return or copy thereof or any book containing any abstract or particulars thereof to be seen or examined by any person. However, the Council may, by resolution, authorize examination of the returns by federal or state officers or employees or by the tax officers of this or any other city if a reciprocal arrangement exists. Successors, receivers, trustees, executors, administrators, assignees, and guarantors, if directly interested, may be given information as to the items included in the measure and amounts of any unpaid tax or amounts of tax required to be collected, interest and penalties. SEC. 7-502. PURPOSE.

The Council hereby declares that this article is adopted to achieve the following, among other purposes, and directs that the provisions hereof be interpreted in order to accomplish those purposes:

(a) To adopt a sales and use tax ordinance which complies with the requirements and limitations contained in part 1.5 of division 2 of the Revenue and Taxation Code of the state;

(b) To adopt a sales and use tax ordinance which incorporates provisions identical to those of the sales and use tax law of the state insofar as those provisions are not inconsistent with the requirements and limitations contained in part 1.5 of division 2 of the Revenue and Taxation Code;

(c) To adopt a sales and use tax ordinance which imposes such tax and provides a measure therefor that can be administered and collected by the state board of equalization in a manner that adapts itself as fully as practical to, and requires the least possible deviation from, the existing statutory and administrative procedures followed by the state board of equalization in administering and collecting the California state sales and use taxes;

(d) To adopt a sales and use tax ordinance which can be administered in a manner that will be, to the degree possible, consistent with the provisions of part 1.5 of division 2 of the Revenue and Taxation Code, minimize the cost of collecting city sales and use taxes and at the same time minimize the burden of record keeping upon persons subject to taxation under the provisions of this article. (Added Ord. 5576, 1959; Am. Ord. 6011, 1962).

SEC. 7-503. OPERATIVE DATE; CONTRACT WITH STATE.

This article shall become operative on July 1, 1959, and prior thereto this city shall contract with the state board of equalization to perform all functions incident to the administration and operation of this sales and use tax article; provided, that if this city shall not have contracted

(Added Ord. 5576, 1959).

SEC. 7-504. SALES TAX.

(a) (1) Effective July 1, 2025, for the privilege of selling tangible personal property at retail a tax is hereby imposed on all retailers in the City at the rate of 0.9500 percent of the gross receipts of the retailer from the sale of all tangible personal property sold at retail in the City.

(2) For the purposes of this ordinance, all retail sales are consummated at the place of business of the retailer unless the tangible personal property sold is delivered by the retailer of his agent to an out-of-state designation or to a common carrier for delivery to an out-of-state designation. The gross receipts from such sales shall include delivery charges, when such charges are subject to the state sales and use tax, regardless of the place to which delivery is made. In the event a retailer has no permanent place of business in the state or has more than one place of business, the place or places at which the retail sales are consummated shall be determined under rules and regulations to be prescribed and adopted by the Board of Equalization.

(b) (1) Except as hereinafter provided, and except insofar as they are inconsistent with the provisions of part 1.5 of division 2 of the Revenue and Taxation Code of the state, all of the provisions of part 1 of division 2 of such Code, as amended and in force and effect on July 1, 1959, applicable to sales taxes are hereby adopted and made a part of this section as though fully set forth herein.

(2) Wherever, and to the extent that, in part 1 of division 2 of the state Revenue and Taxation Code, the state is named or referred to as the taxing agency, the City of Fresno shall be substituted therefor. Nothing in this subdivision shall be deemed to require the substitution of the name of the City of Fresno for the word "state" when that word is used as part of the title of the State Controller, the State Treasurer, the State Board of Control, the State Board of Equalization, or the name of the State Treasury, or of the Constitution of the State of California; nor shall the name of the city be substituted for that of the state in any section when the result of that substitution would require action to be taken by or against the city or any agency thereof, rather than by or against the State Board of Equalization, in performing the functions incident to the administration or operation of this article; and neither shall the substitution be deemed to have been made in those sections, including, but not necessarily limited to, sections referring to the exterior boundaries of the state, where the result of the substitution would be to provide an exemption from this tax

with respect to certain gross receipts which would not otherwise be exempt from this tax while those gross receipts remain subject to tax by the state under the provisions of part 1 of division 2 of the Revenue and Taxation Code; nor to impose this tax with respect to certain gross receipts which would not be subject to tax by the state under such provisions of that Code; and, in addition, the name of the city shall not be substituted for that of the state in sections 6701, 6702 (except in the last sentence thereof), 6711, 6715, 6737, 6797 and 6828 of the Revenue and Taxation Code as adopted.

(3) If a seller's permit has been issued to a retailer under section 6067 of the Revenue and Taxation Code, an additional seller's permit shall not be required by reason of this section.

(4) There shall be excluded from the gross receipts by which the tax is measured:

(i) The amount of any sales or use tax imposed by the State of California upon a retailer or consumer.

(ii) The gross receipts from the sale of tangible personal property to operators of waterborne vessels to be used or consumed principally outside the city in which the sale is made and directly and exclusively in the carriage of persons or property in such vessels for commercial purposes.

(iii) The gross receipts from the sale of tangible personal property to operators of aircraft to be used or consumed principally outside the city in which the sale is made and directly and exclusively in the use of such aircraft as common carriers of persons or property under the authority of the laws of this state, the United States, or any foreign government.

(5) During the term of the "Memorandum of Understanding between the County of Fresno, City of Fresno and the Fresno Redevelopment Agency" dated February 26, 1991, on file with the City Clerk (the "MOU"), there shall be a credit to a taxpayer against the payment of sales taxes due to city in an amount equal to the sales tax then due to the County of Fresno by that taxpayer pursuant to the terms of the MOU.

The sales price shall include delivery charges when such charges are subject to State sales or use tax, regardless of the place to which delivery is made.

(b) (1) Except as hereinafter provided, and except insofar as they are inconsistent with the provisions of part 1.5 of division 2 of the Revenue and Taxation Code of the state, all of the provisions of part 1 of division 2 of such code, as amended and in force and effect on July 1, 1959, applicable to use taxes are hereby adopted and made a part of this section as though fully set forth herein.

(2) Wherever, and to the extent that, in part 1 of division 2 of the said Revenue and Taxation Code the State of California is named or referred to as the taxing agency, the name of this city shall be substituted therefor. Nothing in this subdivision shall be deemed to require the substitution of the name of this city for the word "state" when that word is used as part of the title of the State Controller, the State Treasurer, the State Board of Control, the State Board of Equalization, or the name of the State Treasury, or of the Constitution of the State of California; nor shall the name of the city be substituted for that of the state in any section when the result of that substitution would require action to be taken by or against the city or any agency thereof rather than by or against the State Board of Equalization, in performing the functions incident to the administration or operation of this ordinance; and neither shall the substitution be deemed to have been made in those sections, including but not necessarily limited to, sections referring to the exterior boundaries of the State of California, where the result of the substitution would be to provide an exemption from this tax with respect to certain storage, use or other consumption of tangible personal property which would not otherwise be exempt from this tax while such storage, use or other consumption remains subject to tax by the State under the provisions of part 1 of division 2 of the said Revenue and Taxation Code, or to impose this tax with respect to certain storage, use or other consumption of tangible personal property which would not be subject to tax by the state under the said provisions of that Code; and in addition, the name of the city shall not be substituted for that of the state in Sections 6701, 6702 (except in the last sentence thereof), 6711, 6715, 6737, 6797 and 6828 of the said Revenue and Taxation Code as adopted, and the name of the city shall not be substituted for the word "state" in the phrase "retailer engaged in business in this state" in Section 6203 nor in the definition of that phrase in Section 6203.

(3) There shall be exempt from the tax due under this section:

(i) The amount of any sales or use tax imposed by the State of California upon a retailer or consumer.

(ii) The storage, use or other consumption of tangible personal property, the gross receipts from the sale of which has been subject to sales tax under a sales and use tax ordinance enacted in accordance with Part 1.5 of Division 2 of the Revenue and Taxation Code by any city and county, county, or city in this state.

This article shall be known as the Transient Room Tax Ordinance of the City of Fresno. (Rep. and Added Ord. 6457, 1964).

SEC. 7-602. DEFINITIONS.

Except where the context otherwise requires, the definitions given in this section govern the construction of this ordinance.

(a) "Hotel" means any structure, or any portion of any structure which is occupied or intended or designed for occupancy by transients for dwelling, lodging, or sleeping purposes, and includes any hotel, inn, tourist home or house, motel, studio hotel, bachelor hotel, lodging house, rooming house, apartment house, dormitory, public or private club, mobilehome or house trailer at a fixed location, or other similar structure or portion thereof.

(b) "Legislative body" means the City Council of the City of Fresno.

(c) "Occupancy" means the use or possession, or the right to the use or possession of any room or rooms or portions thereof, in any hotel for dwelling, lodging, or sleeping purposes.

(d) "Operator" means the person who is proprietor of the hotel, whether in the capacity of owner, lessee, sublessee, mortgagee in possession, licensee, or any other capacity, and includes an officer or employee of a corporation, or a member or employee of a partnership, who as such officer, employee, or member is under a duty to collect or

remit the tax imposed by this article on behalf of such corporation or partnership. Where the Operator performs its functions through a managing agent of any type or character other than an employee, the managing agent shall also be deemed an Operator for the purposes of this article. Compliance with the provisions of this article by either the principal or the managing agent shall, however, be considered to be compliance by both.

(e) "Person" means any individual, firm, partnership, joint venture, association, social club, fraternal organization, joint stock company, corporation, estate, trust, business trust, receiver, trustee, syndicate, or any other group or combination acting as a unit.

(f) "Rent" means the consideration charged, whether or not received, for the occupancy of space in a hotel valued in money, whether to be received in money, goods, labor, or otherwise, including all receipts, cash, credits, and property and services of any kind or nature, without any deduction therefrom whatsoever.

(g) "Tax Administrator" means the Controller and Director of Finance of the City of Fresno. "Tax Administrator" as used herein, shall, where applicable, also include the person(s) authorized to collect assessments on behalf of the Tourism Business Improvement District, to the extent authority is delegated by ordinance, resolution, or agreement with the city.

(h) "Transient" means any person who exercises occupancy or is entitled to occupancy in a hotel by reason of a lease, concession, permit, right of access, license or other agreement for a period of thirty consecutive calendar days or less, counting portions of calendar days as full days. Any such person so occupying space in a hotel shall be deemed to be a transient until the period of thirty days has expired unless there is an agreement in writing between the operator and the occupant providing for a longer period of occupancy. In determining whether a person is a transient, uninterrupted periods of time extending both prior and subsequent to the effective date of this ordinance may be considered.

(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-601; Am. Ord. 69-48, 1969; Am. Ord. 88-8, § 4, eff. 2-12-88; Am. Ord. 2012-17, § 1, eff. 10-5-12; Am. Ord. 2023-12, § 1, eff. 6-8-23).

SEC. 7-603. TAX IMPOSED.

(a) **Transient Occupancy Tax.** For the privilege of occupancy in any hotel, each transient is subject to and shall pay a tax to be known as the "Transient Occupancy Tax" ("TOT") in the amount designated in the Master Fee Resolution. Said tax constitutes a debt owed by the transient to the city which is extinguished only by payment to the operator or to the city. The transient shall pay the tax to the operator of the hotel at the time the rent is paid. If the rent is paid in installments, a proportionate share of the tax shall be paid with each installment. Any unpaid tax shall be due upon the transient's ceasing to occupy space in the hotel. If for any reason the tax due is not paid to the operator of the hotel, the Tax Administrator may require that such tax shall be paid directly to him.

(b) **Tourism Business Improvement District.** The provisions of this ordinance, as applicable, shall also apply to the collection of a duly authorized "Tourism Business Improvement District" ("TBID") assessment. All references to "tax" in this ordinance shall apply also to collection of the TBID assessment.

(Rep. and Added Ord. 6457, 1964, based on former Secs. 4-602, 4-603; Am. Ord. 67-42, 1967; Am. Ord. 73-74, § 1, eff. 7-1-73; Am. Ord. 82-127, § 1, eff. 12-24-82; Am. Ord. 2012-17, § 1, eff. 10-5-12).

SEC. 7-604. COLLECTION OF TAX BY OPERATOR; RULES FOR COLLECTION SCHEDULES.

Every operator maintaining a place of business and renting rooms in this city, the occupancy of which is not exempted under the terms of this ordinance, shall collect the tax from the occupant. The tax, when collected by the operator, shall immediately be deemed city funds held in trust by the operator for the sole benefit of the city, to be transferred to the city as provided in this ordinance. The tax required to be collected by the operator also constitutes a debt owing by the operator to the city. In all cases of transactions upon credit or deferred payment, the payment of tax to the operator may be deferred in accordance therewith, and the operator shall be liable therefore at the time and to the extent that such credits are paid or deferred payments are made in accordance with the rate of tax owing on the amount thereof.

The Tax Administrator shall enforce the provisions of this ordinance and shall have the power to adopt rules and regulations not inconsistent herewith as may be necessary or desirable to aid in the enforcement hereof. He shall provide schedules for payment of the tax and such schedules shall eliminate fractions of one cent.
(Added Ord. 6194, 1963; Am. Ord. 6224, 1963; Rep. and Added Ord. 6457, 1964; Am. Ord. 2012-17, § 1, eff. 10-5-12).

SEC. 7-605. OPERATOR'S DUTIES.

Each operator shall collect the tax imposed by this ordinance to the same extent and at the same time as the rent is collected from every transient. The amount of tax shall be separately stated from the amount of the rent charged, and each transient shall receive a receipt for payment from the operator. No operator of a hotel shall advertise or state in any manner, whether directly or indirectly, that the tax or any part thereof will be assumed or absorbed by the operator, or that it will not be added to the rent, or that, if added, any part will be refunded except in the manner hereinafter provided.
(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-604 and 4-605).

SEC. 7-606. EXEMPTIONS.

No tax imposed under this article shall be imposed upon:

(a) Any person as to who, or any occupancy as to which, it is beyond the power of the city to impose the tax herein provided;

(b) Any officer or employee of a foreign government who is exempt by reason of express provision of federal law or international treaty or any federal or California city, county or state government officer or employee when on official business;

(c) Any occupant for more than thirty successive calendar days;

(d) Any occupant whose rent is of a value less than two dollars ($2.) a day;

(e) Any person who rents a private home, vacation cabin, or like facility from any owner who is not regularly engaged in the business of renting such facilities but does so only occasionally and incidentally to his own use thereof;

(f) Any occupant whose rent is paid for a hospital room or to a medical clinic, convalescent home or home for aged people;

(g) Any person who, while attending a convention or similar gathering in the city, rents a facility which is ordinarily used for occupancies not taxable under this article;

No exemption shall be granted under subsections (a) or (b) of this section except upon a claim therefor made at the time rent is collected and under penalty of perjury upon a form prescribed by the Tax Administrator.
(Added Ord. 6194, 1963; Rep. and Added Ord. 6457, 1964; Am. Ord. 6689, 1965; Am. Ord. 68-56, 1968; Am. Ord. 88-143, § 1, eff. 12-16-88).

SEC. 7-607. REGISTRATION OF OPERATOR; FORM AND CONTENTS; EXECUTION; CERTIFICATION OF AUTHORITY.

Every person engaging or about to engage in business as an operator of a hotel in this city shall register with the Tax Administrator on a form provided by him. Persons engaged in such business must so register not later than July 15, 1964, or within fifteen days after commencing business whichever is later, but such privilege of registration after the date of imposition of such tax shall not relieve any person from the obligation of payment or collection of tax on and after the date of imposition thereof, regardless of registration. Such registration shall set forth the name under which such person transacts or intends to transact business, the location of his place or places of business and such other information to facilitate the collection of the tax as the Tax Administrator may require. The registration shall be signed by authorized representatives on behalf of both the owner of the property and the operator, if different; in case of an association or partnership, by a member or partner; in the case of a corporation, by an executive officer or some person specifically authorized by the corporation to sign the registration. The registration shall contain an express acknowledgement and consent to all terms contained in this ordinance, including but not limited to remedies for non-payment of the tax. The Tax Administrator shall within ten days after such registration issue without charge a certificate of authority to each registrant to collect the tax from the occupant, together with a duplicate thereof for each additional place of business of such registrant. Such certificates shall be non-assignable and non-transferable and shall be surrendered immediately to the Tax Administrator upon the cessation of business at the location named, upon its sale or transfer, or as provided in this ordinance. Each certificate and duplicate shall state the place of business to which it is applicable and shall be prominently displayed therein so as to be seen and come to the notice readily of all occupants and persons seeking occupancy. No person or entity shall operate a hotel in this city without a current and valid certificate of authority.

Said certificate shall, among other things, state the following:

(1) The name of the operator;

(2) The address of the hotel;

(3) The date upon which the certificate was issued;

(4) This Transient Occupancy Registration Certificate signifies that the person named on the face hereof has fulfilled the requirements of the transient room tax ordinance of the City of Fresno by registration with the Tax Administrator for the purpose of collecting from transients the room tax imposed by said city and remitting said tax to the Tax Administrator. This certificate does not authorize any person to conduct any unlawful business or to conduct any lawful business in an unlawful manner, or to operate a hotel without strictly complying with all local applicable laws, including but not limited to those requiring a permit from any board, commission, department, or office of said city. This certificate does not constitute a permit.

If the Tax Administrator deems it necessary in order to facilitate initial registration hereunder of persons engaged in business on or prior to the date of imposition of tax as set forth in this ordinance, he may prescribe provisions therefor other than those provided in this section. Such provisions shall be made to effect the purposes hereof. For such purposes, such provisions shall be in lieu of or in addition to those herein provided. Such registration and certificate thereof shall have the same effect as that provided herein.
(Added Ord. 6194, 1964; Rep. and Added Ord. 6457, 1964; Am. Ord. 2012-17, § 1, eff. 10-5-12).

SEC. 7-608. PENALTIES AND INTEREST.

(a) **Original Delinquency.** Any operator who fails to remit any tax imposed by this ordinance within the time required shall pay a penalty of ten per cent of the amount of the tax in addition to the amount of the tax.

(b) **Continued Delinquency.** Any operator who fails to remit any delinquent remittance on or before a period of thirty days following the date on which the remittance first became delinquent shall pay a second delinquency penalty of ten per cent of the amount of the tax in addition to the amount of the tax and the ten per cent penalty first imposed.

(c) **Fraud.** If the Tax Administrator determines that the non-payment of any remittance due under this ordinance is due to fraud or intent to evade the provisions thereof, a penalty of twenty-five per cent of the amount of the tax shall be added thereto in addition to the penalties stated in paragraphs (a) and (b) of this section.

(d) **Interest.** In addition to the penalties imposed, any operator who fails to remit any tax imposed by this ordinance shall pay interest at the rate of one per cent per month or fraction thereof on the amount of the tax, exclusive of penalties, from the date on which the remittance first became delinquent until paid.

(e) **Penalties Merged With Tax.** Every penalty imposed and such interest as accrues under the provisions of this section shall be merged with and become a part of the tax herein required to be paid.

(f) **Liens and Collection.** A real property lien shall attach to the location of the hotel effective immediately when a tax becomes delinquent. If any tax is not paid when due, the Tax Administrator may record in the office of county recorder of such counties as the Tax Administrator may determine, a certificate which specifies the amount of tax due and the

name and address of the owner and/or operator owing the tax. The certificate shall include a statement that the Tax Administrator has complied with all legal requirements in the determination of the tax owed and a legal description of the real property of the owner. Upon recording of the certificate, the tax, as well as all amounts becoming due thereafter unless paid, constitutes a lien upon all real property owned or thereafter acquired by the owner and/or operator. The lien has the force, effect and priority of a judgment lien.

(g) **Warrant for Collection of Tax.** At any time after the recording of a certificate of lien, the Tax Administrator may issue a warrant directed to any sheriff or marshal for the enforcement of the lien and the collection of such tax. The warrant shall have the same effect as a writ of execution, and be executed in the same manner and with the same effect as a levy and sale pursuant to writ of execution. The Tax Administrator shall, upon request, pay or advance to the sheriff or marshal such fees, commissions and expenses for services as are provided by law.

(h) **Seizure and Sale.** In lieu of issuing a warrant, after an assessment is issued or a certificate of lien is recorded, the Tax Administrator may collect the delinquent amount by seizing or causing to be seized any property, real or personal, of the owner and/or operator and selling non-cash or nonnegotiable property at public auction to pay the tax due together with any costs of the seizure and sale. Any seizure made shall only be of property not exempt from execution under the provisions of the Code of Civil Procedure.

(i) **Combining Actions.** In the discretion of the Controller or Director of Finance and with consent of the TBID administrator, the city may combine in one action efforts to collect both TOT and TBID assessments due from an operator.
(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-613; Am. Ord. 2012-17, § 1, eff. 10-5-12).

SEC. 7-609. DUE DATE; RETURNS AND PAYMENTS.

(a) The tax imposed by this ordinance shall become due and payable from the occupant at the time of occupancy. All amounts of such taxes collectible or collected by any operator are due and payable to the Tax Administrator quarterly on the first day of the months of April, July, October, and January next succeeding each respective quarterly period and are delinquent after the last day of such months.

(b) On or before the last day of the month following each quarterly period of three months, a return for the preceding quarterly period shall be filed with the Tax Administrator. The return shall be filed in such form as the Tax Administrator may prescribe, by every operator and by every person liable to payment of tax hereunder during such quarterly period who has not paid such tax, and who has not made return in regard to the related occupancy which is the subject of tax.

(c) Returns shall show the amount of tax collected or otherwise due for the related period and such other information as is required by the Tax Administrator. The Tax Administrator may require returns to show the total rentals upon which tax was collected or otherwise due, the gross receipts of a registered returnee for such period and the explanation in detail of any discrepancy between such amounts.

(d) The person required to file the return shall deliver the return, together with the remittance of the amount of the tax due, to the Tax Administrator at his office.

(e) For good cause the Tax Administrator may extend for not to exceed one month the time for making any return or payment of tax. No further extension shall be granted, except by the Transient Occupancy Review Committee. Any person to whom an extension is granted who makes return and pays the tax within the period of such extension shall pay, in addition to the tax, interest on the amount thereof at the rate of one-half of one per cent per month, or fraction thereof, on the unpaid balance for the period of such extension to the time of return and payment, which interest shall become a part of the tax.

(f) The Tax Administrator, if he deems it necessary in order to insure payment or facilitate collection by the city of the amount of taxes may require returns and payment of the amount of taxes for other than quarterly periods.
(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-608; Am. Ord. 67-93, 1967).

SEC. 7-610. DEFICIENCY DETERMINATIONS.

(a) If the Tax Administrator is not satisfied with the return or returns of the tax or the amount of the tax required to be paid to the city by any person, he may compute and determine the amount required to be paid upon the basis of the facts contained in the return or returns or upon the basis of any information within his possession or that may come into his possession. One or more deficiency determinations may be made of the amount due for one or more than one period. The determination of the Tax Administrator shall constitute a legal presumption of the amount due.

(b) In making a determination the Administrator may offset overpayments, if any, which may have been previously made for a period or periods together with interest on the overpayments, against any underpayment for a subsequent period or periods, or against penalties, and interest, on the underpayments. The interest on underpayments and overpayments shall be computed in the manner set forth in Section 7-608.

(c) The Tax Administrator shall give to the operator or occupant written notice of his determination. The notice may be served personally or by mail; if by mail, the notice shall be enclosed in a sealed envelope postage prepaid and addressed to the operator at his address as it appears in the records of the Administrator. In case of service by mail of any notice required by this ordinance the service is complete at the time of deposit in the United States Post Office.

(d) Except in the case of fraud, intent to evade this ordinance or authorized rules and regulations, or failure to make a timely return, every deficiency determination shall be made and notice thereof mailed within three years after the last day of the month following the close of the quarterly period for which the amount is proposed to be determined or within three years after the return is filed, whichever period expires the later.

(e) If any operator shall fail or refuse to collect said tax or to make, within the time provided in this ordinance, any report and remittance of said tax or any portion thereof required by this ordinance or makes a fraudulent return or otherwise willfully attempts to evade this

ordinance, the Tax Administrator shall proceed in such manner as he may deem best to obtain facts and information on which to base his estimate of the tax due. As soon as the Tax Administrator shall procure such facts and information as he is able to obtain upon which to base the assessment of any tax imposed by this ordinance and payable by any operator who has failed or refused to collect the same and to make such report and remittance, he shall proceed to determine and assess against such operator the tax, interest, and penalties, provided for by this ordinance. In case such determination is made, the Tax Administrator shall give a notice in the manner aforesaid of the amount so assessed. Such determination and notice shall be made and mailed within three years after discovery by the Tax Administrator of any fraud, intent to evade or failure to file return. Any determination shall become final within thirty days after giving notice thereof as herein provided.

(f) If the Tax Administrator believes that the collection of any tax or any amount of tax required to be collected and paid to the City will be jeopardized by delay, or if any determination will be jeopardized by delay, he shall thereupon make a determination of the tax or amount of tax required to be collected, noting that fact upon the determination. The amount determined is immediately due and payable. If the amount specified in the determination is not paid within ten days after service of notice thereof upon the person against whom the determination is made, the amount becomes final at the expiration of the ten days, unless a petition for redetermination is filed within the ten days and the delinquency penalty and the interest provided in Section 7-608 shall attach to the amount of the tax or the amount of the tax required to be collected.
(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-609, 4-610 and 4-611; Am. Ord. 6498, 1964; Am. Ord. 2012-17, § 1, eff. 10-5-12).

SEC. 7-611. REDETERMINATIONS.

(a) Any person against whom a determination is made under Section 7-610 or any person directly interested may petition for a redetermination within thirty days after service upon the person of notice thereof. If a petition for redetermination is not filed within the thirty-day period, the determination becomes final at the expiration of the period. Provided, however, a petition for redetermination under subsection (f) of Section 7-610 shall be filed within ten days after notice.

(b) If a petition for redetermination is filed within the allowable period, the Tax Administrator shall reconsider the determination, and, if the person has so requested in his petition, shall grant the person an oral hearing and shall give him ten days' notice of the time and place of the hearing. The Tax Administrator may continue the hearing from time to time as may be necessary.

(c) The Tax Administrator may decrease or increase the amount of the determination before it becomes final but the amount may be increased only if a claim for the increase is asserted by the Tax Administrator at or before the hearing.

(d) The order or decision of the Tax Administrator upon a petition for redetermination becomes final fifteen days after service upon the petitioner of notice thereof, unless appeal of such order or decision is filed with the Transient Occupancy Tax Review Committee within fifteen days after service of such notice.

(e) No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against the city or an officer thereof, to prevent or enjoin the collection of taxes sought to be collected pursuant to this chapter, and payment of all tax, interest and penalties shall be required as a condition precedent to seeking judicial review, redetermination or appeal of any tax liability.
(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-612; Am. Ord. 6498, 1964; Am. Ord. 2009-40, § 1, eff. 1-23-10).

SEC. 7-612. SECURITY FOR COLLECTION OF TAX.

(a) The Tax Administrator, whenever he deems it necessary to insure compliance with this ordinance, may require any person subject thereto to deposit with him such security in the form of cash, bond, or other security as the Tax Administrator may determine. The amount of the security shall be fixed by the Tax Administrator but shall not be greater than twice the person's estimated average liability for the period for which he files returns, determined in such manner as the Tax Administrator deems proper, or ten thousand dollars ($10,000), whichever amount is the lesser. The amount of the security may be increased or decreased by the Tax Administrator subject to the limitations herein provided.

(b) If any person is delinquent in the payment of the amount required to be paid by him or in the event a determination has been made against him which remains unpaid, the Tax Administrator may, not later than three years after the payment became delinquent, give notice thereof by registered mail to all persons in the county having in their possession or under their control any credits or other personal property belonging to the delinquent, or owing any debts to the delinquent. After receiving the notice the persons so notified shall neither transfer nor make any other disposition of the credits, other personal property, or debts in their possession or under their control at the time they receive the notice until the Tax Administrator consents to a transfer or disposition or until twenty days elapse after the receipt of the notice. All persons so notified shall within five days after the receipt of the notice advise the Tax Administrator of all such credits, other personal property, or debts in their possession, under their control, or owing by them.

(c) At any time within three years after any tax or any amount of tax required to be collected becomes due and payable or at any time within three years after any determination becomes final, the Tax Administrator may bring an action in the courts of this State, or any other state, or of the United States in the name of the city to collect the amount delinquent together with penalties and interest.

(d) If any operator liable for any amount under this ordinance sells out his business or quits the business, his successors or assigns shall withhold sufficient of the purchase price to cover such amount until the former owner produces a receipt from the Tax Administrator showing

that he has been paid or a certificate stating that no amount is due. If the purchaser of a business fails to withhold the tax from the purchase price as required, he becomes personally liable for the payment of the amount required to be withheld by him to the extent of the purchase price, valued in money. Within thirty days after receiving a written request from the purchaser for a certificate, the Tax Administrator shall either issue the certificate or mail notice to the purchaser at his address as it appears on the records of the Tax Administrator of the amount that must be paid as a condition of issuing the certificate. Failure of the Administrator to mail the notice will release the purchaser from any further obligation to withhold the purchase price as above provided. The time within which the obligation of a successor may be enforced shall start to run at the time the operator sells out his business or at the time that the determination against the operator becomes final, whichever event occurs the later.
(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-614).

SEC. 7-613. REFUNDS.

Whenever the amount of any tax, penalty, or interest has been paid more than once or has been erroneously or illegally collected or received by the Tax Administrator under this ordinance, it may be refunded provided a verified claim in writing therefor, stating the specific ground upon which the claim is founded, is filed with the Tax Administrator within three years from the date of payment. The claim shall be made on forms provided by the Tax Administrator. If the claim is approved by the Tax Administrator the excess amount collected or paid may be refunded or may be credited on any amounts then due and payable from the person from whom it was collected or by whom paid and the balance may be refunded to such person, his administrators or executors.
(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-614(f)).

SEC. 7-614. ADMINISTRATION.

(a) The Tax Administrator shall deposit into a special fund, referred to as the "Convention Center Fund," all transient room tax collections pledged pursuant to Section 20 of the Joint Exercise of Powers Agreement, Fresno City-County Community and Convention Center Authority, entered into on February 24, 1964, as amended.

(b) **Records Required from Operators, etc.; Form.** Every operator renting guest rooms in this city shall keep such records, receipts, invoices, and other pertinent papers in such form as the Tax Administrator may require. All records shall be retained by the operator for a period of three years and six months after they come into being.

(c) **Examination of Records; Investigations.** The Tax Administrator or any person authorized in writing by him may examine the books, papers, records and equipment of any person liable for the tax and may investigate the character of the business of the person in order to verify the accuracy of any return made, or if no return is made by the person, to ascertain and determine the amount required to be paid.

(d) **Authority to Require Reports; Contents.** In administration of the tax the Tax Administrator may require the filing of reports by any person or class of persons having in his or their possession or custody information relating to rentals of guest rooms which are subject to the tax. The reports shall be filed when the Tax Administrator requires and shall set forth the rental charged for each occupancy, the date or dates of occupancy, and such other information as the Tax Administrator may require.

(e) **Confidential Character of Information Obtained; Disclosure Unlawful.** It shall be unlawful for the Tax Administrator or any person having an administrative duty under the provisions of this ordinance to make known in any manner whatever the business affairs, operations, or information obtained by an investigation of records and equipment of any person required to obtain a Transient Occupancy Registration Certificate, or pay a transient occupancy tax, or any other person visited or examined in the discharge of official duty, or the amount or source of income profits, losses, expenditures, or any particular thereof, set forth in any statement or application, or to permit any statement or application, or copy of either, or any book containing any abstract or particulars thereof to be seen or examined by any person. Provided that nothing in this subsection shall be construed to prevent:

(1) The disclosure to, or the examination of records and equipment by another city official, employee, TBID administrator or agent for collection of taxes or assessments for the sole purpose of administering or enforcing any provisions of this ordinance; or collecting taxes or assessments imposed hereunder;

(2) The disclosure of information to, or the examination of records by, federal, or state officials, or the tax officials of another city, or county, or city and county, if a reciprocal arrangement exists; or to a grand jury or court of law, upon subpoena;

(3) The disclosure of information and results of examination of records of particular taxpayers, or relating to particular taxpayers, to a court of law in a proceeding brought to determine the existence or amount of any business tax liability of the particular taxpayers to the city;

(4) The disclosure after the filing of a written request to that effect, to the taxpayer himself, or to his successors, receivers, trustees, executors, administrators, assignees, and guarantors, if directly interested, of information as to the items included in the measure of any paid tax, any unpaid tax or amounts of tax required to be collected, interest, and penalties; further provided, however, that the City Attorney approves each such disclosure and that the Tax Administrator may refuse to make any disclosure referred to in this paragraph when in his opinion the public interest would suffer thereby;

(5) The disclosure of the names and addresses of persons to whom Transient Occupancy Registration Certificates have been issued, the names and addresses of officers of corporations and members of partnerships to whom such certificates have been issued, and the general type or nature of their business;

(6) The disclosure to the legislative body by way of public meeting or otherwise of such information as may be necessary in order to permit it to be fully advised as to the facts when a taxpayer files a claim for refund of business taxes, or submits an offer of compromise with regard to a claim asserted against him by the city for business taxes, or when acting upon any other matter;

(7) The disclosure of general statistics regarding taxes collected or business done in the city.

