(b) **Limitations of Authority.** The Building Standards Appeals Board shall have no authority relative to interpretations of the administrative provisions of this article nor shall the Building Standards Appeals Board be empowered to waive requirements of any provisions of the Fresno Municipal Code.
(Added Ord. 97-71, § 1, 1-4-98; Ord. No. 2014-27, § 1, eff. 7-19-14; Am. Ord. 2025-020, § 1, eff. 7-18-25).

Editor's note—Ord. 2025-020, § 1, effective July 18, 2025, amended the title of § 11-504 to read as herein set out. The former § 11-504 title pertained to Building Commission.

SEC. 11-505. EFFECT OF FAILURE TO APPEAL.

Failure of any person to file an appeal in accordance with the provisions of this article shall constitute a waiver of the right to an administrative hearing and adjudication of the Notice and Order or portion thereof. The provisions of this notice and order will become final.
(Added Ord. 97-71, § 1, 1-4-98; Am. Ord. 2025-020, § 1, eff. 7-18-25).

Editor's note—Am. Ord. 2025-020, § 1, effective July 18, 2025, repealed §§ 11-505—11-509, which pertained to appeals and derived from Ord. 97-71, § 1, effective January 4, 1998. Subsequently, Ord. 2025-020, § 1, effective July 18, 2025, renumbered the former § 11-510 as § 11-505. The historical notation has been retained with the amended provisions for reference purposes.

ARTICLE 6 FRESNO FLOOD PLAIN ORDINANCE

Sec. 11-601. Statutory Authorization.
Sec. 11-602. Findings of Fact.
Sec. 11-603. Statement of Purpose.
Sec. 11-604. Methods of Reducing Flood Losses.
Sec. 11-605. Definitions.
Sec. 11-606. Lands to Which this Ordinance Applies.
Sec. 11-607. Basis for Establishing the Areas of Special Flood Hazard.
Sec. 11-608. Compliance.
Sec. 11-609. Greater Restrictions.
Sec. 11-610. Interpretation.
Sec. 11-611. Warning and Disclaimer of Liability.
Sec. 11-612. Severability.
Sec. 11-613. Establishment of Development Permit.
Sec. 11-614. Designation of the Flood Plain Administrator.
Sec. 11-615. Duties and Responsibilities of the Flood Plain Administrator.
Sec. 11-616. Permit Application Review.
Sec. 11-617. Review and Use of Any Other Base Flood Data.
Sec. 11-618. Notification of Other Agencies.
Sec. 11-619. Documentation of Flood Plain Development.
Sec. 11-620. Map Determinations.
Sec. 11-621. Remedial Action.
Sec. 11-622. Appeals.
Sec. 11-623. Standards of Construction.
Sec. 11-624. Anchoring.
Sec. 11-625. Construction Materials and Methods.
Sec. 11-626. Elevation and Flood Proofing.
Sec. 11-627. Residential Construction.
Sec. 11-628. Nonresidential Construction.
Sec. 11-629. Flood Venting.
Sec. 11-630. Manufactured Homes.
Sec. 11-631. Standards for Utilities.
Sec. 11-632. Standards for Subdivisions and Other Proposed Development.
Sec. 11-633. Standards for Manufactured Homes.
Sec. 11-634. Standards for Recreational Vehicles.
Sec. 11-635. Floodways.
Sec. 11-636. Standards for Storage of Materials and Equipment.
Sec. 11-637. Nature of Variances.
Sec. 11-638. Appeals Board.
Sec. 11-639. Written Notice.
Sec. 11-640. Record of Variances.
Sec. 11-641. Conditions of Variances.

SEC. 11-601. STATUTORY AUTHORIZATION.

The Legislature of the State of California has in Government Code Sections 65302, 65560, and 65800 conferred upon local governments the authority to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry. Therefore, the Council of the City of Fresno does hereby adopt the following floodplain management regulations.
(Added Ord. 2014-15, § 2, eff. 4-18-14).

Editor's note—Ord. No. 2014-15, § 1, effective April 18, 2014, amended the Code by repealing former § 11-601 and adding a new § 11-601. Former § 11-601 pertained to the title of this article, and derived from Ord. 2005-102, effective September 20, 2005; and Ord. 2007-92, effective January 17, 2008.

SEC. 11-602. FINDINGS OF FACT.

(a) The flood hazard areas of the City of Fresno are subject to periodic inundation which could result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.

(b) These flood losses are caused either by encroachment of development into areas of special flood hazard or by the cumulative effect of obstructions in those areas. This in turn results in increased flood heights and velocities, and displaces flood flows onto lands not otherwise subject to special flood hazard. Such flood losses also occur when such developments are inadequately flood proofed, elevated or otherwise protected from flood damage. Inadequately anchored development can result in damage to uses in other areas.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-603. STATEMENT OF PURPOSE.

It is the purpose of this article to promote the public health, safety and general welfare, and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

(a) Protect human life and health;

(b) Minimize expenditure of public money for costly flood control projects;

(c) Minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;

(d) Minimize prolonged business interruptions;

(e) Minimize damage to public facilities and utilities such as water and gas mains; electric, telephone and sewer lines; and street and bridges located in areas of special flood hazard;

(f) Help maintain a stable tax base by providing for the sound use and development of areas of special flood hazard so as to minimize future blighted areas caused by flood damage;

(g) Ensure that potential buyers are notified that property is in an area of flood hazard; and

(h) Ensure that those who occupy the areas of special flood hazard assume responsibility for their actions.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-604. METHODS OF REDUCING FLOOD LOSSES.

In order to accomplish its purposes, this ordinance includes methods and provisions to:

(a) Restrict or prohibit uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion or flood heights or velocities;

(b) Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;

(c) Control filling, grading, dredging, and other development which may increase flood damage;

(d) Prevent or regulate the construction of flood barriers which will unnaturally divert flood water or which may increase flood hazards in other areas; and

(e) Control the alteration of natural flood plains, stream channels, and natural protective barriers, which help accommodate or channel flood waters.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-605. DEFINITIONS.

Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning and application of words and phrases used in this article, and except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 2 (commencing with Section 1-201) of Chapter 1 of this Code shall also govern the construction, meaning and application of words and phrases used in this article. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(a) "Appeal" means a request for a review of the Flood Plain Administrator's interpretation of any provision of this article.

"Area of Shallow Flooding" means a designated AO or AH Zone on the Flood Insurance Rate Map (FIRM). The base flood depths range from one to three feet; a clearly defined channel does not exist; the path of flooding is unpredictable and indeterminate; and velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

"Area of Special Flood Hazard" - See "Special flood hazard area."

(b) "Base Flood" means a flood which has a one percent chance of being equaled or exceeded in any given year (also called the "100-year flood"). Base flood is the term used throughout this article.

"Basement" means any area of the building having its floor sub grade - i.e., below ground level on all sides.

"Building" - see "Structure".

(c) (Reserved.)

(d) "Development" means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials.

(e) "Encroachment" means the advance or infringement of uses, plant growth, fill, excavation, buildings, permanent structures or development into a flood plain which may impede or alter the flow capacity of a flood plain.

"Existing manufactured home park or subdivision" means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before April 15, 1983.

"Expansion to an existing manufactured home park or subdivision" means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

(f) "Flood, Flooding, or Flood Water" means:

(1) A general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland waters; the unusual and rapid accumulation or runoff of surface waters from any source; and/or

(2) The condition resulting from flood related erosion — see "Flood related erosion".

"Flood Boundary and Floodway Map (FBFM)" means the official map on which the Federal Emergency Management Agency or Federal Insurance Administration has delineated both the areas of special flood hazards and the floodway.

"Flood Hazard Boundary Map (FHBM)" means the official map on which the Federal Emergency Management Agency or Federal Insurance Administration has delineated the areas of flood hazards.

"Flood Insurance Rate Map (FIRM)" means the official map on which the Federal Emergency Management Agency or Federal Insurance Administration has delineated both the areas of flood hazards and the risk premium zones applicable to the community.

"Flood Insurance Study (FIS)" means the official report provided by the Federal Insurance Administration that includes flood profiles, the Flood Insurance Rate Map, the Flood Boundary and Floodway Map, and the water surface elevation of the base flood.

"Flood Plain or Flood-prone Area" means any land area susceptible to being inundated by water from any source - see "Flooding".

"Flood Plain Administrator" is the Building Official for the City of Fresno.

"Flood Plain Management" means the operation of an overall program of corrective and preventive measures for reducing flood damage and preserving and enhancing, where possible, natural resources in the flood plain, including but not limited to emergency preparedness plans, flood control works, flood plain management regulations, and open space plans.

"Flood Plain Management Regulations" means federal, state or local regulations in any combination thereof which provide standards for preventing and reducing flood loss and damage, including this Ordinance and other zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances (such as grading and erosion control) and other application of police power which control development in flood-prone areas.

"Flood Proofing" means any combination of structural and nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures, and their contents.

"Flood-related erosion" means the collapse or subsidence of land along the shore of a lake or other body of water as a result of undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as a flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding.

"Floodway" - See "Regulatory Floodway".

"Floodway Fringe" is that area of the flood plain on either side of the "Regulatory Floodway" where encroachment may be permitted.

"Fraud and Victimization" as related to variances under Sections 11-637 to 11-641, means that the variance granted must not cause fraud on or victimization of the public. In examining this requirement, the Council will consider the fact that every newly constructed building adds to government responsibilities and remains a part of the community for fifty to one-hundred years. Buildings that are permitted to be constructed below the base flood elevation are subject during all those years to increased risk of damage from floods, while future owners of the property and the community as a whole are subject to all the costs, inconvenience, danger, and suffering that those increased flood damages bring. In addition, future owners may purchase the property, unaware that it is subject to potential flood damage, and can be insured only at very high flood insurance rates.

"Functionally Dependent Use" means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, and does not include long-term storage or related manufacturing facilities.

(g) (Reserved.)

(h) "Hardship" as related to variances under Sections 11-637 to 11-641 means the exceptional hardship that would result from a failure to grant the requested variance. The variance must be exceptional, unusual, and peculiar to the property involved. Mere economic or financial hardship alone is not exceptional. Inconvenience, aesthetic considerations, physical handicaps, personal preferences, or the disapproval of one's neighbors likewise cannot, as a rule, qualify as an exceptional hardship. All of these problems can be resolved through other means without granting a variance, even if the alternative is more expensive, or requires the property owner to build elsewhere or put the parcel to a different use than originally intended.

"Highest Adjacent Grade" means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"Historic Structure" means any structure that is

(1) Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

(2) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;

(3) Listed or determined to be eligible by the State Historical Resources Commission, for listing in the California Register of Historical Resources; or

(4) Individually listed or determined to be eligible by the Historical Preservation Commission, for listing in the Local Register of Historic Resources.

(i) (Reserved.)

(j) (Reserved.)

(k) (Reserved.)

(l) "Levee" means a man-made structure, usually an earthen embankment, designed and constructed in accordance with sound engineering practices to contain, control or divert the flow of water so as to provide protection from temporary flooding.

"Levee System" means a flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accord with sound engineering practices.

"Lowest Floor" means the lowest floor of the lowest enclosed area, including basement (see "Basement" definition).

(1) An unfinished or flood resistant enclosure below the lowest floor that is usable solely for parking of vehicles, building access or storage in an area other than a basement area, is not considered a building's lowest floor provided it conforms to applicable non-elevation design requirements, including, but not limited to:

a. The wet flood proofing standard in Section 11-629.

b. The anchoring standards in Section 11-624.

c. The construction materials and methods standards in Section 11-625.

d. The standards for utilities in Section 11-631.

(2) For residential structures, all sub grade enclosed areas are prohibited as they are considered to be basements (see "Basement" definition). This prohibition includes below-grade garages and storage areas.

(m) "Manufactured home" means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The term "manufactured home" does not include a "recreational vehicle".

"Manufactured home park or subdivision" means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

"Map Amendment" means the exclusion of an individual structure and/or a legally described parcel of land that was inadvertently included in the SFHA shown on the effective Flood Hazard Boundary Map (FHBM) or Flood Insurance Rate Map (FIRM). When the Federal Emergency Management Agency (FEMA) determines that the structure or parcel has been inadvertently included in the SFHA, FEMA issues a letter, referred to as a Letter of Map Amendment (LOMA). The LOMA excludes the structure and/or parcel of land that was inadvertently included in the SFHA and officially amends the effective FHBM or FIRM.

"Map Revision" A change to an effective Flood Hazard Boundary Map (FHBM) or Flood Insurance Rate Map (FIRM). When a map revision is warranted, the Federal Emergency Management Agency will either revise and republish the affected map panels or issue a letter, referred to as a Letter of Map Revision (LOMR) that describes the changes and officially revises the effective FHBM or FIRM.

"Mean sea level" means, for purposes of the National Flood Insurance Program (NFIP), the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.

(n) "New construction", for flood plain management purposes, means structures for which the "start of construction" commenced on or after April 15, 1983, and includes any subsequent improvements to such structures.

"New manufactured home park or subdivision" means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after April 15, 1983.

(o) "Obstruction" includes, but is not limited to, any dam, wall, wharf, embankment, levee, dike, pile, abutment, protection, excavation, channelization, bridge, conduit, culvert, building, wire, fence, rock, gravel, refuse, fill, structure, vegetation or other material in, along, across or projecting into any watercourse which may alter, impede, retard or

change the direction and/or velocity of the flow of water, or due to its location, its propensity to snare or collect debris carried by the flow of water, or its likelihood of being carried downstream.

"One-hundred-year flood" or "100-year flood" - see "Base flood."

(p) "Public safety and nuisance" as related to variances under Section 11-100.600.106 means that the granting of a variance must not result in anything which is injurious to safety or health of an entire community or neighborhood, or any considerable number of persons, or unlawfully obstructs the free passage or use, in the customary manner, of any navigable lake, or river, bay, stream, canal, or basin.

(q) (Reserved.)

(r) "Recreational Vehicle" means a vehicle which is

(1) Built on a single chassis;

(2) 400 square feet or less when measured at the largest horizontal projection;

(3) Designed to be self-propelled or permanently towable by a light-duty truck; and

(4) Designed primarily not for use as a permanent dwelling but as temporary-living quarters for recreational, camping, travel, or seasonal use.

"Regulatory floodway" means the channel of a river or other watercourse and the adjacent land areas that must be preserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

"Remedy a violation" means to bring the structure or other development into compliance with flood plain management regulations, or, if this is not possible, to reduce the impacts of the noncompliance. Ways that impacts may be reduced include protecting the structure or other affected development from flood damages, implementing the enforcement provisions of this ordinance or otherwise deterring future similar violations, or reducing State or Federal financial exposure with regard to the structure or other development.

"Riverine" means relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

(s) "Sheet flow area" - see "Area of shallow flooding".

"Special flood hazard area (SFHA)" means an area having special flood hazards, and shown on an FHBM or FIRM as Zone A, AO, A1-A30, AE, A99, or AH.

"Start of construction" means the date a permit was issued to construct a new development or a substantial improvement of an existing development, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days from the date of the permit. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land

preparation, such as clearing, grading, and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

"Structure" means a walled and roofed building that is principally above ground; this includes a gas or liquid storage tank or a manufactured home.

"Substantial damage" means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

"Substantial improvement" means any reconstruction, rehabilitation, addition, or other proposed new development of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures which have incurred "substantial damage", regardless of the actual repair work performed. The term does not, however, include either:

(1) Any project for improvement of a structure to correct existing violations or state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or

(2) Any alteration of a "historic structure", provided that the alteration will not preclude the structure's continued designation as a "historic structure".

(t) (Reserved.)

(u) (Reserved.)

(v) "Variance" means a grant of relief from the requirements of this article which permits construction in a manner that would otherwise be prohibited by this article.

"Violation" means the failure of a structure or other development to be fully compliant with this ordinance. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in this ordinance is presumed to be in violation until such time as that documentation is provided.

(w) "Water surface elevation" means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, (or other datum, where specified) of floods of various magnitudes and frequencies in the flood plains of riverine areas.

"Watercourse" means a lake, river, creek, stream, wash, arroyo, channel or other topographic feature on or over which waters flow at least periodically. Watercourse includes any specifically designated areas in which substantial flood damage may occur.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-606. LANDS TO WHICH THIS ORDINANCE APPLIES.

This ordinance shall apply to all areas of special flood hazards within the jurisdiction of the city.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-607. BASIS FOR ESTABLISHING THE AREAS OF SPECIAL FLOOD HAZARD.

The areas of special flood hazard identified by the Federal Emergency Management Agency (FEMA) in the Flood Insurance Study (FIS) for Fresno County, California and incorporated areas dated February 18, 2009, with accompanying Flood Insurance Rate Maps (FIRM's) and Floodway Boundary and Floodway Maps (FBFM's) dated February 18, 2009, and all subsequent amendments and/or revisions, are hereby adopted by reference and declared part of this ordinance. The FIS and attendant mapping is the minimum area of applicability of this ordinance and may be supplemented by studies for other areas which allow implementation of this ordinance and which are recommended to the Council by the Floodplain Administrator. The study, FIRM's and FBFM's are on file in the Development and Resource Management Department.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08; Am. Ord. 2014-15, § 2, eff. 4-18-14).

SEC. 11-608. COMPLIANCE.

No structure or land shall hereafter be constructed, located, extended, converted, or altered without full compliance with the term of this article and other applicable regulations. Violation of the requirements (including violations of conditions and safeguards established in connection with conditions) shall constitute a public nuisance and a misdemeanor. Violations may be treated as a violation of the Dangerous Building Ordinance (Chapter 11, Article 4) and abated under the procedures found therein.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-609. GREATER RESTRICTIONS.

Where this article and another ordinance, easement, covenant, or deed restriction conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-610. INTERPRETATION.

In the interpretation and application of this article, all provisions shall be:

(a) Considered as minimum requirements;

(b) Liberally construed in favor of the City of Fresno; and

(c) Deemed neither to limit nor repeal any other powers granted under state statutes.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-611. WARNING AND DISCLAIMER OF LIABILITY.

The degree of flood protection required by this article is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This article does not imply that land outside the areas of special flood hazard, or uses permitted within such areas will be free from flooding or flood damages. This article shall not create liability on the part of the Council, any officer or employee thereof, the State of California, or the Federal Insurance Administration, Federal Emergency Management Agency, for any flood damages that may result from reliance on this article or any administrative decision lawfully made thereunder.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-612. SEVERABILITY.

If any section, sentence, clause or phrase of this article is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portion of this article. The Council hereby declares that it would have passed this ordinance and adopted this article and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-613. ESTABLISHMENT OF DEVELOPMENT PERMIT.

A building permit shall be obtained before any construction or other development begins within any area of special flood hazard established in Section 11-607. Application for a building permit shall be made on forms furnished by the Flood Plain Administrator, and may include, but shall not be limited to: plans (4 sets) drawn to scale showing the nature, location, dimensions, and elevation of the area in question; existing or proposed structures, fill, storage of materials, drainage facilities; and the location of the foregoing. Specifically, the following information is required.

(a) Proposed elevation, in relation to mean sea level, of the lowest floor (including basement) of all structures; in Zone AO, the elevation of highest adjacent grade and the proposed elevation of lowest floor of all structures; or

(b) Proposed elevation, in relation to mean sea level, to which any nonresidential structure will be floodproofed, if required in section 11-628, and section 11-629; and

(c) Appropriate certifications listed in section 11-613 and 11-619; and

(d) Description of the extent to which any watercourse will be altered or relocated as a result of proposed development; and

(e) Certification by a registered professional civil engineer or architect that flood waters are not displaced or diverted as a result of proposed development, unless such certification is waived by the Flood Plain Administrator; and

(f) Certification by registered professional civil engineer or architect that the proposed development complies with Section 11-616 through 11-618 unless such certification is waived by the Flood Plain Administrator; and

(g) Hydrologic study, calculations, documentation, and supporting data certified by the registered professional civil engineer or architect which substantiate compliance with this article and application review requirements of Section 11-616.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-614. DESIGNATION OF THE FLOOD PLAIN ADMINISTRATOR.

The Building Official is hereby appointed to administer, implement, and enforce this article by granting or denying development permits in accord with its provisions.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-615. DUTIES AND RESPONSIBILITIES OF THE FLOOD PLAIN ADMINISTRATOR.

The duties and responsibilities of the Flood Plain Administrator shall include, but not be limited to the provisions in Sections 11-616 to 11-621.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-616. PERMIT APPLICATION REVIEW.

The Flood Plain Administrator shall review all development applications to determine that:

(a) The permit requirements of this article have been satisfied.

(b) All other required state and federal permits have been obtained.

(c) The site is reasonably safe from flooding.

(d) The proposed development does not adversely affect the flood-carrying capacity of areas where base flood elevations have been determined but a floodway has not been designated. For the purposes of this article, "adversely affects" shall mean that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will increase the water surface elevation of the base flood more than one foot at any point, or displace flood water into areas not otherwise subject to such special flood hazards.

(e) The flood discharge exiting the development after construction is equal to or less than the flood discharge prior to development.

(f) Any reduction in discharge prescribed in subdivision (e) above is the result of new flood water storage capacities provided by the development and not the result of the diversion of flood flows, unless approved by the Flood Plain Administrator.

(g) The volume of space occupied by the proposed fill or structure below the base flood elevation is compensated for and balanced by a hydraulically equivalent volume of excavation taken from below the base flood elevation. All such excavations shall be constructed to drain freely to the watercourse.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-617. REVIEW AND USE OF ANY OTHER BASE FLOOD DATA.

When base flood elevation data has not been provided in accordance with Section 11-607. The Flood Plain Administrator shall obtain, review, and reasonably utilize any base flood elevation and floodway data available from a federal or state agency, or other source, in order to administer Sections 11-623 to 11-636. Any such information shall be submitted to the Council for adoption.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-618. NOTIFICATION OF OTHER AGENCIES.

1. In alteration or relocation of a watercourse, the Flood Plain Administrator shall:

a) Notify adjacent communities and the California Department of Water Resources prior to alteration or relocation;

b) Submit evidence of such notification to the Federal Emergency Management Agency;

c) Assure that the flood carrying capacity within the altered or relocated portion of said watercourse is maintained; and

d) Provide notice to the Fresno Metropolitan Flood Control District of all development applications pertaining to lands in excess of one-half acre in size located within areas of special flood hazard.

2. In changes to the Base Flood Flevation due to physical alterations, the Flood Plain Administrator shall:

a) Submit or assure that permit applicants submit technical or scientific data to FEMA for a Letter of Map Revision (LOMR) within six months of the information becoming available or project completion, whichever comes first

b) Assure that all LOMOR's for flood control projects are approved prior to the issuance of building permits. Building permits must be issued based on Conditional Letters of Map Revision (CLOMR's). Approved CLOMR's allow construction of the proposed flood control project and land preparation as specified in the "start of construction" definition.

c) Such submissions are necessary so that upon confirmation ol physical changes affecting flooding conditions, risk premium rates and flood plain management requirements are based on current data.

3. In changes to the corporate boundaries of the City of Fresno, the Flood Plain Administrator shall:

a) Notify FEMA in writing whenever the corporate boundaries have been modified by annexation or other means and include a copy of a map of the community clearly delineating the new boundary limits.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08; Am. Ord. 2009-11, §§ 1, 2, eff. 5-1-09).

SEC. 11-619. DOCUMENTATION OF FLOOD PLAIN DEVELOPMENT.

The Flood Plain Administrator shall obtain and maintain for public inspection and make available as needed the following:

(a) Certification required by Section 11-627 (lowest floor elevations);

(b) Certification required by Section 11-628 (elevation or floodproofing of nonresidential structures);

(c) Certification required by Sections 11-629 (wet floodproofing standard);

(d) Certification of elevation required by Section 11-632 (subdivision standards);

(e) Certification required by Section 11-635 (floodway encroachments).

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-620. MAP DETERMINATIONS.

The Flood Plain Administrator shall make interpretations where needed, as to the exact location of the boundaries of the areas of special flood hazard. Where there appears to be a conflict between a mapped boundary and actual field conditions, the person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in Section 11-622.

EXCEPTION: Where there appears to be a conflict between a mapped boundary and actual field conditions. Wherein the subject property is located within a special flood hazard area (SFHA) on the FIRM, and the actual field conditions indicate that the property is outside the SFHA. Appeal is available through the Federal Emergency Management Agency (FEMA) as a "Map Amendment" (see Section 11-605 definition for "map amendment").

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-621. REMEDIAL ACTION.

The Flood Plain Administrator may take action to remedy violations of this article as specified in Section 11-608.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-622. APPEALS.

The Building Commission of the City of Fresno shall hear and decide appeals when it is alleged there is an error in any requirement, decision, or determination made by the Flood Plain Administrator in the enforcement or administration of this article. If appointments to the Building Commission have not been made or the Building Commission is deemed to be inactive, all appeals regarding any alleged error in any requirement, decision, or determination made by the Flood Plain Administrator in the enforcement or administration of this article shall by [be] heard by the Hearing Officer pursuant to Chapter 1, Article 4.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08; Ord. No. 2014-27, § 2, eff. 7-19-14).

SEC. 11-623. STANDARDS OF CONSTRUCTION.

In all areas of special flood hazard, the standards in Sections 11-624 to 11-630 are required.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-624. ANCHORING.

(a) All new construction and substantial improvements shall be adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

(b) All manufactured homes shall meet the anchoring standards of Section 11-633.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-625. CONSTRUCTION MATERIALS AND METHODS.

All new construction and substantial improvements of structures, including manufactured homes, shall be constructed:

(a) With flood resistant materials, and utility equipment resistant to flood damage for areas below the base flood elevation.

(b) Using methods and practices that minimize flood damage.

(c) With electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

(d) Within Zones AH or AO, so that there are adequate drainage paths around structures on slopes to guide flood waters around and away from structures.

(e) All fill placed in the area of the building pads shall be compacted to 95 percent of the maximum density obtainable with the Standard Proctor Test method issued by the American Society for Testing and Materials (ASTM Standard D-698).

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08; Am. Ord. 2014-15, § 2, eff. 4-18-14).

SEC. 11-626. ELEVATION AND FLOOD PROOFING.

(See SECTION 11-605 definitions for "basement," "lowest floor," "new construction," "substantial damage" and "substantial improvement.")
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-627. RESIDENTIAL CONSTRUCTION.

In General, New or substantial improvement, shall be in conformance with adopted California Residential Building Code section R322.2.1.
(Added Ord. 2025-041, § 2, eff. 10-31-25).

Editor's note—Added Ord. 2025-041, §§ 1, 2, adopted September 25, 2025, and effective October 31, 2025, repealed the former § 11-627, and enacted a new § 11-627 as set out herein. The former § 11-627 pertained to similar subject matter and derived from Added Ord. 2005-102, § 2, eff. September 20, 2005; Am. Ord. 2007-92, § 3, eff. January 17, 2008.

SEC. 11-628. NONRESIDENTIAL CONSTRUCTION.

Nonresidential construction, new or substantial improvement, shall have the lowest floor, shall either elevated to conform with Section 11-627 or together with attendant utility and sanitary facilities:

(a) Be floodproofed below the elevation specified under Section 11-627 so that the structure is watertight with walls substantially impermeable to the passage of water;

(b) Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and

(c) Be certified by a registered professional civil engineer or architect that the standards of this section are satisfied. Such certification shall be provided to the Flood Plain Administrator.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-629. FLOOD VENTING.

All new construction and substantial improvement with fully enclosed areas below the lowest floor (excluding basements) that are usable solely for parking of vehicles, building access or storage, and which are subject to flooding, shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwater. Designs for meeting this requirement must exceed the following minimum criteria:

(a) Be certified by a registered professional engineer or architect; or

(b) Have a minimum of two openings on different sides of each enclosed areas having a total net area of not less than one square inch for every square foot of enclosed area

subject to flooding. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, valves or other coverings or devices provided that they permit the automatic entry and exit of floodwater.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-630. MANUFACTURED HOMES.

Manufactured homes shall also meet the standards in Section 11-633.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-631. STANDARDS FOR UTILITIES.

(a) All new and replacement water supply and sanitary sewage systems shall be designed to minimize or eliminate:

(1) Infiltration of flood waters into the systems, and

(2) Discharge from the systems into flood waters.

(b) On-site waste disposal systems shall be located to avoid impairment to them, or contamination from them during flooding.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-632. STANDARDS FOR SUBDIVISIONS AND OTHER PROPOSED DEVELOPMENT.

(a) All new subdivision proposals and other proposed development greater than 50 lots or 5 acres, whichever is the lesser, shall:

(1) Identify the area of Special Flood Hazard Areas (SFHA) and the Base Flood Elevations (BFE).

(2) Identify the elevations of the lowest floors of all proposed structures and pads on the final plans.

(3) If the site is filled above the base flood elevation, the lowest floor and pad elevations and the lowest adjacent grades shall be certified by a registered professional engineer or surveyor and provided as part of an application for a Letter of Map Revision based on Fill (LOMR-F) to the Floodplain Administrator.

(b) All subdivision proposals and other proposed development shall be consistent with the need to minimize flood damage.

(c) All subdivision proposals and other proposed development shall have public utilities and facilities such as sewer, gas, electrical, and water systems located and constructed to minimize flood damage.

(d) All subdivision proposals and other proposed development shall provide adequate drainage to reduce exposure to flood hazards.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08; Am. Ord. 2014-15, § 2, eff. 4-18-14).

SEC. 11-633. STANDARDS FOR MANUFACTURED HOMES.

(a) All manufactured homes that are placed or substantially improved, within Zones A1-A30, AO, AE, and AH on the community's Flood Insurance Rate Map, on sites located:

(1) Outside of a manufactured home park or subdivision,

(2) In a new manufactured home park or subdivision,

(3) In an expansion to an existing manufactured home park or subdivision, or

(4) In an existing manufactured home park or subdivision on a site upon which a manufactured home has incurred "substantial damage" as the result of a flood.

Shall be elevated on a permanent foundation such that the lowest floor of the manufactured home is elevated to the elevation specified under Section 11-627 and be securely fastened to an adequately anchored foundation system to resist flotation, collapse and lateral movement.

(b) All manufactured homes to be placed or substantially improved on sites in an existing manufactured home park or subdivision within Zones A1-A30, AE, AH, and AO on the community's Flood Insurance Rate Map that are not subject to the provisions of subdivision (1), below, will be securely fastened to an adequately anchored foundation system to resist flotation collapse, and lateral movement, and be elevated so that either the:

(1) Lowest floor of the manufactured home is at or above the elevation as specified under Section 11-627, or

(2) Manufactured home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than 36 inches in height above grade.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-634. STANDARDS FOR RECREATIONAL VEHICLES.

All recreational vehicles placed on sites within Zones A1-30, AH, AE, and AO on the community's Flood Insurance Rate Map will either:

(a) Be on the site for fewer than 180 consecutive days, and be fully licensed and ready for highway use — a recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions, or

(b) Meet the permit requirements of Section 11-613 to Section 11-622 and the elevation and anchoring requirements for manufactured homes in Section 11-633(b)(1).

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-635. FLOODWAYS.

Located within areas of special flood hazard established in Section 11-607 are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of flood water which carries debris, potential projectiles, and erosion potential, the following provisions apply:

(a) Prohibit encroachments including fill, new construction, substantial improvements, and all other development unless certification by a registered professional civil engineer or architect is provided demonstrating that the encroachments shall not result in any increase in the base flood elevation during the occurrence of the base flood discharge, and further certifying that there is no risk of diversion of such flood flows.

(b) If subdivision (a), above, is satisfied, all new construction, substantial improvement, and other proposed new development shall comply with all other applicable flood hazard reduction provisions of Sections 11-623 to 11-636.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-636. STANDARDS FOR STORAGE OF MATERIALS AND EQUIPMENT.

(a) The storage or processing of materials that are in time of flooding, buoyant, flammable, explosive, or could be injurious to human, animal or plant life is prohibited.

(b) Storage of other material or equipment may be allowed if not subject to major damage by floods and firmly anchored to prevent flotation or if readily removable from the area within the time available after flood warning.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-637. NATURE OF VARIANCES.

The variance criteria set forth in Sections 11-637 to 11-641 are based on the general principle of zoning law that variances pertain to a piece of property and are not personal in nature. A variance may be granted for a parcel of property with physical characteristics so unusual that complying with the requirements of this article would create an exceptional

hardship to the applicant or the surrounding property owners. The characteristics must be unique to the property and not be shared by adjacent parcels. The unique characteristic must pertain to the land itself, not to the structure, its inhabitants, or the property owners.

The public needs to be protected from flooding. This need is so compelling and the implications of the cost of insuring a structure built below flood level are so serious that variances from the flood elevation or from other requirements in the flood ordinance must be rare. The long term goal of preventing and reducing flood loss and damage can only be met if variances are strictly limited. Therefore, the variance guidelines provided in this article are more detailed and contain multiple provisions that must be met before a variance can be properly granted. The criteria are designed to screen out those situations in which alternatives other than a variance are more appropriate.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-638. APPEALS BOARD.

In passing upon requests for variances, the Building Commission of the City of Fresno shall consider all technical evaluations, all relevant factors, standards specified in other sections of this ordinance, and:

(a) Danger that materials may be swept onto other lands to the injury of others;

(b) Danger of life and property due to flooding or erosion damage;

(c) Susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the existing individual owner and future owners of the property;

(d) Importance of the services provided by the proposed facility to the community;

(e) Necessity to the facility of a waterfront location, where applicable;

(f) Availability of alterative locations for the proposed use which are not subject to flooding or erosion damage;

(g) Compatibility of the proposed use with existing and anticipated development;

(h) Relationship of the proposed use to the comprehensive plan and flood plain management program for that area;

(i) Safety of access to the property in time of flood for ordinary and emergency vehicles;

(j) Expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters expected at the site; and

(k) Costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water system, and streets and bridges.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-639. WRITTEN NOTICE.

Any applicant to whom a variance is granted shall be given written notice that:

(a) The issuance of a variance to construct a structure below the base flood level will result in increased premium rates for flood insurance up to amounts as high as $25 for $100 of insurance coverage, and

(b) Such construction below the base flood level increases risks to life and property. A copy of the notice shall be recorded by the Flood Plain Administrator in the Office of the Fresno County Recorder and shall be recorded in a manner so that it appears in the chain of title of the affected parcel of land.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-640. RECORD OF VARIANCES.

The Flood Plain Administrator will maintain a record of all variance actions, including justification for their issuance, and report such variances issued in its biennial report submitted to the Federal Insurance Administration, Federal Emergency Management Agency. (Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

SEC. 11-641. CONDITIONS FOR VARIANCES.

(a) Generally, variances may be issued for new construction, substantial improvement, and other proposed new development to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing that the procedures of Sections 11-613 and 11-636 have been fully considered. As the lot size increases beyond one-half acre, the technical justification required for issuing the variance increases.

(b) Variances may be issued for the repair or rehabilitation of "historic structures" (as defined in Section 11-605) upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as an historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

(c) Variances shall not be issued within any mapped regulatory floodway if any increase in flood levels during the base flood discharge would result.

(d) Variances shall only be issued upon a determination that the variance is the "minimum necessary" considering the flood hazard, to afford relief. "Minimum necessary" means to afford relief with a minimum of deviation from the requirements of this article. For example, in the case of variances to an elevation requirement, this means the Building Commission need not grant permission for the applicant to build at grade, or even to whatever elevation the applicant proposes, but only to that elevation which the Building Commission believes will both provide relief and preserve the integrity of the local ordinance.

(e) Variances shall only be issued upon a

(1) Showing of good and sufficient cause;

(2) Determination that failure to grant the variance would result in exceptional "hardship" (as defined in Section 11-605) to the applicant; and

(3) Determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, or extraordinary public expense, create a nuisance (see "Public safety and nuisance" as defined in Section 11-605), cause fraud or victimization (as defined in Section 11-605) of the public, or conflict with existing local laws or ordinances.

(f) Variances may be issued for new construction, substantial improvement, and other proposed new development necessary for the conduct of a functionally dependent use provided that the provisions of this section are satisfied and that the structure or other development is protected by methods that minimize flood damages during the base flood and does not result in additional threats to public safety and does not create a public nuisance.

(g) Upon consideration of the factors of Section 11-638 and the purposes of this article, the Building Commission may attach such conditions to the granting of variances as it deems necessary to further the purposes of this article.
(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-92, § 3, eff. 1-17-08).

ARTICLE 7 ALTERNATIVE BUILDING STANDARDS FOR JOINT LIVING AND WORK QUARTERS*

Sec. 11-701. Purpose.
Sec. 11-702. Application.
Sec. 11-703. Definitions.
Sec. 11-704. General.
Sec. 11-705. Alternative Standards.
Sec. 11-706. Use or Occupancy.

Sec. 11-725. Accessibility (Disabled Access).
Sec. 11-726. Interior Environment.
Sec. 11-727. Light.
Sec. 11-728. Ventilation.
Sec. 11-729. Light and Ventilation Court.
Sec. 11-730. Sound Transmission Insulation.
Sec. 11-731. Energy Conservation.
Sec. 11-732. Structural Design Requirements (Seismic Provision).
Sec. 11-733. Electrical Systems.
Sec. 11-734. Mechanical Systems.
Sec. 11-735. Elevators.
Sec. 11-736. Historical Building Provisions.

SEC. 11-701. PURPOSE.

The purpose of this division is to provide alternative building standards for the conversion of existing buildings, or portions thereof, from commercial or industrial uses to Joint Living

*__Editor's note—__Ord. 2007-102, § 1, effective January 20, 2008, amended the Code by adding new provisions to be numbered as Ch. 11, Art. 1, Div. 5. Due to the reorganization of the Code, the editor has codified the provisions as a new Ch. 11, Art. 7 at the direction of the City.

and Work Quarters. The alternative standards are designed to provide a reasonable level of safety to the building occupants, and are in conformance with the provisions of Section 17958.11 of the California Health and Safety Code.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-702. APPLICATION.

Nothing in this division shall be construed to allow the reduction of the seismic or fire and life safety elements of an existing building, where such elements provide a greater level of protection than the minimum requirements established by this division. The alternative building standards of this division may be applied when the commercial or industrial uses in an existing building are converted (change of use or occupancy) to joint living and work quarter(s) provided:

(a) Designated Area. The building is located in the area surrounded by State Highway 99, State Highway, 180 and State Highway 41 in central Fresno.

(b) General Fire and Life Safety Requirements for All Existing Buildings. All existing buildings that are converted shall comply or be made to comply with all of the building area, height, number of stories, type of construction, occupancy, means of egress and other fire and life safety requirements of this code for a new building of the same use or occupancy, except as provided in this division.

(Added Ord. 2005-102, § 2, eff. 9-20-05; Am. Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-703. DEFINITIONS.

For the purpose of this division, certain terms are defined as follows:

(a) Guidelines for Seismic Retrofit of Existing Buildings means the July 2001 edition of the Guidelines for Seismic Retrofit of Existing Buildings, published by the International Conference of Building Officials, 5360 Workman Mill Road, Whittier, California 90601-2298.

(b) Joint Living and Work Quarters shall mean a residential occupancy of one or more rooms or floors used as a dwelling unit with adequate working space reserved for, and regularly used by, one or more persons residing therein pursuant to Health and Safety Code (H&S) Section 17958.11(a).

(c) Qualified Historical Building or Structure shall mean any building deemed a "qualified historical building or structure" pursuant to the State Historical Building Code, as it may be amended from time to time.

(d) State Historical Building Code shall mean Part 8, Title 24 of the California Code of Regulations and published as Part 8 of the Historical Building Code. The State Historical Building Code is duplicated in Division II, Chapter 34 of the California Building Code.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-704. GENERAL.

A joint living and work quarter shall not be used for public sales purposes or for instructional classes when either is inconsistent with residential use. No hazardous activities such as, but not limited to, welding, open flame, or storage of flammable liquids shall occur in the Joint Living and Work Quarter.

EXCEPTION: In buildings three stories or less in height, activities such as welding, open flame, or minimal storage of flammable liquids may be allowed provided written approval is obtained from the Building Official.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-705. ALTERNATIVE STANDARDS.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-706. USE OR OCCUPANCY.

When applying this division, dwelling units or joint living and work quarters shall be classified as Group R, Division 1 occupancy and comply with all Group R, Division 1 occupancy requirements of the Code, except as provided in this division.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-707. CEILING HEIGHT.

Existing ceiling height within a unit may be maintained, provided the ceiling height is not less than seven feet, except that the ceiling height above a mezzanine may be six feet six inches to any structural projections from the ceiling.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-708. EMERGENCY ESCAPE.

Every room below the fourth story where occupants sleep shall be provided with an emergency escape or rescue window or door, which complies with the requirements of C.B.C. Section 310.4.

EXCEPTION: The emergency escape or rescue window or door may open directly into an existing court, provided:

(1) The court is accessible to the Fire Department.

(2) The court is provided with a minimum of one direct exit to a corridor, exit stairway, exit passageway, exterior exit stairway, exterior exit balcony, or exterior exit ramp, or existing fire escape. The existing fire escape shall be structurally sound and shall not serve as an exit for an assembly use.

(3) All openings in walls surrounding the court shall be protected as required by C.B.C. Section 503.3 or be provided with a water curtain designed in accordance with NFPA #13.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-709. EXTERIOR WALL AND EXTERIOR OPENING PROTECTION.

Existing construction of the exterior walls may be maintained without complying with current exterior fire resistive wall construction. Existing unprotected exterior openings, which are not allowed or are required to be protected due to their proximity to a property line, may be maintained without complying with the requirements of C.B.C. Section 503.2, provided the openings are protected with a water curtain designed in accordance with NFPA #13. Openings in the exterior walls that are not allowed by C.B.C. Section 503.2, due to their proximity to a property line, may not be used to satisfy other code requirements, such as, light and ventilation, smoke control or emergency escape.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-710. SMOKE CONTROL SYSTEM.

Existing high-rise buildings shall provide a smoke control system in all portions of the building including basements. The smoke control system shall meet the requirements of C.B.C. Section 905 or all the requirements of this division.

EXCEPTION: The following areas are exempt:

(1) New or existing rooms less than 50 square feet in area.

(2) New or existing rooms located at or above grade level provided the room has a direct exit to the exterior of the building.

(3) Floor levels with open able windows or breakable tempered glass panels in the exterior walls. The area of the open able windows or panels shall not be less than 20 square feet per 50 linear foot interval around the building perimeter. Tempered glass panels shall have no coating or film applied which will modify its' breaking characteristics. Panels shall be identified in a manner approved by the Fire Department.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-711. CAPACITY.

Smoke-control system shall provide at least six air changes per hour for all areas within the building including basements, provide exhaust to the exterior of the building, and provide an adequate makeup air supply that is uniformly distributed.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-712. SMOKE DAMPERS.

If a smoke-control system serves more than one floor, then smoke dampers shall (i) be installed in the main exhaust air ducts and the main supply air ducts serving each floor and (ii) comply with the activation requirements of C.B.C. Section 713.10.2. The smoke dampers shall be installed in a manner that will prevent the movement of smoke from one floor to

another floor when the dampers are closed. The vertical risers of the main exhaust air duct shall be installed in metal ducts complying with the requirements for product-conveying ducts in Chapter 5 and 6 of the Mechanical Code.

In the firefighter's control panel, all smoke dampers within the same smoke-control zone shall be actuated by one On-Auto-Off switch in accordance with C.B.C. Section 905.13.2, except that an alternate actuation method may be allowed when approved by both the Fire Department and the Department.

Combination fire and smoke dampers, and smoke dampers shall be listed to conform to UL 555 and they shall be accessible for inspection, service and repair. Pneumatic tubing to operate these dampers shall be of noncombustible materials.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-713. FIREFIGHTER'S CONTROL PANEL.

The firefighter's control panel shall comply with all the requirements of C.B.C. Section 905.13, except that graphically depicted representation of the building may be omitted when accepted by the Fire Department. The firefighter's control panel shall monitor and be capable of overriding the Mechanical Test Panel. The Mechanical Test Panel is a separate control panel which provides controls and displays the status of the ventilation fans, dampers, and other smoke control devices as required by C.B.C. Section 905 and shall be located in the same room as the Firefighter's Control Panel.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-714. PERFORMANCE TEST.

Upon completion and before final approval of the installation of a smoke control system required by this code, a smoke control performance test, complying with the testing procedures of C.B.C. Section 905.15, shall be used to verify the rate of air-flow and proper operation as specified in this division. Tests shall be conducted in the presence of both the Fire Department and the Building Department. Prior to conducting the required smoke control performance test, a preliminary performance report shall be submitted to the Department by a person, holding a Certificate of Qualification as required by C.B.C. Section 905.15, verifying that the performance criteria of the Department have been met.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-715. ADDITIONAL SMOKE CONTROL REQUIREMENTS.

Existing air conditioning and ventilation systems may be used as part of the smoke-control system. Existing return air plenum and approved fiberglass air ducts may be used as part of the smoke-control system. A smoke exhaust system shall be designed in a manner that will prevent smoke from going from one room to another, except when two or more rooms are

connected together by means of a permanent unobstructed opening at least 20 square feet with a minimum three feet dimension, then the rooms shall be considered as one room for the purpose of designing the smoke-control system.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-716. FIRE-EXTINGUISHING SYSTEM.

Fire sprinkler system and standpipe system shall be provided as required for a new building of the same height, type of construction and occupancy. The fire sprinkler system, if required, shall be installed in accordance with NFPA #13.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-717. FIRE ALARM SYSTEM.

If a fire alarm system is required by C.B.C. Section 310.10 or 403.5 for a new building of the same type of construction and occupancy, or installed at the option of the owner, then the entire building shall have fire alarm systems that are in full compliance with C.B.C. Section 310.10. In a high-rise building, the fire alarm systems shall be supplied by a generator used as an emergency system in accordance with C.B.C. Section 403.8.3. For all other buildings, an alternate source of power may be used provided it is approved by both the Fire Department and the Building Department. High-rise buildings shall be provided with a central control station (fire control room) that complies with all the requirements of C.B.C. Section 403.6.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-718. FIRE PUMPS AND GENERATOR (COMBUSTION ENGINES AND GAS TURBINES) ROOMS.

In high-rise buildings, diesel or/and electric fire pumps shall be provided as required for a new building. Fire pump and generator (combustion engines and gas turbines) rooms shall be separated with a minimum one-hour occupancy separation from adjoining rooms and from each other. Combustion air and room ventilation air shall be required by the Building and Mechanical Codes, except that the room ventilation exhaust may be considered as environmental air.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-719. MEANS OF EGRESS.

The portion of the building converted to a joint living and work quarter shall be provided with means of egress as required for a new building, except that the alternative requirements of Sections 11-100.514.1 through 11-100.515.5 may be used. An existing fire escape which is in good operating condition may be used as a second means of egress.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-720. CORRIDORS AND HALLWAYS.

All public corridors and public hallways serving the occupants shall comply with all the requirements of C.B.C. Section 1007.6, except as follows:

(a) Existing nonconforming fire-resistive walls and ceiling of a corridor constructed of wood lath and plaster which are in good condition may be acceptable as equivalent to the required one-hour fire-resistive construction.

(b) Existing doors between the corridor and the living unit that are part of the historic fabric of a qualified historical building may be allowed to remain provided approved smoke gaskets and self-closing and latching devices to prevent smoke penetration are installed on the door, or the existing door shall be replaced with a door conforming to the requirements of C.B.C. Section 1004.3.4.3.2.1.

(c) Glazing elements that are part of the historic fabric of a qualified historical building and located in corridors may be allowed to remain provided the fixed transoms, glass doors and other glazed openings are provided with smoke gaskets, and one layer of 518-inch type "X" drywall on the room side or other acceptable fire rated protection.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-721. DEAD-END CORRIDORS.

An existing dead-end corridor which exceeds 20 feet in length and serves the occupants of a living quarter may remain, provided the dead-end corridor complies with all of the following:

(a) The dead-end corridor shall be constructed as described above for the full length of the dead-end corridor.

(b) The dead-end corridor shall not exceed 40 feet in length.

(c) A door with a magnetic hold-open device shall be placed across the corridor to create a vestibule located furthest from the open end of the dead-end corridor. The placement of the door shall be located not more than 20 feet from the open end of the dead-end corridor and the occupant load of the vestibule shall be less than 10 occupants.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-722. MEANS OF EGRESS ILLUMINATION AND EXIT SIGNS.

Means of egress illumination, exit signs, floor-level exit signs and exit path markings serving a Dwelling unit shall comply with C.B.C. Sections 1003.2.8, 1003.2.9 and 1007.6.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-723. EXIT STAIRWAY.

All exit stairways shall be enclosed and shall comply with all the requirements of C.B.C. Section 1005.3.3. Existing exit stairway enclosures may be allowed to pass through the first-floor elevator lobby, provided an approved fire-rated smoke-sealed door is placed in front of the elevator door on the first floor or there is another exit stairway enclosure leading directly

to the public way. A photoluminescent stairwell marking system shall be provided as a condition of the adaptive re-use building permit for buildings with more than 2 stories. Installation shall be in accordance with Fire Department installation guidelines.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-724. PRESSURIZATION OF EXIT STAIRWAY ENCLOSURE.

If pressurization of exit stairway enclosure is required, then a mechanical ventilation system shall be provided. The mechanical ventilation system shall provide a uniform air velocity of not less than 50 feet per minute while maintaining a positive pressure (not exceeding 25 pounds force on an interior door) relative to the adjacent areas and discharging this air to the outside of the building. The mechanical ventilation system shall be activated simultaneously with the fire sprinkler system or the smoke detector system. The mechanical ventilation system shall be supplied with primary and secondary sources of power. The primary power shall be provided by the power system supplied by the public utilities. The secondary power shall be from an approved standby source complying with the Electrical Code.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-725. ACCESSIBILITY (DISABLED ACCESS).

The conversion of an existing building or portion thereof to a joint living and work quarter(s) shall be considered residential occupancy for the purpose of applying accessibility (disabled access) requirements.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-726. INTERIOR ENVIRONMENT.

Habitable rooms shall be provided with natural ventilation by means of operable exterior openings with an area of not less than one thirtieth of the floor area of the room. In lieu of required operable exterior openings, a mechanical ventilation system may be provided.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-727. LIGHT.

Windows or skylights with a total area not less than one fifteenth of the floor area of the room may be used to satisfy the natural light requirements. Kitchens may be provided with artificial light.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-728. VENTILATION.

Public corridors or hallways shall be provided with an adequate ventilation system when all the habitable rooms in dwelling units on the floor do not have operable exterior openings that comply with the requirements of C.B.C. Section 1203.3. Adequate ventilation system for the

public corridors or hallways shall mean either operable exterior window or permanent exterior opening having a minimum area of five square feet, or a mechanical ventilation system which complies with the requirements of C.B.C. Section 1203.3.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-729. LIGHT AND VENTILATION COURT.

A window may open into an existing court for light and ventilation, provided, the court is has adequate access at the bottom of the court for cleaning purposes. Every court more than two stories in height shall be provided with a horizontal air intake at the bottom of the court from the court to the exterior of the building, unless the court opens to a yard or public way. The horizontal air intake shall not be less than 10 square feet in cross-sectional area and shall lead to the exterior of the building. The construction of the horizontal air intake shall be as required for the court walls of the building, but in no case shall be less than one-hour fire-resistive construction. A mechanical ventilation system complying with the Mechanical Code may vent the court in lieu of the horizontal air intake.

EXCEPTION: when approved by the building official, an existing court may be deemed adequate for the purpose of providing light and ventilation based upon the area and height of the court.

(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-730. SOUND TRANSMISSION INSULATION.

Existing construction may remain without complying with the sound transmission insulation requirements for any newly created dwelling unit or joint living and work unit. All new construction shall comply with sound transmission requirements of C.B.C. Section 1208A.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-731. ENERGY CONSERVATION.

All new HVAC and new lighting systems shall comply with the current energy conservation requirements contained in Part 6 of Title 24 of the California Code of Regulations (California Energy Code). An existing building with a dwelling unit or joint living and work quarter need not comply with the building envelope requirements of the California Energy Code, if the building envelope is not altered in anyway due to compliance with other code requirements.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-732. STRUCTURAL DESIGN REQUIREMENTS (SEISMIC PROVISION).

The conversion of any portion of an existing building to joint living and work quarter shall be considered a "substantial alteration." All existing buildings shall be analyzed for 75 percent of the design basis ground motion, as defined in C.B.C. Section 1627 and as specified in C.B.C. Section 1629.1, but in no event shall there be a reduction in the capacity of the seismic force resisting system where such system provides a greater level of protection than the minimum requirements established by this division. Performance-based engineering analysis and design

procedures may be used to evaluate the existing structure and the design of strengthening elements when approved by the building official. All new structural elements shall meet current detailing requirements of C.B.C. Section 1633.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-733. ELECTRICAL SYSTEMS.

All electrical systems and installations for joint living and work quarter and other alterations in adjoining areas shall be designed in accordance with the Electrical Code. Wiring shall be as required for a residential occupancy.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-734. MECHANICAL SYSTEMS.

All mechanical systems shall comply with the requirements of the Mechanical Code. The ventilation system for the corridor shall be designed independently of the ventilation system for the joint living and work quarter or any other adjoining rooms. When a corridor is divided by the placement of self-closing door(s), the ventilation system shall be designed for each portion of the corridor, except when the doors have magnetic hold-open devices, the adjoining corridors may be considered as one space for the purpose of designing the ventilation system. An existing heating and/or cooling system may be used in lieu of the ventilation system for the corridor, provided the heating and/or cooling system is independent from the heating and/or cooling system for the dwelling or joint living and work quarter or from any other adjoining rooms.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-735. ELEVATORS.

Existing elevators need to comply with the State Elevator Safety Order of Sub-chapter 6, of Chapter 4, Division 1 of Title 8 of the California Code of Regulations. Existing freight elevators shall not be used as passenger elevators.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

SEC. 11-736. HISTORICAL BUILDING PROVISIONS.

Qualified Historical Buildings may use the State Historical Building Code.
(Added Ord. 2007-102, § 1, eff. 1-20-08).

Sec. 12-4.507. Waiver of Requirement for Service Delivery Plan.
Sec. 12-4.508. UGM Fire Stations.
Sec. 12-4.509. UGM Park Fees.

SEC. 12-4.500. TITLE.

This article shall be known as the "Urban Growth Management Ordinance of the City of Fresno." (Added Ord. 76-6, § 1, eff. 2-22-76).

SEC. 12-4.501. PURPOSE.

Pursuant to the policies, procedures, and requirements made applicable to the management of growth within the Urban Growth Management Area, established herein by reference to that document entitled "Urban Growth Management Process," dated December 5, 1975, adopted and modified from time to time by Council resolution, the purpose of this article is to achieve the orderly use and development of land within such Area by providing a process under the Subdivision Ordinance Article 10, Chapter 12, or this Zoning Ordinance for the construction or modification of buildings and structures in such Area or the change of occupancy of such buildings or structures.

An integral part of Urban Growth Management is a process referred to herein as the Urban Growth Management Process. The Urban Growth Management Process is intended neither to prevent any development or growth nor to permit free or disorganized development or growth in the Urban Growth Management Area. Such process is instead intended to identify the demands on municipal facilities, improvements, or services created by any proposed residential, commercial, industrial, or other type of development and to provide the means for satisfying such demands; to identify any deleterious effects of any such development and protect the city and its residents against such effects by minimizing the costs of municipal facilities, improvements, and services; and to maintain a high quality of such facilities, improvements, and services. (Added Ord. 76-6, § 1, eff. 2-22-76; Am. Ord. 98-54, § 2, 8-27-98).

SEC. 12-4.501.5. DEFINITIONS.

A. Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning and application of words and phrases used in this article, and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions

contained in Article 2 of Chapter 1 of this Code shall also govern the construction, meaning and application of words and phases used in this article unless the particular provisions or the context otherwise requires. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

B. ACCELERATED RATE means a rate set higher than the service rate, which is designed to provide funding for a capital project on an accelerated basis.

C. EXTENDED FIRE SERVICE AREA means all territory within a three-mile running distance of a fire station and outside the primary service area of a fire station, provided that the Council may expand or contract the boundaries of such area to conform to streets, railroads, natural barriers, or similar features or conditions.

D. PARK means the site, site improvements, and appurtenances necessary to serve the recreational needs, as identified by the Council, of the inhabitants of a UGM Park Service Area.

E. PRIMARY FIRE SERVICE AREA means all territory within a two-mile running distance of a fire station, provided that the Council may expand or contract the boundaries of such area to conform to streets, railroads, natural barriers, or similar features or conditions.

F. REIMBURSEMENT PERIOD shall be defined as follows:

1. INITIAL REIMBURSEMENT PERIOD means the period of fifteen years immediately following city acceptance of the facilities, improvements, right-of-way and site, as appropriate.

2. EXTENDED REIMBURSEMENT PERIOD means the period of five years immediately following the initial reimbursement period. A contributing developer shall qualify for reimbursement during the extended reimbursement period only if he has received at least seventy-five per cent of the total amount of the reimbursement due him by the expiration of the initial reimbursement period.

G. RUNNING DISTANCE means the actual distance which must be traveled over public streets or rights-of-way from a fire station to reach the scene of a fire incident.

H. SERVICE RATE means a rate based on a proportional sharing throughout a service area of the costs of a capital project which will serve such area.

I. UGM FIRE STATION CAPITAL FUND means a trust fund established from charges collected pursuant to Section 12-4.508-C of this Code as a result of development within each UGM fire station service area.

J. UGM FIRE STATION SERVICE AREA means the combined primary and extended service areas of fire station to be constructed with fire station capital fees within the UGM area.

K. UGM PARK FUND means a trust fund established from charges collected pursuant to Section 12-4.509-A of this Code as a result of development within a park service area.

L. UGM PARK SERVICE AREA means that territory established by Council resolution for the construction of one or more neighborhood parks with UGM park fees. (Added Ord. 79-169, § 1, eff. 11-16-79; Am. Ord. 83-163, § 4, eff. 1-20-84; Am. Ord. 85-38, § 1, eff. 4-12-85; Am. Ord. 95-4, §§ 1—6, eff. 3-19-95; Am. Ord. 95-38, § 5, 6-9-95).

SEC. 12-4.502. URBAN GROWTH MANAGEMENT AREA.

A. THE ZONE MAP. The Urban Growth Management Area is that area designated as such on the Zone Map, which area is generally located in and around the city's fringe and is either relatively undeveloped or is predominantly agricultural in use and lacks most, if not all, municipal facilities, improvements, or services necessary to serve residential, commercial, industrial, or other type of development.

B. AREA BOUNDARIES.

1. The boundaries of the Urban Growth Management Area shown upon the Zone Map are hereby adopted and made a part of this article; and all the notations, references and other information shown thereon shall be as much a part of this article as if the matters and information set forth thereon were all duly described herein.

2. Where boundaries indicated for the Urban Growth Management Area are approximately street, alley, or lot lines, such lines are in fact determined to be the boundaries of such area. Otherwise, the boundaries shall be determined by the dimensions shown on the Zone Map. In the absence of a dimension, the boundary shall be determined by use of the scale shown on such map.

3. Where a street, alley, railway or railroad right-of-way, water course, drainage channel or body of water included on the Zone Map serves as a boundary, the center line of such right-of-way, water course, channel or body of water shall be considered the boundary of the Urban Growth Management Area.

4. Where uncertainties exist, the Council shall, by resolution, determine the location of the Urban Growth Management Area boundaries.

C. CHANGING THE AREA. The Urban Growth Management Area may be changed by adding areas to or removing areas from such Area pursuant to the provisions of this section.

1. **Initiation.** Proceedings to change the Urban Growth Management Area may be initiated only pursuant to the provisions of subsections 1 (Council resolution), 3 (Director action), or 4 (Application) of Section 12-401-A.

2. **Findings and Recommendation.** Within thirty days after initiation of proceedings, the Director shall make written findings and a recommendation for or against any proposed change based upon the criteria contained in Section 12-4.502-A.

3. **Action on Recommendation.** The Director's recommendation against any proposed change initiated pursuant to subsection 4 of Section 12-401-A shall be final unless

the applicant appeals such recommendation to the Council pursuant to the provisions of Section 12-401-H. All other recommendations by the Director shall be set, noticed, and heard by the Council pursuant to the provisions of Sections 12-401-B, 12-401-C, 12-401-D, and 12-401-E. The provisions of Section 12-401-C-2 and C-3 regarding the mailing and posting of the notice shall not apply when the proposed change will not impose a new or increase in UGM fees or affect the reimbursement of such fees pursuant to Section 12-4.504-C. In such instances, notwithstanding Section 12-401-C-1, the City shall provide notice of the time, place, and subject matter of the public hearing by publication in a newspaper of general circulation in the city at least three times, once every seven days, for three consecutive weeks. Publication shall be completed at least ten days prior to the date set for public hearing. At the conclusion of the hearing, Council shall approve, modify or disapprove the Director's recommendation by resolution. The Council's action shall be final.

[4]. **Finalized Changes.** When a change is final, the Director shall immediately reflect such change in the boundary of the Urban Growth Management Area as shown on the Zone Map.

(Added Ord. 76-6, § 1, eff. 2-22-76; Am. Ord. 2010-53, § 1, eff. 2-4-11).

SEC. 12-4.503. UGM SUFFIX.

The zoning district symbol of any land located in the Urban Growth Management Area shall bear the suffix "UGM", until such time as such land is removed from such Area, for the purpose of placing the general public on notice that any construction or modification of buildings or structures in such area, or the change of occupancy of such buildings or structures, or the division of land in such Area, may be subject to the Urban Growth Management Process or some similar process.

(Added Ord. 76-6, § 1, eff. 2-22-76).

SEC. 12-4.504. PROCESS.

A. GENERAL. The Urban Growth Management Process includes consideration of the contents of a Service Delivery Plan which shall be prepared at the time of processing of a tentative tract map or a special permit, in accordance with the "Urban Growth Management Process" document referred to in Section 12-4.501 and as more particularly set forth in this article.

B. ANNUAL REPORT. The Chief Administrative Officer shall submit to the Council, as early as is practicable during each fiscal year or more frequently as he chooses, a report concerning the effects of the provisions contained in the "Urban Growth Management Process" document referred to in Section 12-4.501. Such report may recommend to Council modifications of such provisions. The provisions of such document shall be modified solely by Council resolution.

C. FEES AND REIMBURSEMENTS. As UGM fees are collected, they shall be reimbursed in the manner and for the period set forth in this section. All UGM fees include an administrative charge which the Public Works Director determines quarterly based on actual costs during the previous three months for establishing the fees, maintaining records and accounts, and administering the reimbursement process. Administrative charges are those charges other than for capital improvement expenditure and not limited to labor, overhead and equipment. These charges shall be imposed and collected from the accrued interest of the UGM funds each quarter from UGM funds on deposit just prior to payment of reimbursements pursuant to this section, in an equitable cost allocation manner as determined by the Finance Director in consultation with the Public Works Director.

When a developer is entitled to be reimbursed out of UGM fees by reason of his having paid or having been credited with fees in excess of his pro-rata fee obligation, he shall be reimbursed in semiannual payments as described above. When UGM fees have been collected for the purpose of such reimbursement, the city shall make semiannual payments, provided sufficient funds for doing so are available, in amounts determined by the Public Works Director, on or about April first and October first, commencing April first or October first following city acceptance of complete financial statements for the accepted facilities, improvements, right-of-way and site, as appropriate, and for the duration of the appropriate reimbursement period, as defined in Section 12-4.501.5-F of this Code. Should city fail to pay any reimbursement within sixty days of the dates referenced above when such payments are due, and such delay is not due to any fault of the person to whom reimbursement is owed, then city shall add an amount to such payment equal to the net interest actually earned by the city on the amount to be reimbursed.
(Added Ord. 76-6, § 1, eff. 2-22-76; Am. Ord. 83-163, § 5, eff. 1-20-84; Am. Ord. 89-85, § 6, eff. 7-28-89; Am. Ord. 93-18, § 1, eff. 4-16-93; Am. Ord. 98-54, § 3, 8-27-98; Am. Ord. 2017-19, § 8, eff. 6-18-17).

SEC. 12-4.505. REQUIREMENT FOR A SERVICE DELIVERY PLAN.

Before any building permit is issued to build, construct, erect, or modify any building or structure on land within the Urban Growth Management Area, or to change the occupancy of any such building or structure, a Service Delivery Plan shall have been prepared and incorporated into the tentative tract map or special permit conditions of approval except as otherwise provided in this article.

A. PREPARATION OF A SERVICE DELIVERY PLAN. Proceedings for the preparation of the Service Delivery Plan shall be initiated upon the filing of an application for a tentative tract map or special permit with the Director, accompanied with any applicable filing fees as may be established by Council resolution and such information, designs, drawings, materials, and matters as the Director finds necessary to prepare a Service Delivery Plan.

B. COMPLIANCE. The Service Delivery Plan shall comply with the provisions of the City's Urban Growth Management Process described in Sections 12-4.501 and 12-4.504.

C. SERVICE DELIVERY PLAN REQUIREMENTS. Upon determination by the Development Director of the requirements of the Service Delivery Plan, said requirements shall be incorporated into and made a part of the Tentative Tract Map or Special Permit Conditions of Approval.

D. APPROVAL, CONDITIONAL APPROVAL OR DENIAL.

1. FOR PROJECT'S SUBJECT TO A TENTATIVE TRACT MAP:

(a) Planning Commission Action. Within fifty days after the filing of an application for a tentative map or vesting tentative map, the Planning Commission shall approve, conditionally approve, or disapprove the Service Delivery Plan related to a tentative map after having considered the recommendation of the Director and the contents of the Service Delivery Plan.

(b) Effect of Decision. The Planning Commission's action on the tentative map or vesting tentative map and related Service Delivery Plan shall be final, subject to appeal to the City Council within the period of time prescribed.

(c) Appeal. Any interested person including the applicant may appeal from any action of the Planning Commission as related to a tentative map or vesting tentative map and related Service Delivery Plan pursuant to the provisions of Section 12-1019. When a proper appeal has been filed, a public hearing upon the matter shall be set before the City Council within thirty days of the receipt of the proper appeal.

(d) Effect of City Council Action on Appeal. On appeal, the City Council shall approve, conditionally approve, or disapprove the tentative map or vesting tentative map and Service Delivery Plan pursuant to Section 12-1019. The action of the City Council shall be final. The City Council shall not act on the subject map and Service Delivery Plan application unless it has considered the following factors:

(1) The recommendation of the Director,

(2) The Planning Commission's Action and report,

(3) The contents of the Service Delivery Plan.

2. FOR PROJECTS SUBJECT TO SPECIAL PERMIT:

(a) Director Action. The Director shall give notice of the Director's decision in accordance with Section 12-401-C-2.

(b) Director's Decision. The Director's decision shall be final unless any interested person, including the applicant, appeals to the City Council pursuant to the provisions of Section 12-401-H. When a proper appeal has

been filed, the Director's decision shall be set aside and a public hearing upon the matter be set before the City Council within thirty days of the receipt of the proper appeal.

(c) Council Action. Following the hearing the City Council may approve, conditionally approve or approve the Service Delivery Plan based on the criteria specified in Section 12-405-B, above, and subject to Section 12-401-E. The action of the City Council shall be final.

E. UGM AGREEMENT PRIOR TO ISSUANCE OF BUILDING PERMITS. Prior to the issuance of any building permit for any of the purposes set forth in the first paragraph of this section, the conditions, if any, of the Service Delivery Plan shall have been satisfied. Any unsatisfied condition may be considered satisfied upon execution and delivery to the Director of a UGM Agreement along with security, provided that the form of such agreement and approved security are approved by the City Attorney's Office.

F. EXPIRATION. An approved Service Delivery Plan shall expire upon the expiration of a related tentative tract map, special permit, building permit or certificate for a change of occupancy.

(Added Ord. 76-6, § 1, eff. 2-22-76; Am. Ord. 86-131, § 1, eff. 9-12-86; Am. Ord. 88-146, § 1, 12-23-88; Am. Ord. 98-54, § 4, 8-27-98).

SEC. 12-4.506. EXEMPTIONS.

A. EXEMPTIONS. The following uses, buildings or structures or a change of occupancy to any of the following uses shall be exempt from the requirement for a Service Delivery Plan:

1. All uses permitted in the "O" Open Conservation District and R-A Residential-Agricultural District.

2. All uses permitted in the AE-5 and AE-20 Agricultural districts, except for the following uses:

a. The curing, processing, packaging, packing, shipping and selling of agricultural products.

b. The manufacturing, maintenance, repair, servicing, storage, sale or rental of agricultural machines, implements and equipment of all kinds when not carried on as a clearly secondary occupation in conjunction with a bona fide agricultural operation.

c. The manufacture, storage, or sale of farm supplies of all kinds, including but not limited to fertilizers, agricultural minerals and insecticides when not carried on as a clearly secondary occupation in conjunction with a bona fide agricultural operation.

d. The transportation of agricultural products, supplies or equipment together with the maintenance, storage, repair and servicing of the necessary trucks and equipment when not carried on as a clearly secondary occupation in conjunction with a bona fide agricultural operation.

3. The maintenance and storage of agricultural equipment designed to be used solely for the harvesting of crops, which equipment must be located by the owner thereof upon the owner's own premises when not operated as a secondary occupation in conjunction with or as a part of a bona fide agricultural operation.

4. Permanent roadside stands for sale of agricultural products.

5. Sale of agricultural products produced upon the property.

6. Community auction and sale yards for sale of farm animals, products, implements, supplies, or equipment.

7. Mushroom growing.

8. All uses permitted in the R-1-AH, R-1-A, R-1-E, R-1-EH, R-1-B, R-1-C, and R-1 districts.

9. One- or two-family dwelling on any lot.

10. Tract offices, model homes, and construction materials storage yards, of a temporary nature, within any tract being developed.

11. Any accessory building or structure, including garages which are accessory to any residential use.

12. Private greenhouses and horticulture collections, flower and vegetable gardens.

13. House trailer parking.

14. Home occupations.

15. Temporary or permanent telephone booths.

16. Newspaper stand.

17. Ice and food products dispensing machines.

18. Signs.

19. Petroleum pipelines.

20. Caretaker's residence.

21. Recreational slide.

22. Punch presses.

23. Grocery dispensary facility in T-P zone.

24. Off-street parking or off-street parking lot or accessory structures.

25. The following public facilities and public utilities:

a. All facilities which are owned or under the control of a public agency (city, county, state, federal, special district) and utilized to perform a governmental function.

b. All public utilities which perform a public service function.

c. Electrical distribution substation.

d. Flood control settling pond.

e. Public schools, parks, playgrounds, and libraries.

f. Water pump stations.

g. Microwave relay stations.

h. Post Office substations.

i. Public parking facilities.

26. Such quasi-public organizations, uses or facilities.

B. ADDITIONAL EXEMPTIONS. Additional exemptions from the requirements of this article including the application, approval and issuance of a Service Delivery Plan and the payment of UGM fees, or a deferral of such fees, may be authorized pursuant to the provisions of this section. Such exemptions and deferrals may be processed in accordance with the provisions of this zoning ordinance applicable to land located outside the Urban Growth Management Area.

1. **Initiation.** Exemption proceedings may be initiated only pursuant to the provisions of subsection 1 (Council resolution) or subsection 3 (Director action) of Section 12-401-A.

2. **Director's Decision.** Within thirty days after initiation of proceedings, the Director shall make his written decision approving or disapproving any proposed exemption or deferral. The Director shall disapprove any proposed exemption of deferral unless he makes the following findings:

a. The installation, addition, extension, expansion or upgrading of municipal facilities, improvements or services concurrently with or necessitated by a proposed development are insubstantial, and

b. The proposed exemption or deferral will be consistent with the objectives of the Urban Growth Management Process to minimize the cost of municipal facilities, improvements, and services, and to maintain a high quality of such facilities, improvements and services.

3. **Effect of Decision.** The decision of the Director disapproving a proposed exemption or deferral initiated by him shall be final. The decision of the Director approving or conditionally approving a proposed exemption or deferral shall be presented to the Council for final decision.

4. **Council Action.** All Director's decisions forwarded to the Council shall be set for public hearing before the Council pursuant to Section 12-401-B, noticed pursuant to

Section 12-401-C-1, and held pursuant to Section 12-401-D. Following the hearing the Council may approve, modify or disapprove the Director's decision, subject to Section 12-401-E, based on the criteria specified in subsections 2a and 2b of this section. The action of the Council shall be final. (Added Ord. 76-6, § 1, eff. 2-22-76; Am. Ord. 85-158, § 1, eff. 11-22-85; ; Am. Ord. 98-54, § 5, 8-27-98).

SEC. 12-4.507. WAIVER OF REQUIREMENT FOR SERVICE DELIVERY PLAN.

Pursuant to the provisions of this section, the Director may waive the requirement for a Service Delivery Plan applicable to land which is contiguous to or which crosses the inner boundary of the Urban Growth Management Area.

A. INITIATION. Proceedings to waive the requirements for a Service Delivery Plan may be initiated only pursuant to the provisions of subsection 4 (application) of Section 12-401-A.

B. DIRECTOR'S DECISION. Within thirty days after initiation of proceedings, the Director shall make a written decision approving or disapproving any proposed waiver. The Director shall disapprove any proposed waiver unless he makes the following findings:

1. The installation, addition, extension, expansion, or upgrading of municipal facilities, improvements, or services as a result of a waiver of the Service Delivery Plan requirement are insubstantial, and

2. Waiver of the Service Delivery Plan requirement will be consistent with the objectives of the Urban Growth Management Process to minimize the cost of and to maintain a high quality of municipal facilities, improvements, and services.

The Director shall give notice of his decision pursuant to the provisions of Section 12-401-F.

C. APPEAL. The Director's decision shall be final unless any interested person, including the applicant, appeals such decision to the Council pursuant to the provisions of Section 12-401-H. Following the hearing the Council may approve, modify or disapprove the Director's decision, subject to Section 12-401-E, based on the criteria specified in subsections 2a and 2b above. The action of the Council shall be final. (Added Ord. 76-6, § 1, eff. 2-22-76; Am. Ord. 98-54, § 6, 8-27-98).

SEC. 12-4.508. UGM FIRE STATIONS.

A. PURPOSE. The purpose of this section is to insure the provision of fire service within the Urban Growth Management Area and to provide a means for the levying and collecting of fees to be used to construct, equip and furnish fire stations to serve fire service areas as may be established by Council. Such fees shall be calculated upon the premise, established by extensive experience within this city, that up to 5,000 residential units, or their equivalent, can be safely protected outside the primary service area of existing fire stations, provided such units are located within the five-mile running distance of an existing fire station.

B. UGM FIRE STATION SERVICE AREAS. The Council may establish by resolution Fire Station Service Areas within the Urban Growth Management Area.

1. The Official Map for each Fire Service Area and a record of all boundary modifications thereto shall be kept on file in the office of the Public Works Director.
2. The Public Works Director may adjust the boundaries of an established Fire Service Area or may concurrently adjust the common boundaries within two or more established Fire Service Areas under either of the following circumstances:
   a. When the service area boundary crosses through a proposed development; or
   b. When it is determined by the Public Works Director that a proposed development will be served from an adjacent service area.

C. UGM FIRE; STATION CAPITAL FEE.

1. The Council shall designate in the Master Fee Resolution a schedule of UGM Fire Station Capital Fees for each UGM Fire Station Service Area, and a separate schedule of UGM Fire Station Capital Fees for those territories within the Urban Growth Management Area which are not included within a UGM Fire Station Service Area.
2. Fees set forth in the Master Fee Resolution shall be amended during the month of January of each year to reflect:
   a. Inflation in the estimated cost of a station, equipment, land and other related expenses;
   b. Any territory annexed to the service area during the preceding year which will generate additional fees;
   c. Any development which occurred during the preceding year within the service area of the subject fire station but which is exempt from the payment of fees hereunder;
   d. Changes in land use plans approved by the Council affecting the density of development within a service area; and
   e. Any other factors influencing the costs of constructing or equipping a UGM Fire Station.

D. UGM DEVELOPMENT PERMITTED.

1. Development will be permitted within the UGM area only upon payment by the developer of the appropriate UGM Fire Station Capital Fee as established pursuant to this section.
2. When only a portion of a lot is developed, and the remaining portion is to continue undeveloped or is to be used solely for the growing of agricultural crops, the Public Works Director may require the payment of the Fire Station Capital Fee applicable only to that portion of the lot developed or to be developed, provided that the parcel for which such fees are charged shall have an area of not less than twelve thousand

five hundred (12,500) square feet. When the balance of the lot is developed, the remaining Fire Station Capital Fee shall be paid. The Public Works Director shall fix the portion of the lot which is to be considered as developed.

3. The UGM Fire Station Capital Fee is payable upon the submittal for final approval of any tract map or parcel map or, in the absence of submittal of a map, at the time of issuance of a building permit. A developer may elect to defer the payment of such fee until issuance of a certificate of occupancy pursuant to an agreement which conforms to the requirements of Section 12-4.604.

4. Development defined by this Code to be a Planned Unit Development or a development approved pursuant to a Conditional Use Permit shall pay fees according to a rate determined by the Director to be most similar to the actual land use.

5. In the R-A, AE-5 and AE-20 zone districts on a developed lot at least four net acres in size, when a portion not less than twelve thousand five hundred square feet of such lot is to be improved with one additional single-family residence, the Director may require the payment of the UGM Fire Station Capital Fee applicable only to the portion of such lot to be improved. The Director shall fix the portion of such lot which is to be considered as improved.

E. UGM DEVELOPMENT RESTRICTIONS. In addition to payment of UGM Fire Station Capital Fees, all development in the UGM area shall be subject to the following restrictions:

1. Residential.

   a. No more than five thousand residential units, or their equivalent, shall be permitted beyond the primary service area and within a five mile running distance of an existing city fire station.

   b. Between the three and four mile running distance of an existing and operating fire station there shall be a one hundred-foot separation between buildings, or a fifty-foot separation between buildings, consistent with planned densities, and:

      (1) All roofing materials shall be noncombustible, and

      (2) All facing surfaces between buildings shall be noncombustible.

   c. Between the four and five mile running distance there shall be a one hundred-foot separation between buildings.

   d. Between the three and five mile running distance, the one hundred-foot and fifty-foot separation requirements may be waived with the installation of automatic fire extinguishing systems, as approved by the Fire Chief, in all buildings within the project area.

   e. In no event will residential development be permitted beyond the five mile running distance of an existing and operating city fire station unless the

developer first constructs a city fire station to serve such development, in which event the developer will be reimbursed in accordance with subsection G-2 of this section.

2. Commercial.

   a. In addition to the payment of UGM Fire Station Capital Fees, commercial and industrial development will be permitted beyond the two-mile running distance of an existing and operating city fire station only upon compliance by the developer with all conditions imposed by the Fire Chief and approved by the Council for fire safety purposes, such as additional spacing between buildings, installation of fire sprinklers, or the use of noncombustible materials.

   b. In no event will commercial or industrial development be permitted beyond the three-mile running distance of an existing and operating fire station unless the developer first constructs a city fire station to serve such development, in which event the developer will be reimbursed in accordance with subsection G-2 of this section.

   c. The Director may grant a temporary waiver from the restrictions of subdivision b. when the Fire Chief finds either the physical response time is equivalent to the running distance or all of the following circumstances apply:

      (1) the development will improve the health and safety of the community.

      (2) the proposed development meets minimum fire safety standards acceptable to the Fire Chief for service times and risk of fire for the period of the waiver.

      (3) the developer has provided adequate security, in a form approved by the Director and the City Attorney, to ensure development will be completed upon the expiration of the waiver.

      The time limit on the waiver will be provided by the Fire Chief to ensure the protection of the public health and safety, but in no event shall the waiver be more than two years from the date of issuance of the first certificate of occupancy for the development. The Fire Chief shall adopt written standards to administer this waiver, including but not limited to, a list of building occupancies, water supply requirements, and building construction types appropriate for this waiver pursuant to the Fire Chief's authority and responsibilities under the Fresno Fire Code.

3. Exception. Notwithstanding the above, development will be permitted beyond the distances and densities specified herein provided the developer pays the appropriate UGM Fire Station Capital Fee and such development will be protected by another fire protection agency pursuant to a contract approved by the city.

F. CONSTRUCTION OF UGM FIRE STATION.

1. All Fire Station Capital Fees collected from development within an established UGM Fire Station Service Areas, and not committed by agreement or otherwise to some

other UGM Fire Station Service Area, shall be deposited in a UGM Fire Station Capital Fund for the area in which collected. Each such fund shall be used solely for the purposes of purchasing land, constructing buildings and improvements, and purchasing machinery, equipment, furnishings and other capital-type fire station facilities within the UGM Fire Station Area in which such fees were generated, and for administration, inspection and engineering costs of the city directly related thereto.

2. All UGM Fire Station Capital Fees collected from development outside an established UGM Fire Station Service Area shall be held in a separate fund until such service area is established, at which time all such fees, together with interest thereon, shall be transferred into a UGM Fire Station Capital Fund to be used as above.

3. At such time as fees are collected from development within any given UGM Fire Station Service Area, sufficient in amount to construct, equip and furnish a fire station, as determined by the Director, the city shall initiate proceedings to call for bids for the construction of a fire station within such area.

G. REIMBURSEMENTS WITHIN UGM FIRE STATION AREA.

1. Upon the acquisition, construction, equipping and furnishing of a fire station, all fire station capital fees thereafter charged and collected within the service area of such fire station will be charged at the service fee rate. All such fees shall be placed in a trust fund and, after any additional costs of acquisition, construction, equipping and furnishing of the fire station are paid from such trust fund, shall be paid out semiannually to those persons, or their heirs and successors, who contributed fire station capital fees at the accelerated rate, in proportion to their respective contributions thereto, in the manner and for the period prescribed in Section 12-4.504-C of this Code. Reimbursement rights shall not be assignable except upon written request and notice to, and approval by, the city.

2. Where, as a condition precedent to approval of development in the Urban Growth Management Area, a person has been required to construct a fire station which has been accepted by the city, such person shall file with the Public Works Director within ninety days following city acceptance of the fire station a project accounting stating the cost of construction of the fire station. The Public Works Director shall determine semiannually as of each April first and October first following city acceptance of the fire station those portions of the service area which have been developed and which have paid the fire station capital fee during the preceding six months, in the manner and for the period prescribed in Section 12-4.504-C of this Code.

   For each gross acre so determined to have been developed, there shall be paid from the UGM fire station capital fund to the person who constructed the fire station, reimbursements based on the cost of such fire station and the costs of site acquisition, design, construction, inspection, furnishings and equipment. The amount

to be reimbursed shall be credited against the fire station capital fee to be paid on behalf of all property contributing to the cost thereof in proportion to the amount of such contribution.

In the event that credit for such property exceeds the fire station capital fee, the difference shall be paid from the UGM fire station capital fund upon completion of the fire station, but only to the extent fire station capital fees are paid on behalf of other properties which are developed subsequent to city acceptance of the fire station, and only for the period applicable under Section 12-4.501.5-F of this Code. Payments may not be made to such person in excess of the cost of the fire station as shown on the project accounting, less his pro-rata share; provided further that neither determinations nor payments may be made at all if the project accounting is not timely filed as required above.

3. Where fire station capital fees have been paid on the basis of a multifamily zone district classification but the subject property was thereafter actually developed to a single-family residential zone district standard, the Director shall refund to the payor of such fees the difference between the amount of fees actually paid and the amount which would have been paid if the subject property had been classified as a single-family residential zone district, subject to compliance with the following criteria:

   a. The properties for which refunds are requested shall have been developed. As used herein, developed ' shall mean the issuance of building permits for the construction of a single-family residential structure on a lot or lots of record with an established fire station service area.

   b. Where the subject property is still owned by the payor of such fees, the payor shall file an application for rezoning thereof to a single-family zone district having property development standards consistent with that which has actually been developed. Such application shall include such information as required by the Director to ascertain compliance with the applicable property development standards.

   c. Where the ownership of the subject property has been transferred to a person other than the payor of such fees, the Council shall initiate the rezoning thereof to a single-family zone district with property development standards consistent with that which has actually been developed. For properties such as these, the payor shall provide the Director with the names and addresses of the property owners of record, and with the information required by the Director to ascertain compliance with the applicable property development standards.

   d. Any request for refund of fees pursuant to this subsection shall identify the subject property by street address and legal description, the owner or owners of record thereof, the amount of fee paid attributable to such property, and proof of payment.

e. The rezoning to the appropriate single-family zone classification shall have been approved by the Council and shall have become effective prior to payment of any refund of such fees.

f. Except as otherwise provided herein, any refund sought pursuant to this subsection shall be processed in the time and manner prescribed in Fresno Municipal Code Section 12-4.504(c) including the retention of the administrative charge provided therein upon establishment of appropriate fee rates which include the reapportionment of the approved land district amendments.

(Added Ord. 79-169, § 2, eff. 11-16-79; Am. Ord. 80-29, §§ 1, 2, 4-11-80; Am. Ord. 80-115, § 118, eff. 8-8-80; Am. Ord. 82-82, § 5, eff. 9-17-82; Am. Ord. 83-163, § 6, eff. 1-20-84; Am. Ord. 85-49, § 1, eff. 5-10-85; Am. Ord. 86-51, §§ 1—3, eff. 5-2-86; Am. Ord. 87-62, § 1, eff. 7-3-87; Am. Ord. 91-33, § 1, eff. 5-10-91; Am. Ord. 95-38, §§ 6, 7, eff. 6-9-95; Am. Ord. 2004-118, § 1, eff. 12-21-04; Am. Ord. 2014-31, § 1, eff. 8-29-14).

SEC. 12-4.509. UGM PARK FEES.

A. UGM PARK SERVICE AREAS.

1. The Council shall establish by resolution UGM Park Service Areas within the Urban Growth Management Area.

   a. The official map for each UGM Park Service Area shall be kept on file in the Office of the Public Works Director.

2. The Public Works Director may adjust the boundaries of an established Park Service Area or may concurrently adjust the common boundaries within two or more established Park Service Areas under either of the following circumstances.

   a. When the service area boundary crosses through a proposed development; or

   b. When it is determined by the Public Works Director that a proposed development will be serviced from an adjacent service area.

B. UGM PARK FEE.

1. The Council shall designate in the Master Fee Resolution a separate schedule of UGM Park Fees for each UGM Park Service Area.

2. Fees set forth in the Master Fee Resolution shall be amended during the month of January each year to reflect:

   a. Inflation in the estimated cost of a park, equipment and facilities, land, and other related expenses;

   b. Any territory annexed to the park service area during the preceding year which will generate additional fees;

   c. Any development which occurred during the preceding year within the service area of the subject park but which is exempt from the payment of fees hereunder;

d. Changes in land use plans approved by the Council affecting the density of development within a service area; and

e. Any other factors influencing the cost of constructing a park.

C. UGM DEVELOPMENT PERMITTED.

1. Development will be permitted within an established UGM Park Service Area only upon payment by the developer of the appropriate UGM Park Capital Fee.

2. When only a portion of a lot is developed, and the remaining portion is to continue undeveloped or is to be used solely for the growing of agricultural crops, the Public Works Director may require the payment of the Park Fee applicable only to that portion of the lot developed or to be developed, provided that the parcel for which such fees are charged shall have an area of not less than twelve thousand five hundred (12,500) square feet. When the balance of the lot is developed, the remaining Park Fee shall be paid. The Public Works Director shall fix the portion of the lot which is to be considered as developed.

3. The UGM Park Capital Fee is payable upon the submittal for final approval of any tract map or parcel map or, in the absence of submittal of a map, at the time of issuance of a building permit. A developer may elect to defer the payment of such fee until issuance of a certificate of occupancy pursuant to an agreement which conforms to the requirements of Section 12-4.604.

4. Development defined within the text of the code to be a planned unit development or development approved pursuant to a Conditional Use Permit shall pay fees according to a rate determined by the Director to be most similar to the actual land use.

5. In the R-A, AE-5 and AE-20 zone districts on a developed lot at least four (4.0) net acres in size, when a portion not less than twelve thousand five hundred square feet of such lot is to be improved with one additional single-family residence, the Director may require the payment of the UGM Park Capital Fee applicable only to the portion of such lot to be improved. The Director shall fix the portion of such lot which is to be considered as improved.

D. UGM DEVELOPMENT RESTRICTIONS. The developer of land within the Urban Growth Management Area which includes territory designated on an adopted city plan as a park site shall, as a condition of approval of his development, dedicate such territory to the city for use as a park. Such developer shall thereafter be reimbursed in accordance with subsection F-2 of this section.

E. CONSTRUCTION OF UGM PARK.

1. All fees collected for development within a UGM Park Service Area shall be deposited into a separate UGM Park Capital Fund. Each such fund shall be used solely for the purposes of purchasing land, constructing buildings and improvements, and purchasing machinery, equipment, furnishings and other capital-type facilities

to provide park and recreation facilities within the UGM Park Service Area in which such fees were generated, and for administration, inspection and engineering costs of the city directly related thereto.

2. At such time as fees are collected from the development of one-half of the territory within any given park service area, as determined by the Director, the city shall initiate proceedings to call for bids for the construction of a park within such area.

F. REIMBURSEMENTS WITHIN UGM PARK AREA.

1. All UGM park capital fees collected within a UGM park service area following development of one-half of such area shall be charged at the service fee rate. All such fees shall be placed in a trust fund and, after any additional costs of acquisition and construction of the park are paid from such trust fund, shall be paid out semiannually to those persons, or their heirs and successors, who contributed park fees at the accelerated rate, in proportion to their respective contributions thereto, in the manner and for the period prescribed in Section 12-4.504-C of this Code. Reimbursement rights shall not be assignable except upon written request and notice to, and approval by, the city.

2. Where, as a condition precedent to approval of development in the Urban Growth Management Area, a person has been required to construct a park or dedicate a park site which has been accepted by the city, such person shall file with the Public Works Director within ninety days following acceptance of the park a project accounting stating the cost of construction of the park and, if a park site has been dedicated, the cost of acquisition of the park site. The Public Works Director shall determine semiannually as of each April first and October first following acceptance of the park, those portions of the service area which have been developed and which have paid the park capital fee during the preceding six months, in the manner and for the period prescribed by Section 12-4.504-C of this Code.

   For each gross acre so determined to have been developed, there shall be paid from the UGM park capital fund to the person who constructed the park or, if applicable, dedicated the park site, reimbursements based on the cost of such park and the costs of site acquisition, design, construction, inspection, furnishings, and equipment. The amount to be reimbursed shall be credited against the park capital fee to be paid on behalf of all property contributing to the cost thereof in proportion to the amount of such contribution.

   In the event that credit for such property exceeds the park capital fee, the difference shall be paid from the UGM park capital fund upon city acceptance of the park, but only to the extent park capital fees are paid on behalf of other properties which are developed subsequent to city acceptance of the park, and only in the manner and for the period prescribed under Section 12-4.504-C of this Code. Payments may only be made to such person as shown on the project accounting, less his pro-rata share; provided further that neither determinations nor payments may be made at all if the project accounting is not timely filed as required above.

3. Where UGM park capital fees have been paid on the basis of a multifamily zone district classification but the subject property was thereafter actually developed to a single-family residential zone district standard, the Director shall refund to the payor of such fees the difference between the amount of fees actually paid and the amount which would have been paid if the subject property had been classified as a single-family residential zone district, subject to compliance with the following criteria:

   a. The properties for which refunds are requested shall have been developed. As used herein, "developed" shall mean the issuance of building permits for the construction of a single-family residential structure on a lot or lots of record within an established park service area.

   b. Where the subject property is still owned by the payor of such fees, the payor shall file an application for rezoning thereof to a single-family zone district with property development standards consistent with that which has actually been developed. Such application shall include such information as required by the Director to ascertain consistency with the applicable property development standards.

   c. Where the ownership of the subject property has been transferred to a person other than the payor of such fees, the Council shall initiate the rezoning thereof to a single-family zone district with property development standards consistent with that which has actually been developed. For properties such as these, the payor shall provide the Director with the names and addresses of the property owners of record, and with the information required by the Director to ascertain compliance with the applicable property development standards.

   d. Any request for refund of fees pursuant to this subsection shall identify the subject property by street address and legal description, the owner or owners of record thereof, the amount of fee paid attributable to such property, and proof of payment.

   e. The rezoning to the appropriate single-family zone classification shall have been approved by the Council and shall have become effective prior to payment of any refund of such fees.

   f. Except as otherwise provided herein, any refund sought pursuant to this subsection shall be processed in the time and manner prescribed in Fresno Municipal Code Section 12-4.504(c) including the retention of the administrative charge provided therein upon establishment of appropriate fee rates which include the reapportionment of the approved land district amendments.

(Added Ord. 79-169, § 3, eff. 11-16-79; Am. Ord. 80-29, §§ 3, 4, eff. 4-11-80; Am. Ord. 80-115, § 119, eff. 8-8-80; Am. Ord. 82-82, § 6, eff. 9-17-82; Am. Ord. 83-163, § 7, eff. 1-20-84; Am. Ord. 85-49, § 2, eff. 5-10-85; Am. Ord. 86-51, §§ 4—6, eff. 5-2-86; Am. Ord. 89-85, § 7, eff. 7-28-89; Am. Ord. 91-33, § 2, eff. 5-10-91; Am. Ord. 95-38, §§ 8, 9, eff. 6-9-95).

ARTICLE 4.6 PAYMENT OF DEVELOPMENT FEES AND CHARGES

Sec. 12-4.601. Title.
Sec. 12-4.602. Purpose.
Sec. 12-4.603. Definitions.
Sec. 12-4.604. Deferred Payment Authorized.

SEC. 12-4.601. TITLE.

This article shall be known as the "Development Fee Deferral Ordinance of the City of Fresno." Although this article regulates the payment of fees prescribed by the Zoning Ordinance of the City of Fresno, it shall not be deemed a part thereof. (Added Ord. 95-38, § 11, eff. 6-9-95)

SEC. 12-4.602. PURPOSE.

The development of real property within the city creates demands on existing municipal facilities, improvements, and services. Various development fees and charges are imposed upon new development in order to mitigate such demands. Payment of those fees and charges is required at various stages of the development process, including the amendment of applicable land use plans, rezoning, tentative tract map, tentative parcel map, UGM permit, the issuance of special permits, building permits, certificates of occupancy, and similar entitlements. To facilitate the orderly collection and administration of such development fees and charges, this article sets forth the terms and conditions upon which the payment thereof may be deferred and paid simultaneously upon the issuance of a certificate of occupancy for the buildings or structures within such development. (Added Ord. 95-38, § 11, eff. 6-9-95)

SEC. 12-4.603. DEFINITIONS.

(a) Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning, and application of words and phrases used in this article and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 2 (commencing with Section 1-201) of Chapter 1 and in Article 1 (commencing with Section 12-101) of Chapter 12 of this Code, shall also govern the construction, meaning, and application of words and phrases used in this article. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(b) "Development Entitlement" shall mean a general plan amendment, community plan amendment, specific plan amendment, zone district amendment, a UGM permit, conditional use permit, site plan, tentative tract map, tentative parcel map, building permit, or other permit or entitlement authorizing the development of real property or the construction of a structure thereon.

(c) "Development Fee" shall mean a charge or fee imposed by this code or by council resolution as a condition of the approval or issuance of a development entitlement or the right to connect property to the city water or sewer system, the proceeds of which fee or charge are to be utilized for the acquisition or construction of capital facilities. (Added Ord. 95-38, § 11, eff. 6-9-95)

SEC. 12-4.604. DEFERRED PAYMENT AUTHORIZED.

Whenever a provision of this code or council resolution authorizes the deferred payment of a development fee pursuant to this section, a developer may elect to defer the payment of such fee for any lot or parcel until the issuance by the city of a certificate of occupancy for any building or structure on that lot or parcel by entering into an agreement with the city as follows:

(a) The fee obligation deferred, including fees generated by common areas, outlots, and similar areas within a subdivision or development, shall be prorated to each lot, parcel, unit or building in the manner specified by the Director.

(b) The deferred fee shall be payable at the rate in effect at the time of payment.

(c) The fee shall be payable no later than issuance by the city of a certificate of occupancy for any structure erected on said lot or parcel.

(d) The agreement authorizing deferred payment shall be in a form approved by the city attorney.

(e) The agreement shall be signed by all persons having a record interest in the real property for which the fees are being deferred and shall include a legal description of that property.

(f) The agreement shall provide that the whole or any part of the balance of the charges due may be accelerated and paid at any time at the option of the payor.

(g) The agreement shall constitute a covenant running with the land, shall establish a lien on the property in favor of the city in the amount of the deferred charges, and shall be recorded in the office of the Fresno County Recorder.

(h) The lien for said fee shall be enforceable by the city in any manner available at law or in equity, including but not limited to private foreclosure and sale of the property in the manner provided in Section 2924 of the California Civil Code. (Added Ord. 95-38, § 11, eff. 6-9-95).

ARTICLE 4.7 PARK FACILITIES FEE

Sec. 12-4.701. Purpose.
Sec. 12-4.702. Park Facilities Fee Established.
Sec. 12-4.703. Effect on UGM Park Fees.
Sec. 12-4.704. Use of Fee Revenues.
Sec. 12-4.705. Developer Dedication or Construction of Facilities.
Sec. 12-4.706. Administrative Guidelines.

SEC. 12-4.701. PURPOSE.

In order to implement the goals and objectives of the City's general plan, and to mitigate the impacts caused by future development in the city, certain park facilities must be constructed. The City Council has determined that a park facilities fee is needed in order to finance these public facilities and to pay for each development's fair share of the construction and acquisition costs of these improvements. In establishing the fee described in the following sections, the City Council has found the fee to be consistent with its general plan, and pursuant to Government Code Section 65913.2, has considered the effects of the fee with respect to the city's housing needs as established in the housing element of the general plan. (Added Ord. 2005-113, § 1, eff. 11-7-05).

SEC. 12-4.702. PARK FACILITIES FEE ESTABLISHED.

(a) A park facilities fee ("the Fee") is established to pay for municipally owned park and recreation facilities.

(b) The City Council shall, in a Council resolution adopted after a duly noticed public hearing, set forth the amount of the Fee, describe the benefit and impact area on which the Fee is imposed, set forth the municipally owned public facilities to be financed with the revenue from the Fee, describe the estimated cost of those facilities, and describe the reasonable relationship between the Fee and the various types of future developments and set forth the time for payment of the Fee. (Added Ord. 2005-113, § 1, eff. 11-7-05).

SEC. 12-4.703. EFFECT ON UGM PARK FEES.

Following the Council's adoption of the resolution required by subdivision (b) of Section 12-4.702 and the Fee becoming effective, any project subject to the Fee shall be exempt from complying with the requirements of Section 12-4.509; provided, however, that if a court of competent jurisdiction declares the Fee to be invalid or otherwise prevents the City from collecting the Fee following the Fee becoming effective, all projects shall remain subject to the requirements of Section 12-4.509. (Added Ord. 2005-113, § 1, eff. 11-7-05).

SEC. 12-4.704. USE OF FEE REVENUES.

The revenues raised by payment of the Fee shall be accounted for in the city's capital project fund. Separate and special accounts within the fund shall be used to account for revenues, along with any interest earnings on such account. These monies shall be used for the following purposes:

(a) To pay for land acquisition for, and design, engineering, and construction of the public facilities designated in the Council resolution and reasonable costs of outside consultant studies related thereto;

(b) To reimburse the city for designated public facilities constructed by the city with funds (other than gifts or grants) from other sources together with accrued interest;

(c) To reimburse developers who have designed and constructed designated public facilities which are oversized with supplemental size, length, or capacity; and/or

(d) To pay for and/or reimburse costs of program development and ongoing administration of the park facilities fee program.

(Added Ord. 2005-113, § 1, eff. 11-7-05).

SEC. 12-4.705. DEVELOPER DEDICATION OR CONSTRUCTION OF FACILITIES.

Residential development shall be responsible for a combination of land dedication and payment of in-lieu fees as follows:

a) **Single-Family Development.**

i. **Fifty Parcels or Less.** For residential subdivisions with tentative maps containing fifty parcels or less, (inclusive of outlots) the subdivider shall pay in-lieu fees only.

ii. **More Than Fifty Parcels.** For residential subdivisions with tentative maps containing more than fifty parcels (inclusive of outlots), the subdivider shall pay in-lieu fees and dedicate 0.6 acres per 1,000 residents, or 0.001884 acres per residential unit, for a pocket park within the overall tentative map. This requirement shall apply to phased final subdivision maps which are part of a tentative map exceeding fifty parcels. An outlot being dedicated to satisfy the dedication requirement herein, shall include standard frontage improvements (including curb, gutter, sidewalk, and street lighting) as well as irrigation, landscaping, and park benches as approved by the Director of the Parks, After-School, Recreation and Community Services Department (Frontage and Landscape Improvements).

b) **Dedication Credit.**

i. **Recreational Improvements.** Per the Map Act (Section 66477(a)(9)), the value of park and recreational improvements required or approved by the City shall be a credit against the payment of fees required by this section. Park Facility Impact Fee credits or reimbursements will not be made for Frontage and Landscape Improvements.

ii. **Supplemental Park Land Dedication.** If a subdivider is required, as a condition of a discretionary approval, to dedicate park land in excess of 0.6 acres per 1,000 residents, or 0.001884 acres per residential unit, the value of the supplemental park land in excess of 0.001884 acres per residential unit shall be a credit against the payment of fees required by this section.

iii. **Neighborhood and Community Park Land.** If a subdivider is required, as a condition of a discretionary approval, to dedicate land for or construct a

neighborhood or community park of more than two acres, a credit against the fee otherwise levied by this section on the development project shall be offered by the City. The reimbursement amount shall not include the portion of the improvement needed to mitigate the burdens created by the development as determined by the City.

iv. **Reimbursement Agreement.** In the event a subdivider is entitled to credit pursuant to this section or Section 15-3701(J), City and the subdivider shall enter into a reimbursement agreement.

c) **Gated Development.** Gated subdivisions shall be subject to the combined in-lieu fee and park land dedication requirements set forth in this section, except that land dedication shall be made to the appropriate association and not the City.

d) **Multi-Family Development.** Multi-family developments shall be subject to on-site open space and in-lieu fee requirements as established in Chapter 15 (Development Code) of the Fresno Municipal Code.

(Added Ord. 2005-113, § 1, eff. 11-7-05; Am. Ord. 2016-57, § 1, eff. 1-22-17).

SEC. 12-4.706. ADMINISTRATIVE GUIDELINES.

The City Council may, by resolution, adopt administrative guidelines to provide procedures for the calculation, reimbursement, credit, or deferred payment and other administrative aspects of the fee.

(Added Ord. 2005-113, § 1, eff. 11-7-05).

ARTICLE 4.8 POLICE FACILITIES FEE

Sec. 12-4.801. Purpose.
Sec. 12-4.802. Police Facilities Fee Established.
Sec. 12-4.803. Effect on UGM Police Fees.
Sec. 12-4.804. Use of Fee Revenues.
Sec. 12-4.805. Developer Dedication or Construction of Facilities.
Sec. 12-4.806. Administrative Guidelines.

SEC. 12-4.801. PURPOSE.

In order to implement the goals and objectives of the City's general plan, and to mitigate the impacts caused by future development in the city, certain police facilities must be constructed. The City Council has determined that a Police Facilities Fee is needed in order to finance these public facilities and to pay for each development's fair share of the construction and acquisition costs of these improvements. In establishing the fee described in the following sections, the City Council has found the fee to be consistent with its general plan, and pursuant to Government Code Section 65913.2, has considered the effects of the fee with respect to the city's housing needs as established in the housing element of the general plan.
(Added Ord. 2005-114, § 1, eff. 11-7-05).

SEC. 12-4.802. POLICE FACILITIES FEE ESTABLISHED.

(a) A Police Facilities Fee ("the Fee") is established to pay for municipally owned police facilities.

(b) The City Council shall, in a Council resolution adopted after a duly noticed public hearing, set forth the amount of the Fee, describe the benefit and impact area on which the Fee is imposed, set forth the municipally owned public facilities to be financed with the revenue from the Fee, describe the estimated cost of those facilities, and describe the reasonable relationship between the Fee and the various types of future developments and set forth the time for payment of the Fee.
(Added Ord. 2005-114, § 1, eff. 11-7-05).

SEC. 12-4.803. EFFECT ON UGM POLICE FEES.

Following the Council's adoption of the resolution required by subdivision (b) of Section 12-4.802 and the Fee becoming effective, any project subject to the Fee shall be exempt from complying with the requirements of any other development impact fees contained within the Master Fee Schedule related to funding police facilities.
(Added Ord. 2005-114, § 1, eff. 11-7-05).

SEC. 12-4.804. USE OF FEE REVENUES.

The revenues raised by payment of the Fee shall be accounted for in the city's capital project fund. Separate and special accounts within the fund shall be used to account for revenues, along with any interest earnings on such account. These monies shall be used for the following purposes:

(a) To pay for land acquisition for, and design, engineering, and construction of the public facilities designated in the Council resolution and reasonable costs of outside consultant studies related thereto;

(b) To reimburse the city for designated public facilities constructed by the city with funds (other than gifts or grants) from other sources together with accrued interest;

(c) To reimburse developers who have designed and constructed designated public facilities which are oversized with supplemental size, length, or capacity; and/or

(d) To pay for and/or reimburse costs of program development and ongoing administration of the Police Facilities Fee program. (Added Ord. 2005-114, § 1, eff. 11-7-05).

SEC. 12-4.805. DEVELOPER DEDICATION OR CONSTRUCTION OF FACILITIES.

If a developer is required, as a condition of approval of a permit, to dedicate land for or construct a public facility that has been designated to be financed with police facilities fees and if the facility has supplemental size, length, or capacity over that needed for the impacts of the development, a reimbursement agreement with the developer and a credit against the fee otherwise levied by this chapter on the development project shall be offered by the city. The reimbursement amount shall not include the portion of the improvement needed to mitigate the burdens created by the development. (Added Ord. 2005-114, § 1, eff. 11-7-05).

SEC. 12-4.806. ADMINISTRATIVE GUIDELINES.

The City Council may, by resolution, adopt administrative guidelines to provide procedures for the calculation, reimbursement, credit, or deferred payment and other administrative aspects of the fee. (Added Ord. 2005-114, § 1, eff. 11-7-05).

ARTICLE 4.9 FIRE FACILITIES FEE

Sec. 12-4.901. Purpose.
Sec. 12-4.902. Fire Facilities Fee Established.
Sec. 12-4.903. Effect on UGM Fire Stations Fees.
Sec. 12-4.904. Use of Fee Revenues.
Sec. 12-4.905. Developer Dedication or Construction of Facilities.
Sec. 12-4.906. Administrative Guidelines.

SEC. 12-4.901. PURPOSE.

In order to implement the goals and objectives of the City's general plan, and to mitigate the impacts caused by future development in the city, certain fire department facilities must be constructed. The City Council has determined that a Fire Facilities Fee is needed in order to finance these public facilities and to pay for each development's fair share of the construction and acquisition costs of these improvements. In establishing the fee described in the following sections, the City Council has found the fee to be consistent with its general plan, and pursuant to Government Code Section 65913.2, has considered the effects of the fee with respect to the city's housing needs as established in the housing element of the general plan. (Added Ord. 2005-115, § 1, eff. 11-7-05).

SEC. 12-4.902. FIRE FACILITIES FEE ESTABLISHED.

(a) A Fire Facilities Fee ("the Fee") is established to pay for municipally owned fire facilities.

(b) The City Council shall, in a Council resolution adopted after a duly noticed public hearing, set forth the amount of the Fee, describe the benefit and impact area on which the Fee is imposed, set forth the municipally owned public facilities to be financed with the revenue from the Fee, describe the estimated cost of those facilities, and describe the reasonable relationship between the Fee and the various types of future developments and set forth the time for payment of the Fee. (Added Ord. 2005-115, § 1, eff. 11-7-05).

SEC. 12-4.903. EFFECT ON UGM FIRE STATIONS FEES.

Following the Council's adoption of the resolution required by subdivision (b) of Section 12-4.902 and the Fee becoming effective, any project subject to the Fee shall be exempt from complying with the requirements of Section 12-4.508; provided, however, that if a court of competent jurisdiction declares the Fee to be invalid or otherwise prevents the City from collecting the Fee following the Fee becoming effective, all projects shall remain subject to the requirements of Section 12-4.508. (Added Ord. 2005-115, § 1, eff. 11-7-05).

SEC. 12-4.904. USE OF FEE REVENUES.

The revenues raised by payment of the Fee shall be accounted for in the city's capital project fund. Separate and special accounts within the fund shall be used to account for revenues, along with any interest earnings on such account. These monies shall be used for the following purposes:

(a) To pay for land acquisition for, and design, engineering, and construction of the public facilities designated in the Council resolution and reasonable costs of outside consultant studies related thereto;

(b) To reimburse the city for designated public facilities constructed by the city with funds (other than gifts or grants) from other sources together with accrued interest;

(c) To reimburse developers who have designed and constructed designated public facilities which are oversized with supplemental size, length, or capacity; and/or

(d) To pay for and/or reimburse costs of program development and ongoing administration of the Fire Facilities Fee program. (Added Ord. 2005-115, § 1, eff. 11-7-05).

SEC. 12-4.905. DEVELOPER DEDICATION OR CONSTRUCTION OF FACILITIES.

If a developer is required, as a condition of approval of a permit, to dedicate land for or construct a public facility that has been designated to be financed with Fire Facilities Fees and if the facility has supplemental size, length, or capacity over that needed for the impacts of the development, a reimbursement agreement with the developer and a credit against the fee otherwise levied by this chapter on the development project shall be offered by the city. The reimbursement amount shall not include the portion of the improvement needed to mitigate the burdens created by the development. (Added Ord. 2005-115, § 1, eff. 11-7-05).

SEC. 12-4.906. ADMINISTRATIVE GUIDELINES.

The City Council may, by resolution, adopt administrative guidelines to provide procedures for the calculation, reimbursement, credit, or deferred payment and other administrative aspects of the fee. (Added Ord. 2005-115, § 1, eff. 11-7-05).

ARTICLE 4.10 STREET FACILITIES FEE

Sec. 12-4.1001. Purpose.
Sec. 12-4.1002. Street Facilities Fee Established.
Sec. 12-4.1003. Effect on UGM Street Fees and Street Dedication Requirements.
Sec. 12-4.1004. Use of Fee Revenues.
Sec. 12-4.1005. Developer Dedication or Construction of Facilities.
Sec. 12-4.1006. Administrative Guidelines.

SEC. 12-4.1001. PURPOSE.

In order to implement the goals and objectives of the City's general plan, and to mitigate the impacts caused by future development in the city, certain street facilities must be constructed. The City Council has determined that street facilities fees are needed in order to finance these public facilities and to pay for each development's fair share of the construction and acquisition costs of these improvements. Based on this determination, Council adopted, by resolution amending the Master Fee Schedule, a Citywide Regional Street Impact Fee ("Citywide Street Fee") and a New Growth Area Major Street Fee ("Growth Area Street Fee"). Council adopts this Article to require the imposition of these street facilities fees on new development in the city.
(Added Ord. 2007-47, § 4, eff. 4-19-07; Am. Ord. 2007-50, § 4, 7-14-07).

SEC. 12-4.1002. STREET FACILITIES FEES ESTABLISHED.

(a) All new development in the city shall be responsible for paying a Citywide Street Fee consistent with the administrative guidelines adopted pursuant to Section 12-4.1006. The amount of the Citywide Street Fee shall be provided in the Master Fee Schedule.

(b) In addition to the Citywide Street Fee, all new development in the New Growth Area (as delineated on the Official New Growth Area Major Street Map which shall be kept and made available to the public in the Public Works Department and made available on the city's website), shall be responsible for paying the Growth Area Street Fee consistent with the administrative guidelines adopted pursuant to Section 12-4.1006. The amount of the Growth Area Street Fee shall be provided in the Master Fee Schedule and shall include, for purposes of simplification, a component that equals the required Citywide Street Fee required in subdivision (a) of this section.
(Added Ord. 2007-47, § 4, eff. 4-19-07; Am. Ord. 2007-50, § 4, 7-14-07).

SEC. 12-4.1003. EFFECT ON UGM STREET FEES AND STREET DEDICATION REQUIREMENTS.

Following adoption of this Article and the administrative guidelines described in Section 12-4.1006, any project subject to the Citywide Street Fee and/or the Growth Area Street Fee shall be exempt from Sections 11-208, 11-208.1, 11-208.2 and 11-226. Notwithstanding the above, if a court of competent jurisdiction declares the Citywide Street Fee and/or the

Growth Area Street Fee to be invalid or otherwise prevents the City from collecting these fees following the fees becoming effective, all projects shall remain subject to all of the requirements of Sections 11-208, 11-208.1, 11-208.2 and 11-226.
(Added Ord. 2007-47, § 4, eff. 4-19-07; Am. Ord. 2007-50, § 4, 7-14-07).

SEC. 12-4.1004. USE OF FEE REVENUES.

The revenues raised by payment of the Fee shall be accounted for in the city's capital project fund. Separate and special accounts within the fund shall be used to account for revenues, along with any interest earnings on such account. These monies shall be used for the following purposes:

(a) To pay for land acquisition for, and design, engineering, and construction of the public street facilities designated to be financed with the Citywide Street Fee or the Growth Area Street Fee and identified in the Major Street Capital Improvement Plan ("designated public street facilities") and reasonable costs of outside consultant studies and other administrative costs related thereto consistent with administrative guidelines adopted pursuant to Section 12-4.1006;

(b) To reimburse the city for designated public street facilities constructed by the city with funds from other sources (not including Tier 1 Measure C Tier funds, competitive state or federal grants, state or federal earmarks) consistent with administrative guidelines adopted pursuant to Section 12-4.1006;

(c) To reimburse developers who have designed and constructed designated public street facilities in excess of the amount equal to their full fee obligation (and eligibility for fee credits) consistent with administrative guidelines adopted pursuant to Section 12-4.1006;

(d) To discharge reimbursement obligations for street or bridge requirements created under subsection 11-226(f) consistent with subdivision 11-226(f)(5) and administrative guidelines adopted pursuant to Section 12-4.1006; and/or

(e) To pay for and/or reimburse the costs of program development and to pay for ongoing administration costs of the street facilities fee program administrative guidelines adopted pursuant to Section 12-4.1006.
(Added Ord. 2007-47, § 4, eff. 4-19-07; Am. Ord. 2007-50, § 4, 7-14-07).

SEC. 12-4.1005. DEVELOPER DEDICATION OR CONSTRUCTION OF FACILITIES.

If a developer is required, as a condition of approval of a development entitlement, to dedicate land for or construct a public facility that has been designated to be financed with the Citywide Street Fee or the Growth Area Street Fee, the developer shall be given a credit against the amount of their Citywide Street Fee and/or Growth Area Street Fee obligation in the amount of the value of the dedication and/or construction consistent with the guidelines adopted pursuant to Section 12-4.1006. If the developer's construction and/or dedication exceeds the full value of their fee obligation (i.e., eligibility for fee credits), the developer

shall be reimbursed from the Citywide Street Fee and Growth Area Street Fee funds in the amount of the value of the dedication and/or construction exceeds the full fee obligation consistent with the guidelines adopted pursuant to Section 12-4.1006. All credits and reimbursements shall be administered pursuant to guidelines adopted pursuant to Section 12-4.1006.
(Added Ord. 2007-47, § 4, eff. 4-19-07; Am. Ord. 2007-50, § 4, 7-14-07).

SEC. 12-4.1006. ADMINISTRATIVE GUIDELINES.

The Council shall, by resolution, adopt administrative guidelines, which may be amended from time to time, to provide procedures for the calculation and payment of the Citywide Street Fee and/or the Growth Area Street Fee; reimbursement, credit, or deferred payment of the Citywide Street Fee and/or the Growth Area Street Fee; requirements on when a developer shall construct facilities to be financed by the Citywide Street Fee or the Growth Area Street Fee; and any other policies, not limited by the above, related to the administration of the street facilities fee program adopted pursuant to this Article.
(Added Ord. 2007-47, § 4, eff. 4-19-07; Am. Ord. 2007-50, § 4, 7-14-07).

ARTICLE 4.11 TRAFFIC SIGNAL FACILITIES FEE

Sec. 12-4.1101. Traffic Signal Charge.
Sec. 12-4.1102. Reimbursements.
Sec. 12-4.1103. Deferral of Charges.

SEC. 12-4.1101. TRAFFIC SIGNAL CHARGE.

A Traffic Signal Charge shall be required for each lot created by subdivision, each development, or building permit issued within the City limits, as designated on the Official Traffic Signal Impact Fee Boundary Map as prepared by the Public Works Director. The fee shall be based on the average daily trip(s), or fraction thereof, generated by a specific development times the per unit ADT fee designated in the Master Fee Schedule. Average Daily Trip (ADT) is the current average daily traffic that is generated by a particular development. ADTs include trips leaving or originating from a property. For example, a vehicle leaving a property or development would be counted as one ADT, a vehicle entering a property or development would also be counted as one ADT.

For residential developments the trip generation shall be identified in the Master Fee Schedule. For non-residential development the trip generation calculations shall be based on the square footage of building(s), the building use, and utilizing the Institute of Transportation Engineers, Trip Generation Manual for average daily trip generation of the various building uses.
(Added Ord. 2007-47, § 5, eff. 4-19-07; Am. Ord. 2007-50, § 4, 7-14-07).

SEC. 12-4.1102. REIMBURSEMENTS.

Whenever a person covenants in a form acceptable to the City Attorney to install master plan traffic signal improvements, the estimated cost of construction thereof shall be credited against the Traffic Signal Charge which is due upon granting of the development entitlement on the property contributing to the cost of the traffic signal improvements. The estimated cost of construction for the traffic signal improvements shall be established by the Director.

In the event the actual cost of traffic signal construction exceeds the Traffic Signal Charge, a reimbursement shall be paid from the Traffic Signal Fund upon city acceptance of the signal improvements only to the extent that Traffic Signal Charges are paid on behalf of noncontributing properties served by the traffic signal up to the duration of the appropriate reimbursement period, in the manner prescribed by Section 12-4.504-C of this Code, and subject to the following:

(a) A request for reimbursement shall be submitted to the Director within ninety days following city acceptance of the signal work and shall include final statements from the contractor detailing the work that was performed. Only items approved by the Director shall be reimbursed.

(b) Reimbursement shall be made for the actual cost of construction including engineering and plan preparation.

(c) Except in the case of safety lighting, no reimbursement payments shall be made until the Director determines that traffic warrants for a signal are achieved. Upon such determination, and upon the Director's acceptance of the project accounting statements, the person installing the signal shall be eligible for reimbursement on or about April first and October first to the extent that unobligated funds are on deposit in the Traffic Signal Fund.

(d) The priority of reimbursements shall be based on the date the Director accepts the project accounting statements or on the date the Director determines that traffic warrants for the signal are achieved, whichever occurs later.

(e) The person initiating the signal installation shall be responsible to the city for all operation and maintenance costs until such time as the Director determine that traffic warrants are achieved.

(f) When reimbursements are made pursuant to this Section, the city shall reimburse in a manner and for the period prescribed by Section 12-4.504-C of this Code.

(Added Ord. 2007-47, § 5, eff. 4-19-07; Am. Ord. 2007-50, § 5, 7-14-07).

SEC. 12-4.1103. DEFERRAL OF CHARGES.

Traffic Signal Charges may be deferred until issuance of a certificate of occupancy pursuant to an agreement which conforms to the requirements of Section 12-4.604.

(Added Ord. 2007-47, § 5, eff. 4-19-07; Am. Ord. 2007-50, § 5, 7-14-07).

ARTICLE 4.12 EXEMPTION OF DEVELOPMENT FEES ON CERTAIN SMALL RESIDENTIAL DEVELOPMENTS

Sec. 12-4.1201. Title.
Sec. 12-4.1202. Purpose.
Sec. 12-4.1203. Definition.
Sec. 12-4.1204. Fee Exemption Program.
Sec. 12-4.1205. Application Process and Approval.
Sec. 12-4.1206. Precedence.

SEC. 12-4.1201. TITLE.

This article shall be known as the "Best Utilization of Infill Land Development" (B.U.I.L.D.) Ordinance of the City of Fresno. Although this article regulates the payment of fees prescribed by the Zoning Ordinance of the City of Fresno, it shall not be deemed a part thereof.
(Added Ord. 2013-21, § 1, eff. 8-24-13).

SEC. 12-4.1202. PURPOSE.

The Council desires to provide incentives for development within the City. It is Council's intent to provide an exemption of the development impact fees on any replacement or reconstruction of an existing single family, duplex, triplex or fourplex unit that has been destroyed or demolished, where the use of the property will not change or be intensified. Typically, fees would have been paid when the structure was previously constructed. This exemption is with the expectation that it will encourage and promote development of vacant and underutilized lots within established neighborhoods.
(Added Ord. 2013-21, § 1, eff. 8-24-13).

SEC. 12-4.1203. DEFINITION.

"Small Residential Development" for purposes of this article, shall mean the development constructing not more than four residential units in total, consisting of single family, duplex, triplex or fourplex units, where the new construction is replacing substantially similar dwellings with the same number of units.
(Added Ord. 2013-21, § 1, eff. 8-24-13).

SEC. 12-4.1204. FEE EXEMPTION PROGRAM.

Small Residential Developments shall be eligible for exemption of development impact fees, provided the development meets the following criteria:

(a) The development is any replacement or reconstruction of an existing Small Residential Development; and

(b) The development is substantially similar to the unit being replaced or reconstructed, such as a single family, duplex, triplex or fourplex unit; and

(c) The replacement or reconstruction does not significantly expand or intensify the use of the property.

(Added Ord. 2013-21, § 1, eff. 8-24-13).

SEC. 12-4.1205. APPLICATION PROCESS AND APPROVAL.

(a) Applications for fee exemption shall be submitted to the Director of Public Works, at or before the time of building permit approval. Applications for fee exemption shall not be submitted until after approval of all discretionary planning entitlements, except that applications for fee exemption can be submitted concurrently with applications for design review.

(b) The Director of Public Works shall approve the application upon a determination of fee exemption based on the criteria in Section 12-4.1204.

(Added Ord. 2013-21, § 1, eff. 8-24-13).

SEC. 12-4.1206. PRECEDENCE.

In the event of a conflict between this article and any other provisions of this code, ordinance, resolution, or administrative guideline adopted by Council, this article shall apply on the governance of fee exemptions.

(Added Ord. 2013-21, § 1, eff. 8-24-13).

ARTICLE 4.13 TRANSFER OF DEVELOPMENT FEES FOR THE REPLACEMENT OF CONDEMNED BUSINESS PROPERTY

Sec. 12-4.1301. Purpose.
Sec. 12-4.1302. Definitions.
Sec. 12-4.1303. Fee Transfer Program.
Sec. 12-4.1304. Application Process and Approval.
Sec. 12-4.1305. Development at Condemned Location.

SEC. 12-4.1301. PURPOSE.

The Council desires to provide credit for the transfer of development impact fees, up to fifty thousand dollars ($50,000), for any business that must relocate and construct a new facility due to its previous location being completely condemned and demolished. Typically, impact fees would have been paid when the owner's original location (now condemned) was constructed, and if the requirements of this Article are met, there is no net new impact to city resources, and the fees originally paid will transfer to the new location.
(Added Ord. 2015-5, § 1, eff. 4-27-15).

SECTION 12-4.1302. DEFINITIONS.

(a) For the purpose of this Article, "Applicant" shall mean a business owner applying for development impact fee transfer credits whose business location is completely condemned by a public agency and demolished, requiring the business owner to relocate and reconstruct at a new location.

(b) For the purpose of this Article, "Infill Development" shall mean a project that complies with all of the following criteria:

(i) The proposed development is consistent with the applicable general plan designation and all applicable general plan policies, as well as with applicable zoning designation and regulations;

(ii) The proposed development occurs within city limits on a project site of no more than five (5) acres substantially surrounded by urban uses;

(iii) The project site has no value as a habitat for endangered, rare, or threatened species;

(iv) Approval of the project will not result in any significant effects relating to traffic, noise, air quality, or water quality; and

(v) The site can be adequately served by all required utilities and public services.
(Added Ord. 2015-5, § 1, eff. 4-27-15).

SEC. 12-4.1303. FEE TRANSFER PROGRAM.

An Applicant may be eligible for transferred fee credits up to fifty thousand dollars ($50,000), provided the business meets all of the following criteria:

(a) The Applicant's prior location was completely condemned by a public agency and demolished, requiring the Applicant to relocate its business and newly construct its facility;

(b) Development at the new location does not significantly change, expand, or intensify the business's prior use at the condemned location;

(c) The newly constructed facility is the same size or smaller than the facility at the condemned location;

(d) The new location is considered Infill Development; and

(e) The new location is owner-occupied.

(Added Ord. 2015-5, § 1, eff. 4-27-15).

SEC. 12-4.1304. APPLICATION PROCESS AND APPROVAL.

(a) Applications for fee transfers shall be submitted to the Public Works Director, at or before the time of building permit approval. Applications for fee transfers shall not be submitted until after approval of all discretionary planning entitlements, except that applications for fee transfers can be submitted concurrently with applications for design review.

(b) The Public Works Director shall approve the application upon a determination the Applicant meets the criteria in Section 12-4.1303.

(c) The transferred fee credits shall be capped at fifty thousand dollars ($50,000). All impact fees above that amount shall be the responsibility of the Applicant.

(Added Ord. 2015-5, § 1, eff. 4-27-15).

SEC. 12-4.1305. DEVELOPMENT AT CONDEMNED LOCATION.

Any future development by anyone at Applicant's prior condemned location will be subject to full payment of development impact fees.

(Added Ord. 2015-5, § 1, eff. 4-27-15).

ARTICLE 4.14 EXEMPTION OF DEVELOPMENT IMPACT FEES FOR CERTAIN PROJECTS IN ECONOMICALLY DISADVANTAGED NEIGHBORHOODS

Sec. 12-4.1401. Purpose and Findings.
Sec. 12-4.1402. Economically Disadvantaged Neighborhoods Defined.
Sec. 12-4.1403. Fees Subject to Exemption.
Sec. 12-4.1404. Exemption From Payment Of Fees For Certain Types Of Business.
Sec. 12-4.1405. Application Process and Approval.
Sec. 12-4.1406. Exemption Shall Not Trigger Prevailing Wage.
Sec. 12-4.1407. Annual Report.
Sec. 12-4.1408. Effectiveness.

SEC. 12-4.1401. PURPOSE AND FINDINGS.

The City wishes to provide incentives to facilitate desirable development in underserved neighborhoods. Grocery stores, professional and medical offices, banks, and mixed use developments are inconsistently distributed around the City, with economically disadvantaged neighborhoods being vastly underserved. To incentivize development of desirable businesses in these neighborhoods, Council proposes to institute this article to eliminate development impact fees when certain criteria are met.

In Economically Disadvantaged Neighborhoods, public infrastructure to support commercial uses currently exists, so the need for additional development impact fees to pay for development impacts in those areas are reduced or eliminated. The City recognizes exemption of certain projects from payment of selected impact fees will reduce the amount of funds available for use on public facilities for each fee exempted. A portion of the exempted fees may need to be offset by either reducing the public infrastructure investments that are the basis for the current fee schedule and/or identifying other legally available funding sources. Certain public facilities that were planned at the time of the adoption of the current impact fees may need to be reduced or eliminated as unnecessary, nonessential, or delayed. The City also recognizes a fee cannot be increased on future developments or other developments to make up for fees exempted pursuant to this article.

In addition, development incentivized by this ordinance would create an increase in assessed valuation, and therefore increased property tax receipts due to the City, which combined with potential sales tax revenue and other revenue streams resulting from job creation and economic activity of the development, may be used to offset the effect of the reduced fees.

Although this article regulates the payment of fees prescribed by the Zoning Ordinance, it shall not be deemed a part thereof.
(Added Ord. 2015-44, § 1, eff. 1-22-16).

SEC. 12-4.1402. ECONOMICALLY DISADVANTAGED NEIGHBORHOODS DEFINED.

Economically Disadvantaged Neighborhoods shall be defined as follows:

(a) A designated Community Development Block Grant (CDBG) targeted area.

(b) Census tracts where forty percent (40%) or more of households are considered to be of low or moderate income, as defined in California Health and Safety Code section 50093.

(c) Within one-half mile of the Blackstone Bus Rapid Transit (BRT) corridor south of Shaw Avenue.

(d) One of the following former Redevelopment Project Areas:

(1) Airport Area Revitalization Redevelopment Area;

(2) Central Business District Redevelopment Area;

(3) Central City Commercial Revitalization Redevelopment Area;

(4) Chinatown Expanded Redevelopment Area;

(5) Convention Center Redevelopment Area;

(6) Fresno Air Terminal Redevelopment Area;

(7) Fruit/Church Redevelopment Area;

(8) Fulton Redevelopment Area;

(9) Freeway 99 - Golden State Corridor Redevelopment Area;

(10) Jefferson Redevelopment Area;

(11) Mariposa Redevelopment Area;

(12) Roeding Business Park Redevelopment Area;

(13) South Van Ness Industrial Redevelopment Area;

(14) Southeast Fresno Revitalization Redevelopment Area;

(15) South Fresno Industrial Redevelopment Area;

(16) Southwest Fresno G.N.R.A. Redevelopment Area;

(17) West Fresno I Redevelopment Area;

(18) West Fresno II Redevelopment Area.

(Added Ord. 2015-44, § 1, eff. 1-22-16).

SEC. 12-4.1403. FEES SUBJECT TO EXEMPTION.

The development impact fees subject to the exemption under this article (the "Development Impact Fees") include fees for Fire Facilities, Police Facilities, Regional Streets, New Growth Streets, and Traffic Signals. Water and sewer connection charges shall not be subject to exemption.

(Added Ord. 2015-44, § 1, eff. 1-22-16).

SEC. 12-4.1404. EXEMPTION FROM PAYMENT OF FEES FOR CERTAIN TYPES OF BUSINESS.

(a) A development project located in an Economically Disadvantaged Neighborhood is exempt from payment of Development Impact Fees if all of the following criteria are met:

(1) The development project is either:

(i) A grocery store dedicating at least fifty percent of its retail space for a general line of food and non-food grocery products intended for home preparation, consumption, and use; or a grocery store dedicating at least thirty percent of its retail space for perishable goods that include dairy, fresh produce, fresh meats/poultry/fish, and frozen foods; or a grocery store dedicating at least 500 square feet of retail space to fresh produce. The exemption shall not apply to convenience stores.

(ii) Any building to be used as a professional or medical office.

(iii) Banks or credit unions. This article does not apply to Payday Lending Establishments.

(iv) Mixed use developments.

(v) Newly constructed or newly renovated hotels.

(vi) Facilities that are open to and serve the general public to provide social services and activities, including but not limited to, community workshops and events, educational activities, and/or health screenings.

(2) The development project is owner-occupied or subject to a commercial lease of three years or more.

(3) Necessary city infrastructure is already in place.

(Added Ord. 2015-44, § 1, eff. 1-22-16; Am. Ord. 2016-9, § 1, 5-12-16; Am. Ord. 2018-37, § 1, eff. 7-27-18).

SEC. 12-4.1405. APPLICATION PROCESS AND APPROVAL.

(a) Applications for fee exemption shall be submitted to the City Manager, at or before the time of building permit approval. Applications for fee exemptions shall not be submitted until after approval of all discretionary planning entitlements, except that applications for fee exemptions can be submitted concurrently with applications for design review.

(b) The City Manager shall approve the application upon a determination the Applicant meets the criteria in Section 12-4.1404.

(c) Any decision of the City Manager under this Article may be appealed de novo to the City Council by the aggrieved person (appellant), by filing a written request with the City Clerk stating the grounds for appeal and signed by appellant, within fifteen (15) days of the date of service of the decision of the City Manager. After public hearing, the Council shall have the authority to confirm, modify, or overrule the decision of the City Manager and the

decision of Council shall be final. For purposes of this article, service of the decision shall be the date said decision, if written, is mailed to the appellant. If no appeal is timely taken to the Council, the decision of the City Manager shall become final.
(Added Ord. 2015-44, § 1, eff. 1-22-16).

SEC. 12-4.1406. EXEMPTION SHALL NOT TRIGGER PREVAILING WAGE.

Because impact fees are designed to pay for public infrastructure, the reduction or exemption of fees under this article shall not cause the payment of prevailing wage to be required for the portion of the development project that is not public infrastructure.
(Added Ord. 2015-44, § 1, eff. 1-22-16).

SEC. 12-4.1407. ANNUAL REPORT.

In addition to the annual report required under the Mitigation Fee Act (Gov. Code 66000 et seq.), the City Manager shall prepare and present a report to Council by the end of each fiscal year, detailing the amount and type of Development Impact Fees eliminated for each development project, along with the running total of eliminated fees that may need to be offset by other legally permissible City funding sources, and/or capital improvement projects planned at the time of adoption of the impact fees that will be reduced or eliminated.
(Added Ord. 2015-44, § 1, eff. 1-22-16).

SEC. 12-4.1408. EFFECTIVENESS.

This article shall apply to any development projects that have not yet received a building permit as of the effective date of this article. This article shall expire December 31, 2022, unless further extended by the Council. Upon expiration, impact fees will revert back to the full rate at that time without further action by the City.
(Added Ord. 2015-44, § 1, eff. 1-22-16; Am. Ord. 2016-55, § 1, eff. 1-15-17; Am. Ord. 2018-1, § 1, eff. 12-31-17; Am. Ord. 2018-64, § 1, eff. 1-18-19; Am. Ord. 2020-051, § 1, eff. 11-30-20).

ARTICLE 4.15 EXEMPTION OF DEVELOPMENT IMPACT FEES FOR THE REPLACEMENT OR RECONSTRUCTION OF EXISTING COMMERCIAL STRUCTURES

Sec. 12-4.1501. Title.
Sec. 12-4.1502. Purpose.
Sec. 12-4.1503. Fee Exemption Program.
Sec. 12-4.1504. Application Process and Approval.
Sec. 12-4.1505. Annual Report.
Sec. 12-4.1506. Effectiveness.

SEC. 12-4.1501. TITLE.

This article shall be known as the "Commercial BUILD Act" Ordinance of the City of Fresno. Although this article regulates the payment of fees prescribed by the Zoning Ordinance of the City of Fresno, it shall not be deemed a part thereof.
(Added Ord. 2015-45, § 1, eff. 1-22-16).

SEC. 12-4.1502. PURPOSE.

The Council desires to provide incentives for development within the City. It is Council's intent that development impact fees shall not be owed for replacement or reconstruction of an existing commercial building or structure that has been destroyed or demolished, where the use of the property will not change or be intensified. Typically, fees would have been paid when the building or structure was previously constructed. This exemption is with the expectation it will encourage and promote development of vacant and underutilized lots within established neighborhoods.
(Added Ord. 2015-45, § 1, eff. 1-22-16).

SEC. 12-4.1503. FEE EXEMPTION PROGRAM.

Development of commercial reconstruction projects shall not owe police facilities, fire facilities, major streets, and traffic signal development impact fees (the "Development Fees"), provided the development meets all of the following criteria:

(a) The development is the replacement or reconstruction of an existing commercial building or structure on the site that has been destroyed or demolished. The term "site" shall be limited to the parcel or parcels on which the pre-existing structure sat;

(b) The development is substantially similar in character, and use to the building or structure being replaced or reconstructed;

(c) The replacement or reconstruction does not significantly expand or intensify the use of the property;

(d) Necessary city infrastructure is already in place; and

(e) The development is substantially similar in size to the building or structure being replaced or reconstructed.

(1) For developments up to 125% of the square footage of the original building or structure being replaced, no Development Fees shall be owed.

(2) For developments greater than 125% of the square footage of the building or structure being replaced, Development Fees shall be owed in an amount that is 50% of the Development Fees that would otherwise be owed for new construction of similar size and character at the site.

(Added Ord. 2015-45, § 1, eff. 1-22-16).

SEC. 12-4.1504. APPLICATION PROCESS AND APPROVAL.

(a) Applications for fee exemption shall be submitted to the City Manager, at or before the time of building permit approval. Applications for fee exemptions shall not be submitted until after approval of all discretionary planning entitlements, except that applications for fee exemptions can be submitted concurrently with applications for design review.

(b) The City Manager shall approve the application upon a determination the Applicant meets the criteria in Section 12-4.1503.

(c) Any decision of the City Manager under this Article may be appealed de novo to the City Council by the aggrieved person (appellant), by filing a written request with the City Clerk stating the grounds for appeal and signed by appellant, within fifteen (15) days of the date of service of the decision of the City Manager. After public hearing, the Council shall have the authority to confirm, modify, or overrule the decision of the City Manager and the decision of Council shall be final. For purposes of this article, service of the decision shall be the date said decision, if written, is mailed to the appellant. If no appeal is timely taken to the Council, the decision of the City Manager shall become final.

(Added Ord. 2015-45, § 1, eff. 1-22-16).

SEC. 12-4.1505. ANNUAL REPORT.

In addition to the annual report required under the Mitigation Fee Act (Gov. Code 66000 et seq.), the City Manager shall prepare and present a report to Council by the end of each fiscal year, detailing the amount and type of Development Impact Fees eliminated for each development project, along with the running total of eliminated fees that may need to be offset by other legally permissible City funding sources, and/or capital improvement projects planned at the time of adoption of the impact fees that will be reduced or eliminated.

(Added Ord. 2015-45, § 1, eff. 1-22-16).

SEC. 12-4.1506. EFFECTIVENESS.

This article shall expire December 31, 2022, unless further extended by the Council. Upon expiration, impact fees will be owed at the full rate in effect at that time without further

action by the City. In the event of a conflict between this article and any other provisions of this code, ordinance, resolution, or administrative guideline adopted by Council, this article shall apply on the governance of fee exemptions.

(Added Ord. 2015-45, § 1, eff. 1-22-16; Am. Ord. 2016-54, § 1, eff. 1-16-17; Am. Ord. 2018-2, § 1, eff. 12-31-17; Am. Ord. 2018-65, § 1, eff. 1-18-19; Am. Ord. 2020-052, § 1, eff. 11-30-20).

ARTICLE 4.16 FEE WAIVER PROGRAM FOR CERTAIN RESIDENTIAL INFILL PROJECTS

Sections:

Sec. 12-4.1601. Title.
Sec. 12-4.1602. Purpose.
Sec. 12-4.1603. Infill Project Defined.
Sec. 12-4.1604. Fee Waiver Program.
Sec. 12-4.1605. Reimbursement Program.
Sec. 12-4.1606. Application Process and Approval.
Sec. 12-4.1607. Precedence.

SEC. 12-4.1601. TITLE.

This article shall be known as the Residential Infill Fee Waiver Program Ordinance of the City of Fresno. Although this article regulates the payment of fees prescribed by the Zoning Ordinance of the City of Fresno, it shall not be deemed a part thereof.
(Added Ord. 2021-029, § 1, eff. 7-22-21).

SEC. 12-4.1602. PURPOSE.

The Council desires to provide incentives for development within the City. It is Council's intent to provide an exemption of certain fees on certain new residential infill projects. This exemption is with the expectation that it will encourage and promote development of residential units on unutilized lots within the City.
(Added Ord. 2021-029, § 1, eff. 7-22-21).

SEC. 12-4.1603. INFILL PROJECT DEFINED.

For purposes of this section, Infill Project shall be defined as new multifamily and/or single family residential projects on sites no greater than 6.5 net acres in size or, regardless of parcel size, new multifamily residential projects that rehabilitate and convert existing commercial or office structures, and substantially surrounded by urban uses, and located within an Infill Opportunity Zone, Bus Rapid Transit Corridor or Downtown Planning Area, as reflected in the Priority Areas for Development Incentives Map, Figure IM-1 of Chapter 12 of the Fresno General Plan, adopted December 18, 2014. For purposes of this section, for single family residential projects within a subdivision map, the "site" shall be defined as the boundary of the subdivision map. Projects within the South Industrial Priority Area are not eligible for this Program.
(Added Ord. 2021-029, § 1, eff. 7-22-21; Am. Ord. 2022-005, § 1, eff. 6-2-22; Am. Ord. 2023-10, § 1, eff. 5-26-23; Am. Ord. 2024-024, § 1, eff. 9-23-24).

SEC. 12-4.1604. FEE WAIVER PROGRAM.

Eligible residential infill developments shall be eligible for a waiver of the following fees:

(a) Park Facilities Fees;

(b) Police Facilities Fees;

(c) Fire Facilities Fees;

(d) Street Facilities Fees.

(Added Ord. 2021-029, § 1, eff. 7-22-21).

SEC. 12-4.1605. REIMBURSEMENT PROGRAM.

Eligible residential infill developments shall be eligible for up to 50% reimbursement of the cost of curb, gutter, and sidewalk improvements imposed as a Condition for Approval for the project, subject to available funding as may be appropriated by Council.

(Added Ord. 2021-029, § 1, eff. 7-22-21).

SEC. 12-4.1606. APPLICATION PROCESS AND APPROVAL.

(a) Applications for fee exemption shall be submitted to the Director of Public Works, at or before the time of building permit approval. Applications for fee waiver shall not be submitted until after approval of all discretionary planning entitlements, except that applications for fee waiver can be submitted concurrently with applications for design review.

(b) The Director of Public Works shall approve the application upon a determination of fee waiver based on the criteria in Section 12-4.1603.

(Added Ord. 2021-029, § 1, eff. 7-22-21).

SEC. 12-4.1607. PRECEDENCE.

In the event of a conflict between this article and any other provisions of this code, ordinance, resolution, or administrative guideline adopted by Council, this article shall apply on the governance of fee waiver.

(Added Ord. 2021-029, § 1, eff. 7-22-21).

ARTICLE 4.17 VEHICLE MILES TRAVELED MITIGATION FEE

Sec. 12-4.1701. Purpose.
Sec. 12-4.1702. Vehicle Miles Traveled Mitigation Fee Established.
Sec. 12-4.1703. Vehicle Miles Traveled Mitigation Fee Amount.
Sec. 12-4.1704. Vehicle Miles Traveled Mitigation Fee Payable Upon Grant of Entitlement.
Sec. 12-4.1705. Vehicle Miles Traveled Fund.
Sec. 12-4.1706. Use of Vehicle Miles Traveled Mitigation Fee Revenues.

SEC. 12-4.1701. PURPOSE.

In order to implement the goals and objectives of the City's General Plan, to mitigate the impact of Vehicle Miles Traveled (VMT) caused by future development in the city, and to implement a fundamental component of the City's adopted VMT Reduction Program, certain public facilities must be constructed, and certain public services must be implemented. The City Council has determined that a VMT Mitigation Fee is needed in order to finance public facilities and services that reduce vehicle miles traveled, thus ensuring that VMT reducing measures are implemented.
(Added Ord. 2025-043, § 1, eff. 1-17-26)

SEC. 12-4.1702. VEHICLE MILES TRAVELED MITIGATION FEE ESTABLISHED.

(a) A VMT Mitigation Fee is established to pay for VMT Reduction Program components as identified in the adopted VMT Reduction Program and Nexus Study.
(Added Ord. 2025-043, § 1, eff. 1-17-26)

SEC. 12-4.1703. VEHICLE MILES TRAVELED MITIGATION FEE AMOUNT.

(a) The Council shall designate in the Master Fee Resolution, a schedule of VMT Mitigation Fees.

(b) VMT Mitigation Fee amount shall be determined based upon the adopted VMT Reduction Program and Nexus Study which shall be prepared in compliance with California Government Code Section 66016.5, as may be amended.
(Added Ord. 2025-043, § 1, eff. 1-17-26)

SEC. 12-4.1704. VEHICLE MILES TRAVELED MITIGATION FEE PAYABLE UPON GRANT OF ENTITLEMENT.

(a) The VMT Mitigation Fee for each development project deemed subject to the fee shall be payable as follows:

(1) VMT Mitigation Fees for residential developments shall be payable on the date of final inspection, or the date the certificate of occupancy is issued, whichever occurs first, consistent with the requirements of California Government Code Section 66007, as may be amended.

(2) VMT Mitigation Fees for non-residential developments shall be payable prior to the issuance of a building permit at the fee level in effect on the date such permit is issued.

(Added Ord. 2025-043, § 1, eff. 1-17-26)

SEC. 12-4.1705. VEHICLE MILES TRAVELED FUND.

(a) A VMT Fund is hereby established.

(b) All VMT Mitigation Fees collected by the City shall be deposited in the VMT Fund for the purpose of funding public facilities reasonably necessary to contribute to the reduction of citywide VMT.

(c) For the purposes of this Article, "public facilities" shall have the same meaning as set forth in California Government Code Section 66000, as may be amended.

(d) The City shall annually review and report on the fund for the VMT Mitigation Fee as set forth by California Government Code Section 66006.

(Added Ord. 2025-043, § 1, eff. 1-17-26)

SEC. 12-4.1706. USE OF VEHICLE MILES TRAVELED MITIGATION FEE REVENUES.

The revenue from the VMT Fee shall be used for the following purposes:

(a) To contribute to Transportation Demand Management Projects, Transit Projects, and Bicycle and Pedestrian Projects that are identified in the adopted VMT Reduction Program and Nexus as recipients of VMT Mitigation Fee funding.

(b) To reimburse the city for expenditures set forth in subpart (a) above, acquired or constructed by the city with funds (other than gifts or grants) from other sources, together with accrued interest.

(Added Ord. 2025-043, § 1, eff. 1-17-26)

Sec. 12-5.513. Provisions for Revising This Ordinance.

SEC. 12-5.501. TITLE.

This Article shall be known as the "City of Fresno Surface Mining and Reclamation Ordinance." (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.502. LEGISLATIVE FINDINGS AND PURPOSE.

A. The Council finds as follows:

1. Certain areas within the City of Fresno and its Sphere of Influence, and in areas adjacent to the City and its Sphere of Influence, are classified by the State Geologist as containing regionally significant deposits of Portland Cement Concrete aggregate minerals. Such classified mineral resource areas are reflected in maps incorporated into the City's General and Community Plans.

2. State law declares that protection and recovery of these mineral deposits is essential to the continued economic well-being of the City and to the needs of society. Land uses which are incompatible with mining and associated activities must be planned, located, and developed so as to minimize potential conflicts. The City's General Plan Mineral Resources Element, as well as other City policies, must incorporate these principals.

3. Over time, Fresno's urbanized area has extended closer to classified mineral resource areas. This urbanization has caused land uses which are generally incompatible with surface mining and associated mineral processing activities to threaten opportunities for mineral extraction and processing.

4. Mining and associated on-site mineral processing activities, although vital to the economy, can have substantial adverse environmental impacts. Thorough analysis of mining proposals and mitigation measures are needed to prevent or lessen such impacts.

5. Proper reclamation of mined land is essential to protect the public health and safety. Inadequate reclamation plans and insufficient financial assurance for reclamation can lead to environmental damage.

6. The task confronting the City on the general issue of surface mining is to maximize recovery of mineral resources while minimizing threats to the public health and safety, potential environmental damage, and nuisance effects of mining and related mineral processing activities.

7. The subject of surface mining has been a matter of statewide concern, and any City regulation of the same is subject to the Surface Mining and Reclamation Act of 1975 (hereinafter, "SMARA," Public Resources Code Sections 2710 et seq.) and related State Mining and Geology Board regulations promulgated pursuant thereto (hereinafter, "SMARA Regulations," California Code of Regulations, Title 14, Division 2, Chapter 8, Subchapter 1, Sections 3500 et seq.). The City, as a local SMARA Lead Agency, is responsible for incorporating and adopting mineral resource planning policies into the Resources Element of its General Plan; for reviewing development projects which may affect surface mining activities; and for administering SMARA and adopted local regulations for mining and reclamation activities. Pursuant to its certified Surface Mining and Reclamation Ordinance, the City must respect the mandates of SMARA while exercising local jurisdiction.

B. The purpose of this Article is to establish comprehensive and orderly procedures and standards to regulate the extraction of mineral resources and subsequent rehabilitation of mined lands, and to protect mineral resource areas with significant deposits of mineral resources. This Surface Mining and Reclamation Ordinance shall be administered in order to ensure that production and conservation of minerals are encouraged and mined lands are reclaimed to a usable condition which is readily adaptable for appropriate uses as designated by the General Plan, while (1) preventing or minimizing mining-related hazards to the public health and safety; (2) preventing or minimizing adverse environmental effects of mining; and (3) giving consideration to planned land uses in mineral resource areas and to values relating to recreation, watershed, wildlife, agricultural uses, and aesthetic enjoyment. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.503. DEFINITIONS.

A. Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this Section shall govern the construction, meaning, and application of words and phrases used in this Article and, except to the extent that a particular word or phrase is otherwise specifically defined in this Section, the definitions and provisions contained in Article 3 (commencing with Section 1-301) of Chapter 1 and in Article 1 (commencing with Section 12-101) of Chapter 12 of this Code, shall also govern the construction, meaning, and application of words and phrases used in this Article. The

definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

B. For purposes of administering this Article, the following terms are so defined:

1. ANNEXED MINED LANDS shall mean the sites of existing or former surface mining operations which were approved pursuant to SMARA by another lead agency lying outside the City's jurisdiction, and which subsequently became annexed to the City of Fresno.

2. AREA OF REGIONAL SIGNIFICANCE shall mean an area, as designated by the SMGB pursuant to SMARA Section 2790, classified by the State Geologist as containing a deposit of minerals, the extraction of which is judged by the State Geologist to be of importance in meeting future needs for minerals in the region. These areas are classified as Mineral Resource Zone 2 (MRZ-2) on maps published by the State Geologist and reflected on maps in the Mineral Resources section of the City's General Plan Resources Element.

3. AREA OF UNKNOWN SIGNIFICANCE shall mean an area containing mineral deposits where the State Geologist cannot evaluate the significance of mineral deposits from available data. These areas are classified as Mineral Resource Zone 3 (MRZ-3) on maps published by the State Geologist.

4. AREA WHERE THERE ARE NO SIGNIFICANT MINERAL RESOURCES shall mean an area where the State Geologist has determined that no significant mineral deposits are present, or has judged that little likelihood exists for their presence. These areas are classified as Mineral Resource Zone I (MRZ-1) on maps published by the State Geologist, and reflected on maps in the Mineral Resources section of the City's General Plan Resources Element.

5. BORROW PIT shall mean a type of surface mining consisting of an excavation of rock, unconsolidated geologic deposits or soil to provide material (borrow) for use on property other than on the mined lands involved in the surface mining operation where the borrow pit is located.

6. CEQA shall mean the California Environmental Quality Act, Public Resources Code Division 13, Sections 21000 et seq., and the California Environmental Quality Act Guidelines, California Code of Regulations Title 14, Chapter 2, Sections 15000 et seq.

7. DESIGNATED FLOODWAY shall mean an area delineated as such by the State of California Board of Reclamation.

8. DOC shall mean the California Department of Conservation.

9. DOC DIRECTOR shall mean the Director of the California Department of Conservation.

10. EXPLORATION or PROSPECTING shall mean the search for minerals by geological, geochemical or other techniques, including but not limited to sampling, assaying, drilling, or any surface or underground work needed to determine the type, extent or quantity of minerals present.

11. HAUL ROAD shall mean a non-public road along which material is transported from an area of excavation on mined lands to a stockpile, processing plant, or public roadway.

12. IDLE MINING OPERATION shall mean a surface mining operation that has been curtailed for a period of one year or more to the point of producing less than 10 percent of its previous maximum annual mineral production, where the operator has an intent to resume more active surface mining operations at a future date. The operator of an idle mining operation who has an approved Interim Management Plan for the operation, and remains in conformance with it, shall not be construed as having terminated his rights to mine and reclaim property under subsection 12-405-D-2 of this Code. Idled periods shall not automatically extend the sunset date of an approved mining permit; extension of sunset dates requires an amended conditional use permit or a new conditional use permit for mining.

13. MINED LANDS shall mean a parcel or parcels of land upon or in which surface mining operations will be, are being, or have been conducted, including: surface and subsurface of the area; surface and groundwater located upon and beneath such area; private ways, roads, haul roads, and other easements and rights-of-way appurtenant to any such area; excavations, stockpiles of minerals and overburden, levees and berms, workings, and mining waste; and areas with structures, facilities, equipment, machines, tools, or other materials or property which result from, or are used in surface mining operations and any related mineral processing.

14. MINERAL shall mean any naturally occurring chemical element or compound, or groups of elements and compounds, formed from inorganic processes and organic substances, including, but not limited to, sand, gravel, and other construction aggregate materials, clay, metal ores, decorative or structural stone, coal, peat, and bituminous rock; but excluding geothermal resources, natural gas, and petroleum.

15. MINING-INCOMPATIBLE USE OF LAND shall mean a use or development that is inherently incompatible with mining, and/or a use having or requiring public or private investment in structures and land improvements, which may prevent mining because of the relatively greater economic value of the improved land and its fixtures as compared with the value of mining uses. Examples of such uses may include, but shall not be limited to, urban density residential, low or rural density residential with high unit value, industrial uses not related to mining or mineral processing, non-mining commercial uses, and public facilities not related to a mining-compatible land use.

16. MINING PERMIT shall mean a component of a conditional use permit issued by the City, or by the County prior to annexation to the City, by which surface mining operations have been reviewed and conditionally approved.

17. MINING WASTE shall mean the residual of soil, rock, mineral, liquid, vegetation, equipment, machines, tools or other materials or property directly resulting from, or displaced by, surface mining operations.

18. ONE HUNDRED YEAR (100-YEAR) FLOOD PLAIN shall mean the area delineated on maps of the National Flood Insurance Program, as designated by the Federal Emergency Management Agency (FEMA), as maps of such area shall be amended from time to time by FEMA.

19. OPERATOR shall mean any person who is engaged in surface mining operations, or who contracts with others to conduct operations on his behalf, except a person who is engaged in surface mining operations as an employee with wages as his sole compensation.

20. OVERBURDEN shall mean soil, rock, or other materials that lie above natural mineral deposits, or in between natural mineral deposits, before removal of minerals by surface mining operations.

21. RECLAMATION shall mean the combined process of land treatment that minimizes water degradation, air pollution, damage to aquatic or wildlife habitat, flooding, erosion, and other adverse effects from surface mining operations, including adverse surface effects incidental to underground mines, so that mined lands are assured of being left in a usable condition which is readily adaptable for alternate land uses consistent with applicable General Plan land use designations and policies and which will create no danger to public health or safety. The process may extend to affected lands surrounding mined lands, and may require backfilling, grading, resoiling, erosion control, revegetation, soil compaction, stabilization, or other measures.

22. RECLAMATION PLAN shall mean a component of a conditional use permit issued by the City, or by the County prior to annexation to the City, which sets forth requirements and standards for reclaiming mined lands.

23. SMGB shall mean the State Mining and Geology Board.

24. STATE GEOLOGIST shall mean the individual holding office pursuant to PRC Division 1, Chapter 2, Article 3, Section 677, or his/her designee appointed for purposes of administering SMARA and SMARA Regulations.

25. STREAM BED SKIMMING shall mean surface mining by excavation of sand and gravel from stream bed deposits above the mean summer water level or stream bottom, whichever is higher.

26. SURFACE MINING AND RECLAMATION ACT (SMARA) shall mean the California Surface Mining and Reclamation Act of 1975, as amended, set forth in PRC Division 2, Chapter 9, Section 2710 et seq. and including PRC Section 2207 relating to annual reporting requirements for mine operators.

27. SURFACE MINING AND RECLAMATION ACT (SMARA) REGULATIONS shall mean SMGB regulations for surface mining and reclamation practice, as set forth in CCR Title 14, Division 2, Chapter 8, Subchapter 1, Sections 3500 et seq.

28. SURFACE MINING OPERATION shall mean all, or any part of, the process involved in the mining and recovery of minerals by removing overburden to access mineral deposits; and/or the excavation or extraction of minerals by open pit excavation, auguring, quarrying, dredging, sluicing, hydraulic force, or other method; or surface work incident to an underground mine; excepting those activities excluded under subsection 12-5.505-E of this Code. Surface mining operations include, but are not limited to, the following activities:

a. Borrow pitting.

b. On-site loading, washing, segregating, sorting, screening, and stockpiling of minerals and recovery of same.

c. Stream bed skimming.

d. In-place distillation, retorting, or leaching;

e. The production and disposal of mining waste;

f. Exploration or prospecting activities.

Industrial or commercial mineral processing activities such as installation and use of equipment or apparatus for crushing ore or rock, formulating minerals into compounds (e.g., operation of batch plants to produce Portland Cement or asphaltic concrete), or dispensing/packaging formulated mineral products may be permitted as part of a surface mining operation pursuant to an approved conditional use permit. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.504. INCORPORATION BY REFERENCE.

The provisions of SMARA and SMARA Regulations, as the same may be amended from time to time, are made a part of this Chapter by reference with the same force and effect as if the provisions therein were specifically and fully set out herein, excepting that when the provisions of this Chapter are more restrictive than correlative State provisions, this Chapter shall prevail. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.505. SCOPE AND APPLICABILITY.

A. The provisions of this Article shall apply to all lands, publicly and privately owned, within the incorporated boundary of the City. Surface mining activities on any State or Federal land within the City of Fresno shall be jointly regulated pursuant to agreements between the City and the State or Federal agencies administering those lands.

B. When mined lands lie partly within the incorporated City of Fresno and partly outside City boundaries, the applicability of this Article and the jurisdiction of the City of Fresno as Lead Agency shall be determined by the SMGB pursuant to SMARA Section 2771.

C. Except as provided in subsection 12-5.505-E of this Code, any person who proposes to engage in surface mining operations shall, prior to the commencement of such operations, obtain pursuant to this Code either a conditional use permit that includes a Mining Permit; or shall obtain from the Development Director a determination that the proposed surface mining operations are a legal nonconforming use. Prior to the commencement or continuation of surface mining operations, all operators or proposed operators shall, pursuant to this Code, obtain a conditional use permit from the City that includes a Reclamation Plan with adequate financial security. A single conditional use permit should contain both Mining Permit and Reclamation Plan components, except in those instances when a Reclamation Plan is proposed with no further mining of a site.

D. Pursuant to SMARA Section 2770(h)(1), an operator shall submit to the Development Department a proposed Interim Management Plan within ninety (90) days of a surface mining operation becoming idle. Interim Management Plans shall be processed as an amended Reclamation Plans (amended conditional use permits), except that they are exempt from requirements of CEQA, pursuant to the abovementioned section of SMARA.

E. EXCEPTIONS. The provisions of this Article shall not apply to any of the activities covered under statutory SMARA exceptions, including, but not limited to: mineral processing not associated with, or on the same site with, a surface mining operation; on-site excavation which does not involve moving excavated materials off-site; and any earth moving or grading lawfully conducted in connection with permitted construction activities or bona fide agricultural operations. Emergency excavations shall also be excepted, provided they are authorized by the California Department of Water Resources or the California Reclamation Board. Other emergency excavations conducted by a public agency to ameliorate threats to life and property are subject to Reclamation Plan application and financial assurance requirements of this Code, and will require that a conditional use permit with a Reclamation Plan component be applied for as soon as possible by the agency which conducted the excavation(s). (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.506. VESTED RIGHTS OF LEGALLY NONCONFORMING SURFACE MINING OPERATIONS AND ANNEXED MINING OPERATIONS.

A person shall have a vested right to continue to conduct pre-existing, lawfully operating surface mining operations and reclamation, and the City shall recognize these activities as legal nonconforming mining uses, subject to the following:

A. It shall be the burden of the operator to establish by a preponderance of the evidence that the specific mining and related activities and uses proposed to be continued were lawfully commenced, have been operated continuously lawfully, are in conformance with SMARA and the conditions of the conditional use permit which authorized the operation, have not substantially changed, and have not been interrupted or idled voluntarily for a period of longer than two years, with a valid an interim management plan in place for any such operation which has been idled for more than one year. Notwithstanding unrecovered mineral resources that may remain on the mined lands, voluntary idle periods and

interruptions of mining activity beyond the control of the operator shall not extend or obviate any express sunset date approved as part of the conditions of the mining permit. A sunset date may only be extended by amending the conditional use permit for an operation, or by obtaining a new conditional use permit for the surface mining operation, with the appropriate level of CEQA review as determined by the Development Director. Notwithstanding any unrecovered minerals which remained at the time of cessation of mining, after being idled for a period greater than two years plus one day, any re-initiation of operations shall require a new or amended conditional use permit application and an appropriate level of CEQA analysis, as may determined by the Development Director.

B. In order to obtain a determination of legal nonconforming use, the operator shall file for a non-zoning inquiry determination in a form to be prescribed by the Development Director and pay any required fee therefor as prescribed in the City's Master Fee Schedule. Any determination of legal nonconforming use shall be appealable to the Planning Commission.

C. Upon annexation of property which has, or had, a surface mining operation permitted under County jurisdiction, those mined lands shall be considered annexed mined lands, and the City shall succeed the County as Lead Agency for surface mining operations and reclamation activities on those mined lands. Within thirty (30) days of the Board of Equalization filing of the approved annexation encompassing the mined lands, operators must post with the City of Fresno any financial assurance (as required by SMARA and the approved Fresno County mining permit/reclamation plan authorizing the surface mining operation) in order to be in compliance with SMARA and in order to be considered as having an approved Reclamation Plan in place. The Development Department shall process the financial security documents as a minor revised exhibit to a conditional use permit, to establish a file of record with the City regarding the mining permit and reclamation plan for the operation.

D. Deviations from an approved Mining Permit or Reclamation Plan shall not be undertaken until the appropriate application to alter the conditional use permit has been filed with the City and approved by the Planning Commission. Proposals to change approved Mining Permits and/or Reclamation Plans may be submitted as applications for amended conditional use permits or revised exhibits to conditional use permits, whichever level of application is deemed appropriate by Development Department policy or the determination of the Development Director. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.507. PROCESS FOR MINING PERMITS, RECLAMATION PLANS, AND INTERIM MANAGEMENT PLANS.

A. Applications for Mining Permits and Reclamation Plans shall be processed by the City as conditional use permit applications. Any related entitlement applications required for the proposed surface mining operation (e.g., a variance application, if required) shall be submitted and processed concurrently. Standard special permit review processes pursuant

to this Code shall apply to review of conditional use permit and related entitlement application(s) for new or amended Mining Permits and Reclamation Plans, but the following modifications to process shall apply:

1. Upon receipt of an application, it shall be routed to the following agencies for comment and initial study: DOC Office of Mine Reclamation; California Board of Reclamation; Regional Water Quality Control Board; California Department of Fish & Game; State Lands Commission; San Joaquin River Conservancy; U.S. Army Corps of Engineers; U.S. Fish & Wildlife Service; San Joaquin Valley Unified Air Pollution Control District; Fresno Metropolitan Flood Control District; Fresno County Environmental Health; the applicable mosquito and vector control district; Fresno County Public Works & Development Services Department; and, if the project is in the San Joaquin Riverbottom, Madera County Planning. The application shall also be routed to other responsible and trustee agencies as appropriate.

2. Completed applications, including any proprietary information as described in Section 12-5.512-A of this Code and the completed environmental assessment of the application, shall be routed to the DOC Director or his/her designee no later than thirty (30) days from receipt or completion. Pursuant to SMARA Section 2774(d), the DOC shall be afforded a thirty- (30-) day review period to comment on proposed Reclamation Plans and Interim Management Plans, and a forty-five (45) day review period to comment on proposed financial assurance documents.

3. If mining operations or related mineral processing are proposed within the 100-year flood plain or are within one mile upstream or downstream of any state highway bridge, the California Department of Transportation shall be routed a copy of the application(s) for review.

4. Copies of recommendations made and/or objections raised by the DOC and other responsible and trustee agencies shall be promptly forwarded to the applicant/operator.

5. After receiving copies of comments and objections, the applicant has sixty (60) days to submit revisions to the proposed Mining Permit, Reclamation Plan, and/or Interim Management Plan to address requirements noted or objections lodged pursuant to reviews of the conditional use permit application by the City, the DOC, and other responsible and trustee agencies, per SMARA Section 2770(d).

6. Pursuant to SMARA Section 2774(d)(2), the Development Department shall prepare a detailed written response to the DOC Director's comments, and shall forward a copy of this response to the applicant.

7. Within sixty (60) days of the applicant's submittal of all documents and other information required in connection with the conditional use permit application (or amended application), related entitlement application(s) and completion of the environmental assessment, a public hearing on the applications shall be set before the Planning Commission pursuant to Section 12-401-B of this Code and noticed pursuant to subsection

12-401-C-2 of this Code. The Development Department shall prepare a staff report with recommendations to the Planning Commission on the environmental assessment, conditional use permit application, and any related application(s).

8. Pursuant to SMARA Section 2774 and Section 12-401-D of this Code, the Planning Commission shall hold at least one noticed public hearing on the environmental assessment, conditional use permit application and related application(s), and shall then take one of the following actions:

a. Give final approval to the mining and reclamation plan, if financial assurance for reclamation is included in the agenda for the public hearing.

b. Give conceptual approval, pending Commission review and hearing of financial assurance for reclamation;

c. Defer conceptual approval, until financial assurance has been submitted for Commission review and hearing;

d. Require amended or augmented environmental findings or mitigation measures, changes in project conditions, changes in the Mining Permit, changes in the Reclamation Plan, and/or changes in the proposed financial assurance to be submitted for subsequent Commission review and hearing;

e. Refer all or part of the applications back to the Development Department for further processing;

f. Deny the mining permit portion of the application, pursuant to findings made under subsection 12-5.507-E of this Code, but approve/affirm, and require implementation of, a reclamation for any previously-mined portions of the site.

g. Deny the entire application, pursuant to findings made under subsection 12-5.507-E of this Code.

B. FINDINGS FOR APPROVAL OF MINING PERMITS AND RECLAMATION PLANS. In connection with approving a conditional use permit (Mining Permit, Reclamation Plan) or any amendments thereto, and any related entitlement application, the Planning Commission shall do all the following:

1. Make all findings required under this Code for the environmental assessment, conditional use permits, and related entitlements;

2. Find that the conditional use permit is consistent with this Article and with the provisions of SMARA and SMARA Regulations;

3. Find that the post-mining end use of the site as stated in the Reclamation Plan is consistent with the General Plan, community plan, and/or specific plan land use designation(s) and policies applicable to the subject property;

4. Find that the reclamation activities set forth in the Reclamation Plan will restore the mined lands to a condition usable or adaptable for use(s) consistent with the General Plan, community plan, and/or specific plan land use designation and policies;

5. Find that the mined land and/or site resources such as water bodies will be reclaimed to a condition that is compatible with, and blends in with, the surrounding natural environment, topography, and other resources; or, that on-site and/or off-site resource enhancement will compensate for any disturbance to resource values; and

6. Find that it has been reasonably determined that the amount of the proposed financial security is adequate to perform reclamation activities as set forth in the approved Reclamation Plan.

C. PLANNING COMMISSION DECISIONS IN CONFLICT WITH DEPARTMENT OF CONSERVATION POSITIONS. If the Planning Commission's approved position is in conflict with one or more positions of the DOC Director (objections stated, or recommendations made, by the DOC Director), the Commission must find that issues relating to such discrepancies were addressed by a substantive written response to the DOC Director and a copy of this response was forwarded to the applicant and any interested person.

D. The Development Department shall furnish the DOC Director with a complete copy of all approved Conditional Use Permits for mining and reclamation, including any proprietary information as described in Section 12-5.512-A of this Code.

E. FINDINGS FOR DENIAL OF MINING PERMITS AND RECLAMATION PLANS. In order to deny a Mining Permit and/or Reclamation Plan, the Planning Commission must make the following findings, pursuant to SMARA Section 2770(e):

1. The City acted on the surface mining application(s) according to due process, this Code, and SMARA and SMARA Regulations.

2. In its denial, the City has not relied on considerations other than those relating to the Applicant's satisfaction of substantive requirements for applications, Reclamation Plans, and financial assurance, as the same are set forth in the specific requirements of SMARA Sections 2772, 2773, and 2773.1, CEQA, and this Code.

3. The basis of any denial shall be stated on the record prior to the close of the hearing. In the event that the Superior Court overturns a denial, the City reserves the right to rehear the matter.

F. APPEALS. Planning Commission decisions may be reviewed by the City Council pursuant to Section 12-406-1 of this Code. The City's final decisions on Reclamation Plans are subject to appeal to the SMGB as provided in SMARA Section 2775, provided that the applicant or other appellant has first exhausted their avenues of appeal under the City's processes, including (in any case not involving a rezone or a plan amendment), a petition to the Councilmember of situs or Mayor for a hearing before the Council. If the SMGB grants the appellant a hearing, the recommendation resulting from the hearing before the SMGB shall be presented to the Planning Commission and City Council for their consideration or reconsideration. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.508. PLAN CONSISTENCY AND CITY LAND USE ACTIONS AFFECTING SURFACE MINING ACTIVITIES.

All land uses actions taken by the City on lands classified as containing significant mineral deposits protected under this Code, or on property adjacent to such classified mineral resource land, shall be supported by an express finding of consistency with plans, policies, and this ordinance.

A. Within twelve (12) months of receipt of revised mineral resource mapping information from the State Geologist or SMGB, the City shall adopt corresponding amendments to the General Plan Resources Element (Mineral Resource maps), and shall amend the applicable community plans and specific plans, to reflect revisions in the classification or designation of mineral resources within the City's Sphere of Influence.

B. Any proposed land use action which has been determined by the Development Director to be inconsistent with the Mineral Resource Element or this ordinance shall not be approved until such time as the inconsistency is resolved through reclassification of the mineral resource area, or until such time as notifications and additional findings have been made as required under Public Resources Code Sections 2762 and 2763.

C. In connection with determining consistency, the Development Director shall expressly determine both of the following:

1. Whether the proposed project site is within, or adjacent to, an area of regional significance, as defined in Section 12-5.503-B of this Code; and,

2. Whether the proposed project would directly or indirectly result in a mining-incompatible zone district or land use as defined in Section 12-5.503-B of this Code. A planning or zoning action affecting a site within, or adjacent to, an area of significance shall normally be deemed consistent where it reclassifies the site to a district which conditionally permits surface mining and associated activities. No action affecting a site within, or adjacent, to areas of significance shall be found consistent where the project will enable development of a mining-incompatible use.

D. A plan amendment application shall be required in order to change the mineral resource classification of an area of significance or area of potential significance. Such plan amendment applications shall be supported by documentation from a Registered Geologist or equivalent, and shall be submitted to the State Geologist for consideration. The Development Department shall not continue to process the plan amendment application until the State Geologist's determination on the proposed mineral resource reclassification has been received.

E. If the State Geologist does not reclassify the land, consistency may be found, and the rezoning and/or land use action may be approved, only after the following have occurred:

1. A detailed environmental analysis has been completed, including analysis of the proposed project's potential impacts upon, and from mineral resources and recovery thereof; and a Mitigated Negative Declaration (with mitigation monitoring

program) is adopted, or an EIR (with mitigation monitoring program) is certified, to mitigate significant environmental effects potentially arising from the incompatibility the rezoning and/or land use;

2. All noticing of agencies has been conducted pursuant to CEQA and Public Resources Code Section 2762;

a. All findings required by Public Resources Code Sections 2762 and 2763 have been made; and,

b. Notification is provided to all owners of the land in areas of significance and areas of potential significance lying within one mile of the boundaries of the proposed project site. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.509. APPLICATION REQUIREMENTS FOR SURFACE MINING AND RECLAMATION ACTIVITIES.

A. Each application for a conditional use permit comprised of a Mining Permit and Reclamation Plan (or a Reclamation Plan for previously mined lands) and for the environmental analysis thereof shall be made on a form provided by the Development Department, as required by Section 2772 of SMARA. The application shall not be deemed complete until submission of all elements required by this Section and all information needed to comply with the performance standards set forth in this Article, excepting that financial assurance documents may be submitted for Planning Commission review after said Commission gives conceptual approval to the conditional use permit.

B. FEES. Application filing fees shall be paid pursuant to Section 12-410 of this Code, and no application shall be deemed complete or acted upon until all required filing fees are received by the Development Department.

C. Mining Permit and amended Mining Permit components of the conditional use permit application shall include, without limitation, the following:

1. A legal description of the entire site upon which the operator seeks to engage in surface mining, related on-site mineral processing, and reclamation;

2. The names, addresses, and contact telephone numbers of the owners of all surface interests and mineral interests in the lands;

3. Proof that the applicant is the owner of said property or has authorization from the property owner (and from the proposed surface mine operator, if the proposed operator is not also the owner) to execute the application for a Mining Permit and Reclamation Plan;

4. A business location address for the operator, a mailing address for the operator, a business telephone number for the operator, and an after-hours emergency contact or message telephone number for the operator;

5. Site plans depicting the existing and proposed locations of:

a. Areas and sub-areas to be mined, with phased mining areas delineated so that no phase is over eighty (80) acres in size or encompasses more than twenty-five percent (25%) of the mined lands.

b. Elevations, ground contours and cross sections before and after mining activity;

c. Stockpiled minerals, overburden, and mine waste;

d. Mineral processing equipment and all structures;

e. Access routes to and within the site, including temporary and permanent bridges, causeways, and other overcrossings.

f. On-site parking and equipment storage areas;

g. Roads, trails, railroads, access easements, and rights-of-way on and adjacent to the site;

h. Utility facilities and utility easements, including but not limited to electrical substations, overhead and underground power transmission lines, communications cables, and pipelines;

i. Signage required for mine sites and on-site traffic control;

j. Fencing/walls, including the location of gates;

k. Areas of critical and sensitive habitat and mature riparian forest on, and adjacent to, the site;

l. The 100-year flood plain, and any changes to flood zones which would be caused by mining activity;

m. Designated Floodways of rivers or streams located on, or adjacent to, the mined lands;

n. Bodies of surface water and exposed groundwater that would be affected and/or created by mining;

o. Existing and proposed water wells;

p. Existing and proposed drainage courses and ponding basins on and adjacent to the site; and

q. Such other features, improvements, notations, and corrections deemed necessary by the Development Department, Planning Commission, and/or City Council in its review of the application;

6. Landscape plans depicting perimeter landscape screening and irrigation for such perimeter plantings;

7. An operational statement describing the following:

a. The environmental setting of the site and surrounding areas, including:

(1) Established and approved land uses on and around the site;

(2) A description of the geology in the vicinity of the mined lands and on the mined lands themselves; and

(3) An assessment of biological resources on the site and in the vicinity, including flora and fauna to be found, any critical or sensitive habitat areas, any mature forest areas; and any special-status species found or expected to be found. Whenever possible, pre-existing native vegetation shall be documented in baseline studies carried out prior to formulation of the Reclamation Plan and prior to mining activity or site clearance;

b. Details on the proposed surface mining activity and any related processing operations, including:

(1) The type of material to be mined;

(2) The estimated quantity of material to be recovered;

(3) The extent of mining excavation (area and volume);

(4) The maximum depth of excavation; and

(5) A graphic representation of, and schedule for, ordered phasing of mineral extraction on sub-areas of the site;

c. Beginning and ending dates of the entire surface mining operation, defining the life of the mining permit and establishing the ending date as the sunset date for the mining activity;

d. Days and hours of operation;

e. Numbers of employees;

f. A description and analysis of the expected vehicular traffic related to mining and any on-site processing, including all heavy truck traffic;

g. Equipment to be employed in mining and any related processing activities:

h. A description and analysis of noise which would be generated by mining and related activities, including heavy truck transport of mining and mineral products; and noise control measures to be employed;

i. A description of expected air pollutants, and air pollution control measures to be employed;

j. A listing of potentially hazardous materials which will be stored or used on the site, hazardous waste which will require disposal, and the hazard containment/abatement measures, pollution control measures, and disposal provisions needed to properly handle said hazardous materials; and

k. Such other information, notations, corrections, restrictions and measures, deemed necessary by the Development Department, Planning Commission, and/or City Council in its review of the application;

8. A listing of permitting needed from, and notifications required by, federal, state, regional, and local agencies which regulate activities incident to surface mining, related mineral processing, and other related activities on the site;

9. A description of any historic resources (including archaeological and/or paleontological materials) known to be present or expected to be present on the site, and proposed measures for research recovery of the resources, relocation of the resources, and/or protection of the resources in situ. The exact locations of archaeological and paleontological sites shall not be disclosed or depicted in the portions of the Mining Permit which are of public record;

10. Measures to address each of the standards for surface mining operations as set forth below in Section 12-5.510-B of this Code; and

11. A completed Reclamation Plan application, as set forth in this Article.

D. The Reclamation Plan/amended Reclamation Plan component of a mining-related conditional use permit application shall include, without limitation, the following:

1. Measures to address each of the Reclamation Plan standards set forth in this Article;

2. A statement of the end use(s) for the site after conclusion of surface mining operations and reclamation, including:

a. A statement of how the end use(s) is/are consistent with the applicable General Plan, community plan, and/or specific plan land use designation(s) and policies applicable to the site; and

b. An operational statement describing any activities associated with the stated end use(s) of the reclaimed mined lands;

3. Evidence that all owners of a possessory interest in the mined lands have been notified of the proposed end use and reclamation plan.

4. An explanation of the impact of reclamation and post-reclamation use(s) on public health and safety (e.g., traffic impacts, noise, air quality, disease vectors such as mosquitos);

5. An explanation of the impact of reclamation and post-reclamation use(s) on flora and fauna on the site and in the area;

6. A description of the effects that reclamation and the post-reclamation end use(s) may have on the site's remaining unmined resources and mineral resources of adjacent lands;

7. A description of the manner in which reclamation will be accomplished, including days and hours of operation for heavy equipment to be used in reclamation;

8. A description of erosion control measures to be employed on various portions of the site;

9. A definition of the type(s) and source(s) of any refill material or topsoil, including location(s) of the source(s);

10. Site plans depicting the details of the reclamation proposal, including without limitation:

a. Grading plans showing finished earth forms, including berms and piles that will remain after reclamation, and the elevations and contours of the site, including cross-sections;

b. Structures and any equipment related to the post-mining end use of the reclaimed site;

c. Water wells that will remain after mining and reclamation;

d. Ingress/egress routes and on-site parking that will remain after mining and reclamation;

e. Roads, trails, access easements, rights-of-way, and related uses and improvements on and adjacent to the site, including:

(1) Haul roads and street encroachments to remain after reclamation;

(2) Public access easements or trail routes;

(3) Parking areas to remain after reclamation;

(4) Bridges, causeways, and other overcrossings that will remain and be incorporated into a trail or road network; and

(5) Watercraft put-in or take-out areas;

f. Utilities and utility rights-of-way on and adjacent to the site;

g. Signage required for on-site traffic control;

h. Fencing/walls, including the location of gates;

i. The 100-year flood plain, and any changes to flood zones which were caused by mining activity;

j. Designated Floodways of rivers or streams located on, or adjacent to, the site;

k. Bodies of surface water and exposed groundwater that will remain on and adjacent to the site after reclamation, including on-site ponding areas, with detail as to shoreline, islands, and depth contours of such bodies of water;

l. Existing and proposed drainage courses and any culverts or other erosion control structures; and

m. Such other details and information as may be required by the Development Department or the DOC.

11. A revegetation plan shall be part of the reclamation plan, unless revegetation is not consistent with the stated end use of the property. Revegetation plans shall contain the following detail:

a. Landscape plans for the site, showing permanent plantings (including the landscape screening that was installed for mining operations) and temporary erosion control and/or stockpile stabilization plantings;

b. Irrigation systems for revegetating the site, including the source of water and any backflow protection, whether irrigation distribution lines will be permanent or temporary, and whether irrigation distribution lines will be buried or laid on the surface;

c. A listing of plant species to be used in revegetation, including species name and the source of seeds, cuttings, or root divisions;

d. Pre-planting site assessment procedures, including a survey of native plant communities on the site or in the area, testing of soil and soil amendments, and any assessment of compaction that will require ripping or discing to loosen dirt in the root zone;

e. Procedures and safeguards for adding soil amendments (including fertilizers) only as needed and beneficial, so that such soil amendments do not affect wildlife, desirable plants, surface or groundwater; and

f. Procedures for weed control, including safeguards for using herbicides in a manner that does not harm public health, safety of worker or site visitors, wildlife, or the quality of surface or groundwater;

12. When the reclamation end use involves habitat, the reclamation plan shall include a site-specific habitat improvement plan for appropriate enhancement of the mined lands to support wildlife and fisheries;

13. A description of any historic resources (including archaeological and/or paleontological materials) which will remain on the site after mining, and proposed measures for research recovery of the resources, relocation of the resources, and/or protection of the resources in situ. The exact locations of archaeological and paleontological sites shall not be disclosed or depicted in the Reclamation Plan unless the Plan includes measures for ongoing adequate site security to prevent theft or vandalism of the resources;

14. A monitoring plan with specific evaluation criteria for measuring phase-by-phase completion of, and at least five years of maintenance of, planned reclamation activities. The monitoring plan shall include target standards for revegetation that measure plant density and species diversity, weed control, and ground coverage/canopy coverage. Adequate financial assurance for reclamation and at least five years of post-reclamation maintenance for the site, meeting the requirements of subsection 12-5.510-C-13 of this Code;

15. A monitoring plan with specific evaluation criteria for determining the completion of revegetation, and for evaluating the success of revegetation for the five-year post-reclamation maintenance of reclaimed areas. The monitoring plan shall include standards for revegetation that determine success of revegetation by evaluating plant density/ground coverage, appropriateness of plant species mix observed, and effectiveness of weed control;

16. Documentation of cost estimates for financial assurance meeting the requirements of subsection 12-5.510-C-13 of this Code.

17. Provisions for periodic inspections by the City and the DOC to evaluate compliance with the Reclamation Plan; and

18. Any other information and documents required by SMARA or SMARA Regulations, or by the Development Department, Planning Commission, or City Council pursuant to review of the application. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.510. STANDARDS FOR SURFACE MINING OPERATIONS AND RECLAMATION.

Each conditional use permit issued pursuant to this Article shall require the applicant to comply with all of the following conditions, without limitation:

A. STATEMENT OF RESPONSIBILITY. Before commencement of an approved mining operation or before commencing reclamation work under an approved Reclamation Plan, a statement, prepared in the form of a Covenant to run with the land, shall be signed by the applicant and the property owner, and shall be notarized to attest that the signatories are the owners of the subject property and have owner authorization to apply for and implement the Reclamation Plan, and that the signatories and their successors in interest accept responsibility for reclaiming and maintaining the mined lands in accordance with the approved Reclamation Plan. After final approval of the Reclamation Plan, this statement shall be recorded at the Fresno County Recorder's Office, together with a copy of the applicable Planning Commission or City Council Resolution approving the Reclamation Plan and any Mining Permit for the subject property.

B. Standards for surface mining operations:

1. Extraction operations shall comply with all applicable regulations issued by the local, regional, state, and federal agencies. The operator shall file any notices, and obtain any permits, required by local, regional, state, and federal agencies which regulate activities incident to surface mining, mineral processing, and related activities on the site.

2. Surface mining operations and related mineral processing shall not be conducted less than:

a. Fifty feet (50`) from any vehicular or pedestrian right-of-way, from the San Joaquin Bluff Toe, or from the property line of any residential use, recreational use (including golf course), or land approved for public assemblage use; or

b. Twenty-five feet (25`) from the property line of any adjacent land having uses other than those listed in subparagraph (a) above.

3. Final slopes of excavated or filled areas shall not be steeper than 2:1 (two feet horizontal to one foot vertical) for areas that will not be associated with future public access to open water bodies, and shall not be steeper than 3:1 for areas that will be associated with future public access to open water bodies. The measurement of slopes shall commence at the setback specified above in subparagraph (b) and shall extend to a depth of at least five feet (5`) below the estimated average water level of

any ponds. Steeper slopes may be created in the conduct of excavation for limited periods prior to backfilling to final slope requirements, but no temporary slope shall be steeper than one foot horizontal to one foot vertical.

4. Ground or fill beneath any structures, equipment, or roadways shall have sufficient compaction to support the structures, equipment, or vehicles.

5. Critical and sensitive habitat areas shall be preserved and separated from extraction, processing, and stockpiling activities, and from haul roads, by at least one hundred feet (100`).

6. All reasonable and practical measures shall be taken to protect fish and wildlife and to preserve wildlife corridors.

7. Mature forest plant communities, as delineated in the biological assessment submitted pursuant to subsection 12-5.509-C-7.a(3) of this Code, shall be preserved. Extraction, processing, haul roads, and stockpiling activities conducted adjacent to such forest areas shall be set back twice the drip line distance from tree trunks, or a minimum of twenty-five feet (25`), whichever is greater.

8. Disturbance of vegetation and overburden in advance of mining activities shall be minimized.

9. Topsoil, as defined in Section 3501 of SMARA Regulations, shall not be sold from the site. Topsoil and other overburden shall be stockpiled, protected from erosion, and utilized to implement the site's approved Reclamation Plan.

10. Piles of overburden, stockpiled minerals, and mining waste shall be stabilized against erosion. Berms and swales of this material shall not be constructed perpendicular to the flow of a river or stream, but shall be generally parallel or angled toward the direction of downstream flow.

11. No liquid waste, putrescible or non-putrescible solid waste (such as trash, refuse, construction waste), hazardous material, or toxic material may be disposed of on mined lands, buried on mined lands, or used as fill material on mined lands, whether or not it constitutes mining waste as defined in Section 12-5.503-B of this Code. This subsection shall not prohibit the use of compost for revegetation, if such use is approved as part of the reclamation plan.

12. All mining operations shall comply with the City's flood hazard regulations.

13. Mining operations, including construction of bridges, causeways, and other access routes, shall not be allowed within Designated Floodways, unless specifically authorized by the appropriate State agencies such as the California Board of Reclamation and the State Lands Commission. Full disclosure of permit terms and restrictions related to such work shall be included in the Mining Permit.

14. Mining shall not be permitted within flowing streams. Temporary stream or watershed diversions may be allowed through permits issued by the U.S. Army Corps of Engineers and the California Department of Fish & Game. Specific mitigating

measures shall be implemented to prevent erosion and to maintain passages for fish and wildlife. Any such temporary diversions shall be restored, in a manner consistent with the Reclamation Plan as soon as practicable.

15. Mining operations conducted adjacent to any flowing stream shall be separated from the stream by closed dikes able to hold back normal seasonal flows of the stream.

16. All water utilized in mining operations and mineral processing, and all runoff from the mine site, shall be contained behind a closed dike so as not to impair water quality in any river, stream, or pond. Such retention and mine waste disposal shall conform to the requirements of local, regional, state, and federal agencies.

17. Ponds (other than those being used to dispose of mining waste) which are created by mining shall be separated from the Designated Floodway. Where feasible and advisable, such ponds may be connected to flowing water (a stream or river) in order to provide circulation and prevent eutrophication, pursuant to an approved water rights application. Pond connections to a stream or river shall not conflict with floodplain management objectives, fisheries resource management objectives, or other water management objectives as established by responsible and trustee agencies. Any fish barriers installed in pond connections shall require hydrological and biological studies to document efficacy and assure avoidance of adverse effects.

18. All reasonable and practical measures shall be employed to protect groundwater quality.

19. Roadside and perimeter vegetation and setbacks shall be maintained sufficient to obscure mining operations and stockpiled overburden and minerals from public view at grade level of the site perimeter.

20. All access to surface mining operations shall only be allowed via public streets that are rated for the truck weights associated with surface mining and related activities.

21. Access roads to and within the site shall be located in a manner that minimizes traffic impacts on surrounding streets and land uses.

22. Access roads to and within the site shall be constructed and maintained so as to control the generation of dust, pursuant to Air Pollution Control District regulations. Dust control measures include frequent watering, wet sweeping, paving, or use of a sealant approved by the Air Pollution Control District, Regional Water Quality Control Board, and the Department of Fish & Game for use at the mine site.

23. Equipment used for surface mining operations and related mineral processing activities shall, as far as practicable, be located and constructed so as to eliminate dust, noise, vibration and visual blight which would affect residential uses in the vicinity.

24. The hours of operation for mining and mineral processing activity shall be limited as necessary to conform to the City's Noise Ordinance, shall conform to subsection 12-5.510-B-30 of this Code, and may be further restricted to minimize impacts on surrounding land uses and public rights-of-way.

25. Within ninety (90) days after final approval of the Mining Permit, and continuously thereafter, the perimeter of mined lands shall be posted with signs not less than three hundred feet (300`) apart and posted at each change of direction of the perimeter line, to give notice in letters not less than four inches in height, that the site is a "SURFACE MINING AREA," and stating in letters not less than two inches in height, "WARNING: This is a DANGEROUS excavation site. Heavy equipment, unstable slopes, loose piles of earth, noise, and dust may present hazards." The operator may add "No Trespassing" language to these signs, in accordance with laws regarding trespass.

26. All night lighting shall be arranged and controlled on the property so as to not illuminate nearby vegetation, public rights-of-way or adjacent properties.

27. Security fencing shall be erected and maintained around extraction sites as necessary to minimize to the greatest extent practicable any attractive nuisance hazards. At least one main gate of mined lands shall be equipped with a lock that provides for emergency fire and police access.

28. Any traffic control or warning signs or devices required by the Department through the special permit conditions or note on approved site plans shall be installed and maintained by the operator.

29. Mining, mineral processing, and hauling operations shall conform to the City's General Plan Noise Element and Noise Ordinance, Chapter 8, Article 3 of this Code.

30. If located within five hundred feet (500`) of the property lines of land with residential uses, mineral processing equipment shall only be operated between the hours of 7:00 a.m. and 7:00 p.m., or during more restricted hours as set by the conditional use permit. Otherwise, mineral processing equipment may be operated between 5:00 a.m. and 10:00 p.m.

31. REPORTING. The Mining Permit shall include the express requirement that operators file the following reports with the DOC Director or his/her designee and a copy of the report to the City.

a. Reports shall be made on the form(s) furnished or prescribed by the SMGB.

b. Reports shall be accompanied by the applicable filing fee and a copy of the City's annual inspection report, as specified in SMARA Section 2207.

c. New mining operations shall file an initial report with the DOC Director or his/her designee within thirty (30) days of final conditional use permit approval or before commencement of operations, whichever is sooner.

d. All operators shall file an annual report on or before the date established by the DOC.

32. The conditional use permit shall include provisions for providing access to mined lands by the City and DOC personnel, for periodic and other inspections of the site.

C. Standards for Reclamation and Interim Management Plans:

1. Reclamation Plans shall comply with SMARA and SMARA Regulations.

2. End uses of reclaimed mine sites shall be consistent with adopted City of Fresno plans and policies.

a. End uses shall be consistent with the General Plan, community plan, and specific plan land use designation(s) and policies applicable to the site.

b. End uses shall not preclude approved uses of adjacent property including the extraction of minerals from such property. End uses shall reflect terms and conditions of pre-existing entitlements and applicable previously approved mitigation programs.

c. Whenever possible, reclamation should be planned to have multiple benefits, in it should support the stated end use of the property, while enhancing or complementing the natural resources of the area and/or allowing for recreational opportunities. It shall be recognized that habitat enhancement, scenic value improvement, and recreational use, should complement, not prohibit, permitted end uses of reclaimed lands.

d. End uses shall be consistent with flood control and safety regulations and objectives.

3. Reclamation activities shall be initiated at the earliest possible time on those portions of mined lands that will not be subject to further disturbance. Reclamation of mined lands or a delineated phase of mining shall not begin later than six months after the cessation of mining on those mined lands or delineated phase area.

4. Reclamation activity shall be coordinated with seasonal weather patterns in order to prevent erosion and maximize success of revegetation.

5. Final slopes of excavated or filled areas shall not be steeper than 2:1 (two feet horizontal to one foot vertical) at any point for areas that will not be associated with future public access to open water bodies, and shall not be steeper than 3:1 at any point for areas that will be associated with future public access to open water bodies. These limits on slopes shall extend to a depth of at least five feet (5`) below the estimated average water level of any ponds created by mining activity.

6. Grading, erosion control measures, and revegetation plantings shall be designed to prevent excessive erosion or subsidence, and designed to control surface runoff according to:

a. The City's drainage regulations as set forth in Section 13-120.3315 et seq. of this Code;

b. Compaction standards adequate to support any new structures or roads/access routes to be constructed as part of reclamation; and

c. Applicable best management practices for stormwater management.

7. Piles or dumps of mining waste and overburden shall be stabilized to prevent erosion, and all toxic materials shall be removed or rendered inert to prevent leaching.

8. Access roads, haul roads, and parking areas shall be removed unless the Reclamation Plan specifically authorizes their retention to implement or support the end use of the mined lands. In order to erase the roads, concrete, asphalt, wood and metal parts shall be removed and recycled; road beds shall be ripped to reverse compaction; topsoil or other suitable growing medium shall be placed on the road bed; and the area shall be revegetated.

9. Bridges, causeways, or other overcrossings may be retained for incorporation into a trail or road network as authorized by area plans, if all necessary approvals to retain such structures are obtained.

10. Bridge structures, causeways, and other overcrossing structures that are not to remain to support the approved reclamation use(s) of the property, that present a hazard to River users, or that impede flood waters, shall be removed as soon as possible after their use in mining operations has ceased. All portions of the structures shall be removed, including culvert pipes and fill.

11. Water features that are created by mining activities and will remain as part of the site's reclaimed use shall be designed with the following criteria:

a. The margins of water features shall have stepped benches with level areas of varying widths at intervals of a few feet below and above the expected water level. The slope between benches shall not exceed criteria set forth in this Article or the approved plan.

b. Shorelines shall be scalloped to form an irregular land/water interface;

c. Extended peninsulas and islands should be created whenever feasible; and

12. Ponds may be (or may remain) connected to a stream or river, provided the provisions of subsection 12-5.10-B-17 of this Code are complied with.

13. Revegetation shall be consistent with the designated end use of the mined lands and shall be designed to maximize success of the plantings.

a. Where the specified end use does not call for certain plantings, revegetation shall employ native species endemic to the vicinity.

b. For mined lands whose end use(s) involve habitat improvement, revegetation shall make the site more useful for supporting wildlife by providing cover and food.

c. Vegetative species-richness, density, and canopy/cover for areas being restored with native plants shall be similar to naturally-occurring vegetation on the site prior to mining or in surrounding undisturbed areas with similar terrain and water availability.

d. Where possible and feasible, propagules (seeds, cuttings, root divisions) of native plants to be used for revegetation should be gathered from the site or from adjacent lands. Any required permits and permissions shall be obtained for the collection of source plants. Collection efforts shall not destroy or materially injure sources of native plants.

e. In riparian areas, plantings should be generally designed to provide multiple, braided bands of cover parallel to the adjacent stream or river, with some clumps for diversity and denser cover.

f. Establishment of native vegetation for habitat on mined lands shall be planned. and designed to eventually be self-supporting and to have self-regeneration and ecological succession capability without continued dependence on irrigation or other intensive management practices.

g. Where the prospective success of a proposed revegetation plan cannot be documented by previous experience or assured by professional advice, test plots may be required by the Development Department and/or DOC. Results obtained from test plots may be employed to alter the specifications of the revegetation plan.

h. The Reclamation Plan and financial assurance shall provide for maintaining and replacing revegetation plantings throughout the establishment and post-reclamation maintenance period, until the plantings become well enough established to survive.

i. Planting periods shall relate to the species and the type of propagule being used. Flexibility will be allowed in planting schedules for suitability of precipitation and temperature, in order to provide for optimal establishment of plants; however, erosion control goals shall also be considered.

j. The revegetation plan schedule, objectives, and success benchmarks shall be consistent with the Reclamation Plan revegetation evaluation criteria as set forth in the monitoring plan required under subsection 12-5.509-D-14 of this Code.

13. FINANCIAL ASSURANCE. To ensure that reclamation will proceed in accordance with the approved Reclamation Plan, the City shall require security which will be released upon satisfactory performance and the expiration of any maintenance periods. Final approval of a Reclamation Plan and, therefore, of a Mining Permit, requires acceptance and approval of financial assurance as specified below.

a. Financial assurance will be required to ensure compliance with elements of the Reclamation Plan, including but not limited to:

(1) Grading and stabilization of slopes and piles, erosion control, and drainage improvements;

(2) Removal of equipment, structures, haul roads, access roads, bridges, causeways, and other improvements;

(3) Restoration and preservation of water bodies, including contouring;

(4) Protection of surface and ground water quality;

(5) Revegetation and landscaping, including soil amendment, installation and operation of irrigation systems, and maintenance of plantings;

(6) Restoration or improvement of aquatic or wildlife habitat;

(7) Securing of the site to prevent unauthorized entry;

(8) Two years of inspection fees for the entire site;

(9) Disposal of any hazardous materials; and

(10) Other measures and site improvements, as necessary to implement the approved Reclamation Plan.

b. The amount of the financial assurance shall be arrived at pursuant to the following guidelines:

(1) Cost estimates should be prepared by a California registered Professional Engineer, Registered Geologist, and/or other similarly licensed and/or qualified professional retained by the operator.

(2) The estimated amount of the financial assurance shall be based on an analysis of physical activities necessary to implement the approved Reclamation Plan, the unit costs for each of these activities, the number of units of each of these activities, plus actual administrative costs.

