Chapter 10, Section 1009.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

1009.1 Accessible means of egress required *Accessible means of egress* shall comply with this section. Accessible spaces shall be provided with not less than one *accessible means of egress*. Where more than one means of egress is required by Section 1006.2 or 1006.3 from any accessible space, each accessible portion of the space shall be served by not less than two *accessible means of egress*.

Exceptions:

1. One *accessible means of egress* is required from an *accessible mezzanine* level in accordance with Section 1009.3, 1009.4 or 1009.5, unless *accessible means of egress* is not required by Americans with Disabilities Act Accessibility Guidelines Sec. 206.2.3 or 206.2.4.
2. In assembly areas with ramped *aisles* or stepped *aisles,* one *accessible means of egress* is permitted where the *common path of egress travel* is accessible and meets the requirements in Section 1030.8.
3. At least one *accessible means of egress* shall connect each story and mezzanine in multi-story *buildings* and *facilities* per Americans with Disabilities Act Accessibility Guidelines Sec. 206.2.3.
4. At least one *accessible means of egress* shall connect accessible *building* or *facility* entrances will all accessible spaces and elements within the *building* or *facility* which are otherwise connected by a circulation path unless exempted by Americans with Disabilities Act Accessibility Sec. 206.2.3 Exceptions 1 through 7 per Americans Disabilities Act Accessibility Guidelines Sec. 206.2.4 including the exceptions.

(Ord. No. 52-878, § 43, 1-13-26)

Sec. 15.01.440. Chapter 10, Section 1009.2.2 amended—Doors.

Chapter 10, Section 1009.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

1009.2.2 Doors Where doors are part of an *accessible route* to provide access to an exit, *area of refuge* or exterior area of assisted rescue, maneuvering clearance shall be provided at such doors as required by Americans with Disabilities Act Accessibility Guidelines Sec. 404.2.4 in the direction of egress. Where doors lead to an *area of refuge* or exterior area for assisted rescue and reentry to the floor is possible, door maneuvering clearances shall be provided on both sides of the door.

Exception: Maneuvering clearances are not required a door to exit stairways for levels above and below the *level of exit discharge* where the exit enclosure does not include an *area of refuge*.

(Ord. No. 52-878, § 44, 1-13-26)

Sec. 15.01.450. Chapter 10, Section 1010.1.1 amended—Size of doors.

Chapter 10, Section 1010.1.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

1010.1.1 Size of doors The required capacity of each door opening shall be sufficient for the occupant load thereof and shall provide a minimum clear opening width of 32 inches (813 mm). The clear opening width of doorways with swinging doors shall be measured between the face of the door and the frame stop, with the door open 90 degrees (1.57 rad). Where this section requires a minimum clear opening width of 32 inches (813 mm) and a door opening includes two door leaves without a mullion, one leaf shall provide a minimum clear opening width of 32 inches (813 mm). In Group I-2, doors serving as means of egress doors where used for the movement of beds shall provide a minimum clear opening width

of 41½ inches (1,054 mm). The minimum clear opening height of doors shall be not less than 80 inches (2,032 mm).

Exceptions:

1. In Group R-2 and R-3 *dwelling* and *sleeping units* that are not required to be an *Accessible unit, Type A unit* or *Type unit,* the minimum width shall not apply to door openings that are not part of the required *means of egress.*

2. In Group I-3, door openings to resident sleeping units that are not required to be an Accessible unit shall have a minimum clear opening width of 32 inches (813 mm).

3. Door openings to storage closets less than 10 square feet (0.93 m^2) in area shall not be limited by the minimum clear opening width.

4. Door openings within a *dwelling unit* or *sleeping unit* shall have a minimum clear opening height of 78 inches (1,881 mm).

5. In *dwelling* and *sleeping units* that are not required to be *Accessible, Type A* or *Type B units*, exterior door openings other than the required exit door shall have a minimum clear opening height of 76 inches (1,930 mm).

6. In Groups I-1, R-2, R-3 and R-4, in *dwelling* and *sleeping units* that are not required to be *Accessible, Type A* or *Type B units,* the minimum clear opening widths shall not apply to interior egress doors.

7. Door openings required to be accessible with *Type B units* intended for user passage shall have a minimum clear opening width of 32 inches (813 mm).

8. Doors serving sauna compartments, toilet compartments or dressing, fitting or changing compartments that are not required to be accessible shall have a minimum clear opening width of 20 inches (508 mm).

(Ord. No. 52-878, § 45, 1-13-26)

Sec. 15.01.460. Chapter 10, Section 1010.1.4 amended—Floor elevation.

Chapter 10, Section 1010.1.4, of the International Fire Code, 2024 Edition, is amended to read as follows:

1010.1.4 Floor elevation There shall be a floor or landing on each side of a door. Such floor or landing shall be at the same elevation on each side of the door. Landings shall be level except for exterior landings, which are permitted to have a slope not to exceed 0.25 unit vertical in 12 unit's horizontal (2-percent slope).

Exceptions:

1. At doors serving individual *dwelling units* or *sleeping units* in R-2 and R-3, a door is permitted to open at the top step of an interior *flight* of stairs, provided that the door does not swing over the top step.

2. At exterior doors serving Groups F, H, R-2 and S and where such doors are not part of *accessible route,* the landing at an exterior door shall not be more than 7 inches (178 mm) below the landing on the egress side of the door, provided that the door, other than an exterior storm or screen door, does not swing over the landing.

3. At exterior doors serving Group U and individual *dwelling units* and *sleeping units* in Groups R-2 and R-3, and where such units are not required to be *Accessible units, Type A units* or *Type B units,* the landing at an exterior doorway shall be not more than 7¾ inches (197 mm) below the landing on the egress side of the door. Such doors, including storm or screen doors, shall be permitted to swing over either landing.

Exceptions:

1. Storm or screen doors are permitted to swing over exterior *flight* of stairs.

2. An exterior door is permitted to open at the top step of an exterior *flight* of stairs from a patio, provided there no more than four risers.

4. Variations in elevation due to differences in finish materials, but not more than ½ inch (12.7 mm).

5. Exterior decks, patios or balconies that are part of Type B *dwelling units* or *sleeping units,* that have impervious surfaces and that are not more than 4 inches (102 mm) below finish floor level of the adjacent interior space of the *dwelling unit* or *sleeping unit.*

6. Doors, gates, and panels that serve as access points to building equipment rooms that are not normally occupied, except where serving the following:

   6.1 Rooms containing electrical equipment rated 800 amperes or more that contain overcurrent devices, switching devices or control devices and where the exit or exit access door is less than 25 feet (7,620 mm) from the equipment working space as required by NFPA 70. See section 1010.2.8.2.

   6.2 Rooms or spaces having floor area larger than 1,000 square feet (93 m^2), containing a refrigerant evaporator and maintained at a temperature below 68°F (20°C). See Section 1006.2.2.3.

(Ord. No. 52-878, § 46, 1-13-26)

Sec. 15.01.470. Chapter 10, Section 1010.2.2 amended—Hardware.

Chapter 10, Section 1010.2.2. of the International Fire Code, 2024 Edition, is amended to read as follows:

1010.2.2 Hardware Door handles, pulls, latches, locks and other operating devices on doors required to be *accessible* by the Americans with Disabilities Act ("ADA") shall not require tight grasping, tight pinching or twisting of the wrist to operate.

(Ord. No. 52-878, § 47, 1-13-26)

Sec. 15.01.480. Chapter 10, Section 1011.5.2 amended—Riser height and tread depth.

Chapter 10, Section 1011.5.2 of the International Fire Code, 2024 Edition, is incorporated to read as follows:

1011.5.2 Riser height and tread depth Stair riser heights shall be 7 inches (178 mm) maximum and 4 inches (102 mm) minimum. The riser height shall be measured vertically between the *nosings* of adjacent treads or between the stairway landing and the adjacent tread. Rectangular tread depths shall be 11 inches (279 mm) minimum measured horizontally between the vertical planes of the foremost projection of adjacent treads and at a right angle to the tread's *nosing*. *Winder* treads shall have a minimum tread depth of 11 inches (279 mm) between the vertical planes of the foremost projection of adjacent treads at the intersections with the walk line and a minimum tread depth of 10 inches (254 mm) within the clear width of the stair.

Exceptions:

1. *Spiral stairways* in accordance with Section 1011.10.

2. *Stairways* connecting stepped *aisles* to cross *aisles* or concourses shall be permitted to use the riser/tread dimension in Section 1030.14.2.

3. In Group R-3 occupancies; within *dwelling units* in Group R-2 occupancies; and in Group U occupancies that are accessory to a Group R-3 occupancy or accessory to individual *dwelling units* in Group R-2 occupancies; the maximum riser height shall be 7¾ inches (197 mm); the minimum tread depth shall be 10 inches (254 mm); the minimum *winder* tread depth at the walk line shall be 10 inches (254 mm); and the minimum *winder* tread depth shall be 6 inches (152 mm). A

nosing projection not less than ¾ inches (19.1 mm) but not more than 1¼ inches (32 mm) shall be provided on *stairways* with solid risers where the tread depth is less than 11 inches (297 mm).

4. See Section 503.1 of the *International Existing Building Code* for the replacement of existing *stairways.*

5. In Group 1-3 *facilities, stairways* providing access to guard towers, observation stations and control rooms, not more than 250 square feet (23 m^2) in area, shall be permitted to have a maximum riser height of 8 inches (203 mm) and minimum tread of 9 inches (229 mm).

(Ord. No. 52-878, § 48, 1-13-26)

Sec. 15.01.490. Chapter 10, Section 1011.11 amended—Handrails.

Chapter 10, Section 1011.11 of the International Fire Code, 2024 Edition, is amended to read as follows:

1011.11 Handrails *Flights of stairways* shall have *handrails* on each side and shall comply with Section 1014. Where glass is used to provide the *handrail,* the *handrail* shall comply with Section 2407.

Exceptions:

1. *Flights of stairways* within *dwelling units* and *flights* of *spiral stairways* are permitted to have a *handrail* on one side only.

2. Decks, patios and walkways that have a single change in elevation where the landing depth on each side of the change of elevation is greater than what is required for a landing do not require *handrails.*

3. In Group R-3 occupancies, a change in elevation consisting of a single riser at an entrance or egress door does not require *handrails.*

4. Changes in room elevations of three or fewer risers within *dwelling units* and *sleeping units* in Groups R-2 and R-3 do not require *handrails.*

5. Where a platform lift is in a stationary position and the floor of the platform lift serves as the upper landing of a *stairway, handrails* shall not be required on the *stairway,* provided that all of the following criteria are met:

   5.1.1. The *stairway* contains not more than two risers.

   5.1.2. A handhold, positioned horizontally or vertically, is located on one side of the *stairway* adjacent to the top landing.

   5.1.3. The handhold is located not less than 34 inches (864 mm) and not more than 42 inches (1,067 mm) above the bottom landing of the *stairway.*

   5.1.4. The handhold gripping surface complies with Section 1014.4, and is not less than 4.5 inches (114 mm) in length.

6. Changes in elevations of only one riser do not require *handrails.*

(Ord. No. 52-878, § 49, 1-13-26)

Sec. 15.01.500. Chapter 10, Section 1012.1 amended—Scope.

Chapter 10, Section 1012.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

1012.1 Scope The provisions of this section shall apply to *ramps* used as a component of a *means of egress.*

Exceptions:

1. Ramped *aisles* within assembly rooms or spaces shall comply with the provisions in Section 1030.

2. Curb ramps shall comply with Americans with Disabilities Act Accessibility Guidelines Sec. 406.1.

3. Vehicle ramps in parking garages for pedestrian exit access shall not be required to comply with Sections 1012.3 through 1012.10 where they are not an *accessible*

route serving accessible parking spaces, other required accessible elements or part of an *accessible means of egress.*

(Ord. No. 52-878, § 50, 1-13-26)

Sec. 15.01.510. Section 1012.6.3 amended—Length.

Chapter 10, Section 1012.6.3 of the International Fire Code, 2024 Edition, is amended to read as follows:

1012.6.3 Length The landing length shall be 60 inches (1,525 mm) minimum.

Exceptions:

1. In Group R-2 and R-3 individual *dwelling* and *sleeping units*, landings are permitted to be 36 inches (914 mm) minimum.
2. Where the *ramp* is not part of an *accessible* route, the length of the landing shall not be required to be more than 48 inches (1219 mm) in the direction of travel.
3. The minimum clear opening width shall not apply to doors for nonassessable shower or sauna compartments.
4. The minimum clear opening width shall not apply to the doors for no accessible toilet stalls.

(Ord. No. 52-878, § 51, 1-13-26)

Sec. 15.01.520. Chapter 10, Section 1012.6.4 amended—Change of direction.

Chapter 10, Section 1012.6.4 of the International Fire Code, 2024 Edition, is amended to read as follows:

1012.6.4 Change in direction Where changes in direction of travel occur at landings provided between ramp runs, the landings shall be 60 inches by 60 inches (1,524 mm by 1,524 mm) minimum.

Exception: In Group R-2 and R-3 individually dwelling or sleeping units, landings are permitted to be 36 inches by 36 inches (914 mm by 914 mm) minimum.

(Ord. No. 52-878, § 52, 1-13-26)

Sec. 15.01.530. Chapter 10, Section 1012.6.5 amended—Doorways.

Chapter 10, Section 1012.6.5 of the International Fire Code, 2024 Edition, is amended to read as follows:

1012.6.5 Doorways Where doorways are located adjacent to a ramp landing, maneuvering clearances required by Americans with Disabilities Act Accessibility Guidelines Sec. 404.2.4 are permitted to overlap the required landing area.

(Ord. No. 52-878, § 53, 1-13-26)

Sec. 15.01.540. Chapter 10, Section 1012.10 amended—Edge protection.

Chapter 10, Section 1012.10 of the International Fire Code, 2024 Edition, is amended to read as follows:

1012.10 Edge protection Edge protection complying with Section 1012.10.1 or 1012.10.2 shall be provided on each side of ramp runs and at each side of ramp landings.

Exceptions:

1. Edge protection is not required on *ramps* that are not required to have *handrails,* provided they have flared sides that comply with the Americans with Disabilities Act Accessibility Guidelines Sec. 406.3.
2. Edge protection is not required on the sides of ramp landings serving an adjoining ramp run of *stairway.*
3. Edge protection is not required on the sides of ramp landings having a vertical drop off of not more than ½ inch (12.7 mm) within 10 inches (254 mm) horizontally of the required landing area.

(Ord. No. 52-878, § 54, 1-13-26)

Sec. 15.01.550. Chapter 10, Section 1013.1 amended—Where required.

Chapter 10, Section 1013.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

1013.1 Where required Exits and *exit access* doors shall be marked by an *approved*

exit sign readily visible from any direction of egress travel. The path of egress travel to *exits* and within *exits* shall be marked by readily visible exit signs to clearly indicate the direction of egress travel in cases where the exit or the path of egress travel is not immediately visible to the occupants. Intervening means of egress doors within *exits* shall be marked by exit signs. Exit sign placement shall be such that any point in an *exit access* corridor or *exit passageway* is within 100 feet (30,480) or the *listed* viewing distance of the sign, whichever is less, from the nearest visible *exit* sign. Exit signs required at doors shall not be located more than 12 feet (3,658 mm) above the finish floor, nor more than 2 feet (610 mm) from either edge of door.

Exceptions:

1. Exit signs are not required in rooms or areas that require only one *exit* or *exit access.*
2. Main exterior exit doors or gates that are obviously and clearly identifiable as *exits* need not have exit signs where *approved* by the *building official.*
3. Exit signs are not required in occupancies in Group U and individual *sleeping units* or *dwellings units* in Group R-1, R-2 or R-3.
4. Exit signs are not required in dayrooms, sleeping rooms or *dormitories* in occupancies in Group I-3.
5. In occupancies in Groups A-4 and A-5, exit signs are not required on the seating side of vomitories or openings into seating areas where exit signs are provided in the concourse that are readily apparent from the vomitories. Egress lighting to identify each vomitory or opening within the seating area in an emergency.

(Ord. No. 52-878, § 55, 1-13-26)

Sec. 15.01.560. Section 1015.2 amended—Where required.

Chapter 10, Section 1015.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

1015.2 Where required *Guards* shall be located along open-sided walking surfaces, such as *mezzanines, equipment platforms, aisles, stairs, ramps* and landings that are located more than 30 inches (762 mm) measured vertically to the floor or grade below at any point within 36 inches (914 mm) horizontally to the edge of the open side and at the perimeter of occupiable roofs. *Guards* shall be adequate in strength and attachment in accordance with Section 1607.9.

Exceptions: *Guards* are not required for the following locations:

1. On the loading side of loading docks or piers.
2. On the audience side of *stages* and raised *platforms,* including *stairs* leading up to the *stage* and raised *platforms.*
3. On raised *stage* and *platform* floor areas, such as runways, *ramps* and side *stages* used for entertainment or presentations.
4. At vertical openings in the performance area of *stages* and *platforms.*
5. At elevated walking surfaces appurtenant to *stages* and *platforms* for access to and utilization of special lighting or equipment.
6. Along vehicle service pits not accessible to the public.
7. In assembly seating areas at cross *aisles* in accordance with Section 1030.17.2.
8. On the loading side of station platforms on fixed guideway transit or passenger rail systems.
9. Portions of an *occupiable roof* located less than 30 inches (762 mm) measured vertically to adjacent unoccupiable roof areas where *approved guards* are present at the perimeter of the roof.
10. At portions of an *occupiable roof* where an *approved* barrier is provided.
11. At window wells a protective cover designed to meet the amended roof live load requirements of Chapter 16 of the International Building Code may be substituted for *guards.* The window well covers shall be provided with an

emergency egress hatch located above the ladder or *stairway,* with the minimum egress opening maintained. The force required to open the egress hatched shall not exceed 30 pounds (133.45 N). Window well covers and gates shall be constructed of materials approved for exterior use.

(Ord. No. 52-878, § 56, 1-13-26)

Sec. 15.01.570. Chapter 10, Section 1018.3 amended—Aisles in Groups B and M.

Chapter 10, Section 1018.3 of the International Fire Code, 2024 Edition, is amended to read as follows:

1018.3 Aisles in Groups B and M In Group B and M Occupancies, the minimum clear aisle width shall be determined by Section 1005.1 for the *occupant load* served, but shall be not less than that required for *corridors* by Section 1020.3.

Exception: Nonpublic *aisles* serving less than 50 people and not required to be *accessible* by the Americans with Disabilities Act ("ADA") need not exceed 28 inches (711 mm) in width.

(Ord. No. 52-878, § 57, 1-13-26)

Sec. 15.01.580. Chapter 10, Section 1018.5 amended—Aisles in other than assembly spaces and Group B and M.

Chapter 11, Section 1018.5 of the International Fire Code, 2024 Edition, is amended to read as follows:

1018.5 Aisles in other than assembly spaces and Group B and M In other than rooms or spaces used for assembly purposes and Group B and M occupancies, the minimum clear aisle capacity shall be determined by Section 1005.1 for the *occupant load* served, but the width shall be not less than that required for *corridors* by Section 1020.3.

Exception: Nonpublic *aisles* serving less than 50 people and not required to be *accessible* by the Americans with Disabilities Act ("ADA") need not exceed 28 inches (711 mm) in width.

(Ord. No. 52-878, § 58, 1-13-26)

Sec. 15.01.590. Chapter 10, Section 1020.2 amended—Construction.

Chapter 10, Section 1020.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

1020.2 Construction *Corridors* shall be fire-resistance rated in accordance with Table 1020.2. The *corridor* walls required to be fire-resistance rated shall comply with Section 708 for *fire partitions.*

Exceptions:

1. A *fire-resistance rating* is not required for *corridors* in an occupancy in Group E where each room that is used for instruction has not less than one door opening directly to the exterior and rooms for assembly purposes have not less than one-half of the required means of egress doors opening directly to the exterior. Exterior doors specified in this exception are required to be at ground level.
2. A *fire-resistance rating* is not required for *corridors* contained within a *dwelling unit* or *sleeping unit* in an occupancy in Groups I-1 and R.
3. A *fire-resistance rating* is not required for *corridors* in *open parking garages.*
4. A *fire-resistance rating* is not required for corridors in an occupancy in Group B that is a space requiring only single *means of egress* complying with Section 1006.2.
5. *Corridors* adjacent to the *exterior walls* of *buildings* shall be permitted to have unprotected openings on unrated *exterior walls* where unrated wall are permitted by Table 705.5 and unprotected openings are permitted by Table 705.9.
6. A *fire-resistance rating* is not required for *corridors* not exceeding 20 feet (6,096 mm) in length, when they provide direct, obvious and unobstructed means of travel to an *exit* or until egress is provided from the building, provide that all openings, except the entrance to the corridor, are protected with self-closing doors of non-

combustible construction or solid wood core, not less than 1 inch (335 mm) in thickness or fixed glazing. Use of rolling or sliding doors shall not be permitted, unless equipped with a closing device which operates with the actuation of an approved listed smoke detector.

(Ord. No. 52-878, § 59, 1-13-26)

Sec. 15.01.600. Chapter 11, Section 1103.2 amended—Emergency responder communication enhancement in existing buildings.

Chapter 11, Section 1103.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

1103.2 - Emergency responder communication enhancement in existing buildings. Existing buildings and/or remodels other than R-3 and R-4 that do not have approved in-building emergency responder communication enhancement for emergency responders in the building based on existing coverage levels of the public safety communication system are required to submit an in-building coverage test to the fire code official. The fire code official may require an in-building emergency responder communication enhancement system if it is necessary to promote public safety.

(Ord. No. 52-878, § 60, 1-13-26)

Sec. 15.01.610. Chapter 28, Section 2810.6 amended—Outdoor storage of pallet at pallet manufacturing and recycling facilities.

Chapter 28, Section 2810.6 of the International Fire Code, 2024 Edition, is amended to read as follows:

315.7 Outdoor pallet storage. Pallets stored outdoors shall comply with Sections 315.7 through 315.7.7. Pallets stored within a building shall be protected in accordance with Chapter 32.

315.7.1 Storage beneath overhead projections from buildings. Where buildings are equipped throughout with an automatic sprinkler system, the outdoor storage of pallets under eaves, canopies or other projections or over hangs are prohibited except where automatic sprinklers are installed under such eaves, canopies or other projections or overhangs.

315.7.2 Distance to lot line. Pallet storage shall not be located within 10 feet (3,048 mm) of a lot line.

315.7.3 Storage height. Pallet storage shall not exceed 20 feet (6,096 mm) in height.

315.7.4 Pallet pile stability and size. Pallet stacks shall be arranged to form stable piles. Individual pallet piles shall cover an area not greater than 400 square feet (37 m2).

315.7.5 Pallet types. Pallets shall be all wood, with slatted or solid top or bottom, with metal fasteners, or shall be plastic or composite pallets, listed and labeled in accordance with UL 2335 or FM 4996. Plastic pallets shall be both solid and gridded deck, independent of the pallet manufacturing process, type of resin used in fabrication or geometry of the pallet.

315.7.6 Pile separation distances. In addition to the other requirements of this section, pallet stacks and piles shall be separated in accordance with Sections 315.7.6.1 and 315.7.6.2.

315.7.6.1 Building separation. Pallet stacks and piles shall be separated from buildings in accordance with Table 315.7.6(1) for wood pallets and Table 315.7.6(2) for plastic pallets.

315.7.6.2 Separation from other pallets and on-site storage. Pallets shall be separated from other pallet piles and other storage in accordance with Table 315.7.6(3) for wood pallets and Table 315.7.6(4) for plastic pallets.

315.7.7 Prohibited locations. Pallets shall not be stored underneath high-voltage transmission lines, elevated roadways or elevated railways.

TABLE 315.7.6(1)
SEPARATION DISTANCE BETWEEN WOOD PALLET STACKS AND BUILDINGS

WALL CONSTRUCTION	OPENING TYPE	WOOD PALLET SEPARATION DISTANCE (feet)		
		≤ 50 Pallets	51 to 200 Pallets	>200 Pallets
Masonry	None	2	2	2
Masonry	Fire-rated glazing with open sprinklers	2	5	20
Masonry	Fire-rated glazing	10	5	20
Masonry	Plain glass with open sprinklers	10	5	20
Noncombustible	None	10	5	20
Wood with open sprinklers	—	10	5	20
Wood	None	15	30	90

Sec. 15.01.620. Chapter 28, Section 2810.7 amended—Outdoor storage of pallet at pallet manufacturing and recycling facilities.

Chapter 28, Section 2810.7 of the International Fire Code, 2024 Edition, is amended to read as follows:

315.7 Outdoor pallet storage. Pallets stored outdoors shall comply with Sections 315.7 through 315.7.7. Pallets stored within a building shall be protected in accordance with Chapter 32.

315.7.1 Storage beneath overhead projections from buildings. Where buildings are equipped throughout with an automatic sprinkler system, the outdoor storage of pallets under eaves, canopies or other projections or over hangs are prohibited except where automatic sprinklers are installed under such eaves, canopies or other projections or overhangs.

315.7.2 Distance to lot line. Pallet storage shall not be located within 10 feet (3,048 mm) of a lot line.

315.7.3 Storage height. Pallet storage shall not exceed 20 feet (6,096 mm) in height.

315.7.4 Pallet pile stability and size. Pallet stacks shall be arranged to form stable piles. Individual pallet piles shall cover an area not greater than 400 square feet (37 m2).

315.7.5 Pallet types. Pallets shall be all wood, with slatted or solid top or bottom, with metal fasteners, or shall be plastic or composite

pallets, listed and labeled in accordance with UL 2335 or FM 4996. Plastic pallets shall be both solid and gridded deck, independent of the pallet manufacturing process, type of resin used in fabrication or geometry of the pallet.

315.7.6 Pile separation distances. In addition to the other requirements of this section, pallet stacks and piles shall be separated in accordance with Sections 315.7.6.1 and 315.7.6.2.

315.7.6.1 Building separation. Pallet stacks and piles shall be separated from buildings in accordance with Table 315.7.6(1) for wood pallets and Table 315.7.6(2) for plastic pallets.

315.7.6.2 Separation from other pallets and on-site storage. Pallets shall be separated from other pallet piles and other storage in accordance with Table 315.7.6(3) for wood pallets and Table 315.7.6(4) for plastic pallets.

315.7.7 Prohibited locations. Pallets shall not be stored underneath high-voltage transmission lines, elevated roadways or elevated railways.

Sec. 15.01.630. Chapter 28, Section 2810.8 amended—Outdoor storage of pallet at pallet manufacturing and recycling facilities.

Chapter 28, Section 2810.8 of the International Fire Code, 2024 Edition, is amended to read as follows:

315.7 Outdoor pallet storage. Pallets stored outdoors shall comply with Sections 315.7 through 315.7.7. Pallets stored within a building shall be protected in accordance with Chapter 32.

315.7.1 Storage beneath overhead projections from buildings. Where buildings are equipped throughout with an automatic sprinkler system, the outdoor storage of pallets under eaves, canopies or other projections or over hangs are prohibited except where automatic sprinklers are installed under such eaves, canopies or other projections or overhangs.

315.7.2 Distance to lot line. Pallet storage shall not be located within 10 feet (3,048 mm) of a lot line.

315.7.3 Storage height. Pallet storage shall not exceed 20 feet (6096 mm) in height.

315.7.4 Pallet pile stability and size. Pallet stacks shall be arranged to form stable piles. Individual pallet piles shall cover an area not greater than 400 square feet (37 m2).

315.7.5 Pallet types. Pallets shall be all wood, with slatted or solid top or bottom, with metal fasteners, or shall be plastic or composite pallets, listed and labeled in accordance with UL 2335 or FM 4996. Plastic pallets shall be both solid and gridded deck, independent of the pallet manufacturing process, type of resin used in fabrication or geometry of the pallet.

315.7.6 Pile separation distances. In addition to the other requirements of this section, pallet stacks and piles shall be separated in accordance with Sections 315.7.6.1 and 315.7.6.2.

315.7.6.1 Building separation. Pallet stacks and piles shall be separated from buildings in accordance with Table 315.7.6(1) for wood pallets and Table 315.7.6(2) for plastic pallets.

315.7.6.2 Separation from other pallets and on-site storage. Pallets shall be separated from other pallet piles and other storage in accordance with Table 315.7.6(3) for wood pallets and Table 315.7.6(4) for plastic pallets.

315.7.7 Prohibited locations. Pallets shall not be stored underneath high-voltage transmission lines, elevated roadways or elevated railways.

(Ord. No. 52-878, § 63, 1-13-26)

Sec. 15.01.640. Chapter 41, Section 4106—Mobile Food Preparation Vehicles—Omitted.

Chapter 41, Section 4106 of the International Fire Code, 2024 Edition, related to Mobile Food Preparation Vehicles is hereby omitted. Mobile Food Vendors shall comply with the provisions of Chapter 3.15 of the Code of the City of Wichita. (Ord. No. 52-878, § 64, 1-13-26)

Sec. 15.01.650. Chapter 56, Section 5601.3 amended—Fireworks.

Chapter 56, Section 5601.3 of the International Fire Code, 2024 Edition, is amended to read as follows:

A. Definitions.

1. "Aerial Firework" means any Consumer Firework Aerial Firework which is a device designed to produce its effect(s) in the air; including but

not limited to devices which shoot flaming balls or objects, cake or mortal fireworks.

"Bottle Rocket" means any pyrotechnic device which is classified as a C explosive by the United State Department of Transportation under 49 C.F.R. § 173.53 (1990), which is mounted on a stick or wire, and projects into the air when ignited with or without reports and includes any device with the same configuration with or without reports, which may be classified as pipe or trough rocket.

"Consumer Firework" means any firework classified as a Division 1.4g firework by the United States Department of Transportation.

"Fire Code Official" means the Wichita Fire Department Fire Marshal.

"Hobbyist Manufacturer" means any person who manufactures consumer fireworks, display fireworks or articles pyrotechnic for their personal use.

"Manufacturer" means any person engaged in the manufacture of fireworks of any kind in the State of Kansas. Manufacturer shall also include any person engaged in the assembly of consumer fireworks or components parts into a finished item or assortment, but shall not include repackaging finished goods into an assortment.

"Permanent Retailer" means any person who is licensed by the State Fire Marshal to engage in the year-round retail sale of consumer fireworks, including the receipt and possession with intent to sell of consumer fireworks and the retail sale, delivery, consignment, gifting or other distributional retails of consumer fireworks to any person from a permanent structure at a permanent location with this state.

"Person" means any individual, partnership, firm, company, association, corporation, not-for-profit organization, or limited liability corporation.

"Safe and Sane Firework" means a Consumer Firework that does not leave the ground when ignited, including but not limited to: fountains, sparklers, smoke balls, snake-type fireworks, ground-spinning fireworks, pinwheels, most novelty fireworks, toy-trick noisemakers, and crackling fireworks.

Seasonal retailer means a person who receives consumer fireworks and sells, delivers, consigns, gives or other furnishes consumer fireworks only to the public for their personal use and only during the period set forth in Subsection E(2).

"Sky Lantern or Flying Lantern" means devices that require a heat source which produces heated air trapped in a balloon-type covering allowing the device to float in the air.

B. Fireworks Prohibited. It is unlawful for any person to:

1. Possess, handle, use, manufacture or store bottle rockets and Sky Lanterns.
2. Discharge, use or allow another to discharge or use any Safe and Sane Firework without permission from a Fire Code Official. Such restriction shall not apply during the period from 10:00 a.m. on June 27 through midnight on July 5. During such period, these fireworks may only be discharged during the hours of 10:00 a.m. to midnight.
3. Discharge, use or allow another to discharge or use any Aerial Firework

without permission from the Fire Code Official or designee. Such restriction shall not apply during the period from 10:00 a.m. on July 3 through midnight on July 5. During such period, these fireworks may only be discharged during the hours of 10:00 a.m. to midnight.

4. Discharge, use or allow another to discharge or use any class of firework on any day that a Fire Code Official has deemed them unsafe as a hazard posed to life or property.

5. Ignite or discharge fireworks into, under, or from a bicycle, motorcycle, electric scooter, car or any type of motor vehicle, whether moving or standing still or on a public roadway or the right-of-way adjoining a public roadway.

6. Discharge within 50 feet of any retail fireworks stand or facility where fireworks are stored or sold.

7. Possess, ignite or otherwise cause the discharge or allow another to possess, ignite or otherwise cause the discharge of any fireworks that are not Consumer Fireworks or any fireworks which are prohibited by Federal or State statutes or regulations.

C. Persons Responsible for Violations.

1. Minors: It shall be unlawful for an adult to allow or permit a person under the age of 18 to violate the provisions of Subsection B. For the purposes of this section, failure to supervise shall be synonymous with allow and/or permit. Adult is defined as any individual or person over the age of 18 years.

2. Owner/Occupant Responsibility: It is unlawful for an individual, owner, lessee, renter, proprietor, or any other person with control of the real property to allow, permit, host, consent to or facilitate a violation of Subsection B. An individual, owner, lessee, renter, proprietor, or any other person with control of the real property shall be presumed to have consented to the illegal use of fireworks on the property or adjacent right-of-way if law enforcement or fire officials observe and document the existence of the remnants of unlawful fireworks on the premises indicative of the use or display of such fireworks.

D. Enforcement.

1. Members of the Wichita Fire Department and Wichita Police Department are authorized to enforce this provision and all applicable provisions of Title 15 pertaining to the storage, use, handling, manufacture and possession of fireworks within the City of Wichita.

2. The sale of fireworks shall comply with requirements as determined by the City of Wichita Fire Marshal's Office and it shall be a violation of the law to fail to comply.

E. Permits.

1. Any person, individual or corporation desiring to sell fireworks within the corporate city limits of the City of Wichita shall obtain a permit from the Licensing Department authorizing the sale of such fireworks. An application shall be completed on a form provided by the Licensing Department. The fee for such permit shall be $1,500 per site payable to the City of Wichita. In addition to the fireworks permit, if sales are located within a tent, all firework sellers must comply with Chapter 1, Section 105.6.47, of the International Fire Code, 2024 Edition, including the payment of any applicable tent permit and inspection fees. In addition, sellers must comply with all administrative regulations set by the Kansas State Fire Marshal regarding the sale of

fireworks. The possession, storage, and sale of specific types of Division 1.4G fireworks shall comply with the following guidelines:

a. Fireworks shall comply with CPSC 16 CFR, Parts 1500-1507, and Dot 49 CFR, Parts 100-185 for Consumer Fireworks; and

b. Fireworks shall be classified as Class C and/or 1.4G.

2. Fireworks may be sold by Seasonal retailers from 10:00 a.m. to midnight, June 27 through July 4. It shall be unlawful to sell fireworks without a proper permit or outside the allowed hours of sale. The year round sale of consumer fireworks or the sale of consumer fireworks outside of the period referenced above by Permanent retailers, Seasonal Retailers or other firework licensees is prohibited within the corporate city limits of the City of Wichita.

3. At each sale location an informational sign approved by the Wichita Fire Department shall be posted in a conspicuous location and informational flyers shall be available so as to educate the public as to the firework ordinances in the City of Wichita. It shall be unlawful to sell fireworks from a location without posting the sign or having the flyers available to the public.

4. It is unlawful for any person to operate an outdoor display of fireworks, as required by Section 15.01.610 of this Code without first obtaining a license from the City of Wichita.

5. It is unlawful for any person to operate any indoor pyrotechnic article, as required by Section 15.01.620 of this Code without first obtaining a license from the City of Wichita.

6. It is unlawful for any Manufacturer or Hobbyist Manufacturer to manufacture or possess goods, fuses, ingredients or other compounds to manufacture consumer fireworks, display fireworks, or pyrotechnic articles without first obtaining a license from the office of the Kansas State Fire Marshal.

F. **Exceptions**. The provisions in this ordinance shall not apply to the following:

a. Toy smoke devices as defined in the American Pyrotechnic Association Standard No. 87-1, Section 3.2.3;

b. Toy paper caps as defined in the American Pyrotechnic Association Standard No. 87-1, Section 3.3;

c. The manufacture, storage, sale, or use of signals necessary for the safe operation of railroads or other classes of public or private transportation;

d. Fireworks, pyrotechnics or other explosive devices utilized by the military or naval forces of the United States or by any federal, state or local law enforcement officer; and

e. The sale or use of blank cartridges for ceremonial or theatrical or athletic events.

G. Penalties.

1. Any person convicted of violating the provisions of Subsections B or C of this ordinance shall be guilty of a misdemeanor punishable only by a fine of one thousand dollars ($1,000) or 60 hours of court ordered community service, or both, plus any applicable court costs. Any person convicted of a second offense of a violation of Subsections B or C shall be punished only by a fine of one thousand five hundred dollars ($1,500), and a conviction of a third or subsequent violation shall be punishable by only a fine of two thousand dollars ($2,000). The

municipal court may accept payment of such fine amount without an appearance by the person charged.

2. Any person violating any other provision of this ordinance shall be guilty of a misdemeanor and shall be punished by a fine not to exceed two thousand five hundred dollars ($2,500) or by imprisonment for not more than one (1) year, or by both such fine and imprisonment. Such person shall be required to appear before the judge of the municipal court to answer for said charges.

H. Seizure of fireworks.

1. If fireworks are found to be stored, possessed or transported in violation of this Code, such fireworks may be seized by Wichita Police Department Officers or personnel of the Wichita Fire Department. Reasonable costs for the storage and destruction of such fireworks may be assessed against the party found to be in violation of the law, except that if an administrative hearing is requested, no person shall be assessed for storage costs incurred for more than 60 days after the completion of the hearing or the expiration of the time for seeking judicial review.

2. The owner of any fireworks seized may make written demand upon the Fire Marshal of the Wichita Fire Department for an administrative hearing. Where, after hearing, the Fire Marshal or a designee finds that there has been a violation of the provisions of the Code of the City of Wichita, the Wichita Fire Department may destroy or order the destruction of such fireworks or direct such other disposition of the fireworks as is deemed proper. Unless necessary to protect against a substantial threat to the public health, safety or welfare, the fireworks shall not be destroyed until the completion of the administrative hearing or expiration of the time for seeking judicial review. If the hearing officer finds there has been no violation, the fireworks shall be returned to their owner.

3. Where no claimant has appeared within 60 days of the seizure, demanded the return of the fireworks and proven, to the satisfaction of the Fire Marshal of the Wichita Fire Department, the claimant's title to and right of possession of such fireworks, the Wichita Fire Department may, without process and without liability, destroy or order the destruction of the fireworks or direct such other disposition thereof as is deemed proper.

4. Where the manufacture, condition, storage, packing or location of fireworks is such that their continued existence or transportation is an immediate danger to public safety, health or welfare, the Wichita Fire Department or a representative thereof may apply to the Sedgwick County District Court for an emergency ex parte order authorizing the Wichita Fire Department to destroy or dispose of the fireworks without liability to the owner thereof.

(Ord. No. 52-878, § 65, 1-13-26)

Sec. 15.01.660. Chapter 56, Section 5601.2.4 amended—Financial responsibility.

Chapter 56, Section 5601.2.4 of the International Fire Code, 2024 Edition, is incorporated to read as follows:

5601.2.4 Financial responsibility. Before a permit is issued, as required by Section 5601.2, the applicant shall file with the City Clerk a corporate surety bond in the principal sum of not less than $500,000 or a public liability insurance policy for the same amount,

for injury or death to persons or injury to property for the purpose of the payment of all damages to persons or property which arise from, or are caused by, the conduct of any act authorized by the permit upon which any judicial judgment results. The fire code official is authorized to specify a greater or lesser amount when, in his or her opinion, conditions at the location of use indicate a greater or lesser amount is required. Government entities shall be exempt from this bond or insurance requirement.

(Ord. No. 52-878, § 66, 1-13-26)

Sec. 15.01.670. Chapter 56, Section 5608.2 amended—Permit applications.

Chapter 56, Section 5608.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

5608.2 Permit Applications. Permits shall be required as set forth in Section 105.5 and regulated in accordance with this section. Permit application shall be made not less than fourteen (14) days prior to the scheduled date of the display. No permit shall be submitted more than sixty (60) days prior to the scheduled date of display unless a signed contract for such display is in the applicant's possession and presented at the time of application. The permit application shall include a diagram of the grounds on which the display is to be held showing the point or points at which the fireworks are to be discharged; the location of buildings, highways, and other lines of communication; the lines behind which the audience will be restrained; and the location of nearby trees, telegraph or telephone lines and other overhead obstructions. A plan establishing procedures to follow and actions to be taken in the event that a shell fails to ignite in, or discharge from, a mortar or fails to function over the fallout area or other malfunctions shall be provided to the fire code official. At the time of permit application, the fire code official shall be consulted regarding the requirements for a standby fire apparatus. After the permit has been issued, sale, possession, use and distribution of fireworks for such display shall be lawful for that purpose only. No permit shall be transferable. Permits shall be issued by the Treasurer after approval from the fire code official.

(Ord. No. 52-878, § 67, 1-13-26)

Sec. 15.01.680. Chapter 61, Section 6104.2 amended—Maximum capacity within established limits.

Chapter 61, Section 6104.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

6104.2 Maximum capacity within established limits. Within the limits established by law restricting the storage of liquefied petroleum gas for the protection of heavily populated or congested areas, the aggregate capacity of any one installation shall not exceed a water capacity of 125 gallons (473.1765 L). Containers greater than 125 gallons (473.1765 L) are prohibited within the city limits where public gas utilities are provided.

Exceptions:

1. In particular installations, this capacity limit shall be determined by the fire code official, after consideration of special features, such as topographical conditions, nature of occupancy, and proximity to buildings, capacity of proposed LP-gas containers, degree of fire protection to be provided and capabilities of the local fire department.
2. Pre-existing installations until said property changes ownership.
3. Storage of portable LP-gas containers awaiting use or resale. See section 6109.

(Ord. No. 52-878, § 68, 1-13-26)

Sec. 15.01.690. Appendix C, Section C103.2 amended—Average Spacing.

Appendix C, Section C103.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

Section C103.2 Average Spacing. The average spacing between fire hydrants shall be in accordance with Table C102.1.

Exceptions:

1. The average spacing shall be permitted to be increased by 10 percent where existing fire hydrants provide all or a portion of the required number of fire hydrants.
2. The spacing between fire hydrants in residential (one- and two-family dwellings) developments may be increased to 800 feet with approval of the fire code official.

(Ord. No. 52-878, § 69, 1-13-26)

Sec. 15.01.700. Appendix D—Table D103.4 amended—Dead Ends.

Appendix D, Table D103.4 of the International Fire Code, 2024 Edition, is amended to read as follows:

Table D103.4 Dead Ends. Dead-end fire apparatus access roads in excess of 150 feet (45,720 mm) shall be provided with width and turnaround provisions in accordance with Table D103.4.

Table 3—D103.4
Requirements for Dead-End
Fire Apparatus Access Roads

Length (feet)	Width (feet)	Turnaround Required
0—150	20	None required
151—500	20	120-foot Hammerhead, 60 foot "Y" or 96-foot diameter cul-de-sac in accordance with Figure D103.1*
501—800	26	120-foot Hammerhead, 60 foot "Y" or 96-foot diameter cul-de-sac in accordance with Figure D103.1*
Over 800		Special approval required

For SI: 1 foot = 304.8 mm.

*__Exception__: Dead ends in residential developments measuring 151—800 feet require a minimum 80-foot diameter (drivable surface) cul-de-sac. For the purpose of measurement, the length will be determined from the line of right-of-way in the street to the center of the radius in the cul-de-sac.

(Ord. No. 52-878, § 70, 1-13-26)

Sec. 15.01.710. Appendix D, Section D103.5 amended—Fire apparatus access road gates.

Appendix D, Section D103.5 of the International Fire Code, 2024 Edition, is amended to read as follows:

Appendix D, Section D103.5 Fire apparatus access road gates. Gates securing the fire apparatus access roads shall comply with all of the following criteria and Sections 105.6.12, 503.5, 503.6:

1. The minimum gate width shall be 20 feet (6,096 mm).
2. Gates shall be of the swinging or sliding type.
3. Gates shall be constructed of materials that allow all-weather manual operation by one person.
4. Gate components shall be maintained in an operative condition at all times and replaced or repaired when defective.
5. Electric gates shall be equipped with a means of opening the gate by fire department personnel for emergency access. The fire code official shall approve emergency opening devices and shall be operable in one of the following ways:
   a. Knox Gate & Key switch and Keypad with a universal code approved by the fire code official.
   b. Knox Gate & Key switch and Siren-operated solenoid (S.O.S).

6. Manual opening gates shall be locked with a padlock, or chain and padlock.
7. Locking device specifications shall be submitted for approval by the fire code official.
8. Fire department access gates shall have a sign, permanently attached, as approved by the fire code official.

(Ord. No. 52-878, § 71, 1-13-26)

Sec. 15.01.720. Appendix D, Section D107.1 amended—One or two family dwelling residential developments.

Appendix D, Section D107.1 of the International Fire Code, 2024 Edition, is amended to read as follows:

D107.1 One- or two-family dwelling residential developments. Developments of one- or two-family dwellings where the number of dwelling units exceeds 60 shall be provided with two separate and approved fire apparatus access roads.

Exceptions:

1. Where there are more than 60 dwelling units accessed from a single public or private fire apparatus access road and all dwelling units are equipped throughout with an approved automatic sprinkler system in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3, access from two directions shall not be required.
2. The number of dwelling units accessed from a single fire apparatus access road shall not be increased unless fire apparatus access roads will connect with future development, as determined by the fire code official.

(Ord. No. 52-878, § 72, 1-13-26)

Sec. 15.01.730. Appendix D, Section D107.2 amended—Remoteness.

Appendix D, Section D107.2 of the International Fire Code, 2024 Edition, is amended to read as follows:

D107.2 Remoteness. Where two fire apparatus access roads are required, they shall be placed a distance apart equal to not less than one-third of the length of the maximum overall diagonal dimension of the property or area to be served, measured in a straight line between accesses.

(Ord. No. 52-878, § 73, 1-13-26)

CHAPTER 15.02. SMOKE DETECTORS

Sec. 15.02.010. Definitions.
Sec. 15.02.020. Smoke alarms required in residential occupancies.
Sec. 15.02.030. Required alarm location.
Sec. 15.02.040. Smoke alarm requirements for the deaf or hearing impaired.
Sec. 15.02.050. Power supply for smoke alarms.
Sec. 15.02.060. Owner responsibility.
Sec. 15.02.070. Tenant responsibility.
Sec. 15.02.080. Violation.
Sec. 15.02.090. Enforcement.
Sec. 15.02.100. Penalty.

Sec. 15.02.010. Definitions.

As used in this chapter:

'*Alarm*' means any audible or visible signal indicating existence of a fire or emergency requiring response and emergency action on the part of the firefighting service.

'*Approved*' means accepted or approved for its intended use by a nationally recognized testing laboratory. Acceptable to the authority having jurisdiction.

'*Alteration*' means any change, addition or modification in construction or occupancy.

'*Apartment*' means a room or suite of rooms occupied, or which is intended or designed to be occupied as the home or residence of one individual, family, or household for housekeeping purposes, including sleeping areas.

'*Apartment house*' means any building or portion thereof which contains three or more dwelling units and for the purpose of this code, includes residential condominiums. (Apartment House—See Apartment Building)

'*Audible signal*' means a device capable of producing a noise or sound, either coded or non-coded, or reproducing or conveying the sound of the human voice, for the purpose of warning building occupants of an event of fire. An audible signal may be incorporated into devices used for other purposes (i.e., smoke alarm, visible signal, public address speaker).

'*Authority having jurisdiction*' means the city fire marshal or his agents.

'*Automatic detecting device*' means a device or system providing an emergency function without the necessity of human intervention and activated as a result of a predetermined temperature, rate of rise of temperature or increase in the level of combustion products.

'*Basement*' means any floor level below the first story in a building, except that a floor level in a building having only one floor level shall be classified as a basement unless such floor level qualifies as a first story, as defined in the Building Code.

'*Bedroom*' means any room which is designed with the intent that it is to be used for sleeping purposes.

'*Building*' means any structure used or intended for supporting or sheltering any use or occupancy.

'*Cellar*' means a portion of a building located partly or wholly underground having an inadequate access to light and air from windows located partly or wholly below the level of the adjoining ground.

'*Corridor*' means a passage which connects parts of the dwelling unit.

'*Congregate residence*' means any building or portion thereof which contains facilities for living, sleeping and sanitation, as required by this code, and may include facilities for eating and cooking, for occupancy by other than a family. A congregate residence may be a shelter, convent, monastery, dormitory, fraternity or sorority house, but does not include jails, hospitals, nursing homes, hotels or lodging house.

'*Dwelling*' means any building or portion thereof which contains not more than two dwelling units.

'*Dwelling unit*' means any building or portion thereof which contains living facilities, including provisions for sleeping, eating, cooking and sanitation, as required by this code, for not more than one family, or a congregate residence for ten or less persons.

'*Governing body*' means the city council.

'*Habitable room*' means a space in a structure for living, sleeping, eating or cooking. Bathrooms, toilet compartments, closets, halls, storage or utility space, and similar areas, are not considered habitable space.

'*Hotel*' means any building containing six or more guest rooms intended or designed to be used, or which are used, rented or hired out to be occupied, or which are occupied for sleeping purposes by guests.

'*Householder*' means the occupant of multi-family dwellings, one- and two- family dwellings and mobile homes.

'*Landlord*' means the owner, lessor, or sublessor of a dwelling unit. A managing agent or leasing agent, whether residing or officing on-site or off-site, shall be considered the agent of the owner for purposes of notice and communications required or allowed under this chapter.

'*Lodging house*' means any building or portion thereof, containing not more than five guest rooms used for sleeping purposes where rent is paid. This definition shall include boarding and rooming houses.

'*Maintenance*' means the act or acts of following the manufacturer's recommended procedures for assuring proper operation of the smoke alarm.

'*Manufactured home*' means a dwelling structure not constructed on site.

'*Mobile home*' means a dwelling structure not having a fixed foundation.

'*Motel*' (See definition for hotel).

'*Multi-family dwellings*' shall include apartment buildings, dormitories, condominiums, lodging, rooming, or boarding houses with more than five dwellings.

'*Occupancy*' means the purpose for which a building or part thereof is used or intended to be used.

'*One / two family dwellings*' shall include those buildings containing not more than two dwelling units in which each living unit is occupied by members of a single family.

'*Owner*' means any person, corporation, or other legal entity who has legal title or control in whole or part, of any real property. Also, any duly authorized agent of the owner. Any such agent thus representing the owner shall be bound to comply with the provisions of this chapter.

'*Residential occupancies*' includes congregate residences, one- and two- family dwellings, apartment buildings, all hotel and motels having guest rooms for lease or rent, lodging, rooming, or boarding houses, manufactured homes, mobile homes, mixed occupancy buildings having one or more units in use as a dwelling, and any occupancy used for sleeping purposes. Smoke alarms shall be installed in accordance with the approved manufacturer's instructions.

'*Separate sleeping area*' means where bedrooms or rooms ordinarily used for sleeping purposes are separated by other use areas, such as kitchens or living rooms but not bathrooms or closets, they shall be considered separate sleeping areas.

'*Sleeping area*' means an area of a dwelling containing bedrooms which are separated from each other by no use area other than a bathroom or closet.

'*Smoke alarm*' means any approved device that senses visible or invisible particles of combustion.

'*Split level*' means adjacent levels with less than one full story separation between levels.

'*Story*' means that portion of a building included between the upper surface of a floor and upper surface of the floor or roof next above.

'*Tenant*' means any person who is entitled to occupy a dwelling to the exclusion of others and who is obligated to pay rent for the dwelling under a written or oral rental agreement.

'*Test of smoke alarm*' means the performance of the act or acts which the manufacturer of a smoke alarm recommends for that particular model of smoke alarm as a simple test of whether or not the smoke alarm is in good working order.

'*Unit*' means one or more rooms leased or rented to be used as a single dwelling. Also as in a suite.

'*Visible signal*' means a device capable of warning building occupants of an event of fire by direct viewing of an illuminated element. Such a device shall produce an intermittent or flashing signal (i.e., a strobe, flashlight or rotating beacon).
(Ord. No. 48-893, § 1, 11-9-2010)

Sec. 15.02.020. Smoke alarms required in residential occupancies.

All residential occupancies, new and existing, shall be provided with approved smoke alarms.
(Ord. No. 48-893, § 2, 11-9-2010)

Sec. 15.02.030. Required alarm location.

A. In dwellings, smoke alarms shall be mounted on the ceiling or wall at a point centrally located in the corridor or area giving access to each separate sleeping area. Where bedrooms are on an upper level, the alarm shall be placed directly above the stairway. In dwellings with split levels, an alarm need only be installed on the upper level provided the lower level is less than one full story below the upper level, except that if there is a door between levels an alarm is required to be installed on each level. Dwellings having a stairway which opens from the basement shall have an alarm installed in the basement. Such alarm shall be connected to a sounding device or other alarm to provide an alarm which will be audible in all sleeping areas.

B. In hotels, motels, or lodging houses, alarms shall be located on the ceiling or wall of each guest room. When guest rooms are on an upper level, the alarm shall be placed on the ceiling of the upper level in close proximity to the stairway.

C. When activated, required alarms shall provide an alarm which shall be clearly audible in all sleeping areas over background noise levels with all intervening doors closed.

D. A smoke alarm mounted on a wall shall not be mounted more than twelve inches below the ceiling or closer than four inches to the ceiling. A smoke alarm mounted on the ceiling shall not be closer than four inches from the wall.

E. Smoke alarms located in rooms with ceiling slopes greater than one foot rise per eight feet horizontally shall be located at the high side of the room.

F. Smoke alarms installed at the head of the stairway shall be so located as to assure that smoke rising in the stairwell cannot be prevented from reaching the alarm by an intervening door or obstruction.

G. In dwelling units where the ceiling height of a room open to the hallway serving the bedrooms exceeds that of the hallway by twenty-four inches or more, smoke alarms shall be installed in the hallway and in the adjacent room.
(Ord. No. 48-893, § 3, 11-9-2010)

Sec. 15.02.040. Smoke alarm requirements for the deaf or hearing impaired.

A. Where an occupancy is occupied by a person who is deaf or hearing impaired, an approved smoke alarm shall be provided.

(1) When activated, the approved smoke alarm shall provide a light signal sufficient to warn the deaf or hearing impaired individual(s).

(2) The owner must provide approved smoke alarms for the deaf or hearing impaired upon written request from the occupant.

(3) The owner or his authorized agent, may require a refundable deposit for smoke alarms for the deaf or hearing impaired, not to exceed the value of the smoke alarm.

B. All hotels and motels, regardless of the number of units, shall have available at least one smoke alarm for the deaf or hearing impaired for each fifty units or less.

(1) The owner or his authorized agent may require a refundable deposit for a portable smoke alarm not to exceed the value of the smoke alarm.

(Ord. No. 48-893, § 4, 11-9-2010)

Sec. 15.02.050. Power supply for smoke alarms.

Smoke alarms shall receive their primary power source from the building wiring when such wiring is served from a commercial source. Wiring shall be permanent and without a disconnecting switch other than those required for over-current protection. All smoke alarms within individual dwelling units shall be interconnected, so when one alarm is actuated, all alarms within that unit will sound an alarm.

A. No smoke alarm shall be directly connected (permanently wired) to the electrical system of the structure unless an electrical permit shall have first been obtained.

B. In all new one- and two-family dwellings, one hundred ten volt smoke alarms with a battery backup shall be required to be installed after January 1, 1994.

C. In existing one- and two-family dwellings constructed prior to 1976 battery-powered smoke alarms may be installed, and shall be deemed to be in compliance with this section provided that such alarms are maintained and in operable condition.

D. Any smoke alarm found to be defective or inoperable shall be replaced by a one hundred ten volt smoke alarm with battery backup. (Exception: one- and two-family owner occupied dwellings)

(Ord. No. 48-893, § 5, 11-9-2010)

Sec. 15.02.060. Owner responsibility.

A. It shall be the responsibility of the owner or his authorized agent to provide and install approved smoke alarms, in full operating condition, in every new and existing residential occupancy.

B. The owner or his authorized agent shall be responsible for repair or replacement of smoke alarms in seven days upon written notification from the tenant, of alarm malfunction or defective operation.

C. Upon tenant's possession of a dwelling, the owner or his authorized agent shall test the smoke alarm to verify that it is in good working order.

(1) If battery-powered smoke alarms are in use, the battery must be of full charge and smoke alarm fully operable.

D. The owner or his/her authorized agent shall provide to the tenant written instructions on proper use, maintenance, and testing of smoke alarm(s) installed in the occupancy, in accordance with approved manufacturer's instructions.

(Ord. No. 48-893, § 6, 11-9-2010)

Sec. 15.02.070. Tenant responsibility.

A. Tenants of residential occupancies, except hotels and motels, shall be responsible for regular maintenance and testing of smoke alarms, following the written instructions provided by the owner.

(1) If battery-powered smoke alarms are in use, maintenance shall include replacement of batteries.

B. In the event a tenant finds a smoke alarm to be malfunctioning or inoperable, he/she shall notify in writing the owner or his/her authorized agent of such malfunction or non-operation.

C. Neither tenant or owner shall remove or render a required smoke alarm inoperable.

(1) A tenant shall make entry to the residence available to the owner or his/her authorized agent upon notification for repair or replacement of smoke alarms.

(Ord. No. 48-893, § 7, 11-9-2010)

Sec. 15.02.080. Violation.

Any person, firm, partnership, corporation or association failing to install or maintain in operating condition, as required by this ordinance, a required smoke alarm, shall be in violation of this chapter. Anyone violating this chapter shall be

issued a violation warning and allowed fourteen days to comply. Failure to comply will result in issuance of a citation.

A. Failure to install or maintain in operation condition, smoke alarms shall deem the structure or non-complying portion of said structure uninhabitable.

B. Tampering with, removing, destroying, disconnecting, or removing the batteries from any required smoke alarm, except in the course of inspection, maintenance, or replacement of the alarm, shall be a violation of this chapter and punishable by the penalties provided herein.

(1) A citation may be issued without any violation warning for these violations.

(Ord. No. 48-893, § 8, 11-9-2010)

Sec. 15.02.090. Enforcement.

The enforcement of this chapter shall be carried out by the fire chief or his agents and by the building official or his agents.
(Ord. No. 41-584, § 9)

Sec. 15.02.100. Penalty.

Any person, individual, partnership, corporation or association who violates any of the provisions of this chapter is guilty of a misdemeanor, and upon conviction, shall be punished by a fine not to exceed five hundred dollars or by imprisonment of not more than six months, or by both such fine and imprisonment. Each day any violation hereof is found to exist or continues to exist shall be a separate offense and punishable as such hereunder.
(Ord. No. 41-584, § 10)

Sec. 16.04.560. Legal action.
Sec. 16.04.570. Violation—Penalty.

Sec. 16.04.010. Definitions.

Unless otherwise expressly stated or the context clearly indicates a different intention, the following terms shall, for the purpose of this title, have the meanings indicated in this section:

(a) The "administrative authority" duly appointed to enforce this Code shall be the superintendent of central inspection.

(b) "Main" or "city sewer" means any sewer maintained and controlled by the city.

(c) "Building sewer" or "drain" or "private sewer" means a sewer maintained and controlled by private persons for the purpose of conveying sewage or stormwater to the city sewers. The building sewer shall begin at a point two feet outside the outer face of the building foundation wall.

(d) "Trap" means a device so constructed as to prevent the passage of air or gas through a pipe without materially affecting the flow of sewage or wastewater therein.

(e) "Saddle" is a short section of clay tile, aluminum alloy, poly vinyl chloride (commonly known as PVC plastic) or acrylonitrile-butadienestyrene (commonly known as ABS plastic) manufactured expressly for the purpose of overlapping a tap hole made in the main or city sewer for connection purposes.

(f) "Wye" is a fitting or a joint of tile having an opening on the side at an angle of approximately forty-five degrees to which the building sewer or drain is connected.

(g) "Connection to a sewer or drain" means and includes furnishing and laying sewer tile from a city sewer or private sewer to a building.

(h) "One ton of refrigeration in air-conditioning or refrigerating systems" is the unit of capacity or refrigeration equivalent to the removal of heat at the rate of twelve thousand BTU per hour. One compressor horsepower will be accepted as equivalent to one ton of refrigeration.

(i) "Master drain layer" is a person who is qualified, licensed by the city and equipped to properly serve the public on installations, repairs and maintenance of building sewers and their appurtenances. A licensed master plumber is deemed to be a master drain layer by definition.

(j) "Journeyman drain layer" is a person who holds a legal certificate issued by the city showing him to be qualified to install or repair sewers under the direction of a qualified master drain layer or a journeyman plumber who holds a legal certificate, who has passed a written examination as required in Section 16.04.450, and who has demonstrated his ability to lay drain pipe under the direction of a qualified master drain layer to the satisfaction of the superintendent of central inspection. A journeyman plumber is deemed to be a journeyman drain layer by definition.

(k) "Sewer cleaner" means any person licensed by the city to engage in the cleaning of building sewers, drains or private sewers.

(l) "Mobile home" means any portable structure or vehicle designed for highway travel which is used, or intended to be used for living, sleeping, cooking, and eating, and which includes a kitchen sink, a flush water closet, a lavatory, a bathtub or shower, a stove and a refrigerator.

(m) "Mobile home park" means land used or intended to be used by one or more occupied mobile homes.

(n) "Mobile home space" means a plot of ground within a mobile home park which is designated to accommodate one mobile home.

(Ord. No. 43-344 § 1)

Sec. 16.04.020. Permits required.

Before beginning work on any building or private sewer or drain, the licensed master drain layer, or his authorized employee, shall apply for a permit from the office of the superintendent of central inspection. Such permit shall be issued provided that all plumbing in the building has been inspected and approved by the central inspection division, that the applicant is a licensed master drain layer and has paid his permit fees and his work is in compliance with this Code. New connections authorized by the permit shall be started within one hundred twenty days and completed within one year of issuance. If the work is not commenced within one hundred twenty days or completed within one year from the date of issuance, the permit shall be canceled and all fees forfeited. All permits for repairs and seal offs shall be started at once and completed within two weeks from date of issuance unless an extension is granted by the superintendent of central inspection. Unless such conditions are met, the permit shall be canceled and all fees forfeited. A master drain layer allowing the use of his license for the purpose of obtaining a permit for another shall be sufficient cause for the revocation of the master drain layer's license. Permits shall not be transferable and shall be required as follows:

(1) CONNECTION PERMITS.

(a) Connection to existing work: for connection to any existing sewer with the plumbing in any building on a lot from which any previously connected building has been removed.

(b) Construction or reconstruction of sewer: for the construction or reconstruction of a sewer or drain extending from a wye, a tap or a manhole in the city sewer or private sewer to any building.

(c) Separate buildings: for each separate building where two or more buildings are connected at the same time to a private sewer or drain.

(d) Each connection: for each connection even when more than one connection is made from the same building.

(2) REPAIR OR EXTENSION PERMITS.

(a) Alteration or extension: for making any alteration in or extension to any private sewer or drain in connection with any building already served by a private sewer or drain and which does not involve any connection to any city sewer.

(b) Sealing off private sewer: for sealing off a private sewer when the house or building served by it is removed from the property.

A clean-out job for which no inspection is required shall include only those operations in which the private sewer or drain can be cleaned out by cables, rods, flushing or other means; and, in such cases, no permit shall be required; however, it is the duty of the master or journeyman drain layer or sewer cleaner to notify the office of the superintendent of sewer maintenance when any cleaning tools have been lost in the city's sewer.

The cost of recovering such tools shall be borne by the sewer cleaner. It shall be the duty of the sewer cleaner to remove all obstruction from a building sewer or drain when cleaning such building sewer or drain rather than to dislodge the obstruction into the city's sewer where a stoppage may be caused. If an obstruction is inadvertently dislodged which may cause a stoppage, the sewer cleaner shall notify the office of the superintendent of sewer maintenance.

When a building line must be opened for cleaning purposes, a cleanout and fittings manufactured of compatible material must be installed at the point where the opening was made.

Excavation and pavement permits shall be obtained from the department of operations and maintenance prior to performing any excavation work on public property, said permit to be obtained in accordance with the terms of Chapter 10.20 of this Code.

Emergency repairs and/or replacement after normal working hours may be made provided permits are obtained and inspections are made the next working day and before any portion is concealed from view.

A separate sewer permit shall be obtained for each building or structure or for any additional work other than authorized in the original permit.
(Ord. No. 37-624 § 2; Ord. No. 36-689 § 2)

Sec. 16.04.030. Easement.

A permit to connect to a city sewer does not include the right to construct a sewer or drain across the property belonging to some other person. Such right must be obtained from the owner of such property and should be in the form of a legal easement and shall be filed in the office of the register of deeds.
(Ord. No. 29-877 § 3)

Sec. 16.04.040. Permit fees.

(1) Before a permit is issued as provided for in Section 16.04.020, the following permit fees shall be paid:

(a)	For connecting to the city sewer	$60.00
(b)	For repair or extension permit	$60.00
(c)	For seal off permit	$60.00
(d)	Permit(s) shall be obtained as provided within Section 16.04.020 of this Code, and failure or unreasonable delay in obtaining such permit(s) shall mandate a double permit fee.	
(e)	Reinspection fee—Failure to comply with job readiness requirements	$30.00

(2) In addition to the above fees, there shall be added the following amounts for the following purposes:

(a) *In absence of assessment for lateral sewer.* When no assessment has been made for the lateral sewer against any property or premises to be connected to the city sewer, an amount as determined to be appropriate by the Director of the Public Works and Utilities Department and as set forth in Section 16.04.055.

(b) *In absence of assessment of lateral sewer and main sewer.* If the cost of neither lateral sewer nor main sewer has been assessed against the property to be connected, an amount as determined to be appropriate by the director of the public works and utilities department and as set forth in Section 16.04.055.

In determining the appropriateness of amounts to be assessed as set out in subsections (a) and (b) of this subsection (2), the director of the public works and utilities department shall utilize recent historical cost of constructing lateral and main sanitary sewers of similar or representative type to the system serving the building site to be connected to the sewerage system calculated on a square foot or frontage foot basis.

If, in the opinion of the director of the public works and utilities department, the use of the connecting property applying for connection under the terms of subsections (a) or (b) of this subsection (2) constitutes an extraordinary use of the sewerage system and/or shall potentially place extraordinary demand on the sewerage system, a charge commensurate with such use shall be determined by the director of the public works and utilities department and shall be assessed against the connecting property in lieu of the amount set out in subsections (a) and (b) of this subsection (2).

If the cost of sewer lateral and/or main sewer has been financed by a private entity and if the cost of such main or lateral has been included in the purchase price of the lot and improvements thereon, then the amounts set out in subsections (a) and (b) of this subsection (2) shall not be assessed.

The appropriateness of the application of the ordinance provision codified in this section shall be discretionary and shall be based on the interpretation of written policy guidelines by the director of the public works and utilities department and the director of planning and/or other parties as designated by the city manager.
(Ord. No. 43-769 § 1; Ord. No. 49-037, § 1, 7-19-2011; Ord. No. 51-963, § 1, 10-25-22)

Sec. 16.04.050. Inspection fee.

An inspection fee of six dollars shall be paid over and above the permit and inspection fees stipulated in the preceding section for each individual house trailer or mobile home.

An inspection fee shall be paid over and above the permit fees stipulated in the preceding section for any private sewer to be connected to the city sewer system, which is to be eight inches or larger in diameter, or which requires the use of manholes. Such inspections shall be made by the city engineering division pursuant to a contract entered into by the city and the private individual or entity seeking to have a private sewer connected to the city sewer system.
(Ord. No. 43-344 § 3)

Sec. 16.04.055. Fees for incidental services of the sewer utilities.

SCHEDULE OF USER FEES FOR INCIDENTAL SEWER SERVICES. On and after January 1, 2025, except as otherwise provided below, the schedule of fees as set forth below shall apply to the services and incidents described herein. Reference is made to Chapter 16 (Sewer) of the Code of the City of Wichita for additional information concerning the stated fees.

A. Utility Account Services. As authorized in Sec. 16.14.040, the following utility account service fees are hereby established:

Account Origination Fee	$53.00 per account
Convenience Fee	$1.00 per transaction
Insufficient Funds Debit and Returned Check Charge	$35.00 per transaction
Rejection of Payment via Telephone (Insufficient Funds)	$35.00 per transaction
Rejection of Payment Made Online (Insufficient Funds)	$35.00 per transaction

B. Wastewater Permits for Industrial Strength/Categorical Users. As authorized in Sec. 16.22.250, the following Wastewater Discharge Permit fees are hereby established:

Category: Average Gallons per Day (GPD) for Categorical Permit	**Cost**
Category I: 0—29,999 GPD	$358 per month
Category II: 30,000—59,999 GPD	$481 per month
Category III: 60,000—99,999 GPD	$562 per month
Category IV: 100,000—199,999 GPD	$847 per month
Category V: 200,000—499,999 GPD	$1,029 per month
Category VI: 500,000 or Greater GPD	$7,695 per month

C. Fats, Oils, and Grease Program. As authorized in Sec. 16.24.070, the following Fats, Oils, and Grease Program fees are hereby established:

Effective January 1, 2025, the annual grease discharge permit fee will be as shown in the table below.

ANNUAL FEE	**Effective January 1, 2023**	**Effective January 1, 2025**
Annual discharge permit fee (all users)	$225.00/year	

Effective January 1, 2025, the monthly grease maintenance fee will be as shown in the table below. The Standard Monthly Fees apply to all users with an automatic grease removal device (AGRD) or with no device except those who are approved for a Low Grease Discount as authorized in Section 16.24.070(b).

MONTHLY FEES	**Standard Monthly Fee**	**Low Grease Monthly Fee**
Users with Automatic Grease Removal Device	$40.00/month	$24.00/month
Users with no device	$100.00/month	$60.00/month

D. Miscellaneous Sewer Fees. As authorized in Sec. 16.04.110 (Sewer Tap and Saddle Fee), 16.04.290 (Groundwater Sewer Discharge Permit Fee), 16.22.070 (Special Use Sewer Discharge Fee), and 16.14.040, the following miscellaneous sewer fees are hereby established:

Sewer Tap and Saddle Fee (when required)	$344.00 per connection
Groundwater Sewer Discharge Permit Fee	$1,000 per year
Special Use Sewer Discharge Fee	$100 or actual cost if greater than $100
Sewer Line Clean-up	$115 per hour plus actual materials

SCHEDULE OF FEES FOR NEW SEWER SERVICES. On and after January 1, 2025, the schedule of fees as set forth below shall apply to the services described herein. Reference is made to Chapter 16, specifically sections 16.14.040 and 16.14.041, of the Code of the City of Wichita for additional information concerning the stated fees.

A. New Sewer Service. As authorized in Sec. 16.14.041, the following new sewer service fees are hereby established. The amount of the sewer equity fee shall be determined by the size of the water meter.

Water Meter Size	Sewer Equity Fee
1-inch tap, service line and meter	$1,350
2-inch tap, service line and meter	$4,320
2, 2-inch meters on 4-inch service	$8,640
3-inch meter on 4-inch service	$8,100
4-inch meter on 4-inch service	$13,500
6-inch meter on 6-inch service	$27,000
2, 3-inch meters on 6-inch service	$16,200
2, 4-inch meters on 6-inch service	$27,000
8-inch meter on 8-inch service	$43,200
2, 4-inch meters on 8-inch service	$27,000
2, 6-inch meters on 8-inch service	$54,000
12-inch meter on 12-inch service	$116,100
2, 6-inch meters on 12-inch service	$54,000

B. In Lieu of Assessment Fee. As authorized in Sec. 16.04.040, the following fee in lieu of assessments for sewer lines is hereby established:

Cost Per Front Foot	$56.00

In Lieu of Assessment Fee is a fee based on whether a specific property has ever participated in a water distribution or sewer lateral project. Staff must know the specific project location to determine if this fee is applicable to the parcel. The front footage amount is capped at 100 feet for residential properties.

C. Main Benefit Fee. As authorized in Sec. 16.04.040, the following Main Benefit Fee for water lines is hereby established:

Cost Per Square Foot of Land	$0.071

Main Benefit Fee is a fee based on whether a specific property has ever participated in a sewer transmission main extension project. Staff must know the specific project location to determine if this fee is applicable.
(Ord. No. 51-063, § 1, 7-23-19; Ord. No. 51-972, § 1, 11-22-22; Ord. No. 52-575, § 1, 12-10-24)

Sec. 16.04.060. Payment of fees.

(a) All permit and inspection fees as provided for in Section 16.04.040 shall be payable at the office of the superintendent of central inspection. Fees provided for in Section 16.04.040 2(a), 2(b), and 2(c) shall be credited to the sewer utility fund. Fees as provided for in Section 16.04.040 1(a), 1(b), 1(c), 1(e), and 1(f) shall be credited to the central inspection special revenue fund. Additional fees are to be levied and collected in accordance with the provisions of Sections 16.04.050 and 16.04.110.

The payment of any permit fees, inspection fees, or sewer service charges, as provided in this chapter, does not exempt any property or premises from its proportionate assessment for the construction of such sewers which normally would serve the property in question.

(b) Fee Refunds.

1. The superintendent of central inspection may authorize the refunding of any fee paid under this chapter which was erroneously paid or collected.

2. The superintendent of central inspection may authorize the refunding of not more than eighty percent of the permit fee (other than for tap fees) when no work has been done under a permit issued in accordance with this Code. The superintendent of central inspection shall not authorize

the refunding of any fee paid except upon written application filed by the original permittee not later than one hundred eighty days after the date of fee payment.
(Ord. No. 37-624 § 4; Ord. No. 36-689 § 5)

Sec. 16.04.070. Action to collect fees.

In addition to the penalty prescribed for the violation of this Code, the city may prove in a civil action in any court of competent jurisdiction the amount of the license fee or permit fee imposed by this title.
(Ord. No. 29-877 § 7)

Sec. 16.04.080. General construction requirements.

TO BE LAID IN STRAIGHT AND DIRECT LINE. In laying sewer pipes, the drain layer shall lay them in as straight and direct a line as possible from the opening in the main or city sewer to the end of the building drain. Offsets in a building sewer shall be permitted only to avoid permanent structures, trees or other immovable objects, which does not include dirt piles, sand piles or other movable construction materials. Plumbing drains shall be stubbed out of the building on the side of the building closest to the city main sewer.

CHANGES IN DIRECTION. All changes in direction shall be made with a wye or a one-eighth bend or by other methods approved by the superintendent of central inspection. If the connection with the wye in the city sewer is to be made with a bend, such bend shall be a one-eighth bend only. The building sewer shall commence two feet outside the foundation and any aggregate change of direction in excess of one hundred and thirty-five degrees shall require a cleanout be installed and extended to finish grade. This clean out is in addition to the required cleanout for each one hundred feet or portion thereof.

UNIFORM GRADE REQUIRED. All building sewers shall be laid with a one-fourth inch per foot grade from the end of the building drain to a point allowing no greater than a forty-five degree vertical drop to the main or city sewer. No horizontal line shall be laid with less than one-quarter inch fall per foot, except that with prior approval a building sewer may be laid with a fall of not less than one-eighth inch per foot; provided when laid on one-eighth inch per foot it shall be laid with surveying instruments.

SEWER PIPES. Sewer pipes shall be of the following types in accordance with specifications given and shall be free from defects and cracks; bowed or curved lengths shall be termed defective and not used. No part of any building sewer or drain shall be less than one foot below the surface of the ground, except replacement of existing building sewers.

(a) Vitrified glazed clay pipe conforming to the requirements of ASTM Designation, C200-64T and the latest revisions thereof with factory installed resilient couplings conforming to ASTM Designation C 425-64 and the latest revisions thereof. Lubricant sealer is to be used as recommended by the manufacturer.

(b) Service weight or extra heavy cast-iron bell and spigot soil pipe and fittings coated inside and out meeting Commercial Standard CS-188. Joints shall be firmly packed with picked oakum or hemp and secured with molten lead with at least twelve ounces of fine soft caulking lead being used for each inch of the pipe diameter for each joint, or the joints when properly applied to suitable cast-iron bell and spigot pipe and fittings shall be made with an approved neoprene gasket, which is compressed as the spigot is inserted into the bell of the pipe.

(c) ABS (acrylonitrile-butadiene-styrene) Schedule 40 conforming to ASTM D-2661 (current edition) and carrying the appropriate National Sanitation Foundation Seal of Approval for such pipe and fittings may be used.

(d) PVC (polyvinyl chloride) Schedule 40 conforming to ASTM D-2665 (current edition) and carrying appropriate National Sanitation Foundation Seal of Approval for such pipe and fittings may be used.

(e) Effective ninety days after the passage of the ordinance codified in this section, ABS

(acrylonitrile-butadiene-styrene) Schedule 40 plastic with a cellular core (ASTM-F628), PVC (polyvinyl chloride) Schedule 40 plastic with cellular core (ASTM F891) and PVC (polyvinyl chloride) SDR 35 (ASTM D-3034) will be prohibited for use as a material for building sewers.

DITCHES TO BE BOTTOMED TO UNIFORM GRADE. All ditches must be bottomed to a uniform grade before sewer pipe is laid. Bell holes shall be carefully hand-dug so that no part of the load is supported by the bells. The full load should rest on the barrel of the pipe. Bell holes shall be no larger than necessary. Trench widths shall be kept as narrow as is practically possible from the bottom to the level of the top of the pipe. Except in rock or water bearing earth, the mechanical excavation shall stop above the final invert grade. If over digging occurs, the loosened earth must be removed and replaced with granular material. In water bearing soils where dewatering with well points is not effective or in rock, the trench shall be excavated a minimum of four inches below the pipe barrel and the pipe bedded in crushed rock.

BUILDING SEWERS RUNNING PARALLEL TO BUILDING FOUNDATION OR BASEMENT WALL. No building sewer running parallel to a building foundation or basement wall shall be laid closer than two feet from the building foundation or basement wall, unless otherwise authorized by the superintendent of central inspection.

PIPES TO BE BACKFILLED AND BEDDED. All pipes shall be bedded and tamped with dirt or sand along the sides to a height equal to one half the diameter of the pipe being used. Bedding material shall not contain rocks, bricks, clods or frozen earth. No bridging or propping up the pipe on bricks, blocks, or clods of dirt. After inspection of the installation proper backfilling techniques shall be completed.

LAYING SEWERS ON MADE GROUND. No sewer shall be laid on filled or made ground in the bottom of the ditch, unless the backfilling shall be sand, properly and solidly tamped under, around, and over the top of the sewer.

EXCAVATIONS TO BE PROPERLY BACKFILLED. The master drain layer to whom a sewer permit has been issued shall, for the sewer excavation covered by the permit, and in accordance with the provisions of this Code and other ordinances of the city regulating excavations in streets, alleys and other public grounds, properly backfill all excavations on city property, remove all surplus material and debris and maintain all trenches or ditches in a safe condition until the backfilled material has reached final settlement. (For provisions as to excavations in streets, alleys and other public places, see Chapter 10.20 of this Code.)

REPLACEMENT OF PIPES, TRAPS, ETC., BROKEN IN MAKING REPAIR. Any sewer pipe broken in a building sewer or drain in making a repair of such building sewer or drain, or any pipe found to be broken when excavating for cleanout or repair, must be replaced with pipe of the same size as the original. Traps or other special fittings broken or found broken or defective shall be replaced with traps or other construction as provided in this chapter. All joints in repair or replacement work shall be the same as in new construction. When repairing a break, installing new lines or replacing the building sewer, a four-inch easily accessible cleanout shall be installed outside the building at grade within three feet of the outside wall or foundation; provided, however, that building sewers serving gravity drains which extend below a basement floor where such floor is four feet or more below grade at a point where the building drain extends outside the building are not required to install such a cleanout if there is an easily accessible four-inch cleanout in the basement for the building drain which is connected to the sewer. The outside cleanout shall consist of a twin cleanout.

WORK TO BE INSPECTED AND APPROVED PRIOR TO BEING COVERED; FAILURE TO COMPLY. No person shall cover, or cause to be covered, any building sewer or drain or other connection with any city or private sewer or any portion thereof which has been installed or repaired without inspection and approval of the same by the sewer inspector. EXCEPTION: Up to twenty feet of any building sewer (measured at finish grade) may be covered for equipment turnaround as long as both the house connection and the main connection are left open for proper

inspection including type of material, minimum grade and proper connections. If turn-around cannot be made in the twenty feet then the entire sewer shall be left open for inspection. If this provision is violated, the superintendent of central inspection shall require the necessary excavation to be made for the examination at the expense of the master drain layer whose license shall be suspended by the superintendent of central inspection until such excavation has been made. The master drain layer shall be subject to prosecution for violation of this title. The master or journeyman drain layer in charge of the ditch or an authorized employee of the master drain layer must be present when the work is inspected. He must have a good level and line, have all permits, and must give such necessary information as may be required of him.
(Ord. No. 43-344 § 4)

Sec. 16.04.090. Information to be furnished by city engineer.

Information concerning the location and depth of the city sewer will be furnished to any applicant by the city engineer. All reasonable care will be taken to insure the correctness of such information, but such information will not be guaranteed. Information as to the location of the wye will be guaranteed to the extent that if no wye is found within five feet in either direction from the location given, the city will furnish suitable connection at its own expense, provided, that in lieu of making the upstream exploration beyond the length of tile on which the measurement falls, the master drain layer may elect to have a tap made at his expense. No information as to the location of wyes shall be furnished except to a master drain layer or his agent at the time that the permit is issued.
(Ord. No. 36-689 § 7)

Sec. 16.04.100. Cases where available wyes cannot be used.

If the wyes available for any property cannot be used, making it necessary to provide a new location for the connection, such work shall be done at the expense of the master drain layer making the building sewer or drain installations under the following conditions:

SIX-INCH LINE. In any six-inch line a wye shall be set for a four-inch or six-inch connection.

FOUR-INCH CONNECTION. A tap shall be made and saddle used for a four-inch connection into any line eight inches or larger in diameter.

CONNECTIONS TO FOUR-INCH OR SIX-INCH BUILDING SEWER, ETC. For any connection to a four-inch or six-inch building sewer, drain or private sewer, a wye shall be set.

REQUIREMENTS WHERE TILE USED IN MAKING CONNECTION IS LARGER THAN WYE OPENING. If the tile used in making a connection is larger than the wye opening into the sewer, a tap shall be made and saddle used, or a wye shall be set the same size as the tile used in making the connection, in accordance with the above conditions. No reducer shall be used except when approved by the superintendent of central inspection.

USE OF JUNCTION MANHOLE. In all cases where the private sewer or drain is the same size or larger than the city sewer to which the private sewer or drain is to be connected, a junction manhole shall be built according to plans and specifications on file in the office of the city engineer.
(Ord. No. 36-689 § 8)

Sec. 16.04.110. Connections to sewer mains.

1. Sewer Maintenance to Make Tap and Maintain Mains and Wyes. The sewer maintenance division of the city shall make all taps in clay tile sewer mains. In all cases where a tap is to be made in clay tile mains or, at the licensed contractor's option, in PVC or ABS mains, sewer maintenance shall be notified and the work performed by the city division of sewer maintenance.

The saddle, manufactured of appropriate material, shall be furnished and installed by the city. In addition to the permit fees specified in Section 16.04.040, the charge for the sewer maintenance tap and saddle shall be seventy dollars, payable at the office of the superintendent of central inspection. The sewer tap fee shall be deposited in the sewer utility fund of the city.

2. Licensed contractors to make a tap in PVC or ABS mains. In all cases where a licensed contractor makes a tap in PVC or ABS mains, the superintendent of central inspection shall be no-

tified. The tap shall be made with the appropriate size hole saw with integral pilot bit. The saddle supplied by the contractor shall be installed per the manufacturer's standards and approved by the superintendent of sewer maintenance.

3. Transitions from saddle connections to building sewer must be from a recognized manufacturer for the specific application in which it is to be used.

4. No connection shall be made to a city sewer manhole without the express permission from the superintendent of sewer maintenance, and the proper forms filled out and returned to the office of sewer maintenance.
(Ord. No. 43-344 § 5)

Sec. 16.04.120. Hole specifications before making tap or setting wye.

No tap will be made, wye set, or repaired in the city sewers by the city division of maintenance unless the hole for making the tap, setting the wye, or repairing a wye is at least two feet by three and one-half feet without any tunneling. The hole shall be parallel to the city sewer for setting a wye and across the city sewer for making a tap. The hole shall extend approximately straight down from the top of the ground to the bottom of the sewer. The hole shall be adequately shored or sloped in compliance with OSHA Standards for safety to city employees entering therein for the purpose of inspection or for making a tap or setting a wye.
(Ord. No. 43-344 § 6)

Sec. 16.04.130. Drains connected to storm sewers.

No drains from roofs, paved areas, yards, courts or courtyards shall be permitted to connect to any city storm water sewer with pipe less than four inches in diameter and without prior approval of storm water management and shall be sized in accordance with the plumbing code.
(Ord. No. 43-891 § 1)

Sec. 16.04.150. Cooling water or water used for condensing.

Drains from air-conditioning or refrigeration units of three tons capacity or less, and similar equipment, when connected to any city storm sewer may be four-inch pipe, unless such drain also carries water from roofs, paved areas, yards, courts, or courtyards. Condensing water drains from air-conditioning units exceeding three tons or refrigeration units exceeding one ton capacity and similar equipment shall not be connected to a city sanitary sewer.

Car wash facilities will be required to connect to a city sanitary sewer and must be roofed. The floor elevation shall be such that no surface water can drain into the sanitary sewer.
(Ord. No. 43-891 § 2)

Sec. 16.04.160. Additional connections to four-inch drain or sewer.

An additional connection may be made to a four-inch building sewer, provided it is made with appropriate fittings, approved materials, and prior approval of the superintendent of central inspection.
(Ord. No. 36-689 § 11)

Sec. 16.04.170. Separate sewers and drains.

Each building on the same parcel of land shall have its own separate private sewer or drain connection to the city sewer unless otherwise authorized in this title or by the superintendent of sewer maintenance. All buildings located on a corner lot shall each have a separate sewer connection to the city sewer. A mobile home connection to a building sewer serving a building will not be allowed.
(Ord. No. 36-689 § 13)

Sec. 16.04.180. Minimum diameter.

No building sewer, drain or private sewer shall be less than four inches in diameter. Larger sizes shall be used when the expected volume of sewage will require larger sizes. The size shall be determined by the superintendent of central inspection, in accordance with Table 7-5 of the Uniform Plumbing Code, but in no case shall the diameter of the building sewer be less than that of the soil pipe stubbed out from the building.
(Ord. No. 43-344 § 8)

Sec. 16.04.190. Trap districts.

In sections of the city where the wye openings into the city sewer are four inches or larger and where trap districts have been established by the city engineer, traps shall be installed.

In sections of the city where the wye openings into the city sewer are four inches, the installation of traps is not necessary unless such installation is within a trap district as established by the city engineer and except as specified in Section 16.04.200.

All traps on building sewers or drains shall be four inches or larger.

All traps shall be placed inside of the property line, except where the space between buildings and the street, alley or public highway will not permit. If a riser is used, it shall be a four-inch pipe, extending up to approximately the surface of a public alley, street, or other public way. A riser shall be used when the trap is located under the paved surface of a public alley, street or other public way. The riser shall be protected by a cast-iron frame and cover conforming in size, weight and design to the standard plan and specifications on file in the office of the superintendent of sewer maintenance and the city engineer. The cast-iron frame and cover shall be set on a brick or a concrete foundation.

Building traps may be constructed on-site of materials which are approved for building sewers. When such traps are fabricated they shall be assembled as follows: The trap shall be constructed using four one-eighth bends and two sections of pipe to maintain a minimum of a four inch trap seal. The two sections of pipe shall be inserted between the two one-eighth bends forming the forty-five degree vertical sections of the inlet and outlet of the trap.
(Ord. 43-344 § 9)

Sec. 16.04.200. Mobile home parks.

CONNECTIONS GENERALLY. Connections for mobile homes located on a mobile home park may be available from a network of sewers on such mobile home park. In any network of sanitary sewer facilities on a mobile home park, all pipe used shall be as authorized in preceding sections, unless otherwise specified in this section. No pipe of less than four-inch diameter shall be used for individual mobile home connections and no pipe of less than six-inch diameter shall be used for the trunk lines in a sewer network, and a six-inch cleanout shall be provided at the upper terminal of any six-inch line.

SIZE OF TRAPS. A four-inch or larger trap shall be installed where connection is made from a network or individual mobile home service to the city sanitary sewer.

MOBILE HOME CONNECTION. Each mobile home space shall be provided with no less than a four inch sewer connection. Such individual connection shall be provided with suitable fittings so that a water-tight connection can be made between the mobile home and the sewer. The connection shall be so constructed that it can be and is closed when not connected to the mobile home. A four-inch cleanout shall be provided. The connection shall be of approved materials. The connection shall extend a minimum of four inches above ground or expected surface water, whichever is higher.
(Ord. 43-344 § 10)

Sec. 16.04.210. Catch basins and floor drains.

Every private or public washrack or floor or slab used for cleaning machinery or machine parts shall be adequately protected against storm or surface water by being elevated above the surrounding grade and be covered by a roof. Such facilities shall discharge through a mud and oil interceptor and connect to the sanitary sewer. Each interceptor shall be suitable trapped and vented according to the regulations and details in the office of the administrative authority.

Floor drains for automobile garages, public or private, automobile racks, stables or barn washracks, urinal receptacles in stables, drains in laundries or dry cleaning establishments or any drains where gasoline, oil or any volatile substance may enter the sanitary sewer they shall discharge into a mud and oil interceptor, suitably trapped and vented according to the regulations and details in the office of the administrative authority.
(Ord. 43-344 § 11)

Sec. 16.04.220. Prevention of harmful discharge.

The superintendent of sewer maintenance, or his authorized representative, shall have the power to stop and prevent from discharging into any sewer or drain substances which are likely to obstruct or clog or in any manner injure the city sewers. After five days' written notice to the owners or occupants of the premises, the superintendent of sewer maintenance, or his authorized representative, shall disconnect any private sewer or drain which discharges any such substances into the city sewer.
(Ord. No. 36-689 § 17)

Sec. 16.04.230. Drains to storm sewers.

No drains from roofs, paved areas, yards, courts or courtyards shall be permitted to connect to the city sanitary sewer, but the same may be connected to any available city stormwater sewer under the direction of the storm water management.
(Ord. 43-344 § 12)

Sec. 16.04.240. Air conditioning or refrigeration wastewater.

Wastewater from air conditioning or refrigerating units and similar equipment may be connected to the city stormwater sewers with the approval of the storm water management. Under no circumstances shall water from air conditioning or refrigerating units and similar equipment be permitted to drain into public gutters, streets, alleys or other public ground.
(Ord. 43-344 § 13)

Sec. 16.04.250. Materials unlawful to discharge.

It is unlawful for any person to discharge or cause to be discharged any of the following described materials and substances to any public sanitary sewer within or without the city either directly or indirectly.

(a) Any water or waste containing free, floating or insoluble oil.

(b) Any water or waste containing soluble oil or emulsified oil and grease exceeding on analysis an average of one hundred parts per million of either soluble matter.

(c) Any gasoline, benzine, naphtha, fuel oil, mineral oil, or other flammable or explosive liquid, solid, or gas.

(d) Any garbage that has not been shredded to such degree that all particles will be carried freely under the flow conditions normally prevailing to the public sewers, with no particle greater than one-half inch in any dimensions.

(e) Any ashes, cinders, sand, mud, straw, hay, shavings, metals, glass, rags, tar, plastics, wood, paunch manure in excess of five percent (wet weight) of that removed from animal paunches, hair and fleshings, blood, intestinal contents from horses, cattle, sheep, or swine; animal hoofs or toenails, animal intestines or stomach casings, bones, hog bristles, hides or parts thereof, animal fat or flesh in particles larger than will go through a quarter-inch screen; poultry entrails, heads, feet, or feathers; lime slurry or sludge, acetylene generation sludge, other sludges, chemical residues, or any other solid or viscous substance capable of causing obstruction to the flow in sewers or other interference with the proper operation of the sewers or the sewage treatment works.

(f) Any noxious or malodorous gas or substance, which either singularly or by interaction with other wastes, is capable of creating a public nuisance or hazard to life or which will prevent entry into sewers for their maintenance and repair.

(g) Any water or waste that contains more than ten parts per million by weight of the following gases: Sulfur dioxide, or oxides of nitrogen.

(h) Any water or waste that contains sulfides in excess of one part per million by weight as sulfur.

(i) Any water or waste that contains ammonia-nitrogen in excess of one hundred parts per million by weight as nitrogen.

(j) Any waters or wastes having a pH lower than 5.5 or higher than ten or having any other corrosive property capable of causing damage or hazard to structures, equipment and personnel of the city.

(k) The concentrated contents of any chemical tanks containing heavy metals or other materials harmful to the sewage works.

(l) Any long half-life (Over one hundred days) toxic radioactive isotopes without special permit; provided, that radioactive isotopes I131 and P32 used in hospitals are not prohibited, when properly diluted at the source.

(m) Any water or waste which by interaction with other water or waste in the public sewer system, releases toxic or obnoxious gases, or develops color of undesirable intensity, or forms suspended solids in objectionable concentration, or creates any other condition deleterious to structures and treatment processes.

(n) BOD and SS Limits. Any wastewater having: (1) a five-day BOD greater than two hundred fifty parts per million by weight; or (2) containing more than three hundred parts per million by weight of suspended solids; or (3) having an average daily flow greater than two percent of the average sewage flow of the city unless such discharge has had the review and approval of the director of water and water pollution control. Where necessary in the opinion of the director of water and water pollution control, the owner shall provide, at his expense, such preliminary treatment as may be necessary to: (1) reduce the BOD to two hundred fifty parts per million by weight; or (2) reduce the suspended solids to three hundred parts per million by weight; or (3) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the director of water and water pollution control, and no construction of such facilities shall be commenced until said approvals are obtained in writing.

(o) Toxic Substances. Toxic substances which are not amenable to treatment or reduction by the wastewater treatment process employed, or are amenable to treatment only to such a degree that the wastewater treatment plant cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters without first pretreating to a concentration acceptable to the city.

When wastewater containing any of the aforementioned materials is discharged into the sanitary sewer, and such wastes are not properly pretreated, the director of water and water pollution control may: (1) reject the waste and terminate the service to the sanitary sewer; (2) require control of the quantities and rates of discharge of such water; or (3) require payment of surcharges for excessive cost of treatment, provided such wastes are amenable to treatment by existing wastewater treatment plant facilities.

All analyses shall be made in accordance with the latest edition of "Standard Methods for the Examination of Water, Sewage and Industrial Wastes" as published by the American Public Health Association, New York, New York.
(Ord. No. 36-32 §§ 9, 10; Ord. No. 29-877 § 25)

Sec. 16.04.260. (Reserved).
(Ord. No. 29-877 § 26)

Sec. 16.04.270. Temperature of wastewater.

Wastewater when discharged into the city sewer shall be at a temperature no higher than one hundred forty degrees Fahrenheit. Where higher temperatures exist, cooling methods approved by the superintendent of central inspection and superintendent of sewer maintenance shall be provided.
(Ord. 43-344 § 14)

Sec. 16.04.280. Catch basin.

If, in the opinion of the city engineer, the superintendent of sewer maintenance, the superintendent of water pollution control or the superintendent of central inspection, any discharge into the city sewer from any slaughterhouse, rendering establishment, chemical works, steam engine or exhaust boiler or from any other plant or mechanism will injure, obstruct or interfere with the normal flow of the city sewer, or the normal operation of the sewage treatment process, such discharge or material shall not be delivered through a drain to the city sewer, except through a catch basin or mechanism which will prevent injury to such city sewer, or after passing through approved treatment.
(Ord. No. 36-689 § 21)

Sec. 16.04.290. Unlawful to discharge groundwater, surface water, etc.

It is unlawful for any person, either directly or indirectly, to discharge into the sanitary sewer system of the city any groundwater, surface water, subsurface drainage water, roof, yard, court or areaway water, condensing water from any refrigerating units having a capacity over one ton; or any water from any air conditioning unit having a capacity of over three tons; provided, however, that the director of the department of water and water pollution control may, in his/her sole discretion, grant a permit which allows a person to discharge any of the above-described water into the city's sanitary sewer system. Such a permit shall be issued pursuant to rules and regulations that have been adopted by the city council that address, among other items, preservation of sewer capacity for its intended purpose of handling sanitary sewage, protection of the sanitary sewer system from harmful solutions, protection of the health of employees and the public, and proper functioning of the city's sanitary sewer system and its appurtenances. A fee for obtaining a permit shall be established in the rules and regulations.
(Ord. No. 40-829 § 1)

Sec. 16.04.300. Sumps and sump pump pits.

It is unlawful for any open sump, sump pump pit or floor drain to be connected to or discharged into the city sanitary sewer system; provided, however, that such an open sump pump pit or floor drain shall not be considered to be unlawful under the provisions of this section if it receives only such flow as is permitted to be regularly discharged into the city sanitary sewer system under the provisions of this chapter and it receives no flow from foundation drainage systems or any other ground or surface water runoff.
(Ord. 43-344 § 15)

Sec. 16.04.310. Enforcement of 16.04.290 and 16.04.300.

It is the duty of the superintendent of sewer maintenance and superintendent of central inspection to enforce Sections 16.04.290 and 16.04.300. The superintendent of sewer maintenance shall have the right to disconnect from the city sanitary sewer system and/or the city water system any premises upon which a violation of Section 16.04.290 or 16.04.300 is found. Before any such disconnection, the superintendent of sewer maintenance shall first serve a notice in writing on the owner, agent for the owner or tenant in possession of such premises, which notice shall specify the violation(s) existing and provide a period of fifteen days from the date thereof within which the owner, agent for the owner or tenant in possession may abate such violation(s).
(Ord. No. 42-448 § 2)

Sec. 16.04.320. Compliance with 16.04.290 and 16.04.300.

The superintendent of central inspection shall not permit a reconnection or a new connection to be made to the city sanitary sewer system until satisfied that there is compliance with Sections 16.04.290 and 16.04.300 and Title 21, of this Code.
(Ord. No. 36-689 § 25)

Sec. 16.04.330. Right of entry—Violation of 16.04.290 or 16.04.300.

The superintendent of central inspection, the superintendent of sewer maintenance, or their authorized representatives shall have the right to enter any building or upon any premises at any

reasonable time for the purpose of making an inspection to determine whether any violation of Sections 16.04.290 or 16.04.300 exists or to prevent a violation of Sections 16.04.290 through 16.04.320. No adverse action will be taken against any property owner or resident who refuses to grant such right of entry.
(Ord. No. 42-625)

Sec. 16.04.340. Compliance with plumbing code.

To prevent extraneous inflow from all buildings under construction, no drain shall be finally completed so as to permit the waste of the building to reach the city or private sewer until the plumbing in the building to be connected has been approved by the plumbing inspector, as being in full accordance with the plumbing code.
(Ord. No. 36-689 § 26)

Sec. 16.04.350. Use of sewers for public purposes.

The city shall have the right at all times, through its city engineer, superintendent of sewer maintenance and superintendent of central inspection, to connect with, and use any city or private sewer, built upon any public street, alley, highway or other public grounds; to use the same for any public purpose or to reconstruct or close up or disconnect any private sewer or drain which from any cause has become a nuisance.
(Ord. No. 36-689 § 27)

Sec. 16.04.360. Notice to inspector.

The master or journeyman drain layer shall notify the superintendent of central inspection when the work is ready for inspection in accordance with the established scheduling policy of the Board of Examiners of Plumbers and Gas Fitters. Inspection shall be required on all work on all permits.
(Ord. 37-624 § 8)

Sec. 16.04.370. Right of entry—Drain inspection.

The superintendent of sewer maintenance, the superintendent of central inspection, or their authorized representatives, shall have the right and privilege to enter upon any property connected, or to be connected, to the city sewer, within reasonable hours, for the purpose of making inspections of the drain system, whether constructed or under construction on such property.
(Ord. No. 36-689 § 29)

Sec. 16.04.380. Duty of inspectors.

It is the duty of the superintendent of central inspection to inspect and approve each and every connection between the city sewer and any private sewer, from such point of connection to the building drain, to determine if such sewers are constructed in accordance with the requirements specified in this title.

It is also the duty of the superintendent of central inspection to inspect and approve each and every extension, repair or relaying of any building sewer or drain to determine if such work is done in accordance with the requirements specified in this title.
(Ord. No. 36-689 § 30)

Sec. 16.04.390. Replacement of sewer broken open for inspection.

The superintendent of sewer maintenance or the superintendent of central inspection shall have the right to take up, or break open any sewer, or part thereof, necessary to make a thorough and full inspection; provided, that if after such examination, such sewer is found to be properly constructed or repaired, it shall be replaced at the expense of the city. Otherwise, it shall be replaced at the expense of the master drain layer or property owner.
(Ord. No. 36-689 § 31)

Sec. 16.04.400. Broken building sewer or drain—Repair.

(a) Whenever a building sewer or drain is obstructed with tree roots or found broken, defective or disconnected so that the sewage or drainage escapes therefrom into the surrounding soil or into the adjoining premises, or so that damage may accrue to the city sewers, the superintendent of sewer maintenance may order it repaired or replaced at the expense of the property owner.

(b) No person shall molest, break or otherwise damage a city sewer or appurtenance thereto.
(Ord. No. 36-689 § 32)

Sec. 16.04.410. Board of appeals.

(a) The board of appeals of plumbers and gas fitters shall act as a board of appeals in making a determination of any appeal arising from the actions of the administrative authority. Appeals shall be made in writing, and the appellant may appear in person before the board or be represented by an attorney, and may introduce evidence to support his claims. Appeals shall be heard at reasonable times at the convenience of the board, but not later than thirty days after receipt thereof. The appellant shall cause to be made at his own expense, any tests or research required by the board to substantiate his claim.

(b) The board of appeals of plumbers and gas fitters shall, upon the request of the administrative authority, interpret sections of the sewer ordinance, as to the approval of drain and sewer materials and methods of installation allowed under said code.

(c) Where conditions exist on any drain-laying job which are not specifically provided for by this Code, or where it would be impracticable to follow its provisions, the board may grant a variance from the strict application of the provisions of this Code. The person or persons desiring such variance shall submit all data and information necessary or as may be required by the board to enable it to make its decision, and if after thorough study of the desired variance it determines that the granting of such request would not be counter to the welfare of the public, it shall have the authority to grant the variance.

(d) The board of appeals of plumbers and gas fitters may consider applications for the use of materials or methods of installation not specifically covered in this Code, or for a change in the grading or quality of materials or for a change in methods of installation as set forth in this Code and accept or reject the same as affording the same degree of safety, sanitation and performance as the materials or methods provided for herein. The board shall use established standards of nationally recognized laboratories and organizations in making its determination to accept or reject the application. The applicant shall submit to the board all necessary information as may be required by the board in order for it to make its determination, and any expense incurred for the payment of laboratory reports and tests shall be borne by the applicant. If, after a thorough study of the application and upon the basis of such study, it is determined that the public interest would be best served, that it would not be detrimental to the health and welfare of the public, and would not afford the same degree of safety and sanitation as elsewhere provided for in this Code, the board shall deny the application.

(e) Appeal. Any person, official or governmental agency dissatisfied with any order or determination of the board of appeals of plumbers and gas fitters may appeal such order or determination to the city council. An appeal taken to the city council shall be on the record of the hearing before the board of appeals of plumbers and gas fitters, and shall be in writing, and shall be filed with the city clerk and the administrative authority within ten days of the date of the hearing before the board of appeals of plumbers and gas fitters. The basis for the appeal must be set forth in the written appeal that is served upon the city clerk and the administrative authority.
(Ord. No. 41-420 § 1)

Sec. 16.04.420. Molesting sewer facilities.

No person, unless authorized by the superintendent of sewer maintenance or superintendent of central inspection, shall leave open or molest any city sewer or its connections thereto, manhole, cleanout, observation hole, flush tank or catch basin. No person shall cause to be made any opening into any city sewer or cause or permit any connection to be made to any city sewer without first obtaining a permit to do so, as provided in this title.
(Ord. 43-344 § 16)

Sec. 16.04.430. Sump at sewage treatment plant No. 1.

The sump provided for dumping of tank trucks at sewage treatment plant No. 1 should be considered a part of the sanitary sewer system. Only

materials which are acceptable for discharge to the sanitary sewer under terms of this chapter shall be discharged into this sump. Material discharged to this sump shall generally be restricted to material removed from septic tanks except by special permission of the superintendent of water pollution control. Travel trailer and recreational vehicle sanitary dump stations may be installed according to plans on file in the office of the superintendent of central inspection.
(Ord. No. 36-689 § 35)

Sec. 16.04.440. Certificates, licenses, cancellations and permits.

(a) It is unlawful for any person to engage in the business of drain laying, repairing, relaying or cleaning out of any private sewer or drain as a master drain layer or sewer cleaner in the city, unless and until a certificate has been obtained therefor, and a license has been issued for such business and a permit has been issued for such work, all in accordance with the provisions of this Code. Drain layer apprentices shall be permitted to work when accompanied by and under the supervision of a master or journeyman drain layer, who shall be responsible for the work being done by the apprentice.

(b) Any person engaging or desiring to engage in the business of drain laying, repairing, relaying or cleaning out of any private sewer shall, before obtaining any permit or transacting business, procure a license therefor from the office of the superintendent of central inspection, which license shall expire the 31st day of December of the year in which so issued. Any such person holding a current master drain layer's certificate shall be entitled to only one drain layer's license unless otherwise authorized by the board of appeals of plumbers and gas fitters and each such business shall obtain a license. No license shall be transferred from one person to another.

(c) A drain layer's license may be issued to any firm, copartnership or corporation of which at least one active member or officer who devotes full time to that firm, copartnership or corporation has been qualified as and has a drain layer's certificate. The fee for license is one hundred dollars. Each license shall be renewed annually by December 31st. Licensees who have not renewed their license by January 31st shall pay a penalty of ten percent for each month thereafter.

(d) Before a drain layer or sewer cleaner's license is issued, the applicant therefor shall file with the city clerk a surety bond in the amount of two thousand dollars which shall be approved as to form by the city attorney, the condition of such bond to be that the principal therein will comply with all the provisions of this Code and other ordinances of the city regulating plumbing and gas fitting, and to hold and save the harmless on any and all damages to persons or property resulting from or growing out of any opening or excavation made, material stored or placed upon, or any operation in any street, alley or public property.

Bond Exception. Section 16.04.440(d) shall not be applicable to any person who has given a bond as required by the plumbing code of the city as set out in Title 21 of this Code, where such bond is required by the plumbing code of the city from the acts of the person giving such bond in the laying, repairing, relaying and cleaning out of sewers and drains, in addition to the plumbing of buildings.
(Ord. 43-344 § 17)

Sec. 16.04.441. Insurance required.

Every drain layer or drain cleaner licensed under this title shall procure and maintain a policy of general liability insurance covering the activities of the drain layer or drain cleaner contractor while engaged in contracting hereunder. Such insurance policy shall be written with an insurance company licensed to do business in the state of Kansas and shall have minimum limits of coverage of three hundred thousand dollars per occurrence. In addition, every such drain layer or drain cleaner contractor shall procure and maintain worker's compensation insurance as required by law and automobile liability insurance as required by law. Every contractor licensed under this title shall, prior to the issuance of a license, file with the office of central inspection certificates of insurance evidencing the insurance coverage specified herein. All such certificates shall indicate that the City of Wichita shall be given at least thirty days' advance writ-

ten notice of any cancellation or material change in coverage of such insurance. Failure of a drain layer or drain cleaner contractor to either procure or maintain such insurance shall be a violation of law punishable as a general misdemeanor and shall be grounds for suspension or revocation of the drain layer or drain cleaner contractor's license and certificate.
(Ord. No. 42-119 § 1)

Sec. 16.04.442. Truth in advertising requirements.

On or after July 1, 1993, any person, firm or corporation required by this title to obtain a drain layer or drain cleaner contractor's license shall be subject to the following:

(a) It shall be unlawful for any such person, firm or corporation to advertise as a drain layer or drain cleaner contractor unless, at the time such advertisement occurs, such person, firm or corporation has a then valid drain layer or drain cleaner contractor's license issued under the provisions of this chapter;

(b) Any advertisement by such person, firm or corporation as a drain layer or drain cleaner contractor which is placed or published in any publication or other print medium circulated, displayed or distributed within the city limits or which is broadcast by radio or television or any other means to persons within the city limits shall include the full name of the licensed person, firm or corporation and the license number assigned by the office of central inspection to such person, firm or corporation.

(c) As used in this section, the words "advertised" or "advertisement" shall include, but not be limited to, a business card, contract bid proposal form, printed letterhead, any other printed or written material designed to inform persons of the services offered by the advertising person, firm or corporation and to solicit business from such persons, or any broadcast statement designed to inform persons of the services offered by the advertising person, firm or corporation and to solicit business from such persons. Such words are intended to include telephone directory display ads but not basic white and yellow page listings.
(Ord. No. 42-119 § 2)

Sec. 16.04.450. Application for engaging in the business of drain laying.

(a) Applications for examinations for either a master or journeyman drain layer's certificate shall be made to the office of central inspection and shall examine each applicant as to his or her particular knowledge of drain laying, repairing, relaying or cleaning out of any private sewer or drain, and if satisfied as to the competency of the applicant shall thereupon direct that such certificate be issued to the applicant, authorizing him to engage in the business or work at the trade of drain laying, repairing, relaying, or cleaning out of any private sewer or drain, either as a master drain layer or as a journeyman drain layer.

All such applicants shall make application to the central inspection division as provided for in the section and shall at such time and place as directed, be subjected to an examination as to his or her qualifications.

All applicants for master drain layer certificates shall have had two years of experience as a journeyman drain layer. All applicants for journeyman drain layer certificates shall have had two years of drain laying experience.

The fee for examination and original certificate or a master drain layer and sewer cleaner shall be established by the superintendent of central inspection division to cover the administrative costs of issuing such certificates.

All drain layer and sewer cleaner certificates shall be renewed annually upon payment of a fee established by the superintendent of central inspection division to cover the costs of issuing such certificates. All such certificates shall expire on the thirty-first day of December of each year, and no reduction shall be made for part of a year being elapsed. All holders of certificates not renewed by March 1st after their expiration may be required

to take examinations before receiving new certificates and shall be required to pay a ten percent per month penalty.

(b) The board of appeals of plumbers and gas fitters is authorized to cancel and recall the certificate of any master or journeyman drain layer or sewer cleaner and the license of any master drain layer or sewer cleaner for any of the following reasons:

1. Abandonment of any contract without legal cause;
2. Diversion of funds or property received for performance or completion of a specific contract, or for a specific purpose in the performance or completion of any contract, and the application or use for any other contract, obligation or purpose, or the failure, neglect or refusal to use such funds or property for the performance or completion of such contract;
3. The committing of any act in violation of any provisions of this Code or the failure or refusal to comply with any lawful order of the administrative authority;
4. Misrepresentation of a material fact by the applicant in obtaining a license;
5. The failure of any such master or journeyman drain layer or sewer cleaner to fully satisfy all claims for labor and materials used in the performance of any work for which he has been engaged and for which he has been paid;
6. Use of a license to obtain permits for another;
7. Carelessness or negligence in providing reasonable safety measures for the protection of workmen and the public;
8. Failure to obtain permits;
9. Unreasonable delay in performance and carrying out of any contract.

(Ord. No. 43-891 § 3)

Sec. 16.04.510. Issuance of new licenses.

No new license shall be issued to any person, under the provisions of this chapter, unless and until all permit, tap or other fees due the city for the previous license year have been paid in full and all completed jobs have been done in accordance with this title and approved by the superintendent of central inspection.
(Ord. No. 36-689 § 38)

Sec. 16.04.530. Request to see certificate, license and permit.

It is the duty of every person doing work as a drain layer or sewer cleaner in the city to show his certificate, license and permit to any officer of the city who shall request to see the same.
(Ord. No. 36-689 § 39)

Sec. 16.04.540. Administrative penalties.

Notwithstanding any other remedies or procedures available to the city, any user of the city's sanitary sewer system who is found to have violated any provision of this chapter may be assessed an administrative penalty of not to exceed one thousand dollars per violation. Each day on which a violation shall occur or continue shall be deemed a separate and distinct violation. Such assessment may be added to the user's next scheduled sewer service charge and the director of the water and sewer department shall have such other collection remedies as are available at law.
(Ord. No. 42-448 § 4)

Sec. 16.04.550. Request for hearing and appeal.

(a) Hearing. Any person affected by a penalty, order or directive of the city issued pursuant to this chapter may, within ten days of the issuance of such penalty, order or directive, request a hearing before the director of the water and sewer department to show cause why such should be modified or made to not apply to such person. Such request shall be in writing and addressed to the director at 455 N. Main Street, Wichita, Kansas. The director, or the director's designee, shall hold the requested hearing as soon as practical after receiving the request, at which time such person shall have the opportunity to be heard. At the conclusion of such hearing, the director, or the director's designee, shall issue a

written response to such person's request either affirming, modifying or rescinding the penalty, order or directive at issue.

(b) Appeal. Any person aggrieved by the decision of the director, or the director's designee, after the hearing provided for above, may appeal such decision to the city council within ten days of the receipt of such decision by filing a written notice of appeal with the city clerk. The city council shall hear such appeal on the record and may affirm, modify or reverse the decision of the director, or the director's designee.
(Ord. No. 42-448 § 5)

Sec. 16.04.560. Legal action.

Notwithstanding any other remedies or procedures available to the city, if any person discharges sewage, industrial wastes or other wastes or flow into the city's sanitary sewer system contrary to the provisions of this chapter, the city attorney may commence an action for appropriate legal or equitable relief, including damages and costs, in the District Court of Sedgwick County. Whenever a user of the city's sanitary sewer system has violated or continues to violate the provisions of this chapter, the city attorney may seek a preliminary injunction or permanent injunction, or both, as is necessary to assure abatement of any violation(s).
(Ord. No. 42-448 § 6)

Sec. 16.04.570. Violation—Penalty.

Any person, firm, partnership or corporation violating any provision of this chapter shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not to exceed five hundred dollars, or by imprisonment not to exceed thirty days, or both such fine and imprisonment.
(Ord. No. 36-689 § 40)

CHAPTER 16.12. SEPTIC TANKS, CESSPOOLS AND PRIVIES

Sec. 16.12.010. Required connection to sewers.
Sec. 16.12.020. Construction in certain areas prohibited.
Sec. 16.12.030. Plans and specifications to be submitted; information to be shown.
Sec. 16.12.040. Permit required prior to construction.
Sec. 16.12.045. Fees.
Sec. 16.12.050. To be abandoned as soon as sewer available.
Sec. 16.12.060. Abatement as nuisance; cost.
Sec. 16.12.070. Inspection of installations required; approval.
Sec. 16.12.080. Requirements as to outside vaults.
Sec. 16.12.090. Location with reference to wells, cisterns, water lines, etc.
Sec. 16.12.100. Requirements as to material and manner of construction.
Sec. 16.12.110. Cesspools prohibited.

Sec. 16.12.010. Required connection to sewers.

Every property owner who owns real property within the distance of one hundred fifty feet of any public main or lateral sewer shall, upon notice in writing to do so from the director of environmental health or his or her authorized representative, make proper and permanent connections to such sewer and remove or fill all privies and cesspools and abandon the use of any septic tank systems on-site waste water or alternative sewer systems. Any person owning such real property who after having sixty days' notice from the department of environmental health, shall fail to connect to such sewer and remove or fill up such privies, cesspools, abandoned septic tank systems, other on-site waste water or alternative sewer systems shall be guilty of a misdemeanor.
(Ord. No. 45-534 § 1; Ord. No. 4561 § 1)

Sec. 16.12.020. Construction in certain areas prohibited.

It is unlawful for any person to construct a septic tank system, on-site waste water, or alternative sewer systems except in those portions of the city not within one hundred fifty feet of any sanitary sewer.
(Ord. No. 45-534 § 2; Ord. No. 39-525 § 1)

Sec. 16.12.030. Plans and specifications to be submitted; information to be shown.

In the construction or modification of any septic tank system, on-site waste water or alternative sewer system plans and specifications for the same shall be submitted to the department of environmental health, showing the location and size of the same and the number of persons it is designed to serve.
(Ord. No. 45-534 § 3; Ord. No. 4561 § 2)

Sec. 16.12.040. Permit required prior to construction.

Before the construction of any septic tank system, on-site waste water or alternative sewer systems is begun, a permit therefore shall be obtained from the department of environmental health.
(Ord. No. 45-534 § 4; Ord. No. 4561 § 2)

Sec. 16.12.045. Fees.

The director of environmental health shall assess a fee for issuance of permits to construct or modify septic tank systems, on-site waste water, or alternative sewer systems. The property owner shall be responsible for all fee sufficient to cover the cost of permit issuance and inspection(s) of the completed system.
(Ord. No. 45-534 § 5)

Sec. 16.12.050. To be abandoned as soon as sewer available.

Septic tank systems, on-site waste water, or alternative sewer systems shall be abandoned and disconnected as soon as sanitary sewer connections are available and whenever there is a sanitary sewer within one hundred fifty feet of such real property, connections therewith must be made.
(Ord. No. 45-534 § 6; Ord. No. 4561 § 2)

Sec. 16.12.060. Abatement as nuisance; cost.

Should any septic tank system, on-site waste water or alternative sewer system, cesspool or privy become a nuisance, the same shall be abated by the owner and in the case of failure to be done

so, the department of public health may authorize the abatement of the nuisance. In such case the costs thereof shall be assessed against the property.
(Ord. No. 45-534 § 7; Ord. No. 4561 § 2)

Sec. 16.12.070. Inspection of installations required; approval.

When septic tank systems, on-site waste water or alternative sewer systems, and drains from buildings to such systems are installed and before such drains or systems are covered, the department of environmental health must be notified to make a final inspection of the same, and if approved by the department of environmental health, such drains and systems can be covered up.
(Ord. No. 45-534 § 8; Ord. No. 4561 § 2)

Sec. 16.12.080. Requirements as to outside vaults.

Outside vaults to be constructed or now in use in the city shall be governed by the same regulations as are applicable to septic tank system.
(Ord. No. 4561 § 2)

Sec. 16.12.090. Location with reference to wells, cisterns, water lines, etc.

Septic tank systems, on-site waste water or alternative sewer systems, and privies must in all cases be at least fifty feet from any well or cistern, ten feet from any water service line and at least five feet from any adjoining property line, streets or alley.
(Ord. No. 45-534 § 9; Ord. No. 4561 § 2)

Sec. 16.12.100. Requirements as to material and manner of construction.

Septic tank systems, on-site waste water or alternative sewer systems and privies must be constructed of such material and in a manner as approved by department of environmental health.
(Ord. No. 45-534 § 10; Ord. No. 4561 § 2)

Sec. 16.12.110. Cesspools prohibited.

No cesspool of any form whatever shall be permitted to be constructed within the city.
(Ord. No. 4561 § 2)

CHAPTER 16.14. SANITARY SEWERAGE SYSTEM WITHIN THE CORPORATE BOUNDARIES

Sec. 16.14.010. Authority to levy use charges.
Sec. 16.14.020. Classification of users.
Sec. 16.14.030. Basis of charges.
Sec. 16.14.040. Schedule of rates and charges.
Sec. 16.14.041. Payment of plant equity fees for connection of sewer service.
Sec. 16.14.045. Authority to collect fees, taxes and charges for other governmental entities.
Sec. 16.14.050. Bills—Rendering—Due date.
Sec. 16.14.060. Delinquent payments—Collection—Discontinuance of service—Interest.
Sec. 16.14.070. Sewer utility fund—Created—Use.
Sec. 16.14.080. City manager—Accounting for revenue in budget.
Sec. 16.14.090. City manager—Authority to make regulations.
Sec. 16.14.100. Right of entry, inspection and sampling.
Sec. 16.14.110. City's right to disconnect service—Notice.
Sec. 16.14.120. City's responsibility—Liability.
Sec. 16.14.130. Replacement fund.

Sec. 16.14.010. Authority to levy use charges.

There are levied on all persons, firms, corporations, organizations, political units and political subdivisions and all other entities now or hereafter connected to the sewerage system of the city, charges for the use of such system as hereinafter provided.
(Ord. No. 36-320 § 1)

Sec. 16.14.020. Classification of users.

All users of the sewerage system of the city are, for the purposes of this chapter, classified and all revenue received from sewer service charges shall be accounted for according to these customer classes. The classes are established as follows:

A. RESIDENTIAL: Residential means any structure housing one or two families and which has metered water consumption, supplied by one or two meters.

B. FLAT RATE RESIDENTIAL: Flat rate residential means any premises served upon which there is located any structure housing one or more families and which does not have metered water consumption.

C. EDUCATIONAL, RELIGIOUS, PUBLIC AND CHARITABLE: Educational, religious, public and charitable means:

(1) Public and parochial schools, colleges and universities;

(2) Churches;

(3) Public parks;

(4) Charitable institutions, the premises of which are declared by the Commissioner of Revenue and Taxation of the state to be exempt from the payment of ad valorem taxes.

D. COMMERCIAL AND INDUSTRIAL: All users other than those above classified.
(Ord. No. 36-320 § 2)

Sec. 16.14.030. Basis of charges.

There is levied on such sewerage system user having any sewer connection with the sewerage system of the city or otherwise discharging sewage, industrial waste, or other liquids, either directly or indirectly into the city's sewerage system which ultimately enter the sewerage system, a sewerage charge. Subject to the exceptions provided in this chapter, such charges shall be based upon the quantity of water used in or on the premises as the same is measured by a water or sewer meter or meters. All meters must be acceptable to the director of water and sewer. Additional charges for extra strength sewage will be levied where applicable.

The monthly sewage volume charges for residential, educational, religious, public and charitable classifications shall be based on the average of actual metered water consumption in the months of December, January, February, and March or the actual metered water consumption, whichever is less. Provided, however, that in no case shall the billed consumption based on the averaging of the above months be less than the actual metered water consumption or three thousand gallons, whichever is less.

For residential, educational, religious, public and charitable institution customer establishing a new service for which no metered consumption history exists, the monthly sewage volume charges for sewerage services shall be based upon the average monthly sewage volume for classes of similar customer and meter size until an average monthly sewage volume for such account is established in accordance with the preceding paragraph.

Commercial and industrial volume charges shall be based on one hundred percent of metered water consumption except as otherwise provided in Section 16.14.040. All such charges as delineated above shall be made in accordance with the schedule of rates set out in Section 16.14.040 of this chapter.
(Ord. No. 45-186 § 1; Ord. No. 42-259 § 1)

Sec. 16.14.040. Schedule of rates and charges.

I. SCHEDULE OF USE CHARGES:

Each user of the sewerage system of the City shall pay, for the use of such system, sewer charges at no less than monthly intervals based where possible upon the consumption of water by such user as recorded by each of the water meters or sewer meters serving the premises according to the classifications and schedule set forth in this section.

Where any commercial or industrial premises are connected with the City's sewerage system but are not served by the City's water utility system, the owner or occupant of such premises shall, at their own expense, install and maintain on such premises a water meter or meters of a type and at a location acceptable to the Utilities of the City, which shall measure all water received on said premises from all sources, and the sewer services charge of said premises as prescribed in this section shall be based upon such meter recording. The City shall install equipment to automate the reading of said meters. The City shall charge a one-time installation fee based upon meter size for the purpose of administrative and replacement costs. A sewage meter, as set forth in the following sub-section of this section, may be substituted for the water meter requirement.

II. SEWER SERVICE VOLUME BASE:

If a commercial or industrial user desires to establish eligibility for a sewer service volume base of less than one hundred percent (100%) of water consumption, said user must submit an application in writing to the Wichita Water Utility. Upon approval the customer shall authorize the City to install the following at the Customer's expense:

A sewage meter acceptable to the director of public works & utilities to measure the volume of liquid actually discharged into the sewerage system from their premises. Customers receiving credits through the use of water meters used for cooling towers, production credit, groundwater remediation and well water are responsible for the maintenance and calibration of said meters. If a credit is to be applied to the customer's account, the customer must have the meter tested and calibrated every two years by Wichita Water Utilities. The cost of the test will be borne by the customer at the current rate for meter testing. Further, the customer will be responsible for the removal and re-installment of the meter once testing has been completed. Sewer meters are required to be calibrated annually. Calibration must be provided through a recognized testing agency and certification of calibration must be provided to the Utilities upon completion. Calibration records shall be maintained by the City for a period of five years. No meter shall be installed on wastewater discharged until approval has been obtained from the director of public works & utilities or their duly authorized representative. Tampering with, injuring, or removing meters without written permission from the director of public works & utilities or their duly authorized representative is prohibited. In the event a sewage meter is installed, the rate schedule as set forth in this chapter shall be applied to the volume of sewage entering the sanitary sewer as measured by the meter. In the event of a meter malfunction, the customer shall be responsible for repairs. In the event that the metered amount of water consumption is less

than the amount of discharge, Customer Service staff will verify that the water meter is registering flow accurately. If the water meter appears to be operating correctly, the customer will be notified and corrective action by the customer must be taken before an adjustment or credit for discharge is given. Until such time as the meter is either repaired or replaced by the customer, billing for sewer services will be based on metered water consumption. In the event that that metered water consumption begins to increase over metered discharge or if the only metered service is sewer and metered waste drops more than ten percent, Customer Service staff will verify that the water meter is registering flow accurately and/or that the sewer meter is registering flow. If the water meter appears to be operating correctly and the sewer meter is registering flow, the customer will be notified and corrective action by the customer will be required before an adjustment or credit for discharge is given. Until such time as the meter is either repaired or replaced by the customer, billing for sewer services for those accounts with metered water service will be based on 125% of average metered water consumption. For those accounts that are metered sewer only accounts, bills will be estimated based on 125% of the average of the prior twelve months metered discharge.

In lieu of sewage meter(s), the user may request installation of auxiliary water meter(s) to measure the portion of water consumed which is diverted from entering the sanitary sewer. In the event an auxiliary water meter is installed, the volume of water metered by such meter(s) shall be deducted from the total volume of water consumed before the sewer service charge rate schedule is applied. Customers receiving credits through the use of water meters used for cooling towers, production credit, groundwater remediation and well water are responsible for the maintenance and calibration of the said meters. If a credit is to be applied to the customer's account, the customer must have the meter tested and calibrated every two years by Wichita Water Utilities. The cost of the test will be borne by the customer at the current rate for meter testing. Further, the customer will be responsible for the removal and re-installment of the meter once testing has been completed. The City may install meters and charge the customer for the meter, installation fees, and a monthly fee based on the size of the meter.

No credits for sewer use shall be given until the type and location of meters installed have been approved by the director of public works & utilities or their duly authorized representative.

Sewer volume credits established in accordance with the provisions of this Section for commercial and industrial users shall be prospective only.

III. EXTRA STRENGTH CHARGE:

Sewage discharged to the sanitary sewer system from each industrial or commercial user shall be subject to an extra strength charge when the biochemical oxygen demand (BOD) concentration exceeds two hundred fifty milligrams per liter, the suspended solids (SS) exceeds a concentration of three hundred milligrams per liter, or the oil and grease concentration exceeds one hundred milligrams per liter, as determined by Environmental Protection Agency Methodology stipulated in 40 CFR Part 136 analysis procedures. Sample collection methodology will be as specified by the director of public works & utilities. Extra strength charges shall be calculated according to the formula:

S = V (0.00832) (X(BOD-250) + Y(SS-300) + Z(O&G-100)

Where:

S	=	Extra strength charge in dollars
V	=	Sewage volume in thousands of gallons
0.00832	=	Conversion factor for thousands of gallons to million pounds
X	=	Applicable unit charge for BOD in dollars per pound from the schedule below
BOD	=	BOD strength index in parts per million by weight or mg/l
250	=	Allowable BOD strength under normal volume charges in parts per million by weight or mg/l

Y	=	Applicable unit charge for suspended solids in dollars per pound from the schedule below	Z	Applicable unit charge for oil and grease in dollars per pound from the schedule below
SS	=	Suspended solids strength index in parts per million by weight or mg/l	O&G	Oil and grease index in parts per million by weight or mg/l
300	=	Allowable suspended solids strength under normal volume charges in parts per million by weight or mg/l	100	Allowable oil and grease under normal volume charges in parts per million by weight or mg/l

As of January 1, 2026, extra strength unit charges are established as shown in schedule below:

	Charge per Pound	
Effective January 1, 2026 to December 31, 2026	**Inside City**	**Outside City**
BOD	$0.32	$0.53
Suspended Solids	0.29	0.47
Grease	4.78	7.65

	Charge per Pound	
Effective January 1, 2027 to December 31, 2027	**Inside City**	**Outside City**
BOD	$0.33	$0.55
Suspended Solids	0.31	0.50
Grease	4.92	7.87

	Charge per Pound	
Effective January 1, 2028 and thereafter	**Inside City**	**Outside City**
BOD	$0.34	$0.57
Suspended Solids	0.32	0.52
Grease	5.07	8.11

IV. TOXIC POLLUTANT CHARGE:

Discharging of any toxic pollutants is prohibited under City Code Section 16.22. If any such waters or wastes enter into the municipal sewer system which cause an increase in the cost of managing the effluent or the sludge from the City's treatment plants and/or collection system, the discharger shall pay for the increased costs, and will be subject to the penalties ascribed in Chapter 16.22.