(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-615; Am. Ord. 6529, 1964; Am. Ord. 82-127, § 2, eff. 12-24-82; Am. Ord. 2012-17, § 1, eff. 10-5-12).

SEC. 7-615. APPEAL.

Any person aggrieved by any decision of the Tax Administrator may file an appeal under Chapter 1, Article 4. Whenever an appeal is available under this article and no appeal is filed within the time prescribed, the action of the Tax Administrator shall be final.

(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-615; Am. Ord. 88-8, § 5, eff. 2-12-88; Am. Ord. 98-65, § 1, eff. 10-1-98; Am. Ord. 2005-14, § 22, eff. 4-9-05).

SEC. 7-616. SAVING CLAUSE.

If any section, subsection, paragraph, sentence, clause, or phrase of this ordinance, or any part thereof, is for any reason held to be unconstitutional (or otherwise invalid), such decision shall not affect the validity of the remaining portions of this ordinance or any part thereof. The legislative body hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause, or phrase thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, paragraphs, sentences, clauses, or paragraphs be declared unconstitutional (or otherwise invalid).

(Rep. and Added Ord. 6457, 1964, based on former Sec. 4-616).

SEC. 7-617. VIOLATIONS.

It is unlawful for any operator or other person so required to, to fail or refuse to register as required herein, or to furnish any return required to be made, or fail or refuse to furnish a supplemental return or other data required by the Tax Administrator or to render a false or fraudulent return. No person required to make, render, sign, or verify any report shall make any false or fraudulent report, with intent to defeat or evade the determination of an amount due required by this ordinance to be made.

(Added Ord. 6457, 1964, based on former Sec. 4-617).

SEC. 7-905. REFUNDS.

Whenever any money is received by the city and no provision is made by any resolution, ordinance, or statute for the claiming or allowing of any refund thereof, such money may be refunded in whole or in part as provided in this article and not otherwise.
(Added Ord. 6566, 1965).

SEC. 7-906. TYPES OF REFUNDS, MANNER OF PRESENTATION OF DEMAND FOR REFUND, AND PAYMENT OF REFUNDS.

Refunds may be allowed according to the following conditions:

(a) **Security Deposits.** Deposits and money paid to the city to secure a promise of the payor may be returned directly to the payor, or his agent, upon proof of the fulfillment of the purpose of the deposit or the promise secured. A receipt explaining the transaction, on a form approved by the City Attorney, shall be obtained from and signed by the payor or his agent.

(b) **Mistake of Law.** When the money was either paid by the demandant or received by the city through mistake as to the legal necessity for making the payment, refund thereof may be made upon a demand for refund, on a form prescribed by the Controller, made within one year from the date of receipt by the city of the money to be refunded. The demand shall be promptly transmitted to the head of the department involved for his recommendation and his statement of the facts upon which the recommendation is based. The demand and recommendation shall be presented to the City Attorney for his decision thereon.

(c) **Mistake of Fact.** When the money was either paid by the demandant or received by the city because of a mistake of fact when such payment or receipt would not have been made if such mistake had not been made, then refund thereof may be made upon a demand for refund, on a form prescribed by the Controller, made within one year from the date of receipt by the city of the money to be refunded, provided that if the mistake was wholly or partly the city's and the mistake was induced by an act or statement of the demandant, or if the mistake was wholly the demandant's and the city has made an investigation, inspection or examination, or done any similar work or rendered services, the head of the department, division or bureau may ascertain the value or cost of such and order it deducted from the amount to be refunded. His determination shall be final when approved by the Controller but there shall be added thereto the amount designated for handling charges in the Master Fee Resolution.

(d) **Failure to Exercise Permit, No City Services.** When the applicant for any license, permit or service has not commenced or engaged in the business or occupation, performed any act for which the license or permit was required, or received any of such service, and where, in the case of any such license or permit,

(1) The city has not made any investigation, inspection or examination, or done any similar work, whether or not required or contemplated by law, on account of the filing of the application, and

(2) The license or permit, except a building, electrical or plumbing permit, has not expired prior to the date on which the demand for refund is made, and in the case of a building, electrical or plumbing permit, one year has not passed since the date of issuance, and any issued license or permit is submitted when the demand for refund is made or, in lieu thereof, there is attached to the demand for refund the declaration of the license or permit holder, under penalty of perjury, that the license or permit has been lost or destroyed, then the money, less the amount designated for handling charges in the Master Fee Resolution, may be refunded upon demand therefor on a form prescribed by the Controller and upon which is entered the approval of the head of the department which was to administer the license, permit or service.

(e) **Failure to Exercise Permit, City Services Rendered.** When money has been paid under the circumstances described in subsection (d) above but when the city has made an investigation, inspection or examination, or done any similar work or rendered services, the head of the department, division or bureau must ascertain the value or cost of such, and order it deducted from the amount to be refunded. His determination shall be final when approved by the Controller but there shall be added thereto the amount designated for handling charges in the Master Fee Resolution.

(f) **Approval of Controller; No Application to Taxes.** The calculations of amounts to be refunded or deducted from refunds under this section shall be subject to the approval of the Controller. This section shall not apply to any business tax or other tax imposed by the city.

(Added Ord. 67-32, 1967).

SEC. 7-908. REFUNDS RECEIVED BY CITY.

(Added Ord. 67-32, 1967).

SEC. 7-909. MISTAKES.

(Added Ord. 67-32, 1967).

For purposes of this section, the term "applicant" includes but is not limited to an individual in a sole proprietorship, all general partners in a partnership, any person holding 10% or more of the voting stock in a corporation, and in cases where the partner or stockholder is other than an individual, the individuals who are the beneficial owners of the stock or partnership interest.

(b) In order to further the objectives set forth in subsection (a) and as authorized by California Penal Code Sections 11105(b) and 13300(b)(10), the City Manager or his designee is hereby authorized to have access to and utilize summary criminal history information on file with the State of California Department of Justice and/or local law enforcement agencies when it is necessary for such records to be utilized to fulfill the certification duties required in this section.

(c) Notwithstanding subsection (a) and (b) of this section and in addition thereto, Council may establish by resolution policies and procedures to implement this section and/or to provide for due diligence and oversight regarding private projects which seek public financing or other public assistance.

Provided that nothing in this subsection shall be construed to prevent:

(1) The disclosure to, or the examination of records and equipment by another city official, employee, or agent for collection of taxes for the sole purpose of administering or enforcing any provisions of this article; or collecting taxes imposed hereunder,

(2) The disclosure of information to, or the examination of records by, federal, or state officials, or the tax officials of another city, or county, or city and county, if a reciprocal arrangement exists; or to a grand jury or court of law, upon subpoena;

(6) The disclosure to the Council by way of public meeting or otherwise of such information as may be necessary in order to permit it to be fully advised as to the facts when a taxpayer files a claim for refund of business taxes, or submits an offer of compromise with regard to a claim asserted against him by the city for business taxes, or when acting upon any other matter;

(2) If the full fee has been paid for a quarter in which business operation is terminated, a refund will be made as follows if a written demand from the licensee, stating the date business operation was terminated, is made within three years from the date of receipt by the City of the money to be refunded. One-third (⅓) of the total fee paid for the quarter shall be refunded for each full month of the final quarter that the licensee did not operate the business.

(b) No provision of this section shall affect the application and collection of any penalty or penalties due because of late payment of license fees. (Orig. Ord. 4603; Am. Ord. 80-83, § 1, eff. 6-27-80; Am. Ord. 99-64, § 1, eff. 12-9-99).

(a) **Penalties on Deficiency Determinations Made Because of Underpayment.**

(1) The Controller shall add the penalty designated in the Master Fee Resolution, computed as a percentage of the amount of the additional assessment, to any additional

assessment imposed as a result of a deficiency determination made because of underpayment if any part of the deficiency is due to negligent or intentional disregard of any provision of this chapter.

(2) The Controller shall add the penalty designated in the Master Fee Resolution, computed as a percentage of the amount of the additional assessment, to any additional assessment imposed as a result of a deficiency determination made because of underpayment if any part of the deficiency is due to fraud.

(b) **Penalties on Deficiency Determinations Made Because of Failure to File.**

(1) The Controller shall add the penalty designated in the Master Fee Resolution, computed as a percentage of the amount of the unpaid license fees, to a deficiency determination made because of failure to file a return if such failure to file is due to negligent disregard of any provision of this chapter.

(2) The Controller shall add the penalty designated in the Master Fee Resolution, computed as a percentage of the amount of the unpaid license fees, to a deficiency determination made because of failure to file a return if the person against whom the deficiency determination is made has previously held a business license in the City of Fresno, or if such failure is due to intentional disregard of any provision of this chapter.

(3) The Controller shall add the penalty designated in the Master Fee Resolution, computed as a percentage of the amount of the unpaid license fees, to a deficiency determination made because of failure to file a return if such failure is due to fraud.

(c) **Penalties for Delinquent Payment of Business License Fees and Deficiency Determinations.**

(1) The Controller shall, immediately after one calendar month from the date that license fees, including deficiency determinations, are payable, add to all license fees remaining unpaid the delinquency penalty designated in the Master Fee Resolution, computed as a percentage of the amount of such delinquent license fees, excluding penalties and interest.

(2) The Controller shall, immediately after two calendar months from the date that license fees, including deficiency determinations, are payable, add to all license fees still remaining unpaid the additional delinquency penalty designated in the Master Fee Resolution, computed as a percentage of the amount of such delinquent license fees, excluding penalties and interest.

(d) **Interest on Deficiency Determinations.** In addition to the penalty or penalties imposed, interest at the rate of three-quarters of one per cent per month, or fraction thereof, shall be paid on the amount of the license fees, exclusive of penalties, from the last day of the first month of the license period or periods for which a deficiency determination is imposed until the date of payment.

(e) **Extensions of Time to Make Payment.** Prior to the due date, the Controller may extend, for good cause, for a period not to exceed one calendar month, the time to make any

return or payment of fees. No further extension shall be granted. Any person to whom an extension is granted who makes a return and pays the fees within the period of extension shall not pay any penalty on the amount of the fees, but shall pay, in addition to the fees, interest at the rate of three-quarters of one per cent per month, or fraction thereof, on the unpaid balance for the period of such extension to the time of return and payment.

(f) **Holidays.** In the event the last day of the calendar month falls on a Saturday, Sunday or legal holiday, license fees may be paid without penalty on the first succeeding business day. Thereafter, the penalty, penalties or interest provided in this section shall be added. (Orig. Ord. 4603; Am. Ord. 5308, 1958; Am. Ord. 80-72, § 3, eff. 6-6-80).

SEC. 7-1012. DEPOSIT OF LICENSE MONEYS COLLECTED.

The Controller shall deposit daily with the City Treasurer all moneys collected by him for license fees paid, and shall, on or before the fifteenth day of each month, report the amount thereof to the Council. (Orig. Ord. 4603; Am. Ord. 5308, 1958; Am. Ord. 5311, 1958; Am. Ord. 80-115, §§ 20—22, eff. 8-8-80).

SEC. 7-1013. DEFICIENCY DETERMINATIONS.

(a) If the Controller is not satisfied with the return or returns of business license fees, or the amount of the fees paid to the city by any person, he may compute and determine the amount required to be paid upon the basis of the facts contained in the return or returns or upon the basis of any information within his possession or that may come into his possession. One or more deficiency determinations may be made of the amount due for one or more than one period. The amount of each deficiency determination is immediately due and payable. Each determination shall become final and delinquent one calendar month after notice thereof as herein provided.

(b) In making a determination, the Controller shall offset overpayments previously made, if any, together with interest on the overpayments, against any underpayment for a subsequent period or periods, or against penalties and interest on the underpayments. The interest on underpayments and overpayments shall be computed in the manner set forth in Section 7-1011 and Section 7-1017.

(c) The Controller shall give written notice of a deficiency determination to each person against whom a determination is made. The notice may be served personally or by mail. In case of service by mail of any notice required by this chapter, the service is complete at the time of deposit in the United States Post Office.

(d) Except in the case of fraud, intent to evade this chapter or authorized rules and regulations, or failure to make a return, every deficiency determination shall be made and notice thereof mailed within three years after the last day of the month following the close of the license period for which the amount is determined or within three years after the return is filed, whichever period expires the later.

(e) If any person fails or refuses to make, within the time provided in this chapter, any return and payment of said fees or any portion thereof required by this chapter or makes a fraudulent return or otherwise wilfully attempts to evade this chapter, the Controller shall proceed in such manner as he may deem best to obtain facts and information on which to base his estimate of the fees due. As soon as the Controller procures facts and information upon which to base the assessment of any fee imposed by this chapter, he shall determine and assess against such person the fees, interest and penalties provided for by this chapter. When such a determination is made, the Controller shall give written notice of the amount so assessed. Such determination and notice shall be made and mailed within three years after discovery by the Controller of any fraud, intent to evade or failure to file return. The amount of each deficiency determination is immediately due and payable. Any determination shall become final and delinquent one calendar month after notice thereof as herein provided.

(f) If the Controller believes that the collection of any license fees will be jeopardized by delay, or if any determination will be jeopardized by delay, he shall thereupon make a determination of the fees due. The amount determined is immediately due and payable. If the amount specified in the determination is not paid within ten days after service of notice thereof upon the person against whom the determination is made, the amount becomes final and delinquent, and the delinquency penalty or penalties and the interest provided in Section 7-1011 shall attach to the amount of the fees, unless a petition for redetermination is filed within the ten days. (Orig. Ord. 4603; Am. Ord. 5247, 1958; Am. Ord. 80-72, § 4, eff. 6-6-80).

If a petition for redetermination is not filed within the applicable period, the determination becomes final and delinquent at the expiration of the period.

(b) If a petition for redetermination is filed within the applicable period, the Controller shall reconsider the determination, and, if the person has so requested in his petition, shall grant the person an oral hearing and shall give him ten days' notice of the time and place of the hearing. The Controller may continue the hearing from time to time as may be necessary.

(c) The Controller may decrease or increase the amount of the determination before it becomes final but the amount may be increased only if a claim for the increase is asserted by the Controller at or before the hearing.

(d) The decision of the Controller upon a petition for redetermination becomes final and delinquent fifteen days after service upon the petitioner of notice thereof.

(e) No petition for redetermination shall be effective for any purpose unless at or before the filing thereof the amount found due in the original determination is paid, or a bond or other security satisfactory to the Controller is filed with him guaranteeing payment of any amount finally determined to be due. (Orig. Ord. 4603; Am. Ord. 80-72, § 5, eff. 6-6-80).

No refund shall be approved after three years from the date of receipt by the city of the money to be refunded.

(b) Interest shall be paid on the amount of any overpayment of license fees at the rate of three-quarters of one per cent per month, or fraction thereof, from the date of receipt by the city of the money to be refunded, but no refund or credit shall be made of any interest imposed upon the person making the overpayment with respect to the amount being refunded or credited. The interest shall be paid:

(1) In the case of a refund, to the last day of the calendar month following the date upon which the person making the overpayment, if he has not already filed a claim, is notified by the Controller that a claim may be filed or the date upon which the claim is approved by the Controller, whichever date is the earlier.

(2) In the case of a credit, to the same date as that to which interest is computed on the license fee or amount against which the credit is applied.

(c) If the Controller determines that any overpayment has been made intentionally or by reason of carelessness, he shall not allow any interest thereon. (Added Ord. 69-117, 1969; Am. Ord. 80-72, § 6, eff. 6-6-80).

SEC. 7-1407. TAX IMPOSED.

(a) Beginning January 1, 2019, there is imposed upon each person who is engaged in business as a Cannabis Business a Cannabis Business License Tax regardless of if the business has been issued a permit to operate lawfully in the City or is operating unlawfully.

(b) The maximum rate shall be as follows:

(1) **Cultivation.** For every person who is engaged in commercial cannabis cultivation in the City, twelve dollars ($12.00) annually per square foot of canopy space.

For purposes of this Article, the square feet of canopy space for a business is presumed to be the maximum square footage of canopy allowed by the business's City permit for commercial cannabis cultivation, or, in the absence of a City permit, the square footage shall be the maximum square footage of canopy for commercial cannabis cultivation allowed by the State license type. Should a City permit be issued to a business which cultivates only for certain months of the year, the City shall prorate the tax as to sufficiently reflect the period in which cultivation is occurring at the business. In no case shall canopy square footage which is authorized by the City commercial cannabis permit but not utilized for cultivation be deducted

for the purpose of determining the tax for cultivation, unless the Controller is informed in writing and authorizes such reduction for the purpose of relief from the tax prior to the period for which the space will not be used, that such space will not be used.

All cultivation rates shall be subject to an escalator at follows: On July 1, 2021 and on each July 1 thereafter, the maximum annual tax rate per square foot of each type of canopy space shall increase by the percentage change between July of the calendar year prior to such increase and July of the calendar year of the increase in the Consumer Price Index ("CPI") for all urban consumers in the Fresno County area as published by the United States Government Bureau of Labor Statistics. However, no CPI adjustment resulting in a decrease of any tax imposed by this subsection shall be made.

(2) **Retailer, Testing Laboratory, Distribution, and Manufacturing.** For every person who engages in the operation of the retail sales of cannabis as a retailer, the operation of a cannabis testing laboratory, a cannabis distribution business, or cannabis manufacturing, the maximum tax rate shall not exceed ten percent (10%) of gross receipts.

(c) The City Council may, by resolution or ordinance, set and adjust the rate of the Cannabis Business License Tax. However, in no event may the City Council set any rate that exceeds the maximum rate calculated pursuant to subsection (b) of this Section for the date on which the adjusted rate will commence.

Each determination shall become final and delinquent one calendar month after notice thereof as herein provided.

(c) The Controller shall give written notice of a deficiency determination to each person against whom a determination is made. The notice may be served personally, electronically, or by mail. In case of service by mail of any notice required by this chapter, the service is complete at the time of deposit in the United States Post Office.

(d) Except in the case of fraud, intent to evade this chapter or authorized rules and regulations, or failure to make a return, every deficiency determination shall be made and notice thereof served within three years after the last day of the month following the close of the cannabis business license tax period for which the amount is determined or within three (3) years after the return is filed, whichever period expires the later.

(e) If any person fails or refuses to make, within the time provided in this Article, any return and payment of said tax or any portion thereof required by this Article or makes a fraudulent return or otherwise willfully attempts to evade this Article, the Controller shall proceed in such manner as he may deem best to obtain facts and information on which to base his estimate of the taxes due. As soon as the Controller procures facts and information upon which to base the assessment of any tax imposed by this chapter, he shall determine and assess against such person the taxes, interest and penalties provided for by this chapter.

When such a determination is made, the Controller shall give written notice of the amount so assessed. Such determination and notice shall be made and mailed within three years after discovery by the Controller of any fraud, intent to evade or failure to file return. The amount of each deficiency determination is immediately due and payable. Any determination shall become final and delinquent one calendar month after notice thereof as herein provided.

(f) If the Controller believes that the collection of any cannabis business license taxes will be jeopardized by delay, or if any determination will be jeopardized by delay, he shall thereupon make a determination of the taxes due. The amount determined is immediately due and payable. If the amount specified in the determination is not paid within ten days after service of notice thereof upon the person against whom the determination is made, the amount becomes final and delinquent, and the delinquency penalty or penalties and the interest provided in Section 7-1011 shall attach to the amount of the taxes, unless a petition for redetermination is filed within the ten days.

(b) If a request for redetermination is made within the applicable period, the Controller shall reconsider the determination, and, if the person has so requested in his petition, shall grant the person an oral hearing and shall give him ten days' notice of the time and place of the hearing. The Controller may continue the hearing from time to time as may be necessary.

(c) The Controller may decrease or increase the amount of the determination before it becomes final but the amount may be increased only if a claim for the increase is asserted by the Controller at or before the hearing.

(d) The decision of the Controller upon a petition for redetermination becomes final and delinquent fifteen days after service upon the petitioner of notice thereof.

(e) No request for redetermination shall be effective for any purpose unless at or before the time of request thereof the amount found due in the original determination is paid, or a bond or other security satisfactory to the Controller is filed with him guaranteeing payment of any amount finally determined to be due.

(c) At the time Ordinance No. 2007-54 was adopted, it was understood that further streamlining and updating of specific Chapters of the Fresno Municipal Code would be undertaken.

As part of the updating and streamlining process, the Council finds that Reorganized Chapter 8, Articles 1 to 20 and 23 to 30 relating to various local improvement procedures and articles 31 to 39 relating to Parking Maintenance Districts should be repealed based on their antiquated provisions, many of them legally unsound.

SEC. 8-1-102. UNCODIFIED ORDINANCES.

In the event assessment proceedings similar to those referenced in Section 8-1-101 become necessary, new ordinances will be considered for enactment. For purposes of historical reference, because bonds relating to the 1913 and 1915 Improvement Acts identified in said articles are outstanding, the Council adopted an uncodified ordinance numbered 2007-98 regarding the aforesaid repealed articles which will be maintained in the City Clerk's office.

SEC. 8-2-206. CRITERIA FOR DETERMINING PUBLIC BENEFIT.

(a) If the Council determines that the public benefit of the project outweighs the public detriment of the project, it may make an affirmative determination that the project will accrue a public benefit.

(b) In determining public benefit of the project, the Council shall consider whether it is likely that the undertaking of the project by the city will be a substantial factor in the accrual of broadened employment opportunities for residents of the city. The Council may also consider whether it is likely that the undertaking of the project by the city will accrue any of the following public purposes:

(1) Broadening the tax and revenue base of the city;

(2) Reducing the number of people receiving public assistance in its various forms;

(3) Reducing crime and juvenile delinquency;

(4) Promoting urban renewal;

(5) Promoting greater balance in the economy by increasing the manufacturing and industrial base of the city;

(6) Training unemployable persons for employment and upgrading the skills of the unemployed; and

(7) Such other factors as the Council deems appropriate.

(c) In determining the public detriment of the project, the Council shall consider whether it is likely that the undertaking of the project by the city will accrue any of the following public detriment:

(1) Increasing the cost of furnishing municipal services, including without limitation, transportation, police and fire services;

(2) Increasing the demands upon the city's sewer and water facilities beyond the design capacity sufficient to accommodate the project; and

(3) Such other factors that the Council deems appropriate.

(Added Ord. 81-61, § 1, eff. 6-26-81; Am. Ord. 2007-97, § 2, eff. 1-19-08).

While bonds issued to provide facilities described in this subsection (d) do not fall within the definition of "industrial development bonds" as set forth in the Internal Revenue Code of 1954, as amended, and the regulations promulgated thereunder, such

bonds shall be treated as industrial development bonds for purposes of this article and may be issued substantially in the manner set forth herein pursuant to appropriate proceedings being taken therefor.

SEC. 9-105. HOTEL REGISTRATION.

(a) **Definition.** For purposes of this article, hotel means any public or private space or structure, including but not limited to, any inn, hostelry, tourist home, motel, lodging house, or motel rooming house offering space for sleeping or overnight accommodations in exchange for rent and for a period of less than thirty days. Hotel includes the parking lot and other common areas of the hotel. Hotel does not include living accommodations provided at any governmental or nonprofit institution in connection with the functions of that institution, or short-term rentals regulated by Section 7-1249 of this Code.

(b) The operator of any hotel, where such establishment is located within the city, shall at all times keep and maintain therein a book or register in which shall be inscribed, either electronically or in ink, in legible English language, written documentation of information about a guest, which includes at a minimum the following information:

(1) As provided by the guest in response to an inquiry or by other means:

(i) The name, date of birth, and address of each guest, or person who exercises occupancy or is entitled to occupancy in a hotel by reason of concession, permit, right of access, license, or other agreement;

(ii) The total number of guests;

(iii) The make, type, and license number of the guest's vehicle if the vehicle will be parked on hotel premises that are under the control of the operator or hotel management;

(iv) Identification information as required by subsection (d)(1) of this section, as provided on a document containing the name, date of birth, description and picture of a person, issued by the federal government, the State of California, another state, a county or municipal government, including but not limited to: a motor vehicle's operator's license, an identification card, an identification card issued to a member of the Armed Forces, or a passport issued by a foreign government to any of its citizens and nationals which has been approved by the city as valid identification.

(2) The day, month, year, and time of arrival of each guest;

(7) The full name of the person (hotel employee) checking in the guest.

(i) For a guest checking in via electronic registration kiosk at the hotel, instead of the information as provided in subsection (b)(1)-(6), the hotel shall record the name, reservation information, and credit card information provided by the guest, as well as the identifying symbol of the kiosk where the guest checked in and the room number assigned to the guest.

(c) **Maintenance of Hotel Record.** Every person who owns or operates any hotel as defined in this section is subject to this section and shall keep a register of persons who board or lodge in such establishment. Such register shall be kept for a minimum of one year after the date of its most recent entry. Every operator of a hotel as defined in this section shall comply with the following requirements for maintaining the hotel record. The record is a written documentation of information about a guest that may be maintained electronically, in a book, or on cards.

(1) The records shall be kept on the premises in the guest reception or guest check-in area or in an office adjacent to that area.

(2) No person shall alter, deface, or erase a record so as to make the information recorded in it illegible or unintelligible, or hinder, obstruct or interfere with any inspection of the record under this section.

(3) Any record maintained in the form of a book shall be permanently bound, each page shall be sequentially numbered and the book shall be the minimum size of eight inches by ten inches. No page shall be removed from the book. Any record maintained in the form of cards shall be on cards that are a minimum size of two and one-half inches by four inches and numbered consecutively and used in sequence.

Any card numbered within the sequence of utilized cards shall be preserved as part of the record even if it not used for a room rental. The numbers shall be printed or otherwise indelibly affixed to the cards. If maintained electronically, the record shall be printable.

(4) Nothing in this section prevents the operator from maintaining the record for longer than one year in order to comply with any other provision of law, including the obligation to maintain and produce records for the purpose of paying a transient occupancy tax.

(5) Information obtained from a guest pursuant to this section shall be used only for the purposes mentioned in this section. Reasonable technical and organizational confidential and security measures shall be implemented to protect against accidental or unlawful alteration or loss, or from unauthorized use, disclosure or access of information provided by a guest and maintained as a hotel record pursuant to this section. At the end of the retention period required by this section, records required by this section and containing personal information shall be subject to disposal in such a manner that the record cannot be used or accessed and cannot be read or deciphered by any means.

(d) **Renting of Hotel Rooms.** The operator of a hotel shall not rent a room except in compliance with the following conditions:

(1) The operator shall require the guest who is registering to verify his or her identification through production of a driver's license, passport, government issued identification card or other acceptable proof of identification as described in subsection (b)(1)(iv). The hotel registrar shall record that identification was verified in accordance with this requirement and note the type of documentation which was provided by the guest to verify the guest's identification. Allowing a guest to register without verifying the guest's identification as required by this subsection is unlawful and a violation of this section.

(2) The number and expiration date of the identification document obtained under subsection (d)(1) shall be recorded and maintained by the operator in the record for at least one year. Nothing in this section prevents the operator from maintaining the record for longer than one year in order to comply with any other provision of law, including the obligation to maintain and produce records for the purpose of paying a transient occupancy tax.

(e) **Training of employees.** The owner or proprietor of a hotel business shall take all reasonable steps, including but not limited to, providing training regarding this section to ensure the person who checks a person into the hotel complies with the provisions of this section. A person who has not been trained shall not be assigned to check persons into the hotel.

(f) **Register Subject to Inspection.** Such hotel register shall, upon demand, be open for inspection or investigation by any member of the Police Department or other peace officer of the city, immediately upon demand having been made by such peace officer. Should the owner, manager, or other person having management or control not agree to voluntarily produce the hotel registry upon receipt of such request, he or she shall do so upon presentation of a duly executed search warrant authorizing the Police Department's review, inspection, reproduction, and/or impoundment of the hotel registry. An owner, manager or other person in management or control shall not be in violation of this chapter for failure to voluntarily produce the guest registry but shall be in violation for failure to do so immediately upon presentation of a duly executed search warrant requiring the production. An owner, manager, or other person in management or control may be required to secure the register in the presence of the Police Department and in a manner specified by the Police Department to ensure the register is not tampered with until such time a warrant has been issued or denied.

(g) **Fictitious Names.** It shall be unlawful for any person to register at any hotel in the city under the name of any other person or a fictitious person, or to give or sign or cause to be signed, upon the register of any hotel any assumed, false, or fictitious name, or any name other than the true and correct name of the person so registering or so giving or signing or causing his name to be signed.

(h) **Hourly Room Rentals Prohibited.** No person conducting or owning any hotel and no person in charge, management, or control of such an establishment shall let or cause to be let any room or area of the establishment for a period of fewer than twelve hours, nor shall any such person let or cause to be rented any room or area of the establishment more than twice in any 24-hour period commencing at 12:01 a.m.

(i) **Use for Immoral or Unlawful Purposes Prohibited.** It shall be unlawful for any person, whether owner, manager, agent, or resident, to knowingly rent, lease, sublet, hire, or agree to rent, lease, sublet, or hire, any room in a hotel to any person who offers to engage in immoral or unlawful activity, including but not limited to human trafficking; offering, engaging, or agreeing to engage in sexual conduct for a fee; soliciting another in a public place to engage with any person in sexual conduct for hire; receiving money pursuant to an agreement to participate in the proceeds of prostitution; solicitation of another to engage in sexual conduct with another person for compensation; or any person who owns, invests in, finances, controls, supervises, or manages a prostitution enterprise that uses two or more prostitutes.

(j) **Penalty for Violation.** Any person violating or failing to comply with any of the provisions of this article shall be guilty of a misdemeanor. Every person who violates any provision of this article may also be subject to administrative citations as provided in this code.

(Orig. Ord. 1076; Am. Ord. 2019-039, § 1, eff. 12-13-19).

SEC. 9-106. PERMIT SUSPENSION OR REVOCATION.

The following procedures shall be used for the suspension or revocation of any permit issued under this chapter except to the extent that if any of the provisions in this section conflict with any provisions found in any other section or article in this chapter, the provisions found in the other section or article shall control:

(a) **Findings.** Any permit issued under this chapter may be suspended or revoked for good cause, including, but not limited to the following:

(1) **False Statement in Application.** If it is determined that the permit holder made any false statement of material fact in the application for the permit, or other document for which the permit approval was based.

(2) **Grounds for Denial of Permit.** If it is determined that any facts exist that would have been grounds for denial of the permit.

(3) **Violation of Condition of Permit.** If it is determined that the permit holder violated a condition placed on his or her permit.

(4) **Violation of the Code.** If it is determined that the permit holder violated any requirement of this Code in connection with the exercise of their permit, including, but not limited to, violating the regulations of this chapter or the business tax requirements under Chapter 5.

(5) **Conducting Business in an Illegal or Disorderly Manner; Endangering Public.** If it is determined that the permit holder conducts his or her business in an illegal or disorderly manner or in any manner which endangers the public's health, safety or welfare.

(6) **Conviction or Determination Involving Fraud or Deceit or Drug Offense.** If it is found that the permit holder within the last five years has been found guilty of a crime involving fraud, deceit or dishonesty or has been determined in a final decision in any civil matter or administrative proceeding to have practiced or committed fraud, deceit or dishonesty. If it is found that the permit holder has within the last five years been convicted of a crime or other offense involving moral turpitude, or a conviction of use, possession or sale of a controlled substance.

(7) **Insolvency.** If it is determined that the permit holder is bankrupt, financially insolvent or unstable and that, in the exercise of reasonable judgment, it appears likely that because of their financial condition, the permit holder will provide inadequate service under his permit.

(8) **Disservice to the Public.** If it is determined that the permit holder's service to the public is so inadequate or inefficient that, in the exercise of reasonable judgment, it appears that it amounts to a disservice to the public.

(b) **Notification of Suspension or Revocation.** Notice of suspension or revocation of any permit shall be in writing from the City Manager, or his or her designee, and

shall state the reasons for the suspension or revocation, shall state the effective date of revocation or suspension, and shall provide notice of the right to appeal. The City Manager, or his or her designee, may make the effective date immediate upon notification, if the City Manager, or his or her designee, determines that immediate cessation of activities under the permit is necessary to protect the public's health, safety or welfare. Notification of suspension or revocation shall either be served upon the permittee personally, or mailed by certified mail, return receipt requested, addressed to the permittee at the address appearing on the permit. Notice shall be deemed to be received immediately upon personal service or within three days of service by mail. If required upon revocation, the permit holder shall turn over his or her permit to the City Manager, or his or her designee.

(c) **Notice to Correct.** Where the cause for revocation or suspension is found to be a correctable violation of the Code or where the Code does not otherwise mandate revocation or suspension, the City Manager, or his or her designee, may as an alternative to subsection (b), issue a Notice to Correct allowing the permit holder an opportunity to come into compliance within a reasonable period of time subject to threat of suspension or revocation. A Notice to Correct shall set forth a description of the violation and shall specify what the permit holder must do to correct the matter within the period provided. A Notice to Correct shall not be appealable and shall be served under the procedures in subsection (b).

(d) **Appeal to the City Manager.** Any decision to suspend or revoke a permit may be appealed in writing by the permit holder to the City Manager, or his or her designee, within fifteen days from service by mail of the notice of revocation or suspension. If no appeal is filed within the fifteen day period, the decision to suspend or revoke shall be final and conclusive. The City Manager, or his or her designee, shall reject or uphold the appeal and provide written notice of his or her decision within thirty days of service of the written appeal. The City Manager, or his or her designee, in his or her discretion, or if required by the Code, may make the decision to revoke or suspend a permit directly appealable to the City Hearing Officer and not offer the appeal provided in this subsection.