(3) Financial assurance for revegetation, restoration of water bodies, restoration of aquatic or wildlife habitat, and any other applicable element of the approved Reclamation Plan shall be based upon cost estimates that include but may not be limited to labor, equipment, mobilization of equipment, supplies and materials, disposal costs including those related to any hazardous materials, administration (including two years of City inspection fees), and reasonable profit for a licensed contractor other than the operator to do the work. In projecting the costs of financial assurance, it shall be assumed without prejudice or insinuation that the surface mining operation could be abandoned by the operator and, consequently, the City or DOC may need to contract with a third party commercial company for reclamation of the site.

(4) A contingency factor of ten percent (10%) shall be added to the cost of financial assurance.

(5) The financial assurance shall cover the cost of reclaiming existing disturbed areas, any required interim reclamation, and reclamation of those areas subject to anticipated activities for the next calendar year, excepting that the operator may not claim credit for reclamation scheduled or anticipated to be completed during the coming year.

(6) Cost estimates for reclamation of a phase of mining shall take into account the concomitant disturbance on other portions of mined lands. It shall be based upon mining, on-site processing, and reclamation activities associated with that phase of mining as delineated in the approved mining permit and Reclamation Plan, and shall include required maintenance of reclaimed areas. Cost estimates are subject to adjustment for the actual cost of reclaiming lands to be disturbed by surface mining activities in the upcoming year.

(7) The amount of financial assurance required of a surface mining operation for any one year shall be adjusted annually to account for new lands disturbed by surface mining operations, any interim reclamation activities, inflation, and reclamation already accomplished in accordance with the approved Reclamation Plan.

(8) Revisions to financial assurance shall be submitted to the Development Department each year prior to the anniversary date for approval of the financial assurance. If revisions to the financial assurance are not required, the operator shall explain, in writing, why revisions are not required.

c. Cost estimates for the financial assurance shall be submitted to the Development Department for review and approval prior to the applicant/operator preparing or securing financial assurance instruments.

d. The Development Department shall forward a copy of the cost estimates, any documentation received supporting the amount of the cost estimates, and a copy of the proposed or conceptually approved Reclamation Plan, to the DOC Director for review. If the DOC Director does not comment within forty-five (45) days of receipt of these estimates, it shall be assumed that the cost estimates are adequate, unless the City has reason to determine that additional costs may be incurred.

e. Once the cost estimates for reclamation are approved, the applicant/operator may pose security in the form of a cash deposit, certificate of deposit, trust fund, surety bond from a bonding company approved by the City, irrevocable letter of credit from an accredited financial institution, or alternate method and form as may be acceptable to the City Attorney and to the SMGB and DOC as specified in State regulations. The financial security shall be in an amount equal to the estimated cost of completing reclamation activity pursuant to the approved Reclamation Plan within a reasonable time period, as determined by the Development Department) plus the cost of post-reclamation maintenance and related administrative needs such as inspections. Financial security instruments shall be made payable to the "City of Fresno" and the "California Department of Conservation."

f. Financial assurance for each phase of reclamation shall remain in effect for the duration of the surface mining operation and any additional time, until

that phase of reclamation is completed and accepted as complete by the City and there have been at least five years of post-reclamation maintenance of that completed and accepted phase of reclamation.

g. Financial assurance shall be maintained for idle surface mining operations as though the operations were active.

14. Interim Management Plans shall have the following requirements:

a. The Interim Management Plan shall provide measures the operator will implement to maintain the site in a secure and stable condition with regard to public health and safety.

b. The Interim Management Plan shall provide measures the operator will implement to maintain the site in compliance with SMARA, SMARA Regulations, and this Article.

c. Financial assurance shall be maintained as through the surface mining operation were active.

d. The Interim Management Plan may be approved to remain in effect for a period not to exceed five years, at which time the following actions shall be taken:

(1) The Development Department shall determine, based on inspections, whether the operator has complied fully with the Interim Management Plan;

(2) Upon application by the operator, the Planning Commission may renew the Interim Management Plan for another period not to exceed five years; unless the operator does not apply for an extension, or there is evidence that the Interim Management Plan has not been implemented by the operator, in which cases the Planning Commission shall require the operator to commence reclamation in accordance with the approved Reclamation Plan for the site.

e. At the expiration of a renewed Interim Management Plan, the operator shall be required to commence reclamation pursuant to the approved Reclamation Plan.

f. Nothing in this Section shall preclude the City or the DOC from taking enforcement action against the operator and/or property owner to require reclamation of, or to reclaim, an idled mine site or abandoned mine site if inspections reveal that interim management is not protecting public health and safety, not securing the site, not stabilizing the site, or if the Operator is not complying with reporting and/or financial security requirements. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.511. REPORTING, INSPECTIONS, ENFORCEMENT ACTIONS, AND APPEALS OF ENFORCEMENT ACTIONS.

A. REPORTING. Operators shall file initial and annual reports, as may apply, with the DOC Director and shall send copies to the Development Department. Operators shall pay

filing fees to the DOC as prescribed in SMARA Section 2207 and as elsewhere required pursuant to this Code. The Development Department shall furnish to the DOC Director complete copies of all initial/annual reports, including any proprietary information as described in Section 12-5.512-A of this Code.

B. INSPECTIONS.

1. Within six months of receipt of the annual or initial report, the Development Department shall conduct an inspection of the mined lands and surface mining operation to determine whether the surface mining operation and associated reclamation is in compliance with SMARA and SMARA Regulations, its Mining Permit, and its Reclamation Plan, including financial assurance.

2. Inspections shall be conducted by a Registered Geologist, Registered Civil Engineer, Licensed Landscape Architect, Registered Forester, or other qualified specialist as designated by the Development Director. The inspector(s) shall not have been employed by the mining industry or concrete/asphalt products industry in any capacity during the twelve months prior to conducting any inspection, including as an independent contractor or consultant.

3. Inspections shall be performed as often as necessary to implement the monitoring plan element of the Reclamation Plan and to ensure that required corrections have been done pursuant to any correction notices arising out of inspections. At least one inspection shall be conducted in any calendar year, until the end of the post-reclamation monitoring period of completed and accepted reclamation activity.

4. All inspections shall be documented using a form approved by the SMGB and DOC. Additional documentation may be attached to that form, at the discretion of the Development Director.

5. Within thirty (30) days of completing each inspection, and no later than July 1 of each year, the Development Department shall forward to the DOC Director and the surface mine operator a copy of the inspection report and any notice of deficiency.

6. The operator shall be solely responsible for the reasonable costs of periodic site inspections and reinspections required to gain compliance. Within thirty (30) days of notification by the City that an inspection fee is due, the operator shall pay the appropriate fees as set forth in the City's Master Fee Schedule and the notification. Failure to pay an inspection fee is grounds for revocation of a Mining Permit, and the City may also take collection actions including, but not limited to, drawing on the financial assurance posted for reclamation of the surface mining operation, and seeking reimbursement from the owner of the mined lands.

7. Inspections of the site may be conducted in response to complaints received by the City. The operator or property owner shall not be responsible for costs of initial complaint inspections or a first reinspections needed to ascertain correction of a violation noted on a complaint inspection. The City reserves the right to require the operator and/or property owner to pay the costs of multiple reinspections if compliance is not promptly attained.

8. The operator and property owner shall permit the City, the DOC and other federal, state, regional, or local law enforcement and regulatory agencies to conduct any necessary inspections of mined lands.

C. ENFORCEMENT ACTIONS.

1. Based on results of inspections of the mined lands and surface mining operation, the Development Department shall make a determination whether an operator is conforming to SMARA, SMARA Regulations, and the terms and conditions of the approved Mining Permit and Reclamation Plan for the site.

2. If the operator does not commence reclamation as required by an approved reclamation plan, interim management plan, or SMARA, the operator shall be subject to enforcement action.

3. If the Development Department makes a finding that an operator is not in compliance with a Mining Permit and/or Reclamation Plan, the City shall follow the procedures set forth in SMARA Sections 2774.1 and 2774.2 concerning violations and penalties.

4. As deemed appropriate and necessary, and when such actions are not pre-empted by SMARA, the City may also exercise its authority to revoke a Mining Permit and/or Reclamation Plan, and to abate public safety hazards and nuisances, pursuant to subsections 12-411-A and 12-411-B of this Code.

5. Pursuant to SMARA Section 2770(i), enforcement action against an idle mining operation shall be held in abeyance pending submission of an Interim Management Plan within ninety (90) days of the site becoming idle, and, if the Interim Management Plan is submitted timely, shall be further held in abeyance pending review and approval of the Interim Management Plan.

D. APPEALS OF ENFORCEMENT ACTIONS. Any person aggrieved by an act or determination of the Development Department in its exercise of the authority granted by this Section shall have the right to appeal to the Planning Commission.

1. Any appeal must be filed within fifteen (15) calendar days after the operator receives the written rendition of a decision.

2. Upon receipt of an appeal, the matter shall be scheduled and noticed for public hearing at the next available meeting date of the Planning Commission.

3. Decisions of the Planning Commission on appealed enforcement actions may subsequently be reviewed by the City Council pursuant to subsection 12-406-1 of this Code.

4. Nothing in this Section shall preclude representatives of the City, the DOC, or other federal, state, regional, or local law enforcement or regulatory agency from exercising their respective police powers in order to enforce federal, state, regional, or local laws and regulations, and conditions of permits, under such agencies jurisdictions. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.512. PUBLIC RECORDS.

A. Permit applications and supporting studies (excepting archaeological/paleontological site investigations), Mining Permits, Reclamation Plans, environmental assessments, inspection reports, and other documents prepared pursuant to this Article are deemed to be public records in their entirety, unless it can be demonstrated to the satisfaction of the Development Director that the release of such information, or part thereof, would reveal proprietary information entitled to protection. Such proprietary information may include quantities of mineral reserves, the rate of depletion of reserves, the quantities of minerals or formulated compounds produced or sold by an operation, or driller's logs. Such information may be required by the Development Department for consideration of applications, but the operator may request that it not be placed in the public domain.

B. If an applicant seeks to protect information on the grounds that it is proprietary, the applicant must identify the pages or sections of pages containing this information and separate it in the conditional use permit application and supporting documentation and in any initial and annual reports.

C. Proprietary Information shall be made available to persons other than the DOC Director only when authorized in writing by the mine operator in accordance with SMARA Section 2778. (Added Ord. 99-37, § 7, 7-9-99).

SEC. 12-5.513. PROVISIONS FOR REVISING THIS ORDINANCE.

A. In order to ensure that the City of Fresno Surface Mining and Reclamation Ordinance remains consistent with SMARA, the Development Director shall periodically review this Ordinance and initiate text amendments as necessary. The Development Director shall also initiate text amendments to update this Ordinance as may be directed by the SMGB from time to time.

B. The SMGB shall be afforded sixty (60) days to review proposed amendments to this Ordinance. After the SMGB comments on proposed revisions to this Ordinance, the City shall have ninety (90) days to complete its environmental review, public hearings, and adoption of the Ordinance. A copy of the adopted Ordinance shall be promptly forwarded to the SMGB.

C. Adopted revisions of the City of Fresno Surface Mining and Reclamation Ordinance shall not be effective until the SMGB certifies the revised Ordinance.

D. During preparation of text amendments to revise this Ordinance, the City shall consult with Madera County and Fresno County with the goal of unifying standards for surface mining and reclamation in the San Joaquin River mineral resource areas. (Added Ord. 99-37, § 7, 7-9-99).

Sec. 12-712. Time Limit.
Sec. 12-713. Fee.
Sec. 12-714. Compliance.

SEC. 12-701. TITLE.

The title of this article shall be the Fresno City Plan Line Ordinance.
(Orig. Ord. 3807; Am. Ord. 68-164, 1968).

SEC. 12-702. DEFINITIONS.

Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning, and application of words and phrases used in this article, and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 2 (commencing with Section 1-201) of Chapter 1, and in Section 7-602 of this Code shall also govern the construction, meaning, and application of words and phrases used in this article. The definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(a) "Building setback line" means the minimum distance as prescribed by ordinance between any official plan line or property line and the closest point to the foundation of any building or structure related thereto.

(b) "Official Plan Lines" means the future right-of-way line or plan lines of any street or highway as shown on the Official Plan of Streets and Highways for street use.

(c) "Commission" means the Planning Commission of the city.

(d) "Director" means the Director of Planning and Inspection of the city. (Orig. Ord. 3807; Am. Ord. 5310, 1958; Am. Ord. 5874, 1961; Am. Ord. 68-164, 1968).

SEC. 12-703. SPECIFIC PLANS OF OFFICIAL PLAN LINES.

(a) **Official Plan of Streets.** The Official Plan of Streets and Highways as heretofore adopted and amended is hereby affirmed and continued in force as a specific plan and part of the General Plan of the city.

(b) **Specific Plans.** Official plan lines shall be shown by the adoption of specific plans of streets and highways and other traffic ways in the city by designation on either maps, aerial photos of precise areas of the streets or the other documents which show proposed width of right-of-way. The official plan line document may include the location of buildings and other improvements with respect to existing or planned rights of way, building setback lines, and the recommended development for major streets and highways and other streets and traffic ways.

(c) **Procedure.** Whenever the Council, Commission, Director, or Director of Public Works recommends the adoption of a specific plan establishing, modifying, or repealing official plan lines, the Director shall set the time and place for a public hearing thereon before the Commission. Notice of the hearing on the specific plan shall be given by publication at least once in a newspaper of general circulation in the city. Such other notice shall be given as required by the Commission. The Commission shall hear the matter not less than ten days and not more than thirty days after receipt of the recommended plan. The Commission may amend any portion of the official plan lines shown on the recommended specific plan. The Commission may recommend adoption of the specific plan as recommended or as so amended, or may recommend disapproval of the plan. The hearing or decision of the Commission may be continued from time to time, but not for more than sixty days from the date first set for a public hearing on the plan. The recommendation of adoption, amendment, or disapproval of the Commission, together with the originally proposed plan, shall be referred to the Council for a final decision thereon. The Council shall set for hearing, notice, and decide the matter as provided by this section for action by the Commission, except that official plan lines shall be adopted and amended by ordinance. (Orig. Ord. 3807; Am. Ord. 5874, 1961; Am. Ord. 68-164, 1968).

SEC. 12-704. OFFICIAL PLAN LINE MAPS.

The precise and specific maps, drawings, and plans of official plan lines consisting of:

(1) Ordinance Nos. 2369, 2406, 2484, 2628, 3315, 3316, and amended Resolution 1500 (adopted January 16, 1941) of the Council and former Commission of the city.

(2) Plan lines appearing in the Fresno County book of Precise Plans of Streets and Highways, which plan lines are in areas previously annexed to the city.

(3) The maps of plan lines appearing in the Official Plan Book, consisting of ninety-one maps are hereby adopted and made a part of this article as are official plan lines hereafter adopted. The Director shall keep a record of all ordinances and resolutions hereafter adopting specific plans of official plan lines and shall cause the maps or drawings thereof to be placed in the Department of Planning and Inspection in a place or volume designated "Official Plan Lines — City of Fresno." Whenever any plan line is hereafter amended, deleted, or moved, the Director shall cause such fact to be recorded upon the map or drawing of both the new and old plan line. The maps, drawings, and plans herein adopted and those hereafter placed in the place or volume designated as required above, as they may hereafter be amended, shall be prima facie evidence of the existence and legality of the Official Plan

Lines designated thereon. (Orig. Ord. 3807, as amended; Am. Ord. 4956, 1956; Am. Ord. 5175, 1957; Am. Ord. 5310, 1958; Am. Ord. 5355, 1958; Am. Ord. 5820, 1960; Am. Ord. 5874, 1961; Am. Ord. 6056, 1962; Am. Ord. 6110, 1962; Am. Ord. 6132, 1962; Am. Ord. 6184, 1962; Am. Ord. 6202, 1962; Am. Ord. 6211, 1962; Am. Ord. 6236, 1963; Am. Ord. 6304, 1963; Am. Ord. 6330, 1963; Am. Ord. 6412, 1964; Am. Ord. 6427, 1964; Am. Ord. 6428, 1964; Am. Ord. 6440, 1964; Am. Ord. 6484, 1964; Am. Ord. 6521, 1964; Am. Ord. 6525, 1964; Am. Ord. 6526, 1964; Am. Ord. 6609, 1965; Am. Ord. 6619, 1965; Am. Ord. 6675, 1965; Am. Ord. 6676, 1965; Am. Ord. 6678, 1965; Am. Ord. 6877, 1966; Am. Ord. 6887, 1966; Am. Ord. 6916, 1966; Am. Ord. 6935, 1967; Am. Ord. 68-71, 1968; Am. Ord. 68-116, 1968; Am. Ord. 68-117, 1968; Am. Ord. 68-136, 1968; Am. Ord. 68-164, 1968).

SEC. 12-705. ANNEXATION.

(a) All official plan lines duly adopted by the County of Fresno affecting property which is or was annexed to the City of Fresno after July 31, 1958, shall continue in effect as official plan lines of the City of Fresno until amended or rescinded by ordinance adopted by the Council of the City of Fresno, except that the official plan lines on Chestnut Avenue between East Holland Avenue and a point one hundred feet north of East Santa Ana Avenue are not so adopted and continued in effect.

(b) The plan lines adopted by the County of Fresno prior to annexation of property affected thereby to the city are hereby continued in effect as official plan lines of the city. (Orig. Ord. 3807, as amended; Am. Ord. 5311, 1958; Am. Ord. 5407, 1958; Am. Ord. 5895, 1961; Am. Ord. 6211, 1962; Am. Ord. 6236, 1963; Am. Ord. 68-164, 1968).

SEC. 12-706. INTERIM PERIOD.

In the event of the setting of a hearing before the Commission for the purpose of adopting an official plan line map as herein provided for, no permit shall be issued for any structure not complying with the official plan line map as proposed on any property fronting, facing, or located adjacent to such street as indicated on said proposed map for a period of ninety days, or until the Council has acted upon the matter whichever is earliest. (Orig. Ord. 3807; Am. Ord. 5311, 1958; Am. Ord. 68-164, 1968).

SEC. 12-707. BUILDING SETBACK LINE.

All building setback lines as designated by Chapter 12 of this Code, shall be measured from the official plan lines as set forth on maps on and after the effective date of said maps. Building setback lines as measured from the official plan lines shall be in the amount as designated for the respective zoning classifications in said Chapter 12. Building setback lines indicated on an official plan line map shall be in the amount as indicated on said maps without regard to the zoning classification of the property in question and shall pre-empt the latter. In the absence of an official plan line, the building setback line shall be measured from the property line. (Orig. Ord. 3807; Am. Ord. 68-164, 1968).

SEC. 12-708. ENCROACHMENTS.

(a) **Buildings.** No building, structure, or other improvement other than landscaping or paving, whether publicly or privately owned, shall hereafter be erected, altered in any manner, moved in or placed within the official plan lines of streets and highways as adopted pursuant to or by this article, or closer to the street lines than the building setback lines as determined by the zoning ordinance or as established by map approved by the city, and no permit or approval therefor shall be issued by any official or employee of the city, except that alterations or signs on existing structures which do not enlarge the sign or the structure by adding to, enlarging or extending said structure into the area lying between the existing street property line and the official plan line may be approved.

(b) **Minor Structures.** This section shall not apply to gardens or to other yard uses, or to yard fences or non-permanent structures otherwise permitted under this Code. (Rep. and Added Ord. 68-164, 1968).

SEC. 12-709. SUBDIVISIONS.

The street and highway design of any division of land falling under the provisions of the Subdivision Map Act or parcel map requirements of the State of California or the city shall be based upon and conform to any applicable official plan lines. (Orig. Ord. 3807; Am. Ord. 68-164, 1968).

SEC. 12-710. RECORDING.

The Director shall record in the office of the County Recorder of the County of Fresno a full, true, and correct copy, duly attested, of all maps of the official plan lines which are hereafter added to this article. (Orig. Ord. 3807; Am. Ord. 5310, 1958; Am. Ord. 68-164, 1968).

SEC. 12-711. VARIANCE.

(a) Any property owner may be granted a variance from the terms of this article by the allowance of an encroachment into the building setback area on his property.

(b) The variance shall be granted only upon the procedures, terms, and conditions in Sections 12-405 and 12-406 of this Code, to the extent applicable. (Rep. and Added Ord. 68-164, 1968).

SEC. 12-712. TIME LIMIT.

Any permission granted by a variance shall be null and void and shall automatically expire six months after its effective date, unless the use or construction permitted is actually commenced within said time. (Rep. and Added Ord. 68-164, 1968).

SEC. 12-713. FEE.

The fee designated in the Master Fee Resolution shall be paid to the city upon the filing of each application for the purpose of defraying the expenses of investigations, posting, and other costs incidental to the variance proceedings prescribed herein. (Rep. and Added Ord. 68-164, 1968; Am. Ord. 80-115, § 121, eff. 8-8-80).

SEC. 12-714. COMPLIANCE.

The provisions of this article shall be applicable to any building, structure, or property situated within the city, which is owned, leased, controlled, operated, or occupied by the United States, the State of California, the County of Fresno, the City of Fresno, Fresno City Unified School District, the Fresno Irrigation District, or by any other public or quasi-public agency, corporation, or association. (Rep. and Added Ord. 68-164, 1968).

ARTICLE 8 DEVELOPMENT IN OVERCROWDED SCHOOL AREAS

Sec. 12-801. Intent and Purpose.
Sec. 12-802. Definitions.
Sec. 12-803. Notice of Findings.
Sec. 12-804. Approval of Proposed Findings.
Sec. 12-805. Dedication and Fees.
Sec. 12-806. Payment of Fees.
Sec. 12-807. Reporting and Accounting.

SEC. 12-801. INTENT AND PURPOSE.

The Council hereby finds the protection of the health, safety, and general welfare of the residents of the city requires that adequate school facilities will be available to serve city residents. The Council further finds it necessary to provide interim relief for school districts where new dwelling construction has adversely affected the capability of providing school and classroom facilities. The purpose of this article is to promote the general welfare of the public through the provision of a program to assist school districts in reducing the detrimental impact of new development. (Added Ord. 79-143, § 1, 9-21-79).

SEC. 12-802. DEFINITIONS.

(a) Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning, and application of words and phrases used in this article, and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 2 (commencing with Section 1-201) of Chapter 1, Article 1 (commencing with Section 12-101) of Chapter 12, and Article 10 (commencing with Section 12-1001) of Chapter 12 of this Code shall also govern the construction, meaning, and application of words and phrases used in this article. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(b) "Attendance Area" shall mean the attendance area for an elementary or high school as defined by the governing board of the district involved.

(c) "Conditions of Overcrowding" shall mean that the total enrollment of a school, including enrollment from a proposed residential development, exceeds the rated capacity of such school as determined by the governing body of the district.

(d) "District" shall mean school district.

(e) "Governing Board" shall mean the governing board of a district which has a school attendance area within the city.

(f) "Notice of Findings" shall mean the resolution the governing board of a district submits to the Council setting forth those facts, policy statements, assumptions, and conclusions the governing board used to determine rated capacity and declare existence of conditions of overcrowding.

(g) "Proposed Development" shall mean a zone district amendment, conditional use permit, site plan, tentative subdivision map, tentative parcel map, and building permit for residential uses or purposes.

(h) "Rated Capacity" shall mean that capacity determined by the governing board of a school district to be the maximum acceptable enrollment in a school facility based on the governing board's policies and programs.

(i) "Reasonable Methods of Mitigating Conditions of Overcrowding" shall mean those methods developed by the governing board of a district which address in detail mitigation measures deemed appropriate by the governing board, including, but not limited to, agreements between a subdivider and an affected school district whereby relocatable buildings will be leased to, or lease-purchased by, the school district, or relocatable buildings owned by the school district will be used.

(j) "Residential Development" shall mean a project containing residential dwellings, including mobile homes, or one or more units or a subdivision of land for the purpose of constructing one or more residential dwelling units.

(k) "Temporary Classrooms and Facilities" shall mean those classrooms and facilities of a relocatable nature required pursuant to the provisions of this article to relieve conditions of overcrowding within an attendance area of an affected school district. For the purposes of this article "temporary classrooms and facilities" shall be limited to temporary classrooms not constructed with permanent foundations, including their utilities and furnishings, which are subject to the provisions of Article 3 (commencing with Section 39140) and Article 6 (commencing with Section 39210) of Chapter 2, Part 23, Division 3 of the California Education Code. (Added Ord. 79-143, § 1, 9-21-79).

SEC. 12-803. NOTICE OF FINDINGS.

(a) **School District.** Any governing body of a school district which operates a school which has part of its school attendance area within the city, and which has not received an apportionment pursuant to the Leroy F. Green State School Building Lease-Purchase Law of 1976 (commencing with Section 17700 of the California Education Code), may file a Notice of Findings with the Council. Such Notice of Findings shall contain all of the following:

(1) Evidence that conditions of overcrowding exist in one or more attendance areas within the district which will impair the normal functioning of educational programs or facilities;

(2) Reasons for the existence of such conditions of overcrowding;

(3) A statement that all reasonable methods of alleviating conditions of overcrowding have been evaluated and no feasible method for reducing such conditions exists; and

(4) A statement that all mitigation measures including, but not limited to, temporary buildings, bussing, double sessions, extended day program, year-round school attendance, school boundary realignments, and elimination of low priority programs have been considered by the governing board.

(b) **Council Hearing.** The City Clerk shall set and notice, pursuant to Section 12-401-C-1 of this Code, a public hearing before the Council on the submitted Notice of Findings. The Council shall concur in such findings by resolution if the documentation and evidence clearly and convincingly demonstrate to the Council the existence of conditions of overcrowding within an attendance area of the district. (Added Ord. 79-143, § 1, 9-21-79).

SEC. 12-804. APPROVAL OF PROPOSED DEVELOPMENTS.

Within an attendance area which has been found, pursuant to Section 12-803, to contain conditions of overcrowding, the approval of any proposed development shall be conditioned upon the dedication of land or the payment of fees, or both, in the discretion of the Council. In lieu of fees, the developer of a proposed development may, at the developer's option and expense, provide temporary classrooms and facilities, owned or controlled by such developer, at the place designated by the school district, and at the conclusion of the fifth year the developer shall, at the developer's expense, remove the interim facilities from such place at a date and time such removal will not disrupt normal school operations. Any of the above conditions of approval shall be waived if the affected school district and the development applicant agree upon another means of mitigating conditions of overcrowding or if the Council, after first giving the affected school district notice and a reasonable opportunity to present evidence, identifies specific overriding fiscal, economic, social, or environmental factors which would benefit the city and thereby justify the approval of the residential development. (Added Ord. 79-143, § 1, 9-21-79).

SEC. 12-805. DEDICATION AND FEES.

(a) **Dedication.** Dedications required pursuant to Section 12-804 shall only be required as a condition of approval of any final subdivision map of 50 or more residential units. Land so dedicated shall remain in school use until the conditions of overcrowding no longer exist; however, such period shall not exceed five years.

(b) **Fees.** The Council shall establish, for each affected attendance area, a schedule of fees for the sole purpose of providing temporary school classrooms and facilities.

(1) The schedule of fees shall be those amounts determined from time to time by the governing board of the affected school district and approved by the Council by resolution. Such fees shall be reasonably related and limited to the need for school facilities caused by a proposed development and shall not exceed an amount necessary to pay five annual lease payments for such facilities.

(2) Any fee recommendation of the school district, in order for such recommendation to be applicable to any particular proposed development, must be submitted to the city prior to, or within sixty days following, approval of an entitlement for such proposed development. (Added Ord. 79-143, § 1, 9-21-79).

SEC. 12-806. PAYMENT OF FEES.

Whenever the payment of fees is required pursuant to this article, such payment shall be made at the time the building permit is issued. (Added Ord. 79-143, § 1, 9-21-79).

SEC. 12-807. REPORTING AND ACCOUNTING.

(a) Within thirty days following the decision to require the dedication of land or the payment of fees, or both, the governing body of a school district shall submit to the Council for approval a schedule specifying how it will use the land or fees, or both, to solve the conditions of overcrowding. The schedule shall include the school sites to be used, the classroom facilities to be made available, and the times when such facilities will be available. In the event the governing body of the school district cannot meet the schedule, it shall submit modifications to the Council for approval and the reasons for the modifications.

(b) Any school district receiving funds pursuant to this chapter shall maintain a separate account for any fees paid and shall file a report with the Council setting forth the balance in the account at the end of the previous fiscal year and the facilities leased, purchased, or constructed during the previous fiscal year. In addition, the report shall specify those attendance areas which will continue to be overcrowded when the fall term begins and those areas where conditions of overcrowding will no longer exist. Such report shall be filed by August 1 of each year and shall be filed more frequently at the request of the Council.

(c) If Council finds that overcrowding conditions no longer exist within an attendance area, the city shall cease levying any fee or requiring the dedication of any land pursuant to this article within such area. All temporary classrooms and facilities owned or controlled by any developer, may, at the developer's option and expense, remove such facilities from a designated site after Council has made such findings and at a date and time such removal will not disrupt normal school operations. (Added Ord. 79-143, § 1, 9-21-79).

Sec. 12-1510. Expiration.

SEC. 12-1501. TITLE.

This Article shall be known and may be cited as the Industrial Development Ordinance. This Article is promulgated pursuant to Article 4.6 of Chapter 12. (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1502. COUNCIL FINDINGS AND PURPOSE.

The Council finds and declares that the health, safety, and welfare of the people of the City of Fresno depend upon the development, stability, and expansion of private business, industry, and commerce in and near the City.

The Council further finds and declares that there is a lack of new employment opportunities in the City due to decreased private investment.

The Council further finds and declares that this lack of private investment is caused, in part, by requiring the payment of fees and the completion of improvements early in the development process, long before the private investment generates any income for the investor, thus making it financially infeasible for many businesses to begin operations in the Fresno area.

Therefore, it is declared to be the purpose of this Article to stimulate business and industrial growth in the City by deferring the payment of fees, postponing the installation of improvements, and relaxing regulatory controls that impede private investment. (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1503. DEFINITIONS.

For purposes of this Article, the following definitions apply.

(a) "Certificate of Occupancy" shall mean the certificate issued pursuant to Section 109 of the Uniform Building Code.

(b) "Director" shall mean the Director of Development.

(c) "Industrial Development" shall mean a project for a use listed in Sections 12-225.1, 12-225.3, 12-226.1, 12-226.3, 12-227.1, 12-227.3, 12-228.1, and 12-228.3 of the Fresno Municipal Code, as amended.

(d) "Industrial Development Fee" shall mean a charge or a fee imposed pursuant to Sections 6-304, 12-4.508, 12-4.509, 6-507(a) [excluding those fees specified in 6-507(a)(3)], 13-229, 13-230, 13-231, and Resolution 87-376 of this Code which is for Industrial Development.

(e) "Industrial Development Improvements" shall mean an improvement required by the Public Works Director for street work and public utilities as a condition to approval of an Industrial Entitlement for an Industrial Development.

(f) "Industrial Entitlement" shall mean a general plan amendment, community plan amendment, specific plan amendment, zone district amendment, a UGM permit, conditional use permit, site plan, parcel map, building permit, or other permit or entitlement authorizing the development of real property or the construction of a structure thereon which is an Industrial Development.

(g) "Industrial Zones" shall mean all zone districts specified in Sections 12-225, 12-226, 12-227, and 12-228 of this Code, as amended.

(h) "Property Owner"' shall mean any person or legal entity with an interest in real property proposed to be developed for industrial uses.

(i) "Trunk Sewer fee" shall mean that fee set forth at Section 6-304(a)(5) of this Code as amended and the trunk sewer portion of the fee set forth at Section 6-304(a)(3) of this Code as amended.

(j) "Trunk Sewer Service Area" shall mean the area established by resolution of the Council served by a Trunk Sewer Main and subject to Trunk Sewer Charges.

(k) "Wastewater Facilities Sewer Charge" shall mean the charge imposed at Section 6-304(a)(6) of this Code as amended. (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1504. APPLICABILITY.

This article applies to new industrial development fees which fall due after its effective date in the M-1 -P, M-1, M-2, or M-3 zone districts. This article prevails over any other inconsistent provision of this Code. This article shall not be interpreted to impose additional requirements not required by other provisions of this code. (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1505. DEFERRAL OF INDUSTRIAL DEVELOPMENT FEES.

(a) Industrial Development Fees may be deferred, at the option of the property owner, to the time of application for a certificate of occupancy. Such deferral requires the execution of an agreement with the City which substantially complies with the following:

(1) The fee obligation deferred, including fees generated by common areas, outlots, and similar areas within a subdivision or development shall be prorated to each lot, parcel, unit, building or outlot in the manner specified by the Director.

(2) The agreement shall set forth the itemized fees and the total of the deferred fees.

(3) The deferred fee shall be payable at the rate in effect at the time of payment.

(4) The agreement authorizing deferred payment shall be in a form approved by the City Attorney.

(5) The agreement shall constitute a covenant running with the land, shall establish a lien on the property in favor of the City in the amount of the deferred charges, and shall be recorded in the office of the Fresno County Recorder.

(6) The agreement shall provide that the whole, or any part of the balance of the charges due at any time under the agreement may be accelerated and paid at any time, at the option of the payor.

(7) The agreement shall be signed by all persons having a record title interest in the real property for which the fees are being deferred and shall include a legal description of the property.

(b) In addition to the option provided under subsection (a), payment of the Wastewater Facilities Charge may be paid at occupancy or may be financed by an agreement between the property owner and the City, to pay such charges together with interest on the unpaid balance, over a period of not more than five years, in accordance with the following provisions:

(1) The agreement shall provide for substantially equal bimonthly installments included in the utility bill amortized over a period of five years following the application for certificate of occupancy, at an interest rate established by the Controller.

(2) The agreement shall be in a form and content prescribed by the Controller and approved by the City Attorney.

(3) The agreement shall be signed by all persons having a record title interest in the real property being served by the sewer system, to which the connection is requested, and shall include the legal description of the property.

(4) The agreement shall provide that the whole, or any part of the balance of the charges due at any time under the agreement may be accelerated and paid at any time, at the option of the payor.

(5) The agreement shall constitute a covenant running with the land, shall establish a lien on the property in favor of the City in the amount of the deferred charges, and shall be recorded in the Office of the Fresno County Recorder.

(6) The agreement shall provide that in the event of sale of the property, that the remainder of the deferred fee shall be due and payable to the City. The City Manager may waive this provision for good cause.

(7) The agreement shall provide that in the event the payments due are more than ninety days in arrears, the City may accelerate the debt and demand payment of the remaining balance in full.

(8) The lien for said fee shall be enforceable by the City in any manner available at law or in equity, including but not limited to private foreclosure and sale of the property in the manner provided in Section 2924 of the California Civil Code. (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1506. PAYMENT OF CERTAIN INDUSTRIAL DEVELOPMENT FEES.

The Public Utilities Director shall establish an alternative unit amount based on the best available evidence to the City Engineer for flows and usage for the fees specified in Section 6-304(a)(3), (5), (6) and Section 6-507(a)(5), (6), (7) and (8). (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1507. WAIVER OF CERTAIN TRUNK SEWER FEES.

The Public Utilities Director shall waive trunk sewer fees for industrial projects in trunk sewer service areas where the trunk sewer line exists. (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1508. POSTPONEMENT OF INDUSTRIAL DEVELOPMENT IMPROVEMENTS.

The Public Works Director may allow postponement of industrial development improvements required by this Code or imposed as a condition of an industrial entitlement. Postponement of such improvement requires a finding that such improvement will not be contrary to the public health and safety and is not detrimental to the orderly development of the property subject to the entitlement or property near the subject property. Wherever this Code otherwise requires improvements, the Public Works Director may require that all postponed industrial improvement, be subject to an agreement between the City and the property owner which complies with the following:

(1) The agreement shall be in a form and content prescribed by the Public Works Director and approved by the City Attorney.

(2) The agreement shall be signed by all persons having a record title interest in the real property being served by the improvements to which the connections requested, and shall include the legal description of the property.

(3) The agreement shall constitute a covenant running with the land, establishing a lien on the property in favor of the City in the amount of the costs of such improvements.

(4) The agreement shall be recorded with the Fresno County Recorder's Office. In the case of parcel maps, the improvement requirements may be reflected in a certificate on the map.

(5) The agreement shall be enforceable by the City in any manner available at law or in equity, including but not limited to private foreclosure and sale of the property in the manner provided in Section 2924 of the California Civil Code.

(6) The Public Works Director may require security for improvement agreements. (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1509. RULES AND REGULATIONS.

The Development Director may adopt rules and regulations to implement this article. (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1510. EXPIRATION.

Unless otherwise acted upon by Council, this Article will be of no further force and effect at 12:01 a.m. on the day of the third anniversary of its effective date. (Added Ord. 97-29, § 1, eff. 7-28-97).

SEC. 12-1601. TITLE.

This article shall be known as the "Historic Preservation Ordinance of the City of Fresno." (Added Ord. 99-50, §§ 1, 2, 9-9-99)

SEC. 12-1602. INTENT AND PURPOSE.

(a) The purpose of this article is to continue to preserve, promote and improve the historic resources and districts of the City of Fresno for educational, cultural, economic and general welfare of the public; to continue to protect and review changes to these resources and districts which have a distinctive character or a special historic, architectural, aesthetic or cultural value to this city, state and nation; to continue to safeguard the heritage of this city by preserving and regulating its historic buildings, structures, objects, sites and districts which reflect elements of the city's historic, cultural, social, economic, political and architectural history; to continue to preserve and enhance the environmental quality and safety of these landmarks and districts; to continue to establish, stabilize and improve

property values and to foster economic development. It is not the intent of this ordinance to disturb, disrupt or otherwise nullify properties previously designated as Historical Resources or Historical Districts pursuant to the city's previous Historic Preservation Ordinance.

(b) The Council finds that the City of Fresno has played an important role in the development of California and that this history is shown today through archaeological sites and through buildings, structures, objects, sites and districts representing the commercial, industrial, social, economic, political and architectural development of the city. The Council finds that the distinctive and significant character of the city can only be maintained by protecting and enhancing its historic, architectural, aesthetic and cultural heritage and by preventing unnecessary injury or destruction of its historic resources and districts which are community assets.

(c) The Council finds that this article benefits all of the residents of Fresno and all owners of property and declares as a matter of public policy that the preservation, protection and use of historic resources and districts are a public necessity because of their character and their value as visible reminders of the history and heritage of this city, state and nation. The Council declares as a matter of public policy that this article is required in the interest of the health, prosperity, safety, welfare and economic well-being of the people. The designation and preservation of historic resources and districts and the regulation of alterations, additions, repairs, signs, removal, demolition or new construction to ensure the perpetuation of their historic character is hereby designated to be a public purpose. (Added Ord. 99-50, §§ 1, 2, 9-9-99)

SEC. 12-1603. DEFINITIONS.

Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning and application of words and phrases used in this article, and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 2 (commencing with Section 1-201) of Chapter 1 of this Code shall also govern the construction, meaning, and application of words and phrases used in this article. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(a) "Alteration" shall mean any change or modification requiring a city permit, through public or private action, of any Historic Resource or any property located within an Historic District including, but not limited to: changes to designated interior architectural features; exterior changes to or modification of structural details, architectural details or visual characteristics such as doors, windows, surface materials and texture, grading or surface paving; addition of new structures; cutting or removal of trees, landscaping or other natural features; disturbance of archaeologi-

cal sites or areas; and the placement or removal of any exterior objects such as signs, plaques, light fixtures, street furniture, walls, fences, steps, plantings and landscape accessories affecting the exterior visual qualities of the resource or property.

(b) "Building" shall mean any construction created primarily to shelter any form of human activity.

(c) "California Register of Historical Resources" shall mean the authoritative guide in California to be used by state and local agencies, private groups and citizens to identify the state's historical resources and to indicate what properties are to be protected, to the extent prudent and feasible, from substantial change.

(d) "Certified Local Government Program" shall mean the established partnership between the City of Fresno, the State Historic Preservation Office and National Parks Service designed to identify, evaluate and protect historic resources within the city and to enable the city to participate in the benefits which result from that partnership.

(e) "Commission" shall mean the Historic Preservation Commission.

(f) "Conservation/District Plan" shall mean the plan adopted after the formation of an Historic District which shall govern the manner in which the preservation objectives of the District will be attained.

(g) "Contributor to a Local Historic District" shall mean an individual Historic Resource which contributes to the significance of a Local Historic District (LHD) under the criteria set forth in this article.

(h) "Contributor to a National Register Historic District" shall mean an individual Historic Resource which contributes to the significance of a National Register Historic District (NRD) under the criteria set forth in this article.

(i) "Cultural" as used in this article shall include traditional cultures including but not limited to Native American or other identifiable ethnic groups.

(j) "Demolition" shall mean the act that destroys in whole or in part a designated Historic Resource.

(k) "Design Review Committee" shall mean an entity created to enforce the Conservation/District Plan for any Local Historic District.

(l) "Exterior Architectural Feature" shall mean the architectural elements embodying style, design, general arrangement and components of all of the outside surfaces of a building, structure or object, including but not limited to the type of building materials and the type and style of all windows, doors, lights, signs and other fixtures appurtenant to such building, structure or object.

(m) "Feasible" shall mean capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, legal, social and technological factors.

(n) "Heritage Property" shall mean a resource which is worthy of preservation because of its historical, architectural or aesthetic merit but which is not proposed for and is not designated as an Historic Resource under this article.

(o) "Historic Resource" shall mean any building, structure, object or site that has been in existence more than fifty years and possesses integrity of location, design, setting, materials, workmanship, feeling and association, and: is associated with events that have made a significant contribution to the broad patterns of our history, or is associated with the lives of persons significant in our past, or embodies the distinctive characteristics of a type, period or method of construction, or represents the work of a master or possesses high artistic values; or has yielded, or may be likely to yield, important information in prehistory or history; and has been designated as such by the Council pursuant to the provisions of this article.

(p) "Interior Architectural Features" shall mean the interior architectural elements and fixtures that have special historical, architectural, cultural or aesthetic interest or values and have been designated as such by the Council pursuant to the provisions of this article.

(q) "Landscaping" shall mean natural and cultural resources including vegetation, natural features, structures, objects, roads or waterways, designed, shaped or modified by human activity. Such landscaping is either recognized as individually significant or identified within a nomination as significant in reference to the primary resource; and has been designated as such by the Council pursuant to the provisions of this article.

(r) "Local Register of Historic Resources" shall mean the inventory of buildings, structures, objects, sites and districts designated by the Council as Historic Resources or Historic Districts pursuant to the provisions of this article.

(s) "Local Historic District" (LHD) shall mean any finite group of resources related to one another in a clearly distinguishable way or any geographically definable area which possesses a significant concentration, linkage or continuity of sites, buildings, structures or objects united historically or aesthetically by plan or physical development. The Local Historic District must be significant as well as identifiable and it must meet Local Register Criteria for listing on that Register.

(t) "National Register of Historic Places" shall mean the official federal list of districts, sites, buildings, structures and objects significant in American history, architecture, engineering and culture as authorized by the National Historic Preservation Act of 1966.

(u) "National Register Historic District" (NRD) shall mean any finite group of resources related to one another in a clearly distinguishable way or any geographically definable area which possesses a significant concentration, linkage or continuity of sites, buildings, structures or objects united historically or aesthetically by plan or

physical development. The National Register Historic District must be significant as well as identifiable and it must meet National Register Criteria for listing on that Register.

(v) "Non-contributor" shall mean any building, structure, object or site that does not contribute the significance of the Historic District in which it is located.

(w) "Object" shall mean any construction that is primarily artistic in nature or is relatively small in scale and simply constructed. Although an object may be, by nature or design, movable, it is associated with a specific site or environment, such as fountain or boundary marker.

(x) "Preservation" shall mean the act or process of applying measures to sustain the existing form, integrity and material of an historic property. It may include initial stabilization work, where necessary, as well as ongoing maintenance of the historic building materials.

(y) "Reconstruction" shall mean the act or process of reproducing by new construction the exact form and detail of a vanished building, structure or object, or a part thereof, as it appeared at a specified period of time.

(z) "Regulated Permits" shall mean any permit issued for any work on an Historic Resource or within any Historic District.

(aa) "Rehabilitation" shall mean the act or process of making a compatible use for a property through repair, alterations and additions while preserving those portions or features which convey its historical, cultural or architectural values.

(bb) "Restoration" shall mean the act or process of accurately recovering the form and details of a property and its setting as it appeared at a particular period of time by means of the removal of later work or by the replacement of missing earlier work.

(cc) "Secretary" shall mean the Director of Housing and Neighborhood Revitalization or his or her designee.

(dd) "Secretary of the Interior's Standards" shall mean the Secretary of the Interior's Standards for the Treatment of Historic Properties published by the U.S. Department of the Interior.

(ee) "Site" shall mean the location of a significant event, a prehistoric or historic occupation or activity where the location itself possesses historic, cultural or archaeological value regardless of the value of any existing structure, including but not limited to a designed landscape or the ruins of a building or structure.

(ff) "Specialist" shall mean the Historic Preservation Specialist serving as staff to the Historic Preservation Commission.

(gg) "Specific Plan Design Review Committee" shall mean the entity created to enforce the Conservation/District Plan for any Local Historic District created as the result of the adoption of a Specific Plan.

(hh) "Stabilization" shall mean the act or process of applying measures designed to reestablish a weather resistant enclosure or the structural stability of an unsafe or deteriorated property while maintaining the essential form as it exists at present.

(ii) "State Historic Building Code" shall mean Title 24, Building Standards, Part 8, California Code of Regulations.

(jj) "Structure" shall mean any construction created for purposes other than creating human shelter, including but not limited to a bridge or water tower.

(kk) "Survey" shall mean historic resource surveys conducted in accordance with Certified Local Government Program and state standards and procedures.

(ll) "Unreasonable Economic Hardship" shall mean facts and circumstances which establish that there are no feasible measures that can be taken which will enable the property owner to make a reasonable beneficial use of the property or derive a reasonable economic return from the property in its current form.

(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2021-044, § 1, eff. 11-22-21).

SEC. 12-1604. STAFF TO THE HISTORIC PRESERVATION COMMISSION.

To assist the Commission in the performance of its duties, the following staff positions have been established.

(a) Secretary: There is hereby created the position of Secretary to the Commission which shall be filled by the City Manager or his or her designee. The Secretary shall perform those functions required under the provisions of this article or any other applicable provisions of this Code.

(b) Historic Preservation Specialist: Pursuant to the city's Programmatic Agreement with the State Office of Historic Preservation and during the pendency of such Agreement, the position of Historic Preservation Specialist shall be maintained and shall be filled by an individual meeting the Professional Qualifications Standards for Archaeology and Historic Preservation from the Secretary of the Interior's Standards and Guidelines as published in the Code of Federal Regulations, 36 CFR Part 61. The Specialist shall perform those functions required under the provisions of this article or any other applicable provisions of this Code.

(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1605. HISTORIC PRESERVATION COMMISSION.

(a) Composition: The Commission shall consist of seven persons having a demonstrated interest, competence or knowledge in historic preservation and, unless otherwise specified in this article, Charter Sections 902, 904 and 905 shall apply. At least five (5) Commission members shall be appointed from the qualified electors of the City and shall reside within the City of Freson. At least two Commission members shall be appointed from among professionals in the disciplines of architecture, history, architectural history, planning, pre-historic and historic archeology, folklore, cultural archaeology, curation, conservation,

landscape architecture or related disciplines such as urban planning, American studies, American civilization or cultural geography, to the extent that such professionals are available in the community and/or within the State of California and are willing to serve on the Commission. Commission members may also include lay persons who have demonstrated special interest, competence, experience or knowledge in historic preservation.

(b) Operation: Commissioners shall be nominated by the Mayor and confirmed by the Council. The Commissioners shall serve four (4) year terms and each shall continue to serve until his or her successor is duly appointed and qualified. Commissioners shall be appointed in such a manner that the terms of not more than four Commissioners shall expire in any year and interim appointments shall be made to fill unexpired terms in the event vacancies occur during terms. The expiration date of all terms of appointment shall be June 30th. During June of each year, the Commissioners shall elect one Commissioner as Chairperson and one Commissioner as Vice Chairperson. The Secretary and the Specialist shall serve as administrative staff to the Commission.
(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2009-29, § 1, eff. 9-3-09)

SEC. 12-1606. DUTIES AND POWERS OF THE COMMISSION.

(a) The primary duties of the Commission shall be:

(1) The identification, designation and preservation of Historic Resources and Historic Districts owned by the city or located within the city limits; and

(2) The regulation of exterior alterations visible from a public right-of-way including demolition, relocation and new construction, and interior alterations which would affect the significance of Historic Resources or Historic Districts.

(b) The Commission shall have the following additional duties and powers:

(1) Conduct studies and evaluations of applications requesting the designation of Historic Districts, make determinations and recommendations as appropriate for consideration of such applications in order to effectuate the purposes of this article.

(2) Adopt specific guidelines for the designation of Historic Resources, Historic Districts and Heritage Properties as it deems necessary to effectuate the purposes of this article.

(3) Maintain a current listing and description of designated Historic Resources, Historic Districts and Heritage Properties and transmit copies and update of such listings to all appropriate city agencies and departments as determined by the Secretary to the Commission.

(4) Develop and recommend the adoption of an Historic Preservation Element for the General Plan of the City of Fresno in accordance with the requirements of the Certified Local Government Program.

(5) Participate in environmental review procedures called for under this article or under the California Environmental Quality Act (CEQA) or under the National Environmental

Protection Act (NEPA) by providing review and comments on permit actions affecting designated Historic Resources, Historic Districts and Heritage Properties as the Commission deems appropriate.

(5.1) Make environmental determinations under the California Environmental Quality Act on any discretionary project applications the Commission considers for approval, including, but not limited to demolition permits for subject properties brought before the Commission.

(6) Review and comment upon the conduct of land use, housing, redevelopment, municipal improvement and other types of planning and programs undertaken by any agency or department of the city, county or state as they relate to designated Historic Resources, Historic Districts and Heritage Properties as the Commission deems appropriate.

(7) Establish criteria and conduct or cause to be conducted historical resource surveys of properties within the city limits in accordance with state survey standards and procedures; submit completed surveys to the Council for official adoption; and submit adopted surveys to the Office of Historic Preservation for integration into the Historic Property Data File for Fresno County maintained by that office.

(8) Recommend internal procedures to facilitate the use of such adopted historical resource surveys in planning and development processes by all relevant city agencies and departments in accordance with Certified Local Government Program requirements.

(9) Publicize, maintain and periodically update such historical resource surveys in accordance with state survey standards and procedures, including those surveys adopted prior to the award of Certified Local Government status and surveys of new areas annexed or incorporated by the city.

(10) Adopt procedural rules for the systematic review of such historical resource surveys to determine if designation proceedings should be initiated on appropriate sites. Provide for the removal of sites not found qualified for designation from the survey and from the Historic Property Data File for Fresno County maintained by the State Office of Historic Preservation if included therein.

(11) Review and make recommendations on nominations for inclusion in the California Register of Historical Resources and the National Register of Historic Places for local historic resources or districts to the chief elected local official for transmission to the State Office of Historic Preservation in accordance with procedures established by the Certified Local Government Program.

(12) Review and make recommendations on any proceedings under Section 106 of the National Historic Preservation Act pertaining to properties within the city limits and establish programmatic agreements with the State Office of Historic Preservation as the Commission deems appropriate.

(13) Review and make recommendations on historic preservation certification applications for federal tax incentives.

(14) Develop and recommend the adoption of historic preservation incentives including but not limited to conditional use permits allowing uses not otherwise permitted by the underlying zoning, Mills Act Contracts, and other programs utilized by other Certified Local Governments.

(15) Review and make recommendations on any applications to participate in local historic preservation incentive programs established in order to effectuate the purposes of this article.

(16) Prepare an annual report on the activities of the Commission to the State Office of Historic Preservation at the end of each calendar year in accordance with procedures established by the Certified Local Government Program.

(17) Ensure that each commissioner attends at least two informational or educational meetings, seminars, workshops or conferences per year in accordance with the requirements of the Certified Local Government Program.

(18) Perform any other functions consistent with the purposes herein or that may be directed by the Council from time to time.

(19) Adopt, promulgate, amend and rescind, from time to time, such rules, guidelines and regulations as the Commission may deem necessary to effectuate the purposes of this article.

(20) Provide for a suitable sign, plaque or other marker at public or private expense, on or near the Historic Resource or District (LHD or NRD), indicating that the Resource or District (LHD or NRD) has been so designated. The sign, plaque or other marker shall contain information and data deemed appropriate by the Commission and its placement shall be at the discretion of the owner.

(21) Meet not less than once a month at meetings held pursuant to public notice and open to the public.

(22) Keep minutes and records of all meetings and proceedings including voting records, attendance, resolutions, findings, determinations and decisions as a matter of public record.

(23) Render advice and guidance, upon the request of a property owner or tenant on the financial and physical aspects of the restoration, alteration, rehabilitation, landscaping or maintenance of any Historic Resource, any Contributor to any Historic District (LHD or NRD) or any Heritage Property.

(24) Investigate and report to the Council on the use of various federal, state, local or private funding sources and mechanisms available to promote historic resource preservation in the city.

(25) Participate in, promote and conduct public information, educational and interpretive programs pertaining to Historic Resources and provide for public participation in all aspects of the city's historic preservation programs.

(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2015-14, § 1, 7-16-15; Am. Ord. 2021-044, § 2, eff. 11-22-21).

SEC. 12-1607. DESIGNATION CRITERIA.

(a) HISTORIC RESOURCES: Any building, structure, object or site may be designated as an Historic Resource if it is found by the Commission and Council to meet the following criteria:

(1) It has been in existence more than fifty years and it possesses aspects of integrity to convey its significance based upon location, design, setting, materials, workmanship, feeling or association, and:

(i) It is associated with events that have made a significant contribution to the broad patterns of our history; or

(ii) It is associated with the lives of persons significant in our past; or

(iii) It embodies the distinctive characteristics of a type, period or method of construction, or represents the work of a master, or possesses high artistic values; or

(iv) It has yielded or may be likely to yield, information important in prehistory or history.

(2) It has been in existence less than fifty years, it meets the criteria of subdivision (1) of subsection (a) of this section and is of exceptional importance within the appropriate historical context, local, state or national.

(b) LOCAL HISTORIC DISTRICTS: Any finite group of resources (buildings, structures, objects or sites) may be designated as a Local Historic District if it meets the definition set forth in Section 12-1603(s) of this article, its designation is consented to by the majority of the property owners within the Local Historic District, at least fifty percent of the resources within the proposed Local Historic District are fifty years of age or older, and it is found by the Commission and Council to meet one or more of the following criteria:

(1) It exemplifies or reflects special elements of the city's cultural, social, economic, political, aesthetic, engineering, or architectural heritage, or

(2) It is identified with a person or group that contributed significantly to the culture and development of the city, or

(3) It embodies distinctive characteristics of a style, type, period or method of construction, or is a valuable example of the use of indigenous materials or craftsmanship, or

(4) Structures within the area exemplify a particular architectural style or way of life important to the city, or

(5) The area is related to a designated historic resource or district in such a way that its preservation is essential to the integrity of the designated resource or Local Historic District, or

(6) The area has potential for yielding information of archaeological interest.

(c) NATIONAL REGISTER HISTORIC DISTRICTS: The nomination of any finite group of resources (buildings, structures, objects or sites), including any Local Historic District, to the National Register of Historic Places as a National Register Historic District may be recommended under this article if it meets the definition set forth in Section 12-1603(u) of this article, meets the criteria set forth in subsection (a) of this section, and if the nomination is supported by more than fifty percent of the property owners within the proposed National Register Historic District.

(d) HERITAGE PROPERTIES: Any building, structure, object or site may be designated as a Heritage Property if it is found by the Commission to be worthy of preservation because of its historical, architectural or aesthetic merit.

(e) CONTRIBUTORS TO HISTORIC DISTRICTS: Any building, structure, object or site may be designated as Contributor to a Local Historic District or a proposed National Register Historic District if it contributes to the significance of the specific Historic District under the criteria set forth above in this section.
(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2021-044, § 3, eff. 11-22-21).

SEC. 12-1608. DESIGNATION PROCESS.

Buildings, structures, objects, sites and districts may be considered for designation as Historic Resources, Historic Districts or Heritage Properties under this article as set forth in sections 12-1608, 12-1609, 12-1610 and 12-1611.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1609. HISTORIC RESOURCES.

(a) Requests for Designation: Designation of an Historic Resource may be initiated by the Council, the Commission, the Secretary, the property owner, or an authorized representative of the owner. The application for designation consideration shall be filed with the Specialist, using a form approved by the Secretary and shall include the following information:

(1) The Assessor's Parcel Number for the property containing the building, structure, object or site proposed for designation along with the name and address of the current owner(s) of record and a copy of the deed granting title to the owner(s);

(2) Whether the proposed historic resource takes the form of a building, structure, object or site as same are defined in this article;

(3) A detailed description of the specific building, structure, object or site proposed for designation including but not limited to its dates of construction, significant alterations and architectural style;

(4) The manner in which the proposed building, structure, object or site meets the criteria for designation contained in Section 12-1607(a) of this article;

(5) Current photographs of all aspects of the proposed historic resource, supplemented by sketches, drawings or other descriptive materials;

(6) A description of the physical condition and appearance of the proposed historic resource;

(7) If the designation proposal is not being submitted by the owner, a statement acknowledging whether the owner has consented to submission of the proposal, is in opposition to the submission or has declined to state a position on the issue, however, this language shall not be interpreted as requiring owner consent to the designation of an individual resource under this section;

(8) Completed California Department of Parks and Recreation Primary Record and Building, Structure and Object forms for the proposed historic resource; and

(9) Any other information determined necessary by the Specialist to be required for a complete and adequate application.

(b) Procedural requirements in advance of hearing:

(1) The application and supporting information shall be reviewed by the Specialist for adequacy and completeness under the requirements of this section. A hearing on the application will be scheduled within 45 days of the date the Specialist determines that the application is adequate and complete or as soon thereafter as is practicable.

(2) Notice of the time, place and purpose of such hearing will be mailed to the owner of the property proposed for designation at the address shown on the latest assessment roll and published once in a local newspaper of general circulation not less than ten (10) days prior to the date of the hearing. The Secretary may also give such additional notices as he or she deems desirable and practicable.

(3) The property owner and/or any authorized representative shall be prohibited from undertaking any alteration, construction, grading, demolition or removal of such property, and no permit to undertake such work shall be issued by the city for 90 days from the date the Specialist mails the initial notice of hearing to determine historic resource designation to the property owner and/or any authorized representative. If no final action has been taken as to the historic resource designation within the 90 day period, said restrictions shall be removed unless the Commission, with the consent of the property owner and/or any authorized representative, elects to continue its consideration of the property for historic resource designation. If the Commission, with the consent of the owner and/or any authorized representative, makes such an election, said restrictions shall remain against the property until final action and the Specialist shall notify the appropriate city officials of said

restrictions. Nothing in this provision shall be construed as a prohibition or infringement on the legal use of a property pending consideration by the Commission.

The provisions of this section shall not apply to the construction, grading, alteration, demolition or removal of any structure or other feature, where a permit for the performance of such work was issued prior to the date of notice of hearing to consider the designation of the historic resource, and where such permit has not expired or been canceled or revoked, provided that construction is started and diligently pursued to completion in accordance with the Building Code.

Prior to the Commission's hearing on the designation of the property, upon application by the property owner and/or any authorized representative, the Specialist may approve a permit for alterations, construction or reconstruction consistent with the ordinary maintenance and repair of the property, to the extent that such work does not adversely affect the exterior architectural features of the property.

(4) The Specialist shall prepare a staff report for the Commission which shall also be mailed to the owner of the property and/or any authorized representative with the above-described notice of hearing.

(c) Commission Hearing:

(1) The Commission shall review all materials prepared and submitted and only members of the Commission who have physically visited and seen the proposed property may vote on the designation recommendation.

(2) At the conclusion of the hearing, the Commission shall recommend to the Council approval, disapproval or modification of the proposal for designation and make findings in support of that recommendation; or the Commission may continue the hearing.

(3) An affirmative roll call vote of a majority of the authorized membership of the Commission is required for a recommendation to the City Council.

(4) Within ten (10) days of the final Commission action, the Secretary shall send a copy of the recommendation, findings and all submitted materials to the City Clerk. The City Clerk shall place on the agenda of the Council the Commission's recommendation for Council consideration. The owner of the property shall thereafter be given notice of the time and place of the Council hearing at least ten days prior to the hearing date, together with a copy of the Commission's recommendation, findings and submitted materials to the Council.

(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1610. LOCAL HISTORIC DISTRICTS.

(a) Requests for Designation: Designation of a Local Historic District may be initiated by the Council, the Commission, or property owners within the proposed District and shall consist of an initial, preliminary submission and, if recommended by the Commission, a subsequent, formal submission.

(b) Initial Application: The initial application shall be filed with the Specialist using the form(s) approved by the Secretary and shall include the following information:

(1) Proposed District Boundaries.

(2) A Statement of how the proposed Local Historic District meets the Designation Criteria of Section 12-1607(b) of this article.

The initial application shall be the subject of a staff report and will be scheduled for a determination by the Commission as to whether the initial application should proceed to a formal application. If the Commission so recommends, a formal application shall be developed and submitted for Commission consideration at a future meeting. If the Commission does not so recommend, no further action shall be taken with respect to the proposed Local Historic District.

(c) Formal Application: The formal application for Local Historic District designation consideration must be consented to by a majority of the property owners within the proposed district. For purposes of determining whether a majority of property owners have consented, each property owner is entitled to one vote. Owners of more than one property within the proposed district are entitled to one vote per property and multiple owners of a single property are collectively entitled to one vote. The formal application shall be filed with the Specialist using the form(s) approved by the Secretary and shall include the following information:

(1) A clearly defined and explained boundary for the proposed district shown on an Assessor's Map or Maps.

(2) A concise description of the general physical or historical elements (buildings, structures, objects and sites) and qualities which make this area a Local Historic District with a description of building types, architectural styles and periods represented in the proposed district.

(3) A concise statement that clearly documents why the proposed district has significance (areas of significance that reflect the proposed district's historic importance), the period of time for which it is significant, why it substantially meets Local Historic District criteria for listing as set forth in section 12-1607(b) above and, if applicable, why it substantially meets National Register Historic District criteria for listing as set forth in section 12-1607(c) above.

(4) A definition of what types of buildings contribute and do not contribute to the significance of the proposed Local Historic District as well as an estimate of the percentage of buildings within the proposed district that do not contribute to its significance.

(5) A map illustrating all buildings in the proposed district with an identification of contributing and non-contributing resources.

(6) Photographs of streetscapes in the proposed district and the contributing and non-contributing resources.

(7) Completed Department of Parks and Recreation forms for each building, structure, object or site within the proposed Local Historic District which also identify the potential contributors and non-contributors to the district.

(8) Whether the application is seeking the designation of a Local Historic District (and thereafter the nomination of a National Register Historic District) or only the designation of a Local Historic District.

(9) The signed property owners' consent form which shall clearly indicate the name, district property address, district property parcel number and mailing address of each consenting property owner.

(10) A draft council resolution for Local Historic District designation.

(d) Procedural Requirements in advance of Hearing:

(1) The formal application and all supporting information shall be reviewed by the Specialist for adequacy and completeness under the requirements of this section. The Specialist shall be responsible for determining whether the formal application has been consented to by a majority of the property owners within the proposed district as required by this article. A hearing on the application will be scheduled within 45 days of the date the Specialist determines that the application is adequate and complete or as soon thereafter as is practicable.

(2) A copy of the formal application and notice of the time, place and purpose of such hearing will be mailed to the owners of all properties included within the district proposed for designation at the addresses shown on the latest assessment roll and published once in a local newspaper of general circulation not less than ten (10) days prior to the date of the hearing. The Secretary may also give such additional notices as he or she deems desirable and practicable.

(3) No permit shall be issued by the city for the undertaking of any alteration, construction, grading, demolition or removal of any property within a proposed historic district and all property owners and/or their representatives shall be prohibited from undertaking any such work for 90 days from the date the Specialist mails the initial notice of hearing to determine Local Historic District designation to the property owners and/or their authorized representatives. If no final action has been taken as to the proposed Local Historic District designation within the 90 day period, said restrictions shall be removed, unless the Commission, with the consent of the property owners and/or their authorized representatives, elects to continue its consideration of the Local Historic District designation. If the Commission, with the consent of the property owners and/or their authorized representatives, makes such an election, said restrictions shall remain against the properties in the proposed Local Historic District until final action and the Specialist shall notify appropriate city officials of said restrictions. Nothing in this provision shall be construed as a prohibition or infringement on the legal use of properties within the proposed historic district pending consideration by the Commission.

The provisions of this section shall not apply to the construction, grading, alteration, demolition or removal of any structure or other feature, where a permit for the

performance of such work was issued prior to the date of notice of hearing to consider the designation of the Local Historic District, and where such permit has not expired or been canceled or revoked, provided that construction is started and diligently pursued to completion in accordance with the Building Code.

Prior to the Commission's hearing on the designation of the Local Historic District, the provisions of this section shall not apply to permits for alterations, construction or reconstruction consistent with the ordinary maintenance and repair of a property, as defined in Attachment A to the June 1997 Programmatic Agreement among the city, the Advisory Council on Historic Preservation and the State Office of Historic Preservation. Upon application by any property owner or authorized representative, the Specialist shall approve such permits for alterations, construction or reconstruction to the extent that the proposed work is consistent with Attachment A and does not adversely affect the exterior architectural features of the property.

(4) The Specialist shall prepare a staff report for the Commission which shall also be mailed to the owners of all properties within the proposed Local Historic District with the above-described notice of hearing.

(e) Commission Hearing:

(1) The Commission shall review all materials prepared and submitted and only members of the Commission who have physically visited and seen the proposed Local Historic District may vote on the designation recommendation.

(2) Any property owner or his or her representative may make a presentation to the Commission on the issue of whether his or her property should be considered as a contributor or non-contributor to the proposed district and on the issue of whether or not the district should be formed.

(3) At the conclusion of the hearing, the Commission shall recommend to the Council approval, disapproval or modification of the proposal for Local Historic District designation; make findings in support of that recommendation; make findings on issues or concerns raised by any individual property owner; identify any property owner objecting to the inclusion of their property within the district; or the Commission may continue the hearing.

(4) An affirmative roll call vote of a majority of the authorized membership of the Commission is required for a recommendation to the Council.

(5) Within ten (10) days of the final Commission action, the Secretary shall send a copy of the recommendation, findings and all submitted materials to the City Clerk. The City Clerk shall place on the agenda of the Council the Commission's recommendation for Council consideration. The owners and/or authorized representatives of all of the properties within the proposed Local Historic District boundaries shall thereafter be given notice of the time and place of the Council hearing at least ten days prior to the hearing date, together with a copy of the Commission's recommendation, findings and submitted materials to the Council.

(f) Adoption of a Conservation/District Plan: After the declaration of any Historic District by the Council pursuant to section 12-1613 of this article, the applicant shall have 90 days to develop a Conservation/District Plan which will set forth the manner in which the preservation objectives of the Local Historic District will be met. Prior to approval of the Plan by the Commission, design review in other than Specific Plan areas shall be conducted by the Commission. The Plan must include but is not limited to:

(i) A statement of significance which includes a description of contributing resources and significant elements.

(ii) The goals and objectives of the proposed district.

(iii) The means by which conservation objectives will be enforced:

1. A proposed Design Review Committee with all conditions for formation, membership and operations specified;

2. The Historic Preservation Commission serving as the Design Review Committee for the Local Historic District; or

3. A Specific Plan Design Review Committee with all conditions for formation, membership and operations specified.

(iv) Identification of the standards and guidelines which will be applied to design review within the district.

(v) The activities regulated by the Conservation/District Plan which shall exclude activities determined exempt under this article.

(vi) The public education/outreach program to be conducted by the Conservation/District Plan.

(vii) The provision of an annual report to the Commission on compliance with and implementation of the Conservation/District Plan.

(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1611. NATIONAL REGISTER HISTORIC DISTRICTS

(a) Requests for Recommendation: Recommendation of a designated Local Historic District to the National Register of Historic Places, as a National Register Historic District, may be requested by more than fifty (50) percent of the property owners within such Historic District or the Commission or Council.

(b) Procedural Requirements in advance of Hearing:

(1) The recommendation application and all supporting information shall be reviewed by the Specialist for adequacy and completeness under the requirements of this article and the National Register of Historic Places. A hearing on the recommendation will be scheduled within 45 days of the date that the Specialist determines that the application is adequate and complete or as soon thereafter as is practicable.

(2) Notice of the time, place and purpose of such hearing will be mailed to the owners of all properties included within the designated Local Historic District proposed for

recommendation as a National Register Historic District at the addresses shown on the latest assessment roll and published once in a local newspaper of general circulation not less than ten (10) days prior to the date of the hearing. The Secretary may also give such additional notices as he or she deems desirable and practicable.

(3) The Specialist shall prepare a staff report for the Commission addressing the consequences and procedural requirements of listing the Local Historic District on the National Register of Historic Places as a National Register Historic District which shall also be mailed to the owners of all properties within the proposed National Register Historic District with the above described notice of hearing.

(c) Commission Hearing

(1) The Commission shall review all materials prepared and submitted and only members of the Commission who have physically visited and seen the proposed National Register Historic District may vote on the District recommendation.

(2) At the conclusion of the hearing, the Commission shall recommend to the chief elected local official and Council approval, disapproval or modification of the proposal for the National Register Historic District and make findings in support of that recommendation; or the Commission may continue the hearing.

(3) An affirmative roll call vote of a majority of the authorized membership of the Commission is required for a recommendation to the chief elected local official and Council.

(4) Within ten (10) days of the final Commission action, the Secretary shall send a copy of the recommendation, findings and all submitted materials to the chief elected local official and the City Clerk. The City Clerk shall place on the agenda of the Council the Commission's recommendation for Council consideration.

The owners of all properties within the proposed National Register Historic District boundaries shall thereafter be given notice of the time and place of the Council hearing at least ten days prior to the hearing date, together with a copy of the Commission's recommendation, findings and submitted materials to the Council.

(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1612. HERITAGE PROPERTIES.

(a) Requests for Designation: Designation of a Heritage Property may only be initiated by the property owner or an authorized representative of the owner. The application for Heritage Property designation consideration shall be filed with the Specialist, using a form approved by the Secretary and shall include the following information:

(1) The Assessor's parcel number for the property containing the building, structure, object or site proposed for designation along with the name and address of the current owner(s) of record;

(2) Whether the proposed resource takes the form of a building, structure, object or site as same, are defined in this article;

(3) A detailed description of the specific building, structure, object or site proposed for designation including its dates of construction and significant alterations and its architectural style;

(4) The manner in which the proposed building, structure, object or site meets the definition of a Heritage Property contained in Section 12-1602(n) of this article;

(5) Current photographs of all aspects of the proposed Heritage Property, supplemented by sketches, drawings or other descriptive materials;

(6) A description of the physical condition and appearance of the proposed Heritage Property;

(7) The applicant's objectives in seeking Heritage Property designation; and

(8) Any other information determined necessary by the Specialist to be required for a complete and adequate application.

(b) Procedural requirements in advance of hearing:

(1) The application and supporting information shall be reviewed by the Specialist for adequacy and completeness under the requirements of this section. A hearing on the application will be scheduled within 45 days of the date the Specialist determines that the application is adequate and complete or as soon thereafter as is practicable.

(2) At least 10 days prior to the date set therefore, notice of the time, place and purpose of such hearing will be mailed to the owner of the property proposed for designation at the address shown on the latest assessment roll. The Secretary may also give such additional notices as he or she deems desirable and practicable.

(3) The Specialist shall prepare a staff report for the Commission which shall also be mailed to the owner of the property with the above-described notice of the hearing.

(c) Commission Hearing:

(1) The Commission shall review all materials prepared and submitted and only members of the Commission who have physically visited and seen the proposed property may vote on the Heritage Property designation recommendation.

(2) At the conclusion of the hearing, the Commission shall approve, disapprove or modify the proposal for Heritage Property designation by an affirmative roll call vote of a majority of the Commissioners present.

(d) The designation of a resource as a Heritage Property, in and of itself, does not create any presumption the resource qualifies as a "historic resource" pursuant to the California Environmental Quality Act or its implementing CEQA Guidelines.

(e) The owner or their authorized representative may amend or rescind the designation of a Heritage Property in the same manner and procedure as was followed in the original designation.

(f) Notwithstanding subsection (e), a Councilmember may request that Council consider rescinding the designation of a Heritage Property by filing a letter with the Secretary to set a hearing before Council to consider the Councilmember's request. A public hearing on the matter shall be set before the Council so that it occurs within thirty (30) days of the date the letter is filed with the Secretary. The same noticing procedures set forth in subsections (b)(2) and (3) that set forth the noticing procedures for the Commission's consideration of the Heritage Property designation shall be followed, except that the staff report referenced in subsection (b)(3) shall be prepared for the Council. The Council shall rescind the designation of a Heritage Property only if it finds that the resource does not satisfy the requirements for a Heritage Property as set forth in section 12-1603(n) or that circumstances exist to make the Heritage Property designation no longer applicable. The Council decision shall be final and effective and subject to writ proceedings immediately upon Council action. Within 10 days of the Council decision, the Secretary shall mail a courtesy notice to the property owner setting forth the Council's decision. Any statute of limitations begins to run as of the date of the Council decision, not as of the date of the mailing of the courtesy notice to the property owner.

(Am. Ord. 82-137, § 3, eff. 1-21-83; Am. Ord. 87-80, § 1, eff. 7-24-87; Am. Ord. 91-125, §§ 55—61, eff. 12-20-91; Am. Ord. 2001-11, § 1, eff. 3-18-01; Am. Ord. 2008-59, § 2, eff. 11-10-08; Am. Ord. 2012-6, § 1, eff. 3-23-12; Am. Ord. 2021-044, § 4, eff. 11-22-21).

SEC. 12-1613. ADOPTION BY COUNCIL.

(a) The sole authority to declare Historic Resources or Historic Districts and to endorse Local Historic Districts to the National Register of Historic Places shall be vested in the Council and shall be exercised only after completion of the Commission's responsibilities under the designation process set forth above in section 12-1607.

(b) Within thirty days following receipt by the City Clerk of the Commission's recommendations or as soon thereafter as is practicable, a hearing shall be set by the Clerk and held by the Council. Following such hearing, the Council shall adopt, modify or reject the designation recommended by the Commission and, in the instance of a district designation, make findings as to which properties shall be considered contributors and non-contributors to the district. In the alternative, the Council may continue its consideration of the matter, or, in the event that new information is presented, refer the proposed designation to the Commission for further hearings, consideration or study within a period of time designated by Council. Adoption of the designation shall be made by resolution which shall contain findings of fact as specified in Section 12-1607.

(c) Within ten days of the Council's designation decision, notice thereof shall be mailed by the Secretary to the owner of record of each property proposed for designation at the address shown on the latest assessment roll and to such other persons that the Secretary may deem

appropriate, and shall be recorded with the County Recorder. Such notice shall include the basis for any historical designation, a summary of the regulations which result from such designation and a copy of project activities which are exempt from regulation under this article.

(d) No proposal for designation once considered and disapproved by the Council shall be reconsidered except upon the affirmative vote of four Council members. Any decision to reconsider shall be treated as a new proposal for designation pursuant to Sections 12-1608, 12-1609, 12-1610 or 12-1611 of this article.

(e) The Development Department shall provide the Commission and City Council annual status reports at public meetings on all facilities placed on the National, State, County, and City/Local Register in the prior year.
(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2021-044, § 5, eff. 11-22-21).

SEC. 12-1614. AMENDMENT OR RESCISSION OF DESIGNATION.

The Historic Preservation Commission may amend or rescind any designation of an Historic Resource, an Historic District, a contributor to an Historic District or a non-contributor to an Historic District in the same manner and procedure as was followed in the original designation. This action shall result from new information, the discovery of earlier misinformation or change of original circumstances, conditions or factors which justified the designation of the Resource or District.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1615. LOCAL REGISTER OF HISTORIC RESOURCES.

Resolutions adopting designations of Historic Resources and Local Historic Districts shall collectively be known as the Local Register of Historic Resources. The local register shall be kept on file with the Secretary, who shall transmit copies to the City Clerk, and to the Development Director, the Public Works Director, the Fire Chief, the Chief of Police, the Director of the Fresno City and County Historical Society, and the main branch of the Fresno County Library.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1616. DELETION OF DEMOLISHED, RELOCATED OR RESCINDED DESIGNATED HISTORIC RESOURCES.

When a designated Historic Resource has been demolished or relocated outside the city limits or when its designation has been rescinded pursuant to the provisions of this article, the Secretary, upon notice thereof, shall cause such resource to be deleted from the Local Register of Historic Resources and from the Historic Property Data File for Fresno County maintained by the State Office of Historic Preservation. The Secretary shall also cause a

Rescission of Designation to be recorded with the County Recorder. Upon such deletions and such rescission, the provisions of this article shall not be deemed to encumber or otherwise restrict the use of such property.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1617. HISTORIC RESOURCE PERMIT REVIEW PROCESS.

(a) It shall be unlawful for any person, corporation, association, partnership or other legal entity to directly or indirectly alter, remodel, demolish, grade, remove, construct, reconstruct or restore any Historic Resource without first obtaining a city permit and the written approval of the Historic Preservation Commission. An Historic Resource shall not be eligible for "at risk" development under Fresno Municipal Code Chapter 12, Article 22.

(b) Upon receipt of an application or proposal for a demolition, grading, removal or building permit for any Historic Resource, the City department or agency receiving same shall, within five calendar days, notify the Secretary and forward said permit application or proposal and accompanying documentation to the Secretary and shall not process the application or proposal without the authorization of the Specialist. Also, written notice shall be provided to all property owners within a 2,000 foot radius of the subject property, measured from property line to property line, and to the Councilmember for the applicable District, of the application at least fourteen days prior to any scheduled hearing before the Commission. The Director of the Development Department may approve, in the name of the Commission, non-substantial alterations to the Historic Resource based on the application presented.

(c) Any application or proposal which proposes the substantial alteration of an Historic Resource shall also be referred to the Director of the Development Department for environmental review. No hearing shall be held by the Commission for applications or proposals to demolish, grade, remove or substantially alter the Historic Resource until such application or proposal has undergone environmental review in accordance with the California Environmental Quality Act.

(d) Nothing in this section shall be construed to prevent the ordinary maintenance or repair of any exterior architectural feature in or on any Historic Resource covered by this article that does not involve a change in design, materials or external appearance.

(e) Nothing in this section shall be construed to prevent the Director of the Development Department from issuing a building permit if he or she determines that demolition, removal or substantial alteration of the Historic Resource is immediately necessary to protect the public health, safety or general welfare.

(f) Upon completion of any required environmental review and thirty (30) calendar days prior to a scheduled hearing, the owner or applicant shall provide whatever detailed information (plans, drawings, agreements, etc.) is required or necessary to describe the intended work. The Specialist may require additional information determined to be

necessary for the Commission to act on the matter. The Specialist shall refer the matter to the Commission with a report and recommendation which is accompanied by the final environmental document.

(g) After consideration of the final environmental document, all evidence and testimony, the Commission shall have the authority to approve, deny or approve with modifications, any application or proposal.

(h) No application or proposal shall be approved or approved with modifications unless the Commission makes the following findings:

(1) The proposed work is found to be consistent with the purposes of this article and the Secretary of the Interior's Standards, not detrimental to the special historical, architectural or aesthetic interest or value of the Historic Resource; or

(2) The action proposed is necessary to correct an unsafe or dangerous condition on the property; or

(3) Denial of the application will result in unreasonable economic hardship to the owner. In order to approve the application, the Commission must find facts and circumstances, not of the applicant's own making, which establish that there are no feasible measures that can be taken that will enable the property owner to make a reasonable economic beneficial use of the property or derive a reasonable economic return from the property in its current form; or

(4) The site is required for a public use which will directly benefit the public health, safety and welfare and will be of more benefit to the public than the Historic Resource.

(5) For applications for relocation of an Historic Resource, the Commission shall find that one or more of the above conditions exist, that relocation will not destroy the historical, architectural or aesthetic value of the Resource and that the relocation is part of a definitive series of actions which will assure the preservation of the Resource.

(i) Any finding that denial of the application or proposal will result unreasonable economic hardship to the owner, pursuant to Section 12-1617(h)(3) above, may be based upon the application of the following factors:

(1) Any economic feasibility analysis conducted pursuant to this section shall include the determination of an "after-rehabilitation" value of the property calculated on an income approach utilizing the capitalization rate determined appropriate by the Director of the Development Department. This "after-rehabilitation" value shall be determined in the following manner:

(i) The potential residential or commercial rental rate(s) which could be generated by the property after an appropriate rehabilitation shall be determined by a review of current market rates for comparable properties within comparable neighborhoods.

(ii) The potential annual net income that could be generated by the property after an appropriate rehabilitation, taking into consideration standard vacancy and expense factors, shall be determined.

(iii) The appropriate capitalization rate shall be applied to the potential annual net income to determine the "after-rehabilitation" value of the property.

(2) The fair market value of the land, exclusive of improvements and without development restrictions pursuant to this ordinance, shall be determined by a standard appraisal.

(3) The monetary cost of an appropriate rehabilitation of the resource, in accordance with the standards of this ordinance, shall be determined by professionals qualified to make such a determination.

(4) If the fair market value of the land, combined with the costs of rehabilitation, exceed the "after-rehabilitation" value of the property by more than twenty percent, the Commission shall find that denial of the application will result in an unreasonable economic hardship to the owner.

(j) If the Commission determines a permit should not be issued for the demolition, alteration, relocation or new construction, or the Council on appeal concurs, a new application affecting the same property may be submitted during the twelve (12) month period after the disapproval only if a substantial change is made in the plans for the project.

(k) The Specialist shall give written notice of the decision regarding the regulated permit to the property owner/applicant, the Director of the Development Department, the Councilmember for the applicable Council District, and the Mayor. The notice shall contain the Commission's findings in support thereof.
(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2021-044, § 6, eff. 11-22-21).

SEC. 12-1618. HISTORIC DISTRICT PERMIT REVIEW PROCESS.

(a) It shall be unlawful for any person, corporation, association, partnership or other legal entity to directly or indirectly alter, remodel, demolish, grade, remove, construct, reconstruct or restore any property within any Historic District without first obtaining a city permit, review by the appropriate Design Review Committee and the written approval of the Historic Preservation Commission.

(b) Upon receipt of an application or proposal for a demolition, grading, removal or building permit for any property within any Historic District, the city department or agency receiving same shall, within five (5) calendar days, notify the Secretary and forward said permit application or proposal and accompanying documentation to the Secretary and shall not process the permit or proposal without the authorization of the Specialist. The Specialist may approve, in the name of the Commission, non-substantial alterations to the property based on the application presented.

(c) Any application which proposes the substantial alteration of any property within any Historic District shall also be referred to the Director of the Development Department for environmental review. No hearing shall be held by the Commission for applications which propose to demolish, grade, remove or substantially alter a property within any Historic District until such proposal has undergone environmental review in accordance with the California Environmental Quality Act.

(d) Nothing in this section shall be construed to prevent the ordinary maintenance or repair of any exterior architectural feature in or on any property covered by this article that does not involve a change in design, materials or external appearance.

(e) Nothing in this section shall be construed to prevent the Director of the Development Department from issuing a building permit if he or she determines that demolition, removal or substantial alteration of a property within any Historic District is immediately necessary to protect the public health, safety or general welfare.

(f) Upon completion of any required environmental review and thirty (30) calendar days prior to a scheduled hearing, the owner or applicant shall provide whatever detailed information (plans, drawings, agreements, etc.) is required or necessary to describe the intended work. The Specialist may require additional information determined to be necessary for the Commission to act on the matter. The Specialist shall refer the matter to the Commission with a report and recommendation which is accompanied by the final environmental document.

(g) After consideration of the final environmental document, all evidence and testimony, the Commission shall have the authority to approve, deny or approve with modifications, any proposed application or permit application.

(h) No application shall be approved or approved with modifications unless the Commission makes the following findings:

(1) For a Contributor to any Historic District, the proposed work is found to be consistent with the general purposes of this article and the Secretary of the Interior's Standards, not detrimental to the special historical, architectural or aesthetic interest or value of the Contributor or the respective Historic District in general and consistent with the District's adopted design standards; or

(2) For a Non-Contributor to any Historic District, the proposed work is found not detrimental to the historical or architectural values of the respective Historic District in general and consistent with the District's adopted design standards; or

(3) For new in-fill construction within any Historic District, the proposed work is found not detrimental to the historical or architectural values of the respective Historic District in general and consistent with the District's adopted design standards; or

(4) The action proposed is necessary to correct an unsafe or dangerous condition on the property; or

(5) Denial of the application will result in unreasonable economic hardship to the owner. In order to approve the application, the Commission must find facts and circumstances, not of the applicant's own making, which establish that there are no feasible measures that can be taken that will enable the property owner to make a reasonable economic beneficial use of the property or derive a reasonable economic return from the property in its current form; or

(6) The site is required for a public use which will directly benefit the public health, safety and welfare and will be of more benefit to the public than the Contributor to the respective Historic District.

(7) For applications for relocation of a Contributor from any Historic District, the Commission shall find that one or more of the above conditions exist, that relocation will not destroy the historical, architectural or aesthetic value of the resource and that the relocation is part of a definitive series of actions which will assure the preservation of the resource.

(i) Any finding that denial of the permit application will result in unreasonable economic hardship to the owner, pursuant to Section 12-1618(h)(5) above, may be based upon the application of the following factors:

(1) Any economic feasibility analysis conducted pursuant to this section shall include the determination of an "after-rehabilitation" value of the property calculated on an income approach utilizing the capitalization rate determined appropriate by the Director of the Development Department. This "after-rehabilitation" value shall be determined in the following manner:

(i) The potential residential or commercial rental rate(s) which could be generated by the property after an appropriate rehabilitation shall be determined by a review of current market rates for comparable properties within comparable neighborhoods.

(ii) The potential annual net income that could be generated by the property after an appropriate rehabilitation, taking into consideration standard vacancy and expense factors, shall be determined.

(iii) The appropriate capitalization rate shall be applied to the potential annual net income to determine the "after-rehabilitation" value of the property.

(2) The fair market value of the land, exclusive of improvements and without development restrictions pursuant to this ordinance, shall be determined by a standard appraisal.

(3) The monetary cost of an appropriate rehabilitation of the resource, in accordance with the standards of this ordinance, shall be determined by professionals qualified to make such a determination.

(4) If the fair market value of the land, combined with the costs of rehabilitation, exceed the "after-rehabilitation" value of the property by more than twenty percent, the Commission shall find that denial of the application will result in an unreasonable economic hardship to the owner.

(j) A decision relating to the approval with modifications or disapproval of an application for any permit may be appealed pursuant to this article.

(k) If the Commission determines a permit should not be issued for the demolition, alteration, relocation or new construction, or the City Council on appeal concurs, a new application affecting the same property may be submitted during the twelve (12) month period after the disapproval only if a substantial change is made in the plans for the project.

(l) The Specialist shall give written notice of the decision regarding the regulated permit to the property owner/applicant, the Director of the Development Department, the Councilmember for the applicable Council District, and the Mayor. The notice shall contain the Commission's findings in support thereof.
(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2021-044, § 7, eff. 11-22-21).

SEC. 12-1619. HERITAGE PROPERTY PERMIT REVIEW PROCESS.

(a) It shall be unlawful for any person, corporation, association, partnership or other legal entity to directly or indirectly alter, remodel, demolish, grade, remove, construct, reconstruct or restore the Heritage Property without first obtaining a city permit and the written approval of the Historic Preservation Commission.

(b) Upon receipt of an application or proposal for a demolition, grading, removal or building permit for a Heritage Property, the city department or agency receiving same shall, within five (5) calendar days, notify the Secretary and forward said permit application or proposal and accompanying documentation to the Specialist and shall not process the permit or proposal without the authorization of the Specialist. The Specialist may approve, in the name of the Commission, non-substantial alterations to the Heritage Property based on the application presented.

(c) Nothing in this section shall be construed to prevent the ordinary maintenance or repair of any exterior architectural feature in or on any property covered by this section that does not involve a change in design, materials or external appearance.

(d) Nothing in this section shall be construed to prevent the Director of Development from issuing the appropriate permit if he or she determines that demolition, removal or substantial alteration of the Heritage Property is immediately necessary to protect the public health, safety or general welfare.

(e) The State Historical Building Code may be used, in conjunction with any other applicable codes, for any rehabilitation and/or improvements to the Heritage Property as deemed appropriate by the Director of Development.

(f) The Heritage Property may be brought before the Commission for designation as a Historic Resource in accordance with the provisions of Section 12-1608 of this article and, if so designated, the property shall thereafter be subject to all provisions pertaining to designated Historic Resources under this article.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1620. APPEAL PROCEDURE.

(a) Any decision of the Commission may be appealed to the Council by the property owner, the Councilmember for the applicable Council District, or the Mayor not later than twenty days following service by mail by the Specialist of the notice of decision and findings on the property owner and written notice to the Councilmember for the applicable Council District and Mayor. Service of the notice of decision shall be deemed complete on the date of mailing to the property owner. Such appeal shall be taken by the Councilmember for the applicable Council District or the Mayor by notifying the Director of the Development Department in writing, or by the property owner by filing a notice of appeal in duplicate, in the following format, with the Secretary who shall forthwith transmit to the City Clerk all papers and documents on file with the Secretary relating to the appeal:

(1) A caption reading "Appeal of _____" giving the name and address of the applicant;

(2) A brief description of the specific order, decision or determination being appealed;

(3) A statement of the relief sought;

(4) The reasons why such relief should be granted.

(b) The City Clerk shall cause the appeal to be set for hearing before the Council within thirty days of receipt of the notice of appeal. Not later than ten days prior to the date of the hearing on the appeal, the City Clerk shall notify the appellant(s) and all persons requesting such information in writing, of the date, time and location of the appeal.

(c) On appeal, the matter shall be considered de novo by the Council, and the failure to obtain a majority vote for approval of an application shall constitute a denial of the application. Following consideration of the appeal, the Council may approve, disapprove or approve with modifications the application, or may refer the appeal to the Commission for further consideration.
(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2021-044, § 8, eff. 11-22-21).

SEC. 12-1621. FINALITY OF DECISION.

Any decision of the Council under this article shall be final. Any decision of the Commission under this article shall become final if no appeal is taken from such order or decision within the time limits prescribed by the applicable appeal provision of this article.

No permit regulated by the provisions of this article shall issue, nor shall any rights vest therein, until the decision of the Commission is final or any appeal therefrom is disposed of in the manner prescribed by this article.
(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2021-044, § 9, eff. 11-22-21).

SEC. 12-1622. SUBSTANDARD BUILDINGS.

(a) The Director of Development or the Fire Marshal shall notify the Secretary whenever such official declares an Historic Resource or any property within an Historic District to be a substandard or unsafe building or structure pursuant to the Fresno Municipal Code, state or federal law.

(b) Upon receipt of notice from the Director of Development or the Fire Marshal, the Commission shall evaluate the historic and architectural merit of the Resource or property, and shall submit an advisory report to the Director of Development or Fire Marshal within thirty (30) days.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1623. ADVICE AND GUIDANCE TO PROPERTY OWNERS.

The Commission may render advice and guidance with respect to any proposed work not requiring a city permit on any designated Historic Resource or any property within any Historic District.

Examples of work referred to above are: Painting and repainting of exterior surfaces; fencing; landscaping; and, installation of lighting fixtures. In rendering such advice and guidance, the Commission shall be guided by the purposes and standards of this article.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1624. PROPERTY OWNED BY PUBLIC AGENCIES.

The Commission shall take appropriate steps to notify all public agencies and public utilities which own or may acquire property, including easements and public rights-of-way, in the city about the existence and character of designated Historic Resources and Historic Districts, and the Commission shall cause a current record of such Resources and Districts to be maintained with each such public agency and public utility. All such designated Resources and Districts shall be subject to the provisions of this article regardless of ownership.

In the case of publicly owned properties which are not subject to the permit review procedures of the city, including this article, but are more than fifty (50) years of age or are located within any Historic District, the agency owning the said property is encouraged to seek the advice of the Commission prior to approval or authorization of any construction, alteration, or demolition thereon, including the use and placement of street furniture, signs, lighting, and landscaping; and, the Commission shall render a report to the owner as expeditiously as possible, based on the purposes and standards in this article. If Commission

review of a public project involving construction, alteration, or demolition of any building, structure, object or site is required under any other law, the Commission may render the report referred to in this section to such public agencies without specific request therefor.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1625. FIRE AND BUILDING CODE.

Issuance of a permit in conformance with this article shall not alter conformance requirements with the other standards and requirements of this chapter. The Director of Development and the Fire Marshal shall liberally construe and apply all pertinent codes, including the State Historical Building Code and the Uniform Building Conservation Code so as to effectuate the purposes of this article.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1626. MINIMUM MAINTENANCE.

(a) All designated Historic Resources including Contributors to any Historic District shall be preserved against decay and deterioration, kept in a state of good repair and free from structural defects. The purpose of this section is to prevent an owner or other person having legal custody and control over a property from facilitating demolition of a Historic Resource by neglecting it and by permitting damage to it by weather and vandalism.

(b) Consistent with all other state and city codes requiring that buildings and structures be kept in good repair, the owner or other person having legal custody and control of a property shall repair such building or structure if it is found to have any of the following defects:

(1) Building elements so attached that they may fall and injure members of the public or property.

(2) Deteriorated or inadequate foundation.

(3) Defective or deteriorated flooring.

(4) Members of walls, partitions or other vertical supports that split, lean, list or buckle due to defective material or deterioration.

(5) Members of ceilings, roofs, ceiling or roof supports or other horizontal members which sag, split or buckle due to defective materials or deterioration.

(6) Fireplaces or chimneys which list, bulge or settle due to defective material or deterioration.

(7) Deteriorated, crumbling or loose exterior plaster.

(8) Deteriorated or ineffective waterproofing of exterior walls, roofs, foundations or floors, including broken windows or doors.

(9) Defective or lack of weather protection for exterior wall coverings, including lack of paint, or weathering due to lack of paint or other protective covering.

(10) Any fault, defect or deterioration in the building which renders it structurally unsafe or not properly watertight.

(c) If the Commission has reason to believe that a Resource is being neglected and subject to damage from weather or vandalism, the Commission shall direct staff to meet with the owner or other person having legal custody and control of the Resource and to discuss with them the ways to improve the condition of the property. If no attempt or insufficient effort is made to correct any noted conditions thereafter, the Commission may, at a noticed public hearing, make a formal request that the Development Department or other appropriate department or agency take action to require corrections of defects in the subject Resource in order that such Resource may be preserved in accordance with this article.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1627. STATUS OF PROPERTIES PREVIOUSLY DESIGNATED.

(a) All Historic Resources and Historic Districts previously designated under Article 16 of Chapter 12 of the Fresno Municipal Code shall retain such status for a period of 30 days from the date of passage of this article, at which time they will automatically be redesignated pursuant to the provisions of and subject to the terms of this article.

(b) Historic Resources and Contributors to Historic Districts which have an application for a regulated permit on file at the time this article becomes effective shall remain in the regulatory scheme established by the version of this article in effect at the time application was made for such regulated permit.
(Added Ord. 99-50, §§ 1, 2, 9-9-99).

SEC. 12-1628. CIVIL AND CRIMINAL PENALTIES.

It shall be unlawful for any person to permit or maintain violations of any of the provisions of this article by undertaking the alteration, grading, removal, demolition or partial demolition of an Historic Resource or a building, structure, object or site within a Historic District without first obtaining the written approval of the Specialist, Commission or Council as provided in this article, or to defy any order or decision rendered by the Specialist, Commission or Council. Any violations of this article may be enforced as provided in this Code, including prosecution of violations as a misdemeanor with maximum penalties as provided in the Fresno City Charter, and administrative citations issued pursuant to this Code, wherein the administrative penalty imposed shall be up to $100,000 for each violation. As part of any enforcement proceeding, violators may be required to reasonably restore the building, structure, object or site to its appearance or condition prior to the violation, under the guidance of the Development Department. Additionally, all available legal remedies may be pursued by the City Attorney.
(Added Ord. 99-50, §§ 1, 2, 9-9-99; Am. Ord. 2021-044, § 10, eff. 11-22-21).

SEC. 12-1629. SEVERABILITY.

(a) If any section, sentence, clause or phrase of this article is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portion of this article. The Council hereby

declares that it would have passed this ordinance and adopted this article and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional.
(Added Ord. 99-50, §§ 1, 2, 9-9-99)

SEC. 12-1701. TITLE.

This article shall be known as the "Mills Act Program."
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1702. FINDINGS AND PURPOSE.

Pursuant to California Government Code Sections 50280-50290, the City may contract with an owner or agent of the owner of any qualified historical property provided the contract meets the requirements of Sections 50281 and 50282. Pursuant to Article 1.9 of the California Revenue and Taxation Code, historical properties that are "restricted" by the type of contracts referenced in the previous sentence shall be reassessed by the County Assessor in a manner that may result in lower real property taxes. The purpose of this article is to implement state law permitting the approval of such Historical Property Contracts by establishing a uniform procedure for the owners of qualified historic properties within the City to follow when applying for approval of Historical Property Contracts.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1703. CONTRACTS TO RESTRICT USE OF QUALIFIED HISTORICAL PROPERTY.

Upon the application of an owner or the agent of an owner of any qualified historical property, the city may contract with the owner to restrict the use of the property for its preservation, restoration, and rehabilitation as set forth in Section 12-1704 to carry out the purposes of this article and of Article 1.9 (commencing with Section 439) of Chapter 3 of Part 2 of Division 1 of the Revenue and Taxation Code. The contract shall meet the requirements of this article and Government Code Sections 50280-50290.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1704. QUALIFIED HISTORICAL PROPERTY.

(a) "Qualified historical property" for purposes of this article, means privately owned property within the City of Fresno, which is not exempt from property taxation and which meets either of the following:

(1) The property is listed in the National Register of Historic Places or located in a registered historic district, as defined in Title 26 of the Code of Federal Regulations.

(2) The property is listed in any state, city, county, or city and county official register of historical or architecturally significant sites, places, or landmarks.

(b) "Qualified historical property" for the purposes of this article, does not include "Heritage Properties" as defined by Fresno Municipal Code Section 12-1603(n).
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1705. REQUIRED CONTRACT PROVISIONS.

Any contract entered into under this article shall contain the following provisions:

(a) A minimum term of ten years;

(b) A provision obligating the owner to preserve and, when necessary, restore and rehabilitate the property to conform to the rules and regulations of the Office of Historic Preservation of the Department of Parks and Recreation, the Secretary of the Interior's Standards for the Treatment of Historic Properties, and the State Historical Building Code;

(c) A provision granting city officials permission to inspect the interior and exterior of the premises, prior to the execution of a new contract, and every five years thereafter, to determine the owner's continued compliance with the contract;

(d) A provision binding all successors in interest of the owner to the benefits and burdens of the contract;

(e) Automatic annual renewal(s) of the contract, absent timely written notice of nonrenewal by the owner or the city, as discussed in Section 12-1709, and prescribed by Government Code Section 50282(a);

(f) A provision requiring the owner furnish the city with any information the city requests in order to enable the city to determine the eligibility of the property involved; and

(g) A provision requiring the owner or agent of the owner to provide written notice of the contract to the Office of Historic Preservation within six months of entering into the contract.

The Development and Resource Management Department shall maintain a sample "Historical Property Contract" containing all required provisions specified by this article and Government Code Sections 50280-50290. Contracts submitted on the city's form shall be deemed to contain all provisions necessary for a Historical Property Contract with the city.

Additional provisions desired by the owner or the agent of the owner shall be subject to approval by the Director of the Development and Resource Management Department and the City Attorney.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1706. APPLICATION PROCEDURE.

Applications to the city shall be initially evaluated and reviewed by the Historic Preservation Commission. The Historic Preservation Commission shall hold a public hearing on every application for a Historical Property Contract. The public hearing shall be scheduled for a date not less than ten days but not more than ninety days from the date the application is filed. After the hearing, the Historic Preservation Commission shall recommend to the Director of the Development and Resource Management Department that the application be denied, granted in whole or in part, or modified subject to such conditions as it deems appropriate. The Director of the Development and Resource Management Department may, in the Director's discretion, enter into Historical Property Contracts if all of the conditions of this article are met. The Director of the Development and Resource Management Department shall be responsible for assuring performance of the Historical Preservation Contracts including contract administration, extension, cancellation, and enforcement.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1707. RIGHT OF APPEAL.

The decision of the Director of the Development and Resource Management Department may be appealed to the City Council within ten days. Hearings before the City Council shall be scheduled by the City Clerk for a date not less than ten days but not more than ninety days from the date the appeal is filed.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1708. FEES.

As a condition of entering into the Historic Preservation Contract, the City may require the property owner to pay an application and processing fee to the City of Fresno prior to processing the application. Such fee, if any, shall be limited to the reasonable cost of administrating the Mills Act Program, and shall be provided for in the Master Fee Schedule.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1709. EXTENSION OR NON-RENEWAL OF CONTRACT; RECORDATION; AND NOTICE OF CONTRACT.

(a) Each contract shall provide that on the anniversary date of the contract or such other annual date as is specified in the contract, a year shall be added automatically to the initial term of the contract unless notice of nonrenewal is given as provided in this section. If the property owner or the city desires in any year not to renew the contract, that party shall serve written notice of nonrenewal of the contract on the other party in advance of the

annual renewal date of the contract. Unless the notice is served by the owner at least ninety days prior to the renewal date or by the city at least sixty days prior to the renewal date, one year shall automatically be added to the term of the contract.

(b) Upon receipt by the owner of a notice from the city of nonrenewal, the owner may make a written protest of the notice of nonrenewal. The city may, at any time prior to the renewal date, withdraw the notice of nonrenewal.

(c) If the city or the owner serves notice of intent in any year not to renew the contract, the existing contract shall remain in effect for the balance of the period remaining since the original execution or the last renewal of the contract, as the case may be.

(d) The owner shall furnish the city with any information the city shall require in order to enable it to determine the eligibility of the property involved.

(e) No later than twenty days after the city enters into a contract with an owner pursuant to this article, the City Clerk shall record with the County Recorder a copy of the contract, which shall describe the property subject thereto. From and after the time of the recordation, this contract shall impart a notice thereof to all persons as is afforded by the recording laws of this state.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1710. CANCELLATION OF CONTRACT FOR OWNER'S BREACH.

The city may cancel a contract if it determines that the owner has breached any of the conditions of the contract provided for in this article or has allowed the property to deteriorate to the point that it no longer meets the standards for a qualified historical property. The city may also cancel a contract if it determines that the owner has failed to restore or rehabilitate the property in the manner specified in the contract.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1711. NOTICE AND HEARING BEFORE CANCELLATION OF CONTRACT.

No contract shall be canceled under Section 12-1710 until after the city has given notice of, and has held, a public hearing on the matter. Notice of the hearing shall be mailed to the last known address of each owner of property within the historic zone and shall be published pursuant to Government Code Sections 6060 and 6061.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1712. CANCELLATION FEE.

(a) If a contract is canceled under Section 12-1710, the owner shall pay a cancellation fee equal to twelve and one-half percent of the current fair market value of the property, as determined by the County Assessor as though the property were free of the contractual restriction. (Gov. Code, § 50286(a).)

(b) The cancellation fee shall be paid to the County Auditor, at the time and in the manner that the County Auditor shall prescribe, and shall be allocated by the County Auditor to each jurisdiction in the tax rate area in which the property is located in the same manner as the County Auditor allocates the annual tax increment in that tax rate area in that fiscal year.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1713. ACTION TO ENFORCE CONTRACT.

As an alternative to cancellation of the contract for breach of any condition, the city, or any landowner that is a party to the contract may bring any action in court necessary to enforce a contract, including, but not limited to, an action to enforce the contract by specific performance or injunction.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1714. NULLIFICATION OF CONTRACT ON ACQUISITION OF PROPERTY BY EMINENT DOMAIN.

In the event that property subject to contract under this article is acquired in whole or in part by eminent domain or other acquisition by any entity authorized to exercise the power of eminent domain, and the acquisition is determined by the city to frustrate the purpose of the contract, such contract shall be canceled and no fee shall be imposed under Section 12-1712. Such contract shall be deemed null and void for all purposes of determining the value of the property so acquired.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1715. CONSULTANT.

The city and owners of qualified historical properties may consult with the Historic Preservation Commission for its advice and counsel on matters relevant to historical property contracts.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1716. IMPLEMENTING RULES AND REGULATIONS.

The Director of the Development and Resource Management Department may make such rules and regulations, as are not inconsistent with the provisions of this article, and as may be necessary or desirable to aid in the implementation of the Mills Act Program and in the administration and enforcement of the provisions of this article.
(Added Ord. 2016-51, § 1, eff. 1-15-17).

SEC. 12-1901. PURPOSE.

The Council hereby declares and finds that the development of land for urban uses substantially accelerates the concentration of surface and storm waters and that it is necessary to provide for the construction of and establish and collect drainage fees to defray all or a part of the actual or the estimated cost of constructing planned local drainage facilities for the removal of surface and storm waters from local drainage areas in order to promote and protect the public safety, peace, comfort, and convenience and the general welfare, and for the accomplishment of the purposes more particularly set forth as follows:

(a) To provide for planned local drainage facilities within the city required for the removal of surface and storm waters from local drainage areas.

(b) To provide for an alternate method of financing construction of planned local drainage facilities within local drainage areas.

(c) To provide a source of information regarding development of planned local drainage facilities for present and prospective residents, developers, and investors in property within the various local drainage areas.

(d) To obviate the menace to public safety arising from inadequate provision for removal of surface and storm waters occurring as the result of development of property within local drainage areas.

(e) To prevent deterioration of property values and impairment of conditions making for desirable residential, commercial or industrial development, as the case may be, which would result from the failure to construct planned local drainage facilities.

(f) To prevent deterioration of public streets and other public facilities which would result from failure to construct planned local drainage facilities.

(g) To provide for collection of local drainage fees for construction of planned local drainage facilities within any local drainage area at the time of the division of land, as authorized by Section 66483 of the Government Code of California and the provisions of this Code, or at the time of other development thereof, except as herein excepted, such fees being, however, subject to credits as herein provided for revenues, assessments and other receipts theretofore collected with respect to any such parcel or parcels of land for construction of planned local drainage facilities within any local drainage area. (Am. Ord. 79-178, § 1, eff. 12-7-79).

SEC. 12-1902. DEFINITIONS.

Unless the particular provisions or the context otherwise requires, the definitions contained in this article shall govern the construction, meaning, and application of the words and phrases defined, and their derivatives and derivatives therefrom wherever applicable, whenever used in this article. (Am. Ord. 79-178, § 2, eff. 12-7-79).

SEC. 12-1903. DEVELOPMENT.

"Development," as used in this article, means any building, structure, or other improvement or the construction, erection, or installation thereof, in, over or upon any parcel of land. "Development" does not include any temporary building, structure or other improvement, or the construction, erection or installation thereof, which under the terms of any permit issued therefor or the provisions of this Code or pursuant to such other assurance as the Director may require, may be maintained not to exceed one year or, if erected or installed for use in the performance of the work of a construction project, until completion of such work. The term "improvement" shall include, without limitation, any development activity which, as determined by the Director, materially alters the natural surface of the land or restricts the imperviousness of the soil and includes without limitation paving (concrete, asphalt, oil or other means of soil stabilization) and landscaping. (Am. Ord. 79-178, § 3, eff. 12-7-79, formerly § 13-1302.6).

SEC. 12-1904. DIRECTOR.

"Director," as used in this article, means the Director of the Development Department of the city. (Am. Ord. 79-178, § 4, eff. 12-7-79; formerly § 13-1302.12; Am. Ord. 83-95, § 1, eff. 7-29-83).

SEC. 12-1905. DISTRICT.

"District," as used in this article, means the Fresno Metropolitan Flood Control District. (Am. Ord. 79-178, § 5, eff. 12-7-79, formerly § 13-1302.1).

SEC. 12-1906. DIVISION.

"Division," as used in this article, means the dividing of any parcel of land into one or more lots or parcels, including, but not limited to, a division as described in Section 12-1203 of this Code, or any parcel of land which has been so divided. (Am. Ord. 79-178, § 6, eff. 12-7-79, formerly § 13-1302.7).

SEC. 12-1907. GROSS ACREAGE.

"Gross acreage," as used in this article, means the area of a parcel of land, or the area of a proposed division, including those portions designated for streets and alleys and including those portions of all abutting streets and alleys measured to the center lines thereof or to a line parallel with and thirty feet from the property line, whichever shall be the lesser. In the case of a single-family residential use occupying a corner parcel, the area of the street abutting the shortest side of such parcel, or one side in the case of a square parcel, shall not be included. (Am. Ord. 79-178, § 7, eff. 12-7-79, formerly § 13-1302.10).

SEC. 12-1908. LOCAL DRAINAGE AREA.

"Local drainage area," as used in this article, means a particular drainage area for which planned local drainage facilities for the collection and removal of surface and storm waters therefrom, and the total estimated costs of constructing such facilities, are set forth in a local drainage plan. (Am. Ord. 79-178, § 8, eff. 12-7-79, formerly § 13-1302.2).

SEC. 12-1909. LOCAL DRAINAGE FEES.

"Local drainage fees," as used in this article, means fees established and levied as provided in this article to pay all or a part of the costs of planned local drainage facilities and their appurtenances. (Am. Ord. 79-178, § 9, eff. 12-7-79, formerly § 13-1302.5).

SEC. 12-1910. LOCAL DRAINAGE PLAN.

"Local drainage plan," as used in this article, means the Storm Drainage Master Plan, a component of the conservation and public facilities element to the 1974 Fresno-Clovis Metropolitan Area General Plan adopted by the Council, such plan delineating therein a plan for each local drainage area which contains an estimate of the total costs of constructing the local drainage facilities required by the plan, together with their appurtenances, and a map of the local drainage area showing generally its boundaries and the location of the planned local drainage facilities. (Am. Ord. 79-178, § 10, eff. 12-7-79, formerly § 13-1302.3).

SEC. 12-1911. MANAGER.

"Manager," as used in this article, means the person duly employed to act, and acting, as the Manager of the District. (Am. Ord. 79-178, § 11, eff. 12-7-79, formerly § 13-1302.11).

SEC. 12-1912. PARCEL OF LAND.

"Parcel of land," as used in this article, means any real property, improved or unimproved, shown on the latest equalized county assessment roll as a parcel and reflected by the assessor's parcel maps prepared by the office of the County Assessor of the County of Fresno. (Am. Ord. 79-178, § 12, eff. 12-7-79, formerly § 13-1302.9).

SEC. 12-1913. PLANNED LOCAL DRAINAGE FACILITIES.

"Planned local drainage facilities," as used in this article, means drainage facilities required for a local drainage area. The term "facilities" shall include, without limitation, real property and rights in property for use for and in connection with the installation of planned local drainage facilities, conduits, drainage channels, drainage retention and recharge basins, and things incidental thereto, all as may be required for the collection and removal of surface and storm waters from a local drainage area. (Am. Ord. 79-178, § 13, eff. 12-7-79, formerly § 13-1302.4).

SEC. 12-1914. PLANNED LOCAL DRAINAGE FACILITIES FUND.

"Planned local drainage facilities fund," as used in this article, means a separate fund established by the Controller for a local drainage area, into which all local drainage fees collected on property within such local drainage area shall be deposited, and the monies in which shall be expended solely for acquisition or construction, or reimbursement for acquisition or construction of planned local drainage facilities within the local drainage area for which such fund was established. (Am. Ord. 79-178, § 14, eff. 12-7-79, formerly § 13-1302.8).

SEC. 12-1915. ZONING ORDINANCE.

"Zoning Ordinance," as used in this article, means the Zoning Ordinance of the city (Articles 1 to 4.5, inclusive, of Chapter 12 of this Code). (Am. Ord. 79-178, § 15, eff. 12-7-79).

SEC. 12-1916. LOCAL DRAINAGE FEES REQUIRED; WHEN PAYABLE.

(a) Except as otherwise provided in this section, a local drainage fee shall be paid on each parcel of land in a local drainage area prior to the commencement of the work of any development thereon or, in the case of any division of a parcel of land, prior to the approval of the final subdivision or parcel map thereof. The applicable fee shall be that most recently established by the Council prior to approval of the final subdivision or parcel map, or development.

(b) In the case of subdivisions which at the time of approval are zoned for industrial uses, and of parcel maps, the following applies:

(1) If planned local drainage facilities are required within the limits of, or are necessitated by such division or phase thereof, the drainage fees which shall be paid prior to the approval of the final map thereof shall not exceed the cost of such planned local drainage facilities or the drainage fees for previously developed areas for which fees have not been paid, whichever is greater. The balance of the fee obligation set forth by the provisions of this article may be deferred.

(2) If planned local drainage facilities are not required within the limits of, or are not necessitated by such division, the drainage fees required by this article may be deferred for previously undeveloped areas only.

(3) Local drainage fees deferred under the provision of this subsection shall be payable in the amounts determined by the provisions of this article prior to receipt of a development entitlement for the lands subject to such division.

(c) Except in the case of single-family residential uses, the area of an addition, replacement, reconstruction or the construction of separate structures or other improvements on a previously developed parcel for which a drainage fee or assessment has not been fully paid shall be deemed a parcel of land for the purposes of this article and a local drainage fee is payable thereon when such area equals or exceeds 1,000 square feet. When the area of such addition, replacement, reconstruction or other improvement or the accumulation of such additions or other improvements made after March 15, 1969, equals twenty-five per cent or more of the development existing as of March 15, 1969, the local drainage fee shall be payable on the total area of the subject parcel as defined in Section 12-1912 and Section 12-1918, subsection (f). Credits for fees or assessments previously paid shall be granted in accordance with Section 12-1919, subsection (c) hereof.

(d) The city shall require:

(1) The design, construction, and dedication of planned local drainage facilities located within or necessitated by a development or division; or

(2) The combination of the payment of a partial drainage fee as required herein and the design, construction and dedication of planned local drainage facilities when determined by the District to be necessary in conjunction with such development or division.

(e) Exceptions. Local drainage fees are not payable for the performance of the following items of work:

(1) Except in the case of a division, any development work which consists solely of the construction, erection, or installation of:

(i) Fences, pole lines, underground conduits, or pipelines, or similar developments which, as determined by the Director do not materially alter the natural surface of a parcel of land; or

(ii) Concrete curbs, gutters, sidewalks, driveway approaches, paving or other street improvements within any street or alley.

(2) Any development consisting solely of additions or alterations to any single-family residential dwelling or its accessory structures or other additional development on a developed single-family residential parcel.

(3) Any reconstruction or replacement of a single-family residence destroyed by fire or because of condemnation, provided that this exception shall not apply in the event that:

(i) The use of the parcel or any portion thereof at the time of reconstruction or replacement is for other than single-family residential; or

(ii) Reconstruction or replacement does not occur within twelve months; or

(iii) The ownership of the parcel is changed following the occurrence which requires reconstruction or replacement thereof.

(f) Government Agency. Payment of the local drainage fee upon division of land divided by a governmental agency engaged in such activity may be deferred upon request filed with the city and district by the governmental agency to the time of development of any undeveloped lot or parcel created in said division, subject to the conditions herein specified. A governmental agency, for the purposes of this deferment, is defined as one which is created under the provisions of either federal, state or local enabling legislation and which is acting under a program in which payment of the local drainage fee would not be an eligible cost.

(1) The deferment authorized herein shall be allowed only in the event said governmental agency enters into a written agreement with the city and district which shall provide:

(i) That the fee shall otherwise be paid pursuant to the provisions of this article;

(ii) That the agreement creates a valid lien upon such parcel to the extent of the fee (such lien may be subordinated at the discretion of the Director, and the form and substance of the agreement, procedures, documents, covenants, etc., necessary to place the agreement and lien into effect shall all be determined by the Director, subject to the approval of the City Attorney);

(iii) That said agreement shall provide that the owner of each lot or parcel created as a result of said division shall agree to pay all court costs and attorney fees and waives any and all defenses, legal or equitable, other than liquidated monetary setoffs against the city, if an action at law or foreclosure suit is brought to enforce payment of the fee or recovery of the fee through the lien.

(2) Said governmental agency will pay or provide for payment of the drainage fee on any developed lot or parcel at the time of division except that in the event of ownership by said governmental agency of said developed parcel or parcels, payment of the drainage fee thereon shall be made at the time of sale of said developed lot or parcel by the governmental agency.

(3) Said governmental agency will give actual notice of the lien described above to the purchaser of any lot or parcel created as a result of such division, except that failure by said governmental agency to provide actual notice to the purchaser shall not affect the lien upon said parcel or portion thereof as sold or the liability by the owner thereof to pay any drainage fee thereon as herein provided.

(g) As to any portion of land included within a parcel map for which the fee has not been deferred under subsection (b) of this section, the fee obligation established by this article may be deferred where such divisions of land are required by court order.

(1) All owners who desire to defer fees under this subsection shall enter into an agreement with the city which shall require the payment of such deferred fee at the earliest of the following occurrences:

(i) The sale or transfer of any such parcel or portion thereof;

(ii) The filing of a final map or parcel map on any portion of such parcel;

(iii) The issuance of a building permit or special permit for any development entitlement on or for any portion of such parcel.

(2) Fees deferred under this subsection shall be paid at the rates in effect when such fees become due and payable.

(Am. Ord. 79-178, § 16, eff. 12-7-79; Am. Ord. 81-118, §§ 1, 2, eff. 10-9-81; Am. Ord. 83-95, § 2, eff. 7-29-83).

SEC. 12-1917. DEVELOPMENT WITHOUT PAYMENT OF LOCAL DRAINAGE FEE PROHIBITED.

No person shall construct, erect, or install, or cause or permit to be constructed, erected, or installed, any development on any parcel of land on which the local drainage fee required by this article has not been paid; and no building permit or other permit for any development shall be issued unless the required local drainage fee has been paid. (Am. Ord. 79-178, § 17, eff. 12-7-79).

SEC. 12-1918. FEE SCHEDULE. COMPUTATION OF FEE.

(a) The Council shall establish by resolution, for each local drainage area, a schedule of per-gross-acre fees calculated to provide the sum of money necessary to pay the estimated total costs, as set forth in the local drainage plan, of the planned local drainage facilities for such planned local drainage area. Such schedule shall be conditioned and based on the following findings by the Council:

(1) That the planned local drainage facilities for each local drainage area are in conformity with the conservation and public facilities elements of the Fresno-Clovis Metropolitan Area General Plan, the local drainage plan, and the general drainage plan of the District.

(2) That the development of property within each local drainage area will require construction or acquisition of the planned local drainage facilities described in the local

drainage plan and that the fees are fairly apportioned within each local drainage area on the basis of benefits conferred on property developed or to be developed or on the need for planned local drainage facilities created by proposed or existing development of property within the local drainage area.

(3) That drainage facilities planned with respect to each local drainage area which are in addition to any existing local drainage facilities serving such local drainage area at the time of adoption of the local drainage plan are necessary to complete the planned local drainage facilities for such local drainage area.

(b) The schedule of fees shall be those amounts established by resolution of the Council adopted prior to the effective date of this ordinance and shall remain in effect until February 28, 1980. Effective March 1, 1980, and each succeeding March 1 thereafter, said schedule of fees shall be adjusted in accordance with the following criteria:

(1) On January 1 of each year the Manager shall review the current National Engineering News Record Construction Cost Index (ENRCCI). When such index differs from said index for the preceding January 1, the factor of increase or decrease shall be applied to the schedule of fees. Such factor shall be computed by dividing the ENRCCI for the current January 1 by that pertaining to the previous January 1. The individual drainage fee rates shall be multiplied by said factor to determine the adjusted schedule of fees.

(2) The Manager shall add to the schedule of fees the drainage fee rates for new planned local drainage areas established by the Council concurrently with the amendment of the local drainage plan adding thereto such new planned local drainage areas.

(3) If in the determination of the Manager the adjustment of the schedule of fees produced by the procedure in paragraph (1) of this subsection (b) is not representative of the actual change in costs of the planned local drainage facilities, the Manager may, in lieu of the procedures set forth in said paragraph, compute a new schedule of fees for adoption by resolution of the Council.

(4) In the event of the adoption of a new schedule of fees by resolution of the Council, such new schedule shall become effective immediately upon the adoption thereof by the Council. The adjustment of such schedule provided in paragraph (1) of this subsection (b) shall begin the January 1 next occuring after adoption of the new schedule.

(c) The rates per gross acre used to compute local drainage fees levied and collected pursuant to this article for parcels of land located in any local drainage area shall be those rates set forth for such local drainage area in the schedule of per-gross-acre fees established by resolution of the Council as set forth in this section. For parcels of land located, pursuant to the Zoning Ordinance, in the respective land use districts identified in said schedule of per-gross-acre fees, the per-gross-acre fee shall be the sum identified with such land use district in such schedule.

(d) In such cases wherein the parcel of land is located in a new land use district for which a rate per gross acre has not been adopted by the Council, the Manager shall calculate and

the Director shall levy an interim fee using the cost distribution formula for the land use district within the subject local drainage area which in the Manager's opinion is the most similar to the new district, but which is not less than the lowest per-acre rate identified in the rate schedule for the drainage area in which such parcel of land is located. The Council shall, as soon as practical, thereafter amend the schedule of per-gross-acre fees identifying therein the new district and the fees per gross acre associated therewith and any deviation from the interim fees which shall have been paid shall be adjusted by a further payment to the city or refund to the owner.

(e) The local drainage fee applicable to any parcel of land or division shall be the product of the gross acreage of the parcel or division multiplied by the rate or rates per gross acre applicable to the land use district, the local drainage area and the local drainage area zone within which the parcel or division is located as specified within the fee schedule resolution adopted pursuant to this section.

(f) When a development is proposed on only a portion of any parcel of land, the Director may designate on the approved plot plan the portion of such real property on which the development is to occur as the area to be developed. The payment of the local drainage fee shall be limited to such designated area subject to the following conditions:

(1) Such designated area shall include all area to be the subject of activity which materially alters the natural surface of the land or restricts the imperviousness of the soil, including landscaping, paving and other means of soil stabilization, and grading and filling.

(2) Such designated area shall equal or exceed the minimum area established for the applicable land use district identified in the Zoning Ordinance.

(3) The area of such parcel remaining undesignated shall equal or exceed the minimum area established for the applicable land use district identified in the Zoning Ordinance.

(g) When any development subject to a special permit or a recorded development agreement would create a greater or lesser amount of change in the natural surface of the land than would be created by the normal or usual development of land in a land use district, an appropriate fee shall be calculated by using the rate or rates for the land use district within the subject local drainage area which is most similar in character to the proposed development. Payment of such fee or the construction of planned local drainage facilities, or a combination thereof, shall be a condition of any permit which is required for construction or use of such development.

(h) When the local drainage fee applicable to any parcel of land has been paid pursuant to this article, or shall have been paid through assessment in a specific assessment proceeding, and the use of such parcel of land is changed to a use which, under the then-current fee schedule, requires a higher local drainage fee, then such parcel of land shall be subject to payment of an additional fee which shall be the fee applicable to such parcel of

land in its changed use under the fee schedule in effect at the time the additional fee is payable less the total of any credits allowed under Section 13-1306. (Am. Ord. 79-178, § 18, eff. 12-7-79; Am. Ord. 84-122, § 1, eff. 9-28-84).

SEC. 12-1919. CREDITS, REIMBURSEMENTS FOR FEES AND FACILITIES PREVIOUSLY PAID AND INSTALLED. CONDITIONS.

(a) In the computation of the local drainage fee payable because of the development or division of any parcel of land, a credit shall be allowed for planned local drainage facilities installed with respect to such parcel. Such credits for the actual cash expenditures for the construction of local drainage facilities constructed and still in existence and use in any street, alley, or public easement and not constructed by special assessment proceeding shall be allowed, subject to the following conditions and limitations:

(1) Facilities considered for such credits shall have been constructed in conformance with the standards of the city or the District in effect when such facilities were constructed.

(2) The Manager shall certify that such facilities are in conformance with, or beneficial for use in connection with, the planned local drainage facilities installed or to be installed in the local drainage area.

(3) The credit allowed shall not exceed the cost of such facilities, as determined by the Manager from actual cost records or by applying estimates of construction costs prevailing at the time such facilities were constructed, provided that no credit shall be allowed because of public easements, the dedication of which may have been required by the District or city in conjunction with development or divisions as defined in this article.

(4) The facilities shall have been constructed and paid for with respect to the parcel for which credit is claimed and are located in or will serve the planned local drainage area within which is located the parcel for which credit is claimed.

(5) Proof to the satisfaction of the District's Board of Directors shall be made by the person claiming such credit hereunder of the amount of the actual cash expenditures for which credit is claimed.

(6) The city or District shall have acquired ownership of the facilities without cost.

(7) When the facilities for which credit is claimed benefit more than one parcel and only a portion of the total allowable credit is claimed, the District may, in the absence of an agreement among the owners of the subject parcels eligible for such credit, estimate the total cost of the facilities at the time of construction and apportion the total credit allowable for such facilities among the benefiting parcels in a manner that the District in its sole discretion shall deem equitable.

(8) Except in the case of public agencies, in the event the actual cash expenditures, as determined by the Manager in paragraph (3) of this subsection (a), exceed the total local

drainage fee payable because of the development or division of any parcel of land, District shall contract with the developer or divider to reimburse such excess credits. Such reimbursement shall be subject to the following conditions and limitations:

(i) Such reimbursements shall be paid to the developer or divider from local drainage fees received pursuant to subsequent development or division of other parcels of land within the local drainage area served by the planned local drainage facilities for which such reimbursement is due.

(ii) In those local drainage areas in which more than one reimbursement contract is concurrently in existence, the order of reimbursement shall be based upon the date of receipt by District of the submittals set forth in paragraph (vii) hereof. Reimbursement shall not be paid pursuant to a later reimbursement contract within a local drainage area until any previous reimbursement contract within said drainage area is fully reimbursed.

(iii) The payment of such reimbursements is to be made semi-annually, in amounts determined by the Manager.

(iv) Should there not be sufficient subsequent drainage fees available, or should the facilities required to provide the level of drainage service prescribed by the local drainage plan not be available, by a date fifteen years from the date of receipt by District of the submittals set forth in Paragraph (vii) hereof, the initial reimbursement period and any remaining obligation of the District to reimburse such excess credit shall expire; provided however, that the expiration of the District's reimbursement obligation shall be extended an additional five years in those cases in which the developer or divider has been reimbursed at least seventy-five per cent of the total excess credit during the initial reimbursement period.

(v) The total reimbursement to be paid pursuant to this subsection (a) shall not exceed ninety-five per cent of the total excess credit; the District shall retain five (5) per cent from each reimbursement as an administrative records and services charge.

(vi) Nothing herein shall preclude the more frequent payment of reimbursement or the partial payment of reimbursements when sufficient funds are determined by the Manager to be available and all other conditions of this subsection (a) have been met.

(vii) The developer or divider shall submit to District, within ninety days of acceptance by District of those facilities for which credit or excess credit is claimed, the reproducible as-built plans of said facilities, the project accounting reflecting final costs of the eligible items and any balance due of the final drainage fee determined pursuant to this chapter. Credits and reimbursement of excess credits shall not be granted pursuant to this section if the submissions required by this paragraph are not made.

(b) Credits for assessment previously levied for planned local drainage facilities by special assessment proceeding shall be allowed, subject to the following conditions and limitations:

(1) Such facilities shall have been constructed in conformance with the standards of the city or the District in effect when such facilities were constructed.

(2) The Manager shall certify that such facilities are in conformance with or beneficial for use in connection with the planned local facilities installed in the local drainage area.

(3) The credit allowed shall be equal to the amount of the assessment and any supplemental assessment levied upon the parcel of land, which was paid in cash or which became security for a bond or bonds issued in the special assessment proceedings. If one assessment was levied for drainage facilities and other improvements in the same proceeding, the Manager shall determine, from the engineer's report in the assessment proceeding, if available, otherwise on cost estimates applied by the Manager, the proportion of the assessment attributable to such facilities, and the amount so determined by him shall be the credit allowed.

(c) If a local drainage fee was paid on all or a portion of the parcel of land pursuant to this article and an additional local drainage fee is payable under any provision of this article, a credit shall be allowed equal to the amount previously paid. (Am. Ord. 79-178, § 19, eff. 12-7-79; Am. Ord. 84-122, § 2, eff. 9-28-84; Am. Ord. 85-112, § 1, eff. 9-13-85).

SEC. 12-1920. APPEALS.

(a) In the case that the amount of any local drainage fee shall be disputed, the city, or District, if designated to collect such fees, shall allow such fee to be paid under protest. Such protested fee shall be reviewed by the Director and the correct amount thereof determined according to law and the city shall be reimbursed by the District for any cost of litigation incurred by the city in connection with such dispute.

(b) The owner of land proposed for development or division, or his representative designated in writing, may appeal any requirement of the District under this article. Any such requirement may be imposed only by a written notice signed by the District's general manager or engineer. Any person appealing shall file a written notice of appeal with the secretary of the District within ten days of the action of the District from which the appeal is taken.

Upon the filing of such an appeal, the appeal board, which for purposes of this article shall be the District Board of Directors, shall set the matter for hearing. The hearing shall be held and a decision rendered by the appeal board within forty days after the date of filing the appeal.

(c) The owner or representative specified in subsection (b) of this section may appeal from the action of the appeal board to the Council. Any such appeal shall be filed in writing, on a form provided by the Director of Public Works, with the City Clerk within ten days after the action of the appeal board from which the appeal is being taken.

After the filing of such an appeal, the Council shall hold a hearing thereon within thirty days after the date of filing of the appeal. Within ten days following the conclusion of the hearing, the Council shall render its decision on the appeal. The decision of the Council shall be final. (Added Ord. 79-178, § 20, eff. 12-7-79; Am. Ord. 83-95, §§ 3, 4, eff. 7-29-83).

SEC. 12-1921. DISTRICT AS AGENCY TO DESIGN AND INSTALL FACILITIES.

The District is hereby designated as the public agency which shall design, acquire, construct, and install, in territory which is within the District, the planned local drainage facilities specified in the local drainage plan, other than street facilities. (Am. Ord. 79-178, § 21, eff. 12-7-79; formerly § 13-1307).

SEC. 12-1922. TRANSFER OF FUNDS TO DISTRICT.

The Controller of the city shall transfer to the District, on the fifteenth day of each month, all local drainage fees collected and deposited in each planned local drainage facilities fund during the preceding calendar month. Where a local drainage area lies wholly or partially outside the boundaries of the District, the city may expend from the planned local drainage facilities fund for such local drainage area such amounts as the Public Works Director of the city shall require for the design, acquisition, construction or installation of planned local drainage facilities within the portion of such local drainage area outside the District in accordance with the local drainage plan. For the purposes of this section, the Controller shall withhold from transfer to the District all or a part of the funds in the planned local drainage facilities fund of any such local drainage area provided, that upon annexation to the District of the territory comprising any such local drainage area, and after the city has been reimbursed for all such expenditures therein, the Controller shall transfer to the District under the same conditions as transfers authorized by this section, all monies remaining in such planned local drainage facilities fund. The city shall concurrently transfer to the District fee title to all facilities constructed by the city from drainage fees retained by the city pursuant to this section. (Am. Ord. 79-178, § 22, eff. 12-7-79, formerly § 13-1308).

SEC. 12-1923. ADMINISTRATION AND ENFORCEMENT.

Collection of local drainage fees under the provisions of this article shall not be commenced until the city and the district shall have entered into an agreement for administration and enforcement, which shall include, without limitation, the following provisions:

(a) That, in consideration of the levy, collection, and transfer to the District by the city of local drainage fees as provided in this article, the District accepts designation by the city as the public agency having the duty and responsibility to review all developments within planned local drainage areas for compliance with the local drainage plan and to design, acquire, construct and install the planned local drainage facilities specified in such local drainage plan.

(b) That the District shall make all computations of local drainage fees payable pursuant to this article and shall, at the request of any personnel of the city charged with the administration or enforcement of this article, promptly furnish the amount of local drainage fee payable on any parcel of land.

(c) That the city shall submit or shall require the submission to the District of duplicate copies of all subdivision maps, parcel maps, site plans, and other such forms representing development or division proposals submitted to the city for review and approval for which local drainage fees must be calculated.

(d) That the city shall collect or may designate District to collect the local drainage fees payable under this article in the respective amounts as computed by the District.

(e) The District shall establish for each local drainage area a planned local drainage facilities fund into which all funds transferred from the city's fund for such local drainage area shall be deposited, and to expend the funds therein solely for acquisition or construction of planned local drainage facilities within such local drainage area, except that surplus remaining after final completion of such planned local drainage facilities may be applied to maintenance of facilities in reduction of any annual ad valorem assessment for maintenance levied by the District on properties in such local drainage area.

(f) That the District shall keep and maintain accurate records of the local drainage fees paid on each parcel of land in the District adequate to permit expeditious determination of the amount thereof as may be required in the administration of this article.

(g) That, if the District shall order the construction of planned local drainage facilities pursuant to special assessment proceedings, the District shall apply, as a contribution to the amount of the assessment levied upon any parcel of land in the assessment district, the amount of any local drainage fee previously paid for such parcel pursuant to the provisions of this article.

(h) The District shall defend and indemnify and hold the city harmless from any dispute, claim or lawsuit arising out of any requirement for the construction of local drainage facilities or the payment of any local drainage fee or calculation of such fee which the District or city may impose as a condition of approval of any development or final subdivision or parcel map. (Added Ord. 79-178, § 23, eff. 12-7-79, formerly § 13-1309).

SEC. 12-2001. TITLE.

This article shall be known as the "City of Fresno Mobilehome Park Rent Review and Stabilization Ordinance." (Added Ord. 87-170, § 1, eff. 1-8-88).

SEC. 12-2002. FINDINGS AND PURPOSE.

(a) The Council of the City of Fresno finds as follows:

(1) There are presently thirty mobilehome parks in the City of Fresno. These mobilehome parks represent a unique rental housing situation, different than other rental housing in the city, in that mobilehome park residents make a substantial investment in purchasing their mobilehomes, it is difficult to relocate a mobilehome from one mobilehome park to another due to the expense of such relocation, the risk of damage to the mobilehome and the requirements relating to installation of mobilehomes in mobilehome parks, including permits, landscaping, site preparation and restrictions as to the age, type, and the appearance of the mobilehomes.

(2) Approximately two-thirds of the residents in the mobilehome parks in the city are elderly and receive a fixed income. Also, approximately two-thirds of the residents are unemployed and are in lower income categories according to the guidelines established by the United States Department of Housing and Urban Development. For these residents, there is no economically feasible housing alternative to mobilehome park living.

(3) The vacancy rate in mobilehome parks in the city is sufficiently low to make it difficult for mobilehome park residents to relocate from one mobilehome park to another.

(b) In view of the findings stated in subdivision (a), the city deems it necessary, and it is the purpose of this article, to protect mobilehome park residents from excessive rent increases while at the same time providing mobilehome park owners a level of rent sufficient to provide a just, fair and reasonable return on their investment in mobilehome park property and to cover increased costs of repairs, maintenance, rehabilitation, capital improvements, services, amenities, upkeep and insurance. The city further finds that this article is necessary to preserve public health, welfare and safety. (Added Ord. 87-170, § 1, eff. 1-8-88).

SEC. 12-2003. DEFINITIONS.

For purposes of this article, the following words and phrases shall have the following meanings:

(a) Annual Government Cost" means an amount or equivalent paid or charged to a park owner by a local, state or federal government for municipal utilities, general property taxes, governmental fees, special property assessments, or taxes, fees or charges levied in accordance with XIIIC or XIIID of the California Constitution, within a twelve month period commencing 16 months prior to the date of the submission of the rent increase application.

(b) "Commission" means the City of Fresno Mobilehome Park Rent Review and Stabilization Commission established by this article.

(c) "Capital improvement" means an addition or betterment made to a mobilehome park which consists of more than repair, replacement, or rehabilitation of an existing facility or improvement, which is required to be amortized over its useful life by the income tax laws of the United States, and which has a useful life of five years or more.

(d) "Chair" means the Residents' Committee chairperson as elected under Section 12-1905 of this ordinance.

(e) "Day," when used in the context of time limitation, means working day, excluding Saturdays, Sundays and holidays.

(f) "Director" means the Director of Housing and Neighborhood Revitalization Department of the City of Fresno.

(g) "General Property Tax" means a tax levied by a city or county government on the value of the real property the taxpayer owns on a specific date.

(h) "Governmental Fee" means a charge fixed and levied by a local, state or federal government or governmental agency for the services rendered or for use of a privilege under the control of a government or governmental agency, such as a permit or license fee.

(i) "Mobilehome" means a structure as defined by Section 798.3 of the California Civil Code and any recreational vehicle as defined in Section 799.24 of the California Civil Code that has been in place in any park for a period of nine months or more.

(j) "Mobilehome park" means any area of land in the city where mobilehome spaces or recreational vehicle spaces occupied by a recreational vehicle(s) for a period of nine months or more are rented or held out for rent.

(k) "Mobilehome space" means a site within a mobilehome park intended or used for location or accommodation of a mobilehome or recreational vehicle, the latter for a period of nine months or more, and any accessory structures, appurtenances or equipment attached thereto or used in conjunction therewith.

(l) "Municipal Utility" means any utility (water, sewer, trash/recycling collection, power) service provided to park residents by a municipality. This definition excludes gas and electric services provided by a public utility subject to Public Utilities Code Section 739.5 and utilities supplied privately by park owners.

(m) "Owner" means the owner, lessee or operator of a mobilehome park, or an agent, manager or representative authorized to act on behalf of such owner, lessee or operator in connection with operation or maintenance of the mobilehome park.

(n) "Rehabilitation" means any repair or renovation work performed in a mobilehome park in order to comply with an order or direction of a public agency having jurisdiction, or to repair any damage resulting from earthquake, fire, flooding or other casualty.

(o) "Rent" means the consideration, including without limitation money, benefits, gratuities and security deposits, demanded or received for occupancy or use of a mobilehome space and any services or amenities in connection with such use or occupancy, or for the subletting of a mobilehome space or transfer of a lease of a mobilehome space. "Rent" does not include any amount paid for use of the mobilehome itself or any amounts paid for water, gas, electricity or other utility services that are separately metered and billed directly to the individual mobilehome.

(p) "Resident" means a person entitled to occupy a mobilehome pursuant to ownership thereof, or pursuant to a rental, lease or license arrangement with the owner thereof, and who has a tenancy in the mobilehome park in which the mobilehome is located.

(q) "Special Property Assessment" means an assessment in the nature of a tax levied upon a property according to benefits conferred on that property, such as sewer, water, streets, sidewalks or other public improvements. It differs from a general tax in that it is levied for a specific purpose and in an amount proportional to the direct benefit to that property assessed.

(r) "Tenancy" means the right of a resident to use or occupy a mobilehome space pursuant to a rental, lease or license arrangement.
(Added Ord. 87-170, § 1, eff. 1-8-88; Am. Ord. 89-15, §§ 1—3, eff. 3-3-89; Am. Ord. 89-16, § 1, eff. 3-3-89; Am. Ord. 93-33, §§ 1, 2, eff. 6-4-93; Am. Ord. 98-96, § 1, eff. 1-9-99).

SEC. 12-2004. APPLICABILITY.

This article shall not apply to any mobilehome park which has less than three mobilehome spaces, or to any mobilehome park in which the residents have not elected a Resident's Committee as required by Section 8-1205. (Added Ord. 87-170, § 1, eff. 1-8-88).

SEC. 12-2005. RESIDENT'S COMMITTEE.

(a) As soon as practicable after January 8, 1988, the residents in each mobilehome park shall meet and elect a Residents' Committee. The formation of a Residents' Committee shall not be denied by any resident of the park. Each resident of the mobilehome park shall be given written notice of the date, time and place of the election meeting and shall be given an opportunity to nominate candidates for election to the Residents' Committee. A Residents' Committee shall have three or five members and two or three alternates, as determined by a majority of the residents of the mobilehome park actually voting at such meeting. Only residents of the particular mobilehome park may be elected to the Residents' Committee for that mobilehome park. Each occupied mobilehome space shall be entitled to one vote for each member of the Residents' Committee for that mobilehome park. The three or five nominees and alternates, as applicable, who receive the greatest number of votes shall be the members of the Residents' Committee; provided however, that at all times a majority of the members of the Residents' Committee shall be residents affected by this ordinance. Within sixty days after the resignation, death or expiration of term of the last remaining alternate of the Residents' Committee, the residents of the mobilehome park shall meet and elect a new member or alternate in the manner provided above. The nominee who receives the greatest number of votes shall be the new member or alternate. The park manager, assistant manager and any resident employee of the owner shall be ineligible to serve on the Residents' Committee or vote in any election as provided herein or in Section 12-2010 of this code.

(b) Each Residents' Committee shall notify the Director of the names and addresses of its initial members within fifteen days after their elections, and shall promptly notify the Director of any change in such information.

(c) Each Residents' Committee shall establish rules and regulations for the conduct of its business, including length of term of its members; appointment of officers; procedures for reviewing, voting on and giving decisions on rent increase applications; and the times for regular meetings, if any in addition to those meetings required by this article. Such rules and regulations shall be consistent with this article and all other applicable laws, ordinances and regulations; shall enable the Residents' Committee to carry out the purposes of this article as stated in subdivision (b) of Section 12-2002; shall include provisions that will ensure, to the greatest extent practicable, that all residents affected by a proposed rent increase will have a reasonable opportunity to participate in voting on such rent increase as provided in subdivision (b) of Section 12-2010; and shall provide that such voting on rent increases shall be by secret ballot. Each Residents' Committee shall provide the Director with a copy of its rules and regulations and all amendments thereto.

(d) A Residents' Committee shall have the following duties and powers:

(1) Review and take action on applications for rent increases as provided in Section 12-2010.

(2) Subject to Section 798.51 of the California Civil Code, review and negotiate with the owner on any matter that may directly or indirectly affect the amount of rent charged to any resident of the mobilehome park. A request by the owner or an affected resident to consider such matter or matters must be submitted in writing to the Residents' Committee. The request must identify in reasonable detail each matter to be considered and state how such matter will affect the rent. (Added Ord. 87-170, § 1, eff. 1-8-88; Am. Ord. 88-7, § 1, eff. 4-1-88; Am. Ord. 89-17, § 1, eff. 3-3-89; Am. Ord. 98-96, § 1, eff. 1-9-99).

SEC. 12-2006. MOBILEHOME PARK RENT REVIEW AND STABILIZATION COMMISSION.

(a) The City of Fresno Mobilehome Park Rent Review and Stabilization Commission is hereby established. The commission shall consist of five regular members and seven alternate members. An alternate member shall serve on the commission during the absence of a members of the Commission belonging to the same background group as the alternate. All appointments to the Commission shall be made as provided in Section 902 of the City Charter. Commission members shall be appointed as follows:

(1) One regular member and two alternate members shall be mobilehome park residents and shall be appointed by the mayor from a list of nominees submitted on behalf of mobilehome park residents. The Residents' Committee for each mobilehome park in the city shall be entitled to submit one nominee.

(2) One regular member and two alternate members shall be mobilehome park owners and shall be appointed by the mayor from a list of nominees of mobilehome park owners. Each owner of a mobilehome park in the city shall be entitled to submit one nominee.

(3) Three regular members and three alternate members shall be at-large members who are neither mobilehome park residents nor owners and shall be appointed by the mayor and approved by majority vote of the Council.

No regular member or alternate member who is a resident shall participate in any deliberations or decisions on a matter affecting the mobilehome park in which that member has a tenancy. No regular member or alternate member shall participate in any deliberations or decisions on a matter affecting a mobilehome park which that member owns or in which that member is employed or has a financial interest as defined in Section 87103 of the California Government Code.

(b) Three members of the Commission in attendance shall constitute a quorum for the purpose of conducting a hearing or meeting, provided that all three members shall be at-large members. A majority of affirmative votes by the members present and voting shall be required for any ruling or decision.

(c) The Commission shall establish rules and regulations for the conduct of its business. Such rules and regulations shall be consistent with this article and all other applicable laws and regulations, and shall enable the Commission to carry out the purposes of this article as stated in subdivision (b) of Section 12-2002. Such rules and regulations shall include a schedule for hearing rent increase applications as provided in Section 12-2011. The schedule shall specify the time when the annual rent increase application for each mobilehome park in the city shall be submitted and heard. The schedule may be modified by the Commission from time to time as the Commission deems necessary to insure efficient processing of rent increase applications.

(d) The Commission shall have the following powers and duties:

(1) To meet from time to time as specified in the Commission's rules and regulations as necessary to discharge the Commission's duties under this article. All meetings of the Commission shall be subject to the Ralph M. Brown Act (chapter 9 of part 1 of division 2 of title 5, commencing with Section 54950, of the California Government Code).

(2) To hear rent increase applications and determine whether to approve or disapprove a rent increase as provided in Section 12-2011.

(3) To make to the Council such recommendations and reports as it deems appropriate, or as the Council requests, concerning implementation and enforcement of this article. (Added Ord. 87-170, § 1, eff. 1-8-88; Am. Ord. 88-109, § 1, eff. 9-23-88; Am. Ord. 89-18, § 1, eff. 3-3-89; Am. Ord. 93-33, § 3, eff. 6-24-93; Am. Ord. 2000-63, § 1, eff. 10-12-00).

SEC. 12-2007. BASE RENT.

Except as provided in this article, no owner shall demand, accept or retain rent for a mobilehome space exceeding the rent in effect for that mobilehome space on December 1, 1987. If a mobilehome space is not rented on December 1, 1987, no owner shall demand, accept or retain rent for that mobilehome space exceeding the rent first charged for the mobilehome space after December 1, 1987. If a mobilehome space was rented as of December 1, 1987, under a lease or rental agreement having a term in excess of twelve months, and if such lease or rental agreement is not extended and a new rental agreement meeting the criteria of Section 798.17 of the Civil Code is not entered into, no owner shall demand, accept or retain rent for that mobilehome space exceeding the last rent charged under such lease or rental agreement. (Added Ord. 87-170, § 1, eff. 1-8-88).

SEC. 12-2008. RENT INCREASES UPON TERMINATION OF TENANCY.

(a) Notwithstanding section 12-2007 or any other provision of this article, if tenancy is terminated voluntarily by a resident, or in any other lawful manner, the owner may increase the rent for such mobilehome space in an amount not to exceed 10 percent of the previous rent to any amount upon re-rental or re-lease of the mobilehome space except as provided for in this ordinance.

(b) In the event of a mobilehome space vacancy, no owner shall mandate that new prospective tenants be required to enter into leases of more than 12 months as a condition of tenancy. In negotiating lease terms with such prospective tenants and/or residents, park owners shall comply with California Civil Code Section 798.18. (Added Ord. 87-170, § 1, eff. 1-8-88; Am. Ord. 93-33, § 4, eff. 6-4-93; Am. Ord. 94-129, § 1, eff. 1-20-95).

SEC. 12-2009. APPLICATION FOR PERMITTED RENT INCREASE.

(a) If an owner wishes to increase rent for any mobilehome space more than the applicable base rent specified in Section 12-2007 the owner shall submit a rent increase application to the Chair of the affected Mobilehome Park Residents' Committee. The rent increase application shall be submitted during the time specified for that particular mobilehome park in the schedule established by the Commission pursuant to subdivision (c) of Section 12-2006. The rent for a mobilehome space may not be increased more than once in any twelve-month period.

(b) A rent increase application shall be submitted on forms prescribed by the Director and shall contain at least the following information:

(1) The address of the mobilehome park;

(2) The space number of each mobilehome park space for which a rent increase is requested;

(3) The amount of the requested rent increase, for each affected mobilehome space stated in dollars and cents;

(4) The facts supporting the requested rent increase, including all supporting documentation.

The owner shall include in a single rent increase application all rent increases desired for a particular mobilehome park. The owner shall sign the rent increase application under penalty of perjury. A copy of said application shall be submitted to the Director.

(c) Within five days after receipt of a rent increase application, the Chair shall determine if the application is complete pursuant to subsection (b) above and shall notify the owner of any additional information or documents required to make the application complete. The owner shall submit such additional information within ten days after notice from the Chair.

(d) Within five days after receipt of complete rent increase application, the chair shall give written notice of the application to the residents of the mobilehome spaces specified in the application and the Resident's Committee of the affected mobilehome park. These notices shall be in addition to the ninety-day notice the owner is required to give pursuant to Section 798.30 of the California Civil Code and any other notice required by law. (Added Ord. 87-170, § 1, eff. 1-8-88; Am. Ord. 93-33, § 5, eff. 6-4-93; Am. Ord. 93-51, § 1, eff. 9-24-93; Am. Ord. 96-12, § 2, eff. 3-22-96).

SEC. 12-2010. RESIDENTS' COMMITTEE REVIEW OF AND DECISION OF RENT INCREASE APPLICATION.

(a) Upon receipt of notice of the rent increase application from the owner, the Residents' Committee and the owner shall set a mutually agreeable date to meet and attempt to negotiate a mutually acceptable rent increase. The date of such meeting shall not be later than ten days after the date of receipt of the notice from the owner. The meeting may be continued as mutually agreed by the owner and the Residents' Committee. The owner shall deliver to the Residents' Committee four days prior to such meeting any additional information requested by the Residents' Committee which is relevant to the requested rent increase.

(b) Not later than five days after the conclusion of the meeting with the owner, the Residents' Committee shall (1) meet at a reasonably convenient time and place with the residents of all mobilehome spaces identified in the rent increase application, (2) obtain the votes of such residents, by written secret ballot, to accept or reject the rent increase, and (3) notify the owner in writing of the decision of the residents. The rent increase submitted to the residents for a vote shall be in the amount agreed to by the owner and the Residents' Committee pursuant to subdivision (a) or, if the owner and the Residents' Committee were unable to agree, the amount requested by the owner in the rent increase application. The rent increase shall be deemed accepted unless it is rejected by the votes of at least fifty-one percent of the affected residents actually voting on the rent increase, provided the residents of at least thirty percent of the mobilehome spaces identified in the rent increase application participate in such voting.

(1) If the affected residents accept the rent increase, the owner shall so notify the Director and all proceedings on the rent increase application shall cease. The rent increase shall take effect on the first day of the following calendar month, provided the owner has complied with Section 798.30 of the California Civil Code.

(2) If the affected residents reject the rent increase, the owner may within 60 days of the vote notify the Director of such rejection and request proceedings before the Commission pursuant to Section 12-2011. The notice and request shall be in writing. (Added Ord. 87-170, § 1, eff. 1-8-88; Am. Ord. 88-37, § 2, eff. 4-1-88; Am. Ord. 89-20, § 1, eff. 3-3-89; Am. Ord. 93-33, § 6, eff. 6-4-93).

SEC. 12-2011. COMMISSION REVIEW OF AND DECISION ON RENT INCREASE APPLICATION.

(a) At the time the owner requests proceedings before the Commission as provided in paragraph (2) of subsection (b) of Section 12-2010, the owner shall also submit a fee in an amount specified in the Master Fee Resolution. The fee shall be used to pay all the costs of the city and the Commission incurred in conducting proceedings on the rent increase application pursuant to this section, including without limitation city staff time, noticing and postage. If the amount of the fee exceeds such costs, the balance shall be refunded to the owner within thirty days after completion of the Commission's proceedings. If the

Commission approves a rent increase that is equal to or greater than the rent increase requested by the owner in the rent increase application, the residents of the mobilehome park shall reimburse the owner the amount of the fee, less any amount refunded by the city, provided the owner has furnished to the Residents' Committee all relevant and pertinent documents requested of the owner by the Committee prior to their rent negotiations as provided in subsection (a) of Section 12-2010 of this Code. Unless the owner and the Residents' Committee agree otherwise, the reimbursement shall be paid in equal installments with the rent payments for the six-month period following completion of the Commission's proceedings and shall be divided equally among the residents of the mobilehome spaces affected by the rent increase. If the Commission approves a rent increase that is less than the rent increase requested by the owner in the rent increase application, the owner shall not be entitled to reimbursement of the fee from any and all residents of the park.

(b) Except as provided in subdivision (a), the owner and the residents shall each bear their own costs incurred in the proceedings on the rent increase application, including but not limited to attorney's fees. The cost of preparing a stereographic record shall be paid by the party or parties requesting such record.

(c) Upon receipt of the owner's request for proceedings before the Commission, and receipt of the fee specified in subdivision (a), the Director shall set a hearing on the owner's rent increase application before the Commission. The hearing shall be set for a date no later than thirty days after the receipt of the owners request and payment of the fee. At least ten days prior to the date set for the hearing, the Director shall give notice of the time, date and place of hearing, by United States mail, to the owner, the residents of each mobilehome space specified in the rent increase application, and the Residents' Committee.

(d) At the hearing, the owner and the affected residents may offer any testimony, documents, written declarations or other evidence relevant to the proposed rent increase. Any documentary evidence, defined as any written document including but not limited to a summary of oral evidence, to be offered at the Commission hearing shall be served on the Director and the opposing party not less than ten days before the date of the Commission hearing. Rules for conducting the hearing shall be prescribed in the Commission's rules and regulations. Formal rules of evidence shall not apply in the proceedings. If a party to the proceedings fails to appear, the Commission may nevertheless hear testimony, review evidence and make decisions as if such party had been present.

(e) Not later than ten days after the close of the hearing, the Commission shall make its decision on the rent increase application. The decision shall approve the amount of rent increase, if any, the Commission determines to be just, fair, and reasonable according to the factors set forth in Section 20-2012, and shall state the effective date of the rent increase. The effective date shall be subject to the owner's compliance with Section 798.30 of the California Civil Code. The Director shall give written notice of the decision, by United States mail, to the owner, the residents of each mobilehome space specified in the rent increase application, and the Residents' Committee. The decision of the Commission is final.

(f) The time within the Commission shall conduct a hearing as provided in subdivision (c) may be extended twice by the Commission for periods not to exceed thirty days each if the Commission provides an interim rent increase for the mobilehome spaces specified in the rent increase application. The interim rent increase shall be in an amount which the Commission determines to be clearly warranted under the factors set forth in Section 12-2012, based on the acts stated in the rent increase application, documents or written statements filed with the Director or the Commission by the affected residents or the owner, and any other evidence presented to the Commission. An interim rent increase shall expire on (1) the last day of the month in which the Commission makes a decision denying a rent increase, or (2) 12:00 midnight on the day prior to the effective date of the rent increase approved by the Commission's decision. If the rent increase approved in the Commission's decision exceeds the interim rent increase, any amount undercollected shall be paid to the owner as provided in the Commission's decision. If the rent increase approved in the Commission's decision is less than the interim rent increase, or if the Commission denies a rent increase, any amount overpaid shall be reimbursed to the affected residents as provided in the Commission's decision. (Added Ord. 87-170, § 1, eff. 1-8-88; Am. Ord. 89-21, § 1, eff. 3-3-89; Am. Ord. 89-22, § 1, eff. 3-3-89; Am. Ord. 93-33, § 8, eff. 6-4-93).

SEC. 12-2012. JUST, FAIR AND REASONABLE RENT INCREASES.

In determining the amount of rent increase that is just, fair and reasonable, all relevant factors shall be considered, including but not limited to the following:

(a) Percentage changes in the Consumer Price Index for Urban Wage Earners and Clerical Workers for Western Cities West, published by the United States Bureau of Labor Statistics.

(b) Any lawfully established state or federal government wage and price guidelines.

(c) Rent lawfully charged for comparable mobilehome spaces in comparable mobilehome parks.

(d) The length of time since the last rent increase for the mobilehome spaces specified in the rent increase application.

(e) The completion of any capital improvements or rehabilitation work related to or benefiting the mobilehome spaces specified in the rent increase application and the cost of such improvements or work, including but not limited to costs for materials, labor, construction interest, permit fees and other items.

(f) Changes in rent paid by the owner for lease of the land on which the mobilehome park is located.

(g) Changes in reasonable operating and maintenance expenses.

(h) The need for repairs caused by circumstances other than ordinary wear and tear.

(i) The amount and quality of services and amenities provided by the owner to the affected residents.

(j) Any existing lease lawfully entered into between the owner and an affected resident.

(k) A just and reasonable rate of return on the owner's investment in the mobilehome park. A just and reasonable rate of return shall be one high enough to encourage good management, reward efficiency, discourage flight of capital from the mobilehome park and enable the owner to maintain its credit, shall be commensurate with returns in enterprises comparable to the subject mobilehome park, but shall not be so high as to defeat the purpose of this article to protect residents against excessive rent increases. (Added Ord. 87-170, § 1, eff. 1-8-88; Am. Ord. 89-19, § 1, eff. 3-3-89; Am. Ord. 93-33, § 9, eff. 6-4-93; Am. Ord. 94-129, § 2, eff. 1-20-95).

SEC. 12-2013. AUTOMATIC PASS-THROUGH OF ANNUAL GOVERNMENT COSTS.

(a) Under this section, in addition to any other rent increase allowed by this ordinance, a property owner may increase mobilehome space rent once annually for the following annual government costs incurred by the park owner in the operation and maintenance of the park:

(1) Municipal Utilities.

(2) General Property Taxes.

(3) Other governmental fees including regulatory fees, processing fees, licenses and permits.

(4) Special Property Assessments.

(5) Any taxes, assessments, fees or charges levied in accordance with article XIIIC and article XIIID of the California Constitution.

Owners shall limit rent increases under this section to those increased costs which exceed 5 percent of the previous 12 months annual government costs. The previous 12 months government costs shall be calculated commencing 16 months prior to the date of the projected rent increase date. When calculating this increase, each Annual Government Cost specified above shall be addressed separately and not collectively when determining whether there has been a 5% or greater increase. This rent increase shall reflect changes no more than once annually. No owner may pass-through capital improvement costs, whether or not government mandated. The time for requesting and allocating such an increase under this section shall be at the same time an application for rent increase is submitted pursuant to Section 12-2009. At the time of submitting a rent increase application, the park owner shall provide all documentation supporting the annual government cost increase provided for in this section.

(b) Except as expressly provided in this section, this rent increase is not subject to the rent increase provisions of this ordinance. Neither the Resident Committee, nor residents may vote on or otherwise reject a rent increase requested pursuant to this section. Except as

expressly provided in this section, neither the Residents Committee, nor the residents may request review by the Commission of this increase. The Residents Committee may object to the increase only on the following grounds:

(1) The rent increase is not an annual government cost as defined and limited in this ordinance; or,

(2) The owner has not provided documentation supporting this rent increase; or

(3) The amount of the increase is not properly calculated. Said objection must be made in writing, to the owner, with copy to the Director, within five (5) days of receipt of the rent increase application. The Residents Committee and Property owner shall then attempt to resolve the objection if the objection cannot be resolved, either party may submit the objection to the Director within twenty-five (25) days of submission by the owner of the application for rent increase to the Residents' Committee. The Director shall have ten (10) days of receipt of the objection to rule on the objection if either party is not satisfied with the decision of the Director, the objection may be submitted to the Commission within twenty-five (25) days of the decision of the Director, for final determination. Request for proceedings before the Commission shall be made pursuant to subsection (c) of this Section.

(c) The party requesting Commission review shall notify the Director, in writing, of the request. At the time of requesting review, the requesting party shall submit a fee in the amount specified in the Master Fee Resolution. The fee shall be used to pay all the costs of the city and the Commission incurred in conducting proceedings on the rent increase objection pursuant to this section. If the amount of the fee exceeds such costs, the balance shall be refunded to the requesting party within thirty (30) days after completion of the Commission review. If the Commission finds in favor of the requesting party, the non-requesting party shall reimburse the requesting party the fee paid pursuant to this section, less any amount refunded by the city. Except as provided in this section, each Party shall bear their own costs incurred in the proceedings, including but not limited to attorney's fees. Upon receipt of the request for hearing, the Commission shall proceed according to the schedule established pursuant to Section 12-2011(c),(d),(e) and (f). The Commission shall limit its review of the annual government cost rent increase to the validity of the objection stated by the Residents Committee and, if applicable, shall state an effective date of the annual government cost rent increase. The rent increase shall be subject to the owners compliance with Civil Code Section 798.30. The Commission shall not determine the validity of the objection based on whether the annual government cost rent increase requested pursuant to this section is just, fair or reasonable. If the owner has requested a Commission hearing on any other rent increase, the hearings shall be coordinated in an effort to reduce the consumption of time and resources. In such case, the cost of the hearing shall be proportioned accordingly.

(d) The notice and review periods provided in this section shall be in addition to the ninety (90) day notice the owner is required to give pursuant to Civil Code Section 798.30 or any other notice period required by law. (Added Ord. 93-33, § 9, eff. 6-4-93; Am. Ord. 94-129, § 3, 1-20-95; Am. Ord. 98-96, § 3, eff. 1-9-99).

SEC. 12-2014. ANNUAL AUTOMATIC RENT INCREASE TIED IN TO THE CONSUMER PRICE INDEX FOR PREVIOUS YEAR.

In addition to any other rent increase allowed by this ordinance, an owner may increase mobilehome space rents once annually by a factor not to exceed seventy-five (75) percent of the previous year's Consumer Price Index for the period between November 1 and October 31. Said Consumer Price Index shall be as defined by Section 12-2012(a) of this Ordinance. Said Consumer Price Index shall be computed on a Base Rent. The Base Rent shall be established on the average rent of spaces affected by this Ordinance as of December of each year prior to the rent increase date. Owners shall provide documentation for average rent increase and Base Rents to support any rent increase under this provision of the Ordinance. (Added Ord. 94-129, § 4, eff. 1-20-95).

SEC. 12-2015. FEES OTHER THAN RENT, UTILITIES AND INCIDENTAL CHARGES.

A resident whose tenancy is not regulated by the Mobilehome Residency Law (chapter 2.5 of title II of part 2 of the California Civil Code) shall not be charged a fee for anything other than rent, utilities and incidental reasonable charges for services actually rendered. (Added Ord. 87-170, § 1, eff. 1-8-88).

SEC. 12-2016. CIVIL REMEDIES.

(a) A resident may refuse to pay any rent in excess of the maximum rent permitted by this article. The fact that the unpaid rent is in excess of such maximum rent shall be a defense in any action brought to recover possession of the mobilehome space to the extent such action is based on nonpayment of rent, or in any action brought to collect the excessive rent.

(b) Any owner who accepts, receives or retains rent in excess of the maximum rent permitted by this article shall be liable in a civil action to the resident from whom the excessive rent was accepted, received or retained for the amount such rent exceeded the maximum rent, plus reasonable attorneys' fees and court costs. Upon proof by the resident that the owner's acceptance, receipt or retention of the excessive rent was in bad faith, the owner shall be further liable to the resident in such civil action for damages equal to three times the amount by which such rent exceeded the maximum rent or $500.00, whichever is greater.

(c) The defenses, actions and remedies provided in this section are in addition to any other defenses, actions or remedies available in law or equity.

(d) The City Attorney is authorized to enforce, by judicial action or other lawful means, compliance with this article.

(e) In any action commenced pursuant to this section, the prevailing party shall be awarded court costs and reasonable attorneys' fees, in addition to any other relief granted or other costs awarded. (Added Ord. 87-170, § 1, eff. 1-8-88; Am. Ord. 91-11, § 1, eff. 3-1-91).

SEC. 12-2017. CRIMINAL PENALTY.

Any owner who willfully accepts, receives or retains rent in excess of the maximum rent permitted by this article shall be guilty of a misdemeanor and shall be punishable as provided in Section 1-105 of this Code. (Added Ord. 87-170, § 1, eff. 1-8-88).

SEC. 12-2018. SEVERABILITY.

the provisions of this article are severable. If any provision of this article is held to be unconstitutional or otherwise invalid by a court of competent jurisdiction, such invalidity shall not affect any other provisions of this article. (Added Ord. 87-170, § 1, eff. 1-8-88).

ARTICLE 21 CULTIVATION OF MARIJUANA*

Sec. 12-2101. Purpose and intent.
Sec. 12-2102. Relationship to other laws.
Sec. 12-2103. Definitions.
Sec. 12-2104. Prohibition of marijuana cultivation.
Sec. 12-2105. Violation and penalty.
Sec. 12-2106. Severability.
Sec. 12-2107. Applicability.

SEC. 12-2101. PURPOSE AND INTENT.

The purpose of this article is to prohibit the cultivation of marijuana in order to protect the public peace, health, safety and general welfare of the citizens of the city.
(Added Ord. 2014-20, § 2, eff. 5-9-14).

SEC. 12-2102. RELATIONSHIP TO OTHER LAWS.

This article is not intended to, nor shall it be construed or given effect in a manner that causes it to apply to, any activity that is regulated by federal or state law to the extent that application of this article would conflict with such law or would unduly interfere with the achievement of federal or state regulatory purposes. This article shall be interpreted to be compatible and consistent with federal, county, and state enactments and in furtherance of the public purposes which those enactments express. It is the intention that the provisions of this article will supersede any other provisions of this code found to be in conflict.
(Added Ord. 2014-20, § 2, eff. 5-9-14).

SEC. 12-2103. DEFINITIONS.

For purposes of this article, unless the particular provision or the context otherwise clearly requires, the definitions in this section shall govern the construction, meaning and application of words and phrases used in this article:

(a) "Cultivation" means the planting, growing, harvesting, drying, processing, or storage of one or more marijuana plants or any part thereof in any location.

(b) "Marijuana" means all parts of the plant Cannabis sativa L., whether growing or not, and includes medical marijuana.

(c) "Medical marijuana" means marijuana used for medical purposes in accordance with California Health and Safety Code section 11362.5.

(d) "Collective, cooperative or dispensary" means a collective, cooperative, dispensary, operator, establishment, provider, association or similar entity that cultivates,

---

***Editor's note—**Ord. 2014-20, §§ 1, 2, effective May 9, 2014, amended the Code by repealing former Art. 21, §§ 12-2101—12-2104, and adding a new Art. 21. Former Art. 21 pertained to the outdoor cultivation of marijuana, and derived from Ord. 2012-13, effective August 3, 2012.

distributes, delivers or processes marijuana for medical purposes relating to a qualified patient or primary caregiver, pursuant to the Compassionate Use Act and Medical Marijuana Program Act.

(e) "Primary caregiver" means a primary caregiver as defined in Health and Safety Code section 11362.7.

(f) "Qualified patient" means a qualified patient as defined in Health and Safety Code section 11362.7.

(Added Ord. 2014-20, § 2, eff. 5-9-14).

SEC. 12-2104. PROHIBITION OF MARIJUANA CULTIVATION.

Marijuana cultivation by any person is prohibited in all zone districts within the city. Therefore, it is unlawful for any person, corporation, or other entity owning, leasing, occupying, directly controlling or having charge of any property in this city to keep, maintain or deposit on said property any marijuana cultivation, including primary caregivers and qualified patients, collectives, cooperatives or dispensaries.

This prohibition does not apply to any person that has a city commercial cannabis business permit for cultivation as described in Article 33 of Chapter 9 of this Code, as may be amended, or for up to 6 plants grown indoors, per residence, as permitted by state law.
(Added Ord. 2014-20, § 2, eff. 5-9-14; Am. Ord. 2020-039, § 1, eff. 10-25-20; Am. Ord. 2025-022, § 1, eff. 7-18-25).

SEC. 12-2105. VIOLATION AND PENALTY.

(a) A violation of this article shall be prosecuted by the City Attorney through the civil enforcement process, including injunctive relief, as set forth in Section 1-308 of this code. Each day a person is in violation of this article shall be considered a separate violation.

(b) The administrative citation penalty for each and every marijuana plant cultivated in violation of this article shall be One Thousand Dollars ($1,000) per plant, plus One Hundred Dollars ($100) per plant per day the plant remains unabated past the abatement deadline set forth in the administrative citation.

(c) Any property upon which a violation of this article is found shall be subject to immediate abatement by the city.

(d) In addition to any administrative penalty assessed for violation of this article, any person found in violation of this article will be charged abatement, actual, administrative and enforcement costs as defined in Section 1-503, calculated to recover the total costs incurred by the city in enforcing this article.
(Added Ord. 2014-20, § 2, eff. 5-9-14).

SEC. 12-2106. SEVERABILITY.

If any section, sentence, clause or phrase of this article is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall

not affect the validity of the remaining portion of this article. The Council hereby declares that it would have passed this ordinance and adopted this article and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional.
(Added Ord. 2014-20, § 2, eff. 5-9-14).

SEC. 12-2107. APPLICABILITY.

All of the provisions of this article shall be immediately enforceable as to the outdoor cultivation of marijuana. Any person legally cultivating marijuana indoors prior to the effective date of this article shall have one hundred twenty (120) days from the effective date of this article to harvest their crop of marijuana. After the one hundred twenty day (120) grace period, all the provisions of this article shall be immediately enforceable.
(Added Ord. 2014-20, § 2, eff. 5-9-14).

ARTICLE 22 AT-RISK DEVELOPMENT

Sec. 12-2201. At Risk Defined.
Sec. 12-2202. Authority to Issue At-Risk Permits.
Sec. 12-2203. Conditions of Issuance.
Sec. 12-2204. Holder to Proceed at Its Own Risk.
Sec. 12-2205. Rules and Regulations.
Sec. 12-2206. One Year Review.

SEC. 12-2201. AT RISK DEFINED.

"At-Risk" shall be defined as construction up to and including wall and roof framing.
(Added Ord. 2022-008, § 1, eff. 6-6-22).

Editor's note—Ord. 2022-008, § 1, eff. June 6, 2022, amended the Code by renumbering former §§ 12-2201—12-2205 as new §§ 12-2202—12-2206, and adding a new § 12-2201.

SEC. 12-2202. AUTHORITY TO ISSUE AT-RISK PERMITS.

For residential, commercial, and industrial projects, after receipt of "first round" comments regarding any infrastructure improvement plans (including grading plans), and a finding the infrastructure improvement plans are substantially acceptable, or submittal of a completed application for a building permit, the appropriate official, and/or building official, is authorized to issue an "at-risk" permit for grading, sewer, water, dry utilities, buildings and structures (including model and production homes) before the relevant construction documents have been finally approved, and before the final map records. For the purpose of this article, a model home shall be a home without an identified buyer constructed for marketing purposes to show the design, structure and appearance of units in a development. A production home is a home without an identified buyer built on speculation that shall not be sold, leased, financed, or offered for sale until a final map records.
(Added Ord. 2018-17, § 1, eff. 8-2-18; Am. Ord. 2022-008, § 1, eff. 6- 6-22).

Note—Former § 12-2201. See editor's note, § 12-2201.

SEC. 12-2203. CONDITIONS OF ISSUANCE.

An applicant must pay required application and inspection fees and charges, and provide evidence of required insurance and compliance with all conditions of third party agencies (including but not limited to Pacific Gas and Electric Company, Fresno Metropolitan Flood Control District, San Joaquin Valley Air Pollution Control District, and similar agencies), all as a condition precedent to issuance of an "at- risk" permit. Up to twenty-five (25) "at-risk" permits for buildings and structures (including model and production homes) may be granted per tract, provided appropriate Fire Department approval is granted. An additional twenty-five "At-Risk" permits may be granted by the Planning and Development Director provided that Fire approval is granted and the respective Final Map for the subdivision is submitted and deemed technically correct by the Public Works Department.

Upon issuance of an At-Risk Permit, applicants shall respond within 30 days to plan review comments through the submittal of revised plans until the At-Risk Permit is converted to a formal permit, or the At-Risk Permit could be revoked. Two additional 30 days extensions may be granted by the Building Official.

(Added Ord. 2018-17, § 1, eff. 8-2-18; Am. Ord. 2022-008, § 1, eff. 6- 6-22).

Note—Former § 12-2202. See editor's note, § 12-2201.

SEC. 12-2204. HOLDER TO PROCEED AT ITS OWN RISK.

The holder of such "at-risk" permit shall proceed at the holder's own risk, including all risk of liability, and without assurance that a notice of acceptance of infrastructure improvements will be recorded, or that a certificate of occupancy for a building or structure will be granted. The holder must receive all necessary inspections during the course of "at-risk" construction. Corrections or modifications in work performed may be required to meet the requirements of the technical codes and final approved plans. Occupancy will not be permitted until all plans are approved, all conditions of approval required for occupancy are met, and the final map, if required for the property, is recorded.

(Added Ord. 2018-17, § 1, eff. 8-2-18; Am. Ord. 2022-008, § 1, eff. 6- 6-22).

Note—Former § 12-2203. See editor's note, § 12-2201.

SEC. 12-2205. RULES AND REGULATIONS.

The Development and Resource Management Department may set forth additional policies and procedures for the issuance of "at-risk" permits consistent with and to carry out the intent of this article. Any additional policy or procedure issued pursuant hereto shall be approved by the Council.

(Added Ord. 2018-17, § 1, eff. 8-2-18; Am. Ord. 2022-008, § 1, eff. 6- 6-22).

Note—Former § 12-2204. See editor's note, § 12-2201.

SEC. 12-2206. ONE YEAR REVIEW.

The operation of this article shall be reviewed by the Council within one (1) year of its effective date. The City Manager shall provide a report to the Council with findings and recommendations.

(Added Ord. 2018-17, § 1, eff. 8-2-18; Am. Ord. 2022-008, § 1, eff. 6- 6-22).

Note—Former § 12-2205. See editor's note, § 12-2201.

ARTICLE 23 RESERVED*

*__Editor's note—__Ord. 2020-054, § 1, effective December 17, 2020, amended the Code by repealing former art. 23, §§ 12-2301—12-2309, in its entirety. Former art. 23 pertained to the Money Back Guarantee/Business Streamlining Act, and derived from Ord. 2019-003, effective March 22, 2019; and Ord. 2020-040, effective October 25, 2020.

CHAPTER 13

SIDEWALKS, STREETS, PARKWAYS, AND UNDERGROUND UTILITY DISTRICTS

Art. 1. General Provisions.
Art. 2. Street Work.
Art. 3. Street Trees and Parkways.
Art. 4. Street Grades.
Art. 5. Telephones in Public Places.
Art. 6. Underground Utility Districts.

ARTICLE 1 GENERAL PROVISIONS

Sec. 13-101. Discharging of Water.
Sec. 13-102. Throwing of Dirt, Filth, Etc.
Sec. 13-103. Throwing of Nails, Glass, Etc.
Sec. 13-104. Throwing Confetti, Etc., On Streets.
Sec. 13-105. Placing Lumber in Streets.
Sec. 13-106. Sidewalk Sweeping Hours.
Sec. 13-107. Railroad Crossing Protection.
Sec. 13-108. Painting Streets or Curbs Prohibited.
Sec. 13-109. Obstructing Public Passageways.
Sec. 13-110. Alley Closures.

SEC. 13-101. DISCHARGING OF WATER.

No person owning or having in his possession or under his control any water pipe or drain shall permit the water therefrom to run across any sidewalk or public street so as to injure the same or obstruct the free travel thereon. (Orig. Ord. 1076).

SEC. 13-102. THROWING OF DIRT, FILTH, ETC.

No person shall throw or deposit, or permit to be thrown or deposited any dirt, paper, filth, sweepings of any store, house, shop or office, or any ashes, shavings, filth water, offal, straw, wood, stones, earth, manure, refuse matter or rubbish of any kind whatsoever, into any street or public place. No person or persons having control of premises from which any of the aforesaid articles shall be or may have been thrown or deposited in any street, or public place shall fail to remove the same therefrom within four hours after receiving knowledge thereof. (Orig. Ord. 1076).

SEC. 13-103. THROWING OF NAILS, GLASS, ETC.

No person shall throw, deposit or place in or upon any street, any nails, tacks, crockery, scrap iron, tin, wire, bottles, glass, thorns or thorny clippings, or thorny branches of trees or bushes, or any other article or thing likely to puncture or injure the tire of any vehicle. (Orig. Ord. 1076).

SEC. 13-104. THROWING CONFETTI, ETC., ON STREETS.

No person shall throw upon any street, or upon any person on any street, any flour, lime, bran, plaster, chalk, cut up paper, paper ribbon, confetti, or other similar substance. (Orig. Ord. 1076).

SEC. 13-105. PLACING LUMBER IN STREETS.

No person shall place or maintain in a public street any lumber, wood, timber, or other article or thing likely to puncture or injure the tire of any vehicle, likely to interfere with street sweeping or cleaning operations, or which hinders or stops the flow of water on or along the street. (Added Ord. 6389, 1964).

SEC. 13-106. SIDEWALK SWEEPING HOURS.

No person shall sweep any sidewalk, stairway, or other opening leading to the street or sidewalk within the business section of the city after the hour of 8:00 o'clock A.M. (Orig. Ord. 1076, Sec. 314).

SEC. 13-107. RAILROAD CROSSING PROTECTION.

Operators of railways within the city limits shall provide and maintain crossing protection as directed by the Public Utilities Commission of the State of California. (Orig. Ord. 1076; Am. Ord. 5311, 1958; Am. Ord. 5395, 1958).

SEC. 13-108. PAINTING STREETS OR CURBS PROHIBITED.

No person shall paint or stain any street, gutter, curb, sidewalk, street furniture or street appurtenances, except, the following:

(1) Any person, properly authorized by the state as to a state highway,

(2) Authorized city personnel and,

(3) Any person authorized by virtue of a resolution of the Council or other provision of this Code; provided, that this section shall not apply to colored materials forming part of the improvement which are installed in or added to the street as a part of the repair or construction thereof and which have been approved by the Council or a duly authorized officer of the city. (Added Ord. 6811, 1966).

SEC. 13-109. OBSTRUCTING PUBLIC PASSAGEWAYS.

No person shall stand or sit in or upon any street so as in any manner to hinder or obstruct the passage therein of persons passing along the same, or so as in any manner to annoy or molest persons passing along the same, or stand in or at the entrance of any church, hall, theatre, or place of public assemblage so as in any manner to obstruct such entrance. (Added Ord. 67-138, 1968).

SEC. 13-110. ALLEY CLOSURES.

(a) The Council finds and declares all of the following:

(1) It is in the interest of the City of Fresno to restrict vehicular and pedestrian access to alleys when closure of alleys furthers the protection and preservation of the public peace, safety, health, and welfare.

(2) The City of Fresno is experiencing the illegal dumping of items such as trash, solid waste, and discarded tires in alleys.

(3) That illegal conduct in the form of prostitution, drug transactions and similar conduct is being conducted in alleys.

(4) That illegal dumping, prostitution and drug transactions are becoming routine activities within alleys.

(5) The adoption of rules and regulations that the Council seeks to enact in this Section are for the preservation and furtherance of the public peace, safety, health and welfare.

(b) The Director of Public Works, under the supervision and direction of the Chief Administrative Officer or his/her designee, shall be the officer in charge of the function of closing alleys in accordance with this Section and shall prepare rules and regulations defining the procedures and requirements for closing alleys. Whenever a request is made to the Director of Public Works to close an alley, the Director shall determine that the closure of the alley is consistent with the findings, rules and regulations defined within this Section.

(c) The Director of Public Works shall review requests made to close an alley, when at least seventy-five percent (75%) of all adjacent property owners have consented to the closure.

(d) No alley subject to this Ordinance shall be closed for vehicular or pedestrian traffic until appropriate signs giving notice of the restriction are posted at every entrance to the alley.

(e) Any alley closed pursuant to this Section shall continue to provide access to utility vehicles or pedestrian traffic in order that the utility may maintain, operate, replace, remove or renew existing and functioning utility facilities.

(f) The alley closure shall be done in a manner to allow a delivery of freight by commercial vehicles and shall not adversely affect the operation of emergency vehicles or the performance of municipal services.

(g) This Ordinance shall not authorize the restriction of access of certain members of the public to the alley, while permitting others unrestrictive access to the alley.

(h) Any restriction of vehicular or pedestrian traffic authorized pursuant to this Section shall remain in effect for such period of time as specified or determined by the Directory of Public Works.

(Added Ord. 2003-90, § 1, eff. 11-24-03; Am. Ord. 2024-037, § 1, eff. 12-5-24).

ARTICLE 2 STREET WORK

Sec. 13-201. Definitions.

Sec. 13-229. Charges and Reimbursements.
Sec. 13-230. Grade Separation Structures and Related Facilities.
Sec. 13-231. At-Grade Railroad Crossings and Related Facilities.

SEC. 13-201. DEFINITIONS.

(a) "Asphalt concrete" shall mean a bituminous binder blended with mineral aggregate and produced at a central mixing plant;

(b) "Bituminous surface" shall mean that type of pavement consisting of a mixture of oil and native earth.

(c) "City Engineer" shall mean the City Engineer of the city acting either directly or through authorized agents.

(d) "Concrete" shall mean Portland Cement Concrete as more specifically defined in the State of California standard specifications;

(e) "Director" shall mean the Director of the Public Works Department of the city, acting either directly or through authorized agents;

(f) "Driveway approach" shall mean an area, construction or improvement between the roadway of a public street and private property intended to provide access for vehicles from the roadway of a public street to the private property line including sidewalk, apron section, and slopes and curb return;

(g) "Plant-mixed surfacing" shall mean asphalt concrete used as a pavement;

(h) "Roadway" shall mean that portion of a street right-of-way which lies between curbs or planned curb lines;

(i) "Sidewalk area" shall mean that portion of a street right-of-way which lies between the property line and the outside edge of a gutter or gutter lip, including a driveway approach;

(j) "Standard Specifications" shall mean the standard specifications of the City of Fresno, Department of Public Works, established by the Director of Public Works and adopted by the City Council;

(k) "Street Frontage" shall mean that portion of a street upon which a property abuts;

(l) "Work" shall mean all activity and things in, on, and under public property which affect the public property;

(m) "Travel Lane" shall mean that portion of the roadway consisting generally of twelve feet of permanent pavement for the passage of one lane of traffic in a single direction;

(n) "Shoulder" shall mean a portion of permanently paved roadway consisting of four (4) feet of permanent pavement installed adjacent to a travel lane;

(o) "UGM Street Fund" shall mean a fund established from charges collected pursuant to Section 13-229 of this Code through development in the Urban Growth Management Area;

(p) "Major Street Zone" shall mean a particular zone in the Urban Growth Management Area in which charges and reimbursements are established by the Council for major streets and major street bridges.

(q) "Bridge" shall mean any structure required to be constructed as part of the major street system to traverse a watercourse which would require a pipe conduit with a diameter of greater than thirty-six inches.

(r) "Local Street" shall mean any street which is not a major street.

(s) "Major Street" shall mean an arterial or collector street, an expressway or state highway, designated as such in the circulation element of the General Plan, or as shown on any other plan of streets adopted by the Council, the County or the State. (Rep. and Added Ord. 6667, 1965; Am. Ord. 78-107, § 1, eff. 7-28-78; Am. Ord. 81-55, § 1, eff. 6-12-81; Am. Ord. 82-102, §§ 1, 2, eff. 10-22-82).

SEC. 13-202. PERMITS TO DO WORK IN CITY STREETS REQUIRED.

No person shall make any excavation or dig any trench, or remove or destroy in any way any curb, gutter, sidewalk or street pavement, or alter or tear up the surface, or install any

sidewalk, curb, gutter, driveway approach, drainage well, street or alley pavement, sewer, pipeline, conduit, pole, tank or anything else in or upon any public street, alley, sidewalk or other public place in the city without first securing a permit from the Director and filing the bonds and insurance as hereinafter specified and required; provided that a permit shall not be required for work done under a contract let therefor by the Council; and provided further that a permit shall not be required for public utilities service installations or minor maintenance work in connection therewith, when such installation or work is done on any street prior to the installation of street surfacing. (Rep. and Added Ord. 6667, 1965).

SEC. 13-203. APPLICATION AND FEES.

Any person proposing to make an excavation or do any street work described in Section 13-202 which requires a permit shall file a signed application with the City of Fresno on a form specified by the City. The Council shall establish in the Master Fee Resolution a schedule of fees for filing of applications and engineering, inspection, staking, and other services to be rendered by the City in connection with work to be performed under the terms of this article. Upon the filing of an application to do street work, the applicant shall pay to the city the applicable fees. (Rep. and Added Ord. 6667, 1965; Am. Ord. 80-115, § 112, eff. 8-8-80; Am. Ord. 97-57, § 1, eff. 10-30-97; Am. Ord. 98-19, § 1, eff. 5-22-98).

SEC. 13-204. ISSUANCE OF PERMITS.

(a) A permit for any street work described in Section 13-202 which requires a permit shall be issued under the provisions of this article. Upon the filing of an application, it shall be the duty and responsibility of the Director to examine the application, and in the event the excavation proposed to be made or work proposed to be done under said application is in accordance with the provisions of this article, ordinances of the city and the laws of the State of California applicable thereto, the Director shall approve the application to make the excavation or do the proposed work. In the event it shall appear that the excavation or the work is proposed to be made or done in such a manner that it will not conform to or be in accordance with the provisions of this article, ordinances of the city or the laws of the State of California applicable thereto, then and in that event, it shall be the duty of the Director to refuse to issue a permit for the doing of the work.

(b) When an emergency arises involving an immediate hazard to persons or property, so that any work must be commenced or done before it is possible to obtain the necessary permit as required under this article, the work may be commenced or done without a permit, provided that the application and permit as required by this article be made and obtained not later than the following city working day after commencement of the work.

(c) No application or permit shall be required for the installation of a pole or poles by a public utility corporation, except where a pole is removed from or placed in existing concrete work.

(d) Whenever the Council or the Board of Supervisors, whichever is applicable, has adopted a resolution of intention to construct improvements by special assessments in the city, no

permit for any private work for the construction or installation of the improvements described in the resolution of intention shall thereafter be issued until the hearing of protest has been finally determined in favor of any protestants or the proposed work has been consummated.

(e) Permits for the construction of driveway approaches shall not be issued unless vehicles to be served or serviced can be parked as required by Chapter 12 of this code. Permits for the repair of existing approaches may be issued.

(f) Whenever any work requiring a permit under this article has been commenced without first obtaining the required permit, an inspection of the work already performed shall be conducted to ensure safety and code compliance before a permit may be issued. The Director shall impose and collect the applicable permit fee and a surcharge whether or not a permit is ever issued. The surcharge shall be specified in the Master Fee Schedule. The payment of such surcharge shall not exempt any person from complying with all the provisions of this article or from any other penalty prescribed by law.
(Rep. and Added Ord. 6667, 1965; Am. Ord. 71-24, 1971; Am. Ord. 73-96, § 1, eff. 7-22-73; Am. Ord. 86-132, § 1, eff. 9-12-86; Am. Ord. 2015-27, § 1, eff. 9-28-15).

SEC. 13-205. SURVEYING AND ENGINEERING.

(a) It shall be the duty of the City Engineer to determine and survey and set all lines and grades for all work on all public streets, alleys, easements, and public property within the city limits, excepting improvements to be constructed by the Fresno Metropolitan Flood Control District or a public utility subject to the authority of the Public Utilities Commission of the State of California. Lines and grades determined or approved by the City Engineer in the development of subdivisions, parcel map divisions or large industrial or commercial developments may be surveyed and set by licensed civil engineers or land surveyors. The civil engineer or land surveyor approved by the City Engineer to establish lines and grades shall notify the City Engineer twenty-four hours in advance of performing any field work to assure permits have been issued and an inspector assigned to the work.

(b) The City Engineer shall keep records of all such work done by him, which records shall be and remain the property of the city and shall at all times be open to public inspection. Requests for lines and grades must be given at least twenty-four hours before the work is commenced.

(c) The Public Works Department may prepare engineering plans or specifications for any work as set forth in this article.
(Rep. and Added Ord. 6667, 1965; Am. Ord. 68-121, 1968).

SEC. 13-206. BONDS.

(a) No permit shall be issued for making any excavation, or for doing any work described in Section 13-202 hereof, which requires a permit, until the applicant has filed a corporate faithful performance or license bond in the sum designated in the Master Fee Resolution, approved by the City Attorney and filed with the City of Fresno.

(b) A permit applicant shall have on file one or more bonds, which equal 100% of the estimated cost of the proposed work.

(c) The bonds shall provide that in the event the excavations or work done under street work permits issued therefor shall fully comply with the provisions of this article, then said obligation shall be void; but in the event the principal shall fail to faithfully comply with any of the provisions of this article then the City may direct the work to be done in accordance with the provisions of this article and the cost and expense of such work and, in the event of suit on the bond, attorney's fees and court costs shall be collectible from the principal and the surety or sureties on said bond.

(d) All bonds required by this section shall be for a period of not less than one year, except if a corporate faithful performance bond is filed by a public utility, it shall be effective until revoked. No bond shall be canceled except on thirty days' written notice to the Director.

(e) The Director may waive the requirements of this section providing that satisfactory evidence is produced that the applicant has filed a valid performance bond with the Fresno Metropolitan Flood Control District, which bond shall have the same conditions and shall be in the minimum amount required by this section.

(f) Whenever the excavation or work is to be done in connection with the initial installation of subdivision improvements under a subdivision agreement guaranteed by a bond or other improvement security, the bond specified by this section shall not be required. (Added Ord. 6667, 1965; Am. Ord. 80-132, § 10, eff. 10-3-80; Am. Ord. 98-19, § 2, eff. 5-22-98).

SEC. 13-207. INSURANCE.

(a) No person shall be entitled to a permit under this article unless and until he shall have filed and maintained on file with the City of Fresno a certification that such person carries public liability and property damage insurance issued by an insurance carrier licensed to do business in the State of California, insuring the applicant, the city, its officers, employees and agents as named insureds against loss by reason of injuries to, or death of, persons, or damages to property caused by the applicant, its agents or employees in performing any work under such permit, in the following amounts:

$50,000 for death of, or injury to, any one person in any one accident;

$100,000 for death of, or injuries to, more than one person in any one accident;

$25,000 for damages to property.

Said insurance is to provide for cross-liability between insureds and provide that the applicant's insurance is primary to any owned by the city.

(b) Public utilities and other public agencies shall not be required to file the certification set forth in subsection (a) of this section, provided the utility or agency agrees in writing to indemnify and defend the city, its agents and employees from liability arising from the work,

and pay all of the city's court costs and attorney's fees incurred as a result of claims being made for damages therefor, that there shall be filed and maintained with the City, certification

showing the maintenance of a satisfactory plan of self-insurance, or sufficient evidence is to be presented that the public utility or other public agency is of sufficient financial responsibility to provide the necessary indemnification. (Added Ord. 6667, 1965; Am. Ord. 98-19, § 3, eff. 5-22-98).

SEC. 13-208. STREET IMPROVEMENTS. DEDICATION.

(a) All work performed within a street shall be in accordance with standard specifications established by the Director, and adopted by the City Council. The Director shall prepare standard specifications for all of the work performed in public streets under this article.

(b) No more than sixty per cent of any street frontage shall be constructed with driveway openings. The Director may, under the provisions of Section 13-216, grant a deviation in the amount of frontage allowed in driveway openings and their widths along certain street frontages serving industries or manufacturing plants requiring mass transportation facilities.

(c) No building permit shall be issued for any building or structure to be erected, altered, expanded, or enlarged on any lot to the extent that the cost of such work exceeds fifty per cent of the estimated current replacement cost to replace the present building or structure in kind, unless the one-half of any street contiguous thereto has been dedicated and street improvements thereon have been provided for. In the event official plan lines have not been established, the Director shall determine all street widths for dedication to protect the public interest, safety and general welfare, providing, however, the applicant for said permit may appeal the determination of the Director to the City Council in the manner provided in Section 13-216 of this article.

(1) The maximum area of land required to be so dedicated shall not exceed twenty-five per cent of the area of any such lot which was of record on September 1, 1965, in the Fresno County Recorder's Office. In no event shall such dedication reduce the lot below a width of fifty feet or an area of five thousand (5,000) square feet.

(2) No such dedication shall be required with respect to those portions of such a lot occupied by a main building which was existing on July 1, 1965.

(3) No additional improvements shall be required on such a lot where complete asphalt concrete roadway, concrete curb, gutter, and sidewalk improvements exist within the present dedication contiguous thereto.

(d) The Director may require the owner of property adjacent to any arterial or collector street to construct the outer twelve-foot wide travel lane on the arterial or collector street section whenever the Director determines such construction is required. The Director shall use the standards set forth in Chapter 27 of Division 7 of the Streets and Highways Code in making his determination as if the provisions of that code expressly authorized such action concerning arterial and collector streets. The Director shall follow the procedures set forth in Chapter 27 of Division 7 of the Streets and Highways Code to accomplish the street work described above. The adjacent property owner may also dedicate such additional right-of-way as is necessary to construct the street improvements required by this subsection upon a Deed

of Easement prepared by the city. The Director shall follow the procedures set forth in Chapter 27 of Division 7 of the Streets and Highways Code to accomplish the construction and to perfect and enforce the lien.

(1) If the property owner has not dedicated such additional right-of-way within thirty days after the city's written request for the right-of-way or completion of all protest proceeding under Chapter 27 of Division 7 of the Streets and Highway Code, whichever is earlier, then the city may acquire the right-of-way with its own funds. In that event, the cost of the right-of-way shall become a lien upon the property as herein provided.

(2) When the city acquires right-of-way because owner does not dedicate it, then the cost(s) of acquisition shall be reimbursed to the city upon subsequent development of the property, as herein provided. The amount to be reimbursed shall be estimated and recorded in a notice of potential lien applicable to the adjoining property, in the manner provided by Section 13-229(f), and reimbursed to city.

It is the intent of the city, in referring to the Streets and Highway Code in this subsection (d), to merely borrow the procedures set forth therein. The City relies on the authority it possesses under this Municipal Code and its charter in establishing the foregoing requirements.

(e) Whenever street improvements are required, the Director shall require curb, gutter, driveway approaches and asphalt concrete surfacing to be placed on an approved base for the frontage improved as follows:

(1) Major Street (arterial and collector): A distance of twenty feet from face of curb; or

(2) Local street: A distance of eighteen feet from the face of curb or to the center of the street, whichever is greater.

If the adjacent portion of the street have not been constructed to the planned grade, the lot owner or improver shall pay the city the estimated cost of the work as determined by the Director in lieu of constructing the required street improvements.

(f) Whenever street improvements are required, concrete sidewalks, curbs, gutters, and driveway approaches shall be provided or repaired (except for damage caused by roots of trees located in city streets) along all street frontages in accordance with current standard specifications, with the following exceptions:

(1) Sidewalk Waivers. A deviation to omit sidewalks may be granted pursuant to Section 12-1018 of this Code relating to modification of subdivision requirements, or by the Director pursuant to the provisions of Section 13-216, in accordance with the following:

(i) Local Streets. Waivers of sidewalk requirements on local streets may be made in residential zone districts where the average lot size is twelve thousand five hundred square feet or more in area, and in the C-M, M-1-P, M-1, M-2 and M-3 zone districts. The approval of any such waiver shall be based upon the nature of development in the general area and not solely upon an individual property.

(ii) Major Streets. Waiver of sidewalk requirements on major streets may occur when associated with development entitlements in the M-2, M-3 and R-M zoning districts if the Director determines that it will be physically impractical or infeasible to install a sidewalk in the area, and that the waiver of the sidewalk requirement will not be detrimental to the public safety. In addition to the consideration of other criteria which may be established by the Director, a determination waiving sidewalk requirements shall not be made unless the Director finds as follows:

1. That the waiver will not presently or prospectively have a detrimental effect upon general pedestrian safety, school routes, and pedestrian traffic resulting from mass transit service.

2. That no other sidewalk exists along the same side of the major street on which the waiver is requested between the two intersecting major streets on either side of the waiver area.

3. The major street on which the waiver is requested is paved to a width sufficient that no travel lane is within eight feet of the curb along the frontage of the sidewalk waiver.

(iii) Appeal of Director's Decision. In the event a sidewalk waiver is approved by the Director, the owners of properties within a radius of three hundred feet of the exterior boundaries of the property the subject of the deviation shall be notified in writing of the decision. Such notices shall be by prepaid mail and the owner, for the purposes of such notices, shall be deemed to be the person or persons to whom the properties were assessed on the last assessment roll. The address to which such written notice shall be mailed shall be that shown upon such assessment roll. Such owners may appeal the Director's determination to grant a deviation under the provisions of Section 13-216.

(2) In the R-M District, street improvements shall be installed in accordance with the Standard Specifications of the City of Fresno for modified streets.

(3) When development may occur in stages, and only a portion of the property is to be improved, the Director may, in his discretion, allow sidewalks and driveway approaches to be confined to that portion of the street frontage abutting the portion of the property being developed, including areas used for parking of motor vehicles. This exception shall not apply if that portion to be improved is two-thirds or more of the total frontage or if fifty feet or less of street frontage would remain unimproved. When the balance of the property is improved, by landscaping or otherwise, sidewalks and necessary driveway approaches shall be required.

