ARTICLE I. IN GENERAL

Sec. 118-1. Supervision of wastewater reclamation authority, wastewater treatment, pumping station, equalization basin, and flow metering functions.

The Des Moines Metropolitan Wastewater Reclamation Authority wastewater treatment, pumping station, equalization basin and flow metering functions shall be under the supervision of the administrator of the wastewater treatment division of the department of engineering, subject, however, to the provisions of this Code, this chapter and such other ordinances as the council may from time to time adopt. Whenever the term "superintendent" appears in this chapter, it shall mean the same as and be synonymous with the term "administrator of the wastewater treatment division of the department of engineering."

Secs. 118-2—118-30. Reserved.

ARTICLE II. SEWERS AND SEWAGE DISPOSAL*

DIVISION 1. GENERALLY

Secs. 118-31—118-55. Reserved.

DIVISION 2. TOILET FACILITIES

Sec. 118-56. Residential use premises.

Premises on which there is a building used or occupied for residence purposes shall be provided with a sanitary toilet. No cesspools, privy vaults, privies, or outside water closets shall be constructed in the city.
(C42, § 38-1; C54, C62, § 48-2; C75, C79, C85, § 21-2; O.11,568; C91, § 21-2)

Sec. 118-57. Connection to public sewer.

No person shall construct in any part of the city a septic tank or a private sewage disposal system without the written consent of the city engineer. Such consent shall be given only when the city engineer determines the proposed treatment method is acceptable and only when a sewer is unavailable or not accessible. Every private sewage disposal system located on premises or a lot abutting on or contiguous to any public sewer shall within a reasonable time make connections thereto.
(C42, § 36-20; C54, C62, § 48-3; C75, C79, C85, § 21-3; O.11,568; C91, § 21-3)

Sec. 118-58. Detrimental use of privies, wells, vaults or septic tank systems; corrective measures.

(a) Whenever the use and maintenance of any privy, well or vault located upon any premises in the city is found by the environmental health officer to be detrimental or dangerous to life or health, he or she is authorized and empowered to prohibit its use upon any such premises, to order it to be disinfected and filled with fresh earth, to order connection to the public sewer or, where a public sewer is not available or not accessible, to order a septic tank or private sewage disposal system to be constructed upon any such premises and to order the plumbing installed in any building located upon such premises to be connected with and drained into a properly constructed sewer or septic tank or private sewage disposal system.

(b) Whenever the use and maintenance of any septic tank system or private sewage disposal system located upon any premises in the city is found by the environmental health officer to be detrimental or dangerous to life, health, or the environment he or she is authorized and empowered to prohibit its use upon any such premises until such time as the condition caus-

ing the system to be detrimental or dangerous to life, health, or the environment shall have been remedied and to order the detrimental or dangerous effects thereof to be abated by whatever means may be appropriate, including connection to the public sewer where reasonably accessible.
(C42, § 36-21; C54, C62, § 48-4; C75, C79, § 21-4; O.9832, 10,699; C85, § 21-4; O.11,568; C91, § 21-4; O.13,014, 14,485)

Sec. 118-59. Defective private sewer lines or connections.

Whenever it is found that a private sewer line or private sewer connection is broken or in such a state of disrepair as to constitute a nuisance or health hazard, the environmental health officer is authorized and empowered to order its repair or to order other corrective actions as deemed necessary.
(C79, § 21-4.01; O.10,699; C91, § 21-4.01; O.13,014)

Sec. 118-60. Notice to comply.

Whenever the public health or public safety requires that any lands, buildings or premises be connected with the public sewer or otherwise drained in the manner provided in section 118-58 or 118-59 of this division, the environmental health officer shall cause to be served upon the owner, agent or occupant of such premises a notice in writing specifying the time within which the connection must be made, which shall not exceed 30 days from the date of notice.
(C62, § 36-22; C54, C62, § 48-5; C75, C79, § 21-5; O.9832; C91, § 21-5; O.13,014)

Sec. 118-61. Removal and disuse of outside water closet.

The city council, whenever it deems it necessary for the preservation of the public health or welfare that any outside water closet, privy, privy vault or septic tank system be abandoned and removed, where there is a sanitary sewer in the street or alley abutting the property upon which an outside water closet, privy, privy vault or septic tank system is located, may order that it be abandoned and removed and that a sanitary toilet and toilet facilities or sanitary sewer connection be installed and connected with the sanitary sewer.
(C42, § 38-19; C54, C62, § 48-6; C75, C79, § 21-6; O.10,699; C91, § 21-6; O.15,521)

Sec. 118-62. Notice of order to remove outside water closet.

When the city council shall order the removal and disuse of any outside water closet, privy, privy vault or septic tank system and shall order that a sanitary toilet and toilet facilities or sanitary sewer connection be installed on any property and connected with the sanitary sewer or water, notice thereof shall be served upon the owner of such property personally or, if the owner cannot be found, by mailing a copy of the notice by registered mail to his or her last known address and posting a copy thereof on the property affected.
(C42, § 38-20; C54, C62, § 48-7; C75, C79, § 21-7; O.10,699; C91, § 21-7; O.15,521)

Sec. 118-63. Condemnation and penalty for failure to comply with order to remove outside water closet.

If the order referred to in section 118-61 of this division is not complied with within 30 days from the service of notice thereof, the city council may order the property condemned for human habitation, and any person thereafter using it or authorizing its use for human habitation, until such time as the order is complied with, shall be guilty of a misdemeanor, punishable by fine as provided in section 1-15 of this Code or shall be guilty of a municipal infraction punishable by a civil penalty as provided by section 1-15 of this Code.
(C42, § 38-21; C54, C62, § 48-8; C75, C79, C91, § 21-8; O.15,521, 15,608)

Sec. 118-64. Installation of toilet and toilet facilities by city when owner unable to pay.

After the service of notice provided in section 118-62 of this division, if upon application by a property owner, the city council shall determine

that he or she is unable to pay for the installation of a sanitary toilet and toilet facilities, including water and sewer connections, the city

council may have the necessary toilet installed and assess the cost against the property benefitted, which shall be a special assessment and collection made as provided in I.C. ch. 364.
(C42, § 38-22; C54, C62, § 48-9; C75, C79, C91, § 21-9; O.15,521)

Sec. 118-65. Cleaning on discontinuance of privies.

Whenever the use of any cesspool or privy vault is discontinued, it shall be cleaned and filled with clean earth, ashes or other suitable material designated by the environmental health officer.
(C42, § 38-5; C54, C62, § 48-10; C75, C79, § 21-10; O.9832; C91, § 21-10; O.13,014)

Sec. 118-66. Location of privy vault or cesspool.

No cesspool or privy vault shall be maintained within 50 feet of any well or other source of water supply used for drinking or culinary purposes, nor shall it be maintained within 25 feet of any building used or occupied for residence purposes, nor within ten feet of any street, nor within five feet of any alley.
(C42, § 38-3; C54, C62, § 48-11; C75, C79, C85, § 21-11; O.11,568; C91, § 21-11)

Sec. 118-67. Construction of privies.

On premises used for residence purposes, no privy vault shall be maintained more than five feet or less than three feet in depth, more than five feet in length, nor more than three feet in width, and no cesspool shall be maintained more than ten feet in depth and five feet in diameter. Privy vaults shall be flytight, shall have seat covers and shall be properly vented.
(C42, § 38-4; C54, C62, § 48-12; C75, C79, C85, § 21-12; O.11,568; C91, § 21-12)

Sec. 118-68. Care and cleanliness of privies.

All privy vaults and cesspools shall be kept clean at all times, and the contents thereof shall not be permitted to accumulate within one foot of the surface of the ground at the tip of the vault. The door of the privy building shall not be allowed to remain open at any time unless there is a self-closing screen. No washwater, garbage, kitchen slops or liquid wastes of any kind shall be thrown into any privy vault, and no night soil from any person suffering from typhoid fever or other serious infection of the bowels or urinary tract shall be deposited in any privy vault or cesspool without being previously disinfected in such manner as may be approved by the attending physician or the environmental health officer.
(C42, § 38-6; C54, C62, § 48-13; C75, C79, § 21-13; O.9832; C91, § 21-13; O.13,014)

Sec. 118-69. Annual cleaning of privy vaults.

All privy vaults shall be emptied and cleaned at least once each year. The cleaning, emptying, and removing of the contents of privy vaults or cesspools shall be done in as inoffensive a manner as possible.
(C42, § 38-11; C54, C62, § 48-14; C75, C79, C91, § 21-14)

Sec. 118-70. Notice to clean privy vaults.

If the environmental health officer shall find a privy vault which has not been cleaned within a year or a privy vault or cesspool, the contents of which are within one foot of the surface of the ground at the top of the vault, or a privy vault or cesspool found to be a health menace, source of filth, cause of sickness or otherwise a nuisance jeopardizing public health or safety, he or she shall order the privy vault cleaned by notice in writing to be served on the owner and occupant of the premises upon which the vault is located.
(C42, § 38-13; C54, C62, § 48-15; C75, C79, § 21-15; O.9832; C91, § 21-15; O.13,014)

Sec. 118-71. Manner of serving notice to clean privy vaults.

The notice required by section 118-70 of this division shall be by personal service unless the owner or occupant cannot be found within the city, in which event notice shall be by mail directed to his or her last known place of address and by posting a copy of the notice in a conspicuous place on the dwelling located upon such property.
(C42, § 38-13; C54, C62, § 48-16; C75, C79, C91, § 21-16)

Sec. 118-72. Cleaning of privy vaults by city.

If, within three days after service of the notice referred to in section 118-70 of this division, the privy vault or cesspool has not been cleaned, the environmental health officer shall report the condition to the city council. Thereafter, the city council may cause the privy vault or cesspool to be cleaned and certify the cost thereof to the county treasurer for the purpose of assessing it against such property to be collected as other taxes.
(C42, § 38-13; C54, C62, § 48-17; C75, C79, § 21-17; O.9832; C91, § 21-17; O.13,014, 15,521)

Sec. 118-73. Hours of work of emptying privy vaults.

The cleaning, emptying and removing of the contents of privy vaults and cesspools shall be done between the hours of 6:00 a.m. and 7:00 p.m. All work done upon privy vaults or cesspools after the hours mentioned shall be done only by and with the consent of the environmental health officer.
(C42, § 38-11; C54, C62, § 48-18; C75, C79, § 21-18; O.9832; C91, § 21-18; O.13,014)

Sec. 118-74. Disinfection of privy vault after removal of contents.

After removal of the contents of any privy vault or cesspool, the excavation shall be thoroughly disinfected with air-slaked lime.
(C42, § 38-11; C54, C62, § 48-19; C75, C79, C91, § 21-19)

Sec. 118-75. Penalty.

Any person, firm, or corporation who fails to perform an act required by the provisions of this division who commits an act prohibited by the provisions of this division shall be guilty of a municipal infraction. The first violation of this division within a calendar year shall be deemed a first offense punishable for a civil penalty not to exceed $750.00. The second and subsequent violations within a calendar year shall be a repeat offense, punishable by a civil penalty not to exceed $1,000.00. The director of public works, or his or her authorized representative, or any police officer is authorized to issue a civil citation pursuant to I.C. § 364.22(4) to anyone violating this division indicating such person is in violation of the division and is subject to the penalties provided for in this section.
(C85, § 21-20; O.11,030, 11,445; C91, § 21-20; O.14,485)

Sec. 118-75.05. Administrative penalties—Notice of violations.

(a) The director of public works or his or her designated representative or any police officer is authorized to issue a notice of violation imposing an administrative penalty upon any person, firm or corporation who fails to perform an act required by this division or who commits an act prohibited by this division.

(b) The administrative penalty for such violations shall be as provided in the schedule of administrative penalties adopted by the city council by resolution.

(c) Notice of violation, with the applicable penalty for such violation noted thereon, shall be issued to the violator by the director of public works or his or her designated representative or any police officer. Service of the notice may be by regular mail or delivery in person.

(d) Penalties shall be paid in full within 30 days of the issuance of the notice.

(e) The administrative penalties set out in the schedule of administrative penalties shall be changed in lieu of the penalties provided for in section 118-75, unless the violator refuses to correct the violation and pay the scheduled administrative penalty, or the director determines that immediate enforcement action by municipal infraction or misdemeanor prosecution pursuant to section 1-15 is, in view of the particular circumstances of the case, necessary to achieve compliance with the requirements of this division. The public works department shall maintain a record of all violations and administrative penalties charged or other enforcement actions taken.
(O.14,485)

Sec. 118-76. Licensed contractor to remove contents of privy vaults, cesspools and septic tanks.

(a) No person shall remove, haul away, or dispose of the contents of a privy vault, cesspool, or septic tank located within the city unless such person is a licensed waste hauler possessing a current license pursuant to division 3 of this article.

(b) In undertaking such work, a licensed waste hauler contractor shall remove all of the contents of the privy vault, cesspool, or septic tank, and shall report to the environmental health officer all cases in which not all of the contents are or can be entirely removed and the reason therefor.

(c) A waste hauler contractor, having begun such work, shall without undue interruption or delay finish the work and shall in every instance leave the premises in as good condition as when the work was undertaken.
(C42, § 38-11; C54, C62, § 48-28; C75, C79, § 21-28; O.9832; C79, § 21-20.01; C91, §§ 21-20.01, 21-20.02)

DIVISION 4. CHARGES FOR WASTEWATER COLLECTION AND TREATMENT SERVICES†

Sec. 118-146. Purpose of division.

It is determined and declared to be necessary and conducive to the protection of the public health, safety, welfare and convenience of the city to levy and collect charges, rates or rentals upon all lots, parcels of real estate and buildings that are connected directly or indirectly to the Des Moines Sanitary Sewer System and which contribute wastewater for transportation to and treatment at the Des Moines Metropolitan Wastewater Reclamation Authority (WRA) Wastewater Reclamation Facility (WRF). The proceeds of such charges or rentals so derived are to be used for the purpose of funding the operation, maintenance, repair, replacement and debt service for the Des Moines sanitary sewer system, and for the purpose of funding the city's contribution to the WRA for operation, maintenance, repair, replacement and debt service for the WRA system pursuant to the WRA agreement.
(C42, § 95-1; O.5513; C54, C62, § 48-35; C75, C79, C91, § 21-34; O.11,700, 13,349, 13,796, 14,434)

Sec. 118-147. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Account holder means any person listed in city water works records as the person responsible for payment of sewer service charges, water service charges, solid waste collection service charges, or stormwater management service charges at a particular premises or property.

Administrator means the administrator of the sewer enterprise division of public works department.

†__Editor's note—__Ord. No. 14,434, § 1, adopted April 25, 2005, amended the title of div. 4 to read as herein set out. Prior to inclusion of said ordinance, div. 4 was entitled, "Rentals."

City or *the city* refers to the City of Des Moines.

City manager or *manager* refers to the City Manager of the City of Des Moines.

Combined service account means a customer account for the provision of water service, sewer service, solid waste collection service, stormwater management service, or any combination thereof, to a particular premises or property.

Contributor or *user* refers to any person, firm, corporation or other entity or organization responsible for the production of wastewater from a domestic, commercial or industrial source, which wastewater is directly or indirectly discharged into the city sanitary sewer system for treatment at the WRF, or which is discharged directly or indirectly to the WRA system for treatment at the WRF. For purposes of section 118-158, *"contributor"* also refers to any person, firm, corporation or other entity or organization responsible for the generation of solid waste which is subject to collection by the city pursuant to article II or II of chapter 98 of this Code, and to any person, firm, or corporation or other entity or organization responsible for the direct or indirect discharge of stormwater, or surface or subsurface waters, to the city's stormwater drainage system. For purposes of sections 118-158 and 118-159, *"user"* also refers to any person, firm, corporation or other entity or organization deriving water service from the city's water works.

Customer means a contributor to the city sanitary sewer system whose situs of usage is within the city, or a contributor whose situs of usage is outside the city and whose usage is pursuant to contract with the city.

Debt service refers to the amount of money necessary annually to pay the interest on outstanding debt and pay the principal of maturing bonded debt and loans.

Des Moines Metropolitan Wastewater Reclamation Authority System, or *WRA system* shall mean and include the WRF, the WRA wastewater collection and conveyance system, satellite wastewater and CSO treatment facilities hereafter constructed, all real and personal property of every nature hereinafter owned by the WRA and comprising part of or used as a part of the WRA system, and all appurtenances, contracts, leases, franchises and other intangibles of the WRA.

Des Moines Metropolitan Wastewater Reclamation Authority or *WRA* means the corporation and political subdivision established pursuant to the WRA agreement, organized and existing under Chapters 28E and 28F of the Iowa Code, and means and includes the representatives of the participating communities on the WRA board, and the officers and employees of the WRA.

Des Moines Sanitary Sewer System or *city sanitary sewer system* refers to the local outfall sewers, trunk sewers, pumping stations, force mains, and wastewater equalization basins, and all other structures, devices and appliances appurtenant thereto, which are used for collecting, conveying or storing wastewater and which serve and are owned, operated and maintained by the city.

Director refers to the director of public works as director of the WRA operating contractor and of the city sanitary sewer system.

Domestic wastewater means all household-type waste discharged from places of human habitation including sanitary convenience, kitchen and laundry waste. Domestic wastewater is further defined as a discharge to the sanitary sewer system which does not exceed daily maximum limits of 300 mg/l COD, 200 mg/l BOD, 250 mg/l suspended solids, 100 mg/l oil and grease, 30 mg/l TKN, and 15 mg/l NH3-N at a discharge rate of 100 gallons per capita per day. This loading is equal to 0.25 pounds of COD, 0.17 pounds of BOD, 0.20 pounds of suspended solids, 0.083 pounds of oil and grease, 0.025 pounds of TKN and 0.013 pounds of NH3-N per capita per day.

Operating contractor means the City of Des Moines and its directors, officers, employees and agents, acting pursuant to the initial operating contract between the city and the WRA, in the operation, maintenance, management and development of the WRA system.

Owner means property owner of record as reflected in the records of the county.

Participating communities means the cities of Altoona, Ankeny, Bondurant, Clive, Des Moines, Johnston, Norwalk, Pleasant Hill and West Des Moines, and Polk County, Warren County, the Urbandale Sanitary Sewer District, the Urbandale-Windsor Heights Sanitary District and the Greenfield Plaza/Hills of Coventry Sanitary District, together with any other cities, counties, or sanitary districts that become participating communities under the provisions of the WRA agreement.

Sewer service charge refers to all rates, charges, fees or rentals levied against and payable by the customers, except when special contracts have been or may be negotiated by and between the city and sanitary districts, commercial establishments, industries, or manufacturing plants.

User charge means sewage service charge.

WRA board means the duly appointed board of the WRA.

WRA wastewater collection and conveyance system means the WRA sanitary sewer interceptors and extensions to same, detention basins, equalization basins, storage facilities, pumping stations, force mains and all related property and improvements.

WRA wastewater reclamation facility or WRF refers to the wastewater treatment facility constructed and operated by the WRA in Des Moines at 3000 Vandalia Road, and to other such treatment facilities as may hereafter be constructed and operated by the WRA.
(C42, § 95-2; O.5513; C54, C62, § 48-34; C75, C79, § 21-35; O.10,465; C91, § 21-35; O.11,700, 13,166, 13,349, 13,796, 14,434)

Cross reference—Definitions generally, § 1-2.

Sec. 118-148. Duties of administrator.

The wastewater treatment division of the department of public works shall be supervised by the administrator who shall be responsible for operations under the general supervision of the director of public works and the city manager.
(C42, § 95-3; O.5513; C54, C62, § 48-36; O.7484; C75, C79, C91, § 21-36; O.11,700, 11,845, 14,434)

Sec. 118-149. Sewer service charges—Volume charge and customer service charge.

(a) Every customer shall pay to the city the rates and charges as established in this section to contribute toward the costs of construction, maintenance, and operation of the wastewater treatment system.

(b) When water service is provided to a customer whose property lies within the corporate limits of the city, the customer shall pay to the city, or upon the city's direction to the city's collection agent, a volume charge per 1,000 gallons or any fraction of 1,000 gallons for domestic wastewater plus a monthly service charge as provided in subsection (c). The charge for this subsection and subsection (c) shall be:

From—To	*Volume Charge per 1,000 Gallons or a Fraction thereof Subsection (b)*	*Monthly Service Charge Subsection (c)*
July 1, 2024—June 30, 2025	$9.28	$4.40
July 1, 2025—June 30, 2026	$9.84	$4.40
July 1, 2026—	$10.43	$4.40

(c) Except as otherwise provided, each customer whose property lies within the corporate limits of the city shall pay to the city, or at the direction of the city through its collection agent, a monthly customer service charge of $4.40 in addition to the volume charge, as shown in the table in subsection (b). In addition to the volume charge and service charge, customers shall pay all surcharges and penalties provided in section 118-151.

(d) The director shall periodically review the volume charge and the customer service charge in conjunction with the preparation of the budget for the city sanitary sewer system. If at any time the director determines that the volume charge, the customer service charge, and/or the budget for the city sanitary sewer system requires adjustment, the director shall report such determination to the city manager and city council. The city council may at any time adjust the volume charge or the customer service charge by adoption of an ordinance amending this section and

may at any time adjust the budget for the city sanitary sewer system by adoption of an appropriate resolution.

(e) Each customer whose property lies outside the corporate limits of the city, or otherwise provided sewer service pursuant to contract with the city, shall pay to the city a fee as set forth in section 118-154(d).

Sec. 118-151. Extra strength wastewater.

(a) No contributor shall contribute wastewater in excess of the limits for domestic wastewater, except in accordance with article III of this chapter pertaining to industrial pretreatment, or in accordance with an industrial pretreatment ordinance approved by the Environmental Protection Agency and adopted by a WRA constituent community. Contributors who contribute wastewater anywhere in the system in excess of the limits for domestic wastewater, whether residing or located within the city or elsewhere, shall be subject to the charges, surcharges, and/or penalties as provided in article III of this chapter, which shall be in addition to the rates and charges provided in this division.

(b) Constituent communities which have not by December 31, 1991 implemented industrial pretreatment by adopting and updating as needed a pretreatment ordinance and which have not authorized the city to enforce such an ordinance within their jurisdictions shall pay a sewer service charge 1½ times the charge calculated for such communities pursuant to subsection 118-150(b) of this division.
(C91, § 21-39; O.11,700, 14,434)

Sec. 118-152. Reserved.

Editor's note—Ord. No. 13,796, § 1, adopted March 6, 2000, repealed § 118-152 which pertained to demand charge; WRA debt service, and derived from Code 1991, § 21-40; Ord. No. 11,700; Ord. No. 11,996; Ord. No. 13,349; and Ord. No. 13,653.

Sec. 118-153. Reserved.

Editor's note—Ord. No. 13,796, § 1, adopted March 6, 2000, repealed § 118-153 which pertained to customer service charge; exemption for low income contributors, and derived from Code 1991, § 21-41; Ord. No. 11,700; Ord. No. 11,996; Ord. No. 13,349; and Ord. No. 13,653.

Sec. 118-154. Rate determinations; compliance with bond covenants.

(a) In calculating the sewer service charges imposed in section 118-149, the director shall include in the budgeted expense and revenue amounts sufficient funds as will ensure compliance with any and all rate covenants applicable to any outstanding bonds, notes or other obligations issued in connection with the construction and operation of the WRA system or the city sanitary sewer system.

(b) If in the judgment of the city manager, special conditions other than contribution of toxic pollutants affect the use of city water to the extent that the application of the volume charge provided in subsection 114-149(b) of this Code would be inequitable or unfair either to the city or to a

customer, a special rate shall be established by the city. A special rate in such cases shall be established only by resolution of the city council.

(c) In those cases where the special conditions are such that specially metered water is utilized for lawn or garden watering, air conditioning or similar usages whereby no part of the water so separately metered enters the sanitary sewer system, such usage of water may be exempted from sanitary sewer service charges by a permit conditioned that such water shall be so separately metered and so used. Such permits may be executed on behalf of the City of Des Moines by the city manager or his or her delegate. A copy thereof shall be delivered to the consumer, one copy retained by the issuing department, and one copy delivered to the Des Moines Water Works. This process shall not affect the rights of the Des Moines Water Works with respect to such metering or charges for water service. The city manager or his or her delegate shall collect with each application for such separate metering permit the sum of $25.00 to partially defray the administrative costs incident to the process. Where responsibility for a specially metered location is transferred, the transferee (if the transferee, including a new owner of land, building, or tenant or other entity, wishes to continue the use of a special meter) shall apply to have the permit transferred and the application of the transferee shall be treated for all purposes as a new application, except the fee to partially defray administrative costs shall be $10.00 in such cases. Such charges shall be additional to those incident to the issuance of plumbing permits for any plumbing charges which may be required.

(d) Each customer whose property or situs of wastewater usage lies outside of the corporate limits of the city and which has a contract for sewer service with the city, shall pay to the city through its collection agent, at the collection agent's office at the time payment for city water is made, or at the beginning of each calendar year, a sewer service charge computed on the basis of two times the foregoing schedule of rates applicable to customers within the city. However, contracts with customers outside of the corporate limits of the city, which include the sewage service charges, shall run until the minimum time for renegotiating under such contracts shall have expired, and payments under such contracts shall be paid directly to the city as provided therein.

(e) Any contributor who discharges any toxic pollutants which cause an increase in the cost of managing the effluent or the sludge from the wastewater treatment facility, or any contributor who discharges any substance which singly or by interaction with other substances causes identifiable increases in the cost of operation, maintenance, or replacement of the wastewater treatment facility or system, shall pay for such increased costs. The charge to each contributor shall be as determined by the director, all as provided in section 118-362 of this Code.

(f) Any contributor who discharges wastes which require an industrial pretreatment permit for discharges as provided in article III of this chapter or that delivers wastes directly to the wastewater treatment facility as contributors licensed under division 3 of this article shall be billed directly by the city and shall pay the city directly for all charges imposed pursuant to division 3 of this article.
(C91, § 21-42; O.11,700, 11.845, 13,349, 13,796)

Sec. 118-155. Measurement of sewer use.

(a) Each customer's sewer use and sewer service charges shall be based upon the volume of water consumed by that customer, unless an alternate means of measuring sewer use by a customer is approved or required by the director.

(b) The director may require an alternate means of measuring sewer use, such as the actual measurement or metering of wastewater discharge, if the director determines that water consumption cannot be accurately measured or is not an accurate measure of sewer use.

(c) Upon the application of a customer and upon the prior approval of the director, a customer's wastewater discharge may be separately metered or measured, utilizing such means as are approved by the director and provided at the customer's expense. Such approval may be withdrawn if the director determines

that such metering or measurement does not accurately reflect actual sewer usage by that customer.

(d) The collection agent may reduce the volume charge for any month for which a customer can demonstrate that the recorded water usage was in excess of normal usage due a leak, faulty meter, inaccurate meter reading, or other event beyond the reasonable control of the customer. In each instance in which the volume charge is reduced by the collection agent pursuant to this provision, the collection agent shall fully document the circumstances justifying such reduction and the amount thereof, and shall report such reduction and the justification therefor to the director.

(C42, § 95-3; O.5040, 5513; C54, § 48-37; O.6969; C62, § 48-37; O.7161, 7762, 8277, 8284; C75, C79, § 21-40; C91, § 21-44; O.11,700, 13,796)

Sec. 118-156. Private water supplies.

The rates set forth in this division shall apply in all cases in which wastewater from a privately produced water supply is discharged into the wastewater treatment system. Every person responsible for the production of water from a private water supply shall report immediately to the administrator of the wastewater treatment facility and cooperate with him or her in the determination of the quantity and character of the wastewater originating from each such respective private water supply. The administrator shall designate in these special cases any necessary means of measurements of the private water supply and resulting wastewater discharge. The meter or other means of measurements of such private water supply and resulting wastewater discharge shall be installed by and at the expense of the customer upon written order of the administrator of the wastewater treatment facility, who shall also pay the city's expense for periodic meter reading, or periodic verification of the amount of flow.

(C42, § 95-3; O.5040, 5513; C54, § 48-37; O.6969; C62, § 48-37; O.7161, 7762, 8277, 8284; C75, C79, § 21-43; C91, § 21-45; O.11,700, 13,796)

Sec. 118-157. Reserved.

Editor's note—Ord. No. 13,796, § 1, adopted March 6, 2000, repealed § 118-157 which pertained to effective date of rates and derived from Code 1991, § 21-46; Ord. No. 11,700; Ord. No. 11,843; Ord. No. 11,996; and Ord. No. 13,349.

Sec. 118-158. Billing procedures; late payment charge; past due and delinquent accounts.

(a) The city water works is authorized to act as the city's agent for the billing and collection of sewer, solid waste, and yard debris collection, and stormwater management service charges within the city and for charges made to the city sewer service contract accounts outside the city. The water works is authorized to read the water meter of each sewer contributor monthly, or in accordance with its procedures and regulations, and to thereafter bill sewer contributors the rates and charges provided in sections 118-149 and 118-154 of this division, utilizing its water use data as appropriate to calculate each billing. As to sewer contributors who do not derive water service from the water works, the water works shall bill such contributors for sewer service as determined and directed by the administrator pursuant to section 118-156 of this division. The water works is also authorized to bill each solid waste contributor the charges for solid waste collection service provided in section 98-55 of this Code. The city shall periodically provide to the water works an updated listing of elderly and disabled solid waste contributors entitled to the reduced rate for such service provided in subsection 98-55(c) of this Code. The water works is authorized to bill the owners or occupants of all properties within the city, except exempt properties, the charge for stormwater management services, all as provided by division 7 of this article.

(b) Payments for sewer, solid waste collection, and/or stormwater management services are due as of the date the billings are mailed, which date shall be the billing date. Water, sewer, solid waste collection, and/or stormwater management service charges will be billed to contributors and customers in a combined service account billing statement.

(c) If full payment of all charges billed in a combined service account billing statement is not received within 33 days after the billing date, the city water works is authorized to impose a five percent late payment charge, according to its established practices and procedures, upon

the unpaid balance of the account for sewer, solid waste collection and storm water management services. The water works may, after 30 days prior written notice to the city council, adjust the late payment charge percentage and/or the period after the due date when the late payment charge will be imposed. If the city council declines to approve such adjustments, it may repeal this authorization to impose the late payment charge.

(d) If full payment of all charges billed in a combined service account billing statement is not received within 40 days after the billing date, the contributor's or customer's combined service account shall be considered delinquent, and the Water Works shall give notice, as hereafter provided, that the combined service account is delinquent and that water service to the premises for which the account is delinquent will be discontinued if the delinquent charges are not paid within 50 days after the billing date.
(C42, § 95-10; O.5513; C54, C62, § 48-43; C75, C79, § 21-49; O.10,090, 10,699; C91, § 21-47; O.11,700, 13,166, 13,796, 14,434, 14,502, 15,664)

Sec. 118-159. Collection procedures; discontinuance of water service; tax lien.

(a) If full payment of all charges billed in a combined service account billing statement is not received within 50 days after the billing date, the Board of Water Works Trustees of the City of Des Moines, Iowa, doing business as Des Moines Water Works ("water works") is authorized to thereupon discontinue water service to that premises or property owned or rented by the account holder in whose name the delinquent charges were incurred.

(b) Water service shall not be discontinued at any premises or property owned or rented by the account holder in whose name the delinquent charges were incurred as herein provided unless notice of delinquency has been given to said delinquent account holder. If the account holder is a tenant, and if the owner or landlord has made a written request for notice prior to discontinuance of water service, the water works shall also send notice of delinquency to the owner or landlord. If the account holder is a tenant and requests a change of name for service under the account, such request shall be sent to the owner or landlord of the property if the owner or landlord has made a written request for notice of any change of name for service under the account to the rental property. Notice of delinquency shall be sent to such persons by ordinary mail to their last known addresses as reflected in the computer data base account records of the water works or in the applicable county auditor's real estate computer data file. The notice of delinquency shall include the delinquent charge or charges, and shall indicate that if payment of the total amount is not made by a date certain (corresponding to the 50th day after the billing date for that delinquent account), water service to the premises or property at which the account is delinquent will be discontinued. The notice shall further indicate that if the account holder believes that his or her billing or account balance is in error, the account holder has the right to appeal the notice of delinquency to a water works customer service representative, who shall be empowered to hear such appeals, and, after investigating the status of said account with the appropriate city department if necessary, to adjust account balances as the facts of each appeal may warrant.

(c) The physical disconnection or discontinuance of water service to a particular premises as above provided, or the reconnection of water service, shall be performed by the water works according to its established practices and procedures, and the water works may charge to such account its established fees or charges for disconnection and/or reconnection.

(d) For all active accounts, if full payment of all charges billed in a combined service account billing statement, including late payment charges, is not received within 87 days after the billing date, the water works shall send a notice of pending lien to the account holder in whose name the delinquent charges were incurred. If said delinquent account holder is a tenant, and the owner or landlord has made a written request for notice to water works, the water works shall also send notice of pending lien to the owner or landlord. The notice of pending lien shall be sent, at least 30 days prior to certification of the

lien to the applicable county, to such persons by ordinary mail to their last known addresses as reflected in the computer data base account records of the water works or in the applicable county auditor's real estate computer data file. The notice of pending lien shall include the delinquent charge or charges, and shall indicate that if payment of the total amount is not made by a date certain (corresponding to the 117th day after the billing date for that delinquent account), the delinquent charge or charges will be certified to the applicable county as a lien against the property or premises owned or rented by the account holder in whose name the delinquent charges were incurred, unless said property is exempt as a residential rental property as described below.

(e) For all final accounts, if full payment of all charges billed in a combined service account billing statement, including late payment charges, is not received within 60 days after the billing date, the water works shall send a notice of pending lien to the account holder in whose name the delinquent charges were incurred. If said delinquent account holder is a tenant, and the owner or landlord has made a written request for notice to water works, the water works shall also send notice of pending lien to the owner or landlord. The notice of pending lien shall be sent, at least 30 days prior to certification of the lien to the applicable county, to such persons by ordinary mail to their last known addresses as reflected in the computer data base account records of the water works or in the applicable county auditor's real estate computer data file. The notice of pending lien shall include the delinquent charge or charges, and shall indicate that if payment of the total amount is not made by a date certain (corresponding to the 90th day after the billing date for that delinquent account), the delinquent charge or charges will be certified to the applicable county as a lien against the property or premises owned or rented by the account holder in whose name the delinquent account charges were incurred, unless said property is exempt as a residential rental property as described below.

(f) If the owner or landlord of the property or premises involved shall give written notice of tenant liability for a residential rental property to water works as hereafter provided, such property or premises shall thereafter be exempt from the imposition of a lien as hereafter provided. Such owner or landlord, or tenant thereof, shall cause a deposit to be made with water works in an amount determined by the public works director that does not exceed the usual cost of 90 days of service for water, sewer, solid waste collection, and stormwater management, and upon receipt, water works shall acknowledge the notice and deposit. The written notice of tenant liability shall contain the name of the tenant responsible for water, sewer, solid waste collection, and/or stormwater management service charges, the address that the tenant occupies or is to occupy, and the date that the tenancy began or is to begin. A change in tenant shall require a new written notice of tenant liability and deposit to be provided to water works by the owner or landlord within 30 business days of the change in tenant. When the tenant moves from the rental property, the water works shall return the deposit if all special charges, service charges, and sales tax have been paid in full, and the lien exemption shall be lifted from the rental property. A change in the ownership of the residential rental property shall require written notice of such change to be given to water works within 30 business days of the completion of the change in ownership. The lien exemption for residential rental property does not apply to charges for repairs to a water service, or to charges for repairs related to a service of sewer systems, stormwater drainage systems, sewage treatment, solid waste collection, or solid waste disposal, if the repair charges become delinquent. The deposit herein provided shall be applied to pay sales tax, special charges, service charges, and late payment charges for final accounts. Any balance owing on said account after application of the deposit as above provided shall be carried forward and billed on the next billing statement of the account holder in whose name the delinquent rates or charges were incurred.

(g) If full payment of all charges billed in a combined service active account billing statement, including late payment charges, is not received within 117 days after the billing date, the water works shall prepare an assessment

schedule, as the city's billing and collection agent, listing such unpaid charges therein. If full payment of all charges billed in a combined service final account billing statement, including late

payment charges, is not received within 90 days after the billing date, the water works shall prepare an assessment schedule, as the city's billing and collection agent, listing such unpaid charges therein. A $5.00 administrative processing fee shall be charged to each delinquent account at the time it is included in the assessment schedule, which amount shall be separately identified on the assessment schedule and included in the amount being assessed. The water works shall prepare an assessment schedule at least once each month, listing all delinquent sewer, solid waste collection, and stormwater management service charges, and late payment charges, which accrued in the prior month or since the last assessment schedule was certified. Each such assessment schedule shall also identify each delinquent charge by name of the account holder in whose name the delinquent rates or charges were incurred, shall identify each property for which the sewer, solid waste collection, and/or stormwater management service charge is delinquent, and shall show the delinquent charges and the administrative processing fee to be assessed against each such property owned or rented by the delinquent account holder, unless said property is exempt as a residential rental property as described above. The treasurer of water works is hereby delegated the authority, on behalf of the city, to certify and file each such assessment schedule with the applicable county treasurer for filing of liens against the properties in the amounts shown thereon as provided in I.C. § 384.84. The treasurer of water works is hereby delegated the authority to correct sewer, solid waste and/or stormwater liens placed in error, to make corrections required by the applicable county due to district or parcel identification issues and to correct assessment schedules when liens are not authorized by statue to be placed or where payment has been made. The water works treasurer will provide a monthly report to the city finance director of any assessment schedule corrections made to the applicable county treasurer.

(h) Such lien shall be enforced until payment in full of the delinquent charges and the administrative processing fee shown on the assessment schedule is made at the office of the county treasurer.

Editor's note—Ord. No. 13,796, § 1, adopted March 6, 2000, repealed § 118-162 which pertained to annual review of rates and derived from Code 1942, § 95-9; Ord. No. 5513; Code 1954 and Code 1962, § 48-42; Code 1975 and Code 1979, § 21-48; Code 1991, § 21-50; Ord. No. 11,700; and Ord. No. 13,349.

Sec. 118-163. Expenses of collection of sewer service charges.

The incremental cost of collecting and accounting for all sewer rentals or charges, including reasonable compensation to the collection agent; the maintenance of all books and records; the employment of all help; the cost of all books, records, materials and supplies; the obtaining and maintaining of all office and storage space; and all other costs and expenses reasonably necessary in connection therewith or incidental thereto shall be a part of the cost of operating the sewage treatment system and shall be incurred when the collection agent, in the exercise of his or her judgment, shall so determine. The incremental cost thereof shall be deducted by the collection agent, upon his or her certificate certifying to the amount thereof, from the remittance to which it relates, subject to the condition that any proposed change in any method of computing such incremental cost may be effective prospectively only and only after such proposed change shall have been submitted to and approved by the city finance director.

Secs. 118-165—118-190. Reserved.

DIVISION 5. CONNECTIONS

Sec. 118-191. Sanitary sewer districts.

The city shall comprise one sewer district, except South Urban Area B Sanitary Sewer District and South Urban Area C Sanitary Sewer District and Northwest Interceptor Sanitary Sewer District, as described in article I of appendix G to this Code.
(C42, § 94-1; O.5389; C54, § 48-45; O.6056; C62, § 48-45; O.8425, 8532, 8660, 8736; C75, C79, C91, § 21-51)

Sec. 118-192. Permit required.

When the owner of any lot or parcel of ground which has not been assessed for or contributed to the construction of a sewer shall desire a permit to connect with such sewer, the city manager shall determine the amount to be charged.
(C42, § 94-2; O.5389; C54, C62, § 48-46; C75, C79, C91, § 21-54)

Sec. 118-193. Permit charge.

The charge for a permit to connect with a sewer shall be an equitable proportion of the cost of the sewer and the amount determined shall, upon confirmation by the city council, be paid to the city treasurer and credited to the sewer fund before a permit to make such connections shall be issued.
(C42, § 94-2; O.5389; C54, C62, § 48-47; C75, C79, C91, § 21-55)

Sec. 118-194. Required before paving.

Whenever the city council shall order any street, highway, avenue, alley, public ground or place permanently improved by paving, all owners of property fronting thereon shall make the connections from sewers to the curbline of the adjacent property before the improvement is made. If any connection is not made before the improvement is made, no permit shall be issued for the making of any connection within four years after the improvement is completed and accepted except upon payment of a fee of $200.00 in addition to all other fees and charges, which fee shall be credited to the fund and used in keeping pavements in repair.
(C42, § 94-3; O.5389; C54, C62, § 48-48; O.8493; C75, C79, § 21-56; O.10,699; C91, § 21-56)

Sec. 118-195. Notice to make connections.

Whenever the city council has ordered any street, highway, avenue, alley, public ground or place permanently improved by paving and the city council shall deem it necessary that the connections from any sewer should be made to the curbline of any adjacent property, it shall serve written notice on the property owner.
(C42, § 94-4; O.5389; C54, C62, § 48-49; C75, C79, C91, § 21-57)

Sec. 118-196. Method of giving notice.

Notice to property owners to connect from the sewer to the curbline shall be given either personally or by mail or by posting the notice on the property.
(C42, § 94-4; O.5389; C54, C62, § 48-50; C75, C79, C91, § 21-58)

Sec. 118-197. Contents of notice.

Notice shall be served on the property owners to make a connection from the sewer to the curbline in accordance with the city plumbing code by a date fixed, which shall not be less than ten days after notice is given, or to show cause in writing filed with the city manager within such time why the connections should not be made.
(C42, § 94-4; O.5389; C54, C62, § 48-51; C75, C79, C91, § 21-59)

Sec. 118-198. Order of city council.

At the expiration of the time fixed pursuant to section 118-197 of this division, the city manager shall report the matter to the city council with all objections filed, and recommendations he or she

may deem proper. Thereupon the council shall by resolution order the making of connections which it shall deem necessary.
(C42, § 94-4; O.5389; C54, C62, § 48-52; C75, C79, C91, § 21-60)

Sec. 118-199. Contract for installation.

When the city council shall order any sewer connections made, the city shall cause the work to be done and for such purpose may enter into a contract for the installation of such connection during a fiscal year or any part thereof.
(C42, § 94-5; O.5389; C54, C62, § 48-53; C75, C79, C91, § 21-61)

Sec. 118-200. Assessment of costs.

The cost of sewer connections to the curbline ordered by the city council shall be collected from the owner of the property for which the connections are made and assessed to that property as a special tax in the manner provided by I.C. ch. 364.
(C42, § 94-5; O.5389; C54, C62, § 48-54; C75, C79, C91, § 21-62)

Sec. 118-201. Permit to make connections after paving.

If water, gas, underground electrical connections or steam-heating connections are not made before the street, highway, avenue, alley, public ground or place is permanently improved by paving and it is necessary to cut through the pavement to make such connections, no permit shall be issued for making them within four years after the completion and acceptance of the pavement, except upon the payment of a fee of $200.00 in addition to all other fees and charges. The fee shall be credited to the funds used in keeping pavements in repair.
(C42, § 94-6; O.5389; C54, C62, § 48-55; O.8493; C75, C79, § 21-63; O.10,699; C91, § 21-63)

Sec. 118-202. Permit to connect private sewer with city sewer.

When the owner of any lot or parcel of ground shall desire to connect any private sewer with a sewer of the city, he or she shall apply for a permit therefor to the department of engineering. The fee for the permit shall be an equitable portion of the cost of the city sewer determined by the department of engineering, and the amount so determined shall, upon confirmation by the city manager, be paid to the city treasurer and credited to the sewer fund before a permit shall be issued.
(C54, § 48-55.01; O.5853; C62, § 48-55.01; C75, C79, C91, § 21-64; O.11,845)

Sec. 118-203. Service beyond corporate limits.

When the owner of any lot or parcel of ground located outside the corporate limits shall desire to connect to the sanitary sewer system of the city, either directly or indirectly by means of privately owned sewer laterals or otherwise except by virtue of an interim or ICA sewer service agreement between the city and another governmental entity, permission to so connect may not be presumed, but shall be subject to the conditions and payment of fees as provided in this division.
(C62, § 48-55.02; O.7161, 8285; C75, C79, § 21-65; O.10,500; C91, § 21-65)

Sec. 118-204. Conditions of permission to connect and fees payable.

Sewer connections referred to in section 118-203 of this division may be permitted or denied by the city manager or such city employee as may be designated by the city manager to exercise such function under direction of the city manager, such permission or denial to be exercised with the aim and purpose that no such connection shall be permitted which will be inconsistent with standards contained in city plumbing and right-of-way occupancy ordinances, which will be inconsistent with objectives of the city with reference to possible future annexation of the area proposed for service, which will or may interfere with orderly extension of trunk lines or laterals at some future date, or which will tend to require the sewer to which connection is sought or the sewer system of the city or the sewage treatment facilities of the city to be

burdened beyond their rated capacity and shall wherever and whenever permitted be upon the following conditions precedent:

(1) No person shall make any connections to the city sewer system either directly or indirectly without first making application therefor and obtaining a permit to do so from the city manager or his or her designee and paying the fees and connection charges established in this division.

(2) No sewer connection permit under circumstances described in section 118-203 of this division shall be issued unless a written application for the issuance of a sewer connection permit is submitted to the city manager or his or her designee. The written application shall state the name and address of the applicant; the nature, location and purpose of the connection; the description showing the dimensions thereof and area in square feet of the property to be served with reference to a properly recorded plat; the date of proposed commencement and the date of proposed completion of the connection, and it shall contain an agreement by the owner of the property binding upon the owner and the owner's successors or assigns to comply with all rules and regulations established regulating the use of the sewer and connections thereto including city ordinances relating to plumbing and street excavations, city ordinances prescribing sewer rental charges as stated or as amended; agreeing to waive any possible future objections to annexation proceedings instituted by the city which might be founded upon such sewer service, unless specifically waived or limited by resolution of the city council; and agreeing to hold the city harmless from any loss, liability or damage resulting from such connections or the use thereof.

(3) Failure to apply to the city manager or his or her designee with the information required in subsection (2) of this section shall be sufficient cause to deny issuance of a sewer connection permit. The city manager or his or her designee may refuse to issue the permit provided for in this section to any former permit holder who has intentionally violated the sections of this division relating to sewer connections.

(4) One sewer connection shall serve no more than 10,000 square feet of property, without approval of the city council setting an additional fee, as provided in this section. If the area of the property to be served exceeds 10,000 square feet, as shown in the written application for sewer connection permit, the city manager or his or her designee shall deny the application and immediately refer it to the city council. The maximum depth of any area to be served adjacent to a sewer to which property outside the city may connect under this section shall be 175 feet from the street right-of-way line, except those properties adjacent to the East Fourteenth Street sewer, which may be served to a depth of not to exceed 400 feet from the centerline of East Fourteenth Street. Any improvements beyond these limitations shall not be served by city sewer.

(5) When the application for connecting to the municipal sanitary utilities is filed with the city manager or his or her designee, the application shall be accompanied by a sewer connection fee as established within this division for the applicable trunk sewer, or where no sewer connection fee is established a sum computed at the rate of $0.015 per square foot of lot area to approximate the cost of extending trunk line sewer service to the near vicinity of the subject property and a further sum computed at the rate of $7.76 per front foot of the property to be served to approximate the cost of extending lateral sewer lines to the near vicinity of such property, which fee shall, however, in no case exceed the equitable portion of the total original cost to the city of extending such sanitary utilities to the near vicinity of the property served. If the property to be served exceeds

10,000 square feet, but is otherwise shown to qualify under this section for permission to connect, the city council may, nevertheless, approve the connection but may charge an additional reasonable and equitable fee proportionate to the fee in this subsection, based upon the area and frontage of the property to be served by the connection.

(6) If the fee established in subsection (5) of this section exceeds the equitable portion of the total original cost to the city of extending the sanitary utilities to the near vicinity of the property served, the city manager or his or her designee shall submit the application to the city council, which will make such adjustments as will render the fee reasonable and equitable in the circumstances. If the property owner has an objection to the reasonableness of the sewer connection fee or action of the city manager or his or her designee in computing the fee or denying the application, such owner may file a protest with the city council within ten days after such action or determination of the fee. The city council shall then consider the property owner's objection, and its determination shall be final.