(e) **Appeal to the City Hearing Officer.** Any decision by the City Manager, or his or her designee, to deny an appeal of a suspension or revocation may be appealed to the City Hearing Officer under the procedures in Chapter 1, Article 5. If no appeal is filed in the time prescribed, the decision of the City Manager, or his or her designee, shall be final.

(f) **Appeal on Automatic or Summary Suspension.** If a permit is automatically suspended under procedures in this chapter, or suspended or revoked with an immediate effective date from notification, the permit holder shall have the right to an appeal within four business days and shall be given, unless waived by the permit holder, at least twenty-four hours written notice of the date, time and place of the hearing.

(g) **Stay Pending Appeal.** The filing of an appeal to the City Manager or to the City Hearing Officer shall stay the effective date of the suspension or revocation until such time as the appeal is finally decided. Notwithstanding the above and Section 1-406, a suspension or revocation shall not be stayed during the appeal process if it is determined by the City Manager, or his or her designee, that immediate cessation of the permit holder's business activities under his or her permit is necessary to protect the public's health, safety or welfare. If the effective date is not or will not be stayed, the permit holder shall be notified of the notice of revocation or suspension.

(h) **New Application After Revocation.** If the permit of any person is revoked, no permit shall be granted to such person to conduct or carry on any such business within twelve months after such revocation.

(i) **Cumulative Remedy.** Any decision to revoke or suspend a permit based upon a Code violation shall be a cumulative remedy to any other remedy provided by this Code, policies adopted under this Code, or by law.

(j) **Monies Owed Payable Upon Revocation.** In the event a permit is revoked, all sums owed the city shall immediately become due and payable, and no fees and charges shall be refundable or apportioned by the city.

(Added Ord. 2003-67, § 25, eff. 8-31-03).

SEC. 9-107. APPEAL OF DENIAL OF PERMIT; TEMPORARY PERMIT.

Notwithstanding any provision of this Code, including Section 1-406, the filing of an appeal under this chapter on a denial of an application or denial of a renewal for a permit does not provide the applicant any authority to exercise the rights that would be provided under the permit, unless the City Manager, or his or her designee, has issued the applicant a temporary permit. Notwithstanding any provision of this Code, temporary permits are revocable at the discretion of the City Manager, or his or her designee. There is no right to appeal from the decision to revoke a temporary permit. Holders of temporary permits must comply with all regulations that would apply to the permit, subject to the penalties for violation of the Code and/or the permit. (Added Ord. 2003-67, § 26, eff. 8-31-03).

A permit subject to denial, suspension or revocation by the Controller or the Police Chief on the ground that the applicant or permittee has been convicted of a crime involving moral turpitude may only be denied, suspended or revoked on that ground if moral turpitude is inherent in the crime itself, or if the circumstances of the conviction demonstrate unfitness

to conduct the business regulated by the permit in question because the crime is substantially related to the qualifications, functions, and duties of such business. (Added Ord. 81-114, § 1, eff. 10-9-81; Am. Ord. 82-35, § 1, eff. 4-16-82).

(d) For the purpose of this ordinance, "Infectious Diseases" are defined as those diseases identified in Title 17, California Code of Regulations (CCR) Section 2505 and include other experimental diseases not listed or identified by the United States Centers for Disease Control.

(h) No later than 15 days prior to the Planning Director approving any conditional use permit or zone clearance for an infectious disease laboratory, residents and businesses within 1,000 feet shall be notified by the City.

(i) Any person or entity willfully and intentionally violating the provisions of this section or willfully and intentionally making misrepresentations under the CLIA certification requirements shall be guilty of a misdemeanor punishable up to one year in a county jail and

a $1,000 fine. The City Attorney is also authorized to refer felony violations of the law to either the Fresno County District Attorney's Office or The California Department of Justice. (Added Ord. 2023-032, § 1, eff. 11-11-23).

(g) The city finds that it is in the interest of the public to franchise and to establish standards for franchising such operators in a manner that promotes these objectives and otherwise protects the public interest.

(h) In pursuit of the foregoing the city finds that it is necessary to enact the following requirements and further finds it appropriate to apply the provisions hereof to existing cable and open video franchisees, permittees, and licensees as far as is possible and to apply it to those with pending or new applications to place facilities in public rights-of-way for cable, open video and other related services. SEC. 9-205. FRANCHISE REQUIRED.

No person may construct or operate a cable communications system in the city including any portion thereof without first obtaining a city franchise. No provision of this article may be deemed or construed to require the granting of a franchise when in the opinion of the Council it is in the public interest to restrict the number of grantees to one or more. When and in the event that the grantee of any franchise granted hereunder uses in its cable communication system distribution channels furnished to the grantee by a telephone company pursuant to tariff or contract on file with a regulatory body having jurisdiction and said grantee makes no use of the streets independent of such telephone company-furnished facilities, said grantee shall be required to comply with all of the provisions hereof as a "licensee" in addition to its obligations under this article and in such event whenever the term "grantee" is used herein it shall be deemed to mean and include "licensee." (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-206. EXCEPTIONS TO FRANCHISE REQUIREMENTS.

The following shall not be required to obtain a franchise under this article:

(a) The City of Fresno;

(b) An UVPP that is only delivering cable service or other communications service (as that term is used in 47 U.S.C. Section 542(h)) to subscribers. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-207. FRANCHISE AS CONTRACT.

All terms, conditions and provisions of the contract shall be deemed to be embodied in the franchise documents, and conflicts in terms, conditions or provisions of the documents shall be resolved as follows:

(a) The express terms of this article shall prevail over conflicting or inconsistent provisions in any other franchise document;

(b) The express terms of any amended and restated resolution regarding a franchise issued to any franchisee shall prevail over conflicting or inconsistent provisions in any other franchise document, (including any prior amended and restated resolution), except the express terms of this article;

(c) The express terms of the resolution offering the franchise shall prevail over conflicting or inconsistent provisions in any other franchise document, except the express terms of this article and any subsequently adopted, amended and restated resolution regarding the franchise;

(d) The express terms of the request for proposals shall prevail over conflicting or inconsistent provisions in either the application for the franchise or the certificate of acceptance of the franchise; and

(e) The express terms of the application for the franchise shall prevail over inconsistent or conflicting provisions in the certificate of acceptance of the franchise.

(f) Nothing in this section is intended to unlawfully impair vested rights of franchisee with respect to enforcement of the terms and conditions of the franchise. There shall be preserved to franchisee all legal right to challenge any provision of a subsequent ordinance or resolution as an unlawful impairment of franchisee's vested rights. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-208. FAILURE TO OBTAIN A FRANCHISE.

Consistent with law including the Cable Act, the franchise documents and the requirements of due process, a person's failure to obtain and maintain a franchise as required by this article may, in the city's discretion, result in:

(a) Forfeiture, by operation of law, of the person's facilities located in the public rights-of-way that are not authorized by an existing franchise; and/or

(b) A requirement that the facilities be removed and sites restored, and that costs, penalties and damages be paid. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-209. EXISTING FRANCHISE.

Grantees of franchises existing as of the effective date of this article shall, in addition to all the obligations and duties prescribed by the terms of their existing franchises, be subject to the requirements of this article, except as prohibited by applicable law and/or this article, in which event such requirements shall be regarded as statements of city policy. Nothing herein is intended to invalidate a lawful, existing franchise or to waive any obligations imposed by such a franchise. Notwithstanding the foregoing, provisions of this article that expressly refer to a "franchise granted pursuant to this article" shall not apply to franchises initially granted prior to the effective date of this article. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-210. FORM OF FRANCHISE.

Any franchise shall be issued in the form of an ordinance, and must be accepted by the franchisee to become effective. Such acceptance shall be and operate as an acceptance of each and every term and condition and limitation contained in this article, in such franchise, or otherwise specified as herein provided. Such written acceptance certificate shall be so filed by grantee not later than 12:01 p.m. of the thirtieth calendar day next following the effective date of the ordinance granting such franchise; and in default of the filing of such written acceptance as herein required, grantee shall be deemed to have rejected and repudiated the same; and thereafter, the acceptance of any such grantee shall not be received nor filed by the City Clerk, and such grantee shall have no rights, remedies, or redress in the premises, unless and until the Council shall, by resolution, determine that such acceptance be received or filed, and then

upon such terms and conditions as the Council may impose; provided, that in any case and in any instance, all rights, remedies, and redress in these premises which may or shall be available to the city, shall at all times be so available to the city, and shall be preserved and maintained and shall continuously exist in and to the city, and shall not be in any manner or means modified, abridged, altered, restricted, or impaired by reason of any of these premises, or otherwise. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-211. NATURE OF FRANCHISE.

(a) A franchise granted pursuant to this article shall authorize and permit a franchisee to construct, operate, maintain and repair a cable system, or an OVS (as applicable) to provide cable service in the city, and for that purpose to erect, install, construct, repair, replace, reconstruct, maintain facilities appurtenant to such system in, on, over, under, upon, across, and along those public rights-of-way that the city may authorize a franchisee to use.

(b) A franchise shall not convey rights other than as specified in this ordinance, or in a franchise agreement; no rights shall pass by implication.

(c) A franchise shall not include, or be a substitute for:

(1) Complying with requirements for the privilege of transacting and carrying on a business within the city, including but not limited to complying with the conditions the city may establish before constructing facilities for, or providing, non-cable services;

(2) Any permit, license, agreement or authorization required in connection with operations on or in public rights-of-way or public property; including by way of example and not limitation, encroachment and/or street works permits;

(3) Any permits or agreements for occupying any other property of the city or private entities to which access is not specifically granted by the franchise.

(d) A franchise does not relieve a franchisee of its duty to comply with all governmental and regulatory requirements including the Charter and all city ordinances and regulations, and every franchisee must comply with the same. Likewise, the rights granted under a franchise are subject to the exercise of legislative, police and other powers city now has or may later obtain, including but not limited to the power of eminent domain. Any conflict between the provisions of this article and any other present or future lawful exercise of the city's police powers shall be resolved in favor of the latter, except that any such exercise that is not of general application in the jurisdiction or applies exclusively to any cable communication system franchise which contains provisions inconsistent with this chapter shall prevail only if upon such exercise the city finds an emergency exists constituting a danger to health, safety, property or general welfare or such exercise is mandated by law.

(e) A franchise does not convey title, equitable or legal, in the public rights-of-way. Rights granted may not be subdivided or subleased.

(f) No franchise shall be exclusive, or prevent the city from issuing other franchises or authorizations, or prevent the city from itself constructing, operating, or repairing its own cable communications system, with or without a franchise.

(g) Every franchise shall be for a term of years, which term shall be eight (8) years, unless a franchise specifies otherwise.

(h) Unless otherwise specifically stated in a franchise or required by law, all acts which a franchisee is required to perform under the franchise or applicable law must be performed at the franchisee's expense.

(i) If a cable communications system operator fails to perform or cause to be performed work required to be performed within the time provided for performance including any required notice and cure period, the city may perform the work and bill the operator therefor. The operator shall pay the amounts billed within 30 days.

(j) The grant of any privilege by any franchise hereunder shall be subordinate to any prior lawful occupancy of any street or public property or to the grant of any privilege under any other franchise of prior date, whether hereunder or otherwise, insofar as there shall be any conflict respecting such privilege rendering the same unable to be exercised by all of any number of grantees.

(k) In the event any new territory shall become annexed to the city which shall be contiguous to any franchise area in the city, or if there be at the time of the annexation of such new territory only one franchise area in the city, such new territory shall become, by operation of law, a part of said franchise area(s) immediately upon the date such annexation becomes final, and said franchise area(s) shall thereafter be deemed enlarged to include the addition of such new territory, unless the Council shall direct grantee(s) of a franchise hereunder and any interested parties to submit applications for such new territory. In the event any new territory shall become annexed to the city which shall not be contiguous to any franchise area and there be more than one franchise area in the city, then the Council shall direct grantees of a franchise hereunder and any interested parties to submit applications for such new territory. Such applications shall be reviewed and acted upon as provided in this article and such new territory shall become a part of the franchise area of the applicant(s) determined by the Council to be best suited to provide service to such territory. The appropriate grantee(s) shall diligently and promptly make cable communication services available to any new territory after the annexation thereof becomes final.

(l) For each franchise issued pursuant to the provisions of this article, one or more environmental analysis shall be undertaken as required by the provisions of the California Environmental Quality Act commencing at Section 21000 of the Public Resources Code. The franchise documents shall be subject to amendment for the purpose of implementing any changes dictated by the environmental analysis. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-212. ADMINISTRATION OF FRANCHISE; ADOPTION OF REGULATIONS.

(a) The city shall exercise regulatory authority under and administer this ordinance and any franchise granted thereunder, and may from time to time modify this ordinance, as authorized by applicable law. If the cable communication system operated by franchisee also serves other contiguous or neighboring communities, city may, at its sole option, participate in a joint regulatory agency, with delegated responsibility in the area of cable and related communications.

(b) The CAO is hereby authorized to administer the provisions of this ordinance and any franchise issued pursuant thereto, and to provide any notices (including noncompliance notices) and to take any action on the city's behalf that may be required hereunder or under applicable law, consistent therewith.

(c) The CAO may from time to time adopt regulations to implement the provisions of this ordinance. This ordinance, and any regulations adopted pursuant to this ordinance are not contracts with any franchisee, and may be amended at any time.

(d) The failure of the city, upon one or more occasions, to exercise a right or to require compliance or performance under a franchise or any other applicable law shall not be deemed to constitute a waiver of such right or a waiver of compliance or performance, unless such right has been specifically waived in writing.

(e) The city may designate one or more entities, including itself, to control and manage the use of public, educational and government access channels, facilities and equipment. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-213. APPLICATION REQUIREMENTS AND FEES.

(a) Any person seeking to obtain, modify (to expand services offered), transfer, extend, or renew a franchise shall submit a signed original of its application and six (6) copies to the City Clerk. The city shall make applications available for public inspection consistent with applicable law. The application must conform to all of the requirements of law, this article and any implicated franchise. Requests for other types of franchise modifications may be processed by city without an application, and submitted for approval. However, nothing herein shall prevent the city from requiring an application in the event the city determines, based on the nature of the requested modification, that the public interest would best be served by the submission of an application pursuant to this article.

(b) An applicant, to the maximum extent allowable by law, shall pay all reasonable costs incurred by the city related to the processing of any application. Processing costs shall include, but not be limited to, the costs of services rendered by any city employee, agent or representative, including consultants and attorneys. The initial franchise application fee deposit shall be $5,000.00, provided the city may increase this initial deposit amount from time to time, which deposit shall be submitted with the application. The city may, as costs are incurred, draw upon the deposit to recover its administrative costs allowed by law, including, but not limited to, the reasonable cost of outside consultants retained by the city related to the city's consideration and processing of an application. The CAO, at any time, may require the

applicant to deposit additional sums if it appears that the initial deposit or subsequent deposits will be exhausted prior to the final action by the city. The applicant will not be entitled to further consideration by city of its requested action until such time as the additional deposit required by the CAO has been deposited with the city. In the event the amount of the deposit of an applicant is in excess of the amount of the administrative expenses of the city related to the action requested, then the applicant shall be entitled to a return of any such excess amount. In addition, an applicant that is awarded a franchise shall reimburse the city for for all publication expenses allowed by law incurred by city in connection with the granting of a franchise. Such payment shall be made to the city within 30 days after the city furnishes the franchisee with a statement of such expenses. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-214. CABLE COMMUNICATION SYSTEM FRANCHISE.

(a) Except as specifically provided in this article, an application must be filed to obtain, modify (to expand services offered), transfer, extend, or renew a cable communication system franchise. All applications shall include the names and addresses of persons authorized to act on behalf of the applicant with respect to the application. A request for renewal filed under 47 U.S.C. § 546(h) need not contain the information required below.

(b) Application Contents.

(1) The CAO may specify the information that must be provided in connection with an application, and the form in which the information is to be provided. At a minimum each application must identify the applicant, show that the applicant is financially, technically and legally qualified to construct, maintain and operate the cable communication system, contain a pro forma showing capital expenditures and expected income and expenses for the first five (5) years the applicant is to hold the franchise, and show that the applicant is willing to comply unconditionally with its franchise obligations.

(2) Any application for an initial or renewal franchise or rebuild of the system and/or facilities, must describe in detail the cable communication system that the applicant proposes to build, show where it will be located, set out the system construction schedule, and show that the applicant will provide adequate channels/capacity, facilities and other support for public, educational and government use (including institutional network use) of the cable system. A detailed description of the physical facilities proposed, which shall include at least the following:

(i) A description of the channel capacity, technical design, performance characteristics, headend, access (and institutional network) facilities and equipment;

(ii) The location of proposed facility and facility design, including a description of the miles of plant to be installed, and a description of the size of equipment cabinets, shielding and electronics that will be installed along the plant route, the power sources that will be used and a description of the noise, exhaust and pollutants, if any, that will be generated by the operation of the same; provided, however, that, if some of the descriptive data is not available at the time of application, the city may grant the franchise subject to conditions that the data be filed and approved by the city before

construction begins and that the franchise will be deemed to be forfeited if the data is not supplied and approved; provided, further, that the foregoing proviso does not authorize the grant of a franchise where there is not sufficient information to appraise the impact of the applicant's proposal;

(iii) A map of the general route the facility will follow; a designation of the portions of the system that will be placed above ground and the portions that will be placed underground, and the construction techniques that the operator proposes to use in installing the system above ground and underground; a schedule for construction of the facility, describing when and where construction will begin, how it will proceed, benchmarks indicating the schedule competition of portions of the system and when construction will be completed; and the expected effect on right-of-way usage, including information on the ability of the public rights-of-way to accommodate the proposed system, including, as appropriate given the system proposed, an estimate of the availability of space in conduits and an estimate of the cost of any necessary rearrangement of existing facilities.

(3) The application must include a description, where appropriate, of how services will be converted from existing facilities to new facilities, and what will be done with existing facilities.

(4) A applicant must demonstrate how it will reasonably meet the future cable-related needs and interests of the community, including descriptions of the capacity, facilities and support for public, educational, and governmental use of the system (including institutional networks) applicant proposes to provide and why applicant believes that the proposal is adequate to meet the future cable-related needs and interests of the community.

(5) The applicant must demonstrate financial qualifications, including at least the following: (i) the proposed rate structure, including projected charges for each service tier, installation, converters, and all other proposed equipment or services; (ii) a statement regarding the applicant's financial ability to complete the construction to meet the time frame proposed and to operate the cable communication system proposed certified by the applicant's chief financial officer.

(6) The applicant must demonstrate its technical ability to construct and/or operate the proposed cable communication system.

(7) The applicant must demonstrate it is legally qualified, which proof must include a demonstration that the applicant:

(i) Has received, or is in a position to receive, necessary authorizations from State and Federal authorities;

(ii) Has not engaged in conduct (fraud, racketeering, violation of antitrust laws, consumer protection laws, or similar laws) that allows the city to conclude the applicant cannot be relied upon to comply with requirements of a franchise, or provisions of this title;

(iii) Is willing to enter into a franchise, to pay required compensation and to abide by the provisions of applicable law, including those relating to the construction, operation or repair of its facilities; and has not entered into any agreement that would prevent it from doing so; and

(iv) The applicant must not have submitted an application for an initial or renewal franchise to the city, which was denied on the ground that the applicant failed to propose a cable communication system meeting the cable-related needs and interests of the community, or as to which any challenges to such franchising decision were finally resolved (including any appeals) adversely to the applicant, within three years preceding the submission of the application.

(8) An applicant may show that it would be inappropriate to deny it a franchise by virtue of: the particular circumstances surrounding the acts or omissions at issue; the steps taken by the applicant to cure all harms flowing there from and to prevent their recurrence; and the lack of involvement of the applicant's principals, or the remoteness of the acts or omissions from the operation of cable communications systems.

(9) The extent that the applicant is in any respect relying on the financial or technical resources of another person, including another affiliate, proofs should be provided for that person.

(10) A description of the applicant's prior experience in cable communication system ownership, construction, and operation, and identification of cities and counties in California in which the applicant or any of its principals have a cable franchise or any interest therein, provided that an applicant that holds a franchise for the city and is seeking renewal of that franchise need only provide this information for other cities and counties in California where its franchise is scheduled to expire during the 12-month period prior to the date its application is submitted to the city and for other cities and counties in California where its franchise had been scheduled to expire during the 12-month period after the date its application is submitted to the city. If an applicant has no other franchise in California, it shall provide the information for its operations in other states.

(11) An affidavit or declaration of the applicant or authorized officer thereof certifying the truth and accuracy of the information in the application, and certifying that the application meets all requirements of applicable law.

(c) An applicant (and the transferor and transferee, in the case of a transfer) shall respond to any lawful request for information from city, by the time specified by the city. An application may be rejected if it is incomplete, or if the response to requests for information is not timely and complete. For purposes of this section the term applicant includes any affiliate of applicant.

(d) A franchisee may not require a subscriber or a building owner or manager to enter into an exclusive contract as a condition of providing or continuing service. However, nothing

herein prevents a franchisee from entering into an otherwise lawful, mutually desired exclusive arrangement with a building owner or manager of a multiple dwelling unit or commercial subscriber.

(e) In addition to satisfying such additional or stricter conditions as the city finds necessary based on its investigations, the following elements shall be required in every franchise:

(1) Each franchisee shall provide a cable system, which uses at least 750MHz equipment of high quality and reliability. Each franchisee shall install and activate the return portion of the cable system in the sub-low frequency spectrum of 5 MHz to 30 MHz.

(2) Public, educational and government use of the system.

(i) A franchisee shall provide as a minimum the greater of 3 channels or 18 MHz of bandwidth for PEG access to each subscriber.

(ii) Each franchisee shall install, maintain, and replace as necessary, a dedicated, bi-directional fiber optic link (or link with equivalent or superior functionality, capacity and reliability) between its headend and a location designated by the city as the primary access center.

(iii) Each franchisee shall install, maintain, and replace activated two-way cable plant and all headend, cable plant, and node equipment required to make it operable so that the city, schools, and all designated PEG access centers and access facilities located within the franchise area will be able to send and receive signals (video, audio, and data) using the activated two-way cable plant.

(iv) Each franchisee shall ensure that technically adequate signal quality, routing systems, and switching and/or processing equipment are initially and continuously provided for all access interconnections both within franchisee's cable communication system and with other cable communication systems throughout the duration of its franchise.

(v) In the event a franchisee makes any change in the cable communication system and related equipment and facilities or in the franchisee's signal delivery technology which directly or indirectly substantially affects the signal quality or transmission of access programming, the franchisee shall at its expense take necessary steps or provide necessary technical assistance, including the acquisition of all necessary equipment, to ensure that the capabilities of access programmers are not diminished or adversely affected by such change.

(vi) A franchisee shall maintain all access channels (both upstream channels and downstream channels) and all interconnections of access channels at the same level of technical quality and reliability as the best commercial channels carried on the franchisee's system.

(f) It is the policy of the city to ensure that every cable communication system provides service in its franchise area upon request to any person or any government building. Each franchisee shall extend service upon request within its franchise area, provided that, a franchise may permit a franchisee to require a potential subscriber to contribute a fair share

of the capital costs of installation or extension as a condition of extension or installation in cases where such extension or installation may be unduly expensive. Service must be provided within time limits specified in Section immediately below.

(g) Except as a franchise otherwise provides, service must be extended upon request to any person or to any government building in a franchisee's franchise area (i) within seven (7) days of the request, where service can be provided by activating or installing a drop; (ii) within ninety (90) days of the request where an extension of one-half mile or less is required; or (iii) within six (6) months where an extension of one-half mile or more is required.

(h) A cable communication system within the City of Fresno shall meet or exceed the technical standards set forth in 47 U.S.C. § 544 (e); 47 C.F.R. § 76.601 and any other applicable technical standards.

(i) Each cable operator shall perform at its expense such tests as may be necessary to show whether or not the franchisee is in compliance with its obligations under applicable FCC standards, this article or a franchise.

(j) Upon request of the city, every cable communication system shall be required to interconnect with every other cable communication system in the city, or adjacent to the city, on fair and reasonable terms for purposes of providing PEG and I-Net services.

(k) Each franchisee shall, during the term of the franchise, ensure that subscribers are able to receive continuous service. In the event the franchise is revoked or terminated, the franchisee may be required to continue to provide service for a reasonable period to assure an orderly transition of service from the franchisee to another entity. A franchise may establish more particular requirements under which these obligations will be satisfied.

(l) The city may regulate any of the cable operator's rates and charges, except to the extent it is prohibited from doing so by law. The city will regulate rates in accordance with FCC rules and regulations, where applicable. Except to the extent FCC rules provide otherwise, all rates and charges that are subject to regulation, and changes in those rates or charges must be approved in advance. The CAO may take any required steps to file complaints, toll rates, issue accounting orders or take any other steps required to comply with FCC regulations. The Council shall be responsible for issuing rate orders that establish rates or order refunds.

(m) Except to the extent the city may not legally enforce such a requirement, a cable operator is prohibited from discriminating in its rates or charges or from granting undue preferences to any subscriber, potential subscriber, or group of subscribers or potential subscribers; provided, however, that a franchisee may offer temporary, bona fide promotional discounts in order to attract or maintain subscribers, so long as such discounts are offered on a non-discriminatory basis to similar classes of subscribers throughout the franchise area; and a franchisee may offer discounts for the elderly, the disabled, or the economically disadvantaged; and such other discounts as it is expressly entitled to provide under federal law, if such discounts are applied in a uniform and consistent manner.

(n) A cable operator shall not deny access or charge different rates to any group of subscribers or potential subscribers because of the income of the residents of the local area in which such group resides.

(o) Each cable operator must satisfy all applicable FCC, state and the city's cable customer service standards or consumer protection standards, including 47 CFR 76.309. The city may establish from time to time by resolution cable customer service standards that exceed or are additional to federal and state requirements and that are not specifically preempted. In the case of a conflict among standards, the stricter standard shall apply.

(1) As subscribers are connected or reconnected to the cable communication system, and at least once annually thereafter, the franchisee shall provide each subscriber with written information concerning the procedures for making inquiries or complaints, including the name, address and local telephone number of the employee or employees or agent to whom such inquiries or complaints are to be addressed, and also furnish information concerning the city office responsible for administration of the franchise with the name and telephone number of the office. The notice shall also indicate franchisee's business hours and procedures for responding to inquiries after normal business hours. The franchisee shall provide all subscribers and the city written notice no less than thirty (30) days prior to any proposed change in these policies. Under normal circumstances, the franchisee shall provide all subscribers and the city with at least thirty (30) days written notice prior to the implementation of any change in rates or programming services. Copies of all notices provided to subscriber shall be filed concurrently with the city.

(2) For violation of cable customer service standards, penalties will be imposed as follows:

(i) Two hundred dollars ($200) for each day of each material breach, not to exceed six hundred dollars ($600) for each occurrence of material breach;

(ii) If there is a subsequent material breach of the same provision within twelve (12) months, four hundred ($400) for each day of each material breach, not to exceed twelve hundred ($1200) for each occurrence of the material breach;

(iii) If there is a third or additional material breach of the same provision within twelve (12) months of the first, one thousand dollars ($1000) for each day of each material breach, not to exceed three thousand dollars ($3000) for each occurrence of the material breach;

(iv) Any penalty assessed under this section will be reduced dollar for dollar to the extent any other penalty or liquidated damage provision of a franchise imposes a monetary obligation on a franchisee for the same customer service failures, and no other monetary damages may be assessed. The city will provide notice, and impose penalties, under this section consistent with the procedures established by California Government Code § 53088.2(r). (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-215. INITIAL GRANT AND INFORMAL RENEWAL OF CABLE COMMUNICATION SYSTEM FRANCHISE.

(a) This section establishes additional provisions that apply to an application for an initial franchise, or a renewal franchise application that is not governed by 47 U.S.C. §546(a)-(g).

(b) Any person may apply for an initial or renewal franchise by submitting an application therefor on that person's own initiative, or in response to a request for proposals issued by the city, without limiting the foregoing a franchisee may apply for a renewal of an existing franchise in accordance with and in the manner provided by law including the Cable Act and section 626 thereof. If the city receives an unsolicited application, it may choose to issue a request for additional proposals, and require the applicant to amend its proposal to respond thereto. The city shall promptly conduct such investigations as are necessary to act on an application.

(c) In determining whether to grant the application the city may consider:

(1) The extent to which an applicant for renewal has substantially complied with the applicable law and the material terms of any existing cable franchise;

(2) Whether an applicant for renewal's quality of service under its existing Franchise, including signal quality, response to customer complaints, billing practices, and the like has been reasonable in light of the needs of the community;

(3) Where the applicant has not previously held a cable communication system franchise in the city, whether the applicant's record in other communities indicates that it can be relied upon to provide high-quality service throughout any franchise term;

(4) Whether the applicant has the financial, legal, and technical ability to provide the services, facilities, and equipment set forth in an application, and to satisfy any minimum requirements established by the city;

(5) Whether the applicant's application is reasonable to meet the future cable-related needs and interests of the city, taking into account the cost of meeting such needs and interests;

(6) Whether issuance of a franchise is warranted in the public interest considering the immediate and future effect on streets, public property, and private property that will be used by the applicant's cable communication system;

(7) Whether issuance of the franchise would reduce competition in the provision of cable service in the city;

(8) Such other matters as the city is authorized or required to consider.

(d) The Council shall receive such report and recommendations of the CAO, shall consider the same together with such application, and shall make its determination either that such application should be accepted upon such terms and conditions as the Council shall determine, and as herein provided, or that such application should be rejected. In making any determination hereunder as to any application, the Council shall give due consideration to the quality

of the service proposed, rates to subscribers, income to the city, experience, character background, and financial responsibility of the applicant and its management and owners, the technical and performance quality of the equipment to be used, the willingness and ability of the applicant to meet construction and physical requirements, policy conditions, franchise limitations, and requirements imposed by this article or pursuant hereto, and any other considerations deemed pertinent by the Council for safeguarding the interest of the city and the public. The Council may determine that the award of any franchise shall be made on the basis of such considerations with or without competitive bidding, or otherwise, in its discretion.

(e) If the Council shall determine that such application should be rejected, such determination shall be final and conclusive, and the same shall be deemed rejected. If the Council shall determine such application should be accepted, the following shall be done and caused to be done:

(1) The Council shall decide and specify the terms and conditions of any franchise to be granted hereunder and as herein provided;

(2) The Council shall pass its resolution of intention to grant such franchise, stating the name of the proposed grantee, the character of the franchise, the terms and conditions upon which such franchise is proposed to be granted, fixing and setting forth a day, hour, and place certain when and where any persons having any interest therein or objection to the granting thereof may appear before the Council and be heard, and directing the City Clerk to publish said resolution at least once, within fifteen days of the passage thereof;

(3) Within fifteen days after the passage of said resolution, the City Clerk shall cause the same to be published in a newspaper of general circulation within the city, and the same shall be published at least ten days prior to the date specified for hearing thereon. Copies of such resolution shall be mailed to any person requesting same in writing.

(f) At the time set for such hearing, or at any adjournment thereof, the Council shall proceed to hear and pass upon all protests, and its decision thereon shall be final and conclusive. Thereafter, the Council shall make one of the following determinations:

(1) That such franchise be denied; or

(2) That such franchise be granted upon the terms and conditions as specified in the resolution of intention to grant the same; or

(3) That such franchise be granted, but upon the terms and conditions different from those specified in the resolution of intention to grant the same.

(g) If the Council shall determine that such franchise be denied, such determination shall be by resolution and shall be final and conclusive. If the Council shall determine that such franchise be granted, such determination shall be by ordinance, granting such franchise upon such terms and conditions as specified therein.

(h) If the city determines that issuance or informal renewal of a franchise would be in the public interest considering the factors described above, following public hearing and adoption

of any required resolution of intention and the public notice and comment period thereunder, it may proffer a franchise agreement to the applicant. No franchise shall become effective until the applicant unconditionally accepts the franchise, and the franchise agreement is signed. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-216. FORMAL RENEWAL OF CABLE COMMUNICATION SYSTEM FRANCHISE.

(a) This section establishes additional provisions that apply to applications for renewal governed by 47 U.S.C. § 546(a)-(g).

(b) A franchisee that intends to exercise rights under 47 U.S.C. § 546(a)-(g) shall submit a notice in writing to the city in a timely manner clearly stating that it is activating the procedures set forth in those sections. The city shall thereafter commence any proceedings that may be required under federal law, and upon completion of those proceedings, the city may issue a request for proposals and an application may be submitted for renewal. The city may preliminarily deny the application by resolution, and if the application is preliminarily denied, the city may conduct such proceedings and by resolution establish such procedures and appoint such individuals as may be necessary to conduct any proceedings to review the application. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-217. TRANSFER OF CABLE COMMUNICATION SYSTEM FRANCHISE.

(a) This section establishes additional provisions that apply to applications for transfer approval.

(b) No transfer shall occur without prior written notice to and approval of the city.

