Secs. 15-87—15-90. Reserved.

ARTICLE III. SALES, USE, RENTAL, AND LODGING TAXES*

DIVISION 1. GENERALLY

Sec. 15-91. Definitions.

The following words, terms, and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning. Except as may be otherwise provided in this section or where the context clearly indicates a different meaning or where inapplicable, all words, terms, and phrases used in this article that are defined in the corresponding state tax laws shall have the meanings ascribed to them therein.

City taxes means the sales, use, rental, and lodging taxes levied or assessed by the city against a city taxpayer under this article, and, where appropriate, shall be substituted for the corresponding terms in the corresponding state tax laws.

City taxpayer means any person liable to the city for taxes levied or assessed under this article and, where appropriate, the term shall be substituted for the term taxpayer as such term appears in the corresponding state tax laws.

Local Tax Simplification Act or *LTSA* means the Local Tax Simplification Act of 1998, 1998 Alabama Laws Act 98-192, as such may be superseded or amended from time to time.

Lodging tax means the taxes levied by the state under Code of Ala. 1975, tit. 40, ch. 26, and the corresponding tax levied by the city under division 5 of this article.

Rental tax means the taxes levied by the state under Code of Ala. 1975, tit. 40, ch. 12, art. 4, and the corresponding tax levied by the city under division 4 of this article.

Sales tax means the taxes levied by the state under Code of Ala. 1975, tit. 40, ch. 23, art. 1, and the corresponding tax levied by the city under division 2 of this article.

State taxes means the state's sales, use, rental, and lodging taxes.

Use tax means the taxes levied by the state under Code of Ala. 1975, tit. 40, ch. 23, art. 2, and the corresponding tax levied by the city under division 3 of this article.
(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 25-388, § 7, 5-22-2025)

*__Editor's note—__Section 3 of Ord. No. 12-365, adopted May 24, 2012, amended art. III in its entirety to read as herein set out. Former art. III, §§ 15-91—15-107, pertained to hotel and lodging privilege license. See the Code Comparative Table for a complete derivation.

Sec. 15-92. Conformance with state tax laws.

(a) *Provisions of corresponding state tax laws applicable to article and city taxes.* The city sales, use, rental, and lodgings taxes levied or assessed under this article are subject to all definitions, exceptions, exemptions, proceedings, requirements, provisions, rules and regulations promulgated under the Alabama Administrative Procedures Act, direct pay permit and drive-out certificate procedures, statutes of limitations, penalties, fines, punishments, and deductions for the corresponding state sales, use, rental, or lodgings tax, except for those provisions relating to the tax rate, and except where inapplicable or where otherwise provided in this chapter and in the Code of Ala. 1975, tits. 11 and 40, including provisions for enforcement and collection of the taxes. All provisions of the corresponding state tax laws, including those for collection and enforcement, that are made applicable in this subsection (a) to the city taxes levied or assessed in this article are incorporated herein by reference and made a part hereof as if fully set forth herein.

(b) In accordance with subsection (a), the Alabama Taxpayers' Bill of Rights and Uniform Revenue Procedures Act (Code of Ala. 1975, tit. 40, ch. 2A), which is incorporated herein by reference as if fully set forth, shall apply to the taxes administered in this article, except where inapplicable or where otherwise provided.
(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 21-703, § 1, 8-26-2021; Ord. No. 25-388, § 8, 5-22-2025)

Sec. 15-93. License required; general provisions not affected.

(a) The city taxes levied under this article shall be additional to and cumulative of all amounts required to be paid under this chapter, except as otherwise specifically provided for in this chapter, and nothing herein shall be construed to repeal any provisions of the general privilege or business license code of the city and the requirement for licensing thereunder.

(b) No provision of this article shall be construed as relieving any person from the payment of any tax imposed by law.
(Ord. No. 12-365, § 3, 5-24-2012)

Sec. 15-94. Penalties, etc.

(a) *Civil penalties.* In addition to other penalties provided by law, civil penalties and liabilities levied against a person, including a taxpayer, applicable to the state's sales, use, rental or lodging tax, including those provided for pursuant to the Alabama Taxpayers' Bill of Rights and Uniform Procedures Act, are hereby made applicable under this article for the city's sales, use, rental, or lodging tax, and are incorporated herein by reference as if fully set forth.

(b) *State misdemeanors and violations of corresponding state tax laws.*

(1) Except for an offense that is declared by state law to be a felony, any person committing an offense within the corporate limits of the city that is declared by a corresponding state tax law to be a misdemeanor or a violation, or that results in the imposition of a fine, shall be guilty of an offense against the city.

(2) A person convicted of a violation of subsection (1) above shall be punishable as prescribed in the corresponding state tax law; provided, however, where the penalty or fine under the corresponding state tax law exceeds the penalty provisions of section 1-7 of this Code, in such case section 1-7 shall apply and violations that are continuous in nature with respect to time shall constitute a separate offense for each day or month, as appropriate, that the violation continues.