(7) Upon receipt of the application in compliance with this section, together with the required fee, the city manager or his or her designee shall issue the sewer connection permit within ten days of the date of filing of such application unless it appears that the proposed connection would be contrary to the best interest of the city for reasons referred to in this section or such application does not comply with the conditions stated in this section.

(C62, § 48-55.03; O.8285; C75, C79, C91, § 21-66; O.15,733)

Sec. 118-205. Disposition of fees.

Any and all sewer connection fees collected under section 118-204 of this division shall be remitted to the city treasurer.

(C62, § 48-55.04; O.8285; C75, § 21-67; O.9592; C79, C91, § 21-67)

Sec. 118-206. Evidence for plumbing permit.

No permit shall be issued under section 26-1151 of this Code for any plumbing which embraces or must necessarily embrace one or more connections between the properties listed in such application and the sewer referred to in such application until the plumbing division of the department of building has received for its permanent records written evidence of payment of the full fees prescribed by ordinance for both trunk line and lateral facilities.

(C62, § 48-55.05; O.8285; C75, C79, C91, § 21-68)

Sec. 118-207. Violations.

Any person violating any of the provisions of sections 118-203 and 118-204 of this division shall be guilty of a misdemeanor.

(C62, § 48-55.06; O.8285; C75, C79, C91, § 21-69)

Sec. 118-208. Fee for connection to major sanitary sewer facilities.

(a) The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Benefited district means that area to which sanitary sewer service can feasibly be provided by a major sanitary sewer facility of a given design and capacity. For benefitted districts established after December 1, 2018, benefitted district means that area to which sanitary sewer service can feasibly be provided by a major sanitary sewer facility of a given design and capacity, excluding properties which are within the boundaries of another city and excluding properties the city is prohibited from annexing pursuant to an agreement with another city.

Connection means the act of connecting the building sewer of a residential structure to a lateral sewer or manhole constituting a part of a major sanitary sewer facility, or the act of connecting a lateral sewer serving a subdivision to a trunk sewer or manhole constituting a part of a major sanitary sewer facility.

Major sanitary sewer facility means and includes sanitary sewer trunk lines and sanitary sewer interceptors of greater than eight inches in diameter, and sanitary sewer force mains, pumping stations and detention basins.

(b) The city has determined the necessity of establishing a policy and a procedure to be utilized to recover the cost of designing and constructing major sanitary sewer facilities when a significant number of the properties to be benefited by such facilities are not sufficiently developed to permit the recovery of those costs through the special assessment process as provided in I.C. § 384.37 et seq. The city declares its intent to utilize connection fees, as provided in this section, to recover the costs of designing and constructing such major sanitary sewer facilities from property owners who connect to such facilities subsequent to their construction. It is the intent of this section to set forth the method of recovering proportional cost shares from those property owners who connect their properties to major sanitary sewer facilities subsequent to their construction, so that if all property, other than the city right-of-way, which lies within the benefited district is connected to the major sanitary sewer facilities during their expected useful life, those properties shall bear, in the aggregate, up to 100 percent of the cost of designing and constructing such facilities, including legal and administrative expenses associated therewith.

(c) If the city council determines the necessity of constructing a major sanitary sewer facility and determines that the utilization of a connection fee is the most equitable manner in which to recover the city's costs associated therewith, the city council shall cause a notice of public hearing on the proposed adoption of an ordinance to establish a benefited district and a connection fee to be published in a newspaper of general circulation within the city as provided in this section. In addition to indicating the date, time, and place of the public hearing, the notice shall:

(1) Indicate the nature and extent of the major sanitary sewer facility under consideration for construction, as well as the estimated cost for the design and construction of the facility;

(2) Identify by general description the proposed benefited district to be served by the major sanitary sewer facility; and

(3) Set forth the proposed schedule of connection fees to be paid by property owners within the benefited district who connect to the facilities, expressed in dollars per acre of land area served.

The notice shall also state that the proposed connection fee ordinance is on file and available for public inspection in the office of the city clerk. The notice shall be published not more than 45 days and not less than ten days prior to the scheduled date of the public hearing and shall be mailed to each property owner within the benefited district as shown by the records of the county auditor.

(d) At the public hearing, the owners or occupants of properties within the proposed benefited district shall be heard and may offer comments or objections as to:

(1) The necessity for the project;

(2) The calculation of the area benefited by the proposed major sanitary sewer facilities;

(3) The estimated cost of the proposed facilities; and

(4) The proposed per-acre connection fee.

Upon concluding the hearing, the city council shall rule upon the objections presented during the hearing and may consider the adoption of the proposed connection fee ordinance. Upon consideration of the proposed connection fee ordinance, the council may (i) adopt the ordinance as proposed, (ii) delete elements or portions of the proposed major sanitary sewer facilities from the proposed project and the lands served thereby from the benefited district proposed, or (iii) amend the ordinance to reduce the connection fee.

(e) The connection fee ordinance may provide, at the city council's discretion, that single-family residences within the benefited district, in

existence or under construction upon the effective date of the ordinance and located within the corporate limits, are eligible for connection to the major sanitary sewer facility. In that event, the ordinance shall include the provisions that:

(1) The owner of a residence on a parcel of less than one acre in size located within the city may connect such residence to the major sanitary sewer facility upon approval of the application for connection, payment of the connection fee for the parcel, and construction of appropriate connection structures, as determined necessary by the city engineer; and

(2) The owner of a residence on a parcel in excess of one acre in size located within the city may connect such residence to the major sanitary sewer facility upon approval of the application for connection, subdivision of the parcel into a residence parcel and an outlot, payment of the connection fee for the residence parcel, and construction of appropriate connection structures, as determined necessary by the city engineer.

All other property located within the corporate limits and within a benefited district shall be eligible for connection to the major sanitary sewer facility upon approval of an application for connection by the owner thereof, as provided in this section, and payment of the connection fee for such property, provided such property has been appropriately subdivided for development and provided that all sanitary sewer improvements necessary to serve the property have been constructed and approved by the city. Property located outside the corporate limits of Des Moines shall not be eligible for connection to a major sanitary sewer facility except as otherwise provided herein.

(f) After adoption and publication of a connection fee ordinance for a benefited district, the owners of those properties within the benefited district whose properties are eligible for connection and who propose to connect such properties directly or indirectly to the major sanitary sewer facility shall make application to the city engineer for such connection. No connection shall be made to a major sanitary sewer facility until such application has been approved and until the required connection fee has been paid.

(g) For connections for service within a benefitted district, the sewer connection fee shall be in an amount equal to the maximum acre area of contiguous property or fraction thereof within the benefited district under such ownership which can be lawfully served through such proposed connection, multiplied by the per-acre connection fee established in the connection fee ordinance for that benefited district. For connections for service outside a benefitted district for which service could be provided by a major sanitary sewer facility for which a benefitted district was established, the sewer connection fee shall be in an amount equal to the maximum acre area of contiguous property or fraction thereof under such ownership which can be lawfully served through such proposed connection, multiplied by the per-acre connection fee established in the connection fee ordinance for that benefitted district. The connection fee ordinance may provide for a graduated connection fee, with annual interest adjustments, such that a property owner who connects in later years pays interest on the connection fee for his or her property.

(h) The sewer connection fee required by this section is in addition to and not in lieu of any other fees for connection required under the plumbing code or other sections of this Code.

(i) If any property owner connects his or her property to a major sanitary sewer facility without having made application therefor or without having received approval thereof or without having paid the required connection fee established by a connection fee ordinance, the city shall be entitled to disconnect such private sewer connection until such time as the property owner has made and received approval of his or her application and/or has paid the required connection fee.
(C91, § 21-70.01; O.13,038, 13,379, 13,849, 15,703, 15,733)

Sec. 118-209. Fee for connection to Maury Street Sanitary Sewer—Southeast Twenty-first Street to Southeast Twenty-second Court.

(a) The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Benefitted area property means that property described in article I of appendix G to this Code.

Special assessment agreement means that contract, petition and waiver by and between the city and General Farms Research, Inc., as property owner, and Lillian C. Nelson and Brenton National Bank of Des Moines, as lienholders, approved by the city by roll call 1735, enacted April 23, 1984, as amended by that letter, approved by roll call 2328, enacted May 29, 1984.

(b) Under the terms of the special assessment agreement, General Farm Research, Inc. agreed that the original assessment property shall bear initially the original project cost of $116,914.08 for construction of the Maury Street Sanitary Sewer—Southeast Twenty-first Street to Southeast Twenty-second Court, provided that the city shall endeavor to recover a proportional share of such costs from those other benefited property owners who later connect to such sanitary sewer public improvement. It is the intent of this section to set forth the method to recover such proportional shares from other property owners so that if all property, other than the city right-of-way, which lies within the benefited area boundary is connected to the Maury Street Sanitary Sewer—Southeast Twenty-first Street to Southeast Twenty-second Court during the expected useful life of this improvement, the original assessment property shall bear 70.05 percentage of the original cost and the remaining properties in aggregate shall bear 29.95 percentage thereof.

(c) The owner of every property (other than the properties of General Farm Research, Inc. which were originally assessed for construction of the Maury Street Sanitary Sewer Project from Southeast Twenty-first Street to Southeast Twenty-second Court by reason of the special assessment agreement and the final assessment schedule and acceptance of work, roll call nos. 4899 and 4900, enacted October 22, 1984, the original assessment property, and the city right-of-way) located within the benefited area boundary who proposes to connect such property directly or indirectly to the Maury Street Sanitary Sewer Project from Southeast Twenty-first Street to Southeast Twenty-second Court shall pay to the city a sewer connection fee in an amount equal to the maximum square foot area of contiguous property within the benefited area boundary under such ownership which can be lawfully served through such proposed connection to the sanitary sewer multiplied by $0.096915976 per square foot.

(d) Before connection is made to the city sewer, either:

(1) This sewer connection fee shall be paid; or

(2) If such sewer connection is to be made prior to July 1, 1995, and the property owners and all lienholders, if any, contractually agree to special assessment of this sewer connection fee against their property as if their property had been originally specially assessed for construction of this sewer project and pay an amount equal to the sewer connection fee multiplied by the fraction of X divided by 15 where X is the number of July firsts starting with July 1, 1985 and ending with the July 1 immediately prior to the date of the agreement, or X = 0, if the date of the agreement is prior to July 1, 1985, then the city shall file an amended special assessment schedule which shall assess the unpaid portion of this sewer connection fee against such property and which shall provide that such amount can be paid in equal annual installments on each July 1 commencing on the July 1 following the date of such agreement and ending on July 1, 1999 together with interest thereon at a rate of three percent per annum computed to December 1 following the due date of each installment

and which interest commences (i) October 22, 1984, if such agreement is made prior to July 2, 1985, or (ii) the July 1 immediately preceding the date of such agreement, if such agreement is made after July 1, 1985; provided, however, that the entire amount of such sewer connection fee shall become immediately due if any lawsuit challenges the validity of such special assessment.

(e) Any sewer connection fees received by the city pursuant to this section prior to July 1, 1999 shall be applied to reduce the amount of the assessment against the original assessment property and the city shall file an appropriately amended assessment schedule. To the extent of any sewer connection fees received by the city prior to July 1, 1999 which exceed the remaining amount of the assessment against the original assessment property and for any sewer connection fees received by the city after June 30, 1999, the city shall pay an amount equal to such fees received to General Farm Research, Inc. or its successors or assigns, as appropriate, provided General Farm Research, Inc., or its successors or assigns, are not in default on any of its payment obligations and provided that in no event shall the total of such payments reduce the amount paid to the city by General Farm Research, Inc., or its successors or assigns, below $81,900.20 together with any interest payable on any portion thereof paid by installment.

(f) The sewer connection fee required by this section is in addition to, and not in lieu of, any other fees for connection required under the plumbing code or other sections of this Code.

(g) If any property owner connects to the Maury Street Sanitary Sewer—Southeast Twenty-first Street to Southeast Twenty-second Court without paying or making arrangements to pay the sewer connection fee required by this section, the city shall be entitled to disconnect such private sewer connection until such time as the property owner has paid or made arrangements to pay the sewer connection fee.

(h) No sewer connection fee shall be required for connection to this sanitary sewer project on and after July 1, 2005.

Owners of such residences on parcels of less than one acre in size located within the city and within the benefited district may connect such residences to the Northeast Four Mile Area Trunk Sanitary Sewer upon approval of their application for connection, payment of the connection fee for the parcel, and construction of appropriate connection structures, as determined necessary by the city engineer, and owners of such residences on parcels in excess of one acre in size located within the city and within the benefited district may connect such residences to the Northeast

Four Mile Area Trunk Sanitary Sewer upon approval of their application for connection, subdivision of the parcel into a residence parcel and an outlot, payment of the connection fee for the residence parcel, and construction of appropriate connection structures, as determined necessary by the city engineer. All other property located within the corporate limits and within the Northeast Four Mile Area Trunk Sanitary Sewer System Benefited District shall be eligible for connection to the Northeast Four Mile Area Trunk Sanitary Sewer upon approval of an application for connection by the owner thereof and payment of the connection fee for such property, provided such property has been appropriately subdivided for development, and provided that all sanitary sewer improvements necessary to serve the property have been constructed and approved by the city. The city council may, pursuant to agreement with another governmental entity, authorize the connection of properties outside the corporate limits of Des Moines to the Northeast Four Mile Area Trunk Sanitary Sewer. Upon council approval of such agreement, the properties outside the corporate limits of Des Moines identified in such agreement shall be eligible to connect to the Northeast Four Mile Area Trunk Sanitary Sewer. (O.13,983, 14,253, 14,887)

Sec. 118-216. Fee for connection to the Southeast Ridge Area Trunk Sanitary Sewer System Benefited District.

(a) Pursuant to section 118-208 of this division the Southeast Ridge Area Trunk Sanitary Sewer System Benefited District is established for the purpose of collecting within such district a fee from those property owners who shall make application to connect their properties to the sewer.

(b) The boundaries of the Southeast Ridge Area Trunk Sanitary Sewer Benefited District shall be as described in article I of appendix G to this Code.

(c) A connection fee is established and imposed upon the owners of properties within the Southeast Ridge Area Trunk Sanitary Sewer System Benefited District who shall hereafter make application to connect their properties to the sewer pursuant to section 118-208 of this division. The connection fee for the Southeast Ridge Benefited District shall be $3,297.71 for each acre of property for which application is hereafter made for connection to said trunk sewer; Provided, however, that upon completion of construction of said sewer, the said connection fee shall be subject to adjustment if the actual cost of constructing said sewer is less than the estimated cost thereof; And further provided that upon completion of the construction of said sewer, it is the city's intention to amend this provision to include a schedule of connection fees herein, pursuant to which there will be an annual adjustment of the connection fee as of July 1st of each year, increasing the connection fee in each subsequent year by applying simple interest thereto at the rate of nine percent per annum

(d) Single-family residences within the Southeast Ridge Area Trunk Sanitary Sewer System Benefited District, in existence or under construction upon the effective date of the ordinance from which this section derives, and located within the corporate limits are eligible for connection to the major sanitary sewer facility. Owners of such residences on parcels of less than one acre in size located within the city and within the benefited district may connect such residences to the Southeast Ridge Area Trunk Sanitary Sewer upon approval of their application for connection, payment of the connection fee for the parcel, and construction of appropriate connection structures, as determined necessary by the city engineer, and owners of such residences on parcels in excess of one acre in size located within the city and within the benefited district may connect such residences to the Southeast Ridge Area Trunk Sanitary Sewer upon approval of their application for connection, subdivision of the parcel into a residence parcel and an outlot, payment of the connection fee for the residence parcel, and construction of appropriate connection structures, as determined necessary by the city engineer. All other property located within the corporate limits and within the Southeast Ridge Area Trunk Sanitary Sewer System Benefited District shall be eligible for connection to the Southeast Ridge Area Trunk Sanitary Sewer upon approval of an application for connection by the owner thereof

and payment of the connection fee for such property, provided such property has been appropriately subdivided for development, and provided that all sanitary sewer improvements necessary to serve the property have been constructed and approved by the city.

Sec. 118-217. Fee for connection to the Clover Hill Area Trunk Sanitary Sewer System Benefited District.

(a) Pursuant to section 118-208 of this division the Clover Hill Area Trunk Sanitary Sewer System Benefited District is established for the purpose of collecting within such district a fee from those property owners who shall make application to connect their properties to the sewer.

(b) The boundaries of the Clover Hill Area Trunk Sanitary Sewer Benefited District shall be as described in article I of appendix G to this Code.

(c) A connection fee is established and imposed upon the owners of properties within the Clover Hill Area Trunk Sanitary Sewer System Benefited District who shall make application to connect their properties to the sewer pursuant to Section 118-208 of this division. The connection fee for the Clover Hill Benefited District shall be $2,771.05 for each acre of property connected to the trunk sewer during the period from July 1, 2009 to June 30, 2010. Thereafter, the per-acre connection fee for connections to the sewer shall be annually adjusted as of July 1 of each year by applying simple interest thereto at the rate of five percent per annum, simple interest, as per the following schedule:

	For the Period	
Connection Fee Per Acre	*From*	*To*
$2,771.05	July 1, 2009	June 30, 2010
$2,909.60	July 1, 2010	June 30, 2011

Sec. 118-218. Fee for connection to the Little Four Mile Trunk Sanitary Sewer System Benefited District.

(a) Pursuant to section 118-208 of this division, the Little Four Mile Trunk Sanitary Sewer System Benefited District is established for the purpose of collecting within such district a fee from those property owners who shall make application to connect their properties to the sewer.

(b) The boundaries of the Little Four Mile Trunk Sanitary Sewer System Benefited District shall be described in article I of appendix G to this Code.

(c) A connection fee is established and imposed upon the owners of properties within the Little Four Mile Trunk Sanitary Sewer System Benefited District who shall hereafter make application to connect their properties to the sewer pursuant to section 118-208 of this division. The connection fee for the Little Four Mile Trunk Sanitary Sewer System Benefited District shall be $4,234.00 for each acre of property for which application is hereafter made for connection to said trunk sewer; provided, however, that upon completion of construction of said sewer, the said connection fee shall be subject to adjustment if the actual cost of constructing said sewer is less than the estimated cost thereof; and further provided that upon completion of the construction of said sewer, it is the city's intention to amend this provision to include a schedule of connection fees herein, pursuant to which there will be an annual adjustment of the connection fee as of July 1st of each year, increasing the connection fee in each subsequent year by applying simple interest thereto at the rate of three and one-half percent per annum.

(d) Single-family residences within the Little Four Mile Trunk Sanitary Sewer System Benefited District, in existence or under construction upon the effective date of the ordinance from which this section derives, and located within the corporate limits are eligible for connection to the major sanitary sewer facility. Owners of such residences on parcels of less than one acre in size located within the city and within the benefited district may connect such residences to the Little Four Mile Trunk Sanitary Sewer System upon approval of their application for connection, payment of the connection fee for the parcel, and construction of appropriate connection structures, as determined necessary by the city engineer, and owners of such residences on parcels in excess of one acre in size located within the city and within the benefited district may connect such residences to the Little Four Mile Trunk Sanitary Sewer upon approval of their application of connection, subdivision of the parcel into a residence parcel and an outlot, payment of the connection fee for the residence parcel, and construction of appropriate connection structures, as determined necessary by the city engineer. All other property located within the corporate limits and within the Little Four Mile Trunk Sanitary Sewer System Benefited District shall be eligible for connection to the Little Four Mile Trunk Sanitary Sewer upon approval of an application for connection by the owner thereof and payment of the connection fee for such property, provided such property has been appropriately subdivided for development, and provided that all sanitary sewer improvements necessary to serve the property have been constructed and approved by the city. The city council may authorize the connection of properties outside the corporate limits of Des Moines to the Little Four Mile Trunk Sanitary Sewer as provided in this division and upon payment of the connection fee and compliance with all other requirements of this code.

Sec. 118-219. Fee for connection to the East Army Post Road and Indianola Avenue Trunk Sanitary Sewer Benefited District.

(a) Pursuant to section 118-208 of this division, the East Army Post Road and Indianola Avenue Trunk Sanitary Sewer Benefited District

is established for the purpose of collecting within such district a fee from those property owners who shall make application to connect their properties to the East Army Post Road Trunk Sanitary Sewer from SE 14th Street to Three Lakes Estates.

(b) The boundaries of the East Army Post Road and Indianola Avenue Trunk Sanitary Sewer Benefited District shall be described in article I of appendix G to this Code.

(c) A connection fee is established and imposed upon the owners of properties within the East Army Post Road and Indianola Avenue Trunk Sanitary Sewer Benefited District who shall hereafter make application to connect their properties to the East Army Post Road Trunk Sanitary Sewer from SE 14th Street to Three Lakes Estates pursuant to section 118-208 of this division. The connection fee for the East Army Post Road and Indianola Avenue Trunk Sanitary Sewer Benefited District shall be $8,013.01 for each acre of property for which application is hereafter made for connection to the East Army Post Road Trunk Sanitary Sewer from SE 14th Street to Three Lakes Estates; provided, however, that upon completion of construction of said trunk sewer, the said connection fee shall be subject to adjustment if the actual cost of constructing said trunk sewer is less than the estimated cost thereof; and further provided that upon completion of the construction of said trunk sewer, it is the city's intention to amend this provision to include a schedule of connection fees herein, pursuant to which there will be an annual adjustment of the connection fee as of July 1st of each year, increasing the connection fee in each subsequent year by applying simple interest thereto at the rate of three and one-half percent per annum.

(d) Single-family residences within the East Army Post Road and Indianola Avenue Trunk Sanitary Sewer Benefited District, in existence or under construction upon the effective date of the ordinance from which this section derives, and located within the corporate limits are eligible for connection to the East Army Post Road Trunk Sanitary Sewer from SE 14th Street to Three Lakes Estates. Owners of such residences on parcels of less than one acre in size located within the city and within the benefited district may connect such residences to the East Army Post Road Trunk Sanitary Sewer from SE 14th Street to Three Lakes Estates upon approval of their application for connection, payment of the connection fee for the parcel, and construction of appropriate connection structures, as determined necessary by the city engineer, and owners of such residences on parcels in excess of one acre in size located within the city and within the benefited district may connect such residences to the said trunk sewer upon approval of their application of connection, subdivision of the parcel into a residence parcel and an outlot, payment of the connection fee for the residence parcel, and construction of appropriate connection structures, as determined necessary by the city engineer. All other property located within the corporate limits and within the East Army Post Road and Indianola Avenue Trunk Sanitary Sewer Benefited District shall be eligible for connection to the East Army Post Road Trunk Sanitary Sewer from SE 14th Street to Three Lakes Estates upon approval of an application for connection by the owner thereof and payment of the connection fee for such property, provided such property has been appropriately subdivided for development, and provided that all sanitary sewer improvements necessary to serve the property have been constructed and approved by the city. DIVISION 6. STORM SEWERS

Sec. 118-241. District boundaries.

The storm sewer districts and their boundaries are described in article II of appendix G to this code.

Secs. 118-242—118-270. Reserved.

DIVISION 7. STORMWATER MANAGEMENT UTILITY

Sec. 118-271. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Bonds means revenue bonds, notes, loans or any other debt obligations issued or incurred to finance the costs of construction.

Collection agent means the general manager of the city water works.

Contributor or *user* means any person owning, operating, or otherwise responsible for property within the city which directly or indirectly discharges stormwater or surface or subsurface waters to any portion of the stormwater management system, including direct or indirect discharges to the city's stormwater drainage system, or which is directly or indirectly protected by the city's flood protection system or stormwater drainage system. The term "contributor" or "user" means any person responsible for the direct or indirect discharge of stormwater or surface or subsurface waters to the city's stormwater drainage system.

Costs of construction means costs reasonably incurred in connection with providing capital improvements to the system or any portion thereof, including but not limited to the costs of the following:

(1) Acquisition of all property, real or personal, and all interests in connection therewith including all rights-of-way and easements therefor;

(2) Physical construction, installation and testing including the costs of labor, services, materials, supplies and utility services used in connection therewith;

(3) Architectural, engineering, legal and other professional services;

(4) Insurance premiums taken out and maintained during construction, to the extent not paid for by a contractor for construction and installation;

(5) Any taxes or other charges which become due during construction;

(6) Expenses incurred by the city or on its behalf with its approval in seeking to enforce any remedy against any contractor or subcontractor in respect of any default under a contract relating to construction;

(7) Principal and interest on any bonds; and

(8) Miscellaneous expenses incidental thereto.

Debt service means the amount of money necessary annually to pay the interest on outstanding debt and pay the principal of maturing bonded debt.

Developed property means real property upon which a structure or impervious surface has been placed or constructed, thus increasing the amount of rainwater or surface water runoff.

Director means the public works director as director of the stormwater management utility.

Dwelling unit means a singular unit or apartment providing complete, independent living facilities for one or more persons including permanent provisions for living, sleeping, eating, cooking and sanitation.

Equivalent residential unit or *ERU* means the average impervious area of residential developed property per dwelling unit located within the city as periodically determined and established as provided in this division.

ERU rate means the dollar value periodically determined and assigned to each ERU as a charge for stormwater management services, and expressed as $X.XX per ERU.

Exempt property means public streets, alleys and sidewalks; public and private cemeteries; and public parks, including publicly owned property used for public recreation.

Extension and replacement means costs of extensions, additions and capital improvements to or the renewal and replacement of capital assets of or purchasing and installing new equipment for the system or land acquisition for the system and any related costs thereto or paying extraordinary maintenance and repair, including the costs of construction, or any other expenses which are not costs of operation and maintenance or debt service.

Fiscal year means a 12-month period commencing on July 1 of any year, and ending on June 30 of the succeeding year.

Flood protection system means the system of levees, floodwalls, floodgates, storm sewer gatewells, and stormwater pumping stations lying adjacent to rivers, creeks, and streams within the city, including associated control and operating equipment and facilities whether adjacent to such rivers, creeks, or streams or remotely located, which are intended to provide flood protection to properties adjacent to such rivers, creeks, and streams.

Impervious area means the number of square feet of hard-surfaced areas which either prevent or retard the entry of water into soil mantle, as it entered under natural conditions as undeveloped property, and/or cause water to run off the surface in greater quantities or at an increased rate of flow from that present under natural conditions as undeveloped property, including but not limited to roofs, roof extensions, patios, porches, driveways, sidewalks, pavement and athletic courts.

Multifamily residential property means a residential structure designed with two or more dwelling units to accommodate two or more families or groups of individuals living separately and not sharing the same living space.

Nonoperating revenues refers to revenues derived from activities other than the basic operations of the stormwater management system, but excluding interest income on bond proceeds and on contributed capital.

Nonresidential property means any property developed for commercial, industrial, governmental, or institutional use, including churches, hospitals, and other eleemosynary institutions and including multiuse properties incorporating residential uses, but excluding undeveloped property and property used exclusively for agricultural purposes.

Operating budget means the annual operating budget for the stormwater management utility adopted by the city council for the succeeding fiscal year.

Operations and maintenance expense means the current expenses, paid or accrued, of operation, maintenance and current repair of the system, as calculated in accordance with sound accounting practice, and includes, without limiting the generality of the foregoing, insurance premiums, administrative expenses including recordkeeping, labor, executive compensation, the cost of materials and supplies used for current operations, and charges for the accumulation of appropriate reserves for current expenses not annually incurred, but which are such as may reasonably be expected to be incurred in accordance with sound accounting practice.

Priority watersheds means those drainage areas which the director has determined have a flooding or water quality concern which can be significantly improved by stormwater best management practices identified through strategic watershed planning.

Revenues means all rates, fees, assessments, rentals or other charges or other income received by the utility, in connection with the management and operation of the system, including amounts received from the investment or deposit of moneys in any fund or account and any amounts contributed by the city, all as calculated in accordance with sound accounting practice.

Single-family residential property means a detached residential structure designed as a single dwelling unit to accommodate one family or group of individuals living together and shar-

ing the same living space, but excluding multiuse properties which include single-family residential uses.

Stormwater best management practice (BMP) means a technique, measure, or structural control that is used for a given set of conditions to manage the quantity and improve the quality of stormwater runoff in an effective and practical manner.

Stormwater drainage system means the system of publicly or privately owned or operated rivers, creeks, ditches, drainage channels, pipes, basins, street gutters, and lakes within the city through which or into which stormwater runoff, surface water, or subsurface water is conveyed or deposited.

Stormwater management charge means the charge authorized by state law and this division which is established to pay operations and maintenance, extension and replacement of debt service of the stormwater utility.

Stormwater management utility or *utility* means the enterprise fund utility created by this division to operate, maintain and improve the system and for such other purposes as stated in this division.

Stormwater management utility system or *system* means the existing stormwater management facilities, stormwater drainage system, and flood protection system of the city and all improvements thereto which by this division are constituted as the property and responsibility of the utility, to be operated as an enterprise fund to, among other things, conserve water; control discharges and flows necessitated by rainfall events; and incorporate methods to collect, convey, store, absorb, inhibit, treat, use or reuse water to prevent or reduce flooding, overdrainage, environmental degradation and water pollution or otherwise affect the quality and quantity of discharge from such system.

Total annual revenue requirements refers to the total amount of revenue required in one year to meet all expenditures incurred during that year for the financing of construction and for the operations and maintenance, including administration and renewal and replacement funding, of the stormwater drainage system, including facilities for the collection, transportation, and treatment of stormwater, and of the flood control protection system, including river levees and stormwater pumping stations.

Unclassified residential property means a multifamily residential property whose owner or occupant has appealed the classification of that residential property for purposes of determining the stormwater management charge applicable thereto, requesting instead that the stormwater management charge for that property be determined by applying the ERU rate to the actual impervious area of that property.

Undeveloped property means real property that has no impervious area.

(C91, § 21-127; O.13,075, 13,217, 13,426, 14,949, 15,565, 15,757)

Cross reference—Definitions generally, § 1-2.

Sec. 118-272. Declaration of purpose; establishment of district.

(a) The city council finds, determines, and declares it to be conducive to the health, welfare, safety and convenience of the city and its residents that a stormwater management utility district be established within the city. Consequently, pursuant to I.C. § 384.84(1), a stormwater management utility district, to be known as The Des Moines Stormwater Management Utility, is established, and it is ordained and declared that the city shall be and constitute the stormwater management utility district, and that the utility shall comprise and include elements of the city's stormwater drainage and flood protection systems which provide for the collection, treatment and disposal of stormwater, surface water, and groundwater. It is further found, determined, and declared that the elements of the stormwater management utility are of benefit and provide services to all real properties within the incorporated city limits, including property not directly served by the stormwater drainage system, and that such benefits and services may include but are not limited to the provision of adequate systems of collection, conveyance, detention, treatment and release of stormwater; the reduction of hazard to property and life resulting from stormwater runoff and flooding; improve-

ment in general health and welfare through reduction of undesirable stormwater conditions and flooding; and improvement to the water quality in the stormwater and surface water system and its receiving waters.

(b) It is further determined and declared to be necessary and conducive to the protection of the public health, welfare, safety and convenience of the city and its residents that charges be levied upon and collected from the owners or occupants of all lots, parcels of real estate, and buildings that discharge stormwater or surface or subsurface waters, directly or indirectly, to the city stormwater drainage system, and that the proceeds of such charges so derived be used for the purposes of operation, maintenance, repair, replacement and debt service for construction of the stormwater drainage and flood protection improvements comprising the stormwater management utility.
(C91, § 21-124; O.13,075, 15,757)

Sec. 118-273. Powers, duties and responsibilities.

The stormwater management utility shall have the following powers, duties, and responsibilities:

(1) Prepare ordinances as needed to implement this division and forward the ordinances to the city council for consideration and adoption, and adopt such regulations and procedures as are required to implement this division and carry out its duties and responsibilities.

(2) Administer the acquisition, design, construction, maintenance and operation of the utility system, including capital improvements designated in the comprehensive drainage plan.

(3) Administer and enforce this division and all ordinances, regulations and procedures adopted relating to the design, construction, maintenance, operation and alteration of the utility system, including but not limited to the quantity, quality and/or velocity of the stormwater conveyed thereby.

(4) Inspect private systems as necessary to determine the compliance of such systems with this division and any ordinances or regulations adopted pursuant to this division.

(5) Prepare and revise a comprehensive drainage and flood protection plan for periodic review and adoption by the city council.

(6) Review plans, approve or deny, inspect and accept extensions to the stormwater drainage system.

(7) Establish and enforce regulations to protect and maintain water quality within the system in compliance with water quality standards established by state, regional and/or federal agencies as adopted or amended.

(8) Annually analyze the cost of services and benefits provided, and the system and structure of fees, charges, fines and other revenues of the utility, and make recommendations regarding adjustments to such fees, charges, fines and other revenues.

(9) Prepare an annual operating budget for the utility and make recommendations regarding the financing of the cost of extending and replacing the system.

(C91, § 21-125; O.13,075)

Sec. 118-274. Organization.

The city council shall be the governing body of the stormwater management utility. The stormwater management utility shall be under the direction, management and control of the public works director who shall function as its director. In that capacity, the director shall supervise the day-to-day operation of the stormwater management utility, shall enforce this division and the provisions of all ordinances and regulations adopted pursuant to this division and shall carry out the policy directives of the city council acting in its role as governing body of the stormwater management utility.
(C91, § 21-126; O.13,075, 15,565)

Sec. 118-275. Establishment of ERU, ERU rate and stormwater management charge.

(a) For purposes of this division, an ERU shall be equivalent to 2,349 square feet of impervious property.

(b) Except as provided in this division, every contributor owning or occupying a single-family residential property, a multifamily residential property, an unclassified residential property, or a nonresidential property, other than exempt property, shall pay to the city at the office of the city's collection agent, at the same time payment is made for water service, a stormwater management charge to be determined and billed as provided in this division. In the event the owner and the occupant of a particular property are not the same, the liability for payment of the stormwater management charge attributable to that property shall be joint and several as to the owner and occupant. The stormwater management charge shall be a monthly service charge and shall be determined by this division and the ERU and ERU rate which is established in this division and from time to time adjusted as provided in this division.

(c) The stormwater management charges provided in sections 118-276 through 118-279 of this division shall be applied and computed for each contributor during the customary billing periods as to all bills mailed by the city's collection agent, and such charges shall thereafter be paid and collected as provided in this division.

(d) The ERU rate to be applied to residential and nonresidential properties shall be as follows:

From—To	*ERU Rate*
July 1, 2023—June 30, 2024	$17.17
July 1, 2024—June 30, 2025	$18.20
July 1, 2025—June 30, 2026	$19.29
July 1, 2026—	$20.45

(e) The director shall periodically review the ERU rate and/or budget for the stormwater management utility system. If at any time the director determines that the ERU rate and/or the budget for the stormwater management utility system requires adjustment, the director shall report such determination to the city manager and city council. The city council may at any time adjust the ERU rate by adoption of an ordinance amending this section, and may at any time adjust the budget for the stormwater management utility system by adoption of an appropriate resolution.

(f) No revenues generated by the stormwater utility user fee shall be used for any purpose other than stormwater expenses.

(C91, § 21-128; O.13,075, 13,217, 13,652, 14,194, 14,814, 14,977, 15,095, 15,455, 15,697, 16,274, 16,267, 16,355, 16,547)

Sec. 118-276. Stormwater management charge for single-family residential property.

(a) The stormwater management charge for a single-family residential property shall be a percentage of the ERU rate, based upon the impervious area of the lot or parcel upon which the single-family residence is located, as reflected in the following table:

Impervious Area Rate of the Property (square feet)	*Percentage of ERU Rate*
1,400 or less	50
1,401 to 4,900	100
4,901 or more	150

(b) As to a new single-family residence, the stormwater management charge attributable to that residence shall commence upon the earlier of the following:

(1) The issuance of a certificate of occupancy for the residence;

(2) Ninety days after construction is halted, provided construction is at least 50 percent complete; or

(3) Ninety days after construction is completed, even if a certificate of occupancy has not been issued for the residence.

(c) Any owner or occupant of a residential property aggrieved by the director's calculation of the stormwater management charge as provided in this section may appeal such determination to the director as provided in section 118-281 of this division.
(C91, § 21-129; O.13,075, 13,217)

Sec. 118-277. Stormwater management charge for multifamily residential property.

(a) The stormwater management charge for multifamily residential property shall be the ERU rate multiplied by the number of individual dwelling units existing on the property. As to a new multifamily dwelling or dwelling unit, the stormwater management charge attributable to that dwelling or dwelling unit shall commence upon the earlier of the following:

(1) The issuance of a certificate of occupancy for the dwelling or dwelling unit;

(2) Ninety days after construction is halted, provided construction is at least 50 percent complete; or

(3) Ninety days after construction is completed, even if a certificate of occupancy has not been issued for the dwelling or dwelling unit.

(b) Any owner or occupant of a multifamily residential property aggrieved by the director's calculation of the stormwater management charge as provided in this section may appeal such determination to the director as provided in section 118-281 of this division.
(C91, § 21-130; O.13,075, 13,217)

Sec. 118-278. Stormwater management charge for unclassified residential property.

(a) The stormwater management charge for an unclassified residential property shall be the ERU rate multiplied by the numerical factor obtained by dividing the total impervious area of the particular unclassified residential property by the number of square feet in one ERU. The minimum charge for any unclassified residential property shall be equal to one ERU rate. For newly developed unclassified residential property, the charge attributable to that development shall commence or increase, for additional development to property which is already developed, upon the issuance of the certificate of occupancy for such additional development or, if no certificate of occupancy will be issued for that development or if development has halted, on the date that the director or the director's designee determines in reasonable judgment that the development is substantially complete or has been halted for at least three months.

(b) For separately metered dwelling units within an unclassified residential property with joint users of common impervious areas, the director shall calculate and allocate the pro rata stormwater management charge among the users.

(c) Any owner or occupant of an unclassified residential property aggrieved by the director's calculation of the stormwater management charge or allocation among users may appeal such determination to the director as provided in section 118-281 of this division.
(C91, § 21-131; O.13,075, 13,217)

Sec. 118-279. Stormwater management charge for nonresidential property.

(a) The stormwater management charge for nonresidential property shall be the ERU rate multiplied by the numerical factor obtained by dividing the total impervious area of a nonresidential property by the number of square feet in one ERU. The minimum charge for any nonresidential property shall be equal to one ERU rate. For newly developed nonresidential property, the charge attributable to that property shall commence or increase, for additional development to property which is already developed, upon the issuance of the certificate of occupancy for such additional development or, if no certificate of occupancy will be issued for that development or if development has halted, on the date that the director or the director's designee determines in reasonable judgment that the development is substantially complete or has been halted for at least three months.

(b) For separately metered occupancy units within a nonresidential property with joint users of common impervious areas, the director shall calculate and allocate the pro rata stormwater management charge among the users.

(c) Any owner or occupant of a nonresidential property aggrieved by the director's calculation of the stormwater management charge or allocation among users as provided in this section may appeal such determination to the director as provided in section 118-281 of this division.
(C91, § 21-132; O.13,075, 13,217)

Sec. 118-280. Periodic survey of dwelling unit and impervious surface calculation.

(a) The director or the director's designee shall periodically conduct a survey, not less than once every ten years, of single-family residential properties within the city to determine the appropriate billing category of each such property as provided in section 118-276 of this division. The stormwater management charge for single-family residential properties shall be calculated on the basis of the impervious area thereof as provided in section 118-276 of this division.

(b) The director or the director's designee shall periodically conduct a survey, not less than once every ten years, of all duplex, triplex, and fourplex multifamily residential properties within the city to determine the actual number of dwelling units thereon and shall periodically update such data to keep it current. The stormwater management charge for duplex, triplex, and fourplex multifamily residential properties shall be calculated on the basis of the number of dwelling units on the property, as provided in section 118-277 of this division, unless the owner or occupant organization thereof exercises its appeal option as provided in this division, in which case the stormwater management charge for the property shall be calculated as provided in subsection 118-281(b) of this division.

(c) The director or the director's designee shall periodically conduct a survey, not less than once every ten years, of all multifamily residential properties of more than four units to determine the actual number of dwelling units thereon and shall periodically update such data to keep it current. The stormwater management charge for multifamily residential properties of more than four units shall be calculated on the basis of the number of dwelling units on the property, as provided in section 118-277 of this division, unless the owner or occupant organization thereof exercises its appeal option as provided in this division, in which case the stormwater management charge for the property shall be calculated as provided in subsection 118-281(b) of this division.

(d) The director or the director's designee shall periodically conduct a survey, not less than once every ten years, of all nonresidential properties within the city to determine the actual square footage of impervious area on each such property and shall periodically update such data to keep it current. The stormwater management charge for nonresidential properties shall be calculated on the basis of actual square footage of impervious area of each such property, as provided in section 118-279 of this division, unless the owner or occupant exercises his or her appeal option as provided in this division, in which case the stormwater management charge for the property shall be calculated as provided in subsection 118-281(c) of this division.
(C91, § 21-133; O.13,075, 13,078, 13,093, 13,217, 15,565)

Sec. 118-281. Appeal of lot or parcel area, dwelling unit and impervious surface calculation.

(a) Any owner or occupant of a single-family residential property aggrieved by the initial or any subsequent determination of lot or parcel area and calculation of the stormwater management charge for such property, as provided in section 118-276 of this division, may appeal such determination and calculation to the director. Upon appeal, the stormwater management charge for the property shall be recalculated as provided in section 118-278 of this division, utilizing information supplied by the appealing owner or occupant, provided such information is verified as correct by the director.

(b) Any owner or occupant of a multifamily residential property aggrieved by the initial or any subsequent calculation of the number of dwelling units upon or in such property, calculation of the stormwater management charge, or allocation of such charge among occupants, all as provided in section 118-277 of this division, may appeal such calculations and allocation to the director, and upon appeal the classification of such property shall be changed to unclassified and the stormwater management charge for such property shall be calculated as provided in section 118-278 of this division.

(c) Any owner or occupant of nonresidential property aggrieved by the initial or any subsequent calculation of the total impervious area of such property, calculation of the stormwater management charge for such property, or allocation of such charge among occupants, all as provided is section 118-279 of this division, may appeal such calculations or allocation to the director. Upon such appeal, the stormwater management charge shall be recalculated using information obtained as provided in this section.

(d) An appeal by the owner, occupant, or occupant organization of a single-family or multifamily residential property must be filed in writing within 90 days after the initial billing of the stormwater management charge for that property or within 90 days after any billing showing a recalculation of the stormwater management charge for that property. For an appeal occurring after December 31, 1995 and within 90 days of the initial billing of a property, any adjustment of the stormwater management charge resulting from such appeal shall be retroactive to the date of the initial billing. For an appeal occurring after December 31, 1995 and within 90 days of a billing showing a recalculation of the stormwater management charge, any adjustment of the stormwater management charge resulting from such appeal shall be retroactive to the date the recalculated bill went into effect.

(e) The owner, occupant, or occupant organization of a nonresidential property, who is aggrieved (i) by the initial or any subsequent calculation of the lot or parcel area, or of the impervious area of the property, (ii) by the calculation of the stormwater management charge, or (iii) by the allocation of such charge among occupants, may appeal such determinations, provided that such appeal must be filed in writing within 90 days after the initial billing of the stormwater management charge for that property or within 90 days after any billing showing a recalculation of the stormwater management charge for that property. If an appeal occurs within 90 days after the initial billing of a property, any adjustment of the stormwater management charge resulting from such appeal shall be retroactive to the date of the initial billing. If an appeal occurs within 90 days after a billing showing a recalculation of the stormwater management charge, any adjustment of the stormwater management charge resulting from such appeal shall be retroactive to the date the recalculated bill went into effect.

(f) Appeals by the owners, occupants, or occupant organizations of multifamily residential properties or nonresidential properties shall include a statement of the number of dwelling units, total property area, and/or total impervious area, as appropriate for the particular grounds for appeal. Appeals by the owners of single-family residential properties shall include a statement or data showing the actual square footage of the lot or parcel. Such information may be shown on stormwater management reporting forms or on appeal forms and may be accompanied by plats, county assessor's records, or survey data. The director may request additional information from the appealing party. Based upon the information provided by the utility and appealing party, the director shall make a final calculation of the stormwater management charge. The director shall notify the parties, in writing, of the director's decision within 90 days after receipt of the appeal. If still aggrieved, a party may request, in writing, a review by the city manager of the director's decision. Such request must be filed with the city manager within 30 days after the director's decision, shall cite specific error by the director, and shall include the calculation of the stormwater management charge which the appealing party believes to be correct. The city manager shall review the record presented and render a written decision within 30 days after receipt of the request for review. The city manager may

request for review. The city manager may request additional information from either party. If still aggrieved, a party may request review of the city manager's decision by the city council in the same manner as above provided for review by the city manager. Any property owner aggrieved by the decision of the city council may appeal to the county district court by action filed within 60 days after mailing of the ruling of the city council to the address of the property owner, occupant, or occupant organization as shown on the review request or on the records of the city with respect to the appeal. The filing of an appeal shall not excuse the payment of the stormwater management charge when due. However, the city shall refund any portion of the charge paid subsequent to the filing of the appeal which is adjudged to be excessive, with interest at the rate provided by law.
(C91, § 21-134; O.13,075, 13,114, 13,217)

Sec. 118-282. Rate determinations; compliance with bond covenants.

(a) In calculating the ERU rate as provided in section 118-275 of this division, the director shall include in the budgeted expense and revenue amounts sufficient funds as will ensure compliance with any and all rate covenants applicable to any outstanding bonds, notes or other obligations issued in connection with the construction and operation of the stormwater.

(b) For purposes of complying with any covenant relating to the issuance of additional bonds, notes or other obligations ranking on a parity with outstanding bonds issued in connection with the construction and operation of the stormwater management utility, the director shall, prior to council consideration of the resolution to take additional action for the issuance of such additional bonds, and with such assistance from the city's independent accountants as the director deems necessary, calculate the ERU rate necessary to produce revenues sufficient to comply with such covenant and shall certify the rate to the city manager. The city manager shall inform the city council of the revised ERU rate at the time that the resolution to take additional action for the issuance of such bonds is submitted to the council for its review and approval. Upon council approval of such resolution, the city manager shall publish the revised ERU rate once in a newspaper of general circulation, shall give notice thereof to contributors if and as required by applicable state or federal law, and shall proceed to impose and collect the rate commencing with the next available billing cycle.
(C91, § 21-135; O.13,075, 13,217)

Sec. 118-283. Billing procedures; delinquent accounts and collection procedures.

(a) The procedures for billing of the stormwater management service charges provided in sections 118-276 through 118-279 of this division and for the collection of delinquent stormwater management service charges shall be as provided in sections 118-158 and 118-159 of this article.

(b) Contributors who operate a private water supply and are thus not subject to billing by the city water works may be directly billed for stormwater management services by the city. In such instances, the billing and collection of stormwater management charges shall be subject to the same rules and procedures as to delinquency in payment, certification of delinquency, and property lien as provided in sections 118-158 and 118-159 of this article.
(C91, § 21-136; O.13,075, 13,166, 13,217)

Sec. 118-284. Annual review of ERU rate.

Under this division, the director will review the ERU rate annually and revise the rate as necessary to ensure that the system generates adequate revenues to pay total annual revenue requirements.
(C91, § 21-137; O.13,075)

Sec. 118-285. User notification.

The city will notify each contributor at least annually, in conjunction with a regular bill, of the ERU rate being charged for operation, maintenance including extension and replacement of the system; provided, however, that liability to pay stormwater management charges as provided in this division is not contingent upon such notification.
(C91, § 21-138; O.13,075)

Sec. 118-286. Duties and bond of collection agent.

(a) Under this division, the collection agent is charged with the responsibility of billing all contributors except those billed directly by the city pursuant to subsection 118-283(b) of this division. The collection agent shall collect such charges at the same time, place and in conjunction with the water rentals in accordance with the stormwater management charges provided in sections 118-275 through 118-279 of this division.