V. WASTEWATER ANALYSIS:

Samples and measurements will be taken by the City, as required by the director of public works & utilities or their authorized representative. The strength of the sewage discharge by the industrial or commercial user will be determined by the analyses of said samples.

The user, at their expense, may be required at the sole discretion of the director of public works & utilities to provide monitoring and flow measurement facilities which coincide at the point at which effluent limits apply. Sampling locations must be safe, convenient, and accessible to the industrial user and Wichita Water Utilities personnel.

If any industrial or commercial user chooses not to accept the analytical determination made by the City for a billing period, such user shall, prior to the date on which payment of the charges for such billing is due, notify the director of public works & utilities in writing and, at their sole expense, employ an independent laboratory which is certified by the Kansas Department of Health and Environment and acceptable to the director of public works & utilities, to conduct sampling and analysis of their sewage.

The time period, location, and method for the collection of the samples shall be designated by the City. The City and the independent laboratory shall both preside over the collection of the samples and shall equally divide the samples so that duplicate analysis may be performed.

If results of the analysis of the sewage sample made by both the City and the independent laboratory are not comparable, the director of public works & utilities may appoint a second independent laboratory certified by the Kansas Department of Health and Environment to analyze the sewage. The sampling procedures used will be the same as those outlined above. The results of these analyses, together with the previous results, shall be used to determine the actual extra strength charges for the subject billing period. The fee for the second independent laboratory analyses shall be paid for by the user.

VI. MONITORING CHARGE:

When regulations, Federal, State or City, require monitoring of the waste from an industry, that industry shall pay a monitoring charge.

The monitoring charge shall consist of all costs for personnel, material and equipment used to collect and analyze samples from the user's wastewater. The exact charge shall be based on actual costs and shall be determined by the director of public works & utilities.

VII. REVIEW OF USER CHARGE RATE STRUCTURE:

The user charge rate schedule of the City shall be reviewed and adjusted at least biennially to:

a) Maintain the proportional distribution of operation, maintenance and replacement costs among user classes.

b) Provide adequate revenues to cover operation, maintenance and replacement and debt service costs.

VIII. SEWER RATES AND CHARGES:

On and after January 1, 2026, the schedule of rates and charges as set forth below shall apply to all categories of sewer customers.

A. BASE SERVICE CHARGES (Monthly charges based on water meter size)

Effective January 1, 2026 to December 31, 2026					
Meter Sizes	**Inside City Residential**	**Outside City Residential**	**Inside City Commercial**	**Outside City Commercial**	**Wholesale**
⅝ inch	$12.62	$20.22	$12.53	$20.09	$18.16
¾ inch	12.62	20.22	12.53	20.09	18.16
1 inch	12.62	20.22	12.53	20.09	18.16
1½ inch	20.39	32.63	20.26	32.41	29.30
2 inch	30.52	48.65	30.32	48.33	43.68
3 inch	88.23	141.18	87.65	140.25	126.76
4 inch	112.23	179.55	111.49	178.37	161.21
6 inch	212.29	339.66	210.90	337.43	304.96
8 inch	302.57	484.06	300.57	480.87	434.61
10 inch	466.63	746.61	463.56	741.69	670.32
12 inch	681.07	1,089.69	676.58	1,082.52	978.36

Effective January 1, 2027 to December 31, 2027					
Meter Sizes	**Inside City Residential**	**Outside City Residential**	**Inside City Commercial**	**Outside City Commercial**	**Wholesale**
⅝ inch	$13.43	$21.52	$13.28	$21.30	$18.79
¾ inch	13.43	21.52	13.28	21.30	18.79
1 inch	13.43	21.52	13.28	21.30	18.79
1½ inch	21.70	34.72	21.48	34.36	30.31
2 inch	32.48	51.77	32.15	51.24	45.19

Effective January 1, 2027 to December 31, 2027					
3 inch	93.89	150.24	92.93	148.70	131.15
4 inch	119.43	191.07	118.21	189.12	166.79
6 inch	225.91	361.46	223.61	357.76	315.51
8 inch	321.99	515.12	318.68	509.84	449.65
10 inch	496.58	794.52	491.49	786.37	693.52
12 inch	724.78	1,159.62	717.34	1,147.74	1,012.22

Effective January 1, 2028 and thereafter					
Meter Sizes	**Inside City Residential**	**Outside City Residential**	**Inside City Commercial**	**Outside City Commercial**	**Wholesale**
⅝ inch	$14.08	$22.57	$13.89	$22.28	$19.30
¾ inch	14.08	22.57	13.89	22.28	19.30
1 inch	14.08	22.57	13.89	22.28	19.30
1½ inch	22.76	36.41	22.47	35.94	31.13
2 inch	34.06	54.29	33.63	53.59	46.41
3 inch	98.46	157.56	97.19	155.52	134.69
4 inch	125.25	200.37	123.63	197.80	171.30
6 inch	236.91	379.06	233.87	374.18	324.03
8 inch	337.67	540.20	333.30	533.23	461.80
10 inch	520.76	833.21	514.04	822.45	712.25
12 inch	760.07	1,216.09	750.25	1,200.40	1,039.56

B. VOLUME CHARGES

Effective January 1, 2026 to December 31, 2026				
	Inside City Residential	**Outside City Residential**	**Inside City Commercial**	**Outside City Commercial**
Price per 1,000 gallons of metered water consumption	$4.98	$7.96	$4.94	$7.91

Effective January 1, 2027 to December 31, 2027				
	Inside City Residential	**Outside City Residential**	**Inside City Commercial**	**Outside City Commercial**
Price per 1,000 gallons of metered water consumption	$5.30	$8.47	$5.24	$8.39

Effective January 1, 2028 and thereafter				
	Inside City Residential	**Outside City Residential**	**Inside City Commercial**	**Outside City Commercial**
Price per 1,000 gallons of metered water consumption	$5.56	$8.88	$5.48	$8.77

C. FLAT RATE CHARGES

Effective January 1, 2026 to December 31, 2026	
Inside City	**Outside City**
$36.84	$58.92

Effective January 1, 2027 to December 31, 2027	
Inside City	**Outside City**
$39.20	$62.70

Effective January 1, 2028 and thereafter	
Inside City	*Outside City*
$41.11	$65.75

D. WHOLESALE RATES

Effective January 1, 2026 to December 31, 2026	
Monthly charge per 1,000 gallons	$3.53
Effective January 1, 2027 to December 31, 2027	
Monthly charge per 1,000 gallons	$3.65
Effective January 1, 2028 and thereafter	
Monthly charge per 1,000 gallons	$3.75

IX. GOVERNMENT MILITARY FACILITIES LOCATED OUTSIDE THE CITY

Government military facilities located outside the City of Wichita shall be charged inside city rates for sewer service.

X. MISCELLANEOUS CHARGES

Other charges and billing for special services, such as but not limited to administrative cost, account origination fees, collection cost, disconnect/reconnect fees, damages and/or vandalism to Utility infrastructure and appurtenances, etc., shall be determined by the director of public works & utilities and set forth in Section 16.04.055.

(Ord. No. 46-423 § 1; Ord. No. 46-650, § 1, 8-16-04; Ord. No. 47-110, § 1, 8-22-06; Ord. No. 47-983, § 1, 8-12-08; Ord. No. 48-409, § 1, 8-18-09; Ord. No. 48-761, § 1, 6-22-10; Ord. No. 48-762, § 1, 6-22-10; Ord. No. 49-165, § 1, 12-13-11, eff. 1-1-12; Ord. No. 49-402, § 1, 12-4-12, eff. 1-1-13; Ord. No. 49-610, § 1, 11-26-13; Ord. No. 49-912, § 1, 12-16-14, eff. 1-1-15; Ord. No. 50-136, § 1, 12-15-15, eff. 1-1-16; Ord. No. 50-383, § 1, 12-13-16; Ord. No. 50-917, § 1, 1-15-19; Ord. No. 51-158, § 1, 12-10-19; Ord. No. 51-382, § 1, 12-8-20; Ord. No. 51-681, § 1, 12-14-21; Ord. No. 51-972, § 2, 11-22-22; Ord. No. 52-575, § 1, 12-10-24; Ord. No. 52-846, § 1, 12-9-25)

Sec. 16.14.041. Payment of plant equity fees for connection of sewer service.

Each customer requesting a new service connection to the sewerage system shall pay a plant equity fee prior to connection as part of the approval process for new service connections.

Such plant equity fees shall be determined on the basis of the equity existing system customers have accumulated in the system as determined on the basis of a detailed analysis of plant assets and shall constitute a system buy in fee assessed to new connections. The meter size on which the fee schedule is based shall be in reference to the associated water meter size. Applications for sewer connections for which there is no associated water service application shall be calculated on the basis of projected flows from other sources, which would approximate flows, derived from a particular water service size.

The schedule of said plant equity fees shall be as follows:

Meter Size	2007 & Beyond
1" or less	$1,350
1½"	2,700
2"	4,320
3"	8,100
4"	13,500
6"	27,000
8"	43,200
10"	62,100
12"	116,100

Given the variations in uses which may accrue to services eight inches or larger in size, fees charged in relation to such service sizes may be adjusted by the Director of Utilities upon receipt of detailed estimates of projected usage characteristics supplied by the applicant for service.

At the discretion of the City Council, the above fees may be waived and/or modified in

relation to economic development projects, which, due to their unusual nature or magnitude, offer extraordinary benefits to the community.

Property owners required to make a payment for connecting to the sewer system as provided above may apply for a deferral of such payment on the basis that such payment would work an economic hardship on the owner(s). The criteria for the granting of such a deferral shall be the same as described in Sections 2.24.070 and 2.24.075 of the code. All other terms and conditions of any deferral hereunder shall be governed by the provisions of 2.24.070 and 2.24.075 except as otherwise noted herein. A deferral hereunder may be granted to owners of property located outside the City limits.
(Ord. No. 45-367 § 1; Ord. No. 43-631 § 1; Ord. No. 47-520, § 1, 7-17-07)

Editor's note—It should be noted that Ord. No. 47-520, § 3, provides for an effective date on and after Oct. 1, 2007.

Sec. 16.14.045. Authority to collect fees, taxes and charges for other governmental entities.

In addition to the rates and charges set forth in this chapter, the director of water and sewer, subject to the approval of the city council, shall have the authority to add to the bill of each customer the appropriate assessment of such sewer protection fees, taxes, and other fees and charges as the department is required to collect for or pay to any other governmental entity.
(Ord. No. 41-637 § 2)

Sec. 16.14.050. Bills—Rendering—Due date.

The department of water and sewer of the city shall render bills for sewer service charges to all flat rate residential customers and the owners of record of property connected to the city's sewerage system but not having metered water consumption at intervals of at least one month. Bills so rendered shall include a charge for each month the premises were connected to the sewer without regard to whether the premises were occupied or unoccupied during all or part of the billing period and whether or not water was actually discharged into the system during the billing period.

Bills for sewer service charges to all other customers shall be rendered by the department of water and sewer in conjunction with the regular water bills to the person or legal entity designated to receive the sewerage bill for sewer service.

An amount equal to one and one-half percent of the unpaid balance will be added to all bills not paid within twenty-five days of the date of issuance.
(Ord. No. 41-860 § 1)

Sec. 16.14.070. Sewer utility fund—Created—Use.

There is hereby created and ordered to be established in the treasury of the city a separate fund hereby designated as the "sewer utility fund." All revenues derived from the sewer service charges herein established including any investment earnings of such revenue shall, when received, be promptly paid into the "sewer utility fund." The moneys in the fund shall be used for the purposes and in the order following:

(a) Paying the cost and expense of the administration, operation, and maintenance of the sewerage system of the city;

(b) Paying the cost of alteration, reconstruction, repair, improvement, extension and enlargement of the sewerage system of the city when authorized specifically by the city council or as approved in the city's annual capital budget or annual operating budget;

(c) Paying the principal of and interest on any bonds that have been heretofore or may be hereafter authorized and issued for the purposes of improving or enlarging or extending main sewers, pumping stations, treatment works, and disposal works operated as a part of the city's sewerage system.

Such other accounts within the "sewer utility fund" may be established and maintained as are in the judgment of the city manager necessary for the proper administration of this city's sewerage system.
(Ord. No. 26-506 § 7)

Sec. 16.14.080. City manager—Accounting for revenue in budget.

The city manager shall, in establishing the city's budget, take into account the projected revenues from the sewerage service charges hereby levied to the end that the ad valorem tax for sewer purposes will be reduced to the fullest extent possible by the substitution of the sewerage service charge revenues.
(Ord. No. 26-506 § 8)

Sec. 16.14.090. City manager—Authority to make regulations.

The city manager is hereby authorized to promulgate such rules and regulations as shall be necessary to carry out the provisions of this chapter according to its term and intent.
(Ord. No. 26-506 § 9)

Sec. 16.14.100. Right of entry, inspection and sampling.

The director of water and sewer, or his authorized representatives, shall have the right to enter upon all premises served by the sewerage system of the city, for the purpose of inspecting, reading or otherwise examining all meters and appurtenances involved in the recording of water received on the premises or sewer wastes discharged therefrom, or to collect samples for analysis of wastewater discharged therefrom.
(Ord. No. 41-637 § 5)

Sec. 16.14.110. City's right to disconnect service—Notice.

Notwithstanding the granting of a permit, the city may, at any time, order or effect a disconnection from the sewerage system of the city of any property lying outside the corporate limits of the city by reason of discharge of sewerage harmful to the sewerage system, because of violations of the sewer or plumbing ordinance of the city, or because of violations of the rules and regulations prescribed by the city manager in accordance with the provisions of this chapter. Notice of the city's intention to disconnect shall be given where reasonably practicable by registered mail to the owner to the extent that the name and address of such owner can be obtained from the public records and also by posting a copy of such notice in a conspicuous place on the real estate being serviced, the mailing of such notice and posting of a copy of such notice to occur not less than sixty days prior to the time the city proposes to effect

such disconnection. All disconnections, except those for nonpayment of charges or for violation of the sewer or plumbing ordinance or for violations of the rules and regulations prescribed by the city manager hereunder, shall be made as of the end of the calendar year.
(Ord. No. 36-320 § 6)

Sec. 16.14.120. City's responsibility—Liability.

The city shall not in any way be liable for its failure to maintain sewer lines or sewage treatment plant or plants, for delayed maintenance, for acts of God or of the public enemy, or for any other cause beyond its control and shall be required only to use reasonable diligence in the disposal and treatment of said sewage. All persons, firms and corporations including the United States of America, the state, and all bureaus, departments and political subdivisions thereof, whose property is located outside the corporate limits of the city and which property is now connected to the sewerage system of the city, and all such persons, firms or corporations who hereafter may apply for sewerage service, are deemed to have consented to any officer or employee of the city going upon the premises at any and all reasonable times for the purpose of making inspections, for the purpose of effecting disconnections and for any other lawful purpose in connection herewith, and any and all persons, firms and corporations above described now using such sewerage system or who may hereafter apply for use of such system hereby waive for themselves and their agents, servants, employees, successors in interest any claim of any kind of character against the city and for themselves, their agents, servants, employees, successors in title and successors in interest, release the city of any claims of any kind or character arising out of or in any way connected with this chapter or the sewerage system of the city.
(Ord. No. 36-320 § 7)

Sec. 16.14.130. Replacement fund.

(Repealed by Ord. No. 42-142.)
(Ord. No. 36-320 § 8)

any kind or character arising out of or in any way connected with this chapter or the sewerage system of the city.
(Ord. No. 36-320 § 7)

Sec. 16.14.130. Replacement fund.

(Repealed by Ord. No. 42-142.)
(Ord. No. 36-320 § 8)

CHAPTER 16.20. DISCHARGE OF WASTES INTO WATERCOURSES AND STORM SEWERS

Sec. 16.20.010. Definitions.
Sec. 16.20.020. Discharge permit required; materials which may be discharged.
Sec. 16.20.030. Treatment facilities required.
Sec. 16.20.040. Sewer connection permit; permit to discharge prerequisite to issuance.
Sec. 16.20.050. Right of entry for inspection; operating records and surveys; analyses of discharges.
Sec. 16.20.060. Sewer or drainage ditches used in violation of chapter to be plugged or removed.
Sec. 16.20.070. Rules and regulations of director of public health.
Sec. 16.20.080. Administration and enforcement of chapter.
Sec. 16.20.090. Notices of violations and hearings thereon.
Sec. 16.20.100. Summary orders in cases of emergencies and hearings on such orders.
Sec. 16.20.110. Proceedings at hearings, findings, notices and orders to be made public records; appeal from final orders to board of commissioners.
Sec. 16.20.120. Application and construction of chapter.
Sec. 16.20.130. Penalty.
Sec. 16.20.140. Liability of officers and employees charged with enforcement; defense by department of law.

Sec. 16.20.010. Definitions.

For the purposes of this chapter and unless the context specifically indicates otherwise, the following terms shall have the meanings respectively ascribed to them by this section:

(a) HEALTH DEPARTMENT shall mean the Wichita-Sedgwick County Department of Public Health.

(b) INDUSTRIAL WASTE shall mean the liquid wastes from industrial processes as distinct from sanitary sewage.

(c) PERSON shall mean any individual, firm, company, association, society, corporation or group.

(d) SANITARY SEWAGE shall mean sewage discharging from the sanitary conveniences of dwellings (including apartment houses and hotels), office buildings, factories or institutions, and free from industrial wastes and unpolluted storm and surface water.

(e) SEWAGE shall mean a combination of the water-carried wastes from residences, business buildings, institutions and industrial establishments, together with such ground, surface and storm waters as may be present.

(f) SEWAGE TREATMENT PLANT OR FACILITIES shall mean any arrangement of devices and structures for treating sewage.

(g) STORM SEWER shall mean a sewer which carries storm and surface waters and drainage, but not designed or intended to carry sanitary sewage or industrial wastes.

(h) UNPOLLUTED WATER shall mean any water which is free of organic and chemical pollutants (free of excessive concentrations of dissolved, suspended, or floating organic materials, or dissolved or suspended inorganic chemicals, and free of excessive amounts of bacterial contamination or radio active materials) or any other harmful, or objectionable material detrimental to the public health of the inhabitants of the city, or detrimental to the plant, animal or aquatic life in the city. Essentially, unpolluted water shall be clear water to which no substances have been added.

(i) WASTE WATER shall mean any water, polluted or unpolluted, that shall be used for some purpose and then discharged on or from the premises where used or such water that has been permitted to escape with or without being used.

(j) WATERCOURSES shall mean a channel, natural or artificial (man made), in which a flow of water occurs either continuously or intermittently.

(Ord. No. 23-136 § 1)

Sec. 16.20.020. Discharge permit required; materials which may be discharged.

It shall be unlawful for any person to discharge, or for any person to permit, allow or suffer to be discharged, any sewage, industrial waste or

waste water into any watercourse or storm sewer, within the corporate limits of the city or within the police jurisdiction thereof, except as hereinafter provided:

(a) DISCHARGE PERMIT; APPLICATION, INVESTIGATION AND ISSUANCE. Any person discharging such sewage or wastes into such watercourses or storm sewers shall hold an appropriate and valid discharge permit from the health department. Before discharging such sewage or wastes into such watercourses or storm sewers, such person shall make application to the health department for a discharge permit authorizing all discharges. The health department shall, after appropriate investigation, either approve the application and issue a discharge permit or disapprove the application, stating the reasons therefor, and prohibit the proposed discharge. The application shall be made on forms provided by the health department and shall be signed by the property owner or the occupant of the property desiring such discharge permit. The application shall provide information concerning the source of the discharge, the amount likely to be discharged, the materials and substances that may be contained therein at any one time, the plans and specifications of any existing or proposed treatment facilities, and any other pertinent information that is needed and required by the health department; provided, that all persons making an application for a permit for such discharge shall be in compliance with the provisions of sections 65-164 and 65-165, General Statutes of Kansas, 1949, and any amendments thereto, and the applicable rules and regulations of the state board of health, before being issued a discharge permit by the health department.

(b) PERSONS DISCHARGING WASTES INTO WATERCOURSES OR STORM SEWERS ON OCTOBER 29, 1957. All persons discharging such sewage, industrial wastes or waste water into such watercourses or storm sewers on the effective date of this chapter* shall, within three months thereafter, register such discharges and make application for a proper discharge permit to the health department in accordance with subsection (a) of this section. In the event the application for a discharge permit is denied, the applicant shall comply with the provisions of this chapter or cease the discharge within a reasonable time as determined by the health department. When the application is approved, a discharge permit shall be issued by the health department.

(c) MATERIALS WHICH MAY BE DISCHARGED TO STORM SEWERS AND WATERCOURSES. The following materials and substances may be discharged to storm sewers, subject to the approval and issuance of a connection permit by the city engineer as provided in section 16.20.040 and to watercourses within the corporate limits of the city or within the police jurisdiction thereof in accordance with the provisions of this chapter:

(1) Unpolluted storm water or surface water.

(2) Unpolluted roof drainage.

(3) Unpolluted subsurface drainage or ground water.

(4) Unpolluted cooling water.

(5) Unpolluted industrial process water.

(6) Discharge from properly operated and maintained swimming pools but not including any sanitary sewage.

(7) Discharge from properly operated and maintained sand and oil traps serving automobile wash racks; provided, that the traps serving such wash racks shall not be used for the discharge of other wastes from garages, services stations and other establishments.

*__Note—__The ordinance comprising this chapter was adopted on October 29, 1957.

(8) Any other waters determined by the health department upon investigation and analysis to be unpolluted.

(d) ADDITIONAL MATERIALS WHICH MAY BE DISCHARGED TO WATERCOURSES. In addition to the discharge of those materials provided for in subsection (c) of this section, the following materials may be discharged to watercourses within the corporate limits of the city or within the police jurisdiction thereof in accordance with the provisions of this chapter:

(1) Sewage, industrial wastes and waste water treated in an approved sewage treatment plant designed, constructed and operated in accordance with the provisions of sections 65-164 and 65-165, General Statutes of Kansas, 1949, and any amendments thereto, and the rules and regulations of the state board of health pertaining thereto.

(Ord. No. 23-136 § 2)

Sec. 16.20.030. Treatment facilities required.

Any person discharging any sewage, industrial wastes or waste water into any watercourses or storm sewer within the corporate limits of the city or within the police jurisdiction thereof which is determined to be polluted shall provide treatment facilities as shall be necessary for adequate treatment of such discharges in compliance with the provisions of this chapter or cease the discharge within a reasonable time as determined by the health department.

(Ord. No. 23-136 § 3)

Sec. 16.20.040. Sewer connection permit; permit to discharge prerequisite to issuance.

No permit shall in any event be issued by the city engineer to make any connection to a storm sewer of the city until a discharge permit shall have been issued by the health department authorizing discharges to such storm sewer in accordance with the provisions of this chapter; provided however, that such discharge permit shall be presented to the city engineer within a reasonable time after issuance by the health department.

(Ord. No. 23-136 § 4)

Sec. 16.20.050. Right of entry for inspection; operating records and surveys; analyses of discharges.

Duly authorized representatives of the health department shall be permitted to enter upon all properties within the corporate limits of the city or within the police jurisdiction thereof for the purposes of inspection, observation, measurement, sampling and testing in accordance with the provisions of this chapter. The health department may require any person who is discharging sewage or wastes to watercourses or storm sewers within the corporate limits of the city or within the police jurisdiction thereof to keep and maintain such operating records as may be pertinent and any such records shall be available to the health department. Any persons discharging sewage or waste to such watercourses or storm sewers may be required at periodic intervals to conduct a survey concerning the discharge of the sewage or waste including the source, measurement of flow and the collection and analysis of proportionate composite samples or grab samples. All analyses of sewage and waste required to be made under the provisions of this chapter shall be made in accordance with the latest edition of "Standard Methods for the Examination of Water, Sewage and Industrial Wastes" as published by the American Public Health Association, New York, New York.

(Ord. No. 23-136 § 5)

Sec. 16.20.060. Sewer or drainage ditches used in violation of chapter to be plugged or removed.

Any sewer or drainage ditch found to carry discharges of sewage, industrial wastes or waste water into any storm sewer or watercourse within the corporate limits of the city or within the police jurisdiction thereof which is not being used or which is being used continuously or intermittently in violation of this chapter shall be plugged

at the discharge point or be physically removed by the owner of the premises on which the same is situated.
(Ord. No. 23-136 § 6)

Sec. 16.20.070. Rules and regulations of director of public health.

The director of public health is hereby authorized to make, adopt and promulgate such rules and written regulations as may be necessary for the proper administration and enforcement of the provisions of this chapter; provided, that such rules and regulations shall not be in conflict with the provisions of this chapter or the laws of the state. All such rules and regulations shall be subject to the approval of the board of commissioners of the city and shall be binding and effective when filed in the office of the city clerk.
(Ord. No. 23-136 § 7)

Sec. 16.20.080. Administration and enforcement of chapter.

The director of public health is hereby designated to administer and enforce this chapter.
(Ord. No. 23-136 § 11)

Sec. 16.20.090. Notices of violations and hearings thereon.

(a) NOTICE OF VIOLATION. Whenever the director of public health or his authorized representative determines that there has been a violation of any provision of this chapter, or of any rule or regulation adopted pursuant thereto, he shall give notice of such alleged violation to the person or persons responsible therefor as hereinafter provided. Such notice shall:

(1) Be in writing over the signature of the director of public health or his authorized representative;

(2) Particularize the violation or violations alleged to exist or to have been committed;

(3) Provide a reasonable time for the correction of the violations particularized; and

(4) Be addressed to and served upon the owner of the property or the occupant of the premises (if the occupant is or may be responsible for the violations found to exist); provided, that such notice shall be deemed to be properly served upon such owner or occupant if a copy is served upon him personally or if a copy thereof is sent by certified or registered mail to his last known post office address. Any such notice may contain an outline of remedial action which, if taken, will effect correction of the particularized alleged violations.

(b) HEARING GRANTED ON PETITION; NOTICE AND TIME OF HEARING. Any person affected by any notice which has been served upon him in connection with the enforcement of an provision of this chapter, or of any rule or regulation adopted pursuant thereto, who is aggrieved thereby, and who believes the same to be contrary to the ordinances or the regulations of the city, may request and shall be granted a hearing on the matter complained of before the director of public health or his designated representative; provided, that such person shall file in the office of the director of public health a brief statement of the grounds therefor, within fifteen days after the notice was served or received by him. Upon receipt of such petition the director of public health or his designated representative shall set a time and place for such hearing and shall given the petitioner written notice thereof. At such hearing, the petitioner shall be afforded an opportunity to be heard and show cause why such notice should be modified or withdrawn. The hearing shall be commenced within not more than fifteen days after the day on which the petition is filed; provided, that upon the application of the petitioner, the date of the hearing may be postponed for a reasonable time beyond such fifteen-day period, and in the judgment of the director of public health or his designated representative the petitioner has submitted a good and sufficient reason for such postponement.

(c) WHEN NOTICES DEEMED FINAL ORDERS. At such hearing, the director of public health or his designated representative may sustain, modify or withdraw the notice, depending upon his finding as to whether the provisions of this chapter and of the rules and regulations adopted pursuant thereto have been complied

with. If the director of public health or his designated representative sustains or modifies such notice, it shall be deemed to be a final order; provided, that any notice served pursuant to subsection (a) of this section shall become a final order if a written petition for a hearing is not filed in the office of the director of public health within fifteen days after such notice is served or received by the person upon which the same is served.

(d) WHEN PERMITS SUSPENDED BY NOTICES DEEMED REVOKED. After hearing in the case of any notice suspending the discharge permit required by this chapter and such notice has been sustained by the director of public health or his designated representative the permit shall be deemed to have been revoked; provided, that any such permit which has been suspended by a notice shall be deemed to be revoked if a petition for a hearing is not filed in the office of the director of public health within fifteen days after such notice is served or received.
(Ord. No. 23-136 § 8)

Sec. 16.20.100. Summary orders in cases of emergencies and hearings on such orders.

Notwithstanding the other provisions of this chapter, whenever the director of public health or his designated representative finds that an emergency exists by reason of the discharging of any sewage, industrial wastes or waste water which requires immediate action to protect the public health, he may, without notice or hearing, issue an order reciting the existence of such emergency and requiring that appropriate action be taken to meet the emergency so found. Any such order shall be effective immediately upon service of the same, and any person to whom such an order is directed shall comply therewith immediately; provided, that upon petition to the director of public health or his designated representative an opportunity for a hearing shall be afforded as soon as possible. After such hearing, depending upon his findings as to whether the provisions of this chapter and of the rules and regulations adopted pursuant thereto have been complied with, the director or his representative shall continue such order in effect, or modify it, or revoke it.
(Ord. No. 23-136 § 9)

Sec. 16.20.110. Proceedings at hearings, findings, notices and orders to be made public records; appeal from final orders to board of commissioners.

The proceedings at any hearing held pursuant to this section, including the findings and decision of the director of public health or his designated representative, shall be summarized, reduced to writing, and entered as a matter of public record in the office of the director of public health. Such records shall also include a copy of every notice or order issued in connection with the matter. Appeals from any final order of the director of public health or his designated representative may be made to the board of commissioners of the city within fifteen days after a copy of the same has been served upon or received by the petitioner. All such appeals shall be effective when a notice thereof specifying the grounds of the appeal shall have been filed in the office of the city clerk.
(Ord. No. 23-136 § 10)

Sec. 16.20.120. Application and construction of chapter.

This chapter shall be applicable to all premises now within the corporate limits of the city or hereafter incorporated therein, or being or coming within the police jurisdiction of the city; provided, that in the event of conflict of ordinances applicable to the subject matter of this chapter, the provisions of the city ordinance that establishes the higher standard for the promotion and protection of the health and safety of the inhabitants of the city shall prevail.
(Ord. No. 23-136 § 1)

Sec. 16.20.130. Penalty.

Any person violating any of the provisions of this chapter shall upon conviction thereof be adjudged to pay a fine of not less than twenty-five dollars nor more than five hundred dollars, or be confined in the city jail not less than ten days nor more than six months, or be both so fined and imprisoned. Each day that any violation hereof is found to exist or continues to exist shall be a separate offense and punishable as such hereunder.
(Ord. No. 23-136 § 12)

Sec. 16.20.140. Liability of officers and employees charged with enforcement; defense by department of law.

Any officer or employee of the city charged with the enforcement of this chapter shall not in the discharge of duties thereby render himself liable personally, and he is hereby relieved from any personal liability for any damage that may occur to persons or property, as a result of any act required or permitted by this chapter in the discharge of his duties; provided, that suit brought against any officer or employee of the city by reason of the performance of any duty under the provisions of this chapter shall be defended by the department of law until the final termination of the proceedings therein.
(Ord. No. 23-136 § 13)

CHAPTER 16.22. MUNICIPAL WASTEWATER AND TREATMENT SYSTEM

Sec. 16.22.010. Purpose.
Sec. 16.22.020. Policy.
Sec. 16.22.030. Application.
Sec. 16.22.040. Definitions.
Sec. 16.22.050. Position created to administer regulations and ordinances.
Sec. 16.22.060. Prohibited discharges.
Sec. 16.22.070. Pretreatment requirement.
Sec. 16.22.075. Bypass.
Sec. 16.22.080. Federal categorical pretreatment standards.
Sec. 16.22.090. Compliance date report.
Sec. 16.22.100. Periodic compliance report.
Sec. 16.22.110. Monitoring facilities.
Sec. 16.22.120. Inspection and sampling.
Sec. 16.22.130. Excessive discharge, slug discharge, changed discharge, hazardous waste discharge, accidental discharge, and storage of dangerous materials.
Sec. 16.22.140. Unlawful discharge.
Sec. 16.22.150. General permits.
Sec. 16.22.160. Permit provisions.
Sec. 16.22.170. Permit application.
Sec. 16.22.180. Permit issuance.
Sec. 16.22.190. Request for determination of categorical or subcategorical standard pursuant to 40 C.F.R. 403.6.a.
Sec. 16.22.200. Variance of categorical standard pursuant to 40 C.F.R. 403.13.
Sec. 16.22.210. Permit modifications.
Sec. 16.22.220. Permit transfer.
Sec. 16.22.230. Denial of application.
Sec. 16.22.240. Revocation of permit.
Sec. 16.22.250. Permit fees.
Sec. 16.22.260. Emergency suspensions.
Sec. 16.22.270. Administrative enforcement actions.
Sec. 16.22.275. Administrative penalties.
Sec. 16.22.280. Request for hearing and appeal.
Sec. 16.22.290. Legal action.
Sec. 16.22.300. Falsifying information.
Sec. 16.22.310. News release.
Sec. 16.22.320. Record keeping requirement.
Sec. 16.22.330. Entrance to properties.
Sec. 16.22.340. Right to access over easement.
Sec. 16.22.350. Use of confidential material.
Sec. 16.22.360. Reporting and signatory requirements.
Sec. 16.22.370. Criminal penalties.
Sec. 16.22.380. Separability.

Sec. 16.22.010. Purpose.

The purpose of this chapter is:

(1) To prevent the introduction of pollutants into the municipal wastewater system which could damage or interfere with the normal operation of the system, and/or contaminate the resulting sludge;

(2) To prevent the introduction of pollutants into the municipal wastewater system which could pass through the system, and be discharged into receiving waters or otherwise be incompatible with the system; and

(3) To improve the opportunity to recycle and reclaim wastewaters and sludges from the system.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 1)

Sec. 16.22.020. Policy.

This chapter provides for the regulation of contributors to the municipal wastewater system through the issuance of permits to certain nondomestic users and through enforcement of general requirements for the other users, authorizes monitoring and enforcement activities, requires user reporting, assumes that existing customer's capacity will not be preempted and provides for the setting of fees for the equitable distribution of costs resulting from the program established herein.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 2)

Sec. 16.22.030. Application.

This chapter shall apply within the city and to those persons outside the city who are users of the Wichita publicly owned treatment works (POTW). Except as otherwise provided herein, the director as defined in Section 16.22.040 shall administer, implement and enforce the provisions of this chapter.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 3)

Sec. 16.22.040. Definitions.

Unless otherwise indicated by specific context, the meanings of the terms in this chapter are as follows:

(1) "Act" or "the Act" means the Federal Water Pollution Control Act, also known as the Clean Water Act, as amended, 33 U.S.C. Section 1251, et seq.

(2) "Approval authority" means the Environmental Protection Agency (EPA), or if the pretreatment program has been formally delegated to the Kansas Department of Health and Environment (KDH&E), it shall mean the Director of the Division of Environment of KDH&E.

(3) "Authorized representative" shall be:

(a) A responsible corporate officer, if the industrial user is a corporation. For the purpose of this subsection (3), a responsible corporate officer means:

(i) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making function for the corporation, or

(ii) The manager of one or more manufacturing, production, or operations facilities employing more than two hundred fifty persons or having gross annual sales or expenditures exceeding twenty-five million dollars (in second-quarter 1980 dollars), if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures;

(b) A general partner or proprietor if the industrial user is a partnership or proprietorship, respectively;

(c) A duly authorized representative of the individual designated in subsection (3)(a) or (3)(b) of this section if:

(i) The authorization is made in writing by the individual described in subsection (3)(a) or (3)(b) of this section,

(ii) The authorization specifies either an individual or a position having responsibility for the overall operation of the facility from which the industrial discharge originates, such as the position of plant manager, operator of a well, or well field superintendent, or a position of equivalent responsibility, or having overall responsibility of environmental matters for the company, and

(iii) The written authorization is submitted to the control authority;

(d) Such representative of a governmental entity as may be authorized by law.

(4) "Bioassay test" means a test used to evaluate the toxicity of a sample by comparing its effect on a living organism with the effect of a standard chemical preparation on the same type of organism.

(5) "Biochemical oxygen demand" or "BOD" means the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five days at twenty degrees centigrade, expressed in milligrams per liter.

(6) "Building sewer" means the extension from the building drain to the publicly owned sewer system or other place of disposal.

(7) "Bypass" means the intentional diversion of wastestreams from any portion of an industrial user's treatment facility.

(8) "City" means the city of Wichita, Kansas, which is the control authority for the purpose of administering this chapter, represented by the director of the water and sewer department, as approved by the EPA Regional Administrator or the State Director.

(9) "Chemical oxygen demand" or "COD" means the oxygen-consuming capacity of inorganic and organic matter present in wastewater expressed as the amount of oxygen consumed from a chemical oxidant as under standard laboratory procedure in milligrams per liter.

(10) "Combined sewer" means a sewer receiving the combination of surface runoff, wastewater, sewage and/or industrial wastes.

(11) "Composite sample" means a combination of individual samples of water or wastewater taken at selected intervals (generally hourly or some similar specified period), to minimize the effect of the variability of the individual sample. Individual samples may have equal volume or may be roughly proportional to the flow at time of sampling.

(12) "Cooling water" means the water discharged from any use such as air conditioning, cooling or refrigeration or to which the only pollutant added is heat.

(13) "Daily Discharge Flow" means the average volume of water discharged to the sanitary sewer by the industrial user. For the purposes of this Chapter, the average volume is calculated by taking the average monthly-metered wastewater recorded in a calendar year and divide by the industrial user average days of operation in a calendar month. At the discretion of the Director, in lieu of a calibrated wastewater meter, the average volume of water discharged may be calculated using the source water metered at the industrial user location.

(14) "Direct discharge" means the discharge of treated or untreated wastewater directly to the waters of the state.

(15) "Director" means the director of the water and sewer department.

(16) "Environmental Protection Agency" or "EPA" means the U.S. Environmental Protection Agency, or where appropriate, the term may also be used as a designation for the administrator or other duly authorized official of said agency.

(17) "Four-day average" means the mathematical average of daily sampling values for four consecutive monitoring days.

(18) "Governing body" means the city council of the city.

(19) "Grab sample" means a sample which is taken from a waste stream on a one-time basis with no regard to the flow in the waste stream and without consideration of time.

(20) "Holding tank waste" means any waste from holding tanks such as vessels, chemical toilets, campers, trailers, septic tanks and vacuum-pump tank trucks.

(21) "Indirect discharge" means the discharge or the introduction of nondomestic pollutants from any source regulated under Section 307(b) or (c) of the Act (33 USC Section 1317), into the POTW (including holding tank waste discharged into the system).

(22) "Industrial user" means any user contributing industrial wastes to the municipal sewer system.

(23) "Interference" means a discharge which, alone or in conjunction with a discharge or discharges from other sources:

(a) Inhibits or disrupts the POTW, its treatment processes or operations, or its sludge, processes, use or disposal; or

(b) Is a cause of a violation of any requirement of the POTW's NPDES permit (including an increase in the magnitude or duration of a violation) or (ii) prevents the use or disposal of sewage sludge in compliance with the following statutory provisions and regulations or permits issued thereunder: Section 405 of the Clean Water Act, the Solid Waste Disposal Act (SWDA) (and including state regulations contained in any state sludge management plan prepared pursuant to Subtitle D of the SWDA), Resource Conservation and Recovery Act (RCRA), the Clean Air Act, the Toxic Substances Control Act, the Marine Protection, Research and Sanctuaries Act, or more stringent state or local regulations.

(24) "Municipal sewer system" means sanitary sewers, pumping stations, sewage treatment plants, main sewers, interceptor sewers, outfall sewers, and works for the collection, transportation, pumping and treating of wastewater, sewage or industrial waste thereto, necessary in the maintenance and operation of the same.

(25) "National categorical pretreatment standard" or "pretreatment standard" means any (present or future) regulation containing pollutant discharge limits promulgated by the EPA in accordance with Section 307(b) and (c) of the Act (33 USC Section 1317) which applies to a specific category of industrial users.

(26) "National pollution discharge elimination system" or "NPDES permit" means a discharge permit issued by the approval authority pursuant to Section 402 of the Act (33 USC Section 1342).

(27) "National prohibitive discharge standard" or "prohibitive discharge standard" shall mean any (present or future) regulation developed under the authority of Section 307(b) of the Act.

(28) "New source" means any building, structure, facility, or installation from which there is or may be a discharge of pollutants, the construction of which commenced after the publication of proposed pretreatment standards under Section 307(c) of the Act which will be applicable to such source if such standards are thereafter promulgated in accordance with that section, provided that:

(a) The building, structure, facility, or installation is constructed at a site at which no other source is located; or

(b) The building, structure, facility, or installation totally replaces the process or production equipment that causes the discharge of pollutants at an existing source; or

(c) The production of wastewater generating process of the building, structure, facility, or installation is substantially independent of an existing source at the same site. In determining whether these are substantially independent, factors such as the extent to which the new facility is integrated with the existing plant, and the extent to which the new facility is engaged in the same general type of activity as the existing source should be considered.

(29) "Pass through" means a discharge which exits the POTW into waters of the state in quantities or concentrations which, alone or in conjunction with a discharge or discharges from other sources, is a cause of a violation of any requirement of the POTWS's NPDES permit (including an increase in the magnitude or duration of a violation).

(30) "Person" means any individual, partnership, copartnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity or any other legal entity or their legal representatives, agents or assigns. The masculine gender shall include the feminine; the singular shall include the plural where indicated by the context.

(31) "pH" means a negative logarithm of the hydrogen ion concentration measured in grams per liter of solution.

(32) "Pollution" means the manmade or man-induced alteration of the chemical, physical, biological and radiological integrity of water.

(33) "Pollutant" means any dredged spoil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical waste, biological materials, radioactive materials, heat, wrecked or discharged equipment, rock, sand, cellar dirt, and industrial, municipal and agricultural waste discharged into water.

(34) "Pretreatment" or "treatment" means the reduction of the amount of pollutants, the removal of pollutants or the alteration of

the nature of pollutant properties in wastewater to a less harmful state prior to or in lieu of discharging or otherwise introducing such pollutants into the municipal sewer system. The reduction or alteration can be obtained by physical, chemical or biological processes or process changes by other means, except by dilution as prohibited by federal regulation.

(35) "Pretreatment requirements" means any substantive or procedural requirement (present or future) relating to pretreatment, other than a national pretreatment standard imposed on an industrial user.

(36) "Pretreatment standard" means any (present or future) regulation containing pollutant discharge limits promulgated by the EPA in accordance with Section 307(b) and (c) of the Act, which applies to industrial users.

(37) "Publicly owned treatment works (POTW)" means a treatment works as defined by Section 212 of the Act (33 USC Section 1292), which is owned or operated in this instance by the city. This definition includes any sewers that convey wastewater to the POTW treatment plant, but does not include pipes, sewers or other conveyances not connected to a facility providing treatment. For the purposes of this chapter, "POTW" also includes any sewers that convey wastewaters to the POTW from persons outside the city who are users of the city's POTW.

(38) "POTW treatment plant" means that portion of the POTW designed to provide treatment to wastewater.

(39) "Sanitary sewer" means a sewer which carries wastewater, sewage and/or industrial wastes; and to which storm, surface and groundwaters are not intentionally admitted.

(40) "Severe property damage" means substantial physical damage to property, damage to the treatment facilities which cause them to become inoperable, or substantial or permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. It does not mean economic loss caused by delays in production.

(41) "Sewage" means a combination of the water-carried wastes from users together with such ground, surface and stormwaters as may be present.

(42) "Sewer" means a pipe or enclosed conduit through which sewage is transported to the POTW treatment plant.

(43) "Shall" is mandatory. "May" is permissive.

(44) "Significant industrial user" means:

(a) All industrial users subject to categorical pretreatment standards under 40 CFR 403.6 and 40 CFR Chapter I Subchapter N, Parts 400 — 471;

(b) Any noncategorical industrial user that:

(i) Discharges twenty-five thousand gallons per day or more of process wastewater ("process wastewater" excludes sanitary, noncontact cooling, and boiler blowdown wastewater), or

(ii) Contributes a process wastestream which makes up five percent or more of the average dry weather hydraulic or organic (BOD, TSS, etc.) capacity of the POTW, or

(iii) Has a reasonable potential in the opinion of the city or approval authority to adversely effect the POTW (inhibition, pass through of pollutants, sludge contamination or endangerment of POTW workers) or for violating any pretreatment standard or requirement (in accordance with 40 CFR 403.8(f)(6) and amendments thereof).

(45) "Slug" means any discharge of wastewater of a non-routine or episodic nature, including but not limited to an accidental

spill or noncustomary batch discharge which, in concentration of any given constituent or in quantity of flow, exceeds for any period of duration longer than fifteen minutes, and/or more than five times its average twenty-four hour concentration of flows, during normal operation.

(46) "Significant noncompliance" means that an industrial user meets one or more of the following criteria:

(a) Chronic violations of wastewater discharge limits, defined as those in which sixty-six percent or more of all the measurements taken during a six-month period exceed, by any magnitude, the daily maximum limit or the average limit for the same pollutant parameter;

(b) Technical review criteria (TRC) violations defined as those in which thirty-three percent or more of all the measurements for each pollutant parameter taken during a six-month period equal or exceed the product of the daily maximum limit or the average limit multiplied by the applicable TRC (TRC equals 1.4 for BOD, TSS, fats, oil and grease, and 1.2 for all other pollutants except pH);

(c) Any other violation of a pretreatment effluent limit (daily maximum or longer term average) alone or in combination with other discharges, that the city determines has caused interference or pass through (including endangering the health of POTW personnel or general public);

(d) Any discharge of a pollutant that has caused imminent endangerment to human health, welfare or to the environment or has resulted in the POTW's exercise of its emergency authority under Section 16.22.070.

(e) Failure to meet, within ninety days after the schedule date, a compliance schedule milestone contained in the industrial user's wastewater discharge permit, or enforcement order for starting construction or attaining final compliance;

(f) Failure to provide, within thirty days after the due date, required reports such as baseline monitoring reports, ninety-day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules;

(g) Failure to accurately report noncompliance;

(h) Any other violation or group of violations which the city determines will adversely affect the operation or implementation of the pretreatment program.

(47) "Spill prevention and control plan (SPCP)" means a plan prepared by the industrial user to minimize the likelihood of a spill and to expedite control and cleanup activities should a spill occur.

(48) "State" means state of Kansas.

(49) "Standard industrial classification (SIC)" means a classification pursuant to the most recent edition of the Standard Industrial Classification Manual issued by the Executive Office of the President, Office of Management and Budget.

(50) "Storm sewer" or "storm drain" means a sewer which carries storm and surface waters and drainage, but excludes wastewater, sewage, and industrial wastes other than unpolluted cooling water.

(51) "Stormwater" means any flow occurring during or following any form of natural precipitation and resulting therefrom.

(52) "Suspended solids" means solids that either float on the surface of, or are in suspension in, water, sewage, or other liquids; and which are removable by laboratory filtering.

(53) "Total toxic organics" means the summation of all quantifiable values greater than 0.01 mg/L for the organic compounds listed in 40 CFR, Part 433.11(e).

(54) "Toxic pollutant" means any pollutant or combination of pollutants listed as toxic in (present or future) regulations promulgated by the Administrator of the Environmental Protection Agency under the provision of Section 307(a)(1) of the Act.

(55) "User" means any person who contributes, causes, or allows the contribution of wastewater into the city's POTW.

(56) "Wastewater" means the liquid and water-carried wastes from residences, business buildings, institutions, and industrial establishments either treated or untreated, together with such ground, surface, and stormwaters which are contributed into or permitted to enter the POTW.

(57) "Waters of the state" means all streams, lakes, ponds, marshes, watercourses, waterways, wells, springs, reservoirs, aquifers, irrigation systems, drainage systems and all other bodies or accumulations of water, surface or underground, natural or artificial, public or private, which are contained within, flow through or border upon the state or any portion thereof.

(58) Unless the context of usage indicates otherwise, the meaning of terms in this chapter not defined in this section shall be as defined in the "Glossary: Water and Wastewater Control Engineering" prepared by Joint Editorial Board of the American Public Health Association, American Society of Civil Engineers, American Water Works Association and Water Pollution Control Federation, copyright 1969.

(59) Abbreviations have these designated meanings:

(a) BOD — Biochemical oxygen demand (five-day, unless otherwise noted as "Ultimate BOD")

(b) CFR — Code of Federal Regulations

(c) COD — Chemical oxygen demand

(d) EPA — Environmental Protection Agency

(e) KDH&E — Kansas Department of Health and Environment

(f) L — Liter

(g) lbs/da — Pounds per day

(h) mg — Milligrams

(i) mg/L — Milligrams per liter

(j) NPDES — National Pollutant Discharge Elimination System

(k) POTW — Publicly owned treatment works

(l) SPCP — Spill prevention and control plan

(m) TRC — Technical review criteria

(n) TSS — Total suspended solids.

(Ord. 43-772 §§ 1, 4 (part); Ord. No. 46-888, § 1, 2-14-06)

Sec. 16.22.050. Position created to administer regulations and ordinances.

There is created the position of pretreatment administrator within the water and sewer department of the city, to administer the provisions of the industrial pretreatment program including all regulations and ordinances as contained herein. The position, under the supervision of the department's superintendent of sewage treatment, shall have charge of the industrial wastewater discharge permit program, industrial user self-monitoring and reporting requirements, inspection and sampling program, and enforcement program as required to ensure compliance by industrial users with applicable laws, rules, regulations, resolutions and ordinances relative to industrial pretreatment. The position shall be responsible for all coordination between other departments of the city, county, state and federal governments, industries, and all other appropriate agencies and organizations.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 5)

Sec. 16.22.060. Prohibited discharges.

No person shall contribute or cause to be contributed, directly or indirectly, any pollutant or wastewater which will interfere with the operation or performance of the sewage collection and treatment facilities. These general prohibitions apply to all such users of the municipal sewer

system whether or not the user is subject to national categorical pretreatment standards or any other national, state or local pretreatment standards or requirements. A user shall not contribute the following substances:

(1) Any liquids, solids or gases which by reason of their nature or quantity are, or may be sufficient either alone or by interaction with other substances, to cause fire or explosion or be injurious in any other way to the municipal sewer system or to the operation of the sewage treatment plant, or which reasonably appear to present an imminent endangerment to the health or welfare of POTW workers and general public. At no time shall two successive readings on an explosion hazard meter, at the point of discharge into the system (or at any point in the system), be more than five percent nor any single reading over ten percent of the lower explosive limit (LEL) of the meter. Prohibited materials include, but are not limited to, gasoline, fuel oil, hexane, kerosene, naphtha, benzene, toluene, xylene, ethers, alcohols, ketones, aldehydes, peroxides, chlorates, perchlorates, bromates, carbides, hydrides, and sulfides;

(2) Any solids, natural or man-made fibers, insoluble or emulsified oils, fats, or greases, slurries or viscous materials of such character or in such quantity that may cause an obstruction to the flow in the sewer or otherwise interfere with the proper functioning of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails, paper dishes, cups, milk containers, bones, spent lime, stone and marble dust, grass clippings, rags, spent grains, spent hops, asphalt residues, residues from refining or processing of fuel or lubricating oils, and polishing wastes;

(3) Any waters, wastes, material or substances which are corrosive or irritating to human beings and/or animals, toxic or noxious, or which contain toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with the sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of treated effluent or the sewage treatment plants;

(4) Substances, material, waters, or wastes, listed below, if it appears likely in the opinion of the director that such matter can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming his opinion as to the acceptability of these wastes, the director shall give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the POTW, and other pertinent factors which reasonably appear to present an imminent endangerment to the health or welfare of POTW workers and general public;

(5) The substances prohibited are:

(a) Any wastewater having a temperature which shall inhibit biological activity in the treatment plant resulting in interference, but in no case wastewater from an indirect discharge with a temperature exceeding one hundred fifty degrees Fahrenheit (sixty-five degrees Centigrade), or which exceeds one hundred four degrees Fahrenheit (forty degrees Centigrade) at the POTW treatment plant,

(b) Any water or wastes which contain fats, wax, grease or oils, whether emulsified or not, or containing substances which may solidify, or become viscous, at temperatures be-

tween thirty-two degrees Fahrenheit and one hundred fifty degrees Fahrenheit (zero degrees to sixty-five degrees Centigrade), in quantities determined by the director that have a deleterious effect upon the POTW conveyance system, processes, and/or equipment, or in quantities which will pass through the POTW to the receiving waters, or impact the storage or disposal of the POTW biosolids. In addition, it is prohibited to discharge these substances in quantities that cause a sewer line blockage resulting in untreated sewage discharging to waters of the United States. The discharge must not be in quantities that present an imminent endangerment to the health and welfare of persons, or otherwise create or constitute a public nuisance. Wastewater contaminated with oils which include, but are not limited to, petroleum oil, nonbiodegradable cutting oil, or products of mineral oil origin, shall not exceed concentrations of one hundred mg/L of oil and grease,

(c) Any waters or wastes containing strong acid, iron pickling wastes, or concentrated plating solutions, whether neutralized or not,

(d) Any waters or wastes containing iron, chromium, copper, zinc and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the treatment works exceeds the limits established by the director for such materials, as shown in the table of limits, subsection (13) of this section,

(e) Any waters or wastes containing phenols or other taste or odor-producing substances, in such concentrations exceeding limits established by the director, after treatment of the composite sewage, as necessary to meet the requirements of local, state, federal or other public agencies of jurisdiction for such discharge to the receiving waters,

(f) Any waters or waste containing dissolved sulfide in excess of one mg/L at the point of discharge into the municipal sewer system;

(6) Any wastewater containing any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the director in compliance with applicable local, state, or federal regulations;

(7) Any wastewater having a pH less than 5.5 or in excess of 12.0 or wastewater having any other corrosive property capable of causing damage or hazard to structures, equipment and/or personnel of the POTW,

(8) Any pollutants, including oxygen-demanding pollutants, (BOD, TSS, etc.) released at a flow rate and/or pollutant concentration which will cause interference with the POTW;

(9) Any wastewater with objectionable color not removed in the treatment process, such as, but not limited to, dye wastes and vegetable tanning solutions;

(10) Any wastewater of unusual volume of flow or concentration of wastes constituting "slugs";

(11) Pollutants which will cause a fire or explosion hazard in the POTW including, but not limited to, wastestreams with a closed cup flashpoint of less than one hundred forty degrees Fahrenheit (sixty degrees Centigrade) using the test methods specified in 40 CFR 261.21, or amendments thereof;

(12) Waters and wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of agencies having jurisdiction over discharge to the receiving waters, or any substance which may cause

the sewage treatment plant effluent or any other product of the municipal sewer system such as residues, sludges or scums to be unsuitable for reclamation and reuse or to interfere with the reclamation process. In no case shall a substance discharged to the municipal sewer system cause the sewage treatment plant to be in noncompliance with sludge use or disposal criteria, guidelines, or regulations developed under Section 405 of the Act; any criteria, guidelines or regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, the Clean Air Act, the Toxic Substances Control Act or state criteria applicable to the sludge management method being used;

(13) Any wastes contributed by users of the POTW which either singly or in conjunction with other significant industrial users cause the POTW influent to exceed the following limits:

Parameter Daily Maximum (lbs/day)	
Cyanide, total	7:23
Copper	56.21
Nickel	36.50
Chromium	84.72
Silver	24.26
Zinc	162.70
Lead	1.65
Cadmium	3.95
Mercury	.310
Arsenic	5.316
Molybdenum	5.39
Phenol compounds	80.5

Any waste exceeding the following limits:

ParameterDaily Maximum (mg/L)	
Sulfide	1.0

(14) The amounts of the listed pollutants calculated in pounds shall be allocated to each industrial user based on the industrial user's average daily discharge flow volume contributed to the municipal sewer system. The average shall be based upon the industrial user's daily discharge flow. It shall be calculated twice per year using the first six months average daily flow for the second half, and the last six months of the year for the following year. Concentration limits in milligrams per liter (mg/L) shall be applied to each industrial user based on the following discharge flow categories.

Industrial User
Daily Discharge Flow
Category
(gals/day)

1	0—10,000
2	10,001—20,000
3	20,001—30,000
4	30,001—60,000
5	60,001—100,000
6	100,001—200,000
7	200,001—500,000
8	Greater than 500,000

At least annually, the director shall determine which category applies to each industrial user and distribute the amounts of pollutants, calculated in pounds, applying a concentration limit in the industrial users wastewater discharge permit. If an industrial user significantly changes the amount of wastewater discharged to the sanitary sewer, causing the user to change categories, the user must notify the director at least thirty days prior to implementing the change;

(15) Any wastes which exhibit toxicity characteristics based on the bioassay test that causes a fifty percent reduction of the luminescent microorganisms light output (EC50). When using the Microtox bioassy test, the wastewater must not exhibit an EC50 toxicity value of less than 1.9 within the five minute test period, in two consecutive tests taken in a forty-eight hour period;

(16) All industrial and commercial facilities using silver in manufacturing or as a part of a process operation, including but not limited to, the development and/or print-

ing of photographic pictures or x-rays, precious metal plating, or any operation where silver is reasonably expected to be found in the facilities' wastewater, shall not discharge silver bearing wastewater to the POTW without first treating the wastewater to remove the silver or subjecting the wastewater to a silver recovery process, or disposing the silver bearing wastewater at an approved disposal location; These facilities shall follow the guidelines listed in the *City of Wichita Code of Management Practices for Silver and Mercury Dischargers.*

(17) Any substances, materials, water or wastes which will cause interference with or pass through the POTW;

(18) Substances, materials, water or wastes which are hazardous as defined by 40 CFR: Part 261.21 (ignitable), Part 261.22 (corrosive), Part 261.23 (reactive), Part 261.24 (EP toxic), Part 261.31 (hazardous waste from nonspecific source), and Part 261.32 (hazardous waste from specific source);

(19) Any trucked or hauled wastewater, except at discharge points designated by the POTW. All waste haulers shall conform to the regulations set forth in Chapter 7.08 of this Code;

(20) All industrial and commercial facilities using mercury in manufacturing, or as a part of a process operation, including but not limited to, the replacing and restoring dental amalgam fillings, using mercury compounds in laboratory reagents, or using mercury bearing measuring devices such as thermometers and sphygmomanometers, or any operation where mercury is reasonably expected to be found in the facilities' wastewater, shall not discharge mercury bearing wastewater to the POTW without first treating the wastewater to remove the mercury, or disposing the mercury-bearing wastewater at an approved disposal location; These facilities shall follow the guidelines listed in the *City of Wichita Code of Management Practices for Silver and Mercury Dischargers;*

(21) Any wastes containing Aqueous Fire Fighting Foam in the amount that results in foam in the collection system or the treatment process in quantities that result in POTW interference and or pass through and inhibits the nitrification process at the POTW.

(Ord. 43-772 §§ 2, 4 (part); Ord. No. 46-888, § 2, 2-14-06)

Sec. 16.22.070. Pretreatment requirement.

If any waters or wastes are discharged or are proposed to be discharged, into the municipal sewer system, which waters contain the substances or possess the characteristics enumerated in this chapter, and which in the judgment of the director may have a deleterious effect upon the sewerage works, sewage treatment processes, equipment or receiving waters, present an imminent endangerment to the health and welfare of persons, or which otherwise create or constitute a public nuisance, the director may, after informal notification to the user:

(1) Reject the waste or immediately take measures to halt or prevent any discharge of pollutants to the POTW;

(2) Require pretreatment to an acceptable condition for discharge;

(3) Require control over the quantities and rates of discharge; and/or

(4) Require payment to cover the added cost of handling and treating the wastes.

Any person notified of a suspension of the wastewater treatment service and/or the wastewater discharge permit shall be subject to the enforcement conditions set forth in this chapter.

If the director permits the pretreatment or equalization of waste flows, the design and installation of the plants and/or equipment shall be subject to the review and approval of the director. Plans and specifications shall be submitted for review and approval prior to beginning any building or construction, and subject to the require-

ments of all applicable local, state and federal laws, regulations, codes and ordinances. Where pretreatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 7)

Sec. 16.22.075. Bypass.

(a) A bypass of the industrial user's pretreatment facility is prohibited and upon occurrence, subject to the enforcement action described in Section 16.22.290, unless bypass did not violate applicable pretreatment standards and requirements and meets each of the following requirements:

(i) Bypass was unavoidable to prevent the loss of life, personal injury, or severe property damage;

(ii) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated waste or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate backup equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

(iii) The industrial user submitted notices as required by subsections (b) and (c) of this section.

(b) If an industrial user knows in advance of the need for a bypass, it shall submit prior notice to the city, if possible, at least ten days before the date of the bypass.

(c) An industrial user shall submit oral notice of an unanticipated bypass that exceeds applicable pretreatment standards to the city within twenty-four hours from the time the industrial user becomes aware of the bypass. A written submission shall be provided within five days of the time the industrial user becomes aware of the bypass. The written submission shall contain a description of the bypass and its cause; the duration of the bypass, including exact dates and times; analytical results of the bypass effluent; if the bypass has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the bypass. All analysis will be performed by a laboratory certified by KDH&E in accordance with procedures established by the approval authority pursuant to Section 304(g) of the Act and contained in 40 CFR Part 136 and amendments thereto. Notification does not preclude the industrial user from any penalties the city may seek if pretreatment standards are exceeded.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 8)

Sec. 16.22.080. Federal categorical pretreatment standards.

Upon the promulgation of the federal categorical pretreatment standards for a particular industrial subcategory, the federal standard, if more stringent than limitations imposed under this chapter for sources in that subcategory, shall immediately supersede the limitations imposed under this chapter. The director shall notify all affected users of the applicable reporting requirements under 40 CFR Section 403.12, as amended; and 40 CFR. Chapter I, Subchapter N, Parts 400—471.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 9)

Sec. 16.22.090. Compliance date report.

Within ninety days following the date for final compliance with applicable pretreatment standards or, in the case of a new source, following commencement of the introduction of wastewater into the POTW, any user subject to pretreatment standards and requirements shall submit to the director a report indicating the nature and concentration of all pollutants in the discharge from the regulated process which are limited by pretreatment standards and requirements and the average and maximum daily flow for these process units in the user's facility which are limited by such pretreatment standards or requirements. All sampling and analyses shall be performed by a laboratory certified by KDH&E in accordance with procedures established by the approval authority pursuant to Section 304(g) of the Act and contained in 40 CFR Part 136, and amendments

thereto, or with any other test procedures approved by the approval authority. The report shall state whether the applicable pretreatment standards or requirements are being met on a consistent basis and, if not, what additional operations and maintenance and/or pretreatment is necessary to bring the user into compliance with the applicable pretreatment standards or requirements. This statement shall be signed by an authorized representative of the industrial user, and certified to by a licensed professional engineer in the state.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 10)

Sec. 16.22.100. Periodic compliance report.

Any user subject to categorical pretreatment standards under 40 CFR Section 403.6 and 40 CFR, Chapter I, Subchapter N. Parts 400—471, or any significant industrial user, after the compliance date of a pretreatment standard or, in the case of a new source, after commencement of the discharge into the POTW, shall submit to the director during the months of June and December, unless required more frequently in the pretreatment standard or by the director, a report indicating the nature and concentration of pollutants in the effluent which are limited by such pretreatment standards. At the discretion of the director and in consideration of such factors as local high or low flow rates, holidays, budget cycles, etc., the director may agree to alter the months during which the above reports are to be submitted. The director may impose mass limitations on users, where the imposition of mass limitations are appropriate, to meet applicable pretreatment standards or requirements. All analysis shall be performed by a laboratory certified by KDH&E in accordance with procedures established by the approval authority pursuant to Section 304(g) of the Act and contained in 40 CFR, Part 136, and amendments thereto, or with any other test procedures approved by the approval authority. Sampling shall be performed in accordance with the techniques approved by the approval authority. If sampling performed by the industrial user indicates a violation, the user shall notify the city within twenty-four hours of becoming aware of the violation. The user shall also repeat the sampling and submit the results to the city within thirty days of becoming aware of the violation.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 11)

Sec. 16.22.110. Monitoring facilities.

The city shall require monitoring facilities to be provided and operated at the user's own expense and to allow inspection, sampling and flow measurement of the building sewer and/or internal drainage systems. The monitoring facility should normally be situated on the user's premises, but the city may, when such a location would be impractical or cause undue hardship on the user, allow the facility to be constructed in the public right-of-way and located so that it will not be obstructed by landscaping or parked vehicles. There shall be ample room in or near such sampling manhole or facility to allow accurate sampling and preparation of samples for analysis. The facility, sampling and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the user. Whether constructed on public or private property sampling and monitoring facilities shall be provided in accordance with the city's requirements and an applicable local construction standards and specification. Construction shall be completed within ninety days following written notification by the city.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 12)

Sec. 16.22.120. Inspection and sampling.

The city may inspect the facilities of any user to ascertain whether the purpose of this chapter is being met and all requirements are being complied with. Persons or occupants of premises where wastewater is created or discharged shall allow the city or its representatives ready access at all reasonable times to all parts of the premises for the purposes of inspection, sampling, records examination, or in the performance of any of their duties. The city shall have the right to copy any records relevant to sampling, monitoring activity, analytical results, or any other phase of pretreatment compliance. The city, KDH&E and the EPA shall have the right to install on the user's property such devices as are necessary to conduct sampling inspection, compliance monitoring and/or

metering operations. Where a user has security measures in force which would require proper identification and clearance before entry into their premises, the user shall make necessary arrangements with their security guards so that upon presentation of suitable identification, personnel from the city, KDH&E, and EPA will be permitted to enter, without delay, for the purposes of performing their specific responsibilities. All costs associated with this section shall be borne by the user.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 13)

Sec. 16.22.130. Excessive discharge, slug discharge, changed discharge, hazardous waste discharge, accidental discharge, and storage of dangerous materials.

(1) No user shall increase the use of process water or in any way attempt to dilute a discharge as a partial or complete substitute for adequate treatment to achieve compliance with the limitations contained in the federal categorical pretreatment standards, or in any other pollutant specific limitation developed by the city or state.

(2) The industrial user shall notify and receive permission from the city prior to discharging any slug or noncustomary batch discharge. Based on its evaluation, the city reserves the right to deny the request. The city will evaluate, at least every two years, the need for every industrial user to submit a spill prevention and control plan to prevent slug discharges. At a minimum, the plan shall include:

(a) Description of discharge practices, including nonroutine batch discharges;

(b) Description of stored chemicals;

(c) Procedure for immediately notifying the POTW of slug discharges, including any discharge that would violate a prohibition under Section 16.22.060, with procedures for follow-up written notification within five days as described in subsection (4)(a) of this section.

(d) Procedures to prevent adverse impact from accidental spills, including inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations, control of plant site run-off, worker training, containment structures or equipment plans, toxic organic pollutants management plan, and measures and equipment for emergency response.

(3) All industrial users shall promptly notify the POTW in advance of any substantial change in the volume or characteristics of pollutants in their discharge. The industrial user shall notify the POTW, the EPA, and KDN&E hazardous waste authorities in writing of any discharge into the POTW of a substance, which, if otherwise disposed of, would be hazardous waste under 40 CFR Part 261. Such notification, at a minimum, shall include: the name of the hazardous waste as set forth in 40 CFR Part 261, the EPA hazardous waste number, and the type of discharge (continuous, batch, or other). The discharging of such wastes is prohibited without the approval of the director.

(4) In the case of an accidental discharge, it is the responsibility of the user to immediately notify the director of the incident. The notification shall include location of discharge, type of waste, concentration and volume and corrective actions. Each user, subject to the requirements of this chapter, may be required to provide protection from accidental discharge of prohibited materials or other substances regulated by this chapter. Facilities to prevent accidental discharge, if required, will be provided and maintained at the user's own cost and expense. Detailed plans, showing facilities and operating procedures to provide this protection, will be submitted to the city for review and approval before construction of the facility. Review and approval of such plans and operating procedures shall not relieve the user from the responsibility to modify the user's facility as necessary to meet the requirements of this chapter.

(a) Written Notice. Within five days following an accidental discharge the user shall submit to the director a detailed written report describing the cause of the discharge and the measures to be taken by the user to prevent similar future occur-

rences. Such notification shall not relieve the user of any expense, loss, damage or other liability which may be incurred as a result of damage to the municipal sewer system, fish kills or other damage to persons or property. Such notification shall not relieve the user of any fines, civil penalties or other liability which may be imposed by this or other applicable law.

(b) Notice to Employees. A notice shall be permanently posted on the user's bulletin board or other prominent place advising employees whom to call in the event of a dangerous discharge. Employers shall ensure that all employees who may cause or suffer such a dangerous discharge to occur are advised of the emergency notification procedure.

(5) The storage of material in sewered areas or in areas draining into the municipal sewer system which, because of discharge or leakage from such storage, may create an explosion hazard in sewerage works or in any other way have a deleterious effect upon these works, treatment processes, or constitute a hazard to human health, animals, or the receiving stream, shall be subject to review of the director, who at his discretion may require reasonable safeguards to prevent discharge or leakage of such materials.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 14)

Sec. 16.22.140. Unlawful discharge.

No significant industrial user shall discharge any wastewater into the POTW contained within the jurisdiction of the city without a wastewater discharge permit.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 15)

Sec. 16.22.150. General permits.

All significant industrial users proposing to connect or contribute to the POTW shall obtain a wastewater discharge permit before connecting to or contributing to the POTW. All existing significant industrial users connected to or contributing to the POTW shall obtain a wastewater discharge permit within one hundred eighty days after the effective date of the ordinance codified in this chapter.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 16)

Sec. 16.22.160. Permit provisions.

Wastewater discharge permits shall be expressly subject to all provisions of this chapter and all other applicable state and federal regulations, and user charges and fees established by the city. Permits shall contain the following:

(1) Statement of duration, in no case more than five years;

(2) Statement of nontransferability without prior notification to the director and provision of a copy of the existing wastewater discharge permit to the new owner or operator;

(3) Limits on the average and maximum wastewater constituents and characteristics based on applicable pretreatment standards, categorical pretreatment standards, local limits, and state or local law;

(4) Limits on average and maximum rate and time of discharge or requirements for flow regulations and equalization;

(5) Requirements for installation and maintenance of inspection and sampling facilities;

(6) Specifications for monitoring programs which may include sampling locations, frequency of sampling, number, types and standards for tests and reporting schedule;

(7) Compliance schedules;

(8) Requirements for submission of technical reports or discharge reports, including reports encompassing self-monitoring, sampling, reporting, notification, and record keeping requirements;

(9) Requirements for maintaining and retaining plant records relating to wastewater discharge as specified by the director, and affording director access thereto;

(10) Requirements for notification of the director prior to any new introduction of wastewater constituents or any substantial change in the volume or character of the wastewater constituents being introduced into the municipal sewer system;

(11) Requirements for notification of slug discharge;

(12) Statement of applicable civil and criminal penalties for violation of pretreatment standards and requirements, and any applicable compliance schedule;

(13) Other conditions as deemed appropriate by the director to ensure compliance with this chapter.

Other discharge limits may be established as determined by the director or resulting from modifications to current regulations. A new wastewater discharge permit shall be required if the character of waste is changed from that described on the permit application.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 17)

Sec. 16.22.170. Permit application.

Users required to obtain a wastewater discharge permit shall complete and file with the city an application in the form prescribed by the city. In support of the application, the user may be required to submit all of the following information:

(1) Name, address and location (if different from the address);

(2) SIC number according to the Standard Industrial Classification Manual, Bureau of the Budget, 1972, as amended;

(3) Wastewater constituents and characteristics including, but not limited to, those mentioned in this chapter as determined by an analytical laboratory certified by KDH&E; sampling and analysis shall be performed in accordance with the procedures established by the EPA pursuant to Section 304(g) of the Act and contained in 40 CFR, Part 136, as amended;

(4) Time and duration of contribution;

(5) Average daily and three-minute peak wastewater flow rates, including daily, monthly and seasonal variations if any;

(6) Site plans, floor plans, mechanical and plumbing plans and details to show all sewers, sewer connections and appurtenances by the size, location and elevation;

(7) Description of activities, facilities and plant processes on the premises including all materials which are or could be discharged,

(8) The nature and concentration of any pollutants in the discharge which are limited by any city, state or federal pretreatment standards and a statement regarding whether or not the pretreatment standards are being met on a consistent basis and if not, whether additional operations and maintenance (O&M) and/or additional pretreatment is required for the user to meet applicable pretreatment standards;

(9) If additional pretreatment and/or O&M will be required to meet the pretreatment standards, the shortest schedule by which the user will provide such additional pretreatment. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard; and in addition, the following conditions shall apply to this schedule:

(a) The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the user to meet the applicable pretreatment standards (e.g., selecting a consulting engineer, completing preliminary plans, completing final plans, executing contract for major components, commencing construction, completing construction, plant start-up, etc).

(b) No increment referred to in subsection (9)(a) of this section shall exceed nine months.

(c) Not later than fourteen days following each date in the schedule and the final date for compliance, the user shall submit a progress report to the director including, as a minimum, whether or not it complied with the increment of progress to be met on such date and, if not, the date on which it expects to comply with this increment of progress, the reason for the delay, and the steps being taken by the user to return the construction to the schedule established. In no event shall more than nine months elapse between such progress reports to the director;

(10) Each product produced by type, amount, process or processes and rate of production;

(11) Type and amount of raw materials processed (average and maximum per day);

(12) Number and type of employees and hours of operation of plant and proposed or actual hours of operation of pretreatment system;

(13) Any other information as may be deemed by the city to be necessary to evaluate the permit application. The city will evaluate the data furnished by the user and may require additional information. After evaluation and acceptance of the data furnished, the city may issue a wastewater discharge permit subject to the terms and conditions provided herein.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 18)

Sec. 16.22.180. Permit issuance.

If, after examining the information contained in the wastewater discharge permit application, it is determined by the director that the characteristics of the existing or proposed discharge do not conflict with the provisions of this chapter and the permit fee is paid, a discharge permit shall be issued allowing the discharge of such wastes into the city sewers. Each discharge permit shall be issued for a time not longer than five years from the date of the permit. The user shall apply for permit reissuance a minimum of ninety days prior to the expiration of the user's existing permit. The terms and conditions of the permit may be subject to modification by the city during the term of the permit as limitations or requirements as identified in this chapter are modified or other just causes exist. The user shall be informed of any proposed changes in his permit at least thirty days prior to the effective date of change. Any changes or new conditions in the permit shall include a reasonable time schedule for compliance.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 19)

Sec. 16.22.190. Request for determination of categorical or subcategorical standard pursuant to 40 C.F.R. 403.6.a.

Within sixty days after the effective date of a pretreatment standard, for a subcategory under which a user may be included, the user may submit to the approval authority an application for determination of that particular category or subcategory. Each application shall contain:

(1) A statement describing the subcategories that may be applicable;

(2) Evidence and reasons why one or more subcategories are not applicable; and

(3) An oath stating the facts therein are true on the basis of the applicant's personal knowledge or to the best of the applicant's information and belief.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 20)

Sec. 16.22.200. Variance of categorical standard pursuant to 40 C.F.R. 403.13.

Within one hundred eighty days after the effective date of a pretreatment standard, for a subcategory under which a user may be included, the user may submit to the approval authority a variance request for the establishment of limits less stringent than required by the standard. The variance request shall be submitted on the basis of factors which are fundamentally different from

the factors considered during development of a categorical pretreatment standard. Each submission shall include:

(1) The name and address of the user;

(2) The specific categorical standards which are applicable;

(3) A list of each pollutant or pollutant parameter for which an alternative discharge limit is sought;

(4) The alternative discharge limits proposed; and

(5) A statement of facts clearly establishing why the variance request should be approved, including detailed support date, documentation, and evidence necessary to fully evaluate the merits of the request.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 21)

Sec. 16.22.210. Permit modifications.

Within nine months of the promulgation of a national categorical pretreatment standard, the wastewater discharge permit of the users subject to such standards shall be revised to require compliance with such standard within the time frame prescribed by such standard. Where a user, subject to a national categorical pretreatment standard, has not previously submitted an application for a wastewater discharge permit, the user shall apply for a wastewater discharge permit within one hundred eighty days after the promulgation of the applicable national categorical pretreatment standard. In addition, the user with an existing wastewater discharge permit shall submit to the director within one hundred eighty days after the promulgation of an applicable federal categorical pretreatment standard, the information required by the director to verify compliance.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 22)

Sec. 16.22.220. Permit transfer.

Wastewater discharge permits are issued to a specific user for a specific operation. A wastewater discharge permit shall not be reassigned or transferred or sold to a new owner, new user, different premises, or a new or changed operation without the approval of the director.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 23)

Sec. 16.22.230. Denial of application.

If it is determined by the director that the characteristics of the wastes are not in compliance with the provisions of this chapter, the application may be denied and the applicant advised by the director of steps which must be taken to ensure compliance with the provisions of this chapter.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 24)

Sec. 16.22.240. Revocation of permit.

Wastewater discharge permits may be revoked by the director under the procedures of this chapter if the discharge is not in compliance with the provisions of this chapter, upon giving the holder thirty days' written notice of the basis for the revocation. A holder may request a hearing prior to revocation under the procedures of Section 16.22.280. Failure of a user to factually report the characteristics of his discharges, or significant changes in operations, or wastewater constituents and characteristics, refusal of reasonable access to the user's premises for the purpose of inspection or monitoring, as well as violation of conditions of the permit may be grounds for permit revocation.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 25)

Sec. 16.22.250. Permit fees.

Processing fees for wastewater discharge permits, and renewal of such discharge permits shall be set by the director. The fees shall be based upon the cost of field, administrative, engineering, and clerical expenses involved, but shall not be less than one hundred dollars for each permit. If laboratory analyses under Section 16.22.120 are necessary to determine the industrial user's wastewater discharge pollutant concentration for permit status, those analytical costs shall be borne by the user, in addition to the permit fee.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 26)

Sec. 16.22.260. Emergency suspensions.

The city may suspend the wastewater treatment service or a wastewater discharge permit when such suspension is necessary, in the opinion of the director, in order to stop an actual or threatened discharge which presents or may present an imminent or substantial endangerment to the health or welfare of persons or to the environment, causes interference to the POTW, or causes the city to violate any condition of its NPDES permit.

Any person notified of a suspension of the wastewater treatment service and/or the wastewater discharge permit shall immediately stop or eliminate the contribution. In the event of a failure of the person to comply voluntarily with the suspension order, the city shall take such steps as deemed necessary, including immediate termination of water service to prevent or minimize damage to the POTW system or sewer connection, or endangerment to any individuals. The city shall reinstate the wastewater discharge permit and/or the wastewater treatment service when such conditions causing the suspension have passed or been eliminated. A detailed written statement submitted by the user describing the causes of the harmful contribution and the measures taken to prevent any future occurrence shall be submitted to the city within fifteen days of the date of occurrence.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 27)

Sec. 16.22.270. Administrative enforcement actions.

(a) Notice of Violation. Whenever the city finds that any user has violated or is violating this chapter, wastewater discharge permit, or any prohibition, limitation or requirements contained herein, the city may serve upon such user a written notice stating the nature of the violation. Within thirty days of the date of notice, a plan for the satisfactory correction thereof shall be submitted to the city by the user.

(b) Administrative Order. When the director finds that an industrial user has violated or continues to violate the provisions set forth in this chapter, or the user's permit or order issued thereunder, the director may issue an order for compliance to the industrial user responsible for the discharge. Orders may contain any requirements as might be reasonably necessary and appropriate to address the noncompliance, including, but not limited to, the installation of pretreatment technology, additional self-monitoring, and management practices.

(c) Consent Order. The director is empowered to enter into consent orders, assurances of voluntary compliance, or other similar documents establishing an agreement with the industrial user responsible for noncompliance. Such orders will include specific action to be taken by the user to correct the noncompliance within a time period specified by the order. Consent orders shall have the same force and effect as administrative orders issued pursuant to subsection (b) of this section.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 28)

Sec. 16.22.275. Administrative penalties.

Notwithstanding any other remedies or procedures available to the city, any user who is found to have violated any provision of this chapter, or any permit or order issued hereunder, may be assessed an administrative penalty of not to exceed one thousand dollars per violation. Each day on which noncompliance shall occur or continue shall be deemed a separate and distinct violation. Such assessment may be added to the user's next scheduled sewer service charge and the director shall have such other collection remedies as are available at law.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 29)

Sec. 16.22.280. Request for hearing and appeal.

(a) Hearing. Any person affected by a penalty, order, or directive of the city issued pursuant to this chapter may, within ten days of the issuance of such penalty, order, or directive, request a hearing before the director to show cause why such should be modified or made to not apply to such person. Such request shall be in writing and addressed to the director at 455 North Main Street, Wichita, Kansas. The director or a designee shall hold the requested hearing as soon as practical after receiving the request, at which time the person affected shall have an opportu-

nity to be heard. At the conclusion of the hearing, the director shall issue a written response to the person requesting the hearing affirming, modifying, or rescinding the penalty, order, or directive at issue.

(b) Appeal. Any person aggrieved by the decision of the director may appeal such decision to the city council within ten days of the receipt of the decision by filing notice of appeal with the city clerk. Upon hearing, the city council may affirm, modify, or reverse the decision of the director. Any appeal of the council's decision shall be as provided by state law.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 30)

Sec. 16.22.290. Legal action.

Notwithstanding any other remedies or procedures available to the city, if any person discharges sewage, industrial wastes, or other wastes into the city's municipal sewer system contrary to the provisions of this chapter or any permit or order issued hereunder, the city attorney may commence an action for appropriate legal or equitable relief including damages and costs in the district court of Sedgwick County. Whenever a user has violated or continues to violate the provisions of this chapter or any permit or order issued hereunder, the city attorney may seek a preliminary or permanent injunction or both which restrains or compels the activities on the part of the user.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 31)

Sec. 16.22.300. Falsifying information.

Falsifying information is a separate offense and deemed a misdemeanor. Any person who knowingly makes any false statements, representation or certification in any application, record, report, plan, or other document filed or required to be maintained pursuant to this chapter or wastewater discharge permit, or who falsifies, tampers with or knowingly renders inaccurate any monitoring device or method required under this chapter, shall, upon conviction, be punished by a fine of not more than one thousand dollars or by imprisonment for not more than six months or by both.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 32)

Sec. 16.22.310. News release.

In June and December of each year, the city shall notify the public of industrial users which at any time during the previous six months were in significant noncompliance with the applicable pretreatment requirements. For the purposes of this section, an industrial user is in significant noncompliance as defined in Section 16.22.040. Such notice shall be in the largest daily newspaper published in the city. That notification will also summarize any enforcement actions taken against such industrial user during the same six-month period.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 33)

Sec. 16.22.320. Record keeping requirement.

(1) Any industrial user subject to the reporting requirements established in this chapter shall maintain records of all information resulting from any monitoring activities required by this chapter. Such records shall include for all samples:

(a) The date, exact place, method, and time of sampling and the names of the person or persons taking the sample;

(b) The dates analyses were performed;

(c) Who performed the analysis;

(d) The analytical techniques and methods used; and

(e) The results of such analysis.

(2) Any industrial user subject to the reporting requirements established in this chapter shall be required to retain for a minimum of three years any records of monitoring activities and results (whether or not such monitoring activities are required by this section) and shall make such records available for inspection and copying by the director and the regional administrator. This period of retention shall be extended during the course of any unresolved litigation regarding the industrial user or the POTW when requested by the director or the regional administrator.

(3) All records relating to compliance with pretreatment standards shall be made available to officials of the EPA or KDH&E upon request.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 34)

Sec. 16.22.330. Entrance to properties.

The director and other duly authorized employees of the city, KDH&E, and EPA, bearing proper identification shall be permitted to enter a user's premises for the purpose of inspection, observation, measurement, sampling and testing of wastewater in accordance with provisions of this chapter. Where a user has security measures in force which would require proper identification and clearance before entry onto the premises, the user shall make all necessary arrangements with their security personnel to ensure unrestricted access of authorized persons. Entry shall be made in such a manner as to cause minimal inconvenience to the persons in possession. In the event entry is denied or restricted, the director and/or duly authorized employees of the city shall obtain a search warrant for the purposes of this section from a court of competent jurisdiction. The director, his representatives, KDH&E and EPA shall have authority to inquire into any industrial process which is suspected of producing a solid, semisolid, or liquid waste in the user's discharge to the POTW that may be a violation of this chapter. While performing the necessary work on private properties referred to in this section, the director or duly authorized employees of the city, KDH&E, and EPA shall observe all safety rules applicable to the premises established by the user.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 35)

Sec. 16.22.340. Right to access over easement.

The director and other duly authorized employees of the city, KDH&E, and EPA bearing proper credentials and identification shall be permitted to enter all private properties through which the city holds an easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, operation and maintenance of any portion of the sewerage works (municipal sewer system) lying within said easement. All entry and subsequent work if any, on said easement, shall be done in full accordance with the terms of the easement pertaining to the private property involved.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 36)

Sec. 16.22.350. Use of confidential material.

Information and data on a user obtained from reports, questionnaires, permit applications, permits and monitoring programs and from inspections shall be available to the public without restriction unless the user specifically requests and is able to demonstrate to the satisfaction of the city that the release of such information would divulge information, processes or method of production entitled to protection as trade secrets of the user and qualifies for exemption from disclosure under the Kansas Open Records Acts. Such material exempt from disclosure shall be deemed confidential but shall be made available upon written request to governmental agencies for uses related to this chapter, the city's NPDES permit, or the pretreatment program and shall be available for use by any state or federal agency in judicial review or enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics will not be recognized as confidential information. Information, accepted by the city as confidential, shall not be transmitted to any governmental agency (excluding the approval authority who has immediate access to all information in the city's possession regarding all pretreatment activities relative to this chapter) or to the general public by the city until and unless a ten-day notification is given to the user.
(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 37)

Sec. 16.22.360. Reporting and signatory requirements.

(1) If additional pretreatment or operations and maintenance will be required to meet the pretreatment standards, the user shall submit to the city a compliance schedule by which the industrial user will provide such additional pretreatment. The completion date in this schedule shall not be later than the compliance standard established for the applicable pretreatment standard; and in addition, the following conditions shall apply to this schedule:

(a) The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment re-

quired for the user to meet the applicable pretreatment standards (e.g., selecting a consulting engineer, completing preliminary plans, completing final plans, executing contract for major components, commencing construction, completing construction, and plant start-up).

(b) The total time allowed for completion of all increments of progress in the schedule shall not exceed thirty months.

(c) Not later than fourteen days following each date in the schedule and the final day for compliance, the industrial user shall submit a progress report to the director including, as a minimum, whether or not it complied with the increment of progress to be met on such date and, if not, the date on which it expects to comply with this increment of progress, the reason for the delay, and the steps by the industrial user to return the construction to the schedule established.

(2) Pursuant to the requirements of 40 CFR 403.12, as amended, the industrial user shall submit to the city all required reports, including baseline monitoring reports, compliance schedules, progress reports, permit application, ninety-day compliance reports, self-monitoring reports, or any other technical or discharge reports as directed by the city.

(3) All reports required under this section shall include a certification statement as set forth below, and shall be signed by an authorized representative of the industrial user:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violation.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 38)

Sec. 16.22.370. Criminal penalties.

Any person who shall be convicted of violating any provision of this chapter or any permit or order issued hereunder shall be deemed guilty of a misdemeanor and shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than six months or by both. Each day that any such violation occurs shall constitute a separate offense and shall be punishable as a separate violation. If upon trial of any person found guilty of a misdemeanor hereunder, it shall appear to the court that the violation complained of is continuing, the court shall enter such order as it shall deem appropriate to cause the violation to be abated. The provisions of this section are independent of and in addition to any administrative or other legal action that may be taken by the city under the provisions of this chapter.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 39)

Sec. 16.22.380. Separability.

If any part or parts of this chapter shall be held to be invalid, such invalidity shall not affect the remaining parts of this chapter. The governing body declares that it would have passed remaining parts of this chapter if it had known that such part or parts thereof would be declared invalid.

(Ord. No. 43-772 § 4 (part); Ord. No. 41-354 § 40)

CHAPTER 16.24. CONTROL OF FATS, OILS, AND GREASE IN FOOD SERVICE ESTABLISHMENTS*

Sec. 16.24.010. Definitions.
Sec. 16.24.020. General criteria—Waste discharge requirements.
Sec. 16.24.025. General criteria—Design and approval.
Sec. 16.24.030. General criteria—Location.
Sec. 16.24.040. General criteria—Gravity grease interceptor size.
Sec. 16.24.050. Installation requirements.
Sec. 16.24.060. Grease interceptor maintenance.
Sec. 16.24.070. Permit requirements.
Sec. 16.24.075. Administrative requirements.
Sec. 16.24.080. Monitoring, inspection and entry.
Sec. 16.24.090. Emergency suspension of services.
Sec. 16.24.100. Violation.
Sec. 16.24.105. Enforcement.
Sec. 16.24.110. Administrative penalty.
Sec. 16.24.120. Request for hearing and appeal.
Sec. 16.24.130. Authorization.
Sec. 16.24.140. Criminal penalties.
Sec. 16.24.150. Severability.

Sec. 16.24.010. Definitions.

Unless otherwise expressly stated, or the context clearly indicates a different intention, the following terms shall, for the purpose of this chapter, have the meaning indicated in this section:

(a) "Automatic grease removal device" means units, which use devices such as belts, wheels, or skimmers to actively remove the floatable grease from the waste stream. Typical devices include a moving belt entering and exiting a trapped volume of wastewater. The mechanism captures the grease, which is deposited into a separate holding container.

(b) "Building discharge line system" means a sewer line or lines maintained and controlled by private persons for the purpose of conveying sewage from the waste producing location to the sanitary sewer collection system.

(c) "Common grease interceptor" means an interceptor to which grease wastes are directed from more than one facility having different operators or type of operations, such as in a multi-tenant building.

(d) "Drainage fixture unit" (DFU) means a measurement unit for potential water use for a given plumbing fixture or appliance, as provided for in the International Plumbing Code and the Uniform Plumbing Code.

(e) "Director" means the director of Public Works & Utilities, or designee, who has been given the administrative authority to enforce this chapter.

(f) "Fats, oils, and grease program" means the division of Public Works & Utilities responsible for controlling the amount of grease contributed from food service establishments which may impact the POTW.

(g) "Food service establishment" means any facility which cuts, cooks, bakes, prepares or serves food, or which disposes of food-related wastes; including, but not limited to, food manufacturers and packagers, restaurants, grocery stores, bakeries, lounges, hospitals, hotels, nursing homes, churches, schools, festivals, and amusement parks.

(h) "Garbage grinder" means a device, which shreds or grinds up solid or semisolid waste materials into smaller portions for discharge into the sanitary sewer collection system.

(i) "Generator" means a user, by site, who produces wastes from the user's process operations. The generator is responsible for assuring that the produced waste is disposed of in accordance with all federal, state and local disposal regulations.

(j) "Gravity grease interceptor" means a device that is constructed to intercept

*__Editor's note—__Ord. No. 51-064, § 1, adopted July 23, 2019, repealed the former Ch. 16.24, §§ 16.24.010, 16.24.020, 16.24.025, 16.24.030—16.24.070, 16.24.075, 16.24.080—16.24.100, 16.24.105, 16.24.110—16.24.150, and enacted a new Ch. 16.24 as set out herein. The former Ch. 16.24 pertained to grease interceptor requirements for the sanitary sewer system. The historical notes of said sections have been preserved for reference purposes.

oily and greasy wastes from a food service establishment kitchen and food preparation area. Typical installation is located outside and in-ground as close to the kitchen fixtures as possible while allowing for accessibility for inspections and maintenance.

(k) "Grease" means a material composed primarily of fatty matter from animal or vegetable sources or from hydrocarbons of petroleum origins. The terms "oil and grease" or "oil and grease substances" shall be deemed as grease by definition.

(l) "Grease interceptor" means a plumbing appurtenance that is installed in a sanitary drainage system to intercept oily and greasy wastes from a wastewater discharge. The device is constructed as to intercept, separate and hold, free-floating oil and grease substances in order to keep oil and grease substances from entering the sanitary sewer collection system.

(m) "Multi-tenant building" means a facility with spaces for two or more tenants, including but not limited to strip centers, office buildings, and shopping malls.

(n) "NPDES" means National Pollution Discharge Elimination System under which the city's wastewater treatment plant is permitted.

(o) "POTW" means publicly owned treatment works or "treatment works" as defined by Part 40 Section 260.10 of the Code of Federal Regulations, which is owned or operated in this instance by the city. This definition includes any sewers or pipes that convey wastewater to the city sewage treatment plants.

(p) "Pretreatment administrator" means an individual employed by the Wichita Water-Utilities who is charged with the responsibility of administering the provisions of the pretreatment program to ensure compliance by users with applicable laws, rules, regulations, resolutions and ordinances relative to the concentration(s) of substances found in the waste stream of facilities connected to the POTW.

(q) "Sewage" means the liquid and water-carried domestic or industrial wastes from dwellings, commercial establishments, industrial facilities and institutions, whether treated or untreated. The terms "waste" and "wastewater" shall be deemed as sewage by definition.

(r) "Transporter" is a user who transfers waste from the site of a generator to an approved site for disposal or treatment. The transporter is responsible for assuring that all federal, state and local regulations are followed regarding waste transport.

(s) "Hydro mechanical grease interceptors" means a device placed under or in close proximity to sinks or other fixtures likely to discharge grease to intercept, separate, or hold oil and grease substances to prevent their entry into the sanitary sewer collection system. These interceptors are identified by flow rate, separation and retention efficiency.

(t) "User" means the owner or operator of a facility meeting or coming under the herein-described food service categories.

(u) "Waste" means the liquid and water-carried domestic or industrial wastes from dwellings, commercial establishments, industrial facilities and institutions, whether treated or untreated. Wastes may include but not be limited to discharges from scullery sinks, pot and pan sinks, dishwashing machines, soup kettles and floor drains located in areas where grease-containing materials may exist. The terms "sewage" and "wastewater" shall be deemed as waste by definition.

(Ord. No. 47-553, § 1, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.020. General criteria—Waste discharge requirements.

Waste discharge in food service establishments from fixtures and equipment which may

contain grease; including, but not limited to, scullery sinks, pot and pan sinks, pre-rinse/pre-wash sinks in dishwashing areas, wok stoves, self-cleaning stove ventilation/exhaust hood, dishwashers, soup kettles, mop sinks, food prep sinks, and floor drains located in areas where grease-containing materials may exist, may be discharged into the sanitary sewer collection system only under the conditions of this chapter.

When grease-containing materials are processed through garbage grinders, the waste from said garbage grinders should be directed to the grease interceptor. The director must approve garbage grinder disposal installations. An additional 30 percent of wetted volume will be added to the calculated size of the grease interceptor that is to receive garbage grinder waste.

Toilets, urinals, and other similar fixtures shall not discharge through the grease interceptor unless specifically approved, in writing, by the director.

All waste shall enter the grease interceptor through the inlet pipe only.
(Ord. No. 47-553, § 2, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.025. General criteria—Design and approval.

Grease interceptors shall be constructed in accordance with the design(s) approved by the director and shall have a minimum of two compartments with fittings designed for grease retention. Other grease removal devices or technologies not meeting the gravity grease interceptor definition in Section 16.24.010(j) shall be subject to the written approval of the director. Such approval shall be based on demonstrated removal efficiencies of the proposed technology. Hydro mechanical grease interceptors, also known as "Under the sink" grease interceptors, shall not be approved.

Access manholes, with a minimum diameter of 24 inches, shall be provided over each chamber and sanitary tee. The access manholes shall extend at least to finished grade and shall be designed and maintained to prevent water inflow or infiltration. The manholes shall also have readily removable traffic bearing covers to facilitate inspection, grease removal, and wastewater sampling activities.

There shall be an adequate number of access points for cleaning and inspecting all areas of the grease interceptor. Manhole covers shall be gas tight in construction. In areas where additional weight loads may exist, the grease interceptor shall be designed to have adequate load-bearing capacity.

Permission to use an automatic grease removal device (AGRD) as described in Section 16.24.010(a) must be approved by the director. Prior to using an automatic grease removal device, the permit holder shall submit an Application for Variance to the Pretreatment Administrator. Installation of the AGRD is subject to the approval of the director after examining the information contained in the Application for Variance. The device may be permitted in conjunction with, or in lieu of, a gravity grease interceptor. A solids separator or strainer of sufficient size shall be installed in-line prior to the wastewater entering the automated grease removal device or as an integral part of the device. All manufacturer installation guidelines must be adhered to.
(Ord. No. 47-553, § 3, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.030. General criteria—Location.

Each grease interceptor shall be so installed and connected that it shall be at all times easily accessible for inspection, cleaning and removal of the intercepted grease. A gravity grease interceptor may not be installed in any part of a building where food is handled. Location of the grease interceptor shall meet the approval of the director. Multiple gravity grease interceptors installed at a single location shall be installed in series.

All new construction multi-tenant buildings shall include a separate waste line for each leasable space that discharges to a common interceptor. This waste line shall be permanently marked to identify it as required by the director. When a space is leased, sold, or rented to a food service establishment, all kitchen drains and any other drains that may carry grease waste

shall be connected to this waste line; no domestic sewage may be connected to this line. The property owner shall be responsible for proper maintenance of this interceptor in accordance with the provisions of this ordinance. Festivals and amusement parks shall be considered a single facility for the purpose of this chapter.
(Ord. No. 47-553, § 4, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.040. General criteria—Gravity grease interceptor size.

Each food service establishment shall be served by an approved gravity grease interceptor(s) and sized by volume based on the maximum potential drainage fixture units. All fixtures with a potential to carry grease waste shall be plumbed to the gravity grease interceptor. The following DFUs shall be assigned to each individual fixture.

Table 1

Individual Fixture	DFU
Bar Sink	2
Dishwasher—(Commercial)	6
Floor Drain	3
Hand Wash Sink	1
Mop Sink	3
2 Compartment Sink*	2
3 or 4 Compartment Sink*	4
Service Sink (Utility, Janitorial)	3
Pre-Rinse Sink	4
Floor Drain (Emergency Shower)	0
Garbage Grinder	6
Wok Stove	4
Ice Maker	0
Clothes Washer (Domestic)	3

* Includes Food Prep and Pot washing sinks.

For Fixtures not listed above, use the following equivalents:

Table 2

Drain Size of Fixture	DFU
1¼ inch	1 Unit
1½ inch	3 Units
2 inch	4 Units
3 inch	6 Units
4 inch	8 Units

Interceptor Sizing: The volume of the interceptor shall be determined by adding the total number of DFUs from the grease waste fixtures listed in Tables 1 and 2, and using the following table. If the DFUs are not known, the interceptor shall be determined based on the maximum allowable DFUs for the pipe size connected to the inlet of the interceptor.

Table 3

DFUs	Interceptor Volume in Gallons
< 8	Eligible for interceptor exemption
8-20	500
21-34	750
35-89	1,000
90-171	1,250
172-215	1,500
216-306	2,000
307-341	2,500
342-427	3,000
428-575	4,000
576-719	5,000
720-2111	7,500
2112-2639	10,000
2640 and higher	15,000

(Ord. No. 47-553, § 5, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.050. Installation requirements.

(a) New Facilities: On or after the effective date of the ordinance codified in this chapter, all food service establishments which are newly proposed, constructed, undergoing a change of ownership, or existing facilities which shall be expanded or renovated to include a food service establishment where such facilities did not previously exist, shall be required to have an approved gravity grease interceptor. Such food service establishments shall submit drainage plumbing plans to the director or designee for approval prior to obtaining a building permit. The director shall approve the prerequisite for an approved, properly sized, type and location of the gravity grease interceptor.

Sizing calculations shall be in accordance to the tables listed herein and shall be installed prior to the opening or reopening of said facilities.

Establishments undergoing a change of ownership without expanding or renovating the facility may apply for permission to use an automatic grease removal device as described in Section 16.24.025.

(b) Existing Facilities: On or after the effective date of the ordinance codified in this chapter, all existing food service establishments shall be required to install an approved, properly operated and maintained gravity grease interceptor within 120 days of notification by the city that any of the following conditions exist:

(1) The facilities are found by the director to be contributing grease in quantities sufficient to cause sanitary sewer line stoppages or to necessitate increase maintenance on the sanitary sewer collection system in order to keep main line stoppages from occurring.

(2) Remodeling of the food preparation or kitchen waste plumbing facilities which are subject to a permit issued by the Metropolitan Area Building and Construction Department. The compliance date under this subsection (b), will be determined by the director.

(c) Extensions: Any requests for extensions to these required installation dates must be made in writing to the director at least seven days in advance of the compliance date. The written request shall include the reasons for the user's failure or inability to comply with the compliance date set forth, the additional time needed to complete the remaining work, and the steps to be taken to avoid future delays.
(Ord. No. 47-553, § 6, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.060. Grease interceptor maintenance.

(a) Pumping. All grease interceptors shall be maintained by the user at the user's expense. Maintenance shall include the complete removal of all contents, including floating materials, wastewater, and bottom sludge and solids. Decanting or discharging of removed waste back into the interceptor from which the waste was removed or any other grease interceptor, for the purpose of reducing the volume to be disposed, is prohibited.

(b) Pumping Frequency. Grease interceptors must be pumped out completely a minimum of once every 90 days, or more frequently as needed, to prevent carryover of grease into the sanitary sewer collection system, unless it can be demonstrated to the director that the pumping frequency can be extended past the three-month period. If the owner/operator wishes to extend the pumping period of the interceptor past 90 days, the facility owner/operator must complete a variance to the grease interceptor maintenance schedule. A variance request fee of not less than $50.00 may apply to recover the costs the city may incur for the variance study.

(c) Disposal of Grease Interceptor Pumpage. All waste removed from each grease interceptor must be disposed of at a facility permitted by the city to receive such waste in accordance with the provisions of this chapter. In no way shall the pumpage be returned to any private or public portion of the sanitary sewer collection system or the sewage treatment plants, without prior written approval from the director.

(d) Additives. Any additive(s) placed into the grease interceptor or building discharge line system on a constant, regular, or scheduled basis shall be reported to the director. Such additives shall include, but not be limited to, commercially available bacteria or other additives designed to absorb, purge, consume, treat or otherwise eliminate grease and oils. Additives containing enzymes are prohibited. The use of additives shall in no way be considered as a substitution to the maintenance procedures required herein.

(e) Physical integrity. All grease interceptors shall be maintained in operable condition and to meet the criteria described in Section 16.24.025 at all times. The integrity of the baffle wall separating the two compartments shall be maintained; rebar shall not be exposed, and grease interceptors with leaks or holes shall be repaired or replaced at the discretion of the director.
(Ord. No. 47-553, § 7, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.070. Permit requirements.

(a) Permit: It is unlawful for any facility producing grease to discharge waste into the sanitary sewer collection system without authorization from the director. Authorization shall be given in the form of a wastewater discharge permit within 30 days of the facility owner/operator becoming aware of the permit requirements, the owner/operator shall submit an application for a permit to the water utilities. In lieu of acquiring permit application information from the facility owner/operator, the utility may issue a conditional permit by acquiring permit application information from city departments. Within 30 days of receipt of the conditional permit and application, the owner/operator shall certify that all information contained in the application is true and correct. If a response is not received from the owner/operator within 30 days of receiving the conditional permit, the city will consider that the permit information is true and correct and will proceed with general permit issuance. If, after examining the information contained in the grease discharge permit application, it is determined by the director that the proposed discharge does not conflict with the provisions of this chapter, a general permit containing terms and conditions associated with food service establishments as described in this chapter shall be issued allowing the discharge of such wastes into the sanitary sewer collection system. Each grease discharge permit shall be issued for a time not longer than five years from the date of the permit. The terms and conditions of the permit may be subject to modification by the city during the term of the permit as limitations or requirements as identified in this chapter are modified or other just causes exist. The user shall be informed of any proposed changes in the issued permit at least 30 days prior to the effective date of the change(s). Any changes or new conditions in the permit shall include a reasonable time schedule for compliance.

As a condition precedent to the granting of a permit, the permittee under this section will agree to hold harmless the city and the city's employees from any liabilities arising from the permit holder's operations under this permit.

(b) Fees.

(1) Permit Fees: the fees for wastewater discharge permits shall be as set forth in Section 16.04.055. The fees shall be established to insure full cost recovery and shall include but not be limited to the cost of field, administrative, engineering and clerical expenses involved. The annual permit fee shall be applied to the permittee's August water utilities service bill and be paid in accordance to the schedule set forth in the billing document.

(2) Grease Maintenance Fee: every food service establishment which does not have an approved grease interceptor shall be subject to a grease maintenance fee which covers the costs associated with grease removal expenses incurred by the POTW. The costs shall be based upon removal and treatment of grease originating from food service establishments which is discharged to the POTW. The fee shall be applied to the water utilities service bill on a monthly frequency. The cost shall be as set forth in Section 16.04.055.

(3) Low Grease Discount for Grease Maintenance Fee: At the discretion of the Director, food service establishments may be eligible for a discounted Grease Maintenance Fee after review of menu, and food preparation and handling practices. The discounted grease maintenance fee shall be as set forth in Section 16.04.055. Facilities might be eligible for a low grease discount if they prepare and/or serve only baked goods, coffee, ice cream, or precooked foods that are stored in the original packaging until heated for service, such as hot dogs on a roller grill. Food preparation activities or situations which are ineligible for a discount include, but are not limited to, the following:

1. Frying, including donuts;
2. Cooking meat, poultry, seafood, or pizza;

3. Washing dishes from catered meals or foods prepared offsite;

4. Presence of a garbage grinder;

5. Any facility which has been found to be contributing grease in quantities sufficient to cause sanitary sewer line stoppages or to necessitate increased maintenance on the sanitary sewer collection system in order to keep main line stoppages from occurring.

(Ord. No. 47-553, § 8, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.075. Administrative requirements.

(a) Manifest. All pumpage from gravity grease interceptors must be tracked by a manifest, which confirms pumping, hauling and disposal of waste. This manifest shall contain the following information:

(1) Generator information:

Name
Address
Volume pumped
Date and time of pumping
Amount of floatable grease and settable solids in inches
Total liquid depth in inches, including grease and solids
Signature of generator verifying generator information

(2) Transporter information:

Company name
Address
Driver name and signature verifying transporter information

(3) Receiving facility information:

Facility name
Address
Date and time of receiving signature verifying receipt of waste

Upon receipt of the waste, the receiving facility shall send one copy of each manifest to the following address: Pretreatment Administrator, 2305 E. 57th Street South, Wichita, Kansas, 67216.

(b) Maintenance Log. A grease interceptor log shall be maintained for each grease interceptor, including automatic grease removal devices and hydro mechanical grease interceptors. This log shall include the date, time, amount pumped, hauler and disposal site, and monthly inspection results of the floatable grease and settable solids levels in inches and shall be kept in a conspicuous location for inspection. Said log shall be made immediately available to any representative of the Public Works & Utilities Department upon request.

(c) Reporting. The information required in the maintenance log must be submitted by the permitted food service representative to the water utility every 15th day of the month following each quarter-year period.

The report shall be submitted within fifteen days after the end of the reporting period to the pretreatment administration.
(Ord. No. 47-553, § 9, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.080. Monitoring, inspection and entry.

(a) Monitoring. When required for the purposes of this chapter, the user shall provide, operate and maintain, at user's expense, safe and accessible monitoring facilities (such as a suitable manhole) at all times to allow observation, inspection, sampling and flow measurement of the building sewer or internal drainage systems. When the physical location and hydraulic conditions are suitable, a manhole or similar facility existing on the sanitary sewer collection system may be utilized as the user's manhole when agreed to by both the user and the director.

(b) Inspection and Entry. Authorized personnel of the city, bearing proper credentials and identification, shall have the right to enter upon all properties subject to this chapter, at any reasonable time and without prior notification,

for the purpose of inspection, observation, measurement, sampling, testing or record review, in accordance with this chapter.
(Ord. No. 47-553, § 10, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.090. Emergency suspension of services.

The city may suspend water or sewer service when such suspension is necessary, in the opinion of the director, in order to stop an actual or threatened discharge which:

(1) Presents or may present an imminent or substantial endangerment to the health or welfare of persons or the environment;

(2) Causes stoppages, or excessive maintenance to be performed to prevent stoppages, in the sanitary sewer collection system;

(3) Causes interference to the POTW; or

(4) Causes the city to violate any condition of its NPDES permit. Any person notified of a suspension of the water or sewer service shall immediately stop or eliminate the discharge. In the event of a failure of the person to comply voluntarily with the suspension order, the city shall take such steps as deemed necessary, including immediate termination of water or sewer service, to prevent or minimize damage to the POTW system or sewer connection or endangerment to any individuals. The city shall reinstate the water or sewer service when such conditions causing the suspension have passed or been eliminated. A detailed written statement submitted by the user describing the cause(s) of the harmful discharge and the measure(s) taken to prevent any future occurrence shall be submitted to the Pretreatment Administrator within fifteen days of the date of occurrence.

(Ord. No. 47-553, § 11, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.100. Violation.

It is unlawful for any user to discharge into the sanitary sewer collection system in any manner that is in violation of this chapter or of any condition set forth in this chapter.
(Ord. No. 47-553, § 12, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.105. Enforcement.

The director shall have the administrative authority to enforce this chapter. Whenever the city finds that any user has violated or is violating this chapter, or any prohibition, limitation, or requirements contained herein, the director will implement the Fats, Oils, and Grease Program enforcement response plan. Enforcement response necessary to initiate corrective action may include but not be limited to the following:

(a) Notice of Violation. The city may serve upon any user a written notice stating the nature of violation. Within 15 days of the date of notice, a plan for the satisfactory correction thereof shall be submitted to the director by the user.

(b) Administrative Order. When the director finds that a user has violated or continues to violate the provisions set forth in this chapter, or the order issued there under, the director may issue an order for compliance to the user responsible for the discharge. Orders may contain any requirements as might be reasonable, necessary and appropriate to address the noncompliance; including, but not limited, to the installation of pretreatment not technology, additional self-monitoring and management practices.

(c) Consent Order. The director is empowered to enter into consent orders, assurances of voluntary compliance or other similar documents establishing an agreement with the user responsible for noncompliance. Such orders will include specific action to be taken by the user to correct the noncompliance within a time period specified by the order. Consent orders

shall have the same force and effect as administrative orders issued pursuant to subsection (b) of this section.

(Ord. No. 47-553, § 13, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.110. Administrative penalty.

Notwithstanding any other remedies or procedures available to the city, any user who is found by the Pretreatment Administrator or by the Fats, Oils, and Grease Program staff to have violated any provision of this chapter, or any permit or any order issued hereunder, may be assessed an administrative penalty of not to exceed $1,000.00 per violation. Each day on which noncompliance shall occur or continue shall be deemed a separate and distinct violation. Such assessment may be added to the user's next scheduled sewer service charge and the city shall have such other collection remedies as are available at law.

(Ord. No. 47-553, § 14, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.120. Request for hearing and appeal.

(a) Hearing. Any person affected by a penalty, order or directive of the city issued pursuant to this chapter may, within ten days of the issuance of such penalty, order, or directive, request a hearing before the director to show cause why such should be modified or made to not apply to such person. Such request shall be in writing and addressed to the director at 455 North Main Street, Wichita, Kansas. The director or a designee shall hold the requested hearing as soon as practical after receiving the request, at which time the person affected shall have an opportunity to be heard. At the conclusion of the hearing, the director shall issue a written response to the person requesting the hearing affirming, modifying or rescinding the penalty, order, or directive at issue.

(b) Appeal. Any person aggrieved by the decision of the director may appeal such decision to the city council within ten days of the receipt of the decision by filing notice of appeal with the city clerk. Upon hearing, the city council may affirm, modify or reverse the decision of the director. Any appeal of the city council's decision shall be as provided by state law.

(Ord. No. 47-553, § 15, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.130. Authorization.

The director is authorized to promulgate such rules and regulations as shall be reasonable and necessary to carry out the provisions of this chapter according to its terms and intent.

(Ord. No. 47-553, § 16, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.140. Criminal penalties.

Any person who shall be convicted of violating any provision of this chapter or any permit or order issued hereunder shall be deemed guilty of a misdemeanor and shall be punished by a fine of not more than $1,000.00 or by imprisonment for not more than six months or by both. Each day that any such violation occurs shall constitute a separate offense and shall be punishable as a separate violation. If upon trial of any person found guilty of a misdemeanor hereunder, it shall appear to the court that the violation complained of is continuing, the court shall enter such order as it shall deem appropriate to cause the violation to be abated. The provisions of this section are independent of and in addition to any administrative or other legal action that may be taken by the city under the provisions of this chapter.

(Ord. No. 47-553, § 17, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

Sec. 16.24.150. Severability.

If any part or parts of this chapter shall be held to be invalid, such invalidity shall not affect the remaining parts of this chapter. The governing body declares that it would have passed remaining parts of this chapter if it had known that such part or parts thereof would be declared invalid.

(Ord. No. 47-553, § 18, 8-24-2007; Ord. No. 51-064, § 1, 7-23-19)

CHAPTER 16.30. STORMWATER UTILITY

Sec. 16.30.010. Definitions.
Sec. 16.30.020. Creation of stormwater utility.
Sec. 16.30.030. Findings and determinations.
Sec. 16.30.040. Administration.
Sec. 16.30.050. Operating budget.
Sec. 16.30.060. Drainage fee.
Sec. 16.30.070. Appeal procedure.
Sec. 16.30.080. Stormwater drainage fee collection.
Sec. 16.30.090. Stormwater utility enterprise fund.
Sec. 16.30.100. ERU rate.
Sec. 16.30.110. Ordinance components.
Sec. 16.30.120. Severability.

Sec. 16.30.010. Definitions.

In addition to the words, terms and phrases elsewhere defined in this chapter, the following words, terms and phrases as used in this chapter shall have the following meanings:

(a) "Bonds" means revenue or general obligation bonds or notes heretofore or hereafter issued to finance the costs of improvements.

(b) "Certificate of occupancy" means a certificate issued by the office of central inspection that permits a newly constructed or a new addition to a residential developed property or nonresidential developed property to be occupied.

(c) "City" means City of Wichita, Sedgwick County, Kansas.

(d) "City council" means governing body of the city.

(e) "Costs of capital improvement" means costs incurred in providing capital improvements to the stormwater management system or any portion thereof including professional services and studies connected thereto; payment of principal and interest on bonds heretofore or hereafter issued, including payment of delinquencies of principal and interest due on bonds that are otherwise payable from special assessments; studies related to the operation of the system; and the costs of the rate study performed heretofore in relation to establishing rates for the stormwater utility and other start up costs of the stormwater utility; costs related to the National Pollution Discharge Elimination System Permit study as mandated by federal laws and regulations; and costs associated with purchasing equipment, computers, furniture, etc., that are necessary for the operation of the utility.

(f) "Debt service" means an amount equal to the sum of (i) all interests payable on bonds during a fiscal year, plus (ii) any principal installments payable on such bonds during such Fiscal Year.

(g) "Developed property" means real property other than undisturbed property.

(h) "Director" means the person appointed by the city manager to be the director of the stormwater utility.

(i) "Drainage fee" or "drainage fees" means a fee authorized by Charter Ordinance 147, this chapter and as set forth in a resolution heretofore adopted or hereafter amended by the city council that has been established to pay operation and maintenance, extension and replacement and debt service associated with the stormwater management system.

(j) "Dwelling unit" means a singular unit providing independent living facilities for one or more persons in a single-family, duplex, multifamily or condominium residential property.

(k) "Equivalent residential unit" (ERU) means the average impervious area of residential developed property per dwelling unit located within the city limits as established by city council resolution as provided herein.

(l) "Equivalent residential unit rate" or "ERU rate" means a drainage fee charged on each ERU as established by city council resolution as provided herein.

(m) "Exempt property" means public rights-of-way, public streets, public alleys and public sidewalks, and also means public ease-

ments upon which publicly owned and maintained storm drainage facilities are constructed.

(n) "Extension and replacement" means costs of extensions, additions and capital improvements to, or the renewal and replacement of capital units of, or purchasing and installing of equipment for, the stormwater management system, or land acquisition for the stormwater management system and any related costs thereto, or paying extraordinary maintenance and repairs, including the costs of capital improvements or any other expense that is not costs of operation and maintenance or debt service.

(o) "Fiscal year" means a twelve-month period commencing on the first day of January of any year.

(p) "Impervious area" means the number of square feet of hard surface areas which either prevent or retard the entry of water into soil mantle, as it entered under natural conditions as undisturbed property, and/or causes water to run off the surface in greater quantities or at an increased rate of flow from that present under natural conditions as undisturbed property, including, but not limited to, roofs, roof extensions, patios, porches, driveways, sidewalks, pavement, athletic courts, and compacted dirt or graveled areas.

(q) "In lieu of franchise fee" means a fee of not to exceed five percent of gross revenues of the utility that is imposed by the city council and that is paid to the city for use of public streets, alleys, sidewalks, and other public rights-of-way from revenues as if the utility was a person, firm or corporation using public rights of way pursuant to K.S.A. 12-2001 et seq.

(r) "Nonresidential developed property" means developed property other than residential developed property.

(s) "Operating budget" means the annual utility operating budget adopted by the city for the succeeding fiscal year.

(t) "Operations and maintenance" means without limitation the current expenses, paid or accrued, of operation, maintenance and current repair of the system, as calculated in accordance with sound accounting practice, and includes, without limiting the generality of the foregoing, insurance premiums, administrative expenses, equipment costs, in lieu of franchise fee payments, labor costs, and the cost of materials and supplies used for current operations.

(u) "Residential developed property" means developed property used for dwelling units.

(v) "Revenues" means all rates, fees, assessments, rentals or other charges or other income received by the stormwater utility in connection with the management and operation of the stormwater management system, including amounts received from the investment or deposit of monies in any fund or account, as calculated in accordance with sound accounting practice.

(w) "Stormwater management system," "sewer system" or "system" means storm sewers that exist at the time the ordinance codified in this chapter is adopted or that are hereafter established and all appurtenances necessary in the maintaining and operating of the same, including, but not limited to, pumping stations, lateral sewers, main sewers, interceptor sewers, outfall sewers, surface drains, channels, rivers, streams and other flood control facilities and works for the collection, transportation, pumping, treatment, and disposing of storm or surface water.

(x) "Stormwater utility" or "utility" means the utility created by this chapter to operate, maintain and improve the stormwater management system and for such other purposes as are set forth in this chapter.

(y) "Undisturbed property" means real property which has not been altered from its natural condition in a manner which disturbed or altered the topography or soils

on the property to the degree that the entrance of water into the soil mantle is prevented or retarded.

(Ord. No. 41-948, § 1)

Sec. 16.30.020. Creation of stormwater utility.

Pursuant to the provisions of K.S.A. 12-3101, et seq., as modified by city Charter Ordinance No. 147, the Wichita city council does establish a stormwater utility and stormwater management system and declares its intention to be responsible for the operation, construction, maintenance and repair of a stormwater management system and stormwater utility.

(Ord. No. 41-948 § 2)

Sec. 16.30.030. Findings and determinations.

It is found, determined, and declared that the elements of the stormwater management system which provides for the collection, treatment and disposal of stormwater are of benefit and provide services to property within the incorporated city limits. The beneficiaries of the system include all real properties within the city which benefit by the provisions, operation and improvement of the system. Such benefits may include, but are not limited to, the provision of adequate systems of collection, conveyance, detention, treatment and release of stormwater, the reduction of hazard to property and life resulting from stormwater runoff, improvement in general health and welfare through reduction of undesirable stormwater conditions, and improvement to the water quality in the storm and surface water system and its receiving waters.

(Ord. No. 41-948 § 3)

Sec. 16.30.040. Administration.

The stormwater utility, under the direction of the city manager or his/her designee, shall have the power to:

(a) Administer the acquisition, design, construction, maintenance and operation of the stormwater management system;

(b) Administer and enforce this chapter and all regulations and procedures adopted relating to the design, construction, maintenance, operation and alteration of the stormwater management system including, but not limited to, the quantity, quality and/or velocity of the stormwater conveyed thereby;

(c) Advise the city council on matters relating to the stormwater management system;

(d) Review plans concerning extensions and replacement of the stormwater management system and make recommendations to the city council;

(e) Make recommendations to the city council concerning establishing ordinances and regulations to protect and maintain water quality within the stormwater management system in compliance with water quality standards established by state, regional and/or federal agencies as now adopted or hereafter adopted or amended;

(f) Analyze the cost of services and benefits provided by the stormwater management system and the structure of fees, charges, fines and other revenues of the stormwater utility annually;

(g) Administer programs pursuant to guidelines hereafter adopted by the city council, that provide for credits and/or incentives that reduce drainage fees assessed against properties that utilize privately owned and maintained stormwater retention or detention facilities which reduce costs of the operating budget of the utility.

(Ord. No. 42-062 § 1)

Sec. 16.30.050. Operating budget.

The city shall, as part of its annual budget process, adopt an operating budget for the stormwater utility for the next following fiscal year. The operating budget shall be prepared in conformance with the State Budget Law, city policy and general accepted accounting practices. The initial operating budget commenced January 1, 1993, and ends December 31, 1993.

(Ord. No. 41-948 § 5)

Sec. 16.30.060. Drainage fee.

(a) Fee Established. Subject to the provisions of this chapter, there is imposed on each and every residential developed property and nonresidential developed property, other than property that is not serviced by the stormwater management system or exempt property, a drainage fee. Such drainage fee shall be determined and set by the provisions of this chapter in accordance with the base rate set forth in the following subsections and the ERU and ERU rate which has been established by resolution of the city council and that may be amended from time to time by the city council.

(b) Drainage Fee for Residential Developed Property. The drainage fee for residential developed property shall be a monthly base rate, beginning at $2.50 for 2026, plus the ERU rate multiplied by the numerical factor calculated by dividing the total impervious area of a residential developed property by the number of square feet in one ERU and rounded down to the nearest full number of ERUs. In the event this numerical factor is less than one ERU, it shall be deemed to be 0.50 ERU. The minimum drainage fee for any residential developed property shall be equal to the monthly base rate plus 0.50 ERU rate. In the event a formerly vacant property is improved by a newly constructed dwelling unit, the charge for the drainage fee attributable to that property shall commence upon the issuance of the certificate of occupancy for that dwelling unit, or if construction is at least fifty percent complete and is halted for a period of three months, then that dwelling unit shall be deemed complete and the drainage fee shall commence at the end of the three-month period.

(c) Drainage Fee for Nonresidential Developed Property.

(1) The drainage fee for nonresidential developed property shall be a monthly base rate, beginning at $2.50 for 2026, plus the ERU rate multiplied by the numerical factor calculated by dividing the total impervious area of a nonresidential developed property by the number of square feet in one ERU. The minimum drainage fee for any nonresidential developed property shall be equal to the monthly base rate plus one ERU rate. In the event of newly developed nonresidential developed property, the charge for the drainage fee attributable to that development shall commence, or increase in the case of additional development to property which is already developed property, upon the issuance of the certificate of occupancy for such additional development, or in the event that no certificate of occupancy will be issued for that development, or in the event development has halted, then on the date that the director or the director's designee determines in reasonable judgment that the development is substantially complete or has been halted for at least three months.

(2) In the event of separately metered nonresidential developed property with joint users of common impervious areas, the director shall calculate and allocate the pro rata drainage fee among the users. Any owner or nonowner user disagreeing with the director's calculation or allocation may appeal such determination to the director as provided in this section.

(d) Dwelling Unit and Impervious Surface Calculation. The director or director's designee shall initially, and from time to time, determine the existence of dwelling units located on residential developed property in order to establish the drainage fee provided by subsection (b) of this section. Nonresidential real property in the city shall have its square footage of impervious area calculated in order to establish the drainage fee provided by subsection (c) of this section. The director or the director's designee shall make the initial calculation and may from time to time change this calculation from such information and data deemed pertinent by the director or the director's designee.

(e) Drainage Fee Credit. The city council may by resolution adopt guidelines that establish credits and/or incentives that reduce the drainage fee that would otherwise be assessed against properties that utilize privately owned and

maintained retention or detention facilities, if it is determined that the existence of such retention or detention facilities results in a reduction in the operating budget of the utility.
(Ord. No. 42-062 § 2; Ord. No. 50-441, §§ 1—3, 4-25-17; Ord. No. 52-902, § 1, 2-24-26)

Sec. 16.30.070. Appeal procedure.

(a) Any persons disagreeing with the calculation of the Drainage Fee, disagreeing with whether their property is served by the Stormwater Utility or who believe they are entitled to a credit pursuant to guidelines adopted by the City Council, may appeal such calculation or finding to the Director. Appeals must be in writing. The Director or his/her designee shall thereafter hold an informal hearing. The Director or designee, prior to such hearing, may request that the appealing party provide information concerning the basis of the appeal, including a land survey prepared by a registered surveyor showing Dwelling Units, total property area, and Impervious Area as appropriate, if such information is deemed to be material by the Director or designee. Based on information provided, the Director or designee shall make a determination as to whether the Drainage Fee should be adjusted or eliminated for such property. The Director shall notify parties in writing of the Director's or his/her designee's decision.

(b) (1) A person shall have the right to appeal the decision of the director to the stormwater appeals board. Such appeal shall be made within twenty days of the date the director notifies the person of the director's decision in the informal proceedings. Such appeal shall be in writing and shall be filed with the director.

(2) The stormwater appeals board shall consist of the following members:

City manager or designee

Director of water and sewer or designee

Director of planning or designee

(3) A hearing on such appeal shall be held within thirty days from the date the notice of appeal is received and the applicant shall be given seven days' advance notice of the time and date the appeal hearing is to be held. At such hearing, the appellant shall present evidence concerning the drainage fee for the property in question and the director and/or his/her designee shall present evidence concerning their findings from the informal proceedings. The stormwater appeals board shall render a decision in writing that sets forth findings that support their decision within seven days of the hearing. The decision of the stormwater appeals board shall be final and any further appeal of such decision shall be to the Eighteenth Judicial District Court of the state of Kansas by way of the provisions of K.S.A. 60-2101(d).

(Ord. No. 42-062 § 3)

Sec. 16.30.080. Stormwater drainage fee collection.

(a) The drainage fee shall be billed and collected monthly with the monthly water and sewer utility bill for those properties utilizing other city utilities and shall be billed and collected separately at intervals as set by the director for those properties not utilizing other city utilities. The drainage fee for those properties utilizing other city utilities shall be part of a consolidated statement for utility customers which shall be paid by a single payment. In the event that a partial payment is received, the payment shall be applied to the water and sewer portion of the account first and then to the drainage fee portion of the account. Unless otherwise provided for herein, all bills for drainage fees shall become due and payable in accordance with sections of the code of the city and with rules and regulations that pertain to the Wichita water and sewer utility that relates to the collection of utility charges. Drainage fee bills for any given property shall initially be the responsibility of the person who is paying for water and/or sewer service for the property. If the property is not

using water and/or sewer services, then drainage fees shall be the responsibility of the person in possession of the property, unless other arrangements are made. If no person is in possession of the property, then the drainage fees shall be the responsibility of the property owner. The property owner is responsible for the drainage fees not paid by the occupant.

(b) Drainage fees shall be subject to a penalty for late payment which is the same as that imposed for late payment of water and sewer utility charges. In addition to any other remedies or penalties provided by this chapter or any other ordinance of the city, failure of any user of the stormwater management system to pay such charges promptly when due shall subject such user to discontinuance of water services and the city manager of the city, or the city manager's designee, is empowered and directed to enforce this provision as to any and all delinquent users in accordance with provision set forth in Chapter 17.12. Users shall be entitled to notice and shall have the right to a hearing in accordance with Chapter 17.12 before such users' water service is discontinued for failure to pay drainage fees.