(c) An application for transfer must contain all the information required by the CAO, by this article and all information required by any FCC transfer form. At a minimum, an application must: describe the entities involved in the transaction and the entity that will hold the franchise; describe the chain of ownership before and after the proposed transaction; show that the entity that will hold the franchise will be legally, financially, and technically qualified to do so; attach complete information on the proposed transaction, including the contracts or other documents that relate to the proposed transaction, and all documents, schedules, exhibits, or the like referred to therein; and attach any shareholder reports or filings with the Securities and Exchange Commission ("SEC") that discuss the transaction.

(d) In determining whether a transfer application should be granted, denied, or granted subject to conditions, the city may consider the legal, financial, and technical qualifications of the transferee to operate the cable communication system; any potential impact of the transfer on subscriber rates or services; whether the incumbent cable operator is in compliance with its franchise; whether the transferee owns or controls any other cable system in the city, whether operation by the transferee may eliminate or reduce competition in the delivery of cable service in the city; and whether operation by the transferee or approval of the transfer would otherwise adversely affect subscribers, the public, or the city's interest under this article, the

franchise, or other applicable law. The proposed transferee shall pay all reasonable costs incurred by the city in reviewing and evaluating the applications to the maximum extent allowable by law.

(1) The applicant must be willing to comply with the provisions of this article and applicable laws; and to comply with such requirements of a franchise as the city may lawfully require;

(2) The applicant must not have had any cable system or OVS franchise validly revoked, (including any appeals) by the city within three (3) years preceding the submission of the application;

(3) The applicant may not have had an application to the city for an initial or renewal cable system franchise denied on the ground that the applicant failed to propose a cable system meeting the cable-related needs and interests of the community, or as to which any challenges to such franchising decision were finally resolved (including any appeals) adversely to the applicant, within three (3) years preceding the submission of the application; and may not have had an application for an initial or renewal franchise denied on any ground within three (3) years of the application;

(4) The applicant shall not be issued a franchise if, at any time during the ten (10) years preceding the submission of the application, applicant was convicted of fraud, racketeering, anticompetitive actions, unfair trade practices or other conduct of such character that the applicant cannot be relied upon to deal truthfully with city and the subscribers, or to substantially comply with its obligations;

(5) Applicant must have the necessary authority under California and federal law to operate a cable communication system, or show that it is in a position to obtain that authority;

(6) The applicant shall not be issued a franchise if it files materially misleading information in its application or intentionally withholds information that the applicant lawfully is required to provide.

(e) In order to obtain approval of a transfer, an applicant must show, at a minimum that: the transferee is qualified; the transfer will not adversely affect the interests of subscribers, the public, or the city; and that non-compliance issues have been resolved. No application shall be granted unless the transferee agrees in writing that it will abide by and accept all terms of this title and the franchise, and that it will assume the obligations, liabilities, and responsibility for all acts and omissions, known and unknown, of the previous franchisee for all purposes.

(f) Every franchise shall be deemed to be held in trust, and to be personal to the franchisee. Any transfer that is made without the prior approval of the city shall be deemed to impair that trust.

(g) Notwithstanding any other provision of this article, pledges in trust or mortgages of the assets of a cable communications system to secure the construction, operation, or repair of the

system may be made without application and without the city's prior consent. However, no such arrangement may be made if it would in any respect under any condition: (A) prevent the cable communications system operator or any successor from complying with the franchise or applicable law; or (B) permit a third party to succeed to the interest of the operator, or to own or control the system, without the prior consent of the city. Any mortgage, pledge or lease shall be subject to and subordinate to the rights of the city under any franchise, this article, or other applicable law. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-218. CABLE SYSTEMS FRANCHISE FEE.

(a) A cable system operator shall pay to the City of Fresno a franchise fee in an amount equal to 5 percent of gross revenues, or such other amount as may be specified in the franchise documents; provided, however, that the amount shall be subject to increase should federal limits on fee payments be eliminated or changed and other cable operators are subject to a higher fee.

(1) For purposes of calculating the franchise fee, gross revenues shall include a fair proportion of all revenues attributable to franchised cable services which are delivered by the franchisee, regardless of method. If a franchisee bundles, ties or combines the sale of some or all of its services, whether or not authorized by this franchise, and assesses its subscribers only one charge, the combined revenue therefrom shall be allocated to gross revenues to the full extent which would have been charged by franchisee if the subscriber had received only franchised cable services. In no event shall the amount allocated to franchised cable services under the foregoing calculation exceed the lesser of (1) the total amount of combined revenue actually received by a franchisee for unbundled services, or (2) the net revenue derived when mandatory tariff rates (if any) imposed by a governmental authority for components of the bundled, tied or combined services are deducted from the combined revenue. A franchisee may not alter or change any payments or amounts of compensation to the city which may be dictated by another franchise, ordinance, agreement or by applicable law and which are related to use of the public rights-of-way in the provision of non-franchised cable services in the city.

(2) In the event that a franchisee bundles services that are included in the definition of gross revenue with other services not included, the unbundled amount of gross revenue will be based on the published rate for any service provided for in a cable communications system franchise. Exception can be made with a clear showing by the franchisee that services offered pursuant to a franchise were discounted along with an accounting of the amount of said discount.

(3) If a franchisee offers its subscribers any kind of discount for receipt of both franchised cable and non-cable services (which are not included in the definition of gross revenues), the discount may be applied proportionately to franchised cable services and non-cable services upon notification to the city of such discount methodology. Such notification shall include the amount of the discount being applied to each service and documentation demonstrating the promotion and billing of such discount.

(4) The definition of gross revenue is to be as inclusive as possible consistent with existing applicable law. If a change in federal law occurs subsequent to the effective date of this ordinance, such change shall not impact the gross revenues definition in such a way to reduce gross revenues - unless the change specifically preempts the affected portion of the definition above. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-219. ADDITIONAL OPEN VIDEO SYSTEM FRANCHISE REQUIREMENTS.

(a) In addition to the other requirements of this article, the application must contain the following information:

(1) Identity of the applicant; the persons who exercise working control over the applicant; and the persons who control those persons, to the ultimate parent.

(2) Evidence satisfactory to the city that the applicant is legally qualified, which proof must include a demonstration that the applicant:

(i) Has received, or is in a position to receive, necessary authorizations from state and federal authorities;

(ii) Has not engaged in conduct (fraud, racketeering, violation of antitrust laws, consumer protection laws, or similar laws) that allows city to conclude the applicant cannot be relied upon to comply with requirements of franchise, or provisions of this title;

(iii) Is willing to enter into a franchise, to pay required compensation and to abide by the provisions of applicable law, including those relating to the construction, operation or maintenance of its facilities, and has not entered into any agreement that would prevent it from doing so.

(3) An affidavit or declaration of the applicant or authorized officer thereof certifying the truth and accuracy of the information in the application, and certifying that the application meets all requirements of applicable law.

(4) To the extent that the applicant is in any respect relying on the financial or technical resources of another person, including another Affiliate, the proofs should be provided for that person. An applicant will be presumed to have the requisite financial, or technical or legal qualifications to the extent such qualifications have been reviewed and approved by a state agency of competent jurisdiction; or if applicant is a holder of a franchise in the city for a cable system or open video system, and conduct under such other franchise provides no basis for additional investigation.

(5) An applicant shall respond to requests for information completely, and within the time directed by the city, and must strictly comply with procedures, instructions, and requirements the city may establish.

(6) An application may be rejected if it is incomplete or the applicant fails to follow procedures or respond fully to information requests.

(b) In addition to the other requirements of this article, in evaluating a franchise application, the city may consider the following:

(1) The extent to which the applicant has substantially complied with the applicable law and the material terms of any existing city OVS franchise;

(2) Whether the applicant has the financial, technical, and legal qualifications to hold an OVS franchise including:

(i) The applicant must be willing to comply with the provisions of this article and applicable laws, and to comply with such requirements of an OVS agreement as the city may lawfully require;

(ii) The applicant must not hold a cable system franchise, or have pending an application for a cable system franchise;

(iii) The applicant must not have had any cable system or OVS franchise validly revoked, (including any appeals) by the city within three (3) years preceding the submission of the application;

(iv) The applicant may not have had an application for an initial or renewal cable system franchise to the city denied on the ground that the applicant failed to propose a cable system meeting the cable-related needs and interests of the community, or as to which any challenges to such franchising decision were finally resolved (including any appeals) adversely to the applicant, within three (3) years preceding the submission of the application; and

(v) The applicant may not have had an application for an initial or renewal OVS franchise denied on any grounds within three (3) years of the applications.

(3) Whether the application satisfies any minimum requirements established by the city for, or will otherwise provide adequate public, educational, and governmental use channels/capacity, facilities, or financial support (including with respect to institutional networks);

(4) Whether issuance of a franchise would require replacement of property or involve disruption of property, public services, or use of the public rights-of-way;

(5) Whether the approval of the application may eliminate or reduce competition in the delivery of cable communication service in the city;

(6) Whether the applicant has the necessary authority under California and federal law to operate an OVS, and is certified by the FCC under Section 653 of the Cable Act.

(c) The Applicant shall not be issued a franchise if it files materially misleading information in its application or intentionally withholds information that the applicant lawfully is required to provide.

(d) An applicant shall be provided a reasonable opportunity to show that, a franchise should issue even if the requirements of this section are not satisfied, by virtue of the

circumstances surrounding the matter and the steps taken by the applicant to cure all harms flowing therefrom and prevent their recurrence, the lack of involvement of the applicant's principals, or the remoteness of the matter from the operation of a cable system.

(e) An applicant may show that it would be inappropriate to deny it a franchise by virtue of: the particular circumstances surrounding the acts or omissions at issue; the steps taken by the applicant to cure all harms flowing therefrom and to prevent their recurrence; and the lack of involvement of the applicant's principals, or the remoteness of the acts or omissions from the operation of open video system facilities.

(f) The applicant shall not be issued a franchise if, at any time during the ten (10) years preceding the submission of the application, applicant was convicted of fraud, racketeering, anticompetitive actions, unfair trade practices or other conduct of such character that the applicant cannot be relied upon to deal truthfully with the city and the subscribers, or to substantially comply with its obligations.

(g) Minimum conditions for grant of OVS franchise.

(1) No OVS operator shall be issued a franchise, or may commence construction of an OVS system, until (A) it agrees to match in all respects the highest PEG obligations borne by any cable operator in the city; or (B) it agrees to PEG obligations acceptable to the city.

(2) An OVS franchisee may not require a subscriber or a building owner or manager to enter into an exclusive contract as a condition of providing or continuing service, nor may a franchisee enter into any arrangement that would effectively prevent other persons from using the OVS to compete in the delivery of cable services with a franchisee or its affiliates.

(3) Any OVS operator that constructs an I-Net must match in all respects the highest I-Net obligations borne by any cable operator in the city, unless it agrees to alternative I-Net obligations acceptable to the city

(4) Every OVS franchise shall specify the construction schedule that will apply to any required construction, upgrade, or rebuild of the OVS. The schedule shall provide for prompt completion of the project, considering the amount and type of construction required.

(5) Each OVS operator shall perform at its expense such tests as may be necessary to show whether or not the franchisee is in compliance with its obligations under this article or a franchise.

(6) Every franchisee must satisfy customer service consumer protection requirements established from time to time under state, local law or resolution and the franchise and applicable to OVS.

(h) For purposes of this section the term applicant includes any affiliate of applicant. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-220. SPECIAL TERMINATION RULES FOR OPEN VIDEO SYSTEM FRANCHISE.

If a franchisee's FCC certification is revoked or otherwise terminates as a result of the passage of time or as a matter of law, the city of Fresno may revoke the OVS franchise after a public hearing. The OVS franchise may also be revoked if federal regulations or statutory provisions governing OVS are declared invalid or unenforceable, or are repealed. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-221. RATE REGULATION FOR OPEN VIDEO SYSTEM FRANCHISE.

The city of Fresno may regulate a franchisee's rates and charges except as prohibited by law, and may do so by amendment to this article, separate ordinance, by amendment to an OVS Agreement, or in any other lawful manner. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-222. OPEN VIDEO SYSTEM FEE IN LIEU OF CABLE SYSTEM FRANCHISE FEE.

(a) Fee in lieu of franchise fee.

(1) In lieu of the franchise fee required by section 9-218 of this article, an OVS operator shall pay a fee of five percent (5%) of the gross revenues of the franchisee, its affiliates or any OVS operator of the OVS.

(2) Persons leasing OVS capacity.

(i) A person leasing capacity from an OVS operator, other than a person whose revenues are included in the payment made by an OVS operator under subsection (1) above, shall pay the city a fee in lieu of the franchise fee required by section 9-218 of this article of five percent (5%) of the gross revenues of such person. The city may require the OVS operator to collect this fee and remit it so city.

(ii) Notwithstanding the foregoing, where franchisee charges a person, other than an affiliate, to use its OVS (the "use payments"); and that person recovers those use payments through charges to its subscribers that are included in that person's gross revenues; and that person fully recovers the use payments through the charges to its subscribers and pays a fee on those charges pursuant to this subsection (2); then franchisee may deduct from its gross revenues the use payments it receives from that person (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-223. PROCEDURES FOR PAYING FRANCHISE FEES AND FEES IN LIEU OF FRANCHISE FEES.

(a) The franchise fee paid pursuant to section 9-218 of this article, or fee in lieu of franchise fee paid pursuant to section 9-222 shall be paid quarterly unless otherwise specified in a franchise. Payment for each quarter shall be made to the city not later than forty-five (45) days after the end of each calendar quarter.

(b) Unless a franchise provides otherwise, a franchisee or other entity subject to a fee under sections 9-218 and/or 9-222 of this article shall file with the city within forty-five (45) days of the end of each calendar quarter a statement showing gross revenues during the preceding quarter and the number of subscribers served.

(c) No acceptance by the city of any payment shall be construed as an accord that the amount paid is in fact the correct amount, nor shall such acceptance of such payment be construed as a release of any claim the city may have for additional sums payable.

(d) Neither the franchise fee under section 9-218 of this article nor the fee paid in lieu of the franchise fee under section 9-222 of this article, is a payment in lieu of any tax, fee or other assessment of general applicability (including any such tax, fee or assessment imposed on both utilities and cable operators or their services, but not including a tax, fee, or assessment which is unduly discriminatory against cable operators or cable subscribers).

(e) In the event that a fee payment is not received by the city on or before the due date set forth in this Section or in a franchise, or the fee owed is not fully paid, the person subject to the fee will be charged interest on fee overdue from the due date at the lesser of the maximum rate then allowable by law or three percent (3%) above the rate for three-month Federal Treasury Bills at the most recent United States Treasury Department sale of such Treasury Bills occurring prior to the due date of the franchise fee payment.

(f) Within ninety (90) days of the date a franchisee ceases operations under a franchise (whether because of franchise termination, transfer, bankruptcy or for any other reason), the franchisee shall file a final statement of gross revenues covering the period from the beginning of the calendar year in which the operations ceased to the date operations ceased. The statement shall contain the information and be certified as required by this ordinance. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-224. GENERAL CONDITIONS UPON CONSTRUCTION, OPERATION AND REPAIR.

(a) The construction, operation, and repair of cable communications systems shall be performed in compliance with all laws, ordinances, departmental rules, regulations, and practices affecting such system. By way of example, and not limitation, this includes zoning and safety codes, construction standards, regulations for providing notice to persons that may be affected by system construction, and directives governing the time, place and manner in which facilities may be installed in the rights-of-way. Persons engaged in the construction, operation, or repair of communications facilities shall exercise reasonable care in the performance of all their activities and shall use commonly accepted methods and devices for preventing failures and accidents that are likely to cause damage, injury, or nuisance to the public or to property.

(b) A franchise is required before a permit may be issued for work associated with the construction of a cable communications system. Any permit issued for such work to a person

that does not hold a franchise shall vest no rights in the permittee; the permit may be revoked at will, and the permittee at its sole cost shall remove all facilities installed under the permit upon the city's demand.

(c) Construction, operation, or repair of a cable communications system shall not commence until all required permits have been obtained from the proper city officials and all required fees have been paid. All work performed will be performed in strict accordance with the conditions of the permit. Upon order of the city, any work and/or construction undertaken that is not completed in compliance with the city's requirements, or which is installed without obtaining necessary permits and approvals shall be removed at permittee's sole cost.

(d) Interference with the use of the public rights-of-way by others, including others that may be installing cable communications systems, must be minimized. The CAO may require a person using the rights-of-way to cooperate with others through joint trenching and other arrangements to minimize adverse impacts on the rights-of-way.

(e) Work shall be publicized as CAO may direct from time to time. The publication of work may be used to notify the public and operators of other communications systems of the impending work, in order to minimize inconvenience and disruption to the public.

(1) Each franchisee shall provide city a plan for any initial system construction, or for any substantial rebuild, upgrade or extension of its facility, which shall show its timetable for construction of each phase of the project, and the areas of the city that will be affected.

(2) The CAO may from time to time, when the city receives application for a permit to use a particular route, or upon the city's own initiative, designate by published order a route or proposed route for installation of communications facilities and may (i) require all persons who wish to emplace underground facilities along that route or any part thereof to install them during a specified period and (ii) otherwise prohibit emplacement of such facilities along the route or any part thereof for 24 months or after such other, longer period as is necessary to protect the public.

(f) Failure on the part of the grantee to commence and diligently pursue and complete construction within the timeframe(s) provided in the franchise shall be grounds for termination of such franchise. By acceptance of the franchise granted hereunder, grantee agrees that failure to comply with any time requirements referred to in subsections (a), (b) and (c) of this section will result in damage to the city and that it is and will be impracticable to determine the actual amount of such damage in the event of delay; and grantee therefore agrees that, in addition to any other damage suffered by city, he will pay to city liquidated damages specified in the franchise documents for each and every day's delay beyond the time prescribed, plus authorized extensions thereof, for completion of any of the acts required to be done by this section.

(g) To the extent possible, operators of cable communications systems shall use existing poles and conduit. Additional poles may not be installed in the right-of-way, nor may pole capacity be increased by vertical or horizontal extenders, without the permission of the CAO.

(1) To minimize disruption of public passage or infrastructure, to forestall or relieve exhaustion of rights-of-way capacity, or to protect environmentally sensitive areas, the city may require as a condition of issuing any rights-of-way permit for erection of new poles or construction of underground conduit, the installation of which requires excavation of or along any traveled way that the franchisee, licensee, or holder of the rights-of-way permit emplace pole space or empty conduits in excess of its own present and reasonably foreseeable requirements for the purpose of accommodating the city and/or other franchisees and licensees.

(h) Undergrounding.

(1) In those areas and portions of the city where existing utilities are underground or hereafter may be placed underground, or are to be placed underground by a builder, developer or subdivider as part of a development or subdivision, then the grantee shall likewise construct, operate and maintain all of its cable communication system facilities unless the CAO in his/her sole discretion determines that doing such would impair functionality of the cable communication system.

(2) Whenever the owner of a pole locates or relocates underground within an area of the city, every cable communications system operator in the same area shall concurrently relocate its facilities underground.

(3) In new developments or subdivisions, the grantee shall be responsible for the performance of all necessary trenching and backfilling of main line and service trenches, including furnishing of any imported backfill material required or participate in joint trench construction with other utilities. The grantee will be responsible for the conduct of the engineering and labor to put the cable conduit in the trench. The grantee will be responsible for pulling in the cable, and providing the plant electronics and drops to individual homes, after occupancy.

(4) In those areas and portions of the city heretofore designated by the city as local improvement districts and where utility service facilities are currently located underground, the grantee shall be responsible for the undergrounding of cable facilities including the performance of all necessary trenching and backfilling of main line and service trenches, and the furnishing of any imported back-fill material required.

(5) Subject to approval by the CAO, incidental appurtenances such as amplifier boxes and pedestal mounted terminal boxes may be placed above ground, but shall be of such size and design and shall be so located as not to be unsightly or hazardous to the public.

(6) The CAO may, for good cause shown, exempt a particular system or facility or group of facilities from the obligation to locate or relocate facilities underground, where relocation is impractical, or where the city and the subscriber's interest can be protected in another manner. Nothing herein prevents the city from ordering communications facilities to be located or relocated underground under other provisions of the city's Municipal Code.

(i) The cable communication system operator, at its sole cost shall promptly repair any and all public rights-of-way, other public property, or private property that is disturbed or damaged

during the construction, operation, maintenance or repair of a cable communications system. Public property and public rights-of-way must be restored to the satisfaction of city or to a condition as good or better than before the disturbance or damage occurred.

(j) Movement of facilities for government.

(1) A cable communications system operator shall, at its sole cost and by a time specified by the city, protect, support, temporarily disconnect, relocate, or remove any of its property when required by the city by reason of traffic conditions; public safety; public right-of-way construction and repair (including regrading, resurfacing or widening); public right-of-way vacation; construction, installation or repair of sewers, drains, water pipes, power lines, signal lines, tracks, or any other type of government-owned system or utility, public work, public facility, or improvement; or for any other purpose where the CAO in his/her sole discretion determines that the work involved necessitates the removal or relocation of the cable communications system. Collectively, such matters are referred to below as the "public work."

(2) Except in the case of emergency, the city shall provide written notice describing where the public work is to be performed at least one week prior to the deadline by which a cable communications system operator must protect, support, temporarily disconnect, relocate or remove its facilities. Provided that, in an emergency, or where a cable communications system creates or is contributing to an imminent danger to health, safety, or property, the city may protect, support, temporarily disconnect, remove, or relocate any or all parts of the cable communications system without prior notice, and charge the cable communications system operator for costs incurred.

(k) Movement for others.

(1) To accommodate the construction, operation, or repair of the facilities of another person authorized to use the streets or public property, a cable communication system operator shall, at its sole cost unless otherwise mutually agreed between the cable communication system operator and the authorized person requesting movement, and by a time specified by such person, protect, support, temporarily disconnect, relocate or remove its facilities. The cable communications system operator must be given written notice describing where the construction, operation or repair is to be performed at least fifteen (15) days prior to the time by which its work must be completed. The city may resolve disputes as to responsibility for costs associated with removal, relaying, or relocation of facilities among entities authorized to install facilities in the streets or on public property if such entities are unable to do so themselves.

(2) A cable communications system operator shall, on the request of any person holding a valid permit issued by a governmental authority, temporarily raise or lower its wires by a time specified to permit the moving of buildings or other objects. A cable communications system operator shall be given not less than seven (7) days advance notice to arrange for such temporary wire changes. The expense of such temporary removal or raising or lowering of wires shall be paid by the person requesting the same.

(l) Abandonment in place.

(1) A cable communications system operator may abandon any property in place in the public rights-of-way upon written notice to the city. However, if, within 90 days of the receipt of written notice of abandonment, the city determines, that the safety, appearance, functioning or use of the public right-of-way and facilities in the public right-of-way will be adversely affected, the property must be removed by a date specified by the city.

(2) A cable communications system operator that abandons its property must, upon request, transfer ownership of the properties to the city at no cost, and execute necessary quitclaim deeds and indemnify the city against future costs associated with mitigating or eliminating any environmental hazard associated with the abandoned property.

(m) Every cable communications system and facility shall be subject to inspection and testing by the city. Each operator must respond to requests for information regarding its system and plans for the system as the city may from time to time issue, including requests for information regarding its plans for construction, operation and repair and the purposes for which the plant is being constructed, operated, or repaired.

(n) Each operator of a cable communications system that places facilities underground shall be a member of the regional notification center for subsurface installations (Underground Services Alert) and shall field mark the locations of its underground communications facilities upon request. The operator shall locate its facilities for the city at no charge.

(o) Every franchise shall specify for the city a construction schedule that will apply to any required construction, upgrade, or rebuild of the cable communications system. The schedule shall provide for the prompt completion of the project, shall show its timetable for construction of each phase of the project, with benchmarks for deliverables and the areas of the city that will be affected. The city may impose penalties on the operator for a failure to meet the accepted timetable and benchmarks where allowed by the franchise and applicable law.

(p) The city shall have the right to install and maintain, free of charge upon any poles or in any conduit owned by a franchisee any wire and pole fixtures that do not unreasonably interfere with the cable service operations of the franchisee. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-225. INDEMNITY AND INSURANCE.

(a) No franchise shall be valid or effective until and unless the city obtains an adequate indemnity from the franchisee in a form acceptable to the City Attorney and the City's Risk Manager. Without limitation the indemnity must:

(1) Release the city from and against any and all liability and responsibility in or arising out of the construction, operation or maintenance of the cable communications system. Each cable communications system operator must further agree not to sue or seek any money or damages from the city in connection with the above-mentioned matters.

(2) To the furthest extent allowed by law, hold city completely harmless and indemnify, protect and defend city and city's officials, members, employees, volunteers and agents and each of its officers, officials, employees, agents and volunteers against any and all claims, judgments, fines, penalties, forfeitures, damages, demands, liabilities, suits, notices, costs and expenses (including all reasonable costs and expenses for investigation and defense thereof [including, but not limited to attorney fees, court costs and expert fees]), or any one, more or all of these, of any nature whatsoever, arising or allegedly arising, directly or indirectly, out of, as a result of, or incident to, or in any way connected with the construction, operation or maintenance of the cable communications system, franchisee's exercise of any one, more or all of the rights and privileges herein granted, any breach or default in the performance of any obligation on franchisee's part to be performed hereunder, and/or any act(s) or omission(s) on the part of franchisee and/or any officer(s), agent(s), employee(s), contractor(s), sub-contractor(s), servant(s), or representative(s) of franchisee, except for any claims, judgments, fines, penalties, forfeitures, damages, demands, liabilities, suits, notices, costs and expenses, or any of these, caused solely by the active negligence or by the willful misconduct of city or any of its officials, officers, or employees acting within the scope of their duties for city.

(3) Provide that franchisee shall conduct all defense at its sole cost and expense. City shall be reimbursed for all costs and attorney's fees incurred by city in enforcing this obligation. This indemnity shall apply to all claims and liability regardless of whether any insurance policies are applicable. The policy limits do not act as a limitation upon the amount of indemnification to be provided. Approval or purchase of any insurance contracts or policies shall in no way relieve from liability nor limit the liability of franchisee and its officials, officers, employees, agents and volunteers.

(4) Provide that the covenant and representations relating to the indemnification provision shall survive the term of the franchise or other authorization and continue in full force and effect as to the party's responsibility to indemnify.

(b) A franchisee (or those acting on its behalf) shall not commence construction or operation of the system without obtaining insurance in amounts and of a type satisfactory to the city and approved by the city's Risk Manager. The required insurance must be obtained and maintained for the entire period the franchisee has facilities in the public right-of-way and for any additional period required by this ordinance and the franchise. If the franchisee, its contractors, or subcontractors do not obtain and maintain the required insurance, city may order such entities to stop operations until the insurance is obtained and approved.

(1) Certificates of insurance, endorsement and declarations reflecting the required insurance and naming the city as an additional insured, and other proofs as the city may find necessary, shall be filed with the city. For persons issued franchises after the effective date of this ordinance, certificates and other required proofs shall be filed within 30 days of the issuance of a franchise, prior to the commencement of construction, once a year thereafter as to insurance certificates, and whenever there is any change in coverage. For entities that have facilities in the public right-of-way as of the effective date of this

ordinance, certificates and other required proofs shall be filed within 60 days of the effective date of this ordinance, annually thereafter, and whenever there is any change in coverage, unless a pre-existing franchise provides for filing of certificates in a different manner. In the event that the insurance certificates and other required proofs provided indicate that the insurance shall terminate or lapse during the term of the franchise, then in that event, the communications system operator shall furnish, at least 30 days prior to the expiration of the date of such insurance, a renewal certificate of insurance as proof that equal and like coverage has been or will be obtained prior to any such lapse or termination during the balance of the franchise under which the cable communications system operates.

(2) Policies shall be issued by an insurance company (ies) either:

(i) admitted by the California Insurance Commissioner to do business in the State of California and rated not less than "A-Vll" in Best's Insurance Rating Guide; or

(ii) authorized by the City Risk Manager.

(3) A cable communications system operator (and those acting on its behalf to construct or operate the system) shall purchase and maintain the following minimum insurance. The following policies of insurance are required:

(i) COMMERCIAL GENERAL LIABILITY insurance which shall be at least as broad as Insurance Services Office (ISO) General Liability Coverage Form CG 00 01 and shall include coverage for Premises and Operations (including the use of owned and non-owned equipment), Products and Completed Operations, Personal Injury and Advertising Liability, Explosion, Collapse, and Underground Hazards and Blanket Contractual Liability with limits of liability of not less than $1,000,000 per occurrence and 2,000,000 general aggregate for bodily injury and property damage; $1,000,000 for personal and advertising injury; and $2,000,000 aggregate for products and completed operations.

(ii) COMMERCIAL AUTOMOBILE LIABILITY insurance, which shall be at least as broad as Insurance Services Office (ISO) Business Auto Coverage Form CA 00 01 and endorsed for "any auto" with combined single limits of liability of not less than $1,000,000 per accident for bodily injury and property damage.

(iii) WORKERS' COMPENSATION insurance as required under the California Labor Code; and in the case any work is sublet, each cable communications system operator shall require the subcontractors similarly to provide workers' compensation insurance for all the latter's employees unless such employees are covered by the protection afforded by each cable communications system operator.

(iv) EMPLOYERS' LIABILITY insurance with minimum limits of $1,000,000 each accident, $1,000,000 disease policy limit and $1,000,000 disease each employee of franchisee and its contractors and subcontractors.

(4) Additional Insurance Coverage Requirements.

(i) Defense costs shall be provided as an additional benefit and not included within the above limits of liability. Franchisee shall be responsible for payment of any

deductibles contained in any insurance policies required hereunder. completed operations and products liability shall be maintained for two years after the termination of the franchise (in the case of the cable communications system owner or operator) or completion of the work for the cable communications system owner or operator (in the case of a contractor or subcontractor).

(ii) The above described policies of insurance shall be endorsed to provide an unrestricted 30-day written notice in favor of city, of policy cancellation, change or reduction of coverage, except for the workers' compensation policy which shall provide a 10-day written notice of such cancellation, change or reduction of coverage.

(iii) Upon issuance by the insurer, broker, or agent of a notice of cancellation, change or reduction in coverage, franchisee shall file with city a certified copy of the new or renewal policy and certificates for such policy.

(iv) The general liability and automobile liability insurance policies shall be written on an occurrence form and shall name the city, its officers, agent and employees as an additional insured. Such policy(s) of insurance shall be endorsed so franchisee's insurance shall be primary and no contribution shall be required of city. Any workers' compensation insurance policy shall contain a waiver of subrogation as to city, its officers, officials, agents, employees and volunteers.

(v) Franchisee shall furnish city with copies of the actual policies upon the request of City's Risk Manager at any time during the life of the franchisee, and this requirement shall survive termination or expiration of the franchise.

(vi) Any failure to maintain the required insurance shall be sufficient cause for city to terminate the franchise.

(vii) In every franchise agreement the city shall reserve the right to require any other insurance coverage it deems necessary depending upon exposures. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-226. PERFORMANCE AND PAYMENT BONDS AND ADDITIONAL SECURITY.

(a) Every operator of a cable communications system shall obtain and maintain performance (as to the franchise) and payment (as to the work of the communication system facilities) bonds to ensure the faithful performance of its responsibilities under this ordinance and any franchise. The amount of the bonds shall be set by the CAO or may be set in a franchise ordinance in light of the nature of the work to be performed, but shall be at least the greater of the amount required by law or 10 per cent of the estimated cost of constructing or (in the case of existing systems) upgrading the system, and including a sufficient amount to cover the removal of facilities and/or restoration of city facilities within the right-of-way. The bonds are not in lieu of any additional bonds that may be required through the permitting process unless the city expressly agrees in writing. The bond shall be in a form acceptable to

the City Attorney and the City Risk Manager. Bonds must be obtained prior to the effective date of any franchise, transfer or franchise renewal, unless a franchise specifically provides otherwise.

(b) Every cable communications system operator shall establish and maintain a cash security fund or provide the city an irrevocable letter of credit benefiting the city in the amount of $500,000 to secure the payment of fees owed, to secure any other performance promised in a franchise, and to pay any taxes, fees or liens owed to the city. The letter of credit shall be in a form and with an institution acceptable to the City Controller and the City Attorney. Should the city draw upon the cash security fund or letter of credit, the cable communications system operator shall, within 14 days, restore the fund or the letter of credit to the full-required amount. This security fund/letter of credit may be waived or reduced by the CAO where it determines in its discretion that a particular franchisee's operations are sufficiently limited that a security fund/letter of credit is not necessary to secure the required performance. The city may from time to time require a franchisee to change the amount of the required security fund/letter of credit to reflect changed risks to the city and to the public, including delinquencies in taxes or other payments to the city. The cash security fund or letter of credit must be obtained prior to the effective date of any franchise, transfer or franchise renewal, unless a franchise specifically provides otherwise. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-227. ENFORCEMENT AND REMEDIES.