(b) For the faithful performance of the duties of collection agent and for accounting for all funds coming into his or her hands, the collection agent shall give a fidelity bond to the city in the principal amount of $5,000.00. The collection agent shall receive reasonable compensation as fixed or agreed to by the city council.

(c) Except only as provided in section 118-164 of this article, all monies received by the collection agent from stormwater management charges shall be transmitted to the city treasurer to be kept in separate funds.
(C91, § 21-139; O.13,075, 15,697)

Sec. 118-287. Expenses of collection of stormwater management charges.

The incremental cost of collecting and accounting for all stormwater management charges, including reasonable compensation to the collection agent; the maintenance of all books and records; the employment of necessary personnel; the cost of all books, records, materials and supplies; the obtaining and maintaining of all office and storage space; and all other costs and expenses reasonably necessary in connection therewith or incidental thereto, shall be a part of the cost of operating the stormwater utility and shall be incurred when the collection agent, in the exercise of his or her judgment, shall so determine. The incremental cost thereof shall be deducted by the collection agent, upon his or her certification as to the amount thereof, from the remittance to which it relates, subject to the condition that any proposed change in any method of computing such incremental cost may be effective prospectively only and only after such proposed change shall have been submitted to and approved by the city council.
(C91, § 21-140; O.13,075)

Sec. 118-288. Inconsistent agreements or contracts.

This division shall take precedence over any terms or conditions of agreements or contracts which are inconsistent with the requirements of section 204(b)(1)(A) of the Federal Water Pollution Control Act and section 35.2140 of 40 CFR 35, dated May 12, 1982, as amended.
(C91, § 21-141; O.13,075)

Sec. 118-289. Reserved.

Editor's note—Ord. No. 15,095, § 1, adopted March 26, 2012, repealed § 118-289, which pertained to termination and derived from Code 1991, § 21-143; Ord. No. 13,078.

Secs. 118-290—118-294. Reserved.

Sec. 118-295. Establishment of stormwater best management practices program.

(a) The city council finds, determines, and declares it to be conducive to the health, welfare, safety and convenience of the city and its residents, and in compliance with the requirements of section 118-273, that a subsidy program be established to reimburse contributors for qualifying stormwater best management practices, as described in section 118-296, which help to enhance the water quality of stormwater runoff and/or to decrease the amount of stormwater runoff that enters the stormwater drainage system. The Environmental Protection Agency and Iowa Department of Natural Resources have mandated that municipalities promote the use of stormwater best management practices to address water quality and quantity issues. The goals of this program are to create a cost effective and sustainable incentive for the construction of stormwater best management practices within the city, to increase public awareness of the need to control stormwater runoff and to educate the public about sustainable practices to control stormwater runoff. The city has allocated from the stormwater sewer user fee revenues a sum

sufficient to provide a subsidy, as described in section 118-296, to contributors who elect to make qualifying improvements to their property within the corporate boundaries of Des Moines as described in section 118-296. The amount of the stormwater best management practices program subsidy shall be as described in section 118-296.

(b) The director or the director's designee shall make a stormwater best management practices subsidy provided in this division to contributors who meet the requirements of this division.

(c) The city shall have the right to suspend or terminate this program if the city council determines that continuation of such program is likely to have an adverse effect on sewer service collections so that the applicable bond rate covenants will not be met.
(O.14,949, 15,565, 16,253)

Sec. 118-296. Qualifying practices and method of making subsidy payments.

(a) Qualifying stormwater best management practices, or qualifying practices, which shall be considered eligible for subsidy include bio-retention cells, rain gardens, permeable paving systems, rain barrels, streambank stabilization, soil quality restoration, native landscaping or other similar practices approved by the director. Stormwater best management practices shall meet design criteria in the Iowa Storm Water Management Manual or other applicable design guidance approved by the director. Stormwater best management practices which are required by Chapter 42, Article XI of this Code or those for which the property owner seeks reimbursement from other sources of city funding, shall not be eligible for subsidy.

(b) The stormwater best management practices program will provide a maximum of a $2,000.00 subsidy as a reimbursement for 50% of the reasonable total out of pocket cost of materials and labor per property for a qualifying practice or a combination of qualifying practices.

A property which has received the maximum subsidy amount is not eligible for additional subsidies under this program, regardless of a change in ownership or use, until at least 10 years have passed since the date of issuance of the prior subsidy.

(c) Within priority watersheds, the stormwater best management practices program will provide a maximum of a $4,000.00 subsidy as a reimbursement for 100% of the reasonable total out of pocket cost of materials and labor per property for a qualifying practice or a combination of qualifying practices.

(d) The qualifying practice must have been installed after January 1, 2017 and installation completed by no later than June 30, 2028.

(e) A completed stormwater best management practices program application form and supporting documentation must be submitted to the department of public works by no later than June 1, 2028 and prior to commencement of the work in order to be eligible for the subsidy. The application must be approved before work is begun in order to be eligible for reimbursement.

(f) The account for the stormwater management fee charges on the property must be current as to the payments.

(g) Upon completion of the work and no later than August 31, 2028, the applicant must submit to the department of public works the documentation of the actual cost of the qualifying practice, which must include an itemized invoice that identifies the materials and labor and a copy of the full payment. The amount of funding for this program will be capped on an annual basis at an amount recommended by the director in the public works department operating budget as approved by the city council. To the extent that program funds are available, subsidies shall be provided to qualified applicants in the order in which completed applications are received.

(h) The city manager shall make all procedural and administrative determinations necessary to implement this program not in conflict with the provisions and intent of this division.
(O.14,949, 15,565, 15,757, 16,253)

Sec. 118-297. Limitations.

(a) In no case shall the city's stormwater best management practices program subsidy reimbursement pursuant to this division exceed the amount of the eligible costs paid or to be paid by the property owner for the qualifying improvements.

(b) Any person making a false statement, claim or application for the purpose of obtaining the subsidy provided for in this division for any two or more persons who conspire and confederate together to make such false statement, claim or affidavit or to assist another to do so shall be recommended to the county attorney for criminal prosecution.
(O.14,949, 16,253)

Secs. 118-298, 118-299. Reserved.

DIVISION 8. PRIVATE PROPERTY PROTECTION PROGRAM

Sec. 118-300. Established.

(a) The city council finds, determines, and declares it to be conducive to the health, welfare, safety and convenience of the city and its residents that a subsidy program be established to reimburse property owners for qualifying plumbing work which removes sources of infiltration and inflow from the private sewer system and which protects properties adversely affected by excessive flows in the sanitary sewer collection system. The city has allocated from the sanitary sewer user fee revenues a sum sufficient to provide a subsidy, as described in section 118-301, to property owners who elect to make qualifying improvements to their property as described in section 118-302. The amount of the private property protection program subsidy shall be equal to 100% of the cost of the qualifying improvements performed by a licensed plumber and shall not exceed $1,500.00 per property.

(b) For purposes of this article, the term "property owner" or "owner" shall mean the owner of record of a property or the party in possession thereof under lease or contract who paid the eligible costs for the qualifying improvements applicable to the property, and who is responsible for payment of municipal utility charges against the property, including water service charges, sanitary sewer service charges, solid waste collection service charges, and stormwater management charges.

(c) For purposes of this division, the term "property" shall mean those properties within the corporate boundaries of the City of Des Moines for which there is an account with the Des Moines Water Works that is currently being billed for sanitary sewer service fees.

(d) For purposes of this division, the term "licensed plumber" shall mean those persons who are certified or licensed plumbers in conformance with chapter 26 of this Code.
(O.14,815, 15,564, 15,688)

Sec. 118-301. Method of making subsidy reimbursement.

(a) The public works director shall make a private property protection program subsidy reimbursement provided in this division to property owners who meet the requirements of this division.

(b) The city shall have the right to suspend or terminate this private property protection program if the city council determines that continuation of such program is likely to have an adverse effect on sewer service collections so that the applicable bond rate covenants will not be met.
(O.14,815)

Sec. 118-302. Qualifying improvements.

(a) The private property protection program will provide a maximum of a $1,500.00 subsidy as a reimbursement for 100% of the reasonable total cost actually paid by the property owner for any materials and labor for the qualifying improvements to existing structures on private property.

(b) The work must have been performed and completed between the dates of January 1, 2017 and June 30, 2028.

(c) The property improvements deemed qualifying for subsidy from the private property protection program are limited to the new installation of a backwater valve(s) to protect the entire basement or lowest level only, the disconnection of roof leaders from the sanitary sewer service, the new installation or redirection of a sump pump to discharge flows from foundation drains and area drains to a non-sanitary sewer outlet such as a rain garden, storm sewer, or the ground surface. Any work performed due to a requirement by the city is not eligible for the subsidy.

(d) A completed private property protection program subsidy application form must be submitted by June 1, 2028 and prior to commencement of the work for which the applicant desires to receive reimbursement in order to determine if the proposed work qualifies for a subsidy and if there are sufficient funds in the program. The application must be approved before work is begun in order to be eligible for reimbursement. The account for the sanitary sewer fee charges on the property must be current as to payments.

(e) Upon completion of the work and no later than August 31, 2028, the applicant must submit to the department of public works documentation of the cost of the qualifying improvements which must include a copy of an itemized invoice from a licensed plumber or plumbing firm that identifies the work performed and a copy of the full payment.

(f) The work must be performed by a licensed plumber under a city plumbing permit.

(g) A property for which the maximum subsidy amount has been reimbursed by the city is not eligible for additional subsidies under this program, regardless of a change in ownership or use, until at least ten years have passed since the last date of issuance of the prior subsidy.

(h) The amount of funding for this program will be capped at an annual basis at an amount recommended by the director in the public works department operating budget and as approved by the city council. To the extent that program funds are available, subsidies shall be provided to qualified applicants in the order in which completed applications are received.
(O.14,815, 15,008, 15,564, 15,688, 16,254, 16,442)

Sec. 118-303. Administration.

The city manager shall make all procedural and administrative determinations necessary to implement this division not in conflict with the provisions and intent of this division.
(O.14,815)

Sec. 118-304. Limitations.

(a) In no case shall the city's private property protection program subsidy reimbursement pursuant to this division exceed the amount of the eligible costs paid or to be paid by the property owner for the qualifying improvements.

(b) Any person making a false statement, claim or affidavit for the purpose of obtaining the subsidy reimbursement provided for in this division for any two or more persons who conspire and confederate together to make such false statement, claim or affidavit or to assist another to do so shall be recommended to the county attorney for criminal prosecution.

ARTICLE III. REGULATION OF INDUSTRIAL WASTEWATER AND COMMERCIAL WASTEWATER*

DIVISION 1. GENERAL PROVISIONS REGARDING INDUSTRIAL WASTE

Sec. 118-316. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings

*__Editor's note—__Ord. No. 14,549, § 1, adopted March 20, 2006, repealed the former Art. III, §§ 118-316—118-323, 118-351—118-362, 118-391—118-407, 118-436—118-447, and enacted a new Art. III as set out herein. The former Art. III pertained to industrial waste. See the Code Comparative Table for complete derivation.

ascribed to them in this section, except where the context clearly indicates a different meaning:

Act or *Clean Water Act* means the 1972 Federal Water Pollution Control Act, the 1977 Clean Water Act, and the 1987 Water Quality Act, as amended.

Approval authority means the Iowa Department of Natural Resources.

Authorized representative means:

(1) An executive officer of a corporation.

(2) A general partner of a partnership.

(3) The proprietor of a proprietorship.

(4) The conservator, trustee, attorney in fact, receiver or other person or agent authorized in law and in fact to act on behalf of users which are not corporations, partnerships, or proprietorships or on behalf of other entities which must legally act through an agent.

(5) Any other authorized representative of a person or entity identified in subsections (1), (2), (3), or (4) of this definition, if the authorization specifies either an individual or a position having responsibility for the overall operation of the facility from which the discharge originates, such as the position of plant manager or a position of equivalent responsibility, or having overall responsibility for environmental matters for the company and the written authorization is submitted to the director.

(6) Any other person authorized by law to act on behalf of any entity.

Baseline monitoring report means the report required by 40 CFR 403.12(b)(1-7).

Biochemical oxygen demand (BOD) means the analysis of BOD as described in Environmental Protection Agency methods.

Building drain means that part of the lowest horizontal piping of a drainage system which receives the discharge from waste and other drainage pipes inside the wall of the building and conveys it to the building sewer, beginning three feet outside the building wall.

Building sewer or *lateral sewer* means the sewer extending from the building drain to the connection with the POTW.

Bypass means the intentional diversion of waste streams from any portion of an industrial user's pretreatment facility.

Carbonaceous Biochemical Oxygen Demand (CBOD) means the analysis of BOD as described in Environmental Protection Agency methods while inhibiting the nitrogenous oxygen demand.

Categorical user means a user subject to National Categorical Pretreatment Standards.

Chemical oxygen demand (COD) means the measurement of the susceptibility of a sample to oxidation by a strong chemical oxidant expressed in mg/l and using Environmental Protection Agency methods.

City means the political subdivision known as the City of Des Moines, Iowa, and also means the territory within the corporate boundaries of the City of Des Moines.

City sanitary sewer system or *sanitary sewer system* means the local outfall sewers, trunk sewers, pumping stations, force mains, and wastewater equalization basins, and all other structures, devices and appliances appurtenant thereto, which are used for collecting, conveying or storing wastewater and which serve and are owned, operated and maintained by the city or by a sanitary district serving the city.

Combined waste stream formula means the formula as found in 40 CFR 403.6(e).

Composite sample means a representative sample using a minimum of three grab sample aliquots obtained over a period of time and mixed using either a flow proportional or time proportional method.

Conventional pollutant means BOD, COD, O&G, suspended solids, pH, ammonia nitrogen, total Kjeldahl nitrogen and fecal coliform bacteria.

Discharge or *indirect discharge* means the introduction of treated or untreated wastewater into the POTW.

Dissolved solids means the concentration of residue left in an evaporating dish after evaporation and drying at defined temperatures using Environmental Protection Agency methods or standard methods.

Domestic wastewater means all household-type waste discharged from places of human habitation, including toilet, bath, kitchen and laundry wastewater. *Domestic wastewater* is further defined as waste which does not exceed daily maximum limits of 300 mg/l COD, 200 mg/l BOD, 250 mg/l suspended solids, 100 mg/l oil and grease, 30 mg/l TKN, and 15 mg/l NH3-N at a discharge rate of 100 gallons per capita per day. This loading is equal to 0.25 pound of COD, 0.17 pound of BOD, 0.20 pound of suspended solids, 0.083 pound of oil and grease, 0.025 pound of TKN and 0.013 pound of NH3-N per capita per day.

Domestic user means a person discharging only domestic wastewater to the POTW, which wastewater is discharges from any building or parts of a building designed for or occupied by one or more persons as a single housekeeping unit, including such units within multifamily dwellings and apartment buildings, which building or premises is a source of wastewater discharge into a POTW.

Environmental Protection Agency or *EPA* means the U.S. Environmental Protection Agency.

Environmental Protection Agency methods means standard procedures for wastewater analysis approved by the U.S. Environmental Protection Agency and prescribed in 40 CFR 136, and includes alternate methods approved by the approval authority.

E. Coli or Escherichia coli means bacteria that are a member of the fecal coliform group and whose presence indicates fecal contamination in water.

Fecal coliform means bacteria common to the intestinal tracts of humans and animals whose presence in water is an indication of pollution.

Fat, oil, and grease or *oil and* grease or FOG means those substances which are detectable and measurable using analytical test procedures established in 40 CFR 136, as may be amended from time to time. All are sometimes referred to herein as "grease" or "greases".

Garbage means solid waste from the domestic and commercial preparation, cooking and dispensing of food, and from the commercial handling, storage and sale of produce.

Grab sample means a single aliquot sample collected either directly or by means of a mechanical device.

Headworks means the main wet well at the WRF prior to any treatment process.

Industrial user means a person whose property, building or premises is a source of wastewater discharge into the POTW, other than a domestic user.

Industrial waste means the liquid waste from industrial users as distinct from domestic sewage.

Interference means a discharge which, alone or in conjunction with a discharge or discharges from other sources, which both:

(1) Inhibits or disrupts the POTW, its treatment processes or operations, or its sludge processes, use or disposal, and

(2) Causes a violation of any requirement of the WRA's National Pollutant Discharge Elimination System permit (including an increase in the magnitude or duration of a violation) or prevents sewage sludge use or disposal in compliance with any federal, state or local regulations or permits.

Limit means the maximum allowable discharge of a given pollutant as in the following definitions:

(1) *Daily maximum limit* or *daily instantaneous maximum limit* means the maximum allowable discharge of pollutant as measured at any time during a calendar day, expressed as either a concentration limit or a daily mass limit. It is a violation if the concentration limit on any single sample taken exceeds that discharge limits in the discharge permit for the user, or the discharge limits set forth in section 118-343.

(2) *Monthly average limit* means the maximum allowable value for the average of all measurements of a pollutant obtained during one calendar month.

National Categorical Pretreatment Standards (NCPS) or *categorical standards* means any limitations on pollutant discharges to POTW promulgated by the U.S. Environmental Protection Agency that apply to specified process wastewater of particular industrial categories.

National Pollutant Discharge Elimination System (NPDES) permit means a permit issued pursuant to the Act.

New source means a source as defined by 40 CFR 403.3(k).

Nonconventional pollutants means all pollutants which are not included in the definition of conventional pollutants.

Non-significant categorical industrial user (NSCIU) is a categorical user which never discharges more than 100 gallons per day of total categorical wastewater, as defined in 40 CFR 403.3(v)(2).

NH3-N means the ammonia nitrogen concentration in mg/l as determined using Environmental Protection Agency methods.

O&M means operation and maintenance.

Pass through means a discharge which exits the POTW into water of the state in quantities or concentrations which, alone or in conjunction with a discharge from other sources, is a cause of a violation of any requirement of the WRA's National Pollutant Discharge Elimination System permit, including an increase in the magnitude or duration of a violation, or other permit issued to the WRA by the Iowa Department of Natural Resources or the U.S. Environmental Protection Agency.

Person means any individual, partnership, co-partnership, firm, company, association, joint stock company, society, corporation trust, estate, municipality, governmental entity, group, or any other legal entity, or their legal representatives, agents, or assigns.

pH means the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.

Pollution means the alteration of chemical, physical, biological, or radiological integrity of water as a result of human activity or enterprise.

POTW treatment plant means that portion of the publicly owned treatment works which is designed to provide treatment, including recycling and reclamation, of municipal sewage and industrial waste.

Pretreatment means the reduction, elimination, or alteration of the nature of pollutant properties in wastewater prior to or in lieu of discharging or otherwise introducing such pollutants into the POTW.

Pretreatment facility means the equipment used to accomplish pretreatment.

Pretreatment requirements means any substantive or procedural requirement related to pretreatment standards, imposed on an industrial user.

Pretreatment standards means, for any specified pollutant, the prohibitive discharge standards as set forth in section 118-342 of this article, the specific limitations on discharge as set forth in section 118-343 of this article, the state pretreatment standards or the National Categorical Pretreatment Standards, whichever standard is most stringent.

Properly shredded garbage means the waste from the preparation, cooking and dispensing of food that has been shredded to such a degree that all particles are carried freely under the flow conditions normally prevailing in the POTW, with no particle greater than one-half inch in any dimension.

Publicly owned treatment works or *POTW* means and includes "POTW" treatment works as defined by section 212 of the Act, and which is owned by the Des Moines Metropolitan Wastewater Reclamation Authority or any of Participating Communities that make up the WRA. This definition includes any devices and systems used in the storage, treatment, recycling and reclamation of municipal sewage or industrial wastes of a liquid nature. It also includes sewers, pipes and other conveyances if they convey wastewater to a POTW Treatment Plant.

Sampling chamber or *sampling maintenance hole* means a device or structure suitable and appropriate to permit sampling and flow measurement of a wastewater stream to determine compliance with this article.

Severe property damage means substantial physical damage to property, damage to a pretreatment facility causing it to become inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production.

Sewage means and includes wastewater as herein defined.

Sewage system means sewers, intercepting sewers, pipes or conduits, pumping stations, force mains, and all other constructions, devices and appliances appurtenant thereto used for collecting or conducting sewage to a point of treatment or ultimate disposal.

Significant user means:

(1) All categorical users.

(2) All industrial users that:

a. Discharge 25,000 gallons per day or more of process wastewater (excludes sanitary, non-contact cooling, and boiler blowdown wastewater);

b. Contribute a process waste stream which makes up five percent or more of the average dry weather hydraulic or organic capacity of the WRF; or

c. Contribute a discharge that has a reasonable potential, in the opinion of the director, to adversely affect the POTW treatment plant by causing interference or pass through.

Sludge means the solids separated from the liquids during the wastewater treatment process.

Slug or *slug load* means any discharge of water or wastewater which, in concentration of any pollutant, measured using a grab or composite sample, is more than five times the allowable concentration as set forth in sections 118-342 and 118-343 of this article or in a user's most recent wastewater discharge permit or which exceeds a slug concentration level specified in a wastewater discharge permit. A discharge with pH outside the allowable range by more than one standard unit (S.U.) shall also be considered a slug.

Standard Industrial Classification (SIC) means a classification pursuant to the Standard

Industrial Classification Manual issued by the Executive Office of the President, Office of Management and Budget, most recent edition.

Standard Methods means the laboratory procedures set forth in the latest USEPA approved edition of Standard Methods for the Examination of Wastewater prepared and published jointly by the American Public Health Association, the American Water Works Association, and the Water Environment Federation.

Storm sewer means a sewer which carries stormwater, surface water and drainage but excludes sewage and industrial waste other than unpolluted cooling water.

T, when used as a portion of a chemical name, shall designate "total" such as in "cyanide-T" where "T" means "total" cyanide.

TKN means the Total Kjeldahl Nitrogen concentration expressed in mg/l as determined using Environmental Protection Agency methods or Standard Methods.

Total metal means the sum total of the suspended and dissolved concentrations of a metal specified in a wastewater discharge permit or as specified in section 118-343 hereof.

Total Suspended Solids (TSS) means the portion of total solids retained by a filter using Environmental Protection Agency methods or Standard Methods.

Total Toxic Organics (TTO) means the summation of all quantified values greater than 0.01 milligram per liter for the toxic organics as specified in the applicable regulation.

Toxic pollutant means any pollutant or combination of pollutants listed in 40 CFR 403, appendix B.

Unpolluted water means water containing none of the following: free or emulsified oil and grease; substances that may impart taste, odor or color characteristics; volatile, explosive, toxic or poisonous substances in suspension or solution; explosive, odorous or otherwise obnoxious gases. Such water shall not contain more than 25 mg/l of suspended solids, and not more than 25 mg/l of BOD.

Upset means an exceptional incident in which there is unintentional and temporary noncompliance with pretreatment standards because of factors beyond the reasonable control of the user. An upset does not include noncompliance to the extent caused by operational error, improperly designed pretreatment facilities, inadequate pretreatment facilities, lack of preventive maintenance, or careless or improper operation.

User means a person discharging anything other than domestic wastewater into the POTW, and includes categorical users as herein defined.

Waste generator means any person which hauls or has hauled on its behalf wastewater it generates to the WRF.

Waste hauler means a private contractor licensed by the WRA to deliver wastewater to the WRF or other locations approved by the WRA director, and includes all persons required to have a license under section 118-451 of this chapter.

Wastewater means and includes *sewage* as defined in federal law and regulation, or a combination of the liquid and water-carried waste from residences, commercial buildings, institutions and industrial establishments, together with such groundwater, surface water, and stormwater as may be present, whether treated or untreated, which is contributed into or permitted to enter the POTW.

Wastewater discharge permit means the document issued to a user by the WRA in accordance with the terms of this article which permits such user to discharge wastewater to the POTW.

Water of the state means all streams, lakes, ponds, marshes, watercourses, waterways, wells, springs, reservoirs, aquifers, irrigation systems, drainage systems and all other bodies or accumulations of water, surface or underground, natural or artificial, public or private, which are contained within, flow through or border upon the state or any portion thereof.

WRA or *wastewater reclamation authority* means the Des Moines Metropolitan Wastewater Reclamation Authority, an entity organized and existing under Chapters 28E and 28F of the Iowa

Code, and established pursuant to the WRA Agreement. The term "WRA" means and includes the representatives of the Participating Communities on the WRA Board, and the officers and employees of the WRA.

WRA agreement means the Amended and Restated Agreement for the Des Moines Metropolitan Wastewater Reclamation Authority, approved and executed by the WRA and its Participating Communities and effective as of July 1, 2004.

WRA director or *director* means the person appointed by the WRA board, or by the WRA operating contractor upon consultation with the board, as provided in Section 2.63 of the WRA operating contract, who is charged with the administration and management of the WRA system and of the provision of all services outlined in operating contract. Unless otherwise indicated in the text, the director shall mean and include the person acting as the director's authorized designee in the director's absence in carrying out the director's duties under this article.

WRA operating contractor or *operating contractor* means the City of Des Moines, pursuant to the initial operating contractor executed by the City of Des Moines and the WRA board on and as of July 1, 2004, or such successor operating contractor as the WRA shall contract with to provide operation and management services to the WRA

WRA participating community or WRA *participating communities* means, individually or collectively, depending on context, the cities of Altoona, Ankeny, Bondurant, Clive, Cumming, Des Moines, Grimes, Johnston, Norwalk, Pleasant Hill, Polk City, Waukee, and West Des Moines, and Polk County, Warren County, the Urbandale Sanitary Sewer District, the Urbandale-Windsor Heights Sanitary District and the Greenfield Plaza/Hills of Coventry Sanitary District, together with any other cities, counties, or sanitary districts that become participating communities under the provisions of the WRA agreement.

WRA wastewater collection and conveyance system or *WCCS* means the WRA sanitary sewer interceptors and extensions to same, detention basins, equalization basins, storage facilities, pumping stations, force mains and all related property and improvements.

WRA wastewater reclamation facility or *WRF* means the wastewater treatment plant located generally at 3000 Vandalia Road, Des Moines, Iowa, as the same may be expanded or improved in the future, and any other wastewater treatment plants hereafter acquired or constructed and operated by the WRA.

WRA system means and includes the WRF, the WCCS, satellite wastewater and CSO treatment facilities hereafter constructed, all real and personal property of every nature hereinafter owned by the WRA and comprising part of or used as a part of the WRA system, and all appurtenances, contracts, leases, franchises and other intangibles of the WRA.

Sec. 118-318. General adoption.

The provisions of this article are enacted to aid in the enforcement of the pretreatment regulations set forth in this article and may be placed in a separate portion of the municipal or county code of any WRA participating community which adopts these provisions. Each WRA participating community by enacting this article designates the WRA and its operating contractor as the enforcement agency under this article. Employees, agents and officers of the WRA and of its operating contractor, while acting to enforce this article for the WRA, are empowered to make such inspections, issue such orders or permits and take such actions within the corporate boundaries of the city as are authorized by this article. The WRA or its operating contractor is also authorized to impose and collect all fees or penalties authorized by this article, and are authorized to directly bill and collect from contributors penalties, fees charges and surcharges from all users within the city. A user's failure to pay any fee, charge, penalty or surcharge is a municipal infraction and shall also be grounds to discontinue sewer service to the user, all as hereafter more particularly provided. The enforcement of this article in the city is not dependent upon passage of this article or a similar ordinance by other WRA participating communities.
(O.14,549)

Sec. 118-319. Intent and construction.

This article seeks to implement provisions of the Act, the general pretreatment regulations found at 40 CFR, Part 403, and the Iowa Administrative Code, chapter 567, sections 62.4 and 62.8. This article is to be construed and applied in accordance with the Clean Water Act amendments, the general pretreatment regulations, the Iowa Administrative Code and the purpose and policy provision set forth in section 118-320 of this division.
(O.14,549)

Sec. 118-320. Purpose and policy.

(a) This article regulates the use of sanitary sewers; private wastewater disposal; the installation and connection of building sewers; and the discharge of wastewater or waste into the POTW. This article sets forth uniform requirements for discharges into the POTW, and the deposit of wastewater and waste hauled to the WRF or to other locations approved by the WRA director for disposal and treatment.

(b) The objectives of this article are to:

(1) To prevent the introduction of pollutants into the POTW that may interfere with the operation of the system or interfere with sludge management and disposal.

(2) Prevent the introduction of pollutants into the POTW that may pass through the system inadequately treated and ultimately into receiving water, the atmosphere, or otherwise be incompatible with the system.

(3) Protect workers' safety and health and protect against damage to the POTW.

(4) Provide for equitable distribution of treatment and industrial pretreatment costs resulting from pollutants introduced into the POTW.

(O.14,549)

Sec. 118-321. Jurisdiction.

The sections of this article are applicable in their entirety to all users who contribute wastewater, directly or indirectly, into the POTW

without regard to whether the physical facilities of such users are situated within or outside the corporate limits of the city.
(O.14,549)

Sec. 118-322. Severability.

If any provision of this article or the application thereof to any particular person or particular circumstance is held invalid, the invalidity shall not affect other provisions or application of this article which can be given effect without the invalid provision or application. To this end the provisions of this article are severable.
(O.14,549)

Sec. 118-323. Interpretation.

This article shall be construed and interpreted to conform with 40 CFR I, and it is the intent of this article that it comply with the federal regulations.
(O.14,549)

Secs. 118-324—118-340. Reserved.

DIVISION 2. WASTEWATER TREATMENT AND PRETREATMENT

Sec. 118-341. User requirements.

(a) The following requirements shall apply to all users of the POTW:

(1) All users shall promptly notify the WRA director in advance of any substantial change in the volume or character of pollutants in their discharge.

(2) New or increased contributions of pollutants or changes in the nature of pollutant discharged to the POTW shall require prior approval by the WRA director.

(3) Industrial users shall notify the WRA director, the Environmental Protection Agency Regional Waste Management Division Director, and state hazardous waste authorities in writing of any discharge into the POTW of a substance which, if otherwise disposed of, would be a hazardous waste under 40 CFR 261. The notification shall comply with the requirements set forth in 40 CFR 403.12(p).

(4) Discharge of any pollutants without the notice and approval required by this section is prohibited. Upon the receipt of notice required by this section, the WRA director shall within 180 days or less approve the discharge if he or she finds the proposed discharge meets applicable pretreatment standards and requirements and would not cause the WRA to violate its National Pollutant Discharge Elimination System permit. The WRA director shall deny permission for the discharge if he or she finds applicable pretreatment standards and requirements are not met or the discharge would cause a violation of the National Pollutant Discharge Elimination System permit for the WRF. In lieu of denial of permission for discharge, the WRA director may allow such discharge or contribution upon conditions which would not violate applicable pretreatment standards or requirements and would not cause a violation of the National Pollutant Discharge Elimination System permit for the WRF.

(5) Food service establishments shall be regulated first under division 5 of this article but may be required to obtain a wastewater discharge permit and be subject to the requirements of divisions 1 through 4 if the WRA director determines that additional pretreatment is required in order to comply with fat, oil, and grease discharge limits.

(b) Any part of this section notwithstanding, upon receipt of the notice required by this section, the WRA director may require, in addition to the requirements of this section, that an industrial user obtain a permit under this article.

(c) Users who are determined to be industrial users as herein defined and who refuse to apply for or obtain a wastewater discharge permit shall be subject to termination of sewer services as provided in section 118-402 hereof.
(O.14,549)

Sec. 118-342. Discharge prohibitions.

The following general prohibitions shall apply to all users of the POTW unless the user is subject to a more restrictive National Categorical Pretreatment Standards, the Iowa Department of Natural Resources, or wastewater discharge permit limit. The following substances are prohibited from discharge to the POTW:

(1) Pollutants creating a fire or explosion hazard in the POTW, including but not limited to waste streams with a closed cup flashpoint of less than 140 degrees Fahrenheit (60 degrees Celsius) using test methods referenced in 40 CFR 261.21. Waste streams shall not be ignitable at ambient temperatures. At no time shall two successive readings on a meter capable of reading L.E.L. (lower explosive limit) at the nearest accessible point to the POTW, at the point of discharge into the POTW or at any point in the POTW, be more than five percent nor any single reading greater than ten percent.

(2) Any substance which will cause corrosive structural damage to the POTW, but in no case discharges with pH lower than 5.0 or greater than 12.0.

(3) Solid or viscous pollutants which will cause obstruction to the flow in the POTW resulting in interference. Such pollutants include but are not limited to grease, garbage with particles greater than one-half inch any dimension, animal tissues, paunch manure, bones, hair, hides or fleshings, entrails, whole blood, feathers, ashes, cinders, sand, spent lime, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, wipes, spent grains, spent hops, wastepaper, wood, plastics, tar, asphalt residues from refining or processing of fuel or lubricating oil, mud or glass grinding or polishing waste, or tumbling and de-burring stones, and wastewater containing fat, wax, O&G, or other substances which may solidify or become viscous at temperatures between 32 and 150 degrees Fahrenheit (0 and 65 degrees Celsius).

(4) Any pollutant, including oxygen demanding pollutants (BOD, etc.) released in a discharge at a flow rate or pollutant concentration which will cause interference or pass through at the WRF or which constitutes a slug load as defined in this article.

(5) Heat in amounts which will inhibit biological activity in the POTW resulting in interference, but in no case wastewater or vapor having a temperature higher than 150 degrees Fahrenheit (65 degrees Celsius) at the point of introduction into the POTW, and in no case wastewater or vapor which alone or in concert with other discharges produces a temperature at the WRF greater than 104 degrees Fahrenheit (40 degrees Celsius).

(6) Petroleum oil, non-biodegradable cutting oil, or products of mineral oil origin in amounts that will cause interference or pass through.

(7) Pollutants which result in the presence of toxic gases, vapors, or fumes within the POTW in a quantity that may cause acute worker health and safety problems or a public nuisance.

(8) Any trucked or hauled pollutants, except at discharge points designated by the WRA.

(9) Any radioactive material as defined in the Atomic Energy Act of 1954, as amended, and as defined in I.C. § 136C.1, except materials which meet conditions of disposal by release into sanitary sewerage pursuant to 10 CFR 20.2003.

(10) Any wastewater containing concentrations of inert suspended solids, such as but not limited to fuller's earth, lime slurries, and lime residues, or of dissolved solids, such as but not limited to, sodium chloride and sodium sulfate, which exceed 3,000 mg/l nonvolatile or 3,000 mg/l total dissolved solids unless approved by the WRA director.

(11) Pollutants causing excessive discoloration, such as but not limited to dye waste and vegetable tanning solutions.

(12) Hazardous waste pharmaceuticals for human or animal use as defined in 40 CFR 266.500.

(O.14,549, 15,730, 16,159)

Sec. 118-343. Local limits for specific pollutants.

(a) *Generally.* Local limits for specific pollutants discharged pursuant to this article shall be as follows:

(1) *Dilution.* Dilution of the discharge from a pretreatment facility or from a regulated process is prohibited as a method for treatment of wastes in order to meet the limits set forth in this article.

(2) *Sample location.* Measurement of pollutant concentrations to determine compliance shall be made at the point immediately following the pretreatment facility and before mixture with other waters, unless another point is designated by the WRA director. If necessary, the concentrations so measured shall be recomputed to exclude the effect of any dilution that is improper using the combined waste stream formula.

(b) *Headworks limits; average mass.* The average composite loading of all industrial users contributing the following specific pollutants to the POTW shall not exceed the allowable total pounds. The allocation of pollutants between industrial and nonindustrial sources may be adjusted by the director provided that the allowable total loading for any pollutant at the headworks of the WRF is not exceeded.

	30-Day Average Allowable Pounds/Day	
Pollutant	*Total*	*Industrial*
BOD	195,600	135,153
TSS	300,400	208,463
NH3	13,000	6,959
TKN	27,760	16,950

	Maximum Allowable Headworks Loading Pounds/Day	*Maximum Allowable Industrial Loading Pounds/Day*
Pollutant	*Total*	*Industrial*
Arsenic-T	7.58	3.81
Cadmium-T	3.65	2.16
Chromium-T	136.35	120.90
Copper-T	148.56	125.51
Cyanide-T	17.08	8.28
Lead-T	28.17	20.94
Mercury-T	0.999	0.747
Nickel-T	87.27	75.75
Silver-T	23.30	19.77
Zinc-T	360.59	283.53

(c) *Discharge concentration limits and review criteria.* Discharge concentration limits and review criteria shall be as follows:

(1) The discharge into the POTW of any materials, water or waste having a pollutant concentration greater than the limits in subsections (c)(3), (4), and (5) of this section or containing pollutants not listed in this subsection shall be subject to the review and approval of the WRA director. After review of the proposed discharges, the WRA director may:

a. Reject the waste for reasons consistent with section 118-320 of this article.

b. Require pretreatment to an acceptable pollutant concentration for discharge to the POTW.

c. Require control of the quantities and rates of discharge of the water or waste.

d. Require payment to cover the added cost of handling and treatment of water and waste or any combination thereof.

e. Reduce the maximum or average mass loading of present and prospective individual users on any reasonable prorated basis to meet headworks loading limits at the WRF.

f. Require the user to obtain a wastewater discharge permit and be subject to any of the rules and regulations contained therein.

g. Require the user to meet local limits when local limits are more restrictive than National Categorical Pretreatment Standards, provided that headworks loading limits are met.

h. Initiate enforcement action in response to any noncompliance with this article using the enforcement procedures outlined in this article.

i. Take any combination of the steps in subsections (c)(1)a through (c)(1)g, as appropriate.

(2) Users discharging wastewater to the POTW whose pollutant concentrations or flows are greater than the following shall be considered industrial users for purposes of sewer charges and may be regulated or permitted by the WRA director as appropriate:

	Pollutant	*Daily Maximum (mg/l)*
a.	BOD	200
b.	TSS	250
c.	COD	300
d.	O&G-T	100
e.	TKN	30
f.	NH3-N	15
g.	An average daily flow greater than 5,000 gallons or having an unusual concentration of flow.	

(3) Pollutant limits. Average and maximum concentration limits for users without National Categorical Pretreatment Standards for these pollutants shall be as follows:

Pollutant	*Daily Maximum (mg/l)*	*Monthly Average (mg/l)*
Arsenic-T	0.38	0.25
Cadmium-T	0.08	0.05
Chromium-T	6.43	4.29
Copper-T	10.21	6.80
Cyanide-T	0.53	0.36
Lead-T	1.43	0.95
Mercury-T	0.042	0.028
Nickel-T	7.22	4.81
O&G-T	400.0	—
O&G-Mineral	100.0	—
Silver-T	1.30	0.87
VPH	10.0	—
Zinc-T	19.64	13.09

pH range shall be not lower than 5.0 or greater than 12.0.

Temperature (liquids or vapors) shall be not greater than 150 degrees Fahrenheit at the point of entry into the POTW.

(4) Daily maximum pollutant limits for hauled waste. Wastes delivered to the WRF by truck or rail shall not exceed the following concentrations in any load or overall daily loading limits unless otherwise approved by the WRA Director:

Pollutant	*Concentration (mg/l)*	*Loading (pounds/day)*
COD	100,000	—
O&G-T	50,000	—
VPH	10.0	—
Arsenic-T	—	0.014
Cadmium-T	—	0.93
Chromium-T	—	24.74
Copper-T	—	23.71
Cyanide-T	—	0.29
Lead-T	—	6.70
Mercury-T	—	0.12
Nickel-T	—	3.71
Silver-T	—	0.26
Zinc-T	—	87.62

pH range shall be not lower than 5.0 or greater than 12.0.

(5) Daily maximum limit for gasoline cleanup projects. Discharge of wastewater from sites where gasoline is being removed from the soil or groundwater shall meet the following limits prior to discharge to the POTW:

Pollutant	*mg/l*
Benzene	0.050
BETX	0.750

(d) No subsection of this section shall be construed to provide lesser discharge standards than are or that may be imposed and required by U.S. Environmental Protection Agency or the

Iowa department of natural resources, nor to allow the average allowable total loading for any pollutant at the headworks of the WRF to be exceeded.
(O.14,549, 15,730)

Sec. 118-344. National Categorical Pretreatment Standards.

Users subject to National Categorical Pretreatment Standards (NCPS) as contained in 40 CFR I, subchapter N, part 405-471 shall comply with the standards and applicable reporting requirements under 40 CFR 403.12. New sources of categorical discharge shall meet National Categorical Pretreatment Standards in the shortest feasible time, but in no case longer than 90 days from the commencement of discharge. Failure to comply shall be a violation of this article and subject the user to enforcement action. The WRA is required to notify all known affected categorical users of the applicable reporting requirements under 40 CFR 403.12. Failure of the WRA to notify a user shall not relieve the user of the duty, if any, to comply with National Categorical Pretreatment Standards.
(O.14,549)

Sec. 118-345. State requirements.

State of Iowa requirements and limitations on discharges pursuant to this article shall apply when they are more stringent than U.S. Environmental Protection Agency or WRA requirements and limitations unless allowed by the Iowa Department of Natural Resources.
(O.14,549)

Sec. 118-346. City's right of revision.

The city, acting at the direction of the WRA, reserves the right to establish more stringent limitations or requirements on discharges to the POTW than those contained in this article if deemed necessary to comply with the purpose and policy objectives presented in section 118-320 of this article.
(O.14,549)

Sec. 118-347. Pretreatment.

(a) A user discharging or with potential to discharge any waste into the POTW as set forth in section 118-342, 118-343 or 118-344 of this division shall be required by the WRA director to construct, install and operate, at the user's sole expense, such pretreatment facilities as may be required in order to:

(1) Reduce the objectionable characteristics or constituents of wastewater to within the maximum limits provided for in sections 118-342, 118-343, 118-344 and 118-345 of this article.

(2) Control the quantities and rates of discharge of such wastewater.

(3) Reduce the pollutants to such concentration and flows as may be contained in the user's wastewater discharge permit.

(4) Prevent the discharge of liquid waste containing FOG, sand in excessive amounts, any flammable waste, or other harmful pollutants. All traps or similar devices shall be of a type and capacity needed to perform effectively and shall be readily and easily accessible for cleaning and inspection. All traps or devices shall be provided and maintained in efficient operating condition at all times. Materials removed from traps shall be considered unacceptable for disposal at the WRF unless specifically approved by the WRA director.

(b) All plans, specifications, technical operating data and other information pertinent to the proposed operation and maintenance of pretreatment facilities shall be reviewed and approved by the WRA director prior to construction. Design and installation of such facilities shall be subject to the requirements of all applicable codes, chapters and laws, including local zoning regulations. The review and approval of such plans and operating procedures shall, in no way, relieve the user from the responsibility of modifying the facility as necessary to produce an effluent acceptable to the WRA director under this article. Any subsequent changes in the pretreatment facili-

ties or method of operations shall be reported to and be acceptable to the WRA director prior to the user's initiations of the changes.

(c) Users shall continuously maintain all pretreatment facilities required by this article in satisfactory and effective operating condition at the sole expense of such user.

(d) No section contained in this article shall be construed to prevent or prohibit a separate or special agreement between the WRA and any user whereby wastewater containing waste of unusual strength, character or composition may be accepted for treatment, subject to additional payment by such user; provided, however, that such agreement shall have the prior approval of the WRA board, shall not conflict with the Iowa Department of Natural Resources and U.S. Environmental Protection Agency requirements, and shall be consistent with subsection 118-433(b) and sections 118-344 and 118-345 of this article, and subsection (f) of this section.

(e) The WRA director may reject any waste which, in the opinion of the director, may cause interference or pass through.

(f) Users shall obtain the specific approval of the WRA director prior to discharging any waste resulting from a pretreatment facility to the POTW. The WRA director may develop a documentation system to track the transportation and final disposition of any pretreatment waste. Pretreatment waste regulated by this subsection shall include waste generated as a result of pretreatment processes used to comply with National Pollutant Discharge Elimination System permits, air pollution permits, wastewater discharge permits, soil/groundwater reclamation processes, and pollutants resulting from a spill of any liquid or solid material or the cleanup of any such spill. Pretreatment waste is prohibited from disposal to the water of the state except as specifically permitted by the Iowa Department of Natural Resources.
(O.14,549)

Sec. 118-348. Dilution prohibited.

Users shall not increase the use of process water or, in any way, attempt to dilute a discharge as a partial or complete substitute for adequate pretreatment to achieve compliance with the limitations contained in the National Categorical Pretreatment Standards, or with any other pollutant-specific limitation developed by the WRA or its operating contractor.
(O.14,549)

Sec. 118-349. Spill containment.

(a) Users having the ability to cause interference or pass through or to discharge a slug shall provide protection from accidental discharge to the POTW of prohibited materials or other substances regulated by this article. Facilities to prevent accidental discharge of prohibited materials shall be constructed, installed, operated and maintained at the user's sole cost and expense.

(b) Users meeting the criteria in subsection (a) of this section shall develop a spill containment plan. The plan shall require the approval of the WRA director and shall contain the following:

(1) A description of discharge practices, including non-routine batch discharges.

(2) A description of stored chemicals.

(3) Procedures for immediately notifying the WRA of slug discharges, including any that would violate the discharge prohibitions in section 118-342 of this division. Notification procedures shall comply with subsections (c) and (d) of this section.

(4) A description of procedures and structures necessary to prevent adverse impacts upon the POTW from accidental spills including inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations, control of plant site runoff, worker training, building of containment structures or equipment, measures for containing toxic organic pollutants including solvents, and/or measures and equipment for emergency response.

(5) A schedule for the completion or implementation of necessary procedures and structures. Complete implementation and installation of any procedures or

structures shall be according to the shortest possible schedule, but in no case longer than one year. Review and approval of such plans and operating procedures shall not relieve the user from the responsibility to modify and operate its facility as necessary to meet the requirements of this article.

(c) Users shall immediately telephone and notify the WRA of any accidental or deliberate discharge of pollutants which violates section 118-342 of this division or which is a slug load. Any discharge into the POTW of a substance which is a listed or characteristic waste under section 3001 of RCRA must be immediately reported to the U.S. Environmental Protection Agency Regional Director, the Iowa Department of Natural Resources, and the WRA. Notifications required in this subsection shall include the name of caller, location and time of discharge, pollutant concentration, volume and the corrective actions taken.

(d) Users shall submit a written report to the WRA director within five days following such an accidental or deliberate discharge describing the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences. Users shall submit follow-up reports as may be required by the WRA director. Such report shall not relieve the user of any expense, loss, damage or other liability which may be incurred as a result of damage to the POTW, fish kills, or any other damage to person or property, nor shall such report relieve the user of any fines, civil penalties, or other liability which may be imposed by this article or otherwise. Failure to report accidental or deliberate discharges may, in addition to any other remedies available to the city, result in the revocation of the discharger's wastewater discharge permit.

(e) Users shall control production or all discharges to the extent necessary to maintain compliance with all applicable regulations upon reduction, loss, or failure of its pretreatment facility until the facility is restored or an alternative method of pretreatment is provided. This requirement applies in the situation where, among other things, the primary source of power to the user's pretreatment facility is reduced, lost or fails.

(f) Users required to have a spill containment plan must permanently post a notice in English and the language of common use on the user's bulletin board or other prominent place advising employees whom to call if a prohibited discharge occurs. Users shall ensure that all employees who are in a position to cause, discover, or observe such an accidental discharge are advised of the emergency notification procedures.
(O.14,549)

Sec. 118-350. Treatment upsets.

Users shall inform the WRA director within one hour of becoming aware of an upset in operations that places it in a temporary state of noncompliance with the pollutant limits in this article. Users shall provide a follow-up written report to the WRA director within five days. The report must demonstrate that the pretreatment facility was being operated in a prudent and appropriate manner and shall contain:

(1) A description of the upset, its cause, and impact on the user's compliance status.

(2) The duration of noncompliance, including exact dates and times of noncompliance, and, if the noncompliance is continuing, the time by which compliance is reasonably expected to be restored.

(3) All steps taken or planned to reduce, eliminate, and prevent recurrence of such an upset.
(O.14,549)

Sec. 118-351. Treatment bypass.