(4) In the case of city parks or playgrounds, curbs and gutters shall always be provided. Sidewalks may be omitted along all minor street frontages, except where playground usage requires fencing, and in these instances sidewalks shall also be provided.

(5) In the case of large developments requiring a Conditional Use Permit, or Site Plan review, under the provisions of Chapter 12 of this Code, the Director may, in his discretion, approve the installation of sidewalks in locations other than as required in the standards specifications providing that safety and aesthetic value are maintained.

(6) The Director of the Development Department shall deny the final approval or occupancy of any building until he has determined that required dedications have been made and street improvements required by this article are completed or have been guaranteed by a secured written agreement in such form and executed as required by the Director and approved by the City Attorney. The security for such agreement shall be in a form approved by the City Attorney and recommended by the Director, or by cash deposited with the city in an amount determined by the Director.

(g) In the R-A, AE-5 and AE-20 zone districts on a developed lot at least four net acres in size, when a portion not less than twelve thousand five hundred square feet of such lot is to be improved with one additional single-family residence, the Director may waive, separately or collectively, the curbs, gutters, sidewalks, driveway approach or permanent paving on the portion to be improved or on the remaining portion of such lot.

(1) If street improvements waived in accordance with this subsection (g) include a driveway approach, the Director shall require that an interim driveway approach be installed in a manner approved by the Director.

(h) The street improvement requirements of this section may be waived by the Director if the Director determines that such waiver will not be detrimental to the public safety and welfare and when the purpose for the requested building permit is the reconstruction of a building destroyed or partially destroyed due to an Act of God, and when no development or expansion other than such reconstruction is to be undertaken. (Added Ord. 6667, 1965; Am. Ord. 77-27, § 1, eff. 4-17-77; Am. Ord. 78-30, § 1, eff. 4-7-78; Am. Ord. 78-190, § 1, eff. 1-19-79; Am. Ord. 82-56, § 1, eff. 7-2-82; Am. Ord. 82-58, § 1, eff. 7-2-82; Am. Ord. 82-82, § 2, eff. 9-17-82; Am. Ord. 82-105, § 9, eff. 10-29-82; Am. Ord. 83-150, § 1, eff. 12-2-83; Am. Ord. 89-41, § 1, eff. 5-19-89; Am. Ord. 90-120, § 1, eff. 12-7-90).

SEC. 13-209. STREET IMPROVEMENTS WAIVER. INFILL AREAS.

(a) Street improvement requirements for paving adjacent to lots with frontage on existing paved streets or alleys which are not paved in accordance with the adopted standard specifications may be waived pursuant to the procedures of Section 13-216 if the Director determines as follows:

(1) The property is zoned for residential uses.

(2) The property is located in an infill area of the city where the property in the general vicinity is substantially developed.

(3) More than fifty percent of the entire width of the street or alley upon which the property is located, between the nearest intersecting streets, is paved in a manner which is not in accordance with the adopted standard specifications.

(4) The frontage of the development constitutes less than fifty percent of the adjacent street or alley frontage between two intersecting streets, or is less than six hundred feet.

(5) The granting of the waiver will not be materially detrimental to the public welfare, safety or convenience, and will not adversely affect the rights of adjacent property owners or occupants, or be injurious to property or improvements in the area of the requested waiver.

(b) In all cases in which a waiver is granted, concrete curb and gutter must be installed in accordance with subsection (e) of Section 13-208. If the curb and gutter cannot be installed to planned line and grade without removal of existing paving, transitional pavement shall be required to conform to the new concrete improvements. Whenever concrete improvements are installed, paving shall be installed from the concrete improvements to the edge of existing paving.

(c) No waivers shall be permitted on major streets and for subdivisions or parcel maps consisting of more than four parcels. (Added Ord. 80-175, § 1, eff. 1-9-81; Am. Ord. 81-22, § 1, eff. 3-3-81; Am. Ord. 87-58, § 1, eff. 6-26-87).

SEC. 13-210. STREET IMPROVEMENTS DEFERRAL. INFILL AREAS.

(a) **Sidewalk Deferrals.** Deferral of sidewalk requirements may be granted by the Director pursuant to the procedures in subsection (a) of Section 13-216 if the Director finds that all the following conditions exist:

(1) The property is zoned for single-family residential uses.

(2) The property is located in an infill area of the city where other property in the general vicinity is substantially developed.

(3) More than fifty percent of the street upon which the property is located, between the nearest intersecting streets, does not have sidewalks.

(4) The street frontage of the property constitutes twenty percent or less of the adjacent street frontage between the two nearest intersecting streets.

(5) The deferral will not presently or prospectively have a detrimental effect upon pedestrian safety, school routes, handicap facilities or pedestrian traffic resulting from mass transit service.

(b) **Concrete Improvement Deferrals.** Deferral of concrete improvement requirements, including curbs, gutters and driveway approaches, may be granted by the Director pursuant to the procedures in subsection (a) of Section 13-216 if the Director finds that all the following conditions exist:

(1) The property is zoned for single-family residential uses.

(2) The property is located in an infill area of the city where other property in the general vicinity is substantially developed.

(3) More than fifty percent of the street upon which the property is located, between the nearest intersecting streets, is not improved in accordance with the Standard Specifications.

(4) The frontage of the property constitutes twenty percent or less of the street frontage between the two nearest intersecting streets.

(5) Construction of the concrete improvements is not needed to eliminate existing drainage problems.

(6) Sidewalks do not exist in the area or are also deferred pursuant to subsection (a) of this section.

(7) The deferral will not presently or prospectively have a detrimental effect upon pedestrian safety, school routes, handicap facilities or pedestrian traffic resulting from mass transit service.

In addition to the above, the Director may also grant a deferral of concrete improvement requirements if he determines that the improvements cannot be constructed to permanent grade without major reconstruction of an adjacent street.

(c) Any request for sidewalk or concrete improvement deferral pursuant to this section shall be submitted by the property owner in writing. The request shall include a reasonably detailed statement on how the property qualifies for deferral under this section. The request shall also be accompanied by a fee in the amount designated in the Master Fee Schedule.

(d) No sidewalk or concrete improvement deferral shall be permitted on major streets or for parcel maps consisting of more than four parcels.

(e) **Deferral Agreement.** Any deferral pursuant to this section shall be conditioned on the owner entering into an agreement with the city for future construction of such sidewalks or concrete improvements at his sole cost and expense, including but not limited to cost of inspection. The agreement shall be recorded and shall be subject to and provide for the following:

(1) Construction of improvements shall commence within ninety days after the date of written demand from the Director to construct the improvements. The demand shall be based on the Director's determination that one or more of the conditions described in subdivisions (1) through (5) of subsection (a) or in subdivisions (1) through (7) of subsection (b), as applicable, have substantially changed. The demand shall state the basis for the demand and be mailed to the owner at the address specified in the agreement.

(2) Within sixty days after written demand by the Director to construct the improvements, the owner shall provide security to guarantee construction and completion of the deferred improvements. The security shall be in an amount equal to one hundred percent of the estimated cost of completing the improvements and shall be in the form of cash, a certificate of deposit assigned and payable to the city, an irrevocable straight letter of credit, or other form acceptable to the Director and the City Attorney. The security shall be maintained in full effect at all times until the improvements are completed and accepted by the City.

(3) The owner shall not protest the formation of any assessment district to finance construction or acquisition of the deferred improvements.

(4) If the owner fails to construct or complete the deferred improvements within the time required by the agreement, the city may, but shall not be obligated to, construct and complete the improvements. The owner shall be fully responsible for all costs incurred by the city in connection with completion of the improvements. A final accounting of such costs, when confirmed by the Director and recorded in the official records of the County, shall be a lien on the property. The owner shall be given written notice of the costs, by certified mail, at the most recent address on file with the Director or, if none, at the owner's address shown on the last equalized assessment roll. If the owner does not pay the costs in full within thirty days after the date of such notice, interest shall accrue on the unpaid costs at the maximum legal rate from the date the accounting of the costs was confirmed. The lien shall not be released until all such costs, including accrued interest, are paid in full, according to terms specified in the agreement. The remedy provided in this subdivision (4) shall be in addition to and without limitation on any other rights or remedies that may be available to the city, including but not limited to the right to resort to any security submitted by the owner.

(5) **Appeal.** The owner may appeal the Director's demand for construction of the deferred improvements to the Council, but only to the extent such demand is based on the Director's determination that the condition described in subdivision (5) of subsection (a) or subdivision (7) of subsection (b), as applicable, has substantially changed. The appeal must be received by the Director within fifteen days after the date of the written demand for construction from the Director. The appeal shall be in writing and state in reasonable detail why the appeal should be granted. Upon receipt of a proper appeal within the fifteen day period, the Director shall set aside the demand for construction of the deferred improvements and set the matter for hearing before the Council within thirty days after the date of filing the appeal. Notwithstanding the above, a demand for construction of deferred improvements made in conjunction with an assessment district shall not be subject to appeal. (Added Ord. 88-46, § 1, eff. 4-15-88).

SEC. 13-211. ABANDONMENT OF DRIVEWAY APPROACHES.

Before a permit of occupancy may be issued to, or a building may be occupied by, any person, the property owner shall remove any unused existing driveway approaches and reconstruct the sidewalk, curb and gutter displaced by the driveway approach to coincide with the adjacent sidewalk, curb and gutter in accordance with the provisions of this article. (Added Ord. 6667, 1965).

SEC. 13-212. EXCAVATION AND BACKFILL.

(a) All work of excavation or backfilling in a public street shall be done as quickly as possible. Not more than 600 linear feet of trench shall be open ahead of any sewer, pipe line or conduit in any street or alley, except that upon written permission of the City Engineer such trenches may be opened for a distance of not more than 1,200 linear feet where public traffic will not be seriously inconvenienced. No excavation or trench shall be opened and left open more than twenty-four hours before the installation of the sewer, pipe line or conduit which is to be placed in said excavation or trench; and the backfilling of said excavation or trench shall

be completed within twenty-four hours after the installation of the facility for which the excavation was made, excepting that portion of the trench or excavation to be used for connecting the extension of the installation, provided said portion is adequately barricaded and protected and then backfilled the following working day. Excavations or trenches for poured in place concrete pipe may remain open for a period not to exceed seven days, providing said excavations or trenches are adequately barricaded and access is provided for abutting property owners and at all street intersections.

(b) Where an excavation or trench crosses a street or alley intersection, the excavation and backfilling shall be completed within twenty-four hours, or bridging capable of supporting vehicular traffic shall be provided for access across said excavation or trench.

(c) An excavation within a street or alley for the purpose of boring or jacking pits or for the installation of structures shall be properly barricaded and protected and may be left open for a period of seven days and then must be backfilled, unless an extension of time is approved by the Engineer in writing. (Added Ord. 6667, 1965).

SEC. 13-213. REPLACEMENT OF SURFACES.

(a) When an excavation or trench is in a street or alley, it shall be repaired, backfilled and surfaced in accordance with the standard specifications established by the Director and adopted by the City Council.

(b) When a pole has been removed from any street, alley, sidewalk or other public place, the hole in the case of concrete or asphalt concrete, shall be made even by saw-cutting and then shall be refilled and compacted as specified for the back-filling of trenches in the standard specifications. The surface of the hole shall conform to the same type of surfacing as then exists in the same manner as specified for resurfacing of trenches and made to conform to the same appearance as that of the surrounding area. (Added Ord. 6667, 1965).

SEC. 13-214. SAFETY.

(a) All work described in this article shall be done in accordance with the regulations provided in the City and County of Fresno Traffic Control Manual dated 1963 as the same may be amended or revised.

(b) It shall be the duty of any person making any excavation or doing any work in any public street, alley, easement or other public place to provide and maintain such fences, barriers, signs, lights and watchmen as may be necessary to prevent avoidable accidents to the public. Such person shall also provide for the elimination of dust during the period of construction. The City reserves the right at all times to determine the adequacy and sufficiency of all safety measures, barriers and dust prevention measures, but does not hereby assume responsibility or liability therefor.

(c) The Director and any contractor or other person lawfully excavating, repairing or otherwise improving the whole or any portion of any street, alley, easement or other public place in the city may place barriers around or about the whole or any part of such street, alley,

easement or other public place being so repaired, replaced or improved, in order to keep travel and traffic off the area under work. No person, except an employee of the city, emergency vehicle driver or employee of the street work permittee, shall remove any such barrier or barriers so placed or maintained, nor drive over or upon any portion of such street, alley, easement or other public place so enclosed or protected by such barrier or barriers, nor walk upon any portion thereof in such manner as to injure or damage the improvement or repair being made thereto. Notices of intention to place such barriers shall be given by the agency or contractor engaged in excavation or other work to the Chief of the Fresno Fire Department and the Chief of Police of the Fresno Police Department not later than twenty-four hours before such barriers are placed if such barriers shall block off more than eight feet of the width of any street between curb lines.
(Added Ord. 6667, 1965).

SEC. 13-215. INSPECTION.

It shall be the responsibility of the Director to enforce the provisions of this article and to inspect all work done under the provisions hereof. The Director shall at all times have access to the work being done and shall be furnished with every reasonable facility for ascertaining full knowledge respecting the progress, workmanship and character of materials used and employed in the work.
(Added Ord. 6667, 1965).

SEC. 13-216. DEVIATIONS.

(a) The Director may grant, in writing, deviations from the requirements of this article when the granting of deviation will not be materially detrimental to the public welfare, safety or convenience, and will not adversely affect the rights of adjacent property owners or occupants or be injurious to property and improvements in the area in which the deviation is requested, and when he finds that the requirements of this article will work unnecessary hardship upon the applicant, and there are exceptional or extraordinary circumstances or conditions applicable to the applicant's property or to the intended use of the property which do not apply generally to other properties in the area. Deviations shall be requested by the property owner of property affected or by the permittee if the deviation does not affect any particular private property. The Director shall make his determination and inform the applicant of his decision and of the applicant's right to appeal, in writing within fifteen days after receipt of a deviation request. The determination of the Director may be appealed to the Council within thirty days after the appellant has been informed of the determination in writing or by notation upon and delivery of his plans or building permit. The appeal shall be in writing, filed in duplicate, and shall refer to the determination complained of, and set forth the reasons for the appellant's objections thereto and the facts upon which he bases his reasons. Upon receipt of an appeal, the City Clerk must set the matter for hearing before the Council not less than ten nor more than thirty days thereafter, and shall deliver a copy of the appeal to the Director and give written notice of the hearing date and place to the appellant and the Director. The Council may affirm, modify, or reverse the determination or dismiss

the appeal therefrom, as may be just. The hearing before the Council shall be conducted informally, may be continued, and the Council shall render its decision within fifteen days after the close thereof. The decision of the Council shall be final.

(b) The Director of Public Works may permit postponement of any or all of the improvements required by this article when plans have been formulated for a federally assisted neighborhood improvement program which will accomplish or financially aid accomplishment of the installation of said improvements, and the owner enters into a recordable written agreement in a form approved by the Director waiving the owner's right to protest the formation of an assessment district to construct said improvements and waiving his rights for time payment for the cost to construct said improvements should said program not proceed within three years and the Director of Public Works causes the improvements to be installed at the owner's expense as provided for in Chapter 27 of Part 3 of Division 7 of the Streets and Highways Code.
(Added Ord. 6667, 1965; Am. Ord. 69-94, 1969; Am. Ord. 80-171, § 91, eff. 12-26-80; Am. Ord. 80-175, § 2, eff. 1-9-81).

SEC. 13-217. DUTY OF PROPERTY OWNER TO REPAIR SIDEWALKS.

The owners of lots or portions of lots fronting on any portion of a public street or place which is improved shall have the duty to maintain and repair the sidewalk area as defined in this article in accordance with the provisions of Chapter 22, Part 3, Division 7 of the California Streets and Highways Code, provided, however, that after written notice to the Director and concurrence by him/her that the condition is hazardous, the city shall make the following repairs:

(a) Repairs to the sidewalk area which are necessitated by damage caused by trees located within the street right-of-way.

(b) Repairs to gutters, including curbs if the curb and gutter are of monolithic construction.

Notwithstanding the above, the property owner shall be responsible to repair damage caused by him/her, his/her agent, or by persons acting under the property owner's direction or control. The Director shall have the power and duty of enforcing the repair and maintenance of sidewalk areas required by this Section in accordance with the provisions of Chapter 22, Part 3, Division 7 of the California Streets and Highways Code. Whenever the repair of sidewalk areas include the repair of damage to curbs or gutters, the work shall be performed by a licensed contractor. Permit applicants shall not be required to pay permit processing or inspection fees or provide liability insurance or performance bonds, notwithstanding Sections 13-206 and 13-207 herein, for sidewalk areas required to be repaired.
(Added Ord. 6667, 1965; Am. Ord. 81-55, § 2, eff. 6-12-81; Am Ord. 97-57, § 2, eff. 10-30-97).

SEC. 13-218. DUTY OF PROPERTY OWNERS TO MAINTAIN ALLEYS.

(a) Every owner or occupant of a lot adjacent to a dedicated and improved alley shall have the duty to maintain that portion of the alley adjacent to his lot in a clean and orderly manner and to keep the alley free from those substances and obstructions identified in Sections 13-102 and 13-103 of this Code.

(b) Expressive Alleys. The Council may by resolution designate alleys within a certain geographic region to be "Expressive Alleys." These alleys shall be subject to the following regulations.

(1) Whenever physically possible, trash bins and roll-off containers shall be stored out of sight in a locked enclosure contained within their property.

(i) Owners of structures which were constructed prior to the adoption of this Section shall not be required to construct new trash enclosures.

(ii) Property owners of new construction within designated alleys may be required to construct trash enclosures.

(2) Trash bins and roll-off containers shall be placed for collection before 5:30 a.m. of the collection day, but not before 6:00 p.m. of the preceding day. The containers shall be moved back to their normal storage location by not later than 8:00 p.m. of the collection day unless authorized by the Director.

(Added Ord. 80-185, § 1, eff. 1-23-81; Am. Ord. 2018-38, § 1, eff. 7-27-18).

SEC. 13-219. ENCROACHMENT IN A PUBLIC RIGHT-OF-WAY.

(a) No person shall encroach upon any public right-of-way of the city unless and until such person first obtains and maintains in force and effect a valid encroachment permit issued by the Director. The Director may issue an encroachment permit only when the following conditions have been met:

(1) The record owners of the real property adjacent to the encroachment area have executed and recorded a covenant agreement approved by the City Attorney indemnifying the city for all liability resulting from the use or occupation of the encroachment area.

(2) An application for an encroachment permit has been completed on a form designated by the Director which describes the purpose for the encroachment and the work to be done therein.

(3) Fees relating to the issuance of the encroachment permit, as established by the Master Fee Resolution, have been paid.

(4) The Director determines that the issuance of the encroachment permit will meet a legitimate purpose of the applicant, and that such purpose cannot be feasibly accomplished by any means other than through the issuance of an encroachment permit.

(5) The Director determines that the issuance of an encroachment permit will not be detrimental to the public health, safety, and welfare.

(b) The applicant shall comply with all additional terms, conditions, and restrictions incorporated within the permit and/or covenant which the Director may impose.

(c) Issuance of an encroachment permit shall not relieve the applicant from the obligation of obtaining a street work permit pursuant to Section 13-202 for any work to be done in the public right-of-way contiguous to, or within, the area of the encroachment.

(d) The Director shall revoke any encroachment permit upon determining that the applicant has failed to comply with one or more of the terms, conditions, or restrictions incorporated in the permit or the covenant and shall order the removal of all structures from the encroachment area. This Subsection shall not apply to Subsection 12-328(F) of the Outdoor Dining Ordinance.

(e) The decision of the Director, or any term, condition, or restriction imposed, may be appealed to the Council pursuant to the provisions of Section 13-216 of this Code.
(Added Ord. 79-80, § 1, eff. 6-1-79; Am. Ord. 80-115, § 113, eff. 8-8-80; Am. Ord. 2014-17, § 2, eff. 4-18-14).

SEC. 13-220. DUTY OF PROPERTY OWNER WITH RESPECT TO DOWNSPOUTS, SIDEWALK ELEVATORS AND SIMILAR INSTALLATIONS.

The owner of lots or portions of lots abutting on any portion of a public street, alley or easement shall be responsible for the maintenance of downspouts, elevators or other

installations made in or under any part of the street, alley or easement for the benefit of such property, and for any repairs which may be necessary to the street, curb, gutter, sidewalk or utility by reason of such installation. Whenever the Director determines that repairs are necessary, he shall give notice to the property owner to make such repairs, using the procedure prescribed in Chapter 22, Part 3, Division 7 of the California Streets and Highways Code for the maintenance of sidewalks, and the procedure prescribed in such sections shall apply to such repairs and the collection of the cost of such repairs.
(Added Ord. 6667, 1965).

SEC. 13-221. DITCHES, FLUMES, CONDUITS, ETC.

No person shall have, build or maintain any canal, ditch, flume or artificial stream or conduit for water within or upon any street or public place within the city without the same being covered and enclosed in a safe, solid and substantial manner, with sound and durable material, approved by the Director. Whenever the Director shall discover any such ditch, flume or artificial stream, or conduit of water uncovered, and in such condition as to be anywhere inconvenient, dangerous or injurious or a nuisance to the public in any manner, he shall give one day's notice in writing to the person having or maintaining such canal, flume or artificial stream or conduit of water, such notice to specify what shall be done by said person to render such canal, ditch, flume or artificial stream or conduit of water safe; then such person shall within thirty days cause the same to be covered and repaired in the manner directed by the Director.
(Added Ord. 6667, 1965).

SEC. 13-222. CABLES, WIRES, ROPES, FLAGS, BANNERS, ETC.

No person shall run, or stretch or maintain, through, along or across any street any wire, cable, rope, cord, flag, banner or similar thing with less clearance than eighteen feet above the street, and all such installations shall be in compliance with and subject to the conditions of the Public Utilities Commission of the State of California, its rules for "Overhead Line Construction" — General Order No. 95, and any applicable ordinance or regulation of the city.
(Added Ord. 6667, 1965).

SEC. 13-223. OBSTRUCTIONS; PUBLIC NUISANCES.

Whenever any subsurface, surface, or above surface obstruction existing in, on, or above any public right of way within the city interferes with, obstructs, or would obstruct, any public improvement, or proposed public improvement, of such right of way, such obstruction shall constitute a public nuisance and may be summarily abated by, or at the direction of, the Director.
(Added Ord. 6667, 1965).

SEC. 13-224. PUBLIC NUISANCES. PENALTIES.

In addition to any other penalty or remedy provided by law, every person who maintains a public nuisance described in Section 13-223 shall be guilty of a misdemeanor, punishable as provided by law.
(Added Ord. 6667, 1965).

SEC. 13-225. FAILURE TO DO WORK. POWER OF DIRECTOR. COST OF WORK.

Whenever this article requires certain work, or requires that work done shall be done in a certain manner pursuant to specified rules or specifications or requires that any steps be taken to protect persons or property, by a permittee, contractor or other person, and such person fails

to comply with this article, then the Director shall give such person notice as prescribed in this article or if none be prescribed, written notice given pursuant to Section 1-212 of this Code and the following provisions; the notice shall specify the failure and demand compliance with this article and state that if compliance is not achieved within thirty days of the date of the notice, then the Director will cause the work to be done and the cost and expenses thereof to be paid by such person. In the event the failure causes, in the opinion of the Director, an immediate hazard to persons or property, the Director may shorten the thirty day period or cause to be done immediately, without notice, such part of the work or steps necessary to abate the hazard. The cost and expenses of such work, together with attorney's fees and court costs in the event of a suit for collection, shall be paid by such person and may be collectible on or from any bond or other performance security provided to secure that the provisions of this article are complied with. (Added Ord. 6667, 1965).

SEC. 13-226. EXCEPTION FROM ARTICLE.

This article applies to all those things which, when installed, make up and become part of public streets or their substructure and to the manner of their installation, but it shall not be deemed to set standards for the materials in, type, quality, or quantity of, or method of assembly of, property of a public utility or government (such as pipes, manholes, wires, cables, underground vaults, etc.) unless the possibility of failure of the thing to be placed will endanger any property or persons and in such case the thing must be engineered so as to be safe. (Added Ord. 6667, 1965).

SEC. 13-227. OBSTRUCTION TO VISIBILITY AT INTERSECTIONS.

(a) On property at any street corner formed by intersecting streets or on a curved street, it is hereby declared hazardous, a nuisance and unlawful to install, set out, or maintain, or to allow the installation, setting out, or maintenance of any sign exempted by Section 12-1710 from the sign permit requirement, fence, wall, hedge, shrubbery, natural growth or other similar obstruction to the view, higher than three feet above the level of the center of the adjacent intersection, within that triangular area between the property lines and a diagonal line joining points on the property lines, thirty feet from the point of their intersection, or in the case of rounded corners the triangular area between the tangents to the curve and a diagonal line joining points on said tangent thirty feet from the point of their intersection.

(b) The foregoing subsections shall not apply to:

(1) Buildings and other structures for which a permit is required under the Building Code of the city, public utility poles, fire hydrants, trees trimmed to the trunk to a line at least eight feet above the level of the intersection, saplings, plant species of open growth habits and not planted in the form of a hedge, which are so planted and trimmed as to leave at all seasons a clear and unobstructed cross-view for vehicular traffic on the curved or intersecting streets;

(2) Supporting members of appurtenances to permanent buildings existing before September 26, 1953, except as provided herein, no obstruction to cross-visibility of traffic shall be deemed to be excepted from the application of this section because of its being in existence on September 26, 1963;

(3) Official warning signs or signals at places where the contour of the ground is such that there can be no traffic cross-visibility at the intersection;

(4) Signs mounted ten feet or more above the ground or signs whose supports do not constitute an obstruction to cross-visibility of traffic. (Added Ord. 68-1, 1968; Amnd. Ord. 73-51, 1973; Am. Ord. 91-125, § 1, eff. 12-20-91).

SEC. 13-228. INTERSECTION VISIBILITY, INVESTIGATION AND ENFORCEMENT. LIEN.

Whenever any person neglects to conform to, or to provide that property over which he has control, conforms to the provisions of Section 13-230, the City Traffic Engineer may require, upon 20 day's written notice, such compliance. Said person may within said time object to or protest the requirements of said notice by appealing to the Council which shall hear and pass upon the appeal within 15 days. In the event non-compliance continues thereafter, the City Traffic Engineer may cause the work to be done to bring the property into compliance with Section 13-230. The work and a lien therefor shall be accomplished as provided in Sections 13-1217 through 13-1223 of this Code*. As used in said sections, the following words or terms shall have the following meanings:

(1) Director of Public Works, and Building Official shall mean City Traffic Engineer.

(2) Repair, demolish, demolishing or work of repair or demolition shall mean the work of bringing the property into such compliance, including all necessary and proper acts incidental thereto.

(3) Building or structure shall mean the areas of properties which are required to be in such conformance.

(4) Article 4 of Chapter 11, as used in the Notice of Lien, shall mean this section. (Added Ord. 68-1, 1968).

SEC. 13-229. CHARGES AND REIMBURSEMENTS.

(a) **Major Street Zones.** Nine major street zones, as provided by this subsection, and as defined by this article, shall be established in the Urban Growth Management Area. The Official Record Map of each zone shall be kept on file in the Public Works Engineering Division. Each lot within the Urban Growth Management Area shall be subject to the

*__Note—__The adoption, amendment, repeal, omissions, effective date, explanation of numbering system and other matters pertaining to the use, construction and interpretation of this Code are contained in the adopting ordinance and preface which are to be found in the preliminary pages of this volume.

applicable fees and fee credit schedules for the particular Major Street Zone in which it is located. Said fees and fee credits shall be at the rates designated in the Master Fee Resolution.

(1) Major Street Zone "A" shall consist of all properties within the Urban Growth Management Area located north of the center line of East Nees Avenue, east of the San Joaquin River Bluff Line, and west of the centerline of North Millbrook Avenue extended to East Copper Avenue and west along the center line of East Copper Avenue to the Bluff Line.

(2) Major Street Zone "B" shall consist of all properties within the Urban Growth Management Area located east of the center line of North West Avenue, north of the center line of West Herndon Avenue, west of the center line of North Blackstone Avenue, and south of the center line of West Nees Avenue to the San Joaquin River Bluff line.

(3) Major Street Zone "C/D-2" shall consist of all properties within the Urban Growth Management Area located west of the center line of North West Avenue, north of the center line of West Herndon Avenue to North Marks Avenue, and thence north of the center line of West Shaw Avenue, and east of the right-of-way line of Freeway 99.

(4) Major Street Zone "D-1/E-2" shall consist of all properties within the Urban Growth Management Area located south of the center line of East Ashlan Avenue, and east of the center line of South Cedar Avenue.

(5) Major Street Zone "E-1" shall consist of all properties within the Urban Growth Management Area located east of the center line of North Blackstone Avenue between the center line of East Nees Avenue and the center line of East Herndon, and all the land within the Urban Growth Management Area located east of the center line of North Millbrook Avenue that does not require a financial feasibility study under the adopted 1984 Fresno General Plan.

(6) Major Street Zone "E-3" shall consist of all properties within the Urban Growth Management Area located west of the center line of South Cedar Avenue, and south of the Southern Pacific Railroad Track located at the quarter-mile point between West Nielsen and West Belmont Avenues.

(7) Major Street Zone "E-4" shall consist of all properties within the Urban Growth Management Area located north of the Southern Pacific Railroad Track located at the quarter-mile point between West Nielsen and West Belmont Avenues, and west of the Southern Pacific Railroad Track along Motel Drive.

(8) Major Street Zone "E-5" shall consist of all properties within the Urban Growth Management Area located east of the center line of North Van Ness, south of the center line of West Herndon, west of the center line of North Palm, and north of the center line of West Sierra Avenue.

(9) Major Street Zone "F" shall consist of all properties within the Urban Growth Management Area located south of the center line of East Copper Avenue, west of the center line of North Willow Avenue, generally east of the center lines of North Millbrook Avenue,

North Cedar Avenue, and North Maple Avenue, and generally north of East Herndon Avenue and within the area designated by the adopted 1984 Fresno General Plan as requiring a financial feasibility study.

(b) **Major Street Charge.** A major street charge shall be required for each lot created by subdivision or developed within the Urban Growth Management Area, as designated on the Official Urban Growth Management Map. The charge for each Major Street Zone defined in subsection (a) of this section shall be designated annually each July first in the Master Fee Resolution per gross acre. The Major Street Charge per acre of area in the Major Street Zone shall equal the sum of the actual cost of the completed major street system subject to reimbursement and the estimated cost of the uncompleted major street system in the Major Street Zone. Area calculations shall be based upon the following:

(1) Gross acreage shall be calculated to include street right-of-way and shall include one-half of the right-of-way on boundary streets, except that areas dedicated or condemned for public street purposes for any major street shall be excluded in calculating gross acreage.

(2) Property for which the cost of major streets has wholly or proportionately been paid, when such fact has been or can be established to the satisfaction of the Director, need only be liable for the Major Street Charge applicable to the portion of the property for which the charge has not been paid.

(3) When only a portion of a lot is developed, and the remaining portion is to continue undeveloped or is to be used solely for the growing of agricultural crops, or when lots created by subdivision are not created for purposes of sale, lease of financing and are not presently intended for further development, the Director may require the payment of the Major Street Charge applicable only to that portion of the property developed or to be developed, provided that the parcel for which such fees are charged shall have an area of not less than twelve thousand five hundred square feet. When the balance of the property is developed, the Major Street Charge shall be paid in the amounts then in effect. The Director shall fix the portion of the property which is to be considered as developed.

(4) In the R-A, AE-5 and AE-20 zone districts on a developed lot at least four net acres in size, when a portion not less than twelve thousand five hundred square feet of such lot is to be improved with one additional single-family residence, the Director may require the payment of the Major Street Charge applicable only to the portion of such lot to be improved. The Director shall fix the portion of such lot which is to be considered as improved.

(c) **Major Street Bridge Charge.** A Major Street Bridge Charge shall be required for each lot created by subdivision or developed within the Urban Growth Management Area, as designated on the Official Urban Growth Management Area Map. The Major Street Bridge Charge for each Major Street Zone defined in subsection (a) of this section shall be as designated annually each July first in the Master Fee Resolution and shall equal the actual cost of completed major street bridges subject to reimbursement and the estimated cost of uncompleted major street bridges in the Major Street Zone per gross acre. Area calculations shall be made in the same manner as provided in subsection (b) for the Major Street Charge.

(d) (Repealed).

(e) **Construction of Major Street, Major Street Bridge or Local Street Facilities.** As a condition of development in a Major Street Zone, the construction of each of the following which is designated in the Service Delivery Plan of the development shall be required to facilitate traffic service: the center section of a major street, a major street bridge or a local street.

(f) **Reimbursements.** The following provisions define the reimbursement process within the Urban Growth Management Areas and Non-Urban Growth Management Areas:

(1) Whenever the center section of a major street or major street bridge is installed by a person as a condition of development within the Urban Growth Management Area, the city shall reimburse such person for the actual cost of the construction, including engineering and inspection costs, less the appropriate pro rata share of the major street charge and the major street bridge charge to be paid on behalf of all property contributing to the cost thereof, in the manner and for the period prescribed in Section 12-4.504-C of this Code.

(2) Whenever a person covenants in a form acceptable to the City Attorney to install the center section of the major street or the major street bridge within the Urban Growth Management Area, the estimated cost of construction thereof shall be credited against the major street charge or major street bridge charge, as appropriate, which is due upon granting of the development entitlement on the property contributing to the cost of the major street or major street bridge. The cost of construction of the major street shall be estimated in accordance with the credit schedules designated in the Master Fee Resolution. The estimated cost of construction of the major street bridge shall be established by the Director based on the engineer's estimate prepared in connection with the design of the bridge.

(3) In the event the actual cost of major street or major street bridge exceeds the major street charge or the major street bridge charge within the Urban Growth Management Area, the difference shall be paid from the UGM major street fund or major street bridge fund upon city acceptance of the major street or major street bridge, only to the extent that major street charges or major street bridge charges are paid on behalf of noncontributing properties served by the major street or major street bridge up to the duration of the appropriate reimbursement period, in the manner prescribed by Section 12-4.504-C of the Code, after city acceptance of the major street or major street bridge, and only to the extent that the major street charges or major street bridge charges paid on behalf of such noncontributing properties are not credited against reimbursement for other major streets or major street bridges constructed for the noncontributing properties by the person paying such charges.

(4) Where, as a condition precedent to approval of development in the Urban Growth Management Area, a person has been required to construct the center section of a major street or a major street bridge which has been accepted by the city, he shall within ninety days of such acceptance file with the Director a project accounting stating the cost of acquisition and construction of the major street or major street bridge. The project

accounting shall include a legal description of all properties on behalf of which contributions have been made and a statement of the proportion of the construction costs borne by each property.

(5) Following the receipt of the project accounting, the Director shall make semiannual determinations on or about each April first and October first, in the manner prescribed in Section 12-4.504-C of this Code, of the amounts to be reimbursed to the persons who constructed the major street or major street bridge within the Urban Growth Management Area as shown in the project accounting, subject to the following:

(i) Each determination shall calculate those charges which have been collected during the preceding six months for land developed within the major street zone in which the major street or major street bridge is located.

(ii) No payments or determinations may be made if the project accounting is not timely filed.

(iii) In no event shall payments be made which total more than the cost of the major street or major street bridge as shown on the project accounting.

(iv) The major street charge and major street bridge charge on the property contributing to the cost of the major street or major street bridge shall be increased or decreased, as appropriate, by an amount equal to the difference between the actual cost of construction and the fee credit established at the time of the granting of the entitlement per acre of land in the major street zone in which the property is located.

(v) No payments or determination shall be made after the end of the appropriate reimbursement period as defined in Section 12-4.501.5-F of this Code.

(vi) The priority of reimbursements shall be based upon the date the Director accepts the project accounting statement.

(vii) Reimbursements shall not be made until reimbursements are complete for major streets or major street bridges, as the case may be, which are covered by previously submitted project accounting statements.

(6) Whenever a person is required, as a condition of development in the Urban Growth Management Area, to bear the cost of acquisition of necessary rights-of-way or easements for street construction or facilities incidental thereto, or if a person is required to construct standard frontage improvements described in Section 13-208(d) of this Code or facilities incidental thereto beyond the limits of his development, which for purposes of this section shall mean the centerline of the adjacent street and property boundary lines generally perpendicular to the street centerline, then the city shall, as a condition of and prior to the development or subdivision of the property from which the right-of-way acquisition occurred or from the adjacent property on which the frontage improvements were installed, or from property which would have future responsibility for the construction, require the developer of such adjacent property which received benefit by virtue of the improvements having been previously constructed to pay to the city an amount determined by the Director, based on the project accounting, as representing the cost of street right-of-way acquisition and any

construction. Such payment shall be made prior to approval by the city of any development entitlement or building permit for such adjacent property. The city shall then make reimbursements to the person who bore the initial cost of such right-of-way acquisition or improvements, or both, according to the terms of Section 12-4.504-C of this Code. However, any right to reimbursement under this subdivision (6) shall expire twenty years after city acceptance of such rights-of-way and improvements.

The above is as it applies to major streets shall apply only to standard frontage improvements accepted by the city after September 1, 1985 and only to those adjacent properties on which title has not changed or development entitlements have not been approved between September 1, 1985 and December 19, 1986.

(7) When the acquisition of an entire parcel is necessary for major street right-of-way and construction so that the person required to bear the cost thereof would not have the potential for reimbursement as provided in subdivision (6) above, the Director may authorize reimbursement from the applicable UGM Major Street Service Area Fund. The Director shall then revise the UGM Major Street Fee rate for the affected street zones to include the pro rata cost paid by such person for that portion of the property so acquired for right-of-way necessary for major street construction. The Director shall adjust the major street fee rate pursuant to this subdivision (7) only after he has received written verification of the purchase price of the acquired property. Any such adjustment by the Director shall be based solely on such verified purchase price, prorated as specified herein, when the property is acquired by such person. If the property is acquired by the city through negotiation or eminent domain procedures, such adjustment shall be based upon the actual cost thereof paid by such person to the city, prorated as specified herein.

The priority of reimbursements shall be based on the date the Council approves the adjustment in the UGM Major Street Fee rate pursuant to this subdivision (7) and the priority of reimbursements for major street construction pursuant to subdivision (5)(vi) above. No such reimbursement shall be made until reimbursements are complete for major streets or for right-of-way pursuant to this subdivision (7) which are covered by previously submitted project accounting statements or approved major street fee rates.

(8) The Director shall review the reimbursement and fee schedule semiannually following the evaluation of all project accounting statements and report to the Council with appropriate recommendations for revision of the credits and fees. The major street and major street bridge charges shall be adjusted to reflect the actual cost of major streets and major street bridges constructed and included in project accounting statements received during the previous six months.

(9) (Repealed).

(10) When reimbursements are made pursuant to this Subdivision (f), the city shall reimburse in a manner and for the period prescribed by Section 12-4.504-C of this Code.

(g) **Deferral of Charges.** Major street charges payable pursuant to Subsection 13-229(b) and major street bridge charges payable pursuant to Subsection 13-229(c) may be deferred

until issuance of a certificate of occupancy pursuant to an agreement which conforms to the requirements of Section 12-4.604. (Added Ord. 78-107, § 2, eff. 7-28-78; Am. Ord. 78-171, § 1, eff. 12-15-78; Am. Ord. 80-115, § 114, eff. 8-8-80; Am. Ord. 82-82, § 3, eff. 9-17-82; Am. Ord. 82-102, § 5, eff. 10-22-82; Am. Ord. 83-163, § 2, eff. 1-20-84; Am. Ord. 2004-131, §§ 1—4, eff. 2-5-05; Ord. 2007-47, §§ 1—3, eff. 6-11-07; Ord. 2007-50, §§ 1—3, eff. 7-14-07).

SEC. 13-230. GRADE SEPARATION STRUCTURES AND RELATED FACILITIES.

(a) **Purpose.** The purpose of this section is to ensure the provision of grade separation structures and related street facilities, including but not limited to frontage roads, freeway off-ramps, and off-street realignments, necessary for the accommodation of vehicular and pedestrian traffic at or near railroad crossings. This section is further intended to provide a means for the levying and collecting of fees within the Urban Growth Management Area to be used for the purpose of designing and constructing such grade separation structures and related street facilities.

(b) **UGM Grade Separation Service Areas.** The Council may establish by resolution Grade Separation Service Areas within the Urban Growth Management Area for grade separation projects in or near the Urban Growth Management Area.

(c) **UGM Grade Separation Fee.** The council shall designate in the Master Fee Resolution a schedule of UGM Grade Separation Fees for each UGM Grade Separation Service Area. The total amount of fees to be generated shall be based upon an equitable allocation determined by the Council after considering the estimated amount of grant funds available from the state, county, or affected railroad company, traffic generated from future developments, gas tax revenues, and any other funds available to contribute to the engineering, design, and construction of the grade separation and related or alternate facilities. In no event, however, shall the total amount of fees generated equal less than ten per cent of the total cost of designing and constructing such grade separation and facilities. The Council may review and amend the fees set forth in the Master Fee Resolution from time to time to reflect inflation or any change in the factors which were considered in estimating the cost of designing or constructing such grade separation and related or alternate street facilities. Area calculations shall be based upon the following:

(1) Gross acreage shall be calculated to include street right-of-way and shall include one-half of the right-of-way on boundary streets, except that areas dedicated or condemned for public street purposes for any arterial or collector street shown on any master or official plan of streets and highways shall be excluded in calculating gross acreage.

(2) When only a portion of a lot is developed, and the remaining portion is to continue undeveloped or is to be used solely for the growing of agricultural crops, the Director may require the payment of the Grade Separation Fee applicable only to that portion of the lot developed or to be developed, provided that the parcel for which such fees are charged shall

have an area of not less than twelve thousand five hundred square feet, or one-fourth of the lot, whichever is greater. When the balance of the lot is developed, the Grade Separation Fee shall be paid therefor. The Director shall fix the portion of the lot which is to be considered as developed.

(3) In the R-A, AE-5 and AE-20 zone districts on a developed lot at least four net acres in size, when a portion not less than twelve thousand five hundred square feet of such lot is to be improved with one additional single-family residence, the Director may require the payment of the Grade Separation Fee applicable only to the portion of such lot to be improved. The Director shall fix the portion of such lot which is to be considered as improved.

(d) **Reimbursement.** Reimbursement shall be made according to the terms of Section 12-4.504-C of this Code.

(e) **Fees Payable at Final Subdivision Map.** The UGM Grade Separation Fee allocable to any lot shall be payable upon the recordation of the final subdivision or parcel map or in the absence of submittal of a map, at the time of issuance of a building permit. A developer may elect to defer the payment of such fee until issuance of a certificate of occupancy pursuant to an agreement which conforms to the requirements of Section 12-4.604.

(f) **Construction of Grade Separation and Related Facilities.** All Grade Separation Fees collected from development within an established UGM Grade Separation Service Area shall be deposited in a UGM Grade Separation Fund for the area in which collected. Each fund shall be used solely for the purposes of designing and constructing a grade separation structure and related facilities within the UGM Grade Separation Area in which such fees were generated, and for administration, inspection, and engineering costs of the city directly related thereto. In the event the city determines grant funds from the state, county, or railroad company are unavailable or insufficient to complete the design and construction of a grade separation and all related facilities, the fund shall be used for such alternate facilities as the Council deems most appropriate for the facilitation of vehicular and pedestrian traffic at or near the railroad crossing.

(g) **Agreements.** The Director is authorized to enter into any agreement acceptable to the City Attorney, which is consistent with, and promotes the purposes and goals of, this section. (Added Ord. 80-54, § 1, eff. 5-2-80; Am. Ord. 80-132, § 11, eff. 10-3-80; Am. Ord. 82-82, § 4, eff. 9-17-82; Am. Ord. 89-85, § 4, 7-28-89; Am. Ord. 95-38, § 3, eff. 6-9-95).

SEC. 13-231. AT-GRADE RAILROAD CROSSINGS AND RELATED FACILITIES.

(a) **Purpose.** The purpose of this section is to ensure the provision of at-grade railroad crossings and related facilities necessary for the accommodation of vehicular and pedestrian traffic at or near railroad crossings. This section is further intended to provide a means for the levying and collecting of fees within the Urban Growth Management Area to be used for the purpose of designing and constructing such at-grade railroad crossings and related facilities.

(b) **UGM At-Grade Railroad Crossing Service Areas.** The Council may establish by resolution at-grade railroad service areas within the Urban Growth Management Area for at-grade railroad crossing projects within or near the Urban Growth Management Area.

(c) **UGM At-Grade Railroad Crossing Fee.** The council shall establish by resolution a schedule of UGM at-grade railroad crossing fees for each UGM at-grade railroad crossing service area. The total amount of fees established by such resolution shall be based upon an estimated cost of designing and constructing such at-grade railroad crossing facilities. The Council may review and amend the fees set forth in the fee resolution from time to time to reflect the actual cost of design and construction or any change in the factors which were considered in estimating the cost of designing or constructing such at-grade railroad crossing facilities. Area calculations shall be based upon the following:

(1) Gross acreage shall be calculated to include street right-of-way and shall include one-half of the right-of-way on boundary streets, except that areas dedicated or condemned for public street purposes for any arterial or collector street shown on any master or official plan of streets and highways shall be excluded in calculating gross acreage.

(2) When only a portion of a lot is developed, and the remaining portion is to continue undeveloped or is to be used solely for the growing of agricultural crops, the Director may require the payment of the at-grade railroad crossing fee applicable only to that portion of the lot developed or to be developed, provided that the parcel for which such fees are charged shall have an area of not less than twelve thousand five hundred square feet. When the balance of the lot is developed, the at-grade railroad crossing fee shall be paid therefor at the rate most recently established by the Council. The Director shall fix the portion of the lot which is to be considered as developed.

(3) In the R-A, AE-5 and AE-20 zone districts on a developed lot at least four net acres in size, when a portion not less than twelve thousand five hundred square feet of such lot is to be improved with one additional single-family residence, the Director may require the payment of the at-grade crossing fee applicable only to the portion of such lot to be improved. The Director shall fix the portion of such lot which is to be considered as improved.

(d) **Accelerated Schedule of UGM At-Grade Crossing Fees.** The Council may establish by resolution an accelerated schedule of UGM at-grade crossing fees. The accelerated fee shall apply to the portion designated by Council, of the service area which is developed first and at a rate sufficient to generate funds equalling the estimated cost of the crossing.

(e) **Fees Payable Upon Grant of Development Entitlement.** The UGM at-grade railroad crossing fee allocable to any lot shall be payable upon the recordation of the final subdivision or parcel map or, in the absence of submittal of a map, at the time of issuance of a building permit. A developer may elect to defer the payment of such fee until issuance of a certificate of occupancy pursuant to an agreement which conforms to the requirements of Section 12-4.604.

(f) **UGM At-Grade Railroad Crossing Fund.** All at-grade railroad crossing fees collected from development within an established UGM at-grade railroad crossing service area shall be deposited in a UGM at-grade railroad crossing fund for the area in which collected. Each fund shall be used solely for the purposes of designing and constructing an at-grade railroad crossing and related facilities within the UGM at-grade railroad crossing area in which such fees were generated, and for administration, inspection and engineering costs of the city directly related thereto. In the event the city determines funds are insufficient to complete the design and construction of the at-grade railroad crossing and all related facilities, the fund shall be used for such facilities as the Council deems most appropriate for the facilitation of vehicular and pedestrian traffic at or near the at-grade railroad crossing.

(g) **Construction of At-Grade Railroad Crossing and Related Facilities.** The Council may require, as a condition of development in an at-grade railroad crossing service area, the construction of an at-grade railroad crossing if the development abuts the crossing or if the Council finds the vehicular traffic generated from that development results in a public safety hazard at or in the vicinity of the railroad crossing.

(h) **Reimbursements.** The following provisions shall apply within the Urban Growth Management Area, as designated on the Official Urban Growth Management Area Map:

(1) Whenever an at-grade railroad crossing is installed by a person as a condition of development within the Urban Growth Management Area, the city shall reimburse or credit such person for all costs in excess of that development's proportionate share of the cost of the railroad crossing. This reimbursement or credit schedule shall be based on the estimate of costs prepared by the Director for construction of such work and shall include the estimated cost of construction, engineering and inspection. The amount to be reimbursed or credited shall be credited against the at-grade railroad crossing charge to be paid on behalf of all property contributing to the cost thereof in proportion to the amount of such contribution.

(2) In the event that credit for such property as provided by this section exceeds the at-grade railroad crossing charge, the difference shall be paid from the at-grade railroad crossing fund upon completion of the crossing, only to the extent that at-grade railroad crossing charges are paid on behalf of noncontributing properties served by the at-grade crossing up to the duration of the appropriate reimbursement period, as provided in Section 12-4.504-C of this Code, after city acceptance of the crossing, and to the extent that the at-grade railroad crossing charges paid on behalf of such noncontributing properties are not credited against reimbursement for other crossings constructed for the noncontributing properties by the person paying such charges or for other crossings which have been accepted by the city prior to the city acceptance of the subject crossing and the cost of which has not been totally reimbursed or credited.

(3) Where, as a condition precedent to approval of development in the Urban Growth Management Area, a person has been required to construct an at-grade railroad crossing which has been accepted by the city, he shall file with the Director within ninety days following acceptance of the crossing a project accounting stating the cost of construction of the crossing.

(4) For each UGM at-grade crossing service area established by the Council, following city acceptance of the crossing the Director shall determine semiannually in the manner and for the period prescribed by Section 12-4.504-C of this Code, the amounts to be reimbursed or credited to the person who constructed the crossings as shown in the projecting accounting subject to the following:

(i) Each determination shall calculate those charges which have been collected during the preceding six months for land development within the at-grade crossing service area in which the crossing is located.

(ii) No payments or determinations may be made if the projecting accounting is not filed.

(iii) In no event shall payments be made which total in excess of one hundred per cent of the cost of the crossing as shown on the project accounting.

(iv) No payments or determinations shall be made after the end of the appropriate reimbursement period, as defined in Section 12-4.501.5-F of this Code, following acceptance by the city of the crossing.

(5) In the event a developer has paid fees at an accelerated rate, at such time as sufficient fees have been collected to cover the cost of the crossing, such developer, or his heirs and successors, on a first-in first-out basis, shall be reimbursed on or about each April first and October first from fees collected from subsequent developers during the preceding six months, until such time as the total contribution of each developer is reduced to the service fee rate amount. (Added Ord. 82-86, § 1, eff. 9-17-82; Am. Ord. 83-163, § 3, eff. 1-20-84; Am. Ord. 89-85, § 5, eff. 7-28-89; Am. Ord. 91-32, § 3, eff. 5-10-91; Am. Ord. 95-38, § 4, eff. 6-9-95).

ARTICLE 3 STREET TREES AND PARKWAYS

Sec. 13-301. Definitions.
Sec. 13-302. Public Tree Policy.
Sec. 13-303. Director's Control.
Sec. 13-304. Tree Beautification.
Sec. 13-305. Tree Preservation.
Sec. 13-306. Special Tree List.
Sec. 13-307. Departmental Cooperation.
Sec. 13-308. Nonliability of City.
Sec. 13-309. Appeals.
Sec. 13-310. Tree Trust Fund.
Sec. 13-311. Violations.

SEC. 13-301. DEFINITIONS.

(a) Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning and application of words and phrases used in this article, and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 2 (commencing with Section 1-201) of Chapter 1 of this Code shall also govern the construction, meaning, and application of words and phrases used in this article. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(b) "Block" shall mean all property fronting on both sides of a street between intersecting streets, or between an intersecting street and a right-of-way, water way, end of a cul-de-sac, or city-county boundary. Where a street is intercepted between two intersecting streets, the boundaries of the block shall be determined by the Director.

(c) "Director" shall mean the Parks and Recreation Director and/or the Public Works Director and designees thereof, as provided in this article and/or as determined by the Chief Administrative Officer in his/her sole discretion. The Public Works Director shall be designated as the responsible person for street trees, median island trees, and trees planted in association with Lighting and Landscaping Maintenance Districts (LLMD) or Community Facilities Districts (CFD). The Director of Parks and Recreation shall be designated as the responsible person for trees in neighborhood, community and regional parks, and for trees in neighborhood, community and regional trails (including related linear park).

(d) "Parkway" shall mean that portion of public property available for planting between the street curb, or curb alignment, and the abutting private property line.

(e) "Preservation" shall mean acts to promote the life, growth, health, or beauty of trees including, but not limited to, pruning, trimming, topping, root pruning, spraying, mulching, fertilizing, cultivating, supporting, and treating for disease or injury.

(f) "Public Nuisance" shall mean and the City Council, by adoption of this ordinance declares that any violation of this article, and any tree which, for whatever reason including lack of maintenance and/or natural growth/aging processes and/or seasonal changes, may be injurious to public health, safety, and/or property, or an obstruction to the use of public property, so as to interfere with the comfortable enjoyment of life or property and which affects the entire community or neighborhood or a considerable number of persons, is unlawful and shall constitute a public nuisance. Without limitation the following shall constitute a public nuisance for purposes of this article (i) any tree subject to corrective action or removal under this article, (ii) any diseased or insect infested tree on private property so near to any street tree so as to cause damage to said street tree, (iii) any tree on private property that is interfering with, impairing or destroying any city owned street improvements, sidewalks, curbs, gutters, sewers, water or gas lines, block walls, street trees, or other related street facilities, (iv) any street tree which has or will require non-routine maintenance of city infrastructure on a frequency greater than once every ten years, (v) any tree known to be dangerous upon oral or other contact by a person, (vi) any tree growing into or over any street tree, or any public hydrant, pole, street sign, stop sign, or electrical/utility facility other than as allowed by this article, (vii) any tree in direct or intermittent contact with any electrical conductor owned by a utility company, which must be trimmed away from the conductor, (viii) the existence of any branches or foliage which interferes with visibility of, free use of, or access to any portion of any street, sidewalk, or alley improved for vehicular or pedestrian travel, (ix) tree houses, ladders, aerials, swings, ropes, or any other material attached to publicly owned trees.

(g) "Public property" shall mean any property or area owned by or under the control of the city, including public tree easements.

(h) "Public tree easement" shall mean an easement granted by a property owner to the city to permit the city to plant and preserve a tree in the property owner's front or side yard setback abutting public streets.

(i) "Street tree" shall mean any tree planted, or caused to planted, by the city within the: street right-of-way; parkway; any landscape or public tree easement offered for tree planting purposes but excluding common areas maintained by a LLMD or CFD. Street tree may also include trees planted within the public right-of-way that the city accepts through annexation of unincorporated areas of the county.

(j) "Tree" shall mean and include without limitation any tree or shrub.
(Added Ord. 2005-22, § 2, eff. 4-16-05).

SEC. 13-302. PUBLIC TREE POLICY.

It is hereby declared that the public interest and welfare require that the city maintain a program for the planting and preservation of trees on all public property in the city as a municipal affair in order to beautify the city, purify its air, and provide shade for its inhabitants. This article provides for plans and establishes regulations governing the planting and preservation of trees in public property, including parkways of the city. This

article further provides for plans and establishes regulations for the selection of appropriate species of trees to achieve as much uniformity as possible for beauty and economy, and for a consistent and adequate program to preserve such trees. This article further provides for reduction of public nuisance and expense caused by improper tree selection, planting and maintenance. The Director shall enforce, implement, and carry out the policy, provisions, and regulations of this article in a manner which is consistent with other established policies of the city.
(Added Ord. 2005-22, § 2, eff. 4-16-05).

SEC. 13-303. DIRECTOR'S CONTROL.

Except as otherwise provided in this article, the Director shall have exclusive control over the planting, preservation and removal of trees, and the performance of any work incidental thereto in, on or over any public property and any other city controlled property.
(Added Ord. 2005-22, § 2, eff. 4-16-05).

SEC. 13-304. TREE BEAUTIFICATION.

(a) **Master Tree Plan.** The Director is authorized to formulate a Master Tree Plan. Such Plan shall specify the species, spacing, and location of trees to be planted on public property, including parkways of the city. Such Plan shall include a Master Tree List and a Master Tree List-Parkway. The Master Tree List-Parkway shall include those trees which the Director determines may be planted in parkways without causing damage to any adjacent concrete improvement or underground utilities in such parkways. The Master Tree List shall include those trees which the Director determines may be planted in any public tree easement and public property, except parkways. The Director is authorized to amend, modify, and add to such Plan. All planting shall conform to such Plan. The Director shall consider the following factors in formulating such Plan:

(1) Such plan shall be coordinated with other established plans of the city; and

(2) Trees shall be selected and placed on an appropriate tree list based on such trees' desirable characteristics of growth and beauty, their root structure, and their adaptability to local climate and soil.

(3) The Director shall take into consideration species that are known to cause damage to concrete and street improvements and shall minimize or preclude the planting of those trees deemed to cause damage. The list may include provisions that require trees to be of virgin root stock so as to prevent the planting of trees with root stock of trees known to damage city infrastructure. Any property owner and/or his/her occupant who plants or causes to be planted trees that are not listed or that are listed as damaging in nature, shall at their sole expense remove or cause to be removed the unacceptable trees and replace them with trees approved and listed under the Master Tree Plan, as provided in this article.

(b) **Parkway Trees.** The city's policy shall be to plant in parkways only those trees included on the Master Tree List-Parkway. In selecting any particular species of trees from the Master Tree List-Parkway for planting in any parkway, the Director shall consider the following factors:

(1) Overhead and underground facilities surrounding or in the parkway;

(2) Location of any street and traffic signs;

(3) Width of the parkway and the location of any concrete installation adjacent thereto;

(4) Setback of any building from the parkway;

(5) Parkway's soil condition; and

(6) Existing landscape of the area.

(c) **New Development, Number and Size of Parkway Trees.** The Director shall cause to be planted, in parkways, or public tree easements, at not more than forty-foot intervals, at least one tree taken from a minimum of a five-gallon container for each lot or parcel. If the property owner desires more trees than the Master Tree Plan indicates that he is entitled to, or larger trees, or a combination of both, the Director may cause the planting of such tree or trees provided that such property owner pays the additional cost in advance and such trees, considering the criteria specified in subsection (b) of this section, are acceptable to the Director.

(d) **Existing Development.Residential Property Owner's Option.** Any residential property owner may request that a tree on the Master Tree List be planted in such property's front yard or side setback instead of the abutting parkway. The Director may cause the planting of such tree provided that such property owner gives a public tree easement to the city which provides as follows:

(1) The city, acting through the Director, is granted the right of access to such front yard or side yard setback solely for the purpose of planting, preserving, and, if necessary, removal of such tree;

(2) The property owner agrees not to remove such tree without the written permission of the Director; and

(3) The property owner agrees to pay for installation of such tree and agrees to irrigate and maintain such tree.

(e) **Commercial or Industrial Property.** Tree planting in a parkway fronting commercial or industrial property may be waived by the Director if he/she determines that such property owner's proposed or existing landscaping is consistent with the Master Tree Plan. (Added Ord. 2005-22, § 2, eff. 4-16-05; Am. Ord. 2015-39, § 10, eff. 1-9-16).

SEC. 13-305. TREE PRESERVATION.

(a) **Policy.** It shall be the city's policy to utilize whatever techniques, methods, and procedures are required to preserve, whenever feasible, all trees in the city including, but not limited to, trees which are affecting surface improvements or underground facilities or which are diseased, or located where construction is being considered or will occur.

(b) **By the City.** The Director shall be responsible for the preservation and, when required herein, the removal of all trees on public property.

(c) **By the Property Owner.** Every property owner or his/her occupant shall be responsible for the normal care, including watering, of trees in such property owner's abutting parkway, front yard or side yard setback, or in any public tree easement.

(d) **Tree Removal or Maintenance by Property Owners.** The Director may issue a permit to property owners to remove or maintain a street tree if all of the following apply:

(1) Tree removal or maintenance will occur under the direction of a certified arborist and completed by a City licensed contractor. Tree removal or maintenance must adhere to standards issued by the International Society of Arboriculture:

(2) All removal or maintenance costs are borne by the applicant. Removal or replacement of trees by Property Owners, which do not meet the removal criteria set forth in Section 13-305(g)(6), shall not utilize any City funding appropriated by the Council for the Street Tree Program in the Public Works Department; however, this section shall not preclude the City's ability to use discretionary infrastructure funds, if desired by the Council.

(3) An applicant shall pay a refundable permit fee for tree planting to the City in an amount established by City Council resolution and set forth in the master fee schedule. A city arborist shall inspect and verify applicant has completed planting of the replacement tree(s) at which time applicant's permit fee shall be refunded. Applicant's failure to plant replacement tree(s) as set forth in this section shall result in forfeiture of the permit fee, which shall be deposited into the city's Tree Trust Fund.

(4) The City, through the use of door hangers, shall notify homeowners of any proposed tree removals within two hundred feet of the front or side of their property line. These persons have fourteen days to protest the removal to the Director.

(5) The applicant must comply with all other permit conditions listed in this chapter including, without limitation, entering into a hold harmless agreement with the City;

(6) Trees shall be replaced by a replacement tree approved by the Director as set forth in the City's Approved Tree List. Alternatively, the applicant may pay a fee in lieu of replacement as set forth in Section 13-305(f).

(7) Trees on the Special Tree List in Section 13-306 or otherwise determined to be protected by the City are not eligible for removal or replacement under this Section.

An exception to this section applies to minor trimming to alleviate a dangerous condition presented with the Director's prior consent, by the property owner without a permit. Any such trimming must be performed in a manner that ensures tree preservation.

(e) **Permit Conditions.** The Director shall promulgate and implement permit procedures and standards to facilitate the issuance of such permits. The Director shall condition a tree permit on the following:

(1) That the applicant plant another tree in the place of the one removed or destroyed at the applicant's sole cost or pay a fee in lieu of replacing the tree(s) as set forth in this Section.

(2) That a particular species of tree, as determined by the City's Approved Tree List, be used as a replacement. The Director may select the species of tree that may be planted.

(3) That the applicant enters into a hold harmless agreement with the City which will, in part, indemnify the City, its officers, employees, and agents, from any liability arising from the applicant's activities in a form approved by the city attorney.

At a minimum a permit application shall include the number and location of each tree to be removed, the species and approximate size of the tree, the reason for removal and such additional information as the Director may require. The Director shall render his/her decision within thirty (30) days after the filing of the application for a permit. The Director may grant, conditionally grant, or deny the application. Any denial shall state the reasons for denial. The decision of the Director shall be mailed to the applicant and to all owners of record of the subject property on the same day the decision is made. In addition, the site or tree shall be posted with a sign by the Department for at least ten calendar days indicating the decision of the Director. No tree for which a Tree Removal Permit is required shall be removed until all conditions of the permit have been satisfied and the decision has become final.

(f) **Payment in-lieu of Fees.**

(1) Payment of a fee in-lieu-of replacing a removed tree shall be the same as the refundable permit fee for tree planting established by City Council resolution and set forth in the master fee schedule.

(2) The payment in-lieu-of fees will be used to purchase trees that will be planted within the public right-of-way or on other public property as determined by the Director. Where feasible, trees will be planted in the vicinity in which the tree(s) was removed .

(3) Payment of the in-lieu fee shall be made before the issuance of the Tree Removal Permit.

(g) **Tree Inspection and Removal by Director.** The Director may inspect, remove, or maintain trees from the public right-of-way, if the Director determines one or more of the following conditions exist:

(1) At such times and on such occasions as he deems appropriate, the Director shall inspect trees on any public property and on any private property if the trees overhang or project into public property.

(2) If any city-planted tree in the city appears to the Director to be dead, liable to fall, dangerous, poses a public nuisance including an obstruction to public travel and/or is not pruned or trimmed to a height of fourteen feet, six inches above the paved portion of the street to accommodate such vehicles as garbage trucks, buses, moving vans and street maintenance trucks, and seven feet above the pedestrian path of travel, the Director shall take the necessary corrective action.

(3) It shall be the responsibility of the property owner and/or his/her occupant to prevent any tree on his/her private property or in the abutting parkway, other than city-planted trees, from overhanging or projecting into public property, as provided in this subsection. The Director shall have the authority to require the property owner or his/her occupant to prune, trim, cut down or remove any such tree, or part or parts thereof, if it appears to the Director to be dead, structurally hazardous, dangerous, poses a public nuisance, an obstruction to public travel, or is not pruned or trimmed to a height of fourteen feet, six inches above the paved portion of the street to accommodate such vehicles as garbage trucks, buses, moving vans and street maintenance trucks and seven feet above the pedestrian path of travel. Except in case of immediate public danger, no such tree, shall be pruned, trimmed, cut down or removed by the Director unless the Director has given the property owner and/or his/her occupant ten (10) days' written notice to take corrective action. If the necessary corrective action is not taken by the property owner or his/her occupant within ten (10) days, the Director shall perform the services and the costs thereof shall be assessed to the property owner and/or occupant, including the cost of labor (including overhead), equipment and materials, and disposal of removed material pursuant to the procedures as set forth in Chapter 1, Article 5 of the Fresno Municipal Code.

In the event the Director determines that there is immediate public danger, the Director may cause the offending tree or portion thereof to be trimmed or removed without prior notice. The trimmed material shall be placed on the property of the responsible party, outside of the public right-of-way, for disposal by the responsible party. The Director shall cause to be provided to the responsible property owner, and/or occupant, notification of the corrective action taken by the city. The notice shall include a statement that the property owner and/or occupant is responsible for proper disposal of the trimmed material within ten (10) days. If the property owner and/or occupant fails to properly dispose of the trimmed material the city may cause

the material to be disposed of with the costs thereof assessed to the property owner and/or occupant pursuant to the procedures as set forth in Chapter 1, Article 5 of the Fresno Municipal Code.

(4) If any tree on public property is infected or infested with insects, pests or disease, the Director may cause such condition to be treated or, if any such tree is infected or infested to such a degree that such condition cannot be eradicated by treatment, the Director may order the removal and replacement of such tree.

(5) It shall be the responsibility of the property owner and/or his/her occupant to treat or remove any tree, grass or other vegetation on his/her private property or in the abutting parkway, other than city-planted trees, if it is so diseased or insect-infected as to constitute a public nuisance.

(6) The Director, after unsuccessfully utilizing all techniques, methods and procedures which he deems reasonable to save trees planted on public property which are dead, dying, in a dangerous condition, unsafe, a public nuisance, or likely to cause damage, shall remove and replace such trees.

(7) The Director may cause the removal of any tree on private property that is a public nuisance.

(8) Tree replacement ratios under this article shall be in the Director's discretion. For any tree removal occurring under this article, the tree replacement ratio shall be at least 1:1.

(h) **Interference with Employees.** No person shall interfere with or cause or permit any person to interfere with employees of the city who are engaged in the planting, preserving, maintaining, treating, trimming or removing of any tree or plant or related work in the city.

(i) **Other Unlawful Acts.** No person, except authorized city personnel, shall remove, destroy, deface or injure any tree on public property by any means including, but not limited to, the following:

(1) By pouring any material on any tree or on the ground which would be harmful to the tree;

(2) By attaching any sign or notice or other object on any tree or fastening any guy wire, cable, rope, nails or screws or any other device to any tree, except that agencies may, under the supervision of the Director, temporarily affix no parking signs to trees when necessary in conjunction with activities in the public interest, such as street improvement work, tree maintenance work, or parades;

(3) By causing or encouraging any unnecessary fire or burning near or around any tree;

(4) By constructing a concrete, asphalt, brick surface, or otherwise covering the ground within a four-foot radius of any tree so as to shut off air or water from the roots, except under written authority from the Director.

(j) **Unauthorized Plantings.**

(1) No person shall plant any tree in any public property of the city or public tree easement without written permission of the Director.

(2) The Director may cause to be removed a tree planted within any parkway or public tree easement without a written permit of the Director. The Director shall notify the property owner and/or his/her occupant in writing, listing the unlawfully planted tree(s) ordering their removal within ten days. In the event the removal is not accomplished within a specified time, the Director is authorized to remove, or cause to be removed, such trees and all cost thereof shall be assessed to the property owner and/or occupant pursuant to the procedures as set forth in Chapter 1, Article 5 of the Fresno Municipal Code. The charge assessed shall be equal to the cost of labor (including overhead), equipment, disposal costs and materials.

(k) **Construction Areas.**

(1) Any tree growing upon public property which is to be removed for construction purposes shall be replaced, if it is possible to do so in accordance with the city's tree planting policy. If the Director determines that a tree can be replaced, the person causing its removal shall, at his/her own expense, remove and replace such tree with a tree in a location and of a size and species to be determined by the Director. If the Director determines that a tree cannot be replaced, the person causing its removal shall, at his/her own expense, remove the tree and pay to the city the replacement value of the tree, as fixed by the Director.

(2) Any tree growing upon public property near any excavation, construction or street work shall be sufficiently guarded and protected by those responsible for such work so as to prevent any injury to said tree. No person shall excavate any ditches, tunnels or trenches, or install pavement adjacent to any public tree without the written permission of the Director.

(3) Whenever any parkway is paved, openings at intervals and sizes determined by the Director shall be left unpaved or uncovered in a manner acceptable to the Director.

(Added Ord. 2005-22, § 2, eff. 4-16-05; Ord. No. 2005-124, § 1, eff. 12-15-05; Am. Ord. 2018-14, § 1, eff. 5-10-18; Am. Ord. 2024-038, § 1, eff. 12-5-24).

SEC. 13-306. SPECIAL TREE LIST.

The Director is authorized to develop and maintain a Special Tree List. Such list is intended to include those trees of special interest to the city, including, but not limited to, landmark trees or trees of outstanding size or beauty. The City Council may also designate trees on the Special Tree List by resolution. The Director shall give and encourage others to give such trees special treatment and care to retain and protect them.

The Public Works Director shall review all tree removal requests for special trees filed independent of a development application. The Director shall render his/her decision within thirty (30) days after the filing of the request. Any denial shall state the reasons for denial.

The decision of the Director shall be mailed to the applicant and to all owners of record of the subject property on the same day the decision is made. In addition, the site or tree shall be posted with a sign by the Department for at least ten calendar days indicating the decision of the Director.

Decisions of the Public Works Director may be appealed to the City Council by the Councilmember of the district in which the project is located or by the Mayor, either on their own initiative or upon receiving a petition from any person. Appeals must be initiated by filing a letter with the Public Works Director. Such action shall require a statement of reasons for the appeal. Unless otherwise specified in a governing State or federal law, all appeals shall be filed with the Public Works Director in writing within 15 days of the date of the decision.
(Added Ord. 2005-22, § 2, eff. 4-16-05; Am. Ord. 2018-14, § 2, eff. 5-10-18).

SEC. 13-307. DEPARTMENTAL COOPERATION.

(a) The Director and the city departments and agencies shall cooperate in the enforcement of the provisions of this article. Such cooperation includes, but is not limited to, the provisions of this section.

(b) The Director of Public Works, or his/her designee, shall notify the Director of Parks and Recreation, or his/her designee of any permits issued for new improvements which might require the removal of, or cause injury to any tree in a neighborhood, community and regional park, or in a neighborhood, community and regional trail (including related linear park), or which might interfere with the fulfillment of the Master Tree Plan.

(c) If the installation or maintenance of any overhead or underground facility by a public utility, telephone company, common carrier, or franchisee is likely to cause injury to or any defacing, pruning, or scarring of any tree on city public property, such public utility, telephone company, common carrier, or franchisee shall, in addition to and not in lieu of any legal or contractual obligations owed, discuss with the Director alternatives to avoid such injury to or defacing, pruning or scarring of such tree, and shall be bound by the Director's decision regarding the implementation of any such alternative or the implementation of measures designed to protect such tree. Notwithstanding the foregoing, public utilities subject to the jurisdiction of the State Public Utilities Commission may take such action as may be necessary to comply with the safety regulations of the Commission and as may be necessary to maintain a safe operation of their facilities, provided the Director may stop any tree pruning performed by a utility company if good pruning practices are not being followed.
(Added Ord. 2005-22, § 2, eff. 4-16-05).

SEC. 13-308. NONLIABILITY OF CITY.

Nothing in this article shall be deemed to impose any liability upon the city or upon any of its officers or employees nor to relieve the owner and occupant of any private property from the duty to keep trees upon private property or under his/her control or upon sidewalks and parkways in front of such private property in a safe condition.
(Added Ord. 2005-22, § 2, eff. 4-16-05).

SEC. 13-309. APPEALS.

Any decision of the Director under this Article 3 including relating to the Master Tree Plan, Master Tree List, Master Tree List-Parkway, utility construction, emergency hazard removal, installation or maintenance, or requiring notice to a private property owner and/or his/her occupant, may be appealed de novo to the City Council by any aggrieved person (appellant), by filing a written request with the City Clerk stating the grounds for appeal and signed by appellant, within fifteen (15) days of the date of service of the decision of the Director. After public hearing, the Council shall have authority to confirm, modify, or overrule the decision of the Director and the decision of Council shall be final. For purposes of this article, service of the decision shall be the date said decision, if written, is mailed to the appellant, or, if the decision is given orally, service shall be the date the decision is orally given to the appellant. If no appeal is timely taken to the Council, the decision of the Director shall become final.
(Added Ord. 2005-22, § 2, eff. 4-16-05).

SEC. 13-310. TREE TRUST FUND.

All fees, fines, or assessments as defined in this chapter or the tree policy will be deposited in a Tree Trust Fund and reinvested into the City's urban forest.
(Added Ord. 2018-14, § 3, eff. 5-10-18).

SEC. 13-311. VIOLATIONS.

Any person who removes or causes to be removed any tree in violation of this article shall be required to:

(a) Apply for and obtain a Tree Removal Permit and pay double the cost of a permit, which shall be non-refundable, and

(b) Act as the responsible for property restoration which shall include:

(1) Replacing the tree(s) removed with tree(s) of reasonably equivalent value and largest size feasible to the tree(s) removed or alternatively paying the replacement cost of the removed tree(s).

(2) The number, size, and location of the replacement trees shall be determined by the Director after receipt or a report and recommendation by a licensed arborist.

(Added Ord. 2018-14, § 4, eff. 5-10-18).

ARTICLE 4 STREET GRADES

Sec. 13-401. Establishment of Official Street Grade Monument.

SEC. 13-401. ESTABLISHMENT OF OFFICIAL STREET GRADE MONUMENT.

(a) That for the purpose of establishing a record of the official grades for certain streets of the City of Fresno, it is hereby declared that the bronze metal top of that certain concrete monument located at the northwest corner of the City Hall, at "M" and Fresno Streets, in the City of Fresno, be taken as a bench mark, the elevation of which shall be two hundred ninety-two and 29/100 feet above an assumed datum-plane at or near the elevation of sea level, for all that area lying between the South property line of SHAW AVENUE and the north property line of CHURCH AVENUE, and that portion lying between the east property line of MARKS AVENUE and the west property line of CHESTNUT AVENUE.

(b) For the purpose of determining the official grades of all streets in the City of Fresno lying outside of the area described above, including the boundary avenues, the United States Coast and Geodetic Survey Datum shall be used.

(c) The grade book of the City Engineer is hereby entitled the Official Grade Book and the figures shown in said grade book are hereby declared to be the official elevations, in feet, of curbs and gutters, at the points indicated, from which the grades are to be determined. (Added Ord. 5699, 1960).

ARTICLE 5 TELEPHONES IN PUBLIC PLACES

Sec. 13-501. Telephones Permitted in Public Places.
Sec. 13-502. Application.
Sec. 13-503. Telephone Permit May be Issued.
Sec. 13-504. Permit Terms.
Sec. 13-505. Permit Fee.

SEC. 13-501. TELEPHONES PERMITTED IN PUBLIC PLACES.

Whenever it is desired that a public telephone be installed on or over public property owned or controlled by the City, such installation may be permitted pursuant to the following procedure.
(Added Ord. 6439, 1964).

SEC. 13-502. APPLICATION.

An applicant for installation of a public telephone on public property owned or controlled by the city, shall apply in writing therefor to the Director of General Services upon a form approved by the Director. The application shall contain the name and address of the applicant, a description of the telephone installation, its exact location, telephone and electrical services thereto, and a plot plan thereof, and such other and further information as the Director may require.
(Added Ord. 6439, 1964; Am. Ord. 87-110, § 1, eff. 9-25-87).

SEC. 13-503. TELEPHONE PERMIT MAY BE ISSUED.

The Director of General Services is authorized to issue such permits, with the approval of the City Manager, from time to time. The Director and the City Manager shall approve the number and location of such public telephones so as to best serve the public interest. The installation of the public telephones is to be in a manner acceptable to the Director.
(Added Ord. 6439, 1964; Am. Ord. 87-110, § 2, eff. 9-25-87).

SEC. 13-504. PERMIT TERMS.

Permits issued pursuant to this article shall include the following provisions:

(a) The permittee shall maintain the public telephones and any associated booths in good repair and safe and sightly condition at permittee's expense and to the satisfaction of the Director of General Services. The permittee shall ensure that the public telephones and any associated booths comply with the current Federal and State regulations for accessibility for persons with disabilities, including signage, clearances, installation height, floor area, and telephone equipment.

(b) The permittee shall save the city harmless from any and all losses, claims, or judgments for damages to any person or property arising from the installation, maintenance, or presence of the public telephones.

(c) The permit shall be issued subject to the successful negotiation of a contract document which details the specific remuneration to be paid to the city for a term not to exceed five years.

(d) With the approval of the City Manager, the Director of General Services may give the permittee written notice of revocation of the permit. Within thirty days the permittee shall remove its installation.

The permittee in its discretion may remove any telephone installation after sixty days written notice to the city. In the event of the removal by the permittee of any such installation or installations, either at the request of the city or in the exercise of the permittee's discretion, permittee shall restore the public property as nearly as practicable to its condition prior to such installation or installations, or to the condition which would have existed if the telephone had not been installed. In addition, the permittee shall compensate the city for any lost revenue during the contract period as a result of the removal of telephonic equipment.
(Added Ord. 6439, 1964; Am. Ord. 87-110, § 4, eff. 9-25-87; Am. Ord. 2011-6, § 6, eff. 4-10-11).

SEC. 13-505. PERMIT FEE.

The permittee shall pay the city an amount as set forth in the contract document for each public telephone installed pursuant to this article. Payments shall be made to the city not less frequently than monthly.
(Added Ord. 6439, 1964; Am. Ord. 87-110, § 5, eff. 9-25-87).

ARTICLE 6 UNDERGROUND UTILITY DISTRICTS

Sec. 13-601. Title.
Sec. 13-602. Definitions.
Sec. 13-603. Public Hearing by Council.
Sec. 13-604. Council May Designate Underground Utility Districts by Resolution.
Sec. 13-605. Unlawful Acts.
Sec. 13-606. Exception, Emergency or Unusual Circumstances.
Sec. 13-607. Other Exceptions.
Sec. 13-608. Notice to Property Owners and Utility Companies.
Sec. 13-609. Responsibility of Utility Companies.
Sec. 13-610. Responsibility of Affected Persons.
Sec. 13-611. Responsibility of City.
Sec. 13-612. Extension of Time.
Sec. 13-613. Recordation of District.
Sec. 13-614. Amendment of Resolution.

SEC. 13-601. TITLE.

This article shall be known as the Fresno City Underground Utility District Ordinance. (Added Ord. 68-170, 1968).

SEC. 13-602. DEFINITIONS.

(a) Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning, and application of words and phrases used in this article, and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 3 of Chapter 1 of this Code shall also govern the construction, meaning, and application of words and phrases used in this article unless the particular provisions or the context otherwise requires. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(b) "Commission" means the Public Utilities Commission of the State of California.

(c) "Director" means the Public Works Director.

(d) "District" or "Underground Utility District" means that area in the city within which any poles, overhead wires, and associated overhead structures are prohibited as such area is described in a resolution adopted pursuant to the provisions of Section 13-604 hereof, or pursuant to other competent authority.

(e) "Person" means and includes individuals, firms, corporations, partnerships and their agents and employees.

(f) "Poles, overhead wires and associated overhead structures" means poles, towers, supports, wires, conductors, guys, stubs, platforms, crossarms, braces, transformers, insula-

tors, cutouts, switches, communication circuits, appliances, attachments and appurtenances located aboveground within a District and used or useful in supplying electric, communication, cable television, or similar associated service.

(g) "Utility" means all persons or entities supplying electric, communication, or similar or associated service by means of electrical materials or devices. (Added Ord. 68-170, 1968; Am. Ord. 79-139, § 1, 9-21-79).

SEC. 13-603. PUBLIC HEARING BY COUNCIL.

The Council may from time to time call public hearings to ascertain whether the public necessity, health, safety, or welfare requires the full removal of poles, overhead wires and associated overhead structures within designated areas of the city and the full underground installation of wires and facilities for supplying electric, communication, cable television, or similar or associated service, subject to such exceptions as may be authorized by Section 13-607. The City Clerk shall notify all affected property owners as shown on the last assessment roll and utilities concerned by mail of the time and place of such hearings at least ten days prior to the date thereof. Each such hearing shall be open to the public and may be continued from time to time. At each such hearing all persons interested shall be given an opportunity to be heard. The decision of the Council shall be final and conclusive. (Added Ord. 68-170, 1968; Am. Ord. 68-175, 1968).

SEC. 13-604. COUNCIL MAY DESIGNATE UNDERGROUND UTILITY DISTRICTS BY RESOLUTION.

If, after any such public hearing, the Council finds that the public necessity, health, safety, or welfare requires such removal and such underground installation within a designated area, for the reason that such acts will avoid or eliminate an unusually heavy concentration of overhead facilities; or streets involved are extensively used and carry a heavy volume of traffic; or the facilities or streets involved adjoin or pass through scenic, civic, park, recreation, or other special areas in which undergrounding is of a special necessity or effect; the Council shall, by resolution, declare such designated area an Underground Utility District and order such removal and underground installation. Such resolution shall fix the time within which such removal and underground installation shall be accomplished and within which affected persons must be ready to receive underground service. A reasonable time shall be allowed for such removal and underground installation, having due regard for the availability of labor, materials, and equipment necessary for such removal and for the installation of such underground facilities as may be occasioned thereby. The resolution shall include a description of the area comprising such district. The description may be by adoption of a map or drawing by reference. Whenever the description refers to a street or alley, the reference shall be to the boundaries of the street or alley; and the district area shall also include all yards required by the Zoning Ordinance along the street or alley on all properties abutting the street or alley, unless the resolution otherwise provides. (Added Ord. 68-170, 1968, Am. Ord. 68-175, 1968).

SEC. 13-605. UNLAWFUL ACTS.

Whenever the Council creates an Underground Utility District and orders the removal of poles, overhead wires, and associated overhead structures therein as provided in Section 13-604 hereof, it shall be unlawful for any person or utility to erect, construct, place, keep, maintain, continue, employ, or operate poles, overhead wires, and associated overhead structures in the District after the date when said overhead facilities are required to be removed by such resolution, except as said overhead facilities may be required to furnish service to an owner or occupant of property prior to the performance by such owner or occupant of the underground work necessary for such owner or occupant to continue to receive utility service as provided in Section 13-610, and for such reasonable time, as determined by the Director, required to remove said facilities after said work has been performed. (Added Ord. 68-170, 1968).

SEC. 13-606. EXCEPTION, EMERGENCY OR UNUSUAL CIRCUMSTANCES.

Notwithstanding the provisions of this article, the Director may grant special permission, on such terms as the Director may deem necessary and proper, in case of an emergency or unusual circumstance or in case of a construction project, to utilities or governmental agencies to temporarily erect, construct, install, maintain, use, or operate poles, overhead wires, and associated overhead structures. (Added Ord. 68-170, 1968).

SEC. 13-607. OTHER EXCEPTIONS.

In any resolution adopted pursuant to Section 13-604 hereof, the city may authorize any or all of the following exceptions:

(a) Any municipal facilities or equipment installed under the supervision and to the satisfaction of the Director.

(b) Poles, or electroliers used exclusively for street lighting, and conductors which serve a single pole or electrolier.

(c) Overhead wires carrying electric power at primary or transmission voltage (exclusive of supporting structures) crossing (at approximately a right angle to the main axis of the District at that point, as the Council may approve) any portion of a District within which overhead wires have been prohibited.

(d) Poles, overhead wires, and associated overhead structures used for the transmission of electric energy at nominal voltages in excess of 21,000 volts.

(e) Overhead wires attached to the exterior surface of a building by means of a bracket or other fixture and extending from one location on the building to another location on the same building or to an adjacent building without encroaching upon or over any public street.

(f) Equipment appurtenant to underground facilities, such as surface-mounted transformers, pedestal-mounted terminal boxes and meter cabinets, and concealed ducts.

(g) Poles, overhead wires, and associated overhead structures presently in existence at the time of adoption of the resolution which had been theretofore approved by the city as complying with requirements of partial undergrounding of the area, i.e., those which were erected as a "streamline" system or other partial system of similar denomination. (Added Ord. 68-170, 1968; Am. Ord. 95-78, § 4, eff. 12-1-95).

SEC. 13-608. NOTICE TO PROPERTY OWNERS AND UTILITY COMPANIES.

Within thirty days after the effective date of a resolution adopted pursuant to Section 13-604 hereof, the City Clerk shall notify all affected utilities and all affected property owners, as shown on the last assessment roll, within the District created by said resolution of the adoption thereof. The City Clerk shall further notify such affected property owners of the necessity that, if they or any person occupying such property desire to continue to receive electric, communication or similar, or associated service, they or such occupant shall provide all necessary facility changes on their premises so as to receive such service from the lines of the supplying utility or utilities at a new location. (Added Ord. 68-170, 1968).

SEC. 13-609. RESPONSIBILITY OF UTILITY COMPANIES.

If underground construction is necessary to provide utility service within a District created by any resolution adopted pursuant to Section 13-604 hereof, the supplying utility shall furnish that portion of the conduits, conductors, and associated equipment required to be furnished by it under its applicable rules, regulations, and tariffs on file with the Commission. (Added Ord. 68-170, 1968).

SEC. 13-610. RESPONSIBILITY OF AFFECTED PERSONS.

(a) Every person owning, operating, leasing, occupying, or renting a building or structure within a District shall construct and provide that portion of the service connection on his property between the facilities referred to in Section 13-609 and the termination facility on or within said building or structure being served; all in accordance with applicable rules, regulations, and tariffs on file with the Commission.

(b) In the event any person owning, operating, leasing, occupying, or renting said property does not comply with the provisions of subsection (a) of this section within the time provided for in the resolution enacted pursuant to Section 13-604 hereof, or pursuant to other competent authority, the Director shall post written notice on the property being served and thirty days thereafter shall have the authority to order the disconnection and removal of any and all overhead service wires and associated facilities supplying utility service to said property. Upon such order, any affected utility shall so disconnect and remove the wires and facilities. (Added Ord. 68-170, 1968; Am. Ord. 79-139, § 2, 9-21-79).

SEC. 13-611. RESPONSIBILITY OF CITY.

The city shall remove at its own expense all city-owned equipment from all poles required to be removed hereunder in ample time to enable the owner or user of such poles to remove the same within the time specified in the resolution enacted pursuant to Section 13-604 hereof. (Added Ord. 68-170, 1968).

SEC. 13-612. EXTENSION OF TIME.

In the event that any act required by this article or by a resolution adopted pursuant to Section 13-604 hereof cannot be performed within the time provided on account of shortage of materials, war, restraint by public authorities, strikes, labor disturbances, civil disobedience, or any other similar circumstances beyond the control of the actor, then the time within which such act will be accomplished will be determined and extended by the Director for a period equivalent to the time of such limitation.
(Added Ord. 68-170, 1968).

SEC. 13-613. RECORDATION OF DISTRICT.

The City Clerk shall file by map or otherwise, the description of the area comprising a district declared by the Council, for recording by the Recorder of Fresno County.
(Added Ord. 68-170, 1968).

SEC. 13-614. AMENDMENT OF RESOLUTION.

Whenever any resolution adopted pursuant to this article is to be amended to change any provision thereof (other than a change of district boundaries), the procedure of this article shall be followed except that only utility companies and affected property owners need be given required notices.
(Added Ord. 68-170, 1968).

ARTICLE 1 DEFINITIONS

Sec. 14-101. Definitions of Words and Phrases.
Sec. 14-102. Vehicle Code Definitions to be Used.
Sec. 14-103. Other Definitions.

SEC. 14-101. DEFINITIONS OF WORDS AND PHRASES.

The following words and phrases when used in this chapter shall, for the purpose of this chapter, have the meanings respectively ascribed to them in this article. (Rep. and Added Ord. 6130, 1962).

SEC. 14-102. VEHICLE CODE DEFINITIONS TO BE USED.

Whenever any words or phrases used herein are not defined, but are defined in the Vehicle Code of the State of California and amendments thereto, such definitions shall apply. (Rep. and Added 6130, 1962, based on former Sec. 10-101).

SEC. 14-103. OTHER DEFINITIONS.

(a) "Adjacent" shall mean near, close, or abutting; for example, an Industrial District across the street or highway from a Residential District shall be considered as "Adjacent."

"Alley" is any street less than twenty-five feet in width between property lines.

(b) "Bank service zone" is the space adjacent to a curb reserved during certain hours and days for the exclusive use of vehicles whose operators or passengers are transacting or waiting in line to transact business at a special device installed at the curb to handle banking transactions.

"Bicycle" means a device upon which any person may ride, propelled by human power through a belt, chain or gears, and having either two or three wheels in a tandem or tricycle arrangement.

"Bicycle Lane" or "Bike Lane" means any lane within the roadway designated by signs and markings for the operation of bicycles.

"Bicycle Path" or "Bike Path" means any area physically separated from the roadway and designated for the operation of bicycles.

"Bicycle Route" or "Bike Route" means any route recommended for bicycle travel which may include public streets, bicycle lanes, or bicycle paths.

"Bicycle Taxi" means a bicycle designed to carry passengers for fare.

"Bicycle Way" or "Bike Way" means the same as "Bicycle Route" or "Bike Route".

(c) "Central business district" includes all of that portion of this city bounded by and including the following streets:

(1) Southern Pacific tracks, from Calaveras to Mono;

(2) Calaveras Street, from Southern Pacific tracks to "L" ;

(3) "L" Street, from Calaveras to Merced;

(4) Merced Street, from "L" to "Q" ;

(5) "Q" Street, from Merced to Kern;

(6) Kern Street, from "Q" to "L" ;

(7) "L" Street, from Kern to Mono;

(8) Mono Street, from "L" to Southern Pacific tracks.;

"Congested traffic" means a condition where little or no vehicular flow is occurring and a significant number of vehicles are not promptly and swiftly moving forward because of the heavy traffic load on a particular street or highway.

"Core Area" means any of the following areas in the City:

(1) Ventura Avenue (State Highway 180) from Broadway to Cedar Avenue.

(2) Kings Canyon Road (State Highway 180) from Cedar Avenue to Willow Avenue.

(3) Blackstone Avenue from Hedges Avenue to Nees Avenue.

(4) Belmont Avenue from Weber Avenue to Abby Avenue.

(5) Broadway from Divisadero Street to Santa Clara Street.

"Cruising" means the repetitive driving of a motor vehicle past a traffic control point in traffic which is congested at or near such traffic control point, as determined by the highest ranking Fresno Police Department officer on duty within the affected core areas, three of more times within a three-hour period, after having driven past said control point two times within the same period and having been given an adequate written notice by a peace officer after the second passing, that further driving past the traffic control point shall constitute a violation of this section.

"Curb" means the lateral boundary of the roadway whether such curb be marked by curbing construction, or not so marked; the word "curb" as herein used shall not include the line dividing the roadway of a street from parking strips in the center of a street, nor from tracks or rights-of-way of public utility companies.

"Curb postal mailing zone" means the space adjacent to a curb reserved for the exclusive use of vehicles during the depositing of mail in special mail curb postal boxes.

(d) "Divisional island" means a raised located in the roadway and separating opposing or conflicting streams of traffic.;

(e) (Reserved).

(f) (Reserved).

(g) (Reserved).

(h) "Holidays" means January 1st, February 12th, the third Monday in February, the last Monday in May, July 4th, the first Monday in September, September 9th, the second Monday

in October, November 11th, Thanksgiving Day, December 25th, and any day or part of a day declared by the Council, by ordinance or resolution, to be a holiday. If January 1st, February 12th, July 4th, September 9th, or December 25th falls on a Sunday, the Monday following is a holiday.

(i) (Reserved).

(j) (Reserved).

(k) (Reserved).

(l) "Limited-access roadway" means any highway, street or roadway in respect to which owners or occupants of abutting property or lands and other persons have no legal right of access to or from same, except at such points only and in such manner as may be determined by the public authority having jurisdiction over such highway, street or roadway.

"Loading zone" means the space adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers or materials.

(m) (Reserved).

(n) (Reserved).

(o) "Official car zone" means the space adjacent to a curb reserved for the exclusive use of vehicles belonging to governmental agencies which are equipped with State of California exempt license plates or containing a permit in the windshield issued by an official agency authorized to issue such permits.

"Official Time Standard," whenever certain hours are named herein, shall mean standard time or daylight saving time as may be in current use in this city.

(p) "Park" means to stand or leave standing any vehicle, whether occupied or not, otherwise than temporarily for the purpose of and while actually engaged in loading or unloading of passengers or materials.

"Parking meter" means any mechanical device installed adjacent to a parking meter space for the purpose of recording the period of time for occupancy of such parking meter space by any vehicle.

"Parking meter space" includes the area or space adjacent to a parking meter upon any street or upon any city-owned off-street parking lot designated by lines or other markings and of sufficient size to permit the parking of only one vehicle, or up to four motorcycles.

"Parking meter zone" is an area described and established by ordinance as a zone within which the parking of vehicles shall be controlled, regulated and inspected with the aid of parking meters.

"Parkway" means that portion of a street other than a roadway or a sidewalk.

"Passenger loading zone" means the space adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers.

"Pedestrian" means any person afoot or using a wheelchair. Individuals using other power-driven mobility devices because of a mobility disability may be classified as pedestrians if the devices can be safely operated pursuant to City policy and consistent with the Americans with Disabilities Act.

"Police officer" means every officer of the Police Department of this city or any other officer authorized to regulate traffic or to make arrests for violations of traffic regulations.

(q) (Reserved).

(r) (reserved).

(s) "Stop," when required, means complete cessation of movement.

"Stop or stand" when prohibited, means any stopping or standing of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or official traffic-control device.

(t) "Taxicab stand" means the space adjacent to a curb reserved for the legal parking of taxicabs while awaiting employment.

"Traffic" includes pedestrian, ridden or herded animals, vehicles, and other conveyances either singly or together while using any street for purposes of travel.

"Traffic control point" means a location along a public street or highway utilized by a Fresno Police Department officer on duty in the affected areas as an observation point in order to monitor traffic conditions.

(u) (Reserved).

(v) "Vehicle Code" means the Vehicle Code of the State of California.

(w) "West Fresno Business district" includes all that portion of this city bounded by and including the following streets:

(i) 99 Freeway right-of-way, from Fresno Street to Inyo Street;

(ii) Inyo Street, from 99 Freeway right-of-way to "G" Street;

(iii) "G" Street, from Inyo to Fresno Street;

(iv) Fresno Street, from "G" Street to the 99 Freeway right-of-way.

(x) (Reserved).

(y) (Reserved).

(z) (Reserved).

(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-102; Am. Ord. 6511, 1964; Am. Ord. 76-24, § 1, eff. 4-18-76; Am. Ord. 76-126, § 2, eff. 1-23-77; Am. Ord. 83-134, § 1, eff. 10-28-83; Am. Ord. 89-136, §§ 1, 2, eff. 12-8-89; Am. Ord. 93-4, § 1, eff. 2-12-93; Am. Ord. 2003-74, § 1, eff. 10-5-03; Am. Ord. 2006-74, § 1, eff. 7-22-06; Am. Ord. 2011-6, § 7, eff. 4-10-11).

ARTICLE 2 ADMINISTRATION

Sec. 14-201. City Traffic Engineer.
Sec. 14-202. Powers and Duties of City Traffic Engineer—Delegation.
Sec. 14-203. Emergency and Experimental Regulations.

SEC. 14-201. CITY TRAFFIC ENGINEER.

The office of City Traffic Engineer is hereby established under the Director of Public Works. The City Traffic Engineer shall exercise the powers and duties as approved in this chapter and in the other provisions of the Code relating to traffic.
(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962; Am. Ord. 89-116, § 1, eff. 10-27-89).

SEC. 14-202. POWERS AND DUTIES OF CITY TRAFFIC ENGINEER—DELEGATION.

It shall be the general duty of the City Traffic Engineer to determine the installation and proper timing and maintenance of traffic control devices and signals, to conduct engineering analyses of traffic accidents and to devise remedial measures, to conduct engineering and traffic investigations of traffic conditions and to cooperate with other city officials in the development of ways and means to improve traffic conditions, and to carry out the additional powers and duties imposed by provisions of this Code. Whenever, by the provisions of this chapter a power is granted to the City Traffic Engineer or a duty imposed upon him, the power may be exercised or the duty performed by his deputy or by a person authorized in writing by him.
(Orig. Ord. 3811; Am. Ord. 4789, 1955; Rep. and Added Ord. 6130, 1962).

SEC. 14-203. EMERGENCY AND EXPERIMENTAL REGULATIONS.

(a) The Chief of Police is hereby empowered to place or remove or cause to be placed or removed signs, signals and markings temporarily to cover emergencies, special conditions or events. Such signs, signals and markings shall be removed or reinstated in such a manner to restore the original traffic control immediately upon termination of the emergency, condition or event unless otherwise directed by the Council.

(b) The City Traffic Engineer is hereby empowered to make regulations necessary to make effective the provisions of this chapter, to cover emergencies or special conditions and to make temporary or experimental regulations. No such temporary or experimental regulation shall remain in effect for more than ninety days. In the event that after ninety days the experimental regulations have proved satisfactory, they may be placed into effect permanently by Council authorization.
(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

ARTICLE 3 ENFORCEMENT AND OBEDIENCE TO TRAFFIC REGULATIONS

Sec. 14-301. Authority of Police and Fire Department Officials.
Sec. 14-302. Persons Other Than Officials Shall Not Direct Traffic.
Sec. 14-303. Infractions.
Sec. 14-304. Required Obedience to Traffic Ordinance.
Sec. 14-305. Traffic Regulations Apply to Persons Riding Bicycles, Shared Mobility Devices or Animals.
Sec. 14-306. Obstruction or Interference with Police or Authorized Officer.
Sec. 14-307. Public Employees to Obey Traffic Regulations.
Sec. 14-308. Exemption of Certain Vehicles.
Sec. 14-309. When Vehicles May Be Removed from Streets and City-Owned Parking Lots or Immobilized.
Sec. 14-310. Enforcement of Traffic Laws.
Sec. 14-311. Parking and Use of Shared Mobility Devices.

SEC. 14-301. AUTHORITY OF POLICE AND FIRE DEPARTMENT OFFICIALS.

Officers of the Police Department and such other persons as are designated by the Chief of Police are hereby authorized to direct all traffic by voice, hand, audible or other signal in conformance with traffic laws, except that in the event of a fire or other emergency or to expedite traffic or to safeguard pedestrians, officers of the Police Department or members of the Fire Department may direct traffic as conditions may require, notwithstanding the provisions to the contrary contained in this Code or the Vehicle Code.
(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-302. PERSONS OTHER THAN OFFICIALS SHALL NOT DIRECT TRAFFIC.

No person other than an officer of the Police Department or members of the Fire Department or a person authorized by the Chief of Police or a person authorized by law shall direct or attempt to direct traffic by voice, hand or other signal, except that persons may operate, when and as herein provided, any mechanical pushbutton signal erected by order of the City Traffic Engineer.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-303).

SEC. 14-303. INFRACTIONS.

Notwithstanding the provisions of Section 1-304(a), violation of any provision of this chapter is an infraction unless otherwise specified.
(Added Ord. 75-44, § 4, eff. 6-2-75; Am. Ord. 76-64, § 2, eff. 7-1-76; Am. Ord. 80-143, § 1, eff. 10-17-80).

SEC. 14-304. REQUIRED OBEDIENCE TO TRAFFIC ORDINANCE.

No pedestrian, or person driving a vehicle or other conveyance on any street, shall do any act prohibited by, or fail to perform any act required by, any provision of this chapter applicable to such pedestrian or person.
(Rep. and Added Ord. 6130, 1962).

SEC. 14-305. TRAFFIC REGULATIONS APPLY TO PERSONS RIDING BICYCLES, SHARED MOBILITY DEVICES OR ANIMALS.

Every person riding a bicycle, a shared mobility device as defined in Section 9-3403 or riding or driving an animal upon a highway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle by this Chapter, except those provisions which by their very nature can have no application.
(Rep. and Added Ord. 6130, 1962; Am. Ord. 2019-034, § 2, eff. 11-11-19).

SEC. 14-306. OBSTRUCTION OR INTERFERENCE WITH POLICE OR AUTHORIZED OFFICER.

No person shall interfere with or obstruct in any way any police officer or other officer or employee of this city in their enforcement of the provisions of this chapter. The removal, obliteration or concealment of any chalk mark or other distinguishing mark used by any police officer or other employee or officer of this city in connection with the enforcement of the parking regulations of this chapter shall, if done for the purpose of evading the provisions of this chapter, constitute such interference or obstruction. Violation of this section is a misdemeanor.
(Rep. and Added Ord. 6130, 1962; Am. Ord. 80-143, § 2, eff. 10-17-80).

SEC. 14-307. PUBLIC EMPLOYEES TO OBEY TRAFFIC REGULATIONS.

The provisions of this chapter shall apply to the operator of any vehicle owned by or used in the service of the United States Government, this state, any county or city, and it shall be unlawful for any said operator to violate any of the provisions of this chapter, except as otherwise permitted in this chapter or by the Vehicle Code.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-304).

SEC. 14-308. EXEMPTION OF CERTAIN VEHICLES.

(a) The provisions of this chapter regulating the operation, parking and standing of vehicles shall not apply to vehicles operated by the Police or Fire Department, any public ambulance or any public utility vehicle or any private ambulance, which public utility vehicle or private ambulance has qualified as an authorized emergency vehicle, when any vehicle mentioned in this section is operated in the manner specified by the Vehicle Code in response to an emergency call.

(b) The foregoing exemptions shall not, however, relieve the operator of any such vehicle from obligation to exercise due care for the safety of others or the consequences of his willful disregard of the safety of others.

(c) The provisions of this chapter regulating the parking or standing of vehicles shall not apply to any vehicle of a city department or public utility while necessarily in use for construction or repair work or any vehicle owned or operated by the United States Post Office Department while in use for the collection, transportation or delivery of United States mail.

(d) The provisions of this chapter regulating the parking or standing of vehicles on public streets and highways in metered or nonmetered one-hour or two-hour parking zones shall not apply to the following:

(1) Public utility service vehicles subject to an agreement with the city, in accordance with rules and regulations as may be established from time to time by the Public Works Director governing such agreements. For parking in metered parking zones, such agreements shall provide for a method of payment to the city of not less than those amounts which would otherwise be payable in the metered parking zone.

(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-306; Am. Ord. 71-102, 1971; Am. Ord. 81-131, § 1, eff. 11-6-81; Am. Ord. 2003-83, § 2, eff. 10-21-03; Am. Ord. 2004-116, § 2, 12-5-04; Am. Ord. No. 2008-11, § 1, eff. 4-14-08; Am. Ord. 2008-65, § 1, eff. 12-15-08).

SEC. 14-309. WHEN VEHICLES MAY BE REMOVED FROM STREETS AND CITY-OWNED PARKING LOTS OR IMMOBILIZED.

(a) Any regularly employed and salaried officer of the Police Department of the city may remove or cause to be removed:

(1) Any vehicle that has been parked or left standing upon a street or alley for seventy-two or more consecutive hours without having been moved more than one-tenth of a mile.

(2) Any vehicle which is parked or left standing upon a street or alley or city-owned parking lot when such parking or standing is prohibited by ordinance or resolution of this city and signs are posted giving notice of such removal.

(3) Any vehicle which is parked or left standing upon a street or alley where the use of such street or alley or a portion thereof is necessary for the cleaning, repair or construction of the street or alley or for the installation of underground utilities or where the use of the street or alley or any portion thereof is authorized for a purpose other than the normal flow of traffic or where the use of the street or alley or any portion thereof is necessary for the movement of equipment, articles or structures of unusual size, and the parking of such vehicle would prohibit or interfere with such use or movement; provided that signs giving notice that such vehicle may be removed are erected or placed at least twenty-four hours prior to the removal.

(b) In addition to, or as an alternative to removal of vehicles, any regularly employed and salaried officer of the police department of the city or any regularly employed and salaried employee of the city who is engaged in directing traffic or enforcing parking laws and regulations of the city may immobilize any vehicles under the requirements set forth in Section 22651.7 of the Vehicle Code, relating to vehicles with parking violations outstanding, as provided in Section 22651.7. An administrative fee or fees for such immobilization may be established by resolution of the city council. Any vehicle immobilized as set forth herein shall remain immobilized until the conditions set forth in Section 22651.7 are met, and all applicable administrative fees are paid to the city.

(c) If any sentence, clause or phrase of this section is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portion of this section. Council hereby declares that it would have adopted this section and each sentence, clause or phrase thereof, irrespective of the fact that any one or more subsections, sentences, clauses or phrases be declared invalid or unconstitutional.

(Added Ord. 6130, 1962; Am. Ord. 6546, 1964; Added Ord. 2006-62, § 2, eff. 6-12-06; Am. Ord. 2007-17, § 1, eff. 4-19-07).

SEC. 14-310. ENFORCEMENT OF TRAFFIC LAWS.

The Traffic Engineer is authorized to enforce the provisions of this chapter.

(Added Ord. 79-129, § 1, eff. 8-10-79; Am. Ord. 2025-061, § 2, eff. 1-30-26).

Editor's note—Ord. 2025-061, § 1, effective January 30, 2026, repealed § 14-310, which pertained to use of coasters, roller skates, and similar devices restricted and derived from added Ord. 6130, adopted 1962. Ord. 2025-061, § 2, subsequently renumbered the former §§ 14-311, 14-312 as §§ 14-310, 14-311. The historical notation has been retained with the amended provisions for reference purposes.

SEC. 14-311. PARKING AND USE OF SHARED MOBILITY DEVICES.

(a) Operators shall inform users how and where to properly use and park a shared mobility device.

(b) A shared mobility device parked in violation of this Article, or the permit and franchise agreement authorizing its use in the City, may be removed by the City and taken to a facility designated by the City for storage at the expense of the operator if the operator has not retrieved its shared mobility device that has been marked as inoperable or parked in violation of this code or California Vehicle Code within two hours of receiving notice from the City.

(c) Shared mobility device users shall comply with all applicable provisions of the California Vehicle Code, including without limitation the prohibition on riding a shared mobility device on any sidewalk.

(Added Ord. 2019-034, § 3, eff. 11-11-19; Am. Ord. 2025-061, § 2, eff. 1-30-26).

Editor's note—See Editor's Note attached to § 14-310.

ARTICLE 4 TRAFFIC CONTROL DEVICES

Sec. 14-401. Authority to Install Traffic Control Devices.
Sec. 14-402. Traffic Control Signs Required for Enforcement Purposes.
Sec. 14-403. Obedience to Traffic Control Devices.
Sec. 14-404. Installation of Traffic Signals.
Sec. 14-405. Lane Marking.
Sec. 14-406. Distinctive Roadway Markings.
Sec. 14-407. Authority to Remove, Relocate and Discontinue Traffic Control Devices.
Sec. 14-408. Traffic Control Devices; Hours of Operation.
Sec. 14-409. Unauthorized Painting of Curbs.

SEC. 14-401. AUTHORITY TO INSTALL TRAFFIC CONTROL DEVICES.

(a) The City Traffic Engineer shall have the power and duty to place and maintain or cause to be placed and maintained official traffic control devices when and as required to make effective the provisions of this chapter.

(b) Whenever the Vehicle Code requires for the effectiveness of any provision thereof that traffic control devices be installed to give notice to the public of the application of such law, the City Traffic Engineer is hereby authorized to install or cause to be installed the necessary devices subject to any limitations or restrictions set forth in the law applicable thereto.

(c) The City Traffic Engineer may also place and maintain or cause to be placed and maintained such additional traffic control devices as he may deem necessary or proper to regulate traffic or to guide or warn traffic, but he shall make such determination only upon the basis of traffic engineering principles and traffic investigations and in accordance with such standards, limitations, and rules as may be set forth in this chapter or as may be determined by ordinance or resolution of the Council.
(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-402. TRAFFIC CONTROL SIGNS REQUIRED FOR ENFORCEMENT PURPOSES.

No provision of the Vehicle Code or of this chapter for which signs are required shall be enforced against an alleged violator unless appropriate legible signs are in place giving notice of such provisions of the traffic laws.
(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-403. OBEDIENCE TO TRAFFIC CONTROL DEVICES.

The operator of any vehicle or train shall obey the instructions of any official traffic control device placed in accordance with this chapter unless otherwise directed by a police officer or other authorized person subject to the exceptions granted the operator of an authorized emergency vehicle when responding to emergency calls.
(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-404. INSTALLATION OF TRAFFIC SIGNALS.

(a) The City Traffic Engineer is hereby directed to install and maintain official traffic signals at those intersections and other places where traffic conditions are such as to require that the flow of traffic be alternately interrupted and released in order to prevent or relieve traffic congestion or to protect life or property from exceptional hazard.

(b) The City Traffic Engineer shall ascertain and determine the locations where such signals are required by such field observations, traffic counts, and other traffic information as may be pertinent.

(c) Whenever the City Traffic Engineer installs and maintains an official traffic signal at any intersection, he shall likewise erect and maintain at such intersection street name signs visible to the principal flow of traffic unless such street name signs have previously been placed and are maintained at any said intersection. (Rep. and Added Ord. 6130, based on former Sec. 10-405).

SEC. 14-405. LANE MARKING.

The City Traffic Engineer is hereby authorized to mark center lines and lane lines upon the surface of the roadway to indicate the course to be traveled by vehicles and may place signs temporarily designating lanes to be used by traffic moving in a particular direction, regardless of the center line of the highway. (Rep. and Added Ord. 6130, 1962, based on former Sec. 10-406).

SEC. 14-406. DISTINCTIVE ROADWAY MARKINGS.

The City Traffic Engineer is authorized to place and maintain distinctive roadway markings as described in the Vehicle Code on those streets or parts of streets where the volume of traffic or the vertical or other curvature of the roadway renders it hazardous to drive on the left side of such marking or signs and markings. Such marking or signs and marking shall have the same effect as similar markings placed by the State Department of Public Works pursuant to provisions of the Vehicle Code. (Rep. and Added Ord. 6130, 1962).

SEC. 14-407. AUTHORITY TO REMOVE, RELOCATE AND DISCONTINUE TRAFFIC CONTROL DEVICES.

The City Traffic Engineer is hereby authorized to remove, relocate or discontinue the operation of any traffic control device not specifically required by the Vehicle Code or this chapter whenever he shall determine in any particular case that the conditions which warranted or required the installation no longer exist or obtain. (Rep. and Added Ord. 6130, 1962).

SEC. 14-408. TRAFFIC CONTROL DEVICES; HOURS OF OPERATION.

The City Traffic Engineer shall determine the hours and days during which any traffic control device shall be in operation or be in effect, except in those cases where such hours or days are specified in this chapter. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-409. UNAUTHORIZED PAINTING OF CURBS.

No person, unless authorized by this city, shall paint any street or curb surface; provided, however, that this section shall not apply to the painting of numbers on a curb surface by any person who has complied with the provisions of this Code or any resolution or ordinance of this city pertaining thereto. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

ARTICLE 5 TURNING MOVEMENTS

Sec. 14-501. Authority to Place, and Obedience to, Turning Markers. Intersections. Multiple Lanes.
Sec. 14-502. Authority to Place Restricted Turn Signs.
Sec. 14-503. Obedience to No Turn Signs.
Sec. 14-504. Signal Controlled Intersections — Right Turns.

SEC. 14-501. AUTHORITY TO PLACE, AND OBEDIENCE TO, TURNING MARKERS. INTERSECTIONS. MULTIPLE LANES.

(a) The City Traffic Engineer is authorized to place markers, buttons, or signs within or adjacent to intersections and indicating the course to be traveled by vehicles turning at such intersections, and the City Traffic Engineer is authorized to locate and indicate more than one lane of traffic from which drivers of vehicles may make right or left-hand turns, and the course to be traveled as so indicated may conform to or be other than as prescribed by law or ordinance.

(b) When authorized markers, buttons, or other indications are placed within an intersection indicating the course to be traveled by vehicles turning thereat, no driver of a vehicle shall disobey the directions of such indications. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-502. AUTHORITY TO PLACE RESTRICTED TURN SIGNS.

The City Traffic Engineer is hereby authorized to determine those intersections at which drivers of vehicles shall not make a right, left, or U turn, and shall place proper signs at such intersections. The making of such turns may be prohibited between certain hours of any day and permitted at other hours, in which event the same shall be plainly indicated on the signs or they may be removed when such turns are permitted. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-503. OBEDIENCE TO NO TURN SIGNS.

Whenever authorized signs are erected indicating that no right or left or U turn is permitted, no driver of a vehicle shall disobey the directions of any such sign. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-504. SIGNAL CONTROLLED INTERSECTIONS—RIGHT TURNS.

(a) No driver of a vehicle shall make a right turn against a red or stop signal at any intersection which is sign-posted giving notice of such restriction as hereinafter provided in this section.

(b) The City Traffic Engineer shall post appropriate signs giving effect to this section where he determines that the making of right turns against a traffic signal "stop" indication would seriously interfere with the safe and orderly flow of traffic. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

ARTICLE 6 ONE-WAY STREETS AND ALLEYS

Sec. 14-601. One-Way Streets and Alleys.

SEC. 14-601. ONE-WAY STREETS AND ALLEYS.

(a) The Council by ordinance may establish one-way traffic flow on streets or alleys. Whenever an ordinance has established a one-way street or alley, the City Traffic Engineer shall place signs giving notice thereof. Authorized signs indicating the lawful traffic movement shall be placed at every intersection and when such signs are in place, the operator of any vehicle shall not drive in the opposite direction, and when parking on such a street or alley must point the front of the vehicle in the direction of the lawful traffic movement.

(b) There is hereby established an official city "List of One-Way Streets and Alleys" established pursuant to this article. The City Traffic Engineer shall cause the one-way streets and alleys to be placed on said list. The City Traffic Engineer shall keep a record of all ordinances hereafter adopted designating such one-way streets or alleys and shall cause notation of such records and such streets or alleys thereof to be placed on said list in his office. Whenever the designation of such a one-way street or alley is hereafter amended, deleted, or changed, the City Traffic Engineer shall cause such fact to be recorded upon said list. Said list and the notation and the contents therein as they may from time to time be kept and amended pursuant to this section shall be evidence of the existence and legality of the one-way streets and alleys and the legality of the placing of the appropriate signing as hereinabove provided. Said list as amended shall be deemed to be incorporated herein. (Orig. Ord. 3811; Am. Ord. 4789, 1955; Am. Ord. 5311, 1958; Rep. and Added Ord. 6130, 1962; Rep. and Added Ord. 73-82, §§ 1, 2, eff. 6-17-73).

ARTICLE 7 SPECIAL STOPS REQUIRED

Sec. 14-701. Through Streets and Stop Intersections.
Sec. 14-702. "Yield Right of Way" Signs.
Sec. 14-703. Emerging from Alley or Private Driveway.

SEC. 14-701. THROUGH STREETS AND STOP INTERSECTIONS.

(a) The Council may designate and describe by ordinance any street or portion thereof of a through street and any intersection or railroad grade crossing as a stop intersection.

(b) There is hereby established an official city "List of Through Streets," and an official city "List of Stop Intersections." Whenever the Council designates a through street or stop intersection pursuant to subsection (a) of this section, the Traffic Engineer shall cause the designated through street or stop intersection to be placed on the pertinent list. The Traffic Engineer shall keep a record of all ordinances hereafter adopted designating such through streets and stop intersections and shall cause notation of such records and such streets and intersections to be placed on said lists in his office. Whenever any description of a through street or stop intersection is hereafter amended, deleted, or changed, the Traffic Engineer shall cause such fact to be recorded upon the pertinent list in the appropriate place. Said lists and the notations and contents therein, as they may from time to time be kept and amended pursuant to this section shall be prima facie evidence of the existence and legality of the designation of said streets as through streets and said intersections as stop intersections, and the legality of the placing of stop signs thereat as hereinafter provided. Said lists, as amended, shall be deemed to be incorporated herein.

(c) The Traffic Engineer shall place and maintain a stop sign on each and every street intersecting a through street unless traffic is controlled thereat all times by traffic control signals, except that at the intersection of two or more through streets stop signs shall be erected at the approaches of any through street as may be determined by the Traffic Engineer upon the basis of an engineering and traffic study to determine the proper place to locate the stop sign which will best facilitate the movement of traffic and the protection of persons and property.

(d) The Traffic Engineer shall place and maintain a stop sign at each stop intersection, on the street that is indicated in the ordinance adopted under subsection (a) above for the location of the stop sign.

(e) All stop signs shall be erected and placed as provided by the California Vehicle Code. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962; Am. Ord. 6381, 1964; Rep. and Added Ord. 70-40, 1970).

SEC. 14-702. "YIELD RIGHT OF WAY" SIGNS.

Whenever the City Traffic Engineer determines, upon a basis of an engineering and traffic investigation, that a "Yield Right of Way" sign is warranted, the City Traffic Engineer may cause to be erected a "Yield Right of Way" sign in accordance with the provisions of the California Vehicle Code. (Rep. and Added Ord. 6130, 1962, based on former Sec. 10-704).

SEC. 14-703. EMERGING FROM ALLEY OR PRIVATE DRIVEWAY.

The driver of a vehicle emerging from an alley, driveway, or building, shall stop such vehicle immediately prior to driving onto a sidewalk or into the sidewalk area extending across an alley way. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

ARTICLE 8 MISCELLANEOUS DRIVING RULES

Sec. 14-801. Clinging to a Moving Vehicle.
Sec. 14-802. Vehicles on Private Property.
Sec. 14-803. Motor Vehicles on Canal Banks.
Sec. 14-804. Off-Highway Use of Motorcycles and Motor-Driven Cycles.
Sec. 14-805. Riding or Driving on Sidewalks.
Sec. 14-806. New Pavement and Markings.
Sec. 14-807. Limited Access.
Sec. 14-808. Restrictions on Use of Freeways.
Sec. 14-809. Obedience to Barriers and Signs.
Sec. 14-810. No Entrance into Intersections that Would Obstruct Traffic.
Sec. 14-811. Driving on Bikeways.
Sec. 14-812. Right Turn and Bike Lanes.

SEC. 14-801. CLINGING TO A MOVING VEHICLE.

No person shall attach himself with his hands, or to catch on, or hold on to with his hands or by other means, to any moving vehicle or train for the purpose of receiving motive power therefrom, except on vehicles specifically designed for such use.
(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-802. VEHICLES ON PRIVATE PROPERTY.

No person shall operate, drive, or leave any vehicle in, over, or upon private property without the express permission of the owner thereof.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-809).

SEC. 14-803. MOTOR VEHICLES ON CANAL BANKS.

(a) **Vehicles Prohibited.** No person shall operate any motor vehicle, motorcycle, motor-driven cycle, minibike, or other vehicle or device by which any person or property may be propelled, moved, or drawn, excepting a vehicle or device moved by human power, along or upon the bank or any ditch or canal where such ditch or canal traverses or abuts upon real property which is subdivided for residential use.

(b) **Exceptions.** This section shall not apply to the following persons:

(1) Officers, employees, and permittees of the owner or operator of the ditch or canal.

(2) Public officers in the discharge of their duties.

(3) Rightful water users in connection with their operations.

(4) The owner of property on which any such ditch or canal is maintained in an easement, and his permittees, in the course of conducting business operations on the property.

(Added Ord. 70-28, 1970).

SEC. 14-804. OFF-HIGHWAY USE OF MOTORCYCLES AND MOTOR-DRIVEN CYCLES.

No person shall ride or operate any motorcycle or motor-driven cycle on any private property or public property within one-quarter of a mile of any school, hospital, convalescent home, or residence except on a regularly established public street or parking lot appurtenant to a structure on the property, or on a private road, or driveway. This section shall not apply to the use of property pursuant to a permit issued for such use by a governmental agency.
(Added Ord. 72-121, 1972).

SEC. 14-805. RIDING OR DRIVING ON SIDEWALK.

No person shall ride, drive, propel, or cause to be propelled any vehicle or animal across or upon any sidewalk excepting over permanently constructed driveways and excepting when it is necessary for any temporary purpose to drive a loaded vehicle across a sidewalk; provided further, that said sidewalk area be substantially protected by wooden planks two inches thick, and written permission be previously obtained from the City Engineer. Such wooden planks shall not be permitted to remain upon such sidewalk area during the hours from 6:00 p.m. to 6:00 a.m.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-806).

SEC. 14-806. NEW PAVEMENT AND MARKINGS.

No person shall ride or drive any animal or any vehicle over or across any newly made pavement or freshly painted markings in any street when a barrier sign, cone-marker or other warning device is in place warning persons not to drive over or across such pavement or marking, or when any such device is in place indicating that the street or any portion thereof is closed.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-811).

SEC. 14-807. LIMITED ACCESS.

No person shall drive a vehicle onto or from any limited access roadway except at such entrances and exits as are lawfully established.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-807).

SEC. 14-808. RESTRICTIONS ON USE OF FREEWAYS.

No person shall drive or operate any bicycle, motor driven cycle, or any vehicle which is not drawn by a motor vehicle upon any street established as a freeway, as defined by state law, nor shall any pedestrian walk across or along any such street so designated and described except in space set aside for the use of pedestrians, provided official signs are in place giving notice of such restrictions.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-812).

SEC. 14-809. OBEDIENCE TO BARRIERS AND SIGNS.

No person, public utility, or department in the City Hall shall erect or place any barrier or sign on any street unless of a type approved by the City Traffic Engineer or disobey the instructions, remove, tamper with or destroy any barrier or sign lawfully placed on any street by any person, public utility, or by any department of this city.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-810).

SEC. 14-810. NO ENTRANCE INTO INTERSECTION THAT WOULD OBSTRUCT TRAFFIC.

No operator of any vehicle shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic control signal indication to proceed.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-808).

SEC. 14-811. DRIVING ON BIKEWAYS.

(a) **Bicycle Path.** No person shall drive a vehicle upon any bicycle path except in an emergency.

(b) **Bicycle Lane.** No person shall drive a vehicle upon any bicycle lane except in an emergency or as follows:

(1) To enter or leave the street or highway.

(2) To prepare for a right turn within 200 feet of an intersection.

(3) To park where parking is permitted.

(4) Any vehicle and other equipment while actually engaged in street work pursuant to the provisions of Article 2 of Chapter 13 of this code.

(5) Any vehicle and other equipment owned or operated by any public agency or public utility while necessarily in use for construction, repair work, work upon the surface of a highway, or work of installation, removal, repairing or maintaining official traffic control devices.

(6) Any rubbish or garbage truck while actually engaged in the collection of rubbish or garbage.

(7) Any streetsweeper while actually engaged in sweeping a street.

(8) Any vehicle owned or operated by the United States Post Office Department while in use for the collection, transportation or delivery of United States mail.

(Added Ord. 72-120, 1972; Am. Ord. 76-24, § 2, eff. 4-18-76; Am. Ord. 2025-061, § 3, eff. 1-30-26).

Editor's note—Ord. 2025-061, § 3, effective January 30, 2026, amended the title of § 14-811 to read as herein set out. The former § 14-811 title pertained to driving on bicycle route.

SEC. 14-812. RIGHT TURN AND BIKE LANES.

When necessary to make a right-hand turn on a roadway which has a bicycle lane to the right of the motor vehicle lane, the motorist must merge into the bicycle lane only within a distance of 200 feet from the intersection in accordance with Vehicle Code Section 21209, including any amendments or successor statutes thereto, and make his turn as close as practicable to the right-hand curb or edge of the roadway in accordance with Vehicle Code Section 22100, including any amendments or successor statutes thereto.
(Added Ord. No. 76-24, § 3, eff. 4-18-76; Am. Ord. 2025-061, § 3, eff. 1-30-26).

ARTICLE 9 PEDESTRIAN REGULATIONS

Sec. 14-901. Traffic Engineer to Establish Marked Crosswalks.

SEC. 14-901. TRAFFIC ENGINEER TO ESTABLISH MARKED CROSSWALKS.

(a) The City Traffic Engineer shall establish, designate and maintain crosswalks at intersections and other places by appropriate devices, marks, or lines upon the surface of the roadway at such intersections and other places within the city where the City Traffic Engineer determines that crosswalks with minimize vehicular conflict with pedestrian traffic.

(b) Other than crosswalks at intersections, no crosswalk shall be established in any block which is less than four hundred feet in length and any such crosswalk shall be located as nearly as practical to the middle of the block.

(c) The City Traffic Engineer may place signs at or adjacent to an intersection in respect to any crosswalk directing that pedestrians shall not cross in the crosswalk so indicated. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962, based on former Sec. 10-046; Am. Ord. 6873, 1966).

ARTICLE 10 STOPPING, STANDING AND PARKING FOR CERTAIN PURPOSES OR IN CERTAIN PLACES

Sec. 14-1001. Application of Regulations.
Sec. 14-1002. Stopping or Standing in Parkways Prohibited.
Sec. 14-1003. Traffic Engineer to Maintain No Stopping Zones and No Parking Areas.
Sec. 14-1004. No Stopping Tow-Away Zone.
Sec. 14-1005. No Parking Areas.
Sec. 14-1006. Use of Streets for Storage of Vehicles Prohibited.
Sec. 14-1007. Parking for Certain Purposes Prohibited.
Sec. 14-1008. Parking Adjacent to Schools.
Sec. 14-1009. Parking Prohibited on Narrow Streets.
Sec. 14-1010. Parking on Grades.
Sec. 14-1011. Emergency Parking Signs.
Sec. 14-1012. Display of Warning Devices when Commercial Vehicle Disabled.
Sec. 14-1013. Parking in Alleys.
Sec. 14-1014. Parking Prohibited on Certain City-Owned or Operated Parking Facilities.
Sec. 14-1015. Parking on Bicycle Route.
Sec. 14-1016. Parking Permitted on Certain City-Owned Parking Areas and Driveways.
Sec. 14-1017. Reckless Driving and Speeding Prohibited on Designated Private Parking Facilities.
Sec. 14-1018. Time Restrictions on Private Parking Facilities.
Sec. 14-1019. Motorcycles Parked in On-Street and Off-Street Parking Spaces.
Sec. 14-1020. [Reserved.]
Sec. 14-1021. Use of Streets for Habitation Prohibited.
Sec. 14-1022. Electric Vehicle Charging Stations.

SEC. 14-1001. APPLICATION OF REGULATIONS.

(a) The provisions of this article prohibiting the stopping, standing or parking of a vehicle shall apply at all times or at those times herein specified, except when it is necessary to stop a vehicle to avoid conflict with other traffic or in compliance with the directions of a police officer or official traffic control device.

(b) The provisions of this article prohibiting standing or parking or imposing a time limit on standing or parking shall not relieve any person from the duty to observe other and more restrictive provisions of the Vehicle Code or the ordinances of this city prohibiting or limiting the standing or parking of vehicles in specified places or at specified times.

(c) There is hereby established an official city list of stopping, standing, and parking regulated zones. Whenever any ordinance is adopted establishing zones regulating the stopping, standing or parking of vehicles, the City Traffic Engineer shall cause the designated and affected street locations to be placed on said list. The City Traffic Engineer shall keep a record of all ordinances, hereafter adopted designating such parking regulation and shall cause notations of such records and such regulations with streets and limits to be placed on said lists in his office. Whenever any description of a parking zone is hereafter amended, deleted, or changed, the City Traffic Engineer shall cause such fact to be recorded upon said list in the appropriate place. Said list and the notations and contents therein, as they may from time to time be kept and amended, shall be prima facie evidence of the

existence and legality of the designation of parking regulations on streets with the limits thereof, and the legality of placing signs and markings thereat as hereinafter provided. Said list, as amended, shall be deemed to be incorporated herein.

(d) All signs and markings shall be as specified in, erected and placed pursuant to, the California Vehicle Code. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1101; Am. Ord. 73-10, 1973; Am. Ord. 73-131, eff. 10-7-73).

SEC. 14-1002. STOPPING OR STANDING IN PARKWAYS PROHIBITED.

No person shall stop, stand or park a vehicle within any parkway. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1102).

SEC. 14-1003. TRAFFIC ENGINEER TO MAINTAIN NO STOPPING ZONES AND NO PARKING AREAS.

The City Traffic Engineer is hereby authorized to maintain, by appropriate signs or by paint upon the curb surface, all no stopping zones, no parking areas, and restricted parking areas, as defined and described in this chapter. When said curb markings or signs are in place no operator of any vehicle shall stop, stand or park such vehicle adjacent to any such legible curb marking or sign in violation of any of the provisions of this chapter. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1303).

SEC. 14-1004. NO STOPPING TOW-AWAY ZONE.

(a) The Council by ordinance may establish "No Stopping Tow-away" zones with stopping prohibited at all times or limited to specific hours, days, or either, such restrictions are effective, and the City Traffic Engineer shall designate such restrictions by placing and maintaining appropriate signs or markings indicating that stopping of vehicles is prohibited and, when applicable, to indicate any specific hours, days, or either, when the stopping of vehicles is prohibited. During the time so designated by the signs or markings, it shall be unlawful for the operator of any vehicle to stop in any such zones. Any member of the Police Department authorized by the Chief of Police may remove from a "no stopping tow-away" zone to a garage or other place of safety, in the manner, and subject to the requirements, of the Vehicle Code, any vehicle which has been parked or left standing therein in violation of any such sign or marking which also gives notice that the vehicle may be towed away or removed.

(b) All signs and markings shall be as specified in, erected and placed pursuant to, the California Vehicle Code. (Added Ord. 73-11, 1973).

SEC. 14-1005. NO PARKING AREAS.

No operator of any vehicle shall stop, stand, park, or leave standing such vehicle in any of the following places, except when necessary to avoid conflict with other traffic or in compliance with the direction of a police officer or other authorized officer, or traffic sign or signal:

(a) Within any divisional island unless authorized and clearly indicated with appropriate signs or markings.

(b) On either side of any street between the projected property lines of any public walk, public steps, street, or thoroughfare terminating at such street, when such area is indicated by appropriate signs or by red paint upon the curb surface.

(c) In any area where the City Traffic Engineer determines that the parking or stopping of a vehicle would constitute a traffic hazard or would endanger life or property, when such area is indicated by appropriate signs or by red paint upon the curb surface.

(d) In any area established by ordinance of the Council as a no parking area, when such area is indicated by appropriate signs or by red paint upon the curb surface. (Subsec. Am. Ord. 70-2, 1970).

(e) Upon, along, or across any railway track in such manner as to hinder, delay, or obstruct the movement of any car traveling upon such track.

(f) In any area where the parking or stopping of any vehicle would constitute a traffic hazard or would endanger life or property.

(g) On any street or highway where the use of such street or highway or a portion thereof is necessary for the repair, or construction of the street or highway or the installation of underground utilities or where the use of the street or highway or any portion thereof is authorized for a purpose other than the normal flow of traffic or where the use of the street or highway or any portion thereof is necessary for the movement of equipment, articles, or structures of unusual size, and the parking of such vehicle would prohibit or interfere with such use or movement; provided that signs giving notice of such no parking are erected or placed at least twenty-four hours prior to the effective time of such no parking.

(h) At any place within twenty feet of a crosswalk at an intersection in the central business district or in any business district when such place is indicated by appropriate signs or by red paint upon the curb surface, except that a bus may stop at a designated bus stop.

(i) In any area established by ordinance of the Council as an Emergency Parking Area, which area shall be effective at all times, or during limited or specific hours or days or both, when such area has been indicated by appropriate signs.

(j) Any place within twenty feet of the approach to any traffic signal, boulevard stop sign, or official electric flashing device when such place is indicated by appropriate signs or by red paint upon the curb surface.

(k) In front of a public or private driveway.

(l) Within fifteen feet of either side of a fire hydrant, unless a different distance is indicated by appropriate signs or by red paint upon the curb surface.

(m) On any street or highway, where the use of such street or highway, or portion thereof is necessary for the purpose of street sweeping, and the parking of such vehicle would prohibit or interfere with the street sweeping, provided; the street or highway, or portion thereof, has been posted in accordance with the uniform standards and

specifications of the Department of Transportation, or the City has caused to be posted in a conspicuous place at each entrance to the street a notice not less than 17 inches by 22 inches in size, with lettering not less than one inch in height setting forth the day or days and hours parking is prohibited. As used in the subsection, "entrance" means the intersection of any street or streets comprising an area of restricted parking for street sweeping purposes on the same day or days and hours with another street or highway not subject to such a parking restriction, or subject to parking restrictions on different days and hours. This subsection shall not affect any commercial vehicle making pickups or deliveries of goods, wares, or merchandise from or to any building or structure located on the restricted street or highway, or for the purposes of delivering materials to be used in the repair, alteration, remodeling, or reconstruction of any building or structure for which a building permit has previously been obtained.

(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-110; Am. Ord. 77-80, § 1, eff. 8-26-77; Am. Ord. 78-135, § 1, eff. 9-29-78; Am. Ord. 80-79, §§ 1, 2, eff. 6-20-80; Ord. No. 98-40, §§ 1, 2, eff. 7-20-98).

SEC. 14-1006. USE OF STREETS FOR STORAGE OF VEHICLES PROHIBITED.

(a) The Council finds that the use of streets for storage of vehicles and the minimal movement of a parked or standing vehicle, including a recreational vehicle or temporary recreational vehicle, travel trailer, mobile home, transport trailer, boat trailer, bus, semi, house car, utility trailer, camper and the like, whether attached to another vehicle or separate, in order to avoid removal as a stored vehicle presents risk to the public health, safety and general welfare based upon the following findings:

(1) Use of streets for storage of vehicles tends to impair public use and enjoyment of streets.

(2) Use of streets for storage of vehicles tends to impair traffic flow.

(3) Use of streets for storage of vehicles tends to obstruct the visibility of drivers using and accessing streets.

(4) Use of streets for storage of vehicles tends to present increased risk of nuisance, or blight, or decrease in property values.

(5) Minimal movement of a parked or standing vehicle in order to avoid removal as a stored vehicle has frustrated and continues to frustrate the intent and purpose of this section.

(b) The on-street parking and storage of recreational vehicles shall be subject to the regulations of parking established pursuant to subsections (b)(1) through (4) of this section and the Vehicle Code of the State.

(1) Any motor-driven recreational vehicle not exceeding twenty feet in length, except a commercial vehicle or motor truck which is not a passenger vehicle, shall be exempt from the provisions of this subsection.

(2) No equipment, other non-vehicular property, or non-motorized vehicle whether attached or unattached to a motor vehicle shall be parked or stored in any residential street, subject to subsection (b)(4) of this section.

(3) Any recreational vehicle (not otherwise exempt pursuant to subsection (b)(1) or (2) of this section) may park on any street for a twenty-four hour period of time without restriction pursuant to this subsection. No person shall park or stand or permit to remain any recreational vehicle for more than twenty- four hours within a consecutive seven day period. A vehicle shall be considered to be in violation of this section when it is parked or standing on a street or alley within one thousand feet of the same location after twenty-four hours.

(4) A bona fide guest of a resident may park a recreational vehicle or trailer on the street in front of the host's residence for a period of seven days upon notification of the Parking Services Department.

(c) An inoperative, wrecked, dismantled or abandoned vehicle shall not be parked on public property or public right-of-way. A vehicle is deemed "inoperative" under this section if the vehicle (1) is mechanically incapable of being driven; (2) does not have a valid and current license plate or visible indication of valid and current vehicle registration; or (3) is prohibited from being operated on a public street or highway pursuant to the Vehicle Code. A vehicle which is temporarily broken down for a time not to exceed four hours is not considered inoperative under this section.

(d) In the event a vehicle is parked or left standing upon a street or alley in violation of this section, the Parking Services Department or any member of the Police Department authorized by the Chief of Police may remove said vehicle from the street in the manner and subject to the requirements of the Vehicle Code.

(e) The Traffic Engineer shall erect and maintain appropriate signs, consistent with any and all Vehicle Code requirements.

(f) If any sentence, clause, or phrase of this section is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portion of this section. Council hereby declares that it would have adopted this section and each sentence, clause, or phrase thereof, irrespective of the fact that any one or more subsections, sentences, clauses, or phrases be declared invalid or unconstitutional.
(Added Ord. 6130, 1962, based on former Sec. 10-1105; Am. Ord. 6546, 1964; Am. Ord. 2006-62, § 3, eff. 6-12-06; Am. Ord. 2017-1, § 1, eff. 2-17-17; Am. Ord. 2017-38, § 1, eff. 9-23-17).

SEC. 14-1007. PARKING FOR CERTAIN PURPOSES PROHIBITED.

No person shall park a vehicle upon any street for the principal purpose of washing, greasing, or repairing such vehicle, except repairs necessitated by an emergency.
(Added Ord. 6130, 1962, based on former Sec. 10-1106; Am. Ord. 79-87, § 1, eff. 6-8-76).

SEC. 14-1008. PARKING ADJACENT TO SCHOOLS.

(a) The City Traffic Engineer is hereby authorized to erect signs indicating no parking upon that side of any street adjacent to any school property when such parking would, in his opinion, interfere with traffic or create a hazardous situation.

(b) When official signs are erected prohibiting parking upon that side of a street adjacent to any school property, no person shall park a vehicle in any such designated place.
(Added Ord. 6130, 1962, based on former Sec. 10-1109).

SEC. 14-1009. PARKING PROHIBITED ON NARROW STREETS.

(a) The City Traffic Engineer is hereby authorized to place signs or markings indicating no parking upon any street when the width of a roadway does not exceed twenty feet, or upon one side of a street as indicated by such signs or markings when the width of a roadway does not exceed thirty feet.

(b) When official signs or markings prohibiting parking are erected upon narrow streets as authorized herein, no person shall park a vehicle upon any such street in violation of any such sign or marking.
(Added Ord. 6130, 1962, based on former Sec. 10-1107).

SEC. 14-1010. PARKING ON GRADES.

No person shall park or leave standing any vehicle unattended on a highway when upon any grade exceeding three per cent (within any business or residence district) without blocking the wheels of said vehicle by turning them against the curb or by other means.
(Added Ord. 6130, 1962, based on former Sec. 10-1108).

SEC. 14-1011. EMERGENCY PARKING SIGNS.

(a) Whenever the City Traffic Engineer or Chief of Police shall determine that an emergency traffic congestion is likely to result from the holding of public or private assemblages, gatherings, or functions, or for other reasons, the City Traffic Engineer or Chief of Police shall have power and authority to order temporary signs to be erected or posted indicating that the operation, parking, or standing of vehicles is prohibited on such streets and alleys as the City Traffic Engineer or Chief of Police shall direct during the time such temporary signs are in place. Such signs shall remain in place only during the existence of such emergency and the City Traffic Engineer or Chief of Police shall cause such signs to be removed promptly thereafter.

(b) When signs authorized by the provisions of this section are in place giving notice thereof, no persons shall operate, park, or stand any vehicle contrary to the directions and provisions of such signs.
(Added Ord. 6130, 1962; based on former Sec. 10-1113).

SEC. 14-1012. DISPLAY OF WARNING DEVICES WHEN COMMERCIAL VEHICLE DISABLED.

Every motor truck having an unladen weight of four thousand pounds or more, and every truck tractor irrespective of weight, when operated upon any street or highway during darkness shall be equipped with and carry at least two flares or two red lanterns or two warning lights or reflectors, which reflectors shall be of a type approved by the California Highway Patrol. When any vehicle above mentioned or any trailer or semi-trailer is disabled upon streets or highway outside of any business or residence district within this city, and upon which street or highway there is insufficient street lighting to reveal a vehicle at a distance of two hundred feet during darkness, a warning signal of the character indicated above shall be immediately placed at a distance of approximately one hundred feet in advance of, and one hundred feet to the rear of, such disabled vehicle by the driver thereof. The continuous flashing of at least four approved Class A-Type 1 turn signal lamps, at least two toward the front and at least two toward the rear of the vehicle, shall be considered to meet the requirements of this section until the devices mentioned above can be placed in the required locations. The warning signals herein mentioned shall be displayed continuously during darkness while such vehicle remains disabled upon such street or highway.
(Added Ord. 6130, 1962, based on former Sec. 10-1114).

SEC. 14-1013. PARKING IN ALLEYS.

(a) Except as provided in subsection (b) of this section, no person shall stop, stand, or park a vehicle in any alley for any purpose other than the loading, or unloading, of persons or materials.

(b) The Traffic Engineer may promulgate rules and regulations for permit parking of an indefinite duration of delivery vehicles owned or operated by businesses adjacent to any alleys lying within that certain area bounded by Divisadero Street, O Street, Ventura Street, and Freeway 99.

(c) The Traffic Engineer may limit parking to one side of any alley by posting signs giving notice of such limitation. No person shall stop, stand, or park a vehicle in any alley except as permitted by such signs.

(d) No person shall stop, stand or park a vehicle within an alley in such a manner or under such conditions as to leave available less than ten feet of the width of the roadway for the free movement of vehicular traffic.

(e) No person shall stop, stand, or park a vehicle within an alley in such a position as to block the driveway entrance to any abutting property.

(f) No person shall park a vehicle upon any property adjacent to an alley when any portion of the vehicle or its load projects into such alley. (Added Ord. 6130, 1962, based on former Sec. 10-1103; Am. Ord. 79-126, § 1, eff. 8-3-79).

SEC. 14-1014. PARKING PROHIBITED ON CERTAIN CITY-OWNED OR OPERATED PARKING FACILITIES.

(a) Regulation of parking on certain public property:

(1) Whenever the Chief Administrative Officer shall determine that the orderly, efficient conduct of the city's business requires that parking or standing of vehicles on city property be prohibited, limited or restricted, the Chief Administrative Officer shall have the power and authority to order signs to be erected or posted indicating the parking of vehicles is thus prohibited, limited or restricted.

(2) Whenever the governing body of the Housing Authority of the City of Fresno shall determine by resolution that the orderly, efficient conduct of the Authority's business requires that parking or standing of vehicles on Authority property be prohibited, limited or restricted, the Authority shall have the power and authority to order signs to be erected or posted indicating that the parking of vehicles is thus prohibited, limited or restricted.

(b) The Chief Administrative Officer may designate certain stalls or spaces in city-owned or operated off-street parking facilities for the exclusive use of physically handicapped persons whose vehicles display one of the distinguishing license plates issued by the State Department of Motor Vehicles to disabled persons pursuant to Vehicle Code Section 22511.5, or to disabled veterans as specified in Vehicle Code Section 9105. Such designation shall be made by authorizing the City Traffic Engineer to post immediately adjacent to, and visible from each stall or space, a sign or signs consisting of a profile view of a wheelchair with occupant in white on a blue background together with the language specified in Vehicle Code Section 22511.8.

(c) When signs authorized by the provisions of this section are in place, giving notice thereof, no person shall stop, stand or park any vehicle contrary to the directions or provisions of such signs.

(d) Any member of the Police Department authorized by the Police Chief may remove, in the manner provided by and subject to the requirements of the Vehicle Code for removal of a

vehicle from a highway, any vehicle stopped, left standing or parked in violation of this section. (Added Ord. 6130, 1962, based on former Sec. 10-1112; Am. Ord. 74-16, § 1, eff. 3-10-74; Am. Ord. 74-108, § 1, eff. 11-25-74; Am. Ord. 76-57, § 1, eff. 7-25-76).

SEC. 14-1015. PARKING ON BICYCLE ROUTE.

(a) **Bicycle Path.** No person shall park or stand any vehicle upon any bicycle path except in an emergency.

(b) **Bicycle Lane.** No person shall park or stand any vehicle upon any bicycle lane except in an emergency or as follows:

(1) Any bus in a designated bus zone.

(2) Any vehicle and other equipment while actually engaged in street work pursuant to the provisions of Article 2 of Chapter 11 of this code.

(3) Any vehicle and other equipment owned or operated by any public agency or public utility while necessarily in use for construction, repair work, work upon the surface of a highway, or work of installation, removal, repairing or maintaining official traffic control devices.

(4) Any rubbish or garbage truck while actually engaged in the collection of rubbish or garbage.

(5) Any streetsweeper while actually engaged in sweeping a street.

(6) Any vehicle of any regularly licensed physician while actually engaged in making professional calls.

(7) Where parking is permitted. (Added Ord. 72-120, 1972; Am. Ord. 76-24, § 4, eff. 4-18-76).

SEC. 14-1016. PARKING PERMITTED ON CERTAIN CITY-OWNED PARKING AREAS AND DRIVEWAYS.

Whenever the Chief Administrative Officer determines that the efficient conduct of the city's business requires the parking or standing of vehicles on city property then he may issue parking permits therefor. The permit shall state the conditions under which the permit may be used and the location or locations to which it applies. The permit shall be signed by the Chief Administrative Officer or such other person as he shall designate. The permit shall, at any time, be revocable at discretion of the Chief Administrative Officer. When such permit is prominently displayed on the dashboard facing the front window on the driver's side, the user shall be permitted to park or stand a vehicle on the city property designated on the permit. The requirement of a permit shall not apply to (1) city-owned vehicles (2) vehicles parked in spaces provided expressly for such vehicles or (3) vehicles used in carrying out construction or other service for the city. (Added Ord. 73-131, § 1, eff. 10-7-73).

SEC. 14-1017. RECKLESS DRIVING AND SPEEDING PROHIBITED ON DESIGNATED PRIVATE PARKING FACILITIES.

(a) Privately owned and maintained off-street parking facilities on which Vehicle Code Sections 22350, 23103 and 23109 may be enforced, pursuant to Vehicle Code Section 21107.8, shall be designated by resolution of the Council, following a duly noticed public hearing.

(b) The private parking facilities so designated are generally held open for use of the public for purposes of vehicular parking.

(c) The owner or operator of each designated private parking facility shall cause to be posted in a conspicuous place at each entrance to such facility a notice, not less than seventeen (17) by twenty-two (22) inches in size with lettering not less than one (1) inch in height, to the effect that such facility is subject to the public traffic regulations and control detailed in Vehicle Code Section 21107.8. (Added Ord. 79-165, § 1, eff. 11-16-79; Am. Ord. 82-42, § 1, eff. 5-14-82).

SEC. 14-1018. TIME RESTRICTIONS ON PRIVATE PARKING FACILITIES.

(a) The owner or operator of a private parking facility may impose reasonable time restrictions for parking in designated areas of such parking facility.

(b) The owner or operator of the private parking facility who chooses to impose reasonable time restrictions for parking shall cause to be posted in a conspicuous place at each entrance to such facility a notice, not less than seventeen (17) by twenty-two (22) inches in size with lettering not less than one (1) inch in height, to the effect that such facility is subject to reasonable time restrictions for parking in designated areas. The designated areas of the parking facility subject to time restrictions for parking shall be clearly marked with additional notices at each entrance to the designated areas of the facility indicating the time restrictions imposed within such area of the parking facility.

(c) The owner or operator of a private parking facility may utilize its employees and/or the services of a private security patrol to enforce the time restrictions for parking in the parking facility. Such employees and/or private security patrol are authorized to issue municipal parking citations for violation of the time restrictions. Bail to be paid for violation of this Section shall be payable to and retained by the City.

(d) The City Manager shall adopt any and all written rules and regulations, including a procedure whereby the owners or operators of the private parking facilities shall file a written request with the Traffic Engineer, to implement the provisions in this Section. (Added Ord. 2001-58, § 1, eff. 9-3-01)

SEC. 14-1019. MOTORCYCLES PARKED IN ON-STREET AND OFF-STREET PARKING SPACES.

Up to four motorcycles shall be permitted in any single parking space upon any city street or in any city owned parking facility in the city, whether the parking space is painted or marked by either signs or paint, and whether the parking space is for time limit parking,

hourly parking in an off-street facility, or is a metered space. If fees are charged for the parking space, the rate shall be equal to the "per space charge" for a vehicle parking space as established by the Master Fee Schedule. This Section is intended to encourage the use of motorcycle travel as a part of the City's efforts to reduce vehicle air emissions. (Added Ord. 2003-74, § 1, eff. 10-5-03).

SEC. 14-1020. [RESERVED.]

Editor's note—Ord. 2008-65, § 2, effective December 15, 2008, amended the Code by repealing former section 14-1020 in its entirety. Former § 14-1020 pertained to parking permitted for privately owned low emission vehicles in city-owned off-street parking facilities, and derived from Ord. 2003-83, effective October 21, 2003; Ord. 2004-116, adopted December 5, 2004.

SEC. 14-1021. USE OF STREETS FOR HABITATION PROHIBITED.

(a) The Council finds that use of a vehicle, including a recreational vehicle or temporary recreational vehicle, a travel trailer, a mobile home, a bus, a semi, a camper and the like, whether attached to another vehicle or separate, while it is parked or standing on any street as either temporary or permanent living quarters, abode, or place of habitation either overnight or day by day presents risk to the public's health, safety and general welfare based upon the following findings:

(1) Use of a vehicle upon a street for habitation tends to present risk of injury or death to the occupants thereof in the event of collision.

(2) Use of a vehicle upon a street for habitation tends to present increased opportunity for, and risk of criminal activity.

(3) Use of a vehicle upon a street for habitation tends to present increased risk to the public health, safety and general welfare through lack of available utility and sanitary connections and trash/refuse disposal service, including related creation of a harborage for rodents and insects.

(4) Use of a vehicle upon a street for habitation tends to present increased risk of nuisance, or blight, or decrease in property values.

(b) It is unlawful for any person to use a vehicle while it is parked or standing on any street as either temporary or permanent living quarters, abode, or place of habitation either overnight or day by day.

(c) The Traffic Engineer shall erect and maintain appropriate signs, consistent with any and all Vehicle Code requirements.

(d) If any sentence, clause or phrase of this section is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portion of this section. Council hereby declares that it would have adopted this section and each sentence, clause or phrase thereof, irrespective of the fact that any one or more subsections, sentences, clauses or phrases be declared invalid or unconstitutional. (Added Ord. 2006-62, § 1, eff. 6-12-06).

SEC. 14-1022. ELECTRIC VEHICLE CHARGING STATIONS.

(a) The Development Director may designate areas in City-owned on and off-street parking facilities for the exclusive use by electric vehicles. These areas shall be designated by signs or markings indicating the regulations described herein. The Development Director shall designate the time limit for each electric vehicle charging station, which shall not exceed four hours.

(b) Only electric vehicles may stand in areas designated by markings and/or signage as electric vehicle charging stations. It is unlawful for an electric vehicle to stand in a designated electric vehicle charging station when not connected for electric charging purposes. A violation of this Subsection shall result in the issuance of a parking citation pursuant to Fresno Municipal Code section 1-302. The fine for violation of this Section shall be identified in the Master Fee Schedule. Vehicles in violation may be towed in accordance with California Vehicle Code section 22511.

(c) It is unlawful for an electric vehicle to be connected to an electric vehicle charging station and not actively charging for longer than thirty minutes. A violation of this Subsection shall result in a penalty fee as identified in the Master Fee Schedule.

(d) Definitions

(i) "Electric Vehicle" shall mean a battery electric vehicle which is fueled entirely be electricity stored in the onboard battery, or a plug-in hybrid vehicle which is fueled by both an onboard battery and another fuel source.

(ii) "Electric Vehicle Charging station" shall mean a device intended to transfer electricity from the device to an electric vehicle.

(ii) "Actively Charging" shall mean the transfer of electricity to the battery of an electric vehicle.

(iii) Connected shall mean the cable from the charger is inserted into the inlet on the electric vehicle for the purpose of transmitting energy to the vehicle's batteries.

(Added Ord. 2020-030, § 1, eff. 9-1-20).

ARTICLE 11 STOPPING, STANDING OR PARKING RESTRICTED OR PROHIBITED ON CERTAIN STREETS

Sec. 14-1100. Application of Regulations.
Sec. 14-1101. Twenty-four Minute Parking.
Sec. 14-1102. One Hour Parking.
Sec. 14-1103. Two Hour Parking.
Sec. 14-1104. Parking Parallel on One-Way Streets.
Sec. 14-1105. Parking Parallel with Curb—Exceptions.
Sec. 14-1106. Parking Space Markings.
Sec. 14-1107. Stopping or Parking Restricted or Prohibited on Certain Public Streets.
Sec. 14-1108. Parking of Commercial Vehicles.
Sec. 14-1109. Parking Prohibited and Restricted Near Railway Tracks.
Sec. 14-1110. Parking on McKinley Avenue Restricted.

SEC. 14-1100. APPLICATION OF REGULATIONS.

(a) The provisions of this article prohibiting, restricting and regulating the stopping, standing or parking of a vehicle shall apply at all times or at those times herein specified, except when it is necessary to stop a vehicle to avoid conflict with other traffic or in compliance with the directions of a police officer or official traffic control device.

(b) The provisions of this article prohibiting standing or parking or imposing a time limit or otherwise regulating the standing or parking shall not relieve any person from the duty to observe other and more restrictive provisions of the Vehicle Code or the ordinances of this City prohibiting or limiting the standing or parking of vehicle in specified places or at specified times.

(c) There is hereby established an official City list of all time limited parking zones. Whenever any ordinance is adopted establishing a time limited parking zone, the City Traffic Engineer shall cause the designated and affected street locations to be placed on said list. The City Traffic Engineer shall keep a record of all ordinances, hereafter adopted, designating such parking regulation and shall cause notations of such records and such regulations with streets and limits to be placed on said lists in his office. Whenever any description of a time limited parking zone is hereafter amended, deleted, or changed, the City Traffic Engineer shall cause such fact to be recorded upon said list in the appropriate place. Said list and the notations and contents therein, as they may from time to time be kept and amended, shall be prima facie evidence of the existence and legality of the designation of time limited parking regulations on streets with the limits thereof, and the legality of placing signs and markings thereat as hereinafter provided. Said list, as amended, shall be deemed to be incorporated herein.

(d) All signs and markings shall be as specified in, erected and placed pursuant to, the California Vehicle Code. (Added Ord. 73-5, 1973).

SEC. 14-1101. TWENTY-FOUR MINUTE PARKING.

Green curb marking shall mean no standing or parking for a period of time longer than twenty-four minutes at any time between 9:00 a.m. and 6:00 p.m. on any day except Sundays

and holidays. When the Council by ordinance has established such a parking limitation, and authorized signs, parking meters or curb markings are in place giving notice of such limited parking, no operator of any vehicle shall stop, stand or park said vehicle adjacent to any such legible curb marking or sign or parking meter for a period of time longer than twenty-four minutes. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1301; Am. Ord. 73-6, 1973).

SEC. 14-1102. ONE HOUR PARKING.

When the Council by ordinance has established a one-hour limited parking zone and authorized signs, parking meters or curb markings are in place giving notice of such a parking limitation, no operator of any vehicle shall stop, stand, or park said vehicle in the zone between the hours of 9:00 A.M. and 6:00 P.M. of any day except Sundays and holidays for a period of time longer than one hour. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1301; Am. Ord. 73-6, 1973).

SEC. 14-1103. TWO HOUR PARKING.

When the Council by ordinance has established a two-hour limited parking zone and authorized signs, parking meters, or curb markings are in place giving notice of such a parking limitation, no operator of any vehicle shall stop, stand, or park said vehicle in the zone between the hours of 9:00 A.M. and 6:00 P.M. of any day except Sundays and holidays for a period of time longer than two hours. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1301; Am. Ord. 73-6, 1973).

SEC. 14-1104. PARKING PARALLEL ON ONE WAY STREETS.

(a) Subject to other and more restrictive limitations, a vehicle may be stopped or parked within eighteen inches of the left-hand curb facing in the direction of traffic movement upon any one-way street unless signs are in place prohibiting such stopping or standing.

(b) In the event a highway includes two or more separate roadways and traffic is restricted to one direction upon any such roadway, no person shall stand or park a vehicle upon the left-hand side of such one-way roadway unless signs are in place permitting such standing or parking.

(c) The City Traffic Engineer is authorized to determine when standing or parking shall be prohibited upon the left-hand side of any one-way street or when standing or parking may be permitted upon the left-hand side of any one-way roadway of a highway having two or more separate roadways and shall erect signs giving notice thereof. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-602, 10-1102 and 10-1104).

SEC. 14-1105. PARKING PARALLEL WITH CURB—EXCEPTIONS.

No person shall stand or park a vehicle in a roadway other than parallel with the edge of the roadway headed in the direction of traffic and with the wheels of the vehicle within eighteen inches of the curb line or edge of the roadway, except as follows:

(a) On any of the streets or portions of streets established by resolution of the Council as diagonal parking zones, when signs or pavement markings are in place indicating such diagonal parking.

(b) Upon those streets where parking on the left side of the roadway or otherwise is specifically provided in this chapter.

(c) The requirement of parallel parking imposed by this section shall not apply in the event any commercial vehicle is actually engaged in the process of loading or unloading freight or goods. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1003).

SEC. 14-1106. PARKING SPACE MARKINGS.

The City Traffic Engineer is authorized to install and maintain parking space markings to indicate parking spaces adjacent to curbings where authorized parking is permitted. When such parking space markings are placed on the street, subject to other and more restrictive limitations, no vehicle shall be stopped, left standing, or parked other than within a single space unless the size or shape of such vehicle makes compliance impossible. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1004).

SEC. 14-1107. STOPPING OR PARKING RESTRICTED OR PROHIBITED ON CERTAIN PUBLIC STREETS.

(a) The City Traffic Engineer is hereby authorized to restrict or prohibit the stopping or parking of vehicles on public streets when, in his opinion, such stopping or parking would interfere with traffic or create a hazardous situation. Such restriction or prohibition may be indicated by one or more of the following:

(1) By the painting of curbs in accordance with Section 14-1202.

(2) By the erecting of signs indicating the restriction or prohibition.

(b) The City Traffic Engineer is hereby authorized to designate certain parking spaces in, upon, along, or within public streets for the exclusive use of physically handicapped persons whose vehicles display one of the distinguishing license plates issued by the State Department of Motor Vehicles to disabled persons pursuant to Vehicle Code Section 22511.5, or to disabled veterans as specified in Vehicle Code Section 9105. Such designation shall be made by blue paint on the curb or edge of the paved portion of the street adjacent to such designated space or outlining the space with such blue paint. The City Traffic Engineer may, in addition to the use of blue paint, post immediately adjacent to, and visible from each space, a sign or signs consisting of a profile view of a wheelchair with occupant in white on a blue background, together with the language specified in Vehicle Code Section 22511.8.

(c) When curb or pavement painting or signs authorized by the provisions of this section are in place, giving notice thereof, no person shall stop, stand or park any vehicle contrary to the directions or provisions of such curb or pavement painting or signs.

(d) Any member of the Police Department authorized by the Police Chief may remove, in the manner provided by and subject to the requirements of the Vehicle Code for removal of a vehicle from a highway, any vehicle stopped, left standing or parked in violation of this section. (Added Ord. 76-57, § 2, eff. 7-25-76).

SEC. 14-1108. PARKING OF COMMERCIAL VEHICLES.

(a) Except as provided in Subsection (c) below, no person shall park a commercial vehicle with a manufacturer's gross vehicle rating of 10,000 pounds or more on any street in any Residential District as defined in Section 12-105-R of this Code.

(b) Notwithstanding subsection (a), no commercial vehicle with a manufacturer's gross vehicle rating of 10,000 pounds or more shall park on any street between the hours of 2:00 a.m. and 6:00 a.m. except on those streets located in the following zone districts:

(1) M-1P (Industrial Park Manufacturing) as defined in Section 12-225 of this Code.

(2) M-1 (Light Manufacturing District) as defined in Section 12-226 of this Code.

(3) M-2 (General Manufacturing District) as defined in Section 12-227 of this Code, and

(4) M-3 (Heavy Industrial District) as defined in Section 12-228 of this Code.

(c) Subsections (a) and (b) above shall not be effective with respect to any commercial vehicle making pickups or deliveries of goods, wares and merchandise from or to any building or structure located on any street as specified in Subsections (a) and (b) or for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling, or construction of any building or structure located on any street as specified in Subsections (a) and (b) for which a building permit has previously been obtained. Subsections (a) and (b) above shall not be effective with respect to police, fire, sheriff, ambulance, or highway patrol emergency vehicles or tow trucks owned and operated by an individual or business included on any law enforcement tow rotation list and subject to call for service during the hours of 2:00 a.m. and 6:00 a.m.

(d) Severability. If any section, subsection, subdivision, paragraph, sentence, clause or phrase in this ordinance is for any reason held to be unconstitutional or invalid or ineffective by any court of competent jurisdiction, such decision shall not affect the validity or effectiveness of the remaining portions of this ordinance. The Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, subdivisions, paragraphs, sentences, clauses or phrases are declared unconstitutional, invalid, or ineffective. (Rep. and Added Ord. 6130, 1962, based on former Sec. 10-1305; Am. Ord. 6546, 1964; Am. Ord. 72-165, 1973; Am. Ord. 81-74, § 1, eff. 7-24-82; Am. Ord. 83-134, § 2, eff. 10-28-83; Am. Ord. 94-73, §§ 1, 2, 9-23-94; Am. Ord. 2000-81, § 2, eff. 1-26-01).

SEC. 14-1109. PARKING PROHIBITED AND RESTRICTED NEAR RAILWAY TRACKS.

No person shall park, stop, or stand any vehicle for any purpose on or within ten feet of the nearest rail of any railroad track except while any such vehicle is attended and engaged in loading or unloading passengers or materials. (Rep. and Added Ord. 6130, 1962, based on former Sec. 10-1306).

SEC. 14-1110. PARKING ON MCKINLEY AVENUE RESTRICTED.

No person shall park, stop or stand any vehicle six feet in height or greater, including any load thereon, for any purpose, at the curb along the south side of McKinley Avenue between First and Millbrook Avenues. This parking restriction is enforceable twenty-four hours a day, seven days per week. (Added Ord. 98-1, § 1, eff. 2-15-98).

ARTICLE 12 STOPPING FOR LOADING OR UNLOADING ONLY

Sec. 14-1201. Authority to Establish Loading Zones.
Sec. 14-1202. Curb Markings to Indicate No Stopping and Parking Regulations.
Sec. 14-1203. Authority to Establish Limited Loading Zones.
Sec. 14-1204. Taxicabs Standing in Streets of Business Districts.
Sec. 14-1205. Standing in Official Car Zones.
Sec. 14-1206. Effect of Permission to Load and Unload.
Sec. 14-1207. Standing for Loading or Unloading Only.
Sec. 14-1208. Standing in Passenger Loading Zone.
Sec. 14-1209. Standing in Bank Service Zone.
Sec. 14-1210. School Buses Loading and Unloading at Transit System Curbspaces.

SEC. 14-1201. AUTHORITY TO ESTABLISH LOADING ZONES.

(a) The City Traffic Engineer, with the approval of the Chief of Police, is hereby authorized to determine and to mark loading zones, passenger loading zones, taxicab zones, and postal mailing zones as follows:

(1) At any place in the central business district or any business district.

(2) Elsewhere in front of the entrance to any place of business or in front of any hall or place used for the purpose of public assembly.

(b) Loading zones shall be indicated by yellow paint upon the top and face of all curbs within such zones.

(c) Passenger loading zones shall be indicated by a white line stenciled with black letters, "PASSENGER LOADING ONLY" upon the top of all curbs in said zones.

(d) Taxicab zones shall be indicated by a white line stenciled with black letters, "TAXI ZONE", upon the top of all curbs in said zones.

(e) Postal mailing zones shall be indicated by a white line stenciled with black letters, "POSTAL MAILING ZONE", upon the top of all curbs in said zones. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962).

SEC. 14-1202. CURB MARKINGS TO INDICATE NO STOPPING AND PARKING REGULATIONS.

(a) The City Traffic Engineer is hereby authorized, subject to the provisions and limitations of this chapter, to place, and when required herein shall place the following curb markings to indicate parking or standing regulations, and said curb markings shall have the meanings as herein set forth:

(1) Red shall mean no stopping, standing, or parking at any time except as permitted by the Vehicle Code, and except that a bus may stop in a red zone marked or signed as a bus zone.

(2) Yellow shall mean no stopping, standing, or parking at any time between 7:00 a.m. and 6:00 p.m. of any day except Sundays and holidays for any purpose other than the

loading or unloading of passengers or materials, provided that the loading or unloading of passengers shall not consume more than three minutes nor the loading and unloading of materials more than thirty minutes, unless the materials loaded or unloaded exceed two and one-half tons, in which event twelve minutes shall be allowed for the loading or unloading of each ton of materials, and provided further that for the purpose of conducting funeral services, a hearse accompanied by a maximum of three passenger vehicles may occupy a yellow zone for a period not to exceed two hours.

(3) White shall mean no stopping, standing, or parking for any purpose other than loading or unloading of passengers which shall not exceed three minutes, and such restrictions shall apply between 7:00 a.m. and 6:00 p.m. of any day except Sundays and holidays and except as follows:

(i) When such zone is in front of a hotel, the restrictions shall apply at all times.

(ii) When such zone is in front of a theater, the restrictions shall apply at all times, except when such theater is closed, materials may be loaded or unloaded for not more than thirty minutes.

(iii) When such a zone is a "Taxicab Zone," the restrictions for the loading or unloading of passengers shall apply for passenger vehicles at all times.

(iv) When such a zone is a "Postal Mailing Zone," the restrictions for the loading and unloading of passengers shall apply at all times. Stopping, standing, or parking for the purpose of depositing mail in a curbside mail box shall not exceed a period of time necessary for the expeditious depositing of mail, and in no event shall this period of time be more than thirty seconds. These restrictions shall apply at all times.

(v) When such zone is immediately adjacent to a bus terminal, the restrictions shall apply at all times.

(4) Green shall mean no standing or parking for longer than twenty-four minutes at any time between 9:00 a.m. and 6:00 p.m. of any day except Sundays and holidays.

(5) Blue shall mean no stopping, standing or parking of any vehicle other than one which displays one of the distinguishing license plates issued by the State Department of Motor Vehicles to disabled persons pursuant to Vehicle Code Section 22511.5 or to disabled veterans, as specified in Section 9105 of the Vehicle Code.

(b) When the City Traffic Engineer as authorized under this chapter has caused curb markings to be placed, no person shall stop, stand, or park a vehicle adjacent to any such legible curb marking in violation of any of the provisions of this section. (Rep. and Added Ord. 6130, 1962; based on former Sec. 1203; Am. Ord. 6873, 1966; Am. Ord. 67-26, 1967; Am. Ord. 68-8, 1968; Am. Ord. 76-57, § 3, 7-25-76).

SEC. 14-1203. AUTHORITY TO ESTABLISH LIMITED LOADING ZONES.

Whenever a survey by the City Traffic Engineer or Traffic Division of the Police Department has established the necessity for loading zones or bus zones only during certain hours of the day, the City Traffic Engineer is hereby authorized to install signs giving notice thereof. If such

loading zones are located in any parking meter district, the sign shall be placed on the parking meter post and indicate the hours during which that parking meter space shall become a loading zone. The deposit of coins in the parking meter shall not be required during the time the space is reserved as a loading zone. If such loading zones are located outside the parking meter district, signs shall be placed designating the hours and limits of such zones. All sections of this Code regulating loading zones shall apply equally to limited loading zones during the designated hours. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1202).

SEC. 14-1204. TAXICABS STANDING IN STREETS OF BUSINESS DISTRICTS.

No driver of a taxicab shall park a taxicab upon any street in any business district at any place other than a taxicab stand, except that this provision shall not prevent the driver of any such vehicle from temporarily stopping in accordance with other stopping or parking regulations at any place for the purpose of and while actually engaged in loading or unloading passengers. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1206).

SEC. 14-1205. STANDING IN OFFICIAL CAR ZONES.

No person shall stop, stand or park a vehicle in any "Official Car Zone" unless such vehicle is equipped with exempt license plates issued by the State of California, or has on display a permit issued by an official agency authorized to issue such permits. Such zones will be in effect when permanent or temporary signs are installed giving notice thereof. The establishment of these zones may be authorized by the Chief of Police. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1209).

SEC. 14-1206. EFFECT OF PERMISSION TO LOAD AND UNLOAD.

(a) Permission herein granted to stop or stand a vehicle for purposes of loading or unloading of materials shall apply only to commercial vehicles and shall not extend beyond the time necessary therefor, and in no event for more than thirty minutes, unless the materials loaded or unloaded exceed two and one-half tons, in which event twelve minutes shall be allowed for the loading or unloading of each ton of materials.

(b) The loading or unloading of materials shall apply to commercial deliveries, also the delivery or pickup of express and parcel post packages and United States mail.

(c) Permission herein granted to stop or park for purposes of loading or unloading passengers shall include the loading or unloading of personal baggage but shall not extend beyond the time necessary therefor and in no event for more than three minutes, except no passenger vehicle shall stop or stand in a "taxicab zone" or a "postal mailing zone" for the purpose of loading or unloading passengers when such stopping would interfere with a taxicab waiting to enter or about to enter a taxicab stand or would interfere with a vehicle waiting to enter or about to enter a "postal mailing zone" for the purpose of depositing mail.

(d) Within the total time limits above specified, the provisions of this section shall be enforced so as to accommodate necessary and reasonable loading or unloading but without permitting abuse of the privileges hereby granted. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1204).

SEC. 14-1207. STANDING FOR LOADING OR UNLOADING ONLY.

No person shall stop, stand, or park a vehicle in any yellow loading zone for any purpose other than loading or unloading passengers or material for such time as is permitted in Section 14-1206. (Rep. and Added Ord. 6130, 1962).

SEC. 14-1208. STANDING IN PASSENGER LOADING ZONE.

No person shall stop, stand, or park a vehicle in any passenger loading zone for any purpose other than the loading or unloading of passengers for such time as is specified in Section 14-1206. (Rep. and Added Ord. 6130, 1962).

SEC. 14-1209. STANDING IN BANK SERVICE ZONE.

No person shall stop, stand, or park a vehicle in any "bank service zone" for any purpose other than to conduct a banking transaction or waiting in line to conduct a banking transaction at a special device installed at the curb for that purpose under such restrictions and such time as determined by resolution of the Council. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1208).

SEC. 14-1210. SCHOOL BUSES LOADING AND UNLOADING AT TRANSIT SYSTEM CURBSPACES.

School buses owned, or operated by a public school district, or operated under contract for a public school district, may load or unload passengers alongside curbspaces designated for the loading and unloading of passengers of the Fresno Transit System upon agreement between Fresno Transit and the public school district requesting such use, which agreement shall include indemnity, hold harmless, and liability coverage as determined by the City's Risk Management Division and approved by the City Attorney. (Added Ord. 84-53, § 1, eff. 5-18-84).

ARTICLE 13 RESTRICTED USE OF CERTAIN STREETS

Sec. 14-1301. Certain Vehicles Prohibited in Central Business District.
Sec. 14-1302. Advertising Vehicles.
Sec. 14-1303. Truck Routes.
Sec. 14-1304. Commercial Vehicles Prohibited from Using Certain Streets.
Sec. 14-1305. Vehicles Exceeding Maximum Gross Weight.

SEC. 14-1301. CERTAIN VEHICLES PROHIBITED IN CENTRAL BUSINESS DISTRICT.

(a) No person shall operate any of the following vehicles in the central business district between the hours of 10:00 A.M. and 6:00 P.M. of any day except on state highways:

(1) Any freight vehicle more than eight and one-half feet in width, with load, or any freight vehicle so loaded that any part of its load extends more than twenty feet to the front or rear of said vehicle;

(2) Any vehicle carrying building material that has not been loaded, or is not to be unloaded at some point within the central business district;

(3) Any vehicle or combination of vehicles with an over-all length exceeding thirty-five feet;

(4) Any vehicle conveying refuse, rubbish, garbage, or dirt except materials being conveyed from a construction project within the district;

(5) Any animal drawn vehicle;

(6) Any vehicle carrying liquid petroleum gas;

(7) Any funeral procession, except those originating within the central business district.

(b) The vehicles listed in subsection (a) may, however, operate over official truck routes lying within the central business district.

(c) The Chief of Police may, by written permit, authorize the operation of any vehicle listed in subsection (a) for the purpose of making necessary emergency deliveries to or from points within the central business district. (Rep. and Added Ord. 6130, 1962, based on former Sec. 10-1401).

SEC. 14-1302. ADVERTISING VEHICLES.

No person shall operate or drive any vehicle used for advertising purposes or any advertising vehicle equipped with a sound-amplifying or loudspeaking device upon any street or alley at any time within the central business district. (Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1402).

SEC. 14-1303. TRUCK ROUTES.

(a) The Council by ordinance may designate streets as truck routes for the movement of any vehicle exceeding a maximum gross weight of twelve thousand pounds.

(b) When such truck route or routes are designated by appropriate signs, the operator of any vehicle exceeding the maximum gross weight limit provided in Subsection (a) of this section shall drive on such route or routes and none other, provided that nothing in this section shall prohibit the operator of any vehicle exceeding a said gross weight limit coming from or going to a truck route having ingress and egress by direct route considering origin and destination of trip, to and from restricted streets when necessary for, the purpose of making pickups and deliveries of goods, wares, and merchandise from or to any property located on such restricted streets; or for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling, or construction of any building or structure upon such restricted streets for which a building permit has previously been obtained; or for the actual and bona fide repair or servicing of the vehicle; or delivery of said operator to or from a motel or hotel at which he takes overnight accommodations.

(c) The provisions of this section shall not apply to:

(1) Passenger buses under the jurisdiction of the Public Utilities Commission, or operated by governmental agencies, or

(2) Any vehicle owned by a public utility while necessary in the use or the construction, installation, or repair of any public utility.

(3) Any vehicle operated by the City of Fresno, or any other governmental agency, or any employee thereof in the course of official business or any vehicle operated by a contractor of the city or any other governmental agency while such vehicle is used in the construction, maintenance, or repair of a street, storm drain in a street, or any similar street structure or such vehicle is upon a direct route to or from such work location.

(4) Any vehicle of military or naval forces of the United States, or the duly authorized militia of this State, in the proper performance of their duties.

(d) The City Traffic Engineer is hereby authorized and directed to erect, post, and maintain on all streets designated in this article as truck routes, appropriate signs to carry out the provisions of this article. All signs and marking shall be as specified in, erected and placed pursuant to the California Vehicle Code.

(e) There is hereby established an official city "List of Truck Routes". Whenever the Council has designated a street as a truck route, the City Traffic Engineer shall cause the designated truck route to be placed on the said list. The City Traffic Engineer shall keep a record of all ordinances hereafter adopted designating truck routes and shall cause notation of such records and such streets to be placed on said list in his office. Whenever any truck route is hereafter amended, deleted, or changed, the City Traffic Engineer shall cause such fact to be recorded upon the pertinent list in the appropriate place. Said list and the notation and contents therein as they may from time to time be kept and amended pursuant to this section shall be prima facie evidence of the existence and legality of the designation of said streets as truck routes and the legality of placing appropriate signing thereat as hereinafter provided. Said list, as

amended, shall be deemed to be incorporated herein. (Rep. and Added Ord. 6130, 1962, based on former Sec. 10-1404; Am. Ord. 6383, 1964; Rep. and Added Ord. 73-14, 1973; Am. Ord. 73-104, § 1, eff. 8-6-73; Am. Ord. 73-130, §§ 1, 2, eff. 9-30-73).

SEC. 14-1304. COMMERCIAL VEHICLES PROHIBITED FROM USING CERTAIN STREETS.

(a) Whenever any resolution of this city designates and describes any street or portion thereof as a street the use of which is prohibited by any commercial vehicle, the City Engineer shall erect and maintain appropriate signs on those streets affected by such resolution.

(b) Those streets and parts of streets so established by resolution of the Council are hereby declared to be streets, the use of which is prohibited by any commercial vehicle. The provisions of this section shall not apply to passenger buses under the jurisdiction of the Public Utilities Commission. (Rep. and Added Ord. 6130, 1962, based on former Sec. 10-1405).

SEC. 14-1305. VEHICLES EXCEEDING MAXIMUM GROSS WEIGHT.

Except as provided in Public Utilities Code Sections 1031—1036, Vehicles exceeding 6 tons, gross weight are prohibited from traveling on the following city streets:

1. Martin Luther King Boulevard between North Avenue and Jensen Avenue;
2. Clinton Avenue between West Avenue and Blackstone Avenue.

Commercial vehicles exceeding 6 tons gross weight coming from an unrestricted street having ingress or egress by direct route to and from a restricted street may travel upon the restricted street when necessary for the purpose of making pickups or deliveries of goods, wares and merchandise from or to any building or structure located on the restricted street for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling, or construction of any building or structure upon the restricted street for which a building permit has previously been obtained. (Added Ord. 98-12, § 1, eff. 4-3-98)

ARTICLE 14 PARKING METERS

Sec. 14-1401. Parking Meter Zones; Meter Installation.
Sec. 14-1402. Parking Meter Rates and Rules.
Sec. 14-1403. Parking Meters; Deposit of Coins.
Sec. 14-1404. Parking Meters; Times for Operation.
Sec. 14-1405. Parking Meters; Overtime Parking.
Sec. 14-1406. Improper Use of Meter.
Sec. 14-1407. Deposit of Coins in Meter by Unauthorized Person.
Sec. 14-1408. Parking Meters and Parking Meter Standards Not to be Used for Certain Purposes.
Sec. 14-1409. Use of Money Deposited in Parking Meters.
Sec. 14-1410. Application of Other Articles.
Sec. 14-1411. Purpose of Parking Meter Fees.
Sec. 14-1412. Collection of Coins from Parking Meters.
Sec. 14-1413. Method of Parking on City-Owned Parking Lots.
Sec. 14-1414. Regulation of Traffic and Parking on Lots and Parking Structures.

SEC. 14-1401. PARKING METER ZONES; METER INSTALLATION.

(a) **Zones.** Council may adopt parking meter zone(s) by resolution. The limits of any parking meter zone(s) adopted by Council shall be shown on that certain map on file in the office of the City Traffic Engineer entitled "City of Fresno Parking Meter Zone Map," which is hereby referred to and incorporated herein as though set forth in full. Council may amend said map by resolution.

(b) **Meter Installation.** The City Traffic Engineer shall order the installation of parking meters at all locations on public streets within established parking meter zones where parking spaces are available and where any such available spaces are not otherwise designated for special parking purposes (such as loading, taxicab, postal zones, unmetered limited parking zones, etc.), and on city-owned or operated parking lots at all parking spaces except those which are included within the three-hour free parking program or other extended parking program approved by the Council, or which are designated for city or official vehicle use.

(c) **Meter Removal.** The City Traffic Engineer may cause meters to be removed for the repair and routine maintenance thereof, whenever the particular parking spaces are designated for some other purpose as above, or as part of an experimental program subject to the restrictions contained in Section 14-203(b).

(d) **State Highways.** Parking meters shall not be placed on state highways until an ordinance with respect thereto has been submitted to and approved in writing by the Department of Public Works of the State of California. Such ordinance shall cease to be operative with regard to parking meters on state highways within six months after receipt of written notice of the withdrawal of the approval from the State Department of Public Works. (Rep. and Added Ord. 6130, 1962, based on former Secs. 10-1901 and 10-1902; Am. Ord. 6511, 1964; Am. Ord. 67-39, 1967; Am. Ord. 76-126, § 1, eff. 1-23-77; Am. Ord. 83-149, § 1, eff. 12-2-83; Am. Ord. 86-71, § 1, eff. 6-13-86; Am. Ord. 2002-39, § 1, eff. 8-22-02).

SEC. 14-1402. PARKING METER RATES AND RULES.

(a) **Rates.** Parking meter fees charged for on-street and off-street parking shall be designated in the Master Fee Resolution.

(b) **Meter Rate Variations.** Meters need not accept coins in the exact amounts designated, but may accept any variation of coins so long as the applicable rates are maintained. (Rep. and Added Ord. 6130, 1962, based on former Sec. 10-1904; Am. Ord. 67-1967, based on former Sec. 10-1403; Am. Ord. 67-52, 1967; Am. Ord. 69-7, 1967; Am. Ord. 80-102, § 1, eff. 8-1-80; Am. Ord. 80-115, § 109, eff. 8-8-80).

SEC. 14-1403. PARKING METERS; DEPOSIT OF COINS.

No person shall park any vehicle in any parking meter space, except as otherwise permitted in this chapter, without immediately depositing in the parking meter adjacent to such space such lawful coin or coins of the United States as are required by such meter unless the parking meter indicates that at the time such vehicle is parked an unexpired portion remains of the period for which a coin or coins has been previously deposited.

Exceptions: The provisions of this section shall not apply to: holders of monthly parking permits issued by the Controller for use on parking lots pursuant to a resolution of the Council, to vehicles lawfully displaying a license plate issued by the California Department of Motor Vehicles to Medal of Honor recipients, Legion of Valor recipients, Purple Heart recipients, Pearl Harbor Survivors, Former Prisoners of War, Gold Star Family members, and such other license plates issued by another State.
(Rep. and Added Ord. 6130, 1962; Am. Ord. 6435, 1964; Am. Ord. 67-39, 1967; Am. Ord. 95-60, § 1, eff. 9-15-95; Am. Ord. 96-27, § 1, eff. 5-10-96; Am. Ord. 96-75, § 1, eff. 1-17-97; Am. Ord. 2003-83, § 1, eff. 10-21-03; Am. Ord. 2004-116, § 1, 12-5-04; Am. Ord. 2008-65, § 3, eff. 12-15-08; Am. Ord. 2010-41, § 2, eff. 11-11-10).

SEC. 14-1404. PARKING METERS; TIMES FOR OPERATION.

Council shall adopt hours of operation for all parking meter zones by resolution. The hours of operation shall be posted either on the parking meters or on a sign visible from the street. The Chief of Police may, at his discretion, from time to time prohibit all parking in areas included in parking meter zones during times of emergency by causing appropriate "No Parking" signs to be installed.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-1906; Am. Ord. 83-50, § 1, eff. 6-3-83; Am. Ord. 2002-39, § 2, eff. 8-22-02).

SEC. 14-1405. PARKING METERS; OVERTIME PARKING.

(a) No operator of any vehicle shall permit said vehicle to remain parked in any parking space during any time that the meter is showing a signal indicating that such space is illegally in use other than such time immediately after the original occupancy as is necessary to operate the meter to show legal parking.

(b) No person shall deposit or cause to be deposited in a parking meter a coin for the purpose of increasing or extending the parking time of any vehicle beyond the legal parking time which has been established for the parking space adjacent to which said parking meter is placed.
(Rep. and Added Ord. 6130, 1962, based on former Sec. 10-1905).

SEC. 14-1406. IMPROPER USE OF METER.

No person shall deposit or cause to be deposited in any parking meter any defaced or bent coin, or any slug, device, or metallic substitute for a coin of the United States, or deface, injure, tamper with, open or willfully break, destroy or impair the usefulness of any parking meter.
(Added Ord. 6130, 1962, based on former Sec. 10-1907).

SEC. 14-1407. DEPOSIT OF COINS IN METER BY UNAUTHORIZED PERSON.

No person, other than the owner or operator of a vehicle, shall deposit any coin in any parking meter without the knowledge or consent of said owner or operator of the vehicle using the parking space immediately adjacent to said meter.
(Added Ord. 6130, 1962).

SEC. 14-1408. PARKING METERS AND PARKING METER STANDARDS NOT TO BE USED FOR CERTAIN PURPOSES.

No person shall attach anything to, or allow a bicycle, newsrack or any other article or thing to lean against a parking meter or a parking meter standard.
(Added Ord. 6130, 1962).

SEC. 14-1409. USE OF MONEY DEPOSITED IN PARKING METERS.

All moneys collected from parking meters installed under the provisions of this chapter shall be placed in a separate fund which shall be a special trust fund to be known as the "Parking Meter Fund," which fund is hereby created, and which trust fund shall be devoted exclusively to the following purposes:

(a) For the purchasing, leasing, installing, repairing, maintaining, operating, removing, regulating, and policing of parking meters and parking meter spaces; for the collection of the receipts therefrom and for the payment of any and all expenses relating or incidental thereto;

(b) For the installation and maintenance of official traffic signs, signals, and other official traffic control devices;

(c) For the painting and marking of streets and curbs required for the direction of traffic and the parking of motor vehicles;

(d) For the purchasing, leasing, acquiring, improving, operating, and maintaining of off-street or below-street parking facilities within the city. Consistent with the purpose of the regulation of traffic and the prevention of congestion of the city streets, it is the

intention of this city that off-street or below-street parking facilities be acquired in close proximity to the business district in which the parking meter zones are established, and be paid for from the receipts of the parking meters installed in said business districts.

(Added Ord. 6130, 1962; based on former Sec. 10-1910).

SEC. 14-1410. APPLICATION OF OTHER ARTICLES.

No section of this article shall be construed as permitting any parking in violation of any other provision of this chapter.

(Added Ord. 6130, 1962).

SEC. 14-1411. PURPOSE OF PARKING METER FEES.

The coins required to be deposited in parking meters, as provided herein, are hereby levied and assessed as fees to provide for the proper regulation and control of traffic upon the public streets and to cover the cost of supervision, inspection, installation, operation, maintenance, control, and use of the parking spaces and parking meters described herein, and also the cost of supervising and regulating the parking of vehicles in the parking meter zones created hereby.

(Added Ord. 6130, 1962; based on former Sec. 10-1908).

SEC. 14-1412. COLLECTION OF COINS FROM PARKING METERS.

The Controller is hereby authorized, and it shall be his duty, to designate some person or persons to make regular collections of the money deposited in said parking meters. It shall be the duty of such person or persons so designated to collect and deliver to the Controller all money deposited in the parking meters. The Controller shall keep accurate account of all the parking meter money so delivered to him.

(Added Ord. 6130, 1962; based on former Sec. 10-1909).

SEC. 14-1413. METHOD OF PARKING ON CITY-OWNED PARKING LOTS.

The City Traffic Engineer shall install signs and painted lines and markings on city-owned or operated parking lots designating the method, location, and position in which vehicles shall be required to park. When signs and markings are in place giving notice thereof, no person shall park any vehicle across any such lines or markings, and shall park said vehicle in such position and in the manner prescribed by the instructions on such signs.

(Added Ord. 6130, 1962; based on former Sec. 10-1911; Am. Ord. 6435, 1964; Am. Ord. 6885, 1966).

SEC. 14-1414. REGULATION OF TRAFFIC AND PARKING ON LOTS AND PARKING STRUCTURES.

(a) Wherever this article grants a power to or imposes a duty upon the Traffic Engineer in regard to a parking lot or other off-street parking, public or private, the power or duty shall also apply in regard to a parking structure or garage whether on, above, or under ground.

(b) The Traffic Engineer may prohibit or regulate traffic and parking on city owned or controlled parking lots and cause the placing of signs and markings giving reasonable notice of the prohibitions or regulations. When such signs or markings are in place giving notice thereof, no person shall disobey the prohibition or regulation prescribed by such signs or markings.

(Added Ord. 68-167, 1968).

ARTICLE 15 SPECIAL SPEED ZONES

Sec. 14-1501. Special Speed Zones.
Sec. 14-1502. Regulation of Speed by Traffic Signals.

SEC. 14-1501. SPECIAL SPEED ZONES.

(a) The Council may by ordinance establish increased speed zones when on the basis of an engineering and traffic survey it determines that a speed of 30, 35, 40, 45, 50, 55, 60, or 65 miles per hour facilitates the orderly movement of vehicular traffic and would be reasonable and safe upon a street or highway otherwise subject to a prima facie limit of 25 miles per hour applicable under the California Vehicle Code.

(b) The Council may by ordinance establish limited speed zones when on the basis of an engineering and traffic survey it determines that a speed limit of 65 miles per hour is more than is reasonable or safe on any part of a street or highway when such speed limit is 65 miles per hour under the California Vehicle Code and further determines that a speed of 60, 55, 50, 45, 40, 35, 30, or 25 miles per hour is more appropriate to facilitate the orderly movement of vehicular traffic.

(c) When the Council by ordinance has designated a prima facie speed limit other than applicable under the California Vehicle Code, the City Traffic Engineer is authorized and directed to erect, post, and maintain appropriate signs on these streets or portions thereof designating the prima facie speed limit pursuant to the provisions of this article. All signs shall be as specified in, erected and placed pursuant to the California Vehicle Code.

(d) There is hereby established an official City "list of Speed Zones" established pursuant to this article. The City Traffic Engineer shall cause the special speed zones to be placed on said list. The City Traffic Engineer shall keep a record of all ordinances hereafter adopted designating the special speed zones and shall cause notation of such records and such streets or portions thereof to be placed on said list in his office. Whenever any special speed zone is hereafter amended, deleted, or changed, the City Traffic Engineer shall cause such fact to be recorded upon the pertinent list in the appropriate place. Said list and the notation and the contents therein as they may from time to time be kept and amended pursuant to this section shall be prima facie evidence of the existence and legality of the special speed zones on street or portions thereof and the legality of the placing of the appropriate signing as hereinabove provided. Said list as amended shall be deemed to be incorporated herein.
(Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1701; Am. Ord. 6245, 1963; Am. Ord. 6453, 1964; Am. Ord. 6598, 1965; Am. Ord. 6850, 1966; Am. Ord. 6858, 1966; Am. Ord. 68-28, 1968; Am. Ord. 69-119, 1970; Rep. and Added Ord. 73-39, 1973).

SEC. 14-1502. REGULATION OF SPEED BY TRAFFIC SIGNALS.

The City Traffic Engineer is authorized to regulate the timing of traffic signals so as to permit the movement of traffic in an orderly and safe manner at speeds slightly at variance from the speeds otherwise applicable within the district or at intersections, and shall erect appropriate signs giving notice thereof.
(Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1702).

ARTICLE 16 TRAFFIC REGULATIONS IN CITY PARKS AND PLAYGROUNDS

Sec. 14-1601. Authority of Director of Parks and Recreation.
Sec. 14-1602. Saddle Horse in Parks.
Sec. 14-1603. Vehicles and Bicycles in Parks and Playgrounds.
Sec. 14-1604. Commercial Vehicles in Parks and Playgrounds.
Sec. 14-1605. Towing of Vehicles.

SEC. 14-1601. AUTHORITY OF DIRECTOR OF PARKS AND RECREATION.

(a) The Director of Parks and Recreation is hereby authorized and directed to post and maintain appropriate signs indicating that parking is limited or prohibited on any park drive, park road, or at any other place within parks, playgrounds, and recreation areas owned or controlled by the city during such hours or on such days or both as is necessary for the safety of the public or the reasonable use or enjoyment by the public of the park, playground, or recreation area; and whenever such authorized signs are in place giving notice thereon that parking is limited or prohibited during such hours or on such days as are indicated on the signs, no person shall park any vehicle, motor vehicle, or motorcycle at any time during such hours or on such days or for any length of time prohibited as indicated by such signs. All signs shall conform with standards established by the City Traffic Engineer.

SEC. 14-1602. SADDLE HORSES IN PARKS.

No person shall lead, ride, or drive any horse on any place in a park or playground other than upon roads or paths designated and posted as a "Bridle Path", except that roads not designated as a bridle path may be crossed at crossings designated and posted therefore by the Director of Parks and Recreation.
(Rep. and Added Ord. 6130, 1962; based on former Sec. 10-1602).

SEC. 14-1603. VEHICLES AND BICYCLES IN PARKS AND PLAYGROUNDS.

No operator of a vehicle or a bicycle shall drive same in any part of a park or playground other than upon roads or drives provided for such purposes.
(Added Ord. 6130, 1962; based on former Sec. 10-1603).

SEC. 14-1604. COMMERCIAL VEHICLES IN PARKS AND PLAYGROUNDS.

No operator of any commercial vehicle carrying merchandise or materials shall drive same upon any road or drive in a park or playground except when same is being done for the improvement of the park and at the direction of the Director of Parks and Recreation.
(Added Ord. 6130, 1962; based on former Sec. 10-1604).

SEC. 14-1605. TOWING OF VEHICLES.

No person shall tow any vehicle of any kind in any park, except that, in case of breakdowns within a park, a disabled vehicle may be towed to the nearest point of exit and, pursuant to a request from any member of the Police Department authorized by the Police Chief or any member of the Park Police authorized by the Parks and Recreation Director, a vehicle found

to be in violation of any section of this chapter which authorizes the towing of any vehicle in violation of such section may be towed from any such park or from any recreation facility to a public garage.
(Added Ord. 6130, 1962; based on former Sec. 10-1605; Am. Ord. 76-57, § 4, eff. 7-25-76).

ARTICLE 17 REGULATIONS FOR BICYCLES

Sec. 14-1701. Obedience to Traffic Control Devices.
Sec. 14-1702. Towing Persons.
Sec. 14-1703. Riding on Sidewalks.
Sec. 14-1704. Speed.
Sec. 14-1705. Emerging from Alley or Driveway.
Sec. 14-1706. Crosswalks.
Sec. 14-1707. Parking.
Sec. 14-1708. Effect of Regulations.

SEC. 14-1701. OBEDIENCE TO TRAFFIC CONTROL DEVICES.

The operator of any bicycle shall obey the instructions of any official traffic control device placed in accordance with this chapter unless otherwise directed by a police officer or other authorized person. (Added Ord. 76-24, § 6, eff. 4-18-76).

SEC. 14-1702. TOWING PERSONS.

No operator of a bicycle shall draw or tow any person who is on roller skates, toy vehicles, coasters, sled, skateboard, or other similar device in any public street, sidewalk, or bicycle path. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962; Am. Ord. 72-120, 1972; Am. Ord. 76-24, § 7, eff. 4-18-76).

SEC. 14-1703. RIDING ON SIDEWALKS.

(a) No person shall operate a bicycle or unicycle on a sidewalk in the central business district, or on any street designated as a mall street by the provisions of this Code.

(b) Whenever any person is riding a bicycle upon a sidewalk, such person shall yield the right-of-way to any pedestrian and shall give an audible signal before overtaking and passing such pedestrian. At the intersection of two or more sidewalks, where the vision of the operator of a bicycle is so restricted by hedges, bushes, buildings, or any other obstruction so that the approach of a pedestrian cannot be observed and there is danger of a collision with the pedestrian, the operator of a bicycle shall dismount and walk through the intersection of the sidewalks. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962; Am. Ord. 6495, 1964).

SEC. 14-1704. SPEED.

No person shall operate a bicycle at a speed greater than is reasonable and prudent under the conditions then existing and in no event at a speed greater than the prima facie speed limit applicable to motor vehicles. (Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962; Am. Ord. 72-120, 1972).

SEC. 14-1705. EMERGING FROM ALLEY OR DRIVEWAY.

The operator of a bicycle emerging from an alley, driveway, or building shall, upon approaching a sidewalk or the sidewalk area extending across any alleyway, yield the

right-of-way to all pedestrians approaching on said sidewalks or sidewalk area, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway.
(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962; Am. Ord. 76-24, § 8, eff. 4-18-76).

SEC. 14-1706. CROSSWALKS.

Whenever any person is riding a bicycle in a crosswalk, such person shall yield the right-of-way to any pedestrian and shall give an audible signal before overtaking and passing such pedestrians.
(Added Ord. 76-24, § 9, eff. 4-18-76; Am. Ord. 2025-061, § 4, eff. 1-30-26).

SEC. 14-1707. PARKING.

No person shall park a bicycle upon any public street, sidewalk, bicycle lane, or bicycle path except as provided in this section.

(a) Bicycles shall be parked in a designated bicycle parking facility or rack, except as permitted in the following sections.

(b) If no designated bicycle parking facility or rack is readily accessible, a bicycle may be parked on a roadway provided that it shall be parked against the curb thereof or the edge thereof if there is no curb.

(c) If no designated bicycle parking facility or rack is readily accessible, a bicycle may be parked upon a sidewalk provided that it shall be parked so as not to obstruct pedestrian traffic.

(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962; Am. Ord. 72-120, 1972; Am. Ord. 76-24, § 10, eff. 4-18-76; Am. Ord. 2025-061, § 4, eff. 1-30-26).

SEC. 14-1708. EFFECT OF REGULATIONS.

No parent of any child or the guardian of any ward shall authorize or knowingly permit such child or ward to violate any of the provisions of this article.
(Orig. Ord. 3811; Rep. and Added Ord. 6130, 1962; Am. Ord. 72-120, 1972).

ARTICLE 18 TRAFFIC REGULATIONS IN MALL, ALLEYS IN THE MALL AREA AND SERVICE AREAS

Sec. 14-1801. Traffic in Mall.
Sec. 14-1802. Vehicles in Alleys in the Historical Fulton Mall Area.
Sec. 14-1803. Reserved.
Sec. 14-1804. Effective Date of Regulations.
Sec. 14-1805. Roller Skates.
Sec. 14-1806. Peddling on Mall Streets.

SEC. 14-1801. TRAFFIC IN MALL.