(a) In addition to remedies available under law, franchise and this article including penalties and liquidated damages imposed administratively, the Council may revoke a franchise or reduce the term of a franchise if it finds, after a hearing, that a cable communications system operator has violated this article or its franchise; has defrauded or attempted to defraud the city or subscribers; or has attempted to evade the requirements of this article or its franchise. Except as to violations that are impossible to cure, and as provided hereinafter, the franchise may only be revoked or shortened if the franchisee (i) was given notice of the default; and (ii) 30 days to cure the default; and (iii) the franchisee failed to cure the default, or to propose a schedule for curing the default acceptable to the city where it is impossible to cure the default in 30 days. The CAO may cause to be placed upon the agenda of a regular session of the Council his request for termination or reduction and in such case, the CAO shall cause to be served upon such grantee, at least five days prior to the date of such session of the Council, a written notice of his intent to request such termination or reduction at the time and place of such session. At such session of the Council, or at any adjournment thereof, the Council shall consider the request of the CAO, and shall hear any persons interested therein, and shall determine whether or not any such failure, refusal or neglect by grantee was with just cause. If the Council shall determine such failure, refusal or neglect by grantee was with just cause, it shall direct grantee to comply within such time and manner and upon such terms and conditions as the Council shall determine to be reasonable. If the Council shall determine such failure, refusal or neglect by grantee was without just cause, then the Council may pass its resolution declaring that the franchise of such grantee shall be terminated and forfeited, or reduced unless there be compliance by grantee within ten days,

and such resolution shall operate to declare such franchise terminated and forfeited or reduced on the tenth day next following the passage thereof, and without further notice to grantee, unless grantee shall so comply within such ten day period, such termination and forfeiture, or term reduction to become effective for all purposes one hundred eighty days thereafter. At any time after the effective date of such termination and forfeiture, and by operation of law, the city shall have the right, upon a finding by resolution of the Council that service is not being satisfactorily rendered to subscribers and without further notice or process, to enter and take possession of all properties, facilities, records and files of grantee, and to exercise all of the rights, privileges, powers, authorities and immunities of grantee, which are a part of the system of grantee, and to operate the system, and to provide the services thereof, in the same manner, and to the same extent, in all respects, as existed in grantee, and grantee shall not cause or permit any avoidance, hindrance, interference, or delay, in the exercise of such right by city. Within one hundred eighty days after such declaration of termination and forfeiture, and regardless of the exercise of any right of city hereunder, grantee may sell, remove, or (by means divesting grantee of all right, title, and interest) transfer the entire system of grantee, subject to the provisions of this article, and upon any such sale or transfer in addition to any other rights hereunder or otherwise, city shall have a lien (next in order of preference to any liens or encumbrances existing of record on the date of such termination and forfeiture) against any and all proceeds thereof, and against the system of grantee, in the full amount of any loss, cost, expense or other financial detriment incurred by city in the exercise of any right hereunder, or by reason of such termination and forfeiture. In the event grantee shall fail or refuse to sell, remove or transfer the entire system of grantee, as hereinabove provided, and regardless of the exercise of any other right of city hereunder, then by operation of law, all of the properties, facilities, records, files, rights, privileges, powers, authorities, and immunities of grantee, which are part of the system of grantee, shall become the property of the city, subject to any and all valid liens or encumbrances of record, and the system shall belong to the city; and grantee shall cause to be executed, acknowledged, and delivered to the city, upon demand therefor, such instruments as the City Attorney shall prescribe and approve, evidencing or affecting the ownership or control of any of the same in the city. In the event the system of grantee shall become the property of the city, as herein provided, then city may solicit and call for offers to purchase such system, by bid process; provided, that city may, in the manner provided in this article, solicit and call for offers and applications for franchise, and may specify, as a term and condition thereof, that any such offer and application shall include the purchase of such system from city. Nothing herein shall be construed to obligate or require city to exercise any right of city hereunder, and city shall at no time be obligated or required to undertake or assume the ownership or operation of any cable communication system, or to provide any cable communication service.

(b) No opportunity to cure is required for repeated violations, and fraud and attempted fraud shall be deemed incurable. Further, the city may declare a franchise forfeited without opportunity to cure where a franchisee (i) voluntarily stops providing service it is required to provide; (ii) transfers the franchise without the prior consent of the city.

(c) A franchise will terminate automatically by force of law 120 calendar days after an assignment for the benefit of creditors or the appointment of a receiver or trustee to take over

the business of the franchisee, whether in a receivership, reorganization, liquidation, bankruptcy assignment for the benefit of creditors, or other action or proceeding. However, the franchise may be reinstated by the city within that 120 day period, if: (i) such assignment, receivership or trusteeship has been vacated; or (ii) such assignee, receiver or trustee has fully complied with the terms and conditions of this article and the franchise, and has executed an agreement, approved by any court having jurisdiction, assuming and agreeing to be bound by the terms and conditions of this title and the franchise.

(d) In the event of foreclosure or other public or judicial sale of any of the facilities, equipment or property of a franchisee, the city may revoke the franchise following a public hearing before the Council by serving notice upon the franchisee and (if applicable) the successful bidder at the sale, in which event the franchise and all rights and privileges thereunder will be revoked and will terminate 30 calendar days after serving such notice, unless: (i) the city has approved the transfer of the franchise to the successful bidder in a manner consistent with this article; and (ii) the successful bidder has covenanted and agreed with the city to assume and be bound by the terms and conditions of the franchise and this article.

(e) Upon termination or forfeiture of a franchise, whether by action of the city as provided above, or by passage of time, the franchisee must stop using the cable communications system for the purposes authorized by the franchise. The city may take possession of some or all of franchisee's facilities, or require the franchisee or its bonding company to remove some or all of the franchisee's facilities from the city, and restore affected property to its same or better, condition. This provision does not permit the city to remove facilities that are used to provide another service for which the franchisee holds a valid franchise issued by the city.

(f) Remedies provided for under this article, or under a franchise shall be cumulative. Recovery by the city of any amounts under insurance, the performance bond, the security fund or letter of credit, does not limit a franchisee's duty to indemnify the city; or relieve a franchisee of its franchise obligations or limit the amounts owed to the city.

(g) A franchise granted pursuant to this article shall require the payment of administrative penalties and liquidated damages, in amounts and payable in the manner required by law, the city's master fee schedule and as specified in the franchise, for specified breaches of the franchise including but not limited to, failure to commence construction, failure to meet construction plan benchmarks, failure to comply with rebuild plan benchmarks, failure to commence service, and material breach of franchise obligation(s). Administrative penalties and liquidated damages shall be assessed only following a minimum 30 days written notice thereof, and subject to city's administrative appeal process. In no event shall administrative penalties exceed in the aggregate $5000 per day. The franchise shall also provide that the city may claim and/or setoff such penalties and liquidated damages owed from the franchisee's performance bond and security deposit. Penalties and liquidated damages shall commence on that date that performance was due and/or failed, and continue until the grantee demonstrates to the satisfaction of the city that the grantee has fully performed its obligations giving rise to the payment of penalties and liquidated damages. Franchisee's obligation to pay penalties and

liquidated damages does not in any way affect its obligation to pay franchise fees or perform other obligations in the franchise. Penalties and liquidated damages do not constitute franchise fees and are not subject to any limitations on franchise fees contained in 47 U.S.C. § 542(b). Penalties and liquidated damages paid by grantee are not costs of satisfying franchise requirements as provided in 47 C.F.R § 76.925. Grantee will not pass the cost of any penalties and liquidated damages to subscribers through subscriber rates or itemize or otherwise identify on subscriber bills any obligation grantee may have to pay penalties and liquidated damages.

(h) In fixing franchise administrative penalties the city shall be guided by the following principles:

(1) Penalties shall exceed the financial benefits to a franchisee delaying or failing to comply with the applicable requirement;

(2) Even where such benefits are not easily discernible, the penalties shall be high enough to have a significant deterrent effect on a Franchisee; and

(3) Penalties shall be sufficient to protect against loss of revenues resulting from violations. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-228. BOOKS AND RECORDS.

(a) Each cable communications system operator shall provide the city access to books and records related in whole or in part to the construction, operation, or repair of the cable communications system, or a group of systems of which the system is a part, so that the city may inspect and copy these books and records. The records include, but are not limited to revenue records, and other records related to compliance with any provision of this article or a franchise. A cable communications system operator is responsible for obtaining or maintaining the necessary possession or control of all such books and records, so that it can produce the documents upon request. Books and records must be maintained for a period of five years, except that a franchise may specify a shorter period for certain categories of voluminous books and records where the information contained therein can be derived simply from other materials. The phrase "books and records" shall be read expansively to include information in whatever format stored.

(b) Books and records requested shall be produced to the city by a time and at a location in the city designated by the CAO. However, if the requested books and records are too voluminous, or for security reasons cannot be copied and moved, then the franchisee may request that the inspection take place at some other location mutually agreed to by the city and the franchisee, provided that (i) the franchisee must make necessary arrangements for copying documents selected by the city after its review; and (ii) the franchisee must pay all travel and additional copying expenses incurred by the city (above those that would have been incurred had the documents been produced in the city) in inspecting those documents or having those documents inspected by its designee. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-229. REPORTS.

(a) The CAO may from time to time direct a franchisee to prepare reports and to submit those reports by a date certain, in a format prescribed by the Manager, in addition to those required by this article.

(b) Unless an exemption is granted by the CAO, within 45 days of the end of each calendar quarter, a franchisee shall submit a report to the city containing the following information:

(1) The number of service calls (calls requiring a truck roll) received during the prior quarter and the percentage of service calls compared to the subscriber base; and

(2) The total estimated hours of known outages as a percentage of total hours of operation. An outage is a loss of sound or video on any signal, or a significant deterioration of any signal affecting two or more subscribers.

(c) Unless an exemption is granted by the CAO, no later than ninety (90) days after the end of its fiscal year, a franchisee shall submit the following information:

(1) A fully audited or certified revenue report from the previous calendar year for the cable communications system, and a certified statement setting forth the computation of gross revenues used to calculate the franchise fee for the preceding year and a detailed explanation of the method of computation showing (i) gross revenues by category (e.g., basic, pay, pay-per-view, advertising, installation, equipment, late charges, miscellaneous, other); and (ii) what, if any, deductions were made from gross revenues in calculating the franchise fee (e.g., bad debt, credits and refunds), and the amount of each deduction.

(2) A report showing, for each applicable customer service standard, the franchisee's performance with respect to that standard for each quarter of the preceding year. In each case where franchisee concludes it did not comply fully, the franchisee will describe the corrective actions it is taking to assure future compliance. In addition, the report should identify the number and nature of all the customer service complaints received and an explanation of their dispositions.

(3) An ownership report, indicating all persons who at the time of filing control or own an interest in the franchisee of ten percent (10%) or more.

(d) Within 10 days of their receipt or (in the case of documents created by the operator or its affiliate) filing, a franchisee shall provide the city:

(1) Notices of deficiency or forfeiture related to the cable communication system; and

(2) Any voluntary or involuntary petition for protection under bankruptcy laws, or any order, judgment or discharge related to a bankruptcy proceeding involving the franchisee or by any person, partnership or corporation that owns or controls the franchisee directly or indirectly.

(e) The franchisee may be required to submit to the city copies of all pleadings, applications, notifications, communications and documents of any kind, submitted by the franchisee to, as well as copies of all decisions, correspondence and actions by, any federal, state and local

courts, regulatory agencies and other government bodies relating to its cable communication system operations within the franchise area. Franchisee shall submit such documents to the city no later than thirty (30) days after receipt of a city request. The franchisee hereby waives any right to claim confidential, privileged or proprietary rights to such documents unless such confidential rights have been "determined" to be confidential by a court or by the practices or decision of federal and state agencies. Such confidential data exempt from public disclosure shall be retained in confidence by the city and its authorized agents and shall not be made available for public inspection, to the extent allowed by law.

(f) The willful refusal or failure of the franchisee to file any of the reports reasonably required, or such other reports as the city reasonably may request, may be deemed a material breach of the franchise, and may subject the franchisee to all remedies, legal or equitable, which are available to the city under the franchise or otherwise. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-230. MAPS REQUIRED.

Each franchisee shall maintain accurate maps and improvement plans which show the location, size, and a general description of all facilities installed in the public rights-of-way and any power supply sources (including voltages and connections). Maps shall be based upon post-construction inspection to verify location. Each franchisee shall provide a map to the city showing the location of its facilities, in such detail and scale as may be directed by the city and update the map at least annually, and whenever the facility expands or is relocated. Copies of maps shall be provided in hard copy and on disk, in a commercially available electronic format specified by the City Engineer. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-231. OTHER RECORDS REQUIRED.

(a) Unless the CAO waives the requirement, a franchisee shall at all times maintain:

(1) Records of all complaints received their nature and resolution. The term "complaints" refers to complaints about any aspect of the franchisee's operations.

(2) Records of outages known to the Franchisee, their cause and duration.

(3) Records of service calls for repair and maintenance indicating the date and time service was requested, the date of acknowledgment and date and time service was scheduled (if it was scheduled), and the date and time service was provided, and (if different) the date and time the problem was solved.

(4) Records of installation/reconnection and requests for service extension, indicating date of request, date of acknowledgment, and the date and time service was extended.

(5) Records sufficient to show whether the franchisee has complied with each customer service standard that applies to it.

(b) The CAO may temporarily exempt any franchisee from the requirements of subsection (a) of this Section if the CAO determines that the requirement would be unduly burdensome or unnecessary, and that city and subscriber interests may be adequately protected in some other manner. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-232. PRIVACY.

A franchisee shall take all reasonable steps required so that it is able to provide reports, books and records to the city, including by providing appropriate subscriber privacy notices. Each franchisee shall be responsible for redacting data that applicable law prevents it from providing to the city. Nothing in this section shall be read to require a franchisee to violate state or federal subscriber privacy laws. (Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-233. SPECIAL REQUIREMENTS REGARDING SUBSCRIBER'S PRIVACY.

Except as required by federal or state law:

(a) The monitoring of any subscriber terminal without specific written authorization of the subscriber is prohibited. Franchisee shall be responsible for the protection of subscriber privacy, prohibiting the tapping and/or monitoring of cable, line, signal input device, or subscriber outlet or receiver for any purpose whatsoever, except franchisee may conduct tests of the functioning of the system where necessary in order to ensure proper maintenance of the system and to collect performance data for agencies regulating the quality of signal. Where critical information requires private communication, electronic signal scrambling techniques must be used.

(b) Listings of subscribers' names and addresses may not be sold or otherwise released for any purpose, nor any list which identifies, by name, subscriber viewing habits, to any person, agency, entity, for any purpose whatsoever, without specific written authorization of the individual subscriber.

(c) The grantee and the city shall maintain constant vigilance with regard to possible abuses of the right or privacy of any subscriber, resulting from any device or signal associated with the cable communications system. The grantee shall not place in any private residence any equipment capable of two-way communications without the written consent of the residents, and will not utilize the two-way communications capability of the system for subscriber surveillance of any kind without the written consent of the subscriber.

(d) No cable, line, wire, amplifier, converter, or other piece of equipment owned by the franchisee shall be attached to any residence or other property by the grantee without first securing the written permission of the owner or responsible occupant of any property involved. If such permission is later revoked whether by the original or a subsequent owner or responsible occupant, the grantee shall remove forthwith all of its equipment and promptly restore the property to as near to its original condition as possible.

(e) No polls or other two-way responses of subscribers shall be conducted unless the program of which the poll is a part shall contain an explicit disclosure of the nature, purpose and prospective use of the results of the poll. No commercial or other use of information of

subscriber viewing habits or patterns may be made and no release of such information shall be permitted without prior consent of the council or pursuant to rules and regulations duly adopted by the city.

(Added Ord. 2004-105, § 2, eff. 11-30-04).

SEC. 9-234. MISCELLANEOUS.

(a) The captions to sections throughout this article are intended solely to facilitate reading and reference to the sections and provisions of this article. Such captions shall not affect the meaning or interpretation of this article.

(b) Unless otherwise indicated, when the performance or doing of any act, duty, matter, or payment is required under this article or any franchise, and a period of time or duration for the fulfillment of doing thereof is prescribed and is fixed herein, the time shall be computed so as to exclude the first and include the last day of the prescribed or fixed period of time.

(c) If any term, condition, or provision of this article shall, to any extent, be held to be invalid or unenforceable by a valid order of any court or regulatory agency, the remainder hereof shall be valid in all other respects and continue to be effective. In the event of a subsequent change in applicable law so that the provision that had been held invalid is no longer invalid, said provision shall thereupon return to full force and effect without further action by the city and shall thereafter be binding on the franchisee and the city.

(d) Connections to cable system; use of antennae.

(1) To the extent consistent with federal law, subscribers shall have the right to attach VCR's, receivers, and other terminal equipment to a franchisee's cable system. Subscribers also shall have the right to use their own remote control devices and converters, and other similar equipment.

(2) A franchisee shall not, as a condition of providing service, require a subscriber or potential subscriber to remove any existing antenna, or disconnect an antenna except at the express direction of the subscriber or potential subscriber, or prohibit installation of a new antenna, provided that such antenna is connected with an appropriate device and complies with applicable law.

(e) Discrimination prohibited.

(1) A cable communications system operator shall not discriminate among persons or the city or take any retaliatory action against a person or the city because of that entity's exercise of any right it may have under federal, state, or local law, nor may the operator require a person the city to waive such rights as a condition of taking service.

(2) A cable communications system operator shall not refuse to employ, discharge from employment, or discriminate against any person in compensation or in terms, conditions, or privileges of employment because of race, color, creed, national origin, caste, indigeneity, sex, sexual orientation, age, disability, religion, ethnic background, or marital status.

A cable system operator shall comply with all federal, state, and local laws and regulations governing equal employment opportunities, and hiring practices, as the same may be amended from time to time.

(f) It shall be unlawful for any person, firm or corporation to make or use any unauthorized connection, whether physically, electrically, acoustically, inductively or otherwise, with any part of a franchised cable communication system within this city for the purpose of enabling himself or others to receive or use any television signal, radio signal, picture, program or sound, or other information or intelligence, without payment to the owner of said system or its lessee. It shall be unlawful for any person, without the consent of the owner, to willfully tamper with, remove or injure any cables, wires or equipment used for distribution of television signals, radio signals, pictures, programs or sound, or information or intelligence.

(g) Transitional provisions.

(1) The operator of any facility installed as of the effective date of this article, for which a franchise is required under this article, shall have three months from the effective date of this article to file one or more applications for a franchise. Any operator timely filing such an application under this section shall not be subject to a penalty for failure to have such a franchise so long as said application remains pending; provided, however, nothing herein shall relieve any cable communications system operator of any liability for its failure to obtain any permit or other authorization required under other provisions of Fresno Municipal Code, and nothing herein shall prevent the city from requiring removal of any facilities installed in violation of the Code.

(2) Any person holding an existing franchise for a cable communications system may continue to operate under the existing franchise to the conclusion of its present term and any additional period required by the Cable Act including section 626 thereof, with respect to those activities expressly authorized by the franchise; and provided further that, such Person shall be subject to the other provisions of this article to the extent permitted by law.

(3) Pending applications shall be subject to this article. A person with a pending application shall have 30 days from the effective date of this Title to submit additional information to comply with the requirements of this article governing applications.

(h) Extended Operation.

(1) Unless otherwise expressly provided in the franchise documents, upon the expiration, non-renewal, or revocation of a franchise, the city may require the franchisee to continue to operate the cable communication system for a defined period of time not to exceed twenty-four (24) months from the date of such expiration, non-renewal, or revocation. The franchisee shall, as trustee for its successor-in-interest, continue to operate the cable communication system under the terms and conditions of this article

and the franchise documents and to provide the regular cable service and any of the other services that may be provided at that time. The city shall be permitted to seek legal and equitable relief to enforce the provisions of this section.

(i) Every field representative of the franchisee shall be clearly identified on sight to the public as a representative of the franchisee. Every vehicle of the franchisee shall be similarly identified.

(j) The city may, with the permission of the relevant court or administrative tribunal, intervene in any suit or proceeding involving the cable communication system franchise to which the franchisee is party.

(k) Franchisee shall maintain throughout the term of the franchise, a local address for service of notices by mail.

(l) Within one hundred eighty days from and after the effective date of the ordinance awarding the franchise or franchise renewal, or within such extended period of time as the council in its discretion may authorize, the franchisee shall file with the city clerk copies of all contracts which it may have with all public utility companies, including but not limited to the SBC Communications Inc. and the Pacific Gas & Electric, whereby grantee is granted any right to use any of the property, equipment or facilities of such utility or utilities in the conduct of any operations pursuant to the franchise or franchise renewal awarded to said franchisee.

(m) The franchisee shall not, and shall prohibit any officer, agent, employee, contractor or subcontractor which it retains from, removing or trimming any tree or portion thereof (either above, at or below ground level), which is located within a public right-of-way without the prior written approval of the City Director of Public Works, consistent with the Fresno Municipal Code. Such consent may be given or withheld upon such terms and conditions as the Director of Public Works deems appropriate. Each franchisee shall be responsible for, shall indemnify, defend and hold harmless the city, and its officers, agents and employees from and against any and all damages arising out of or resulting from the removal, trimming, mutilation of or any injury to any tree or trees proximately caused by the franchisee or its officers, agents, employees, contractors or subcontractors.

(12) After performance of work, the state franchise holder shall restore such private and public property to a condition equal to or better than its condition prior to

construction. Any disturbance of landscaping, fencing, or other improvements upon private or public property shall, at the sole expense of the state franchise holder, be promptly repaired or restored (including replacement of such valuables as shrubbery and fencing) to the reasonable satisfaction of the property owner, in addition to the furnishing of camouflage plants on public property.

(13) Each state franchise holder, within 60 days after the expiration of each calendar year, shall file a report with the Director, which shall contain a street and highway map or maps of any convenient scale on which shall be plotted the location of the entire transmission and distribution system or systems covered by the report as of the last day of the calendar year, with the system or systems located in City highways indicated by distinctive coloration or symbols.

(g) Emergency Alert.

(1) Each state franchise holder shall comply with the emergency alert system requirements of the Federal Communications Commission in order that emergency messages may be distributed over the state franchise holder's network.

(2) To the extent consistent with California Public Utilities Code section 5880, each state franchisee shall provide the system capability to transmit an emergency alert signal to all participating subscribers, in the form of an emergency override capability to permit the City to interrupt and cablecast an audio message on all channels simultaneously in the event of a disaster or public emergency.

(h) Public, Educational and Government Access Channel Capacity, Interconnection, and Signal Carriage

(1) PEG Channel Capacity.

(i) A state franchisee that has been authorized by the California Public Utilities Commission to provide video service in the City shall designate and activate three PEG channels within three months from the date that the City requests that the state franchisee designate and activate these PEG channels. However, this three-month period shall be tolled for such a period, and only for such a period, during which the state franchisee's ability to designate or provide such PEG capacity is technically infeasible, as set forth in Sections 5870(a), 5870(c) and 5870(h) of the California Public Utilities Code.

(ii) A state franchisee shall provide an additional PEG channel when the standards set forth in Section 5870(d) of the California Public Utilities Code are satisfied by the City or any entity designated by the City to manage one or more of the PEG channels.

(2) PEG Support.

(i) Any state franchise holder operating within the City shall pay to the City, or if directed by the City, pay to the City's designated PEG provider a PEG fee equal to one percent (1%) of gross revenues.

(ii) The PEG support fee shall be used for PEG purposes that are consistent with state and federal law.

(iii) A state franchisee shall remit the PEG support fee to the City or to the City's designated PEG provider quarterly, within forty-five days after the end of each calendar quarter. Each payment made shall be accompanied by a report, detailing how the PEG support fee was calculated.

(iv) If a state franchisee fails to pay the PEG support fee when due, or underpays the proper amount due, the state franchisee shall pay a late payment charge at the rate per year equal to the highest prime lending rate during the period of delinquency, plus one percent (1%).

(3) PEG Carriage and Interconnection.

(i) As set forth in Sections 5870(b) and 5870(g)(3) of the California Public Utilities Code, state franchisees shall ensure that all PEG channels are receivable by all subscribers, whether they receive digital or analog service, or a combination thereof, without the need for any equipment other than that needed to receive the lowest cost tier of service. PEG access capacity provided by a state franchisee shall be of similar quality and functionality to that offered by commercial channels, shall be capable of carrying a National Television System Committee (NTSC) quality television signal, and shall be carried on the state franchisee's lowest cost tier of service. To the extent feasible, the PEG channels shall not be separated numerically from other channels carried on the lowest cost tier of service and the channel numbers for the PEG channels shall be the same channel numbers used by any incumbent cable operator, unless prohibited by federal law. After the initial designation of the PEG channel numbers, the channel numbers shall not be changed without the agreement of the City unless federal law requires the change.

(ii) As set forth in Section 5870(h) of the California Public Utilities Code, the holder of a state franchise and an incumbent cable operator shall negotiate in good faith to interconnect their networks for the purpose of providing PEG programming. If a state franchisee and an incumbent cable operator cannot reach a mutually acceptable interconnection agreement for PEG carriage, the City shall require the incumbent cable operator to allow the state franchisee to interconnect its network with the incumbent cable operator's network at a technically feasible point on the state franchisee's network as identified by the state franchisee. If no technically feasible point of interconnection is available, the state franchisee shall make interconnection available to each PEG channel originator programming a channel in the City and shall provide the facilities necessary for the interconnection. The cost of any interconnection shall be borne by the state franchisee requesting the interconnection unless otherwise agreed to by the parties.

(i) Notices.

(1) Each state franchise holder or applicant for a state franchise shall concurrently file with the City a complete copy of all applications, amendments to applications and notices

that the state franchise holder or applicant is required to file with the California Public Utilities Commission. Within 30 days of receipt, the CAO shall provide any appropriate comments to the Commission regarding an application or amendment to an application for a state franchise.

(2) Unless otherwise specified in this section, all notices or other documentation that a state franchise holder is required to provide to the City under this Section or the California Public Utilities Code shall be provided to both the City Manager and the City staff person in charge of cable and telecommunications, or their successors or designees.

(j) Existing Franchise(s).

(1) The City will retain authority, without change, over the City's current cable franchisee until such time as it no longer holds a City franchise, or is no longer operating under a current or expired City franchise.

(k) Severability.

(1) If any sentence, clause or phrase of this section is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this section. The City Council hereby declares that it would have passed this ordinance and adopted this section and each sentence, clause or phrase thereof, irrespective of the fact that any one or more subsections, sentences, clauses or phrases be declared invalid or unconstitutional.

(l) No Vested Rights.

(1) Nothing in the Section 9-235 shall be deemed as creating a vested right in the state franchise holder or its affiliates,

(m) Conflict of Law.

(1) In the event of any conflict between this terms and conditions of this Section 9-235 and the terms and conditions of DIVCA, the terms and conditions of DIVCA shall control and take precedence.

SEC. 9-407. DEFAULT.

Willful failure, refusal, or neglect by grantee to do or comply with any requirement or limitation herein, or any term or condition of any franchise issued hereunder, shall be sufficient cause for termination of any franchise by the city, as follows:

(a) Upon the continuing of any such failure, refusal, or neglect for a period of ten days next following written demand by the AEO that the grantee do or comply with any such requirement, limitation, term or condition, the CAO may cause to be placed upon the agenda of a regular session of the Council his request for termination of such franchise, and in such case, the CAO shall cause to be served upon such grantee, at least five days prior to the date of such session of the Council, a written notice of his intent to request such termination at the time and place of such session.

(b) At such session of the Council, or at any adjournment thereof, the Council shall consider the request of the CAO, and shall hear any persons interested therein, and shall determine whether or not any such failure, refusal or neglect by grantee was with just cause.

(c) If the Council shall determine such failure, refusal or neglect by grantee was with just cause, it shall direct grantee to comply within such time and manner and upon such terms and conditions as the Council shall determine to be reasonable.

(d) If the Council shall determine such failure, refusal or neglect by grantee was without just cause, then the Council may pass its resolution declaring that the franchise of such grantee shall be terminated and forfeited unless there be compliance by grantee within ten days, and such resolution shall operate to declare such franchise terminated and forfeited on the tenth day next following the passage thereof, and without further notice to grantee, unless grantee shall so comply within such ten-day period, such termination and forfeiture to become effective for all purposes one hundred eighty days thereafter.

(e) At any time after the effective date of such termination and forfeiture, and by operation of law, the city shall have the right, upon a finding by resolution of the Council that service is not being satisfactorily rendered to subscribers and without further notice or process, to enter and take possession of all properties, facilities, records and files of grantee, and to exercise all of the rights, privileges, powers, authorities and immunities of grantee, which are a part of the system of grantee, and to operate the system, and to provide the services thereof, in the same manner, and to the same extent, in all respects, as existed in grantee, and grantee shall not cause or permit any avoidance, hindrance, interference, or delay, in the exercise of such right by city.

(f) Within one hundred eighty days after such declaration of termination and forfeiture, and regardless of the exercise of any right of city hereunder, grantee may sell, remove, or (by means divesting grantee of all right, title, and interest) transfer the entire system of grantee. Upon any such sale or transfer in addition to any other rights hereunder or otherwise, city shall have a lien (next in order of preference to any liens or encumbrances existing of record on the date of such termination and forfeiture) against any and all proceeds thereof, and against the system of grantee, in the full amount of any loss, cost, expense or other financial detriment incurred by city in the exercise of any right hereunder, or by reason of such termination and forfeiture.

(g) In the event grantee shall fail or refuse to sell, remove or transfer the entire system of grantee, as hereinabove provided, and regardless of the exercise of any other right of city hereunder, then by operation of law, all of the properties, facilities, records, files, rights, privileges, powers, authorities, and immunities of grantee, which are part of the system of grantee, shall become the property of the city, subject to any and all valid liens or encumbrances of record, and the system shall belong to the city, upon demand therefor, such instruments as the City Attorney shall prescribe and approve, evidencing or affecting the ownership or control of any of the same in the city.

(h) In the event the system of grantee shall become the property of the city, as herein provided, then city may solicit and call for offers to purchase such system by bid process.

(i) Nothing herein shall be construed to obligate or require city to exercise any right of city hereunder, and city shall at no time be obligated or required to undertake or assume the ownership or operation of any system or to provide any service. (Added Ord. 79-174, § 1, eff. 11-30-79).

SEC. 9-408. VALIDITY.

If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be invalid, such holding or holdings shall not affect the validity of the remaining portions of this ordinance. It shall be the duty of the person whose merchandise is thus being sold at public auction to give each and every purchaser of an article, the selling price of which amounts to or exceeds the sum of two dollars and fifty cents ($2.50) an invoice containing a full description of the article, the selling price thereof together with a statement giving each and every warranty under which the article was sold. Duplicate copies of each invoice shall be kept. (Orig. Ord. 1911).

SEC. 9-807. MANDATORY REVOCATION OF PUBLIC AUCTION OR JEWELRY AUCTION PERMIT.

The Controller shall revoke the applicant's auction permit upon violation of this article, and it shall thereafter be unlawful for any such person to conduct any auction sale unless he applies for and procures a new auction permit. The applicant shall pay the city the amount designated in the Master Fee Resolution for each day or fraction thereof that the representative of the Controller is engaged in the foregoing investigation. (d) If the city manager concludes that the applicant meets the requirements of this article, the city manager shall issue the taxicab driver's permit. Any taxicab driver's permit issued/renewed shall be subject to such terms, conditions or restrictions on the taxicab driver permit as the city manager deems necessary to provide adequate and dependable service to the public and to protect the use of public streets and facilities, including without limitation the following conditions and requirements:

(1) The city manager may, upon reasonable cause, require any taxicab driver permittee to take a controlled substance and/or alcohol test in accordance with Government Code Section 53075.5. Such test shall be taken by driver within five days (5) after city manager gives notice of the requirement. Notice shall be given to permittee, and to permittee's employer if permittee is not self-employed. Notice shall be deemed effective upon depositing said notice in the U.S. mail first class postage prepaid addressed to the permittee and permittee's employer, if applicable, at the last address on record with the city manager. Failure to take the test within the time specified shall result in automatic suspension of the permittee's taxicab driver permit and shall be grounds for revocation of the permit.

(2) The applicant's photograph shall be permanently attached to the taxicab driver's permit. The taxicab driver's permit shall be posted in a place conspicuous from the passenger's compartment of the taxicab.

(3) All employers shall maintain, and all drivers shall comply with a mandatory controlled substance and alcohol testing certification program. The program shall include, but need not be limited to, all of the following requirements:

A. Drivers shall test negative for each of the controlled substances specified in Part 40 (commencing with Section 40.1) of Title 49 of the Code of Federal

Regulations. Drivers shall test negative for these controlled substances and for alcohol as a condition of permit issuance/renewal and at such other times as the city manager shall designate. As used in this section, a negative test for alcohol means an alcohol screening test showing a breath alcohol concentration of less than 0.02 percent.

B. Procedures shall be substantially as in Part 40 (commencing with Section 40.1) of Title 49 of the Code of Federal Regulations, except that the driver shall show a valid California driver's license at the time and place of testing, and except as provided otherwise in this section. Requirements for rehabilitation and for return-to-duty and follow up testing and other requirements, except as provided otherwise in this section, shall be substantially as in Part 382 (commencing with Section 382.101) of Title 49 of the Code of Federal Regulations.

C. A test in one jurisdiction shall be accepted as meeting the same requirement in any other jurisdiction. Any negative test result shall be accepted for one year as meeting a requirement for periodic permit renewal testing or any other periodic testing in that jurisdiction or any other jurisdiction, if the driver has not tested positive subsequent to a negative result. However, an earlier negative result shall not be accepted as meeting the pre-employment testing requirement for any subsequent employment, or any testing requirements under the program other than periodic testing.