(a) Under this article, bypass is prohibited unless it is unavoidable to prevent loss of life, personal injury, or severe property damage or no feasible alternatives exist such as the use of auxiliary treatment facilities, retention of untreated waste, or maintenance during normal periods of equipment downtime.

(b) The user may allow a bypass to occur which does not cause a violation of pretreatment standards, but only if it is for essential maintenance to ensure efficient operation.

(c) Notification of bypass shall be submitted in accordance with the following:

(1) *Anticipated bypass.* If the user knows in advance of the need for a bypass, it shall submit prior written notice, at least ten days before the date of the bypass, to the WRA director.

(2) *Unanticipated bypass.* The user shall immediately notify the WRA director and submit a written report to the WRA within five days. This report shall specify the following:

a. A description of the bypass, its cause, and the duration.

b. Whether the bypass has been corrected.

c. The steps being taken or to be taken to reduce, eliminate and prevent a reoccurrence of the bypass.

(d) Proper notification shall not relieve the user of liability for treatment costs and fees or other remedies as provided for in section 118-347 of this division.
(O.14,549)

Sec. 118-352. Fees.

To provide for the recovery of costs from users of the POTW and for the implementation of the pretreatment program established by this article, the following fees are hereby established and shall be applicable to discharges by all users:

(1) All users shall be subject to the following fees and charges:

a. The one-time wastewater discharge permit application fee shall be $200.00 for a class A permit and $100.00 for a class B permit.

b. The annual fee for a class A wastewater discharge permit, including annual inspection of permitted users, shall be $1,500.00.

c. The annual fee for a class B wastewater discharge permit, including annual inspection of permitted users if completed or applicable, shall be $750.00.

d. The fee paid by each industrial user when an accidental discharge or slug load occurs shall be the total of all costs incurred by the WRA as a result of said discharge or load. Said fee may be charged by the WRA separately from and in addition to a civil penalty of up to $1,000.00 charged to the user under section 118-400 of this article related to said discharge or load.

e. The trip charge for sampling or inspecting a user's discharge shall be $50.00 per event. An equipment fee of $50.00 per event shall also apply when using a WRA-owned automatic sampler. When a sampling or inspection event must be rescheduled due to failure of the user's sampling equipment, a sampler seal (used to detect sample tampering) being broken, monitoring facilities not being readily accessible or operational, or any other reason beyond the control of the WRA, a trip charge of $50.00 shall be assessed.

f. Laboratory analysis fees for those analyses performed by the WRA shall be as follows:

LABORATORY ANALYSIS FEES

Test	*Cost / Sample*
BOD	$ 20.00
COD	20.00
Total Organic Carbon (TOC)	20.00
TSS	10.00
pH	5.00
Oil and grease—Total	35.00
Mineral/nonmineral	35.00
Nitrogen, ammonia	15.00
Nitrogen, nitrate	15.00
TKN	30.00

Test	*Cost/ Sample*
Phosphorous, total	25.00
Potassium	12.00
Calcium carbonate equivalent	15.00
Soil analysis, each pollutant	20.00
Phenols	28.00
Cyanide	30.00
Metals:	
Arsenic	20.00
Selenium	20.00
Mercury	25.00
Other metals (per parameter)	15.00
BETX (OA-1)	40.00
VPH (OA-1)	40.00
BETX & VPH (OA-1)	45.00
USEPA Tests:	
608 Organochlorine Pesticides & PCBs	70.00
624 Volatile Organic Compounds	140.00
625 Base/Neutral Organic Compounds and/or	290.00
625 Acid/Organic Compounds	290.00

g. Fees for analysis performed by laboratories other than the WRA laboratory shall be the full cost of each analysis.

h. Fees for rescheduling a scheduled inspection with WRA personnel, with less than 24 hours' notice or if appropriate facility managers are unavailable at the scheduled time of inspection, shall be $100.00 per rescheduled inspection.

i. Fees for copying and mailing documents shall be $1.00 for the initial page and $0.25 for each additional page plus postage. No charges shall be assessed for requests for copies received from individuals or agencies served by the WRA, provided the number of pages requested does not exceed ten.

j. Fees for past due reminders sent each 30 days that a balance remains unpaid shall be $5.00.

k. Prohibitive waste charges for each pollutant discharged in excess of permit or ordinance limits shall be $50.00 per violation for class B permit holders and $100.00 per violation for class A permit holders. Charges shall double if discharges exceed slug threshold values. Payment of fees does not preclude other enforcement action and may not be paid in lieu of compliance with discharge limitations.

l. At the WRA's discretion, administrative cost recovery fees may be assessed separately to a user or added to a user's disposal fee for actions or occurrences subject to division 6 of this article which result in the need for additional labor, equipment, and/or materials from the WRA or its contractors, including but not limited to cleanup of spills, infrastructure maintenance, improper scale transactions, improper disposal, and waste source verification. Fees shall be assessed based on the actual costs incurred by the WRA, or on the estimated costs incurred by the WRA rounded down to the nearest multiple of 20 based on actual rates for labor, materials, and equipment with a minimum fee of not less than $20.00. Fees under this section (l) will be charged in addition to charges, fines, fees, or other costs associated with rejected, unapproved, or atypical wastes under sections 118-458 and 118-459 of this chapter.

(2) All users contributing wastewater in excess of the following concentrations shall be assessed a surcharge, which shall be in addition to the rates and charges ordinarily billed to such users for sewer use. Commencing October 1, 2022 until June 30, 2025, surcharges shall be assessed in accordance with the following rate schedule:

	Surcharge per Pound of Pollutant for the Period:		
Pollutant	*10/1/ 2022 — 6/30/ 2023*	*7/1/ 2023 — 6/30/ 2024*	*7/1/ 2024 — 6/30/ 2025*
Total suspended solids in excess of 250 mg/l	$ 0.18	$ 0.20	$ 0.22

Pollutant	*Surcharge per Pound of Pollutant for the Period:*		
	10/1/2022 — 6/30/2023	*7/1/2023 — 6/30/2024*	*7/1/2024 — 6/30/2025*
BOD or CBOD in excess of 200 mg/l	0.14	0.17	0.21
TKN in excess of 30 mg/l	0.55	0.49	0.42
Oil and grease in excess of 100 mg/l	0.08	0.10	0.11

Commencing on July 1, 2025, surcharge rates listed in the above table shall be annually adjusted as of July 1 of each year to increase two percent per annum rounded to the nearest whole cent.

Chemical oxygen demand (COD) in excess of 300 mg/l may be used at the discretion of the WRA director in lieu of CBOD. In such case the excess COD concentration shall be multiplied by the known CBOD/COD ratio or by a ratio of two-thirds to establish an equivalent CBOD concentration.

Ammonia nitrogen (NH3-N) in excess of 15 mg/l may be used at the discretion of the WRA director in lieu of TKN by multiplying the excess NH3-N concentration times two to establish an equivalent TKN concentration.

(3) The establishment and imposition of new or different fees or charges, in addition to or in substitution for those provided above in this section, shall be by ordinance amending this chapter. The amounts of the fees and charges established in this section shall be and remain in effect until such time as the WRA board shall by resolution revise said fee amounts. Said revised fees and charges shall take effect after the board causes said resolution to be sent to this city council and thereafter causes same to be published in a newspaper of general circulation in each county in which participating communities are located.

Secs. 118-353—118-365. Reserved.

DIVISION 3. INDUSTRIAL WASTEWATER DISCHARGE PERMITS AND REPORTING REQUIREMENTS

Sec. 118-366. Classes of permits.

Discharge permit classifications shall be as follows:

(1) Class A permit issued to a user discharging 25,000 gallons per day or more of process wastewater (excludes sanitary, non-contact cooling, and boiler blowdown).

(2) Class B permit issued to a user discharging less than 25,000 gallons per day of process wastewater.

(O.14,549)

Sec. 118-367. Permit requirements.

(a) All new industrial users shall notify the WRA director of the nature and characteristics of their proposed discharge 180 days prior to commencing discharge. A notification form prescribed by the WRA shall be used for this purpose

(b) Significant users shall discharge wastewater, either directly or indirectly, into the POTW only after obtaining a wastewater discharge permit from the WRA director. Obtaining a wastewater discharge permit does not relieve a user of the obligation to obtain other permits required by federal, state, or local law.

(c) Other users, including waste haulers, shall obtain permits as required by the WRA director. (O.14,549)

Sec. 118-368. Permit applications; baseline monitoring reports; compliance schedules.

Users applying for a wastewater discharge permit or categorical users submitting a baseline

monitoring report shall submit the following information as required by 40 CFR 403.12 or by the WRA director:

(1) Users applying for a wastewater discharge permit must submit an application form prescribed by the WRA and accompanied by the application fee. All new significant users must submit such application 180 days prior to the date of any wastewater discharge.

(2) Existing users subject to new National Categorical Pretreatment Standards must, within 180 days after the effective date of the standard, submit a baseline monitoring report prescribed by the WRA. New users subject to National Categorical Pretreatment Standards must submit a baseline monitoring report prescribed by the WRA at least 90 days prior to commencement of discharge to the POTW. A baseline monitoring report shall include:

a. Name, address, and location of the facility, if different from the mailing address.

b. Name of the operator and owners of the facility.

c. A list of all environmental control permits held by or for the facility.

d. A description of the operations including the average rate of production, applicable Standard Industrial Classification (SIC) codes, schematic process diagrams, and points of discharge to the POTW from regulated processes.

e. Daily average and daily maximum flow measurements for regulated process waste streams and nonregulated waste streams where necessary.

f. The categorical user shall identify the pretreatment standards applicable to each regulated process and shall submit the results of sampling and analysis identifying the nature and concentration (or mass, where required) of pollutants contained therein which are limited by the applicable pretreatment standards from each regulated process.

g. The user shall take a minimum of one representative sample immediately downstream of any pretreatment facility or immediately downstream of each regulated process if no pretreatment exists and prior to mixing with other waste to compile that data necessary to comply with this requirement. If non-regulated wastewater is mixed with regulated wastewater prior to pretreatment, the user must measure the flows and concentrations necessary to allow use of the combined waste stream formula of 40 CFR 403.6(e) in order to evaluate compliance with pretreatment standards. Where an alternate concentration or mass limit has been calculated in accordance with 40 CFR 403.6(e), this adjusted limit along with supporting data shall be submitted to the WRA director. Sampling and analysis shall be performed in accordance with 40 CFR 136 or other verified method approved by the WRA director.

h. The time, date, and place of sampling, methods of analysis, and certification that such sampling and analysis is representative of normal work cycles and expected pollutant discharges to the POTW.

i. Historical data may be allowed by the WRA director so long as the data provides information sufficient to determine the need for industrial pretreatment measures.

j. Certification by an authorized representative of the user as referenced in section 118-378 and certified to by a qualified professional indicating whether pretreatment standards are being met on a consistent basis and, if not, whether

additional operation and maintenance or additional pretreatment is required for the user to meet pretreatment standards and requirements.

k. If additional pretreatment or O&M will be required to meet pretreatment standards, requirements, discharge limits as set forth in section 118-342, 118-343, 118-344 of this article, or any other limit set by the WRA director, the user shall supply a compliance schedule indicating the shortest time schedule necessary to accomplish installation or adoption of such additional pretreatment or O&M. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard. The following conditions apply to this schedule:

i. The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the user to meet the applicable pretreatment standards. Such schedule shall include, where applicable, but shall not be limited to dates for the hiring of an engineer, completing preliminary plans, executing contracts for major components, commencing construction, beginning operation, and conducting routine operations.

ii. No increment referred to in subsection (2)k.i. of this section shall exceed nine months, nor shall the total compliance period exceed 18 months.

iii. No later than 14 days following each date in the schedule and the final date for compliance, the user shall submit a progress report to the WRA director, including, at a minimum, whether or not it complied with the increment of progress, the reason for any delay, and the steps being taken by the user to return to the established schedule. In no event shall more than nine months elapse between such progress reports to the WRA director.

l. A minimum of four grab samples must be used for pH, cyanide, total phenols, oil and grease, sulfide, and volatile organic compounds. For all other pollutants required, 24-hour composite samples must be obtained through flow-proportional composite sampling techniques where feasible. The WRA director may waive flow-proportional composite sampling for any user who demonstrates that flow-proportional sampling is not feasible. In such cases, samples may be obtained through time-proportional techniques or through a minimum of four grab samples where the user demonstrates that such sampling will provide a representative sample of the effluent being discharged.

(3) New significant users not subject to categorical standards shall submit analysis of wastewater representative of the effluent discharged to the POTW as required in subsections (2)g.—i. of this section for all parameters deemed necessary by the WRA director.

(4) New or existing industrial users not subject to categorical pretreatment standards who fail to meet local, state, or federal pretreatment standards or other permit requirements on a consistent basis shall be subject to compliance schedules for additional pretreatment or O&M as outlined in subsection (2)k. of this section.

(5) All applications and reports must contain the certification statement and be signed in accordance with section 118-378 of this division.

(O.14,549, 16,159)

Sec. 118-369. Report on compliance by categorical users.

Users subject to National Categorical Pretreatment Standards shall submit a report to the WRA director containing the information described in section 118-368(2) within 90 days following the date for final compliance with applicable National Categorical Pretreatment Standards or, if a new source, following commencement of discharge. Users subject to equivalent mass or concentration limits shall provide a reasonable measure of the user's longterm production rate. For all other users subject to National Categorical Pretreatment Standards expressed in terms of allowable pollutant discharge per unit of production or other measure of operation, this report shall include the user's actual production during the appropriate sampling period. All reports must contain the certification statement and be signed in accordance with section 118-378 of this division.

(O.14,549, 15,730, 16,159)

Sec. 118-370. Permit contents.

Wastewater discharge permits shall include such conditions as are reasonably deemed necessary by the WRA director to prevent pass through or interference; protect the quality of the water body receiving effluent from the POTW; protect worker health and safety; facilitate the WRA's sludge management and disposal program; and protect against damage to the POTW. The WRA director may include the following items in the permit, and such additional items as the director determines necessary or prudent:

(1) Limits on the average or maximum rate of discharge, time of discharge, or requirements for flow regulation and equalization.

(2) Limits on the average or maximum concentration, mass, or other measure of identified wastewater constituents or properties.

(3) Requirements for the installation of pretreatment technology or construction of appropriate containment devices, etc., designed to reduce, eliminate, or prevent the introduction of pollutants into the POTW.

(4) Development and implementation of spill control plans or other special conditions including additional management practices necessary to adequately prevent accidental, unanticipated, or prohibited discharges.

(5) The unit charge or schedule of user charges and fees for the management of the wastewater discharged to the POTW.

(6) Requirements for installation and maintenance of inspection, sampling, and flow monitoring facilities and equipment for each separate discharge into the POTW.

(7) Specifications for monitoring programs which may include sampling locations, frequency of sampling, number, types, and standards for tests, and reporting schedules.

(8) Compliance schedules.

(9) Requirements for submission of technical reports or discharge reports and which may include production data.

(10) Requirements for maintaining and retaining plant records relating to wastewater discharge as specified by the WRA director and affording the director or the director's representatives access thereto.

(11) Requirements for the notification of any substantial change in the manufacturing processes, pretreatment processes, quantity or quality of waste discharged to the POTW 90 days prior to such change. The WRA director shall approve, deny or condition a changed discharge prior to a change occurring in accordance with subsection 118-341(a)(4) of this article.

(12) Requirements for notification of excessive, accidental, or slug discharges.

(13) Other conditions as deemed appropriate by the WRA director to ensure compliance with this article, and state and federal laws, rules, and regulations.

(14) A statement that compliance with the permit does not relieve the permittee of responsibility for compliance with all applicable federal pretreatment standards, including those which become effective during the term of the permit.

(O.14,549, 16,159)

Sec. 118-371. Permit duration and renewal.

Permits required under this division shall be issued for a specified time period, not to exceed five years. Permit fees shall be due annually to the WRA regardless of the term of the permit. Permitted users shall apply for a new permit by submitting a completed permit application a minimum of 90 days prior to the expiration of the user's existing permit.
(O.14,549)

Sec. 118-372. Continuation of expired permits.

Expired permits issued pursuant to this division shall remain effective and enforceable until the permit is reissued unless the user is notified of permit termination by the WRA director.
(O.14,549)

Sec. 118-373. Permit modifications.

(a) The WRA director may modify the permit issued pursuant to this division for good cause, including but not limited to the following:

(1) To incorporate any new or revised federal, state, or local pretreatment standard or requirement. After becoming aware of more stringent standards or requirements, the WRA will, as necessary, update permits within 90 days;

(2) To make material or substantial alterations or additions to the discharger's operation processes, or discharge volume or character which were not considered in drafting the effective permit;

(3) To make a change in any condition in either the industrial user or the POTW that requires either a temporary or permanent reduction or elimination of the authorized discharge;

(4) Upon receipt of information indicating that the permitted discharge poses a threat to the POTW, to the city, the WRA or operating contractor personnel, or to the receiving water;

(5) Upon occurrence of a violation of any terms or conditions of the permit;

(6) Misrepresentation of, or grant of variance from, such categorical standards pursuant to 40 CFR 403.13;

(7) To correct typographical or other errors in the permit;

(8) To reflect transfer of ownership or operation of the permitted facility to a new owner or operator; or

(9) Upon request of the permittee, provided such request does not create a violation of any applicable requirements, standards, laws, or rules and regulations.

(b) The filing of a request by the permittee for permit modification, revocation and reissuance, termination, or a notification of planned changes or anticipated noncompliance shall not have the effect of staying or delaying the implementation or effective date of any permit condition.
(O.14,549)

Sec. 118-374. Permit transfer.

An industrial wastewater discharge permit is not transferable to any other person or entity. A new owner or operator must apply for a new wastewater discharge permit 60 days prior to taking ownership or undertaking operation of a permitted facility.
(O.14,549)

Sec. 118-375. Denial of permit.

The WRA director may deny a wastewater discharge permit to any user whose discharge of material to the POTW, whether shown upon application, including test results submitted by

the applicant, or determined after inspection or testing conducted by the WRA or its operating contractor, is not in conformity with this article or whose application is incomplete or does not comply with the requirements of section 118-368 of this division.
(O.14,549)

Sec. 118-376. Permit violations.

Any violation of the terms, conditions, or limits of a user's wastewater discharge permit shall be deemed a violation of this article and shall subject the user to all enforcement procedures outlined in this article.
(O.14,549)

Sec. 118-377. Periodic compliance reports.

Under this division, periodic compliance reports are required as follows:

(1) Significant users shall submit to the WRA director, during the months of January and July, a report indicating the nature, concentration, and flow of pollutants in the effluent which are limited by permit or pretreatment standards for the preceding six-month period. This report shall include a record of the monthly average flows and the daily flow for each analysis date during the reporting period. At the discretion of the WRA director and in consideration of such factors as local high or low flow rates, holidays, budget cycles, etc., the WRA director may agree to alter the months during which the reports are to be submitted. More frequent reports may be required by the WRA director.

(2) The WRA director may impose mass limitations on users. In such cases, the report required by subsection (1) of this section shall indicate the mass of pollutants regulated by pretreatment standards in the effluent of the user. All analyses shall be performed using Environmental Protection Agency approved methods using sampling techniques approved by the Iowa Department of Natural Resources.

(3) Users shall meet the certification and signatory requirements in section 118-378 of this division for each report submitted under this section. Where the WRA itself collects all the information required for the report, including flow data, the industrial user will not be required to submit a periodic compliance report.

(4) A user must notify the WRA director of all violations identified as a result of self-monitoring to the POTW by telephone, during normal business hours, within 24 hours of the time the user becomes aware of such violation. The user must also submit the results of repeat analyses to the WRA within 30 days after becoming aware of the violation, together with a complete report on all steps taken to resolve the violation. The user need not repeat the analyses if:

a. The WRA performs sampling of the industrial user at a frequency of at least once per month; or

b. The WRA performs sampling of the user between the time when the user performs its initial sampling and the time when the user receives the results of this sampling.

(5) A user who monitors any pollutant more frequently than required by the WRA or who self-monitors in addition to WRA monitoring, using Environmental Protection Agency methods or standard methods, shall report the monitoring results to the WRA director in accordance with subsections (1), (3) and (4) of this section.
(O.14,549)

Sec. 118-378. Certification and signatory requirements.

(a) All applications or reports submitted by a user pursuant to this division shall contain the following certification statement:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate

the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

(b) All applications and reports shall be signed by an authorized representative of the user as defined in section 118-316 of this article. A user shall maintain a current and accurate authorization on file with the WRA director.
(O.14,549)

Sec. 118-379. Monitoring facilities.

(a) When required by the WRA director pursuant to this division, each permitted user shall at its expense provide and operate monitoring facilities to allow inspection, sampling, and flow measurement of the building sewer or internal drainage systems. The WRA director may require the placement of such monitoring facilities at the end of each process where pollutants are used, produced, or treated. The monitoring facility should normally be situated on the user's premises and located so that it will not be obstructed by landscaping or parked vehicles.

(b) When required by the wastewater discharge permit and within 90 days of written notification, a user shall install a sampling chamber for each separate discharge of the building sewer in accordance with plans and specification approved by the WRA director. A user shall provide ample room in or near such sampling chamber to allow accurate sampling and preparation of samples for analysis. Each user shall at its expense maintain all sampling and measuring equipment in a safe and proper operating condition at all times, which equipment shall be safely, easily and independently accessible to authorized representatives of the WRA. Users shall certify all flow measuring devices to be in proper working condition at a frequency specified in the permit or in writing by the WRA director, using a qualified technician acceptable to the WRA director. Sampling shall be in accordance with the following:

(1) Each sampling chamber shall contain a flume unless another device is approved by the WRA director, with a recording and totalizing device for measurement of the liquid quantity.

(2) At the discretion of the WRA director, metered water supply to a user may be used as the volume quantity where it is substantiated that the metered water supply and waste quantities are approximately the same, or where a measurable adjustment agreed to by the director is made in the metered water supply to determine the liquid waste quantity. Separate meters may be used to subtract water which is not discharged to the POTW or is discharged to a sewer other than the sampled location.

(3) Samples shall be taken at a frequency and volume determined by the WRA director and shall be properly refrigerated and preserved in accordance with Environmental Protection Agency approved methods. The sample shall be composited in proportion to the flow for a representative 24-hour sample. A time proportioned 24-hour sample may be used if flow proportioned sampling is determined by the WRA director to be impractical. Grab samples shall be used where appropriate.

(c) A user must inform the WRA director prior to breaking a sampler seal, used by the WRA to detect sample tampering, unless necessary to prevent loss of life, personal injury, or severe property damage. A user shall not place additional seals or locks upon a sampler which may be used by the WRA without first obtaining approval from the WRA director.
(O.14,549)

Sec. 118-380. Inspection, sampling and recordkeeping authority.

Under this division, users shall be deemed to have given the following authorities to the WRA and its operating contractor:

(1) Users shall permit authorized representatives or agents of the WRA to enter upon all properties and all parts of the premises, or upon properties of users with wastewater discharge permits, for the purposes of inspection, sampling, records examination, records copying, or the performance of any of their duties. This shall include the right to set up, on the user's property, such devices as are necessary to conduct sampling, inspection, compliance monitoring, or metering operations as may be required in pursuance of the implementation and enforcement of this article.

(2) Where a user has security measures in force which would require proper identification and clearance before entry into the premises, the user shall make necessary arrangements in the security measures so that, upon presentation of suitable identification, WRA or operating contractor personnel will be permitted to enter, without delay, for the purposes of performing their specific responsibilities.

(3) All users subject to any of the reporting requirements of this article shall maintain copies of reports and records of all information as required in 40 CFR 403.12(o) resulting from any monitoring activities required by this article for a minimum of three years and shall make such records available for inspection and copying by the WRA and its operating contractor. This period of retention shall be extended until the completion of any unresolved negotiation, hearing, or litigation involving a purported violation.

(O.14,549, 15,730)

Sec. 118-381. Confidential documents, data and information.

(a) Except as provided in this section, documents, data and information obtained from user reports, questionnaires, permit applications and inspections pursuant to this division shall be made available to the public or other governmental agencies without restriction. If the user specifically requests and is able to demonstrate that the release of such information would divulge information concerning processes or methods of production entitled to protection under law as trade secrets of the user or would give advantage to competitors and serve no public purpose, the WRA director may determine that such information should be kept confidential and not made available for public examination, but such information shall be available to the U.S. Environmental Protection Agency or the Iowa Department of Natural Resources.

(b) Decisions by the WRA director to deny confidential status for information may be appealed using the procedures in section 118-382 of this division. In determining whether information is confidential, the provisions of I.C. ch. 22 shall prevail.

(c) Effluent data and enforcement actions by the WRA or its operating contractor will not be considered confidential records or information. (O.14,549)

Sec. 118-382. Appeal of denial of confidential status.

(a) Any person aggrieved by the WRA director's decision to release information or data obtained as provided in subsection 118-381(a) of this division and who can demonstrate a direct and substantial interest in the information or data sought to be kept confidential may appeal the WRA director's decision. A request for appeal shall be filed in writing with the WRA director not less than five days after the WRA director's decision to deny confidential status to such information or data. The appeal request shall include a statement of the basis upon which the request for confidential status is made, as well as the appealing party's interest in the information or data sought to be kept confidential. The WRA director may request additional information from the appealing party.

(b) Based upon the information provided by the appealing party, the WRA director shall make a determination with respect to the

confidentiality of the information or data at issue. The WRA director shall notify the parties, in writing, of the WRA director's decision within 7 days after receipt of the appeal.

(c) If still aggrieved by the WRA director's determination on appeal, a party may file an action in Polk County district court, seeking a declaratory ruling with respect to the confidentiality of such documents, data and information, or seeking an injunction to prevent the disclosure of same.

(d) During the pendency of an appeal to the WRA director, the documents, data or information at issue shall be kept confidential. However, if during the pendency of such appeal, a request for examination or copying of such documents, data or information is made of the WRA or its operating contractor pursuant to I.C. ch. 22, the WRA or its operating contractor will notify the appealing party of such request for disclosure and will keep confidential the requested documents, data or information, pending action by the appealing party to defend its confidentiality request. In that notification, the appealing party requesting confidentiality will be given not more than 5 calendar days within which to file suit in Polk County district court seeking the entry of a declaratory order and/or injunction to protect and keep confidential such documents, data or information. If the appealing party fails to initiate suit within the time requested, the WRA director shall release the documents, data or information at issue for public examination.

(e) If during the pendency of such appeal, a lawsuit is initiated pursuant to I.C. ch. 22 seeking the release of such documents, data or information, the appealing party shall take action to defend its confidentiality request in said lawsuit. If the appealing party fails to defend its confidentiality request in said suit, the WRA director shall release the documents, data or information at issue for public examination.

Secs. 118-383—118-395. Reserved.

DIVISION 4. ENFORCEMENT OF INDUSTRIAL WASTEWATER REGULATIONS

Sec. 118-396. Public notification of significant noncompliance.

The WRA will annually publish, in the largest daily newspaper published in the WRA community, a list of users who at any time during the previous 12 months were in significant noncompliance as defined in section 118-397 of this division.
(O.14,549)

Sec. 118-397. Significant noncompliance.

(a) Any violation of pretreatment requirements under this article (i.e. including but not limited to those relating to limits, sampling, analysis, reporting, meeting compliance schedules, and regulatory deadlines) is an instance of noncompliance for which the user is liable for enforcement, including penalties and injunctive relief. Instances of significant noncompliance are user violations which meet one or more of the following criteria:

(1) Violations of wastewater discharge limits as follows:

a. Chronic violations. Sixty-six percent or more of the measurements exceed the same daily maximum limit or the same average limit in a six-month period (any magnitude of exceedance).

b. Technical review criteria (TRC) violations. Thirty-three percent or more of the measurements exceed the same daily maximum limit or the same average limit by more than the TRC in a six-month period. (e.g., limit x TRC = the point at which a violation becomes a TRC violation). There are two groups of TRCs as follow:

Group I for conventional pollutants (BOD, TSS, FOG)	TRC = 1.4

Group II for all other pollutants	TRC = 1.2

c. Any other violation of a wastewater discharge permit limit (average or daily maximum) that the WRA director believes has caused, alone or in combination with other discharges, interference, including slug loads, or pass through or which endangers the health of city, WRA or operating contractor personnel or the public.

d. Any discharge of a pollutant that has caused imminent endangerment to human health/welfare or to the environment and has resulted in the WRA's exercise of its emergency authority to halt or prevent such a discharge.

(2) Violations of compliance schedule milestones, contained in a wastewater discharge permit or enforcement order, for starting construction, completing construction, or attaining final compliance by 90 days or more after the schedule date.

(3) Failure to provide reports for compliance schedules, self-monitoring data, or any other report required by the WRA within 45 days from the due date.

(4) Failure to accurately report noncompliance.

(5) Any other violation or group of violations, which may include a violation of Best Management Practices, that the WRA director considers to be significant.

(b) When a user is in significant noncompliance, the WRA director is directed to:

(1) Report the information to the Iowa Department of Natural Resources as part of the annual pretreatment performance summary of permitted user noncompliance.

(2) Include the user in the annual public notification according to section 118-396 of this division.

(3) Address significant noncompliance through appropriate enforcement actions or document in a timely manner the reasons for withholding enforcement.

(O.14,549)

Sec. 118-398. Administrative actions.

(a) The WRA director may issue a written notice to the user giving the specific nature of violations which shall include the frequency, magnitude and impact of the violation upon the POTW. The notice may also include the following:

(1) An order requiring a plan of action for preventing reoccurrence of the violation.

(2) An order requiring specific action for accomplishing remediation.

(3) An order requiring the user to respond in writing within 30 days.

(b) The WRA director is empowered to enter into consent orders, assurances of voluntary compliance, or other similar documents establishing an agreement with the user responsible for any noncompliance. Such orders will include specific action to be taken by the user to correct noncompliance within a time period specified by the order.

(c) The WRA director may issue enforceable orders or schedules to require compliance with pretreatment standards including appropriate interim limits. Such orders and schedules may be incorporated as a revision to an existing wastewater discharge permit and shall not require the consent of the user.

(O.14,549)

Sec. 118-399. Actions authorized.

(a) Where there has been noncompliance with any section of this article, the WRA director may request the WRA operating contractor's attorney, or the attorney retained by the WRA for that purpose, to bring an action in equity or at law to seek the issuance of a preliminary or permanent injunction, or both, or such other relief as may be appropriate, to compel the user's compliance with this article.

(b) In addition to other remedies provided under this section or other sections of this article, in any action brought at the request of the WRA director to enforce this article, the WRA operating contractor's attorney or the attorney retained by the WRA is authorized to seek to recover all actual damages suffered by the city or the WRA, including all actual damages and losses related to costs of repair and remediation of the POTW, costs of investigation and administration reasonably related to any particular violation and attorneys' fees.
(O.14,549)

Sec. 118-400. Civil penalties.

(a) Each violation of any section of this article or of a permit issued under this article is declared to be a municipal infraction. Each day that a violation of a section of this article continues, and each day that a violation of a permit issued under this article continues, shall be considered a separate municipal infraction.

(b) Any person who knowingly makes a false statement, representation or certification in any application, record, report, plan or other document filed or required to be maintained pursuant to this article or a wastewater discharge permit, or who falsifies, tampers with or knowingly renders inaccurate any monitoring device or method required under this article, commits a municipal infraction punishable by a civil penalty as hereafter provided by section 1-15 of this Code.

(c) Any person who fails to perform an act required by the provisions of this article, or who commits an act prohibited by the provisions of this article, commits an environmental violation and shall be guilty of a municipal infraction, punishable by a civil penalty as provided by section 1-15 of this Code. Violation of a pretreatment standard or requirement referred to in 40 CFR 403.8 is an environmental violation punishable by a civil penalty as provided by section 1-15 of this Code.
(O.14,549)

Sec. 118-401. Performance and payment bonds.

(a) The WRA director may decline to reissue a permit to any user who has failed to comply with this article or any order or previous permit issued under this article unless such user first files a satisfactory bond payable to the WRA in a sum not to exceed the value determined by the WRA director to be necessary to achieve compliance giving due consideration to the number and magnitude of previous violations, potential need for remediation and stating the reasons which support the amount of bond in a written order directed to the user, but in no case shall the bond be required to be greater than $100,000.00. The user shall use a bond form prescribed by the WRA.

(b) The WRA director may require any user, including any permitted or non-permitted waste generator which sends its wastewater by truck to the WRF, to obtain a bond payable to the WRA with reasonable surety in a penal sum which will adequately cover treatment costs, surcharges, fees, or any other charges associated with discharge of wastewater to the POTW in the amount as listed in section 118-452. The user shall use a bond form prescribed by the WRA.
(O.14,549, 15,730, 16,159)

Sec. 118-402. Revocation of discharge permit; termination of sewer service.

(a) *Grounds for revocation of discharge permit and/or for termination of sewer service.* Any user who violates this article, any condition of its wastewater discharge permit, or any of the following is subject to having its discharge permit revoked and/or its sewer service terminated in accordance with the procedures of this section:

(1) Failure to accurately report the wastewater constituents and characteristics of its discharge.

(2) Failure of the user to report substantial changes in process activity or in volume or character of pollutants being discharged into the POTW at least 90 days prior to such change.

(3) Tampering with monitoring equipment.

(4) Refusal to allow reasonable access by WRA or operating contractor personnel to the user's premises for the purpose of inspection, monitoring, or sampling.

(5) Violation of permit conditions.

(6) Failure to report an upset, failure, or bypass of the user's pretreatment facilities.

(7) Failure to pay fines, fees, surcharges, or sewer service charges.

(8) Failure to follow enforcement orders or compliance schedules.

(9) Failure to correct a condition that impedes or alters the WRA's ability to monitor the user's discharge or has the potential to cause interference or pass through.

(10) Failure to obtain a wastewater discharge permit as required by this article after notification by the WRA director that such permit is required.

(11) Failure to pay actual costs for negligent damage, or actual costs and penalties charged for grossly negligent or intentional damage, to the POTW not addressed elsewhere in this article.

(b) *Procedure for revocation of discharge permit and for termination of sewer service.* The procedure for revocation of a discharge permit and termination of sewer service shall be as follows:

(1) Any permit issued to a user pursuant to this article may be revoked, and sewer service terminated, by written order of the WRA director, specifying the grounds for such revocation and termination as outlined in subsection (a) of this section, which order shall not take effect until hearing thereon as hereafter provided. Upon determining that grounds exist for an order to revoke a user's discharge permit and terminate sewer service, the WRA director shall cause a notice of hearing to be prepared, specifying the violations of subsection (a) of this section which are deemed to have occurred, and the time, date and place that such hearing will be held. The notice shall be sent to the user by regular mail addressed to the user's address listed on the wastewater discharge permit a minimum of ten days prior to the date set for hearing, and shall be deemed delivered when placed in the mail.

(2) Sewer service may be terminated by written order of the WRA director, specifying the grounds for such revocation and termination as outlined in subsection (a)(10) of this section, which order shall not take effect until hearing thereon as hereafter provided. Upon determining that grounds exist for an order to terminate sewer service, the WRA director shall cause a notice of hearing to be prepared, specifying the violation of subsection (a)(10) of this section which is deemed to have occurred, and the time, date and place that such hearing will be held. The notice shall be sent to the user by regular mail addressed to the user's address a minimum of ten days prior to the date set for hearing, and shall be deemed delivered when placed in the mail.

(3) If after such a hearing the WRA director makes a finding based on substantial evidence that violations under subsection (a) of this section have occurred as alleged, the director may issue an order immediately revoking the permit, if a permit had previously been issued, and terminating sewer service to the user's premises. The determination to revoke such permit and terminate service, shall be in the discretion of WRA director and shall be dependent upon the circumstances surrounding the user's violations of subsection (a) of this section and the severity of those violations. If the user does not appear for the hearing, the WRA director shall issue the order revoking the discharge permit and/or terminating sewer service, which shall take effect immediately.

(4) The decision and order of the WRA director to revoke the permit of a user may be appealed to the WRA appeal committee. Such appeal request shall be in writing, shall include the grounds for appeal including any factual findings which are

disputed, and shall be delivered to WRA not less than ten days after the director's entry of the order of revocation of permit and/or termination of sewer service. Such appeal request shall be considered delivered when placed in the mail, return receipt requested, addressed to:

WRA Appeal Committee
%Des Moines Metropolitan Wastewater Reclamation Authority
3000 Vandalia Road
Des Moines, Iowa 50317

The chair of the appeal committee shall schedule the appeal and shall cause notice of the time, date and place of the hearing to be mailed to the appealing user. Such appeal shall be decided by majority vote of the appeal committee. If the appeal committee affirms the order of the WRA director revoking the permit and/or terminating sewer service, the appeal committee shall so state and order in its written decision.

(5) A user whose permit has been revoked shall not be eligible for another permit until 30 days after the violating conditions have been corrected to the satisfaction of the WRA director.

(6) Upon determination by the WRA director that the user's sewer service connection to the POTW be terminated, the director's written order shall be sent to the city public works department who shall cause the user's connection to the sewer to be severed or plugged. The manner of severance and procedure for disconnection shall be determined by the city public works department. Upon completion of the disconnection, the city public works department shall certify to the WRA director the city's cost to disconnect the user's sewer service. Upon receipt of such certification of costs, the WRA director shall forward to the user whose service was disconnected by registered mail return receipt requested, certified mail, or personal service a bill for the cost of making the disconnection, including all costs for labor and materials, and a service charge of $500.00 for WRA supervision.

(7) Any building at which sewer service is disconnected as herein provided shall be inspected by the city building official and if appropriate shall be red-tagged as unfit for human occupancy.

(O.14,549, 15,730, 16,159)

Sec. 118-403. Reserved.

Sec. 118-404. Reinstatement of service.

If service is severed pursuant to this division, the service may be reinstated in the following manner:

(1) Upon payment to the WRA of any delinquency in full, supervision fee of $500.00, and an inspection by the WRA director to determine whether the original cause for termination has been corrected, the WRA will issue a permit for reconnection of the building service line to the POTW. Such reconnection costs, plus inspection fees for the city in accordance with this Code, shall be at the sole expense of the user.

(2) Upon reconnection and payment of all costs described in subsection (1) of this section, the city, through its agents, shall remove the red tag from the building, and the building shall, so far as the city is concerned, be fit for human occupancy.

(O.14,549, 16,159)

Sec. 118-405. Emergency disconnection of service.

(a) *Conditions for immediate disconnection of service.* The WRA director may, after informal notice, suspend the wastewater discharge permit of, and sewer service to, a user whenever such suspension is necessary in order to stop an actual or threatened discharge presenting or causing an imminent or substantial endangerment to the health or welfare of persons, the POTW, or the environment.

(b) *Procedure for immediate disconnection.* The procedure for immediate disconnection shall be as follows:

(1) When the WRA director determines that a discharge as described in subsection (a) of this section exists, an oral order shall be issued, followed immediately by a written order, to the user stating the problem and requiring immediate cessation of the discharge. A user orally notified of a suspension of its wastewater permit or sewer service shall immediately stop or eliminate all discharges. If a user fails to immediately and voluntarily comply with the suspension order, the WRA director shall take immediate action to eliminate the discharge, including disconnection from the POTW. Methods of informal notice to a user shall include but not be limited to any of the following: personal conversations between user and personnel or the WRA or its operating contractor, telephone calls, letters, hand-delivered messages or notices posted at the user's premises or point of discharge.

(2) A user responsible, in whole or in part, for imminent endangerment shall submit to the WRA director, prior to the hearing described in subsection 118-402(b) of this division, a detailed written report describing the causes of the endangerment and the measures taken to prevent any future occurrence.

(O.14,549)

Sec. 118-406. Elimination of discharge; reinstatement of permit.

A user notified by the WRA director of revocation of its discharge permit and/or disconnection of its sewer service under section 118-402 or 118-405 of this division shall immediately cease discharging wastewater to the POTW. If the user fails to comply voluntarily with the revocation and/or disconnection order, the city shall take such steps as are deemed necessary by the WRA, including immediate severance of the sewer connection. The WRA director shall reinstate the wastewater discharge permit or the sewer service upon proof of the elimination of the non-complying discharge.
(O.14,549)

Sec. 118-407. Additional remedies.

(a) In addition to remedies available to the WRA set forth elsewhere in this article, if the WRA is fined by the Iowa Department of Natural Resources or the U.S. Environmental Protection Agency for violations of the National Pollutant Discharge Elimination System permit for the WRF, or for violations of water quality standards as the result of a discharge of pollutants by an identifiable user, the fine, and all legal, sampling, analytical testing costs and any other related costs, shall be charged to the responsible user. Such charge shall be in addition to any other remedies the WRA may have under this article at law or in equity.

(b) If the discharge from any user results in a deposit, obstruction, damage or other impairment to the POTW, the user shall become liable to the city and/or the WRA for any expense, loss, or damage caused by the violations or discharge. The WRA may add to the user's charges and fees the costs incurred by the WRA and by the city for any cleaning, repair, or replacement work caused by the violations or discharge.

(c) The remedies provided in this article shall not be exclusive, and the WRA may seek whatever other remedies are authorized by statute, at law or in equity against any persons violating this article.

(d) In addition to any other remedies provided in this article, the city and/or the WRA may initiate an action, either in law or in equity, to obtain an injunction against further violations of this article and for judgment for all costs incurred by the city and/or the WRA occasioned by the user's violation of any requirements of this article.
(O.14,549)

Sec. 118-408. Notices to the WRA, the WRA board, the WRA director or the WRA steering committee.

Notices which are required to be given or which may be given to the WRA, the WRA board,

the WRA director or the WRA appeal committee, as provided in this article, shall be mailed to such entity, body or person at the following address:

DIVISION 5. REGULATION OF FAT, OIL AND GREASE DISCHARGE BY FOOD SERVICE ESTABLISHMENTS

Sec. 118-421. Purpose.

The purpose of this section shall be to aid in the prevention of sanitary sewer blockages and obstructions from contribution and accumulation of fat, oil, and grease (FOG) into the POTW. Such discharges from commercial kitchens, restaurants, food processing facilities and all other establishments, where fat, oil, and grease of vegetable or animal origin are discharged directly or indirectly into the POTW, can contribute to line blockages and/or spills in violation of Title 40, Code of Federal Regulations 40 CFR, Part 403.
(O.14,549, 15,730)

Sec. 118-422. Definitions.

The definitions found in section 118-316 shall apply to the provisions of this division, provided however that the following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Best management practices or *BMPs* means and includes schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to prevent or reduce the pollution of waters of the state. For purposes of this division, *best management practices* include procedures and practices that reduce the discharge of FOG to the building sewer, to the city sanitary sewer system and to the POTW.

Design liquid depth means the maximum depth of liquid when the tank is filled with water.

Effective date means the date set forth in section 118-423 upon which the regulatory provisions of this division take effect.

Food service establishment or *FSE* means an operation or enterprise that stores, prepares, packages, serves, vends, or otherwise provides food for human consumption. Such facilities may include, but are not limited to, those that process meat or other food ingredients as an intermediate step or for final human consumption, food service operations in a summer camp, residential substance abuse treatment facility, halfway house, correctional facility, school, restaurant, commercial kitchen, caterer, church, hotel, bars, hospital, prison, care institution or similar facility.

Grease interceptor means a tank that serves one or more fixtures and is remotely located. Grease interceptors include, but are not limited to, tanks that capture wastewater from dishwashers, garbage disposals, floor drains, pot and pan sinks and trenches as allowed by local plumbing codes. For purposes of this division, a grease interceptor is a multi-compartment tank located underground outside of a building that reduces the amount of FOG in wastewater prior to its discharge into the POTW.

Grease trap means a device designed to retain grease from one to a maximum of four fixtures. Not all grease traps are approved by the manufacturer for use on heated water (e.g., dishwasher) or in-line to a waste disposal unit (e.g., garbage disposal and grinders). For purposes of this division, a grease trap is a small device located within a building.

Minimum design capability means the design features of a grease interceptor and its ability or volume required to effectively intercept and retain greases from grease-laden wastewaters discharged to the POTW.

Non-routine inspection means an impromptu, unscheduled inspection of an FSE made without prior notification or arrangement.

Routine inspection means an inspection of an FSE which is scheduled in advance or according to a pre-arranged schedule.

User as used in this division has the same meaning as the definition in section 118-316, but also includes persons who discharge wastewater to the POTW from mobile sources, such as mobile food vendors.
(O.14,549, 14,946, 15,730)

Sec. 118-423. Effective date of FOG regulations.

The provisions of this division shall be effective on and after April 3, 2006.
(O.14,549)

Sec. 118-424. Grease interceptor installation required after effective date.

The owner of a building or facility in which as FSE is located, and the owner or operator of an FSE shall be required to install an approved grease interceptor, and to thereafter operate and maintain same as provided in this division.
(O.14,549, 14,946)

Sec. 118-425. Exemption from grease interceptor installation requirement for existing facilities.

The requirements of section 118-424 shall not apply to that portion of a building or facility within which an FSE is in existence on the effective date if:

(1) The FSE has an existing grease interceptor or grease trap in place as of the effective date and provided that (1) the owner or occupant of the FSE continues to use the interceptor or trap, (2) the interceptor or trap is of sufficient capacity and design, and (3) the interceptor or trap is operated and maintained so as to comply with FOG discharge limits; and

(2) Any repair, remodeling or renovation of the wastewater plumbing system in the existing FSE involves only (1) the repair of leaks or the clearing of stoppages in drains, soil, waste or vent piping, or (2) the removal and reinstallation of a sink, toilet or hot water heater; provided that such work does not involve replacement, rearrangement or moving of wastewater pipes, floor sinks, drainage fixtures or grease traps; and

(3) None of the following conditions are present:

a. A building or facility exists on the effective date and is thereafter expanded or renovated, or a portion thereof, to include an FSE where such FSE did not previously exist; or

b. An FSE exists on the effective date within a building or facility, or portion of a building or facility, and application is thereafter made for a building permit(s) for such building or facility with valuation of $50,000.00 or more within a 12-month period; or

c. A building or facility, or portion thereof, that contained an FSE on the effective date but in which an FSE ceases to operate for one year or more, as determined by Iowa Department of Inspections & Appeals, Food and Consumer Safety Bureau records.

(O.14,549, 14,946, 16,159)

Sec. 118-426. Compliance procedures.

(a) After the effective date, any permitted construction under section 118-424 shall be deemed compliant upon issuance of a certificate of compliance or certificate of occupancy for such construction by the city building official or designee.

(b) An FSE shall be deemed compliant, unless the WRA director or local building official or designee determines that an existing grease trap or grease interceptor is incapable of adequately

retaining FOG. In such cases, the director may order the FSE to install an adequate grease interceptor within a specified time period if:

(1) The FSE is found to contribute FOG in quantities above FOG discharge limits; or

(2) The FSE discharges necessitate increased maintenance on the publicly owned treatment works (POTW) in order to keep stoppages from occurring therein; or

(3) The FSE's discharge to the POTW is at any time determined to exceed 400 mg/l total FOG.

(c) An order directing an existing FSE or the owner or operator of the FSE or the owner of the building or facility in which the FSE is located to install a grease interceptor shall be in writing from the WRA director in the form of a notice of violation including a corrective action order, as provided in section 118-433 of this division.

(d) FSEs or owners of buildings or facilities within which an FSE is located which are unable to install or replace a grease interceptor due to exceptional physical constraints or economic hardship may appeal to the WRA director for approval of an alternative grease control technology by requesting a hearing in accordance with the provisions of this division. Such requests shall be submitted in writing and shall include detailed descriptions of the FSE's physical or financial constraints and the alternative grease control technology which it proposes to install and utilize.

(1) In order to demonstrate exceptional economic hardship, the owner or operator of the FSE shall submit to the WRA director balance sheets and profit and loss statements for FSE for the preceding three years. A new FSE shall submit profit/loss projections or a detailed business plan with projections for 24 months. Each request shall be evaluated on a case-by-case basis.