(a) VEHICLES PROHIBITED. No person shall operate or park any vehicle other than the following on any of the mall streets described herein:

(1) Emergency vehicles.

(2) Pedes-trains authorized by the Council.

(3) Post office vehicles while being used to pick up and deliver United States mail to locations that cannot be reached at other service areas.

(4) Vehicles on display when such has been approved by the Council by resolution.

(5) Construction vehicles and equipment, between the hours of 9:00 p.m. and 9:00 a.m. only, while being used in construction and demolition operations on buildings adjacent to mall streets.

(6) Public vehicles or public utility vehicles or equipment while engaged in construction or maintenance on a mall.

(7) Maintenance vehicles and equipment, between the hours of 9:00 p.m. and 9:00 a.m. only, while being used to maintain buildings and facilities that cannot be reached from other service areas.

(8) Delivery vehicles between the hours of 9:00 p.m. and 10:00 a.m. only, while being used to deliver goods to locations that cannot be reached from other service areas; provided that during the week before Easter, the week before the Fresno public schools open in the fall, and the month of December, such delivery vehicles shall make deliveries between the hours of 9:00 p.m. and 9:00 a.m. only.

(9) Self-propelled wheelchairs or invalid tricycles while being operated by persons who by reason of physical disability are unable to move about as pedestrians, subject to the permission of the Chief of Police, who shall determine the fact of such disability and who shall allow such use only upon conditions reasonably calculated to protect pedestrian traffic on mall streets.

(10) Bicycles.

(11) Bicycle taxis, designed to carry passengers for fare.

(b) No person shall operate or park on any mall in the City any vehicle or equipment which will mark, stain or damage a mall structure or the surface of a mall, by wheel marks, the dripping of oil, or any other means.

(c) Any person operating or causing the operation of any equipment or vehicles which damage a mall or surface of a mall or any fixtures or appurtenances in a mall shall be responsible for replacing or repairing the same to the satisfaction of the City, and upon failing to do so, shall be responsible to the City for the cost thereof.

(d) The vehicular use of mall streets at any time other than as expressly permitted herein shall be subject to the permission of the Chief of Police, who shall allow such use only at times and on any conditions reasonably calculated to protect the mall surfaces, fixtures, appurtenances and pedestrian traffic therein.

(e) The enforcement of this section shall be the responsibility of the Chief of Police.

(f) The following are mall streets:

Mariposa Mall—between the northeast curb line of "O" Street and the southwest curb line of "P" Street, between the northeast curb line of "M" Street and the southwest curb line of "N" Street, between the northeast curb line of the Fulton-Van Ness Alley and the southwest curb line of Van Ness Avenue.

Kern Mall—between the southwest curb line of Fulton Street and the Broadway-Fulton Alley.

(g) The following are Historical Mall Streets:

Fulton Street—between the southeast curb line of Tuolumne Street and the northwest curb line of Inyo Street.

Merced Street—between the Fulton-Van Ness Alley and the Broadway-Fulton Alley.

Mariposa Street—between the northeast curb line of Broadway and the Broadway-Fulton Alley and between the Broadway-Fulton Alley and the northeast curb line of the Fulton-Van Ness Alley.

Kern Street—between the Fulton-Van Ness Alley and Fulton Street.
(Rep. and Added Ord. 6130, 1962; Am. Ord. 6572, 1965; Am. Ord. 6947, 1967; Am. Ord. 75-91, § 2, eff. 10-5-75; Am. Ord. 2006-74, § 2, eff. 7-22-06; Ord. No. 2008-58, § 1, eff. 11-2-08; Am. Ord. 2014-16, §§ 5, 8, eff. 4-18-14).

SEC. 14-1802. VEHICLES IN ALLEYS IN THE HISTORICAL FULTON MALL AREA.

(a) CERTAIN VEHICLES PROHIBITED. No person shall operate or park any vehicle, other than authorized emergency vehicles, commercial vehicles, or pedes-trains authorized by the Council by resolution, on the alleys in the historical mall area listed in subsection (d), except for the purpose of ingress to or egress from private parking spaces adjacent to such alley.

(b) METHOD OF PARKING. No person shall park a vehicle within the alleys listed in subsection (d) in such a manner or under such conditions as to leave available less than ten feet of width of the roadway for the free movement of vehicular traffic, and no person shall stop, stand or park a vehicle in such a position as to block any loading entrance to any abutting property.

(c) TIME LIMITS. Permission is herein granted to park such vehicles in the alleys listed in subsection (d) for the purpose of loading and unloading materials, but only for the time necessary therefor and in no event for more than thirty minutes, unless the materials loaded or unloaded exceed two and one-half tons, in which event twelve minutes shall be allowed for the loading or unloading of each ton of materials. The Chief of Police by special permit may authorize the parking of vehicles for longer periods for the following purposes:

(1) Construction vehicles and equipment while being used in actual construction and demolition operations.

(2) Maintenance vehicles and equipment while being used in connection with maintenance of buildings abutting such alley or the facilities installed in such alley.

(d) LIST OF ALLEYS IN THE HISTORICAL MALL AREA:

Congo Alley between Inyo and Tuolumne;

Federal Alley between Inyo and Tuolumne.
(Rep. and Added Ord. 6130, 1962; Am. Ord. 2014-16, § 6, eff. 4-18-14).

SEC. 14-1803. RESERVED.

Editor's note—Ord. 2014-16, § 1, effective April 18, 2014, amended the Code by repealing former § 14-1803 in its entirety. Former § 14-1803 pertained to vehicles in mall service areas, and derived from Ord. 6130 of 1962.

SEC. 14-1804. EFFECTIVE DATE OF REGULATIONS.

The regulations prescribed by this article shall not be effective as to any street, alley or service area described in this article until the mall thereon or adjacent thereto has been established and installed.
(Rep. and Added Ord. 6130, 1962).

SEC. 14-1805. ROLLER SKATES.

No person shall roller skate or ride on skateboards or operate any device having metal tread wheels on any street designated as a mall street, pursuant to the provisions of this Code.
(Added Ord. 6505, 1964).

SEC. 14-1806. PEDDLING ON MALL STREETS.

No person shall sell, vend or peddle any food, drinks or merchandise on the Mall Streets or the Historical Mall Streets as defined in Section 14-1801(g), including by means of a stand, wagon, pushcart, handcart, bicycle, motorized cart or other vehicle, or from a basket or other

container carried on the person, unless that person is a Mall Street Concessionaire and is prominently displaying on their person or vehicle a city-issued official badge or sign designating them as being approved by the Director of Parks and Recreation as a Mall Street Concessionaire. A person may become a Mall Street Concessionaire by execution of an agreement approved by the Director of Parks and Recreation.

For purposes of Mall Street Concessionaires operating in a Mall Street, as defined in Section 14-1801(f), the concession agreement shall be in a form approved by the Director of Parks and Recreation and may be approved so long as the Director determines that the agreement will improve the pedestrian mall by either being necessary or convenient to the operation of the pedestrian mall or necessary or convenient to serve members of the public using the pedestrian mall. Any process to issue or revoke a concession agreement adopted by the Director of Parks and Recreation for vendors operating in a Mall Street shall be in compliance with due process and all State and Federal laws protecting against unlawful discrimination.

For purposes of Mall Street Concessionaires operating in a Historical Mall Street, as defined in Section 14-1801(g), the concession agreement shall be in the form of an encroachment agreement issued by the Public Works Director under rules and procedures adopted by the Public Works Director. The encroachment permit shall specify the location where vending is permitted under the permit. The City shall charge no more for the encroachment permit than the City's reasonable costs in administering, managing and enforcing the permit and the City's reasonable costs to improve and maintain that area of the historical mall street (and improvements therein) that provide a benefit to the vendor. The permit shall include an indemnity agreement in a form approved by the City Attorney and the Risk Manager and the permittee shall provide proof of insurance in a form approved by the City Attorney and the Risk Manager. Any process to issue or revoke a permit adopted by the Public Works Director for vendors operating in a Historical Mall Street shall be in compliance with due process and all State and Federal laws protecting against unlawful discrimination.

(Added Ord. 2003-67, § 33, eff. 8-31-03; Am. Ord. 2014-16, § 7, eff. 4-18-14).

ARTICLE 19 USE OF AIRCRAFT ON STREETS

Sec. 14-1901. Designation of Streets.
Sec. 14-1902. Certain Aircraft Prohibited.
Sec. 14-1903. Minimum Equipment Required on Aircraft.
Sec. 14-1904. Rules of the Road for Aircraft.
Sec. 14-1905. No Parking of Aircraft and Vehicles.

SEC. 14-1901. DESIGNATION OF STREETS.

All public streets shown on the Sierra Sky Park Subdivision Map, as recorded in the office of the County Recorder of the County of Fresno in Volume 13 of Plats, at Page 27, are hereby designated as streets upon which vehicles and aircraft may be used concurrently except that portion of the following avenues:

(a) Herndon Avenue.

(b) Blythe Avenue.

(c) The southern 75 feet of Spaatz Avenue, from Blythe Avenue to a point 300 feet west of Doolittle Drive.

All aircraft permitted on streets within the Sierra Sky Park Subdivision shall be used solely for the purpose of taxiing of aircraft thereon between the airport and the place where such aircraft are hangared or tied down.
(Added Ord. 79-166, § 1, eff. 11-16-79; Am. Ord. 2021-039, § 1, eff. 9-26-21).

SEC. 14-1902. CERTAIN AIRCRAFT PROHIBITED.

The following aircraft are prohibited from using any street designated herein for use by vehicles and aircraft:

(a) Aircraft which are dependent upon the use of horizontal rotary propellers for propulsion on land.

(b) Aircraft which exceed 12,500 pounds gross weight.
(Added Ord. 79-166, § 1, eff. 11-16-79).

SEC. 14-1903. MINIMUM EQUIPMENT REQUIRED ON AIRCRAFT.

All aircraft shall be equipped and maintained as follows:

(a) Aircraft shall be equipped with brakes adequate to control the movement of the aircraft.

(b) Aircraft operated during the periods between one-half hour after sunset and one-half hour before sunrise and during periods of limited visibility shall be equipped with landing lights. Such lights shall be in operation while the aircraft is taxiing on the streets.
(Added Ord. 79-166, § 1, eff. 11-16-79).

SEC. 14-1904. RULES OF THE ROAD FOR AIRCRAFT.

The operator of an aircraft, when operating on these designated streets, shall comply with all applicable chapters and articles of Division 11 (Rules of the Road) of the State of California "Vehicle Code."
(Added Ord. 79-166, § 1, eff. 11-16-79).

SEC. 14-1905. NO PARKING OF AIRCRAFT AND VEHICLES.

Aircraft and vehicles shall not park on any public street herein designated for their joint use, except the following streets wherein parking of aircraft shall be permitted:

(a) Spaatz Avenue between Doolittle Avenue and a point 300 feet west of Doolittle Avenue;

(b) Doolittle Avenue between Spaatz Avenue and Herndon Avenue.

(Added Ord. 79-166, § 1, eff. 11-16-79; Am. Ord. 2021-039, § 2, eff. 9-26-21).

ARTICLE 20 RESIDENTIAL PERMIT PARKING

Sec. 14-2001. Definitions.
Sec. 14-2002. Designation of Residential Permit Parking Areas.
Sec. 14-2003. Designation Criteria.
Sec. 14-2004. Designation Process.
Sec. 14-2005. Council Determination.
Sec. 14-2006. Amendment of Designation.
Sec. 14-2007. Posting of Residential Permit Parking Area.
Sec. 14-2008. Application for and Duration of Permit.
Sec. 14-2009. Permit Fees.
Sec. 14-2010. Issuance of Permits.
Sec. 14-2011. Prohibited Parking.
Sec. 14-2012. False Representation or Information.
Sec. 14-2013. Use or Display of Permit Prohibited.
Sec. 14-2014. Counterfeit Permits.
Sec. 14-2015. Revocation of Permit.
Sec. 14-2016. Rules and Regulations.
Sec. 14-2017. Downtown Corridor Parking District.

SEC. 14-2001. DEFINITIONS.

(a) Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning and application of words and phrases used in this article, and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 2 of Chapter 1 of this Code shall also govern the construction, meaning and application of words and phrases used in this article unless the particular provisions or the context otherwise requires. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(b) "Administrative costs" means all costs incurred by the city which are associated with or attributable to the initial and continuing designation of the residential permit parking area, including but not limited to the costs of preparing and processing permits, the costs of preparation, installation, maintenance and removal of the residential parking permit area signs, and the costs of enforcing violations of Section 14-2011 of this article.

(c) "Chief Administrative Officer" means the Chief Administrative Officer of the city or his designated representative.

(d) "Commuter vehicle" means a motor vehicle registered with the State of California Department of Motor Vehicles to an address located outside a residential permit parking area.

(e) "Lease" means that a person pays rent or other remuneration for use of a parcel of real property.

(f) "Motor vehicle" means an automobile, truck, motorcycle or other motor-driven form of transportation not in excess of 6,000 pounds gross weight.

(g) "Owns" means that a person has at least a one-quarter interest in a parcel of real property.

(h) "Parking attractor" means a facility which creates a demand for parking, including but not limited to hospitals and university complexes.

(i) "Person" means a natural person.

(j) "Residential area" means a contiguous or substantially contiguous area in which residents dwell and which contains public streets and highways or parts thereof.

(k) "Residential permit parking area" means a residential area designated as herein provided wherein resident motor vehicles displaying a valid permit as described herein shall be exempt from parking restrictions established pursuant to this article.

(l) "Resident vehicle" means a motor vehicle registered with the State of California Department of Motor Vehicles to an address located within a residential permit parking area for which a parking permit is issued. (Added Ord. 80-143, § 3, eff. 10-17-80; Am. Ord. 83-55, § 1, eff. 6-10-83).

SEC. 14-2002. DESIGNATION OF RESIDENTIAL PERMIT PARKING AREAS.

The Council shall, upon recommendation of the Chief Administrative Officer, consider for designation as residential permit parking areas those residential areas satisfying the designation criteria established in this article. The Council may, in its discretion, and in accordance with the designation criteria set forth herein, designate by resolution certain residential areas as residential permit parking areas in which resident vehicles displaying a valid parking permit may stand or be parked without limitation by parking restrictions established by this article. (Added Ord. 80-143, § 3, eff. 10-17-80).

SEC. 14-2003. DESIGNATION CRITERIA.

(a) A residential area shall be deemed eligible for consideration as a residential permit parking area if, based on surveys and studies prepared at the direction of the Chief Administrative Officer or his designee, objective criteria establish that the residential area is impacted by commuter vehicles for any extended period.

(b) In determining whether a residential area may be designated as a residential permit parking area, the Chief Administrative Officer and the Council shall take into account factors which include but are not limited to the following:

(1) The extent to which a hospital, university complex or other parking attractor attracts commuter vehicles parking in the residential area during the period and days proposed for parking restriction;

(2) The extent to which resident vehicles cannot be accommodated by the number of available off-street parking spaces;

(3) The extent of the desire and need of the residents for residential permit parking and their willingness to bear the administrative costs in connection therewith;

(4) The extent to which legal on-street parking spaces are occupied by motor vehicles during the period proposed for parking restriction; and

(5) The extent to which vehicles parking in the area during the period proposed for parking restriction are commuter vehicles rather than resident vehicles. (Added Ord. 80-143, § 3, eff. 10-17-80).

SEC. 14-2004. DESIGNATION PROCESS.

(a) Upon receipt of a verified petition by residents of at least 100 dwelling units in the residential area proposed for designation or residents living in 50% of the living units in the area proposed for designation, whichever is lesser, the Chief Administrative Officer or his designee shall undertake or cause to be undertaken such surveys or studies as are deemed necessary to determine whether a residential area satisfies the designation criteria for a residential permit parking area. Such surveys or studies shall be completed within ninety days of receipt of such verified petition, unless otherwise provided by the Council.

(b) Within thirty days of the completion of surveys and studies to determine whether designation criteria are satisfied, the Chief Administrative Officer or his designee shall prepare and file with the City Clerk a written report to the Council recommending whether to designate the residential area under consideration as a residential permit parking area. Such report shall set forth the evidence generated as a result of surveys and studies performed, the findings relative to those designation criteria listed in Section 14-2003 deemed applicable to the residential area, and conclusions as to whether the findings justify preferential residential parking for that particular area and, if so, the proposed boundaries of the residential permit parking area, a proposed time limitation, period of the day, and days for its application, and a proposed fee to be paid upon permit issuance.

(c) Upon filing such report, the Chief Administrative Officer or his designee shall set the matter for public hearing before the Council for the purpose of determining whether a residential permit parking area should be established in the area in question and, if so, for determining the boundaries of such residential permit parking area, the time limitation on parking therein, the period of the day and days for its application, and the fee to be paid upon permit issuance. Notice of the public hearing or hearings provided for herein shall be published in a newspaper of general circulation in the city at least ten days before the hearing date and posted generally in the neighborhood. The notice shall clearly state the purpose of the hearing, the location and boundaries tentatively considered for the proposed residential permit parking area, the proposed time limitation, period of the day and days for its application the permit fee proposed to be charged therefor, and that a copy of the Chief Administrative Officer's report is available for examination in the office of the City Clerk.

(d) The requirements for a verified petition as specified in subsection (a) of this section shall be deemed minimum alternatives. If at the conclusion of the public hearing conducted pursuant to this section the Council finds that the area proposed for designation has unique residential parking problems due to the nature, location, frequency or duration of activities or events causing such problems, the Council may by resolution provide for additional require-

ments as conditions to the approval and adoption of the designation. Such conditions may include but are not limited to requiring the purchase of permits by residents of at least fifty (50) per cent but no more than seventy-five per cent of the number of dwelling units on each block face of such area before implementation of the designation or continuance thereof in any subsequent year. Such other conditions as the Council determines necessary and in the public interest may also be imposed as a condition of approval and continued implementation of the designation.
(Added Ord. 80-143, § 3, eff. 10-17-80; Am. Ord. 83-55, § 2, eff. 6-10-83).

SEC. 14-2005. COUNCIL DETERMINATION.

The Council shall conduct a public hearing on the date established therefor pursuant to Section 14-2004 of this article to consider whether a residential area should be designated as a residential permit parking area. Following such hearing, the Council shall adopt, modify or reject the recommendation of the Chief Administrative Officer. In the alternative, the Council may refer the proposed designation to the Chief Administrative Officer for further consideration or study. Adoption of the designation shall be by resolution. Such resolution shall state the boundaries of such residential permit parking area, the applicable time limitation, period of day and days for its application, and such other conditions as may have been imposed by the Council pursuant to Section 14-2004 of this article. The fee shall be established in accordance with Section 14-2009 of this article.
(Added Ord. 80-143, § 3, eff. 10-17-80; Am. Ord. 83-55, § 3, eff. 6-10-83).

SEC. 14-2006. AMENDMENT OF DESIGNATION.

Any amendment, additions or deletions to a residential permit parking area shall be initiated, considered and approved or disapproved according to the procedures set forth in Sections 14-2003 through 14-2005 of this article, except any such amendment, additions or deletions may be initiated by the Chief Administrative Officer upon his own initiative.
(Added Ord. No. 80-143, § 3, eff. 10-17-80).

SEC. 14-2007. POSTING OF RESIDENTIAL PERMIT PARKING AREA.

Upon the adoption by the Council of a resolution designating a residential permit parking area, the Director of Public Works, upon petition of residents of a majority of dwelling units on a block face and upon satisfaction of all other conditions, if any, imposed by the Council pursuant to Section 14-2004 of this article, shall cause appropriate signs to be erected on each such block face, indicating prominently thereon the parking time limitation, period of the day and days for its application, and that permit parking shall be exempt therefrom.
(Added Ord. 80-143, § 3, eff. 10-17-80; Am. Ord. 83-55, § 4, eff. 6-10-83).

SEC. 14-2008. APPLICATION FOR AND DURATION OF PERMIT.

Each parking permit issued hereunder shall be valid from October 1st of the year of issuance to September 30th of the ensuing year. Permits may be renewed annually upon reapplication in the manner required by the Chief Administrative Officer. Each application

or reapplication for a parking permit shall contain information sufficient to identify the applicant, his residence address or address of real property owned or leased within a residential permit parking area, the license number of the motor vehicle for which application is made, and such other information that may be deemed relevant by the Chief Administrative Officer.
(Added Ord. 80-143, § 3, eff. 10-17-80).

SEC. 14-2009. PERMIT FEES.

The fee for a residential parking permit shall be as designated in the Master Fee Resolution, which fee may differ from residential permit parking area to residential permit parking area. In no event shall such fee exceed the cost of administering the residential permit parking program.
(Added Ord. 80-143, § 3, eff. 10-17-80).

SEC. 14-2010. ISSUANCE OF PERMITS.

(a) Parking permits shall be issued by the Controller. Each such permit shall be designed by the Controller to state or reflect thereon the particular residential permit parking area as well as the license number of the motor vehicle for which it is issued. No more than one parking permit shall be issued to each motor vehicle for which application is made. The Chief Administrative Officer is authorized to promulgate rules and regulations, not inconsistent with this article, governing the manner in which persons shall qualify for parking permits.

(b) Parking permits may be issued for motor vehicles only to the following persons:

(1) A legal resident of a designated residential permit parking area who has a motor vehicle registered in his name, or who has a motor vehicle for his exclusive use and under his control;

(2) A person who owns or leases commercial property and actively engages in business activity within a residential permit parking area. However, no more than one parking permit may be issued for each business establishment for a motor vehicle registered to or under the control of such a person.

(c) Proof of residency or ownership shall be demonstrated in a manner determined by the Chief Administrative Officer.

(d) Proof of motor vehicle ownership or vehicle use and control shall be demonstrated in a manner determined by the Chief Administrative Officer.

(e) Lost or stolen permits. A replacement permit may be issued upon declaration under penalty of perjury that a previously issued permit has been lost or stolen, and payment of a fee as set forth in the Master Fee Schedule. Permits that have been reported as lost or stolen are immediately cancelled and are no longer valid. Vehicles displaying permits that have been reported as lost, stolen, or cancelled are subject to citation.
(Added Ord. 80-143, § 3, eff. 10-17-80; Am. Ord. 2017-64, § 1, eff. 12-4-17).

SEC. 14-2011. PROHIBITED PARKING.

Except as otherwise provided, no person shall stand or park a motor vehicle within a residential permit parking area for a period exceeding the parking limitation established pursuant to this article.

(a) This section shall not apply to a resident vehicle on which is displayed a valid parking permit in the residential permit parking area for which the permit has been issued.

(b) This section shall not apply to vehicles specified in Section 10-308 of this Code.
(Added Ord. 80-143, § 3, eff. 10-17-80).

SEC. 14-2012. FALSE REPRESENTATION OR INFORMATION.

No person shall falsely represent himself as eligible for a parking permit or to [sic] furnish false information in an application therefor to the Controller. Violation of this section is a misdemeanor.
(Added Ord. 80-143, § 3, eff. 10-17-80).

SEC. 14-2013. USE OR DISPLAY OF PERMIT PROHIBITED.

No person holding a valid parking permit issued pursuant to this article shall permit the use or display of such permit on a motor vehicle other than that for which the permit is issued. No person shall use or display a valid parking permit issued pursuant hereto on a motor vehicle other than that for which it is issued.
(Added Ord. 80-143, § 3, eff. 10-17-80; Am. Ord. 2013-37, § 1, eff. 1-20-14).

SEC. 14-2014. COUNTERFEIT PERMITS.

No person shall copy, produce or otherwise bring into existence a facsimile or counterfeit parking permit or permits without written authorization from the Controller. No person shall knowingly use or display a facsimile or counterfeit parking permit in order to evade time limitations on parking applicable in a residential permit parking area. Violation of this section is a misdemeanor.
(Added Ord. 80-143, § 3, eff. 10-17-80).

SEC. 14-2015. REVOCATION OF PERMIT.

The Controller is authorized to revoke the residential parking permit of any person found to be in violation of this article and, upon written notification thereof, the person shall surrender such permit to the Controller. Failure, when so requested, to surrender a residential parking permit so revoked shall constitute a violation of this article. Any such violation is a misdemeanor.
(Added Ord. 80-143, § 3, eff. 10-17-80).

SEC. 14-2016. RULES AND REGULATIONS.

The Chief Administrative Officer may promulgate rules and regulations implementing this article.
(Added Ord. 80-143, § 3, eff. 10-17-80).

SEC. 14-2017. DOWNTOWN CORRIDOR PARKING DISTRICT.

A Downtown Corridor Parking District shall be established for the area bounded on the north by Divisadero, west by H Street, east by U Street, and south by Ventura for the purpose of designating Residential Permit Parking Areas within said District to allow authorized

residents permission to park resident vehicles 24 hours per day in controlled parking areas on-street with a valid permit. Notwithstanding contrary requirements contained in Sections 14-2002 through 14-2007 and 14-2010 of this Article 20 the following shall apply to the designation of Residential Permit Parking Areas within said District:

a. Residential Permit Parking Areas shall be limited to residential areas within the District and shall be designated at the discretion of the Chief Administrative Officer, or his designee. Each Residential Permit Parking Area so designated shall be assigned a unique Identifier consisting of a letter-number combination and/or color.

b. Once designated, the Director of Public Works shall cause appropriate signs to be erected on each block face of the designated Parking Area. Each sign shall prominently display the Identifier for that particular Parking Area, and indicate that resident vehicles properly displaying a valid parking permit shall be exempt from the parking controls.

c. Permits shall be issued as prescribed in Section 14-2010 and be limited to one per residential unit located within the Residential Permit Parking Area. Each permit shall be designed by the Controller to prominently display the Identifier of the Parking Area as well as the resident vehicle license number for which it is issued. No more than one parking permit shall be issued for any residence, or resident vehicle.

   (1) Parking permits may be issued only to a legal resident of a designated residential permit parking area who has a motor vehicle registered in his or her name, or who has a motor vehicle for his or her exclusive use and under his or her control.

   (2) Proof of residency or ownership shall be demonstrated in a manner determined by the Chief Administrative Officer.

   (3) Proof of motor vehicle ownership or vehicle use and control shall be demonstrated in a manner determined by the Chief Administrative Officer.

d. The Chief Administrative Officer shall have the authority, to eliminate any Residential Permit Parking Area within the Downtown Corridor and cancel outstanding permits in the eliminated parking area upon service of notice. The notice shall be in writing and served 90 days in advance of said elimination and cancellation to the record owners of residential units and the then current permit holders within the affected Residential Permit Parking. Notice shall be sent by U.S. Mail and service shall be effective four (4) days after mailing.

e. Sections 14-2008, 14-2009 and 14-2011 through 14-2016 regarding APPLICATION FOR AND DURATION OF PERMIT, PERMIT FEES, PROHIBITED PARKING, FALSE REPRESENTATION OR INFORMATION, USE OR DISPLAY OF PERMIT PROHIBITED, COUNTERFEIT PERMITS, REVOCATION OF PERMIT and RULES AND REGULATIONS respectively are fully applicable and incorporated in this Section.

f. Vehicles utilizing Downtown Corridor Parking Permits shall be subject to all Fresno Municipal Codes and California Vehicle Codes unless exempted in writing on the face of the permit.

(Added Ord. 2013-37, § 2, eff. 1-20-14).

ARTICLE 21 FUNERAL PROCESSIONS

Sec. 14-2101. Purpose.
Sec. 14-2102. Rules Governing Funeral Processions.
Sec. 14-2103. Permit Required.
Sec. 14-2104. Authorized Traffic Direction.
Sec. 14-2105. Permit Procedure.
Sec. 14-2106. Denial of Permit.
Sec. 14-2107. Permit Issuance.
Sec. 14-2108. Indemnity and Hold Harmless.
Sec. 14-2109. Liability Insurance.
Sec. 14-2110. Procedure for Permit Denial and Revocation.
Sec. 14-2111. Traffic Safety Instruction Program.
Sec. 14-2112. Official Insignia.

SEC. 14-2101. PURPOSE.

It is the purpose of this article to use the power conferred to local agencies by Section 21100(e) of the California Vehicle Code which authorizes the appointment of persons other than traffic officers to direct traffic in such prescribed situations and locations as may require traffic direction for orderly traffic flow.
(Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2102. RULES GOVERNING FUNERAL PROCESSIONS.

(a) Each vehicle participating in a funeral procession shall be operated with its headlights and, if so equipped, its emergency flashers turned on.

(b) No operator of any vehicle shall drive between the vehicles comprising a funeral procession, provided that the vehicles comprising such procession are conspicuously so designated by having their headlights and, if so equipped, emergency flashers turned on.

(c) The directing of all vehicles and traffic on any street over which such funeral procession or parade wishes to pass shall be subject to rules and regulations promulgated by the Police Department.
(Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2103. PERMIT REQUIRED.

No person shall stop traffic at intersections or otherwise lead or escort a vehicular funeral procession without first obtaining a permit pursuant to this article.
(Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2104. AUTHORIZED TRAFFIC DIRECTION.

(a) Any person issued a valid funeral escort permit pursuant to this article and leading or escorting a vehicular funeral procession shall obey all traffic laws, including all speed laws, except that such person is authorized to stop cross-traffic, to enable all vehicles in the funeral procession to proceed together as an unbroken chain, at intersections controlled by:

(1) Stop signs, providing that the permittee remains in the intersection until all funeral procession vehicles have cleared the intersection.

(2) Signal lights, providing that the lead vehicle in the procession enters the intersection with a green light and the permittee remains in the intersection at all times when the procession is proceeding through the intersection.

Notwithstanding the above, an escort rider will not be required to remain in an intersection until the procession passes through if the City, its officers, employees, and agents are named as an insured under the insurance policy provided pursuant to Section 14-2109.

(b) A permittee is authorized to direct traffic in the manner specified in this section only when using a vehicle conspicuously designated "Funeral Escort," wearing an official insignia issued by the Police Chief, and carrying a valid permit issued to him or her as an individual pursuant to this article. No permittee shall wear a uniform similar to that of a Fresno Police Officer.

(c) The Finance Director may order the revocation of a funeral escort permit, in accordance with the procedure specified in Section 14-2110, if the permittee has directed traffic in a manner contrary to that specified in this section. (Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2105. PERMIT PROCEDURE.

Applications for a funeral escort permit shall be filed with the city Licensing Division, and shall contain the following:

(a) Name and address of applicant.

(b) Proof of insurance in compliance with Section 14-2109.

(c) Proof of satisfactory completion of a traffic safety program of instruction, as described in Section 14-2111.

(d) Proof that the applicant holds a valid California vehicle operator's license, properly endorsed for the type of vehicle the applicant intends to use while directing vehicular funeral processions.

(e) Permit and insignia fees, as established by resolution of the Council.

(f) Such other information as may be required by the Police Chief or Finance Director. (Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2106. DENIAL OF PERMIT.

Permits authorized by this article may be denied by the Finance Director upon original or renewal application upon the following grounds:

(a) The application is incomplete; or

(b) Applicant has been convicted of a crime, and the time for appeal has elapsed, or when an order granting probation is made suspending the imposition of sentence, irrespective of the entry of a subsequent order under California Penal Code Section 1203.4; provided, however,

that the permit may be denied upon this ground only if the crime is substantially related to the qualifications, functions or duties associated with leading or otherwise escorting a vehicular funeral procession. (Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2107. PERMIT ISSUANCE.

Funeral escort permits shall be issued by the Finance Director and shall expire on September 30 of the calendar year following the date of issuance unless sooner revoked. Permits shall not be transferable. (Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2108. INDEMNITY AND HOLD HARMLESS.

The funeral escort permittee and his or her funeral escort service employer, if any, shall assume all responsibility for his or her activity and operation, shall bear all losses and damages directly or indirectly resulting to him or her, any subcontractor, the city or city employees that are the result of the performance or character of the operation, unforeseen difficulties, accidents, occurrences or other causes not predicated on negligence of the city. The permittee or his or her funeral escort service employer shall assume the defense of and indemnify and save harmless the city and its officers and employees from all claims, loss, damage, injury, and liability of every kind, nature and description, including punitive damages, directly or indirectly arising from the escorting of a vehicular funeral procession. (Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2109. LIABILITY INSURANCE. During the term of a permit issued pursuant to this article, the permittee or his or her funeral escort service shall maintain in full force and effect at the permittee's or his or her employer's own cost a comprehensive auto and general liability insurance policy in an amount no less than Three Hundred Thousand Dollars ($300,000.00) single limit per occurrence, and the funeral home engaging the escort service shall maintain in full force and effect such a policy in an amount no less than Five Hundred Thousand Dollars ($500,000.00) single limit per occurrence, which policies shall:

(a) Be issued by an admitted insurer or insurers as defined by the California Insurance Code.

(b) Cover all losses and damages as specified in Section 14-2108 of this article.

(c) Stipulate that the policy will operate as primary insurance and that no other insurance effected by the city or other named insured will be called on to contribute to a loss covered thereunder.

(d) Provide that no cancellation, change in coverage, or expiration by the insurance company or the insured shall occur during the term of the funeral escort service permit, without thirty days' written notice to the city prior to the effective date of such cancellation or change in coverage.

In the event of failure of any permittee or his or her funeral escort employer to maintain in effect such insurance policy, or in the event such permittee escorts a funeral procession for a

funeral home which does not have in effect a policy of insurance as required herein, the Finance Director shall order the cancellation of his or her permit as provided in this Section and Section 14-2110. (Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2110. PROCEDURE FOR PERMIT DENIAL AND REVOCATION.

(a) The Finance Director may revoke, refuse to issue, or refuse to renew a funeral escort service permit only after a hearing granted upon three days' written notice to the permittee. Such notice shall specify the specific ground for the proposed action. At the hearing, to be held by the Finance Director or his designee, the permittee shall be given the opportunity to present witnesses and documentary evidence, to be represented by counsel and to examine all witnesses presented. Issuance of a written notice of cancellation by an insurance company shall be conclusive proof at the hearing of the effective cancellation of an insurance policy. A decision of the Finance Director revoking or denying the permit shall be effective upon the effective date of the cancellation of said insurance or the date when the written decision is signed by the Finance Director, whichever is earlier. The taking or pendency of an appeal under subsection (b) shall not stay the effectiveness of such decision.

(b) If the permittee is dissatisfied with the decision of the Finance Director in ordering the revocation or denial of the permit, such person may file an appeal under Chapter 1, Article 4. If no appeal is filed in the time provided, the decision shall be considered final. (Added Ord. 86-18, § 2, eff. 3-7-86; Am. Ord. 2005-14, § 43, eff. 4-9-05).

SEC. 14-2111. TRAFFIC SAFETY INSTRUCTION PROGRAM.

Each applicant for a funeral escort permit shall submit to the Police Chief or his designee evidence of the curriculum, including instruction of materials and skills taught and practiced, of an instructional program of traffic safety which the applicant has satisfactorily completed. The Police Chief or his designee shall review and approve each submitted instructional program if the Police Chief or his designee reasonably believes that the program provided the applicant sufficient training to direct traffic as specified in section 14-2104 in a safe and lawful manner. (Added Ord. 86-18, § 2, eff. 3-7-86).

SEC. 14-2112. OFFICIAL INSIGNIA.

The Police Chief shall approve an official insignia which must be worn by all permittees while directing traffic in the manner specified in Section 14-2104. (Added Ord. 86-18, § 2, eff. 3-7-86).

ARTICLE 22 RESERVED*

*__Editor's note—__Ord. 2024-001, § 1, adopted January 11, 2024, and effective February 11, 2024, repealed Art. 22, §§ 14-2201—14-2205, which pertained to cruising and derived from Ord. 89-136, §§ 2, 3, effective December 8, 1989.

ARTICLE 23 SPECIFIED VETERANS' PERMIT PARKING

Sec. 14-2301. Definitions.
Sec. 14-2302. Privileges of Veterans' Parking Permits.

SEC. 14-2301. DEFINITIONS.

(a) Unless the particular provision or the context otherwise requires, the definitions and provisions contained in this section shall govern the construction, meaning and application of words and phrases used in this article, and, except to the extent that a particular word or phrase is otherwise specifically defined in this section, the definitions and provisions contained in Article 2 of Chapter 1 of this Code shall also govern the construction, meaning and application of words and phrases used in this article unless the particular provisions or the context otherwise requires. The definition of each word or phrase shall constitute, to the extent applicable, the definition of each word or phrase which is derivative from it, or from which it is a derivative, as the case may be.

(b) "Motor vehicle" means an automobile, truck, motorcycle or other motor-driven form of transportation not in excess of 6,000 pounds gross weight.

(c) "Veterans' License Plate" means a valid license plate issued by the California Department of Motor vehicles under Vehicle Code Section 5101.4, 5101.5, 5101.6, 5101.8, and 5156-7 to the extent of Gold Star Family plates issued by the Department of Veterans Affairs, or such other statutes as later enacted which provide for the issuance of license plates to Medal of Honor recipients, Legion of Valor recipients, Purple Heart recipients, Pearl Harbor Survivors, Former Prisoners of War, Gold Star Family members, and such other plates issued by another state which indicate a similar status.

(d) "Controlled parking space" for purposes of this Article means, a parking space in a city-owned lot, or space in a time restricted zone of one hour or more, or a metered space. "Controlled parking space" does not mean a space assigned to city employees, a time controlled space of less than one hour, or space dedicated to disabled persons.
(Added Ord. 96-27, § 2, eff. 5-10-96; Am. Ord. 96-75, § 2, eff. 1-17-97; Am. Ord. 2010-41, § 1, eff. 11-11-10).

SEC. 14-2302. PRIVILEGES OF VETERANS' PARKING LICENSES.

A person may park a motor vehicle upon which a Veterans' Parking license is displayed in any controlled parking space without charge.
(Added Ord. 96-27, § 2, eff. 5-10-96; Am. Ord. 96-75, § 2, eff. 1-17-97).

Sec. 14-2418. Unlawful to Exceed Scope of Permit.
Sec. 14-2419. Penalties.

SEC. 14-2401. TITLE.

This article shall be known as the City of Fresno Parade and Other Special Events Ordinance.
(Added Ord. 87-76, § 3, eff. 6-16-87).

SEC. 14-2402. PURPOSE.

It is the purpose of this article to establish standards for the issuance of a permits for parades, athletic events, and other special events in the City of Fresno including a coordinated process for managing the event to protect the health and safety of event patrons, residents, workers, and other visitors, to prohibit illegal activities from occurring at such events, and to protect the rights of special event permit holders. It is the intent of the City Council to protect the rights of people to engage in Expressive Activity in the City's public spaces, and to establish reasonable time, place, and manner regulations for these activities. It is further intended to create mechanisms for cost recovery and use charges, to the extent authorized by law, while not unduly impacting the viability of such events.
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 1, eff. 7-27-18).

SEC. 14-2403. DEFINITIONS.

(a) "Applicant" shall mean any person or organization that seeks a special event permit from the Controller to conduct or sponsor an event governed by this chapter. An applicant must be 18 years of age or older.

(b) "Athletic Event" shall mean an occasion in which a group of persons collectively engage in a sport, or form of physical exercise, and which is conducted on any city street, sidewalk, alley, or other public right-of-way, or other property owned or controlled by the city, which obstructs, delays, impedes, impairs or interferes with the usual, normal and free pedestrian or vehicular use, or does not comply with traffic laws and controls. Athletic events include, but are not limited to, bicycle and foot races.

(c) "Block Party" shall mean a festive gathering on a residential street requiring a closure of a street, or portion thereof, to vehicular traffic, and use of the street for the festivity including barbecues, picnics, music, games or dances.

(d) "Controller" shall mean ex-officio treasurer of the city.

(e) "Event" shall mean a parade, athletic event, or other special event.

(f) "Expressive Activity" means conduct, the sole or principal object of which is the expression, dissemination, or communication by verbal, visual, literary, or auditory means of opinions, views, or ideas protected under the First Amendment to the United States Constitution and Article I of the California Constitution. Expressive Activity may include, but is not limited to, parades, public oratory, and the distribution of literature.

(g) "Parade Route" shall mean a route (course of travel) along designated streets, sidewalks or other street rights-of-way which shall be pre-established by the City Manager for use by parades or special events whose primary purpose is Expressive Activity. Each Parade Route shall specify the number of officers to be assigned for police crowd and traffic control. Parade Routes shall be published on the city's website, along with the fee schedule for police, crowd, and traffic control services.

(h) "Other Special Event" shall mean street fair, art and craft show, carnival, block party, or other neighborhood activity, picnic, dance, promotional or fund raising activities, community celebrations, and other special events which occur on any city street, sidewalk, alley, or other public right-of-way, or other property owned or controlled by the city, or any event, so as to impede, obstruct, impair, delay, or interfere with the usual, normal and free pedestrian or vehicular use, or which requires, in the judgment of the Chief of Police, the deployment of peace officers for crowd and/or traffic control.

(i) "Parade" shall mean and include a parade, march, procession, pageant, review, ceremony, or exhibition consisting of persons, animals, or vehicles, or a combination thereof, which is conducted in, or upon, or along any portion of any city street, sidewalk, alley, or other public right-of-way, or other property owned or controlled by the city, which obstructs, delays, impedes, impairs or interferes with the usual, normal and free pedestrian or vehicular use, or does not comply with traffic laws or controls.

(j) "Permit Application Fee" shall mean the fee to be paid by the special event permit applicant at the time the application is filed with the Controller. A fee schedule shall be authorized or established by resolution of the Council and shall cover the actual full costs (or a portion thereof) of processing and investigating special event applications.

(k) "Permittee" shall mean any person or organization that has been issued a special events permit by the Controller.

(l) Any authority or responsibility assigned to a city official under this chapter may be delegated to and exercised by an authorized subordinate of that official, with the approval of the City Manager.
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 88-32, §§ 1, 2, eff. 3-25-88; Am. Ord. 2018-39, § 2, eff. 7-27-18).

SEC. 14-2404. PERMIT REQUIRED.

Any person desiring to conduct or sponsor a parade, athletic event, or other special event on city property or right of way, shall first obtain a special event permit from the Controller. However, a special event permit is not required for the following:

(a) Parades, athletic events or other special events that occur exclusively on city property under the jurisdiction of the city Parks, After School, Recreation and Community Services Department (those events are governed by Chapter 5, Article 5, of this Code.); or any events taking place pursuant to a lease or other agreement with the city.

(b) Funeral processions;

(c) Parades, marches, walks, demonstrations, and gatherings that take place on city sidewalks (including pedestrian street crossings) and other public property made available for Expressive Activities, where every participant fully complies with all laws, including but not limited to vehicular and pedestrian traffic laws, noise regulations, and all lawful direction from law enforcement authorities. For any such activity under this paragraph in which it is reasonably anticipated or for which the organizer becomes aware the number participating will exceed 50 individuals, the organizer of the activity shall provide notice to the Chief of Police at least 48 hours in advance of the activity, or as soon as the organizer becomes aware the event may exceed 50 people. Any activity otherwise exempt from obtaining a parade permit under this paragraph may be terminated and participants ordered to disperse by the Chief of Police if, after warning the participants and providing them with an opportunity to comply, participants are not in compliance with the regulations set forth in this paragraph.

(d) Spontaneous events, which are prompted, occasioned, or generated by news or affairs coming into public knowledge less than forty-eight hours prior to such event, may be conducted on the public grounds of City Hall, and any other area designated by Council resolution, the City Manager, or as published on the city's website. If practicable, the organizers should give notice to the City Manager at least eight hours prior to the event informing the city of the date and time of the event, and providing an estimate of the approximate number of persons who will be participating.

(e) If, in connection with any event organized pursuant to subsection (c) or (d) of Section 14-2404, any event organizer, or the organizer's officers, employees, agents, or any other person under the organizer's control, is arrested or cited for any unlawful activity, for eighteen months following the arrest or citation, events organized by the event organizer, whether a natural person or organization, or the person arrested or cited, will be required to obtain a permit, even if the event would otherwise be exempt under subsection (c) or (d) of Section 14-2404.

(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 3, eff. 7-27-18).

SEC. 14-2405. APPLICATION PROCEDURE/FEE.

(a) Any person desiring to sponsor a parade, athletic event, or other special event not exempted by Section 14-2404, shall apply for a special event permit by filing a verified application with the Controller on a form supplied by the Controller. If the application is for a parade or other special event along a Parade Route, the application should be filed not less than thirty calendar days before the date on which the event is to occur. All other applications shall be submitted not less than sixty calendar days before the event date.

(b) Upon a showing of good cause, the Controller shall consider an application which is filed after the filing deadline if there is sufficient time to process and investigate the application, and obtain police services for the event. Good cause can be demonstrated by the applicant showing that the circumstances which gave rise to the permit application did not reasonably allow the participants to file within the time prescribed, and that the event is for the purpose of engaging in Expressive Activity.

(c) The application for a permit shall be accompanied by a nonrefundable permit application fee as set forth in the Master Fee Schedule.

(d) Any indigent natural person who cannot apply for a permit because of an inability arising from such indigence to pay the application fee shall not be required to pay the fee. Applications for indigent status shall be made upon application for the permit, and shall be accompanied by such relevant information and documentation as is reasonably necessary to verify indigence and to verify participation in the group or organization promoting the event. For purposes of this Section 14-2405(d), an indigent person is one who is eligible for county relief pursuant to Section 17000 et seq. of the Welfare and Institutions Code, or his or her gross household income is 125% or less of the federal poverty line.

(e) An organization in which a majority of its members meet the criteria for indigent status, as established in subsection (d) of this Section 14-2405, shall also be eligible for application fee waiver.

(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 4, eff. 7-27-18).

SEC. 14-2406. CONTENTS OF APPLICATION FORM.

The application for a special event permit shall provide the following information:

(a) All Events:

(1) The name, address, and telephone number of the applicant and an alternate contact person.

(2) If the event is proposed to be sponsored by an organization, the name, address and telephone number of the organization, and the authorized head of the organization. If requested by the Controller, written authorization to apply for the special event permit by an officer of the organization.

(3) The name, address and telephone number of the person who will be present and in charge of the event on the day of the event.

(4) The nature/purpose of the event.

(5) Date and estimated starting and ending time of the event.

(6) Location of the event including its boundaries.

(7) Estimated number of participants in the event.

(8) The type and estimated number of vehicles, animals, and structures which will be used at the event.

(9) Description of any sound amplification equipment which will be used at the event.

(10) Whether any food or beverages will be sold at the event.

(11) Whether monitors or private security will be employed at the event.

(12) Parking requirements for the event.

(b) Additional information required for parades, races, and other events occurring along a route:

(1) The assembly point for the event, the time at which units of the parade or other event will begin to assemble.

(2) The route to be traveled.

(3) Whether the parade or other event will occupy all or only a portion of the streets proposed to be traversed.

(4) The intervals of space to be maintained between units of a parade or other event.

(5) The number, types, and size of floats.

(6) Material and maximum size of any signs or banners to be carried along the route.

(c) Supplemental Information: Any supplemental information which the Controller shall find reasonably necessary, under the particular circumstances of the special event application, to determine whether to approve, or conditionally approve, a special event permit pursuant to Sections 14-2408 and 14-2409.

(Added Ord. 87-76, § 3, eff. 6-16-87).

SEC. 14-2407. ACTION ON APPLICATION.

The Controller shall approve, conditionally approve, or deny an application for the grounds specified in Section 14-2408. Such action shall be taken no later than five city-business days after receiving a completed application for an event along a pre-established Parade Route. Action on all other special event applications shall be taken no later than ten city-business days after receiving a completed application. If the application is denied, or conditionally approved, the Controller shall inform the applicant of the grounds for denial in writing, or the reason for a change in the date, time, route, or location of the event, and the applicant's right of appeal. If the Controller relied on information about the event other than that contained in the application, the Controller shall inform the applicant in writing what information the Controller considered. The applicant shall be notified of any permit conditions at the time the application is approved and of the applicant's right of appeal of the permit conditions. If the Controller refuses to consider a late application under Section 14-2405(b), the Controller shall inform the applicant in writing of the Controller's reason for the refusal, and of the applicant's right of appeal. The Controller shall send the written notice of decision within two City-business days of making the decision.
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 5, eff. 7-27-18).

SEC. 14-2408. GROUNDS OR DENIAL OF APPLICATION OR REVOCATION FOR A SPECIAL EVENT PERMIT.

(a) The Controller or his or her designee shall approve an application for a special event permit unless he or she determines from a consideration of the application, or other pertinent information, any of the following which shall also be justification for the Controller to revoke a previously issued permit:

(1) Information contained in the application, or supplemental information requested from the applicant, is found to be false in any material detail;

(2) The applicant fails to complete the application form within five calendar days after having been notified of the additional information or documents required;

(3) The sole purpose of the event is advertising of any product, good, ware, merchandise or event, and is designed to be held solely for private profit and not for Expressive Activity;

(4) Another special event permit application has been received prior in time, or has already been approved, to hold another event at the same time and place requested by the applicant, or so close in time and place as to cause undue traffic congestion, or the police department is unable to meet the needs for police services for both events;

(5) The time, route, or size of the event will substantially interrupt the safe and orderly movement of traffic contiguous to the event site or route, or disrupt the use of a street between the hours of 7:00 a.m. and 10:00 a.m., or between the hours of 4:00 p.m. and 6:00 p.m., Monday through Friday, unless event will occur on a national holiday;

(6) The concentration of persons, animals, and vehicles at the site of the event, or the assembly and disbanding areas around an event, will prevent proper police, fire, or ambulance services to areas contiguous to the event;

(7) The size of the event will require diversion of so great a number of police officers of the city to ensure that participants stay within the boundaries or route of the event, or to protect participants in the event, as to prevent normal protection to the remainder of the city. Nothing herein authorizes denial of a permit when additional peace officers would be available to the city under applicable State law or mutual aid plans, if requested by the city in advance of the event. Nothing herein authorized denial of a permit because of the need to protect participants from the conduct of others, if reasonable permit conditions can be imposed to allow for adequate protection of event participants with the number of police officers available to police the event;

(8) The parade, or other special event moving along a route, will not move from its point of origin to its point of termination in three hours or less unless approved by the Police Department;

(9) The location of the event will substantially interfere with any construction or maintenance work scheduled to take place upon or along the city streets, or along any public right of way, or where construction work is scheduled in connection with a previously granted encroachment permit;

(10) The event shall occur at a time when a school is in session at a route or location adjacent to the school or class thereof, and the noise created by the activities of the event would substantially disrupt the educational activities of the school or class thereof;

(11) The applicant fails to comply with any conditions of approval including, but not limited to:

(i) Payment of any fees, charges, or deposits due to the city; or

(ii) Submittal of an indemnification agreement or proof of insurance to the extent required; or

(12) The applicant fails to agree as a condition of permit issuance that if city property is destroyed or damaged by reason of permittee's event, and the damage or destruction is directly attributable to the permittee or persons under the control of the permittee, the permittee shall reimburse the city for the actual replacement or repair of the cost of the destroyed or damaged property;

(13) The applicant has damaged city property, and has not paid in full for such damage, or has other outstanding and unpaid debts related to a prior special event permit issued by the city.

(b) When the grounds for denial of an application for permit specified in subsections (a)(4) through (a)(13) above, can be corrected by altering the date, time, duration, route, or location of the event, the Controller shall instead of denying the application conditionally approve the application upon the applicant's acceptance of conditions for permit issuance. The conditions imposed shall provide for only such modification of the applicant's proposed event as are necessary to achieve compliance with subsections (a)(4) through (a)(13) above.
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 6, eff. 7-27-18).

SEC. 14-2409. PERMIT CONDITIONS.

The Chief of Police may also condition the issuance of a special events permit by imposing reasonable requirements concerning the time, place, and manner of the event, and such requirements as are necessary to protect the safety of persons and property, and the control of traffic, provided such conditions shall not unreasonably restrict the right of free speech, and provided no consideration may be given to the perspective of the speaker. If the Chief of Police imposes conditions on the issuance of a special events permit, the Chief of Police shall inform the applicant in writing of the reasons for the conditions, and the applicant's right of appeal. Such conditions include:

(a) Alteration of the date, time, route or location of the event proposed on the event application;

(b) Conditions concerning the area of assembly and disbanding of parade or other special events occurring along a route;

(c) Conditions concerning accommodation of pedestrian or vehicular traffic, including restricting the event to only a portion of a street traversed;

(d) Requirements for the use of traffic cones, signage, or barricades;

(e) Requirements for provision of first aid or sanitary facilities;

(f) Requirements for use of event monitors, and providing notice of permit conditions to event participants;

(g) Restrictions on the number and type of vehicles, animals, or structures at the event;

(h) Compliance with animal protection ordinances and laws;

(i) Requirements for use of garbage containers, cleanup and restoration of city property;

(j) Restrictions on use of amplified sound;

(k) An application for a special event permit to conduct a block party may be conditioned on notice and approval by fifty percent of the residents of dwellings along the affected street(s).

(l) Compliance with any relevant ordinance or law and obtaining any legally required permit or license.

(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 7, eff. 7-27-18).

SEC. 14-2410. APPEAL PROCEDURE.

(a) The applicant shall have the right to appeal the denial of a permit or a permit condition, including, but not limited to, any fees associated with a permit condition, to the City Manager by filing a written notice of such appeal with the City Manager within five city-business days of the decision if the applicant wishes to keep the original event date set forth in the application, or within ten city-business days if the applicant chooses to change the date of the event to accommodate a longer appeal period. The City Manager shall decide the appeal within five city-business days. The City Manager's decision may be appealed to the administrative hearing officer, pursuant to Sections 1-401 et seq. of this Code. The applicant shall also have the right to appeal the amount of clean-up deposits imposed pursuant to Section 14-2415, or a determination by the city that the applicant's insurance policy does not comply with the requirements specified in Section 14-2413.

(b) The hearing under Chapter 1, Article 4 shall be held no later than five business days after the filing of the appeal of the City Manager's decision, and the decision shall be rendered no later than two business days after the date of the hearing.

(c) In the event the appeals process extends beyond the original event date set forth in the application, the applicant may select a new date for the event and update its existing application without resubmitting a new application.
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 88-32, § 3, eff. 3-25-88; Am. Ord. 98-65, § 27, eff. 10-1-98; Am. Ord. 2005-14, § 44, eff. 4-9-05; Am. Ord. 2018-39, § 8, eff. 7-27-18).

SEC. 14-2411. PERMIT ISSUANCE.

The Controller shall issue the special events permit once the application has been approved, and the applicant has agreed in writing to comply with the terms and conditions of the permit, and the following sections of this ordinance have been complied with:

(a) Section 14-2412 pertaining to indemnification.

(b) Section 14-2413 pertaining to insurance.

(c) Section 14-2415 pertaining to cleanup deposits (when applicable).
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 88-32, § 4, eff. 3-25-88).

SEC. 14-2412. INDEMNIFICATION AGREEMENT.

Prior to the issuance of a special event permit, the permit applicant and authorized officer of the sponsoring organization (if any), must sign an agreement to reimburse the City of Fresno for any costs incurred by it in repairing damage to city property occurring in connection with the permitted event proximately caused by the actions of the permittee/sponsoring organization, its officers, employees, or agents, or any person who was, under the permittee's/sponsoring organization's control insofar as permitted by law. The agreement shall also provide that the permittee/sponsoring organization shall hold harmless, indemnify and defend the City of Fresno, its officials, members, agents and employees against any claims, costs, damages, demands, liability and notices, or any of these, arising or resulting

from any damage or injury proximately caused by actions of the permittee/sponsoring organization in connection with the permitted event. Persons who merely join in a parade or event are not considered by that reason alone to be "under the control" of the permittee/sponsoring organization.
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 9, eff. 7-27-18).

SEC. 14-2413. INSURANCE.

(a) The applicant/sponsor of an event must possess or obtain public liability insurance to protect against loss from liability imposed by law for damages on account of bodily injury and property damage occurring in connection with the permitted event proximately caused by the actions of the permittee, its officers, employees, or agents, or any person who was, under the permittee's control insofar as permitted by law. Persons who merely join in a parade or event are not considered by that reason alone to be "under the control" of the permittee. Such insurance shall name on the policy or by endorsement as additional insureds the City of Fresno, its officers, employees, and agents. Insurance coverage must be maintained for the duration of the event. Coverage shall be a comprehensive general liability insurance policy with minimum limits of $1 million per occurrence, $2 million aggregate.

If food or non-alcoholic beverages are sold or served at the event, the policy must also include an endorsement for products liability in an amount not less than $250,000. If alcoholic beverages are sold or served at the event, the policy must also include an endorsement for liquor legal liability in an amount not less than $1 million per occurrence, $2 million aggregate.

(b) A copy of the policy or a certificate of insurance along with all necessary endorsements must be filed with the Controller no less than five days before the date of the event unless the Controller for good cause waives the filing deadline. The special event permit shall not be issued by the Controller until after the insurance policy or certificate of insurance along with necessary endorsements have been filed by the applicant/sponsor and approved by the Controller.

(c) The insurance requirements of subsections (a) and (b) above shall be waived by the Controller for nonathletic events if the applicant or an officer of the sponsoring organization signs a verified statement that he or she believes the event's purpose is Expressive Activity, as defined in Section 14-2403, and the applicant or officer produces satisfactory evidence that complying with the insurance provision would preclude the proposed event from occurring. The statement shall include the name and address of at least one insurance agent or other source for insurance coverage contacted to determine insurance premium rates for insurance coverage.
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 10, eff. 7-27-18).

SEC. 14-2414. TRAFFIC CONTROL FEES/USE OF PRE-ESTABLISHED PARADE ROUTES.

(a) **Prepayment of Fees.** Upon approval of an application for a special event permit, the Chief of Police shall provide the applicant with a statement of the estimated cost of providing police officers for crowd and traffic control at the event. The applicant/sponsor of the event

shall be required to prepay the crowd and traffic control fees prior to the issuance of a special event permit. Traffic and crowd control by officers includes clearing the event route or site of unauthorized vehicles, diversion of traffic around the event, and directing pedestrian and vehicular traffic along the route of an event.

(b) **Computing Traffic Control Fees.** The traffic control fees will be computed by determining the number of police officers who will be required for crowd and traffic control in addition to those who would otherwise be on duty at that time, the number of hours the officers will be on duty for the event, and the city's actual cost of providing officers on an hourly basis as established by the Police Department fee schedule. In determining crowd and traffic control fees, the Council shall establish fees upon the recommendation of the Chief of Police based on the applicant/sponsor's use of monitors for the event.

(c) **Refunds or Underpayments.** If the actual cost for crowd and traffic control on the date of the event is less than the estimated cost pursuant to subsection (a) above, the applicant/sponsor will be promptly refunded the difference by the Controller. Should the actual cost to the city by reason of the event exceed the estimated cost, the applicant/sponsor shall pay the balance upon demand by the Controller.

(d) **Pre-established Parade Routes and Fees.** Pre-established Parade Routes shall specify the number of officers assigned for police traffic control on those routes. The fee schedule for police crowd and traffic control services shall be made available to the public.

(e) **Waiver of Fees.** Crowd and traffic control fees shall be waived by the Chief of Police for Expressive Activities if the following conditions are satisfied:

(1) The applicant or an officer of the sponsoring organization signs a verified statement that he or she believes the event's purpose is Expressive Activity, as defined in Section 14-2403, and the applicant qualifies as indigent pursuant to Section 14-2405(d) or (e); and

(2) The applicant or sponsor selects one of the pre-established Parade Routes.

(f) The Council may establish by resolution(s) policies and procedures that may authorize additional designated Parade Routes or locations and/or fee waiver programs for Expressive Activities.
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 11, eff. 7-27-18).

SEC. 14-2415. CLEANUP DEPOSITS FOR CERTAIN SPECIAL EVENTS.

(a) The applicant/sponsor of an event involving the sale of food or beverages, erection of structures, horses or other large animals, or water aid stations shall be required to provide a cleanup deposit prior to the issuance of a special event permit. The cleanup deposit shall be in the amount established in the Master Fee Resolution.

(b) The cleanup deposit shall be returned to the applicant/sponsor after the event if the area used for the permitted event has been cleaned and restored to the same condition as existed prior to the event.

(c) If the property used for the event has not been properly cleaned or restored, the applicant/sponsor shall be billed for the actual cost incurred by the city for cleanup and restoration, and the cleanup deposit, or a portion thereof, shall be applied toward payment of the bill. If the applicant/sponsor disputes the bill, he may appeal to the city Controller within five days after receipt of the bill. Should there be any unexpended balance on deposit after completion of the work, this balance shall be refunded to the applicant/sponsor. Should the amount of the bill exceed the cleanup deposit, the difference shall become due and payable to the city upon the applicant's receipt of the bill.

SEC. 14-2416. DUTIES OF PERMITTEE/SPONSOR OF EVENT.

(a) The applicant/sponsor of an event shall comply with all terms, and conditions of the special event permit.

(b) Each permittee/sponsor of an event shall ensure that the person leading a parade or other event along a route, or the person in charge of any other event shall carry the special event permit on his person for the duration of the event.

(c) Each permittee/sponsor of an event shall ensure the area used for the permitted event is cleaned and restored to the same condition as existed prior to the event, immediately following the completion of the event.
(Added Ord. 88-66, § 2, eff. 6-10-88).

SEC. 14-2417. UNLAWFUL TO SPONSOR OR PARTICIPATE IN AN EVENT WITHOUT A PERMIT.

It shall be unlawful for any person to sponsor or conduct a parade, athletic event or other special event requiring a special event permit, under Section 14-2404, unless a permit has been issued for the event. It is unlawful for any person to participate in such an event with the knowledge that the sponsor of the event has not been issued the required permit. Nor shall any person interfere with or disrupt a lawful parade, athletic event, or other special event.
(Added Ord. 87-76, § 3, eff. 6-16-87).

SEC. 14-2418. UNLAWFUL TO EXCEED SCOPE OF PERMIT.

The special event permit authorized the permittee/sponsor to conduct only such event as is described in the permit, and in accordance with the terms and conditions of the permit. It is unlawful for the permittee/sponsor to willfully violate the terms and conditions of the permit, or for any event participant with knowledge thereof, to willfully violate the terms and conditions of the permit.
(Added Ord. 87-76, § 3, eff. 6-16-87).

SEC. 14-2419. PENALTIES.

Any person willfully violating any provision of the Parade and Other Special Events Ordinance shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be

punished by a fine as set forth in the Master Fee Schedule for each violation of the Ordinance. Upon election of the City Attorney, such violations may be addressed by either prosecution as an infraction or administrative citation pursuant to Sections 1-308 et seq. of this Code. Appeal of an administrative citation may be made pursuant to Sections 1-308 et seq. Violators may be liable for penalties in the amount set forth in the Master Fee Schedule and for the actual full costs incurred by the city, including but not limited to attorney's fees, police services and/or traffic control provided for, or because of, the event.
(Added Ord. 87-76, § 3, eff. 6-16-87; Am. Ord. 2018-39, § 12, eff. 7-27-18).

ARTICLE 25 MEDIAN ISLAND SAFETY

Sec. 14-2501. Prohibition of Loitering on Median without a Permit.
Sec. 14-2502. Permit Application.
Sec. 14-2503. City-Approved Median Islands.
Sec. 14-2504. Types of Permits.
Sec. 14-2505. Liability Insurance.
Sec. 14-2506. Hold Harmless.
Sec. 14-2507. Safety Wear.
Sec. 14-2508. Age of Permittee.
Sec. 14-2509. Possession of Permit.
Sec. 14-2510. Signs or Other Objects Prohibited.
Sec. 14-2511. Stepping off Median.
Sec. 14-2512. Vehicles.
Sec. 14-2513. Clean Up of Median.
Sec. 14-2514. Federal, State and Local Laws.
Sec. 14-2515. Written Acknowledgement.
Sec. 14-2516. Number of Permits.
Sec. 14-2517. Permit Time Period.
Sec. 14-2518. Transferability.
Sec. 14-2519. Exceptions.
Sec. 14-2520. Definitions.
Sec. 14-2521. Appeals.
Sec. 14-2522. Violation.
Sec. 14-2523. Review.

SEC. 14-2501. PROHIBITION OF LOITERING ON MEDIAN WITHOUT A PERMIT.

It shall be unlawful for any person to loiter on a median island without a City issued permit.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2502. PERMIT APPLICATION.

The permit shall be obtained by filling out a City application. Said application shall be obtained at the City of Fresno Public Works Department. The fee for the permit shall be as established by Council resolution and contained in the City Master Fee Schedule. A permittee shall have the opportunity to request a waiver of fees for the permit. The Public Works Department, in its sole discretion shall determine whether to grant or deny the waiver request based upon the criteria listed on the Fee Waiver Request document.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2503. CITY-APPROVED MEDIAN ISLANDS.

The Traffic Division of the City of Fresno shall create and provide a document listing the location of median islands in the City on which a permittee may conduct its permitted activities. The list shall be made available to the public at the City Public Works Department.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2504. TYPES OF PERMITS.

There shall be two types of permits:

(a) **Specific Median Island Permit** - A permit that would allow an permittee to occupy a specific, City approved median island.

(b) **Multiple Median Island Permit** - A permit that would allow a permittee to occupy any City approved median island.

(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2505. LIABILITY INSURANCE.

(a) No permit shall be issued under this section unless the permittee obtains and maintains, at no cost to the City, a personal injury and property damage liability insurance policy, with coverage not less than as required by the City Risk Manager.

(b) A permittee shall have the opportunity to request a waiver of the requirements in this section. The City, in its sole discretion, shall determine whether to grant or deny the waiver request based upon undue hardship as set forth in the criteria listed on the Liability Insurance Waiver Request Form.

(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2506. HOLD HARMLESS.

A permittee under this article shall, and by acceptance of his permit does, to the furthest extent allowed by law, hereby agree to indemnify, hold harmless and defend the City and each of its officers, officials, employees, agents and volunteers, as provided in a written statement set forth in the permit form, as approved by the City Risk Manager.

(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2507. SAFETY WEAR.

All permittees shall wear orange colored safety clothing. Such clothing shall include, but not be limited to, orange colored or reflective vests and/or shirts.

(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2508. AGE OF PERMITTEE.

(a) All permit applicants shall be no younger than 18 years of age. The City shall require proof of age by the permit applicant providing a valid birth certificate, valid California Drivers License or other California State Issued Identification Card containing the permit applicant's birth date.

(b) In the case of a Multiple Median Island permittee, persons no younger than 16 years of age may request and be permitted to act in the approved median islands if they have been given instruction in safety procedures by the permittee and are directly monitored by the adult

permittee or authorized representative. For organizational permittees, all persons to be covered under the permit shall be listed in the application, with proof of age provided by the organization for each person.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2509. POSSESSION OF PERMIT.

All specific median island permittees shall be required to carry and display the permit while on the median island. Any such person must show the permit to any City employee upon request.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2510. SIGNS OR OTHER OBJECTS PROHIBITED.

No permittee shall be allowed to bring any signs, materials or other objects on the median island that will obstruct any signal light or extend into a traffic lane or obscure any traffic sign on the median. No animal shall be allowed on the median island, other than a service animal. No person, sign, material, animal or other object on the median island shall obstruct any signal light or extend into a traffic lane or other traffic sign.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2511. STEPPING OFF MEDIAN.

No person shall step off the median island to exchange any object with a vehicle occupant.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2512. VEHICLES.

No person shall exchange any object with an occupant of a moving vehicle.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2513. CLEAN UP OF MEDIAN.

All permittees shall be required to clean up and remove all litter, junk or any other material before they leave the median island. Any person or organization violating this section shall be required to reimburse the City for any costs related to the clean up and removal of any items left on the median.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2514. FEDERAL, STATE AND LOCAL LAWS.

All permittees shall be required to follow all applicable Federal, State and Local laws while on the median.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2515. WRITTEN ACKNOWLEDGEMENT.

All permittees shall be required at the time of application, to sign an acknowledgement and agreement to abide by all the rules and regulations listed in this Chapter.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2516. NUMBER OF PERMITS.

A Specific Median Island Permit or Multiple Median Island Permit shall not be issued to an individual or organization more than once every six (6) months.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2517. PERMIT TIME PERIOD.

A permit issued under this section shall only be valid from sunrise to sunset of the date listed on the Permit. The Permit is revocable due to unsafe conditions, such as poor visibility, including weather, fog or as determined by a Fresno Police Officer.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2518. TRANSFERABILITY.

Permits issued under this section shall be non-transferable.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2519. EXCEPTIONS.

(a) This Article shall not apply to freeway oriented solicitation prohibited by California Vehicle Code section 22520.5.

(b) The permit procedure for charitable solicitations by public safety personnel shall be as set forth in California Business and Professions Code section 17510.25.

(c) This Article shall not apply to those persons occupying a median while conducting activities related to maintenance, surveying, construction, landscape maintenance, landscape improvements, responding to an emergency, or as otherwise permitted by law.
(Added Ord. No. 2010-5, § 1, eff. 4-17-10)

SEC. 14-2520. DEFINITIONS.

For the purposes of this section, the following definitions shall apply:

(a) "Median" shall mean a paved or planted area separating a street, or highway, into two (2) or more lanes or directions of travel. City-Approved median islands as provided in SEC. 14-2503, shall be not less than four (4) feet wide.

(b) "Permittee" means any person or organization applying for, or issued a median island solicitation permit under this section, or any employee, agent, representative or other person who shall be occupying a median island for that person or organization.

(c) In this Chapter, "Loitering" means standing or lingering in a median island without a permit, or exception as provided in SEC. 14-2519, other than to safely and lawfully cross the street.

(Added Ord. No. 2010-5, § 1, eff. 4-17-10).

SEC. 14-2521. APPEALS.

An applicant that has been denied the issuance of a permit may appeal that decision. The procedure for all appeals regarding denial of a permit shall be as established under Chapter 1, Article 4 of the Fresno Municipal Code.

(Added Ord. No. 2010-5, § 1, eff. 4-17-10).

SEC. 14-2522. VIOLATION.

(a) A violation of this chapter is a misdemeanor, punishable upon conviction by imprisonment in the county jail for a term not to exceed six (6) months, or by a fine not to exceed two hundred fifty dollars ($250) for the first offense, five hundred dollars ($500) for the second offense within six months of the first offense, and one thousand dollars ($1,000) for the third or subsequent offense within six months of the first offense, or by both fine and imprisonment.

(b) In addition, the City Attorney shall also have the power to seek injunctive relief for any violation of this Article.

(c) In addition to any administrative penalty assessed for a violation of this article, any person or organization found in violation of this article will be charged abatement, actual, administrative and enforcement costs as defined in Section 1-503, calculated to recover the total costs incurred by the City in enforcing this Article.

(Added Ord. No. 2010-5, § 1, eff. 4-17-10).

SEC. 14-2523. REVIEW.

This Ordinance shall be reviewed by the Council within one (1) year of the effective date of the Ordinance.

(Added Ord. No. 2010-5, § 1, eff. 4-17-10).

ARTICLE 26 "SEMI" TRUCK AND TRAILER PARKING

Sec. 14-2601. Storage of "Semi" Vehicles.
Sec. 14-2602. Exceptions.
Sec. 14-2603. Violation.
Sec. 14-2604. Vehicle Removal.
Sec. 14-2605. Definitions.
Sec. 14-2606. Reserved.
Sec. 14-2607. Conflicts.
Sec. 14-2608. Reserved.

SEC. 14-2601. STORAGE OF "SEMI" VEHICLES.

It shall be unlawful to place, or have placed, park, keep, or maintain any "Semi" vehicle, as defined in 14-2605(a), on any public street, alley, right of way, or highway, other than a state highway, in the City of Fresno for a period exceeding four (4) hours.
(Added Ord. 2010-21, § 1, eff. 7-31-10; Am. Ord. 2019-004, § 1, eff. 4-5-19).

SEC. 14-2602. EXCEPTIONS.

This Article shall not apply under the following conditions:

(a) Any vehicle as defined under this Article making pickups or deliveries of goods, wares and merchandise from or to any building or structure or for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling, or construction of any building or structure for which a building permit has previously been obtained. This exception shall apply only to any such vehicles that are attended, and shall not extend beyond the time necessary therefore, and in no event for more than twelve (12) hours;

(b) Any vehicle as defined in this Article parked in connection with, and in the aid of, the performance of a service to or on a property in the block in which such vehicle is parked;

(c) Any school or passenger bus under the jurisdiction of a recognized school district;

(d) Any vehicle as defined in this Article owned by a city, county, state, public entity or licensed contractor engaged in the installation, maintenance, or repair of any public property, utility or highway;

(e) Any authorized emergency vehicle as defined by the California Vehicle Code;

(f) For no more than two (2) additional hours when emergency repairs are in progress, and, the vehicle is attended.

(g) For any tow truck designed to tow vehicles having a manufacturer's gross vehicle weight rating of twelve thousand (12,000) pounds or more, and which is in the act of towing such vehicle.

(Added Ord. 2010-21, § 1, eff. 7-31-10; Am. Ord. 2019-004, § 2, eff. 4-5-19).

SEC. 14-2603. VIOLATION.

(a) A violation of this Article shall result in the issuance of a parking citation pursuant to Fresno Municipal Code section 1-302. The fine for each violation of this Article shall be identified in the Master Fee Schedule.

(b) In addition, the City Attorney shall also have the power to seek injunctive relief for any violation of this Article.
(Added Ord. 2010-21, § 1, eff. 7-31-10; Am. Ord. 2019-004, § 3, eff. 4-5-19).

SEC. 14-2604. VEHICLE REMOVAL.

The City may remove any vehicle defined in 14-2605(a) pursuant to California Vehicle Code Section 22651(n), if left for 48 hours or more in areas where signs are posted notifying of such removal.
(Added Ord. 2010-21, § 1, eff. 7-31-10; Am. Ord. 2019-004, § 4, eff. 4-5-19; Am. Ord. 2019-004, § 4, eff. 4-5-19).

SEC. 14-2605. DEFINITIONS.

For the purposes of this Article, the following definitions shall apply:

(a) "Semi" shall mean any vehicle having a manufacturer's gross vehicle weight rating of twelve thousand (12,000) pounds or more, or any trailer or semitrailer, as defined by California Vehicle Code 550, 630, 635 or 636 used and maintained for commercial purposes, and designed for use with, or actually used in conjunction with a Semi, whether licensed or unlicensed.

(b) "Attended" shall mean that the driver or operator of the vehicle or trailer must be physically present, or within the reasonable proximity of the vehicle. In the case of a delivery or transport vehicle, "attended" shall mean that the driver or operator of the vehicle shall be in the act of delivering or accepting the merchandise to or from the customer, or obtaining signatures from the customer or providing the customer with any necessary receipts or other documentation of the transaction.
(Added Ord. 2010-21, § 1, eff. 7-31-10; Am. Ord. 2019-004, § 5, eff. 4-5-19).

SEC. 14-2606. RESERVED.

Editor's note—Am. Ord. 2019-004, § 6, effective April 5, 2019, amended the Code by repealing former § 14-2606 in its entirety. Former § 14-2606 pertained to issuance of warning, and derived from Ord. 2010-21, effective July 31, 2010.

SEC. 14-2607. CONFLICTS.

Nothing stated herein is intended to conflict with or supersede any other sections in this Chapter related to parking, or any other local, state or federal law.
(Added Ord. 2010-21, § 1, eff. 7-31-10).

SEC. 14-2608. RESERVED.

Editor's note—Am. Ord. 2019-004, § 7, effective April 5, 2019, amended the Code by repealing former § 14-2608 in its entirety. Former § 14-2608 pertained to review, and derived from Ord. 2010-21, adopted July 31, 2010.

PART I: GENERAL PROVISIONS

ARTICLE 1 INTRODUCTORY PROVISIONS

Sec. 15-101. Title and Authority.
Sec. 15-102. Purpose.
Sec. 15-103. Structure of Development Code Regulations.
Sec. 15-104. Applicability.
Sec. 15-105. Severability.
Sec. 15-106. Fees.
Sec. 15-107. Districts Established.
Sec. 15-108. Official Zoning Map and District Boundaries.

SEC. 15-101. TITLE AND AUTHORITY.

Chapter 15 of the Fresno Municipal Code shall be known and cited as the "Citywide Development Code," "Development Code of the City of Fresno," "Development Code," "Code," or "Zoning Ordinance."
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-102. PURPOSE.

The purpose of this Development Code is to implement the General Plan and, if applicable, operative plans, to protect and promote the public health, safety, peace, comfort, convenience, prosperity, and general welfare of the City of Fresno. More specifically, the Development Code is adopted to achieve the following, consistent with the goals, objectives, and policies of the General Plan and any other operative plan:

A. To provide a precise guide for the physical development of the city in a manner as to progressively achieve the arrangement of land uses depicted in the General Plan.

B. To foster a harmonious and workable relationship among land uses and ensure compatible infill development.

C. To support economic development and job creation.

D. To provide for the housing needs of all economic segments of the community.

E. To promote high quality architecture and sustainable design. Sustainable Design is a philosophy that seeks to maximize the quality of the built environment, while minimizing or eliminating negative impact to the natural environment.

F. To promote the stability of existing land uses that conform to the General Plan, protecting them from inharmonious influences and harmful intrusions.

G. To promote a safe and efficient traffic circulation system, including bicycle facilities and pedestrian amenities, and to support a multi-modal transportation system.

H. To facilitate the appropriate location of community facilities, institutions, parks, and recreational areas.

I. To protect and enhance real property values.

J. To safeguard and enhance the appearance of the city.

K. To define duties and powers of governing bodies and officials responsible for the implementation of this Code.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-103. STRUCTURE OF DEVELOPMENT CODE REGULATIONS.

A. **Organization of Regulations.** This Code consists of six parts:

1. Part I: General Provisions
2. Part II: Base and Overlay Districts
3. Part III: Regulations Applying to Some or All Districts
4. Part IV: Land Divisions
5. Part V: Administration and Permits
6. Part VI: General Terms and Definitions

B. **Types of Regulations.** This Code contains five types of regulations controlling the use and development of property:

1. **Use Regulations.** These regulations specify land uses permitted, conditionally permitted, or specifically prohibited in each zoning district, and include special requirements, if any, applicable to specific uses. Use regulations for base zoning districts and for overlay districts are in Part II of this Code. Certain regulations that are applicable in some or all districts, and performance standards which govern special uses, are in Part III.
2. **Development Standards.** These regulations control the height, bulk, location, and appearance of structures. Development regulations for base zoning districts and for overlay districts are in Part II of this Code. Certain development regulations that are applicable to some or all districts are in Part III. These include regulations for specific uses, development and site regulations, performance standards, parking, and signage.
3. **Land Divisions.** Also referred to as Subdivisions Regulations, these regulations control the division of land and specify the design, improvement, and survey data of subdivisions as well as the procedures to be followed to secure final approval for subdivision maps. Subdivision regulations are in Part IV.
4. **Administrative Regulations.** These regulations contain detailed procedures for the administration of this Code, and include common procedures, processes, and standards for discretionary entitlement applications and other permits. Administrative regulations are in Part V.
5. **General Terms and Use Classifications.** Part VI provides definitions and articulates use classifications and terms and definitions used in this Code.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-104. APPLICABILITY.

A. **General Rules for Applicability of Development Code Regulations.**

1. **Applicability to Property.** This Development Code shall apply, to the extent permitted by State and Federal law, to all private property within the corporate limits of the City of Fresno, including all uses, structures, and land owned by any person, firm, corporation, or organization.

2. **Compliance with Regulations and Uses Expressly Prohibited.** No land shall be used, and no structure shall be constructed, occupied, enlarged, altered, demolished, or moved in any zoning district, except in accordance with the provisions of this Code. Specific uses of land, buildings, and structures listed as prohibited in any zoning district are hereby declared to be detrimental to the public health, safety, and welfare. The enumeration of prohibited uses shall not by implication enlarge the scope of permitted uses; they are for purposes of clarity only. A proposed use within a zoning district must expressly be listed as a permitted use per the applicable base or overlay district, or determined to be such through the determination of the Director, in order to be authorized under the Development Code.

3. Conflict of Standards. If there are found to be internal conflicts within this Code, the applicable standard shall be determined by the Review Authority.

B. **Relation to Other Regulations.**

1. **Permit Streamlining Act.** It is the intent of this Code to be consistent with the requirements of Government Code Section 65920 et seq. (the Permit Streamlining Act) and legislative judgments.

2. **Relation to Prior Ordinance.** The provisions of this Code supersede all prior Zoning Ordinances and Development Codes codified in the Fresno Municipal Code and any amendments. No provision of this Code shall validate any land use or structure established, constructed, or maintained in violation of the prior Zoning Ordinance or Zoning Map, unless such validation is specifically authorized by this Code and is in conformance with all other applicable regulations.

3. **Application During Local Emergency.** During a disaster or emergency declared and confirmed under Chapter 2, Article 5, Emergency Services Ordinance of the Fresno Municipal Code, a deviation from the provisions of the Development Code may be allowed. The City Council may also authorize a deviation from the Development Code during a disaster or emergency by resolution.

4. **Priority of Plans.**

   a. In the event of a conflict between this Code and any operative plan, or between two operative plans, the conflict shall be resolved in the following order:

      (a) Fresno County Airport Land Use Compatibility Plan (as may be amended) adopted by the Fresno County Airport Land Use Commission pursuant to California Public Utilities Code Sections 21670-21679.5

(b) Adopted Design Guidelines

(c) Development Code

(d) General Plan

(e) Specific Plan

(f) Concept Plan

(g) Community Plan

(h) Neighborhood Plan

(i) Redevelopment Agency Guidelines

b. To maintain and improve the consistency between plans, the adoption or amendment of a plan shall be accompanied by corresponding amendments to the General Plan and other plans which affect the same geographic area.

C. **Projects Approved Prior to the Adoption of this Code.**

1. Any building or structure for which a Building Permit has been issued may be completed and used in accordance with the plans, specifications, and permits on which said Building Permit was granted, provided at least one inspection has been requested and posted for the primary structure on the site where the permit is issued and provided construction is diligently pursued and completed within six months of permit issuance. No extensions of time except as provided for in the Building Code shall be granted for commencement of construction, unless the applicant has secured an allowed permit extension from the Development and Resource Management (DARM) Department.

2. Any previously approved permit, entitlement, or subdivision map shall be honored, unless it expires.

D. **Pending Projects.** Planning permit applications that are subject to the Permit Streamlining Act, that have been accepted by the City as complete within the meaning of the Permit Streamlining Act prior to the effective date of the Development Code, and which do not require a plan amendment, rezone, or other legislative decision, shall be subject to the Development Code requirements in effect as of the date the application was deemed complete, unless the applicant chooses to use the updated provisions of the Development Code in their entirety.

E. **Special Period for Text Amendments.** A member of the public, the administration, or a Councilmember may return to Council within a special 180 day period with a text amendment to address something that may have been missed or to address an unforeseen consequence of adoption of this Code, without payment of fee. The 180-day period shall commence from the effective date of 1-3-2016.

F. **Designated Historic Properties.** Any building or structure, including signs, that are identified and designated as a Historic Resource pursuant to the Historic Preservation Ordinance, may, at the discretion of the Review Authority and upon advice from the City

Historic Preservation Specialist, be exempted from any and all property development standards of this Code, with the exception of those rules and regulations imposed in relation to an airport plan.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, §§ 1, 44, eff. 10-21-16; Am. Ord. 2019-030, § 1, eff. 10-31-19).

SEC. 15-105. SEVERABILITY.

If any section, subsection, paragraph, sentence, clause, or phrase of this Code is for any reason held to be later declared invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Code. The City Council hereby declares that it would have passed this Code, and each article, section, subsection, sentence, clause, and phrase thereof, regardless of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared invalid or unconstitutional.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-106. FEES.

The Council shall establish by resolution, and may amend and revise from time to time, the schedule of fees for processing the discretionary entitlement applications and other permits authorized or required by this Development Code. All fees shall be paid at the time an application is filed, and no processing shall commence until the fees are paid in full.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-107. DISTRICTS ESTABLISHED.

The city shall be classified into districts or zones, the designation and regulation of which are set forth in this Code and as follows.

A. **Base Districts.** Base districts into which the city is divided are established as shown in Table 15-107-A, Base Districts.

Table 15-107-A: Base Districts

Short Name/Map Symbol	*Full Name*
Buffer (B) District	
B	Buffer
Residential Single-Unit (RS) Districts	
RE	Residential Estate
RS-1	Residential Single-Unit, Extremely Low Density
RS-2	Residential Single-Unit, Very Low Density
RS-3	Residential Single-Unit, Low Density
RS-4	Residential Single-Unit, Medium Low Density
RS-5	Residential Single-Unit, Medium Density

Table 15-107-A: Base Districts	
Short Name/Map Symbol	*Full Name*
Residential Multi-Unit (RM) Districts	
RM-1	Residential Multi-Unit, Medium High Density
RM-2	Residential Multi-Unit, Urban Neighborhood
RM-3	Residential Multi-Unit, High Density
RM-MH	Mobile Home Park
Mixed-Use (MX) Districts	
NMX	Neighborhood Mixed-Use
CMX	Corridor/Center Mixed-Use
RMX	Regional Mixed-Use
Commercial (C) Districts	
CMS	Commercial - Main Street
CC	Commercial - Community
CR	Commercial - Regional
CG	Commercial - General
CH	Commercial - Highway and Auto
CRC	Commercial - Recreation
Employment (E) Districts	
O	Office
BP	Business Park
RBP	Regional Business Park
IL	Industrial - Light
IH	Industrial - Heavy
Public and Semi-Public (PSP) Districts	
OS	Open Space
PR	Parks and Recreation
PI	Public and Institutional
Downtown (DT) Districts	
DTN	Downtown - Neighborhood
DTG	Downtown - General
DTC	Downtown - Core

B. **Overlay Districts.** Overlay Districts, one or more of which may be combined with a Base District, are established as shown in Table 15-107-B, Overlay Districts.

Table 15-107-B: Overlay Districts	
Short Name/Map Symbol	*Full Name*
BL	Bluff Protection
EA	Expressway Area
RM	Residential Modifying

Table 15-107-B: Overlay Districts	
Short Name/Map Symbol	*Full Name*
ANX	Annexed Rural Residential Transitional Overlay
EQ	Equine
M	Mining
AH	Apartment House
UC	Urban Campus
NR	Neighborhood Revitalization
KB	Kearney Boulevard Historic Corridor
CA	California Avenue Transit Corridor

C. References to Classes of Base Districts. Throughout this Code, the following references apply:

1. "B District" or "Buffer District" means the following district: B.
2. "R District" or "Residential District" means one or more of the following districts: RE, RS-1, RS-2, RS-3, RS-4, RS-5, RM-1, RM-2, RM-3, RM-MH.
3. "RE District" or "Residential Estate District" means the following district: RE.
4. "RS District" or "Residential Single-Unit District" means one or more of the following districts: RE, RS-1, RS-2, RS-3, RS-4, RS-5.
5. "RM District" or "Residential Multi-Unit District" means one or more of the following districts: RM-1, RM-2, RM-3.
6. "RM-MH District" or "Residential-Multi-Unit District-Mobile Home Park" means the following district: RM-MH.
7. "Non-Residential District" means any base zoning district except the RE, RS, RM, and RM-MH districts.
8. "MX District" or "Mixed-Use District" means one or more of the following districts: NMX, CMX, or RMX.
9. "C District" or "Commercial District" means one or more of the following districts: CMS, CC, CR, CG, CH, CRC.
10. "E District" or "Employment District" means one or more of the following: O, BP, RBP, IL, IH.
11. "Industrial District" means one or more of the following districts: IL, IH.
12. "PSP District" or "Public and Semi-Public District" means one or more of the following districts: OS, PR, PI.
13. "Downtown District" or "DT District" means one or more of the following districts: DTN, DTG, DTC.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 2, eff. 10-21-16; Am. Ord. 2018-25, § 1, eff. 6-11-18; Am. Ord. 2018-66, § 1, eff. 1-18-19; Am. Ord. 2025-024, §§ 1, 2, eff. 7-27-25).

SEC. 15-108. OFFICIAL ZONING MAP AND DISTRICT BOUNDARIES.

The boundaries of the zoning districts established by this Code are not included in this Code, but are shown on the Official Zoning Map. The Official Zoning Map, together with all legends, symbols, notations, references, zoning district boundaries, map symbols, and other information on the maps, adopted by the Council, are hereby incorporated into this Code by reference, together with any amendments previously or hereafter adopted, as though they were fully included here.

A. **Application of Pre-Annexation Zoning.** The City may apply pre-annexation zoning to unincorporated property located within the Sphere of Influence consistent with the Fresno General Plan. The pre-annexation zoning process shall comply with the provisions of Article 61, Concept Plans, Pre-Zoning, and Annexations. The zoning provisions and requirements so established shall become applicable at the same time that the annexation of such territory becomes effective, subject to compliance with any conditions of pre-annexation zoning requirements imposed by the City.

B. **Uncertainty of Boundaries.** If an uncertainty exists as to the boundaries of any district shown on the Official Zoning Map, the following rules shall apply:

1. Boundaries indicated as approximately following the centerlines of alleys, lanes, streets, highways, streams, or railroads shall be construed to follow such centerlines.

2. Boundaries indicated as approximately following lot lines, City Limits, or extraterritorial boundary lines shall be construed as following such lines, limits, or boundaries.

3. In the case of un-subdivided property or where a district boundary divides a lot and no dimensions are indicated, the following shall apply.

   a. Lots Greater than One Acre. The location of such boundary shall be determined by the use of the scale appearing on the Official Zoning Map.

   b. Lots Less than One Acre. The lot shall be deemed to be included within the more restrictive zone.

4. Where any public street or alley is officially vacated or abandoned, the regulations applicable to each parcel of abutting property shall apply to that portion of such street or alley added thereto by virtue of such vacation or abandonment.

5. Where any private right-of-way or easement of any railroad, railway, transportation, or public utility company is vacated or abandoned and said property is unclassified on the Official Zone Map the regulations applicable to each parcel of abutting property shall apply to that portion of such private right-of-way or easement.

6. In the case of any remaining uncertainty, the Director shall determine the location of boundaries.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 1, eff. 7-30-17).

ARTICLE 2 RULES FOR CONSTRUCTION OF LANGUAGE

Sec. 15-201. Purpose.
Sec. 15-202. Rules for Construction of Language.
Sec. 15-203. Rules of Interpretation.

SEC. 15-201. PURPOSE.

The purpose of this article is to provide precision in the interpretation of the Development Code. The meaning and construction of words and phrases defined in this article apply throughout this Development Code, except where the context indicates a different meaning. (Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-202. RULES FOR CONSTRUCTION OF LANGUAGE.

In interpreting the various provisions of this Development Code, the following rules of construction shall apply:

A. The particular controls the general.

B. Unless the context clearly indicates the contrary, the following conjunctions shall be interpreted as follows:

1. "And" indicates that all connected words or provisions shall apply.

2. "And/or" indicates that the connected words or provisions may apply singularly or in any combination.

3. "Or" indicates that the connected words or provisions may apply singularly or in any combination.

4. "Either … or" indicates that the connected words or provisions shall apply singularly, but not in combination.

C. In case of conflict between the text and a diagram or graphic, the text controls.

D. All references to departments, committees, commissions, or boards are to those of the City of Fresno, unless otherwise indicated.

E. All references to public officials are to those of the City of Fresno, and include designees of such officials, unless otherwise indicated.

1. All references to the Director shall mean the Director of Development and Resource Management, unless otherwise specified.

F. All references to days are to calendar days, unless otherwise indicated. If a deadline falls on a weekend or holiday, or any other day on which the City offices are closed, it shall be extended to the next working day. The end of a time period shall be the close of business on the last day of the period.

G. The words "shall," "will," "must," and "is to" are always mandatory and not discretionary. The words "should" or "may" are permissive.

H. The present tense includes the past and future tenses, and the future tense includes the past.

I. The singular number includes the plural, and the plural includes the singular.

J. Sections and section headings contained herein shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, or intent of any section.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-203. RULES OF INTERPRETATION.

In the absence of an ordinance or resolution approved by the City Council, the Director, upon consultation with the City Attorney's Office, shall make the interpretation for any definition not expressly identified in, or provide clarification and interpretation of, this Development Code.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 3 RULES OF MEASUREMENT

Sec. 15-301. Purpose.
Sec. 15-302. General Provisions.
Sec. 15-303. Fractions.
Sec. 15-304. Measuring Distances.
Sec. 15-305. Measuring Height.
Sec. 15-306. Measuring Lot Width and Depth.
Sec. 15-307. Determining Average Slope.
Sec. 15-308. Determining Floor Area.
Sec. 15-309. Determining Floor Area Ratio.
Sec. 15-310. Determining Residential Density.
Sec. 15-311. Determining Lot Coverage.
Sec. 15-312. Determining Lot Frontage.
Sec. 15-313. Determining Setbacks and Yards.
Sec. 15-314. Measuring Signs.
Sec. 15-315. Measuring Parking Lot Landscaping.
Sec. 15-316. Measuring Pedestrian Clearance.
Sec. 15-317. Determining Frontage Coverage.

SEC. 15-301. PURPOSE.

The purpose of this article is to explain how various measurements referred to in this Code are to be calculated.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-302. GENERAL PROVISIONS.

For all calculations, the applicant shall be responsible for supplying drawings that illustrate the measurements that apply to a project. These drawings shall be drawn to scale and of sufficient detail to allow easy verification upon inspection by the Director.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-303. FRACTIONS.

Whenever this Development Code requires consideration of distances, parking spaces, dwelling units or other aspects of development or the physical environment expressed in numerical quantities, and the result of a calculation contains a fraction of a whole number, the results will be rounded as follows:

A. **General Rounding.** Fractions of one-half (0.5) or greater shall be rounded up to the nearest whole number and fractions of less than one-half (0.5) shall be rounded down to the nearest whole number, except as otherwise provided.

B. **Residential Rounding.** The maximum number of residential units shall not exceed the maximums per the base district unless excepted as described in Subsection C below.

C. **Exception for State Affordable Housing Density Bonus.** For projects eligible for bonus density pursuant to Government Code Section 65915 or any successor statute, and Article 22, Affordable Housing Density Bonus, any fractional number of permitted bonus density units shall be rounded up to the next whole number.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-304. MEASURING DISTANCES.

A. **Measurements are Shortest Distance.** When measuring a required distance, such as the minimum distance between a structure and a lot line, the measurement is made at the closest or shortest distance between the two objects.

B. **Distances are Measured Horizontally.** When determining distances for setbacks and structure dimensions, all distances are measured along a horizontal plane from the appropriate line, edge of building, structure, storage area, parking area, or other object. These distances are not measured by following the topography or slope of the land.

C. **Measurements Involving a Structure.** Measurements involving a structure are made to the closest support wall of the structure. Structures or portions of structures that are entirely underground are not included in measuring required distances.

D. **Measurement of Vehicle Stacking or Travel Areas.** Measurement of a minimum travel distance for vehicles, such as garage entrance setbacks and stacking lane distances, are measured down the center of the vehicle travel area. For example, curving driveways and travel lanes are measured along the center arc of the driveway or traffic lane.

E. **Measuring Radius.** When a specified land use is required to be located a minimum distance from another land use, the minimum distance is measured in a straight line from all points along the lot line of the subject project.

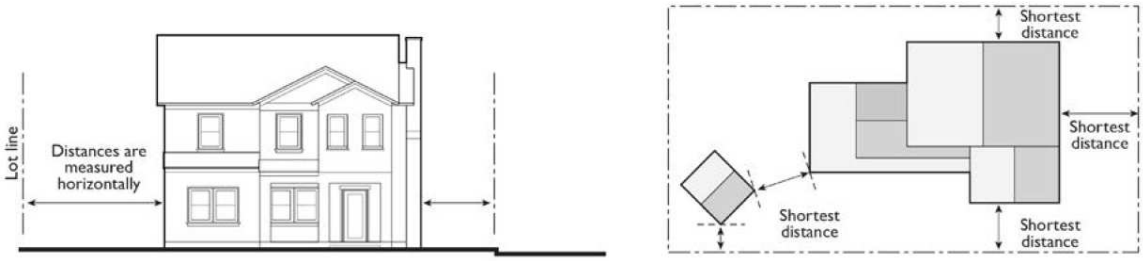

FIGURE 15-304: MEASURING DISTANCES

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-305. MEASURING HEIGHT.

A. **Measuring Building Height.** Building height is measured from the average level of the highest and lowest points where the vertical plane of the exterior walls would touch the natural grade level of the site to the highest point on the roof.

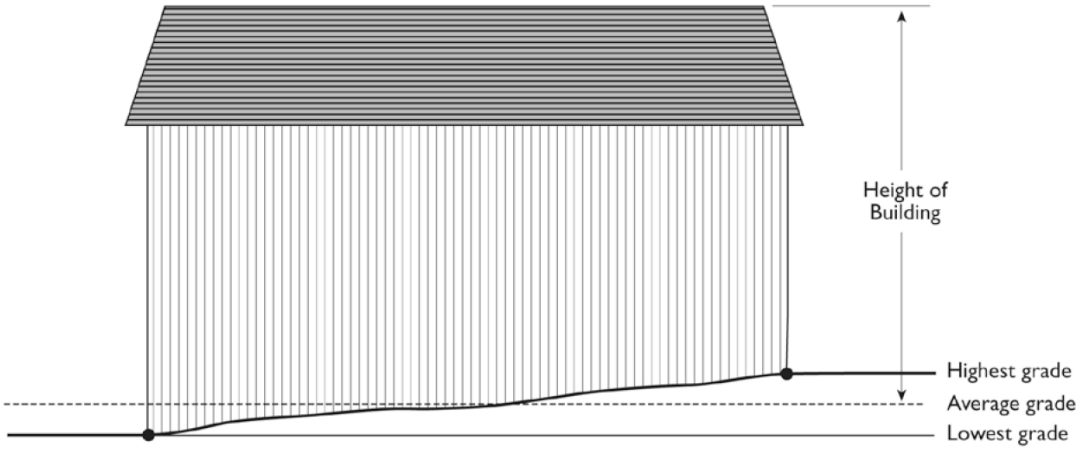

FIGURE 15-305-A: MEASURING BUILDING HEIGHT

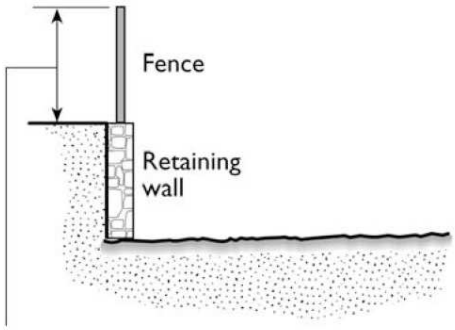
B. **Measuring Height of Other Structures.** The height of other structures such as fences is the vertical distance from the ground level immediately under the structure to the top of the structure. Special measurement provisions are also provided below.

1. **Measuring the Height of Fences on Retaining Walls.** The height of a fence that is on top of a retaining wall is measured from the ground level on the highest side of the fence and wall.



Fence height is measured from the ground level on the highest side of the fence.

FIGURE 15-305-B.1: MEASURING HEIGHT OF FENCES ON RETAINING WALLS

2. **Measuring the Height of Decks.** Deck height is determined by measuring from the natural grade of the ground to the top of the floor of the deck.

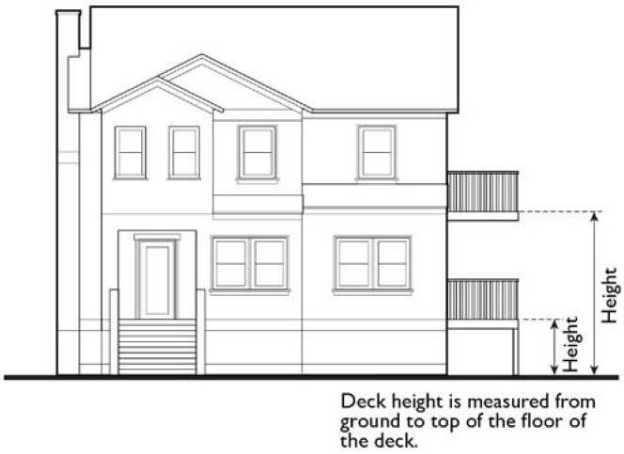


FIGURE 15-305-B.2: MEASURING HEIGHT OF DECKS

C. **Measuring the Number of Stories in a Building.** In measuring the height of a building in stories, a balcony or mezzanine shall be counted as a full story if its floor area exceeds one-third of the total area of the nearest full floor directly below it or if it is enclosed on more than three sides, unless the Building Code provides for other balcony or mezzanine definitions based on building construction type and other factors.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-306. MEASURING LOT WIDTH AND DEPTH.

A. **Lot Width.** Lot width is the horizontal distance between the side lot lines, measured at right angles to the lot depth at a point midway between the front and rear lot lines.

B. **Lot Depth.** Lot depth is measured along an imaginary straight line drawn from the midpoint of the front property line of the lot to the midpoint of the rear property line or to the most distant point on any other lot line where there is no rear lot line. Should the property line encroach into a street, the lot depth shall be measured from the front property line, after any dedications and/or street easements.

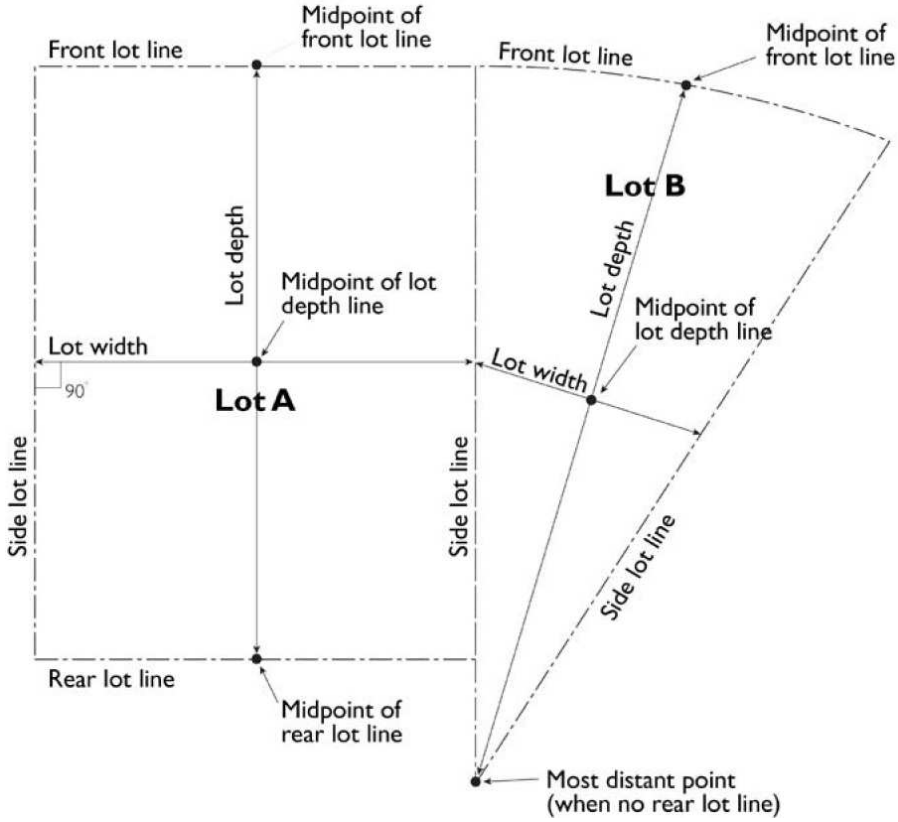

FIGURE 15-306: MEASURING LOT WIDTH AND DEPTH

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-307. DETERMINING AVERAGE SLOPE.

The average slope of a parcel is calculated using the following formula: S = 100(I)(L)/A, where:

S = Average slope (in percent)

I = Contour interval (in feet)

L = Total length of all contour lines on the parcel (in feet)

A = Area of subject parcel (in square feet)

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-308. DETERMINING FLOOR AREA.

The floor area of a building is the sum of the gross horizontal areas of all floors of a building or other enclosed structure.

A. **Included in Floor Area.** Floor area includes, but is not limited to, habitable (as defined in the California Building Code) basements and cellars that are below the

roof and within the outer surface of the main walls of principal or accessory buildings or the centerlines of party walls separating such buildings or portions thereof or within lines drawn parallel to and two feet within the roof line of any building without walls. In the case of a multi-story building that has covered or enclosed stairways, stairwells or elevator shafts, the horizontal area of such features shall be counted only once at the floor level of their greatest area of horizontal extent.

B. **Excluded from Floor Area.** Floor area does not include mechanical, electrical, and communication equipment rooms that do not exceed two percent of the building's gross floor area; bay windows or other architectural projections where the vertical distance between the lowest surface of the projection and the finished floor is 30 inches or greater; areas that qualify as usable open space; and areas used for off-street parking spaces or loading spaces, driveways, ramps between floors of a multi-level parking garage, and maneuvering aisles that are located below the finished grade of the property.

C. **Non-Residential Uses.** For non-residential uses, gross floor area includes pedestrian access interior walkways or corridors, interior courtyards, walkways, paseos, or corridors covered by a roof or skylight. Non-residential gross floor area does not include arcades, porticoes, and similar open areas that are located at or near street level and are accessible to the general public but are not designed or used as sales, display, storage, service, or production areas.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-309. DETERMINING FLOOR AREA RATIO.

Floor area ratio (FAR) is the measure of the intensity of non-residential development. It is the ratio of the non-residential floor area, excluding the areas described below, of all principal and accessory buildings on a site to the site area. To calculate FAR, non-residential floor area is divided by site area, and typically expressed as a decimal. For example, if the non-residential floor area of all buildings on a site totals 20,000 square feet, and the site area is 10,000 square feet, the FAR is expressed as 2.0.

$$\frac{\text{gross non–residential floor area of all buildings on a site}}{\text{total site area}} = \text{floor area ratio (FAR)}$$

A. **Excluded from Floor Area in Calculating FAR.**

1. **Basements.** Usable basements and cellars below finished grade.

2. **Parking.** Surface parking lots, subterranean parking garages, tuck-under parking areas, above ground parking garages, and other such facilities use for automobile parking.

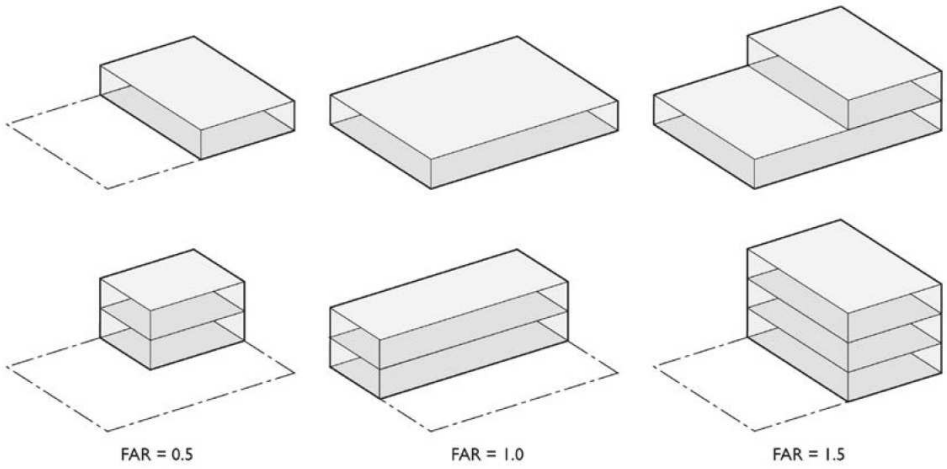

FIGURE 15-309: DETERMINING FLOOR AREA RATIO

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-310. DETERMINING RESIDENTIAL DENSITY.

Residential density measures the number of dwellings on a given unit of land. Residential density shall be calculated as follows:

A. **Residential Single-Unit Districts.** In Residential Single-Unit districts, residential density shall be measured as follows:

1. **Large Sites.** For sites with a pre-subdivided area greater than the Maximum Lot Size for the applicable District, residential density shall be measured in dwelling units per net acre of the subdivision. For example, if a project proposes 150 homes on a site with 30 net acres, it has a residential density of five dwelling units per acre (or five du/ac). The net acreage shall be calculated as the land area of a site remaining after dedication of all areas for major streets, schools, regional trails, certified wetlands or floodplains, and land underneath electric transmission lines. Second/Accessory Dwelling Units (ADUs) shall be excluded from this calculation.

2. **Small Sites.** For sites with a pre-subdivided area equal to or less than the Maximum Lot Size for the applicable District, residential density shall be measured in dwelling units per subdivided residential lot. Second/Accessory Dwelling Units (ADUs) shall be excluded from this calculation.

B. **All Other Districts.** In all other districts, residential density shall be measured in dwelling units per acre of the project's site area. For example, if a project proposes 15 dwellings on a three-acre site, it has a residential density of five dwelling units per acre (or five du/ac). Trails and natural features shall be excluded from this

calculation. For mixed-use projects, the acreage of the entire project site shall be included in the calculation, including portions of the project site which feature only non-residential uses.

C. **Density Transfers.** The number of units per acre prescribed in the applicable plans for an existing or proposed zone district shall not be transferred to another existing or proposed zone district, unless a transfer is approved through the processing of a Planned Development Permit which includes all zone districts involved in the proposed transfer.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 2, eff. 7-30-17; Am. Ord. 2018-66, § 2, eff. 1-18-19; Am. Ord. 2025-024, § 3, eff. 7-27-25).

SEC. 15-311. DETERMINING LOT COVERAGE.

Lot coverage is the ratio of the total footprint area of all structures on a lot to the net lot area, typically expressed as a percentage. The footprints of all principal and accessory structures, including garages, and carports shall be included in the lot coverage calculation, unless otherwise noted. The following structures shall be excluded from the calculation:

A. Uncovered decks, patios, porches, landings, balconies, and unenclosed stairways;

B. Eaves and roof overhangs;

C. Trellises and similar structures;

D. Outdoor swimming pools and hot tubs; and

E. Up to one non-habitable accessory structure of less than 120 square feet in floor area and seven feet in height. Should there be multiple structures that do not exceed 120 square feet in floor area, only one such structure will be omitted for calculating the Lot Coverage.

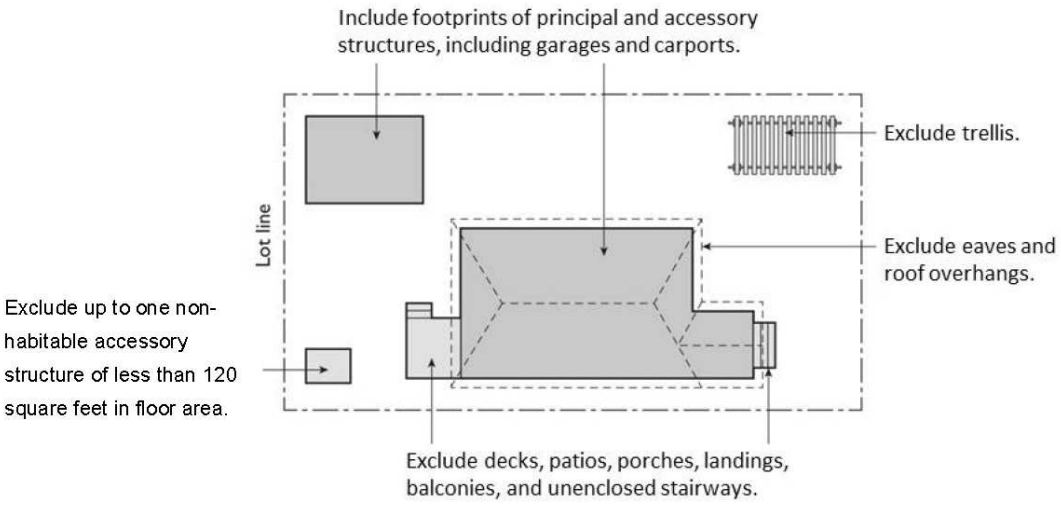

FIGURE 15-311: DETERMINING LOT COVERAGE

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, § 2, eff. 6-11-18).

SEC. 15-312. DETERMINING LOT FRONTAGE.

A. **Corner Lot.** The front of a lot shall be determined as follows:

1. **Downtown Districts:** The frontage abutting the street with the highest Activity Classification per Section 15-1501-C shall be the front. If all adjacent streets have the same Activity Classification, then the street frontage with the narrowest dimension shall be the front.
2. **All Other Districts:** The frontage abutting the street with the highest classification per the General Plan Circulation Map. If all adjacent streets have the same classification, then the street frontage with the narrowest dimension shall be the front.
3. **Exception:** The Review Authority shall have the discretion to designate the front of a lot in a different manner if item 1 or 2 above would cause an undesirable visual or functional disruption.

B. **Through Lot (Double Frontage Lot).** The front yard borders the street primarily used as frontage by neighboring lots.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 3, eff. 7-30-17).

SEC. 15-313. DETERMINING SETBACKS AND YARDS.

A setback line defining a required yard is parallel to and at the specified distance from the corresponding front, side, or rear property line. For regulations pertaining to projections or encroachments into required yards, refer to Section 15-2014.

A. **Front Setbacks.** Front setbacks shall be measured from the back of the sidewalk (including instances where the back of the sidewalk lies within the project parcel) to

the portion of the structure that is closest to the front of the lot. In the absence of a sidewalk, the minimum front setback shall be measured from the back of the curb. In the absence of a sidewalk and curb, minimum front setbacks shall be measured from the front property line.

B. **Garage Setbacks.** In Residential Single-Unit Districts setbacks for garages shall be regulated and calculated separately from habitable space. However, the measurement to determine the garage setback shall be made in the same manner as Subsection A above.

C. **Side Setbacks.** Side setbacks on interior lot lines shall be measured from the property line. When the side of the lot abuts a street, the measurement to determine the setback shall be made in the same manner as Subsection A above.

D. **Yards on Alleys.** The following special regulations for determining setbacks apply when a lot abuts an alley.

1. If a side lot line abuts an alley, the yard shall be considered an interior side yard rather than a corner side yard.

2. In computing the minimum yard for any lot where such yard abuts an alley, no part of the width of the alley may be considered as part of the required yard.

E. **Yards Abutting Official Plan Lines.** If a property abuts an Official Plan Line, the required setback shall be established from the Official Plan Line or the property line, whichever results in a greater setback.

F. Regardless of the stated setback for a property, in no instance shall a building be allowed to encroach within an easement unless an easement encroachment has been authorized and a covenant recorded for that purpose.

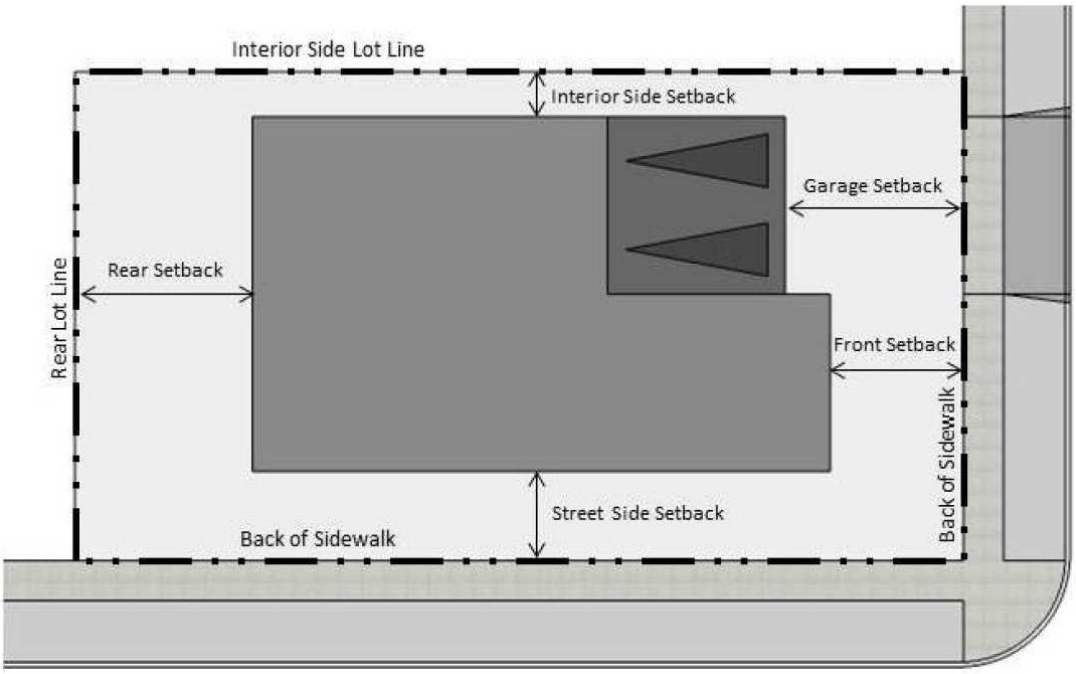

FIGURE 15-313: DETERMINING SETBACKS (YARDS)

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 3, eff. 10-21-16; Am. Ord. 2025-024, § 4, eff. 7-27-25).

SEC. 15-314. MEASURING SIGNS.

The height of signs is measured in the same method as the height of other structures (See 15-305-B). Calculation of sign area is described in Article 26, Signs.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-315. MEASURING PARKING LOT LANDSCAPING.

For the purpose of calculating required parking lot landscaping, parking lot areas are deemed to include parking and loading spaces as well as aisles, vehicle entry and exit areas, and any adjacent paved areas. The parking lot area does not include enclosed vehicle storage areas, carports, or parking structures.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-316. MEASURING PEDESTRIAN CLEARANCE.

The minimum distance shall be measured from the edge of any table, chair, bench, planter, or other appurtenance used as part of an outdoor dining area to any obstruction within and/or the edge of the pedestrian area (e.g., sidewalks).
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-317. DETERMINING FRONTAGE COVERAGE.

Frontage coverage is the portion of the primary enclosed ground floor linear building façade that is located within the area between the minimum and maximum front setback. The following exceptions shall apply:

A. Sites with frontage on multiple streets may not be required to meet the frontage coverage requirement along the streets with the lowest functional classification or the least visual prominence, at the discretion of the Review Authority, except in districts in which a minimum frontage coverage for the side street is specified.

B. Required side and rear setbacks and residential transition setbacks shall be excluded from this calculation.

C. Public plazas, parks, pedestrian passages, alleys, and cross streets (public or private) shall be excluded from this calculation.

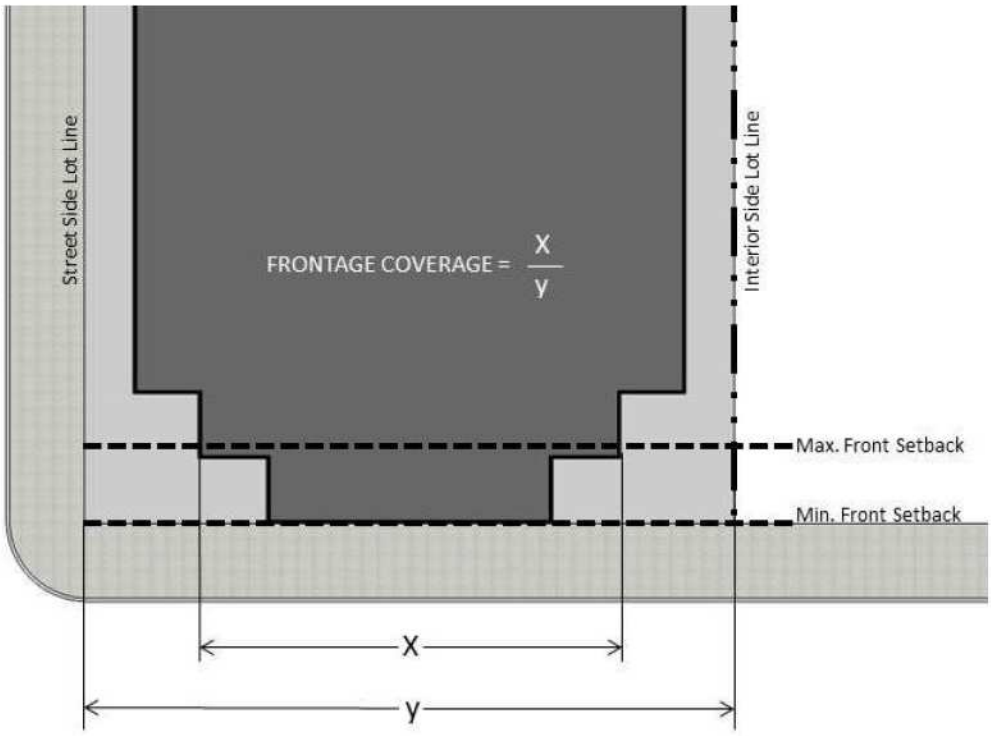

FIGURE 15-317: DETERMINING FRONTAGE COVERAGE

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-43, § 1, eff. 12-9-16).

ARTICLE 4 NON-CONFORMING USES, STRUCTURES, SITE FEATURES, AND LOTS

Sec. 15-401. Purpose.
Sec. 15-402. Determination of Non-Conforming Status.
Sec. 15-403. Illegal Non-Conforming Uses, Structures, and Site Features.
Sec. 15-404. Legal Non-Conforming Uses.
Sec. 15-405. Legal Non-Conforming Structures and Site Features.
Sec. 15-406. Non-Conforming Lots.

Sec. 15-401. Purpose.

The purpose of this article is to permit continued utility and economic viability of uses, structures, site features, and lots that were created lawfully prior to the adoption of this Code, but do not conform to its provisions, while preventing new non-conformities.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-402. DETERMINATION OF NON-CONFORMING STATUS.

A use, structure, site feature, or lot shall be considered non-conforming if it was created prior to the adoption of this Code, or any amendment thereto, and does not conform to its provisions. The Director shall evaluate all available documentation to determine that non-conforming uses, structures, and site features shall have Legal Non-Conforming status or Illegal Non-Conforming status as follows:

A. **Legal Non-Conforming Status.** A use, structure, or site feature shall be designated as having Legal Non-Conforming status if it was lawfully established under the regulations of the jurisdiction in which it was located at the time of its establishment and has continuously remained in compliance with all terms and conditions imposed upon the use, structure, or site feature upon its establishment or imposed upon it any time thereafter, based on evidence provided by the property owner, tenant, or applicant. Legal Non-Conforming status shall also be assigned if non-conformities were created by a public improvement, such as a street widening project.

B. **Illegal Non-Conforming Status.** A use, structure, site feature, or lot shall be designated as having Illegal Non-Conforming status if it was not lawfully established under the regulations of the jurisdiction in which it was located at the time of its establishment or has not continuously remained in compliance with all terms and conditions imposed upon the use, structure, or site feature upon its establishment or imposed upon it any time thereafter.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-403. ILLEGAL NON-CONFORMING USES, STRUCTURES, AND SITE FEATURES.

Nothing in this article shall be deemed to allow the use, change in use, repair, alteration, expansion, enlargement, or reconstruction of an Illegal Non-Conforming use, structure, or site feature. Any such Illegal Non-Conforming use shall be discontinued and any such Illegal Non-Conforming structure or site feature shall be removed.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-404. LEGAL NON-CONFORMING USES.

A. **Continuation of Legal Non-Conforming Uses.** Except as otherwise provided in this article, any Legal Non-Conforming use may be continued indefinitely. No Illegal Non-Conforming use shall be continued unless such use subsequently comes into conformity with the applicable provisions of this Code.

B. **Expansion of Legal Non-Conforming Uses.** A Legal Non-Conforming use shall not be expanded unless a Conditional Use Permit is granted for such expansion. Prior to issuance of a Conditional Use Permit, it must be determined that at least one of the following three circumstances exists:

1. The resultant use and/or project design will reduce current adverse impacts on adjacent properties and/or on the general public;
2. The resultant use and/or project design will aid in the preservation of a historic resource; or
3. The expansion of the use or the enlargement of a structure housing a non-conforming use is necessary to comply with a requirement imposed by law for the operation of the particular use, including, but not limited to, regulations for disabled access or seismic retrofit.

C. **Change of Legal Non-Conforming Use.** A Legal Non-Conforming use shall not be changed to, or substituted for, another non-conforming use unless a Conditional Use Permit is granted for such change or substitution. To grant such a Conditional Use Permit the Director must first find that, in addition to the findings required by Section 15-404-B, the resultant use will be more consistent with the uses permitted in the district than the former use.

D. **Change of a Legal Non-Conforming Industrial Use.** A Legal Non-Conforming Industrial Use shall not be changed to, or substituted for, another use other than to come into compliance with this Code.

E. **Change to a Conforming Use.** When a Legal Non-Conforming use has been changed to a conforming use, the non-conforming use shall not be re-established thereafter, with the following exception: Within Residential Multi-Unit, Mixed-Use, or Commercial districts, structures which are determined by the Director to have been lawfully constructed as single-unit dwellings may be returned to single-unit use at any time. The Director shall base

such a determination on evidence including building permits, County Assessor's data, building design and appearance, or other records which document that the building was originally constructed as a single-unit home.

F. **Abandonment of Legal Non-Conforming Uses.**

1. **Residential Districts.** A Legal Non-Conforming use shall not be re-established in any structure in a Residential District if such Legal Non-Conforming use has ceased for a consecutive six-month period.

2. **Mixed Use Districts.** A Legal Non-Conforming use shall not be re-established in any structure if such Legal Non-Conforming use has ceased for a consecutive five-year period.

3. **All Other Districts.** A Legal Non-Conforming use shall not be re-established in any structure if such Legal Non-Conforming use has ceased for a consecutive 12-month period within five years of January 3, 2016. Once the five year period from the effective date of this Code has passed, a Legal Non-Conforming Use shall not be re-established in any structure in a Non-Residential District if such Legal Non-Conforming Use has ceased for a consecutive period of 90 days or more.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 4, eff. 10-21-16; Am. Ord. 2018-25, § 3, eff. 6-11-18; Am. Ord. 2025-024, § 5, eff. 7-27-25).

SEC. 15-405. LEGAL NON-CONFORMING STRUCTURES AND SITE FEATURES.

A. **Applicability.** This section shall apply to all Legal Non-Conforming buildings, fences, parking, landscaping, and other such physical improvements to a lot, with the exception of non-conforming signs, which are regulated by Article 26.

B. **Continuation of Existing Structures and Site Features.** Except as otherwise stated in this article, any Legal Non-Conforming structure or site feature may be continued indefinitely. Any Illegal Non-Conforming structure or site feature shall be removed or modified to conform to the provisions of this Code.

C. **Completion of Structures or Site Features.** The provisions of this article shall not be construed to preclude the completion of any structure or site feature upon which lawful construction has begun prior to the time of enactment of this Code or any amendment thereto, or prior to the time of inclusion in the city.

D. **Repair and Maintenance of Non-Conforming Structures or Site Features.**

1. **Maintenance.** A Legal Non-Conforming structure or site feature may be maintained as necessary to keep it in good working order.

2. **Repairs and Alterations.** Notwithstanding the provisions of Section 15-404-B, any Legal Non-Conforming structure or site feature may be repaired and/or altered, provided that such repairs and alterations do not increase any non-conformity.

3. **Repair of Unsafe Structures or Site Feature.** The provisions of this article shall not be construed to preclude the repair or alteration of any part of any structure or

site feature declared to be unsafe by the Building Official when such repairs or alterations are for the purpose of restoring the structure or site feature to a safe condition.

E. **Enlargement of Non-Conforming Structures.**

1. **Enlargement of Single-Unit Residential Structures.** A legal non-conforming single-unit use or structure in a Non-Residential District may be enlarged, provided the addition does not reduce the number of parking spaces, alter the size of parking spaces, or the location and size of driveways; and the addition does not change the structure from single-unit use to multi-unit use. Such an expansion shall conform to the property development standards of either the Base District (and Overlay Districts, if applicable) for the site, or a Residential District which is appropriate to the size and configuration of the site at the discretion of the Review Authority.

2. **Enlargement of Other Legal Non-Conforming Structures and Site Features.** A legal non-conforming structure or site feature being used for a conforming use may be enlarged or structurally altered if the new portion of the structure or site feature conforms to the regulations of the district in which it is located. If strict conformance with current setback requirements would cause unsightly or impractical site layouts, and a deviation from such requirements shall not cause impacts on neighboring uses, the Review Authority may exempt the enlargement of a legal non-conforming structure or site feature from setback requirements at their discretion. Unaltered portions of such structures or site features will be allowed to remain non-conforming. A Legal Non-Conforming structure or site feature housing or associated with a non-conforming use shall not be enlarged or altered except as put forth in Section 15-404-B.

F. **Replacement of Involuntarily Destroyed or Damaged Non-Conforming Structures or Site Features.** Any Legal Non-Conforming structure or site feature that is destroyed or damaged by fire, flood, explosion, wind, earthquake, war, riot, or other public calamity or act of nature, may be replaced or reconstructed to the same size and extent as before the damage occurred, provided that rebuilding commences not later than one year after destruction, and so long thereafter as the Building Permit remains valid.

G. **Replacement of Voluntarily Demolished, Destroyed, or Damaged Non-Conforming Structures or Site Features.** Any non-conforming structure or site feature which is demolished, destroyed, or damaged by means other than those listed in the Section 15-405-F shall not be reconstructed unless it complies with all provisions of the district in which the structure is located. Exceptions may be given where all of the following circumstances exist:

1. The structure houses a conforming use;

2. The structure or site feature is replaced or reconstructed to the same or a lesser size and extent as the original structure or site feature; and

3. A Conditional Use Permit is granted, and the Director finds, in addition to the findings required by Section 15-404-B, that compliance with current standards is impractical and that the proposed reconstruction will conform to current standards to the greatest extent practical.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, § 4, eff. 6-11-18; Am. Ord. 2025-024, § 6, eff. 7-27-25).

SEC. 15-406. NON-CONFORMING LOTS.

A Non-Conforming lot or parcel may be used for development subject to compliance with all other provisions of this article and other applicable codes. A Non-Conforming lot may not be further reduced in area or dimension, except under the application of eminent domain. (Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 7 RESERVED

PART II: BASE AND OVERLAY DISTRICTS

ARTICLE 8 BUFFER DISTRICT (B)

Sec. 15-801. Purpose.
Sec. 15-802. Use Regulations.
Sec. 15-803. Density And Massing Development Standards.
Sec. 15-804. Additional Development Standards.

SEC. 15-801. PURPOSE.

The Buffer (B) District is intended to separate urban uses from commercial agricultural uses to preserve long-term viable agricultural areas and intensive farming operations in adjacent areas. The Buffer District serves to prevent urban residential and related uses from developing near agricultural operations, and thereby infringing on full operation of farmland of importance. Allowable uses include environmental habitat; water conveyance, retention, and recharge; preservation and preparation of gravel resources; beneficial uses related to permanent water resource facilities; limited agriculture and necessary supportive uses, such as agricultural processing (not including animal processing or rendering, nor uses that have the potential to create obnoxious noise, odor, etc.); and residential uses with 20 acres of land required per residence.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-802. USE REGULATIONS.

A. Table 15-802 prescribes the land use regulations for the Buffer District. The regulations for the district are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

"P" designates permitted uses.

"C" designates uses that are permitted after review and approval of a Conditional Use Permit.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"-" designates uses that are not permitted.

B. Land uses are defined in Article 67, Use Classifications.

C. In cases where a specific land use or activity is not defined, the Director shall assign the land use or activity to a classification that is substantially similar in character per Section 15-5020, Director's Determination.

D. All permitted uses are allowed either alone or in combination with other permitted uses unless otherwise stated in this Code.

E. Use classifications and subclassifications not listed in the table or not found to be substantially similar to the uses below are not permitted.

F. The table also notes additional regulations that apply to various uses. Section numbers in the right hand column refer to other sections of this Code.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-804. ADDITIONAL DEVELOPMENT STANDARDS.

A. Additional Height for Agricultural-Related Structures. The Director may approve Accessory Structures, up to a height of 75 feet, for agricultural-related structures, per the following standards:

1. The Accessory Structure shall be used only for agricultural products.
2. Any request to exceed the 35 foot maximum shall be subject to a flag test to be performed by the applicant, with a member of City staff in attendance.
3. There shall be no advertising on the structure.
4. Sight lines, shadows, and overall aesthetics shall be considered by the Director when over-height structures are proposed.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 9 RESIDENTIAL SINGLE-UNIT DISTRICTS (RS)*

Sec. 15-901. Purpose.
Sec. 15-902. Use Regulations.
Sec. 15-903. Density and Massing Development Standards.
Sec. 15-904. Site Design Development Standards.
Sec. 15-905. Façade Design Development Standards.
Sec. 15-906. Duplex and Multi-Unit Residential Standards.

SEC. 15-901. PURPOSE.

The purposes of the Residential Single-Unit (RS) Districts are to:

A. Provide for a variety of single-unit residences built to urban or suburban standards to suit a spectrum of individual lifestyles and needs, and to ensure availability throughout the city of the range of housing types necessary for all segments of the community, consistent with the General Plan.

B. Enhance the character of the city's residential neighborhoods, while providing new opportunities for the development of a range of housing types throughout the city.

C. Ensure that the scale and design of new development and alterations and additions to existing residences are compatible with the scale, mass, and character of their neighborhoods.

D. Provide for appropriate densities within the ranges established in the General Plan.

E. Protect the quality of the residential environment and secure the health, safety, and general welfare of the residents.

F. Provide sites for neighborhood-serving uses such as parks, family day cares, libraries, and community facilities.

G. Implement and provide appropriate regulations for General Plan classifications of "Low Density Residential," "Medium Low Density Residential," and "Medium Density Residential."

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 9, eff. 7-27-25).

SEC. 15-902. USE REGULATIONS.

A. Table 15-902 prescribes the proposed land use regulations for Residential Single-Unit Districts. The regulations for the districts are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

"P" designates permitted uses.

***Editor's note—**Ord. 2025-024, § 8, effective July 27, 2025, amended the title of Art. 9 to read as herein set out. The former Art. 9 title pertained to Residential Single-Family Districts (RS).

"C" designates uses that are permitted after review and approval of a Conditional Use Permit.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"-" designates uses that are not permitted.

B. Land uses are defined in Article 67, Use Classifications.

C. In cases where a specific land use or activity is not defined, the Director may assign the land use or activity to a classification, should a use be substantially similar in character per Section 15-5020, Director's Determination.

D. All permitted uses are allowed either alone or in combination with other permitted uses unless otherwise stated in this Code.

E. Use classifications and subclassifications not listed in the table or not found to be substantially similar to the uses below are not permitted.

F. The table also notes additional regulations that apply to various uses. Section numbers in the right hand column refer to other sections of this Code.

SEC. 15-903. DENSITY AND MASSING DEVELOPMENT STANDARDS.

Tables 15-903-1 through 15-903-2 prescribe the development standards for the Residential Single-Unit Districts. Additional regulations are denoted in a right hand column. Section numbers in this column refer to other sections of the Code, while individual letters refer to subsections that directly follow the table. The numbers in each illustration below correspond to the "#" column in the associated table. Drawings are for illustrative purposes and are not drawn to scale.

TABLE 15-903-1: LOT AND DENSITY STANDARDS—RESIDENTIAL SINGLE-UNIT DISTRICTS

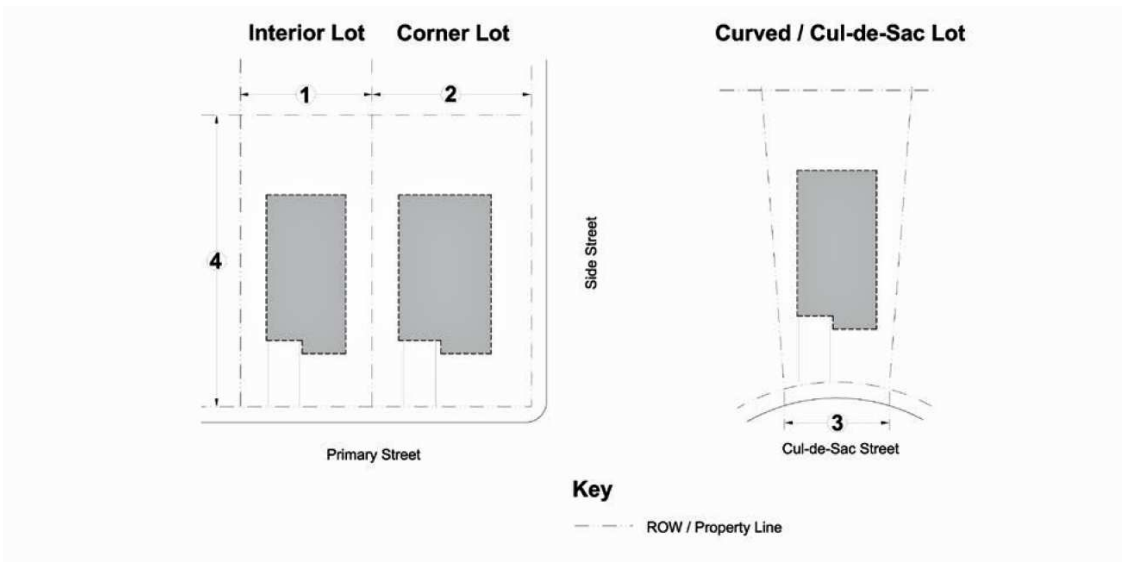

TABLE 15-903-1: LOT AND DENSITY STANDARDS—RESIDENTIAL SINGLE-UNIT DISTRICTS

District	RE	RS-1	RS-2	RS-3	RS-4	RS-5	Additional Regulations	#
Minimum Lot Size (sq. ft.)	5 acres	36,000	20,000	9,000	5,000	4,000		
Minimum Lot Size, with Enhanced Streetscape (sq. ft.)	-	-	-	-	-	2,500[1]	§ 15-904-B, Enhanced Streetscape	
Maximum Lot Size[2]	-	-	-	32,000	9,000	6,500		
Residential Density, Large Sites (dwelling units per net acre)	0.15	1	2.5	3.5	6	12	§ 15-310, Determining Residential Density	
Residential Density, Small Sites (dwelling units per lot)	1	1	1	1	1	1	§ 15-310, Determining Residential Density	
Minimum Lot Width (ft.)								
General Standard	110	110	110	70	50	35		①
Corner	110	110	110	80	55	40		②
Reversed Corner	110	110	110	90	60	50		
Where Side Property Line Abuts a Major Street, Freeway or Railroad	160	160	130	90	70	60		
Curved/Cul-de-Sac	80	80	80	60	40	30		③
Minimum Lot Depth (ft.)								
General Standard	130	130	130	100	85	70		④
Where Front or Rear Property Line Abuts a Major Street	200	200	130	110	100	90		④
Where a Front or Rear Property Line Abuts a Freeway or Railroad	200	200	150	150	120	120		④

1. Provided that the overall density of the development does not exceed the approved General Plan densities.
2. Maximum lot sizes may be exceeded in developments whose overall density does not fall below the approved General Plan density.

SEC. 15-904. SITE DESIGN DEVELOPMENT STANDARDS.

A. **Additional Setback Regulations.**

1. **Setbacks for Developed Blocks.**

   a. **Front Yards.** Where 50 percent or more of the lots on the same blockface have been improved with buildings, the front setback for new structures shall not be greater than 110 percent of the average of the actual front setbacks of all improved lots on such blockface, nor shall it be less than 90 percent of the average of the actual front setbacks of all improved lots on such blockface.

   b. **Garage Encroachments into Rear and Side Setbacks.** Where 50 percent of the residential properties on a block have detached garages which encroach into the minimum side and/or rear setbacks, new detached garages shall be permitted to encroach into the minimum side and/or rear setback in a similar manner. In such instances the minimum side and rear setback for a detached garage shall each be equal to the average of the equivalent setbacks of the detached garages on the block, unless the average is less than two feet in which case the setback shall be zero feet.

   c. **Garage Setbacks for Developed Blocks.** Where 50 percent or more of the lots on the same blockface feature detached garages, new garages shall be set back no less than 10 feet behind the primary façade.

2. **Side Setbacks for Attached Dwellings.** Required side setbacks shall apply only to the ends of rows of attached dwellings, and shall not be required between attached dwellings.

3. **Interior Side Yards Adjacent to Garages.** If side setbacks are not of an equal width, then the larger side setback shall be adjacent to the garage.

4. **Water-Efficient Landscaping Incentive.** The minimum front setback may be reduced by up to three feet if the front yard complies with the following:

   a. The installed landscaping complies with the State Model Water Efficient Landscape Ordinance (MWELO) regardless of whether the new landscape project meets or does not meet the Applicability criteria in MWELO; and

   b. The Maximum Applied Water Allowance is reduced by 10 percent; and

   c. The setback reduction shall not result in a front setback of less than three feet.

5. **Park Strip Incentive.** When a park strip is provided between the curb and sidewalk in a new subdivision, the minimum front setback for adjacent parcels shall be reduced by the width of the park strip. However, the reduction shall not result in a front setback of less than three feet.

6. **Swing Garages.** A garage with an entrance that is perpendicular to the adjacent street is known as a swing garage. If the wall of a swing garage which faces the street has windows and other architectural treatments which are comparable to that of the primary façade of the living area, then swing garages shall be subject to the minimum front setback and shall not be subject to garage setbacks.

7. **Rear Setback Reduction.** Rear setbacks may be reduced if all of the following conditions are met:

   a. A site plan shall be submitted in accordance with the provisions of Article 52 Development Permit;

   b. The rear setback shall be greater than or equal to the required interior side setback for the Base District, but in no instance shall the rear setback be less than 5 feet;

   c. Space equal to the reduction shall be provided elsewhere on the lot, exclusive of any required yard area. Said replacement space shall have minimum dimensions of five feet by eight feet, and shall be so located that it is suitable for general use by the occupant of the premises; and

   d. The Review Authority shall find that the granting of the reduction will not be materially detrimental to the public welfare or injurious to property and improvements in the area in which the property is located and will not be contrary to the objectives of this Code.

8. **Driveway Paving.** All driveways shall be paved per Public Works standards.

B. **Enhanced Streetscape.** When an Enhanced Streetscape is provided, the minimum lot size and minimum front setback shall be reduced as shown on Tables 15-903-1 and 15-903-2. Enhanced Streetscape shall mean that no fewer than five of the following qualities are present on the site or the adjacent public street:

1. A landscaped parkway strip of no less than four feet in width; or

2. An elevated first floor which is at no less than three feet above the grade of the adjacent sidewalk or curb; or
3. A front porch with a depth of no less than five feet and a width equal to no less than 20 percent of the building frontage; or
4. A street-facing balcony with a depth of no less than five feet and a width equal to no less than 30 percent of the building frontage; or
5. A bay window with a depth of no less than two feet; or
6. An alley-loaded garage; or
7. A front-loaded garage door, the width of which occupies less than 50 percent of the area of the front façade; or
8. A design in which no exterior front street-facing wall has a continuous plane of more than eight feet without an opening such as a window or door or a projection, offset, or recess at least one foot in depth; or
9. Stone or brick cladding accounts for no less than 25 percent of the cladding of ground floor front street-facing facades, excluding windows, doors, and garages; or
10. A two-story front elevation; or
11. Shutters, lintels, sills, awnings, decorative trim or similar architectural treatments on front street-facing windows and doors; or
12. Ornamental architectural elements such as medallions, keystones, or quatrefoils, and decorative vent covers; or
13. Decorative eave treatments such as cornice moldings, modillions, corbels, and outlookers; or
14. 8-foot tall front door; or
15. Juliet balcony.

C. **Pedestrian Access.** Where 50 percent or more of the single-unit homes on the same blockface have a direct path from the main pedestrian entrance to the public sidewalk, new homes shall also provide such a path. In such circumstances the driveway shall not satisfy this requirement.

D. **Driveway Design.** Where 50 percent or more of the lots on the same blockface have a driveway design with a landscaped strip in the center (commonly known as ribbon drives or Hollywood drives), new driveways shall also include a central landscape strip.

E. **Driveway Paving.** The entire length of the driveway, from the street to the garage or carport, shall be paved. The minimum width of the paved area shall equal the width [of] the garage door, however central landscaped strips (commonly known as ribbon drives or Hollywood drives) may be provided.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 6, eff. 10-21-16; Am. Ord. 2017-33, § 4, eff. 7-30-17; Am. Ord. 2018-25, § 6, eff. 6-11-18; Am. Ord. 2018-66, § 5, eff. 1-18-19; Am. Ord. 2025-024, § 12, eff. 7-27-25).

SEC. 15-905. FAÇADE DESIGN DEVELOPMENT STANDARDS.

A. **Façade Alignment.**

1. **Vertical Alignment.** With the exception of mansard roofs, cornices, and other such features, façades shall be oriented vertically and shall have no slope.

2. **Horizontal Alignment.** With the exception of bay windows and similar features, facades that are located within 50 feet of a public street shall run parallel or perpendicular to said street.

B. **Façade Compatibility for Developed Blocks.** Where 50 percent or more of the lots on the same blockface have been improved with buildings, the following standards shall apply. Compliance shall be determined at the discretion of the Review Authority.

1. **Building Materials and Finishes.** Cladding and trim materials and finishes shall be similar to adjacent homes.

2. **Windows.** The size, location, and proportions of windows shall be similar to adjacent homes.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-906. DUPLEX AND MULTI-UNIT RESIDENTIAL STANDARDS.

When Duplex and Multi-Unit Residential uses are identified in Table 15-902 as permitted with a Conditional Use Permit, the following standards shall apply:

A. **Neighborhood Meeting.** Prior to submittal of the project application, the applicant shall conduct a Neighborhood Meeting as put forth in Section 15-5006.

B. **Review Authority.** The Planning Commission shall approve, conditionally approve, or deny applications for Conditional Use Permits following a public hearing.

C. **Public Notice.** Prior to consideration of the Conditional Use Permit, Public Notice shall be provided per Section 15-5007.

D. **Property Development Standards.** The standards of the RM-1 District shall apply, except as follows:

1. **Density.** Residential density shall be measured as put forth in Section 15-310-B.

   a. **Minimum.** Five units per acre.

   b. **Maximum.** Twelve units per acre.

2. **Front Setback.** Where adjacent sites have been improved with buildings, the front setback for new structures shall match the front setbacks of those buildings as determined by the Review Authority.

3. **Façade Compatibility.**

   a. **Building Materials and Finishes.** Cladding and trim materials and finishes shall be similar to adjacent single-unit homes.

b. **Windows.** The size, location, and proportions of windows shall be similar to adjacent single-unit homes.

4. **Other Standards.** When the Review Authority determines that a development standard of the RS-5 District would provide for better compatibility with adjacent single-unit homes than the corresponding RM-1 standard, the RS-5 standard shall apply.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 13, eff. 7-27-25).

ARTICLE 10 RESIDENTIAL MULTI-UNIT DISTRICTS (RM)*

Sec. 15-1001. Purpose.
Sec. 15-1002. Use Regulations.
Sec. 15-1003. Density and Massing Development Standards.
Sec. 15-1004. Site Design Development Standards.
Sec. 15-1005. Façade Design Development Standards.

SEC. 15-1001. PURPOSE.

The purposes of the Residential Multi-Unit (RM) Districts are to:

A. Provide for a variety of multi-unit housing types for individual lifestyles and space needs, and to ensure continued availability of a full range of affordable housing opportunities necessary to sustain a diverse labor force, consistent with the City's economic development and housing objectives of the General Plan.

B. Provide opportunities for the development of higher-density and affordable housing in neighborhoods throughout the city.

C. Preserve, protect, and enhance the character of the city's medium and high-density neighborhoods.

D. Promote development of walkable, transit-supported neighborhoods.

E. Ensure that the scale and design of new development and alterations to existing structures are compatible with the scale, mass, and character of their neighborhoods.

F. Ensure adequate light, air, privacy, and outdoor living area for each dwelling.

G. Ensure the provision of services and facilities needed to accommodate planned population densities and to achieve complete neighborhoods in the city's existing and future residential areas in accordance with the General Plan.

H. Provide for appropriate densities within the ranges established in the General Plan.

I. Protect the quality of the residential environment and secure the health, safety, and general welfare of the residents.

J. Implement and provide appropriate regulations for General Plan classifications of "Medium High Density Residential," "Urban Neighborhood Density Residential," and "High Density Residential."

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 15, eff. 7-27-25).

***Editor's note—**Am. Ord. 2025-024, § 14, effective July 27, 2025, amended the title of Art. 10 to read as herein set out. The former Art. 10 title pertained to Residential Multi-Family Districts (RM).

SEC. 15-1002. USE REGULATIONS.

A. Table 15-1002 prescribes the proposed land use regulations for Residential Multi-Unit Districts. The regulations for the districts are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

"P" designates permitted uses.

"C" designates uses that are permitted after review and approval of a Conditional Use Permit.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"-" designates uses that are not permitted.

B. Land uses are defined in Article 67, Use Classifications.

C. In cases where a specific land use or activity is not defined, the Director shall assign the land use or activity to a classification that is substantially similar in character per Section 15-5020, Director's Determination.

D. All permitted uses are allowed either alone or in combination with other permitted uses unless otherwise stated in this Code.

E. Use classifications and subclassifications not listed in the table or not found to be substantially similar to the uses below are not permitted.

F. The table also notes additional regulations that apply to various uses. Section numbers in the right hand column refer to other sections of this Code.

Alley (min.)	3	3	3	3		⑥
Parking, from back of sidewalk or curb (min.)	30	30	30	30		⑦
Minimum Frontage Coverage (%)	50(1)	50(1)	50(1)	-	§ 15-317, Determining Frontage Coverage	
Maximum Lot Coverage (% of lot)	50	50	60	50	§ 15-311, Determining Lot Coverage	
Minimum On-Site Open Space (% of Lot Area)	20	15	10	-		

Specific Limitations:
1. Not applicable outside of the Priority Areas (see Figure IM-1: Priority Areas for Development Incentives in the Fresno General Plan, adopted in 2014).

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 5, eff. 7-30-17; Am. Ord. 2025-024, § 17, eff. 7-27-25).

SEC. 15-1004. SITE DESIGN DEVELOPMENT STANDARDS.

A. **RS Transition Standards.** Where an RM district abuts an RS District, the following standards apply:

1. **Height.** The maximum height within 40 feet of an RS District is limited to 30 feet. The maximum height within 50 feet of an RS District is 40 feet.

2. **Setbacks.** The following additional setback requirements shall be applied to all structures, including accessory structures, on parcels which are adjacent to an RS District:

   a. **Front.** The minimum front setback requirement of the adjacent RS district shall be applied to all structures within 50 feet of the RS District.

   b. **Interior Side.** The interior side setback shall be 10 feet.

   c. **Rear.** The rear setback shall be 20 feet.

3. **Landscape.** See Table 15-2305-C.1, Required Landscape Buffers.

4. **Screening.** When a multi-story building is proposed and the second story or above is located within 50 feet of the side or rear yard of a single-unit lot, screening measures shall be applied to provide a reasonable degree of privacy.

   a. **Screening measures.** Screening measures include, but are not limited to, landscaping, alternate window and balcony placements, placing windows at least six feet from the floor of the interior of the unit, incorporating wing walls or louvers, using glass block or other translucent material, and other such methods.

   b. **Sufficiency of Screening.** The Review Authority shall determine the sufficiency of the proposed screening measures and may require additional measures.

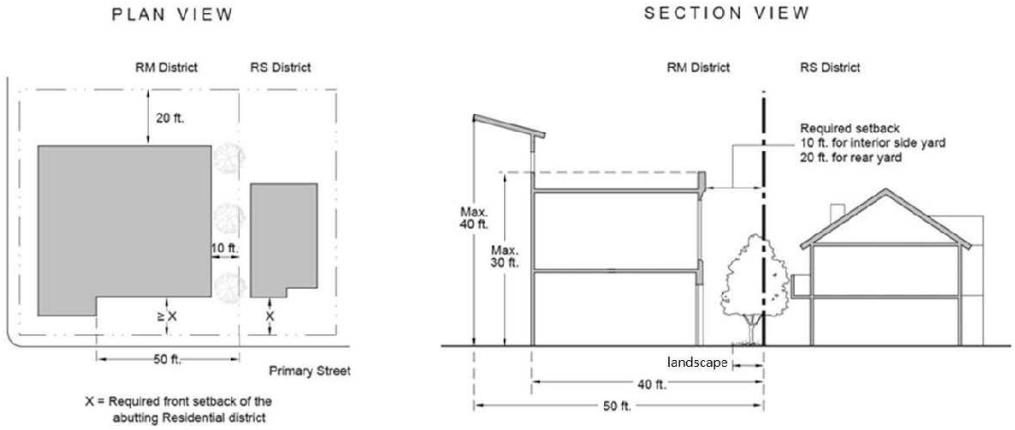

FIGURE 15-1004-A: RS TRANSITION STANDARDS—RM DISTRICTS

B. **Additional Setback Standards.**

1. **Side Setbacks for Attached Dwellings.** Required side setbacks shall apply only to the ends of rows of attached dwellings, and shall not be required between attached dwellings.

2. **Rear Setback Reduction.** Rear setbacks may be reduced if all of the following conditions are met:

   a. A site plan shall be submitted in accordance with the provisions of Article 52 Development Permit;

   b. The rear setback shall be greater than or equal to the required interior side setback for the Base District;

   c. Space equal to the reduction shall be provided elsewhere on the lot, exclusive of any required yard area. Said replacement space shall have minimum dimensions of five feet by eight feet, and shall be so located that it is suitable for general use by the occupant of the premises; and

   d. The Review Authority shall find that the granting of the reduction will not be materially detrimental to the public welfare or injurious to property and improvements in the area in which the property is located and will not be contrary to the objectives of this Code.

   e. Such a reduction would not conflict with the provisions of Section 15-1004-A, RS Transition Standards.

C. **Parking Setback.** Parking shall be setback as shown on Table 15-1003 except as provided below:

1. **Surface Parking.**

   a. Surface parking which is located behind a building shall not be subject to the parking setback requirement.

   b. On lots less than 150 feet in width or depth, surface parking may be set back less than the distance shown on Table 15-1003, if the following conditions are met:

      i. Such parking shall not be set back from the street less than adjacent buildings on the site.

      ii. The parking setback area shall be landscaped.

      iii. There shall be no more than four adjacent parking spaces in surface parking areas located less than 30 feet from a street-facing lot line. The space between groups of four adjacent parking spaces shall be equal in width to the adjacent parking spaces and shall be landscaped.

      iv. Parking spaces shall be screened from the adjacent street with a minimum three foot berm, wall, or hedge, or combination thereof.

   c. If a sound wall is required along a certain frontage, or if other circumstances exist that render the Parking Setback impractical or unnecessary, the Review Authority may waive the Parking Setback requirement.

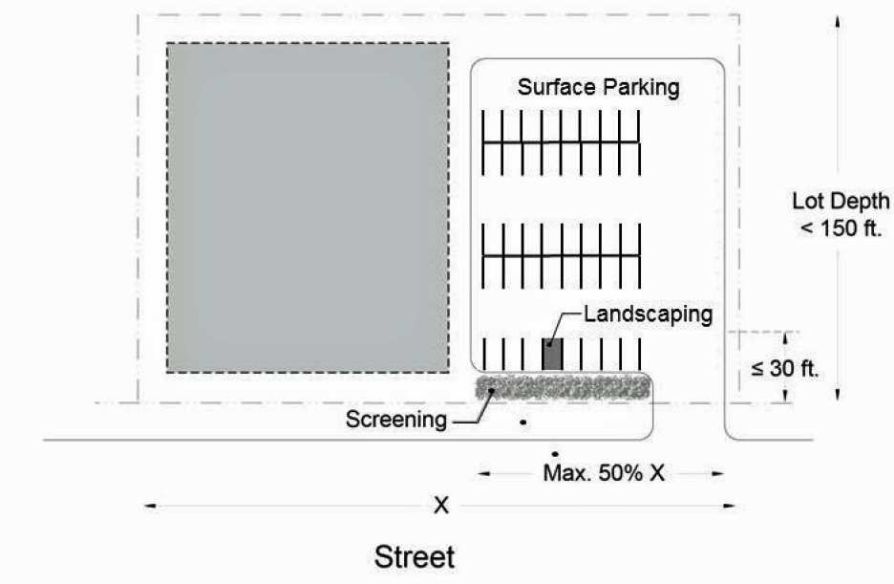

FIGURE 15-1004-C.1: SURFACE PARKING SETBACK REDUCTION

2. **Partially Submerged Podium Parking.** Parking that is partially below the street grade may extend to the setbacks of the main structure, if the following conditions are met:

   a. No more than six feet of the partially submerged parking podium may extend above the street grade.

   b. The partially submerged parking podium shall be screened along street facing elevations by foundation plant materials. Gates need not be screened.

3. **Underground Parking.** Parking that is fully underground and below the street grade may extend from lot line to lot line.

D. **On-Site Open Space.**

1. **Minimum Open Space Required.** The minimum amount of on-site open space required shall be based on the size of the lot, as shown in Table 15-1003. This requirement may be met through a combination of private open space, common open space, or public plazas as follows:

   a. **Private Open Space Requirements.** Private open spaces are those which are attached to a dwelling unit and are available only for the private use of the residents of the dwelling unit, such as balconies, porches, and patios. No fewer than 50 percent of the dwelling units on a site shall have a private open space. The following standards shall apply to private open space:

      i. The minimum dimension of any private open space shall be four feet.

      ii. The minimum area of any private open space shall be 32 square feet.

iii. When located within 30 feet of a public street and located on the ground floor, private open spaces shall be designed as a porch.

iv. When located within 30 feet of a public street and located above the ground floor, private open spaces shall be designed as a balcony.

b. **Common Open Space Requirements.** Common open spaces are those which are available for active or passive use by all tenants, but use by the general public may be restricted. To the extent that common open space is provided, the following standards shall apply:

i. The minimum dimension of any common open space shall be 20 feet.

ii. The minimum area of any common open space shall be 1,000 square feet. The calculation of the common open space area shall exclude structures which are unusable as open space, but shall include structures that enhance its usability, such as swimming pools, changing facilities, fountains, planters, benches, and landscaping.

iii. Not less than 80 percent of common open space shall be unobstructed to the sky. Trellises, pergolas, and similar structures shall be considered open to the sky for the purposes of this measurement.

iv. Common open space may be located at grade, on rooftops, on top of parking podiums, or any other such location that is accessible to tenants. Common open space may not be located within required front setbacks or RS buffer setbacks.

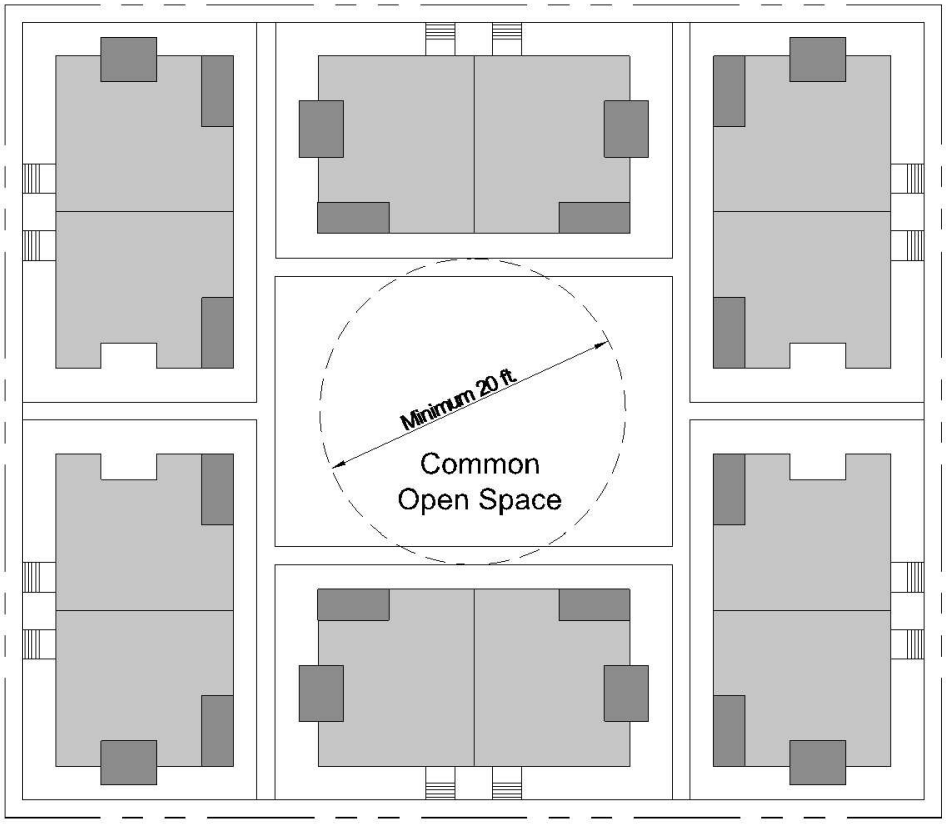

FIGURE 15-1004-D.1.b: MINIMUM REQUIRED COMMON OPEN SPACE DIMENSION

c. **Public Plaza Requirements.** Public plazas are those which are available for use by the general public, as well as tenants of the project. To the extent that public plazas are provided, the following standards shall apply:

i. The minimum dimension of any public plaza shall be 20 feet.

ii. The minimum area of any public plaza shall be 500 square feet. The calculation of the public plaza area shall exclude structures which are unusable as open space, but shall include structures that enhance its usability, such as fountains, planters, benches, and landscaping.

iii. Public plazas shall include benches or other seating, and paving shall be of high-quality materials. Amenities provided shall enhance the comfort, aesthetics, or usability of the space and include, but not be limited to, trees and other landscaping, shade structures, drinking fountains, water features, public art, or performance areas. Landscaping or other aspects of the design shall not discourage the use of the space by the general public.

iv. Public plazas shall be fully accessible from the public right-of-way, shall be located in front of project buildings and shall not be located where public views into the space are obstructed by buildings or other structures.

v. Public plazas may be located within required front setbacks.

vi. A public access covenant shall be provided for the space.

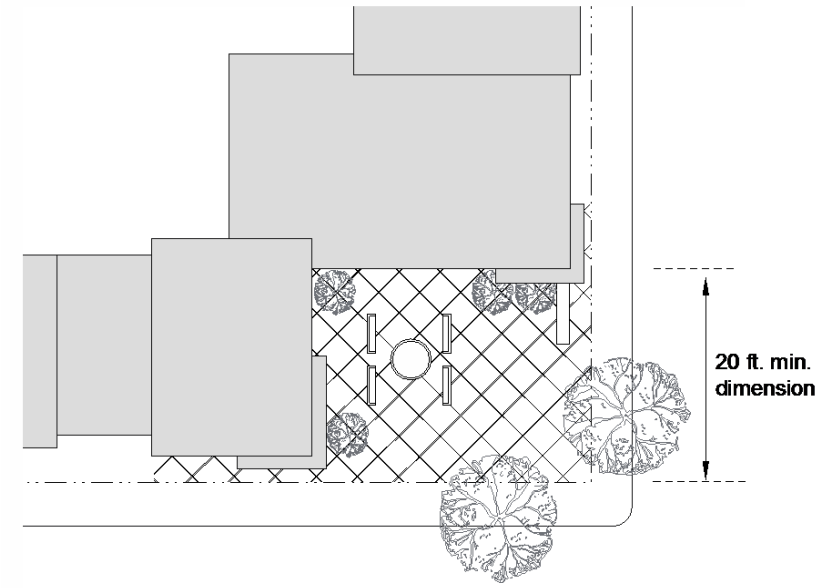

FIGURE 15-1004-D.1.c: MINIMUM REQUIRED PUBLIC PLAZA DIMENSION

2. **Minimum Open Space Reduction.** The minimum amount of open space required shall be reduced by 25 percent in any one of the following circumstances:

a. Any portion of the lot is located within a quarter mile of a transit stop with regular, scheduled service during the weekday hours of 7:00 a.m. to 9:00 a.m. and 5:00 p.m. to 7:00 p.m.

b. There is a public park within 400 feet of the site, and

i. Said park is located on the same side of the street and provides an improved pedestrian path to and from the site; or

ii. The public park is across a local street and the site provides an improved pedestrian path to and from the site.

c. The parcel is 15,000 square feet or less in area.

E. **Pedestrian Access.** Pedestrian access to public streets shall be provided at the preference of the applicant by either the Flexibility Option or the Certainty Option as follows:

1. **Flexibility Option.** The applicant must demonstrate to the satisfaction of the Review Authority that the project meets the following goal:
   a. Provide sufficient opportunities for residents to walk to nearby amenities, services, and transit facilities.
2. **Certainty Option.** Projects which comply with the following standards shall be considered to provide sufficient pedestrian access:
   a. **Common Area Sidewalk Connections.** Common entrances into lobbies or internal pedestrian paths shall be provided at the rates prescribed below. When providing access to a structure, such entrances shall be protected by a portico, canopy, or alcove of no less than four feet in depth.
      i. In the Priority Areas (see Figure IM-1: Priority Areas for Development Incentives in the Fresno General Plan, adopted in 2014). No less than one per 400 feet of linear street frontage.
      ii. Outside of the Priority Areas. No less than one per 600 feet of linear street frontage.
   b. **Residential Unit Sidewalk Connections.** Direct entrances into individual ground-floor dwelling units which are adjacent to streets shall be provided at the rates prescribed below. Such entrances shall be protected by a portico, canopy, or alcove of no less than four feet in depth.
      i. In the Priority Areas. No less than one per 100 feet of linear street frontage.
      ii. Outside of the Priority Areas. None required.
   c. **External Connections to Adjacent Development.** Pedestrian walkways shall connect the project site to adjacent Commercial, Mixed-Use, and Office districts at a frequency of no less than one per 600 feet. Projects may be excepted from this requirement in the following situations:
      i. An interconnected street network with short blocks and sidewalks exists in the surrounding area; or
      ii. The project site is less than one acre in size; or
      iii. The adjacent properties are developed and there are no possible connection points.
   d. If the project is located within an area with adopted design guidelines, all applicable guidelines which relate to pedestrian access and the location of doors and entrances shall also be followed.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-1, § 1, eff. 3-14-16; Am. Ord. 2016-32, §§ 8, 9, eff. 10-21-16; Am. Ord. 2017-33, § 7, eff. 7-30-17; Am. Ord. 2018-66, § 7, eff. 1-18-19; Am. Ord. 2025-024, § 18, eff. 7-27-25).

SEC. 15-1005. FAÇADE DESIGN DEVELOPMENT STANDARDS.

Appropriate façade design shall be provided at the preference of the applicant by either the Flexibility Option or the Certainty Option as follows:

A. **Flexibility Option.** The applicant must demonstrate to the satisfaction of the Review Authority that the project meets the following goals:

1. Present an attractive appearance to public streets.
2. Be aesthetically and functionally compatible to the nearby development context.
3. Demonstrate a high level of quality.
4. Support the growth in value of surrounding properties,

B. **Certainty Option.** Street-facing façades for buildings adjacent to a public street shall comply to the following standards. Other façades shall not be subject to these standards.

1. **Building Length Articulation.** At least one projection or recess will be provided for every 50 horizontal feet of wall in one of the following manners:
   a. Projections or recesses for buildings 50 feet wide or less shall be exempted from the building length articulation requirement; projections or recesses for buildings greater than 50 feet in width but less than 100 feet in width shall be no less than 12 inches in depth; or projections or recesses for buildings 100 feet wide or wider shall be no less than 24 inches in depth.
   b. The depth and width of the projection or recess shall be proportionate to the overall mass of the building.
2. **Building Materials and Finishes.** Materials shall present a durable and attractive appearance through high-quality materials, finishes, and workmanship defined as:
   a. At least two cladding materials (excluding roof and foundation); and
   b. At least three exterior colors (each cladding material shall count as a color, trim/accent colors shall each count as a color, and visually significant colors for doors, balconies, and similar elements may count as a color).
   c. Exception: Buildings which accurately adhere to a recognized architectural style which is appropriately expressed in one cladding material and one color shall be excepted.
   d. Exception: Buildings with all of the following characteristics shall be allowed to use one cladding material:
      i. Building height of 3 stories or less;
      ii. Building width of 100 feet or less; and
      iii. A façade with a comparable form of visual interest.

3. **Window Design.**

   a. **Glazing Ratio.** Street-facing façades of each floor of the building shall have an overall wall composition of at least 25 percent glazing, but not more than 70 percent glazing.

   b. **Vertical Proportion.**, On upper stories, the percentage of all window openings, window panes, or distinct window units specified below shall have a vertical proportion, in which their height exceeds their width by 25 percent or more.

      i. In the Priority Areas (see Figure IM-1: Priority Areas for Development Incentives in the Fresno General Plan, adopted in 2014). At least 50 percent.

      ii. Outside of the Priority Areas. At least 30 percent,

   c. **Window Depth.** In the Priority Areas, windows shall create visual interest and the appearance of depth in one of the following manners:

      i. Trim at least one inch in depth and three inches wide must be provided around all upper story windows and non-commercial ground-floor windows;

      ii. Windows must be recessed at least two inches from the plane of the surrounding exterior wall {for double-hung and horizontal sliding windows, at least one sash shall achieve the two-inch recess); or

      iii. Decorative plaster screed, minimum 2 inches wide;

      iv. Exception: Buildings with all of the following characteristics shall be allowed to use flush windows without trim:

         (1) Building height of 3 stories or less;

         (2) Building width of 100 feet or less; and

         (3) A façade with a comparable form of prominent surface relief and articulation, such as awnings, canopies, balconies, or massing changes.

4. **Façade Alignment.**

   a. In the Priority Areas. Façade alignment shall be as follows;

      i. **Vertical Alignment.** With the exception of mansard roofs, cornices, and other such features, façades shall be oriented vertically and shall have no slope,

      ii. **Horizontal Alignment.** With the exception of bay windows and similar features, façades shall run parallel or perpendicular to the adjacent street,

   b. Outside of the Priority Areas. No requirement.

5. **External Stairs, Corridors, and Hallways.** In the Priority Areas, external stairs, corridors, and hallways that are located within 30 feet of a public street must be architecturally integrated into the building design.

6. **Balconies.** If balconies are provided, they shall not be grouped together into a continuous band across the façade. No more than two balconies shall be contiguous. Each balcony or group of two contiguous balconies shall be distinct and shall have at least six feet of horizontal separation from any other balcony,
7. **Façade Elements.** Development shall incorporate façade elements as follows;
   a. In the Priority Areas. A minimum of one of the following Façade Elements will be incorporated into street-facing building façades:
      i. Forecourts
      ii. Bay Windows
      iii. Balconies
      iv. Porches
      v. Stoops
      vi. Arcades
   b. Outside of the Priority Areas. No requirement.
8. If the project is located within an area with adopted design guidelines, all applicable guidelines which relate to façade design shall also be followed.

(Added Ord. 2016-1, § 1, eff. 3-14-16).

ARTICLE 11 MIXED-USE DISTRICTS (MX)

Sec. 15-1101. Purpose.
Sec. 15-1102. Use Regulations.
Sec. 15-1103. Density, Intensity, and Massing Development Standards.
Sec. 15-1104. Site Design Development Standards.
Sec. 15-1105. Façade Design Development Standards.
Sec. 15-1106. Reserved.

SEC. 15-1101. PURPOSE.

The purposes of the Mixed-Use (MX) Districts are to:

A. Promote pedestrian-oriented infill development, intensification, and reuse of land consistent with the General Plan.

B. Allow and encourage the development of mixed-use centers and corridors with a vibrant concentration of goods and services, multi-unit housing, and community gathering and public spaces at strategic locations.

C. Transform certain auto-oriented boulevards and corridors into vibrant, diverse, and attractive corridors that support a mix of pedestrian-oriented retail, office, and residential uses in order to achieve an active social environment within a revitalized streetscape.

D. Provide options which reduce the need for private automobile use to access shopping, services, and employment and minimize air pollution from vehicle miles traveled.

E. Offer additional housing opportunities for residents seeking to live in an urban environment.

F. Improve access to a greater range of facilities and services for surrounding residential neighborhoods.

G. Establish development and design standards for these centers and corridors that will create a unified, distinctive, and attractive urban character, with appropriate transitions to adjacent residential neighborhoods.

H. Facilitate mixed-use residential development at increased densities and intensities in key locations such as along Bus Rapid Transit (BRT) corridors. Implement and provide appropriate regulations for General Plan classifications of "Neighborhood Mixed-Use," "Corridor/Center Mixed-Use," and "Regional Mixed-Use."

Additional purposes of each Mixed-Use District are as follows:

NMX Neighborhood Mixed-Use. The NMX district is intended to provide for mixed-use residential districts that include local-serving, pedestrian-oriented commercial development, such as smaller independent retail shops and professional offices in two-to three-story buildings. Development is expected to include ground-floor neighborhood retail uses and upper-level housing or offices, with a mix of small lot single-unit houses, townhomes, and multi-unit dwelling units on side streets, in a horizontal or vertical mixed-use orientation.

The NMX district provides for a scale and character of development that is pedestrian-orientated, designed to attract and promote a walk-in clientele, with small lots and frequent pedestrian connections permitting convenient access from residences to commercial space.

CMX Corridor/Center Mixed-Use. The CMX district is intended to allow for either horizontal or vertical mixed-use development along key circulation corridors in the city where height and density can be easily accommodated. Ground-floor retail and upper-floor residential or offices are the primary uses, with residential uses, personal and business services, and public and institutional space as supportive uses. Development will facilitate the transformation of existing transportation corridors into vibrant, highly walkable areas with broad, pedestrian-friendly sidewalks, trees, landscaping, and local-serving uses with new buildings that step down in relationship to the scale and character of adjacent neighborhoods.

RMX Regional Mixed-Use. The RMX district is intended to support regional retail and mixed-use development in large-scale activity centers outside of Downtown, as identified by the General Plan. It accommodates urban-scale mixed-use development that serve residents and businesses of the region at large. Medium-scale retail, housing, office, civic and entertainment uses, and shopping malls with large-format or "big-box" retail are allowed, as are supporting uses such as gas stations, hotels, and residential in mixed-use or single-use buildings. Development and design standards will create a pedestrian orientation within centers and along major corridors, with parking located on the side or rear of, or within, major structures.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 19, eff. 7-27-25).

SEC. 15-1102. USE REGULATIONS.

A. Table 15-1102 prescribes the proposed land use regulations for Mixed-Use Districts. The regulations for the districts are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

"P" designates permitted uses.

"C" designates uses that are permitted after review and approval of a Conditional Use Permit.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"-" designates uses that are not permitted.

Uses listed as "P" or "C" may be restricted in certain locations by Section 15-1104-A.

B. Land uses are defined in Article 67, Use Classifications.

C. In cases where a specific land use or activity is not defined, the Director shall assign the land use or activity to a classification that is substantially similar in character per Section 15-5020, Director's Determination.

D. All permitted uses are allowed either alone or in combination with other permitted uses unless otherwise stated in this Code.

E. Use classifications and subclassifications not listed in the table or not found to be substantially similar to the uses below are not permitted.

F. The table also notes additional regulations that apply to various uses. Section numbers in the right hand column refer to other sections of this Code.

Drive-In and Drive-Through Facilities	C(15)	C(15)	C(15)	§ 15-2728, Drive-In and Drive-Through Facilities
Walk-Up Facilities	§ 15-2766, Walk-Up Facilities			
Non-Conforming Use	Article 4, Non-Conforming Uses, Structures, Site Features, and Lots			
Temporary Use	§ 15-2760, Temporary Uses			
Transitional and Supportive Housing	§ 15-2762, Transitional and Supportive Housing			

Specific Limitations:

1. Not allowed on the ground floor within 200 feet of an intersection (measured from the lot line) of two or more major streets with the exception of main building entrances and active community spaces. Other high-activity uses may be approved at the discretion of the Review Authority. Projects with frontage on more than one major street may be excepted from this restriction on one of the major streets at the discretion of the Review Authority.
2. Reserved.
3. Not to include industrial training such as welding or automotive repair involving the use of tools and materials appropriate to an industrial use area.
4. Must be located along a major street.
5. Limited to establishments with a gross floor area of 5,000 square feet or less.
6. Shall be below grade or in structures faced with active uses along the street.
7. Provided that such use shall be completely enclosed in a building of soundproof construction.
8. Limited to upper stories unless at least 50 percent of ground floor street frontage is occupied by food service use.
9. Reserved.
10. Limited to heliports used as accessory to a hospital.
11. Building heights for hospitals shall not exceed 150 ft. There is no maximum Floor Area Ratio for hospitals.
12. Not allowed within 500 feet of an existing or planned Bus Rapid Transit stop.
13. Must take place entirely within a building.
14. Must include an indoor waiting area.
15. Not allowed: a) within 100 feet of a planned or existing Bus Rapid Transit station except for projects involving an existing drive-through that is required to relocate due to property being acquired as a result of a public work project and where the new location is within 1 mile of the original location and where the new establishment complies with, and without deviation from, all applicable property development standards; and b) not allowed between a building and a sidewalk.
16. Reserved.
17. Reserved.
18. Permitted only after review and approval of a Conditional Use permit, and only in the following areas: a) NMX-zoned parcels which are located south of State Route 180 and east of State Route 41 and which are not within 500 feet of a Bus Rapid Transit route; or b) NMX-zoned parcels which are located north of State Route 180 and west of the Union Pacific Railroad.
19. Prohibited in the following areas: Parcels which are located south of State Route 180 and west of the Union Pacific Railroad.

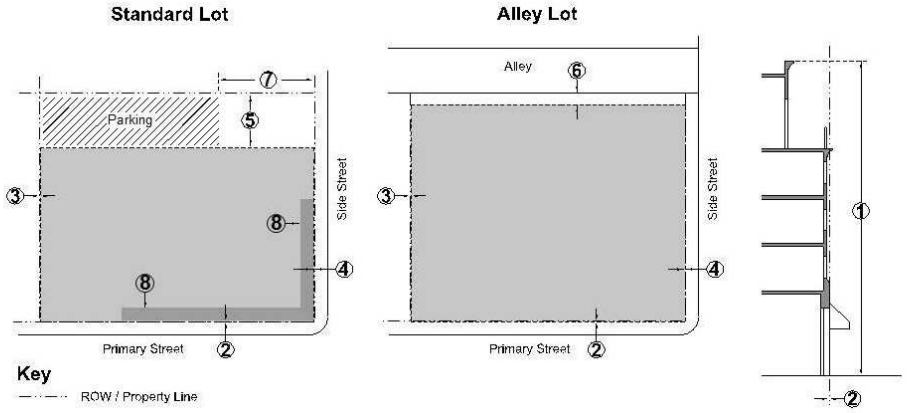
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2015-43, § 1, eff. 1-22-16; Am. Ord. 2016-32, § 10, eff. 10-21-16; Am. Ord. 2017-33, § 6, eff. 7-30-17; Am. Ord. 2018-25, § 8, eff. 6-11-18; Am. Ord. 2018-66, § 8, eff. 1-18-19; Am. Ord. 2020-031, § 2, 9-1-20; Am. Ord. 2022-029, § 1, eff. 11-19-22; Am. Ord. 2025-024, § 20, eff. 7-27-25; Am. Ord. 2025-036, § 1, eff. 10-23-25).

SEC. 15-1103. DENSITY, INTENSITY, AND MASSING DEVELOPMENT STANDARDS.

Table 15-1103 prescribes the density, intensity, and massing development standards for the Mixed-Use Districts. Additional regulations are denoted in a right hand column. Section numbers in this column refer to other sections of the Code, while individual letters refer to

subsections that directly follow the table. The numbers in each illustration below correspond to the "#" column in the associated table. Drawings are for illustrative purposes and are not drawn to scale.

TABLE 15-1103: DENSITY, INTENSITY, AND MASSING STANDARDS—MIXED-USE DISTRICTS



District	NMX	CMX	RMX	Additional Regulations	#
Floor Area Ratio (max.)	1.5	1.5	2.0	§ 15-309, Determining Floor Area Ratio	
Residential Density, du/ac (min.)	12	16	30	§ 15-310, Determining Residential Density Min. res. density shall not be required for the following: projects on lots less than 20,000 sq. ft. in area; projects further than 1,000 feet from a planned or existing BRT route; and projects which submit a Development Permit application prior to January 1, 2019.	
Maximum Height (ft.)	40	60	75	§ 15-1104-B, RS Transition Standards and § 15-2012, Heights and Height Exceptions	①
Setbacks (ft.)

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2022-029, § 2, eff. 11-19-22).

SEC. 15-1104. SITE DESIGN DEVELOPMENT STANDARDS.

A. **Active Uses Adjacent to Sidewalks.** For buildings located within 20 feet of a public street, the following standards shall apply:

1. **Within 100 Feet in each direction of an Existing or Planned Bus Rapid Transit Station.** No less than 60 percent of the building frontage along public

streets shall be occupied by food and beverage sales, entertainment and recreation, general personal services, artist's studios, eating and drinking establishments, personal services, general retail, or convenience retail uses. Other high-activity uses which typically operate at night and on weekends may be approved at the discretion of the Review Authority.

2. **Other Locations.** Active spaces, such as individual dwelling unit entrances, cinemas/theaters, eating and drinking establishments, offices, personal services, general retail, or residential or office lobbies, or shall occupy no less than 60 percent of building frontage along public streets. Inactive and utilitarian spaces, such as storage, utility rooms, or facilities which are occupied infrequently shall not occupy more than 50 percent of the building frontage along public streets. Sites with frontage on multiple streets may not be required to meet this standard along the street with the lowest functional classification or least visual prominence, at the discretion of the Review Authority.

B. **RS Transition Standards.** Where an MX district abuts an RS District, the following standards apply:

1. **Height.** The maximum height within 40 feet of an RS District is limited to 30 feet. The maximum height within 50 feet of an RS District is 40 feet.

2. **Setbacks.** The following additional setback requirements shall be applied to all structures, including accessory structures, on parcels which are adjacent to an RS District:

   a. **Front and Street Side Yard.** The front setback shall not be less than the required front yard on the abutting RS District lot within 50 feet of the RS District.

   b. **Interior Side and Rear.** The interior side and rear setback abutting an RS District boundary shall be 20 feet.

3. **Landscape.** See Table 15-2305-C.1, Required Landscape Buffers.

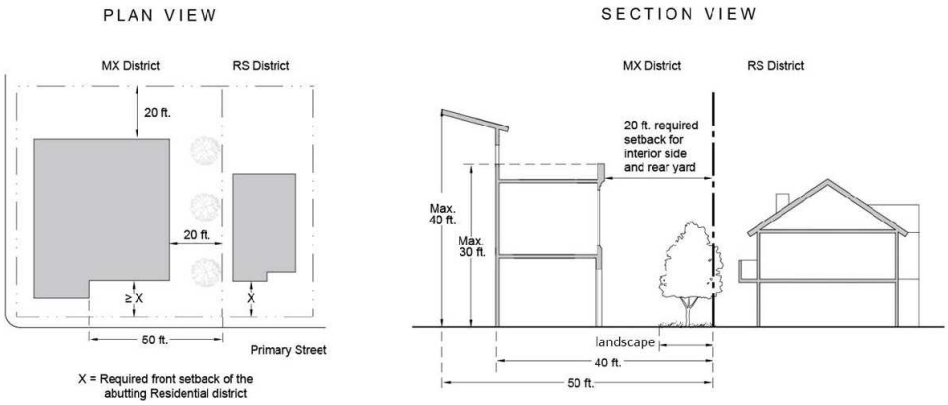

FIGURE 15-1104-B: RS TRANSITION STANDARDS—MX DISTRICTS

4. **Screening.** When a multi-story building is proposed and the second story or above is located within 50 feet of the side or rear yard of a single-unit lot, screening measures shall be applied to provide a reasonable degree of privacy.

   a. Screening measures include, but are not limited to, landscaping, alternate window and balcony placements, placing windows at least six feet from the floor of the interior of the unit, incorporating wing walls or louvers, using glass block or other translucent material, and other such methods.

   b. Sufficiency of Screening. The Review Authority shall determine the sufficiency of the proposed screening measures and may require additional measures.

C. **Corner Frontage.** Buildings on corner lots must be located within five feet of the street property line for the minimum length specified in Table 15-1103. Plazas maybe located at the street corner provided the plaza meets the requirements of Section 15-1104-E.1.c and buildings are built to the edge of the plaza.

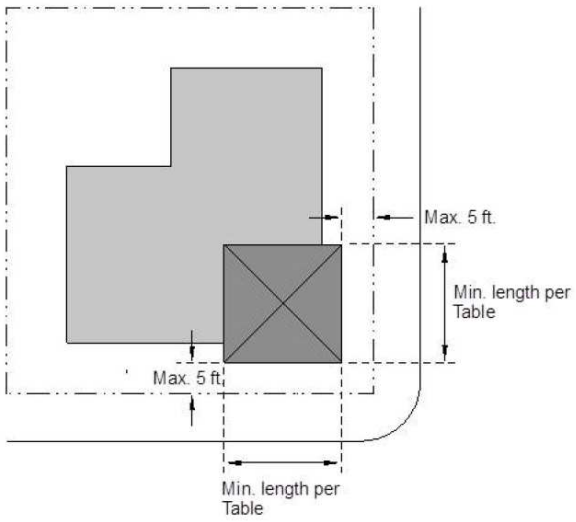

FIGURE 15-1104-C: CORNER FRONTAGE STANDARDS

D. **Parking Setback.** Parking shall be setback as shown on Table 15-1103 except as provided below:

1. **Surface Parking.**

   a. Surface parking which is located behind a building shall not be subject to the parking setback requirement.

   b. On lots less than 150 feet in width or depth or at the discretion of the Review Authority, surface parking may be set back less than the distance shown on Table 15-1103, if the following conditions are met:

      i. Such parking shall not be set back from the street less than adjacent buildings on the site.

      ii. The parking setback area shall be landscaped.

      iii. There shall be no more than four adjacent parking spaces in surface parking areas located less than 30 feet from a street-facing lot line. The space between groups of four adjacent parking spaces shall be equal in width to the adjacent parking spaces and shall be landscaped.

      iv. Parking spaces shall be screened from the adjacent street with a minimum three foot berm, wall, or hedge, or combination thereof.

   c. If a sound wall is required along a certain frontage, or if other circumstances exist that render the Parking Setback impractical or unnecessary, the Review Authority may waive the Parking Setback requirement.

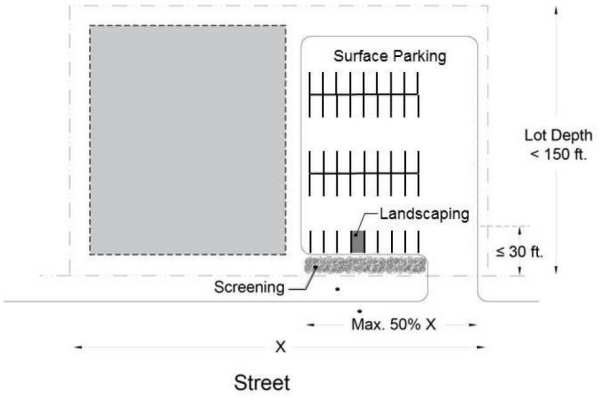

FIGURE 15-1104-D.1: SURFACE PARKING SETBACK REDUCTION

2. **Partially Submerged Podium Parking.** Parking that is partially below the street grade may extend to the setbacks of the main structure, if the following conditions are met:

   a. No more than six feet of the partially submerged parking podium may extend above the street grade.

   b. The partially submerged parking podium shall be screened along street facing elevations by foundation plant materials. Gates need not be screened.

3. **Underground Parking.** Parking that is fully underground and below the street grade may extend from lot line to lot line

E. **On-Site Open Space.**

1. **Minimum Open Space Required.** On-site open space shall be required for projects with more than four dwelling units. The minimum amount of on-site open space required shall be based on the size of the lot, as shown in Table 1.5-1103. This requirement may be met through a combination of private open space, common open space, or public plazas as follows:

   a. **Private Open Space Requirements.** Private open spaces are those which are attached to a dwelling unit and are available only for the private use of the residents of the dwelling unit, such as balconies, porches, and patios. No fewer than 50 percent of the dwelling units on a site shall have a private open space. The following standards shall apply to private open space:

      i. The minimum dimension of any private open space shall be five feet.

      ii. The minimum area of any private open space shall be 32 square feet.

      iii. When located within 30 feet of a public street and located on the ground floor, private open spaces shall follow the requirements for Porches as put forth in Table 15-1105-D.

iv. When located within 30 feet of a public street and located above the ground floor, private open spaces shall follow the requirements for Balconies as put forth in Table 15-1105-D.

b. **Common Open Space Requirements.** Common open spaces are those which are available for active or passive use by all tenants, but use by the general public may be restricted. To the extent that common open space is provided, the following standards shall apply:

i. The minimum dimension of any common open space shall be 20 feet.

ii. The minimum area of any common open space shall be 1,000 square feet. The calculation of the common open space area shall exclude structures which are unusable as open space, but shall include structures that enhance its usability, such as swimming pools, changing facilities, fountains, planters, benches, and landscaping.

iii. At least 80 percent of common open space shall be unobstructed to the sky. Trellises, pergolas, and similar structures shall be considered open to the sky for the purposes of this measurement.

iv. Common open space may be located at grade, on rooftops, on top of parking podiums, or any other such location that is accessible to tenants. Common open space may not be located within required setbacks or parking areas.

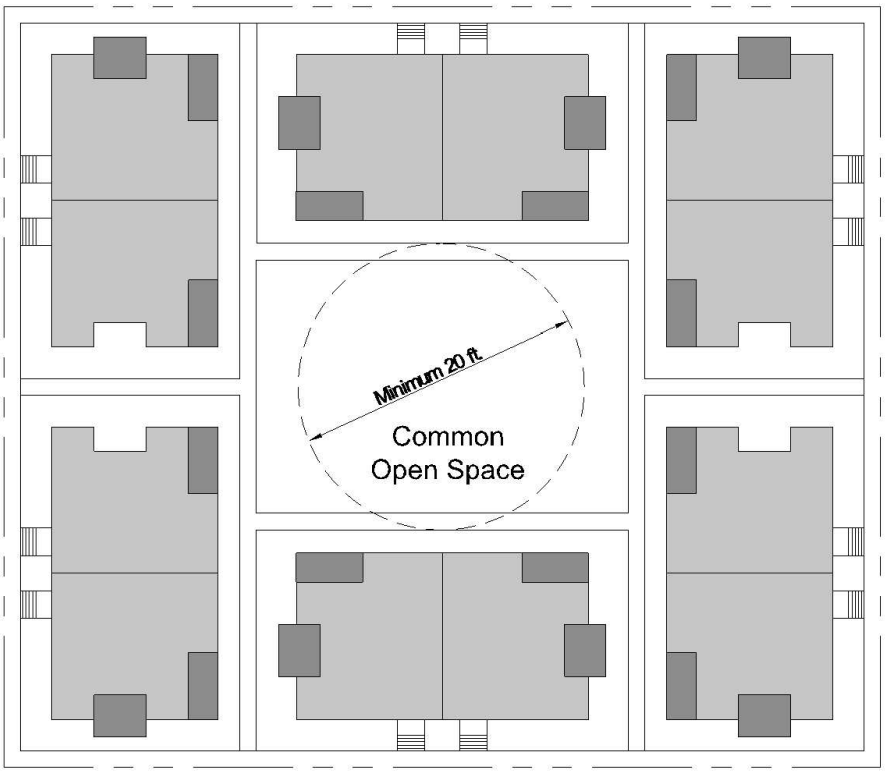

FIGURE 15-1104-E.1.b: MINIMUM REQUIRED COMMON OPEN SPACE DIMENSION

c. **Public Plaza Requirements.** Public plazas are those which are available for use by the general public, as well as tenants of the project. To the extent that public plazas are provided, the following standards shall apply:

i. The minimum dimension of any public plaza shall be 20 feet.

ii. The minimum area of any public plaza shall be 500 square feet. The calculation of the public plaza area shall exclude structures which are unusable as open space, but shall include structures that enhance its usability, such as fountains, planters, benches, and landscaping.

iii. Public plazas shall include benches or other seating, and paving shall be of high-quality materials. Amenities provided shall enhance the comfort, aesthetics, or usability of the space and include, but not be limited to, trees and other landscaping, shade structures, drinking fountains, water features, public art, or performance areas. Landscaping or other aspects of the design shall not discourage the use of the space by the general public.

iv. Public plazas shall be fully accessible from the public right-of-way, shall be located in front of project buildings and shall not be located where public views into the space are obstructed by buildings or other structures.

v. Public plazas may be located within required front setbacks.

vi. A public access easement shall be provided for the space.

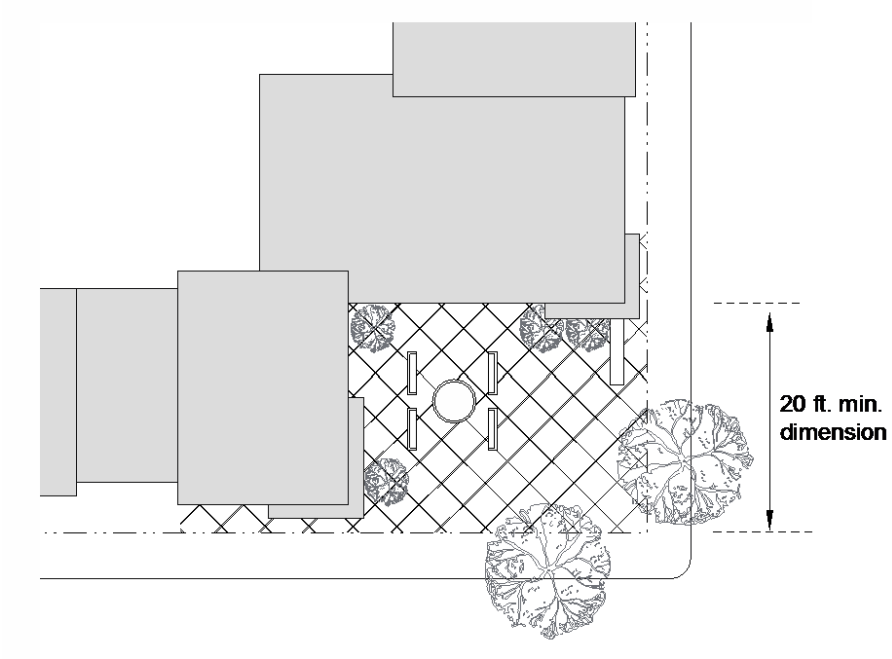

FIGURE 15-1104-E.1.c: MINIMUM REQUIRED PUBLIC PLAZA DIMENSION

2. **Minimum Open Space Reduction.** The minimum amount of open space required shall be reduced by 25 percent in any one of the following circumstances:

   a. Any portion of the lot is located within 400 feet of a transit stop with regular, scheduled service during the weekday hours of 7:00 a.m. to 9:00 a.m. and 5:00 p.m. to 7:00 p.m.

   b. There is a public park within 400 ft. of the site, and

      i. Said park is located on the same side of the street and provides an improved pedestrian path to and from the site; or

      ii. The public park is across a local street and the site provides an improved pedestrian path to and from the site.

   c. The parcel is 15,000 square feet or less in area.

F. **Sidewalk Standards.** Notwithstanding Chapter 13, Section 208 of the Municipal Code, the following shall apply:

1. **Applicability.** All projects shall be required to bring adjacent sidewalk conditions into conformance with the standards of this section, subject to the following exceptions:

   a. Applications for signs only.

b. Additions, remodels, or tenant improvements of less than 50 percent of the current value of the property.

2. **Width.** Sidewalks shall be no less than 12 feet in width. If the current distance between the right-of-way boundary and the face of the adjacent curb is less than 12 feet, the method by which this requirement shall be satisfied shall be determined by Review Authority. The available methods shall be as follows:

a. **Set Back.** The building may be set back from the right-of-way boundary the distance that is necessary to achieve the required sidewalk width. The portion of the sidewalk which lies within the private parcel shall be guaranteed for public access by the enactment of a public access easement.

b. **Reconstruction.** The applicant may demolish and reconstruct the sidewalk for the entirety of the block frontage(s) which the project occupies to the extent necessary to satisfy the requirements of this section.

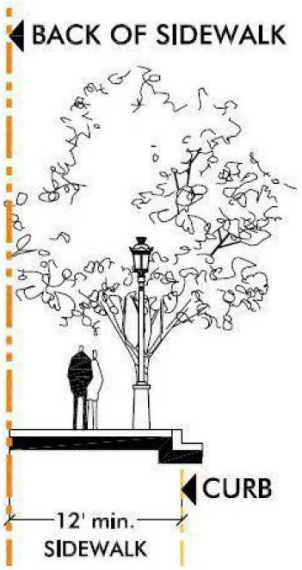
c. **Parklet.** The sidewalk may be expanded into the roadway by a metal or wood deck which does not interfere with the drainage of the street. In such instances the applicant shall enter into an encroachment agreement with the City in which the applicant accepts full responsibility for the maintenance and repair of the parklet, as well as providing the indemnification and insurance as required by the City's Risk Manager.

d. **Width Exemption.** For unusually challenging site conditions, or in instances in which the existing building and sidewalk pattern warrants it, the Director may exempt the applicant providing the full sidewalk width required above. In such instances all other requirements in this section, such as for trees and lighting, shall be met.