(c) *Willful failure to collect or pay over tax.* It shall be unlawful for any person that is required under this article to collect, account for, and pay over any tax imposed by this article to willfully fail to collect or truthfully account for and pay over such tax and upon conviction thereof, shall, in addition to other penalties provided by law, be punished by a fine not exceeding $500.00 or by imprisonment in the city jail for a period not exceeding six months, together with costs of court, or by any combination. Each month of such failure shall constitute a separate offense. The penalty imposed upon a corporation shall consist of the fine only, plus costs of court.

(d) *Violation of article.* Where not otherwise provided for under this article, including corresponding state tax laws incorporated herein by reference, any person violating any of the provisions of this article, on conviction, shall be punished by a fine not exceeding $500.00 or by imprisonment in the city jail for a period not exceeding six months, together with costs of court, or by any combination. With respect to violations of this section that are continuous with respect to time, each day or month, as appropriate, that the violation continues is a separate offense. The penalty imposed upon a corporation shall consist of the fine only, plus costs of court.

(e) *Violator may be restrained from continuing in business.* Any city taxpayer who shall violate any of the provisions of this article, including corresponding state tax laws incorporated herein by reference, may be restrained from continuing in business, and the proper prosecution shall be instituted in the name of the city by the city attorney, until such person shall have complied with the provisions of this article.

(f) *Reports under oath.* Wherever in the corresponding state tax laws a report is required to be sworn to, the same, as it relates to city taxes, shall be sworn to by the city taxpayer or his agent before some officer authorized to administer oaths, and any false statement to a material fact made with intent to defraud shall constitute perjury, and upon conviction thereof, the person so convicted shall be punished as provided by law.

(g) *Lien for taxes.* The city shall have a lien for the city taxes as such lien may be provided for or authorized by state law, rule, or regulations.

(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 21-703, § 2, 8-26-2021; Ord. No. 25-388, § 9, 5-22-2025)

Sec. 15-95. Filing of electronic returns.

(a) *Purpose.* The purpose of this section is to authorize the city finance director to accept tax returns filed in electronic commerce without violating other ordinances originally drafted for the use of paper returns submitted either personally or through the mail; to require the filing of certain returns electronically; and, to require the payment of certain returns electronically.

(b) *Electronic filing acceptance.*

(1) The city finance director shall have the authority to accept electronically filed returns or other documents of any type which meet the requirements of applicable state laws and city laws, rules, or regulations adopted under the authority state laws including this article. Electronically filed returns may be accepted if submitted directly by the taxpayer, or by any entity authorized by the city or the Alabama department of revenue.

(2) The city finance director is authorized to accept electronically filed returns and payments for the city taxes levied under this article III.

(3) Electronically filed returns may be accepted if submitted by the taxpayer to any entity authorized by the city to accept such submissions.

(c) *Electronic filing required.* After receiving notice from the city finance director, a taxpayer registered to file a sales tax, use tax, rental tax, or lodgings tax return electronically with the State of Alabama shall file all city sales tax, use tax, rental tax, and lodgings tax returns electronically with the city.

(d) *Electronic payment required.* After receiving notice from the city finance director, a taxpayer that is required to file a return electronically and that is required to make a payment of $750.00 or more with such return shall make the payment electronically to the city. After the $750.00 threshold is met for the first payment, all subsequent payments required with electronically filed returns must be made electronically regardless of the amount.

(e) *Electronic filing return and signature requirements.*

(1) *Electronic filing return.* The tax return consists of the electronic transmission

and electronic data, and any and all supporting documentation as required by regulation.

(2) *Electronic filing signature requirements.* Electronic filing signature requirements shall be as prescribed by applicable state laws.

(f) *Due date for filing electronic returns.* The due date for filing electronic returns for the city taxes levied under this article III shall be the same due date applicable to the electronic payment of the taxes reported on the return. The date and time the taxpayer files the tax return through the Alabama Department of Revenue's electronic filing system shall be the date and time used to determine timely filing of an electronic return.
(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 25-388, § 10, 5-22-2025)

Secs. 15-96—15-107. Reserved.

DIVISION 2. SALES TAXES

Sec. 15-108. Sales tax authorized.

There is hereby levied, in addition to all other taxes of every kind now imposed by law, and shall be collected as herein provided, a privilege or license tax against the person on account of the business activities and in the amount to be determined by the application of rates against gross sales, or gross receipts, as the case may be, as follows:

(1) Upon every person, firm, or corporation, (including the State of Alabama, the University of Alabama, Auburn University and all other institutions of higher learning in the state, whether such institutions be denominational, state, county, or municipal institutions, and any association or other agency or instrumentality of such institutions) engaged or continuing within the city, in the business of selling at retail any tangible personal property whatsoever, including merchandise and commodities of every kind and character, (not including, however, bonds or other evidences of debts or stocks, nor sales of material and supplies to any person for use in fulfilling a contract for the painting, repair, or reconditioning of vessels, barges, ships, and other watercraft and commercial fishing vessels of over five tons load displacement as registered with the U.S. Coast Guard and licensed by the State of Alabama Department of Conservation and Natural Resources), an amount equal to four and one-half percent of the gross proceeds of sales of the business except where a different amount is expressly provided herein. Provided, however, that any person engaging or continuing in business as a retailer and wholesaler or jobber shall pay the tax required on the gross proceeds of retail sales of such business at the rates specified, when his books are kept so as to show separately the gross proceeds of sales of each business, and when his books are not so kept he shall pay the tax as a retailer, on the gross sales of the business.