(2) Notwithstanding approval of alternative grease control technology, when the WRA director determines that such alternative is not performing adequately, the FSE or owner of the building or facility in which the FSE is located shall be required to take additional grease control measures, which may include the installation of a grease interceptor.

(3) In order to demonstrate exceptional physical site constraints preventing the installation of a grease interceptor, the owner or operator of the FSE or owner of the building or facility in which the FSE is located shall submit to the WRA director documentation and plats showing the location of city sanitary sewer and any private easements in relation to the building sewer for the building housing the FSE, and showing available space inside or outside the building and drawings of existing plumbing at or in a site that uses common plumbing for all services at that site.

(4) An FSE that is given an exemption from installing a properly sized grease interceptor is prohibited from installing or using a dishwasher or garbage disposal without approval of the director and must comply with the conditions of such approval, if any.

(O.14,549, 14,946, 16,159)

Sec. 118-427. Installation of grease interceptors and grease traps.

Grease interceptors and grease traps, when required, shall be installed as follows:

(1) Grease interceptors and grease traps shall be installed at the expense of the owner or operator of the FSE or owner of the building or facility in which the FSE is located which is contributing wastewater to the POTW.

(2) All wastewater streams containing FOG or reasonably likely to contain FOG within FSEs or other FOG generating operations shall be directed into one or more appropriately sized grease interceptor before discharge to the POTW. Grease interceptors shall be either sized by adding the peak design flow rates for all fixtures

leading to the grease interceptor and allowing a minimum retention time of 30 minutes or as follows:

Grease Interceptor Sizing

1. Peak meals per hour
   a. Seating capacity of FSE _____
   b. Occupancy of FSE _____ *
   c. Seating or occupancy x meal factor of 1.3 (45 minute meal) or 1.0 (intermittent-use FSEs) = Peak meals per hour

* Church: include all area(s) used for meal service

* Assisted Living / nursing facility: equal to maximum number of residents (per State license)

2. Waste flow rate, gallons of flow
   a. Commercial, equipped kitchen with dishwasher & one garbage disposal* 7
   b. Commercial, equipped kitchen with dishwasher, no garbage disposal 6
   c. Commercial, equipped kitchen with no dishwasher, one garbage disposal* 6
   d. Commercial, equipped kitchen with no dishwasher, no garbage disposal 5
   e. Single service kitchen** 2

* Each additional garbage disposal, add one (1) gallon

** Single service kitchen = no garbage disposal, no dishwasher and all service is single use

3. Retention time, hours
   a. Commercial kitchen 2.5
   b. Single service kitchen 1.5
4. Storage factor
   a. Commercial Kitchen up to 8 hours of operation 1
   b. Commercial kitchen up to 12 hours of operation 1.5
   c. Commercial kitchen up to 16 hours of operation 2
   d. Commercial kitchen up to 20 hours of operation 2.5
   e. Commercial kitchen up to 24 hours of operation 3
   f. Single service kitchen 1.5

Peak Meals per Hour	X	Waste Flow Rate	X	Retention Time	X	Storage Factor	=	Calculated Interceptor Size

(3) Concrete grease interceptors whether precast or poured in place, shall be designed and manufactured in accordance with ASTM C 1613-08 Standard Specification for Precast Concrete Grease Interceptor Tanks or IAPMO/ANSI Z1001 Grease Interceptors and shall be installed in accordance with the codes adopted by the jurisdiction in which the FSE is located. Where no code is adopted, the construction and installation shall be in accordance with the Iowa State Plumbing Code and this division. Grease interceptors using materials other than concrete require approval by the director, and shall comply with the conditions of such approval, if any.

(4) The building official or other designated official of the governmental subdivision within which the FSE is located shall inspect each grease interceptor installation made pursuant to this division, shall review all relevant information regarding the rated performance of the grease interceptor, and the building plan and facility site plan for the building and site where the grease interceptor has been installed, and shall approve such grease

interceptor installation upon determination that the grease interceptor meets all applicable standards and requirements.

(5) Grease interceptors shall have a minimum capacity of 1,000 gallons and shall not exceed 5,000 gallons for a single unit. Where a capacity greater than 5,000 gallons is required, several smaller units shall be installed in series, however the capacity shall not exceed 10,000 gallons for any single series of interceptors without approval of the director.

(6) Grease interceptors shall be installed outside the building housing the FSE and below surface grade, and shall have access manholes, with a minimum diameter of 24 inches, over each chamber and sanitary tee. Access manholes shall extend from the grease interceptor to at least the finished surface grade and be designed and maintained to prevent storm or surface water inflow and groundwater infiltration. The manholes shall also have readily removable covers to facilitate inspection and grease removal.

(7) Sewer lines which are not grease laden, which are not likely to contain FOG, or which contain sanitary wastes shall not be connected to a grease interceptor.

(8) Grease interceptors shall be equipped with an accessible discharge sampling port with a minimum six-inch diameter, which shall extend from the grease interceptor to at least the finished surface grade.

(9) Where grease interceptors are shared by more than one FSE, the building owner shall be the responsible party for record keeping and cleaning of the interceptor.

(O.14,549, 14,946, 15,730)

Sec. 118-428. Operation, maintenance and cleaning of grease interceptors and grease traps and grease hauler certification.

(a) The owner or operator of an FSE which is required to pass wastewater through a grease interceptor or trap shall operate and maintain the grease interceptor or trap so that wastewater exiting the grease interceptor or trap shall not exceed 400 milligrams per liter of FOG.

(b) The owner or operator of the FSE shall cause the grease interceptor or trap to be cleaned as hereinafter required when FOG and solids reach 25 percent of the design liquid level of the grease interceptor or trap, or sooner if necessary to prevent carry over of FOG from the grease interceptor or trap into the city sanitary sewer system. Interceptors and traps shall be cleaned at three-month intervals or less. A longer cleaning interval must be approved by the WRA director. The owner or operator of an FSE shall employ a waste hauler licensed by the WRA pursuant to division 6 of article III of this chapter to clean the grease interceptor or trap, provided that the waste hauler personnel performing the cleaning has a current grease hauler certification from the WRA indicating satisfactory completion of the course of training offered by the WRA on the cleaning of grease interceptors and traps.

(c) Any person who cleans a grease interceptor or trap shall do so in accordance with the following procedures and requirements. The person cleaning the grease interceptor or trap shall:

(1) Completely empty and remove the contents (liquids and sludge) of all vaults of the grease interceptor or trap, and remove the grease mat and scrapings from the interior walls. As part of each cleaning of a grease interceptor or trap the licensed waste hauler employed by the FSE owner or operator shall perform the following maintenance activities:

a. Check that the sanitary "tees" on the inlet and outlet sides of the grease interceptor are not obstructed, loose, or missing.

b. Verify that the baffle is secure and in place.

c. Inspect the grease interceptor or trap for any cracks or other defects.

d. Check that lids are securely and properly seated after completion of cleaning.

(2) Not deposit waste and wastewater removed from a grease interceptor/trap back into the grease interceptor/trap from which the waste or wastewater was removed, or into any other grease interceptor/trap or drainage fixture connected to the sanitary sewer, for the purpose of reducing the volume of waste and wastewater to be disposed of.

(3) Not introduce enzymes, emulsifying chemicals, hot water or other agents into a grease interceptor or trap to dissolve or emulsify grease or as a grease abatement method. Introduction of bacteria as a grease degradation agent is permitted with prior written approval by the WRA director.

(4) Dispose of waste and wastewater removed from a grease interceptor or trap at the WRF or at a facility approved for disposal of such waste by the WRA director. Waste and wastewater removed from a grease interceptor or trap shall not be discharged to any private sanitary or storm sewer or to the city sanitary or storm sewer system. The waste hauler shall provide a copy of the disposal receipt for all waste and wastewater removed from a grease interceptor or trap to the owner or operator of the FSE.

(5) Not use an automatic grease removal system to clean a grease interceptor without prior written approval of the WRA director, and if, the use of an automatic grease removal system is approved, shall operate same in a manner that the grease wastewater discharge limit, as measured from the system's outlet, is consistently achieved.

(d) The WRA director may make exceptions to the above requirements, or may approve alternative operational requirements or cleaning and maintenance methods, provided that such exceptions or approvals shall be made in writing by the WRA director.

(e) The WRA director may issue a grease hauler certification upon satisfactory completion of the course of training offered by the WRA on the proper maintenance and cleaning of grease interceptors and traps, disposal procedures, and record keeping. Such certification shall be for a period of five years and shall be in effect for the person receiving such training. Grease haulers certified by the WRA shall be subject to a grease interceptor cleanout inspection by WRA personnel, not less than once every two years, for purposes of the hauler demonstrating its compliance with requirements in this section. Such inspections shall be scheduled at a time which coincides with normal working hours for WRA personnel, shall involve all individuals employed by the same company who have been issued a grease hauler certification by the WRA, and shall be conducted at an FSE within the WRA service area. Failure to follow WRA's cleanout procedures or other requirements of this section may result in fines, additional scheduled cleanout inspections, and loss of grease hauler certification status, individually or company-wide, with the WRA.
(O.14,549, 15,730, 16,159)

Sec. 118-429. Records and record keeping.

(a) *Required records.* The owner or operator of an FSE which is required to pass wastewater through a grease interceptor or trap shall maintain a written record of grease interceptor or trap maintenance, including a log showing the dates upon which the grease interceptor or trap was inspected and the estimated amount of FOG present in the grease interceptor or trap at each inspection, the date upon which waste and wastewater was removed from the grease interceptor or trap and disposed of, the location and means of such disposal of waste and wastewater, and the name and employer or the person or persons performing each of said tasks. The log shall further include a record of the placement of any approved or unapproved additive into the grease interceptor, grease trap or building sewer on a constant, regular or scheduled basis, including the type and amount of additive placed on each such occasion. Only additives approved by the WRA director pursuant to section 118-428(c)(3) may be used in a grease interceptor.

(b) *Record keeping.* The log shall at all times be kept and maintained on a day-to-day basis, so as to show a record of waste and wastewater removal, waste and wastewater disposal and approved additive placement for a continuous period of three years. All such records shall be kept secure at the premises of the FSE for a continuous period of three years and shall be made available for non-routine inspection by the city, the WRA and its operating contractor, or the employees and agents of any of them at any time during normal business hours.
(O.14,549, 16,159)

Sec. 118-430. Inspection of grease interceptors and related sewers and equipment.

The owner or operator of an FSE shall:

(1) Provide, operate and maintain, at its expense, safe and accessible monitoring facilities (such as a suitable manhole), and shall make such monitoring facilities available for inspection, for routine cleanouts by the owner or operator's licensed grease hauler, and for sampling and flow measurement of the building sewer or internal drainage systems. There shall be ample room in or near such monitoring facilities to allow for proper inspection, accurate sampling and preparation of samples for analysis. The monitoring facilities shall be maintained such that the device(s) is readily and immediately accessible for inspections and cleanouts being free of coverings, building materials, pavements, or any other obstructions.

(2) Allow personnel authorized by the WRA director or by the city building official or designee, bearing proper credentials and identification, to enter upon or into any building, facility or property housing an FSE at any reasonable time and without prior notification, for the purpose of inspection, observation, measurement, sampling, testing or record review, in accordance with this division.

(3) Upon request by the WRA director's authorized representative, open any grease interceptor or grease trap for the purpose of confirming that maintenance frequency is appropriate, that all necessary parts of the installation are in place including, but not limited to, baffles, and effluent tees, and that all grease interceptors, traps, and related equipment and piping is maintained in efficient operating condition.

(4) Accommodate compliance inspections and sampling events by the authorized representatives of the WRA director or of the city building official. Staff may conduct routine inspections and sampling events of any food service establishment. Non-routine inspection and sampling events shall occur more frequently when there is a history of non-compliance with this division and when blockages occur in the city's sanitary sewer system downstream of the FSE.

(O.14,549, 14,946, 15,730, 16,159)

Sec. 118-431. Trip charges.

The fees for inspection of an FSE shall be as provided in section 118-352 and shall be paid within 30 days of the date of the invoice for such fees. A trip charge of $50.00, as referenced in section 118-352(1)(e), shall be assessed in conjunction with the violation of any requirement of section 118-430 which results in the need for WRA personnel to reschedule such inspection of grease interceptor/trap or food service establishment, and shall be paid within 30 days of the date of the invoice for such charge.
(O.14,549, 14,946, 16,159)

Sec. 118-432. Enforcement.

The WRA director is authorized to enforce this division as hereinafter provided. The city building official or designee, or such other governmental official hereafter designated by the WRA, is also authorized to enforce this division.
(O.14,549)

Sec. 118-433. Notice of violation; administrative penalties; corrective action order.

(a) The director, or such other designated officers or officials with enforcement authority as provided in section 118-432, are authorized to issue a notice of violation imposing an administrative penalty upon any person who fails to perform an act required by this division or who commits an act prohibited by this division. Such notice may include a corrective action order requiring the user to take one or more of the following corrective actions within 30 days:

(1) Conform to best management practices;

(2) Submit copies of the grease interceptor or trap maintenance log;

(3) Develop, submit and implement a FOG compliance plan to be approved by the director or designated enforcement official; or

(4) Install a compliant grease interceptor.

(b) The administrative penalty for such violations shall be as provided in the schedule of administrative penalties adopted by the city council by resolution.

(c) Notice of violation, with the applicable penalty for such violation noted thereon, shall be issued to and served upon the violator. Service of the notice may be by regular mail or by delivery in person.

(d) Penalties assessed pursuant to notice of violation shall be paid by the violator in full as directed in the notice within 30 days of its issuance.

(e) The administrative penalties set out in the schedule of administrative penalties shall be charged in lieu of the fines and penalties provided for in section 118-434, unless the violator refuses to correct the violation and pay the scheduled administrative penalty, or the WRA director determines that immediate enforcement action by misdemeanor or municipal infraction prosecution is, in view of the particular circumstances of the case, necessary to achieve compliance with the requirements of this article. A record of all violations, administrative penalties charged or other enforcement actions taken shall be maintained by the WRA for a period of three years.
(O.14,549, 15,730)

Sec. 118-434. Penalties.

(a) Any person who fails to perform an act required by this division or who commits an act prohibited by this division shall be guilty of a misdemeanor punishable by fine or imprisonment as provided by section 1-15 of this Code or shall be guilty of a municipal infraction punishable by a civil penalty as provided by section 1-15 of this Code.

(b) Any person who fails to comply with a pretreatment standard applicable to an FSE shall be guilty of a municipal infraction punishable by a civil penalty of not more than $1,000.00 for each day the violation exists or continues, as provided by section 364.22 or 331.307 of the Iowa Code.

(c) When enforcement is sought through a municipal infraction proceeding, the director, or such other designated officers or officials with enforcement authority as provided in section 118-432, may enter into consent orders, assurances of voluntary compliance or other similar documents establishing an agreement with the user responsible for noncompliance. Such orders will include specific action to be taken by the user to correct the noncompliance within a time period specified by the order.
(O.14,549, 14,946)

Sec. 118-435. Order to cease operation of FSE.

(a) Where a violation of this division has not been timely corrected, and results in or threatens interference or pass through as herein defined, the WRA director, or such other designated officers or officials with enforcement authority as provided in section 118-432, shall have the authority to issue an order in writing to the owner or operator of the FSE, ordering such person or persons to cease and desist from further operation of the FSE and from further discharge of wastewater to the sanitary sewer system. The order shall be delivered by personal

service unless the owner or operator cannot be found within the city, in which event notice shall be by ordinary mail addressed to the owner's or operator's last known address and by posting a copy of the notice in a conspicuous place upon the premises of the FSE.

(b) Operation of the FSE shall cease on the date stated in the order and shall not recommence without the prior written approval of the WRA director.

(c) The applicant may make a written request to the director for a reconsideration and hearing on the cease and desist order within ten days from the issuance of the order, provided, however, that operation of the FSE shall cease pending the outcome of the hearing.

(d) The owner's or operator's request for hearing shall identify the appealing party, include the address of the person requesting the hearing and to which all further notices shall be mailed or served, and shall state the basis for the appeal.

(e) The hearing shall be scheduled to be held as soon as practicable and no later than 14 days after the request for hearing was filed with the WRA director. The person requesting the hearing shall be notified in writing or by telephone of the date and place of such hearing at least three days in advance thereof. At such hearing the director and the person requesting the hearing may be represented by counsel, examine witnesses, and present evidence as necessary.

(f) The determination by the director or by that the violation occurred shall be considered a final administrative decision, unless appealed to the WRA.
(O.14,549)

Sec. 118-436. Appeal of corrective action order or cease and desist order.

(a) Any person aggrieved by a corrective action order or a cease and desist order issued by the WRA director or by such other designated officers or officials with enforcement authority as provided in section 118-432, may, file an appeal and request a ruling that such order be modified or rescinded.

(b) Such appeal request shall be in writing, shall include the grounds for appeal including any factual findings which are disputed, and shall be delivered to the WRA within ten days after the WRA director's issuance of the order. Such appeal request shall be considered delivered when placed in the mail, return receipt requested, addressed to:

WRA Appeal Committee
Des Moines Metropolitan Wastewater Reclamation Authority
3000 Vandalia Road
Des Moines, Iowa 50317

(c) The chair of the appeal committee shall schedule the appeal and shall cause notice of the time, date and place of the hearing to be mailed to the appealing party. Such appeal shall be decided by majority vote of the appeal committee. The appeal committee may affirm, modify or rescind the order of the director and shall so state and order in its written decision.
(O.14,549, 14,946, 15,730)

Sec. 118-437. Additional remedies.

The WRA or the city is not precluded from seeking alternative relief from the court, including an order for abatement or injunctive relief or for recovery of investigational or remedial costs resulting from a non-complying discharge, in the event that the WRA or the city files a misdemeanor citation, notice of administrative penalty, and/or files a municipal infraction for the same violation of this division.
(O.14,549)

Secs. 118-438—118-449. Reserved.

DIVISION 6. REGULATION OF HAULED WASTE

Sec. 118-450. Definitions.

The definitions found in sections 118-316 and 118-422 shall apply to the provisions of this division, provided however that the following

words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Vehicle means a commercial device equipped with a tank and used to remove or transport waste.

Waste means human excreta, water, scum, sludge, septage, FOG, food waste or grease solids, and non-hazardous industrial wastewaters and solids removed from public and private wastewater disposal systems, holding tanks, impervious vaults, portable or chemical toilets, or from devices used to trap grease resulting from food preparation. *Waste* also means liquid wastes resulting from spill clean-up.
(O.14,568, 15,730)

Sec. 118-451. License.

No waste hauler shall remove waste from within the city or shall dispose of waste, whether from a source inside or outside the city, into the POTW without first obtaining a waste hauler license from the WRA, with the following exceptions:

(1) WRA participating communities that operate vehicles to remove waste from their sewer systems.

(2) Waste haulers hired by WRA participating communities to remove waste from their sewer systems and which bring no other wastes to the WRF.

(3) Waste haulers utilized by industrial users issued a wastewater discharge permit by the WRA.

(4) Waste haulers granted temporary authorization by the WRA director in order to deal with an emergency.

(O.14,568)

Sec. 118-452. Issuance of license; payment bond requirements.

The waste hauler's license shall be issued by the WRA director upon written application that shall consist of the following minimum requirements:

(1) *Inspection.* The WRA director, upon application, shall inspect the trucks, hoses, valves, and associated equipment of the applicant for a waste hauler's license and determine if they meet the minimum qualifications for complying with the conditions of this division.

(2) *License fee and bond.* An application shall require the payment of a fee of $60.00 for each vehicle used by the applicant and the posting of a bond with reasonable surety in a penal sum which shall cover no less than two months of average or estimated treatment fees at the WRF for the faithful compliance with this division, including prompt payment of treatment costs, surcharges, fees and fines. Bond amounts shall be up to $100,000.00 but not less than $20,000.00 and structured as follows or as required by the WRA director:

Total Monthly Treatment Fees	*Surety Bond Amount*
< $10,000.00	$20,000.00
$10,001.00—$20,000.00	$40,000.00
$20,001.00—$40,000.00	$60,000.00
> $40,001.00	$100,000.00

WRA participating communities that contract with waste haulers in order to clean and rehabilitate storm and sanitary sewers owned by the community or that own and operate waste hauling vehicles may provide proof of self-insurance or provide a letter guaranteeing payment of up to $20,000.00 in lieu of providing a surety bond.

(3) *Renewal.* A waste hauler license shall expire on June 30 next after its issuance. The renewal application must be made in the same manner as the initial application and must be received by the director 30 days prior to expiration. Failure to apply 30 days prior to expiration may result in an interruption in the license and the privileges of such license.

(4) *Transferability.* Waste hauler licenses are not transferable.

(O.14,568, 16,159)

Sec. 118-453. Standards for vehicles and equipment.

As to all vehicles and equipment used by a waste hauler, the licensee shall:

(1) Prevent waste and wastewater from leaking, spilling, or discharging onto roads or rights-of-way.

(2) Ensure proper construction and repair of the equipment to allow cleaning.

(3) Maintain vehicles and equipment in an essentially rust-free and sanitary condition and appearance.

(4) Display the business name as it appears on the waste hauler license in three-inch or larger letters on the left and right sides of the vehicle.

(O.14,568)

Sec. 118-454. Disposal.

Hauled waste shall only be disposed at the WRF at the designated disposal station or as authorized by the Iowa Department of Natural Resources for land application. Waste haulers shall maintain the WRF designated disposal location in a clean and orderly condition to avoid noxious odors and unsanitary conditions. Hours of operation at the WRF disposal station shall be set by the WRA director. In the event of emergency situations, special arrangements between the waste hauler and the WRA director regarding disposal at an alternative disposal site shall be allowed to permit response to such emergency. Any violation of an Iowa Department of Natural Resources rule or regulation for land disposal of hauled wastes by a waste hauler shall be grounds for rejection of a hauled waste load in section 118-458 by such waste hauler or shall be grounds for denial, suspension and revocation of such waste hauler's license in section 118-463.
(O.14,568)

Sec. 118-455. Identification of source and wasteload approval.

(a) Waste haulers must document the nature and origin of wastes collected and the site and method of disposal for wastes that are removed from any locations or are delivered to the WRF. Such information shall be provided on a manifest form provided by the WRA and shall also include: (i) the name and address of the waste generator(s), (ii) the type of waste collected, (iii) any other information consistent with identification and tracking of wastes. The WRA director or his or her designee shall have the right to verify all information required by this section, including the right to measure, sample and analyze any waste regulated by this division.

(b) The waste hauler or waste generator shall obtain approval from the WRA director or his or her designee prior to loading wastes originating from an industrial/commercial source unless prior approval is on record with the WRA. A hauled waste profile form prescribed by the WRA must be completed by the waste generator and submitted to the WRA director or his or her designee for consideration for waste load disposal at the WRF. Such profile form shall include information regarding the waste generator's name, address, phone number, authorized representative, waste description and product information, anticipated volume and frequency of disposals, waste transporter information, process waste characteristics including pollutant concentrations, declarations, certifications, and signature of authorized official.
(O.14,568, 16,159)

Sec. 118-456. Mixing wastes.

(a) For the purposes of this division, wastes from residential and nonresidential sources shall not be mixed. Wastes from an industrial/commercial source shall not be mixed with wastes of any type from another location. Portable toilet and FSE grease trap wastes may be mixed with similar wastes from different locations. Residential wastes from several sources may be mixed as long as each source is identified.

(b) Any tanks used for hauling waste to the WRF or equipment that comes in contact with waste shall not be used for hauling hazardous wastes or hazardous substances, as defined in I.C. § 567.1 et seq., chapter 131 of the Iowa Administrative Code and in 40 CFR 261, or other

wastes which may be detrimental to the POTW, the receiving waters, or the health of WRF employees, private contractors, or the public.
(O.14,568, 16,159)

Sec. 118-457. Standards of disposal at WRF.

(a) Under this division, disposal of wastes at the WRF shall be carried out in accordance with pretreatment standards and requirements established by federal, state, county and city governments including categorical standards developed for the waste generator's industrial category. The WRA director may reject wastes from waste haulers who do not comply with this section or with any other section of this division. Waste haulers shall not deliver wastes to the WRF, or to any other disposal location approved by the WRA director which are:

(1) Prohibited by section 118-342 or exceed the limits found in subsection 118-343(c)(4), sections 118-344 and 118-345 of this chapter.

(2) Hazardous wastes or hazardous substances as defined in 40 CFR Part 261 or 567 I.A.C., Chapter 131.

(3) Originate from mineral oil unless first treated to remove the oil and grease.

(4) Not completely identified or are from industrial/ commercial sources that are not approved by the WRA director as required in section 118-455.

(5) Mixed in a manner prohibited in section 118-456.

(6) Wastes other than residential from outside the WRA, except through requests to the WRA director.

(b) All disposal transactions at the WRF shall consist of waste haulers scaling in and scaling out on the WRF scales system. Prior to discharging any contents from their vehicle, a waste hauler shall:

(1) Collect onsite at the WRF a sufficient sample of the waste material onboard.

(2) Test and record the pH and immediately report any results that do not meet disposal limits as listed in 118-342(2).

(3) Document on the WRF manifest all contents of the waste load including waste type, source information, and any other information consistent with identification and tracking of wastes as required in section 118-455.

(4) Request and obtain approval from WRF operations to begin unloading at the WRF digesters.

(O.14,568, 15,730, 16,159)

Sec. 118-458. Rejection of waste loads.

(a) The WRA director may reject any hauled waste load that violates or is suspected of violating the requirements of this division or that fails to meet any other guidelines established by the WRA director to protect personnel, equipment, and the WRF. Waste haulers must:

(1) Remove rejected waste from the WRF.

(2) Immediately remove any additional wastes contaminated by the rejected waste while contained at the WRF prior to introduction into the sewer.

(3) Properly dispose of all rejected wastes in accordance with state and federal law.

(4) Provide the WRA director with a written statement, signed by the waste hauler license holder, stating the location, date, and time the rejected load was disposed of. The statement is due within five calendar days after the waste is rejected.

(b) A vehicle used to haul rejected wastes shall not thereafter be allowed to dispose of additional wastes at the WRF until the statement required by this section is delivered to the WRA director.
(O.14,568)

Sec. 118-459. Treatment fees for hauled wastes.

(a) A treatment fee shall be charged per pound of hauled waste disposed of at the WRF and assessed based on the waste type, pollutant

loading, approved disposal location, and location of the source material. The fee for treatment shall include electrical, chemical, labor, equipment, fuel, maintenance, and any capital costs associated with the treatment processes utilized. The treatment fee shall reflect a total cost per gallon or per pound of hauled waste equaling the sum of the total cost of pollutants per gallon or per pound plus, if applicable, total cost of flow per gallon, based on: (1) the parameters of chemical oxygen demand (COD), estimated biochemical oxygen demand (BOD), total suspended solids (TSS) and/or total solids (TS), volatile solids (VS), total Kjeldahl nitrogen (TKN), oil and grease (O&G), and, if applicable, total phosphorus (TP) contained in trucked waste to the WRF; (2) net weight of the wasteload in pounds; and (3) the treatment surcharge component rate per pound of pollutant as found in section 118-352 of this division. Wasteloads disposed of at an unapproved location at the WRF, or containing pollutant concentrations different from typical pollutant concentrations or from original disclosures made during the wasteload approval process, may be subject to the following additional costs: treatment fees, charges, or fines may also be applied pursuant to section 118-352(1)(l).

(b) Treatment costs shall be reviewed and updated annually per the U.S. Bureau of Labor Statistics Consumer Price Index. The WRA shall provide 30 days' notice prior to assessing updated disposal rates with such notices posted, at a minimum, on the WRA website. The treatment fee for loads originating outside of the WRA participating communities shall be 1.5 times the fee for loads originating within the WRA participating communities unless otherwise approved by the WRA director.

(c) Wasteload disposal weights shall be computed and recorded at the WRF truck scales and the resulting treatment fees shall be paid by the waste hauler or waste generator, at the WRA's discretion, on the basis of monthly billings by the operating contractor. Limits of credit shall not exceed 60 days. Abuse of such credit shall be grounds for liability on the waste hauler or waste generator's bond and for refusal of disposal services to any waste hauler or waste generator under this division.

(d) Waste haulers and waste generators may elect to have their routine waste streams tested for actual concentration at their expense as set forth in section 118-352 and as approved by the WRA director. When a waste hauler or waste generator has elected to test for actual concentration, the treatment fee will be based on the actual concentration whether it be higher or lower than the average concentration treatment fee. Said testing will be done at least semi-annually or as required by the WRA director. (O.14,568, 16,159)

Sec. 118-460. Enforcement.

The WRA director, the city building official, or such other governmental official hereafter designated by the WRA, shall be authorized to enforce this division as hereinafter provided. (O.14,568)

Sec. 118-461. Notice of violation—Administrative penalties; corrective action order.

(a) The director, or such other designated officers or officials with enforcement authority as provided in section 118-460, are authorized to issue a notice of violation imposing an administrative penalty upon any person who fails to perform an act required by this division or who commits an act prohibited by this division.

(b) The administrative penalty for such violations shall be as provided in the schedule of administrative penalties adopted by the city council by resolution.

(c) Notice of violation, with the applicable penalty for such violation noted thereon, shall be issued to and served upon the violator. Service of the notice may be by regular mail or by delivery in person.

(d) Penalties assessed pursuant to notice of violation shall be paid by the violator in full as directed in the notice within 30 days of its issuance.

(e) The administrative penalties set out in the schedule of administrative penalties shall be charged in lieu of the fines and penalties provided for in section 118-462, unless the violator refuses to correct the violation and pay the scheduled administrative penalty, or the WRA director determines that immediate enforcement action by misdemeanor or municipal infraction prosecution pursuant to section 1-15 is, in view of the particular circumstances of the case, necessary to achieve compliance with the requirements of this article. The WRA shall maintain a record of all violations, administrative penalties charged or other enforcement actions taken.
(O.14,568)

Sec. 118-462. Penalties.

(a) Any person who fails to perform an act required by this division or who commits an act prohibited by this division shall be guilty of a misdemeanor punishable by fine or imprisonment as provided by section 1-15 of this Code or shall be guilty of a municipal infraction punishable by a civil penalty as provided by section 1-15 of this Code.

(b) Any person who violates a discharge prohibition set forth in section 118-342, or discharges in excess of local limits as set forth in section 118-343, shall be guilty of an environmental violation punishable as provided by section 364.22 of the Iowa Code.
(O.14,568)

Sec. 118-463. Denial, suspension and revocation of license.

(a) *Grounds for denial, suspension or revocation of waste haulers license.* The WRA director may deny, suspend or revoke the waste hauler license and/or grease hauler certification of any wastehauler who violates any provision of this division or any condition of its license, or who commits any of the following violations, or who does not meet the following requirements:

(1) Violation of any term, condition or requirement of this division, the license, or applicable State of Iowa or federal laws or regulations.

(2) Obtaining a license by misrepresentation.

(3) Falsification of, failure to complete or failure to fully disclose all relevant facts in a license application.

(4) Failure to pay fees, administrative penalties or fines.

(5) Failure to report a spill to the WRA.

(6) Using wash down water or otherwise diluting the permitted waste for the purpose of meeting discharge limitations or requirements.

(7) Falsification of, failure to complete or failure to fully disclose all relevant facts in any report, manifest information or record required by the license or this division.

(8) Tampering with samples or sampling equipment intended to accurately reflect the contents of each hauled waste load.

(9) Refusing to allow WRA personnel timely access to the wastehauler's facility premises, vehicles, or records.

(10) Failure to perform as required under a corrective action order or compliance schedule issued by the WRA director.

(11) Failure to correct any violation of this division within 30 days after notice by the WRA director.

(12) Failure to immediately correct any violation of this division if the condition constituting the violation is declared a threat to public health, safety or welfare by the WRA director and the director orders immediate correction.

(b) *Procedure for denial, suspension or revocation of wastehauler's license.* The procedure for denial, suspension or revocation of a wastehauler's license shall be as follows:

(1) Any license issued to a wastehauler pursuant to this division may be denied, suspended or revoked by written order of the WRA director specifying the grounds for such action as outlined in subsection (a) of this section, which order shall not

take effect until hearing thereon as hereafter provided. Upon determining that grounds exist for an order to deny, suspend or revoke a wastehauler's license, the WRA director shall cause a notice of hearing to be prepared, specifying the violations of subsection (a) of this section which are deemed to have occurred, and the time, date and place that such hearing will be held. The notice shall be sent to the wastehauler by regular mail addressed to the wastehauler's address listed on the wastehauler's license a minimum of ten days prior to the date set for hearing, and shall be deemed delivered when placed in the mail.

(2) If after such a hearing the WRA director makes a finding based on substantial evidence that one or more violations under subsection (a) of this section have occurred as alleged, the director may deny issuance of the license, suspend the license for a fixed period, or may issue an order immediately revoking the license and ordering the wastehauler to discontinue hauling waste to the WRF or any other disposal locations approved by the director. The determination whether to deny issuance of a license, to suspend a license, or to revoke a license, shall be in the discretion of the director and shall be dependent upon the circumstances surrounding the violations of subsection (a) of this section and the severity of those violations. If the wastehauler does not appear for the hearing, the director shall issue the order revoking the wastehauler's license and ordering the cessation of delivery of hauled waste at the WRF or any other disposal locations approved by the director, which order shall take effect immediately.

(3) The decision and order of the WRA director to deny issuance, to suspend or to revoke the license of a wastehauler may be appealed to the WRA appeal committee. Such appeal request shall be in writing, shall include the grounds for appeal including any factual findings which are disputed, and shall be delivered to WRA not less than ten days after the director's entry of the order of denial, suspension or revocation. Such appeal request shall be considered delivered when placed in the mail, return receipt requested, addressed to:

WRA Appeal Committee
Des Moines Metropolitan Wastewater
Reclamation Authority
3000 Vandalia Road
Des Moines, Iowa 50317

The chair of the appeal committee shall schedule the appeal and shall cause notice of the time, date and place of the hearing to be mailed to the appealing wastehauler. Such appeal shall be decided by majority vote of the appeal committee. If the appeal committee affirms the order of the WRA director denying issuance, suspending or revoking the license and ordering the cessation of waste deliveries at the WRF or other approved locations, the appeal committee shall so state and order in its written decision.

(4) A wastehauler whose license has been denied or revoked shall not be eligible for issuance or reinstatement of its license until 30 days after the violating conditions have been corrected to the satisfaction of the director.

(O.14,568, 15,730)

Sec. 118-464. Alternative relief.

Neither the WRA nor the city is precluded from seeking alternative relief from the court, including an order for abatement or injunctive relief, in the event that the WRA or the city files a misdemeanor citation, notice of administrative penalty, and/or files a municipal infraction for the same violation of this division, or in the event the WRA seeks to deny, suspend or revoke the waste hauler's license.

ARTICLE IV. CITY ELECTRIC LIGHT AND POWER*

Sec. 118-476. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Electric distribution system means that portion of the power company's system consisting of power lines and substations operating at a nominal line-line voltage of less than 161 kv.

Electric transmission system means that portion of the power company's system consisting of power lines and substations operating at a nominal line-line voltage of 161 kv or higher.

Power company means the current electric franchisee for the city, including MidAmerican Energy Company as successor in interest to Iowa Power and Light Company, the electric franchisee pursuant to Ordinance No. 6280, passed by the city council on May 4, 1987 and ratified by vote of the electorate of the city on June 9, 1987.
(C91, § 26-27.01; O.13,259)

Cross reference—Definitions generally, § 1-2.

Sec. 118-477. Trimming trees in contact with high voltage wires or cables.

Permission of the city forester may be granted to any person installing wires in accordance with this article to trim any and all trees located on property owned by the city which may at any time interfere or come in contact with wires or cables carrying 100 volts or more of electricity, which may by that contact be burned and thereby endanger the lives of the public and property in general. All trees shall be trimmed so as to ensure reliable electrical service. Trimming shall otherwise conform to the specifications set forth in subsection 122-10(a) of this Code.
(C54, C62, § 18-62; O.7807; C62, § 18-69; C75, C79, C85, § 26-27; O.11,297; C91, § 26-27)

Sec. 118-478. Permission for high current wires.

The director of the department of engineering may, for good and sufficient reasons, give written permission for placing high voltage electric wires in the street right-of-way.
(C42, § 101-9; C54, C62, § 18-71; O.7807; C62, § 18-70; C75, C79, C91, § 26-28)

Sec. 118-479. Care and setting of poles.

All poles carrying electric wires shall be properly maintained and kept free from all signs, posters, pasters, handbills or notices, except public notices and handbills posted under any state law, this Code or any other city ordinances. The poles shall be properly and securely set. If, in setting the poles, any pavement, curb, sidewalk, area, wall or other erection is disturbed or cut into, the pavement, curb, sidewalk, area, wall or other erection shall be repaired, restored and left in as good condition as it was before the cutting or disturbance.
(C42, § 101-7; C54, C62, § 18-72; O.7807; C62, § 18-71; C75, C79, C91, § 26-29)

Sec. 118-480. Attaching wires to poles of another person.

Any person erecting electric wires shall be permitted to attach wires and fixtures to the poles erected by any other person, upon paying reasonable compensation therefor.
(C42, § 101-10; C54, C62, § 18-74; O.7807; C62, § 18-72; C75, C79, C91, § 26-30)

Sec. 118-481. Removal of poles erected in violation of article.

The city engineer shall order the removal of all electric wires, poles and fixtures erected or maintained in violation of this article.
(C42, § 101-11; C54, C62, § 18-75; O.7807; C62, § 18-73; C75, C79, C91, § 26-31)

Sec. 118-482. Rights of city.

This article shall not have the effect of abridging any of the rights of the city in locating all poles and electric wires, in or under the streets and alleys, in the future, nor shall it prevent or

*Cross references—Electrical code, § 26-261 et seq.; electric franchise, app. C.

limit the city in enforcing all proper police regulations with respect to all such electric poles and wires.
(C42, § 101-12; C54, C62, § 18-77; O.7807; C62, § 18-74; C75, C79, C91, § 26-32)

Sec. 118-483. Overhead construction.

No person operating or maintaining electric light or power wires shall erect, operate or maintain any aerial wires within the underground districts as adopted by resolution of the city council except wires necessary to connect consumers with the underground system.
(C42, § 101-14; C54, C62, § 18-79; O.7807; C62, § 18-75; C75, C79, C91, § 26-33)

Sec. 118-484. Statement of location of conduits; map; specifications.

Before any person operating or acquiring the right to operate electric light and power wires shall begin the work of placing wires underground, except as provided for in new subdivisions, such person shall file with the city engineer a written statement specifying the streets, alleys and public highways, or parts thereof in which conduits are to be located, the approximate size of the conduits proposed to be used and the distance from the surface of the street to the top of the conduits. This statement shall be accompanied by a map, plan or specifications which shall show the proposed location of the conduits with reference to streets, alleys and surface of the streets and the approximate dimensions of the conduits and manholes to be used therewith. The proposed locations may be thereupon changed by the city engineer if the locations shall in any way interfere with other conduits, pipes or sewers placed underground. Such statement, map, plan or specifications so altered, after being corrected or changed, together with the original statement, shall remain on file in the city engineer's office. All conduits and manholes shall be constructed in accordance with the corrected statement, plan, map or specifications.
(C42, § 101-15; C54, C62, § 18-80; O.7807; C62, § 18-76; C75, C79, C91, § 26-34)

Sec. 118-485. Permit for excavation of street.

A permit to excavate in any street, alley or public highway for the purpose of constructing, repairing or relocating conduits, underground cables, and manholes under this article shall be issued by the city engineer. It shall be issued subject to this Code or any city ordinances relating to the issuance of permits for street excavations. No person shall excavate without such a permit.
(C42, § 101-15; C54, C62, § 18-81; O.7807; C62, § 18-77; C75, C79, C91, § 26-35)

Sec. 118-486. Excavations generally; indemnification.

In the location, construction or repair of any conduit, no excavation shall be unnecessarily made, placed or continued, and any excavation or obstruction made or placed in any street, alley or public highway at any time or for any such purpose shall be properly guarded. Any pavement at any time or for any purpose whatever torn up or displaced under the terms of the permit provided for in section 118-485 of this article shall be properly and speedily replaced and put in proper order under the supervision of the director of the department of public works, as provided by this Code and other city ordinances relating to the restoration of paving over street excavations. Any person owning such conduits shall pay all damages for injury to persons or to the property of any property owner or corporation, as well as to the city, resulting from, occasioned by or growing out of negligence or improper construction in the laying, constructing or repairing of conduits or the maintenance and use of the conduits. Such person shall fully indemnify and save harmless the city from and against all claims, actions or suits at law or in equity, of any nature, for damages to persons or property resulting from, occasioned by or growing out of the omission of the person or such person's servants or agents to guard properly any excavation or obstruction at any time or for any purpose whatsoever made, placed or caused by such person in any street, alley or public highway.
(C42, § 101-16; C54, C62, § 18-82; O.7807; C62, § 18-78; C75, C79, C91, § 26-36)

Sec. 118-487. Underground wires outside of established districts.

Any person by election may place all or any portion of his or her electric wires outside of an underground district underground, either in connection with the underground construction required by this article or from time to time thereafter. This article shall apply to all underground construction which may be made outside of an underground district.
(C42, § 101-21; C54, C62, § 18-87; O.7807; C62, § 18-79; C75, C79, C91, § 26-37)

Sec. 118-488. Construction of article with reference to occupation of streets.

Nothing in this article shall be construed as an acquiescence in or ratification of the occupation of any of the streets, alleys or public places of the city by any person occupying the streets, alleys or public places without legal right, nor shall this article be construed as conferring the right to occupy any of the streets, alleys or public places of the city upon any such person illegally or without authority occupying the streets, alleys or public places.
(C42, § 101-22; C54, C62, § 18-88; O.7807; C62, § 18-80; C75, C79, C91, § 26-38)

Sec. 118-489. Streetlights.

Any person furnishing electric energy and service for the use of the city for illuminating streets, avenues, alleys and public grounds shall furnish such street lighting units as may be authorized by resolution of the city council.
(C42, § 101-23; O.4855; C54, C62, § 18-89; O.7807; C62, § 18-81; C75, C79, C91, § 26-39)

Sec. 118-490. Rates for service on streetlights.

For electric energy and service furnished to illuminate and maintain the streetlights authorized by the city council, the city shall pay to the person furnishing the energy and service at the rate prescribed by the state commerce commission under authority of state law.
(C42, § 101-25; O.4855; C54, C62, § 18-91; O.7807; C62, § 18-82; C75, C79, C91, § 26-40)

Sec. 118-491. Installation and maintenance of poles, wires.

(a) Any person furnishing electric energy for the facilities mentioned in sections 118-489 and 118-490 of this article shall install and maintain, at such person's expense, all necessary poles, wires, conduits, lamps, fixtures and appurtenant equipment of the street lighting system. Street lighting standards, including bridge lighting units and wiring all complete with luminaries and lamps furnished and installed at city expense, and including therein all such other standards as are now in place, shall be maintained by such person, including the renewal of luminaries and lamps. Such person shall not be required to replace street lighting standards owned by the city which are broken or otherwise damaged through no fault of such person.

(b) All poles, wires, lamps, fixtures and equipment furnished and installed by such person shall remain that person's property.
(C42, § 101-27; C54, C62, § 18-93; O.7807; C62, § 18-83; C75, C79, C91, § 26-41)

Sec. 118-492. Location of street lighting units; removal; new installations.

Street lighting units shall be maintained at the present locations or as may from time to time be authorized by resolution of the city council. The person furnishing electric service to the city, when ordered by the city engineer, shall change the location of any street lighting unit from that previously designated or remove any unit previously ordered installed. The city shall pay the actual cost of the removal or relocation if street lighting units are discontinued within one year after being connected. If lamps are discontinued after one year but within two years after the lamps were connected, the removal charge will be equivalent to 1½ times the yearly rate of the lamps removed. If lamps are discontinued after two years but within three years after lamps were connected, the removal charge will be equivalent to the yearly rate of the lamps removed. If lamps are discontinued after three years, but within four years after the lamps were connected, the removal charge will be equivalent to one-half of

the yearly rate of the lamps removed. If lamps are discontinued four years after the lamps were connected, there will be no removal charge. There shall be no removal charge on lamps reconnected if the reconnection cost is paid for by the city.
(C42, § 101-28; C54, C62, § 18-94; O.7807; C62, § 18-84; C75, C79, C91, § 26-42)

Sec. 118-493. Replacement and maintenance of streetlights.

The streetlights to be furnished or maintained by the person supplying the electric energy at all times shall be maintained in accord with the street lighting maintenance program as approved by the city council and on file with the city clerk.
(C42, § 101-29; C54, C62, § 18-95; O.7807; C62, § 18-85; C75, C79, C91, § 26-43)

Sec. 118-494. Lines, meters and equipment generally; right of entry of power company.

(a) For the purpose of delivering electric energy to the city, the power company shall extend its lines to the point of delivery of each of the connections under the control of the city and to any others established by the city. The power company shall furnish and install all necessary meters and recording devices for the purpose of measuring the energy taken by the city at the point of delivery.

(b) The city will provide, free of charge to the power company, a suitable location for the power company's meter equipment, convenient of access to the personnel of the power company. It will also provide for the power company a right-of-way over its premises for the location of necessary lines and apparatus of the power company.

(c) All lines and apparatus shall be installed by the power company at its expense and shall remain the property of the power company. The personnel of the power company shall have the right to inspect, repair and replace the apparatus without hindrance and to read meters at all reasonable times.

(d) The city shall pay all costs to construct and install, according to approved standards of construction, and maintain in good order all poles, lines, wiring and other apparatus on the city's side of the point of delivery which are necessary for the proper reception by the city of electric energy and for its distribution and use beyond such point. The electrical construction and equipment installed by the city shall be of the type which will not interfere with service rendered by the power company to its other consumers.

(e) The power company shall have the right, at all reasonable times, to enter upon the premises of the city to inspect the equipment installed in the city.
(C42, § 101-32; C54, C62, § 18-98; O.7807; C62, § 18-86; C75, C79, C91, § 26-44)

Sec. 118-495. Duty of power company.

The power company will maintain during the period of application of this article sufficient capacity to meet city requirements for electric energy and will supply such additional electric energy as the city may require, within the limitation of its transmission, distribution and manufacturing establishment after reasonable notice from the city. The power company shall endeavor to provide at all times capacity adequate to satisfy the city's full requirements.
(C42, § 101-33; C54, C62, § 18-99; O.7807; C62, § 18-87; C75, C79, C91, § 26-45)

Sec. 118-496. Continuous service.

The power company shall use its utmost endeavor to maintain continuous and uninterrupted electric service and shall promptly restore service if any interruption occurs thereto. The power company shall not be liable to the city for a temporary discontinuance of service unless the interruption is due to the willful act of the power company, its officers, directors, or its agents acting under authority from the company.
(C42, § 101-37; C54, C62, § 18-103; O.7807; C62, § 18-88; C75, C79, C91, § 26-46)

Sec. 118-497. Indemnification.

The power company shall indemnify and hold harmless the city from any loss or damages on account of injury to or death of persons or injury to property arising from or growing out of its negligence or the negligence of its agents, employ-

ees, contractor or subcontractors in the construction, maintenance and operation of the lighting and power system referred to in this article. It shall, at its own expense, defend any action at law or in equity brought against the city on account thereof. The city shall give the company prompt notice of the filing of any such claim or suit and extend its full cooperation in the defense thereof. The power company shall not be liable for any loss or damage to property or injury to or death of persons, whether suffered by the city, its agents, employees or by any third person, resulting from the location, use or operation of electrical or other equipment located on the city side of the point of delivery of such electric energy or from electric energy present therein and escaping therefrom. The city shall indemnify and hold the power company harmless from all such loss, damage, injuries or death, unless the act causing the loss, damage, injury or death is the result of fault or negligence on the part of the company.
(C42, § 101-38; C54, C62, § 18-104; O.7807; C62, § 18-89; C75, C79, C91, § 26-47)

Sec. 118-498. Destroying facilities or equipment.