(c) Drainage fees authorized to be charged in this chapter when delinquent may be certified by the clerk of the city to the county clerk of Sedgwick County to be placed on the tax roll for collection, subject to the same penalties and to be collected in like manner as other taxes, and such charges shall, thereafter, constitute a lien upon the real estate served by the stormwater utility and against which such charges were made, regardless of whether the drainage fees were incurred when a property owner was in possession of the property or a nonowner was in possession of the property.
(Ord. No. 41-948 § 8)

Sec. 16.30.090. Stormwater utility enterprise fund.

Drainage fees collected by the city shall be paid into an enterprise fund which is created, to be known as the "stormwater utility fund." Such fund shall be used for the purpose of paying the extension and replacement, operations and maintenance and debt service of the stormwater management system and to carry out all other purposes of the utility.
(Ord. No. 41-948 § 9)

Sec. 16.30.100. ERU rate.

The ERU and the ERU rate that is used to determine the charge for each residential developed property and nonresidential developed property shall be as established in a resolution heretofore adopted or hereafter amended by the city council.
(Ord. No. 41-948 § 10)

Sec. 16.30.110. Ordinance components.

Should any part of this chapter be declared invalid by a court of competent jurisdiction, the remaining portions hereof shall not be affected and shall remain in full force and effect.
(Ord. No. 41-948 § 11)

Sec. 16.30.120. Severability.

In the event that any portion or section of this chapter is determined to be invalid, illegal or unconstitutional by a court of competent jurisdiction, such decision shall in no manner affect the remaining portions or sections of this chapter which shall remain in full force and effect.
(Ord. No. 41-948 § 12)

CHAPTER 16.32. STORMWATER POLLUTION PREVENTION

Sec. 16.32.010. General provisions.
Sec. 16.32.020. General prohibition.
Sec. 16.32.030. Specific prohibitions and requirements.
Sec. 16.32.040. Release reporting and cleanup.
Sec. 16.32.050. Stormwater discharges from construction activities.
Sec. 16.32.060. Stormwater discharges associated with industrial activity.
Sec. 16.32.070. Ditches and ponds.
Sec. 16.32.080. Compliance monitoring.
Sec. 16.32.090. Subdivision development.
Sec. 16.32.091. Storm water quality management standards.
Sec. 16.32.092. Storm water quantity management standards.
Sec. 16.32.093. Other storm water management requirements.
Sec. 16.32.094. Waivers and exemptions from storm water management standards.
Sec. 16.32.095. General requirements for storm water design plans.
Sec. 16.32.096. Maintenance and inspection of storm water drainage paths and controls.
Sec. 16.32.097. Special provisions for open channels.
Sec. 16.32.098. Provisions for the offsite BMP program.
Sec. 16.32.100. Enforcement actions.
Sec. 16.32.110. Applicability of enforcement actions.
Sec. 16.32.120. Hearing and appeal.
Sec. 16.32.130. Enforcement personnel authorized.
Sec. 16.32.140. Other legal actions.
Sec. 16.32.150. Falsifying information.
Sec. 16.32.160. Supplemental enforcement actions.
Sec. 16.32.170. Severability.

Sec. 16.32.010. General provisions.

A. *Purposes.* The purpose and objective of this chapter are as follows:

1. To maintain and improve the quality of surface water and groundwater within the city;
2. To attenuate the discharge of contaminated storm water runoff from industrial, commercial, residential, and construction sites into the municipal separate storm sewer system (MS4) and natural waters within the city;
3. To promote public awareness of the hazards involved in the improper discharge of hazardous substances, petroleum products, household hazardous waste, industrial waste, sediment from construction sites, pesticides, herbicides, fertilizers, and other contaminants into the storm sewers of the city;
4. To encourage recycling of used motor oil and safe disposal of other hazardous consumer products;
5. To facilitate compliance with state and federal standards and permits by owners of industrial and construction sites within the city;
6. To enable the city to comply with all federal and state laws and regulations applicable to its NPDES permit for storm water discharges.
7. To regulate the management of storm water for purposes of public safety, welfare and quality of life;
8. To manage and maintain local floodplains; and,
9. To facilitate compliance with city standards and permits by owners of developed, redeveloped and undeveloped properties within the city.

B. *Administration.* Except as otherwise provided herein, the director, or his appointed representative, shall administer, implement, and enforce the provisions of this chapter.

C. *Authority.* The director may develop additional policies, criteria, specifications and standards in a Storm Water Manual and/or in other policy, master plans, watershed plans or guidance documents as necessary to effectively implement the requirements of this chapter. The policies, criteria and requirements of the Storm Water Manual and/or other policy, plans or guidance documents may be implemented and amended by the director, are referenced in this chapter when required, and shall be enforceable, consistent with the provisions contained in this chapter. A public meeting shall be held bi-annually to allow public comment on this chapter and the Storm Water Manual.

In the event that a violation of any provision of this chapter has occurred, or that work does

not have a required plan or permit, or that work does not comply with an approved plan or permit, the city may issue a Notice of Violation to the permittee, plan holder or property owner and/or any other person or entity having responsibility for the property or properties where the violation occurred under the provisions of subsection 16.32.100.B. of this chapter.

In the spirit of the purposes defined above for this chapter and in the administration of these requirements, the director may consider the cost-effectiveness of storm water management controls provided that such controls meet the water quality, channel erosion protection and flood protection requirements of this chapter or are waived or exempted in accordance with the criteria defined in this chapter.

D. *Regulatory or legal conflicts.* This chapter is not intended to repeal, abrogate, or impair any existing easements, covenants, deed restrictions, or existing ordinances and regulations, except as specifically noted in this chapter. However, where the provisions of this chapter and another regulation conflict or overlap, that provision which is more restrictive or imposes higher standards or requirements shall prevail.

E. *Abbreviations.* The following abbreviations when used in this chapter shall have the designated meanings:

BMP	Best Management Practices
CFR	Code of Federal Regulations
CLOMR	Conditional Letter of Map Revision
EPA	U.S. Environmental Protection Agency
FEMA	Federal Emergency Management Agency
HHW	Hazardous Household Waste
KAR	Kansas Administrative Regulations
KSA	Kansas Statutes Annotated
LOMR	Letter of Map Revision
mg/l	Milligrams per liter
MS4	Municipal Separate Storm Sewer System
NOI	Notice of Intent
NOT	Notice of Termination
NPDES	National Pollutant Discharge Elimination System
OCI	Office of Central Inspection
PST	Petroleum Storage Tank
SWP3	Storm Water Pollution Prevention Plan
TMDL	Total Maximum Daily Load
USC	United States Code

F. *Definitions.* Unless a provision explicitly states otherwise, the following terms and phrases, as used in this chapter, shall have the meanings hereinafter designated.

1. *As-built plan* means a drawing showing the actual state of permanent storm water facilities as installed.

2. *Best management practices (BMP)* means schedule of activities, prohibitions of practices, maintenance procedures, and other management practices to prevent or reduce the pollution of waters of the United States or the city's MS4 and includes both temporary measures used during construction and permanent measures that are constructed in accordance with the provisions of this ordinance. Best management practices also include treatment requirements, operating procedures, and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage areas. The BMPs required in this chapter will be sufficient to prevent or reduce the likelihood of pollutants entering storm sewers, ditches, or ponds.

3. *City* means the City of Wichita.

4. *Commencement of construction* means the disturbance of soils associated with clearing, grading, or excavating activities or other construction activities.

5. *Commercial* means pertaining to any business, trade, industry or other activity engaged in for profit.

6. *Construction general permit* refers to the Kansas General Permit for Storm water Discharges from Construction Sites.

7. *Contractor* means any person or firm performing construction work at a construction site, including any general contractor and subcontractors. Also includes, but is not limited to, earthwork, paving, building, plumbing, mechanical, electrical, landscaping contractors, and material suppliers delivering materials to the site.

8. *Development* or *new development* means undisturbed property where improvements are planned or intended that will result in land disturbance activities or impervious areas either during or after construction.

9. *Director* means the person appointed to the position of public works and utilities director by the city manager of the city, or his/her duly authorized representative. Authorized representatives can include, but are not limited to, the city engineer, the storm water engineer, and others, as so authorized.

10. *Discharge* means any addition or introduction of any pollutant, storm water, or any other substance whatsoever into the municipal separate storm sewer system (MS4) or into waters of the United States.

11. *Discharger* means any person who causes, allows, permits, or is otherwise responsible for a discharge, including without limitation any owner of a construction site or industrial facility.

12. *Domestic sewage* means human excrement, gray water (From home clothes washing, bathing, showers, dishwashing, and food preparation), other wastewater from household drains, and waterborne waste normally discharged from the sanitary conveyances of dwellings (including apartment houses and hotels), office buildings, factories, and institutions, that is free from industrial waste.

13. *Drainage plan* refers to the detailed water quantity and quality calculations and plan that are required for final plat approval or for issuance of a building permit.

14. *Earthwork* means the disturbance of soils on a site associated with clearing, grading, or excavation activities.

15. *Environmental Protection Agency (EPA)* means the United States Environmental Protection Agency, the regional office thereof, any federal department, agency or commission that may succeed to the authority of the EPA, and any duly authorized official of EPA or such successor agency.

16. *Extremely hazardous substance* means any substance listed in the appendices to 40 CFR Part 355, Emergency Planning and Notification.

17. *Facility* means any building, structure, installation, process, or activity from which there is or may be discharge of a pollutant.

18. *Fertilizer* means a substance or compound that contains an essential plant nutrient element in a form available to plants and is used primarily for its essential plant nutrient element content in promoting or stimulating growth of a plant or improving the quality of a crop, or a mixture of two or more fertilizers.

19. *Final stabilization* means the status when all soil disturbing activities at a site have been completed. This would establish a uniform perennial vegetative cover with a density of seventy percent coverage for unpaved areas and those not covered by permanent structures or equivalent permanent stabilization measures (by employing riprap, gabions, or geotextiles).

20. *Fire protection water* means any water, and any substances or materials contained therein, used by any person to control or extinguish a fire, or to inspect or test fire equipment.

21. *Garbage* means putrescible animal and vegetable waste materials from the handling, preparation, cooking, or consumption of food, including waste materials from markets, storage facilities, and the handling and sale of produce and other food products.

22. *Harmful quantity* means the amount of any substance that will cause a violation of a state water quality standard or any adverse impact to the city's drainage system.

23. *Hazardous household waste (HHW)* means any material generated in a household (including single and multiple residences) by a consumer which, except for the exclusion provided in 40 CFR Section 261.4(b)(1), would be classified as a hazardous waste under 40 CFR Part 261.

24. *Hazardous substance* means any substance listed in Table 302.4 of 40 CFR Part 302.

25. *Hazardous waste* means any substance identified or listed as a hazardous waste by the EPA pursuant to 40 CFR Part 261.

26. *Hazardous waste treatment, disposal, and recovery facility* means all contiguous land, and structures, other appurtenances and improvements on the land used for the treatment, disposal, or recovery of hazardous waste.

27. *Impervious area* or *impervious cover* means the number of square feet of hard surface areas which either prevent or retard the entry of water into soil mantle, as it entered under natural conditions as undisturbed property, and/or causes water to run off the surface in greater quantities or at an increased rate of flow from that present under natural conditions as undisturbed property, including, but not limited to, roofs, roof extensions, patios, porches, driveways, sidewalks, pavement, athletic courts, and compacted dirt or graveled areas.

28. *Individual building sites* means and includes sites of building construction or earthwork activities that are not a part of a new subdivision development and any individual lot within a newly developing subdivision.

29. *Industrial general permit.* See "Kansas General Permit for Storm Water Discharges Associated with Industrial Activity."

30. *Industrial waste* means any waterborne liquid or solid substance that results from any process of industry, manufacturing, mining, production, trade or business.

31. *Industry* means and includes: (a) municipal landfills; (b) hazardous waste treatment, disposal, and recovery facilities; (c) industrial facilities that are subject to Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA) 42, U.S.C. Section 11023; industrial facilities required to obtain NPDES storm water discharge permits due to their Standard Industrial Classification or narrative description; and (d) industrial facilities that the director determines are contributing a substantial pollutant loading to the MS4, which are sources of storm water discharges associated with industrial activity.

32. *Kansas General Permit for Storm Water Discharges Associated with Industrial Activity (or industrial general permit)* means the industrial general permit issued by KDHE and any subsequent modifications or amendments thereto, including group permits.

33. *Kansas General Permit for Storm Water Discharges from Construction Sites (or construction general permit)* means the construction general permit issued by KDHE and any subsequent modifications on amendments thereto, including group permits.

34. *Land disturbance* means the disturbance of soils on a site associated with clearing, grading, excavation, new development or redevelopment activities.

35. *Landfill* means an area of land or an excavation in which municipal solid waste is placed for permanent disposal, and which is not a land treatment facility, a surface impoundment, or an injection well.

36. *Municipal separate storm sewer system (MS4)* means the system of conveyances, (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains) owned and operated by the city and designed or used for collecting or conveying storm water, and which is not used for collecting or conveying sewage.

37. *Municipal solid waste* means solid waste resulting from or incidental to municipal, community, commercial, institutional, or recreational activities, and includes garbage, rubbish, ashes, street cleanings, dead animals, abandoned automobiles, and other solid waste other than industrial waste.

38. *NPDES permit* means for the purpose of this chapter, this is a permit issued by EPA or the state of Kansas that authorizes the discharge of storm water pollutants to waters of the United States, whether the permit is applicable on an individual, group, or general area-wide basis

39. *Nonpoint source* means the source of any discharge of a pollutant that is not a point source.

40. *Notice of intent (NOI)* means the notice of intent that is required by either the industrial general permit or the construction general permit.

41. *Notice of termination (NOT)* means the notice of termination that is required by either the industrial general permit or the construction general permit.

42. *Notice of violation* means a written notice provided to the owner or contractor detailing any violations of this chapter and any clean-up action expected of the violators.

43. *OCI* means office of central inspection and includes its superintendent and his or her authorized representatives.

44. *Offsite BMP program* is a voluntary storm water quality compliance program offered to existing property, new development and redevelopment that requires payment to the city of a monthly service fee instead of implementation of the on-site BMPs that would otherwise be required to be constructed and maintained to comply with section 16.32.091 of this chapter.

45. *Offsite BMP program fee* means a fee of $19.00 per year for each permitted acre of property registered in the offsite BMP program, as authorized by this chapter pursuant to Charter Ordinance 147 and K.S.A. 12-137, which fee has been established to pay or reimburse capital expenditures, maintenance costs, program administrative costs, discount rate and design life costs associated with the offsite BMP program.

46. *Oil* means any kind of oil in any form, including, but not limited to: petroleum, fuel oil, crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure, sludge, oil refuse, and oil mixed with waste.

47. *Outfall* or *storm water outfall* means the terminus of the storm water system for a development or redevelopment where the storm water runoff is released into a larger public or private storm water management system, or into a stream, waters of the United States or other water body.

48. *Owner* means the person who owns a facility, part of a facility, or land.

49. *Person* means any individual, partnership, copartnership, firm, company, corporation, association, joint stock company, trust, estate, government entity, or any other legal entity; or their legal

representatives, agents, or assigns, including all federal, state, and local government entities.

50. *Pesticide* means a substance or mixture of substances intended to prevent, destroy, repel, or migrate any pest, or substances intended for use as a plant regulator, defoliant, or desiccant.

51. *Petroleum product* means a petroleum product that is obtained from distilling and processing crude oil and that is capable of being used as a fuel for the propulsion of a motor vehicle, or aircraft, including motor gasoline, gasohol, other alcohol blended fuels, aviation gasoline, kerosene, distillate fuel oil, and #1 and #2 diesel.

52. *Petroleum storage tank (PST)* means any one or combination of aboveground or underground storage tanks that contain petroleum product and any connecting underground pipes.

53. *Point source* means any discernable, confined, and discrete conveyance including, but not limited to: any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, landfill leachate collection system, vessel or other floating craft from which pollutants are or may be discharged. This term does not include return flows from irrigated agriculture or agricultural storm water runoff.

54. *Pollutant* means dredged spoil, spoil waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical waste, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, soil, yard waste, hazardous household wastes, used motor oil, anti-freeze, litter, and industrial, municipal, and agricultural waste discharged into water and/or any substance, debris, matter that may be carried downstream by storm water runoff, and/or any substance or matter that may be dissolved in storm water runoff.

55. *Pollution* means the alteration of the physical, thermal, chemical, or biological quality of, or the contamination of, any water in the state that renders the water harmful, detrimental, or injurious to humans, animal life, vegetation, or property, or public health, safety, or welfare, or impairs the usefulness or the public enjoyment of the water for any lawful or reasonable purpose.

56. *Qualified personnel* means persons who possess the required certification, license, or appropriate competence, skills, and ability as demonstrated by sufficient education, training, and/or experience to perform a specific activity in a timely and complete manner consistent with the regulatory requirements and generally accepted industry standards for such activity.

57. *Redevelopment* or *redevelopment site* means a change to previously existing improved property, including but not limited to the demolition or building structures, filling, grading, paving, or excavating.

58. *Release* means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the municipal separate storm sewer system (MS4) or the waters of the United States.

59. *Reportable quantity (RQ)* means, for any hazardous substance, the quantity established and listed in Table 302.4 of 40 CFR Part 302; for any extremely hazardous substance, the quantity established in 40 CFR Part 355.

60. *Rubbish* means nonputrescible solid waste, excluding ashes, that consist of: (a) combustible waste materials, including paper, rags, cartons, wood, excelsior, furniture, rubber, plastics, yard trimmings, leaves, and similar materials; and (b) noncombustible waste materials, including grass, crockery, tin cans, aluminum cans, metal furniture, and similar materials that do not burn at

ordinary incinerator temperatures (one thousand six hundred to one thousand eight hundred degrees Fahrenheit).

61. *Sanitary sewer* means the system of pipes, conduits, and other conveyances which carry industrial waste and domestic sewage from residential dwellings, commercial buildings, industrial and manufacturing facilities, and institutions, whether treated or untreated, to the city sewage treatment plant (and to which storm water, surface water, and groundwater are not intentionally admitted).

62. *Septic tank waste* means any domestic sewage from holding tanks such as vessels, chemical toilets, campers, trailers, and septic tanks.

63. *Service station* means any retail establishment engaged in the business of selling fuel for motor vehicles that is dispensed from pumps.

64. *Sewage* means the domestic sewage mid and/or industrial waste that is discharged into the city sanitary sewer system and passes through the sanitary sewer system to the city sewage treatment plant for treatment.

65. *Site* means the land or water area where development or redevelopment is physically located or being conducted, including lands adjacent to the development that is not subject to land disturbing activities but that is used as a staging area or for other uses in connection with the new development or redevelopment.

66. *Solid waste* means any garbage, rubbish, refuse, sludge from a waste treatment plant, water supply treatment plant, or air pollution control facility, and other discarded material including: solid, liquid, semi-solid, or contained gaseous material resulting from industrial, municipal, commercial, mining, agricultural operations, and community and institutional activities.

67. *State* means the state of Kansas.

68. *Storm water* means storm water runoff, snow melt runoff, and surface runoff and drainage.

69. *Storm water discharge associated with industrial activity* means the discharge from any conveyance which is used for collecting and conveying storm water and which is directly related to manufacturing, processing, or raw materials storage areas at an industrial plant which is listed as one of the categories of facilities in 40 CFR Section 122.26(b)(14), and which is not excluded from EPA's definition of the same term.

70. *Storm water management facility* or *storm water control* means any structure or installation used to manage storm water quality, flow rate, or volume.

71. *Storm Water Manual* refers to the latest version, as amended, of the document on file with the director of public works entitled City of Wichita/Sedgwick County Storm Water Manual.

72. *Storm water pollution prevention plan (SWP3)* means a plan required by an NPDES storm water permit and which describes and ensures the implementation of practices that are to be used to reduce the pollutants in storm water discharges associated with construction or other industrial activity.

73. *Subdivision development* means and includes activities associated with the platting of any parcel of land into two or more lots and includes all construction taking place thereon.

74. *Undisturbed property* means real property which has not been altered from its natural condition so that the entrance of water into the soil mantle is prevented or retarded through changes to the topography or soils.

75. *Used oil (or used motor oil)* means any oil that has been refined from crude oil a synthetic oil that, as a result of use, storage, or handling; has become unsuit-

able for its original purpose because of impurities or the loss of original properties.

76. *Water of the state (or water)* means any groundwater, percolating or otherwise, lakes, bays, ponds, impounding reservoirs, springs, rivers, streams, creeks, estuaries, marshes, inlets, canals, inside the territorial limits of the state, and all other bodies of surface water, natural or artificial, navigable or non-navigable, and including the beds and banks of all water courses and bodies of surface water, that are wholly or partially inside or bordering the state or inside the jurisdiction of the state.

77. *Water quality standard* means the designation of a body or segment of surface water in the state for desirable uses and the narrative and numerical criteria deemed by the state to be necessary to protect those uses.

78. *Waters of the United States* means all waters which are currently used, were used in the past, or may be susceptible to use in interstate or foreign commerce, including all waters which are subject to the ebb and the flow of the tide; all interstate waters, including interstate wetlands; all other waters the use, degradation, or destruction of which would affect or could affect interstate or foreign commerce; all impoundments of waters otherwise defined as waters of the United States under this definition; all tributaries of waters identified in this definition; all wetlands adjacent to waters identified in this definition; and any water within the federal definition of "waters of the United States" at 40 CFR Section 122.2; but not including any waste treatment systems, treatment ponds, or lagoons designed to meet the requirements of the Federal Clean Water Act.

79. *Watershed* means the cumulative area that drains to a common point.

80. *Watershed plan* means an engineering and planning study for the drainage system and/or land areas of a watershed that may include a plan for storm water management in the watershed. Watershed plans can include, but are not limited to, the analysis of flooding problems, water quality problems, potential storm water capital improvements, land use patterns, and regulatory issues for existing and potential future land use conditions and address solutions to these problems.

81. *Wetland* means any area that is inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas.

82. *Yard waste* means leaves, grass clippings, yard and garden debris, and brush that results from landscaping maintenance and land-clearing operations.

(Ord. No. 44-123 § 1; Ord. No. 48-904 § 1, 11-16-2010; Ord. No. 50-266 § 1, 6-21-16)

Sec. 16.32.020. General prohibition.

A. No person shall introduce or cause to be introduced into the municipal separate storm sewer system (MS4) any discharge that is not composed entirely of stormwater, except as allowed in subsection B.

B. The following nonstormwater discharges are deemed acceptable and not a violation of this section:

1. A discharge authorized by, and in full compliance with, an NPDES permit (other than the NPDES permit for discharges from the MS4);

2. A discharge or flow resulting from emergency fire fighting;

3. A discharge or flow of fire protection water that does not contain oil or hazardous substances or materials;

4. A discharge from water line flushing;

5. A discharge or flow from lawn watering, landscape irrigation, or other irrigation water;
6. A discharge or flow from a diverted stream flow or natural spring;
7. A discharge or flow from uncontaminated pumped groundwater or rising groundwater;
8. Uncontaminated groundwater infiltration;
9. Uncontaminated discharge or flow from a foundation drain, crawl space pump, footing drain, or sump pump;
10. A discharge or flow from a potable water source not containing any harmful substance or material from the cleaning or draining of a storage tank or other container;
11. A discharge or flow from air conditioning condensation that is unmixed with water from a cooling tower, emissions scrubber, emissions filter, or any other source of pollutant;
12. A discharge or flow from individual residential car washing;
13. A discharge or flow from a riparian habitat or wetland or natural spring;
14. A discharge or flow from water used in street washing that is not contaminated with any soap, detergent, degreaser, solvent, emulsifier, dispersant, or any other harmful cleaning substance;
15. Stormwater runoff from a roof that is not contaminated by any runoff or discharge from an emissions scrubber or filter or any other source of pollutant;
16. Swimming pool water, excluding filter backwash; that has been dechlorinated so that it contains no harmful quantity of chlorine, muriatic acid or other chemical used

to cause, or does cause, a harmful quantity of the pesticide or fertilizer to enter the MS4 or waters of the United States.

G. Used Oil Regulation.

1. No person shall discharge used oil into the MS4 or a sewer, drainage system, septic tank, surface water, groundwater, or water course.

H. Cleanup. Should it be determined by the director that any person or business has allowed any pollutant into the MS4 or waters of the United States, immediate measures will be taken by the responsible party to remove the pollutants. If the pollutants are not removed within the time period specified by the director, the city may remove the pollutants and assess the cost thereof to the responsible party. The city may use any legal means to collect said cost, should the responsible party fail to pay said cost within forty-five days.
(Ord. No. 44-123 § 3)

Sec. 16.32.040. Release reporting and cleanup.

A. Any person responsible for any release of any hazardous material that may flow, leach, enter, or otherwise be introduced into the MS4 or waters of the United States shall comply with all state, federal, and any other local law requiring reporting, clean-up, containment, and any other appropriate remedial action in response to the release.

B. Within thirty days following such release, the Wichita fire department shall submit a written report to the public works department detailing spill information and the methods used to remedy the problem.
(Ord. No. 44-123 § 4)

Sec. 16.32.050. Stormwater discharges from construction activities.

A. General Requirements (All Sites).

1. The owners of construction sites shall ensure that best management practices are used to control and reduce the discharge of pollutants into the MS4 and waters of the United States to the maximum extent possible under the circumstances.

2. Qualified personnel (provided by the owner of the construction site) shall inspect disturbed areas that have not been finally stabilized, areas used for storage of materials that are exposed to precipitation, structural control measures, and locations where vehicles enter or exit the site, at least once every seven calendar days and within twenty-four hours of the end of a storm that is one-half inch or greater. All erosion and sediment control measures and other identified best management practices shall be observed in order to ensure that they are operating correctly and are effective in preventing significant impacts to receiving waters and the MS4. Based on the results of the inspection, the best management practices shall be revised as appropriate as soon as practicable. These inspections, along with a description of revisions, will be documented in writing and available for inspection by the director and OCI upon request.

3. Should it be found that soil or pollutants have already or may be carried into the MS4 or waters of the United States, immediate measures will be taken by the owner to remedy the violation and/or remove the pollutants. If the owner fails to remove pollutants within the time period prescribed in the notice of violation from the city, the city may remove the pollutants and assess the cost thereof to the responsible owner. Failure of the owner to pay said costs will be grounds for the denial of further approvals or the withholding of occupancy certificates.

4. When determined to be necessary for the effective implementation of this section, the director may require any plans and specifications that are prepared for the construction of site improvements to illustrate and describe the best management practices required by subsection A.1 of this section above that will be imple-

mented at the construction site. Should the proper BMP's not be installed or if the BMP's are ineffective, upon reasonable notice to the owner, the city may deny approval of any building permit, grading permit, subdivision plat, site development plan, or any other city approval necessary to commence or continue construction, or to assume occupancy.

5. The owner of a site of construction activity is responsible for compliance with the requirements in this subsection. In the case of new subdivisions, builders on individual lots can operate under the developers NPDES permit if the developer's SWP3 deals with individual lots and the contractors certification has been signed.

6. Any contractor on a construction site will also be required to use best management practices so as to minimize pollutants that enter into the MS4.

7. All persons shall avoid damaging BMP devices once in place. Any person damaging a BMP device shall be responsible for the repair of the damaged BMP device. Malicious destruction of a BMP device or failure of such responsible person to repair BMP device will be deemed a violation of this chapter.

B. Sites Requiring Federal and/or State NPDES Stormwater Discharge Permits. All owners of and contractors on sites of construction activity, that require a federal or state NPDES stormwater discharge permit, or that are part of a common plan of development or sale requiring said permit(s), shall comply with the following requirements (in addition to those in subsection A):

1. Any owner who intends to obtain coverage for stormwater discharges from a construction site under the Kansas General Permit for Stormwater Discharges From Construction Sites ("the construction general permit") shall submit a signed copy of its notice of intent (NOI) to OCI when a building permit application is made. If the construction activity is already underway upon the effective date of this chapter, [January 1, 1999] the NOI shall be submitted within thirty days. When ownership of the construction site changes, a revised NOI shall be submitted within fifteen days of the change in ownership.

2. A stormwater pollution prevention plan (SWP3) shall be prepared and implemented in accordance with the requirements of the construction general permit or any individual or group NPDES permit issued for stormwater discharges from the construction site, and with any additional requirement imposed by or under this chapter and any other city ordinance.

3. The SWP3 shall be prepared by a qualified person and shall comply with State NPDES requirements. The signature of the preparer shall constitute his/her attestation that the SWP3 fully complies with the requirements of the permit issued.

4. The SWP3 shall be completed prior to the submittal of the NOI to OCI and for new construction, prior to the commencement of construction activities. The SWP3 shall be updated and modified as appropriate and as required by the NPDES permit.

5. The director and/or OCI may require any owner who is required by subsection B.2 of this section to prepare a SWP3, to submit the SWP3, and any modifications thereto, to the Director and/or OCI for review at any time.

6. Upon the director's review of the SWP3 and any site inspection that he/she may conduct, if the SWP3 is not being fully implemented, the director may upon reasonable notice to the owner, deny approval of any building permit, grading permit, site development plan, final occupancy certificate, or any other city approval necessary to commence or continue construction. A stop work order may also be issued.

are used to control and reduce the discharge of pollutants into the MS4 and waters of the United States to the maximum extent possible under the circumstances.

2. Qualified personnel (provided by the owner of the construction site) shall inspect disturbed areas that have not been finally stabilized, areas used for storage of materials that are exposed to precipitation, structural control measures, and locations where vehicles enter or exit the site, at least once every seven calendar days and within twenty-four hours of the end of a storm that is one-half inch or greater. All erosion and sediment control measures and other identified best management practices shall be observed in order to ensure that they are operating correctly and are effective in preventing significant impacts to receiving waters and the MS4. Based on the results of the inspection, the best management practices shall be revised as appropriate as soon as practicable. These inspections, along with a description of revisions, will be documented in writing and available for inspection by the director and OCI upon request.

3. Should it be found that soil or pollutants have already or may be carried into the MS4 or waters of the United States, immediate measures will be taken by the owner to remedy the violation and/or remove the pollutants. If the owner fails to remove pollutants within the time period prescribed in the notice of violation from the city, the city may remove the pollutants and assess the cost thereof to the responsible owner. Failure of the owner to pay said costs will be grounds for the denial of further approvals or the withholding of occupancy certificates.

4. When determined to be necessary for the effective implementation of this section, the director may require any plans and specifications that are prepared for the construction of site improvements to illustrate and describe the best management practices required by subsection A.1 of this section above that will be implemented at the construction site. Should the proper BMP's not be installed or if the BMP's are ineffective, upon reasonable notice to the owner, the city may deny approval of any building permit, grading permit, subdivision plat, site development plan, or any other city approval necessary to commence or continue construction, or to assume occupancy.

5. The owner of a site of construction activity is responsible for compliance with the requirements in this subsection. In the case of new subdivisions, builders on individual lots can operate under the developers NPDES permit if the developer's SWP3 deals with individual lots and the contractors certification has been signed.

6. Any contractor on a construction site will also be required to use best management practices so as to minimize pollutants that enter into the MS4.

7. All persons shall avoid damaging BMP devices once in place. Any person damaging a BMP device shall be responsible for the repair of the damaged BMP device. Malicious destruction of a BMP device or failure of such responsible person to repair BMP device will be deemed a violation of this chapter.

B. *Sites Requiring Federal and/or State NPDES Stormwater Discharge Permits.* All owners of and contractors on sites of construction activity, that require a federal or state NPDES stormwater discharge permit, or that are part of a common plan of development or sale requiring said permit(s), shall comply with the following requirements (in addition to those in subsection A):

1. Any owner who intends to obtain coverage for stormwater discharges from a construction site under the Kansas General Permit for Stormwater Discharges From Construction Sites ("the construction general permit") shall submit a signed copy of its notice of intent (NOI) to OCI when a building permit application is made. If the construction activity is already under-

way upon the effective date of this chapter, [January 1, 1999] the NOI shall be submitted within thirty days. When ownership of the construction site changes, a revised NOI shall be submitted within fifteen days of the change in ownership.

2. A stormwater pollution prevention plan (SWP3) shall be prepared and implemented in accordance with the requirements of the construction general permit or any individual or group NPDES permit issued for stormwater discharges from the construction site, and with any additional requirement imposed by or under this chapter and any other city ordinance.

3. The SWP3 shall be prepared by a qualified person and shall comply with State NPDES requirements. The signature of the preparer shall constitute his/her attestation that the SWP3 fully complies with the requirements of the permit issued.

4. The SWP3 shall be completed prior to the submittal of the NOI to OCI and for new construction, prior to the commencement of construction activities. The SWP3 shall be updated and modified as appropriate and as required by the NPDES permit.

5. The director and/or OCI may require any owner who is required by subsection B.2 of this section to prepare a SWP3, to submit the SWP3, and any modifications thereto, to the Director and/or OCI for review at any time.

6. Upon the director's review of the SWP3 and any site inspection that he/she may conduct, if the SWP3 is not being fully implemented, the director may upon reasonable notice to the owner, deny approval of any building permit, grading permit, site development plan, final occupancy certificate, or any other city approval necessary to commence or continue construction. A stop work order may also be issued.

7. All contractors working on a site subject to an NPDES permit shall sign a copy of the following certification statement before beginning work on the site:

   I certify under penalty of law that I understand the terms and conditions of the National Pollutant Discharge Elimination System (NPDES) permit that authorizes the stormwater discharges associated with construction activity from the construction site identified as part of this certification and with the Stormwater Pollution Prevention Plan Chapter of the city, and I agree to implement and follow the provisions of the Stormwater Pollution Prevention Plan (SWP3) for the construction site;

   The certification must include the name and title of the person providing the signature; the name, address, and telephone number of the contracting firm; the address (or other identifying description) of the site; and the date the certification is made.

   All contractors will be responsible for their own activities to ensure that they comply with the owners' SWP3. Failure to comply with the SWP3 or malicious destruction of BMP devices is hereby deemed to be a violation of this chapter.

8. The SWP3 and the certifications of contractors required by subsection B.7 of this section, and with any modifications attached, shall be retained at the construction site or at a local office in Wichita from the date of construction commencement through the date of final stabilization.

9. The director may notify the owner at any time that the SWP3 does not meet the requirements of the NPDES permit issued or any additional requirement imposed by or under this chapter. Such notification shall identify those provisions of the permit or chapter which are not being met by the SWP3, and identify which provisions of the SWP3 require modification in order to meet such requirements. Within thirty days of such notification

from the director, the owner shall make the required changes to the SWP3 and shall submit to the director a written certification from the owner that the requested changes have been made.

10. The owner shall amend the SWP3 whenever there is a change in design, construction, operation, or maintenance, which has a significant effect on the potential for the discharge of pollutants to the MS4 or to the waters of the United States, and which has not otherwise been addressed in the SWP3, or if the SWP3 proves to be ineffective in eliminating or significantly minimizing pollutants, or in otherwise achieving the general objective of controlling pollutants in stormwater discharges.

11. Qualified personnel (provided by the owner of the construction site) shall inspect disturbed areas that have not been finally stabilized, areas used for storage of materials that are exposed to precipitation, structural control measures, and locations where vehicles enter or exit the site, at least once every seven calendar days and within twenty-four hours of the end of the storm that is one-half inch or greater. Disturbed areas and areas used for storage of materials that are exposed to precipitation shall be inspected for evidence of, or the potential for, pollutants entering the drainage system. Erosion and sediment control measures identified in the SWP3 shall be observed to ensure that they are operating correctly. Where discharge locations or points are accessible, they shall be inspected to ascertain whether erosion control measures are effective in preventing significant impacts to receiving waters or the MS4. Locations where vehicles enter or exit the site shall be inspected for evidence of off-site sediment tracking.

12. Based on the results of the inspections required by subsection B.11 of this section, the pollution prevention measures identified in the SWP3 shall be revised as appropriate. Such modifications shall provide for timely implementation of any changes to the SWP3 within ten calendar days following the inspection.

13. A report summarizing the scope of any inspection required by subsection B.11 of this section, and the names(s) and qualifications of personnel making the inspection, the date(s) of the inspection, major observations relating to the implementation of the SWP3, and actions taken in accordance with subsection B.12 of this section above shall be made and refined on site or at a local office in Wichita as part of the SWP3. Such report shall identify any incidence of noncompliance. Where a report does not identify any incidence of noncompliance, the report shall contain a certification that the facility is in compliance with the SWP3, the facility's NPDES permit, and this chapter. The report shall be certified and signed by the person responsible for making it.

14. The owner shall retain copies of any SWP3 and all reports required by this chapter or by the NPDES permit for the site, and records of all data used to complete the NOI for a period of at least three years from the date that the site is finally stabilized.

15. Upon final stabilization of the construction site, the owner shall submit written certification to the director and OCI that the site has been finally stabilized. The city may withhold the final occupancy or use permit for any premises constructed on the site until such certification of final stabilization has been filed and the director has determined, following any appropriate inspection, that final stabilization has occurred and that any required permanent structural controls have been completed.

(Ord. No. 44-123 § 5)

Sec. 16.32.060. Stormwater discharges associated with industrial activity.

A. All operators of: (1) municipal landfills; (2) hazardous waste treatment, disposal, and recovery facilities; (3) industrial facilities that are

subject to Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA) 42, U.S.C. Section 11023; industrial facilities required to obtain NPDES stormwater discharge permits due to their Standard Industrial Classification or narrative description; and (4) industrial facilities that the director determines are contributing a substantial pollutant loading to the MS4, which are sources of stormwater discharges associated with industrial activity, shall comply with the following requirements:

1. Any owner who intends, after the effective date of this chapter,* to obtain coverage for a stormwater discharge associated with industrial activity under the Kansas General Permit for Stormwater Discharges Associated With Industrial Activity ("the industrial general permit") shall submit a signed copy of its notice of intent (NOI) to the director.

2. When required by their NPDES permit, all industries listed in this section shall prepare a stormwater pollution prevention plan (SWP3) and implement said plan in accordance with the requirements of their state or federal NPDES permit.

3. The SWP3, when required, shall be prepared and signed by a qualified individual and will comply with all state NPDES requirements. The signature of the preparer shall constitute his/her attestation that the SWP3 fully complies with the requirements of the NPDES permit.

4. The SWP3, when required, shall be updated and modified as appropriate and as required by the NPDES permit and this chapter.

5. A copy of any NOI that is required by subsection A.1 of this section shall be submitted to the city in conjunction with any application for a permit or any other city approval necessary to commence or continue operation of the industrial facility.

6. The Director may require any operator who is required by subsection A.2 of this section to prepare a SWP3, to submit the SWP3, and any modifications thereto, to the director for review.

7. Upon the director's review of the SWP3 and any site inspection that he/she may conduct, the director may upon reasonable notice to the owner deny approval necessary to commence or continue operation of the facility, on the grounds that the SWP3 does not comply with the requirements of the NPDES permit, or any additional requirement imposed by or under this chapter. Also, if at any time the director determines that the SWP3 is not being fully implemented, upon reasonable notice to the owner, he/she may deny approval of any application for a permit or other city approval necessary to commence or continue operation of the facility.

8. The SWP3, if required, with any modifications attached, shall be retained at the industrial facility from the date of commencement of operations until all stormwater discharges associated with industrial activity at the facility are eliminated and the required notice of termination (NOT) has been submitted.

9. The director may notify the owner at any time that the SWP3 does not meet the requirements of the NPDES permit, or any additional requirement imposed by or under this chapter. Such notification shall identify those provisions of the permit or chapter which are not being met by the SWP3, and identify which provisions require modification in order to meet such requirements. Upon thirty days of such notification from the director, the owner shall submit to the director a written certification that the requested changes have been made.

10. The owner shall amend the SWP3, if required, whenever there is a change in design, construction, operation, or maintenance, which has a significant effect on

*__Editor's note—__Ordinance 44-123, which enacted Chapter 16.32, is effective on January 1, 1999.

the potential for the discharge of pollutants to the MS4 or to the waters of the United States, or if the SWP3 proves to be ineffective in eliminating or significantly minimizing pollutants, or in otherwise achieving the general objective of controlling pollutants in stormwater discharges.

11. As may be required by the facilities NPDES permit, qualified personnel (provided by the owner) shall inspect equipment and areas of the facility specified in the SWP3 at appropriate intervals or as may be specified in their NPDES permit. A set of tracking or follow up procedures shall be used to ensure that appropriate actions are taken in response to the inspections. Records of inspection shall be maintained.

12. Industrial facilities will implement a sampling and testing program as required by their individual NPDES permits. The director may require written reports of any such monitoring and testing to be submitted to him/her.

13. The owner shall retain the SWP3 and all sampling and testing reports until at least one year after stormwater discharges associated with industrial activity at the facility are eliminated, or the operator is no longer operating the facility, and a notice of termination (NOT) has been submitted.

14. For discharges subject to the semi-annual or annual monitoring requirements of the industrial general permit, in addition to the records-retention requirements of the paragraph above, owners are required to retain for a six year period from the date of sample collection, records of all sampling and testing information collected. Owners must submit such monitoring results, and/or a summary thereof, to the director upon his/her request.

15. After the effective date of this chapter,* no stormwater discharge shall contain any hazardous metals in a concentration that would result in the violation of any Kansas Surface Water Quality Standard.

(Ord. No. 44-123 § 6)

Sec. 16.32.070. Ditches and ponds.

A. Duty to Maintain. The owner of any private drainage ditch or pond that empties into the city's MS4 or the waters of the United States has a duty to use BMP's on the ditches or pond to minimize the pollutant levels downstream. Such BMP's include, but are not limited to, removing excessive build-up of silt, repairing bank erosion, maintaining vegetative cover, the cleaning of inlet and outlet works, and the like.

B. Inspection and Notice by City. The city will periodically inspect these privately owned ditches and ponds. Should conditions be found that cause the pollution of downstream receiving waters, the director shall so notify the owners, and state what actions are expected by the owners to remedy the problem.

C. Failure to Repair. Should the owners fail to make the necessary repair within one hundred twenty days after notice, the city is authorized to do the repairs at the expense of the owner. Should the owner fail to reimburse the city for the cost of the repairs upon demand, the city may assess the cost thereof to the owner and initiate any collection proceedings authorized by law.

(Ord. No. 44-123 § 7)

Sec. 16.32.080. Compliance monitoring.

A. *Right of entry.* The Director, the Superintendant of OCI and the City Health Officer, or their authorized representatives, shall have the right to enter the premises of any person discharging storm water to the municipal separate storm sewer system (MS4) or to waters of the United States at any reasonable time to determine if the discharger is complying with all requirements of this chapter, and with any state or federal discharge permit, limitation, or requirement. Dischargers shall allow the inspectors ready access to all parts of the premises for the purposes of inspection, sampling, records examination and copying, and for the performance of any additional duties.

*__Editor's note—__Ordinance 44-123, which enacted Chapter 16.32, is effective on January 1, 1999.

B. *Records.* Subject to the requirements of subsection A, dischargers shall make available, upon request, any SWP3's, modifications thereto, self-inspection reports, monitoring records, compliance evaluations, notice of intent, and any other records, reports, and other documents related to compliance with this chapter and with any state or federal discharge permit.

C. *Sampling.* The Director shall have the right to set up on the discharger's property such devices that are necessary to conduct sampling of storm water discharges.
(Ord. No. 44-123 § 8; Ord. No. 48-904, § 2, 11-16-2010)

Sec. 16.32.090. Subdivision development.

A. The developer of any subdivision requiring a federal or state NPDES stormwater discharge permit will be responsible for obtaining the required permit and developing and implementing an overall SWP3 for the subdivision. Said SWP3 shall include BMP's to be used on individual lot building sites.

B. City contractors installing public streets; water, sanitary sewer, storm sewer lines; and/or sidewalks will be required to comply with the developers SWP3's and sign the appropriate contractor certification statement. For work in public right-of-way or easements requiring a federal or state NPDES stormwater discharge permit, the city shall be responsible for obtaining the required permit and preparing and implementing the required SWP3's.

C. Any utility company installing utilities within a new subdivision will also be required to comply with the developers SWP3's and sign the appropriate contractor certification statement. For work in public rights-of-way or easements requiring a federal or state NPDES stormwater discharge permit, the utility company shall be responsible for obtaining the required permit and preparing and implementing the required SWP3's.

D. The purchasers or individual lots within the subdivision for construction purposes shall comply with the developers SWP3 and shall sign a certification statement agreeing to do so.
(Ord. No. 44-123 § 9)

Sec. 16.32.091. Storm water quality management standards

A. *Applicability.*

1. Water quality treatment and downstream channel protection shall be required of owners of new developments and redevelopments that cause a land disturbance greater than or equal to one acre, including projects that cause a land disturbance less than one acre that are part of a larger common plan of development or sale.

2. The requirements of 16.32.091 shall not apply to:

   i. new developments or redevelopments that have a construction plan approved by January 1, 2011 and will have completed construction of all storm water management facilities within 90 days of January 1, 2011. This does not exempt such new developments from water quality management regulations that may be required in the future by EPA or KDHE; or,

   ii. redevelopment projects that consist solely of ordinary maintenance activities, remodeling of buildings on the existing foundation, resurfacing (milling and overlay) of existing paved areas, and exterior changes or improvements.

B. *Water quality treatment standard for new developments.* Storm water runoff from applicable new developments must be treated for water quality prior to discharge from the development site in accordance with the storm water treatment standards and criteria provided in the Storm Water Manual.

C. *Water quality treatment standard for redevelopments.* Owners of applicable redevelopments must adhere to one of the following requirements.

1. The total impervious cover of the property after redevelopment shall be reduced by at least 20% from the total impervious cover of the property prior to the proposed redevelopment.

2. Storm water runoff from at least 30% of the site's existing impervious cover and for 100% of any new land disturbance that will result from the proposed redevelopment shall be treated for water quality prior to discharge from the redevelopment site in accordance with the storm water treatment standards and criteria provided in the Storm Water Manual.

3. The owner shall provide storm water controls at an alternative location in the same watershed as the proposed redevelopment. The level of storm water control provided shall be equivalent to what would have been provided at the proposed redevelopment for either requirement 1 or 2 above, at a minimum.

4. In agreement and partnership with the City of Wichita, the owner shall provide engineering design and/or construction activities to address one or more known downstream water quality or channel erosion issues located within the same watershed as the proposed redevelopment, through stream restoration and/or other off-site remedies approved by the Director.

5. The owner shall pay a fee in-lieu-of water quality control and channel protection control, in an amount to be determined by the city in accordance with the in-lieu-of fee schedule as adopted by the City Council of the City of Wichita per the watershed plan which covers the redevelopment.

6. Any combination of (1) through (5) above may be acceptable to the City of Wichita or other solution(s) approved by the Director that meets the intent of this chapter.

D. *Downstream stabilization standard.* Downstream long-term channel protection shall be provided for applicable new developments and redevelopments prior to discharge from the new/redevelopment site in accordance with the downstream stabilization standards and criteria provided in the Storm Water Manual.
(Ord. No. 48-904 § 3, 11-16-2010)

Sec. 16.32.092. Storm water quantity management standards.

A. *Applicability.* Storm water runoff peak discharge analysis and control shall be required for new developments and redevelopments that will create or add one acre or greater of impervious cover, including projects that have less than one acre in impervious cover that are part of a larger common plan of development or sale that will result in one acre or greater of impervious cover.

B. *Water quantity management standard.* Storm water runoff peak discharge analysis and control shall be required for applicable new developments or redevelopments in accordance with the storm water quantity standards and criteria provided in the Storm Water Manual.
(Ord. No. 48-904 § 4, 11-16-2010)

Sec. 16.32.093. Other storm water management requirements.

A. *Applicability.* Section 16.32.093 is applicable to new developments and redevelopments that are required to comply with section 16.32.091 and/or section 16.32.092.

B. *Alternative standards for individual watersheds.* Alternative storm water management standards, either lesser or greater than those specified in this chapter, may be required by the Director in those areas or watersheds where water quality, flooding or erosion problems are known to exist, or in individual watersheds where a watershed plan or storm water master plan, approved by the City Council of the City of Wichita, specifies such alternative standards.

C. *Other requirements for storm water discharges.*

1. Storm water discharges shall be managed in consideration of the erosion control measures detailed in the Storm Water Manual.

2. Any discharge of storm water runoff to groundwater must meet all applicable local, State and Federal requirements, permits, plans and programs. The owner

is responsible for complying with all local State and Federal permits that are applicable to the site.

D. *Requirement to stabilize banks.* Banks of all streams, channels, ditches and other earthen storm water conveyances shall be left in a stabilized condition upon completion of the new development or redevelopment. No actively eroding, bare or unstable vertical banks shall remain after completion of construction.

E. *Requirement to use the storm water manual.* All storm water facilities and systems, including those designed and constructed for water quality treatment, downstream channel stabilization, and peak discharge control shall be designed, constructed and maintained in accordance with the criteria, standards, and specifications presented in this chapter and in the Storm Water Manual. The standards for water quality treatment, downstream channel stabilization and peak discharge analysis and control shall be achieved through the use of one or more storm water quality management facilities that are designed and constructed in accordance with the design criteria, guidance, and specifications provided in the Storm Water Manual. Methods, designs or technologies for storm water quality management facilities that are not provided in the Storm Water Manual may be submitted for approval by the city if it is proven that such methods, designs or technologies will meet or exceed the storm water treatment standards set forth in the Storm Water Manual and this ordinance. Proof of such methods, designs, or technologies must meet the minimum testing criteria set forth in the Storm Water Manual.

F. *Storm water facilities on public property.* Storm water management facilities shall not be installed within public rights-of-way or on public property unless a permit has been issued by the city engineer.
(Ord. No. 48-904 § 5, 11-16-2010)

Sec. 16.32.094. Waivers and exemptions from storm water management standards.

A. *Exemptions.* Owners of properties where the following activities are undertaken are exempt from the requirements of sections 16.32.091, 16.32.092, 16.32.093 and 16.32.094 of this chapter.

1. Minor land disturbing activities at individual locations, such as gardening, building or grounds maintenance and landscaping, provided that the activity does not result in equal to or greater than one (1) acre of land disturbance;
2. Individual utility service connections, unless such activity is carried-out in conjunction with the clearing, grading, excavating, transporting, or filling of a lot or lots for which a grading permit would otherwise be required by regulation;
3. Installation, maintenance or repair of individual septic tank lines or drainage fields, unless such activity is carried out in conjunction with the clearing, grading, excavating, transporting, or filling of a lot or lots for which a grading permit would otherwise be required by the regulation;
4. Installation of posts or poles;
5. Farming activities;
6. Unplanned emergency work and emergency repairs necessary to protect life or property.

B. *Waivers.* All or some of the storm water management standards required in section 16.32.091 and/or 16.32.092 of this chapter may be waived by the Director under the following circumstances.

1. *Existing downstream facilities.* A waiver may be provided for one or more storm water management standards if the waived standard(s) are met by discharging the storm water runoff to an existing storm water management facility, whether public or private, that is:
   a. Provided in accordance with an existing watershed plan that is approved by the city; and,
   b. Already in existence, or will be in existence at the time of construction of the new development or redevelopment; and,

c. Designed, constructed and maintained to provide a level of storm water control that is equal or greater than that which would be afforded by on-site storm water management facilities.

d. If a waiver is provided for this reason, the owner of the new development or redevelopment will be required to pay a fee in-lieu-of water quality control, downstream channel stabilization and peak discharge control, in an amount to be determined by the city in accordance with an adopted in-lieu-of fee schedule as adopted by the City Council of the City of Wichita per the watershed plan which covers the new development or redevelopment.

2. *Adverse impact.* A waiver may be provided if engineering studies determine that installing a storm water management facility in order to meet the storm water management standard being considered for waiver will cause adverse impact to water quality, or cause increased channel erosion, or downstream flooding.

3. *Technical criterion.* A waiver may be provided if the technical criterion required to waive the storm water management standard, as presented in the Storm Water Manual, is met. In any case, a waiver is subject to satisfaction of the following requirements, which shall be shown in drainage plans submitted for the new development or redevelopment:

a. The waiver applicant shall provide an engineering study, as defined in 16.32.094.C that proves the adequacy of downstream or shared off-site storm water management facilities to offer equivalent or greater protection than the standard(s) for which a waiver is requested; and,

b. The waiver applicant obtains any necessary CLOMR prior to construction, and a LOMR upon completion of construction; and,

c. The waiver applicant obtains all State and Federal permits that may be applicable to the site.

4. *Offsite BMP program participation.* A waiver of the requirements of section 16.32.091 will be provided for all areas of new development, redevelopment or existing developed property: a) that are registered as participating in the offsite BMP program to offset water quality impacts from the development or redevelopment; and b) for which offsite BMP program fees have been paid when due.

Owner(s) of new development, redevelopment or existing developed property that wish to register all, or portions, of their property for participation in the offsite BMP program shall indicate this intent in the drainage plan as indicated in the storm water manual. Approval of the plan by the director shall serve as the registration of the property, or portions thereof, in the offsite BMP program.

In the event that an owner chooses to terminate the registration for a property, or if BMP program fees for a registered property become more than six months delinquent, and are not paid by the owner within thirty days following notice by the city, the waiver provided by this subsection shall lapse, and the city may require the owner to construct and maintain the on-site BMPs that would have been required to comply with section 16.32.091 of this chapter had a waiver never been effective.

C. *Engineering study required.* In the event that a waiver from storm water management control requirements is requested, the adequacy of downstream or shared off-site storm water management facilities to control storm water runoff shall be determined, reviewed and approved by an engineering study that is performed in accordance with the calculation methods presented in the Storm Water Manual. The engineering studies shall be performed at the expense of the owner(s) of the proposed new development or

redevelopment, unless a study has already been or is being performed by the city as part of a watershed plan or other land use plan.
(Ord. No. 50-266 §§ 1, 2, 6-21-16)

Editor's note—Ord. No. 50-266 § 2, adopted June 21, 2016, repealed the former section 16.32.094, and enacted a new section as set out herein. The former section pertained to waivers and exemptions from storm water management standards for new developments and derived from Ord. 48-904 § 6, adopted Nov. 16, 2010.

Sec. 16.32.095. General requirements for storm water design plans.

A. *[Design information.]* Storm water design information shall be submitted as part of the preliminary plat, final plat and construction plans, in accordance with the site development process established by the city.

B. *[Building permit.]* A building permit shall not be issued for the land development activity until the required storm water design information and corresponding plans are approved by the city.

C. *[Submission.]* At a minimum, the storm water design information submitted at each stage of the city development process shall include the specific required elements that are listed and/or described in the Storm Water Manual, and shall be prepared in accordance with the policies, guidance and calculation methods (unless equivalent methods are pre-approved by the city) presented in the Storm Water Manual. Additional storm water design information may be required as necessary to allow an adequate review of the existing or proposed site conditions.

D. The submittal of storm water design information shall be subject to the requirements set forth in the minimum subdivision regulations, zoning ordinance, or other city regulations.

E. *[Supervision.]* Storm water design information shall be prepared under the supervision of and stamped by a professional engineer licensed to practice in the State of Kansas.

F. *[Viability.]* The portions of the new development or redevelopment on which storm water management facilities and systems are located shall be shown on the preliminary and final plats for all residential subdivisions and recorded with the plat as permanent reserves or easements consistent with the policies stated in the Storm Water Manual. Non-residential plats and/or subdivisions having a total area less than or equal to 15 acres shall be required to demonstrate the viability of proposed storm water management facilities and systems. In such cases, the Director is authorized to allow contingent dedications for storm water facilities providing that the owner/developer enters into an agreement with the City guaranteeing the construction of the said facilities in accordance with a schedule approved in the said agreement.

G. *Conformity to the approved plans.*

1. Grading designs shown on approved master grading plans and the design of storm water facilities and controls shown on approved design plans shall be adhered to during grading and construction activities. Under no circumstance is the owner or operator of land development activities allowed to deviate from the approved plans without prior approval of a plan amendment by the city.
2. Grading and storm water design plans shall be amended to meet all local ordinances and standards if the proposed site conditions change after plan approval is obtained, or if it is determined by the city during the course of grading or construction that the approved plan is inadequate.

H. *Duty to provide an operations and maintenance plan.*

1. An Operations and Maintenance Plan shall be included with the storm water design information submitted with the construction plan. The Operations and Maintenance Plan shall include the required operation and maintenance provisions for each storm water management facility and water quality volume reduction area that is serving, or will serve, the development or redevelopment. The Operations and Maintenance Plan shall include all of the required elements that are listed and/or described

in the Storm Water Manual, and shall be prepared in accordance with the policies and guidance provided in the Storm Water Manual.

2. The Operations and Maintenance Plan shall include an executed legal document entitled "Restrictive Covenants for Storm Water Facilities" (Covenants). The property owner shall record the Covenants with the deed for the property. The location of the storm water management facility(s) and water quality volume reduction areas, the recorded location of the Covenants document, and inspection and maintenance guidance outlining the property owner's responsibility shall be shown on a plat that is recorded for the property

I. *Duty to provide storm water construction information on as-built drawings.*

1. Prior to the release of the performance bond, complete As-Built Drawings shall be provided to the Director, and shall include sufficient design information to show that the storm water facilities will operate as designed under the approved drainage plan.

2. The As-Built Drawings shall include the required elements that are listed and/or described in the Storm Water Manual, and shall be prepared in accordance with the policies and guidance provided in the Storm Water Manual.

3. The As-Built Drawings shall be prepared and stamped by a professional engineer licensed to practice in the State of Kansas.

(Ord. No. 48-904 § 7, 11-16-2010)

Sec. 16.32.096. Maintenance and inspection of storm water drainage paths and controls.

A. *Duty to inspect and maintain storm water systems and controls.* Property owners shall at all times properly maintain and shall at intervals in accordance with the Operations and Maintenance Plan inspect all storm water facilities, systems, conveyances, pipes, channels, ditches, swales, inlets, catchbasins, water quality volume credit areas, and other facilities and systems of storm water treatment and control (and related appurtenances) so that they operate at their full function. Maintenance and inspection of privately-owned storm water management facilities, systems, conveyances, pipes, channels, ditches, swales, inlets, catchbasins, water quality volume credit areas, and other facilities and systems of storm water treatment and control (and related appurtenances) shall be performed at the expense of the owner(s) of such facilities.

B. *Duty to provide inspection reports.* After construction of each storm water management facility on the property is complete, property owners shall provide to the Director on a bi-annual basis a completed and signed copy of the inspection report for each storm water management facility that is included with the Operations and Maintenance Plan for the property. The inspection report is due every two years no later than the date (month and day) of approval of the as-built plan for the property.

C. *Duty to preserve approved grading designs.* Re-grading an individual lot or lots, or portions of a lot or lots, in a manner that is in not accordance the approved master grading plan, such that the direction(s) of storm water runoff is altered from the direction that would occur under the approved master grading plan, shall be considered a violation of this chapter.

D. *Duty to preserve existing drainage paths.* Blockage of a channel, ditch, stream or any other drainage path or storm water system appurtenance that is located in a storm water easement or drainage easement shall be considered a violation of this chapter.

E. *Pollutant removal for maintenance.* The removal of pollutants, sediment and/or other debris for the purpose of maintenance of storm water management facilities shall be performed in accordance with all city, State, and Federal laws.

F. *Inspection during grading or construction.*

1. During grading or construction, the property owner or his/her appointed

designee shall conduct site inspections in accordance with the requirements stated in the Kansas General Permit for Storm Water Discharges from Construction Sites. The property owner will also ensure construction conformance with the approved drainage and construction plans. More stringent inspection requirements may be imposed as necessary for purposes of water quality protection and public safety and to pursue total conformance of the site with the approved plans.

2. The following areas and items must be inspected throughout grading and construction to ensure that land disturbance activities do not cause adverse impacts to the performance of storm water management facilities and/or water quality volume reduction areas:

   i. all unstabilized areas that drain to a permanent storm water facility or water quality volume reduction area;

   ii. temporary and permanent storm water management facilities; and,

   iii. all erosion prevention and sediment control measures.

G. *Inspection after construction.* Once the site has been stabilized and construction has ceased, the property owner or his/her appointed designee shall conduct routine inspections for the storm water management facilities and water quality reduction areas, based on the guidance provided in the Operations and Maintenance Plan and the requirements of the "Restrictive Covenants for Storm Water Facilities" for the property, as set forth in section 16.32.095.H.2. of this ordinance.

H. *Inspection records.* Property owners shall make available upon request any self-inspection reports, monitoring/maintenance records, compliance evaluations, notices of intent, and any other records, reports, receipts, and other documents related to compliance with this chapter and with any related local, State or Federal permit.

I. *Right-of-entry.* The Director or his/her designee shall have the right to enter the premises of any person discharging storm water to the MS4 or to waters of the United States at any reasonable time to determine if the discharger is complying with all requirements of this chapter, and with any State or Federal discharge permit, limitation, or requirement. Dischargers shall allow the Director or his/her designee ready access to all parts of the premises for the purposes of inspection, sampling, records examination and copying, and for the performance of any additional duties. Failure of a property owner to allow entry onto a property for the purposes set forth in this section shall be cause for the issuance of a stop work order, withholding of a certificate of occupancy, and/or civil penalties and/or damage assessments in accordance with the enforcement provisions of this chapter.

J. *Inspection and notice by city.* The city may periodically inspect these privately owned storm water controls. If the facility is not operating as shown in the approved As-Built Drawing, or should conditions be found that cause or may cause the pollution of downstream receiving waters or the erosion of downstream channels or the flooding of adjacent or downstream properties, the Director may issue a notice of violation in accordance with the enforcement provisions stated in this chapter and shall notify the property owner(s) of the potential violation(s). The Director may order the property owner(s) to perform corrective actions as are necessary to facilitate the proper operation of these facilities for the purposes of flood prevention, downstream channel stabilization, water quality treatment and/or public safety, and/or to ensure compliance with jurisdictional regulatory conditions.

K. *Failure to perform corrective actions.* If property owner(s) fail to make the necessary corrective actions in the timeframe specified in the enforcement provisions of this chapter, the city is authorized to perform the corrective actions at the expense of the owner(s). If the owner(s) fail to reimburse the city for the corrective actions upon demand, the city may assess the cost of the corrective actions to the owner and initiate any collection proceedings authorized by law.

L. *Access to adjacent properties.* This ordinance does not authorize access by a property owner or site operator to private property adjacent to or

downstream of the owner's property. Arrangements concerning removal of sediment or pollutants on adjoining property must be settled by the owner or operator with the adjoining landowner. (Ord. No. 48-904 § 8, 11-16-2010)

Sec. 16.32.097. Special provisions for open channels.

A. No structure or land shall hereafter be developed, redeveloped, located, extended, converted, or structurally altered without full compliance with the terms of this section, the City of Wichita Floodplain Management Ordinance (Chapter 27.06) and other applicable local, state or federal regulations.

B. Requirements for vegetative buffer zones or maintenance access areas that have been established in approved and adopted watershed plans have priority over the provisions of this section.

C. Closure of open channels. Existing or proposed open channels may be enclosed if a maintenance plan approved by the City is provided; if the closed conduit conforms to the design criteria set in the Storm Water Manual.

D. Access easement required. All open channels must have a minimum twenty (20) foot wide maintenance access on each side of the stream as measured from the top-of-bank on each side of the stream, except as required by KSA 24-126 as amended, and KAR 5-45-12 as amended for "streams" defined in KAR 5-45-1 as amended. (Ord. No. 48-904 § 9, 11-16-2010)

Sec. 16.32.098. Provisions for the offsite BMP program.

Owner(s) of properties registered in the offsite BMP program are subject to the following requirements.

A. *Offsite BMP program fee established.* Subject to the provisions of this chapter, there is imposed on each and every property, or portion of property registered in the offsite BMP program, an offsite BMP program fee. The fee shall be assessed at a yearly rate of $19.00 per acre on the permitted area of the registered property. The fee shall remain in effect for the property as long as the property remains registered in the offsite BMP program.

B. *Fee collection.* The offsite BMP program fee shall be billed and collected concurrently with the sewer utility bill, as part of a consolidated statement for utility customers which shall be paid by a single payment. In the event that a partial payment is received, the payment shall be applied to the water and sewer portion of the account first, then to the drainage fee portion of the account and then to the offsite BMP program fee portion of the account. Unless otherwise provided for herein, all bills for the offsite BMP program fee shall become due and payable in accordance with sections of this code and with rules and regulations that pertain to the water and sewer utility that relates to the collection of utility charges. The offsite BMP program fees for any given property shall initially be the responsibility of the person who is paying for water and/or sewer service for the property (the "customer"). If the property is not using water and/or sewer services, then the offsite BMP program fees shall be the responsibility of the person in possession of the property, unless other arrangements are made. If no person is in possession of the property, then the offsite BMP program fees shall be the responsibility of the property owner. In all cases, the property owner shall be ultimately responsible for the offsite BMP program fees not paid by the customer or occupant.

C. *Penalties for late payment or non-payment.* Offsite BMP program fees shall be subject to a penalty for late payment which is the same as that imposed for late payment of water and sewer utility charges. In addition to any other remedies or penalties provided by this chapter or any other ordinance of the city, failure of any of the person(s) designated in subsection B above to pay such charges promptly

when due shall subject such person(s) to discontinuance of water services and the city manager of the city, or the city manager's designee, is empowered and directed to enforce this provision as to any and all delinquent users in accordance with provision set forth in chapter 17.12. Users shall be entitled to notice and shall have the right to a hearing in accordance with chapter 17.12 before such users' water service is discontinued for failure to pay drainage fees.

Offsite BMP program fees authorized to be charged in this chapter when delinquent may be certified by the clerk of the city to the county clerk of Sedgwick County to be placed on the tax roll for collection, subject to the same penalties and to be collected in like manner as other taxes, and such charges shall, thereafter, constitute a lien upon the real estate served by the stormwater utility and against which such charges were made, regardless of whether the offsite BMP program fees were incurred when a property owner was in possession of the property or a non-owner was in possession of the property. Further, in the event that BMP program fees remain unpaid for the period referenced in section 16.32.094(B)(4), the city may require the property owner to construct and maintain on-site BMPs as therein provided.
(Ord. No. 50-266 § 4, 6-21-16)

Sec. 16.32.100. Enforcement actions.

A. The discharge of, or potential discharge of, any pollutant to the MS4 or waters of the United States and/or the failure to comply with the provisions of this chapter and/or the failure to comply with and directive, citation, or order issued under this chapter; are violations of this chapter for which enforcement action may be taken.

B. Prior to taking any enforcement action as specified in this section, a violator will be issued a notice of violation except when, in the opinion of the Director, an owner or contractor has repeatedly ignored the requirements of this chapter and has not made any reasonable intent to comply with these provisions. When issued, the notice of violation will detail the nature of the violation, actions to be taken to remedy the violation, actions to be taken to clean-up any pollutants, and any specific time periods within which to accomplish said actions. Failure to successfully comply with the notice of violation may result in enforcement action.

C. The enforcement actions to be taken under this chapter, as provided in Section 16.32.110 are as follows:

1. *Criminal penalty.* Any person violating any provision of this chapter is guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than one thousand dollars. Each and every day during which any violation of any provision of this chapter is committed, continue, or permitted is a separate violation.

2. *Stop work order.* Notwithstanding other penalties provided by this chapter, whenever the Director or OCI, or their designees, finds that any owner or contractor on a construction site has violated, or continues to violate, any provision of this chapter or any order issued thereunder, the Director or OCI may after reasonable notice to the owner or contractor issue a stop work order to the owner and contractors by posting such order at the construction site. Said order shall also be distributed to all city departments and divisions whose decisions may affect any activity at the site. Unless express written exception is made, the stop work order shall prohibit any further construction activity at building permit, grading permit, site development plan approval, or any other approval necessary to commence or to continue construction or to assume occupancy at the site. Issuance of a stop work order shall not be a bar against, or a prerequisite for, taking any other action against the violator. Failure to comply with the requirements of any stop work order is a violation of this chapter.

3. *Administrative penalty process.*

a. When the Director finds that any person has violated or continues to violate the provisions set forth in this chapter, or the person's NPDES permit or any order issued thereunder, the Director may issue an order for compliance to the person. Such orders may contain any requirements as might be reasonably necessary and appropriate to address noncompliance including, but not limited to, the installation of best management practices, additional self-monitoring, and/or disconnection from the MS4.

b. The Director is empowered to enter into consent orders, assurances of voluntary compliance, or other similar documents establishing an agreement with any person responsible for noncompliance. Such orders shall include specific action to be taken by the person to correct the noncompliance within a time period specified by the order.

c. Notwithstanding any other remedies or procedures available to the city, any person who is found to have violated any provision of this chapter, or any NPDES permit or any order issued under this chapter, may be assessed an administrative penalty as follows:

1. The minimum administrative penalty for any violation shall be no less than $500.00 per day the violation is maintained and not more than $2,500.00 per day for each day the violation is maintained;

2. Failure to obtain required NPDES permit: up to $2,500.00 per violation;

3. Failure to prepare stormwater pollution prevention plan: up to $2,500.00 per violation;

4. Failure to install best management practices: up to $2,500.00 per violation;

5. Failure to maintain best management practices: up to $2,500.00 per violation;

6. Failure to perform required sampling and testing or provide testing reports: up to $1,000.00 per violation.

7. Commencement of construction without an approved drainage plan: up to $2,500.00 per day of noncompliance;

8. Failure to comply with approved drainage plan: up to $2,500.00 per day of noncompliance;

9. Failure to maintain storm water management facilities: up to $2,500.00 per day of noncompliance.

d. Each day on which noncompliance shall occur or continue shall be deemed a separate and distinct violation.

e. Separate but multiple violations (except for violations under subsection C.3.d) by the same person(s) on one or more sites within any period of twelve consecutive months shall be cause to double the amount of penalty assessed under section C.3.c above for each violation after the first.

f. Upon assessment of any administrative penalty, the city will bill the violator for said charge and the Director shall have such collection remedies as are available at law.

(Ord. No. 44-123 § 10; Ord. No. 48-904 § 10, 11-16-2010)

Sec. 16.32.110. Applicability of enforcement actions.

A. Illegal dumping will be subject to criminal penalties process.

B. Illegal connections will be subject to either the criminal or administrative penalty processes.

C. Industrial violations will be subject to the administrative penalty process.

D. Individual building sites not requiring a federal or state NPDES permit will be subject to the criminal penalty and the stop work order processes; however, any owner or contractor of such site found with multiple violations of this chapter will also be subject to the administrative penalty process.

E. Individual building sites requiring a federal or state NPDES permit will be subject to the administrative penalty process.

F. Subdivision developers in subdivisions not requiring a federal or state NPDES permit will be subject to the criminal penalty and stop work order processes; however, any such developer found with multiple violations of this chapter will also be subject to the administrative penalty process.

G. Subdivision developers of subdivisions requiring a federal or state NPDES permit will be subject to the administrative penalty process.

H. City contractors and utility companies working on projects not requiring a federal or State NPDES permit will be subject to the criminal penalty process.

I. City contractors and utility companies working on projects requiring federal or state NPDES permit will be subject to the administrative penalty process.

J. Property owners, subdivision developers, commercial and industrial developers, and city contractors working on new developments and redevelopments requiring compliance with the City of Wichita storm water quality or quantity management standards will be subject to the criminal penalty, stop work order and administrative penalty processes.

K. Owners of storm water management facilities and systems that are required to be maintained in accordance with an approved Operations and Maintenance Plan will be subject to the criminal penalty and administrative penalty processes.

(Ord. No. 44-123 § 11; Ord. No. 48-904 § 11, 11-16-2010)

Sec. 16.32.120. Hearing and appeal.

A. Persons who desire to appeal an administrative requirement, violation or penalty invoked under this chapter may request a hearing and appeal as follows:

1. Any party affected by a penalty, order, directive or determination issued or made, pursuant to this chapter may, within fourteen days of the issuance of such penalty, order, directive, or determination request a hearing before the Director to show cause why such should be modified or made to not apply to such person. Such request shall be in writing and addressed to the Director of Public Works and Utilities at 455 North Main Street, Wichita, Kansas, 67202. The Director or his designee shall hold the requested hearing as soon as practical after receiving the request, at which time the person affected shall have an opportunity to be heard. At the conclusion of the hearing, the Director shall issue a written response to the person requesting the hearing affirming, modifying, or rescinding the penalty, order, directive, or determination issued or made.

2. Any party aggrieved by the decision of the Director may appeal such decision to the City Council within fourteen days of receipt of the decision by filing notice of appeal with the city clerk. Upon hearing, the City Council may affirm, modify, or reverse the decision of the Director.

(Ord. No. 44-123 § 12; Ord. No. 48-904 § 12, 11-16-2010)

Sec. 16.32.130. Enforcement personnel authorized.

A. The following personnel employed by the city shall have the power to issue notices of violations, criminal citations and implement other enforcement actions under this chapter:

1. All deputies under the supervision of the Superintendent of the Office of Central Inspections;
2. All authorized personnel under the supervision of the Director of Public Works and Utilities;
3. All authorized personnel under the supervision of the City Health Officer.

(Ord. No. 44-123 § 13; Ord. No. 48-904 § 13, 11-16-2010)

Sec. 16.32.140. Other legal actions.

Notwithstanding any other remedies or procedures available to the city, if any person discharges into the MS4 in a manner that is contrary to the provisions of this chapter, or any NPDES permit or order issued hereunder, the city attorney may commence an action for appropriate legal and equitable relief including damages and costs in the district court of Sedgwick County. The city attorney may seek a preliminary or permanent injunction or both which restrains or compels the activities on the part of the discharger.
(Ord. No. 44-123 § 14)

Sec. 16.32.150. Falsifying information.

Falsifying information is a separate offense and deemed a misdemeanor. Any person who knowingly makes false statements, representation or certification in any application, record, report, plan or other document filed or required to be maintained pursuant to this chapter or any NPDES permit, or who falsifies, or tampers with any monitoring device or method required under this chapter shall, upon conviction, be punished by a fine of not more than one thousand dollars or by imprisonment for not more than six months, or by both.
(Ord. No. 44-123 § 15)

Sec. 16.32.160. Supplemental enforcement actions.

A. Performance Bonds. Where necessary for the reasonable implementation of this chapter, the director may, by written notice, order any owner of a source of stormwater discharge associated with construction or industrial activity effected by this chapter to file a satisfactory bond, payable to the city, in a sum not to exceed a value determined by the director to be necessary to achieve consistent compliance with this chapter. The city may deny approval of any building permit, grading permit, subdivision plat, site development plan, or any other city permit or approval necessary to commence or continue construction or industrial activity at the site, or to assume occupancy, until such a performance bond has been filed.

B. Liability Insurance. Where necessary for the reasonable implementation of this chapter, the director may, by written notice, order any owner of a source of stormwater discharge associated with construction or industrial activity effected by this chapter to submit proof that it has obtained liability insurance, or other financial assurance, in an amount not to exceed a value reasonably determined by the director, that is sufficient to remediate, restore, and abate any damage to the MS4, the waters of the United States, or any other aspect of the environment that is caused by the discharge.
(Ord. No. 44-123 § 16)

Sec. 16.32.170. Severability.

If any provision of this chapter is invalidated by any court of competent jurisdiction, the remaining provisions shall not be affected and shall remain in full force and effect.
(Ord. No. 44-123 § 17)

Ch. 17.16. Department of Water and Water Pollution Control

*__Cross reference—__As to appropriating water, see § 5.86.020. As to wasting water, § 5.86.020. As to water which constitutes nuisance, see § 7.40.010. As to water supply for trailer camps, see § 26.04.140. As to sewers and drains, see Title 16. As to discharge of sewage, industrial wastes or waste water into watercourses, see Chapter 16.20. As to plumbing see Title 21.

CHAPTER 17.08. LAWN SPRINKLING SYSTEMS

Sec. 17.08.010. Definitions.
Sec. 17.08.015. Liability, certificates, examinations, cancellations, licenses and permits.
Sec. 17.08.016. Reserved.
Sec. 17.08.017. Truth in advertising requirements.
Sec. 17.08.020. Reserved.
Sec. 17.08.030. Reserved.
Sec. 17.08.040. Location, maintenance and installation of lines and heads.
Sec. 17.08.050. Backflow prevention.
Sec. 17.08.055. Responsibilities of water account holder.
Sec. 17.08.060. Violation—Penalty.

Sec. 17.08.010. Definitions.

"Administrative authority" for the purpose of this chapter, means the administrative authority duly appointed to enforce this Code, shall be the Metropolitan Area Building and Construction Department, and for unsanitary conditions of any plumbing system or portion thereof, including back-siphonage and cross connection, shall also include the Director of Public Works & Utilities. The administrative authority shall make decisions as are necessary to administer and enforce the code. The administrative authority shall have the authority to refer to the board of appeals of plumbers and gas fitters any matter relating to the approval of plumbing material and methods as the same relates to this Code.

"Apprentice" means any person who installs, alters, repairs or replaces lawn sprinkler systems under the direct on-job-site supervision of either a journeyman or master lawn sprinkler installer. An apprentice may repair or replace sprinkler heads only downstream of the backflow device.

"Certified installer/tester" for the purpose of this chapter, means any individual who has been duly qualified by the Director of Public Works & Utilities to install, alter, repair, replace and test approved backflow prevention devices.

"Contractor" for the purpose of this chapter means any individual who has been duly qualified by the Metropolitan Area Building and Construction Department to engage in or work at the trade of installing lawn sprinkler systems. A master and/or journeyman plumber is deemed to be a certified lawn sprinkler installer by definition.

"Director of Public Works & Utilities" means the Director of Wichita Public Works & Utilities, or the director's authorized representative.

"Excavation" for the purpose of this chapter means any opening in the surface of a public property made in any manner whatsoever.

"Journeyman lawn sprinkler installer" means any individual or person who has been approved by the Metropolitan Area Building and Construction Department showing him or her to be qualified to install, alter, repair or replace any lawn sprinkler system for a qualified master lawn sprinkler installer. He or she shall have a current certificate showing him/her to be so qualified.

"Master lawn sprinkler installer" means a person who has been approved by the Metropolitan Area Building and Construction Department showing him/her to be qualified to engage in the business of installing, altering, servicing, repairing, winterizing or replacing lawn sprinkler systems. He or she shall have a current certificate showing him/her to be so qualified.

"Public property" for the purpose of this chapter means portion of street right-of-way which is not intended for use by the traveling public for the passage of vehicles; and in areas which have been platted, that area which is indicated to the public for public purposes.

"Testable backflow preventers" are approved, pressure vacuum breakers, spill - resistant vacuum breakers, double check valve assemblies and reduced pressure principle type assemblies.

This chapter shall apply to the installation of lawn sprinkler systems or devices which are installed in a permanent manner and connected to the public water supply.
(Ord. No. 43-167 § 1; Ord. No. 49-403, § 1, 12-11-12)

Sec. 17.08.015. Liability, certificates, examinations, cancellations, licenses and permits.

(a) It is unlawful for any person to engage in the business or work at the trade of installing lawn sprinkler systems in the city unless and until a contractor's license and/or certificate has been obtained therefore.

(b) Each individual shall make application to the Metropolitan Area Building and Construction Department and shall at such time and place as directed be subject to an examination as to his or her qualifications, and if satisfied as to the competency of the applicant shall thereupon direct that said certificate be issued to the applicant. Examinations may be made in whole or in part in writing, but sufficiently broad to test the qualifications of the applicant. In order to qualify to sit for the journeyman examination one shall have a minimum of two years documented practical experience of working at the trade of installing, altering, repairing or replacing lawn sprinkler systems for a qualified master lawn sprinkler installer. In order to qualify to sit for the masters examination one shall have a minimum of two years documented practical experience of working at the trade of installing, altering, repairing or replacing lawn sprinkler systems as a journeyman lawn sprinkler installer. The fee for each examination and original certificate of a lawn sprinkler installer shall be established by the Director of the Metropolitan Area Building and Construction Department to cover the administrative costs of issuing such certificates.

All certificates shall be renewed annually upon payment of a fee established by the Director of the Metropolitan Area Building and Construction Department to cover the administrative costs of issuing such certificates. All such certificates shall expire on the thirty-first day of December of each year, and no reduction shall be made for part of the year being elapsed. All holders of certificates not renewed by March 1st after their expiration shall be subject to reexamination and/or board appearance prior to re-issuance of a certificate.

(c) Any person engaging or desiring to engage in the business of installing lawn sprinkler systems, before obtaining any permit or transacting business, shall procure a license therefore from the Director of the Metropolitan Area Building and Construction Department and a backflow certification registration card from the Director of Public Works & Utilities, which license and registration card shall expire on the thirty-first day of December of the year in which it was so issued. Any such person holding a current master lawn sprinkler installer's certificate shall be entitled to only one lawn sprinkler license unless otherwise authorized by the board of appeals of plumbers and gas fitters, and each such business shall obtain a license. No license shall be transferred from one person to another. Permits shall be obtained for such work as required in this Code and Article 3 of the Sedgwick County Code, and the same shall be issued to the person who possesses the lawn sprinkler license.

1. A lawn sprinkler license may be issued to any firm, association, limited liability company, partnership or corporation of which at least one active member or officer who devotes fulltime to that firm, association, limited liability company, copartnership or corporation has a master lawn sprinkler installer's certificate. The fee for such license shall be $100.00. Each license shall be renewed annually by December 31st.

(d) The board of appeals of plumbers and gas fitters is authorized to cancel and recall the certificate of any lawn sprinkler installer, and the license of any sprinkler contractor for any of the following reasons:

1. Abandonment of any contract without legal cause;

2. Division of funds or property received for performance or completion of a specific contract, or for a specified purpose in performance or completion of any other contract, obligation or purpose, or the failure, neglect or refusal to use such funds or property for the performance or completion of such contract;

3. The committing of any act in violation of any provisions of this Code or Article 3 of the Sedgwick County Code or the failure or refusal to comply with any lawful order of the administrative authority;
4. Misrepresentation of a material fact by the applicant in obtaining a license;
5. The failure of any such lawn sprinkler installer or lawn sprinkler contractor to fully satisfy all claims for labor and materials used in the performance of any work for which he has been engaged and for which he has been paid;
6. Use of license to obtain permits for another;
7. Carelessness or negligence in providing reasonable safety measures for the protection of workmen and the public;
8. Failure to obtain permits;
9. Unreasonable delay in the performance and carrying out of any contract.

(e) It is unlawful for any person to install or cause to be installed any connection to the public water supply and/or any testable backflow prevention device in a building or premises without first obtaining a permit from the administrative authority to do such work. Licensed lawn sprinkler contractors are the only persons to obtain such permits; provided, that the owner- occupant of a single-family dwelling may obtain such permits to install, replace, repair or maintain the existing lawn sprinkler system in such single-family dwelling occupied by him, so long as such owner-occupant performs all such work and that the work so performed is in accordance with this Code or Article 3 of the Sedgwick County Code as verified by an inspection request by such owner-occupant and performed by the administrative authority. Testing of backflow devices installed and registration of same shall be the responsibility of the owner of the device installed in accordance with this Code.

Owner-occupants applying for permits for installation as outlined above shall first qualify themselves by successfully passing a simplified open book examination dealing with relevant provisions of this title. The fee for said examination shall be established by the Director of the Metropolitan Area Building and Construction Department to cover the administrative costs for administering such examination. Such owner-occupants shall be required to have necessary testable backflow prevention device(s) installed by a duly certified installer/tester as required by the current codes of the city.

Prior to permit approval, the owner-occupant shall also submit a plan of the installation drawn in a format acceptable to and drawn in sufficient detail as to satisfy the Director of the Metropolitan Area Building and Construction Department of the overall code compliance of the anticipated installation. The fee for such plan review shall be established by the Director of the Metropolitan Area Building and Construction Department to cover the administrative costs of said plan review.

Plans submissions requiring extensive revision and/or modification shall be billed at the rate established by the Director of the Metropolitan Area Building and Construction Department for each additional half-hour or portion thereof beyond the original half-hour upon notification of the owner-occupant of such additional charges.

Permits for owner-occupant installations shall be limited to one in three years to each owner-occupant unless a waiver is obtained, upon written application, from the Metropolitan Area Building and Construction Department.

Minor street privilege permits shall be obtained from the Director of Public Works & Utilities-Engineering prior to performing any excavation and installation work on public property, said permit to be obtained in accordance with the terms of Chapters 10.20 and 10.08 of the Code of the City of Wichita, Kansas.

1. A separate permit shall be obtained for each connection to public water supply or for any additional work other than authorized in the permit.
2. No licensed contractor shall allow any person to do or cause to be done any work under a permit secured by the permittee except persons in his/her employ.

(Ord. No. 44-797 § 1; Ord. No. 49-403, § 2, 12-11-12)

Sec. 17.08.016. Reserved.

Editor's note—Ord. No. 49-403, § 41, adopted December 11, 2012, repealed § 17.08.016, which pertained to insurance required and derived from Ord. No. 42-120, § 1.

Sec. 17.08.017. Truth in advertising requirements.

Any person, firm, association, limited liability company or corporation required by this title to obtain a lawn sprinkler system contractor's license shall be subject to the following:

(a) It is unlawful for any such person, firm, association, limited liability company or corporation to advertise as a lawn sprinkler system contractor unless, at the time such advertisement occurs, such person, firm or corporation has a then valid lawn sprinkler system contractor's license issued under the provisions of this chapter;

(b) Any advertisement by such person, firm, association, limited liability company or corporation as a lawn sprinkler system contractor which is placed or published in any publication or other print medium circulated, displayed or distributed within the city limits or which is broadcast by radio or television or any other means to persons within the city limits shall include the full name of the licensed person, firm, association, limited liability company or corporation and the license number assigned by the Metropolitan Area Building and Construction Department to such person, firm, association, limited liability company or corporation.

(c) As used in this section, the words "advertised" or "advertisement" shall include, but not be limited to, a business card, contract bid proposal form, printed letterhead, any other printed or written material designed to inform persons of the services offered by the advertising person, firm or corporation and to solicit business from such persons, or any broadcast statement designed to inform persons of the services offered by the advertising person, firm, association, limited liability company or corporation and to solicit business from such persons. Such words are intended to include telephone directory display ads but not basic white and yellow page listings.

(Ord. No. 42-120 § 2; 49-403, § 3, 12-11-12)

Sec. 17.08.020. Reserved.

Editor's note—Ord. No. 49-403, § 41, adopted December 11, 2012, repealed § 17.08.020, which pertained to permits and derived from Ord. No. 43-343, § 2.

Sec. 17.08.030. Reserved.

Editor's note—Ord. No. 49-403, § 41, adopted December 11, 2012, repealed § 17.08.030, which pertained to inspections and derived from Ord. No. 43-167, § 4.

Sec. 17.08.040. Location, maintenance and installation of lines and heads.

(a) Sprinkler heads shall be located and maintained in the manner provided for in Section 17.10 of the code of the city of Wichita and Article 3 of the Sedgwick County Code so as not to spray over any public sidewalk or street pavement, and further, so not in any manner to constitute a nuisance or hazard to the public. Any sprinkler system or any part thereof, located in or on a public right-of-way, shall be removed therefrom at the owner's expense, upon notice from the city.

(b) Installation. All water piping shall be adequately supported to the satisfaction of the administrative authority. Burred ends shall be reamed to the full bore of the pipe. Changes in direction shall be made by the appropriate use of fittings, except that changes in direction in copper, PE (3406) and polybutylene tubing may be made with bends having a radius of not less than six diameters of the tubing, providing that such bends are made by the use of forming equipment which does not deform or create a loss in cross-sectional area of the tubing. The depth of the water service line shall be at least 36 inches below finished grade, and shall be inspected before being covered. Such service shall not be less than five feet from any tree on public property. The water service pipe shall be laid in a ditch separate from other underground pipes

or conduits. There shall be not less than 18 inches of solid undisturbed earth between water service pipes and other underground pipes and conduits. All piping, equipment appurtenances, and devices shall be installed in a workmanlike manner in conformity with the provisions and intent of the code.

Water pipe and fittings shall be of brass, copper, cast iron, galvanized steel, asbestos-cement, PE(3406), PVC (sch. 40), or polybutylene manufactured to recognized standards for use outside a building. All materials used in the water supply system, except valves and similar devices, shall be of a like material except where otherwise approved by the administrative authority. The connection of galvanized steel piping to a copper water meter setter is prohibited.

(c) Backflow prevention devices, control valves, and other appurtenances and their enclosures, with the exception of points of connection to domestic water supply lines and the manual shutoff valve, shall not be installed in the public right-of-way without prior approval of the Director of Public Works & Utilities or his/her designee. (Ord. No. 43-167 § 5; Ord. No. 49-403, § 4, 12-11-12)

Sec. 17.08.050. Backflow prevention.

No person shall install any water-operated equipment or mechanism, or use any water treating chemical or substance if it is found that such equipment, mechanism or substance may cause pollution of the domestic water supply. Such equipment or mechanism may be permitted only when equipped with an approved backflow prevention device. Said backflow prevention device shall be installed by a certified installer/tester. All backflow and/or cross-connections shall be eliminated and/or protected by means of an airgap or backflow preventer as determined and required by the Director of Public Works & Utilities. Such airgaps or backflow preventers shall be of such arrangement, location and design as determined by and subject to approval of the Director of Public Works & Utilities and Table 4 in Chapter 17.10 of the code of the City of Wichita. If any backflow and/or cross-connection is not adequately protected, the Director of Public Works & Utilities shall discontinue such water service. Water service may be reinstated upon determination that the hazard has been eliminated or adequately protected. The Director of Public Works & Utilities may supplement this Code with guidelines to provide information for typical backflow prevention and/or cross-connection control and acceptable methods of eliminating and/or protecting such connections which are in accordance with the intent and requirements of Section 17.10 and Article 3 of the Sedgwick County Code. Lawn sprinkler systems shall be equipped with an approved backflow prevention device. Pressure type vacuum breakers shall be installed at least 12 inches above the highest sprinkler head and all downstream piping.
(Ord. No. 43-167 § 6; Ord. No. 49-403, § 5, 12-11-12)

Sec. 17.08.055. Responsibilities of water account holder.

(a) 1. Every water account holder shall be responsible to maintain in good working condition backflow devices as required by this Chapter and Chapter 17.10.

2. Every water account holder shall be responsible for the inspections of such backflow devices as required by Section 17.10.120. Any backflow preventer which has failed to be tested, or which testing has exceeded the 1-year testing interval or required test date by more than 60 days shall be considered to be in violation of this section.

3. The Administrative Authority shall have the right to inspect such devices and if found defective or inoperative shall require the repair or replacement of the same by the water account holder.

4. Any water account holder, who, after proper notice, neglects to service and/or repair a backflow device whether such condition was caused by a former owner or occupant, shall be responsible for violation of this Section.

(b) Notice To Account Holder. Upon determination by the Administrative Authority that there has been a violation of any provision of this Chapter or Chapter 17.10, the Administrative Authority shall give notice to the water account holder of the backflow prevention device violation.

Such notices shall:

(1) Be in writing;

(2) Describe the violations alleged to exist or have been committed;

(3) Provide a reasonable time, not exceeding 10 days from the date of the notice, for correction of the violation;

(4) Be addressed to and served upon the water account holder.

Such notice shall be deemed properly served upon such account holder, if a copy is served upon him or her personally or if a copy thereof is sent by certified mail to his or her last known address.

The Administrative Authority may grant a one 10-day extension if the water account holder demonstrates that due diligence is being exercised in servicing, testing or repairing the backflow prevention device.

(c) Backflow prevention device notice of violation; assessment and collection.

(1) If the recipient of the notice of violation fails to comply with the notice within the period designated in the notice, or fails to remedy the violation, the City may assess an administrative penalty according to Table 1 below. Such penalty may be assessed for each billing cycle until the backflow prevention device is serviced or the connection to the City water system is terminated by complete removal of the backflow prevention device. All penalties shall be the responsibility of the water account holder.

(2) An administrative penalty may be assessed to irrigation, mechanical, containment, and fire backflow preventers per device to the water account holder for each billing cycle until the backflow prevention devices are found to be in compliance with the requirements of this Chapter and Chapter 17.10. Such administrative penalties shall be the responsibilities of the water account holder.

Table 1
Administrative Penalties According to Backflow Preventer Device Size

½" to 1 ½"	One Hundred dollars ($100)
2" to 2 ½"	Two Hundred Dollars ($200)
3"	Three Hundred Dollars ($300)
4"	Four Hundred Dollars ($400)
6"	Six Hundred Dollars ($600)
8"	Eight Hundred Dollars ($800)
10" and larger	One Thousand Dollars ($1000)

(c) Request for hearing and appeal.

(1) Hearing. Any person affected by a penalty, order or directive issued pursuant to this chapter may, may within ten days of the issuance of such penalty, order, or directive, request a hearing before the Administrative Authority to show cause why such should be modified or made to not apply to such person. Such request shall be in writing and addressed to the Director of Public Works at 455 N. Main Street, Wichita, Kansas. The director, or the director's designee, shall hold the requested hearing as soon as practical after receiving the request, at which time such person shall have the opportunity to be heard. At the conclusion of such

hearing, the director, or the director's designee, shall issue a written response to such person's request either affirming, modifying, or rescinding the penalty, order, or directive at issue.

(2) Appeal. Any person aggrieved by the decision of the director, or the director's designee, after the hearing provided for above, may appeal such decision to the city council within ten days of the receipt of such decision by filing a written notice of appeal with the city clerk. The city council shall hear such appeal on the record and may affirm, modify, or reverse the decision of the director, or the director's designee.

(Ord. No. 52-586, § 1, 12-17-24)

Sec. 17.08.060. Violation—Penalty.

Any person, firm, association, limited liability company, partnership, or corporation violating any provision of this chapter or any part thereof, shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not to exceed $500, or by imprisonment not to exceed 30 days, or by both such fine and imprisonment.

Notwithstanding the remedies set forth above, any user of the city's water distribution system found to have violated any provision of this chapter may be assessed an administrative penalty not to exceed those set forth in Table 1. Each billing cycle during which a violation exists shall be deemed a separate and distinct violation. Such penalty may be added to each subsequent billing cycle of the account holder. The Director of Public Works and Utilities shall have such other collection remedies as are available at law.

(Ord. 38-631 § 7; Ord. No. 49-403, § 6, 12-11-12; Ord. No. 52-586, § 2, 12-17-24)

CHAPTER 17.10. WICHITA/SEDGWICK UNIFIED BUILDING AND TRADE CODE

Sec. 17.10.010. Definitions.
Sec. 17.10.020. General requirements.
Sec. 17.10.030. Prohibited connections of fixtures and equipment.
Sec. 17.10.040. Refrigerating unit condensers and cooling jackets.
Sec. 17.10.050. Approval of devices.
Sec. 17.10.060. Installation of devices.
Sec. 17.10.070. Protective devices required.
Sec. 17.10.080. Barometric loop.
Sec. 17.10.090. Double check valves.
Sec. 17.10.100. Other devices.
Sec. 17.10.110. Maintenance requirements, general.
Sec. 17.10.120. Testing of backflow devices.
Sec. 17.10.130. Testing devices, approval.
Sec. 17.10.140. Cessation of water delivery to avoid contamination.
Sec. 17.10.150. Hazard to potable water supply.
Sec. 17.10.160. Automatic fire suppression systems.
Sec. 17.10.170. Existing fire suppression systems.
Sec. 17.10.180. Construction water services.
Sec. 17.10.190. Penalty.

Sec. 17.10.010. Definitions.

In addition to those terms defined in the Chapter 17.08 of the code of the City of Wichita as adopted in this Code, for the purpose of this chapter, the following terms shall be defined to mean:

"Air gap" means a physical separation between a supply and the flood level rim of the receptor, of at least twice the supply outlet diameter, but never less than one inch.

"Backflow" means the unwanted reverse flow of water, other liquids, gases, mixtures or other substances into the distributing pipes of a potable water supply from any source or sources. For specific conditions of backflow, see "back-siphonage" and "back-pressure."

"Backflow preventer, reduced pressure principle type" means an assembly of two internally loaded, specially designed, and independently operated check valves including an intermediate relief valve specially designed to maintain a zone of reduced pressure between these check valves, with an automatically open spillage port to the atmosphere. This assembly is also incomplete without tightly closing, resilient seating shutoff valves immediately upstream and downstream of the device (i.e.; ball valve shutoffs, resilient wedge gate or butterfly valves).

"Back-pressure" means pressure in a plumbing system higher than the supply pressure which causes a reversal of flow. (Example- pumps, thermal expansion from boilers.)

"Back-siphonage" means a backflow resulting from negative or sub-atmospheric pressures in the distributing pipes of a potable water supply.

"Barometric loop" means a loop of pipe rising at least 34 feet, at its topmost point, above the highest fixture it supplies.

"Board" means the board of appeals of plumbers and gas fitters of the City of Wichita & Sedgwick County.

"Certified installer/tester," for the purpose of this chapter, means any individual who has been duly certified by the Director of Public Works & Utilities to install, alter, repair, replace and test approved testable backflow prevention devices.

"Contaminant" means any substance that, upon entering a potable water supply, would render it a danger to life and health, as determined by the Director of Public Works & Utilities.

"Cross-connection" means any physical connection or arrangement between two otherwise separate piping systems, one of which contains potable water, and the other, water of unknown or questionable safety, or steam, gases or chemicals, whereby there may be a flow from one system to the other. (Note: No physical cross-connection shall be permitted between public and private water distribution systems without prior approval of the board, approval of the director of water utilities and protection by an approved backflow prevention device.)

"Director of Public Works & Utilities" means the Director of Public Works & Utilities department or the director's authorized representative.

"Double check valve assembly" means a device consisting of two independently acting, internally loaded soft seated check valves with resilient seated, positive shutoff valves (ball valve, resil-

ient wedge gate or butterfly valves) on both upstream and downstream ends, and properly located test ports.

"Free water surface" means a water surface that is at atmospheric pressure.

"Plumbing" means the practice, materials and fixtures used in the installation, maintenance, extension and alteration of all piping fixtures, appliances and appurtenances in connection with any of the following: sanitary drainage, venting system, storm drainage facilities, and the on-site water supply systems, within or beyond the supply point to any building, structure or conveyance; also, the practice and materials used in the installation, maintenance, extension, or alteration of storm water, liquid waste or sewage, and water supply systems of any premises to their connection with any point of public disposal or other acceptable terminal.

"Pollutant" means any foreign substance (organic, inorganic, radiological or biological) in water that tends to degrade its quality, but does not constitute a health hazard, as determined by the Director of Public Works & Utilities.

"Pressure vacuum breaker" means a device consisting of both upstream and downstream resilient seated shutoff valves, and at least one tight-seating check valve with an air inlet to atmosphere. The valve member opening to atmosphere shall be gravity or spring loaded to open under backsiphonage conditions.

"Spill-resistant vacuum breaker" means a device consisting of both upstream and downstream resilient seated shutoff valves, and at least one tight-seating check valve with an air inlet atmosphere. The valve member opening to atmosphere shall be gravity or spring loaded to open under backsiphonage conditions.

"Testable backflow preventers" are approved, pressure vacuum breakers, spill resistant vacuum breakers, double check valve assemblies, and reduced pressure principle type assemblies.

"Vacuum" means any absolute pressure less than that exerted by the atmosphere.

"Vacuum breaker" means a device that permits air into a water supply distribution line to prevent back-siphonage.
(Ord. No. 49-403, § 7, 12-11-2012)

Sec. 17.10.020. General requirements.

The potable water supply system of the City of Wichita and the potable water system of private users shall be designed, installed and maintained to best prevent contamination or pollution by non-potable liquids, solids or gases from being introduced into the potable water supply through cross-connections or any other piping connections to the system. Any water being directly provided by Wichita water utilities will fall under the rules and regulations of the cross-connection program. All public or private users being supplied city water directly shall conform to standards set by the City of Wichita.
(Ord. No. 49-403, § 8, 12-11-2012)

Sec. 17.10.030. Prohibited connections of fixtures and equipment.

Connection to the potable water supply system for the following is prohibited unless protected against backflow:

(1) Bidets;

(2) Operating, dissection, embalming and mortuary tables or similar equipment. In such installation the hose connected to the public water supply shall terminate at least 12 inches away from every point of the table or attachments;

(3) Pumps for non-potable water, chemicals or other substances. Priming connections shall be made through an air gap or an approved reduced pressure principle assembly;

(4) Building drainage, sewer or vent systems;

(5) Commercial buildings or industrial plants using a contaminating or polluting s substance;

(6) Any other fixture of similar hazard.
(Ord. No. 49-403, § 9, 12-11-2012)

Sec. 17.10.040. Refrigerating unit condensers and cooling jackets.

(1) That except when potable water provided for a refrigerator condenser or cooling jacket is entirely outside the piping or tank containing a toxic refrigerant, the inlet connection shall be provided with an approved high hazard backflow preventer. Heat exchangers used to heat water for potable purposes shall be of the double wall type.

(2) Where a commercial ice machine, which has a refrigerant volume not to exceed two pounds and is water-cooled, a dual check valve with intermediate atmospheric vent may be used as isolation protection of the potable water line. Devices, in excess of the two-pound limit, shall require a reduced pressure principal assembly (RP) backflow prevention device or air gap to protect the potable water.
(Ord. No. 49-403, § 10, 12-11-2012)

Sec. 17.10.050. Approval of devices.

Before any device for the prevention of backflow or back-siphonage is installed, it shall have first been certified by a recognized testing laboratory acceptable to the board. Devices installed in a building potable water supply distribution system for protection against backflow shall be maintained in good working condition by the person responsible for the maintenance of the system. The Director of Public Works & Utilities or his designated representative shall inspect such devices and if found defective or inoperative shall require the repair or replacement thereof. Upon installation of a reduced pressure principle assembly, double check valve assembly or pressure vacuum breaker, the installer shall inform the Director of Public Works & Utilities department. The Director of Public Works & Utilities or his/her designated representative will then register the device for scheduled testing.
(Ord. No. 49-403, § 11, 12-11-2012)

Sec. 17.10.060. Installation of devices.

Devices for the prevention of backflow shall be installed as follows:

(1) Vacuum Breakers. Atmospheric vacuum breakers (AVB) shall be installed with the critical level at least six inches above all downstream piping and the flood level rim of the fixture they serve and on the discharge side of the last control valve to the fixture. No shutoff valve or automatic control valves shall be installed in downstream piping after an atmospheric vacuum breaker.

Pressure vacuum breakers and spill-resistant vacuum breakers shall be installed with the critical level at least 12 inches above all downstream piping and the flood level rim but may have control valves downstream of the vacuum breaker. Pressure vacuum breakers should only be installed in locations where adequate drainage is provided and property damage as a result of spillage can be avoided. Spill-resistant vacuum breakers shall be installed with the critical level at least 12 inches above all downstream piping and the flood level rim, but may have control valves downstream of the vacuum breaker. Spill-resistant vacuum breakers should be installed in locations where adequate drainage is provided and property damage as a result of spillage can be minimized.

(2) Reduced Pressure Principle Backflow Preventer. A reduced pressure principle type backflow preventer may be installed subject to full static pressure at least 12 inches above grade and no more than 60 inches above grade unless an approved permanent platform or dedicated access device is provided as approved by the Director of Public Works & Utilities.

(3) Devices for Domestic Service. Backflow and back-siphonage preventing devices shall be accessibly located preferably in the same room with the fixture they serve. Installation in the utility or service spaces, provided they are readily accessible, is also permitted. No installation shall be made in pits or any other location not properly drained, unless approved by the Director of Public Works & Utilities.
(Ord. No. 49-403, § 12, 12-11-2012)

Sec. 17.10.070. Protective devices required.

(1) Installation. Approved devices to protect against backflow back-siphonage shall be installed at all fixtures and equipment where

backflow or back-siphonage may occur and where a minimum air gap cannot be provided between the water outlet to the fixture or equipment and its flood-level rim.

(2) Connections not Subject to Backpressure. Where a water connection is not subject to backpressure, an atmospheric vacuum breaker shall be installed on the discharge side of the last valve on the line serving the fixture or equipment. A list of some conditions requiring protective devices of this kind is given in Table 1, Cross-Connections Where Protective Devices Are Required and Critical Level (C-L) Settings for Atmospheric Vacuum Breakers.

Table 1

CROSS-CONNECTIONS WHERE PROTECTIVE DEVICES ARE REQUIRED AND CRITICAL LEVEL (C-L) SETTINGS FOR ATMOSPHERIC VACUUM BREAKERS:

Fixture or Equipment	*Method of Installation*
Aspirators and ejectors	C-L at least 6 inches above flood level of receptacle served.
Dental units	On models without built-in vacuum breakers—C-L at least 6 inches above flood level rim of bowl.
Dishwashing machines	C-L at least 6 inches above flood level of machines. Install on both hot and cold water supply line.
Garbage can cleaning machines	C-L at least 6 inches above flood level of machine. Install on both hot and cold water supply lines.
Fixture or Equipment (cont'd)	Method of Installation (Cont'd)
Hose outlets	C-L at least 6 inches above highest point on hose line.
Laundry machines	C-L at least 6 inches above flood level of machine. Install on both hot and cold water supply lines.
Steam tables	C-L at least 6 inches above flood level.
Tanks and vats	C-L at least 6 inches above flood level rim or line.
Trough urinals	C-L at least 30 inches above perforated flush pipe.
Fixture urinals	C-L at least 6 inches above top of urinal fixture.
Flush tanks	Equip with Approved Anti - Siphon Ball Cock, installed according to manufacturer's instructions.
Hose bibs	C-L at least 6 inches above flood level of receptacle served.
Critical level (C-L) is defined as the level to which the vacuum breaker may be submerged before backflow will occur. Where C-L is not shown on the preventer, the bottom of the device shall be taken as the C-L.	

(3) Connections Subject to Backflow. Where a potable water connection is made to a line, fixture, tank, vat, pump or other equipment with a hazard of backpressure or backsiphonage, and an air gap cannot be installed, the Director of Public Works & Utilities may require the use of an approved reduced pressure principle backflow preventer assembly or double check valve assembly. A partial list of such connections is shown in Table 2.

Table 2

PARTIAL LIST OF CROSS-CONNECTIONS WHICH MAY BE SUBJECT TO BACKFLOW TABLE INSET:

Chemical lines	Pumps
Dock water outlets	Steam lines
Individual water supplies	Swimming pools
Industrial process water lines	Tanks and vats—Bottom inlets
Pressure tanks	Hose bibbs

The following is a partial list but not limited to those facilities where backflow protection will be required at the service connection as well as within the building, due to extreme hazard, to both the public and private piping system:

1. Hospitals—RP
2. Funeral homes, morgues and mortuaries—RP
3. Medical and dental clinics*—RP
4. Industrial, medical and institutional laboratories—RP

5. Plating and chemical plants—RP
6. Metal manufacturing, cleaning and fabricating—RP
7. Oil and gas production, storage and transmission facilities—RP
8. Breweries and beverage bottling plants—RP
9. Radioactive materials plants—Air Gap
10. Aircraft plants—RP
11. Plastic injection and molding plants—RP
12. Multi-storied buildings with booster pump—DC
13. Fire Systems:
    Contamination hazard—RP
    Pollution hazard—DC
14. Car wash facilities—RP
15. Restricted, classified or other closed facilities—RP
16. Facilities in which the piping system cannot be traced—RP

    * Dental Clinics may submit to professional review approved by the Director of Public Works & Utilities for exception to this requirement if facilities convert to modern dry connections for x-ray, suction, and dental chair applications provided that a professional compliance review shall be completed annually at standard inspection rates.

    Note:

    RP = Reduced pressure backflow assembly

    DC = Double check valve assembly

(4) Air gap requirements are contained in Table 3.

Table 3
AIR GAP REQUIREMENTS:

Fixture	*When not Affected by Near Wall (a), (inches)*	*When Affected by Near Wall (b), (inches)*
Lavatories and other fixtures with effective opening not greater than ½ inch diameter.	1	1½
Sink, laundry trays, gooseneck back, faucets and other fixtures with effective openings not greater than ¾ inch diameter.	1 ½	2½
Over rim bath fillers and other fixtures with effective openings not greater than 1 inch.	2	3
Drinking water fountains, single orifice not greater than 7/16 inch diameter or multiple orifices having total area of 0.150 square inches (area of circle 7/16 inch diameter).	1	1 ½
Effective openings greater than one inch.	2 × diameter of effective opening	3 × diameter of effective opening

a. Side walls, ribs or similar obstructions do not affect air gaps when spaced from inside edge of spout opening a distance greater than three times the diameter of the effective opening for a single wall, or a distance greater than four times the diameter of the effective opening for two intersection walls.

b. Vertical walls, ribs or similar obstructions extending from the water surface to or above the horizontal plane of the spout opening require a greater air gap when spaced closer to the nearest inside edge of spout opening than specified in Note (a) above. In the case of three or more such vertical walls or ribs, the air gap shall be measured from the top of the wall.

(5) Backflow prevention devices which are acceptable for the prevention of cross-connection hazards are contained in Table 4.

Table 4

BACKFLOW PREVENTION DEVICES ACCEPTABLE FOR THE PREVENTION OF CROSS-CONNECTION HAZARDS:

Potential Type of Cross Connection	Degree of Hazard		ACCEPTABLE PROTECTION				
	High	Low	AIR GAP	Reduced Pressure Zone	Double Check Valve	Atmospheric Vacuum Breaker	Pressure/ Spill Resistant Vacuum Breaker
Direct Water Connections Subject to Back Pressure 1. Tanks and lines:							
a. Sewage and lethal substances	X		X	X(3)			
b. Toxic substances(1)	X		X	X(3)			
c. Non-toxic substance(2)		X	X	X	X		
d. Water connection to boiler	X		X	X			
Not Subject to Back Pressure (Back siphonage only)							
1. Water connected to receptacles containing toxic substances(1)	X		X	X(3)		X(3)	X(3)
2. Water connected to receptacles containing non-toxic substances(2)		X	X	X	X	X	X
3. Water connected to open tanks used for non-potable purposes		X	X		X	X	X
4. Lawn sprinkler systems	X		X	X			X
5. Coils or jackets used as heat exchangers in compressors, degreasers or other equipment:							
a. For waste lines	X		X	X			
b. For toxic substances(1)	X		X	X		X(3)	X(3)
c. For non-toxic substances(2)			X	X	X	X	X
6. Flush valve toilets & urinals	X		X			X	
7. Tank toilet and urinal tanks	X		X			X	
8. Valved outlets or fixtures with hose attachments which may constitute a cross-connection:							
a. Toxic substances(1)	X		X	X		X*	
b. Non-toxic substances(2)		X	X	X		X*	X

*Non-removable Type.

Footnotes to Table 4

(1) Toxic Substance: Materials containing contaminants.

(2) Non-toxic Substance: Materials containing pollutants.

(3) Subject to prior approval.

(Ord. No. 49-403, § 13, 12-11-2012)

Sec. 17.10.080. Barometric loop.

Water connections where an actual or potential back-siphonage hazard exists may in lieu of devices specified in Section 17.10.060 be provided with a barometric loop. Barometric loops shall precede the point of connection. There shall be no source of backpressure on a barometric loop.
(Ord. No. 49-403, § 14, 12-11-2012)

Sec. 17.10.090. Double check valves.

The Director of Public Works & Utilities may authorize installation of approved double check valve assemblies with test cocks as protective devices against backflow in connections between a potable water system and other fluid systems

which present no significant health hazard in the judgment of the Director of Public Works & Utilities.
(Ord. No. 49-403, § 15, 12-11-12)

Sec. 17.10.100. Other devices.

No other devices may be used for the prevention of backflow or backsiphonage unless approved by the board, as being in their judgment equally effective.
(Ord. No. 49-403, § 16, 12-11-12)

Sec. 17.10.110. Maintenance requirements, general.

It shall be the responsibility of building and premise owners to maintain all backflow preventers and vacuum breakers within the building or on the premises in good working order and to make no piping or other arrangements for the purpose of bypassing or removing backflow devices.
(Ord. No. 49-403, § 17, 12-11-12)

Sec. 17.10.120. Testing of backflow devices.

The City of Wichita and the Metropolitan Area building and Construction Department shall verify proper installation of backflow prevention devices, and refer them to the Director of Public Works & Utilities for registration. Program costs will be recovered from the device owner in accordance with a fee schedule as set forth in Section no. 17.12.080. Testing intervals shall not exceed one year beginning with testing on the date of installation, and overhaul (rebuild) intervals shall not exceed five years. The testing procedures shall be in accordance with the manufacturer's instructions and nationally accepted practices. Testing and repair of the backflow devices will be done by certified installer/testers that meet the requirements set up by the board. Maintenance workers, trained and certified as installers/testers can service backflow preventers in their place of employment. All installer/testers shall have completed a course approved by the board and be registered by the Wichita Public Works & Utilities department. Certified installer/testers shall be tested and recertified every three years. Recertification tests shall be to the latest accepted practice methods. Administrative costs will be assessed to the installer/tester applicant in accordance with a fee schedule as set forth in Section 17.12.080, through issuance of a Public Works & Utilities department registration card. All installer/tester registration cards shall be renewed annually upon payment of the fee as set forth in Section no. 17.12.080. All such registration cards shall expire on the 31st of December of each year, and no reduction shall be made for part of the year being elapsed.
(Ord. No. 49-403, § 18, 12-11-12; Ord. No. 50-957, § 4, 4-23-19)

Sec. 17.10.130. Testing devices, approval.

All testing devices shall be approved by the Director of Public Works & Utilities, and shall be compared for accuracy at least once per year and recalibrated every three years.
(Ord. No. 49-403, § 19, 12-11-12)

Sec. 17.10.140. Cessation of water delivery to avoid contamination.

The Director of Public Works & Utilities may refuse to deliver water through pipes and mains to any premises where a condition exists which might lead to the contamination of the public water supply system and may continue to refuse the delivery of water to the premises until the condition is remedied.
(Ord. No. 49-403, § 20, 12-11-12)

Sec. 17.10.150. Hazard to potable water supply.

If the Director of Public Works & Utilities determines that the condition of the plumbing constitutes an extreme hazard to the potable water supply, the director shall notify the owner of the premises of the hazardous conditions. Immediate action, within 24 hours, to correct that condition shall be taken or water service will be shut off until that condition no longer exists. In the event of any addition, repair, replacement, or alteration, other than routine maintenance, the entire system shall be brought into compliance with provisions of this chapter.
(Ord. No. 49-403, § 21, 12-11-12)

Sec. 17.10.160. Automatic fire suppression systems.

All new installations of automatic fire suppression systems of 30 heads or more, or having a fire department connection, other than dry systems, shall be protected from backflow with an approved double check valve assembly. Any portion of a fire suppression system into which toxic chemicals of any type (corrosion, antibacterial, etc.) are added, shall be individually protected with an approved reduced pressure principle assembly in addition to proper fire service line protection. All piping upstream of the backflow preventer or unprotected fire suppression system shall be of material approved for contact with potable water.
(Ord. No. 49-403, § 22, 12-11-12)

Sec. 17.10.170. Existing fire suppression systems.

All existing fire suppression systems shall be retro-fitted by licensed fire protection systems contractors within five years of the passage of this ordinance to meet the requirements provided herein. Flow rates shall be recalculated to ensure compliance with Wichita Fire Department requirements if the backflow device is of smaller line size than the underground supply.
(Ord. No. 49-403, § 23, 12-11-12)

Sec. 17.10.180. Construction water services.

All temporary water services for projects under construction shall be protected from backflow. Services for two or less story buildings may be protected with an approved double check valve assembly. Buildings of three or more stories shall have an approved reduced pressure principle backflow preventer installed on the construction water service.
(Ord. No. 49-403, § 24, 12-11-12)

Sec. 17.10.190. Penalty.

Any corporation, railway, common carrier, company or individual violating any of the provisions of this chapter is guilty of a misdemeanor, and upon conviction, shall be punished by a fine not to exceed Five Hundred Dollars ($500.00) or by imprisonment of not more than six (6) months, or by both such fine and imprisonment. Each day any violation hereof is found to exist or continues to exist shall be a separate offense and punishable as such hereunder.
(Ord. No. 49-403, § 25, 12-11-12)

CHAPTER 17.12. WATER SERVICE

Sec. 17.12.010. Definitions.
Sec. 17.12.030. Form and contents of application for water service.
Sec. 17.12.040. Requirements of applicants for new service.
Sec. 17.12.050. Measurement of water furnished.
Sec. 17.12.060. Specifications for installation of meters and department service lines.
Sec. 17.12.061. Payment of plant equity fees for connection of water service.
Sec. 17.12.065. Payment for connection to water system for properties not included in benefit districts.
Sec. 17.12.070. Requirements of applicants for special service.
Sec. 17.12.075. Special acquisition service areas fees.
Sec. 17.12.080. Schedule of user fees for incidental water services.
Sec. 17.12.090. Water rates and charges.
Sec. 17.12.091. Rural districts—Liability.
Sec. 17.12.092. Rural districts—Written agreement.
Sec. 17.12.095. Authority to collect fees, taxes and charges for other governmental entities.
Sec. 17.12.100. Rendering and payment of bills—Delinquent accounts.
Sec. 17.12.110. Authority to change rates, charges and regulations.
Sec. 17.12.120. Tampering with, injuring or removing meters prohibited.
Sec. 17.12.130. Approval of consumer's service line by plumbing inspector required.
Sec. 17.12.150. Testing of meters.
Sec. 17.12.160. Adjustment of charges when meter found to be measuring inaccurately.
Sec. 17.12.170. Time of billing for water and water service.
Sec. 17.12.180. Private service line leaks.
Sec. 17.12.190. When water service to a consumer may be shut off without notice.
Sec. 17.12.200. When flow of water in mains may be shut off, City not liable for necessary interruptions of service.
Sec. 17.12.210. City not liable for failure to maintain specific water pressure.
Sec. 17.12.220. Use of water from fire hydrants for flushing of streets and sewers, dust control measure, etc.
Sec. 17.12.240. Use of water or waterworks system without permission unlawful.
Sec. 17.12.250. Only authorized persons permitted to shut off or turn on City water.
Sec. 17.12.255. Irrigation connections to the water meter service.
Sec. 17.12.260. Authority to refuse to deliver water when contamination of supply may result.
Sec. 17.12.270. Extension or enlargement of waterworks system—Application and deposit for extension of main.
Sec. 17.12.290. Same—Title to mains vested in City.
Sec. 17.12.300. Same—Plans for extensions or enlargements to be submitted to planning department and City engineer.
Sec. 17.12.320. Penalty for violation of Sections 17.12.120, 17.12.130, 17.12.240 and 17.12.250.
Sec. 17.12.330. Rules and regulations.

Sec. 17.12.010. Definitions.

Unless the context specifically indicates otherwise, the following terms shall, for the purpose of this chapter, have the meanings indicated in this section:

(a) *Customer* means a person, firm, corporation, or governmental unit furnished water by the department.

(b) *Customer's service line* means a supply pipe installed, maintained and owned by the customer extending from the meter setting to the premises served.

(c) *Department service line* means a pipe with appurtenances connected to a water main for the purpose of controlling the flow of water and extending from the water main to the inlet side of the meter yoke.

(d) *Master meter* means one meter measuring the water furnished to serve two or more premises.

(e) *Meter* means a mechanical device which measures and records the quantity of water furnished to a customer.

(f) *Meter setting* means a box, vault or tile, with covering, containing a meter, meter yoke and connecting appurtenances.

(g) *Pigtail* means that portion of the meter service connection extending from the meter setter out from the meter vault for the purpose of connection to private consumer plumbing.

(h) *Premises* means an inhabited building or buildings on a tract of land.

(i) *Special acquisition service area* means any area whereby the Water Utility acquires the right to provide water and/or sanitary sewer services by purchase, release, or any other mean and in which

the City or Water Utility pays compensation to another governmental, quasi-governmental, or private entity for such service area directly or indirectly through reduced rates or in-kind services.

(j) *Special acquisition service area fees* means the fees assessed to property owners or customers in a Special Acquisition Service Area in order for the City or Water Utility to recover all or part of the costs of acquiring the right to provide water and/or sanitary sewer services to the area.

(k) *Special service* means any water service that involves the installation of facilities and equipment other than designated as standard service in subsection (i) of this section or which involves a use of water other than for normal residential, commercial or industrial purposes.

(l) *Standard service* means facilities normally installed for residential, commercial or industrial usage not requiring special or unusual methods of installation, construction and engineering.

(m) *Water utilities* (hereinafter called department) means an administrative unit consisting of City personnel headed by the Director of Public Works & Utilities designated by the City manager to conduct all operations in connection with the supplying and furnishing of water, and sewer service by the City to customers in the City and environs pursuant to the provisions of this chapter.

(n) *Water main* means a water pipe owned by the City, located in public right-of-way or utility easement, to which department service lines may be connected.

(o) *Water service connection* means that portion of the consumer plumbing where connection is made to the public utility meter box connection for the purpose of supplying water to the consumer's premises.

(Ord. No. 33-269 (part) ; Ord. No. 48-139 § 1, 12-16-08; Ord. No. 49-403 § 26, 12-11-12)

Sec. 17.12.030. Form and contents of application for water service.

Applications for water service shall be made at the office of the water department by or on behalf of the customer requesting water and water service. The application shall be in such form as shall be prescribed by the department. Every customer using water from the waterworks system shall be deemed to have consented and agreed to the terms and provisions of this chapter and all reasonable rules and regulations as shall be promulgated by the Director of Public Works & Utilities in implementation of this chapter. In all instances where the Director of Public Works & Utilities shall deem it necessary, customers shall make a deposit of monies with the department as security for service to be furnished that customer.

(Ord. No. 33-269 (part); Ord. No. 49-403 § 27, 12-11-12)

Sec. 17.12.040. Requirements of applicants for new service.

If an application is for water service to premises not previously served, the following requirements shall be met:

(a) *Meter settings and service lines in areas served by existing water mains.* In areas where water mains exist adjacent to property to be served, the applicant, upon submission of information to the water department (the "department") as to the location and nature of the premises, will be provided with information as to the proposed location of the meter setting. If the customer's service line has been installed prior to the application for service, it shall be the applicant's responsibility to clearly mark the location thereof. The department shall have sole jurisdiction, however, to determine the location of the department service line, and the feasibility of a connection to the customer's service line. It shall be the applicant's responsibility at applicant's expense to run applicant's service line from the premises being served to the meter setting at or near the curb line. The department service line meter set-

ting and meter shall be placed within public right-of-way or such other locations as determined by the director of public works and utilities, and will be installed and maintained by the department and kept within its exclusive control.

(b) *Areas not served by existing water mains.* Applications for service in areas not served by existing water mains shall be governed by the provisions of section 17.12.270 of this Code.

(c) *Installation and maintenance of customer's service line.* The customer shall be responsible for the maintenance, repair, and any leakage in the piping from the meter to place of use. Installation of the customer's service line shall be done by a master plumber and in accordance with the Wichita/Sedgwick uniform building and trade code.

(d) *Size of meters.* The department shall determine the size of the meter to be installed, based upon information furnished by the applicant. Any change in meter size requested by a customer after the initial meter installation shall be granted insofar as is reasonable but the entire cost shall be borne by the customer unless determined otherwise by the director of the department. In cases of dispute as to meter size, the department shall have sole jurisdiction.

(e) *Size of department service line.* The size of the department service line shall be determined by the department, based upon information furnished by the applicant. However, in no case shall the department service line be the same size or any greater size than the water main to which it is connected. Any change in size or location of the department service line after the original installation shall be done at customer's expense unless determined otherwise by the director of the department.

(f) *Special vaults to house meters—Cost of construction; location of meter settings and vaults.* In cases where the size of the meter is one and one-half inches or larger, or other special circumstances make it necessary to construct a special vault in which to house the meter, all costs of construction of such vault shall be borne by the applicant. Outside building meter settings and vaults shall be installed whenever possible and inside building meter installations must be approved in writing by the director of the department.

(g) *Same—Responsibility of customer for installation, maintenance, etc.* With respect to all premises served by the department, whether located within or without the corporate limits of the city, it shall be the responsibility of the customer to install or have installed thereon, such special vaults as are prescribed by the department according to and in conformity with specifications and drawings which shall be furnished the applicant by the department. All such special vaults so constructed and installed on the customer premises, adjacent to the property line shall be the property of the customer. The customer shall be responsible for all maintenance and adjustment to grade of the special vault.

In instances where circumstances necessitate the location of special vaults in a public right-of-way for street, alley or similar public uses, the construction and installation of the special vault shall be accomplished by the customer at locations approved by the city engineer.

(h) *Connection fees.* Prior to the installation of a standard service, the applicant shall pay in advance a connection fee for the installation by the department of the standard service line. The connection fee shall be as set forth in Section 17.12.080, and shall be based on the actual costs of similar installation work.

For a standard service line four inches or larger, the connection fee will be based upon an estimate of cost prepared by the department.

(Ord. No. 37-144 (part); Ord. No. 33-269 (part); Ord. No. 49-403 § 28, 12-11-12; Ord. No. 49-806 § 1, 8-12-14; Ord. No. 50-186 § 1, 4-26-16; Ord. No. 50-957, § 5, 4-23-19)

Sec. 17.12.050. Measurement of water furnished.

All water furnished to consumers shall be metered, except in cases where the director of public works and utilities shall determine that the nature of a particular usage necessitates a measurement by other means.
(Ord. No. 23-125 § 3; Ord. No. 49-403 § 28, 12-11-12)

Sec. 17.12.060. Specifications for installation of meters and department service lines.

The installation of meters and department service lines shall be in accordance with the following specifications and requirements:

(a) *Number of installations for each premise.* One department service line, meter setting and meter shall be installed for each premise. Additional meters, meter settings, department service lines and other appurtenances may be installed as approved by the director of public works and utilities and all such additional costs shall be borne by the applicant unless determined otherwise by the director of public works and utilities.

(b) *Location of department service lines; obstruction to installations.* Department service lines shall be at right angles to the water main and shall not be installed by the department unless sufficient footage of water main exists adjacent to the premises requesting service to allow meter setting installation free of obstructions such as fences, trees, driveways, culverts, mail boxes, etc.

(c) *Ownership of meters; location of meters; obstructing access to prohibited.* All meters now in service and hereafter installed shall remain the sole property of the department. Meters other than those in special vaults shall be installed only in public ways and it shall be unlawful for any person to obstruct access thereto by the department.

(d) *Separate service and meter required for each unit: with certain exceptions; exception as to existing meters.* Each and every unit, business or place of business, shall be on a separate service and meter. The department shall permit no master metering of water except for the following conditions:

(1) A building or group of buildings under single ownership and consisting of family units;

(2) A multi-story building used for commercial or industrial purposes;

(3) Rural water districts;

(4) Any other structure or structures, public or private, where due to unusual circumstances approval is given by the director of public works and utilities.

Where water has been supplied through one service to more than one premise, the director of public works and utilities may, at his/her discretion, refuse to furnish water until separate services are provided.
(Ord. No. 33-269 (part); Ord. No. 49-403 § 30, 12-11-12)

Sec. 17.12.061. Payment of plant equity fees for connection of water service.

Each customer requesting a new service connection to the water distribution system shall pay a plant equity fee prior to connection (or shall agree, prior to connection, to pay such fee as otherwise provided below) as part of the approval process for new service connections.

Such plant equity fees shall be determined on the basis of the equity existing system customers have accumulated in the system as determined on the basis of a detailed analysis of plant assets and shall constitute a system buy in fee assessed to new connections. The meter size on which the fee schedule is based shall be in reference to the associated water meter size.

The schedule of said plant equity fees shall be as set forth in Section 17.12.080.

At the discretion of the City Council, the above fees may be waived and/or modified in relation to economic development projects, which, due to their unusual nature or magnitude, offer extraordinary benefits to the community.

Property owners required to make a payment for connecting to the water system as provided above may apply for a deferral of such payment on the basis that such payment would work an economic hardship on the owner(s). The criteria for the granting of such a deferral shall be the same as described in Sections 2.24.070 and 2.24.075 of the code. All other terms and conditions of any deferral hereunder shall be governed by the provisions of 2.24.070 and 2.24.075 except as otherwise noted herein. A deferral hereunder may be granted to owners of property located outside the City limits.
(Ord. No. 45-368 § 1; Ord. No. 43-630 § 1; Ord. No. 47-521, § 1, 7-17-07)

Editor's note—It should be noted that Ord. No. 47-521, § provides for an effective date on and after Oct. 1, 2007.

Sec. 17.12.065. Payment for connection to water system for properties not included in benefit districts.

Properties not included in a benefit district which request connection to the water system shall pay an amount as determined to be appropriate by the director of water and sewer and the city engineer. This amount shall be representative of the recent historical costs of constructing water service lines of a similar or representative type as those serving the connecting property, calculated on a square foot or frontage foot basis.