D. In the case of a self-employed independent driver, the test results shall be reported directly to the city, which shall notify the taxicab leasing company of record, if any, of positive results. In all other cases, the results shall be reported directly to the employing transportation operator, who shall be required to notify the city of positive results.

E. All test results are confidential and shall not be released without the consent of the driver, except as authorized or required by law.

F. Self-employed independent drivers shall be responsible for compliance with, and shall pay all costs of, this program with regard to themselves. Employing transportation operators shall be responsible for compliance with, and shall pay all costs of, this program with respect to their employees and potential employees, except that an operator may require employees who test positive to pay the costs of rehabilitation and of return-to-duty and follow up testing.

(4) Upon the request of a driver applying for a permit, the city shall give the driver a list of the consortia certified pursuant to Part 382 (commencing with Section 382.101) of Title 49 of the Code of Federal Regulations that the city knows offer tests in or near the jurisdiction.

(5) No evidence derived from a positive test result pursuant to the program shall be admissible in a criminal prosecution concerning unlawful possession, sale or distribution of controlled substances.

The Chief of Police shall place no calls for an ambulance having a driver or attendant who does not meet the requisites of this subsection.

(g) The ambulance service shall furnish a certificate of liability insurance coverage naming the City of Fresno as an insured, insuring it in the amount of $100,000/$300,000 public liability and $100,000 property damage, against any liability which it may incur in connection with its request or requests for ambulance service and in connection with the furnishing of any such service by the person or persons dispatched on the call. The ambulance service shall agree to save and hold the city harmless from any and all claims, actions, or causes of action, of whatever nature, arising out of or in any way connected with the requesting of ambulance service by the city, or the furnishing of the same by the ambulance service, except those arising out of acts or omissions of the city or its employees and not involving an act or omission of the ambulance service.

(h) All added or substituted ambulances shall be reported to the Chief of Police, together with a ten dollar fee for each ambulance. All changes in personnel shall also be reported. All information required by Section 9-1704 shall be supplied.

(i) The Council shall, from time to time, but not less frequently than every two years, by resolution, fix the maximum fees to be charged by ambulance services for any services provided by such ambulance service within the city limits. A change in such maximum fee schedule may be considered, provided, that a request for such change is submitted, in writing, by an approved registrant in good standing, to the Chief Administrative Officer who shall conduct a hearing on such request and shall submit his findings and recommendations to the Council.

(j) When an ambulance from more than one ambulance service, whether or not the service is registered under this article, arrives at the scene of an accident or injury, any police officer at the scene may in his discretion decide which ambulance shall serve the call; and no cause of action shall arise in any person because of his choice of ambulance.

(k) All registrations issued in accordance with this article shall be valid for a period of twelve months from the date of issuance.

(l) Any duties imposed by this article upon the Chief of Police may be delegated by him, upon approval by the Chief Administrative Officer, to the Fire Chief or, as to the duty to dispatch ambulance service only, to any county official having the responsibility for the dispatching of ambulances. (Added Ord. 70-45, 1970; Am. Ord. 75-102, §§ 2—4, eff. 10-9-75).

SEC. 9-1507. GROUNDS FOR DENYING RENEWAL.

Any ambulance service renewal may be denied when any grounds exist which would have been a ground for refusal to issue the registration, or when there has been a violation of any of the terms of this article or rules promulgated pursuant thereto, or when the registrant's service to the public is so inadequate or inefficient that, in the exercise of reasonable judgment, it appears that it amounts to a disservice to the public, or when in the case of an ambulance service, the service is bankrupt or so insolvent that, in the exercise of reasonable judgment, it appears likely that registrant will provide inadequate ambulance service. (Added Ord. 2003-67, §§ 7, 30, eff. 8-31-03).

SEC. 9-1508. APPEAL.

Any person denied registration or renewal of registration upon application therefor, may appeal the decision of the Chief of Police under Chapter 1, Article 4. Whenever an appeal is available under this article and no appeal is filed within the time prescribed, the action of the Chief of Police shall be final. (Added Ord. 70-45, 1970; Am. Ord. 75-102, § 6, eff. 10-9-75; Am. Ord. 88-8, § 7, eff. 2-12-88; Am. Ord. 98-65, § 10, eff. 10-1-98; Am. Ord. 2003-67, § 22, eff. 8-31-03; Am. Ord. 2005-14, § 27, eff. 4-9-05).

SEC. 9-1509. DISPATCH OF AMBULANCES.

(a) Whenever the Police Department receives a request for the dispatch of an ambulance it shall dispatch the ambulances in conformance with this section.

(b) Registrants shall be called upon a formula or formulas based upon the number of ambulances available for service by the registrant's service. An ambulance available for service is one which has a crew of at least two persons with the ambulance and which is ready at that time to be dispatched. The formula or formulas shall be devised to alternate, as much as possible considering the number of vehicles of each applicant, between the various registrants, i.e., the call shall alternate between services but an applicant with three ambulances will be called three times while a registrant with five ambulances will be called five times, etc.

(c) Notwithstanding the above, should the Police Department receive information that a particular ambulance or ambulance service is not available on any particular call, or the estimated time of arrival at the scene is excessive, the next ambulance on the rotation list may be called. (Added Ord. 70-45, 1970; Am. Ord. 73-155, eff. 2-15-74; Am. Ord. 74-21, eff. 2-15-74).

SEC. 9-2101. TITLE.

This article shall be known as the City of Fresno Card Room Ordinance.
(Added Ord. 94-50, § 2, eff. 8-19-94).

SEC. 9-2102. FINDINGS.

The Council finds and determines as follows:

(a) That the city's current card room ordinance as set forth in Sections 8-101 through 8-106.5 of the Fresno Municipal Code* needs to be replaced by an ordinance that expands permitted games, authorizes an increase in the number of card tables permitted at any one address, limits the number of card rooms, contains strict regulations in time, place, and manner for operation of card rooms, and allows the city to receive revenues from the operation of such card rooms.

(b) That an ordinance closely regulating card room operations within the City of Fresno is necessary to protect the interest of the citizens of Fresno.

(c) That any card room, if permitted, shall be confined to certain zoning districts as identified in Chapter 15, the Citywide Development Code.

(d) That the city's continued limitations on the number and location of card room operations will minimize any detrimental effect from the physical presence of card rooms in the city.

(e) That due to social problems inherent in legal gaming activities, based on the foregoing findings and for the welfare of the community, said ordinance shall permit not more than 51 card tables within the City. No card room shall have less than ten card tables per card room or more than 51 card tables per card room. No temporary gaming tables will be permitted in a cardroom for any purpose including, but not limited to, instruction, special events or tournaments.

(Added Ord. 94-50, § 2, eff. 8-19-94; Am. Ord. 98-39, § 1, eff. 7-20-98; Am. Ord. 2003-51, § 1, eff. 7-28-03; Am. Ord. 2012-16, § 1, eff. 9-2-12; Am. Ord. 2021-004, § 1, eff. 3-7-21).

(b) **Circumstances to be considered.** Among the circumstances that may be considered in determining whether a person has violated this Section based upon the knowledge and personal observations of the arresting officer, are the following:

(2) The person engages in the act of beckoning or behaves in a manner as to raise reasonable suspicion that he or she is seeking to engage in, is about to engage in, or is engaged in soliciting an act of prostitution. The City Council of the City of Fresno hereby declares that it would have passed this section and each subsection, sentence, clause and phrase thereof, irrespective of the fact that one or more of the subsections, sentences, clauses or phrases may be held invalid or unconstitutional.

(f) The Council finds and determines that:

(1) Violent crime in this community is and continues to escalate at an alarming rate. The citizens of this community are violently victimized and intimidated by individuals who have embraced a criminal life-style which has no place in a civilized society.

(2) The presence of illegal activity, and in particular, prostitution fosters an environment that attracts crime, degrades the quality of life in neighborhoods by creating visual blight, health hazards to our youth and others in the presence of used contraceptives and other trash and rubbish, and impacts the business community by turning away potential customers from the places of business within the area where prostitutes congregate to sell their services.

(3) It is a legitimate need of the City of Fresno to address problems inimical to the health, safety and welfare of the community and loitering with the intent to commit illegal acts is such a problem.

(b) **Circumstances.** Among the circumstances that may be considered in determining whether a person has violated this ordinance based upon the knowledge and personal observations of the arresting officer, are the following:

(1) The person is a known unlawful drug user, possessor, or seller.

The method of identification may include, but is not limited to, the wearing of distinctive clothing or insignias.

(6) The person attempts to conceal himself or herself from the observation of the arresting officer or conceals or disposes of any object which reasonably could be involved in the conduct of any unlawful drug activity.

(c) **Severability.** If any subsection, sentence, clause or phrase of this section is for any reason held by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this section. The Council of the City of Fresno hereby declares that it would have passed this section and each subsection, sentence, clause and phrase thereof, irrespective of the fact that one or more of the subsections, sentences, clauses or phrases may be held invalid or unconstitutional.

(d) The Council finds and determines that:

(1) Violent crime in this community is and continues to escalate at an alarming rate. The citizens of this community are violently victimized and intimidated by individuals who have embraced a criminal life-style which has no place in a civilized society.

(2) The presence of illegal activity, and in particular, unlawful drug activity, fosters an environment that attracts crime, degrades the quality of life in neighborhoods by creating visual blight, health hazards to our youth and others in the presence of used hypodermic syringes, discarded dangerous drugs, and other trash and rubbish, and impacts the business community by turning away potential customers from the places of business within the area where drug dealers, drug users and purchasers congregate to sell, consume and purchase drugs.

(3) It is a legitimate need of the City of Fresno to address problems inimical to the health, safety and welfare of the community and loitering with the intent to commit certain illegal acts is such a problem.

(4) The Council desires to enhance the ability of law enforcement to curtail the environment which is conducive to criminal activity from the streets of this

SEC. 9-2507. EXPOSURE OF MINORS TO TOBACCO PRODUCTS.

(a) **Declaration:**

The Council of the City of Fresno finds and declares that reducing and eventually eliminating the illegal purchase and consumption of tobacco products by minors is critical to ensuring the long-term health of the citizens of this city. The Council further finds and declares selfservice tobacco displays may contribute to youth use of tobacco by promoting shoplifting and illegal sales. More than 188 cities in Arizona, California, Colorado, Kansas, Maine, Massachusetts, Michigan, Minnesota, New Jersey, New York, North Dakota, Oregon, Pennsylvania, Texas, Utah and Wisconsin have successfully adopted ordinances banning selfservice tobacco displays. It is believed that such ordinances have successfully reduced shoplifting of tobacco by minors and sales of tobacco to minors. In order to protect the health, safety and welfare of minors from the health risks of tobacco use, to minimize the exposure by minors to tobacco products and to prevent minors from breaking existing laws by purchasing, stealing or possessing tobacco products, the Council of the City of Fresno adopts this ordinance.

(b) **Definitions:**

(1) "Employee" means any person in the service of another under any contract of hire, express or implied, oral or written, where the employer has the power or right to

control and direct the employee in the material details of how the work is to be performed. Employee also includes any person volunteering his or her time or service.

(2) "Minor" means any person under 21 years of age.

(3) "Tobacco Product" means any tobacco, cigarette, cigar, pipe tobacco, smokeless tobacco, snuff or any other form of tobacco, which may be utilized for smoking, chewing, inhaling, snuffing or other manner of ingestion or absorption in the human body.

(c) **Use of Tobacco By Minor.** No minor shall, in the streets, or in any public place, smoke a cigar, pipe, cigarette or shall use tobacco in any form.

(d) **Display of Tobacco Products.** It shall be unlawful for any person, firm, corporation, business, partnership or other entity doing business within the City of Fresno to store, stock, keep or display for sale or transfer any tobacco product in an area other than a place that is locked and secured or is otherwise made unavailable to the public and which is accessible only to the employees of the business. This prohibition shall not apply to "Tobacco Shops."

(Orig. Ord. 1076; Am. Ord. 99-11, § 1, eff. 6-16-99; Am. Ord. 2025-057, § 1, eff. 1-30-26).

No person under the age of eighteen years shall loiter, idle, wander, stroll or play in or upon the public streets, highways, roads, alleys, parks, playgrounds or other public grounds, public places and public buildings, places of amusement and eating places, vacant lots or any unsupervised place between the hours of 10:00 p.m. and 5:00 a.m. of the following day. The provisions of this section do not apply when the minor is accompanied by his or her parent, guardian or other adult person having the care and custody of the minor, or when the minor is upon an emergency errand directed by his or her parent, guardian or other adult person having the care and custody of the minor, or when the minor is returning directly home from a meeting, entertainment, recreational activity or dance. For a violation of Section 9-2507, the City of Fresno may recover its administrative costs for processing violators of said Code section as follows:

(a) A law enforcement officer is authorized to temporarily detain any minor upon a reasonable suspicion based on articulable facts that the minor is in violation of Section 9-2507 and to transport that minor to his or her permanent or temporary residence within the State whether the place of residence is located within or without the City of Fresno, or to the custody of his or her parents or legal guardian. A law enforcement officer may decide not to temporarily detain and transport a minor if he or she determines that the minor has a legitimate reason based on extenuating circumstances for violating the ordinance.

(b) Upon the first violation of Section 9-2507, the law enforcement officer shall issue to the minor a warning citation regarding the consequences of a second violation of said section. A designated representative of the city shall mail to the parents or legal guardian of the minor a notification that states that upon a second violation and every violation thereafter, the parents or legal guardian may be held liable for actual administrative and transportation costs, and that requires the parents or legal guardian to sign and return the notification. This

notification shall include a space for the explanation of any circumstances relevant to an applicable exemption from the fee as provided in subsection (d) below. This explanation shall be reviewed by a designated representative of the city. If the explanation is found to be insufficient, the representative may request a consultation with the parents or legal guardian for the purpose of discussing the circumstances claimed to be relevant to an applicable exemption.

(c) A fee for the actual costs of administrative and transportation services for the return of the minor to his or her place of residence, or to the custody of his or her parents or legal guardian may be charged jointly or severally to the minor, his or her parents, legal guardian, in an amount not to exceed those actual costs.

(d) Upon petition of the person required to pay the fee, the city shall conduct a hearing as to the validity of the fees charged, and may waive payment of the fee by the minor, his or her parents or legal guardian, upon a finding of good cause. If authorized by the Council of the City of Fresno, the city may charge this fee, in which case the city may:

(1) Provide for a waiver of the payment of the fee by the parents or legal guardian upon a determination that the person has made reasonable efforts to exercise supervision and control over the minor.

(2) Provide for a determination of the ability to pay the fee and provide that the fee may be waived if neither the minor or parents or legal guardian has the ability to pay the fee.

(3) Provide for the performance of community service in lieu of imposition of the fee, and

(4) Provide for waiver of payment of the fee by the parents or legal guardian upon the determination that the parents or legal guardian has limited physical or legal custody and control of the minor.

(e) The fees set forth herein shall be established annually by the Council in the Master Fee Schedule designated in the Master Fee Resolution. Said fees shall be based on the costs reasonably borne as set forth herein. All other procedures including the establishment of a hearing officer and procedures for the hearings and other administrative steps herein shall be established by resolution of the Council of the City of Fresno.

(f) The remedy in this Section 9-2508 is cumulative and does not preclude other remedies under the Fresno Municipal Code or other State, federal and local laws. Nothing herein shall preclude the city from seeking other legal or equitable remedies available to it by law.

(g) The provisions of this section shall be considered cumulative to all other laws, rules and regulations regulating curfew violations and other similar offenses. (Added Ord. 94-105, § 1, eff. 12-2-94).

The City of Fresno is authorized to use City funds to remove graffiti or other inscribed material from publicly or privately owned real or personal property located within the City and to replace or repair public or privately owned property within the City that has been defaced with graffiti or other inscribed material that cannot be removed cost effectively. Only the graffiti or inscribed material itself shall be removed unless the graffiti or inscribed material cannot be removed cost effectively, then repair or replacement of the portion of the property that was defaced is permissible. The removal, repair or replacement may be performed in the case of publicly owned real or personal property, only after securing the consent of the public entity having jurisdiction over the property, and in the case of privately owned real or personal property, only after securing the consent of the owner or possessor.

(i) Liability for Expense of Abatement.

Such criminal activities include but are not limited to, crimes involving participation in gangs and gang violence, crimes against property such as graffiti and other vandalism, burglary and theft, and involvement with illegal drugs and alcohol. In addition others become victims of criminal activity during these hours.

(2) Council further finds that similar ordinances have been highly effective in other communities in reducing daytime criminal activity both by and against minors.

(3) It is the intent of the Council in adopting this ordinance to provide law enforcement with an additional enforcement tool to protect the health, safety and welfare of minors under the age of eighteen and of the general public.

(b) It is unlawful for any minor between the ages of twelve and seventeen years inclusive, who is subject to compulsory education or to compulsory continuation education, to be in or upon any public street, highway, road, alley, park, playground, public place, public building, place of amusement, eating establishment, business open to the public, or vacant lots on days and at times when said minor's school is in session. This section does not apply:

(1) When the minor is accompanied by his or her parent, guardian, or other adult person designated by the minor's parent or guardian to have the care or custody of the minor; or

(2) When the minor is on an emergency errand directed by his or her parent or guardian or other adult person designated by the minor's parent or guardian to have the care or custody of the minor; or

(4) To any minor who has permission to leave school campus for lunch, a school related activity or other authorized activity to be off campus and has in his or her possession a valid, school-issued off campus permit; or

(5) When the minor is authorized to be absent from his or her school pursuant to the provisions of California Education Code Section 48205, and any amendment thereof, or any other applicable state or federal law; or

(c) It is unlawful for any parent or guardian of a minor knowingly to permit, or by insufficient control to allow, the minor to be absent from school in violation of this section.

(d) Before taking any enforcement action under this section, a peace officer shall ask the apparent offender's age and reason for being absent from school. The officer shall not take action under this section unless the officer reasonably believes that an offense has occurred and that, no exception under subdivisions (1) through (6) of subsection (b) exists.

(e) A minor detained for a first violation of this section shall receive a warning notification advising the minor that a subsequent violation of this section within the same school year for which the violation notification has been issued may result in punishment as provided for in subsection (f) below and the procedures as provided for in subsections (g) and (h) of this section.

(g) Parental Obligation to Attend Hearing. A minor cited for a violation of this section shall be cited to attend a hearing before a Juvenile Hearing Officer. The notice of the hearing shall include notice of subsection (h) below wherein the penalty may be set aside for a second violation. The minor must attend the hearing on the violation and must be accompanied by his or her parent or guardian. If the minor's parent or guardian fails to attend the hearing with the minor, unless the interests of justice would be served, the hearing shall be continued and the court may issue a citation to said parent or guardian directing said person to appear at the continued hearing with the minor. Failure of said parent or guardian to appear at the continued hearing with the minor shall constitute a misdemeanor.

(h) Fine May be Set Aside. A fine imposed for any violation of this section, or any portion thereof may be set aside, if the fine is based upon the minor's second violation under this section and provided that the minor produce proof satisfactory to the court that the following has occurred by or before the court hearing:

SEC. 9-2602. PUBLIC NUDITY PROHIBITED.

(a) **Findings.** The Council finds and determines that:

(1) Public nudity is degrading to the moral fiber of the City of Fresno and to our minor youth.

(2) Public nudity fosters an environment that attracts crime, degrades the quality of life in neighborhoods by creating visual blight and health hazards by attracting prostitutes and drug dealers to areas where public nudity occurs.

(3) It is necessary for this Code to address the issue of minors who would be permitted to frequent strip clubs and other establishments who restrict nude dancing to less than twenty-five percent (25%) of a given dance performance.

(4) Citizens of the City of Fresno including minors may be involuntarily subjected to nudity on public streets and in other public places.

(b) **Definitions.** Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning, and application of words and phrases used in this section, and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 2 of Chapter 1 of this Code shall also govern the construction, meaning, and application of words and phrases used in this section. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(1) "Nudity" means the showing, with less than a fully opaque covering, of any of the following: the human male or female genitals, pubic hair, pubic area, any portion of the anal cleft or cleavage of the buttocks, and the portion of the human female breast directly and laterally below a point immediately above the top of the areola except as necessary to breast-feed an infant under five years of age. The covering of the female breast shall include the entire lower portion of the breast, but shall not include any portion of the cleavage of the breast, exhibited by a dress, blouse, shirt, leotard, bathing suit, or other clothing, provided the areola is not exposed.

(2) "Public Place" means any location frequented by the public, or where the public is present or likely to be present, or where a person may reasonably be expected to be observed by members of the public. Public places include, but are not limited to, streets, sidewalks, parks, business and commercial establishments (whether for profit or not for profit, whether open to the public at large, or whether entrance is limited by a cover charge or membership requirements).

(3) "Place Provided or Set Aside for Nudity" means (i) single sex public restrooms, unisex bathrooms which are only to be occupied by members of one sex at a time, single sex public showers, single sex locker rooms, and single sex dressing room facilities, none of which allow visual observation of persons in a state of undress from outside the facility; (ii) enclosed motel rooms and hotel rooms designed and intended for sleeping accommodations, medical offices, hospitals and similar places in which nudity or exposure is necessarily and customarily expected outside of the home and its sphere of privacy; and (iii) areas of a private residence where people have a reasonable expectancy of privacy.

(4) The term "Place Provided or Set Aside for Nudity" shall not be deemed to include places where a person's conduct of being nude is used for his or her profit or the profit of third parties.

(5) "Theater, concert hall or auditorium devoted to theatrical performances" means a building, playhouse, room, hall or other place having fixed seats so arranged that a body of spectators can have an unobstructed view of a stage upon which constitutionally protected theatrical performances or similar form of artistic expression are presented.

(c) It is unlawful for any person to knowingly or intentionally appear nude in a public place or in any other place that is readily visible to the public, except a place provided or set aside for nudity. It shall also be unlawful for any person or entity maintaining, owning, or operating any public place to knowingly, or with reason to know, permit or allow any person to appear nude in such public place, except a place provided or set aside for nudity. This subsection shall not apply to children under of thirteen years of age.

(d) In the event that subsection (c) is determined by a court of competent jurisdiction to be invalid, preempted, or unconstitutional, persons under the age of eighteen years shall be prohibited from attending or being present during any live performances where any person appears nude during any part of the performance unless the minor is accompanied by a parent or legal guardian.

(e) This section shall not apply to existing businesses which have previously been granted a conditional use permit which allows live nude entertainment in accordance with this Code's requirements for adult use businesses. This section shall also not apply to new adult oriented uses that are regulated and in compliance with Chapter 15-2705.

(f) This section shall not apply to constitutionally protected theatrical performances or similar forms of artistic expression performed in theaters, concert halls, or auditoriums devoted to theatrical performances.

(g) This section shall not apply to any act prohibited by state or federal law, or the prohibition of which is preempted by state or federal law.

(h) A violation of this section shall be enforced as set forth in Section 1-304 of this Code.

(i) **Severability.** If any subsection, sentence, clause, phrase, or term of this section is for any reason held by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this section. The City Council of the City of Fresno hereby declares that it would have passed this section and each subsection, sentence, clause and phrase thereof, irrespective of the fact that one or more of the subsections, sentences, clauses or phrases may be held invalid or unconstitutional.

(Orig. Ord. 3390).

SEC. 9-2608. AGGRESSIVE AND ABUSIVE SOLICITATIONS; SOLICITATIONS IN PROHIBITED PLACES.

(a) **Findings.** The Council finds and determines as follows:

(1) The maintenance and improvement of the quality of life and economic vitality of the City of Fresno are significant government interests.

(2) The protection of the Citizens of the City of Fresno from the danger of assault, battery, theft, and disturbances of the peace, as well as other crimes, is also a significant government interest.

(3) Aggressive and abusive solicitations threaten these significant government interests by diminishing access to and enjoyment of public places, threatening the commercial well being of local businesses, and creating an environment of fear, intimidation, and confrontation.

(4) Solicitations in certain sensitive places also threaten these significant government interests. Such solicitations also diminish access to and enjoyment of public places, threaten the commercial well being of local businesses, and create an environment of fear, intimidation, and confrontation.

(5) Citizens of the City of Fresno are involuntarily subjected to aggressive and abusive solicitations for monetary or other donations, causing them to feel threatened, intimidated, and coerced. Such conduct usually includes approaching and following persons, repeated requests for donations, unwanted physical contact, abusive language and threats, and obstruction of pedestrian and vehicular traffic.

(6) Citizens of the City of Fresno are involuntarily subjected to coercion, intimidation and fear in certain places, including public parking lots, ATM's, lines of people, outdoor dining areas, and other areas where they are a "captive audience" and thus feel less able to decline a solicitor's request.

(7) Aggressive and abusive solicitations increase the risk of assault, battery, theft, disturbing the peace, and other crimes. Such solicitations can provoke confrontations due to the threatening and offensive nature of the conduct of the solicitor. These situations put not only the solicited person, but also the solicitor, at risk of being the victim of assaultive and criminal conduct.

(8) Solicitations in certain sensitive places also increase the risk of assault, battery, theft, disturbing the peace, and other crimes. Such solicitations can lead to confrontations due to the heightened sense of susceptibility of the person solicited. These situations put the solicited person and the solicitor at risk of being the victim of assaultive and criminal conduct.

(9) The content-neutral time, place and manner restrictions on aggressive and abusive solicitations as narrowly tailored in this article serve these significant government interests. Such restrictions will lessen feelings of coercion, intimidation, fear, and confrontation by prohibiting that conduct most likely to create such feelings.

(10) Restricting all solicitations in certain sensitive areas will enhance the feeling of security and peace of mind of persons in those areas. The restrictions in this article leave open ample alternative avenues of communication and these restrictions are not intended to diminish the freedom or liberty of speech guaranteed under the United States and California Constitutions.

(11) It is not the intent or purpose of the Council in enacting this article to eradicate or displace any individual or group of homeless or indigent persons, but rather to protect the public from those persons, indigent or otherwise, who engage in aggressive and abusive solicitations, and/or who solicit in certain narrowly-defined areas of heightened sensitivity.

(b) **Definitions.** For the purposes of this section, the following definitions shall apply:

(1) "Solicitation" means any request, by words or physical gesture, made in person seeking an immediate donation or contribution of money or other item of value. Purchase of an item for an amount far exceeding its value, under circumstances where a reasonable person would understand that the purchase is in substance a donation or contribution, is a donation or contribution for the purposes of this section. A person is not soliciting, for the purposes of this section, when he or she passively displays a sign or gives any other indication he or she is seeking donations or contributions, and when he or she does not address the solicitation to any specific person other than in response to an inquiry by that person.

(2) "Solicitation in an aggressive or abusive manner" means solicitation via any of the following acts or conduct:

(i) Intentionally coming within three feet of a solicited person unless and until that person has indicated, by word or conduct, he or she wishes to make a donation;

(ii) Intentionally blocking the path or impeding the passage of a solicited person;

(iii) Intentionally following behind, beside or in front of a solicited person after that person has indicated, by word or conduct, he or she does not wish to make a donation;

(iv) Continuing to request a donation from a solicited person after that person has indicated, by word or conduct, he or she does not wish to make a donation;

(v) Approaching a solicited person when that person is entering or exiting a motor vehicle or assisting another in doing so;

(vi) Rendering any service to a motor vehicle, including but not limited to any cleaning, washing, protecting, guarding or repairing of said vehicle or any portion thereof, without the consent of the owner, operator or occupant of such vehicle, and thereafter requesting payment for the performance of such service, regardless of whether such vehicle is stopped, standing or parked;

(vii) Threatening a solicited person, by word or conduct, with physical harm or violence;

(viii) Using profane or abusive language towards a solicited person;

(ix) Intentionally touching or attempting to touch a solicited person without that person's consent;

(x) Any other words or conduct that would cause a reasonable person, in the position of the solicited person, to fear for his or her safety, the safety of his or her property or the safety of another person accompanying the solicited person.

(3) "Public place" means any place open to the general public and includes, but is not limited to, any sidewalk; alley; street; highway; bridge; driveway; parking lot; parking structure; playground; park; plaza; mall; structure; building; doorway, entrance, lobby or hallway to or in a building; the grounds around or enclosed by a building; school; or place of amusement. Such a place is a "public place" regardless of whether it is publically or privately owned.

(4) "Prohibited place" means any:

(i) Bus stop;

(ii) Public transportation vehicle or facility;

(iii) Public parking lot or structure;

(iv) An area within fifty (50) feet of an automated teller machine (ATM);

(v) A queue or line of two or more persons waiting to be admitted to a commercial establishment or waiting to purchase an item or ticket;

(vi) An outside dining area or motor vehicle drive-through lane of a restaurant or other dining establishment serving food for immediate consumption.

(c) It is unlawful for any person to engage in solicitation in an aggressive or abusive manner in any public place.

(d) It is unlawful for any person to engage in solicitation while the solicited person is in a prohibited place.

(e) Punishment. A violation of this section is a misdemeanor, punishable upon conviction by imprisonment in the county jail for a term not to exceed six (6) months, or by a fine not to exceed one thousand dollars ($1,000) or by both such fine and imprisonment.

(f) Severability. If any subsection, sentence, clause or phrase of this section is for any reason held by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this section. The Council of the City of Fresno hereby declares that it would have passed this section and each subsection, sentence, clause and phrase thereof, irrespective of the fact that one or more of the subsections, sentences, clauses or phrases may be held invalid or unconstitutional. (Added Ord. 2002-49, § 1, eff. 10-28-02).

SEC. 9-2609. DISPLAY OF PRODUCTS CONTAINING PSEUDOEPHEDRINE AND EPHEDRINE.

(a) The Council of the City of Fresno finds that the locally increasing illegal production and use of methamphetamine threatens the health, safety, and welfare of the citizens of the City of Fresno. The Council of the City of Fresno further finds that the easy over-the-counter accessibility to the public of products containing pseudoephedrine and ephedrine, key components in the production of methamphetamine, continues to facilitate the illegal production and use of methamphetamine despite the efforts of the State of California to regulate the sale of these products. This ordinance seeks to add additional safeguards that would prevent the easy theft and illegal purchase of products containing these controlled substances by requiring that such products be kept, stored, stocked and displayed in the course of retail distribution, in an area that is locked and secure, or is otherwise made unavailable to the public and is accessible to the public only through an employee of the business.

(b) It shall be unlawful for any person, firm, corporation, business, partnership, or other entity doing business within the City of Fresno to store, stock, keep or display for sale or transfer, any product containing pseudoephedrine or ephedrine in an area other than a place that is locked and secure or otherwise made unavailable to the public and which is accessible to the public only through an employee of the business. Violation of this section shall be enforced in accordance with Section 1-404 of this code. (Added Ord. 2005-121, § 1, eff. 12-4-05).

(6) Nothing in this Chapter prohibits uninvolved innocent bystanders from reporting these activities.

(7) Uninvolved innocent bystanders are not in violation of this ordinance even if they are within two hundred feet of these activities if they do not possess the requisite intent to Spectate, Street Race, participate in a Sideshow, or engage in Reckless Driving Exhibition.

(c) Considerations relevant to a violation. In establishing a violation of subsection (b), the following may be considered to the extent permissible by applicable law:

(1) Evidence of Prior Acts:

(i) That the person charged has previously participated in or been a Spectator at a Sideshow, Street Race or Reckless Driving Exhibition;

(ii) That the person charged has previously aided and abetted a Sideshow, Street Race, or Reckless Driving Exhibition;

These prior acts may always be admissible to show knowledge on the part of the defendant that a Sideshow, Street Race or Reckless Driving Exhibition was taking place.

SEC. 9-3001. SHORT TITLE.

This Article shall be known and cited as the "Social Host Ordinance." When used in this article, "this article" means the Social Host Ordinance.
(Added Ord. 2007-16, § 1, eff. 4-19-07).

SEC. 9-3002. FINDINGS AND INTENT.

The Council finds and determines as follows:

(a) The occurrence of parties on private property where alcohol is served to or consumed by underage person(s) is harmful to the underage person(s) and a threat to public health, safety, quiet enjoyment of property, and the general welfare, of the communities where such parties are held.

(b) Underage person(s) often obtain alcoholic beverages at parties held at private residences or at rented residential and commercial premises that are under the control of a person who knows or should know of the underage service and/or consumption. Person(s) responsible for the occurrence of parties on private property over which they have possession or control have failed to ensure that alcoholic beverages are neither served to nor consumed by underage person(s) at these parties.

(c) Control of parties on private property where underage person(s) are being served or consuming alcohol is necessary because such activity poses a threat to the peace, health, safety, or general welfare of the public. Police ability to abate gatherings where alcohol is served to or consumed by underage person(s) on private property will result in a decrease in abuse of alcohol by underage person(s), physical altercations and injuries, neighborhood vandalism, and excessive noise disturbance thereby improving public safety.

(d) Problems associated with such parties at which alcoholic beverages are served to or consumed by underage person(s) are difficult to prevent and deter unless law enforcement has the legal authority to direct the host to disperse the party.

(e) Law enforcement, fire and other emergency response services personnel have and are required to respond, sometimes on multiple occasions, to parties on private property at

[The next page is CD9:233]

which alcoholic beverages are served to or consumed by underage person(s). Responses to such parties result in a disproportionate expenditure of public safety resources and cause a drain of staff, leaving other areas of the City with inadequate protection.