Any person destroying, damaging or interfering with any of the facilities or equipment, including poles, wires, luminaries, lamps, standards and electric energy, used pursuant to this article, whether belonging to the city or to the power company, upon conviction thereof, shall be punished as provided in section 1-15 of this Code.
(C42, § 101-40; C54, C62, § 18-105; O.7807; C62, § 18-90; C75, C79, C91, § 26-48)

Sec. 118-499. Expansion of electric transmission system.

(a) If the power company desires to construct a major expansion of its electric transmission system within the city, the power company shall present its proposal to the city for approval. Major transmission system expansion projects covered under this article would include construction of new transmission system substations, expansion of existing transmission system substations where additional property would be required, construction of transmission system lines along new routes, and upgrade of distribution system lines to operate at transmission system voltages. Such proposal shall be submitted initially to the city's engineering and community development departments for review, such submission to occur not less than six months prior to the commencement of construction of the project. Such proposal shall be presented in sufficient detail so that city staff may determine the impact of the proposed project and facilities on existing or planned city infrastructure and on development in and around the city.

(b) City staff shall complete its review of the power company's proposal and shall report its finding and recommendation with regard thereto to the city council within 30 days of submission of the proposal. The city council may in its discretion schedule one or more public hearings upon the proposal.

(c) Upon completing its review of the power company's proposal, the city council may approve, reject, or request modification of the proposal.

(d) Any of the requirements of this section may be waived by the city council for good cause shown.
(C91, § 26-48.001; O.13,259)

Sec. 118-500. Power of eminent domain for power company.

In accordance with I.C. § 364.2, the power company is granted and vested with the power of eminent domain to appropriate and condemn so much private property within the corporate limits as may be necessary for the purpose of constructing, operating and maintaining its electric plant therein, including all necessary facilities for the transmission or distribution of electric energy, together with the other rights necessary or incident thereto. This power is to be exercised only under the conditions and in the manner set forth in this article.
(C62, § 18-143; O.7368, 7807; C62, § 18-110; C75, C79, § 26-68; C91, § 26-48.01; O.13,259)

Sec. 118-501. Petition.

The individual or corporation desiring to exercise the power granted in section 118-500 of this

article as against a property in private ownership shall file with the city clerk a petition, addressed to the city council, which shall state:

(1) The name of the petitioner and the nature of the franchise held by him.

(2) A legal description of the parcel of real estate which the petitioner desires to condemn, the interest required therein, and the name and address of each owner thereof and each holder of a lien or interest therein of record or known to the petitioner.

(3) The nature of the public use for which petitioner requires the parcel and the necessity thereof to the petitioner.

(C62, § 18-143; O.7368, 7807; C62, § 18-110; C75, C79, § 26-69; C91, § 26-48.02)

Sec. 118-502. Description of property to be condemned.

The petitioner shall accompany the petition filed pursuant to section 118-501 with a plat of each parcel described, showing thereon the property required and the legal description of that property.

(C62, § 18-143; O.7368, 7807; C62, § 18-110; C75, C79, § 26-70; C91, § 26-48.03)

Sec. 118-503. Date of hearing on petition.

Upon filing the petition pursuant to this article, the city clerk shall promptly refer the petition to the city council, which shall fix a date not more than 20 days after the filing of the petition when the petition shall be heard by the city council.

(C62, § 18-143; O.7368, 7807; C62, § 18-110; C75, C79, § 26-71; C91, § 26-48.04)

Sec. 118-504. Notice of hearing.

At least seven days before the date fixed for the hearing pursuant to section 118-503, the clerk shall give notice directed to each person who is named in the petition as an owner of the real estate sought to be condemned and as the holder of a lien or interest therein, at the address stated in the petition, by mailing by United States registered mail, return receipt requested, a notice substantially as follows:

To (name of each owner and lienholder):

You are hereby notified that a petition of (name of petitioner) is on file in the office of the clerk of the City of Des Moines, Iowa, in which petitioner requests authority from the City of Des Moines, Iowa, under the provisions of I.C. § 364.2 to appropriate and condemn the following described real estate:

(Legal description of land)

You are further notified that the city council of the City of Des Moines, Iowa, will hear said petition at the council chambers in the city hall on the _____ day of _____, (Year) ____, during the course of its meeting commencing at _____ p.m., on said date, and that you may appear before the city council at said time and show cause why said petition should not be granted.

Clerk of the City of Des Moines, Iowa

(C62, § 18-143; O.7368, 7807; C62, § 18-110; C75, C79, § 26-72; C91, § 26-48.05)

Sec. 118-505. Action by city council.

At the time fixed for the hearing on the petition pursuant to this article, the city council shall consider the petition and any objections thereto and such evidence as may aid it in determining the propriety of granting the petition. If, upon such hearing, the city council shall find that taking such land is reasonably necessary to serve the public use for which the petitioner holds a franchise as contemplated by the statutes authorizing such power to be conferred, the council may adopt a resolution conferring the power to appropriate and condemn the property for the use intended.

(C62, § 18-143; O.7368, 7807; C62, § 18-110; C75, C79, § 26-73; C91, § 26-48.06)

Sec. 118-506. Expenses of proceedings.

All costs and expenses of the proceedings on the petition pursuant to this article, including the cost of giving notice, shall be paid by petitioner.

(C62, § 18-143; O.7368, 7807; C62, § 18-110; C75, C79, § 26-74; C91, § 26-48.07)

Sec. 118-507. Limitations on property condemned.

The property to be taken under this article for right-of-way for electric transmission or distribution purposes shall not exceed 200 feet in width, not including rights of reasonable access thereto. The property to be taken under this article for any electric substation shall not exceed 40 acres in area. The property to be taken for any electric generating plant under this article shall not exceed 160 acres.
(C62, § 18-144; O.7368, 7807; C62, § 18-111; C75, C79, § 26-75; C91, § 26-48.08; O.13,259)

Sec. 118-508. Post-council procedure.

The procedure to be followed by the petitioner after receiving authority for condemnation from the city council pursuant to this article shall be as set forth in I.C. ch. 6B.

ARTICLE V. GAS*

Sec. 118-536. Permit for connection and use.

Unless a person shall have first obtained a permit authorizing the connection and use, as provided in section 118-537 of this article, no person shall connect any apparatus or equipment using gas supplied from the gas distribution system of any public utility furnishing gas service in the city for the purposes of any commercial or industrial use, other than space heating, which requires more than 200 cubic feet of gas input per hour or any space heating.
(O.5316; C54, C62, § 23-2; C75, C79, C91, § 26-77)

Sec. 118-537. Rules and regulations covering application and issuance.

Any public utility supplying gas to the city citizens is directed to prepare rules and regulations to govern the filing of an application and the issuance of a permit provided for in section 118-536 of this article. These rules and regulations shall be fair and reasonable and not discriminatory. They, together with any amendments or modifications thereof, shall be published in a newspaper of general circulation in the city, and a copy thereof shall be filed with the city clerk for public inspection and shall be effective upon ratification and approval by the city council. Such rules and regulations shall contain, among others, the conditions under which gas service for any purpose will be disconnected from any premises wherein there has been installed or connected to the gas service mains of any public utility supplying gas for public consumption in the city any apparatus or equipment prohibited by section 118-536 of this article. They shall also contain the conditions under which gas service shall be restored when the prohibited use has been terminated.
(O.5316; C54, C62, § 23-3; C75, C79, C91, § 26-78)

Sec. 118-538. Annual statement of persons supplying gas.

Every person at any time supplying public gas service in the city shall file with the city council, on or before March 1, 1960, and on March 1 of each succeeding year, a statement showing the applicable city gas rates and cost of gas purchased from pipeline companies for resale in the preceding calendar year, as compared with the similar date for the last preceding calendar year.
(C42, § 100-1; O.5500; C54, § 23-6; O.6113; C62, § 23-6; C75, C79, C91, § 26-79)

Sec. 118-539. Charging excessive rates.

Any person or any officer, agent or employee thereof who shall charge, demand, collect or receive any rate or compensation for gas furnished to the city or its inhabitants in excess of the rates fixed or authorized in this article shall be deemed guilty of a misdemeanor.
(C42, § 100-4; C54, C62, § 23-7; C75, C79, C91, § 26-80)

Sec. 118-540. Quality of gas.

(a) The gas charged for by any person supplying or distributing gas to the city shall be of the quality and shall contain the total heating value of not more than 1,050 nor less than 800 standard

*__Cross reference—__Gas franchise, app. D.

British thermal units per cubic foot, monthly average, as tested at the gas works under standard conditions, except in an emergency in which case the gas furnished shall be of such quality that it burns suitably in the customer's appliances. Monthly bills must be adjusted upon the basis of the actual average Btu furnished so that the customers shall not be charged for more therms than they actually receive.

(b) The furnisher of gas shall report to the city each month the quality and heating value of the gas delivered during the month. This report shall be subject to check and verification by a city representative. The calorimeter readings and heat value tests shall be made under the supervision of a representative of the city, whenever requested by the majority of the city council.
(C42, § 100-2; O.4828; C54, C62, § 23-10; C75, C79, C91, § 26-81)

Sec. 118-541. Agreement of person supplying gas.

Any person supplying or distributing gas to the city or its inhabitants agrees to adjust or, if necessary, change all his or her customers' appliances for the proper use of natural gas without charge to its customers and also agrees that such person will maintain his or her gas works as a standby so as to protect his or her customers substantially for any shortage of natural gas.
(C42, § 100-2; O.4828; C54, C62, § 23-11; C75, C79, C91, § 26-82)

Sec. 118-542. Semiannual report of person supplying gas.

Any person in possession of the city streets or alleys for the purpose of supplying gas shall file a report with the city clerk on January 15 and July 15 of each year, giving the number of 1,000 feet of gas manufactured and furnished the city or its inhabitants during the previous six months and the amount per 1,000 feet received therefor. If any such person shall fail or refuse to file such report, he or she shall pay to the city the sum of $25.00 per day for each day the report is delayed.
(C42, § 100-7; C54, C62, § 23-13; C75, C79, C91, § 26-84)

Sec. 118-543. Person supplying gas to furnish meter and lay service pipe.

Any person supplying gas in the city shall furnish all necessary meters free and shall furnish and lay service pipe to the lot line free and from the lot line to the meter for not to exceed $0.15 per foot.
(C42, § 100-7; C54, C62, § 23-14; C75, C79, C91, § 26-85)

Sec. 118-544. Laying pipes in streets and alleys.

Any person who shall accept the rights and privileges provided for in this article and who has service pipes in the city streets and alleys may, when necessary, continue to lay his or her gas pipes and service pipes, provided that such pipes are so laid that they do not obstruct the water and other pipes and sewers laid and other necessary pipes which may be laid.
(C42, § 100-8; C54, C62, § 23-15; C75, C79, C91, § 26-86)

Sec. 118-545. Statement of proposed location of gas pipes; map; specifications.

Before any person operating or acquiring the right to supply gas service shall begin the work of installing and replacing gas main pipe underground, except as provided for in new subdivisions, such person shall file with the city engineer a written statement specifying the streets, alleys and public highways or parts thereof in which pipes are to be located, the approximate size of the pipes proposed to be used, and the distance from the surface of the street to the top of the pipes. This statement shall be accompanied by a map, plan or specifications which shall show the proposed location of the pipes with reference to streets, alleys and surface of the streets and the approximate dimensions of the pipes and manholes to be used therewith. The proposed locations may be thereupon changed by the city engineer if the locations shall in any way interfere with other pipes, conduits, or sewers placed underground. Such statement, map, plan or specifications so altered, after being corrected or changed, together with the original statement,

shall remain on file in the city engineer's office. All pipes and manholes shall be constructed in accordance with the corrected statement, plan, map or specifications.
(C91, § 26-86.01; O.11,694)

Sec. 118-546. Permit for excavation of street.

A permit to excavate in any street, alley or public highway for the purpose of constructing, repairing or relocating gas pipes, service pipes, and manholes under this article shall be issued by the building official. It shall be issued subject to this Code or any city ordinances relating to the issuance of permits for street excavations. No person shall excavate without such a permit.
(C91, § 26-86.02; O.11,694, 13,015)

Sec. 118-547. Excavations generally and indemnification related thereto.

In the location, construction or repair of any gas pipe or service pipe, no excavation shall be unnecessarily made, placed or continued, and any excavation or obstruction made or placed in any street, alley or public highway at any time or for any such purpose shall be properly guarded. Any pavement at any time or for any purpose whatever torn up or displaced under the terms of the permit provided for in section 118-546 of this article shall be properly and speedily replaced and put in proper order under the supervision of the city engineer, as provided by this Code and other city ordinances relating to the restoration of paving over street excavations. Any person owning such gas pipes or service pipes shall pay all damages for injury to persons or to the property of any property owner or corporation, as well as to the city, resulting from, occasioned by or growing out of negligence or improper construction in the laying, constructing or repairing of gas pipes or service pipes or the maintenance and use of the pipes. Such person shall fully indemnify and save harmless the city from and against all claims, actions or suits at law or in equity, of any nature, for damages to persons or property resulting from, occasioned by or growing out of the omission of the person or such person's servants or agents to properly guard any excavation or obstruction at any time or for any purpose whatsoever made, placed or caused by such person in any street, alley or public highway.
(C91, § 26-86.03; O.11,694)

Sec. 118-548. Indemnification.

The gas company shall indemnify and hold harmless the city from any loss or damages on account of injury to or death of persons or injury to property arising from or growing out of its negligence or the negligence of its agents, employees, contractor or subcontractors in the construction, maintenance and operation of the gas distribution system referred to in this article. It shall, at its own expense, defend any action at law or in equity brought against the city on account thereof. The city shall give the company prompt notice of the filing of any such claim or suit and extend its full cooperation in the defense thereof. The gas company shall not be liable for any loss or damage to property or injury to or death of persons, whether suffered by the city, its agents, employees or by any third person, resulting from the location, use or operation of gas or other equipment located on the city side of the point of delivery of such gas service or from gas present therein and escaping therefrom. The city shall indemnify and hold the gas company harmless from all such loss, damage, injuries or death, unless the act causing the loss, damage, injury or death is the result of fault or negligence on the part of the company.
(C91, § 26-86.04; O.11,694)

Sec. 118-549. Testing of meters by person supplying gas.

Any person supplying gas to the city or its inhabitants shall maintain adequate meter testing facilities, which shall at all working hours be available to the city chemist or the chemist's representative. When requested by any consumer, such person shall cause consumers' meters to be tested for accuracy by a competent meter tester, at which time the city chemist may be present, at no expense to the consumer. Such test shall not be requested by any individual consumer more often than every six months and, further, any such person when requested to do so by the mayor shall make an additional test of any consumer's

meter in the presence of the city chemist or the chemist's representative and without any expense to the consumer or the city. If upon a test the meter is found to be accurate within two percent, it shall be considered accurate for the purposes of this article. It shall, however, at this time be adjusted to register accurately within the limits of commercial metering instruments. If found to be slow or fast in excess of two percent, the consumer's bill shall be adjusted for a period of six months prior to the test.
(C42, § 100-5; C54, C62, § 23-16; C75, C79, C91, § 26-87)

Sec. 118-550. Testing of meters by city.

Whenever any city resident, who is at the time a consumer of gas for fuel purposes in the city, which gas is supplied by any person in the city engaged in that business, and if the amount of gas supplied and the amount to be paid therefor is determined by the passage of the gas through a meter or other device for determining such amounts, shall request of the city that the meter or other device shall be tested by the city to determine whether or not it is properly measuring the gas supplied to him or her and shall pay to the city the sum of $1.00 for the service, the department of public works shall cause the meter or other device to be tested and the result thereof, as to whether the meter is correct or slow or fast, certified in writing to the resident making the application and also to the person who may be using the meter or other device for measuring the gas.
(C42, § 100-6; C54, C62, § 23-17; C75, C79, C91, § 26-88)

Sec. 118-551. Construction of article; right of city to make additional regulations.

Nothing contained in this article shall be construed to grant any rights or franchises other than the right to continue to furnish the city and its inhabitants with gas so long as the city may consent thereto, and nothing in this article shall abridge the right of the city to make additional regulations as it may deem necessary to protect its citizens fully.
(C42, § 100-8; C54, C62, § 23-18; C75, C79, C91, § 26-89)

Sec. 118-552. Power of eminent domain for gas company.

Any individual or corporation authorized to construct, maintain and operate any gas works within the city is granted and vested, in accordance with I.C. § 364.2, with the power of eminent domain to appropriate and condemn so much private property within the corporate limits as may be necessary for the purpose of constructing, operating and maintaining its gas works therein, including all necessary facilities for the transmission or distribution of gas, together with other rights necessary or incident thereto. This power is to be exercised only under the following conditions and in the manner set forth in this article.
(C62, § 23-19; O.7369; C75, C79, C91, § 26-90)

Sec. 118-553. Petition.

The individual or corporation desiring to exercise the power granted in section 118-552 of this article as against a property in private ownership shall file with the city clerk a petition, addressed to the city council, which shall state:

(1) The name of the petitioner and the nature of the franchise held by him or her.

(2) A legal description of the parcel of real estate which the petitioner desires to condemn, the interest required therein, and the name and address of each owner thereof and each holder of a lien or interest therein, of record or known to the petitioner.

(3) The nature of the public use for which petitioner requires the parcel and the necessity thereof to the petitioner.

(C62, § 23-19; O.7369; C75, C79, C91, § 26-91)

Sec. 118-554. Description of property to be condemned.

Pursuant to section 118-553 of this article, the petitioner shall accompany the petition with a plat of each parcel described, showing thereon the property required and the legal description of the property.
(C62, § 23-19; O.7369; C75, C79, C91, § 26-92)

Sec. 118-555. Date of hearing.

Upon filing the petition under this article, the city clerk shall promptly refer the petition to the city council, which shall fix a date not more than 20 days after the filing of the petition when the petition shall be heard by the city council.
(C62, § 23-19; O.7369; C75, C79, C91, § 26-93)

Sec. 118-556. Notice of hearing.

At least seven days before the date fixed for the hearing pursuant to section 118-555, the city clerk shall give notice directed to each person who is named in the petition as an owner of the real estate sought to be condemned and as the holder of a lien or interest therein, at the address stated in the petition, by mailing by United States registered mail, return receipt requested, a notice substantially as follows:

To (name of each owner and lienholder):

You are hereby notified that a petition of (name of petitioner) is on file in the office of the clerk of the City of Des Moines, Iowa, in which petitioner requests authority from the City of Des Moines, under the provisions of I.C. § 364.2, to appropriate and condemn the following described real estate:

(Legal description of land)

You are further notified that the city council of the City of Des Moines, Iowa, will hear said petition at the council chambers in the city hall on the _____ day of _____, (Year) ____, during the course of its meeting commencing at _____ p.m. on said date, and that you may appear before the city council at said time and show cause why said petition should not be granted.

Clerk of the City of Des Moines, Iowa
(C62, § 23-19; O.7369; C75, C79, C91, § 26-94)

Sec. 118-557. Action by city council.

At time fixed for hearing on the petition filed under this article, the city council shall consider the petition and any objections thereto and such evidence as may aid it in determining the propriety of granting the petition. If, upon such hearing, the city council shall find that taking such land is reasonably necessary to serve the public use for which petitioner holds a franchise as contemplated by the statutes authorizing such power to be conferred, the council may adopt a resolution conferring the power to appropriate and condemn the property for the use intended.
(C62, § 23-19; O.7369; C75, C79, C91, § 26-95)

Sec. 118-558. Expenses of proceedings.

All costs and expenses of the proceedings held under this article, including the cost of giving notice, shall be paid by petitioner.
(C62, § 23-19; O.7369; C75, C79, C91, § 26-96)

Sec. 118-559. Limitations on property condemned.

The property to be taken by the exercise of eminent domain for right-of-way for gas transmission or distribution purposes shall not exceed 100 feet in width, not including rights of reasonable access thereto. The property so taken for any gas-generating or manufacturing or processing plant shall not exceed 160 acres in area.
(C62, § 23-20; O.7369; C75, C79, C91, § 26-97)

Sec. 118-560. Post-council procedure.

The procedure to be followed by the petitioner after receiving authority for condemnation from the city council under this article shall be that set forth in I.C. ch. 6B.
(C62, § 23-21; O.7369; C75, C79, C91, § 26-98)

proval of the city council, all as provided by I.C. § 388.3. Vacancies which occur in the office of water board trustee shall be filled by appointment as provided in this section for the balance of the unexpired term of the board member formerly holding that office.
(C42, § 99-1; C54, C62, § 61-27; C75, C79, C91, § 26-99; O.13,625)

Sec. 118-587. Disqualification for membership on board of water works trustees.

No person shall be eligible for appointment on the board of water works trustees while he or she is a public officer or a salaried city employee.
(C42, § 99-1; C54, C62, § 61-30; C75, C79, C91, § 26-102; O.13,625)

Sec. 118-588. Compensation of members of board of water works trustees.

The compensation of members of the board of water works trustees shall be established by resolution of the city council at the time it appoints or reappoints members thereto.
(C42, § 99-1; C54, C62, § 61-34; C75, C79, C91, § 26-106; O.13,625)

Sec. 118-589. Powers and duties of water works board of trustees.

The water works board of trustees may exercise all powers of the city in relation to the water utility, with the following exceptions:

(1) The board may not certify taxes to be levied, pass ordinances or amendments, or issue general obligation or special assessment bonds.

(2) The title to all property of the city's water utility shall be held in the name of the city, but the water works board of trustees shall have all the powers and authorities of the city with respect to the acquisition by purchase, condemnation, or otherwise; lease, sale or other disposition of such property; and the management, control and operation of the property, subject to the requirements, terms, covenants, conditions, and provisions of any resolutions authorizing the issuance of revenue bonds, pledge orders, or other obligations which are payable from the revenues of the water utility and which are then outstanding.

(3) Immediately following a regular or special meeting of the water works board of trustees, the secretary shall prepare a condensed statement of the proceeding of the board and cause the statement to be published in a newspaper of general circulation in the city. The statement shall include a list of all claims allowed, showing the name of the person making the claim, the reason for the claim, and the amount of the claim. Salary claims must show the gross amount of the claim, except that salaries paid to persons regularly employed by the water works, for service regularly performed by them, must be published once annually showing the gross amount of the salary. The water works board of trustees shall each month prepare in pamphlet form the statement required in this subsection for the preceding month and shall furnish copies to the public library, the daily newspapers of the city, the city clerk, and to persons who apply at the office of the secretary, and the pamphlet shall constitute publication as required. Failure by the secretary to make publication is a simple misdemeanor, punishable as provided in section 1-15 of this Code.

(C42, § 99-3; C54, C62, § 61-38; C75, C79, C91, § 26-110; O.13,625)

Sec. 118-590. Annual report and financial statement.

The board of water works trustees shall make a detailed annual report to the council, including a complete financial statement.
(C42, § 99-5; C54, C62, § 61-41; C75, C79, C91, § 26-113; O.13,625)

Sec. 118-591. Discriminatory rates.

The water works board of trustees shall not provide use or service at a discriminatory rate, except to the city or its agencies, as provided in I.C. § 384.91.

Sec. 122-1. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Public highway means all of the land lying between property lines on either side of all public streets, boulevards and alleys.

Trees are not construed to include shrubs which do not grow higher than 15 feet.
(C42, § 76-2; C54, C62, § 59-1; C75, C79, C91, § 25-1)

Cross reference—Definitions generally, § 1-2.

Sec. 122-2. Reserved.

Editor's note—Ord. No. 15,044, § 1, adopted Sept. 12, 2011, repealed § 122-2, which pertained to powers and duties of sanitation administrator and derived from Code 1954, Code 1962, § 59-2, Code 1975, § 25-2; Ord. No. 9090; Code 1979, Code 1991, § 25-2; Ord. No. 11,950.

Sec. 122-3. Unauthorized interference with trees or shrubs.

No person shall remove, prune, cut, molest, break, deface, destroy, spray, repair or do surgery work upon any tree or part thereof or in any manner interfere with, disturb or injure any tree, shrub or plant upon the public property of the city nor shall any chemical be used for the control of insects or diseases or for any other reason. No person shall permit any chemical, either solid or fluid, to seep, drain or be emptied on or about any tree, shrub or plant that is or may be growing upon any public property of the city without first obtaining a permit from the forestry division.
(C42, § 76-3; C54, C62, § 59-3; C75, § 25-3; O.9090; C79, C91, § 25-3)

Sec. 122-4. Hitching or anchoring articles.

No person shall be permitted to hitch or fasten any animal to any tree or shrub or fasten to for the purpose of anchorage any wire, rope, chain or cable nor shall any person nail, tie or in any manner fasten any card, sign, poster, board or any other article to any tree, shrub or plant that is or may be growing upon any public property of the city.
(C42, § 76-4; C54, C62, § 59-4; C75, C79, C91, § 25-4)

Sec. 122-5. Permit to remove for construction purposes.

Any person desiring to remove a live tree or shrub standing on a street or parking thereof for construction of walks, drives, buildings or any other structures for his or her own gain or purposes shall first obtain a permit from the forestry division. If a permit is issued the permittee must pay the cost of removal of such tree or shrub or the permittee may remove the tree or shrub at the permittee's own expense.
(C42, § 76-11; C54, C62, § 59-16; C75, C79, C91, § 25-7)

Sec. 122-6. Protection during excavation or construction.

All trees, shrubs or plants within the limits of any street, boulevard or highway or other property of the city near any excavation or construction of any building or structure shall be guarded with a good substantial frame or box not less than four feet square and six feet high. All building material or other debris shall be kept at least three feet from any tree, shrub or plant.
(C42, § 76-5; C54, C62, § 59-7; C75, C79, C91, § 25-8)

Sec. 122-7. Permit for moving buildings.

Every person, whether licensed or otherwise, moving any building or other structure of either wood, metal, stone or concrete, measuring over eight feet six inches wide and 12 feet high, measuring from the surface of the roadway, along any street or highway within the city shall, in addition to other permits required by this Code or other city ordinances, procure a permit from the forestry division. He or she shall also file a notice with the forestry division, setting out the date such structure is to be moved, the location from and to which the structure will be moved and the

route to be taken, and in so doing no tree, shrub or plant on any street or highway shall be damaged. (C42, § 76-8; C54, C62, § 59-10; C75, C79, C91, § 25-9)

Cross reference—Moving of houses and heavy equipment, § 102-996 et seq.

Sec. 122-8. Deposit to cover damages for moving buildings.

Upon procuring a permit as required in section 122-7 of this article, the permittee shall deposit with the forestry division a sum sufficient to cover the cost of inspection and possible damage that may result. After such structure has been moved so, much of the deposit as shall remain, after a reasonable inspection fee and damages have been deducted therefrom, shall be returned to the permittee.
(C42, § 76-8; C54, C62, § 59-11; C75, C79, C91, § 25-10)

Sec. 122-9. Denial of permit to move buildings.

The forestry division shall have authority to refuse the issuance of a permit to move buildings or change the proposed route of the moving if the moving will cause damage to any property.
(C42, § 76-8; C54, C62, § 59-12; C75, C79, C91, § 25-11)

Sec. 122-10. Trim specifications.

(a) Any person trimming trees or causing trees, bushes and other plants to be trimmed under the authority of this section or section 118-477 of this Code, if the person wishing to trim is not himself or herself the owner, shall:

(1) Cause written notice to be given to the owner, occupant or person in control of the property at least 15 days prior to any trimming; provided, however, notice shall not be required if trimming is necessary to restore electrical service or relieve a public emergency resulting from storm, accident, similar casualty, or other cause which immediately threatens electrical service or the public safety. The notice shall state the nature of the trimming to be performed; the person's right to trim the tree, shrubbery, bush or other plants; the date when such trimming must be completed; if the owner desires to do the trimming; and whether an assessment or charge will be imposed by such person for trimming the tree, bush or other plant.

(2) Trim trees, bushes and plants to the extent necessary to remove obstruction to protect lives and property.

(3) Employ persons skilled in tree trimming so that the life and general aesthetic qualities of the tree are preserved.

(b) The owner of any tree, shrub or plant protruding into or overhanging a street or sidewalk shall trim the branches thereof to remove any obstruction of the view of any streetlamp, street sign, traffic control device or street intersection. Notwithstanding the requirements of section 114-14 of this Code, a clear space of eight feet above the surface of the sidewalk and a clear space of 12 feet above the surface of the street must be maintained. All trimming shall conform to the specifications in subsection (a) of this section and to those contained in section 114-14 of this Code if determined by the city engineer to be applicable.

(c) The forestry division may order the removal of any tree, shrub or plant or any part thereof which does not conform to the specifications of subsection (b) of this section. Notice shall be given to the owner of the property as set forth in subsection (a) of this section. If the owner, occupant or person in control fails to comply with the notice, the forestry division shall cause the obstructing branches or foliage to be removed and shall submit the costs incident to the service of notice and removal to the city council, which shall certify the costs to the county auditor for collection with and in the same manner as general property taxes. However, if the director of the division determines that a hazardous condition exists which constitutes an immediate danger to public safety because of the extensive nature or location of an obstruction caused by any tree, shrub, plant or any part thereof, the director may cause the removal thereof forthwith without notice, and such costs may be assessed in the same

manner as provided in this subsection, after notice to the property owner and opportunity for hearing before the city council is given.

(d) Except as provided by subsection (c) of this section, no tree, bush or shrub shall be removed without the written consent of the owner of the property upon which the tree, bush or shrub is located.

(e) Nothing in this section shall be construed to affect the rights of a landowner as against a neighboring landowner.
(C42, § 76-7; C54, C62, § 59-9; C75, § 25-12; O.9251; C79, § 25-12; O.10,727; C85, § 25-12; O.11,187, 11,297, 11,500, 11,616; C91, § 25-12; O.11,950)

Sec. 122-11. Permitting dead or diseased vegetation to stand.

(a) No property owner shall maintain or permit to stand upon his or her property any tree, shrub, plant or part thereof which is dead, diseased, or so damaged as to be a menace to public safety.

(b) When the forestry division determines that any tree, shrub, plant or part thereof is dead, diseased, or so damaged as to be a menace to public safety, the division may request the city council to direct the property owner to remove the tree, shrub or plant or part thereof within 30 days or to appear before the city council for hearing on the matter during such period to show cause why the tree, shrub, plant or the appropriate part thereof should not be removed by the city with the cost of removal assessed against the property owner. Such notice to show cause and notice of the proposed city council action shall be by certified mail to the property owner of record.

(c) If, after hearing, the city council approves removal, the city clerk shall send a copy of the resolution by certified mail to the property owner directing such removal within 30 days or the city shall remove and assess the cost of removal against the property owner.
(C42, § 76-6; C54, C62, § 59-8; C75, § 25-13; O.9251; C79, § 25-13; O.10,727; C85, § 25-13; O.11,560; C91, § 25-13)

Sec. 122-12. Removal from public property.

The forestry division may remove or cause to be removed all trees, shrubs, plants or parts thereof upon the public streets or highways or other city property within the city when removal shall be beneficial to the public peace, health and safety, or for public improvements or if such trees, shrubs or plants constitute a public nuisance or are dead or diseased or detrimental to the growth of adjacent trees, plants or shrubs growing in the public streets or other city property.
(C42, § 76-10; C54, C62, § 59-15; C75, C79, C91, § 25-14)

Sec. 122-13. Removal of vegetation infected with Dutch elm disease or oak wilt.

(a) In accordance with I.C. § 364.12, any owner, occupant or person in control of any property shall remove at his or her own expense any tree, brush, wood or debris infected with Dutch elm disease or oak wilt or any dead oak or elm which retains bark found thereon when so notified by the forestry division. The division shall cause to be mailed to such owner, occupant or person in control written notice that he or she may appear before the city council at an appointed time not less than 14 days from the date of mailing to show cause why the infected tree, brush, wood or debris should not be declared a public nuisance. At that meeting the city council may resolve and declare the infected tree, brush, wood or debris to be a public nuisance and may order its removal by the owner, occupant or person in control within 30 days from the date of service of a copy of the resolution and order on the owner, occupant or person in control; provided, however, upon timely receipt of a request in writing from the property owner showing inability to perform, hardship or other good cause, the city manager may grant an extension of time to a maximum of an additional 30 days for the removal by the owner, occupant or other person. No extension of time exceeding 60 days may be granted without prior approval by the city council.

(b) If the owner, occupant or person in control fails to comply with the resolution and order of the city council to so remove the specified public

nuisance, the forestry division shall cause that public nuisance to be removed and shall submit the costs incident to the service and removal to the city council, which shall certify the costs to the county treasurer for collection with and in the same manner as general property taxes.
(C54, § 59-15.01; O.6673; C62, § 59-15.01; O.7373, 7404, 7486, 7881, 8547; C75, § 25-15; O.9090, 9251; C79, C85, § 25-15; O.11,524; C91, § 25-15)

Sec. 122-14. Obstruction of enforcement.

No person shall hinder, obstruct or otherwise interfere with the agents or employees of the department of public works while engaged in carrying out this chapter.
(C54, § 59-15.02; O.6673; C62, § 59-15.02; O.7486; C75, C79, § 25-16; O.10,727; C91, § 25-16; O.11,950)

Sec. 122-15. Permit to plant in streets.

(a) No person shall plant or set out any tree in or on any public highway, street or boulevard or other city property without first obtaining a permit from the forestry division, which shall designate where such plantings may be done.

(b) The permit shall be denied if such planting is likely to create a public danger or nuisance or would be harmful to existing trees, shrubs, flowers, plants or facilities.

(c) A person obtaining the permit shall be exempt from the permit requirements of section 102-660 of this Code.
(C42, § 76-9; C54, C62, § 59-13; C75, C79, C91, § 25-17; O.14,314)

Sec. 122-16. Assessment for planting or care.

The cost of planting, pruning, caring for, removing or maintaining trees and shrubs, in whole or in part, upon the public streets may be assessed against the lots and parcels of land in front of which such trees or shrubs are planted and maintained.
(C42, § 76-12; C54, C62, § 59-18; C75, C79, C91, § 25-20)

Sec. 122-17. Planting new vegetation; assessment.

No plantings of new trees or shrubs shall be made and assessed against the abutting property owners except by action of the city council.
(C42, § 76-12; C54, C62, § 59-19; C75, C79, C91, § 25-21)

Sec. 122-18. Publication of notice to plant new vegetation.

Notice of a proposal to plant new trees or shrubs must be made by publication in two newspapers of general circulation in the city 15 days prior to final action thereon.
(C42, § 76-12; C54, C62, § 59-20; C75, C79, C91, § 25-22)

Sec. 122-19. Schedule of assessments.

The cost of planting new trees and shrubs and the maintenance thereof, including removal and partial removal of trees and shrubs, shall be certified to the city council by the division of forestry in a scheduled form setting forth the nature of the work done, the amount of the special assessment, the lots or specific portions thereof against which assessed, and the names of the owners thereof as far as practicable.
(C42, § 76-12; C54, C62, § 59-21; C75, C79, C91, § 25-23)

Sec. 122-20. Filing assessment schedule for public inspection.

A schedule of assessments for planting of new trees and shrubs and maintenance, including removal and partial removal of trees and shrubs, shall be filed with the city clerk for public inspection.
(C42, § 76-12; C54, C62, § 59-22; C75, C79, C91, § 25-24)

Sec. 122-21. Objections to assessment schedule.

Before final adoption of the schedule of assessments provided for in this article, the city council shall give notice by two publications in each of two newspapers published in the city, stating that the schedule is on file in the office of the city clerk

and that, within 20 days after the first publication, all objections thereto or to the prior proceedings, on account of errors, irregularities or inequalities, must be made in writing and filed with the city clerk.
(C42, § 76-12; C54, C62, § 59-23; C75, C79, C91, § 25-25)

Sec. 122-22. Adoption of assessment schedule.

After the expiration of the 20-day period mentioned in section 122-21 of this article, the city council shall consider objections to the schedule of assessments, make the necessary corrections and make, approve and adopt the special assessments as shown in the schedule.
(C42, § 76-12; C54, C62, § 59-24; C75, C79, C91, § 25-26)

Sec. 122-23. Certifying assessment schedule for collection.

Upon final adoption of special assessments as shown in the schedule of assessments made under this article, the city council shall cause the schedule of assessments to be certified to the county treasurer with directions that the cost of the improvements or services as scheduled shall be assessed against the parcels of property designated therein, in the amounts set forth thereby, and that such amounts shall be collected as other special assessments.
(C42, § 76-12; C54, C62, § 59-25; C75, C79, C91, § 25-27)

Sec. 122-24. Interference with employees.

No person shall hinder, prevent or interfere with the city's agents or employees while engaged in carrying out this chapter.
(C42, § 76-13; C54, C62, § 59-26; C75, C79, C91, § 25-28)

Sec. 122-25. Effect on city electric, light and power.

Nothing in this chapter shall be construed to affect the provisions of article IV of chapter 118 of this Code, pertaining to city electric, light and power, except as otherwise stated in this chapter.
(C42, § 76-15; C54, C62, § 59-27; C75, C79, C85, § 25-29; O.11,384; C91, § 25-29)

Sec. 122-26. Penalties.

Any person who fails to perform an act required by this chapter or who commits an act prohibited by this chapter shall be guilty of a misdemeanor punishable by fine as provided by section 1-15 of this Code or shall be guilty of a municipal infraction punishable by a civil penalty as provided by section 1-15 of this Code.
(C91, § 25-31; O.11,950, 13,648, 15,608)

Secs. 122-27—122-55. Reserved.

ARTICLE II. TREES

Sec. 122-56. Permission for permanent anchorage.

Permission may be granted by the forestry division for permanent anchorage to trees if good practice in line construction indicates the desirability and the elimination of stubs or poles will result by so doing.
(C42, § 76-4; C54, C62, § 59-6; C75, § 25-5; O.9090; C79, C91, § 25-5)

Sec. 122-57. Guying poles to trees in emergency.

If storms or other emergencies occur, poles may be guyed temporarily to trees.
(C42, § 76-4; C54, C62, § 59-5; C75, C79, C91, § 25-6)

Sec. 122-58. Restriction on planting certain trees.

(a) No tree shall be planted in any of the public highways, streets or alleys in the city which is not identified as a recommended street tree for use under the circumstances of that location in the list of recommended tree species approved by the city council by resolution.

(b) No trees may be planted in any of the public highways, streets or alleys in the city where there is less than 2½ feet of soil on all

sides of such tree, and not more than two trees can be planted on the parking in front of a 50-foot lot. No conifers or evergreens should be planted between the sidewalk and the curb of any city street for safety considerations. No such planting shall be any closer than five feet from any fire hydrant nor closer than 30 feet to another tree.
(C42, § 76-9; C54, C62, § 59-14; C75, C79, C91, § 25-18; O.11,950, 14,889)

Sec. 122-59. Diseased tree inspection fees.

(a) For the purpose of this section, the term "private property" is defined as property not owned by the city.

(b) Fees for city inspection of a tree shall be paid to the city treasurer in an amount set therefor by resolution of the city council, provided fees for inspections not requested by the owner or the owner's representative shall be assessed only against those trees showing evidence of disease which requires removal of the tree.

ARTICLE II. BUSES*

Sec. 126-26. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Bus means any automobile, motorbus, trackless trolley, jitney or other self-propelled vehicle not operated upon fixed rails or tracks, used for the public transportation of passengers in the city for compensation, either between fixed termini or over a regular route, or under a special charter or contract if designed to transport 16 or more passengers including the driver, except those buses owned by school corporations and used exclusively in carrying school children to and from schools.
(C42, § 24-4; C54, C62, § 12-1; C75, C79, § 9-13; O.10,204; C79, C91, § 19-12; O.15,354)

Cross reference—Definitions generally, § 1-2.

Sec. 126-27. Obstructing or interfering with operation.

(a) No person shall place any wood, stone or other substance in the path of any bus in such a manner as to obstruct the bus or interfere with its operation.

(b) No person shall interfere in any way with the operation of any bus.

(c) No operator or driver of any bus, at any time, shall allow passengers to overload or crowd the bus in a manner to interfere with the safe and reasonable operation of the vehicle.
(C42, §§ 24-8, 104-7, 104-8; C54, C62, § 12-5; C75, § 19-30; O.9141; C79, § 19-30; O.10,204; C79, C91, § 19-13)

Sec. 126-28. Separation of operator and passengers.

Every person controlling, operating or using any bus shall cause to be affixed on the floor of the vehicle a white line extending from the back of the seat of the operator of the vehicle to a point in the center of the righthand front door.
(C42, § 104-8.01; O.5263; C54, C62, § 12-6; C75, C79, § 19-31; O.10,204; C79, C91, § 19-14)

Sec. 126-29. Unlawful use of transfers.

No person shall use, assign or exchange any transfer used by any bus in violation of the transfer regulations provided for its use.
(C42, § 104-9; C54, C62, § 12-7; C75, C79, § 19-32; O.10,204; C79, C91, § 19-15)

Sec. 126-30. Throwing missiles at buses.

No person shall throw any stone, wood, snow or other substance at or into any bus or at any person in or on such bus.

Sec. 126-31. Prohibited conduct of passengers.

No person shall, while a passenger on any bus, do any of the following acts:

(1) Smoke or possess any lighted or smoldering pipe, cigar or cigarette, except in a place provided for smoking therein by the owner thereof;

(2) Consume any beverages, food or alcohol;

(3) Spit, urinate, or defecate in or upon or from any part of any bus;

(4) Throw, deposit or place any paper, bottles, cans or any other garbage or solid waste in or upon any bus;

(5) Throw any object of any kind within any bus or out any door or window of any bus;

(6) Play or operate any radio, television, tape player, record player or similar electronic sound-amplification device

unless the sound therefrom can only be heard through an earphone and is totally inaudible to all other passengers;

(7) Bring any pet or animal onto any bus, other than service dogs or assistive animals trained to aid blind, deaf or disabled individuals, or an animal in a cage or held exclusively on the lap of a rider;

(8) Stand or remain in front of any white line marked on the forward end of the floor of any bus while the bus is in motion or after being asked to step back behind the white line by the driver;

(9) Enter a bus through a rear door unless authorized to do so by the driver or other transit authority employee;

(10) Interfere with the bus driver's operation of the bus; and

(11) Wrestle, scuffle, fight or act in any manner which disturbs the peace and quiet of another person within or without of the bus or disrupts or impedes the safe operation of the bus.

ARTICLE I. IN GENERAL

Secs. 130-1—130-25. Reserved.

ARTICLE II. RIVERFRONT IMPROVEMENT PLAN

Sec. 130-26. Planning and development of improvements.

The plan and zoning commission may plan and develop improvements along rivers, streams, creeks and bodies of water, including the banks thereof, subject to the approval of the city council.
(C54, § 2-430; O.5931, 6082; C54, C62, § 46A-6; C75, C79, § 20-6; O.10,659; C79, C91, § 20-1)

Sec. 130-27. Approval.

No plan for any riverfront improvement affecting the city plan shall be finally approved by the city or the character or location thereof determined unless the proposal shall first have been submitted to the plan and zoning commission and the commission shall have had 30 days within which to file its recommendations.
(C54, § 46A-7; O.6082; C62, § 46A-7; C75, C79, § 20-7; O.10,659; C79, C91, § 20-2)

Secs. 130-28—130-55. Reserved.

ARTICLE III. OBSTRUCTION OF NATURAL WATERCOURSES

Sec. 130-56. Prohibited generally.

No person shall obstruct a natural watercourse so as to endanger personal property or cause the retarding or the prevention of the natural flow of surface waters in the watercourse.
(C42, § 113-6; C54, § 61-1; O.6212; C54, C62, § 46A-8; C75, C79, C91, § 20-8)

Sec. 130-57. Construction permit.

No person shall construct anywhere in the Des Moines River or Raccoon River or upon either of its banks, within the city limits, any dock, building or structure of any kind or character or place any obstruction therein or thereon, either by driving piling into the riverbed or otherwise, without first obtaining the consent and permission of the city council after recommendation by the plan and zoning commission and the engineering department.
(C42, § 113-7; C54, § 61-2; O.6212; C54, C62, § 46A-9; O.8358; C75, C79, § 20-9; O.10,659; C91, § 20-9)

Sec. 130-58. Ski jumps.

Any ski jump placed in the Des Moines River or Raccoon River shall comply with all the sections of this article, except as specified in this section. The following additional regulations shall apply:

(1) Each ski jump shall be equipped with two flashing amber lights, one on each side, which shall be in operation from sunset to sunrise. Orange reflectorized tape not less than four inches in width shall be attached around the base of each ski jump above the water line.

(2) Each ski jump shall be equipped with a movable frontpiece, also equipped with two flashing amber lights and cross-hatched with orange reflectorized tape, which shall be in place between sunset and sunrise to prevent use of the jump during that period.

(3) Each ski jump shall be maintained in good structural condition at all times, and its mooring system shall be maintained in a safe condition.

(4) Each ski jump shall be open to use by the general public, except that no person under the age of 16 shall be permitted to use the jump except under the supervision of a competent adult.

(5) Ski jumps may be placed in the river from April 1 to October 31 of each year, except that the director of public works, upon 48 hours' written notice to the owner, may require the temporary removal of the jump if a flood emergency occurs.

(6) Before placing any ski jump in the Des Moines River or Raccoon River, the owner thereof shall, in addition to the requirements of section 130-57 of this article,

obtain the consent and permission of the park and recreation department. Furthermore, no ski jump shall be moved from one location to another on such rivers without obtaining the consent and permission of the park and recreation department; provided, however, that nothing in this subsection shall be construed to require the owner of any ski jump to obtain the consent and permission of the park and recreation department to remove a ski jump from the rivers.

(C62, § 46A-9.01; O.8188, 8358; C75, C79, § 20-10; O.10,659; C91, § 20-10)

Sec. 130-59. Liability insurance.

No permit shall be granted to any person under section 130-57 of this article until such person has filed with the city clerk a certificate of general liability insurance naming the city as an additional insured in an amount not less than $1,000,000.00 for injury or damage to persons.

(C42, § 113-9; O.5508, 5587; C54, § 61-3; O.6212; C54, C62, § 46A-10; O.8188; C75, C79, § 20-11; O.10,659; C91, § 20-11)

Sec. 130-60. Removal of obstructions.

All persons who have placed obstructions of any kind or character in the Des Moines River or Raccoon River within the city limits or driven any piling into the beds of these rivers without the permission and consent of the city council after recommendation by the plan and zoning commission and the engineering department shall remove the obstruction immediately.

(C42, § 113-8; C54, § 61-4; O.6212; C54, C62, § 46A-11; C75, C79, § 20-12; O.10,659; C91, § 20-12)

Sec. 130-61. Permit provisions.

All permits issued under section 130-57 of this article shall contain a provision requiring the permittee to remove promptly from such rivers, their beds or banks all obstructions of every kind and character placed therein or thereon under any permit issued under section 130-57 of this article upon the expiration of such permit or whenever so ordered by the city council after recommendation by the plan and zoning commission and the engineering department.

(C42, § 113-10; C54, § 61-5; O.6212; C54, C62, § 46A-12; C75, C79, § 20-13; O.10,659; C91, § 20-13)

Sec. 130-62. Cancellation of permit.

The power to cancel any permit issued under this article and make such order of removal, whenever the public safety demands, is reserved.

(C42, § 113-10; C54, § 61-6; O.6212; C54, C62, § 46A-13; C75, C79, C91, § 20-14)

Secs. 130-63—130-90. Reserved.

ARTICLE IV. NAVIGATION*

Sec. 130-91. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Boat means any contrivance used or designated for navigation on water.

Motorboat means any boat propelled by machinery, or any boat attached to another boat propelled by machinery.

Visible means visible on a dark night with clear atmosphere for a distance of two miles for white lights and one mile for red or green lights.

(C54, §§ 46A-14, 46A-17; O.6212; C62, §§ 46A-14, 46A-17; C75, C79, C91, § 20-15)

Cross reference—Definitions generally, § 1-2.