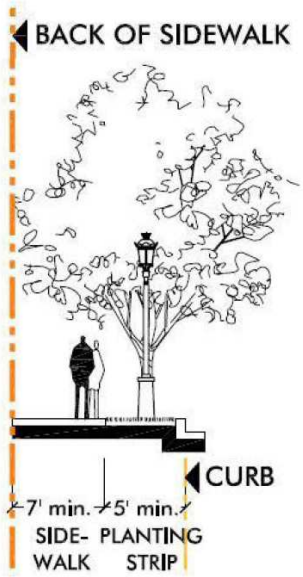
3. **Treatment.** Required sidewalks shall be paved and landscaped as follows:

a. **Adjacent to Mixed-Use or Non-Residential Projects.** The full width of the sidewalk shall be fully paved in uncolored concrete with a simple 30-inch scoring pattern.

b. **Adjacent to Residential-Only Projects.** A seven-foot walkway adjacent to the private parcel shall be paved in uncolored concrete with a simple 30 inch scoring pattern. The five feet adjacent to the curb shall be a parkway strip which shall be landscaped in a manner to be determined by the Director.



Adjacent to Mixed-Use or Non-Residential Projects.



Adjacent to Residential-Only Projects.

4. **Trees.** Street trees shall be provided with sidewalk improvements. Exact tree type and location shall be determined by the Director. Preferred street tree type and location shall be as follows:

   a. **Alignment.** Street trees should be located no more than three feet from the back of curb, and whenever possible should be aligned with other trees on the block.

   b. **Spacing.** Street trees should generally be evenly spaced, no less than 20 feet apart, and not more than 40 feet apart. Whenever possible, trees should not be located directly in front of building entrances.

   c. **Wells.** When a parkway strip is not provided, trees should be placed in tree wells measuring five feet by five feet. To maximize usable sidewalk area, tree wells shall be covered by grates of a design which is approved by the Director. Larger tree wells may be required by the Public Works Director for species requiring more space. The property owner shall assume maintenance responsibilities for the tree grates.

   d. **Species.** Street trees should be deciduous, fast growing, drought tolerant, and should eventually form a tall canopy. Not more than one species should be planted per block. Whenever nearby pre-existing trees are in good condition and meet the intent of this section, new trees should be of the same species.

5. **Lighting.** Pedestrian-scaled street lights shall be provided with sidewalk improvements. Exact design and location shall be determined by the Director. Preferred designs and locations shall be as follows:

   a. **Alignment.** Street lights should be located no more than three feet from the curb, and whenever possible should be aligned with street trees, as well as other lights on the block.

   b. **Spacing.** Street lights should be generally evenly spaced, no less than 30 feet apart, and not more than 80 feet apart. Whenever possible, street lights should be no less than 15 feet from nearby street trees.

   c. **Design.** Street lights should not be of the type commonly known as Cobra Heads or other types which are intended primarily for the illumination of the vehicular roadway. Lights should be ornamental and designed primarily for the illumination of the sidewalk. Whenever nearby pre-existing lights are in good condition and meet the intent of this section, new lights should be of the same type. Intersection safety lights shall be typical cobra-head design, while mid-block lighting should be ornamental and scaled for the pedestrian environment. Lighting shall meet Public Works standards.

6. **Maintenance.** If a Community Facilities District is not established to maintain sidewalks, street trees, and lighting, the applicant shall enter into a maintenance agreement to ensure the maintenance of said facilities.

G. **Service Areas and Loading.** Service and loading areas should be integrated with the design of the building and shall be screened from residential areas. Special attention shall be given when designing loading facilities in a location that is proximate to residential uses. Techniques such as block walls, enhanced setbacks, or enclosed loading shall be used to minimize adverse impacts to residents.

H. **Pedestrian Access.** Pedestrian access to public streets shall be provided at the preference of the applicant by either the Flexibility Option or the Certainty Option as follows:

1. **Flexibility Option.** The applicant must demonstrate to the satisfaction of the Review Authority that the project meets the following goals:

   a. Provide sufficient opportunities to walk to nearby amenities, services, and transit facilities.

   b. Create an interface between the building and the public sidewalk which results in a high level of activity on the sidewalk.

2. **Certainty Option.** Projects which comply with the following standards shall be considered to provide sufficient pedestrian access:

   a. **Common Area Sidewalk Connections.** Common entrances into lobbies or internal pedestrian paths shall be provided at a rate of no less than one per 400 feet of linear street frontage. When providing access to a structure, such

entrances shall be protected by a portico, canopy, or alcove of no less than four feet in depth. When providing access to a structure such entrances shall also feature an architectural element which clearly distinguishes them from entrances into individual dwellings.

b. **Residential Unit Sidewalk Connections.** Direct entrances into individual ground-floor dwelling units which are adjacent to streets shall be provided at a rate of no less than one per 100 feet of linear street frontage. Such entrances shall be protected by a portico, canopy, or alcove of no less than four feet in depth.

c. **Commercial Sidewalk Connections.** Direct entrances into ground-floor commercial establishments which are adjacent to streets shall be provided at a rate of no less than one per 100 feet of linear street frontage. When establishments with dimensions greater than 100 feet occupy a site, they shall be set back and wrapped with smaller spaces that will satisfy this requirement. See Figure 15-1104-H.2.C.

d. **External Connections to Adjacent Development.** Pedestrian walkways shall connect the project site to adjacent Residential, Commercial, Mixed Use, and Office districts at a frequency of no less than one per 600 feet. Projects may be excepted from this requirement in the following situations:

   i. An interconnected street network with short blocks and sidewalks exists in the surrounding area; or

   ii. The project site is less than one acre in size; or

   iii. The adjacent properties are developed and there are no possible connection points via breaks in the perimeter wall/fence.

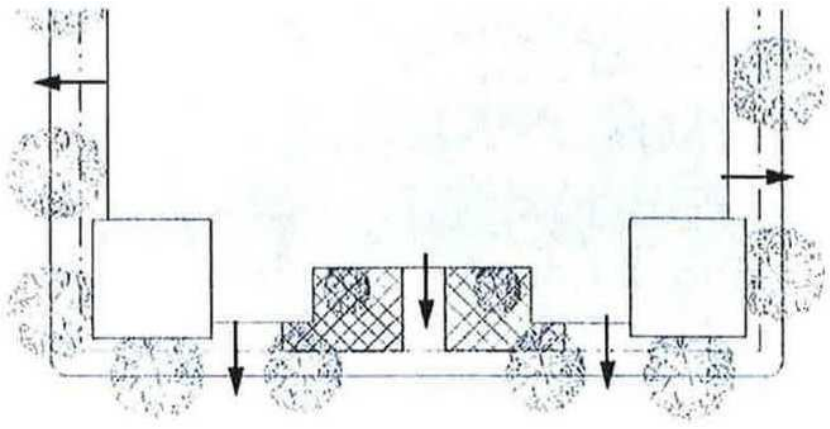


FIGURE 15-1104-H.2: SIDEWALK CONNECTIONS

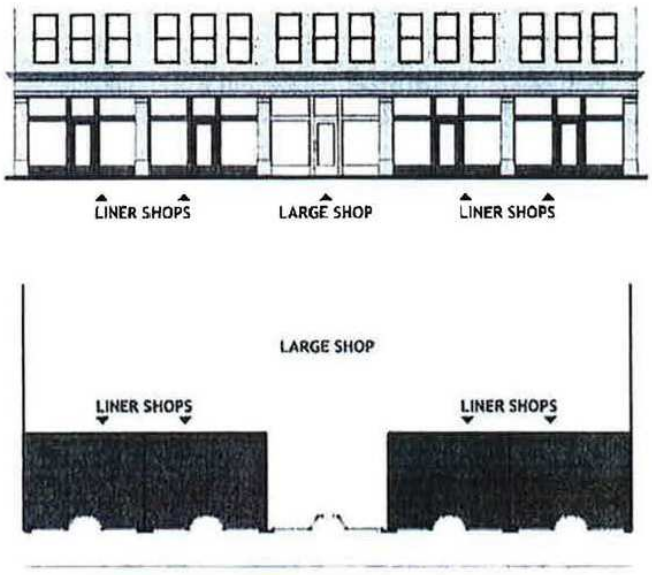

FIGURE 15-1104-H.2.C: WRAPPING OF LARGE USES

a. If the project is located within an area with adopted design guidelines, all applicable guidelines which relate to pedestrian access and the location of doors and entrances shall also be followed.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-1, § 2, eff. 3-14-16; Am. Ord. 2016-32, §§ 11, 12, eff. 10-21-16; Am. Ord. 2018-66, § 9, eff. 1-18-19; Am. Ord. 2022-029, § 3, eff. 11-19-22; Am. Ord. 2025-024, § 21, eff. 7-27-25).

SEC. 15-1105. FAÇADE DESIGN DEVELOPMENT STANDARDS.

Appropriate façade design shall be provided at the preference of the applicant by either the Flexibility Option or the Certainty Option as follows:

A. **Flexibility Option.** The applicant must demonstrate to the satisfaction of the Review Authority that the project meets the following goals:

1. Present an attractive appearance to public streets.

2. Be aesthetically and functionally compatible to the nearby development context,

3. Demonstrate a high level of quality,

4. Support the growth in value of surrounding properties.

B. **Certainty Option.** Street-facing façades for buildings adjacent to a public street shall comply to the following standards. Other façades are not be subject to these standards.

1. **Building Length Articulation.** At least one projection or recess shall be provided for every 50 horizontal feet of wall in one of the following manners:

a. Projections or recesses for buildings 50 feet wide or less shall be exempted from the building length articulation requirement; projections or recesses for buildings greater than 50 feet in width but less than 100 feet in width shall be no less than 12 inches in depth; or projections or recesses for buildings 100 feet wide or wider shall be no less than 24 inches in depth.

b. The depth and width of the projection or recess shall be proportionate to the overall mass of the building.

2. **Building Height Articulation.** In order to maintain a human scale for multi-story buildings, the height of façades shall be broken into smaller increments as follows:

a. **Ground Floor.** A substantial horizontal articulation of the façade shall be applied at the top of the first story, This element shall be no less than 18 inches tall, and should project from the adjacent wall plane. It shall be designed as a cornice, belt course, or a similar architectural element which is appropriate to the style of the building.

b. **Top Floor.** Buildings or portions of buildings which are four stories in height or taller shall also provide articulation for the top story of the building. This may be accomplished by a color change, material change, a cornice/belt course at the bottom of the uppermost story, by stepping the uppermost story back, or similar measures.

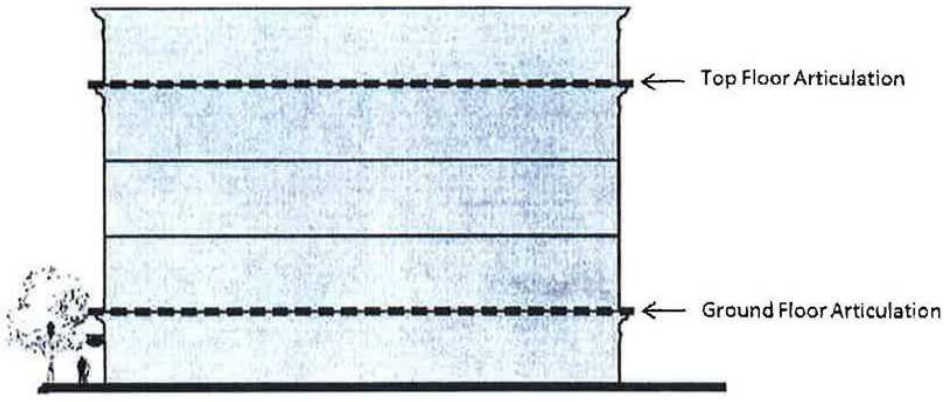

FIGURE 15-1105-B.2: BUILDING HEIGHT ARTICULATION

C. **Building Materials and Finishes.** Materials shall present a durable and attractive appearance through high-quality materials, finishes, and workmanship defined as:

1. At least two cladding materials (excluding roof and foundation); and

2. At least three exterior colors (each cladding material shall count as a color, and trim/accent colors shall each count as a color, and visually significant colors for doors, balconies, and similar elements may count as a color).

3. **Exception:** Buildings which accurately adhere to a recognized architectural style which is appropriately expressed in one cladding material and one color shall be excepted.

4. **Exception:** Buildings with all of the following characteristics shall be allowed to use one cladding material:

   a. Building height of 3 stories or less;

   b. Building width of 100 feet or less; and

   c. A façade with a comparable form of visual interest,

D. **Window Design.**

1. **Glazing Ratio.** Street-facing façades of each floor of the building shall have an overall wall composition of at least 25 percent glazing, but not more than 70 percent glazing, with the exception that commercial portions of the ground floor shall be subject to subsection D-2 below.

2. **Ground Floor Commercial Transparency.** For ground floor street-facing façades on portions of a structure occupied by commercial uses, exterior walls facing a front or street-side tot line shall Include windows, doors, or other openings with transparent glazing for at least 50 percent of the building wall area located between 2.5 and seven feet above the level of the sidewalk. Openings fulfilling this requirement shall have transparent glazing and provide views into work areas, display areas, sales areas, lobbies, or similar active spaces, or into window displays that are at least two feet deep. The Review Authority may waive or reduce this requirement if doing so is necessary to satisfy State or local energy efficiency requirements.

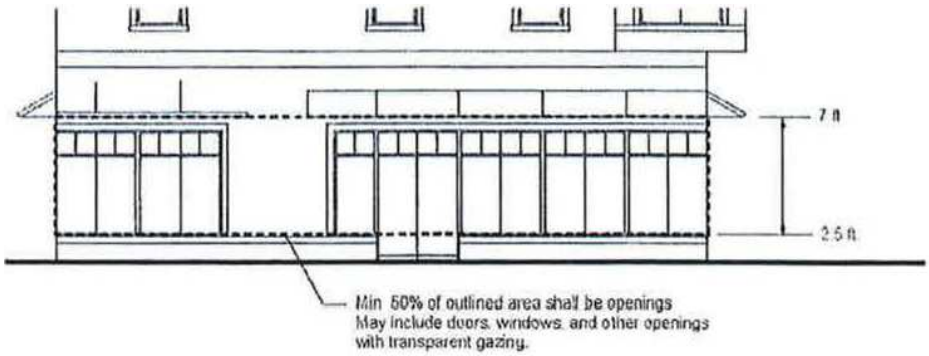

FIGURE 15-1105-D.2: GROUND FLOOR COMMERCIAL TRANSPARENCY

1. **Vertical Proportion.** On upper stories, at least 50 percent of all window openings, window panes, or distinct window units shall have a vertical proportion, in which their height exceeds their width by 25 percent or more.

2. **Window Depth.** Windows shall create visual interest and the appearance of depth in one of the following manners:

   a. Trim at least one inch in depth and three inches wide must be provided around all upper story windows and non-commercial ground-floor windows;

   b. Windows must be recessed at least two inches from the plane of the surrounding exterior wall (for double-hung and horizontal sliding windows, at least one sash shall achieve the two-inch recess); or

   c. Decorative plaster screed, minimum 2 inches wide.

   d. Exception: Buildings with all of the following characteristics shall be allowed to use flush windows without trim:

      i. Building height of 3 stories or less;

      ii. Building width of 100 feet or less; and

      iii. A façade with a comparable form of prominent surface relief and articulation, such as awnings, canopies, balconies, or massing changes.

E. **Façade Alignment.**

1. **Vertical Alignment.** With the exception of mansard roofs, cornices, and other such features, façades shall be oriented vertically and shall have no slope.

2. **Horizontal Alignment.** With the exception of bay windows and similar features, façades shall run parallel or perpendicular to the adjacent street.

3. **External Stairs, Corridors, and Hallways.** External stairs, corridors, and hallways that are located within 30 feet of a public street must be architecturally integrated into the building design.

F. **Balconies.** If balconies are provided, they shall not be grouped together into a continuous band across the façade. No more than two balconies shall be contiguous. Each balcony or group of two balconies shall be distinct and shall have at least six feet of horizontal separation from any other balcony.

G. **Façade Elements.** Development shall incorporate a minimum of one of the following Façade Elements into street-facing building façades.

1. Forecourts;
2. Bay Windows;
3. Balconies;
4. Porches;
5. Stoops;
6. Arcades.

H. If the project is located within an area with adopted design guidelines, all applicable guidelines which relate to façade design shall also be followed.

(Added Ord. 2016-1, § 2, eff. 3-14-2016).

SEC. 15-1106. RESERVED.

Editor's note—Ord. 2025-023, § 1, eff. December 26, 2025, repealed § 15-1106, which pertained to additional standards and derived from Added Ord. 2022-029, § 4, effective November 19, 2022.

ARTICLE 12 COMMERCIAL DISTRICTS (C)

Sec. 15-1201. Purpose.
Sec. 15-1202. Use Regulations.
Sec. 15-1203. Intensity and Massing Development Standards.
Sec. 15-1204. Site Design Development Standards.
Sec. 15-1205. Façade Design Development Standards.

SEC. 15-1201. PURPOSE.

The specific purposes of the Commercial Districts are to:

A. Provide for a full range of commercial uses to serve Fresno and the greater region.

B. Ensure the provision of shops, services, and facilities needed to accommodate future population and employment.

C. Establish development and design standards that create a unified, distinctive, and attractive character along commercial streets.

D. Provide appropriate buffers between commercial and adjacent residential uses to preserve both commercial feasibility and residential environments.

E. Ensure that new development is designed to minimize traffic and parking impacts on surrounding residential neighborhoods and is appropriate to the physical characteristics of the area.

F. Implement and provide appropriate regulations for General Plan classifications of "Main Street Commercial," "Community Commercial," "Regional Commercial," "General Commercial," "Highway and Auto Commercial," and "Commercial Recreation."

Additional purposes of each Commercial District are as follows:

CMS Commercial—Main Street. The CMS district is intended to preserve or promote small-scale, fine-grain commercial development in neighborhoods where single-unit residential and townhomes are predominant. A traditional "Main Street" character is achieved with active storefronts, outdoor seating and pedestrian-oriented design.

CC Commercial—Community. The CC district is intended for commercial development that primarily serves local needs such as convenience shopping and offices. Specific uses allowed include medium-scale retail, office, civic and entertainment uses, supermarkets, drug stores, and supporting uses.

CR Commercial - Regional. The CR district is intended to meet local and regional retail demand, such as large-scale retail, office, civic and entertainment uses, shopping malls with large-format or "big-box" retail, and supporting uses such as gas stations and hotels. Buildings are typically larger-footprint and urban-scaled. Development and design standards will create a pedestrian-orientation within centers and along major corridors, with parking generally on the side or rear of major buildings, but automobile-oriented uses also will be accommodated on identified streets and frontages.

CG Commercial—General. The CG district is intended to accommodate a range of retail and service uses that are not appropriate in other areas because of higher volumes of vehicle traffic and potential impacts on other uses. Examples of allowable uses include: building materials, storage facilities with active storefronts, equipment rental, wholesale businesses, and specialized retail not normally found in shopping centers. The focus of district development standards is to ensure structures fit into the surrounding development pattern and architectural or traffic conflicts are minimized.

CH Commercial—Highway and Auto. The CH district is intended for limited areas near the freeway to accommodate uses that depend on or are supported by freeway access, but do not generate a large volume of traffic. Hotels, restaurants, and auto malls are typical land uses.

CRC Commercial—Recreation. The CRC district is intended to provide areas for private commercial recreation uses where patrons usually pay to participate and to group commercial-recreation uses into a planned, integrated center, including related service and commercial uses. Typical uses include bowling alleys, family entertainment centers, driving ranges, miniature golf courses, skating rinks, tennis courts, swimming pools, sports stadiums, arenas, and the County fairgrounds.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 22, eff. 7-27-25).

SEC. 15-1202. USE REGULATIONS.

A. Table 15-1202 prescribes the proposed land use regulations for Commercial Districts. The regulations for the districts are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

"P" designates permitted uses.

"C" designates uses that are permitted after review and approval of a Conditional Use Permit.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"-" designates uses that are not permitted.

B. Land uses are defined in Article 67, Use Classifications.

C. In cases where a specific land use or activity is not defined, the Director shall assign the land use or activity to a classification that is substantially similar in character per Section 15-5020, Director's Determination.

D. All permitted uses are allowed either alone or in combination with other permitted uses unless otherwise stated in this Code.

E. Use classifications and subclassifications not listed in the table or not found to be substantially similar to the uses below are not permitted.

F. The table also notes additional regulations that apply to various uses. Section numbers in the right hand column refer to other sections of this Code.

Specific Limitations:

1. Not allowed on the ground floor.
2. Not allowed on the ground floor along arterials or collectors.
3. Not to include industrial training such as welding or automotive repair involving the use of tools and materials appropriate to an industrial use area.
4. Must be located along an arterial or collector.
5. Limited to establishments with a gross floor area of 5,000 square feet or less.
6. Shall be below grade or in structures faced with active uses along the street.
7. Limited to 2,500 square feet in size, located on a collector or higher classification street.
8. Permitted only as an accessory use that supports commercial recreation.
9. Limited to 1,500 square feet in size if on the ground floor.
10. Limited to facilities associated with park and recreation facilities.
11. Provided that such use shall be completely enclosed in a building of soundproof construction.
12. Limited to establishments with a gross floor area of 10,000 square feet or less.
13. Building heights for hospitals shall not exceed 150 ft. There is no maximum Floor Area Ratio for hospitals.
14. Limited to upper stories unless at least 50 percent of ground floor street frontage is occupied by food service use.
15. Must include an indoor waiting area.
16. Housing projects shall meet the requirements of § 15-1104, § 15-1106, and Table 15-1203-1.
17. Not permitted along ground floor on Olive Avenue between Van Ness Avenue and Echo Avenue.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 13, eff. 10-21-16; Am. Ord. 2017-33, § 8, eff. 7-30-17; Am. Ord. 2018-25, § 9, eff. 6-11-18; Am. Ord. 2018-66, § 10, eff. 1-18-19; Am. SEC. 15-1203. INTENSITY AND MASSING DEVELOPMENT STANDARDS.

Tables 15-1203-1 to 15-1203-2 prescribe the intensity and massing development standards for the Commercial Districts. Additional regulations are denoted in a right hand column. Section numbers in this column refer to other sections of the Code, while individual letters refer to subsections that directly follow the table. The numbers in each illustration below correspond to the "#" column in the associated table. Drawings are for illustrative purposes and are not drawn to scale.

SEC. 15-1204. SITE DESIGN DEVELOPMENT STANDARDS.

A. **Residential Transition Standards.** Where a C District is adjacent to a Residential District, the following standards apply:

1. **Height.** The maximum height within 40 feet of an R District is limited to 30 feet. The maximum height within 50 feet of an R District is 40 feet.

2. **Setbacks.**

   a. **Front.** The front setback shall not be less than the required front yard on the abutting R District lot within 50 feet of the R District.

   b. **Interior Side and Rear.** The interior side and rear setback abutting an R District boundary shall be 20 feet. In the CMS District, the interior side yard may be reduced to 10 feet with Director approval.

3. **Landscape.** See Table 15-2305-C.1, Required Landscape Buffers.

4. **Screening.** When a multi-story building is proposed and the second story or above is located within 50 feet of the side or rear yard of a single-unit lot, screening measures shall be applied to provide a reasonable degree of privacy.

   a. Screening measures include, but are not limited to, landscaping, alternate window and balcony placements, placing windows at least six feet from the floor of the interior of the unit, incorporating wing walls or louvers, using glass block or other translucent material, and other such methods.

   b. Sufficiency of Screening. The Review Authority shall determine the sufficiency of the proposed screening measures and may require additional measures.

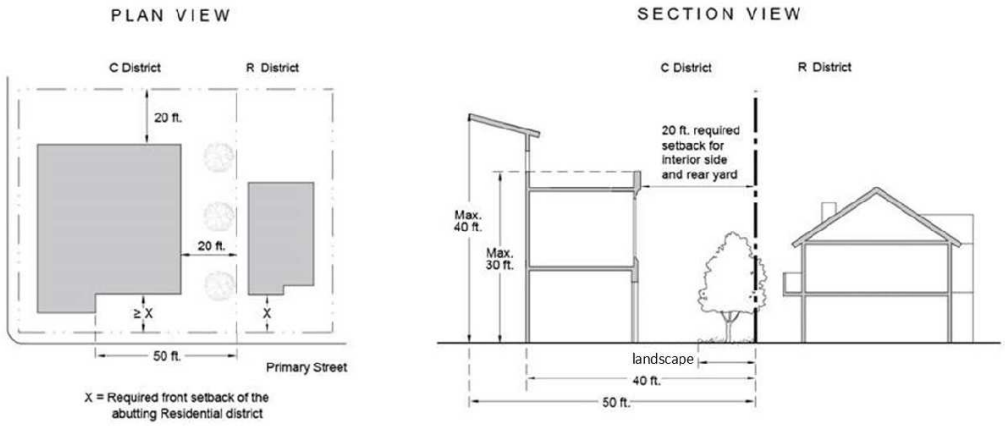

FIGURE 15-1204-A: RESIDENTIAL TRANSITION STANDARDS—C DISTRICTS

B. **Enhanced Streetscape.** As shown on Table 1203-2, projects which provide an enhanced streetscape will not be required to provide a front setback. A project shall be considered to have an enhanced streetscape when it has all of the following characteristics:

1. Sidewalks shall be no less than 12 feet in width. If the current distance between the right-of-way boundary and the face of the adjacent curb is less than 12 feet, the building shall be set back from the right-of-way boundary the distance that is necessary to achieve the required sidewalk width. The portion of the sidewalk which lies within the private parcel shall be guaranteed for public access by the enactment of a public access easement.
2. Street trees shall be provided as follows:
    a. Street trees should be located no more than three feet from the back of curb, and whenever possible should be aligned with other trees on the block.
    b. Street trees should generally be evenly spaced, no less than 20 feet apart, and not more than 40 feet apart.
    c. Whenever possible, trees should not be located directly in front of building entrances.
    d. Trees should be placed in tree wells measuring five feet by five feet. To maximize usable sidewalk area, tree wells shall be covered by grates of a design which is approved by the Director. Larger tree wells may be required by the Public Works Director for species requiring more space. The property owner shall assume maintenance responsibilities for the tree grates.
    e. Street trees should be deciduous, fast growing, drought tolerant, and should eventually form a tall canopy. Not more than one species should be planted per block. Whenever nearby pre-existing trees are in good condition and meet the intent of this section, new trees should be of the same species.

3. Pedestrian-scaled street lights shall be provided as follows:

   a. Street lights should be located no more than three feet from the curb, and whenever possible should be aligned with street trees and other lights on the block.

   b. Street lights should be generally evenly spaced, no less than 30 feet apart, and not more than 80 feet apart. Whenever possible, street lights should be no less than 15 feet from nearby street trees.

   c. Street lights should not be of the type commonly known as Cobra Heads or other types which are intended primarily for the illumination of the vehicular roadway. Lights should be ornamental and designed primarily for the illumination of the sidewalk. Whenever nearby pre-existing lights are in good condition and meet the intent of this section, new lights should be of the same type. Intersection safety lights shall be typical cobra-head design, while mid-block lighting should be ornamental and scaled for the pedestrian environment. Lighting shall meet Public Works standards.

4. If a Community Facilities District is not established to maintain sidewalks, street trees, and lighting, the applicant shall enter into a maintenance agreement to ensure the maintenance of said facilities.

5. Facades located with 15 feet of the public sidewalk shall be oriented to the street as follows:

   a. If there is a primary common building entrance which provides access to reception areas, elevators, stairs, and internal circulation, it shall face and be oriented to the street. If there is a yard between the sidewalk and the building, a paved path six feet in width shall be provided from the public sidewalk to the entrance.

   b. Direct entrances from the sidewalk in to individual establishments located along the street frontage shall be provided. If there is a yard between the sidewalk and the building, a paved path six feet in width shall be provided from the public sidewalk to the entrance.

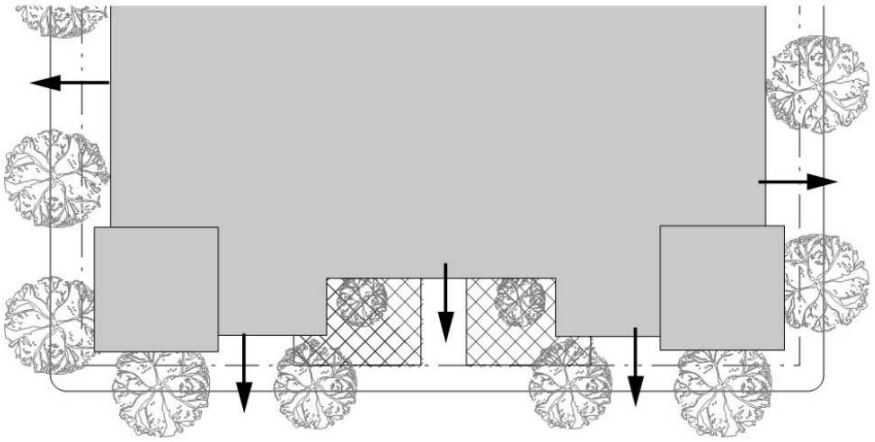

FIGURE 15-1204-B.5: BUILDING ORIENTATION TO THE STREET

6. Exterior walls facing a front or street side lot line shall include windows, doors, or other openings with transparent glazing for at least 60 percent of the building wall area located between 2.5 and seven feet above the level of the sidewalk. Openings fulfilling this requirement shall have transparent glazing and provide views into work areas, display areas, sales areas, lobbies, or similar active spaces, or into window displays that are at least two feet deep.

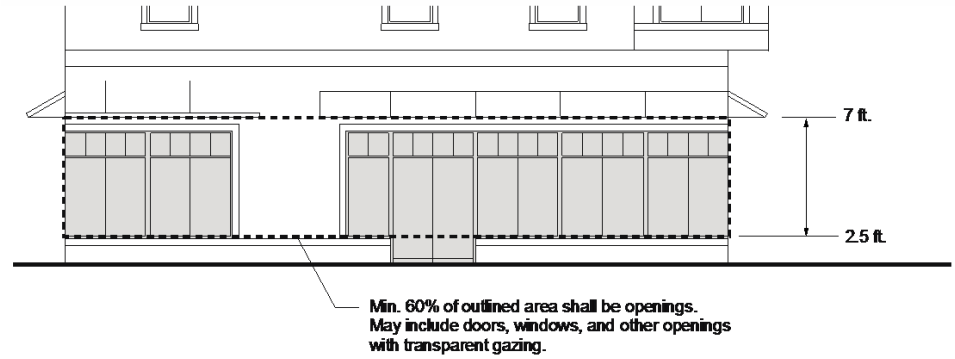

FIGURE 15-1204-B.6: BUILDING TRANSPARENCY

7. Where buildings are located within two feet of a public sidewalk, the sidewalk shall be shaded by awnings or canopies as follows:

   a. Awning or canopy depth shall be no less than four feet and no more than 10 feet.

   b. Clearance shall be no less than eight feet and no more than 12 feet from the finished floor.

C. **Parking.** Parking shall be setback as shown in Table 15-1203-2 except as provided below:

1. **Underground Parking.** Parking that is fully underground and below the street grade may extend from lot line to lot line.

2. **Partially Submerged and Podium Parking.** Parking that is partially below the street grade may extend to the setbacks of the main structure. A maximum six feet of the parking structure height may extend above the street grade if screened along street facing elevations by foundation plant materials. Gates need not be screened.

3. **Surface Parking.** On lots less than 150 feet in width or depth, surface parking may be located within 50 feet of a street facing lot line for a maximum of 50 percent of the lot frontage if the parking area is screened with a garden wall, hedge, trellis, and/or other landscaping or built structures facing the sidewalk.

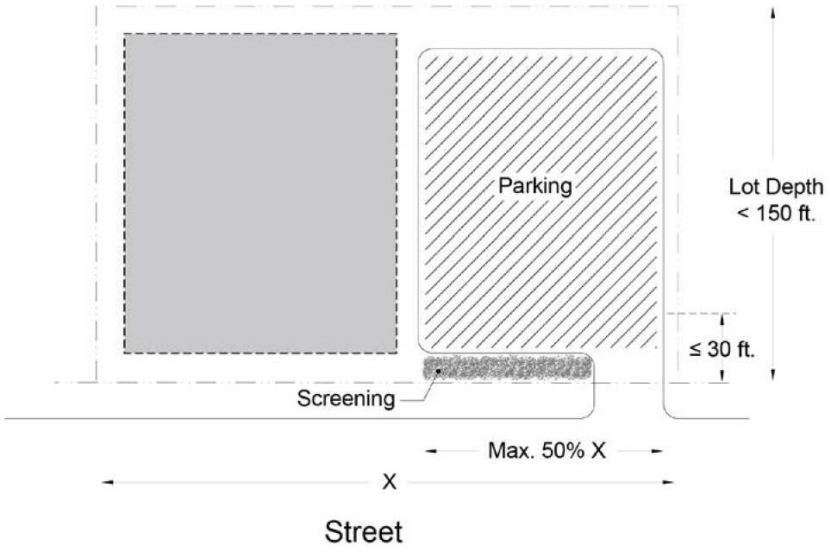

FIGURE 15-1204-C.3: SURFACE PARKING

D. **Public Plazas.** The following standards apply to commercial shopping center developments in the CC and CR Districts.

1. **Entry Plazas/Passenger Loading Areas.** A plaza shall be provided at the entry to each anchor tenant that provides for pedestrian circulation and loading and unloading. Entry plazas and passenger loading areas shall include unique, decorative paving materials, adequate seating areas, and provision of adequate shade, and attractive landscaping, including trees or raised planters.

2. **On-Site Plazas.** Outdoor plazas for the use of customers and visitors shall be provided at a rate of five square feet per 1,000 square feet of floor area, up to 1,500 square feet per plaza.

3. **Location.** Plazas shall be visible from a public street or from on-site areas normally frequented by customers, and shall be accessible during business hours.

4. **Amenities.** Plazas shall include benches or other seating, and paving shall be of high-quality materials. Amenities shall be included that enhance the comfort, aesthetics, or usability of the space, including, but not limited to, trees and other landscaping, shade structures, drinking fountains, water features, public art, or performance areas.

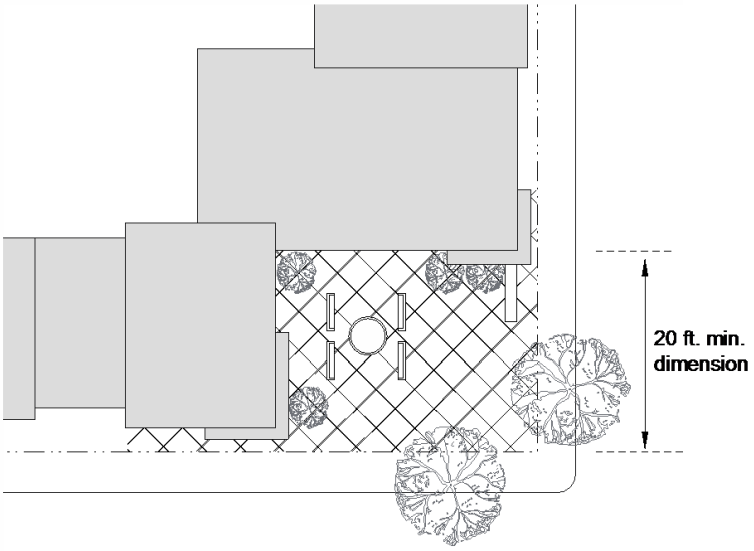

FIGURE 15-1204-D: PUBLIC PLAZAS

E. **Pedestrian Access.** On-site pedestrian circulation and access shall be provided according to the following standards.

1. **Internal Connections.** A system of pedestrian walkways shall connect all buildings on a site to each other, to on-site automobile and bicycle parking areas, and to any on-site open space areas or pedestrian amenities.

2. **External Connections.** A system of pedestrian walkways shall connect the project site to adjacent Residential, Commercial, Mixed-Use, Office districts as follows:

   a. If the adjacent Residential, Commercial, Mixed-Use, and Office districts are undeveloped, stub connections shall be provided at a frequency of one per 600 feet. Upon the development of the adjacent parcels, any fencing or gates at the stubs shall be opened.

   b. If the adjacent Residential, Commercial, Mixed-Use, and Office districts are developed and provide connection points via breaks in the perimeter wall/fence or stub streets, then the project shall provide pedestrian walkway connections at those locations.

c. If the adjacent Residential, Commercial, Mixed-Use, and Office districts are developed there are no possible connection points via breaks in the perimeter wall/fence, then the project shall not be required to provide connections.

3. **To Circulation Network.** Regular connections between on-site walkways and the public sidewalk and other planned or existing pedestrian routes shall be provided. An on-site walkway shall connect the primary building entry or entries to a public sidewalk on each street frontage.

4. **To Streets.** Direct and convenient access shall be provided to adjoining residential and commercial areas to the maximum extent feasible while still providing for safety and security.

5. **To Transit.** Safe and convenient pedestrian connections shall be provided from transit stops to building entrances.

6. **Pedestrian Walkway Design.**

a. Walkways shall be a minimum of four feet wide, shall be hard-surfaced, and paved with concrete, stone, tile, brick, or comparable material.

b. Where a required walkway crosses driveways, parking areas, or loading areas, it must be clearly identifiable through the use of a raised crosswalk, a different paving material, or similar method.

c. Where a required walkway is parallel and adjacent to an auto travel lane, it must be raised or separated from the auto travel lane by a raised curb at least six inches high, bollards, or other physical barrier.

F. **Service Areas and Loading.** Service and loading areas should be integrated with the design of the building and shall be screened from residential areas. Special attention shall be given when designing loading facilities in a location that is proximate to residential uses. Techniques such as block walls, enhanced setbacks, or enclosed loading bays can minimize adverse impacts to residents.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 24, eff. 7-27-25).

SEC. 15-1205. FAÇADE DESIGN DEVELOPMENT STANDARDS.

A. **Building Articulation.** All street-facing façades, including freeway-facing façades, must include at least one projection or recess at least two feet in depth for every 25 horizontal feet of wall.

B. **Building Materials and Finishes.**

1. Each side of a building that is visible from a street or passenger railway shall be designed with a complementary level of detailing and quality of materials.

2. Veneers should turn corners, avoiding exposed edges and continue down the side of a building to a logical break, such as a change in wall plane. Material changes at outside corners should be avoided.

3. Windows shall maintain a consistent design character throughout the development and shall be of the same material on all elevations facing a street.
4. Building entrances and common areas shall be accentuated with enhanced finishes and materials that are durable and high quality and distinguish these spaces from other elements of the building.
5. Parking areas and structures shall be designed to match and be compatible with the architectural character, materials, and colors of the overall development.
6. The design of building additions should follow the same general scale, proportion, massing, and detailing of the original structure, and not in stark contrast to the original structure.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 13 EMPLOYMENT DISTRICTS (E)

Sec. 15-1301. Purpose.
Sec. 15-1302. Use Regulations.
Sec. 15-1303. Intensity and Massing Development Standards.
Sec. 15-1304. Site Design Development Standards.
Sec. 15-1305. Façade Design Development Standards.

SEC. 15-1301. PURPOSE.

The purposes of the Employment Districts are to:

A. Designate adequate land for industrial, office, research and development, and flexible commercial uses to strengthen the city's economic base and provide a range of employment opportunities for the current and future population of the city and region.

B. Provide for the appropriate location of businesses that may have the potential to generate off-site impacts, while providing to ensure compatibility in use and form with existing and planned land uses.

C. Provide appropriate buffers between employment centers and residential uses.

D. Implement and provide appropriate regulations for General Plan classifications of "Office," "Business Park," "Regional Business Park," "Light Industrial," and "Heavy Industrial."

Additional purposes of each Employment District are as follows:

O Office. The O district is intended to provide sites for administrative, financial, business, professional, medical, and public offices, as identified by the General Plan. Retail uses would be limited to business services and food service and convenience goods for those who work in the area. This district is intended for locations where the noise or traffic generated by retail sales, restaurants, and service commercial may be incompatible with surrounding residential neighborhoods.

BP Business Park. The BP district is intended to provide a campus-type office professional environment that is well suited for large offices or multi-tenant buildings on sites identified by the General Plan. This district is intended to accommodate and allow for the expansion of small businesses with limited outdoor storage screened with landscaping proximate to residential uses. Typical land uses include research and development, laboratories, administrative and general offices, medical offices and clinics, and professional offices. Small-scale retail and service uses serving local employees and visitors are permitted as secondary uses.

RBP Regional Business Park. The RBP district is intended for large or campus-like office and technology development that includes office, research and development, manufacturing, and other large-scale, professional uses with limited and properly screened outdoor storage. Permitted uses include incubator-research facilities, prototype manufacturing, testing,

repairing, packaging, and printing as well as offices and research facilities, on sites identified by the General Plan. Small-scale retail and service uses serving local employees and visitors are permitted as secondary uses.

IL Light Industrial. The IL district is intended to provide areas, as identified by the General Plan, for a diverse range of light industrial uses, including limited manufacturing and processing, research and development, fabrication, utility equipment and service yards, wholesaling, warehousing, and distribution activities. Small-scale retail and ancillary office uses are also permitted. Light Industrial areas may serve as buffers between Heavy Industrial Districts and other land uses and otherwise are generally located in areas with good transportation access, such as along railroads and freeways.

IH Heavy Industrial. The IH district is intended to accommodate the broadest range of industrial uses on sites identified in the General Plan. It includes manufacturing, assembly, wholesaling, distribution, and storage activities that are essential to the development of a balanced economic base. Small-scale commercial services and ancillary office uses are also permitted.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-1302. USE REGULATIONS.

A. Table 15-1302 below prescribes the proposed land use regulations for Employment Districts. The regulations for the district are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

"P" designates permitted uses.

"C" designates uses that are permitted after review and approval of a Conditional Use Permit.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"-" designates uses that are not permitted.

B. Land uses are defined in Article 67, Use Classifications.

C. In cases where a specific land use or activity is not defined, the Director shall assign the land use or activity to a classification that is substantially similar in character per Section 15-5020, Director's Determination.

D. All permitted uses are allowed either alone or in combination with other permitted uses unless otherwise stated in this Code.

E. Use classifications and subclassifications not listed in the table or not found to be substantially similar to the uses below are not permitted.

F. The table also notes additional regulations that apply to various uses. Section numbers in the right hand column refer to other sections of this Code.

Specific Limitations: 1. Permitted if existing, no new units are allowed. 2. One caretaker dwelling is allowed where having a caretaker living on the site is necessary for the conduct of the on-site business. 3. Not to include industrial training such as welding or automotive repair involving the use of tools and materials appropriate to an industrial use area. 4. Limited to establishments with a gross floor area of 6,000 square feet or less. 5. Not allowed on the ground floor. 6. Permitted only as an accessory use that supports business and office parks, corporate offices, and industrial uses. 7. Limited to membership club retailers and located on an arterial or higher classifications street. 8. Outdoor storage shall be incidental to a primary use and screened from public view. 9. Limited to heliports used as accessory to a hospital. 10. Limited to upper stories unless at least 50 percent of ground floor street frontage is occupied by food service use. 11. Building heights for hospitals shall not exceed 150 ft. There is no maximum Floor Area Ratio for hospitals. 12. Must be closed between the hours of 10 p.m. and 6 a.m. 13. Must include an indoor waiting area. 14. When located within 300 of an Intensive Industrial use a Conditional Use Permit shall be required. 15. Shall be required to comply with Master Environmental Impact Report mitigation measures MM AIR-2, MM AIR-3, and MM AIR-4 if applicable. 16. A courtesy notice will be provided to all properties within 1,000 feet of these uses when approved. 17. Permitted in conversions of existing office building(s). 18. Permitted for the construction of new residential uses on vacant or underutilized parcels. Housing projects shall meet the requirements of the RM-1, RM-2 or RM-3 District, § 15-1003. 19. New residential development is prohibited on vacant or underutilized parcels located in the Office Zone District within 500 feet of a school. 20. New residential development building height shall be limited to 45 feet unless the project is located within a half mile of the intersection of two Major Transit Stops as defined in Appendix M of the California Environmental Quality Act Guidelines.

SEC. 15-1303. INTENSITY AND MASSING DEVELOPMENT STANDARDS.

Tables 15-1303-1 to 15-1303-2 prescribe the intensity and massing development standards for the Employment Districts. Additional regulations are denoted in a right hand column. Section numbers in this column refer to other sections of the Code, while individual letters refer to subsections that directly follow the table. The numbers in each illustration below correspond to the "#" column in the associated table. Drawings are for illustrative purposes and are not drawn to scale.

SEC. 15-1304. SITE DESIGN DEVELOPMENT STANDARDS.

A. **Residential Transition Standards.** Where an E District abuts a Residential District, the following standards apply:

1. **Height.** The maximum height within 40 feet of a Residential District is limited to 30 feet. The maximum height within 50 feet of a residential district is 40 feet.

2. **Setbacks.**

   a. **Front and Street Side Yards.** The front setback shall not be less than the required front yard on the abutting Residential District lot within 75 feet of the Residential District.

   b. **Interior Side and Rear for the IL and IH Districts.** The interior side and rear setback abutting a Residential District boundary shall be no less than 50 feet.

   c. **Interior Side and Rear Setbacks for All Other Employment Districts.** The interior side and rear setback abutting a Residential District boundary shall be 20 feet.

3. **Landscape.** See Table 15-2305-C.1, Required Landscape Buffers.

4. **Screening.** When a multi-story building is proposed and the second story or above is located within 50 feet of the side or rear yard of a single-unit lot, screening measures shall be applied to provide a reasonable degree of privacy.

   a. Screening measures include, but are not limited to, landscaping, alternate window and balcony placements, placing windows at least six feet from the floor of the interior of the unit, incorporating wing walls or louvers, using glass block or other translucent material, and other such methods.

   b. **Sufficiency of Screening.** The Review Authority shall determine the sufficiency of the proposed screening measures and may require additional measures.

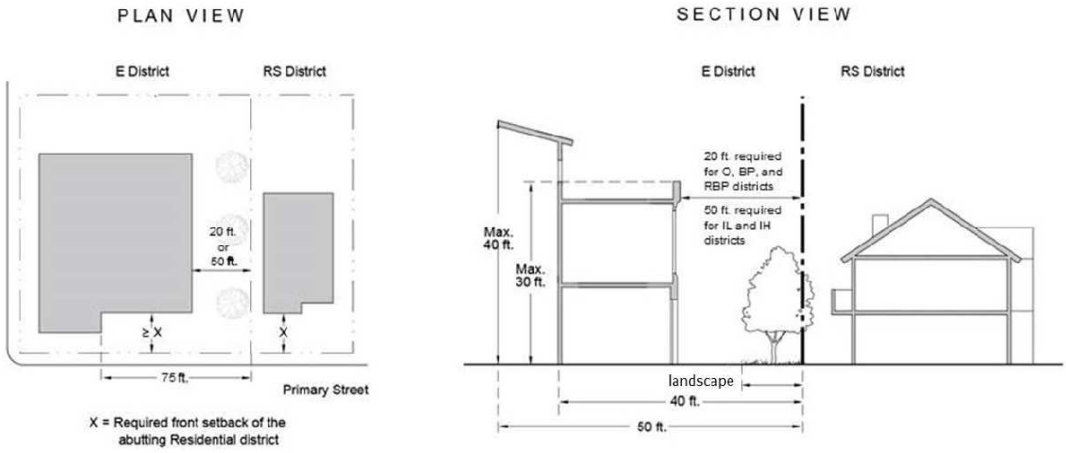

FIGURE 15-1304-A: RESIDENTIAL TRANSITION STANDARDS—E DISTRICTS

B. **Exceptions to Maximum Height in Woodward Park Area.** Within the geographic area that is hatched in Figure 15-1304-B, the maximum permitted building height may be increased to 120 feet. Such projects shall conform to the residential transition standards in Section 1304-A and shall be subject to a Planned Development Permit.

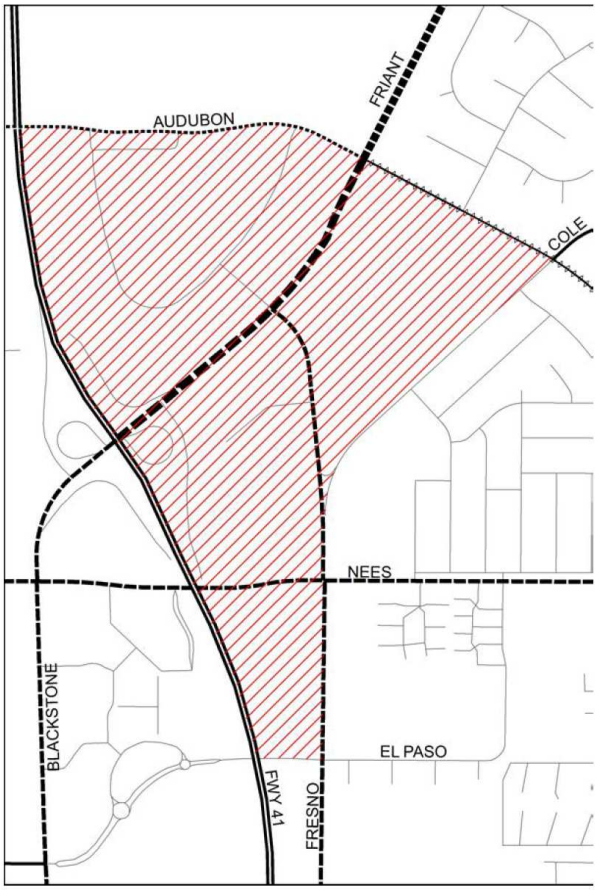

FIGURE 15-1304-B: EXCEPTIONS TO MAXIMUM HEIGHT IN WOODWARD PARK AREA

C. **Exceptions to Maximum Height in IL and IH Districts.** Within the IL and IH Districts, uninhabited structures such as silos, cooling towers, and similar structures used for storage and manufacturing may exceed the maximum height prescribed in 15-1303-2 by no more than 40 feet. Height in excess of 100 feet for such structures is subject to a Conditional Use Permit.

D. **Enhanced Streetscape.** Projects in O Districts which include buildings with a front setback of less than 15 feet shall provide the following streetscape enhancements:

1. Sidewalks shall be no less than 12 feet in width.

2. Street trees shall be provided as follows:

    a. Street trees should be located no more than three feet from the back of curb, and whenever possible should be aligned with other trees on the block.

b. Street trees should generally be evenly spaced, no less than 20 feet apart, and not more than 40 feet apart.

c. Whenever possible, trees should not be located directly in front of building entrances.

d. Trees should be placed in tree wells measuring five feet by five feet. To maximize usable sidewalk area, tree wells shall be covered by grates of a design which is approved by the Director. Larger tree wells may be required by the Public Works Director for species requiring more space. The property owner shall assume maintenance responsibilities for the tree grates.

e. Street trees should be deciduous, fast growing, drought tolerant, and should eventually form a tall canopy. Not more than one species should be planted per block. Whenever nearby pre-existing trees are in good condition and meet the intent of this section, new trees should be of the same species.

3. Pedestrian-scaled street lights shall be provided as follows:

a. Street lights should be located no more than three feet from the curb, and whenever possible should be aligned with street trees and other lights on the block.

b. Street lights should be generally evenly spaced, no less than 30 feet apart, and not more than 80 feet apart. Whenever possible, street lights should be no less than 15 feet from nearby street trees.

c. Street lights should not be of the type commonly known as Cobra Heads or other types which are intended primarily for the illumination of the vehicular roadway. Lights should be ornamental and designed primarily for the illumination of the sidewalk. Whenever nearby pre-existing lights are in good condition and meet the intent of this section, new lights should be of the same type. Intersection safety lights shall be typical cobra-head design, while mid-block lighting should be ornamental and scaled for the pedestrian environment. Lighting shall meet Public Works standards.

4. Facades located with 15 feet of the public sidewalk shall be oriented to the street as follows:

a. If there is a primary common building entrance which provides access to reception areas, elevators, stairs, and internal circulation, it shall face and be oriented to the street. If there is a yard between the sidewalk and the building, a paved path six feet in width shall be provided from the public sidewalk to the entrance.

b. Direct entrances from the sidewalk in to individual establishments located along the street frontage shall be provided. If there is a yard between the sidewalk and the building, a paved path six feet in width shall be provided from the public sidewalk to the entrance.

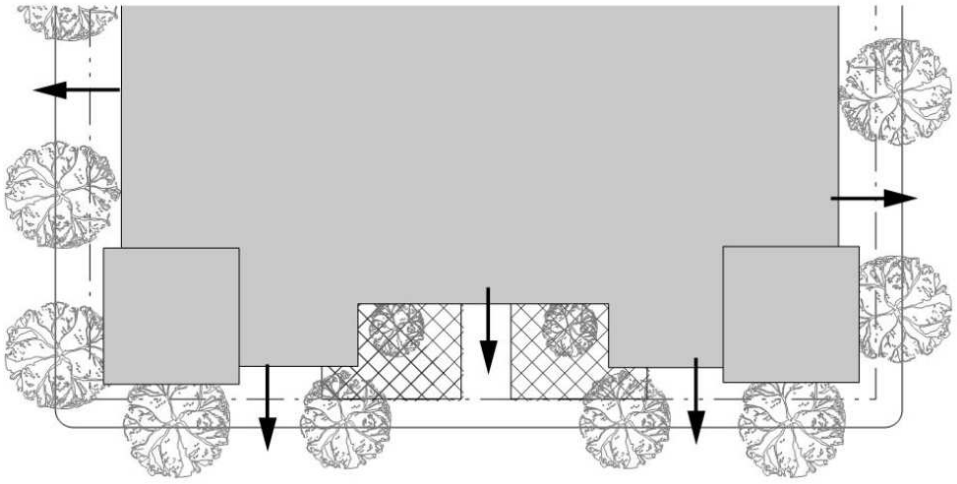

FIGURE 15-1304-D-4: BUILDING ORIENTATION TO THE STREET

5. Exterior walls facing a front or street side lot line shall include windows, doors, or other openings with transparent glazing for at least 60 percent of the building wall area located between 2.5 and seven feet above the level of the sidewalk. Openings fulfilling this requirement shall have transparent glazing and provide views into work areas, display areas, sales areas, lobbies, or similar active spaces, or into window displays that are at least two feet deep.

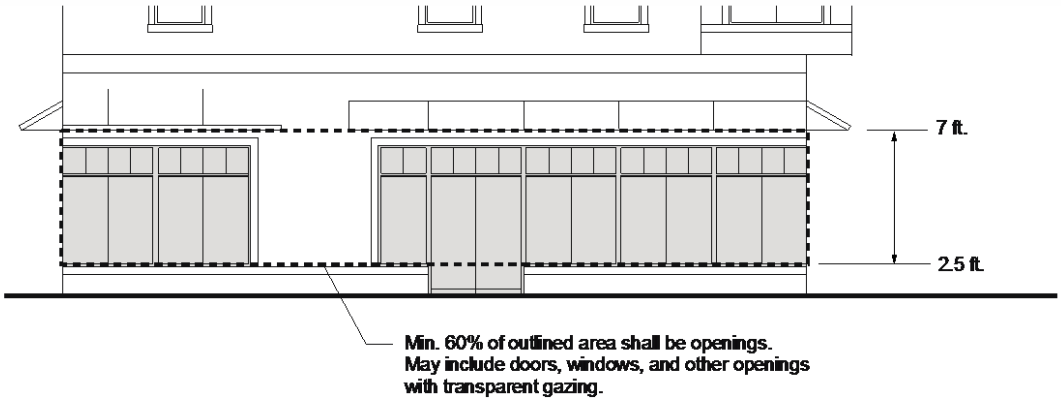

FIGURE 15-1304-D-5: BUILDING TRANSPARENCY

6. Where buildings are located within two feet of a public sidewalk, the sidewalk shall be shaded by awnings or canopies as follows:

   a. Awning or canopy depth shall be no less than four feet and no more than 10 feet.

   b. Clearance shall be no less than eight feet and no more than 12 feet from the finished floor.

E. **Parking Setbacks.** In the O, BP, and RBP Districts, parking shall be set back from the street facing lot line as shown in Table 15-1303-2, except as provided below:

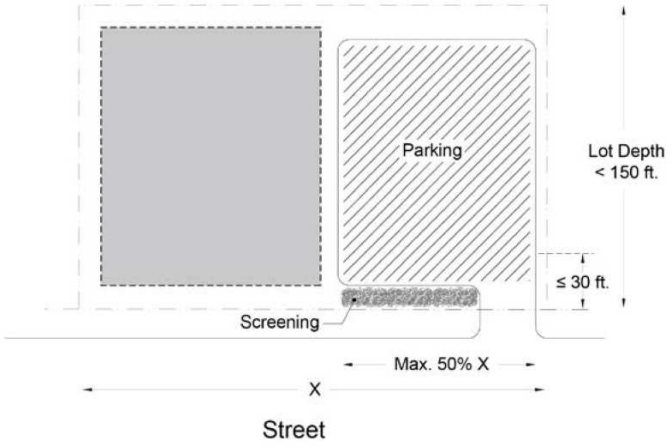

FIGURE 15-1304-E.1: SURFACE PARKING SCREENING

1. **Surface Parking.** On lots less than 150 feet in width or depth, the parking setback may be reduced to six feet. This area shall be landscaped. Parking spaces shall be screened with a minimum three foot high berm, wall, or hedge, or combination thereof.

2. **Partially Submerged and Podium Parking.** Parking that is partially below the street grade may extend to the setbacks of the main structure. A maximum six feet of the parking structure height may extend above the street grade if screened along street facing elevations by foundation plant materials. Gates need not be screened.

3. **Underground Parking.** Parking that is fully underground and below the street grade may extend from property line to property line.

4. **Carports.** If proposed on a Major Street in the O or the BP Districts, carports:

   a. Should generally be located away from major streets.

   b. There shall be no more than six consecutive carport spaces parallel to major streets, with a minimum distance of 20 feet between every six carport spaces.

5. **Driveways.** The location and width of driveways shall be minimized; they are permitted only to provide access to garages, carports, and parking areas. Curb cuts are limited to one for every 50 feet of street frontage.

F. **Pedestrian Access.** Within the O District, on-site pedestrian circulation and access must be provided according to the following standards.

1. **To Streets.** Direct and convenient access shall be provided to adjoining residential and commercial areas to the maximum extent feasible while still providing for safety and security.

2. **To Transit.** Safe and convenient pedestrian connections shall be provided from transit stops to building entrances.

3. **To Circulation Network.** Regular connections between on-site walkways and the public sidewalk and other planned or existing pedestrian routes shall be provided. An on-site walkway shall connect the primary building entry or entries to a public sidewalk on each street frontage.

4. **Internal Connections.** A system of pedestrian walkways shall connect all buildings on a site to each other, to on-site automobile and bicycle parking areas, and to any on-site open space areas or pedestrian amenities.

5. **External Connections.** In the O District, a system of pedestrian walkways shall connect the project site to adjacent Residential, Commercial, Mixed Use, Office districts as follows:

    a. If the adjacent Residential, Commercial, Mixed Use, and Office districts are undeveloped, stub connections shall be provided at a frequency of one per 600 feet. Upon the development of the adjacent parcels, any fencing or gates at the stubs shall be opened.

    b. If the adjacent Residential, Commercial, Mixed Use, and Office districts are developed and provide connection points via breaks in the perimeter wall/fence or stub streets, then the project shall provide pedestrian walkway connections at those locations.

    c. If the adjacent Residential, Commercial, Mixed Use, and Office districts are developed there are no possible connection points via breaks in the perimeter wall/fence, then the project shall not be required to provide connections.

6. **Pedestrian Walkway Design.**

    a. Walkways shall be a minimum of four feet wide, shall be hard-surfaced, and paved with concrete, stone, tile, brick, or comparable material.

    b. Where a required walkway crosses driveways, parking areas, or loading areas, it must be clearly identifiable through the use of a raised crosswalk, a different paving material, or similar method.

    c. Where a required walkway is parallel and adjacent to an auto travel lane, it must be raised or separated from the auto travel lane by a raised curb at least six inches high, bollards, or other physical barrier.

G. **Service Areas and Loading.** Service and loading areas should be integrated with the design of the building and shall be screened from residential areas. Special attention shall be given when designing loading facilities in a location that is proximate to residential uses. Techniques such as block walls, enhanced setbacks, or enclosed loading can minimize adverse impacts to residents.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, § 10, eff. 6-11-18; Am. Ord. 2025-024, § 26, eff. 7-27-25).

SEC. 15-1305. FAÇADE DESIGN DEVELOPMENT STANDARDS.

A. **Building Articulation.** In the O District, all street-facing façades must include at least one projection or recess at least two feet in depth for every 25 feet of horizontal feet of wall.

B. **Building Materials and Finishes.**

1. In the O District, the following standards shall apply:
    a. Each side of a building that is visible from a Major Street shall be designed with a complementary level of detailing and quality of materials.
    b. There shall be a minimum of two exterior wall finish materials.
    c. Veneers should turn corners, avoiding exposed edges and continue down the side of a building to a logical break, such as a change in wall plane. Material changes at outside corners should be avoided.
    d. Building entrances and common areas shall be accentuated with enhanced finishes and materials that are durable and high quality and distinguish these spaces from other elements of the building.
    e. Metal buildings should employ a variety of building forms shapes, colors, materials, and other architectural treatments to add visual interest and variety to the building. Architectural treatments should emphasize the primary entrance to the building.
    f. Unless roofing materials are part of the design element (for example, tiles, concrete, or metal roofing elements), the ridge line elevation should not exceed the parapet elevation.
    g. Windows shall maintain a consistent design character throughout the development and shall be of the same material on all elevations facing a street.
    h. Parking areas and structures shall be designed to match and be compatible with the architectural character, materials, and colors of the overall development.
2. In the BP and RBP Districts, buildings within 100 feet of a major street shall apply at least two of the following standards:
    a. Use a minimum of two exterior wall finish materials shall be used.
    b. Use a minimum of three exterior paint colors.
    c. Design street-facing façades to have an overall wall composition of at least 20 percent glazing.
    d. Provide one inset of six inches in depth, 10 feet in height, and 20 feet in width for every 50 feet of wall length.
    e. Provide canopies or awnings with at least four feet of projection for at least 50 percent of the wall length.

f. Employ an architectural treatment to the primary entrance(s) such as decorative lighting, increased height, or enhanced materials.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 14 PUBLIC AND SEMI-PUBLIC DISTRICTS (PSP)

Sec. 15-1401. Purpose.
Sec. 15-1402. Use Regulations.
Sec. 15-1403. Intensity and Massing Development Standards.
Sec. 15-1404. Site Design Development Standards.

SEC. 15-1401. PURPOSE.

The specific purposes of the Public and Semi-Public Districts are to:

A. Provide areas for a wide range of public facilities, including parks and open space, educational facilities, cultural and institutional uses, health services, municipal offices, general government operations, utility and public service needs, and other public or quasi-public facilities.

B. Ensure that the development and operation of public and semi-public uses protects and enhances the character and quality of life of surrounding residential areas.

C. Ensure the provision of services and facilities needed to serve residents, businesses, and visitors and maintain a high quality of life standard.

D. Implement and provide appropriate regulations for General Plan classifications of "Open Space," and "Public and Institutional."

Additional purposes of each Public and Semi-Public District are as follows:

OS Open Space. The OS district is intended for undeveloped park lands and permanent open spaces in the community, including environmentally-sensitive lands, waterways, and wetlands. It is also intended to safeguard the health, safety, and welfare of the people by limiting development in areas where police and fire services, protection against flooding by storm water, and mitigation of excessive erosion are not possible without excessive costs to the community. This district may include trails and other low-impact public recreational uses, ponding basins, riverbottoms/riverbeds, and airport approach/clear zones. Access may be restricted to areas of sensitive habitat or which pose a danger to the public.

PR Parks and Recreation. The PR district is intended to maintain areas for active and passive public parks and multi-purpose trails, including outdoor and indoor recreation such as playing fields, trails, playgrounds, community centers, and other appropriate recreational uses. The PR district may include ponding basins or airport approach/clear zones if developed for, programmed, and actively used as recreation fields.

PI Public and Institutional. The PI district is for public or quasi-public facilities, including City facilities, utilities, schools, health services, corporation yards, utility stations, and similar uses. Accessory retail uses and services, including food facilities and childcare, are permitted.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-1402. USE REGULATIONS.

A. Table 15-1402 prescribes the proposed land use regulations for Public and Semi-Public Districts. The regulations for the districts are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

"P" designates permitted uses.

"C" designates uses that are permitted after review and approval of a Conditional Use Permit.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"-" designates uses that are not permitted.

B. Land uses are defined in Article 67, Use Classifications.

C. In cases where a specific land use or activity is not defined, the Director shall assign the land use or activity to a classification that is substantially similar in character per Section 15-5020, Director's Determination.

D. All permitted uses are allowed either alone or in combination with other permitted uses unless otherwise stated in this Code.

E. Use classifications and subclassifications not listed in the table or not found to be substantially similar to the uses below are not permitted.

F. The table also notes additional regulations that apply to various uses. Section numbers in the right hand column refer to other sections of this Code.

Specific Limitations: 1. Limited to facilities associated with park and recreation facilities. 2. Limited to government or non-profit animal shelters located a minimum of 100 feet from a residential use or district. 3. Limited to gift shops, cafes, and restaurants that are an accessory to cultural institutions, community and religious assembly, and conference/convention centers. 4. Heliports used as accessory to a hospital are permitted by right and shall not require a Conditional Use Permit. 5. Building heights for hospitals shall not exceed 150 ft. There is no maximum Floor Area Ratio for hospitals. 6. Must include an indoor waiting area. 7. Limited to golf courses. 8. Limited to on-campus housing operated by an accredited school.				

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 15, eff. 10-21-16); Am. Ord. 2025-024, § 27, eff. 7-27-25).

SEC. 15-1403. INTENSITY AND MASSING DEVELOPMENT STANDARDS.

Table 15-1403 prescribes the intensity and massing development standards for the Public and Semi-Public Districts. Additional regulations are denoted in a right hand column. Section numbers in this column refer to other sections of the Code, while individual letters refer to subsections that directly follow the table. The numbers in each illustration below correspond to the "#" column in the associated table.

Supplemental Regulations				§ 15-1404, Site Design Development Standards

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-1404. SITE DESIGN DEVELOPMENT STANDARDS.

A. **Additional Height for Recreational Facilities.** Additional height for structures related to recreational facilities such as light standards, nets, and fences, may be approved with a Planned Development Permit.

B. **Residential Transition Standards.** See Table 15-2305-C.1, Required Landscape Buffers.

C. **Service Areas and Loading.** Service and loading areas shall be located so that they are oriented away from residences, primary pedestrian entrances and areas, and not adjacent to or parallel to any public right-of-way (except alleys).

D. **Setbacks.** The prescribed setbacks apply to all structures, including, but not limited to, bleachers, dugouts, backstops, lights, etc. Should the parcel be less than one-half acre, the Director may reduce the front and street side yard to 15 feet.

E. **On-Campus Housing Standards.** The provisions set in 15-1004-A, RS Transition Standards and 15-1004-D, On-Site Open Space shall apply.

F. **San Joaquin River Corridor Preservation.** Any development within the San Joaquin River Corridor shall be limited or required to provide an extended buffer in order to protect the natural environs. The limitations and buffers shall be consistent with the General Plan and may be expanded further subject to environmental review.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, § 11, eff. 6-11-18).

ARTICLE 15. DOWNTOWN DISTRICTS

Sec. 15-1501. Purpose.
Sec. 15-1502. Use Regulations.
Sec. 15-1503. Density, Intensity, and Massing Development Standards.
Sec. 15-1504. Site Design Development Standards.
Sec. 15-1505. Façade Design Development Standards.
Sec. 15-1506. Right to Downtown Operations.
Sec. 15-1507. Additional Standards.

SEC. 15-1501. PURPOSE.

A. The purposes of the Downtown (DT) Districts are to:

1. Ensure that buildings, renovations, and additions are consistent with the goals of the Downtown Neighborhoods Community Plan (DCNP) and the Fulton Corridor Specific Plan (FCSP) for pedestrian-oriented streetscapes, building form, physical character, and quality.

2. Promote pedestrian-oriented infill development, intensification, and reuse of land consistent with the General Plan.

3. Develop a mixed-use Downtown with a vibrant concentration of goods and services, housing, community gathering spaces, and regionally-serving employment, cultural, and entertainment offerings.

4. Transform Downtown's streets into vibrant, diverse, and attractive places that support a mix of pedestrian-oriented retail, office, and residential uses in order to achieve an active social environment within a revitalized streetscape.

5. Provide options which reduce the need for private automobile use to access shopping, services, and employment and minimize air pollution from vehicle miles traveled.

6. Offer additional housing opportunities for residents seeking to live in an urban environment.

7. Create a vibrant, unique Downtown that offers different kinds of experiences—business, dining, culture, and entertainment—for workers, residents, and visitors alike.

8. Establish Downtown development and design standards that will create a unified, yet distinctive, and attractive urban character that respects Fresno's past and serves the city for the long term.

9. Facilitate compact mixed-use development in key locations such as along Bus Rapid Transit (BRT) corridors and near Fresno's train stations.

B. Additional purposes of each Downtown District are as follows:

1. DTN Downtown Neighborhood. The DTN District will create lively, walkable, mixed-use urban neighborhoods surrounding the Downtown Core.

2. DTG Downtown General. The DTG District will support a high concentration of regional activity generators such as governmental buildings and convention centers within a pedestrian-oriented, mixed-use urban setting.

3. DTC Downtown Core. The DTC District will foster the enhancement of Fresno's business, shopping, and cultural heart by guiding the development of the densest, most active, and most interesting mixed-use urban center in the region.

Activity Class A streets feature ground floor retail, restaurant, and entertainment uses.

Activity Class B and C streets may feature ground floor residential units with stoops and porches, or storefront offices. On B streets ground floor retail is also allowed.

C. **Activity Classifications.** Some standards, as specified in this article, shall apply based on the Activity Classification of the adjacent street, as shown in Figure 15-1501. The purposes of the Activity Classifications are as follows:

1. **Activity Class A.** Streets in Activity Class A have the greatest pedestrian activity or the greatest potential for pedestrian activity. Ground floor retail, restaurant, and entertainment uses are required as put forth in Table 15-1502.

2. **Activity Class B.** Streets in Activity Class B are walkable urban corridors with moderate pedestrian activity. As put forth in Table 15-1502, retail, restaurant, and entertainment uses are appropriate in these areas, but ground floor residential or office uses are also appropriate.

3. **Activity Class C.** Streets in Activity Class C are walkable and comfortable for pedestrians, but are not the most active streets within Downtown. Ground floor residential or office uses are appropriate, but retail uses should be small and restricted to corners as put forth in Table 15-1502.

4. **Corners.** When a project is located at the intersection of two streets with different Activity Classifications, the requirements of the higher activity class shall wrap the corner and prevail over the lower order classification for a distance determined by the Review Authority.

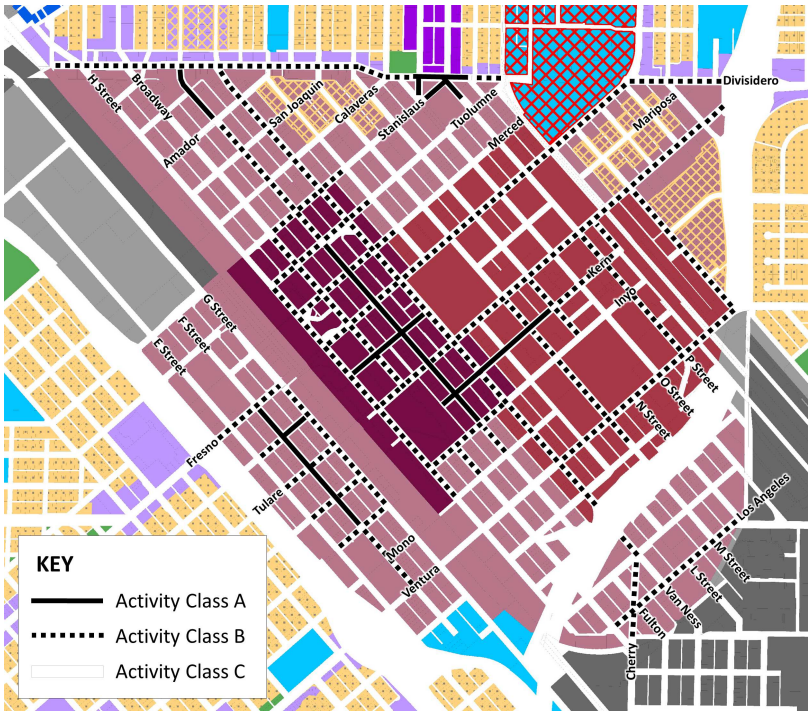

Figure 15-1501 Activity Classifications

(Added Ord. 2016-43, § 2, eff. 12-9-16; Am. Ord. 2018-25, § 12, eff. 6-11-18).

SEC. 15-1502. USE REGULATIONS.

A. Table 15-1502 prescribes the proposed land use regulations for Downtown Districts. The regulations for the districts are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require discretionary review.

"P" designates permitted uses.

"C" designates uses that are permitted after review and approval of a Conditional Use Permit.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"—" designates uses that are not permitted.

B. Land uses are defined in Article 67, Use Classifications.

C. In cases where a specific land use or activity is not defined, the Director shall assign the land use or activity to a classification that is substantially similar in character per Section 15-5020, Director's Classification.

D. All permitted uses are allowed either alone or in combination with other permitted uses unless otherwise stated in this Code.

E. Use classifications and subclassifications not listed in the table or not found to be substantially similar to the uses below are not permitted.

F. The table also notes additional regulations that apply to various uses. Section numbers in the right hand column refer to other sections of this Code.

Walk-Up Facilities	§ 15-2766, Walk-Up Facilities									
Specific Limitations: 1. Permitted only on upper floors and rear portions of the ground floor, no closer than 30 feet from a public street, public plaza, or park. Exception: Lobbies may occupy ground floor space adjacent to a public street, public plaza, or park. Lobbies may not occupy more than 25 feet of frontage. 2. Permitted only on ground floor. Prohibited on upper floors. 3. Permitted only on ground floor. Prohibited on upper floors. Exception: Also permitted on uppermost floors of buildings over 4 stories in height. 4. Permitted only on ground floor at intersection of two public streets. May not exceed 2,500 square feet in floor area. 5. Permitted south of Inyo Street only. 6. Not allowed between a building and a sidewalk. 7. Permitted if located entirely within a building. When located outdoors, permitted south of Inyo Street only. 8. East of State Route 41 only.									

(Added Ord. 2016-43, § 2, eff. 12-9-16; Am. Ord. 2018-25, § 13, eff. 6-11-18; Am. Ord. 2018-66, § 12, eff. 1-18-19; Am. Ord. 2020-031, § 5, 9-1-20; Am. Ord. 2025-024, § 28, eff. 7-27-25).

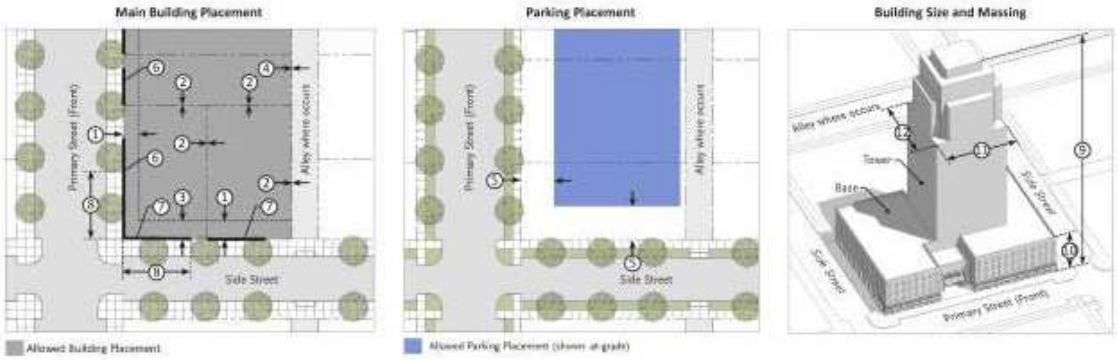
SEC. 15-1503. DENSITY, INTENSITY, AND MASSING DEVELOPMENT STANDARDS.

Table 15-1503 prescribes the density, intensity, and massing development standards for the Downtown Districts. Additional regulations are denoted in a right hand column. Section numbers in this column refer to other sections of the Code, while individual letters refer to subsections that directly follow the table. The numbers in each illustration below correspond to the "#" column in the associated table. Drawings are for illustrative purposes and are not drawn to scale.

The Downtown Districts promote an urban massing of buildings that is similar to the area's early development.

Storefront glazing and sidewalk-oriented entrances promote pedestrian comfort, convenience, and safety.

TABLE 15-1503: BUILDING AND PARKING PLACEMENT AND BUILDING MASSING STANDARDS—DOWNTOWN DISTRICTS



District	DTN	DTG	DTC	Additional Regulations	#
Floor Area Ratio (min./max.)	No Limit	No Limit	No Limit		
Residential Density, du/ac (min./max.)	No Limit	No Limit	No Limit		
Setbacks (ft.)					
Front, Activity Class A (min./max.)	0/2	0/2	0/2	Figure 1504-A: Activity Classifications	①
Front, Activity Class B and C (min./max.)	0/10	0/10 (1)	0/10

Minimum On-Site Open Space (% of Lot Area)	10	8	5	§ 15-1504-I, On-Site Open Space	

Specific Limitations:
1. Front setback along Mariposa Street between M Street and P Street (min./max.): 10/18 ft.
2. Street Side setback along Mariposa Street between M Street and P Street (min./max.): 10/15 ft.

(Added Ord. 2016-43, § 2, eff. 12-9-16).

SEC. 15-1504. SITE DESIGN DEVELOPMENT STANDARDS.

A. **Active Uses Adjacent to Sidewalks.** In order to promote activity on all sidewalks, and to focus the highest activity levels in the most beneficial areas, the following standards shall apply to all ground-floor building space located within 30 feet of a public street:

1. **Activity Classifications.** Uses shall be Permitted, Conditionally Permitted, or Prohibited based on the adjacent street's activity classification as identified in Figure 1501 and Table 15-1502.

2. **Active to Inactive Space Ratio.**

    a. **Activity Class A.** No less than 90 percent of the length of building frontage along public streets shall be designed to be occupied by active spaces, such as lobbies, dining areas, living areas, and sales floors. The remaining 10 percent may consist of inactive spaces, such as kitchens, hallways, utility rooms, storage, emergency exits, display cases, etc.

    b. **Activity Class B and C.** No less than 60 percent of the length building frontage along public streets shall be designed to be occupied by active spaces, such as lobbies, dining areas, living areas, and sales floors. The remaining 40 percent may consist of inactive spaces, such as kitchens, hallways, utility rooms, storage, emergency exits, display cases, etc.

    c. **Sites with Multiple Frontages.** The street of highest pedestrian importance, as determined by the Review Authority, shall comply with subparagraphs a and b above. Other street frontages may provide reduced active spaces as determined by the Review Authority.

B. **Mixed-Use Configurations.** Buildings shall be designed to minimize the potential conflicts between residential and non-residential uses adjacent to one another or within the same building to the satisfaction of the Review Authority. Potential techniques include:

1. Sound attenuation/transmission requirements of the California Building Code;

2. Distinct entries for non-residential and residential suites/units;

3. Ventilation of ground floor uses so as not to disrupt upper floor tenants.

C. **Required Minimum Height.**

1. Required minimum heights are applicable only in the DTC District as put forth by the following diagram.

FIGURE 1504-C: REQUIRED MINIMUM HEIGHTS

2. New structures shall meet both the minimum number of floors and the minimum height in feet. No more than the front 30 feet of lot depth, measured from all streets on which the project has frontage, shall be subject to Required Minimum Height regulations.
3. Existing structures which are remodeled or otherwise modified shall not be required to comply with Required Minimum Height regulations unless the gross floor area is increased by more than 100 percent.
4. Additions to designated historic resources shall not be required to comply with Required Minimum Height regulations.
5. Portions of the building that are not part of the primary building mass, such as entrance porticos, bays and stoops, are not required to meet minimum height requirements. Parking podiums, garages, and accessory buildings are not required to meet minimum height requirements.

D. **Special Noise Standards.** Within the portion of the DTN District that is south of Inyo Street, the following special noise standards apply.

1. **Stationary Noise Standards.** This area is exempted from Subsection 15-2605-D. The following maximum noise levels in Table 15-1504-D apply.

TABLE 15-1504-D: MAXIMUM NOISE EXPOSURE LEVELS FOR SOUTH OF INYO STREET		
	Daytime 7am—10pm	*Nighttime 10pm—7am*
Maximum Sound Level (Lmax), dBA	70	60

2. **Residential Uses.** New residential development shall anticipate maximum allowable noise levels and provide noise protection to maintain an interior noise level at 45 Leq, dB or lower.

E. **RS Transition Standards.** Where a DT district abuts an RS District, the following standards apply:

1. **Height.** The maximum height within 40 feet of an RS District is limited to 30 feet. The maximum height within 100 feet of an RS District is 40 feet.

2. **Setbacks.** The following additional setback requirements shall be applied to all structures, including accessory structures, on parcels which are adjacent to an RS District:

   a. **Front and Street Side Yard.** The front setback shall not be less than the required front yard on the abutting RS District lot within 50 feet of the RS District.

   b. **Interior Side and Rear.** The interior side and rear setback abutting an RS District boundary shall be 20 feet.

3. **Landscape.** See Section 15-2305, Areas to be Landscaped.

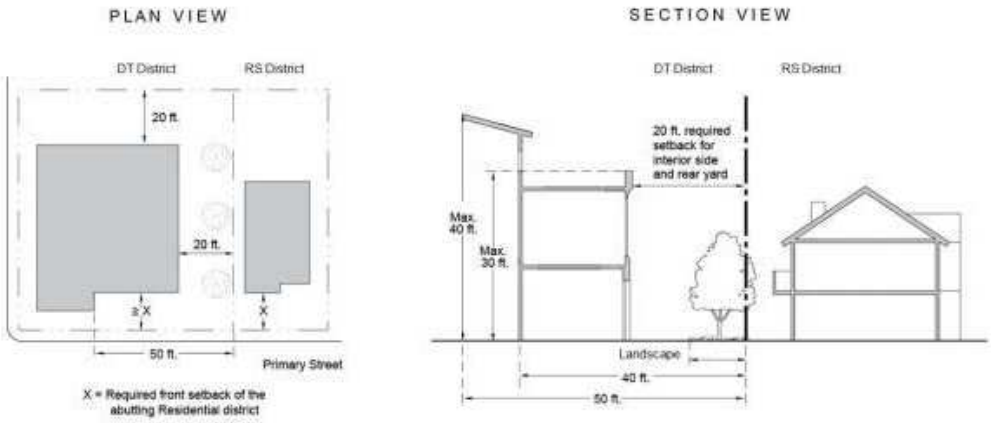

FIGURE 15-1504-E: RS TRANSITION STANDARDS—DT DISTRICTS

F. **Corner Frontage.** Buildings on corner lots must be located within a minimum of five feet of the back of the sidewalk for the minimum length specified in Table 15-1503. As determined by the Review Authority, plazas maybe located at the street corner provided the plaza meets the requirements of Section 15-1504-I.1.c and buildings are built to the edge of the plaza.

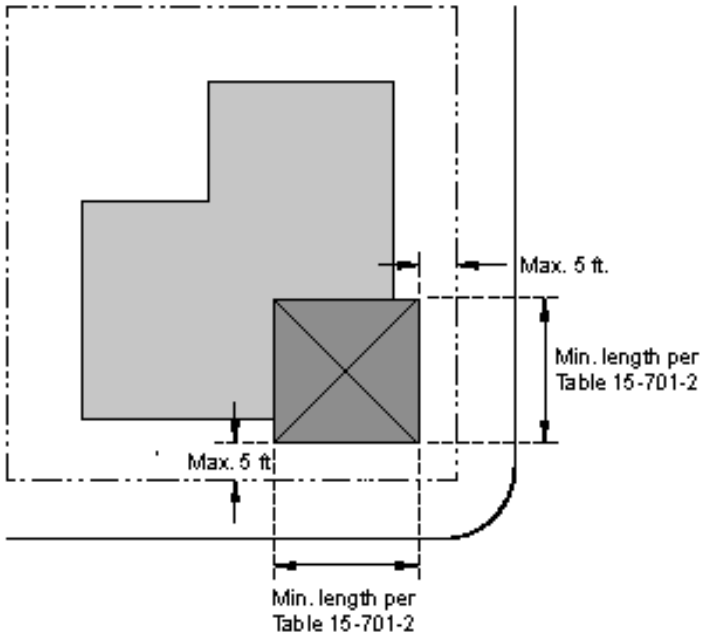

FIGURE 15-1504-F: CORNER FRONTAGE STANDARDS

G. **Parking Buffering.** All parking facilities, whether public or private, shall be buffered as shown on Table 15-1503 based on the adjacent street activity classification as shown in Figure 15-1501 and the physical form of the parking as provided below:

1. **Activity Class A.**
   a. **Surface Parking and Tuck-Under Parking.** Surface and tuck-under (one row of surface parking with building area over it) parking must be located entirely behind a building space which is occupied by a permitted use or uses, which conforms to all applicable development standards, and which is no less than 30 feet deep. Accessory structures, sheds, parking attendant booths, and other such buildings shall not satisfy this requirement.
   b. **Above Grade Structured Parking.** All above grade levels of the parking structure must be located behind active, occupied building space for a depth of no less than 30 feet.
   c. **Partially Submerged Podium Parking.** Parking that is partially below the street grade must be located behind active, occupied space for a depth of no less than 30 feet.

d. **Underground Parking.** Parking that is fully underground and below the street grade may extend from lot line to lot line.

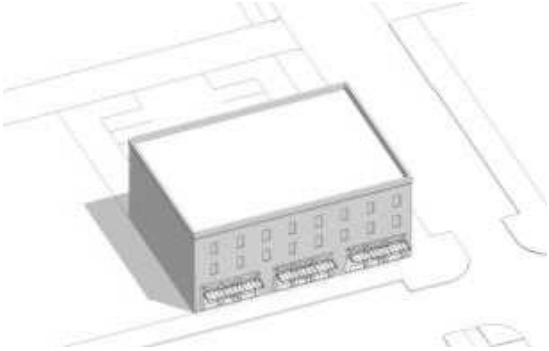
2. **Activity Class B.**

a. **Surface Parking and Tuck-Under Parking.** Surface and tuck-under parking (one row of surface parking with building area over it) must be located entirely behind a building space which is occupied by a permitted use or uses, which conforms to all applicable development standards, and which is no less than 30 feet deep. Accessory structures, sheds, parking attendant booths, and other such buildings shall not satisfy this requirement.

b. **Above Grade Structured Parking.** The ground floor of the parking structure must be located behind active, occupied building space for a depth of no less than 30 feet. Upper floors of the parking structure are not required to be located behind non-parking uses or to be set back more than is required by the building setbacks.

c. **Partially Submerged Podium Parking.** Parking that is partially below the street grade shall be buffered in the same manner as above grade structured parking, however it will not be subject to a buffering requirement if the following conditions are met:

Buffering all levels of structured parking on Activity Class A and B streets balances parking and placemaking goals.



On Activity Class A and B streets, surface parking must be set back from the street and located behind a building.

i. No more than four feet of the partially submerged parking podium may extend above the street grade.

ii. The partially submerged parking podium shall be screened along street facing elevations by foundation plant materials. Gates need not be screened.

d. Underground Parking. Parking that is fully underground and below the street grade may extend from lot line to lot line.

3. **Activity Class C.**

a. **Surface Parking and Tuck-Under Parking.** Surface and tuck-under parking (one row of surface parking with building area over it) shall be set back no less than 30 feet. For no less than 60 percent of the length the lot frontage along public streets, surface parking must be located behind a building space which is occupied by a permitted use or uses and which conforms to all applicable development standards and which is no less than 30 feet deep. Accessory structures, sheds, parking attendant booths, and other such buildings shall not satisfy this requirement. For the remainder of the lot frontage, the setback may be landscaped, a public plaza, an outdoor dining area, or similar treatment as determined by the Review Authority.

b. **Above Grade Structured Parking.** The ground floor of the parking structure must be located behind active, occupied building space for a depth of no less than 30 feet. Upper floors of the parking structure are not required to be located behind non-parking uses or to be set back more than is required by the building setbacks.

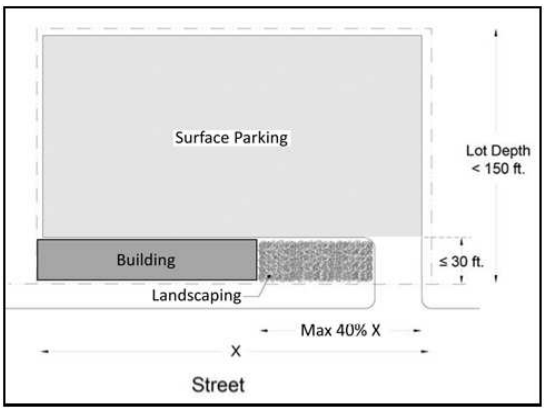
c. **Partially Submerged Podium Parking.** Parking that is partially below the street grade shall be buffered in the same manner as above grade structured parking, however it will not be subject to a buffering requirement if the following conditions are met:

i. No more than four feet of the partially submerged parking podium may extend above the street grade.

ii. The partially submerged parking podium shall be screened along street facing elevations by foundation plant materials. Gates need not be screened.

d. **Underground Parking.** Parking that is fully underground and below the street grade may extend from lot line to lot line.

On Activity Class C streets, only the ground floor or above grade structured parking must be buffered with active uses.



On Activity Class C streets, most surface parking must be behind a building, but some may be behind landscaping.

4. **Sites with Multiple Frontages.** Building frontage along the street(s) of highest pedestrian importance, as determined by the Review Authority, shall comply with applicable subsections 1, 2, and/or 3 above. Along the street of lowest pedestrian importance, frontages may provide reduced buffering if a satisfactory pedestrian environment is maintained, as determined by the Review Authority.

H. **Parking Access and Entrance Design.** The following standards shall apply to vehicular access to off-street parking areas:

1. **Access.**
   a. **Lots with Alley Access.** Service areas shall be accessed through the alley, and access from a street shall not be permitted. For the redevelopment of sites with existing curb cut access from a street, the access shall be taken from the alley and the curb cut on the street shall be removed.
   b. **Corner Lots without Alley Access.** Service areas shall be accessed from the street with the lowest Activity Classification per Figure 15-1501. If all adjacent streets have the same Activity Classification, the parking and service areas shall be accessed from the street with the least potential for pedestrian activity as determined by the Review Authority.
   c. **Interior Lots without Alley Access.** Service areas may be accessed from the street.
2. **Entrance Design.** Private parking garage entrance openings shall be composed as an integral part of the building facade and shall be designed as doorways secured by gates or doors and scaled in proportion to the overall form of the building.

I. **On-Site Open Space.**

1. **Minimum Open Space Required.** On-site open space shall be required for projects with more than four dwelling units. The minimum amount of on-site open space

required shall be based on the size of the lot, as shown in Table 15-1503. This requirement may be met through a combination of private open space, common open space, or public plazas as follows:

a. **Private Open Space Requirements.** Private open spaces are those which are attached to a dwelling unit and are available only for the private use of the residents of the dwelling unit, such as balconies, porches, and patios. No fewer than 50 percent of the dwelling units on a site shall have a private open space. The following standards shall apply to private open space:

   i. The minimum dimension of any private open space shall be five feet.

   ii. The minimum area of any private open space shall be 50 square feet.

   iii. When located within 30 feet of a public street and located on the ground floor, private open spaces shall follow the requirements for Porches as put forth in Table 15-1505-E-2.

   iv. When located within 30 feet of a public street and located above the ground floor, private open spaces shall follow the requirements for Balconies as put forth in Table 15-1505-F.

b. **Common Open Space Requirements.** Common open spaces are those which are available for active or passive use by all tenants, but use by the general public may be restricted. To the extent that common open space is provided, the following standards shall apply:

   i. The minimum dimension of any common open space shall be 20 feet.

   ii. The minimum area of any common open space shall be 1,000 square feet. The calculation of the common open space area shall exclude structures which are unusable as open space, but shall include structures that enhance its usability, such as swimming pools, changing facilities, fountains, planters, benches, and landscaping.

   iii. For sites greater than one acre in size, a minimum of 40 percent of the required common open space shall be developed with gardens, play fields, hard-surfaced game courts, recreation rooms, swimming pools, or other features designed for the active recreational use of residents of the development.

   iv. Common open space may be located at grade, on rooftops, on top of parking podiums, or any other such location that is accessible to tenants. Common open space may not be located within required setbacks or parking areas.

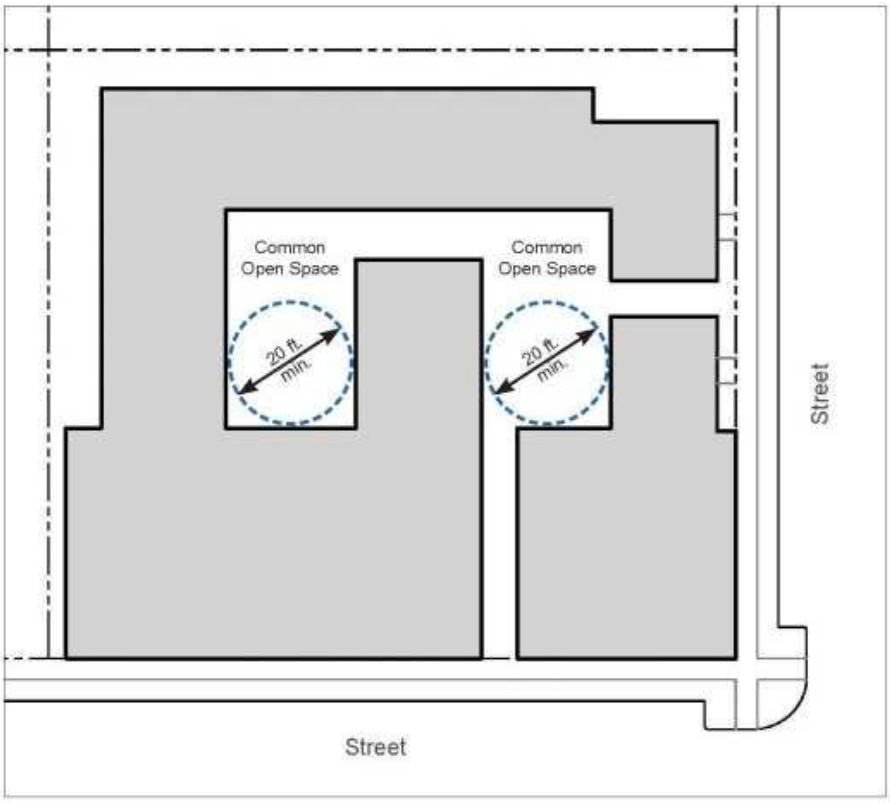


FIGURE 15-1504-I.1.B: MINIMUM REQUIRED COMMON OPEN SPACE DIMENSION

c. **Public Plaza Requirements.** Public plazas are those which are available for use by the general public, as well as tenants of the project. To the extent that public plazas are provided, the following standards shall apply:

i. The minimum dimension of any public plaza shall be 20 feet.

ii. The minimum area of any public plaza shall be 500 square feet. The calculation of the public plaza area shall exclude structures which are unusable as open space, but shall include structures that enhance its usability, such as fountains, planters, benches, and landscaping.

iii. Public plazas shall include benches or other seating, and paving shall be of high-quality materials. Amenities provided shall enhance the comfort, aesthetics, or usability of the space and include, but not be limited to, trees and other landscaping, shade structures, drinking fountains, water features, public art, or performance areas. Landscaping or other aspects of the design shall not discourage the use of the space by the general public, except in conjunction with an outdoor dining area for an adjacent restaurant or other Eating and Drinking Establishment.

iv. Public plazas shall be fully accessible from the public right-of-way, shall be located in front of project buildings and shall not be located where public views into the space are obstructed by buildings or other structures.

v. Public plazas may be located within required front setbacks.

vi. A public access easement shall be provided for the space.

vii. Building walls and façades which face a Public Plaza shall be regulated in the same manner as a street-facing façade. Permitted uses along the Public Plaza frontage shall be based on the Activity Classification of the nearest street.

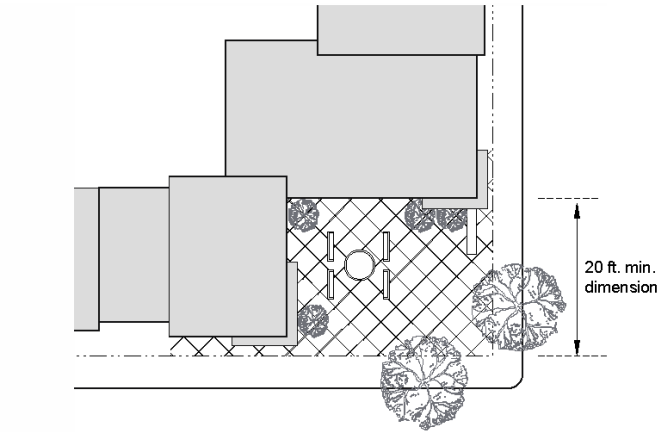

FIGURE 15-1504-I.1.C: MINIMUM REQUIRED PUBLIC PLAZA DIMENSION

2. **Minimum Open Space Reduction.** The minimum amount of open space required shall be reduced by 25 percent in the following circumstances:

a. Any portion of the lot is located within 400 feet of a transit stop with regular, scheduled service during the weekday hours of 7:00 a.m. to 9:00 a.m. and 5:00 p.m. to 7:00 p.m.

b. There is a public park within 400 feet of the site, and

i. Said park is located on the same side of the street and provides an improved pedestrian path to and from the site; or

ii. The public park is across a local street and the site provides an improved pedestrian path to and from the site.

c. The parcel is 15,000 square feet or less in area.

J. **Pedestrian Access.** On-site pedestrian circulation and access must be provided according to the California Building Code and the following standards. Along all public streets, public plazas, and parks, pedestrian entrances from the public sidewalk into structures and/or the site shall be provided as follows:

1. **Residential Unit Sidewalk Connections.** Direct entrances from the sidewalk into individual ground-floor dwelling units which are adjacent to streets shall be provided at a rate of no less than one per 50 feet of linear street frontage. Such entrances shall be accessed through a permitted frontage per Table 15-1505-E-2.

2. **Commercial Sidewalk Connections.** Direct entrances from the sidewalk into ground-floor commercial establishments which are adjacent to streets shall be provided at a rate of no less than one per 50 feet of linear street frontage. When establishments with a greater length occupy a site, they shall be set back and wrapped with smaller spaces that will satisfy this requirement. See Figure 15-1504-J.1.c.

3. **Common Area Sidewalk Connections.** Residential and commercial areas which aren't directly accessed from the sidewalk as put forth in items 1 and 2 above shall be accessed by a common entrance from the sidewalk into lobbies or internal pedestrian paths.

4. Emergency exits, entrances into utility rooms, and other such features shall not count toward to the satisfaction of this requirement.

5. **Pedestrian Access Design.**

    a. If there is a yard between the sidewalk and the building, a paved path six feet in width shall be provided from the public sidewalk to the entrance.

    b. Entry doors shall not swing out to the sidewalk unless the door when fully open does not encroach into the sidewalk.

    c. Handrails or other such improvements shall not block visibility of the building entry or direct access from the sidewalk.

Orienting pedestrian entrances to the sidewalk is an essential ingredient of Downtown revitalization.

Direct entrances into individual ground-floor residential units ensure pedestrian comfort on less active streets.

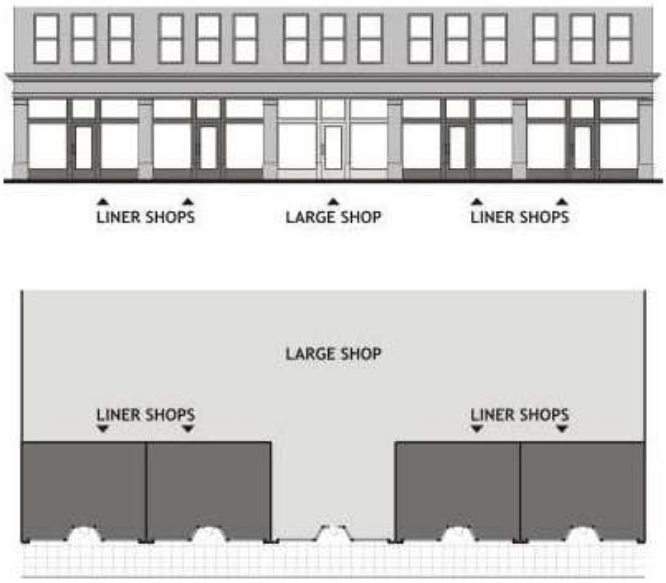

FIGURE 1504-J.1.C: WRAPPING OF LARGE USES

Retail uses along the ground floor of the Warnor's Theater conceal the large, windowless auditorium.

Large department stores can be wrapped with smaller shops, as with the Macy's at River Park.

K. **Sidewalk and Public Frontage Standards.**

1. **Applicability.**

   a. Notwithstanding Chapter 13, Section 208 of the Municipal Code, all projects shall be required to bring adjacent sidewalk conditions into conformance with the standards of this section, subject to the following exceptions:

      i. Applications for signs only.

      ii. Additions, remodels, or tenant improvements of less than 50 percent of the current value of the property.

      iii. Accessory structures less than 1,000 square feet in size.

   b. New development that is below the thresholds noted in item 'a', above, shall replace and maintain missing and/or dead street trees and any other missing or dead landscaping in the public frontage (public right-of-way).

   c. In no case shall an existing sidewalk, or portion thereof, be vacated, even if the minimum width required in the applicable Public Frontage Type is less than the existing sidewalk.

   d. When a public frontage of the subject property is improved to meet the applicable requirements of this section and the adjacent property does not physically align with the new improvement, the improvement shall be designed to the satisfaction of the Review Authority to result in a safe and smooth transition between properties.

2. **Public Frontage Types.** Required sidewalks shall be provided and designed as follows:

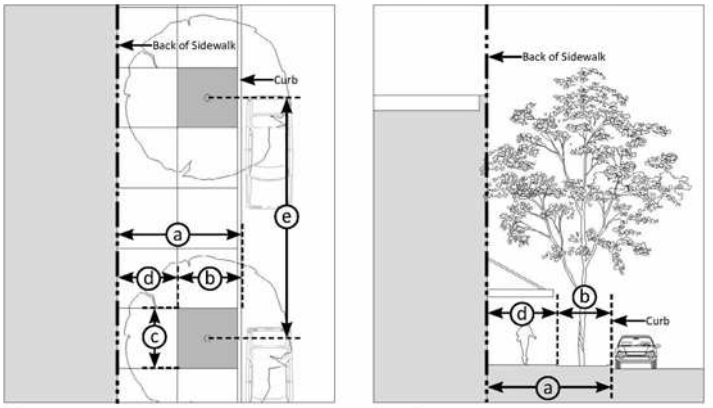
Public frontage is an indispensable component of comfortable, safe, and convenient pedestrian experience.

Appealing public frontage enhances commercial viability, sociability, and civic pride.

TABLE 15-1504-K-2: PUBLIC FRONTAGE TYPES—DOWNTOWN DISTRICTS

A. Sidewalk with Tree Wells

1. Applicable Locations: All locations except those specified in subsections B and C below.
2. Basic Standards
   - ⓐ Total Sidewalk Width: 12 ft. min.
   - ⓑ Well Width: 5 ft. min.
   - ⓒ Well Depth: 5 ft. min.
   - ⓓ Clear Walkway Width: 7 ft. min.
   - ⓔ Tree Spacing: 20 ft. min, 40 ft. max.



B. In-Street Tree Planter

TABLE 15-1504-K-2: PUBLIC FRONTAGE TYPES—DOWNTOWN DISTRICTS

1. Applicable Locations: Areas with narrow sidewalk conditions.

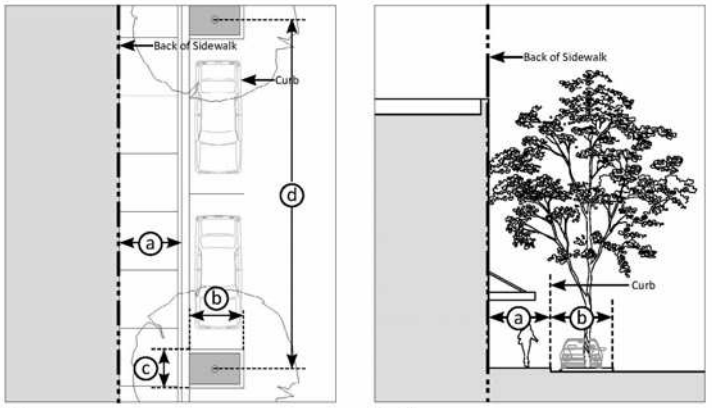
2. Basic Standards

ⓐ Total Sidewalk Width: Less than 12 ft.

ⓑ Well Width: 6 ft. min.

ⓒ Well Depth: 4 ft. min.

ⓓ Tree Spacing: between every two parallel parking spaces or between every five angled or perpendicular spaces (approximately 40 to 50 feet apart)



3. Other Standards

a. Where the existing sidewalk is located immediately adjacent to the curb and where the distance between the curb and the R.O.W. line is too narrow to accommodate both a sidewalk and a parkway strip or tree well, tree planters may be introduced in the parking lane to maximize pedestrian space while providing shade and greenery as determined by the Review Authority.

b. Planters should be placed outside of the gutter to avoid interference with drainage. Planter dimensions shall be least 6 feet by 4 feet with curbs provided on all four sides of the planter, although the side facing the sidewalk may be curbless to permit stormwater to drain into the planter.

c. Planters must contain street trees and may be landscaped or covered with metal tree grates.

C. Raised Sidewalk

1. Applicable Locations: Projects with ground floor commercial uses on sites which must be raised due to potential flooding issues.

2. Basic Standards

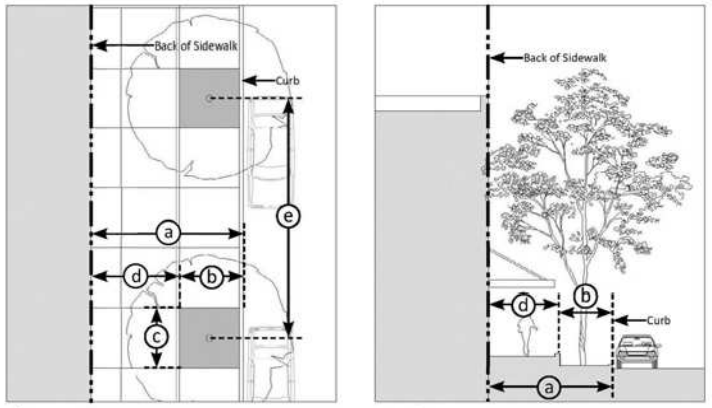
ⓐ Total Sidewalk Width: 12 ft. min.

ⓑ Lower Walkway/Well Width: 5 ft. min.

ⓒ Well Depth: 5 ft. min.

ⓓ Raised Walkway Width: 7 ft. min.

ⓔ Tree Spacing: 20 ft. min, 40 ft. max.



3. Other Standards

a. The walkway nearest to the building shall be raised to match the level of the finished floor of the first story so that it is flush with entrances into commercial spaces.

b. The upper walkway shall be buffered from the lower walkway with a curb, hedge, raised planter, or other method as determined by the Review Authority.

c. Steps from the lower walkway to the upper walkway shall be provided every 100 feet or less as determined by the Review Authority.

d. At block corners the raised walkway shall, via a straight ramp, drop to meet the level of the lower walkway.

e. This sidewalk design shall only be used if the Fresno Metropolitan Flood Control District or other public agency mandates that the lot be raised above the existing sidewalk level due to potential flooding issues and when authorized by the Review Authority.

A raised sidewalk can allow for proper urban retail frontage, while still mitigating flood risk.

In-street tree planters can provide shade and beauty while maximizing the pedestrian walkway in areas with space constraints.

3. **Sidewalk Width.** Sidewalks shall be no less than 12 feet in width. If the current distance between the right-of-way boundary and the face of the adjacent curb is less than 12 feet, the method by which this requirement shall be satisfied shall be determined by the Review Authority. The available methods shall be as follows:

   a. **Set Back.** The building may be set back from the right-of-way boundary the distance that is necessary to achieve the required sidewalk width. The portion of the sidewalk which lies within the private parcel shall be guaranteed for public access by the enactment of a pedestrian easement.

   b. **Reconstruction.** The applicant may demolish and reconstruct the sidewalk for the entirety of the block frontage(s) which the project occupies to the extent necessary to satisfy the requirements of this section.

   c. **Parklet.** The sidewalk may be expanded into the roadway by a metal or wood deck which does not interfere with the drainage of the street. In such instances the applicant shall enter into an encroachment agreement with the City in which the applicant accepts full responsibility for the maintenance and repair of the parklet, as well as providing the indemnification and insurance as required by the City's Risk Manager. The design of the parklet shall be attractive and compatible with its surroundings, as determined by the Director.

   d. **Width Exemption.** For unusually challenging site conditions, or in instances in which the existing building and sidewalk pattern warrants it, the Director may exempt the applicant providing the full sidewalk width required above. Examples include instances in which setting the building back would cause a break in a uniform row of aligned facades, and moving the curb or adding a parklet would interfere with important roadway improvements such as a bike

lane. In such instances all other sidewalk requirements, such as for trees and lighting, shall be met. When a narrow sidewalk is exempted from the width requirement, the standards of the In-Street Tree Planter Public Frontage Type shall be followed if the design of the adjacent roadway permits, at the discretion of the Director.

L. **Block, Street, and Alley Standards.**

1. **Maximum Block Length.** No block shall exceed 400 feet in length. For the purposes of this section, block length shall be measured along a street frontage from an intersecting street to the next intersecting street. Such measurements shall not begin nor end at an alley.

2. **Design of New and Modified Streets.** New streets and modifications to existing streets shall be designed in conformance with the Fulton Corridor Specific Plan (FCSP). Designs may deviate from the FCSP if necessitated by site constraints, at the discretion of the Director.

3. **Vacation of Existing Streets and Alleys.** Existing streets and alleys shall not be removed or vacated, except for street or alley fragments that no longer connect to adjacent streets or provide access to adjacent properties. Such fragments may be vacated with Director approval, provided that such vacation will not result in a block which exceeds 400 feet in length.

(Added Ord. 2016-43, § 2, eff. 12-9-16; Am. Ord. 2017-33, § 9, eff. 7-30-17).

SEC. 15-1505. FAÇADE DESIGN DEVELOPMENT STANDARDS.

A. **Building Articulation and Massing.**

1. **Building Length Articulation.** All building facades over 50 feet in length which face a street, public plaza, or park shall be designed with a minimum of two of the following façade articulation strategies:

   a. **Material Articulation.** Utilize different materials to divide building façades into vertical and/or horizontal increments.

   b. **Structural Expression.** Express building bays, structural elements such as columns and/or beams, or underlying structural elements with pilasters and lintels that project several inches from the façade and/or are clad in a different material from the façade.

   c. **Horizontal Articulation.** Setback a portion of the street-facing façade a minimum of two feet for a minimum distance of 25 feet.

   d. **Architectural Projections.** Append or project façade elements such as balconies, bay windows, cantilevered rooms, and/or awnings.

   e. **Architectural Recessions.** Recess architectural elements or spaces—such as recessed porches, covered passages, recessed balconies, and windows—into the plane of the façade.

2. **Building Height Articulation.** In order to maintain a human scale for multi-story buildings, the height of façades which face a street, public plaza, or park shall be broken into smaller increments as follows:

   a. **Ground Floors.** A substantial horizontal articulation of the façade shall be applied at the top of the first story. On buildings of five stories or taller, this articulation may be applied at the top of the second story. This element shall be no less than 18 inches tall, and shall project no less than four inches from the adjacent wall plane. It shall be designed as a cornice, belt course, or other such architectural element which is appropriate to the style of the building.

   b. **Top Floor.** Buildings or portions of buildings which are four stories in height or taller shall also provide articulation for the top story of the building. This can be accomplished by a color change, material change, a cornice/belt course at the bottom of the uppermost story, or by stepping the uppermost story back at least five feet. On buildings of 8 stories or taller, this articulation may be applied to the top two stories.

   c. **Ground Floor/Upper Floor Differentiation.** Ground floor facades shall be distinct from upper floors through the use or finish of materials, colors, window sizes, or architectural details.

   d. **Exception.** Civic and Cultural buildings located in the Downtown General (DTG) District may be excepted as determined by the Review Authority.

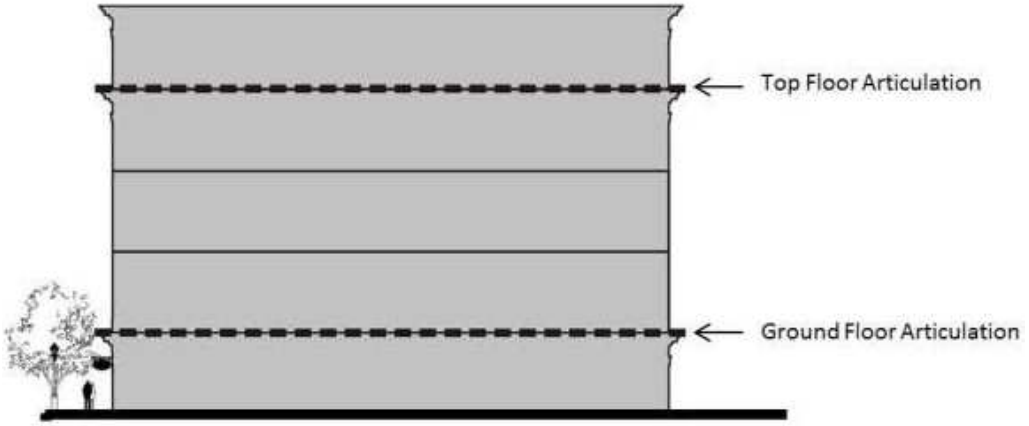


FIGURE 15-1505-A.2: BUILDING HEIGHT ARTICULATION

B. **Building Materials and Finishes.**

1. **General Standards.**

   a. Each side of a building that is visible from a street, public plaza, park, or passenger railway shall be designed with a complementary level of detailing and quality of materials.

b. Each side of a parking structure that is visible from a street, public plaza, park, or passenger railway shall be designed to be compatible with the architectural character, materials, and colors of the overall development.

c. **Durability of Materials.** Exterior materials shall be durable and promote permanence and longevity. Applicants must demonstrate that materials will not unintentionally discolor due to weathering or corrosion. Materials that discolor naturally, such as copper, are encouraged.

d. **Design Consistency.**

i. Finishes, fixtures, and other architectural details shall be designed to be consistent throughout the building.

ii. Attached architectural elements and details such as lighting fixtures, attic vents, custom signage, awnings, hand rails, balconies, and trellises shall be designed to be consistent with other elements throughout the building. Such elements shall relate to the elements or intended general character of surrounding significant resources, potentially significant resources, and other historic-era buildings.

Many of Fresno's cherished historic buildings have articulated upper and lower floors.

Contemporary buildings can also exhibit building height articulation.

e. **Multiple Materials.**

i. Two or more wall materials may be combined on one façade.

ii. A minimum of two exterior wall finish materials shall be used for all mixed-use buildings with a commercial ground floor.

iii. If located one above the other, lighter appearing materials shall be placed above more substantial materials (e.g., wood above stucco or masonry, or stucco and glass above masonry).

iv. In general, vertical joints between different materials shall occur only at inside corners.

2. **Stucco.**

   a. Finishes should be smooth and troweled.

   b. The pattern of joints should be architecturally coordinated with the overall façade composition, and sealant colors should be coordinated with surface and other building colors.

3. **Exposed Wood.**

   a. Exterior walls that are or were originally clad in exposed wood shall not be covered with a non-wood material. Wood-like materials, such as cementitious siding, may be used.

   b. Exposed wood (or wood-like materials) shall be finished in a manner that minimizes maintenance and promotes the material's longevity.

4. **Reflective Materials.** Reflective materials, such as polished metal cladding or chrome, are allowed only if:

   a. The material is applied to small areas such as to highlight signage.

   b. It can be demonstrated that the material will not result in an incompatible adjacency or cause a nuisance to pedestrians, vehicles, and neighboring buildings.

5. **Masonry and Stone.**

   a. Masonry veneer walls shall be detailed with structural integrity, appearing thicker and heavier, especially at corners and window and door openings.

   b. Brick and cut stone shall be laid in true bonding patterns. Mortar joints shall be struck.

   c. River and rubble stone shall be laid from large closest to the ground to small farthest from the ground, with smooth or beaded mortar joints.

   d. Masonry detailing shall transition from stone to other materials through moldings, caps, and other trim elements.

6. **Veneers.** Veneers should turn corners, avoiding exposed edges and continue down the side of a building to a logical break, such as a change in wall plane. Corner pieces should be mitered to hide the joint.

7. **Trim.** Trim materials and finishes shall be differentiated from adjacent wall cladding materials and finishes. Acceptable trim materials shall be wood, precast concrete, stone, tile, or similar materials. Stucco trim shall be permitted at the determination of the Review Authority, and in such instances it shall feature a smooth finish that contrasts significantly from adjacent stucco wall cladding.

8. **Synthetic Materials.** The use of synthetic materials is allowed when the Review Authority determines that the material:

   a. Adequately simulates the appearance of the natural material it imitates.

b. Demonstrates an ability to age similar to or better than the natural material it imitates.

c. Has a permanent texture, color, and character that is acceptable for the proposed application.

d. Can be pressure washed and, in general, withstand anti-graffiti measures.

9. **Prohibited Materials.** Prohibited exterior materials include the following:

a. T1-11.

b. Rough-sawn wood.

c. Vertical siding.

d. Board and batten.

e. Metal siding, except in the DTN zone.

f. Concrete block as an exterior finish material, except in the DTN zone.

g. Plywood, particle board, press board, and similar materials.

10. **Signage Design.** Building signage shall be designed to complement the building while providing adequate visibility from and maintaining compatibility with adjacent suites/units on upper floors near the signage.

11. **Renovations and Alterations.**

a. Modifications to existing buildings shall be architecturally compatible with the existing building as determined by the Review Authority.

b. Exterior walls that are or were originally clad in wood, masonry, or stone shall not be covered with a different material such as stucco.

c. Renovations or alterations to "modernized" pre-World War II buildings shall restore the original façade materials, textures, fenestration, and ornamentation to the extent possible as determined by the Review Authority.

12. **Exception.** Civic and Cultural buildings located in the Downtown General (DTG) District may be excepted from the standards of this subsection as determined by the Review Authority.

C. **Window and Door Opening Design.**

1. **Consistency with Architectural Style.** The orientation and proportion of openings shall be consistent with the architectural style of the building and shall relate to one another proportionally and according to a rational system of design. For example, buildings designed according to traditional architectural styles typically have window openings and panes that are vertically oriented or square or composed of groupings of vertically oriented windows. Mixed-use buildings can have second floor windows that are grouped and centered above the ground floor storefront doors and windows.

2. **Glazing Ratio.**

a. Upper floor façades, and non-commercial portions of ground floor street-facing façades, which face a street, public plaza, or park shall comply with the following requirements for openings:

TABLE 15-1505-C-2-A: GLAZING STANDARDS			
Standard	**DTN**	**DTG**	**DTC**
Min. percentage of upper floor façades that shall consist of openings such as windows and doors to balconies or roofdecks.	25	25	25
Max. percentage of upper floor façades that shall consist of openings such as windows and doors to balconies or roofdecks. Curtain wall systems are allowed as a primary cladding system in the DTG district, and as an accent in the DTN and DTC districts.	70	100	70

b. **Ground Floor Commercial Transparency.**

i. For ground floor façades which face a street, public plaza, or park on portions of a structure occupied by commercial uses, exterior walls facing a front or street side lot line shall include windows, doors, or other openings with transparent glazing for at least 60 percent of the building wall area located between 1.5 and seven feet above the level of the sidewalk.

ii. Openings fulfilling this requirement shall have transparent glazing without reflective glass frosting or dark tinting (to the maximum extent permitted by Title 24 and other energy efficiency regulations) and provide views into work areas, display areas, sales areas, lobbies, or similar active spaces, or into window displays that are at least two feet deep.

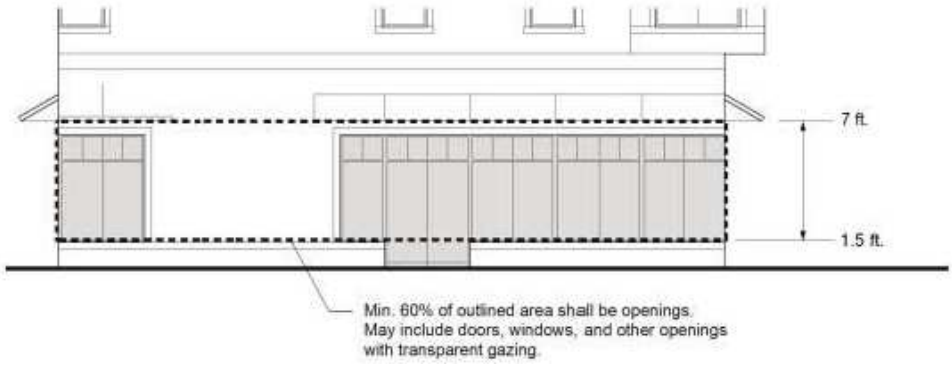

FIGURE 15-1505-C-2-B: GROUND FLOOR COMMERCIAL TRANSPARENCY

3. **Vertical Proportion.** On upper stories, window openings shall have a vertical proportion, in which their height exceeds their width by 25 percent or more. Openings divided by muntins of four inches or more in width shall constitute separate openings.

4. **Window Depth.** Trim at least one inch in depth must be provided around all upper story windows, or windows must be recessed at least two inches from the plane of the surrounding exterior wall. For double-hung and horizontal sliding windows, at least one sash shall achieve the two-inch recess.

5. **Bay Windows.** Bay windows, if provided, shall be habitable spaces.

6. **Window and Door Materials and Detailing.**

   a. Allowed window and door materials include wood, fiberglass, steel, or aluminum.

   b. Muntins, if used, shall be true and divide one pane from the adjoining pane, be of substantial dimension, and not be flat.

   c. Flush "nail-on" aluminum windows, and horizontal aluminum sliding windows are prohibited.

   d. Vinyl and vinyl clad windows shall be consistent with the architectural style of the building. For example, windows of Craftsman style buildings should be brown or hunter's green, not white.

   e. Glazing shall be clear glass (to the maximum extent permitted by Title 24 and other energy efficiency regulations), particularly in storefront and primary window applications. Transom, clerestory, and other specialty windows are not required to be clear and may be decorative.

   f. Window sills shall be detailed to properly shed water.

   g. Head casing shall be equal in width to or wider than jamb casing.

   h. Accessories may include operable shutters sized to match their openings, opaque canvas awnings and other shading devices, and planter boxes supported by visible brackets appropriate to each design.

   i. Security bars and roll down security doors are prohibited on the outside of windows and doors which face a street, public plaza, or park. Retractable interior security bars or gates may be used.

7. **Exception.** With the exception of Section 1505-C.2.b, Civic and Cultural buildings located in the Downtown General (DTG) District may be excepted from the standards of this subsection as determined by the Review Authority.

D. **Façade Alignment.**

1. **Vertical Alignment.** With the exception of mansard roofs, cornices, and other such features, façades shall be oriented vertically and shall have no slope.

2. **Horizontal Alignment.** With the exception of bay windows and similar features, façades that are located within 30 feet of a public street or public plaza shall run parallel or perpendicular to said street or plaza.

3. **Exception.** Civic and Cultural buildings located in the Downtown General (DTG) District may be excepted from the standards of this subsection as determined by the Review Authority.

E. **External Stairs and Corridors.**

1. **External Stairways.** With the exception of stoops and similar steps intended for access for ground-floor spaces, external stairways shall not be located between the primary façade of the building and a public street. Within 30 feet of a public street, stairs shall be architecturally integrated into the building and shall not have open risers.

2. **External Corridors.** External upper-floor corridors located within 30 feet of a public street shall be architecturally integrated into the building.

F. **Private Frontage.** Uses shall be accessed through frontage types as follows. "P" means the frontage type is permitted. "-" means the frontage type is not permitted.

TABLE 15-1505-e-1: PERMITTED PRIVATE FRONTAGE TYPES

Use Classification	*Front Yard*	*Porch*	*Stoop*	*Loading Dock / Terrace*	*Shop-front*	*Forecourt*	*Grand Entry*	*None*
Residential, Individual Entry	P	P	P	—	—	—	—	—

Transportation, Communication, and Utilities	—	—	—	—	—	P	P	P
Service Areas	—	—	—	—	—	—	—	P

TABLE 15-1505-E-2: PRIVATE FRONTAGE STANDARDS

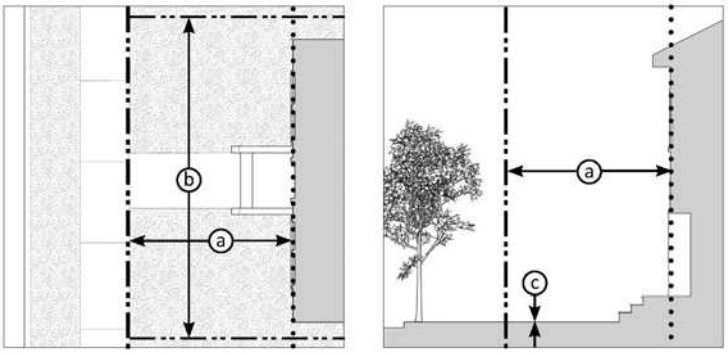
A. Front Yard

1. Basic Standards

ⓐ Clear Depth: 5 ft. min.

ⓑ Length: 15 ft. min.

ⓒ Height above Sidewalk: 3 ft. max.



2. Supplemental Standards

a. Planters, garden walls, fences and hedges are permitted at the sidewalk to a maximum height of 3 ft.. Materials and design shall be compatible with the architectural style of the building.

b. Water features, shade structures, seating, and gardens are encouraged in this area.

c. Vehicular parking, trash collection and storage are not permitted in this area.

d. When Front Yards are raised from the level of the sidewalk, the resulting retaining wall shall be decorative and clad in brick or stone.

B. Porch

TABLE 15-1505-E-2: PRIVATE FRONTAGE STANDARDS

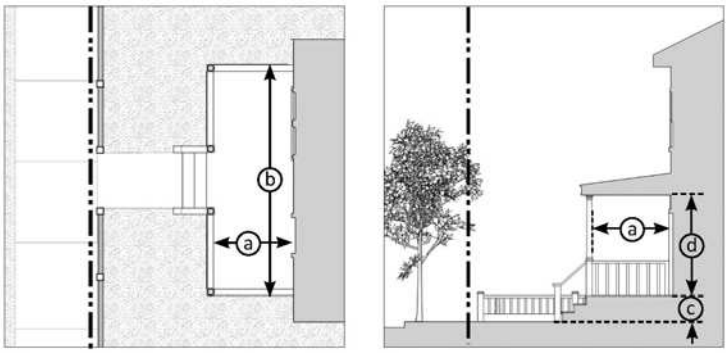
1. Basic Standards

ⓐ Clear Depth: 5 ft. min., 15 ft. max.

ⓑ Length: 8 ft. min.

ⓒ Height above adjacent grade: 18 in. min., 4 ft. max.

ⓓ Height: 8 ft. min. clear from the finish floor



Plan Section

2. Supplemental Standards

a. Provide landscaping in front of and around porch.

b. Railings should be no higher than required by the building code.

c. The porch may extend around to encroach into the street sideyard up to ½ of the required setback. If insufficient distance exists, the minimum porch depth shall be achieved by moving back the façade the necessary distance.

d. Awnings may be attached to the face of the porch if the awning is adequately supported and if the awning is compatible with the architectural style of the porch and building.

e. Porches shall not be enclosed except for insect screens between the structural members of the porch if:

i. Visibility is not reduced between the adjacent sidewalk and the porch.

ii. The insect screen is recessed from the front face of the columns on the porch.

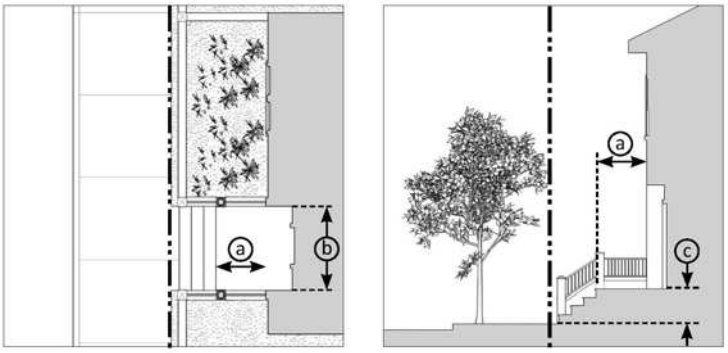
C. Stoop

1. Basic Standards

ⓐ Clear Depth: 6 ft. min., 15 ft. max.

ⓑ Length: 4 ft. min., 10 ft. max.

ⓒ Height: Max. 4 ft. elevation above finish sidewalk grade



Plan Section

2. Supplemental Standards

a. Landscaping encouraged in front, around and/or within walls of stoop.

b. Minimum 3 ft. to maximum 4 ft. high garden wall and gate may be provided at entry to stoop.

c. Entry gates to swing in a direction away from sidewalk.

d. Use of other frontage types at entry stoop (e.g., awning, bay window, arcade) allowed.

e. Exterior stairs may be located perpendicular or parallel to the adjacent sidewalk.

f. The landing may be covered or uncovered, but shall not be enclosed beyond the building façade (e.g., stoop landings may be recessed into the building façade and be enclosed by the walls of the recess).

D. Loading Dock/Terrace

TABLE 15-1505-E-2: PRIVATE FRONTAGE STANDARDS

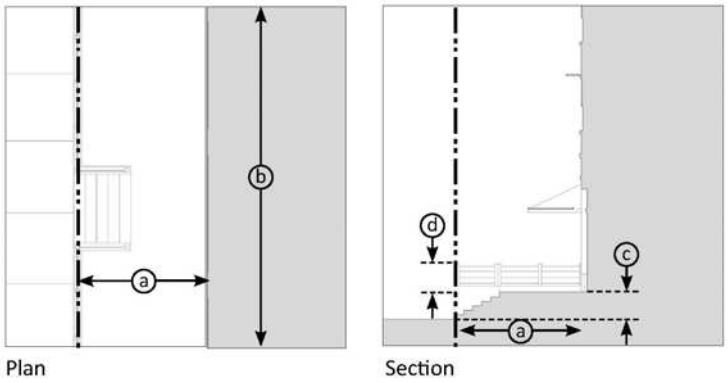
1. Basic Standards

ⓐ Clear Depth: 7 ft. min.

ⓑ Length: no min./no max.

ⓒ Height: Max. 4 ft. elevation above finish sidewalk grade

ⓓ Railing Height: no higher than required by the Building Code



2. Supplemental Standards

a. Exterior stairs may be perpendicular or parallel to the adjacent sidewalk but shall not encroach into the right-of-way. The landing may be covered or uncovered.

E. Storefront

1. Basic Standards

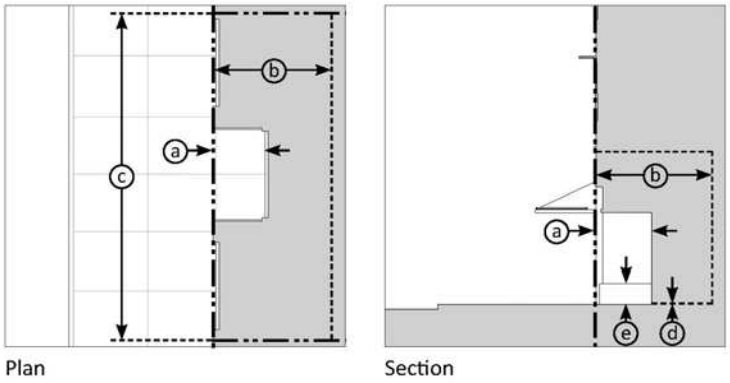
ⓐ Depth of Recessed Storefront Dining Area: 12 ft. max.

ⓑ Depth of Shop: 30 ft. min.

ⓒ Length: min. 75% of required façade length

ⓓ Height above sidewalk: must be at sidewalk grade

ⓔ Bulkhead Height: 18 in. min., 3 ft. max.



2. Supplemental Standards

a. A physical transition or 'bulkhead' shall be provided between the glazing of any storefront and the adjacent sidewalk. The bulkhead shall not consist of aluminum storefront or spandrel panel.

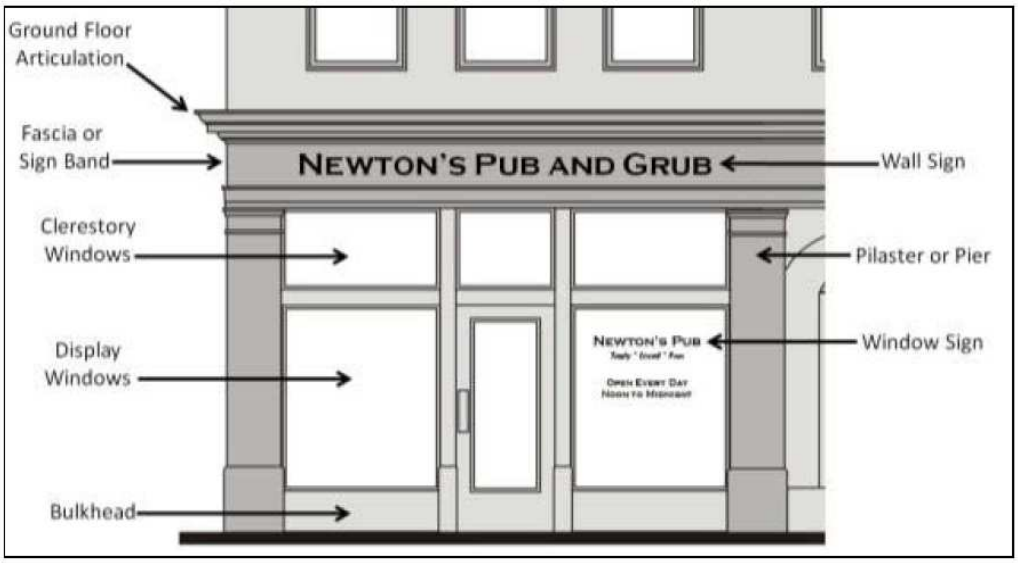
b. Storefront windows may have clerestory windows between the storefront and second floor/top of single-story parapet. Glass in clerestory windows may be of a character to allow light, while moderating it such as stained glass, glass block, painted glass, or frosted glass.

c. Storefronts shall provide clear views of merchandise displays within the shop space and/or maintained and lighted merchandise display(s) within a display zone of at least two feet in depth from the glass.

d. The storefront may be directly illuminated from the sidewalk side of the glass by externally mounted lights.

e. Planter boxes, containers or vine pockets may be located adjacent to storefronts. Such landscape areas shall not be located within required ADA access ways along any public sidewalk.

TABLE 15-1505-E-2: PRIVATE FRONTAGE STANDARDS



This diagram shows how the various components of a storefront can be arranged.

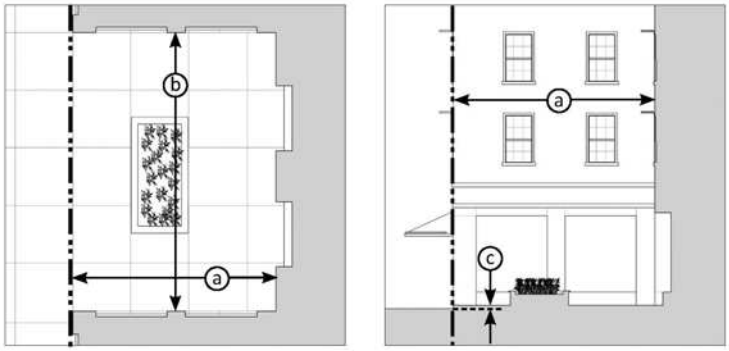
F. Forecourt

1. Basic Standards

ⓐ Clear Depth: 15 ft. min.; 50% of lot depth max.

ⓑ Length: 12 ft. min.; 50% of lot depth max..

ⓒ Height: 4 ft. max. above adjacent sidewalk



2. Supplemental Standards

a. Elevated forecourts shall meet the accessibility code for access to the building and the sidewalk. Railings shall not visually obstruct views to or from the street and shall be designed to match the architectural style of the main building.

b. Arcades, galleries, awnings, or canopies may encroach into the forecourt for a distance of ¼ of the forecourt width or depth with a cumulative encroachment not to exceed a combined distance of ½ of the forecourt width and depth, respectively.

c. Planters, garden walls, fences and hedges are permitted at the entrance to the forecourt to a maximum height of 3 ft. per Section 15-2006, Fences, Walls, and Hedges.

d. Water features, shade structures, seating, and gardens are encouraged in this area.

e. Vehicular parking, trash collection and storage are not permitted in this area.

G. Grand Entry

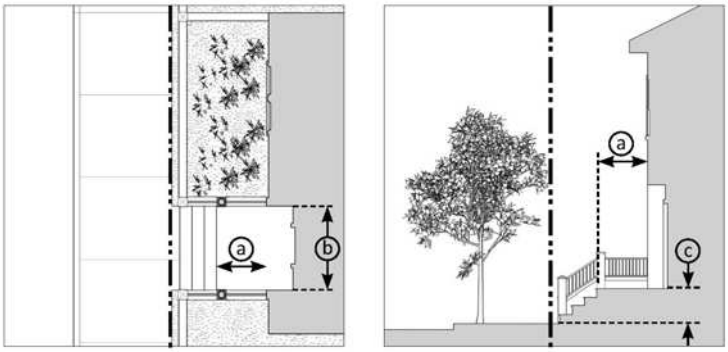
TABLE 15-1505-E-2: PRIVATE FRONTAGE STANDARDS

1. Basic Standards

ⓐ Clear Depth: 6 ft. min., 15 ft. max.

ⓑ Length: 10 ft. min., 25 ft. max.

ⓒ Height: May be at sidewalk grade, or max. 4 ft. elevation above finish sidewalk grade



2. Supplemental Standards

a. The entrance shall be clearly differentiated from entrances into individual commercial or residential spaces through the use of decorative columns or similar ornamentation flanking the entrance, by aligning the entrance with prominent architectural features on upper floors, or through color and material changes.

b. The entrance shall be covered by an awning or canopy or shall be recessed into the building.

G. **Façade Elements.** The following development types shall incorporate a minimum of two of the Façade Elements shown in Table 15-1505-F into front and street-side building façades.

1. New buildings.

2. Building additions (façade elements are not required on the existing part of the structure if it is not being altered).

3. Façade remodels.

4. Exceptions:

   a. Projects or parts of projects involving designated historic resources, or the restoration of historic façades, shall not be required to incorporate Façade Elements if such elements were not part of the historic façade.

   b. Civic and Cultural buildings located in the Downtown General (DTG) District may be excepted from the standards of this subsection as determined by the Review Authority.

TABLE 15-1505-F: FAÇADE ELEMENTS—DOWNTOWN DISTRICTS

A. Gallery

TABLE 15-1505-F: FAÇADE ELEMENTS—DOWNTOWN DISTRICTS

1. Basic Standards

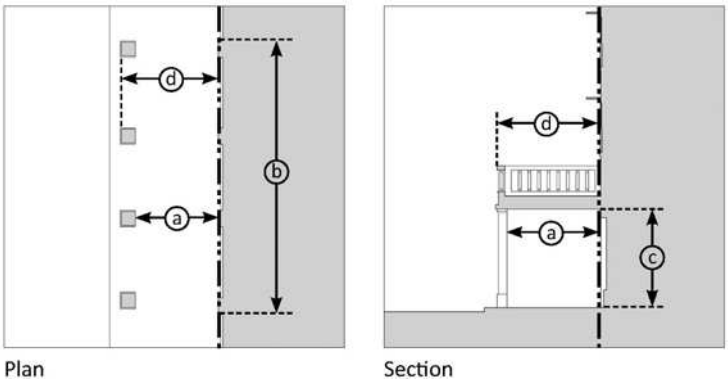
ⓐ Clear Depth: 10 ft. min., 15 ft. max.

ⓑ Length: 50% to 100% of building length

ⓒ Height: 8 ft. min. clear from the finish floor

ⓓ Encroachment into R.O.W.: Galleries may encroach over the sidewalk in the public right-of-way, subject to an encroachment permit prior to issuance of a building permit as follows:

- 10—12 ft. wide sidewalk: 6 ft. max.
- 12—14 ft. wide sidewalk: 8 ft. max.
- 14+ ft. wide sidewalk: ⅔ width of sidewalk max.



2. Supplemental Standards

a. Planter boxes or pots may be placed in between the columns to provide enclosure for uses such as café seating. A Gallery must be a minimum 50% open on two sides.

b. Balconies, awnings, bay windows, verandas, or other structures are allowed above the gallery.

c. Except on residential and civic buildings, Galleries shall be combined with the Storefront frontage type.

d. Column spacing and colonnade detailing, including lighting, shall be consistent with the style of the building to which it is attached.

e. Columns shall be placed in relation to curbs so as to allow passage around and to allow for passengers of cars to exit the vehicle.

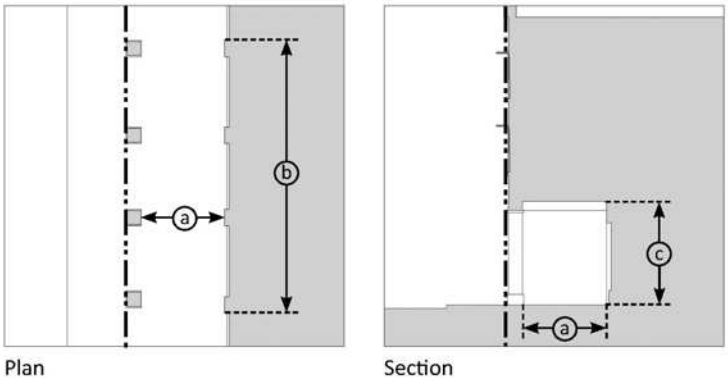
B. Arcade

1. Basic Standards

ⓐ Clear Depth: 10 ft. min., 15 ft. max.

ⓑ Length: 50% to 100% of building length

ⓒ Height: 8 ft. min. clear from the finish floor



2. Supplemental Standards

a. Planter boxes or pots may be placed in between the columns to provide enclosure for uses such as café seating.

b. Arcade to be a minimum 50% open on two sides.

c. Balconies, awnings, bay windows, verandas, or other structures are allowed above the arcade.

d. Column spacing and colonnade detailing, including lighting, shall be consistent with the style of the building to which it is attached.

C. Bay Window

TABLE 15-1505-F: FAÇADE ELEMENTS—DOWNTOWN DISTRICTS

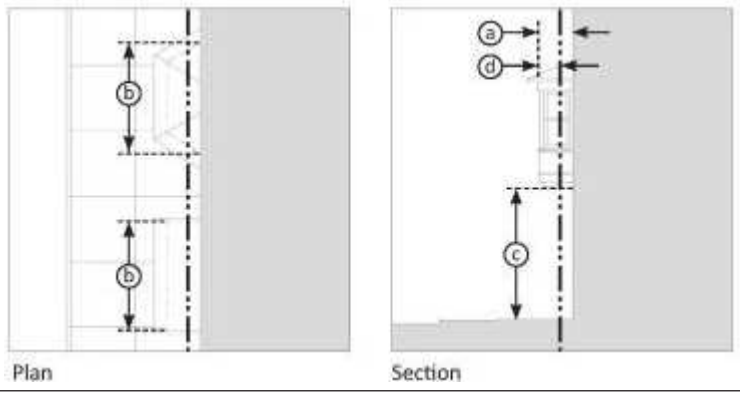
1. Basic Standards

ⓐ Depth: 2 ft. min., 4 ft. max.

ⓑ Length: 15 ft. max.

ⓒ Height: 2nd fl.: 10 ft. min. clear from the ground

ⓓ Encroachment into R.O.W.: 3 ft. max.



2. Supplemental Standards

a. Bay windows are permitted on the ground floor of buildings with residential ground floors.

b. Provide landscape in front and around bay windows on the ground floor.

c. Bay windows to have a minimum 25% glazing.

D. Balcony

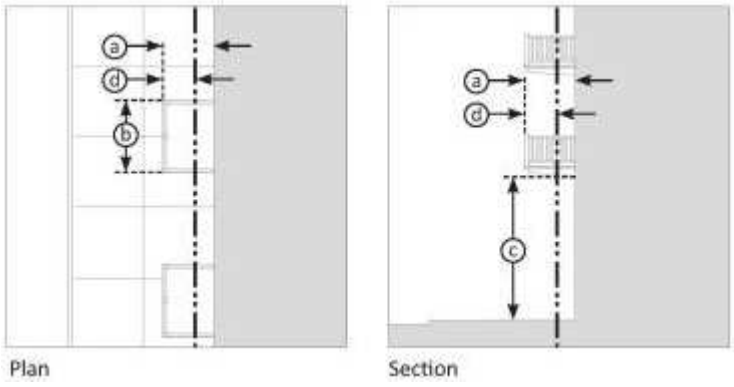
1. Basic Standards

ⓐ Depth: 5 ft. min., 10 ft. max.

ⓑ Length: 8 ft. min.

ⓒ Height: 8 ft. min. clear, 12 ft. max. clear from the finish floor

ⓓ Encroachment into Setback or R.O.W.: 4 ft. max.



2. Supplemental Standards

a. Balcony may be covered but should be a minimum 50% open on three sides.

E. Awning, Canopy, Marquee, Sun Shade, Trellis

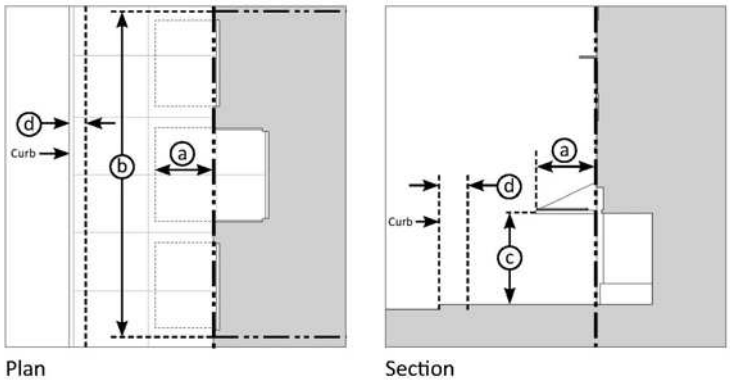
1. Basic Standards

ⓐ Depth: 2 ft. min., 10 ft. max.

ⓑ Length: 25% to 75% of building frontage

ⓒ Height: 8 ft. min. clear from the ground

ⓓ Encroachment into Setback or R.O.W.: within 2 ft. clear of curb



2. Supplemental Standards

a. Awnings, Canopies, Sun Shades, and Trellises shall not cover the entire length of the facade. They may cover individual storefronts and openings or multiple openings as follows:

TABLE 15-1505-F: FAÇADE ELEMENTS—DOWNTOWN DISTRICTS
• Storefront(s) within 5 feet of another storefront. • Up to 2 doors or windows not associated with a storefront if the distance between them does not exceed 3 feet. b. Awnings, Canopies, Sun Shades, and Trellises shall not obscure architectural features such as moldings above the storefront. c. Awnings shall match the shape of the opening they are shading (simple shed shaped awnings for rectangular openings) except for odd shaped awnings. Odd shaped and bubble awnings are prohibited except where a photograph shows they have been previously allowed on the building and were not in conflict with an applicable requirement. d. Awnings, Canopies, Sun Shades, and Trellises may be constructed of metal, wood or fabric. Highly reflective materials should be avoided. e. Lights that illuminate the pedestrian way or sidewalk dining beneath the awning are only allowed upon review and determination by the Director that the proposed lighting is appropriate for the context and consistent with the intended physical character of the zoning district. f. Internally illuminated awnings that glow are prohibited.

(Added Ord. 2016-43, § 2, eff. 12-9-16).

SEC. 15-1506. RIGHT TO DOWNTOWN OPERATIONS.

As Downtown Fresno continues its evolution into a compact, mixed-use center, it is essential that new property owners and tenants understand the present and future nature of the area so that they may function together as harmoniously as possible. Toward that end, this section will ensure that property owners, tenants, and users of property within the Downtown Districts are notified of the vibrant, active Downtown environment, the revitalization efforts and public improvements occurring Downtown, the special events and community and business activities that are part of the vitality of the Downtown, and the expectations and responsibilities associated with owning, purchasing, renting or making other use of property within Downtown.

A. **Definitions.**

1. The following definitions shall apply to the Right to Downtown Operations section:

- Downtown Operations: Any activity, use, facility or operation associated with a permitted temporary or permanent use occurring within the boundaries of the Downtown Districts, as well as any lawful public uses. Downtown operations and their associated impacts include, but are not limited to, the following: music, dancing, singing, and voices associated with permitted uses and Downtown activities; odors associated with operation of restaurants, breweries, coffee roasters, urban wineries, and other businesses; high levels of traffic and traffic congestion; increased vehicular traffic from special events and other activities; street construction, closures and traffic re-routing, including exclusion of vehicle access during certain times due to festivals, parades or other special events; railroad operations, including increased rail activity associated with passenger rail operations; outdoor sales of merchandise and outdoor restaurant seating; festivals, parades and/or cultural events which may result in gatherings of large groups of people, street closures, parking

impacts, noise, odors and other impacts; increased levels of pedestrian activity; operation of delivery trucks and vans, trash and recycling collection trucks, and other such vehicles; impacts associated with artists' studios and spaces, including noise, odors, and vibration; general increases in activity levels occurring on a 24-hour basis, including increases in noise and other impacts during late night and early morning hours; high levels of nighttime lighting and illumination; and trash collection, including trash collection before 6:00 a.m.

- Property: Any real property located within the Downtown Districts, including property intended for residential, commercial, business, public purposes, and other uses.
- Tenant: Any renter or lessee of property.
- Transfer: The sale, lease, trade, exchange, rental, or gift of property.
- Transferee: Any person or entity acquiring an interest in real property in the Downtown Districts from another person or entity, including, but not limited to, a purchaser of property or a person taking possession of property pursuant to a lease or rental agreement.
- Transferor: Any person transferring an interest in real property in the Downtown Districts to another person, including the seller of property or a landlord granting possession of property pursuant to a lease or rental agreement.

B. **Downtown Operations Notification Requirements.**

1. As a condition of approval of any Development Permit, Tentative Subdivision Map, Conditional Use Permit, or similar entitlement relating to property located within the For all housing that is entitled under the Downtown Districts, every property owner shall record the deed notification provided in Section 15-1506-B.3 of this Code on the property for which the Zone Clearance, Development Permit, Tentative Subdivision Map, Conditional Use Permit, or similar entitlement is issued. The Notice of Right to Downtown Operations shall be included in all subsequent deeds and leases for this property until such time as the property is no longer located within the Downtown Districts.

2. Every transferor of property, as transferor is defined herein, subject to the requirements of 15-1506-B.1 shall, upon transfer, also provide to any transferee the Notice of Right to Downtown Operations recited in 15-1506-B.3. The Notice of Right to Downtown Operations may be contained in any form of agreement or contract; however, the notice need be given only once in any transaction. The transferor and transferee shall provide each other with written acknowledgement of delivery and receipt of the notice.

3. The notice provided in this section is intended to advise property owners, tenants and users of property within the Downtown Districts of the inherent

impacts and inconveniences associated with purchase, tenancy or use of property in the Downtown Districts. This notice shall be provided as required by 15-1506-B.1 and 15-1506-B.2.

NOTICE OF RIGHT TO DOWNTOWN OPERATIONS

The City of Fresno permits the operation of a variety of residential, commercial, civic, and cultural activities within the Downtown zoning districts.

You are hereby notified that the property you own, or are renting, leasing, using, occupying, or acquiring an interest in is located within the Downtown zoning districts. You may be subject to impacts, including inconvenience and discomfort, from lawful activities occurring within the Downtown zoning districts. Impacts may include, but are not limited to, noise, odor, glare, and transportation congestion resulting from permitted uses such as, but not limited to, civic, commercial, cultural, public and institutional, recreational, and transportation-related activities. Specific impact-causing sources might include, but are not limited to, music, dancing, talking, singing, laughter, restaurants and bars, outdoor dining/seating, outdoor sales, festivals, parades, special events, street closures, high volumes of traffic, high volumes of pedestrian activity, emergency services, waste collection, commercial and business operations, railroad operations and rail activity, and other permitted Downtown activities. These impacts might occur late at night, early in the morning, or on a 24-hour basis.

One or more of the inconveniences described above might occur as a result of Downtown operations and activities which are in compliance with existing laws and regulations and accepted customs and standards. If you own, lease, rent, or otherwise utilize property within the Downtown zoning districts, you are expected to be prepared to accept such inconveniences or discomfort as a normal and necessary aspect of owning, living in, operating a business in, or otherwise utilizing an area with an active Downtown character.

The City of Fresno's Development Code does not exempt Downtown businesses or other participants in Downtown activities from compliance with the law. Should any business or person not comply with appropriate state, federal, or local laws, legal recourse may be possible by, among other ways, contacting the appropriate agency.

This notification is given in compliance with the Fresno Municipal Code § 15-1506.

4. The failure to give the notice required by this section shall not invalidate any transfer.

C. **Nuisances, Resolution of Disputes, and Contact Persons.**

1. Normal Downtown operations are presumed to not constitute a nuisance, unless such operations are deemed to be a nuisance under California Civil Code

Section 3479 or the Fresno Municipal Code. Downtown operations shall comply with all state, federal, and local laws and regulations applicable to the operations, including applicable noise and other operational standards contained in the Fresno General Plan and/or Fresno Municipal Code.

2. Every developer or owner of commercial, residential, or other property within the Downtown Districts, consisting of two or more residences, businesses or tenant spaces, shall, as a condition of approval of any Development Permit, Tentative Subdivision Map, Conditional Use Permit, or similar entitlement relating to property located within the Downtown Districts, designate an information contact person. The information contact person shall be available to disperse information distributed by the City, PBID, non-profit organizations, or other public or quasi-public organizations, to tenants and property owners within the development. The information contact person role may be undertaken by the property owner, a homeowner's association, a property management company or other similar organization.

(Added Ord. 2016-43, § 2, eff. 12-9-16).

SEC. 15-1507. ADDITIONAL STANDARDS.

A. Projects shall incorporate all relevant mitigation measures required pursuant to applicable environmental assessments prepared pursuant to CEQA that encompass the project area. "Applicable Environmental Assessments" shall include, but may not be limited to the following:

1. A MEIR prepared for the General Plan in effect at the time of project approval;
2. A Program or Project EIR prepared for either a Community Plan or Specific Plan that includes the project area, in effect at the time of project approval.

B. The proposed design shall not lead to an overburdening of existing or planned infrastructure capacities, including, but not limited to, capacities for water, runoff, storm water, wastewater, and solid waste systems. The determination of whether or not the proposed design can be accommodated within existing infrastructure shall be made by the Review Authority in consultation with the Directors of Public Works and Public Utilities.

C. The project shall comply with all applicable Public Works standards.

(Added Ord. 2016-43, § 2, eff. 12-9-16).

Editor's note—Ord. 2016-32, § 43, effective October 21, 2016, amended the Code by repealing former § 15-1601, which pertained to Airport Environs (AE) Overlay Districts, and derived from Ord. 2015-39, § 1, effective January 9, 2016.

SEC. 15-1603. BLUFF PROTECTION (BL) OVERLAY DISTRICT.

A. **Purpose.** The Bluff Protection (BL) Overlay District is intended to provide special land development standards that will preserve the integrity of the natural landscape of the southerly San Joaquin River Bluffs, adjacent properties, and adjacent open spaces as areas of special quality by reason of the topography, geologic substratum, and environment of the area. Regulations for the BL Overlay District are deemed necessary for the preservation of the special qualities of the southerly San Joaquin River Bluffs, and for the protection of the health, safety, and general welfare of owners and users of property within the River Bluff Influence Area.

B. **Applicability.** The provisions of this article apply to areas within 300 feet of the toe of the San Joaquin River bluff.

C. **Use Regulations.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.

D. **Development Standards.** Development Standards shall be as required by the Base District, except as follows:

1. **Bluff Setback.** Development, including buildings, structures, decks, pools, spas, and steps, shall be setback a minimum of 20 feet from the bluff edge or as identified as

necessary for the preservation of the existing state of the bluffs in the soils report prepared pursuant to Section 15-1603-F, Soils Report, whichever is greater. Buildings, structures, decks, pools, spas, and steps include all objects that may be below grade, at grade, or above grade.

2. **Lighting and Illumination.** Streetlights and all exterior lighting shall be directed away from the riverbottom.

3. **Design and Orientation.** The design and orientation of structures, walls and fences shall be in keeping with the natural character of the Bluffs. Fences must be open a minimum of 80 percent (i.e., no more than 20 percent opaque) to allow for the passage of light and air.

4. **Colors and Materials.** Construction shall be permitted only on lots subject to recorded deed restrictions or covenants restricting exterior colors and construction materials to those which are compatible with the natural bluff environment and with surrounding development.

5. **Geologic Impact Standards.** To minimize potential geologic and soil hazards, the following provisions shall apply to all subdivisions and development within Bluff Zones I, II, and III of the San Joaquin River Bluffs environs:

    a. **General Provisions.** General provisions for grading, drainage, and erosion:

        i. Locations of streets, utilities and other facilities shall be approved by the Director and the City Engineer.

        ii. Requirements for the location, design, construction, and maintenance of surface and subsurface drainage facilities shall be as determined by the Fresno Metropolitan Flood Control District.

        iii. All development within Bluff Zones I, II, and III shall comply with the applicable provisions of the Building Code as adopted and amended by the City.

        iv. Drainage of storm and irrigation water shall be directed away from the Bluff Face to public rights-of-way or to drainage facilities approved by the Fresno Metropolitan Flood Control District. A drainage plan shall be provided and approved by the Director for each separate lot within the Bluff Influence Area, establishing methods for conveying surface water from roofs and landscaping, and drain water from all swimming pools or decorative pools to approved locations away from the Bluff Face.

        v. To minimize erosion, the following shall apply to all graded, altered, or unstable bluff areas:

            (1) Landscaping with drought-tolerant, low-fuel plants, compatible with the bluff environs, from a list prepared by the City.

            (2) Landscape irrigation shall utilize drip irrigation or low precipitation systems, and must be approved by the civil engineer prior to installation.

(3) Hydroseeding, netting and mulch shall be utilized to re-establish plant life, to control erosion and to discourage rodent burrowing.

b. **Soils Investigation.** The following types of soil evaluations shall be performed and reported:

i. **Bluff Zone I.** A civil engineer or soils engineer registered in the State of California shall investigate and report on soil and geologic conditions, utilizing methods consistent with accepted practices. The report shall evaluate soils and geologic conditions for development proposals located outside Bluff Zone II and shall be similar in scope to the soils investigation required under Subparagraph ii, below. The investigation and report shall identify potential surface and subsurface drainage problems that may ultimately affect the stability of the bluffs and any measures to mitigate such effects.

ii. **Bluff Zone II.** A civil engineer or soils engineer registered in the State of California shall provide a detailed Soils Investigation and Evaluation Report using methods consistent with accepted practice and shall include the following:

(1) Evaluation of existing stability;

(2) Evaluation of post-development slope stability;

(3) Documentation of existing conditions for rock falls, block caving, creep failures, shear failures, excessive erosion and sloughing;

(4) Evaluation of slope angles, subsurface drainage, proposed grading, structures, utility trenches, potential rodent population, storm drain disposal, surface irrigation and drainage, erosion, traffic vibration, potential seismic hazards, and on-site sewage disposal approximate to the bluffs;

(5) Evaluation of the influence of future development and grading along the Bluff Toe for its effect on slope stability;

(6) Evaluation of the adverse effect of increased surface and subsurface drainage;

(7) Coordination, review, and approval of site grading and drainage plans prepared by the project civil engineer for conformance to soils and geologic reports;

(8) Laboratory tests to evaluate the soil parameters to be used in determination of slope stability;

(9) Determination and establishment of the location of the Bluff Toe, Bluff Edge and of any building setbacks.

iii. **Bluff Zone III.** A civil engineer or soils engineer registered in the State of California shall complete a Soils Investigation and Evaluation Report, involving detailed study of individual lots within the River Bluff Influence Area, as follows:

(1) Zone III soils investigations will address the details of the configuration, location, type, and loading of the proposed structures and drainage plan;

(2) The report shall provide detailed recommendations for foundations, drainage, and other items critical to bluff stability.

c. **Filing.** Filing of Soils Investigation and Evaluation Reports shall be required as follows:

i. A Zone I, Zone II or Zone III Soils Investigation and Evaluation Report and a grading plan shall be filed at the time of filing any tentative tract map or parcel map providing for lots or portions of lots within Zone I, Zone II or Zone III, or at the time of filing any application for rezoning or for special permits for parcels of land within Zone I, Zone II or Zone III;

ii. For parcels of land within Zone I, Zone II or Zone III, that are not the subject of the filing of a tentative map or tentative parcel map, or that are not the subject of any application for rezoning or a special permit, a Zone I, Zone II or Zone III Soils Investigation and Evaluation Report and a grading plan shall be filed with any request for a building permit.

d. **Certification.** The Soils Investigation and Evaluation Reports shall be certified as follows:

i. The engineer responsible for the soils investigation and evaluation report and for the grading plan shall certify that the proposed project will not cause any significant increase in the risk of damage to the bluff from erosion, slippage, subsidence, or other movement when grading, drainage, and other slope protection measures have been done in accordance with the Soils Investigation and Evaluation Report and the grading plan. The certificate may be executed on the face of the subdivision map or parcel map or may be contained in a separate instrument delivered to the Director.

ii. The engineer responsible for the soils investigation and evaluation report and for the grading plan for parcels of land for which certification is not provided above shall file written certification with any request for a building permit that the proposed project will not cause any significant increase in the risk of damage to the bluff from erosion, slippage, subsidence or other movement, when grading, drainage and other slope protection have been done in accordance with the soils investigation and evaluation report and the grading plan.

e. **Completion of Erosion Controls.** All erosion control measures shall be completed before the issuance of occupancy permits for residences constructed on lots within or partially within Zone II, and shall be completed before the issuance of building permits for structures constructed on lots within or partially within Zone III.

E. **Development Permit.** A Development Permit is required for all grading and development, including buildings, structures, decks, pools, spas, and steps, within or abutting the southerly boundary of the BL Overlay District. This section applies to above or below grade objects.

F. **Soils Report.** All applications for development shall provide a soils report. This requirement does not apply to the property between Blythe Avenue and the extension of the Nees Avenue alignment, existing as of August 1, 1979, to the Bluff.

G. **Grading Standards.** No alteration or modification of the existing landscape, including grading or alteration of existing topography, or construction of any structures, shall be permitted on the bluff face or air space above it. This requirement does not apply to the property between Blythe Avenue and the extension of the Nees Avenue alignment, existing as of August 1, 1979, to the Bluff.

H. **Other Development Regulations.** Private access, including gates and/or staircases, irrigation systems, planting, maintenance/weed control, and/or disposing of green waste onto the Bluff, are not permitted.

I. **Commencement of Improvements.** No Building Permit or Grading Permit shall be issued unless all required technical studies required by this Code have been submitted and all applicable permits required by this Code have been obtained.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, §§ 14—16, eff. 6-11-18).

SEC. 15-1604. EXPRESSWAY AREA (EA) OVERLAY DISTRICT.

A. **Purpose.** As used herein, the Expressway Area (EA) Overlay District means major streets that are classified as Expressways, Super Arterials, and other streets that may be designated by the City. The Expressway Area (EA) Overlay District is established to:

1. Protect land uses and residences proximate to designated major streets.

2. Limit development that may potentially be detrimental to the general health, safety, and welfare and to existing and future infrastructure operations and improvements.

3. Mitigate noise to acceptable levels.

B. **Use Regulations.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.

C. **Development Standards.** Development Standards shall be as required by the Base District, except as follows:

1. **Residential Districts.** No building shall be erected within 200 feet of the right-of-way line, except as follows:
    a. An acoustical study determines that interior noise can be mitigated to acceptable levels.
    b. In no case shall the minimum building setback be less than 75 feet from the center line of the nearest moving traffic lane of the abutting roadway.
    c. Any barrier necessary to achieve acceptable noise levels shall not be less than eight feet in height and may be a wall, an earth berm, or any combination of wall and earth berm.
    d. Where no frontage road is required along the expressway, any landscaped open space transition setback separating properties zoned for residential uses shall contain a wall, berm, or any combination of wall and berm, not less than eight feet high and located 50 feet from and parallel to the center line of the nearest moving lane of the abutting roadway.
2. **Non-Residential Districts.** No buildings, nor private signage, shall be erected within 30 feet of the right-of-way.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-1605. RESIDENTIAL MODIFYING (RM) OVERLAY DISTRICT.

A. **Purpose.** The Residential Modifying (RM) Overlay District is intended to provide special land development and street development standards which will create, protect, and maintain designated areas, streets, and adjacent properties as residential areas of exceptional public and private value.

B. **Use Regulations.**

1. **Permitted Uses.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.
2. **Uses Subject to a Conditional Use Permit.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.
3. **Uses Not Permitted.**
    a. The uses expressly prohibited by the provisions of the Base District.
    b. Family Day Care.
    c. Community and Religious Assembly.
    d. Schools, Public or Private.
    e. Park and Recreation Facilities.
    f. Cultural Institutions.

g. Hospitals and Clinics.

C. **Development Standards.** Development Standards shall be as required by the Base District except as follows:

1. All yards required by an underlying district and abutting a street, shall be landscaped and maintained by the property owner.

2. Where the underlying district permits farm animals, the front or side yard abutting a street may be designed with a pasture as permitted by the underlying district.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-1606. ANNEXED RURAL RESIDENTIAL TRANSITIONAL (ANX) OVERLAY DISTRICT.

A. **Purpose.** The Annexed Rural Residential Transitional (ANX) Overlay District allows rural residential use of properties upon annexation to the city continuing until such time as the properties are further developed consistent with the Base District.

B. **Use Regulations.**

1. **Permitted Uses.** Any permitted Special Use shall be subject to the provisions in Article 27.

   a. The uses permitted by the provisions of the Base District.

   b. Existing Uses. Any use existing at the time the property was annexed to the city so long as the use had been lawfully allowed by the County at the time immediately preceding the annexation, subject to provisions of Article 4, Non-Conforming Uses, Structures, Site Features, and Lots.

   c. One single-unit dwelling per lot and Second/Accessory Dwelling Units per Section 15-2754.

   d. Accessory Buildings.

   e. Garages.

   f. Servants' quarters on parcels of land having a minimum lot area of 36,000 square feet or more.

   g. Barns, stables, corrals, coops and/or animal or fowl pen.

   h. Adult Day Care Facilities for a maximum of six adults when located in a single-unit dwelling.

   i. Crop Cultivation and Community Gardens.

   j. Animal Keeping.

      i. Household Pets.

      ii. Where the lot area is at least one acre in size, a property owner may have adult bovine (cows) or equine (horses) animals, in any combination thereof, and their immature offspring, per acre. In no event shall any property

regardless of size have more than 10 adult bovine or equine, or combination thereof. For every adult bovine or equine allowed on a property, a property owner may substitute two adult ovine (sheep) or adult caprine (goats), including any immature offspring. Other similar animal types may be allowed upon a determination by the Director that they will not detrimentally affect the public health, safety, and/or welfare.

iii. Poultry (limited to hens only), rabbits, or similar small feather-bearing or fur-bearing animals, not to exceed twenty-four of any kind or combination thereof, for domestic purposes only.

iv. Where any of the foregoing animals noted in this section are permitted on site, a stormwater runoff permit may be required in accordance with the requirements of the Regional Water Quality Control Board.

k. Family Day Care Homes, small.

l. Greenhouses, horticultural collections and flower and vegetable gardens, private.

m. Group housing facility for a maximum of six persons when located in a single-unit dwelling.

n. Home Occupations.

o. Petroleum products storage, for use by the occupants of the premises, but not for resale or distribution.

p. Roadside Stands, temporary, for the sale of agricultural products produced upon the premises.

q. Signs, subject to provisions of Article 26.

2. **Uses Subject to a Conditional Use Permit.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.

3. **Uses Not Permitted.** Those uses not permitted in the Base District or listed above, subject to the limitations and conditions set forth therein.

C. **Development Standards.** For all properties in the ANX overlay district, the RS-1 zone district standards shall apply with the exception that an animal or fowl pen, coop, stable, bam, or corral may be located within 40 feet of any dwelling or other building used for human habitation, or within 100 feet of the front property line of the subject property under a Conditional Use Permit filed and approved pursuant to Article 53.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 29, eff. 7-27-25).

SEC. 15-1607. EQUINE (EQ) OVERLAY DISTRICT.

A. **Purpose.** The Equine (EQ) Overlay District is established to identify suburban residential areas where horses and other equine are allowed to be kept, while ensuring the protection of the quality of the residential environment and securing the health, safety, and general welfare of the residents.

B. **Applicability.** In the event of a conflict between this section and Section 15-2707, Animal Keeping, the provisions of this section shall prevail.

C. **Use Regulations.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein, except as follows:

1. **Horse Keeping.** The keeping of horses is permitted, subject to the following:
    a. **Number of Horses Permitted.**
        i. Lots 36,000 Square Feet or Less. Up to two adult horses and one of their offspring less than two years of age are permitted.
        ii. Lots 36,001 Square Feet or More. Up to four horses are permitted.
    b. **Minimum Setback Requirements for Stables and Corrals.**
        i. From Side or Rear Property Lines. 25 feet.
        ii. From Windows or Doors of Buildings Used for Human Habitation. 40 feet.
        iii. From the Front Line of the Property. 100 feet.

D. **Development Standards.** Development Standards shall be as required by the Base District.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-1608. MINING (M) OVERLAY DISTRICT.

A. **Purpose.** The Mining (M) Overlay District is established to allow on-going mineral extraction in the San Joaquin Riverbottom in conjunction with open space uses.

B. **Use Regulations.**

1. **Permitted Uses.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.
2. **Uses Subject to a Conditional Use Permit.**
    a. Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.
    b. Mining and Quarrying.
3. **Uses Not Permitted.** Those uses not permitted in the Base District or listed above, subject to the limitations and conditions set forth therein.

C. **Development Standards.** Development Standards shall be as required by the Base District, except as follows:

1. Exceptions to height and façade standards may be permitted at the discretion of the Review Authority.
2. Additional conditions may be required to ensure compatibility with nearby existing and planned uses.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-1609. APARTMENT HOUSE (AH) OVERLAY DISTRICT.

A. **Purpose.** The Apartment House (AH) Overlay District is intended to preserve and enhance the pattern of pedestrian-oriented small-footprint apartment houses, grand homes, and small commercial buildings that exist in some pre-World War II neighborhoods.

B. **Use Regulations.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein, except as follows:

1. **Permitted Uses.**
   a. The uses permitted by the provisions of the Base District.
   b. Single Unit Dwelling, Attached; Live/Work; and Multi-Unit Residential shall be permitted in all locations, including the ground floor along major streets.
   c. Office uses, including Business and Professional, Medical and Dental, and Walk-In Clientele, shall be permitted in all locations, including the ground floor along major streets. Base District restrictions on the size of such establishments shall not apply.
2. **Uses Subject to a Conditional Use Permit.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.
3. **Uses Not Permitted.** Those uses not permitted in the Base District or listed above, subject to the limitations and conditions set forth therein.

C. **Development Standards.** Development Standards shall be as required by the Base District, except as follows:

1. **Maximum Lot Size.** 15,000 square feet.
2. **Setbacks.**
   a. **Front Setback.** The front setback for new structures shall not be greater than 110 percent nor less than 90 percent of the average of the actual front setbacks of all residential structures on the blockface which were constructed prior to 1945. The following exceptions shall apply:
      i. In no instance shall the front setback be less than 10 feet.
      ii. In no instance shall the setback for a new structure be less than the setback of an adjacent structure which is a designated historic resource.
   b. **Side Setback.** Four feet.
3. **Parking.**
   a. **Garage Encroachment into Rear and Side Setbacks.** Where 50 percent or more of the residential properties on a block have detached garages which encroach into the minimum side and/or rear setbacks, new detached garages shall be permitted to encroach into the minimum side and/or rear setback in a similar manner. In such instances the minimum side and rear setback for a detached garage shall each be equal to the average of the equivalent setbacks of

the detached garages on the block, unless the average is less than two feet in which case the setback shall be zero feet. This provision shall also apply to properties which abut an RS District.

b. In no instance shall parking be located in front of the primary building, between the primary building and the street, or within the required front setback. Surface parking may not be covered with a carport within 50 feet of a public street unless it is designed as a porte cochere that is attached to architecturally integrated with the structure.

4. **Design Compatibility.** The following standards shall apply to all structures, with the exception of Public and Semi-Public uses.

   a. **Building Materials and Finishes.** Cladding and trim materials and finishes shall be similar to adjacent apartment houses and single-unit homes.

   b. **Windows.** The size, location, and proportions of windows shall be similar to adjacent apartment houses and single-unit homes.

   c. **Balconies and Porches.** For new residential structures, the size, location, and proportions of balconies and porches shall be similar to adjacent apartment houses and single-unit homes.

   d. **Massing.** New structures shall have roof forms and massing articulation which is residential in character and is similar to residential structures on the same blockface which were constructed prior to 1945.

5. **Pedestrian Access.** Direct entrances shall be provided into all individual ground-floor dwelling units or commercial spaces which are adjacent to a public street. If the building is set back from the sidewalk, a paved path no less than five feet in width shall be provided from the sidewalk to each entrance.

6. **Height.** Structures shall not exceed 35 feet in height.

7. **Landscaping.** The design of front yard landscaping shall be residential in character and shall be similar to adjacent apartment houses and single-unit homes.

8. **Signs.** Signs shall not be permitted in the AH Overlay District, except as follows:

   a. **Maximum Number and Location.**

      i. **Monument Sign.** One monument sign per building shall be permitted in the front yard setback, if applicable. Such signs shall be set back from the back of the sidewalk by no less than two feet.

      ii. **Porch Sign.** One sign per building shall be permitted to be suspended under the roof of a porch.

      iii. **Wall Sign.** One sign per building may be mounted on the façade near the primary pedestrian entrance.

      iv. **Other Signs.** Not permitted.

b. **Maximum Size.**

i. **Monument Sign.** Monument Signs shall not exceed six square feet in area and shall not exceed five feet in height.

ii. **Porch Sign.** Porch Signs shall not exceed eight square feet in area.

iii. **Wall Sign.** Wall Signs shall not exceed 10 square feet in area.

c. **Illumination.** If illuminated, external illumination is required and shall be mounted in a manner that does direct glare toward adjacent uses.

FIGURE 15-1609-C-8: AH OVERLAY MONUMENT AND PORCH SIGNS

9. **Renovations and Alterations.**

a. Modifications to existing buildings shall be architecturally compatible with the existing building as determined by the Review Authority.

b. Exterior walls that are or were originally clad in wood, masonry, or stone shall not be covered with a different material such as stucco.

c. Renovations or alterations to "modernized" pre-World War II buildings shall restore the original façade materials, textures, fenestration, and ornamentation to the extent possible as determined by the Review Authority.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 16, eff. 10-21-16; Am. Ord. 2016-43, § 3, eff. 12-9-16; Am. Ord. 2018-25, § 17, eff. 6-11-18; Am. Ord. 2025-024, § 30, eff. 7-27-25).

SEC. 15-1610. URBAN CAMPUS (UC) OVERLAY DISTRICT.

A. **Purpose.** The Urban Campus (UC) Overlay District is intended to provide for large, centrally planned and operated campuses which integrate well into a dense, mixed-use, walkable urban environment.

B. **Use Regulations.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.

C. **Development Standards.** Development Standards shall be as required by the Base District, except as follows:

1. **Setbacks.**

   a. **Front.**

      i. **Minimum.** Zero feet.

      ii. **Maximum.** 20 feet.

   b. **Side.** No requirement, unless the site abuts an R District, in which case the side setback shall be no less than 20 feet.

   c. **Rear.** No requirement, unless the site abuts an R District, in which case the rear setback shall be no less than 20 feet.

   d. **Parking:** 30 feet from perimeter streets. The following types of parking shall be exempted from this requirement:

      i. Surface parking which is located behind a building.

      ii. Structured parking above the first floor, provided that the façade is treated with similar materials and ornamentation as non-parking structures on the campus.

      iii. Underground parking.

2. **Frontage Coverage.** 75 percent along public streets at the perimeter of the campus. This requirement shall not apply to streets which run through the campus.

3. **Pedestrian Access.** Each building located within 50 feet of a public street at the perimeter of the campus shall provide pedestrian entrances from the public street into the building at a rate of no less than one per 400 feet of linear street frontage, however in no instance shall there be fewer than one. Such entrances shall be protected by a portico, canopy, or alcove of no less than four feet in depth. If there is a yard between the sidewalk and the building, a paved path six feet in width shall be provided from the public sidewalk to the entrance.

4. **Façade Design.** Street facing facades of buildings located within 50 feet of a public street at the perimeter of the campus shall comply with the following standards:

   a. Exterior walls facing a front or street side lot line shall include windows, doors, or other openings with transparent glazing for at least 25 percent of the building wall area located between 2.5 and seven feet above the level of the sidewalk. Openings fulfilling this requirement shall have transparent glazing and provide views into work areas, lobbies, or similar active spaces.

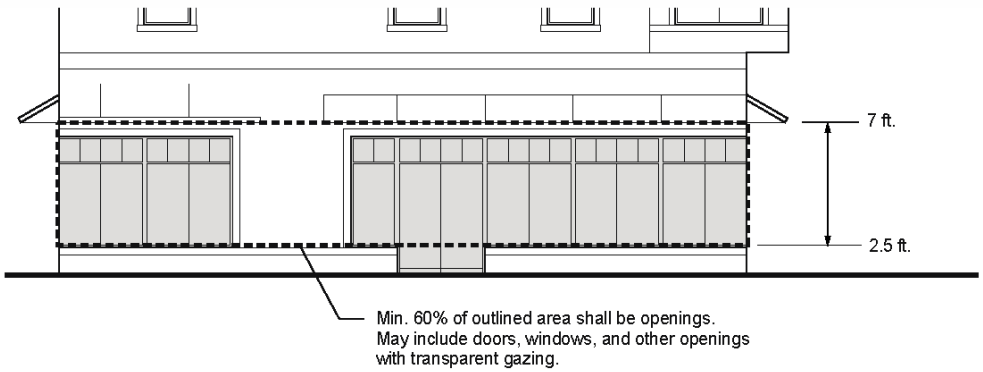

FIGURE 15-1610-C.4.A: BUILDING TRANSPARENCY

b. Where buildings are located within two feet of a public sidewalk at the perimeter of the campus, the sidewalk shall be shaded by awnings or canopies as follows:

i. Awning or canopy depth shall be no less than four feet and no more than 10 feet.

ii. Clearance shall be no less than eight feet and no more than 12 feet from the finished floor.

5. **Parking Access.** Driveways shall be located at the furthest feasible point from nearby residential uses.

6. **Building Height.**

a. The maximum height within 100 feet of an RS District is 45 feet. Exceptions shall be made for parking structures which meet all of the following criteria:

i. Height of 75 feet or less;

ii. Adjacent to a railroad;

iii. South of Illinois Avenue; and

iv. A design which incorporates a "green screen or a similar treatment that buffers the appearance of the structure with ivy or other vegetation.

b. The maximum height within 300 feet of an RS District is 75 feet.

c. In all other locations the maximum height shall be 210 feet. Buildings of exemplary, landmark design may be 235 feet at the discretion of the Review Authority. Buildings of exemplary, landmark design may be 275 feet at the discretion of the Review Authority within the area bounded by Clark Street, Illinois Avenue, Thesta Street, and Divisidero Street, as well as all of the area south of Divisidero.

7. **Lot Coverage.** No requirement.

8. **Sidewalks.** New buildings or additions of 50 percent or more in floor area shall improve adjacent sidewalks. Sidewalks shall be provided per Public Works standards except that sidewalks on Fresno Street shall be provided as follows:

   a. Sidewalks shall be no less than 12 feet in width. If the current distance between the right-of-way boundary and the face of the adjacent curb is less than 12 feet, the building shall be set back from the right-of-way boundary the distance that is necessary to achieve the required sidewalk width. The portion of the sidewalk which lies within the private parcel shall be guaranteed for public access by the enactment of a public access easement.

   b. Street trees shall be provided as follows:

      i. Street trees should be located no more than three feet from the back of curb, and whenever possible should be aligned with other trees on the block.

      ii. Street trees should generally be evenly spaced, no less than 20 feet apart, and not more than 40 feet apart.

      iii. Whenever possible, trees should not be located directly in front of building entrances.

      iv. Trees should be placed in tree wells measuring five feet by five feet. To maximize usable sidewalk area, tree wells shall be covered by grates of a design which is approved by the Review Authority. Larger tree wells may be required by the Public Works Director for species requiring more space. The property owner shall assume maintenance responsibilities for the tree grates.

      v. Street trees should be deciduous, fast growing, drought tolerant, and should eventually form a tall canopy. Not more than one species should be planted per block. Whenever nearby pre-existing trees are in good condition and meet the intent of this section, new trees should be of the same species.

   c. Pedestrian-scaled street lights shall be provided as follows:

      i. Street lights should be located no more than three feet from the curb, and whenever possible should be aligned with street trees and other lights on the block.

      ii. Street lights should be generally evenly spaced, no less than 30 feet apart, and not more than 80 feet apart. Whenever possible, street lights should be no less than 15 feet from nearby street trees.

      iii. Street lights should not be of the type commonly known as Cobra Heads or other types which are intended primarily for the illumination of the vehicular roadway. Lights should be ornamental and designed primarily for the illumination of the sidewalk. Whenever nearby pre-existing lights are in good condition and meet the intent of this section, new lights should

be of the same type. Intersection safety lights shall be typical cobra-head design, while mid-block lighting should be ornamental and scaled for the pedestrian environment. Lighting shall meet Public Works standards.

d. If a Community Facilities District is not established to maintain sidewalks, street trees, and lighting, the applicant shall enter into a maintenance agreement to ensure the maintenance of said facilities.

(Am. Ord. 2016-43, § 4, eff. 12-9-16).

SEC. 15-1611. NEIGHBORHOOD REVITALIZATION (NR) OVERLAY DISTRICT.

A. **Purpose.** The Neighborhood Revitalization (NR) Overlay District is intended to preserve the unique character of neighborhoods near Downtown, enhance their walkability, and promote a diverse population.

B. **Use Regulations.** Those uses permitted and conditionally permitted in the Base District, subject to the limitations and conditions set forth therein, with the following exceptions.

1. Duplex—a neighborhood meeting shall not be required.
2. Multi-Unit Residential at a density of 16 dwelling units per acre or less. A neighborhood meeting shall not be required.
3. Instructional Services which are 3,000 square feet or less and which occupy 30 percent of the building or less.
4. Parks and Recreation Facilities shall not be subject to any size restriction of the Base District.
5. Medical and Dental Offices, which are 3,000 square feet or less and which occupy 30 percent of the building or less shall be permitted.
6. General Retail, which is located within 100 feet of a corner and which is 3,000 square feet in area or less shall be permitted.

C. **Development Standards.** Development Standards shall be as required by the Base District, except as follows:

1. **Sidewalks.**
   a. Sidewalks shall be provided on both sides of the street. Notwithstanding Chapter 13, Section 208 of the Municipal Code, all projects shall be required to bring adjacent sidewalk conditions into conformance with Public Works standards, subject to the following exceptions:
      i. Applications for signs only.
      ii. Additions, remodels, or tenant improvements of less than 50 percent of the current value of the property.
      iii. Accessory structures less than 1,000 square feet in size.

b. New development that is below the thresholds noted in item 'a', above, shall replace and maintain missing and/or dead street trees and any other missing or dead landscaping in the public frontage (public right-of-way).

c. In no case shall an existing sidewalk, or portion thereof, be vacated, even if the minimum width required is less than the existing sidewalk.

d. When a sidewalk of the subject property is improved to meet the applicable requirements of this section and the adjacent property does not physically align with the new improvement, the improvement shall be designed to the satisfaction of the Review Authority to result in a safe and smooth transition between properties.

2. **Pedestrian Access.** Direct entrances shall be provided into all individual ground-floor dwelling units or commercial spaces which are adjacent to a public street. If the building is set back from the sidewalk, a paved path no less than five feet in width shall be provided from the sidewalk to each entrance.

3. **Front Setback.** The front setback for new structures shall not be greater than 110 percent nor less than 90 percent of the average of the actual front setbacks of all residential structures on the blockface which were constructed prior to 1945. The following exceptions shall apply:

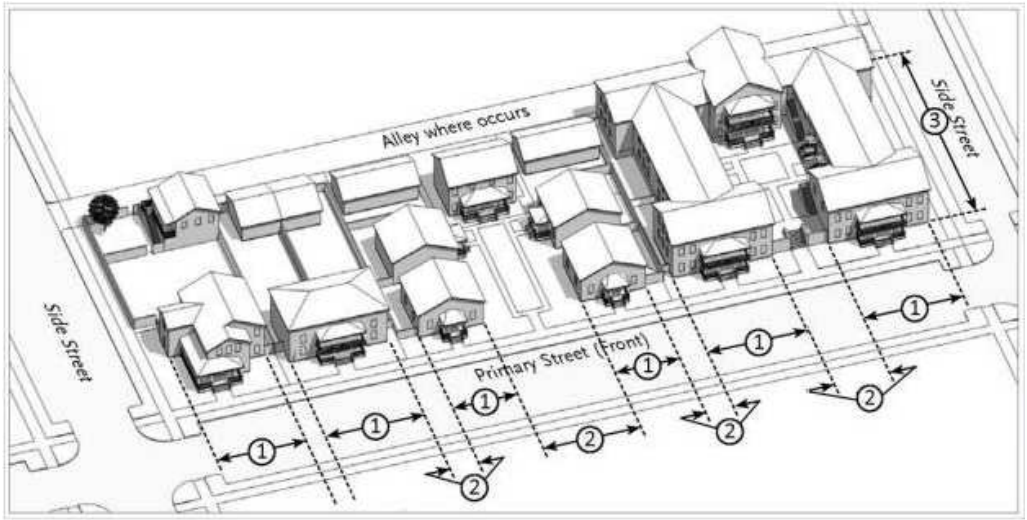
a. In no instance shall the front setback be less than 10 feet.

b. In no instance shall the setback for a new structure be less than the setback of an adjacent structure which is a designated historic resource.

4. **Parking.** In no instance shall parking be located in front of the primary building, between the primary building and the street, or within the required front setback. Surface parking may not be covered with a carport within 50 feet of a public street unless it is designed as a porte cochere that is attached to architecturally integrated with the residential structure.

5. **Building Size and Massing.** Table 15-1611-C.1 prescribes additional development standards for areas governed by the NR Overlay District. Additional regulations are denoted in the right hand column. Section numbers in this column refer to other sections of the Code, while individual letters refer to subsections that directly follow the table. The numbers in each illustration below correspond to the "#" column in the associated table. Drawings are for illustrative purposes and are not drawn to scale.

TABLE 15-1611-C.1: BUILDING SIZE AND MASSING STANDARDS



District	*RS-3*	*RS-5*	#
Maximum Building Length along Primary Street (ft.)	60	60	①
Maximum Space between buildings along Primary Street (ft.)	15	10	②
Maximum Building Depth along Street Side (ft.)	60	120	③

6. **Building Articulation.**

   a. **Street-Facing Façade Articulation.** All street-facing building façades over 35 feet in length shall be designed with a minimum of one of the following façade articulation strategies:

      i. **Horizontal Articulation.** Setback a portion of the street-facing facade a minimum of two feet for a minimum distance of 25 feet.

      ii. **Vertical Articulation.** Step a portion of the façade upward or downward a minimum two feet higher or lower than adjacent portions of the façade for a minimum distance of 25 feet.

      iii. **Architectural Projections.** Append or project facade elements such as porches, balconies, bay windows, cantilevered rooms, and/or awnings.

      iv. **Architectural Recessions.** Recess architectural elements or spaces—such as recessed porches, covered passages, recessed balconies, and windows—into the plane of the façade.

   b. **Roof Forms.** New structures shall have roof forms which are residential in character, such as gabled, hipped, mansard, gambrel, and pyramidal roofs.

7. **Building Materials and Finishes.**

a. **General Standards.**

i. Each side of a building that is visible from a street, park, or passenger railway shall be designed with a complementary level of detailing and quality of materials.

ii. **Building Entrances and Common Areas.** Building entrances and common areas shall include finishes and materials that are durable and high quality and distinguish these spaces from other elements of the building.

iii. **Parking.** Parking structures shall be designed to be compatible with the architectural character, materials, and colors of the overall development.

iv. **Durability of Materials.** Exterior materials shall be durable and promote permanence and longevity. They shall not unintentionally discolor due to weathering or corrosion. Materials that discolor naturally, such as copper, are encouraged.

v. **Design Consistency.**

(1) Architectural materials and constructional assemblies shall be designed to be consistent with the building's architectural style in terms of structural expression, scale, and proportion.

(2) Finishes, fixtures, and other architectural details shall be designed to be consistent throughout the building's exterior.

(3) Attached architectural elements and details such as lighting fixtures, attic vents, custom signage, awnings, hand rails, balconies, and trellises shall be designed to be consistent with other elements throughout the building's exterior.

b. **Multiple Materials.**

i. Two or more wall materials may be combined on one façade.

ii. If located one above the other, lighter appearing materials shall be placed above more substantial materials (e.g., wood above stucco or masonry, or stucco and glass above masonry).

iii. In general, vertical joints between different materials shall occur only at inside corners.

c. **Exposed Wood.**

i. Exterior walls that are or were originally clad in exposed wood shall not be covered with a non-wood material. Wood-like materials, such as cementitious siding, may be used.

ii. Exposed wood (or wood-like materials) shall be finished in a manner that minimizes maintenance and promotes the material's longevity.

d. **Reflective Materials.** Reflective materials are prohibited.

e. **Masonry and Stone.**

i. Brick and cut stone shall be laid in true bonding patterns. Mortar joints shall be struck.

ii. River and rubble stone shall be laid from large stones closest to the ground to small stones farthest from the ground, with smooth or beaded mortar joints.

iii. Masonry detailing shall transition from stone to other materials through moldings, caps, and other trim elements.

f. **Veneers.** Veneers should turn corners, avoiding exposed edges and continue down the side of a building to a logical break, such as a change in wall plane.

g. **Trim.** Trim materials and finishes shall be differentiated from adjacent wall cladding materials and finishes. Acceptable trim materials shall be wood, precast concrete, stone, tile, or similar materials. Stucco trim shall be permitted at the discretion of the Review Authority, and in such instances it shall feature a smooth finish that contrasts significantly from adjacent stucco wall cladding.

h. **Synthetic Materials.** The use of synthetic materials is allowed when the Review Authority determines that the material:

i. Adequately simulates the appearance of the natural material it imitates.

ii. Demonstrates an ability to age similar to or better than the natural material it imitates.

iii. Has a permanent texture, color, and character that is acceptable for the proposed application.

iv. Can be pressure washed and, in general, withstand anti-graffiti measures.

i. **Prohibited Materials.** Prohibited exterior materials include the following:

i. T1-11.

ii. Rough-sawn wood.

iii. Vertical siding, except board and batten.

iv. Metal siding.

v. Concrete block as an exterior finish material.

j. **Renovations and Alterations.**

i. Modifications to existing buildings shall be architecturally compatible with the existing building as determined by the Review Authority.

ii. Exterior walls that are or were originally clad in wood, masonry, or stone shall not be covered with a different material such as stucco.

iii. Renovations or alterations to "modernized" pre-World War II buildings shall restore the original façade materials, textures, fenestration, and ornamentation to the extent possible as determined by the Review Authority.

8. **Window and Door Opening Design.**

   a. **Window Hierarchy.** Building elevations shall exhibit a hierarchy between window sizes to differentiate between public rooms (larger windows) and private rooms (smaller windows).

   b. **Glazing Ratio.** Street-facing facades, shall have an overall wall composition of at least 20 percent glazing, but not more than 60 percent glazing.

   c. **Vertical Proportion.** 75 percent or more of window openings shall have a vertical proportion, in which their height exceeds their width by 25 percent or more. Openings divided by muntins of four inches or more in width shall constitute separate openings.

   d. **Window Depth.** Trim at least three-quarters inch in depth must be provided around all windows, or windows must be recessed at least two inches from the plane of the surrounding exterior wall. For double-hung and horizontal sliding windows, at least one sash shall achieve the two-inch recess. The recess depth shall be specific to the architectural style being utilized.

   e. **Relationship to Surrounding Buildings.** Windows shall be placed on a wall in a manner that maintains existing privacy with neighbors.

   f. **Window and Door Materials and Detailing.**

      i. Allowed window and door materials include wood, fiberglass, steel, or aluminum.

      ii. Muntins, if used, shall be true and divide one pane from the adjoining pane, be of substantial dimension, and not be flat.

      iii. Flush "nail-on" aluminum windows, and horizontal aluminum sliding windows are prohibited.

      iv. The color of vinyl and vinyl clad windows shall be consistent with the overall color scheme of the building. For example, white windows should be used with window trim that is painted a deep color.

      v. Glazing shall be clear glass, particularly in storefront and primary window applications. Transom and other specialty windows are not required to be clear and may be decorative.

      vi. Window sills shall be detailed to properly shed water.

      vii. Head casing shall be equal in width to or wider than jamb casing.

      viii. Accessories may include operable shutters sized to match their openings, opaque canvas awnings and other shading devices, and planter boxes supported by visible brackets appropriate to each design. Security bars are prohibited on façade windows.

9. **Façade Alignment.**

   a. **Vertical Alignment.** With the exception of roofs, cornices, and other such features, façades shall be oriented vertically and shall have no slope.

b. **Horizontal Alignment.** With the exception of bay windows and similar features, facades that are located within 30 feet of a public street shall run parallel or perpendicular to said street. Civic buildings are exempt from this requirement.

10. **Façade Elements.**

a. **Applicability.** Street-facing façades shall incorporate a minimum of two of the Façade Elements shown in Table 15-1611-C.6.

TABLE 15-1611-C.6: FAÇADE ELEMENTS—NR OVERLAY DISTRICT

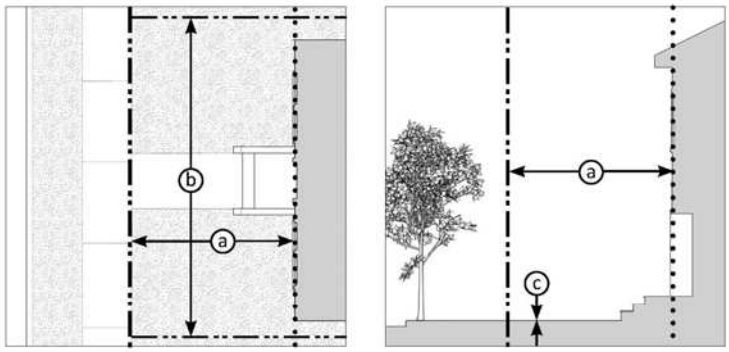
A. Front Yard

1. Basic Standards

ⓐ Clear Depth: 5 ft. min.

ⓑ Length: 15 ft. min.

ⓒ Height above Sidewalk: 3 ft. max.



2. Supplemental Standards

a. Planters, garden walls, fences and hedges are permitted at the sidewalk to a maximum height of 3 ft. per Section 15-2006. Materials and design shall be compatible with the architectural style of the building.

b. Water features, shade structures, seating, and gardens are encouraged in this area.

c. Vehicular parking, trash collection, and storage are not permitted in this area.

d. When Front Yards are raised from the level of the sidewalk, the resulting retaining wall shall be decorative and clad in brick or stone.

B. Porch

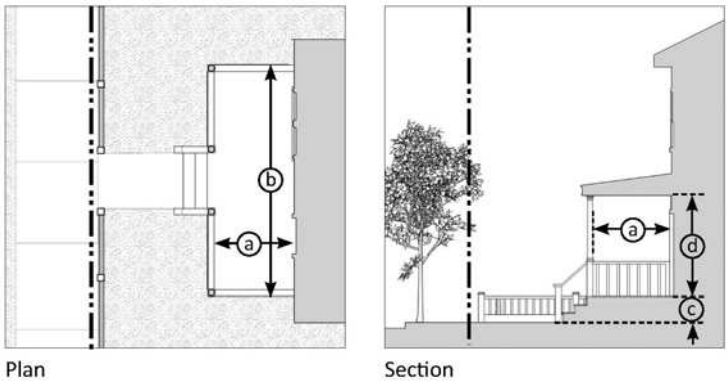
1. Basic Standards

ⓐ Clear Depth: 5 ft. min., 15 ft. max.