If, in the opinion of the director of water and sewer, the connecting property constitutes an extraordinary use and/or is likely to place an extraordinary demand on the water system, the director is empowered to calculate an appropriate charge commensurate with this extraordinary use or demand and to assess this charge against the connecting property.

If the cost of the connection to the water system has been financed by a private entity, and if the cost of the connection has been included in the purchase price of the lot and improvements thereon, then no fees as called for in this section shall be assessed.

The appropriateness of the application of the ordinance provision codified in this section shall be discretionary and shall be based on the interpretation of written policy guidelines by the director of water and sewer, the city engineer, and the director of planning and/or other parties as designated by the city manager.
(Ord. No. 43-770 § 1)

Sec. 17.12.070. Requirements of applicants for special service.

Application for special service shall be made in the same manner as required for standard service and shall, in addition, conform to the following requirements:

(a) Private Fire Service Connections. Applications for private fire service connections shall have attached a sketch showing pipes, valves, hydrants, tanks, openings and appurtenances contemplated. The applicant shall be required to pay the entire cost of the installation, including the connection to the main and necessary appurtenances. All new private fire service connections with the exception of the so-called "dry-type" may be metered or require the installation of a detector check valve. All materials shall be approved by the department, and all fire service lines must be provided with a suitable control valve on the customer's side of the property line. The valve installed at the water main shall be under the exclusive control of the department. All fire service lines shall be used exclusively for extinguishment of fires and no connection for any other use may be attached thereto. All installations of fire service connections shall be accomplished in such manner as shall be approved by the department. In the event a main extension is required for private fire service connection, the cost of the same shall be borne by the applicant subject to the provisions of Section 17.12.270.

(b) Miscellaneous Special Service. All miscellaneous special service shall be installed and maintained at the sole cost of the applicant and an advance of the estimated costs of installation shall be required as a condition precedent to the granting of the application. The billing for such service shall be as determined by the director of water.

(Ord. No. 33-269 (part))

Sec. 17.12.075 Special acquisition service areas fees.

(a) The provisions of this Section are intended to establish a Special Acquisition Service Area Fee as that term is defined in Section 17.12.010. Upon acquisition of a Special Acquisition Service Area or when a customer requests new service in such Area, the Director of Utilities will determine by appropriate calculation the Special Service Area Fees for the Area and for each customer, based upon the compensation paid for such Area and any action of the governing body in approving such acquisition. The Special Acquisition Service Area Fee shall be assessed to the property owners or customers in the Special Service Area and shall be in addition to and not a substitute for other fees or charges required by this Code. Payment or appropriate agreement for payment of the Special Service Area Fee will be a condition precedent to receiving service from the Water Utility or Sewer Utility.

(b) At the discretion of the City Council, the above fees may be waived and/or modified in relation to economic development projects, which, due to their unusual nature or magnitude, offer extraordinary benefits to the community.

(c) Property owners or customers required to make a payment for connecting to the water or sewer system as provided above may apply for a deferral of such payment on the basis that such payment would work an economic hardship on the owner or customer. The criteria for the granting of such a deferral shall be the same as described in Sections 2.24.070 and 2.24.075 of the code. All other terms and conditions of any deferral hereunder shall be governed by the provisions of 2.24.070 and 2.24.075 except as otherwise noted herein. A deferral hereunder may be granted to owners of property or customers located outside the City limits.

(Ord. No. 48-139, § 2, 12-16-08)

Sec. 17.12.090. Water rates and charges.

WATER RATES AND CHARGES. On and after January 1, 2010, the schedule of rates and charges as set forth below shall apply to all categories of water customers with metered, flat rate or fire protection services:

I. *MINIMUM WATER SERVICE CHARGES.* Minimum water service charges per monthly billing period, based on water service sizes, shall be assessed to all customers who have service availability at any time during a billing period as shown below. An individual is deemed to have service available if the private water service system, at the individual's residence or business, has been connected to the City of Wichita's water system at any time during a billing period. The minimum charge is to be applied regardless of whether or not any water volume passed from the City to private water systems during a billing period. Water service connections deemed inactive by the Director of Water & Sewer shall not be assessed minimum water service charges.

A. Metered water services.

INSIDE CITY
MINIMUM MONTHLY

WATER METER SIZES	*2010 & Beyond*
5/8 inch	$9.63
3/4 inch	9.69

Sec. 17.12.080. Schedule of user fees for incidental water services.

On and after January 1, 2025, the schedule of fees as set forth below shall apply to the services and incidents described herein. Reference is made to Chapter 17 (Water) of the Code of the City of Wichita for additional information concerning the stated fees.

A. Utility Account Services. As authorized in Sec. 17.12.090, the following utility account service fees are hereby established:

Account Origination Fee	$53.00 per account
Convenience Fee	$1.00 per transaction
Insufficient Funds Debit and Returned Check Charge	$35.00 per transaction
Rejection of Payment via Telephone (Insufficient Funds)	$35.00 per transaction
Rejection of Payment Made Online (Insufficient Funds)	$35.00 per transaction

B. Meter Maintenance and Testing Services. As authorized in Sec. 17.12.090, the following meter maintenance and testing service fees are hereby established:

Angle Valve Charge	$628.00 per valve
Additional Trip Charge (services other than shut off for non-payment)	$72.00 per trip
Inspection Charge	$61.00 per trip
Meter Confiscation Charge	$54.00 per meter
Meter Confiscation Reset Charge	$54.00 per meter
Meter Test Charge - In-house (1" or smaller)	$94.00 per meter
Meter Test Charge - In-house (2"—6")	$237.00 per meter
Meter Test Charge - In-field (8"—10")	$440.00 per meter

C. Meter Connection and Disconnection Services. As authorized in Sec. 17.12.090, the following meter disconnection fees are hereby established:

Shut Off for Non-Payment	$42.00 per meter
Shut Off for Non-Payment Additional Trip	$46.00 per meter
Lawn Service Connection or Disconnection	$56.00 per trip
Plug Lock Use Charge - 1-inch	$95.00 per lock
Plug Lock Use Charge - ¾-inch	$88.00 per lock
Plug Lock Use Charge - ⅝-inch	$73.00 per lock
Plug Lock Missing Charge (any size)	$95.00 per lock
No Foundation Charge	$255.00 per incident

D. Meter Damage. As authorized in Sec. 17.12.090, the following meter damage fees are hereby established:

Cut Lock Charge	$60.00 per lock
Lock Chamber	$60.00 per lock
Damaged Setter Charge	$1,008.00 per setter
Missing ERT Charge	$129.00 per ERT
Missing Meter and ERT Charge	$333.00 per meter
Meter Box / ERT Damage	$255.00 per occurrence
Contractor Damaged Service Repairs	$2,046.00 per service

E. Hydrant Related Services. As authorized in Sec. 17.12.090 and 17.12.240, the following hydrant related service fees are hereby established:

Hydrant Permit - ¾" for 30 days	$100 for 30 days

Hydrant Permit - 3" for 10 days	$100 for 10 days
Hydrant Permit - 3" for 30 days	$300 for 30 days
Hydrant Permit - Additional Meter	$50 per meter per month
Hydrant - Damaged Meter	$50.00 per hour plus materials
Hydrant Flow Test	$92.00 per test (each trip)
Wrench Not Returned	$50.00 per wrench

F. Water Plant Laboratory. As authorized in Sec. 17.12.090, the following water plant laboratory fees are hereby established:

Bacteria Test for New Water Main	$50.00 per test
Lead Lab Test Fee	$120.00 per test

G. Backflow Protection. As authorized in Sec. 17.12.090, 17.10.120, and 17.12.240, the following backflow protection fees are hereby established:

Registered Backflow Device	$11.00 per device per year
Licensed Backflow Tester Registration	$14.00 per person per year
Bulk Water Truck Permit	$14.00 per truck per year

SCHEDULE OF FEES FOR NEW WATER SERVICES. On and after July 1, 2025, the schedule of fees as set forth below shall apply to the services described herein. Reference is made to Chapter 17 of the Code of the City of Wichita for additional information concerning the stated fees.

A. New Water Services. As authorized in Sec. 17.12.040 (Connection Fees) and 17.12.061 (Water Plant Equity Fees), the following new water service fees are hereby established:

Complete installation by City staff or City contractor:

Service Description	Connection Fee	Water Plant Equity Fee
1-inch tap, service line and meter setting	$1,812	$1,520
2-inch tap, service line and meter setting	$5,068	$4,860

Cost includes meter and installation in customer's vault:

Meter and Service Description	Connection Fee	Water Plant Equity Fee
2, 2-inch meters on 4-inch service	per bid	$9,720
3-inch meter on 4-inch service	per bid	$9,120
4-inch meter on 4-inch service	per bid	$15,200
6-inch meter on 6-inch service	per bid	$30,400
2, 3-inch meters on 6-inch service	per bid	$18,240
2, 4-inch meters on 6-inch service	per bid	$30,400
8-inch meter on 8-inch service	per bid	$48,640
2, 4-inch meters on 8-inch service	per bid	$30,400
2, 6-inch meters on 8-inch service	per bid	$60,800
12-inch meter on 12-inch service	per bid	$130,720

Meter and Service Description	Connection Fee	Water Plant Equity Fee
2, 6-inch meters on 12-inch service	per bid	$60,800

Water tap only (not applicable to concrete pipe):

Tap Size	Connection Fee
2-inch tap	$1,768
4-inch tap	$3,434
6-inch tap	$4,069
8-inch tap	$4,414
12-inch tap	$7,272

The customer or contractor must have the water main ready for an immediate tap. Therefore, these prices do not include any excavation cost, pavement cut or removal costs. The customer or contractor must submit professional engineered plans to Public Works Engineering for approval to construct service line. A tap work order will not be issued until the Wichita Water Utilities verifies the approved plans, appropriate payments, and bonding. Street cuts, excavation, thrust blocking, backfilling, pavement reconstruction, and all other incidental costs are the responsibility of the contractor.

Water Service Relocation, Replacement, or Other:

Service Description	Connection Fee
Replace or relocate 1-inch or smaller service and/or meter set	$1,812
Relocate 1-inch or smaller set only	$906
Cut and plug 2-inch or larger service	$906 plus pavement cut permit fee if applicable (See Sec. 10.34.010)
Fire Service Leak Detection Meter	$223.59

B. In Lieu of Assessment Fee. As authorized in Sec. 17.12.065, the following fee in lieu of assessments for water lines is hereby established:

Cost per Front Foot	$31.00

In Lieu of Assessment Fee is a fee based on whether a specific property has ever participated in a water distribution project. Staff must know the specific project location to determine if this fee is applicable to the parcel. The front footage amount is capped at 100 feet for residential properties.

C. Main Benefit Fee. As authorized in Ordinance No. 48-103 and Sec. 17.12.065, the following Main Benefit Fee for water lines is hereby established:

Cost per Square Foot of Land	$0.032

Main Benefit Fee is a fee based on whether a specific property has ever participated in a water transmission main extension project. Staff must know the specific project location to determine if this fee is applicable.

The fees described herein and other charges and billing for special services are subject to review, modification, and exception by the Director of Public Works & Utilities, City Manager, and/or City Council where permitted by the code of the City of Wichita.
(Ord. No. 50-957, §§ 1, 3, 4-23-19; Ord. No. 51-973, § 1, 11-22-22; Ord. No. 52-576, § 1, 12-10-24)

Sec. 17.12.090. Water rates and charges.

On and after January 1, 2026, the schedule of rates and charges as set forth below shall apply to all categories of water customers with metered, flat rate or fire protection services:

I. MINIMUM WATER SERVICE CHARGES

Minimum water service charges per meter, per monthly billing period, based on water service sizes, shall be assessed to all customers who have service availability at any time during a billing period as shown below. An individual is deemed to have service available if the private water service system, at the individual's residence or business, has been connected to the City of Wichita's water system at any time during a billing period. The minimum charge is to be applied regardless of whether or not any water volume passed from the City to private water systems during a billing period. Water service connections deemed inactive by the director of public works & utilities shall not be assessed minimum water service charges.

12 inch	112.46	179.93

II. WATER VOLUME CHARGES

Charges for any volume of water passing from the City of Wichita water system to a private water system shall be billed to the individual residing at the residence or business. Volume charges shall not apply to flat rate services which have been properly established with the Wichita Water Utilities.

A. AVERAGE WINTER CONSUMPTION

Average winter consumption (AWC) shall be defined as the arithmetic mean of monthly consumption computed by adding the metered consumption on bills rendered during the months of December, January, February, and March and then dividing this sum by the number of billings rendered during these same months. Each customer's AWC shall be recalculated in April of each year. Metered consumption charges for the ensuing twelve months shall be computed utilizing the AWC as calculated each April, apportioning usage among the applicable rate blocks as designated below. In those instances where no consumption data exists for the calculation of an AWC for particular customers, the director of public works & utilities shall determine the most appropriate method of establishing average winter consumptions for such circumstances. The minimum monthly AWC for any metered service sized one (1) inch or less shall be 6,000 gallons. If a billing period of greater than one month (defined as days of service within twenty eight to thirty one days) is used, the actual or minimum AWC shall be adjusted accordingly on a daily basis.

B. RETAIL VOLUME CHARGES

		Rates Per 1,000 Gallons			
Effective January 1, 2026 to December 31, 2026		**Residential Inside City**	**Commercial Inside City**	**Residential Outside City**	**Commercial Outside City**
Block 1:	Metered Consumption through 110% of AWC	$3.51	$3.83	$5.62	$6.14
Block 2:	Metered Consumption between 111% and 310% of AWC and from Fire Services	12.26	13.36	19.63	21.40
Block 3:	Metered Consumption above 310% of AWC	17.93	19.55	28.71	31.31

Effective January 1, 2027 to December 31, 2027		Rates Per 1,000 Gallons			
		Residential Inside City	Commercial Inside City	Residential Outside City	Commercial Outside City
Block 1:	Metered Consumption through 110% of AWC	$3.77	$4.21	$6.03	$6.75
Block 2:	Metered Consumption between 111% and 310% of AWC and from Fire Services	13.17	14.69	21.08	23.54
Block 3:	Metered Consumption above 310% of AWC	19.25	21.50	30.83	34.44

Effective January 1, 2028 and thereafter		Rates Per 1,000 Gallons			
		Residential Inside City	Commercial Inside City	Residential Outside City	Commercial Outside City
Block 1:	Metered Consumption through 110% of AWC	$4.05	$4.62	$6.48	$7.41
Block 2:	Metered Consumption between 111% and 310% of AWC and from Fire Services	14.15	16.13	22.65	25.85
Block 3:	Metered Consumption above 310% of AWC	20.68	23.61	33.12	37.82

RETAIL VOLUME CONSERVATION CONTRACT RATES

In order to obtain significant reductions in customers' annual water use, through more efficient use of Wichita's water resources, the director of public works & utilities is empowered to negotiate and execute contracts with retail customers which provide for a significant annual water savings by customers in return for charging all water use at the retail volume conservation contract rate. The director of public works & utilities is further empowered to establish such rules and regulations in contract terms as may be necessary to most equitably carry out the intent of this section. Rules and regulations shall be promulgated based on the needs of the City of Wichita as demonstrated in its water conservation plan and programs to address the requirements of the State of Kansas. In all circumstances, customers seeking to qualify for the conservation contract rate must make written application to the director of public works & utilities, detailing methods to be employed to conserve water, the time frame for implementing such conservation methods and the expected annual water savings in gallons per year to be derived from implementing such conservation plans. Each January, customers who have entered into conservation contract rate agreements shall report the results of

their conservation initiatives to the director of public works & utilities. If the director of public works & utilities determines that any customer did not meet the goal, then a billing will be rendered to the customer to reconcile charges for the proportion of the customer's prior year total annual consumption volume that did not qualify for the retail conservation contract rate as determined by the formula below:

(PRIOR YEAR'S RETAIL VOLUME CHARGE BLOCK 2 RATE - PRIOR YEAR'S RETAIL VOLUME CONSERVATION CONTRACT RATE) x ((PRIOR YEAR'S ANNUAL WATER USE/1,000) x (1 - (PRIOR YEAR'S ACTUAL ANNUAL GALLONS OF WATER SAVED / PRIOR YEAR'S PROJECTED ANNUAL GALLONS OF WATER SAVED)))

Customers exceeding their water conservation goals may use such excess savings in gallons as a credit toward the next year's water savings goal. This rate shall only be made available to customers who can demonstrate potential water savings that would be considered economically significant to the City of Wichita as determined by the director of public works & utilities.

	Conservation Contract Rates	
Effective January 1, 2026 to December 31, 2026	**Inside City**	**Outside City**
All Metered Consumption: Price per 1,000 gallons	$9.94	$15.91

	Conservation Contract Rates	
Effective January 1, 2027 to December 31, 2027	**Inside City**	**Outside City**
All Metered Consumption: Price per 1,000 gallons	$10.93	$17.50

	Conservation Contract Rates	
Effective January 1, 2028 and thereafter	**Inside City**	**Outside City**
All Metered Consumption: Price per 1,000 gallons	$12.00	$19.22

C. WHOLESALE VOLUME RATES

Effective January 1, 2026 to December 31, 2026		**Rates Per 1,000 Gallons**
Block 1:	Metered Consumption through 110% of AWC	$4.33
Block 2:	Metered Consumption between 111% and 310% of AWC and from Fire Services	22.41
Block 3:	Metered Consumption above 310% of AWC	33.57

Effective January 1, 2027 to December 31, 2027		**Rates Per 1,000 Gallons**
Block 1:	Metered Consumption through 110% of AWC	$4.71
Block 2:	Metered Consumption between 111% and 310% of AWC and from Fire Services	24.36
Block 3:	Metered Consumption above 310% of AWC	36.49

Effective January 1, 2028 and thereafter		**Rates Per 1,000 Gallons**
Block 1:	Metered Consumption through 110% of AWC	$5.12
Block 2:	Metered Consumption between 111% and 310% of AWC and from Fire Services	26.47
Block 3:	Metered Consumption above 310% of AWC	39.65

D. UNIFORM WHOLESALE VOLUME RATES

Effective January 1, 2026 to December 31, 2026		
All Metered Consumption	$6.00	per 1,000 gallons
Effective January 1, 2027 to December 31, 2027		
All Metered Consumption	$6.52	per 1,000 gallons
Effective January 1, 2028 and thereafter		
All Metered Consumption	$7.09	per 1,000 gallons

E. NON POTABLE VOLUME RATES

Effective January 1, 2026 to December 31, 2026		
All Metered Consumption	$1.94	per 1,000 gallons
Effective January 1, 2027 to December 31, 2027		
All Metered Consumption	$2.11	per 1,000 gallons
Effective January 1, 2028 and thereafter		
All Metered Consumption	$2.29	per 1,000 gallons

III. ASSOCIATION OF LAWN SERVICES

In all cases where practical and appropriate, lawn service accounts shall be associated with the primary service account at a particular service location. The individual consumption amounts for the primary service account and the lawn service accounts shall be added together and the total consumption for the billing period shall be allocated to the appropriate water volume charge rate blocks and volume charges calculated therefor. The consumption as recorded on billings rendered in the months of December, January, February and March for both the primary and lawn service accounts shall be used to calculate the average winter consumption used in apportioning water usage among the volume rate blocks whenever lawn service accounts are associated with primary service accounts.

IV. LATE CHARGES

An amount equal to one and one-half percent of the unpaid balance will be added to all bills not paid within twenty-five (25) days of the date of issuance.

V. MISCELLANEOUS CHARGES

When termination of water service has been ordered by the department for any cause, the customer shall be charged a fee to cover costs of arranging such termination. In instances where the service is actually terminated and later reinstated, the customer shall be charged an additional fee to cover costs of reinstating the service.

If a customer requests inspection and testing of a meter a testing fee shall be paid. If upon such examination and test conducted in the presence of the customer, or the customer's representative, the meter is found to be inaccurate according to the standards of the American Water Works Association, a meter will be substituted and the adjustment of the water bill for the preceding billing period shall include a credit for the testing fee.

Where water service is turned on and shut off in a period of less than one billing period, the billing shall be computed as if service was rendered for an entire billing period. Any customer desiring to discontinue water service temporarily must make request therefor at the office of

the department not less than two working days prior to the date on which the service is desired to be discontinued. After the effective date of such discontinuance, all charges for such water and water service shall cease for the period during which the service shall be shut off; provided, that the period of such discontinuance shall not be less than thirty days.

A fee shall be required for the disconnection of a lawn service when the customer of record requests disconnection without concurrently requesting disconnection of the associated service account at the service location. An additional fee shall be required for the reconnection of the lawn service at the same location.

The fees authorized in this section, and other charges and billing for special services, such as but not limited to administrative costs, account origination fees, collection costs, damages and/or vandalism to Utility infrastructure and appurtenances, etc., shall be as set forth in Section 17.12.080.

VI. GOVERNMENT MILITARY FACILITIES LOCATED OUTSIDE THE CITY

Government military facilities located outside the City of Wichita shall be charged inside city rates for water service.
(Ord. No. 46-422 § 1; Ord. No. 47-111, 8-22-06; Ord. No. 47-124 § 1, 9-19-06; Ord. No. 47-345 § 1, 2-13-07; Ord. No. 47-519 § 1, 7-17-07; Ord. No. 47-984 § 1, 8-12-08; Ord. No. 48-324 § 1, 5-12-09; Ord. No. 48-379 § 1, 7-21-09; Ord. No. 48-410 § 1, 8-18-09; Ord. No. 48-759 § 1, 6-22-10; Ord. No. 48-760 § 1, 6-22-10; Ord. No. 49-164 § 1, 12-13-11, eff. 1-1-12; Ord. No. 49-397 § 1, 12-4-12, eff. 1-1-13; Ord. No. 49-609 § 1, 11-26-13; Ord. No. 49-911 § 1, 12-16-14, eff. 1-1-15; Ord. No. 50-135 § 1, 12-15-15, eff. 1-1-16; Ord. No. 50-384, § 1, 12-13-16; Ord. No. 50-918, § 1, 1-15-19; Ord. No. 50-957, § 8, 4-23-19; Ord. No. 51-157, § 1, 12-10-19; Ord. No. 51-383, § 1, 12-8-20; Ord. No. 51-682, § 1, 12-14-21; Ord. No. 51-973, § 2, 11-22-22; Ord. No. 52-576, § 2, 12-10-24; Ord. No. 52-632, § 1, 3-18-25; Ord. No. 52-847, § 1, 12-9-25)

Sec. 17.12.091. Rural districts—Liability.

All water so sold shall be resold by such purchaser to customers through distribution lines owned and operated by such purchaser, metered by such purchaser, billed and collected by such purchaser and the department shall have no responsibility or liability for any such water or water service after such water has passed through the department water meter.
(Ord. No. 33-269 (part))

Sec. 17.12.092. Rural districts—Written agreement.

No water shall be sold as provided in Section 17.12.091 unless and until a written agreement shall have been negotiated between the City, acting by its governing body or by the delegate of such governing body and such rural water district and no right to City water shall arise unless and until such a written contract shall have been entered into.
(Ord. No. 30-577 § 2)

Sec. 17.12.095. Authority to collect fees, taxes and charges for other governmental entities.

In addition to the rates and charges set forth in this chapter, the Director of Public Works & Utilities and water pollution control, subject to the approval of the City council, shall have the authority to add to the bill of each customer the appropriate assessment of such water protection fees, taxes, and other fees and charges as the department is required to collect for or pay to any other governmental entity.
(Ord. No. 40-703 § 2; Ord. No. 49-403 § 33, 12-11-12)

Sec. 17.12.100. Rendering and payment of bills—Delinquent accounts.

(a) All water bills shall be paid at the office of the treasury division of the City or at such other places designated by the City treasurer. The Director of Public Works & Utilities shall render bills for water service charges to all flat rate residential customers or the owners of record of property connected to the water system. Bills so rendered shall include a charge for each month

the premises were connected to the water system without regard to whether the premises were occupied or unoccupied during all or part of the billing period. All water bins rendered in accordance with the regular schedule of meter rates and flat rates are due and payable when rendered and shall be deemed delinquent if not paid on or before 25 days thereafter.

(b) A delinquency and termination notice shall be issued five days after a bill is delinquent. The delinquency and termination notice shall provide the customer of record with the following information:

(1) The amount due on the unpaid balance plus interest;

(2) The customer's right to a hearing before the department;

(3) Notice that service will be terminated in five days if the bill remains unpaid.

If the customer of record is not the occupant where water service is provided then the department shall provide similar notice to the occupant. The request for a hearing must be no later than three working days before the date of discontinuance. Such hearings shall be conducted by one or more of the following persons: Director of Public Works & Utilities, assistant to the director, customer service manager, customer services supervisor, or such other representative of similar management grade as may be appointed by the Director of Public Works & Utilities. The department is authorized to discontinue and disconnect water service for any customer who is delinquent in the payment of bills. Customers are responsible for furnishing the department with their correct addresses for billing purposes. Until paid, flat rate delinquent bills shall constitute a lien against the property served and collected in the same manner as other special assessments are collected.
(Ord. No. 41-692 § 2; Ord. No. 49-403 § 34, 12-11-12)

Sec. 17.12.110. Authority to change rates, charges and regulations.

The City council retains continuing jurisdiction and authority to change from time to time the schedule of rates and charges and the regulations provided in this chapter as such changes shall be determined expedient and necessary.
(Ord. No. 23-125 § 4)

Sec. 17.12.120. Tampering with, injuring or removing meters prohibited.

It is unlawful for any person to open, interfere with, injure, deface or in any way impair the working of any water meter. It is also unlawful for any person, other than a duly authorized representative of the water department, to remove any meter from its setting.
(Ord. No. 23-125 § 5)

Sec. 17.12.130. Approval of consumer's service line by plumbing inspector required.

No meter shall be installed or water used through a new consumer's service line until approval therefor has been obtained from the office of the City plumbing inspector.
(Ord. No. 23-125 § 5)

Sec. 17.12.150. Testing of meters.

The water department shall have the right at any time to test meters, but if such testing is not in pursuance of request of the consumer it shall be without charge.
(Ord. No. 23-125 § 5)

Sec. 17.12.160. Adjustment of charges when meter found to be measuring inaccurately.

Whenever the department shall find a meter not measuring accurately according to standards of the American Water Works Association, an adjustment of charges for the preceding billing period shall be made by averaging the water used for the corresponding billing period of the past twelve months or if such records are not extant, from the best other method practicable.
(Ord. No. 33-269 (part))

Sec. 17.12.170. Time of billing for water and water service.

All billing for water and water service shall be rendered not more frequently than monthly, with the exception of miscellaneous accounts, the billing for which shall be rendered at such times as shall be determined by the director of water in each separate instance.
(Ord. No. 23-125 § 6)

Sec. 17.12.180. Private service line leaks.

(a) Water leaks in private water service lines are declared to be a public nuisance which must be repaired according to the terms of this section. It is unlawful for any water customer and/or occupant of private property to fail to repair a service line leak upon proper notice to do so.

(b) Upon discovery of a leak in a private water service line the Public Works & Utilities department shall serve a notice to repair the leak within seven days of the date on the notice. Such notice shall be served upon the water customer or occupant personally or by registered mail. Failure to repair the leak within seven days as directed will result in the disconnection of water service. Service shall not be reconnected until the leak is repaired and a disconnect/reconnect fee has been paid. Any person wishing to contest the notice of repair has the right to a hearing before the department. Such hearing must be requested in writing and the request must be received no later than three working days prior to the seven-day deadline for repair.

(c) Director of Public Works & Utilities department has the right to disconnect water service without notice if a leak has been discovered and (1) the water is flowing beyond the private property line in such a way that a hazard to public safety exists; or (2) a water emergency has been declared pursuant to Section 17.14.020. A notice of disconnection shall be left at the property. In addition, a notice of repair shall be given according to the requirements of subsection (b). Service shall not be reconnected until the leak has been repaired. However, no disconnect/reconnect fee will be charged for disconnection pursuant to this subsection.

(d) Failure to repair a water leak in a private water service line as required herein shall not be a criminal violation of the City Code.
(Ord. 41-270 § 1; Ord. No. 49-403 § 35, 12-11-12)

Sec. 17.12.190. When water service to a consumer may be shut off without notice.

Water service may also be shut off to any consumer by the water department without notice if such consumer shall tamper or in any way interfere with any meter, connections, service pipes, valves or other appurtenances belonging to the water department or for any violation by a consumer of the terms of this chapter or any other applicable ordinance of the City or of the statutes of the state.
(Ord. No. 23-125 § 6)

Sec. 17.12.200. When flow of water in mains may be shut off, City not liable for necessary interruptions of service.

In instances where the public health, safety or welfare so requires, the water department shall have the right to shut off the flow of water in its mains without notice but will endeavor insofar as possible to notify consumers affected of the intention to so interrupt the service. Interruption of service under such conditions shall not give rise to any claim on the part of any consumer against the water department or the City.
(Ord. No. 23-125 § 6)

Sec. 17.12.210. City not liable for failure to maintain specific water pressure.

The water department does not guarantee to maintain any specific water pressure for its service and no complaint concerning the pressure shall give any right of claim against the City or the water department.
(Ord. No. 23-125 § 6)

Sec. 17.12.220. Use of water from fire hydrants for flushing of streets and sewers, dust control measure, etc.

Water necessary for municipal uses or public improvements may be obtained from fire hydrants, provided that authority therefore shall first have been obtained from the director of water.
(Ord. No. 33269 (part))

Sec. 17.12.240. Use of water or waterworks system without permission unlawful.

It is unlawful for any person to use water from any part of the waterworks system of the City without proper permit or other authority therefor from the water department. The fee for such permit shall be as set forth in Section 17.12.080.
(Ord. No. 23-125 § 8; Ord. No. 50-957, § 8, 4-23-19)

Sec. 17.12.250. Only authorized persons permitted to shut off or turn on City water.

It is unlawful for any person, other than an authorized representative of the water department or of the fire department of the City, to shut off or turn on water from any part of the City's waterworks system, including fire hydrants; provided however, that nothing in this section contained shall be construed as prohibiting plumbing certificate holders, duly licensed under this Code or other ordinance of the City, from turning on or shutting off water service if such is necessary in the course of the work in which they are engaged or as required in the event of an emergency.
(Ord. No. 23-125 § 8; Ord. No. 49-403 § 36, 12-11-12)

Sec. 17.12.255. Irrigation connections to the water meter service.

(a) Dedicated irrigation water meters shall have a shut-off/isolation valve downstream of the water meter and before the backflow prevention valve installed 36" below grade. Using the Water Utility meter angle valve as the shut-off/isolation valve for a sprinkler system shall be prohibited and tampering with water meter connections is expressly prohibited. Composition of the shut-off valve should be of brass/bronze or ductile iron material. The shutoff/isolation valve may be located in the public right of way so long as it is not installed within 18 inches of the water meter vault, is located after the water meter pig tail, and the outgoing side of the shut-off/isolation valve is point toward the owner's property. Any other installation method shall not be allowed without the prior approval of the Director of Public Works & Utilities or his/her designee.

(b) Service connections to the water meter service shall be installed after the services pigtail on the consumer line connection.
(Ord. No. 49-403 § 37, 12-11-12)

Sec. 17.12.260. Authority to refuse to deliver water when contamination of supply may result.

The water department, pursuant to the provisions of K.S.A. 65-163(a) and amendments thereof, may refuse to deliver water to any premises whereon any condition exists which might lead to the contamination of the public water supply and may continue to refuse such delivery of water to any such premises until such condition is remedied.
(Ord. No. 23-125 § 9; Ord. No. 49-403 § 38, 12-11-12)

Sec. 17.12.270. Extension or enlargement of waterworks system—Application and deposit for extension of main.

Whenever the owner of real property desires a main to be extended to furnish water to such property, he shall make application to the water department and deposit in cash the estimated cost of extending such main or request an extension in accordance with the provisions K.S.A. 12-6a01 through 12-6a18, as amended, and according to the terms designated in this section.

THE EXTENSION PLAN:

(a) ASCERTAINMENT OF LENGTH OF EXTENSION. The length of the requested extension shall be ascertained by actual field measurement from the terminus of the nearest water main of adequate capaCity to the furthest point on the tract of land to be served, plus such additional footage as is deemed necessary by the water department in order to avoid obstructions, such as culverts, trees, shrubs, etc.

(b) DETERMINATION OF DIAMETER OF MAIN. The diameter of the main to be installed shall be determined by the water department, based upon a consideration of the following factors: Provision of adequate service to prospective customers; possible and contemplated future extensions of the main to be installed and fire protection needs existing or anticipated in the area to be served.

(c) METHOD OF ESTIMATING COST OF PROPOSED EXTENSION. The total estimated cost of the proposed main extension shall be determined by a field survey and a detailed cost estimate based on water department experience records, reflecting labor, material and other costs of main extensions.

(d) CASH DEPOSIT OF ESTIMATED COST OR PROPOSED SPECIAL ASSESSMENTS. The cash deposit of the estimated cost or the proposed special assessment for each water main extension shall be based on the actual size diameter of pipe installed not to exceed a maximum size diameter of eight inches. For mains in excess of eight inches in diameter, the deposit shall be based on the ratio of the cost of an equivalent eight inch main to the main being installed. The estimated cost of an equivalent eight inch main shall be based on records maintained by the water department.

(e) AMOUNT DEPOSITED OVER ACTUAL COST TO BE REFUNDED. NO ADDITIONAL CHARGE IF DEPOSIT IS INSUFFICIENT. ACTUAL COST USED TO DETERMINE SPECIAL ASSESSMENT. After the installation of such main extension has been completed, if the total actual cost thereof is less than the estimated costs, a refund of the difference shall be made to the applicant. If the actual cost is greater than the estimated cost, the applicant shall not be required to make any additional deposit. The actual costs shall also be used to determine all special assessments insofar as they are in accordance with K.S.A. 12-6a01 through 12-6a18, as amended.

(Ord. No. 33-198 § 1)

Sec. 17.12.290. Same—Title to mains vested in City.

Anything to the contrary herein provided notwithstanding, the full title, ownership and

right of exclusive possession to all mains installed under such deposit or special assessment arrangements pursuant to the extension plan, or otherwise, shall be vested in the City through its water department.
(Ord. No. 33-198 § 2)

Sec. 17.12.300. Same—Plans for extensions or enlargements to be submitted to planning department and City engineer.

In instances where he deems it necessary, the Director of Public Works & Utilities shall, before ordering any main extension or other enlargement of the City waterworks system, first submit plans therefor to the Wichita-Sedgwick County metropolitan area planning department for review and comment concerning the effort on contemplated future street, highway and other public improvements and to the City engineer for the establishment of the proper grade and location for the proposed installations which will conform to and avoid interferences with existing and future planned curbs, streets and drainage, and sewer facilities in the area.
(Ord. No. 23-872 § 1 (part) ; Ord. No. 49-403 § 39, 12-11-12)

Sec. 17.12.320. Penalty for violation of Sections 17.12.120, 17.12.130, 17.12.240 and 17.12.250.

Any person violating the provisions of Sections 17.12.120, 17.12.130, 17.12.240 or 17.12.250 shall, upon conviction be deemed guilty of a misdemeanor and fined in a sum of not more than one hundred dollars.
(Ord. No. 33-269 (part))

Sec. 17.12.330. Rules and regulations.

The Director of Public Works & Utilities is authorized to promulgate such rules and regulations as shall be reasonably necessary to carry out the provisions of this chapter according to its terms and intent.
(Ord. No. 33-269 (part); Ord. No. 49-403 § 40, 12-11-12)

CHAPTER 17.13. PERMANENT SPRAY IRRIGATION AND OUTDOOR WATER USE RESTRICTIONS*

Sec. 17.13.010. Definitions.
Sec. 17.13.020. Restrictions on watering.
Sec. 17.13.030. Restrictions on watering by spray irrigation.
Sec. 17.13.040. Variances.
Sec. 17.13.050. Violations and penalties.
Sec. 17.13.060. Application to wholesale customers.

Sec. 17.13.010. Definitions.

The following words and phrases, whenever used in this Chapter, shall be construed as defined in this section:

(A) "Customer" means a person or persons, firm, corporation, or governmental unit furnished potable water by the City of Wichita's water utility.

(B) "Customer premise" means the metered location at which a retail customer is furnished potable water by the City of Wichita's water utility.

(C) "Director" means the City's Director of Public Works and Utilities.

(D) "Retail customer" means the customer(s) of record on the water utility account at any given customer premise.

(D) "Variance" means an exception from the restrictions in this Chapter, applied for and granted through an online process as approved by the Director.

(E) "Water" means potable water furnished through the distribution system of the City of Wichita's water utility, and accordingly, does not include water drawn by customers from their own wells or water accumulated by customers from rainfall or natural storm runoff in rain barrels, cisterns, tanks, channels, basins, ponds or similar storage structures.

(F) "Watering" means outdoor use of water for irrigation, including irrigation with container, hose, drip or spray irrigation mechanisms.

(G) "Watering by spray irrigation" means a method of applying water through a network that may consist of pumps, valves, pipes, and sprinklers in a controlled manner so that it is distributed similar to rainfall.

(Ord. No. 52-840, § 2, 11-25-25)

Sec. 17.13.020. Restrictions on watering.

When no broader restrictions are in effect due to a drought emergency response, it shall nevertheless be unlawful for any customer to engage in or to permit another person to engage in watering at such customer's customer premises between the hours of 10:00 AM and 6:00 PM on any day.

(Ord. No. 52-840, § 3, 11-25-25)

Sec. 17.13.030. Restrictions on watering by spray irrigation.

When no broader restrictions are in effect due to a drought emergency response, it shall nevertheless be unlawful for any customer to engage in or to permit another person to engage in watering by spray irrigation at such customer's customer premises:

(a) Between the hours of 10:00 AM and 6:00 PM on any day;

(b) On a Monday;

(c) If the last numerical character in the address of the customer's metered customer premises is an odd number, on a Tuesday, Thursday or Saturday; and

(d) If the last numerical character in the address of the customer's metered customer premises is an even number, on a Wednesday, Friday or Sunday.

(Ord. No. 52-840, § 4, 11-25-25)

Sec. 17.13.040. Variances.

The Director is hereby authorized and directed to establish criteria for granting variances from

*__Editor's note—__Ord. No. 52-840, § 1, adopted Nov. 25, 2025, repealed the former Ch. 17.13, §§ 17.13.010—17.13.060, and enacted a new Ch. 17.13 as set out herein. The former Ch. 17.13 pertained to similar subject matter, and derived from Ord. No. 52-798, §§ 2—7, 8-26-25.

the restrictions in this chapter in cases where special circumstances attendant upon isolated and infrequent activity (such as seeding or sodding) may reasonably necessitate a limited period of daily watering by spray irrigation, and is further directed to establish an online application system by which customers can request such variances. Provided, however, no such variances may be granted when drought emergency restrictions are in effect.
(Ord. No. 52-840, § 5, 11-25-25)

Sec. 17.13.050. Violations and penalties.

(a) Upon violation of any water use restrictions imposed pursuant to Section 17-13.020 or Section 17.13.030 this chapter, written notice of the violation shall be affixed to the property where the violation occurred and the customer of record and any other person known to city enforcement personnel who is responsible for the violation or its correction shall be provided with either actual or mailed notice. Said notice shall describe the violation and order that it be corrected, cured or abated immediately or within such specified time as the city manager or the city manager's designee determines is reasonable under the circumstances. If the order is not complied with, the city manager or the city manager's designee may assess an administrative fee to the customer in accordance with the standards in subsection (b), below, subject to the following procedures:

(1) The city shall give the customer notice by mail or actual notice that an administrative fee will be assessed due to the violation and that the customer will have the opportunity to appeal the administrative fee by requesting a hearing scheduled before the city manager or a person designated as a hearing officer by the city manager;

(2) If such a hearing is requested by the customer charged with the violation by the specified date, he or she shall be given a full opportunity to be heard before the fee is assessed;

(3) The city manager or hearing officer shall make findings of fact and order whether a fee should be assessed;

(b) Upon the first violation of any water use restrictions imposed pursuant to Section 17.13.020 or Section 17.13.030 of this chapter, a written warning shall be issued. A second violation will result in an administrative fee of $50. Subsequent violations will be punishable with an administrative fee of $100 per violation.

(c) All administrative fees shall be subject to the same terms of payment that are set forth in Section 17.12.100 for regularly scheduled water meter charges, following the completion of the procedures in subsection (a), above.
(Ord. No. 52-840, § 6, 11-25-25)

Sec. 17.13.060. Application to wholesale customers.

Each customer that purchases water from the City of Wichita's water utility via a wholesale supply connection will be called upon to impose the foregoing water use restrictions and penalties upon the users of its system under its respective wholesale supply contract, as conservation measures adopted by the City of Wichita.
(Ord. No. 52-840, § 7, 11-25-25)

CHAPTER 17.14. WATER SUPPLY EMERGENCY*

Sec. 17.14.010. Purpose.
Sec. 17.14.020. Definitions.
Sec. 17.14.030. Declaration of drought stages.
Sec. 17.14.040. Stage 1 measures.
Sec. 17.14.050. Stage 2 measures.
Sec. 17.14.060. Stage 3 measures.
Sec. 17.14.070. Stage 4 measures.
Sec. 17.14.080. Regulations.
Sec. 17.14.090. Enforcement.
Sec. 17.14.100. Violations, disconnections and penalties.
Sec. 17.14.110. Emergency restriction and termination.
Sec. 17.14.120. Notification required with sprinkler systems.
Sec. 17.14.130. Exemptions—watering from wells—sign required.
Sec. 17.14.140. Severability.
Sec. 17.14.140A. Mandatory lawn watering rotation schedule.

Sec. 17.14.010. Purpose.

The purpose of this chapter is to provide for the actions in response to drought conditions and include the declaration of four stages of drought response. It also provides for the implementation of the drought response plan and voluntary and mandatory water conservation measures throughout the city in the event such a drought stage is declared.
(Ord. No. 49-585, § 1, 10-22-13)

Sec. 17.14.020. Definitions.

(a) "Customer," as the term is used in this chapter means the customer of record using water for any purpose from the city's water distribution system and for which a regular charge is made.

(b) "Drought response plan" shall be the city's drought action plan, as may be supplemented or amended from time to time, on file with the city clerk.

(c) "Outdoor water," as the term is used in this chapter includes, but is not limited to: any water used through an irrigation system, an outdoor hose, or hand watering container outside of a physical structure.

(d) "Water," as the term is used in this chapter, means water available to the city for treatment by virtue of its water rights or any treated water introduced by the city into its water distribution system.

(e) The following stages of drought response are established:

Stage 1: Triggered when the 12-month moving average of Cheney Reservoir's conservation pool level is between 70% and 89%.

Stage 2: Triggered when the 12-month moving average of Cheney Reservoir's conservation pool level is between 50% and 69%.

Stage 3: Triggered when the 12-month moving average of Cheney Reservoir's conservation pool level is between 35% and 50%.

Stage 4: Triggered when the 12-month moving average of Cheney Reservoir's conservation pool level is between 0% and 34%.

(f) For purposes of determining drought response stages, the term "conservation pool level" means the percentage of the conservation pool that is filled
(Ord. No. 49-585, § 1, 10-22-13)

Sec. 17.14.030. Declaration of drought stages.

The 12-month average of the conservation pool level in Cheney Reservoir is the basis for establishing drought stages, according to the levels provided in Section 17.14.020. The public works and utilities director shall monitor the lake level in Cheney Reservoir. When the 12-month moving average of Cheney's conservation pool level indicates the existence of a drought response stage in accordance with Section 17.14.020, the City Manager shall be empowered to issue a public declaration of such drought response stage. Should the lake level at Cheney Reservoir subsequently exceed the maximum threshold of Stage 1 as provided in Section 17.14.020, the City Manager shall be empowered to issue a public declaration that previously

*__Editor's note—__Ord. No. 49-585, §§ 1, 2, adopted Oct. 22, 2013, repealed the former Ch. 17.14, §§ 17.14.010—17.14.150A, and enacted a new Ch. 17.14 as set out herein. The former Ch. 17.14 pertained to the same subject matter. See the Code Comparative Table for complete derivation.

declared drought response measures are terminated. Factors that may be considered at the City Manager's discretion, but not all inclusive to the declaration of drought response stage include the utility's ability to reliably treat and deliver potable water, Cheney Lake levels, the condition of other available water supplies, emerging water demands and weather trends, shall be empowered to current conservation efforts, financial impacts and economic conditions.
(Ord. No. 49-585, § 1, 10-22-13; Ord. No. 52-508, § 1, 6-25-24)

Sec. 17.14.040. Stage 1 measures.

Upon the declaration of a Stage 1 drought response stage as provided in Section 17.14.030, the city manager will call on all water consumers to employ voluntary water conservation measures to limit or eliminate water use. The city shall offer incentives or rebates to encourage indoor and outdoor water conservation. The city shall implement conservation measures in its own operations, in accordance with the drought response plan.
(Ord. No. 49-585, § 1, 10-22-13)

Sec. 17.14.050. Stage 2 measures.

Upon the declaration of a Stage 2 drought response stage as provided in Section 17.14.030, the city manager will implement the mandatory water conservation measures set forth below. Food producing gardens utilizing drip irrigation or hand watering shall be Stage 2 exempt. Businesses that generate their core economic activity from usage of outdoor water shall be Stage 2 exempt. Such businesses include, but are not limited to, golf courses, car washes, nurseries, sod suppliers, and others identified by the city manager. The city shall implement water conservation measures in its own operations, including measures in the drought response plan and shifting some of the water allocation from Cheney Reservoir to other sources. Mandatory water conservation measures include the following and noncompliance by customers who are not Stage 2 exempt shall be subject to the penalties provided in Section 17.040.100:

(a) Restricting outdoor water usage to one day per week, in accordance with (b), below;

(b) Customers at real properties northwest of the Central & Broadway intersection may use outdoor water on Mondays; customers at real properties northeast of Central & Broadway may use outdoor water on Tuesdays; customers at real properties southwest of Central & Broadway may use outdoor water on Wednesdays; customers at real properties southeast of Central & Broadway may use outdoor water on Thursdays; no outdoor water can be used on Fridays, Saturdays, or Sundays by customers who are not Stage 2 exempt;

(c) Prohibiting all customers who are not Stage 2 exempt from using outdoor water from 10:00am until 8:00pm.

(Ord. No. 49-585, § 1, 10-22-13)

Sec. 17.14.060. Stage 3 measures.

Upon the declaration of a Stage 3 drought response stage as provided in Section 17.14.030, the city manager will prohibit all usage of outdoor water by customers who are not Stage 3 exempt. Food producing gardens utilizing drip irrigation or hand watering shall be Stage 3 exempt. Businesses that generate their core economic activity from usage of outdoor water shall be Stage 3 exempt. Such business include, but are not limited to, golf courses, car washes, nurseries, sod suppliers, and others identified by the city manager. The city shall implement water conservation measures in its own operations, in accordance with the drought response plan. Any use of outdoor water outdoors by customers who are not Stage 3 exempt shall be subject to the penalties provided in Section 17.040.100.
(Ord. No. 49-585, § 1, 10-22-13)

Sec. 17.14.070. Stage 4 measures.

Upon the declaration of a Stage 4 drought response stage as provided in Section 17.14.030, the city manager will implement mandatory water conservation measures for all customers, including prohibition of usage of outdoor water. No exemptions shall be provided from the prohibition on usage of outdoor water. The city shall implement all possible water conservation measures in its own operations. All customers,

except those specifically exempted below, are required to reduce their water usage by 15% from their Average Winter Consumption, as defined in Section 17.12.090, as it was most recently calculated as of the declaration of the Stage 4 drought response stage. Any noncompliance with the provisions of this section shall be subject to the penalties

provided in Section 17.040.100. The following customers are exempt from the requirement to reduce water usage by 15% from their Average Winter Consumption.

(a) Wesley Medical Center

(b) Galichia Heart Hospital

(c) Wesley West Hospital

(d) Via Christi Hospital - St. Francis

(e) Via Christi Hospital - St. Joseph

(f) Via Christi Hospital - St. Teresa

(g) Via Christi Rehabilitation Hospital

(h) Kansas Medical Center

(i) Robert J. Dole VA Medical Center

(j) Kansas Spine Hospital

(k) Select Specialty Hospital

(Ord. No. 49-585, § 1, 10-22-2013)

Sec. 17.14.080. Regulations.

During the effective period of any drought response stage as provided for in Section 17.14.030, the city manager is empowered to promulgate such regulations consistent with the provisions of this chapter as may be necessary to carry out and enforce the restrictions and penalties in effect for that drought response stage.

(Ord. No. 49-585, § 1, 10-22-2013)

Sec. 17.14.090. Enforcement.

Whenever a drought response stage is declared to exist as set forth in this chapter, in addition to all law enforcement officers, the following personnel employed by the city shall have the power to enforce the provisions of this chapter:

(a) Commissioned officers of the Wichita Fire Department;

(b) Parking control checkers;

(c) Traffic service officers;

(d) All deputies under the supervision of the director of the metropolitan area building and construction department;

(e) Any employee of the public works & utilities department as designated by the director.

Such personnel shall have the power of a law enforcement officer for the purpose of signing a complaint and serving such complaint and a notice to appear upon any person where there is probable cause to believe such person has or is violating a section of this chapter.

(Ord. No. 49-585, § 1, 10-22-2013)

Sec. 17.14.100. Violations, disconnections and penalties.

(a) Upon violation of any water use restrictions imposed pursuant to Sections 17.14.050, Section 17.14.060, or 17.14.070 of this chapter, written notice of the violation shall be affixed to the property where the violation occurred and the customer of record and any other person known to city enforcement personnel who is responsible for the violation or its correction shall be provided with either actual or mailed notice. Said notice shall describe the violation and order that it be corrected, cured or abated immediately or within such specified time as the city manager or the city manager's designee determines is reasonable under the circumstances. If the order is not complied with, the city manager or the city manager's designee may assess an administrative fee or restrict water service to the customer in accordance with the standards in subsection (b), below, subject to the following procedures:

(1) The city shall give the customer notice by mail or actual notice that an administrative fee will be assessed or water service will be restricted within a specified time due to the violation and that the customer will have the opportunity to appeal the administrative fee or restriction by requesting a hearing scheduled before the city manager or a person designated as a hearing officer by the city manager;

(2) If such a hearing is requested by the customer charged with the violation by the specified date, he or she shall be given a full opportunity to be heard before the fee is assessed or the restriction or termination is ordered;

(3) The city manager or hearing officer shall make findings of fact and order whether a fee should be assessed or service should continue or be restricted;

(4) In the event no hearing is requested by the specified date, full water service shall be reinstated when the city is no longer in a Stage 4 drought response stage, as provided in Section 17.14.100(e) and all administrative fees have been paid.

(b) Upon the first violation of any water use restrictions imposed pursuant to Section 17.14.050 of this chapter, a written warning shall be issued. A second violation will result in an administrative fee of $50. Subsequent violations will be punishable with an administrative fee of $100 per violation.

(c) Upon the first violation of any water use restrictions imposed pursuant to Section 17.14.060 of this chapter, a written warning shall be issued. A second violation will result in an administrative fee of $250. Subsequent violations will be punishable with an administrative fee of $500 per violation.

(d) Upon the first violation of the outdoor water prohibition imposed pursuant to Section 17.14.070 of this chapter, a written warning shall be issued. A second violation will result in an administrative fee of $250. Subsequent violations will be punishable with an administrative fee of $500 per violation and installation of a water flow restrictor. The flow restrictor will decrease the amount of water flowing through the meter to a customer and will not be removed until the city is no longer in a Stage 4 drought response stage.

(e) Upon the first violation of the required 15% reduction imposed pursuant to Section 17.14.070 of this chapter, a written warning shall be issued. A second violation will result in an administrative fee of $250. Subsequent violations will be punishable with an administrative fee of $500 per violation and installation of a water flow restrictor. The flow restrictor will decrease the amount of water flowing through the meter to a customer and will not be removed until the city is no longer in a Stage 4 drought response stage.

(f) All administrative fees shall be subject to the same terms of payment that are set forth in Section 17.12.100 for regularly scheduled water meter charges, following the completion of the procedures in subsection (a), above.

(g) In addition to disconnection/reconnection fees provided by Section 17.12.090, a fee of two hundred dollars shall be paid for the reconnection of any water service restricted pursuant to this chapter.
(Ord. No. 49-585, § 1, 10-22-2013)

Sec. 17.14.110. Emergency restriction and termination.

(a) Nothing in this chapter shall limit the ability of any properly authorized city official from restricting or terminating the supply of water to any or all customers upon the determination of such city official that emergency restriction or termination of water service is required to protect the health and safety of the public.
(Ord. No. 49-585, § 1, 10-22-2013)

Sec. 17.14.120. Notification required with sprinkler systems.

Installers of lawn watering irrigation or sprinkling water systems, upon installing a lawn watering irrigation or sprinkling system, shall provide a copy of this chapter to the owner of the lawn watering irrigation or sprinkling system.
(Ord. No. 49-585, § 1, 10-22-2013)

Sec. 17.14.130. Exemptions—watering from wells—sign required.

(a) Persons using water from a well for any class of use as defined in this chapter shall be exempt from the penalties of this chapter, pursuant to Section 17.14.130(b).

(b) To qualify for the exemption, persons using water from a well as set forth in subsection (a) shall, while engaged in such use(s), display a sign with the words "well water" upon it in a location that is readily visible to the general public.
(Ord. No. 49-585, § 1, 10-22-2013)

Sec. 17.14.140. Severability.

If any provision of this chapter is declared unconstitutional, or the application thereof to any person or circumstance is held invalid, the constitutionality of the remainder of the chapter and its applicability to other persons and circumstances shall not be affected thereby.
(Ord. No. 49-585, § 1, 10-22-2013)

Sec. 17.14.140A. Mandatory lawn watering rotation schedule.

(a) In addition to the other procedures of this chapter, and whether or not any drought response stage has been declared, the city council may establish mandatory restrictions on lawn watering for water conservation, water conservation education, or peak water use demand purposes. Such restrictions may include, but not be limited to, the establishment of a mandatory lawn watering rotation schedule.

Whenever the city council directs that mandatory restrictions on lawn watering be imposed, the city manager shall cause a notice of such restrictions to be given through the general news media and by publication in the official city newspaper. The restrictions shall be effective upon publication for the duration and in the manner set forth in the notice.

(b) Upon the imposition of mandatory restrictions under this section, any violation of the provisions of this section and the notice given under the authority of this section shall be deemed a misdemeanor. All enforcement and procedural provisions of Sections 17.14.090 and 17.14.100(a) apply to the provisions of this section, but the penalties for violation of the provisions of this section shall be an administrative fee of $250 per violation.
(Ord. No. 49-585, § 1, 10-22-2013)

CHAPTER 17.16. DEPARTMENT OF WATER AND WATER POLLUTION CONTROL

Sec. 17.16.010. Water department operation.
Sec. 17.16.020. Payment to city.
Sec. 17.16.030. Payments in lieu of other fees.
Sec. 17.16.040. Records required.

Sec. 17.16.010. Water department operation.

The department of water and water pollution control of the city, its successors and assigns (herein referred to as "water department"), shall continue to operate its water system and all business incidental to and connected with the conducting of a water utility business and system in the city. The waterlines and appurtenances used in or incident to the giving of water service and to the maintenance of a water system by the water department in the city shall remain as now constructed, subject to such changes as may be considered necessary by the city in the proper exercise of its inherent powers and by the water department in the conducting of its business, and the water department shall continue to exercise and maintain its water system along, across, on, over, through, above and under all the public streets, avenues, alleys, bridges and the public grounds and places within the limits of the city as the same from time to time may be established.
(Ord. No. 28-816 § 1)

Sec. 17.16.020. Payment to city.

For the year 1981, the water department shall pay to the city, in lieu of franchise taxes, an amount equal to five hundred forty thousand dollars. Each year thereafter, payment shall be five hundred sixty-six thousand dollars.
(Ord. No. 37-555)

Sec. 17.16.030. Payments in lieu of other fees.

The payments herein provided shall be in lieu of all other licenses, taxes, charges, fees or impositions which might be imposed by the city under authority conferred by law.
(Ord. No. 28-816 § 3)

Sec. 17.16.040. Records required.

The water department shall provide annually such records to establish an accounting of payments required as set out in Section 17.16.020 of this chapter.
(Ord. No. 28-816 § 4)

CHAPTER 18.10. BOARD OF CODE STANDARDS AND APPEALS

Sec. 18.10.010. Creation of Board of Code Standards and Appeals.
Sec. 18.10.020. Board of Code Standards and Appeals—Advisory agency.
Sec. 18.10.030. Board of Code Standards and Appeals—Meetings.
Sec. 18.10.040. Board of Code Standards and Appeals—Powers.

Sec. 18.10.010. Creation of Board of Code Standards and Appeals.

(a) The Board of Code Standards and Appeals is hereby created and shall consist of the Director of the Metropolitan Area Building and Construction Department (Director) or the duly authorized representative, who shall serve as the secretary for the Board, and nine other members, as follows:

(1) One architect (appointed by the City);

(2) One architect (appointed by the County);

(3) One structural engineer (appointed by the City);

(4) One Class A contractor (appointed jointly);

(5) One Class B Contractor (appointed by the County);

(6) One Class C Contractor (appointed by the City);

(7) One member representing real estate (appointed by the County);

(8) One public at large member (appointed by the City);

(9) One public at large member (appointed by the County).

The Board shall elect a chairperson and make such rules as are necessary to conduct the Board's business.

(b) All appointments shall comply with the provisions of Article 1, Section 5 of the Unified Building and Trade Code.
(Ord. No. 52-861, § 1, 12-16-25)

Sec. 18.10.020. Board of Code Standards and Appeals—Advisory agency.

The Board of Code Standards and Appeals shall act in an advisory capacity to the City Council in the amending and revision of housing, building and maintenance codes, act as the appeals board from decisions resulting from informal hearings conducted by the Director of Metropolitan Area Building and Construction Department/Code Official and to review any decision, finding, order or interpretation by the Director.
(Ord. No. 52-861, § 2, 12-16-25)

Sec. 18.10.030. Board of Code Standards and Appeals—Meetings.

The Board shall adopt reasonable procedures, provided such procedures are not inconsistent with this Code or state law, for conducting its meetings and investigations and shall render all decisions and findings in writing to the Director with a duplicate copy to the appellant, and as otherwise provided.
(Ord. No. 52-861, § 3, 12-16-25)

Sec. 18.10.040. Board of Code Standards and Appeals—Powers.

The Board of Code Standards and Appeals conducting hearings as provided in this Code:

1. Has the authority to administer oaths, affirmations, examine witnesses, and receive evidence;

2. May consider the findings of the Director and fire inspector as to facts, if supported by conclusive evidence;

3. The rules of evidence are not controlling in hearings before the Board;

4. In a hearing on an appeal from the Director's informal hearings, the Board may sustain, modify, or withdraw the Director's order depending upon its finding as to whether the standards of the Code have been complied with;

5. The Director, Fire Chief, and the City Attorney, or their designated representa-

tives, may attend all Board meetings and advise and consult with the Board in matters pertaining to the enforcement of all applicable codes; and

6. The Board shall keep minutes of its proceedings, showing the vote of each member upon each question, or if absent or failing to vote, indicate such fact and shall keep a record of its meeting and other official actions, all of which shall be a public record.

(Ord. No. 52-861, § 4, 12-16-25)

CHAPTER 18.12. RESERVED*

*__Editor's note—__Ord. No. 49-404, § 2, adopted December 11, 2012, repealed the former Ch. 18.12, §§ 18.12.010—18.12.170. The former Ch. 18.12 pertained to contractors and derived from Ord. No. 28-251 § 15; Ord. No. 41-942 § 1; Ord. No. 41-502 §§ 4, 5, 12, 15, 16; Ord. No. 41-951 §§ 1—3; Ord. No. 42-574 §§ 2, 3; Ord. No. 43-564 §§ 1—5, 7—9; Ord. No. 43-888 § 56; Ord. No. 44-121 §§ 1—3; Ord. No. 45-199 § 158; Ord. No. 47-856, §§ 1, 2, adopted March 25, 2008. The user's attention is directed to Ch. 18.15, § 18.15.010.

CHAPTER 18.14. PARKING LOT STRIPING

Sec. 18.14.010. Parking lot striping defined.
Sec. 18.14.020. Responsibilities.
Sec. 18.14.030. Striping contractor's license—When required.
Sec. 18.14.040. Qualifications of applicant to be shown—Bond required.
Sec. 18.14.050. Application; fee.
Sec. 18.14.060. Suspension and subsequent revocation of license—Notice of hearing.
Sec. 18.14.070. Requirements to stripe; striping without a license.
Sec. 18.14.080. Enforcement.
Sec. 18.14.090. Remediation.
Sec. 18.14.100. Service of notice to appear.
Sec. 18.14.110. Penalty.

Sec. 18.14.010. Parking lot striping defined.

Parking lot striping, within the meaning of this Chapter, is the use of any material on the lot surface to install, alter, repair, or modify the layout and arrangement of parking stalls within a parking lot. Parking lot striping also includes any work done if such work alters signage or other aspect of existing accessible parking to be in violation of statute, ordinance, or code requirement. The regulations of this Chapter apply to any parking lot, whether on public or private property, if the parking lot is available for use by, or rent to, the general public.
(Ord. No. 49-524, § 1, 6-25-2013)

Sec. 18.14.020. Responsibilities.

(a) Nothing in this Section shall be interpreted to require modification of any existing parking lot beyond parking lot striping as defined in this Chapter.

(b) Because no building permit is required, nothing in this Section shall be interpreted to require improvements to the accessible path of travel or the parking surface.

(c) For any new construction, reconstruction, resurfacing, resealing, mill-and-overlay, or restriping of any existing parking lot, accessible parking spaces shall be 132 inches wide minimum and shall have an adjacent access aisle 60 inches wide minimum; provided, however, that where such striping is not readily achievable as defined in 28 CFR § 36.104, the ADA Coordinator may grant a waiver in writing to allow the striping to provide for an accessible parking space 96 inches wide minimum with an adjacent access aisle 96 inches wide minimum or other equivalent facilitation.

(d) Accessible parking spaces that complied with the 1991 ADAAG Standards and Sec. 18.14.020 effective July 1, 2008, are not required to be restriped in order to comply with Sec. 18.14.020(a), unless parking lot striping is performed on the lot.

(e) All accessible parking signage shall consist of, at a minimum, signage compliant with the Federal "Manual on Uniform Traffic Control Devices," such as the R7-8 "Reserved Parking" sign. Such sign shall be at least 12 inches wide and 18 inches tall. Such sign shall contain the international symbol of accessibility in blue on white and shall contain wording as to designate the stall as reserved for accessible parking.

(f) Parking lot striping shall be consistent with the Federal Manual on Uniform Traffic Control Devices, except that striping of parking stalls may be either white or yellow, whichever provides better contrast. The international symbol of accessibility may, when striped on the parking lot stall, be either white or yellow.

(g) Accessible parking spaces shall be located on the shortest possible accessible route of travel from adjacent parking to an accessible building entrance. In parking facilities that do not serve a particular building, accessible parking spaces shall be located on the shortest accessible route to an accessible pedestrian entrance to the parking facility. Where buildings have multiple accessible entrances with adjacent parking, accessible parking spaces shall be dispersed and located near all accessible entrances. In no case shall the provisions of Section 208 of the Department of Justice's current ADA Standards for Accessible Design, 28 CFR 35.151, be reduced or eliminated.

(h) Nothing in this Section shall be interpreted to permit striping of accessible parking spaces less stringent than that provided for in current ADA Standards for Accessible Design and 28 CFR Parts 35 and 36 or to reduce any obligation of the

owner, renter, general contractor, subcontractor, or any other agent under any other applicable law, rule, or ordinance.
(Ord. No. 49-524, § 2, 6-25-2013)

Sec. 18.14.030. Striping contractor's license—When required.

Any person or entity, whether as principal, agent, or employee, engaged in the business of striping a parking lot in the City of Wichita shall be required to obtain a striping contractor's license from the City Engineer's Office. When striping is performed by or under the direct supervision of a property owner or renter, or such owner's or renter's agent, such individual shall be deemed to be a licensed striping contractor for the purposes of striping such property.
(Ord. No. 49-524, § 3, 6-25-2013)

Sec. 18.14.040. Qualifications of applicant to be shown—Bond required.

(a) Before any striping contractor's license is issued, the applicant therefore shall have filed with the City Engineer's Office a surety bond in the amount of $5,000.00 which shall be approved as to form by the City Attorney. The condition of such bond shall be that the principal therein shall comply with all ordinances of the City relating to and regulating the striping of parking lots, and hold and save the City harmless from any and all damage to persons or property resulting from or growing out of any action or inaction by the principal therein.

(b) Prior to application, the person applying for the license shall pass a comprehensive exam covering ADA standards for accessible parking developed by the City Engineer's Office and the ADA Coordinator.

(c) No striping contractor's license or renewal thereof shall be granted to:

1. Any person who is not a citizen of the United States or in possession of a valid United States Permanent Residence Card, or an entity, if it does not have such a qualified person as a member or controlling shareholder;
2. Any person who has his license revoked for cause under the provisions of the City's Building Code or Wichita-Sedgwick County Unified Zoning Code;
3. Any person who is not at least 18 years of age;
4. Any person, who at the time of application for renewal of any license issued hereunder, would not be eligible for such license upon a first application;
5. Any person or entity who is unable to provide documentation that the applicant has satisfactorily completed the licensing exam for ADA Standards for accessible parking;
6. Any person who has failed to comply with a remediation agreement under Section 18.14.090.

(d) No bond shall be required if the striping is performed by or under the direct supervision of the property owner or renter or such property's owner's or renter's agent.
(Ord. No. 49-524, § 4, 6-25-2013)

Sec. 18.14.050. Application; fee.

(a) All persons shall make application for a striping contractor's license with the City Engineer's Office. The application for such license will be made on forms provided by the City Engineer's Office and shall be in writing and contain, at a minimum, the following information:

1. The full name and place of residence of the applicant. If the applicant is a sole proprietor, partnership, or limited liability company, the application shall give the full name, including all previous names and aliases, and the places of residence of the applicant, including each partner or member. If the applicant is a corporation, the applicant shall give the name and addresses of each stockholder possessing 20 percent or more of the stock of the corporation;
2. The name and address under which the applicant intends to conduct his/her business;

3. Proof the applicant has filed a bond with the City Engineer's Office as required in Section 18.14.040(a);

4. A copy of the applicant's workers compensation insurance policy or proof of waiver with statutorily required coverage;

5. Documentation that the applicant, all employees of the applicant or other persons who intend to participate in parking lot striping for the applicant's service have satisfactorily met all the requirements of Section 18.14.040.

(b) A striping contractor's license shall be issued for one year. The fee shall be $100.00, paid at the time of application. No fee shall be required if the striping is performed by or under the direct supervision of the property owner or renter.

(c) The City Engineer's Office shall develop any additional rules and regulations necessary for the issuance or annual renewal of striping contractors' licenses.
(Ord. No. 49-524, § 5, 6-25-2013)

Sec. 18.14.060. Suspension and subsequent revocation of license—Notice of hearing.

(a) Upon five business days' written notice served by first-class mail or personal delivery to the person holding a striping contractor's license, or to the striping contractor's agent at the site of the striping, the City Engineer or the City Engineer's designee shall have the authority to suspend such license for a period not to exceed 90 days, for any violation of the provisions of this Chapter.

(b) The City Engineer may suspend a license on the following conditions:

1. A willful, deliberate, or continual disregard and violation of any provision of the Wichita City Code, the Wichita-Sedgwick County Zoning Code, or failure to comply with any lawful order of the ADA Coordinator or the City Engineer;

2. Misrepresentations of a material fact submitted to the City of Wichita during the application process in obtaining a license;

3. Failure to pay the annual license fee;

4. Failure to maintain the eligibility requirements for a license;

5. Failure to maintain a current valid mailing address with the City Engineer's Office.

(c) Unless remedied within 30 days, a suspended license shall be revoked. The City Engineer shall give separate notice of such revocation. No new license shall be issued to such licensee, or to any person acting for or on his or her behalf, for a period of at least three years after revocation.

(d) The licensee may appeal such an order of suspension or revocation in writing to the City Council within 30 days from the date of such order. An appeal taken from an order of suspension or revocation shall not suspend the order of revocation or suspension during the pendency of such appeal. Any appeal from a decision of the City Council shall be heard pursuant to K.S.A. 60-2101(d).

(e) No striping work shall be performed by any licensed striping contractor who has received notice of suspension or revocation.
(Ord. No. 49-524, § 6, 6-25-2013)

Sec. 18.14.070. Requirements to stripe; striping without a license.

(a) The property owner, renter, general contractor, subcontractor, and any other agent striping a parking lot or causing such striping to be performed shall require any parking lot striping work to be performed by a striping contractor licensed under this Chapter.

(b) When striping begins, the striping contractor shall post a conspicuous notice at the location to be striped, to remain conspicuous for no less than seven days after striping is completed. The notice shall be in a form prescribed by the ADA Coordinator and shall contain, at a minimum, the striping contractor's name and license number or, if the striping contractor is the property owner or renter, the notice shall contain that entity's contact information. Alternatively, the striping contractor may submit a list of lots striped to the

City's ADA Coordinator within seven days containing such information required in the above notice.

(c) It is unlawful for any person to perform parking lot striping in the City without being a licensed striping contractor or to fail to place a conspicuous notice under 18.14.070(b).
(Ord. No. 49-524, § 7, 6-25-2013)

Sec. 18.14.080. Enforcement.

Any person may file a complaint alleging new parking lot striping does not conform to either the provisions of Section 18.14.020 or the current ADA Standards for Accessible Design with the City's ADA Coordinator; such complaint need not be in writing. The City's ADA Coordinator shall then investigate, and if probable cause exists to support the complaint, issue a citation and notice to appear pursuant to Section 18.14.100 or enter into a remediation agreement pursuant to Section 18.14.090.
(Ord. No. 49-524, § 8, 6-25-2013)

Sec. 18.14.090. Remediation.

(a) The City's ADA Coordinator may enter into a remediation agreement with the person or entity responsible for performing or causing to be performed non-compliant striping. Such agreement will require the curing of any parking lot striping defects and make arrangements for an inspection to assure compliance, all at such responsible party's expense. Such agreement may further require the responsible party to complete an educational program administered by the ADA Coordinator or the Coordinator's agent.

(b) It is unlawful to fail to follow such remediation agreement.

(c) Prosecution for failure to follow a remediation agreement shall be prosecuted without regard to any remediation action previously taken.
(Ord. No. 49-524, § 9, 6-25-2013)

Sec. 18.14.100. Service of notice to appear.

The City's ADA Coordinator shall, at all times, be empowered to enforce the provisions of this Chapter and other accessible parking ordinances. Such authority shall include the enforcement authority to issue citations for violations of this Chapter and for violations of Section 11.52.020(25). Citations and notices to appear issued under this Section shall:

(a) Particularize the violation alleged to exist or to have been committed or state a remediation agreement has been breached;

(b) Be addressed to and served upon the striping contractor or, when striping has not been performed by a striping contractor, the property owner, or renter. A striping contractor may be served at the address provided on the most recent contractor license application on file with the City of Wichita. The property owner may be served at the property owner's mailing address on record with Sedgwick County. A renter may be served at the address serviced by the lot striped.

(Ord. No. 49-524, § 10, 6-25-2013)

Sec. 18.14.110. Penalty.

Any person violating any of the provisions of this Chapter shall, upon conviction, be punished by a fine of not more than $1,000.00 or by imprisonment for not more than 30 days or by both such fine and imprisonment.
(Ord. No. 49-524, § 11, 6-25-2013)

CHAPTER 18.15. WICHITA/SEDGWICK UNIFIED BUILDING AND TRADE CODE

Sec. 18.15.010. Incorporated by reference.

Sec. 18.15.010. Incorporated by reference.

The Wichita/Sedgwick Unified Building and Trade Code is by reference incorporated in and by this publication made part of this title and chapter as fully as though set out at length herein and is adopted as the building and trade regulations for the City of Wichita.
(Ord. No. 49-404, § 1, 12-11-2012)

CHAPTER 18.16. DANGEROUS AND UNFIT BUILDINGS

Sec. 18.16.010. Central inspection division.
Sec. 18.16.020. Unsafe buildings defined—Nuisance—Hearing.
Sec. 18.16.030. Posting of notice.
Sec. 18.16.040. Defects deemed unsafe.
Sec. 18.16.050. Resolution to repair or remove.
Sec. 18.16.060. Owner to pay permit fee.
Sec. 18.16.070. Failure of owner to remove.
Sec. 18.16.080. Assessment to pay costs.
Sec. 18.16.090. Action without notice.
Sec. 18.16.100. Waiver of special assessments imposed for the costs to raze and remove a dangerous and unsafe structure.

Sec. 18.16.010. Central inspection division.

There is hereby established in the Cty of Wichita the "central inspection division" which shall be under the jurisdiction of the superintendent of central inspection who is hereby designated as the building official.
(Ord. No. 28-251 § 3)

Sec. 18.16.020. Unsafe buildings defined—Nuisance—Hearing.

All buildings or structures which are structurally unsafe or not provided with adequate egress, or which constitute a fire hazard, or are otherwise dangerous to human life, or which in relation to existing use constitute a hazard to safety or health or public welfare, by reason of inadequate maintenance, dilapidation, obsolescence, fire hazard, or abandonment, as specified in this code or any other effective ordinance, are, for the purpose of this section, unsafe buildings. All such unsafe buildings are declared to be public nuisances and shall be abated as hereinafter provided. Whenever the central inspection superintendent shall file with the governing body a statement in writing that any structure, describing the same and where located, is unsafe or dangerous the governing body shall, by resolution, fix a time and place at which the owner, his agent, any lienholder of record and any occupant of such structure may appear and show cause why such structure should not be condemned and ordered repaired or demolished. Such resolution shall be published once each week for two consecutive weeks on the same day of each week. At least thirty days shall elapse between the last publication and the date set for the hearing. A copy of the resolution shall be mailed by certified mail within three days after its first publication to each owner, agent, lienholder and occupant, at his or its last known place of residence, and shall be marked "deliver to addressee only."
(Ord. No. 41-236 § 1)

Sec. 18.16.030. Posting of notice.

Upon filing of such statement in writing with the governing body, the central inspection superintendent shall place a notice on the particular buildings or structures found by him to be unsafe or dangerous, reading as follows:

> "This building has been found to be unsafe or dangerous by the central inspection superintendent of the city of Wichita. This notice is to remain on this building until it is repaired or demolished in accordance with the notice which has been given the owner, his agent, any lienholder of record, and any occupant of this building."

(Ord. No. 28-251 § 5)

Sec. 18.16.040. Defects deemed unsafe.

All buildings or structures or portions thereof which have any or all of the following defects shall be deemed dangerous buildings:

(a) Those structurally unsafe and liable to fall or collapse or those having vertical structural members or supports that lean, list or buckle to an extent that safety is questionable.

(b) Those which show thirty-three percent or more of damage or deterioration of the supporting members or fifty percent or more of damage or deterioration of the nonsupporting enclosing or outside walls or covering.

(c) Those which have improperly distributed loads upon the floors or roof or in which the same are overloaded or which have insufficient to be reasonably safe for the purpose used.

(d) Those which have been damaged by fire, wind, want of repair, or other causes so as to have become dangerous to life, safety, morals or the general health and welfare of the occupant or the people of the city.

(e) Those which have become or are so dilapidated, decayed, unsafe, unsanitary or which so utterly fail to provide the necessities to decent living that they are unfit for human habitation, or are likely to cause sickness or disease, so as to work injury to the health, morals, safety or general welfare of those living therein.

(f) Those having light, air, and sanitation facilities which are inadequate to protect the health, safety or general welfare of human beings who live or may live therein.

(g) Those having inadequate facilities for egress in case of fire or panic or those having insufficient stairways, fire escapes, elevators or other means of communications.

(h) Those having parts thereof which are so attached that they may fall and injure other property or the public.

(i) Those open to unauthorized persons or those permitted to be attractive to loiterers, vagrants, or children.

(j) Those whose use, equipment or want of good housekeeping constitutes a decided fire or safety hazard to the property itself or its occupants or which presents a decided fire or safety hazard to surrounding property or a menace to the public safety and general welfare.

All dangerous buildings within the terms of the foregoing provisions are hereby declared to be public nuisances and shall be repaired or demolished as herein provided.
(Ord. No. 28-251 § 6)

Sec. 18.16.050. Resolution to repair or remove.

On the date set for hearing or any adjournment thereof, the governing body shall hear all evidence submitted by the owner, his agent, lienholders of record, and occupants having an interest in such structure, as well as evidence submitted by the central inspection superintendent, and shall make findings by resolution. If the governing body of the city shall find that such structure is unsafe or dangerous, such resolution shall direct the structure to be repaired or removed and the premises made safe and secure. Such resolution shall be published once in the official city paper and a copy mailed to the owners, agents, lienholders of record and occupants in the same manner provided for the notice of hearing. The resolution shall fix a reasonable time within which the repair or removal of such structure shall be commenced and a statement that if the owner of such structure fails to commence the repair or removal of such structure within the time stated or fails to diligently prosecute the same until the work is completed, the governing body will cause the structure to be razed and removed.
(Ord. No. 28-251 § 7)

Sec. 18.16.060. Owner to pay permit fee.

The owner of any building or other structure to be demolished or removed from its location shall comply with the pertinent provisions of the building code and pay or cause to be paid a wrecking permit fee. Upon removing such structure, the owner, wrecker or licensed contractor shall seal the sanitary sewer connection in the manner set forth in Section 10.24.130 of the City Code. In addition, the owner or licensed contractor shall fill any basement or other excavation located upon the premises and take such other action necessary to leave the premises in a safe condition.
(Ord. No. 28-251 § 8)

Sec. 18.16.070. Failure of owner to remove.

If the owner of any structure has failed to commence the repair or removal of such structure within the time stated in the resolution or has failed to diligently prosecute the same thereafter, the central inspection superintendent may proceed to raze and remove such structure, make the premises safe and secure, or let the same to contract. The central inspection superintendent shall keep an account of the cost of such work and may sell the salvage from such structure and

apply the proceeds or any necessary portion to pay the cost of removing such structure and making the premises safe and secure. All moneys in excess of that necessary to pay such costs shall, after the payment of all costs, be paid to the owner of the premises upon which the structure was located. If there is no salvage material or if moneys received from the sale of salvage is insufficient to pay the cost of such work, such costs or any portion thereof in excess of the amount received from the sale of salvage shall be assessed as a special assessment against the lot or parcel of land on which the structure was located and the city clerk shall at the time of certifying other city taxes, certify the unpaid portion of the aforesaid costs and the county clerk shall extend the same on the tax rolls of the county against the lot or parcel of land.

Whenever any structure shall be removed from any premises under the provisions of this chapter, the city clerk shall certify to the county assessor that such structure, describing the same, has been so removed.
(Ord. No. 30-293 § 1; prior Ord. No. § 28-251 § 9)

Sec. 18.16.080. Assessment to pay costs.

In the event there is no salvage material growing out of the razing and removal of such building or structure as provided above, or if the moneys received from the sale of salvage is insufficient to pay the costs of the work, such costs or any portion thereof in excess of that received from the sale of salvage may be financed until the assessment is paid out of the general fund, or by issuance of no-fund warrants. Whenever no-fund warrants are issued hereunder, a tax levy shall be made at the first tax levying period for the purpose of paying such warrants and the interest thereon. All such tax levies shall be in addition to all other levies authorized or limited by law and shall not be subject to the aggregate tax levy prescribed in K.S.A., Article 19 of Chapter 79, and amendments thereto. Such warrants shall be issued, registered, redeemed, and bear interest in the manner and in the form prescribed by K.S.A. 79-2940, except they shall not bear the notation required by said section and may be issued without the approval of the state board of tax appeals. All moneys received from special assessments levied under the provisions of this section shall, when and if paid, be placed in the general fund of the city.
(Ord. No. 28-251 § 10)

Sec. 18.16.090. Action without notice.

When in the opinion of the central inspection superintendent any structure is in such condition as to constitute an immediate hazard requiring immediate action to protect the public, such officer may erect barricades or cause the property to be vacated, taken down, repaired, shored or otherwise made safe without delay and such action may, under such circumstances, be taken without prior notice to or hearing of the owners, agents, lienholders and occupants. The cost of any such action shall be assessed against the property and paid in the manner provided above.
(Ord. No. 28-251 § 11)

Sec. 18.16.100. Waiver of special assessments imposed for the costs to raze and remove a dangerous and unsafe structure.

In order to enhance the possibility that certain properties within the city of Wichita will be developed or rehabilitated, the waiver of the City's special assessments for lot clean-up, mowing, board-up, and liens from judgments is hereby authorized. In order to obtain a waiver of said special assessments, an applicant must file a completed application form provided by the City Treasurer with the City Treasurer's Office. The applicant will establish all of the following requirements in order for the assessment to be waived: (1) The applicant must have a 501(c)(3) designation and have had such designation for at least five years; (2) the real property upon which the waiver is being requested must be located within the City of Wichita's designated Local Investment Area; (3) the new or rehabilitated home must be sold to an individual or individuals who will occupy the home as his/her/their primary residence, and (4) the new or rehabilitated home must be sold by the applicant to an individual or individuals with a gross annual household income between 30—80 percent of the median income for Sedgwick County, Kansas. Following approval of the application by the City Treasurer's Office, it

will be presented to Council for consideration. Upon review and approval by the City Council, the assessments shall be waived and the appropriate documentation forwarded to the Sedgwick County Appraiser's Office by the City Treasurer. If the application is denied by the City Treasurer's Office, the applicant shall have the right of appeal from the denial by filing a written request with the City Clerk within ten days of the denial. The hearing on such appeal shall be heard by the City Council.
(Ord. No. 49-885, § 1, 11-25-14)

CHAPTER 18.17. CASUALTY INSURANCE PROCEEDS (FIRE INSURANCE PROCEEDS)

Sec. 18.17.010. Scope and application.
Sec. 18.17.020. Lien created.
Sec. 18.17.030. Encumbrances.
Sec. 18.17.040. Procedure.
Sec. 18.17.050. Fund created; deposit of moneys.
Sec. 18.17.060. Removal of structure; disposition of funds.
Sec. 18.17.070. Repair of structure; disposition of funds.
Sec. 18.17.080. Effect upon insurance policies.
Sec. 18.17.090. Insurers; liability.
Sec. 18.17.100. Insurance proceeds; proof of repairing or rebuilding.
Sec. 18.17.110. Failure to pay insurance proceeds or to obtain a certificate in lieu of payment proceeds.

Sec. 18.17.010. Scope and application.

Except as otherwise specified below, the City is hereby authorized to utilize the procedures established by K.S.A. 40-3901 *et seq.,* such that if fire, explosion, windstorm, or other casualty causes damage to a building or structure that is covered by insurance and the covered claim payment is in excess of seventy-five percent (75%) of the face value of the policy covering the building or structure, then the insurance provider shall be required to pay to the City an amount not to exceed fifteen percent (15%) of the proceeds of such policy, as set forth in this Chapter.
(Ord. No. 52-862, § 1, 12-16-25)

Sec. 18.17.020. Lien created.

The City Council creates a lien in favor of the City on the proceeds of any insurance policy based upon a covered claim payment made for damage or loss to a building or other structure located within the City, where the amount recoverable for all the loss or damage to the building or other structure under all policies is in excess of seventy-five percent (75%) of the face value of the policies covering such building or other insured structure. The lien arises upon any unpaid tax, special ad valorem levy, or any other charge imposed upon real property by or on behalf of the city which is an encumbrance on real property, whether or not evidenced by written instrument, or such tax, levy, assessment, expense or other charge that has remained undischarged for at least one year prior to the filing of a proof of loss.
(Ord. No. 52-862, § 2, 12-16-25)

Sec. 18.17.030. Encumbrances.

Prior to final settlement on any claim, the insurer shall contact the City Treasurer to determine whether any such encumbrances are presently in existence. If the same are found to exist, the insurer shall execute and transmit in an amount equal to that owing under the encumbrances a draft payable to the City Treasurer.
(Ord. No. 52-862, § 3, 12-16-25)

Sec. 18.17.040. Procedure.

The following procedure shall apply in the implementation of this section:

(a) When final settlement on a covered claim has been agreed to or arrived at between the named insured and the insurer, and the final settlement exceeds seventy-five percent (75%) of the face value of the policy covering any building or other insured structure, and when all amounts due the holder of a first real estate mortgage against the building or other structure, pursuant to the terms of the policy and endorsements thereto, shall have been paid, the insurance company shall execute a draft payable to the City Treasurer in an amount equal to the sum of fifteen percent (15%) of the covered claim payment, unless the Director of the Metropolitan Area Building and Construction Department (Director) or other designated official of the city has issued a certificate to the insurance company that the insured has removed the damaged building or other structure, as well as all associated debris, or repaired, rebuilt, or otherwise made the premises safe and secure in compliance with all applicable building, housing and health codes of the City of Wichita.

(b) Such transfer of funds shall be on a pro rata basis by all companies insuring the

building or other structure. Policy proceeds remaining after the transfer to the City shall be disbursed in accordance with the policy terms.

(c) Upon the transfer of the funds as required by this section, the insurance company shall provide the City with the name and address of the named insured, the total insurance coverage applicable to the building or other structure, and the amount of the final settlement agreed to or arrived at between the insurance company or companies and the insured. The City Treasurer shall then notify the MABCD Director, or his designee, that fire insurance proceeds have been received and are deposited. This notification shall include the name of the insured, date of loss, claim number, amount of proceeds and any of the insured's contact information made available by the insurance company.

(Ord. No. 52-862, § 4, 12-16-25)

Sec. 18.17.050. Fund created; deposit of moneys.

(a) The City Treasurer is authorized and shall create a fund to be known as the "Insurance Proceeds Fund." All money received by the City Treasurer as provided for by this section shall be placed in the fund and deposited in an interest-bearing account.

(b) Upon receipt of such funds, the City Treasurer shall immediately notify the Director or other designated code official or enforcing officer of the receipt, and transmit all documentation received from the insurance company to such official.

(Ord. No. 52-862, § 5, 12-16-25)

Sec. 18.17.060. Removal of structure; disposition of funds.

If the Director or other designated code official or enforcing officer, with regard to a building or other structure damaged, determines that it is necessary to act under K.S.A. 12-1750 *et seq.*, any proceeds received by the City Treasurer under the authority of this Chapter relating to that building or other structure shall be used to reimburse the city for any expenses incurred by the City in proceeding under K.S.A. 12-1750 *et seq*. Upon reimbursement from the insurance proceeds, the Director or other designated code official or enforcing officer shall immediately affect the release of the lien resulting therefrom. Should the expenses incurred by the City exceed the insurance proceeds paid over to the City Treasurer under this Chapter, the Director or other designated code official or enforcing officer shall publish a new lien as authorized by K.S.A. 12-1750 *et seq.*, in an amount equal to such excess expenses incurred.

(Ord. No. 52-862, § 6, 12-16-25)

Sec. 18.17.070. Repair of structure; disposition of funds.

If the property owner of a building or other structure damaged by fire, explosion, windstorm, or other casualty determines, in conjunction with the Director or other designated code official or enforcing officer, determines that it is feasible to repair and rehabilitate the structure, rather than to raze it, funds shall be released after repairs are substantially and properly completed in accordance with applicable building, housing and health codes of the City of Wichita including the proper permitting and inspection of any work completed.

(Ord. No. 52-862, § 7, 12-16-25)

Sec. 18.17.080. Effect upon insurance policies.

This Chapter shall not make the City a party to any insurance contract, nor is the insurer liable to any party for any amount in excess of the proceeds otherwise payable under its insurance policy.

(Ord. No. 52-862, § 8, 12-16-25)

Sec. 18.17.090. Insurers; liability.

Insurers complying with this section or attempting in good faith to comply with this section shall be immune from civil and criminal liability and such action shall not be deemed in violation of K.S.A. 40-2404 and any amendments thereto, including withholding payment of any insurance

proceeds pursuant to this section, or releasing or disclosing any information pursuant to this section.
(Ord. No. 52-862, § 9, 12-16-25)

Sec. 18.17.100. Insurance proceeds; proof of repairing or rebuilding.

In lieu of the payment of insurance proceeds, the insured may present satisfactory proof to the Director or other designated code official or enforcing officer that the insured has or will remove debris and repair, rebuild or otherwise make the premises safe and secure in compliance with all applicable building, housing and health codes of the City of Wichita.

Upon presentation of such sufficient evidence, the Director or other designated code official or enforcing officer, along with the City Clerk, shall certify that adequate proof of repairing or rebuilding has been given and that the payment of insurance proceeds to the city shall not be paid, subject to any lien created by the city should the insured fail to rebuild, repair, or secure the property as presented. The insured shall be responsible for presenting such certificate to the insurer. The insured, in seeking such certificate, shall present a timetable showing when repairs or rebuilding will be completed; render architectural or engineering plans, subject to approval by the Director, showing the method, manner and materials to be used in repairing or rebuilding; and any other evidence deemed necessary by the Director to demonstrate that the repairs or rebuilding will be completed in a timely and lawful manner. Failure of the insured to comply with the certificate shall result in the institution of continuation of proceedings for abatement.
(Ord. No. 52-862, § 10, 12-16-25)

Sec. 18.17.110. Failure to pay insurance proceeds or to obtain a certificate in lieu of payment proceeds.

It is unlawful for any person to fail to provide the payment of insurance proceeds as required by this Chapter unless a certificate in lieu of payment of proceeds has been obtained through the City.
(Ord. No. 52-862, § 11, 12-16-25)

CHAPTER 18.24. RESERVED*

*__Editor's note—__Ord. No. 49-404, § 2, adopted December 11, 2012, repealed the former Ch. 18.24, §§ 18.24.040, 18.24.050. The former Ch. 18.24 pertained to construction standards, and derived from Ord. No. 28-251, § 2; Ord. No. 45-684, § 1. The user's attention is directed to Ch. 18.15, § 18.15.010.

CHAPTER 18.32. RESERVED*

*__Editor's note—__Ord. No. 49-404, § 2, adopted December 11, 2012, repealed the former Ch. 18.32, § 18.32.010. The former Ch. 18.32 pertained to enforcement, and derived from Ord. No. 41-502, § 20. The user's attention is directed to Ch. 18.15, § 18.15.010.

CHAPTER 18.36. RESERVED*

*__Editor's note—__Ord. No. 49-404, § 2, adopted December 11, 2012, repealed the former Ch. 18.36, § 18.36.010. The former Ch. 18.36 pertained to tents, grandstands and air-supported structures used for places of assembly, and derived from Ord. No. 41-502, § 21. The user's attention is directed to Ch. 18.15, § 18.15.010.

Sec. 18.40.010. Definitions.

As used in this chapter:

"Accessory structure" means a structure the use of which is incidental to that of the main building and which is attached thereto or located on the same premises.

"Building" means a structure adapted to permanent or continuous occupancy or use for public, institutional, business, industrial or storage purposes.

"Building manager" means any person who manages or owns a building and may be either agent for or owner of a building.

"Building occupant" means any person who leases, rents or owns a building or portion thereof and who physically occupies or has possession of a building or portion thereof.

"Fire hazard" shall be defined as follows:

(a) Any device or condition likely to cause fire and which is so situated as to endanger either persons or property;

(b) The creation, maintenance, or continuance of any physical condition by reason of which there exists a use, accumulation or storage of combustible or explosive material sufficient in amount or so located or in such a manner as to put in jeopardy in event of ignition, either person or property;

(c) The obstruction to or of fire escapes, ladders which may be used as escape, stairways, aisles, exits, doors, windows, passageways or halls likely in the event of fire to interfere with the operations of the fire department or of the safety and ready egress of occupants.

"Infestation" means the presence of insects, rodents, vermin or other pests on the premises which constitute a health hazard.

"Notice" means a written report issued to the owner and/or his agent by the superintendent of central inspection or his designated representa-

tive stating in detail the improvements and/or corrections required to be accomplished on a premises or building which will bring such into compliance with this Code.

"Order" means a directive issued to the owner and/or his agent by the superintendent of central inspection or the board of code standards and appeals after such hearings as required by this Code stating that the owner shall make improvements and/or corrections to a premises or building to bring such into compliance with this Code or to remove the building and clear the premises.

"Owner" means a person who alone or jointly or severally with others:

(a) Shall have record legal title to any property or structure thereon with or without accompanying actual possession thereof, or

(b) Shall have charge, care or control of any property or structure thereon as owner or as executor, executrix, administrator, administratrix, trustee, or guardian of the estate of the owner.

"Person" means a natural person or a legal entity such as, but not limited to, an individual, firm, association, joint stock company, syndicate, partnership or corporation.

"Premises" means a lot, plot or parcel of land including structures located thereon.

"Structure" means that which is built or constructed, an edifice or building of any kind or any piece of work artificially built up or composed of parts joined together in some definite manner.
(Ord. No. 41-502 § 22)

Sec. 18.40.020. Short title—Purpose.

This chapter shall be known as the "Premises Maintenance Standards for Existing Buildings."

Every portion of a building or premises shall comply with the provisions of this chapter. The chapter provides for minimum standards for the continued use and occupancy of all buildings and does not replace standards under which a structure was constructed and equipped. Repair and alterations shall be approved providing such work results in a general improved condition of the structure and does not diminish the safety of the structure or occupants.

The purpose of this chapter is to protect the public health, safety of the citizens of the city, by establishing minimum standards governing the maintenance of all structures and premises; fixing certain responsibilities and duties of owners, agents, and occupants of all structures unfit for human use, occupancy, and habitation, and fixing penalties for the violation of the provisions of this chapter. This chapter is declared to be remedial and essential to the public interest, and it is intended that this chapter be liberally construed to serve the purposes as stated above; provided, however, that the intent of this chapter shall, in addition, be to assist and further the restoration and preservation of those sites, buildings, structures and objects which have been entered or may be eligible for entry on the National Register of Historic Places, pursuant to Title 16, United States Code. Section 470(a) or other appropriate legislation, or as designated by the Historic Wichita Board or the Kansas Historical Society, and those sites, buildings and structures which contribute to the integrity of location, design, setting, feeling and association of any such designated or eligible historic place, it being recognized that such structures cannot and will not be restored and preserved if they are required to conform to building codes and other regulations promulgated subsequent to their construction, and it is further intended that this chapter be liberally construed to serve the purposes as stated above and to further such restoration and preservation.
(Ord. No. 41-502 § 23)

Sec. 18.40.030. Administrative authority.

The superintendent of central inspection is designated to administer and enforce this chapter. This chapter shall be applicable to all structures now in existence or hereinafter constructed or moved in the city, and all structures which become incorporated into the city because of annexation; provided that the construction of new structures and remodeling, repairing or moving of existing structures in the city shall comply with

the provisions of this chapter and with the provisions of all other applicable codes and ordinances of the city.
(Ord. No. 41-502 § 24)

Sec. 18.40.040. Rules and regulations.

The superintendent of central inspection is authorized to make and adopt such rules and written regulations as may be necessary for the proper enforcement of the provisions of this chapter, provided that such rules and written regulations shall not be in conflict with the provisions of this chapter. All such rules and written regulations as the superintendent of central inspection may deem necessary for proper and effective enforcement of the provisions of this chapter shall be subject to the approval of the council and shall be binding and effective when filed in the office of the city clerk.
(Ord. No. 41-502 § 25)

Sec. 18.40.050. Inspection authority.

The superintendent of central inspection is authorized and directed to make, or cause to be made, inspections to determine the condition of all structures and premises located within the city, in order that he may perform his duty of safeguarding the welfare and safety of the occupants of structures and of the general public in order that he may ascertain that the standards for structures as set forth in this chapter are properly maintained. For the purpose of making such inspection, the superintendent of central inspection or his designated representative is hereby authorized to enter, examine, and survey at any reasonable time all structures and premises. The owner, agent, and occupant of every structure shall give the superintendent of central inspection or his designated representative free access to such structure and its premises at all reasonable times for the purpose of such inspection, examination, and survey. In the event of necessity, the superintendent of central inspection shall procure right of entry and inspection by application to and proper orders from a court of competent jurisdiction. Every occupant of a structure shall give the owner thereof, or his agent or employee, access to any part of such structure, or its premises at all reasonable times for the purpose of making such repairs or alterations that are necessary to effect compliance with the provisions of this chapter or with lawful rule or regulation adopted or any lawful order issued pursuant to the provisions of this chapter.
(Ord. No. 32-419 § 5)

Sec. 18.40.060. Enforcement.

Any officer or employee of the city charged with the enforcement of this chapter shall not, in the discharge of his duties, thereby render himself liable personally for any damage that may occur. Any suit brought against any officer or employee of the city because of such act performed by him in the enforcement of any of the provisions of this chapter shall be defended by the department of law until the final termination of the proceedings therein.

Inspectors and authorized personnel of the department of central inspection shall be supplied with official identification and upon request shall exhibit such identification to the owner or agent when entering any structure or premises.
(Ord. No. 32-419 § 6)

Sec. 18.40.070. Notice of violation.

Whenever the superintendent of central inspection determines that there has been a violation of any provision of this chapter, or of any use or written regulation adopted pursuant thereto, he shall give notice of such alleged violation to the person or persons responsible therefor as hereinafter provided. Such notice shall:

(a) Be in writing;

(b) Particularize the violations alleged to exist or to have been committed;

(c) Provide a reasonable time for the correction of the violation particularized;

(d) Be addressed to and served upon the owner of the property and the agent of the owner or the occupant of the property concerned if the occupant is or may be responsible for the violation; provided that such notice shall be deemed to be properly served upon such owner, operator or occu-

pant if a copy thereof is served upon him personally or if a copy thereof is sent by certified mail to his last known address.

Any notice served pursuant to this section, shall become an order if a written petition for a hearing is not filed in the office of the superintendent of central inspection within ten days after such notice is served.
(Ord. No. 43-888 § 57)

Sec. 18.40.080. Placard erection.

In addition to giving notice of alleged violations of this chapter, and after a reasonable time for correction of violations and such appeals as provided for in this chapter, the superintendent of central inspection may appropriately placard such structures that have been determined to be in violation of any provisions of this chapter. The placard shall include but not be limited to a statement that the structure is in violation of provisions of the premises maintenance standards of the city. The superintendent of central inspection shall remove such placard whenever the violations particularized in the notice have been corrected. No unauthorized person shall deface, remove or obscure.
(Ord. No. 43-888 § 58)

Sec. 18.40.090. Informal hearing.

Any person affected by any notice which has been issued in connection with the enforcement of any provisions of this chapter, or of any rule or regulation adopted pursuant thereto, who is aggrieved thereby, and who believes the same to be contrary to the policies or regulations of the city, may request and shall be granted an informal hearing on the matter before the superintendent of central inspection or his designated representative; provided that such person shall file in the office of the superintendent of central inspection a written request for such informal hearing and setting forth a brief statement of the grounds therefor, within ten days after the day notice was served. Upon receipt of such petition, the superintendent of central inspection set a time and place for such informal hearing and shall give the petitioner written notice thereof. At such informal hearing, the petitioner shall be given an opportunity to be heard and to show why such notice should be modified or withdrawn. The informal hearing shall be commenced not later than ten days after the day on which the petition was filed; provided that upon application of the petitioner, the superintendent of central inspection may postpone the date of the informal hearing for a reasonable time beyond such ten-day period, if in his judgment the petitioner has submitted a good and sufficient reason for such postponement.

After such informal hearing as provided for, the superintendent of central inspection or his designated representative may sustain, modify or withdraw the notice, depending upon his finding as to whether the provisions of this chapter and of the rules and regulations adopted pursuant thereto have been complied with. If the superintendent of central inspection or his designated representative sustains or modifies such notice, it shall be deemed to be an order. The petitioner may appeal any order to the board of code standards and appeals as stated in Section 18.40.110.
(Ord. No. 41-502 § 27)

Sec. 18.40.100. Action without notice.

When in the opinion of the superintendent of central inspection any structure is in such condition as to constitute an immediate hazard requiring immediate action to protect the public, such officer may erect barricades or cause the property to be vacated, taken down, repaired, shored or otherwise made safe without delay and such action may, under such circumstances, be taken without prior notice to or hearing of the owners, agents, lienholders and occupants. The cost of any such action shall be assessed against the property and paid in the manner provided above.
(Ord. No. 32-419 § 10)

Sec. 18.40.110. Board of code standards and appeals—Advisory agency.

The board of code standards and appeals as established in Section 18.04.020 shall act in an advisory capacity to the council in the amending and revision of this chapter, and act as a board of appeals from the hearings conducted by the superintendent of central inspection.
(Ord. No. 41-502 § 28)

Sec. 18.40.120. Board of code standards and appeals—Meetings.

The board shall adopt reasonable procedures, provided that such procedures are not inconsistent with this chapter or state law, for conducting its meetings and investigations and shall render all decisions and findings in writing to the superintendent of central inspection with a duplicate copy to the appellant, and as otherwise provided.
(Ord. No. 41-502 § 29)

Sec. 18.40.130. Board of code standards and appeals—Powers.

The board of code standards and appeals conducting hearings as provided in this chapter:

(a) Shall have the authority to administer oaths, affirmations, examine witnesses, and receive evidence;

(b) Shall consider the findings of the superintendent of central inspection, health officer and fire inspector as to facts, if supported by evidence conclusive.

The rules of evidence prevailing in courts of law or equity shall not be controlling in hearings before the board.

In a hearing on an appeal from the superintendent of central inspection's hearings, the board may sustain, modify, or withdraw the superintendent of central inspection's order depending upon its finding as to whether the standards of this chapter have been complied with. The superintendent of central inspection, the health officer, the fire chief, and the city attorney, or their designated representatives, shall attend all board meetings and advise and consult with the board in matters pertaining to the enforcement of the premises maintenance standards. The board shall keep minutes of its proceedings, showing the vote of each member upon each question or if absent or failing to vote indicating such fact and shall keep a record of its meeting and other official actions, all of which shall be a public record.
(Ord. No. 43-888 § 59)

Sec. 18.40.140. Variance.

A variance to the standards of this chapter shall not be made by the board except for a variance of the literal interpretation of a standard, provided that such variance would result in compliance with the intent of the standard, provided that the board may make a variance to the standard of this chapter based on a request and recommendation by the staff advisors from the office of central inspection, the Wichita-Sedgwick County department of community health, and fire department for a specific time which may be extended.
(Ord. No. 43-888 § 60)

Sec. 18.40.150. Appeal—Hearing.

The board shall hold a public hearing on all appeals made to it and written notice of such public hearing shall be sent to the applicant. Such notice shall be given not less than ten days before the date set for hearing. Such notice may be served by certified mail.
(Ord. No. 43-888 § 61)

Sec. 18.40.160. Hearing—Evidence.

At a public hearing relative to any appeal, any interested party may appear in person, by his agent or by his attorney and present evidence.
(Ord. No. 32-419 § 16)

Sec. 18.40.170. Appeal—Stay of proceedings.

An appeal shall stay all proceedings in furtherance of the action appealed from unless the superintendent of central inspection certifies to the satisfaction of the board that by reason of facts stated in the certificate, a stay would, in his opinion, cause imminent peril to life or property.
(Ord. No. 32-419 § 17)

Sec. 18.40.180. Designation of unfit structures.

The designation of structures as unfit for use or human habitation and the procedure for correction of such unfit structures shall be carried out in compliance with the following requirements:

(a) The superintendent of central inspection may determine that a structure is unfit for use or human habitation if he finds that conditions exist in such structure which are dangerous or injurious to the health, welfare or safety of the occupants

of such structure; the occupants of neighboring structures, dwellings or other residents of the city. Such conditions may include the following without limitation: Defects therein increasing the hazard of fire, accidents or other calamities; lack of adequate ventilation; air pollution; light or sanitary facilities; dilapidation; disrepair, structural defects; uncleanliness; overcrowding; inadequate ingress and egress; dead and dying trees, limbs or other natural growth; illegally stored or parked material, equipment, supplies, machinery, trucks, or automobiles or parts thereof, vermin infestation; inadequate drainage; or, any violation of health, fire, building, or zoning regulations; or, any other laws or regulations relating to the use of the land and the use and occupancy of buildings and improvements.

The determination that a building is unfit for use or human habitation shall be predicated on the fact that such defects as aforestated are a serious hazard to the health, welfare, or safety of the occupants or of the public. The health officer and fire chief shall cooperate with the superintendent of central inspection in determining that a structure is unfit for use or human habitation where health or fire regulations are applicable;

(b) Whenever a petition is filed with the superintendent of central inspection signed by at least five residents of the city, charging that any structure is unfit for use or human habitation or whenever the health officer or the fire chief allege in writing to the superintendent of central inspection, that a structure is unfit for use or human habitation or whenever it appears to the superintendent of central inspection (on his own motion) that any structure is unfit for use or human habitation he shall, if his investigation discloses a basis for such charges, issue and cause to be served upon the record owner, every mortgagee of record, and all parties in interest in such structure (including persons in possession) a notice stating the charges in that respect. Such notice shall include a statement that a hearing will be held before the board of code standards and appeals at a place therein fixed not less than fifteen days nor more than forty-five days after the serving of such notice; that the owner, mortgagee, and parties in interest shall be given the right to file an answer to the notice and to appear in person or otherwise, and give testimony at the place and time fixed in the notice; and the rules of evidence prevailing in courts of law or equity shall not be controlling in hearings before the board;

(c) If after such notice and hearing, the board determines that the structure under consideration is unfit for use or human habitation, such board shall state in writing its findings of fact in support of such determination and shall issue and cause to be served upon the owner thereof an order which:

(1) Requires the owner within the time specified in the order to repair, alter or improve such structure to render it fit for use or human habitation; or to vacate and close the structure until conformance with the standards of this chapter; or

(2) Requires the owner within the time specified in the order to remove or demolish such structure, if such structure cannot be made fit for human use or occupancy;

(3) Owner has the option to repair to conform with the code or to demolish the structure;

(d) If the owner falls to comply with an order to repair, alter, or improve or to vacate and close a structure, the superintendent of central inspection may cause such structure to be removed or demolished;

(e) The amount of cost of such repairs, alterations or improvements or vacating and closing or removal or demolition by the superintendent of central inspection shall be a lien against the real property upon which such cost was incurred and such

lien, including as a part thereof allowance of his costs and the necessary attorney's fees, may be foreclosed in judicial proceedings in a manner provided or authorized by law for loans secured by liens on real property. If the structure is removed or demolished by the superintendent of central inspection, he shall sell the materials of such structure and shall credit the proceeds of such sale against the cost of the removal or demolition, and if there is any balance remaining, it shall be paid to the parties entitled thereto as determined by proper judicial proceedings, including his necessary attorney's fees incurred therein, as determined by the court.

(Ord. No. 41-502 § 32)

Sec. 18.40.190. Correction of unfit structures.

The owner of any structure which has been designated as unfit for use or human habitation and vacated pursuant to an order by the board shall make such structure safe and secure in whatever manner the board may reasonably require. Any vacant building open at the doors and windows, if unguarded, shall be deemed dangerous to human life and a nuisance within the meaning of these provisions. Buildings that are partially occupied and which have unoccupied areas that have been declared unsafe or unfit for use or habitation, separate or apart from the occupied or other portions of the building, shall be corrected or demolished for all portions of the building so declared.

(Ord. No. 32-419 § 19)

Sec. 18.40.200. Savings clause.

Nothing in this chapter shall be deemed to abolish or impair any existing remedies of the city or its officers or agencies relating to the removal or abatement of nuisances or to the removal or demolition of any buildings which are deemed to be dangerous, unsafe, or unsanitary.

(Ord. No. 32-419 § 20)

Sec. 18.40.210. Serving and filing of notices.

(a) The serving and filing of notices and orders and the filing of affidavits pursuant to this section shall be as follows:

(1) Notices and orders shall be served upon all persons entitled thereto, either personally or by certified mail, but if the whereabouts of such persons is unknown and the same cannot be ascertained in the exercise of reasonable diligence, an affidavit shall be made to that effect;

(2) Serving of such notice and order upon such persons shall be made by publishing the same once each week for two consecutive weeks in the official city newspaper.

(b) In the event the final order is not complied with then:

(1) A copy of such notice and order shall be posted in a conspicuous place on the premises affected by the complaint and order;

(2) A copy of such notice, order, affidavit and publications shall also be filed with the clerk of the district court of Sedgwick County, Kansas, and such filing of the notice and order shall have the same force and effect as other lis pendens notices provided by law.

(Ord. No. 43-888 § 62)

Sec. 18.40.220. Appeal to the city council.

Appeals from the decision of the board of code standards and appeals may be made to the city council by requesting in writing to the city clerk, within fifteen days after receiving such decision, a hearing before such board. Such appeal shall be heard, with three day's written rectification as to time and place given such appellant, within fifteen days after receipt of the written request.

The proceedings at informal hearings, including the findings and decision of the superintendent of central inspection or his designated representative, shall be reduced to writing, and entered as a matter of public record in the office of the superintendent of central inspection.

The record shall include a copy of every notice or order issued in connection with the matter. Appeals from the decision of the superintendent of central inspection or his designated representative may be made to the board of code standards and appeals by requesting in writing to the superintendent of central inspection, within fifteen days after receiving such decision, a hearing before the board. The appeal shall be heard, with three days written notification as to time and place given such appellant, within fifteen days after receipt of written request.
(Ord. No. 41-502 § 34)

Sec. 18.40.230. Notice of infraction.

Whenever an order has been issued for any infraction of this chapter, the superintendent of central inspection or the board of code standards and appeals may file a statement that this chapter has been violated in the office of the county clerk to be filed in the deed records. Such recording shall constitute sufficient notice of the impending action to any subsequent purchaser, transferee, grantee, mortgagee, or lessee of the property affected. Once compliance with the chapter has been established the superintendent of central inspection shall certify such compliance in the office of the county clerk to be filed in the deed records.
(Ord. No. 41-502 § 35)

Sec. 18.40.240. Action by city attorney.

The city attorney shall upon complaint of the superintendent of central inspection or upon his own motion, institute appropriate action to restrain, prevent, enjoin, abate, correct, or remove such violation and to take such other legal action as is necessary to carry out the terms and provisions of this chapter. The remedies provided for herein shall be cumulative and exclusive and shall be in addition to any other remedies provided by the law; any and all remedies may be pursued concurrently or consecutively, and the pursuit of any remedy shall not be construed as an election or the waiver of the right to pursue any and all of the others.
(Ord. No. 32-419 § 24)

Sec. 18.40.250. Severability.

If any section or provision of this chapter should be held invalid for any reason whatsoever, such invalidity shall not affect the remaining portion of this chapter which shall remain in full force and effect and the provisions of this chapter are declared to be severable.
(Ord. No. 32-419 § 25)

Sec. 18.40.260. Violation—Penalty.

Any person who wilfully and knowingly violates any provision of this chapter, or any provision of any rule or regulation adopted by the superintendent of central inspection pursuant to authority granted by this chapter, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than five hundred dollars or by imprisonment in the city jail, for a period of not exceeding six months, or by both such fine and imprisonment. Each day that any violation of this chapter continues shall constitute a separate offense and shall be punishable hereunder as a separate violation.
(Ord. No. 40-094 § 1)

Sec. 18.40.270. Land area requirements.

All land areas, improved and unimproved, shall be reasonably free from holes and excavations, sharp protrusions, and other objects or conditions which might be a potential cause of personal injury.

All wells, cesspools, or cisterns shall be securely closed. Trees, limbs, shrubs or other plant life that constitute a hazard shall be removed.

All land areas shall be kept free from organic and inorganic material that might become a health, accident, or fire hazard. All land areas, improved and unimproved, shall be kept clean at all times.
(Ord. No. 32-419 § 27)

Sec. 18.40.280. Structural requirements.

The structural components of a structure and the exterior and interior of structures and all appurtenances thereto shall be kept in good re-

pair and maintained in a condition that is not a fire hazard or a menace to the health or safety of the occupants of such property.

Doors, windows, corridors, stairways, fire escapes, ramps, and passageways, serving as ordinary or emergency exit routes shall be free of stored, discarded or extraneous material, and in no case shall such routes be obstructed or locked to persons within the building.

Floors, interior wags and ceilings and all appurtenances thereto such as baseboards, moldings, door frames, etc., shall be secure and free from holes, cracks, breaks, dampness, loose or peeling paint, plaster or wallpaper sags, bulges, and unevenness in which there exists insects and/or rodents or which would cause injury by tripping or by falling loose building materials.

Clean and sanitary condition shall be deemed as freedom from filth, debris, litter, decayed organic matter, grease and anything that may serve as an attractant or harborage of vermin.

Sound condition and good repair shall be deemed the cessation or reversal of the destructive effects of damage by water, weather, wear, settling, or damage by persons, vermin, or building senescence, and the protection where possible from damage by these same factors by waterproofing, painting, glazing, carpentry, stuccoing, tuckpointing and masonry work and other techniques executed in acceptable manner as approved by the superintendent of central inspection.
(Ord. No. 32-419 § 28)

Sec. 18.40.290. Vermin and infestation prohibited.

All premises shall be kept reasonably free from sources of vermin, rodent and insect breeding, harborage, and infestation. Where these conditions are found to exist, such areas, harborage, or infestation shall be eliminated.
(Ord. No. 32-419 § 29)

Sec. 18.40.300. Utility maintenance.

Every supplied facility, piece of equipment or utility which is required under this chapter shall be so constructed and installed that it will function safely and effectively and shall be maintained in satisfactory working condition.
(Ord. No. 32-419 § 30)

Sec. 18.40.310. Standing water prohibited.

Water shall not be allowed to puddle or stand in a manner so as to create a health or structural hazard or provide a source of mosquito infestation.

All drainage facility shall carry waters to the nearest practicable drainageway approved by the superintendent of central inspection.
(Ord. No. 32-419 § 31)

Sec. 18.40.320. Trash and garbage requirements.

Every structure whose occupancy results in an accumulation of garbage shall have adequate garbage disposal facilities or garbage containers, whose type and location are approved by ordinance and the health officer.

The interior of every structure shall be maintained free from garbage, rubbish and other refuse that might become a health, accident or fire hazard.
(Ord. No. 41-502 § 36)

Sec. 18.40.330. Lighting and wiring requirements.

Every hall, corridor, exit doorway or change of direction leading from a structure shall be adequately lighted and shall be marked with exit signs when required by the building code.

Electrical wiring and devices shall be so designed, installed and maintained as not to be a potential source of ignition of combustible material or an electrical hazard.

The rating or setting of overcurrent devices shall not be in excess of the carrying capacity of the circuit conductor. Defective or unsafe wiring and equipment shall be repaired or replaced. No temporary wiring shall be installed as a permanent method of wiring. Only the approved electric cords shall be run directly from portable electric fixtures or appliances to outlets and shall not lie

under floor covering or extend through doorways, transoms or other openings through structural elements. When the capacity of circuits within a building is insufficient to carry the load imposed by normal use of appliances and fixtures as indicated by the name plate rating of such appliance, additional circuits shall be provided or the use of excessive appliances discontinued.

Each outlet and electrical fixture shall be deemed to be installed in an approved manner only if provision is made for a service entrance capacity sufficient for typical loads to such outlets and fixtures.

Frayed and exposed wiring, wiring unprotected by proper covering, fixtures in disrepair, and wiring or fixture repairs in makeshift fashion shall all be deemed unsafe and not in good working condition.
(Ord. No. 41-502 § 37)

Sec. 18.40.340. Heating requirements.

All heating equipment shall be installed in an approved manner, and maintained in safe and good working condition.

All heating equipment burning fuels shall be connected to a chimney or flue and fuel supply line in an approved manner. Heating equipment shall be installed in a manner which will avoid the dangerous concentration of fumes and gases. Heating equipment shall not be forced to operate beyond the safe capacity for which it was designed. Where necessary, as required by the superintendent of central inspection, exposed heating risers, heating ducts, and hot water lines shall be covered with an insulating material or guard.

Every heating device shall be so maintained and operated as to be free from fire, health, and accident hazards. All fuel burning equipment, components, and accessories shall be free from leaks and obstructions and function properly.

Boilers or furnaces shall be equipped with approved safety devices arranged to limit high steam pressures, or water temperatures, or air temperatures in warm air furnaces. Each fuel fired boiler shall be equipped with a low water cut-off.
(Ord. No. 41-502 § 38)

Sec. 18.40.350. Water supply.

All structures which are required to have water service shall be supplied with a potable water supply. There shall be adequate water supply and pressure at all connected hot and cold water outlets. The supply and pressure shall be sufficient at all times for the operation of all connected plumbing fixtures and equipment. Where water is not supplied from a public source, the source and system utilized shall be approved by the health officer.

Discharge of inadequately treated sewage shall not be permitted upon the surface of the ground or into natural or artificial surface drainageways.

All gas or oil burning water-heating equipment shall be connected to a chimney or flue and fuel supply line in an approved manner.

Water beating equipment shall be installed in a manner which will avoid the dangerous concentration of fumes and gases.

Approved safety relief valves shall be provided for all water heating equipment.

Water heating equipment shall not be forced to operate beyond the safe capacity for which it was designed. Every water heating device shall be so maintained and operated as to be free from fire, health and accident hazards.
(Ord. No. 41-502 § 39)

Sec. 18.40.360. Plumbing.

All connected plumbing fixtures shall be in good working condition and properly connected to a water system and to a sewerage system approved by the health officer.

Every plumbing fixture and water and waste pipe shall be maintained in good sanitary working condition, free from defects, leaks, and obstructions.

All structures shall have plumbing maintained to all the applicable requirements of the health code, plumbing code and the building code.

Every stack, waste line, and sewer line located in a structure and connecting sewer line shall be maintained as to function properly and not be a source of structural deterioration or a health

hazard. All stacks, waste lines, and sewer lines shall be kept free from obstructions, leaks, and defects.
(Ord. No. 41-502 § 40)

Sec. 18.40.370. Supporting structural members.

Supporting structural members of every structure shall be structurally sound and capable of bearing the imposed load safely. Supporting structural members shall be considered to be structurally sound if such members are capable of bearing imposed live and dead loads safely and if there is no evidence of deterioration that seriously degrades its structural capacity.
(Ord. No. 32-419 § 37)

Sec. 18.40.380. Weatherproofing.

Every structure shall be so maintained that it will be reasonably weather and water-tight. Exterior walls, roofs, and all openings around doors, windows, chimneys, and all other parts of the structure shall be so maintained as to keep water from entering the structure. Damaged materials must be repaired or replaced. All parts of the structure that show evidence of dry rot or deterioration shall be repaired or replaced and refinished to be in conformity with the rest of the structure.

All exterior wood surfaces of a structure that are not of a species inherently resistant to decay shall be treated periodically with a protective coating or other preservative to prevent structural deterioration. Exterior wood surfaces shall be adequately protected against deterioration through the periodic application of protective coatings designed for that purpose.

All cornices, entablatures, belt courses, corbels, terracotta trim, wall facings, and similar decorative features shall be maintained in good repair with proper anchorage and in a safe condition.

Requirements herein shall pertain to both accessory and primary structures. Accessory structures shall be kept structurally sound and in good repair or removed from the premises. The exterior of such structures shall be made weather-resistant through the use of decay-resistant materials or the application of paint or other preservatives.
(Ord. No. 32-419 § 38)

Sec. 18.40.390. Hard surface slabs.

All hard surface slabs shall be reasonably free from deterioration, cracks, holes, sharp protrusions, slopes and other conditions which are hazardous to health, safety or a structure.
(Ord. No. 32-419 § 39)

Sec. 18.40.400. Foundation requirements.

Every foundation shall be substantially weathertight, and rodentproof, and shall be considered to be in good repair and structurally sound if found free from damage or defects and capable of bearing imposed loads.
(Ord. No. 32-419 § 40)

Sec. 18.40.410. Exterior walls.

Every exterior wall shall be substantially weathertight, and rodentproof, and shall be kept in sound condition and good repair; provided that all wood, composition or metal siding shall be surface-coated as required to prevent deterioration; provided further that structures with one or more totally or partially open ends or sides and whose occupancy and use is not required, by any Wichita Code or ordinance, to be protected by a total enclosure, shall not be required to provide a weathertight, watertight, and rodentproof protection for such partially enclosed area. Exterior walls shall be considered to be in sound condition and good repair if found capable of bearing all live, dead, and imposed loads.

Existing windows and/or doors located in exterior walls, that are not required for egress or light and ventilation, may be removed by the owner of the structure, provided that the opening(s) are closed with the same kind of wall material.
(Ord. No. 43-888 § 63)

Sec. 18.40.420. Roof requirements.

Every roof shall be substantially weathertight, watertight and rodentproof and shall be kept in sound condition and good repair; provided that roofs of all structures with one or more ends or

sides totally or partially open shall not be required to provide rodentproof protection for the partially enclosed area.

A roof shall be considered to be in sound condition and good repair if found to be capable of bearing all live, dead, and imposed loads.
(Ord. No. 32-419 § 42)

Sec. 18.40.430. Basements and cellars.

Basements and cellars in every structure shall be reasonably free from dampness to prevent conditions conducive to decay or deterioration of the structure.

No basement or cellar space shall be used as a habitable room unless it complies with the following requirements:

(a) The floor and walls shall be protected against leakage of underground and runoff water and are free from excessive dampness;

(b) The facilities for ventilation in each room are equal to at least the minimum required by this chapter;

(c) Crawl spaces in every structure shall be reasonably free from dampness to prevent conditions conducive to decay or deterioration of the structure.

(Ord. No. 32-419 § 43)

Sec. 18.40.440. Floors.

Every interior and exterior floor shall be kept in sound condition and good repair, and constructed of a building material recognized for that purpose.

Floors shall be considered to be in sound condition and good repair if found capable of bearing all live, dead and imposed loads.

Every floor surface in kitchens, toilet rooms, bathrooms and shower rooms and floor surface in areas where interior water dispensing plumbing fixtures are located shall be constructed and maintained so as to be reasonably impervious to water and so as to permit such floor to be easily kept in a clean and sanitary condition.
(Ord. No. 32-419 § 44)

Sec. 18.40.450. Walls and ceilings.

Every interior wall and protective wall covering or finish shall be kept in sound condition and good repair, and constructed of a building material recognized for that purpose.

Walls shall be considered to be structurally sound and in good repair when reasonably clean, free from dangerous cracks, breaks, loose plaster and similar conditions.

Interior walls and counter tops subject to splash from water dispensing plumbing fixtures shall be covered or finished and maintained in such a manner so as to be reasonably impervious to water and water seepage.

Walls of every structure shall be maintained in a reasonably clean and sanitary condition.

Every interior ceiling shall be kept in sound condition and good repair and constructed of a building material recognized for that purpose.

Ceilings shall be considered to be structurally sound and in good repair when reasonably clean, free from dangerous cracks, breaks, loose plaster, and similar conditions.

Ceilings of every structure shall be maintained in a reasonably clean and sanitary condition.
(Ord. No. 32-419 § 45)

Sec. 18.40.460. Porches and balconies.

Every porch or balcony and every appurtenance thereto shall be so constructed as to be safe to use and capable of supporting the load that normal use may cause to be placed thereon, and shall be kept in sound condition and good repair.
(Ord. No. 32-419 § 46)

Sec. 18.40.470. Guardrails and handrails.

The railings of every structure shall be kept in good repair and structurally sound.

Guardrails shall be balustraded or shall have intermediate rails in conformance with the code under which they were built, but in no case shall the spacing of intermediate rails or ornamental pattern be such that a sphere nine inches in diameter can pass through.

Guardrails shall be provided when there is clear danger of accident or personal injury.

Guardrails shall be provided for balconies, landings or porches which are more than thirty inches above grade.

Guardrails shall be provided for roofs used for other than service of the building.

Handrails shall be provided for all steps or stairways having four risers or more.

Handrails shall be provided for pedestrian ramps with a slope exceeding one foot in ten feet.

Handrails shall be placed not less than thirty inches nor more than thirty-eight inches above the tread level.
(Ord. No. 43-888 § 64)

Sec. 18.40.480. Stairs and ramps.

Every inside and outside stair landing and step and every appurtenance thereto shall be so constructed as to be safe to use and capable of supporting the load that normal use may cause to be placed thereon, and shall be kept in sound condition and good repair.

Treads or risers that evidence excessive wear or are broken, warped, or loose shall be repaired.

The slope of a pedestrian ramp shall not exceed one foot in eight feet. Ramps shall be roughened or shall be of approved noslip material.

Elevators, shafts, ducts and other vertical openings shall be enclosed as required for stairways in Section 18.40.500. Doors shall be noncombustible or as approved by the building official.

Stairs (except fire escapes as provided in Section 18.40.500) shall have steps with a minimum run of nine inches and a maximum rise of eight inches, and a minimum net width between handrails of thirty inches.
(Ord. No. 34-772 (part))

Sec. 18.40.490. Chimneys and towers.

All chimneys, cooling towers, smoke stacks, and similar appurtenances shall be maintained structurally safe, sound, and in good repair. All exposed surfaces of metal or wood shall be protected from the elements and against decay or rust by periodic application of weathercoating material such as paint or similar surface treatment.

All chimneys, flues and flue connectors shall be maintained in a safe condition, shall be structurally sound and free from defect, performing the function for which they are designed and are used. Chimneys, flues, gas vents, or other draft-producing equipment shall provide sufficient draft to develop the rated output of the connected equipment. Chimneys, flue linings, flue connectors, flues, gas vents, and their supports shall be structurally safe, durable, smoke-tight and capable of withstanding the action of flue gases.

All vent pipe connections to a masonry chimney or flue shall be made with a slip joint, the thimble to be cemented into the chimney and not to extend into the chimney beyond the chimney lining. Single-walled metal vents or flues shall be not less than six inches from combustible materials and shall not pass through walls, floors, ceilings, or partitions. There shall be one inch of clearance for Type B double-walled metal pipe. A gas appliance vent pipe may be connected to the vent pipe of another gas appliance through a suitable "Y" junction fitting provided proper increase in vent size is made to accommodate the increased volume of flue gases.
(Ord. No. 32-419 § 49)

Sec. 18.40.500. Exits.

Every building or structure designed for human occupancy shall be provided with exits of kinds, numbers, location and capacity appropriate to the individual building or structure, with due regard to the character of the occupancy, the number of persons exposed, the fire protection available, and the height and type of construction of the building or structure, to afford all occupants convenient facilities for escape in case of fire or other emergency.

Existing nonconforming buildings in which an additional exit or other means of egress is required may be altered in a manner as hereinafter described, or as provided in Chapter 1 in the

Appendix of the code, or as may be approved by the building official without meeting requirements in the code for new buildings.

Doors, windows, corridors, stairways, fire escapes, ramps, and passageways, serving as ordinary or emergency exit routes shall be free of stored, discarded or extraneous material, and in no case shall such routes be obstructed or locked to persons within the building.

Every building or usable portion thereof shall have at least one exit.

Two or more separate routes of exit shall be available at all times to occupants on the first floor of a building with an occupancy of fifty or more and for each occupied second floor of a building, with an occupancy of ten or more, provided that one of said routes may be for emergency use only. Occupants on floors above the second floor and in basements shall have access to not less than two separate exits. Basements used exclusively for service of the building and storage, laundry and maintenance rooms riot exceeding three hundred square feet in floor area may be provided with only one exit.

Both of said routes shall be equipped in such a manner as to eliminate the necessity of jumping or dropping to the ground in the event of fire, and shall lead to safe and open space at ground level which is accessible to a public street or alley. If two or more exits are required, not more than one-half of the exits may be of the fire escape stairs type.

Every story or usable portion thereof, having an occupant load of five hundred to nine hundred ninety-nine shall have not less than three exits.

Every story or usable portion thereof, having an occupant load of one thousand or more shall have not less than four exits.

The total width of exits in feet shall not be less than the total occupant load served divided by fifty, such width of exits shall be divided approximately equally among the separate exits.

Every required exit doorway shall be of a size as to permit the installation of a door not less than twenty-eight inches in width.

Exit doors shall be capable of opening at least ninety degrees.

No leaf of an exit door shall exceed four feet in width.

Exit doors shall swing in the direction of exit travel when serving any hazardous area or when serving an occupant load of fifty or more.

Exit doors shall not be located so as to require passage through kitchens, store rooms, closets or space used for similar purposes.

If two or more exits are required, they shall be arranged a reasonable distance apart so that if one becomes blocked others will be available.

An interior stairway connecting three floors or more shall be enclosed with walls of not less than one-hour fire-resistive construction.