Sec. 130-92. Compliance with article.

No person shall own or operate any boat or motorboat in violation of this article.

(C54, § 46A-15; O.6212; C62, § 46A-15; C75, C79, C91, § 20-16)

*__State law reference—__Water navigation regulations, I.C. ch. 462A.

Sec. 130-93. Registration number.

No person shall operate any boat required to be registered with the state natural resource commission or the United States Coast Guard, unless it is so registered.
(C54, § 46A-16; O.6212; C62, § 46A-16; C75, C79, C91, § 20-17; I.C. Ch. 462A)

Sec. 130-94. Lights.

No person shall operate any boat during the period between sunset and sunrise which is not equipped with lights displayed as follows:

(1) A white light aft (stern) to show all around the horizon. A combined lantern in the forepart of the vessel and lower than the white light aft, showing green to starboard and red to port, so fixed as to throw the light from right ahead to two points abaft the beam on their respective sides.

(2) Every boat other than a motorboat shall have a white light that is constant and so placed as to be visible from any direction.

(C54, § 46A-17; O.6212; C62, § 46A-17; O.8358; C75, C79, C91, § 20-18)

Sec. 130-95. Life preservers.

The owner or operator of every boat shall carry at least one United States Coast Guard approved life preserver, life belt, ring, buoy or buoyant cushion for each person on board, so placed as to be readily accessible.
(C54, § 46A-18; O.6212; C62, § 46A-18; O.8705; C75, C79, C91, § 20-19)

Sec. 130-96. Overloading.

No boat shall be loaded with passengers or cargo beyond its safe carrying capacity, taking into consideration weather and other existing operating conditions. The number of passengers shall never exceed the number authorized on the registration permit for that boat.
(C54, § 46A-19; O.6212; C62, § 46A-19; O.8358; C75, C79, C91, § 20-20)

Sec. 130-97. Mufflers and cutouts on motorboats.

No person operating a motorboat upon the rivers or waters of the city shall use any cutout or other apparatus or device which will allow the exhaust gases from the engine or motorboat to escape into the atmosphere without first passing through a silencer, expansion chamber or other contrivance suitable and sufficient for reducing, as far as may be reasonably practicable, the noises which would otherwise be caused by the escape of such gases. No motorboat shall be operated as provided in this section with the cutout open or in such a way as to produce loud noises. This section shall not apply to contests, races or performances authorized by the city council.
(C42, § 111-7; C54, §§ 32-31, 46A-20; O.6212; C62, §§ 32-31, 46A-20; C75, C79, §§ 17-30, 20-21; O.10,659; C91, § 20-21)

Sec. 130-98. Speed restrictions.

No person shall operate any boat in excess of the posted speed restrictions in any area designated by the city council after recommendation by the engineering department.
(C54, § 46A-21; O.6212; C62, § 46A-21; C75, C79, § 20-22; O.10,659; C91, § 20-22)

Sec. 130-99. Careless and reckless operation.

No person shall operate any vessel or manipulate any water skis, surfboard or similar device in a careless, reckless or negligent manner so as to endanger the life, limb or property of any person.
(C54, § 46A-22; O.6212; C62, § 46A-22; C75, C79, C91, §§ 20-23, 20-24)

State law reference—Similar provisions, I.C. § 462A.12(1).

Sec. 130-100. Boat traffic rules.

Boat traffic shall be governed by the following rules:

(1) Passing head-on, keep to the right.

(2) Passing at right angles, the boat at the right has right-of-way, other conditions being equal.

(C54, § 46A-24; O.6212; C62, § 46A-24; C75, C79, C91, § 20-25)

Sec. 130-101. Riding on decks and gunwales.

(a) No person operating a motorboat shall allow any person to ride or sit on either the starboard or port gunwales thereof or on the decking over the bow of such boat while underway unless such a boat is equipped with protective bow rail at least 18 inches high. Children under the age of 12 shall not be permitted on the bow at any time.

(b) Nothing in this section shall be construed to mean that passengers or other persons aboard such boat cannot occupy the decking over the bow of the boat to moor the boat or to cast off from mooring or for any other necessary purpose.
(C54, § 46A-25; O.6212; C62, § 46A-25; O.8358; C75, C79, C91, § 20-26)

Sec. 130-102. Water skiing.

(a) No person shall tow water skis, surfboards or similar devices on any river, stream, creek or body of water within the boundaries of the city except that part of the Des Moines River that lies north of the I-235 overpass, and such activities shall be excluded from that area as well when it is so posted, from time to time, upon recommendation of the engineering department.

(b) No person shall manipulate any water skis, surfboard or similar device without wearing a life jacket, life vest or ski belt at all times.

(c) All boats towing water skis, surfboards or similar devices shall have at least one other responsible occupant in addition to the operator, to observe and advise the movements of the rider.

(d) No person shall operate any boat towing or otherwise assisting a person on water skis, a surfboard or a similar device, nor shall any person manipulate water skis, a surfboard or a similar device between sunset and sunrise.

(e) No more than one skier shall be towed by any boat on weekends or holidays after 12:00 noon on the Des Moines River within the city limits.
(C54, § 46A-26; O.6212; C62, § 46A-26; O.8385; C75, § 20-27; O.8959; C79, § 20-27; O.10,659; C91, § 20-27)

Sec. 130-103. Marker buoys.

No person shall molest, destroy, move, tie to or otherwise interfere with the intended function of any marker or marker buoy.
(C54, § 46A-27; O.6212; C62, § 46A-27; C75, C79, C91, § 20-28)

Sec. 130-104. Docks.

No person shall install any dock, either fixed or floating in any watercourse, unless approved as to plans and location by the city council after recommendation by the plan and zoning commission and engineering department and compliance with article III of this chapter.
(C54, § 46A-28; O.6212; C62, § 46A-28; C75, C79, § 20-29; O.10,659; C91, § 20-29)

Sec. 130-105. Accidents.

The operator of any boat involved in an accident resulting in injury to any person or in damage to property shall immediately stop that boat at the scene of such accident and shall give his or her name, address, full identification of his or her boat and the name and address of the owner to the person struck or the operator or the occupants of the boat involved in the collision. He or she shall render assistance to any person injured in such accident and shall immediately thereafter report the accident to the police department.
(C54, § 46A-29; O.6212; C62, § 46A-29; C75, C79, C91, § 20-30)

Sec. 130-106. Prohibited areas.

No person shall operate any boat within the boundaries of any posted area designated by the city council after recommendation by the park and recreation department.
(C54, § 32-31.01; O.6405; C62, §§ 32-31.01, 46A-30; O.7203; C75, C79, §§ 17-31, 20-31; O.10,659; C91, § 20-31)

Sec. 130-107. Open fuel containers prohibited.

No person shall open a fuel container or permit a fuel container to remain open within the area known as the Birdland Boat Harbor; provided,

however, that nothing contained in this section shall be construed to prohibit the opening of fuel tanks on motorboats within the harbor to permit the connection of a fuel tank to a motor on a boat.
(C62, § 46A-31; O.8358; C75, C79, C91, § 20-32)

Sec. 130-108. Speed restrictions on Prospect Road Boat Ramp and Birdland Marina Harbor and Boat Ramp.

No person shall operate a motorboat at a speed which will create a wake within areas designated by regulatory buoys and signs on the Des Moines River. There shall be such an area in the vicinity of the Prospect Boat Ramp located on Prospect Road between Hickman Road and Martin Luther King, Jr. Parkway. Such area shall cover the full width of the river and shall extend 300 feet upstream and 300 feet downstream from the Prospect Road Boat Ramp. There shall also be an area in the vicinity of the Birdland Marina boating facilities located between Saylor Road and Birdland Drive. Such area shall cover the full width of the river and shall extend 300 feet upstream from the Birdland Marina Harbor entrance and 300 feet downstream from the public boat ramp.
(C62, § 46A-32; O.8358; C75, § 20-33; O.9274; C79, C91, § 20-33; O.11,960)

Sec. 130-109. Prohibited fishing areas.

(a) No person shall fish in that area known as Birdland Marina Harbor.

(b) No person shall fish from or throw or dangle any object from any bridge crossing the Des Moines River between Center Street and the north city limits, and from the East Martin Luther King Jr. Parkway and West Martin Luther King Jr. Parkway Bridge, or the Iowa Women of Achievement (Center Street pedestrian) Bridge or the Union Pacific (Red pedestrian) Bridge.

(c) No person shall fish from the Principal Riverwalk Multi-Use Trail along the Des Moines River.
(C62, § 46A-33; O.8358; C75, C79, § 20-34; O.9822; C91, § 20-34; O.15,294)

Sec. 130-110. Securing of watercraft to dock.

No person shall leave or cause to be left any boat, canoe, raft or any other form of watercraft unattended or unsecured upon any river, stream, lake or bank thereof. Securing shall be by means of a chain and lock or cable and lock.
(C54, § 32-46; O.6052; C62, § 32-46; C75, C79, § 17-32; O.10,659; C79, C91, § 20-35)

Sec. 130-111. Penalty.

Any person who fails to perform an act required by this chapter or who commits an act prohibited by this chapter shall be guilty of a misdemeanor punishable by fine as provided by section 1-15 of this Code or shall be guilty of a municipal infraction punishable by a civil penalty as provided by section 1-15 of this Code.
(O.15,608)

Secs. 130-112—130-135. Reserved.

ARTICLE V. BIRDLAND MARINA REGULATIONS

Sec. 130-136. Illegal moorage.

Any vessel moored, docked or in any way using harbor dock space without proper rental identification affixed to the vessel is considered illegal moorage and subject to immediate removal and impoundment at the owner's expense.
(O.13,679)

Sec. 130-137. Illegal parking.

(a) Vehicle parking is allowed in designated areas for the use of facilities in and around the marina harbor area only.

(b) Overnight parking of vehicles is allowed for harbor tenants only.

(c) Vehicles and trailers, other than harbor tenants, may be parked for no longer than 12 hours. Vehicles or trailers which remain longer than 12 hours shall be ticketed.

(d) Ticketed vehicles or trailers parked for more than 48 hours will be towed at the owner's expense.

(e) At no time shall any vehicle obstruct or block access to roadways, parking lots or gated harbor entrances.
(O.13,679)

Sec. 130-138. Commercial use.

Commercial use of the marina facilities, space, waters, real estate, or buildings is not allowed unless prior written permission to conduct such business has been granted by the city.
(O.13,679)

Sec. 130-139. Prohibited conduct.

(a) No person shall use any loud, violent, obscene or profane language while in the marina or on the adjacent premises, nor shall any person conduct himself or herself in a disorderly or obscene manner or commit any nuisance therein.

(b) Consumption of wine, beer or alcoholic beverages is prohibited, except on private vessels or by permit granted by the city.

(c) The use of grills or other cooking devices on wood docks is prohibited unless fire protection devices are placed between the grill or other cooking device and the dock.

(d) Storage of any private equipment including but not limited to tables, grills, benches, hoses, electric cords, coolers, etc. on the dock or land areas of the Marina facilities is prohibited.

(e) Deposit of garbage, trash, food product, oil, fuel debris, or other material, liquid or solid, in the water or on the land areas of the marina facilities is prohibited.

(f) Swimming, skin diving or scuba diving or use of any unlicensed vessel, raft or floating device in the marina harbor is prohibited.

(g) Children under 12 years of age must be accompanied by a parent or other responsible adult while on the docks and floats.
(O.13,679)

Sec. 130-140. Fishing.

(a) Fishing within the harbor from private vessels, public docks, or the shoreline is prohibited.

(b) Fishing from private vessels or the riverbank is prohibited in the area extending from the marina harbor entrance upstream to the dock leased to the Drake Rowing Club and downstream to a point 150 feet down river from the boat ramp.

(c) Fishing from the Birdland Drive bridge, located immediately north of the harbor, is prohibited.
(O.13,679)

Sec. 130-141. Vessel movement.

Movement of vessels within the harbor must be for the purpose of entering or exiting a dock only and must be accomplished without creating a wake.

APPENDIX A

CITY BOUNDARIES*

2-1. City limits described.

*__Editor's note—__This appendix consists of section 2-1 of the city's 1991 Code, as amended, setting out the boundaries of the city. The boundaries are set out in this appendix at the direction of the city. Amendments to section 2-1 are indicated by a parenthetical history note following the section. Obvious misspellings and punctuation errors have been corrected without notation. For stylistic purposes, headings and catchlines have been made uniform and the same style of citation to state statutes and expression of numbers in text as appears in the Municipal Code has been used. Additions made for clarity are indicated by brackets.

__Cross reference—__Any ordinances establishing or amending the city limits saved from repeal, § 1-20(10).

2-1. City limits described.

The boundaries of the city are defined and hereby declared to be as shown in subsections (a) through (h) of this section with excepted areas as shown in subsections (i) through (p) of this section as follows:

(a) *Section "A."* Beginning at the southeast corner of Section 31, Township 78 North, Range 24 West of the 5th P.M.; said point being on the south line of said Section 31; thence continuing west along the south line of Sections 36 and 35, Township 78 North, Range 25 West of the 5th P.M., to the east right-of-way line of Southwest Sixtieth Street extended; thence north along the southerly extended east right-of-way line of said Southwest Sixtieth Street, to a point 967.00 feet south of the south right-of-way line of Southwest Seventy-second Avenue (Pine Avenue); thence north 89° (degrees) 41′ (minutes) 16″ (seconds) west, 33.0 feet. Also being the west line of the east ½ of the southeast ¼ of said Section 35; thence north 00° 40′ 35″ west, 1000.0 feet to a point on the centerline of said Section 35; thence north 00° 06′ 32″ west, 2566.14 feet along the west line of the east ½ of the northeast ¼ of said Section 35, to a point on the south right-of-way line of Iowa Highway #5 (Army Post Road); thence continuing along the west line of the east ½ of the northeast ¼ of said Section 35 to the northwest corner of the east ½ of the northeast ¼ of said Section 35, also being the southeast corner of the west ½ of the southeast ¼ of Section 26, Township 78 North, Range 25 West of the 5th P.M.; thence west along the south line of said Section 26 to the west line of the southeast ¼ of said Section 26; thence north along the north and south centerline of said Section 26, to the south line of Section 23, Township 78 North, Range 25 West of the 5th P.M., thus ending Section "A."

*__Editor's note—__Ord. Nos. 16,091 (adopted Dec. 20, 2021, effective June 15, 2022), 16,092 (adopted Dec. 20, 2021, effective June 15, 2022), and 16,100 (adopted Jan. 24, 2022, effective June 15, 2022), repealed the former App. B, and enacted a new App. B as set out herein. The former App. B pertained to similar subject matter and derived from Ord. No. 15,051, adopted Sept. 26, 2011; Ord. No. 15,053, adopted Oct. 10, 2011; Ord. No. 15,055, adopted Oct. 24, 2011. Amendments to the appendix are indicated by parenthetical history notes following amended provisions. The absence of a history note indicates that the provision remains unchanged from the original ordinance. Obvious misspellings and punctuation errors have been corrected without notation. For stylistic purposes, headings and catchlines have been made uniform and the same system of capitalization, citation to state statutes, and expression of numbers in text as appears in the Code of Ordinances has been used. Additions made for clarity are indicated by brackets.

ORDINANCE NO. 14,341

AN ORDINANCE extending and amending the franchise heretofore granted to Iowa Power and Light Company, predecessor in interest to MidAmerican Energy Company, and granting unto MidAmerican Energy Company, its successors and assigns, the right, franchise and privilege for a period of ten years from and after the effective date hereof, to acquire, construct, operate and maintain in the City of Des Moines, Iowa, the necessary facilities for the production, distribution, transmission and sale of electric energy for public and private use; and to use and occupy the public streets, highways, avenues, alleys, bridges and public places for such purposes; providing for the imposition and collection of a franchise fee in consideration thereof; and prescribing the terms and conditions thereof.

WITNESSETH:

WHEREAS, pursuant to Ordinance No. 6280 adopted by the city council on May 4, 1987 and ratified by the voters at a special election on June 9, 1987, the City of Des Moines did grant unto Iowa Power and Light Company for a period of 25 years from and after the effective date thereof, a franchise to acquire, construct, operate and maintain in the City of Des Moines, Iowa, the necessary facilities for the production, distribution, transmission and sale of electric energy for public and private use; and to use and occupy the public streets, highways, avenues, alleys, bridges and public places for such purposes; providing for the imposition and collection of a franchise fee from its customers in consideration thereof; and prescribing the terms and conditions thereof; and

WHEREAS, this City Council has determined that it would be in the best interests of the City of Des Moines and its residents to amend said franchise and to extend the term thereof for a period of ten years, all as hereinafter provided.

Now, Therefore, Be It Ordained by the City Council of the City of Des Moines, Iowa:

Section 1. Franchise extended.

That the franchise heretofore granted to Iowa Power and Light Company, to acquire, construct, operate and maintain in the City of Des Moines, Iowa ("city"), the necessary facilities for the production, distribution, transmission and sale of electric energy for public and private use and to construct and maintain along, upon, across and under the streets, highways, avenues, alleys, bridges and public places the necessary fixtures and equipment for such purposes, be and the same is hereby extended in the name of MidAmerican Energy Company (hereinafter "the Company") for a period of ten years, such that said amended franchise shall continue in effect until June 15, 2022, at which time said franchise shall terminate and expire.

Section 2. Representation of Company.

The Company agrees to provide and maintain its entire system pursuant to Iowa Utilities Board rules in such condition that it will furnish safe, adequate, efficient and continuous service. All electric energy service shall be supplied through a meter or other means which shall accurately measure the amount of electric energy supplied to a consumer. There is no constitutional or other legal impediment to the enforceability of this franchise agreement.

Section 3. Rates.

The Company shall supply electric energy to consumers within the city at just and reasonable rates. It is recognized that under the statutes of the State of Iowa, the Iowa Utilities Board of the Iowa Department of Commerce is vested with legal authority to supervise, fix or change rates and charges authorized to be charged by the Company to electric energy consumers. In the event rates or charges in general, or any class or type of rate or charge shall, during the term of this franchise, cease to be regulated by any state or federal agency the City Council reserves the right to regulate such rates within the City with the costs of such regulation to borne by the company as a part of its cost of doing business, and reflected in its rates.

Section 4. Annual report.

The Company shall file with the city council a true copy of the annual report of the Company pertaining to the operation or conduct of the

business of the Company under this franchise. The report may be the same as the Company shall have prepared for such year in the ordinary course of business of the Company and filed with the Iowa Utilities Board. In the event the city council undertakes to regulate rates for service within the city, the Company shall provide all information necessary to permit the City Council to set just and reasonable rates.

Section 5. Compliance with city ordinances.

The Company shall at all times during the term of this franchise conform with, submit to, and carry out the provisions of any and all valid ordinances (a) relating to any person, firm or corporation supplying and distributing electric energy to the city or its inhabitants now in force or that hereafter may be lawfully enacted; (b) relating to the use of city right-of-way, including but not limited to the City's Right-of-Way Management Ordinance, now codified in Chapter 102, Article IX of the Des Moines City Code, 2000, entitled "Right-of-Way Occupancy", as same may hereafter be amended; or (c) relating to the city's exercise of its police powers.

Section 6. Franchise fee.

In consideration of the right to construct and maintain such facilities and equipment along, upon, across and under the streets, highways, avenues, alleys, bridges and public places of the city there is hereby imposed upon the Company a franchise fee in an amount equal to five percent (5%) of the gross revenue of the Company, minus uncollectible accounts, derived from the distribution, transmission and retail sale of electric energy by the Company to customers within the current or future corporate limits of the city (excluding, however, the sale of electric energy to the city) commencing with gross receipts received on or after September 1, 2004.

The obligation to pay the fee imposed by this section is modified if:

1. The City permits any other person to sell electrical energy to City consumers and pay a franchise fee or its lawful equivalent at a lesser rate than provided in this section, in which case the Company shall pay at the lesser rate; or
2. If the City adds additional territory by annexation or consolidation and is unable to lawfully impose the franchise fee upon any person selling electrical energy to consumers within the additional territory, in which case the franchise fee on the revenue from sales by the Company in the additional territory shall be equal to that of the lowest fee being paid by any other person selling electrical energy within the additional area.

(O.15,243)

Section 6A. Temporary increase to franchise fee to be used solely toward payment of the *Kragnes* v. *City of Des Moines* judgment.

To avoid dramatic property tax increases or devastating cuts to city services, the rate of the franchise fee shall be temporarily increased for only the next seven consecutive fiscal years to seven and one-half percent (7.5%) of gross revenues generated from sales of the Company in the city and, commencing on the first day of the fiscal year following approval of this section at election, there is hereby imposed upon the Company to pay to the city a franchise fee in an amount equal to seven and one-half percent (7.5%) of the gross revenue of the Company, minus uncollectible accounts, derived from the distribution, transmission, and retail sale of gas or electric energy by the Company to customers within the current or future corporate limits of the city (excluding, however, the sale of gas or electric energy to the city). All such franchise fee amounts assessed and collected during such fiscal years in excess of five percent of gross revenues generated from sales of the Company shall be used solely for the purposes to pay, adjust, renew or extend any part or all of the legal indebtedness of the city as evidenced by bonds, warrants or judgments and the funding or refunding of all amounts ordered refunded by a court of competent jurisdiction for franchise fees assessed and collected by the city prior to June 20, 2013.

(O.15,244)

Section 7. Exemption from payment of franchise fee.

The Company shall be relieved of its obligation to collect from its customers and remit to the city the franchise fee if the franchise fee or the manner in which it is collected from customers is ruled to be unlawful by the Supreme Court of Iowa in a final non-appealable decision. If a refund to customers is ordered by the Supreme Court in a final non-appealable decision, the city agrees to repay to the Company such fees as are ordered to be repaid.

Section 8. Remittance of franchise fee.

The Company shall remit the sum collected from customers to the city treasurer quarterly on May 1, August 1, November 1 and February 1 of each year for the three-month periods ending respectively March 31, June 30, September 30 and December 31.

Section 9. Preservation of city's rights.

This franchise shall not be exclusive and shall not restrict in any manner the right of the city council or any other governing body of the city in the exercise of any regulatory power (but not including the power to acquire by condemnation all or part of the Company's facilities) which it may now have, or hereafter be authorized or permitted, by the laws of the State of Iowa.

Section 10. Forfeiture of Franchise; Cure of Defaults.

The violation of any material portion of this franchise by the Company or its successors or assigns, or its failure to promptly perform any of the provisions of this franchise shall be cause for forfeiture of this franchise and the termination of all rights under this franchise. Such forfeiture shall be accomplished after written notice to the Company by the city, and a continuation of the violation, failure or default specified in the notice for at least sixty days from the date the notice was served upon the Company.

If either party determines that there is a default under this franchise, the other party shall be given a written notice describing the default, stating whether a forfeiture or termination of the franchise will be sought, and where the default is curable, providing a reasonable time to cure the default, which shall be not less than thirty nor more than one hundred eighty days.

Section 11. Reservation of Home Rule Powers.

This ordinance is intended to be and shall be construed as consistent with the reservation of local authority contained in the Twenty Fifth Amendment to the Iowa Constitution granting municipalities home rule powers. To such end any limitation on the power of the city is to be strictly construed and the city reserves to itself the right to exercise all power and authority to regulate and control its local affairs, and all ordinances and regulations of the city shall be enforceable against the Company unless, and only to the extent, they are irreconcilable with any rights granted to the Company under this ordinance.

Section 12. Maps of Distribution System.

The Company shall furnish to the city such mapping data regarding its distribution system as the city shall hereafter require pursuant to it right-of-way management program and Section 102-663 of the Des Moines City Code, 2000, or successor provision thereto. At the request of the Company, any information requested with respect to the location or type of equipment which the Company maintains or plans to install in the right-of-way, which qualifies as trade-secret information under I.C. § 550.1 et seq., shall be treated as trade-secret information in accordance with I.C. § 22.1 et seq., pertaining to examination of public records, or which qualifies to be kept confidential under any provision of I.C. 22.1 et seq.

Section 13. Use of Eminent Domain Powers.

The Company shall have the power to condemn private property for the purpose of providing electric utilities to the extent necessary to serve a public use and in a reasonable relationship to an overall plan of transmitting electricity in the public interest upon approval of the City Council. The Company must establish the necessity for each taking of private property, and when so

established, the City Council may approve the condemnation of the private property by resolution. Any such exercise of the eminent domain powers shall be conducted in accordance with the Des Moines Municipal Code.

Section 14. Severability; effect of regulatory actions.

Provisions of this franchise shall not be deemed severable except as provided in Section 7, and if either party is prevented from fulfilling its obligations hereunder by final, non-appealable regulatory or judicial action or by legislative action, the entire franchise shall be deemed of no further force and effect as of the date of the agency order imposing such regulatory action or such other date required by such judicial or legislative action.

Section 15. Publication of Ordinance and Notice; Election upon submission of valid petition; effective date.

Upon Council adoption of this ordinance, the City Clerk shall publish this ordinance, together with a notice as hereafter provided, in a newspaper of general circulation in Polk County, all as required by Section 380.7 of the Iowa Code. If at any time within twenty days after publication of notice of hearing on this ordinance a petition is filed with the clerk of the city in the manner provided by Iowa Code Section 362.4, asking that the question of passage of this ordinance be submitted to the registered voters of the city, then the council shall direct the county commissioner of elections to call a special election upon the question of passage of this ordinance.

This ordinance shall take effect as provided in the notice to be published by the City Clerk, which shall read as follows:

NOTICE

Under the provisions of Section 364.2 of the Iowa Code, Des Moines City Council Ordinance No. 04-14,341, extending the electric franchise heretofore granted to Iowa Power and Light Company, predecessor of MidAmerican Energy Company, shall take effect upon September 1, 2004, provided that MidAmerican Energy Company shall have filed with the city clerk a written acceptance of the franchise extension granted pursuant to said Ordinance. Provided, however, if prior to June 21, 2004, a valid petition under Section 362.2 of the Iowa Code requesting submission to the voters of the proposal to extend said franchise is submitted to the City Clerk, said Ordinance shall not take effect unless it is approved by an affirmative majority vote of the electors. Upon the county election commissioner's certification of an affirmative majority vote of the electors with respect to the proposal to extend the electric franchise as provided in said Ordinance, said Ordinance shall take effect.

ORDINANCE NO. 14,342

AN ORDINANCE extending and amending the franchise heretofore granted to Midwest Gas Company, predecessor in interest to MidAmerican Energy Company, and granting unto MidAmerican Energy Company, its successors and assigns, the right, franchise and privilege for a period of ten years from and after the effective date hereof, to acquire, construct, operate and maintain in the City of Des Moines, Iowa, the necessary facilities for the production, distribution, transmission and sale of gas for public and private use; and to use and occupy the public streets, highways, avenues, alleys, bridges and public places for such purposes; providing for the imposition and collection of a franchise fee in consideration thereof; and prescribing the terms and conditions thereof.

WITNESSETH:

WHEREAS, pursuant to Ordinance No. 6281 adopted by the city council on May 4, 1987 and ratified by the voters at a special election on June 9, 1987, the City of Des Moines did grant unto Midwest Gas Company for a period of 25 years from and after the effective date thereof, a franchise to acquire, construct, operate and maintain in the City of Des Moines, Iowa, the necessary facilities for the production, distribution, transmission and sale of gas for public and private use; and to use and occupy the public streets, highways, avenues, alleys, bridges and public places for such purposes; providing for the imposition and collection of a franchise fee from its customers in consideration thereof; and prescribing the terms and conditions thereof; and

WHEREAS, this City Council has determined that it would be in the best interests of the City of Des Moines and its residents to amend said franchise and to extend the term thereof for a period of ten years, all as hereinafter provided.

Now, Therefore, Be It Ordained by the City Council of the City of Des Moines, Iowa:

Section 1. Franchise extended.

That the franchise heretofore granted to Midwest Gas Company, to acquire, construct, operate and maintain in the City of Des Moines, Iowa ("city"), the necessary facilities for the production, distribution, transmission and sale of gas for public and private use and to construct and maintain along, upon, across and under the streets, highways, avenues, alleys, bridges and public places the necessary fixtures and equipment for such purposes, be and the same is hereby extended in the name of MidAmerican Energy Company (hereinafter "the Company") for a period of ten years, such that said amended franchise shall continue in effect until June 15, 2022, at which time said franchise shall terminate and expire.

Section 2. Representation of Company.

The Company agrees to provide and maintain its entire system pursuant to Iowa Utilities Board rules in such condition that it will furnish safe, adequate, efficient and continuous service. All gas service shall be supplied through a meter or other means which shall accurately measure the amount of gas supplied to a consumer. There is no constitutional or other legal impediment to the enforceability of this franchise agreement.

Section 3. Rates.

The Company shall supply gas to consumers within the city at just and reasonable rates. It is recognized that under the statutes of the State of Iowa, the Iowa Utilities Board of the Iowa Department of Commerce is vested with legal authority to supervise, fix or change rates and charges authorized to be charged by the Company to gas consumers. In the event rates or charges in general, or any class or type of rate or charge shall, during the term of this franchise, cease to be regulated by any state or federal agency the City Council reserves the right to regulate such rates within the City with the costs of such regulation to borne by the company as a part of its cost of doing business, and reflected in its rates.

Section 4. Annual report.

The Company shall file with the city council a true copy of the annual report of the Company pertaining to the operation or conduct of the business of the Company under this franchise. The report may be the same as the Company shall have prepared for such year in the ordinary course of business of the Company and filed with

the Iowa Utilities Board. In the event the city council undertakes to regulate rates for service within the city, the Company shall provide all information necessary to permit the City Council to set just and reasonable rates.

Section 5. Compliance with city ordinances.

The Company shall at all times during the term of this franchise conform with, submit to, and carry out the provisions of any and all valid ordinances (a) relating to any person, firm or corporation supplying and distributing gas to the city or its inhabitants now in force or that hereafter may be lawfully enacted; (b) relating to the use of city right-of-way, including but not limited to the City's Right-of-Way Management Ordinance, now codified in Chapter 102, Article IX of the Des Moines City Code, 2000, entitled "Right-of-Way Occupancy", as same may hereafter be amended; or (c) relating to the city's exercise of its police powers.

Section 6. Franchise fee.

In consideration of the right to construct and maintain such facilities and equipment along, upon, across and under the streets, highways, avenues, alleys, bridges and public places of the city there is hereby imposed upon the Company a franchise fee in an amount equal to five percent (5%) of the gross revenue of the Company, minus uncollectible accounts, derived from the distribution, transmission and retail sale of gas by the Company to customers within the current or future corporate limits of the city (excluding, however, the sale of gas to the city) commencing with gross receipts received on or after September 1, 2004.

With respect to the distribution of gas other than by sale thereof to a purchaser from the Company, the percentage of gross revenue stated above shall be applied to the full cost of gas delivered within the City, including all costs of acquisition, ownership and transmission thereof, wherever incurred. In determining the amount of the fee, the Company may presume that the cost of gas is the same as if the gas were sold by the Company, unless a different cost is provided.

The obligation to pay the fee imposed by this section is modified if:

1. The City permits any other person to sell gas to City consumers and pay a franchise fee or its lawful equivalent at a lesser rate than provided in this section, in which case the Company shall pay at the lesser rate; or
2. If the City adds additional territory by annexation or consolidation and is unable to lawfully impose the franchise fee upon any person selling gas to consumers within the additional territory, in which case the franchise fee on the revenue from sales by the Company in the additional territory shall be equal to that of the lowest fee being paid by any other person selling gas within the additional area.

(O.15,243)

Section 6A. Temporary increase to franchise fee to be used solely toward payment of the *Kragnes* v. *City of Des Moines* judgment.

To avoid dramatic property tax increases or devastating cuts to city services, the rate of the franchise fee shall be temporarily increased for only the next seven consecutive fiscal years to seven and one-half percent (7.5%) of gross revenues generated from sales of the Company in the city and, commencing on the first day of the fiscal year following approval of this section at election, there is hereby imposed upon the Company to pay to the city a franchise fee in an amount equal to seven and one-half percent (7.5%) of the gross revenue of the Company, minus uncollectible accounts, derived from the distribution, transmission, and retail sale of gas or electric energy by the Company to customers within the current or future corporate limits of the city (excluding, however, the sale of gas or electric energy to the city). All such franchise fee amounts assessed and collected during such fiscal years in excess of five percent of gross revenues generated from sales of the Company shall be used solely for the purposes to pay, adjust, renew or extend any part or all of the legal indebtedness of the city as evidenced by bonds, warrants or judgments and the funding or refunding of all amounts ordered refunded by a

court of competent jurisdiction for franchise fees assessed and collected by the city prior to June 20, 2013.
(O.15,244)

Section 7. Exemption from payment of franchise fee.

The Company shall be relieved of its obligation to collect from its customers and remit to the city the franchise fee if the franchise fee or the manner in which it is collected from customers is ruled to be unlawful by the Supreme Court of Iowa in a final non-appealable decision. If a refund to customers is ordered by the Supreme Court in a final non-appealable decision, the city agrees to repay to the Company such fees as are ordered to be repaid.

Section 8. Remittance of franchise fee.

The Company shall remit the sum collected from customers to the city treasurer quarterly on May 1, August 1, November 1 and February 1 of each year for the three-month periods ending respectively March 31, June 30, September 30 and December 31.

Section 9. Preservation of city's rights.

This franchise shall not be exclusive and shall not restrict in any manner the right of the city council or any other governing body of the city in the exercise of any regulatory power (but not including the power to acquire by condemnation all of part of the Company's facilities) which it may now have, or hereafter be authorized or permitted, by the laws of the State of Iowa.

Section 10. Forfeiture of Franchise; Cure of Defaults.

The violation of any material portion of this franchise by the Company or its successors or assigns, or its failure to promptly perform any of the provisions of this franchise shall be cause for forfeiture of this franchise and the termination of all rights under this franchise. Such forfeiture shall be accomplished after written notice to the Company by the city, and a continuation of the violation, failure or default specified in the notice for at least sixty days from the date the notice was served upon the Company.

If either party determines that there is a default under this franchise, the other party shall be given a written notice describing the default, stating whether a forfeiture or termination of the franchise will be sought, and where the default is curable, providing a reasonable time to cure the default, which shall be not less than thirty nor more than one hundred eighty days.

Section 11. Reservation of Home Rule Powers.

This ordinance is intended to be and shall be construed as consistent with the reservation of local authority contained in the Twenty Fifth Amendment to the Iowa Constitution granting municipalities home rule powers. To such end any limitation on the power of the city is to be strictly construed and the city reserves to itself the right to exercise all power and authority to regulate and control its local affairs, and all ordinances and regulations of the city shall be enforceable against the Company unless, and only to the extent, they are irreconcilable with any rights granted to the Company under this ordinance.

Section 12. Maps of Distribution System.

The Company shall furnish to the city such mapping data regarding its distribution system as the city shall hereafter require pursuant to it right-of-way management program and Section 102-663 of the Des Moines City Code, 2000, or successor provision thereto. At the request of the Company, any information requested with respect to the location or type of equipment which the Company maintains or plans to install in the right-of-way, which qualifies as trade-secret information under I.C. § 550.1 et seq., shall be treated as trade-secret information in accordance with I.C. § 22.1 et seq., pertaining to examination of public records, or which qualifies to be kept confidential under any provision of I.C. § 22.1 et seq.

Section 13. Use of Eminent Domain Powers.

The Company shall have the power to condemn private property for the purpose of providing gas

utilities to the extent necessary to serve a public use and in a reasonable relationship to an overall plan of transmitting and/or distributing gas in the public interest upon approval of the City Council. The Company must establish the necessity for each taking of private property, and when so established, the City Council may approve the condemnation of the private property by resolution. Any such exercise of the eminent domain powers shall be conducted in accordance with the Des Moines Municipal Code.

Section 14. Severability; effect of regulatory actions.

Provisions of this franchise shall not be deemed severable except as provided in Section 7, and if either party is prevented from fulfilling its obligations hereunder by final, non-appealable regulatory or judicial action or by legislative action, the entire franchise shall be deemed of no further force and effect as of the date of the agency order imposing such regulatory action or such other date required by such judicial or legislative action.

Section 15. Publication of Ordinance and Notice; Election upon submission of valid petition; effective date.

Upon Council adoption of this ordinance, the City Clerk shall publish this ordinance, together with a notice as hereafter provided, in a newspaper of general circulation in Polk County, all as required by Section 380.7 of the Iowa Code. If at any time within twenty days after publication of notice of hearing on this ordinance a petition is filed with the clerk of the city in the manner provided by Iowa Code Section 362.4, asking that the question of passage of this ordinance be submitted to the registered voters of the city, then the council shall direct the county commissioner of elections to call a special election upon the question of passage of this ordinance.

This ordinance shall take effect as provided in the notice to be published by the City Clerk, which shall read as follows:

NOTICE

Under the provisions of Section 364.2 of the Iowa Code, Des Moines City Council Ordinance No. 04-14,342, extending the gas franchise heretofore granted to Midwest Gas Company, predecessor of MidAmerican Energy Company, shall take effect upon September 1, 2004, provided that MidAmerican Energy Company shall have filed with the city clerk a written acceptance of the franchise extension granted pursuant to said Ordinance. Provided, however, if prior to June 21, 2004, a valid petition under Section 362.2 of the Iowa Code requesting submission to the voters of the proposal to extend said franchise is submitted to the City Clerk, said Ordinance shall not take effect unless it is approved by an affirmative majority vote of the electors. Upon the county election commissioner's certification of an affirmative majority vote of the electors with respect to the proposal to extend the gas franchise as provided in said Ordinance, said Ordinance shall take effect.

AN ORDINANCE AMENDING ORDINANCE NO. 8666 (AS AMENDED BY ORDINANCE NO. 8667) WITH RESPECT TO THE DIVISION OF TAXES LEVIED AND COLLECTED WITHIN THE CAPITOL CENTER DEVELOPMENT AREA URBAN RENEWAL PROJECT AND TO PROVIDE THAT SAID ORDINANCE AS REENACTED REMAIN IN EFFECT UNTIL CERTAIN OBLIGATIONS OF THE CITY HAVE BEEN PAID OR SECURED.

WHEREAS, the city council of the City of Des Moines, Iowa, heretofore adopted Ordinance No. 8666 on August 6, 1973, and Ordinance No. 8667 on August 13, 1973, for the purpose of invoking the provisions of I.C. § 403.19, with respect to property taxes collected within the project area of the Capitol Center Development Area Urban Renewal Project; and

WHEREAS, the provisions of said ordinance remain in effect and the council, by Resolution No. 540 adopted February 21, 1977, did authorize a certain loan amendment with Brenton Banks, Inc., Central National Bank, Iowa-Des Moines National Bank, Bankers Trust Company, United Federal Savings and Loan, Des Moines Savings and Loan and Centurion Casualty Company wherein the City of Des Moines has agreed to maintain said Ordinance No. 8666, as amended, in effect for the period of the loan therein authorized; and

WHEREAS, it is deemed necessary that said ordinance be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1. That Ordinance No. 8666 heretofore adopted on August 6, 1973, and Ordinance No. 8667 heretofore adopted on August 13, 1973, are hereby amended by repeal thereof and reenactment to read as follows:

"AN ORDINANCE PROVIDING THAT GENERAL PROPERTY TAXES LEVIED AND COLLECTED EACH YEAR ON ALL REAL PROPERTY LOCATED WITHIN THE CAPITOL CENTER DEVELOPMENT AREA URBAN RENEWAL PROJECT IN THE CITY OF DES MOINES, COUNTY OF POLK, STATE OF IOWA, BY AND FOR THE BENEFIT OF THE STATE OF IOWA, CITY OF DES MOINES, COUNTY OF POLK, DES MOINES INDEPENDENT COMMUNITY SCHOOL DISTRICT, AND OTHER TAXING DISTRICTS, BE PAID TO A SPECIAL FUND FOR PAYMENT OF PRINCIPAL AND INTEREST ON LOANS, MONIES ADVANCED TO AND INDEBTEDNESS, INCLUDING BONDS ISSUED OR TO BE ISSUED, INCURRED BY SAID CITY IN CONNECTION WITH SAID URBAN RENEWAL REDEVELOPMENT PROJECT.

WHEREAS, the city council of the City of Des Moines, Iowa, after public notice and hearing as prescribed by law and pursuant to resolution passed and approved August 2, 1973, adopted an urban renewal plan for an area known as the Capitol Center Development Area Urban Renewal Project, which project area is legally described as follows:

> Beginning at the intersection of the northerly right-of-way line of Grand Avenue and the westerly right-of-way line of Eighth Street; thence south along the westerly right-of-way line of Eighth Street to its intersection with the centerline of the Des Moines Union Railroad main line; thence east along the centerline of the Des Moines Union Railroad main line to its intersection with the easterly right-of-way line of East Seventh Street; thence north along the easterly right-of-way line of East Seventh Street to its intersection with the southerly right-of-way line of the alley south of Locust Street; thence east along the southerly right-of-way line of the alley south of Locust Street to its intersection with the westerly property line of the state capitol grounds; thence north along the westerly property line of the state capitol grounds to its intersection with the southerly right-of-way line of Locust Street; thence west along the southerly right-of-way line of Locust Street to its intersection with the easterly right-of-way line of Pennsylvania Avenue; thence north along the easterly right-of-way line of Pennsylvania Avenue to its intersection

with the southerly right-of-way line of Des Moines Street; thence west along the southerly right-of-way line of Des Moines Street to its intersection with the westerly right-of-way line of East First Street; thence north along the westerly right-of-way line of East First Street to its intersection with the southerly boundary line of the River Hills Urban Renewal Project; thence west and south along the southerly boundary line of the River Hills Urban Renewal Project to its intersection with the northerly right-of-way line of Grand Avenue; thence west along the northerly right-of-way line of Grand Avenue to its intersection with the westerly right-of-way line of Eighth Street, which is the point of beginning, and

WHEREAS, indebtedness has been incurred and will be incurred by the City of Des Moines, Iowa, in connection with said urban renewal project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the Capitol Center Development Area Urban Renewal Project, as above described in accordance with the provisions of I.C. § 403.19 of the 1973 Code of Iowa.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1. That the taxes levied on the taxable property in the urban renewal project area known as the Capitol Center Development Area Urban Renewal Project, legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District, and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2. That portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in said urban renewal area upon the total sum of the assessed value of the taxable property in said urban renewal project as shown on the assessment roll last equalized prior to the date of initial adoption of the urban renewal plan for the Capitol Center Development Area Urban Renewal Project shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid. The date of assessment for the assessment roll last equalized prior to the date of adoption of the urban renewal plan was January 1, 1972.

Section 3. That portion of the taxes each year in excess of such amount shall be allocated to and when collected be paid into a special fund to be hereafter established by resolution of the City of Des Moines, Iowa, to pay the principal of and interest on loans, monies advanced to indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under the authority of I.C. § 403.9 of the 1973 Code of Iowa, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Capitol Center Development Area Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said project area shall be collected against all taxable property within the project area without any limitation as hereinabove provided.

Section 4. All taxes levied and collected upon the taxable property in said Capitol Center Development Area Urban Renewal Project shall be paid into the funds of the taxing districts as taxes by or for said taxing districts in the same manner as all other property taxes unless or until the total assessed valuation of the taxable property in said urban renewal project shall exceed the total assessed value of the taxable property in said urban renewal project, as shown by the last equalized assessment roll dated January 1, 1972.

Section 5. The City of Des Moines, by Resolution No. 540, adopted February 21, 1977, has entered into a certain loan agreement calling for the repayment of $2,250,000.00 with interest from the collection of taxes pursuant to section 3 of this ordinance which are pledged as security therefore. Said loan agreement pro-

vides that the provisions of this ordinance shall remain in effect until said loan has been repaid or fully secured. It is therefore ordained that this ordinance shall remain in effect and shall not be repealed or amended in any manner which is adverse to the security interest of the lenders under said loan agreement, dated February 21, 1977 while said loan has not been paid or secured in accordance with its terms. Provided, however, that the taxes collected pursuant to section 3 of this ordinance may be pledged as security or applied to the payment of other loans, bonds, or advances to the extent in said loan agreement permitted. This ordinance is intended and shall be construed to implement the provisions of I.C. § 403.19 to the full extent permitted by law.

Section 6. At such time as the loans, advances, indebtedness, and bonds and interest thereon of the City of Des Moines, hereinabove referred to have been paid all monies thereafter received from taxes upon the taxable property in the urban renewal project known as the Capitol Center Development Area Urban Renewal Project shall be paid into the funds for the respective taxing districts in the same manner as taxes on all other property.

Section 7. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 8. This ordinance shall be in effect after its final passage, approval and publication as provided by law. Provided, further, that at such time as the city shall compile a code of ordinances containing all ordinances of the city with certain exceptions conforming to the provisions of I.C. § 380.8, the provisions of this ordinance shall be set forth and maintained therein for not less than the period of the loan agreement referred to in section 5 hereof. (End of Ordinance No. 8666)

Section 2. This Ordinance Number 9282 shall be in effect after its final passage, approval and publication as provided by law.

WHEREAS, expenditures and indebtedness are anticipated to be incurred by the City of Des Moines, Iowa, in the future to finance said urban renewal project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the urban renewal project area, as above described in accordance with the provisions of I.C. § 403.19 of the Code of Iowa, 1983 as amended.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1: That the taxes levied on the taxable property in the urban renewal project area known as the Capitol-Center Development Area II Urban Renewal Project, legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District, and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2: That portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in said urban renewal area upon the total sum of the assessed value of the taxable property in said urban renewal project as shown on the January 1 assessment roll last equalized prior to the date of the effective date of this ordinance shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid.

Section 3: That portion of the taxes each year in excess of the base period taxes determined as provided in section 2 of this ordinance shall be allocated to and when collected be paid into a special tax increment fund hereby established, to pay the principal of and interest on loans, monies advanced to, indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under the authority of I.C. §§ 403.9 and 403.12 of the 1983 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Capitol-Center Development Area II Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said project area shall be collected against all taxable property within the project area without any limitation as hereinabove provided.

Section 4: All taxes levied and collected upon the taxable property in said Capitol-Center Development Area II Urban Renewal Project shall be paid into the funds of the taxing districts as taxes by or for said taxing districts in the same manner as all other property taxes unless or until the total assessed valuation of the taxable property in said urban renewal project shall exceed the total assessed value of the taxable property in said urban renewal project on the date of adoption of the urban renewal plan, as shown by the last equalized assessment rolls prior to the effective date of this ordinance.

Section 5: At such time as the monies advanced, bonds and interest thereon and indebtedness of the City of Des Moines hereinabove in section 3 referred to have been paid, all monies thereafter received from taxes upon the taxable property in the urban renewal project known as the Capitol-Center Development Area II Urban Renewal Project shall be paid into the funds for the respective taxing districts in the same manner as taxes on all other property.

Section 6: All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1983 Code of Iowa, as amended, with respect to the division of taxes from property within the urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 with reference to said urban renewal project and the territory therein.

Section 7: This ordinance shall be in effect after its final passage, approval and publication as provided by law.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1: That the taxes levied on the taxable property in the urban renewal project area known

as the Riverpoint Urban Renewal Project, legally described in the preamble hereof, by or for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District, and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2: That portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in said Riverpoint Urban Renewal Project Area upon the total sum of the assessed value of the taxable property in said urban renewal project as shown on the assessment roll as of January 1 of the calendar year preceding the effective date of this ordinance shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid.

Section 3: That portion of the taxes each year in excess of the base period taxes determined as provided in section 2 of this ordinance shall be allocated to and when collected be paid into a special tax increment fund hereby established, to pay the principal of and interest on loans, monies advanced to, indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under the authority of I.C. §§ 403.9 and 403.12 of the 1989 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance, in whole or in part, the Riverpoint Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes upon taxable property in said urban renewal project area shall be collected against all taxable property within the taxing district without limitation by the provisions of this section 3.