ⓑ Length: 8 ft. min.

ⓒ Height above adjacent grade: 18 in. min., 4 ft. max.

ⓓ Height: 8 ft. min. clear from the finish floor



2. Supplemental Standards

a. Provide landscaping in front of and around porch.

b. Railings should be no higher than required by the building code.

c. The porch may extend around to encroach into the street sideyard up to ½ of the required setback. If insufficient distance exists, the minimum porch depth shall be achieved by moving back the façade the necessary distance.

TABLE 15-1611-C.6: FAÇADE ELEMENTS—NR OVERLAY DISTRICT

d. Awnings may be attached to the face of the porch if the awning is adequately supported and if the awning is compatible with the architectural style of the porch and building.

e. Porches shall not be enclosed, including by insect screens.

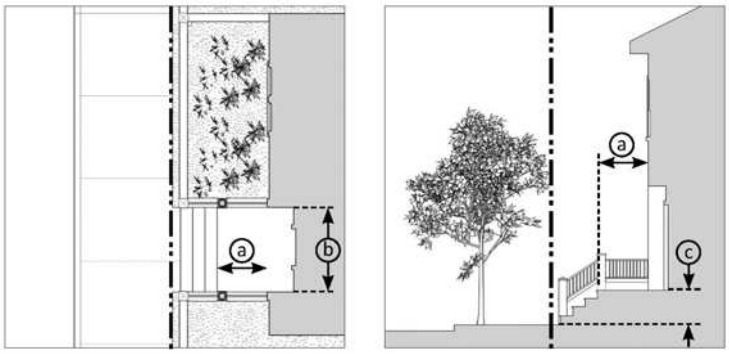
C. Stoop

1. Basic Standards

ⓐ Clear Depth: 6 ft. min., 15 ft. max.

ⓐ Length: 4 ft. min., 10 ft. max.

ⓐ Height: Max. 4 ft. elevation above finish sidewalk grade



2. Supplemental Standards

a. Landscaping encouraged in front, around and/or within walls of stoop.

b. Minimum 3 ft. to maximum 4 ft. high garden wall and gate may be provided at entry to stoop.

c. Entry gates to swing in a direction away from sidewalk.

d. Use of other frontage types at entry stoop (e.g., awning, bay window, arcade) allowed.

e. Exterior stairs may be located perpendicular or parallel to the adjacent sidewalk.

f. The landing may be covered or uncovered, but shall not be enclosed beyond the building façade (e.g., stoop landings may be recessed into the building façade and be enclosed by the walls of the recess.

D. Terrace

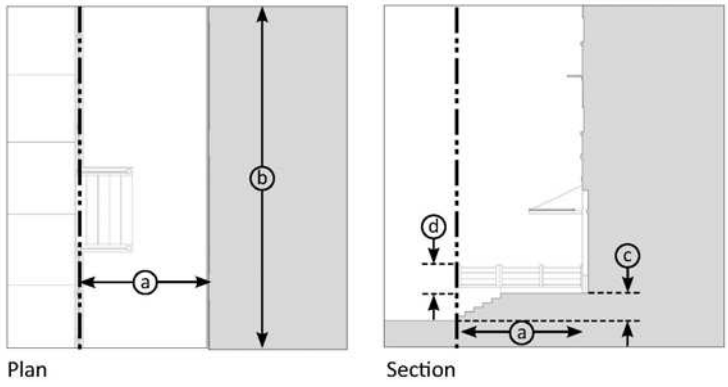
1. Basic Standards

ⓐ Clear Depth: 7 ft. min.

ⓑ Length: no min./no max.

ⓒ Height: Max. 4 ft. elevation above finish sidewalk grade

ⓓ Railing Height: no higher than required by the building code



2. Supplemental Standards

a. Use of other frontage types (e.g., awning, bay window) allowed.

b. Exterior stairs may be perpendicular or parallel to the adjacent sidewalk but shall not encroach into the right-of-way. The landing may be covered or uncovered.

E. Bay Window

TABLE 15-1611-C.6: FAÇADE ELEMENTS—NR OVERLAY DISTRICT

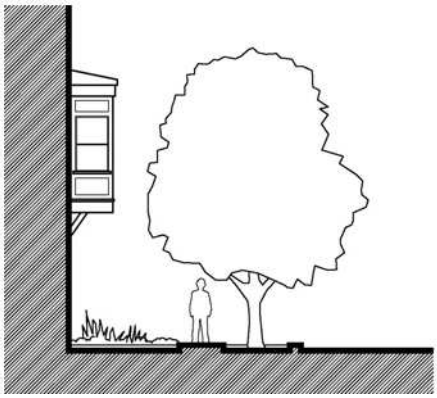
1. Basic Standards

ⓐ Depth: 2 ft. min., 4 ft. max.

ⓑ Length: 15 ft. max.

ⓒ Height for 2nd fl.: 10 ft. min. clear from the ground

ⓓ Encroachment into Setback.: 3 ft. max.



2. Supplemental Standards

a. Bay windows are permitted on the ground floor of buildings with residential ground floors.

b. Provide landscape in front and around bay windows on the ground floor.

c. Bay windows to have a minimum 25% glazing.

F. Balcony

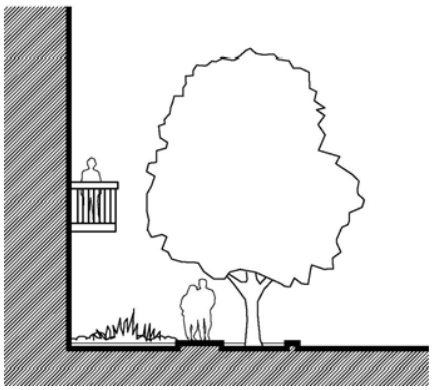
1. Basic Standards

ⓐ Depth: 5 ft. min., 10 ft. max.

ⓑ Length: 8 ft. min.

ⓒ Height: 8 ft. min. clear, 12 ft. max. clear from the finish floor

ⓓ Encroachment into Setback: 4 ft. max.



2. Supplemental Standards

a. Balcony may be covered but should be a minimum 50% open on three sides.

(Am. Ord. 2016-43, § 5, eff. 12-9-16).

SEC. 15-1612. KEARNEY BOULEVARD HISTORIC CORRIDOR (KB) OVERLAY DISTRICT.

A. **Purpose.** The Kearney Boulevard Historic Corridor (KB) Overlay District is intended to preserve and enhance the historic character of Kearney Boulevard.

B. **Use Regulations.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.

C. **Development Standards.** Development Standards shall be as required by the Base District, except as follows:

1. **Front Setback.** The front setback for new structures shall not be greater than 100% nor less than 90% of the average of the actual front setbacks of all residential structures on the blockface. The following exceptions shall apply:

   a. In no instance shall the front setback be less than ten feet.

   b. In no instance shall the setback for a new structure be less than the setback of an adjacent structure which is a designated historic resource.

2. **Building Orientation and Pedestrian Access.** All new structures (excluding accessory structures) shall be oriented toward Kearney Boulevard with front doors facing the street, and a paved path no less than five feet in width shall be provided from the sidewalk to the front door.

3. **Fences, Walls, and Hedges.**

   a. **Height.** Front yard fences shall be a maximum of three feet in height.

   b. **Materials and Opacity.** Front yard fences shall be constructed in one of the following manners:

      1. Wrought iron or tubular steel with no more than 20% opacity; or

      2. Wooden pickets with no more than 50% opacity.

4. **Street Trees and Landscaping.**

   a. **Retention of Existing Landscaping.**

      1. Existing palm trees, eucalyptus trees, and oleander bushes shall be retained unless they are determined by the Review Authority to be a demonstrable health or safety threat, in which case they shall be replaced with a tree or bush or the same species.

      2. Notwithstanding Section 15-2308-C-3, the removal of eucalyptus trees shall require a Tree Removal Permit within the KB Overlay District.

   b. **New Development.** Any activity which requires a Development Permit, Planned Development Permit, or Development Agreement shall plant new palm trees, eucalyptus trees, and oleander bushes along Kearney Boulevard to the full extent necessary to continue and match the historic tree pattern along the entirety of the project's Kearney Boulevard frontage.

5. **Frontage Road.** All development shall continue the historic configuration of the boulevard with frontage roads on either side separated by planted side medians.

(Added Ord. 2017-63, § 1, eff. 12-4-17).

SEC. 15-1613. CALIFORNIA AVENUE TRANSIT CORRIDOR (CA) OVERLAY DISTRICT.

A. **Purpose.** The California Avenue Transit Corridor (CA) Overlay District is intended to create a safe, convenient, and comfortable pedestrian environment along the residential sections of the California Avenue transit corridor.

B. **Use Regulations.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.

C. **Development Standards.** Development Standards shall be as required by the Base District, except as follows:

1. **Building Orientation and Pedestrian Access.** All new structures (excluding accessory structures) shall be oriented toward California Avenue with front doors facing the street, and a paved path no less than five feet in width shall be provided from the sidewalk to the front door.

2. **Fences, Walls, and Hedges.**

   a. **Height.** Front yard fences shall be maximum of three feet in height.

   b. **Materials and Opacity.** Front yard fences shall be constructed in one of the following manners:

      1. Wrought iron or tubular steel with no more than 20% opacity; or

      2. Wooden pickets with no more than 50% opacity.

   c. **Walls.** In no instance shall a wall be permitted within the required front yard setback or any other space which lies between residential structures and California Avenue.

(Added Ord. 2017-63, § 2, eff. 12-4-17).

SEC. 15-1614. FOCUSED INFILL (FI) OVERLAY DISTRICT

A. **Purpose.** The purpose of the Focused Infill (FI) Overlay District is to facilitate more intensive development of parcels with MX, CMS, or CR zoning at strategic points along transportation corridors in order to support transit use, housing production, and economic revitalization.

B. **Use Regulations.**

1. **Permitted Uses.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.

2. **Uses Subject to a Conditional Use Permit.** Those uses permitted in the Base District, subject to the limitations and conditions set forth therein.

3. **Uses Not Permitted.** Those uses not permitted in the Base District or listed above, subject to the limitations and conditions set forth therein.

C. **Development Standards.** Development Standards shall be asrequired by the Base District, except as follows:

1. **Residential Density.** The maximum permitted residentialdensity for various Base Districts shall be as follows:

   a. NMX, CMS, and CR: 48 du/ac

   b. CMX: 90 du/ac

   c. RMX: 135 du/ac

(Added Ord. 2020-044, § 1, eff. 11-15-20).

Sec. 15-2007. Walls for Noise Attenuation (Noise Barriers).
Sec. 15-2008. Screening Between Differing Land Uses.
Sec. 15-2009. Security Fencing.
Sec. 15-2010. Electrified Fences.
Sec. 15-2011. Screening of Mechanical and Electrical Equipment.
Sec. 15-2012. Heights and Height Exceptions.
Sec. 15-2013. Outdoor Service Yards and Storage.
Sec. 15-2014. Projections/Encroachments into Required Yards.
Sec. 15-2015. Outdoor Lighting and Illumination.
Sec. 15-2016. Trash and Refuse Collection Areas.
Sec. 15-2017. Underground Utilities.
Sec. 15-2018. Intersection Visibility.
Sec. 15-2019. Development on Substandard Lots.
Sec. 15-2020. Lots with Multiple Zone Districts (Split Zoning).

SEC. 15-2001. PURPOSE.

The purpose of this article is to prescribe development and site regulations that apply, except where specifically stated, to development in all districts. These standards shall be used in conjunction with the standards for each zoning district located in Part II, Base and Overlay District Regulations. In any case of conflict, the more strict regulation shall govern. (Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2002. SETBACKS FROM LANDSCAPE EASEMENTS.

A. Where an approved tentative tract map or tentative parcel map requires a landscaped area, easement, and/or trail abutting a Major Street or any other area where determined appropriate by the Review Authority, and where access rights have been relinquished, a wall per Section 15-2008-C, Screening Wall Standards, shall be placed at the rear of the required landscape area.

B. **Setback Requirements.** For purposes of setbacks, the distance for all structures, pools, fences, etc. shall be measured as follows:

1. **RS Districts:** The setback shall be measured from the rear of the required landscape setback/easement.

2. **All Other Districts.**

a. **Landscape Easements With a Trail.** The setback shall be measured from the back of the walkway or sidewalk, but in no instance shall any structure, pool, fence, etc. be constructed within the easement.

b. **Landscape Easements Without a Trail.** The setback shall be measured from the rear of the required landscape setback/easement.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, § 18, eff. 6-11-18).

SEC. 15-2003. TRAILS.

A. Whenever a trail is identified on an operative plan, the trail shall be constructed per City standards. Access to trails shall be provided per Section 15-4109-B, Trails and Natural Features.

B. When there is a demonstrated need, landscaping with appropriate adequate physical and visual barriers (e.g., masonry walls, wrought-iron, or tube steel fencing) shall be provided to screen path and trail rights-of-ways and separate paths and trails from mining operations, drainage facilities, and similar locations.

C. **Path and Trail Crossings.** To the extent feasible, vehicle crossings shall be limited to two per 660 feet.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2004. ACCESSORY BUILDINGS AND STRUCTURES.

A. **Applicability.** These provisions apply to:

1. All new structures over seven feet in height, including, but not limited to, garages, carports, porte-cocheres, sheds, workshops, gazebos, greenhouses, cabanas, trellises, play structures, aviaries, covered patios, etc. which collectively shall be referred to as Accessory Structures, that are attached or detached from and accessory to the main building on the site.

2. Decks and patios that are 30 inches above the ground elevation, excluding above-ground pools.

B. **Relation to Other Structures.**

1. A detached accessory building may be constructed on a lot on which there is a permitted main building to which the accessory building is related.

2. Should the ownership of two contiguous and immediately adjoining residential lots be the same and one lot contains a single-unit home, an accessory building (with the exception of required parking) and/or pool, may be permitted on the adjoining vacant lot subject to compliance with all property development standards. The owner shall sign a covenant, which will at a minimum require that any improvements, such as pools, storage sheds, etc., be removed should either parcel be sold separately.

3. An accessory building may be constructed prior to a permitted main building and used for not more than one year in connection with the construction of the main building. The owner shall sign a covenant, which will at a minimum, require that the accessory structure be removed should the main building not be constructed.

C. **Residential Districts.**

1. For habitable accessory structures, including Second/Accessory Dwelling Units (ADUs), refer to Section 15-2754. For outdoor kitchens see 15-2753, Second and Outdoor Kitchens.

2. An Accessory Structure may have plumbing for a washer, dryer, and/or utility sink.

3. An Accessory Structure may contain a toilet, shower, and sink. Bathtubs and stoves are not permitted.

4. Existing accessory structures that do not comply with the strict application of the required setbacks of the underlying zone district, may install a toilet, shower, sink, and plumbing for a washer, dryer, or utility sink, subject to compliance with the adopted Building Code. This exception does not allow for a reduction in required parking spaces, parking space dimensions, building regulations, or any other adopted standards.

D. **Setbacks.** Accessory Structures shall comply with the standards below.

1. **All Districts.**

   a. **Front and Street-Side Yards.** Accessory Structures may not be located within required front yard or street-side setback areas.

   b. Alleys. Accessory Structures shall be set back a minimum of five feet from an alley if the Accessory Structure utilizes the alley for vehicle access.

2. **Single-Unit Districts.**

   a. **Front Yards.** Not permitted, unless on a Double Frontage Lot (e.g., Through Lot). In the case of the latter, both street frontages shall be treated as Front Yards.

   b. **Interior-Side and Rear Yards.** Accessory Structures shall be set back from interior side and rear property lines as follows:

      i. If the Accessory Structure is located closer than six feet from the main building, the Accessory Structure shall comply with the setbacks of the applicable Base and Overlay District.

      ii. If the Accessory Structure is located six feet away or farther from the main building, it may be located on the interior or rear property line. Said structure shall comply with the Building Code.

3. **Multi-Unit Districts.**

   a. **Front Yards.**

      i. Accessory Structures shall be located to the rear of main buildings.

      ii. Detached garages and/or carports shall be located away from adjacent public roadways, to the rear, or shall be perpendicular to adjacent roadways to the greatest extent feasible.

   b. **Interior-Side and Rear Yards.** Accessory Structures shall be set back from interior side and rear property lines as follows:

      i. **If Adjacent to Single-Unit Districts.** Accessory Structures, including garages and covered parking spaces, shall be set back per the underlying district or operative plan, whichever is greater.

      ii. **All Other Districts.** Five feet.

4. **Non-Residential Districts.** Accessory Structures shall comply with the setbacks per the underlying district or operative plan, whichever is greater.

E. **Height.** Accessory Structures are subject to the height limitations specific to the zoning district in which they are located except as provided below in Residential Districts.

1. **Residential Districts.**

   a. **Parcels 10,000 Square Feet and Less.** Accessory Structures shall be no greater than 12 feet high measured from the ground level to the finished height of the structure.

   b. **Parcels Greater than 10,000 Square Feet.** Accessory Structures located a minimum of 10 feet from all property lines may be up to 16 feet high.

2. **Additional Height.** The Director may allow additional height not to exceed the height of the main building provided the Accessory Structure is designed, in terms of materials and architectural styles, to match the main building. The setbacks described above shall still be applicable.

F. **Tree Houses and Play Structures.**

1. When exceeding twelve feet in height, as measured from the ground level to the top of the structure, the structure must be set back to a distance equal or greater than its height.

2. When exceeding 120 square feet, a building permit is required.

3. If the structure overlooks a neighboring residential rear yard, landscaped screening shall be provided. This requirement may be waived with the written agreement of the affected neighbor(s) at the time the structure is constructed.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 10, eff. 7-30-17; Am. Ord. 2018-66, §§ 13, 14, eff. 1-18-19; Am. Ord. 2025-024, § 31, eff. 7-27-25).

SEC. 15-2005. POOLS AND SPAS.

A. Swimming pools, including slides and decorative features, Jacuzzis, and spas shall not be located in the front or street-side yards, and shall be set back a minimum of five feet from interior side and rear property lines.

B. All equipment shall comply with all applicable noise standards. If needed, equipment shall be baffled and/or enclosed to reduce noise to acceptable levels.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 11, eff. 7-30-17).

SEC. 15-2006. FENCES, WALLS, AND HEDGES.

Fences, walls, dense hedges, and similar structures, collectively referred to as "fences" for purposes of this section, shall comply with the following standards.

A. **Applicability.** The standards of this section apply to:

1. New fences, hedges, or walls;

2. New development;

3. Building additions to existing buildings that expand the existing floor area by at least 20 percent, or 2,500 square feet, whichever is less, not including Single-Unit Dwellings or Duplexes. The addition and/or expansion shall be cumulative from the date of adoption of this Code;

4. A new building on a developed site when the new building is more than 300 square feet. The 300 square feet shall be cumulative from the date of adoption of this Code;

5. The demolition and reconstruction of a site;

6. A request for a Discretionary Permit;

7. Change from one category of use classification to another (i.e., changing from a Commercial Use Classification to a Residential Use Classification as identified in the Use Regulation table of the Base District; or,

8. Condominium Conversions.

9. Exceptions. The standards of this section do not apply to fences that are part of a designated historic site.

B. **Fence and Height Locations for All Districts.**

1. **Other Regulations.** Fences shall comply with the setback requirements below, unless a greater setback is required by an operative plan, an adopted policy, or a condition of project approval.

2. **Subdivision Approval Conditions.** In certain circumstances, such as at the rear of landscape easements, fence locations are identified as part of the subdivision approval process. In such cases and in the potential case of conflict with this section, the map conditions of approval shall govern.

3. **Street-Facing References.** Street-facing includes all roadways, including highways.

4. **Parking Lot Entrances.** Fence and gate locations may need to provide greater setbacks than those listed in this section to allow for vehicle stacking. This includes fencing that limits access to parking lots.

C. **Fence Height and Locations for Single-Unit Homes.**

1. **Front Yards.**

a. **Wrought Iron or Tubular Steel.** A fence up to four feet in height may be installed within any required front yard setback. Fences must be open a minimum of 80 percent (e.g., no more than 20 percent opaque) to allow for the passage of light and air.

b. **All Other Materials.** A fence up to three feet in height may be placed within any required front yard setback.

i. **Exception.** Front yard fences on parcels within the Pinedale Neighborhood Plan area may be up to four feet in height in the front yard, regardless of material, however fences shall comply with Section 15-2018, Intersection Visibility.

2. **Side-Street Yards.** Fences up to six feet in height may be installed within any required street-side yard setback.

3. **Other Yards.** Fences up to six feet in height may be installed. Fences, regardless of location on the site, shall not exceed six feet in height.

4. **Through Lots.** Both street frontages shall be considered Front Yards.

5. **Setbacks.** Unless a greater setback is required in another section of this Code, fences shall be set back 12 inches from the back of adjacent sidewalks, or from the curb or shoulder if there is no sidewalk. Fences may be placed on interior side and rear property lines.

6. **Right-of-Way.** In no circumstance may any fence be placed in the public right-of-way unless specified elsewhere in this Code.

D. **Fence Height and Locations for Multi-Unit Districts.**

1. **Front Yards.**

a. Where a lot is on the same block frontage with parcels that are zoned for Single-Unit uses, fencing shall comply with fencing standards of the Single-Unit District in Subsection 15-2006-C.

b. If the block does not contain Single-Unit zoned lots:

i. **Wrought Iron or Tubular Steel:** A fence up to four feet in height may be installed within any required front yard setback. Fences must be open a minimum of 80 percent (e.g., no more than 20 percent opaque) to allow for the passage of light and air.

ii. **All Other Materials.** The fence may be placed within any required front yard setback if the fence does not exceed three feet in height.

(1) **Exception.** Fences on parcels within the Pinedale Neighborhood Plan may be up to four feet in height, regardless of material, however fences shall comply with Section 15-2018, Intersection Visibility.

2. **Street-Side Yards.**

a. Lots with a Street-Side Yard of 125 Feet or Less in Length. Fencing up to six feet in height may be placed within any street-side yard.

b. Lots with Street-Side Yards Greater than 125 Feet in Length. Fencing up to six feet in height may be placed per the main building setback of the underlying district minus five feet.

3. **Reserved.**

4. **Through Lots.** All street frontages shall be considered Front Yards.

5. **Private Patios, Yards, Etc.** Fencing for private patios, yards, etc. in multi-unit developments shall comply with the fencing requirements of this section.

6. **Other Yards.** Fences up to six feet in height may be installed on property lines. Fences, regardless of location on the site, shall not exceed six feet in height.

7. **Setbacks.** Unless a greater setback is required in another section of this Code, fences shall be set back 12 inches from the back of adjacent sidewalks, or from the curb or shoulder if there is no sidewalk. Fences may be placed on interior side and rear property lines.

8. **Right-of-Way.** In no circumstance may any fence be placed in the public right-of-way unless specified elsewhere in this Code.

E. **Fence Requirements for DT, MX, and CMS Districts.** In Downtown and other pedestrian-oriented areas it is of critical importance to create an attractive, active, and comfortable pedestrian environment. It is equally important to secure property and to keep unauthorized people out of private areas. This subsection has been structured to balance these two needs by allowing the entire perimeter of a block or property to be secured by a combination of buildings and fences, while not allowing for suburban-style fenced complexes. Buildings should visually dominate private frontage, with taller fencing filling in the gaps along the street and securing sides and rears of properties as put forth below.

1. **Identifying the Front Yard Line.** For the purposes of this subsection only, the Front Yard will be considered to be the area between the Front Yard Line and the back of the sidewalk. The Front Yard Line shall be identified as follows:

a. For sites which abut two or more streets, the Front Yard Line for each street frontage shall be measured individually.

b. The Front Yard shall be the entire area between the back of the sidewalk and a straight parallel line which is located 12 inches behind the façade of the primary building and which extends along the entire frontage (the "front yard line").

c. For complex or highly articulated buildings the front yard line shall be measured from the furthest point back on the street-facing façade of the building, at the discretion of the Review Authority.

d. When there is more than one building along a lot's frontage (as determined by the Review Authority), the front yard line shall be measured from the façade of the building (excluding accessory buildings) along the frontage which is set back the greatest distance.

e. Front yard fence standards shall apply to all fences within the Front Yard, including those which are parallel or perpendicular to the street and including those which enclose porches, patios, and other such spaces.

f. A frontage shall not have a Front Yard Line, and all fences on that frontage shall be considered Interior/Rear Yard Fences, if the following circumstances apply:

   i. The building sits directly at the back of the sidewalk, and no other building exists on that frontage of the lot.

   ii. The site is occupied by a legal non-conforming parking lot without a building on site.

   iii. The site is occupied by legal non-conforming buildings which are set back more than 50 feet.

FIGURE 15-2006-E.1: IDENTIFYING THE FRONT YARD LINE

2. **Front Yard.**

   a. **Minimum Setback.** All fences shall be set back no less than 12 inches from the back of the sidewalk and may not be located in the public right-of-way. No setback is required from side and rear property lines.

   b. **Maximum Height.** Three feet.

   c. **Transparency.** Fences must be open a minimum of 80 percent (e.g., no more than 20 percent opaque) to allow for the passage of light and air.

   d. **Materials.**

      i. Front yard fence materials shall consist only of wood, tubular steel, wrought iron, or other decorative metal. Brick, stone, or stucco piers may be used in combination with these materials. New chain link front yard fences are prohibited.

      ii. Retaining walls shall be designed consistent with the architectural style of the main building. Retaining walls shall consist only of decorative concrete, masonry, stone, or brick. Timber may be permitted unless it is in conflict with the Building Code or applicable Public Works standards.

iii. Veneer or synthetic materials simulating the actual, natural material (e.g., brick or stone veneer in place of actual brick or stone) shall only be allowed upon demonstrating to the Review Authority that the substitute material:

(1) Adequately simulates the natural material; and

(2) Is organized visually to simulate actual construction using the natural material (e.g., organization of brick rows, larger stones at the bottom and smaller stones toward the top).

3. **Interior and Rear Yards.**

a. **Minimum Setback.** All fences shall be set back no less than 12 inches from the back of the sidewalk and may not be located in the public right-of-way. No setback is required from side and rear property lines.

b. **Maximum Height.** Six feet.

c. **Transparency.** No requirement. Fences and walls may be up to 100 percent opaque.

d. **Materials.**

i. Interior and side yard fence and wall materials shall consist only of wood, tubular steel, wrought iron, other decorative metal, brick, stone, stucco, concrete block. Chain link may be used when it is not visible from a public street as determined by the Review Authority.

ii. Interior and side yard fences and walls shall be designed to be consistent with the architectural style of the main building when they are visible from a public street as determined by the Review Authority.

iii. When visible from a public street, veneer or synthetic materials simulating the actual, natural material (e.g., brick or stone veneer in place of actual brick or stone) shall only be allowed upon demonstrating to the Review Authority that the substitute material:

(1) Adequately simulates the natural material; and

(2) Is organized visually to simulate actual construction using the natural material (e.g., organization of brick rows, larger stones at the bottom and smaller stones toward the top).

4. **Through Lots.** All street frontages shall be considered Front Yards.

5. **Private Patios, Yards, Etc.**

a. **Facing Front Yard or Common Open Space.** Fences, walls, or hedges enclosing private patios, yards, or porches that face the Front Yard or the Common Open Space are subject to the requirements of section 15-2006.E.2 above.

b. **Interior Yard and Rear Yards.** Fences and walls up to six feet in height may enclose private patios or yards.

F. **Fence Height and Locations for All Other Uses and Districts.**

1. **Front Yard.**

a. **Wrought Iron or Tubular Steel.** A fence up to four feet in height may be installed within any required front yard setback. Fences must be open a minimum of 80 percent (e.g., no more than 20 percent opaque) to allow for the passage of light and air.

b. **All Other Materials.** All other fences within any required front yard setback are permitted up to three feet in height and shall comply with the main building setback, minus five feet.

2. **Street-Side Yard.**

a. **Wrought Iron or Tubular Steel.** A fence up to four feet in height may be installed within any required front yard setback. Fences must be open a minimum of 80 percent (e.g., no more than 20 percent opaque) to allow for the passage of light and air.

b. **All Other Materials.** All other fences within any required street side yard setback are permitted up to three feet in height and shall comply with the main building setback, minus five feet.

3. **Reserved.**

4. **Through Lots.** Both street frontages shall be considered Front Yards.

5. **Other Yards.** Outside of the required front yard and street-side yards, the maximum height for fences is seven feet (regardless of location on the site) unless the fence is part of Outdoor Storage per Section 15-2013, Outdoor Service Yards and Storage.

6. **Bollards.** Bollards, up to three feet in height may be placed at the rear of required landscape areas.

7. **Setbacks.** Unless a greater setback is required in another section of this Code, fences shall be set back 12 inches from the back of adjacent sidewalks, or from the curb or shoulder if there is no sidewalk. Fences may be placed on interior side and rear property lines.

8. **Right-of-Way.** In no circumstance may any fence be placed in the public right-of-way unless specified elsewhere in this Code.

G. **Temporary Fencing.** For Temporary or Seasonal uses, including Community Gardens, Urban Agricultural, Farming, temporary sales, etc., fencing setbacks shall comply with main building setbacks of the underlying zone district.

H. **Construction Fencing.** Refer to Section 15-2009, Security Fencing.

I. **Vacant Parcels.** Fencing shall be setback a minimum of five feet from the front property line however traffic sight areas shall be respected. Upon development of the site, all fencing shall comply with the provisions of this Code.

J. **Fence and Retaining Wall Combinations.** Where a fence is located on top of a retaining wall, and a six-foot maximum fence height is normally applicable, the Director may allow a combined height of fence and retaining wall up to a maximum of seven feet.

K. **Natural Grade Differences.** Where there is a natural grade difference between two adjacent parcels, or a parcel and a street, the Director may allow a deviation of the fence height based on the slope and may measure the overall fence height from the higher parcel. In no case shall the retaining wall and fence combination exceed seven feet from the lower side unless a deviation is granted.

L. **Decorative Features.**

1. Columns and gates may exceed the maximum height requirements by four inches.

2. On through and corner lots, the exposed (e.g., rough) side of the fence shall face into the subject parcel, rather than the street. The finished side of the fence shall be oriented towards the street.

3. Fences, greater than 125 feet in length in Residential Districts and/or along Major Streets, shall incorporate decorative pilasters with decorative caps spaced no more than 30 feet apart. This shall not apply to industrial districts, unless the industrial district is located on the same side of the street as existing, planned, or zoned residences.

4. Decorative caps, not to exceed four inches, may be added to the columns of walls.

5. A wrought iron decorative entry gate, located outside of required street yard setbacks may be allowed up to seven feet in height in Residential Districts and eight feet in Non-Residential Districts with Director approval.

M. **Additional Materials Standards.**

1. **Limitation on Chain-Link Fencing.** Chain-link fencing is not permitted in:

a. **Single-Unit Districts.** Along a Major Street, unless it is three feet or less in height.

b. **Multi-Unit Districts and Mixed-Use Districts.**

i. Along a Major Street.

ii. Local Streets. Along street-facing yards in developments that contain six or more units.

(1) **Exception.** A fence that is three feet or less in height and located within the Pinedale Neighborhood Plan.

c. **Office and Commercial Districts.** Along Major Street-facing yards, or when the parcel shares a street that also serves a Residential District.

d. **Industrial Districts.** When abutting a residential use or when located across a Local Street from a residential use.

2. **Limitation on Concrete/Masonry Block.** Plain concrete block shall not be the primary material along Major Streets or other situations when block walls are required as part of project approval, such as at the rear of landscape easements. Concrete block or precast concrete walls shall be split face or finished with stucco, and capped with a decorative cap, or other decorative material as may be approved by the Director. Other materials may be approved by the Director should the design provide for an enhanced appearance. For continuity, walls should incorporate similar styles, colors, etc., when located on the same side of the street.

3. **Limitation on Wire Mesh Fencing.** Wire mesh fencing shall be permitted in the following circumstances:

   a. Commercial Districts, O Districts, BP Districts, and RBP districts when not visible from a public street.

   b. Industrial Districts.

4. **Permitted Materials.** The following materials shall be permitted in all districts, except when a district has a more restrictive list of permitted materials:

   a. Materials specifically permitted elsewhere in this Section;

   b. Wood pickets;

   c. Split rail wood;

   d. Wrought iron and tubular steel;

   e. Brick and stone;

   f. Stucco;

   g. Shade cloth when used in combination with permitted fencing such as chain link, wrought iron, or tubular steel, provided it consists of materials specifically manufactured for such a purpose; and

   h. Privacy slats when in combination with chain link fencing (when chain link is allowed) provided it consists of materials specifically manufactured for such a purpose.

5. **Prohibited Materials.** The following materials shall not be permitted to be used as a fence material in any district:

   a. Plywood, oriented strand board, pressboard, and similar wood products;

   b. Chicken wire or similar wire products;

   c. Corrugated metal or corrugated plastic;

   d. Piping (including metal, PVC, and other materials);

   e. Hazardous fencing shall only be allowed as put forth in Section 15-2009, and when allowed shall not consist of improved materials, such as broken glass or nails.

f. Improvised materials, including but not limited to wood scraps, doors, garage doors, refrigerator doors, and mattresses;

g. Improvised screening materials, including but not limited to blankets and tarps; and

h. Any material not listed unless approved by the specifically Review Authority.

6. **Fence Construction.**

a. All fences must be built with a professional and durable appearance and must be maintained in good condition.

b. Permitted materials may be combined (for example, brick columns combined with wrought iron panels), but combinations shall not be haphazard or random in appearance.

N. **Residential Recreational Fencing.**

1. Fencing located around tennis, basketball, or volleyball courts, and similar areas up to 14 feet in height may be allowed outside of required setback areas.

2. For residential batting cages, fencing is permitted up to 14 feet in height, located outside of required setback areas.

3. For other requirements, refer to Section 15-2749, Private Recreational Facilities.

4. Lighting of recreational areas shall comply with Section 15-2015, Outdoor Lighting and Illumination.

O. **Commercial Recreational Fencing.** Refer to Sections 15-2708 Arcades, Video Games, and Family Entertainment Centers and 15-2749, Private Recreational Sports Facilities.

P. **Intersection and Driveway Visibility.** Notwithstanding other provisions of this section, fences, walls, hedges, and related structures must comply with Section 15-2018, Intersection Visibility.

Q. **Exceptions.**

1. Walls used to mitigate noise may exceed the standards above, per Section 15-2506, Noise.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 17, eff. 10-21-16; Am. Ord. 2016-43, §§ 6, 7, eff. 12-9-16; Am. Ord. 2017-33, § 12, eff. 7-30-17; Am. Ord. 2018-66, § 15, eff. 1-18-19; Am. Ord. 2025-024, §§ 32—34, eff. 7-27-25).

SEC. 15-2007. WALLS FOR NOISE ATTENUATION (NOISE BARRIERS).

New development, proximate to transportation corridors or other mobile noise sources in the public right-of-way shall mitigate noise to acceptable levels. See Section 15-2506, Noise. (Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2008. SCREENING BETWEEN DIFFERING LAND USES.

A. **Applicability.** The standards of this section apply to:

1. New fences, hedges, or walls;
2. The demolition and reconstruction of a site;
3. New development;
4. A new building on a developed site when the new building is more than 300 square feet. The 300 square feet shall be cumulative from the date of adoption of this Code;
5. Building additions to existing buildings that expand the existing floor area by at least 20 percent, or 2,500 square feet, whichever is less, not including Single Unit Dwellings or Duplexes. The addition and/or expansion shall be cumulative from the date of adoption of this Code;
6. A request for a Discretionary Permit;
7. Change from one category of use classification to another (i.e., changing from a Commercial Use Classification to a Residential Use Classification as identified in the Use Regulation table of the Base District); or,
8. Condominium Conversions.
9. Exceptions. The standards of this section do not apply to fences that are part of a designated historic site.

B. **Common Property Lines.** A six-foot-high screen wall shall be provided on the interior lot lines where any non-residential use abuts a residential district and where multi-unit development of four or more units abuts a single-unit residential district. Walls shall step down to three feet in height along interior property lines within front yards.

1. **Alleys.** Where residential and non-residential uses are separated by an alley, a screen wall is not required, unless required to screen outdoor storage of material.

C. **Screening Wall Standards.**

1. **Location.** Screening walls shall follow the lot line of the lot to be screened, or shall be so arranged within the boundaries of the lot so as to substantially hide from adjoining lots the building, facility, or activity required to be screened.
2. **Materials.** Walls shall be of stucco, decorative block, decorative concrete panel, or other substantially equivalent material as approved by the Director. Chain-link or double-faced wood fencing does not fulfill the screening wall requirement.
3. **Berms.** Topography, berming, and other alternative methods of mitigating the nuisance of noise and light might be considered at time of project review. An earth berm may be used in combination with the above types of screening walls, but not more than one-third of the required height of such screening may be provided by the berm.

4. **Maintenance.** Screening walls shall be maintained in good repair, including painting, if required, and shall be kept free of litter or advertising.

5. **Graffiti.** Graffiti on a screen wall shall be removed within 48 hours.

6. **Timing.** If a non-residential use develops adjacent to an existing residential development the wall shall be constructed with the new development. Where a six-foot-high wood fence already exists, the masonry wall footing, when constructed, shall comply with City standards.

7. **Pedestrian Access.** Pedestrian access, or breaks in screening walls, shall be provided from commercial to residential land uses in strategic locations to allow for connectivity. Locations shall be determined and negotiated at the time of approval, unless otherwise stated in this Code.

D. **Screening for All Uses Adjacent to Outdoor Sports Facilities.** See Section 15-2749, Private Recreational Sports Facilities.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 16, eff. 1-18-19; Am. Ord. 2025-024, § 35, eff. 7-27-25).

SEC. 15-2009. SECURITY FENCING.

A. **Where Permitted.** The use of barbed wire, razor wire, ultra-barrier, and other hazardous fencing is prohibited with the exception of barbed wire and razor wire in the situations listed below.

1. Where such fencing is required by any law or regulation of the City, the State of California, the federal government, or other public agency.

2. **Livestock.** Where used to contain livestock, the maximum height of a fence shall be five feet, measured from the natural grade of the site to the highest strand of barbed wire or razor wire.

3. **Commercial Districts.** Where not visible from any street, highway, public open space, recreation area, or Residential District, barbed wire or razor wire may be up to 18 inches in height on top of permitted fencing provided the barbed wire or razor wire is located at the top portion of a fence which is at least six feet in height.

4. **Industrial Districts.** Barbed wire or razor wire may be up to 18 inches in height on top of permitted fencing provided it is located at the top portion of a fence which is at least six feet in height. Barbed wire is permitted unless it abuts a Residential District, is located within 100 feet of a Residential District, or is located within 100 feet of a park or other public open space, where it is prohibited.

5. **Specific Uses.** Razor wire is permitted within cemetery, commercial, or industrial uses where the use shares a property line with a freeway or railroad; in such instance razor wire may only be located on the shared property line.

B. **Construction Sites.** Nothing in this Development Code shall be deemed to prohibit the erection of temporary fencing around construction sites in compliance with the Building Code and other applicable provisions of the Fresno Municipal Code.

C. **Location Restrictions—Razor Wire.** Notwithstanding any other provision of this section, razor wire shall be prohibited within 1,000 feet of any sensitive use such as Residential Districts, public or private schools, daycares, churches, and public parks, except where permitted for the keeping of livestock or as temporary fencing around construction sites in compliance with the Building Code and other applicable provisions of the Fresno Municipal Code.

D. **Fencing Encroachments.** All fencing within the public right-of-way requires an encroachment permit from the City Engineer and shall be subject to all requirements of this section, in addition to those of the Public Works Department. Security fencing shall not extend over into any abutting property.

E. **Maintenance.** All walls and fences shall be maintained in a safe, neat, and orderly condition at all times, and shall be kept free of all litter, graffiti, and signs or postings not authorized by Article 26, Signs. Where hedges are used as screening, trimming, or pruning shall be employed as necessary to maintain the maximum allowed height.

F. **Permit.** Property owner(s) shall apply for a permit with the City prior to installation.

G. **City Indemnification.** Prior to the installation of security fencing, the fence owner shall obtain a permit and execute an agreement to defend, hold harmless, and indemnify the City against all claims related to the fencing.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-57, § 1, eff. 11-25-17; Am. Ord. 2018-66, § 17, eff. 1-18-19; Am. Ord. 2024-014, § 1, eff. 7-11-24).

SEC. 15-2010. ELECTRIFIED FENCES.

Electrified fences shall comply with the following regulations. The requirements contained in Section 15-2009 do not apply to Electrified Fencing allowed pursuant to this Section.

A. **Permitted Locations.**

1. In all non-residential zones in which Security Fencing is permitted including all Mixed-Use Districts, all Commercial Districts, all Employment Districts, the Public and Institutional (PI) District, and all Downtown Districts with the exception of the Downtown Core (DTC).

2. Electric fences shall not encroach into the public right-of-way.

B. **Compliance with State and Federal Regulations.**

1. Electrified fencing shall comply with the California Civil Code Section 835 and the California Building Code, as amended from time to time.

2. Only allowed to be installed with a permit issued under the requirements of applicable building and electrical codes, and only allowed to be activated after an approved final inspection of the installation.

3. Fire access, warning signs, electrical connections, etc., shall comply with the Building Code and Fire regulations.

C. **Electricity.**

1. Shall conform to the California Civil Code Section 835 and shall only be powered by a commercial storage battery not to exceed 12 volts of direct current (DC) or another approved 12 volt DC or lower voltage-power source.

2. The electric charge produced by the fence upon contact shall not exceed energizer characteristics set forth in paragraph 22.108 and depicted in Figure 102 of International Electrotechnical Commission (IEC) Standard No. 60335-2-76.

3. Non-low voltage electrical components (e.g., controllers, transformers) of the electric fencing system shall be approved and listed by an Occupational Safety and Health Act (OSHA) Nationally Recognized Testing laboratory (NRTL).

D. **Perimeter Fence or Wall.** No electric fence shall be installed or used unless it is completely surrounded by a nonelectrical fence or wall that is a minimum five feet in height. Should a non-electrical fence not exist, one shall be installed prior to the electric fence being operational. When abutting an existing residential use, the protective barrier shall consist of a solid material (i.e., wooden fence, block wall, an approved mesh material, or equivalent material).

E. **Setbacks.** Non-electrical fencing behind which electric fencing is installed shall comply with setbacks of the underlying zone district unless the non-electrical fence is legally non-conforming.

F. **Height.** Shall have a maximum height of ten feet regardless of location on the property.

G. **Warning Signs.** Shall be clearly identified with warning signs that read: "Warning-Electric Fence" at intervals of not less than 30 feet.

H. **Permit.** Property owner(s) shall apply for a permit with the City prior to installation.

I. **City Indemnification.** Prior to the installation of electric fencing, the fence owner shall obtain a permit and execute an agreement to defend, hold harmless, and indemnify the City against all claims related to the fencing.

J. **Emergency Access.**

1. An electrical disconnect device secured with a Police/Fire X-1 keyway or other approved means for emergency access by Police and Fire Departments shall be provided at a location approved by the Fire Department.

2. The disconnect device shall include an LED pilot light to indicate the status of power to the electric fence.

3. The emergency access disconnect device shall be located outside the primary drive gate entrance of the property and shall not be obscured in any manner from the street/private driveway access. The details and location of the disconnect device shall be shown on the site plan.

4. Approved signs stating the identification of such switches/controls in addition to informational instructions as to how to disable the electrical system shall be installed to the satisfaction of the Fire Marshal.

5. In the event that access by the City of Fresno Fire Department and/or Police Department is required due to an emergency or urgent circumstances and the emergency access disconnect device is absent or non-functional and no authorized property personnel is present to disable the electric fence. City of Fresno Fire or Police personnel shall be authorized to disable the electric fence in order to gain access to the property. All applicants issued building permits to install or use an electric fence as provided in this chapter agree to waive any and all claims for damages to the electric fence against the City of Fresno and/or its personnel under such circumstances.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 13, eff. 7-30-17; Am. Ord. 2017-57, § 2, eff. 11-25-17; Am. Ord. 2018-66, §§ 18—20, eff. 1-18-19; Am. Ord. 2022-028, § 1, eff. 11-19-2022).

SEC. 15-2011. SCREENING OF MECHANICAL AND ELECTRICAL EQUIPMENT.

A. **Applicability.** The standards of this section apply to:

1. New development;

2. New equipment that is added to serve existing buildings; or,

3. Condominium Conversions.

4. **Exceptions.** Existing equipment that serves existing buildings; and Industrial Districts.

B. **Equipment.** All exterior mechanical and electrical equipment shall be screened or incorporated into the design of buildings so as not to be visible from major streets, highways, passenger railways, or abutting Residential Districts.

C. **Residential Districts.** Equipment to be screened includes, but is not limited to, all roof-mounted equipment, air conditioners, heaters, utility meters, cable equipment, telephone entry boxes, backflow preventions, irrigation control valves, electrical transformers, pull boxes, and all ducting for air conditioning, heating, and blower systems. Screening materials shall be consistent with the exterior colors and materials of the building. Above grade equipment by Public Utility providers may be permitted within easements.

D. **Roof Access Ladders and Fire Sprinkler Risers.** Roof access ladders shall be screened from Major Streets. Fire sprinkler risers should be designed for interior installation whenever possible where an exterior location would be visible from a Major Street.

Where site conditions dictate an exterior location for the sprinkler riser, a three foot clear space shall be provided between the screening materials and the riser. The alarm bell and fire department connection shall be installed so that they are visible from the street. (Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2012. HEIGHTS AND HEIGHT EXCEPTIONS.

A. **Applicability.** The standards of this section apply to:

1. New development or structures; or

2. New equipment that is added to serve existing buildings.

B. **General Standards.** The structures listed in the following table may exceed the maximum permitted building height for the district in which they are located, subject to the limitations stated in the table and further provided that no portion of a structure in excess of the building height limit may be used for sleeping quarters or advertising and all heights shall comply with any operative Airport Plan.

TABLE 15-2012-B: ALLOWED PROJECTIONS ABOVE HEIGHT LIMITS

Structures Allowed Above the Height Limit	*Maximum Coverage, Locational Restrictions*	*Maximum Vertical Projection Above the Height Limit (ft)*
Skylights	No limitation	1
Solar panels, and other energy production facilities located on a rooftop	No limitation	10
Parapets	No limitation	4
Chimneys Elevator and stair towers Rooftop open space features such as sunshade and windscreen devices, open trellises, and landscaping (for multi-unit and non-residential buildings only) Flagpoles	10% of roof area	16 (if no height limit in the underlying district, 35)
Decorative features such as spires, bell towers, domes, cupolas, obelisks, clock towers, and monuments (attached or detached)	10% of roof area	Residential: 6 Non-Residential: 20
Fire escapes, catwalks, and open railings required by law	Per Building Code	Per Building Code
Radio towers	Refer to Section 15-2759, Telecommunications and Wireless Facilities	
Water tanks Windmills Industrial structures where the manufacturing process requires a greater height	25% of the area of the lot, or 10% of the roof area of all on-site structures, whichever is less. Must be located at least 25 ft. from any lot line.	100. May exceed 100 with the approval of a Conditional Use Permit. Public noticing shall be eight times the height of the structure measured in ft.
Building-mounted telecommunications facilities, antennas, and microwave equipment	Subject to the provisions of Section 15-2759, Telecommunications and Wireless Facilities	

C. Building height shall be measured as put forth in Section 15-305, Measuring Height. (Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 36, eff. 7-27-25).

SEC. 15-2013. OUTDOOR SERVICE YARDS AND STORAGE.

A. **Applicability.**

1. Outdoor service yards and the open storage of goods, materials, machines, equipment, and vehicles or parts outside of a building for more than 72 hours must conform to the standards of this section. This applies to goods to be sold or goods being stored that are pending transport to other locales.

2. **Exceptions.** Except as may be permitted by Table 15-2013-B, the regulations of this section do not apply to:

   a. Agricultural and residential uses;

   b. Temporary storage of construction materials reasonably required for construction work on the premises pursuant to a valid building permit or grading permit; or

   c. Outdoor sales or uses that by their very nature provide outdoor storage, such as auto, trailer, and boat dealers, and equipment rental.

B. **Permitted Locations.** Table 15-2013-B states the districts where outdoor storage and service yards are permitted and prohibited.

TABLE 15-2013-B: OPEN STORAGE REGULATIONS BY DISTRICT AND LOCATION

Base Districts	*Permissibility of Open Storage*
Agricultural	Permitted if associated with a permitted agricultural use, located outside of all required setbacks.
Residential and Mixed-Use	Outdoor storage of materials generally found in households is not permitted.
Commercial, Employment, and Public and Semi-Public Districts	Not permitted in front or street-facing side yards. Permitted in interior side and rear yards, or outside of required yards, subject to the standards of this section. Setback minimum 20 feet from Residential Districts.

C. **Surfacing.** Outdoor storage areas shall be surfaced as determined by the Public Works Director. In making a determination, the Public Works Director shall take into consideration:

1. The zone district of the site.

2. If the site will be used to store equipment that is used daily and common drive-aisles will be paved and/or treated to mitigate potential dust from vehicles.

3. Surrounding sensitive uses such as residential uses, schools (K-12), day cares, hospitals, or elderly care facilities.

4. If the proposed surfacing is appropriate to the type of product stored.

5. If the proposed surfacing will conform to all applicable federal and State air and water quality standards.

6. If the surface will comply with adopted regulations of the San Joaquin Valley Air Pollution Control District.

D. **Screening.**

1. Outdoor storage areas and service yards shall be screened so as not to be visible from Major Streets or at-grade highways; Residential Districts; public schools, or public parks.

2. Screening walls and fences shall be architecturally compatible with the main structure on the site.

3. Earth berms or plant material may serve to satisfy screening requirements as alternative materials.

4. No screening wall or fence shall be located within a required setback or landscape area.

5. No stored goods may exceed the height of the screening wall or fence by more than one foot.

6. Service yards may have screen walls up to 15 feet in height and must be attached to the main building and shall be of the same quality and appearance as those used on the building itself. Service yards shall be considered part of the main structure for property development standards and shall be clearly incidental to the primary use. Outdoor storage shall not be the primary use on the property.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2014. PROJECTIONS/ENCROACHMENTS INTO REQUIRED YARDS.

Building projections may extend into, and other encroachments may be located in, required yards according to the standards of Table 15-2014 and are subject to all applicable requirements of the Building Code. The "Limitations" column states any other limitations that apply to such structures when they project into required yards. For standards for measurement of required yards and setbacks, refer to Section 15-313, Determining Setbacks and Yards.

TABLE 15-2014: ALLOWED BUILDING PROJECTIONS AND ENCROACHMENTS INTO REQUIRED YARDS

Projection/Encroachment	*Front or Street Side Yard (ft)*	*Interior Side Yard (ft)*	*Rear Yard (ft)*	*Limitations*
All projections	Notwithstanding any other subsection of this section, no projection may extend closer than three feet to an interior lot line or into a public utility easement.			
Cornices, canopies, eaves, and similar architectural features; chimneys.	2	2	2	
Bay windows	3	2	3	
Outdoor dining areas for restaurants	10	10	10	May not encroach into yards adjacent to residential uses.
Fire escapes required by law or public agency regulation	4	4	4	

TABLE 15-2014: ALLOWED BUILDING PROJECTIONS AND ENCROACHMENTS INTO REQUIRED YARDS				
Projection / Encroachment	*Front or Street Side Yard (ft)*	*Interior Side Yard (ft)*	*Rear Yard (ft)*	*Limitations*
Uncovered stairs, ramps, stoops, or landings that service above the first floor of building	3	2	3	
Depressed ramps or stairways and supporting structures designed to permit access to parts of buildings that are below average ground level	3.5	3.5	3.5	
Basketball Rims and Backboards	No closer than 10 ft. of a street-facing property line or 5 ft. from an interior side or rear property line.			
Decks, porches, and stairs				
Less than 18 inches above ground elevation	6	2	8	Must be open on at least three sides. No closer than 5 ft. of a street-facing property line or 3 ft. of an interior property line.
18 inches or more above ground elevation	3	2	3	
Ramps and similar structures that provide access for persons with disabilities	Reasonable accommodation will be made, consistent with the Americans with Disabilities Act; see Article 57, Reasonable Accommodation for Housing.			

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2015. OUTDOOR LIGHTING AND ILLUMINATION.

A. **Applicability.** The standards of this section apply to on-site lighting under the following circumstances:

1. New lights;
2. The demolition and reconstruction of a site;
3. New development;
4. Building additions to existing buildings that expand the existing floor area by at least 20 percent, or 2,500 square feet, whichever is less, not including Single-Unit Dwellings or Duplexes. The addition and/or expansion shall be cumulative from the date of adoption of this Code;
5. The addition of residential units;
6. A request for a Discretionary Permit;
7. Change from one category of use classification to another (i.e., changing from a Commercial Use Classification to a Residential Use Classification as identified in the Use Regulation table of the Base District); or,
8. Condominium Conversions.

B. **Control and Illumination of Outdoor Artificial Light.**

1. **Purpose.** This subsection is intended to minimize outdoor artificial light that may have a detrimental effect on the environment, astronomical research, amateur astronomy, and enjoyment of the night sky. These provisions are also intended to reduce the unnecessary illumination of adjacent properties and the use of energy.

2. **General Standards.**

   a. **Single-Unit Districts.** Each new home shall provide at a minimum, lighting proximate to the main entrance, the garage/carport, and alley, if present.

   b. **Multiple-Unit Residential Buildings.** Aisles, passageways, recesses, etc., related to and within the building complex shall be illuminated with an intensity of at least 0.25 foot-candles at the ground level during the hours of darkness. Lighting devices shall be protected by weather and vandal-resistant covers.

   c. **Pedestrian-Oriented Lighting.** In Multi-Unit, Mixed-Use, and Commercial Districts, exterior lighting with an intensity of at least 0.25 foot-candles at the ground level shall be provided for a secure nighttime pedestrian environment by reinforcing entrances, public sidewalks and open areas with a safe level of illumination.

   d. **Non-Residential Buildings.** All exterior doors, during the hours of darkness, shall be illuminated with a minimum of 0.5 foot-candle of light.

   e. **Trails/Paseos.** As determined by the Public Works Director.

   f. **Parking Lots and Garages.** All parking lots and garages shall be illuminated with a minimum of 0.5 foot-candle of light.

3. **Maximum Height.** Lighting fixtures shall not exceed the maximum heights specified in the following table.

TABLE 15-2015-B.3: MAXIMUM HEIGHT OF LIGHTING FIXTURES

District	*Maximum Height (ft)*
Residential Single-Unit Districts	Shall not exceed the fascia of the home
Residential Multi-Unit Districts	Shall not exceed the fascia of the unit or 16 feet, whichever is greater
Commercial and Mixed-Use Districts	20 within 100 of any street frontage or Residential District; 25 in any other location
Employment Districts	25 within 100 of any street frontage; 30 in any other location
Public and Semi-Public Districts	25, or as necessary for safety and security

4. **Exemptions.** The following types of lighting fixtures are exempt from the requirements of this section:

   a. Public and Private Street Lighting.

   b. Parks/Athletic Field Lights. Athletic field lights used within a school campus or public or private park.

c. Public Safety and Security Lighting. Safety and security lighting as required by State and federal regulations, including, but not limited to, airports, radio towers, antennas, etc.

d. Construction and Emergency Lighting. All construction or emergency lighting fixtures provided they are temporary and are discontinued immediately upon completion of the construction work or abatement of the emergency.

5. **Prohibited Lighting.** The following types of exterior lighting are prohibited:

a. Drop-down lenses;

b. Mercury vapor lights; and,

c. Searchlights, laser lights, or any other lighting that flashes, blinks, alternates, or moves.

6. **Fixture Types.** All lighting fixtures shall be shielded so as not to produce obtrusive glare onto the public right-of-way or adjoining properties. All luminaries shall meet the most recently adopted criteria of the Illuminating Engineering Society of North America (IESNA) for "Cut Off" or "Full Cut Off" luminaries.

7. **Glare.** No use shall be operated such that significant, direct glare, incidental to the operation of the use is visible beyond the boundaries of the property where the use is located.

8. **Light Trespass.** Lights shall be placed to deflect light away from adjacent properties and public streets, and to prevent adverse interference with the normal operation or enjoyment of surrounding properties.

a. Direct or sky-reflected glare from floodlights shall not be directed into any other property or street.

b. No light or combination of lights, or activity shall cast light exceeding one foot candle onto a public street, with the illumination level measured at the centerline of the street.

c. No light, combination of lights, or activity shall cast light exceeding 0.5 foot candle onto a residentially zoned property, or any property containing residential uses.

9. **Alternate Materials and Methods of Installation.** Designs, materials, or methods of installation not specifically prescribed by this section may be approved by the Director, provided that the proposed design, material, or method provides approximate equivalence to the specific requirements of this section or is otherwise satisfactory and complies with the intent of these provisions.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 18, eff. 10-21-16; Am. Ord. 2018-66, §§ 21, 22, eff. 1-18-19; Am. Ord. 2025-024, § 37, eff. 7-27-25).

SEC. 15-2016. TRASH AND REFUSE COLLECTION AREAS.

A. **Applicability.** The standards of this section apply to:

1. New collection areas;
2. New development;
3. The demolition and reconstruction of a site;
4. Building additions to existing buildings that expand the existing floor area by at least 20 percent, or 2,500 square feet, whichever is less, not including Single-Unit Dwellings or Duplexes. The addition and/or expansion shall be cumulative from the date of adoption of this Code;
5. The addition of residential unit(s) that result in five or more dwelling units.
6. A request for a Discretionary Permit;
7. Change from one category of use classification to another (i.e., changing from a Commercial Use Classification to a Residential Use Classification as identified in the Use Regulation table of the Base District); or,
8. Condominium Conversions.

B. **Requirements.**

1. **Single-Unit Residential.** As required per Chapter 6, Municipal Services and Utilities, of the Fresno Municipal Code.
2. **Multi-Unit Residential.** Enclosures for solid waste and recycling containers are required when:
   a. Five or more dwelling units are proposed; and,
   b. There should be a minimum of one solid waste and recycling enclosure per 30 units.
3. **Non-Residential Districts.** As required per Chapter 6, Municipal Services and Utilities, of the Fresno Municipal Code.
4. **Uses That Produce Grease.** Uses, such as restaurants, that produce grease shall provide a "grease barrel" enclosure or alternative as approved by the Public Utilities Director.

C. **Location.**

1. Solid waste and recycling storage areas shall not be located within any required setback or any landscaped areas except where a rear yard abuts an alley. Where a rear yard abuts an alley, the solid waste and recycling storage area may be located within the required rear yard setback however the gates may not swing open into the alley.
2. In non-residential developments that abut a Residential District, enclosures shall be located as far as possible from the residential district as feasible and be proximate to

the non-residential development. Enclosure gates shall not open into drive aisles and shall not block the visibility of pedestrians and drivers. Refer to Section 15-2018, Intersection Visibility.

3. Solid waste and recycling areas shall be consolidated to minimize the number of collection sites and located so as to reasonably equalize the distance from the building spaces they serve.

4. Solid waste and recycling storage areas shall be accessible to haulers. Storage areas shall be located so that the trucks and equipment used by the solid waste and recycling collector(s) have sufficient maneuvering areas and, if feasible, so that the collection equipment can avoid backing. Project applicants are responsible for procuring current equipment size and turning radius from the City or its contracted solid waste and recycling collector(s).

D. **Materials, Construction, and Design.**

1. **Enclosure Material.** Enclosures shall be constructed per City standards.

2. **Gate Material.** Gate material shall be solid, heavy-gauge metal or a heavy-gauge metal frame with a covering of a view-obscuring material.

3. **Access to Enclosure.** Each solid waste and recycling enclosure shall be designed to allow walk-in access without having to open the main enclosure gate, to the extent feasible.

4. **Enclosure Pad/Bumpers.** Enclosures shall be constructed per City standards.

5. **Protection for Enclosures.** Concrete curbs or equivalent shall protect enclosures from adjacent vehicle parking and travel ways.

6. **Stormwater Pollution Prevention.** Enclosure pads must be designed to prevent contamination of the stormwater system. Measures that may be taken to achieve this include, but are not limited to, using roofs to divert stormwater away from the enclosures, creating grade breaks to properly direct stormwater away while keeping any water that may be in the enclosure from spilling out, and connecting a drain in the enclosure to the sewer system to collect contaminated water in cases of spillage, washing, etc.

7. **Landscaping.** When visible from a Major Street or a Local Street that serves residential neighborhoods, the perimeter of enclosures, excluding gates, shall be planted, with drought-resistant landscaping, including a combination of shrubs and/or climbing evergreen vines. This subsection does not apply to Industrial Districts.

8. **IH District Exception.** In the IH District, as an alternative to an enclosure, a concrete curb may be provided to minimize bins from rolling about a parking area. Alternative enclosures may not be visible from any street, residential district, and/or school.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, §§ 23, 24, eff. 1-18-19; Am. Ord. 2025-024, § 38, eff. 7-27-25).

SEC. 15-2017. UNDERGROUND UTILITIES.

A. **Applicability.** The standards of this section apply to all of the following:

1. New development;

2. The demolition and reconstruction of a site;

3. Any other time deemed appropriate by the Public Works Director.

B. **Standards.** All electrical, telephone, cable television, and similar distribution lines providing direct service to a development site shall be installed underground within the site. This requirement may be waived or deferred by the Public Works Director or the City Engineer upon a determination that the installation is infeasible or premature.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2018. INTERSECTION VISIBILITY.

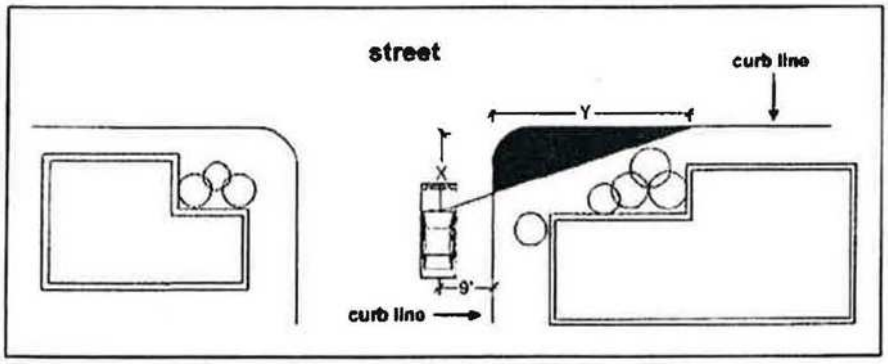

FIGURE 15-2018: INTERSECTION VISIBILITY

A. **Street Intersections.**

1. Vegetation and structures may not exceed a height of three feet within the triangular sight-distance area formed by the intersecting curb lines (or edge of pavement when no curbs exist) and a line joining points on these curb lines at the locations and distances identified in Figure 15-2018 and Table 15-2018-A.

2. Trees that are located within this sight distance triangle shall have a clearance of eight feet high minimum between the lowest portion of the canopy and the sidewalk and street.

3. Applies to all structures, including flag poles and signs.

TABLE 15-2018-A: REQUIRED TRIANGULAR SIGHT-DISTANCE AREA

Circumstance	*X Distance (ft.)*	*Y Distance (ft.)*
Local Street to Local Street	11	100
Local Street to Collector Street	25	25
Local Street to Arterial	20	100

TABLE 15-2018-A: REQUIRED TRIANGULAR SIGHT-DISTANCE AREA		
Circumstance	*X Distance (ft.)*	*Y Distance (ft.)*
Local Street to Super Arterial	20	100
Major Street to Major Street	30	30
Other Requirements: 1. Scaled site plan depicting property lines and dimensioned sidewalk pattern.		

B. **Driveways and Alleys.** Visibility of a driveway crossing a street lot line shall not be blocked above a height of three feet by vegetation or structures for a depth of 12 feet as viewed from the edge of the right-of-way on either side of the driveway at a distance of 12 feet. Street trees shall be pruned at least seven feet above the established grade of the curb so as not to obstruct clear view by motor vehicle drivers are permitted.

C. **Commercial Districts, Refuse Collection Areas, and Drive-Through Lanes.** Vegetation (with the exception of trees) and structures may not exceed a height of three feet within the triangular sight-distance area formed by the intersecting drive aisles and a line joining points on these aisles at a distance of 10 feet along both lines from their intersection. Trees located within this sight distance shall have a minimum clearance of seven feet high between the lowest portion of the canopy and the pavement and shall not be capable of growing to a width that would obstruct the sight area.

D. **Vehicle/Pedestrian Conflicts.** Whenever it is reasonable to expect potential conflicts between vehicles exiting drive-aisles, drive-throughs, etc., and a pedestrian path that traverses said aisle, a visibility triangle per Subsection C above shall be provided.

E. **Exempt Structures and Plantings.** The regulations of this section do not apply to existing buildings or new buildings in compliance with Base District setbacks; fire hydrants; public utility poles; saplings or plant species of open growth habits and not planted in the form of a hedge that are so planted and trimmed as to leave at all seasons a clear and unobstructed cross view; official warning signs or signals at places where the contour of the ground is such that there can be no cross visibility at the intersection.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 19, eff. 10-21-16; Am. Ord. 2017-33, §§ 14, 15, eff. 7-30-17).

SEC. 15-2019. DEVELOPMENT ON SUBSTANDARD LOTS.

Any lot or parcel of land that was legally created may be used as a building site even when consisting of less area, width, or depth than that required by the regulations for the district in which it is located. No substandard lot shall be further reduced in area, width, or depth, unless required as part of a public improvement. A substandard lot shall be subject to the same yard and density requirements as a standard lot, however the Director may reduce the side and rear yard requirements at a ratio equivalent with the non-conformity.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2020. LOTS WITH MULTIPLE ZONE DISTRICTS (SPLIT ZONING).

A. **Generally.** Where a contiguous lot is divided by a zoning district boundary, the regulations applicable to each district shall be applied to the area within the district, and no use, other than parking serving a principal use on the site, shall be located in a district in which it is not a permitted or conditionally permitted use.

B. **Access.** All access to parking serving a use must be from a street abutting that portion of the lot where the use is allowed. Pedestrian or vehicular access from a street to a non-residential use shall not traverse a Residential District in which the non-residential use is not permitted or conditionally permitted.

C. **Accessory Facilities.** Landscaping, fences, screening or retaining walls, and open space may be located on the lot without regard for zone boundaries.

D. **Refuse Collection Areas.** Shall be located on the parcel that permits the primary use.

E. **Minimum Lot Area, Width, and Frontage.** The minimum lot area, width, and frontage requirements of the zone that covers the greatest portion of the lot area shall apply to the entire lot. If the lot area is divided equally between two or more zones, the requirements of the district with greater minimum lot area, width, or frontage shall apply to the entire lot.

F. **Exceptions.** If more than 75 percent of a lot is located in one zoning district, modifications to the provisions of this section may be granted through Review Authority approval of a Planned Development Permit.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, § 19, eff. 6-11-18).

ARTICLE 21 TOD HEIGHT AND DENSITY BONUS

Sec. 15-2101. Purpose.
Sec. 15-2102. Applicability.
Sec. 15-2103. Maximum Permitted Bonuses.
Sec. 15-2104. Required Findings.

SEC. 15-2101. PURPOSE.

The purpose of the Transit-Oriented Development (TOD) Height and Density Bonus is to provide flexibility for projects which promote walkability, livability, and transit ridership near stations for Bus Rapid Transit and other enhanced transit service.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2102. APPLICABILITY.

At its discretion, the Review Authority, when granting a Development Permit, may allow a project to exceed the maximum height and/or the maximum residential density of the Base District if all three of the following criteria are met:

A. The project site is located entirely within an MX District or a CMS District.

B. The project site is located within 500 feet of an existing or planned Bus Rapid Transit station or a station for a similar enhanced transit service as determined by the Review Authority or is located within ½ mile of the Manchester Transit Center.

C. The project will provide one of the following public benefits:

1. A Public Plaza per Section 15-1104-E.1.c; or

2. Qualifying public art at the discretion of the Review Authority; or

3. Ninety percent or greater frontage coverage along the street which features the Bus Rapid Transit route or other enhanced transit route.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 20, eff. 10-21-16; Am. Ord. 2017-33, § 16, eff. 7-30-17).

SEC. 15-2103. MAXIMUM PERMITTED BONUSES.

Height and Density bonuses granted by the Review Authority may not exceed the following:

A. **Height.** The bonus height may exceed that of the Base District by no more than 25 percent. Portions of buildings in excess of the maximum height of the Base District may not be located within 100 feet of an RS District.

B. **Residential Density.** The bonus density may exceed that of the Base District by no more than 100 percent.

C. **Combination with Affordable Housing Density Bonus.** A TOD Height and Density Bonus may be used in combination with an Affordable Housing Density Bonus.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2104. REQUIRED FINDINGS.

A decision to grant a bonus shall be based on making all of the following findings:

A. The architectural design of the project is of exceptional quality and will add to the beauty and pedestrian comfort of the transit corridor;

B. Granting the bonus shall not cause more housing to be located within the corridor or corridor segment than was identified in the General Plan Master Environmental Impact Report or other applicable environmental review;

C. Granting the bonus shall not cause the capacity of the infrastructure which serves the site to be exceeded; and

D. Granting the bonus will not be detrimental to the health or safety of the public or the occupants of the property.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 22 AFFORDABLE HOUSING DENSITY BONUS

Sec. 15-2201. Purpose.
Sec. 15-2202. Other Regulations and Adopted Plans.
Sec. 15-2203. Applicability.
Sec. 15-2204. Density Bonuses.
Sec. 15-2205. Affordable Housing Concessions and Incentives.
Sec. 15-2206. Application Requirements.
Sec. 15-2207. Affordable Housing Standards.
Sec. 15-2208. Regulatory agreement.
Sec. 15-2209. Enforcement.
Sec. 15-2210. Definitions.

SEC. 15-2201. PURPOSE.

The purposes of the affordable housing regulations are to:

A. Lessen the shortage of housing affordable to moderate, low, and very low income households in the city as partial compliance with California Government Code (Government Code) Section 65583(c);

B. Allow for density bonuses and additional incentives, consistent with Government Code Section 65915, for housing affordable to moderate, low, and very low income households, for seniors and disabled persons, and for development that includes a childcare facility;

C. Implement the policies of the Housing Element to expand the provision of housing for lower and moderate income households, elderly residents and others with special housing needs; and

D. Establish requirements for resale and rental controls to ensure that units remain affordable for at least 30 years or such other term as required by the City, consistent with State law.

E. Nothing in this Article shall be construed as a provision for inclusionary zoning where an applicant is required to provide housing affordable to moderate, low, and very low income households as a condition of approval for a residential development. Furthermore, the Council shall not adopt a provision for inclusionary zoning, as described above, unless and until the Fresno General Plan adopted in December 2014 is updated and superseded by a new General Plan.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2202. OTHER REGULATIONS AND ADOPTED PLANS.

A. **State Law Governs.** The provisions of this section shall be governed by the requirements of Government Code Section 65915. Where conflict may occur between the provisions of this section and State law, the State law shall govern.

B. **Effect of Granting a Density Bonus.** The granting of a density bonus shall not, in and of itself, require a General Plan amendment, zoning change, or other discretionary approval.

C. **Land Use Compatibility.** When located within the Airport Influence Area (AIA) of any of the operative airport plans (i.e. Sierra Skypark Land Use Policy Plan, Fresno-Chandler Downtown Airport Land Use Compatibility Plan, Fresno Yosemite International Airport Land Use Compatibility Plan) applications for a density bonus project and/or an incentive as authorized by this section shall be subject to the provisions of the adopted land use compatibility policies for residential development established by each plan for noise, airspace protection, safety, and nuisance.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2203. APPLICABILITY.

The bonuses under this article are applicable to the following projects:

A. General residential projects of five or more units.

B. Senior housing projects of more than 35 units.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2204. DENSITY BONUSES.

Pursuant to Government Code Section 65915, the City shall grant a density bonus over the otherwise allowable maximum residential density permitted by this Ordinance, the General Plan, or operative plans, and one or more additional concessions or incentives, consistent with Government Code Section 65915 and this section, if the applicant applies for and proposes to construct any one of the following:

A. **Very Low Income Units.**

1. A density bonus of 20 percent if five percent of the total units of a housing development are affordable to very low income households, as defined in Health and Safety Code Section 50105.

2. For each additional one percent increase above five percent in the proportion of units affordable to very low income households, the density bonus shall be increased by 2.5 percent, not to exceed the maximum density bonus as put forth in Subsection H.

B. **Lower Income Units.**

1. A density bonus of 20 percent if 10 percent of the total units of a housing development are affordable to lower income households, as defined in Health and Safety Code Section 50079.5.

2. For each additional one percent increase above 10 percent units affordable to lower income households, the density bonus shall be increased by 1.5 percent, not to exceed the maximum density bonus as put forth in Subsection H.

C. **Senior Citizen Housing Development.** A density bonus of 20 percent if a housing development qualifies as a Senior Citizen Housing Development, as defined in Civil Code Section 51.3.

D. **Moderate Income Units in Condominium and Planned Use Developments.**

1. A density bonus of five percent if 10 percent of the total dwelling units in a condominium project, as defined in Subdivision (f), or in a Planned Development as defined in Subdivision (k) of Section 1351 of the Civil Code, are affordable to persons and families of moderate income, as defined in Section 50093 of the Health and Safety Code.

2. For each additional one percent increase above 10 percent units affordable to moderate income households, the density bonus shall be increased by one percent, not to exceed the maximum density bonus as put forth in Subsection H.

E. **Conversion of Apartments to Condominiums.**

1. A density bonus of 25 percent if at least 33 percent of the total units of the proposed condominium project are affordable to persons of low or moderate income as defined in Health and Safety Code Section 50093, or if 15 percent of the total units of the condominium project are affordable to lower income households as defined by Health and Safety Code Section 50079.5.

2. Apartments that have already been granted a density bonus are ineligible for a density bonus under this section.

F. **State Childcare Facility Density Bonus.** When an applicant proposes to construct a housing development that conforms to the requirements of the State Density Bonus Law and includes a childcare facility other than a family day care home that will be located on the premises of, as part of, or adjacent to, the project, the City shall grant one of the following:

1. **Additional Density Bonus.** A density bonus of additional residential units equal in gross square footage to the amount of square footage of the childcare facility.

2. **Additional Concession or Incentive.** An additional concession or incentive that contributes significantly to the economic feasibility of the construction of the childcare facility.

3. **Length of Operation.** The childcare facility remains in operation for a period of time that is as long as, or longer than the length of time during which the affordable housing units must remain affordable.

G. **Land Donation.**

1. **Basic Requirements.** When an applicant for a residential development such as a subdivision map or special permit donates land to the City in accordance with this subsection, a density bonus of 15 percent shall be granted if at least 10 percent of the units are for very low income households. For each additional one

percent increase above 10 percent units affordable to very low income households, the density bonus shall be increased by one percent, up to a maximum of 35 percent of the maximum allowable residential density for the site.

a. This density bonus shall be in addition to any increase in density allowed by this section, the combination of which shall not exceed 35 percent, unless approved with good cause by the Director pursuant to this section.

2. **Additional Requirements.** The density bonus for donation of land may be granted if all of the following conditions are met:

a. The applicant donates and transfers the land to the City or to a housing developer approved by the City. The transfer shall be complete (deed recorded) prior to the recordation of a subdivision map or approval of a Special Permit.

b. The transferred land is at least one acre in size or of sufficient size to permit the development of at least 40 dwelling units.

c. The land has the appropriate General Plan designation and zoning for the development at the density described in paragraph (3) of subdivision (c) of Government Code Section 65583.2.

d. Is or will be served by adequate public facilities and infrastructure; and has all permits and approvals, other than building permits, necessary for the development of the very low income housing units on the transferred land, not later than the date of approval of the final subdivision map, parcel map or Special Permit, except that the local government may subject the proposed development to subsequent design review if its design is not reviewed by the City prior to the time of transfer.

e. The transferred land and the affordable units shall be subject to a deed restriction ensuring continued affordability of the units consistent with this section recorded at time of transfer.

f. The transferred land shall be within the boundary of the proposed development or within one-quarter mile of the subject site, if acceptable to the Director.

H. **Maximum Density Bonus.**

1. **Mixed-Use Districts.** No maximum.

2. **Other Districts.** A density bonus over 35 percent may be approved at the discretion of the Review Authority.

I. **Calculation of Density Bonus Units.** When calculating the number of permitted density bonus units, all fractional units shall be rounded to the next higher whole number. The applicant who requests a density bonus for a project that meets two or more of the eligibility requirements shall specify whether the bonus shall be awarded

on the basis of Subsections A-F of this section. The density bonus shall not be included when determining the number of target units to be provided in a development project.

1. **Optional Density Bonus.** The City may grant a proportionally lower density bonus and/or provide concessions and/or incentives set forth in Section 15-2205, Affordable Housing Concessions and Incentives, if an applicant agrees to construct a development containing less than the percentage of housing for lower or very low income households than provided in this section.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2205. AFFORDABLE HOUSING CONCESSIONS AND INCENTIVES.

A. **Number of Incentives or Concessions.** Pursuant to Government Code Section 65915, an applicant is entitled to receive incentives and/or concessions as follows. The applicant who requests incentives or concessions for a mixed-income project shall specify whether the incentives or concessions shall be awarded on the basis of one or more of the points below.

1. One incentive or concession for projects that include:
   a. At least 10 percent of the total units for lower income households;
   b. At least five percent for very low income households; or
   c. At least 10 percent for persons and families of moderate income in a condominium or planned development;
2. One incentive or concession for senior citizen housing developments; or
3. Two incentives or concessions for projects that include;
   a. At least 20 percent of the total units for lower income households;
   b. At least 10 percent for very low income households; or
   c. At least 20 percent for persons and families of moderate income in a condominium or planned development; or
4. Three incentives or concessions for projects that include:
   a. At least 30 percent of the total units for lower income households;
   b. At least 15 percent for very low income households; or
   c. At least 30 percent for persons and families of moderate income in a condominium or planned development.

B. **Proposal of Incentives and Findings.** An applicant may propose specific incentives or concessions pursuant to this section and State law. In addition to any increase in density to which an applicant is entitled, the City shall grant one or more incentives and/or

concessions that an applicant requests, up to the maximum number of incentives and concessions required pursuant to Subsection 15-2205-A unless the City makes a written finding that either:

1. The concession or incentive is not necessary in order to provide the proposed targeted units, or

2. The concession or incentive would have a specific adverse impact that cannot be feasibly mitigated on public health and safety or the physical environment or any property that is listed in the California Register of Historical Resources.

The applicant may propose and the City may approve additional incentives and concessions for an eligible project that provides targeted units that meet two or more of the eligibility requirements based on a written finding that the additional incentives or concessions are necessary in order to make the project economically feasible.

C. **Types of Affordable Housing Incentives.** Affordable housing incentives may consist of any combination of the items listed below:

1. **Modification of Development Standards.** Up to 20 percent in modification of site development standards or zoning code requirements, including, but not limited to:

   a. Reduced minimum lot sizes and/or dimensions.

   b. Reduced minimum building setbacks and building separation requirements, excluding back up treatment for off-street parking spaces.

   c. Reduced minimum outdoor and/or private usable open space requirements.

   d. Increased maximum lot coverage.

   e. Increased maximum building height.

2. **Reduced Parking.** Upon the applicant's request, the following maximum parking standards, inclusive of handicapped and guest parking, shall apply to the entire project. Further reductions in required parking may be requested as one of the incentives allowed under Subsection 15-2205-A.

   a. **Standard Reduction.**

      i. .5 on-site space for studio units;

      ii. .75 on-site space for one or two bedroom units;

      iii. One on-site space for three or more bedrooms; and

      iv. Guest parking shall be provided per the underlying district.

   b. **Transit-Serviced Developments.** When a development is located within one-half mile of a major transit stop and there is unobstructed access to the stop, the following maximum parking ratios apply. For Senior and Special Needs Housing, the development shall have either paratransit service or unobstructed access, within one-half mile, to fixed bus route service that

operates at least eight times per day. For purposes of this subsection, "unobstructed access" means that a resident is able to access the stop without encountering natural or constructed impediments.

i. **Mixed Income Developments.** If the project dedicates 20 percent of the total units for lower income households and 11 percent of the total units for very low income households, then the maximum required parking ratio shall be .5 spaces per bedroom.

ii. **One-Hundred Percent Affordable Developments.** For projects that consist solely of rental units, exclusive of a manager's unit or units, with an affordable housing cost to lower income families, the maximum parking ratios shall be as follows.

(1) **Senior Housing.** If the development is a for-rent housing development for individuals who are 62 years of age or older that complies with Sections 51.2 and 51.3 of the Civil Code, the ratio shall not exceed .5 spaces per unit.

(2) **Special Needs Housing.** If the development is a special needs housing development, as defined in Section 51312 of the Health and Safety Code, the ratio shall not exceed 0.3 spaces per unit.

(3) **All Other Housing.** .5 spaces per unit.

3. **Mixed-Use Zoning.** Approval of mixed-use zoning in conjunction with the housing project if commercial, office, industrial, or other land uses will reduce the cost of the housing development and such uses are compatible with the housing project and the surrounding area.

4. **Other Incentives.** Other regulatory incentives or concessions proposed by the developer or the City that result in identifiable cost reductions or avoidance.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2206. APPLICATION REQUIREMENTS.

An application shall be submitted by an applicant and shall contain the information as outlined by the Director.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2207. AFFORDABLE HOUSING STANDARDS.

A. **Duration of Affordability.** All affordable housing units shall be kept affordable for a minimum period of 30 years or a longer period as required by the financing assistance or subsidy program or the City, consistent with State law.

B. **Timing of Availability.** Affordable housing units shall be constructed concurrently with, and made available for qualified occupants at the same time as the market-rate housing units within the same project unless both the City and the developer agree to an alternative schedule for development.

C. **Design.** The mix and type of affordable units shall be proportionate to those of the project as a whole (with the exception that premium units - e.g., penthouses, top floor view units - shall not be required to be affordable units), and shall be comparable with the design of the base level market rate units prior to purchaser-funded upgrades in terms of appearance, materials, and finished quality.

D. **Parking.** Parking designated for affordable units shall be provided in an equitable manner as that provided for the market rate units.

E. **Location.** Wherever feasible, affordable units shall be dispersed throughout the development.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2208. REGULATORY AGREEMENT.

The City shall enter into a recorded agreement in the form of a covenant with property owner, and take other appropriate steps necessary to assure that the required moderate, low and/or very low income ownership units are provided and that the units remain affordable to moderate, low, or very low income households for the required period. This agreement shall include, but is not limited to, the following:

A. **Number of Units.** The total number of units approved for the projects, including the number of affordable housing units.

B. **Target Units.** The location, unit sizes (in square feet) and number of bedrooms of the affordable housing units.

C. **Household Income Group.** A description of the household income groups to be accommodated by the project and a calculation of the Affordable Sales Price.

D. **Certification Procedures.** The party responsible for certifying sales prices or annual rental rates, and the process that will be used for certification.

E. **Schedule.** A schedule for the completion and occupancy of the affordable housing units.

F. **Required Term of Affordability.** Duration of affordability of the housing units. Provisions should also cover resale control and deed restrictions on targeted housing units that are binding on property upon sale or transfer.

G. **Expiration of Agreement.** Provisions covering the expiration of the agreement, including notice prior to conversion to market-rate units and right of first refusal option for the City and/or the distribution of accrued equity for for-sale units.

H. **Remedies for Breach.** A description of the remedies for breach of the Agreement by either party.

I. **Other Provisions.** Other provisions to ensure implementation and compliance with this article.

J. **Condominium and Planned Developments.** In the case of condominium and planned developments, the Regulatory Agreement shall provide for the following conditions governing the initial resale and use of affordable housing units:

1. Target units shall, upon initial sale, be sold to eligible Very Low, Lower, or Moderate Income Households at an Affordable Sales Price and Housing Cost, or to Qualified Residents as defined by this Ordinance.

2. Target units shall be initially owner-occupied by eligible Very Low or Lower Income Households.

3. Upon resale, the seller of a target unit shall retain the value of any improvements, the down payment, and the seller's proportionate share of appreciation. The City shall recapture its proportionate share of appreciation, which shall be used to promote home ownership opportunities as provided for in Health and Safety Code Section 33334.2. The City's proportionate share shall be equal to the percentage by which the initial sale price to the targeted household was less than the fair market value of the dwelling unit at the time of initial sale.

K. **Rental Housing Developments.** In the case of rental housing developments, the Regulatory Agreement shall provide for the following conditions governing the use of Target Units during the use restriction period:

1. The rules and procedures for qualifying tenants, establishing affordable rent rates, filling vacancies, and maintaining Target Units for qualified tenants.

2. Provisions requiring owners to verify tenant incomes and maintain books and records to demonstrate compliance with this article.

3. Provisions requiring owners to submit an annual report to the City, which includes the name, address, and income of each person occupying Target Units, and which identifies the bedroom size and monthly rent or cost of each Target Unit.

L. **Recordation of Agreement.** The agreement shall be recorded with the Fresno County Recorder's Office and shall run with the property. The agreement shall conform to the provisions of Government Code Sections 65864 to 65869.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2209. ENFORCEMENT.

A. The provisions of this article shall apply to all agents, successors, and assignees of an applicant for development of the site. No building permit or occupancy permit shall be issued, nor any development approval granted, which does not meet the requirements of this article.

B. In addition to, or in lieu of, the provisions of 15-2208-A the City shall institute injunction, mandamus, or any other appropriate legal actions or proceedings for the enforcement of this article.

C. Any person, firm, or corporation, whether as principal, agent, employee or otherwise, violating or causing the violation of any of the provisions of this article, shall be guilty of a misdemeanor, and upon conviction thereof shall be punishable for each offense by a fine of not more than $500.00, or by imprisonment in the County Jail for a term not exceeding six months, or by both fine and imprisonment. Such person, firm, or corporation shall be deemed to be guilty of a separate offense for each and every day during any portion of which any violation of this article is commenced, continued, or permitted by such person, firm, or corporation, and shall be punishable as provided herein.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2210. DEFINITIONS.

Whenever the following terms are used in this article, they shall have the meaning established by this section:

A. **Additional Incentive(s).** Regulatory concessions as specified in California Code Sections 65915(k) to include, but not be limited to, the reduction of site development standards or Zoning Ordinance requirements, approval of mixed-use zoning in conjunction with the housing project, or any other regulatory incentive which would result in identifiable cost reductions that are offered in addition to a density bonus.

B. **Affordable Housing.** Housing units that are affordable to families with very low, low, or moderate incomes.

C. **Affordable Housing Agreement A legally binding agreement between a developer and the City to ensure that the requirements of this section are satisfied.** The agreement establishes, among other things, the number of required inclusionary or affordable housing units, the unit sizes, location, affordability tenure, terms, and conditions of affordability and unit production schedule.

D. **Affordable Unit, For Rent.** A unit for which the total monthly rent plus utilities does not exceed the following:

   1. **Moderate Income Households.** 30 percent of 110 percent of the Fresno County median income.

   2. **Lower Income Households.** 30 percent of 60 percent of the Fresno County median income.

   3. **Very Low Income Households.** 30 percent of 50 percent of the Fresno County median income.

E. **Affordable Unit, For Sale.** A unit for which the total monthly payment including interest, taxes, insurance, and utilities does not exceed the following:

   1. **Moderate Income Households.** 35 percent of 110 percent of the Fresno County median income.

   2. **Lower Income Households.** 30 percent of 70 percent of the Fresno County median income.

3. **Very Low Income Households.** 30 percent of 50 percent of the Fresno County median income.

F. **Conversion.** The change of status of a dwelling unit from a purchased unit to a rental unit or vice versa.

G. **Density Bonus.** A minimum increase in the number of dwelling units authorized for a particular parcel of land over the otherwise maximum residential density.

H. **Density Bonus Dwelling Units.** Those residential units granted pursuant to the provisions of this article which are above the maximum allowable residential density of the project site.

I. **Financial Assistance.** Assistance to include, but not be limited to, the subsidization of fees, infrastructure, land costs, or construction costs, the use of redevelopment set-aside funds, community development block grant (CDBG) funds, or the provision of other direct financial aid in the form of cash transfer payments or other monetary compensation, by the City of Fresno.

J. **Housing Costs.** Defined in accordance with Section 50052.5 of the California Health and Safety Code and shall generally mean the monthly mortgage principal and interest, property taxes and assessments, homeowners insurance, homeowner association fees where applicable, an allowance for utilities and property maintenance and repairs, for ownership dwelling units; and the monthly rent, and allowance for utilities, fees, or service charges charged to all tenants, for rental dwelling units.

K. **Income Eligibility.** The gross annual household income, considering the household size and number of dependents, income of all wage earners, elderly or disabled family members and all other sources of household income. For self-employed households, net annual household income shall be used in determining income eligibility.

L. **In-Lieu Incentives.** Incentives offered by the City, which are of equivalent financial value based upon the land cost per dwelling unit(s), that are offered in-lieu of density bonus and additional incentives.

M. **Income.** Any monetary benefits that qualify as income in accordance with the criteria and procedures used by the City of Fresno.

N. **Income Levels.** For purposes of determining income levels of households under this article, the City shall use the Fresno County income limits in Title 25, Section 6932 of the California Code of Regulations or other income limits adopted by the City Council if the State Department of Housing and Community Development fails to provide timely updates of the income limits in the California Code of Regulations.

O. **Lower-Income Household.** Low-income household whose gross income does not exceed 80 percent of the area median income for Fresno County as determined annually by the U.S. Department of Housing and Urban Development.

P. **Major Transit Stop.** A site containing an existing rail transit station or the intersection of two or more major bus routes with a frequency of service interval of 15

minutes or less during the morning and afternoon peak commute periods. This definition shall additionally include all major transit stops designated in the applicable regional transportation plan. (California Public Resources Code § 21155 and § 21064.3).

Q. **Market-Rate Unit.** A dwelling unit where the rental rate or sales price is not restricted either by this article or by requirements imposed through other local, State, or federal affordable housing programs.

R. **Maximum Allowable Residential Density.** The maximum residential density allowed under this Ordinance and the General Plan, or if a range of density is permitted, the maximum allowable density for the specific zoning range and General Plan applicable to the project.

S. **Median Income.** The median income earned by a household or family, adjusted by size, as published by U.S. Department of Housing and Urban Development.

T. **Moderate-Income Household.** A household whose gross income is more than 80 percent but does not exceed 120 percent of the median income for Fresno County as determined annually by the U.S. Department of Housing and Urban Development.

U. **Offsets.** Concessions or assistance to include, but not be limited to, direct financial assistance, density increases, standards modifications or any other financial, land use, or regulatory concession which would result in an identifiable cost reduction enabling the provision of affordable housing.

V. **Operating Agent.** A nonprofit organization, for-profit corporation, County or City agency chosen by the City to carry out some or all of the administrative provisions of this article.

W. **Project.** A housing development at one location including all dwelling units for which permits have been applied for or approved within a 12 month period.

X. **Qualifying Resident.** Persons 62 years of age or older, or 55 years of age or older in a residential development developed, substantially rehabilitated, or substantially renovated for senior citizens that has at least 35 dwelling units, and as defined in Section 51.3 of the California Civil Code.

Y. **Senior Citizen Housing Development.** A residential development consisting of at least 35 dwelling units which is developed for, or substantially rehabilitated or renovated for persons 55 year of age or older.

Z. **Target Dwelling Unit.** A dwelling unit that will be offered for rent or sale exclusively to and which shall be affordable to the designated income group or qualified resident, as required by this article.

AA. **Very Low Income Household.** A household whose gross income does not exceed 50 percent of the area median income for Fresno County as determined annually by the U.S. Department of Housing and Urban Development.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 23 LANDSCAPE

Sec. 15-2301. Purpose.
Sec. 15-2302. State Codes.
Sec. 15-2303. Applicability.
Sec. 15-2304. Landscape Plans.
Sec. 15-2305. Areas To Be Landscaped.
Sec. 15-2306. Landscape Design Standards.
Sec. 15-2307. General Landscaping Standards.
Sec. 15-2308. Trees.
Sec. 15-2309. Irrigation Specifications.
Sec. 15-2310. Installation and Completion.
Sec. 15-2311. Maintenance.

SEC. 15-2301. PURPOSE.

The purpose of this article is to achieve the following:

A. Enhance the appearance and function of all development by providing standards relating to the quality, quantity, and design of landscaping;

B. Protect public health, safety, and welfare by minimizing the impact of all forms of physical and visual pollution, controlling soil erosion, screening incompatible land uses, preserving the integrity of existing residential neighborhoods, and enhancing pedestrian and vehicle traffic and safety;

C. Preserve, protect, manage, maintain, and enhance the city's community forest to promote scenic beauty, provide habitat, maintain and increase property values, counteract air pollutants, minimize heat island effect, provide shade, store carbon, decrease wind velocities, attract investment, promote active living, foster wellbeing, reduce soil erosion and ground water contamination;

D. Promote energy conservation in buildings by providing shade from the sun in summer, allowing the sun rays to shine through in winter and providing shelter from the cold wind in winter; and

E. Encourage water conservation through the use of native and water-wise, climate-appropriate plants, efficient design, and water-conserving irrigation design and practices.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2302. STATE CODES.

In addition to the provisions of this article, more requirements may apply to landscape plans at time of plan review submittal for building, landscaping and/or plumbing permits as stipulated in the California Green Building Standards Code (CalGreen), the California Model Water Efficient Landscape Ordinance (MWELO), and the California Plumbing Code

(CPC). Where there is potential conflict between CalGreen, MWELO, and the CPC as adopted and amended in Chapter 11 and this article, CalGreen, MWELO, and the CPC shall prevail.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2303. APPLICABILITY.

The standards of this article apply to the following:

A. New construction projects with landscapes;

B. Additions (other than to Single-Unit Dwellings or Duplexes) to an existing building that expands the existing floor area by either 20 percent or more or 2,500 square feet or more, whichever is less. The floor area increases to the existing building shall be cumulative from the date of adoption of this Code;

C. A new building with a floor area of 300 square feet or more on a developed site. The 300 square feet shall be cumulative from the date of adoption of this Code;

D. The demolition and reconstruction of a site;

E. A first time installed landscape or a re-landscaping project where the new or modified landscape area is equal to or greater than 500 square feet; or

F. Change from one category of use classification to another (i.e., changing from a Commercial Use Classification to a Residential Use Classification as identified in the Use Regulation table of the Base District); or,

G. **Exceptions.** The standards of this Section do not apply to landscaping that is part of a registered historic site, plant collections as part of botanical gardens and arboretums open to the public, or ecological restoration projects that do not require a permanent irrigation system, or mined-land reclamation projects that do not require a permanent irrigation system.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 25, eff. 1-18-19; Am. Ord. 2025-024, § 39, eff. 7-27-25).

SEC. 15-2304. LANDSCAPE PLANS.

A landscape plan shall be submitted with the permit application whenever landscaping per Section 15-2303 applies.

A. **Information Required.** Landscape plans shall be drawn to scale and shall, at a minimum, include the following:

1. Proposed plant locations, species, sizes, and plant factor. Plants with similar water needs shall be grouped together into hydrozones on the landscape plan. The plant factor according to the California Department of Water Resources study, Water Use Classification of Landscape Species (WUCOLS), shall be

identified for all landscaped areas on a site. All water features shall be identified as high water use and temporarily irrigated areas shall be identified as low water use.

2. Proposed landscape features (mounds, stepping stones, benches, sculptures, decorative stones, or other ornamental features) locations, dimensions, and materials.

3. Proposed water features (fountains, pools and ponds) and paved surfaces locations, dimensions, and materials.

4. Proposed landscape structures (sheds, trellises, arbors, gazebos, fire pits, fireplaces, built-in barbeques, decks, retaining walls, and seat walls) locations, dimensions, and materials.

5. Location of any existing trees over six inches in diameter, as measured 48 inches above natural grade, and whether each such tree is proposed for retention or removal.

6. Identification of areas of preservation or incorporation of existing native vegetation.

7. Identification of areas not intended for a specific use, including areas planned for future phases of a phased development, shown landscaped or left in a natural state.

8. Any additional proposed landscape elements and measures to facilitate plant growth or control erosion.

B. **Authorized to Design a Landscape.** Landscaping for commercial projects and institutional projects equal to or greater than one acre in size, industrial projects equal to or greater than 2.5 acres in size, and residential projects consisting of more than five units shall be prepared by a California registered landscape architect. For all other projects the various professionals, practitioners, and unlicensed persons may offer landscape design services within the scope and limitations that pertain to each as follows:

1. **Landscape Architect.** Must hold a professional license to practice landscape architecture. May perform professional services for the purpose of landscape preservation, development and enhancement, such as consultation, investigation, reconnaissance, research, planning, design, preparation of drawings, construction documents and specifications, and responsible construction observation (Business and Professions Code, Section 5615).

2. **Architect.** Must hold a professional license to practice architecture. May offer, perform, or be in responsible control of professional services which require the skills of an architect in the planning of sites (Business and Professions Code, Sections 5500.1 and 5641.3).

3. **Professional Engineers.** Must hold professional registration to practice engineering. May perform professional services as defined under Business and

Professions Code, Section 5615, as long as the work is incidental to an engineering project (Business and Professions Code, Sections 5615, 5641.3 and 6701 et seq.).

4. **Landscape Contractors.** Must hold a C-27 landscaping contractor's license. May design systems and facilities for work to be performed and supervised by that contractor (Business and Professions Code, Sections 5641.4 and 7027.5 and California Code of Regulations, Title 16, Division 8, Section 832.27).
5. **Nurserypersons.** Must hold a license to sell nursery stock. May prepare planting plans or drawings as an adjunct to merchandizing nursery stock and related products (Business and Professions Code, Section 5641.2 and Food and Agricultural Code, Section 6721 et seq.).
6. **Landscape/Garden Designers including Master Gardeners, etc.** May prepare plans, drawings, and specifications for the selection, placement, or use of plants for single-unit dwellings; may prepare drawings for the conceptual design and placement of tangible objects and landscape features; may not prepare construction documents, details, or specifications for tangible landscape objects or landscape features; and may not prepare grading and drainage plans for the alteration of sites.
7. **Personal Property Owners (Homeowner).** May prepare plans, drawings or specifications for any one- or two-unit dwelling property owned by that person.
8. **Golf Course Architect.** May engage in the practice of, or offer to practice as, a golf course architect. May perform professional services such as consultation, investigation, reconnaissance, research, design, preparation of drawings and specifications, and responsible supervision, where the dominant purpose of such service is the design of a golf course, in accordance with accepted professional standards of public health and safety.
9. **Irrigation Consultants.** May engage in the practice of, or offer to practice as, an irrigation consultant. May perform consultation, investigation, reconnaissance, research, design, preparation of drawings and specifications, and responsible supervision, where the dominant purpose of such service is the design of landscape irrigation, in accordance with accepted professional standards of public health and safety.

The applicable statutes which govern the above unlicensed categories are Business and Professions Code, Sections 5641, 5641.1, 5641.5 and 5641.6 (10-02, Amended, 02/02/2010). (Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 40, eff. 7-27-25).

SEC. 15-2305. AREAS TO BE LANDSCAPED.

The following areas shall be landscaped and may count toward the total area of site landscaping required by the zoning district regulations.

A. **Parking Areas.** Parking areas shall be landscaped in compliance with Article 24, Parking and Loading.

B. **Required Setbacks.**

1. **All Districts.** For permitted paved areas, refer to the underlying Base District.

2. **Residential Uses that are Single-Unit Dwellings, Duplexes, and Triplexes.** All required front and street-facing side yards, except for areas used for exit and entry shall be landscaped. If a solid fence is provided on a street side yard property line, the street side yard is not required to be landscaped.

3. **Residential Uses with Four or More Dwelling Units and Mixed-Use.** All required setbacks, except for areas used for exit and entry, shall be landscaped.

4. **Non-Residential Uses.** All required setbacks, except for areas used for exit and entry, shall be landscaped. If an Industrial District abuts another Industrial District, side and rear yards are not required to be landscaped. However should an Industrial District abut any other district or a street, it shall be landscaped. Where adjacent to residential, non-residential uses may require a larger setback under Residential Transition Standards and landscaping shall be provided as prescribed in Table 15-2305-C.1.

C. **Lot Perimeters.** Landscape buffers shall be installed and maintained alongside and rear lot lines between differing land uses, in accordance with the sections of this article and the following standards:

1. **Required Landscape Buffers.** Table 15-2305-C-1, Required Landscape Buffers, shows when a buffer treatment is required, and of what type, based on the proposed use and the adjoining district. Only the proposed use is required to provide the buffer yard. The type of buffer yard required refers to buffer yard-type designations (Type 1 or Type 2) as shown in Table 15-2305-C-2, Buffer Yard Requirements. A dashed line, "-", means that a buffer yard is not necessary unless required by another section of this Code.

TABLE 15-2305-C-1: REQUIRED LANDSCAPE BUFFERS

Proposed Use	*Adjoining District*						
	Park or Open Space	*Single-Unit Residential*	*Multi-Unit Residential*	*Mixed-Use*	*Commercial, Office, and Business Park*	*Industrial*	*Public Facility*
Park or Open Space	-	Type 1	Type 1	Type 1	-	-	-
Multi-Unit Residential	Type 1	Type 1	-	-	-	-	-
Mixed-Use	Type 2	Type 2	Type 2	-	-	-	-
Commercial, Office and Business Park	Type 2	Type 2	Type 2	-	-	Type 1	Type 1
Industrial	Type 2	Type 2	Type 2	Type 2	Type 2	-	Type 2
Public Facility	Type 2	Type 2	Type 2	Type 2	Type 2	Type 1	-
Other Non-Residential Uses	Type 1	Type 1	Type 1	-	-	-	Type 1

2. **Buffer Yard Types.** Table 15-2305-C-2, Buffer Yard Requirements, describes the minimum width and plant materials, and wall requirements for each type of buffer yard. The listed number of trees and shrubs are required for each 100 linear feet of buffer yard. Natural areas with native vegetation or alternative planting materials which achieve equivalent buffering effects may be approved by the Review Authority. For wall requirements, refer to Section 15-2008, Screening Between Differing Land Uses.

TABLE 15-2305-C-2: BUFFER YARD REQUIREMENTS

Buffer Yard Type	*Minimum Width (feet)*	*Trees*		*Shrubs*	
		Large	*Small to Medium*	*Large*	*Small to Medium*
Type 1	10	2	2	6	8
Type 2	15	2	3	8	10

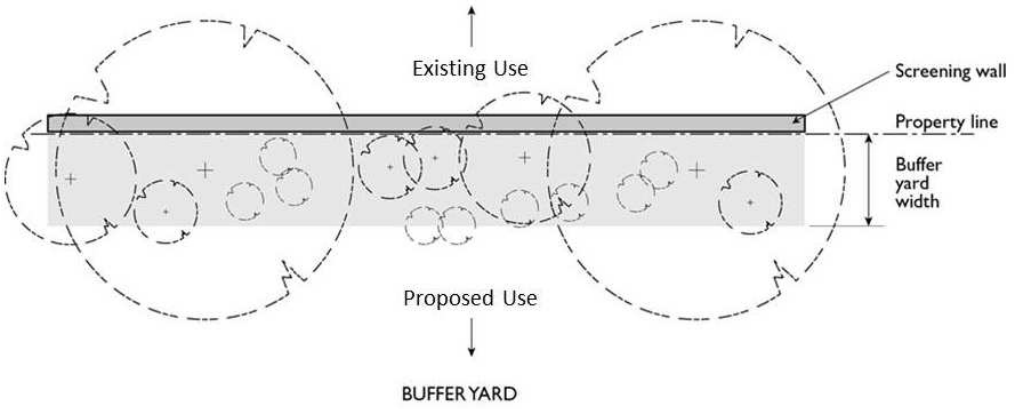

FIGURE 15-2305-C-2: BUFFER YARD REQUIREMENTS

3. **Patio Allowance.** An employee or dining patio is allowed within the buffer yard for up to 50 percent of the depth of the required buffer yard.

D. **Landscape Setback.** All areas between site perimeter walls/fencing and lot lines facing a street shall be landscaped. Landscaping shall be installed and maintained in accordance with the sections of this article and the following standards:

1. Planting areas more than 10 feet in width shall be planted with medium and large trees and medium and large shrubs to span the entire length.

2. Planting areas 10 feet or less in width shall at the very least be planted with small trees and small to medium size shrubs to span the entire length.

3. Vines may be included for areas adjacent to concrete or masonry walls.

4. The landscape design shall provide total wall/fence screening from top to bottom for the entire length within five years.

5. Trees shall be planted so the canopies could touch for the entire length within fifteen years.

E. **Building Perimeters.**

1. All portions of a building that face a public street shall have one or more landscape planters installed along a minimum of 20 percent of that building face. This standard does not apply where a building is located within three feet of a public sidewalk, in which case the building perimeter shall be paved and treated in a manner similar to the adjacent sidewalk.
2. The minimum width of the planter shall be three feet. Planters may be raised or at grade and may include potted plants.

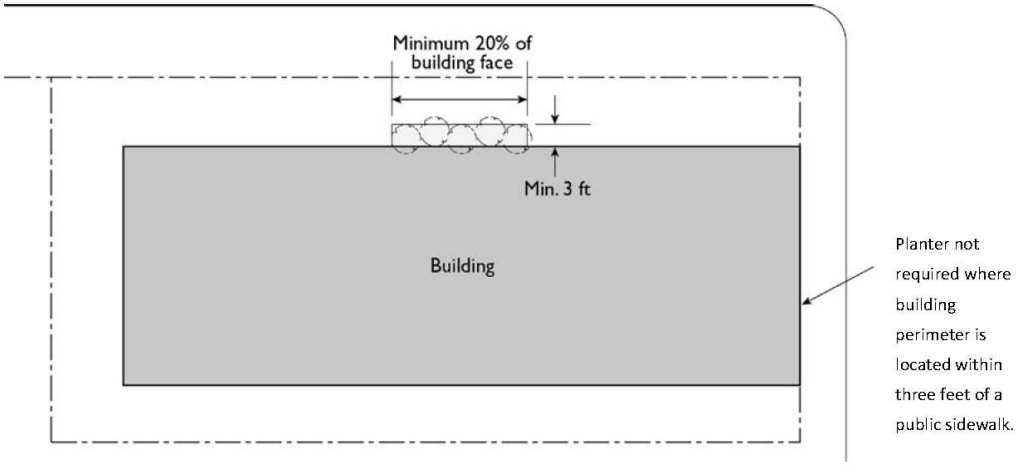

FIGURE 15-2305-E: BUILDING PERIMETERS

F. **Unused Areas.** All areas of a project site not intended for a specific use, including areas planned for future phases of a phased development, shall be maintained clear and free of refuse, debris, or other accumulated matter.

G. **Public Property.** Refer to Chapter 13, Article 3, Street Trees and Parkways for street tree, parkway (park strip), and median island requirements in public property.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 21, eff. 10-21-16; Am. Ord. 2017-33, § 17, eff. 7-30-17; Am. Ord. 2018-66, § 26, eff. 1-18-19; Am. Ord. 2025-024, §§ 41, 42, eff. 7-27-25).

SEC. 15-2306. LANDSCAPE DESIGN STANDARDS.

The following design standards are to be used by decision-makers in evaluating whether landscape plans conform to the requirements of this Section:

A. **Composition.** The quality of a landscape design is dependent not only on the quantity and selection of plant materials but also on how that material is arranged. Landscape materials must be arranged in a manner as to provide the following qualities and characteristics:

1. **Texture.** Landscape designs must provide a textured appearance through the use of a variety of plant material rather than a single species, by contrasting

large leaf textures with medium and small leaf textures, and with a variety of plant heights. Spacing of key landscaping components, such as trees and shrubs, shall be consistent with the overall design approach of the landscape plan. Formal landscape designs benefit from a uniform spacing of plants, whereas varied spacing and clustering of trees is more compatible with a naturalistic design.

2. **Color.** Landscape designs shall include a variety of plants to provide contrasting color to other plants in the design. Designs are encouraged to include flowering plants and especially a mix of plants that display colorful flowers throughout the year.

3. **Form.** Landscape designs will consider the complete three-dimensional form of the landscaping, not simply the form of individual elements. The interrelationship of all landscape elements shall be considered so that the final design presents a coherent whole.

B. **Buffering and Screening.** Natural landscape materials (trees, shrubs, and hedges) must be used alone or with walls and/or berms to screen or buffer differing land uses, prevent graffiti, provide transition between adjacent lots, and screen the view of parking, storage, service areas, refuse collection facilities and enclosures, utility enclosures, drive-throughs, utility pipes and boxes visible from a public street, alley, or pedestrian space or walkway. Plant material must be mature enough at the time of planting and appropriately located to provide an effective buffer or screen within five years of planting.

C. **Water-Wise Landscaping.** Landscape designs shall feature plant species such as drought-tolerant and climate adaptive plants that thrive in the San Joaquin Valley region to take advantage of the adaptability of regionally appropriate plants to local environmental conditions and to conserve energy and water.

D. **Continuity and Connection.** Landscaping must be designed within the context of the surrounding area, provided that the adjacent landscaping is consistent with the landscape design standards of this section. Where the adjacent property landscaping meets the landscape design standards of this section, plant materials shall blend well with adjacent properties, particularly where property edges meet, to create a seamless and natural landscape. Exceptions can be made when seeking to create a transition between uses or zoning districts.

1. **Buffers for Natural Areas.** When located adjacent to an area of high ecological value, the proposed development shall incorporate natural features that will provide continuity and connection to the natural area and serve as an appropriate buffer space.

E. **Enhancing Architecture.** Landscape designs shall be compatible with the architectural character and features of the buildings on site. Major landscape elements must be designed to complement exterior elevations and roof lines of the buildings through texture, color, and form.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2307. GENERAL LANDSCAPING STANDARDS.

A. **Materials.**

1. **General.**

   a. Landscaping may consist of a combination of turf, groundcovers, shrubs, vines, trees, incidental features such as stepping stones, benches, fountains, sculptures, decorative stones, and other ornamental features placed within a landscaped setting.

   b. Plant materials shall be selected from among those species and varieties known to thrive in the Fresno climate.

   c. Paved (e.g., concrete, stone and masonry) surfaces, gravel (e.g., decomposed granite) surfaces, and rocks may not exceed 35 percent of the area required to be landscaped.

   d. Recirculating water shall be used for decorative water features.

   e. Areas dedicated to edible plants are considered landscaped areas and count toward required landscaping.

2. **Non-Plant Materials.** Non-plant materials such cinder, bark, and similar materials may not be used to meet the minimum planting area required by this section.

3. **Synthetic Lawns.** Synthetic lawns may be considered as turf, and shall cover no more than 75 percent of the required landscape area.

4. **Mulch.** A minimum three-inch layer of mulch shall be applied on all exposed soil surfaces of planting areas except in turf areas, creeping or rooting ground covers or other special planting situations where mulch is not recommended. Stabilizing mulching products shall be used on slopes. Mulch must be confined to areas underneath shrubs and trees and is not a substitute for ground cover plants.

5. **Size and Spacing.** Plant materials shall be grouped in hydrozones in accordance with their respective water, cultural (soil, climate, sun, and light), and maintenance needs. Plants shall be of the following size and spacing at the time of installation:

   a. **Ground Covers.** Ground cover plants must be at least of a four-inch pot size and spaced to provide full coverage within the time frame specified for the species planted.

   b. **Shrubs.** Spacing of shrubs shall be according to local conditions; the species, cultivars, or varieties used; and their mature height, spread, and form. When planted to serve as a hedge or screen, shrubs shall be spaced at 75 percent of their mature length.

      i. **Small Shrub.** A small shrub shall have a mature height of three to less than five feet and shall be planted at minimum from one-gallon containers.

ii. **Medium Shrub.** A medium shrub shall have a mature height of between five and eight feet and shall be planted at minimum from five-gallon containers.

iii. **Large Shrub.** A large shrub shall have a mature height of greater than eight feet and shall be planted at minimum from five-gallon containers.

c. **Trees.** All trees shall be a minimum of 15 gallons in size. Spacing of trees shall be according to local conditions; the species, cultivars, or varieties used; and their mature height, spread, and form. Newly planted trees shall be supported with stakes or guy wires.

i. **Small Tree.** A small tree shall have a mature height of less than 25 feet and be at least one inch in diameter at six inches above ground level. Small trees, generally, shall be planted 25 feet apart.

ii. **Medium Tree.** A medium tree shall have a mature height of between 25 and 45 feet and be at least 1¼ inch in diameter at six inches above ground level. Medium trees, generally, shall be planted 35 feet apart.

iii. **Large Tree.** A large tree shall have a mature height of greater than 45 feet and be at least 1½ inch in diameter at six inches above ground level. Large trees, generally, shall be planted 45 feet apart.

6. **Landscaping Mound.** Landscaping mounds shall be constructed on slopes not to exceed 4:1. The toe of the mound shall be set back from buildings and property boundaries as far as necessary for safety of the adjacent properties and to prevent damage resulting from water runoff or erosion of the slope. In no case shall the toe of the mound be within five feet of any building or one foot of the street right-of-way.

B. **Dimension of Landscaped Areas.** Landscaped areas shall have a minimum horizontal dimension of four and one-half feet to count towards required landscaping.

C. **Prescribed Heights.** The prescribed heights of landscaping shall indicate the height to be attained within fifteen years after planting.

D. **Drivers' Visibility.** Trees and shrubs shall be planted and maintained so that at maturity they do not interfere with traffic safety sight areas, or public safety. Notwithstanding other provisions of this section, landscaping must comply with Section 15-2018, Intersection Visibility and Chapter 13, Article 2, Sections 13-227, Obstruction to Visibility at Intersections and 13-228, Intersection Visibility, Investigation, and Enforcement.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2308. TREES.

A. **Trees.** Trees shall be provided as follows:

1. **Residential Single-Unit Districts.** A minimum of two trees per lot and if part of a Planned Development then trees may be provided in common areas in addition to the two provided on each residential lot.

a. One of the required trees must be oriented to the street.

b. One of the required trees must be a passive solar-oriented tree (Deciduous) or a wind buffer-oriented tree (Evergreen).

2. **Multi-Unit Residential and Mixed-Use Districts.** A minimum of one tree per unit.

3. **Commercial, Office, Business Park, and Regional Business Park Districts.** A minimum of one tree for every 2,000 square feet of lot coverage.

4. **Industrial Districts.** A minimum of one tree for every 10,000 square feet of lot coverage (Trees required in other sections of this code, such as parking lot trees or street trees, shall count toward the satisfaction of this requirement).

5. **Planned Development Districts.** For requirements in single-unit residential development see Residential Single-Unit Districts, for multi-unit and mixed-use development see Residential Multi-Unit and Mixed-Use Districts, and for commercial and employment development see Commercial and Employment Districts above.

6. Trees planted near public curbs or sidewalks shall be installed in a manner that minimizes physical damage to the curbs, gutters, sidewalks, and other public improvements.

B. **Heritage Tree Designations.**

1. **Applications.** Applications for designation of a heritage tree on private or public property may be initiated by any person subject to the property owners' written consent. The applicant requesting heritage tree designation shall submit an application in compliance with instructions provided by the Director and shall include the following:

   a. Assessor's parcel number of the site;

   b. Description detailing the proposed heritage tree's special aesthetic, cultural, or historic value of community interest; and

   c. Photographs of the tree(s).

2. **Review.** The Director shall conduct a review of the proposed heritage tree, based upon information or documentation they may require from the applicant, staff, or other available sources. A tree may be designated as a heritage tree upon a finding that it is unique and important to the community due to any of the following factors:

   a. It is an outstanding specimen of a desirable species;

   b. It is one of significant age and/or girth in the city; or

   c. It has agricultural, cultural, economic, educational, historical, indigenous, or social heritage significance in the city.

3. **Hearing.** The Planning Commission shall hold a public hearing on any proposed designation within 30 days after the application is deemed complete and shall render a decision to approve, deny, or continue the hearing for more information.

4. **Posting and Notice.** Hearings for heritage tree designation shall be subject to public hearing notice procedures specified in Section 15-5007, Public Notice. In addition, the Department shall post to the site or tree under consideration at least ten calendar days before the hearing date with a sign identifying the nature of the application and the date, time, and place of the hearing.

5. **Recordation of Heritage Tree Designation.** If the heritage tree designation is approved, the City shall record the designation with the County Recorder's Office and a copy shall be provided to the property owner and the DARM Department. A listing of designated heritage trees and their locations shall be listed on the historic resources inventory and maintained by the Department.

C. **Protected Trees.** The following apply to Protected Trees:

1. No Protected Tree shall be removed, pruned, or otherwise materially altered without a Tree Removal Permit except as provided in this section. Trimming of a Protected Tree is allowed without such a permit.

2. Protected Trees are as follows:

   a. Heritage Trees.

   b. Multi-Trunk Trees. Any multi-trunk tree which has at least one trunk 12 inches or greater in diameter or 38 inches or greater in circumference, measured four feet above the adjacent grade, except for developed single-unit residential properties.

   c. Any Tree 12 Inches or Greater in Diameter. Any tree which measures 12 inches or greater in diameter or 38 inches or greater in circumference, measured four feet above the adjacent grade, except for developed single-unit residential properties.

   d. Parkway Trees and Any Trees Located on Public Property.

   e. **Condition of Approval.** Any tree required to be planted or retained as a condition of approval of a development application or a Building Permit.

   f. **Trees Required by a Development Permit.** Trees required or memorialized under a Development Permit.

3. The following trees may be removed without approval of a Tree Removal Permit:

   a. **Emergencies.** Trees may pose an immediate threat to persons or property during an emergency or are determined to constitute an emergency upon order of the Director, the Public Utilities Director, the Public Works Director, or any member of the Police or Fire Departments.

   b. **Public Nuisance.** Any tree in a condition to constitute a public nuisance as determined the Building Official, the Director, the Fire Chief, the Public Utilities Director, or the Public Works Director.

c. **Public Utilities.** Trees that undermine or impact the safe operation of public utilities.

d. **Fruit Trees.** Any fruit tree.

e. **Eucalyptus Trees.** All trees of the genus Myrtaceae.

f. **Developed Single-Unit Residential.** Any tree located on developed single-unit residential property, except as specified in Subsection 15-2308-C.2.

4. Chemicals or other construction materials shall not be stored within the drip line of Protected Trees.

5. Signs, wires, or similar devices shall not be attached to Protected Trees.

6. If the proposed development, including any site work for the development, will encroach upon the drip line of a Protected Tree, then the following apply:

a. Special measures shall be utilized as approved by the review authority, to allow the roots to obtain oxygen, water, and nutrients as needed.

b. Any excavation cutting, filling, or compaction of the existing ground surface within the protected perimeter, if authorized at all by the review authority, shall be minimized and subject to such conditions as may be imposed by the review authority.

c. No significant change in existing ground level shall be made within the drip line of a Protected Tree.

d. No burning or use of equipment with an open flame shall occur near or within the protected perimeter.

7. Underground trenching for utilities shall avoid major support and absorbing tree roots of Protected Trees. If avoidance is impractical, tunnels shall be made below the roots. Trenches shall be consolidated to service as many utilities as possible. Trenching within the drip line of Protected Trees shall be avoided to the greatest extent possible and shall only be done under the at-site directions of a certified arborist.

8. No concrete or asphalt paving shall be placed over the root zones of oaks.

9. No compaction of the soil within the root zone of Protected Trees shall occur.

10. All trees, protected or otherwise, to be removed shall include the removal of the stump or be cut to at least six inches below the ground, and soil shall be replaced and the area leveled. If the area where the tree is removed is to be paved, the tree shall be cut or stump removed to at least eight inches below the ground.

D. **Tree Removal Permit/Application Requirements.**

1. **Application Information.**

a. Applications for a tree removal permit shall be available from and filed with the DARM Department and shall contain the following:

i. A written explanation of why the tree(s) should be removed;

ii. A tree survey plan indicating the number, location(s), variety or species, and size(s) (measured four feet above grade) of the tree(s) to be removed is required for all properties except developed single-unit residential;

iii. Photograph(s) of the tree(s);

iv. Arborist report;

v. Signature of the property owner and homeowners association (when applicable) and proof of a vote of the homeowners association;

vi. Replanting plan (see Table 15-2308-E-4, Replacement Trees);

vii. Other information deemed necessary by the Director to evaluate the tree removal request; and

viii. Permit fee, if applicable.

b. The Director may modify or waive the requirements of this section if deemed appropriate (e.g., arborist reports for properties in RS Districts).

E. **Determination on Permit Application.**

1. **General Criteria.** The review authority shall issue a Tree Removal Permit if any of the following general criteria is met:

a. **Diseased or Danger of Falling.** The tree(s) is irreparably diseased or presents a danger of falling that cannot be controlled or remedied through reasonable preservation and/or preventative procedures and practices so that the public health or safety requires its removal.

b. **Potential Damage.** The tree(s) can potentially cause substantial damage to existing or proposed main structure(s) (e.g., dwellings, other main structures, or public infrastructure) or interfere with utility services and cannot be controlled or remedied through reasonable relocation or modification of the structure or utility services.

c. **Economic Enjoyment and Hardship.** The retention of the tree(s) restricts the economic enjoyment of the property or creates an unusual hardship for the property owner by severely limiting the use of the property in a manner not typically experienced by owners of similarly zoned and situated properties, and the applicant has demonstrated to the satisfaction of the Review Authority that there are no reasonable alternatives to preserve the tree(s). A minor reduction of the potential number of residential units or structural size due to tree location does not represent a severe limit of the economic enjoyment of the property.

2. **Additional Recommendations.** The applicable review authority may refer the application to another department or the Planning Commission for a report and recommendation.

3. **Inspections and Permit Availability.** City staff shall have the authority to conduct on-site inspections of all trees proposed for removal. If a tree removal permit is approved, the permit shall be on site at all times before and during the removal of a tree and/or shall be made available to any City official at the site, upon request.

4. **Action.** Based on the criteria identified in this section, the Review Authority shall approve, conditionally approve, or deny the application. Conditions of approval may include any of the following:

   a. Revisions to development plans to accommodate existing trees;

   b. Payment of an in-lieu fee.

      i. Payment of a fee shall be based on the fair market value of the number of trees required by Table 15-2308-E-4 for the same or equivalent species, delivered and installed, as determined by the Director.

      ii. The fees will be used to purchase trees that will be planted within the public right-of-way or on other public property as directed by the Public Works Department. Where feasible, trees will be planted in the vicinity in which the tree(s) was removed.

      iii. Payment of the in-lieu fee shall be made before the issuance of the Tree Removal Permit.

   c. Replacement trees of a species and size planted at locations designated by the Review Authority in compliance with Table 15-2308-E-4; or

   d. A combination of replacement trees and in-lieu fees that in total provide for the number of replacement trees required by this article.

TABLE 15-2308-E-4: REPLACEMENT TREE REQUIREMENTS

Trunk Size of Removed Tree (measured at 4 feet above grade)		*Replacement Ratio Required (per tree removed)*	
Diameter (in inches)	*Circumference (in inches)*	*Number of replacement trees required*	*Minimum size of replacement trees*
12 to 24	30 to 75	2	24 inch box
Greater than 24	Greater than 75	3	36 inch box
Heritage Trees		4	48 inch box

5. **Expiration.** If no action on an approved tree removal permit is taken within a period of one year from the date of approval, the permit shall be considered void.

F. **Review Authority and Permit Process.**

1. **Tree Removal Requests Filed Independent of Development Applications.**

   a. **Director's Review.** The Director shall be the Review Authority for tree removal requests, except for heritage trees, filed independent of a development application. The Director shall render a decision within ten business days from the date a tree removal application is filed and deemed complete. The Director

may refer any application to another department, committee, board, or commission of the City for a report and recommendation, and may require the applicant to provide an arborist's report.

b. **Posting and Notice.** The decision of the Director shall be mailed to the applicant and to all owners of record located within a three-hundred-foot radius of the subject property on the same day the decision is made. In addition, the site or tree shall be posted with a sign by the Department for at least ten calendar days indicating the decision of the Director, and specifying the appeal period and the method of appeal.

2. **Tree Removal Requests Filed with a Development Application.**

a. **Review Authority.** The Review Authority for tree removal requests filed in conjunction with a development application shall be the same review authority as established for the accompanying development application.

b. **Public Hearing.** If a public hearing is normally required by this Development Code, the tree removal request shall be considered concurrently, in compliance with Section 15-5007, Public Notice.

c. **Posting.** The DARM Department shall also post to the site or tree under consideration a sign indicating the proposed removal and the date, time, and place of the hearing at least ten calendar days before the hearing date.

3. **Heritage Tree Removal Requests.** Notwithstanding any other provision of this section, the following provisions shall apply to requests for the removal of heritage trees.

a. **Requests Filed Independent of Development Applications.** The Planning Commission shall be the Review Authority for all tree removal requests for heritage trees filed independent of a development application.

b. **Requests Filed in Conjunction with a Development Application.** The Review Authority for heritage tree removal requests filed in conjunction with a development application shall be the same review authority as established for the accompanying development application. Before the hearing by the Review Authority, requests to remove heritage trees filed in conjunction with a development application shall be referred to the Protected Tree Advisory Committee who shall make a recommendation to the review authority.

c. **Public Hearing.** A public hearing by the review authority shall be required for all heritage tree removal requests in compliance with Section 15-5007, Public Notice.

d. **Posting.** The Department shall post to the site or tree under consideration a sign indicating the proposed removal and the date, time, and place of the hearing at least ten calendar days before the hearing date.

4. **Final Decision/Timing of Tree Removal.** No tree for which a Tree Removal Permit is required shall be removed until all conditions of the permit have been

satisfied and the decision has become final. In addition, tree(s) approved for removal in conjunction with a development application shall not be removed before the issuance of a Building Permit or unless all of the conditions of approval of the development application are satisfied.

5. **Concurrent Filing.** All tree removal requests associated with a development application shall be filed concurrently.

G. **Appeals.**

1. **Appeals.** Any person aggrieved by a decision of the Review Authority as specified in Section 15-2308-B through F may appeal the decision in compliance with Section 15-5017, Appeals.

2. **Decisions on Appeals.** No decision made in compliance with Section 15-2308-B through F shall be final until all appeal rights have expired. All appeal hearings shall be public hearings subject to Section 15-5017, Appeals.

3. **Posting and Notice.** In addition to the public hearing procedures specified in Section 15-5007, Public Notice, the site or tree under consideration shall also be posted with a sign at least ten calendar days before the hearing date of the appeal. The sign shall state the nature of the appeal under consideration by the appeal body, and the date, time, and place of the hearing.

TABLE 15-2308-G: TREE TYPE AND PERMIT PROCESS SUMMARY

Type of Tree Removal Request	*Protected Tree Types*	*Size Tree Protected*[1]	*Review Authority for Removal Permit*	*Appeal Process*[2]
Tree removal requests on all properties (except RS Districts[3]) not in conjunction with a development application	Any tree except fruit trees[4] and trees of the genus Myrtaceae[5]	None Specified	Director	Planning Commission and then Council
Tree removal requests in RS Districts not in conjunction with a development application	Trees of the species: Quercus (oaks) Cedrus (cedars) Fraxinus (ash) Sequoia (redwoods)	12 inch diameter or 38 inch circumference	Director	Planning Commission and then Council
Tree removal requests on all properties in conjunction with a development application	Any tree except fruit trees and trees of the genus Myrtaceae[5]	12 inch diameter or 38 inch circumference	Director	Planning Commission and then Council
Heritage Tree removal requests in all zoning districts (not in conjunction with a development application)[6]	Any Heritage Tree	None Specified	Planning Commission	Council
Heritage Tree removal requests in all zoning districts (in conjunction with a development application)[6]	Any Heritage Tree	None Specified	Planning Commission or Council, as applicable to the permit application	Council

TABLE 15-2308-G: TREE TYPE AND PERMIT PROCESS SUMMARY				
Type of Tree Removal Request	*Protected Tree Types*	*Size Tree Protected*[1]	*Review Authority for Removal Permit*	*Appeal Process*[2]
Trees required as a condition of a development approval	Any tree required to be retained or planted	None Required	Director	Planning Commission and then Council
Trees within the City public right-of-way and parkway strip	Any tree required to be retained or planted	None Required	Director	Planning Commission and then Council

Notes:

1. Minimum size and greater—measured four feet above grade adjacent to trunk.
2. Appeals shall be filed in writing with the City Clerk within 10 days from the decision of the permit.
3. Developed single-unit residential property in RS Districts or Planned Development.
4. Fruit trees, defined as any tree that has the characteristics of being edible fruit, common to commercial production varieties including stone fruits (e.g., prunes, peaches etc.), citrus (e.g., lemons, oranges), nut varieties (e.g., almonds), English walnut (except for California Black Walnut), Peppers (Schinus), and Olives (Oleaceae), etc. A "fruit tree" shall mean any tree that bears a fruit or nut not produced primarily as seed (e.g., oaks, pines, etc.).
5. Any variety of eucalyptus tree.
6. Includes any development application that requires Planning Commission or Council Approval, except development applications not involving addition of new single-unit dwellings in RS Districts or Planned Development Single-Unit developments (e.g., fence exception or Conditional Use Permit).

H. **Delegation of Functions.** The Director may delegate any or all of the administrative duties authorized by this section to one or more Department or City staff members.

I. **Violation.** In addition to the provisions of Article 63, Enforcement, any person who removes or causes to be removed any Protected Tree in violation of this article shall be required to:

1. Apply for and obtain a Tree Removal Permit and pay a double application fee.
2. Be responsible for property restoration which shall include:
   a. Replacing the tree(s) removed with tree(s) of reasonably equivalent value and largest size feasible to the tree(s) removed per Table 15-2308-E-4;
   b. The number, size, and location of replacement trees shall be determined by the Director after receipt of a report and recommendation by a licensed arborist;
   c. Paying the fees of the licensed arborist, including any fees for the valuation under Subsection 15-2308-E.4.
3. Pay a civil penalty to the City, with the funds placed in the City's tree planting fund, in the amount of $2,500 or the actual monetary value of the tree(s), as determined by

a licensed arborist, whichever is less. The arborist shall use the then-current issue of the "Guide for Plant Appraisal" published by the International Society of Arboriculture. Said funds from the tree planting fund shall be allocated for the planting of new trees or shall be directed to a non-profit organization that specializes in the preservation and/or planting of trees in the city.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 43, eff. 7-27-25).

SEC. 15-2309. IRRIGATION SPECIFICATIONS.

A. **General.** New landscaping shall have an automatic irrigation system designed to provide adequate and efficient coverage of all plant material.

B. **Systems.** Irrigation systems shall comply with the requirements of the California Green Building Standards Code and/or the California Model Water Efficient Landscape Ordinance and/or the California Plumbing Code as may be amended.

C. **Plans.** No plans are required to be submitted as part of this article, but may be required otherwise elsewhere in the Code.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2310. INSTALLATION AND COMPLETION.

A. **Consistency with Approved Plans.** All landscaping shall be installed consistent with approved plans and specifications, in a manner designed to encourage and maintain healthy plant growth.

B. **Timing of Installation.** Required landscaping shall be installed prior to the issuance of a Certificate of Occupancy for the project.

C. **Exception: Assurance of Landscaping Completion.** The Director may permit the required landscaping to be installed within 120 days after the issuance of a Certificate of Occupancy in special circumstances related to weather conditions or plant availability. A surety in the amount equal to 150 percent of the estimated cost of landscaping, including materials and labor, as well as an agreement that the required landscaping will be installed within 120 days, must be filed with the City to assure completion of landscaping installation within such time. The surety may take the form of cash deposit, irrevocable letter of credit or bond; and together with the agreement, would provide for payment to the City of any costs incurred in contracting for completion of the required landscaping.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2311. MAINTENANCE.

A. **General.** All planting and other landscape elements required by this article shall be permanently maintained in good growing condition. Such maintenance shall include, where appropriate, pruning, mowing, weeding, cleaning, fertilizing, and regular watering. Once planted, healthy, thriving trees and shrubs may not be removed without replacement by

similar or better plantings providing a similar impact or function on the site. Plantings which show signs of damage or injury shall be replaced with other plant materials to insure continued compliance with applicable landscaping requirements.

1. **Non-Single-Unit Districts.** Trees may not be trimmed or pruned to reduce the natural height and crown.

B. **Unoccupied.** All landscaping shall be provided and maintained prior to occupancy of the main building or open use other than agriculture.

C. **Public Safety.** Property owners and occupants of lots fronting on any portion of a street shall maintain private trees and landscaping in such condition that the trees or landscaping will not interfere with the public safety and convenience in the use of streets or sidewalks. Such owners and occupants shall maintain such trees so that there is an eight-foot pedestrian clearance from the top of the sidewalk or pathway, and a thirteen-foot vehicular clearance from the top of the curb or the top of the pavement. Street trees and parkways shall be protected and preserved according to Chapter 13, Article 3, Section 305, Tree Preservation.

D. **Retention Basins.** Retention basins shall be maintained free of debris and trash, and all planting shall be maintained in good growing condition. Such maintenance shall include, where appropriate, pruning, mowing, weeding, cleaning, fertilizing, and regular watering. (Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 44, eff. 7-27-25).

ARTICLE 24 PARKING AND LOADING

Sec. 15-2401. Purpose.
Sec. 15-2402. Applicability.
Sec. 15-2403. General Provisions.
Sec. 15-2404. Buffer District.
Sec. 15-2405. Recreational Vehicles, Boats, Trailers, and Portable Storage.
Sec. 15-2406. Inoperable Vehicles.
Sec. 15-2407. Required Parking for Downtown Districts.
Sec. 15-2408. Required Parking for Mixed-Use Districts and CMS District.
Sec. 15-2409. Required Parking, Other Districts.
Sec. 15-2410. Reserved.
Sec. 15-2411. Calculation of Required Spaces.
Sec. 15-2412. Parking Exceptions.
Sec. 15-2413. Parking Reductions.
Sec. 15-2414. Location of Required Parking.
Sec. 15-2415. Parking Availability.
Sec. 15-2416. Parking Area Development Standards.
Sec. 15-2417. Driveways.
Sec. 15-2418. Parking Access.
Sec. 15-2419. Parking Lot Surface Standards.
Sec. 15-2420. Parking Area Lighting.
Sec. 15-2421. Parking Lot Landscaping and Shading.
Sec. 15-2422. Reserved.
Sec. 15-2423. Circulation and Safety.
Sec. 15-2424. Reserved.
Sec. 15-2425. Parking Garages.
Sec. 15-2426. Alternative Parking Area Designs.
Sec. 15-2427. Parking In-Lieu Fee.
Sec. 15-2428. Shopping Cart Collection Areas.
Sec. 15-2429. Bicycle Parking.
Sec. 15-2430. On-Site Loading.

SEC. 15-2401. PURPOSE.

The specific purposes of the parking and loading regulations are to:

A. Minimize design impacts that can result from parking lots, driveways, and drive aisles within parking lots;

B. Offer flexible means of minimizing the amount of area devoted to vehicle parking by allowing reductions in the number of required spaces in transit-served locations, shared parking facilities, and other situations expected to have lower vehicle parking demand;

C. Require that parking areas are designed to reduce potential environmental impacts, including minimizing stormwater runoff and the heat island effect;

D. Ensure that parking is provided for new land uses and alterations to existing uses, to avoid the negative impacts associated with spillover parking into adjacent neighborhoods;

E. Ensure that adequate off-street bicycle parking facilities are provided and promote parking lot designs that offer safe and attractive pedestrian routes;

F. Establish standards and regulations of any specific use occurring outdoors or within an existing, newly constructed, or relocated building to provide well-designed, on-site parking areas; and,

G. Provide loading and delivery facilities in proportion to the needs of allowed uses.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2402. APPLICABILITY.

The requirements of this article apply to the establishment, alteration, expansion, or change in any use or structure, as provided in this section.

A. **New Buildings and Land Uses.** Parking shall be provided according to the provisions of this article.

B. **Building Expansions.** Should a building be expanded, parking shall be provided according to the provisions of this article.

C. **Use Expansions.** Should a use expand without necessarily expanding a building, such as an auto dealership, parking shall be provided according to the provisions of this article.

D. **Change in Use.**

1. When a change in use from one category of use classification to another (i.e., changing from a Commercial Use Classification to a Residential Use Classification as identified in the Use Regulation table of the Base District) creates an increase of 10 percent or more in the number of required on-site parking or loading spaces, on-site parking and loading shall be provided according to the provisions of this article. The number of existing stalls shall be maintained, and additional stalls shall be required only for such addition, enlargement, or change in use. The change in use that creates an increase of 10 percent or more shall be cumulative from the date of adoption of this Code.

2. If the number of existing parking spaces is greater than the requirements for such use, the number of spaces in excess of the prescribed minimum may be counted toward meeting the parking requirements for the addition, enlargement, or change in use.

E. **Reconstruction of Non-Residential Buildings.** Should a building be damaged and/or demolished due to an Act of Nature, a building may be reconstructed and may provide the same number of stalls provided that there is no increase in building floor area.

F. **Alterations that Increase the Number of Dwelling Units.** The creation of additional dwelling units through the alteration of an existing building or construction of an additional structure or structures requires the provision of on-site parking

to serve the new dwelling units. If the number of existing parking spaces is greater than the requirements for the existing units, the number of spaces in excess of the prescribed minimum may be counted toward meeting the parking requirements for the new dwelling units.

G. **Non-Conforming Parking or Loading.** An existing use of land or structure shall not be deemed to be non-conforming solely because of a lack of on-site parking and/or loading facilities required by this article, provided that facilities used for on-site parking and/or loading as of the date of adoption of this Code are not reduced in number to less than what this article requires.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 27, eff. 1-18-19).

SEC. 15-2403. GENERAL PROVISIONS.

A. **Timing of Parking Requirements.** On-site parking facilities required by this article shall be constructed or installed prior to the issuance of a Certificate of Occupancy for the uses that they serve.

B. **Existing Parking and Loading to be Maintained.** No existing parking or loading serving any use may be reduced in amount or changed in design, location, or maintenance below the requirements for such use, unless equivalent substitute facilities are provided.

C. **Advertising on Vehicles.** Vehicles shall not be parked solely for the purpose of advertising. Advertising shall comply with Article 26, Signs.

D. **Maintenance.** Parking lots and pedestrian areas, including landscaped areas, driveways, and loading areas, shall be maintained free of refuse, debris, or other accumulated matter and shall be kept in good repair at all times.

E. **Vehicles for Sale.** Vehicle sales may occur under the following parameters. All areas shall be paved.

1. On lots approved for vehicle sales per Section 15-2709, Automobile and Motorcycle Retail Sales and Leasing.

2. Companies may sell excess vehicles on their property. No more than one excess vehicle may be sold on the lot at a time.

3. Personal vehicles parked for the purpose of being sold so long as it is for non-commercial purposes.

F. **Temporary Parking Lots.** For Temporary Parking Lots, refer to Section 15-2760-B, Temporary Uses Requiring a Temporary Use Permit.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2404. BUFFER DISTRICT.

A. Off-street parking of the following specified classes of vehicles shall be permitted in the Buffer District:

1. Trucks of 1½ ton or more capacity;
2. Trucks of 1¼ ton or more capacity with trailer attached;
3. Buses;
4. Trailers, if screened; and
5. Any two-axle or three-axle truck tractor.

B. **Pavement.** The parcel shall provide a 100 feet shake-off area prior to reaching the street to minimize dirt, mud, etc. from being carried onto street.

C. Vehicles described above shall be limited to non-commercial uses however the resident of the property may store their own vehicles on-site. Space may not be leased to commercial haulers.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2405. RECREATIONAL VEHICLES, BOATS, TRAILERS, AND PORTABLE STORAGE.

Recreational vehicles, fifth wheel trailers, boats, trailers, etc., collectively referred to as Recreation Vehicles in this section, may be permitted per the provisions below.

A. **Habitation.** Recreational Vehicles may not be used for sleeping or habitation, unless permitted per Subsections E, F, and G below.

B. **Single-Unit Districts.**

1. **Parking and Screening.** Recreational Vehicles shall be parked on a non-permeable surface in a fenced area, or in the rear yard or side yard, screened by a wall or solid fence not less than five feet in height.
2. **Location.** Recreational Vehicles shall not project beyond the front limits of the home.
3. **Exceptions.** A Recreational Vehicle may be parked in the driveway for purposes of loading and unloading for up to 72 hours in any month and shall not encroach into the public right-of-way. For purposes of this article, parking for up to 72 hours includes being parked in the front yard, the driveway, and/or the street.
4. **Commercial rated vehicles not commonly found in residential areas are prohibited.**

C. **Multi-Unit Residential Districts.**

1. Recreational vehicles may not be parked and/or stored in multi-unit districts, unless stored in a fully enclosed garage with a non-permeable surface.

2. Trailers used for loading and unloading, may be parked temporarily and strictly for moving purposes and shall not encroach into the public right-of-way or landscape area.

3. Construction-related trailers shall be removed upon completion of the construction or repairs.

D. **Moving Trailers/Portable Storage/ISO Containers in Residential and Mixed-Use Districts.**

1. Portable storage units may be parked on a driveway in single-unit districts, or a parking space in multi-unit and mixed-use districts for the purposes of loading and unloading.

2. Units may not be on a site for more than 96 hours in any month.

3. Units shall not encroach into the public right-of-way (i.e., sidewalk), nor be placed on the street or front lawn, unless the lot does not have a driveway, then it may be placed in the front yard.

E. **Recreational Vehicles at Fraternal and/or Service Organizations.** Overnight parking may be permitted at Fraternal or Service Organizations for their members. Areas used for this purpose shall be screened from the public right-of-way with a six-foot block wall, hedge, or building. Areas used for this purpose shall be located outside of required yard, and/or landscape areas. No individual Recreational Vehicle may park for more than 48 hours in any month on a site and shall not encroach into the public right-of-way. Outdoor camping is not permitted. Areas used for this purpose are not required to be paved.

F. **Recreational Vehicles in Commercial Districts.** Overnight parking may be permitted in Commercial Districts. No individual Recreational Vehicle may park for more than 12 hours in any month on a site and shall not encroach into the public right-of-way. Areas used for this purpose shall be located outside of required yard, and/or landscape areas. Outdoor camping is not permitted. Areas shall be paved.

G. **Recreational Vehicles at Hospitals.** Hospitals may provide Recreational Vehicle parking areas for visitors, provided that the hospital provides utility connection areas. A Recreational Vehicle may park so long as an acquaintance is under medical care of the hospital. Areas shall be paved.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 45, eff. 7-27-25).

SEC. 15-2406. INOPERABLE VEHICLES.

A. **Residential Districts.** Inoperable vehicles in residential districts shall not be visible from the public right-of-way. Inoperable vehicles may be stored on non-permeable surfaces in residential garages, or rear or side yards. Inoperable vehicles shall be limited to one per lot.

B. **Non-Residential Districts.** In non-residential districts inoperable vehicles shall be screened from public streets. If staging for repair, vehicles may only be visible for up to eight hours prior to being moved into the repair garage. Inoperable vehicles may not be stored in public view overnight unless the vehicle was transported to the site after business hours. (Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2407. REQUIRED PARKING FOR DOWNTOWN DISTRICTS.

A. The required number of on-site parking spaces are stated in Table 15-2407, Required Parking for Downtown Districts. The parking requirement for any use not listed in Table 15-2407 shall be the same as required for the land use in other districts as stated in Table 15-2409, Required Parking, Other Districts.

TABLE 15-2407: REQUIRED ON-SITE PARKING SPACES, DOWNTOWN DISTRICTS

Use	*Required Parking Spaces*
Residential	
Studio, and one-bedroom units	0.5 space per unit
Two bedrooms	0.5 space per unit
Three or more bedrooms	0.5 space per unit
Non-Residential	
Office	None Required
Retail	None Required
Restaurant	None Required
All other Non-Residential uses	None Required

(Added Ord. 2016-43, § 8, eff. 12-9-16).

SEC. 15-2408. REQUIRED PARKING FOR MIXED-USE DISTRICTS AND CMS DISTRICT.

The required numbers of on-site parking spaces are stated in Table 15-2408, Required Parking for Mixed-Use Districts and CMS District. The parking requirement for any use not listed in Table 15-2408 shall be the same as required for the land use in other districts as stated in Table 15-2409, Required Parking, Other Districts.

TABLE 15-2408: REQUIRED ON-SITE PARKING SPACES, MIXED-USE DISTRICTS AND CMS DISTRICT

Use	*Required Parking Spaces*	
Residential		
Studio, and one-bedroom units	.75 space per unit	Required parking shall be covered. One additional guest parking space must be provided for every 4 units for projects greater than 4 units.
Two bedrooms	1 space per unit	
Three or more bedrooms	1.5 spaces per unit	
Non-Residential		
Office	1 space per 600 square feet	
Retail	1 space per 600 square feet	
Restaurant	1 space per 600 square feet	
All other Commercial uses	1 space per 600 square feet	

TABLE 15-2408: REQUIRED ON-SITE PARKING SPACES, MIXED-USE DISTRICTS AND CMS DISTRICT	
Use	*Required Parking Spaces*
On-street parking along a lot's corresponding frontage lines shall be counted toward the parking requirement for mixed-use projects.	

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2409. REQUIRED PARKING, OTHER DISTRICTS.

The required numbers of on-site parking spaces are stated in Table 15-2409, Required On-Site Parking Spaces, Other Districts. The parking requirement for any use not listed in Table 15-2409 shall be determined by the Director based upon the requirements for the most similar comparable use, the particular characteristics of the proposed use, and any other relevant data regarding parking demand.

TABLE 15-2409: REQUIRED ON-SITE PARKING SPACES, OTHER DISTRICTS		
Use Classification	*Required Parking Spaces*	
Residential Use Classifications		
Single-Unit Residential constructed prior to the adoption date of this Code	1 space per dwelling unit	Must be covered.
Single-Unit Residential, up to two bedrooms	1 space per dwelling unit	Must be within a garage.
Single-Unit Residential, three or more bedrooms	1 space per dwelling unit	Must be within a garage.
Duplex	1 space per dwelling unit	Must be within a garage.
Second/Accessory Dwelling Units (ADUs)	Refer to Section 15-2754, Second/Accessory Dwelling Units (ADUs).	
Affordable Housing Developments (Moderate Income and Below, Single-Unit or Multi-Unit)		
Studio, one- or two-bedroom	.75 space per unit	
Three or more bedrooms	1.5 spaces per unit	
Multi-Unit Residential (2 or more units)		
Studio	1 space per unit	One covered space shall be designated for each unit. One additional uncovered guest parking space must be provided for every 4 units.
One- or two-bedroom	1 space per unit	One covered space shall be designated for each unit. One additional uncovered guest parking space must be provided for every 2 units.
Three or more bedrooms	1.5 spaces per unit	
Small Family Day Care	None in addition to what is required for the residential use.	
Large Family Day Care	1 per employee plus an area for loading and unloading children, on or off-site. Required spaces and the residential driveway for the primary residential use may be counted toward meeting these requirements.	
Elderly and Long-Term Care	1 for every 7 residents plus 1 for each live-in caregiver. Facilities serving more than 15 residents shall also provide 1 space for each caregiver, employee, and doctor on-site at any one time.	
Group Residential	1 spaces for the owner-manager plus 1 for every 5 beds and 1 for each non-resident employee.	
Residential Care, Limited	None in addition to what is required for the residential use.	
Residential Care, General	2 spaces for the owner-manager plus 1 for every 5 beds and 1 for each non-resident employee.	
Residential Care, Senior	1 for every 7 residents plus 1 for each live-in caregiver. Facilities serving more than 15 residents shall also provide 1 space for each caregiver, employee, and doctor on-site at any one time.	

TABLE 15-2409: REQUIRED ON-SITE PARKING SPACES, OTHER DISTRICTS	
Use Classification	*Required Parking Spaces*
Single Room Occupancy	0.5 space per unit.
Public and Semi-Public Use Classifications	
Colleges and Trade Schools, Public or Private	1 per 5 members of the school population (including students, faculty, and staff) based on maximum enrollment.
Community and Religious Assembly	1 for each 5 permanent seats in main assembly area, or 1 for every 50 sq. ft. of assembly area for group activities or where temporary or moveable seats are provided, whichever is greater. For auxiliary classrooms, there shall be 1 parking space per classroom.
Cultural Institutions	Stage theaters and auditoriums: 1 for each 6 permanent seats in main assembly area, or 1 for every 60 sq. ft. of assembly area where temporary or moveable seats are provided, whichever is greater. Galleries, Libraries, and Museums: 1 for every 1,000 sq. ft. of floor area. Other establishments: determined by the Director.
Day Care Center	1 per employee plus 2 loading spaces.
Emergency Shelter	1 per 500 sq. ft. of floor area.
Government Offices	1 per 500 sq. ft. of floor area.
Hospitals, Rehabilitation Centers	1 per 1.5 beds; plus 1 per 300 sq. ft. of area used for office, clinics, testing, research, administration, and similar activities associated with the principal use.
Clinics or Urgent Care	1 per exam room; plus 1 per 300 sq. ft. of area used for office, clinics, testing, research, administration, and similar activities associated with the principal use.
Instructional Services	1 per 200 sq. ft. of public or instruction area.
Schools, Public or Private	Elementary and Middle Schools: 1 per classroom, plus 1 per 300 sq. ft. of office area. High Schools: 5 per classroom.
Social Service Facilities	1 per 350 sq. ft. of floor area.
Commercial Use Classifications	
Large Commercial Shopping Center (greater than 300,000 square feet of floor area).	1 per 350 sq. ft. or the total required for each individual use, whichever is less.
Adult-Oriented Business	1 per 300 sq. ft. of floor area.
Animal Care, Sales and Services	
Grooming and Pet Stores	1 per 500 sq. ft. of floor area.
Kennels	1 per employee plus three spaces for loading and unloading animals on-site.
Veterinary Services	1 per 350 sq. ft. of floor area.
Artist's Studio	1 per 1,000 sq. ft. of floor area.
Automobile/Vehicle Sales and Services	
Automobile/Vehicle Rentals	1 per 250 sq. ft. of office area in addition to spaces for all vehicles for rent.
Automobile/Vehicle, and Motorcycle Sales and Leasing	1 per 2,500 sq. ft. of lot area. Any accessory auto repair: 2 per service bay.
Automobile/Vehicle Repair, Major or Minor	1 space plus 1.5 per service bay. 1 per 250 sq. ft. of any retail or office on site.
Automobile/Vehicle Washing, Automated	1 per 250 sq. ft. of any indoor sales, office, or lounge areas.
Automobile/Vehicle Washing, Detail	.50 per service bay plus 1 per 250 sq. ft. of any indoor sales, office, or lounge areas.
Service Station	1.5 per service bay, if service bays are included on site. 1 per 250 sq. ft. of any retail or office on site.
Boat/Recreational Vehicle Sales and Leasing	1 per 6,000 sq. ft. of lot area. Any accessory auto repair: 1.5 per service bay.
Towing and Impound	1 per 500 sq. ft. of building area plus 1 per 0.5 acre of gross outdoor use area.
Banks and Financial Institutions	1 per 400 sq. ft. of floor area.

TABLE 15-2409: REQUIRED ON-SITE PARKING SPACES, OTHER DISTRICTS	
Use Classification	*Required Parking Spaces*
Banquet Hall	1 for each 5 permanent seats in main assembly area, or 1 for every 50 sq. ft. of assembly area for group activities or where temporary or moveable seats are provided, whichever is greater.
Business Services	1 per 400 sq. ft. of floor area.
Entertainment and Recreation	Establishments with seating: 1 for each 4 fixed seats, or 1 for every 50 sq. ft. of seating area where temporary or moveable seats are provided, whichever is greater. Athletic Clubs/Fitness Centers: 1 per 200 sq. ft. of main floor area. Bowling Alleys: 1.5 per lane. Cinema/Theaters: 1 for each 6 permanent seats in main assembly area, or 1 for every 60 sq. ft. of assembly area where temporary or moveable seats are provided, whichever is greater. Game Courts (e.g., tennis): 1.5 per court. Golf Courses: 3 per hole (Additional parking may be required for ancillary uses such as Banquet Rooms) Golf Driving Range/Putting Greens: .75 per station/hole. Parks: 1 per 7,500 sq. ft. of active recreational area (pocket parks are exempt from providing parking). Skating Rinks: 1 per 150 sq. ft. of gross floor area. Swimming Pools: 1 per 200 square feet of pool area plus 1 per 500 feet of area related to the pool. Other Entertainment and Recreation uses: 1 per every 3 persons permitted to occupy the floor space of the facility.
Eating and Drinking Establishments	
Convenience	1 per 125 sq. ft. of floor area.
Coffee Shops/Cafes	1 per 150 sq. ft. of floor area; For Outdoor Dining, refer to Section 15-2744, Outdoor Dining and Patio Areas.
Restaurants Take-Out Only	1 per 250 sq. ft. of floor area.
Restaurants, Full Service	1 per 150 sq. ft. of floor area; For Outdoor Dining, refer to Section 15-2744, Outdoor Dining and Patio Areas.
Bars/Nightclubs/Lounges	1 per 100 sq. ft. of floor area.
Food and Beverage Sales	
Farmer's Markets	Refer to Section 15-2730, Farmer's Markets.
General Market	1 per 450 sq. ft. of floor area.
Healthy Food Grocer	1 per 1,000 sq. ft. of floor area.
Liquor Store	1 per 450 sq. ft. of floor area.
Food Preparation	1 per 1,500 sq. ft. of use area plus 1 per 300 sq. ft. of office area.
Funeral Parlors and Internment Services	1 for each 6 permanent seats in assembly areas or 1 for every 60 sq. ft. of assembly area where temporary or moveable seats are provided, whichever is greater, plus 1 per 250 sq. ft. of office area.
Lodging	
Bed and Breakfast	1 per room for rent plus 1 space adjacent to registration office.
Hotels and Motels	1 per each sleeping unit, plus 2 spaces adjacent to registration office. Meeting/banquet rooms or restaurants under 1,500 sq. ft. are not required to provide additional parking when located within a hotel. Additional parking shall be required for ancillary uses, such as Meeting Rooms, Banquet Centers, etc. that exceed 1,500 sq. ft.
Live-Work	1 per unit or 1 for every 1,000 sq. ft. of floor area, whichever is greater.
Maintenance and Repair Services Offices	1 per 600 sq. ft. of floor area, plus one space for each fleet vehicle.
Business and Professional	1 per 400 sq. ft. of floor area up to 100,000 sq. ft. 1 per 350 sq. ft. over 100,000 sq. ft.
Medical and Dental	1 per 275 sq. ft. of floor area.
Walk-In Clientele	1 per 300 sq. ft. of floor area.
Personal Services	1 per 400 sq. ft. of floor area.
Retail Sales	

TABLE 15-2409: REQUIRED ON-SITE PARKING SPACES, OTHER DISTRICTS	
Use Classification	*Required Parking Spaces*
Building Materials and Services	1 per 650 sq. ft. of floor area; plus 1 per 2,000 sq. ft. of outdoor display area.
Nurseries and Garden Centers	1 per 500 sq. ft. of floor area; plus 1 per 2,000 sq. ft. of outdoor display area.
All Other Retail Sales Subclassifications	1 per 450 sq. ft. of floor area. 1 per 750 sq. ft. of floor area for appliance and furniture stores.
Swap Meet/Flea Market	1 per vendor, plus 5 per every 0.5 acre of gross outdoor use area.
Employment Use Classifications	
Construction and Material Yards	1 per 2,500 sq. ft. up to 10,000 sq. ft. plus 1 per 5,000 sq. ft. over 10,000 sq. ft.
Custom Manufacturing	1 per 1,500 sq. ft. plus 1 per 300 sq. ft. of office.
Limited Industrial	1 per 1,500 sq. ft. plus 1 per 300 sq. ft. of office.
General Industrial	1 per 1,500 sq. ft. plus 1 per 300 sq. ft. of office.
Intensive Industrial	1 per 1,500 sq. ft. plus 1 per 300 sq. ft. of office.
Recycling Facility	
CRV Recycling Centers	See Section 15-2750, Recycling Facilities.
Recycling Processing Facility	1 for each 2 employees on the maximum work shift, or 1 per 1,000 sq. ft. of floor area, whichever is greater.
Research and Development	1 per 600 sq. ft. of manufacturing and assembly; 1 per 300 sq. ft. of office; 1 per 1,500 sq. ft. of warehousing; and 1 per 800 sq. ft. of laboratory.
Salvage and Wrecking	1 per 500 sq. ft. of building area plus 1 per 0.5 acre of gross outdoor use area.
Warehousing, Storage, and Distribution	
Chemical and Mineral Storage	1 per 300 sq. ft. of office area.
Warehousing	1 per 2,000 sq. ft. of area up to 10,000 sq. ft.; 1 per 5,000 sq. ft. over 10,000 sq. ft., plus 1 per 300 sq. ft. of office.
Personal Storage	1 space per 100 storage units, plus 1 space per 300 sq. ft. of office area. A minimum of 3 spaces shall be provided, plus one enclosed space per caretaker's residence should one be proposed.
Wholesaling and Distribution	1 per 1,500 sq. ft. of use area up to 10,000 sq. ft., 1 per 5,000 sq. ft. over 10,000 sq. ft., plus 1 per 300 sq. ft. of office.
Transportation, Communication, and Utilities Use Classifications	
Light Fleet-Based Services	1 per 300 sq. ft. of office floor area, plus one space for each fleet vehicle.
Utilities, Major	1 for each employee on the largest shift plus 1 for each vehicle used in connection with the use. Minimum of 2.
Utilities, Minor	None.
Transportation Facilities/Bus Depots/Bus Terminal	1 per bus bay, plus 1 per 250 sq. ft. of building/waiting area.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 28, eff. 1-18-19; Am. Ord. 2025-024, § 46, eff. 7-27-25).

SEC. 15-2410. RESERVED.

SEC. 15-2411. CALCULATION OF REQUIRED SPACES.

The number of required parking spaces shall be calculated according to the following rules:

A. **Fractions.** If the calculation of required parking or loading spaces results in the requirement of a fractional space, such fraction, if the fraction is less than one-half, it shall result in no additional spaces; if one-half or greater, it shall be considered one additional space.

B. **Floor Area.** Where an on-site parking or loading requirement is stated as a ratio of parking spaces to floor area, the floor area is assumed to be gross floor area, unless otherwise stated.

C. **Employees.** Where an on-site parking or loading requirement is stated as a ratio of parking spaces to employees, the number of employees shall be based on the largest shift that occurs in a typical week.

D. **Bedrooms.** Where an on-site parking requirement is stated as a ratio of parking spaces to bedrooms, any rooms having the potential of being a bedroom or meeting the standards of the California Building Code as a sleeping room shall be counted as a bedroom. Offices or other rooms that have the ability of being converted into bedrooms shall be considered bedrooms for parking purposes.

E. **Students or Clients.** Where a parking or loading requirement is stated as a ratio of parking spaces to students (including children in day care), the number is assumed to be the number of students or clients at the State-certified capacity or at Building Code Occupancy where no State-certification is required.

F. **Seats.** Where parking requirements are stated as a ratio of parking spaces to seats, each 24 inches of bench-type seating at maximum seating capacity is counted as one seat.

G. **Sites with Multiple Uses.** If more than one use is located on a site, the number of required on-site parking spaces and loading spaces shall be equal to the sum of the requirements calculated separately for each use unless a reduction is approved pursuant to Section 15-2413, Parking Reductions.

H. **Queuing Area.** The number of parking spaces required by Tables 15-2408 and 15-2409 does not include queuing space that may be required for vehicles and customers waiting in vehicles for service pump stations, drive-throughs, auto service bays, or similar uses.

I. **Gas Stations.** Parking spaces providing for fueling stations shall not count towards meeting parking standards per Tables 15-2408 and 15-2409.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2412. PARKING EXCEPTIONS.

A. **Buildings Constructed Prior to February 13, 1954.** The parking area or space requirements imposed by the provisions of this Code shall not apply upon a Change of Occupancy, as defined by the Building Code, or the building code in affect at the time of the permit, for any building or structure which was constructed prior to February 13, 1954.

B. 30-Year-Old or Older Buildings. The parking area or space requirements imposed by the provisions of this Code shall not apply upon a change of use for any building or structure which is older than 30 years old, provided:

1. The parking area or space is not reduced; and

2. The new use does not involve:
   a. Convenience Stores that are 3,000 square feet or less with off-site alcohol sales;
   b. Schools (K-12; private or public);
   c. Drive-through restaurants;
   d. Banquet Halls and Religious Assembly Facilities with direct access to local street(s); or
   e. Auto-related uses.

C. **Building Expansions.** Buildings constructed prior to Subsections A and B above may be expanded. Parking for the expanded area shall be provided per Tables 15-2408 and 15-2409. Buildings constructed prior to this date may not be altered when it would result in additional dwelling units without providing parking for the additional dwellings.

D. **Small Commercial Uses.** The following commercial uses are not required to provide on-site parking when they contain less than 1,000 square feet of floor area: Retail Sales (except off-site alcohol sales), Personal Services, Eating and Drinking Establishments, Food and Beverage Retail Sales, Offices: Walk-in Clientele, and Banks and Financial Institutions. However, when two or more such establishments are located on a single lot or a shopping center, their floor areas shall be aggregated with all other establishments located on the lot in order to determine required parking.

E. Streamlined Development as defined in Section 65913.4 of the California Government Code shall not be required to provide on-site parking.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, § 20, eff. 6-11-18; Am. Ord. 2018-66, § 29, eff. 1-18-19).

SEC. 15-2413. PARKING REDUCTIONS.

The number of on-site parking spaces required by Sections 15-2408 and 15-2409, may be reduced as follows:

A. **Affordable Housing Developments.** See 15-2205, Affordable Housing Concessions and Incentives.

B. **Transit Accessibility.** For any land use except residential single-unit, duplex, and triplex development, if any portion of the lot is located within ¼ mile of a transit stop with a 15 minute or more frequent service during the hours of 7 a.m. to 9 a.m. and 5 p.m. and 7 p.m., the number of required parking spaces may be reduced by 30 percent of the normally required number of spaces.

C. **Shared Parking.** Where a shared parking facility serving more than one use will be provided, the total number of required parking spaces may be reduced up to 50 percent at the discretion of the Review Authority, if all of the following findings are made:
   1. The peak hours of uses will not overlap or coincide to the degree that peak demand for parking spaces from all uses will be greater than the total supply of spaces;

2. The adequacy of proposed shared parking provided will equal or exceed the level that can be expected if parking for each use were provided separately;

3. A parking demand study prepared by an independent traffic engineering professional approved by the City supports the proposed reduction; and,

4. When a shared parking facility serves more than one property, a parking agreement shall be prepared consistent with the provisions of Section 15-2414-D, Off-Site Parking Facilities for Non-Residential Uses.

D. **Other Parking Reductions.** Required parking for any use may be reduced up to 20 percent through Review Authority approval of a Planned Development Permit, however the 20 percent reduction may not be made in addition to any reductions for A) Shared Parking, or B) Transit Accessibility.

1. **Criteria for Approval.** The Review Authority may only approve a Planned Development Permit for reduced parking if it finds that:

a. The site is fully developed and it would be infeasible or impractical to provide additional parking;

b. Special conditions—including, but not limited to, the nature of the proposed operation; proximity to frequent transit service; transportation characteristics of persons residing, working, or visiting the site;

c. The use will adequately be served by the proposed on-site parking; and

d. Parking demand generated by the project will not exceed the capacity of or have a detrimental impact on the supply of on-street parking in the surrounding area.

2. **Parking Demand Study.** In order to evaluate a proposed project's compliance with the above criteria, a parking demand study shall be prepared by an independent traffic engineering professional approved by the City that substantiates the basis for granting a reduced number of spaces and includes any of the following information:

a. Total square footage of all uses within existing and proposed development and the square footage devoted to each type of use.

b. A survey of existing accessibility via a defined pedestrian path (i.e., sidewalk) to on-street parking within 350 feet of the project site.

c. Parking requirements for the net change in square footage and/or change in use, based on the requirements of Sections 15-2408 and 15-2409.

d. Estimated net change in parking demand between existing and proposed development, using any available existing parking generation studies from the Institute for Transportation Engineers (ITE) or other sources. If appropriate parking demand studies are not available, the City may require the applicant to conduct a parking demand survey of a development similar to the proposed project.

e. Comparison of proposed parking supply with parking requirements and net change in parking demand.

f. A shared parking analysis, as appropriate.

g. A description of possible Transportation Demand Management measures, such as preferential carpool spaces; telecommuting or staggered work shifts; provision of transit passes or other transit incentives for residents, employees, and/or students; incorporation of spaces for car share vehicles, bicycles, or other measures that could result in reduced parking demand.

h. Other information as required by the City.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, § 21, eff. 6-11-18).

SEC. 15-2414. LOCATION OF REQUIRED PARKING.

A. **Located on Same Parcel.** Required parking shall be located on the same parcel as the uses served, unless otherwise provided by this article.

B. **Front and Street-Side Setbacks.** No parking spaces shall be located within the front and street side setback areas. In single-unit districts it is appropriate to park vehicles on driveways, however this parking shall not count towards meeting the required parking.

C. **Residential Districts.**

1. **Single-Unit Dwellings, Duplexes, Triplexes, and Second Units.** Required parking for a Single-Unit Dwelling, Duplex, Triplexes, or Second Units shall be located on the same lot as the dwelling(s) served. Parking shall not be located within required setbacks with the exception of the rear yard. Tandem parking may be permitted if authorized by this article.

2. **Other Residential Uses.** Required parking for residential uses other than Single-Unit Dwellings, Duplexes, and Triplexes shall be on the same lot as the dwelling or use they serve or in an off-site facility as provided in Subsection D. Parking shall not be located within a required front or street-facing side yard.

D. **Off-Site Parking Facilities for Non-Residential Uses.** Parking facilities for uses other than residential uses (not including mixed-use projects), may be provided off-site with approval of a Conditional Use Permit if:

1. The off-street parking is proposed in a district that permits the proposed use that the parking is serving. A parcel may not house parking for a use that is not permitted on the site;

2. The parking site is located within 400 feet of the use;

3. The site is along an improved pedestrian route that connects to the principal entrance containing the use(s) for which the parking is required;

4. On the same side of the street, across an alley, or across a local street; and

5. There is a written agreement between the landowner(s) and the City in the form of a covenant guaranteeing among the landowner(s) for access to and use of the parking facility and that the spaces will be maintained and reserved for the uses served for as long as such uses are in operation.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 47, eff. 7-27-25).

SEC. 15-2415. PARKING AVAILABILITY.

A. **Accessible Parking.** Where parking is provided for the public as clients, guests, or employees, it shall include parking accessible to persons with disabilities in accordance with the standards in Chapter 71, Site Development Requirements for Handicapped Accessibility of Title 24 of the California Code of Regulations.

B. **Parking to be Unrestricted.**

1. Parking required by this article shall be available to the public without charge. A fee for parking may only be charged for spaces that exceed the minimum requirements of this article.

2. **Residential Parking.** Where this article requires communal parking areas in residential areas, said parking spaces shall not be restricted to individual units.

C. **Access to Adjacent Sites.** Applicants are encouraged to provide shared vehicle and pedestrian access between adjacent properties for convenience, safety, and efficient circulation. A joint access covenant shall be required.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2416. PARKING AREA DEVELOPMENT STANDARDS.

All parking areas except those used exclusively for Stacked Parking, shall be designed and developed consistent with the following standards.

A. **Automated Parking Garages.** Permitted in any district.

B. **Electric Vehicle (EV) Parking.**

1. **Residential Districts.** Per the California Building Code.

2. **Office and Commercial Districts.**

a. For Parking Lots with Less than 250 Spaces. Refer to the California Building Code.

b. For Parking Lots with 250 Spaces or More. Per the California Building Code or the following, whichever shall provide the greater amount of EV spaces.

i. There shall be one vehicle charging station for every 250 spaces.

ii. At least one space shall be 15 feet in width.

iii. Signage shall clearly state that spaces are to be used for actively charging vehicles only.

C. **Motorcycle Parking.** Motorcycle parking may substitute for up to five percent of required automobile parking. Each motorcycle space must be at least four feet wide and seven feet deep.

D. **Tandem Parking.** Tandem parking may be permitted to satisfy the off-street parking requirement in accordance with the following:

1. No more than two vehicles shall be placed one behind the other;
2. Both spaces shall be assigned to a single dwelling unit;
3. Both spaces shall be assigned as employee only parking for a non-residential establishment. Tandem parking under this scenario shall be for the same establishment;
4. Tandem parking to meet required parking for a multi-unit development shall be located within an enclosed structure or a parking structure and the number of tandem parking spaces shall not exceed 50 percent of the total number of spaces;
5. Tandem parking shall not be used to satisfy the parking requirement for guest parking; and,
6. Tandem parking to meet required parking for non-residential uses may be used for employee parking and the number of tandem parking spaces shall not exceed 25 percent of the total number of spaces.

E. **Stacked Parking.** Stacked or valet parking is allowed for non-residential uses if an attendant is present to move vehicles. If stacked parking managed by an attendant is used for required parking spaces, the property owner shall enter into an agreement in the form of a covenant with the City ensuring that an attendant will always be present when the lot is in operation. Stacked parking shall not account for more than 50 percent of the required parking.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 48, eff. 7-27-25).

SEC. 15-2417. DRIVEWAYS.

Driveways providing site access shall be from an improved street, alley, or other public and/or private right-of-way, and shall be designed, constructed, and properly maintained per the standards below.

A. **Number of Driveways.**

1. Access to Major Streets shall be spaced to provide for reasonable access to properties while maximizing traffic safety and traffic flow. Emphasis should be placed on maximizing on-site reciprocal access and minimizing the number of street access points.
2. Access spacing and control requirements shall be determined by the City Engineer.

B. **Distance from Street Corners.** As determined by the City Engineer.

C. **Driveway Widths and Lengths.**

1. All Driveways. If designated as a Fire Lane, the minimum width shall be 20 feet, unless a greater width is required by the Fire Chief.

2. Residential Driveway Width. As determined by the City Engineer and the Fire Chief.

3. Residential Driveway Length. Driveways providing direct access from a public street to a garage or carport shall be at least 18 feet in depth.

4. Commercial and Industrial Driveway Width. As determined by the City Engineer and the Fire Chief.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2418. PARKING ACCESS.

A. Whenever possible, new Commercial and Office development shall provide shared vehicle and pedestrian access to adjacent non-residential properties for convenience, safety, and efficient circulation. A joint access agreement in the form of a covenant shall be recorded ensuring that access will be maintained. The following exceptions shall apply:

1. If either site is developed and there is no feasible location to gain access, the Director may waive this condition, however the removal of excess parking may not be considered a barrier to gaining access.

2. Shared access shall not be required for development in areas with a highly interconnected street grid, short blocks (less than 500 feet on average), and a complete sidewalk network.

B. **Forward Entry.** Parking lots shall be provided with suitable maneuvering room so that all vehicles therein may enter an abutting street in a forward direction.

C. **Distance from Driveways on Local Streets.** Parking spaces shall not be located within 20 feet of an access driveway, measured from the property line.

D. **Distance from Driveways on Major Streets.** Parking spaces and drive aisles shall be configured in such a way as to promote smooth flow of traffic onto the site from adjacent streets. The length of driveways or "throat length" shall be designed to prevent vehicles from backing into the flow of traffic on the public street or causing unsafe conflicts with on-site circulation. Entrance designs shall be subject to approval by the City Engineer.

E. **Commercial Developments that Exceed 10 Acres.** Drive entrances to centers that are 10 acres or larger shall generally provide a driveway length of 100 feet prior to the first parking stall.

F. **Alleys.** For Non-Residential access, parking spaces shall provide a backup area of 27 feet. For Residential Districts, refer to Section 15-2004, Accessory Buildings and Structures.

G. **Size of Parking Spaces and Maneuvering Aisles.** Parking spaces and maneuvering aisles shall meet the minimum dimensions as may be established by the Public Works Director.

H. **Parking Spaces Abutting a Wall or Fence.** Each parking space adjoining a wall, fence, column, or other obstruction higher than 0.5 feet shall be increased by one foot on each obstructed side. At the discretion of the Review Authority, the increased width may not be required if the obstruction is located within the front 4.5 feet of the stall, leaving the remainder of the stall unobstructed, and the obstruction is a column with a width of 6 inches or less.

I. **Minimum Dimensions for Residential Garages and Carports.** Garages and carports serving residential uses shall be constructed to meet the following minimum inside dimensions.

1. A single car garage or carport shall have a minimum inside dimension of 10 feet in width by 20 feet in length.
2. A two-car garage or carport shall have a minimum inside dimension of 20 feet in width by 20 feet in length.
3. A garage or carport containing three or more spaces shall have a minimum inside dimension of nine feet in width by 19 feet in length per space.
4. The vertical clearance for garage or carport parking spaces shall not be less than seven feet six inches.
5. Stairs may encroach in the parking area of a garage provided that the front end of the average automobile can fit under the stair projection. The bottom of the stairwell (including exterior finish) should be a minimum of five feet above the garage floor.
6. For the purpose of determining the existing number of garage spaces for an existing dwelling unit the following dimensions shall apply:
    a. An existing garage with minimum interior dimensions of 8.5 feet in width and 18 feet in length shall qualify as one existing enclosed parking space.
    b. An existing garage with minimum interior dimensions of 17 feet in width and 18 feet in length shall qualify as two existing enclosed parking spaces.
    c. If the minimum interior dimensions of an existing garage parking space exceed the minimum dimensions in this subsection, the existing enclosed space dimensions shall be maintained.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 30, eff. 1-18-19).

SEC. 15-2419. PARKING LOT SURFACE STANDARDS.

A. **Parking Lot Striping.** All parking stalls shall be clearly outlined with striping, and all aisles, approach lanes, and turning areas shall be clearly marked with directional arrows and lines as necessary to provide for safe traffic movement.

B. **Wheel Stops.** Concrete bumper guards or wheel stops shall be provided for all unenclosed parking spaces on a site with four or more unenclosed parking spaces. A six-inch-high concrete curb surrounding a landscape area may be used as a wheel stop, provided that the overhang will not damage or interfere with plant growth or its irrigation. A concrete sidewalk may be used as a wheel stop if the overhang will not reduce the minimum required walkway width.

C. **Surfacing.** All parking areas shall be graded, paved, and improved and all sites shall be properly drained and subject to the approval of the City Engineer. No unpaved area shall be used for parking unless used as Temporary Parking per Section 15-2760.

1. **Cross-Grades.** Cross-grades shall be designed for slower stormwater flow and to direct stormwater toward landscaping, bio-retention areas, or other water collection/ treatment areas.

2. **Landscaping Alternative.** Up to three feet of the front of a parking space as measured from a line parallel to the direction of the bumper of a vehicle using the space may be landscaped with ground cover plants instead of paving.

3. **Permeable Paving.** Permeable paving may be used in all overflow parking areas and emergency access-only drives if approved by the Public Works Director.

4. **Turf Grids/Grassy Pavers.** Turf grids/grassy pavers may be installed in areas of low traffic or infrequent use, such as emergency vehicles lanes, if approved by the Fire Department and the Public Works Director.

D. **Perimeter Curbing.** A six-inch-wide and six-inch-high concrete curb shall be provided along the outer edge of the parking facility pavement, except where said pavement abuts a fence or wall. Curbs separating landscaped areas from parking areas shall be designed to allow stormwater runoff to pass through to the extent feasible.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, §§ 31—33, eff. 1-18-19).

SEC. 15-2420. PARKING AREA LIGHTING.

Parking areas designed to accommodate four or more vehicles shall be provided with light over the parking surface as follows:

A. Lighting design shall be coordinated with the landscape plan to ensure that vegetation growth will not substantially impair the intended illumination.

B. Parking lot lighting shall, to the maximum extent feasible, be designed and installed so that light and glare is not directed onto residential use areas or adjacent public rights-of-way, consistent with Article 25, Performance Standards. Such parking lot illumination shall be no less than 0.5 foot-candles.

C. Carport lighting shall be integrated into carport structures, and there shall have no bare light bulbs.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 34, eff. 1-18-19).

SEC. 15-2421. PARKING LOT LANDSCAPING AND SHADING.

A. **Heat Island Reduction.** A heat island is the increase in ambient temperature that occurs over large paved areas compared to natural landscape. In order to reduce ambient surface temperatures in parking areas, 50 percent of areas not landscaped shall be shaded, of light colored materials with a Solar Reflectance Index (SRI) of at least 29, or a combination of shading and light colored materials as follows:

1. **Permitted Types of Shading.** Shade may be provided by solar shade structures, trees, or other equivalent mechanism.

2. **Shading Tree Standards.** Trees provided to satisfy the requirements of this section shall meet the following standards:

    a. **Shading Tree Distribution.** Trees provided to satisfy the requirements of this section shall be distributed relatively evenly throughout the parking area.

    b. **Species.** Trees provided to satisfy the requirements of this section shall be selected from a list maintained by the City and shall be of a species which can reasonably be expected to provide the required amount of shading within 15 years.

    c. **Size.** Trees provided to satisfy the requirements of this section shall trees shall be a minimum 15-gallon size with a one-inch diameter as measured 48 inches above natural grade.

3. **Exception:** This requirement shall not apply to RS Districts and truck loading and truck parking areas within Employment Districts.

B. **Landscaping.** Landscaping of parking areas shall be provided and maintained according to the general standards of Article 23, Landscape, as well as the standards of this subsection.

1. **Clearance from Vehicles.** All required landscaped areas shall be designed so that plant materials, at maturity, are protected from vehicle damage by providing a minimum two-foot clearance of low-growing plants where a vehicle overhang is permitted, or by wheel stops set a minimum of two feet from the back of the curb.

2. **Planters.** All required parking lot landscaping shall be within planters bounded by a concrete curb at least six inches wide and six inches high. Curbs separating landscaped areas from parking areas shall be designed to allow storm-water runoff to pass through.

C. **Perimeter Parking Lot Landscaping.** The following shall apply to Multi-Unit, Mixed-Use, Office, Business Park, Regional Business Park, and Commercial developments.

1. **Layout.** Landscaped areas shall be well-distributed throughout the parking lot area. A minimum of 10 percent of any parking lot area shall be landscaped. For the purpose of calculating required parking lot landscaping, parking lot areas are deemed to include parking and loading spaces as well as aisles, vehicle entry and exit

areas, and any adjacent paved areas. Parking lot area does not include enclosed vehicle storage areas. Parking lot landscaping may be provided in any combination of:

a. Landscaped planting strips between parking areas and adjacent buildings or internal pedestrian walkways;

b. On-site landscaping at the parking lot perimeter.

2. **Adjacent to Streets.** Parking areas adjoining a public street shall be designed to provide a landscaped planting strip equivalent to the required setback for the subject zoning district.

a. Landscaping shall be designed and maintained to screen cars from view from the street to a height of between 24 and 36 inches.

b. Screening materials may include a combination of plant materials, earth berms, solid masonry walls, raised planters, or other screening devices that meet the intent of this requirement.

c. Trees shall be provided at a rate of at least one for every 20 lineal feet of landscaped area. A lower ratio of tree planting may be approved by the Director when larger species of trees are used.

d. Plant materials, signs, or structures within a traffic safety sight area of a driveway shall not exceed 36 inches in height.

3. **Adjacent to Other Uses.** Refer to the underlying Zone District and Section 15-2305-C, Lot Perimeters, landscape buffer requirements.

4. **End of Row Islands.** A landscaped island at least six feet in all interior dimensions and containing at least one 15-gallon-size tree shall be provided at each end of each interior row of parking stalls and dispersed throughout the parking lot.

5. **Planters Required.** Trees shall be in planters located throughout the parking area. Planters shall have a minimum interior dimension of five feet and be of sufficient size to accommodate tree growth.

6. **Landscaped Buffer.** When four or more parking spaces are provided, a landscaped area at least five feet wide shall be provided between any surface parking area and any property line for the length of the parking area, unless a different dimension is specified in the base district standards applicable to a site or in Section 15-2305-C, Lot Perimeters, landscape buffer requirements.

7. **Large Projects (100 Stalls or More).** Large projects shall provide a concentration of landscape elements at main entrances, including specimen trees (e.g., 24 inch, 36 inch and 48 inch box), flowering plants, enhanced paving, and project identification.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 35, eff. 1-18-19; Am. Ord. 2025-024, § 49, eff. 7-27-25).

SEC. 15-2422. RESERVED.

Editor's note—Am. Ord. 2018-66, § 36, effective January 18, 2019, amended the Code by repealing former § 15-2422 in its entirety. Former § 15-2422 pertained to parking lot trees, and derived from Ord. 2015-39, effective January 9, 2016.

SEC. 15-2423. CIRCULATION AND SAFETY.

A. **Visibility and Clearance.** Landscaping in planters at the end of parking aisles shall be maintained as to not impair the sight line of drivers and pedestrian cross-traffic. Mature trees shall have a foliage clearance maintained at eight feet from the surface of the parking area. Other plant materials located in the interior of a parking lot shall not exceed 30 inches in height. See also Section 15-2018, Intersection Visibility.

B. Parking lots shall be designed so that sanitation, emergency, and other public service vehicles can provide service without backing unreasonable distances or making other dangerous or hazardous turning movements, as determined by the Review Authority.

C. Separate vehicular and pedestrian circulation systems shall be provided where possible and where the following occurs:

1. Multi-unit residential developments of five or more units must provide pedestrian access that is separate and distinct from driveways.

2. Parking areas for commercial and mixed-use developments that provide 25 or more parking spaces must have distinct and dedicated pedestrian access from the commercial use to parking areas and public sidewalks, according to the following standards:

    a. **Connection to Public Sidewalk.** An on-site walkway shall connect the main building entry to a public sidewalk on each street frontage. Such walkway shall be the shortest practical distance between the main building entry and sidewalk, generally no more than 125 percent of the straight-line distance.

    b. **Materials and Width.** Walkways shall provide at least five feet of unobstructed width and be hard-surfaced.

    c. **Identification.** Pedestrian walkways shall be clearly differentiated from driveways, parking aisles, and parking and loading spaces through the use of elevation changes, a different paving material, or similar method.

    d. **Separation.** Where a pedestrian walkway is parallel and adjacent to an auto travel lane, it must be raised or be of a different material, and separated from the auto travel lane by a raised curb at least four inches high, bollards, or other physical barrier.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2424. RESERVED.

Editor's note—Am. Ord. 2018-66, § 37, effective January 18, 2019, amended the Code by repealing former § 15-2424 in its entirety. Former § 15-2424 pertained to solar panels on carports, and derived from Ord. 2015-39, effective January 9, 2016.

SEC. 15-2425. PARKING GARAGES.

A. **Step-Back Provisions.** A parking garage that does not incorporate ground-floor non-residential or residential use or is not otherwise screened or concealed at street frontages on the ground level, must provide a landscaped area at least 15 feet wide between the parking garage and public street and shall set back an additional two feet for every story above two. If there is another building between the parking garage and the public street, this subsection shall not apply.

B. **Rooftop Planting.** Uncovered parking on the top level of a parking structure shall have rooftop planters with a minimum dimension of 24 inches around the perimeter of the top floor which is visible from a public street. Shrubs shall be visible.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2426. ALTERNATIVE PARKING AREA DESIGNS.

Where an applicant can demonstrate to the satisfaction of the Director that variations in the dimensions otherwise required by this section are warranted in order to achieve to environmental design and green building objectives, including, but not limited to, achieving certification under the LEED™ Green Building Rating System, an alternative parking area design may be approved.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2427. PARKING IN-LIEU FEE.

If a parking assessment district is established, a fee may be paid to the City in-lieu of providing required parking within the district. The assessment district would determine fees, timing, fund appropriations, etc.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2428. SHOPPING CART COLLECTION AREAS.

When there are businesses that utilize shopping carts, including grocery and home improvement stores, shopping cart storage areas shall be provided throughout the parking lots. Stores that do not allow shopping carts to be taken out of the store are excepted. Shopping cart collection areas shall comply with the following:

A. Collection areas shall consist of a corral surrounded by a six inch concrete curb to prevent carts from straying into pedestrian and automobile paths;

B. Highly visible signage shall be provided to mark a collection area's location; and

C. Collection areas shall be distributed throughout the parking lot.

D. Additional outdoor collection areas shall be provided proximate to the store and shall be screened with a four foot wall.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2429. BICYCLE PARKING.

A. **Short-Term Bicycle Parking.** Short-term bicycle parking shall be provided in order to serve shoppers, customers, messengers, guests, and other visitors to a site who generally stay for two hours or less.

1. **Requirement Thresholds.** Short-term parking shall be provided when any of the following occur:
   a. New development;
   b. The demolition and reconstruction of a site;
   c. A new building on a developed site when the new building is more than 300 square feet. The 300 square feet shall be cumulative from the date of adoption of this Code;
   d. Building additions to existing buildings that expand the existing habitable floor area by at least 20 percent, or 2,500 square feet, whichever is less, not including Single-Unit Dwellings or Duplexes. The addition and/or expansion shall be cumulative from the date of adoption of this Code;
   e. There is an addition of 10 vehicle parking stalls or more;
   f. A Discretionary Permit is required;
   g. There is a change from one category of use classification to another (i.e., changing from a Commercial Use Classification to a Residential Use Classification as identified in the Use Regulation table of the Base District); or,
   h. If required per California Green Building Standards Code, as may be amended.
2. **Number of Spaces Required.** Refer to Table 15-2429-D.
3. **Location.**
   a. Short-term bicycle parking shall be located outside of the public right-of-way and walkways and as close to the primary entrance as vehicle parking, excepting Accessible Parking stalls, or within 35 feet of a main entrance to the building it serves, whichever is closer.
   b. **Existing Shopping Centers/Multiple Tenants.** In centers with multiple tenants, where bicycle parking becomes required because of a discretionary permit request or a change in use, the number of stalls shall be determined by the need of the subject tenant space. Parking shall be conspicuously located and shall be visible from the tenant space.
   c. **New Shopping Centers/Multiple Tenants.** In centers with multiple tenants, bicycle parking shall be distributed throughout the center. Parking shall be

conspicuously located and shall be visible from tenant spaces. While bicycle parking cannot always be within 35 feet of all tenants, it shall be located as to minimize the distance to tenant spaces to the greatest extent feasible. Satellite pads shall provide separate bicycle parking if necessary.

d. **Mixed-Use Districts or Buildings Built Proximate to the Front Property Line.** Bicycle parking may be located within the public right-of-way with approval from the Public Works Department, provided an unobstructed sidewalk width clearance of six feet is maintained for pedestrians.

4. **Vehicle Parking Reduction.** In an existing development a bicycle parking corral may replace existing vehicle parking stalls. Should a bicycle corral cause a reduction in the number of vehicle parking spaces to less than what is prescribed in this Code, an exemption (i.e., Variance or Deviation) for the reduced vehicle parking shall not be required. This reduction shall not exceed three vehicle parking stalls for centers less than 10 acres in area, and six for centers greater than 10 acres.

5. **Anchoring and Security.**

a. For each parking space required, a stationary, securely anchored rack shall be provided. Racks shall be either an inverted "U", a bike hitch, a swerve rack, or per the City's qualified product list, maintained by DARM. Racks may serve multiple bicycle parking spaces.

6. **Size and Accessibility.**

a. Each bicycle parking space shall be a minimum of 30 inches in width and eight feet in length and shall be accessible without moving another bicycle.

b. At least 30 inches of clearance shall be provided between bicycle parking spaces and adjacent walls, poles, landscaping, street furniture, drive aisles, and pedestrian ways and at least five feet from vehicle parking spaces to allow for the maneuvering of bikes.

c. Overhead clearance shall be a minimum of seven feet.

d. **Multiple Rows.** A minimum five foot aisle between each row of bicycle parking shall be provided for bicycle maneuvering beside or between each row, when multiple rows are proposed.

B. **Long-Term Bicycle Parking.** Long-term bicycle parking shall be provided in order to serve employees, students, residents, commuters, and others who generally stay at a site for longer than two hours.

1. **Requirement Thresholds.** Long-Term Bicycle Parking shall be provided when required by the California Green Building Standards Code, as may be amended.

2. **Number of Spaces Required.** Refer to Table 15-2429-D.

3. **Location.**

   a. Long-term bicycle parking must be located on the same lot as the use it serves, unless an alternative agreement is approved to the satisfaction of the Director. The signed statement shall be in the form of a covenant prepared by the City, and shall be recorded with the County Recorder.

   b. In parking garages, long-term bicycle parking shall be proximate to the entrance of the garage.

4. **Covered Stalls.** Covered stalls shall be:

   a. Inside buildings, in a bike room or clearly designated area;

   b. Under roof overhangs or awnings;

   c. In bicycle lockers; or

   d. Within or under other structures.

5. **Anchoring and Security.** Long-term bicycle parking must be in:

   a. A permanently anchored rack or stand inside a building. Racks shall be either an inverted "U", a bike hitch, a swerve rack, or per the City's qualified product list. Racks may serve multiple bicycle parking spaces;

   b. An enclosed permanently anchored bicycle locker; or

   c. A fenced, covered, locked, or guarded bicycle storage area or room.

6. **Size and Accessibility.**

   a. Each bicycle parking space shall be a minimum of 30 inches in width and six feet in length and shall be accessible without moving another bicycle.

   b. At least 30 inches of clearance shall be provided between bicycle parking spaces and adjacent walls, poles, landscaping, street furniture, drive aisles, and pedestrian ways and at least five feet from vehicle parking spaces.

7. **Vehicle Parking Reduction.** Should an applicant seek to install bicycle lockers for an existing development, they may reduce vehicle parking to less than the prescribed number in this Code in order to accommodate them. In such an instance, an exemption (i.e., Variance or Deviation) for the reduced vehicle parking shall not be required.

C. **Showers and Changing Rooms.** In the O District, showers and changing room(s) for employees that engage in active modes of transportation are required per the following standards.

1. **Requirement Thresholds.** New office development greater than 20,000 square feet. The 20,000 square foot minimum applies to single buildings.

2. **Number of Showers Required.** Refer to Table 15-2429-C-2.

TABLE 15-2429-C-2: EMPLOYEE SHOWERS REQUIRED FOR NEW CONSTRUCTION	
Land Use Classification	*Showers and Changing Rooms Required*
Office	Less than 20,000 sq. ft.: None More than 20,000 sq. ft.: 1

D. **Number of Spaces Required.** The following table identifies the number of short-term and long-term bicycle parking stalls required per use.

TABLE 15-2429-D: REQUIRED ON-SITE BICYCLE PARKING SPACES		
Land Use Classification	*Short-Term Spaces*	*Long-Term Spaces*
Residential Use Classifications		
Multi-Unit (more than 15 units)	None	1 per 15 units. Not required if units provide individual garages
Dormitory/student housing	None	1 per 4 residents. Not required if units provide individual garages
Public and Semi-Public Use Classifications		
Schools (e.g., public, private, charter)	Per the California Green Building Standards	Per the California Green Building Standards Code
Colleges and Trade Schools, Public or Private (excluding dormitories, see above)	1 per 10,000 sq. ft. of building area	1 per 20,000 square feet of building area
Community and Religious Assembly & Cultural Institutions	2 per 3,000 sq. ft. of assembly area Or Per the California Green Building Standards Code, whichever is greater	Per the California Green Building Standards Code
Stadiums	Per the California Green Building Standards Code	Per the California Green Building Standards
Parks and Open Space (excluding pocket parks)	Per project review	None
Commercial Use Classifications		
Retail Sales and Service	2, or 1 per 10,000 sq. ft. of net building area whichever is greater Or Per the California Green Building Standards, whichever is greater	Per the California Green Building Standards Code
Office	2, or 1 per 25,000 sq. ft. of net building area whichever is greater Or Per the California Green Building Standards Code, whichever is greater	Per the California Green Building Standards
Hotels/Motels	Per the California Green Building Standards Code	Per the California Green Building Standards Code
Parking Structures	None	1 space per 75 vehicle spaces
Employment Use Classifications		
Manufacturing and Production	Per the California Green Building Standards Code	Per the California Green Building Standards Code
Warehousing and Storage	Per the California Green Building Standards Code	Per the California Green Building Standards Code
Personal Storage	None	None

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, §§ 38, 39, eff. 1-18-19; Am. Ord. 2025-024, §§ 50, 51, eff. 7-27-25).

SEC. 15-2430. ON-SITE LOADING.

A. **Applicability.** Loading spaces are required when a building is to be occupied by a manufacturing establishment, storage facility, warehouse facility, retail store, eating and drinking, wholesale store, market, hotel, hospital, mortuary, laundry, dry-cleaning establishment, or other use similarly requiring the receipt or distribution by vehicles or trucks of material or merchandise per Table 15-2430-A when any of the following are met:

1. Every new building;

2. When a building is enlarged by 20 percent or more or 2,500 square feet, whichever is less. This standard shall be cumulative from the date of adoption of this Code;

3. There is a change from one category of use classification to another (i.e., changing from a Commercial Use Classification to a Residential Use Classification as identified in the Use Regulation table of the Base District.)

4. **Exemption.** This section does not apply to Downtown Districts.

TABLE 15-2430-A: REQUIRED LOADING SPACES	
Square Footage	*Required Loading Spaces*
0—6,999	0
7,000—40,000	1
40,001—90,000	2
90,001—150,000	3
150,001—230,000	4
230,001+	1 per each additional 100,000 square feet or portion thereof.

B. **Multi-Tenant Buildings.** The square footage of the entire building shall be used in determining spaces for multi-tenant buildings. A common loading area may be required, if each tenant space is not provided a loading area. Drive-in, roll-up doors for multi-tenant industrial projects may be substituted for required loading areas.

C. **Reduction in Number of Loading Spaces Required.** The loading space requirement may be waived if the Director finds that the applicant has satisfactorily demonstrated that due to the nature of the proposed use, such loading space will not be needed.

D. **Additional Loading Spaces Required.** The required number of loading spaces may be increased to ensure that trucks will not be loaded, unloaded, or stored on public streets. Such requirement shall be based on the anticipated frequency of truck pickups and deliveries and of the truck storage requirements of the use for which the on-site loading spaces are required.

E. **Location.**

1. All required loading berths shall be located on the same site as the use served.

2. No loading berth for vehicles over two-ton capacity shall be closer than 50 feet to any property in a Residential District unless completely enclosed by building walls, or a uniformly solid fence or wall, or any combination thereof, not less than 10 feet in height.

3. No permitted or required loading berth shall be located within 25 feet of the nearest point of any street intersection.

F. **Access.** When the lot upon which the loading spaces are located abuts any alley, such loading space shall adjoin or have access from said alley.

G. **Dimensions.** Loading spaces shall be not less than 12 feet in width, 40 feet in length, with a 14 foot vertical clearance.

H. **Lighting.** Loading areas shall have lighting capable of providing adequate illumination for security and safety. Lighting standards shall be energy efficient and in scale with the height and use of adjacent uses in compliance with Section 15-2508, Lighting and Glare.

I. **Driveways for Ingress and Egress and Maneuvering Areas.** Each on-site loading space required by this section shall be provided with driveways for ingress and egress and maneuvering space of the same type and meeting the same criteria required for on-site parking spaces. Truck-maneuvering areas shall not encroach into required parking areas,

travelways, or street rights-of-way. This requirement may be modified if the Director finds that sufficient space is provided so that truck-maneuvering areas will not interfere with traffic and pedestrian circulation.

J. **Loading Bays.** The following apply to commercial and office districts, or any non-residential district that abuts a residential district.

1. Loading bays and roll-up doors shall be painted to blend with the exterior structure walls and generally located on the rear of the structure.
2. Areas for loading and unloading shall be designed to avoid potential adverse noise, visual, air quality, and illumination impacts on neighboring residences. These areas shall be concealed from view of the public and adjoining land uses. Concealment and screening may be accomplished by use of any of the following, subject to the review and approval:
    a. Design the structures to enclose the loading and unloading service areas thereby providing for their concealment; or
    b. A perimeter eight foot high solid grout walls for depressed loading areas, 12 feet for at-grade loading areas, to be architecturally coordinated with the main structures and on-site landscaping. Additional heights may be required to mitigate noise.
3. Loading bays shall have signage requiring drivers to limit idling to five minutes or less.
4. When it is not possible or desirable to locate the loading/unloading facilities at the rear of the structures, the loading docks and loading doors shall be located on the side of the structures and shall be screened from the public street rights-of-way by a suitable combination of walls and landscaped berms.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 40, eff. 1-18-19).

ARTICLE 25 PERFORMANCE STANDARDS

Sec. 15-2501. Purpose.
Sec. 15-2502. Applicability.
Sec. 15-2503. General Standard.
Sec. 15-2504. Location of Measurement for Determining Compliance.
Sec. 15-2505. Maintenance.
Sec. 15-2506. Noise.
Sec. 15-2507. Vibration.
Sec. 15-2508. Lighting and Glare.
Sec. 15-2509. Shadow Casting.
Sec. 15-2510. Odors.
Sec. 15-2511. Heat and Humidity.
Sec. 15-2512. Air Contaminants.
Sec. 15-2513. Liquid or Solid Waste.
Sec. 15-2514. Fire and Explosive Hazards.
Sec. 15-2515. Electromagnetic Interference.
Sec. 15-2516. Radioactivity.