Where existing partitions form part of a stairwell enclosure, wood lath and plaster in good condition will be acceptable in lieu of one-hour fire-resistive construction. Doors to such enclosures shall be protected by a self-closing door equivalent to a solid wood door not less than one and three-fourths inches thick.

Enclosures shall include landings between flights and any corridors, passageways, or public rooms necessary for continuous exit to the exterior of the building.

Enclosures shall not be required if an automatic fire-extinguishing system is provided for all portions of the building.

Existing fire escapes may be used as one means of egress, if the pitch does not exceed sixty degrees, the width is not less than eighteen inches, the treads are not less than four inches wide, and they extend to the ground or are provided with counter-balanced stairs reaching to the ground. Access shall be by an opening having a minimum dimension of twenty-nine inches when open. The sill shall not be more than thirty inches above the floor and landing.
(Ord. No. 41-502 § 42)

Sec. 18.40.510. Light and ventilation.

Buildings which are customarily inhabited by people and which were constructed, altered or

repaired prior to the effective date of the ordinance codified herein shall provide and maintain provisions for light and ventilation that were required by the building code in force at the time the building was constructed, altered or repaired. Buildings which were constructed, enlarged, repaired or otherwise altered prior to 1941 and which, in the judgement of the superintendent of central inspection, are considerably deficient in the minimum provisions for light and ventilation compared to what is considered reasonable for health and decency, shall be corrected upon the written order of the superintendent.
(Ord. No. 32-419 § 51)

Sec. 18.40.520. Cleanliness and sanitation.

Every owner of a nonresidential structure shall be responsible for maintaining in a clean and sanitary condition all of the structure and the premises thereof except as otherwise provided between any occupant and owner.
(Ord. No. 32-419 § 52)

Sec. 18.40.530. Accessory or minor structure maintenance.

Every owner of a structure shall be responsible for maintaining all accessory or minor structures on the premises in a clean and sanitary manner and so as not to constitute a fire hazard. It shall be the responsibility of the owner to correct or remove such auxiliary or minor buildings, if they constitute a nuisance because of one of the aforestated conditions, except as otherwise provided between any occupant and owner.

Every occupant of a structure shall keep all plumbing fixtures designated for his exclusive use in a clean and sanitary condition, free from filth, debris, garbage, litter, decayed organic matter, garden soil grease, and anything offensive to sight or smell, or anything that attracts or harbors vermin, and shall be responsible for the exercise of reasonable care in the proper use and operation thereof except as otherwise provide between occupant and owner.

The owner shall be responsible for the extermination of all rodents and insects within every vacant structure, area of a structure or premises before any occupancy or use of the structure or premise is commenced.

The occupant shall be responsible for the extermination of all insects, other than termites, in every nonresidential structure.
(Ord. No. 32-419 § 53)

Sec. 18.40.540. Occupancy.

No owner shall occupy or permit occupancy by any other occupant any vacant structure, area of a structure or premises unless it is clean, sanitary and fit for human occupancy and unless it complies with all applicable provisions of this chapter.

Nothing in this chapter shall prevent an owner, manager, or occupant from shifting the responsibility of the one to the other, provided that the primary and final responsibility in every case shall remain upon the person designated in the applicable section or paragraph.
(Ord. No. 32-419 § 54)

CHAPTER 18.44. RESERVED*

*__Editor's note—__Ord. No. 49-404, § 2, adopted December 11, 2012, repealed the former Ch. 18.44. The former Ch. 18.44 derived from Ord. No. 44-966, § 1; Ord. No. 47-565, § 56, adopted August 28, 2007. The user's attention is directed to Ch. 18.15, § 18.15.010.

CHAPTER 18.45. RESERVED*

*__Editor's note—__Ord. No. 49-404, § 2, adopted December 11, 2012, repealed the former Ch. 18.45, §§ 18.45.010—18.45.550. The former Ch. 18.45 pertained to International Existing Building Code, and derived from Ord. No. 47-565, §§ 1—55, adopted August 28, 2007. The user's attention is directed to Ch. 18.15, § 18.15.010.

CHAPTER 18.50. RESERVED*

*__Editor's note—__Ord. No. 49-404, § 2, adopted December 11, 2012, repealed the former Ch. 18.50, §§ 18.50.010—18.50.1330. The former Ch. 18.50 pertained to International Building Code, and derived from Ord. No. 47-548, §§ 1—133, adopted August 21, 2007; Ord. No. 48-879, §§ 1—37, adopted October 26, 2010. The user's attention is directed to Ch. 18.15, § 18.15.010.

CHAPTER 18.51. RESERVED*

*__Editor's note—__Ord. No. 49-404, § 2, adopted December 11, 2012, repealed the former Ch. 18.51, §§ 18.51.010—18.51.750. The former Ch. 18.51 pertained to International Residential Code, and derived from Ord. No. 47-549, §§ 1—74, adopted August 21, 2007; Ord. No. 48-880, §§ 1—31, adopted October 26, 2010; Ord. No. 49-085, §§ 1—10, adopted September 20, 2011. The user's attention is directed to Ch. 18.15, § 18.15.010.

CHAPTER 19.01. WICHITA/SEDGWICK UNIFIED BUILDING AND TRADE CODE

Sec. 19.01.010. Incorporated by reference.

Sec. 19.01.010. Incorporated by reference.

The Wichita/Sedgwick Unified Building and Trade Code is by reference incorporated in and by this publication made part of this title and chapter as fully as though set out at length herein and is adopted as the building and trade regulations for the City of Wichita.
(Ord. No. 49-405, § 1, 12-11-2012)

CHAPTER 19.04. RESERVED*

*__Editor's note—__Ord. No. 49-405, § 2, adopted December 11, 2012, repealed the former Ch. 19.04, §§ 19.04.010—19.04.160. The former Ch. 19.04 pertained to general provisions, administration and enforcement, and derived from Ord. No. 26-912, §§ 1, 5—8, 47, 48; Ord. No. 33-275 (part); Ord. No. 40-095, § 1; Ord. No. 41-242, §§ 3, 5; Ord. No. 41-449, §§ 1—4; Ord. No. 46-824, §§ 1—6, adopted November 22, 2005; Ord. No. 47-051, § 1, adopted June 20, 2006; Ord. No. 48-908, § 1, November 23, 2010. The user's attention is directed to Ch. 19.01, § 19.01.010.

CHAPTER 19.08. RESERVED*

*__Editor's note—__Ord. No. 49-405, § 2, adopted December 11, 2012, repealed the former Ch. 19.08, §§ 19.08.005—19.08.180. The former Ch. 19.08 pertained to certificates, permits and licenses, and derived from Ord. No. 26-912 §§ 27, 29, 31; Ord. No. 35-560 (part); Ord. No. 41-243 § 3; Ord. No. 41-455 § 6; Ord. No. 41-943 §§ 1, 2; Ord. No. 42-249 § 2; Ord. No. 43-702 § 1; Ord. No. 44-113 §§ 1—4; Ord. No. 44-483 § 1; Ord. No. 46-678 §§ 1—3; Ord. No. 46-824, §§ 7—19, 20—25, adopted November 22, 2005; Ord. No. 47-051, § 2—5, adopted June 20, 2006; Ord. No. 48-102, §§ 1—9, adopted October 28, 2008; Ord. No. 48-753, § 19, adopted June 15, 2010; Ord. No. 48-908, §§ 2—4, 6, adopted November 23, 2010; Ord. No. 49-152, §§ 1—4, adopted November 22, 2011. The user's attention is directed to Ch. 19.01, § 19.01.010.

CHAPTER 19.12. RESERVED*

*__Editor's note—__Ord. No. 49-405, § 2, adopted December 11, 2012, repealed the former Ch. 19.12, §§ 19.12.010—19.12.230. The former Ch. 19.12 pertained to wiring installation regulations, and derived from Ord. No. 26-912 §§ 9, 10, 44; Ord. No. 28-887 § 5; Ord. No. 35-560 (part); Ord. No. 37-551 § 4, 6; Ord. No. 40-114 § 10; Ord. No. 43-380 §§ 3, 4, 8; Ord. No. 44-425 §§ 2, 3; Ord. No. 46-678 §§ 5, 7, 8—12; Ord. No. 46-824, §§ 26, 27, 29, 30, 32—41, 11-22-05; Ord. No. 48-102, §§ 10—12, 15—18, 20—22, 24—28, 10-28-08, eff. 1-1-09; Ord. No. 48-908, §§ 7, 8, 11-23-2010; Ord. No. 49-152, §§ 6, 8—11, 11-22-2011. The user's attention is directed to Ch. 19.01, § 19.01.010.

CHAPTER 19.16. RESERVED*

*__Editor's note—__Ord. No. 49-405, § 2, adopted December 11, 2012, repealed the former Ch. 19.16, §§ 19.16.010—19.16.110. The former Ch. 19.16 pertained to mobile homes, and derived from Ord. No. 20-764, § 6; Ord. No. 46-824, §§ 46—48, adopted November 22, 2005; Ord. No. 47-051, §§ 7—16, adopted June 20, 2006; Ord. No. 48-102, § 29, adopted October 28, 2008. The user's attention is directed to Ch. 19.01, § 19.01.010.

CHAPTER 19.20. RESERVED*

*__Editor's note—__Ord. No. 49-405, § 2, adopted December 11, 2012, repealed the former Ch. 19.20, §§ 19.20.010—19.20.050. The former Ch. 19.20 pertained to prefabricated assemblies, and derived from Ord. No. 33-470 (part); Ord. No. 20-777, §§ 1—3. The user's attention is directed to Ch. 19.01, § 19.01.010.

CHAPTER 19.22. RESERVED*

*__Editor's note—__Ord. No. 49-405, § 2, adopted December 11, 2012, repealed the former Ch. 19.22, §§ 19.22.010—19.22.290. The former Ch. 19.22 pertained to elevators and escalators, and derived from Ord. No. 46-824, §§ 49—75, adopted November 11, 2005; Ord. No. 47-051, §§ 17, 19, 20, June 20, 2006; Ord. No. 48-102, §§ 30—39, adopted October 28, 2008; Ord. No. 48-908, §§ 9, 10, adopted November 23, 2010; Ord. No. 49-152, §§ 12—16, adopted November 22, 2011. The user's attention is directed to Ch. 19.01, § 19.01.010.

CHAPTER 19.24. RESERVED*

*__Editor's note—__Ord. No. 49-405, § 2, adopted December 11, 2012, repealed the former Ch. 19.24, §§ 19.24.010—19.24.120. The former Ch. 19.24 pertained to elevators in commercial buildings for persons with disability, and derived from Ord. No. 42-578 §§ 1, 3, 5, 7—10; Ord. No. 43-380, §§ 9—12; Ord. No. 46-824, §§ 76—82, adopted November 22, 2005; Ord. No. 47-051, §§ 21—23, adopted June 20, 2006; 6-20-06; Ord. No. 48-102, § 40, adopted October 28, 2008; Ord. No. 48-908, § 11, adopted November 23, 2010. The user's attention is directed to Ch. 19.01, § 19.01.010.

CHAPTER 19.28. RESERVED*

*__Editor's note—__Ord. No. 49-405, § 2, adopted December 11, 2012, repealed the former Ch. 19.28, §§ 19.28.010—19.28.120. The former Ch. 19.28 pertained to freight type elevators in commercial buildings, and derived from Ord. No. 43-702, §§ 6—15; Ord. No. 46-824, §§ 83—86, adopted November 22, 2005; Ord. No. 48-908, § 12, adopted November 23, 2010. The user's attention is directed to Ch. 19.01, § 19.01.010.

Title 20

HOUSING

Ch. 20.04. Housing Code

Ch. 20.08. Alternative Correctional Housing

Ch. 20.12. Fair Housing Practices

CHAPTER 20.04. HOUSING CODE

Sec. 20.04.005. Purpose.
Sec. 20.04.010. Definitions.
Sec. 20.04.020. Enforcement of chapter—Applicability of chapter.
Sec. 20.04.025. Procedure manual.
Sec. 20.04.030. Minimum standards for basic equipment and facilities.
Sec. 20.04.040. Minimum standards for light, ventilation, electricity and heating.
Sec. 20.04.050. General requirements relating to the safe and sanitary maintenance of parts of dwellings and dwelling units.
Sec. 20.04.055. Minimum requirements for maintaining vacant dwellings.
Sec. 20.04.060. Minimum space, use, etc., requirements.
Sec. 20.04.070. Responsibility of owners and occupants generally.
Sec. 20.04.080. Roominghouses.
Sec. 20.04.090. Inspection of dwellings, dwelling units, rooming units and premises.
Sec. 20.04.100. Service of notice of violations upon persons responsible therefor; when notice to become an order.
Sec. 20.04.110. Placarding dwellings, dwelling units, etc., in violation of chapter.
Sec. 20.04.120. Hearings—Right of person aggrieved by service of notices, etc.; filing of petition; setting time and place; postponement.
Sec. 20.04.130. Same—Sustaining, modifying or withdrawing notices.
Sec. 20.04.150. Records to be kept—Appeals to board of code standards and appeals.
Sec. 20.04.160. Reserved.
Sec. 20.04.170. Emergency orders; hearings.
Sec. 20.04.180. Designation of unfit dwellings and procedure for correction.
Sec. 20.04.190. Adoption of rules and regulations.
Sec. 20.04.200. Penalty.

Sec. 20.04.005. Purpose.

The purpose of the Housing Code is to promote safe, sanitary and quality housing within Wichita, the health, safety and welfare of its residents and to protect neighborhoods and the city's housing stock against physical, visual and economic deterioration.
(Ord. No. 52-863, § 1, 12-16-25)

Sec. 20.04.010. Definitions.

The following definitions shall apply in the interpretation and enforcement of this chapter:

Whenever the words 'dwelling', 'dwelling unit', 'roominghouse', 'rooming unit', 'premises' are used in this chapter, they shall be construed as though they were followed by the words 'or any part thereof.'

(1) 'Accessory structure' means a structure, the use of which is incidental to that of the main building and which is attached thereto or located on the same premises.

(2) 'Apartment building' means a residential building designed or used for three or more dwelling units, including hallways, laundry facilities, common use areas and means of ingress and egress to such dwelling or dwelling units.

(3) 'Basement' means that portion of a dwelling between floor and ceiling which is partly below and partly above grade.

(4) 'Building Code' means the Wichita-Sedgwick County Unified Building and Trade Code.

(5) 'City' means the City of Wichita, Kansas.

(6) 'Deterioration' means the condition or appearance of a building characterized by holes, breaks, rot, crumbling, cracking, peeling, rusting or other evidence of physical decay or neglect, excessive use or lack of maintenance.

(7) 'Director'' means the Director of MABCD and/or his or her designee.

(8) 'Dwelling' means any building, apartment building, mobile home or manufactured home which is wholly or partly used or intended to be used for living or sleeping by human occupants.

(9) 'Dwelling unit' means any room or group of rooms located within a dwelling and forming a single habitable unit with facilities that are used or intended to be used for living, sleeping, cooking, eating and part of which is exclusively or occasionally used for cooking.

(10) 'Efficiency Dwelling Unit' is a dwelling unit containing only one habitable room and meeting the requirements of 20.04.060(1)(a) of this code.

(11) 'Electrical Code' means the edition of the National Electrical Code and any amendments as adopted by Sedgwick County and the City of Wichita.

(12) 'Electrical Inspector' means a person employed in the Metropolitan Area Building and Construction Department, for the purpose of inspecting electrical installations.

(13) 'Extermination' means the control and elimination of insects, rodents or other pests and termites by eliminating their harborage places; by removing or making inaccessible materials that may serve as their food; by poisoning, spraying, fumigating, trapping or by any other recognized and approved pest elimination method.

(14) 'Fire Chief' means the Director of the Fire Department of the City or his/her authorized representative.

(15) 'Good state of repair' means sound, stable, free of deterioration, and performing the function for which intended.

(16) 'Good working condition' means the item is fully operable for the use for which it was intended.

(17) 'Guardrail' means a system of building components located near the open sides of elevated walking surfaces for the purpose of minimizing the possibility of an accidental fall from the walking surface to the lower level.

(18) 'Habitable room' means a room or enclosed floor space used or intended to be used for living, sleeping, cooking or eating purposes, excluding bathrooms, water closet rooms, laundries, pantries, foyers, communicating corridors, closets, storage spaces and basement rooms used only for recreational purposes.

(19) 'Handrail' means a railing provided for grasping with the hand for support.

(20) 'Hotel.' See 'Roominghouse.'

(21) 'Hot Water' means the water supply to plumbing fixtures heated to a temperature of not less than 110°F.

(22) 'Infestation' means the presence, within a structure, of any insects, rodents or other pests which may be harmful to the health or safety of the occupants or the soundness of the structure.

(23) 'Manufactured Home' means a structure consisting of one or more mobile components manufactured to the standards embodied in the National Manufactured Home Construction and Safety Standards Act generally known as the HUD Code established pursuant to 42 U.S.C. § 5403. Such units shall provide all the accommodations necessary to be a dwelling unit and shall be connected to all utilities in conformance with applicable regulation.

(24) 'Mechanical Code' means edition of the International Mechanical Code and any amendments as adopted by Sedgwick County and the City of Wichita.

(25) 'Mechanical Equipment' means gas-burning equipment and appliances;

(26) 'Mobile home' for purposes of this chapter, means a moveable detached single-family dwelling unit that was manufactured prior to 1976 and is not in conformance to the National Manufactured Home Construction and Safety Standards Act, or HUD Code, and licensed and located in accordance with Chapter 26 of the Code of the City of Wichita.

(27) 'Motel'. See 'Roominghouse.'

(28) 'Occupant' means any person, with or without the knowledge or consent of the owner, who has actual possession of a dwelling unit or rooming unit and who is living, sleeping, cooking or eating within the dwelling unit or rooming unit.

(29) 'Operator' means any person who has charge, care or control of a building, or part thereof, with or without the knowledge or consent of the owner, in which dwelling units or rooming units are let.

(30) 'Owner' means any person who is a holder of any legal or equitable interest in the premises, and alone or jointly or severally with others.

(A) Has record legal title to any dwelling or dwelling unit with or without accompanying actual possession thereof; or

(B) Has charge, care or control of any dwelling or dwelling unit which may include all persons who have an interest in a structure and any who are in possession or control thereof as owner or agent of the owner, contract purchaser, or as executor, executrix, administrator, administratrix, trustee or guardian of the estate of the owner;

In the absence of substantial evidence to the contrary, records of the Sedgwick County Clerk's Office, Register of Deeds, certified copies of court records or judgments of any court, copies of lease agreements, contracts for deed, mortgages, tax records, rental agreements and other financial documents related to the property shall be conclusive evidence of the ownership of the property.

(31) 'Person,' as used in this chapter, means any individual, firm, association, company, syndicate, partnership, or other legal entity, or a natural person for the purposes of the occupancy standards hereof.

(32) 'Plumbing' means and includes all of the following supplied facilities and equipment: gas pipes, water heaters, water pipes, garbage disposal units, waste pipes, water closets, sinks, installed dishwashers, lavatories, bathtubs, shower baths, installed clothes-washing machines, catch basins, drains, vents, and any other similar supplied fixtures, together with all connections to water, sewer or fuel lines, including water pipes and lines utilized in connection with air-conditioning equipment.

(33) 'Plumbing Code' means the edition of the Uniform Plumbing Code and any amendments as adopted by Sedgwick County and the City of Wichita.

(34) 'Premises' shall mean a lot, plot or parcel of land including the dwellings and structures located thereon.

(35) 'Resident Agent' means a natural person residing within 60 miles of the corporate city limits of the City of Wichita, or a company or agency with a manager or agent that resides within 60 miles of the corporate city limits of the City of Wichita authorized to make or order repairs, service to units and receive notices on behalf of the owner.

(36) 'Roominghouse' means any dwelling, or that part of any dwelling, containing one or more rooming units, in which space is available and used, or intended to be used, by five or more persons, none of whom are the legal spouse, offspring, parent, or sibling of the owner or operator.

(37) 'Rooming unit' means any room or group of rooms forming a single habitable unit, used or intended to be used for living and sleeping, but no part of which is exclusively or occasionally used for cooking.

(38) 'Safe and Sanitary' for purposes of this chapter shall mean free from conditions that are dangerous or could cause injury and free from elements such as filth, black mold or bacteria that endanger health.

(39) 'Sewer Code' means the City of Wichita Sewer, Sewage Disposal and Drains Code as adopted by the City of Wichita.

(40) 'Structurally Sound' means free of imperfections and/or deterioration which affect the intended use of a structure or the integrity of the footing, foundation, wall, roof, chimney, arch, window, door or porch/deck support systems.

(41) 'Supplied' means paid for, furnished or provided by or under the control of the owner or operator.

(42) 'Temporary housing' means any tent, trailer or motor home used for human shelter which is designed to be transportable and which is not attached to the ground, to another structure or to any utilities system for up to thirty (30) consecutive days.

(43) 'Workmanlike manner' means installation or repair which meets the minimum recommended installation and maintenance requirements of the product manufacturer and meets all applicable code requirements.

(Ord. No. 44-967 § 1; Ord. No. 47-302, § 1, 11-21-06; Ord. No. 52-863, § 2, 12-16-25)

Sec. 20.04.020. Enforcement of chapter—Applicability of chapter.

The Director is designated to administer and enforce this chapter. This chapter shall be applicable to all dwellings now in existence or hereinafter constructed in the city, and to all dwellings which become incorporated into the city because of annexation. The construction of new dwellings and the remodeling of existing dwellings in the city shall comply with the provisions of this chapter and with the provisions of all other applicable codes and ordinances of the city. In the event of a conflict of ordinances applicable to such construction, remodeling or existing dwellings, the provision of the city ordinance that establishes the higher standard for the protection of the welfare and safety of the people shall prevail. After the adoption of this chapter, the Director shall ascertain at the time a building permit is issued for a proposed new dwelling or for the proposed major remodeling or an existing dwelling and during the construction of such new dwelling or remodeling that such new dwelling or remodeling shall comply with the applicable minimum standards contained in this chapter and other applicable city ordinances. The intent of this chapter shall be to assist and further the restoration and preservation of those sites, buildings, structures and objects which have been entered or may be eligible for entry on the National Register of Historic Places, pursuant to Title 16, United States Code, Section 470(a) or other appropriate legislation, or as designated by the Historic Wichita Board or the Kansas Historical Society, and those sites, buildings and structures which contribute to the integrity of location, design, setting, feeling and association of any such designated or eligible historic place, it being recognized that such structures cannot and will not be restored and preserved if they are required to conform to building codes and other regulations promulgated subsequent to their construction, and it is further intended that this ordinance be liberally construed to serve the purposes as stated above and to further such restoration and preservation.

(Ord. No. 32-469; Ord. No. 52-863, § 3, 12-16-25)

Sec. 20.04.025. Procedure manual.

(a) The Metropolitan Area Building and Construction Department shall create a housing code enforcement policy and procedure manual. The manual shall include policies and procedures which provide for:

(1) Equal enforcement of the housing code regardless of whether the unit is tenant-occupied or owner-occupied;

(2) Courteous treatment of citizens by inspectors;

(3) Search and seizure methods which follow Fourth Amendment principles;

(4) In-service training of inspectors on the requirements of the manual;

(5) Definitions of the terms "vacant," "emergency" and "abandoned," and a process for differentiating between such terms;

(6) Prosecution of interior and exterior housing code violations visible from either private or public property;

(7) Requesting and receiving permission to inspect for code violations;

(8) Written notice to the property owner of violations and the process for obtaining additional information about or appealing such notice of violations;

(9) Inspections of dangerous, abandoned structures;

(10) Obtaining administrative search warrants when inspection is refused;

(11) Use of placarding guidelines;

(12) Guidelines for declaration of a dwelling as unfit for habitation; and

(13) A detailed extension policy.

(b) No changes may be made to the policy and procedure manual without the prior review of such changes by the law department and approval by the Board of Code Standards and Appeals. The Metropolitan Area Building and Construction Department may appeal the denial of approval to the city council for the final decision on changes to the policy and procedure manual.

(c) All requests for information pursuant to the Freedom of Information Act shall be reviewed and timely responded to pursuant to Chapter 2.76 of the Code of the City of Wichita.
(Ord. No. 41-946 § 1; Ord. No. 52-863, § 4, 12-16-25)

Sec. 20.04.030. Minimum standards for basic equipment and facilities.

No owner or operator shall occupy as owner-occupant or permit another to occupy any dwelling or dwelling unit, for the purpose of living, sleeping, cooking, or eating therein, which does not comply with the following requirements:

(1) Every dwelling or dwelling unit shall contain a kitchen sink;

(2) Every dwelling or dwelling unit shall contain a room, separate from the habitable rooms, which affords privacy to a person within such room and which is equipped with a flush water closet and a lavatory basin. Such lavatory basin may be located outside the room containing the flush water closet provided it is convenient to such room and such location is approved by the Director or his/her designee;

(3) Every dwelling or dwelling unit shall contain a room, separate from the habitable rooms, which affords privacy to a person within such room and is equipped with a bathtub or shower;

(4) Every kitchen sink, lavatory basin, and bathtub or shower required under the provisions of paragraphs (1), (2) and (3) of this section shall be properly connected to both hot and cold water lines. The hot water lines shall be properly connected with supplied water-heating facilities which are properly installed, are maintained in safe and good working condition, and are capable of heating water to such a temperature as to permit an adequate amount of hot water to be drawn at required kitchen sink, lavatory basin and bathtub or shower, even when the heating facilities required by this chapter (paragraph (5), Section 20.04.040 of this chapter) are not in operation;

(5) All plumbing fixtures required by this section, or otherwise provided, shall be in good working condition and properly connected to a water system and to a sewerage system approved by the Director;

(6) Every dwelling or dwelling unit shall be provided with adequate trash storage facilities whose type and location are approved by the Director;

(7) Every dwelling or dwelling unit shall have adequate garbage disposal facilities or garbage storage containers, whose type and location are approved by the Director;

(8) Every dwelling or dwelling unit shall have approved, safe, unobstructed direct means of egress leading to safe and open space at ground level, which is accessible to a public street or alley;

(9) Every dwelling or dwelling unit shall have cabinets and/or shelves for the storage of eating, drinking and cooking equipment and utensils and of food that does not under ordinary summer conditions require refrigeration for safe keeping; and a counter or table of sound construc-

tion furnished with surfaces that are easily cleanable and that will not import any toxic or deleterious effect to food, with a minimum counter top area of eleven square feet, provided that vinyl-type floor coverings shall not be allowed to be used as a countertop surface;

(10) Every dwelling or dwelling unit shall have a stove, or similar device, for cooking food and a refrigerator, or similar device, for safe storage of food at temperatures less than forty-five degrees Fahrenheit but more than thirty-two degrees Fahrenheit under ordinary maximum summer conditions, which are properly installed with all necessary conditions for safe, sanitary and efficient operation; provided that such stove, refrigerator and/or similar devices need not be installed when a dwelling unit is not occupied and when the occupant is expected to provide same on occupancy, and that sufficient space and adequate connections for the safe and efficient installation and operation of said stove, refrigerator and/or similar devices are provided;

(11) Every dwelling or dwelling unit shall have a suitable cabinet for storage of drugs, and a suitable facility for the safe storage of household poisons and other hazardous products;

(12) Every dwelling or dwelling unit shall be provided with a kitchen sink, cooking appliance and refrigeration facilities, each having a clear working space of not less than thirty inches in front;

(13) Every dwelling or dwelling unit shall be equipped with safe, functioning locking devices on all exterior doors and ground floor windows of the dwelling or dwelling unit; and

(14) All existing installations and/or repairs made to conform to this and all other applicable city codes, must be installed in a workmanlike manner.

(Ord. No. 44-967 § 2; Ord. No. 47-302, § 2, 11-21-06; Ord. No. 52-863, § 5, 12-16-25)

Sec. 20.04.040. Minimum standards for light, ventilation, electricity and heating.

No owner or operator shall occupy as owner-occupant or permit another to occupy, any dwelling or dwelling unit, for the purpose of living therein, which does not comply with the following requirements:

(1) Every habitable room shall have at least one window facing directly to the outdoors with a minimum total window area, measured between stops, for every habitable room with an area of not less than one-twelfth of the floor area of such room; provided that the Director may accept less total window area if it can be reasonably demonstrated that adequate natural daylight illumination will be available, provided, further, that positive mechanical ventilation equal to eight changes of air per hour may be provided in lieu of such windows for kitchens in buildings two or more stories in height containing four or more dwelling units. Any window with an outside vertical light obstruction, located within three feet of and facing the window and extending above the window, shall not be deemed to face directly to the outdoors and shall not be included as contributing to the required minimum total window area;

(2) Every habitable room shall have at least one window which can easily be opened and such openable window space shall equal at least forty-five percent of the minimum window area required in paragraph (1); or provided that positive mechanical ventilation or such other device as will adequately ventilate the room may be approved by the Director in lieu of such openable window;

(3) Every bathroom and water closet room shall comply with the light and ventilation requirements for habitable rooms contained in paragraphs (1) and (2) of this section, except that no window shall be required in bathrooms and water closet rooms equipped with a ventilation system

which is installed in accordance with the building code. An openable skylight, approved by the superintendent of central inspection, may be used in lieu of a window in bathrooms and water closet rooms; and

(4) Every dwelling or dwelling unit shall be connected to an electrical supply, provided by an electrical utility company. Every habitable room of any existing dwelling shall contain at least three separate wall type electric convenience duplex outlets or two such convenience duplex outlets and one ceiling electric light fixture.

Exception: This requirement may be reduced to at least two separate wall type electric convenience duplex outlets or one such convenience duplex outlet and one ceiling light fixture if the Director or his/her designee determines that the existing occupant load of the dwelling unit and/or the use or load of electric appliances, equipment, lights, and/or fixtures in any habitable room does not pose a safety problem or hazardous condition. Every toilet room, bathroom, laundry room, furnace room, private and public hall shall contain at least one ceiling electric light fixture or wall-type electric light fixture. Every such outlet and fixture shall be properly installed and shall be maintained in good and safe working condition, and shall be connected to the source of electric power in a safe manner;

(a) The minimum capacity of the electrical service supply and the main disconnect switch shall be sufficient to adequately carry the total load required in accordance with the city electrical code.

(b) Where the determination is made by the electrical inspector, upon examination of the existing electrical service supply, that the electrical service supply is being used in such manner as would constitute a hazard to the occupants or would otherwise constitute a hazard to life and property, such as but not limited to, overloading of circuits, unsafe wiring or inadequate wiring, then such conditions shall be corrected by a licensed electrical contractor of the city in conformance to the city electrical code.

Exception: If the owner-occupant of a detached single-family dwelling desires to install any electrical installations on the load side of the service panelboard in the main structure or in the usual accessory buildings thereto, the owner occupant shall obtain an electrical permit as required by the city electrical code upon fulfillment of exam and plan review requirements as administered by the electrical section of the Metropolitan Area Building and Construction Department. The owner obtaining said permit shall personally purchase all materials and shall personally perform all labor in connection with the permitted project. The owner shall call for all inspections and otherwise be responsible to comply with all the applicable provisions of the city electrical code.

(c) Extension cords shall not be used as a substitute for the fixed wiring of a structure if such cord runs through holes in walls, ceilings, floors, doorways, windows, or similar openings, is attached to building surfaces, or is concealed behind building walls, ceilings, or floors.

(d) Smoke Detectors. Every dwelling shall have smoke detectors installed in accordance with Section 15.02 of this code.

(5) Every dwelling or dwelling unit shall have heating facilities which are properly installed, are maintained in safe and good working condition, and are capable of safely and adequately heating all habitable rooms, bathrooms and water closet rooms located therein to a temperature of at least seventy degrees Fahrenheit.

Such heating equipment shall be operated as reasonably necessary to allow maintenance of a temperature in all habitable rooms of seventy degrees Fahrenheit at a point three feet above the floor;

(6) From April 1st to November 30th of each year, every door opening directly from a dwelling to outdoor space, used for ventilation, shall have a supplied screen door and a self-closing device; and every window or other direct opening to outdoor space from the dwelling, used for ventilation, shall likewise be supplied with screens; provided that screens shall not be required in windows or other openings above the third floor of any dwelling. All screens shall be adequate to exclude insects and of a type approved by the Director or his/her designee;

(7) Every basement window used for ventilation, and every other opening to a basement which might provide an entry for rodents, shall be supplied with a screen or other such device as may be determined by the Director to effectively prevent their entrance;

(8) Every public hall and stairway in or leading into a multiple dwelling shall be adequately lighted at all times so as to provide in all parts thereof at least six foot candles of light at the tread or floor level by natural or artificial means. Every public hall and stairway in structures containing not more than two dwelling units shall be supplied with conveniently located light switches controlling an adequate lighting system which may be turned on when needed, or automatic lighting system, instead of full time lighting;

(9) There shall not be any unvented or improperly vented space and/or room heaters in any dwelling unit. Space and/or room heaters shall be of a type listed for vented use, and shall be connected to a vent approved for use with such appliance. If such space and/or room heaters are equipped with a pilot light, it shall be an approved automatic safety type device. Vented freestanding space and/or room heaters shall be installed with provisions for supplying sufficient combustion air and with clearance from combustible material as listed on the appliance, and in compliance with the mechanical code;

(10) Every residential structure shall contain ceiling insulation material that meets the requirements of Federal Specification HH-I-515C including a flame spread factor of fifty or less and that achieves a minimum rating factor of R-19 as approved by the Director. Any ceiling insulation material that is installed hereafter in an existing residential structure shall meet the requirements of Federal Specification HH-I-515C including a flame spread factor of fifty or less as approved by the Director, and shall, in addition, contain an R rating factor label. The ceiling insulation material shall be installed in accordance with the manufacturers specifications and in a manner that achieves a minimum rating factor of R-19. R shall be defined for purposes of this section as that term is defined by the American Society of Heating, Refrigeration and Air Conditioning;

(11) All existing installations and/or repairs made to conform to this and all other applicable codes, must be installed in a workmanlike manner.

(Ord. No. 44-967 § 3; Ord. No. 47-302, § 3, 11-21-06; Ord. No. 52-863, § 6, 12-16-25)

Sec. 20.04.050. General requirements relating to the safe and sanitary maintenance of parts of dwellings and dwelling units.

No owner or operator shall occupy as owner-occupant or permit another to occupy any dwelling or dwelling unit, for the purposes of living therein, which does not comply with the following requirements:

(1) *Foundations.* Every footing, foundation, foundation wall and foundation support

shall be substantially weathertight, watertight, and rodentproof, and shall be maintained in structurally sound condition and good repair, free of cracks, and/or loose or missing mortar;

(2) *Structural Supporting Members.* Supporting structural members are to be maintained in a structurally sound condition and in good repair, free of deterioration and rot, capable of bearing imposed live and dead loads in a safe manner;

(3) *Chimney and Towers.* All chimneys and towers shall be maintained in structurally sound condition and good repair, free of cracks and loose and/or missing mortar;

(4) *Exterior walls.* All exterior walls and wall coverings shall be maintained in sound condition and good repair, free of deterioration and rot, substantially weathertight, watertight and rodentproof, and free of missing and/or loose mortar. New wall coverings shall be installed in a workmanlike manner using building materials recognized for that purpose in compliance with the building code;

(5) *Roof Covering.* Roofs shall have a covering free of holes, cracks or excessively worn surfaces, which will prevent the entrance of moisture into the structure and provide reasonable durability, shall be substantially weathertight and watertight, and shall conform to the requirements of the building code. Metal roofs showing signs of corrosion shall be painted with an approved product applied in accordance with the manufacturer's specifications or protected using materials recognized for that purpose. Gutters and downspouts, where in existence, shall be maintained in a good state of repair;

(6) *Soffits, Fascias and Exterior Trim.* All soffits, fascias and exterior trim shall be maintained in sound condition and good repair, substantially free of deterioration and rot. New soffits, fascias and exterior trim shall be installed in a workmanlike manner using materials recognized for that purpose in compliance with the building code;

(7) *Stairs, Porches and Appurtenances.* Every inside and outside stair, every porch, and every appurtenance thereto shall be so constructed as to be safe to use and capable of supporting the load that normal use may cause to be placed thereon, and shall be maintained in structurally sound condition and good repair; substantially free of deterioration and/or rot. Each stairway shall have uniform risers and treads, the greatest riser height within any flight of stairs shall not exceed the smallest by more than one-half inch. No stair riser shall exceed nine inches and no stair tread shall be less than eight inches, provided that the tread is at least equal to the rise, and further provided that any new stair construction shall meet the requirements of the building code;

(8) *Handrails and Guardrails.* Structurally sound handrails shall be provided, on at least one side, on any stairway having five or more risers. Stairways with open sides having any tread five feet or higher above adjacent grade shall have intermediate rails or ornamental closures on both sides of the stairs that will not allow passage of an object six inches or more in diameter. Porches and/or balconies located more than five feet higher than the adjacent area shall have structurally sound protective guardrails at least thirty inches high and, if unenclosed, shall be protected as required for stairways with open sides. No ladders shall be permitted. New stairs, porches and appurtenances shall be installed in a workmanlike manner using materials recognized for that purpose in compliance with the building code;

(9) *Windows, Doors and Hatchways.* Every window and exterior door and basement hatchway shall be reasonably weathertight, watertight and rodentproof, and shall be maintained in sound working

condition, maintained without cracks or holes and in a good state of repair. All windows intended for ventilation must be equipped with fully operable hardware;

(10) *Floors, Interior Walls and Ceilings.* Every floor, interior wall and ceiling shall be maintained in sound condition and good repair, free of holes and cracks, and constructed of a building material recognized for that purpose;

(11) *Plumbing.* Every plumbing fixture and water and waste pipe shall be properly installed and maintained in good sanitary working condition, free from defects, leaks and obstruction;

(12) *Utilities.* Every supplied facility, piece of equipment, or utility shall be so constructed and installed that it will function safely and effectively and shall be maintained in satisfactory working condition, or it shall be removed, replaced and/or repaired in accordance with the applicable codes;

(13) *Kitchen, Water Closet Room and Bathroom Floors.* Every kitchen floor surface and every water closet room floor surface and bathroom floor surface, except where constructed of materials impervious to moisture, shall be covered with asphalt, vinyl-plastic, rubber tile, ceramic tile, terrazzo or linoleum or other durable waterproof, nonabsorptive material and maintained so as to be reasonable impervious to water and so as to permit such floor to be easily kept in a clean and sanitary condition. Existing carpet will be allowed provided that it has been maintained in a clean and sanitary manner;

(14) *Paint and/or Surface-Coating.* The exterior of all structures, including accessory buildings and fences, shall be protected from the elements by the application of paint or other approved protective material and shall be maintained in a good state of repair. All paint and other approved protective materials shall be applied in accordance with the manufacturer s specifications provided, however, wood of natural decay resistance, recognized as not needing finish, does not require surface coating provided one has never been applied;

(15) Maintenance. All structures, accessory structures, appurtenances and fences shall be free of deterioration and maintained in a good state of repair and such that the appearance of the premises and structures shall not constitute a blighting factor for adjoining property;

(16) *Mobile Homes.* Mobile homes shall be properly blocked and anchored as provided in Chapter 26 and shall be solid skirted with an approved fire resistive material;

(17) *Sanitary Premises.* No person, owner or operator shall occupy or let to any other occupant any vacant dwelling, dwelling unit or rooming unit unless it is clean, sanitary and fit for human occupancy and unless it complies with all provisions of this chapter;

(18) *Installations.* All existing installations and/or repairs made to conform to this and all other applicable city codes must be installed in a workmanlike manner.

(Ord. No. 44-967 § 4; Ord. No. 47-302, § 4, 11-21-06)

Sec. 20.04.055. Minimum requirements for maintaining vacant dwellings.

The owner or operator of any vacant dwelling, or part of a dwelling, shall maintain the premises in a secure, clean and sanitary manner, complying with the following standards:

(1) *Foundations*—Every footing, foundation, foundation wall and foundation support shall be substantially weathertight, watertight, and rodent proof and shall be maintained in structurally sound condition and good repair free of cracks, and/or loose or missing mortar.

(2) *Windows and exterior doors*—Every window and exterior door shall be reasonably weathertight, watertight, and rodent

proof and shall be maintained in good repair, and be equipped with locking devices in accordance with the provisions contained in Section 20.04.055(11).

(3) *Structural supporting members*—Supporting structural members are to be maintained in structurally sound condition and good repair, free of deterioration and rot, capable of bearing imposed live and dead loads in a safe manner.

(4) *Chimneys and towers*—All chimneys and towers shall be maintained in structurally sound condition and good repair, free of cracks and loose and/or missing mortar.

(5) *Exterior walls*—All exterior walls and wall coverings shall be maintained in sound condition and good repair, free of deterioration and rot, substantially weathertight, watertight and rodent proof, and free of missing and/or loose mortar. New wall coverings shall be installed in a workmanlike manner using building materials recognized for that purpose in compliance with the Building Code.

(6) *Roof covering*—Roofs shall have a covering free of holes, cracks or excessively worn surfaces, which will prevent the entrance of moisture into the structure and provide reasonable durability, shall be substantially weathertight and watertight and shall conform to the requirements of the Building Code. Metal roofs showing signs of corrosion shall be painted with an approved product applied in accordance with the manufacturer's specifications or protected using materials recognized for that purpose. Gutters and downspouts, where in existence, shall be maintained in a good state of repair.

(7) *Soffits, fascias and exterior trim*—All soffits, fascias and exterior trim shall be maintained in sound condition and good repair, substantially free of deterioration and rot. New soffits, fascias and exterior trim shall be installed in a workmanlike manner using materials recognized for that purpose in compliance with the Building Code.

(8) *Stairs, porches and appurtenances*—Every outside stair, every porch, and every appurtenance thereto shall be so constructed as to be safe to use and capable of supporting the load that normal use may cause to be placed thereon, and shall be maintained in sound condition and good repair, substantially free of deterioration and/or rot. Each stairway shall have uniform risers and treads the greatest riser height within any flight of stairs shall not exceed the smallest by more than ½ inch. No stair riser shall exceed nine (9) inches and no stair tread shall be less than eight (8) inches, provided that the tread is at least equal to the rise, and further provided that any new stair construction shall meet the requirements of the Building Code.

(9) *Handrails and Guardrails*—Structurally sound handrails shall be provided, on at least one side, on any stairway having five or more risers. Stairways with open sides having any tread five feet or higher above adjacent grade shall have intermediate rails or ornamental closures which will not allow passage of an object six (6) inches or more in diameter. Porches and/or balconies located more than five feet higher than the adjacent area shall have structurally sound protective guardrails at least thirty inches high and, if unenclosed, shall be protected as required for stairways with open sides. No ladders shall be permitted. New stairs, porches and appurtenances shall be installed in a workmanlike manner using materials recognized for that purpose in compliance with the Building Code.

(10) *Accessory Structures* —Accessory structures shall be kept in sound condition and good repair. The exterior of such structures shall be made weather resistant through the use of decay-resistant materials, or the application of paint or other approved preservatives.

(11) *Vacant Structures* —Every vacant dwelling, dwelling unit or accessory structure or vacant portion thereof shall be

maintained in a secure condition to prevent entry by children, vagrants, or any unauthorized person. Buildings that are boarded at windows and/or doors shall be boarded with a minimum of ⅜" exterior grade plywood, cut to fit the opening, securely fastened to the window and/or door frames with nails and/or screws, and/or bolted in a manner approved by the Director. All plywood used to board windows and/or doors shall be protected from the elements by the application of paint matching the predominant color of the structure and shall be maintained in a good state of repair.

(12) *Paint and/or Surface-coating*—The exterior of all structures, including accessory buildings and fences, shall be protected from the elements by the application of paint or other approved protective material and shall be maintained in a good state of repair. All paint and other approved protective materials shall be applied in accordance with the manufacturer's specifications provided; however, wood of natural decay resistance, recognized as not needing finish, does not require surface coating, providing one has never been applied.

(13) *Sanitary Premises*—The owner or operator of any vacant dwelling or dwellings shall maintain the premises in a clean and sanitary manner, free of junk, debris and stored material.

(14) *Installations*—All existing installations and/or repairs made to conform to this and all other applicable City Codes, must be installed in a workmanlike manner.

(Ord. No. 44-967 § 5; Ord. No. 47-302, § 5, 11-21-06; Ord. No. 52-863, § 7, 12-16-25)

Sec. 20.04.060. Minimum space, use, etc., requirements.

No owner or operator shall occupy or permit another to occupy any dwelling or dwelling unit, for the purpose of living therein, which does not comply with the following requirements:

(1) Except as set forth below, every dwelling or dwelling unit shall contain at least one hundred fifty square feet of floor space for the first occupant thereof and at least one hundred additional square feet of floor space for every additional occupant thereof, the floor space to be calculated on the basis of total habitable room area;

(a) Nothing in this section shall prohibit the use of an efficiency living unit within an apartment building meeting the following requirements:

1. The unit shall have a living room of not less than two hundred twenty square feet of superficial floor area. An additional one hundred square feet of superficial floor area shall be provided for each occupant of such unit in excess of two;

2. The unit shall be provided with a separate closet;

3. The unit shall be provided with a kitchen sink, cooking appliance and refrigeration facilities, each having a clear working space of not less than thirty inches in front. Light and ventilation conforming to this code shall be provided;

4. The unit shall be provided with a separate bathroom containing a water closet, lavatory and bathtub or shower.

(2) Every room occupied for sleeping purposes shall contain at least seventy square feet of floor space for the first occupant, one hundred square feet for two occupants, and at least fifty square feet of floor space for each additional occupant thereof. Every egress or rescue window from a sleeping room must have a minimum net clear opening of 3.3 square feet with minimum net clear opening dimensions of seventeen inches by twenty-four inches, and a minimum overall breakout area (including frame) of five square feet.

(3) No basement space shall be used as a habitable room or dwelling unit unless it complies with the following requirements:

(a) The floor and walls are impervious to leakage of underground and runoff water and are free from dampness;

(b) The window area in each room is equal to the minimum window area required in Section 20.04.040(1) of this chapter and such required window area is located entirely above the grade of the ground adjoining such window area; provided, that window area below grade may be acceptable when the window well is so designed that a plane of forty-five degrees with the horizontal will not obstruct the window area; provided further that every basement room used for continual sleeping purposes which was constructed and designed for such continual sleeping purposes must have at least one window or door which can be used for egress or rescue. Every egress or rescue window from a sleeping room must have a minimum net clear opening of 3.3 square feet with minimum net clear opening dimensions of seventeen inches by twenty-four inches, and a minimum overall breakout area (including frame) of five (5) square feet. Where windows are provided as a means of egress or rescue, they shall have a sill height of not more than forty-four inches above either the floor or the highest tread of no more than two (2) permanently installed steps or a step and platform where the rise of each step does not exceed eight (8) inches, with each step or platform having a minimum depth of nine (9) inches from the interior edge of the step or platform to the wall surface under the egress or rescue window, and a minimum width of twenty-four inches. The above requirements must be determined to be readily achievable by the Director or his/her designee. Alternative egress window installations with respect to the minimum sill height requirement may also be requested in writing and approved in writing by the Director or his/her designee. Existing window wells which are not designed with horizontal dimensions which allow the window to be fully opened, will have to be reconstructed to comply with requirements of the building code.

(c) The facilities for ventilation in each room are equal to at least the minimum as required under Section 20.04.040(2) of this chapter;

(4) Every dwelling unit shall have at least four square feet of floor-to-ceiling height closet space for the personal effects of each permissible occupant.

(5) All existing installations and/or repairs made to conform to this and all other applicable city codes, must be installed in a workmanlike manner.

(Ord. No. 44-967 § 6; Ord. No. 47-302, § 6, 11-21-06; Ord. No. 52-863, § 8, 12-16-25)

Sec. 20.04.070. Responsibility of owners and occupants generally.

(1) Every owner of a dwelling containing two or more dwelling units shall be responsible for maintaining in a clean and sanitary condition the shared or public areas of the dwelling and premises thereof.

(2) Every occupant of a dwelling or dwelling unit shall keep in a clean and sanitary condition that part of the dwelling, dwelling unit and premises thereof which he/she occupies and controls.

(3) Every occupant of a dwelling unit shall dispose of all his/her trash in a clean and sanitary manner by placing it in the trash containers required by Section 20.04.030(6) of this chapter.

(4) Every occupant of a dwelling or dwelling unit shall dispose of all his/her garbage and any other organic waste in a clean and sanitary manner, by placing it in the garbage disposal facilities or garbage storage containers required by Section 20.04.030(7) of this chapter. If garbage disposal facilities are not provided, it shall be the responsibility of the owner to supply proper garbage storage containers for all dwelling units in a dwelling containing two or more dwelling units which are located on one premises. In all other cases it shall be the responsibility of the occupant to furnish such containers.

(5) Every owner of a dwelling shall be responsible for maintaining all accessory or minor structures on the premises in sound condition and good repair. The exterior of such structures shall be made weather resistant through the use of decay resistant materials, or the application of paint or other approved preservatives. They shall be maintained in a clean and sanitary manner so as not to constitute a health or fire hazard. It shall be the responsibility of the owner to correct or remove such accessory buildings, if they constitute a nuisance because of one of the previously stated conditions.

(6) Every owner of a dwelling or dwelling unit shall be responsible for supplying screens as required under the provisions of this chapter or of any rule or regulation adopted pursuant thereto. Maintenance or replacement of screens once installed in any one season, becomes the responsibility of the occupant.

(7) Every occupant of a dwelling unit shall keep all plumbing fixtures therein in a clean and sanitary condition and shall be responsible for the exercise of reasonable care in the proper use and operation thereof.

(8) Every owner of a dwelling located on property where fencing has been constructed whether for purpose of utility to provide a physical barrier or of decorative screening for visual separation shall be responsible for maintaining such fence or screen in sound condition. Fencing and screening shall include, but not be limited to, constructions of metal, wood, masonry or wire. Retaining walls, twelve inches or more in height, shall be maintained in sound condition.

(9) The occupant of a single family dwelling shall be responsible for the extermination of any insects, rodents or other pests therein or on the premises, and every occupant of a dwelling unit in a dwelling containing more than one dwelling unit shall be responsible for such extermination whenever his dwelling unit is the only one infested. Whenever infestation exists in two or more of the dwelling units in any dwelling, extermination thereof shall be the responsibility of the owner.

(10) It shall be the responsibility of the owner to effectively correct any conditions of termite infestation. In cases of extreme visible damage to structural members of the dwelling, treatment must be done by a licensed and certified exterminator.

(11) Every occupant of a dwelling unit shall be responsible for maintaining existing supplied smoke detectors in working condition, provided that if the smoke detector is hard wired, the electrical wiring shall remain the responsibility of the owner.

(12) All existing installations and/or repairs made to conform to this and all other applicable city codes, must be installed in a workmanlike manner.
(Ord. No. 44-967 § 7; Ord. No. 52-863, § 9, 12-16-25)

Sec. 20.04.080. Roominghouses.

No person shall operate a roominghouse or shall occupy or let to another for occupancy any rooming unit in any roominghouse, except in compliance with all the applicable provisions of this chapter and the following provisions:

(1) There shall be supplied at least one flush water closet, lavatory basin and bathtub or shower, properly connected to a water system and a sewerage system approved by the health office and in a good working condition for each six persons residing within a roominghouse, including members of the operator's family wherever they share the use of such facilities provided that in a roominghouse where rooms are let only to males, flush urinals may be substituted for not more than

one-half the required number of water closets. All such facilities shall be so located within the dwelling so as to be reasonably accessible from a common hall or passageway to all persons sharing such facilities. Every lavatory basin or bathtub or shower shall be supplied with hot water at all times.

(2) The operator of every rooming house shall supply and change bed linen and towels at least once each week and prior to the letting of any room to any occupant. The operator shall be responsible for the maintenance of all supplied bedding in a clean and sanitary manner.

(3) Every room occupied for sleeping purposes by one person shall contain at least seventy square feet of floor space, and every room occupied for sleeping purposes by more than one person shall contain at least fifty square feet of floor space for each additional occupant thereof.

(4) Every rooming unit shall have approved, safe, unobstructed, direct means of egress leading to safe and open space at ground level which is accessible to a public street or alley.

(5) The operator of every roominghouse shall be responsible for the maintenance of all parts of the roominghouse and the premises thereof in a clean and sanitary condition.

(6) Every provision of this chapter which applies to rooming houses shall also apply to hotels and motels; provided that motel units containing cooking facilities or kitchens shall be deemed to be dwelling units and shall comply with the applicable provisions of this chapter.

(Ord. No. 44-967 § 8)

Sec. 20.04.090. Inspection of dwellings, dwelling units, rooming units and premises.

1. The Director is hereby authorized and directed to make inspections to determine the condition of dwellings, dwelling units, rooming units, and premises located within the city, in order that he may perform his duty of safeguarding the welfare and safety of the occupants of dwellings and of the general public and in order that he may ascertain that the standards for dwellings as set forth in this chapter are properly maintained. For the purpose of making such inspection the Director is hereby authorized to enter, examine, and survey at any reasonable time all dwellings, dwelling units, rooming units and premises. The owner, operator, and occupant of every dwelling, dwelling unit and rooming unit shall give the Director free access to such dwelling, dwelling unit, rooming unit and its premises at all reasonable times for the purpose of such inspection, examination and survey. In the event of necessity, the Director shall procure right of entry and inspection by application to and proper orders from a court of competent jurisdiction. Every occupant of a dwelling or dwelling unit shall give the owner thereof, or his agent or employee, access to any part of such dwelling unit or its premises at all reasonable times for the purpose of making such repairs or alterations that are necessary to effect compliance with the provisions of this chapter or with any lawful rule or regulation adopted or any lawful order issued pursuant to the provisions of this chapter.

2. Any officer or employee of the city charged with the enforcement of this chapter shall not, in the discharge of his duties, thereby render himself liable personally. Any suit brought against any officer or employee of the city because of such act performed by him in the enforcement of any of the provisions of this chapter shall be defended by the department of law until the final termination of the proceedings therein.

(Ord. No. 27-902 § 9; Ord. No. 52-863, § 10, 12-16-25)

Sec. 20.04.100. Service of notice of violations upon persons responsible therefor; when notice to become an order.

Whenever the Director determines that there has been a violation of any provision of this chapter, except Section 20.04.180 hereof, or of any use or regulation adopted pursuant thereto,

he shall give notice of such alleged violation to the person or persons responsible therefore as hereinafter provided. Such notice shall:

1. Be in writing;
2. Particularize the violations alleged to exist or to have been committed;
3. Provide a reasonable time for the correction of the violation particularized;
4. Be addressed to and served upon the owner or the operator of the building, or the occupant of the dwelling unit or rooming unit concerned if the occupant is or may be responsible for the violations; provided that such notice shall be deemed to be properly served upon such owner, operator or occupant if a copy thereof is served upon him personally or if a copy thereof is sent by certified mail to his last known address. If the notice cannot be served as set forth above, service of the notice may be made upon such person or persons by posting the notice in a conspicuous place in or about the dwelling affected by the notice; in which event the Director shall make a statement for inclusion in the record as to why such posting was necessary. Such notice may contain an outline of remedial action which if taken, would correct the alleged violations.

Any notice served pursuant to this section, shall become an order if a written petition for a hearing is not filed with MABCD within ten days after such notice is served.
(Ord. No. 27-902 § 10; Ord. No. 47-302, § 7, 11-21-06; Ord. No. 52-863, § 11, 12-16-25)

Sec. 20.04.110. Placarding dwellings, dwelling units, etc., in violation of chapter.

In addition to giving notice of alleged violations as provided for in Sections 20.04.100 and 20.04.180 of this chapter, the Director may placard such dwellings, dwelling units and rooming units that have been determined to be in violation of any provisions of this chapter. The placard shall include but not be limited to a statement that the dwelling, dwelling unit or rooming unit is in violation of provisions of the Housing Code of the city. The Director shall remove such placard affixed under the provisions of this section. If the dwelling, dwelling unit or rooming unit is vacant at the time of placarding, or becomes vacant after placarding, it shall not be used for human habitation until the violations in the notice have been corrected and written approval secured from and the placard removed by the Director.

(1) It shall be unlawful for any person other than the Director or his authorized representative to remove the placard from a dwelling, dwelling or rooming unit.

(2) Any person found in violation of the terms of this section shall be guilty of a misdemeanor. Upon conviction, a fine of not less than $1,000 nor more than $2,500 and/or a term of imprisonment not exceeding twelve months, or by both such fines and imprisonment shall be imposed by the court.

(3) The imposition of the fines established in paragraph (2) shall be mandatory and the court shall not waive, remit, suspend, parole or otherwise excuse the payment thereof except that the court may order that the defendant perform community service specified by the court but such an order shall be entered only after the court has required the defendant to file an affidavit of such defendant's financial condition as required by Section 1.04.210(e) and amendments thereto, and the court has found from the information contained in the affidavit that the defendant is financially unable to pay the fines imposed herein.

(4) In addition the court shall order that the owner register such building, dwelling or dwelling unit with the Director pursuant to Chapter 30 of the Code of the City of Wichita.

(5) Further, the Court may order that the property be re-inspected by the Director to insure that the provisions of this Code have been met and that the property is

habitable. If the owner or occupant denies entry, the Director shall take all necessary and prudent actions to obtain an administrative warrant to inspect such premises.

(Ord. No. 44-967 § 9; Ord. No. 47-302, § 8, 11-21-06; Ord. No. 52-863, § 12, 12-16-25)

Sec. 20.04.120. Hearings—Right of person aggrieved by service of notices, etc.; filing of petition; setting time and place; postponement.

Any person affected by any notice which has been issued in connection with the enforcement of any provisions of this chapter, except Section 20.04.180 hereof, or of any rule or regulation adopted pursuant thereto, who is aggrieved thereby, and who believes the same to be contrary to the policies or regulations of the city, may request and shall be granted an informal hearing on the matter before the Director or his designated representative. Such person shall file with the Director a written petition requesting an informal hearing and setting forth a brief statement of the grounds therefor, within ten days after the day notice was served. Upon receipt of such petition, the Director shall set a time and place for such informal hearing and shall give the petitioner written notice thereof. At the informal hearing, the petitioner shall be given an opportunity to be heard and to show why such notice should be modified or withdrawn. The informal hearing shall be commenced not later than ten days after the day on which the petition was filed; provided that upon application of the petitioner, the Director may postpone the date of the informal hearing for a reasonable time beyond such ten day period, if in his judgment the petitioner has submitted a good and sufficient reason for such postponement.

(Ord. No. 27-902 § 12; Ord. No. 52-863, § 13, 12-16-25)

Sec. 20.04.130. Same—Sustaining, modifying or withdrawing notices.

After such informal hearing as provided for in Section 20.04.120, the Director or his designated representative may sustain, modify or withdraw the notice, depending upon his findings as to whether the provisions of this chapter and of the rules and regulations adopted pursuant thereto have been complied with. If the Director or his designated representative sustains or modifies such notice, it shall be deemed to be an order.

(Ord. No. 27-902 § 13; Ord. No. 52-863, § 14, 12-16-25)

Sec. 20.04.150. Records to be kept—Appeals to board of code standards and appeals.

The proceedings at informal hearings, as provided for in Section 20.04.120, including the findings and decision of the Director or his designated representative, shall be reduced to writing, and entered as a matter of public record in the office of the Director. The record shall also include a copy of every notice or order issued in connection with the matter. Appeals from the decision of the Director or his designated representative may be made to the Board of Code Standards and Appeals by requesting in writing to the Director, within ten days after receiving such decision, a hearing before the board. The appeal shall be heard, with written notification as to time and place given such appellant, within forty-five days after receipt of written request.

(Ord. No. 40-736 § 2; Ord. No. 47-302, § 9, 11-21-06; Ord. No. 52-863, § 15, 12-16-25)

Sec. 20.04.160. Reserved.

Editor's note—Ord. No. 52-863, § 16, adopted Dec. 16, 2025, repealed § 20.04.160, which pertained to the board of code standards and appeals, and derived from Ord. No. 40-736, § 3.

Sec. 20.04.170. Emergency orders; hearings.

Whenever the Director or his designated representative finds that an emergency exists which requires immediate action to protect the public, he may, without notice or hearing, issue an order reciting the existence of such an emergency and requiring that such action be taken as he deems necessary to meet the emergency. Notwithstanding the other provisions of this chapter, such order shall be effective immediately. Any person to whom such order is

directed shall comply therewith immediately, but upon petition to Director shall be afforded an informal hearing as soon as possible. After such hearing, depending upon his findings as to whether the provisions of this chapter and of the rules and regulations adopted pursuant thereto have been complied with, the Director shall continue such order in effect, or modify it, or revoke it.
(Ord. No. 27-902 § 16; Ord. No. 52-863, § 17, 12-16-25)

Sec. 20.04.180. Designation of unfit dwellings and procedure for correction.

The designation of dwellings as unfit for human habitation and the procedure for correction of such unfit dwellings shall be carried out in compliance with the following requirements:

(1) The Director may determine that a dwelling is unfit for human habitation, if he finds that conditions exist in such dwelling which are dangerous or injurious to the health, welfare, safety, or morals of the occupants of such dwelling; the occupants of neighboring dwellings or other residents of the city; or which have a blighting influence on properties in the area. Such conditions may include the following without limitation: Defects therein increasing the hazard of fire, accidents or other calamities; lack of adequate ventilation; air pollution; light or sanitary facilities; dilapidation; disrepair; structural defects; uncleanliness; overcrowding; inadequate ingress and egress; dead and dying trees, limbs or other unsightly natural growth; unsightly appearances that constitute a blight to adjoining properties, the neighborhood, or the city; walls, siding or exteriors of a quality and appearance not commensurate with the character of the properties in the neighborhood; unsightly stored or parked material, equipment, supplies, machinery, trucks, or automobiles or parts thereof; vermin infestation; inadequate drainage; or any violation of health, fire, building or zoning regulations; or any other laws or regulations relating to the use of land and the use and occupancy of buildings and improvements. The determination that a building is unfit for human habitation shall be predicated on the fact that such effects as aforesaid are a serious hazard to the health, welfare, safety of the occupants or of the public, or that such defects constitute violations of four or more of the standards in the other sections of this chapter; or are continued violations of such standards. The fire chief shall cooperate with the Director in determining that a dwelling is unfit for human habitation where health or fire regulations are applicable.

(2) Whenever a petition is filed with the Director signed by at least five residents of the city, charging that any dwelling is unfit for human habitation, or whenever the fire chief alleges in writing to the Director that a dwelling is unfit for human habitation, or whenever it appears to the Director (on his own motion) that any dwelling is unfit for human habitation he shall, if his preliminary investigation discloses a basis for such charges, issue and cause to be served upon the record owner, every mortgagee of record, and all parties in interest in such dwelling (including persons in possession) a complaint stating the dwelling is unfit for habitation. Such complaint shall contain a notice that a hearing will be held before the Board of Code Standards and Appeals at a place therein fixed not less than ten days nor more than thirty days after the serving of such complaint. The owner, mortgagee, and parties in interest shall be given the right to file an answer to the complaint and to appear in person and give testimony at the place and time fixed in the complaint. The rules of evidence prevailing in courts of law or equity shall not be controlling in hearings before the Board of Code Standards and Appeals.

(3) If, after such notice and hearing, the Board of Code Standards and Appeals determines that the dwelling is unfit for human habitation, the board shall state in writing its findings of fact in support of such determination and shall issue and cause to be served upon the owner thereof an order which:

(a) If the repair, alteration or improvement of the dwelling can be made at a cost of less than two hundred percent of the assessed value of the dwelling as recorded in the county assessor's office of Sedgwick County, Kansas; requires the owner within the time specified in the order to repair, alter or improve such dwelling to render it fit for human habitation; or to vacate and close the dwelling until conformance with the standards of this chapter; or

(b) If the repair, alteration or improvement of the dwelling cannot be made at a cost of less than two hundred percent of the assessed value of the dwelling as recorded in the county assessor's office at Sedgwick County, Kansas; requires the owner within the time specified in the order to remove or demolish such dwelling.

(4) If the owner fails to comply with an order to repair, alter, or improve or to vacate and close a dwelling, the Director may cause such dwelling to be repaired, altered or improved or to be vacated or closed; or if the owner fails to comply with an order to remove or demolish the dwelling, the Director may cause such dwelling to be removed or demolished.

(5) The amount of cost of such repairs, alterations or improvements, or vacating and closing or removal or demolition by Director shall be a lien against the real property upon which such cost was incurred and such lien, including as a part thereof allowance of his costs and the necessary attorneys' fees, may be foreclosed in a manner provided or authorized by law for loans secured by liens on real property. If the dwelling is removed or demolished by the Director, he shall sell the materials of such dwelling and shall credit the proceeds of such sale against the cost of the removal or demolition, and if there by any balance remaining, it shall be paid to the parties entitled thereto as determined by proper judicial proceedings, including his necessary attorneys' fees incurred therein, as determined by the court.

(6) Complaints and orders issued pursuant to this section shall be served upon all persons entitled thereto, either personally or by restricted mail, but if the whereabouts of such persons is unknown and cannot be ascertained in the exercise of reasonable diligence, an affidavit shall be made to that effect, then the serving of such complaint or order upon such persons may be made by publishing the same once each week for two consecutive weeks in the official city newspaper. A copy of such complaint and order shall be posted in a conspicuous place on the premises affected by the complaint or order. A copy of such complaint or order shall also be filed with the clerk of the district court of Sedgwick County, Kansas and such filing of the complaint or order shall have the same force and effect as other lis pendens notices provided by law.

(7) Appeals from the decision of the Board of Code Standards and Appeals may be made to the city council by requesting in writing to the city clerk, within ten days after receiving such decision, a hearing before such city council. Such appeal shall be heard, with three days written notification as to time and place given such appellant, within fifteen days after receipt of the written request.

(Ord. No. 30-065 § 2; prior Ord. No. 27-902 § 17; Ord. No. 52-863, § 18, 12-16-25)

Sec. 20.04.190. Adoption of rules and regulations.

The Director is hereby authorized to make and adopt such rules and written regulations as

may be necessary for the proper enforcement of the provisions of this chapter; provided that such rules and regulations shall not be in conflict with the provisions of this chapter. All such rules as the Director may deem necessary for the proper and effective enforcement of the provisions of this chapter shall be subject to the approval of the city council and shall be binding and effective when filed in the office of the city clerk. (Ord. No. 27-902 § 18; Ord. No. 52-863, § 19, 12-16-25)

Sec. 20.04.200. Penalty.

(a) Unless otherwise provided, any person who violates any of the provisions of this chapter, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by the following:

(1) Upon a first conviction, a fine of not less than three hundred dollars and more than one thousand dollars;

(2) Upon a second conviction, a fine of not less than five hundred dollars nor more than one thousand dollars;

(3) Upon a third conviction, a fine of not less than one thousand dollars nor more than two thousand dollars;

(4) Upon a fourth or subsequent conviction, a fine of not less than two thousand dollars nor more than two thousand five hundred dollars;

In addition to the preceding fines such person may be punished by a term of imprisonment which shall not exceed twelve months, or by both such fines and imprisonment.

(b) The imposition of the fines established in subparagraph (a) herein shall be mandatory and the court shall not waive, remit, suspend, parole or otherwise excuse the payment thereof except that the court may order that the defendant perform community service specified by the court but such an order shall be entered only after the court has required the defendant to file an affidavit of such defendant's financial condition as required by Section 1.04.210(e) and amendments thereto, and the court has found from the information contained in the affidavit that the defendant is financially unable to pay the fines imposed herein.

(c) In determining the appropriate fine or term of imprisonment for any violation of this chapter, the Court in utilizing its discretion to determine the appropriate sentence shall consider all relevant facts and circumstances regarding the offense. Such considerations include:

1. The nature, seriousness, and duration of the violation(s);

2. The degree of risk or actual harm posed by the violation(s) to occupants, tenants, neighbors or the public;

3. The impact of the conduct on an occupants, tenants or the public health and safety of citizens or neighbors;

4. The resources of the defendant, including the size, scale, and profitability of the defendant's rental operations (if applicable), as well as the feasibility and cost of abatement in light of the defendant's available resources;

5. The actions of the defendant to make timely and reasonable efforts to correct the violation(s);

6. The actions of the defendant to cooperate with city officials;

7. The presence or absence of prior violations, warnings, or enforcement actions;

8. Recommendations of the code official; and

9. Any mitigating circumstances including the mental capacity of the defendant;

Consideration of these factors is intended to ensure that penalties are proportionate to the circumstances of each case, allowing the Court to impose enhanced sanctions against chronic or egregious offenders while avoiding undue hardship on responsible property owners who make genuine efforts to maintain safe and clean premises and habitable housing.

(d) For the purposes of determining whether a conviction is a first or subsequent conviction in sentencing under this section:

(1) conviction includes being convicted of a violation of this section, and it is irrelevant whether an offense occurred before or after conviction for a previous offense.

(2) conviction includes being convicted of a violation of this chapter or entering into a diversion agreement in lieu of further criminal proceedings on a complaint alleging a violation of this section.

(3) any convictions occurring during the five years prior to the date of the occurrence shall be taken into account when determining the sentence to be imposed.

(4) Prior convictions on any property, dwelling or dwelling unit owned, managed or operated by the same individual or entity, or a prior entity owned. operated or controlled by the defendant shall be considered as a prior conviction for sentencing purposes.

(e) Each day that any violation of this ordinance continues shall constitute a separate offense and be punishable hereunder as a separate violation.

(f) In addition to the penalties set forth above, the Judge of the Wichita Municipal Court may, in his or her discretion, require that the owner register such dwelling or dwelling unit with the Director pursuant to Chapter 30 of the Code of the City of Wichita.

(g) Further, the Court may order that the property be re-inspected by the Director to insure that the property has been brought into compliance with the provisions of this Code. If the owner or occupant denies entry, the Director shall take all necessary and prudent actions to obtain an administrative warrant to inspect such premises.

(Ord. No. 27-902 § 19; Ord. No. 47-302, § 10, 11-21-06; Ord. No. 52-863, § 20, 12-16-25)

CHAPTER 20.08. ALTERNATIVE CORRECTIONAL HOUSING

Sec. 20.08.010. Definitions.
Sec. 20.08.015. Enforcement of chapter.
Sec. 20.08.050. Correctional placement residence—License required.
Sec. 20.08.060. Correctional placement residence—Licensing procedure.
Sec. 20.08.070. Correctional placement residence—Term of license, fees.
Sec. 20.08.080. Correctional placement residence—License renewal and changed information.
Sec. 20.08.090. Correctional placement residence—License—Criminal records check.
Sec. 20.08.100. Correctional placement residence—License—Program audit.
Sec. 20.08.110. Correctional placement residence—License—Minimum standards.
Sec. 20.08.115. Right of entry and inspection of licensed premises.
Sec. 20.08.120. Correctional placement residence—License—Spacing requirements.
Sec. 20.08.125. Additional standards for existing licensed facilities with sex offender populations.
Sec. 20.08.130. Correctional placement residence—License—Appeals and hearings.
Sec. 20.08.140. Correctional placement residence—License—Revocation.
Sec. 20.08.150. Violation—Penalty.
Sec. 20.08.160. Savings clause and severability.

Sec. 20.08.010. Definitions.

As used in this chapter, the following words, terms, and phrases shall have the meanings set out below:

(a) "Alternative correctional housing" means residential or day reporting facilities for individuals or offenders who require a more structured, supervised residential living environment than independent living. This community-based living arrangement is an alternative to incarceration in either state penal institutions or the Sedgwick County jail. Such facilities meeting the definition of correctional placement residence are subject to regulation by this chapter.

(b) "Board" means the Wichita alternative correctional housing board.

(c) "Client" or "resident" means the residents of a facility for whom the facility and its programs are operated and shall not include those staff persons employed by the license holder who reside on the premises only as a condition of employment.

(d) "Correctional placement residence" means a facility for individuals or offenders that provides residential and/or rehabilitation services for those who reside or have been placed in such facilities due to any one of the following situations: (1) prior to, or instead of, being sent to prison; (2) received a conditional release prior to a hearing; (3) as a part of a local sentence of not more than one year; (4) at or near the end of a prison sentence, such as a state operated or franchised work release program, or a privately operated facility housing parolees; (5) received a deferred sentence and placed in facilities operated by community corrections; or (6) require court-ordered guidance services for alcohol or chemical dependence. Such facilities will comply with the regulatory requirements of a federal, state or local government agency as well as the licensure requirements of this chapter. This definition shall also include day reporting facilities that provide non-residential community supervision services to individuals or offenders who are under supervision of the court and any of whom are required to report to the facilities for three or more days per week for six or more hours per day. Facilities operated by a unit of government are not subject to the provisions of this Code and will not be used for the purpose of calculating spacing requirements.

(e) "Facility" means a correctional placement residence.

(f) "Governing body" means the city council of the City of Wichita.

(g) "License holder" means the owner or operator of a facility in whose name the application is made or the license granted. The license holder shall be responsible for compliance with all provisions of this chapter.

(h) "Minimum standards" means those minimum operation practices and standards for a facility as defined by this chapter.

(i) "Premises" means a zoning lot as defined by the Unified Zoning Code on which a facility seeking a license is located.

(Ord. No. 44-970 § 1)

Sec. 20.08.015. Enforcement of chapter.

The superintendent of central inspection and deputies under the superintendent's supervision are designated to administer and enforce this chapter, and while carrying out such enforcement activities, shall have all the powers set forth in Section 1.04.200 of this Code.

(Ord. No. 44-819 § 10)

Sec. 20.08.050. Correctional placement residence—License required.

(a) A license shall be required of all facilities existing on January 1, 1997, and of all facilities established or annexed into the city after that date. No license shall be granted to any facility until it has complied with the licensing requirements of this chapter.

(b) The license shall be granted for a one year period. Each facility must reapply for a license annually and pay the renewal fee.

(Ord. No. 43-218 § 5)

Sec. 20.08.060. Correctional placement residence—Licensing procedure.

(a) Application Form. Application for a facility license shall be made to the city treasurer on forms provided for such purpose. The application must include the following, except that requirements pertaining to program audits shall not apply to day reporting facilities:

(1) Names and addresses of owners, managers or operators, and facility;

(2) Description of the types of services provided at the facility including population served (felonies and misdemeanors), the number of clients and full-time staff to be housed or served at the facility, and the location of the facility. The description of services and population shall include whether the facility plans to house or provide services to sex offenders, and an estimate of the approximate number of such offenders who will be housed at or served by the facility. Changes in the facility's services and/or population, especially with respect to the facility's sex offender population shall be considered to be a material change and shall require notification of the city as set forth in Section 20.08.080(b). Day reporting facilities shall provide a copy of the contract under which the facility will operate that sets forth the services to be provided by the facility.

(3) A written program of services, which program will be subject to a program audit. Technical assistance will be provided by the program auditor if needed;

(4) Approval signature blocks for city staff or auditors that will show that there has been approval of a life, safety, and health inspection of facility premises, a program audit, appropriate zoning, criminal records check, and proof of licensing by the Kansas Department of Social and Rehabilitation Services Substance Abuse Treatment and Recovery (SATR) [formerly Alcohol and Drug Abuse Services (ADAS)], if applicable;

(5) Proof of licensing by the Kansas Department of Social and Rehabilitation Services Substance Abuse Treatment and Recovery (SATR) [formerly Alcohol and Drug Abuse Services (ADAS)] or substantial equivalent if such is required for the program offered or to be offered at the facility;

(6) Other information as may be required to determine compliance with the requirements for licensing.

(b) Requirements for Licensing. The following requisites must be met for a facility to be licensed by the city, except that numbers (4), (5), (6) and (9) shall not apply to day reporting facilities:

(1) The facility is located in an appropriate zoning district, including being a legal

nonconforming use. If appropriate zoning does not exist at the time of license application, the applicant must show that application has been made for conditional use approval, if allowed by the zoning code, or for rezoning to an appropriate zoning classification. In the event that appropriate zoning does not exist at time of application, the application will be considered pending until there is a decision on the application for conditional use or rezoning;

(2) Life, safety, and health inspections of the facility premises to show that the facility complies with appropriate code requirements. The superintendent of central inspection will initiate the inspections and secure those inspections that must be performed by other agencies such as fire and health. The application will be considered pending until any remedial acts are performed to cure deficiencies found by the inspections;

(3) Satisfactory completion of a criminal record check of owners and management staff as provided in this chapter;

(4) The applicant shall notify the police department when the facility houses any client convicted of a sex offense or a child molestation offense for which the client is required to register as provided by the Kansas offender registration act, K.S.A. 22-4901 et seq., and amendments thereto. If the housing of such a client or clients is provided subsequent to the approval of the application, the applicant shall be required to provide a supplemental notification containing that information;

(5) The applicant shall notify neighborhood residents, businesses, churches and schools when the facility houses any client convicted of a sex offense or a child molestation offense for which the client is required to register as provided by the Kansas offender registration act, K.S.A. 22-4901 et seq., and amendments thereto. The applicant will also make prudent and reasonable efforts to determine if the facility houses any client who has ever been convicted of a sex offense or a child molestation offense, and shall include such clients in the required notification. To be in compliance with this licensing requirement, the notification to the neighborhood shall be in writing and shall be mailed or hand-delivered to all neighborhood residents, businesses and churches within two blocks in any direction from the facility; the principal of any neighborhood school within eight blocks in any direction from the facility; and the president of the neighborhood association representing the area in which the facility is located. A facility must make this required notification of the neighborhood within five days of accepting placement of any sexual offender as defined herein. After initial notification of the neighborhood has been made as required herein, the facility shall repeat the required notification of the neighborhood process at least every three months thereafter, unless the facility has not housed sexual offenders for the previous three-month period. If the facility has not housed sexual offenders for at least three months and does not provide quarterly notification to the neighborhood as required, a notification to the neighborhood will have to be provided within five days of acceptance of any sexual offender. The written notice form shall be deemed sufficient if it is in substantially the following form:

NOTICE

According to Section 20.08.060 of the Code of the City of Wichita, a correctional placement residence is required to notify its neighborhood when it houses a client or clients who have been convicted of a sexual offense or a child molestation offense.

This is to provide notice to the neighborhood that Facility name) located at (Address) has_____(#) client/s who is/are CONVICTED SEXUAL OFFENDERS. It is estimated that this/these individuals will remain at this facility for _____ (Duration Month/Year).

Should the offender/s remain at this facility longer than this date, renotification will occur.

The average daily placements of sexual offenders during the past three months has been_____(#).

Should you need additional information please contact the Sedgwick Co, ;comment; Department or refer to their Internet website. Other questions can be directed to the facility contact person who is _____, (Name) who can be reached at _____ (Phone number).

This facility as an acceptor of Sexual Offenders, will notify neighborhood residents, businesses, schools and churches within a two block area of the facility, either by mail or a hand delivered notice, within five calendar days of its first sexual offender placement. Providers will make prudent and reasonably efforts to determine if clients have ever been convicted of a felony level sex offense and/or child molestation. Such notification will be issued within five calendar days of such placement. Subsequent notification shall be made on a quarterly basis only if any convicted sexual offender remains housed at the facility. The notification shall include the average daily placements for the quarter. A copy of the notification will be provided to the City of Wichita Superintendent of Central Inspection.

Additional notification will be made to:

_____ The principal of a neighborhood school(s) within an eight block area _____

The president of any Neighborhood Association/s

The Alternative Correctional Housing Advisory Board through the Office of Central Inspection, City of Wichita, 7th Floor City Hall, 455 North Main, Wichita, Kansas 67202.

(6) Completion of a program audit and compliance with the minimum standards as further provided in this chapter;

(7) The facility shall comply with the spacing requirements established by this chapter;

(8) The applicant will be responsible for paying the license fee when the application is initiated;

(9) The applicant shall attend a training session or view a videotape of the training session as a condition of licensure.

(c) Application Pending. A new facility shall not commence operations until the licensing requirements defined in this chapter have been satisfactorily met. The application is considered pending until that time. Existing facilities are given ninety days from the date of application to comply with life, health and safety codes, minimum standards, and zoning requirements.

(d) Grant or Denial of License. Upon satisfactory completion of the requirements for licensing, the city shall grant a license to the applicant. If the applicant fails to meet all the requirements within the time provided by the superintendent of central inspection, the license shall be denied.

(Ord. No. 44-170 § 2)

Sec. 20.08.070. Correctional placement residence—Term of license, fees.

(a) Term. The license shall be granted for a one year period from the date of approval and grant of the license. The facility must reapply for a license annually and pay the renewal fee.

(b) Fees. The license fee shall accompany the application for a new facility and for renewal. The amount of the fee shall be the sum recommended by the board and approved by the governing body. If the application is denied, one-half of the fee shall be returned to the applicant.

(c) Program Audit Fees. The applicant must pay the program audit fees upon completion of the audit and prior to the grant of the license.

(Ord. No. 43-218 § 7)

Sec. 20.08.080. Correctional placement residence—License renewal and changed information.

(a) Renewal. The city shall mail a license renewal application form to all licensed facilities annually. The facilities must comply with all of

the requirements for licensing set forth in this chapter, and the applicant must arrange for all inspections and the program audit to be completed within sixty days of the date of the notice of renewal.

(b) Changed Information. A licensed facility shall notify the city within ten days in writing of any change in the information required to be provided with the application. Such information shall be provided to the superintendent of central inspection who shall notify the license holder if such changes are considered material and affect the grant of the license. If deemed material, the superintendent of central inspection may revoke the license under the procedures of this chapter, may treat the new information as a renewal application, or may require additional inspections or audits of the facility.
(Ord. No. 44-819 § 3)

Sec. 20.08.090. Correctional placement residence—License—Criminal records check.

(a) Criminal Records Check. The application information shall be forwarded to the police department for a records check on the owners and management staff of the facility. The owner, manager or operator of a correctional placement residence and its employees must meet requirements in terms of past criminal activity for the facility to be licensed or relicensed.

(b) Standards. A license will be denied if any owner, manager or operator of the facility meet any one of the following conditions:

(1) Are currently under supervision or have a felony case pending;

(2) Have been convicted of five or more misdemeanor cases in the five-year period immediately preceding the application date;

(3) Have been convicted of, or have been on court ordered supervision or parole for, any felony violation for the five-year period immediately preceding the date of application; or

(4) Have been convicted of any felony violation involving sex offenses or child molestation.

(c) Employment Policies. In addition to the records check for owners and managers of the facility, the facility must establish a personnel policy which prohibits employment of paid or unpaid supervisory persons who:

(1) Have been convicted of any violation involving sex offenses or child molestation;

(2) Have felony charges pending; or

(3) Are currently under the supervision of any federal, state or local court.

(Ord. No. 44-819 § 4)

Sec. 20.08.100. Correctional placement residence—License—Program audit.

(Repealed.)
(Ord. No. 44-970 § 3)

Sec. 20.08.110. Correctional placement residence—License—Minimum standards.

(a) The facility must meet minimum standards that define operational practices and services provided before a license is granted, except that these standards shall not apply to day reporting facilities. These standards shall include:

(1) Insurance. General liability insurance will be carried on the licensed premises, naming the city as an additional insured. The amount of insurance coverage will be one million dollars. In addition, workers' compensation coverage will be maintained in amounts required by law.

(2) Local Zoning. The facility will be in compliance with all applicable zoning ordinances, or is attempting to comply with, or change such laws, codes, or zoning ordinances through legal means.

(3) Facility. The building will conform to applicable building, housing, sanitation and health codes, except as follows: Sleeping space with a minimum of twenty unencumbered square feet per person will be provided. Telephone facilities will be maintained at each building for emergency access by residents. Vermin, pest control

and trash removal agreements will be available for review. The facility and surrounding area will remain clean and in good repair.

(4) Exclusion of Contraband. Reasonable and prudent efforts will be made to routinely search the facility and personal property to discourage introduction of contraband.

(5) Fire Prevention. Written policy and procedure will specify the facility's fire prevention regulations and practices to ensure the safety of staff, clients and visitors. These include, but are not limited to:

A. An adequate fire protection system will be provided;

B. A quarterly system of fire inspections and equipment testing will be established;

C. An annual inspection by local fire officials will be conducted; and

D. Fire protection equipment will be accessible in identified locations.

At a minimum, written emergency procedures will include instructions for the following:

A. Immediate notification of the fire department;

B. Alerting and/or evacuating occupants;

C. Controlling or extinguishing the fire; and

D. Evacuation routes/procedures.

New staff will be trained on the procedures prior to shift coverage and all staff will review them annually. Additionally, diagramed evacuation routes are to be posted in a conspicuous location on every occupied floor. Evacuation drills will be conducted monthly during hours when most residents are present in the facility. Smoking policies will be posted and smoking areas clearly identified.

(6) Food Service. Food service provided at the facility will comply with all sanitation and health codes enacted by state or local authorities. At no time can meals be denied to residents as a disciplinary measure. The facility may require that residents pay for meals, if applicable, or that residents sign up for meals within a reasonable time.

(7) Interagency Communication. The license holder will document communications with other components of the criminal justice system in an effort to further promote the public welfare and safety, especially those with the referring and/or supervising authority.

(8) Counseling. The license holder will provide proof of licensing by the Kansas State Department of Social and Rehabilitation Services Substance Abuse Treatment and Recovery (SATR) [formerly Alcohol and Drug Abuse Services (ADAS)], if the facility is providing substance abuse treatment.

(9) Accommodations. Each resident will be provided with a sleeping area that includes, at least a bed, mattress, pillow, supply of bed linen, chair and locked storage space for personal belongings.

(10) Linen Exchange. A written policy and procedure will be developed and followed for the issuance of clean, usable bedding, linen, and towels to new residents, including the provision for exchange or laundering on at least a weekly basis.

(11) Staffing. The staffing pattern of the facility will concentrate staff at the times when most residents are in the facility. The facility will provide a work schedule for all supervision and program staff.

(12) Facility Supervision. At least one paid or unpaid staff person who meets the criminal record requirements for employees will be available at the facility premises and responsive to the residents' needs twenty-four hours a day.

The facility will ensure reasonable and prudent standards of supervision (staff to

client ratio) to ensure public safety. Standards for supervision will be based upon, but not limited to, the following factors:

A. The physical layout of the facility including the number of buildings, exits, rooms, floors and common space in the facility;

B. Use of an electronic monitoring system to monitor entry, egress, and internal movement within the facility;

C. The number of employees available per shift; and

D. The maximum number of residents the facility is licensed to house.

(13) Authority. Written policy will prohibit any resident from being in a position of control or authority over other residents.

(14) Absconders. A written procedure will be established, reviewed annually, and updated as necessary for the prevention, detection and pursuit of absconders. In addition to providing services to the resident, the facility also has a responsibility for the safety of the community. The procedure should provide for prompt reporting of the situation to appropriate authorities. If a resident placed at the facility for the commission of any crime of violence against a person absconds, operators should make an effort to facilitate notification of the victim(s) by working with the supervising agency.

(15) Supervision of Resident Movement. In accordance with written policy and procedure, the staff will monitor movements of residents into and out of the facility. The license holder will maintain a written procedure and a system of accounting for the whereabouts of residents at all times. There will be procedures for periodic counts of residents, sign-in and sign-out procedures, and procedures for locating and verifying the presence of residents, such as requiring them to leave a telephone number and/or location at which they may be reached when not in the facility. Staff will monitor and control the access to the facility's sign in/out log and determine the identity of all visitors.

(16) Personnel. The owner, manager and/or operator and supervisory staff must pass the criminal record check requirements. The facility will establish a personnel policy that prohibits employment of paid or unpaid supervisory persons with any of the following:

A. A previous conviction of any violation involving sex offenses or child molestation;

B. A current felony charge or charges pending; or

C. Is currently under the supervision of any federal, state, or local court.

The facility will maintain documentation that each employee is informed regarding the standards of employee conduct, including but not limited to the following:

A. No favoritism will be shown towards any group or individual residents;

B. Professional relationships will be maintained;

C. Employees will have no business relationship with residents;

D. No criminal conduct will be engaged in by staff; and

E. No sexual harassment will be engaged in by staff.

Training on emergency procedures will be conducted for each staff person prior to assuming shift coverage. Documentation of the training will be maintained. The facility will maintain a written policy concerning equal opportunity for all job applicants as well as a written policy to prevent conflicts of interest. The facility will maintain a current organizational chart, a current written operations manual, and will document regular staff meetings.

(17) Operations Manual. The license holder will maintain an operating manual specifying approved methods of implementing

the license holder's policies and providing details for daily operations. The manual will be available to all staff and volunteers. Operations manuals are to be reviewed annually and updated as needed.

(18) Program Rules. Each resident will receive a copy of the program policy stating rules and regulations, including disciplinary procedures appropriate for staff to utilize. The policy will be read, signed, and dated by each resident upon admission to the facility.

(19) Posting of Rules. All program rules and regulations pertaining to residents will be conspicuously posted in the facility.

(20) Grievances. Written policy and procedure will provide for a grievance process for residents. A copy of the grievance policy and procedure will be posted in a conspicuous place on the premises of every licensed facility. The grievance information will also be transmitted to the party requesting, without alteration, interference, or delay. In the event of a grievance, a written report documenting the final disposition will be prepared and filed in the resident's case record. The resident will also receive a copy of the final report.

(21) Termination of Services. Written policy and procedure concerning the removal of any resident from the program at the facility will be developed. Reasonable and prudent action will be taken on the part of the facility to ensure that a resident's dismissal does not threaten the safety of the resident or the community.

(22) Reimbursements. Written policy and procedure for the facility's reimbursement by residents will be developed. The policies will include at least the method for calculating payments, acceptable method of payment, dates or times that payments are due, and the exact services being purchased. These policies and procedures will be delivered in writing to each resident upon admission.

(23) Discipline. Written policy and procedure prohibiting the use of personal abuse and corporal punishment will be developed. All facility rules will be posted in a conspicuous place as well as included in the client handbook. Any system employed to reward resident behavior with greater freedom or privileges will be maintained in writing and provided to the resident upon intake. Any disciplinary actions available for use by staff with residents will be in writing and provided to the resident upon intake. Any disciplinary action taken will be documented in a written report filed in the resident's case record. The facility will have a written policy on the use of force.

(24) Case Management. The license holder will maintain a case record for each person residing in the facility. The record will include all significant decisions and events relating to the resident. The facility will have written policies and procedures governing resident referral and intake, and the contents of each case file. Confidentiality of case records is essential and policies and procedures will be in place to ensure that confidentiality is maintained. The facility will develop a network of community resources and services in an attempt to fulfill each resident's basic needs.

(25) Programs. All program privileges will be written and delivered to the resident upon intake. Any revisions will be documented and forwarded to the resident prior to implementation. There will be a written policy concerning passes and curfews. In-house recreation such as television viewing, table games and exercise equipment will be made available to residents. Written policies and procedures will be in place concerning the testing of residents for substance abuse. Written policies and procedures will also address sanctions available to the facility for substance abuse infractions. A private area of the facility will be available for counseling. All residents will have access to religious services.

(26) Medical Services. Written procedures will be in place to address emergency medical needs. At a minimum, one staff person per shift will be trained in emergency first aid and cardiopulmonary resuscitation. The facility will have basic first aid supplies on site at all times. The facility will have written policies and procedures regarding the control and dispensing of residents' prescribed medication and over-the-counter drugs. The facility will have written procedures providing for prompt detection and appropriate treatment for instances of serious injury or illness, and for the prompt reporting of instances of death.

(27) Transportation. The facility will be located within one mile of public transportation or other means of transportation will be available.

(28) Referral Agency Emergency Contacts. License holders will maintain a list of all referring agencies, with designated contact persons who can be notified at all times and who can assist when critical decisions are necessary relevant to residents and/or public safety.

(Ord. No. 45-786 § 1; Ord. No. 44-970 § 4)

Sec. 20.08.115. Right of entry and inspection of licensed premises.

Every facility licensed under this chapter shall admit to any and every part of the premises designated in the license at any time any duly authorized officer or agent of the city or any law enforcement officer for inspection of the premises to assure compliance with the regulations of the city. The right of entry to and inspection of any premises licensed under this chapter shall be a condition on which every license hereunder is issued. The application for and acceptance of any license or temporary permit shall conclusively be deemed to be the consent of the applicant and licensee to such entry and inspection, and such consent shall not be revocable during the term of the license. Refusal of such entry and inspection shall be grounds for revocation of the license.

(Ord. No. 44-052 § 5)

Sec. 20.08.120. Correctional placement residence—License—Spacing requirements.

(a) A license shall not be issued to any new facility, nor shall any existing facility be relicensed that has any sex offender population, as that term is defined in this chapter, when such facility is within one thousand two hundred feet of an existing facility or any of the other following uses: day care centers or facilities; public parks or playgrounds; private businesses that primarily serve children and/or youth under the age of eighteen; public or private preschools, elementary, middle and high schools; residences or agencies that provide on-site services to persons suffering from developmental, physical or mental disabilities; taverns or drinking establishments; adult entertainment establishments; and residential zoning districts. This prohibition shall not apply to the licensing or relicensing of facilities in existence on May 1, 2001, which apply for a license in accordance with this chapter, if such facility does not have any sex offender population, nor shall it apply to the location of any licensed facility that is in existence and has a sex offender population on the effective date of this ordinance, when such facility complies with the provisions set forth in Section 20.08.125 of this Code. For the purposes of this section, a facility will be deemed to have a sex offender population if the sex offender population was reported to the office of central inspection as required by Section 20.08.060(b)(5) of this Code, and which report covers the date of January 1, 2002. If the license of a facility in existence at a particular location on May 1, 2001, subsequently expires for a period exceeding ninety days or the premise are used for another type of business, then this provision on spacing shall also apply to the licensing of any facility at the same location, whether the facility is new or is a formerly existing facility.

(b) If a new facility seeking a license can show that the existing facility is not licensed or is not being used as a correctional placement residence, the superintendent of central inspection may grant the license in his or her discretion upon finding that the intent of the spacing requirements are being met.

(c) The distances in this section shall be measured from the nearest portion of the exterior of the specific portion of the building subject to the application to the nearest portion of the exterior of the specific portion of the building already being used as a correctional placement residence or to the property line of any of the other uses set forth in subsection (a) herein. If a request is made on behalf of a facility seeking a license, the superintendent of central inspection may waive up to twenty-five percent of the spacing requirement in a specific application upon a finding that (1) the intent of the spacing requirement is being met through the existence of major barriers or the presence of alternative features or factors that mitigate the reduction in spacing distance, or (2) strict application of the spacing requirements will work an injustice due to unique configurations of buildings or other matters unique to the location of the existing or applicant facilities. The decisions of the superintendent of central inspection under this section are subject to appeal as provided by this chapter.

(d) An appeal may be taken from the application of any of the provisions of this section by following the procedure set forth in Section 20.08.130 of the code, except that the appeal shall be assigned to the alternative correctional housing advisory board for review, rather than a three-person investigative panel. The board shall conduct a public hearing and shall comply with all of the notice requirements as set forth in Subsection 20.08.130(a), after which a recommendation shall be made to the city council. The city council shall hear the matter on the record and shall have the authority to reduce or waive specific provisions of this section pertaining to the location and spacing of correctional placement facilities.
(Ord. No. 45-369 § 1; Ord. No. 44-970 § 5)

Sec. 20.08.125. Additional standards for existing licensed facilities with sex offender populations.

Licensed facilities which are in existence on the effective date of this ordinance and have a sex offender population at a location which does not meet the spacing requirements as set forth in Section 20.08.120 may continue to house a sex offender population if the facility is in compliance with the following requirements:

(a) The operator, owner, and/or manager of any facility that contracts with any government agency for placement of sex offenders shall be required to implement a security plan approved by the contracting agency. If a facility does not contract with a government agency, the operator, owner, and/or manager of such facility shall be required to demonstrate that his or her facility is in reasonable compliance with the following:

1. To the extent possible, design and placement of the physical features of a facility will be in such a manner as to maximize visibility.
2. Placement of gathering areas should be in locations that maximize surveillance and access control possibilities and when possible, away from the view of surrounding occupants.
3. Minimum lighting standards should be maintained that provide for nighttime illumination of parking lots, walkways, entrances, exits and related areas to promote a safe environment.
4. Sidewalks, pavement, gates, lighting and landscaping should be used to clearly designate entrances and exits.
5. Gates, fences, walls, landscaping and lighting should be used to minimize dark or unmonitored areas.
6. Lighting fixtures should be maintained properly to prescribed standards.
7. Landscaping should be maintained to prescribed standards.
8. Conflicts between surveillance and landscaping such as ground cover, shrubs and trees should be minimized as such plants mature.

In addition to the foregoing requirements, a facility that does not contract with a

government agency for placement of sex offenders will be subject to announced program audits as provided in Section 20.08.100 of this Code. To further ensure compliance with all of the provisions of this chapter such a facility shall also be subject to unannounced audits and/or random checks by the program auditor, by any duly authorized officer or agent of the city, or by any law enforcement officer, as allowed by Section 20.08.115 of this Code.

(b) Facility operators, owners and/or managers must show a commitment to work with the surrounding neighborhood and the Wichita police department to engage neighbors in community education and dialogue relating to personal safety, and to inform neighbors of all existing education, training, and personal safety programs offered by the police department, including but not limited to Neighborhood Watch, Neighborhood Patrol, home and business security surveys, business safety and crime prevention problems such as robbery and shoplifting prevention, Operation Identification, and child identification programs.

(c) Facility operators, owners, and/or managers must show a commitment to maintain continued communication with police officers assigned to the neighborhood, encourage periodic visits to the facility and surrounding businesses by such police officers, and facilitate training and education programs provided by police for neighborhood audiences.

(d) The population of sex offenders at such facilities shall be limited to fifty percent of the facility's total licensed capacity at any given point in time. The facility shall maintain at all times a current list of residents who are sex offenders. The list shall be submitted on a monthly basis to the office of central inspection in accordance with the rules and regulations governing such submissions, and to the chief of police, or the chief's designee. A copy of this list shall also be maintained on the premises of the facility at all times and shall be made available upon request to the program auditor, any duly authorized officer or agent of the city, or any law enforcement officer.

(e) Facility operators, owners, and/or managers shall be responsible for disclosing to the neighborhood residents and businesses the plan for supervision of sex offenders housed in such facility.

(f) Compliance with the provisions of this section shall be monitored by any or all of the following: the superintendent of central inspection or any of the superintendent's duly authorized deputies, officers of the Wichita police department, the program auditor, or private contractor.

(g) Facilities will be given ninety days from the effective date of this ordinance to comply with the requirements set forth in this section.

(Ord. No. 45-369 § 2)

Sec. 20.08.130. Correctional placement residence—License—Appeals and hearings.

(a) Appeals. Appeals may be taken to the city manager from the grant or denial of a license, from the interpretation of the license standards in a specific application, or from a decision to revoke a licensee by filing a notice with the city manager within twenty days of the decision to be appealed. The city manager shall appoint a three-person investigative committee to review the decision or decisions which have been appealed. The investigative committee shall designate one member as chairperson and shall hold a public hearing on all appeals after giving notice in writing to the applicant, person appealing, and any other person requesting such notice in writing. At the hearing, any interested party may appear in person or by its agent or attorney and present evidence. The rules of evidence prevailing in courts of law or equity shall not be controlling in hearing before the investigative committee.

Within ten days of the hearing, the investigative committee will make a recommendation to the city manager to reverse or affirm, in whole or

in part, or modify the grant or denial of a license, the interpretation of the license standards applicable to the appeal in question, or the decision to revoke a license hereunder. The city manager then has ten days to affirm, deny or modify the recommendation of the investigative committee, and shall communicate the decision in writing to the person who filed the appeal, and any other person requesting notice of the decision in writing.

(b) Person Aggrieved. Any person aggrieved who may file an appeal under this section shall include, for purposes of this chapter, the applicant, any person impacted by a decision of the superintendent of central inspection or the city manager (which shall include at least persons within the calculation of notice requirements under the zoning code), and any governmental agency or official affected by such decision.

(c) Appeal to City Council. Any person aggrieved by the decision of the city manager may file an appeal with the city clerk within ten days of the date of the decision. The city council shall hear the matter on the record and may reverse or affirm, in whole or in part, modify the grant or denial of a license or the interpretation of the license standards applicable to the appeal in question, or the decision to revoke a license hereunder. The decision of the city council shall be final.
(Ord. No. 44-819 § 8)

Sec. 20.08.140. Correctional placement residence—License—Revocation.

(a) Any license granted under this chapter may be revoked by the superintendent of central inspection upon ten days' written notice to the license holder, for any of the following reasons:

(1) Violations set forth in Section 3.04.070 of this Code;

(2) Failure to maintain minimum standards required by this chapter;

(3) Material changes to the information provided in the application which is not reported to the superintendent of central inspection or which, if reported, is deemed to disqualify the facility for a license as provided in Section 20.08.060;

(4) Failure of any facility to comply with, or meet any of the requirements for licensing applicable to it, as set forth in Subsection 20.08.060(b).

(b) The revocation shall be stayed if the license holder requests a hearing in writing prior to the effective date of the revocation. A hearing shall be held as provided in Section 20.08.130.

(c) Any decision on revocation made after hearing may be appealed to the city council in the manner provided in Section 20.08.130.
(Ord. No. 44-170 § 6)

Sec. 20.08.150. Violation—Penalty.

Any person who shall own, operate, or manage a facility or any premises within the corporate limits of the city in violation of this chapter, in violation of a license granted under this chapter, or without a license when a license is required by this chapter, shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine or not more than one thousand dollars. Each day that any violation of this chapter continues shall constitute a separate offense and shall be punishable hereunder as a separate violation.

In addition to the penalty described in this section, the city may seek injunctive relief, administrative penalties or revocation of a license as further provided in this chapter.
(Ord. No. 43-218 § 15)

Sec. 20.08.160. Savings clause and severability.

Nothing in this chapter shall be deemed to abolish or impair any existing remedies of the city or its officers or agencies relating to code enforcement or abatement of nuisances.

If any section or provision of this chapter should be held invalid for any reason whatsoever, such invalidity shall not affect the remaining

portion of this chapter which shall remain in full force and effect and the provisions of this chapter are declared to be severable.
(Ord. No. 43-218 § 16)

CHAPTER 20.12. FAIR HOUSING PRACTICES

Sec. 20.12.010. Policy.
Sec. 20.12.020. Definitions.
Sec. 20.12.030. Unlawful acts.
Sec. 20.12.040. Enforcement.
Sec. 20.12.050. Actions deemed not retaliatory.
Sec. 20.12.060. Penalties.

Sec. 20.12.010. Policy.

The Governing Body recognizes the fact that many tenants hesitate to defend their right to a clean, safe and sanitary dwelling unit due to fear of eviction. It is hereby declared to be the public policy of the City that a tenant in good standing should not be evicted from their dwelling unit where the eviction is motivated by the tenant's exercise of a legal right to complain, in good faith, to a landlord or government agency that the dwelling unit endangers or impairs the health and safety of the tenant.
(Ord. No. 52-325, § 1, 1-9-24)

Sec. 20.12.020. Definitions.

Any term used in this title that is not defined herein shall have the same meaning and definition as set forth in K.S.A. Chapter 58 and amendments thereto.

(a) *'Dwelling unit'* means a structure or the part of a structure that is used as a home, residence or sleeping place by one person who maintains a household or by two or more persons who maintain a common household.

(b) *'Good standing'* means that a tenant is not in arrears in the payment of rent and is in compliance with the duties of a tenant enumerated in K.S.A. 58-2555 and amendments thereto.

(c) *'Retaliate'* or *'retaliatory eviction'* shall include but not be limited to any of the following actions by a landlord when the conditions Section 20.12.030 of the City Code are met:

(1) Commencement of eviction;

(2) Increasing the rent; and

(3) Reduction of services required to be provided by the landlord pursuant to the rental agreement and/or K.S.A. 58-2553 and amendments thereto.

(d) *'Tenant'* means a person entitled under a rental agreement to occupy a dwelling unit.
(Ord. No. 52-325, § 2, 1-9-24)

Sec. 20.12.030. Unlawful acts.

(a) It shall be unlawful for a landlord to retaliate against a tenant if the following conditions are met:

(1) The tenant has organized or has become a member of a tenant's union or similar organization; or the tenant has submitted a complaint, in writing and in good faith, either to the landlord or to a governmental agency charged with responsibility for enforcement of statutes, ordinances or regulations pertaining to the maintenance of safe and sanitary dwellings, of conditions in or affecting the tenant's dwelling unit which constitute a violation of any statute, ordinance or regulation pertaining to the maintenance of safe and sanitary dwellings; and

(2) The violation in subsection (a)(1) of this Section imposes responsibility on the landlord; and

(3) The landlord retaliated against the tenant within six months of either (i) the date the tenant organized or joined a tenant's union or similar organization, or (ii) the date the tenant submitted the complaint.
(Ord. No. 52-325, § 3, 1-9-24)

Sec. 20.12.040. Enforcement.

(a) A tenant subjected to unlawful retaliation as defined by 20.12.030 of the City Code may file a written complaint and affidavit with the City Clerk alleging unlawful retaliation by the landlord. The written complaint and affidavit may be filed personally or through an attorney (or if a minor, through the minor's parent, legal guardian or attorney) and shall be completed on forms provided by the City. The complaint form shall state the

names and contact information of the tenant, the individual(s) and/or entity/entities alleged to have committed the unlawful retaliation alleged, and a description of the alleged unlawful retaliation, and all other information as may be required by the form provided by the City. The complaint form shall only be considered complete if all information required by the City's form has been provided to the extent such information is reasonably available to the tenant.

(b) The written complaint and affidavit forms must be filed within one hundred eighty (180) days of the alleged unlawful retaliation, unless the act complained of constitutes a continuing pattern or practice of unlawful retaliation, in which event, it must be filed within one hundred eighty (180) days of the last act of unlawful retaliation.

(c) The complaint may be referred to a mediator designated by the City Manager from a list of mediators approved in advance by the City Council. Mediation costs will be paid by the City.

(d) If mediation is not successfully completed within sixty (60) days of the referral, or a party chooses not to pursue mediation, the complaint shall be referred to the Investigator, who is designated by the City Manager.

(e) Upon receipt of a completed complaint, the Investigator shall notify the landlord respondent(s) of the complaint, providing sufficient details related to the complaint so the respondent(s) may respond. Notification shall be sent to the landlord respondent by certified mail, return receipt requested, to the address listed for the landlord on the lease, to the address provided on the complaint (if different than that on the lease) and to the address of the leased premises. Upon receipt of a completed complaint, the complainant shall be provided with information on community resources from the Sedgwick County District Court's Eviction Resolution Program. The Investigator shall give the respondent(s) thirty (30) days to file a written answer to the complaint, and to provide any documentation or evidence related to the complaint. The Investigator may, at the request of respondent(s), extend the answer period an additional thirty (30) days. If the respondent accused of violating the provisions of this Chapter is the City, the City will engage an independent Investigator who shall not otherwise be an Employee, agent, or contractor of the City. If the respondent is the City, nothing in this Chapter shall affect the employee grievance processes in contract or policy.

(f) Following the conclusion of the answer period, the Investigator may initiate an investigation period, requesting that the tenant and/or landlord respondent(s) provide additional information, documentation, statements or testimony as needed to facilitate the investigation of the complaint. This investigation period shall be concluded within a reasonable period of time following the submission of additional information, documentation, or testimony.

(g) Upon conclusion of the investigation period, the Investigator shall forward all evidence and other information received during the investigation to the Law Department. The Law Department will make a determination whether probable cause exists that: (i) the landlord respondent(s) committed unlawful retaliation, and (ii) imposition of a penalty pursuant to this Chapter:

(1) Would not constitute an unlawful burden of a person's right to exercise of religion pursuant to Section 7 of the Kansas Constitution Bill of Rights or the Kansas Preservation of Religious Freedom Act (K.S.A. 60-5301 et seq., and amendments thereto), or an unlawful burden of a person's freedom of speech, expression, or association (as protected by the First Amendment of the United States Constitution or the Kansas Constitution); or

(2) If imposition of a penalty would constitute a burden, application of such burden to the person would be in furtherance of a compelling governmental interest and such application would be the least restrictive means of furthering that compelling governmental interest.

(h) If the Law Department finds that probable cause does not exist, then the Law Department shall notify the tenant and the landlord respondent(s) within a reasonable period of time,

and this notification shall be considered a final order and no further action shall be taken by the City.

(i) If the Law Department finds probable cause does exist, the Law Department shall notify the tenant and the landlord respondent(s) and request conciliation and settlement. If a party refuses to participate in conciliation and settlement, or if a settlement agreement is not executed within sixty (60) days of the date of the finding of probable cause (unless such time is extended by the Law Department for good cause and with the agreement of all parties), the matter shall be referred to a Municipal Court judge of the City for review, who shall sit as an Administrative Judge for purposes of this Chapter.

(j) Upon referral to the Administrative Judge, the Administrative Judge shall schedule a hearing on the complaint. The parties shall be given ten (10) days' written notice via certified mail of the date, time, and place of the hearing. At such hearing, the parties and the Law Department shall be entitled to call witnesses and to present such other evidence as appropriate. The hearing shall be conducted in accordance with such procedures as may be established by the Administrative Judge, but the rules of evidence used in courts of law need not be strictly enforced.

(k) Any determination of the Administrative Judge that the landlord respondent(s) committed unlawful retaliation shall be issued in writing within sixty (60) days of the hearing, shall be based upon the preponderance of the evidence, and shall set forth the essential elements and facts of the determination. If the Administrative Judge finds that a civil violation of this Chapter has occurred, the Administrative Judge may impose penalties as described in Section 20.12.060 of the City Code, including, in the Administrative Judge's discretion and upon good cause, awarding a portion of the fine to the complainant as direct damages. The prevailing party is free to pursue their reasonable and necessary costs and fees accrued during the case. Any fines collected under this section shall be used to offset the costs of enforcement of this Chapter. Hearings shall be recorded or transcribed by a court reporter, and transcripts of hearings shall be maintained by Municipal Court. Records of convictions under this Chapter shall be available through the Kansas Open Records Act and shall be published on the City of Wichita website for no less than two (2) years.

(l) The filing of a complaint for the alleged violation of this Chapter or a response thereto shall in no way preclude any party from seeking other relief under state or federal law. Appeals from any final determination of the Administrative Judge shall be made pursuant to K.S.A. 60-2101(d) and its amendments.
(Ord. No. 52-325, § 4, 1-9-24)

Sec. 20.12.050. Actions deemed not retaliatory.

(a) Notwithstanding Section 20.12.030 of the City Code, a landlord may maintain an action to recover possession of the dwelling unit if:

(1) The tenant is using the dwelling unit for an illegal purpose or for a purpose which is in violation of the rental agreement or if tenant is not fulfilling a material term of their lease or for nonpayment of rent;

(2) The complaint was caused by the willful actions of the tenant, the tenant's invitee or another person in the tenant's household; or

(3) The landlord seeks to recover possession on the basis of a notice to terminate a periodic tenancy, which notice was given to the tenant before the tenant's complaint; or

(4) The landlord must comply with the applicable building or housing code that requires alteration, remodeling or demolition which would effectively deprive the tenant of use of the dwelling unit, though such action to recover possession does not release the landlord from liability for material noncompliance with the rental agreement or K.S.A. 58-2553.

(b) Notwithstanding Section 20.12.030 of the City Code, a landlord may increase rent if:

(1) The rent increase does not conflict with the rental agreement; and

(2) The increase is made in good faith to compensate the landlord for expenses incurred as a result of acts of God, public utility service rate increases, property tax increases or other increases in costs of operation.

(Ord. No. 52-325, § 5, 1-9-24)

Sec. 20.12.060. Penalties.

(a) Punishment for a violation of Section 20.12.030 of the City Code shall be as follows:

(1) Upon any conviction, a fine of not less than $1,000 and not more than $2,500.

(b) Each day that any violation of this chapter continues shall constitute a separate offense and may be punishable hereunder as a separate violation.

(Ord. No. 52-325, § 1, 1-9-24)

The Uniform Building Code, published by the International Association of Plumbing and Mechanical Officials (IAPMO), 2000 Edition, including the Appendix and Installation Standards thereto except Table No. 1-1, Plumbing Permit Fees, Chapter 7, Part II Building Sewers, Sections 1210.1.1, 1211.8, 1211.9, 1211.9.1, 1211.9.2, 1211.9.3, and 1211.9.4, Appendices G, H, J, K, and L, and Installation Standards Number IS-2, IS-4, and IS-16, and except for amendments set forth in this chapter, is by reference incorporated herein and by this publication made a part of this title as though set forth at length herein, and is hereby adopted as the Plumbing Code of the City of Wichita, Kansas.
(Ord. No. 45-200 § 1; Ord. No. 43-889 § 1)

Sec. 21.04.020. Section 102.1 amended.

Section 102.1 of the Uniform Plumbing Code, as adopted by reference herein, shall be amended to read as follows:

Administrative Authority. The administrative authority duly appointed to enforce this Code shall be the Superintendent of the Office of Central Inspection, and for unsanitary conditions of any plumbing system or portion thereof, shall also include the Health Officer and for back siphonage and cross-connection shall be the Director of the Water and Sewer Department. The administrative authority shall make decisions as are necessary to administer and enforce the Code. The administrative authority shall have the authority to refer to the Board of Appeals of Plumbers and Gas Fitters any matter that relates to the approval of plumbing material and methods as the same relate to this Code. All plumbing inspectors shall have had a minimum of five years of practical plumbing experience as a journeyman and/or master plumber. Persons in the employ of the City who are duly certified as combination inspectors or plumbing inspectors by the International Conference of Building Officials, International Code Council or International Association of Plumbing and Mechanical Officials shall also be qualified as plumbing inspectors for the inspection of installations in one-and two-family residential structures.
(Ord. No. 42-576 § 2; Ord. No. 47-883, § 1, 5-13-08)

Sec. 21.04.035. Definitions.

Unless otherwise specified, the following terms, as used in this chapter, mean as follows:

'*Apprentice*' means an individual, who works as an employee in training under the direct supervision of a journeyman or master, who is

responsible for the layout, installation, maintenance, repair or connection of plumbing piping, or plumbing equipment such as toilets, sinks, bathtubs or showers. An apprentice is not a certified individual.

'*Board*' means that board appointed for each licensed trade for the purpose of reviewing code interpretations taken by the building code enforcement division, granting variances from the code, reviewing license applications and license suspensions and revocation.

'*Code*' means the International or Uniform Plumbing Code as adopted by the city, as the context of this article may require.

'*Direct supervision*' means that the apprentice is working on the same structure and/or building site as the journeyman or master, or where the apprentice is within five hundred feet of where the journeyman or master is working.

'*Journeyman Plumber*' means an individual that holds a journeyman certificate issued pursuant to this article evidencing such person to be qualified to lay out, install, maintain and repair work in his area of expertise. A journeyman is responsible for the supervision of any apprentice assigned to work with him.

'*Licensed contractor*' means a person that engages in the business of plumbing or gas fitting.

'*Licensed trade*' or '*trade*' means the mechanical, electrical, plumbing or gas fitting trade, as the context of this article may require.

'*Master Plumber*' means an individual that holds a master certificate issued pursuant to this article evidencing such person to be qualified to layout, install, maintain and repair work in his area of expertise. A master is responsible for the supervision of any apprentice assigned to work with him.

'*Master Plumber, Qualified*' means an individual who holds a contractor license issued pursuant to this article evidencing such person to be qualified to control and have authority of all technical work performed under the authority of the licensed contractor's enterprise and assures quality control and is responsible for complying with all applicable laws, codes and regulations. (Ord. No. 47-883, § 2)

Sec. 21.04.040. Certificates, examinations, cancellations, licenses and permits.

(a) It is unlawful for any person to engage in the business of plumbing, plumbing repair or gas fitting either as a master plumber or master gas fitter, or to do plumbing work, plumbing repair or gas fitting in the city, unless and until a certificate has been obtained therefore, and a license has been issued for such business and a permit has been issued for such work, all in accordance with the provisions of this Code.

(b) Plumbers' apprentices shall be permitted to work when accompanied by and under the direct supervision of a master or journeyman plumber, who shall be responsible for the plumbing work done by the apprentice. There shall be a maximum of four apprentices per one master or journeyman plumber. The on-site master or journeyman shall be responsible for maintaining the ratio of master/journeyman plumbers to apprentices as required by this section. If an apprentice works without the required direct supervision, the qualified master, on-site master or journeyman plumber, and/or the apprentice may be held responsible for violation of this section."

(c) It shall be unlawful for any qualified master to allow or permit an uncertified individual to engage in the business of plumbing, plumbing repair or gas fitting.

(d) Applications for examinations shall be made to the office of central inspection and each applicant shall be examined as to his or her particular knowledge and if satisfied as to the competency of the applicant shall thereupon direct that said certificate be issued to the applicant, authorizing him to engage in or work at the business of plumbing or gas fitting, either as a master plumber or master gas fitter, to do plumbing work, plumbing repair or gas fitting. In order to sit for examination, the applicant must meet the following practical experience requirements:

Practical experience requirements:

Journeyman plumber: two years as apprentice

CHAPTER 21.12. RESERVED*

*__Editor's note—__Ord. No. 49-403, § 41, adopted December 11, 2012, repealed the former Ch. 21.12, §§ 21.12.010—21.12.190. The former Ch. 21.12 pertained to backflow and back-siphonage prevention and cross-connection control, and derived from Ord. No. 3g-540, § 19; Ord. No. 40-856, §§ 3, 4, 10, 11; Ord. No. 43-168, §§ 1—14. The user's attention is directed to Ch. 21.01, § 21.01.010.

CHAPTER 21.14. INTERPRETATION AND ENFORCEMENT

Sec. 21.14.010. Definitions.
Sec. 21.14.020. Certificate - Examination Required.
Sec. 21.14.030. Certificate—Classification.
Sec. 21.14.040. Certificates—Fees—Expiration—Duration.
Sec. 21.14.050. Application of related provisions of this Code and additional codes adopted by reference.
Sec. 21.14.060. Insurance.
Sec. 21.14.070. Contractors—Marking of vehicles.
Sec. 21.14.080. Installations.
Sec. 21.14.090. Violation—Penalty.

Sec. 21.14.010. Definitions.

(a) *Technician* means an individual who performs maintenance or repair of residential, commercial and industrial water conditioning equipment. A Technician is not a Certified Installer. Unless directly supervised by a Certified Installer, a Technician may not install or replace residential, commercial and industrial water conditioning equipment.

(b) *Certified Installer* means an individual who holds a certificate, issued pursuant to this title, evidencing such person to be qualified to install, service, maintain, repair and replace residential, commercial and industrial water conditioning equipment.

(c) *Master Water Conditioner Installer* means an individual who holds a master certificate, issued pursuant to this title, evidencing such person to be qualified to install, service, maintain and replace residential, commercial and industrial water conditioning equipment.

(d) *Qualified, Master* means a person who holds a masters Water Conditioning Installer's Certificate and has the control and authority of all technical work performed under the authority of the Licensed Water Conditioning Contractor's enterprise and assures quality control and is responsible for complying with all applicable laws, codes and regulations.

(e) *Licensed Water Conditioning Contractor* means any person, partnership, association, limited liability company or corporation which engages in the business of installing, servicing, maintaining or repairing residential, commercial and industrial water conditioning equipment. This term shall include the alteration, exchange or maintenance of residential, commercial and industrial water conditioning equipment.

(f) *Water conditioning equipment* means any water conditioning device, such as filters, softeners, carbon filters, reverse osmosis systems, hydochlorinators, aerators, chemical feeders, and other similar equipment used for the conditioning of water for residential, commercial and industrial purposes. Such term shall not include point of use filters which do not require a drain.

(g) *Direct supervision* means that the Technician is working in the same structure and/or building as the Certified Installer.
(Ord. No. 48-369, § 1, 7-21-09)

Sec. 21.14.020. Certificate - Examination Required.

(a) It is unlawful for any person to engage in the business of installing or replacing water conditioning equipment unless and until a certificate has been obtained, a license has been issued for such business and a permit has been issued for such work. Permits and inspections shall be obtained as required by this title. The permit fee shall be the minimum permit fee established by Section 21.04.050 of this code.

(b) It shall be unlawful for any Qualified Master, Certified Installer or Licensed Water Conditioner Contractor to allow or permit an uncertified individual to engage in the business of installing or replacing water conditioning equipment.

(c) Any person desiring to engage in or work at the business of installing or replacing water conditioning equipment shall make application to the Office of Central Inspection for a Water Conditioner Installer Certificate.

(d) No Water Conditioner Installer Certificate shall be issued to any individual:

(1) Who is not currently certified by the Water Quality Association as a Certified Installer; or

(2) Who has knowingly given any false statement in his or her application for a certificate;

(e) No Master Water Conditioner Installer Certificate shall be issued to any individual with less than two years experience in the installation, service, replacement or repair of water conditioning equipment and who is not certified by the Water Quality Association as a Certified Installer.

(f) No Water Conditioning Contractor's License shall be issued to any person, partnership, association, limited liability company or corporation who:

(1) Has been convicted of a felony or any crime involving moral turpitude or fraud, deception or misrepresentation; For purposes of this chapter moral turpitude means those charges involving prostitution, pimping, indecent exposure, illegal use, possession or sale of narcotics or non-narcotic drugs, sodomy, incest, gambling, illegal cohabitation, adultery, bigamy and crimes against nature.

(2) Has not complied with the provisions of subsection 21.14.060 regarding insurance requirements;

(3) Has been refused a certificate or license in another jurisdiction;

(4) Any partnership, limited liability company or corporation, unless all partners, members or majority shareholders of such partnership, limited liability company or corporation are qualified to obtain a license.

(g) Any license issued pursuant to this section shall expire on the thirty-first day of December of the year in which it was issued.

(h) Any person holding a current Master Water Conditioning Installer Certificate shall be entitled to only one contractor's license unless authorized by the Board of Appeals of Plumbers and Gas Fitters, and each such business shall obtain a license; provided, however, that such person shall be entitled to obtain additional licenses and act as the qualified person for up to two businesses that are wholly owned corporate subsidiaries of the business in which he or she is an active member or corporate officer.

(i) No license shall be transferred from one person to another person, partnership, limited liability company or corporation.

(j) A Water Conditioning Contractor's license may be issued to any person, partnership, limited liability company or corporation which has at least one active member or officer who has been qualified as and has a Master Water Conditioning Certificate.

(k) Persons currently engaging in the business of installing, servicing, repairing or replacing water conditioning equipment shall have two years from the date of publication of this ordinance to obtain certification from the Water Quality Association as a Certified Installer.

(l) Individuals holding a journeyman or master's plumbing certificate are not required to obtain a Water Conditioning Certificate in order to install, service, repair, alter, replace or exchange water conditioning equipment.

(m) It is unlawful for any person to install or replace or cause to be installed or replaced any water conditioning equipment in a building or premises without first obtaining a permit to do such work from the Superintendent of Central Inspection. Master Certified Installers are the only persons entitled to obtain such permits.

(n) It is unlawful for any Water Conditioning Licensed Contractor to allow or permit any person to do or cause to be done any work under a permit secured by the contractor unless such person is employed by such contractor.
(Ord. No. 48-369, § 2, 7-21-09)

Sec. 21.14.030. Certificate—Classification.

The certificate issued to an individual wishing to install or replace water conditioning equipment shall be known as a class "W-C installer" certificate and shall authorize such individual, to engage in such activities.
(Ord. No. 48-369, § 3, 7-21-09)

CHAPTER 21.24. RESERVED*

*__Editor's note—__Ord. No. 49-406, § 2, adopted December 11, 2012, repealed the former Ch. 21.24, §§ 21.24.010—21.24.050. The former Ch. 21.24 pertained to prefabricated assemblies, and derived from Ord. No. 3g-540, §§ 1—5. The user's attention is directed to Ch. 21.01, § 21.01.010.

CHAPTER 22.08. MOBILE HOMES

Sec. 22.08.010. Mobile home mechanical serviceman—Defined.
Sec. 22.08.020. Certificate—Examination required.
Sec. 22.08.030. Certificate—Classification.
Sec. 22.08.040. Certificate—Fees—Duration.
Sec. 22.08.050. Certificate—Issuance without examination.
Sec. 22.08.060. Licenses and bonds.
Sec. 22.08.065. Insurance required.
Sec. 22.08.066. Truth in advertising requirements.

Sec. 22.08.010. Mobile home mechanical serviceman—Defined.

Any person, firm or corporation engaged in the business of installing, repairing or altering any warm air heating equipment and/or refrigerated air conditioning equipment up to and including five ton cooling capacity in or on a mobile home shall be defined as a mobile home mechanical serviceman.
(Ord. No. 30-765 § 1)

Sec. 22.08.020. Certificate—Examination required.

Any person desiring to engage in or work at the business of mobile home mechanical serviceman either as a contractor or as a journeyman shall make application to the office of central inspection for a certificate and shall at such time and place as directed, be subjected to an examination as to his qualifications.

The minimum qualifications shall be the same as required for a journeyman mechanic.

Exception: Any person possessing a valid master's or journeyman's certificate Class "A-C" as provided for under provisions of this title shall be permitted to perform any act set forth in this section.
(Ord. No. 42-577 § 23)

Sec. 22.08.030. Certificate—Classification.

The certificate issued to an individual who is to engage in the business of a mobile home mechanical serviceman either as a contractor or as a journeyman as provided for in Section 22.08.020 shall be authorized to so engage upon his complying with Section 22.04.240 regarding licenses and bonds.

After August 27, 1969 it shall be unlawful for any individual, as a contractor or as a journeyman, to do such work in the city, unless and until a certificate has been obtained therefor and a license has been issued for such business and a permit has been issued for such work, all in accordance with the provisions of the code of the city.
(Ord. No. 30-765 § 3)

Sec. 22.08.040. Certificate—Fees—Duration.

The fee for each examination and original certificate of a mobile home mechanical serviceman shall be established by the superintendent of the office of central inspection to cover the administrative costs of issuing such certificates. All such certificates shall be renewed annually upon payment of a fee established by the superintendent of the office of central inspection to cover the administrative costs of issuing such certificates.
(Ord. No. 42-577 § 24)

Sec. 22.08.050. Certificate—Issuance without examination.

Any person submitting satisfactory proof to the Board of Appeals of having been engaged in the business as a mobile home mechanical serviceman, either as a contractor or as a journeyman for a period of three years of the previous five prior to effective date of this Code, shall upon payment of the regular fee and otherwise complying with this Code, without taking an examination, be granted a mobile home mechanical serviceman license or certificate to expire on December 31 of the year in which it is issued and the same may be renewed as provided for in Section 22.04.220.
(Ord. No. 41-249 § 2)

Sec. 22.08.060. Licenses and bonds.

Anyone engaging or desiring to engage in the business of mobile home mechanical serviceman, and who has been qualified and approved to do so by the office of central inspection as required by this Code, shall before obtaining any permit or

transacting any business, procure a license therefor, from the license collector of the city, which license shall expire on December 31st of the year in which it was issued. No license shall be transferred from one person to another. The fee for such license shall be one hundred dollars. Bonding shall be required under the terms set forth in Section 22.04.240.
(Ord. 43-341 § 1)

Sec. 22.08.065. Insurance required.

Every mobile home mechanical serviceman contractor licensed under this title shall procure and maintain a policy of general liability insurance covering the activities of the mobile home mechanical serviceman contractor while engaged in contracting hereunder. Such insurance policy shall be written with an insurance company licensed to do business in the state of Kansas and shall have minimum limits of coverage of three hundred thousand dollars per occurrence. In addition, every such mobile home mechanical service contractor shall procure and maintain worker's compensation insurance as required by law and automobile liability insurance as required by law. Every contractor licensed under this title shall, prior to the issuance of a license, file with the office of central inspection certificates of insurance evidencing the insurance coverage specified herein. All such certificates shall indicate that the City of Wichita shall be given at least thirty days advance written notice of any cancellation or material change in coverage of such insurance. Failure of a mobile home mechanical serviceman contractor to either procure or maintain such insurance shall be a violation of law punishable as a general misdemeanor and shall be grounds for suspension or revocation of the mobile home mechanical serviceman contractor's license and certificate
(Ord. No. 42-122 § 1)

Sec. 22.08.066. Truth in advertising requirements.