(f) Person(s) held responsible for abetting or tolerating parties will be more likely to properly supervise and stop such conduct at parties held on private property under their possession and control. The prohibitions found in this chapter are reasonable and expected to deter the consumption of alcoholic beverages by underage person(s) by holding person(s) who knowingly allow service to or consumption by underage person(s) responsible.

(Added Ord. 2007-16, § 1, eff. 4-19-07).

SEC. 9-3003. PURPOSE.

The Council finds and declares that the purpose of this ordinance is:

(a) to protect public health, safety and general welfare;

(b) to enforce laws prohibiting the service to and consumption of alcohol by underage person(s); and

(c) to reduce the costs of providing law enforcement, fire and other emergency response services to parties by imposing a civil fee against social hosts and landowners (including landlords) and for the recovery of costs associated with providing law enforcement, fire and other emergency response services to parties where alcoholic beverages are served to or consumed by underage person(s).

(Added Ord. 2007-16, § 1, eff. 4-19-07).

An "incident" refers to each time law enforcement, fire, or other emergency personnel respond to a party, i.e., if a response is required multiple times to the same party on the same date, each response shall be a separate offense.
(Added Ord. 2007-16, § 1, eff. 4-19-07).

This section in no way limits the authority of peace officers or private citizens to make arrests for any criminal offense arising out of conduct currently regulated, nor do they limit in any way the prosecution's ability to initiate and prosecute a criminal prosecution for any violation of a criminal offense arising out of the same circumstances.

(b) If any section, subsection, sentence, clause or phrase or word of this ordinance is for any reason held to be unconstitutional by a court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this ordnances. The Council of the City of Fresno finds that Abandoned Shopping Carts in the city create potential hazard to the health and safety of the public, and interfere with pedestrian and vehicular traffic and create a public nuisance. For the purpose of this ordinance, ambient noise level is the level obtained when the noise level is averaged over a period of fifteen minutes, without inclusion of the offending noise, at the location and time of day at which a comparison with the offending noise is to be made. Where the ambient noise level is less than that designated in this section, however, the noise level specified herein shall be deemed to be the ambient noise level for that location.

(i) **Periodic Quantity.** "Periodic quantity" means oscillating quantity, the values of which recur for equal increments of time.

(j) **Sound Level.** "Sound level" (noise level), in decibels (dB) is the sound pressure level as measured with the "A" weighting and slow response by a sound level meter.

(k) **Sound Level Meter.** "Sound level meter" means an instrument including a microphone, an amplifier, an output meter, and frequency weighting networks for the measurement of sound levels which satisfies the pertinent specifications published by the American National Standards Institute, New York, New York, in "American Standard Sound Level Meters for Measurement of Noise and Other Sounds," S1.4-1971, or the most recent revision thereof.

(Orig. Ord. 1076; Rep. and Added Ord. 72-163, 1972).

SEC. 10-104. MONITORING PROCEDURES.

The following procedures shall be employed for monitoring and evaluating noise in the community unless otherwise specified in this Article:

(a) The evaluation shall be conducted any time of the day or night when the offending noise source is being operated.

(b) For outside measurements, the location selected for monitoring shall be at a point at least ten feet from any building, wall, or obstruction (trees, bushes, etc.) whenever possible. In cases where no point on the property line satisfies this criteria, readings will be taken as far as possible from the nearest obstruction and such distance will be noted. For inside measurements, the monitoring location shall be at least three feet from any wall.

(c) The sound level meter shall be equipped with an omnidirectional microphone.

(d) No individual other than the operator shall be within ten feet of the sound level meter during the sample period.

(e) The ambient noise level shall be determined with the offending noise source not in operation, in the following manner:

(1) Calibrate the sound level meter in accordance with the manufacturer's instructions.

(2) Set the sound level meter on the "A" weighted network at slow response.

(3) Without the offending noise source in operation, set the microphone in a vertical position on the complaining party's property with the microphone head approximately four feet above the ground or floor. The operator shall face the noise source and record the meter's instantaneous response (reading) observed at fifteen second intervals for a period of fifteen minutes. The arithmetical average (mean) reading is interpreted as the ambient noise level of that sampling point.

(f) With the offending noise source in operation, the operator shall again record the instantaneous response at the same location at fifteen second intervals for a fifteen minute period, or, for a noise source of less than fifteen minutes, the operator shall record the instantaneous response at fifteen second intervals for the time the offending noise source is in operation. The arithmetical average (mean) response level recorded while the offending noise source is in operation is interpreted as the offending noise level.

(Orig. Ord. 1076; Am. Ord. 5331, 1958; Rep. Ord. 5376, 1958; Added Ord. 72-163, 1972).

(2) A general description of the equipment, apparatus, or other sound source to be utilized, and the area in which it will be utilized.

In approving a permit hereunder, the Chief Administrative Officer may impose such conditions as he deems necessary to protect the public interest.

SEC. 10-303. LICENSING OF DOGS.

(a) The owner or custodian of any dog over the age of four months shall procure a city dog license and pay therefor the license fee designated in the Master Fee Resolution. The license fee shall be due and payable on or before the expiration of the vaccination against rabies. Any person failing to procure and pay for such license prior to the expiration of the vaccination shall pay the penalty for such delinquency as designated in the Master Fee Resolution. With respect to dogs first brought into the city, no penalty shall be payable if the owner or custodian procures a license within thirty days after the dog is brought into the city, or within thirty days after the dog reaches the age of four months, as the case may be.

Upon application to the Controller and presentation of a vaccination certificate as prescribed by the provisions of subsection (c) of this section, every owner of a guide dog shall receive, at no charge, a dog license.

(2) Before a city dog license may be issued for the lower license fee for a dog which has been spayed or neutered, the owner or custodian of such dog shall provide evidence that the dog has been spayed or neutered. Such evidence shall be a certificate signed by a doctor of veterinary medicine, on his or her letterhead stationery or on a form provided by the city for such purpose, or by the sworn statement of the owner or custodian on a form provided by the city. Any such form or certificate shall state the name of the doctor of veterinary medicine who performed the operation or the name of the clinic where such operation was performed, the street address of such doctor of veterinary medicine or clinic, the telephone number thereof if available, the precise or approximate date when the operation was performed, and a sufficient description of the dog.

(3) The Council finds that persons over age 62 have special needs for dogs to provide warning of or protection from forcible or surreptitious entry into their homes; and that it is therefore in the public interest to encourage dog ownership for warning and protection purposes among this class of city residents by reduced dog license rates. To qualify for the

reduced rates authorized by this subsection the owner or custodian over age 62 of any dog shall execute, prior to issuance of a dog license at such reduced rate, a declaration under penalty of perjury on a form provided by the Controller, containing the following:

(c) The amount of such license fee shall be paid to the Controller, and upon the payment thereof, there shall be issued to the person making such payment a dog tag in a form as prescribed by the Controller; provided that the owner or custodian of the dog shall have the dog vaccinated and shall present, and the Controller shall issue a dog license only after presentation of, a vaccination certificate signed by a licensed veterinarian. The vaccination certificate need not be presented whenever the dog has a condition or illness which renders it unfit to be vaccinated, and this is proved to the satisfaction of the Controller, who must require written proof thereof to be made by a licensed veterinarian upon a form approved by the Controller.

(d) The Controller shall honor a dog license issued by authority of another government and shall issue a City of Fresno dog license for the nominal fee designated in the Master Fee Resolution, when the following facts exist:

(1) The dog license to be honored is current and effective and this fact is established by proof of a dog license tag, certificate or receipt of the other government which shows the period for which the license is issued.

(2) The dog has been vaccinated against rabies and this fact is established by the presentation of a vaccination certificate signed by a doctor of veterinary medicine or a dog license tag, receipt or certificate which on its face establishes the date and type of vaccination.

(3) The request to so honor the license is made within thirty days after the dog is brought into the city.

(4) The dog owner or custodian pays the license fee designated in the Master Fee Resolution for the issuance of a City of Fresno dog license under these conditions.

(e) It shall be the duty of the Controller to enter in a register kept by him for that purpose the name and address of the owners or custodians of all dogs licensed, and the description of such dogs, the number of the tag, and the date of its issuance. A similar register for all operators of kennels shall also be kept by the Controller.

(f) The dog license tag issued to any person upon the payment of the license fee herein provided for shall be securely attached to a collar or harness on such dog. SEC. 10-306. LICENSING OF DOG KENNELS.

(a) Every person owning or operating a kennel shall pay the annual license fee designated in the Master Fee Resolution which shall be the license fee for all dogs regularly kept therein. Such license fee shall be due and payable on and after the first day of July of each year, and said license shall be for the period of one year commencing on the first day of July.

(b) Any owner or operator of a kennel failing to procure and pay for such kennel license until after the twentieth day of September of any year shall pay the penalty designated in the Master Fee Resolution for such delinquency, provided that if the twentieth falls on a Saturday, a Sunday or a legal holiday, the license fee may be paid without penalty on the first succeeding business day. The penalty provided for in this section shall not apply in any case if the owner or operator of such kennel applies for and obtains a kennel license not later than thirty days after the beginning of the operation of such kennel.

(c) All kennels shall be so constructed as to prevent dogs confined therein from running at large off the premises where said kennels are maintained. All kennels shall be operated and constructed in a sanitary and proper manner so that the same will not become a nuisance to the neighborhood thereof.

(d) No kennel license shall be issued until the health officer shall have first issued a certificate that the same is constructed and operated in accordance with the provisions of this article. Such certificate shall be presented to the Controller with an application for a kennel license. Any kennel constructed after December 1, 1956, may not be issued a certificate by the health officer unless said kennel shall have been constructed under a valid building permit of the City of Fresno. The operation of all kennels shall at all times be subject to the general supervision of the health officer. (Orig. Ord. 3755; Am. Ord. 5005, 1957; Am. Ord. 5308, 1958; Rep. and Added Ord. 5757, 1960; Am. Ord. 5982, 1961; Am. Ord. 80-115, §§ 93, 94, eff. 8-8-80).

SEC. 10-307. LOST OR STOLEN DOG LICENSE TAGS.

If a license tag is lost or stolen from the body of any dog for which the tag was issued, the owner shall, within thirty days thereafter, procure a new license tag for such dog which he shall pay the fee designated in the Master Fee Resolution. As often as any license tag is lost or stolen within the same license year, the same shall be replaced in the manner provided by this section. No person, other than the owner, shall remove or destroy a collar or license tag from a dog. (Orig. Ord. 3755; Am. Ord. 5005, 1957; Rep. and Added Ord. 5757, 1960; Am. Ord. 6443, 1964; Am. Ord. 80-115, § 95, eff. 8-8-80).

SEC. 10-308. ANIMALS AT LARGE.

(a) No person owning, or having possession, charge, custody or control of, any animal, except a cat, shall cause, permit, or allow, such animal to be at large.

(b) If within the twelve month period after the date the poundmaster has issued a written warning or citation for violation of subsection (a) to the person who owns or has possession, charge, custody or control of the offending animal, that offending animal is found at large on two additional separate occasions, the poundmaster may request an administrative hearing before the Hearing Officer, pursuant to Section 1-401 et seq., to seek a finding that the animal is habitually at large.

(c) If after hearing the evidence and argument presented at the administrative hearing held pursuant to Chapter 1, Article 4, the Hearing Officer finds that the animal is habitually at large, the Hearing Officer may order any of the following:

(1) the animal be permanently altered to prevent reproduction;

(2) the animal be secured in an enclosure approved by the poundmaster at all times specified by the Hearing Officer;

(3) the animal be tethered with a rope or cable approved by poundmaster at all times specified by the Hearing Officer;

(4) the person owning or having possession, charge, custody or control of the animal repair or replace any structure or fence used to secure the animal to the satisfaction of the poundmaster;

(5) the animal be permanently forfeited to another person who the Hearing Officer has determined would be a responsible owner of the forfeited animal;

(6) the animal be permanently removed from the City;

(7) the animal be forfeited to the poundmaster.

The Poundmaster shall place any animal forfeited pursuant to this subdivision up for adoption if the poundmaster determines the forfeited animal's temperament and physical condition make the animal an appropriate candidate for adoption. If the poundmaster determines that the forfeited animal is not an appropriate candidate for adoption, the poundmaster shall humanely destroy the forfeited animal.

(d) The Council finds that permitting an animal, other than a cat, to be at large or maintaining one's property in a condition that permits an animal, other than a cat, to become at large is a public nuisance because of the potential threats to the public's health, safety and welfare resulting from at large animals and the potential for uncontrolled breeding that results in animal overpopulation. (Orig. Ord. 3755; Am. Ord. 5005, 1957; Rep. and Added Ord. 5757, 1960; Am. Ord. 6341, 1963; Am. Ord. 2006-33, § 2, eff. 5-18-06; Am. Ord. 2006-34, § 2, eff. 5-18-06).

A dog that has strayed from but then returned to the private property of his owner or the person who has a right to control the dog shall not be seized or impounded, but in such a case a citation may be issued; provided, however, that if in such a situation the owner or person who has a right to control the dog is not home, the dog may be impounded, but the officer or employee of any animal control agency shall post a notice of such impounding on the front door of the living unit of the owner or person who has a right to control the dog. Such notice shall state the following: that the dog has been impounded, the location where the dog is being held, the name, address, and telephone number of the agency or person to be contacted regarding release of the dog, and an indication of the ultimate disposition of the dog if no action to regain it is taken within a specified period of time by its owner or by the person who has a right to control the dog.

This section shall not otherwise affect existing authority to seize or impound a dog or issue citations, as a result of a dog's being on property other than that owned by its owner or the person who has a right to control the dog, or impounding a dog pursuant to any other provision of this article providing for the impounding of and [an] animal.

Within seven days of the date of impounding the dog or other animal pursuant to section 10-326 the poundmaster shall serve upon the owner or custodian of the dog or other animal by regular and certified mail a notice of investigation to determine if the animal is dangerous or potentially dangerous. This notice shall describe the purpose of the investigation, how the investigation will be conducted, the factors the poundmaster will consider in making a finding and a deadline for completing the investigation. The investigation may include interviewing the owner(s) of the dog or other animal, witnesses, reviewing records of citations and reports of previous incidents involving the dog or other animal and evaluating the temperament of the dog or other animal through behavioral testing. In making a finding regarding whether the dog or other animal is dangerous or potentially dangerous, the poundmaster shall consider the factors set forth in subsection (c). If after completing the investigation the poundmaster finds that the dog or other animal is dangerous or potentially dangerous, the poundmaster shall serve by regular mail and certified mail a notice of declaration as described in subsection (b). (5) a statement that the appeal request must be in writing and filed with the City Manager's Office within five calendar days of service of the notice of declaration;

(6) if the animal is declared dangerous, an order that the animal be humanely destroyed as provided for in subsection (d);

(7) if the animal is declared potentially dangerous, an order setting forth any or all of the conditions set forth in subsection (e);

(8) a statement that failure to appeal the notice of declaration will constitute a waiver of all rights to an administrative hearing and will be a final determination of the matter, and if after ten days from the date of the issuance of the notice of declaration finding the animal potentially dangerous, the owner or custodian has failed to inform the poundmaster of an intent to comply with the conditions set forth in the notice of declaration, the animal will be deemed abandoned and may be humanely destroyed or otherwise disposed of;

(9) a statement that failure to comply with all of the conditions set forth in the notice of declaration will result in the poundmaster proceeding with impounding and destroying or otherwise disposing of the animal.

(c) **Determination of Dangerous or Potentially Dangerous Animal; Evidence.** In making a determination that a dog or other animal is or is not dangerous, evidence of the following shall be considered:

(8) whether the dog or other animal can be effectively trained or retrained to change its temperament or behavior;

(9) the manner in which the dog or other animal had been maintained by its owner or custodian;

(10) any other relevant evidence concerning the maintenance of the dog or other animal;

(11) any other relevant evidence regarding the ability of the owner or custodian, or the poundmaster, to protect the public safety in the future if the dog or other animal is permitted to remain in the city.

(d) **Disposition of Dangerous Animal.**

(1) It shall be unlawful for any person to own, possess, harbor or keep any dog or other animal declared by the hearing officer, after a hearing, to be dangerous.

(2) Any dog or other animal declared to be dangerous, if not already impounded by the poundmaster, shall be immediately surrendered to the poundmaster, and it is the duty of the poundmaster to take up and impound any such dog or other animal.

(3) Any dog or other animal declared to be a dangerous animal shall be humanely destroyed.

(e) **Dog or Other Animal Found Potentially Dangerous; Procedure.** If the notice of declaration states that the dog or other animal is potentially dangerous, in the notice of declaration the poundmaster may set forth any or all of the following as conditions to owning, possessing, controlling or being in charge of the animal declared to be potentially dangerous:

(1) the animal shall be confined on the owner's premises in an enclosure approved by the poundmaster;

(2) the animal shall be kept securely muzzled, leashed and under the control of a person eighteen (18) years of age or older, and who is physically capable of restraining the animal when the animal is off the owner's property;

(3) the animal shall be photographed, microchipped or permanently marked by the poundmaster for purposes of identification;

(5) the owner of the animal shall notify in writing any public or corporate entity, including but not limited to, the City of Fresno, County of Fresno, the postmaster, utility companies, or any other organization that sends out employees to the residence, that a potentially dangerous animal resides at that property. The poundmaster may also set a time period by which such notices must be given, and when copies of such notices must be provided to the poundmaster;

(6) The owner shall post signs on the premises where the animal is being kept that are clearly visible from points of entry to the property which state that an animal which has been declared to be potentially dangerous is on the property. Such signs shall be provided by the poundmaster, but the costs of the sign(s) shall be the responsibility of the animal

owner. The language of such signs shall be determined by the poundmaster and may be required to be in a language other than English. The poundmaster may require that such signs are posted before an impounded animal is returned to its owner or within ten days from the date the animal was declared to be a potentially dangerous animal;

(7) An animal which has been declared potentially dangerous may not be transferred to reside either temporarily or permanently at another location within the City of Fresno without prior written authorization of the poundmaster. Said authorization shall not be issued unless every term set forth in the notice of declaration can be met at the proposed new location;

(8) the owner shall allow inspections of the animal and its enclosure by the poundmaster or any law enforcement agency and produce upon demand proof of compliance with all conditions set forth in the final notice of declaration;

(9) In the event of the animal's death, the owner shall notify the poundmaster no later than forty-eight hours thereafter and, upon request, produce evidence of the animal's death to the satisfaction of the poundmaster;

(10) In the event that the animal escapes, the owner shall immediately notify the poundmaster. In addition, the owner and poundmaster shall make every reasonable effort to recapture the animal;

(11) the animal shall be permanently removed from the City of Fresno and the owner shall provide proof of said removal to the satisfaction of the poundmaster; and,

(12) the owner shall pay all impound and shelter fees incurred by the poundmaster to impound the animal during the investigation to determine whether the animal is dangerous or potentially dangerous.

If the owner fails to comply with all of the conditions ordered by the poundmaster or the hearing officer through the appeal process described in this chapter, the poundmaster shall proceed to impound and destroy or otherwise dispose of the animal.

(f) **Appeal of Notice of Declaration.**

(1) The owner of the animal may appeal the notice of declaration by filing a written appeal with the City Hearing Officer within five days from the date of service of such notice. The written appeal shall contain all of the following:

(i) a brief statement setting forth the legal interest of each of the appellants regarding the animal involved in the notice of declaration;

(ii) a brief statement in ordinary and concise language of the relief sought, and the reasons why it is claimed the protested notice of declaration should be reversed, modified, or otherwise set aside;

(iii) The signatures of all parties named as appellants and their official mailing addresses, with statement from each appellant that each agrees to accept service of the written notice of the time and place of the appeal hearing and the decision of the City Hearing Officer at such address;

(iv) the declaration under penalty of perjury of at least one appellant as to the truth of the matters stated in the appeal.

If the owner fails to file an appeal of the notice of declaration within five days of service of the notice of declaration, the notice of declaration shall become final and fully enforceable.

(2) An owner appealing a notice of declaration finding an animal dangerous or potentially dangerous shall be required to pay the office of the City Hearing Officer, at the time the written notice of appeal is filed, an appeal fee set forth in the Master Fee Schedule. Such fee shall be refunded to the appellant if the Hearing Officer determines that imposition of the fee is not warranted or is not in the interest of justice. No notice of appeal is valid unless accompanied by the appeal fee.

(3) Upon receipt of any appeal the office of the City Hearing Officer shall calendar it for hearing and notify the appellants and the poundmaster in writing of the date, time and location for the hearing.

(4) The appeal hearing shall be noticed and conducted under this section and Chapter 1, Article 5, except that the deadline for filing an appeal and the requirements for the contents of the appeal set forth in subsection 1-406(b) shall not apply.

(g) Any person whose dog or other animal has been declared dangerous or potentially dangerous shall not own, possess, control or be in charge of another animal of the species declared to be dangerous or potentially dangerous for a period of three years from the date of the final notice of declaration of order after appeal. The Controller shall not issue or renew any license or permit for said species of animal, except that upon the written request of the person whose dog or other animal has been declared dangerous or potentially dangerous, the poundmaster may in his discretion authorize the issuance of a dog license.

(h) No dog or other animal may be declared dangerous that inflicts injury or damage on a person committing a willful trespass or other tort upon premises occupied by the owner of the dog or other animal, or teasing, tormenting, abusing or assaulting the dog or other animal, or committing or attempting to commit a crime.

No dog or other animal may be declared dangerous if it inflicts injury or damage on a domestic animal that was teasing, tormenting, abusing or assaulting the dog or other animal.

No dog or other animal may be declared dangerous for taking any action to defend or protect a human being within the immediate vicinity of the dog or other animal from an unjustified attack or assault.

(i) The Council finds that dangerous animals and potentially dangerous animals are a public nuisance because of the potential threats to the public's health, safety and welfare resulting from these animals attacking, biting, injuring or killing other persons or animals. (Added Ord. 88-41, § 11, eff. 4-8-88; Am. Ord. 88-61, §§ 5, 6, eff. 5-27-88; Am. Ord. 98-65, § 21, eff. 10-1-98; Am. Ord. 2005-14, § 39, eff. 4-9-05; Am. Ord. 2006-33, § 6, eff. 5-18-06; Am. SEC. 10-328. BREEDING, TRANSFER AND SALE OF DOGS AND CATS.

The Council of the City of Fresno finds and declares that there exists a serious pet overpopulation problem within the City of Fresno that has resulted in a threat to public safety and health, inhumane treatment of animals, has resulted in euthanization of animals at the local animal shelter and escalating costs for animal care and control for animal care and control. The Council finds that uncontrolled breeding is a cause and, without further action aimed at the source, this problem and its serious consequences will remain unabated and will increase in severity.

The Council finds that part of the solution is for all dogs and cats over the age of four months to be spayed or neutered, unless their owners purchase the appropriate licenses for the privilege of maintaining the animal intact and/or a breeder permit to allow it to breed. Further, the Council finds that regulation of the transfer of dogs and cats will help alleviate the City's pet overpopulation crisis by allowing increased City control over enforcement of the dog licensing provisions and limiting the means of obtaining a dog or cat.

(a) The Unaltered Dog [or Cat] License shall contain the following terms and conditions:

(1) The Owner of an unaltered female dog or cat shall not allow the dog or cat to breed without first obtaining a breeder's permit.

(2) No offspring may be sold, adopted, bartered or otherwise transferred, whether for compensation or otherwise, until such offspring has reached the age of at least eight (8) weeks.

(3) The Owner must prominently display their Unaltered Dog [or Cat] License number in any advertisement to the public for the sale, adoption or transfer (whether for compensation or otherwise) of the offspring. The Owner must provide the Unaltered Dog [or Cat] License number to any person who purchases, adopts or receives the offspring and include the Unaltered Dog [or Cat] License number on any receipt of sale or transfer document.

(4) The Owner shall provide to all persons who receive any offspring, whether for compensation or otherwise, an application for a City dog license, as well as written information regarding the City's dog license requirements. The Owner shall obtain these documents from the City Manager or designee.

(b) Breeder Permit Requirements:

(1) No person shall cause or allow any dog or cat owned, harbored or kept within the City to breed without first obtaining a breeding permit, as described below.

(2) Applications for a breeder permit pursuant to this chapter shall be filed with the Animal Center Department on a form prescribed by the City Manager or designee. Fees charged for these permits shall be set in the Master Fee Schedule.

(3) Applications for a breeder permit will require the animal to possess an unaltered dog license and a business tax license certificate from the City's Finance Department; and to maintain the certificate while in operation.

(4) The term breeding permit shall mean a written authorization, issued annually by the City Manager or designee, giving its lawful holder permission to breed a dog or cat.

(5) Each breeding permit shall be valid for one year from the date of issuance, and may be renewed annually before its expiration date.

(6) Each applicant for such a permit shall pay an annual fee as specified in the Master Fee Schedule.

(7) A separate permit must be obtained for each owned dog or cat which is allowed to breed.

(8) The City's Animal Center Department shall administer an animal breeding permit program to allow the breeding of unaltered dogs and cats consistent with criteria and according to procedures established by the City Manager or designee. Under no circumstances shall such a permit be issued to a person who has been convicted of animal cruelty or neglect.

(9) In addition to the criteria and procedures established by the City Manager pursuant to paragraph 8 of this subsection, all breeding permits shall contain the following terms and conditions:

(i) The Owner of an unaltered female dog or cat shall not allow the whelping of more than one litter in any household within the permit year. Notwithstanding this provision, the City Manager is hereby authorized, upon application of a permittee, to allow on a one time basis the whelping of up to two dog or cat litters per breeding animal within any domestic household within a permit year, if the permittee establishes, according to regulations promulgated by the City Manager, that such breeding is required to protect the health of the animal or avert a substantial economic loss to the permittee. In the event that a permittee is forced to euthanize a litter of dogs or cats, the City Manager may authorize the whelping of one additional litter of dogs or cats within the same permit year by the permittee.

(c) Sale and Other Transfer of Dogs and Cats.

(1) Any person who offers or provides, whether for compensation or otherwise, any dog or cat for sale or other type of transfer, shall disclose to the transferee information regarding the license and permit requirements of the City applicable to the transferred animal.

(2) No person shall present any dog or cat for sale, barter, exchange, or adoption, whether for compensation or otherwise, in any public place, without first obtaining a breeding permit from the City. The term public place shall include,

but not [be] limited to streets, highways, sidewalks, businesses, shopping malls, flea markets, swap meets, and areas in front of commercial establishments. This prohibition shall not apply to:

(i) Government agencies, nonprofit animal rescue organizations exempt from taxation under Internal Revenue Code section 501(c)(3); or humane societies or societies for the prevention of cruelty to animals if such societies are incorporated under the provisions of the California Corporations Code Section 10400 and the Nonprofit Public Benefit Corporation Law in Part 2 of the California Corporations Code, beginning at Section 5110.

(ii) Permitted dog or cat shows.

(iii) Permitted pet stores which sell or otherwise transfer dogs or cats, whether for compensation or otherwise, within the store.

(3) No person shall give away any dog or cat as a prize or as an inducement to enter into any contest, lottery, drawing, game or competition.

(4) No person shall give away any dog or cat as an inducement to enter a place of business.

(5) No person shall sell or give away any dog or cat in any public place or in front of any business not owned by him/her or at any swap meet.

(6) No person shall sell, barter, exchange or offer for adoption, whether for compensation or otherwise, any dog or cat to any minor under the age of eighteen years, without the written permission of one of the minor's parents or legal guardians.

(7) Failure to display the breeding permit number or include it in any advertisement for sale, adoption or other transfer of dogs and cats is an infraction punishable in accordance with Subsection (d)(4) below.

(8) Possession of a valid permit under this section of the Code does not entitle the permit holder to engage in activity which is otherwise prohibited by law.

(d) Enforcement of Dog License Provisions and Penalties.

(1) Any cat or dog owner found by the City to be in violation of the breeding permit provisions of this section may correct the violations(s) by providing conclusive proof to the City that the dog(s) or cat(s) have been spayed, or by obtaining the necessary permit(s) mentioned in this section, no later than thirty (30) days from the date when the City first notified the owner of the violation. Should the owner fail to correct the violation(s) in the manner described above, the City shall impose a $1,000 civil penalty per animal on the dog or cat owner. This penalty shall not be waived by the City upon the transfer or abandonment of the dog or cat by the non-compliant owner. This penalty shall be in addition to any other applicable civil or criminal penalties.

(2) If the civil penalty mentioned above is not paid and the owner does not spay/neuter his/her dog(s) or cat(s) or obtains a breeding permit(s) required under Subsection (b)(2), above within fifteen (15) days from the date the City first notified the owner of the imposition of the civil penalty mentioned in Section (d)(1), the continuing violation of the permit requirement of this section becomes a misdemeanor and may be prosecuted as such.

(3) The City may revoke any permit issued pursuant to this section upon a finding that the permit holder has violated its terms and conditions. Such a finding shall be made after an administrative hearing pursuant to Section 1-401 et seq.

(4) Except as specifically mentioned in Subsection d(1), (2) and (3), above failure to comply with any of the requirements mentioned in Subsections (a), (b) and (c) of Section 10-328 of this Code shall be an infraction.

(Added Ord. 2006-34, § 7, eff. 5-18-06; Am. Ord. 2024-026, § 1, eff. 10-5-24).

SEC. 10-329. PET RESPONSIBILITY ACT.

The Council of the City of Fresno finds and declares that a contributing cause of the serious dog overpopulation problem within the City of Fresno is the number of unaltered dogs found at large. The Council wishes to promote responsible pet ownership as a means for promoting the public health, safety, and welfare of humans and pets in the City of Fresno. The Council finds and declares that mandatory spaying or neutering of dogs is appropriate when dog owners fail to act responsibly to prevent their animals from being at large.

(a) **Title.** This Section shall be known as the "Pet Responsibility Act."

(b) **Applicability.** This Section shall apply to all persons whose dogs are found to be at large in violation of Section 10-308(a) of this Code and any requirements imposed by this Section shall be cumulative to any requirements or penalties otherwise imposed by this Code.

(1) "At large" shall mean an animal in or upon any public street, public alley or other public place or in or upon an unenclosed lot or premises, unless the animal is securely confined to the lot or premises by a suitably strong leash or is securely and continuously held by the owner or custodian of such animal by a strong leash suitable for maintaining control of the animal, or the animal is confined within an automobile.

(2) "Owner" shall mean the owner or custodian of any animal.

(d) **Enforcement.** This Section shall be enforced as follows:

(f) "Solid Waste" shall be defined as found at California Public Resources Code section 40191, as amended.

(g) "Solid Waste Facility" shall be defined as found in California Public Resources Code section 40194, as amended. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-403. FINDINGS.

The Council finds that recycling and solid waste facilities are especially prone to present a risk to the public's health and safety and therefore require the adoption of this ordinance based upon the following findings:

(a) In January 2003, a fire occurred at a recycling facility in the city that was operating under, although not in conformance with, a conditional use permit. The fire lasted for more than a month and required the services of Federal, State and private fire fighting agencies and more than two and a half million dollars to suppress. The fire had a serious health impact to the residents of the surrounding community and the city and resulted in Council declaring a local state of emergency.

(b) After the fire was suppressed, the Mayor formed the "Southwest Fire Process Improvement Task Force" (hereinafter "Task Force"). The Task Force was charged with answering two questions: (1) how the city could prevent this type of fire or similar emergency from recurring in the city, and (2) how to respond to future similar emergencies in an effective, adequate and timely manner.

(c) In April of 2003 after finishing its investigation, the Task Force issued a report concluding that the city's current ordinances, codes, and policies relating to conditional use permits and enforcement activities were inadequate. The Task Force found that the above local ordinances and policies were in need of improvement, from the initial approval and issuance of conditional use permits to the monitoring, code enforcement/on-site inspections, and legal action to be taken against violators of conditional use permits.

(d) The Task Force report included twenty-four recommendations to address the identified areas of concern.

(e) The fourth recommendation to the Task Force Report provided that: "The City shall adopt an Ordinance apart from the Zoning Ordinance, in the Health and Safety Chapter, that addresses specifically recyclable material operators within the City of Fresno. Such Ordinance shall include remedies and punishments, including criminal and financial penalties for violations."

(f) The seventh recommendation to the Task Force Report provided that: "The City shall amend appropriate sections of the FMC and related Zoning Ordinances to require a monitoring, on-site inspection/reporting system for all land uses related to waste/recyclable facilities. The amendments shall include requirements on CUP's for on-site inspections by either appropriate City staff or contracted inspectors. It is also recommended that the costs of these inspections be borne by the business operators."

(g) On April 29, 2003, Council voted to implement the results of the Task Force report.

(h) In the past three years, the city has experienced at least twelve fires at recycling facilities within the City of Fresno at six different recycling and/or solid waste facilities in the City of Fresno.

(i) In May of 2002, Council directed the City Manager to form an internal task force to make a recommendation for a proactive CUP enforcement program.

(j) In studying the issues regarding the formation of an internal task force for proactive enforcement, staff identified waste storage and recycling facilities as one of four sensitive land uses and businesses that most directly affect public health, safety and welfare. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-404. INTENT.

This ordinance is adopted with the intent:

(a) To implement the fourth and seventh recommendations to the Task Force Report; and

(b) To be consistent with the purpose of the California Integrated Waste Management Act (Public Resources Code § 40052) to reduce, recycle, and reuse solid waste generated in the city to the maximum extent feasible, and to ensure that solid waste landfills and solid waste management facilities are environmentally safe; and

(c) To provide reasonable land use conditions and restrictions on solid waste management facilities in order to prevent or mitigate potential nuisances and health and safety problems; and

(d) To be consistent with, and impose restrictions in addition to, the California Integrated Waste Management Act (Public Resources Code §§ 40000, et seq.). (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-405. SEVERABILITY.