SEC. 15-2501. PURPOSE.

The purpose of this article is to:

A. Establish permissible limits and allow objective measurement of nuisances, hazards, and objectionable conditions;

B. Ensure that all uses will provide necessary control measures to protect the community from nuisances, hazards, and objectionable conditions;

C. Protect industry from arbitrary exclusion from areas of the city; and

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2502. APPLICABILITY.

The minimum requirements in this article apply to land uses in all zoning districts, unless otherwise specified.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2503. GENERAL STANDARD.

Land or buildings shall not be used or occupied in a manner creating any dangerous, injurious, or noxious conditions, chemical fires, explosive, blight, or other hazards that could adversely affect the surrounding area.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2504. LOCATION OF MEASUREMENT FOR DETERMINING COMPLIANCE.

Measurements necessary for determining compliance with the standards of this article shall be taken at the property line of the establishment or use that is the source of a potentially objectionable condition, hazard, or nuisance.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2505. MAINTENANCE.

Sites and facilities shall be maintained free of refuse, debris, or other accumulated matter and shall be kept in good repair at all times.

A. **Fences, Hedges, and Walls.** Collectively referred to as fences, shall be maintained in good repair, including painting, if required, and shall be kept free of litter or advertising. Where hedges are used as screening, trimming or pruning shall be employed as necessary to maintain the maximum allowed height. Fences shall be maintained and shall stand upright and shall not lean.

B. **Signs.** Every sign displayed within the city, including exempt signs, shall be maintained in good physical condition and shall comply with adopted regulations. All defective or broken parts shall be replaced. Exposed surfaces shall be kept clean, in good repair, and painted where paint is required.

C. **Landscaping/Yards.** All planting and other landscape elements shall be permanently maintained in good growing condition. Such maintenance shall include, where appropriate, pruning, mowing, weeding, cleaning, fertilizing, and regular watering. Wherever necessary, plantings shall be replaced with other plant materials to insure continued compliance with applicable landscaping requirements. Yards shall be maintained free of refuse, debris, rubbish, or other accumulated matter and/or materials, and shall be maintained clean. Grass shall not exceed six inches in height.

D. **Trees.** Trees shall be maintained by property owners to be free from physical damage or injury arising from lack of water, chemical damage, accidents, vandalism, insects, and disease. Any tree showing such damage shall be replaced with another tree.

E. **Parking Lots.** Parking lots, including landscaped areas, driveways, and loading areas, shall be maintained free of refuse, debris, or other accumulated matter and shall be kept in good repair at all times.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2506. NOISE.

The provisions of this section apply to noise sources resulting from and relating to new development or the expansion of a use or activity. Should there be a conflict between this section and any rule or regulation set forth in an airport plan, the airport plan shall govern. Exceptions to this section are listed in Subsection G. Noise-Related Definitions are located in Section 15-6802. All projects are subject to FMC Chapter 10, Article 1, Noise Regulations.

A. **Acoustic Study.**

1. An acoustic study shall be required for any proposed project which could create or be subject to noise exposure in excess of the standards set by Tables 15-2506-B and 15-2506-C. Noise attenuation measures determined from the results of the acoustic study shall be applied in order to meet said standards.

2. An acoustic study shall also be required when a project proposes to be located in an area where existing and/or future transportation-related noise exposure levels are identified as requiring study in Table 15-2506-C.

3. Any required acoustic study shall be paid for by the project applicant and shall be prepared by a qualified acoustical consultant as determined by, and managed under the supervision of, the Review Authority.

B. **Transportation Noise Standards.** The standards listed in Table 15-2506-B represent maximum allowable noise exposure from transportation-related (vehicles and trains) noise sources.

TABLE 15-2506-B: NOISE EXPOSURE FROM TRANSPORTATION NOISE SOURCES

	Maximum Exterior Noise Level[1, 2]	*Maximum Interior Noise-Level*	
Noise-Sensitive Land Use	*(Ldn/CNEL, dB)*	*(Leq, dB)*	
Residential	65[3]	45	-
Transient Lodging	65[3]	45	-
Medical Care Facility	65[3]	45	-
Religious Assembly Facility, Meeting Hall	65[3]	-	45
Theatre, Auditorium	-	-	35
Office Building	-	-	45
School, Library, Museum	-	-	45
Other Noise-Sensitive Uses	As determined by the Review Authority		

Notes:

1. Exterior noise areas
hg;Exclude: a) front and side yards and b) outdoor areas for projects along Bus Rapid Transit (BRT) corridors and/or within Activity Centers (where application of the standards will be detrimental to the realization of mixed-use, multi-modal oriented-objectives).
Include: a) rear yards and courtyards and b) balconies or roof decks (not adjacent to BRT), if they are included in on-site open space calculations.
2. Where the location of exterior areas is unknown or not applicable, the exterior noise level standard shall be applied at the property line.
3. While 65 db is the maximum level, projects should strive to reach 60 db.

C. **Land Use Compatibility for New Development Proposed near Transportation Noise Sources.** Table 15-2506-C establishes the range of acceptable and unacceptable transportation noise exposure levels in order to determine whether a project is allowed to be sited near a transportation noise source and if noise attenuation measures would be required.

1. **A: Satisfactory.** The project may be permitted without requiring noise attenuation.

2. **B: Analysis Required.** The project is required to provide an analysis that details noise reduction measures that shall be integrated into the project design in order to reduce noise exposure to a conforming level.

3. **C: Acoustic Study Required.** The project is required to perform an acoustic study (see Subsection A of this section) and incorporate the resulting noise attenuation measures to reduce noise exposure to a conforming level.

4. **D: Not Allowed.** The project shall not be permitted.

5. **E: Restricted.** Only the specified project types shall be permitted.

TABLE 15-2506-C: LAND USE COMPATIBILITY FOR NEW DEVELOPMENT PROPOSED NEAR TRANSPORTATION NOISE SOURCES		
Noise-Sensitive Land Use	*Day/Night Average Sound Level (Ldn or CNL, dB)*	*Requirements and Limitations*
Residential; Transient Lodging; Medical Care Facility; Religious Assembly Facility, Meeting Hall; School, Library, Museum	Less than 65	A: Satisfactory
	65 to 70	B: Analysis and integration of noise reduction measures in project design
	70 to 75	C: Acoustic study and noise attenuation measures required
	Over 75	D: Not allowed
Theater, Auditorium, Concert Hall, Amphitheater	Less than 70	B: Analysis and integration of noise reduction measures in project design
	Over 70	D: Not allowed
Office Building	Less than 70	A: Satisfactory
	70 to 75	B: Analysis and integration of noise reduction measures in project design
	Over 75	C: Acoustic study and noise attenuation measures required
Industrial	Less than 75	A: Satisfactory
	Over 75	C: Acoustic study and noise attenuation measures required
Outdoor sports and recreation, parks	Less than 65	A: Satisfactory
	65 to 80	C: Acoustic study and noise attenuation measures required; avoid uses involving concentrations of people or animals
	Over 80	E: Limited to open space; avoid uses involving concentrations of people or animals

D. **Stationary Noise Standards.**

1. New or expanded development of noise-sensitive uses shall not be permitted if noise levels, due to existing stationary noise sources, would exceed the standards of Table 15-2506-D. Such projects shall be permitted with the incorporation of noise attenuation measures stipulated in an acoustic study per Subsection A to reduce the noise exposure to compliant levels.
2. New or expanded development of major noise-generating stationary uses shall not be permitted if noise levels impinging on existing adjacent noise-sensitive uses would exceed the standards of Table 15-2506-D. Such projects shall be permitted with the incorporation of noise attenuation measures stipulated in an acoustic study per Subsection A to reduce the noise exposure to compliant levels.
3. The Director shall determine uses that qualify as "noise-sensitive."
4. When ambient noise levels exceed or equal the levels in this table, mitigation shall only be required to limit noise to the ambient plus five dB.

TABLE 15-2506-D: NOISE EXPOSURE FROM STATIONARY NOISE SOURCES[1]		
	Daytime 7:00 am—10:00 pm	*Nighttime 10:00 pm—7:00 am*
Hourly Equivalent Sound Level (Leq), dBA	50	45

TABLE 15-2506-D: NOISE EXPOSURE FROM STATIONARY NOISE SOURCES[1]		
	Daytime 7:00 am—10:00 pm	*Nighttime 10:00 pm—7:00 am*
Maximum Sound Level (Lmax), dBA	70	60
Notes: 1. As determined at outdoor activity areas. Where the location of outdoor activity areas is unknown or not applicable, the noise exposure standard shall be applied at the property line of the receiving land use.		

E. **Best Available Technology.** New noise sources shall use the best available control technology to minimize noise emissions.

F. **Noise Attenuation Measures.** Any project subjected to an acoustic study may be required, as a condition of approval, to incorporate noise attenuation measures deemed necessary to ensure that noise standards are not exceeded.

1. Noise attenuation measures identified in an acoustic study shall be incorporated into the project to reduce noise impacts to satisfactory levels.

2. Emphasis shall be placed upon site planning and project design measures.

3. Operation-related measures may be incorporated, such as regulating the hours of operation, deliveries, etc.

4. The use of noise barriers (i.e. walls) shall be considered only after all feasible design-related and operation-related noise measures have been incorporated into the project.

G. **Noise Barriers.** When noise attenuation measures require the construction of a noise barrier to reduce overall noise levels, it shall comply with the following standards:

1. The noise barrier shall be a masonry block or concrete wall. The Review Authority may approve new wall materials that become available in the future for use as an alternative to a masonry block or concrete wall based on its proven comparable properties for durability, sound, light, and glare attenuation.

2. Topography, berming, and other alternative methods of mitigating the nuisance of noise and light might be considered and required at time of project review.

3. The additional standards represented in Table 15-2506-G shall apply for noise barriers that are used to mitigate noise from vehicles and trains.

TABLE 15-2506-G: NOISE BARRIER MINIMUM STANDARDS		
Overall Height of Wall	*Earth Berm*	*Setback from Major Streets and railroad tracks (all streets require a min. 10 ft. setback. This standard shall be added to the min.[1])*
Less than 9 ft.	No requirement	No additional setback
9 ft. or taller (max. of 15 ft.)	6 inches for every ft. of wall height above 9 ft.	Additional ft. for every ft. that exceeds 10 ft.
1. A greater setback shall be provided if required by an Overlay District or a trail.		

H. **Exemptions.** The following are exempted from conformance to the noise standards of this section.

1. **Noise-Sensitive Sites Adjacent to Elevated Noise-Generating Land Uses.** In instances where noise-generating land uses are elevated 12 feet or more (i.e., elevated State Routes) from the natural grade of a noise-sensitive site, and the Review Authority determines that a masonry wall would not mitigate outdoor noise to acceptable levels, a wall may be waived, however the interior of the noise-sensitive use shall not exceed the indoor space standards in Table 15-2506-B.

2. **Emergencies.** The emission of sound for the purpose of alerting persons to the existence of an emergency, or the emission of sound in the performance of emergency work.

3. **Warning Devices.** Warning devices necessary for the protection of the public safety, such as police, fire, and ambulance sirens.

4. **Special Events.** Occasional outdoor gatherings, public dances, shows, and sporting and entertainment events, provided that such events are conducted pursuant to a permit or license issued by the City.

5. **Municipal Solid Waste Collection.** Collection of solid waste, vegetative waste, and recyclable materials by the City or under contract with the City.

6. **Public Works Construction Projects, Maintenance, and Repair.** Street, utility, and similar construction projects undertaken by or under contract to the City, or the State of California or a public utility regulated by the California Public Utilities Commission, as well as maintenance and repair operations conducted by such parties, including street sweeping, debris and litter removal, removal of downed wires, restoring electrical service, repairing traffic signals, unplugging sewers, vacuuming catch basins, repairing of damaged poles, removal of abandoned vehicles, repairing of water hydrants and mains, gas lines, oil lines, sewers, storm drains, roads, and sidewalks.

7. **Schools.** School bells and school-sanctioned outdoor activities such as pep rallies, sports games, and band practice.

8. **Religious Assembly Facilities and Other Similar Organizations.** Unamplified bells, chimes, or other similar devices used by religious assembly facilities and other houses of religious worship, as such devices are played between the time period of 7 a.m. and 10 p.m. and the playing period does not exceed five minutes in any one hour.

9. **Agricultural.** Noise resulting from Crop Cultivation.

10. **Public Utility Facilities.** Facilities including, but not limited to, 60-cycle electric power transformers and related equipment, sewer lift stations, municipal wells, and pumping.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2507. VIBRATION.

No vibration shall be produced that is transmitted through the ground and is discernible without the aid of instruments by a reasonable person at the lot lines of the site. Vibrations from temporary construction, demolition, and vehicles that enter and leave the subject parcel (e.g., construction equipment, trains, trucks, etc.) are exempt from this standard. (Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2508. LIGHTING AND GLARE.

Activities, processes, and uses shall be operated in compliance with the following provisions:

A. **Mechanical or Chemical Processes.** Light or glare from mechanical or chemical processes, high-temperatures processes such as combustion or welding, or from reflective materials on buildings or used or stored on a site, shall be shielded or modified to prevent emission of adverse light or glare onto other properties.

B. **Lighting.** Lights shall be placed to deflect light away from adjacent properties and public streets, and to prevent adverse interference with the normal operation or enjoyment of surrounding properties. Direct or sky-reflected glare from floodlights shall not be directed into any other property or street. Except for public street lights and stadium lights, no light, combination of lights, or activity shall cast light onto a residentially zoned property, or any property containing residential uses, exceeding one-half foot-candle.

C. **Glare.**

1. No use shall be operated such that significant, direct glare, incidental to the operation of the use is visible beyond the boundaries of the lot where the use is located.

2. Windows shall not cause glare that may disrupt adjoining properties, traffic on adjacent streets, etc.

3. Glare or heat reflected from building materials shall be mitigated so as to not disrupt surrounding properties.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2509. SHADOW CASTING.

A. When a structure will exceed 50 feet in height, the developer must submit an analysis of the shadows that the structure will cast on planned or existing residential property.

1. The shadow analysis should demonstrate the maximum extent of the shadows cast by a building through at least the four quarters of the year, between one hour after sunrise and one hour before sunset.

2. If the analysis indicates that the project shadow does not reach or significantly impact any residential properties, no further review of the project shadow will be

required. However, if there is indication that the shadow would significantly impact residential properties, alternative designs or other mitigation measures shall be presented.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2510. ODORS.

No use, process, or activity shall produce objectionable odors that are perceptible without instruments by a reasonable person at the lot lines of a site. Odors from temporary construction, demolition, and vehicles that enter and leave the subject parcel (e.g., construction equipment, trains, vehicle emissions, trucks, etc.) are exempt from this standard.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2511. HEAT AND HUMIDITY.

Uses, activities, and processes shall not produce any emissions of heat or humidity that cause distress, physical discomfort, or injury to a person of reasonable sensitivity or interfere with ability to perform work tasks or conduct other customary activities. In no case shall heat emitted by a use cause a temperature to noticeably increase on another property.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2512. AIR CONTAMINANTS.

Uses, activities, and processes shall not operate in a manner that emit dust, fumes, smoke, or particulate matter adverse to the public health, safety, or general welfare of the community or detrimental to surrounding properties or improvements.

A. **Compliance.** Sources of air pollution shall comply with rules identified by the Environmental Protection Agency (Code of Federal Regulations, Title 40), the California Air Resources Board, and the San Joaquin Valley Air Pollution Control District (SJVAPCD).

B. **SJVAPCD Permits.** Applicants shall be responsible for obtaining permits from the SJVAPCD.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2513. LIQUID OR SOLID WASTE.

A. **Discharges to Water or Sewers.** Liquids and solids of any kind shall not be discharged, whether directly or indirectly, into a public or private body of water, sewage system, watercourse, or into the ground, except in compliance with applicable regulations of the California Regional Water Quality Control Board (California Administrative Code, Title 23, Chapter 3 and California Water Code, Division) and as may be permitted by the City.

B. **Solid Wastes.** Solid wastes shall be handled and stored so as to prevent nuisances, health, safety, and fire hazards; and to facilitate recycling. Any solid wastes that would be conducive to the breeding of rodents and/or insects may only be stored outside in closed containers.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2514. FIRE AND EXPLOSIVE HAZARDS.

A. All activities, processes and uses involving the use of, or storage of flammable and explosive materials shall be provided with adequate safety devices against the hazard of fire and explosion in accordance with the Fire Code. Fire-fighting and fire suppression equipment and devices standard in industry shall be approved by the Fire Department. All incineration is prohibited with the exception of those substances such as, but not limited to, chemicals, insecticides, hospital materials and waste products, required by law to be disposed of by burning, and those instances wherein the Fire Department deems it a practical necessity.

B. The use, handling, storage and transportation of hazardous and extremely hazardous materials shall comply with the provisions of the California Hazardous Materials Regulations and the California Fire and Building Code, as well as the laws and regulations of the California Department of Toxic Substances Control and the County Environmental Health Agency. Activities, processes, and uses shall not generate or emit any fissionable or radioactive materials into the atmosphere, a sewage system or onto the ground.

C. The use, handling, transportation, and storage of hazardous and extremely hazardous materials shall comply with the laws and regulations of Occupational Safety and Health Administration (OSHA), United States Department of Transportation (US DOT) and Environmental Protection Agency (EPA). Also add a requirement for compliance with all applicable federal and State laws, including, but not limited to, the Hazardous Materials Transportation Act of 1975, as may be amended.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2515. ELECTROMAGNETIC INTERFERENCE.

No use, activity, or process shall cause electromagnetic interference with normal radio and television reception in any Residential District, or with the function of other electronic equipment beyond the lot line of the site in which it is situated. All uses, activities, and processes shall comply with applicable Federal Communications Commission regulations. This restriction shall not apply to activities related to amateur radio within the meaning of Title 47 of the Code of Federal Regulations, Part 97, et. seq.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2516. RADIOACTIVITY.

No radiation of any kind shall be emitted that is dangerous to humans or other animals. This restriction shall not apply to radiation emitted in the course and scope of medical uses subject to the requirements of the Health and Safety Code (Sections 114840 through 114896).

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 26 SIGNS

Sec. 15-2601. Purpose.
Sec. 15-2602. Applicability.
Sec. 15-2603. Permits Required.
Sec. 15-2604. Exempt Signs.
Sec. 15-2605. Prohibited Signs.
Sec. 15-2606. Rules for Sign Measurement.
Sec. 15-2607. General Standards.
Sec. 15-2608. Permitted Sign Types by District.
Sec. 15-2609. Signage Allowances for Specific Uses.
Sec. 15-2610. Standards for Specific Sign Types.
Sec. 15-2611. Other Signs.
Sec. 15-2612. Master Sign Program (MSP).
Sec. 15-2613. Historic Signs.
Sec. 15-2614. Electronic Copy.
Sec. 15-2615. Non-Conforming Signs.
Sec. 15-2616. Maintenance of Signs.
Sec. 15-2617. Removal of Signs.

SEC. 15-2601. PURPOSE.

The purpose of this article is to regulate signs as an information system that expresses the character and environment of Fresno and implements the General Plan, consistent with State and federal law. These regulations recognize the importance of business activity to the economic vitality of the city as well as the need to protect the visual environment. Specifically, these regulations are intended to:

A. Provide adequate opportunity for the exercise of the free speech rights, while balancing that opportunity with other community and public interests;

B. Provide minimum standards to safeguard life, health, property, public welfare, and traffic safety by controlling the design, quality of materials, construction, illumination, size, location, and maintenance of signs and sign structures;

C. Preserve and enhance the visual attractiveness of the city, for residents, businesses, and visitors;

D. Protect and enhance property values and community appearance by encouraging signs that are compatible with the architectural style, character, and scale of the building to which they relate and with adjacent buildings and businesses;

E. Restrict signs that may create visual clutter or a nuisance to nearby properties, violate privacy, or create hazards or unreasonable distractions for pedestrians and drivers;

F. Ensure that commercial signs are accessory or auxiliary to a principal business or establishment on or near the same premises, rather than functioning as general advertising for hire; and

G. Prohibit signs that may cause traffic or pedestrian safety hazards or interfere with ingress and egress.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2602. APPLICABILITY.

This article regulates all signs on public and private property, except where expressly stated otherwise. No sign shall be erected or maintained anywhere in the city except in conformity with this article.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2603. PERMITS REQUIRED.

Permits shall be required as follows, unless otherwise stated.

A. **Building Permit Required.** No person shall erect, alter, repair, or relocate any sign without first obtaining any required building permit for such work from the Building Official. No permit shall be issued until the Building Department determines that such work is in accordance with the building or electrical codes of the City. Except as otherwise provided, permits required by this article will be issued pursuant to the same terms and according to the same fee schedule as all other building permits.

B. **Zone Clearance Required.** Subject to Article 51, Zone Clearance, the Planning Division will review applications for building permits for signs and determine if the proposed signs are consistent with the requirements contained in this article.

C. **Encroachment Permit.** Signs that project over a public street or sidewalk shall be subject to an Encroachment Permit approval by the Public Works Department pursuant to the provisions of Chapter 13 of the Municipal Code.

D. **Master Sign Program.** A Master Sign Program is required for signage proposals as specified in Section 15-2612, Master Sign Program (MSP).

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2604. EXEMPT SIGNS.

The following signs are exempt from the permit requirements of this article and do not count toward the total sign area limit for a site, provided that they conform to applicable standards:

A. **Address Signs and Name Plates.** Each residence and establishment may post one address sign and one name plate, with display faces per Article 62, Street Names & Addressing.

B. **Barber Poles.** Barber poles less than 18 inches in height.

C. **City Property/Bus Stop Signs.** Signs placed by the City on property or public right-of-way held by the City, subject to any applicable environmental review pursuant to CEQA.

D. **Equipment Signs.** Signs incorporated into permitted displays, machinery, or equipment by a manufacturer, distributor, or vendor and identifying or advertising only the product or service dispensed by the machine or equipment, such as signs customarily fixed to automated teller machines (ATMs) and gasoline pumps.

E. **Holiday Decorations.**

F. **Interior Graphics or Signage.** Visual communicative devices that are located entirely within a building or other enclosed structure and are not visible from the exterior thereof, or located on the inside of a building and at least three feet from the window.

G. **Official Notices.** Official and legal notices used by any court, public body, person, or officer in the performance of a public duty; any legal or official notices posted by a utility or other quasi-public agency; temporary or permanent signs erected and maintained by or required by the City, State, or federal government, or government transportation or transit agencies, for the purpose of providing official governmental information to the general public, including, but not limited to: traffic direction, city entrance, or for designation of direction to any school, hospital, historical site, or public service, property, or facility; public hearing or meeting notices; seismic warning signs; or other signs required or authorized by law.

H. **Public Carrier Graphics.** Graphic images mounted on carrier vehicles such as buses, taxicabs, and limousines that legally pass through the city.

I. **Operational Window Signs.** Window signs limited to the hours of operation, address, occupancy, and emergency information, subject to the following standards:

1. **Limitations on Placement.** Operational window signs shall not be mounted or placed on windows higher than the second story.

2. **Maximum Area.** The maximum area of exempt window signage shall not exceed three square feet in area.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2605. PROHIBITED SIGNS.

Unless expressly allowed by another subsection of this article or other applicable law, the following sign types, locations, and materials are prohibited:

A. **Animated Signs.** Animated, flashing, blinking, reflecting, revolving, or other similar signs, or signs with visibly moving or rotating parts or visible mechanical movement of any kind, rolling or running letters or message.

B. **Outdoor Advertising Signs.** Billboards and any other off-premises outdoor advertising signs which convey a commercial message as their primary purpose. This provision, however, does not prohibit agreements to relocate presently existing, legal billboards, pursuant to Business and Professions Code Section 5412. The new

billboards which replace existing billboards may be located on City-owned property and may feature electronic copy, at the discretion of the City Manager. Replacement billboards shall comply with all applicable federal, State, and local regulations. This exception shall only apply to the City of Fresno.

C. **Signs Blocking Doors or Windows.** Signs shall not be located or installed on any door, window, or fire escape in a manner that will prevent free ingress or egress.

D. **Signs on Standpipes or Fire Escapes.** No sign shall be attached to any standpipe or fire escape, except those required by other codes.

E. **Snipe Signs.** All off-site signs, tacked, nailed, posted, pasted, glued, or otherwise attached to trees, poles, stakes, fences, trailers, temporary construction barriers, or other supporting structures.

F. **Signs in the Public Rights-of-Way.** Unless otherwise noted, no sign shall be affixed within median strips or islands, on sidewalks, trees, retaining walls, bridges, benches, traffic signals, public fences, poles or utility equipment, street lighting, utility poles, traffic signs, or traffic sign posts, supporting structures, anchor wires, or guy wires. This provision, however, does not prohibit subdivision monument signs, which shall be permitted at the discretion of the City Engineer.

G. **Signs That Produce Noise or Emissions.** Signs that produce noise or sounds that can be heard at the property line, excluding voice units at menu boards, and signs that emit visible smoke, vapor, particles, or odors.

H. **Signs Creating a Traffic Hazard or Affecting Pedestrian Safety.** Signs placed or located in such a manner as to constitute a safety hazard or to impede the public use of the public right-of-way.

1. **Exits and Entrances.** No sign shall be placed, mounted, erected, or installed in any manner that obstructs the use of any door, window, or fire escape.

2. **Sidewalks.** No sign shall be mounted or displayed in such a manner that it blocks or impedes the normal pedestrian use of public sidewalks.

3. **Intersections.** No sign shall be erected or maintained at or near any street intersection that will obstruct the free and clear vision of drivers and pedestrians. Other than traffic control signals, no sign shall be installed in the visibility triangle at intersections pursuant to Section 15-2018, Intersection Visibility.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 19, eff. 7-30-17).

SEC. 15-2606. RULES FOR SIGN MEASUREMENT.

A. **Calculation of Sign Area.** The area of an individual sign shall be calculated as follows.

1. **Single-Faced Signs.** Sign area shall include the entire area within a single continuous perimeter composed of squares or rectangles (consisting of horizontal and

vertical lines and no more than 12 corners) that enclose the extreme limits of all sign elements, including, but not limited to, sign structures or borders, written copy, logos, symbols, illustrations, and color. Supporting structures such as sign bases and columns are not included in the sign area provided that they contain no lettering or graphics except for addresses or required tags. The calculation of sign area for various types of single-faced signs is illustrated in Figure 15-2606-A.1.

FIGURE 15-2606-A.1: MEASURING SIGN AREA

2. **Double-Faced Signs.** Where two faces of a double-faced sign are parallel, or less than an interior angle of 45 degrees or less from one another, the sign area shall be computed as the area of one face. Where the two faces are not equal in size, the larger sign face shall be used. Where two faces of a double-faced sign are located more than 45 degrees from one another, both sign faces shall be counted toward sign area.

3. **Multi-Faced Signs.** On a three-faced sign, where at least one interior angle is 45 degrees or less, the area of two faces (the largest and smallest face) shall be summed to determine sign area. In all other situations involving a sign with three or more sides, sign area shall be calculated as the sum of all faces.

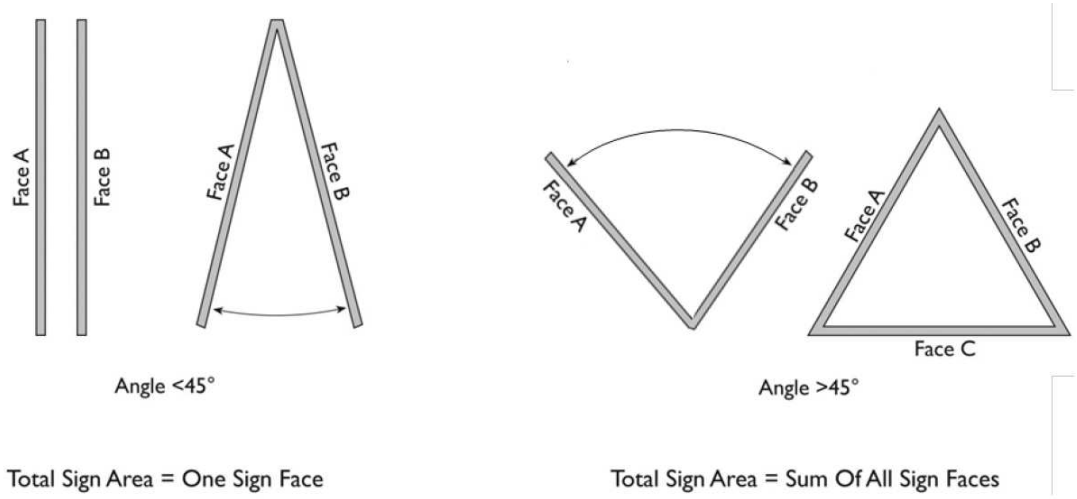

FIGURE 15-2606-A.3: DOUBLE AND MULTI-FACED SIGNS

4. **Three-Dimensional Signs.** Signs that consist of, or have attached to them, one or more three-dimensional objects (i.e., balls, cubes, clusters of objects, sculpture, or statue-like trademarks), shall have a sign area of the sum of two adjacent sides of the smallest cuboid that will encompass the sign.

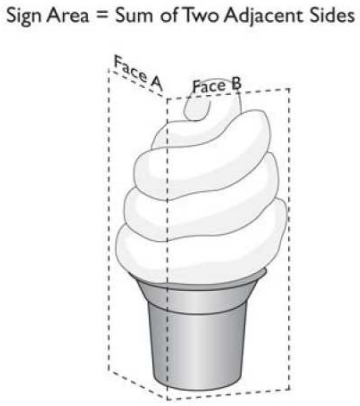

FIGURE 15-2606-A.4: THREE DIMENSIONAL SIGNS

B. **Measuring Sign Height.** The height of a sign is the vertical distance measured from the ground level directly beneath the sign to the highest point at the top of the sign

C. **Measuring Sign Clearance.** Sign clearance shall be measured as the smallest vertical distance between finished grade and the lowest point of the sign, including any framework or other embellishments.

D. **Building Frontage.** Building frontage is the building facade that directly abuts a public street, private street, parking lot driveway, or parking spaces. For buildings with two or more frontages, the length of the wall and allowable sign area shall be calculated separately for each building frontage.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2607. GENERAL STANDARDS.

A. **Identification Decal.** Every sign for which a permit is issued shall be plainly marked with the corresponding permit number issued for the sign. Tags may be displayed on signs or at the base of a structure in a visible location. Tags for freestanding or monument signs must be located on the structure between one and three feet above grade.

B. **Visibility Triangles.** No sign, permanent or temporary, flag, flagpole, etc. may be erected within the visibility triangle per Section 15-2018, Intersection Visibility.

C. **Residential and Non-Residential Interface.** Signs and flags on commercial and industrial zoned property shall be set back a minimum distance of 45 feet from a residential district.

D. **Materials and Mounting Required.**

1. **Materials.** Signs shall be made of sturdy, durable materials. Paper, cardboard, and other materials subject to rapid deterioration may only be used for temporary signs.

2. **Mounting Required.** All permanent signs shall be firmly anchored, shall comply with all requirements for public safety, and shall satisfy all applicable safety codes and all other applicable governmental enactments, rules, regulations, or policies.

E. **Message Substitution.** A non-commercial message of any type may be substituted, in whole or in part, for any duly permitted commercial message, and any on-site commercial message may be substituted, in whole or in part, for any other on-site commercial message.

1. **No Additional Approval.** Such substitution of message may be made without any additional approval, permitting, registration or notice to the City.

2. **Limitations.** This message substitution provision does not: 1) create a right to increase the total amount of signage on a parcel, lot, or land use; 2) affect the requirement that a sign structure or mounting device be properly permitted; 3) allow a change in the physical structure of a sign or its mounting device; or 4) authorize the substitution of an off-site commercial message in place of an on-site commercial message or in place of a non-commercial message.

F. **Changeable Copy.** Non-electronic changeable copy shall cover no more than 20 percent of the total sign area, except for the following uses which are allowed up to 75 percent of the maximum sign area to be changeable copy: all public and semi-public uses, indoor theaters, and fuel price signs. Copy shall not be changed more than once every 24 hours.

G. **Illumination.** The illumination of signs shall be designed, installed, and maintained to avoid negative impacts on surrounding right-of-ways and properties. The following standards shall apply to all illuminated signs:

1. **Shielding Required.** To the extent feasible, and at the discretion of the Review Authority, light sources shall be concealed or shielded to prevent or minimize light spillage, glare, momentary blindness, or other annoyance, disability, or discomfort to persons within the view of such light sources.

2. **Colored Lights.** Colored lights shall not be used at a location or in a manner so as to be confused or construed as traffic control devices.

3. **Light Sources Adjacent to Residential Areas.** Illuminated signs located adjacent to any residential area shall be controlled by a rheostat or other acceptable method to reduce glare that will create a nuisance for residential buildings in a direct line of sight to the sign.

H. **Concealed Electrical Systems.** External conduits, boxes, and other connections related to the function of a sign and associated lighting shall not be exposed. A switch disconnecting each circuit shall be placed in plain sight and near the inspection opening. (Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2608. PERMITTED SIGN TYPES BY DISTRICT.

The following table establishes the types of signs allowed by district.

TABLE 15-2608: PERMITTED SIGN TYPES BY ZONING DISTRICT							
Zoning District (Frontage)	*Permitted Sign Types*						
	Awning	*Monument*	*Pole*	*Projecting*	*Roof*	*Wall*	*Window*
Buffer, Residential, and Public and Semi-Public Districts

Notes:
1. Only permitted within the Downtown General (DTG) District along Mariposa Street between M Street and P Street or in conjunction with a legal non-conforming building that is set back from the sidewalk 30 feet or more.
2. Not allowed within 100 feet of a major street or residential district.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-43, § 9, eff. 12-9-16; Am. Ord. 2017-33, § 20, eff. 7-30-17).

SEC. 15-2609. SIGNAGE ALLOWANCES FOR SPECIFIC USES.

This section establishes signage allowances for specific uses. These signs are allowed in addition to the signs allowed by Zoning District in Section 15-2608, Standards for Signs by District and in Section 15-2609, Total Maximum Sign Area.

A. **Agricultural Operations.** Signs for agricultural operations conducted on parcels 20 acres or more in size may be erected subject to the following standards:

1. **Maximum Number of Signs.** One sign per street frontage.

2. **Location.** Shall be setback back a minimum of five feet from the public right-of-way.

3. **Maximum Sign Area per Sign.** 100 square feet in area.

4. **Maximum Sign Height.** 20 feet.

B. **Public and Semi-Public Uses.** Signs for Public and Semi-Public Uses may be erected subject to the following standards:

1. **Maximum Number of Signs.** One freestanding sign per street frontage plus one wall sign per building.

2. **Maximum Sign Area per Signs.** Freestanding signs shall not be more than 32 square feet in area. Wall signs shall not exceed 10 percent of the wall area.

3. **Height Limit, Freestanding Signs.** Five feet when located within a required front or street-side setback, eight feet otherwise.

4. **Illumination.** Signs may be internally illuminated.

C. **Residential Subdivisions.** Permanent entrance signs for residential areas with more than 10 residential parcels shall be permitted for the purpose of identifying a development subject to the following standards:

1. **Maximum Number of Signs.** Two signs per entrance from a public street plus one sign per street frontage with no entrance from a public street.

2. **Maximum Sign Area per Sign.** 32 square feet. In the case of a CUP, this area can be increased at the discretion of the Review Authority.

3. **Height Limit.** Eight feet when located within a required front or street side setback, 10 feet otherwise. In the case of a subdivision with a CUP, this height can be increased at the discretion of the Review Authority."

4. **Illumination.** Signs shall not be internally illuminated.

D. **Menu Display Boards.**

1. Menu displays, not exceeding two square feet in area mounted on a wall or in a window near the main entrance of establishments serving food to customers who eat on the premises. For free standing menu display boards, refer to Section 15-2728, Drive-In and Drive-Through Facilities.

E. **Service Stations.**

1. Signs on service station canopies are not to exceed 50 square feet on each side.

2. Freestanding or monument signs may provide electronic fuel prices. A freestanding and/or monument sign that is to be converted to an electronic fuel price sign shall comply with the size requirements and setbacks required by the Development Code.

3. Fuel prices shall be static and shall not be blinking, flashing, continuously changing colors, etc.

4. Prices shall not change more than once in a 24 hour period.

5. Only one electronic fuel price sign is permitted per site. The use of one electronic fuel price sign on a site shall not require a Master Sign Program.

6. Electronic numbers shall not exceed 24 inches in height.

F. **Theaters.**

1. Developments containing theaters are allowed one additional pole or monument sign with changeable copy. The maximum height is 20 feet and the maximum size is 80 square feet.

2. Theatres may provide additional walls signs. Said signs shall not exceed 200 square feet. Show times may be displayed electronically.

G. **Outdoor Scoreboards.** Outdoor scoreboards are allowed in public or private athletic complexes. Size and location shall consider safety and sensitivity to nearby uses (e.g., residential).

H. **Multi-Unit Residential, excluding MX, CMS, and DT Districts.** Permanent entrance signs for multi-unit residential complexes areas of 1 acre or more in size shall be permitted for the purpose of identifying a development subject to the following standards:

1. **Maximum Number of Signs.** Two signs per entrance from a public street plus one sign per street frontage with no entrance from a public street.

2. **Maximum Sign Area per Sign.** 32 square feet. In the case of a CUP, this area can be increased at the discretion of the Review Authority.

3. **Height Limit.** Eight feet when located within a required front or street side setback, 10 feet otherwise.

4. **Illumination.** Signs shall not be internally illuminated.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 22, eff. 10-21-16; Am. Ord. 2017-33, § 22, eff. 7-30-17; Am. Ord. 2018-66, §§ 41, 42, eff. 1-18-19; Am. Ord. 2025-024, § 52, eff. 7-27-25).

SEC. 15-2610. STANDARDS FOR SPECIFIC SIGN TYPES.

This section establishes location and other general standards for specific sign types that apply to all areas where such signs are permitted. Additional standards applicable to these signs in specific zoning districts or associated with specific uses are located in Sections 15-2608, Standards for Signs by District, and 15-2609, Signage Allowances for Specific Uses.

A. **Awning and Canopy Signs.** Signs painted or printed on awnings, mounted to canopies, or similar features or structures are subject to the following standards:

1. **Location.** Awnings/canopies that display signage shall be located on the ground floor of buildings.

2. **Maximum Sign Area Per Sign.** 10 square feet or 25 percent of the surface area of the awning, whichever is less. Signs mounted to canopies shall be no taller than 24 inches.

3. **Minimum Sign Clearance.** Eight feet.

4. **Illumination.** Internal illumination of awnings is prohibited.

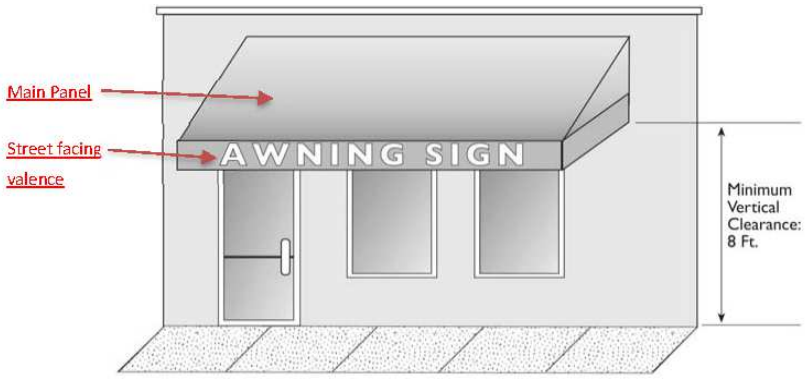

FIGURE 15-2610-A: AWNING SIGN

FIGURE 15-2610-B: CANOPY SIGN

B. **Pole Signs.** Pole signs are subject to the following standards:

1. **Maximum Number.** One per 600 feet of street frontage.
2. **Maximum Sign Area per Sign.** The sign area shall not exceed 80 square feet. In cases in which a pole sign of more than 20 feet in height is permitted per the table in subsection B-4 below, the maximum sign area shall be determined at the discretion of the Review Authority.
3. **Minimum Separation.** Pole signs shall have a minimum separation of 75 feet from any other pole sign.
4. **Required Setback.** Signs shall be setback back a minimum of ten feet from the property line. No pole sign is permitted within 660 feet of the nearest edge of any travel lane of Freeway 41, Freeway 180, Freeway 168, or any future freeway which may be opened to public travel, if any said sign is visible from any part of such travel lane.

5. **Maximum Height.** Maximum height of pole signs shall be based on the gross floor area of the habitable, enclosed, non-residential structures on the subject parcel and the classification of the adjacent or nearest street as follows:

Gross square footage	*Classification of Street*			
	Freeway	*Expressway*	*Arterial*	*Collector/Other*
300,000 or more	90 feet	80 feet	75 feet	50 feet
100,000 to 299,999	60 feet	50 feet	40 feet	25 feet
Less than 100,000	40 feet	30 feet	20 feet	20 feet

6. **Minimum Sign Clearance.** Eight feet.

7. **Landscaping Required.** All pole signs shall require landscaping at the base equivalent to two times the area of the sign copy.

8. **Lighting.** Lighting systems shall not exceed 100 foot Lamberts (FT-L) when adjacent to streets which have an average light intensity of less than 2.0 horizontal foot candles. When adjacent to streets with a greater average light intensity, systems shall not exceed 500 FT-L.

C. **Monument Signs.** Monument signs are subject to the following standards:

1. **Maximum Number.** One per 600 feet of street frontage.

2. **Maximum Sign Area per Sign.**

a. RMX, CR, CG, CH, and RBP districts: 60 square feet.

b. Other permitted districts: 32 square feet.

3. **Minimum Separation.** Monument signs shall have a minimum separation of 50 feet from any other monument sign.

4. **Required Setback.**

a. Five feet from the property line.

b. No monument sign is permitted within 660 feet of the nearest edge of any travel lane of Freeway 41 or any future freeway which may be opened to public travel, if any said sign is visible from any part of such travel lane.

5. **Height Limit.** Eight feet.

a. **Exception.** When permitted within a Downtown (DT) District: five feet.

6. **Lighting.** Lighting systems shall not exceed 100 foot Lamberts (FT-L) when adjacent to streets which have an average light intensity of less than 2.0 horizontal foot candles. When adjacent to streets with a greater average light intensity, systems shall not exceed 500 FT-L.

D. **Projecting Signs.** Signs under canopies or covers in conjunction with pedestrian walkways, or signs projecting from buildings are allowed, subject to the following additional standards:

1. **Maximum Number.** One per or tenant space per frontage.

2. **Maximum Sign Area Per Sign.**
   a. **Projecting Signs.**
      i. DT Districts: 150 square feet.
      ii. MX and CMS Districts: 50 square feet.
      iii. All Other Districts: 12 square feet.
   b. **Under Canopy or Awning Signs.** Eight square feet.
3. **Height Limit.**
   a. DT, MX, and CMS Districts: 10 feet above roof.
   b. All Other Districts: 12 feet above finished grade.
4. **Minimum Sign Clearance.** Eight feet.
5. **Projection Allowed.** A projecting sign cannot extend more than four feet from the building to which it is attached and shall be designed and located so as to cause no harm to street trees.
6. **Illumination.** Within DT, MX, and CMS Districts. If illuminated, Projecting Signs may be only illuminated by one of the following methods:
   a. **External Illumination.** Externally illuminated with decorative lamps mounted in a manner that does not block the view of the sign from the street or sidewalk.
   b. **Exposed Neon.** Individual letters may be internally illuminated with exposed neon tubes or a similar light source, but shall not have a translucent panel, lens, or face.
   c. **Halo.** The illumination of a sign by projecting light behind an opaque letter or emblem which results in the appearance of ring of light around the unilluminated letter or emblem.

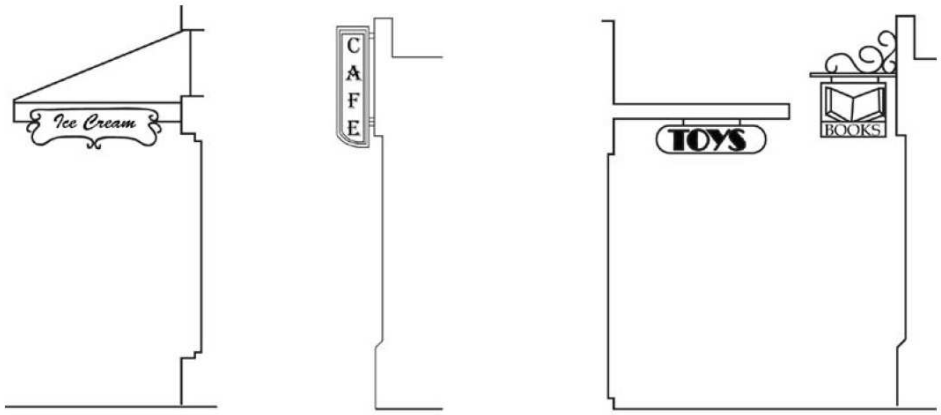

FIGURE 15-2610-D: PROJECTING SIGNS

E. **Wall Signs.** Wall signs are subject to the following standards:

1. **Maximum Number.** One per building frontage or tenant space plus one building identification sign per building frontage located on the uppermost story of a building with four or more stories.

2. **Maximum Sign Area Per Sign.** 10 percent of the wall area.

3. **Height Limit.** The top of Wall Signs shall be no higher than the following:

   a. **Downtown Districts.** Wall Signs shall not be located closer than 12 inches to the eve or parapet.

   b. **Other Districts, Buildings Which Include Residential Uses.** 20 feet or the height of the wall of the building to which the sign is attached, whichever is lower. Building identification signs located on the uppermost story of a building shall be no higher than the wall of the building to which the sign is attached.

   c. **Other Districts, Buildings Which Do Not Include Residential Uses.** The height of the wall of the building to which the sign is attached.

4. **Projection Allowed.** Wall signs shall not extend more than 12 inches beyond the face of the wall to which they are attached.

5. **Placement.**

   a. No wall sign may cover, wholly or partially, any wall opening.

   b. Wall signs shall not occupy more than 80 percent of any architectural element that they occupy (frieze, pilaster, etc.).

   c. Buildings within Downtown Districts. Wall Signs shall not be located closer than 24 inches from openings or the edge of the building façade.

6. **Orientation.** Unless a different orientation is specifically authorized, each wall-mounted sign shall be placed flat against the wall of the building.

7. **Illumination within DT and CMS Districts.** If illuminated, Wall Signs may be only illuminated by one of the following methods:

   a. **External Illumination.** Externally illuminated with decorative lamps mounted in a manner that does not block the view of the sign from the street or sidewalk.

   b. **Exposed Neon.** Individual letters may be internally illuminated with exposed neon tubes or a similar light source, but shall not have a translucent panel, lens, or face.

   c. **Halo.** The illumination of a sign by projecting light behind an opaque letter or emblem which results in the appearance of ring of light around the unilluminated letter or emblem.

FIGURE 15-2610-E: WALL SIGN

F. **Window Signs.** Window signs are subject to the following standards:

1. **Maximum Number.** One per window.
2. **Location.** Ground floor window area.
3. **Window Transparency.** A minimum 75 percent of the window shall be transparent and free of signage features. Signage inside the building is not allowed within three feet of the window.

G. **Roof Signs.** Roof signs are subject to the following standards:

1. **Maximum Number.** One per building.
2. **Maximum Sign Area Per Sign.**
   a. **Buildings Less than Five Stories in Height.** 300 square feet.
   b. **Buildings Five Stories in Height or Taller.** 500 square feet.
3. **Maximum Height.**
   a. **Buildings Less than Five Stories in Height.** 10 feet.
   b. **Buildings Five Stories in Height or Taller.** 20 feet.
4. **Projection Allowed.** Roof signs shall not project beyond the face of the building.
5. **Placement.** No roof sign may cover, wholly or partially, any wall opening.
6. **Illumination.** If illuminated, Roof Signs may be only illuminated by one of the following methods:
   a. **External Illumination.** Externally illuminated with concealed flood lighting.

b. **Exposed Neon.** Individual letters may be internally illuminated with exposed neon tubes or a similar light source, but shall not have a translucent panel, lens, or face.

c. **Halo.** The illumination of a sign by projecting light behind an opaque letter or emblem which results in the appearance of ring of light around the unilluminated letter or emblem.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 23, eff. 10-21-16; Am. Ord. 2016-43, §§ 10—12, eff. 12-9-16; Am. Ord. 2017-33, § 21, eff. 7-30-17; Am. Ord. 2018-25, §§ 22—24, eff. 6-11-18).

SEC. 15-2611. OTHER SIGNS.

A. **Sidewalk Signs.** Sidewalks signs shall comply with the standards below. A permit is not required.

1. **Quantity.** A maximum of one sidewalk sign per business is allowed.

2. **Locations.**

a. Sidewalk signs shall be located away from important paths of pedestrian travel. A five foot wide travel path shall be maintained for through pedestrian traffic, for travel from crosswalks to the primary path of through pedestrian traffic, and for travel into and out of the establishment.

b. Sidewalk signs shall not be located less than 18 inches from a curb.

c. Sidewalk signs shall not be located in front of another commercial establishment.

d. Sidewalk signs shall not be located more than 50 feet from the establishment for which it is advertising.

3. **Design:**

a. Sidewalk signs shall have no more than two sides.

b. The height of sidewalk signs shall be no less than 18 inches and no more than 36 inches.

c. The width of sidewalk signs shall be no less than 18 inches and no more than 24 inches.

d. Sidewalk signs shall not be illuminated except by ambient sources.

B. **Banners, Streamers, Moving Signs, and Inflatables.** Banners, streamers, moving signs, and inflatables (including air dancers, balloons, and similar objects) are allowed subject to Temporary Use Permit approval for establishments within Non-Residential Districts, subject to the following standards. Signs of this type do not count towards total maximum sign area.

1. **Maximum Number.** A maximum of one type of sign is allowed per Major Street frontage.

2. **Maximum Height.** If a banner is on a freestanding pole, the pole height shall not exceed 20 feet; all other signs shall not be located above the roofline.

3. **Maximum Size.** The maximum total sign area is 60 square feet.

4. **Minimum Separation.** Air-inflated signs shall have a minimum separation of one-half mile from other air-inflated signs on abutting parcels or adjacent to a Buffer or Residential Zoning District. Air inflated signs shall not exceed 20 feet in height.

5. **Duration.** No sign per this section shall be displayed for more than 30 days, and a period of 30 days must lapse before displaying another sign. Signs shall not be displayed for more than 60 total days during a calendar year.

6. **Removal.** Signs shall be removed within 24 hours of completion of the event.

C. **Temporary Subdivision Signs.**

1. **On-Site.** Temporary real estate signs advertising real property which has been subdivided for purposes of sale or lease shall be permitted, subject to the following conditions:

   a. **Maximum Number.** Four per site.

   b. **Maximum Total Sign Area.** 320 square feet plus 20 square feet for every 20 acres over 60 acres of site area.

   c. **Maximum Sign Area per Sign.** 80 square feet for sites 20 acres or less in size. 160 square feet for sites more than 20 acres in size.

   d. **Height Limit.** 16 feet.

   e. **Duration.** The sign shall remain only as long as some portion of the property advertised for sale remains unsold, or for a period of two years, whichever period is shorter. The two year period shall begin on a date determined by the Director. The Director may extend this period, but not it shall not exceed one year.

2. **Off-Site.** Temporary real estate signs directing prospective purchasers to a subdivision having lots or houses for sale may be erected and maintained on private property, with the owner's permission, provided said signs do not adversely affect the use or appearance of existing buildings or landscaping and do not create hazardous traffic conditions.

   a. **Maximum Number.** Four per subdivision.

   b. **Maximum Sign Area Per Sign.** 32 square feet.

   c. **Required Setback.** Five feet from the property line.

   d. **Location.** Within one mile of the exterior boundary of the subdivision.

   e. **Height Limit.** 12 feet.

   f. **Duration.** The sign shall remain only as long as some portion of the property advertised for sale remains unsold, or for a period of two years, whichever

period is shorter. The two year period shall begin on a date determined by the Director. The Director may provide a one-time extension, but the extended period shall not exceed one year.

3. **Subdivision Flags.** Any residential subdivision with lots for sale may display decorative flags pursuant to the following conditions:

   a. **Number and Spacing.**

      i. One flag every 60 linear feet of subdivision property along a major street (freeway, expressway, arterial, collector).

      ii. One flag every 30 linear feet of subdivision property within 660 feet of the main subdivision entrance.

      iii. One flag every 20 linear feet of the main entryway into the subdivision.

      iv. Two flags for each model home lot. These model home flags are allowed in addition to the number of flags determined by the above linear footage measurements.

   b. **Height Limit.** The maximum height of a flag pole shall be 20 feet.

   c. **Maximum Sign Area per Sign.** The maximum area of a flag shall be 24 square feet. No single dimension shall exceed eight feet.

   d. **Duration.** All pole structures and flags must be removed no later than five days after sales activity in the subdivision ceases.

   e. **Building Permit Required.** Residential subdivision flagpoles shall not be installed without issuance of a building permit, and must conform to the above listed regulations.

   f. **Standard Subdivisions.** The number, location, height, and size of flags for a standard subdivision shall be determined through Development Permit approval.

   g. **Planned Unit Developments.** The number, location, height, and size of flags for a subdivision created as a Planned Unit Development (PUD) shall be determined through the processing of a Conditional Use Permit for the PUD.

D. **Real Estate Signs.** Real estate signs are subject to the regulations below. A permit is not required. Real estate signs advertising real property for sale after being subdivided shall not be subject to this subsection, but shall be subject to Section 15-2612-C.

1. **On-Site Real Estate Signs.** On-premises signs conveying information about the sale, rental, or lease of the lot, premises, dwelling, or structure on which they are located, provided that they comply with the following standards:

   a. No more than one real estate sign per lot in residential districts, or one real estate sign per street frontage per lot in non-residential districts, is displayed at any one time;

   b. The sign or signs do not exceed an aggregate area of six square feet in residential districts or 32 square feet in non-residential districts;

c. Wall signs shall not be higher than seven feet above grade in residential districts or fifteen feet in non-residential districts. Freestanding signs shall not exceed six feet in height in residential districts or eight feet in height in non-residential districts.

d. The sign or signs are not illuminated; and

e. The sign or signs are removed within 15 days after the sale, lease, or rental of the property has been completed.

2. **Directional Signs for Open Houses.** Up to three off-site signs directing the public to "open house" events for the viewing of lots, premises, dwellings, or structures that are for sale, lease, or rent, are permitted on public or private land, provided that they comply with the following standards:

a. No sign or signs shall exceed six square feet in area, or three feet in height from finished grade.

b. The sign or signs may not be placed more than 12 hours before the start or remain more than 12 hours after the conclusion of the open house event.

c. Signs shall not inhibit circulation nor be within the visibility triangle per Section 15-2018, Intersection Visibility.

E. **Signs Associated with Projects Under Construction.** Signs located on project sites that are under construction are subject to compliance with the regulations below. A permit is not required.

1. One sign per street frontage except for projects having an excess of 500 lineal feet of street frontage, one additional sign may be allowed.

2. Signs shall be limited to a maximum of 80 square feet in area and 10 feet in height.

3. Signs shall be removed before occupancy of the site.

F. **Flags.** Free standing flagpoles or decorative flags on light posts may be installed in accordance with the following standards:

1. **Location.** Flagpoles shall not be located within any required front yard, street side or side yard setbacks. Flagpoles shall be located outside of the visibility triangle. Refer to Section 15-2018, Intersection Visibility.

2. **Maximum Flagpole Height.** The pole height shall not exceed 25 feet.

3. **Maximum Size.** The maximum total flag area is 24 square feet.

4. **Decorative Flags.** Flags may be for non-commercial purposes. Permitted flags include, but are not limited to, countries, counties, cities, etc., or decorative flags that do not contain a commercial message.

G. **Yard Signs.** Yard signs, which are typified by an impermanent nature; are usually constructed from lightweight materials (ex.: corrugated plastic); are typically located in a street-facing setback and supported by poles, stakes, or wire frames; are permitted subject to the following standards. A permit is not required.

1. **In Residential Districts.**
   a. **Maximum Size.** Signs shall not exceed six square feet in area.
   b. **Maximum Height/Width.** Signs (including support structure) shall not exceed three feet in height or width.
2. **All Other Districts.**
   a. **Maximum Size.** Signs shall not exceed 32 square feet in area.
   b. **Maximum Height/Width.** Signs (including support structure) shall not exceed eight feet in height or width.
3. **Timing.** Yard Signs relating to an event are permitted within 90 days before the event and up to 10 days after the event.
4. **Location.** Signs shall not be attached to any utility pole and such sign, or portion thereof, is not placed in any public right-of-way or on any property owned by the City. Such signs may be placed on private property with the permission of the property owner or may be attached to an existing sign on private property with the permission of the sign owner or lessee.
5. **Shall Not Obstruct.** Such signs shall not be erected in such a manner that they will, or reasonably may be expected to, interfere with, obstruct, confuse, or mislead traffic.
6. **Maintenance.** Signs not erected or maintained in accordance with the provisions of this subsection shall be the responsibility of the owner of the property upon which the sign is located, shall be deemed a public nuisance, and may be abated by such property owner, the candidate or person advocating the vote described on the sign (if applicable), or the Director. The cost of removal incurred by the Director shall be assessed against the property owner and/or, if applicable, the candidate and/or the person advocating the vote described on the sign.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 24, eff. 10-21-16).

SEC. 15-2612. MASTER SIGN PROGRAM (MSP).

A. **Projects Requiring a Master Sign Program.** A Master Sign Program is required for the following types of projects:

1. **Multi-Unit Residential.** Developments of 50 or more units.
2. **Non-Residential or Mixed-Use Projects.** All new non-residential or mixed-use projects of five or more separate non-residential tenants.
3. **Multiple Signs.** Proposals for 10 or more signs on the same building or site with two or more separate tenants.

4. **Planned Development Permit.** Any project using the Planned Development provisions of this Code.

5. **Pole Signs.** Proposals to erect a pole sign.

6. **Electronic Signs.** Signs with electronic copy.

7. **Roof Signs.** Proposals to erect a roof sign.

8. **Alternative Designs.** Projects which seek flexibility for sign designs which are of a high quality and which contribute to the attractiveness and economic viability of their surroundings, but which do not meet the standards for their location.

9. **Exceptions.** Projects within Downtown Districts for sign types described in items 1, 2, 3, 6, and 7 above shall not require a Master Sign Program.

B. **Required Submittals.** An application of approval of a Master Sign Program shall contain the following information:

1. A site plan showing the location of buildings, parking lots, driveways, and landscaped areas;

2. Computation of the maximum area for individual signs, the height of signs, and the number of freestanding signs allowed;

3. An accurate indication on the site plan of the proposed location of each proposed sign and existing sign which is to remain;

4. Color schemes, lettering, and graphic styles (if tenants are not known, generic styles may be presented);

5. Lighting and sign construction materials; and

6. Sign dimensions (if tenants are not known, generic dimensions may be presented).

C. **Review Authority.** A Master Sign Program shall be reviewed and acted upon by the Development Director. In the case of projects that require other approvals from the Planning Commission or City Council, the decision-making authority for the other approval shall be the decision-making authority for the Master Sign Program.

D. **Required Findings.** A Master Sign Program may be approved only if the following findings are made:

1. The proposed signs are compatible in style and character with any building to which the signs are to be attached, any surrounding structures, and any adjoining signage on the site;

2. Future tenants will be provided with adequate opportunities to construct, erect, or maintain a sign for identification; and

3. Directional signage and building addressing is adequate for pedestrian and vehicular circulation and emergency vehicle access.

4. Light and glare will not negatively affect nearby residential uses.

5. Additional findings for Alternative Designs which do not conform to some or all of the applicable sign standards:

   a. The sign design and materials are of equal or greater quality than existing signs in the surrounding area and the standard requirements for signs on the site;

   b. The sign design and materials of are equal or greater quality than that which is required by the applicable sign standards;

   c. The location of the sign would not be unnecessarily distracting to motorists and would not cause inconvenience to pedestrians;

   d. The design of the proposed sign(s) would contribute positively to the attractiveness of the area;

   e. The alternative design would not be incompatible with nearby residential uses;

   f. The alternative design would enhance the economic viability of its surroundings.

E. **Conditions.** Reasonable conditions of approval may be imposed by the Review Authority to achieve the purposes of this section and ensure compatibility with adjacent land uses and signage.

F. **Post-Approval Procedures.** After approval of a Master Sign Program, no signs shall be erected, placed, painted, or maintained, except in conformance with such program, and such program may be enforced in the same way as any provision in this section.

1. **Lease Agreements.** The Master Sign Program and all conditions of approval shall be attached to the lease agreements for all leasable space within a project.

2. **Individual Signs.** Any sign that conforms to an approved Master Sign Program may be approved by the Director; however, approval of a Master Sign Program does not waive the permit requirements for individual signs.

3. **Amendments.** The Director may approve minor amendments to a Master Sign Program that are in substantial conformance with the original approval. All other amendments, including amendments to conditions of approval shall be processed as a new application.

G. **Public Notice.** Public Notice shall be provided 10 days prior to the date of action pursuant to Section 15-5007.

H. **Appeals.** Master Sign Program decisions are subject to the appeal provisions of Section 15-5017, Appeals.

I. **Modifications.** Master Sign Programs may only be modified as provided for in Article 50.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, §§ 23, 24, eff. 7-30-17; Am. Ord. 2018-25, § 25, eff. 6-11-18; Am. Ord. 2018-66, § 43, eff. 1-18-19; Am. Ord. 2025-024, § 53, eff. 7-27-25).

SEC. 15-2613. HISTORIC SIGNS.

A. **Designation.** The Council may designate historic signs following a duly-noticed public hearing and a recommendation from the Historic Preservation Commission.

B. **Criteria.** Historic signs must meet defined criteria, including, but not limited to, the fact that the sign is 50 or more years old and has significance to the Fresno community because it is associated with a significant historical event or it is associated with a historic business.

C. **Allowances for Historic Signs.**

1. **Structural Improvements.** Historic signs may have structural improvements completed in order to extend the life of the sign.
2. **Damage Repairs.** If the sign is damaged, it may be repaired and replaced with the original sign area and original height, even if the sign does not conform to the standards of this article.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2614. ELECTRONIC COPY.

Electronic copy is subject to approval of a Master Sign Program and the following standards:

A. **Display Duration.** Copy display is limited to a minimum duration of eight seconds and shall have an unlighted interval between copy displays of one second or more.

B. **Light Intensity.** The intensity of the sign lighting shall not exceed 100 foot Lamberts (FT-L) when adjacent to streets which have an average light intensity of less than 2.0 horizontal footcandles and shall not exceed 500 FT-L when adjacent to streets which have an average light intensity of 2.0 horizontal footcandles or greater. No change of lighting intensity may occur during a display or between displays except to respond to a change in ambient lighting conditions.

C. The use of one electronic fuel price sign on a site shall not require a Master Sign Program.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 44, eff. 1-18-19).

SEC. 15-2615. NON-CONFORMING SIGNS.

All permanent signs which were erected and in existence prior to the effective date of this section or prior to annexation to the city, and which were at the time of such erection or establishment in compliance with all applicable statues and ordinances, are non-conforming signs and subject to the provisions of Article 4, Non-Conforming Uses, Structures, Site Features, and Lots, and the following:

A. **Continuance and Maintenance.** Non-conforming signs that were legal when first installed, and which have not been modified so as to become illegal, may be continued, except as otherwise provided for in this subsection.

1. Routine maintenance and repairs may be performed on signs that are non-conforming.

2. A sign that did not conform to law existing at the time of its erection shall be deemed an illegal sign and shall not be a non-conforming sign. The passage of time shall not cure illegality from the outset.

B. **Alterations and Additions to Non-Conforming Signs.** No non-conforming sign shall be moved, altered, or enlarged unless required by law or unless the moving, alteration or enlargement will result in the elimination of the nonconformity.

C. **Restoration of a Damaged Sign.** Whenever a non-conforming sign is destroyed by fire or other calamity to the extent of 50 percent or less, the sign may be restored to display the pre-existing sign area and the non-conforming use of the sign may be resumed, provided that restoration is started within one year and diligently pursued to completion and the height of the restored sign conforms to the standards of this article.

1. Whenever a non-conforming sign is destroyed by fire or other calamity to a greater extent than 50 percent, or is voluntarily razed or shall be required by law to be razed, the sign shall not be restored except in full conformity with this article.

D. **Signs Rendered Non-Conforming by Annexation.** Any sign that becomes non-conforming subsequent to the effective date of this Code by reason of annexation to the city of the territory upon which the sign is located, shall be subject to the provisions of this article.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2616. MAINTENANCE OF SIGNS.

All signs and associated supporting structures shall be maintained in good condition, without rips, tears, and similar damage.

A. **Deteriorated Signs.** Any sign or sign structure that is sagging, leaning, fallen, decayed, broken, deteriorated, or in an otherwise dilapidated condition shall be promptly repaired, to the satisfaction of the City, or removed.

B. **Graffiti.** Graffiti on a sign shall be removed within 48 hours of notice of its placement on such sign.

C. **Maintenance Standards.** All parts, portions, units, and materials composing a sign, together with the frame, background, surface, support, or enclosure shall be maintained in a safe condition, painted, and adequately protected from weathering with all braces, bolts, and structural parts, supporting frames, and fastenings reasonably free from deterioration, rot, rust, and loosening so that they do not create a hazard to persons, or property or constitute a nuisance.

D. **Summary Removal of Hazards.** Whenever any sign, by virtue of its physical nature and condition, poses an immediate and serious threat to the public safety, it

may be removed by City personnel, or have its physical deficiency cured, to the extent necessary to protect the public safety. The cost of such removal or repair shall be assessed against the sign owner.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2617. REMOVAL OF SIGNS.

A. **Signs That Have Been Abandoned.** An on-site sign that identifies a business, lessor, or owner whose use of the premises has ceased for a period of not less than 60 days shall be removed by the owner or lessee of the premises upon which the sign is located. Any sign and, if applicable, its supporting structure (e.g., pole) not removed within the required period shall constitute a nuisance and shall be removed.

B. **Demolition or Clearance of the Site.** Should a site be cleared, signs, including poles, foundations, etc., shall be removed. This includes sites that are cleared for redevelopment.

C. **Non-Conforming Sign Removal.** See Section 15-2615, Non-Conforming Signs.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-2767. Water Wells.
Sec. 15-2768. Wrecking Yards and Auto Dismantling.

SEC. 15-2701. PURPOSE.

The purpose of this article is to establish standards for specific uses and activities that are permitted or conditionally permitted in some or all districts. These provisions are supplemental standards and requirements to minimize the impacts of these uses and activities on surrounding properties and to protect the health, safety, and welfare of their occupants and of the general public.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2702. APPLICABILITY.

A. Each land use and activity covered by this article shall comply with the requirements of the section applicable to the specific use or activity.

B. The uses that are subject to the standards in this article are allowed only when authorized by the base district regulations, except where this article establishes a different planning permit requirement for a specific use.

C. When there is a conflict between the provisions of this article and a Conditional Use Permit which was granted prior to the effective date of this Code, the Conditional Use Permit shall prevail.

D. **Existing Specific Uses and Activities.** Unless otherwise noted, the following shall apply:

1. Land uses and activities covered by this article which were in place prior to the adoption of this Code which are not considered to be Non-Conforming uses under

section 15-402 shall be subject to all operational standards, including, but not limited to, hours of operation, litter and graffiti removal, product restrictions, and similar regulations within two years of the effective date of this Code, unless otherwise specified.

2. Legal Non-Conforming uses shall be subject to all operational standards, including, but not limited to, hours of operation, litter and graffiti removal, product restrictions, and similar regulations. Legal Non-Conforming uses shall not be subject to requirements of this article which affect permanent physical improvements which existed on the site prior to the adoption of this Code.

E. **Permit Required.** Specific Uses and Activities which are required by this Article to make physical improvements to a structure or site shall be subject to a Development Permit as put forth in Article 52.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 45, eff. 1-18-19).

SEC. 15-2703. ACCESSORY USES.

An accessory use shall be incidental, related, appropriate, and clearly subordinate to the principal use or building to which it relates; under the same regulations applied to the principal use in any zoning district; and where the accessory use does not alter the principal use. These regulations are found in the use regulations tables in Part II, Base and Overlay Districts, and may be subject to specific standards found in this article or within each district, as specified in the tables. Accessory uses and structures are also subject to the development and site regulations found in Article 20, General Site Regulations.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2704. ABANDONED SERVICE STATIONS AND CARWASHES.

A. **Abandonment.** Any service station and/or carwash shall, in the case of abandonment or non-operation of the primary use, be declared a Public Nuisance and shall be dismantled and the site cleared within 12 months subsequent to the close of the last business day or whenever the facility stops selling fuel, whichever occurs first.

1. **Exception.** Any service stations or carwashes certified on the Local Official Register of Historic Resources.

B. **Conversions of Service Stations.** A Discretionary Permit authorizing the conversion of a service station to any other use shall be subject to the following:

1. Ancillary equipment, not including the main building, including all pumps, pump islands, fuel pump canopies, signs, insignias, trademarks, their supporting structures, mountings, foundations, and gas price signs, and all other above-ground improvements which are uniquely associated with service station and/or carwash operations shall be dismantled and removed from the site to a waste disposal or recycling facility permitted for receipt of such debris.

2. Pumps and pipes related to the delivery and disposal of petroleum products shall be removed.

3. Aboveground and underground apparatus need to be removed in accordance with directives of all regulatory agencies.

4. The converted service station and/or carwash site shall be resurfaced and landscaped in a manner appropriate to the proposed use.

C. **Site Clearance.** Should the site be cleared, all equipment per Subsection B above, including signs shall be removed.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2705. ADULT-ORIENTED BUSINESSES.

A. **Purpose.** Certain types of Adult-Oriented Businesses possess characteristics that may be determined to be objectionable, and, when concentrated, may be found to have a deleterious effect upon adjacent areas. Therefore, special regulation of these uses is necessary to ensure that these adverse effects will not contribute to the blighting or downgrading of the surrounding neighborhood nor create an adverse effect on minors.

B. **Public Nudity.** Refer to Section 9-2602 of the Municipal Code.

C. **Criteria for Granting a Conditional Use Permit.** Where an Adult-Oriented Business is conditionally permitted by the zoning district regulations, the Planning Commission, or City Council upon appeal, shall approve a Conditional Use Permit only if it finds that the proposed facility or use complies with the regulations specified in this section. Reasonable conditions may be imposed, such as limitation on hours of operation, exterior lighting, display materials, and other similar conditions, as may be necessary to protect the public health, safety, and welfare.

D. **Standards.** Adult-Oriented Businesses shall comply with all applicable State and federal laws in addition to the following development and operational standards.

1. **Location.** Adult-Oriented Businesses shall be located the following minimum distances:

   a. From any Residential District or existing residence: 1,000 feet.

   b. From any educational institution, including, but not limited to, public or private schools, nursery schools or child-care nurseries, religious and/or cultural institution or, private or public park: 1,000 feet.

   c. From another Adult-Oriented Business: 1,000 feet. This minimum separation requirement shall not apply to businesses forced to relocate due to a public taking of property for a public infrastructure project.

2. **Hours of Operation.** Hours of operation of the business shall be limited to the time period between 8 a.m. and 10 p.m. on Sunday, Monday, Tuesday, Wednesday and Thursday, and from 8 a.m.to 11 p.m. on Friday and Saturday.

3. **Display.** No Adult-Oriented Business shall display or exhibit any material in a manner which exposes to the public view photographs or illustrations of specified sexual activities or naked adults in poses which emphasize or direct the viewer's attention to the subject's genitals. Adult newsracks are subject to this limitation.

4. **Security Program.** An on-site security program shall be prepared and implemented as follows:

   a. **Exterior Lighting.** All off-street parking areas and building entries serving an adult business shall be illuminated during all hours of operation with a minimum maintained horizontal illumination of one foot-candle of light on the parking surface and/or walkway.

   b. **Interior Lighting.** All interior portions of the adult business, except those devoted to mini-motion or motion pictures, shall be illuminated during all hours of operation with a lighting system that provides a minimum maintained horizontal illumination of not less than two foot-candles of light on the floor surface.

   c. **Security Guards.** Security guards for adult businesses may be required if it is determined by the Fresno Police Department that their presence is necessary in order to prevent any unlawful conduct from occurring on the premises.

E. **Site Conditions.**

1. **Façade.** For existing buildings, pictures of the building(s) must be provided to the City upon submittal of a Conditional Use Permit application. The exterior of the building(s) may be required to be repainted and repaired if needed.

2. **Landscaping.** The site shall comply with all landscaping requirements in place at the time of application.

3. **Litter.** The exterior, including all signs and accessory buildings and structures, shall be maintained free of litter at all times. The owner or operator shall provide for daily removal of trash, litter, and debris from premises and on all abutting sidewalks within 20 feet of the premises.

4. **Graffiti.** The owner or operator shall remove graffiti within 48 hours.

5. **Pay Telephones.** Pay phones shall comply with Section 15-2746, Pay Phones.

F. **Definitions.** Unless otherwise specifically provided, the terms used in this section shall have the following meanings:

1. **Specified Sexual Activities.** Specified sexual activities means:

   a. Actual or simulated sexual intercourse, oral copulation, anal intercourse, oral anal copulation, bestiality, direct physical stimulation of unclothed genitals, flagellation or torture in the context of sexual relationship, or the use of excretory functions in the context of a sexual relationship, and any of the

following depicted sexually oriented acts or conduct: analingus, buggery, coprophagy, coprophilia, cunnilingus, fellatio, necrophilia, pederasty, pedophilia, piquerism, sapphism or zooerasty;

b. Clearly depicted human genitals in a state of sexual stimulation, arousal, or tumescence;

c. Use of human or animal masturbation, sodomy, oral copulation, coitus, or ejaculation;

d. Fondling or touching of nude human genitals, pubic region, buttocks, or female breast;

e. Masochism, erotic or sexually oriented torture, beating, or infliction of pain;

f. Erotic or lewd touching, fondling, or other contact with an animal by a human being;

g. Human excretion, urination, menstruation, vaginal, or anal irrigation in the context of a sexual relationship;

h. Any combination of the above items a through g.

2. **Specified Anatomical Areas.** Specified anatomical areas means less than completely and opaquely covered:

a. Mature human genitals,

b. Mature human buttock,

c. Mature human female breast below a point immediately above the top of the areola;

d. Human male genitals in a discernibly turgid state, even if completely and opaquely covered.

3. Exposes to Public View. Exposes to the view of persons outside the building in which such adult entertainment facility is located.

G. **Adult-Oriented Business Types.** Adult-Oriented Businesses include, but are not limited to the following types of businesses.

1. **Adult Newsrack.** Any coin-operated machine or device that dispenses material substantially devoted to the depiction of "specified sexual activities" or "specified anatomical areas."

2. **Adult Bookstore.** Any building, or portion thereof, where space devoted to adult materials composes 25 percent or more or 500 square feet, whichever is less, of any one or more of the following:

a. Wall space;

b. Any display area other than wall space (e.g. tables, racks, and/or any other display areas or structures) or stock in trade (inventories not on display, but on site).

3. **Adult Entertainment Facility.** An adult newsrack, adult bookstore, adult motion picture theater, adult hotel or motel, adult motion picture arcade, cabaret, model studio, sexual encounter center, or any other sex business, or any combination of two or more of such uses.

4. **Adult Motion Picture Arcade.** Any place to which the public is permitted or invited wherein coin- or slug-operated or electronically, electrically, or mechanically controlled still or motion picture machines, projectors, or other image-producing devices are maintained to show images where the images so displayed are distinguished or characterized by an emphasis on depicting or describing "specified sexual activities" or "specified anatomical areas."

5. **Adult Motion Picture Theater.** A building or portion thereof, or area, whether open or enclosed, used for presenting material in the form of motion picture film, videotape, or other means which is substantially devoted to the depiction of "specified sexual activities" or "specified anatomical areas" for observation by persons therein.

6. **Adult Novelty Store.** A building, or portion thereof, in which 25 percent or more of the display area for devices, instruments, or paraphernalia is used for the distribution, sale, offer for sale and/or rental or offer for rental of any device, instrument, or paraphernalia evidently designed or marketed for sexual stimulation of human genital organs or for sadomasochistic use or abuse of themselves or others. Such devices, instruments, or paraphernalia include, but are not limited to, phallic-shaped vibrators, dildos, muzzles, whips, chains, bather restraints, racks, non-medical enema kits, body-piercing implements (excluding earrings or other decorative jewelry) or other evident tools of sadomasochistic abuse.

7. **Adult Video Store.** A building, or portion thereof, in which 25 percent or more of any one or more of the following: Wall space or any display area other than wall space (e.g. tables, racks, and/or any other display areas or structures) or stock in trade (inventories not on display but on site) or gross revenues or advertising and other promotion of video, video cassettes, slides, tapes, films, compact discs, Blu-ray, etc., motion pictures in which 25 percent or more of the description, display time, or depiction is devoted to the presentation of "specified sexual activities" or "specified anatomical areas" as defined in this article.

8. **Cabaret.** A nightclub, theater, or other establishment which features live performances by topless and/or bottomless dancers, "go-go" dancers, exotic dancers, strippers or similar entertainers, where such performances are distinguished or characterized by an emphasis on "specified sexual activities" or "specified anatomical areas."

9. **Model Studio.** Any business where, for any form of consideration or gratuity, figure models who display "specified anatomical areas" are provided to be observed, sketched, drawn, painted, sculptured, photographed, or similarly depicted by persons paying such consideration or gratuity. This does not include accredited educational institutions which may employ models in fine art courses.

10. **Sexual Encounter Center.** Any business, agency, or person who, for any form of consideration or gratuity, provides a place where two or more persons, not all members of the same family, may congregate, assemble, or associate for the purpose of engaging in "specified sexual activities" or exposing "specified anatomical areas."

11. **Other Sex Business.** Any other business or establishment which offers its patrons goods, services, or entertainment, or any combination thereof, characterized by an emphasis on matter depicting, describing, or relating to "specified sexual activities" or "specified anatomical areas," including such types of business known as adult dance studios, men's social clubs, and music studios which meet such definition.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2706. ALCOHOL SALES—THE RESPONSIBLE NEIGHBORHOOD MARKET ACT.

A. **Regulations for On-Site Consumption.** Refer to Section 15-2751, Restaurants with Alcohol Sales, Bars, Nightclubs, and Lounges for standards.

B. **Regulations for Wholesalers.** Operators who hold a Type 17 ABC license for the purpose of selling beer and wine to retailers or a Type 18 ABC license for the purpose of selling distilled spirits to retailers, who meet the definition of a "wholesaler" within the meaning of California Business and Professions code section 23021, and who are located within the City of Fresno are subject to the following restrictions:

1. Wholesalers shall not supply establishments (as defined below) with any items that would violate this section of the Fresno Municipal Code.

C. **Purpose.** The following regulations, known as "The Responsible Neighborhood Market Act," are for establishments that sell alcoholic beverages for off-site consumption not otherwise exempt under Section 15-2706.D.2 (henceforth "establishment"). These establishments possess certain characteristics that have the potential to cause deleterious effects and nuisances on surrounding neighborhoods and businesses, especially when such establishments are concentrated near one another. In order to ensure that establishments operate in a manner that is mutually beneficial to surrounding uses and to also provide mechanisms to prevent and correct any associated problems, the following special regulations are provided.

D. **Applicability.**

1. **New or Expanded Use.** Any proposed new establishment or any existing establishment that requests to modify their alcohol or business license type(s), reinstate their alcohol or business license(s) after an expiration or revocation, extend their hours of alcohol sales, or expand their floor area for retail sales of alcohol, shall obtain a Conditional Use Permit issued in compliance with the standards of this section. An existing establishment that expands their floor area for non-alcohol related retail sales is allowed to retain the conditions on their existing Conditional Use Permit in relation to alcohol requirements. Should an establishment not comply with the strict application of the regulations provided for in this section, said improvements shall be made prior to commencing the sale of alcoholic beverages. Violation of these standards at any time may result in the revocation of a Conditional Use Permit.

2. **Exemptions.** This section does not apply to the following:

    a. Establishments that serve alcohol for on-site consumption, where an off-site sales component is incidental to the main use and as permitted through an establishment's ABC Conditional Use Permit License Type.

    b. Temporary uses issued a Temporary License by the California Department of Alcoholic Beverage Control and established in compliance with all City laws and ordinances.

3. **Conditional Use Permit.** Conditional Use Permits issued pursuant to this section shall also be subject to the following:

    a. ABC Conditional Use Permit:

        i. Establishments seeking to sell alcoholic beverages for off-site consumption, whether as a new or expanded use, shall obtain a Conditional Use Permit for alcohol sales.

E. **Modifications to Existing Establishments.** A modification to an existing establishment shall not be approved when a condition exists that has caused or resulted in repeated activities that are harmful to the health, peace, or safety of persons residing or working in the surrounding area.

F. **Location Restrictions for New Establishments.** The following location restrictions apply to new establishments, unless the establishment can be found qualified for exception by the Review Authority. These location restrictions shall apply to existing establishments that must obtain a CUP pursuant to this ordinance due to proposed expansion or improvement of an existing use that is currently operating pursuant to a CUP issued prior to the effective date of this ordinance unless the proposed expansion or improvement is only with respect to a necessary repair, or bringing the existing establishment into compliance with current building codes, including but not limited to the California Building Code, the California Fire Code, and the California Electrical Code, as may be amended and any local amendments thereto.

1. **Near Sensitive Uses.** The establishment shall not be located within 1,000 feet of the following:

    a. A public park, playground, recreational area including a trail that is immediately adjacent to a public park, or youth facility, including a nursery school, preschool, or day care facility;

    b. A public or private State-licensed or accredited school; or

    c. An alcohol or other drug abuse recovery or treatment facility.

2. **Near Other Alcoholic Beverage Establishments.** The establishment shall not be located within 1,000 feet of an existing establishment, nor may it lead to a grouping of more than four establishments within a 1,000 foot radius. Notwithstanding this

requirement, an establishment shall not be located within 500 feet of an existing establishment when an establishment is located in a Census Tract that is not oversaturated with off-sale licenses.

3. **Within High Crime Areas.** The establishment shall not be located in an area of high crime, as defined by the California Business and Professions Code 23958.4(a)(1) et seq., and as determined by the Department of Alcoholic Beverage Control.

4. **Within High Concentration Areas.** The establishment shall not be located in an area of high concentration, as defined by the California Business and Professions Code 23958.4(a)(3) et seq., and as determined by the Department of Alcoholic Beverage Control.

5. **Citywide Ratio.** No establishment shall be granted a Conditional Use Permit under this Section if the number of sites selling alcohol for off-site consumption will exceed one license per 2,500 residents. This ratio requirement shall not apply to: (1) existing establishments that must obtain a CUP pursuant to this ordinance due to proposed expansion or improvement of an existing use that is currently operating pursuant to a CUP issued prior to the effective date of this ordinance; (2) new establishments that utilize the Cancel and Transfer provisions stated in Section S., below: or (3) an existing establishment that is in good standing which has a change in the ABC License holder, specifically partner franchisees.

6. **Exceptions.** A new establishment may be excepted from location restrictions if the Review Authority determines all of the following:

   a. The proposed use is not located within an area in which the Chief of Police has determined, based upon quantifiable information, that the proposed use: (a) would be detrimental to the public health, safety, or welfare of persons located in the area; or (b) would increase the severity of existing law enforcement or public nuisance problems in the area.

   b. The proposed off-premises sale of alcoholic beverages is incidental and appurtenant to a larger retail use and provides for a more complete and convenient shopping experience.

   c. The proposed outlet for the off-premises sale of alcoholic beverages would act as a public convenience or necessity to an underserved portion of the community and/or enhance the vitality of an existing commercial area without presenting a significant adverse impact on public health or safety.

   d. The primary use of the establishment, based on information provided by the applicant, has been determined by the Review Authority to meet the definition of a General Market including a supermarket, neighborhood grocery store or a Healthy Food Grocer.

7. **Existing establishment relocation exception.** An existing establishment that relocates and holds a Conditional Use Permit pursuant to this ordinance may be excepted from the location restrictions if the proposed relocation is located: (a) across

the street and within a 1/4 mile radius of the current location; (b) within the same Council District: (c) within the same Census Tract: (d) not within 500 feet of a nursery school, preschool, a public or private State-licensed or accredited school or daycare facility; and (e) not in an area of high crime, as defined by the California Business and Professions Code 23958.4(a)(1) et seq., and as determined by the Department of Alcoholic Beverage Control. The original location will be required to forfeit its existing alcohol entitlements for the original location. Written notice shall be provided to all property owners within a 1,500-foot radius of the subject property for the proposed relocation.

8. **Full-Service Grocery Store exception.** New establishments may be excepted from the location restrictions if the primary use of the establishment, based on information provided by the applicant, that has been determined by the Review Authority to meet the definition of a Full-Service Grocery Store, including a supermarket, neighborhood grocery store or a Healthy Food Grocer as defined in the Fresno Municipal Code.

G. **Landscaping.**

1. **New Buildings.** Landscaping shall be provided per the underlying District.

2. **Existing Buildings.** Perimeter landscaping and Parking Lot Shading shall be provided per the underlying district. The Review Authority, at their discretion, may make exceptions to the prescribed standards, however in no case shall the reduction result in a net reduction of 35 percent or greater in the amount of landscaping provided. Landscaping may also be aggregated to minimize the impact on existing parking areas.

H. **Lighting.** The exterior of the premise, including adjacent public sidewalks and all parking lots under the control of the establishment, shall be illuminated during all hours of darkness during which the premises are open for business in a manner so that persons standing in those areas at night are identifiable by law enforcement personnel. However, required illumination shall be placed and/or shielded in a way that minimizes interference with the neighboring residences.

I. **Litter and Graffiti.**

1. Trash and recycling receptacles shall be provided by public entrances and exits from the building.

2. The owner or operator shall provide for daily removal of trash, litter, and debris from premises and on all abutting sidewalks within 20 feet of the premises.

3. The owner or operator shall remove graffiti within 48 hours.

J. **Pay Phones and Vending Machines.** External pay phones and snack vending machines are prohibited.

K. **Video Surveillance.**

1. Establishments must equip a fully functional color digital video camera system.
2. The system must continuously record, store, and be capable of playing back images and be fully functional at all times, including during any hours the business is closed. The system must be maintained in a secured location inside of the business.
3. The system shall have the correct date and time stamped onto the image at all times.
4. The camera storage capacity should be for at least two weeks (14 calendar days). Such cameras must be capable of producing a retrievable and identifiable image than can be made a permanent record and that can be enlarged through projection or other means.
5. If utilizing a digital video recorder, it must be capable of storing at least 14 days of real-time activities.
6. The system shall be capable of producing a CD or digital playback feature and may be provided to an authorized representative of the Fresno Police Department within 24 hours of the initial request relating to a criminal investigation only.
7. The interior of the business must have at least one camera placed to focus on each cash register transaction to include the clerk as well as the customer waiting area.
8. There shall be four exterior cameras placed so as to record activities in the primary customer parking areas of their business. These cameras should be of sufficient quality to be able to identify persons and or vehicles utilizing the business parking lot.
9. All interior cameras shall record in color.
10. All exterior cameras shall record in color and have automatic low light switching capabilities to black and white. Exterior cameras should be in weatherproof enclosures and located in a manner that will prevent or reduce the possibility of vandalism.

L. **Signage.**

1. The provisions specified under Article 26, Signs and this subsection shall apply. Where conflict may occur between the provisions of Article 26 and this subsection, the more restrictive provisions shall govern.
2. The following copy is required to be prominently posted in a readily visible manner on an interior wall or fixture and not on windows:
    a. "California State Law Prohibits the Sale of Alcoholic Beverages to Persons Under 21 Years of Age."
    b. "No Loitering is Allowed On or In Front of These Premises."
    c. "No Open Alcoholic Beverage Containers are Allowed on These Premises."

3. No more than 5 percent of the square footage of each window and clear door that is visible to the public from a public thoroughfare, sidewalk, or parking lot of an off-sale alcohol retail outlet shall bear advertising, signs, or other obstructions of any sort.

    a. The area covered by signs or advertising includes all clear areas within signs or advertising, such as the clear area within neon signs.

    b. Signage, advertising, or other obstructions inside or outside the establishment that are not physically attached to the windows or doors, but are visible from a public thoroughfare, sidewalk, or parking lot in the same manner as if they were physically attached is included in the 5 percent limitation.

    c. Any signage required by law shall not count towards the 5 percent limitation, but shall nonetheless follow rules related to visual obstruction.

4. Advertising and signage on windows and clear doors shall be placed and maintained in a manner that ensures that law enforcement personnel have a clear and unobstructed view of the interior of the outlets, including the area in which the cash registers are maintained, from exterior public sidewalks, parking lots, or entrance to the outlets.

5. Any establishment located within 250 feet of a sensitive use, as listed in Subsection E.1, shall not advertise alcohol sales in a manner visible from the outside of the establishment, such as from a public thoroughfare, sidewalk, or parking lot.

6. Displays of alcoholic beverages, freestanding advertising structures of any kind such as cardboard floor stands, or other free-standing signs shall be prohibited within 10 feet of consumer entrance points, shall not be visible from the exterior of the establishment, and shall be prohibited on the exterior of the establishment.

M. **Loitering and Other Nuisance Activities.** The operation of the establishment shall not result in repeated nuisance activities on the property, which may include, but are not limited to, repeated disturbances of the peace, illegal drug activity, public drunkenness, drinking in public, alcoholic beverage and tobacco sales to minors, harassment of passerby, gambling, prostitution, sale of stolen goods, public urination, theft, assaults, batteries, acts of vandalism, loitering, excessive littering, graffiti, illegal parking, excessive loud noises (especially in the late night or early morning hours), traffic violations, curfew violations, lewd conduct, or other violations of City, State, or federal laws, especially when contributing to a proportionally high rate of police reports and arrests to the area. This section shall not apply to operators where offenses are the result of third party conduct beyond the operators' control.

N. **Training.** The owners and all employees of the establishment who are involved in the sale of alcoholic beverages must complete approved course(s) in training of liquor sales and handling within sixty days after approval of the Conditional Use Permit becomes final, or for employees hired after the approval of the Conditional Use Permit, within sixty days from the

date of hire. To satisfy this requirement, a certified program must meet the standards of the California Coordinating Council on Responsible Beverage Service (CCC/RBS) or other certifying or licensing body designated by the State of California.

O. **Compliance with Laws.** The establishment must remain in compliance with all local, State, and federal laws, regulations, and orders, as well as all conditions of approval imposed on the use. This includes compliance with annual City business license fees. In the event of non-compliance, the operator shall be given written notice by the City and an opportunity to cure. Article 63 of Chapter 15, regarding Enforcement of the Citywide Development Code shall also apply in relation to compliance issues, in addition to the annual inspection requirements listed within Section R, below.

P. **Posting of Conditions.** A copy of all conditions of approval and training requirements shall either be posted in a conspicuous and unobstructed place near the entrance, cashier counter, or customer service area of the establishment or posted in an employee area and provided upon request (e.g. via flyer or brochure) to patrons and enforcement officials.

Q. **Prohibited Products.** The sale or distribution of one or more of the following shall be prohibited.

1. Wine in containers of less than 750 milliliters.
2. Single containers of beer, malt liquor, wine coolers, and similar alcoholic beverages not in original factory packages of three-packs or greater, subject to the following exception:
   a. Craft beer which is originally packaged in a single 22 oz. bottle.
3. Distilled spirits in containers of less than 375 milliliters.
4. Paper or plastic cups in quantities less than their usual and customary packaging.

R. **Additional Requirements.**

1. The Director may require the applicant to submit additional information, of such type and in such form as the Director may specify, as the Director may deem relevant to the application, including, but not limited to, an operational statement, floor plans, architectural renderings, and technical studies, as appropriate.
2. The Director may refer the application to other City departments to determine whether the establishment's location will comply with building, health, zoning, and fire ordinances or other applicable ordinances or laws. City departments may conduct an inspection of the premises to determine compliance with the ordinances and other laws they administer, and may subsequently prepare reports summarizing their inspections and recommend whether to approve or deny the application based on their inspections.
3. Additional and/or security measures such as reduced hours of operation, security guards, door monitors, and burglar alarm systems may be required if harm,

nuisance, or related problems are demonstrated to occur as a result of business practices or operations. This will be determined on a case-by-case basis upon review by the Police Department.

4. Establishments shall not acquire an ABC license for use that has been temporarily surrendered by another establishment in any jurisdiction, or is from an establishment located outside the City of Fresno or a County island within the City of Fresno. Establishments must comply with the Cancel and Transfer provisions, set forth below, which require an establishment to acquire active ABC licenses from overconcentrated areas in the City of Fresno.

5. Establishments shall be subject to annual inspection to ensure compliance with this Section and any additional conditions of the Conditional Use Permit. If an annual inspection results in a finding that an operator is not in compliance with this section or the specific conditions of the CUP, that finding may be used as a basis for revoking the CUP. An establishment that is subject to a revocation proceeding will be referred to the Responsible Neighborhood Market Act Committee for review and prior to the start of the revocation process.

    a. If an operator is determined to be out of compliance with this section or the specific conditions of the CUP, that operator shall be subject to administrative fines set forth in the Master Fee Schedule as may be amended; the fine structure shall consist of progressively higher fines for violations occurring within twelve months of a prior violation, and upon the fourth violation being upheld within a three year period of the first violation, the CUP for the business shall be subject to revocation.

    b. If an establishment operating under an existing ABC license is purchased by a unassociated and unrelated new operator seeking to continue operation of the establishment, and the new operator is not subject to administrative fines as set forth above at any other establishment in the City, the City Manager, with concurrence of the City Attorney, may waive any administrative fines imposed upon the existing establishment upon transfer to the new operator, if the new operator agrees to and obtains a new CUP.

S. **Cancel and Transfer.**

1. New establishments shall transfer and cancel ABC licenses in good standing as set forth in Table 15-2706 below, from within a Council District identified as having an overconcentration of ABC licenses for off-sale use, as determined by the Director following review of data prepared by the California Department of Alcoholic Beverage Control. The ABC license will be submitted to the Alcoholic Beverage Control for permanent cancellation. A canceled ABC license cannot be reactivated or reinstated.

TABLE 15-2706: CANCEL AND TRANSFER RATIO

Retail Floor Area	*Transfer*	*Cancel*
Less than 10,000 square feet	2	1
10,000 to 30,000 square feet	3	2
More than 30,000 square feet	4	3

2. Each ABC license that is canceled also includes surrender of the alcohol-sales portion of all related Conditional Use Permits and waiver of any legal non-conforming use rights related to the sale of alcohol for off-site consumption.

3. Exemptions.

   a. The Cancel and Transfer requirements shall not apply when an establishment is required to relocate as the result of a taking by eminent domain and a license transfer to a new establishment site is necessary due to such taking.

   b. Existing establishments that seek to expand their floor area or extend their operating hours.

   c. Existing establishments that seek to relocate if the proposed relocation meets the requirements of Section 15-2706.F.7.

   d. Establishments with the primary use, based on information provided by the applicant, that has been determined by the Review Authority to meet the definition of a Full-Service Grocery Store, including a supermarket, neighborhood grocery store or a Healthy Food Grocer as defined in the Fresno Municipal Code.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2020-045, § 1, eff. 11-15-20; Am. Ord. 2021-050, § 1, 1-17-22; Am. Ord. 2024-015, § 1, eff. 7-11-24).

SEC. 15-2707. ANIMAL KEEPING.

Animal keeping is allowed as an accessory use to a primary residential use. Animals may be kept in compliance with the following standards. Enforcement of this section is the duty of the Poundmaster (FMC 10-302). Other regulations related to animals are located under FMC 10-200 et seq. and FMC-300 et seq.

A. **Pre-Existing Uses.** Any legally established non-conforming animal keeping use shall be allowed to continue however animals may not be replaced after they are removed from the home and/or are deceased.

B. **Lots of 36,000 Square Feet or Less in Residential Districts.** Household Pets are permitted subject to the following.

   1. **Permitted Household Pets.** Household Pets such as domestic dogs, cats, birds, etc., that are ordinarily permitted inside of a dwelling and kept only for

the company and pleasure provided to the occupants shall be permitted. Owners must ensure that the keeping of permitted animals shall not create a health or nuisance problem.

a. **Cats or Dogs.** At no time shall the number of cats or dogs exceed a total of four animals in any combination over the age of four months.

b. **Aviaries (Raising for Non-Commercial Purposes).** Not to exceed 24 animals.

c. **Falcons.** Permitted with a valid falconry license issued by the California Department of Fish and Game.

d. **Small Household Pets (Domesticated Rodents Such as Hamsters and Cavy, Nonpoisonous Amphibians, Nonpoisonous Reptiles Such as Turtles).** Any combination not to exceed 10.

e. **Fish.** Unlimited (for non-commercial purposes).

2. **Prohibited Pets.** Household Pets shall not include horses, miniature horses (except as a guide animal), cows, goats, sheep or other equine, bovine, ovine or ruminant animals, pigs, chickens, ducks, geese, turkeys, game birds, or fowl that normally constitute an agricultural use.

a. **Fish Farms.** Not permitted.

b. **Bee Keeping.** Not permitted.

C. **Lots Greater than 36,000 Square Feet in Residential Districts.** In addition to Household Pets, the following are permitted:

1. **Permitted Pets.** The keeping of horses, cows, goats, sheep or other equine, bovine, ovine or ruminant animals is permitted, as are those identified in Subsection B above.

a. **Cats or Dogs.** At no time shall the number of cats or dogs exceed a total of six animals in any combination, over the age of four months.

b. **Aviaries (Including Aviaries for Commercial Purposes).** Not to exceed 75 animals.

c. **Large Animals.** Up to two animals per acre; however their immature off-spring less than one year of age is also permitted. Pigs are not permitted.

d. **Chickens, Ducks, Geese, Turkeys, Game Birds, or Fowl.** Total number shall not exceed 12 birds per gross acre.

2. **Fish Farms.** Not permitted.

3. **Bee Keeping.** Not permitted.

4. **Setbacks.** All animals other than household pets shall be housed or penned at a minimum distance of 40 feet from property lines and 50 feet from neighboring

residences (e.g. residential structure). All areas and structures used in conjunction with the keeping of animals other than household pets shall be maintained and cleaned so as not to present a public hazard or nuisance.

D. **Buffer Districts.**

1. **Household and Other Pets.** As permitted pursuant to Subsections B and C based on lot size.

2. **Large Animals.** For parcels greater than one acre, Large Animals shall not exceed two animals per acre; however their immature off-spring less than one year of age is also permitted. Pigs are not permitted.

3. **Bee Keeping.** Limited to Apis Mellifera and a maximum ratio of one hive per two acres. A fresh water source must be provided within 20 feet of all hives and a sustaining food source must be provided on the property. Each hive must be located at least 50 feet from property lines. Beehives shall be properly maintained according to apiary standards administered by the Fresno County Agricultural Commissioner. Discovery of aggressive or "Africanized" beehives shall cause the immediately removal of the hives by the operator/owner.

E. **Annexation Overlay Districts.** See Section 15-1606.

F. **Residential in Non-Residential Districts.** Household pets are permitted pursuant to Subsection B.

G. No wild animals, roosters, endangered, exotic, or protected animals are allowed to be kept or raised within the city, except within an accredited zoological park.

H. The offspring of any permitted animal may be kept until weaned.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 25, eff. 10-21-16).

SEC. 15-2708. ARCADES, VIDEO GAMES, AND FAMILY ENTERTAINMENT CENTERS.

A. **Video Games and Amusement Devices.**

1. **Twelve or Less Amusement Devices/Rides.** Any commercial establishment may have up to 12 amusement devices/rides, including skilled or non-skilled games (e.g., electronic video games, pinball machines, pinball, target games, air hockey, foosball, ping pong, darts, shooting games (with nonlethal projectiles), bowling games, shuffleboard, movie machines, etc.) for the enjoyment of patrons.

2. **Thirteen or More Amusement Devices/Rides.** If 13 or more, skilled or non-skilled devices are provided, the use shall be classified as a Video Game Arcade, unless the amusement devices are part of a Family Entertainment Center (refer to Subsection C).

3. Employee Presence. An establishment with video games, amusement devices/rides, regardless of the number, shall have an employee present during all hours of operation.

4. **Amusement Device Permit.** See Chapter 9, Article 5, Amusement Devices for permit requirements.

B. **Family Entertainment Restaurants.**

1. **Food Sales.** Food sales shall be the primary use on the site.

2. **Number of Devices.** Per Subsection A above, there shall be no more than 12 amusement devices, rides and/or attractions, or combination thereof.

3. **Children's Indoor Play Areas.** May be permitted in any district in conjunction with a bona fide restaurant. Activities commonly include skilled and non-skilled games, including children's play stations, video games, pinball, and air hockey.

4. **Children's Outdoor Play Areas.**

   a. Restaurants of 750 Square Feet or Less. Restaurants may have up to 500 square feet dedicated to playgrounds/children's equipment.

   b. Restaurants Greater than 750 Square Feet. Should the outdoor area exceed 500 square feet, it shall be considered a Family Entertainment Center for permit purposes.

5. **Outdoor Dining.** For Outdoor Dining, refer to Section 15-2744, Outdoor Dining and Patio Areas.

6. **Nightclub/Dancing.** Permitted in accordance with Section 15-2751, Restaurants with Alcohol Sales, Bars, Nightclubs, and Lounges.

7. **Parking.** Parking shall be determined per Article 24, Parking and Loading.

C. **Family Entertainment Centers.**

1. **Food.** Family Entertainment Centers may, but are not required to serve food.

2. **Activities and Attractions.** Attractions typically include, but are not limited to, water slides, wake boarding facilities, amusement rides, bumper cars and boats, go-karts, miniature golf, trampolines, bounce houses, rock climbing, video arcades, laser tag, paintball, airsoft, batting cages, skate ramps, miniature basketball, miniature bowling, etc. Additional attractions may be appropriate, as determined by the Director.

   a. **Projectiles.** For activities using projectiles (e.g. batting cages, paintball, airsoft, or similar activities), fences, nets, or walls shall be provided that are capable of stopping all projectiles fired and/or hit by containing or redirecting the projectile to the backstop.

   b. **Noise.** Any activities that generate noise shall comply with all applicable noise standards. Outdoor activities that generate noise (e.g. batting cages, paintball, amusement rides, and go-karts), shall cease at 10 p.m., unless separated by 400 feet or greater from a Residential District.

3. **Fencing for Outdoor Activities.** Fencing for outdoor activities shall be reviewed on a case-by-case basis. Consideration shall be given to streets, homes, etc. Should a fence be proposed, it shall comply with setbacks of the underlying zone district, however materials and height shall be determined on a case-by-case basis.

4. **Nightclub/Dancing.** Permitted in accordance with Section 15-2751, Restaurants with Alcohol Sales, Bars, Nightclubs, and Lounges.

5. **Parking.** Parking shall be determined per Article 24, Parking and Loading.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2709. AUTOMOBILE AND MOTORCYCLE RETAIL SALES AND LEASING.

Automobile, Recreational Vehicle, Boat and/or Motorcycle Retail Sales and Leasing establishments (collectively referred to as Dealerships in this section), shall be located, developed, and operated in compliance with following standards.

A. **Existing Dealerships.** Existing Dealerships may continue to operate and may change ownership if either of the following apply:

   1. **Existing Dealerships Established by Development Permit/Site Plan Review or Prior to December 14, 2001.** An existing Dealership may continue to operate and change ownership if the site has had a continuous business license to operate as a Dealership and any of the following apply:

      a. There is an approved entitlement for the site for use as a Dealership and all conditions have been met;

b. The owner or applicant provides evidence satisfactory to the Director that the site is in compliance with an approved entitlement for a Dealership; or

c. There is evidence, to the satisfaction of the Director, that the site was established as a Dealership prior to December 14, 2001 and that the site has been continuously used as such.

d. In addition to a, b, and c above, the site has not been used for any use other than a Dealership.

2. **Existing Dealerships Established After December 14, 2001.** An existing Dealership may continue to operate and change ownership if the following conditions are met:

a. There is an approved Conditional Use Permit or Development Permit/Site Plan Review for the site for use as a Dealership and all conditions have been met;

b. The site has not been vacant for longer than one year;

c. The site has not been used for any use other than a Dealership;

d. The site has had a business license to operate as a Dealership within one year; and

e. The owner or applicant provides evidence satisfactory to the Director that the site is in compliance with an approved entitlement for a Dealership.

B. **New Dealerships.** New Dealerships shall comply with the following conditions:

1. **Outdoor Dealership Minimum Parcel Size.** One-half acre (21,780 square feet). Should multiple uses exist on a site, a minimum 21,780 square feet shall be dedicated for the sole use as a Dealership.

2. **Display Areas.** Products may only be displayed in approved areas.

3. **Landscaping and Screening.**

a. A screen wall of seven feet in height shall be provided along all property lines adjacent to a residential use or district. For Screening Wall standards, refer to Section 15-2008-C.

b. A landscaped planter with a minimum inside width of 10 feet and enclosed within a six-inch-high curb shall be provided along the front and street side property lines, except for vehicular circulation openings, unless a greater landscape setback is required by the underlying zone district or operative plan. Vehicles may not be displayed in required landscaped areas.

c. Additional screening and landscaping, as determined by the Director may be required where necessary to prevent visual impacts on adjacent properties.

4. **Lighting.** Lighting of the facility shall be oriented away, and shielded from neighboring residential properties. In addition, the lighting shall not be excessively intense so as to impact neighboring properties nor passing traffic on adjacent streets.
5. **Signs.** On-site signs advertising the business shall strictly adhere to the requirements of the Fresno Municipal Code and adopted plans and policies. Any non-conforming sign must be removed or made to conform prior to operation of the facility.
6. **Parking.** Refer to Article 24, Parking and Loading.
7. **Access.** Unused or blocked drive approaches shall be removed in accordance with Public Works Standards. Blocked drive approaches include, but are not limited to, those blocked by non-operable fences or those that lead into a display area that would restrict vehicles from entering the site.
8. **Operational Conditions.**
    a. Vehicles for sale shall not be displayed outside of the display area as designated by the approved permit.
    b. There shall be no test driving of vehicles into residential neighborhoods.
    c. There shall be no off-site sales conducted by any dealership.
    d. Vehicles being worked on or awaiting service or pick-up shall be stored within an enclosed building or in a parking lot on the property that is screened. Unattended vehicles may not be parked or stored on the sidewalk adjoining the property, in the street, or in any portion of the public right-of-way within the city.
    e. Automotive servicing or repair is permitted as an accessory use for automobile/vehicle dealers that offer maintenance and servicing of the type of vehicles sold on site. All auto repairs shall occur within an enclosed building.
9. **Indoor Dealerships.** Dealerships that display vehicles solely indoors shall be approved via a Zone Clearance, and the applicant shall submit a notarized letter stating that vehicles shall be indoors during all hours. Indoor Dealerships are subject to the following minimum parcel sizes.
    a. **MX Districts.** Shall be a minimum of 5,000 square feet in area.
    b. **All Other Districts Where Allowed.** No minimum.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2710. AUTOMOBILE/VEHICLE SERVICE AND REPAIR, MAJOR AND MINOR.

A. **Applicability.** This section applies to all automobile/vehicle service and repair uses which include, but are not limited to:

1. Engine service and repair;

2. Tire service and repair;

3. Wheel alignment;

4. Brake service and repair;

5. Cooling/heating system service and repair;

6. Radiator, muffler, and transmission service and repair;

7. Body and fender repair;

8. Emissions testing, service, and repair;

9. Window tinting and repair;

10. Radio, video, and alarm service and repair;

11. Preventative maintenance (such as lube, oil, and filter change; fan belt and windshield wiper replacement; etc.); and

12. Any other uses, including auto dealerships and service stations that perform auto services as an accessory activity.

B. **Design.**

1. Service bay openings shall be designed to minimize the visual intrusion on surrounding streets and properties. Bay doors shall be screened from public right-of-way to the greatest degree feasible. On corner lots fronting two or more streets with different classifications in the General Plan, bay doors shall face the street with the highest classification, unless the bay doors are screened from both streets.

2. Designs shall incorporate landscaping and half screen walls to screen vehicles while allowing eye level visibility into the site.

C. **Work Areas.** All work shall be conducted within an enclosed building except: pumping motor vehicle fluids, checking and supplementing fluids, and mechanical inspection and adjustments not involving any disassembly.

D. **Vehicle Storage.** Vehicles being worked on or awaiting service or pick-up shall be stored within an enclosed building or in a parking lot on the property that is adequately screened, with an earth berm or Screen Wall, or combination thereof or a building. Screen Walls shall be located on property lines with the exception of yards along streets, where the Screen Wall shall be located at outside of required setbacks. Unattended vehicles may not be parked or stored on the sidewalk adjoining the property, in the street, or in any portion of the public right-of-way within the city. Screen Walls are not required when the site is located in an Industrial District that abuts a local street (Major Streets are required to have a Screen Wall). For Screening Wall standards, refer to Section 15-2008-C.

E. **Equipment, Product, and Vehicle Parts Storage.** Exterior storage, including tires, shall not be visible from Major Streets or residential districts.

F. **Water Runoff.** Water runoff shall be property treated as determined by the Department of Public Utilities and the Fresno Metropolitan Flood Control District.

G. **Spray/Paint Booths.** Spray Booths shall be screened from Major Streets and shall be separated a minimum of 100 feet from Residential Districts, Parks, public or private Schools (K-12), and Daycare Centers. Evidence, in the form of the letter, shall be submitted to the City prepared by the San Joaquin Valley Air Pollution Control District that the proposed paint booth complies with adopted standards.

H. **Litter.** The premises shall be kept clean and in an orderly condition at all times.

I. **Inoperable Vehicles and Junked Parts.** No used or discarded automotive parts or equipment or permanently disabled, junked, or wrecked vehicles may be stored outside a building, unless screened.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2711. AUTOMOBILE/VEHICLE WASHING.

A carwash facility shall undergo a design review of architecture, style, and appearance to ensure similarity and compatibility with surrounding residential, commercial, and industrial development. Facilities are subject to the following standards:

A. **Attendant.** An attendant shall be present during all hours of operation for all carwashes. A store clerk that also accepts payment for a carwash may constitute as an attendant.

B. **Design.**

1. Buildings shall incorporate similar design features as the main building. Should a main building not exist, and a carwash be the primary building, it shall comply with the design standards of the underlying district.

2. Significant architectural or landscape features shall be provided at the corner of intersecting streets to enhance the streetscape.

3. No building or structure shall be located within 30 feet of any public street or within 20 feet of any property line of a residential use or residential district. Customer waiting areas and/or carwash offices may be excepted should the Review Authority determine that they will not disrupt the residential area.

4. Noise-generating uses, such as auto service bays, car wash openings, vacuum stations, outdoor loading areas, garbage storage, and stacking lanes, shall be located away from sensitive uses such as residential areas, daycares, and schools.

5. All canopies/shade structures shall be made of permanent material.

6. Buildings and equipment shall be painted in similar color tones to those found in the surrounding neighborhood.

C. **Landscaping.**

1. There shall be a 20 foot landscape setback along all streets.

2. There shall be a 15 foot landscape setback along Residential Districts.

3. Building setbacks shall comply with the underlying district, or the operative plan, whichever is greater.

4. Vehicle lanes for car wash openings shall be screened from public streets to a height of 30 inches. Screening devices shall consist of walls and/or berms with supplemental plant materials to screen vehicles while allowing eye-level visibility into the site.

D. **Washing Facilities.**

1. Building openings for vehicle access shall be designed to minimize the visual intrusion on surrounding streets and properties.

2. Service bay and/or drive-through openings shall be designed to minimize the visual intrusion on surrounding streets and properties.

3. Lighting shall be designed to be low-profile, indirect or diffused, create a pleasing appearance, and avoid adverse impacts on surrounding uses.

4. Shall comply with all regulations pertaining to water conservation and/or run-off.

E. **Self-Service.** Self-service car washes are not permitted, unless in conjunction with an automatic and/or a hand car wash where an attendant washes the vehicle. Self-service bays shall not exceed 50 percent of the overall number of bays.

F. **Hours of Operation.** Washing facilities are limited to 7 a.m. to 11 p.m. When abutting or adjacent to a Residential District, the hours of operation are limited to 8 a.m. to 9 p.m., seven days a week.

G. **Litter.** Trash and recycling receptacles shall be available. The premises shall be kept in an orderly condition at all times. Litter shall be collected daily.

H. **Noise.** All vacuuming, amplified music, intercoms, or similar noise-generating equipment shall be reduced according to all applicable noise standards.

I. **Temporary Fundraising Carwashes.** Refer to Section 15-2760, Temporary Uses. (Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2712. BANQUET HALL.

Banquet Halls or event facilities, collectively referred to as Banquet Halls, may operate in conjunction with hotels or as standalone facilities. Banquet Hall activities include, but are not limited to, formal dinners, receptions, reunions, business meetings, benefits, and club meetings. Dancing may be provided in conjunction with said events. Should a Banquet Hall

or event facility offer admission to the general public for the primary purpose of dancing, concerts, or similar activities, it shall be considered a Nightclub and shall comply with Section 15-2751, Restaurants with Alcohol Sales, Bars, Nightclubs, and Lounges.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2713. BED AND BREAKFAST LODGING.

Bed and breakfast establishments shall be located, developed, and operated in compliance with the following standards:

A. **Type of Residence.** Bed and breakfast establishments must be located, developed, and operated within a single-unit dwelling.

B. **Number of Rooms.** No more than two rooms may be rented. Additional rooms may be rented only with approval of a Discretionary Permit.

C. **Appearance.** In all Residential Districts, the exterior appearance of a structure housing a bed and breakfast establishment shall not be altered from its single-unit character.

D. **Limitation on Services Provided.** Provisions for meals and rental of bedrooms shall be limited to registered guests. Separate or additional kitchens for guests are prohibited.

E. **Parking.** Refer to Article 24, Parking and Loading.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 54, eff. 7-27-25).

SEC. 15-2714. BODY PREPARATION AND FUNERAL SERVICES.

Body preparation, including embalming and cremations, and body viewing may be permitted subject to the regulations below and those established by the State of California Department of Consumer Affairs, Cemetery and Funeral Bureau. The following also applies to pets.

A. **Body Viewing/Visitation.**

1. **Traditional Facilities.** Body viewing, including funeral and chapel services, may be permitted in Community and Religious Assembly, Cemeteries, Funeral Parlors and Internment Services.

2. **Non-Traditional Facilities.** Occasional funeral/chapel services may be held at Banquet Halls, Cultural Institutions, stadiums, or similar facilities, however the use shall be clearly incidental to the primary use. "Occasional," for this subsection, shall be defined as no more than twice per month.

B. **Body Preparation.** Body preparation, including the embalming of the body, may be permitted in Funeral Parlors and Internment Services.

C. **Body Cremation.** In addition to the permit requirements of this Code, a permit is also required from the San Joaquin Valley Air Pollution Control District.

D. **Home Death Care.** A person may prepare a body for disposition in their home per the State of California Department of Consumer Affairs, Cemetery and Funeral Bureau. Funeral services may not be held in homes.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2715. CHECK CASHING BUSINESSES, PAYDAY LENDERS, AND SIMILAR FINANCIAL SERVICES.

This section pertains to check cashing businesses, payday lenders (also known as Deferred Deposit Originators), auto-title lenders, consumer loan financers, and similar financial services, hereafter referred to as Check Cashers. This section and the regulations herein do not apply to State and federally chartered banks, savings associations, credit unions, or industrial loan companies.

A. **Applicability.** The standards of this section apply to new establishments and existing establishments where there is a 20 percent or greater expansion in serviceable floor area. For the purposes of this section, an establishment is considered new when no previous Check Casher existed at that location for a period of 90 days or greater.

B. **Discontinuance and Termination.** Any Check Casher, whether existing or subsequently granted under this section, that voluntarily discontinues active operation for more than 90 consecutive days; does not maintain a valid City business license for more than 90 consecutive days; or ceases to be licensed by the State of California or the Department of Justice, shall be considered a termination of the use and all privileges and rights held therein.

1. **Notification of Termination.** The Director shall notify the licensee of the termination of the use and shall inform the licensee of their right to appeal the decision. The process used in Section 15-5016, Revocation of Permits, shall apply. For existing establishments that originally did not need a special permit to lawfully operate, the same revocation process shall apply except that it shall be for a revocation of rights for use as a Check Casher instead of a revocation of rights granted under a special permit.

C. **Compliance.**

1. Check Cashers shall be subject to and shall comply with all of the restrictions and conditions set forth in this section, in addition to those restrictions and conditions that may be imposed on a Check Casher under or pursuant to other provisions of the Fresno Municipal Code or any other applicable federal, State, or local laws regulations, or policies.

2. Check Cashers shall hold, maintain, and be in compliance with all applicable valid licenses and permits issued by the State of California and the Department of Justice.

3. Check Cashers shall hold, maintain and be in compliance with a Business License issued pursuant to Section 7-1001 through 7-1301 of the Fresno Municipal Code.

D. A copy of all applicable licenses and permits shall be provided at the time of application submittal.

E. **Location.** In addition to the Use Regulations as put forth for the base and overlay districts, locations in which Check Cashers are permitted shall also be subject to the following restrictions:

1. May not be located within a Census Tract where, according to the latest available Census data, half of all households have a median household income of less than 80 percent of the county's median household income.

2. May not be located within 1,320 feet of any parcel on which an existing Check Casher is located or on which a conditional use permit for a Check Casher has been approved and the permit remains valid.

3. May not be located within 500 feet of the following:

a. A Residential District.

b. A State or federally chartered bank, savings association, credit union, or industrial loan company.

c. Schools, public or private.

d. Off-site alcohol sales (excluding stores 10,000 square feet or greater).

e. Existing or planned Bus Rapid Transit station.

F. **Lighting.** Exterior lighting of the premises shall be provided at a level sufficient to recognize the features of persons at any point on the property.

G. **Litter and Graffiti.**

1. The owner or operator shall provide for daily removal of trash, litter, and debris from premises and on all abutting sidewalks within 20 feet of the premises.

2. The owner or operator shall remove graffiti within 48 hours.

H. **Pay Phones and Vending Machines.** External pay phones and vending machines are permitted if located within 10 feet of the main entrance. Pay Phones shall comply with Section 15-2746, Pay Phones.

I. **Video Surveillance.** Check Cashers must equip a fully functional color digital video camera system.

1. The system must continuously record, store, be capable of playing back images and be fully functional at all times, including during any hours the business is closed. The system must be maintained in a secured location inside of the business.

2. The system shall have the correct date and time stamped onto the image at all times.

3. The camera storage capacity should be for at least two weeks (14 calendar days). Such cameras must be capable of producing a retrievable and identifiable image than can be made a permanent record and that can be enlarged through projection or other means.

4. If utilizing a digital video recorder, it must be capable of storing at least 14 days of real-time activities.

5. The system shall be capable of producing a CD or digital playback feature and may be provided to an authorized representative of the Fresno Police Department within 24 hours of the initial request relating to a criminal investigation only.

6. The interior of the business must have at least one camera placed to focus on each cash register transaction to include the clerk as well as the customer waiting area.

7. There shall be four exterior cameras placed so as to record activities in the primary customer parking areas of their business. These cameras should be of sufficient quality to be able to identify persons and or vehicles utilizing the business parking lot.

8. All interior cameras shall record in color.

9. All exterior cameras shall record in color and have automatic low light switching capabilities to black and white. Exterior cameras should be in weatherproof enclosures and located in a manner that will prevent or reduce the possibility of vandalism.

J. **Signage.**

1. All advertising and signage on windows and clear doors shall be placed and maintained in a manner that ensures that law enforcement personnel have a clear and unobstructed view of the interior of the outlets, including counter/cashier area, from exterior public sidewalks, parking lots, or entrance to the outlets.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2716. CROP CULTIVATION.

A. **Applicability.** This section applies to all crop cultivation activities, inclusive of plant nurseries. It does not apply to community gardens, edible landscaping on residential property, or Nurseries and Garden Centers.

B. **Agricultural Labor Housing.** Regarding Agricultural Labor Housing, in the event of a conflict between this Code and California Health and Safety Code section 17021.6, relating to agricultural land use designations for employee housing, the Health and Safety Code shall prevail.

C. **Grading.** Grading is required for site clearance and leveling prior to commencement of any activity.

D. **Ag Conservation.** Any Agricultural Land Conservation ("Williamson Act") Contract that was in force prior to (re)establishment of agricultural uses on land designated for single-unit residential uses shall be permitted to continue in effect under the terms of Resolution No. 2006-130 and any successor Resolution or Ordinance enacted by the City.

1. No new application for an Agricultural Land Conservation Contract shall be approved for land designated for urban uses, as the agricultural use will forthwith be considered as incidental or transitional to the planned urban use.

E. **Street Rights-of-Way.** Plantings of trees and vines, buildings, and water wells shall not be installed on portions of a property planned for right-of-way for Major Streets.

F. **Storage Tanks.** Private storage tanks for fuel shall be installed and maintained pursuant to the appropriate permits and required approvals from the County Environmental Health and the Fire Department. Tanks shall be located at least 20 feet from property lines and are subject to additional setback requirements at the discretion of regulatory agencies.

G. **Water Management.**

1. Irrigation tailwater and stormwater runoff shall be managed on-site by means of grading, vegetated swales, and on-site detention facilities so as to prevent drainage to abutting property and to prevent silt and contaminants from entering the municipal stormwater management system, irrigation canals, and natural watercourses.

2. For sites greater than one acre, a grading permit shall be obtained that identifies tailwater and stormwater management features.

3. On-site water detention facilities shall conform to City standards for construction and management to prevent breeding of mosquitoes.

4. Irrigated cropland shall be managed in compliance with California Water Code Section 13260, pertaining to the Irrigated Lands Program, pursuant to regulations of the California Water Boards.

H. **Water Usage.** Use of water for irrigation for crop cultivation.

1. When feasible and permissible, surface water supplies and/or recycled water shall be used for irrigation. When irrigation district surface water supplies allocated to a property have been assigned to the City of Fresno as part of the annexation process, the City Water Division must approve in writing any subsequent re-direction of those irrigation district surface water allocation to growing crops on the property. When growing activity ceases, the surface water allocation shall revert to the City of Fresno.

2. Construction of any new non-potable water delivery facilities shall comply with Fresno Irrigation District regulations. Appropriate easement covenants shall be recorded for conveyance of non-potable water.

3. Installation of irrigation pipelines shall be minimized to the extent possible in portions of a property planned for right-of-way of major streets. Where it is unavoidable to avoid planned right-of-way, such pipelines shall be constructed of appropriate material to allow subsequent street construction without replacement of the pipeline.

4. At the conclusion of crop cultivation activities, irrigation pipelines shall be removed unless the City approves their retention for non-potable water conveyance. Irrigation easements no longer needed for conveyance of water supplies shall be vacated. Surface water rights shall accrue to the City of Fresno when the irrigation water is no longer being delivered for agricultural activity.

5. Any premises having both a potable water utility connection and a separate source of water for agricultural irrigation must have an approved backflow prevention device (meeting to City Water Division standards) on the potable water connection. The backflow device shall be installed with required City permits and is subject to periodic testing.

6. Installation of any water line used to deliver a potable water supply for irrigation of a crop cultivation site requires approved plumbing permits from the City. Any hose bibb or sprinkler connection to a potable water utility system shall be equipped with backflow protection approved by the City, such as a vacuum breaker fitting.

7. Any crop cultivation use of water from a potable water utility system shall be metered.

8. Efficient Water Management Practices identified in Fresno Irrigation District's adopted Agricultural Water Management Plan shall be implemented as feasible.

9. When 20 or more contiguous acres are involved in agricultural or horticultural activity, a private water well may be developed, reconstructed, or rehabilitated on the premises to supply irrigation water, subject to all of the following:

    a. Submittal of an irrigation water use plan for Water Division approval.

    b. City Water Division's written approval of an irrigation water well application pursuant to Fresno Municipal Code Sections 6-402 and 6-505, including siting of the proposed well and portions of the well casing with perforations or screening.

    c. Approval of the appropriate level of environmental review for the irrigation well development project.

    d. Execution of an agreement with the Water Division to do the following: maintain well production metering and records of well production; to pay the applicable Recharge Fee or provide alternative groundwater extraction mitigation acceptable to the Water Division; and to limit the well's groundwater extraction to a sustainable yield as shall be determined after well development based on the Water Division's review of pump tests.

10. Wells used for crop cultivation irrigation must be improved pursuant to State of California Department of Water Resources standards and Water Division requirements based on water well application review. Irrigation wells shall additionally be equipped with a meter accessible for periodic readings by the City for the purpose of assessing the City's Private Well Irrigation Fee.

11. Water from an irrigation well must be used solely on the premises where the well is located.

12. Water from a private off-site well shall not be used for irrigating agricultural or horticultural activity.

13. The practices of "chemigation" and "fertigation," and any other means of distributing agrichemicals via irrigation water, shall only be permitted if there is no risk of such chemicals flowing back into a well.

14. At the conclusion of crop cultivation activities, any associated well shall be destroyed in accordance with the provisions of California Department of Water Resources Water Well Standards and the standards of the City Water Division. Alternatively, and only if approved by the Water Division, a well no longer needed for irrigation may be retained and secured for subsequent public pump station use if the well has been appropriately constructed.

I. Fencing shall be located on the property, not on street rights-of-way. For parcels comprising over five acres, perimeter fencing for crop cultivation uses shall be set back from property lines as necessary to allow at least six feet for safe pedestrian access along any roadway. For parcels comprising less than five acres, fencing for these uses shall conform to the regulations of the underlying zone district with regard to setbacks from rights-of-way and heights. Fences shall comply with Section 15-2006, Fences, Walls, and Hedges.

J. All pesticides, fertilizers, and hazardous materials used and stored at the premises shall be subject to use, storage, handling, disposal, disclosure and inventory requirements administered by the Fresno County Agricultural Commissioner, Fresno County Environmental Health, California Environmental Protection Agency Division of Toxic Substance Control, and Fresno Fire Department. No application of pesticides shall be allowed by means of aircraft (unless such spraying is ordered by the State of California or the Agricultural Commissioner for the entire municipal area to address a serious pest outbreak). All pesticides, fertilizers, and hazardous materials shall be stored in securely locked structures having an impervious floor. All such storage structures shall be located at least 20 feet from property lines and are subject to additional setback requirements at the discretion of regulatory agencies.

K. Properties proposed for cultivation shall not be on the list of hazardous materials sites compiled pursuant to California Government Code Section 65962.5; or, if a property does appear on that list, prior to it being cultivated the California Environmental Protection

Agency Department of Toxic Substances Control or Fresno County Certified Unified Permit Agency shall provide written clearance that hazardous material residues will not harm persons cultivating the site or consuming any produce grown on the site.

L. Cultivation and soil amendment activities shall conform to applicable regulations of the San Joaquin Valley Air Pollution Control District, including controls for particulate matter, fugitive dust, bulk material handling, and odors. No mechanized cultivation activities which generate dust (including, but not limited to, tillage, harvest, and ground sweeping) shall be done when ambient moisture levels are low and wind speed exceeds 12 miles per hour.

M. No on-site burning of waste material shall be allowed. Waste material and litter associated with agricultural operations shall be properly disposed of in a timely manner, and shall not be permitted to blow onto adjacent properties.

N. When permitted by the underlying zone district, plant products grown on the premises may be sold on the premises by means of an on-site stand subject to provisions of subsection 15-2752, Roadside Fruit Stands/Grower Stands.

O. Beehives may be temporarily placed on crop cultivation sites 20 acres or more in size, regardless of the underlying district, for pollination purposes. A source of water shall be provided within twenty 20 feet of all hives and the hives shall be located at least 40 feet from property lines. Beehives shall be properly maintained according to apiary standards administered by the Fresno County Agricultural Commissioner. Aggressive or "Africanized" beehives shall be immediately removed by the owner or operator.

P. Except where the setback requirements of this subsection are more restrictive, setback and lot coverage requirements of the underlying zone district shall apply. Greenhouses and agricultural or horticultural storage facilities shall be classified as buildings in determining lot coverage. The property development standards of the underlying zone district shall apply with regard to building heights.

Q. Sonic hail disruptors ("hail cannons") and noisemaking devices for repelling birds and other crop pests shall not be permitted.

R. Soil amendments and waste material that attracts nuisance flies or supports growth of such flies shall not be permitted.

S. Any agricultural operation located in an area regulated under an Airport Land Use Compatibility Plan or airport specific plan shall be operated in conformance with the applicable Wildlife Hazard Mitigation Plan for that airport.

T. Street trees and trees established to satisfy shading criteria of applicable permits and subdivision maps shall not be removed to accommodate crop cultivation activity.

U. Prior to tillage or excavation for cultivation, parties undertaking the activity shall confirm that there are no Fresno Metropolitan Flood Control or Fresno Irrigation District underground facilities and shall call the Underground Service Alert Program (the "811—

Call Before You Dig") line. Parties intending to cultivate trees or trellis crops shall conform to utility company policies and regulations with regard to separations from overhead lines.

V. On a property being cultivated, any maintenance, repair stabilization, rehabilitation, restoration, preservation, conservation, or reconstruction of an identified historical resource shall be done consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings, available from the City of Fresno Historic Preservation Project Manager.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 55, eff. 7-27-25).

SEC. 15-2717. COMMERCIAL MODULAR BUILDINGS.

A. **General Requirements.** Commercial Modular Buildings generally fall under two categories: permanent modular or temporary modular, both of which shall be collectively be referred to as "Modulars" for this section.

1. Permanent Modular buildings are usually considered real property, built to the same codes as conventional buildings.

2. Temporary Modular buildings are commonly considered personal property or equipment and are not permanently affixed to real estate. Temporary Modular buildings are often used as sales offices, classrooms, or for healthcare services.

B. **Government Owned Property.** City-owned sites (e.g., parks) and buildings used during construction as either offices or to temporarily house offices are excepted from this section.

C. **Underlying Districts.** The underlying District Standards shall apply to Modular buildings, including, but not limited to, building height, access, setbacks, open space, parking requirements, etc., or operative plan, if applicable.

D. **Location.**

1. Buildings may be installed on industrial, commercial, and residential districts that are developed with non-residential uses.

2. Reserved.

3. Buildings may not be visible from Major Streets.

E. **Design Criteria.**

1. Permanent Modular Buildings shall be reviewed similar to buildings that employ conventional building techniques.

2. Temporary Modular buildings shall be compatible in design and appearance with structures in the vicinity and shall meet the following standards:

    a. **Foundation.** A building shall be built on a permanent foundation system approved by the Building Official.

b. **Date of Construction.** Temporary Modular buildings shall have been manufactured within 10 years of the date of issuance of a permit to install the building on the site.

c. **Roof Overhang.** The roof overhang shall not be less than 12 inches around the entire perimeter of the Temporary Modular building as measured from the vertical side of the home. The overhang requirement may be waived at the point of connection where an accessory structure is attached to the building.

d. **Roof Material.** Roof material shall consist of material customarily used for conventional buildings, such as tile or composition shingles. If shingles are used, the pitch of the roof shall be not less than three inches vertical to 12 inches horizontal.

e. **Siding Material.** Siding material shall consist of exterior material customarily used for conventional buildings, such as stucco, wood, brick, stone or decorative concrete. Metal siding, if utilized, shall be non-reflective and horizontally lapping. Siding material utilized as skirting shall be the same as the material used on the exterior wall surface of the building.

f. **Skirting.** The unit's skirting shall extend to the finished grade.

g. **Building Orientation.** The building, including the primary entrance, shall face the street.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 46, eff. 1-18-19).

SEC. 15-2718. COMMERCIAL TRUCK STORAGE.

Commercial Truck Storage, not specifically related to the primary use on the site, is permitted subject to the following standards.

A. **Minimum Lot Size.** One acre.

B. **Access.** The site shall have direct access to a street designated for the type of vehicles that will be parking on the site.

C. **Landscaping and Screening.**

1. There shall be a minimum 10 foot landscape area along all streets, unless a greater setback is required elsewhere in this Code or operative plan.

2. Chain link fencing is prohibited along major streets, except along State highways if the fence is erected by Caltrans.

3. Graffiti along perimeter Screen Walls shall be removed within 48 hours.

4. Additional screening and landscaping, as determined by the Director may be required where necessary to prevent visual impacts on adjacent properties.

D. **Surface Paving.** All parking and maneuvering areas shall be paved per Public Works Standards for Parking Lots. Parking on unimproved lots is prohibited.

E. **Operational Requirements.**

1. Vehicles and/or trailers may only be stored within designated areas per the approved entitlement.
2. All auto repairs, including the changing of tires and fluids (e.g., oil) shall occur within an enclosed building.
3. There shall be no dismantling of motor vehicles.
4. Personal storage of vehicles, such as boats or RVs, is prohibited.
5. Trailers oriented to passerby for the sole purpose of advertising are prohibited.
6. Retail sales of vehicles is prohibited.

F. **Parking Lot Shading.** Parking Lot Shading is required for non-truck/trailer parking areas.

G. **Infrastructure Requirements.**

1. Off-site improvements may be required by the City.
2. The facility shall be served by a public sewer system. Private septic sewer systems are prohibited.
3. Adequate facilities and infrastructure shall be provided for fire protection as determined by the City.

H. **San Joaquin Valley Air Pollution Control District.** Applicants shall gain written or permit approval from the SJVAPCD.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2719. COMMUNITY AND RELIGIOUS ASSEMBLY FACILITIES.

Community and religious assembly facilities shall be located, developed, and operated in compliance with the following standards:

A. **Property Development Standards.** Development shall comply with the Property Development Standards of the District in which the project is located.

B. **Access.** Community and religious assembly facilities shall take primary access from a public street that is improved with curbs, gutters, sidewalks, and street lights. If these improvements do not exist on the subject site, they shall be installed prior to operation of the proposed facility.

C. **Buffer.** A minimum 20-foot perimeter buffer shall be included adjacent to any residential use or district. This buffer area may be used for parking or landscaping but shall not be used for structures or outside activities, however there shall always be a minimum 10-foot landscape setback when abutting a Residential District.

D. **Outdoor Recreation.** Outdoor recreation areas for programmed activities, such as basketball courts, soccer fields, softball fields, etc., shall be at least 20 feet from any residential use or district.

E. **Shared Parking.** Parking for a facility may be shared with other uses as long as the operating hours of the other uses do not conflict with the operating hours of the proposed facility.

F. **Outdoor Lighting.** Outdoor lighting shall not exceed an intensity of one foot candle of light throughout the facility.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2720. COMMUNITY GARDENS/URBAN FARMS.

Community Gardens and/or Urban Farms, collectively referred to as Gardens, may be located, developed, and operated in compliance with the following standards.

A. **Management.**

1. **Community Gardens.**

a. Shall be organized by community groups, nonprofit organizations, the City, or land owners. A manager shall be designated for each Community Garden who shall serve as liaison between gardeners, property owner(s), and the City.

b. If located within a Planned Development or Multi-Unit Residential Complex, the Homeowner's Association and/or property management company shall be responsible for the site and shall designate a liaison between the property owner(s) and the City.

2. **Urban Farm.** May be operated by a sole proprietor or an organization. A manager shall be designated who shall serve as liaison between the owner(s) and the City.

B. **Operational Plan.** The applicant shall submit an operational plan that identifies roles and responsibilities, contact information, and operations of the Garden.

C. **Location.** Refer to Table 15-2720-C.

TABLE 15-2720-C PERMITTED DISTRICTS AND AREA LIMITATIONS

District/Site Location	*Minimum Lot Size*	*Maximum Lot Size*
Residential District with access to a local street	3,000 sq. ft.	21,780 sq. ft.
Residential District with direct access to a major street	No minimum	2 acres
Residential Districts if part of a Planned Development, Multi-Unit Complex (must be for the sole use of residents), or Religious Assembly Facility	No minimum	No maximum
Non-Residential Districts	No minimum	3 acres
Publicly-Owned Site (e.g., Gov't Agency)	No minimum	No maximum

D. **Hours of Operation.** Gardens shall only be tended between dawn and dusk.

E. **Buildings and Structures.**

1. Garden sheds for storage of gardening tools and supplies; greenhouses that consist of buildings made of glass, plastic, or fiberglass in which plants are

cultivated; outdoor furniture such as benches, bike racks, picnic tables, fences, children's play areas; raised/accessible planting beds; garden art; rain barrel systems; and structures for the sale of produce may be permitted.

2. Buildings and structures, including temporary structures, shall comply with the property development standards of the underlying district.

3. The combined area of all buildings or structures shall not exceed 25 percent of the garden site lot area.

F. **Front Yards.** Yards along streets shall contain landscaping and/or planting.

G. **Fencing.**

1. Fences shall comply with Section 15-2006, Fences, Walls, and Hedges.

2. If proposed, fences shall be located at the rear of front yard setbacks. For street side yards, refer to Section 15-2006, Fences, Walls, and Hedges.

3. Security wire, including concertina, electrical fencing, etc. is prohibited.

H. **Equipment.** Only household garden tools and equipment, applicators and products, may be used. This includes, but is not limited to, soil preparation, cultivation, planting, application of chemicals, dust control, harvesting, etc. Pull-behind equipment is prohibited.

I. **Tillage/Excavation.** Prior to tillage or excavation for cultivation, parties shall be responsible for contacting the Underground Service Alert Program (telephone number 811).

J. **Maintenance.**

1. Curbside residential solid waste service is required. No burning of any material is permitted.

2. The operator shall be responsible for the overall maintenance of the site and shall remove weeds, debris, etc. in a timely manner.

3. Soil amendments, composting, and waste material shall be managed and shall not attract nuisance animals or support growth of flies.

K. **Sale of Produce.** Incidental sales may be permitted. Sales are limited to items that are grown on-site. Incidental, for purposes of this subsection, shall be defined as once per week.

L. **Animal Keeping.** Animal keeping is prohibited.

M. **Utilities.** The land shall be served by a water supply sufficient to support the cultivation practices used on the site.

N. **Restrooms.** If proposed, restrooms shall be connected to public utilities. Portable restrooms are not permitted.

O. **Drainage.** Water or fertilizer shall not drain onto adjacent properties, and no permanent retention of water shall be permitted. Dirt from the site shall not be tracked onto adjacent sidewalk, gutter, or street.

P. **Composting.** Composting is allowed as a minor accessory use to the site.

1. Composting must be done within a sealable container and may only consist of materials generated on-site.

2. The container must be setback at least three feet from property lines.

3. Composting must not lead to runoff of contaminated water nor expose adjacent properties to adverse noise, odors, pests, etc.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, §§ 56, 57, eff. 7-27-25).

SEC. 15-2721. CONCRETE BATCH PLANTS, STORAGE YARDS, AND SIMILAR USES.

A. **Applicability.** This section applies to facilities that by their very nature generally occur and provide for outdoor storage. More specifically, this section applies to:

1. Contractor's Storage Yards;

2. Outdoor Storage Yards;

3. Outdoor Lumber and Material Yards;

4. Concrete Batch Plants;

5. Commercial Landscaping suppliers (e.g., rockeries);

6. Pallet manufacturing, repair and storage; and

7. Other similar uses that are not directly associated with a specific construction site.

B. **Existing Facilities.** Existing facilities established prior to January 24, 2006 may continue to operate subject to the following conditions:

1. Compliance with all Conditions of Project Approval per the pertinent entitlement.

2. If an entitlement was not required per zoning regulations, the applicant shall provide evidence, satisfactory to the Director, that the facility:

a. Was established prior to January 1, 2012 and that the use has been in continuous use;

b. The site has had a valid business license since January 1, 2012; and

c. The site does not have any outstanding violations from Code Enforcement or the Fire Department.

C. **New Facilities.**

1. **Minimum Lot Size.** 10,000 square feet

2. **Location.** There shall be a minimum setback of 200 feet from property planned or zoned for:

   a. Residential uses;

   b. Office Uses;

   c. An integrated commercial shopping center; or

   d. A freeway, unless the freeway is depressed a minimum 10 feet from the natural grade of the subject site and there is a six foot masonry wall that screens visibility into the site.

3. **Landscaping and Screening.**

   a. There shall be a minimum 10 foot landscape area along all streets, unless a greater setback is required elsewhere in this Code or operative plan.

   b. A Screen Wall and gate, of seven feet in height shall be provided along all property lines. Said wall shall be located at the rear of required landscaping along streets, including freeways. Screen Walls, when located on a local industrial street or between industrial uses, may be a material other than masonry, subject to review and approval by the Director.

   c. Graffiti along perimeter Screen Walls shall be removed within 48 hours.

   d. Additional screening and landscaping, as determined by the Director may be required where necessary to prevent visual impacts on adjacent properties.

4. **Paving.** All storage areas shall be paved per the following standards:

   a. Public Works Standards for Parking Lots, or

   b. The surfacing shall consist of a minimum of two inches of asphalt concrete or three inches of road-mixed asphalt surfacing over native soil compacted in accordance with Public Works Standards. An alternative soil stabilizing agent may be applied and maintained, in lieu of asphalt concrete or road-mixed asphalt surfacing if approved in writing by the Public Works Director and the San Joaquin Valley Air Pollution Control District.

5. **Operational Requirements.**

   a. The operational statement shall articulate what items shall be stored on-site and for what purposes.

   b. There shall be no loading/unloading of vehicles and/or materials in the public right-of-way or within customer parking areas.

   c. Vehicles and/or materials may only be stored within designated areas per the approved entitlement.

   d. Personal storage of vehicles, such as boats or RVs, is prohibited.

   e. Retail Sales are prohibited.

6. **Stacking.** The stacking of products may not exceed two feet above the required screen wall, unless it is not visible from a Residential Use or District or a public street.

7. **Infrastructure Requirements.**

   a. Off-site improvements may be required by the City.

   b. The facility shall be served by a public sewer system. Private septic sewer systems are prohibited.

   c. Adequate facilities and infrastructure shall be provided for fire protection as determined by the City.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2722. CORNER COMMERCIAL.

A. **Purpose.** The purpose of this section is to allow for the development of small-scale, neighborhood-serving commercial establishments that can provide convenient, walkable access to important amenities and that can increase the sense of community and value to the surrounding neighborhood.

B. **Permit Required.** A proposal for a Corner Commercial use shall require a Zone Clearance subject to Article 51.

C. **Reserved.**

D. **Permitted Types.** Corner Commercial uses are limited to the following:

1. Counter-Service cafes and coffee shops;

2. Delicatessens;

3. Bakeries;

4. General Markets and Healthy Food Grocers;

5. Flower shops; and

6. Bike shops and bike repair services.

E. **Design Standards.** Per the underlying district and the following:

1. The building must maintain the appearance of a single-unit home and fit architecturally with the neighborhood.

2. The commercial use must be easily recognizable from the front façade through the use of large windows or an active outdoor use such as produce stands or café seating.

3. Outdoor seating for cafes, etc. is allowed in the front and rear yards, setback at least 10 feet from adjacent residential property lines or fences, whichever is closer to the use, and shall be oriented to minimize impacts on any adjacent residences.

4. The commercial area shall be limited to 1,500 square feet.

5. **Signage.**

   a. Illuminated signage is not permitted.

   b. Up to two outdoor signs, with a combined total of 24 square feet or less in size, are permitted. Signs must be visually compatible with the building and surrounding neighborhood.

   c. Wall or window-mounted Menu Display Boards (less than two square feet in area) and A-Frame (sandwich) signs that display daily specials, etc. are permitted, but may not be located in the public right-of-way.

F. **General Regulations.**

1. Reserved.

2. Alcohol sales are prohibited.

3. Hours of operation shall be limited to 6 a.m. to 10 p.m.

4. Amplified music is not permitted outside.

5. Drive-throughs are prohibited.

6. Any storage of materials or trash outside must be enclosed.

G. **Parking.** On-site parking shall be limited to residents.

H. **Location.**

1. Must be located on a corner lot where intersecting a Major Street.

2. The building must front the Major Street with the main access to the commercial area provided from that street.

I. **Findings.** The following shall be added as required Zone Clearance findings.

1. The use must be oriented to serve the immediate neighborhood, promoting health and facilitating a sense of community between neighbors.

2. The use must complement the residential character of the neighborhood and will not adversely impact adjacent properties.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-25, § 26, eff. 6-11-18; Am. Ord. 2018-66, § 47, eff. 1-18-19; Am. Ord. 2025-024, § 58, eff. 7-27-25).

SEC. 15-2723. COTTAGE HOUSING DEVELOPMENTS (POCKET NEIGHBORHOODS).

A. **Purpose.**

1. To provide a diverse range of housing to support a diversity of households.

2. To provide infill development opportunities.

3. To protect the character of single-unit neighborhoods.

4. To promote community interaction and safety through design.

B. **Alterations Required by the Fire Department.** Any of the provisions found in this section may be altered by request of the Fire Department in order to meet safety standards.

C. **Unit Types and Sizes.** One-unit and two-unit cottages are permitted.

D. **Density and Number of Units.**

1. The allowed number of units is up to 1.33 percent of the number permitted in the underlying district.
2. There shall be a minimum of four units and a maximum of twelve units per cluster.
3. A two-unit cottage is allowed for the fifth and sixth, and eleventh and twelfth units.

E. **Common Open Space.**

1. Four hundred square feet of common open space shall be provided per unit. If multiple clusters are located within a development, up to 200 square feet per unit may be used for a development-wide or multi-cluster common open space.
2. Required setbacks, private open space, utility areas, and areas less than 10 feet in width cannot count toward the common open space requirement.
3. Common open space for each cluster shall be in one contiguous, useable piece with a minimum dimension of 15 feet on all sides.
4. Common open space and community buildings shall be centrally located and easily accessible to all units.
5. Common open space should have a sense of openness and be maintained to provide for passive and/or active recreational activities. Some encouraged uses are lawns, gardens, patios with tables and chairs, etc. More active uses such as playing courts are also encouraged as long as they do not dominate the common open space.
6. Fences may not be located within required common open space areas.
7. Required trails may count towards the common open space requirement provided each unit has pedestrian access to the trail(s).
8. Any open space that cannot be used for enjoyment of residents may not count towards the required total. These include, but are not limited to, ponding basins, buffers, areas with a steep slope, etc.
9. **Community Building.**
    a. If a community building is provided, it may count for 200 square feet of required common open space per unit up to 25 percent of the total requirement.
    b. Community buildings must be limited to one story, be incidental in size and use, and be architecturally consistent with the rest of the development.
    c. Community buildings must be located on the same site as the cottage housing development and be easily accessible to all units within the development.
    d. Community buildings must be under common ownership by the residents.

F. **Design Standards of Units.** Dwellings within a cottage housing development should be oriented to promote a sense of community both within the development and with respect to the larger community. They must be architecturally compatible with the surrounding neighborhood and must not be designed to be enclosed or hidden from the surrounding neighborhood.

1. **Orientation to Public Street.**

   a. For units abutting a public street, no less than 20 percent and no more than 40 percent of street-facing elevations shall consist of windows. Windows shall have a vertical orientation, meaning the height of each window is greater than its width.

   b. Units abutting a public street shall orient their primary entrance to the public street.

2. **Orientation to Common Open Space.**

   a. With the exception of units abutting a public street, all units must have their primary entryway oriented towards the common open space.

   b. Cottages must surround the common open space on at least two sides.

3. **Pedestrian Circulation.**

   a. Pedestrian paths shall link all units to common open space within the development, to parking areas, and to sidewalks, especially where there are transit stops. Paths entering the development from the sidewalk shall be at least five feet wide to promote a sense of openness.

4. **Private Open Space.**

   a. A minimum of 250 square feet of private open space is required per unit. This is inclusive of required porch and yard space.

   b. Each unit must have a covered porch over the primary entryway with a minimum area of 64 square feet per unit and a minimum of seven feet on all sides. Railings are encouraged.

   c. A yard, with a minimum dimension of 10 feet, is required adjacent to primary entryway porch.

   d. Fences or hedges shall not exceed three feet in height.

   e. Yards and porches should add to the visual variation of each unit.

5. **Floor Area and Height.**

   a. Unit floor area shall be between 600 and 1,200 square feet.

   b. Cottages shall not have the appearance of "tall, skinny houses."

   c. Cottages shall be no more than two stories. Height must comply with the underlying zone district.

6. **Variation between Units.**

   a. There shall be variation between units, while maintaining architectural consistency, to prevent repetitive use of building styles within any cluster, development, and adjacent dwellings. Some ways to achieve this variation include varied rooflines, elevations and height, floor area, stories, entryways, yards, etc. Multi-cluster developments may repeat one design per every three clusters, but repeated designs may not be placed in proximity to one another.

7. **Roof Design.**

   a. Units shall have a minimum 6:12 pitched roof. Roof slopes lower than 6:12 are limited to architectural features such as dormers and porch roofs and may not be less than 4:12.

   b. Alternate roof designs may be approved if it is found that they meet all other compatibility and design requirements prescribed by this section.

8. **Windows.**

   a. Placement of windows shall avoid creating privacy issues for adjacent units and neighboring properties.

   b. Window trim shall be provided.

9. **Setbacks.**

   a. All buildings shall be separated by at least eight feet. Minor architectural projections are allowed.

G. **Parking.**

1. **Required Amount.**

   a. One garage is required per unit for use by residents of that unit.

   b. 0.5 guest spaces are required per unit and may be provided under carports or on surface lots.

   c. Guest parking may be provided off-site if the Director deems there is adequate space.

2. **Design and Orientation.** Parking areas shall be separated from the common open space area and, to the extent possible, shall not be visible from the street.

   a. **Attached Garages.**

      i. May be accessed from the side or rear of the unit.

      ii. If oriented towards the street, may not dominate the façade, and must be either flush with or set back from the rear of the building.

      iii. Garage doors shall provide windows, moldings, or other architectural features to help blend with the rest of the home.

      iv. The first 250 square feet shall not be counted towards maximum floor area.

b. **Detached Garages and Carports.**

i. Must be architecturally consistent with the development (e.g., similar rooflines).

ii. May not exceed a total of four spaces per parking structure.

iii. If located in-between units, may not exceed two spaces and must be setback 10 feet from the primary façade.

c. **Surface Lots.**

i. For every six spaces provided there must be a landscaped area of no less than 10 square feet, which may include a pedestrian path.

ii. If located in-between units, may not exceed two spaces and must be setback 10 feet from the primary façade.

d. **Private Driveways.**

i. Must be designed as a woonerf.

ii. Driveways must be located to the rear of units.

e. **Preferred Location of Lots and Structures.**

i. 1. To the rear of the development, accessed via an alley.

2. To the side or rear of the development, accessed by a private driveway.

3. To the side of the development accessed from a non-primary street.

H. **Trash Enclosures.** See Section 15-2016, Trash and Refuse Collection Areas.

I. **Homeowners' Association.** A homeowners' association is required for the maintenance of common areas.

J. **General Provisions.**

1. Reserved.

2. An existing single-unit home or duplex that does not meet the requirements of this section is permitted to remain on the site, provided that the extent of its nonconformity is not increased.

3. A covenant restricting any increases in unit size after initial construction shall be recorded against the property.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 59, eff. 7-27-25).

SEC. 15-2724. CYBER/INTERNET CAFÉS.

A. The establishment shall have an employee present during all hours of operation.

B. Alcohol sales shall be limited to beer and wine for on-site consumption.

C. Gambling, including sweepstakes, and gambling simulation games such as video versions of slot and table games are prohibited. Other uses may be prohibited as determined by Council action or by State and federal laws.

D. The establishment shall not create nor contribute to public nuisance or criminal activities which are harmful to the health, peace, safety, or general welfare of people residing, working, or visiting in the surrounding area.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2725. CHILD CARE CENTERS AND FAMILY CHILD CARE HOMES.

A. **Types of Day Care Facilities.**

1. **Child Care Facility.** A facility that provides nonmedical care to children under 18 years of age in need of personal services, supervision, or assistance essential for sustaining the activities of daily living or for the protection of the individual on less than a 24-hour basis. Child care facility includes child care centers, employer-sponsored child care centers, and family child care homes. Each of these different types of child care facilities is subject to different regulations and land use requirements.

2. **Child Care Center.** A child care facility that does not include a Family Child Care Home and is usually located in a commercial building that provides non-medical care and supervision to children (infant through school age) in a group setting for periods of less than 24 hours.

3. **Family Child Care Home.** A child care facility that provides supervision to children (infant through school age) in the caregiver's own home for periods of less than 24 hours per day. Per State law, Family Child Care Homes are not limited to

detached single-unit homes. The operation of a family child care home constitutes an accessory use of residentially zoned and occupied properties and does not fundamentally alter the nature of the underlying residential use.

a. **Large Family Child Care Home.** A home that provides family day care for 7 to 14 children, inclusive, including children under the age of 10 years who reside at the home.

b. **Small Family Child Care Home.** A home that provides family day care for eight or fewer children, including children under the age of 10 years who reside at the home. The use of a single-unit residence as a small family child care home shall be considered a residential use of property for the purposes of all local ordinances, and shall not require an entitlement or business tax certificate.

B. **Minimum Standards for Child Care Centers.**

1. **License.** The operator shall secure and maintain a child care center license from the State of California Department of Social Services.

C. **Standards for Family Child Care Homes.**

1. **License.** The operator shall secure and maintain a license from the State of California Department of Social Services.

2. **Large Family Child Care Separation.** A proposed Family Child Care Home shall not be located closer than 300 feet from the nearest lot line of another large family day care home for which a Discretionary Permit has already been issued and is in effect. However, the Director may allow the proposed large family day care home to be located closer than 300 feet if it is determined that such closer location will not have an adverse effect on surrounding properties or on vehicular or pedestrian safety in the area.

3. **Fire Clearance.** A fire safety clearance approved by Fresno Fire Department is required for Large Family Child Care Homes.

4. **Play structures.** Large family child care homes must meet play structure setback and placement requirements in section 15-2004 that apply to all single-unit dwellings.

D. **Additional Standards.**

1. All Large Family Child Care providers are required to obtain a Conditional Use Permit, as put forth in Article 53, Conditional Use Permits. Conditions associated with the Conditional Use Permit shall not exceed the standards and conditions outlined in this Section 15-2725.

2. All Child Care Centers and Family Child Care Homes shall provide parking as required in Article 24, Parking and Loading.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 25, eff. 7-30-17; Am. Ord. 2025-024, § 60, eff. 7-27-25).

SEC. 15-2726. DEMOLITION AND HOUSE MOVING.

A. **Demolition.** All structures proposed for demolition shall be reviewed by the City's Historic Preservation Officer and the San Joaquin Valley Air Pollution Control District.

B. **House Moving.**

1. **On-Site.** Prior to a structure being moved onto a site, the home shall be reviewed to ensure compatibility with the neighborhood as determined by the Director. Homes shall be subject to the Property Development Standards and adopted policies and procedures of the underlying District.

2. **Off-Site.** Prior to a structure being relocated off-site, the home shall be reviewed by the City's Historic Preservation Officer.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2727. DEVELOPMENT OF FORMER LANDFILL SITES AND HAZARDOUS SITES.

A Conditional Use Permit shall be required for the development of all former Landfill Sites and other sites deemed hazardous, regardless of the proposed use. As part of the application, the applicant shall at a minimum, provide a geotechnical report that provides a complete analysis of on-site soil conditions, fault hazards, underground water conditions, and recommendations as well as a post-closure plan that outlines remediation measures. Applicants shall comply with all State and Federal regulations related to operation, post-closure remediation, and monitoring.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2728. DRIVE-IN AND DRIVE-THROUGH FACILITIES.

Drive-in or drive-through facilities shall be located, developed, and operated in compliance with the following standards:

A. **Where Allowed.** Drive-in and drive-through facilities are allowed per base district land use regulations.

B. **Separation Requirements.**

1. **From Residential Districts.** Drive-through ordering intercoms or other amplified speaker interface shall not be located within 100 feet of a Residential District.

2. **Space between Drive-Throughs.** A building with a drive-through lane shall not be located within 400 feet of another structure containing a drive-through facility.

a. **Exceptions.**

i. This requirement does not apply in the CH Commercial—Highway and Auto district. However, compatibility with traffic flow shall still be assessed.

ii. This requirement does not apply within 1,000 feet of a freeway exit.

iii. This requirement does not apply to projects involving an existing drive-through that is required to relocate due to property being acquired as a result of a public work project and where the new location is within 1 mile of the original location.

C. **Drive-In and Drive-Through Aisles.** Drive-in and drive-through aisles shall be designed to allow safe, unimpeded movement of vehicles at street access points and within the travel aisles and parking space areas. Aisles shall be designed to provide adequate visibility at their intersection with streets or travel aisles. See Section 15-2018, Intersection Visibility.

D. **Landscaping.** Each drive-through aisle shall be screened with a combination of decorative walls and landscape to a minimum height of 30 inches to prevent headlight glare and direct visibility of vehicles from adjacent streets, parking lots, and the public right-of-way.

E. **Menu Boards.** A maximum of two menu boards, not exceeding 20 square feet in area apiece, with a maximum height of six feet are permitted per drive-through. Should a facility have two drive-throughs, each drive-through may have two menu boards. All outdoor speakers shall be directed away from any residential district or residential use.

F. **Pedestrian Walkways.**

1. Pedestrian walkways shall not intersect drive-in or drive-through aisles, unless no alternative exists due to physical site constraints. In such cases, pedestrian walkways shall have clear visibility, emphasized by enhanced paving or markings.

2. A pedestrian walkway crossing a drive-through lane will be allowed when it is the pedestrian pathway that links the site to the rest of the shopping center. This pathway must be located at the end of the drive-through lane and must be clearly delineated with striping or contrasting paving. Signage notifying drivers in the drive-through lane of the pedestrian crossing shall be provided.

G. **Site and Building Design.**

1. Walls along the street face and visible from the street, shall be transparent with windows, doors, and other forms of transparent building materials to maximize views in and out of the building and the relationship between interior and exterior to support and animate the public street and sidewalk.

2. Drive-through elements shall be placed to the side or rear of the building.

3. Drive-through aisles shall be designed to reduce idling. Signage to encourage customers not to idle shall be placed either before or at the entrance of a drive-through aisle.

H. **Hours of Operation.** Should a drive-through facility be located closer than 100 feet from a Residential District, the drive-through shall close no later than 10 p.m.

I. **Equal Access.** Whenever service is limited to drive-through facilities, customers using non-motorized transportation shall have equal access to service.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 26, eff. 7-30-17; Am. Ord. 2018-25, § 27, eff. 6-11-18; Am. Ord. 2025-036, § 2, eff. 10-23-25).

SEC. 15-2729. EMERGENCY SHELTERS.

Emergency shelters shall be located, developed, and operated in compliance with the applicable base district and the following standards:

A. **Number of Residents.** The number of adult residents, not including staff, who may be housed on a lot that is smaller than one acre shall not exceed the number of persons that may be accommodated in any hospital, elderly and long term care facility, residential, transient occupancy, or similar facility allowed in the same district.

B. **Length of Occupancy.** Occupancy by an individual or family may not exceed 180 consecutive days unless the management plan provides for longer residency by those enrolled and regularly participating in a training or rehabilitation program.

C. **Outdoor Activities.** All functions associated with the shelter must take place within the building proposed to house the shelter, except for children's play areas, outdoor recreation areas, parking, and outdoor waiting. Outdoor waiting for clients, if any, may not be in the public right-of-way, must be physically separated from the public right-of-way, and must be large enough to accommodate the expected number of clients.

D. **Minimum Hours of Operation.** At least eight hours every day between 7 a.m. and 7 p.m.

E. **Employee Presence.** On-site employee presence must be provided at all times.

F. **Toilets.** At least one toilet must be provided for every 15 shelter beds, unless a greater number is required by State law.

G. **Management Plan.** The operator of the shelter must submit a management plan for approval by the Director. The Plan must address issues identified by the Director, including transportation, client supervision, security, client services, staffing, and good neighbor issues.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2730. FARMER'S MARKETS.

Farmer's Markets may be located, developed, and operated in compliance with the following standards:

A. **General Provisions.**

1. **Types of Farmer's Markets.**

a. **Permanent Indoor Farmer's Market.** A Farmer's Market which takes place within a fully enclosed building which is not able to be disassembled when the Farmer's Market is not in operation. Permanent Indoor Markets shall be considered a Healthy Food Grocer and shall not be subject to this section.

b. **Permanent Off-Street Farmer's Market.** A Farmer's Market which takes place off-street within structures that are open to the sky on one more side and which are not able to be disassembled when the Farmer's Market is not in operation.

c. **Temporary Off-Street Farmer's Market.** A Farmer's Market which takes place in a parking lot or other off-street location within structures that are able disassembled when the Farmer's Market is not in operation.

d. **On-Street Farmer's Market.** A Farmer's Market which takes place within a street.

2. **Permits Required.**

a. **City Permits.**

i. A Zone Clearance or Conditional Use Permit shall be required as specified in the applicable Base or Overlay District.

ii. A Street Closure Permit shall be required for On-Street Farmer's Markets.

iii. A Building Permit shall be required for permanent structures and tents larger than 400 square feet.

b. **Other Agencies.** Review and approval may be required from other agencies, including the Fresno County Health Department. Issuance of a Zone Clearance or Conditional Use Permit by the City does not relieve an applicant of the obligation to secure all permits required by other agencies prior to commencement of operations.

3. **Submittal Requirements.** In addition to standard submittal requirements for the applicable permits, the following information shall be provided with applications for Farmer's Markets:

a. **Site Plan.** A site plan showing the proposed layout shall be provided. The site plan shall show all information necessary to demonstrate compliance with this section and other applicable regulations, including the following:

i. The site plan should clearly show the location of Farmer's Market stands, and restroom locations as they relate to all of the existing buildings, landscaping, and access points on the site.

ii. Both vendor and customer parking need to be indicated on a site plan. This can be accomplished on the same property as the proposed farmer's market or on an adjacent property with the permission of the owner.

b. **Traffic Control Plan.** On-Street Farmer's Markets shall submit a traffic control plan that shows the exact area of the streets to be closed, detour routes, barricade locations, and traffic control signage.

c. **Insurance.** On-Street Farmer's Markets may require additional insurance, as determined by the City's Risk Manager.

4. **Public Notice.** When proposed in a Residential District or on a site which abuts a Residential District, public noticing shall be required per Section 15-5007 prior to issuance of a Zone Clearance or Conditional Use Permit.

B. **Site Design Development Standards.** Unless otherwise specified, Farmer's Markets shall follow all applicable site design development standards of the Base or Overlay District. The following shall also apply:

1. **Sales Area Paving.**

a. **Permanent Off-Street Farmer's Market.** Sites shall be paved with asphalt, concrete, pavers, or similar materials as determined by the Review Authority. The sales area shall not consist of turf, dirt, or gravel.

b. **Temporary Off-Street Farmer's Market.** The sales area may be paved with asphalt, concrete, pavers, or similar materials, and may also consist of turf or artificial turf. The sales area shall not consist of dirt or gravel.

2. **Setbacks.** Display areas shall comply with the setbacks of the applicable Base or Overlay District, however in no case shall setbacks be less than 10 feet from any side or rear property line.

3. **Parking.**

a. **Permanent Off-Street Farmer's Market.** Permanent Outdoor Farmer's Markets shall provide parking per one space per 1,000 square feet of sales area.

b. **Temporary Off-Street Farmer's Market.** None required, however available parking spaces for other uses on the site shall not be reduced by more than 40 percent. An exception may be made if a parking study, prepared by a Licensed Traffic Engineer, concludes that there is adequate parking in the area, not including on-street parking in Residential Districts.

c. **On-Street Farmer's Markets.** None required.

4. **Layout.**

a. Aisles shall be no less than 20 feet wide.

b. A group of adjacent tents shall not exceed 700 square feet. Each group must be separated by no less than 12 feet.

c. Other safety requirements may be applied by the Police Department, Fire Department, or Building Division.

5. **Appearance.** Stands should be uniform in appearance and be covered by a white pop-up canopy or tent that measures approximately 10 feet x 10 feet. Other colors and designs may be considered at the discretion of the Review Authority, but in no circumstances shall tarps be permitted in lieu of a tent or canopy.

6. **Signs.** Signs, including directional signs, shall comply with Article 26, Signs.

C. **Operational Requirements.**

1. **Products.**

a. **Agricultural Products.** Unprocessed agricultural products in their natural state shall comprise at least 60 percent of the retail space available.

b. **Other Allowed Products.** The exhibition and sale of the following shall not exceed 40 percent of the retail space available:

i. Processed foods such as dried fruit, cheese, or bread, and similar agricultural products.

ii. Artisan handiwork or art.

iii. Mobile Vendors.

iv. Beer and Wine. The Vendor must be a licensed beer manufacturer or winegrower and shall obtain approval from the Police Department, a sales permit from the Department of Alcoholic Beverage Control, and a Temporary Use Permit from the City. Vendor operations, including sales and tastings, shall comply with all State and County rules and regulations.

c. **Prohibited Products.**

i. Alcoholic beverages other than wine or beer.

ii. New, commercially produced merchandise that is not agricultural-related.

iii. Second-hand or used merchandise.

iv. Tobacco products.

v. Livestock.

2. **Management.** There shall be a Market Manager, which may be a vendor, during all hours of operation. The Market Manager shall ensure compliance with City regulations and for resolving issues that may arise as part of the operation of the Farmer's Market. The Manager's contact information shall kept on file with the Planning Division.

3. **Time Limits.** In Residential Districts Farmer's Markets shall not operate, including setting-up, between the hours of 9 p.m. and 7 a.m.

4. **Refuse/Litter.** The operator or Market Manager shall provide trash and recycling collection bins and shall be responsible for collecting refuse after each event, including in the parking lot. The site, including parking areas, must be left in a clean condition when not in operation.

5. **Noise.** In Residential Districts, or abutting a Residential District, there shall not use amplified sound for any purpose.

6. **Truth in Advertising Disclaimer.** If the vendors are not the actual farmers, then that should be made clear to the consumer by use of a small sign at each vendor stand.

7. **Post-Operation Clean Up.** All evidence of the Farmer's Market must be removed from the site (including all tables, tents, canopies, temporary membranes, barricades, products, signs, litter, etc.) when it is not in operation. Permanent structures and signs are excepted.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2731. FLEA MARKETS.

Flea Markets, including Swap Meets and Open-Air Markets, that do not meet the strict definition of a Farmer's Market, may be permitted subject to the following standards.

A. **Size.** Flea Markets shall be a minimum of five acres in area.

B. **Sales Area Paving.** The site shall be paved, per Public Works Standards (Parking Lots) to mitigate dust.

C. **Parking.** Refer to Article 24, Parking and Loading. Parking shall be paved per Public Works Standards.

D. **Screening.**

1. **Along Public Streets.** The perimeter of the area used by vendors shall be screened. Screening shall be located at the rear of the required landscaping along public streets.

2. **Customer Parking Area.** The customer parking area is not required to be screened, unless adjacent to a Residential District. If adjacent to a Residential District, refer to Article 24, Parking and Loading.

3. **Screening Material.** Refer to 15-2008-C, Screening Wall Standards.

E. **Perimeter Landscaping.** Flea Markets shall provide 20 feet of landscaping along public streets and along a shared property line with residential districts, unless a greater landscape setback is required by another Article or operative plan.

F. **Restrooms.** Permanent restrooms, connected to City utilities, shall be provided.

G. **Alcohol.** Alcohol consumption is prohibited.

H. **Time Limit.** Hours shall be limited from 6 a.m. to 5 p.m. Vendors may arrive one hour prior to opening and may remain one hour after 5 p.m. to load their merchandise. An exception to the hours of operation may be permitted should the Flea Market also serve as a drive-in movie theatre.

I. **Number of Events.** The Flea Market shall not operate more than three days per week.

J. **Refuse/Litter.**

1. The facility shall provide adequate trash and recycling enclosures for the collection of refuse.

2. The operator shall be responsible for collecting trash after each event, including in the parking lot.

K. **Management.** An establishment shall have an employee present during all hours of operation.

L. **Products.**

1. **Display Areas.** All products shall be sold within a designated area.

2. **Animals.** Only Household Pets may be sold, including birds, fish, dogs, cats, and reptiles.

3. **Vehicles.** Vehicles shall be showcased within a designated area and shall not occupy required parking spaces.

4. **Food Vendors.** Food Vendors, including Mobile Vendors may sell within a designated area accessed from within the facility.

5. **Contraband/Stolen Goods.** The operator shall take measures to prevent the sale of contraband, including stolen goods, 'knock-off' merchandise that violates patents and trademarks, firearms, fireworks, firecrackers, drugs, etc. The operator shall provide a written statement articulating what security measures will be implemented to prohibit the sale of contraband.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2732. HAZARDOUS WASTE MANAGEMENT FACILITIES.

All hazardous waste management facilities, except household hazardous waste collection centers authorized by the City and the Fresno County Health Department, shall be located, developed, and operated in compliance with applicable Federal and State laws and regulations, as well as the following:

A. **Application Content.** Applications for hazardous waste management facilities shall include the following:

1. **Site Plan.** A detailed site plan depicting all buildings, land uses, storage areas, parking areas, driveways, internal and surrounding traffic circulation. Occupancy type and rating for each building or structure shall be identified.

2. **Best Management Practices.** Demonstrate and certify that they are minimizing the generation of hazardous waste through the use of the best available technology within their manufacturing, and/or product development processes. Applicants shall also demonstrate and certify that facilities will be using the best available control technology in minimizing air emissions and processing hazardous waste. Such demonstration and certification shall be provided prior to the issuance of any building permit or other land use entitlement.

3. **Waste Characteristics and Capacity.** Identify the amounts (in tons) and types of hazardous waste to be treated and stored; the duration of stored waste on the facility site and the ultimate destination of the waste. The owner-operator shall make this information available on a yearly basis to the City of Fresno. If the application is for a transfer station the applicant shall identify the capacity of the facility to store each type of waste stream, service area(s) of the facility and ultimate disposition of the waste.

4. **Air Quality Analysis.** An analysis of all anticipated air quality impacts and proposed mitigation measures. The hazardous waste facility shall comply with all applicable State and federal laws as well as all rules and regulations of the San Joaquin Valley Air Pollution Control District.

5. **Risk Assessment.** A risk assessment which analyzes in detail all probabilities of accidents or spills at the site, including transportation related, or accidents from the point of origin to the facility, and any other risk assessment requested by either the City Manager, Director, Fire Chief, or the City Council. Such analyses shall identify mitigation measures to reduce the identified risks. The risk assessment shall identify the most probable routes for transporting hazardous wastes to and from the facility.

6. **Emergency Response Plan.** An Emergency Response Plan that indicates at a minimum:

    a. That the proposed plan is consistent with any and all applicable County and regional Emergency Response Plans and all City, County, State and federal regulatory requirements regarding Emergency Response Procedure.

    b. Detailed procedures to be employed at the time of emergency for each type of chemical substances utilized including contingency procedures.

    c. Anticipated impacts on local fire, police, and medical services.

    d. Names, home, and business addresses, and home and business telephone numbers of all management personnel at the facility, if known, and a detailed description of uncontrolled release and emergency situation reporting procedures.

B. **Flooding Information.** An analysis of the potential of flooding on the site. Note residual repositories are prohibited in areas of special flood hazards as depicted by FEMA Flood Hazard Maps.

C. **Traffic Analysis.** Applicants shall submit a traffic analysis which addresses, at a minimum, vehicle-truck trips, effects on nearby intersections, and any special characteristics of the project site. Applicants shall also identify the most likely transportation routes within the city and the county.

D. **Closure Plan.** The owner or operator of a hazardous waste facility shall, prior to any local land use decision, submit a written Closure Plan to the Fresno County Health Department. The Closure Plan shall be approved the Fresno County Health Department. All revisions to such Closure Plans shall also be submitted to the Fresno County Health Department.

E. **Safety.** The owner/operator shall demonstrate that the separation between the hazardous waste facility and residential areas is adequate to protect the health, safety, welfare, and property values of residents.

F. **Monitoring.** At minimum, hazardous waste facilities are subject to the following monitoring requirements:

1. Upon reasonable notice, and for the purpose of ensuring compliance with all standards, conditions, and other requirements which the City is authorized to enforce under its police power, City Officials or their designated representatives may enter the premises on which a hazardous waste facility permit has been granted.

2. The owner or operator of a facility shall report yearly to the Fresno County Department of Health, Environmental Division the amount, type, and disposition of all wastes processed by the facility. Included in the report shall be copies of all manifests showing the delivery and types of hazardous wastes and include a map showing the exact location (coordinates and elevation) of quantities and types of materials placed in repositories or otherwise stored or disposed of on-site.

3. The owner or operator of a hazardous waste facility shall immediately send copies of all complaints as to facility operations and copies of all inspection reports made by other local, State, or federal agencies to the Fire Chief and City Engineer.

4. Owners/Operators of all facilities shall prepare and submit an Annual Emergency Response Preparedness Report to the Fire Department and all other local emergency response agencies. Such report shall be signed by all management personnel at the facility and each person at the facility who has emergency response responsibilities.

5. Owners/Operators of all facilities shall submit an annual Air, Soil, and Groundwater Monitoring Report to the City Engineer.

G. **Modifications.** Any modifications of the types and quantities of hazardous waste to be managed at the facility which were not included in the approved application for a Conditional Use Permit shall be approved by the Fire Chief and City Engineer before such modifications occur at the facility.

H. **Contingency Plan.** Every hazardous waste facility shall have a contingency operation plan approved by the California Department of Health Services. A copy of the contingency plan shall be maintained at the facility and sent to the Police Department, Fire Department, Engineering Division, and the County Department of Environmental Health.

I. **Financial Assurance.** Prior to issuance of an "Occupancy Permit" to begin the use of a hazardous waste facility, the applicant shall show proof that it has met all of the financial responsibility requirements imposed by the California Department of Health Services and any other federal or State agency.

J. **Indemnification.** The applicant agrees to indemnify, defend, and render harmless the City, and its City Council and all officers, employees, and agents of the City against and from all claims, actions, and liabilities relating to the land use decision or arising out of the operation of the facility.

K. **Enforcement.** All costs of compliance with this Ordinance shall be borne by the facility owner/operator. The City shall employ any and all methods permitted by law to enforce this Ordinance.

L. **Maintenance.** The owner/operator shall keep all equipment and buildings in good repair and shall employ technological advances as may be required by the California Department of Health Services, San Joaquin Valley Air Pollution Control District, or U.S. Environmental Protection Agency.

M. **Findings.** The following findings shall be made in writing prior to making a land use decision which will allow the siting of a hazardous waste facility project:

1. The project is consistent with the General Plan.
2. The project will not be detrimental to the health, safety, general welfare, or property values of the community or nearby residents.
3. The project will not significantly reduce incentives for waste minimization by hazardous waste generators.
4. There are adequate City services available to service the project.
5. The project has met or exceeded each requirement of this Ordinance.
6. Any potential impacts identified in the CEQA analysis may be adequately mitigated.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2733. HOBBY STORES.

Hobby stores may have outdoor activity areas subject to the following standards:

A. For outdoor facilities that provide batting cages, paintball, airsoft, or similar activities, fences, nets, or walls shall be provided that are capable of stopping all projectiles fired and/or hit by containing or redirecting the projectile to the backstop.

B. Activities, such as batting cages, paintball, remote control race tracks, hobby helicopters, and go-karts that may generate unwanted noise, shall cease by 10 p.m. (and may not renew operations until 8 a.m. the following morning) unless separated by 400 feet or greater from a Residential District. A greater distance or additional mitigation measures may be required to mitigate noise to acceptable levels.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2734. HOME GARDENS AND EDIBLE LANDSCAPING.

Gardens, as part of existing and new single-unit homes, may be incorporated into all yards. Raised garden/accessible garden beds are permitted, but not required. Raised garden beds shall comply with site line requirements per this Ordinance. Only household garden tools and equipment, applicators, and products, may be used. This includes, but not limited to, soil preparation, cultivation, planting, application of chemicals, dust control, harvesting, etc.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 61, eff. 7-27-25).

SEC. 15-2735. HOME OCCUPATIONS.

A. **Purpose.** The purpose of this section is to:

1. Permit home occupations as an accessory use in a dwelling unit;
2. Allow residents to operate small businesses in their homes, under certain specified standards, conditions, and criteria;
3. Allow for "telecommuting" and reduced vehicle use;
4. Ensure that home occupations are compatible with, and do not have an adverse effect on, adjacent and nearby residential properties and uses;
5. Ensure that public and private services, such as streets, sewers, water, or utility systems, are not burdened by the home occupation to the extent that usage exceeds that normally associated with a residential use; and
6. Preserve the livability of residential areas and the general welfare of the community.

B. **Applicability.** This section applies to all residential units and properties in the city regardless of their zoning designation. It does not apply to family day care homes, which are regulated separately in Section 15-2725, Day Care Centers and Family Child Care Homes.

C. **Zoning Clearance Required, Not Transferable.** A Zoning Clearance is required for each home occupation, pursuant to the provisions of Article 51, Zone Clearance. A Zoning Clearance to conduct a home occupation at a particular address is not transferable from one party to another, nor may the type of business be modified. A new Zoning Clearance must be obtained for each new home occupation.

D. **Operational and Performance Standards.** Home occupations must be located and operated consistent with the standards of this Code.

E. **Residential Appearance.** The residential appearance of the unit within which the home occupation is conducted shall be maintained, and no exterior indication of a home occupation is permitted.

1. **Location.** All home occupation activities shall be conducted entirely within the residential unit, or within a garage that is reserved for the residential unit. When conducted within a garage, the doors thereof shall be closed, and the area occupied shall not preclude the use of required parking spaces.
2. **Structural Modification Limitation.** No structural alterations shall be made to create features not customary in dwellings.
3. **Maximum Size.** The space exclusively devoted to the home occupation (including any associated storage) shall not exceed 25 percent of the residential unit floor area.
4. **Employees.** One employee or independent contractor other than residents of the dwelling may be permitted to work at the location of a home occupation. All work conducted by employees shall be conducted completely within the home or garage.
5. **On-Site Client Contact.** No customer or client visits are permitted except for personal instruction services (e.g., musical instruction or training, art lessons, academic tutoring). A total of eight clients and/or students per day may be permitted, however there may be no more than three clients/students at any one time. Clients/students hours of arrival and/or departure shall be staggered as to not disrupt the surrounding properties.
6. **Employee/Client Parking.**
    a. Customers, clients, and/or employees shall park on-site. If the site cannot accommodate an on-site parking space for the lack of drive approach or parcel width, they may park off-site.
    b. Parking required for customers/clients/employees may be tandem.
    c. The home occupation shall not cause resident occupants to park their vehicles in other locations.
7. **Hours.** Employees, visitors, students, and/or clients are permitted between the hours of 7 a.m. to 7 p.m.
8. **Direct Sales Prohibition.** Home occupations involving the display or sale of products or merchandise are not permitted from the site except by mail, telephone, Internet, or other mode of electronic communication, unless permitted per Cottage Food Preparation as detailed below.
9. **Storage.** There shall be no storage of materials, supplies, and/or equipment in an accessory building, or outdoors. Storage may only occur within a garage if it does not occupy or obstruct any required parking space. Contractors whose work is conducted entirely off-site (and who use their home solely for administrative purposes related to the contracting business) may store construction, electrical, landscaping, plumbing, or similar supplies or materials within a single vehicle of one ton or less.

10. **Traffic and Parking Generation.** Home occupations shall not generate a volume of passenger or commercial traffic that is inconsistent with the normal level of traffic on the street on which the dwelling is located or which creates the need for additional parking spaces, or involve deliveries to or from the premises in excess of that which is customary for a dwelling unit. There shall be no deliveries and/or pick-ups from commercial vehicles, except those used by mail carriers.

11. **Vehicles.** Only one vehicle, owned by the operator of the home occupation, and not to exceed one ton in capacity, may be used by the operator in conjunction with the home occupation.

12. **Commercial Vehicles and Attachments.** Home occupations involving more than one commercial vehicle parked on-site shall not be permitted. No attachments of equipment or machinery used for business purposes shall be permitted either on the vehicle or on the site when the vehicles are not in use and such equipment or machinery is within view from the public right-of-way or neighboring properties. Storage of attachments of equipment and machinery or trailers are not permitted in areas visible from public rights-of-way or neighboring properties, unless part of an active approved construction project on the site.

13. **Equipment.** Home occupations, which involve mechanical or electrical equipment which is not customarily incidental to domestic use shall not be permitted. Facsimile machines, copy machines, computers, and other similar business equipment are permitted. Small power tools and similar equipment/machinery not exceeding two horsepower are also permitted. Commercial kitchens are prohibited.

14. **Cottage Food Preparation.** Cottage Food Preparation is permitted subject to compliance with Government Code 51035 and Health and Safety Code 113758. Food preparation and storage shall be done within the primary residence. There shall be no outdoor storage of material while all activities must occur within the primary residence, not including the garage and/or accessory buildings.

15. **Hazardous Materials.** Activities conducted and equipment or materials used shall not change the fire safety or occupancy classifications of the premises, nor use utilities different from those normally provided for residential use. There shall be no storage or use of toxic or hazardous materials other than the types and quantities customarily found in connection with a dwelling unit.

16. **Nuisances.** A home occupation shall be conducted such that no offensive or objectionable noise, dust, vibration, smell, smoke, heat, humidity, glare, refuse, radiation, electrical disturbance, interference with the transmission of communications, interference with radio or television reception, or other hazard or nuisance is perceptible at or beyond any lot line of the unit or structure within which the home occupation is conducted, or outside the dwelling unit if conducted in other than a single-unit detached residence.

F. **Multiple Home Occupations.** Only one home occupation per home is permitted.

G. **Signage.** Signs for Home Occupation uses may be erected subject to the following standards:

1. **Quantity.** A maximum of one sign is permitted.
2. **Type.** A wall or window sign is permitted. Freestanding signs of any type shall not be permitted.
3. **Size.** Shall not exceed two square feet in area.
4. **Design.** Signs shall be visually compatible with the building and surrounding neighborhood.
5. **Illumination.** Illuminated signage is not permitted.

H. **Prohibited Home Occupations.** The following specific businesses are not permitted as home occupations.

1. Adult-oriented business;
2. Ambulance services;
3. Automotive/vehicle repair, painting, body/fender work, upholstering, detailing, washing, including motorcycles, trucks, trailers, and boats;
4. Automotive/vehicle sales with any on-site storage or sale of vehicles;
5. Barber, beauty, nail salons, tattoo, body piercing. Shops with one station are excepted. Visits shall be by appointment;
6. Animal boarding, care, training, breeding, raising or grooming, or veterinary services, conducted on the premises;
7. Carpentry and cabinet-making businesses;
8. Commercial food preparation, food handling, processing, or packing other than Cottage Food Preparation as described above;
9. Firearms manufacture, sales, or repair;
10. Furniture refinishing or upholstery;
11. Gymnastic facilities;
12. Massage parlor;
13. Medical and dental offices, clinics, and laboratories, or any type of physical therapy, psychotherapy, or massage therapy;
14. Medical marijuana distribution;
15. Mini-storage;
16. Mortuaries;
17. Instructional services for more than three students at one time;
18. Pharmacies;

19. Print shops/Copy centers;
20. Recording studio (electronic composition, recording, and re-mixing conducted with headphones and using no amplification, live instruments or live performance excepted);
21. Repair, fix-it, or plumbing shops;
22. Restaurant;
23. Retail sales;
24. Tanning salon;
25. Towing service;
26. Welding, metal working, and machining businesses;
27. Yoga/spa retreat center; and
28. Any other use that the Director determines would be detrimental to the public health, safety, and general welfare or would be incompatible with nearby residential uses.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 26, eff. 10-21-16; Am. Ord. 2025-024, § 62, eff. 7-27-25).

SEC. 15-2736. ISO CONTAINERS.

ISO Containers, also known as sea, ocean, or shipping containers, shall comply with the following standards.

A. **Residential and/or Commercial Use.** ISO Containers used as structures containing residential or commercial uses, or any other such occupied space, shall secure all entitlements that are required of conventional structures, shall comply with all provisions of the Base District and other applicable provisions of this Code, and shall secure a Building Permit.

B. **Storage Use.**

1. **Exceptions.** City-owned sites and ISO Containers used during construction to temporarily store equipment or material are exempt from this section. The ISO Containers shall be removed upon occupancy of the building and/or expiration of the building permit, whichever occurs first.
2. **Incidental Use.** ISO Containers shall be incidental to the primary use on the site and/or shopping center. They are not permitted as an accessory use to a stand-alone parking lot.
3. **Condition.** ISO Containers shall be kept in good condition and free of damage, rust, graffiti, signs, banners, etc. Repairs shall be made within 48 hours of being damaged. Graffiti shall be removed within 48 hours.
4. **Vacant Property.** Not permitted on vacant property.

5. **Residential and Mixed-Use Districts.** Refer to Section 15-2405, Recreational Vehicles, Boats, Trailers, and Portable Storage.
6. **Commercial Districts.**
   a. Shall be located to the rear of the building and shall be screened from Major Streets to the satisfaction of the Director.
   b. Shall be limited to one per each 20,000 square feet of building area. For buildings less than 20,000 square feet, one.
7. **Industrial Districts.**
   a. **IL District.**
      i. Shall be screened, to the greatest extent feasible, from Major Streets, including State Highways.
      ii. Shall not be visible from a local street that also serves existing residences and/or planned Residential Districts.
      iii. Shall not be stacked.
   b. **IH Districts.**
      i. Shall not be visible from a local street that also serves existing residences and/or planned Residential Districts.
      ii. Shall not be stacked higher than two containers.
8. **Separation from Residential Districts.** ISO Containers shall be separated by a minimum of 200 feet from Residential Districts and/or residential uses. Caretaker's Residences are exempted from this subsection.
9. **Separation from Property Lines and Buildings.** Ten feet. There shall be no structures between the containers that connect them.
10. **Paving.** Containers shall be placed on paved areas, per Public Works standards, to mitigate dust. Industrial Districts are excepted.
11. **Prohibited Storage.** The ISO may not be used to store flammable liquids or other hazard materials as determined by the Fire Chief.
12. **Utilities.** There shall be no utility connections to the ISO container.
13. **Fire Clearances.** The container shall provide adequate access as determined by the Fire Chief.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2737. LARGE-FORMAT RETAIL.

Large Format Retail, defined as a single tenant that occupies a minimum of 80,000 square feet shall be designed, located, and operated to meet the requirements of the applicable Base District and the following standards.

A. **Applicability.** If a Large-Format Retail space is vacant for a period of at least one year the following standards shall apply:
   1. **Landscaping.** Perimeter landscaping and Parking Lot Shading standards per the applicable Property Development Standards for the District in which it is

located. The Director may make exceptions to the strict application of the prescribed standards, however in no case shall the reduction result in a net reduction of 35 percent or greater in the amount of landscaping provided. Landscaping may also be aggregated to minimize the impact on parking areas. In addition, the Director may enter into an agreement that allows the property owner to defer the installation of landscaping for a period not to exceed 18 months from the date of occupancy. The deferment agreement shall be recorded with the County Recorder.

2. **Bicycling Parking.** Bicycling Parking shall be provided per Section 15-2429.

3. **Refuse.** Refuse Collection Areas shall be provided per Section 15-2016, Trash and Refuse Collection Areas.

4. **Recycling.** All new shopping centers or supermarket sites that are required by the State of California Department of Conservation to have a Recycling Center shall have an area designated and improved for the use of a recycling center as part of its original site plan. This area shall be permanently integrated and architecturally compatible with the center and shall provide adequate screening and design features so as to not detract from the design of the center.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 48, eff. 1-18-19).

SEC. 15-2737.5. LODGING-TO-DWELLING CONVERSION REQUIREMENTS.

A. **Purpose.** The purpose of this section is to allow for the conversion of existing hotels or motels from a commercial lodging use to a residential use which will provide housing to non-transient residents and facilitate bringing these hotel or motel buildings into safe and habitable condition as required by State and local law.

B. **Applicability.**

1. Hotels and motels that were constructed prior to January 1, 2020, and have previously accommodated or currently accommodate non-transient residents are eligible to apply for a lodging-to-dwelling conversion.

2. Lodging-to-Dwelling Conversions shall be permitted in any Base District and/or Overlay District in which an Eligible Hotel may exist, including any Base District and/or Overlay District that does not permit Residential Use Classifications.

3. This section shall not apply to a conversion that involves the construction of new structures for residential use or a significant enlargement of existing structures. For purpose of this section, the term "significant enlargement" shall mean a new building or expansion of existing buildings such that the number of individual units is increased.

C. **Permit required.** An application for a Lodging-to-Dwelling Conversion shall require a Conditional Use Permit subject to Article 53 and an assessment pursuant to the California Environmental Quality Act (CEQA) shall be conducted.

D. **Definitions.**

1. "Eligible Hotel" shall be defined as an existing hotel or motel building, constructed prior to January 1, 2020, that offers lodging to non- transient residents, for all or a portion of the facility that is eligible to apply for a lodging-to-dwelling conversion. Provision of one residential unit for an on-site manager shall not disqualify a hotel or motel from being defined as an "Eligible Hotel."

2. "Non-transient residents" shall be defined as a person who resides in a non-transient facility for a period of thirty-one or more consecutive days.

E. **Compliance with Existing Regulations.** The following requirements shall apply to all lodging-to-dwelling conversions and are currently enforceable in relation to existing hotels, motels and non-transient facilities under state and local laws and regulations:

a. An Eligible Hotel shall bring the subject hotel or motel building into full compliance with the California Building Code, the California Fire Code, and the California Electrical Code, as may be amended and any local amendments thereto.

b. An Eligible Hotel shall be subject to the occupancy classifications and change of occupancy requirements in the California Building Code based upon the classification most similar to the primary use of the facility, as determined by the Building Official.

c. An Eligible Hotel offering rooms to non-transient residents shall not operate if the facility or any portion of the facility exists with any of the conditions necessary to be declared a substandard building within the meaning of California Health and Safety Code section 17920.3, as may be amended.

d. In the event an Eligible Hotel is declared a substandard building or otherwise exists with any of the conditions necessary to be declared a substandard building, the Eligible Hotel shall be subject to the provisions of Fresno Municipal Code sections 1-301 et. seq.

F. **Minimum Standards for Lodging-to-Dwelling Conversions.**

a. **Fire Safety.** Eligible Hotels shall either:

   i. Be built with fire-resistive construction; or

   ii. Be equipped with fire-extinguishing systems or equipment as set forth in the California Building Code and California Health and Safety Code.

b. **Lavatory.** All bedrooms shall provide private lavatory and bathing facilities in each unit, including but not limited to the following:

   i. Bathroom sink.

   ii. Toilet.

   iii. Shower or tub and shower combined facility.

c. **Heating and Cooling.** Eligible hotels shall provide heating and cooling equipment in each unit.

d. **Food Storage and Preparation.** Eligible hotels shall provide access to cooking and refrigeration spaces to non-transient residents by either of the following options:

i. **Efficiency Unit Kitchens.** Providing a refrigerator of at least two thirds the size of a standard refrigerator, a separate sink for food preparation, microwave, a cooking appliance such as an oven and stove or efficiency cooktop with unobstructed ventilation, and a non-porous washable surface suitable for food preparation, constructed in compliance with the California Building Code, and an optional microwave; or

ii. **Common Use Kitchen.** Providing a dedicated common-use space on the premises with kitchen facilities to be used by non-transient residents. A full kitchen will be required for every 6 units. A full kitchen is defined as being a minimum of 100 square feet in size and containing the following fixtures: a sink, food preparation counter, storage cabinets, and permanent cooking facilities such as an oven and range or cooktop. Kitchen and food storage facilities shall be constructed in compliance with the Americans with Disabilities Act, California Code of Regulations, California Building Code, California Plumbing Code, California Electrical Code, and California Fire Code, as may be amended (including local amendments). In addition to the requirements of the above applicable codes, kitchen facilities shall be constructed with unobstructed ventilation for all cooking appliances, non-porous materials shall be used for all food preparation surfaces, and all surfaces shall be washable.

e. **Electrical Capacity.** Eligible hotels shall provide electrical capacity, subject to review, inspection, and approval of the Building Official as follows:

i. A main electrical panel sufficient to accommodate non-transient occupants in all units; and

ii. A sub-electrical panel for each unit in the facility. Each sub-electrical panel shall have sufficient capacity to accommodate a refrigerator, a cooktop, and a microwave, in addition to any electrical capacity needs generated by lighting, heating and cooling appliances, televisions, and personal appliances including but not limited to computers or cellular phones; and

iii. Any other improvements related to the provision of electricity deemed necessary by the Building Official to preserve the public health and safety.

f. **Converted Efficiency Units.** Units converted to residential efficiency units shall comply with Health and Safety Code section 17958.1 and occupancy by no more than two persons is permitted when the unit has a minimum floor area of 150 square feet, and partial kitchen or bathroom facilities as set forth in the Minimum Standards, above.

G. **Maximum Density.** Density limitations set forth in the applicable Base District and/or Overlay District shall not apply to Lodging-to-Dwelling Conversions. The number of dwelling units that are created shall not exceed the number of lodging units that are removed from the Eligible Hotel.

H. **Other Capacity Inspections.** Eligible Hotels shall complete plumbing, structural, and mechanical improvements sufficient to accommodate non-transient residents, and as deemed necessary by the Building Official to preserve the public health and safety. These improvements are subject to review, inspection, and approval of the Building Official.

I. **Legal Non-Conforming Uses, Structures and Site Features.** Except for any and all changes, including but not limited to structural changes, required for the conversion of an Eligible Hotel, the provisions of FMC 15-404 and 15-405 will apply to uses, structures and site features that are related to an Eligible Hotel. An Eligible Hotel is permitted to convert any use, structure or site feature to become a conforming use that is compliant will all state and local codes.
(Added Ord. 2020-031, § 1, 9-1-20).

SEC. 15-2738. MANUFACTURED HOMES.

Manufactured homes shall be designed and operated in compliance with the following standards:

A. **General Requirements.** Manufactured homes may be used for residential purposes subject to the provisions of this section and the Government Code (Section 65852.3).

B. **Underlying Districts.** The underlying District Standards shall apply to manufactured homes, including, but not limited to, building height, access, setbacks, open space, parking requirements, etc. If the home is located in an Infill Area or a site under the auspices of an operative plan, the home shall comply with the standards per the adopted plan or guidelines.

C. **Design Criteria.** A manufactured home shall be compatible in design and appearance with residential structures in the vicinity and shall meet the following standards:

1. **Foundation.** A manufactured home shall be built on a permanent foundation system approved by the Building Official.

2. **Date of Construction.** Each manufactured home shall have been manufactured within 10 years of the date of issuance of a permit to install the manufactured home and shall be certified under the National Manufactured Home Construction and Safety Act of 1974.

3. **Roof Overhang.** The roof overhang shall not be less than 12 inches around the entire perimeter of the manufactured home as measured from the vertical side of the home. The overhang requirement may be waived at the point of connection where an accessory structure is attached to the manufactured home.

4. **Roof Material.** Roof material shall consist of material customarily used for conventional single-unit dwellings, such as tile or composition shingles. If shingles are used, the pitch of the roof shall be not less than three inches vertical to 12 inches horizontal.

5. **Siding Material.** Siding material shall consist of exterior material customarily used for conventional single-unit dwellings, such as stucco, wood, brick, stone, or decorative concrete. Metal siding, if utilized, shall be non-reflective and horizontally lapping. Siding material utilized as skirting shall be the same as the material used on the exterior wall surface of the manufactured home.

6. **Skirting.** The unit's skirting shall extend to the finished grade. Skirting that touches the earth shall be treated.

7. **Building Orientation.** The home, including the primary entrance, shall face the street, if required by the underlying zone district.

D. **Mobile Home Parks.** Manufactured Homes within a Mobile Home Park must comply with California Health and Safety Code Sections 18200 et seq. and are exempted from the development and design standards given in Subsections B through C, except as the standards may relate to public street frontage (including perimeter walls), signs, access, and vehicle parking.

E. **Tiny House on Wheels (THOW).** A Tiny House on Wheels (THOW) may be considered a manufactured home and therefore used as a primary dwelling unit. THOWs shall comply with Subsections A, B, C.6, C.7, and D above. THOWs must additionally be ANSI certified and be placed on an engineered foundation system.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 63, eff. 7-27-25).

SEC. 15-2739. ADULT USE AND MEDICINAL CANNABIS RETAIL BUSINESS AND COMMERCIAL CANNABIS BUSINESS.

A. **Definitions**

1. The definitions within Section 9-3304 of this Code, as may be amended, apply to adult use and medicinal cannabis retail businesses and commercial cannabis businesses.