On or after July 1, 1993, any person, firm or corporation required by this title to obtain a mobile home mechanical serviceman contractor's license shall be subject to the following:

(a) It shall be unlawful for any such person, firm or corporation to advertise as a mobile home mechanical serviceman contractor unless, at the time such advertisement occurs, such person, firm or corporation has a then valid mobile home mechanical serviceman contractor's license issued under the provisions of this chapter;

(b) Any advertisement by such person, firm or corporation as a mobile home mechanical serviceman contractor which is placed or published in any publication or other print medium circulated, displayed or distributed within the city limits of which is broadcast by radio or television or any other means to persons within the city limits shall include the full name of the licensed person, firm or corporation and the license number assigned by the office of central inspection to such person, firm or corporation;

(c) As used in this section, the words "advertised" or "advertisement" shall include, but not be limited to, a business card, contract bid proposal form, printed letterhead, any other printed or written material designed to inform persons of the services offered by the advertising person, firm or corporation and to solicit business from such persons, or any broadcast statement designed to inform persons of the services offered by the advertising person, firm or corporation and to solicit business from such persons. Such words are intended to include telephone directory display ads but not basic white and yellow page listings.

(Ord. No. 42-122 § 2)

CHAPTER 22.10 WICHITA/SEDGWICK UNIFIED BUILDING AND TRADE CODE

Sec. 22.10.010. Incorporated by reference.

Sec. 22.10.010. Incorporated by reference.

The Wichita/Sedgwick Unified Building and Trade Code is by reference incorporated in and by this publication made part of this title and chapter as fully as though set out at length herein and is adopted as the building and trade regulations for the City of Wichita.
(Ord. No. 49-407, § 1, 12-11-2012)

CHAPTER 22.12. RESERVED*

*__Editor's note—__Ord. No. 49-407, § 2, adopted December 11, 2012, repealed the former Ch. 22.12, §§ 22.12.010—22.12.050. The former Ch. 22.06 pertained to prefabricated assemblies, and derived from Ord. No. 30-779, §§ 1—3; Ord. No. 33-472 (part); Ord. No. 36-699, § 21. The user's attention is directed to Ch. 22.10, § 22.10.010.

CHAPTER 22.16. RESERVED*

*__Editor's note__—Ord. No. 49-407, § 2, adopted December 11, 2012, repealed the former Ch. 22.16, § 22.16.010. The former Ch. 22.16 pertained to enforcement, and derived from Ord. No. 40-101, § 1. The user's attention is directed to Ch. 22.10, § 22.10.010.

Title 23

AWNINGS, CANOPIES AND MARQUEES*

Ch. 23.04. Regulations

Ch. 23.08. Enforcement

*__Cross references—__As to projecting signs, see § 24.04.270; as to temporary signs attached to fixed canopies, see § 24.04.300; as to licensing, see Chapter 3.52.

CHAPTER 23.04. REGULATIONS

Sec. 23.04.010. Definitions.
Sec. 23.04.020. Permit for erection, etc., over streets and sidewalks—Required; fees.
Sec. 23.04.030. Same—Revocation.
Sec. 23.04.040. Construction and maintenance regulations.
Sec. 23.04.050. Advertising, etc.
Sec. 23.04.060. Interference with fire escapes or public utilities.
Sec. 23.04.070. Height above alleys.
Sec. 23.04.080. Effect of chapter on existing awnings, canopies and marquees.

Sec. 23.04.010. Definitions.

The following words and phrases when used in this chapter shall for the purpose of this chapter have the meanings respectively ascribed to them in this section:

AWNING. A roof-like shelter carried by a supporting frame or arms attached to a building and so arranged that the shelter and frame may be folded or rolled up to the face of the building to which it is attached.

MARQUEE. An overhanging flat roof-like protection or covering of rigid material and construction.

PERMANENT AWNING. A sloping roof-like protection of lightweight, rigid construction supported from a building without posts and used for the outside protection of a door, window or other opening.

Any construction, erected primarily for shade or protection from the elements and which projects into any public area or is liable to endanger persons using public streets or alleys, and which is not mentioned or defined specifically herein or about which there is any question, shall be classified by the building inspection superintendent.

SUPPORTED CANOPY. A covering of canvas or other combustible material used solely for temporary shelter for a door or walk and carried by a frame supported by the ground or sidewalk.

SUSPENDED CANOPY. A covering of canvas or other combustible material rigidly supported by a metal frame attached to a building and suspended from the building solely for a shelter or for protection.

VENETIAN AWNING. An awning, shutter or louver of metal, wood or other rigid material fabricated into sheets, strips or slats somewhat similar to a venetian blind, erected to shade or form an outside protection to a window, door or other building opening.
(Ord. No. 15-054 § 1)

Sec. 23.04.020. Permit for erection, etc., over streets and sidewalks—Required; fees.

No suspended canopy, permanent awning or marquee shall be added to, altered or erected over the streets or alleys of the city until a permit has been secured from the building inspection superintendent. The fee for such permit shall be five dollars plus the sum of seven cents per square foot of area for each canopy, permanent awning, or marquee. The permit fee for supported canopies shall be five dollars. All fees as provided above shall be paid prior to the issuance of the permit or the erection of the canopy, permanent awning, marquee or supported canopy.
(Ord. No. 19-962 § 1)

Sec. 23.04.030. Same—Revocation.

Any permit granted to erect awnings, permanent awnings, canopies or marquees or portions thereof so as to project into a public street or alley is revocable by the city when in the judgment of the board of commissioners it is for the best interest of the city that such permits be revoked.
(Ord. No. 15-054 § 8)

Sec. 23.04.040. Construction and maintenance regulations.

The following regulations shall apply to all construction and maintenance of awnings, permanent awnings, venetian awnings, suspended canopies, supported canopies and marquees:

AWNINGS GENERALLY. Awnings over public areas in the city shall be arranged without posts and shall provide a clearance of not less than seven feet from sidewalk to the lowest point of the

framework, and no part of such awning cover, including any fringe, apron, skirt, valance or drop, shall be less than six feet, six inches above the surface of the sidewalk immediately below when the awning is lowered for use, except the bottom of awning covers enclosing the ends of awnings shall be six feet, eight inches above the surface of the sidewalk. No awning less than thirteen feet above the street, alley or sidewalk shall be closer to the vertical plane of the curb than two feet and in no case shall any awning project from the face of the building more than eight feet. All awnings shall be covered with substantial material.

All fixtures such as lateral arms, center supports, gears and pin ends shall be fastened to steel backing where available, by drilling and bolting through from the back when possible, or drilling, tapping and fastening with not less than three-eighths inch machine bolts. Where wood backing only is available, bolt through from the back wherever possible, using large washers under heads of bolts; otherwise use lag screws from the front at least four inches long. When anchorage is to be made in brick, stone or terra cotta, approved expansion bolts shall be used. Lock washers shall be used on all bolts.

Every awning shall be rolled or folded against the building except when serving as a protection from sun, rain, snow or other inclement weather.

FABRIC-COVERED AWNING CONSTRUCTION. Pipe rollers shall be no less than one and one-half inches inside diameter galvanized steel pipe, or one and one-half inches outside diameter seamless steel tubing. On pipe rollers over twenty feet in length where it becomes necessary to join two or more sections together, splicing must be effected by using cast steel gudgeons, roller ends to be properly riveted to the same. This also applies to pin end gudgeons. Metal rollers shall be drilled or perforated with holes of a size to make a driving fit with roofing nails (about one-eighth inch). These soles shall be spaced not over three inches center to center for the first three holes on each end, spacing between to be approximately six inches center to center. Fabric covering shall be attached to a metal roller by means of large-headed roofing nails fitted solidly into these holes.

When using steel rollers, no center supports shall be necessary on awnings under twenty feet. Over twenty feet, center supports shall be spaced as follows:

Awning lengths	*Number of supports necessary*
20 to 30 ft.	1
30 to 40 ft.	2
40 to 60 ft.	3

One additional center support for each additional fifteen feet or fraction thereof.

On awnings having an extension of four feet or more from the point of fastening on the building, three-fourths inch inside diameter galvanized pipe extension arms shall be used. No extension bars shall be used less than five-eighths inch in diameter and shall be galvanized.

Two arms shall be used for awnings not over twenty feet in length. On awnings over twenty feet, a center arm must be provided for each additional eight feet or fraction thereof added to the length of the awning.

Awnings suspended on lateral arms shall require the number of arms as per the following schedule:

Awning lengths	*Number of arms required*
0 to 22 ft.	2
22 to 30 ft.	3
30 to 40 ft.	4

One additional arm for each ten feet or fraction thereof thereafter.

Wherever possible an even number of lateral arms shall be used.

Front bars shall be galvanized one inch inside diameter or grade "A" clear fir or comparable timber dressed to size 2 inches × 3 inches and corners properly leveled.

Roller awnings shall be operated by self-locking, steelcut, wormtype gear fixtures.

Roller sprocket wheels and link chains shall not be permitted.

The design, construction and erection details of all awnings, other than those herein specifically provided for, shall be submitted to the building inspection superintendent for approval before erection work is started.

VENETIAN AWNINGS. No awning, shutter or louver of metal, wood or other rigid material shall be erected or maintained in such a way that it will impede the entrance into the building of members of the fire department, or in such a manner that it will bar the way of persons seeking to escape from fire or panic in a building, and no shutter or louver of this type shall be placed in any opening giving access to a fire escape or other intended means of escape. No fixed frame shall be placed on any window or door opening in an assembly hall or public hallway in an apartment or hotel building, but nothing shall prohibit the erection of such an awning on these openings provided they can be opened as provided in the following paragraph:

Any awning, shutter or louver of metal, wood or other rigid material attached to the windows of a building above the first story shall be arranged in such a manner that it may be easily opened so as to afford easy ingress and egress, and such awning, shutter or louver shall be constructed so that it may be easily opened from both the inside and outside without any special tool and without special knowledge or skill. No awning, shutter or louver of metal, wood or other rigid material weighing over one pound per square foot shall be attached to the wood jambs, frames or other wood members of a building (frame buildings excepted) when such building is within ten feet of public property. All venetian awnings erected above the first story shall be equipped with at least one safety chain securely fastened to the awning and frame.

SUSPENDED CANOPIES shall be supported throughout by metal framework. They may extend over public sidewalks or parking portions of a public street to a distance of not to exceed seven feet; provided, that a suspended canopy not over ten feet in width measured parallel to the building may extend a distance not to exceed twelve feet. In no case, however, shall the outer edge of the canopy extend closer to the vertical plane of the curb than two feet nor shall it come within two feet of the property line (extended toward the curb). All such suspended canopies shall be securely and rigidly supported and maintained so that no part of the framework of such suspended canopy shall be less than eight feet above the surface of the sidewalk immediately below and no part of such canopy covering, including any fringe, apron, skirt, valance or drop shall be less than seven feet above the surface of the sidewalk immediately below.

A SUPPORTED CANOPY may be erected for a period not to exceed seven days when approved by the building inspection superintendent: provided, that the fee is paid and the permit is secured: provided further, however, that a supported canopy may be erected for a period of not to exceed twenty-four hours and no permit or fee will be required. All supported canopies shall be adequately supported and braced and shall be safely maintained and well lighted at night, and the abutting property owners shall save the city harmless from all claims of every kind or nature arising out of the erection, use and dismantling of such canopy over public property.

MARQUEES, extending over public property, shall have their main framework and support of noncombustible material and shall be designed by a structural engineer and approved by the building inspection superintendent. They shall have a clearance of at least ten feet above public property, shall not extend closer to the vertical plane of the face of the curb than two feet, nor shall they come within two feet of the adjoining side property line, extended toward the curb. Marquees extending not further than two feet from the front building line may have a clearance above public property of not less than eight feet and, except in fire zone No. 1 as set forth in the building code as set out in Title 18 of this code, may be built of combustible materials. Such marquees may also extend to the side property line. The roofs of all marquees shall be so drained as not to discharge water upon the public sidewalk.

PERMANENT AWNINGS, extending over public property shall be of rigid construction, of either combustible or noncombustible material, so designed that the roof portion shall be partly open to

insure release of air pressure built up under the awning. All parts of the roof shall have a slope of not less than fifteen degrees with the horizontal. The structure shall be well braced and securely fastened with bolts or lagscrews to the building to which it is attached. The method of construction and attachment shall be approved by the building inspection superintendent. No part of any permanent awning shall be closer to the public walkway below than seven feet nor shall it extend more than seven feet from the face of the building to which it is attached. No awning of this description within thirteen feet of the walkway shall be closer than two feet from the vertical plane of the curb.
(Ord. No. 15-054 § 3)

Sec. 23.04.050. Advertising, etc.

No awning, permanent awning, suspended canopy or supported canopy shall have upon it any advertising whatsoever except the firm name or the street number. "1940 Joe Doe Grocery 1940" is an example of permitted advertising.

Every awning, permanent awning, suspended canopy and supported canopy erected over any sidewalk in the city shall bear the name and address, on a tag or stencil not exceeding thirty-six square inches, of the person erecting or installing the same.
(Ord. No. 15-054 § 4)

Sec. 23.04.060. Interference with fire escapes or public utilities.

Provisions shall be made that suspended or supported canopies, permanent awnings or marquees shall not interfere with fire escapes or with public utilities.
(Ord. No. 15-054 § 5)

Sec. 23.04.070. Height above alleys.

All awnings, canopies and marquees which project over public alleys shall, in addition to complying with the requirements provided for in Section 23.04.020, be at least thirteen feet above the surface of the alley immediately below.
(Ord. No. 15-054 § 6)

Sec. 23.04.080. Effect of chapter on existing awnings, canopies and marquees.

The provisions of this chapter shall not apply to awnings, marquees or canopies heretofore erected*, but when recovers, renewals, replacements, repairs or structural changes are made to such awnings, canopies or marquees, they shall be brought into full compliance with the provisions of this chapter.
(Ord. No. 15-054 § 7)

*__Editor's note—__The ordinance of which this section is a part was adopted January 27, 1941.

CHAPTER 23.08. ENFORCEMENT

Sec. 23.08.010. Violation—Penalty.

Sec. 23.08.010. Violation—Penalty.

Any person who violates any of the provisions of this title is guilty of a misdemeanor and shall be punished by a fine of not more than five hundred dollars or by imprisonment of not more than six months or both such fine and imprisonment.
(Ord. No. 40-097 § 1)

Title 24

BILLBOARDS AND SIGNS*

Ch. 24.04. Sign Regulations and Standards

*Cross reference—As to advertising on awnings or canopies, see § 23.04.050. As to traffic sign or signal bearing commercial advertising, see § 11.20.040. As to using vehicles for primary purpose of advertising, see § 11.40.010. As to advertising drugs, etc., for prevention of conception or venereal disease, see § 5.18.020. As to distribution of advertising matter in parks, see § 9.04.020. As to handbills, posters, etc., in parks, see § 9.04.080. As to advertising on exterior of taxicab, see § 3.84.050. As to advertising on outside of municipal airport vehicles, see § 3.88.040. As to affixing advertisements to trees, see § 9.08.110.

Sec. 24.04.252. Appeals from the Board of Zoning Appeals.
Sec. 24.04.260. Penalty for violation of Title, rule or order.
Sec. 24.04.270. Amendments.
Sec. 24.04.280. Severability.

Sec. 24.04.010. Title.

This Title shall be known as the Sign Code of the City of Wichita, Kansas.
(Ord. No. 40-963 (part); Ord. No. 50-439, § 1, 4-25-17)

Sec. 24.04.020. Purpose.

The purpose of this Title is to create a comprehensive and balanced system of content and viewpoint-neutral regulation of signs to facilitate easy and efficient communication between people while protecting the First Amendment Rights of individuals and businesses, to avoid visual clutter harmful to traffic and pedestrian safety, and to preserve and promote property values, business opportunities and community appearance.
(Ord. No. 40-963 (part); Ord. No. 50-439, § 2, 4-25-17)

Sec. 24.04.025. Findings of City Council.

The Governing Body of the City of Wichita finds that:

(a) Sign regulations impact First Amendment Rights and these rights are important constitutional rights that must be protected;

(b) Unregulated signage has direct and secondary effects that are harmful to the safety and general welfare of the City as a whole and to its individual citizens;

(c) These direct and secondary effects result from the visual clutter that occurs as a result of unregulated installation and lack of required maintenance of signs;

(d) These direct and secondary effects include harm to traffic and pedestrian safety, decreased property values within the City, decreased business opportunities for individuals and businesses, community blight and an overall less pleasing appearance of the community;

(e) Because of these direct and secondary effects, the City has a compelling interest in regulating signs;

(f) The purpose of this Title is to provide content and viewpoint-neutral, reasonable time, place and manner restrictions that directly advance the interests of the City;

(g) The scope of these regulations is proportionate to the City's interests and narrowly tailored to achieve the City's stated objectives;

(h) A primary and compelling interest of the City is the ability of the City, other governmental entities and utilities to erect official signs and other warnings so that the information is conveyed to the public in order to protect the public safety and welfare; and

(i) A primary and compelling interest of the City is the ability of first responders to easily identify residents or addresses in emergency situations, therefore necessitating that residents and businesses erect Identification Signs and Nameplate Signs to serve that interest.

(Ord. No. 50-439, § 3, 4-25-17)

Sec. 24.04.030. Applicability.

The provisions of this Title shall apply to the erection, construction, reconstruction, remodeling, relocation, alteration, hanging, use, location and maintenance of all signs located outdoors and to those signs painted on any part of a building. No sign shall be erected, constructed, reconstructed, remodeled, relocated, altered, hung, affixed or created by painting that would be contrary to the provisions of this Code. These provisions shall be considered together with the provisions of the Wichita-Sedgwick County Unified Building and Trade Code (UBTC) and Wichita Sedgwick County Unified Zoning Code (UZC), and shall regulate the size, height, location, number, setback, Sign Surface area and type of signs otherwise permitted.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 4, 4-25-17)

Sec. 24.04.040. Exemptions from this Title.

The provisions of this Title shall not apply to:

1. Flags, symbols or emblems, when displayed by the owner on private property;

2. Official Signs as defined by this Title;

3. Address numbers not exceeding three (3) square feet in area;

4. Window Displays and On-Site Signs placed in or upon windows of a building, whether painted or attached;

5. Signs designed as an integral part of vending machines and dispensing equipment, or merchandise display racks, and similar merchandise and advertising displays. No such sign shall be located on the public Right of Way. This provision shall in no way be deemed to permit the display or storage of merchandise, vending machines or equipment not otherwise permitted by the provisions of this Code;

6. Traffic control devices on private or public property when erected and maintained in compliance with the Manual on Uniform Traffic Control Devices;

7. Temporary Decorations or displays on private property;

8. Signs on a truck, bus, trailer or other vehicle when the purpose or function of such vehicle is not primarily the display of such signs; and

9. Scoreboard structures in Athletic Stadiums, the face of which is not clearly visible from any residence or public street.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 5, 4-25-17)

Sec. 24.04.045. Definitions.

(a) 1. **A-frame or Sandwich Sign** means any sign supported from the ground utilizing one or more supporting braces in which a combination of sign and support forms the letter "A."

2. **Abandoned Sign** means any sign or any building, structure or premises which has been vacated for a six-month period or longer.

3. **Abutting** means touching or directly contiguous to.

4. **Adjacent** means no farther than one hundred fifty (150) linear feet unless otherwise provided by this Code.

5. **Animated Sign** means an Electronic Message Sign depicting action, motion, light or color changes through electrified or mechanical means. Although technologically similar to flashing signs, the animated sign emphasizes graphics and artistic displays and may include video displays.

6. **Athletic Stadium** is an open, partially enclosed or fully enclosed facility used or intended to be used primarily for spectator sports or the viewing of sporting events.

7. **Balloon Sign** is a Sign that is inflated and exceeds five (5) square feet in area. Balloons may be tethered or mounted to a structure.

8. **Banner** means a Sign of lightweight fabric or similar non-rigid material with no fully enclosed framework and designed to be attached securely at each end or corner of the Banner to a wall, canopy, post(s) or stakes. Flags shall not be considered a Banner.

9. **Billboard** means a Junior or Standard Billboard Sign. Billboards do not include Off-Site Signs that meet the criteria set forth in Sections 24.04.190(2), 24.04.190(6), 24.04.190(10), 24.04.190(18) or 24.04.251.2(j) of this Code.

10. **Board of Code Standards and Appeals** means the Metropolitan Board of Code Standards and Appeals established by the Wichita-Sedgwick County Unified Building and Trade Code (UBTC).

11. **Board of Zoning Appeals** means the Board of Zoning Appeals as designated by the City Council of the City of Wichita.

12. **Building Sign** is an On-Site Sign attached to or painted on a wall, awning, canopy, building or structure or that is attached to, but not painted on, a roof structure or roof surface, the height of which shall not exceed the height of the roof or wall parapet, or any of the following: (1) the highest point of the coping of a flat roof; (2) the deck line of a mansard roof; (3) the average height between the eaves and ridge line of a gable, hip or gambrel roof; or (4) three (3) feet above the finished roof deck if the average height of a gable, hip or gambrel roof is less than three (3) feet above the bottom or lowest edge of the roofline; except that of a building or structure that was constructed prior to May 4, 1990 that does not have an area at least three (3) feet tall and twenty (20) feet wide above a glazed portion of the building elevation, the bottom of which is at least seven (7) feet above grade, may have a Building Sign which shall not exceed four (4) feet, six (6) inches above the roof or parapet.

13. **Commercial Sign** means any Sign that directly or indirectly names, advertises or calls attention to a business, product, service or both, or other commercial activity.

14. **Directional Sign** means any Sign that provides direction for the safe and efficient flow of vehicular or pedestrian traffic and shall include signs marking entrances, exits, parking areas, loading areas or other operational features of the premises.

15. **Director** means the Director of the Metropolitan Area Building and Construction Department (MABCD) or designee.

16. **Directory Sign** means an On-Site Sign containing information in a list or map form of the individual components making up a planned unit development, master plan development, shopping center or other development.

17. **Election Period** shall mean the forty-five (45) days prior to and the two (2) day period following any election. Such period shall also include the time period between any primary and general election.

18. **Electronic Message Sign** means a Variable Message Sign that utilizes computer-generated messages or some other electronic means of changing copy. These signs include displays using incandescent lamps, LEDs, LCDs or a flipper matrix, and may also enable changes to be made to messages from locations other than at the sign. Electronic Message Signs shall be classified as animated, flashing or moving signs when the rate of copy and/or graphic changes is more than one change per second.

19. **Flashing Sign** means a Sign that contains flashing lights or exhibits noticeable changes in light intensity with a basic on-off of the same light source or display pattern, or that includes the illusion of intermittent or flashing light by means of animation, or an externally-mounted intermittent light source. Generally, the sign's message, copy or flashing pattern is constantly repeated.

20. **Ground Sign** means a Sign placed upon or supported by the ground independently of any building or structure on the property.

21. **Identification Signs** mean any Sign or set of numbers, letters or characters with respect to streets or to those homes or buildings around a principal building.

22. **Institution** means the building, group of buildings, place of confinement or use of an established organization or foundation.

23. **Junior Billboard** means an Off-Site Sign with a Sign Surface not greater than three hundred (300) square feet in area, and not exceeding ten (10) feet in height and thirty (30) feet in length, plus any allowed extensions.

24. **Menu Board Sign** means an On-Site Sign designed and used for the display of menu items and pictures and/or prices of menu items.

25. **Metropolitan Area Planning Commission** means the Wichita-Sedgwick County Metropolitan Area Planning Commission (MAPC) as established by a joint resolution/ordinance between Sedgwick County and the City of Wichita.

26. **Monument Sign** means a detached Ground Sign for which the width of the widest part of the base, pole or pylon cover of the sign is at least one-half the width of the widest part of the Sign Surface or for which the Sign or Sign Cabinet supports consist of visible poles or pylon supporting a Sign Cabinet and the height of the base is not more than two (2) feet above the average grade of the ground.

27. **Moving Sign** is a Sign that includes motion or movement or the illusion of motion or movement.

28. **Nameplate Sign** means any single-faced, non-illuminated Wall Sign that displays information regarding the person or persons occupying space in a building. Nameplate Signs may be incorporated within a Wall Sign and shall otherwise be subject to regulations restricting Wall Signs.

29. **Nit** means a unit of luminance equal to one candela (one candle) per square meter.

30. **Noncommercial Sign** means any sign that is not a Commercial Sign.

31. **Nonconforming Sign** means any sign that does not comply with the provisions of this Title or any other ordinance of the City of Wichita.

32. **Official Sign** means any Sign installed, authorized or erected by a governmental body or agency, public utility or railroad such as traffic signs, signals, regulatory devices or warnings, signs designating properties or structures officially designated by the federal, state or local government as being of historical significance or other similar signs.

33. **Off-Site Sign** means a Sign delivering a message or advertisement which is unrelated to the activities conducted on the premises or the products sold or manufactured thereon.

34. **On-Site Sign** means a Sign which conveys a message or advertisement directly related to the lawful use of the premises on which it is located.

35. **Owner** means the property owner of record, manager, leasee, designated agent or any person exercising control over the sign.

36. **Pennant** means a Sign constructed of fabric or any non-rigid material with no enclosed framework, and designed to be attached securely to a permanent pole or post.

37. **Permanent Sign** means a Sign designated and intended for long-term use which is placed on private property and is attached to a wall, building, roof or to the ground by poles, metal braces or masonry.

38. **Planning Director** means the Director of the Metropolitan Area Planning Department.

39. **Pole, Pylon Cover** or **Wrap** means an enclosure for concealing and/or decorating poles or other structural supports of a Ground or Pole Sign.

40. **Pole** or **Pylon Sign** means a free-standing Sign supported by uprights, braces, columns, poles or other vertical members that are not attached to a building.

41. **Portable Sign** means a temporary On-Site Sign designated in such a manner as to be readily moveable and not permanently attached to the property; such as A-Frames, trailer signs, signs placed on vehicles, beacon lights and other similar signs. Any such sign shall not exceed a height of ten (10) feet above grade and shall not exceed sixty (60) square feet per side in gross surface area.

42. **Projecting Sign** means an On-Site Sign suspended from or supported by a building or structure and projecting therefrom a distance exceeding one (1) foot from the face of the building or structure to which it is attached.

43. **Public Property** for the purposes of this Title means:

    (1) Any public building or premises owned by a governmental entity;

    (2) Any sidewalk, public bridge, crosswalk, curb, paved portion of any street, highway, alley or the median strip of any divided street or highway;

    (3) The paved or unpaved area between the street lines of any street adjacent to a tract of land;

    (4) Any street sign, traffic sign or signal;

    (5) Any telephone, electric wire, powerline, street lamppost or any other utility pole or fire hydrant located in the public Right-of-Way;

    (6) Any tree or other vegetation on public property, including without limitation, those in the public Right-of-Way; and

(7) Any public park, open space, bench, drinking fountain or other property owned or leased by a governmental entity and used for governmental purposes.

44. **Right-of-Way** means the area on, below or above the present and future City streets, alleys, bridges, bikeways, parkways and sidewalks that is owned or controlled by the City, county, state or federal government.

45. **Roof Sign** means a Sign erected, constructed and maintained fully upon or over the roof or parapet of a building or structure and having the roof or parapet as its principal means of support that does not meet the definition of a Building Sign.

46. **Rotating Sign** is a Sign that turns, spins on or around a pole or other similar axis point.

47. **Scrolling Sign** means an Electronic Message Sign that includes a message transition where the message that is leaving or appearing to move horizontally, vertically or diagonally across the sign display surface.

48. **Sign** means any device, object or surface, constructed, installed or painted, the purpose of which is to visually deliver a message of either a commercial or noncommercial nature, by attracting attention to the device, object or item.

49. **Sign Alteration** means the replacement, enlargement, reduction, reshaping, changing or adding to a Sign or Sign Structure or supporting members.

50. **Sign Cabinet** means the structural frame that encloses one or more Sign Surfaces.

51. **Sign Structure** means the support, poles, upright bracing or brackets and framework for any sign that is mounted on or affixed to a building, structure or the ground.

52. **Sign Surface** means the entire area within a square, circle, rectangle, triangle or combination thereof that encompasses the extreme limits of the writing, representation, or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop of structure against which it is placed.

53. **Special Event** means a seasonal or temporary event lasting no longer than thirty (30) days occurring on private property.

54. **Standard Billboard** means an Off-Site Sign with a Sign Surface greater than three hundred (300) square feet in area, but not exceeding fourteen (14) feet in height and forty-eight (48) feet in length plus any allowed extension.

55. **Street Frontage** means the linear feet of a zoning lot directly adjacent to an adjoining street or street Right-of-Way. In determining Street Frontage, one-half the width of an adjoining alley may be considered as frontage.

56. **Temporary Decoration(s)** means displays erected on a seasonal or temporary basis that are not intended to be permanent in nature and that do not constitute Commercial Signs.

57. **Temporary Sign** means any sign intended to be displayed for a limited period of time which is supported by any means other than by a person and is typically constructed from nondurable materials, including but not limited to paper, cardboard, cloth, plastic or wallboard. Temporary Decorations, Banners, Portable Signs, Balloons or Window Signs shall be regulated by specific provisions set forth in this Title. Unless otherwise limited by specific provisions of this Title, or by the terms of any required permit, a Temporary Sign shall not be displayed for more than ninety (90) days. Temporary Signs shall be removed from a property for not less than thirty (30) days at the end of the

maximum time period as set forth in this Title before another Temporary Sign can be located on a property.

58. **Variable Message Sign** means a Sign that includes the electronic or mechanical means for message or copy changes. These signs may include changeable messages or copy with letters and/or numbers mounted in or on a track system, Electronic Message Signs, and signs with rotating sections or panels (i.e., tri-vision and similar type displays).

59. **Wall** means the exterior or surface of a building or structure. For the purposes of this Title, walls shall include mansard-type or sloped-roof structures.

60. **Wall Sign** means a Sign attached to and erected parallel to and within one (1) foot of the face or wall of a building.

61. **Window Sign** means on On-Site Sign either temporary or permanent that is placed on the inside of a window or upon the windowpanes and is visible from the exterior of the window.

62. **Zoning Administrator** means the Director of the Wichita-Sedgwick County Metropolitan Area Planning Department (MAPD) or their designee.

63. **Zoning District** means the zoning classifications established in the Wichita-Sedgwick County Unified Zoning Code (UZC).

64. **Zoning Lot** means a parcel of land that is designated by its Owner or developer, at the time of applying for a building permit as one lot, all of which is to be used, developed or built upon as a unit under single ownership. As long as it satisfies the requirement of the above and the requirements of the Subdivision Rules and Regulations of the MAPC, such lot may consist of (1) a single lot of record, (2) a portion of a lot of record, or (3) a combination of complete lots of record, complete lots and portions of lots of record, or portions of lots of record. For purposes of this Title, approved Community Unit Plans, Planned Unit Developments or "P-O" Protective Overlays, as defined in the Wichita-Sedgwick County Unified Zoning Code (UZC), shall be considered as a single Zoning Lot.

(b) To the extent they are not inconsistent with this Title, the definitions adopted by the Unified Zoning Code (UZC), as amended, shall apply to the terms used in this Title.

(c) Whenever a Sign could be subject to more than one classification, the Zoning Administrator shall determine the most appropriate classification and apply all applicable regulations.
(Ord. No. 50-439, § 6, 4-25-17; Ord. No. 52-192, § 1, 6-13-23)

Sec. 24.04.050. Permits required.

Except as otherwise provided in this Title it is unlawful for any person to place, locate, erect, construct, reconstruct, remodel, relocate, alter, hang, affix or create by painting, a sign within the City without first obtaining a permit from the Director who shall issue permits for the following:

(a) **Permanent Sign Permit.** This permit shall be required for all new Permanent Signs erected, constructed, reconstructed, remodeled, relocated, altered, hung, affixed or created by painting, or for signs altered to increase the height or area. A Permanent Sign Permit shall not have an expiration date.

(b) **Temporary Sign Permit.** The Owner of any Temporary Sign shall obtain a Temporary Sign Permit under the conditions set forth by Section 24.04.070. Temporary Sign Permits shall have an expiration date and shall be valid only for the duration of time noted on the permit and subject all the other applicable provisions of the City ordinances.

(c) **Exemption from Permits and Fees.** All provisions of this Title shall apply to the following signs, except that permits or permit fees shall not be required for:

(1) Temporary, non-illuminated, signs, not more than eight (8) square feet in area as authorized by Section 24.04.190(5);

(2) Temporary On-Site Signs displayed during a licensed miscellaneous sale, not exceeding four (4) square feet in area, and located on private property;

(3) Directional On-Site Signs, not exceeding three (3) square feet in area;

(4) Identification and Nameplate Signs, not exceeding three (3) square feet in area, that are painted or attached to the windows, doors or walls of a building or accessory to a dwelling;

(5) Balloon Signs not exceeding five (5) square feet in area as measured at the largest cross-section; and

(6) Temporary signs as authorized by Section 24.04.190(10).

(Ord. No. 43-717 § 1; Ord. No. 50-439, § 6, 4-25-17)

Sec. 24.04.060. Permit application and issuance.

(a) Application for permits shall be made to the Director upon forms provided by the City and shall be accompanied by such information as may be required to assure compliance with all appropriate regulations. The application shall include drawings of the sign, location, dimensions, height, construction and structural design for the sign. If deemed necessary, the Director may also require that a licensed engineer furnish information concerning structural design of the sign and the proposed attachments.

(b) The Director shall issue a permit for a sign when an application has been made and the sign complies with all applicable regulations of the City.

(c) A Permanent Sign Permit issued under the provisions of this Title shall expire and become null and void if the work authorized by such permit is not commenced within one hundred eighty (180) days from the date of issuance of such permit, or if the work authorized by such permit is suspended or abandoned for a period of one hundred twenty (120) days or more at any time after the work is commenced. The Director may grant extensions to these time limitations when a request is made in writing due to unusual circumstances. Before such work can be commenced or resumed thereafter, a new permit shall first be obtained and the fee therefore shall be one-half the amount required for a new permit for such work; provided no changes have been made in the original design of the sign, and provided further that such suspension or abandonment has not exceeded one (1) year.

(d) Only licensed and bonded sign hangers may place, locate, erect, construct, reconstruct, remodel, relocate, alter, hang, affix or create by painting any sign requiring a permit.

Exceptions:

(1) Temporary Signs as set forth in Section 24.04.230, except for Balloon Signs, provided that the Director may require such a sign hanger when the location or nature of such sign requires such sign hanger in the determination of the Director;

(2) Maintenance and repairing of existing signs by the Owner when no structural changes are made to a sign;

(3) Portable Signs.

(e) No permit for a sign issued under this Title shall be deemed to constitute permission or authorization to maintain a public or private nuisance, nor shall any permit issued hereunder constitute a defense in an action to abate a nuisance.

(f) No permit shall be issued for a new sign or the reconstruction, relocation or expansion of a Non-Conforming Sign, when the issuance of the permit would be contrary to this Title.

(g) Applications for Electronic Message Signs shall be accompanied by the following information:

(1) Specifications from the sign manufacturer providing the maximum Nit rating of the sign;

(2) Information from the sign manufacturer indicating the type of dimming control

that will be provided with the sign to ensure the sign is appropriately dimmed at night;

(3) A signed letter from the property or business owner for whom the sign is being installed that acknowledges the

property or business owner's agreement to abide by this Title governing dimming of the sign at night; and

(4) The provisions of Subsections (g)(2) and (g)(3) set forth above shall not be required for Electronic Message Signs that have a maximum brightness and/or light intensity rating of 3,000 Nits or less.

(Ord. No. 43-717 § 2; Ord. No. 47-542 § 1, 8-14-07; Ord. No. 50-439, § 8, 4-25-17)

Sec. 24.04.070. Permit fees.

The fee as set forth in this Section must be paid to the City before any such permit is issued. Every sign, except those signs exempt from these regulations by Section 24.04.040 or from permits by Section 24.04.050, requires a permit. The fees set forth in this Section may be modified by such fee schedule as may be established by resolution or ordinance of the City Council. Such new or modified fees shall become effective upon publication.

(a) **Permanent Sign Permit Fee:**

(1) For each Permanent Sign that is placed, located, erected, constructed, reconstructed, remodeled, relocated, altered, hung, affixed, or created by painting, the sign permit fee shall be twenty-five (25) dollars, plus six (6) dollars per each ten (10) square feet in gross surface area or fraction thereof.

(2) For each existing Permanent Sign that is altered to increase the area or height of the sign, a sign permit fee of twenty-five (25) dollars plus six (6) dollars per ten (10) square feet of increase in gross surface area of the sign or fraction thereof.

(3) For each existing Permanent On-Site Sign of which the copy is altered or changed by painting or replacing Sign Surfaces where no increase in height or area occurs, and does not involve structural changes, a sign permit fee of twenty-five (25) dollars shall be paid. This fee shall not apply when a change is made to add an additional face to a single face sign. Further, no permit is required for mere repainting or replacement of a damaged Sign Surface when there is no substantive change or alteration to existing copy and no increase in the height or area of the sign.

(4) For each sign that is placed, located, erected, constructed, reconstructed, remodeled, relocated, altered, hung, affixed or created by painting without first obtaining a Permanent Sign Permit, the fee shall be twice the amount specified above.

(5) For temporary signs as described in Section 20.04.190(5) which exceed eight (8) square feet but are not greater than forty (40) square feet, the sign permit fee shall be fifteen (15) dollars, plus four (4) dollars for each ten (10) square feet in gross surface area or fraction thereof.

(b) **Temporary Sign Permit Fees:**

(1) For Banner Signs permitted by Section 24.04.190 of this Code, a Temporary Sign Permit fee of five (5) dollars, plus four (4) dollars for each ten (10) square feet in gross surface area or fraction thereof, in excess of one hundred (100) square feet gross surface area of all Banners, streamers, posters or other similar devices, shall be paid, with a maximum time limit of thirty (30) days.

(2) For Balloon Signs requiring a permit, the Balloon Sign Permit fee shall be fifteen (15) dollars for each five (5) day permit issued under the requirements of Section 24.04.235. Such Balloon Sign Permits shall be obtained by a licensed sign hanger.

(3) For all other Temporary Signs requiring a permit, the permit fee shall be five (5) dollars plus one (1) dollar for each fifty (50) square feet, or frac-

tion thereof, shall be paid for each sign, with a time limitation as set forth in this Title.

(4) For any Temporary Sign placed on any property without securing a permit and paying the fee therefor, the fee shall be twice the amount set forth above.

(5) For Portable Signs permitted by this Code, a Temporary Sign Permit of ten (10) dollars shall be paid for each thirty (30) days the sign remains on a Zoning Lot.

Exception:

Portable Signs for which an annual Temporary Sign Permit has been obtained, as set forth in subsection (6) of this Section, need not have a separate Temporary Sign Permit; provided, however, the sign company placing any such sign shall notify the Director of the location of any sign, within twenty-four (24) hours of the placement of the sign, on a form furnished for such purpose.

(6) For Portable Signs that are individually owned, leased or loaned to any business, institution or individual that are to be located in the City, an annual Temporary Sign Permit shall be obtained for each individual sign. Such annual Temporary Sign Permit shall be one hundred (100) dollars. Any such sign for which such permit is obtained shall bear a decal showing the expiration date of the permit and shall also have the name of the Sign Owner located on the sign.

(c) **Double Fee:**

The payment of a double fee for failing to obtain the appropriate permit prior to the placement, location, erection, construction, reconstruction, remodeling, relocation, alteration, hanging, affixing or creation by painting a sign shall not relieve any person from complying with other provisions of this Title or from the penalties prescribed herein.

(Ord. No. 43-717 § 3; Ord. No. 50-439, § 9, 4-25-17)

Sec. 24.04.080. Requirements for maintenance of signs.

(a) All signs, together with all their supports, braces, connections, anchors and any appurtenance thereto shall be kept in good repair and in proper state of preservation. The Sign Surfaces of all signs shall be kept neatly painted or posted at all times. Every sign and the immediate surrounding premises shall be maintained by the Owner or person in charge thereof in a safe, clean, and sanitary condition, and shall be kept free and clear of all rubbish and weeds.

(b) Any crazing, fading, chipping, peeling of flaking of paint, plastic or glass, or any mechanical, electrical or structural defect shall be corrected within thirty (30) days upon notice by the Director or the sign shall be removed by the Owner.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 10, 4-25-17)

Sec. 24.04.085. Nonconforming Signs.

(a) Any Permanent Sign in existence on May 4, 1990 which does not conform to the provisions of this Title, but which was erected, constructed, reconstructed, remodeled, relocated, altered, hung, affixed or created by painting in compliance with all previously applicable regulations shall be regarded as a Nonconforming Sign and may continue to exist as a Nonconforming Sign, except as hereafter provided.

(b) Any Permanent Sign in existence on December 13, 1974, which did not conform to the then existing provisions of the sign regulations, but which was erected, constructed, reconstructed, remodeled, relocated, altered, hung, affixed or created by painting in compliance with all previously applicable regulations, shall be regarded as a Nonconforming Sign and may continue to exist as a Nonconforming Sign, except as hereafter provided.

(c) The following signs must be removed or conform to all applicable provisions of this Title within fifteen (15) years from the first date of non-conformance:

(1) Off-site signs which are within six hundred sixty (660) feet of the established bank lines of the Big or Little Arkansas Rivers; and

(2) Signs which are projecting over public Rights of Way in a manner prohibited by Section 24.04.200.

(Ord. No. 41-828 § 1; Ord. No. 47-542 § 2, 8-14-07; Ord. No. 50-439, § 11, 4-25-17)

Sec. 24.04.090. Signs hereafter rendered nonconforming.

Any sign which becomes nonconforming subsequent to the effective date of the ordinance codified herein, either by reason of annexation to the City of the Zoning Lot upon which the sign is located or the amendment of this Title so as to render such sign nonconforming, shall be subject to the provisions of this Title. The period within which any sign required by this Title to be removed or conformed shall commence to run upon the effective date of the annexation, amendment or the date upon which the sign otherwise becomes nonconforming.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 12, 4-25-17)

Sec. 24.04.100. Alteration and repair of nonconforming signs.

No alteration or repair shall be made to any Nonconforming Sign unless such sign is brought into conformance with the provisions of this Title except for the following:

(a) Altering or changing the copy of any Off-Site Sign, and the copy of On-Site Signs for another business on the Zoning Lot, and may include replacing the sign panels when no structural modifications of the sign are made, and such alteration does not increase the height of the sign or area of the Sign Surface;

(b) Structural alterations or repairs to any Nonconforming Sign shall be limited to signs damaged by fire, explosion, act of God, traffic accident or other similar accident, and when the damage does not exceed fifty (50) percent of its structural value;

(c) Normal maintenance and repairs required by Section 24.04.080 of this Code; and

(d) Building Signs on a multi-tenant structure that became nonconforming on May 4, 1990 because they extend above the height of the roof or parapet may be altered or replaced by other such signs, on a building facade on which all the other existing Building Signs for other tenants occupying the building also extend above the height of the roof or parapet.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 13, 4-25-17)

Sec. 24.04.120. Abandoned signs.

Any sign which is located on a property which becomes vacant and unoccupied for a period of thirty (30) days, or any sign which was erected for an occupant or business unrelated to the present occupant or his business shall be deemed to have been abandoned. Permanent Signs of a business temporarily suspended because of a change of ownership or management of such business shall not be deemed abandoned unless the property remains vacant for a period of six (6) months or more. An abandoned sign is prohibited and shall be removed within thirty (30) days after notification by the Director or Zoning Administrator.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 14, 4-25-17)

Sec. 24.04.130. Removal of signs.

(a) The Zoning Administrator or Director shall remove or cause to be removed any abandoned, dangerous, defective, illegal or prohibited sign subject to removal under the provisions of this Title which has not been removed within the time period specified in this Title, or any other sign maintained in violation of the provisions of this Title. The Zoning Administrator or Director shall prepare a notice which shall describe the sign and specify the violation involved and which

shall state that if the sign is not removed or the violation is not corrected within thirty (30) days, the sign shall be removed in accordance with the provisions of this Title;

(b) The notice shall be mailed or given to the Owner of the sign, or the occupant of the property upon which the sign is located or their employee or representative, or to the Owner of the property on which the sign is located as shown on the records of the Register of Deeds;

(c) In addition, any Temporary Sign placed on private property in violation of any provision of this Title may be removed and impounded by the Zoning Administrator or Director. The Zoning Administrator or Director shall prepare a notice and specify the violation involved which shall state that if the sign is not removed or the violation not corrected within seventy-two (72) hours, the sign shall be impounded. This notice shall be served upon the Owner. Such sign shall be retained by the Zoning Administrator or Director for a period of thirty (30) days, after which it may be disposed of in any manner deemed appropriate by the Zoning Administrator or Director. Such sign may be recovered by the Owner within thirty (30) days upon payment of a service charge of twenty-five (25) dollars per sign;

(d) Notwithstanding the above, in cases of emergency, the Director or Zoning Administrator may cause the immediate removal of a dangerous or defective sign without prior notice. Notice of removal shall be given to the Owner within seventy-two (72) hours of removal; and

(e) The Owner may appeal the determination of the Director or Zoning Administrator ordering removal or compliance by filing a written notice of appeal.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 15, 4-25-17)

Sec. 24.04.135. Appeals.

Any aggrieved person may appeal the determination of the Director or Zoning Administrator as set forth in Section 24.04.130 by filing a notice of appeal. Such notice shall be filed in writing within ten (10) days of the determination by the Director or Zoning Administrator.

(a) All appeals, involving determinations arising under the UBTC, shall be referred by the Director to the Board of Code Standards and Appeals for hearing on the matter in dispute.

(b) All appeals on all other matters arising under this Title shall be filed with the Board of Zoning Appeals for hearing. The Board of Zoning Appeals is hereby granted jurisdiction to hear such appeals in the same manner as all other appeals to such body.

(Ord. No. 40-963 (part); Ord. No. 49-335 § 1, 8-28-12; Ord. No. 50-439, § 16, 4-25-17)

Sec. 24.04.140. Cost of sign removal.

Any sign removed by the Zoning Administrator or Director may be disposed of in any manner deemed appropriate by the Zoning Administrator or Director. The cost of abatement or removal shall include any and all incidental expenses incurred by the City in connection with the sign abatement or removal. The Owner shall receive notice of such costs, and if unpaid after thirty (30) days, these costs shall be certified to the City Clerk, who shall assess the costs as a special assessment against the lot or parcel of land on which the sign was located in the manner provided by law.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 17, 4-25-17)

Sec. 24.04.150. License to engage in business of sign hanger.

All persons engaged in the business of hanging or installing signs, including Balloon Signs, which involves in whole or part the placement, location, erection, construction, reconstruction, remodeling, relocation, alteration, hanging, affixing or creation by painting of such signs shall be required to obtain a license from the City to conduct such business. This shall be an annual license and the fee therefor shall be one hundred (100) dollars.

(Ord. No. 43-717 § 4; Ord. No. 50-439, § 18, 4-25-17)

Sec. 24.04.160. Bond required.

No license shall be issued to any sign hanger until a bond shall have been filed with the City Clerk in the sum of two thousand (2,000) dollars, such bond to be approved as to form by the City Attorney. Such bond shall be conditioned for the construction and erection of signs in accordance with the ordinances of the City, the provisions of this Title and the laws of the state, and to protect and save the City harmless from any and all claims or demands by reason of any negligence of the sign hanger or the sign hanger's agents, servants or employees by reason of the erection, demolition, construction, maintenance, repair, removal or defects in or collapse of any sign erected by or under the direction of the sign hanger named in such bond. This obligation shall be a continuing obligation and shall remain in full force and effect until canceled by the principal or surety after having given thirty (30) days' written notice to the City. Such notice of cancellation shall be given to the Director.
(Ord. No. 40-963 (part); Ord. No. 50-439, § 19, 4-25-17)

Sec. 24.04.170. Liability for safe maintenance.

The granting of a permit by the Director shall not relieve the Owner of the sign or the owner, tenant or lessee of the premises upon which or to which the sign is attached, from the responsibility of safely maintaining such sign.
(Ord. No. 40-963 (part); Ord. No. 50-439, § 20, 4-25-17)

Sec. 24.04.175. Revocation of permits.

The Director or Zoning Administrator may revoke any permit under the provisions of this Title or stop the work or order the removal of any sign for any of the following reasons:

(a) Whenever there is a violation of any of the provisions of this Title or any other ordinance relating to signs;

(b) Whenever the continuance of any work becomes dangerous to life or property;

(c) Whenever there is any violation of any condition on which the permit was based;

(d) Whenever, in the opinion of the Director or Zoning Administrator, the person having charge of such work is not in compliance with all applicable codes;

(e) Whenever any false statement or misrepresentation has been made on the application on which the issuance of the permit was based;

(f) Whenever the Owner has failed to maintain a sign in conformance with this Title; and

(g) Whenever the Owner has changed the Zoning Lot to make a sign nonconforming.

The notice to stop work or order for removal of a sign shall be as set forth in Section 24.04.130.
(Ord. No. 40-963 (part); Ord. No. 50-439, § 21, 4-25-17)

Sec. 24.04.180. Inspections—Right of entry.

The Director and Zoning Administrator or an authorized representative shall inspect all signs regulated by this Title. He or she may also enter any building or upon any premises at any reasonable time for the purpose of inspection or to prevent a violation of this Title upon presentation of the proper credentials.
(Ord. No. 40-963 (part); Ord. No. 50-439, § 22, 4-25-17)

Sec. 24.04.185. Reserved.

Editor's note—Ord. No. 50-439, § 23, adopted April 25, 2017, repealed § 24.04.185, which pertained to classifications and definitions and derived from Ord. No. 43-717 § 5, Repealing the Originals of said amended section by Ord. No. 45-975. Adopted February 3, 2004, Amended by Ord. No. 46-396, adopted November 2, 2004; Ord. No. 46-396, Amended, Feb. 3, 2005; 45-975, Amended, July 1, 2004; Ord. 40-963, Amended, March 24, 1998, Ord. 43-717 Published March 27, 1998; Ord. No. 47-542 § 3, adopted August 14, 2007.

Sec. 24.04.190. Signs permitted in all Zoning Districts.

The following signs shall be permitted in all Zoning Districts:

1. Directional On-Site Signs, not exceeding six (6) square feet in area, displayed on private property for the convenience of the public.

2. Permanent markers located on private property for the convenience of the public in the identification of a subdivision or the streets therein; provided, that they shall first have been submitted to the Planning Director for approval. The markers shall be determined to be in keeping with the general design of the area and the size shall be limited in height and area dependent upon their location on the property.

3. Identification Signs when consisting of letters fifteen (15) inches or less in height, carved into or securely attached in such a way that they are an architectural detail of the building or entrance way, and; provided further, they are not illuminated apart from the building or entrance way, are not made of reflecting material and do not project more than two (2) inches from the surface to which they are attached.

4. During the time that property is under construction, additional temporary signs may be displayed subject to the following limitations:

   (a) One sign per Street Frontage;

   (b) Gross surface area per sign - thirty-two (32) square feet in "SF-10", "SF-5" and "TF-3" districts, one hundred twenty-eight (128) square feet in all other districts; and

   (c) Sign may include illustration of project under construction.

5. During the time that a property is listed for sale, lease or rent, additional temporary signs may be displayed with the following limitations:

   (a) Any such sign shall be unlighted and all lettering shall be permanently affixed to the sign;

   (b) The maximum gross surface area per sign, in all residential Zoning Districts, except "B" multifamily, is eight (8) square feet; in all other Zoning Districts, including "B" multifamily, it is forty (40) square feet;

   (c) There shall be only one sign per Street Frontage per listing in "MF-29" multifamily and more restrictive Zoning Districts, provided, that there shall be no more than two (2) Temporary Signs per Zoning Lot in all "MF-29" multifamily and more restrictive Zoning Districts; and

   (d) In all Zoning Districts other than "MF-29" Multi Family and more restrictive Zoning Districts, there shall be no more than two (2) Temporary Signs per Street Frontage unless the signs can be separated by a minimum distance of 150'. In no event shall there be more than four (4) Temporary Signs per Zoning Lot in Zoning Districts other than "MF-29" multifamily and more restrictive Zoning Districts.

6. During the time that a construction project is being marketed, developed or is under construction, additional Temporary Signs with the following limitations, unless otherwise indicated in an approved Community Unit Plan:

   (a) Time period, two (2) years; however, the Zoning Administrator may grant extensions every six (6) months until all lots in the subdivision are sold provided the sign is adequately maintained;

   (b) Unlighted or indirectly lighted from an external source only and constructed with neither reflective nor luminous materials;

   (c) Permit issued only after the final subdivision plat has been duly recorded; except that a permit may be issued for a property which is governed by an approved Community Unit Plan or for which a preliminary subdivision plat has been approved, for a period of six (6)

months, and then may be extended as provided for in subsection a. above if the final plat has been recorded;

(d) Located at or near entrances to tract sections under construction;

(e) Not more than two (2) Sign Structures shall be maintained in any one subdivision less than forty (40) acres in size. For each additional forty (40) acres or major fraction thereof, one additional sign may be erected;

(f) Maximum area of two hundred (200) square feet for each sign;

(g) Maximum height of twenty (20) feet; and

(h) Up to two (2) Temporary Signs to direct the public to the project may be permitted off-site, subject to the limitations set forth above and the following additional limitations:

(1) Must be located on a vacant lot or tract that is at least five hundred (500) feet, and no more than one mile, from the project.

(2) May not be located within one hundred and fifty (150) feet of a residential structure, or from any other sign facing the same direction of travel, or in a location prohibited by Section 24.04.200 of this Code.

(3) Off-Site Signs permitted under this subsection are not required to be placed on a single pole.

(4) This provision is not intended to further limit the number or location of Off-Site Signs as established in Subsection 24.04.222 or other Sections of this Code.

7. Nameplate Signs with a maximum area of three (3) square feet.

8. Temporary Banner Signs shall not exceed a total of sixty-four (64) square feet. Banner Signs shall be limited to one banner per business or location. Banners shall only be temporarily displayed. Such Banners shall not be displayed for more than thirty (30) days and shall be limited to being on display only on property during special events occurring on such property.

9. Temporary Signs displayed during a licensed miscellaneous sale not to exceed four (4) square feet in area, when located in a residential district, and not on public property.

10. (a) No more than one (1) Temporary Sign per fifteen (15) linear feet of street frontage or portion thereof may be located on private property with the permission of the Owner or tenant.

(b) Such signs shall not exceed eight (8) square feet in area, no more than five (5) feet in height and be located no closer than eight (8) linear feet to a side property line. Such signs may not be lighted or illuminated.

(c) The provisions of subsection (a) shall not be applicable to signs displayed during any Election Period, as defined by Section 24.04.045 of the Code of the City of Wichita.

11. Signs for an Institution only, not exceeding twenty-five (25) square feet gross area, which may be lighted by direct or internal illumination of white light only except that Institutions located along designated collector, arterial or expressway streets may have one sign for each collector, arterial or expressway frontage, not exceeding forty-eight (48) square feet in size for each sign. Exception: Institutions located along designated collector, arterial or expressway streets with two hundred (200) feet or more of frontage along such street may have one sign for each collector, arterial or expressway frontage, not exceeding one hundred (100) square feet in size for each sign, or up to two (2) signs for which the combined total sign area does not exceed one

hundred (100) square feet, and where such signs are separated by a minimum distance of one hundred fifty (150) linear feet.

12. Building Sign unlighted and not exceeding two (2) square feet in area when allowed by UZC IV.E.

13. Portable Sign for an Institution, provided only one Portable Sign shall be permitted on a Zoning Lot. Any such sign shall not be located closer than one hundred fifty (150) feet to any other Ground or Portable Sign, and shall be located in accordance with all other applicable regulations including, but not limited to, the location of the Portable Sign in relation to the street Right-of-Way line and the distance from driveway approaches. Any Portable Sign permitted by this Section shall not exceed sixty (60) square feet in Sign Surface per side.

14. Banners are permitted, except in the "SF-5" or "SF-10" Single Family or "TF-3" Two-Family Zoning Districts subject to the following limitations:

    Only one Banner shall be permitted for each building elevation, any such building elevation shall be required to have any one of the following:

    (a) Street Frontage;

    (b) Be adjacent to an "NO" Neighborhood Office, "GO" General Office, "NR" Neighborhood Retail, "LC" Limited Commercial, "GC" General Commercial, "CBD" Central Business District, "OW" Office Warehouse, "IP" Industrial Park, "LI" Limited Industrial or "GI" General Industrial Zoning District; or

    (c) If adjacent to a residential use or Zoning District, there must be a parking, loading or open space area with a depth of one hundred fifty (150) feet or more as measured from the sign surface to the property line which adjoins the Residential Zoning District or use.

    No Banners shall exceed thirty (30) square feet of Sign Surface area except as otherwise allowed by subsection (8) of Section 24.04.190, and shall be securely attached to a building, wall or fence.

15. Menu Board Signs, except in any residential Zoning District or any "NO" Neighborhood Office, "GO" General Office or "NR" Neighborhood Retail Zoning District, provided that any Ground Menu Board Sign is located no closer to a front property line than the front wall elevation of the principal use structure, and no closer to a rear or side property line than the building or compatibility setback allowed by the (UZC) or a special purpose or overlay Zoning District standard or requirement. Menu Board Signs shall be limited to a maximum of two (2), fifty (50) square foot signs per business, or one (1) maximum one hundred (100) square foot sign per business. Smaller Signs of up to six (6) square feet may be located at individual parking stalls without meeting the building or compatibility setback requirements outlined above.

16. Pennant Signs, except in the "SF-5" Single Family, "SF-10" Single Family, or "TF-3" Two-Family Zoning Districts, with the following limitations:

    (a) Limited to a maximum area per Pennant of twenty-four (24) square feet;

    (b) Limited to two (2) Pennants for each permanent pole, provided the total area of the Pennants does not exceed twenty-four (24) square feet per pole;

    (c) Limited to a minimum horizontal separation between Pennants, or between dual Pennants as set forth above where attached to poles, of fifty (50) feet;

(d) Limited to a minimum height of ten (10) feet above adjacent grade at the lowest part of the Pennant;

(e) Limited to a maximum height of thirty (30) feet above adjacent grade at the highest part of the Pennant; and

(f) If along an undesignated street which is adjacent to residential use or zoning, every Pennant must be set back a minimum of fifty (50) feet from the property line.

17. Other Signs which the Zoning Administrator may determine fall within the intent and purpose of this Section.

(Ord. No. 45-975 § 2; Ord. No. 50-439, § 24, 4-25-17; Ord. No. 52-192, § 2, 6-13-23)

Sec. 24.04.191. Signs permitted in the MF-18, MF-29 and "B" Residential Zoning Districts.

Ground or Pole Signs for multifamily dwellings and other major offices and Institutions. Such signs shall not exceed twenty-five (25) square feet in area except along designated collector, arterial or expressway streets where the maximum sign area shall be forty-eight (48) square feet. Said signs shall be no more than twenty (20) feet in height, and shall be limited to indirect or internal illumination of white light only.

(Ord. No. 50-439, § 25, 4-25-17)

Editor's note—Ord. No. 50-439, § 25, adopted April 25, 2017, repealed the former § 24.04.191 and enacted a new § 24.04.191 as set out herein. The former § 24.04.191 pertained to signs permitted in the "RB," "R-5," "R-6" and "B" residential zoning districts and derived from Ord. No. 40-963 (part).

Sec. 24.04.192. Signs permitted in the "U" University District.

1. Ground or Pole Signs, provided no individual sign shall exceed thirty-two (32) square feet of Sign Surface area or exceed a height of twenty-five (25) feet. Only one Ground or Pole Sign shall be permitted for any office or business; provided, however, when more than one business is located on a Zoning Lot additional signs may be permitted when a distance separation of one hundred fifty (150) feet along the Street Frontage is maintained. When the distance separation of one hundred fifty (150) feet does not permit each individual business a sign, the business shall share the use of the permitted number of signs. Under no circumstance shall the total Sign Surface area of all Ground or Pole Signs on a Zoning Lot exceed one-half (1/2) square foot per lineal foot of Street Frontage; provided, however, a Zoning Lot with sixty-four (64) feet or less Street Frontage shall be permitted a sign of thirty-two (32) square feet of Sign Surface area. No Ground or Pole Sign shall be located closer than fifteen (15) feet to an adjacent property. Any sign permitted by this Section shall be limited to indirect or internal illumination of white light only and without flashing or moving images.

2. Notwithstanding the provisions of Section 24.04.190 of this Code, Portable Signs shall not be permitted.

3. Building Signs not exceeding thirty-two (32) square feet in area or thirty (30) feet in height, and be limited to one for each major use in the building. Such signs shall be limited to indirect or internal illumination of white light only and without flashing or moving images.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 26, 4-25-17)

Sec. 24.04.193. Signs permitted in the "NO" Neighborhood Office, "NR" Neighborhood Retail, and "GO" General Office districts.

1. Ground or Pole Signs, provided no sign shall exceed thirty-two (32) square feet of Sign Surface area on a single-tenant Zoning Lot. Multi-tenant lots sharing the same Sign Structure may have up to twenty-four (24) square feet each not to exceed a total of ninety-six (96) square feet on the Zoning Lot. Sign height shall not exceed twenty-two (22) feet. Only one Ground or Pole Sign shall be permitted for any office or business; provided, however, when more than one business is located on a Zoning Lot, additional signs may be permitted when a distance separa-

tion of one hundred fifty (150) feet along the Street Frontage is maintained. When the distance separation of one hundred fifty (150) feet does not permit each individual business a sign, the businesses shall share the use of the permitted number of signs. Under no circumstance shall the total Sign Surface area of all Ground or Pole Signs on a Zoning Lot exceed one-half (1/2) square foot per linear foot of Street Frontage; provided however, a Zoning Lot with sixty-four (64) feet or less frontage shall be permitted a sign of thirty-two (32) square feet of Sign Surface area. No Ground or Pole Sign shall be located closer than fifteen (15) feet to an adjacent property. Any sign permitted by this Section shall be limited to indirect or internal illumination of white light only and without flashing or moving images.

2. Portable Signs shall not be allowed except for an Institution as specifically set out in Section 24.04.190.

3. Building Signs provided that the building elevation to which any sign is to be attached shall have one of the following:

a) Street Frontage;

b) Be adjacent to a nonresidential Zoning District; or

c) If adjacent to a residential Zoning District, there must be a parking, loading or open space area with a depth of one hundred fifty (150) feet or more as measured from the Sign Surface to the property line which adjoins the residential Zoning District line or use.

The sum of all Sign Surfaces for each business shall be limited in total area to ten (10) percent of each tenant space elevation with no sign exceeding two hundred (200) square feet in area, and there shall be no more than one (1) sign for each tenant or business on each building elevation.

Such signs shall be limited to direct or internal illumination of white light only and without flashing or moving images.
(Ord. No. 43-013 § 1; Ord. No. 50-439, § 27, 4-25-17)

Sec. 24.04.194. Signs permitted in the "G" Manufactured Home District.

Signs for a manufactured home park. Such sign shall not exceed twenty (20) feet in height or exceed sixty-four (64) square feet in area, and shall be limited to indirect or internal illumination of white light only.
(Ord. No. 40-963 (part); Ord. No. 50-439, § 28, 4-25-17)

Sec. 24.04.195. Signs permitted in the "LC" Limited Commercial District.

1. Illuminated On-Site Ground or Pole Signs as permitted by Section 24.04.221;

2. Illuminated Building Signs, provided that any building elevation on which such sign is placed shall be required to have or comply with any one of the following:

a) Street Frontage;

b) Be adjacent to an "NO" Neighborhood Office, "GO" General Office, "NR" Neighborhood Retail, "LC" Limited Commercial, "GC" General Commercial, "CBD" Central Business District, "OW" Office Warehouse, "IP" Industrial Park, "LI" Limited Industrial or "GI" General Industrial Zoning District; or

c) If adjacent to a residential use or Zoning District, there must be a parking, loading or open space area with a depth of one hundred fifty (150) feet or more as measured from the Sign Surface to the property line which adjoins the residential Zoning District or use.

The sum of all Sign Surfaces for each business shall be limited in total area to twenty (20) percent of each tenant space elevation with no sign exceeding four hundred (400) square feet in area, and there shall be no more than three (3) signs for each tenant or business on each building elevation.

If adjacent to a residential use or Zoning District, building elevations not having Street Frontage, but facing onto parking or loading

areas exceeding fifty (50) feet but less than one hundred fifty (150) feet in depth, may provide Identification Signs for each place of business having an entrance therefrom, providing such

signs shall not exceed fifteen (15) square feet in area nor be more than twelve (12) feet above grade at their highest point.

3. Illuminated Off-Site Signs as permitted by Section 24.04.222.

4. Portable Signs; provided, however, only one sign shall be permitted for an individual business. Any such sign shall be located in accordance with all other applicable regulations including, but not limited to, the area and spacing limitations for Pole and Ground Signs, the location of the sign in relation to the street Right of Way line and the distance from driveway approaches. Such signs may be illuminated; however, strobe lights or flashing bulbs and flashing or moving images shall not be permitted. Any sign permitted by this Section shall not exceed sixty (60) square feet in Sign Surface area or exceed a height of ten (10) feet above grade.

5. Balloon Signs as permitted by Section 24.04.235.
(Ord. No. 45-975 § 3; Ord. No. 50-439, § 29, 4-25-17)

Sec. 24.04.196. Signs permitted in the "GC" General Commercial and "LI" Limited Industrial districts.

1. Illuminated On-Site Ground or Pole Signs as permitted by Section 24.04.221;

2. Illuminated Off-Site Signs as permitted by Section 24.04.222;

3. Illuminated Building Signs, provided that these signs shall be limited in total area to twenty (20) percent of each building elevation, and no individual sign shall exceed four hundred (400) square feet;

4. Roof Signs, except for Balloon Signs, shall not be permitted except by a variance approved by the Board of Zoning Appeals;

5. Portable Signs; provided, however, only one sign shall be permitted for an individual business. Any such sign shall be located in accordance with all other applicable regulations; including but not limited to, the area and spacing limitations for Pole and Ground Signs, the location of the sign in relation to the street Right of Way line and the distance from driveway approaches. Such signs may be illuminated; however, strobe lights or flashing bulbs and flashing or moving images shall not be permitted. Any sign permitted by this Section shall not exceed sixty (60) square feet in Sign Surface area; and

6. Balloon Signs as permitted by Section 24.04.235.
(Ord. No. 43-717 § 7; Ord. No. 50-439, § 30, 4-25-17)

Sec. 24.04.197. Signs permitted in the "CBD" Central Business District.

1. Illuminated On-Site Ground or Pole Signs as permitted by Section 24.04.221;

2. Illuminated Building Signs, provided that these signs shall be limited in total area to twenty (20) percent of each building elevation, and no individual sign shall exceed four hundred (400) square feet in area;

3. Roof Signs, except for Balloon Signs, shall not be permitted except by a variance approved by the Board of Zoning Appeals; and

4. Balloon Signs as permitted by Section 24.04.235.
(Ord. No. 43-717 § 8; Ord. No. 50-439, § 31, 4-25-17)

Sec. 24.04.198. Signs permitted in the "GI" General Industrial District.

1. Illuminated On-Site Ground or Pole Signs as permitted by Section 24.04.221;

2. Illuminated Off-Site Signs as permitted by Section 24.04.222;

3. Illuminated Building Signs; provided that these signs shall be limited in total area to twenty (20) percent of each building elevation, and no individual sign shall exceed four hundred (400) square feet in area;

4. Roof Signs, except for Balloon Signs, shall not be permitted except by a variance approved by the Board of Zoning Appeals;

5. Portable Signs; provided, however, only one sign shall be permitted for an individual business. Any such sign shall be located in accordance with all other applicable regulations including, but not limited to, the area and spacing limitations for Pole and Ground Signs, the location of the sign in relation to the street Right of Way line and the distance from driveway approaches. Such signs may be illuminated; however, strobe lights or flashing bulbs and flashing or moving images shall not be permitted. Any sign permitted by this Section shall not exceed sixty (60) square feet in Sign Surface area; and

6. Balloon Signs as permitted by Section 24.04.235.
(Ord. No. 43-717 § 9; Ord. No. 50-439, § 32, 4-25-17)

Sec. 24.04.199. Signs permitted in the "OW" Office/Warehouse and the "IP" Industrial Park Districts.

1. On-Site Ground or Pole Signs shall be allowed under the following provisions:

a. **Number Permitted.** The number of Ground or Pole Signs permitted on a Zoning Lot shall be determined by the linear feet of Street Frontage of the Zoning Lot. Where a Zoning Lot has Street Frontage on more than one street, the provisions of this Section shall apply to each Street Frontage; provided, however, signs permitted by a Street Frontage must be adjacent to, and face the direction of travel along said street.

Exception: On Zoning Lots adjoining designated collector or arterial streets or expressways to which the Zoning Lot has no direct, legal vehicular access, one Ground or Pole Sign not exceeding sixty-four (64) square feet in area and twenty (20) feet maximum height above grade shall be permitted along such collector or arterial street or expressway; provided that any such Ground or Pole Sign shall only be permitted in lieu of Building Signs otherwise allowed on the building elevation facing the same street.

One Ground or Pole Sign shall be permitted for any Street Frontage; provided, however, additional Ground or Pole Signs may be permitted when a distance separation of one hundred fifty (150) feet along the Street Frontage is maintained between Ground or Pole Signs. When the distance separation of one hundred fifty (150) feet does not permit each individual business a sign, the businesses shall share the use of the permitted number of signs.

Under no circumstance shall the total gross surface area of all Ground or Pole Signs on a Zoning Lot Street Frontage exceed the table of areas maximum square feet of all signs per linear foot of Street Frontage set forth in subsection (1)(b) of this Section.

b. **Size Permitted.** The size of an On-Site Ground or Pole Sign shall not exceed the maximums set forth in the Table of Areas below; provided, however, the total sign area of all on-site Ground or Pole Signs on the Zoning Lot shall not exceed the total permitted area in square feet of all signs per linear foot of Street Frontage adjacent to Street Frontage providing legal, direct vehicular access onto the Zoning Lot.

TABLE OF AREAS

Maximum Permitted Areas for On-Site Ground or Pole Signs in "OW" and "IP" Districts

*Type of Street**	*Maximum Area of Individual Sign in Square Feet*	*Total Permitted Area in Square Feet of All Signs per Linear Foot of Street Frontage*
Undesignated	50	0.5
Collector	100	0.5
Arterial	150	0.80
Expressway	150	0.80

*As designated on Figure 11 of the 2020 Transportation Plan, an element of the comprehensive plan.

Exception: A Zoning Lot with sixty-four (64) feet or less of linear frontage shall be

permitted a Ground or Pole Sign of up to thirty-two (32) square feet of Sign Surface area.

c. **Height Limit.** No Ground or Pole Sign shall exceed a height of twenty (20) feet except when the number of permitted Ground or Pole Signs along a Street Frontage of the Zoning Lot which is adjacent to an arterial street or expressway, as set forth in subsection (1)(a) in this Section, is not utilized. If one or more allowed Ground or Pole Signs along an arterial street or expressway are not utilized, one Ground or Pole Sign along the same arterial or expressway may be increased by five (5) feet in height, or to a maximum of twenty-five (25) feet, provided that the number of businesses on the Zoning Lot exceeds the number of Ground or Pole Signs otherwise allowed in this Section.

d. **Location on Property.** On-site Ground or Pole Signs shall not project over public Right of Way, and shall be located not closer to an adjacent property line than one-third the frontage of the Zoning Lot or fifteen (15) feet, whichever is less. The centerline of an alley shall be considered an adjacent property line. When more than one Ground or Pole Sign is permitted on a Zoning Lot, there shall be maintained a minimum horizontal distance between signs of one hundred fifty (150) feet, along the same Street Frontage.

Exception: A sign located within fifty (50) feet of the intersection of two (2) streets on a corner lot may be placed so that it may face both directions of travel, such as a sign being erected on an angle. When this occurs, it shall be considered a sign adjacent to each street, and one-half of the sign area shall be charged against the total permitted sign area of each Street Frontage.

Exception: The Zoning Administrator may vary these minimum horizontal distances up to thirty (30) percent when circumstances related to the physical features of the Zoning Lot prevent the installation of the sign at the minimum horizontal distances. The reduction of these minimums shall in no way change the number of signs permitted on a Zoning Lot.

2. Portable Signs shall only be allowed for Institutions as specifically set out in Section 24.04.190.

3. Building Signs not exceeding one hundred fifty (150) square feet in area and thirty (30) feet in height above grade, and limited to one per building elevation for each major use in the building; provided that the total amount of building signage per building elevation shall be limited in total area to ten (10) percent of the building elevation, or a total of three hundred (300) square feet, whichever is less. The building elevation to which any sign is to be attached shall have one of the following:

a) Street Frontage;

b) Be adjacent to a nonresidential Zoning District; or

c) If adjacent to a residential Zoning District, there must be a parking, loading or open space area with a depth of one hundred fifty (150) feet or more as measured from the Sign to the property line which adjoins the residential Zoning District.

4. Any sign permitted by this Section shall be limited to direct or internal illumination of white light only. Signs shall not rotate or have flashing or moving images.

5. For industrial parks within "IP" Industrial Park Districts, Directory Signs and Temporary Signs as allowed by Section 24.04.190(6) shall be allowed with the following limitations:

a. Exclusively for the businesses located within the industrial park in which the sign is located;

b. Direct or internal illumination of white light only or reflective or luminous materials. Signs shall not rotate or have flashing or moving images;

c. Not more than one Directory Sign shall be maintained in any one industrial park less than forty (40) acres in size. For each additional forty (40) acres or fraction thereof, one additional Directory Sign may be erected.

d. Maximum area shall be as shown in Subsection (1)(b) of this Section under the table of areas "Maximum Area of Individual Sign in Square Feet," regardless of amount of linear Street Frontage.

e. Maximum height of Directory Signs shall be twenty (20) feet.

f. Directory Signs must be separated by a minimum distance of three hundred thirty (330) feet from any other Temporary or Directory Sign for the industrial park, and by a minimum distance of one hundred fifty (150) feet from any other on-site Pole or Ground Sign within the industrial park.

6. For purposes of this Section, "Street Frontage" shall be the linear feet of Street Frontage directly adjacent to an adjoining street or street Right of Way from which there is direct, legal vehicular access to the zoning lot. In determining Street Frontage, one-half the width of an adjoining alley may be considered as frontage. (Ord. No. 43-013 § 2; Ord. No. 50-439, § 33, 4-25-17)

Sec. 24.04.200. Prohibited locations—General requirements.

(a) **Obstructing Windows, Doors, Etc.** No sign shall be placed or erected across or so as to obstruct in any way the use of any window, door, exit or entrance or, to or from any building, whether occupied or not, but this provision shall not prohibit placing a sign across a transom. No sign of any kind shall be attached to or placed upon a building in such a manner as to obstruct any fire escape, nor shall any sign be attached to any fire escape.

(b) **Interfering with Public Safety and Convenience.** No sign shall be erected, constructed, reconstructed, remodeled, relocated, altered, hung, affixed or created by painting, or maintained in any way that will interfere with public safety and convenience or with the proper and convenient operation of the Fire Department for protection of property.

(c) **Across Streets or Alleys.** No sign shall be suspended or constructed across any street or alley, except as provided in this Title.

(d) **Use of Public Property.** No sign, except as provided in Subsection (f) of Section 24.04.230, shall be supported in any way by public property. No sign shall project over public Right of Way except Projecting Signs permitted on buildings located within eight (8) feet of a Right of Way line. No part of any Projecting Sign extending over any public property shall be less than ten (10) feet from the surface immediately below, except signs not exceeding four (4) square feet in area and not projecting more than two (2) feet may be hung not less than eight (8) feet from the surface of the public property immediately below. No part of any sign permitted to extend over any alley or public roadway, however, shall be less than fifteen (15) feet from the surface immediately below. In no case shall the outer edge of a Projecting Sign extend closer to the vertical plane of a street curb than two (2) feet, unless the bottom of such sign is thirteen (13) feet, six (6) inches or more from the sidewalk immediately below. Any permit for a sign over public property issued under the provisions of this Title, or any previous ordinance, shall be revocable at the will of the City Council, upon notice and opportunity for hearing before the City Council.

(e) **Interfering with Traffic.** No sign of any kind shall be erected or maintained in such a manner as to interfere with, mislead or confuse traffic or to obstruct the line of sight of any traffic signal, or traffic device as may be determined by the Traffic Engineer.

(f) **Near Residences.** No Off-Site Sign shall be located within fifty (50) feet of a residential structure.

(g) **Close to Rivers, Parks.** No Off-Site Sign shall be located closer than six hundred sixty (660) feet to the established bank lines of the Big Arkansas or the Little Arkansas Rivers, to any

park or recreation area under the jurisdiction of any public body including the Board of Park Commissioners of the City.

Off-Site Signs may be erected within six hundred sixty (660) feet of the established bank lines of the Big Arkansas or the Little Arkansas Rivers or of any such park or recreation area when such Off-Site Signs are located in athletic field facilities owned or operated by a public body.

(h) **Near Highways.** No Off-Site Sign shall be located closer than six hundred sixty (660) feet to any portion of the existing or designated Right of Way of State Highway K-96 between Interstate 135 and the east City limits.

(i) **Near Driveway Approach.** No Ground Sign exceeding a height of three (3) feet, permanent or temporary, shall be located within a triangle, the sides of which are formed by the property line, the edge of the driveway as extended from the street, and a line from a point on the property line twenty-five (25) feet from the driveway to a point on the edge of the driveway six (6) feet behind the property line.

(j) **Posting on Utility Poles.** Except for Official Signs as defined by this Title and Temporary Signs erected by public utilities placed on such utility poles, no sign, notice, poster or other paper or device calculated to attract the attention of the public shall be posted on any lamppost, public utility pole, or traffic control device located in the public Right of Way.
(Ord. No. 45-322 § 1; Ord. No. 40-963 (part); Ord. No. 50-187 § 1, 4-26-16; Ord. No. 50-439, § 34, 4-25-17)

Sec. 24.04.210. Reserved.

Editor's note—Ord. No. 49-335 § 3, adopted August 28, 2012, repealed § 24.04.210 in its entirety. Formerly said section pertained to removal of signs placed upon public property and derived from Ord. No. 45-322 § 2; Ord. No. 40-963 (part).

Sec. 24.04.215. Signs in the Right-of-Way or on Public Property.

(a) An unauthorized Temporary Sign in the Right-of-Way or on public property which is not supported or held by a person or persons is hereby declared to be a nuisance.

(b) The following acts are prohibited:

(1) No person shall place or cause the placement of a Temporary Sign in the Right-of-Way or on Public Property, including but not limited to any street, sidewalk, park, tree or utility poles. The act of placement will be deemed to continue until such sign is removed.

(2) Any Temporary Sign placed or installed in the Right-of-Way will be deemed an unlawful sign and an abandoned sign and will be subject to immediate removal by the City of Wichita, or as authorized herein.

(3) The existence of a Temporary Sign in the Right-of-Way or on Public Property directing attention to a person is prima facie evidence that such person has caused the placement of such sign in the Right-of-Way or on Public Property.

(4) The existence of a Temporary Sign in the Right-of-Way or on Public Property directing attention to a business, product or service is prima facie evidence that the Owner or the agent for the Owner of that business, product or service caused the placement of such sign in the Right-of-Way or on Public Property.

(5) The existence of a Temporary Sign in the Right-of-Way or on Public Property directing attention to an event is prima facie evidence that the promoter of that event or the agent for the promoter caused the placement of such sign in the Right-of-Way or on Public Property.

(c) (1) The provisions of Subsection (a) shall not be applicable to signs which have an installed height not exceeding thirty inches from the ground and which are less than four (4) square feet placed in the public rights-of-way during an Election Period as defined by Section 24.04.045.

(2) Temporary Signs placed during an election period may not be displayed in center medians between roadways, attached to traffic control devices or attached to or

displayed on city bridges or overpasses or in any manner or location which, in the opinion of the City Engineer, creates a vehicle or pedestrian traffic safety concern due to impeded sight lines or sight distance or which obstructs a sidewalk or cross walk in violation of the Americans With Disabilities Act.

(3) Temporary Signs placed during an election period are prohibited in areas adjacent to or on any other public property.

(4) Temporary Signs placed during an election period which cause an obstruction to automobile or pedestrian traffic or to the use of such public property for its designated public purpose or which are contrary to the provisions of this subsection, constitute a nuisance and may be removed as set forth below.

(5) All Temporary Signs placed during an election period must be removed from the rights-of-way immediately following such Election Period.

(6) The owner(s) and tenant(s) of property where such signs are displayed in violation of this section shall be jointly and individually liable for such violation. The person, party, or parties responsible for the placement or distribution of a political sign shall be jointly and individually liable for the removal of such signs.

(c) Exception. Temporary Signs installed by any of the following and directly related to the use of the Right-of-Way or Public Property, including the control and direction of traffic shall be exempted from the provisions of subsections (a) and (b):

(1) City, county or state government entities;

(2) Any road construction work;

(3) Any public utility with a franchise or other agreement with the City of Wichita; or

(4) Any other government entity or person expressly authorized by local, state or federal law or contract to install a sign in the Right-of-Way.

(d) Enforcement.

(1) Penalties. Any violation of this Section may be prosecuted as a misdemeanor in municipal court. The penalty for the first violation of this Section shall be fifty (50) dollars. The penalty for the second or subsequent violation of this Section shall be a fine of not less than fifty (50) dollars but not more than one thousand (1,000) dollars for each sign.

(2) Other remedies and enforcement powers.

(a) The City, or its authorized representative as described herein, may remove any unauthorized sign in the Right-of-Way at any time.

(b) The City may notify the presumed Owner of the sign through the contact information on the sign (or through any other available information) that the Owner has seventy-two (72) hours (or three (3) business days) to remove the sign before a citation may be issued. This seventy-two (72) hour (or three (3) business days) enforcement delay will not be offered to any person or business that has previously been notified regarding the sign at issue or any other sign.

(c) Any Temporary Sign removed pursuant to which is six (6) square feet or larger and composed entirely of metal or wood shall be kept by the City or other department designated to remove such sign for a period of twenty (20) days, after which it may be disposed of in any manner deemed appropriate by the City. All other signs removed pursuant to these provisions may be disposed of in any manner deemed appropriate by the City.

(d) Any such metal or wooden sign removed pursuant to these provisions may be recovered by the Owner within twenty (20) days upon payment of a service charge of twenty-five (25) dollars per sign.

The City may seek such other remedies and use such other enforcement powers as allowed by law.

(3) Citizen enforcement.

(a) For any Temporary Sign posted in violation of this Section, any individual authorized by the Zoning Administrator, after appropriate training provided by the City of Wichita, may:

(i) Remove the sign; and

(ii) Either:

(A) Discard the sign in an appropriate manner; or

(B) Submit the sign to the Zoning Administrator for further enforcement proceedings.

(b) A submission to the Zoning Administrator for further enforcement proceedings must be accompanied by an affidavit, in the form required by the Zoning Administrator that describes the circumstances of the violation and removal of the sign.

(4) Right of adjacent property owner to remove signs. Any property owner or tenant may remove an unauthorized Temporary Sign which is placed in the Right-of-Way when such Right-of-Way immediately abuts or is adjacent to the owner or tenant's property in compliance with Sections 10.04.100 or 10.04.125 of the Code of the City of Wichita.

(Ord. No. 49-335 § 2, 8-28-12; Ord. No. 50-439, § 35, 4-25-17; Ord. No. 52-192, § 3, 6-13-23)

Sec. 24.04.220. General requirements.

The signs regulated by this Title shall be subject to all applicable ordinances, conditions and special requirements as may be specified herein.

(a) All signs shall comply with the provisions of the Wichita/Sedgwick County Unified Building and Trade Code relating to the design, structural members, connections and subject to all required permits therein.

(b) All signs shall comply with the limitations of height, area, type, and illumination requirements as set forth in this Title.

(c) No signs, except for Pennant Signs, shall be erected that will allow the sign to swing or rotate due to wind action. All signs shall be securely fastened so that movement in any direction is prevented.

(d) Every sign, except for Banners or Pennant Signs, shall be erected level and plumb and be constructed of galvanized metal or otherwise protected from corrosion.

(e) No Ground or Pole Sign of combustible material shall be erected closer to a property line or to a building than the distance required by the UBTC for type VN construction, except for Temporary Signs.

(f) Sign Structures shall be fabricated of noncombustible materials and supported by concrete foundations or anchored with metallic connections to the supporting structure. All electrically illuminated signs shall be constructed as set forth in the UBTC; however, signs may be constructed of heavy timber or faced with combustible materials upon approval of the Director.

(g) Wall signs shall not extend beyond the top or ends of the wall surface on which the sign is placed without the approval of the Zoning Administrator.

(h) No Projecting Sign shall be erected closer to an adjacent property than the distance the sign projects from its support. All Projecting Signs shall be constructed entirely of incombustible material.

(i) Signs erected on, attached to or made a part of a canopy or marquee projecting over public Right of Way shall be considered Projecting Signs.

(j) Roof Signs shall be constructed of incombustible material and shall be so located as not to interfere with the drainage of the roof, or to prevent access onto any portion of the roof. A permit for any Roof Sign shall be issued only after compliance by the applicant with the following provisions:

(1) The applicant shall give a bond in the sum of five thousand (5,000) dollars to save and hold the City free and harmless from all damages which may be occasioned by the erection and maintenance of such sign; the bond is to be signed by the sureties acceptable to the City and to be approved as to form by the City Attorney.

(2) In lieu of this bond of five thousand (5,000) dollars for each Roof Sign permitted under this Section, it shall be permissible to file with the City Clerk a blanket surety bond to cover all roof signs erected and maintained by a person within the City.

(3) Such bond shall be of such nature as to cover such Roof Sign erected and maintained, in the amount of five thousand (5,000) dollars. Such blanket surety bond shall be conditioned to save and hold the City free and harmless for any and all damages, claims or demands which may be occasioned by the erection and maintenance of such sign. Such bond shall be signed by sureties acceptable to the City and shall be approved as to form by the City Attorney.

(k) Each sign, except Temporary Signs for which permits have been issued for thirty (30) days or less, shall have the name of the sign Owner affixed to the sign in a manner approved by the Zoning Administrator.

(l) Sign Surface of an On-Site Sign. The Sign Surface area of a sign shall be the sum of all surface areas of all the Sign Surfaces, except that Ground or Pole Signs designed as double-faced signs, with both faces parallel and when the distance between the faces does not exceed three (3) feet, then only one face of the sign shall be considered in determining the sign area.

In determining the surface of a sign, each face of a sign may be broken down into two (2) areas. Each surface area shall include the total area within a single continuous perimeter enclosing the extreme limits of the sign elements. Such perimeters need not include any structural elements lying outside the limits of such sign when they do not form an integral part of the display, nor shall it include either: (i) architectural embellishments when such do not contain any advertising or printed copy, are not lighted and do not exceed ten (10) percent of the permitted sign area; or (ii) a sign Pole or pylon cover or aesthetic wrap when such does not contain any advertising or printed copy and is not internally lighted.

(m) **Limitations.** Limitations apply to the type, height, setback, number, and gross surface area of signs on each Zoning Lot.

(n) **Height of Sign.** Sign height shall be measured from grade at the base of the sign to the highest portion of the Sign Structure.

(o) **Illuminated Signs.** Signs shall be shaded wherever necessary to avoid casting bright light upon property located in any Residential Zoning District or upon any public street. Any Illuminated Sign located on a lot adjacent to or across the street from any Residential Zoning District, which sign is visible and within two hundred (200) feet of any Residential Zoning District, shall not be illuminated between the hours of eleven (11) p.m. and seven (7) a.m. Signs may not be illuminated unless so designated to permit same.

(p) **Electronic Message Signs.** No Electronic Message Sign shall be erected or installed without dimming controls to ensure the sign is appropriately dimmed at night. Acceptable dimming controls include automated light sensing devices (photocells) and/or programmable controls that are set by the user to automatically dim the sign at night. Generally, the maximum nighttime brightness and/or light intensity shall not exceed 3,000 Nits (or equivalent). For Electronic Message Signs that have a maximum brightness and/or light intensity of 3,000 Nits or less (or equivalent), dimming controls shall not be required.

(q) **Flashing or Moving Signs.** No Flashing Signs, Rotating or Moving Signs, animated signs, signs with moving lights, or signs which create the illusion of movement shall be permitted in a Residential Zoning District, or in the "NO" Neighborhood Office District, "GO" General Office District, "NR" Neighborhood Retail District, "OW" Office/Warehouse District, or the "IP" Industrial Park District.

(r) **Facing Direction of Travel.** A sign shall be considered facing the direction of travel when it is visible from any lane of traffic proceeding along a street and the face of such sign is a plane within thirty (30) degrees of a line perpendicular to the centerline of the street. A sign shall be considered facing both directions of travel along a street if the angle exceeds the thirty (30) degrees as described above. Exception: A sign located within two hundred fifty (250) feet of an intersection of arterials or expressways, or combination thereof, shall be considered facing the line of traffic it is more directed

toward providing the face of the sign is in a plane within thirty (30) degrees of a line perpendicular to the centerline of that street.

(s) **Distance between Off-Site Signs.** Distance between Off-Site Signs facing a direction of travel shall be measured at the centerline of a street at the points where lines are projected perpendicular to the center line of the street to the center of the signs.

(t) No portion of a sign that is located within the triangle formed by the imaginary intersection of curb lines at the intersection of two streets, and extending for a distance of fifty (50) feet each way from that imaginary intersection of a curb line of any corner lot, shall be permitted to extend closer than ten (10) feet to grade of adjacent roadway surface.

(u) Any sign authorized in this Title is allowed to contain noncommercial copy in lieu of any other copy.

(v) Alternative or additional requirements concerning the type, size, height, and location of signs may be established on specific sites by the requirements of a Planned Unit Development (PUD) or any Zoning Overlay District in accordance with procedures set forth therein.

(Ord. No. 45-975 § 4; Ord. No. 47-542 § 4, 8-14-07; Ord. No. 50-439, § 36, 4-25-17)

Sec. 24.04.221. Specific regulations—On-Site Ground or Pole Signs as referred to in subsections 24.04.195, 24.04.196, 24.04.197, and 24.04.198.

1. **Number Permitted.** The number of Ground or Pole Signs permitted on a Zoning Lot shall be determined by the linear feet of Street Frontage of the Zoning Lot. Where a Zoning Lot has frontage on more than one public Right of Way or street, the provisions of this Section shall apply to each frontage; provided, however, signs permitted by a Street Frontage must be adjacent to, and face the direction of travel along said street. (Exception: signs located within fifty (50) feet of the intersection of two streets on a corner lot may be placed so that it may face both directions of travel, such as a Rotating Sign or be erected on an angle. When this occurs, it shall be considered a sign adjacent to each street, and one-half of the sign area shall be charged against the total permitted sign area of each Street Frontage). Every Zoning Lot shall be permitted one Ground or Pole Sign. Whenever more than one On-Site Ground or Pole Sign is permitted, it shall be determined by the required minimum horizontal distance from any adjacent property line and the minimum horizontal distance between On-Site Ground or Pole Signs on the Zoning Lot as set forth in subsection (6) of this Section. This will permit two (2) signs on an interior Zoning Lot of one hundred eighty (180) feet or more, and two (2) signs on a corner lot of one hundred sixty-five (165) feet or more. For each additional one hundred fifty (150) feet of frontage above these minimums, one additional sign may be erected. In determining lot frontage, one-half the width of an adjoining alley may be considered as Street Frontage.

EXCEPTION: Whenever a Zoning Lot of less than three hundred thirty (330) feet of Street Frontage, contains a greater number of separate leasehold tenants than the number of permitted On-Site Ground or Pole Signs as set forth above, the following provisions may apply:

a. No individual business shall be permitted more than one On-Site Ground or Pole Sign, nor in any event, shall the distance between signs be less than seventy-five (75) feet.

b. No individual business shall install a sign with a Sign Surface area greater than that permitted by the "Table of Areas" set forth in Subsection (4) of this Section based on that frontage of the building occupied by the leasehold tenant. Whenever the building is more than one story, the frontage shall be divided by the number of floors involved.

c. Whenever the number of permitted On-Site Ground or Pole Signs based on the seventy-five (75) foot separation require-

ment does not allow one sign per business, it shall be necessary for tenants to share space on the same pole or base.

d. Any sign permitted by this exception shall not exceed a height of thirty (30) feet.

2. **Size Permitted.** The size of an On-Site Sign shall not exceed the maximum permitted square feet of sign area as set forth in the Table of Areas of Subsection (4) of this Section; provided, however, the total sign area of all On-Site Ground or Pole Signs on the Zoning Lot shall not exceed the total square feet of area along a Street Frontage as permitted by Subsection (4) of this Section.

3. **Height Limit.** No Ground or Pole Sign shall exceed a height of twenty-five (25) feet except when the number of permitted signs along a Street Frontage of the Zoning Lot, as set forth in paragraph one, is not fully utilized. For each sign that is not utilized along a Street Frontage, one sign may be increased five (5) feet in height. The use of this method shall not permit any sign to exceed a height of thirty-five (35) feet. Unused signs otherwise permitted along an undesignated street shall not be used to increase the height of a sign on another Street Frontage on the same Zoning Lot.

4. **Maximum Area.** The maximum permitted area of an individual Ground or Pole Sign shall not exceed the square feet shown in the following table; provided, however, under no circumstance shall the total sign area of all Ground or Pole Signs on a Zoning Lot exceed the area per lineal foot of Street Frontage adjacent to said street Right of Way.

(**EXCEPTION:** When only one sign is permitted by the frontage of a Zoning Lot, it shall be permitted an area of one hundred (100) square feet when adjacent to an arterial or expressway; fifty (50) square feet when adjacent to a collector street; or twenty-five (25) square feet when adjacent to an undesignated street.)

TABLE OF AREAS
MAXIMUM PERMITTED AREAS FOR
ON-SITE GROUND OR POLE SIGNS

*Type of Street**	*Maximum Area of Individual Sign in Square Feet*	*Total Permitted Area in Square Feet of All Signs Per Lineal Foot of Street Frontage*
Undesignated**	50	0.5
Collector***	150	0.5
Arterial	300	0.80****
Expressway	300	0.80****

* As designated on the official zoning map.

** When an undesignated street is located in an area such that both sides of the street, between intersecting streets, are zoned entirely as a Commercial or Industrial District, the limitations of a collector street shall then apply. Undesignated Street Frontage shall not be used to increase the size of signs permitted in other streets bordering the same Zoning Lot.

*** When a collector street is located in an area such that both sides of the street, between intersecting streets, are zoned entirely as a Commercial or Industrial District, the limitations of an arterial street shall then apply.

**** 1.0 square feet per lineal foot for multi-tenant lots with less than 330 feet of frontage.

5. **Rotating Signs.** Rotating Ground or Pole Signs are permitted only in Commercial or Industrial Zoning Districts.

6. **Location on Property.** On-Site Ground or Pole Signs shall not project over the public Right of Way, and shall be located not closer to an adjacent property line than one-third the frontage of the Zoning Lot or fifteen (15) feet, whichever is less. The centerline of an alley shall be considered an adjacent property line. When more than one Ground or Pole Sign is permitted on a Zoning Lot, there shall be maintained a minimum horizontal distance of one hundred fifty (150) feet, along the same Street Frontage from another Ground or Pole Sign on the same Zoning Lot. Except as provided in Subsection (1), this shall apply to all on-site Ground or Pole Signs within thirty-five (35) feet of the street Right of Way line.

(**EXCEPTION:** The Zoning Administrator may vary these minimum horizontal distances up to thirty (30) percent when circumstances related to the physical features of the Zoning Lot prevent the installation of the sign at the minimum horizontal distances. The reduction of these minimums shall in no way change the number of signs permitted on a Zoning Lot.)

(Ord. No. 40-963 (part); Ord. No. 50-439, § 37, 4-25-17)

Sec. 24.04.222. Specific regulations—Off-site signs when permitted in the "LC" limited commercial, "GC" general commercial, "LI" limited industrial or "GI" general industrial districts.

1. **Special Review Approval Required.** New Off-Site Billboard Signs or replacement Off-Site Billboard Signs that increase the height or size of an existing Off-Site Sign that are closer to residentially zoned and buildable lots or to residential structures or uses than allowed by subsection (4)(d) of this Section, must obtain a special review approval as outlined in Section 24.04.225.

2. **Number Permitted.** The number of Off-Site Signs facing a direction of travel within any designated mile shall be determined by the linear measurement in feet, along the centerline of the street Right of Way, that is within or adjacent to any "LC" Limited Commercial, "GC" General Commercial, "LI" Limited Industrial or "GI" General Industrial Zoning District; provided, however, such signs shall only be permitted in the Zoning Districts as set forth in Sections 24.04.195, 24.04.196 and 24.04.198. Except in the "GC," "LI" or "GI" Zoning Districts, no Zoning District shall be considered for linear measurement unless it is adjacent to an arterial street or expressway. No Zoning District or zoning shall be considered for linear measurement if it is included within an approved Community Unit Plan, Planned Unit Development, P-O Protective Overlay or Protective Overlay District, except when such Community Unit Plan, Planned Unit Development, P-O Protective Overlay or Protective Overlay District specifically allows Off-Site Billboard Signs. For the purposes of measurement, zoning shall be considered to extend to the centerline of all streets. A designated mile shall be the length of the centerline of a street between mile section lines, even though the linear measurement may exceed five thousand two hundred eighty (5,280) feet. Any mile not completely within the City limits shall be treated on a percentage basis. The number of signs allowed shall be in direct proportion to the percentage of the designated mile that lies within the City limits boundary. There shall be permitted not more than one Off-Site Sign facing a direction of travel for each five hundred (500) linear feet of street having "GC," "LI" or "GI" zoning adjacent thereto; provided, however, under no circumstances shall there be erected more than five (5) Off-Site Signs facing a direction of travel in a designated mile in the "GC" and "LI" Zoning Districts and eight (8) per mile in the "GI" Zoning District.

Off-Site Signs may be permitted in the "LC" Limited Commercial Zoning District but only when a designated mile has at least fifteen hundred (1,500) linear feet of "LC," "GC," "LI" or "GI" zoning adjacent thereto. When there is at

least three thousand (3,000) linear feet of appropriate zoning adjacent to a designated mile, a second Off-Site Sign may be permitted.

Whenever an Off-Site Billboard Sign is located on an "LC" Zoning Lot that abuts or fronts a designated arterial street, such Off-Site Billboard Sign must meet the criteria for an Off-Site Junior Billboard Sign Extensions beyond the three hundred (300) square foot Sign Surface area maximum for Sign Surfaces of an Off-Site Junior Billboard in an "LC" Zoning District are not allowed. When Off-Site Billboard Signs are located on "LC" Zoning Lots that abut or front a designated arterial street, no more than two (2) Off-Site Billboard Signs may be permitted within a designated mile in "LC" Zoning Districts.

3. **Maximum Size and Height Permitted.** In "LC" Limited Commercial, "GC" General Commercial, "LI" Limited Industrial or "GI" General Industrial Zoning Districts or lots, the Sign Surface area of an Off-Site Billboard Sign Surface facing the direction of travel shall not exceed eight hundred twenty-five (825) square feet, including any extensions. Extensions may not extend more than five and one-half (5 1/2) feet above the normal upper rectangular lineage of the Sign Surface, nor more than two (2) feet beyond any of the other three (3) sides. Maximum rectangular dimensions of any Off-Site Billboard Sign Surface, excluding extensions, shall be fourteen (14) feet in height by forty-eight (48) feet in length. No Off-Site Billboard Sign, Sign Structure or Sign Cabinet shall exceed thirty (30) feet in height at the top of the maximum rectangular dimension, which does not include the permitted extensions.

In "LC" Limited Commercial Zoning Districts or lots, the Sign Surface area of any Off-Site Sign Surface facing the direction of travel along a designated arterial street shall not exceed three hundred (300) square feet, and shall meet the criteria for an Off-Site Junior Billboard Sign. No extensions beyond the maximum three hundred (300) square foot Sign Surface area are allowed for Off-Site Junior Billboard Signs located in or upon "LC" Zoning Districts or lots. In the "LC" Zoning District, no Off-Site Sign shall exceed thirty (30) feet in height at the top of the Sign, Sign Structure or Sign Cabinet.

EXCEPTIONS: Off-Site Billboard Signs, Sign Structures or Sign Cabinets located adjacent to an elevated portion of a highway structure may be erected to a maximum height of fourteen (14) feet above the top of the railing or barrier along the traffic deck. Off-Site Signs that cantilever over the roof or roof parapet of a one-story building shall maintain eight (8) feet of vertical clearance between the bottom of the sign and the roof or parapet and shall not exceed twenty-six (26) feet in height above the roof or parapet. For purposes of enforcement, no Off-Site Sign permit for additional height above a roof or roof parapet shall be issued until the building over which the Off-Site Sign is to be cantilevered has been created.

4. **Prohibited Locations.** No Off-Site Billboard Sign shall be erected on a property when any of the following conditions exist:

a. No Off-Site Billboard Sign shall be erected on a Zoning Lot of less than one hundred fifty (150) feet of frontage, that has more than two (2) On-Site Ground or Pole Signs totaling more than two hundred fifty (250) square feet Sign Surface area facing a direction of travel that are located within thirty-five (35) feet of the street Right of Way line;

b. No Off-Site Billboard Sign shall be erected that would obscure the view of any On-Site Sign. This shall be determined by establishing a sight point at the centerline of the street one hundred fifty (150) feet in either direction, then no On-Site Sign within one hundred fifty (150) feet of the Off-Site Sign shall be obscured from view;

c. No Off-Site Billboard Sign shall be erected within three hundred thirty (330) feet of another Off-Site Sign facing the same direction of travel along the same street;

d. Except as permitted by Section 24.04.225, no Off-Site Billboard Sign shall be erected

closer than three hundred (300) feet from a platted and residentially zoned lot on which a primary residential structure can be legally erected or to a residential structure or use. This distance shall be measured from the nearest lot line of such platted and residentially zoned lot or residential structure or use to the closest part of the Off-Site Billboard Sign. This minimum distance may be reduced to one hundred fifty (150) feet when any platted and residentially zoned lot or residential structure or use is fully screened from view of the proposed Off-Site Billboard Sign by a nonresidential building. Such view shall be from the closest minimum building setback line (as established for residentially zoned lots in the Wichita-Sedgwick County Unified Zoning Code) of the residentially zoned lot or residential structure or use;

e. No Off-Site Billboard Sign shall be located on any property in the "LC" Limited Commercial Zoning District that is not a part of at least three hundred (300) linear feet of continuous Commercial or Industrial Zoning; and

f. No Off-Site Billboard Sign shall be located closer than six hundred sixty (660) feet to the established bank lines of the Big Arkansas or the Little Arkansas Rivers, or to any park or recreation area under the jurisdiction of any public body including the Board of Park Commissioners of the City.

Off-Site Billboard Signs may be erected within six hundred sixty (660) feet of the established bank lines of the Big Arkansas or Little Arkansas Rivers or any such park or recreation area when such Off-Site Signs are located in athletic field facilities owned or operated by a public body.

5. **Setback.** Off-Site Signs shall comply with all building setback lines.

6. **Type.** Off-Site Signs may be Ground or Pole or Wall Signs, but shall not be erected upon or over the roof of any one story building, except as provided in subsection (3) of this Section. Each Off-Site Sign may contain only one panel per facing with a message or advertisement; however, this panel or a portion thereof may be a Variable Message Sign. No Off-Site Pole Signs may be supported by more than one pole.
(Ord. No. 46-396 § 2; Ord. No. 50-439, § 38, 4-25-17)

Sec. 24.04.223. Reserved.

Editor's note—Ord. No. 50-439, § 39, adopted April 25, 2017, repealed § 24.04.223, which pertained to specific historic preservation requirements and derived from Ord. No. 47-542 § 5, adopted Aug. 14, 2007.

Sec. 24.04.225. Special review approval for Off-Site Billboard Sign permits.

This section sets out the required special review procedures for new or enlarged Off-Site Billboard Signs.

1. **Authority.**

   (a) An application for a permit for installation of a new or enlarged (size or height) Off-Site Billboard Sign located closer to a residentially zoned lot or use than allowed by Subsection (4)(d) of Section 24.04.222 shall require a public hearing and approval by the MAPC or, if forwarded to the Wichita City Council for final action, shall require approval by the Wichita City Council.

   (b) The Metropolitan Area Planning Commission (MAPC) is designated and granted authority to hear and make recommendations on Off-Site Billboard Signs under this section. In exercising such authority and functions, the MAPC shall operate under this Title, and not under the Unified Zoning Code or any zoning statutes. The MAPC shall use its by-laws and other procedures and rules now existing or hereafter amended in such matters.

2. **Initiation.** An application for a new or enlarged Off-Site Billboard Sign shall be filed upon request of both the Owner(s)

of the subject property on which the Off-Site Sign is to be located and the Owner of the proposed sign.

3. **Application.** A complete application for a new or enlarged Off-Site Billboard Sign shall be submitted to the Planning Director in a form established by the Planning Director, along with a nonrefundable fee that has been established by the Wichita City Council to defray the cost of processing the application. No application shall be processed until the application is complete and the required fee has been paid. Each application for a new or enlarged Off-Site Billboard Sign shall be accompanied by a site plan that, at a minimum, includes the following information:

   a. A detailed graphic presentation of the subject property site, including property parcel dimensions;

   b. The location of any other buildings or structures on the site;

   c. The location, size and type of any other Ground Signs on the site;

   d. The distance of the proposed sign from any buildings, structures or other signs on the site;

   e. A detailed representation of the proposed sign, including Sign Structure and Sign Surface dimensions, total height of the sign and any related appurtenances such as catwalks.

4. **Establishment of Hearing Date—Publication of Notice.**

   a. Promptly upon determining that an application is complete, the Planning Director shall schedule a public hearing before the MAPC and shall notify the applicant of the meeting and hearing date. The initial public hearing before the MAPC shall be scheduled for the next meeting date for which it is practicable to give at least twenty (20) days' notice.

   b. Notice required pursuant to this Section shall be published in the City's official newspaper and shall indicate the time and place of the public hearing and a general description of the application. The subject property shall be designated by legal description or a general description sufficient to identify the property under consideration.

   c. Notice required pursuant to this Section shall be mailed to all owners of record of real property within the area covered by the application and to all owners of record of real property within at least two hundred (200) feet of the property lines of the parcel or lot on which the proposed Billboard Sign is to be located. The written notice required in this Section shall be placed in the mail with the postmark to be not less than twenty (20) days prior to the date of the public hearing.

5. **Report of Planning Director.** The Planning Director shall prepare a staff report that reviews the proposed application for a new or enlarged Off-Site Billboard Sign in light of the general requirements of this Title and that addresses the following additional elements as they may be appropriate for the review of the application:

   a. The zoning, uses and character of the neighborhood;

   b. The suitability of the subject property for the proposed Off-Site Sign;

   c. The conformance of the requested Off-Site Sign to the adopted or recognized comprehensive plan or other plans or policies being utilized by the City;

   d. Opposition or support of neighborhood residents;

   e. A consideration of the recommendations of professional staff.

The applicant shall have the burden of demonstrating that the application meets the applicable review criteria.

The Planning Director shall provide a copy of the report to the MAPC in its agenda packet and shall send a copy of the report to the applicant by first-class mail, pre-paid, at least five (5) days before the scheduled MAPC hearing.

6. **Action by the Planning Commission.** The MAPC, in a public hearing, shall review the proposed new or enlarged Off-Site Billboard Sign for compliance with the requirements outlined in subsection (5) of this section. In the course of such review, the MAPC may approve modifications to the application and/or site plan as a condition of approval for the Off-Site Sign. Based on that review, the MAPC shall act to approve, approve with conditions or modifications, or deny the application for a new or enlarged Off-Site Billboard Sign. This provision specifically contemplates that it may be necessary for the MAPC to attach additional special conditions to a proposed approval in order to ensure that it complies fully with the criteria of this Code. This action by the MAPC shall be the final action on the Off-Site Billboard application except when any one or more of the following exist: (1) the applicant appeals the action of the MAPC; (2) one or more valid protest petitions are filed opposing the action of the MAPC; or (3) an appeal is filed by anyone with standing to appeal, which shall include the applicant, the Planning Director, the Zoning Administrator, or any Owner of land that is within two hundred (200) feet of the application area and property in question.

   When any one or more of these exceptions exist, the MAPC's action shall be in the form of a recommendation that is forwarded to the Wichita City Council for final action. Protest petitions and appeals shall be filed within fourteen (14) days of the conclusion of the MAPC hearing. If the MAPC fails to make a recommendation on an Off-Site Billboard Sign request, or its motion results in a tie vote, the MAPC shall be deemed to have made a recommendation of disapproval.

7. **Action by the Wichita City Council.** If the Off-Site Billboard Sign application is forwarded to the Wichita City Council for one of the reasons listed in subsection (6) of this section, along with the MAPC's recommendation and any District Advisory Board recommendation, the City Council shall consider the application(s) and may, at its discretion, hold a public hearing. The Off-Site Billboard application may be approved, approved with conditions or modifications, or denied by the City Council. In acting on the application, the City Council may:

   a. Adopt the MAPC's recommendation;

   b. Override the MAPC's recommendation by a two-thirds majority vote of the membership of the City Council; or

   c. Return such recommendation to the MAPC with a statement specifying the basis for the City Council's failure to approve or disapprove.

   If the City Council returns the MAPC recommendation, the MAPC, after considering the same, may resubmit its original recommendation giving the reasons therefore or submit a new and amended recommendation. Upon the receipt of such recommendation, the City Council, by a simple majority thereof, may adopt, may revise or amend and adopt such recommendation. If the MAPC fails to deliver its recommendation to the City Council following the MAPC's next regular meeting after receipt of the City Council's report, the City Council shall consider such course of inaction on the part of the MAPC as a resubmission of the original recommendation and proceed accordingly. If the City Council approves the application or the application as modi-

fied or with conditions, the Director shall issue a permit to the applicant consistent with the action of the City Council.

(Ord. No. 46-396 § 3; Ord. No. 50-439, § 40, 4-25-17)

Sec. 24.04.228. Specific historic preservation requirements.

When otherwise permitted by this Title, the following conditions apply for Electronic Message Signs on individual buildings or properties listed on an historic register, or on buildings or properties within a designated historic district:

1. No Electronic Message Signs shall be permitted except on or for theater buildings. Applications for Electronic Message Signs for theaters shall be considered by the City of Wichita Historic Preservation Board;
2. Electronic Message Signs on or for theater buildings shall comprise only a portion of the overall marquee and/or signage design package for the theater.

(Ord. No. 50-439, § 41, 4-25-17)

Sec. 24.04.230. Temporary signs.

No Temporary Sign shall be placed on any property without first obtaining a Temporary Sign permit as required by Section 24.04.050. Such permit shall be subject to the following requirements:

(a) No Temporary Sign shall exceed the size or area allowed by Section 24.04.190 or as permitted in subsection (f) of this Section.

(b) No Temporary Sign shall extend over or into any street, alley or sidewalk or other public Right of Way except for those attached to permanent canopies or marquees. No Temporary Sign suspended from or attached to a canopy or marquee shall extend closer to the sidewalk than seven (7) feet.

(c) All Temporary Signs shall be substantially constructed and adequately weighted or anchored to prevent movement or overturning by the wind.

(d) All Temporary Signs of rigid construction exceeding seventy-two (72) square feet, and all Temporary Signs on private structures over any public Right of Way shall be erected, affixed or placed by a licensed and bonded sign hanger.

(e) A permit for a Temporary Sign shall be subject to all applicable regulations and the sign for which the permit was secured shall be removed within twenty-four (24) hours of the expiration of the permit.

(f) Temporary Signs on Private Structures Over Public Space. Permits for the placing of Temporary Signs, upon privately owned structures, located over or upon public streets, alleys or other public place spaces, may be issued for not to exceed thirty (30) days, subject to the following requirements:

(1) The applicant shall submit a signed statement from the Owner, agent or lessee of the structure, granting permission for the erection of the sign.

(2) The sign shall not be over two hundred (200) square feet in area.

(3) The Owner of the sign shall file with the City Clerk a surety bond or letter of credit approved as to form by the City Attorney, for each sign in the amount of fifteen thousand (15,000) dollars, or any other equivalent security the City Council may approve, to save and hold the City free and harmless from all damages which may be occasioned by the erection and maintenance of such sign.

(4) Where applicable, obtain a use of street permit as required by Section 10.08.300 of the Code of the City of Wichita.

(g) Electrical Portable Signs shall not be connected to any electrical power source except during the hours of the business for which the sign is located is open.

(h) Electrical lines for Portable Signs shall not be permitted to lay on the ground where vehicular traffic is permitted. Use of extension cords for Portable or Temporary Signs is prohibited.

(i) Temporary Signs shall be removed from a property for not less than thirty (30) days at the end of the maximum time period as set forth in this Title before another Temporary Sign can be located on a property.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 42, 4-25-17)

Sec. 24.04.235. Balloon Signs.

Balloon Signs as permitted in the Zoning Districts as set forth in Sections 24.04.195, 24.04.196, 24.04.197 and 24.04.198, shall be permitted with the following limitations:

(a) Balloon Signs shall be limited to one (1) balloon sign per Zoning Lot at any given time.

(b) Balloon Signs shall be limited to a maximum of one hundred sixty (160) square feet in area as measured at the largest cross-Section.

(c) Balloon Signs shall be limited to seven (7) day permits issued no more than four (4) times per calendar year through the MABCD.

(d) Balloon signs shall be limited in height to a maximum of forty-five (45) feet above grade when mounted or tethered on a roof or structure, and to twenty-five (25) feet above grade when mounted on or tethered to the Ground.

(e) Balloon Signs shall be located no closer than one hundred (100) feet to the nearest lot line of any SF-5, SF-10, SF-20, or TF-3 Zoning Districts.

(f) Balloon Signs must be anchored and/or tethered in accordance with the commercial Balloon Sign manufacturer's recommendations.

(g) Balloon Signs must be deflated and properly secured when wind speeds exceed forty (40) miles per hour or the manufacturer's maximum wind speed, whichever is less.

(h) Balloon Signs shall be located no closer than five hundred (500) feet to any hospital helicopter landing pad.

(i) Balloon Signs shall be located in accordance with all applicable Federal Aviation Administration regulations.

(j) Any gas used in Balloon Signs must be noncombustible.

(k) Balloon Signs shall be fire retardant.

(l) Balloons Signs shall be located no closer than the height of the balloon plus ten (10) feet from any electric power transmission line.

(Ord. No. 43-717 § 10; Ord. No. 50-439, § 43, 4-25-17)

Sec. 24.04.240. Reserved.

Editor's note—Ord. No. 50-439, § 44, adopted April 25, 2017, repealed § 24.04.240, which pertained to special displays and derived from Ord. No. 40-963 (part).

Sec. 24.04.250. Variances.

The Board of Zoning Appeals is hereby granted authority to authorize in specific cases a variance from the specific terms of this Title which will not be contrary to the public interest and where, because of special conditions, a literal enforcement of the provisions of this Title will result in unnecessary hardship. Provided that the spirit of this Title shall be observed, public safety and welfare secured, and substantial justice done. Variances under this Title shall be granted under the same procedures and conditions as set forth in subsection (b) of Section 2.12.590.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 45, 4-25-17)

Sec. 24.04.251. Sign code adjustments.

1. **Authority.** The Planning Director, with the concurrence of the Zoning Administrator, shall have the authority to approve applications for Sign Code Adjustments.

2. **Types of Adjustments Allowed.** Sign Code Adjustments shall be limited to the following:

a. Reducing the minimum allowed distance required between On-Site Ground, Monument or Pole Signs by up to one-third;

b. Increasing the maximum allowed height of On-Site Ground, Monument or Pole Signs, or of Building or Wall Signs, by up to twenty-five (25) percent;

c. Increasing the maximum allowed size of individual building or wall signs or of the total allowed Building Sign wall elevation coverage by up to twenty-five (25) percent;

d. Increasing the maximum number of allowed Building or Wall Signs per any elevation by up to one (1) in the NO, GO, NR, OW or IP Zoning Districts, or up to two (2) such signs per any elevation in the LC Zoning District.

e. Reducing the minimum allowed depth of parking, loading or open space area required in the LC Zoning District for Building or Wall Signs on elevations not having Street Frontage;

f. Allowing structurally altered legal Non-Conforming On-Site Pole, Ground or Monument Signs to be structurally altered at their existing base or pole structure location provided that the extent of Non-Conforming Sign height or sign size is reduced;

g. Allowing legal Non-Conforming Off-Site Pole, Ground or Monument Signs to be structurally altered to an extent exceeding fifty (50) percent of the sign's structural value or to an extent that includes repairs or modifications exceeding fifty (50) percent of the of the sign's structure, at their existing base or pole structure location provided the number of main support poles or pylons are reduced to a single support pole or pylon, or the extent of Non-Conforming Sign height or sign size is reduced;

h. Increasing the maximum allowed height of Ground, Monument or Pole Signs for On-Site or Off-Site Signs located within seventy-five (75) feet of a Zoning Lot line that directly abuts the Right of Way of an elevated portion of a highway structure to a height at the top of the sign that does not exceed twenty (20) feet above the height of the top of the highest railing or barrier along the traffic deck or decks within the Right of Way at a point perpendicular the sign.

i. Allowing Variable Message or Electronic Message Signs for Institutions located in any residential Zoning District, or in any "NO", "GO", "NR", "OW" or "IP" Zoning Districts.

j. Allowing Off-Site Signs that do not exceed one hundred (100) square feet in area or twenty-five (25) feet in height, provided that the sign for the business being advertised is located on a Zoning Lot that abuts or is adjacent to the Zoning Lot on which the advertised business is located, and on which the proposed Off-Site Sign would otherwise be allowed by the On-Site Sign regulations set forth in Sections 24.04.193, 24.04.199 or 24.04.221.

k. Increasing the maximum distance that a Temporary Sign may be placed from a subdivision, as set forth in Section 24.04.190.6.i.(1), by up to twenty-five (25) percent.

l. Increasing the maximum night time brightness and/or light intensity of allowed Electronic Message Signs, as set forth in Section 24.04.220(p), up to a maximum of 4,000 Nits.

3. For signs not located within an approved Community Unit Plan (CUP), Planned Unit Development (PUD) or Protective Overlay (PO), or located within a CUP, PUD or PO wherein the CUP, PUD or PO provisions and/or conditions refer only to signs as allowed or permitted by the Sign Code, the applicant requesting a sign adjustment may file a variance request to the Board of Zoning Appeals pursuant to Art. V.G of the Wichita-Sedgwick County Unified Zoning Code if

the adjustment request is denied, or when such adjustment request has been approved with conditions or modifications that are unacceptable to the applicant. The filing fee for any sign adjustment shall be applied toward the filing fee for any variance request.

4. For signs located within an approved Community Unit Plan (CUP), Planned Unit Development (PUD) or Protective Overlay (PO) wherein the CUP, PUD or PO provision and/or conditions set forth specific sign requirements for the CUP, PUD or PO, the applicant requesting a sign adjustment may file an amendment to the CUP, PUD or PO pursuant to Art. V.C or V.E of the Wichita-Sedgwick County Unified Zoning Code (UZC) if the adjustment request is denied or when such adjustment request has been approved with conditions or modifications that are unacceptable to the applicant. The filing fee for any sign adjustment shall be applied toward the filing fee for any amendment request.

5. Appeals of approved sign adjustments by other than the sign adjustment applicant and/or property Owner may be taken to the Board of Zoning Appeals by filing an appeal with the Board of Zoning Appeals' Secretary within the time limit specified by the rules of the Board of Zoning Appeals, and in accordance with Art. V.F of the Wichita-Sedgwick County Unified Zoning Code (UZC).

6. **Sign Code Adjustment criteria.** The Planning Director shall not approve a Sign Code Adjustment if the Planning Director finds that the proposed development:

a. Creates more adverse impacts on existing uses in surrounding areas than those that might reasonably result from development of the site in strict compliance with the adjusted standard;

b. Would not be compatible with existing or permitted uses on abutting sites, in terms of adjusted sign height or size, number of signs, sign bulk and scale, or minimum allowed depth of parking, loading or open space area required;

c. Will be detrimental to the public health, safety or welfare or materially injurious to properties or improvements in the immediate vicinity for reasons specifically articulated by the Planning Director.

(Ord. No. 45-975 § 6; Ord. No. 47-542 § 6, 8-14-07; Ord. No. 50-439, § 46, 4-25-17)

Sec. 24.04.252. Appeals from the Board of Zoning Appeals.

Any person, official or governmental agency dissatisfied with the decision of the Board of Zoning Appeals may bring an action in the District Court of the Eighteenth Judicial District to determine the reasonableness of such decision. Such appeal shall be filed within thirty (30) days of the final decision of the Board of Zoning Appeals.

(Ord. No. 50-439, § 47, 4-25-17)

Sec. 24.04.260. Penalty for violation of Title, rule or order.

(a) Except as otherwise provided, any person violating any of the provisions of this Title or any reasonable rule or order of the Director or Zoning Administrator, or causing, or permitting the same to be done, is guilty of a misdemeanor and shall be punished by a fine of not more than five hundred (500) dollars or by imprisonment of not more than six (6) months or both such fine and imprisonment.

(b) The issuance or granting of a permit shall not be deemed or construed to be a permit for or an approval of any violation of any of the provisions of this Title. No permit presuming to give authority to violate or cancel the provisions of this Title shall be valid, except insofar as the work or use which it authorizes is lawful.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 48, 4-25-17)

Sec. 24.04.270. Amendments.

Any amendments to this Title shall be forwarded to the Wichita-Sedgwick County Metropolitan Area Planning Commission (MAPC) for their review and comment.

(Ord. No. 40-963 (part); Ord. No. 50-439, § 49, 4-25-17)

Sec. 24.04.280. Severability.

If any Section or provision of this Title is for any reason held illegal, invalid, or unconstitutional, such action shall not affect the remaining provisions of this Title which shall remain valid to the extent possible.
(Ord. No. 40-963 (part); Ord. No. 50-439, § 50, 4-25-17)

Title 25

OIL AND GAS WELLS

Ch. 25.04. Oil and Gas Wells

CHAPTER 25.04. OIL AND GAS WELLS

Sec. 25.04.010. "Well" defined.
Sec. 25.04.015. Drilling prohibited except in oil and gas well district.
Sec. 25.04.020. Oil and gas well district map.
Sec. 25.04.030. Special permit and drilling permit—Required.
Sec. 25.04.040. Drilling permit—Filing application with superintendent of central inspection; deposit.
Sec. 25.04.050. Same—Issuance; conditions generally; completion.
Sec. 25.04.060. Same—Information and evidence to be submitted as condition for granting permit.
Sec. 25.04.070. Permits—Duration.
Sec. 25.04.080. Same—Nonassignable.
Sec. 25.04.090. Authorization to lay pipelines in streets, etc., required.
Sec. 25.04.100. Surety bonds required.
Sec. 25.04.110. Indemnity or casualty insurance required.
Sec. 25.04.120. Drilling units—Establishment; production unit.
Sec. 25.04.130. Same—Location of wells.
Sec. 25.04.140. Applicability of state laws and regulations.
Sec. 25.04.150. Specific drilling and production regulations.
Sec. 25.04.160. Additional requirements by board of commissioners.
Sec. 25.04.170. Licenses.
Sec. 25.04.180. Well inspection; duties.
Sec. 25.04.190. Preparation and supplying applications, permits, notices, etc.
Sec. 25.04.200. Revocation of permits, licenses or other authorizations.
Sec. 25.04.210. Notices required to be given superintendent of central inspection.
Sec. 25.04.220. Use of abandoned well.
Sec. 25.04.230. Orders to stop work.
Sec. 25.04.240. Same—Appeals.

Sec. 25.04.010. "Well" defined.

A "well" or "wells" for the purposes of this chapter means any well drilled, or to be drilled, or used, for the production of oil, natural gas or the disposal of waste liquids produced therefrom. "Oil" means crude oil or petroleum and shall include all waste oil.
(Ord. No. 37-873 § 1)

Sec. 25.04.015. Drilling prohibited except in oil and gas well district.

Well drilling shall be prohibited in all areas within the corporate limits of the city except those areas defined by ordinance and shown on the Oil and Gas Well District Map. It is unlawful to drill a well in any area not permitted.
(Ord. No. 37-873 § 2)

Sec. 25.04.020. Oil and gas well district map.

The metropolitan area planning department shall cause to be prepared a map describing the areas in which the drilling and operation of wells may be lawful. Such map is to be marked "Oil and Gas Well District Map" and shall be kept and maintained by the metropolitan area planning department as provided in Section 28.04.1813 and shall be available for inspection and examination by members of the public at all reasonable times.
(Ord. No. 37-873 § 3)

Sec. 25.04.030. Special permit and drilling permit—Required.

It is unlawful for any person to drill or commence operations for the drilling of a well, at any place where otherwise lawful within the corporate limits of the city without first having obtained a special permit from the board of commissioners of the city and a drilling permit as hereinafter provided. Application for the special permit shall be made as provided in Section 28.04.181-3.
(Ord. No. 37-873 § 4)

Sec. 25.04.040. Drilling permit—Filing application with superintendent of central inspection; deposit.

After approval of the special permit by the board of commissioners, the applicant for a permit, as provided for in the preceding section, shall file with the superintendent of central inspection an application for a drilling permit in writing conforming to the further provisions of this chapter, and shall at such time deposit with the superintendent of central inspection a fee of five hundred dollars which shall, upon the granting of the drilling permit, be paid into the city treasury to the credit of the general operating fund.
(Ord. No. 37-873 § 5)

Sec. 25.04.050. Same—Issuance; conditions generally; completion.

The superintendent of central inspection shall, upon determination that the application for a well drilling permit conforms to the conditions of this chapter, authorize the issuance of a permit granting authority to drill the proposed well. Such drilling permit shall be conditioned to conform to the special permit as approved by the board of commissioners; provided, that upon the completion of the well, the permittee shall file a completion report with the central inspection division showing the drilled depth of the well, the depth of the surface casing and the producing horizon being developed. Not more than one well shall be completed in the same producing horizon in a drilling unit.
(Ord. No. 37-873 § 6)

Sec. 25.04.060. Same—Information and evidence to be submitted as condition for granting permit.

The applicant for any permit to drill a well in the city shall submit the following information and evidence as a condition for the granting of a drilling permit hereunder:

1. Evidence that all owners of record of mineral interests or oil and gas leasehold interests in the area attributable or which might be attributed by unitization or declaration to drill-unit, where it is proposed to drill a well, have had an opportunity to join in the execution of the oil and gas lease of the applicant covering the land excluded in such unit or attributed areas, and that such owners of mineral interests or oil and gas leasehold interests have been notified in writing that the applicants propose to seek a permit for the drilling of a well on the unit described in such notice. In the event that such owners cannot with reasonable diligence be located, then affidavits setting forth the facts thereof may be substituted for the required proof of written notice;
2. Statements that the applicant has a valid oil and gas lease executed by persons owning at least fifty-one percent of the mineral interest included in the unit or attributed thereto, exclusive of streets and alleys, subject, however, to the provisions of the zoning ordinances relating to drilling of wells;
3. Statements that the lease provide or is accompanied by an agreement in writing providing substantially as follows: that a royalty of at least one-eighth of the gross production of the well shall be distributed to the respective owners of the minerals rights within the unit pro rata;
4. Statements that any lease with any governmental subdivision of the state, quasi-municipal corporation, public agency, or other entity as defined in K.S.A. 55-211a, or any amendments thereto, contains a provision for spacing of producing wells in accordance with rules and regulations of the Kansas Corporation Commission;
5. Agreements or statements showing reasonable and adequate plans for the handling and disposal, in accordance with all applicable state laws and city ordinances, of all drilling fluids, basic sediment, brines and other deleterious substances and wastes that may be produced in connection with the drilling and operation of the proposed well;
6. Plans and drawings showing the facilities for the handling or storing of production of the proposed well;
7. Statements of agreement that in the event the well is either nonproductive or abandoned, within sixty days after the determination thereof, that all tools, equipment, and machinery used in connection with the drilling of the well shall be removed, and that the premises shall be fully restored to their original condition as soon as practicable and in no case more than sixty days after such determination;
8. Statements of agreement that if such well is productive, only the tools, machinery, structures and equipment necessary for the operation thereof shall be maintained at such well and that the premises sur-

rounding the same shall be restored to their original condition as nearly as practicable and within sixty days after completion of the well;

9. Statements of agreement that all drilling wastes shall be removed from storage facilities within thirty days of completion of the well.