If any section, sentence, clause or phrase of this article is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not

affect the validity of the remaining portion of this article. Council hereby declares that it would have passed this ordinance and adopted this article and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-406. RULES AND REGULATIONS.

The Director may make rules and regulations which are not inconsistent with the provisions of this article and which may be necessary or desirable to aid in the administration or enforcement of the provisions of this article, including all necessary policies and procedures for the issuance of the permits, administration of this article, collection of fees and bonds and/or indemnities, or proof(s) of insurance. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-407. SOLID WASTE AND RECYCLING FACILITIES PERMIT.

No person or business may operate a solid waste or recycling facility, as defined in this article, unless they hold a Solid Waste and Recycling Facilities Permit. The Solid Waste and Recycling Facilities Permit shall include conditions on the permit holder's operations as provided in this article for the permit holder's type of operation. The permit shall not be transferrable. The permit shall be valid for one year. The city may provide a program to renew permits for permit holders on an annual basis upon the payment of a fee to defray the city's costs. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-408. ISSUANCE OR DENIAL OF A PERMIT.

The Director shall cause an investigation to be made of the facts stated in an application for a recycling facility permit, and shall within forty-five days, subject to the completion of the necessary background checks by local, state and federal agencies and completion of the review of the operational plan and site plan by the city, issue a permit to the applicant if the Director finds that the applicant has not had a permit revoked for good and sufficient cause within the last twelve months and has never had a permit revoked for cause involving gross negligence or moral turpitude; that the applicant has not been convicted of a crime involving fraud, or moral turpitude within the last five years; that the statements made in the application are probably true; that the permit fee has been paid as provided in the Master Fee Schedule; and that no fact exists which would be cause for revocation of the permit under Section 10-414. Applications shall be processed in order of receipt. A decision to deny a permit shall be issued in writing with the basis for the denial, and if feasible, shall propose measures to cure any defects in the application. An applicant may appeal the decision to deny a permit under the procedures in Chapter 1, Article 4 of this Code. If no appeal is filed in a timely manner, the decision of the Director shall be final. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-409. ENVIRONMENTAL VIOLATIONS.

Applicants and permit holders shall be required to provide a notice of all criminal, civil and administrative convictions, judgments or penalties imposed on them for violations of Federal,

State or local laws related to unlawful storing or dumping of hazardous or non-hazardous wastes or transporting, handling, generating or storing of hazardous materials. The Director may reject an application or suspend or revoke a permit, if the Director finds that on the basis of the number, seriousness or recentness of the convictions, judgments or penalties, there is reason to believe that the applicant or permit holder cannot be trusted to comply with this article and/or the Code or the applicant or permit holder poses a threat to the public health, safety or welfare. Failure by an applicant or a permit holder to report any convictions, judgments or penalties shall be grounds for suspension and/or revocation of the permit. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-410. OPERATIONAL PLAN AND SITE PLAN.

No permit shall be issued without the applicant submitting an operational plan and a site plan for the applicant's proposed operations that have been approved to meet the requirements of this article, any other provision of the Code, any zoning condition placed on the property in a development entitlement, and that are not in conflict with Federal and State laws for operation of a solid waste and/or recycling facility. At the request of the applicant, if an operational plan and/or site plan has already been submitted to the city for a permit other than a Solid Waste and Recycling Facilities Permit, the city may consider the operational plan and/or site plan on file with the city to determine if it is sufficient to meet the requirements of this section. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-411. PERMIT FEE.

All applicants for a permit are required to pay a fee to cover all of the city's costs to implement, enforce and administer the provisions of this article, including but not limited to, administrative costs to review applications and issue permits, inspection costs, monitoring costs, and or enforcement costs. This fee will be provided in the Master Fee Schedule. If the city establishes a permit renewal system as allowed under Section 10-407, the permit holder shall be required to pay a fee upon renewal of their permit as provided in the Master Fee Schedule. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-412. ZONING AND FIRE CODE REQUIREMENTS.

No permit shall be issued unless the applicant can establish compliance with the Zoning Ordinance of the City of Fresno and the Fresno Fire Code. All permits shall include a condition requiring the permit holder to comply with the Zoning Ordinance of the City of Fresno and the Fresno Fire Code. A violation of the Zoning Ordinance of the City of Fresno or the Fresno Fire Code is sufficient basis for suspension or revocation of the permit. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-413. PROPERTY OWNER; RECORDING THE PERMIT.

In the event the applicant does not hold record title interest in the property upon which the solid waste facility or recycling facility is intended to be operated, no permit shall be issued until the record title owner(s) sign a copy of the application for the permit and acknowledges

that he, she or they understand the applicant's intended use of the property, that the city may record the permit with the County Recorder's Office, and the property owner will be responsible for any public nuisance created or maintained on the property, including a violation of this article, as authorized in the City of Fresno Public Nuisance Abatement Ordinance. Upon approval, a copy of the permit may be recorded in the County Recorder's Office. Upon application by the property owner or other interested party, the city shall release the recording of the permit when the permit holder establishes to the satisfaction of the Director that a solid waste or recycling facility is no longer operating on the property. The applicant shall be charged the cost associated with recording the permit and the release of the permit. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-414. PERMIT SUSPENSION OR REVOCATION; GROUNDS.

Any permit issued under this chapter may be suspended or revoked for good cause, including, but not limited to the following:

(a) **False Statement in Application.** If it is determined that the permit holder made any false statement of material fact in the application for the permit, or other document for which the permit approval was based.

(b) **Grounds for Denial of Permit.** If it is determined that any facts exist that would have been grounds for denial of the permit.

(c) **Violation of Condition of Permit.** If it is determined that the permit holder violated a condition placed on the permit or failed to comply with an order issued under Section 10-419.

(d) **Violation of the Code.** If it is determined that the permit holder violated any requirement of this Code in connection with the exercise of the permit, including, but not limited to, violation of this article, the City of Fresno Public Nuisance Abatement Ordinance, and/or the Zoning Ordinance of the City of Fresno.

(e) **Conducting Business in an Illegal or Disorderly Manner; Endangering Public.** If it is determined that the permit holder conducts his or her business in an illegal or disorderly manner or in any manner which endangers the public health, safety or welfare.

(f) **Conviction or Determination Involving Fraud or Deceit.** If it is found that the permit holder within the last five years has been found guilty of a crime involving fraud, deceit or dishonesty or has been determined in a final decision in any civil matter or administrative proceeding to have practiced or committed fraud, deceit or dishonesty. If it is found that the permit holder has within the last five years been convicted of a crime or other offense involving moral turpitude.

(g) **Insolvency.** If it is determined that the permit holder is bankrupt, financially insolvent or unstable and that, in the exercise of reasonable judgment, it appears likely that because of their financial condition, the permit holder will provide inadequate service under his permit.

(h) **Disservice to the Public.** If it is determined that the permit holder's service to the public is so inadequate or inefficient that, in the exercise of reasonable judgment, it appears that it amounts to a disservice to the public. (Added Ord. 2003-100, § 2, eff. 1-18-04).

SEC. 10-415. PERMIT SUSPENSION OR REVOCATION; PROCEDURES.

The following procedures shall be used to revoke or suspend a Solid Waste and Recycling Facilities Permit:

(a) **Notification of Suspension or Revocation.** Notice of suspension or revocation of any permit shall be in writing from the Director and shall state the reasons for the suspension or revocation, shall state the effective date of revocation or suspension, and shall provide notice of the right to appeal. If the Director determines that immediate cessation of activities under the permit is necessary to protect the public's health, safety or welfare, the effective date shall be immediate upon notification. Notification of suspension or revocation shall either be served upon the permittee personally, or mailed by certified mail, return receipt requested, addressed to the permittee at the address appearing on the permit. Notice shall be deemed to be received immediately upon personal service or within three days of service by mail. If required upon revocation, the permit holder shall turn over his or her permit to the city.

(b) **Compliance Order.** Where the cause for revocation or suspension is found to be a correctable violation of the permit, this article, or the Code or where the permit, this article, or the Code does not otherwise mandate revocation or suspension, the director may, as an alternative to revocation or suspension, issue a compliance order allowing the permit holder an opportunity to come into compliance within a reasonable period of time subject to threat of suspension or revocation. A compliance order shall set forth a description of each violation and specify the action(s) necessary to correct each violation by the date specified. A compliance order shall not be appealable and shall be served under the procedures in subsection (a).

(c) **Appeal to the City Hearing Officer.** Any decision by the Director to suspend or revoke a permit may be appealed to under the procedures in Chapter 1, Article 4 of this Code. If no appeal is filed in the time prescribed, the decision of the Director shall be final.

(d) **Appeal on Automatic or Summary Suspension.** If a permit is automatically suspended under procedures in this article, or suspended or revoked with an immediate effective date from notification, the permit holder shall have the right to an appeal within four business days and shall be given, unless waived by the permit holder, at least twenty-four hours written notice of the date, time and place of the hearing.

(e) **Stay Pending Appeal.** The filing of an appeal to the City Hearing Officer shall stay the effective date of the suspension or revocation until such time as the appeal is finally decided. Notwithstanding the above and Section 1-406, a suspension or revocation shall not be stayed during the appeal process if it is determined by the Director that immediate cessation of the permit holder's business activities under his or her permit is necessary to

protect the public's health, safety or welfare. If the effective date is not or will not be stayed pending the outcome of an appeal, the permit holder shall be notified in the notice of revocation or suspension.

(f) **New Application After Revocation.** If the permit of any person is revoked, no permit shall be granted to such person to conduct or carry on any such business within twelve months after such revocation.

(g) **Cumulative Remedy.** Any decision to revoke or suspend a permit based upon a Code violation shall be a cumulative remedy to any other remedy provided by this Code, policies adopted under this Code, or by law.

SEC. 10-602. PURPOSE.

The City Council of the City of Fresno finds and determines as follows:

(a) That the city has a history and reputation for well kept properties and that the property values and the general welfare of the community are founded, in part, upon the appearance and maintenance of private properties;

(b) That there is a need for further emphasis on property maintenance and sanitation in that certain conditions, as described in this article, have been found from place to place throughout the city;

(c) That the existence of such conditions as described in this article, is injurious and inimical to the public health, safety and welfare of the residents of the city and contributes substantially and increasingly to the deterioration of neighborhoods;

(d) That unless correct measures are undertaken to alleviate such existing conditions, and assure the avoidance of future problems in this regard, the public health, safety and general welfare and specifically the social and economic standards of the community will be depreciated;

(e) That the abatement of such conditions will improve the general welfare and image of the city; and

(f) That the abatement procedures set forth in this article are reasonable and afford due process to all affected persons.

(g) The purposes of this article are to safeguard, remedy and prevent the decay and deterioration of our community by elimination of public nuisances. The procedures established in this article are cumulative and in addition to any other remedy established by law.

An order approving abatement in such circumstances may be obtained either (a) after an appeal of the notice and order, if the notice and order is appealed to the City Hearing Officer and the Hearing Officer so grants; or, (b) by the city scheduling and noticing a nuisance abatement hearing before the City Hearing Officer.

SEC. 10-701. TITLE.

This article shall be known as the "Management of Real Property Ordinance."
(Added Ord. 98-73, § 1, eff. 10-24-98).

SEC. 10-702. FINDINGS.

(a) Just as the physical conditions of structures and properties within the City can constitute public nuisances, so can too the behavior of persons on properties within the City constitute public nuisances. The abatement of behavioral nuisances is as important to the City in its fight against blight, decay, deterioration and crime as is the abatement of other nuisances created by physical conditions.

(b) The owners of real properties within the City are primarily responsible for monitoring their properties and for taking appropriate action if a nuisance exists thereon, whether that nuisance be created by existing physical conditions or by nuisance creating behaviors, or the combination of conditions. Many nuisances can be avoided with active property management. Lack of proper management of real property can create an environment which is conducive to behaviors which become a nuisance with repetition and lack of abatement and corrective measures. If a property owner does not fulfill the owner's responsibilities, it is necessary for the safety, health and welfare of the neighborhoods, and the City as a whole, that the City be able to undertake abatement action.

(c) Because of the profound impact and effect behavioral nuisances have on the community, individuals and crime, the Council, in adopting this ordinance finds the civil penalties imposed for a violation of this ordinance are justified and necessary to protect the health, property, and integrity of this community.

(d) Nothing in this ordinance exempts property owners from compliance with state or federal laws, including, but not limited to, laws on housing, eviction, retaliatory conduct, discriminatory conduct, or invasion of privacy, nor with City laws relating to housing or relocation.
(Added Ord. 98-73, § 1, eff. 10-24-98; Am. Ord. 2016-16, § 1, eff. 7-1-16).

SEC. 10-703. PURPOSE.

(a) The purpose of this article is:

(1) To set forth and enforce minimum standards relating to the management of activities conducted or conditions on real property to protect the public health, safety and welfare; and

(2) To put in place remedies which will permit the City to take effective, efficient administrative or other legal action against property owners and other responsible parties who cause, permit or suffer nuisance creating behaviors or conditions to occur on their properties on a continuing basis, in order to compel such parties to abate the nuisance creating behaviors or conditions and control the environment, both physical and behavioral, on such real properties.

(b) The provisions of this article are complementary, cumulative, supplementary, and additional to any other legal remedies available, whether found in this code, state or federal laws, regulations, or case law.

(c) It is not the intent nor purpose of this article to subject owners or property managers to any legal liability resulting from an occupant's actions away from an occupant's residence, unless it can be shown that the problem occupant is also creating a nuisance or committing a crime at the occupant's residence.
(Added Ord. 98-73, § 1, eff. 10-24-98; Am. Ord. 2016-16, § 1, eff. 7-1-16).

SEC. 10-1101. TITLE.

This article shall be known as the Smoking Pollution Control Ordinance. (Added Ord. 87-152, § 2, eff. 12-4-87).

SEC. 10-1102. FINDINGS AND PURPOSE.

(a) The Council finds that:

(1) Numerous studies have found that tobacco smoke is a major contributor to indoor air pollution; and

(2) Reliable studies have shown that breathing second-hand smoke is a significant health hazard for certain population groups, including elderly people, individuals with cardiovascular disease, and individuals with impaired respiratory function, including asthmatics and those with obstructive airway disease; and

(3) Medical studies have shown that health hazards induced by breathing second-hand smoke include lung cancer, respiratory infection, decreased exercise tolerance, decreased respiratory function, bronchoconstriction, and bronchospasm; and

(4) Studies have shown that non-smokers who suffer allergies, respiratory diseases and other ill effects of breathing second-hand smoke may experience a loss of job productivity or may be forced to take periodic sick leave because of such adverse reactions; and

(5) Studies have shown that a majority of both non-smokers and smokers desire to have restrictions on smoking in public places and places of employment; and

(6) Smoking is a documented cause of fires, and cigarette and cigar burns and ash stains on merchandise and fixtures causing economic losses to businesses.

(b) Based on the findings in subsection (a), the Council declares that the purposes of this ordinance are:

(1) To protect the public health and welfare by prohibiting smoking in public places except in designated smoking areas, and by regulating smoking in places of employment; and

(2) To strike a reasonable balance between the needs of smokers and the needs of non-smokers to breathe smoke-free air, and to recognize that, where these needs conflict, the need to breathe smoke-free air shall have priority.

(Added Ord. 87-152, § 2, eff. 12-4-87; Am. Ord. 88-12, § 1, eff. 2-19-88).

SEC. 10-1301. FINDINGS AND PURPOSE.

The City Council finds that:

A. Stationary emissions from industries and residents, along with emissions from on-road and off-road mobile sources, combined with natural sources all contribute to a significant air pollution problem in the San Joaquin Valley. Although new regulations have resulted in lower vehicle emission levels, the number of vehicles and the vehicle miles traveled (VMT) have increased. As such, air pollution in the San Joaquin Valley has substantially increased, and is among the highest in California, resulting in several standards being increased in unprecedented numbers.

B. Air pollution is a major public health concern in the United States. The American Lung Association estimates the nationwide health costs of air pollution to be in the billions of dollars. According to the United States Public Health Service, high levels of air pollution can cause or aggravate lung illnesses such as acute respiratory infections, asthma, chronic bronchitis, emphysema, and lung cancer. Coughing, wheezing, chest pain, eye irritation, and headaches are common reactions to air pollution. Children, the elderly, athletes, and people with compromised immune systems suffer the worst health problems caused by poor air quality. In these sensitive groups, poor air quality causes more significant health impacts such as breathing difficulties, weakening of the body's ability to resist disease, and hindering the development of lung capacity among children.

C. The Clean Air Act mandates the United States Environmental Protection Agency (EPA) to establish national air quality standards that would ensure the same basic health and environmental protection for all Americans. The San Joaquin Valley Air Pollution Control District (SJVAPCD) uses the Pollutant Standard Index (PSI) to report air pollution information to the public, as well as to monitor compliance with the Clean Air Act. The EPA sets the National Ambient Air Quality Standard (NAAQS) to represent the concentration of a pollutant above which adverse health effects have been observed.

D. From 1999 to 2003, the San Joaquin Valley has exceeded the NAAQS for ozone 158 times. As a result, the EPA has reclassified the San Joaquin Valley as an extreme non-attainment area for the federal one-hour ozone standard. The loss of ozone

attainment status will force the SJVAPCD to adopt stricter regulations from a list of measures in the state implementation plan (SIP), a requirement under the Clean Air Act. New regulations could

[The next page is CD10:103]

adversely affect San Joaquin Valley businesses and possibly automobile owners. Stricter air quality regulations translate to higher costs for everyone and may cause fewer businesses to be created and retained in the San Joaquin Valley. The EPA has implemented a new ozone monitoring standard which will likely further jeopardize the future attainment status of the San Joaquin Valley and lead to adoption of even stricter standards by SJVAPCD.

E. Over ninety percent (90%) of Californians live in regions adversely affected by air quality problems, largely as a result of motor vehicle exhaust. A program to control automobile emission in California began in 1961, far in advance of federal controls. The State of California conducts its own vehicle emissions control program that is stricter than federal standards. In 1988, the California Legislature enacted the California Clean Air Act, which requires each air district not meeting state air quality standards to prepare a Clean Air Plan that would achieve the standards. The Clean Air Plan contains regulations that effect both San Joaquin Valley businesses and residents.

In 1990, the California Air Resources Board adopted the Low-Emission Vehicle regulation, which requires auto manufacturers to produce vehicles that meet increasingly stringent air quality standards. In addition, the California Air resources Board has also implemented new regulations that have and will continue to reduce emission levels from light duty, medium duty, and heavy duty trucks and buses.

F. In 2002, the state added section 25722.5 to the California Public Resources Code establishing timeframes, procedures and reporting requirements implementing the state's policy goal of developing and adopting low emission procurement specifications and standards.

G. Under this Chapter, the City of Fresno wishes to exercise its power to create strategies which are made in a manner consistent with the policy of improving the air quality in the state, city and in the San Joaquin Valley through the development and adoption of fuel efficiency specifications for the purchase and use of Low Emission Vehicles and technologies, in the most practical and cost-effective manner.

H. Under this Chapter, the City of Fresno wishes to foster, promote, and encourage the use of other modes of transportation other than the personal automobile, as well as the use of Low Emission Vehicles and technologies by developing infrastructures to support the use of these vehicles.

I. Under this Chapter, The Fresno Clean Air Advisory Committee is established to recommend strategies which encourage the use of other modes of transportation other than the personal automobile, as well as aid the City of Fresno in identifying funding sources for the purchase of Low Emission Vehicles and technologies, to research and provide recommendations which will assist the City in the procurement of Low Emission Vehicles and technologies and the development of alternative fuel infrastructures, and to educate and promote the use of Low Emission Vehicles and technologies in the private and public sectors. The Council finds and declares that the San Joaquin River and southerly San Joaquin River Bluffs are a unique natural resource that must be protected and preserved for the enjoyment of, and appreciation by, present and future generations in the City of Fresno. The Council further finds and declares that the integrity of the natural landscape is threatened by pollution and damage caused by vehicular and pedestrian traffic and activities that are not consistent with conservation of these precious natural resources.

The Council further finds and declares that vegetation fires along the San Joaquin River and to the southerly San Joaquin River Bluffs are particularly difficult to contain due to the ample flammable vegetation and difficult terrain and pose a threat to occupied structures in the area.

The ordinance enacted below is deemed necessary for the protection of the general health, safety, and welfare of people and property on the southerly San Joaquin River Bluffs.

SEC. 10-1510. DEFENSIBLE SPACE REQUIREMENTS.

(a) **Definitions.** For the purposes of this section, the following definitions shall apply:

(1) "Aerial Fuel" means all live and dead vegetation in the forest canopy or above surface fuels, including tree branches, twigs, cones, snags, moss and high brush. Examples of aerial fuel include trees and large bushes.

(2) "Defensible space" is the area within the perimeter of a parcel where basic wildfire protection practices are implemented, providing the key point of defense from an approaching wildfire or escaping structure fire. Defensible space can be created by removing dead vegetation, separating fuels, and pruning lower limbs.

(3) "Firebreak" means an area of land within thirty (30) feet of an occupied dwelling and structure in which dangerous accumulation of flammable vegetation or other combustible growth has been removed and cleared away. The creation of a firebreak shall not require the removal of single specimens of trees or other vegetation that is well pruned and maintained so as to effectively manage fuels and not form a means of rapidly transmitting fire from other nearby vegetation to any dwelling or structure.

(4) "Flammable and combustible vegetation" means any fuel.

(5) "Fuel" means live or dead vegetative material which is combustible during normal summer weather. This does not include fences, decks, woodpiles, or trash.

(6) "Horizontal Clearance" means the distance between aerial fuels, such as the outside edge of tree crowns or high brush. Horizontal clearance helps stop the spread of fire from one fuel to the next.

(7) "Surface Fuel" means loose surface litter on the soil surface, normally consisting of fallen leaves or needles, twigs, bark, cones and small branches that have not yet decayed enough to lost their identity; also grasses, forbs, low and medium shrubs, tree seedlings, heavier branches and downed logs.

(8) Reserved.

(9) "Vertical Clearance" means the distance between lower limbs of aerial fuels and the nearest surface fuels and grass or weeds. Vertical clearance helps prevent fire from moving from shorter fuels to taller fuels.

(b) **Application.** The requirements of this section shall apply to the following parcels:

(1) Parcels located in the territory of the City of Fresno between the midpoint of the San Joaquin River and the southerly bluff edge between Highway 99 and Highway 41;

(2) Parcels located within the Bluff Preservation Overlay District which abut the bluff edge.

(c) **Defensible Space Requirement.** Any person, corporation or other entity owning, leasing, occupying or directly controlling or having charge of any property subject to this article shall comply with the following standards for maintaining defensible space with respect to the area surrounding any inhabited dwellings and structures from April 15 through September 30 of each year as follows:

(1) Maintain a firebreak by removing and clearing away dangerous accumulation of flammable vegetation and other combustible growth within thirty (30) feet of each inhabited dwelling and structure. This requirement does not apply to endangered, rare, or threatened plant species that are found within thirty (30) feet of an inhabited dwelling and structure. Single specimens of trees or other vegetation may be retained provided they are well spaced, well pruned, maintained in a live condition and create a condition that avoids the spread of fire to other vegetation or to a building or structure. Grass four (4) inches or shorter in height may be retained where necessary to prevent erosion or when isolated from other fuels.

(d) **Failure to Maintain Defensible Space.** It is unlawful and a public nuisance for any person, corporation or other entity owning, leasing, occupying, directly controlling or having charge of any property subject to this article to maintain the following conditions on said property which endanger the public safety by creating a fire hazard:

(1) A dangerous accumulation of flammable vegetation or combustible growth located within thirty (30) feet of an occupied dwelling and structure which prevents the creation of a firebreak and endangers public safety by creating a fire hazard; or

(2) Brush or other flammable material within ten feet of a propane tank.

(3) A dangerous accumulation of dry grass, dead or decayed trees, weeds, brush or leaves, needles, or other dead vegetative growth located adjacent to any occupied dwelling or structure such that it endangers public safety by creating a fire hazard.

(e) No person shall be required to maintain any clearing on any land if that person does not have the legal right to maintain the clearing, nor is any person required to enter upon, remove vegetation or damage property that is owned by another person without the consent of that person.

(f) The provisions of Section 10-1510(c) and (d) shall not apply to land or water area that are acquired or managed for one or more of the following purposes or uses:

(1) Habitat for endangered or threatened species, or any species that is a candidate for listing as an endangered or threatened species by the state or federal government;

(2) Lands kept in a predominantly natural state as habitat for wildlife, plant, or animal communities;

(3) Open space lands that are environmentally sensitive parklands;

(4) Other lands having scenic values, as declared by the local agency or by state or federal law;

(5) Cultivated agricultural land or land used for animal grazing.

(g) **Enforcement.** This section shall be enforced pursuant to the provisions of Chapter 10, Article 6 relating to abatement of public nuisances.
(Added Ord. 2010-11, § 1, eff. 10-12-10).

SEC. 10-1511. PROGRESS REVIEW.

A review of the effectiveness of this ordinance shall be conducted after one (1) year, or at any time deemed necessary by the City Council. The City Council may direct staff to provide any information necessary for evaluating the effectiveness of this ordinance.
(Added Ord. 2010-11, § 1, eff. 10-12-10).

This article shall be known as the "Rental Housing Improvement Act." The intent of this article is to safeguard and preserve the housing stock of decent, safe and sanitary residential rental units within the city and to protect persons residing in them by providing for a regular and comprehensive system of inspection and, through such inspections, identify and require the correction of substandard conditions. Additionally, the Council finds the safety of rental housing properties is increased through the participation of owners, tenants, the city and the community. The purpose of this article is to identify substandard housing violations through an effective pro-active and re-active inspection program to ensure rental housing units in the city meet minimum health and safety standards required by the State of California and are safe to occupy, and provide: (1) adequate resources to effectively and timely remedy violations; and (2) to greatly reduce substandard housing in the city.

(b) Provisions of this article shall be supplementary and complementary to all of the provisions of this Code, and any local, state or federal law. The city shall prioritize for inspection those Properties that have been the subject of complaints, excessive police or fire calls for service, or based on any other available relevant information, including age, neighborhood condition, and likelihood of finding substandard conditions.

(c) **Compliance with Codes and Standards.** Residential Rental Units shall be required to be in conformance and maintained in accordance with the code standard that was in effect at the time the Residential Rental Unit was constructed, substantially altered, or remodeled, erected, or converted, except for any additional requirements mandated by this Code or state law.

SEC. 10-1700. PURPOSE.

The streets and public areas within the city should be readily accessible and available to residents and the public at large. The use of these areas for camping purposes or storage of personal property interferes with the rights of others to use the areas for which they were intended. Such activity can constitute a public health and safety hazard which adversely impacts neighborhoods and commercial areas. Camping on private property without the consent of the owner, proper sanitary measures and for other than a minimal duration adversely affects private property rights as well as public health, safety, and welfare of the city. The purpose of this article is to maintain streets, parks and other public and private areas within the city in a clean, sanitary and accessible condition and to adequately protect the health, safety and public welfare of the community, while recognizing that, subject to reasonable conditions, camping and camp facilities associated with special events can be beneficial to the cultural and educational climate in the city. Nothing in this article is intended to interfere with otherwise lawful and ordinary uses of public or private property. (Added Ord. 2017-40, § 1, eff. 9-29-17)

Said terms and conditions and the relocation bond shall provide for the removal of all concrete, lumber, and other debris and the filling of basements, cellars, or other excavations remaining from the removal of the building or structure from the premises from which it is moved when such premises are within the city. (Added Ord. 56-58, 1959).

SEC. 11-218. DEBRIS AND EXCAVATIONS.

It shall be the duty of any person to whom any permit is issued for the demolition or for the removal of any building, or any section or portion of any building pursuant to the provisions of this article, and of any person leasing, owning, or occupying or controlling any lot or parcel of ground from which a building is removed or demolished to remove all weeds, concrete or stone foundations, flat concrete, concrete patios, masonry walls, garage floors, driveways, and similar structures and all loose, miscellaneous, and useless material from such lot or parcel of ground, and to properly cap the sanitary sewer house connection, and to properly fill or otherwise protect all basements, cellars, septic tanks, wells, and other excavations, and said lot or parcel shall be left level and in a condition to be disked for control of weeds. (Added Ord. 56-58, 1959; Am. Ord. 6682, 1965; Am. Ord. 73-151, § 1, eff. 11-11-73).

SEC. 11-219. DENIAL OF PERMIT.

If the unlawful, dangerous or defective condition of the building or structure proposed to be relocated is such that remedy or correction cannot practicably and effectively be made, the relocation permit shall be denied. (Added Ord. 5658, 1969).

SEC. 11-220. RELOCATION BOND REQUIRED.

No relocation permit required by this section shall be issued by the Director of Planning and Inspection unless the applicant therefor shall first post with him a bond executed by the owner of the premises where the building or structure is to be located, as principal, and a surety company authorized to do business in the state, as surety. The bond shall be in form joint and several, shall name the city as obligee and shall be in an amount equal to the cost plus ten per cent of the work required to be done in order to comply with all of the conditions of such relocation permit as such cost is estimated by the Director of Planning and Inspection. In lieu of a surety bond the applicant may post a bond executed by the owner, as principal, and which is secured by a deposit in cash in the amount named above and conditioned as required in the case of a surety bond; such a bond as so secured is hereafter called a "cash bond" for the purposes of this section. No bond, however, need be posted in any case where the Director of Planning and Inspection shall determine that the only relocation involved is that of moving a building temporarily to the regularly occupied business premises of a house mover. (Added Ord. 5658, 1959).

SEC. 11-221. RELOCATION BOND—CONDITIONS.

Every bond posted pursuant to this section shall be conditioned as follows:

(1) That each and all of the terms and conditions of the Relocation Permit shall be complied with to the satisfaction of the Director of Planning and Inspection;

(2) That all of the work required to be done pursuant to the conditions of the Relocation Permit shall be fully performed and completed within the time limit specified in the Relocation Permit; or, if no time limit is specified, within ninety days after the date said building is moved to its new location. The time limit herein specified, or the time limit

specified in any permit, may be extended for good and sufficient cause by the Director of Planning and Inspection. No such extension of time shall be valid unless written and no such extension shall release any surety upon any bond. (Added Ord. 5658, 1959).

SEC. 11-222. RELOCATION BOND - DEFAULT IN PERFORMANCE OF CONDITIONS.

(a) Whenever the Director of Planning and Inspection shall find that a default has occurred in the performance of any term or condition of any permit required by this Section, written notice thereof shall be given to the principal and to the surety of the bond. Such notice shall state the work to be done, the estimated cost thereof and the period of time deemed by the Director of Planning and Inspection to be reasonably necessary for the completion of such work. After receipt of such notice, the surety must, within the time therein specified, either cause the required work to be performed or, failing therein, must pay over to the Director of Planning and Inspection the estimated cost of doing the work as set forth in the notice, plus an additional sum equal to ten per cent of the estimated cost. Upon the receipt of such moneys, the Director of Planning and Inspection shall proceed by such mode as he deems convenient to cause the required work to be performed and completed, but no liability shall be incurred therein other than for the expenditure of the sum in hand therefor. The balance, if any, of such moneys shall, upon completion of the work, be returned to the depositor, or to his successors or assigns, after deducting the cost incurred in obtaining the completion of the work.

(b) If a cash bond has been posted, notice of default as provided above shall be given to the principal and if compliance is not had within the time specified, the Director of Planning and Inspection shall proceed without delay and without further notice or proceedings whatever to use the cash deposited, or any portion of such deposit, to cause the required work to be done by contract or otherwise in the discretion of the Director of Planning and Inspection.

(c) When any default has occurred on the part of the principal under the preceding provisions, the surety shall have the option in lieu of completing the work required to demolish the building or structure and to clear, clean and restore the site. If the surety defaults, the Director of Planning and Inspection shall have the same option.

(d) In the event of any default in the performance of any term or condition of the Relocation Permit, the surety, or any person employed or engaged on its behalf, or the Director of Planning and Inspection or any person employed or engaged on his behalf, shall have the right to go upon the premises to complete the required work or to remove or to demolish the building or structure.

(e) No person shall interfere with or obstruct the ingress or egress to or from any such premises by any authorized representative or agent of any surety or of the city engaged in the work of completing, demolishing or removing a building or structure for which a relocation permit has been issued after a default has occurred in the performance of the terms or conditions thereof. (Added Ord. 5658, 1959).

SEC. 11-223. RELOCATION BOND—TERMINATION—REFUND OF SURPLUS.

The term of each bond posted pursuant to this section shall begin upon the date of the posting thereof, and shall end upon completion to the satisfaction of the Director of Planning and Inspection of the performance of all the terms and conditions of the relocation permit required by this section. Such completion shall be evidenced by a statement thereof signed by the Director of Planning and Inspection, a copy of which will be sent to any surety or principal upon request. When a cash bond has been posted the cash shall be returned to the depositor or to his successors or assigns upon the termination of the bond, except any portion thereof that may have been used or deducted as elsewhere in this article provided.