B. **Location and Design of Cannabis Retail Businesses**

1. Comply with the requirements within Section 9-3307 of this Code, as may be amended, relating to location and design requirements for a retail cannabis business, including, but not limited to, the following:

   a. All cannabis retail businesses must be located on property zoned DTN (Downtown Neighborhood), DTG (Downtown General), CMS (Commercial Main Street), CC (Commercial Community), CR (Commercial Regional), CG (Commercial General), CH (Commercial Highway), NMX (Neighborhood Mixed-Use),

CMX (Corridor/Center Mixed Use), RMX (Regional Mixed-Use), and must meet all of the requirements for development in these zones, including, but not limited to, parking, lighting, building materials, etc.

b. All buildings in which a cannabis retail business is located shall be no closer than eight hundred (800) feet from any property boundary containing any of the following:

1. A cannabis retail business.

2. A school providing instruction for any grades pre-school through 12 (whether public, private, or charter, including pre-school, transitional kindergarten, and K-12).

3. A day care center licensed by the state Department of Social Services that is in existence at the time a complete commercial cannabis business permit application is submitted.

4. A youth center that is in existence at the time a complete commercial cannabis business permit application is submitted.

c. Each applicant shall provide a neighborhood responsibility plan so the review authority may find that the proposed use and its operating characteristics are not detrimental to the public health, safety, convenience, or welfare of persons residing, working, visiting, or recreating in the surrounding neighborhood and will not result in the creation of a nuisance.

d. In addition to the requirements within Section 9-3307 of this Code, as may be amended, each proposed cannabis retail business shall meet the following building design guidelines:

1. Demonstrate compatibility with the surrounding character of the neighborhood and blend in with existing buildings. The establishment should look like any other similarly situated building. New and existing buildings shall meet the minimum Façade Design Development Standards of the associated zone district unless compliance would cause the building to not be compatible with the surrounding character of the neighborhood and existing buildings.

C. **Location and Design of Commercial Cannabis Businesses**

1. Comply with the requirements within Section 9-3308 of this Code, as may be amended, relating to location and design requirements for a commercial cannabis business, including, but not limited to, the following:

a. Laboratory testing may take place in a Commercial, Employment, or Downtown District and must meet all of the requirements for development in these zones, including, but not limited to, parking, lighting, building materials, etc.

b. Cultivators, distributors, or manufacturers must be located within the Cannabis Innovation Zone, inside a Cannabis Innovation Hub, or within one-half (1/2) mile of State Route 99 between Shaw Ave. and Clinton Ave., one (1) mile

of State Route 99 north of Shaw Ave. or south of Clinton Ave., or within one (1) mile of State Route 180 west of State Route 99, must be zoned either IL (Light Industrial) or IH (Heavy Industrial), and must meet all of the requirements for development in these zones. If not located within the Cannabis Innovation Zone, any building in which a cultivator, distributor, or manufacturer is located shall be no closer than one thousand (1,000) feet from any property boundary containing any of the following:

1. Any residentially zoned parcel in the city, including any legal non-conforming residential uses as of the date a complete commercial cannabis business permit application is submitted.
2. A school providing instruction for any grades pre-school through 12 (whether public, private, or charter, including pre-school, transitional kindergarten, and K-12).
3. A day care center licensed by the state Department of Social Services that is in existence at the time a complete commercial cannabis business permit application is submitted.
4. A youth center that is in existence at the time a complete commercial cannabis business permit application is submitted.

c. All Cannabis Innovation Hubs must be located within one-half (1/2) mile of State Route 99 between Shaw Ave. and Clinton Ave., one (1) mile of State Route 99 north of Shaw Ave. or south of Clinton Ave., or within one (1) mile of State Route 180 west of State Route 99, and must be zoned either IL (Light Industrial) or IH (Heavy Industrial), and must meet all of the requirements for development in these zones. All Cannabis Innovation Hub building shall be located no closer than one thousand (1,000) feet from any property boundary containing any of the following:

1. Any residentially zoned parcel in the city, including any legal non-conforming residential uses as of the date a complete commercial cannabis business permit application is submitted.
2. A school providing instruction for any grades pre-school through 12 (whether public, private, or charter, including pre-school, transitional kindergarten, and K-12).
3. A day care center licensed by the state Department of Social Services that is in existence at the time a complete commercial cannabis business permit application is submitted.
4. A youth center that is in existence at the time a complete commercial cannabis business permit application is submitted.

d. Each applicant shall provide a neighborhood responsibility plan so the review authority may find that the proposed use and its operating characteristics are

not detrimental to the public health, safety, convenience, or welfare of persons residing, working, visiting, or recreating in the surrounding neighborhood and will not result in the creation of a nuisance.

e. In addition to the requirements within Section 9-3308 of the Fresno Municipal Code, all buildings associated with a commercial cannabis business shall meet the following building design guidelines:

1. Demonstrate compatibility with the surrounding character of the neighborhood and blend in with existing buildings. The establishment should look like any other similarly situated building. New and existing buildings shall meet the minimum Façade Design Development Standards of the associated zone district unless compliance would cause the building to not be compatible with the surrounding character of the neighborhood and existing buildings. For existing buildings, pictures and elevations of the building(s) must be provided to the City upon submittal of a Conditional Use Permit application.

D. **Operating Requirements for All Commercial Cannabis Activity**

1. Comply with the requirements within Section 9-3309 of this Code, as may be amended, relating to operating requirements for all commercial cannabis activity.

E. **Operating Requirements for a Cannabis Retail Business**

1. Comply with the requirements within Section 9-3310 of this Code, as may be amended, relating to operating requirements for a cannabis retail business.

F. **Operating Requirements for a Distributor**

1. Comply with the requirements within Section 9-3311 of this Code, as may be amended, relating to operating requirements for a cannabis distributor.

G. **Operating Requirements for a Cultivator**

1. Comply with the requirements within Section 9-3312 of this Code, as may be amended, relating to operating requirements for a cannabis cultivator.

H. **Operating Requirements for a Testing Laboratory**

1. Comply with the requirements within Section 9-3313 of this Code, as may be amended, relating to operating requirements for a cannabis testing laboratory.

I. **Operating Requirements for a Manufacturer**

1. Comply with the requirements within Section 9-3314 of this Code, as may be amended, relating to operating requirements for a cannabis manufacturer.

J. **Signage**

1. Signage shall conform to the requirements of Chapter 15, Article 26 of this Code, Section 9-3309(h) of this Code, and this subsection. Where conflict may occur, the more restrictive provisions shall govern.

2. No signs placed on the premises of a cannabis retail business or a commercial cannabis business shall obstruct any entrance or exit to the building.

3. No signs of a cannabis retail business or a commercial cannabis business shall be placed on any window.

4. Business identification signage shall be limited to that needed for identification only and shall not contain any logos or information that identifies, advertises, or lists the services or the products offered. No cannabis retail business or commercial cannabis business may advertise by having a person holding a sign and advertising the business to passersby, whether such person is on the premises or elsewhere including, but not limited to, the public right-of-way.

5. Signage shall not be directly illuminated, internally or externally. No banners, flags, billboards may be used at any time.

6. No cannabis or cannabis products or graphics depicting cannabis or cannabis products shall be visible from the exterior of any property issued a Cannabis Conditional Use Permit, or on any of the vehicles owned or used as part of the commercial cannabis business or cannabis retail business.

K. **Landscaping**

1. **New Buildings.** Landscaping shall be provided per the underlying District.

2. **Existing Buildings.** Perimeter landscaping and Parking Lot Shading shall be provided per the underlying district. The Review Authority, at their discretion, may make exceptions to the prescribed standards, however in no case shall the reduction result in a net reduction of 35 percent or greater in the amount of landscaping provided. Landscaping may also be aggregated to minimize the impact on existing parking areas.

L. **Lighting**

1. Lighting. The exterior of the premise, including adjacent public sidewalks and all parking lots under the control of the establishment, shall be illuminated during all hours of darkness in a manner so that persons standing in those areas at night are identifiable by law enforcement personnel. However, required illumination shall be placed and/or shielded in a way that minimizes interference with the neighboring residences. Provide the hours of operation of the lighting within the required neighborhood responsibility plan.

M. **Litter and Graffiti**

1. Litter must be removed daily from the premises, including adjacent public sidewalks and all parking lots under the control of the cannabis retail business or commercial cannabis business; these areas must be swept or cleaned, either mechanically or manually, on a weekly basis to control debris.

2. The owner or operator shall remove graffiti within 48 hours.

N. **Cannabis Conditional Use Permit**

1. Prior to commencing operations, a commercial cannabis business or cannabis retail business must obtain a Cannabis Conditional Use Permit from the Planning and Development Department. Prior to applying for a Cannabis Conditional Use Permit, an applicant must first obtain a Commercial Cannabis Business Permit from the city.

2. Cannabis Conditional Use Permit applications shall be reviewed by the respective Council District Project Review Committee.

3. Cannabis Conditional Use Permit applications shall be routed for review to the respective school district in which the property is located.

4. Land use approvals shall include compliance with all applicable provisions of CEQA.

5. The process described in Chapter 15, Article 50 of this Code shall apply to a Cannabis Conditional Use Permit. Where conflict may occur with Chapter 15, Article 50, this section shall govern.

O. **Review Authority**

1. The Director shall approve, conditionally approve, or deny applications for Cannabis Conditional Use Permits based on consideration of the requirements of this article. The Director may, at their discretion, refer any application that may have significant public interest to the Planning Commission for a decision. In the event of a referral, the Planning Commission shall hold a public hearing prior to making the decision.

P. **Application Requirements**

1. Applications for a Cannabis Conditional Use Permit shall be submitted in accordance with the provisions set forth in Section 15-5002, Application and Fees.

2. The Cannabis Conditional Use Permit application shall be accompanied by a written narrative, operational statement, site plans, floor plans, elevations, and other evidence in support of the applicable findings required by subsection R, Required Findings.

3. The Director may require the applicant to submit additional information, of such type and in such form as the Director may specify, as the Director may deem relevant to the application, including, but not limited to, statements, numeric data, and technical studies, as appropriate.

Q. **Public Notice**

Public Notice shall be provided 10 days prior to the date of action pursuant to Section 15-5007.

R. **Required Findings**

A Cannabis Conditional Use Permit shall only be granted if the decision-maker determines that all of the required findings of Section 15- 5306 of this Code can be made for the project as submitted or as modified. If the decision-maker determines that it is not possible to make ail of the required findings, the application shall be denied.

S. **Conditions of Approval**

In approving a Cannabis Conditional Use Permit, the decisionmaker may impose reasonable conditions or restrictions deemed necessary in accordance with Section 15-5307 of this Code[.]

T. **Appeals**

Cannabis Conditional Use Permit decisions are subject to the appeal provisions of Section 15-5017, Appeals.

U. **Expiration of Cannabis Conditional Use Permit.**

1. A Cannabis Conditional Use Permit granted under this Code shall automatically expire five years after the date of issuance.
2. A Cannabis Conditional Use Permit granted under this Code runs with the land for up to five years. Should an operator discontinue operations at an existing Retail Cannabis Business or Commercial Cannabis Business, a new operator may take over the existing Cannabis Conditional Use Permit for the unexpired time period. Prior to commencing operations, the new operator must obtain a commercial cannabis business permit, submit an approved operational statement, and submit an approved neighborhood responsibility plan.

V. **Indemnification.**

1. All applicants for a Cannabis Conditional Use Permit and related environmental approval pursuant to the California Environmental Quality Act (CEQA) shall be responsible to fully indemnify, defend, and hold harmless the City, its officers, employees, agents, and volunteers, for any and all claims and legal challenges related to the City's actions in approving their applications. Applicant's obligations under the preceding sentence shall apply regardless of whether City or any of its officers, officials, employees, agents or volunteers are actively or passively negligent, but shall not apply to any loss, liability, fines, penalties, forfeitures, costs or damages caused by the sole negligence or willful misconduct of City or any of its officers, officials, employees, agents or volunteers. Indemnification and defense shall be considered a condition of approval for all Cannabis Conditional Use Permit approvals.
2. The responsibility to indemnify and defend the City as required under this Section shall be stated in all application documents provided by the City; however the failure to do so shall not negate the requirement to indemnify and defend.
3. If an applicant fails to accept responsibility to indemnify and defend as required in this Section, then the Cannabis Conditional Use Permit approval shall become null

and void upon notice from the City Manager, as approved by the City Attorney, and the applicant shall be liable to the City for all costs, settlements, and/or judgments incurred by the City with respect to the challenge to the Cannabis Conditional Use Permit approval. If an applicant fails to indemnify and defend the City, the City may, at the discretion of the City Attorney, concede the challenge to the Cannabis Conditional Use Permit approval.

(Added Ord. 2020-038, § 1, eff. 9-29-20).

Editor's note—Ord. 2020-038, § 1, effective September 29, 2020, amended the Code by repealing former § 15-2739, and replacing it with a new § 15-2739. Former § 15-2739 pertained to medical marijuana dispensaries, and derived from Ord. 2015-39, effective January 9, 2016.

SEC. 15-2739.1. RESERVED.

Editor's note—Ord. 2020-038, § 1, effective September 29, 2020, amended the Code by repealing former § 15-2739.1 in its entirety. Former § 15-2739.1 pertained to recreational marijuana activities, and derived from Ord. 2017-52, effective November 2, 2017.

SEC. 15-2740. MOBILE COMMERCIAL WASHING.

A. **Location.**

1. **Residential Districts.** Permitted when the commercial vehicle belongs to the tenant and/or occupant of the building.

2. **Non-Residential Districts.** Permitted in Non-Residential Districts, not to exceed one day per week. Vehicles shall be limited to only employees that work on-site.

3. The washing of vehicles shall only occur on private property.

B. **Pavement.** Sites shall be paved with asphalt concrete, concrete, or other acceptable impervious surface per City standards.

C. **Structures.**

1. Temporary canopies and shade structures are permitted. Temporary canopies may be required to obtain a Building Permit.

2. When not in operation, all evidence of its use must be removed from the site including all tents, canopies, temporary membranes, barricades, products, signs, litter, etc. Temporary canopies and shade structures shall be removed daily. The parking lot must be left in a clean condition, free of waste. Permanent buildings, structures, and signs are excepted.

D. **Business License.** Operators shall obtain a business license.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2741. MOBILE VENDORS.

A. **General Provisions.**

1. Noise and amplified music shall comply with all applicable noise standards.

2. Odors shall comply with Section 15-2510, Odors.

3. The sale of alcohol and tobacco products by Vendors is prohibited.

4. The operator shall provide waste removal and shall be responsible for collecting trash/debris and recycling after each stop. Trash includes material dispensed from the Vendor as well as items that may be left by their patrons.

5. Free-standing signs, such as A-frame signs and sidewalk signs, shall comply with Article 26, Signs.

6. **Permits.** Mobile Vendors shall have a current Tax Certificate, a Mobile Vendor Permit from the City when required by Section 9-1104, and shall have all applicable permits required by the County Health Department.

    a. **Display of Permit.** No mobile vendor shall operate in the city without prominently displaying on their person or vehicle a City-issued sticker or badge designating them as a duly permitted mobile vendor.

    b. **Display of Name.** The mobile vendor's name, the business name, address, telephone number, City permit number, City tax permit, and Fresno County Department of Health number shall be visible on both sides of any vehicle (including, ice cream trucks, bakery wagons, push carts, and bicycles). If the

vehicle is a truck, the display shall also be on the rear of the vehicle. The letter size for the name, telephone number and City permit number shall comply with Fresno County requirements and shall be clearly visible at 50 feet.

7. **Restaurant, Residential, and School Spacing for Food Vendors.** Notwithstanding sections B and C below, Vendors shall not operate within specified distances of the following uses as set forth below:

   a. Vendors shall not operate within 300 feet of an existing restaurant, during the restaurant's normal business hours, with the following exceptions:

      i. Vendors operating as part of a Farmer's Market per Section 15-2730 or a Special Event per Section 15-2760-B,

      ii. The restaurant and the Vendor are operated by the same entity.

      iii The Vendor has prior written permission of a business owner to operate on the property of that existing business.

      iv. Within the area bounded by Divisidero Street, Highway 41, and Highway 99, non-motorized Vendors may operate within 300 feet of an existing restaurant with prior written permission of the City Manager.

   b. Vendors shall not operate within 100 feet of residential uses, with the following exceptions:

      i. Caretaker's Residence

      ii. Residential units that are part of a vertical mixed-use development.

      iii. Vendors operating as part of a Farmer's Market per Section 15-2730 or a Special Event per Section 15-2760-B.

   c. Vendors shall not operate within 100 feet of schools, with the following exceptions:

      i. Vendors which sell only fresh produce.

      ii. Vendors operating as part of a Farmer's Market per Section 15-2730 or a Special Event per Section 15-2760-B.

      iii. Any motorized food vendor may not operate within 1,000 feet of a school during regular school hours unless authorized by the school.

B. **Off-Street Locations and Time Limits.** The following restrictions shall apply except for Vendors operating as part of a Farmer's Market per Section 15-2730 or a Special Event per Section 15-2760-B.

1. **Residential Districts.** Vendors may not operate within residential districts, with the exception of properties for non-residential uses, such as schools and religious assembly facilities. Vendors shall have prior written authorization from the property owner.

   a. **Time Limit.** Two hours, after which the Vendor must move to a new location that is no less than 500 feet away.

2. **Non-Residential Districts.** Vendors may operate within non-residential districts. Vendors shall have prior written authorization from the property owner.

    a. **Time Limit.** A vendor may stay in a single location for up to 12 hours in a 24 hour period after which the Vendor must move to a new location that is no less than 500 feet away.

    b. **Unpaved Surfaces.** Notwithstanding any other provisions of this Code, Vendors shall be permitted to operate on unpaved surfaces in non-residential districts with prior written authorization of the property owner.

3. **City-Owned Property.** Vendors may not operate on City-owned property, such as parks, without prior written authorization from the City.

    a. **Time Limit.** At the discretion of the City Manager or his/her designee.

C. **On-Street Locations and Time Limits.** Vendors may operate on the public right-of-way subject to the following restrictions. Vendors operating as part of a Farmer's Market per Section 15-2730 or a Special Event per Section 15-2760-B are excepted.

1. **Residential Districts.**

    a. **Time Limit, Non-Motorized Vendors.** Thirty minutes, after which the Vendor must move to a new location that is no less than 300 feet away.

    b. **Time Limit, Motorized Vendors.** Motorized Vendors (including, but not limited to, ice cream trucks) may circulate and stop temporarily for sales, but shall not remain stationary for more than five minutes.

2. **Non-Residential Districts.**

    a. **Time Limit.** The posted time limit of the parking stall or one hour, whichever is less, after which the Vendor must move to a new location that is no less than 500 feet away.

    b. **Location.** Vendors shall operate from valid on-street parking stalls

    c. **Customer Transaction Area.** Vendors shall park in such a manner that the customer transaction area is on the public sidewalk adjacent to the curb.

3. **Compliance with Traffic and Parking Laws.** While operating in the public right-of-way, Vendors shall follow all applicable traffic laws and parking regulations, including time limits, payment of parking meters, and no-parking zones.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2015-43, § 2, eff. 1-22-16; Am. Ord. 2016-32, § 27, eff. 10-21-16; Am. Ord. 2017-33, § 27, eff. 7-30-17; Am. Ord. 2018-66, § 49, eff. 1-18-19).

SEC. 15-2742. MOTORCYCLE/RIDING CLUBS.

Motorcycle Clubs may be permitted in accordance with the standards below.

A. **Location.**

1. Motorcycle Clubs shall not have access to a local street that also serves a Residential District, a public or private school, a day care center, a hospital or care facility, or a park.

2. Clubs shall be a minimum 500 feet from any planned or zoned residential districts, public or private schools, day care centers, or parks. Caretaker's Units are excepted.

B. **Hours of Operation.** Club activities shall end, and the club shall be closed, between 2 a.m. and 8 a.m. daily. No club activities shall take place between 10 p.m. and 2 a.m. except within an enclosed building.

C. **Activities Open to the General Public.** Should a Club offer event admission to the general public for the primary purpose of dancing, concerts, and similar activities, it shall obtain a permit for a Nightclub.

D. **Parking.** Refer to Article 24, Parking and Loading.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2742.5. OFFICE-TO-DWELLING CONVERSION.

A. **Purpose.** The purpose of this section is to allow for the conversion of an existing office building(s) from an office use to a multi-unit residential use which will provide housing to residents and facilitate compliance of said structures into safe and habitable condition as required by State and local law.

B. **Applicability.** Office-to-Dwelling Conversions shall be permitted in locations where an Eligible Office may exist.

C. **Permit Required.** An application for an Office-to-Dwelling Conversion shall require a Zone Clearance per § 15-5102.

D. **Definitions.**

1. "Eligible Office" shall be defined as an existing office building(s) located in the O District.

E. **Compliance with Existing Regulations.** The following requirements shall apply to all Office-to-Dwelling Conversions:

1. An Eligible Office shall bring the subject office building(s) into full compliance with the most recently adopted California Building Code(s), as may be amended and any local amendments thereto.

2. An Eligible Office shall be subject to the occupancy classifications and change of occupancy requirements in the California Building Code(s) based upon the classification most similar to the primary use of the facility, as determined by the Building Official.

3. An Eligible Office shall not operate if the building(s) or any portion of the building(s) exists with any of the conditions necessary to be declared a substandard building within the meaning of California Health and Safety Code Section 17920.3, as may be amended.

4. In the event an Eligible Office is declared a substandard building(s) or otherwise exists with any of the conditions necessary to be declared a substandard building(s), the Eligible Office shall be subject to the provisions of Fresno Municipal Code Sections 11-324 et seq.

F. **Maximum Density.** There is no maximum density, rather, the number of allowable units shall be determined by compliance with the California Building Code(s) for minimum dwelling unit square footage requirements.

G. **Other Capacity Inspections.** Office-to-Dwelling Conversions shall complete plumbing, structural, and mechanical, and any other improvements sufficient to accommodating residents, and as deemed necessary by the Building Official to preserve the public health and safety. These improvements are subject to review, inspection, and approval of the Building Official.

H. **Legal Non-Conforming Uses, Structures, and Site Features.** The provisions of Sections 15-404 and 15-405 shall apply to any legal non-conforming uses, structures, and site features of an Eligible Office that are not subject or related to an Office-to-Dwelling Conversion. Should an Eligible Office choose to additionally alter any use, structure, or site feature not associated with an Office-to-Dwelling Conversion, such alterations shall be done in compliance with all applicable State and local codes.

1. The construction of ancillary structures required for the conversion of office to residential uses is permitted. Construction of these structures must comply with the RM-3 District standards for new development, as identified in Section 15-1003.1

(Added Ord. 2025-023, § 2, eff. 12-26-25).

SEC. 15-2743. OUTDOOR COOKING FOR COMMERCIAL PURPOSES.

Outdoor cooking, in conjunction with a restaurant or grocery store, may be permitted in accordance with the conditions below.

A. **Part of an Established Business.** Sales shall be part of the normal business of the establishment. Transactions may be made outdoors however patrons shall also have the option of making transactions inside of the establishment. Should transactions solely be made outdoors and not part of the normal business, it shall be considered a Mobile Vendor.

B. **Setback from Residential.** A minimum separation of 100 feet from Residential Districts is required to ensure that outdoor cooking facilities do not emit odors into homes. The scale of the operations, prevailing wind patterns, and building orientation will be taken into consideration during the review process and a greater setback may be required to mitigate obnoxious odor.

C. **Setbacks from Property Lines.** Cooking apparatus shall comply with all setbacks for the underlying zone district, however in no case shall it be closer than 15 feet to any property line.

D. **Smells/Odors.** The applicant shall provide a written statement outlining how smoke, smells and/or odors will be confined and limited from traveling into Residential Districts.

E. **Hours of Operation.** For facilities located within 100 feet of residential units that are not part of a Mixed-Use development, outdoor cooking shall be limited between 8 a.m. and 10 p.m. An exception, to extend the hours of Outdoor Cooking, may be made if the operator obtains written approval from all owners and tenants within 100 feet from the subject site.

F. **Location of Equipment.**

1. If located in a parking area, grills shall be located in a designated area and may not be relocated freely throughout the parking area. The area dedicated to the use shall be permanently blocked and barriers shall be installed to protect the public.

2. Equipment shall not encroach into designated fire lanes and egress paths from buildings, and shall be located no closer than 10 feet to building openings, and no closer than 10 feet from buildings of combustible construction.

G. **Attendance.** Fires must be attended at all times.

H. **Grease.** The applicant shall detail how grease will be captured and disposed of.

I. **Cleanliness.** The area shall be cleaned daily and shall be free of oil, grease, etc.

J. **Traffic Circulation.** If proposed on an existing parking area, a plan depicting drive aisles, parking areas, etc., shall be submitted for review and approval.

K. **Other Approvals.** The applicant shall be responsible for obtaining permits from other agencies, if applicable, including, but not limited to, the County Health Department, the Fire Department, and San Joaquin Valley Air Pollution Control District.

L. **Additional Conditions.** The Director may impose additional conditions to ensure that the use does not create a nuisance to surrounding properties.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2744. OUTDOOR DINING AND PATIO AREAS.

Eating and drinking establishments, including bars, nightclubs, and smoking establishments, with outdoor dining and/or patio areas shall be located, developed, and operated in compliance with the following standards:

A. **General Requirements.**

1. **Application Information.** In addition to any other application materials required, an application for an outdoor dining area shall state the anticipated periods of use during the year, and the proposed hours of daily use, including Saturdays, Sundays, and holidays; and whether any liquor will consumed.

2. **Hours of Operation.** Hours of operation shall be limited to the hours outlined in Table 15-2744-A.

TABLE 15-2744-A ALLOWED HOURS OF OPERATION

Hours of Operation	*Outdoor Area Hours of Operation*
Establishments not serving alcohol	
Establishments closer than 100 feet from Residential Districts[1]	Not earlier than 7 a.m. or later than 10 p.m.
Establishments further than 100 feet from Residential Districts[1]	Not earlier than 7 a.m. or later than 12 a.m.
Establishments further than 250 feet from Residential Districts[1]	No limitations
Establishments serving alcohol	
Refer to Section 15-2751, Restaurants with Alcohol Sales, Bars, Nightclubs and Lounges	
Establishments closer than 250 feet from Residential Districts[1]	Not earlier than 7 a.m. or later than 10 p.m.
Establishments further than 250 feet from Residential Districts[1]	No limitations
Smoke/Hookah/Cigar Lounges	
Establishments 250 feet or closer from Residential Districts	Not earlier than 7 a.m. or later than 12 a.m.
Establishments further than 250 feet from Residential Districts[1]	No limitations

[1] Distance measured from the establishment to the nearest residential property line. Excludes residential use in the same development.

3. **Misters/Heaters.** Misters, heaters, and other such devises for moderating temperatures of the outdoor dining area shall be permitted at the discretion of the Review Authority based on considerations such as aesthetics, safety, and resource efficiency.

4. **Lighting.** Lighting shall not disrupt or unnecessarily impact adjoining properties or roadways. See Section 15-2015, Outdoor Lighting and Illumination.

5. **Residential Spacing.** Outdoor patio areas for hookah, cigar, and similar establishments shall not operate within 100 feet of a Residential District.

B. **Outdoor Dining Area on Private Property.**

1. **Music.** Music may not be amplified. All music, live or recorded, shall comply with all applicable noise standards.

2. **Barriers.**

a. If required and/or proposed, barriers shall be reviewed and approved by the Review Authority. Barriers shall not exceed four feet in height.

b. If alcohol is served, barriers may be required as part of the Conditional Use Permit process, as well as by the State of California Alcoholic Beverage Control.

3. **Shade Structures.**

a. Covers, including umbrellas, tents, and/or awnings to protect patrons from inclement weather are permitted subject to review and approval by the Review Authority. Weathered and/or damaged coverings shall be removed immediately.

b. Enclosed tents are permitted year round, however they shall only be permitted on a temporary basis and shall not substitute for permanent structures.

c. A building permit is required for any temporary tent or canopy larger than 400 square feet.

4. **Access and Walkways.**

a. Outdoor dining areas shall not interfere with required pedestrian and/or vehicular access.

b. Walkways shall be provided per California Code of Regulations, Title 24, Part 2, California Building Code.

5. **Parking.**

a. Additional parking is not required when the outdoor area is less than 800 square feet.

b. If the outdoor dining area exceeds 800 square feet, parking is required for the area in excess of 800 square feet at a ratio of 50 percent of what is required for the use.

c. For centers with multiple tenants, each tenant may have up to 800 square feet of outdoor dining area.

C. **Outdoor Dining Area within Public Right-of-Way.**

1. **Permit Required.** A Zone Clearance is required for any outdoor dining/seating located in the public right-of-way. An encroachment permit approved by the City Engineer is required for any furniture or structures which are permanently attached to the public right-of-way.

2. **Music.**

a. **Downtown Districts.** Amplified sounds from the establishments must not be audible from a distance of 200 feet outside of the outdoor dining area.

b. **All Other Districts.** Amplified sounds from the establishments must not be audible at the property line.

3. **Barriers.** Barriers must be in a manner acceptable to the City Engineer, and the design must be approved by the Review Authority.

4. **Shade Structures and Furniture.**

a. No part of an outdoor dining area shall be permanently attached to the sidewalk or building unless authorized by the Review Authority.

b. Awnings or umbrellas may be used in conjunction with an outdoor eating area. Permanent covered shade structures and awnings shall obtain a building permit.

c. The design of all improvements and furniture shall be of a quality to sustain weather and wear, and shall be of a material other than molded plastic. Furniture shall be of durable materials such as wrought iron, wood, steel, or cast aluminum. Planter boxes, where used, shall be of quality materials such as precast concrete, terra cotta, or other pottery, and shall not be of plastic.

5. **Access and Walkways.**

a. A minimum of six feet of unobstructed sidewalk must remain available for pedestrians. For purposes of the minimum clear path, parking meters, traffic signs, trees, planters, benches, and all similar obstacles shall constitute obstructions within the sidewalk area.

b. Where the outdoor dining area is located adjacent to a street, and in addition to obtaining an encroachment permit, an 18-inch clearance shall be maintained from the face of the curb to the outdoor dining area unless there is parking parallel to the street, in which case a two-foot clearance is required.

c. No outdoor dining area shall obstruct any points of building ingress and/or egress.

6. **Parking.** Additional parking is not required when dining is within the public right-of-way.

7. **Maintenance.**

   a. The permit holder and the property owner shall maintain the outdoor dining area and the adjoining street, curb, gutter, and sidewalk in a neat, clean, and orderly condition at all times, regardless of the source of the refuse and litter.

   b. If necessary, the permit holder or the property owner shall clean the surface of the sidewalk by washing or buffing to remove any stains, marks, or discoloration to the satisfaction of the Department of Public Works and in accordance with prevailing storm water and water quality regulations.

   c. Umbrellas shall be kept clean and in good condition, secure in windy conditions, and fire-treated.

8. **Insurance.** An applicant for a permit for an outdoor dining area shall, prior to issuance of such a permit, provide and maintain in full force and effect while the permit is in effect, public liability insurance in an amount specified by the City Manager or designee sufficient to cover potential claims for bodily injury, death, or disability and for property damage, which may arise from or be related to the use of sidewalk area for outdoor dining purposes, naming the City of Fresno as an additional insured.

9. **Use of Property/Public Right-of-Way for Purposes of Operating an Outdoor Dining Area.** The applicant shall be charged a fee for use of the area to be included in the outdoor dining area, as set by City. In addition, the applicant shall enter into an agreement with the City, which shall contain a provision that the permit is wholly of a temporary nature, that it vests no permanent right whatsoever, that upon 30 days' notice, posted on the premises, or by publication in the official newspaper of the City, or without such notice, in case the permitted use shall become dangerous or unsafe, the same may be revoked and the sidewalk furniture ordered removed. Every such agreement shall be filed for record with the Office of the County Clerk.

10. **Suspension of Permit.** The City shall have the right to suspend or prohibit the operation of an outdoor dining area at any time because of anticipated or actual problems or conflicts in the use of the sidewalk area.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, §§ 28, 29, eff. 10-21-16).

SEC. 15-2745. OUTDOOR RETAIL SALES.

Outdoor retail sales shall be located, developed, and operated in compliance with the following standards:

A. **Seasonal Sales.** For Seasonal Sales, such as Christmas Tree and pumpkin lots, refer to Section 15-2760, Temporary Uses.

B. **Temporary Outdoor Sales.** For Temporary Outdoor Sales, refer to Section 15-2760, Temporary Uses.

C. **Permanent Outdoor Display/Sales.** The permanent outdoor display of merchandise—except for Automobile and Motorcycle Retail Sales and Leasing, which is subject to Section 15-2709—requires a Development Permit and shall comply with the following minimum standards:

1. **Relationship to Main Use.** The outdoor display and sales area shall be directly related to a business occupying a primary structure on the subject parcel.

2. **Display Locations.** Displayed merchandise shall occupy a fixed, specifically approved and defined location that does not disrupt the normal function of the site or its circulation and does not encroach upon parking spaces, driveways, pedestrian walkways, or required landscaped areas. These displays shall also not obstruct sight distances or otherwise create hazards for vehicle or pedestrian traffic. Specifically:

   a. A four-foot pedestrian pathway shall be maintained and not blocked by merchandise.

   b. If a portion of the pedestrian pathway is shaded by a building overhang, the four-foot pedestrian pathway rather than the merchandise must be located under the overhang.

   c. If located in the public right-of-way, an encroachment from the Public Works Department is required.

   d. Location of the displayed merchandise may not disrupt the normal circulation of the site, nor encroach upon driveways, pedestrian walkways, or required landscaped areas, or obstruct sight distances or otherwise create hazards for vehicle or pedestrian traffic.

3. **Building Setback of 15 Feet or Less.** Merchandise shall be no closer than 15 feet from a public street unless the building is located closer to the street. If so, merchandise may be located closer than 15 feet.

4. **Building Setback Greater than 15 Feet.** Outdoor sales shall be located entirely on private property outside any required setback (or landscaped planter in zoning districts that do not have required setbacks), fire lane, or fire access way. A minimum setback of 15 feet from any public right-of-way is required.

5. **Merchandise.** Only merchandise generally sold at the business shall be permitted to be displayed outdoors.

6. **Screening.** Screening is not required, however when proposed in a Commercial District and when visible from a major street, a decorative fence is required (chain link is prohibited). This requirement shall not apply to:

   a. Seasonal Sales (i.e., Christmas Trees, Pumpkin Lots).

b. Temporary Outdoor Sales.

7. **Signs.** Additional signs, beyond those normally allowed for the subject use, shall not be provided as a result of the outdoor display and sales area;

8. **Refuse/Litter.** The operator shall provide waste removal and shall be responsible for collecting trash and recycling after each event, including the parking lot.

9. **Transactions/Point-of-Sale.** All sales shall occur as part of the normal business activity of the establishment, via a register, or hand-held device. Patrons shall have the option of paying for purchases in the establishment as part of normal business activity.

10. **Other Conditions.** The Director may impose other conditions that would ensure the operation of the proposed temporary outdoor sales in an orderly and efficient manner.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2746. PAY PHONES.

Pay phones installed outside of a building are permitted subject to the following requirements.

A. Pay phones are permitted in non-residential districts.

B. Pay phones shall comply with the property development standards of the underlying District and in no case shall they be located closer than 20 feet to Single-Unit Districts.

C. Pay phones shall be within 10 feet of the main entrance of a business.

D. Pay phones shall be restricted to outgoing calls.

E. Pay phones may only be installed and operated where there is a legitimate business. Should a business close, the pay phone shall be removed.

F. Pay phones, and the area immediately around the phone, shall be kept clean of litter, graffiti, etc.

G. Adequate lighting shall be provided to light the pay phone and the area immediately around the phone.

H. Inoperative and/or abandoned pay phones, including booths shall be removed within 30 days.

I. Pay phones shall comply with Section 10-605, Public Nuisance of the Fresno Municipal Code.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 64, eff. 7-27-25).

SEC. 15-2747. PERSONAL (MINI) STORAGE.

Personal storage facilities shall be located, developed, and operated in compliance with the following standards. Where the standards of this section appear to conflict with the standards of the base district, the standards of this section shall prevail.

A. **Business Activity.** All personal storage facilities shall be limited to dead storage only. No retail, repair, or other commercial use (such as storage for commercial gain) shall be conducted out of the individual rental storage units.

B. **Uses Allowed.** Such use shall consist of the renting and leasing of individual storage space for storing personal property, stock-in-trade materials and equipment, automobiles, and recreational vehicles. The following shall be allowed as accessory uses:

1. A caretaker's residence;

2. The retail sale of items appurtenant to the on-site rental of storage spaces;

3. The lien sale of stored goods as authorized by California Business and Professions Code, Chapter 10, Division 8, Section 21700 et. seq.; and,

4. The rental of trucks, trailers, and dollies.

C. **Notice to Tenants.** As part of the rental process, the facility manager shall inform all tenants of conditions restricting storage of hazardous materials and limitation on the use of the storage units.

D. **Open Storage.** Open storage (outside an enclosed building) shall be limited to vehicles, boats, recreational vehicles, and trailers. Outdoor storages areas shall be screened from public view by building façades or solid fences. At the discretion of the Review Authority, the treatment of the ground surface of the open storage area may be gravel or other materials as prescribed by the San Joaquin Valley Air Pollution Control District, the Public Works Department, the Fire Department, and the Fresno Metropolitan Flood Control District.

E. **Exterior Wall Treatments and Design.** Exterior walls/fences visible from a public street or Residential District shall be constructed of decorative block, concrete panel, stucco, or similar material. These walls shall include architectural relief through articulation, trim, change in color at the base, the use of architectural "caps," attractive posts, or similar measures. Columns visible from public streets shall be spaced a maximum of 25 feet apart. Gate(s) shall be decorative iron or similar material.

F. **Fencing.**

1. A six-foot-high security fence shall be provided around the perimeter of the development at locations where the solid façades of the storage structures do not provide a perimeter barrier.

2. A wrought iron fence or gate or an approved equivalent shall be required at the entrance to the facility.

3. A storage building located on the side or rear property line may be used as a required fence or wall.

G. **Hours of Operation.** Hours of operation shall be limited to the hours of 7 a.m. to 7 p.m. if the facility abuts Residential Uses or Districts, including residential that may be part of a mixed-use development. If the facility abuts commercial, industrial, or public facilities, it may remain open until 10 p.m.

H. **Setbacks.**

1. **Front and Street Side.** When the subject site abuts a street, a yard of 10 feet or more (as required elsewhere in this Code) shall be provided, landscaped, and maintained in accordance with the requirements of this Code. Fences/walls shall be located behind this landscaping.

2. **Interior Side and Rear.** None required if the building height does not exceed 11 feet.

I. **Other Requirements.**

1. When adjacent to parcels within an RS or RM district, the roof of any building exceeding 11 feet in height shall incorporate colors and angles commensurate with those of the adjacent properties.

2. Lighting which is provided to illuminate parking or building areas shall be hooded and arranged and controlled to eliminate any nuisance to the surrounding uses. The height of lighting which illuminates outdoor vehicular storage areas shall be approved at the discretion of the Review Authority.

3. The height of any building when located less than 40 feet from any property line that abuts property that is zoned or planned for single-unit residential uses, shall not exceed 11 feet.

4. A public address system shall not be allowed when the facility is located within 1,000 feet of any property zoned or planned for residential uses. This does not include alarm systems.

5. **Caretaker's Residence.** A Caretaker's Residence shall provide a minimum of one parking space in an enclosed garage and a private yard for use by the residence with a minimum of 100 square feet where at least one dimension is at least eight feet in length.

J. **Design Standards within Mixed Use Districts.**

1. **Location.** Storage uses shall not be located within 300 feet of an existing or planned Bus Rapid Transit station.

2. **Site Size.** Shall not exceed two acres.

3. **Setback from Major Streets.** The storage use shall be set back no less than 50 feet from all Major Streets. No less than 60 percent of the building frontage along Major Streets shall be occupied by food and beverage sales, entertainment and recreation, general personal services, artist's studios, eating and drinking establishments, personal services, general retail, or convenience retail uses. Other high-activity uses may be approved at the discretion of the Review Authority.

4. **Façade Design.** The facades of the storage structures shall appear to be buildings used for non-storage purposes, such as office or multi-unit, and shall not have an industrial appearance.

5. **MX Development Standards.** Unless otherwise stated, all MX development standards shall apply.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 30, eff. 10-21-16; Am. Ord. 2025-024, § 65, eff. 7-27-25).

SEC. 15-2748. POWER POLES.

Power Poles on private property for either a temporary period or permanently may be permitted subject to a valid Building Permit, and/or active Temporary Use Permit per Section 15-2760, Temporary Uses.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2749. PRIVATE RECREATIONAL SPORTS FACILITIES.

Private Recreational Sports Facilities, as part of a gymnasium/health club, on residential property, or as the primary use on a site (ex: golf course, golf-driving range, archery range, rock climbing course, kart racing, motocross and BMX tracks, ice hockey, ice skating, roller skating, roller hockey, roller derby, inline skating, skate parks, basketball courts, or soccer, baseball, softball, cricket, field hockey, or lacrosse fields, horse riding courses, or similar activities as determined by the Director), shall be subject to the following standards:

A. Whenever a proposed use contains, or is placed adjacent to, outdoor facilities that provide batting cages, golf courses, golf-driving ranges, paintball, archery, or similar activities, the proposed use shall include fences, nets, walls, or other methods that are capable of stopping all projectiles fired and/or hit by containing or redirecting the projectile to a safe location. This does not apply when an existing use already has measures in place that are adequate enough to protect the proposed use.

B. **In Non-Residential Districts.** Activities, such as batting cages and paintball, that may generate unwanted noise, shall cease at 10 p.m. (and may not renew operations until 8 a.m. the following morning) unless separated by a minimum of 400 feet from a Residential District. A greater distance may be required if the proposed use, such as motocross, generates above-average ambient noise levels.

1. **Fencing.** Fencing for outdoor activities shall be reviewed on a case-by-case basis. Consideration shall be given to streets, homes, etc.

C. **In Residential Districts.** Any outdoor activities, such as batting cages, that may generate unwanted noise, shall be limited to the hours of 8 a.m. to 8 p.m. Additional measures may be required to mitigate noise to acceptable levels. Any enclosures used for activities must not be visible from the street and must be screened from adjoining residences. Artificial lighting is not permitted.

1. **Fencing.** Refer to Section 15-2006, Fences, Walls, and Hedges.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2750. RECYCLING FACILITIES.

Recycling facilities shall be located and operated in compliance with the following standards:

A. **Reverse Vending Machines.**

1. **Accessory Use.** Reverse vending machines may be installed as an accessory use to a permitted or conditionally permitted primary use on the same site.

2. **Location.** Machines shall be located adjacent or as near as feasibly possible, to the entrance of the commercial host use and shall not obstruct pedestrian or vehicular circulation. Machines shall be located against a wall and may not be located in parking areas.

3. **Identification.** Machines shall be clearly marked to identify the type of material to be deposited, operating instructions, and the identity and phone number of the operator or responsible person to call if the machine is inoperative.

4. **Signs.** Machines shall have a maximum sign area of four square feet exclusive of operating instructions.

5. **Lighting.** Machines shall be illuminated to ensure comfortable and safe operation between dawn and dusk.

6. **Trash Receptacle.** Machines shall provide a 40-gallon garbage can for non-recyclable materials located adjacent to the reverse vending machine.

7. **Hours of Operation.** No restrictions.

B. **CRV Recycling Centers.** California Redemption Value (CRV) Recycling Centers are facilities available for the general public for the recycling of products such as glass, aluminum cans, and plastic beverage containers as defined by the State's Department of Resources Recycling and Recovery.

1. **Permanent Location.** CRV Recycling Centers shall not be temporary. All associated improvements shall be permanent in nature.

2. **Hours of Operation.** CRV Recycling Centers shall not be open for business on the same day as regularly scheduled refuse collection for nearby residential areas.

3. **Materials.** CRV and Commingled Materials as defined by Government Code 14506.5 and 14512 of the California Beverage Container Recycling & Litter Reduction Act may be accepted. Newspapers, cardboard, copper, or industrial materials may not be accepted, unless the facility is located within an industrial district.

4. **Minimum Lot/District Size.**

   a. If a CRV Recycling Center is ancillary to a primary use, the site shall be a minimum of one acre in area.

   b. If the Recycling Center is the sole or primary use on the site, the site shall be a minimum of one-half acre in area.

5. **Permitted Locations.** Facilities are permitted as shown in the applicable base district. The following provisions shall also apply:

   a. In Industrial Districts CRV Recycling Centers may be the primary use.

   b. In all other districts a CRV Recycling Center shall be operated in conjunction with a retailer such as a supermarket, super drug store, or other retailer that sells CRV-type goods.

   c. Recycling Centers may be located in a Commercial District that does not house a retailer that sells CRV-type goods, subject to the following:

      i. The parcel must within 1,320 feet of an existing supermarket, super drug store, or other retailer that sells CRV type goods.

      ii. The site shall be a minimum one acre in area.

      iii. The facility shall comply with all property development standards, including setbacks, landscaping, parking, etc., of the zone district in which the facility is located.

   d. New Recycling Centers in Commercial Districts shall only be permitted in unserved (and non-exempt) convenience zones.

6. **Maximum Size.** The Recycling Center shall be limited to a maximum footprint of 700 square feet. Of these 700 square feet, only 500 square feet may be used for building and/or storage area. The remaining 200 square feet may be used for office space, staging areas, or patios/permanent shade structures. If the facility is proposed in a permanent building, a larger building area will be allowed on a case-by-case basis.

7. **Separation.** Except where mandated by State law, CRV Recycling Centers shall physical maintain separation from specific uses as follows. Distances shall be measured from the boundaries of the actual facility and not the property line.

   a. **From Residential Uses.** 75 feet.

   b. **From Public Streets.** 20 feet.

   c. **From Parks.** ½ mile.

   d. **From Liquor Stores.** ½ mile.

e. **From Schools.** ½ mile.

f. **From Another Recycler.** New CRV Recycling Centers shall not be located within a half-mile of an existing recycling center (or an existing light processing facility that accepts CRV material from the general public).

8. **Parking.** Patrons and the attendant shall not reduce available parking spaces below the minimum number required for the existing buildings.

9. **Pavement.** The area used for recycling, parking, and/or storage shall be paved per Public Works Standards for parking lots.

10. **Equipment.** No power-driven processing equipment, except for reverse vending machines, may be used.

11. **Containers.** Containers shall be constructed of durable waterproof and rustproof material(s) and secured from unauthorized removal of material. Capacity sufficient to accommodate materials collected in the collection schedule. ISO containers shall comply with Section 15-2736.

12. **Identification.** Containers shall be clearly marked to identify the type of accepted material, the name and telephone number of the facility operator, and the hours of operation.

13. **Signs.** Signs shall be a maximum of 20 percent per side of facility or container or 16 square feet, whichever is larger. In the case of a wheeled facility, the side is measured from the pavement to the top of the container.

14. **Site Maintenance.** Sites shall be maintained clean, sanitary, and free of graffiti, litter, and any other undesirable materials.

15. **Voucher System.** Upon recommendation by the Fresno Police Department, the Director may require that a Recycling Center implement a voucher system. No money shall be kept in or about the licensed premises. The petitioner shall implement and utilize a voucher system to compensate patrons for raw recycled materials purchased by the business. The center shall provide the patron with a "voucher" which can be exchanged for cash at a predetermined business establishment (e.g. stores, check cashing locations, etc.).

16. **Video Surveillance.** Upon recommendation by the Fresno Police Department, the Director may require that the site be monitored by video surveillance.

17. **Building/Structure Design and Architectural Compatibility.**

a. Recycling Centers shall be limited to single story-structures with a height no greater than 10 feet (12 feet if the structure includes architectural features), unless proposed in a permanent building.

b. A typical ISO container or other type of metal building or structure may be permitted if it is:

i. Screened by a permanent decorative wall consistent with the architecture of the shopping center; or

ii. Contained within a permanent or semi-permanent sheath- type structure that is consistent or compatible with the architecture of the shopping center.

c. The storage container shall be painted to match the existing shopping center including the body color and all trim existing. Prominent architectural features of the center (such as tile accents) shall be incorporated into the design of the storage container.

d. Screen walls shall be architecturally compatible with the existing shopping center. Chain link fencing may be permitted if it is not visible from a public street or a Residential District.

e. If the facility conducts most of its business outdoors and is not shaded by adjacent trees or buildings during operating hours, a shade structure is allowed for employees. Permanent shade structures are encouraged, but portable shade structures, tents, or umbrellas may be provided for the comfort and safety of the customers and attendant on a case-by-case basis. Shade structures shall remain clean and in good order and shall be replaced if damage or excessive wear becomes visible. To the extent possible, this shade structure or tent shall be architecturally compatible with the shopping center and recycling facility (i.e., of similar colors as the building). The maximum square footage of these shade structures is 120 square feet. Details of the shade structure(s) shall be included in the operational statement. Elevations will be required with application submittal.

18. **Landscaping.**

a. Sites shall be in compliance with approved Landscape Plans.

b. If the site was developed prior to existing landscaping requirements, landscaping within the immediate vicinity of the storage container and sorting area shall be provided.

19. **Site Maintenance and Operational Requirements.**

a. Recyclable materials shall be stored in containers or in the storage unit.

b. CRV Centers shall maintain an adequate on-site refuse container for disposal of non-hazardous waste and a container for customers to pour remaining liquids into from their CRV materials. These refuse containers shall be screened from public view.

c. The storage unit and surrounding area shall be cleaned and washed and all litter surrounding the site removed as needed to maintain a safe and healthy environment.

d. The operator shall ensure compliance with the Fresno Metropolitan Flood Control District.

e. All shopping carts found within 25 feet of the recycling center not belonging to the existing shopping center shall be returned to their owners. Shopping carts are prohibited on the premises and within 25 feet of the area used to accept recyclable materials.

i. The applicant shall indicate in the operational statement how these requirements will be accomplished,

ii. The operator shall post a sign advising that it is illegal to take shopping carts or that possession of stolen shopping carts is a misdemeanor.

iii. The operator must comply with the Abandoned Shopping Carts Ordinance, Fresno Municipal Code Section 9-3101 et seq., as may be amended.

f. Signs shall be posted informing customers of the Abandoned Shopping Cart Ordinance (Section 9-3103 of the Fresno Municipal Code).

g. An on-site restroom facility or a written letter from a nearby store within in the shopping center that allows the recycling center employees to use the store's on-site restroom facilities is required.

h. The Recycling Center shall be illuminated to ensure comfortable and safe operation.

20. **Other Requirements.**

a. Recycling facilities must obtain a Solid Waste Recycling Permit from the Code Enforcement Division.

b. Frequent responses by the Fresno Police Department (FPD) arising out of or relating to the operation or management of the real property owned or controlled by the permit-holder causing any combination of the following: animal disturbances; violent criminal acts; illegal consumption of intoxicants in public view; gaming activities; and juvenile disturbances, or any of the other activities set forth in the Fresno Municipal Code (FMC) Section 10-708(g) may result in an FPD recommendation to the Director to commence proceedings to revoke the Site Plan Review/Development Permit or Conditional Use Permit application for violation of the Management of Real Property Ordinance. In addition to recommending the commencement of revocation proceedings, the FPD may pursue any of the other remedies set forth in FMC, Section 10-710, Violation, including assessing fines against the proprietor for the violations of the Management of Real Property Ordinance.

c. "Frequent," for this subsection, means response by the Fresno Police Department is occurring more than 1.5 times the average number of such responses (three calls for every two) for property of a similar size and character within the same policing district.

C. **Recycling Processing Facility.**

1. **Minimum Lot Size.** Three acres.
2. **Location.** Facilities shall not abut a residential district or use and shall have direct access to a Major Street that is properly designated to accommodate the type of traffic that will be generated by the facility.
3. **Screening.** The facility shall be screened from public rights-of-way, by a Screening Wall, per 15-2008-C, or within an enclosed structure. Frontage landscaping (a minimum of 10 feet) is required.
4. **Pavement.** The area used for recycling, parking, and/or storage shall be paved per Public Works Standards for parking lots.
5. **Outdoor Storage.**
   a. Exterior storage of material shall be in sturdy containers or enclosures that are secured and maintained in good condition. Storage shall not be visible above the height of the required Screen Wall.
   b. Exterior storage of materials, other than baled material, shall be in sturdy containers or enclosures which are covered, secured, and maintained in good condition.
   c. Outdoor storage shall comply with the Fire Code for pile size, fire apparatus access, and fire hydrant protection.
6. **Identification.** Facilities shall be clearly marked with the name and phone number of the facility operator and hours of operation.
7. **Processing.** Processing facilities are limited to baling, briquetting, crushing, compacting, grinding, shredding, and sorting of source- separated recyclable and reusable materials.
8. **Noise.** Shall comply with all applicable Noise standards.
9. **Fluids.** A processing facility may accept used motor oil and/or used oil filters for recycling from the generator in accordance with Government Code 25250.11 of the California Health and Safety Code. All storage of used motor oil and/or used oil filters must be within a containment apparatus capable of containing all stored oil in the event of a spill or leak. No containment apparatus shall exceed a capacity greater than 55 gallons. All used motor oil and/or used oil filter storage containers shall be located on an approved surface.
10. **Batteries.** A processing facility may accept used lead-acid batteries in accordance with Government Code 25215.1 of the California Health and Safety Code Section 25215.1. All batteries must be stored inside an enclosed building.
11. **Hours of Operation.** If the facility is within 500 feet of a Residential District, or an existing home, it may not operate between the hours of 7 p.m. and 7 a.m.
12. **Personnel.** The facility shall be administered by on-site personnel during the hours the facility is open,

13. **Maintenance.** If CRV materials are accepted, compliance with the Site Maintenance and Operational Requirements of Subsection 15-2750-B.19 is required.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2015-43, § 2, eff. 1-22-16; Am. Ord. 2017-54, § 1, eff. 11-18-17; Am. Ord. 2018-33, § 1, eff. 6-14-18).

SEC. 15-2751. RESTAURANTS WITH ALCOHOL SALES, BARS, NIGHTCLUBS, AND LOUNGES.

A. **Permitted Districts.** Restaurants that serve alcohol for on-site consumption, Bars, and Nightclubs may be established as allowed in the applicable base or overlay district.

B. **Conditional Use Permit Required.**

1. Unless otherwise specified, restaurants with alcohol sales, bars, nightclubs, and lounges shall not be established without first securing a Conditional Use Permit. A conditional Use Permit shall not be required in Downtown Districts.
2. A Conditional Use Permit shall not be required for on-site alcohol consumption for the uses below subject to review and approval of an operational statement from the applicant to the Director. If, in the opinion of the Director, the request is for retail purposes, the use must be permitted per the Base District.
    a. Daily Licenses;
    b. Membership organizations and clubs that are restricted to members and their guests only;
    c. Nonprofit Temporary Licenses;
    d. Hospitals;
    e. Cultural and Art Museums operated by non-profit organizations;
    f. Bed and Breakfast Inns that offer complimentary drinks to their guests; and
    g. Hotels and Motels that offer complimentary drinks to their guests.

C. **Operational Statement.** Applicants shall submit an operational statement which shall include, but not be limited to, the following:

1. Information as to persons doing business under fictitious names, members of partnerships, and officers of corporations or associations.
2. Exhibits that include a site plan and a detailed floor plan of the premises.
3. An evacuation plan in case of emergency (Bars and Nightclubs).
4. Hours of operation.
5. Security Plan (including efforts to ensure that the parking area is monitored to prohibit loitering and crowd and line control).
6. Efforts that have been taken to discuss the proposal with neighbors.
7. Copy of a valid Business Tax Certificate, if in business.

8. Any additional information as the Director may reasonably require to properly evaluate the application.

D. **Multiple Phases of Operation.** If a business proposes to operate in more than one mode of operation (e.g., a Restaurant that converts to a Nightclub in the evening), each use shall be evaluated and conditions shall be assigned accordingly. All proposed uses must be allowed in the district.

E. **Alcohol Sales.** If the business serves alcoholic beverages, it is required to obtain the appropriate license from the State of California Department of Alcohol Beverage Control (ABC).

F. **Types of Dancing Establishments.**

1. **Restaurant.** Dancing is permitted, however it shall be incidental to the primary use.

2. **Bar.** Dancing is permitted, however it shall be incidental to the primary use.

3. **Nightclub.** Dancing is permitted.

4. **Single Event.** Single event dances may be conducted by nonprofit organizations where such dances are not open to the general public. A total of 10, single event dances may be held per calendar year per nonprofit organization. A permit is not required. Should an establishment conduct more than 10 dances, a permit to establish a Nightclub shall be required.

G. **Special Standards.**

TABLE 15-2751-G: SPECIAL STANDARDS

Use	*Time to Stop Sales, Service, & Consumption of Alcohol*	*Separation from Residential*[1]	*Neighborhood Meeting*
Restaurants (Should an establishment seek to stay open after 12 a.m., it shall be considered a Bar or Nightclub for permit purposes)	12 am.	NA	No
Tasting Room (Should an establishment seek to stay open after 11 p.m. or serve alcoholic beverages other than beer or wine, it shall be considered a Bar or Nightclub for permit purposes)	11 p.m.	NA	No
Bar	2 a.m.	Less than 300 ft.	Yes
		300 ft. or greater	No
Nightclub (whether or not they sell alcoholic beverages; for under aged persons, refer to Table 15-2751-H)	2 a.m.	Less than 400 ft.	Yes
		400 ft. or greater	No

1. Minimum horizontal distance, measured in feet, between the building, or portion of a building, occupied by the use, and the closest property line of property planned or zoned for residential uses, not including residential part of the project or part of a vertical mixed-use development. The separation criteria is not subject to modification by a permit.

H. **Nightclub Hours of Operation.**

TABLE 15-2751-H: NIGHTCLUB HOURS		
Age of Participants	*Closing Hour*	*Extensions*
Under 18 years of age	12 midnight	Dances in partnership with an accredited School, nonprofit youth organization, such as sober graduation, may stay later if approved by the Police Department. Evidence of the partnership shall be provided to the City in advance of any scheduled event.
18 and over	2 a.m. if closer than 300 ft. from a Residential District	5 a.m. on New Year's Day
Restricted Hours	Nightclubs may not be open between 4:00 a.m. and 8 a.m.	

I. **Last Call for Alcohol.** Each establishment may establish the time of "last call" for ordering alcoholic beverages, so long as the hours to stop consumption are respected.

J. **Outdoor Patios.** Refer to Section 15-2744, Outdoor Dining and Patio Areas.

K. **Parking Area.** The designated parking area shall be oriented away from residences as much as possible, and shall be clearly depicted on the site plan submitted for the Development Permit or Conditional Use Permit.

L. **Noise.**

1. Noise decibel levels shall be monitored by the establishment to ensure compliance with all applicable Noise Standards.

2. Doors and windows shall remain closed, after 10 p.m. to minimize noise, except as needed to allow for the normal entry and exit of patrons to and from the establishment. Emergency access shall be maintained per City standards. This subsection shall not apply to businesses that are separated a minimum of 400 feet from Residential Districts.

M. **Posting Hours of Operation and Address.** The owner and/or proprietor and/or applicant shall be responsible to conspicuously post the hours of operation for each phase type (i.e., restaurant, nightclub) near the entrance of the establishment. It shall be 8.5 × 11 inches in size, to be in a format provided by the City. This posting shall be made available to City officials upon request.

N. **Security.** The Police Department shall make a recommendation to the Director for security measures for each application based upon the function of the establishment as described in the operational statement. Additional and/or security measures such as reduced hours of operation, security guards, door monitors, and burglar alarm systems may be required if harm, nuisance, or related problems are demonstrated to occur as a result of business practices or operations. This will be determined on a case-by-case basis upon review by the Police Department.

O. **Loitering.**

1. The owner and/or proprietor and/or operator of the establishment is responsible to provide supervision (i.e. security) to prevent loitering in the immediate vicinity of the establishment.

2. During operating hours, the owner and/or proprietor shall prohibit loitering in the parking area.

3. After closing hours, the immediate vicinity of the establishment including its designated parking area, shall be cleared within 15 minutes, except for employees of the establishment.

4. In the event that there is more than one establishment sharing a parking area, adjustments to the conditions of approval for each establishment shall be made so that there is a shared responsibility.

P. **Third Party Promoters.** Whenever an event is promoted by a Third Party the licensee/owner and/or proprietor and/or operator of the premises shall require that said Third Party obtain a business tax certificate from the City prior to holding such event.

Q. **Neighborhood Meeting.** An application for a Bar less than 300 feet from Residential per Table 15-2751-G or Nightclub less than 400 feet from Residential per Table 15-2751-G shall be required to conduct a Neighborhood Meeting as put forth in Section 15-5006.

R. **Non-Operating Rule.** Whenever all of the rights granted by a permit are discontinued, the following rules to reestablish the use shall apply:

1. **One Year or Less.** The same operator or a different operator may reestablish the use pursuant to the preexisting Conditional Use Permit and all conditions applicable thereto.

2. **More Than One Year.** A new permit is required.

S. **Existing Uses.**

1. **Non-Conforming.** Existing establishments that have been legally established under previous regulations, but do not conform to current law, may continue to operate as a recognized non-conforming use pursuant to Article 4, Non-Conforming Uses, Structures, Site Features, and Lots.

2. **Loss of Non-Conforming Status.** Changes to an existing use that would cause the loss of a non-conforming status are, but not limited to, the following:

   a. When a business is closed for one continuous year;

   b. Change of use (e.g., from restaurant to a nightclub), or if a single use would like to establish multiple uses;

   c. An increase of floor area (including patio area) for the existing use; and

   d. A request to close at a later time.

3. Pursuant to § 23790 of the California Business and Professional Code, a change in license type (ABC License) for the sale of alcoholic beverages (e.g., from type 41 to type 47) shall be considered an interruption of use, requiring that the new license type be consistent with current zoning and land use regulations.

4. When a non-conforming status is lost, any subsequent use must be consistent with current zoning and land use regulations and a new permit is required.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2016-32, § 31, eff. 10-21-16).

SEC. 15-2752. ROADSIDE FRUIT STANDS/GROWER STANDS.

Roadside Fruit Stands may be located, developed, and operated in compliance with the following standards. The rights and privileges extend to active farms per the use regulations of the underlying base district.

A. **Products.**

1. Agricultural products produced on the premise shall account for 75 percent of all products.

2. Up to 25 percent of products may be produced off-site, however all products shall be agriculturally related.

3. Nonagricultural products, livestock, alcohol, and tobacco products are prohibited.

B. **Seasonal and Holiday Sales.** Sales shall be limited to the products being sold per Subsection A above.

C. **Structures.**

1. When not in operation, all tables, tents, canopies, temporary membranes, barricades, products, signs, litter, etc. shall be removed. Permanent buildings and structures are excepted.

2. Any structures remaining after a closure of a Fruit Stand for six months or longer shall be considered a public nuisance and shall be abated pursuant to the Public Nuisance Ordinance.

D. **Setbacks.**

1. **Streets.** Structures and parking areas shall be setback a minimum 20 feet from the nearest travel lane.

2. **Interior and Rear Property Lines.** Structures and parking areas shall be setback a minimum 35 feet from interior and rear property lines.

E. **Refuse/Litter.** The operator shall provide waste removal and shall be responsible for collecting refuse, including the parking lot.

F. **Other Agencies.** Review and approval may be required from other agencies, including Fresno County Health Department.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2753. SECOND AND OUTDOOR KITCHENS.

An outdoor, enclosed, or second kitchen may be permitted in a Single-Unit District subject to the property development standards of the underlying district and the following:

1. The additional kitchen shall be incidental, related, and clearly subordinate to the principle use and shall not alter the principal use.

2. If enclosed, the enclosed kitchen area shall not exceed 110 square feet. If the area exceeds 110 square feet, it shall comply with Section 15-2754, Second/Accessory Dwelling Units (ADUs).
3. The kitchen area shall meet all yard setback requirements.
4. If enclosed, the enclosed area shall not be converted to a separate living unit.
5. If attached to the main building, the second kitchen shall have direct access to the main building.
6. Cooking shall only be for the enjoyment of the residents and/or their guests and shall be limited to non-commercial purposes.
7. Only one electric/gas meter is permitted per single-unit parcel.
8. The kitchen in the main building shall remain in safe working order.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 66, eff. 7-27-25).

SEC. 15-2754. SECOND/ACCESSORY DWELLING UNITS (ADUS).

A. **Purpose.** The purpose of this section is to allow for the ministerial development of Second Dwelling Units in a manner that is consistent with the requirements identified in Government Code Section 66310 et seq.

B. **General Requirements.**

1. **Preemption.** Should there be any conflict with the provisions in this section and those within Government Code Section 66310 et seq., as may be amended, the Government Code shall prevail.
2. **Areas where Second Dwelling Units are allowed.**
    a. Accessory Dwelling Units may be permitted in any zone district that allows single-unit and multi-unit residential dwellings, mixed-use development, or where a single-unit structure, duplex, or multi-unit structure is either existing or proposed.
    b. Junior ADUs are limited to single-unit districts or where a single-unit dwelling is existing or proposed.

C. **Types of Second Dwelling Units.** Second Dwelling Units include Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs),

1. **Accessory Dwelling Unit (ADU).** An ADU provides separate, independent living quarters for one or more persons. Units may be attached, detached, or located within the structure of a primary dwelling unit. An ADU must have its own entrance and include facilities for daily living including, at minimum, a kitchen, bathroom, and bedroom.
    a. A Tiny House on Wheels (THOW) may be considered an ADU if it meets all the requirements of this section. In addition, THOWs must be ANSI certified, be placed on an engineered foundation system, and use skirting to enclose the area between the home and the ground.

2. **Junior Accessory Dwelling Unit (JADU).** A JADU shall not be larger than 500 square feet and must be contained entirely within a single-unit primary residence. Attached garages are considered part of a primary residence. A JADU must have its own entrance and include, at minimum, a kitchen and bedroom.

    a. **Shared Facilities.** A JADU is allowed to share sanitation facilities with the primary residence. When this occurs, the JADU must include an interior entrance to the main living area that is separate from the main entrance to the JADU.

    b. **Efficiency Kitchen.** A JADU is allowed to have an efficiency kitchen, which includes, at minimum, a cooking facility with appliances and a food preparation counter and storage cabinets that are of reasonable size in relation to the size of the JADU.

3. **Conversions.** An ADU may be created through the conversion of a portion of the primary residence (including an attached garage), a detached garage, or another existing accessory structure. A JADU may be created through the conversion of a portion of the primary residence (including an attached garage).

D. **Density and Massing Development Standards.**

1. **Lot Coverage.** Second Dwelling Units are not included in calculations for lot coverage requirements.

2. **Density.** Second Dwelling Units are not included in calculations for density requirements.

3. **Number Allowed.**

    a. **Single-Unit Lots.** Up to two ADUs and one JADUs per lot.

    b. **Multi-Unit Lots.**

        i. Detached. Up to eight detached ADUs per lot, not to exceed the number of existing units. The units must be detached from the primary unit(s), but do not need to be detached from each other or other accessory structures on the lot.

        ii. Conversions. Either up to 25 percent of the number of existing units or one ADU, whichever is greater, may be created through the conversion of existing non-livable space (such as enclosed garages, leasing office, common rooms, etc.).

4. **Maximum Size.**

    a. **ADUs.** Not to exceed 50 percent of the average floor area of the primary unit(s) or 1,400 square feet, whichever is greater.

        i. Exceptions for Conversions. An ADU that is created within the proposed space of a single-unit structure, or in the existing space of a single-unit

structure or accessory structure may expand up to 150 beyond the same physical dimensions of the existing accessory structure for the purpose of accommodating ingress and egress.

b. **JADUs.** Not to exceed 500 square feet.

5. **Maximum Height.** Per the underlying district or 30 feet, whichever is greater. Second Dwelling Units are allowed to be multiple stories or located above the ground floor.

6. **Minimum Setbacks.** In all instances, when a recorded utility easement is present, the setback shall include such easement even if it would result in a setback greater than the required minimum.

a. **Rear and Side.** Per the underlying base district or four feet, whichever is less.

i. Properties abutting alleys. Zero feet. If the ADU has its main entrance on the alley, however, the setback shall be at least two feet.

b. **Front.** Per the underlying district, however the applicable setback may not preclude the development of an ADU of at least 800 square feet.

7. **Placement.** Unless it would preclude the development of an ADU of at least 800 square feet, detached ADUs must be located behind the front facade of the primary unit.

E. **Parking.** No parking is required.

F. **Additional Regulations.**

1. **Owner Occupancy.**

a. **ADUs.** Owner-occupancy is not required.

b. **JADUs.** The owner must reside in either the primary residence or in the JADU.

i. Exception. Owner-occupancy is not required when the property owner is a governmental agency, land trust, or housing organization.

2. **Conveyance.**

a. **ADUs.** An ADU may be sold, or title thereto transferred, separate and apart from the rest of the property in compliance with one of the following:

i. The creation of a common interest development pursuant to Article 39—Common Interest Developments (Condominiums and Conversions) and Government Code Section 66342; or

ii. The filing of a Parcel Map pursuant to Article 35—Parcel Maps.

b. **JADUs.** JADUs that rely on shared facilities are required to record a deed restriction prohibiting the sale of the JADU separate from the primary residence.

3. **Rental Restrictions.** Second Dwelling Units that are rented must be for terms of 30 consecutive days or longer.

(Added Ord. 2025-024, § 67, eff. 7-27-25).

Editor's note—Ord. 2025-024, § 67, effective July 27, 2025, repealed the former § 15-2754, and enacted a new § 15-2754 as set out herein. The former § 15-2754 pertained to Second Dwelling Units, Backyard Cottages, and Accessory Living Quarters and derived from Ord. 2015-39, § 1, effective January 9, 2016; Ord. 2016-32, § 32, effective October 21, 2016; Ord. 2018-25, § 28, effective June 11, 2018; Ord. 2018-66, §§ 50, 51, effective January 18, 2019.

SEC. 15-2755. SERVICE STATIONS.

Service stations and any other commercial use that provide fuel pumps for retail sales of gasoline are subject to the following standards:

A. **Site Design.**

1. **Access.**

a. There shall be no more than two vehicular access points to/from a public street. Additional access may be provided by neighboring properties.

b. Should a site be redeveloped (i.e., the existing building and/or fuel canopy is removed and reconstructed), and more than two vehicular points of access exist, they shall be removed per Public Works Standards.

c. Fleet Fuel Stations in Industrial Districts may provide additional access points, as determined by the Public Works Director.

2. Designs shall incorporate landscaping and half screen walls to screen vehicles while allowing eye level visibility into the site. Fleet Fuel Stations in Industrial Districts are excepted from this provision.

3. Significant architectural or landscape features shall be provided at the corner of intersecting streets to enhance the streetscape.

4. Noise-generating uses, such as auto service bays, car wash openings, vacuum stations, outdoor loading areas, garbage storage, and stacking lanes, shall be located away from sensitive uses such as residential areas.

5. Propane tanks, vapor recovery systems, air compressors, utility boxes, garbage, recycling containers/enclosures, and other similar mechanical equipment shall be screened from public view. Propane tanks, vapor recovery tanks, etc. shall be laid horizontally and shall be screened with a hedge and/or wall.

B. **Air and Water Stations.** Air and Water Stations shall be identified on plans and shall comply with the setbacks of the underlying District.

C. **Pump Islands.** Pump islands shall be located a minimum of 15 feet from any property line to the nearest edge of the pump island, unless a greater setback is required by an operative plan. A canopy or roof structure over a pump island may

encroach up to 10 feet within this distance. In areas with distinct architecture (to be determined by the Director), the canopy must match the architecture of the main building on the site.

D. **Auto Repair.** Auto Repair shall comply with Section 15-2710, Automobile/Vehicle Service and Repair, Major and Minor.

E. **Temporary Car Washes.** Refer to Section 15-2760, Temporary Uses.

F. **Proximity to Other Service Stations.** No more than two service stations may be located on the corners of the same intersection.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2756. SHOOTING RANGES/ARCHERY RANGES.

Indoor Shooting Ranges and/or Archery Ranges are permitted in accordance with the standards below. The standards below are intended to prevent damage to neighboring properties and to mitigate potential noise from guns and filtration systems used to diminish lead dust and other particulates. Outdoor Ranges are not permitted.

A. Buildings shall incorporate indoor walls and partitions capable of stopping all projectiles fired on the range by containing or redirecting them to the backstop. In addition, buildings shall contain all sound.

B. Exterior walls shall be made of masonry or concrete, or combination thereof.

C. Buildings shall be a minimum 400 feet from existing and/or planned residential dwellings, schools (K-12), and/or day cares. Caretakers Units and Mixed-Use Districts are excepted.

D. Shooting activities are limited to occur between the hours of 7 a.m. and 10 p.m.

E. Ranges shall, at a minimum, meet the requirements established by the National Rifle Association, or the standards above. In the case where standards may conflict, the more restrictive standard(s) shall govern.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2757. SINGLE ROOM OCCUPANCY HOTELS AND BOARDING HOMES.

Single room occupancy (SRO) hotels and/or Boarding Homes, which house between five and 15 guests, which shall collectively be referred to as SROs, shall be located, developed, and operated in compliance with the standards below. SROs do not include Group Homes or Emergency Shelters.

A. **Facility.** There shall be no more than 15 guests.

B. **Maximum Occupancy.** Each SRO living unit shall be designed to accommodate a maximum of two adults.

C. **Minimum Size.** An SRO living unit must have at least 150 square feet of floor area, excluding closet and restroom. No individual unit may exceed 400 square feet.

D. **Minimum Width.** An SRO of one room shall not be less than 12 feet in width.

E. **Entrances.** All SRO units must be independently accessible from a single main entry, excluding emergency and other service support exits.

F. **Cooking Facilities.** Cooking facilities shall be provided either in individual units or in a community kitchen. Where cooking is in individual SRO units, SRO units shall have a sink with hot and cold water; a counter with dedicated electrical outlets and a microwave oven or properly engineered cook top unit pursuant to Building Code requirements; and a refrigerator.

G. **Restroom.** An SRO unit is not required to, but may contain partial or full restroom facilities. A partial restroom facility shall have at least a toilet and sink; a full facility shall have a toilet, sink, and bathtub, shower, or bathtub/shower combination. If a full bathroom facility is not provided, common bathroom facilities shall be provided in accordance with the California Building Code for congregate residences with at least one full bathroom per floor and one full bathroom per four units.

H. **Closet.** Each SRO unit shall have a separate enclosed all-weather closet. The closet shall be at least 120 cubic feet with a minimum four-foot horizontal dimension along one plane.

I. **Common Area.** Four square feet per living unit shall be provided, excluding janitorial storage, laundry facilities, and common hallways. At least 200 square feet in area of interior common space provided as a ground floor entry area that provides a central focus for tenant social interaction and meetings.

J. **Exterior Common Area.** There shall be a minimum of 50 square feet in area of exterior common space per unit, with a minimum horizontal dimension of six feet. This open space may be located in a required front or street side but shall be no closer than nine feet to the lot line, or the rear yard.

K. **Tenancy.** Tenancy of SRO units shall be offered for a minimum of 30 days or longer.

L. **Facility Management.**

1. **Ten or More Guests.** The facility shall provide on-site management. The manager shall live on-site however the manager's unit shall not count as one of the 10 guests.

2. **Less Than 10 Guests.** There shall be an on-site manager's office. The office shall be staffed for a minimum of six hours per day between the hours of 7 a.m. and 8 p.m., six days a week. The manager's hours shall be posted in a conspicuous location.

M. **Management Plan.** A management plan shall be submitted with the permit application for all SRO projects. At minimum, the management plan must include the following:

1. **Security/Safety.** Proposed security and safety features such as lighting, security cameras, defensible space, central access, and user surveillance;

2. **Management Policies.** Management policies including desk service, visitation rights, occupancy restrictions, and use of cooking appliances;

3. **Rental Procedures.** All rental procedures, including monthly tenancy requirements;

4. **Maintenance.** Maintenance provisions, including sidewalk cleaning and litter control, recycling programs, general upkeep, and the use of durable materials.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2758. TATTOO OR BODY MODIFICATION PARLORS.

It is the purpose and intent of these standards to regulate the operation of facilities that perform tattooing and body modification to provide for the health, safety, and welfare of the public and ensure compliance with California Health and Safety Code Section 119300 et seq.

A. **Registration Required.** Any person who is engaged in the business of tattooing or body modification shall provide evidence of registration with the Fresno County Department of Health.

B. **No Persons Under 18.** A sign shall be posted on the door or in view of the entrance stating that no person under the age of 18 is allowed on site, unless accompanied by their parent or documented legal guardian. The operator of the establishment shall require all customers to show proof of age.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2759. TELECOMMUNICATIONS AND WIRELESS FACILITIES.

A. **Amateur (Ham) Radios.** In R and MX Districts, one amateur radio antenna structure and one whip antenna shall be permitted subject to the following restrictions:

1. Such equipment shall be operated by a federally licensed amateur radio station operator who resides on the same property;
2. No part of the antenna exceeds 65 feet in height or 30 feet above the height of the roof when fully extended;
3. Antenna capable of a maximum extended height exceeding 40 feet, with the exception of whip antennas, are equipped with a motorized or hand cranked device to allow the antenna to be easily lowered when it is not in operation;
4. When an amateur radio facility is not in operation, no part of any antenna, except for whip antennas, shall extend to a height that exceeds the maximum height permitted in the district; and
5. No part of the antenna shall be located in the area between the front of a building and the front property line, in a required side yard or required rear yard, or in any parking or loading area.

B. All other Telecommunications and Wireless Facilities shall comply with the City's policy pertaining to said uses. Said policy shall establish standards and procedures to regulate the development, siting, installation, and operation of wireless telecommunications antennas and related facilities consistent with the applicable requirements of federal law. The regulations are intended to provide for the appropriate development of wireless telecommunication facilities within the city to meet the needs of residents, business-owners, and visitors while protecting public health and safety and preventing visual blight and degradation of the community's aesthetic character.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 28, eff. 7-30-17).

SEC. 15-2760. TEMPORARY USES.

This section establishes standards for certain uses that are intended to be of a limited duration of time and that will not permanently alter the character or physical facilities of the property where they occur.

A. **Temporary Uses Not Requiring a Temporary Use Permit.** The following types of temporary uses may be conducted without a Temporary Use Permit. Other permits, such as building permits, may be required.

1. **Yard/Garage Sales.** Garage sales of personal property conducted by a resident of the premises may be conducted in accordance with the following standards.
    a. **Number.** No more than four garage sales shall be conducted on a premise in any calendar year.
    b. **Nonprofit Organizations.** A nonprofit organization may conduct a yard sale at the residence of one or more of its members pursuant to all of the

requirements of this section. One such sale may be held per year without such sale being deemed one chargeable to the premises in question for the purpose of applying the four sales per year limitation set forth in Subparagraph 1 above.

c. **Time Limitations.**

i. No single sale event shall be conducted for longer than two consecutive days.

ii. Garage sales shall not be held for more than two consecutive weekends. Each weekend that sales are conducted constitutes a single sale event.

iii. Garage sales may only be conducted between the hours of 7 a.m. and 7 p.m.

d. **Display Area.** Property offered for sale at a garage sale may be displayed only on the property of the residence.

e. **Signs.** Signs may be displayed only during the hours the garage sale is actively being conducted and shall be removed at the completion of the sale. No signs shall be placed on utility poles or cabinets or in the public right-of-way.

f. **Permitted Products.** The conduct of general retail sales or commercial activities in residential zones, except as is otherwise expressly authorized under this Ordinance, shall be prohibited.

g. **Block Sales.** Block Sales that include a closure of a street shall obtain a street closure permit from the Public Works Department.

2. **Nonprofit Fundraising.** Fundraising sales are permitted on a site by a nonprofit organization, with the owner's permission. Nonprofit fundraising shall not exceed 30 calendar days per year on any single site. Sites shall be cleared of all merchandise and shall be cleaned daily.

3. **Nonprofit Fundraising Events.** Outdoor events for fundraising purposes may be permitted on a site, however events shall be for non-commercial purposes and shall not directly benefit the establishment where the event is held. No site shall hold more than three events per year, while events shall not last more than three consecutive days.

4. **Temporary Carwashes for Fundraising.** Temporary vehicle carwashes may be conducted in accordance with the following standards.

a. The site shall be developed with Commercial, Industrial, and/or Public Uses (i.e., Civic, Institutional).

b. No more than two carwashes shall be conducted on a site in any given month.

c. No event shall be conducted for longer than two consecutive days.

d. Carwashes may be conducted between the hours of 7 a.m. and 7 p.m.

e. The site shall be paved with an impervious surface.

f. Signs may be displayed only during the carwash and shall be removed at the end of the carwash. Signs shall not be placed on utility poles/ structures or in the public right-of-way.

g. Vehicles, either being washed or in queue to be washed, shall not block required drive aisles, drive approaches, and/or public rights-of-way.

h. **Appearance.** When a Temporary Carwash is not in operation, all evidence of its use must be removed from the site including all tables, tents, temporary membranes, canopies, barricades, products, signs, litter, etc. The parking lot must be left in a clean condition.

i. **Refuse/Litter.** The operator shall provide waste removal and shall be responsible for collecting trash and recycling after each event, including in the parking lot.

5. **Moving Trailers/Portable Storage.** Refer to Article 24, Parking and Loading

6. **Temporary Construction Office Trailers.** On-site temporary construction offices are permitted during the period of construction.

B. **Temporary Uses Requiring a Temporary Use Permit.** Other temporary uses may be permitted pursuant to Article 54, Temporary Use Permits, subject to the following standards. Additional or more stringent requirements may be established through the Temporary Use Permit process in order to prevent the use from becoming a nuisance with regard to the surrounding neighborhood or the city as a whole.

1. **Permanent Outdoor Display and Sales.** Refer to Section 15-2745, Outdoor Retail Sales.

2. **Seasonal Sales.** The annual sales of holiday related items such as Christmas Trees, pumpkin lots/patches and similar items may be permitted in accordance with the following standards:

a. **Time Period.** Seasonal sales, including Christmas Tree and pumpkin lots, associated with holidays are allowed up to a month preceding and one week following the holiday.

b. **Goods, Signs, and Temporary Structures.** All items for sale, as well as signs and temporary structures, shall be removed within five days after the end of sales, and the appearance of the site shall be returned to its original state.

c. **Parking.** The Director may require a shake-off area or alternative design to ensure that dirt is not deposited onto public streets.

3. **Temporary Outdoor Display and Sales.** Temporary Outdoor Sales, including, but not limited to, grand opening events, and other special sales events, shall obtain a Temporary Use Permit and shall be subject to the following:

a. **Relationship to Principle Use.** The outdoor display and sales area shall be directly related to a business occupying a primary structure on the same site.

b. **Display Locations.**

i. If located in the public right-of-way, an encroachment from the Public Works Department is required.

ii. Location of the displayed merchandise may not disrupt the normal circulation of the site, nor encroach upon driveways, pedestrian walkways, or required landscaped areas; or obstruct sight distances; or otherwise create hazards for vehicle or pedestrian traffic.

c. **Building Setback of 15 Feet or Less.** Merchandise shall be no closer than 15 feet from a public street unless the building is located closer to the street. If so, merchandise may be located closer than 15 feet.

d. **Building Setback Greater Than 15 Feet.** Outdoor sales shall be located entirely on private property outside any required setback (or landscaped planter in zoning districts that do not have required setbacks), fire lane, or fire access way. A minimum setback of 15 feet from any public right-of-way is required.

e. **Hours.** Outdoor events may only be held during the normal business hours of the establishment.

f. **Number of Events.** No more than six events at one site shall be allowed within any 12-month period. Events shall not last more than five days per event and there shall be a minimum of 14 days between events.

g. **Existing Parking.** The available parking shall not be reduced to less than 90 percent of the minimum number of spaces required by Article 24, Parking and Loading.

h. **Tents/Structures.** Temporary canopies and shade structures may be permitted. Temporary canopies may be required to obtain a Building Permit. A building permit is required for any temporary tent, shade structure canopy larger than 400 square feet.

i. **Appearance.** When Temporary Sales are not in operation, all evidence shall be removed from the site including all tables, tents, temporary membranes, canopies, barricades, products, signs, litter, etc. The parking lot must be left in a clean condition, free of waste. Permanent buildings, structures, and signs are excepted.

j. **Refuse/Litter.** The operator shall provide waste removal and shall be responsible for collecting trash and recycling after each event, including in the parking lot.

k. **Signs.** Additional signs beyond those normally allowed for the subject use shall not be provided as a result of the outdoor display and sales area.

l. **Transactions/Point of Sale.** All sales shall occur as part of the normal business activity of the establishment, via a register, or hand-held device. Patrons shall have the option of paying for purchases in the establishment as part of normal business activity.

m. **Other Conditions.** The Director may impose other conditions that would ensure the operation of the proposed temporary outdoor sales in an orderly and efficient manner.

4. **Special Events and Sales.** Other short term special events may be permitted in accordance with the standards below.

   a. **Location.** Events are limited to non-residential districts.

   b. **Number of Events.** No more than six events at one site shall be allowed within any 12-month period. Events shall not last more than five days per event and there shall be a minimum of 14 days between events.

   c. **Products.** The outdoor display and sales area shall be directly related to a business occupying a primary structure on the same site.

   d. **Signs.** Refer to Article 26, Signs.

   e. **Existing Parking.** The available parking shall not be reduced to less than 90 percent of the minimum number of spaces required by Article 24, Parking and Loading.

5. **Carnivals, Fairs, and Festival Events.** Carnivals, fairs, and festival events are subject to the following standards:

   a. **Location.** Carnivals, fairs, and festival events are limited to areas within Commercial or Employment districts, or on property owned by a public school.

   b. **Time Limit.** When abutting or adjacent to a Residential District or a street that serves a Residential District the hours of operation shall be limited to 7 a.m. to 10 p.m.

   c. **Lighting.** Lighting shall be hooded and directed away from residential uses.

6. **Temporary Parking Lots.**

   a. **Unpaved Temporary Parking Lots.** Temporary Parking on unpaved surfaces may be permitted for up to 14 days for special events in accordance with the standards below. Unpaved temporary parking lots may not be used to fulfill required off-street parking standards per Article 24, Parking and Loading, rather Temporary Parking Lots may be used to periodically accommodate larger than normal crowds at special events.

      i. **Parking Plan.** An applicant shall submit a parking plan to the City for review and approval.

      ii. **Location.** Temporary Parking shall be limited to nonresidential districts, unless the site is developed with nonresidential uses.

      iii. **Number of Events.** Temporary Parking Lots may not be used more than 14 days within any 12-month period.

iv. **Access.** Access shall be from an approved drive approach. An on-site shake-off area is required to ensure that dirt and/or mud are not deposited onto the public street.

v. **Attendants.** An attendant shall be present during the duration of the event and until the last vehicle is removed from the site to guide drivers.

vi. **San Joaquin Valley Air Pollution.** The applicant shall contact the San Joaquin Valley Air Pollution District (District Regulation 8071) for its permitting procedures.

vii. **Dust Mitigation.** Dust mitigation may be required to ensure that the parking lot does not create a nuisance.

viii. **Trash/Debris.** All trash, debris, etc., shall be collected daily and the appearance of the site shall be returned to its original state.

ix. **Temporary Lighting.** Refer to Section 15-2508, Lighting and Glare.

b. **Paved Temporary Parking Lots.** Paved Temporary Parking Lots may be permitted for up to 36 months for non-permanent and unusual needs, such the accommodation of parking displaced by construction activity.

i. **Parking Plan.** An applicant shall submit a parking plan to the City for review and approval.

ii. **Location.** Paved Temporary Parking Lots shall not be permitted in RS Districts.

iii. **Findings.** The Review Authority shall not approve the Paved Temporary Parking Lot unless the following findings can be made:

(a) No other feasible option to accommodate the parking need exists: and

(b) The location of the temporary parking lot will not disrupt an important pedestrian environment, including but not limited to Downtown streets with an Activity Classification of A and sites within 500 feet of a Bus Rapid Transit station.

iv. **Time Limits and Extensions.** The Temporary Use Permit for a Paved Temporary Parking Lot shall be valid for up to 12 months at the discretion of the Review Authority. Extensions may be granted at the discretion of the Review Authority If granted, each extension shall be valid for a maximum period of 12 months. The combined period of the initial permit and all extensions shall not exceed 36 months.

v. The Owner of the temporary parking area shall execute an agreement in a form approved by the City Attorney holding the city harmless from all liabilities resulting from the allowance and utilization of reduced standards.

vi. **Development Standards.**

(a) The surfacing applied to the Paved Temporary Parking Lot shall consist of a minimum of two inches of asphalt concrete or three inches of road-mixed asphalt surfacing over native soil compacted in accordance with Standard Specifications of the City of Fresno. An alternative soil stabilizing agent may be applied and maintained, in lieu of asphalt concrete or road-mixed asphalt surfacing if approved in writing by the Public Works Director. If solid waste pick-up service is to be provided, the portion of the parking area utilized by the service vehicles shall be constructed with a minimum of three inches of asphalt concrete over six inches of aggregate base over compacted native soil.

(b) The area shall be paved to the back of sidewalk when sidewalk exists or is constructed. When no sidewalk exists, the area shall be paved only to the property line. Barriers shall be placed to prevent vehicles from encroaching into public right-of-way and to protect adjacent property.

(c) Pavement marking may be required at the discretion of the Review Authority if the area is of such size or shape that the pattern of parking is not obvious. The required site plan shall indicate the imaginary layout of parking stalls in all cases where actual striping is not proposed.

(d) In DT Districts, standards for parking access locations shall apply. In other districts, use of existing driveways will be acceptable, but the Review Authority may review and approve the design and location of driveway access to the streets and alleys and require that driveways be added or closed. Where driveway approaches are to be constructed, they shall meet Public Works standards.

(e) The site shall be graded to drain onto an adjacent paved street or paved alley.

(f) The Paved Temporary Parking Lot shall be Public Works standards for drive aisles dimensions, stall size, turning radii, lighting, and related matters shall apply.

(g) New street improvements such as curb, gutter, sidewalk and permanent street pavement shall not be required except when the Review Authority determines they are necessary for proper functioning of the lot. If required, such improvements shall meet Public Works standards.

(h) Street lights, on-site lighting, on-site trees, landscaping shall be permitted but not required.

(i) Development Code standards for buffering, setbacks, and related matters shall not apply.

vii. **Use.** The Paved Temporary Parking Lot must only be used for the parking of operable motor vehicles, and overnight parking or camping shall not be permitted. No other temporary or permanent use of the property will be allowed during the life of the temporary use permit for parking.

viii. Upon expiration of the permit and any applicable extensions, the paved Temporary Parking Lot shall cease operations and shall be demolished or upgraded to meet all applicable standards within 90 days.

ix. The Owner of the Paved Temporary Parking Lot shall execute an agreement in a form approved by the City Attorney holding the city harmless from all liabilities resulting from the allowance and utilization of reduced standards.

7. **Other Temporary Uses.** Other special events, outdoor sales, and displays that exceed three consecutive days but not more than 30 days in any 12-month period, may be allowed with the approval of a Zone Clearance so long as the use is related to the primary use on the site and it does not impact neighboring uses or otherwise create significant impacts.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2017-33, § 18, eff. 7-30-17).

SEC. 15-2761. SMOKE SHOPS—PERMIT AND OPERATIONAL REQUIREMENTS.

A. **Purpose.** The purpose of this section is as follows:

1. To establish regulations for Smoke Shops, as defined in Section 15-6802 of this Code.

2. To amortize existing Smoke Shops and allow up to seven Smoke Shops per City Council District, unless otherwise provided pursuant to Subsection 15-2761(D)(4) hereinunder.

B. **Applicability; Exemptions.**

1. All Smoke Shops will be required to comply with this section.

a. **New Smoke Shops.** Any New Smoke Shop established after the effective date of this section shall obtain a Conditional Use Permit as provided herein and shall comply with all requirements of this section.

b. **Existing Smoke Shops.** All Existing Smoke Shops must comply with all the requirements of this section, including the amortization provisions.

c. **Exemptions.** This section does not apply to temporary uses issued a Temporary Use Permit for special events such as fairs or cultural festivals and established in compliance with all City laws and ordinances.

C. **Legal Nonconforming Smoke Shops; Amortization.**

1. Existing Smoke Shops, lawfully established pursuant to the Municipal Code prior to the effective date of this ordinance, must come into compliance with all operational requirements within 30 days of the Effective Date of this Ordinance. No Existing Smoke Shop may make a substantial change of mode or character of their operation. A substantial change of mode or character shall include, but not be limited to, structural changes which expand the sales area of Smoke and Vapor Products and related items by more than a cumulative 5% commencing from the effective date of the ordinance, or a period of closure for more than 30 days; transfers of ownership shall not be considered a substantial change of mode or character of operation.

2. Existing Smoke Shops may sell or transfer their existing Business License, but the new owner shall also be subject to all provisions of this Code applicable to Existing Smoke Shops.

3. Existing Smoke Shops may continue operation for 18 months from the effective date of this Ordinance (the "Amortization Period"), provided they comply with Subsection C.1. The Amortization Period shall be outlined by the City Manager, or designee, pursuant to Section I.1., below. Existing Smoke Shops which are not awarded a Conditional Use Permit, as required by Section D., below, may operate until the end of the Amortization Period. Once the Amortization Period has expired, the Existing Smoke Shop must immediately cease all operations in perpetuity.

    a. Existing Smoke Shops that can demonstrate that 18 months is an insufficient amount of time to amortize their investment, must submit a request for reconsideration to the Director no later than 90 days prior to the expiration of the Amortization Period. The request for reconsideration shall be subject to the appeal provisions of Section 15-5017, Appeals. Each request for a longer term for amortization shall be considered on the basis of the submitted evidence and any extension provided shall be specific to the individual request. Factors to be considered by the Review Authority in determining if the time provided hereinabove is insufficient for the Existing Smoke Shop which requests reconsideration shall include:

        i. The precise nature of the nonconforming use.

        ii. The portion of the business that will be affected, on a pro rata basis.

        iii. The total amount of the investment made for the business, including on the property and any improvements thereon, as well as the total investment for the pro rata portion of the business that sells Smoke and Vapor Products, including the present or depreciated value of any property owned.

        iv. The expiration date and termination rights under leases related to the operation of an Existing Smoke Shop. Any new leases or lease extensions, amendments, or renewals entered into in close proximity to the passage of this Ordinance may be a basis for denial of the request for extension.

v. The ability of the business to recover its investment by changing the use of the property, and the amount of time and additional investment needed to do so.

vi. Any violations of Federal, State, or local law.

vii. Any other information the Smoke Shop Operator deems relevant for the City to consider.

viii. Any other information requested by the City to clarify the request for extension of the Amortization period.

D. **Establishment of New Smoke Shops.** Up to seven Smoke Shops may operate in each City Council District. New Smoke Shops shall be required to obtain a Conditional Use Permit pursuant to the requirements of Chapter 15, Article 53, Conditional Use Permits. New Smoke Shops and Existing Smoke Shops may apply for available Conditional Use Permits in any given District immediately following the effective date of this ordinance. Any Smoke Shop which receives a Conditional Use Permit shall be subject to all provisions of Chapter 15, Article 53, Conditional Use Permits, including the expiration provisions therein.

1. The City shall provide public notice of an available Conditional Use Permit any time one or more Smoke Shop vacancies become available in a District. Public Notice shall be provided in a newspaper of general circulation for a period of 10 consecutive days. Applicants shall have 60 days from the date of the notice to apply for any available Conditional Use Permit. City shall review timely-filed applications within 60 days of the close of the application period to ensure they meet all requirements set forth in this Ordinance. Should no applications be received within 60 days of publishing the notice, the City shall re-notice the availability following the above process. Councilmembers shall be provided with notice of any applications received for their respective District.

2. The City shall hold a lottery within 120 days of the close of the application period whenever the number of qualified applications exceeds the number of Conditional Use Permits available within a given Council District. The lottery shall be conducted in a manner determined by the City Manager, or designee, under the authority granted by Section I.1., below. A lottery selection does not confer any right to operate a Smoke Shop, only the right to file an application for a Conditional Use Permit. All other requirements of this Ordinance must be met for the issuance of a Conditional Use Permit.

3. At any time that one or more Smoke Shop vacancies become available in a District, the City shall grant a Conditional Use Permit for a New Smoke Shop following the above process.

4. City Council may increase the number of new Smoke Shops permitted in any given District upon passage of a Council resolution brought forward by the Councilmember

of the District for which the limit increase is being requested. The Councilmember who brings forward the Resolution to Increase may do so at any time after the passage of this ordinance.

5. City Council may decrease the number of Smoke Shops permitted in any given District upon passage of a Council resolution brought forward by the Councilmember of the District for which the limit decrease is being requested. In no event shall the number of Smoke Shops permitted in any given District be reduced to below seven.

E. **Business License Required.** All Smoke Shops must obtain a Business License in accordance with Chapter 7 of the Fresno Municipal Code. Every Smoke Shop location must have an individual Business License. It shall not be permitted for multiple Smoke Shop locations to operate under the same Business License or Conditional Use Permit.

F. **Location restrictions.** The following location restrictions apply to all Smoke Shops, except Existing Smoke Shops not seeking a Conditional Use Permit to continue operations after expiration of the Amortization Period.

1. **Near Sensitive Uses.** The Smoke Shop shall not be located within 1,000 feet of the following:
   a. A public park, playground, recreational area including a trail that is immediately adjacent to a public park, or youth facility, including a boys and girls club, nursery school, preschool, or day care facility;
   b. A public or private State-licensed or accredited school; or
   c. An alcohol or other drug abuse recovery or treatment facility.
2. **Near Other Smoke Shops.** The Smoke Shop shall not be located within 1,000 feet of another Smoke Shop. Smoke Shop Conditional Use Permits shall be granted first come first served, on the basis of the date the application is deemed complete and the provisions of Chapter 15, Article 53. Conditional Use Permits are met.
3. **Concentration.** Up to seven Smoke Shops may be permitted within each City Council District following the effective date of this Ordinance, except for Existing Smoke Shops during the Amortization Period.

G. **Operational Requirements.**

1. **Landscaping.**
   a. **New Buildings.** Landscaping shall be provided per the underlying zone district's development standards, and applicable Conditions of Approval.
   b. **Existing Buildings.** Perimeter landscaping and Parking Lot Shading standards shall be provided per the underlying zone district. The Review Authority, at their discretion, may make exceptions to the prescribed standards, however in no case shall the reduction result in a net reduction of 35% or greater in the amount of landscaping provided. Landscaping may also be aggregated to minimize the impact on existing parking areas.

2. **Lighting.** The exterior of the premises, including adjacent public sidewalks and all parking lots under the control of the Smoke Shop, shall be illuminated in accordance with the lighting requirements of the underlying zone district, and applicable Conditions of Approval.

3. **Litter and Graffiti.**

   a. Trash and recycling receptacles shall be provided near public entrances to and exits from the building.

   b. The Smoke Shop Operator shall provide for daily removal of trash, litter, and debris from the premises and on all sidewalks that abut the premises, including the Smoke Shop's parking areas.

   c. The Smoke Shop Operator shall remove graffiti in accordance with the requirements of Section 9-2514 of the Fresno Municipal Code, including any amendments or successor ordinances thereto.

4. **Vending Machines.** Internal and external vending machines are prohibited.

   a. No tobacco products or paraphernalia may be sold via vending machine or automatic sales dispenser on the premises of the Smoke Shop.

   b. No food or beverage products may be sold via vending machine or automatic sales dispenser on the premises of the Smoke Shop.

5. **Video Surveillance.**

   a. Smoke Shops must equip a fully functional color digital video camera system.

   b. The system must continuously record, store, and be capable of playing back images and be fully functional at all times, including during any hours the business is closed. The system must be maintained in a secured location inside of the business.

   c. The system shall have the correct date and time stamped onto the image at all times.

   d. The camera storage capacity should be for at least two weeks (14 calendar days). Such cameras must be capable of producing a retrievable and identifiable image that can be made a permanent record and that can be enlarged through projection or other means.

   e. If utilizing a digital video recorder, it must be capable of storing at least 14 days of real-time activities.

   f. The system shall be capable of producing a CD or digital playback feature. The Fresno Police Department may request such digital media in relation to a criminal investigation; in such case, the digital media shall be provided to an authorized representative of the Fresno Police Department, upon request, within 24 hours of the request.

g. The interior of the business must have at least one camera placed to focus on each cash register transaction to include the clerk as well as the customer waiting area.

h. There shall be a minimum of three cameras placed so as to record activities in the primary customer areas of the business; such cameras must, at minimum, provide surveillance for all entry and exit areas, customer parking, and the cash register. These cameras should be of sufficient quality to be able to identify persons and/or vehicles utilizing the business parking lot.

i. All interior cameras shall record in color.

j. All exterior cameras shall record in color and have automatic low light switching capabilities to black and white. Exterior cameras should be in weatherproof enclosures and located in a manner that will prevent or reduce the possibility of vandalism.

k. An inoperable system may be good cause for revocation of the Conditional Use Permit.

l. In the event of a security breach, vandalism, theft, or other offense, the Smoke Shop Operator must ensure preservation of the relevant security footage beyond the required two weeks in coordination with the Fresno Police Department.

6. **Signage.**

a. The provisions specified under Article 26, Signs, and this subsection shall apply. Where conflict may occur between the provisions of Article 26 and this subsection, the more restrictive provisions shall govern.

b. In addition to the requirements found in the California Cigarette and Tobacco Products Licensing Act of 2003 and all updated and related State and Federal Laws, including any amendments and successor statutes thereto including any State or Federal regulations, the following copy is required to be prominently posted in a readily visible manner on an interior wall or fixture and not on windows:

i. "California State Law Prohibits the Sale of Tobacco Products to Persons Under 21 Years of Age."

ii. "No Persons Under the Age of 21 May Enter These Premises."

iii. "No Loitering is Allowed On or In Front of These Premises."

iv. "No Smoking or Vaping Allowed on These Premises."

7. **Glazing.** At least 50% of any street facing facade must be glazed with a clear, non-tinted material.

a. No more than 5% of the square footage of each window that is visible to the public from a public thoroughfare, sidewalk, or parking lot of tobacco and vapor sales retail outlet shall bear advertising, signs, or other obstructions of any sort.

b. Doors must be free from signs regardless of door type or material.

c. The area covered by signs or advertising shall be measured using the border of such sign. and shall include all areas within a sign or advertisement that may not include writing, such as the clear area within neon signs.

d. Signage, advertising, or other obstructions inside or outside the Smoke Shop that are not physically attached to the windows or doors, but are visible from a public thoroughfare, sidewalk, or parking lot in the same manner as if they were physically attached is included in the 5% limitation.

e. Any signage required by law shall not count towards the 5% limitation, but shall nonetheless follow rules related to visual obstruction.

f. Advertising and signage on windows shall be placed and maintained in a manner that ensures that law enforcement personnel have a clear and unobstructed view of the interior of the business, including the area in which the cash registers are maintained, from exterior public sidewalks, parking lots, or entrance to the business.

g. Any Smoke Shop located within 1,000 feet of a sensitive use, as listed in Subsection F.1, shall not advertise tobacco or vapor sales in a manner visible from the outside of the Smoke Shop, such as from a public thoroughfare, sidewalk, or parking lot.

8. **Loitering and Other Nuisance Activities.**

a. The operation of a Smoke Shop shall not result in repeated nuisance activities on the property, which may include, but are not limited to, disturbances of the peace, illegal drug activity, public intoxication, drinking in public, Smoke and Vapor Product sales to minors, harassment of passersby, gambling, prostitution, sale of stolen goods, public urination, theft, assaults, batteries, acts of vandalism, loitering, excessive littering, graffiti, illegal parking, excessive loud noises (especially in the late night or early morning hours), traffic violations, curfew violations, lewd conduct, or other violations of City, State, or federal laws, especially when contributing to a proportionally high rate of police reports and arrests to the area. Any violations of this section shall be considered an egregious violation of this ordinance and a public nuisance that is imminently dangerous to life, health, safety or adjacent property such that it requires immediate correction or elimination. Such a violation shall subject the Smoke Shop Operator to immediate suspension, pursuant to Section 10-609 of the Fresno Municipal Code, of their right to operate a Smoke Shop within the limits of the City. Suspension of a Smoke Shop Operator's right to operate a Smoke Shop shall continue for 30 calendar days or until the Smoke Shop Operator remediates the egregious violation, and receives written permission from the City Manager, or designee, to resume operation of the Smoke Shop after inspection of the premises to confirm remediation of the egregious violation. Should an egregious violation not be remedied, or a second violation of this

section occurs after resumption of operations, the Director may begin proceedings to revoke the Smoke Shop's Conditional Use Permit pursuant to Fresno Municipal Code Section 15-5016. This section shall not apply to Smoke Shop Operators where offenses are the result of third-party conduct beyond the Smoke Shop Operators' control.

b. The Smoke Shop Operator shall post the property with the appropriate Fresno Municipal Code signs advising that consumption of alcoholic beverages, gambling, trespassing, or loitering on private property is a violation of municipal ordinances. The Smoke Shop Operator must send a letter to the Fresno Police Department, signed and dated by the applicant, every 12 months that authorizes Fresno Police Department peace officers to enter the Smoke Shop premises and remove trespassers when the business is closed to the public, in accordance with Section 602(o) of the California Penal Code, including any amendments or successor statutes thereto. The owners and employees are responsible for abating nuisance activities when they occur during business hours.

9. **Training.**

a. **Initial Training.** The Smoke Shop Operator and all employees of the Smoke Shop who are involved in the sale of Smoke and Vapor Products must complete approved course(s) in training of Smoke and Vapor Product sales and handling within 60 days after approval of the Conditional Use Permit becomes final, or for employees hired after the approval of the Conditional Use Permit, within 60 days from the date of hire. Existing Smoke Shop Operators and employees shall have 60 days from the effective date of this ordinance to come into compliance with the training requirement, and thereafter new owners and employees shall obtain the necessary training within 60 days of the date of hire or from the date of ownership. To satisfy this requirement, a certified program must meet the standards of the California Department of Public Health on the Stop Tobacco Access to Kids Enforcement (STAKE) Act or other certifying or licensing body designated by the State of California. If the Smoke Shop Operator is a legal entity, the manager or executive responsible for the Smoke Shop shall obtain the requisite training.

b. **Annual Training.** The Smoke Shop Operator and all employees shall also be required to complete annual trainings which comply with State standards, including changes to tobacco sales laws and regulations. Smoke Shops shall be required to keep up-to-date records which prove that all individuals listed above have completed the requisite annual trainings and shall furnish these records to the City during inspections and upon a reasonable request from the City.

10. **Compliance with Laws.** The Smoke Shop must remain in compliance with all local, State, and federal laws, regulations, and orders, as well as all conditions of approval imposed on the use. This includes compliance with annual City business license fees.

In the event of non-compliance, the Smoke Shop Operator shall be given written notice by the City and an opportunity to cure. Article 63 of Chapter 15, regarding Enforcement of the Citywide Development Code shall also apply in relation to compliance issues, in addition to the annual inspection requirements listed within Section G.14.e, below.

11. **Posting of Conditions.** A copy of all conditions of approval and training requirements shall either be posted in a conspicuous and unobstructed place near the entrance, cashier counter, or customer service area of the Smoke Shop or posted in an employee area and provided upon request (e.g., via flyer or brochure) to patrons and enforcement officials.

12. **Prohibited Products.** The sale or distribution of one or more of the following is prohibited.

    a. Cannabis or Cannabinoid products. Sale of this product shall immediately subject the Smoke Shop to Conditional Use Permit revocation proceedings pursuant to Fresno Municipal Code Section 15-5016.

    b. Drug paraphernalia not directly related to legal Smoke and Vapor Products.

    c. Nitrous oxide.

    d. Flavored tobacco. Sale of this product shall immediately subject the Smoke Shop to Conditional Use Permit revocation proceedings pursuant to Fresno Municipal Code Section 15-5016. Should flavored tobacco products be found during an inspection of the Smoke Shop, the Fresno Police Department or the City's Code Enforcement may seize and destroy said products.

    e. A maximum of 25% of the floor area of the premises may display Smoking Paraphernalia for sale or viewing.

    f. Other products prohibited by law.

    g. Onsite or online gambling activities not related to the California Lottery.

13. **Hours of Operation.** All Smoke Shops must operate within the maximum hours of operation. A Smoke Shop may operate for fewer hours than provided herein but in no case shall the operations extend beyond the hours listed:

TABLE 15-2761-G: SMOKE SHOP HOURS		
	Opening	Closing
Daily	8 AM	10 PM

14. **Non-Operating Rule.** Whenever all of the rights granted by a Conditional Use Permit are discontinued, the following rules to reestablish the use shall apply:

    a. **One Year or Less.** The same Smoke Shop Operator or a different Smoke Shop Operator may reestablish the use pursuant to the preexisting Conditional Use Permit and all conditions applicable thereto.

    b. **More Than One Year.** A new permit is required.

15. **Additional Requirements.**

a. Security Plan required. Smoke Shop Operators/Applicants shall submit a security plan consistent with Fresno Police Department policy on sale of age-restricted materials. Prior to the approval of the Conditional Use Permit, the Applicant shall prepare and submit for review by the Fresno Police Department District Commander, a security plan for approval. Approval of the security plan by the District commander or their designee shall not be unreasonably denied. The contents of the Security Plan shall be incorporated as conditions of approval to the Conditional Use Permit. As a part of the annual inspection process, the Security Plan shall be resubmitted for approval by the District Commander.

b. The Director may require the Smoke Shop Operator/Applicant to submit additional information, of such type and in such form as the Director may specify, as the Director may deem relevant to the application, including, but not limited to, an operational statement, floor plans, architectural renderings, and technical studies, as appropriate.

c. The Director may refer the application to other City departments to determine whether the Smoke Shop's location will comply with building, health, zoning, and fire ordinances or other applicable ordinances or laws. City departments may conduct an inspection of the premises to determine compliance with the ordinances and other laws they administer, and may subsequently prepare reports summarizing their inspections and recommend whether to approve or deny the application based on their inspections.

d. Additional and/or security measures such as reduced hours of operation, security guards, door monitors, and burglar alarm systems may be required if harm, nuisance, or related problems are demonstrated to occur as a result of business practices or operations. This will be determined on a case-by-case basis upon review by the Police Department.

e. Smoke Shops shall be subject to routine unannounced inspections at least annually, to ensure compliance with this section and any additional conditions of the Conditional Use Permit. The Smoke Shop Operator shall reimburse the City for the cost of such inspection(s) pursuant to the City's Master Fee Schedule. If an annual inspection results in a finding that a Smoke Shop Operator is not in compliance with this section or the specific conditions of the Conditional Use Permit, that finding may be used as a basis for amending or revoking the Conditional Use Permit, pursuant to Article 50 of Chapter 15 of the Fresno Municipal Code.

i. If a Smoke Shop is determined to be out of compliance with its Conditions of Approval, the person or entity acting as the Smoke Shop Operator may be subject to administrative fines as set by City Council resolution. The fine structure shall consist of progressively higher fines for violations

occurring within 24 months of a prior violation, and upon the fourth violation being upheld within a three-year period of the first violation, the Conditional Use Permit for the business shall be subject to revocation. These fines shall be levied in accordance with the Master Fee Schedule.

ii. If an Existing Smoke Shop is purchased by a unassociated and unrelated new Smoke Shop Operator seeking to continue operation of the Smoke Shop, and the new Smoke Shop Operator is not subject to administrative fines as set forth above at any other Smoke Shop in the City, the City Manager, with concurrence of the City Attorney, may waive any administrative fines imposed upon the Existing Smoke Shop upon transfer to the new Smoke Shop Operator and upon proof that the new Smoke Shop Operator has cured all previous violations to the satisfaction of the City Manager.

H. **Violations of this Section.**

1. Violation of these standards at any time may result in the amendment or revocation of a Conditional Use Permit.

2. Fines may be imposed upon business owner and/or Conditional Use Permit holder, in accordance with Sections 1-305 and 1-308 of this Code. Fines pursuant to Section 1-305 shall be imposed in accordance with the Master Fee Schedule, except as follows:

TABLE 15-2761-H: FINES FOR VIOLATIONS		
	Sales to Minors	External Advertising
Misdemeanor	$2,500 per offense	$1,000 per offense

3. The City may seek recovery of its costs of enforcement and abatement pursuant to Article 5 (Cost and Penalty Recovery) of Chapter 1 (General Provisions) of this Code. Both the property owner and the Smoke Shop Operator shall be liable to the City for recovery costs as specified under Section 1-504.

4. Remedies shall not be exclusive of each other, and may also include any remedy available to the City at law or equity.

5. Any violation of this section is deemed a public nuisance and may be abated.

I. **Promulgation of Regulations, Standards and Other Legal Duties.**

1. In addition to any regulations adopted by the City Council, the City Manager or designee is authorized to establish any additional rules, regulations and standards governing the issuance, denial or renewal of Smoke Shop Conditional Use Permits and Business Licenses, the ongoing operation of Smoke Shops and the City's oversight, or concerning any other subject determined to be necessary to carry out the purposes of this ordinance.

2. Regulations shall be published on the City's website.

3. Regulations promulgated by the City Manager shall become effective upon date of publication.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-011, § 1, eff. 6-5-25).

Editor's note—Ord. 2025-011, § 1, adopted April 24, 2025, and effective June 5, 2025, amended the title of § 15-2761 to read as herein set out. The former § 15-2761 title pertained to tobacco and vapor sales.

SEC. 15-2762. TRANSITIONAL AND SUPPORTIVE HOUSING.

Transitional and supportive housing, as defined in the Government Code (Sections 50675.2 and 50675.14) constitute a residential use and are subject only to those restrictions that apply to other residential uses of the same type in the same district.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2763. UTILITY METERS/SECOND METERS.

In Single-Unit Residential Districts, one public utility meter per parcel may be permitted, with the exception of an additional meter for a Second Dwelling Unit, or to permit an electric vehicle charging station as may be permitted per the California Public Utilities Commission.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 68, eff. 7-27-25).

SEC. 15-2764. UNATTENDED DONATION BINS.

A. **Location.** Unattended Donation Bins (UDBs) are allowed in Commercial Districts only. Bins must be located in the following manner:

1. Outside of the public right-of-way.
2. In compliance with all setbacks and visibility triangle requirements (Section 15-2018).
3. Outside of required parking spaces.
4. To the side or rear of buildings, unless the operating organization is also the primary use on the site.
5. In a location that does not impede circulation.

B. **Business License.** Operators must obtain a Business License from the City of Fresno Business Tax Division.

C. **Property Owner's Permission.** A written letter from the property owner or their representative certifying their consent for the bin to be located on the property, must be filed with the Planning Division prior to the placement of the bin on the site.

D. **Required Display of Information.** All donation bins must display, in a clear and easy-to-read manner, the following information:

1. Contact information, including the name, address, email, telephone number, and website, for the person or organization responsible for maintaining the bin.
2. Business license number.

3. Contact information for the parent company, if applicable.

4. A statement indicating what materials are accepted and how the donated goods will be used, sold, dispersed, etc.

5. A statement indicating that donated items must fit in the bin and that dumping is prohibited.

6. A statement indicating how someone may report a problem associated with the bin.

E. **Maintenance.** Bins shall be kept in good repair and the surrounding site shall be kept free of litter and debris. Overflow of materials and graffiti must be removed within 48 hours. (Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2765. VEHICLE IMPOUND YARD (TOW YARD) AND TRANSIT STORAGE.

Tow Yards, Transit Storage, and Freight Storage may be permitted subject to the following standards:

A. **Existing Facilities.** Existing facilities established prior to January 24, 2006 may continue to operate subject to the following conditions:

1. Compliance with all Conditions of Project Approval per the pertinent entitlement.

2. If an entitlement was not required per zoning regulations, the applicant shall provide evidence, satisfactory to the Director, that the facility:

a. Was established prior to January 24, 2006 and that the use has been in continuous use;

b. The site has had a valid business license since January 24, 2006; and

c. The site does not have any outstanding items from Code Enforcement.

B. **New Facilities.**

1. **Minimum Lot Size.** 6,000 square feet.

2. **Location.** There shall be a minimum separation of 200 feet from property planned or zoned for:

a. Residential Uses;

b. Office Uses; or

c. A freeway, unless the freeway is depressed a minimum 10 feet from the natural grade of the subject site and there is a six-foot masonry screen wall.

3. **Landscaping and Screening.**

a. There shall be a minimum 10-foot landscape area along all streets, unless a greater setback is required in this Code or operative plan.

b. A Screening Wall, per Section 15-2008-C, of seven feet in height shall be provided along all property lines. Said wall shall be located at the rear of required landscaping along streets, including freeways. Screen Walls, when located on a local industrial street or between industrial uses, may be a material other than masonry, subject to review and approval by the Director. However, alternative Screen Walls, including gates, shall not be transparent.

c. Graffiti along perimeter Screen Walls shall be removed within 48 hours.

d. Additional screening and landscaping, as determined by the Director may be required where necessary to prevent visual impacts on adjacent properties.

4. **Lighting.** Refer to Section 15-2015, Outdoor Lighting and Illumination.

5. **Parking.** Refer to Article 24, Parking and Loading.

6. **Paving.** All storage areas shall be paved per Public Works Standards for Parking Lots.

7. **Operational Requirements.**

a. There shall be no loading/unloading of vehicles in the public right-of-way or within customer parking areas.

b. Vehicles and/or materials may only be stored within designated areas per the approved entitlement.

c. There shall be no dismantling of motor vehicles.

d. All auto repairs shall occur within an enclosed building.

e. Any property stored on-site, other than motor vehicles, is limited to personal property found inside the impounded vehicle.

8. **Retail Sales.**

a. Shall be limited to lien sales of vehicles and/or personal property not claimed by the owner. A statement shall be submitted by the applicant outlining how sales will be conducted.

b. Vehicles for sale shall not be displayed outside of the display area as designated by the approved permit

c. There shall be no test driving of vehicles into adjacent or nearby residential neighborhoods.

9. **Infrastructure Requirements.**

a. Off-site improvements may be required by the City.

b. The facility shall be served by a public sewer system. Private septic sewer systems are prohibited.

c. Adequate facilities and infrastructure shall be provided for fire protection as determined by the City.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2766. WALK-UP FACILITIES.

Walk-Up Facilities, such as food service windows and Automatic Teller Machines (ATMs), shall comply with the following regulations.

A. **Regulations Applying to All Walk-Up Facilities.**

1. **Location Requirements.**

a. Set back from an adjacent street curb by a minimum of eight feet;

b. Located not to eliminate or substantially reduce any landscaped areas; and

c. Located not to result in undue traffic congestion.

2. **Architectural Design.** Construction and modifications to the exterior of structures shall be completed in a manner consistent with the architectural design of the surrounding setting. If there is no uniform design, the facility shall incorporate common elements and materials found in the surrounding setting.

3. **Trash Disposal.** Trash and recycling receptacles shall be provided in proximity to the service.

4. **Weather Protection.** An awning, portico, or other form of weather protection must be provided for the transaction area and for a reasonable amount of space where customers may wait or queue.

B. **Automatic Teller Machines (ATMs).**

1. **Location.** In addition to the requirements set forth under Subparagraph A.1. above, ATMs must be located a minimum of 30 feet from any property line corner at a street intersection;

2. **Lighting.** Each ATM shall be provided with lighting in compliance with State law.

3. **Drive-Up ATMs.** ATMs that are located outside, but are designed to be accessed by a vehicle must comply with Section 15-2728, Drive-In and Drive-Through Facilities.

4. **Video Surveillance.** Each ATM that is not directly supervised by an on-site employee or manager shall equip a rear-view mirror and a camera that can record activity for surveillance purposes. The camera shall record in color and have automatic low light switching capabilities to black and white.

C. **Food Service Windows.** The operator must ensure cleanliness of the site and an unimpeded flow of traffic in the public right-of-way. Service of alcoholic beverages is prohibited.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2767. WATER WELLS.

Public Utility water wells, and related equipment, such as water treatment facilities shall be subject to the following standards:

A. **Major Streets.** Equipment may not be within 100 feet of Major Streets in Mixed-Use or Commercial Districts. Properties developed with retention and/or recharge basins and State highways are excepted.

B. **Screening.** Sites shall be enclosed by Screening Walls per Section 15-2008-C. Screen walls shall be located at the rear of landscaping areas along front yards, and on the property line alongside and rear yards, unless stricter requirements are required in this Code or operative plan.

C. **Separation.** Equipment shall be separated a minimum 10 feet from Residential Districts and shall be adequately screened with trees.

D. **Property Development Standards.** Development shall comply with the standards of the underlying District, unless stricter requirements are required in this Code or operative plan.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-2768. WRECKING YARDS AND AUTO DISMANTLING.

Wrecking Yards may be permitted subject to the following standards:

A. **Existing Facilities.** Existing facilities established prior to January 24, 2006 may continue to operate subject to the following conditions:

1. Compliance with all Conditions of Project Approval per the pertinent entitlement.

2. If an entitlement was not required per zoning regulations, the applicant shall provide evidence, satisfactory to the Director, that the facility:

a. Was established prior to January 24, 2006 and that the use has been in continuous use;

b. The site has had a valid business license since January 24, 2006; and

c. The site does not have any outstanding items from Code Enforcement.

B. **New Facilities.**

1. **Minimum Lot Size.** Five acres.

2. **Location.** There shall be a minimum setback of 300 feet from property planned or zoned for:

   a. Residential Uses;

   b. Office Uses;

   c. An integrated commercial shopping center;

   d. Passenger rail; or

   e. A freeway, unless the freeway is depressed a minimum 10 feet from the natural grade of the subject site and there is a six-foot masonry screen wall.

3. **Landscaping and Screening.**

   a. There shall be a minimum 10 foot landscape area along all streets, unless a greater setback is required in this Code or operative plan.

   b. A Screening Wall, per Section 15-2008-C of seven feet in height shall be provided along all property lines. The Screen Wall shall be located at the rear of required landscaping along streets, including freeways, if applicable.

   c. Graffiti along perimeter Screen Walls shall be removed within 48 hours.

   d. Additional screening and landscaping, as determined by the Director may be required where necessary to prevent visual impacts on adjacent properties.

4. **Lighting.** Refer to Section 15-2015, Outdoor Lighting and Illumination.

5. **Parking.** Refer to Article 24, Parking and Loading.

6. **Paving.** All storage and production areas shall be paved per:

   a. Public Works Standards for Parking Lots, or

   b. The surfacing shall consist of a minimum of two inches of asphalt concrete or three inches of road-mixed asphalt surfacing over native soil compacted in accordance with Public Works Standards. An alternative soil stabilizing agent may be applied and maintained, in lieu of asphalt concrete or road-mixed asphalt surfacing if approved in writing by the Public Works Director.

7. **Operational Requirements.**

   a. There shall be no loading/unloading of vehicles in the public right-of-way or within customer parking areas.

   b. Vehicles and/or materials may only be stored within designated areas.

c. Stacked vehicles, or material, such as tires, shall not exceed 10 feet in height.

d. Tires must be stored in a manner that does not facilitate the breeding of mosquitoes.

e. Machinery and equipment shall not exceed 25 feet in height. Any equipment greater than 10 feet in height shall be setback a minimum of 200 from all property lines.

f. Crushing operations shall not occur on Sundays or California Holidays.

g. No automobile repair or installation of parts shall occur on the site.

h. The main yard entrance gate shall remain closed when not in operation. The main gate shall not allow visibility into the site.

i. Operations shall comply with all applicable Environmental Protection Agency regulations.

8. **Infrastructure Requirements.**

a. Off-site improvements may be required by the City.

b. The facility shall be served by a public sewer system. Private septic sewer systems are prohibited.

c. Adequate facilities and infrastructure shall be provided for fire protection as determined by the City.

9. **Hazardous Materials Plan.** Prior to operating, the owner or operator shall submit a Hazardous Materials Plan to the Planning Department. The Plan shall explain the processing and storage procedures of potentially hazardous materials such as oil, antifreeze, gas, wiper fluid, and used tires.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

PART IV: LAND DIVISIONS

ARTICLE 31 GENERAL PROVISIONS

Sec. 15-3101. Introductory Provisions.
Sec. 15-3102. Applicability.
Sec. 15-3103. Interpretation.
Sec. 15-3104. Severability.
Sec. 15-3105. Administration And Common Procedures.
Sec. 15-3106. Review Authorities For Subdivision Decisions.

SEC. 15-3101. INTRODUCTORY PROVISIONS.

A. **Citation and Authority.** Chapter 15, Part IV of the Fresno Municipal Code shall be known and cited as the Subdivision Ordinance of the City. Authority for this Part is found in Title 7, Division 2 of the California Government Code, which is referred to as the Subdivision Map Act (Map Act; Sections 66410 et. seq. of the California Government Code).

B. **Purpose.** The purpose of this Subdivision Ordinance is to regulate the division of land within the city. These provisions implement and supplement the requirements of the Map Act concerning the design and improvement of subdivisions and regulating other divisions of land within the city including the form and content of all maps and the procedure to be followed in securing official approval. This Ordinance is intended to protect and preserve public health, safety, and general welfare and promote orderly growth and development. The provisions of this Subdivision Ordinance are more specifically intended to:

1. Ensure that the design and improvement of subdivisions is consistent with and promotes the goals and policies of the General Plan and applicable operative plans;
2. Provide for adequate access and circulation across all modes of transportation;
3. Ensure the availability of adequate public facilities;
4. Provide options for the future development of adjacent properties; and
5. Protect and enhance property values.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3102. APPLICABILITY.

A. **Applicability.** This Subdivision Ordinance shall apply to all, or parts of subdivisions or Parcel Modifications within the city.

B. **Subdivision Approval Required.** The regulations set forth in this Subdivision Ordinance apply to all parts of subdivisions within the city and to the preparation of subdivision maps and to other maps provided for by the Map Act. Each subdivision and each part thereof lying within the city shall be made and each map shall be prepared and presented for approval as provided for and required by this Subdivision Ordinance.

C. **Compliance with Other Regulations.**

1. Per the Map Act (Section 66473.5), a map may only be approved if the proposal complies with the General Plan and operative plan, if applicable.

2. The approval or conditional approval of a subdivision map, Lot Line Adjustment, or Parcel Merger shall not authorize an exception or deviation from any zoning regulation or operative plan, or as an approval to proceed with any development in violation of other applicable provisions.

D. **References to the Map Act.** Where the Subdivision Ordinance references applicable provisions of the Map Act, the reference shall be interpreted to be to the applicable Map Act provisions as they may be amended from time to time.

E. **Map Act Reference Numbers.** Map Act section numbers provided in references to the Map Act are for the convenience of readers. Numbers may be superseded by more recent Map Act amendments.

F. **Conflicts with the Map Act.** In the event of any conflicts between the provisions of this Subdivision Ordinance and the Map Act, the Map Act shall govern.

G. **Definitions.** Refer to Section 15-6802 and the Map Act. In the event of any conflicts between the definitions of this Subdivision Ordinance and the Map Act, the Map Act shall govern.

H. **Pre-Annexation Filing of a Subdivision.** In accordance with the Map Act (Section 66454), an application for a proposed subdivision of unincorporated territory adjacent to the city within the Sphere of Influence may be filed with the City pursuant to the Memorandum of Understanding between the City and County. The map, in the discretion of the City, may be acted upon as outlined in the Map Act (Section 66452), except that if it is approved, such approval shall be conditioned upon annexation of the property to the city.

I. **Determining the Legality of Parcels.**

1. **Parcels Created Before January 1, 1968.**

   a. **Incorporated.** Parcels created before January 1, 1968 shall be deemed to be legally created if the parcel was created in compliance with the City's Parcel Map Ordinance in effect at that time.

   b. **Unincorporated.** Refer to the Map Act (Section 66412.6).

2. **Parcels Created Before March 4, 1972.** Parcels shall be deemed to be legally created if the parcel was created in compliance with the City of Fresno's Parcel Map Ordinance in effect at that time.

3. **Parcels Created After March 4, 1972.** Parcels created after March 4, 1972 shall be deemed to have been legally created if the parcel was created in compliance with the Subdivision Map Act.

4. **Substandard Parcels.**

   a. Substandard parcels that were created after 1956 and for which a City permit was issued and created in conformance with the Subdivision Ordinance in effect at that time is considered to be a legal parcel.

   b. Substandard parcels shall not be deemed legal parcels unless evidence can be provided to the City that they were created pursuant to City-issued permits, approvals, and/or the Map Act.

   c. Substandard parcels which are deemed to be illegal parcels shall submit a Conditional Certificate of Compliance to be reviewed and approved by the Development Services Division.

J. **Grading and Erosion Control.** Every map approved pursuant to this Ordinance shall be conditioned on compliance with the requirements for grading and erosion control, including the prevention of sedimentation or damage to off-site property, set forth in the Fresno Municipal Code.

K. **Fees.** All persons submitting maps and other documents required by the Subdivision Ordinance shall pay all required fees at the time of application and/or when environmental documentation is filed, whichever occurs first. Fees shall be established by the City pursuant to the Map Act (Section 66451.2) and the Mitigation Fee Act (Sections 66000 to 66025 of the Government Code).
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3103. INTERPRETATION.

None of the provisions in the Subdivision Ordinance or in any other ordinance or resolution of the City, or in any rule or regulation promulgated pursuant thereto, whether pre-existing, existing, or in the future, are intended to create or to be construed to create an imposition of civil liability on the City, its Council, commissioners, officers, or employees while acting in accordance with such provisions.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3104. SEVERABILITY.

The sections, paragraphs, sentences, clauses and phrases of the Subdivision Ordinance are severable. If any phrase, clause, sentence, paragraph, or section of the Subdivision Ordinance is declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs, and sections of the Subdivision Ordinance.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3105. ADMINISTRATION AND COMMON PROCEDURES.

A. **Responsibility for Administration.** The Director and City Engineer are authorized and directed to administer and enforce the provisions of this Subdivision Ordinance and applicable provisions of the Map Act for subdivisions within the city.

B. **Powers and Responsibilities.**

1. **Council.** The Council shall:

   a. Act as the final appeal board for hearing appeals of the approval, conditional approval, or denial of maps for all land divisions and adjustments;

   b. Consider all dedications in the event that the City Engineer does not take action;

   c. Take action on Final Maps pursuant to the Map Act (Section 66458);

   d. Consider actions on Appeal. The Council shall take action on items brought before the Council on appeal of the Commission decision, which may include, Tentative Maps, Vesting Tentative Maps, Parcel Maps, Lot Line Adjustments, and Voluntary Parcel Mergers. For actions on appeal, the Council may approve, conditionally approve, or deny the above submissions, subject to the requirements of the Map Act; and

   e. Accept dedications and improvements for subdivisions and offsite dedications lying outside a subdivision boundary that require a separate grant deed.

2. **Planning Commission.** The Planning Commission shall:

   a. Approve, conditionally approve, or deny Tentative Maps and impose requirements or conditions thereon per the Map Act (Section 66474.7); and

   b. Where provided by this Code, the Commission shall serve as the appeal body for decisions of the Director and City Engineer.

3. **Director.** The Development and Resource Management Department Director (the "Director") shall:

   a. Determine if application is complete and provide notification to applicant;

   b. Approve, conditionally approve, or deny Parcel Maps;

   c. Report the findings together with any recommendations for approval, or conditional approval, to the Commission for Tentative Maps;

   d. In consultation with the City Engineer, determine if proposed subdivision improvements comply with the provisions of this Subdivision Ordinance and the Map Act; and

   e. In consultation with the City Engineer, determine if Final Maps are in substantial conformance with approved Tentative Maps.

4. **City Engineer.** The City Engineer shall:

   a. Establish design and construction details, standards, and specifications;

   b. Approve, conditionally approve, or deny Lot Line Adjustments and Voluntary Parcel Mergers;

   c. Determine that all public facilities and improvements required of land divisions are adequate are provided per City standards;

d. Process Final Maps, reversion to acreage maps; the processing and approval of subdivision improvement plans, and certificates of compliance;

e. Examine and conclude that Final Maps are in substantial conformance with the approved Tentative Map;

f. Inspect and approve of subdivision improvements; and

g. Record a notice of completion of private subdivision improvements when not to be maintained by the City.

5. **Subdivision Review Committee (SRC).**

a. **SRC Members.** The Subdivision Review Committee (SRC) shall be comprised of public service providers, City staff, and others the Director determines should comment on proposed maps.

b. **SRC Review.**

i. The SRC shall review all Tentative Maps, while the Director at his/her discretion, may also refer Tentative Parcel Maps to the SRC.

ii. The SRC shall review maps for:

(1) Compliance and consistency with applicable provisions of this Development Code, the Municipal Code, the General Plan, operative plan (if applicable), utility plan, the City's standard specifications and plans, and the Map Act;

(2) Conditions necessary for the map to comply with the above requirements; and

(3) Basis for determining that the map complies with the required findings in Section 15-3310, Required Findings for Tentative Parcel Maps and Tentative Maps.

c. **SRC Role.** The SRC shall provide pre-application consultation in accordance with Section 15-3304 of this Code and advise the Director and City Engineer.

6. **Planning Division.** The Planning Division shall:

a. Collects fees related to the processing of Tentative Maps and Tentative Parcel Maps;

b. Process Tentative Maps and Tentative Parcel Maps; and

c. Investigate proposed subdivisions for conformity to the General Plan, Specific and operative plans, and the Zoning Ordinance, and reporting findings together with recommendations for approval, conditional approval, or denial of Tentative Maps.

7. **Public Works Department.** The Public Works Department shall:

a. Be responsible for the processing of Final Maps; and

b. Process Lot Line Adjustments and Mergers.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, §§ 52, 53, eff. 1-18-19).

SEC. 15-3106. REVIEW AUTHORITIES FOR SUBDIVISION DECISIONS.

Pursuant to the Map Act (Sections 66415, 66452.1, & 66458) Table 15-3106 identifies the City official or authority responsible for reviewing and making decisions on each type of subdivision application and other decision required by this Subdivision Ordinance. Any reference to a City official or authority shall include their authorized representative(s).

ARTICLE 32 REQUIRED MAPS

Sec. 15-3201. Purpose.
Sec. 15-3202. Required Maps.
Sec. 15-3203. Exceptions from Subdivision Approval Requirements.

SEC. 15-3201. PURPOSE.

The provisions of this article shall determine the need for Tentative or Vesting Tentative Maps, Final Maps, Tentative Parcel, and Parcel Maps.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3202. REQUIRED MAPS.

Any subdivision of land shall require the filing and approval of either a Tentative Map and Final Map or Tentative Parcel Map and Parcel Map, except as provided by the Map Act (Section 66426) and/or Section 15-3203, Exemptions from Subdivision Approval Requirements.

A. **Tentative Parcel Map and Parcel Maps (Four or Fewer Parcels).** Tentative Parcel and Parcel Maps shall be required for the following:

1. Parcel Maps, as authorized by the Map Act (Section 66248; four or fewer parcels).

2. Divisions of land into five or more parcels that meet any of the following criteria and are consistent with the Map Act (Section 66426):

   a. The land before division contains less than five acres, each parcel created by the division abuts upon a maintained public street or highway, and no dedications or improvements are required.

   b. Each parcel created by the division has a gross area of 20 acres or more and has an approved access to a public street or highway.

   c. The land consists of a parcel or parcels of land having approved access to a public street or highway, which comprises part of a tract of land zoned for industrial or commercial development, and which has the approval of the City as to street alignments and widths.

   d. Each parcel created by the division has a gross area of not less than 40 acres or is not less than one quarter of a quarter section.

   e. The land being subdivided is solely for the creation of an environmental subdivision pursuant to Map Act (Section 66418.2).

3. **Exceptions.** Pursuant to the Map Act (Sections 66411, 66412, 66412.1, 66412.2, and 66426.5) a subdivision map shall not be required for:

   a. **Public/Government Agency or Utility Conveyances.** Any conveyance of land, including a fee interest, an easement, or a license, to or from a governmental agency, public entity, public utility, or a subsidiary of a

public utility for rights-of-way, unless the Director determines, based on substantial evidence, that public policy necessitates a Parcel Map in an individual case;

b. **Rail Right-of-Way Leases.** Subdivisions of a portion of the operating right-of-way of a railroad corporation as defined by California Public Utilities Code Section 230, which are created by short-term leases (terminable by either party on not more than 30 days' notice in writing); or

c. **Waived Parcel Map.** A subdivision that has been granted a waiver of Parcel Map requirements in compliance with Section 15-3503, Waiver of Parcel Map.

B. **Tentative Maps and Final Maps (Five or More Parcels).** Tentative Maps and Final Maps shall be required for subdivisions of five or more parcels that do not meet the criteria for Tentative Parcel Maps and Parcel Maps listed in Subsection A above.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3203. EXCEPTIONS FROM SUBDIVISION APPROVAL REQUIREMENTS.

The requirements for a Tentative Map, Parcel Map, or Final Maps shall not apply to the exclusions enumerated in the Map Act (Sections 66412, 66412.1, 66412.2, 66412.5 and 66426.5).

(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3321. Subsequent Tentative Maps.

SEC. 15-3301. PURPOSE.

This article establishes the application requirements, submittals, review, and required findings for approval and disapproval of Tentative Parcel Maps and Tentative Maps, consistent with the requirements of the Map Act.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3302. FORM AND CONTENTS.

A. **Application Requirements.** Tentative Parcel Map and Tentative Map application submittals shall include:

1. Application forms as required by the City.

2. Maps shall be prepared in compliance with all applicable City standards and specifications and the Map Act.

3. Maps shall be clearly and legibly drawn, printed, or reproduced and shall contain the information specified by the City Engineer and Director and shall be prepared pursuant to the Map Act (Sections 66434 et. seq. and 66444 et. seq.).

4. If the subdivider plans to develop the site in phases such that multiple Final Maps will be filed following the approval of a single Tentative Map in compliance with the Map Act (Section 66456.1).

B. **Accompanying Data and Reports.** Applications for Tentative Maps and Tentative Parcel Maps shall be accompanied by the following data or reports:

1. **Title Report.** A preliminary title report, showing the legal owners at the time of filing the Tentative Map.

2. **Environmental Assessment.** The subdivider shall provide data and information as may be required for the preparation and processing of environmental documents pursuant to the California Environmental Quality Act.

3. **Soils Report.** The City Engineer may require the preparation of a preliminary soils report. If a preliminary soils report indicates the presence of critically expansive soils or other soil problems which, if not corrected, could lead to structural defects, the soils report accompanying the final map shall contain an investigation of each lot within the subdivision. The City Engineer may require additional information or reject the report if it is found to be incomplete, inaccurate, or unsatisfactory. The preliminary soils report may be waived if the City Engineer determines that, due to knowledge of the soil qualities in the subdivision, no preliminary analysis is necessary.

4. **Geotechnical Report.** For subdivisions within the Alquist-Priolo Fault Zone or other area with geologic or seismic hazards per State Hazard Mapping Act or the General Plan, a preliminary geotechnical report that evaluates seismic hazards and recommends appropriate mitigation measures, prepared in compliance with the requirements of the State Seismic Hazard Mapping Act, shall be submitted with the Tentative Map. The report shall identify mitigation measures that will be incorporated in design of the subdivision to mitigate hazards from liquefaction and other seismic hazards. If this preliminary report identifies hazards, an engineering report on each lot in subdivision must be submitted with Final Map.

5. **Other Reports.** Any other data or reports deemed necessary by the City (refer to Section 15-3305, Application Filing and Completeness Review).

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3303. CONCURRENT PROCESSING OF RELATED APPLICATIONS.

A. **Related Applications.** Other applications required by this Code that are related to a Tentative Map and/or Tentative Parcel Map may be submitted prior to or concurrently with the Tentative Map and Tentative Parcel Map application(s) and shall contain clear, legible, and accurate information. Each application shall accurately reference other applications.

B. **Approval of Related Application(s).**

1. Concurrent processing of other applications required by this Code that are related to a Tentative Map and/or Tentative Parcel Map application(s) shall occur in accordance with the provisions and requirements included within Section 15-5018 of this Code.

C. **Time Limit Waiver/Extensions by Mutual Consent.** Time limits may be extended or waived by mutual consent of the City and the applicant for the processing of a Tentative Map and/or Tentative Parcel Map for the purpose of permitting concurrent processing of related entitlement applications or an environmental review of the same project per the Map Act (Section 66451.1).
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 54, eff. 1-18-19).

SEC. 15-3304. PRE-APPLICATION CONSULTATION.

Prior to filing an application for a Tentative Map and/or Tentative Parcel Map, the prospective subdivider shall meet with Planning staff and the Subdivision Review Committee, to review the proposed subdivision design, including a discussion of the location of open space, connectivity to surrounding streets and/or property, trails, safe routes to school, bus stops, dedication requirements, applicable processing procedures, etc.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 55, eff. 1-18-19).

SEC. 15-3305. APPLICATION FILING AND COMPLETENESS REVIEW.

A. **Filing.** The Director shall maintain application forms and lists that specify the information that will be required from applicants for maps.

B. **Initial Application Review.**

1. The Director shall review and evaluate each Tentative Map or Tentative Parcel Map as to its compliance and consistency with applicable provisions of this Development Code, the General Plan, any operative plan or master utility plan, and the Map Act; and

2. The Director may determine the extent to which the proposed subdivision complies with the findings identified in Section 15-3309, Required Findings.

C. **Complete and Accepted for Processing.** Staff shall provide written notification to the applicant whether the application is complete and accepted for processing within 30 days of receipt of a filed application. In the course of processing the application, the City may require the applicant to clarify, amplify, correct, or otherwise supplement the information required for the application.

D. **Incomplete.** Staff shall notify the applicant that the application is incomplete and has not been accepted for processing and shall notify the applicant of the manner in which the application may be made complete. If the applicant fails to provide requested information within 30 days of notification, the application shall be deemed incomplete, processing shall be suspended, and application shall be returned to applicant less fees to cover initial review.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 56, eff. 1-18-19).

SEC. 15-3306. APPLICABLE STANDARDS.

The approval, conditional approval, or denial of a Tentative Map and/or Tentative Parcel Map shall be based on the ordinances, policies, and standards in effect on the date of

notification to the developer of the determination that the application is complete according to Section 15-3305, Application Filing and Completeness Review. If the City has initiated formal proceedings and published notice of an ordinance or resolution amending ordinances, policies, and standards applicable to the developer's project prior to acceptance of a complete application, the amended ordinances, policies, and standards in effect on the date of tentative map approval shall apply. If the developer requests changes in applicable ordinances, policies, and standards, and they are adopted, the changes shall apply.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3307. REFERRALS AND REVIEW.

A. **Referrals.** A Tentative Parcel Map or Tentative Map application shall be referred to the agencies outlined in this subsection as required by the Map Act (Section 66453), as well as any other City department, County, State, or federal agency, or other individual or group that the Director believes may be affected by the subdivision or may have information useful to the City about issues raised by the proposed subdivision.

B. **Time Limits for Referrals.** As required by the Map Act (Section 66453(b)), referral of maps shall occur within five days of determining that the Tentative Parcel Map or Tentative Map application is deemed complete in compliance with Section 15-3305, Application Filing and Completeness Review.

C. **Affected Agencies.** The Director shall refer Tentative Parcel Map and Tentative Map applications for review and comment to each of the following public service providers:

1. **Caltrans.** The California Department of Transportation shall be referred any map located within an area shown on a territorial map filed with the City in compliance with the Map Act (Section 66455);

2. **Other Cities and Local Agencies.** Other cities and other local agencies shall be referred any Map that is located within the area shown on a territorial map filed with the City in compliance with the Map Act (Section 66453); and

3. **Others.** Other agencies (such as municipal service providers, city departments, and school districts), departments, groups, or individuals that the Director determines should review the project.

D. **Subdivision Review Committee (SRC).** Tentative Maps shall be reviewed by the SRC in accordance with Section 15-3304, Pre-Application Consultation. The SRC shall advise the Director pursuant to Section 15-3105-B.5.b; and, based on the findings in Section 15-3305, Application Filing and Completeness Review.

E. **Presumption.** Along with the subdivision application referral, the Department shall include notification that if no written response to the referral is received within 15 days of receiving a copy of the proposed project, per the Map Act (Section 66453(c)), the City shall presume that no recommendations or comments are forthcoming.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2018-66, § 57, eff. 1-18-19).

SEC. 15-3308. DECISION.

A. **Tentative Parcel Map.**

1. **Review Authority.** The Director is the Review Authority for Tentative Parcel Maps and map exceptions identified in the Map Act (Section 66426).

2. **Decision.** The Director shall approve, conditionally approve, or disapprove a Tentative Parcel Map. The Director shall:

   a. Consider the recommendations of any agency comments on the map, and any testimony;

   b. Consider comments received from the SRC;

   c. Review and evaluate each Tentative Parcel Map as to its compliance and consistency with applicable provisions of this Development Code, the Municipal Code, the General Plan, any operative plan, the City's standard specifications and plans, and the Map Act;

   d. Consider any environmental assessment, where applicable;

   e. Approve or conditionally approve a Tentative Parcel Map only after all findings required by Section 15-3309, Required Findings, are made; and

   f. Impose conditions of approval in compliance with Section 15-3311, Conditions of Approval.

3. **Timing/Action.** In accordance with the Map Act (Section 66452.1), the Director shall take action within 50 days after:

   a. The Tentative Parcel Map application has been deemed complete; and

   b. The 50-day time period shall commence after the adoption and/or certification of applicable environmental document consistent with Division 13 (commencing with Section 21000) of the Public Resources Code.

4. **Planning Commission Referral.** Alternatively, the Director, at their discretion and for good cause, may refer a Tentative Parcel Map to the Commission for consideration. The Commission shall make the findings for approval per Section 15-3309, Required Findings. The Director shall provide public notice per Section 15-3308-B.4, Notice of Hearing.

B. **Tentative Map.**

1. **Review Authority.** The Planning Commission is the Review Authority for Tentative Maps.

2. **Director.** The Director shall prepare a staff report to the Commission describing the conclusions of the evaluations of the map, and recommending that the Commission approve, conditionally approve, or disapprove the Tentative Map.
3. **Timing/Action.** In accordance with the Map Act (Section 66452.1), a public hearing on a Tentative Map shall be scheduled, and action shall be taken, within 50 days after:
   a. The Tentative Map application has been deemed complete; and
   b. The 50-day time period shall commence after the adoption and/or certification of applicable environmental document consistent with Division 13 (commencing with Section 21000) of the Public Resources Code.
4. **Notice of Hearing.** Public hearings for maps shall be noticed per the following:
   a. **Publication.** Notice shall be given by publication once in a newspaper of general circulation publication and circulated in the City at least 10 days prior to the hearing. The notice shall be at least one-eighth page in size; and
   b. **Public Notice.** Refer to Section 15-5007, Public Notice.
5. **Distribution of Staff Report.** In compliance with the Map Act (Section 66452.3) the staff report shall be made available at least three days before any hearing or action by the Review Authority.
6. **Planning Commission.** The Planning Commission shall:
   a. Consider the recommendations of the Director, any agency comments, and any public comment, including written and verbal testimony;
   b. Review and evaluate each Tentative Map as to its compliance and consistency with applicable provisions of this Development Code, the Municipal Code, the General Plan, any operative plan, or Concept Plan, and the Map Act;
   c. Review and make a determination on the environmental document, and any public comment, including written and verbal testimony received;
   d. Approve or conditionally approve a Tentative Map only after the Commission has first made all findings required by Section 15-3309, Required Findings; and
   e. Impose conditions of approval in compliance with Section 15-3311, Conditions of Approval.
7. **City Council.** Shall consider appeals of the Commission's action per Section 15-3314, Appeals, and pursuant to the Map Act (Section 66452.5).

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3309. REQUIRED FINDINGS.

A. **Findings.** The Review Authority may approve or conditionally approve a Tentative Parcel Map or Tentative Map if it makes all of the following findings:

1. **Consistency.** The proposed subdivision, together with the provisions for its design and improvement, is consistent with the General Plan, any applicable operative plan, adopted policies or guidelines, and the Municipal Code.

2. **Passive and Natural Heating and Cooling.** A subdivision for which a Tentative Map is required shall provide pursuant to the Map Act (Section 66473.1), to the extent feasible, for future passive or natural heating or cooling opportunities in the subdivision. Examples of passive or natural heating opportunities in subdivision design include:

    a. Design of lot size and configuration to permit orientation of a structure in an east-west alignment for southern exposure and to take advantage of shade or prevailing breezes. Consideration shall be given to local climate, to contour, to configuration of the parcel to be divided, and to other design and improvement requirements, and such provision shall not result in reducing allowable densities or the percentage of a lot which may be occupied by a building or structure.

    b. The requirements of this section do not apply to condominium projects that consist of the subdivision of airspace in an existing building when no new structures are added.

    c. For the purposes of this section, "feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

3. **Availability of Water.** Water will be available and sufficient to serve a proposed subdivision with more than 500 dwelling units in accordance with the Map Act (Section 66473.7).

4. **Infrastructure Capacity.** There exists sufficient infrastructure capacity for water, runoff, storm water, wastewater, and solid waste systems to serve the proposed subdivision. In cases where existing infrastructure is found to be deficient, plans shall show how sufficient capacity will be provided.

5. **Compliance with Floodplain Regulations.** The proposed subdivision is compliant with the City of Fresno Floodplain Management Ordinance and the State of California Code of Regulations Title 23, as well as any other applicable State or federal law.

B. **Supplemental Findings.** In addition to the findings required for approval of a Tentative Map or Tentative Parcel Map by Subsection A above, the Review Authority shall not approve a Tentative Parcel Map or Tentative Map unless it can also make the following findings, when they are applicable to the specific subdivision proposal.

1. **Construction of Improvements.** It is in the interest of public health and safety, and it is necessary as a prerequisite to the orderly development of the surrounding area, to require the construction of improvements within a specified time after recordation of a Parcel Map of four or fewer parcels where improvements are required.

2. **Condominiums.** Any applicable findings required by Section 15-3913, Findings, for Condominium Conversions.

3. **Dedications or Exactions.** Any applicable findings required by Article 37, Dedications and Reservations, if dedications or exactions are required.

4. **Waiver of Parcel Map.** The findings required by Section 15-3503, Waiver of Parcel Map, if waiver of a Parcel Map has been requested with the Tentative Map application.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3310. GROUNDS FOR DENIAL.

In accordance with the Map Act (Section 66474), the Review Authority shall deny approval of a Tentative Map and/or Tentative Parcel Map if it makes any of the following findings:

A. The proposed map, including design and improvements, is not consistent with the General Plan, any applicable operative plan, adopted policies/guidelines, or any applicable provision of this Code.

B. The design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat unless an environmental impact report was prepared for the project and a finding has been made pursuant to Section 21081 (3)(a) of the Public Resources Code that specific economic, social, or other considerations make infeasible the mitigation measures or project alternatives that the environmental impact report identified.

C. The site is not physically suitable for the type of development proposed.

D. The site is not physically suitable for the proposed density of development.

E. The design of the subdivision or the type of improvements are likely to cause serious public health problems.

F. The design of the subdivision or the type of improvements will conflict with easements, acquired by the public at large, for access through or use of, property within the proposed subdivision. In this connection, the City may approve a map if it finds that alternate easements, for access or for use, will be provided, and that these will be substantially equivalent to ones previously acquired by the public. This subsection shall apply only to easements of record or to easements established by judgment of a court of competent jurisdiction and no authority is hereby granted to a legislative body to determine that the public at large has acquired easements for access through or use of property within the proposed subdivision.

G. The site is subject to a contract under the Williamson Act and the resulting parcels following subdivision would be too small to sustain agricultural use and the land meets all the requirements of the Map Act (Section 66474.4).

H. The subdivision is located in a State responsibility area or very high fire hazard zone as defined in Section 51177 of the Government Code and the Review Authority is unable to make the findings required by the Map Act (Section 66474.02).

I. The subdivision is located within a flood zone pursuant and design of the subdivision would not provide for compliance with State and federal floodplain regulations (Section 66474.5).

J. The waste discharge into the City sewer system from the proposed subdivision would add to, or result in, violations of requirements imposed by the California Regional Water Quality Control Board (Section 66474.6).

K. **Exceptions.** To the extent permitted by State law, the Review Authority may make exceptions to the standards set forth in this section provided that it makes the following findings based on information in the record:

1. That the strict application of any such standard would result in practical difficulties or unnecessary hardships inconsistent with the general purpose and intent of this section;

2. That there are exceptional circumstances or conditions applicable to the property involved or to the intended use or development of the property being re-subdivided; and

3. That the granting of the exception will not be materially detrimental to the public welfare nor injurious to the property or improvements in the immediate vicinity.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3311. CONDITIONS OF APPROVAL.

In approving an application for a Tentative Map and/or Tentative Parcel Map, the Review Authority may impose any conditions necessary to make the findings required in Section 15-3309, Required Findings, and to meet the requirements of this Ordinance. Along with the approval of a Tentative Parcel Map or Tentative Map, the adoption of conditions of approval shall occur in compliance with this section, provided that all conditions shall be consistent with the requirements of the Map Act.

A. **Authority and Limitations.** The Review Authority may modify or delete any recommended conditions of approval, except conditions required by City ordinance or by the City Engineer related to public health and safety or to standards approved by the City Engineer.

B. **Indemnification of the City.** Whether or not such a condition is explicitly listed as a condition of approval, every approved Tentative Map and Tentative Parcel Map shall be deemed to include a condition requiring the subdivider to defend, indemnify, and hold harmless the City and its agents, officers, and employees from any claim,

action, or proceeding against the City or its agents, officers, or employees to attach, set aside, void, or annul an approval of the Director, Commission, or Council concerning a subdivision per the Map Act (Section 66499.37).

C. **Mandatory Conditions.** The Review Authority shall adopt conditions of approval that:

1. Require that parcels, easements or rights-of-way be provided for streets, water supply and distribution systems, sewage disposal systems, storm drainage facilities, solid waste disposal, and public utilities providing electric, gas, and communications services, as may be required to properly serve the subdivision. Easements for public utilities shall be limited to those needed to provide service to present and future development;
2. Mitigate or eliminate environmental impacts to the extent feasible as identified through the environmental review process, except where a statement of overriding consideration has been adopted in compliance with CEQA;
3. Carry out the specific requirements of Article 38, Improvements and Security.
4. Secure compliance with the requirements of this Development Code, the General Plan and any applicable operative plans;
5. Require public access through the subdivision to public waterways, rivers, streams, shorelines, lakes, and reservoirs, and the dedication of public easements along the banks of rivers and streams, in compliance with the Map Act (Section 66478.1); and
6. Require the waiver of direct access rights to any existing or proposed streets in compliance with the provisions of the Development Code, General Plan, operative plan, and/or as required by the Director pursuant to the Map Act (Section 66476).
7. Ensure long-term maintenance of adequate clean water resources.

D. **Optional Conditions.** The Review Authority may also include as conditions of approval:

1. Any fees or charges related to the transportation impacts;
2. Dedications of land required to satisfy all or part of the required fee or for transportation improvements such as bicycle paths and transit facilities;
3. The reservation or dedication of sites for public facilities, including fire stations, parks, libraries, and other public uses in compliance with the Map Act (Chapter 4, Article 3; commencing with Section 66475);
4. Time limits or phasing schedules for the completion of conditions of approval, when deemed appropriate;
5. Any other conditions deemed necessary by the Review Authority to:
   a. Promote orderly growth;

b. Achieve compatibility between the proposed subdivision, its immediate surroundings, and the community;

c. Achieve consistency with City planning policies, design guidelines, ordinances or State law;

d. Ensure that the open space meets the needs of future residents and that it is properly located and accessible;

e. Ensure safe routes to schools, trails, connectivity to surrounding streets, bus stops, etc.; or

f. Require the formation of a maintenance entity to maintain those improvements included in Government Code Section 22500, also known as the Landscaping and Lighting Act of 1972.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3312. AUTOMATIC APPROVAL IF NO ACTION.

If no action is taken by the Director, Commission, or Council within the specified time limits, the map shall be deemed to be approved by the Commission if it complies with other applicable provisions of the Map Act, this Subdivision Ordinance, other City ordinances and the General Plan pursuant to the Map Act (Section 66452.4). The appeal period to the Council shall begin on the date of such certification.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3313. APPLICANT NOTIFICATION.

The Planning Division shall notify the applicant in writing of the Review Authority's decision. If the Tentative Map is denied, the Director shall notify the subdivider of the denial together with a statement of the reasons for such denial. If appealed, the Director shall notify the applicant of the appeal hearing.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3314. APPEALS.

A. **Decision Final Unless Appealed.** The decision of the Review Authority shall be considered final unless an appeal is filed.

B. **Time of Appeals.** Appeals shall be filed within 10 days after the action of the Review Authority (Map Act Section 66452.5).

C. **Right to Appeal.** Any interested person may file an appeal of the Review Authority's action per the Map Act (Sections 66473.5, 66474, 66474.1 and 66474.6) to the Council.

D. **Form of Appeal.** The written appeal form shall include the appellant's interest in or relationship to the subject property, the action or decision appealed, and specific reasons why the appellant believes the action or decision appealed from should not be upheld.

E. **Hearing Date.** Shall be held within 45 days after the notice of filing the appeal, or as amended per the Map Act (Section 66452.5).

F. **Notice of Hearing.** Notice shall be given per Section 15-5007, Public Notice, for appeal hearings for either Tentative Maps or Tentative Parcel Maps.

G. **Withdrawal of Appeal.** Refer to Section 15-5017, Appeals.
(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2024-002, § 1, eff. 2-18-24).

Sec. 15-3315. EFFECTIVE DATE OF APPROVAL.

The approval of a Tentative Map or Tentative Parcel Map shall become effective for the purposes of filing a Parcel or Final Map, including compliance with conditions of approval, on the 11th day following the date the public/final decision is rendered by the applicable Review Authority, provided that an appeal of the Review Authority's decision has not been filed in compliance with Section 15-5017, Appeals.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3316. TIME LIMITS AND EXPIRATION OF APPROVED MAPS.

A. **Time Limits.** An approved Tentative Map or Tentative Parcel Map is valid for 24 months after its effective date, except as otherwise provided by the Map Act (Sections 66452.6, 66452.11, 66452.13, 66452.21, 66452.22, 66452.23, 66452.24 and/or 66463.5).

B. **Expiration.** At the end of the time period per Subsection A of this section, the approval shall expire and become void unless:

1. A signed Parcel or Final Map has been timely filed with the City. The City may process, approve, and record the map if it is prepared in accordance with the approved tentative map, subject to the limitations and requirement of the Map Act.
2. An extension of time has been granted in compliance with this section.

C. **Extensions of Time.**

1. When a subdivider has not completed all Tentative Map or Tentative Parcel Map conditions of approval and filed a Parcel or Final Map with the City within the time limits established by Subsection A of this section, an extension of the expiration date may be granted in compliance with this section.
2. The subdivider may request an extension of the map by filing a written application with the Director at least 60 days, but no more than six months prior, to the expiration of the approval per the Map Act (Sections 66452.6, 66452.11, 66452.13, 66452.21, 66452.22, 66452.23, 66452.24, and/or 66463.5).The granting of extension to the initial time limit may occur only after the Review Authority finds that:
    a. There have been no changes to the provisions of the General Plan or any operative plan, or development plan that would cause the map to no longer be in conformity with the General Plan, operative plan, or development plan;

b. There have been no changes to the provisions of this Development Code that would cause the map to no longer be in conformity with this Development Code;

c. There have been no changes in the character of the site or its surroundings that affect how the policies of the General Plan or other standards of this Development Code apply to the project; and

d. There have been no changes to the capacities of community resources, including roads, schools, sewage treatment or disposal facilities, or water supply, so that there is no longer sufficient remaining capacity to serve the project.

D. **Amendments to Conditions for Map Extensions.** The City may impose conditions on map extensions in accordance with Article 43, Corrections and Amendments of Maps.

E. **Amendments to Approved Tentative Maps.** The City may amend an approved Tentative Map in accordance with Article 43, Corrections and Amendments of Maps. However, under no circumstances shall an amendment be approved for an expired map.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3317. TERMINATION.

The expiration of an approved or conditionally approved Tentative Parcel Map or Tentative Map shall terminate all proceedings.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3318. COMPLIANCE WITH CONDITIONS, IMPROVEMENT PLANS.

After approval of a Tentative Map or Tentative Parcel Map and the filing of a Final or Parcel Map in compliance with this article, the developer shall proceed to fulfill the conditions of approval within the time limits specified by the conditions and the expiration of the map. Where applicable, the developer shall prepare, file, and receive approval of improvement plans in compliance with Article 38, Improvements and Security before constructing any required improvements.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3319. PARCEL OR FINAL MAP PREPARATION, FILING AND RECORDATION.

Final Maps and Parcel Maps shall be prepared, filed, processed, and recorded in compliance with Article 35, Parcel Maps, and Article 36, Final Maps, to complete the subdivision, unless a Parcel Map has been waived in compliance with Section 15-3503, Waiver of a Parcel Map.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3320. APPROVED MAP TO RUN WITH THE LAND.

A Tentative Map or Tentative Parcel Map that is valid and in effect, and was granted in compliance with the provisions of this Development Code, shall run with the land and continue to be valid if there is any change in ownership of the land.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3321. SUBSEQUENT TENTATIVE MAPS.

A subdivider may file as many maps as desired for the same property. The most recent map approval shall supersede previous map approvals. Previous map approvals shall become null and void if superseded.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 34 VESTING TENTATIVE MAPS

Sec. 15-3401. Vesting Tentative Maps.
Sec. 15-3402. Findings for Approval.
Sec. 15-3403. Expiration of Vesting Tentative Map.
Sec. 15-3404. Changes to Approved Map or Conditions.
Sec. 15-3405. Development Rights of Vested Maps.

Sec. 15-3401. VESTING TENTATIVE MAPS.

A. **General Provisions.**

1. Whenever this Development Code requires that a Tentative Map or Tentative Parcel Map be filed, a Vesting Tentative Map or Vesting Tentative Parcel Map may instead be filed, provided that the Vesting Tentative Map or Vesting Tentative Parcel Map is prepared, filed, and processed in compliance with this article and the Map Act (Chapter 4.5; commencing with Section 66498.1).

2. A Vesting Tentative Map or Vesting Tentative Parcel Map may be filed for residential, commercial, or industrial developments.

3. If a subdivider does not seek the rights conferred by a Vesting Tentative Map, the filing of a Vesting Tentative Map shall not be a prerequisite to any approval for any proposed subdivision, permit for construction, or work preparatory to construction.

B. **Filing and Processing.** A Vesting Tentative Map or Vesting Tentative Parcel Map shall be filed in the same form, have the same contents and accompanying data and reports and, shall be processed in the same manner identified in this chapter as a Tentative Map, except as hereinafter provided:

1. **Application Content.** The Vesting Tentative Map or Vesting Tentative Parcel Map shall include the following information in addition to that required by Section 15-3302, Form and Contents.

2. **Title.** At the time a Vesting Tentative Map is filed it shall have printed conspicuously on its face the words "Vesting Tentative Map" while a Parcel Map shall have "Vesting Tentative Parcel Map" per the Map Act (Section 66452).

(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3402. FINDINGS FOR APPROVAL.

The Review Authority shall determine that the intended development of the subdivision is consistent with the zoning regulations applicable to the property at the time of filing, in addition to all other findings required for Tentative Map or Tentative Parcel Map approval by Section 15-3309, Required Findings.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3403. EXPIRATION OF VESTING TENTATIVE MAP.

The development rights vested by this section shall expire if a Parcel Map or Final Map is not approved before the expiration of the Vesting Tentative Map or Vesting Tentative Parcel Map in compliance with Section 15-3316, Time Limits and Expiration of Approved Maps. If the Parcel or Final Map is approved and recorded, the development rights shall be vested for:

A. An initial time period of 24 months from the date of recordation of the parcel or Final Map. Where several Final Maps are recorded on various phases of a project covered by a single Vesting Tentative Map, this initial time period shall begin for each phase when the Final Map for that phase is recorded.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3404. CHANGES TO APPROVED MAP OR CONDITIONS.

The developer may apply for an application to amend the Vesting Tentative Map or Vesting Tentative Parcel Map or conditions of approval at any time before the expiration of the Vesting Tentative Map or Vesting Tentative Parcel Map. An amendment request shall be considered and processed through the same procedures as a new application, in compliance with Article 43, Corrections and Amendments of Maps and in compliance with the Map Act (Section 66498.2).

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3405. DEVELOPMENT RIGHTS OF VESTED MAPS.

A. The approval of a Vesting Tentative Map or Vesting Tentative Parcel Map shall confer a vested right to proceed with development of the subdivided parcels in substantial compliance with the ordinances, policies, and standards as identified in the Map Act (Section 66498.1).

B. Fees charged for building or land use permits, filed after the approval of a Vesting Tentative Map or Vesting Tentative Parcel Map shall be as required at the time the subsequent permit applications are filed. Building or land use permit application contents shall comply with City requirements in effect at the time the subsequent application is filed.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 35 PARCEL MAPS

Sec. 15-3501. Applicability.
Sec. 15-3502. Timing of Filing a Parcel Map.
Sec. 15-3503. Waiver of a Parcel Map.
Sec. 15-3504. Preparation.
Sec. 15-3505. Form and Content.
Sec. 15-3506. Filing with the City Engineer.
Sec. 15-3507. Processing of Parcel Maps.
Sec. 15-3508. Recording a Final Map.

SEC. 15-3501. APPLICABILITY.

A Parcel Map shall be prepared, filed, and processed as set forth in this article for all divisions of land that require a Tentative Parcel Map and Parcel Map pursuant to Article 32, Required Maps for a subdivision of four or fewer parcels, except when the requirement for a Parcel Map is waived in compliance with this article.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3502. TIMING OF FILING A PARCEL MAP.

Upon the approval of the Tentative Parcel Map, the subdivider may file a Parcel Map which substantially conforms to the approved Tentative Parcel Map and which is in the form required by the Map Act.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3503. WAIVER OF A PARCEL MAP.

A subdivider may request the waiver of the requirement for a Parcel Map, and the waiver may be granted, in compliance with the Map Act (Section 66428), provided that the Director shall first find that the proposed subdivision complies with all applicable requirements of this Development Code and the Map Act as to area, improvement and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection, and all other applicable requirements of this Development Code and the Map Act.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3504. PREPARATION.

A Parcel Map shall be prepared by or under the direction of a person authorized to do so under the Map Act. Parcel Map submittals shall include all information and other materials as required by City policies, adopted standards, and the Map Act.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3505. FORM AND CONTENT.

A. Parcel map submittals shall include information and other material prepared as required by the City Engineer, City policies, adopted standards, and the Map Act. This includes, but is not limited to, sheet sizes, scope of area depicted on the map, scale of the

map, border size, affidavits, certificates, mathematical information, and data necessary to locate monuments, interior and exterior boundary lines, titles, title sheet, and other information deemed necessary by the City Engineer.

B. The Parcel Map shall be based upon a field survey.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3506. FILING WITH THE CITY ENGINEER.

After receipt of the action of the review authority approving or conditionally approving the Tentative Parcel Map, the subdivider may cause the real property included within the map, or any part thereof, to be surveyed and a Parcel Map prepared in compliance with the approved or conditionally approved Tentative Parcel Map application. All documents necessary for adequate review of the Parcel Map shall be submitted to the City Engineer. The subdivider shall submit the following documents:

A. **Dedications.** All dedications or offers of dedication shall have been accomplished or shall be made by notation and a certificate on the map. Dedications or offers of dedication made on the map may be accepted, accepted subject to improvement, or rejected at the time the map is approved. The City Clerk shall certify the City Engineer's action with regard to such dedications or offers of dedication.

B. **Improvements.** All required improvements shall have been made, or an agreement providing for the construction of such improvements shall have been entered into with the City.

C. **Additional Documents.** The subdivider shall file the following documents with the City Engineer:

1. A statement from the County Officer computing redemptions, that according to the records of their office there are no liens for unpaid municipal taxes or special assessments collected as taxes, except taxes or special assessments not yet payable, against said subdivision or any part thereof, and as to the latter, an estimate of taxes and assessments which are a lien, but not yet payable.

2. In the event of any proposed dedication for public use, a certificate of title, a subdivision guarantee, or a dedication letter in the name of the owner of the land, issued to or for the benefit and protection of the City by a title company authorized by the laws of the State to write the same, showing all parties whose consent is necessary to pass clear title to the land being subdivided, together with the nature of their interests therein except where the land contained in such subdivision is registered under the Land Registration Act (i.e. Torrens Act) in which latter case a certified copy of the certificate of title shall be furnished.

3. Whenever property is subdivided with the intention that it shall have a use other than designated on the then existing zoning map, such use shall be stated, and the building setback lines and other regulations affecting such other use shall be shown and noted on the plot.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3507. PROCESSING OF PARCEL MAPS.

A. **Documents Required for Review.** The document package submitted for review shall include a copy of the Parcel Map, survey closure calculations, and any other documents required by the City Engineer and/or identified in the Tentative Parcel Map conditions of approval.

B. **Review of Parcel Map for Condition and Government Code Compliance.** The City Engineer shall be responsible for seeing that the conditions of approval and applicable provisions of the Government Code have been fulfilled. The City Engineer shall transmit maps to and request written reports from the City departments which have submitted conditions on the approved Tentative Parcel Map.

C. **Examination by City Engineer.** The City Engineer shall examine it as to sufficiency of affidavits and acknowledgements, correctness of surveying data, mathematical data and computations, and other matters which may require checking to ensure compliance with the provisions of the Map Act, this Division, and applicable City standards. If the Parcel Map does not conform as required above, the subdivider shall be notified, and given the opportunity to make necessary changes and resubmit the Parcel Map, together with all required data, if the Tentative Parcel Map has not expired.

D. **Filing Official Copy of Parcel Map.** If the Parcel Map and accompanying documents have been found satisfactory by the Director, the subdivider shall cause the Parcel Map to be officially filed with the City Engineer at least 20 days before the expiration of the approved or conditionally approved Tentative Parcel Map or any approved extension of time granted. The Parcel Map shall not be officially filed until the engineer or surveyor has received notification from the City Engineer that all provisions of the Tentative Parcel Map approval, the Map Act, this Development Code, the Municipal Code, and applicable City standards have been complied with. The filing of the official copy of the Parcel Map with the City Engineer shall constitute the timely filing of the Parcel Map.

E. **Improvement Agreements and Security Requirements.** The filing and recording of a Parcel Map shall be subject to the requirements of Section 15-3806, Improvement Agreements and Security.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3508. RECORDING A FINAL MAP.

After determining that the Parcel Map is technically correct and in full compliance with this article, the City Engineer may approve the Parcel Map in compliance with the Map Act (Section 66463(b)) or, if deemed appropriate, forward it to the Council for approval or

disapproval. After approval, the Parcel Map shall be transmitted by the City Engineer to the office of the County Recorder for recordation in compliance with the Map Act (Section 66450).

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 36 FINAL MAPS

Sec. 15-3601. Final Maps.
Sec. 15-3602. Timing of Filing of a Final Map.
Sec. 15-3603. Submittal by Units.
Sec. 15-3604. Preparation.
Sec. 15-3605. Form and Content.
Sec. 15-3606. Filing with the City Engineer.
Sec. 15-3607. Processing of the Final Map.
Sec. 15-3608. Action on Final Maps.
Sec. 15-3609. Recording of Final Map.

SEC. 15-3601. FINAL MAPS.

A Final Map shall be filed and approved to complete the subdivision process for a subdivision of five or more parcels.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3602. TIMING OF FILING OF A FINAL MAP.

Upon the approval of the Tentative Map, the subdivider may file a Final Map which substantially conforms to the approved Tentative Map and which is in the form required by the Map Act.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3603. SUBMITTAL BY UNITS.

A. Multiple Final Maps relating to an approved or conditionally approved Tentative Map may be filed prior to the expiration of the Tentative Map if the subdivider, at the time the Tentative Map is filed, informs the City Engineer in writing of the subdivider's intention to file multiple Final Maps on the Tentative Map, or after the filing of the Tentative Map the subdivider and City Engineer concur in the filing of multiple Final Maps.

B. The Commission or Council, acting on an appeal, shall approve the sequence of map approvals. The filing of a Final Map on a portion of an approved or conditionally approved Tentative Map shall not invalidate any part of the Tentative Map. Each Final Map that constitutes a part, or unit, or the approved or conditionally approved Tentative Map shall have a separate subdivision number. The public improvement agreement executed by the subdivider shall provide for the construction of improvements as required to constitute a logical and orderly development of the whole subdivision.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3604. PREPARATION.

A Final Map shall be prepared by or under the direction of a person authorized to do so under the Map Act. Final Map submittal shall include all information and other materials as required by City policies, adopted standards, and the Map Act.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3605. FORM AND CONTENT.

A. Final map submittals shall include information and other material prepared as required by the City Engineer, City policies, adopted standards, and the Map Act. This includes, but is not limited to, sheet sizes, scope of area depicted on the map, scale of the map, border size, affidavits, certificates, mathematical information and data necessary to locate monuments, interior and exterior boundary lines, titles, title sheet, and other information deemed necessary by the City Engineer.

B. The Final Map shall be based upon a field survey.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3606. FILING WITH THE CITY ENGINEER.

After receipt of the action of the Review Authority approving or conditionally approving the Tentative Map, the subdivider may cause the real property included within the map, or any part thereof, to be surveyed and a Final Map prepared in compliance with the approved or conditionally approved Tentative Map application. All documents necessary for adequate review of the Final Map shall be submitted to the City Engineer. Documents required for review include the following:

A. **Dedications.** All dedications or offers of dedication shall have been accomplished or shall be made by notation and a certificate on the map. Dedications or offers of dedication made on the map may be accepted, accepted subject to improvement, or rejected at the time the map is approved. The City Clerk shall certify the City Engineer's action with regard to such dedications or offers of dedication.

B. **Improvements.** All required improvements shall have been made, or an agreement providing for the construction of such improvements shall have been entered into with the City.

C. **Additional Documents.** The subdivider shall file the following documents with the City Engineer:

1. A statement from the County Officer computing redemptions, that according to the records of their office there are no liens for unpaid municipal taxes or special assessments collected as taxes, except taxes or special assessments not yet payable, against said subdivision or any part thereof, and as to the latter, an estimate of taxes and assessments which are a lien, but not yet payable.

2. In the event of any proposed dedication for public use, a certificate of title, a subdivision guarantee, or a dedication letter in the name of the owner of the land, issued to or for the benefit and protection of the City by a title company authorized by the laws of the State to write the same, showing all parties whose consent is necessary to pass clear title to the land being subdivided, together with the nature of their interests therein except where the land contained in

such subdivision is registered under the Land Registration Act (i.e. Torrens Act) in which latter case a certified copy of the certificate of title shall be furnished.

3. Whenever property is subdivided with the intention that it shall have a use other than designated on the then existing zoning map, such use shall be stated, and the building setback lines and other regulations affecting such other use shall be shown and noted on the plot.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3607. PROCESSING OF THE FINAL MAP.

A. **Review of Final Map.** The City Engineer shall be the primary coordinator in seeing that conditions of approval of the Tentative Map have been fulfilled.

B. **Review of Final Map for Condition and Government Code Compliance.** The City Engineer shall be responsible for seeing that the conditions of approval and applicable provisions of the Government Code have been fulfilled. The City Engineer shall transmit maps to and request written reports from the City departments which have submitted conditions on the approved Tentative Map.

C. **Examination by the City Engineer.** Upon receipt of the Final Map, the City Engineer shall examine it as to sufficiency of affidavits and acknowledgements, correctness of survey data, mathematical data and computations, and other matters which may require checking to ensure compliance with the provisions of the Map Act, this Division, and applicable City standards. If the Final Map is found to be in substantial compliance with the Tentative Map and is to form, the matters shown on the map are sufficient, and the City Engineer is satisfied that all of the conditions of approval have been met, the City Engineer shall endorse approval of the Final Map.

D. **Filing of Official Copy of Final Map.** If the Final Map and the accompanying documents have been found satisfactory by the City Engineer, the subdivider shall cause the Final Map to be officially filed with the City Engineer at least 20 days before the expiration of the approved or conditionally approved Tentative Map or any approved extension of time granted. The Final Map shall not be officially filed until the engineer or surveyor has received notification from the City Engineer that all provisions of the Tentative Map approval, the Map Act, this Development Code, the Municipal Code, and applicable City standards have been complied with. The filing of the official copy of the Final Map with the City Engineer shall constitute the timely filing of the Final Map.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3608. ACTION ON FINAL MAPS.

The City Engineer shall submit the final map to the Council per the Map Act (Section 66474.1) for action as follows:

A. **Referral to the Council.** Upon receipt of the Final Map, the City Engineer shall check it as to correctness of surveying data, plans, profiles, and specifications of

improvements, certificates of dedication, acceptance of dedication, and acknowledgments, and such other matters as require checking to ensure compliance with the provisions of law and of this article.

B. **Criteria for Approval.** If the map conforms to all of the requirements of the Map Act and this Code, the Council shall approve the map. If the map does not conform, the Council shall disapprove the map.

C. **Timing of Council's Review.** The Council shall take action not more than 10 days after the filing of the Final Map, or at the next available hearing date.

D. **City Engineer's Certificate.** Following approval by the Council, the City Engineer shall execute the City Engineer's certificate.

E. **Map with Dedications.** If a dedication or offer of dedication is required on the Final Map, the Council shall accept, accept subject to improvements, or reject any or all offers of dedication, at the same time as it takes action to approve the Final Map. If the Council rejects the offer of dedication, the offer shall remain open and may be accepted by the Council at a later date in compliance with the Map Act (Section 66477.2). Any termination of an offer of dedication shall be processed in compliance with the Map Act (Section 66477.2) and the street vacation procedures in the Streets and Highways Code (Sections 8300 et seq.).

F. **Improvement Agreements and Security Requirements.** If improvements required by this Development Code, conditions of approval, or by law have not been completed at the time of approval of the Final Map, the Council shall require the developer to enter into an agreement with the City as specified in the Map Act (Section 66462), and Article 37, Dedications and Reservations, as a condition precedent to the approval of the Final Map.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

SEC. 15-3609. RECORDING OF FINAL MAP.

A. **Transmittal to Recorder.** After approval of the Final Map by the Council, and after the required signatures and seals have been affixed, the City Engineer shall transmit the Final Map to County Recorder for filing, in compliance with Section 15-3609-B, Recordation of Maps.

B. **Recordation of Maps.** At the time of filing of a Parcel or Final Map with the County Recorder, the subdivider shall present to the County Recorder evidence that, at the time of filing the map, the parties consenting to the filing are all parties having vested fee interest in the property being subdivided and are parties required to sign the certificate described in the Map Act (Section 66445(e)).

(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 37 DEDICATIONS AND RESERVATIONS

Sec. 15-3701. Dedications and Reservations.
Sec. 15-3702. Acceptance of Dedications.
Sec. 15-3703. Reservations.

SEC. 15-3701. DEDICATIONS AND RESERVATIONS.

A. **Purpose.** The purpose of this article is to establish the dedications and reservations that may be imposed as a condition for approval of a Tentative Map or a Tentative Parcel Map.

B. **Streets, Alleys, and Other Public Rights-of-Way or Easements.** When required as a condition for approval of a map, the subdivider shall dedicate or make an irrevocable offer of dedication of land within the subdivision that is needed for streets and alleys, including access rights and abutters' rights, drainage, open space, scenic easements, public utility easements, and other public easements according to City standards. In addition, the subdivider shall improve or agree to improve all streets and alleys, including access rights and abutters' rights, drainage, public utility easements and other public easements as follows:

1. **Streets.** The subdivider shall dedicate land for streets according to adopted City standards.

2. **Alleys.** The subdivider shall dedicate land or easements for alleys according to adopted City standards.

C. **Public Utilities and Utility Easements.** Public utilities, including electricity, gas, water, sewer, storm drains, telecommunications services, cable television, and traffic signal detector loops shall be installed as part of the improvements within all subdivisions as provided by this section.

1. **Width.** A minimum of 10 feet, unless a greater distance is required, as determined by the City Engineer.

2. **Overhead Lines.** New overhead utility lines shall not be permitted, while existing overhead lines shall be placed underground, unless otherwise waived and/or deferred by the City Engineer or otherwise provided for in this Ordinance.

    a. **Exceptions.** The undergrounding of existing overhead wires and associated overhead structures used for conveyance of electrical energy at transmission voltages, nominally in excess of 21,000 volts, or major transmission trunk communication lines shall not be required.

3. **Installation.** Lateral connections to all underground utilities, water lines, and sanitary sewers shall be laid to sufficient lengths to avoid the need for disturbing the street improvements when service connections are made.

D. **Bicycle Paths/Trails.** When required as a condition for approval, the subdivider shall dedicate or make an irrevocable offer of dedication of land that is needed to provide bicycle paths/trails for the use, safety, and benefit of the residents of the subdivision.

E. **Pedestrian Paths/Paseos.** When required as a condition for approval, the subdivider shall dedicate or make an irrevocable offer of dedication of land that is needed to provide pedestrian paths/paseos for the use, safety, and benefit of the residents of the subdivision.

F. **Access to Public Resources.** When required as a condition of approval, the subdivider shall dedicate or make an irrevocable offer of land that is needed to provide access to public natural resources and rivers and streams per the Map Act (Sections 66478.3 through 66478.6).

G. **Transit Facilities.** When required as a condition for approval, the subdivider shall dedicate or make an irrevocable offer of dedication of land for local transit facilities such as bus turnouts, benches, shelters, landing pads, and similar items that directly benefit the residents of a subdivision.

H. **Watercourses and Drainage Facilities.** The subdivider shall provide the necessary right-of-way dedication or easements for buffer areas and setbacks for watercourses, streams, and storm drains as required by the City Engineer and the following:

1. Except as may be approved by the Commission, there shall be sufficient right-of-way dedicated to the City to maintain a natural channel, floodplain, or open space as may be shown the General Plan, or operative plan, if applicable, including right-of-way for a trail as may be shown on the City's Trails Master Plan.
2. Drainage facilities shall be installed in accordance with the appropriate Flood Control District and City requirements.
3. Storm drain easements not less than 10 feet in width shall be provided by the subdivider where required for construction and maintenance purposes.

I. **School Site Dedication.** A subdivider may be required to dedicate land necessary to construct an elementary school necessary to ensure adequate public school service to the residences of the subdivision in compliance with the Map Act (Section 66478).

J. **Dedication of Land or Payment of Fees for Park and Recreation Purposes.**

1. **Authority.** This section is enacted pursuant to authority granted by the Map Act (Section 66477, "Quimby Act").
2. **Identifying Open Space.** At the time of submittal of a Tentative Map, the applicant shall clearly depict the location and the amount of open space being proposed.
3. **Requirement.** Each subdivider of land classified by the City for, or otherwise proposed for, residential use shall, as a condition to filing a final subdivision map, dedicate or reserve lands, pay fees in lieu thereof, or a combination of both, for park or recreational purposes. In accordance with the Map Act (Section 66477(b)), land or fees required under this section shall be conveyed or paid directly to the City.

4. **Accepting Land.** The City shall determine if it will accept the proposed land, in fee, for meeting the provisions of this Code.

5. **Suitability.** Each park site proposed for dedication in compliance with this section shall be physically suited for the intended use and shall meet all criteria established by the City.

6. **Limitations.** For limitations and exclusions from this article, refer to the Map Act (Section 66477).

7. **Amount of Land to Be Dedicated.** The amount of land to be dedicated or fees to be paid in lieu thereof shall bear a reasonable relationship to the use of the park and recreation facilities by the future inhabitants of the subdivision (Map Act Section 66477).

8. **Formula for Calculating Amount of Land.** In accordance with the Map Act (Section 66477(a)(2)), the amount of land to be dedicated shall be calculated according to the following formula:

A × B = Land to be dedicated

a. "A" means the park and recreation area required per dwelling unit, based on the type of dwelling units of the proposed subdivision and the park area per 1,000 city residents, which is calculated as follows:

   i. The park area of the city is determined to be three acres per 1,000 people, or .003 acres per person.

   ii. The park and recreation area required per dwelling unit is established as follows:

      (1) **Single-Unit Development.** For dwelling units to be constructed on property zoned RS each unit is assigned 3.11 people. Therefore, A = 3.11 x .003 = 0.00933 acres per unit.

      (2) **Multi-Unit Development.** For dwelling units to be constructed on property zoned other than RS, each unit is assigned 2.53 people. Therefore, A = 2.53 x .003 = 0.00759 acres per unit.

   iii. "B" means the number of dwelling units in the proposed subdivision. For the purpose of this section, the number of dwelling units in the proposed subdivision shall be determined as follows:

      (1) **Single-Unit Development.** The number of dwelling units shall equal the number of parcels indicated on the Final Map.

      (2) **Multi-Unit Development.** The number of dwelling units shall equal the maximum number of dwelling units allowed under that zone.

      (3) **Condominium Developments.** The number of dwelling units shall equal the number of condominium units indicated on the Final Map, or the maximum number of dwelling units allowed under that zone if the Final Map does not indicate the number of units.

9. **In-Lieu Fees.** If fees are paid in lieu of land dedication, such fees shall be equal to the then-current Parkland Dedication In-Lieu Fee.

10. **Credits.**

    a. Per the Map Act (Section 66477(a)(9)), if a subdivider provides park and recreational improvements, the value of the park and recreational improvements, together with any equipment located thereon, shall be a credit against the payment of fees or dedication of land otherwise required by this section.

    b. To be authorized and approved by the City, park and recreational improvements and equipment provided by subdividers pursuant to this section shall be generally consistent with applicable principles and standards for local and neighborhood parks contained in the General Plan, as determined by the City.

    c. **Condominiums.** In accordance with the Map Act (Section 66477(e)), common interest developments such as community apartments, condominiums, and stock cooperatives, shall be eligible to receive a credit not to exceed 25 percent, as determined by the City, against the land required to be dedicated, or the amount of the fee imposed pursuant to this section, for the value of private open space within the development which is usable for active recreational uses. For the purposes of this section, private open space usable for active recreational uses means private open space that is:

        i. At least ¾ of an acre in area with the smallest dimension being at least 100 feet clear, excluding front and street side yards normally required by zoning provisions;

        ii. Owned and maintained by a homeowners' association, available to all residents of the subdivision without restriction, and designated for park and recreational purposes by recorded covenants which run with the land and cannot be defeated or eliminated without consent of the Council;

        iii. Suitable for active park and recreation purposes taking into consideration such factors as shape, topography, access, and improvements proposed; and

        iv. Generally consistent, as determined by the City, with applicable principles and standards for parks contained in the General Plan.

11. **Procedures.**

    a. Prior to approval of a subdivision, the Review Authority shall consider:

        i. The amount of land required for open space purposes;

        ii. That a fee be charged in lieu of land;

        iii. That a combination of land and fee be required; and

        iv. The location of the park land and, where appropriate, the siting and conceptual design of the park facilities appurtenant thereto, to be dedicated or used in lieu of fees.

b. At the time of approval, the Review Authority shall determine whether land, in-lieu fees, or a combination of land and fees shall be dedicated and/or paid by the subdivider.

c. The Review Authority may approve, modify, or disapprove the recommendations of City staff; provided, however, that any modification of the recommendation not previously considered shall first be referred back to City staff for further report and recommendation.

12. Off-Site Dedication. Dedication of land outside of the subdivision may be authorized by the City, by action on the Tentative Map and be credited toward the developer's park land dedication requirement pursuant to this section.

(Added Ord. 2015-39, § 1, eff. 1-9-16; Am. Ord. 2025-024, § 69, eff. 7-27-25).

Sec. 15-3702. ACCEPTANCE OF DEDICATIONS.

A. At the time of approval by the Council, the Council shall accept, accept subject to improvement, or reject dedications and offers of dedications that are made by a statement on the map, and the City Clerk shall certify or state on the map the action taken by the Council.

B. Acceptance of offers of dedication on a Final Map and the transfer of title to the property so accepted shall not be effective until the Final Map is duly recorded under the provisions of the Map Act (Section 66439) and this Subdivision Ordinance.

C. As a condition precedent to the acceptance of any streets or easements, the City Engineer or the Council may require that the subdivider, at subdivider's option, to either improve or agree to improve said streets or easements in accordance with Article 38, Improvements and Security. Upon the execution by the subdivider of such an agreement and the posting of improvement security required by Section 15-3806, Improvement Agreements and Security, the map may be approved as set forth in this section and recorded in the office of the County Recorder.

D. If at the time the Final Map is approved, any streets, paths, alleys, public utility easements, rights-of-way for local transit facilities such as bus turnouts, benches, shelters, landing pads, and similar items, which directly benefit the residents of a subdivision, or storm drainage easements are rejected, subject to Section 771.010 of the Code of Civil Procedure as may be amended, the offer of dedication shall remain open and the Council may by resolution at any later date, and without further action by the subdivider, rescind the action by the City Engineer or Council and accept and open the streets, paths, alleys, public utility easements, rights-of-way for local transit facilities such as bus turnouts, benches, shelters, landing pads, and similar items, which directly benefit the residents of a subdivision, or storm drainage easements for public use, which acceptance shall be recorded in the office of the County Recorder.

E. If a map showing a reversion to acreage of the tract is subsequently filed for approval, any offer of dedication previously rejected shall be deemed to be terminated upon the approval of the map by the Council subject to the reversion to acreage procedures of Article

1, Chapter 6 of the Map Act. If a map showing a resubdivision is subsequently filed for approval, any offer of dedication previously rejected shall be deemed to be terminated upon approval of the map by the City Engineer pursuant to this section. The map showing a reversion to acreage or resubdivision shall contain a notation identifying the offer or offers of dedication terminated by this subsection.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3703. RESERVATIONS.

A. **General.** As a condition of approval of a Tentative Map, the subdivider shall reserve sites, appropriate in area and location, for parks, recreational facilities, fire stations, libraries, water wells, sewer lift stations, etc. according to the standards contained in this section.

B. **Standards for Reservation.** Where a park, recreational facility, fire station, library, or other public use is shown on the General Plan, the subdivider may be required by the City to reserve sites determined by the City to be in accordance with the policies and standards of the Plan and the following:

1. The reserved area must be of such size and shape as to permit the balance of the property to develop in an orderly and efficient manner;
2. The amount of land reserved shall not make development of the remaining land held by the subdivider economically unfeasible; and
3. The reserved area shall conform to the General Plan, and shall be in such multiples of streets and parcels as to permit an efficient division of the reserved area in the event that it is not acquired within the prescribed period.

C. **Procedure.** Pursuant to the Map Act (Section 66480), the public agency for whose benefit an area has been reserved shall, at the time of approval of the final, enter into a binding agreement to acquire the reserved area within two years after the completion and acceptance of all improvements, unless the period of time is extended by mutual agreement.

D. **Payment.** The purchase price shall be the market value of the reserved land at the time of the filing of the Tentative Map, plus the taxes against the reserved land from the date of the reservation and any maintenance costs incurred by the subdivider including interest costs incurred on any loan covering the reserved area.

E. **Termination.** If the public agency for whose benefit an area has been reserved does not enter into a binding agreement, as provided for in the Map Act (Section 66480), the reservation of the area shall automatically terminate.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

ARTICLE 38 IMPROVEMENTS AND SECURITY

Sec. 15-3801. Purpose.
Sec. 15-3802. Improvements Required.
Sec. 15-3803. Submittal and Review of Plans.
Sec. 15-3804. Installation of Improvements.
Sec. 15-3805. Inspection of Improvements.
Sec. 15-3806. Improvement Agreements and Security.
Sec. 15-3807. Form of Security.
Sec. 15-3808. Completion of Improvements.

Sec. 15-3801. PURPOSE.

This Division provides standards for the preparation and review of improvement plans, the installation of improvements, and for security to guarantee installation of the improvements.
(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3802. IMPROVEMENTS REQUIRED.

The subdivider shall construct or cause to be constructed all on-site and off-site improvements required as a condition of approval of any Tentative Map, Parcel Map, or other division of land subject to the provisions of this Subdivision Ordinance or the Map Act according to standards approved by the City.

A. **Preparation and Content.** After the approval of a Tentative Map and before the construction of any improvements, the subdivider shall submit plans to the City as follows:

1. Improvement plans shall be prepared by a California registered professional engineer;
2. Any drawings, specifications, calculations, design reports, and other information required by the City Engineer;
3. Grading, drainage, erosion, and sediment control, and a storm water pollution prevention plan (SWPPP) for the entire subdivision; and
4. The improvement plan/specification checking and construction inspection fees required by the City's Fee Schedule.

B. **Requirements.** All improvements as may be required as conditions of approval of a Tentative Map, Tentative Parcel Map, or City ordinance, together with, but not limited to, the following shall be required of all subdivisions.

1. As a condition of approval of a Tentative Map or Tentative Parcel Map, there may be imposed a requirement that improvements installed by the subdivider for the benefit of the subdivision contain supplemental size, capacity, number or length for the benefit of property not within the subdivision and that those improvements be dedicated to the public, subject to the provisions of the Map Act (Sections 66485-66489).

2. All improvements shall be constructed to meet City standards and specifications.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3803. SUBMITTAL AND REVIEW OF PLANS.

A. **Submittal.** Improvement plans shall be submitted to the City Engineer and other appropriate reviewing agencies for review and approval. Upon the approval of improvement plans, the subdivider shall also submit to the City Engineer a detailed cost estimate of all improvements, based on guidelines provided by the City.

B. **Review and Approval.** Improvement plans shall be reviewed and approved by the applicable agency within the time limits specified by Map Act (Section 66456.2).

C. **Effect of Approval.** The final approval of improvement plans shall be required before approval of a Parcel or Final Map. The approval of improvement plans shall not bind the City to accept the improvements nor waive any defects in the improvements as installed.

(Added Ord. 2015-39, § 1, eff. 1-9-16).

Sec. 15-3804. INSTALLATION OF IMPROVEMENTS.

The subdivider shall improve, or execute a secured written agreement to improve, all streets, highways, and public ways in the subdivision. Improvements shall be installed to permanent line and grade to the satisfaction of the City Engineer in accordance with the Standard Specifications. The minimum improvements which the subdivider shall make or agree to make, prior to acceptance and approval of a Parcel Map or a Final Map, shall consist of:

A. **Grading.** Grading of streets and alleys, installation of street lighting, drainage pipes or lines, and drainage structures.

B. **Curbs, Gutters, and Sidewalks.** Installation of sidewalks, curbs, gutters, and driveway approaches, unless the Standard Specifications for the Street Section do not require the improvements.

C. **Surfacing.** Surfacing of a width and quality suitable for the particular type of street or alley as established in specifications adopted therefore.

D. **Pedestrian Ways.** Pedestrian ways, including paving, landscaping, and fences and walls as may be required.

E. **Bikeways.** Bikeways as may be required.

F. **Trails, Greenways, or Parks.** As may be required.

G. **Water System.** A water system of sufficient design and capacity to furnish an adequate water supply for each lot in the subdivision and for adequate fire protection to the area, as determined by the City Engineer.

H. **Sewer Facilities.** Sanitary sewer facilities and connections for each lot.

I. **Utilities.** Services from all utilities for each lot, made in such manner that will avoid or minimize disturbance of completed street improvements.

J. **Median Island Landscaping.** The installation and planting of median islands, as may be required.

K. **Street Trees.** The planting of street trees in planting strips and landscaping in frontage road islands and in all required landscape areas, as may be required.

L. **Street Signs.** The installation of street signs as may be required.

M. **Street Lighting.** The installation of an underground street lighting system approved by the City Engineer, provided that undergrounding shall not be required for that portion of the system located in a public right-of-way, where the Council makes the following findings:

1. The frontage of any lot upon which the underground street lighting system would be installed is within an area in which there currently exists an adequate overhead serviced street lighting system; and

2. The underground lighting system is not required based upon the nature of the neighborhood, the amount and type of existing development, and the existing or potential traffic in the area.

N. **Irrigation and Drainage Canals.** All irrigation or drainage canals of a capacity which can be accommodated by a pipeline having an inside diameter of 54 inches or less shall be piped and trash racks shall be installed at all newly constructed headwalls or pipe inlets.

O. **Railroads.** If in any subdivision there is a railroad grade crossing, adequate right-of-way, as determined by the City, shall be reserved for grade separation as determined by the City Engineer.

P. **Drainage.** The subdivider either shall pay drainage fees at the time of the approval of the Final Map, or shall agree in the subdivision agreement to pay such sum within 30 days after the approval of the Final Map. Whenever, in the opinion of the City Engineer, the subdivision and improvements will cause a flooding or drainage problem which will not be solved within a reasonable time by the Fresno Metropolitan Flood Control District (FMFCD) or other public agency, the subdivider shall be required to dedicate or allocate sufficient land and provide temporary facilities to alleviate the flooding or drainage problem, and to provide a single payment of funds for the maintenance thereof (by depositing sufficient money with the City to reasonably cover said costs). In addition, said land and facilities shall be required to remain in such use until the water can be handled or disposed of by facilities constructed by the FMFCD or other public agency.

Q. **Exemption from Improvements.** The following described exemptions apply only to improvements and payments required by this section at the time of the division of land described in this article and are not exemptions from any other requirement.