All of the preceding information and evidence shall be in a form satisfactory to the superintendent of central inspection and shall be in addition to information required for a special permit by Section 28.04.181-3.
(Ord. No. 37-873 § 7)

Sec. 25.04.070. Permits—Duration.

The permits authorized by this chapter shall be valid only in the event and for so long as the permittee shall faithfully comply with the conditions of this chapter, and of the permits authorized in accordance therewith, and only so long as there is production from or other lawful use made of the well.
(Ord. No. 37-873 § 8)

Sec. 25.04.080. Same—Nonassignable.

No permit, authorized by this chapter, shall be assignable or assigned without the approval of the board of commissioners.
(Ord. No. 37-873 § 9)

Sec. 25.04.090. Authorization to lay pipelines in streets, etc., required.

If any applicant or any other party shall desire to lay pipelines in the streets, public grounds, or alleys in the city for transmission of oil or gas or any waste fluid from any well or drilling location within the boundaries of the city, authorization therefor, as provided by law, shall be obtained from the board of commissioners and as a prerequisite to such authorization. The person seeking same shall provide detailed plans and specifications for constructing and maintaining such pipelines and for restoration, so far as practicable, of streets, grounds and alleys, wherever damaged by such construction, to as good condition as existed immediately prior to the damage, which plans and specifications shall be approved by the director of operations and maintenance prior to granting such authorization.
(Ord. No. 37-873 § 10)

Sec. 25.04.100. Surety bonds required.

(a) The applicant shall at the time of filing an application for a drilling permit, submit for approval a corporate surety bond executed by some bonding or surety company authorized to do business in the state, or a personal surety bond, in the amount of one hundred thousand dollars payable to the city, conditioned for the full and faithful compliance with all the terms and provisions of this chapter and the conditions of the permit authorized thereby, and to save and hold the city free and harmless from all suits or damages sustained by the city in the event that any claim for damage or injury is maintained against the city as a result of the activities of the applicant in drilling or operating a well. A copy or certificate of the bond shall be deposited with the city clerk. All such bonds shall be renewed immediately prior to their termination and shall remain in force and be binding upon the principal and surety unless canceled by giving thirty days' notice in writing to the city clerk, and the surety shall not be liable for any loss after the expiration of thirty days from the date specified in the notice, except for loss occurring while the bond is in full force and effect. Upon the expiration of any such bond, a new bond shall be filed by the principal in such amount as in the case of an original bond.

(b) In the event that any permittee shall have furnished such bond as required for a permit and there shall be no unsatisfied claim upon such bond at the time of the application for a subsequent permit to drill a well, no further bond shall be required for any subsequent permit, but in such event there shall be endorsed on the bond the identification of the subsequent permit for which the bond is made applicable; provided, that if there shall be an unsatisfied claim against the existing bond at the time of the application for a subsequent permit, the board of commissioners, at its discretion, may require an additional bond in the aforesaid amount or any lesser amount as may be determined.

(c) The amount of the surety bond heretofore may be reduced to ten thousand dollars from and after the completion of any well upon filing a new or amended bond conditioned and approved as in the case of the original bond, except for the amount. Such bond shall be renewed and filed during the continued operation of the well and for a period of six months thereafter or until the premises have been cleared of obstructions and restored to their original condition as required by this chapter.
(Ord. No. 37-873 § 11)

Sec. 25.04.110. Indemnity or casualty insurance required.

The applicant for a drilling permit shall submit a policy of indemnity or casualty insurance, issued by some responsible insurance company authorized to do business in the state, and naming the city as coinsured, insuring against injuries, loss or damage for which the applicant may be liable as the result of the drilling, operation or maintenance of any well or any structure or machinery appurtenant thereto. Such insurance coverage shall be in the following amounts: five hundred thousand dollars for injury to any one person in any occurrence; five hundred thousand dollars for injury to more than one person in any occurrence; one hundred thousand dollars for loss or damage to property in any one occurrence; and additional excess coverage in the amount of two million dollars.

A copy or certificate of the policy shall be deposited with the city clerk, together with a certificate by the insurance company that such insurance is in force and shall not be canceled without thirty days' written notice thereof to the city. Such insurance shall be renewed immediately prior to the end of the term thereof and shall be maintained during the entire period of drilling or operation of a well.
(Ord. No. 37-873 § 12)

Sec. 25.04.120. Drilling units—Establishment; production unit.

The board of commissioners shall, from time to time as drilling requirements develop, in connection with the oil and gas well drilling map, determine and establish units for the drilling of wells. Where practicable, in so doing, the board of commissioners shall establish units of forty contiguous acres when allowed by state law and regulation; and provided, that the board of commissioners may waive this requirement as to drilling units of wells permitted or commenced prior to the effective date of this chapter; and provided further, that intervening rights of way, streets and alleys within such units and to the centerline of the same on the perimeter thereof shall be included in determining such acreage. The territory in such units shall be attributed to the well, for the drilling of which a permit may be granted. Each unit shall be appropriately numbered and the number thereof entered on any drilling permit granted for the unit.

The production unit shall be coterminous with the drilling unit.
(Ord. No. 37-873 § 13)

Sec. 25.04.130. Same—Location of wells.

Each well commenced or drilled in the corporate limits shall, as nearly as practicable, be drilled in the center of a drilling unit, heretofore provided and established, but the board of commissioners at the time of granting a special permit may authorize such variation therefrom as may be deemed necessary depending upon the location of streets, alleys, residences and other buildings relative to the proposed drill site, geographical and topographical factors, and the size and shape of the unit and available attributable areas; provided, however, that the well location shall otherwise be in accordance with the provisions of Section 28.04.181-3. The approved location of the well shall be described in the permit.
(Ord. No. 37-873 § 14)

Sec. 25.04.140. Applicability of state laws and regulations.

Unless otherwise set forth specifically by city ordinance, all wells shall be spaced, located, drilled, operated, and maintained in accordance with applicable state laws and regulations.
(Ord. No. 37-873 § 15)

Sec. 25.04.150. Specific drilling and production regulations.

The issuance and continued validity of a permit and the authorization for the drilling or operation of a well, authorized thereby, shall be conditioned upon compliance by the permittee with the following rules and regulations and any departure therefrom shall constitute a violation of this chapter:

(1) The surface pipe must be run and set at least ten feet into the Wellington Shale and in no event less than three hundred feet into the ground.

(2) The surface pipe must be solidly cemented from top to bottom on the outside of the pipe.

(3) Adequate precautions shall be taken and necessary well head safety devices be used at all times during the drilling and completion of the well; and all drill stem tests shall be reverse circulated to confine fluids to pits in accordance with the most acceptable practices.

(4) Locations and equipment shall at all times during drilling operations be fenced by either a temporary portable type snow fencing at least four feet high or other fencing equally acceptable.

(5) Upon completion of a well the pumping unit, tank battery and other permanent production equipment shall be enclosed in accordance with the special permit approved by the board of commissioners.

(6) All drilling fluids shall be contained in portable tanks at the drilling site.

(7) All waters produced from any well shall be disposed of underground in accordance with regulations of the Kansas Corporation Commission or the state board of health.

(8) At no time shall fluids of any kind be run into or stored in earthen pits. No saltwater or other waste fluids shall be disposed of in waterways or the sanitary sewer system unless approved by the director of health and the inspector of water and water pollution control.

(9) All pumping units shall be set on a steel or concrete base and the surface of the ground around the well shall be graded to surrounding ground.

(10) All pumping units must be electrically driven and equipped with belt safety guards.

(11) All oil separator, petroleum and brine storage tanks shall be covered. No gas, odors, fumes from any storage tank, oil separator or casing head shall be vented into the open air without being filtered through a pollution control device containing activated carbon. Such devices shall be maintained on a scheduled basis to maintain their effectiveness. Burning of gases or fumes by use of flares from wells or storage facilities is not allowable without a specific permit from the environmental health director.

(12) All storage tanks shall be located within a diked area not less than two feet in height covering an area sufficient to contain and hold one and one-half times the entire liquid capacity of all tanks therein. Rainwater or other fluids shall not be allowed to accumulate within the dikes and shall be removed periodically. Unless tested and approved for disposal by sanitary sewer, the fluids shall be considered as contaminated and disposed of in accordance with regulations of the Kansas Corporation Commission or the state board of health.

(13) All production equipment, structures and premises shall at all times be maintained and kept in a clean, sanitary and tidy condition; and all structures shall be of incombustible materials.

(14) Storage tanks shall be equipped with automatic shut-off devices linked to the fluid level in the tank to prevent overfilling and spillage. In addition, a single overflow tank shall be provided to contain the overflow from the oil or brine storage

tanks in the event that the shutoff devices fail. The capacity of the overflow tank shall be sufficient to hold twenty-four hours' production from the well or wells.

(15) The owners and operators of drilling, pumping or storage equipment shall be responsible for the immediate clean-up and disposal of any spillage of oil or brine at the well site.

(16) All wells shall be equipped with a blowout prevention device of the double ram type.

(Ord. No. 37-873 § 16)

Sec. 25.04.160. Additional requirements by board of commissioners.

At the time of granting any permit, under the provisions of this chapter, the board of commissioners may make requirements, in addition to those contained therein, as may be reasonably necessary for protection of persons and property in the city.

(Ord. No. 37-873 § 17)

Sec. 25.04.170. Licenses.

(a) A license fee is levied upon the owner or operator of every completed and operated well in the corporate limits in the following amounts:

(1) Producing oil or gas wells . . $150.00

(2) Salt water disposal wells . . . 75.00.

Such fees shall be paid to the city license collector within not more than twenty days after completion of any well. The license collector shall thereupon issue a license which shall be valid for a period of twelve calendar months from and after the completion date of such well. The license shall not be transferable nor prorated for any unused period. The fees so paid shall be deposited in the city treasury to the credit of the general operating fund and budgeted for the payment of the costs of administration of this chapter.

(b) The license herein required shall be renewed annually and the fee therefor paid at twelve month intervals from the date of the first license and until the operation of any well so licensed shall be discontinued, the well abandoned, and the premises cleared as provided in this chapter.

(Ord. No. 37-873 § 18)

Sec. 25.04.180. Well inspection; duties.

It shall be the duty of the central inspection division to inspect wells and drilling sites and to otherwise generally administer and enforce, in conjunction with other concerned departments of the city, the provisions of this chapter on drilling and operation of wells in the city.

(Ord. No. 37-873 § 19)

Sec. 25.04.190. Preparation and supplying applications, permits, notices, etc.

The central inspection division may prepare and supply such applications, permits, notices, licenses and other forms as may be required by this chapter and upon request supply copies of this chapter to applicants for any permit or license.

(Ord. No. 37-873 § 20)

Sec. 25.04.200. Revocation of permits, licenses or other authorizations.

Upon any substantial violation of the conditions of any permit, license, authorization or of any provisions of this chapter, the board of commissioners may, upon a hearing after five days' written notice by mail or personal service, to the permittee or licensee, or if the address of the permittee or licensee is unknown and the permittee or licensee cannot be found in the city, after the expiration of five days from the date of publication of notice of any such hearing in a newspaper authorized to publish legal notices in the city, revoke such permit, license or authorization; provided, however, that if in the judgment of the board of commissioners restitution is made for any damage occasioned by such violation together with adequate provisions to prevent any further violations by such permittee or licensee, the board of commissioners may waive revocation of any

permit or license, but the same shall not affect any penalty otherwise provided for the violation of this chapter.
(Ord. No. 37-873 § 21)

Sec. 25.04.210. Notices required to be given superintendent of central inspection.

It shall be the duty of every permittee or licensee, as the case may be, to give the superintendent of central inspection notice of the commencement of any drilling of a well, the setting and cementing of the surface casing of any well and of the beginning of other stages of the drilling or operation or abandonment of any well, as may be required by regulations to be approved by the superintendent of central inspection. The date of completion or abandonment of any well and pertinent information shall be entered of record.
(Ord. No. 37-873 § 22)

Sec. 25.04.220. Use of abandoned well.

All abandoned wells which shall not be used and equipped for disposal purposes, shall be filled and plugged in accordance with applicable rules of the agencies of the state having jurisdiction thereof.
(Ord. No. 37-873 § 23)

Sec. 25.04.230. Orders to stop work.

The inspectors of the central inspection division shall be authorized to order any work stopped or corrected which shall not conform to the conditions required by this chapter. A copy of such order shall be filed with the well permit and preserved as a permanent record open to public inspection.
(Ord. No. 37-873 § 24)

Sec. 25.04.240. Same—Appeals.

Any person aggrieved by any inspection order to stop or correct any work may forthwith appeal to the superintendent of central inspection for a hearing and determination of the matter complained of; and may, within ten days from the decision of the superintendent, file an appeal in writing with the city clerk to be submitted to the board of commissioners at its next meeting for a hearing and a determination thereof. The decision of the board of commissioners shall be final and conclusive.
(Ord. No. 37-873 § 25)

Sec. 26.04.212. Additions and alterations to homes in a manufactured home subdivision.
Sec. 26.04.215. Manufactured home ground anchors.
Sec. 26.04.216. Manufactured home anchorage.
Sec. 26.04.217. Manufactured home foundations.
Sec. 26.04.220. Penalty.

Sec. 26.04.010. Definitions.

As used in this chapter:

Camp means a recreational vehicle campground.

Health officer means the Director of Environmental Services or his or her authorized representative.

House trailer.—See 'Recreational vehicle.'

Inspection officer means the superintendent of central inspection, or his or her authorized representative.

Licensed Manufactured Home Installer means a contractor who has been licensed by the State of Kansas pursuant to the Manufactured Housing Act, K.S.A. 58-4202, et seq. and amendments thereto.

Manufactured home means a structure which is subject to the National Manufactured Housing Construction and Safety Standards Act of 1974, 42 U.S.C. §4501, et seq., when erected on site, is 320 or more square feet; and which is built on a permanent chassis and designed to be used as a dwelling, with or without permanent foundation, when connected to the required utilities, and includes the plumbing, heating, air conditioning and electrical systems contained therein.

Manufactured home subdivision means a subdivision within the 'MH' manufactured housing zoning district which is platted for development as individual home sites for manufactured homes, modular homes, or residential-design manufactured homes and site-built single-family dwellings, to be placed on permanent foundations as required for permanent structures.

Mobile home means a movable detached single-family dwelling unit that was manufactured prior to 1976 and is not subject to the National Manufactured Home Construction and Safety Standards Act of 1974, 42 U.S.C. §5401,et seq. and amendments thereto, or HUD code. Such units shall provide all of the accommodations necessary to be a dwelling unit and shall be connected to the utilities in conformance with all of the applicable regulations. The term 'manufactured home' or 'mobile home' does not include a recreational vehicle.

Manufactured home park means a parcel of land, which has been planned and improved in some manner, and used or intended to be used

by one or more occupied mobile homes or manufactured homes not placed on permanent foundations. The term manufactured home park does not include sales lots on which unoccupied mobile or manufactured homes, whether new or used, are parked for the purposes of storage, inspection or sale.

Manufactured home space means a plot of ground within a manufactured home park or non conforming mobile home park which is to accommodate one manufactured home or mobile home and which provides service facilities for water, sewage and electricity.

Modular home means a structure consisting of one or more components manufactured offsite in conformance to the standards of the building code of the city and related technical codes and moved to the construction site for final assembly as a dwelling unit, and placed on permanent foundations as required for permanent structures.

Non-conforming use means the use of any land, building or structure that does not comply with the use regulations of the zoning district in which such use is located, but that complied with the use regulations in effect at the time the use was established.

Occupy, occupancy, or *occupied* means the use of any mobile home, manufactured home or recreational vehicle by any person for living, sleeping, cooking or eating purposes for any period of four or more consecutive days.

Operator means the person or business that has charge, care or control of a licensed or unlicensed manufactured home park, nonconforming manufactured or mobile home park, or camp or portion thereof, and/or the person or business that holds the license for a manufactured home park, a nonconforming mobile home park, or camp.

Park means manufactured home or nonconforming mobile home park.

Person means any individual, firm, trust, partnership, association or corporation.

Recreational vehicle means a unit designed as temporary living quarters for recreational, camping or travel use; units may have their own power, or be designed to be drawn or mounted on an automotive vehicle. Recreational vehicle shall include motor homes, travel trailers, truck campers, camping trailers, converted buses, house boats or other similar units as determined by the superintendent of central inspection.

Recreational vehicle campground means a lot, tract or parcel of land designed for occupancy by recreational vehicles for temporary or transient living purposes, including the use of camping spaces for tents.

Residential-design manufactured home means a manufactured home on a permanent foundation which has minimum dimensions of twenty-two body feet in width, a pitched roof, and siding and roofing materials which are customarily used on site-built homes, and complies with the architectural and aesthetic standards specified in Section IV-D of the Unified Zoning Code, Title 28 of the Code of the city of Wichita. A residential-design manufactured home shall be considered a single-family dwelling.

Roadway means any private street located within a park or camp and providing for the general vehicular and pedestrian circulation within the park or camp.

Self-contained recreational vehicle means a recreational vehicle which was originally designed and manufactured for utilization as a recreational vehicle and which is less than fifteen years old. A self-contained recreational vehicle shall be equipped with a fully functioning toilet with a self-contained waste collection tank; a shower or bathtub; one or more sinks, each with connections to an on-board potable water supply with both hot and cold running water and a water refuse tank and/or ground connections for gray water and waste water disposal installed in accordance with manufacturer's instructions and as per city approved design standard.

Service building means a building housing all of the following: separate toilet facilities for men and women, laundry facilities and separate bath or shower accommodations. Such

building may also include other associated uses such as an office and recreational facilities for the camp or park.

Trailer camp.—See 'Recreational vehicle campground.'

(Ord. No. 43-648 § 1; Ord. No. 47-050, § 1, 6-2-06; Ord. No. 48-417, § 1, 9-15-09)

Sec. 26.04.020. Location of manufactured homes, mobile homes and recreational vehicles.

It is unlawful for any person to occupy a manufactured home or mobile home in the city unless such manufactured home or mobile home is located in a manufactured home park or a nonconforming mobile home park in conformance with all regulations for a manufactured home park or a nonconforming mobile home park; and it is also unlawful for any person to occupy a recreational vehicle in the city unless such recreational vehicle is located in a camp.

Exceptions:

(a) A manufactured home may be occupied at a construction site by a night watchman or construction project workmen when approved by the superintendent of central inspection when deemed necessary for security and/or construction purposes. Such permission may be canceled by the superintendent of central inspection upon three days written notice, when in his opinion the intent of this section is being violated.

(b) A manufactured home may be occupied other than within a park for a period not to exceed thirty days when a permit is secured in accordance with Section 26.04.060(c).

(c) A recreational vehicle may be occupied other than within a camp for a period not to exceed thirty days when a permit is secured in accordance with Section 26.04.060(c).

(d) A recreational vehicle may occupy a manufactured home space or mobile home space in a park for a period not to exceed thirty days, provided a service building as required for a camp is within two hundred feet of the space so occupied. Under no circumstances shall the number of manufactured home spaces and/or mobile home spaces within a park be occupied by recreational vehicles or self-contained recreational vehicles in excess of five percent of the total number of manufactured home spaces and/or mobile home spaces provided, or a total of two, whichever is larger.

(e) A self-contained recreational vehicle may occupy a manufactured home space or mobile home space in a park for a period not to exceed one hundred eighty days, without providing a service building as required for a camp, provided that an approved sewage system connection is available for each self-contained recreational vehicle. If no approved sewage system connection is available for each self-contained recreational vehicle, then an approved gray water and waste water dump station which connects to an approved sewage system shall be provided. Under no circumstances shall the number of manufactured home spaces and/or mobile home spaces within a park be occupied by self-contained recreational vehicles or recreational vehicles in excess of five percent of the total number of manufactured home spaces and/or mobile home spaces provided, or a total of two, whichever is larger.

(f) A manufactured home may be occupied on a lot in a manufactured home subdivision provided it is placed on a permanent foundation and a building permit is obtained for construction and conversion to a permanent structure.

(g) A manufactured home may be occupied as a one-family dwelling as a residence for a watchman, caretaker or guard for an industrial use in the "LI" or "GI" industrial zoning districts, provided such home is placed on a permanent foundation.

(Ord. No. 43-648 § 2; Ord. No. 47-050, § 2, 6-2-06; Ord. No. 48-417, § 1, 9-15-09)

Sec. 26.04.025. Installation or relocation of mobile homes prohibited.

Mobile homes, as defined in these regulations, may not be moved into, relocated or installed within the City of Wichita.
(Ord. No. 43-648 § 3)

Sec. 26.04.030. Park license.

All persons operating parks shall obtain a park license, upon the expiration of their existing license, with such new license being issued only after review of the application pursuant to 26.04.035 and 26.04.070 and payment of the required fee. All persons developing new parks shall obtain a park license before occupancy of such park, with such license being issued only after review of the application pursuant to 26.04.035 and 26.04.080 and payment of the required fee. Said park licenses for both existing and new parks shall be renewed annually, twelve months from the date of the previous license, after approval by the inspection officer and health officer and after the payment of the required fee. It shall be unlawful for any person or operator to operate a park without a current park license.
(Ord. No. 30-782 § 3; Ord. No. 47-050, § 3, 6-2-06)

Sec. 26.04.035. License—Refusal to issue or renew.

The Superintendent of Central Inspection shall refuse to approve issuance or renewal of a manufactured home park or camp license for one or more of the following reasons:

(1) The making of any false statement as to any material fact in an application for a license or a license renewal;

(2) Violation by the licensee, applicant, operator or any employee of the licensee or applicant of a provision of this chapter;

(3) If the applicant, or any partner, spouse or corporate officer of the applicant has had a manufactured home park license issued under this chapter and the same has been revoked within 18 months prior to the application."

(Ord. No. 47-050, § 4, 6-2-06)

Sec. 26.04.036. Service of notice of violations.

Whenever the superintendent of central inspection determines that there has been a violation of any provision of this chapter or of any use or regulation adopted pursuant thereto, he shall give notice of such alleged violation to the person or persons responsible therefore as hereinafter provided. Such notice shall:

1. Be in writing;
2. Particularize the violations alleged to exist or to have been committed;
3. Provide a reasonable time for the correction of the violation particularized;
4. Be addressed to and served upon the licensee of the property or the operator of the park, provided that such notice shall be deemed to be properly served upon such owner or operator if a copy thereof is served upon him personally or if a copy thereof is sent by certified mail to his last known address. Such notice shall contain an outline of remedial action which if taken, will effect correction of the particularized alleged violations.

The licensee or operator shall be given a period of not less than thirty (30) days to remedy any alleged violation, prior to a criminal complaint being filed against the licensee or operator.
(Ord. No. 47-050, § 5, 6-2-06)

Sec. 26.04.038. Appeal from refusal to issue or renew.

If the Superintendent of Central Inspection refuses to issue or renew a license under this chapter, such action is final unless the applicant or licensee, within ten business days after the date of the refusal to renew a license, files a written appeal with the city council setting forth specific grounds for the appeal. While the appeal is pending before the city council, the licensee shall be allowed to operate any existing manufactured home park. The city council shall, within thirty days, grant a hearing to consider the action and may sustain, reverse or modify the action appealed.
(Ord. No. 47-050, § 6, 6-2-06)

Sec. 26.04.040. Camp license.

All persons operating camps shall obtain a camp license, upon the expiration of their existing park license, with such new license being issued only after approval by the inspection officer and the health officer and only after payment of the required fee. All persons developing new camps shall obtain a camp license before occupancy of such camp, with such license being issued only after compliance with, and in accordance to, the same procedure as described in Section 26.04.030 for issuance of a park license involving approval by appropriate officers, annual renewal and payment of the required fee. No person shall operate a camp without an approved current license.
(Ord. No. 30-782 § 4; Ord. No. 47-050, § 7, 6-2-06)

Sec. 26.04.041. Permits required for installation of manufactured homes.

A manufactured home building permit shall be obtained from the office of central inspection for every manufactured home which is installed or relocated within the city of Wichita. Manufactured home building permits may only be obtained by a licensed manufactured home installer or by the owner of the manufactured home. Permits and inspections for any building, electrical, plumbing, sewer or mechanical construction work must be obtained as required by the city of Wichita building, electrical, plumbing, sewer and mechanical codes (Titles 18, 19, 21, 16 and 22 of the Code of the city of Wichita).
(Ord. No. 43-648 § 4; Ord. No. 47-050, § 8, 6-2-06)

Sec. 26.04.042. Reserved.

Editor's note—Ord. No. 47-050, § 9, adopted 6-2-06, repealed § 26.04.042 in its entirety. Formerly said section pertained to license required and derived from Ord. No. 43-648 § 5.

Sec. 26.04.043. Reserved.

Editor's note—Ord. No. 47-050, § 10, adopted 6-2-06, repealed § 26.04.043 in its entirety. Formerly said section pertained to licensing authority and derived from Ord. No. 43-648 § 6.

Sec. 26.04.050. Permits for individual manufactured homes and recreational vehicles located other than within a park or camp.

Prior to occupying a manufactured home or a recreational vehicle located other than within a park or camp, a permit shall be obtained as permitted by Sections 26.04.020(b) and 26.04.020(c) with such permit being issued only after approval of the required application by the inspection officer and after payment of the required fee, and after obtaining permits as required by Section 26.04.041.

Any person desirous of locating a manufactured home or recreational vehicle in accordance with Sections 26.04.020(b) and 26.04.020(c) shall make an application to the inspection officer for a temporary permit. Such application shall be in writing, signed by the applicant and shall include the following: the name, address and telephone number of the applicant; the location and legal description of property where the mobile home or recreational vehicle is requested to be located; and shall provide all other applicable information as follows:

(a) Those applications requested in accordance with Sections 26.04.020(b) and 26.04.020(c) shall give the reason such application is being applied for, the number of days the manufactured home or recreational vehicle is intended to be parked which in no event shall exceed thirty, the application area, location of existing buildings, and the location of where the manufactured home or recreational vehicle will be parked;

(b) The connection of the manufactured home or recreational vehicle to any utility shall be in accordance with all applicable regulations of this Code.

(Ord. No. 43-648 § 7)

Sec. 26.04.060. License and permit fees.

(a) The annual fees for any park shall be as follows:

One manufactured home space . .	$60.00
Two manufactured home spaces .	90.00
Three to fifteen manufactured home spaces	100.00
Sixteen to twenty-five manufactured home spaces	120.00
Twenty-six to fifty manufactured home spaces	160.00
Fifty-one to seventy-five manufactured home spaces	220.00
Seventy-six to one hundred fifty manufactured home spaces	420.00
Over one hundred fifty manufactured home spaces	420.00

Plus twenty dollars for each ten manufactured home spaces, or major fraction thereof, over one hundred fifty.

(b) The annual fees for a camp shall be as follows:

Two recreational vehicle spaces . .	$90.00
Three to fifteen recreational vehicle spaces	100.00
Sixteen to twenty-five recreational vehicle spaces	120.00
Over twenty-five recreational vehicle spaces	120.00

Plus twenty dollars for each ten recreational vehicle spaces, or major fraction thereof, over twenty-five.

(c) A temporary permit may be issued for a mobile home or house trailer to be occupied other than within a park or camp, permitted in accordance with Section 26.04.020(b) and 26.04.020(c) for a period not to exceed thirty days, upon the

payment of a fee of five dollars. There shall not be more than two such permits issued for the placement of a mobile home or house trailer in accordance with Section 26.04.020(b) and 26.04.020(c) on the same property in any twelve-month period. (Ord. No. 39-250 § 12; Ord. No. 47-050, § 11, 6-2-06)

Sec. 26.04.070. Existing parks.

All persons operating existing parks shall obtain the appropriate license as required by Section 26.04.030 or 26.04.040 upon the expiration of the current park license. The inspection officer shall determine the appropriate classification for each park based on the records that have been filed with the various departments of the city in the applications for the existing license. Such license applications shall include: the name, address and telephone number of the applicant; the location and legal description of the park or camp; including a plot plan showing the park or camp dimensions; number and location of manufactured home or house-trailer spaces.

All persons operating parks existing on September 20, 1969, that have been developed after March 3, 1964, in accordance with all the standards of Ordinance No. 27-552, shall be permitted to be licensed annually as nonconforming, providing such parks are maintained in compliance with all the provisions of said ordinance. Failure to license any such park for a period of 24 months shall constitute abandonment of the nonconforming use.

In addition to complying with the applicable provisions of Ordinance no. 27-552 as stated above, all existing parks shall comply with Sections 26.04.200 and 26.04.210. Only those existing parks that comply with all the requirements for new manufactured home parks will be eligible for the "MH" manufactured housing district under the Unified Zoning Code, Title 28 of the Code of the City of Wichita.

No addition shall be made to any existing park after January 1, 1970, except as permitted by Section 26.04.080 for a new park.
(Ord. No. 43-648 § 8; Ord. No. 47-050, § 12, 6-2-06)

Sec. 26.04.080. Applications for license for new parks and camps.

All persons developing new parks and camps after September 20, 1969, shall make an application to the inspection officer for the appropriate park or camp license. Applications for manufactured home parks may be made only after a development plan has been approved by the director of the Wichita-Sedgwick County metropolitan area planning department or his authorized representative in accordance with the Unified Zoning Code, Title 28 of the Code of the City of Wichita. When platting is required, the development plan shall be submitted at the preliminary platting stage and when approved shall constitute approval by the director of the Wichita-Sedgwick County metropolitan area planning department. When platting is not required, a sketch plan showing the relationship of the manufactured home spaces to the roadways, parking, open space and other information affecting the overall environment of the park may be submitted at any time for approval by the director of the Wichita-Sedgwick County metropolitan area planning department.

The application to the inspection officer shall be in triplicate, in writing, signed by the applicant and shall include the following: the name, address and telephone number of the applicant; the location and legal description of the park or camp; at least three complete sets of plans showing compliance with all applicable provisions of this chapter, including a plot plan drawn to scale, at not less than one inch equal to one hundred feet, showing the park or camp dimensions; number and location of manufactured home or house-trailer spaces; location and width of roadways, sidewalks, off-street parking and easements; location, size and specifications of buildings, sewers, water lines and gas lines; the location and specifications of any sewage disposal system and water supply system; the existing topography and a drainage grading plan. The submitted plans may be approved by the inspection officer for construction only after they have been reviewed and approved by the director of the Wichita-Sedgwick County metropolitan area planning department and the health officer. Approval and issuance of a park license for such new parks, and

of a camp license for such new camps, shall not be made until construction in accordance with the approved plans has been completed.

An application for any addition to an existing park shall be processed as an application for a new park. Only those existing parks determined to be nonconforming parks as set forth in Section 26.04.070(b) or existing parks complying with this chapter may be expanded. Such application, in addition to the information required above, shall designate the portion of the park that is nonconforming or nonstandard. The expansion of any park shall conform to this chapter and under no circumstances shall the total park area be less than the area required for a new park.
(Ord. No. 43-648 § 9; Ord. No. 47-050, § 13, 6-2-06)

Sec. 26.04.100. Application for temporary permit for placement of individual manufactured home or recreational vehicle.

Any person desirous of locating a manufactured home or recreational vehicle in accordance with Sections 26.04.020(b) and 26.04.020(c) shall make an application to the inspection officer for a temporary permit. Such application shall be in writing, signed by the applicant and shall include the following: the name, address and telephone number of the applicant; the location and legal description of property where the manufactured home or recreational vehicle is requested to be located; and shall be provided all other applicable information as follows:

(a) Those applications requested in accordance with Sections 26.04.020(b) and 26.04.020(c) shall give the reason such application is being applied for, and shall give the number of days the manufactured home or recreational vehicle is intended to be parked which in no event shall exceed thirty. The application shall be accompanied by a plot plan drawn to scale showing title legal description and boundaries of the application area, location of existing buildings, and the location of where the manufactured home or recreational vehicle will be parked;

(b) The connection of the manufactured home or recreational vehicle to any utility shall be in accordance with all applicable regulations of this Code.

(Ord. No. 43-648 § 10)

Sec. 26.04.110. Park and camp location.

All parks and camps shall be located in accordance with the provisions of the Unified Zoning Code, Title 28 of the Code of the City of Wichita, and shall be located on a well drained site property graded to insure adequate drainage and freedom from stagnant pools of water. Plans and specifications for the drainage and grading system, including roadways, storm sewers and appurtenances, and general drainage and grading shall be prepared by a licensed professional engineer.
(Ord. No. 43-648 § 11)

Sec. 26.04.115. Enforcement and inspection.

The Superintendent of Central Inspection, or his designee, and the Director of Environmental Health, or his/her designee, is authorized to inspect and approve the licensee's premises and to insure compliance with all the ordinances of the City of Wichita governing public health, safety and welfare.
(Ord. No. 47-050, § 14, 6-2-06)

Sec. 26.04.117. License—Revocation.

(a) The city council, upon five days' written notice to the licensee shall have the authority to revoke a manufactured home park license for one or more of the following reasons:

(1) The making of a false statement as to a material matter in an application for a license or license renewal;

(2) Violation of any of the provisions of this chapter by the licensee, operator or any employee of the licensee;

In case of the revocation of a license of any license, no new license shall be issued to such person or to any other person acting for or on such person's behalf, for a period of 18 months after the revocation becomes effective.

(b) The order of revocation shall set forth the time period allowed for the licensee to cease park operations. Notice of the revocation shall also be served by the Office of Central Inspection to each manufactured home occupant of the manufactured home park by regular mail, hand delivery or posting of the order on manufactured homes within the park.

(c) Within thirty (30) days after the order revoking any license, the licensee may appeal from such order to the district court of the county in the manner provided by law; provided, that any appeal taken from an order revoking any such license shall suspend the order or revocation during the pendency of such appeal.
(Ord. No. 47-050, § 15, 6-2-06)

Sec. 26.04.119. Reserved.

Editor's note—Ord. No. 47-050, § 16, adopted 6-2-06, repealed § 26.04.009 in its entirety. Formerly said section pertained to appeals and derived from Ord. No. 43-648 § 12.

Sec. 26.04.120. Park and camp layouts.

(a) *Area* — Manufactured home parks shall contain the minimum area as required by the Unified Zoning Code, Title 28 of the Code of the City of Wichita. Trailer camps shall contain a minimum of one thousand five hundred square feet for each camping space.

(b) *Setbacks* — All mobile homes and manufactured homes shall comply with the setbacks and clearances as set forth for manufactured home parks in Article III, Section III.B(10) of the Unified Zoning Code, Title 28 of the Code of the City of Wichita.

Exceptions to accessory structure setback requirements.

1. Accessory structures of noncombustible construction which do not exceed one hundred square feet in area and have no electrical power may be located closer than three feet to the main use structure or other appropriately located accessory structures on the same manufactured or mobile home park lot. Such accessory structures must be located at least ten feet from main use structures on any adjoining lot and at least six feet from any accessory structure on any adjoining lot.
2. Accessory structures exceeding one hundred square feet in area, of combustible construction or with electrical power may be located as close as six feet to the main use structure and as close as three feet to other appropriately located accessory structures on the same manufactured or mobile home park lot. Such accessory structures must be located at least ten feet from all structures on any adjoining lot. If an accessory structure greater than one hundred square feet in area is open on all sides and is constructed of noncombustible materials, such accessory structure may be closer than six feet to the main use structure on the same lot or may even abut the main use structure on the same lot. For such accessory structure, the minimum separation to an adjoining lot structure which is also constructed of noncombustible materials may be reduced from ten feet to six feet by the superintendent of central inspection.

   All recreational vehicles shall be so located as to maintain a set back no less than ten feet from any side or rear boundary line when such boundary is not common to any public street or highway right-of-way.

(c) *Roadway and Sidewalks* — All manufactured home spaces, mobile home spaces or recreational vehicle spaces shall abut upon a park or camp roadway, with no manufactured home, mobile home or recreational vehicle having its direct access from a public street or highway. Roadway widths shall be measured back to back of curbs for new manufactured home parks developed or expanded after January 1, 2007, Roadways where no parking is permitted shall not be less than twenty-four feet. When parking is permitted on one side of the roadway, roadways shall not be less than thirty feet. When parking is permitted

on both sides of the roadways, roadways shall not be less than forty-two feet. It shall be the responsibility of the park operator to post the roadways where parking is prohibited and enforce the limitations. Sidewalks within a park or camp shall be installed as required by the city sidewalk ordinance (Ordinance No. 36-327). All roadways shall have unobstructed access to a public street or highway, with all dead-end roadways being provided an adequate vehicular turnaround (cul-de-sac) with a diameter of not less than seventy feet, or shall have an alternate turnaround area such as hammerheads, etc., as may be approved by the planning department as providing service equal to the cul-de-sac. All park and camp roadways shall be surfaced with concrete, asphaltic concrete, asphalt or other comparable surfacing.

(d) *Storage Lockers* — A storage locker of at least one hundred twenty cubic feet shall be provided for each manufactured home or mobile home space. Storage lockers shall be designed in a manner that will enhance the park and shall be constructed of suitable weather-resistant materials.

(e) *Off-Street Parking* — Surfaced off-street parking shall be provided for each manufactured home, mobile home and recreational vehicle space and any additional parking as required by the Unified Zoning Code, Title 28 of the Code of the City of Wichita. No portion of the park roadways shall be used to provide the required off-street parking.

(f) *Identification of Roadways and Spaces* — All park and camp roadways and manufactured home, mobile home or recreational vehicle spaces shall be clearly identified with letters or numerals of a light-reflecting material. Such letters or numerals are to be a minimum of two inches in height. Such identification shall be in complete agreement with the plan prepared under Section 26.04.070.

(g) *Recreation Space* — Each manufactured home park or expanded nonconforming manufactured home park shall devote at least eight percent of its gross area to recreation space for the use and enjoyment of the occupants of the park. Each such recreational space shall not be less than ten thousand square feet of land area. Required setbacks and clearances and the roadways and off-street parking spaces, shall not be considered as recreational space.

(h) *Screening* — Screening of new or expanded manufactured home parks or expanded nonconforming manufactured home parks must be provided as required by the Unified Zoning Code, Title 28 of the Code of the City of Wichita.

(i) *Lighting* — All park and camp roadways shall be lighted at night with seven-thousand-lumen 1 amps at a maximum interval of two hundred feet located approximately twenty feet from the ground, or friendship lights (gas or electric), with lighting equal to forty watts, and lighted automatically from dusk to dawn, shall be provided for each mobile home space adjacent to the park roadways, or at a maximum interval of seventy-five feet adjacent to camp roadways.

(j) *Landscaping* — Landscaping of new or expanded manufactured home parks or expanded nonconforming manufactured home parks must provide required landscaping in accordance with Chapter 10.32 of the Code of the City of Wichita. (Ord. No. 43-648 § 13; Ord. No. 47-050, § 17, 6-2-06)

Sec. 26.04.130. Service buildings.

Each park serving or intended to serve one or more recreational vehicles, and all camps, shall be provided with one or more service buildings which shall:

(a) Be located no nearer than ten feet from a mobile home or recreational vehicle in a park, nor nearer than ten feet from a recreational vehicle in a camp;

(b) Be so located that any recreational vehicle which it serves shall not be parked more than two hundred feet from it;

(c) Be of permanent type construction and be adequately lighted;

(d) Be of moisture resistant material to permit frequent washing and cleaning;

(e) Have one flush type toilet, one lavatory and one shower or bathtub for females; and one flush type toilet, one lavatory, one shower or bathtub for males for up to nine

recreational vehicles. One additional unit of the above plumbing facilities shall be provided for each sex for each ten additional recreational vehicles served or major fraction thereof. All lavatories, bathtubs and showers shall be connected with both hot and cold running water;

(f) Have adequate heating facilities to maintain a temperature of seventy degrees Fahrenheit in the building and provide hot water (one hundred forty degrees Fahrenheit) at a minimum rate of eight gallons per hour for the required fixture units;

(g) Have an accessible, adequate, safe and potable water supply of cold water;

(h) Have all rooms well ventilated with all openings effectively screened;

(i) Have at least one slop water closet or other facility suitable for the cleaning and sanitizing of bedpans or other waste receptacles;

(j) Comply with all applicable chapters of this Code, regarding the construction of buildings and the installation of electrical, plumbing, heating and air-conditioning systems;

(k) Be maintained in a clean sanitary condition and kept free of any condition that will menace the health of any occupants of the public or constitute a nuisance.

(Ord. No. 38-550 (part))

Sec. 26.04.135. Mobile home park shelters.

(a) *General Requirements.* Every mobile home park of ten or more mobile home spaces which is constructed after April 15, 1994, shall be provided with above-grade or below-grade storm shelters which shall:

(1) Have a minimum floor area of ten square feet for each mobile home space in said mobile home park;

(2) Be designed by a licensed structural engineer or architect and built in accordance with plans sealed by said structural engineer or architect;

(3) Be designed and constructed to meet all Federal Emergency Management Agency (FEMA) requirements and guidelines if the shelter is located in a floodplain;

(4) Be designed and constructed to meet the minimum lighting, ventilation and exiting requirements of the city's currently adopted editions of the Uniform Building Code, Uniform Mechanical Code, Uniform Plumbing Code and National Electrical Code where applicable;

(5) Be designed and constructed to meet all applicable requirements of the Americans with Disabilities Act (ADA);

(6) Be located no farther than one thousand three hundred twenty linear feet from the furthest mobile home space in the mobile home park;

(7) Be designed with a perimeter drainage tile system and sump pump to remove water from the storm shelter (below grade shelter only); and

(8) Be designed with an electrical service for lighting with emergency lights. All one hundred twenty-five volt electrical receptacles shall have ground fault circuit interrupter protection, except single outlet receptacles for sump pump or specified equipment are not required to have ground fault circuit interrupter protection.

(9) Be marked in such a manner that the shelter is clearly visible to park residents. Signs shall state "storm shelter" with lettering at least six (6) inches in height.

(b) *Additions to Existing Parks.* For any addition of ten or more mobile home spaces to any existing mobile home park, a storm shelter which complies with the general requirements of subparagraph (a) of this section shall be provided to serve such additional spaces. For any addition of fewer than ten mobile home spaces to an existing mobile home park which otherwise complies with the requirements of subparagraph (a) or (e) of this section, there is no requirement that an additional shelter be provided to serve such additional spaces; provided, however, that when two or more such additions of fewer than ten mobile home

spaces results in a cumulative addition of ten or more mobile home spaces to a mobile home park which otherwise complies with the requirements of subparagraph (a) or (e) of this section, a storm shelter which complies with the general requirements of subparagraph (a) hereof shall be provided to serve such additional spaces.

(1) Restroom Facilities. Restroom facilities in required storm shelters shall be optional. Toilets may be either flush-type operating from normal water supply, chemical or other types as approved by the Wichita-Sedgwick County health department.

(2) Access to Shelters. The mobile home park owner, or such owner's designated agent or representative, shall be responsible for making the storm shelter accessible and usable in times of need. Such shelters must be accessible whenever the City of Wichita is in a severe thunderstorm or tornado warning issued by the National Weather Service. It is unlawful for any required storm shelter to be used for storage purposes if such storage reduces the minimum floor area available for shelter of persons below the requirements of subparagraph (a) of this section.

(c) *Existing Nonconforming Mobile Home Parks.*

(1) Any mobile home park of ten or more mobile home spaces which has an existing above-grade or below-grade storm shelter as of April 15, 1994, which does not conform with the requirements of this section shall be deemed a nonconforming mobile home park with regard to the requirements for storm shelters and may continue to exist as a nonconforming mobile home park for so long as said existing shelter remains in place and usable; provided, however, that any mobile home spaces added to such park after April 15, 1994, shall require storm shelters as provided in subparagraph (b) of this section.

(2) Any mobile home park of twenty or more spaces which existed prior to April 15, 1994, and which had no above-grade or below-grade storm shelter on the mobile home park site as of April 15, 1994, shall be required to provide a storm shelter which complies with the requirements of this section by April 15, 1999; provided, however, that any mobile home spaces added to such park after April 15, 1994, shall require storm shelters as provided in subparagraph (b) hereof,

(d) *Registration of Existing Shelters.* By August 1, 1994, every owner or operator of any mobile home park of ten or more spaces shall submit a site plan and a written statement setting out the number of mobile home spaces in such park and a description of any storm shelters which existed on-site prior to April 15, 1994. This submission shall be made on forms provided by the office of central inspection and shall be annually updated with the mobile home park license renewal to show changes in the number of mobile home spaces and a description of any storm shelters constructed to serve such park.
(Ord. No. 44-699 § 1; Ord. No. 47-050, § 18, 6-2-06)

Sec. 26.04.140. Water supply.

(a) Required—An accessible, safe and potable supply of water as approved by the health officer shall be provided in each park or camp. If city water is available to the park or camp, it shall be used.

(b) Layout—The size and location of water mains and fire hydrants shall be designed by a licensed professional engineer from either the Wichita water department or by others and shall be in accordance with the requirements of the water department and fire department of the city.

When city water is available, a utility easement for the distribution system shall be granted to the Wichita water department for operation and maintenance purposes. The distribution system shall become the property of the city.

(c) Service Connections—Individual water service connections shall be provided at each mobile home space. Such connections shall be located at least four inches above ground surface, at least three-quarters inch in diameter and equipped with a three-quarters inch valve outlet. The outlet shall be protected from surface water flooding

and all pipes shall be protected against freezing. Below ground shutoff valves may be used but stop and waste valves shall not be used. When service connections are provided for recreational vehicle spaces they shall comply with the above requirements.

(d) Private Water Supply—When a private water supply is provided, it shall provide an adequate water supply with minimum flow rates of four gallons per minute for each of the first five mobile home or recreational vehicle spaces and an additional two gallons per minute for each additional space for the next ten spaces and an additional one and one-half gallons per minute for each additional space for the next twenty-five spaces and an additional one gallon per minute for each additional space. Such system shall provide a minimum of twenty pounds per square inch of pressure at all connections provided.
(Ord. No. 38-550 (part))

Sec. 26.04.150. Sewage disposal.

(a) Individual Sewer Connections—Sewer connections shall be provided for each mobile home space in accordance with Section 16.04.200 of this Code. If individual connections are provided for recreational vehicles, they shall be of similar construction.

(b) Design—Any sewage system connecting to the city sewer system shall be in accordance with all applicable requirements of Chapter 16 of this Code. All sewage systems shall be designed by a licensed professional engineer and shall be submitted for approval by the superintendent of sewer maintenance and the city engineer or their authorized representatives.

(c) Treatment Plant—When the sewer lines of the park or camp are not connected to a public sewer, a sewage treatment plant or sewage disposal system approved by the health officer shall be provided. The design of such facilities for new parks and camps shall be based on their ultimate maximum capacity. The approval of the health officer shall be obtained on the type of treatment proposed and on the design of the facility prior to the construction.

(d) Camps shall provide sanitary stations for the sole purpose of removing and disposing of wastes from holding tanks in a clean, efficient and convenient manner. Sanitary stations shall be approved by the health officer, connected to the sewage system, located not less than fifty feet from any space or other residential area, and be screened from other activities by visual barriers such as fences, walls or natural growth.
(Ord. No. 38-550 (part))

Sec. 26.04.160. Garbage and refuse.

Provisions for garbage and refuse storage, collection and disposal shall be maintained by the operator for licensed manufactured home parks, nonconforming or nonstandard mobile home parks, or camps so as to create no health hazards, rodent harborage, insect breeding areas, accident hazards or air pollution. Such provisions shall comply with the requirements of Chapters 7.08 and 7.40 of the Code of the City of Wichita.
(Ord. No. 43-648 § 14)

Sec. 26.04.170. Rodents and insects.

(a) Maintenance Free from Infestation—Mobile home parks and recreational vehicle campgrounds shall be maintained free of excessive insect or rodent infestation.

(b) Preventive Environmental Maintenance—The mobile home park or recreational vehicle campground management shall keep all areas outside of the confines of the individual mobile homes or recreational vehicles reasonably free of breeding, harboring and feeding places for rodents and insects. Such areas shall be kept free of litter, trash, salvage material, junk and weeds or other obnoxious vegetation growths in excess of twelve inches in height. Individual mobile home or recreational vehicle occupants shall be responsible for the extermination of any insect or rodent infestations occurring within individual mobile homes or recreational vehicles.
(Ord. No. 38-550 (part))

Sec. 26.04.180. Electricity.

A weatherproof electrical outlet supplying at least one hundred ten volts shall be provided for each mobile home or recreational vehicle space.

All electrical wiring shall comply with applicable provisions of the electrical code of the city. No power lines shall be permitted to lie on the ground or to be suspended less than fifteen feet above the ground over any roadway, parking or service area. (Ord. No. 38-550 (part))

Sec. 26.04.190. Fuel gas.

(a) Liquefied Petroleum Gas—When liquefied petroleum gas is used, containers for such gas shall not hold more than twenty-five gallons water capacity; shall be the liquefied petroleum gas containers approved by the Interstate Commerce Commission for its intended purpose; and shall be integrally attached to the mobile home or recreational vehicle in a manner approved by the Liquefied Petroleum Gas Association, Inc. In the absence of the heretofore mentioned installation, aboveground or underground containers may be connected to mobile homes if such containers are located on a firm fire resistive base no closer to a mobile home or building as set forth in Chapter 15.02 of this Code. Such containers shall be connected to a mobile home as required by this Code for any permanent structure and shall be equipped with an excess flow valve at the discharge valve of the container. Gas lines shall be buried a minimum of eighteen inches below grade from the container to a point at or below the mobile home.

(b) Natural Gas—Natural gas may be connected to mobile homes under the following conditions:

(1) All gas lines supplying mobile homes or recreational vehicles shall be of adequate size to provide a sufficient supply of gas that will allow all appliances in the mobile home to operate at their normal rate of capacity;

(2) Where a gas utility company supplies gas to individual mobile homes the service line to the mobile home shall be sized as required by the utility serving the same and a meter loop shall be made in accordance with the requirements of said utility company;

(3) All gas lines including gas service lines serving the mobile home shall be buried not less than eighteen inches below grade to a point at or below the mobile homes and otherwise be installed in accordance with Chapter 21.16 of this Code;

(4) For each individual mobile home there shall be a gas stop cock and an American Gas Association approved flexible connector.

(Ord. No. 38-550 (part))

Sec. 26.04.200. Register.

(a) It shall be the duty of the person operating each park and camp to keep a register containing a record of all mobile home, manufactured home and recreational vehicle owners and tenants located within each park and camp. The register shall contain the name and address of each occupant; the make, model, year and manufacturer of each mobile home, manufactured home or recreational vehicle; the owner of record of each mobile home, manufactured home or recreational vehicle; the dates of arrival and departure of each mobile home, manufactured home or recreational vehicle; including the name of the contractors responsible for connections to the utilities. The person operating each park or camp shall keep the register available for inspection at all reasonable hours by law enforcement officers, assessor, public health officials and other officials whose duties necessitate acquisition of the information contained in the register. The original records of the register shall not be destroyed for a period of three years following the date of registration.

(b) It shall be the duty of the person operating each manufactured home park and camp to notify the inspection officer of every new or relocated mobile home installed within five business days of installation.

(Ord. No. 47-050, § 19, 6-2-06)

Sec. 26.04.210. Alterations and additions to manufactured homes or mobile homes in manufactured home parks or nonconforming or nonstandard mobile home parks.

(a) Alterations and additions to manufactured homes or mobile homes which are affected by provisions contained in this chapter, within or to

a park and facilities, shall be made only after application to the inspection officer and in conformity with all of the sections of this Code.

(b) No additions of any kind shall be built onto or become a part of any manufactured home, mobile home or recreational vehicle.

Exception: Accessory structures not exceeding an area of one hundred square feet of enclosed space, carports and residential patio structures may be attached to or become a part of a manufactured home or mobile home if such structure complies in all respects to the applicable provisions of the building code and other related technical codes and permits are secured from central inspection.

Skirting of manufactured homes or mobile homes is permissible only with noncombustible material; however skirting shall not permanently attach the manufactured home or mobile home to the ground, provide a harborage for rodents or create a fire hazard.

(Ord. No. 38-550(part); Ord. No. 43-648, § 15, 12-9-97)

Sec. 26.04.212. Additions and alterations to homes in a manufactured home subdivision.

Additions and alterations may be made to any manufactured home or modular home in a manufactured home subdivision. Such additions or alterations shall also be placed on a permanent foundation as required by the building code of the city. Whenever any manufactured home or modular home does not have a continuous perimeter foundation, continuous perimeter skirting shall be installed. Such skirting shall be of noncombustible material and resistant to deterioration due to weather.

(Ord. No. 38-550(part))

Sec. 26.04.215. Manufactured home ground anchors.

Every new or relocated manufactured home installed after the effective date of this ordinance codified in this section and regulated by this chapter shall be anchored in accordance with the manufacturer's printed instructions complying with the National Manufactured Home Construction and Safety Standards Act and any regulations promulgated thereunder. It shall be the responsibility of the manufactured home installer to demonstrate compliance with this anchoring requirement, and in the event the owner or licensed manufactured home installer is unable to do so, the manufactured home shall be anchored in the following manner:

(a) Ground anchors shall be attached both to the frame and to straps or cables that pass from one side over the top and down the opposite side.

(b) Ground anchors shall be clearly marked with identification as required by K.S.A. § 75-1228, and as noted on approved certificates issued by the Director of Architectural Services Division of the State Department of Administration.

(c) Each ground anchor shall be capable of withstanding a vertical pull force of 4,750 pounds in place.

(d) The number of anchors required shall be: Three on each lengthwise side for mobile homes not less than 32 feet nor more than 50 feet in length; 4 on each lengthwise side for mobile homes more than 50 feet or not more than 70 feet in length; and 5 on each lengthwise side for mobile homes more than 70 feet in length. Anchors shall be spaced such that each anchor will resist approximately the same force as the others.

(Ord. No. 34-190(part); Ord. No. 43-648, § 16, 12-9-97)

Sec. 26.04.216. Manufactured home anchorage.

Every new or relocated manufactured home installed after the effective date of this ordinance codified in this section and regulated by this chapter shall be anchored in accordance with the manufacturer's printed instructions complying with the National Manufactured Home Construction and Safety Standards Act and any regulations promulgated thereunder. It shall be the responsibility of the manufactured home owner or li-

censed manufactured home installer to demonstrate compliance with this [these] anchoring requirements and in the event the owner or licensed manufactured home installer is unable to do so, the manufacturing [manufactured] home shall be anchored in the following manner:

(a) Strap or cable tie-downs used to connect the mobile home to its anchors shall be of a type that is marked with identification as required by K.S.A § 75-1228, and as noted on approval certificates issued by the Director of Architectural Services Division of the State Department of Administration.

(b) Corner roof protectors shall be used with over-the-top cables or straps which are not factory-installed with the manufactured home.

Ord. No. 34-190(part); Ord. No. 43-648, § 17, 12-9-97)

Sec. 26.04.217. Manufactured home foundations.

Every new or relocated manufactured home installed after the effective date of the ordinance codified in this section and regulated by this chapter shall have a support system in accordance with the manufacturer's printed instructions complying with the National Home Construction and Safety Standards Act and any regulations promulgated thereunder. It shall be the responsibility of the manufactured home owner or licensed manufactured home installer to demonstrate compliance with this requirement and in the event the owner or licensed manufactured home installer is unable to do so, the manufactured home shall be mounted on masonry piers in the following manner:

(a) Foundation footings for piers shall be installed directly under the main frame or chassis of the manufactured home. Foundation footings shall be placed on stable, undisturbed soil from which grass or organic material has been removed, or in controlled fill free of organic material compacted to a minimum load-bearing capacity of 1,000 pounds per square foot. Foundation footings shall consist of no less than one (1) 4-inch thick by 16-inch thick by 16-inch wide by 16-inch long solid concrete block[s] or two (2) 4-inch thick by 8-inch wide by 16-inch long solid concrete blocks with the long dimensions of each block parallel with the steel I-Beam frame. Foundation footings shall have a minimum load-bearing capacity of 2,000 pounds per square foot. Alternate footing materials or designs which have been engineered and tested by an approved testing agency may be authorized by the Superintendent of Central Inspection.

(b) Piers less than 30 inches in height, measured from the top of the foundation footing to the bottom of the I-Beam, shall be constructed of either open cell or solid concrete blocks each of which shall be 8 inches wide, 8 inches high and 16 inches long. Open cell blocks shall be installed with the open cells aligned vertically. A solid wood or concrete cap plate of at least one (1) inch nominal thickness and not greater than 4 inches nominal thickness, 8 inches nominal width and 16 inches long shall be placed on the top of each pier, with weather proof shims when needed, fitted and driven tightly between the wood or concrete cap plate and the main frame I-Beam. Such shims shall not exceed one (1) inch in nominal thickness and shall be at least 4 inches nominal width and 6 inches long. Piers shall be installed perpendicular to the I-Beam. Piers shall not be spaced further apart than 8 feet on centers. The main frame shall not extend further than one (1) foot beyond the center line of the end of the piers. Piers shall be spaced so as not [to] be located directly under the axle mounting(s).

For any pier over 30 inches in height, measured from the top of the foundation footing to the bottom of the I-Beam, the pier shall be double-tiered with blocks interlocked and capped with solid concrete block[s]. The cap plate shall consist of one (1) 4-inch thick by 16-inch wide by 16-inch long solid concrete block or two (2) 4-inch thick by 8-inch wide by 16-inch long

solid concrete blocks. The gap between the cap plate and the main frame may be filled with a piece of solid wood at least one (1) inch in nominal thickness but not greater than two (2) inches nominal thickness, 8 inches nominal width and 16 inches long, centered under the I-Beam. The solid concrete cap [plate] or solid wood piece shall be installed with weather-proof shims, as needed, fitted and driven tightly between the wood or concrete cap plate and the main frame I-Beam. Such shims shall not exceed one (1) inch in nominal thickness and shall be at least 4 inches nominal width and 6 inches in length.

Piers shall not exceed 48 inches in height, unless designed and sealed by a registered professional engineer or architect.

Substitute footing and pier foundation materials may be approved by the Superintendent of Central Inspection if approved by and installed as required by K.S.A § 75-1231.

(Ord. No. 43-648, § 18, 12-9-97)

Sec. 26.04.220. Penalty.

Any person who violates any provision of this chapter is guilty of a misdemeanor and shall be punished by a fine of not more than $500.00 or by imprisonment in the city jail for a period not exceeding one year or by both such fine and imprisonment. Each day that a violation of this chapter occurs constitutes a separate offense and is punishable hereunder as a separate violation.

(Ord. No. 30-782, § 22)

Title 27

FLOOD DAMAGE PREVENTION

Ch. 27.04. Reserved

Ch. 27.06. Floodplain Management

CHAPTER 27.04. RESERVED*

*__Editor's note—__Ord. No. 47-346, § 22, adopted February 13, 2007, repealed the former Ch. 27.04, §§ 27.04.010—27.04.200. The former Ch. 27.04 pertained to similar subject matter and derived from Ord. No. 39-524, §§ 1, 2, 4—9, 11, 19, 20; Ord. No. 40-973, §§ 2—9; Ord. No. 41-515, § 1; Ord. No. 45-291, §§ 1—4. The users' attention is directed to Ch. 27.06 for similar provisions.

CHAPTER 27.06. FLOODPLAIN MANAGEMENT

Sec. 27.06.010. Statement of purpose.
Sec. 27.06.020. Definitions.
Sec. 27.06.030. Applicability.
Sec. 27.06.040. Compliance.
Sec. 27.06.050. Abrogation and greater restrictions.
Sec. 27.06.060. Interpretation.
Sec. 27.06.070. Warning and disclaimer of liability.
Sec. 27.06.080. Designation of Floodplain Administrator; duties and responsibilities.
Sec. 27.06.090. Floodplain development permit.
Sec. 27.06.100. Application for floodplain development permit.
Sec. 27.06.110. Recording of minimum pad elevation information.
Sec. 27.06.120. General standards.
Sec. 27.06.130. Storage of material and equipment.
Sec. 27.06.140. Nonconforming uses.
Sec. 27.06.150. Specific standards.
Sec. 27.06.160. Manufactured homes.
Sec. 27.06.170. Areas of shallow flooding (AO and AH zones).
Sec. 27.06.180. Floodway.
Sec. 27.06.190. Recreational vehicles.
Sec. 27.06.200. Variance procedures.
Sec. 27.06.210. Penalties.

Sec. 27.06.010. Statement of purpose.

It is the purpose of this chapter to promote the public health, safety, and general welfare; to minimize loss of life and property; to establish or maintain the community's eligibility for participation in the National Flood Insurance Program (NFIP) as defined in 44 Code of Federal Regulations (CFR) 59.22(a)(3); to meet the requirements of 44 CFR 60.3(d); K.S.A. 12-741 et seq., and 12-766 by applying the provisions of this chapter to:

1. Restrict or prohibit uses that are dangerous to health, safety, or property in times of flooding or cause undue increases in flood heights or velocities;
2. Require uses vulnerable to floods, including public facilities that serve such uses, be provided with flood protection at the time of initial construction; and
3. Protect individuals from buying lands that are unsuited for the intended development purposes due to the flood hazard.

(Ord. No. 47-346, § 1, 2-13-07; Ord. No. 49-258, § 1, 4-10-2012)

Sec. 27.06.020. Definitions.

Unless specifically defined below, words or phrases used in this chapter shall be interpreted so as to give them the same meaning they have in common usage and to give this chapter it's most reasonable application.

"100-year Flood." See "base flood."

"500-year Flood" has a 0.2% annual chance of flooding in any given year.

"Accessory structure" means the same as "appurtenant structure."

"Actuarial rates." See "risk premium rates."

"Administrator" means the Federal Insurance Administrator.

"Agency" means the Federal Emergency Management Agency (FEMA).

"Appeal" means a request for review of the Floodplain Administrator's interpretation of any provision of this chapter or a request for a variance.

"Appurtenant structure" means a structure that is on the same parcel of property as the principle structure to be insured and the use of which is incidental to the use of the principal structure.

"Area of shallow flooding" means a designated AO or AH zone on a community's Flood Insurance Rate Map (FIRM) with a one percent or greater annual chance of flooding to an average depth of one (1) to three (3) feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

"Area of special flood hazard" is the land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year.

"Base flood" means the flood having a one percent chance of being equaled or exceeded in any given year.

"Base Flood Elevation" or "BFE" means the computed elevation to which floodwater is anticipated to rise during the base flood.

"Basement" means any area of the structure having its floor subgrade (below ground level) on all sides.

"Building." See "structure."

"Chief Engineer" means the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture.

"Chief Executive Officer" or "Chief Elected Official" means the official of the community who is charged with the authority to implement and administer laws, ordinances, and regulations for that community.

"Community" means any State or area or political subdivision thereof, which has authority to adopt and enforce floodplain management regulations for the areas within its jurisdiction.

"Development" means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, levees, levee systems, mining, dredging, filling, grading, paving, excavation or drilling operations, or storage of equipment or materials.

"Elevated building" means for insurance purposes, a non-basement building which has its lowest elevated floor raised above ground level by foundation walls, shear walls, posts, piers, pilings, or columns.

"Eligible community" or "participating community" means a community for which the Administrator has authorized the sale of flood insurance under the National Flood Insurance Program (NFIP).

"Existing Construction" means for the purposes of determining rates, structures for which the "start of construction" commenced before the effective date of the FIRM or before January 1, 1975, for FIRMs effective before that date. "Existing construction" may also be referred to as "existing structures."

"Existing manufactured home park or subdivision" means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by a community.

"Expansion to an existing manufactured home park or subdivision" means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

"Flood" or "flooding" means a general and temporary condition of partial or complete inundation of normally dry land areas from: (1) the overflow of inland waters; (2) the unusual and rapid accumulation or runoff of surface waters from any source; and (3) the collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as a flash flood, or by some similarly unusual and unforeseeable event which results in flooding as defined above in item (1).

"Flood elevation determination" means a determination by the Administrator of the water surface elevations of the base flood, that is, the flood level that has a one percent or greater chance of occurrence in any given year.

"Flood Elevation Study" means an examination, evaluation and determination of flood hazards.

"Flood fringe" means the area outside the floodway encroachment lines, but still subject to inundation by the regulatory flood.

"Flood Insurance Rate Map (FIRM)" means an official map of a community, on which the Administrator has delineated both the special flood hazard areas and the risk premium zones applicable to the community.

"Flood Insurance Study (FIS)" means an examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations.

"Floodplain" or "flood-prone area" means any land area susceptible to being inundated by water from any source (see "flooding").

"Floodplain management" means the operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works, and floodplain management regulations.

"Floodplain management regulations" means zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances (such as floodplain and grading ordinances) and other applications of police power. The term describes such state or local regulations, in any combination thereof, that provide standards for the purpose of flood damage prevention and reduction.

"Floodproofing" means any combination of structural and nonstructural additions, changes, or adjustments to structures that reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, or structures and their contents.

"Floodway" or "regulatory floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

"Floodway encroachment lines" means the lines marking the limits of floodways on Federal, State and local floodplain maps.

"Freeboard" means a factor of safety usually expressed in feet above a flood level for purposes of floodplain management. "Freeboard" tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as bridge openings and the hydrological effect of urbanization of the watershed.

"Functionally dependent use" means a use that cannot perform its intended purpose unless it is located or carried out in close proximity to water. This term includes only docking facilities and facilities that are necessary for the loading and unloading of cargo or passengers, but does not include long- term storage or related manufacturing facilities.

"Highest adjacent grade" means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"Historic structure" means any structure that is (a) listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register; (b) certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district; (c) individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or (d) individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either (1) by an approved state program as determined by the Secretary of the Interior or (2) directly by the Secretary of the Interior in states without approved programs.

"Lowest floor" means the lowest floor of the lowest enclosed area, including basement. An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access, or storage, in an area other than a basement area, is not considered a building's lowest floor, provided that such enclosure is not built so as to render the structure in violation of the applicable flood-proofing design requirements of this ordinance.

"Manufactured home" means a structure, transportable in one or more sections, that is built on a permanent chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The

term "manufactured home" does not include a "recreational vehicle." "Manufactured home park or subdivision" means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

"Map" means the Flood Hazard Boundary Map (FHBM), Flood Insurance Rate Map (FIRM), or the Flood Boundary and Floodway Map (FBFM) for a community issued by the Federal Emergency Management Agency (FEMA).

"Market value" or "fair market value" means an estimate of what is fair, economic, just and equitable value under normal local market conditions.

"Mean sea level" means, for purposes of the National Flood Insurance Program (NFIP), the National American Vertical Datum (NAVD) of 1988 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map (FIRM) are referenced.

"New construction" means, for the purposes of determining insurance rates, structures for which the "start of construction" commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, "new construction" means structures for which the "start of construction" commenced on or after the effective date of the floodplain management regulations adopted by a community and includes any subsequent improvements to such structures.

"New manufactured home park or subdivision" means a manufactured home park or subdivision for which the construction of facilities for servicing the lot on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by the community.

"(NFIP)" means the National Flood Insurance Program (NFIP).

"Participating community" also known as an "eligible community," means a community in which the Administrator has authorized the sale of flood insurance.

"Permit" means a signed document from a designated community official authorizing development in a floodplain, including all necessary supporting documentation such as: (1) the site plan; (2) an elevation certificate; and (3) any other necessary or applicable approvals or authorizations from local, State or Federal authorities.

"Person" includes any individual or group of individuals, corporation, partnership, association, or any other entity, including Federal, State, and local governments and agencies.

"Principally above ground" means that at least 51 percent of the actual cash value of the structure, less land value, is above ground.

"Reasonably safe from flooding" means base flood waters will not inundate the land or damage structures to be removed from the SFHA and that any subsurface waters related to the base flood will not damage existing or proposed buildings.

"Recreational vehicle" means a vehicle which is (a) built on a single chassis; (b) 400 square feet or less when measured at the largest horizontal projections; (c) designed to be self-propelled or permanently able to be towed by a light-duty truck; and (d) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

"Remedy a violation" means to bring the structure or other development into compliance with Federal, State, or local floodplain management regulations; or, if this is not possible, to reduce the impacts of its noncompliance.

"Risk premium rates" means those rates established by the Administrator pursuant to individual community studies and investigations, which are undertaken to provide flood insurance in accordance with Section 1307 of the National Flood Disaster Protection Act of 1973

and the accepted actuarial principles. "Risk premium rates" include provisions for operating costs and allowances.

"Special flood hazard area." See "area of special flood hazard."

"Special hazard area" means an area having special flood hazards and shown on an FHBM, FIRM or FBFM as zones (unnumbered or numbered) A, AO, AE, or AH.

"Start of construction" includes substantial improvements, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition placement, or other improvements were within 180 days of the permit date. The "actual start" means either the first placement of permanent construction of a structure on a site, such as the pouring of slabs or footings, the installation of piles, the construction of columns, any work beyond the stage of excavation, or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling, the installation of streets and/or walkways, excavation for a basement, footings, piers, foundations, the erection of temporary forms, nor installation on the property of accessory structures, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvements, the "actual start of construction" means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

"State coordinating agency" means the Division of Water Resources, Kansas Department of Agriculture, or other office designated by the governor of the state or by state statute at the request of the Administrator to assist in the implementation of the National Flood Insurance Program (NFIP) in that state.

"Structure" means, for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home. "Structure" for insurance purposes, means a walled and roofed building, other than a gas or liquid storage tank that is principally above ground and affixed to a permanent site, as well as a manufactured home on a permanent foundation. For the latter purpose, the term includes a building while in the course of construction, alteration or repair, but does not include building materials or supplies intended for use in such construction, alteration or repair, unless such materials or supplies are within an enclosed building on the premises.

"Substantial damage" means damage of any origin sustained by a structure whereby the cost of restoring the structure to pre-damaged condition would equal or exceed fifty (50) percent of the market value of the structure before the damage occurred.

"Substantial improvement" means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before "start of construction" of the improvement. This term includes structures, which have incurred "substantial-damage," regardless of the actual repair work performed. The term does not, however, include either (1) any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications that have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions, or (2) any alteration of a "historic structure," provided that the alteration will not preclude the structure's continued designation as a "historic structure."

"Variance" means a grant of relief by the community from the terms of a floodplain management regulation. Flood insurance requirements remain in place for any varied use or structure and cannot be varied by the community.

"Violation" means the failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required by this chapter is presumed to be in violation until such time as that documentation is provided.

"Water surface elevation" means the height, in relation to the North American Vertical Datum (NAVD) of 1988 (or other datum where specified) of floods of various magnitudes and frequencies in the floodplain.
(Ord. No. 47-346, § 2, 2-13-07; Ord. No. 49-258, § 2, 4-10-12; Ord. No. 50-381, § 1, 12-13-16)

Sec. 27.06.030. Applicability.

This chapter shall apply to all lands within the City of Wichita identified as special flood hazard area (SFHA), A, AE, AO, AH and AR Zones, on the Flood Insurance Rate Map (FIRM) panels dated December 22, 2016 and the Flood Insurance Study (FIS) as referenced on the associated FIRM index dated December 22, 2016, and any future revisions thereto except where noted in this chapter.
(Ord. No. 47-346, § 3, 2-13-07; Ord. No. 49-258, § 3, 4-10-12; Ord. No. 50-381, § 2, 12-13-16)

Sec. 27.06.040. Compliance.

No development located within the special flood hazard areas of this community shall be located, extended, converted, or structurally altered without full compliance with the terms of this chapter and other applicable regulations.
(Ord. No. 47-346, § 4, 2-13-07)

Sec. 27.06.050. Abrogation and greater restrictions.

It is not intended by this ordinance to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this chapter imposes greater restrictions, the provisions of this chapter shall prevail. All other ordinances inconsistent with this chapter are hereby repealed to the extent of the inconsistency only.
(Ord. No. 47-346, § 5, 2-13-07)

Sec. 27.06.060. Interpretation.

In their interpretation and application, the provisions of this ordinance shall be held to be minimum requirements, shall be liberally construed in favor of the governing body, and shall not be deemed a limitation or repeal of any other powers granted by Kansas statutes.
(Ord. No. 47-346, § 6, 2-13-07)

Sec. 27.06.070. Warning and disclaimer of liability.

The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on engineering and scientific methods of study. Larger floods may occur on rare occasions or the flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris. This chapter does not imply that areas outside the floodway and flood fringe or land uses permitted within such areas will be free from flooding or flood damage. This chapter shall not create a liability on the part of the City of Wichita, any officer or employee thereof, for any flood damages that may result from reliance on this chapter or any administrative decision lawfully made there under.
(Ord. No. 47-346, § 7, 2-13-07)

Sec. 27.06.080. Designation of Floodplain Administrator; duties and responsibilities.

(a) The Superintendent of the Office of Central Inspection is hereby appointed to administer and implement the provisions of this ordinance.

(b) The Floodplain Administrator shall have the authority to administer and implement the provisions of this ordinance in accordance with the effective Flood Insurance Rate Maps (FIRMs) and any future revisions thereto, or with best available data when accessible.

(c) Duties of the Floodplain Administrator shall include, but not be limited to:

(1) Review of all applications for floodplain development permits to assure that sites are reasonably safe from flooding and that the floodplain development permit requirements of this ordinance have been satisfied;

(2) Review of all applications for floodplain development permits for proposed develop-

ment to assure that all necessary permits have been obtained from Federal, State, or local governmental agencies from which prior approval is required by Federal, State, or local law;

(3) Review all subdivision proposals and other proposed new development, including manufactured home parks or subdivisions, to determine whether such proposals will be reasonably safe from flooding;

(4) Issue floodplain development permits for all approved applications;

(5) Notify adjacent communities and the Division of Water Resources, Kansas Department of Agriculture, prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency (FEMA);

(6) Assure that the flood-carrying capacity is not diminished and shall be maintained within the altered or relocated portion of any watercourse; and

(7) Verify and maintain a record of the actual elevation (in relation to mean sea level) of the lowest floor, including basement, of all new or substantially improved structures;

(8) Verify and maintain a record of the actual elevation (in relation to mean sea level) that the new or substantially improved non-residential structures have been floodproofed;

(9) When floodproofing techniques are utilized for a particular non-residential structure, the floodplain administrator shall require certification from a registered professional engineer or architect;

(10) Where interpretation is needed as to the exact location of the boundaries of the areas of special flood hazards (for example, where there appears to be a conflict between a mapped boundary and actual field conditions), the city engineer shall make the necessary interpretation.

(Ord. No. 47-346, § 8, 2-13-07; Ord. No. 50-381, § 3, 12-13-16)

Sec. 27.06.090. Floodplain development permit.

A floodplain development permit shall be required for all proposed construction or other development, including the placement of manufactured homes, in the areas described in section 27.06.030. No person, firm, corporation, or unit of government shall initiate any development or substantial improvements or cause the same to be done without first obtaining a separate floodplain development permit for each structure or other development.

(Ord. No. 47-346, § 9, 2-13-07)

Sec. 27.06.100. Application for floodplain development permit.

To obtain a floodplain development permit, the applicant shall first file an application in writing on a form furnished for that purpose. Every floodplain development permit application shall:

1. Describe the land on which the proposed work is to be done by lot, block and tract, house and street address, or similar description that will readily identify and specifically locate the proposed structure or work;

2. Identify and describe the work to be covered by the floodplain development permit;

3. Indicate the use or occupancy for which the proposed work is intended;

4. Indicate the assessed value of the structure and the fair market value of the improvement;

5. Specify whether development is located in designated flood fringe or floodway;

6. Identify the existing base flood elevation and the elevation of the proposed development;

7. Give such other information as reasonably may be required by the floodplain administrator;

8. Be accompanied by plans and specifications for proposed construction; and

9. Be signed by the permittee or his authorized agent who may be required to submit evidence to indicate such authority.

(Ord. No. 47-346, § 10, 2-13-07)

Sec. 27.06.110. Recording of minimum pad elevation information.

For every development permit issued hereunder, the Administrator shall cause an affidavit to be filed and recorded with the register of deeds of Sedgwick County, Kansas, which affidavit shall contain the following information:

1. The legal description of the subject land;
2. Elevation in relation to mean sea level of the lowest floor (including basement) of all structures;
3. Elevation in relation to mean sea level to which any nonresidential structure is to be floodproofed; and
4. The name or names of the record owners of the subject land.

The cost of the recording of such affidavit shall be at the expense of the applicant for the development permit.

(Ord. No. 47-346, § 11, 2-13-07)

Sec. 27.06.120. General standards.

(a) No permit for floodplain development shall be granted for new construction, substantial improvement, and other improvements, including the placement of manufactured homes, within any numbered or unnumbered A zones, AE, AO, and AH zones, unless the conditions of this Section are satisfied.

(b) All areas identified as unnumbered A zones on the FIRM are subject to inundation of the 100-year flood; however, the base flood elevation is not provided. Development within unnumbered A zones is subject to all provisions of this ordinance. If Flood Insurance Study data is not available, the community shall obtain, review, and reasonably utilize any base flood elevation or floodway data currently available from Federal, State, or other sources.

(c) Until a floodway is designated, no new construction, substantial improvement, or other development, including fill, shall be permitted within any unnumbered or numbered A zones, or AE zones on the FIRM, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one (1) foot at any point within the community.

(d) All new construction, subdivision proposals, substantial improvement, prefabricated structures, placement of manufactured homes, and other developments shall require:

(i) Design or adequate anchorage to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;

(ii) Construction with materials resistant to flood damage;

(iii) Utilization of methods and practices that minimize flood damages;

(iv) All electrical, heating, ventilation, plumbing, air-conditioning equipment, and other service facilities be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding;

(v) New or replacement water supply systems and/or sanitary sewage systems be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems be located so as to avoid impairment or contamination; and

(vi) Subdivision proposals and other proposed new development, including manufactured home parks or subdivisions, located within special flood hazard areas are required to assure that:

(aa) All such proposals are consistent with the need to minimize flood damage;

(bb) All public utilities and facilities, such as sewer, gas, electrical, and water systems are located and constructed to minimize or eliminate flood damage;

(cc) Adequate drainage is provided so as to reduce exposure to flood hazards; and

(dd) All proposals for development, including proposals for manufactured home parks and subdivisions, of greater than five (5) acres or fifty (50) lots, whichever is lesser, include within such proposals base flood elevation data.

(Ord. No. 47-346, § 12, 2-13-07; Ord. No. 50-381, § 4, 12-13-16)

Sec. 27.06.130. Storage of material and equipment.

The storage or processing of materials within the special flood hazard area that are in time of flooding buoyant, flammable, explosive, or could be injurious to human, animal, or plant life is prohibited. Storage of other material or equipment may be allowed if not subject to major damage by floods, if firmly anchored to prevent flotation, or if readily removable from the area within the time available after a flood warning. (Ord. No. 47-346, § 13, 2-13-07)

Sec. 27.06.140. Nonconforming uses.

A structure, or the use of a structure or premises that was lawful before the passage or amendment of the ordinance, but which is not in conformity with the provisions of this chapter, may be continued subject to the following conditions:

1. If such structure, use, or utility service is discontinued for twenty-four (24) consecutive months, any future use of the building shall conform to this ordinance.

2. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than fifty (50) percent of the predamaged market value of the structure. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building, safety codes, regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, the State Inventory of Historic Places, or local inventory of historic places upon determination.

3. Uses or adjuncts thereof which are or become nuisances shall not be entitled to continue as nonconforming uses."

(Ord. No. 47-346, § 14, 2-13-07)

Sec. 27.06.150. Specific standards.

In all special flood hazard areas identified as numbered and unnumbered A zones, AE, and AH zones, where base flood elevation data have been provided, as set forth in section 27.06.120(b), the following provisions are required:

(a) New construction or substantial improvements of any residential structures, including manufactured homes, shall have the lowest floor, including basement, elevated a minimum of two (2) feet above base flood elevation. The elevation of the lowest floor shall be certified by a licensed land surveyor or professional engineer.

(b) New construction or substantial improvements of any commercial, industrial, or other non-residential structures, including manufactured homes, shall have the lowest floor, including basement, elevated a minimum of two (2) feet above the base flood elevation or, together with attendant utility and sanitary facilities, be floodproofed so that below two (2) feet above the base flood elevation the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. The elevation of the lowest floor shall be certified by a licensed land

surveyor or professional engineer. Such certification shall be provided to the Floodplain Administrator as set forth in Section 27.06.080(b)(7,)(8), and (9).

(c) For all new construction and substantial improvement of fully enclosed areas below lowest floor which are used solely for parking of vehicles, building access, or storage in an area other than a basement and that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of flood waters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:

(1) A minimum of two (2) openings having a total net area of not less than one (1) square inch for every square foot of enclosed area subject to flooding shall be provided; and

(2) The bottom of all openings shall be no higher than one (1) foot above grade. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of flood waters.

(Ord. No. 47-346, § 15, 2-13-07; Ord. No. 49-258, § 4, 4-10-12; Ord. No. 50-381, § 5, 12-13-16)

Sec. 27.06.160. Manufactured homes.

(a) All manufactured homes to be placed within all unnumbered and numbered A zones, AE, and AH zones, on the community's FIRM shall be required to be installed using methods and practices that minimize flood damage. For the purposes of this requirement, manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

(b) All manufactured homes that are placed or substantially improved within unnumbered or numbered A zones, AE, and AH zones, on the community's FIRM on sites (1) outside of a manufactured home park or subdivision; (2) in a new manufactured home park or subdivision; (3) in an expansion to and existing manufactured home park or subdivision; or (4) in an existing manufactured home park or subdivision in which a manufactured home has incurred substantial damage as the result of a flood, shall be elevated on a permanent foundation such that the lowest floor of the manufactured home is elevated a minimum of two (2) feet above the base flood elevation and be securely attached to an adequately anchored foundation system to resist flotation, collapse, and lateral movement. The elevation of the lowest floor shall be certified by a licensed land surveyor or professional engineer.

(c) All manufactured homes that are placed or substantially improved on sites in an existing manufactured home park or subdivision within all unnumbered and numbered A zones, AE and AH zones, on the community's FIRM that are not subject to the provisions of subparagraph (b) herein shall be elevated so that either:

(1) The lowest floor of the manufactured home is a minimum of two (2) feet above the base flood level; or

(2) The chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than thirty-six (36) inches in height above grade and that are securely attached to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

The elevation of the lowest floor shall be certified by a licensed land surveyor or professional engineer.

(Ord. No. 47-346, § 16, 2-13-07; Ord. No. 49-258, § 5, 4-10-12)

Sec. 27.06.170. Areas of shallow flooding (AO and AH zones).

Located within the areas of special flood hazard as described herein are areas designated as AO zones and AH zones. These areas have special flood hazards associated with base flood depths of one (1) to three (3) feet where a clearly defined

channel does not exist and where the path of flooding is unpredictable and indeterminate. The following provisions apply:

(a) *In AO Zones.*

(1) All new construction and substantial improvements of residential structures, including manufactured homes, shall have the lowest floor, including basement, elevated above the highest adjacent grade at least two (2) feet above the depth number specified in feet on the community's FIRM (at least three (3) feet if no depth number is specified).

(2) All new construction and substantial improvements of any commercial, industrial, or other non-residential structures, including manufactured homes, shall have the lowest floor, including basement, elevated above the highest adjacent grade at least as high as two (2) feet above the depth number specified in feet on the community FIRM (at least three (3) feet if no depth number is specified) or together with attendant utilities and sanitary facilities be completely floodproofed to that so that the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy.

(3) Adequate drainage paths shall be required around structures on slopes, in order to guide floodwaters around and away from proposed structures.

(b) *In AH Zones.*

(1) The specific standards for all areas of special flood hazard where base flood elevation has been provided shall be required as set forth in section 27.06.150.

(2) Adequate drainage paths shall be required around structures on slopes, in order to guide floodwaters around and away from proposed structures."

(Ord. No. 47-346, § 17, 2-13-07)

Sec. 27.06.180. Floodway.

Located within areas of special flood hazard as defined herein are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of floodwaters that carry debris and potential projectiles, the following provisions shall apply:

(a) The community shall select and adopt a regulatory floodway based on the principle that the area chosen for the regulatory floodway must be designed to carry the waters of the base flood without increasing the water surface elevation of that flood more than one (1) foot at any point.

(b) The community shall prohibit any encroachments, including fill, new construction, substantial improvements, and other development within the adopted regulatory floodway unless it has been demonstrated through hydrologic and hydraulic analyses performed in accordance with standard engineering practice that the proposed encroachment would not result in any increase in flood levels within the community during the occurrence of the base flood discharge.

(c) All new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions contained herein.

(d) In unnumbered A zones, the community shall obtain, review, and reasonably utilize any base flood elevation or floodway data currently available from Federal, State, or other sources as set forth herein".

(Ord. No. 47-346, § 18, 2-13-07)

Sec. 27.06.190. Recreational vehicles.

Recreational vehicles placed on sites within all unnumbered and numbered A Zones, AE, AH, and AO Zones on the FIRM shall either:

(1) Be on the site for fewer than 180 consecutive days, or

(2) Be fully licensed and ready for highway use; or

(3) Meet the permitting, elevation, and anchoring requirements for manufactured homes as set forth herein.

A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick-disconnect type utilities and security devices, and has no permanently attached additions.
(Ord. No. 47-346, § 19, 2-13-07)

Sec. 27.06.200. Variance procedures.

(a) The Floodplain Administrator shall hear and decide appeals and requests for variances from the floodplain management requirements of this ordinance. Applications for variance shall be in writing and on forms provided by the Administrator. A nonrefundable processing fee of one hundred dollars shall be paid to the Administrator at the time of the filing of a request for variance.

(b) The subdivision committee of the Metropolitan Area Planning Commission, the first Appeal Board shall hear appeals from any decision or determination made by the Administrator in the enforcement or administration of this chapter. Such appeals shall be in writing and shall specify the grounds for appeal. Such appeals shall be filed with the secretary of the Metropolitan Area Planning Commission within thirty days of the decision or determination appealed from. The secretary of the Metropolitan Area Planning Commission shall fix a reasonable time for the hearing of appeals, giving notice to the appealing party or parties at least fifteen days prior to such hearing. Appeals shall be decided within a reasonable time. At appeal hearings, any party may appear in person, by agent or by attorney. The subdivision committee may reverse or affirm, in whole or in part or modify the decision or determination appealed from and may make such order, requirement, decision or determination as may be appropriate under the circumstances.

(c) Any person aggrieved by the decision or determination of the subdivision committee may appeal such decision or determination to the Metropolitan Area Planning Commission, the second Appeal Board. The procedure for such appeals shall be as set forth above in subsection (a) for appeals from decisions by the Floodplain Administrator.

(d) Any person aggrieved by the decision or determination of the Metropolitan Area Planning Commission may appeal such decision or determination to the city council, the third Appeal Board. The city council will review such decision or determination in the manner provided above for appeals from decisions by the Administrator, except that such appeals shall be filed with the city clerk and the notice to the appealing party or parties shall be provided at least five days prior to such hearing.

(e) In passing upon such applications for variances, the Administrator and Appeal Boards shall consider all technical data and evaluations, all relevant factors, standards specified in other sections of this ordinance, and the following criteria:

(1) Danger to life and property due to flood damage and erosion damage;

(2) Danger that materials may be swept onto other lands to the injury of others;

(3) Susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

(4) Importance of the services provided by the proposed facility to the community;

(5) Necessity of the facility of a waterfront location, where applicable;

(6) Availability of alternative locations, not subject to flood damage, for the proposed use;

(7) Compatibility of the proposed use with existing and anticipated development;

(8) Relationship of the proposed use to the comprehensive plan and floodplain management program for that area;

(9) Safety of access to the property in times of flood for ordinary and emergency vehicles;

(10) Expected heights, velocity, duration, rate of rise and sediment transport of the flood water, if applicable, expected at the site; and,

(11) Costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems; streets; and bridges;

(f) Variances may be issued for new construction and substantial improvement to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing items one (1) through five (5) below have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.

(1) Variances may be issued for the reconstruction, rehabilitation, or restoration of structures listed on the National Register of Historic Places, the State Inventory of Historic Places, or local inventory of historic places upon determination, provide the proposed activity will not preclude the structure's continued historic designation.

(2) Variances shall not be issued within any designated floodway if any increase in flood discharge would result.

(3) Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

(4) Variances shall only be issued upon: (a) showing of good and sufficient cause, (b) determination that failure to grant the variance would result in exceptional hardship to the applicant, and (c) determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

(5) The City of Wichita shall notify the applicant in writing that: (a) the issuance of a variance to construct a structure below base flood level will result in increased premium rates for flood insurance up to amounts as high as $25.00 for $100.00 of insurance coverage (b) such construction below the base flood level increases risks to life and property. Such notification shall be maintained with the record of all variance actions as required by this ordinance.

(Ord. No. 47-346, § 20, 2-13-07; Ord. No. 49-258, § 6, 4-10-12; Ord. No. 50-381, § 6, 12-13-16)

Sec. 27.06.210. Penalties.

Violation of the provisions of this chapter or failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with granting of variances) shall constitute a misdemeanor. Any person who violates this chapter or fails to comply with any of its requirements shall, upon conviction thereof, be fined not more than $500.00 for each such violation. Each day any such violation continues, shall be considered a separate offense. Nothing herein contained shall prevent the City of Wichita or other appropriate authority from taking such other lawful action as is necessary to prevent or remedy any violation of this chapter. (Ord. No. 47-346, § 21, 2-13-07)

CHAPTER 28.04. ZONING CODE*

Sec. 28.04.010. Adopted.

Sec. 28.04.010. Adopted.

The Wichita-Sedgwick County Unified Zoning Code, October 28, 1999 Edition, prepared by the Wichita-Sedgwick County Metropolitan Area Planning Commission (MAPC), is by reference incorporated in and by this publication made part of this title and chapter as fully as though set out at length herein and is adopted as the zoning regulations for the City of Wichita. Said Unified Zoning Code as recommended by the MAPC at public hearing on October 28, 1999, incorporates all amendments to the June 19, 1997 Edition of the Unified Zoning Code including the amended screening and buffering requirements for new multi-family and manufactured home park developments as adopted by Ordinance No. 43-659, the amended cleanup amendments as adopted by Ordinance No. 43-721, the amended revisions to the tattoo and body piercing parlors as adopted by Ordinance No. 44-098, and numerous cleanup amendments as adopted by Ordinance No. 44-308.

(Ord. No. 46-113 §§ 1—2; Ord. No. 44-714 § 1; Ord. No. 44-427 § 1; Ord. 44-116 §§ 1—7; Ord. No. 43-559)

Editor's note—The Wichita-Sedgwick County Unified Zoning Code incorporated by reference herein can be found online at https://library.municode.com/ks/wichita-sedgwick_county_unified/codes/unified_zoning_code.

*__Cross reference—__As to sale of alcoholic liquor at premises located in areas zoned for a more restricted or higher use than "LC"—light commercial, see § 4.04.020. As to zoning restrictions for amusement parks, see § 3.20.030.

CHAPTER 28.05. SUBDIVISION REGULATIONS

Sec. 28.05.010. Adopted—Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition.
Sec. 28.05.020. Section 7-103 (A).
Sec. 28.05.025. Section 7-103 (E).
Sec. 28.05.030. Section 7-106.
Sec. 28.05.035. Section 7-204 (N).
Sec. 28.05.040. Section 8-102.
Sec. 28.05.045. Section 8-103 (F).
Sec. 28.05.050. Section 8-103 (K).
Sec. 28.05.055. Section 9-103 (G).
Sec. 28.05.060. Section 11-102.
Sec. 28.05.010. Adopted—Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition.

Sec. 28.05.010. Adopted—Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition.

The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition, prepared by the Wichita-Sedgwick County Metropolitan Area Planning Commission is by reference incorporated in and by this publication made part of this title and chapter as fully as though set out at length herein and is adopted as the Subdivision Regulations for the City of Wichita.

(Ord. No. 44-212; Ord. No. 48-180, § 1, 2-10-09; Ord. No. 48-415, § 1, 9-15-09)

Editor's note—Ord. No. 48-180, §§ 1, 2, adopted February 10, 2009, repealed Ch. 28.05, §§ 28.05.010—28.05.026, in their entirety. Formerly, said sections pertained to the Wichita-Sedgwick County Subdivision Regulations, January 28, 1999 Edition Amendments and derived from Ord. No. 44-850; Ord. No. 45-498, § 1.

Sec. 28.05.020. Section 7-103 (A).

Section 7-103 (A) of "The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition" as adopted by reference in Section 28.05.010 of the Code of the City of Wichita as amended by Ordinance No. 48-180 is hereby amended to read as follows:

(A) Special Flood Hazard Areas mapped on Flood Insurance Rate Maps produced by the Federal Emergency Management Agency (FEMA) are under the provisions of Chapter 27.06 of the City of Wichita Code or Chapter 13 of the Sedgwick County Code, which establishes requirements for the lowest floor elevation of residential structures as established by the Federal Flood Insurance Study. For each development in such Special Flood Hazard Areas, a Development Permit must be obtained from the local code enforcement agency. In addition, service facilities shall be elevated or floodproofed above the Base Flood Elevation in compliance with Chapter 27.06 of the City of Wichita Code. Land in Special Flood Hazard Areas may be subdivided or developed into platted lots or unplatted tracts or parcels subject to the provisions of the applicable code.

(Ord. No. 48-415, § 1, 9-15-09)

Sec. 28.05.025. Section 7-103 (E).

Section 7-103 (E) of "The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition" as adopted by reference in Section 28.05.010 of the Code of the City of Wichita as amended by Ordinance No. 48-180 is hereby amended to read as follows:

(E) All plats should be designated in North American Vertical Datum of 1988 (NAVD 88) to conform to the National Flood Insurance Program Studies.

(Ord. No. 48-415, § 2, 9-15-09)

Sec. 28.05.030. Section 7-106.

Section 7-106 of "The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition" as adopted by reference in Section 28.05.010 of the Code of the City of Wichita as amended by Ordinance No. 48-180 is hereby amended to read as follows:

7-106. Erosion Stormwater and Soil Control: Mitigation Plans to Control Pollution. The City or County Engineer will require mitigation plans to control pollution of storm water, in accordance with the applicable Stormwater Pollution Prevention ordinance or federal or state regulations, as part of the development plan for the subdivision. Any mitigation plans for the control of pollution of stormwater required by federal, state or local law, statute, regulation, ordinance, or resolution; or by any local Na-

tional Pollution Discharge Elimination System permit, must be included as part of the development plan for the subdivision. On land subject to excessive soil movement by the forces of wind and/or water and that may cause environmental health hazards, appropriate preventive measures shall be a part of the development plan for the subdivision.

(Ord. No. 48-415, § 3, 9-15-09)

Sec. 28.05.035. Section 7-204 (N).

Section 7-204 (N) of "The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition" as adopted by reference in Section 28.05.010 of the Code of the City of Wichita as amended by Ordinance No. 48-180 is hereby amended to read as follows:

(N) For lots abutting local platted floodways, or in areas of inadequate drainage, the platting of a minimum building opening elevation shall be required. For lots in or abutting the mapped floodplain, the platting of the lowest floor elevation shall be required. The minimum building opening elevation shall be expressed in North American Vertical Datum of 1988 (NAVD 88). The elevation requirement shall be indicated on the face of the plat as well as referenced in the plattor's text.

(Ord. No. 48-415, § 4, 9-15-09)

Sec. 28.05.040. Section 8-102.

Section 8-102 of "The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition" as adopted by reference in Section 28.05.010 of the Code of the City of Wichita as amended by Ordinance No. 48-180 is hereby amended as follows:

In the list of Improvements, replace "Roadways, Alley, Curbs and Gutters, Sidewalks and Street Drainage Facilities" with "Roadways, Alley, Curbs and Gutters, Sidewalks" and also replace "Storm Sewer Systems/Storm Water Management" with "Storm Sewer Systems/ Storm Water Management Facilities/Street Drainage Facilities".

In Column A, replace "Storm Water Engineer" with "City Engineer**".

After the chart, add the following, "**The City's Storm Water Engineer shall have oversight over all stormwater quality matters, requirements of the NPDES program, stormwater management plans, subdivision grading/drainage plans and watershed planning."

(Ord. No. 48-415, § 5, 9-15-09)

Sec. 28.05.045. Section 8-103 (F).

Section 8-103 (F) of "The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition" as adopted by reference in Section 28.05.010 of the Code of the City of Wichita as amended by Ordinance No. 48-180 is hereby amended to read as follows:

(F) Storm Drainage System. For urban subdivisions, a storm drainage system that is both separate and independent of the sanitary sewer system and meets all of the specifications and requirements of the appropriate engineer shall be required. Plans for mitigating stormwater pollution may be required by the engineer. The engineer shall use structural and nonstructural methods that prevent the degradation of stormwater quality to create a long-term, positive impact on the quality of stormwater runoff. Storm sewers shall be connected to the existing storm drainage system of the City where the subdivision is located, the system of the nearest city or to the nearest major water channel. If such connections are not available, other adequate means for the discharge of the storm drainage system shall be provided by the subdivider.

(Ord. No. 48-415, § 6, 9-15-09)

Sec. 28.05.050. Section 8-103 (K).

Section 8-103 (K) of "The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition" as adopted by reference in Section 28.05.010 of the Code of the City of Wichita as amended by Ordinance No. 48-180 is hereby amended to read as follows:

(K) Best Stormwater Management Practices. The subdivider shall take measures during construction to minimize soil erosion

and sedimentation by wind or water, and to mitigate stormwater pollution as required by the City Engineer, Stormwater Engineer, County Engineer, and/or Chapter 16.32 of the City Code.

(Ord. No. 48-415, § 7, 9-15-09)

Sec. 28.05.055. Section 9-103 (G).

Section 9-103 (G) of "The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition" as adopted by reference in Section 28.05.010 of the Code of the City of Wichita as amended by Ordinance No. 48-180 is hereby amended to read as follows:

(G) All plans shall be based on North American Vertical Datum of 1988 (NAVD 88) for vertical control.

(Ord. No. 48-415, § 8, 9-15-09)

Sec. 28.05.060. Section 11-102.

Section 11-102 of "The Wichita-Sedgwick County Subdivision Regulations, December 4, 2008 Edition" as adopted by reference in Section 28.05.010 of the Code of the City of Wichita as amended by Ordinance No. 48-180 is hereby amended by replacing the definitions for Abut, Alley, Benchmark, City, Comprehensive Development Plan, County, Lot line, Manufactured Home Park, Owner, Screening, Setback line, Street, and Topography with the following:

ABUT: Touching, adjoining or contiguous; as distinguished from lying near to or adjacent.

ALLEY: A public right-of-way along the side of or in the rear of lots intended to provide a secondary means of access to and from streets and the lots. An alley is not intended for general traffic circulation.

BENCHMARK: Surveying mark made in some object that is permanently fixed in the ground, showing the height of that point in relation to North American Vertical Datum of 1988 (NAVD 88).

CITY: The City is defined as the City of Wichita, Kansas, unless the context clearly indicates that another city is being referenced.

COMPREHENSIVE DEVELOPMENT PLAN: Preparing for Change: The Wichita-Sedgwick County Comprehensive Plan, as adopted by the Sedgwick County Board of Commissioners and the Wichita City Council in June 1993, the 2005 Update to the Wichita-Sedgwick County Comprehensive Plan: Preparing for Change, as adopted by the Sedgwick County Board of Commissioners and Wichita City Council in May 2005, and as amended from time to time.

COUNTY: The County is defined as unincorporated Sedgwick County, Kansas, unless the context clearly indicates that another meaning is intended.

LOT LINE: A line bounding a lot.

MANUFACTURED HOME PARK: A parcel of land that has been planned and improved in some manner, and used or intended to be used by occupied manufactured homes not placed on permanent foundations. The term "manufactured home park" does not include sales lots where unoccupied manufactured homes, whether new or used, are parked for the purposes of storage, inspection or sale; nor does it include a tract of land where a manufactured home as a second dwelling unit has been permitted on a temporary basis as a conditional use in accordance with the Wichita-Sedgwick County Unified Zoning Code.

OWNER: The property owner of record.

SCREENING: Decorative fencing, walls, vegetation or landscaped earth berms maintained for the purpose of concealing from view the area behind such fence, wall, vegetation or berms.

SETBACK LINE: The line that is the distance that is required by the Wichita-Sedgwick County Unified Zoning Code between a principal structure or accessory structure and the property line of the lot on which the structure is located. Also known as building setback line or yard line.

STREET: A public thoroughfare of such width to conform to these Regulations.

TOPOGRAPHY: The configuration of a surface area showing North American Vertical Datum of 1988 (NAVD 88).

(Ord. No. 48-415, § 9, 9-15-09)

CHAPTER 28.06. LANDSCAPING AND PARKING LOT SCREENING

Sec. 28.06.010. Purpose.
Sec. 28.06.020. Definitions.
Sec. 28.06.030. Required landscaped street yard.
Sec. 28.06.040. Required buffers.
Sec. 28.06.050. Parking lot screening and landscaping.
Sec. 28.06.060. Percentage of living materials.
Sec. 28.06.070. Other landscape regulations.
Sec. 28.06.080. Maintenance.
Sec. 28.06.090. Exceptions and modifications.
Sec. 28.06.100. Water conservation measures; rain shut-off devices required.
Sec. 28.06.110. Enforcement/assurances for installation and completion.
Sec. 28.06.120. Administrative remedies.
Sec. 28.06.130. Penalties.
Sec. 28.06.140. Appeals.
Sec. 28.06.150. Amendments.
Sec. 28.06.160. Severability.

Sec. 28.06.010. Purpose.

The purpose of this Chapter is to enhance the attractiveness of the community through the establishment of landscape requirements for urban development projects. The standards herein shall apply to all new development and certain levels of redevelopment, renovation and/or additions within the corporate boundaries of the City, except single-family residences and duplexes. Parking lot screening and landscaping, but not Landscaped Street Yard requirements, shall apply to development occurring on property in the "CBD" Central Business District as described in the Wichita / Sedgwick County Unified Zoning Code (UZC).

Properly established and maintained landscaping can improve the livability of neighborhoods, enhance the appearance of commercial areas, increase property values, improve relationships between incompatible uses, screen undesirable views, soften the effects of structural features, and contribute to a positive overall image of the community.
(Ord. No. 50-340 § 1, 10-11-16)

Sec. 28.06.020. Definitions.

As used in this Chapter:

"Average Lot Depth" means the horizontal distance between the front and rear lot lines measured along the median between the Side Lot Lines. For multiple-frontage lots, the average Lot Depth measured from each street shall be divided by the total number of streets to obtain one average depth for the lot.

"Berm(s)" means an earthen mound designed to provide visual interest, screen undesirable views and/or decrease noise.

"Board of Zoning Appeals" means the Wichita Board of Zoning Appeals.

"Conifer Tree" means an evergreen tree, usually of the pine, spruce or juniper genus, bearing cones and generally used for its screening qualities. For purposes of these regulations, a Conifer Tree shall be considered a shade tree if it is at least five (5) feet tall when planted and is one of the Evergreen Trees listed in the Kansas Forest Service's publication titled "Preferred Tree Species for South Central Kansas" and will obtain a mature height of twenty (20) feet or greater.

"Deciduous Trees" means trees and shrubs that shed their leaves annually.

"Evergreen" means trees and shrubs that do not shed their leaves annually.

"Ground Cover" means living Landscape Materials or low-growing plants, other than turf grasses, installed in such a manner so as to provide a continuous cover of the ground surface, and which upon maturity normally reach the average maximum height of not greater than twenty-four (24) inches.

"Landscape Materials" means living plants, such as trees, shrubs, vines, ground cover, flowers and grasses. It may include such nonliving features as bark, wood chips, rock, brick, stone or similar materials (monolithic paving not included) and structural and/or decorative features such as fountains, pools, gazebos, walls, fences, benches, light fixtures, sculpture pieces, and earthen Berms, terraces and mounds.

"Landscaping" means the product of careful planning and installation using any combination of Landscape Materials subject to the limitations set out in this Chapter which results in the softening of building lines, the modification of

environmental extremes, the definition of separate functional spaces and the presentation of a pleasing visual effect on the premises.

"Metropolitan Area Building and Construction Department (MABCD)" means the Wichita-Sedgwick County Metropolitan Area Building and Construction Department.

"Mulch" means nonliving organic, inorganic or synthetic materials customarily used in landscape design and maintenance to retard soil erosion, retain moisture, insulate soil against temperature extremes, suppress weeds, deter soil compaction and provide visual interest.

"Ornamental Tree" means a Deciduous Tree possessing qualities such as flowers or fruit, attractive foliage, bark or shape, with a mature height generally under forty (40) feet. Trees listed in the Kansas Forest Service's publication titled "Preferred Tree Species for South Central Kansas" or the Wichita Landscape Ordinance Guidebook as small Deciduous Trees and medium Deciduous Trees will be classified as ornamental trees for purposes of this Chapter.

"Parking Lot" means an area not within a building or other structure where motor vehicles may be stored for the purpose of temporary, daily or overnight off-street parking. This definition shall include vehicle queuing or holding areas such as at car washes, drive-up windows, gasoline pumps, etc., but shall not include vehicle storage and display area for new and used vehicle sales lots or parking for one-family and two-family dwellings.

"Shade Tree" means usually a Deciduous Tree—rarely an Evergreen—planted primarily for its high crown of foliage or overhead canopy. Trees listed in the Kansas Forest Service's publication titled "Preferred Tree Species for South Central Kansas" or the Wichita Landscape Ordinance Guidebook as large Deciduous Trees and very large Deciduous Trees will be classified as Shade Trees for purposes of this Chapter.

"Shrub" or "Shrubbery" means a deciduous or evergreen woody plant smaller than a tree and larger than ground cover, consisting of multiple stems from the ground or small branches near the ground, which attains a height of twenty-four (24) inches or more.

"Site Specific" means that the plant material chosen to be used on a site is particularly well suited to withstand the physical growing conditions which are normal for that location.

"Street Frontage" means the length of the property abutting on one side of a street measured along the dividing line between the property and the street.

"Street Wall" means any building wall facing a street.

"Street Wall Line" means a line that extends from the building parallel to the Street Wall until it intersects a side or rear lot line or a wall line of another building.

"Street Yard" means the area of a lot which lies between the property line abutting a street and the Street Wall Line of the building. If a building has a rounded Street Wall or if the building is on an irregular-shaped lot, street wall lines extending parallel to the street wall from the points of the Street Wall closest to the side property lines shall be used to define the limits of the Street Yard.

"Unified Zoning Code (UZC)" means the Wichita-Sedgwick County Unified Zoning Code.

"Xeriscape" means water conservation through creative landscaping which applies the following seven principles:

(1) Plan and design carefully;

(2) Improve the soil water-holding capacity through use of soil amendments;

(3) Use efficient irrigation methods and equipment;

(4) Select Site-Specific, hardy plant materials, and then group all plants according to their sun and moisture needs;

(5) Use turf grass appropriately in locations where it provides functional benefits;

(6) Mulch;

(7) Give appropriate and timely maintenance.

"Zoning Lot" means a parcel of land that is designated by its owner or developer at the time of applying for an occupancy certificate as a tract, all of which is to be used, developed or built upon as a unit under single ownership. Such lot may consist of

(1) A single lot of record; or

(2) A portion of a lot of record; or

(3) A combination of complete lots of record, complete lots and portions of lots of record, or portions of lots of record.

(Ord. No. 50-340 § 2, 10-11-16)

Sec. 28.06.030. Required landscaped street yard.

A. The minimum amount of Landscaped Street Yard for all uses except single-family, two-family and neighborhood swimming pools, as defined by the UZC, which are adjacent to at-grade expressway or freeway frontage roads, arterial or collector streets designated in the Kansas Department of Transportation Functional Classification Map, or which are adjacent to local streets when across from residential districts, except as provided for in Subsections (A)(4) and (A)(5) of this Section, shall be as follows:

Average Lot Depth (ft.)	*Square Footage Factor (ft^2 / linear foot)*
175.00 or less	8
175.01—275.00	10
275.01—375.00	15
Greater than 375.00	20

1. The square footage per linear foot of Street Frontage may be reduced twenty (20) percent if the minimum planting size of materials specified in Subsections (C)(3) and (C)(4) of this Section is increased by one hundred (100) percent or more.

2. Plants, installation and maintenance techniques meeting the principles of Xeriscape shall be utilized for landscaping required by these regulations.

3. On a Zoning Lot with frontage on two or more streets, each of which requires a Landscaped Street Yard, the Landscaped area requirement shall be based on the sum of the Street Frontages, less the greatest perpendicular distance between the property line abutting a street and the Street Wall Line, multiplied by the factor based on average Lot Depth as referenced above. On multiple-frontage lots where the use of the average Lot Depth, as defined by the Chapter, would require more Landscaped Street Yard than would be required if each Street Frontage were calculated individually, the lesser of the calculations may be used. Although the required amount of Landscaped Street Yard does not have to be equally distributed to the various street frontages, there shall be no less than twenty (20) percent of the total required landscaping within any Street Yard.

4. On collector streets with industrial zoning on both sides of the street, the requirement for a Landscaped Street Yard shall be automatically waived.

5. In the "CBD" Central Business District, no Landscaped Street Yard shall be required.

6. No Landscaped Street Yard shall be required for "vehicle and equipment sales" as defined by the UZC.

B. Minimum number of trees within Street Yards:

There shall be a minimum of one (1) shade tree or two (2) ornamental trees for every five hundred (500) square feet or fraction thereof of the required minimum Landscaped Street Yard.

C. Design standards for Landscaped Street Yards and required trees:

1. Trees shall be located in planter areas of sufficient size and design to accommodate the growth of the trees and protected to prevent damage to the trees by vehicles. A minimum of twenty-five (25) square feet of permeable ground surface area per tree is recommended.

2. The required trees may be clustered along a particular façade or boundary of the project. Trees need not be spaced evenly, although it is permissible to do so, provided adequate distance is maintained between individual specimens. Minimum spacing for ornamental trees is recommended to be fifteen (15) feet and forty (40) or more feet for Shade Trees. The trees shall be selected from a list of tree types that are commonly known to grow in the Wichita area and are listed in the publication prepared by the Kansas Forest Service and titled "Preferred Tree Species for South Kansas" or the Wichita Landscape Ordinance Guidebook.

3. The minimum size at the time of planting of required trees shall be as follows: Shade Trees—two (2) inch or greater caliper measured at a height of six (6) inches above the ground; ornamental trees—one (1) inch or greater caliper measured six (6) inches above the ground; Conifer Trees five (5) feet or more in height.

4. Shrubbery may be substituted for up to one-third (1/3) of the required trees at the rate of ten (10) Shrubs for one (1) required Shade Tree. Substitute Shrubbery shall be of a Site-Specific type that attains a mature height of at least two (2) feet and shall be no less than two (2) gallon container size at the time of planting.

5. The required trees (Shade Trees or ornamental trees but not Conifers) and/or Shrubs may be located in part or in total in adjacent public right of way area if approved as to location by a Right-of-Way Use Permit issued by the Traffic Engineer and approved as to type of tree by the superintendent of landscape and forestry and no conflicts exist with utility locations. Trees and Shrubs should be located no closer than six (6) feet to the Curb line of adjacent streets. Trees should also be located no closer than six (6) feet to either side of a sidewalk unless root barrier materials are installed at the sidewalk on the tree side.

6. Fences which are twenty-five (25) percent or more opaque in design shall be constructed no higher than four (4) feet above the finished grade in a required Landscaped Street Yard when located within a right triangle, the sides of which are formed by a line extending twenty-five (25) feet toward the shrubbery, wall or fence from any vehicular access point along the street right-of-way line and a line extending six (6) feet away from and perpendicular to the street right-of-way line from the same access point.

   Shrubbery and walls which are twenty-five (25) percent or more opaque in design shall be constructed no higher thirty three (33) inches above the bottom of the gutter or the lowest point of the traveled surface of the roadway in a required Landscaped Street Yard when located within a right triangle, the sides of which are formed by a line extending twenty-five (25) feet toward the shrubbery, wall or fence from any vehicular access point along the street right-of-way line and a line extending six (6) feet away from and perpendicular to the street right-of-way line from the same access point.

   Shrubbery, walls, fences, or other obstructions located near the intersection of streets shall maintain sight visibility clearance as specified in Chapter 11.22 of the City Code. All opaque fences shall be located toward the private property side of required Landscaped Street Yards along street right of way to maintain a landscaped appearance along the street.

7. The intent of the Landscaped Street Yard is to visually soften the masses of building and parking lots and to separate building areas from parking areas through the use of plantings. Paved plazas may be credited to a maximum of fifty (50) percent of required Street Yard Landscaping area if such plazas have trees and/or

Shrubbery which provide(s) visual relief to those building elevations forming the major public views of the project. Paved walkways and bike paths connecting public sidewalks to buildings located on private property within a Landscaped Street Yard may also be credited to a maximum of fifty (50) percent of the required Landscaped Street Yard.

(Ord. No. 50-340 § 3, 10-11-16)

Sec. 28.06.040. Required buffers.

A. Buffers between Nonresidential and Residential Development:

1. Where Required. A buffer is required along the common property line of any nonresidential project in any zoning district where such project is adjacent to a residential district.

2. Design Standards. There shall be a minimum of one (1) Shade Tree or two (2) ornamental trees for every forty (40) feet or fraction thereof of lot line abutting the residential district. The trees should generally be evenly spaced, but may be located in a manner to achieve maximum screening benefit. Trees shall be within fifteen (15) feet of the property line common to the residential district. If utility and/or drainage easements occupy this fifteen (15) foot perimeter area, the trees may be located outside the easements. Each tree shall be in a planting area having a minimum permeable ground surface of twenty-five (25) square feet. The minimum size at the time of planting of required trees shall be as follows: Shade Trees—two (2) inch or greater caliper measured at a height of six (6) inches above the ground; ornamental trees—one (1) inch or greater caliper measured at a height of six (6) inches above the ground; Conifer Trees—five (5) feet or more in height. These trees shall be in addition to any screening required by Wichita/Sedgwick County Unified Zoning Code.

B. Buffers between adjacent Multi-Family Residential or Manufactured Home Parks and Single-Family/Two-Family Residential Projects:

1. Where Required. A buffer is required along the side and/or rear lot line of any multi-family project (a project with three or more dwelling units in one building) or manufactured home park in any zoning district where such a project is adjacent to a single-family or two-family zoning district.

2. Design Standards. The required buffer shall be a minimum of fifteen (15) feet in width. There shall be a minimum of one (1) Shade Tree or two (2) ornamental trees and five (5) Shrubs for every thirty (30) feet of the length of the buffer; alternatively, a minimum of one (1) Shade Tree or two (2) ornamental trees for every twenty (20) feet of length of the buffer may be used. A minimum of one-third (1/3) of the trees and Shrubs shall be evergreen. The minimum size at the time of planting of required trees shall be as follows: Shade Tree —two (2) inch or greater caliper measured at a height of six (6) inches above the ground; ornamental trees—one (1) inch or greater caliper measured at a height of six (6) inches above the ground; Conifer Trees—five (5) feet or more in height. The minimum size of Shrubs shall be two (2) gallon containers. The width of the required buffer may be reduced to twelve (12) feet if the minimum planting size of materials is increased by one hundred (100%) percent or more. Parking shall be screened from adjacent residential areas in accordance with the parking lot screening requirements listed below. Required screening may be located within the buffer area. Parking may not be located within the buffer area.

(Ord. No. 50-340 § 4, 10-11-16)

Sec. 28.06.050. Parking lot screening and landscaping.

A. Required Screening. All new parking lots or additions to parking lots shall be continuously screened from view from adjacent residential

districts and certain types of streets when within one hundred fifty (150) feet thereof (measured from the property line adjacent to the street), except at points of vehicular and/or pedestrian ingress and egress, to a minimum height of three (3) feet above the parking surface by the use of Berms and/or plantings, with the following exemptions: (1) open parking lots in one-family and two-family residential projects in any zoning district and (2) open parking lots in industrial districts located on collector streets with industrial zoning on both sides of the street. Walls and fences may be used in combination with Berms and plantings but may not be used as the sole means of screening a parking lot, except in the Central Business District where walls and fences may be used as the sole screening if they are compatible (i.e., similar in color, texture and pattern) with the architectural character of adjacent buildings and if it can be demonstrated that Berms or plantings would result in loss of parking spaces. This requirement shall apply to all at-grade expressway, freeway, and arterial and collector Street Frontages and to all local streets when parking is across from residential zoning districts. On corner lots where parking is within one hundred fifty (150) feet of two (2) or more streets but not all the Street Frontages require parking lot screening (due either to type of street or zoning district across the street), the parking lot screening shall wrap around the corner of the lot from the frontage which does require screening for a distance of not less than one hundred (100) feet.

1. Walls or fences used in combination with Berms and/or plantings shall avoid a blank and monotonous appearance by such measures as architectural articulation and placement of vines, shrubs and/or trees.

2. All screening and landscape elements may be located within and be substituted for required landscape buffers and Street Yards, provided sight clearances are maintained as specified in this Chapter and provided further that the minimum number of trees otherwise required in the yard or buffer are established in the Street Yard. Shrubs used in meeting screening requirements shall not be substituted for required trees.

3. Where walls and fences are to be combined with vines and shrubs to create the screening effect, they should be located in a planting strip with a minimum width of no less than three (3) feet from the edge of any adjacent sidewalk. Landscape Materials shall be located on the public right-of-way side of the wall or fence.

4. Where shrubs, trees and other landscape materials are used exclusively to create the screening effect, they should be located in a planting strip with a minimum width of no less than five feet from the edge of the parking lot paving to the edge of any adjacent sidewalk.

5. Where Berms are to be combined with trees, lawn, turf, grasses, shrubs, walls or fences to create the screening effect, they should be located in a planting strip with a minimum width of no less than ten (10) feet from the edge of the parking lot paving to the edge of any adjacent sidewalk.

6. Planting strips associated with parking lot screening may be located in whole or in part on public street right-of-way on the basis of an approved landscape plan, provided adequate public right of way exists, there is no less than fourteen and one-half feet of right-of-way between the property line and the curb, no conflict exists with public utilities, and the location of Berms, walks, irrigation fixtures and other permanent landscape features is subject to a Right of Way Use Permit granted by the City Engineer.

7. The minimum size at the time of installation of plant materials used for parking lot screening shall be as follows: Shade Trees—two (2) inch or greater caliper measured at a height of six (6) inches above the ground; ornamental trees—one (1) inch or greater caliper measured six (6) inches above the ground; Conifer

Trees—five (5) feet or more in height; Shrubs—eighteen-inch (18) height. Shrubs used for parking lot screening shall be expected to obtain a height of at least thirty-six (36) inches within the third year after planting. Spacing between shrubs will depend upon the type of Shrub but shall be close enough to achieve a visual screen when the plants reach maturity.

8. Evergreen and/or deciduous plant materials may be used, provided a solid screening effect is maintained on at least two-thirds (2/3) of the treated street frontage during all seasons of the year.

9. All screening materials and landscape features shall be protected from vehicular damage or encroachment by appropriately located curbs or wheel stops.

B. Required Landscaping. All new parking lots or additions to parking lots which create twenty (20) or more spaces and which are required to provide screening in accordance with this Chapter shall also be required to provide at least one (1) shade tree or two (2) ornamental trees for each twenty (20) parking spaces or fraction thereof over twenty (20) spaces. Vehicle queuing and holding areas shall not be counted when determining the number of spaces in a lot. Up to one-half (1/2) of all trees required by the Landscaped Street Yard calculations may be used to satisfy these parking lot landscaping requirements. The trees shall be located within and around the parking lot to enhance the appearance of the lot and to reduce the deleterious effect of large expanses of paved areas. In parking lots containing fifty (50) spaces or more with two (2) or more drive aisles and three (3) or more parking bays, all of which are contiguous, at least one-half (1/2) of the required trees shall be planted in interior planting islands with each tree having a minimum permeable ground surface area of twenty-five (25) square feet. Trees shall be protected from possible damage caused by vehicle bumpers by the use of bumper blocks, raised curbs or other protective means. Whenever this requirement results in loss of potential spaces to the extent that the number of parking spaces required by the UZC cannot then be provided, an adjustment in the number of parking spaces shall automatically be granted without having to receive Board of Zoning Appeals' approval. The minimum acceptable tree size at the time of installation shall be a two (2) inch caliper for a shade tree and a one (1) inch caliper for an ornamental tree, both measured at a height of six inches above the ground.
(Ord. No. 50-340 § 5, 10-11-16)

Sec. 28.06.060. Percentage of living materials.

Unless otherwise specified, required landscape area shall consist of a minimum of fifty-five (55) percent in ground surface covering by living grass or other plant materials. The foliage crown of trees that may extend over monolithic paved surfaces beyond the required landscaped area or over nonliving surfaces within the required landscaped area shall not be used in the fifty-five (55) percent or other required percentage calculation. The remaining forty-five (45) percent of the required landscape area may be covered with bark, wood chips, rock, bricks, stone, or similar materials (monolithic paving not included). An effective weed barrier shall be required in nonliving landscaped areas. The use of nonliving materials in required landscape areas for other than mulching around trees, shrubs and planting beds shall be on the basis of a landscape plan submitted for approval to the planning department.
(Ord. No. 50-340 § 6, 10-11-16)

Sec. 28.06.070. Other landscape regulations.

A. Landscaping shall not conflict with the traffic visibility requirements in Chapter 11.22 of this Code.

B. The use of artificial trees, shrubs, vines, turf, or other plants as an outside Landscape Material is not allowed.

C. The planting of Ulmus pumila (Siberian elm) in required landscape areas is not allowed.

D. The planting of female or cotton-bearing cottonwood trees is not allowed in any required landscaped area.

E. Clumped or multi-trunked trees, where used, instead of single-trunk trees, shall be credited as only one of the required trees.

F. Landscaping shall not interfere with the general function, safety or accessibility of any gas, electric, water, sewer, telephone, or other utility easement. Landscaping shall be limited to an eight (8) inch mature height within three (3) feet of a fire hydrant, traffic sign, traffic signal or utility structure.

G. The existing indigenous vegetation on a site is encouraged to be retained in a development project and may be credited toward required landscaping in this Chapter, provided this vegetation is adequately protected during construction to insure long-term survival.

H. Where a calculation of a requirement results in a fractional number (such as 14.2 required trees), the requirement shall be considered the next greatest whole number (such as fifteen (15) required trees).

I. Landscaping in the right of way of a state highway shall be approved by the district engineer, where applicable.

J. Prior to Excavation for screening or landscape purposes within public right-of-way or easements, the location of all underground utilities shall be determined by calling the Kansas One-Call System and physically locating such utilities.

K. Berms, irrigation systems, street furniture, entry monuments, fountains, statuary or similar landscape features may be located within public street rights of way, provided adequate right-of-way exists and a Right-of-Way Use Permit is granted by the City Engineer.

L. Walls on permanent foundations and fences over eight (8) feet in height require a building permit. Walls shall not be constructed within utility easements or street right of way; provided, however, that wall segments on column footings may be permitted across easements if determined appropriate by the City Engineer.

M. Landscape plans shall be submitted showing the location of all Landscape Materials and shall be drawn to scale with the scale and north arrow indicated, as well as names of all adjacent streets, the lot dimensions, the location of all utility and drainage easements, and the legal description of the Zoning Lot. The plans shall contain a listing of the proposed plant materials indicating their numbers, names (both botanical and common) and sizes at the time of planting. The plans shall also state how water is to be provided to plant materials. Copies of the plans shall be submitted to the Metropolitan Area Planning Department in the quantity required by current policy. Statements setting out requirements I, J, K and L above should be included on the landscape plan if they apply to the project. The number of parking spaces within parking lots shall be shown. Calculations of the amount of required Landscaped Street Yard and number of parking lot trees, as well as the amount and number actually provided, shall be included as part of the landscape plan.

N. No more than seventy-five (75) percent of the required landscape areas shall be covered by turf grasses unless the grass is buffalo grass. In addition to required shrubs and trees, a landscape plan may not provide for more than eight-five (85) percent buffalo grass;

O. Plants shall be high quality nursery-grown stock which meets the American Association of Nurserymen standards as specified by the American National Standards Institute in ANSI Z60.1-2014 *et seq*.
(Ord. No. 50-340 § 7, 10-11-16)

Sec. 28.06.080. Maintenance.

A. The landowner is responsible for the maintenance of all Landscaping Materials and shall keep them in a proper, neat and orderly appearance free from refuse and debris at all times.

B. Maintenance shall include mowing, trimming, weeding, cultivation, mulching, tightening and repairing of guys and stakes, resetting plants to proper grades and upright position, restoration of planting saucer, fertilizing, pruning, disease and insect control and other necessary operations.

C. All landscaped areas, except those in the Central Business District "CBD", shall be provided with a readily available permanent water supply; provided, however, that landscaped areas utilizing drought-tolerant plants may use a temporary above ground system and shall be required to provide irrigation for the first two (2) growing seasons only. Irrigation shall not be required for established trees and natural areas that remain undisturbed by development activities. Irrigation systems shall be designed and operated in a manner to avoid water on impervious surfaces and public streets. Long, narrow landscaped areas are difficult to irrigate efficiently, therefore landscaped areas less than five (5) feet in any dimension shall not be irrigated with overhead spray sprinklers. Drip irrigation is acceptable.

D. Disturbed soil between trees and Shrubs in the planting beds shall be mulched, planted or otherwise treated to prevent wind and water erosion.

E. Plants which die shall be replaced within sixty (60) days or, if weather prohibits replanting within that time, then replanting shall occur within the first thirty (30) days of the next planting season.
(Ord. No. 50-340 § 8, 10-11-16)

Sec. 28.06.090. Exceptions and modifications.

The provisions of this Chapter may be modified and/or trade-offs permitted with respect to dimension or location within a property boundary. Permitted forms of modification and exception are identified as follows:

A. For purposes of application of this Chapter, no buffer or screening requirement located on an adjacent property may be utilized unless written permission is granted by the adjacent property owner to utilize existing screening or to allow permission for screening to be planted on the adjacent property, as a portion of a required buffer or screen, nor allowed to be used in a trade-off or modification of a standard.

B. The change in use or redevelopment of a site utilizing all or parts of an existing building(s) shall not be required to meet the landscaping requirements of this Chapter, except as follows:

1. When the value of the new addition, renovation or redevelopment exceeds fifty (50) percent of the value of the existing development, as determined by the County Appraiser's office; or
2. When there is more than a thirty (30) percent increase of the gross floor area on the site.

New parking lots and additions to parking lots which are required to provide landscaping and/or screening in accordance with this Chapter, shall do so even if there is no increase in gross floor area or value.

C. Lots or tracts of land abutting the rights of way of a railroad zoned for residential use and held by title separate from all abutting lands shall not be required to provide landscaped buffers along the common property line.

D. In those instances where a development site abuts a public park or other permanent public open space and where at least one hundred (100) feet of undisturbed natural foliage exists along the common lot line, a landscaped buffer requirement along the common property line is not required; provided, however, loading docks, trash containers, and storage areas on the development site along the common line shall be screened as provided within the UZC.

E. For purposes of this Section, the Planning Director shall have the authority to interpret the language and modify the provisions of this Section in such a manner and extent that is appropriate for the public interest and consistent with the purposes and intent of this Chapter. Appeals of the decisions of Planning Director shall be filed with the Board of Zoning Appeals. If in the opinion of the Planning Director there exists extraordinary conditions of topography, existing vegetation, land ownership, site

boundaries and dimensions, adjacent development characteristics or other circumstances not provided for in this Section, the Planning Director may modify or vary the strict provisions of this Section in such a manner and to such an extent as is deemed appropriate to the public interest, provided that the purposes and intent of this Chapter are maintained through such modification or variance.

F. No property owner obtaining a permit for a project involving a new building or building addition shall be required to expend more than four (4) percent of the total construction cost for materials and installation costs associated with landscaping and parking lot screening required by this ordinance. No property owner obtaining a permit for a project involving only a new or expanded parking lot, with no building construction, shall be required to expend more than eight (8) percent of the total construction cost for materials and installation costs associated with parking lot landscaping and screening required by the ordinance codified in this Section. In order to qualify for this exception, the property owner must submit a bona fide bid from a licensed contractor for the total project construction cost, and a bona fide bid from a licensed contractor or nurseryman for materials and installation costs for an approved landscape plan. The bid for landscaping must distinguish those items which are required by the ordinance from any other items which are not required. If the total cost of required landscaping items exceeds the applicable percentage as specified above, then the property owner may select items at his discretion to delete from the approved plan, and submit the list of items to be deleted as an addendum to the approved plan.