Section 4: All taxes levied and collected upon the taxable property in said Riverpoint Urban Renewal Project shall be paid into the funds of the taxing districts as taxes by or for said taxing districts in the same manner as all other property taxes unless and until the total assessed valuation of the taxable property in said urban renewal project shall exceed the total assessed value of the taxable property in said urban renewal project as shown by the assessment roll as of January 1 of the calendar year preceding the effective date of this ordinance.

Section 5: At such time as the loans, advances, indebtedness, bonds and interest thereon of the City of Des Moines hereinabove referred to in section 3 have been paid, all monies thereafter received from taxes upon the taxable property in the Riverpoint Urban Renewal Project shall be paid into the funds for the respective taxing districts in the same manner as taxes on all other property.

Section 6: All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1989 Code of Iowa, as amended, with respect to the division of taxes from property within the Riverpoint Urban Renewal Project Area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 of the 1989 Code of Iowa, as amended, with reference to said urban renewal project and the territory therein.

Section 7: This ordinance shall be in effect after its final passage, approval and publication as provided by law.

and

WHEREAS, indebtedness has been incurred by the City of Des Moines, Iowa, and additional indebtedness is anticipated to be incurred in the future to finance said urban renewal project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the urban renewal project area, as above described in accordance with the provisions of I.C. § 403.19 of the 1991 Code of Iowa, as amended.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1. That the taxes levied on the taxable property in the urban renewal project area known as the Capitol-Center Development Area II Urban Renewal Project, legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School Dis-

trict and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2. "Base period taxes" are that portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in said urban renewal area upon the total sum of the "base valuations." The "base valuations" are the assessed value of the taxable property in said urban renewal project as shown on the assessment roll last equalized prior to the date of adoption of this ordinance with respect to Area A and as shown on the assessment roll last equalized prior to the date of adoption of the amendment to this ordinance with respect to Area B. "Base period taxes" shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid. As to Area A, "base period taxes" shall be computed using the total assessed value of taxable property within Area A, as shown on the assessment roll last equalized prior to the date of adoption of this ordinance as to Area A, being the assessment roll for January 1, 1982.

As to Area B, "base period taxes" shall be computed in the same manner using the total assessed value of taxable property within said Area B shown on the assessment roll last equalized prior to the date of adoption of the amendment to this ordinance with respect to Area B, being the assessment roll for January 1, 1992.

Section 3. "Incremental taxes" are that portion of the taxes each year in excess of the "base period taxes" for the combined area, determined as provided in section 2 of this ordinance. "Incremental taxes" shall be allocated to and when collected be paid into a special fund of the City of Des Moines, Iowa, hereafter to be maintained to pay the principal of and interest on loans, monies advanced to, indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under authority of I.C. § 403.9 of the 1991 Code of Iowa, and I.C. § 403.12 of the 1991 Code of Iowa, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Capitol-Center Development Area II Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said project area shall be collected against all taxable property within the project area without any limitations as hereinabove provided.

Section 4. At such time as the loans, monies advanced and bonds of the City of Des Moines and interest thereon, hereinabove referred to, have been paid, all monies thereafter received from taxes upon the taxable property in the urban renewal project known as the Capitol-Center Development Area II Urban Renewal Area Project shall be paid into the funds for the respective taxing districts in the same manner as "base period taxes."

Section 5. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1991 Code of Iowa with respect to the division of taxes from property within the urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 of the 1991 Code of Iowa, as amended, with reference to said urban renewal project and the territory therein.

Section 6. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

WHEREAS, indebtedness has been incurred by the City of Des Moines, Iowa, and additional indebtedness is anticipated to be incurred in the future to finance said urban renewal project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the urban renewal project area, as above described in accordance with the provisions of I.C. § 403.19 of the 1991 Code of Iowa, as amended.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1. That the taxes levied on the taxable property in the urban renewal project area known as the Riverpoint Urban Renewal Project, legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2. "Base period taxes" are that portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in said urban renewal area upon the total sum of the "base valuations." The "base valuations" are the assessed value of the taxable property in said urban renewal project as shown on the assessment roll last equalized prior to the date of adoption of this ordinance with respect to Area A and as shown on the assessment roll last equalized prior to the date of adoption of the amendment to this ordinance with respect to Area B. "Base period taxes" shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid. As to Area A, "base period taxes" shall be computed using the total assessed value of taxable property within Area A, as shown on the assessment roll last equalized prior to the date of adoption of this ordinance as to Area A, being the assessment roll for January 1, 1989.

As to Area B, "base period taxes" shall be computed in the same manner using the total assessed value of taxable property within said Area B shown on the assessment roll last equalized prior to the date of adoption of the amendment to this ordinance with respect to Area B, being the assessment roll for January 1, 1992.

Section 3. "Incremental taxes" are that portion of the taxes each year in excess of the "base period taxes" for the combined area, determined as provided in section 2 of this ordinance. "Incremental taxes" shall be allocated to and when collected be paid into a special fund of the City of Des Moines, Iowa, hereafter to be maintained to pay the principal of and interest on loans, monies advanced to, indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under authority of I.C. § 403.9 of the 1991 Code of Iowa, and I.C. § 403.12 of the 1991 Code of Iowa, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Riverpoint Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said project area shall be collected against all taxable property within the project area without any limitations as hereinabove provided.

Section 4. At such time as the loans, monies advanced and bonds of the City of Des Moines and interest thereon, hereinabove referred to, have been paid, all monies thereafter received from taxes upon the taxable property in the urban renewal project known as the Riverpoint Urban Renewal Area Project shall be paid into the funds for the respective taxing districts in the same manner as "base period taxes."

Section 5. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1991 Code of Iowa with respect to the division of taxes from property within the urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 of the 1991 Code of Iowa, as amended, with reference to said urban renewal project and the territory therein.

Section 6. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

DONNA V. BOETEL-BAKER, City Clerk

ORDINANCE NO. 12,054

AN ORDINANCE amending Ordinance No. 10,404, as amended by Ordinance No. 11,971, entitled:

> "An ordinance providing that general property taxes levied and collected each year on all property located within the Capitol-Center Development Area II Urban Renewal Project in the City of Des Moines, County of Polk, State of Iowa, by and for the benefit of the State of Iowa, City of Des Moines, County of Polk, Des Moines Independent Community School District, and other taxing districts, be paid to the special fund for payment of principal and interest on loans, monies advanced to and indebtedness, including bonds issued or to be issued, incurred by said city in connection with said urban renewal project"

and also amending

ORDINANCE NO. 11,419, as amended by Ordinance No. 11,972, entitled:

> "An ordinance providing that general property taxes levied and collected each year on all property located within the Riverpoint Urban Renewal Project in the City of Des Moines, County of Polk, State of Iowa, by and for the benefit of the State of Iowa, City of Des Moines, County of Polk, Des Moines Independent Community School District, and other taxing districts, be paid to the special fund for payment of principal and interest on loans, monies ad-

vanced to and indebtedness, including bond issued or to be issued, incurred by said city in connection with said urban renewal project"

to consolidate and expand the areas subject to the division of revenue from taxation, pursuant to such ordinances.

WHEREAS, the city council of the City of Des Moines, Iowa, has heretofore, in Ordinance No. 10,404, provided for the division of revenue from taxes within the Capitol-Center Development Area II Urban Renewal Project Area (hereinafter referred to as the Capitol-Center Development Area II - Area "A"), pursuant to I.C. § 403.19 of the 1983 Code of Iowa, as amended; and

WHEREAS, an additional area (hereinafter referred to as the Capitol-Center Development Area II - Area "B") was added to the Capitol-Center Development Area II Urban Renewal Project Area and by Ordinance No. 11,971, the city council amended Ordinance No. 10,404 to expand the area subject to the division of revenue from taxes under Ordinance No. 10,404 to include the additional area; and

WHEREAS, the city council of the City of Des Moines, Iowa, has heretofore, in Ordinance No. 11,419, provided for the division of revenue from taxes within the Riverpoint Urban Renewal Project Area (hereinafter referred to as the Riverpoint - Area "A"), pursuant to I.C. § 403.19 of the 1989 Code of Iowa, as amended; and

WHEREAS, an additional area (hereinafter referred to as Riverpoint - Area "B") was added to the Riverpoint Urban Renewal Project Area and by Ordinance No. 11,972 the city council amended Ordinance No. 11,419 to expand the area subject to the division of revenue from taxes under Ordinance No. 11,419 to include the additional area; and

WHEREAS, by amendments to the urban renewal plans for the Capitol-Center Development Area II Urban Renewal Project and the Riverpoint Urban Renewal Project, after notice and public hearing as prescribed by law, said urban renewal plans were amended to provide for the consolidation and expansion of the two urban renewal projects in accordance with the urban renewal plan for the combined Riverpoint Capitol-Center Development Area Urban Renewal Project; and

WHEREAS, the continuing needs of redevelopment of the combined Riverpoint Capitol-Center Development Area Urban Renewal Project are such as to require application of the incremental tax resources of the consolidated and expanded urban renewal project; and

WHEREAS, the following enactment is necessary to accomplish the objectives described above and in the urban renewal plan for the Riverpoint Capitol-Center Development Area Urban Renewal Project;

NOW, THEREFORE, BE IT ORDAINED by the city council of the City of Des Moines, Iowa as follows:

Section 1. That Ordinance Nos. 10,404, 11,971, 11,419 and 11,972 are hereby amended to read as follows:

WHEREAS, indebtedness has been incurred by the City of Des Moines, Iowa, and additional indebtedness is anticipated to be incurred in the future to finance said Urban Renewal Project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the urban renewal project area, as above described in accordance with the provisions of I.C. § 403.19 of the 1993 Code of Iowa, as amended;

NOW, THEREFORE, BE IT ORDAINED by the city council of the City of Des Moines, Iowa as follows:

Section 1. That the taxes levied on the taxable property in the urban renewal project area known as the Riverpoint Capitol-Center Development Area Urban Renewal Project, consisting of the sub-areas known as Capitol-Center Development Area II - Areas "A," "B," "C," and "D" and Riverpoint - Areas "A," "B," and "C," each of which is legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2. For purposes of this ordinance, "base period taxes" are that portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in the Riverpoint Capitol-Center Development Area Urban Renewal Project Area upon the total sum of the "base valuations" of each of the sub-areas within the said urban renewal project area. The "base valuations" are the assessed values of the taxable property in each sub-area of said urban renewal project area as shown on the assessment rolls following:

> With respect to the Capital-Center Development Area II-Area "A," the assessment roll last equalized prior to the effective date of Ordinance No. 10,404, being the assessment roll for January 1, 1982;
>
> With respect to the Capital-Center Development Area II-Area "B," the assessment roll as of January 1 of the calendar year

preceding the effective date of Ordinance No. 11,971, amending Ordinance No. 10,404, being the assessment roll for January 1, 1992;

With respect to the Riverpoint-Area "A," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 11,419, being the assessment roll for January 1, 1989;

With respect to the Riverpoint-Area "B," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 11,972, amending Ordinance No. 11,419, being the assessment roll for January 1, 1992;

With respect to the Capital-Center Development Area II-Areas "C" and "D" and the Riverpoint-Area "C," the assessment roll as of January 1 of the calendar year preceding the effective date of this ordinance, being the assessment roll for January 1, 1992.

The "base period taxes" for each of the sub-areas within said urban renewal project area shall be computed using the total assessed value of the taxable property within each such sub-area as shown on the assessment rolls applicable to each sub-area as described above. "Base period taxes" shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by and for said taxing district into which all other property taxes are paid.

Section 3. For purposes of this ordinance, "incremental taxes" are that portion of the taxes each year in excess of the "base period taxes" for the combined area, determined as provided in section 2 of this ordinance. "Incremental taxes" shall be allocated to and when collected be paid into a special fund of the City of Des Moines, Iowa, hereafter to be maintained to pay the principal of and interest on loans, monies advanced to, and indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under authority of I.C. §§ 403.9 and 403.12 of the 1993 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Riverpoint Capitol-Center Development Area Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said urban renewal project area shall be collected against all taxable property within the project area without any limitations as hereinabove provided.

Section 4. At such time as the loans, monies advanced and bonds of the City of Des Moines and interest thereon, hereinabove referred to, have been paid, all monies thereafter received from taxes upon the taxable property in the urban renewal project area known as the Riverpoint Capitol-Center Development Area Urban Renewal Project Area shall be paid into the funds for the respective taxing districts in the same manner as "base period taxes."

Section 5. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1993 Code of Iowa, as amended, with respect to the division of revenue from taxes from property within the combined urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 of the 1993 Code of Iowa, as amended, with reference to said combined urban renewal project and the territory therein.

Section 6. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

Section 2. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

Passed October 18, 1993

Signed October 18, 1993

JOHN P. DORRIAN, Mayor

I, Donna V. Boetel-Baker, City Clerk of the City of Des Moines, Iowa, hereby certify that the above and foregoing is a true copy of an ordinance (Roll Call No. 93-3902), passed by the city council of said city at a meeting held October 18, 1993, signed by the mayor October 18, 1993, and published as provided by law in the Business Record on November 1, 1993. Authorized by Publication Order No. 3368.

DONNA V. BOETEL-BAKER, City Clerk

ORDINANCE NO. 12,070

AN ORDINANCE amending Ordinance No. 10,404, as amended by Ordinances No. 11,971 and 12,054, entitled:

> "An ordinance providing that general property taxes levied and collected each year on all property located within the Capitol-Center Development Area II Urban Renewal Project in the City of Des Moines, County of Polk, State of Iowa, by and for the benefit of the State of Iowa, City of Des Moines, County of Polk, Des Moines Independent Community School District, and other taxing districts, be paid to the special fund for payment of principal and interest on loans, monies advanced to and indebtedness, including bonds issued or to be issued, incurred by said city in connection with said urban renewal project"

and also amending

Ordinance No. 11,419, as amended by Ordinances No. 11,972 and 12,054 entitled:

> "An ordinance providing that general property taxes levied and collected each year on all property located within the Riverpoint Urban Renewal Project in the City of Des Moines, County of Polk, State of Iowa, by and for the benefit of the State of Iowa, City of Des Moines, County of Polk, Des Moines Independent Community School District, and other taxing districts, be paid to the special fund for payment of principal and interest on loans, monies advanced to and indebtedness, including bond issued or to be issued, incurred by said city in connection with said urban renewal project"

to expand the area subject to the division of revenue from taxation, pursuant to such ordinances.

WHEREAS, the city council of the City of Des Moines, Iowa, has heretofore, in Ordinance No. 10,404, provided for the division of revenue from taxes within the Capitol-Center Development Area II Urban Renewal Project Area (hereinafter referred to as the Capitol-Center Development Area II - Area "A"), pursuant to I.C. § 403.19 of the 1983 Code of Iowa, as amended; and

WHEREAS, an additional area (hereinafter referred to as the Capitol-Center Development Area II - Area "B") was added to the Capitol-Center Development Area II Urban Renewal Project Area and by Ordinance No. 11,971, the city council amended Ordinance No. 10,404 to expand the area subject to the division of revenue from taxes under Ordinance No. 10,404 to include the additional area; and

WHEREAS, the city council of the City of Des Moines, Iowa, has heretofore, in Ordinance No. 11,419, provided for the division of revenue from taxes within the Riverpoint Urban Renewal Project Area (hereinafter referred to as the Riverpoint - Area "A"), pursuant to I.C. § 403.19 of the 1989 Code of Iowa, as amended; and

WHEREAS, an additional area (hereinafter referred to as Riverpoint - Area "B") was added to the Riverpoint Urban Renewal Project Area and by Ordinance No. 11,972 the city council amended Ordinance No. 11,419 to expand the area subject to the division of revenue from taxes under Ordinance No. 11,419 to include the additional area; and

WHEREAS, by amendments to the urban renewal plans for the Capitol-Center Development Area II Urban Renewal Project and the Riverpoint Urban Renewal Project, after notice and public hearing as prescribed by law, said urban renewal plans were amended to provide for the consolidation and expansion of the two urban renewal

projects in accordance with the urban renewal plan for the combined Riverpoint Capitol-Center Development Area Urban Renewal Project; and

WHEREAS, by Ordinance No. 12,054 the City Council amended Ordinance No. 10,404, as amended by Ordinance No. 11,971 (regarding the Capitol-Center Development Area II Urban Renewal Project) and also amended Ordinance No. 11,419 as amended by Ordinance No. 11,972 (regarding the Riverpoint Urban Renewal Project) to consolidate and expand the area subject to the division of revenue from taxes to be in accordance with the urban renewal plan for the combined Riverpoint Capitol-Center Development Area Urban Renewal Project; and,

WHEREAS, by the first amendment to the urban renewal plan for the Riverpoint Capitol-Center Development Area, after public notice and hearing as prescribed by law, said urban renewal plan was amended and adopted to add an additional area (hereinafter referred to as Capitol-Center III - Area "A"); and

WHEREAS, the continuing needs of redevelopment of the expanded Riverpoint Capitol-Center Development Area Urban Renewal Project are such as to require application of the incremental tax resources of the expanded urban renewal project; and

WHEREAS, the following enactment is necessary to accomplish the objectives described above and in the urban renewal plan for the Riverpoint Capitol-Center Development Area Urban Renewal Project;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA AS FOLLOWS:

WHEREAS, indebtedness has been incurred by the City of Des Moines, Iowa, and additional indebtedness is anticipated to be incurred in the future to finance said Urban Renewal Project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the urban renewal project area, as above described in accordance with the provisions of I.C. § 403.19 of the 1993 Code of Iowa, as amended;

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Des Moines, Iowa as follows:

Section 1. That the taxes levied on the taxable property in the urban renewal project area known as the Riverpoint Capitol-Center Development Area Urban Renewal Project, consisting of the sub-areas known as Capitol-Center Development Area II - Areas "A," "B," "C," and "D," Riverpoint - Areas "A," "B," and "C," and Capitol-Center III - Area "A," each of which is legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2. For purposes of this ordinance, "base period taxes" are that portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in the Riverpoint Capitol-Center Development Area Urban Renewal Project Area upon the total sum of the "base valuations" of each of the sub-areas within the said urban renewal project area. The "base valuations" are the assessed values of the taxable property in each sub-area of said urban renewal project area as shown on the assessment rolls following:

With respect to the Capitol-Center Development Area II-Area "A," the assessment roll last equalized prior to the effective date of Ordinance No. 10,404, being the assessment roll for January 1, 1982;

With respect to the Capitol-Center Development Area II-Area "B," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 11,971, amending Ordinance No. 10,404, being the assessment roll for January 1, 1992;

With respect to the Riverpoint-Area "A," the assessment roll as of January 1 of the

calendar year preceding the effective date of Ordinance No. 11,419, being the assessment roll for January 1, 1989;

With respect to the Riverpoint-Area "B," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 11,972, amending Ordinance No. 11,419, being the assessment roll for January 1, 1992;

With respect to the Capitol-Center Development Area II-Areas "C" and "D" and the Riverpoint-Area "C," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 12,054, being the assessment roll for January 1, 1992.

With respect to the Capitol-Center III - Area "A," the assessment roll as of January 1 of the calendar year preceding the effective date of this ordinance, being the assessment roll for January 1, 1992.

The "base period taxes" for each of the sub-areas within said urban renewal project area shall be computed using the total assessed value of the taxable property within each such sub-area as shown on the assessment rolls applicable to each sub-area as described above. "Base period taxes" shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by and for said taxing district into which all other property taxes are paid.

Section 3. For purposes of this ordinance, "incremental taxes" are that portion of the taxes each year in excess of the "base period taxes" for the combined area, determined as provided in section 2 of this ordinance. "Incremental taxes" shall be allocated to and when collected be paid into a special fund of the City of Des Moines, Iowa, hereafter to be maintained to pay the principal of and interest on loans, monies advanced to, and indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under authority of I.C. §§ 403.9 and 403.12 of the 1993 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Riverpoint Capitol-Center Development Area Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said urban renewal project area shall be collected against all taxable property within the project area without any limitations as hereinabove provided.

Section 4. At such time as the loans, monies advanced and bonds of the City of Des Moines and interest thereon, hereinabove referred to, have been paid, all monies thereafter received from taxes upon the taxable property in the Urban Renewal Project Area known as the Riverpoint Capitol-Center Development Area Urban Renewal Project Area shall be paid into the funds for the respective taxing districts in the same manner as "base period taxes."

Section 5. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1993 Code of Iowa, as amended, with respect to the division of revenue from taxes from property within the combined urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 of the 1993 Code of Iowa, as amended, with reference to said combined urban renewal project and the territory therein.

Section 6. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

Section 2. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

Passed December 20, 1993

Signed December 20, 1993

JOHN P. DORRIAN, Mayor

I, Donna V. Boetel-Baker, City Clerk of the City of Des Moines, Iowa, hereby certify that the above

and foregoing is a true copy of an ordinance (Roll Call No. 93-4605), passed by the city council of said city at a meeting held December 20, 1993, signed by the mayor December 20, 1993, and published as provided by law in the Business Record on December 27, 1993. Authorized by Publication Order No. 3412.

DONNA V. BOETEL-BAKER, City Clerk

ORDINANCE NO. 13,565

AN ORDINANCE amending Ordinance No. 10,404, as amended by Ordinance Nos. 11,971, 12,054, and 12,070, entitled:

> "An ordinance providing that general property taxes levied and collected each year on all property located within the Capitol-Center Development Area II Urban Renewal Project in the City of Des Moines, County of Polk, State of Iowa, by and for the benefit of the State of Iowa, City of Des Moines, County of Polk, Des Moines Independent Community School District, and other taxing districts, be paid to the special fund for payment of principal and interest on loans, monies advanced to and indebtedness, including bonds issued or to be issued, incurred by said city in connection with said urban renewal project"

and also amending Ordinance No. 11,419, as amended by Ordinance Nos. 11,972, 12,054 and 12,070, entitled:

> "An ordinance providing that general property taxes levied and collected each year on all property located within the Riverpoint Urban Renewal Project in the City of Des Moines, County of Polk, State of Iowa, by and for the benefit of the State of Iowa, City of Des Moines, County of Polk, Des Moines Independent Community School District, and other taxing districts, be paid to the special fund for payment of principal and interest on loans, monies advanced to and indebtedness, including bond issued or to be issued, incurred by said city in connection with said urban renewal project"

to expand the area subject to the division of revenue from taxation, pursuant to such ordinances.

WHEREAS, the city council of the City of Des Moines, Iowa, has heretofore, in Ordinance No. 10,404, provided for the division of revenue from taxes within the Capitol-Center Development Area II Urban Renewal Project Area (hereinafter referred to as the Capitol-Center Development Area II - Area "A"), pursuant to I.C. § 403.19 of the 1983 Code of Iowa, as amended; and

WHEREAS, an additional area (hereinafter referred to as the Capitol-Center Development Area II - Area "B") was added to the Capitol-Center Development Area II Urban Renewal Project Area and by Ordinance No. 11,971, the city council amended Ordinance No. 10,404 to expand the area subject to the division of revenue from taxes under Ordinance No. 10,404 to include the additional area; and

WHEREAS, the city council of the City of Des Moines, Iowa, has heretofore, in Ordinance No. 11,419, provided for the division of revenue from taxes within the Riverpoint Urban Renewal Project Area (hereinafter referred to as the Riverpoint - Area "A"), pursuant to I.C. § 403.19 of the 1989 Code of Iowa, as amended; and

WHEREAS, an additional area (hereinafter referred to as Riverpoint - Area "B") was added to the Riverpoint Urban Renewal Project Area and by Ordinance No. 11,972 the city council amended Ordinance No. 11,419 to expand the area subject to the division of revenue from taxes under Ordinance No. 11,419 to include the additional area; and

WHEREAS, by amendments to the urban renewal plans for the Capitol-Center Development Area II Urban Renewal Project and the Riverpoint Urban Renewal Project, after notice and public hearing as prescribed by law, said urban renewal plans were amended to provide for the consolidation and expansion of the two urban renewal projects in accordance with the urban renewal plan for the combined Riverpoint Capitol-Center Development Area Urban Renewal Project; and

WHEREAS, by Ordinance No. 12,054 the city council amended Ordinance No. 10,404, as amended by Ordinance No. 11,971 (regarding the Capitol-Center Development Area II Urban Renewal Project) and also amended Ordinance No. 11,419 as

amended by Ordinance No. 11,972 (regarding the Riverpoint Urban Renewal Project) to consolidate and expand the area subject to the division of revenue from taxes to be in accordance with the urban renewal plan for the combined Riverpoint Capitol-Center Development Area Urban Renewal Project; and,

WHEREAS, by the first amendment to the urban renewal plan for the Riverpoint Capitol-Center Development Area, after public notice and hearing as prescribed by law, said urban renewal plan was amended and adopted to add an additional area (hereinafter referred to as Capitol-Center III - Area "A"); and

WHEREAS, by Ordinance No. 12,070 the City Council amended Ordinance No. 10,404, as amended by Ordinance Nos. 11,971 and 12,054 (regarding the Capitol-Center Development Area II Urban Renewal Project) and also amended Ordinance No. 11,419, as amended by Ordinance Nos. 11,972 and 12,054 (regarding the Riverpoint Urban Renewal Project) to expand the area subject to the division of revenue from taxes to be in accordance with the urban renewal plan for the combined Riverpoint Capitol-Center Development Area Urban Renewal Project; and

WHEREAS, by the fifth amendment to the urban renewal plan for the Riverpoint Capitol-Center Development Area, after public notice and hearing as prescribed by law, said urban renewal plan was amended and adopted to add an additional area (hereinafter referred to as the Sixth Avenue Area); and

WHEREAS, the continuing needs of redevelopment of the expanded Riverpoint Capitol-Center Development Area Urban Renewal Project are such as to require application of the incremental tax resources of the expanded urban renewal project; and

WHEREAS, the following enactment is necessary to accomplish the objectives described above and in the urban renewal plan for the Riverpoint Capitol-Center Development Area Urban Renewal Project;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA AS FOLLOWS:

WHEREAS, indebtedness has been incurred by the City of Des Moines, Iowa, and additional indebtedness is anticipated to be incurred in the future to finance said Urban Renewal Project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the urban renewal project area, as above described in accordance with the provisions of I.C. § 403.19 of the 1993 Code of Iowa, as amended;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA AS FOLLOWS:

Section 1. That the taxes levied on the taxable property in the urban renewal project area known as the Riverpoint Capitol-Center Development Area Urban Renewal Project, consisting of the sub-areas known as Capitol-Center Development Area II - Areas "A," "B," "C," and "D"; Riverpoint - Areas "A," "B," and "C"; Capitol-Center III - Area "A"; and Sixth Avenue Area, each of which is legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2. For purposes of this ordinance, "base period taxes" are that portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in the Riverpoint Capitol-Center Development Area Urban Renewal Project Area upon the total sum of the "base valuations" of each of the sub-areas within the said urban renewal project area. The "base valuations" are the assessed values of the taxable property in each sub-area of said urban renewal project area as shown on the assessment rolls following:

With respect to the Capital-Center Development Area II-Area "A," the assessment roll last equalized prior to the effective date of Ordinance No. 10,404, being the assessment roll for January 1, 1982;

With respect to the Capital-Center Development Area II-Area "B," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 11,971, amending Ordinance No. 10,404, being the assessment roll for January 1, 1992;

With respect to the Riverpoint-Area "A," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 11,419, being the assessment roll for January 1, 1989;

With respect to the Riverpoint-Area "B," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 11,972, amending Ordinance No. 11,419, being the assessment roll for January 1, 1992;

With respect to the Capital-Center Development Area II-Areas "C" and "D" and the Riverpoint-Area "C," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 12,054, being the assessment roll for January 1, 1992.

With respect to the Capitol-Center III - Area "A," the assessment roll as of January 1 of the calendar year preceding the effective date of Ordinance No. 12,070, being the assessment roll for January 1, 1992.

With respect to the Sixth Avenue Area, the assessment roll as of January 1 of the calendar year preceding the effective date of this Ordinance, being the assessment roll for January 1, 1997.

The "base period taxes" for each of the sub-areas within said urban renewal project area shall be computed using the total assessed value of the taxable property within each such sub-area as shown on the assessment rolls applicable to each sub-area as described above. "Base period taxes" shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by and for said taxing district into which all other property taxes are paid.

Section 3. For purposes of this ordinance, "incremental taxes" are that portion of the taxes each year in excess of the "base period taxes" for the combined area, determined as provided in section 2 of this ordinance. "Incremental taxes" shall be allocated to and when collected be paid into a special fund of the City of Des Moines, Iowa, hereafter to be maintained to pay the principal of and interest on loans, monies advanced to, and indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under authority of I.C. §§ 403.9 and 403.12 of the 1993 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Riverpoint Capitol-Center Development Area Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said urban renewal project area shall be collected against all taxable property within the project area without any limitations as hereinabove provided.

Section 4. At such time as the loans, monies advanced and bonds of the City of Des Moines and interest thereon, hereinabove referred to, have been paid, all monies thereafter received from taxes upon the taxable property in the urban renewal project area known as the

Riverpoint Capitol-Center Development Area Urban Renewal Project Area shall be paid into the funds for the respective taxing districts in the same manner as "base period taxes."

Section 5. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1993 Code of Iowa, as amended, with respect to the division of revenue from taxes from property within the combined urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 of the 1993 Code of Iowa, as amended, with reference to said combined urban renewal project and the territory therein.

Section 6. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

Section 2. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

Passed January 19, 1998

Beginning at the intersection of the south right-of-way line of University Avenue and the west right-of-way line of Second Avenue; thence northerly along the west right-of-way line of Second Avenue to the centerline of the Des Moines River; thence southeasterly along the centerline of the Des Moines River to the south right-of-way line of University Avenue; thence westerly along the south right-of-way line of University Avenue to the point of beginning, all now included in and forming a part of the City of Des Moines, Polk County, Iowa.

WHEREAS, expenditures and indebtedness are anticipated to be incurred by the City of Des Moines, Iowa, in the future to finance said Urban Renewal Project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the urban renewal project area, as above described in accordance with the provisions of I.C. § 403.19 of the Code of Iowa, 1985 as amended.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1: That the taxes levied on the taxable property in the urban renewal project area known as the Central Place Industrial Park Redevelopment Program, legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District,

and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2: That portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in said urban renewal area upon the total sum of the assessed value of the taxable property in said urban renewal project as shown on the January 1 assessment roll last equalized prior to the date of the effective date of this ordinance shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid.

Section 3: That portion of the taxes each year in excess of the base period taxes determined as provided in section 2 of this ordinance shall be allocated to and when collected be paid into a special tax increment fund hereby established, to pay the principal of and interest on loans, monies advanced to, indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under the authority of I.C. §§ 403.9 and 403.12 of the 1985 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Central Place Industrial Park Redevelopment Program, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said project area shall be collected against all taxable property within the project area without any limitation as hereinabove provided.

Section 4: All taxes levied and collected upon the taxable property in said Central Place Industrial Park Redevelopment Program shall be paid into the funds of the taxing districts as taxes by or for said taxing districts in the same manner as all other property taxes unless or until the total assessed valuation of the taxable property in said urban renewal project shall exceed the total assessed value of the taxable property in said urban renewal project on the date of adoption of the urban renewal plan, as shown by the last equalized assessment rolls prior to the effective date of this ordinance.

Section 5: At such time as the monies advanced, bonds and interest thereon and indebtedness of the City of Des Moines hereinabove in section 3 referred to have been paid, all monies thereafter received from taxes upon the taxable property in the urban renewal project known as the Central Place Industrial Park Redevelopment Program shall be paid into the funds for the respective taxing districts in the same manner as taxes on all other property.

Section 6: All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1985 Code of Iowa, as amended, with respect to the division of taxes from property within the urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 of the Code of Iowa with reference to said urban renewal project and the territory therein.

Section 7: This ordinance shall be in effect after its final passage, approval and publication as provided by law.

Said area contains 7.14 acres.

WHEREAS, expenditures and indebtedness are anticipated to be incurred by the City of Des Moines, Iowa, in the future to finance said urban renewal project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the urban renewal area, as above described in accordance with the provisions of I.C. § 403.19 of the Code of Iowa, 1995 as amended.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1. That the taxes levied on the taxable property in the urban renewal project area known as the Hiatt Square Urban Renewal Area, legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District, and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2. That portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in said urban renewal area upon the total sum of the assessed value of the taxable property in said urban renewal area as shown on the assessment roll as of January 1 of the calendar year preceding the first calendar year in which the City of Des Moines certifies to the county auditor the amount of loans, advances, indebtedness, or bonds payable from the division of property tax revenue shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid.

Section 3. That portion of the taxes each year in excess of the base period taxes determined as provided in section 2 of this ordinance shall be allocated to and when collected be paid into a special tax increment fund hereby established, to pay the principal of and interest on loans, monies advanced to, indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under the authority of I.C. §§ 403.9 and 403.12 of the 1995 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Hiatt Square Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said urban renewal area shall be collected against all taxable property within the project area without any limitation as hereinabove provided.

Section 4. All taxes levied and collected upon the taxable property in said Hiatt Square Urban Renewal Area shall be paid into the funds of the taxing districts as taxes by or for said taxing districts in the same manner as all other property taxes unless or until the total assessed valuation of the taxable property in said urban renewal area shall exceed the total assessed value of the taxable property in said urban renewal area as of January 1 of the calendar year preceding the first calendar year in which the City of Des Moines certifies to the county auditor the amount of loans, advances, indebtedness, or bonds payable from the division of tax revenue pursuant to this ordinance.

Section 5. At such time as the monies advances, bonds and interest thereon and indebtedness of the City of Des Moines hereinabove in section 3 referred to have been paid, all monies thereafter received from taxes upon the taxable property in the urban renewal area known as the Hiatt Square Urban Renewal Area shall be paid into the funds for the respective taxing districts in the same manner as taxes on all other property.

Section 6. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1995 Code of Iowa, as amended, with respect to the division of taxes from property within the urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 of the Code of Iowa with reference to said urban renewal project and the territory therein.

Section 7. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1. That the taxes levied on the taxable property in the urban renewal project area known as the ACCENT Neighborhood Urban Renewal Area, legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District, and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2. That portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in said urban renewal area upon the total sum of the assessed value of the taxable property in said urban renewal area as shown on the assessment roll as of January 1 of the calendar year preceding the first calendar year in which the City of Des Moines certifies to the county auditor the amount of loans, advances, indebtedness, or bonds payable from the division of property tax revenue shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid.

Section 3. That portion of the taxes each year in excess of the base period taxes determined as provided in section 2 of this ordinance shall be allocated to and when collected be paid into a special tax increment fund hereby established, to pay the principal of and interest on loans, monies advanced to, indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under the authority of I.C. §§ 403.9 and 403.12 of the 1995 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the ACCENT Neighborhood Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said urban renewal area shall be collected against all taxable property within the project area without any limitation as hereinabove provided.

Section 4. All taxes levied and collected upon the taxable property in said ACCENT Neighborhood Urban Renewal Area shall be paid into the funds of the taxing districts as taxes by or for said taxing districts in the same manner as all other property taxes unless or until the total assessed valuation of the taxable property in said urban renewal area shall exceed the total assessed value of the taxable property in said urban renewal area as of January 1 of the calendar year preceding the first calendar year in which the City of Des Moines certifies to the county auditor the amount of loans, advances, indebtedness, or bonds payable from the division of tax revenue pursuant to this ordinance.

Section 5. At such time as the loans, advances, indebtedness, and bonds, if any, and interest thereon of the City of Des Moines hereinabove in section 3 referred to have been paid, all monies thereafter received from taxes upon the taxable property in the urban renewal area known as the

ACCENT Neighborhood Urban Renewal Area shall be paid into the funds for the respective taxing districts in the same manner as taxes on all other property.

Section 6. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1995 Code of Iowa, as amended, with respect to the division of taxes from property within the urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to fully invoke the provisions of I.C. § 403.19 with reference to said urban renewal project and the territory therein.

Section 7. This ordinance shall be in effect after its final passage, approval and publication as provided by law.

ORDINANCE NO. 13,399

AN ORDINANCE PROVIDING THAT GENERAL PROPERTY TAXES LEVIED AND COLLECTED EACH YEAR ON ALL PROPERTY LOCATED WITHIN THE AIRPORT COMMERCE PARK SOUTH URBAN RENEWAL PROJECT AREA IN THE CITY OF DES MOINES, COUNTY OF POLK, STATE OF IOWA, BY AND FOR THE BENEFIT OF THE STATE OF IOWA, CITY OF DES MOINES, COUNTY OF POLK, DES MOINES INDEPENDENT COMMUNITY SCHOOL DISTRICT, AND OTHER TAXING DISTRICTS, BE PAID TO A SPECIAL FUND FOR PAYMENT OF PRINCIPAL AND INTEREST ON LOANS, MONIES ADVANCED TO AND INDEBTEDNESS, INCLUDING BONDS ISSUED OR TO BE ISSUED, INCURRED BY SAID CITY IN CONNECTION WITH SAID URBAN RENEWAL PROJECT.

WHEREAS, the City Council of the City of Des Moines, Iowa, after public notice, consultation and hearing as prescribed by law and pursuant to Resolution and Roll Call No. 96-4028 passed and approved December 2, 1996, adopted an Urban Renewal Plan for an area known as the Original Project Area of the Airport Commerce Park South Urban Renewal Project, which Original Project Area consists of the following lots and parcels:

Airport Commerce Park Plat 1, an Official Plat, all now included in and forming a part of the City of Des Moines, Polk County, Iowa.

AND, the North 760 feet of the Southwest Quarter (SW 1/4) of Section 32, Township 78 North, Range 24 West of the 5th P.M., except the East 30 feet thereof, all now included in and forming a part of the City of Des Moines, Polk County, Iowa.

AND, beginning at the East Quarter (1/4) Corner of Section 31, Township 78 North, Range 24 West of the 5th P.M.; thence North 340.26 feet; thence West 337.95 feet; thence Southwest 325.51 feet; thence Northwest 435 feet; thence Southwesterly 512.54 feet; thence South 887 feet; thence East 1316.5 feet; thence North 546.74 feet to the point of beginning, all now included in and forming a part of the City of Des Moines, Polk County, Iowa.

AND, the entire Fleur Drive right-of-way from the North right-of-way line of Army Post Road extending South to a line 3,400 feet South of the South right-of-way line of Army Post Road.

WHEREAS, the City Council of the City of Des Moines, Iowa, after public notice, consultation and hearing as prescribed by law and pursuant to Resolution passed and approved June 18, 2001, adopted an amendment to the Urban Renewal Plan for the Airport Commerce Park South Urban Renewal Project adjusting the boundaries of the project area to: i) add an area south of the western portion of the Original Project Area; ii) add a small island of land bounded by the Original Project Area and the south right-of-way line of Relocated Army Post Road; iii) delete a portion of the Original Project Area located north of the south right-of-way line of Relocated Army Post Road; and iv) restate and conform the description to the surveyed boundaries of Airport Commerce Park South, an Official Plat, (the area as so amended is herein referred to as the "Amended Project Area"); and,

WHEREAS, the continuing need to develop the Airport Commerce Park South Urban Renewal Project is such as to require application of the incremental tax resources of the Amended Project Area; and,

WHEREAS, indebtedness has been incurred by the City of Des Moines, and additional indebtedness is anticipated to be incurred in the future to finance said Urban Renewal Project; and,

WHEREAS, the City Council of the City of Des Moines, Iowa, desires to provide for the continuation of the division of revenue from taxation in the Amended Project Area of the Airport Commerce Park South Urban Renewal Project, as described herein in accordance with the provisions of Section 403.19 of the 2001 Code of Iowa, as amended; NOW THEREFORE,

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1. That the taxes levied on the taxable property in the Amended Project Area of the Airport Commerce Park South Urban Renewal Project, legally described as follows:

Airport Commerce Park Plat 1, an Official Plat, excluding Lots 4, 5 and Outlot X, all now included in and forming a part of the City of Des Moines, Polk County, Iowa.

AND, Airport Commerce Park South, an Official Plat, all now included in and forming a part of the City of Des Moines, Polk County, Iowa.

AND, the entire Fleur Drive right-of-way from the North right-of-way line of Army Post Road extended South to a line 3,400 feet South of the South right-of-way line of Army Post Road.

by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District, and all other taxing districts from and after the effective date of this Ordinance shall be divided as hereinafter in this Ordinance provided.

Section 2. For purposes of this Ordinance, "Base Period Taxes" are that portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in the Amended Project Area upon the total sum of the "Base Valuations" of the sub-areas within the Amended Project Area. The "Base Valuations" are the assessed values of the taxable property in each sub-area of the Amended Project Area as shown on the assessment rolls following:

With respect to the portion of the Amended Project Area contained within the Original Project Area, the assessment roll as of January 1 of the calendar year preceding the first calendar year in which the City of Des Moines certified to the county auditor the amount of loans, advances, indebtedness, or bonds payable from the division of tax revenue pursuant to Ordinance No. 13,399, being the assessment roll for January 1, 1995;

With respect to the portion of the Amended Project Area outside the Original Project Area, the assessment roll as of January 1 of the calendar year preceding the first calendar year in which the City of Des Moines certified to the county auditor the amount of loans, advances, indebtedness, or bonds payable from the division of tax revenue pursuant to Ordinance No. 13,399, as amended by this Ordinance;

The "Base Period Taxes" for each of the sub-areas within the Amended Project Area of the Airport Commerce Park South Urban Renewal Project shall be computed using the total assessed value of the taxable property within each such sub-area as shown on the assessment rolls applicable to each sub-area as described above. "Base Period Taxes" shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by and for said taxing district into which all other property taxes are paid.

Section 3. For purposes of this Ordinance, "Incremental Taxes" are that portion of the taxes each year in excess of the "Base Period Taxes" for the Amended Project Area of the Airport Commerce Park South Urban Renewal Project, determined as provided in Section 2 of this Ordinance. "Incremental Taxes" shall be allocated to and when collected be paid into a special fund of the City of Des Moines, Iowa, hereafter to be maintained to pay the principal of and interest on loans, monies advanced to, and indebtedness,

whether funded, refunded, assumed or otherwise, including bonds issued under authority of Sections 403.9 and 403.12 of the 2001 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance, in whole or in part, urban renewal project activities undertaken within the Amended Project Area of the Airport Commerce Park South Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes in the Amended Project Area shall be collected against all taxable property within the said Amended Project Area without any limitations as hereinabove provided.

Section 4. At such time as the loans, monies advanced and bonds of the City of Des Moines and interest thereon, hereinabove referred to, have been paid, all monies thereafter received from taxes upon the taxable property in the Amended Project Area of the Airport Commerce Park South Urban Renewal Project shall be paid into the funds for the respective taxing districts in the same manner as "Base Period Taxes".

Section 5. All ordinances or parts of ordinances in conflict with the provisions of this Ordinance are hereby repealed. The provisions of this Ordinance are intended and shall be construed so as to continue the division of taxes from property within each of the sub-areas of the Amended Project Area of the Airport Commerce Park South Urban Renewal Project as described above and to fully implement the provisions of Section 403.19 of the 2001 Code of Iowa, as amended, with respect thereto. In the event that any provision of this Ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this Ordinance which shall at all times be construed to fully invoke the provisions of Section 403.19 of the 2001 Code of Iowa, as amended, with reference to the Amended Project Area and the territory contained therein.

Section 6. This Ordinance shall be in effect after its final passage, approval and publication as provided by law.

ORDINANCE NO. 13,400

AN ORDINANCE PROVIDING THAT GENERAL PROPERTY TAXES LEVIED AND COLLECTED EACH YEAR ON ALL PROPERTY LOCATED WITHIN THE AIRPORT BUSINESS PARK URBAN RENEWAL PROJECT AREA IN THE CITY OF DES MOINES, COUNTY OF POLK, STATE OF IOWA, BY AND FOR THE BENEFIT OF THE STATE OF IOWA, CITY OF DES MOINES, COUNTY OF POLK, DES MOINES INDEPENDENT COMMUNITY SCHOOL DISTRICT, AND OTHER TAXING DISTRICTS, BE PAID TO A SPECIAL FUND FOR PAYMENT OF PRINCIPAL AND INTEREST ON LOANS, MONIES ADVANCED TO AND INDEBTEDNESS, INCLUDING BONDS ISSUED OR TO BE ISSUED, INCURRED BY SAID CITY IN CONNECTION WITH SAID URBAN RENEWAL PROJECT.

WHEREAS, the city council of the City of Des Moines, Iowa, after public notice and hearing as prescribed by law and pursuant to resolution passed and approved December 2, 1996, adopted an urban renewal plan for an area known as the Airport Business Park Urban Renewal Project Area, which project area includes the following lots and parcels:

The east ½ of the southwest ¼ of Section 31, Township 78 North, Range 24 West of the 5th P.M., all now included in and forming a part of the City of Des Moines, Polk County, Iowa.

The west ½ of the southwest ¼ of Section 31, Township 78 North, Range 24 West of the 5th P.M., all now included in and forming a part of the City of Des Moines, Polk County, Iowa.

WHEREAS, expenditures and indebtedness are anticipated to be incurred by the City of Des Moines, Iowa, in the future to finance said urban renewal project; and

WHEREAS, the city council of the City of Des Moines, Iowa, desires to provide for the division of revenue from taxation in the urban renewal area, as above described in accordance with the provisions of I.C. § 403.19 of the Code of Iowa, 1995, as amended.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF DES MOINES, IOWA:

Section 1. That the taxes levied on the taxable property in the urban renewal project area known as the Airport Business Park Urban Renewal Project Area, legally described in the preamble hereof, by and for the benefit of the State of Iowa, City of Des Moines, Iowa, County of Polk, Des Moines Independent Community School District, and all other taxing districts from and after the effective date of this ordinance shall be divided as hereinafter in this ordinance provided.

Section 2. That portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts taxing property in said urban renewal area upon the total sum of the assessed value of the taxable property in said urban renewal area as shown on the assessment roll as of January 1 of the calendar year preceding the first calendar year in which the City of Des Moines certifies to the county auditor the amount of loans, advances, indebtedness, or bonds payable from the division of property tax revenue shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid.

Section 3. That portion of the taxes each year in excess of the base period taxes determined as provided in section 2 of this ordinance shall be allocated to and when collected be paid into a special tax increment fund hereby established, to pay the principal of and interest on loans, monies advanced to, indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under the authority of I.C. §§ 403.9 and 403.12 of the 1995 Code of Iowa, as amended, incurred by the City of Des Moines, Iowa, to finance or refinance in whole or in part the Airport Business Park Urban Renewal Project, except that taxes for the payment of bonds and interest of each taxing district levying taxes on said urban renewal project area shall be collected against all taxable property within the project area without any limitation as hereinabove provided.

Section 4. All taxes levied and collected upon the taxable property in said Airport Business Park Urban Renewal Project Area shall be paid into the funds of the taxing districts as taxes by or for said taxing districts in the same manner as all other property taxes unless or until the total assessed valuation of the taxable property in said urban renewal project area shall exceed the total assessed value of the taxable property in said project area as of January 1 of the calendar year preceding the first calendar year in which the City of Des Moines certifies to the county auditor the amount of loans, advances, indebtedness, or bonds payable from the division of tax revenue pursuant to this ordinance.

Section 5. At such time as the monies advances, bonds and interest thereon and indebtedness of the City of Des Moines hereinabove in section 3 referred to have been paid, all monies thereafter received from taxes upon the taxable property in the urban renewal project area known as the Airport Business Park Urban Renewal Project Area shall be paid into the funds for the respective taxing districts in the same manner as taxes on all other property.

Section 6. The provisions of this ordinance are intended and shall be construed so as to fully implement the provisions of I.C. § 403.19 of the 1995 Code of Iowa, as amended, with respect to the division of taxes from property within the urban renewal project area as described above. In the event that any provision of this ordinance shall be determined to be contrary to law it shall not affect other provisions or application of this ordinance which shall at all times be construed to

fully invoke the provisions of I.C. § 403.19 with reference to said urban renewal project and the territory therein.

Section 7. This ordinance shall be in effect after its final passage, approval and publication as provided by law.