G. The preservation and protection from construction damage of each existing tree of six (6) or more inches in trunk diameter (measured six (6) inches above the ground) within the Street Yard, parking lot, or perimeter buffer area of a site shall account for the equivalent two (2) trees required in that Landscaped Street Yard, parking lot, or perimeter buffer area of the site.

(Ord. No. 50-340 § 9, 10-11-16)

Sec. 28.06.100. Water conservation measures; rain shut-off devices required.

When meeting the landscape requirements outlined in this Chapter, property owners are encouraged to use water in the most efficient way possible. A number of principles for effective water usage are found in the accepted approach to landscaping called Xeriscape. Property owners are encouraged to take advantage of the water-saving practices set out in these principles.

Regardless of the extent to which the principles of Xeriscape are applied automatic irrigation systems installed in association with the landscaping requirements of this Section shall be equipped with moisture-sensing devices or automatic rain shut-off devices that forestall scheduled watering cycles when moisture adequate to sustain healthy plant life is present.

(Ord. No. 50-340 § 10, 10-11-16)

Sec. 28.06.110. Enforcement/assurances for installation and completion.

Prior to the issuance of a certificate of occupancy for any structure where Landscaping is required, except when a certificate of occupancy is obtained by providing acceptable assurance to the City guaranteeing the completion of such landscaping, all work as indicated on a landscaping plan shall be inspected and approved by the MABCD. At the time of inspection, the landowner shall possess a copy of the approved landscaping plan for use by the MABCD.

At the time of inspection, MABCD shall check the quantities and locations of Landscape Materials. At the time of such inspection, the landowner shall warrant that the completed landscaping complies with the requirements of this Section. Such warranty shall include the quantities, locations, species and sizes of plants and other

landscape materials used for compliance. In the event that an inspection is not conducted by the MABCD prior to the issuance of a certificate of occupancy because acceptable assurance has been provided to the City guaranteeing the completion of such Landscaping, such inspection shall be done by the MABCD subsequent to the installation of such Landscaping but prior to the release or expiration of the acceptable assurance.

A landowner may obtain a final certificate of occupancy for a structure prior to the completion of required Landscaping work if the completion is not possible, due to seasonal or weather conditions, and if the landowner submits the necessary assurances to the MABCD for the completion of the Landscaping. The acceptable assurance guaranteeing the completion of the landscaping, such as an irrevocable letter of credit, certified check, or other acceptable assurance, shall be equal to one hundred twenty-five (125) percent of the cost of the Landscaping work, and shall be accompanied by a written assurance that such landscaping will be completed to the satisfaction of the MABCD.
(Ord. No. 50-340 § 11, 10-11-16)

Sec. 28.06.120. Administrative remedies.

Until the provisions of this Chapter, including the conditions of any permits issued thereunder, have been fully met, the City may withhold issuance of any building permit, certificate of occupancy or inspection required under the current Unified Trade and Building Code or the UZC or the City may issue cease and desist orders for further development.
(Ord. No. 50-340 § 12, 10-11-16)

Sec. 28.06.130. Penalties.

Any person, individual, partnership, corporation or association who violates any of the provisions of this Chapter and who fails to correct such a violation upon which a citation has been served is guilty of a misdemeanor and, upon conviction, shall be punished by a fine not to exceed one thousand dollars ($1,000) or by imprisonment of not more than six (6) months, or by both such fine and imprisonment. Each day any violation hereof is found to exist or continues to exist shall be a separate offense and shall be punishable as provided for by this Section.
(Ord. No. 50-340 § 13, 10-11-16)

Sec. 28.06.140. Appeals.

Any person aggrieved by the administration or interpretation of any of the terms or provisions of this Chapter may appeal to the Board of Zoning Appeals which, after hearing and with notice to the applicant and adjoining property owners as provided by Sections 2.12.590 through 2.12.610 of the City Code, may reverse, affirm or modify, in whole or in part, the order, requirement, decision or determination as ought to be made, and to that end shall have the powers of the department or official from whom the appeal is taken.
(Ord. No. 50-340 § 14, 10-11-16)

Sec. 28.06.150. Amendments.

Any amendments to this Chapter, shall be forwarded to the Wichita-Sedgwick County Metropolitan Area Planning Commission for their review and comment.
(Ord. No. 50-340 § 15, 10-11-16)

Sec. 28.06.160. Severability.

If any Section or provision of this Chapter is for any reason held illegal, invalid, or unconstitutional, such action shall not affect the remaining provisions of this ordinance, which shall remain valid to the extent possible.
(Ord. No. 50-340 § 16, 10-11-16)

CHAPTER 28.07. AIRPORT OVERLAY DISTRICTS

Sec. 28.07.010. Title.
Sec. 28.07.020. Intent and purpose.
Sec. 28.07.030. Definitions.
Sec. 28.07.040. Districts.
Sec. 28.07.050. Official map.
Sec. 28.07.060. Use regulations—AOD II-N.
Sec. 28.07.070. Use regulations—AOD III-N.
Sec. 28.07.080. General use regulations.
Sec. 28.07.090. Variance.
Sec. 28.07.100. Violation and penalty.
Sec. 28.07.110. Validity.

Sec. 28.07.010. Title.

Chapter 28.07 of the code of the city shall be known and may be cited as the "McConnell Airport Overlay Districts."
(Ord. No. 41-495 § 1)

Sec. 28.07.020. Intent and purpose.

The intent and purpose of the airport overlay districts is to specify land use controls in addition to those in the underlying zoning district classifications that will ensure a compatible relationship between air force base operations and other land uses in the vicinity of these operations. These districts will protect both the public and the airport by reducing to a minimum, land uses that concentrate large numbers of persons underneath runway takeoff and approach paths, where aircraft accidents are most likely to occur and noise levels are inappropriate for urban-density residential and high intensity nonresidential uses. The area protected falls into both airport hazard zones and accident potential zones.

Based upon the January, 1987 Air Installation Compatible Use Zone Study (AICUZ) for McConnell Air Force Base and based upon the revised accident data for the proposed 1990 AICUZ reports, the governing body finds and determines that airport overlay districts defined herein are areas in significant danger of aircraft accidents because such areas are beneath airspace (takeoffs and approach paths) where the potential for aircraft accidents is likely to occur. The measurements for these districts in this chapter are subject to amendment as changes occur in the takeoff and approach paths, and as types of aircraft operations change.

All uses shall be in compliance with the airport hazard zoning code (Chapter 28.08). In the event of conflict between any airport zoning regulations and any other city regulation applicable to the same property, the more stringent limitation or regulation shall govern and prevail.
(Ord. No. 41-495 § 2)

Sec. 28.07.030. Definitions.

This chapter incorporates the definitions as adopted by reference in Chapter 28.04, and for the purpose of this chapter, the following terms are defined as follows:

ACCIDENT POTENTIAL ZONE (APZ): Land area identified by the Air Installation Compatible Use Zone Study (AICUZ), McConnell AFB, Kansas (January 1987), to be in significant danger of aircraft accidents by being beneath that airspace (takeoff and approach paths) where the potential for aircraft accidents is most likely to occur.

AIRPORT HAZARD ZONE: Any area of land or water where manmade structures, trees or use of land can obstruct the airspace required for the flight of aircraft in landing and taking off at any airport.

AIRPORT OVERLAY DISTRICT: An additional level of zoning requirements providing an extra layer of protection for those parcels of lands within the accident potential zones.

FLOOR AREA RATIO (FAR): The relative comparison of building area to land area determined by dividing the total floor area of all buildings on a platted lot or tract by the total area of the lot or tract.

UNDERLYING ZONE: The existing zoning district classification beneath the airport overlay zone.
(Ord. No. 41-495 § 3)

Sec. 28.07.040. Districts.

The districts of this chapter are in addition and supplemental to those contained in Chapter 28.04. The airport overlay districts for McConnell Air Force are identified as:

AOD II-N-Airport Overlay District II-North

AOD III-N-Airport Overlay District III-North

These airport overlay districts shall be shown on the official map. For the purposes of establishing the map, the following measurements shall be used:

Airport Overlay District II-North (AOD II-N): This district begins three thousand seven hundred fifty feet from the ends of the McConnell Air Force Base parallel runways (19R and 19L) and measures four thousand two hundred fifty feet in length to the northeast. The width of AOD R-N is three thousand eight hundred feet which comprises of an overlap of two three-thousand-foot widths centered upon each of the two parallel runways centerlines which, in turn, are separated by eight hundred feet on centerline.

Airport Overlay District III-North (AOD III-N): This district extends northeast from AOD II-N six thousand feet in length, three thousand eight hundred feet in width.

In the event of conflicts between the official map and these measurements, boundaries established by the map shall control.

Where property is unplatted or undeveloped, only such portions of that land actually within the boundary lines of any airport overlay district shall be considered included therein.

Whenever the boundary line of any airport overlay district divides a platted lot or a building, that entire lot or building is deemed to be within the overlay district.

If a platted lot or building is located within two overlay districts, that entire lot or building is deemed to be within the more restrictive district.

In the event the city shall annex any land included in the McConnell Airport overlay districts established by Sedgwick County, such annexed land shall be subject to this chapter under the procedures of Section 28.04.160A and shall continue to be classed according to and subject to the regulations of the county resolution until the zoning districts or regulations are changed by ordinance.
(Ord. No. 41-495 § 4)

Sec. 28.07.050. official map.

The location and boundaries of the districts shall be shown as specified on the "Official Zoning Map, City of Wichita, Kansas" (Section 28.04.200).
(Ord. No. 41-495 § 5)

Sec. 28.07.060. Use regulations—AOD II-N.

No use shall be allowed in this district except those permitted by this chapter.

PERMITTED USES are all uses permitted by the underlying zoning district, except for the following list of prohibited uses.

1. Residential uses with less than five acres of lot area per dwelling unit;
2. Transient lodging, hotels, motels, recreational vehicle parks;
3. Restaurants, drinking establishments, taverns, private clubs;
4. Retail food stores with gross floor area exceeding three thousand square feet;
5. Hospitals, sanitariums, nursing homes;
6. Day care centers (adults and children) and halfway houses and group homes;
7. Public and private schools (all levels), libraries, museums;
8. Churches and related facilities;
9. Correctional facilities;
10. All indoor/outdoor entertainment and/or recreational facilities that would attract more than twenty-five spectators and/or participants per acre at any one time.

(Ord. No. 41-495 § 6)

Sec. 28.07.070. Use regulations—AOD III-N.

No use shall be allowed in this district except those permitted by this chapter.

PERMITTED USES are all uses permitted by the underlying zoning district, except for the following list of prohibited uses:

1. Residential units with less than six thousand square feet of lot area per dwelling unit.
2. All uses prohibited in AOD II-N, 2 through 10.

(Ord. No. 41-495 § 7)

Sec. 28.07.080. General use regulations.

The following regulations apply to all districts.

1. All regulations of the underlying zone will apply except where specifically modified by this chapter.
2. No lot or tract devoted to retail trade, service or office uses shall exceed 0.2 FAR.
3. No land area used in a building permit that has maximized the FAR allowed may be used in another building permit.
4. All uses legally established on a parcel or tract prior to the effective date of the ordinance codified in this chapter which do not otherwise meet the special requirements of these overlay districts shall be considered permitted uses under this regulation, subject to the following requirements:
   a. The reconstruction, relocation, or conversion of any use or building must be for the same use, similar use, or use of lesser intensity (as determined by maximum occupancies permitted in the building code).
   b. The relocation of any use or building within the districts must be to a location on the same lot or tract or on an adjacent lot or tract that is under the same ownership, and shall not be to a more restrictive district or subdistrict. In the event a use or building is relocated, the use of the vacated building, lot or tract shall no longer be considered a permitted use under this subsection 4.
   c. Any use or building may be expanded so long as the total expansion of the use or building or lot area:
      (1) Does not exceed twenty-five percent of the use or building or lot area at the time of adoption of these regulations;
      (2) Does not violate the height limitations established in the airport hazard zoning code;
      (3) Is intended as an accessory use for storage, warehousing, or other similar low occupancy use; and
      (4) Does not result in an expansion into a more restrictive district or subdistrict.

      For purposes of this subsection 4e, increases in floor areas within an existing building or expansion outside the boundaries of these districts shall not be considered an expansion.
   d. Existing dwelling units may be expanded without any floor area limitation in accordance with the underlying zoning.
   e. The designation of any prior nonconforming use shall not be affected by this subsection 4.
      (5) Administrative offices, engineering offices, computer operations, and similar uses which are accessory to a main use of an industrial or manufacturing nature and are on the same lot or tract or one adjacent to the lot or tract containing the main use shall be considered as part of the industrial or manufacturing use.

(Ord. No. 41-495 § 8)

Sec. 28.07.090. Variance.

The board of zoning appeals is authorized to hear and decide appeals on the interpretation of

these provisions, and to review requests for variances in accordance with the code of the city, Section 2.12.590A and B.
(Ord. No. 41-495 § 9)

Sec. 28.07.100. Violation and penalty.

Any person who shall violate, neglect or refuse to comply with, or who shall maintain, use or construct any building or premises in violation of any of the provisions of this chapter shall, upon conviction be punished by a fine not to exceed five hundred dollars or by imprisonment of not more than six months or both such three and imprisonment, and in addition to the above penalty such actions at law or suits in equity may be maintained by the city or any interested persons, as may be authorized by law.
(Ord. No. 41-495 § 10)

Sec. 28.07.110. Validity.

Should any section, clause or provision of this chapter be declared by any court of competent jurisdiction to be invalid, the same shall not affect the validity of this chapter as a whole, or any part thereof, other than the part so declared to be invalid.
(Ord. No. 41-495 § 11)

CHAPTER 28.08. AIRPORT HAZARD ZONING CODE*

Sec. 28.08.010. Title and authority.
Sec. 28.08.020. Statement of purpose and findings.
Sec. 28.08.030. Applicability.
Sec. 28.08.040. Definitions.
Sec. 28.08.050. Airport overlay surfaces.
Sec. 28.08.060. Wichita Dwight D. Eisenhower National Airport.
Sec. 28.08.070. Colonel James Jabara Airport.
Sec. 28.08.080. McConnell Air Force Base.
Sec. 28.08.090. Beech Factory Airport.
Sec. 28.08.100. Cessna Aircraft Field.
Sec. 28.08.110. Spacing adjacent airports.
Sec. 28.08.120. Airport height limitations and lighting requirements.
Sec. 28.08.130. Use limitations within airport hazard zones and airport overlay surfaces.
Sec. 28.08.140. Nonconforming uses.
Sec. 28.08.150. Code administration and enforcement.
Sec. 28.08.160. Airport hazard zoning maps.
Sec. 28.08.170. Airport hazard zoning permits.
Sec. 28.08.180. Variances.
Sec. 28.08.190. Appeals.
Sec. 28.08.200. Amendments.
Sec. 28.08.210. Penalties.
Sec. 28.08.220. Conflicting regulations.

Sec. 28.08.010. Title and authority.

Created by the City of Wichita and Sedgwick County, the Wichita-Sedgwick County Airport Hazard Zoning Code shall regulate and restrict the height of structures, objects, natural vegetation growth, and other natural or constructed hazards to air navigation within the vicinity of Airports covered under this Code. Creation of appropriate zones and surfaces, establishment of the boundaries thereof, and provision for changes in the restrictions and boundaries of such zones are set forth in this Code.

The Wichita-Sedgwick County Airport Hazard Zoning Map and all notations, references, elevations, data, zone boundaries, and other information thereon are hereby adopted and incorporated into and made part of this Code. It is intended that such restrictions will be coordinated with the restrictions existing under the Wichita-Sedgwick County Unified Zoning Code, including the Airport Overlay District (A-O) contained therein. The official Wichita-Sedgwick County Airport Hazard Zoning Map may be amended from time to time, as provided for in this Code. (Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.020. Statement of purpose and findings.

(A) The Public-Use Airports (Wichita Dwight D. Eisenhower National Airport and Colonel James Jabara Airport) are acknowledged as public facilities that are essential to the local community.

(B) The McConnell Air Force Base is a Military Airport acknowledged as having a long history in Wichita and Sedgwick County, and it is essential to the local community.

(C) The Beech Factory and Cessna Aircraft Field Airports are acknowledged as private facilities, and their continued viability is essential to the local community.

(D) The creation or establishment of an Airport Hazard is a public nuisance and poses a potential concern to the surrounding communities served by the Airports.

(E) There shall be no creation or establishment of a hazard that endangers public health, safety, or welfare; impacts an individual's quality of life; or prevents the safe movement of aircraft at the Airports.

(F) For the protection of public health, safety, and general welfare, and for the promotion of the most appropriate use of land, it is necessary to prevent the creation or establishment of Airport Hazards.

(G) The prevention of Airport Hazards shall be accomplished, to the extent legally possible, by proper exercise of the police power of each respective jurisdiction.

(H) The prevention of new Airport Hazards and the elimination, removal, alteration, mitigation, or marking and lighting of existing Airport Hazards, are considered to be a public purpose for which the City of Wichita and/or Sedgwick

*__Editor's note—__Ord. No. 52-814, § I, adopted Sept. 23, 2025, repealed the former Ch. 28.08, §§ 28.08.010—28.08.260, and enacted a new Ch. 28.08 as set out herein. The former Ch. 28.08 pertained to similar subject matter, and derived from Ord. No. 43-719 §§ 1—26.

County may raise and expend public funds, as an incident to the operation of Airports, to acquire property interest therein.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.030. Applicability.

This Code encompasses the prescribed areas defined in this Code around the Airports, as shown on the officially adopted Wichita-Sedgwick County Airport Hazard Zoning Map.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.040. Definitions.

For the purposes of this Code, words and terms defined in this section shall be given the meanings set forth here. All other words shall be given their common, ordinary meanings, as the context may reasonably suggest.

In case of a dispute over the meaning of a term not defined here or over the application of a definition set forth here, the Zoning Administrator shall give a written interpretation in accordance with Section 28.08.150.

The intent of this Code is to capitalize or enclose in quotations the defined terms, but in those situations where this capitalization or punctuation is omitted, this does not override construing these terms in accord with their defined meanings.

(A) "Aircraft" means a device that is used or intended to be used for flight in the air, including but not limited to: fixed-wing airplanes (single-engine, multi-engine, jet, turbine and/or piston), rotorcraft (including helicopters), gliders, drones, airships, balloons, powered parachutes, and seaplanes.

(B) "Airport" means any area of land or water designed and set aside for the landing and taking-off of Aircraft. The term Airport includes Heliports set aside for the landing and taking-off of rotary wing Aircraft.

(C) "Airport Elevation" means the established Airport Elevation in feet above mean sea level, of the highest point on the landing area which is used or intended to be used for takeoff and landing operations.

(D) "Airport Hazard" means regardless of Height, any natural or constructed hazards to air navigation which may result in glare, visual impairment, wildlife attractants, or other hazards to pilots.

(E) "Airport Hazard Zoning Map" means the *Wichita-Sedgwick County Airport Hazard Zoning Map* compiled from the criteria in Title 14 Code of Federal Regulations Part 77 (14 CFR Part 77), *Objects Affecting Navigable Airspace.* It shows the Airport Hazard Zones, and five (5) Airport Overlay Surfaces and includes the layout of Runways, Airport boundaries, elevations, and area topography. Applicable height limitation areas are shown in detail.

(F) "Airport Overlay Surfaces" means surfaces intended to place height and land use conditions on land impacted by airport operations while retaining the existing underlying zone(s). The (14 CFR Part 77) surfaces and Runway protection zones have been combined to create five (5) overlay surfaces for each Airport identified in this Code. The five (5) specific surfaces create a comprehensive area focused on maintaining compatible land use around Airports.

(G) "Airport Reference Point" means a point at the approximate center of the Airport landing area as shown on the *Wichita-Sedgwick County Airport Hazard Zoning Map.*

(H) "Approach Surface" means a surface longitudinally centered on the extended Runway centerline; extending outward and upward from the end of the Primary Surface and at the same slope as the Approach Surface Height limitation slope set forth in Sections 28.08.050 through 28.08.100 of this Code. In plan view, the perimeter of the Approach Surface coincides with the perimeter of the approach.

(I) "Civilian Airport" means any Airport, public or private, that is not owned or operated by the government of the United States and used for military purposes.

(J) "Conical Surface" means the surface extending upward and outward from the periphery of the Horizontal Surface at a slope of twenty (20) feet horizontally for every one (1) foot vertically (twenty to one, 20:1) for a distance of four thousand (4,000) feet for Civilian Airports and seven thousand (7,000) feet for Military Airports. It is the outermost surface of the overlay areas and has the least number of land use restriction considerations.

(K) "Drone" means an unmanned Aircraft that is operated without the possibility of direct human intervention from within or on the Aircraft.

(L) "FAA" means the Federal Aviation Administration.

(M) "Governing Body" means the Wichita City Council within its incorporated limits and the Sedgwick County Commission for the remainder of unincorporated Sedgwick County.

(N) "Hard Surface" means a Runway consisting of an asphalt or concrete pavement. This does not include Runways consisting of grass or dirt surfaces.

(O) "Height" means the datum means sea level elevation unless otherwise specified, for the purpose of determining the maximum object Height limits in all zones set forth in this Code and shown on the *Wichita-Sedgwick County Airport Hazard Zoning Map.*

(P) "Heliport" means an area on land, water or upon a Structure set aside and used for the landing and takeoff of rotary wing Aircraft and additional facilities that may be provided for the fueling, refueling, repair and storage of rotary wing Aircraft.

(Q) "Horizontal Surface" means for Civilian Airports, the horizontal plane located one hundred fifty (150) feet above the established Airport Elevation, and which begins at the edge of the Transitional Surface and Primary Surface for a distance of five thousand (5,000) feet for Visual Approach Runways, or ten thousand (10,000) feet for all other Runways. For Military Airports, the inner Horizontal Surface is a horizontal plane one hundred fifty (150) feet above the established Airport Elevation, the perimeter of which in plan coincides with the perimeter of the inner Horizontal Surface. For Military Airports, the outer Horizontal Surface is a horizontal plane five hundred (500) feet above the established Airport Elevation, the perimeter of which in plan coincides with the perimeter of the outer Horizontal Surface.

(R) "Larger Than Utility Runway" means a Runway that is constructed for and intended to be used by propeller driven Aircraft of greater than twelve thousand five hundred (12,500) pounds maximum gross weight, and jet-powered Aircraft.

(S) "Manager" means at Wichita Dwight D. Eisenhower National Airport (KICT) and Colonel James Jabara Airports (KAAO), the Director of Airports of the Wichita Airport Authority; at McConnell Air Force Base (KIAB), the Wing Commander; and at Beech Factory Airport (KBEC) and Cessna Aircraft Field (KCEA), the person designated as such by the respective company.

(T) "Military Airport" means an Airport that is owned or operated by the government of the United States and used for military purposes.

(U) "Natural Vegetation" means any tree or other object of natural growth.

(V) "Nonconforming Use" means any preexisting Structure, object of natural growth, or use of land which is inconsistent with the provisions of this Code.

(W) "Non-Precision Instrument Runway" means a Runway with an existing instru-

ment approach procedure utilizing air navigation facilities with only horizontal guidance, or area type navigation equipment, for which a straight-in non-precision instrument approach procedure has been approved or planned, and for which no precision approach facilities are planned or indicated on an FAA planning document or Military Airport planning document.

(X) "Non-Public Use Airport" means any Airport designated for private or restricted use only; not open to the general public.

(Y) "Planning Commission" means the Wichita-Sedgwick County Metropolitan Area Planning Commission.

(Z) "Person" means an individual, firm, partnership, corporation, company, association, joint stock association or governmental entity; includes a trustee, receiver, assignee or similar representative of any of them.

(AA) "Precision Instrument Runway" means a Runway with an existing instrument approach procedure utilizing an instrument landing system (ILS) or precision approach radar (PAR). It also means a Runway for which a precision approach system is planned and is so indicated by an FAA-approved Airport layout plan, a military service-approved Military Airport layout plan, any other FAA planning document, or a military service Military Airport planning document.

(BB) "Primary Surface" means the surface that is longitudinally centered on a Runway. When the Runway has a specially prepared hard surface, the Primary Surface extends two hundred (200) feet beyond each end of that Runway. When the Runway has no specially prepared hard surface, the Primary Surface ends at each end of that Runway. The width of the Primary Surface is two hundred fifty (250) feet, or fifty (50) feet beyond the marked edge of a turf Runway, for Utility Runways with only visual approaches, and five hundred (500) feet for Utility Runways with non-precision instrument approaches. For other than Utility Runways, the width of the Primary Surface is five hundred (500) feet for Visual Runways with only visual approaches; five hundred (500) feet for Non-Precision Instrument Runways with visibility minimums greater than three-fourths (¾) statute mile; one thousand (1,000) feet for a Non-Precision Instrument Runway with a non-precision instrument approach with visibility minimums as low as three-fourths (¾) statute mile and for Precision Instrument Runways. The width of the Primary Surface of a Runway will be that width prescribed in 14 CFR Part 77 Subpart Section 77.19 for the most precise approach existing or planned for either end of that Runway. For Military Airports, Primary Surface means a surface longitudinally centered on each Runway with the same length as the Runway. The width of the Primary Surface for Runways is two thousand (2,000) feet. The elevation of any point on the Primary Surface is the same as the nearest point on the Runway centerline. For Heliports, Primary Surface means an area that coincides in size and shape with the designated takeoff and landing area of a Heliport. This surface is a horizontal plane at the elevation of the established Heliport elevation (see Airport Elevation).

(CC) "Public-Use Airport" means an Airport that is available for use by the general public without a requirement for prior approval of the Airport owner or operator.

(DD) "Runway" means a defined area on an Airport prepared for landing and takeoff of Aircraft along its length.

(EE) "Runway Approach Surface" means the critical overlay surface that reflects the approach and departure areas for each Runway at an Airport. The Runway Approach Surface is longitudinally centered on the extended Runway centerline and extends outward and upward

from the end of the Runway. The approach slope is twenty to one (20:1) for a distance of five thousand (5,000) feet for Visual Runways; thirty-four to one (34:1) for a distance of ten thousand (10,000) feet for all Non-Precision Instrument Runways other than utility; and fifty to one (50:1) for ten thousand (10,000) feet with an additional forty thousand (40,000)feet at a slope of forty to one (40:1) for all Precision Instrument Runways.

(FF) "Runway Protection Surface" means the area off the end of the Runway that is designed to provide a clear area, free of aboveground obstructions including Structures, objects and Natural Vegetation, to enhance the protection of people and property on the ground. This surface is intended to provide a clear area that is free of any above ground obstructions.

(GG) "Structure" means an object, including a mobile object, constructed or installed by man, including, but without limitation buildings, towers, smokestacks, poles, pole lines, light poles, signs, earth formations and overhead transmission lines.

(HH) "Transitional Surface" means the surface extending outward and upward at right angles to the Runway centerline and which extends at a slope of seven (7) feet horizontally for each one (1) foot vertically (seven to one, 7:1) from the sides of the Primary and Runway Approach Surfaces. The Transitional Surfaces extend to the point at which they intercept the Horizontal Surface at a height of one hundred fifty (150) feet above the established Airport Elevation. For those portions of the Precision Approach Surface which project through and beyond the limits of the Conical Surface, the Transitional Surfaces extend a distance of five thousand (5,000) feet measured horizontally from the edge of the Approach Surface and at right angles to the Runway centerline.

(II) "Utility Runway" means a Runway that is constructed for and intended to be used by propeller driven Aircraft of twelve thousand five hundred (12,500) pounds maximum gross weight and less.

(JJ) "Vertiport" means an area of land, water, or a structure used, or intended to be used, to support the landing, takeoff, taxiing, parking, and storage of powered-lift Aircraft.

(KK) "Visual Approach" means an approach to an Airport that is conducted with visual reference to the terrain.

(LL) "Visual Runway" means a Runway that is intended solely for the operation of Aircraft using Visual Approach procedures, with no straight-in instrument approach procedure and no instrument designation indicated on an FAA-approved Airport layout plan or a military service-approved Military Airport layout plan, or by any planning document submitted to the FAA by a competent authority.

(MM) "Zoning Administrator" means the individual appointed by the Director of the Wichita-Sedgwick County Metropolitan Area Planning Department to enforce the provisions of this Code.

(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.050. Airport overlay surfaces.

Airport Overlay Surfaces established by this Code include all the land lying beneath the Runway Protection Surface, Runway Approach Surfaces, Transitional Surfaces, Horizontal Surfaces, and Conical Surfaces of the Airports. These surfaces are as defined under Section 28.08.040, which are more specifically described in 28.08.060 through 28.08.100, and as shown on the Wichita-Sedgwick County Airport Hazard Zoning Map.

(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.060. Wichita Dwight D. Eisenhower National Airport.

(A) Airport Elevation. The established Airport Elevation is one thousand three hundred thirty-two (1,332) feet above mean sea level.

(B) Airport Surfaces and Height Limits. The various surfaces and Height limits for Wichita Mid-Continent Airport are shown on sheet one of the Wichita-Sedgwick County Airport Hazard Zoning Map, and are created and defined as follows:

(1) Runway Larger Than Utility With a Visibility Minimum Greater Than Three-fourths (¾) Mile Non-Precision Instrument Approach Surface (Runways 14 and 32). The inner edge of this Approach Surface coincides with the width of the Primary Surface and is five hundred (500) feet wide. The Approach Surface expands outward uniformly to a width of three thousand five hundred (3,500) feet at a horizontal distance of ten thousand (10,000) feet from the end of the Primary Surface of each Runway. Its centerline is the continuation of the centerline of the Runway. The applicable Height limitation slopes one (1) foot upward for each forty (40) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface and extending to a horizontal distance of ten thousand (10,000) feet along the Runway centerline.

(2) Precision Instrument Runway Approach Surface. (Runways 1L, 19R, 1R and 19L) The inner edge of this Runaway Approach Surface coincides with the width of the Primary Surface and is one thousand (1,000) feet wide. The Runway Approach Surface expands outward uniformly to a width of sixteen thousand (16,000) feet at a horizontal distance of fifty thousand (50,000) feet from the end of the Primary Surface of each Runway. Its centerline is the continuation of the centerline of the Runway. The applicable Height limitation slopes one (1) foot upward for each fifty (50) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface and extending to a horizontal distance of ten thousand (10,000) feet along the extended Runway centerline; thence slopes one (1) foot upward for each forty (40) feet outward to an additional horizontal distance of forty thousand (40,000) feet along the extended Runway centerline.

(3) Transitional Surfaces. The applicable Height limitation slopes one (1) foot upward for each seven (7) feet outward, beginning at the sides of, and at the same elevation as, the Primary Surface and the Runway Approach Surface, and extending to a Height of one hundred fifty (150) feet above the Airport Elevation. In addition to the foregoing, there are established Height limits sloping one (1) foot upward for each seven (7) feet outward beginning at the sides of, and at the same elevation as the Runway Approach Surface and extending to where they intersect the Conical Surface. Where Precision Instrument Runway Approach Surfaces project beyond the Conical Surfaces, there are established Height limits sloping one (1) foot upward for each seven (7) feet outward beginning at the sides of, and the same elevation as the approach surface, and extending a horizontal distance of five thousand (5,000) feet measured at ninety-degree (90°) angles to the extended Runway centerline.

(4) Horizontal Surface. The Horizontal Surface is established by swinging arcs of five thousand (5,000) feet radii for all Runways designated utility or visual and ten thousand (10,000) feet radii for all other Runways from the center of each end of the Primary Surface of each Runway and connecting the adjacent arcs by drawing lines tangent to those arcs. The radii of the arcs for each end of the Runway shall be the same and the radius used shall be the longest determined for either end. The applicable Height limitation is established at one hundred fifty (150) feet above the established Airport Elevation.

(5) Conical Surface. The Conical Surface is established as that area that commences at the periphery of the Horizontal Surface and extends outward for a horizontal

distance of four thousand (4,000) feet. The applicable Height limitation slopes one (1) foot upward for each twenty (20) feet outward beginning at the periphery of the Horizontal Surface and at one hundred fifty (150) feet above the established Airport Elevation and extending to a Height of three hundred fifty (350) feet above the Airport Elevation.

(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.070. Colonel James Jabara Airport.

(A) Airport Elevation. The established Airport Elevation is one thousand four hundred twenty (1,420) feet above mean sea level.

(B) Airport Surfaces and Height Limits. The various surfaces and Height limits for Colonel James Jabara Airport are shown on sheet one of the Wichita-Sedgwick County Airport.

(1) Runway Larger Than Utility With a Visibility Minimum as Low as Three-fourths (¾) Mile Non-Precision Instrument Approach Surface (Runway 36). The inner edge of this Runway Approach Surface coincides with the width of the Primary Surface and is one thousand (1,000) feet wide. The Runway Approach Surface extends outward uniformly to a width of four thousand (4,000) feet at a horizontal distance of ten thousand (10,000) feet from the end of the Primary Surface. Its centerline is the continuation of the centerline of the Runway. The applicable Height limitation slopes one (1) foot upward for each forty (40) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface and extending to a horizontal distance of ten thousand (10,000) feet along the extended Runway centerline.

(2) Precision Instrument Runway Approach Surface (Runway 18). The inner edge of this Runway Approach Surface coincides with the width of the Primary Surface and is one thousand (1,000) feet wide. The Runway Approach Surface extends outward uniformly to a width of sixteen thousand (16,000) feet at a horizontal distance of fifty thousand (50,000) feet from the end of the Primary Surface. Its centerline is the continuation of the centerline of the Runway. The applicable Height limitation slopes one (1) foot upward for each fifty (50) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface and extending to a horizontal distance of ten thousand (10,000) feet along the extended Runway centerline; thence slopes one (1) foot upward for each forty (40) feet outward to an additional horizontal distance of forty thousand (40,000) feet along the extended runway Centerlines.

(3) Transitional Surfaces. The applicable Height limitation slopes one (1) foot upward for each seven (7) feet outward, beginning at the sides of, and at the same elevation as, the Primary Surface and the Runway Approach Surface, and extending to a Height of one hundred fifty (150) feet above the Airport Elevation. In addition to the foregoing, there are established Height limits sloping one (1) foot upward for each seven (7) feet outward beginning at the sides of, and at the same elevation as the Runway Approach Surface, and extending to where they intersect the Conical Surface. Where Precision Instrument Runway Approach Surfaces project beyond the Conical Surface, there are established Height limits sloping one (1) foot upward for each seven (7) feet outward beginning at the sides of, and at the same elevation as the Runway Approach Surface and extending a horizontal distance of five thousand (5,000) feet measured at ninety-degree (90°) angles to the extended Runway centerline.

(4) Horizontal Surfaces. The Horizontal Surface is established by swinging arcs of five thousand (5,000) feet radii for all Runways designated utility or visual and ten thousand (10,000) feet radii for all other Runways from the center of each end of the Primary Surface of each

Runway and connecting the adjacent arcs by drawing lines tangent to those arcs. The radii of the arcs for each end of the Runway shall be the same and the radius shall be the longest determined for either end. The applicable Height limitation is established at one hundred fifty (150) feet above the established Airport Elevation.

(5) Conical Surfaces. The Conical Surface is established as that area that commences at the periphery of the Horizontal Surface and extends outward for a horizontal distance of four thousand (4,000) feet. The applicable Height limitation slopes one (1) foot upward for each twenty (20) feet outward, beginning at the periphery of the Horizontal Surface and at one hundred fifty (150) feet above the established Airport Elevation and extending to a Height of three hundred fifty (350) feet above the Airport Elevation.

(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.080. McConnell Air Force Base.

(A) Airport Elevation. The established Airport Elevation is one thousand three hundred seventy-one (1,371) feet above mean sea level.

(B) Airport Surfaces and Height Limits. The various surfaces and Height limits are shown on sheet one of the Wichita-Sedgwick County Airport Hazard Zoning Map, and are created and defined as follows:

(1) Military Runway Approach Surface (Runways 19L, 1R, 19R, and 1L). The inner edge of this Runway Approach Surface coincides with the width of the Primary Surface and is two thousand (2,000) feet wide for both ends of the Primary Surface of each Runway. The Runway Approach Surface expands uniformly to a width of sixteen thousand (16,000) feet at a horizontal distance of fifty thousand (50,000) feet from both ends of the Primary Surface of each Runway. Its centerline is the continuation of the centerline of the Runway. The applicable Height limitation slopes one (1) foot upward for each fifty (50) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface, extending along the extended Runway centerline until it reaches a Height of five hundred (500) feet above the established Airport Elevation. It then continues horizontally at this elevation to a point fifty thousand (50,000) feet from the point of beginning.

(2) Transitional Surfaces. The applicable Height limitation slopes one (1) foot upward for each seven (7) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface and the Runway Approach Surface, and extending to a Height of one hundred fifty (150) feet above the Airport Elevation. In addition to the foregoing, there are established Height limits sloping one (1) foot upward for each seven (7) feet outward beginning at the sides of, and at the same elevation as the Runway Approach Surfaces, and extending to where they intersect the Conical Surface, or outer Horizontal Surface for Military Airports.

(3) Inner Horizontal Surfaces. For Military Airports the Inner Horizontal Surface is established by describing arcs with radii seven thousand five hundred (7,500) feet from the center of each end of the Primary Surface of each Runway and connecting the adjacent arcs by drawing lines tangent to those arcs. The Inner Horizontal Surface does not include the Runway Approach and Transitional Surfaces. The applicable Height limitation is established at one hundred fifty (150) feet above the established Airport Elevation.

(4) Outer Horizontal Surfaces. For Military Airports the Outer Horizontal Surface is established by constructing a line thirty thousand (30,000) feet from the periphery of the Conical Surface, but does not include Runway Approach Surfaces or Transitional Surfaces. The applicable

Height limitation is established at five hundred (500) feet above the established Airport Elevation.

(5) Conical Surfaces. The Conical Surface is established as the area that commences at the periphery of the Inner Horizontal Surfaces and extends outward for a horizontal distance of seven thousand (7,000) feet to a Height of five hundred (500) feet where it intersects the Outer Horizontal Surfaces. The applicable Height limitation slopes one (1) foot upward for each twenty (20) feet outward, beginning at the periphery of the Inner Horizontal Surface and at one hundred fifty (150) feet above the established Airport Elevation and extending to a Height of five hundred (500) feet above the Airport Elevation.

(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.090. Beech Factory Airport.

(A) Airport Elevation. The established Airport Elevation is one thousand three hundred ninety-eight (1,398) feet above mean sea level.

(B) Airport Surfaces and Height Limits. The various surfaces and Height limits for Beech Factory Airport are shown on sheet one of the Wichita-Sedgwick County Airport Hazard Zoning Map, and are created and defined as follows:

(1) Precision Instrument Runway Approach Surface (Runways 1, 19). The inner edge of this Runway Approach Surface coincides with the width of the Primary Surface and is one thousand (1,000) feet wide. The Runway Approach Surface extends outward uniformly to a width of sixteen thousand (16,000) feet at a horizontal distance of fifty thousand (50,000) feet from the end of the Primary Surface. Its centerline is the continuation of the centerline of the Runway. The applicable Height limitation slopes one (1) foot upward for each fifty (50) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface and extending to a horizontal distance of ten thousand (10,000) feet along the extended Runway centerline; thence slopes one (1) foot upward for each forty (40) feet outward to an additional horizontal distance of forty thousand (40,000) feet along the extended Runway centerline.

(2) Transitional Surfaces. The applicable Height limitation slopes one (1) foot upward for each seven (7) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface and the Runway Approach Surface, and extending to a Height of one hundred fifty (150) feet above the Airport Elevation. In addition to the foregoing, there are established Height limits sloping one (1) foot upward for each seven (7) feet outward beginning at the sides of, and at the same elevation as the Runway Approach Surface and extending to where they intersect the Conical Surface. Where Precision Instrument Runway Approach Surfaces project beyond the Conical Surface, there are established Height limits sloping one (1) foot upward for each seven (7) feet outward beginning at the sides of, and at the same elevation as the Runway Approach Surface and extending a horizontal distance of five thousand (5,000) feet measured at ninety-degree (90°) angles to the extended Runway centerline.

(3) Horizontal Surfaces. The Horizontal Surface is established by swinging arcs of five thousand (5,000) feet radii for all Runways designated utility or visual and ten thousand (10,000) feet radii for all other Runways from the center of each end of the Primary Surface of each Runway and connecting the adjacent arcs by drawing lines tangent to those arcs. The radii of the arcs for each end of the Runway shall be the same and the radius shall be the longest determined for either end. The applicable Height limitation is established at one hundred fifty (150) feet above the established Airport Elevation.

(4) Conical Surfaces. The Conical Surface is established as that area that commences

at the periphery of the Horizontal Surface and extends outward for a horizontal distance of four thousand (4,000) feet. The applicable Height limitation slopes one (1) foot upward for each twenty (20) feet outward, beginning at the periphery of the Horizontal Surface and at, one hundred fifty (150) feet above the established Airport Elevation and extending to a Height of three hundred fifty (350) feet above the Airport Elevation.

(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.100. Cessna Aircraft Field.

(A) Airport Elevation. The established Airport Elevation is one thousand three hundred seventy-eight (1,378) feet above mean sea level.

(B) Airport Surfaces and Height Limits. The various surfaces and Height limits for Cessna Airport are shown on sheet one of the Wichita-Sedgwick County Airport Hazard Zoning Map, and are created and defined as follows:

(1) Runway Larger Than Utility, Visibility Minimum Greater Than Three-fourths (¾) Miles, Non-Precision Instrument Approach Surface (Runways 17 and 35). The inner edge of this Runway Approach Surface coincides with the width of the Primary Surface and is five hundred (500) feet wide. The Runway Approach Surface expands outward uniformly to a width of three thousand five hundred (3,500) feet at a horizontal distance of ten thousand (10,000) feet from the Primary Surface. Its centerline is the continuation of the centerline of the Runway. The applicable Height limitation slopes one (1) foot upward for each forty (40) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface and extending to a horizontal distance of ten thousand (10,000) feet along the extended Runway centerline.

(2) Transitional Surfaces. The applicable Height limitation slopes one (1) foot upward for each seven (7) feet outward, beginning at the end of, and at the same elevation as, the Primary Surface and the Runway Approach Surface, and extending to a Height of one hundred fifty (150) feet above the Airport Elevation. In addition to the foregoing, there are established Height limits sloping one (1) foot upward for each seven (7) feet outward beginning at the sides of, and at the same elevation as, the Runway Approach Surface and extending to where they intersect the Conical Surface.

(3) Horizontal Surfaces. The Horizontal Surface is established by swinging arcs of five thousand (5,000) feet radii for all Runways designated utility or visual and ten thousand (10,000) feet radii for all other Runways from the center of each end of the Primary Surface of each Runway and connecting the adjacent arcs by drawing lines tangent to those arcs. The radii of the arcs for each end of the Runway shall be the same and the radius shall be the longest determined for either end. The applicable Height limitation is established at one hundred fifty (150) feet above the established Airport Elevation.

(4) Conical Surfaces. The Conical Surface is established as that area that commences at the periphery of the Horizontal Surface and extends outward for a horizontal distance of four thousand (4,000) feet. The applicable Height limitation slopes one (1) foot upward for each twenty (20) feet outward, beginning at the periphery of the Horizontal Surface and at one hundred fifty (150) feet above the established Airport Elevation and extending to a Height of three hundred fifty (350) feet above the Airport Elevation.

(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.110. Spacing adjacent airports.

(A) No new Airport shall be established, nor shall any existing Airport be improved with approach guidance equipment, to enhance instrument flight rule (IFR) capabilities, any portion of a proposed or existing boundary will be under an Airport Overlay Zone established by this Code or

within a radius of eight (8) miles from an Airport Reference Point of an Airport established on the date of this Code, unless a permit has been granted in accordance with the provisions of this Code. Prior to granting any such permit, the Governing Body shall for the purpose of study, comment and recommendation, refer the matter to the Federal Aviation Administration, the manager of each Airport included within this Code, the Wichita-Sedgwick County Metropolitan Area Planning Department and to any other local planning body having either planning or land use control jurisdiction within the area affected.

(B) Exceptions to the spacing requirements provided herein may be granted by the Governing Body when all of the following conditions have been met:

1. Receipt of a proper application;
2. Referral of the matter to FAA, all Airports referenced in this Code, MAPC, and any other local planning body for study, comment, and recommendation;
3. A public hearing is held; and
4. A finding that special conditions exists which makes literal enforcement of the spacing requirements an unnecessary hardship and that an exception would not be contrary to public interest.

(C) If any of the aforementioned entities to whom the matter shall have been referred does not, within sixty (60) days, transmit a report to the Governing Body, then it shall be deemed to have approved the proposal; provided, however, that upon request of any such entity, the Governing Body shall grant a reasonable extension of such time.

(D) In granting such exception, the Governing Body shall impose special conditions which will ensure that public interest, existing public and private investment in Airports, and air safety are maintained.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.120. Airport height limitations and lighting requirements.

Unless otherwise provided for in this Code, no Structure, object, Natural Vegetation, or terrain shall be erected, altered, allowed to grow, or be maintained within any Airport Hazard Zone as specified in Section 28.08.170, or any Airport Overlay Surface established by this Code to a Height in excess of the applicable Height limitations established by 14 CFR Part 77, *Imaginary Surfaces,* as depicted on the Wichita-Sedgwick County Airport Hazard Zoning Map. Where two (2) or more surfaces overlap, the more restrictive limitation or requirement shall govern and prevail.

Lighting and marking requirements will be determined through an FAA 7460-1 airspace analysis. The owner of any Structure, object, Natural Vegetation, or terrain shall install, operate, and maintain such markers, lights, and other navigational aids necessary to indicate the presence of an Airport Hazard to Aircraft operators. Any permit or variance granted may, - if such action is deemed advisable to effectuate the purpose of this Code and is reasonable in the circumstances - be so conditioned as to require the owner of the Structure, object, or Natural Vegetation in question to install, operate, and maintain, at the owner's expense, such markings and lighting as specified by the standards in the most current version of FAA Advisory Circular (AC) 70/7460-1. If deemed necessary by the Governing Body, this condition may be modified to require the owner to permit the installation, operation, and maintenance of the necessary markings and lighting in accordance with the standards in the most current version of FAA AC 70/7460-1, at the expense of the owner(s) of the affected Airport.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.130. Use limitations within airport hazard zones and airport overlay surfaces.

Notwithstanding any other provision of this Code, no use may be made of land or water within any Airport Overlay Zones or any Airport Overlay Surfaces established by this Code in such manner as to make it difficult for pilots to

distinguish between airfield lights and other lights, result in glare in the eyes of the pilots using the Airports, create smoke, impair visibility, create bird strike hazards or otherwise in any way, endanger or interfere with the landing, takeoff or maneuvering of Aircraft intending to use the Airport.

A shield that reduces the amount of light visible from above and directs the light downward shall be required for all outdoor lights, except those incidental to residential uses, installed after the effective date of this Code, within the limits of the Horizontal, Inner-Horizontal, Transitional or Runway Approach Surfaces.

Nothing in this Code shall be construed as prohibiting the construction or maintenance of any Structure or growth of any Natural Vegetation to a Height of twenty-five (25) feet above the surface of the land.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.140. Nonconforming uses.

(A) Regulations Not Retroactive. The regulations prescribed by this Code shall not be construed to require the removal, lowering or other changes or alteration of any Structure or tree not conforming to the regulations as of the effective date of this Code or to otherwise interfere with the continuance of a nonconforming use. Nothing contained in this Code shall require any change in the construction, alteration or intended use of any Structure, the construction or alteration of which was begun prior to the effective date of this Code, and diligently prosecuted.

(B) Marking and Lighting. Notwithstanding the preceding provision of this section, the owner of any existing nonconforming Structure or tree shall operate and maintain such markers and lights in accordance with standards as set forth in the FAA Circular "Obstruction Marking and Lighting" (No. AC70/74609-1 F) to indicate to the operators of Aircraft in the vicinity of the Airports the presence of Airport Hazards. The maintenance, operation and installation of such markers and lights on such nonconforming Structures and trees, shall be the responsibility of the owner or owners of the affected Airport.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.150. Code administration and enforcement.

It shall be the duty of the Zoning Administrator to administer and enforce the regulations prescribed herein, including the authority to make written interpretations of this Code. Applications for Airport Hazard Zoning Permits, variances and written interpretations shall be made to the Zoning Administrator upon forms furnished by the Zoning Administrator. Airport Hazard Zoning Permit applications shall be either granted or denied by the Zoning Administrator in accordance with the regulations prescribed herein. Any variance shall be done in accordance with Section 28.08.180 and any appeal shall be done in accordance with Section 28.08.190. In addition, the Zoning Administrator may cause to be instituted in any court of competent jurisdiction an action to prevent, restrain, correct or abate any violation of this Code, or of any order or ruling made in connection therewith as provided by law.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.160. Airport hazard zoning maps.

The officially adopted Wichita-Sedgwick County Airport Hazard Zoning Map is to be kept on file in the office of the Zoning Administrator and the Metropolitan Area Planning Department. The map shall be amended as described in Section 28.08.200, when changes occur within the jurisdictional boundaries of the map.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.170. Airport hazard zoning permits.

Any tower, Structure, or object which transmits a signal requires an Airport Hazard Zoning Permit without exception. Any other Structure, object or Natural Vegetation which exceeds the Height limits specified in the Airport Hazard Zoning Map requires an Airport Hazard Zoning Permit, except as provided below.

Exceptions:

(1) In the area lying within the boundaries of Zone A shown on sheet two of the Wichita-Sedgwick County Airport Hazard

Zoning Map, no permit shall be required under this section for any Structure less than twenty-five (25) feet of vertical Height above the ground.

(2) In the area lying within the boundaries of Zone B shown on sheet two of the Wichita-Sedgwick County Airport Hazard Zoning Map, no permit shall be required under this section for any Structure less than fifty (50) feet of vertical Height above the ground, except when, because of terrain, land contour or topographic features, such Structure would extend above the Height limits prescribed for Runway Approach, Conical, Transitional or Horizontal Surfaces.

(3) In the area lying within the boundaries of Zone C shown on sheet two of the Wichita-Sedgwick County Airport Hazard Zoning Map, no permit shall be required under this section for any Structure less than one hundred (100) feet of vertical Height above the ground, except when, because of terrain, land contour, or topographic features, such Structure would extend above the Height limits prescribed for Runway Approach, Conical, Transitional or Horizontal Surfaces.

(4) In the area lying within the boundaries of Zone D shown on sheet two of the Wichita-Sedgwick County Airport Hazard Zoning Map, no permit shall be required under this section for any Structure less than two hundred (200) feet of vertical Height above the ground, except when, because of terrain, land contour, or topographic features, such Structure would extend above the Height limits prescribed for Runway Approach, Conical, Transitional or Horizontal Surfaces.

The applicant proposing any Structure, object or Natural Vegetation which exceeds the Height limits specified in the Airport Hazard Zoning Map, or a tower, Structure, or object of any Height which transmits a signal, shall utilize the FAA's Notice Criteria Tool. After utilizing the FAA Notice Criteria Tool, the following shall be submitted to the Zoning Administrator for review:

(1) A letter from the FAA Notice Criteria Tool that no Form 7460-1 is requested or required to be filed; or

(2) An FAA Obstruction Evaluation/Airport Airspace Analysis (OE/AAA) Determination.

It shall be the duty of the applicant to provide the Zoning Administrator with sufficient information to evaluate the proposed action. This information shall include, but not be limited to, the following:

- Contact information
- Structure information
- Site information
- Drawing information
- Effective radiated power (ERP) and frequencies emitted from the structure (if any), proximity to navigation facilities and potential impact to the assurance of navigation signal reception
- Identification of current and potential compatibility concerns
- FAA Obstruction Evaluation/Airport Airspace Analysis (OE/AAA) Determination (response to submittal of FAA Form 7460-1, *Notice of Proposed Construction or Alteration*). If, through use of the FAA's Notice Criteria Tool, it is determined that submittal of Form 7460-1 is not requested or required, documentation indicating this result must be provided.

The Zoning Administrator shall evaluate the proposal based on information provided by the applicant. The Zoning Administrator shall approve the permit if, after evaluation, the proposed project is found to be adequately compatible, in accordance with the provisions of this Code. Should the FAA issue a determination of air hazard or any other adverse or negative determination affecting Airport operations or if the proposed project is found to be incompatible after review, the Zoning Administrator shall

deny the permit. Should the permit be denied, the applicant may request an appeal or a variance, as prescribed in this Code.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.180. Variances.

(A) Any person desiring to erect or increase the Height of any Structure, or permit the growth of any Natural Vegetation, or use their property not in accordance with the regulations prescribed in this Code, may apply to the Governing Body for a variance from such regulations. The Governing Body may refer the application to the Planning Commission for study and recommendations. The application for variance shall be accompanied by a determination from the Federal Aviation Administration as to the effect of the proposal on the operation of air navigation facilities and the safe, efficient use of navigable airspace. Such variances may be allowed where it is duly found that literal application or enforcement of the regulations will result in unnecessary hardship and relief granted will not be contrary to the public interest, will not create a hazard to air navigation, will do substantial justice and be in accordance with the spirit and intent of this Code.

(B) No application for variance to the requirements of this Code shall be furnished by the Governing Body unless a copy of the application has been furnished to the Manager of the affected Airport(s) for comment as to the aeronautical effects of the variance. If the Manager of the affected Airport(s) does not respond to the Governing Body within fifteen (15) days after receipt, the Governing Body may act on its own to grant or deny the application.

(C) Any person aggrieved by any final decision of the Governing Body may appeal to any court of competent jurisdiction in Sedgwick County, Kansas as provided by law.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.190. Appeals.

(A) Any person aggrieved or affected by a decision of the Zoning Administrator made in administration of this Code, may appeal to the Governing Body.

(B) All appeals under this chapter must be made within thirty (30) days by filing with the Zoning Administrator a notice of appeal specifying the grounds thereof. The Zoning Administrator shall forthwith transmit to the Governing Body all papers constituting the record on which the action appealed was taken.

(C) An appeal shall stay all proceedings in furtherance of the action appealed from, unless the Zoning Administrator certifies to the Governing Body, after the notice of appeal has been filed, that by reason of the facts stated in the certificate, a stay would - in the opinion of the Zoning Administrator - cause imminent peril to life or property. In such a case, proceedings shall not be stayed except by order of the Governing Body and upon due cause shown.

(D) The Governing Body shall fix a reasonable time for the hearing of appeals, giving public notice by publication once in its official paper a minimum of fifteen (15) days prior to the hearing and due notice to the parties in interest, and shall decide the same within a reasonable time. Upon the hearing, any party may appear in person, by agent, or by attorney.

(E) The Governing Body may reverse or affirm, in whole or in part, or modify the order, requirement, decision, or determination appealed from and may make such order, requirement, decision, or determination as may be appropriate under the circumstances.

(F) The vote of a majority of the members of the Governing Body shall be sufficient to revise any order, requirement, decision, or determination of the Zoning Administrator, or to decide in favor of the applicant on any matter upon which it is required to pass under this Code, or to effect any variation in this Code.

(G) Any person aggrieved by any final decision of the Governing Body may appeal to any court of competent jurisdiction in Sedgwick County, Kansas as provided by law.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.200. Amendments.

Amendment or repeal of all or part of this Code shall be done in accordance with the

procedure prescribed by law for the adoption, amendment and repeal of Airport zoning regulations (K.S.A. 3-705). Any change in an Airport zoning classification shall be accomplished in the manner provided by law, after public hearing by the Planning Commission and public hearing and action of the Governing Body. Any change shall be noted on the particular Airport Hazard Zoning Map affected by such change which is on file in the office of the Zoning Administrator and in the office of the Wichita-Sedgwick County Metropolitan Area Planning Department, so that all such Airport Hazard Zoning Maps shall at all times reflect the current Airport zoning classification of land within such zones and surfaces.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.210. Penalties.

Notwithstanding any provision in this Code regarding the enforcement of the provisions of this Code by civil or other extraordinary provisions of law, each violation of this Code or any regulation, order or ruling promulgated under this Code, shall constitute a misdemeanor. Any violation occurring within the City shall constitute a misdemeanor with penalties not to exceed five hundred (500) dollars or imprisonment for not more than six (6) months for each offense, or both such fine and imprisonment. For any violation occurring within the unincorporated County, criminal penalties shall not exceed five hundred (500) dollars and any violation shall be a class H violation, with prosecution pursuant to Chapter 8 of the Sedgwick County Code. For purposes of these penalties, each day a violation continues to exist shall constitute a separate offense.
(Ord. No. 52-814, § I, 9-23-25)

Sec. 28.08.220. Conflicting regulations.

Where there exists a conflict between any of the regulations or limitations prescribed in this Code and any other regulations applicable to the same area (including 14 CFR Part 77, *Objects Affecting Navigable Airspace*), whether the conflict be with respect to Height or Structures, the use of land, or any other matter, the more stringent limitation or requirement shall govern and prevail.
(Ord. No. 52-814, § I, 9-23-25)

Title 29

SOLAR ENERGY

Ch. 29.04. Solar Energy Installations

CHAPTER 29.04. SOLAR ENERGY INSTALLATIONS

Sec. 29.04.010. Adoption.
Sec. 29.04.020. Section 107.2 amended.
Sec. 29.04.030. Section 107.3 amended.
Sec. 29.04.040. Section 108 amended.
Sec. 29.04.050. Certificates, examinations, cancellations, licenses and bonds.
Sec. 29.04.060. Repairs, replacements and maintenance.
Sec. 29.04.070. Violation—Penalty.
Sec. 29.04.080. Section 202 amended.
Sec. 29.04.090. Section 310 amended.
Sec. 29.04.100. Section 316 amended.
Sec. 29.04.110. Section 318.1 amended.
Sec. 29.04.120. Section 401.1 amended.
Sec. 29.04.130. Section 403.4 amended.
Sec. 29.04.140. Section 406 amended.
Sec. 29.04.150. Section 406 amended.
Sec. 29.04.160. Section 417.1 amended.
Sec. 29.04.170. Section 420.1 amended.
Sec. 29.04.180. Section 504.3 amended.
Sec. 29.04.190. Section 504.5 amended.
Sec. 29.04.200. Section 505.1 amended.
Sec. 29.04.210. Section 603.1 amended.
Sec. 29.04.220. Section 603.4 amended.
Sec. 29.04.230. Section 603.6 amended.
Sec. 29.04.240. Section 606.3 amended.
Sec. 29.04.250. Section 703 amended.
Sec. 29.04.260. Section 704 amended.
Sec. 29.04.270. Section 802 amended.
Sec. 29.04.280. Section 803 amended.
Sec. 29.04.290. Section 903 amended.
Sec. 29.04.300. Appendix A amended.

Sec. 29.04.010. Adoption.

The Guidelines for Solar Energy Installations, published by the International Conference of Building Officials, 1984 Edition, including Appendix A thereto, except Appendix B, Section 107.4, the last paragraph of Section 107.5, Section 318, Section 403.3, Section 403.5, Section 404, Section 602, Section 602.1, Section 602.2, Section 602.3, and except for amendments set forth in this chapter, is by reference incorporated herein and by this publication made a part of this title as though set forth at length herein, and is hereby adopted as the solar energy installation code of the City of Wichita, Kansas.
(Ord. 39-287 (part))

Sec. 29.04.020. Section 107.2 amended.

Section 107.2 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"Plans and Specifications. Plans, specifications and other data shall be submitted in one or more sets with each application for permit when required by the Building Official.

"Plans and specifications shall indicate the full scope of proposed work, including, but not limited to, location of components with respect to site boundaries, structural support and mounting details, piping, control wiring, connections to existing structural, mechanical, plumbing and/or electrical systems, and provisions for discharge of fluids."
(Ord. No. 39-287 (part))

Sec. 29.04.030. Section 107.3 amended.

Section 107.3 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"Permit fees. The fee for each solar permit shall be established in Table No. 107.3.

TABLE NO. 107.3—FEE SCHEDULE

Domestic Water-Heating and Active Space-Conditioning Systems

1. For not more than two site inspections for final approval: $40.00.
2. For each additional site inspection: $15.00.
3. Any person who shall commence any work for which a permit is required by this Code without first having obtained a permit therefor shall, if subsequently permitted to obtain a permit, pay double the permit fee by this section for such work."

(Ord. No. 39-287 (part))

Sec. 29.04.040. Section 108 amended.

Section 108 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"Energy Advisory Board

"a. The Energy Advisory Board shall act as a board of appeals in making a determination of any appeal arising from the actions of the Administrative Authority. Appeals shall be made in writing, and the appellant may appear in person before the Board or be represented by an attorney, and may introduce evidence to support his claim. Appeals shall be heard at reasonable times at the convenience of the Board, but not later than thirty (30) days after receipt thereof. The appellant shall cause to be made at his expense, any tests or research required by the Board to substantiate his claims.

"b. The Energy Advisory Board shall, upon the request of the Administrative Authority, interpret sections of the Code as to the approval of solar energy materials and methods allowed under said code.

"c. Where conditions exist on any solar energy installation job which are not specifically provided for by this Code, or where it would be impracticable to follow its provisions, the Board may grant a variance from the strict application of the provisions of this Code. The person or persons desiring such variance shall submit all data and information necessary or as may be required by the Board to enable it to make its decision, and if after thorough study of the granting of such request would not act in contravention to the welfare of the public, it shall have the authority to grant the variance.

"d. The Energy Advisory Board may consider applications for the use of materials or methods of installations not specifically covered in the Code, or quality of materials or for a change in methods of installation as set forth in this Code, and accept or reject the same as affording the same degree of safety, and performance as the materials or methods provided for herein. The Board may use established standards of nationally recognized laboratories and research organizations in making its determination to accept or reject the application: The applicant shall submit to the Board all necessary information as may be required by the Board in order for it to make its determination, and any expense incurred for the payment of laboratory reports and tests shall be borne by the applicant. If after a thorough study of the application and upon the basis of such study, it is determined that the public interest would be best served, would not be detrimental to the health and welfare of the public and would afford the same degree of safety as elsewhere provided for in this Code, the Board shall approve the application; or should it be determined that it is against public interest, would be detrimental to the health and welfare of the public, would not afford the same degree of safety as elsewhere provided for in this Code, the Board shall deny the application.

"e. Appeal. Any person, official or governmental agency dissatisfied with any order or determination of the Energy Advisory Board may appeal such order or determination to the Board of City Commissioners. An appeal taken to the Board of City Commissioners shall be on the record of the hearing before the Board and shall be in writing, and shall be filed with the City Clerk and the Administrative Authority within ten (10) days of the date of the hearing before the Energy Advisory Board. The basis for appeal must be set forth in the written appeal that is served upon the City Clerk and the Administrative Authority."

(Ord. No. 39-287 (part))

Sec. 29.04.050. Certificates, examinations, cancellations, licenses and bonds.

a. It shall be unlawful for any person to engage in the business of installing, repairing, replacing, altering, or maintenance of a solar energy system in the city, unless and until a certificate has been obtained therefor, and a license has been issued for such business and a permit has been obtained for such work, all in accordance with the provisions of this Code. Solar energy installers' appren-

tices shall be permitted to work when accompanied by and work under the direct supervision of a master or journeyman installer, who shall be responsible for work done by the apprentice.

b. The energy advisory board shall meet and designate the times and place for examination of all applicants desiring to engage in or work at the business of installing, repairing, replacing, altering, or maintenance of a solar energy system in the city. Such board shall examine each applicant as to his or her particular knowledge of solar energy systems and if satisfied as to the competency of the applicant shall thereupon direct that said certificate be issued to the applicant, authorizing him or her to engage in or work at the business of installing, repairing, replacing, altering or maintenance of a solar energy system, either as a master installer or journeyman installer. Examinations may be made in whole or in part in writing, but sufficiently broad to test the qualifications of the applicant as the board may deem necessary. All applicants for a journeyman installer certificate shall have had a minimum of one year practical experience at the trade to prove his ability, or such other qualifications as the board may require. All applicants for a master installers certificate shall have had a minimum of two years practical experience at the trade as a journeyman installer or three years written documentation on company letterhead of proof of field installation experience at the trade, or such other qualifications as the board may require.

The fee for each examination and original certificate of a master installer shall be twelve dollars and fifty cents; for each examination and original certificate of a journeyman installer the fee shall be seven dollars and fifty cents.

All solar energy installers certificates shall be renewed annually upon payment of a fee of three dollars. All such certificates shall expire on the 31st of December of each year, and no reduction shall be made for part of the year being elapsed. All holders of certificates not renewed within thirty (30) days after their expiration may be required to take a new examination before receiving a new certificate and shall be required to pay a ten percent per month penalty.

c. Any person engaging or desiring to engage in the business of installing, repairing, replacing, altering or maintenance of a solar energy system shall, before obtaining any permit or transacting any business, obtain a license therefor from the superintendent of central inspection, which license shall expire on the 31st day of December of the year in which it was so issued. Any such person holding a current master installers certificate may apply for a solar energy installers license. No license shall be transferred from one person to another. Permits shall be obtained for such work as required in this Code, and the same shall be issued to the person who possesses the master installers certificate.

Before a solar energy installers' license is issued, the applicant therefor shall file with the city clerk a surety bond in the amount of two thousand dollars, which shall be approved as to form by the city attorney, the conditions of such bond to be that the principle therein will comply with all provisions of the Code and other ordinances of the city regulating solar energy installations, and to hold and save the city harmless on any and all damages to persons or property resulting from or growing out of any opening or excavation made, material stored or placed upon, or any operation in any street, alley or public property.

A solar energy installers license may be issued to any firm, copartnership or corporation of which at least one active member or officer who devotes full time to that firm, copartnership or corporation has been qualified as and has a current master installers certificate. The fee for a license to engage in the solar energy installations shall be twenty dollars. Each license shall be renewed annually by December 31st. Licensees who have not renewed their license by January 31st shall pay a penalty of ten percent per month thereafter.

d. The energy advisory board is hereby authorized to cancel and recall the certificate of any master installer, journeyman installer or the license of any master installer for any of the following reasons:

1. Abandonment of any contract without legal cause.
2. Diversion of funds or property received for performance or completion of a specific

contract, or for a specific purpose in the performance or completion of any contract, and the application or use for any other contract, obligation or purpose or the failure, neglect or refusal to use such funds or property for the performance or completion of such contract.

3. The committing of any act in violation of any provisions of this Code of the failure or refusal to comply with any lawful order of the administrative authority.

4. Misrepresentation of a material fact by the applicant in obtaining a license.

5. The failure of any such master installer or journeyman installer to fully satisfy all claims for labor and materials used in the performance of any work for which he has been engaged and for which he has been paid.

6. Use of a license to obtain permits for another.

7. Carelessness or negligence in providing reasonable safety measures for the protection of workmen and the public.

8. Failure to obtain permits.

9. Unreasonable delay in the performance and carrying out of any contract.

(Ord. No. 39-287 (part))

Sec. 29.04.060. Repairs, replacements and maintenance.

The owner-occupant of a detached, single-family dwelling may be issued a permit to repair, replace or maintain the existing solar energy system in such single-family dwelling provided such owner-occupant performs all such work and that work so performed is in accordance with this Code as verified by an inspection requested by the owner-occupant and performed by the superintendent of central inspection.

New Installations. The owner-occupant of a detached single-family dwelling may obtain a permit to install solar energy systems in the main-use structure and/or accessory structure thereto. The owner-occupant shall perform all such work personally and shall verify code compliance by calling for all inspections required by this Code.

Owner-occupants applying for permits for installations as outlined above shall first qualify themselves by successfully passing a simplified open-book examination dealing with relevant provisions of this Code. The fee for said examination shall be five dollars. Successful passage of the examination shall qualify the applicant for future permits until the time of the adoption of another edition of this Code by the City of Wichita, Kansas.

Prior to permit approval, the applicant shall also submit a plan of the installation drawn in a format acceptable to the board and drawn in sufficient detail as to satisfy the superintendent of central inspection of the overall code compliance of the anticipated installation. The fee for such plan review shall be fifteen dollars. Plan submissions requiring extensive revision and/or modification shall be billed at the rate of fifteen dollars for each additional half hour or portion thereof beyond the original half hour upon prior notification of the applicant of such additional charges.

Permit fees shall be as set forth elsewhere in this Code provided, however, that such additional inspection owing to detected code deficiencies requiring correction shall be billed at the rate of fifteen dollars each.

Permits for solar energy installations in completely new residences and/or total remodel permits shall be limited to one in three years to each applicant unless a waiver is obtained, upon written application, from the board.

(Ord. No. 39-287 (part))

Sec. 29.04.070. Violation—Penalty.

Any person, firm, partnership or corporation violating any provision of this Code shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not to exceed five hundred dollars, or by imprisonment not to exceed thirty days, or by both such fine and imprisonment.

(Ord. No. 39-287 (part))

Sec. 29.04.080. Section 202 amended.

Section 202 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Definitions.* Building Official is the Administrative Authority. The Administrative Authority duly appointed to enforce this Code shall be the Superintendent of Central Inspection. The Administrative Authority shall make decisions as are necessary to administer and enforce this Code.

"*Collector.* A collector is a component intended for absorbing solar radiation and converting it into useful thermal energy.

"1. A low-temperature collector shall be considered as any flat-plate, non-glazed collector.

2. A medium-temperature collector shall be considered as any flat-plate glazed collector.

3. A high-temperature collector shall be considered as any form of linear tracking concentrating collector."

(Ord. No. 39-287 (part))

Sec. 29.04.090. Section 310 amended.

Section 310 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"Protection against water penetration around openings and extensions of solar components through the roof, floors and walls shall be in accordance with:

"1. All non-masonry roof and wall penetrations shall be sealed using silicone sealant compatible with the existing material and having a minimum five (5) year exterior life expectancy.

2. All masonry roof and wall penetrations shall be sealed using an appropriate sealant having a minimum five (5) year exterior life expectancy."

(Ord. No. 39-287 (part))

Sec. 29.04.100. Section 316 amended.

Section 316 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"Solar energy systems, either by inherent design features or by equipping the system with the necessary controls, shall prevent the addition of energy to thermal storage when the maximum allowable temperature of the storage subsystem has been reached. The maximum allowable temperature is defined as the solar storage subsystem manufacturer's recommended maximum temperature.

"All solar domestic hot water delivery systems shall incorporate either tempering apparatus or high-limit protection."

(Ord. No. 39-287 (part))

Sec. 29.04.110. Section 318.1 amended.

Section 318.1 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"A permanent, clearly visible label shall be affixed to the heat exchanger assembly or to the storage assembly, containing the following information:

"1. The exact chemical name of the heat-transfer material, including the relative proportion of each ingredient other than water or air.

2. Whether the heat-transfer material is hazardous, toxic or nontoxic.

3. First-aid instructions for the type of heat-transfer material used.

4. If the heat-transfer material is hazardous, or toxic, a cautionary statement regarding the poisonous characteristics of the material.

5. The manufacturer's and/or installer's recommended heat-transfer material change interval.

6. A warning against the use of hazardous or toxic heat-transfer material in systems not designed and installed for their use.

7. The proper disposal method for the heat-transfer material used in the system."

(Ord. No. 39-287 (part))

Sec. 29.04.120. Section 401.1 amended.

Section 401.1 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Approved Materials.* Piping materials shall conform to Appendix A and the manufacturer's recommendations for their intended use. All collector-loop piping and all piping within three (3) feet of the heat-exchanger assembly and/or within three (3) feet of the thermal storage shall be copper in medium-temperature and high-temperature systems. For medium-temperature systems, a minimum of Type M copper shall be used. For high-temperature systems a minimum of Type L copper shall be used."

(Ord. No. 39-287 (part))

Sec. 29.04.130. Section 403.4 amended.

Section 403.4 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"The collector array and storage tank(s) of hydronic solar energy systems shall be capable of being drained. Systems which incorporate more than one fluid-filled loop shall be piped to permit drainage and flushing of each fluid-filled loop."

(Ord. No. 39-287 (part))

Sec. 29.04.140. Section 406 amended.

Section 406 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Joints and Connections.* Joints shall be of a type approved for the piping material being used and shall conform to the manufacturer's recommendations and Appendix A. All solder joints in copper piping where copper piping is required by this Code shall be a minimum of type 95-5 solder."

(Ord. No. 39-287 (part))

Sec. 29.04.150. Section 406 amended.

Section 406 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"Joints between dissimilar material shall conform to the manufacturer's recommendations and Appendix A. Dielectric devices may be installed at locations where piping connections involve two dissimilar metals which are subject to corrosion."

(Ord. No. 39-287 (part))

Sec. 29.04.160. Section 417.1 amended.

Section 417.1 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Gravity Drainage.* Systems which rely upon drainage for freeze protection shall be piped so that all piping has a slope to facilitate complete drainage by gravity. Systems using pipe of 2 inches or greater diameter or nonpressurized systems using plastic pipe are exempt from this requirement."

(Ord. No. 39-287 (part))

Sec. 29.04.170. Section 420.1 amended.

Section 420.1 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Required Pressure Differential.* Closed-loop solar systems shall include an expansion tank, and be designed and installed to ensure that the operating pressure of the closed-loop portion of the system is lower than the operating pressure of the remainder of the system. The pressure-relief valve on the closed-loop portion shall open at a lower pressure than the pressure-relief valves in the remainder of the system to assure that the pressure differential is maintained."

(Ord. No. 39-287 (part))

Sec. 29.04.180. Section 504.3 amended.

Section 504.3 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Covered Openings.* All openings into tanks, except vents, shall be tightly covered and secured in place."

(Ord. No. 39-287 (part))

Sec. 29.04.190. Section 504.5 amended.

Section 504.5 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Collection and Disposal of Leakage.* For solar systems with storage tanks located in attics or other locations where leakage might result in damage to the structure, a drip pan shall be installed under the storage tank. The discharge from the drip pan shall be directed to a point where it will not inflict property damage or physical harm to building occupants but where it will attract attention to the leakage. The drain for the drip pan shall be piped with ½ inch or larger diameter pipe and shall terminate not less than 6, or more than 24, inches above the ground. The pipe shall not terminate with a threaded end or a trap. All such storage tanks shall be installed and supported to conform to the structural loading requirements of Appendix A."

(Ord. No. 39-287 (part))

Sec. 29.04.200. Section 505.1 amended.

Section 505.1 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Water and Intrusion Proofing.* The containment structure for dry thermal storage systems shall be constructed to prevent the infiltration of water or moisture. All openings to ambient atmosphere shall have a screen or filter of not greater than ¼ inch mesh opening."

(Ord. No. 39-287 (part))

Sec. 29.04.210. Section 603.1 amended.

Section 603.1 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Sealants.* Flashing and/or roof jacks shall be used at all points of penetration of the roof. Flashing and roof jacks shall be sealed with a sealant which is in accordance with the requirements of Section 310 of this Code."

(Ord. No. 39-287 (part))

Sec. 29.04.220. Section 603.4 amended.

Section 603.4 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Collector Gravity Drainage.* Collectors shall be installed to provide positive and complete drainage of the collector array."

(Ord. No. 39-287 (part))

Sec. 29.04.230. Section 603.6 amended.

Section 603.6 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Dielectric Devices.* Dielectric devices may be used at points of contact between component parts of the system where dissimilar metals which are subject to corrosion are in direct connect."

(Ord. No. 39-287 (part))

Sec. 29.04.240. Section 606.3 amended.

Section 606.3 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"Collector Anchoring. Collector installations shall securely anchor the collector array to the roof. Racks and spacers for collectors which are not parallel to the roof slope or which are raised above the roof surface allowing greater than six (6) inches of space between the collector array and the roof surface, shall be bolted through the roofing material and sheathing into a structural member supported between two or more parallel rafters and which incor-

porates a structural brace between the structural support member and the interior sheathing surface.

"Racks and spacers for collectors which are both parallel to the roof surface and six (6) inches or less from the roof surface may be secured using lag bolts which penetrate the roofing and sheathing material and penetrate directly into a rafter to a minimum depth of two (2) inches.

"Threaded bolts or lag bolts of less than ⅜ inch diameter shall not be permitted.

"Lag bolting into the roofing material and/or sheathing only is not sufficient to fulfill this requirement."

(Ord. No. 39-287 (part))

Sec. 29.04.250. Section 703 amended.

Section 703 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Piping Insulation.* All pipes in a solar system which carry heated water shall be insulated to a minimum value of R-3, except as prohibited by Section 308 of this Code. Insulation on pipes shall be protected with weather and ultraviolet resistant material."

(Ord. No. 39-287 (part))

Sec. 29.04.260. Section 704 amended.

Section 704 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Duct Insulation.* The air-distribution system ducts shall be insulated to a minimum of R-6, using material having a perm rating not exceeding 0.5 perm. All joints shall be sealed with an appropriate sealer. All duct insulation shall be in accordance with Table 704."

"Table No. 704 INSULATION OF DUCTS

Duct Location	*Insulation Types Mechanically Cooled*	*Insulation Types Heating Only*
On Roof, On Exterior of Building	C, V* and W	B and W
Attics, Garages and Crawl Space	A and V*	A
In Walls**, Within Floor Ceiling Spaces**	A and V*	A
Within the Conditioned Space or in Basements; Return Ducts and Plenums	None Required	None Required
Cement Slab or Within Ground	None Required	None Required

NOTE: Where ducts are used for both heating and cooling, the minimum insulation shall be as required for the most restrictive condition. These requirements based on 4501 to 8000 D.D.

* Vapor barriers shall be installed on conditioned air supply ducts in spaces vented to the outside in geographic areas where the average July, August and September mean dew point temperature exceeds 60°F.

** Insulation may be omitted on that portion of a duct which is located within a wall-or a floor-ceiling space where:

a. Both sides of the space are exposed to conditioned air.

b. The space is not ventilated.

c. The space is not used as a return plenum.

d. The space is not exposed to unconditioned air.

Ceilings which form plenums need not be insulated.

INSULATION TYPES:

A. 1-inch, 0.60 lb./cu.ft. mineral fiber blankets and felt, rock, slab or glass.

½-inch, 1.5 to 3 lb./cu.ft. blanket duct liner, rock, slag or glass.

½ inch, 3 to 10 lb./cu.ft. board mineral fiber, rock, slag or glass or equivalent to provide an installed conductance = 0.48.

B. 2-inch, 0.60 lb./cu.ft. mineral fiber blanket

1-inch, 1.5 to 3 lb./cu.ft. board, mineral blanket (duct liner)

1-inch, 3 to 10 lb./cu.ft. mineral fiber board or equivalent to provide an installed conductance = 0.24

C. 3-inch, 0.60 lb./cu.ft. mineral fiber blanket

1 ½-inch, 1.5 to 3 lb./cu.ft. mineral blanket (duct liner)

1 ½-inch, 3 to 10 lb./cu.ft. mineral fiberboard or equivalent to provide an installed conductance = 0.16

V. Vapor Barrier: Material with a perm rating not exceeding 0.5 perm. All joints to be sealed.

W. Approved weatherproof barrier."

(Ord. No. 39-287 (part))

Sec. 29.04.270. Section 802 amended.

Section 802 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*Required Filters.* Air filters may be installed in the air distribution system. Air filters shall be accessible for cleaning and/or replacement."

(Ord. No. 39-287 (part))

Sec. 29.04.280. Section 803 amended.

Section 803 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended by adding Section 803.3 to read as follows:

"*Backflow Dampers.* Dampering devices shall be installed between the collector array and the habitable area so as to prevent backflow."

(Ord. No. 39-287 (part))

Sec. 29.04.290. Section 903 amended.

Section 903 of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

"*System Controls—Domestic Hot-Water Systems.* The temperature of solar-heated water entering the storage or backup tank shall not exceed the tank manufacturer's recommended maximum temperature."

(Ord. No. 39-287 (part))

Sec. 29.04.300. Appendix A amended.

Appendix A of the Guidelines for Solar Energy Installations, 1984 Edition, is hereby amended to read as follows:

Title 30

NEGLECTED BUILDINGS

Ch. 30.01. Registration of Neglected Buildings

CHAPTER 30.01 REGISTRATION OF NEGLECTED BUILDINGS

Sec. 30.01.010. Purpose.
Sec. 30.01.020. Public nuisance.
Sec. 30.01.030. Enforcement of chapter—Applicability of chapter.
Sec. 30.01.040. Violation not exclusive.
Sec. 30.01.050. Inspection of property.
Sec. 30.01.060. Definitions.
Sec. 30.01.070. Duty to register neglected building or dwelling.
Sec. 30.01.080. Registration fee.
Sec. 30.01.090. Resident agent.
Sec. 30.01.105. Registration penalty.
Sec. 30.01.108. Procedures for registration penalty.
Sec. 30.01.110. Reinspection.
Sec. 30.01.120. Removal from registration.
Sec. 30.01.130. Registration nontransferable.
Sec. 30.01.140. Duty to file statement of intent for neglected buildings.
Sec. 30.01.150. Neglected unoccupied building penalty.
Sec. 30.01.160. Procedures for neglected unoccupied building penalty.
Sec. 30.01.170. Appeals to board of code standards and appeals.
Sec. 30.01.180. Failure to pay penalties.

Sec. 30.01.010. Purpose.

Neglected buildings and dwellings are a major cause and source of blight in both residential and non-residential neighborhoods, especially when the owner of the building or dwelling fails to actively maintain and manage the building or dwelling to ensure that it does not become a liability to the neighborhood. Neglected buildings or dwellings and/or substandard or unkempt buildings or dwellings discourage economic development and retard appreciation of property values. It is the responsibility of property owners to prevent buildings or dwellings from becoming a burden to the neighborhood and community and a threat to the public health, safety, and welfare. A neglected building or dwelling that is not well maintained and managed can be the core and source of spreading blight.

Such buildings or dwellings constitute a nuisance, and to adequately protect public health, safety and welfare, the establishment and enforcement of a registration system to monitor such buildings or dwellings and to develop a means to decrease the number of neglected buildings or dwellings within the city is necessary.
(Ord. No. 47-301, § 1, 11-21-06; Ord. No. 52-864, § 1, 12-16-25)

Sec. 30.01.020. Public nuisance.

Neglected buildings or dwellings shall constitute a public nuisance.
(Ord. No. 47-301, § 2, 11-21-06; Ord. No. 52-864, § 2, 12-16-25)

Sec. 30.01.030. Enforcement of chapter—Applicability of chapter.

The Director of the Metropolitan Area Building and Construction Department is designated to administer and enforce this chapter.
(Ord. No. 47-301, § 3, 11-21-06; Ord. No. 52-864, § 3, 12-16-25)

Sec. 30.01.040. Violation not exclusive.

Violations of this chapter are in addition to any other violations enumerated within the ordinances of the Code of the City of Wichita. This chapter in no way limits the penalties, actions or abatement procedures which may be taken by the City for a violation of this chapter which is also a violation of any other ordinance of the City or statute of the State of Kansas.
(Ord. No. 47-301, § 4, 11-21-06)

Sec. 30.01.050. Inspection of property.

(1) All officers authorized to enforce this chapter are hereby authorized and directed to make inspections to determine the condition of property located within the city, in order that he or she may perform his/her duty of safeguarding the welfare and safety of the general public and in order that he/she may ascertain that property as set forth in this title are properly maintained.

(2) Any officer or employee of the City charged with the enforcement of this title shall not, in the discharge of his/her duties, thereby render himself/herself liable personally. Pursuant to Section 2.62.130 of the Code of the City of Wichita, any suit brought against an officer of employee of the city because such act performed by him or her in

the enforcement of any of the provisions of this title will be defended by the Department of Law until the final termination of the proceedings therein.
(Ord. No. 47-301, § 5, 11-21-06)

Sec. 30.01.060. Definitions.

(1) 'Boarded' means that some or all of the building's doors or windows have been covered with plywood, wood or metal sheeting, paneling or other similar materials, for the purpose of preventing entry into the building by persons, animals or the elements of weather.

(2) 'Building' means a building or dwelling, accessory structure or other structure adapted to permanent or continuous occupancy or use for residential, public, institutional, business, industrial or storage purposes.

(3) 'City' means the City of Wichita, Kansas.

(4) 'Deterioration' means the condition or appearance of a building characterized by holes, breaks, rot, crumbling, cracking, peeling, rusting or other evidence of physical decay or neglect, excessive use or lack of maintenance.

(5) 'Director' means the Director of the Metropolitan Area Building and Construction Department or his or her representative.

(6) 'Dwelling' means any building, apartment building, mobile home or manufactured home which is wholly or partly used or intended to be used for living or sleeping by human occupants.

(7) 'Dwelling unit' means any room or group of rooms located within a building and forming a single habitable unit with facilities that are used or intended to be used for living, sleeping, cooking, and eating.

(8) 'Good state of repair' means sound, stable, free of deterioration, and performing the function for which intended.

(9) 'Good working condition' means the item is fully operable for the use for which it was intended.

(10) 'Neglected building' means a 'Neglected occupied building', 'Neglected unoccupied building', a 'Neglected occupied dwelling' and a 'Neglected unoccupied dwelling.'

(11) 'Neglected occupied building' means an occupied building in which one or more of the following events have occurred within the preceding eighteen months:

a. The building or dwelling is the subject of two or more Uniform Criminal Complaints filed in Wichita municipal court regarding violations of the provisions of Chapter 18, Chapter 20 or the provisions of this chapter of the Code of the City of Wichita and the owner has failed to demonstrate that due diligence is being exercised in abating the violation; or

b. The building or dwelling has been declared to be a criminal nuisance pursuant to K.S.A. 22-3901, *et seq.;* or

c. The owner has failed to appear and a warrant has been issued in municipal court for a violation of Chapter 18, Chapter 20, or the provisions of this chapter of the Code of the City of Wichita; or

d. The owner has refused to accept service of notices of violations of Chapter 18, Chapter 20, or the provisions of this chapter of the Code of the City of Wichita; or

e. The building or dwelling has sustained substantial deterioration due to lack of maintenance; or

f. The building or dwelling has been placarded as unfit for habitation pursuant to Section 20.04.110 of the Code of the City of Wichita and the property owner has failed to take reasonable and necessary steps to promptly remedy the violation(s); or

g. The building or dwelling has building or housing code violations which have not been corrected following adjudication of such violations by the Municipal Court.

(12) 'Neglected unoccupied building' means an unoccupied building or dwelling (whether or not boarded) in which one or more of the following events have occurred:

a. Within the last eighteen months, the property is the subject of two or more Uniform Criminal Complaints filed in Wichita Municipal Court regarding violations of Chapter 18, Chapter 20 or the provisions of this chapter of the Code of the City of Wichita and the owner has failed to demonstrate that due diligence is being exercised in abating the violation; or

b. The building or dwelling is unsecured; or

c. The building or dwelling has sustained significant fire, wind or water damage and is uninhabitable; or

d. The building or dwelling has been declared a criminal nuisance pursuant to K.S.A. 22-3901, *et seq.;* or

e. The building or dwelling has been boarded for a period of more than ninety days; or

f. The building or dwelling has sustained substantial deterioration due to lack of maintenance; or

g. The owner has failed to appear and a warrant has been issued in municipal court for a violation of Chapter 18 or Chapter 20 of the Code of the City of Wichita; or

h. The owner has refused to accept service of notices of violations of Chapter 18 or Chapter 20 of the Code of the City of Wichita; or

i. The building or dwelling has been placarded as unfit for habitation pursuant to Section 20.04.110 of the Code of the City of Wichita and the property owner has failed to take reasonable and necessary steps to promptly remedy the violation(s); or

j. The building or dwelling has building or housing code violations which have not been corrected following adjudication of the violations by the Municipal Court.

(13) 'Occupancy' the purpose for which a building or dwelling or portion thereof is utilized or occupied.

(14) 'Operator' means any person who has charge, care or control of a building or dwelling, or part thereof, in which dwelling units or rooming units are let.

(15) 'Owner' means any person who is a holder of any legal or equitable interest in the premises, and alone or jointly or severally with others.

a. Has record legal title to any dwelling or dwelling unit with or without accompanying actual possession thereof; or

b. Has charge, care or control of any dwelling or dwelling unit which may include all persons who have an interest in a structure and any who are in possession or control thereof as owner or agent of the owner, contract purchaser, or as executor, executrix, administrator, administratrix, trustee or guardian of the estate of the owner.

In the absence of substantial evidence to the contrary, records of the Sedgwick County Clerk's Office, Registrar of Deeds, certified copies of court records or judgments of any court, copies of lease agreements, contracts for deed, mortgages, tax records, rental agreements and other financial documents related to the property shall be conclusive evidence of the ownership of the property.

(16) 'Person,' as used in this chapter, means any individual, firm, association, company, syndicate, partnership, or other legal entity, or a natural person for the purposes of the occupancy standards hereof.

(17) 'Premises' shall mean a lot, plot or parcel of land including the buildings and structures located thereon.

(18) 'Resident Agent' means a natural person residing within sixty miles of the corporate city limits of the City of Wichita or a company or agency with a manager or agent who resides within sixty miles of the corporate city limits of the City of Wichita who is authorized to make or

order repairs, to order or oversee service to dwellings and dwelling units, and to receive notices on behalf of the owner.

(19) 'Safe and Sanitary' for purposes of this chapter shall mean free from conditions that are dangerous or could cause injury and free from elements such as filth, black mold, or bacteria that endanger health.

(20) 'Structurally Sound' means free of imperfections and/or deterioration that affect the intended use of a structure or the integrity of the footing, foundation, wall, roof, chimney, arch, window, door or porch/deck support systems.

(21) 'Supplied' means paid for, furnished or provided by or under the control of the owner or operator.

(22) 'Unoccupied building' means a building that is unattended and is not actively used as a place of residence or business or is frequently open or unsecured so that unauthorized admittance may be gained without damaging any portion of the property.

(23) 'Unsecured' means that access to the building or dwelling may be obtained through open, unlocked, broken or missing doors or windows of such building or dwelling.

(24) 'Workmanlike manner' means installation or repair which meets the minimum recommended installation and maintenance requirements of the product manufacturer and meets all applicable code requirements.
(Ord. No. 47-301, § 6, 11-21-06; Ord. No. 52-864, § 4, 12-16-25)

Sec. 30.01.070. Duty to register neglected building.

a. The owner or operator of a neglected building or dwelling shall be required, after written notification from the Director of the Metropolitan Area Building and Construction Department, to apply for registration of such building or dwelling with the Metropolitan Area Building and Construction Department within thirty days of the date of notification from the Director. Such notification shall be served on the owner or resident agent by personal service or by certified mail, return receipt requested. If the owner is a non-resident, such notice shall be sent by certified mail, return receipt requested, to the last known address of the owner.

b. The registration shall include the following information:

1. A description of the premises;
2. The names and addresses of the owner or owners;
3. The names and addresses of all known lienholders and all other parties with a legal or equitable ownership interest in the building or dwelling;
4. The name address, phone number and other contact information of the resident agent designated to act on behalf of the owner to accept legal processes and notices and to authorize repairs as required; and
5. If such building or dwelling is unoccupied, the period of time the building or dwelling is expected to remain unoccupied and/or a plan and timetable to comply with applicable city codes.

(Ord. No. 47-301, § 7, 11-21-06; Ord. No. 52-864, § 5, 12-16-25)

Sec. 30.01.080. Registration fee.

A registration fee of one hundred dollars ($100) per building or dwelling shall be collected, at the time of application, by the Metropolitan Area Building and Construction Department. If a building or dwelling contains more than one dwelling unit, a fee of $100 shall be assessed for each neglected occupied or neglected unoccupied dwelling unit.
(Ord. No. 47-301, § 8, 11-21-06; Ord. No. 52-864, § 6, 12-16-25)

Sec. 30.01.090. Resident agent.

(a) The owner or operator of any neglected building or dwelling, which is subject to the registration requirements of Section 30.01.070, shall designate a resident agent for the building or dwelling. Any owner who lives within sixty

miles of the corporate city limits of the City of Wichita may designate himself or herself as the resident agent.

(b) The owner of any neglected building or dwelling who lives more than sixty miles of the corporate city limits of the City of Wichita shall name a resident agent who lives within or whose place of business is within sixty miles of the corporate city limits of the City of Wichita.

(c) The designation of resident agent shall constitute an authorization by the owner to act on behalf of the owner with regard to all requirements under this chapter and may accept all notices, including all notices pursuant to the Code of the City of Wichita, all notices of proposed abatements and all compliance orders and administrative orders.

(d) The owner's designation of a resident agent shall not relieve the owner or operator of any obligation to comply with the provisions of this chapter or any other provisions of the Code of the City of Wichita or laws of the state of Kansas.
(Ord. No. 47-301, § 9, 11-21-06; Ord. No. 52-864, § 7, 12-16-25)

Sec. 30.01.105. Registration penalty.

(a) Any owner or operator who fails to register a neglected building or dwelling, as required by this chapter, may be liable for a civil penalty not to exceed five hundred dollars ($500).

(b) If the building or dwelling continues to meet the definition of a neglected building or dwelling for a period of ninety (90) calendar days, and the owner fails or refuses to register such building or dwelling, the Director may continue to assess a penalty not to exceed five hundred dollars ($500) for each ninety (90) calendar day period the building or dwelling continues to be unregistered. At no time may the amount of the assessment exceed five thousand dollars ($5,000) per building or dwelling in a calendar year.

(c) All penalties assessed shall be payable directly to the Metropolitan Area Building and Construction Department. The Director shall develop policies and procedures for the implementation of this penalty.
(Ord. No. 47-301, § 10, 11-21-06; Ord. No. 52-864, § 8, 12-16-25)

Sec. 30.01.108. Procedures for registration penalty.

(a) Whenever the owner or operator of a neglected building or dwelling does not register such building or dwelling, a Notice of Registration Penalty may be issued to the owner or operator.

(b) A separate Notice of Registration Penalty shall be issued for each subsequent penalty that may be assessed pursuant to Section 30.01.105.

(c) The Notice of Registration Penalty shall be served upon the owner or operator by certified mail or personal service.
(Ord. No. 47-301, § 11, 11-21-06; Ord. No. 52-864, § 9, 12-16-25)

Sec. 30.01.110. Reinspection.

The Director may periodically reinspect neglected buildings or dwellings to ensure compliance of this chapter and all applicable court and administrative orders made by the municipal or district courts.
(Ord. No. 47-301, § 12, 11-21-06; Ord. No. 52-864, § 10, 12-16-25)

Sec. 30.01.120. Removal from registration.

A neglected building or dwelling shall be removed from the registration requirements of this chapter by the Director upon such building or dwelling:

1. Being brought into compliance with all health and safety standards set forth in the codes of the City of Wichita;
2. Being removed or demolished by the owner;
3. Being abated or demolished by the City of Wichita, if such structure is unsafe or unfit for habitation.

(Ord. No. 47-301, § 13, 11-21-06; Ord. No. 52-864, § 11, 12-16-25)

Sec. 30.01.130. Registration nontransferable.

If the neglected building or dwelling is required to be registered pursuant to Section 30.01.070, a new registration shall be required for each change

of ownership of the building or dwelling. The owner or operator of a neglected building or dwelling which is registered with the Metropolitan Area Building and Construction Department pursuant to this Chapter shall notify the Metropolitan Area Building and Construction Department within ten business days of the sale or transfer of any registered property.
(Ord. No. 47-301, § 14, 11-21-06; Ord. No. 52-864, § 12, 12-16-25)

Sec. 30.01.140. Duty to file statement of intent for neglected buildings.

(a) The Director shall create and make available a form entitled 'Statement of Intent' to be completed by the owner, operator or resident agent of any neglected unoccupied building or dwelling required to be registered pursuant to this chapter.

(b) The owner, operator or resident agent of a neglected unoccupied building or dwelling shall complete the information required on the standard Statement of Intent and submit the Statement to the Metropolitan Area Building and Construction Department within thirty (30) days of the date the Director orders that the structure be registered.

(c) The Director shall determine whether a submitted Statement of Intent is complete and may require an owner to provide more complete information.

(d) When a submitted Statement of Intent does not meet with the Director's approval, the owner or registered agent shall, within ten business days, correct and resubmit the Statement of Intent.

(e) The Statement of Intent shall include information as to:

(1) Expected period that the building or dwelling will remain unoccupied;

(2) A plan for regular maintenance during the period that the building or dwelling is unoccupied; and

(3) A reasonable plan and time line for the lawful occupancy, rehabilitation or demolition of the building or dwelling; and

(4) Any additional information required by the Director.

(f) The provisions of Section 30.01.140 shall not be applicable to neglected occupied buildings or dwellings.
(Ord. No. 47-301, § 15, 11-21-06; Ord. No. 52-864, § 13, 12-16-25)

Sec. 30.01.150. Neglected unoccupied building penalty.

(a) Any owner or operator who fails to submit a Statement of Intent or refuses to supplement or modify a Statement of Intent which does not meet with the approval of the Director or otherwise comply with the requirements of Section 30.01.140, may be liable for a civil penalty not to exceed one thousand dollars ($1,000).

(b) Any owner or operator of a neglected unoccupied building or dwelling that remains as a neglected unoccupied building or dwelling for a period of ninety (90) consecutive calendar days may be liable for a civil penalty in the amount of five hundred dollars ($500) per building or dwelling, not to exceed five thousand dollars ($5,000) per calendar year unless:

(1) A Statement of Intent has been filed and approved by the Director; and

(2) One of the following applies:

(A) The owner is proceeding diligently in good faith to complete the repair or rehabilitation; or,

(B) The building or dwelling is the subject of an active building permit for repair or rehabilitation; or

(C) The building or dwelling is maintained in compliance with this chapter and is actively being offered for sale, lease or rent; or,

(D) The property owner can demonstrate that he or she made a diligent and good faith effort to implement the actions set forth in the approved

Statement of Intent within the timeline contained within the Statement of Intent.

(c) If the building or dwelling continues to meet the definition of neglected unoccupied building or dwelling as provided in this chapter beyond the initial ninety (90) calendar days, and if the owner does not meet any of the exceptions set forth in this section, the Director may continue to assess a penalty of five hundred dollars ($500) for each ninety (90) calendar day period the building or dwelling continues to constitute a neglected unoccupied building or dwelling. At no time may the amount of the assessment exceed five thousand dollars ($5,000) per building or dwelling in a calendar year.

(d) All penalties assessed shall be payable directly to the Metropolitan Area Building and Construction Department.

(e) The Director shall develop policies and procedures for the implementation of this penalty.
(Ord. No. 47-301, § 16, 11-21-06; Ord. No. 52-864, § 14, 12-16-25)

Sec. 30.01.160. Procedures for neglected unoccupied building penalty.

(a) Whenever the Director determines that a building or dwelling meets the definition of a neglected unoccupied building or dwelling as defined by this chapter for a period of more than ninety (90) consecutive calendar days, and the owner does not meet any of the exceptions set forth in Section 30.01.150, a Notice of Neglected Unoccupied Building Penalty may be issued to the owner or operator.

(b) A separate Notice of Neglected Unoccupied Building Penalty shall be issued for each subsequent penalty that may be assessed pursuant to Section 30.01.150.

(c) The Notice of Neglected Unoccupied Building Penalty shall be served upon the owner or operator or his or her registered agent by certified mail or personal service.
(Ord. No. 47-301, § 17, 11-21-06; Ord. No. 52-864, § 15, 12-16-25)

Sec. 30.01.170. Appeals to board of code standards and appeals.

a. Appeals from the decision of the Director or his or her designee, of the registration requirements or the assessment of a registration or neglected building penalty, as provided for by this chapter, may be made by requesting, in writing, to the Director, within ten days after receiving such decision or penalty, a hearing before the Board of Code Standards and Appeals.

b. The appeal must be heard by the Board within forty-five (45) days of receipt of the written request. The board may affirm, reverse or modify the penalty assessed.

c. Appeals from the decision of the Board of Code Standards and appeals may be made to the City Council by requesting in writing to the city clerk, within ten (10) days after receiving such decision, a hearing before such City Council. Such appeal shall be heard, with written notification as to time and place given such appellant, within forty-five (45) days after receipt of the written request.
(Ord. No. 47-301, § 18, 11-21-06; Ord. No. 52-864, § 16, 12-16-25)

Sec. 30.01.180. Failure to pay penalties.

The failure of any person to pay the Registration or Neglected Building penalty as set forth in this chapter may result in the Director using any legal means to recover the civil penalties assessed including actions in District Court to enforce payment of such penalties, utilization of the State Set-off Program, and assessing such unpaid fees by special assessment, if authorized by State law or the Code of the City of Wichita.
(Ord. No. 47-301, § 19, 11-21-06; Ord. No. 52-864, § 17, 12-16-25)

Title 31

WICHITA LAND BANK

Ch. 31.01. Wichita Land Bank

CHAPTER 31.01. WICHITA LAND BANK

Sec. 31.01.010. Purpose.
Sec. 31.01.020. Definitions.
Sec. 31.01.030. Land Bank Board of Trustees; appointment, terms and dissolution.
Sec. 31.01.040. Land Bank Board; organization.
Sec. 31.01.050. Land Bank Board; powers and duties.
Sec. 31.01.060. Land Bank Board; operational requirements.

Sec. 31.01.010. Purpose.

The Wichita Land Bank is hereby established pursuant to K.S.A. 12-5901 *et seq*. The Wichita Land Bank is an independent agency and instrumentality of the City with the primary responsibility and authority to acquire, hold, manage, and convey property, located within the Established Central Area as defined in the Wichita: Places for People Comprehensive Plan Amendment of 2019, and other abandoned, tax-foreclosed, or otherwise underutilized or distressed property within the City of Wichita in order to convert such properties to productive use.
(Ord. No. 51-558, § 1, 5-25-21)

Sec. 31.01.020. Definitions.

For the purpose of this Title the words set forth in this Section shall have the following meanings:

City means the City of Wichita, Kansas.

Board means the Board of Trustees of the Wichita Land Bank established pursuant to this Title.

Land Bank means the Wichita Land Bank established pursuant to this Title.
(Ord. No. 51-558, § 2, 5-25-21)

Sec. 31.01.030. Land Bank Board of Trustees; appointment, terms and dissolution.

A. There is hereby established a Wichita Land Bank Board of Trustees ("Board"). The Board shall be composed of seven members. Each member of the governing body shall appoint one member who resides in Sedgwick County, Kansas with the goal of having expertise in land development, construction, development finance, real estate sales or marketing, real estate law, neighborhood growth and development, surveying or expertise related to the responsibilities of the Land Bank operation. Members of the Board shall not receive compensation nor shall they be reimbursed for personal expenses.

B. The Board may establish separate neighborhood or city advisory committees on an hoc basis consisting of persons living or owning property within the county, city or neighborhood. In the case of neighborhood advisory committees, the Board shall determine the boundaries of each neighborhood. The Board shall consult with each neighborhood or advisory committee as needed to review the operations and activities of the Land Bank concerning any matter which comes before that particular committee.

C. The term of office of the Board members shall be as set forth in Section 2.12.020(2) of the Code of the City of Wichita.

D. The Board members are subject to the provisions of Sections 2.12.010, 2.12.020 and 2.12.030 of the Code of the City of Wichita, except as otherwise stated herein.

E. Primary staff support to the Board will be provided by the City Manager or designee. City staff will provide technical and professional support for Land Bank operations.

F. The Land Bank may be dissolved by ordinance of the City Council. In such case, all property of the Land Bank shall be transferred to and held by the City and may be disposed of as otherwise provided by law.
(Ord. No. 51-558, § 3, 5-25-21)

Sec. 31.01.040. Land Bank Board; organization.

A. The Board shall select, annually, from its membership, a chairperson, a vice-chairperson and a treasurer.

B. The Board shall fix the time and place at which its meetings shall be held. Meetings shall be held within the City and shall be subject to the Kansas Open Meeting Act, K.S.A. 75-4317 *et seq.*, and amendments thereto.

C. A majority of the Board shall constitute a quorum for the transaction of business. No action of the Board shall be binding unless taken at a meeting at which at least a quorum is present.

D. The members of the Board shall be subject to the provisions of the laws of the State of Kansas which relate to conflicts of interest of city officers and employees, including, but not limited to, K.S.A. 75-4301 *et seq.*, and amendments thereto.

E. Subject to the provisions of the Kansas Tort Claims Act, K.S.A. 75-6101 *et seq.*, and amendments thereto, if any action at law or equity, or other legal proceeding, shall be brought against any member of the Board for any act or omission arising out of the performance of duties as a member of the Board, such member shall be indemnified in whole and held harmless by the City for any judgment or decree entered against such member and, further, shall be defended at the cost and expense of the City in any such proceeding.
(Ord. No. 51-558, § 4, 5-25-21)

Sec. 31.01.050. Land Bank Board; powers and duties.

The Land Bank Board shall have the following powers and duties:

A. To sue and be sued.

B. To enter into contracts.

C. Recommend to the City Council the transfer, sale or acquisition of real property by purchase, gift or devise, and convey any real property, including easements and reversionary interest, and personal property, subject to the provisions of this Section. The Board may accept or refuse to accept any property offered to the Land Bank. The transfer of any property pursuant to this subsection shall not be subject to any bidding requirements and shall be exempt from any provisions of law requiring a public sale.

D. The Board shall assume possession and control of any property acquired by it under this Section and shall hold and administer such property. In the administration of property, the Board shall:

1. Manage, maintain and protect or temporarily use for a public purpose such property in the manner the Board deems appropriate;
2. Work with City staff to compile and maintain a written inventory of all such property. The inventory shall be available for public inspection and distribution at all times;
3. Study, analyze and evaluate potential, present and future uses for such property which would provide for the effective reutilization of such property;
4. Plan for and use the Board's best efforts to consummate the sale or other disposition of such property at such times and upon such terms and conditions deemed appropriate;
5. Work with City Finance Department to establish and maintain records and accounts reflecting all transactions, expenditures and revenues in relation to the Land Bank's activities, including separate itemizations of all transactions, expenditures and revenues concerning each individual parcel of property acquired.

E. To exercise any other power which may be delegated to the Land Bank by the City Council.

F. To exercise any other incidental power which is necessary to carry out the purpose of the Land Bank or this Section.
(Ord. No. 51-558, § 5, 5-25-21)

Sec. 31.01.060. Land Bank Board; operational requirements.

The Land Bank shall be subject to the following requirements:

A. The Land Bank shall be subject to the provisions of the Cash Basis Law, K.S.A. 10-1101 *et seq.*, and amendments thereto.

B. The budget of the Land Bank shall be prepared, adopted and published as provided by law for other political subdivisions of the State of Kansas. No budget shall be adopted by the Board until it has been submitted to, reviewed and approved by the City Council. If the City Council elects not to ratify the budget, it must reject the plan in its entirety and remand it back to the Board with specific recommendations for reconsideration.

C. All records and accounts shall be subject to public inspection pursuant to K.S.A. 45-216 *et seq.*, and amendments thereto.

D. The Land Bank shall make an informal and unaudited annual report to the City Council on or before April 15 of each year, showing receipts and disbursements from all funds under its control and showing all property transactions occurring in each year. Such report shall include an inventory of all property held by the Land Bank, and shall be published in the official city newspaper.

E. The Board, without competitive bidding, may sell any property acquired by the Board at such times, to such persons, and upon such terms and conditions, and subject to such restrictions and covenants deemed necessary or appropriate to assure the property's effective reutilization. Notice of said sale will be published thirty (30) days prior to the sale.

F. The sale of any real property by the Board, under the provisions of this Section, on which there are delinquent special assessments to finance public improvements shall be conditioned upon the approval of the governing body which levied the special assessments.

G. The Board, for the purpose of land disposition, may cause to be consolidated, assembled or subdivided individual parcels of property acquired by the Land Bank.

H. Pursuant to K.S.A. 12-5909, until sold or otherwise disposed of by the Land Bank, and except for special assessments levied by the City to finance public improvements, any property acquired by the Land Bank shall be exempt from the payment of ad valorem taxes levied by the State of Kansas and any other political or taxing subdivision of the state.

(i) Pursuant to K.S.A. 12-5909(b), except for special assessments levied by the City to finance public improvements, when the Board acquires property pursuant to this Section, the Sedgwick County Treasurer shall remove from the tax rolls all taxes, assessments, charges, penalties and interest that are due and payable on the property at the time of acquisition by the Board.

(ii) Pursuant to K.S.A. 12-5909(c), property held by the Land Bank shall remain liable for special assessments levied by the City for public improvements, but no payment thereof shall be required until such property is sold or otherwise conveyed by the Land Bank.

(iii) Pursuant to K.S.A. 12-5909(d), the City Council may abate part or all of any lien assessments which it has levied on property acquired by the Land Bank. Any lien assessments that are abated shall be removed from the tax rolls by the County Treasurer as of the effective date of the abatement.

I. Any moneys derived from the sale of property by the Land Bank shall be retained by the Land Bank for the purposes and operations thereof; provided, however, that the Board may use all or part of the proceeds from such sale to reimburse the City for delinquent special assessments due on such property.

(Ord. No. 51-558, § 6, 5-25-21)

ARTICLE I. CABLE TV (BROADBAND)

MULTIMEDIA CABLEVISION FRANCHISE (APPENDIX) Ordinance No. 42-264

AN ORDINANCE AMENDING ORDINANCE NO. 41-266 OF THE CITY OF WICHITA, KANSAS, GRANTING A FRANCHISE TO MULTIMEDIA CABLEVISION, INC. TO CONSTRUCT, OPERATE AND MAINTAIN A BROADBAND TELECOMMUNICATIONS NETWORK WITHIN THE CITY OF WICHITA; PROVIDING TERMS AND CONDITIONS FOR THE OPERATION OF SUCH SYSTEM; AND PROVIDING FEES THEREFOR; AND REPEALING THE ORIGINAL OF SAID ORDINANCE.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF WICHITA, KANSAS:

Section 1. Definitions. For the purpose of this ordinance, the following terms, phrases, words, abbreviations and their derivations shall have the meaning given herein. When not inconsistent with the context, words used in the present tense include the future tense, words in the plural number include the singular number, and words in the singular number include the plural number.

(a) "Broadband Telecommunication Network" ("BTN") or "System" shall mean all of the component, physical, operational and programming elements of any network of cable, optical electrical or electronic equipment, designed, constructed, wired or used for the purpose of producing, receiving, amplifying and transmitting by coaxial cable, fiber optics, microwave or other means audio and/or audio/visual electrical impulses of television, radio and other intelligences either analog or digital, including the cable television system, for sale or use by the inhabitants and businesses of the City, including without limitation antenna, cable, fiber, wires, lines, towers, amplifiers, conductors, converters, equipment, and facilities.

(b) "City" shall mean the City of Wichita, Kansas, a municipal corporation of the State of Kansas, in its present incorporated form or in any later reorganized, consolidated, enlarged, or reincorporated form.

(c) "Council" shall mean the present governing body of the City or any future board constituting the legislative body of the City.

(d) "Franchise" shall mean and include any authorization granted hereunder to construct, operate and maintain a BTN in the City.

(e) "Grantee" shall mean Multimedia Cablevision, Inc. or any subsequent provider of cable television service governed by the provisions of this franchise.

(f) "Facilities" shall mean cable lines, conduits, wires, cables, fiber, pipes, poles, towers, vaults and appliances, either under or above ground.

(g) "Right-of-way" shall mean present and future streets, alleys, rights-of-way and public easements, including easements dedicated in plats of the City of Wichita, Kansas.

(h) "Street right-of-way" shall mean the entire width between property lines of land, property or an interest therein of every way publicly maintained where any part thereof is open to the use of the public for purposes of vehicular traffic, including street, avenue, boulevard, highway, expressway, alley or any other public way for vehicular travel by whatever name.

(i) "Property of grantee" shall mean all property owned, installed or used by the grantee in the conduct of a BTN in the City under the authority of this franchise.

(j) "Cable" shall mean a cable television system as hereinafter defined.

(k) "Cable Television System" shall mean a system of antennae, coaxial cables, wires, wave guides or other conductors, equipment or facilities designed, constructed

or used for the purpose of providing television or FM radio service by wire, cable, fiber, or through its facilities as herein contemplated, all of which will be used to regularly supply the public with a service and which property, by the acceptance of this ordinance, Grantee will devote to the public use.

(l) "Subscriber" shall mean any person or entity receiving for any purpose the cable service of Grantee.

(m) "Gross Annual Receipts" shall mean any and all compensation and other consideration derived directly or indirectly by the Grantee, its affiliates, subsidiaries and parents, from the operation or use of all or part of the BTN operating within the City and franchised to the Grantee pursuant to this Ordinance, including, but not limited to, revenue from: subscribers who are residents of the City, service fees, auxiliary service fees, installation and reconnection fees, leased channel fees or other charges for any third party's use of the system, converter and other equipment rentals, personnel fees, studio rental and production equipment fees paid by residents of the City, interest income and extraordinary revenues, late payment charges or forfeited discounts, advertising revenues and other revenues from the operation of the BTN; provided, however, that this shall not include (i) revenues derived by any third party from its use of the system; or (ii) any taxes on services

furnished by the grantee imposed directly on any subscriber or user by any city, state or other governmental unit and collected by the Grantee on behalf of such governmental unit.

(n) "Transfer" shall mean the sale, forced, involuntary, or voluntary; lease; assignment; disposition of, in whole or in part; merger or consolidation of Grantee; or the transfer of 25% or more of the beneficial ownership, stock ownership, or right to control the Grantee, either directly or indirectly during the term of this franchise, either in a single transaction or a series of transactions, to a single person or group of persons acting in concert, none of whom owned, beneficially or otherwise, ten percent (10%) or more of the Grantee at the time this franchise ordinance was approved.

Section 2. Franchise granted. A franchise be and hereby is granted to Multimedia Cablevision, Inc., hereinafter referred to as Grantee, and Grantee is authorized to engage in the business of operating and providing a BTN in the City, and for that purpose to erect, install, construct, repair, replace, reconstruct, maintain and retain in, on, over, under, upon, across and along any public street, such poles, wires, fiber, cable conductors, ducts, conduit, vaults, manholes, amplifiers, appliances, attachments and other property as may be necessary and appurtenant to the BTN; and in addition, so to use, operate and provide similar facilities or properties rented or leased from other persons, firms or corporations, including but not limited to any public utility or other grantee franchised or permitted to do business in the City.

Section 3. Facilities.

(a) The Grantee shall use existing poles, towers or other existing facilities wherever possible and it shall be the sole responsibility of the Grantee to negotiate and enter into any and all contracts with the owner of such facilities to secure the necessary space thereon or therein for its operation under this franchise, and the Grantee shall permit any other utility or utilities by appropriate contract or agreement negotiated by the parties to use any and all facilities constructed or erected by the Grantee. All said agreements and installations shall be subject to all existing and future ordinances and regulations of the City.

(b) The Grantee will not erect a separate system of poles in the City or on the street right-of-way therein, but may erect poles where shown to be necessary when the necessity, the location, and the style of pole have been approved by the City Engineer. The erection of poles shall be subject to the provisions of Section 4 and all existing and future ordinances and regulations of the City applicable thereto.

(c) The Grantee shall not install or erect any facilities or apparatus in or on other public property, places or rights-of-way, or within any privately-owned area within the City which has not yet become a public street but is designated or delineated as a proposed public street on any tentative subdivision map approved by the City, except those installed or erected upon public facilities now existing, without obtaining the prior written approval of the City Engineer.

Section 4. Use of Right-of-Way. In the use of right-of-way under this franchise, the Grantee shall be subject to all rules, regulations, policies, resolutions and ordinances of general applicability now or hereafter adopted or promulgated by the City in the reasonable exercise of its police power. In addition, the Grantee shall be subject to all rules, regulations, policies, resolutions, and ordinances now or hereafter adopted or promulgated by the City relating to permits and fees, sidewalk and pavement cuts, utility location, construction coordination, beautification, and other requirements on the use of the right-of-way and shall comply with the following:

(a) The Grantee's use of right-of-way shall in all matters be subordinate to the City's use of the right-of-way for any public purpose. The Grantee shall coordinate the placement of its facilities in a manner which minimizes adverse impact on public improvements, as reasonably determined by the City. Where placement is not otherwise regulated, the facilities shall be placed with adequate clearance from

such public improvements so as not to impact or be impacted by such public improvement.

(b) All earth, materials, sidewalks, paving, crossings, utilities, public improvements, or improvements of any kind injured or removed by the Grantee in its activities under this franchise shall be fully repaired or replaced promptly by the Grantee at its sole expense and to the reasonable satisfaction of the City or owner thereof.

(c) All facilities constructed, replaced, or relocated in the right-of-way after the date hereof shall be placed underground unless otherwise agreed to by the City. In those areas and portions of the City where the Grantee is using facilities of other utilities which are not placed underground, Grantee may continue to use such aboveground facilities until such time as the other utility places them underground. Where there are obstructions in the right-of-way such as trees, shrubs, other utilities, commercial signs, man-made structures, or other like obstructions which make the cost of such underground burial unreasonable, the Grantee may request waiver of this requirement, in which event the City will not unreasonably withhold consent. Any amplifiers, vaults, boxes, pedestals, and similar facilities placed above ground in street right-of-way shall be located behind the sidewalk where feasible. Underground facilities shall be placed in appropriate size and type of rigid conduit under paving and under proposed paving as set forth in the Year 2000 Transportation Plan as on file with the Metropolitan Area Planning Commission except where otherwise agreed by the City and the Grantee. For purposes of this subsection, "underground" shall include a partial underground system, e.g., streamlining, so long as it meets the other requirements of this ordinance.

(d) The Grantee shall keep and maintain accurate records and as-built drawings depicting accurate horizontal and vertical location of all facilities constructed, reconstructed, or relocated in the street right-of-way of arterial streets after the date hereof. Such facilities shall be horizontally and vertically located at least every 100 feet and at any other alignment change. All points of facilities shall be horizontally located from street centerline, or section or quartersection lines or corners. Vertical locations or all points of facilities shall consist of elevations in either City datum or United States Geological Survey datum.

(e) The Grantee shall notify the City not less than three (3) working days in advance (such notice to be adequate for timely notice on the governing body agenda under City procedures) of any construction, reconstruction, repair, or relocation of facilities which would require any street closure which reduces traffic flow to less than two lanes of moving traffic. Except in the event of an emergency, as reasonably determined by the Grantee, no such closure shall take place without prior authorization from the City. In addition, all work performed in the traveled way or which in any way impacts vehicular or pedestrian traffic shall be properly signed, barricaded, and otherwise protected. Such signing shall be in conformance with the latest edition of the Federal Highway Administration's Standards and Guideline for Work Zone Traffic Control, unless otherwise agreed to by the City.

(f) The Grantee shall cooperate promptly and fully with the City and take all reasonable measures necessary to provide accurate and complete information upon request from the City regarding the nature and horizontal and vertical location of its facilities located within right-of-way when requested by the City or its authorized agents for a public project. Such location and identification shall be at the sole expense of the Grantee without expense to the City, its employees, agents, or authorized contractors. The Grantee shall designate and maintain a local agent, familiar with the facilities, who is respon-

sible for satisfying information needs of the City and other users of the right-of-way.

(g) The Grantee shall promptly remove, relocate, or adjust any facilities located in right-of-way if reasonably necessary and directed by the City for a public project including those required by reason of traffic conditions, public safety, street vacation, freeway and street construction, change or establishment of street grade installation of sewers, drains, water pipes, power lines, signal lines and tracts of any other type of structures or improvements by public agencies. Such removal, relocation, or adjustment for a particular public project shall be performed by the Grantee once at its sole expense without expense to the City, its employees, agents, or authorized contractors and shall be specifically subject to rules and regulations of the City pertaining to such. If additional removal, relocation, or adjustment is the result of the inaccurate or mistaken information of the Grantee, the Grantee shall be responsible for such at its sole expense.

(h) Upon failure of the Grantee to commence, pursue, or complete any work required by law or by the provisions of any City ordinance or by its franchise to be done in any street right-of-way or other public place, within the time prescribed, and to the satisfaction of the City Engineer, the City Engineer, at his or her option, may cause such work to be done and the Grantee shall pay to the City the cost thereof in the amounts reported by the City Engineer, plus ten percent to the City within thirty days after receipt of such itemized report.

(i) It shall be the responsibility of the Grantee to take adequate measures to protect and defend its facilities in the right-of-way from harm or damage. If the Grantee fails to accurately or timely locate facilities when requested, it has no claim for costs or damages against the City and its authorized contractors unless such party is solely responsible for the harm or damage by its negligence or intentional conduct. Grantee shall be responsible to the City and its agents, representatives, and authorized contractors for all damages including, but not limited to, delay damages, repair costs, down time, construction delays, penalties or other expenses of any kind arising out of the failure of the Grantee to perform any of its obligations under this agreement unless the damaged party is solely responsible for the harm or damage by its negligence or intentionally caused harm. However, the City and its authorized contractors shall be responsible to take reasonable precautionary measures including calling for utility locations and observing marker posts when working near Grantee facilities.

(j) The Grantee, on the request of any applicant, shall remove or raise or lower its wires temporarily to permit the moving of houses or other structures. The expense of such temporary removal, raising or lowering of wires shall be paid by the party or parties requesting the same, and the Grantee may require such payment in advance. The Grantee shall be given not less than fifteen (15) days' written notice from the applicant detailing the time and location of the moving operations, and not less than twenty-four (24) hours, advance notice from the applicant advising of the actual operation.

(k) Permission is hereby granted to the Grantee to trim trees upon and overhanging streets, alleys, sidewalks and public places of said City so as to prevent the branches of such trees from coming in contact with the wires and cables of the Grantee, all of said trimming to be done under the supervision and direction of any City officials to whom said duties have been or may be designated.

(l) All technical standards governing construction, reconstruction, installation, operation, testing, use, maintenance, and dismantling of the facilities in the right-of-way shall be in accordance with applicable present and future federal, state, and

City law and regulation, including but not limited to the most recent editions of the National Electrical Code, the National Electrical Safety Code, and the Fiber Optic Cable Installation Standard of the Telecommunications Industry Committee, or such substantive equivalents as may hereafter be adopted or promulgated. It is understood that the standards established in this paragraph are minimum standards and the requirements established or referenced in this ordinance may be additional to or stricter than such minimum standards. It is further understood that notwithstanding such standards the Grantee shall have the right to wire and install its own power supplies.

Section 5. Rates and Service. The parties recognize that under federal statutes and regulations in existence at the time of the enactment of this ordinance, the City is limited in its ability to control or regulate rates for Cable Television Service. The City reserves the right to regulate rates and services in the event that changes in the law or in competition should allow such regulation. In such event, either the City or the Grantee may request negotiation of the provisions providing for such regulation.

Section 6. Term. The rights, privileges, and franchise granted by this ordinance shall, unless this franchise is sooner terminated as herein provided, be and remain in full force and effect for a period of fifteen (15) years from the effective date hereof.

Section 7. Termination and Forfeiture of Franchise. This franchise may be terminated prior to its date of expiration in the event that:

(a) The Grantee has failed to comply with any material provision of this ordinance, or has, by act of omission, materially violated any term or condition of any franchise or permit issued hereunder; or

(b) Any provision of this ordinance has become invalid or unenforceable, and the parties are unable to reach agreement on a substitute provision, and the City further finds that such provision constitutes a consideration material to the grant of said franchise; or

(c) The City acquires the system property of Grantee as set forth herein.

Upon such termination, all rights and privileges granted by this ordinance and all rights hereunder shall cease, terminate, and become null and void, provided that said forfeiture shall not take effect until the City shall carry out the following proceedings.

Before the City proceeds to terminate this franchise, it shall make written demand that the Grantee comply with the provisions of this ordinance or correct any action deemed cause for termination. If such failure to comply or take appropriate corrective action continues for a period of thirty (30) days following such written demand, the City may serve a written notice upon Grantee setting forth the grounds upon which it proposes to terminate the franchise and setting a public hearing before the Council at least thirty (30) days following such notice. After notice and such public hearing, wherein Grantee shall have the right to present evidence justifying its actions, the Council may immediately terminate the franchise upon a finding of the existence of any of the events of this Section as set forth in the notice.

Section 8. Review or Re-negotiation. Recognizing that the field of telecommunications is rapidly changing in the areas of regulation, technology, financing, marketing, and law, therefore, in order to provide maximum flexibility in this franchise and to help achieve a continued advanced and modern system, the following provisions are established for review and re-negotiation of the franchise hereby granted:

(a) In the event of a change in federal or state law materially affecting such provisions and upon request by either the City or the Grantee to the other, the parties shall re-negotiate the provisions of this ordinance pertaining to regulation of rates and services (Section 5), compensation (Section 9), or programming (Section 10).

(b) The City shall review the entire franchise operation within 30 days of every fifth anniversary of the franchise hereby granted to determine to the extent permitted by federal or state law if any changes are needed in the service rate structures; free or discounted services; application of new technologies; system performances; services provided; programming offered; customer complaints; privacy in human rights; amendments to this ordinance; undergrounding progress; and judicial and Federal Communication Commission rulings.

(c) Special review and re-negotiation sessions may be held at any time during the term of the franchise on the request of either the City or the Grantee with such request to specify the topics to be reviewed and renegotiated including any proposals therefor.

(d) Nothing contained in subsection (b) or (c) of this section, however, shall be construed as requiring either the City or grantee to negotiate a new franchise, or modify or extend an existing franchise.

Section 9. Compensation to the City. Grantee hereby contracts and is hereby obligated during the terms of this franchise ordinance to pay to the City a sum equal to five percent (5%) of the gross annual receipts of the Grantee, provided that the parties may re-negotiate this provision in the event that federal or state statutes or regulations allow or mandate a higher or lower amount. Any payments made by the Grantee to the City in connection with franchise renewal proceedings, transfer of ownership, or as compensation for costs incurred by the City in connection with the franchise shall not be deemed as any portion of a franchise fee.

Such payments shall be made in monthly installments, based upon actual receipts, 30 days after the end of the month to which such payments shall apply. True-up payments shall be made when necessary at the end of each calendar year this ordinance is in effect, payable within 60 days. Grantee shall also provide such annual accounting reports as may be reasonably requested by the City in addition to monthly supporting data in order for the City to properly verify compliance with this ordinance.

The City or its authorized representative shall have the right to periodically audit the books and records of the Grantee to verify that compensation has been correctly computed and paid. The Grantee agrees to reimburse the City for the reasonable costs of such audit if the audit discloses that the Grantee has paid 98% or less of the compensation due the City for the period of such audit. In the event the accounting rendered to the City by the Grantee herein is found to be incorrect, then payment shall be made on the corrected amount within thirty (30) days of written notice, it being agreed that the City may accept any amount offered by the Grantee but the acceptance thereof by the City shall not be deemed a settlement of such item if the amount is in dispute or is later found to be incorrect. The Grantee agrees that all of its relevant books, records and documents and all of its contracts and agreements shall at all reasonable times be open to the inspection and examination of the officers of the City and the duly authorized agents, auditors and employees of the City for the purpose of verifying said report, or for any other lawful purpose.

The Grantee shall correctly code all customers and receipts from service within the corporate limits of the City. Such coding shall be updated to reflect annexation and other changes in City boundaries, customers, and receipts from service within thirty (30) days of notice or reasonable knowledge of any such change or modification. In the event of large annexations, the Grantee may request additional time in writing which request will not be unreasonably denied by the City.

Section 10. Programming. Grantee agrees to provide at least the same mix, quality, and level of cable television services as existed at the time of the original grant of franchise to the Grantee. Grantee shall provide free and adequate channel capacity for educational and governmental access and use as set forth in Section 19. In the event that the City shall be granted programming control by federal or state law or regulation during

the term of this franchise, either party may request that such programming provisions be renegotiated.

Section 11. Conditions.

(a) This franchise shall be nonexclusive.

(b) No privilege or exemption is hereby granted or conferred by this franchise except those specifically prescribed herein.

(c) Any privilege claimed under this franchise by the Grantee in any street right-of-way or other public property shall be subordinate to any prior lawful occupancy of the streets or other public property.

(d) Time shall be of the essence for this franchise granted hereunder. The Grantee shall not be relieved of its obligation to comply promptly with any of the provisions of this ordinance or by any failure of the City to enforce prompt compliance.

(e) Any right or power in, or duty impressed upon, any officer, employee, department or board of the City shall be subject to transfer by the City to any other officer, employee, department or board of the City.

(f) The Grantee shall have no recourse whatsoever against the City for any loss, cost, expense or damage arising out of any provision or requirement of this ordinance, except to the extent such is caused by the negligence of the City or its agents.

(g) Except as otherwise provided herein, the Grantee shall be subject to all applicable requirements of City ordinance, rules, regulations and specifications heretofore or hereafter enacted or established.

(h) This franchise does not relieve the Grantee of any obligation involved in obtaining pole space from any department of the City, utility company or from others maintaining poles in streets.