Where any used part including tires of an automotive vehicle or a truck trailer, semitrailer, or house trailer is taken in trade, or in a series of trades, as a credit or part payment on the sale of a new or rebuilt part or tire, the tax levied herein shall be paid on the net difference, that is, the price of the new or used part or tire sold less the credit for the used part or tire taken in trade, provided however, this provision shall not be construed to include batteries.

(2) Upon every person, firm or corporation engaged or continuing within the city in the business of conducting or operating places of amusement or entertainment, billiard and pool rooms, bowling alleys, amusement devices, musical devices, theaters, opera houses, moving picture shows, vaudevilles, amusement parks, athletic contests, including wrestling matches, prize fights, boxing and wrestling exhibitions, football and baseball games, (including athletic contests, conducted by or under the auspices of any

educational institution within the city, or any athletic association thereof, or other association whether such institution or association be a denominational, a state, or county, or a municipal institution, or association or a state, county, or city school, or other institution, association or school), skating rinks, race tracks, golf courses, or any other place at which any exhibition, display, amusement or entertainment is offered to the public or place or places where an admission fee is charged, including public bathing places, public dance halls of every kind and description within the city, an amount equal to four and one-half percent of the gross receipts of any such business. Provided, however, notwithstanding any language to the contrary in the prior portion of this subsection, the tax provisions so specified shall not apply to any athletic event conducted by a public or nonpublic primary or secondary school or any athletic event conducted by or under the auspices of the Alabama High School Athletic Association. The tax amount which would have been collected pursuant to this subsection shall continue to be collected by said public or nonpublic primary or secondary school but shall be retained by the school which collected it and shall be used by said school for school purposes. This subsection does not apply to ticket sales from co-promotion agreements entered into by the Von Braun Center for events to be held at the Von Braun Center.

(3) Upon every person, firm or corporation engaged or continuing within the city in the business of selling at retail machines used in mining, quarrying, compounding, processing, and manufacturing of tangible personal property, an amount equal to zero percent of the gross proceeds of the sale of machines. The term "machine," as herein used, shall include machinery which is used for mining, quarrying, compounding, processing, or manufacturing tangible personal property, and the parts of such machines, attachments and replacements therefor, which are made or manufactured for use on or in the operation of the machines and which are necessary to the operation of the machines and are customarily so used.

(4) Upon every person, firm, or corporation engaged or continuing within the city in the business of selling at retail any automotive vehicle or truck trailer, semitrailer, house trailer, or mobile home set-up materials and supplies including but not limited to steps, blocks, anchoring, cable pipes, and any other materials pertaining thereto an amount equal to one and three-fourths percent of the gross proceeds of sale of said automotive vehicle or truck trailer, semitrailer, house trailer, or mobile home set-up materials and supplies provided, however, where a person subject to the tax provided for in this subsection withdraws from his stock in trade any automotive vehicle or truck trailer, semitrailer, or house trailer for use by him or by his employee or agent in the operation of such business, there shall be paid, in lieu of the tax levied herein, a fee of $5.00 per year or part thereof during which such automotive vehicle, truck trailer, semitrailer or house trailer shall remain the property of the person. Each such year or part thereof shall begin with the day or anniversary date, as the case may be, of such withdrawal and shall run for the 12 succeeding months or part thereof during which the automotive vehicle, truck trailer, semitrailer, or house trailer shall remain the property of the person.

Where any used automotive vehicle or truck trailer, semitrailer, or house trailer is taken in trade or in a series of trades, as a credit or part payment on the sale of a new or used vehicle, the tax levied herein shall be paid on the net difference, that is, the price of the new or used vehicle sold less the credit for the used vehicle taken in trade.

(5) Upon every person, firm or corporation engaged or continuing within the city in

the business of selling at retail any machine, machinery or equipment which is used in planting, cultivating and harvesting farm products, or used in connection with the production of agricultural produce or products, livestock or poultry on farms, and the parts of such machines, machinery or equipment, attachments and replacements therefor which are made or manufactured for use on or in the operation of such machine, machinery or equipment, and which are necessary to and customarily used in the operation of such machine, machinery or equipment, an amount equal to zero percent of the gross proceeds of the sale thereof. Provided, however, the zero percent rate herein prescribed with respect to parts, attachments, and replacements shall not apply to any automotive vehicle or trailer designed primarily for public highway use, except farm trailers used primarily in the production and harvesting of agricultural commodities.

Where any used machine, machinery or equipment which is used in planting, cultivating, and harvesting farm products, or used in connection with the production of agricultural produce or products, livestock and poultry on farms is taken in trade or in a series of trades as a credit or part payment on a sale of a new or used machine, machinery or equipment, the tax levied herein shall be paid on the net difference, that is, the price of the new or used machine, machinery or equipment sold, less the credit for the used machine, machinery or equipment taken in trade.

(6) Upon every person, firm, or corporation engaged or continuing within the city in the business of selling through coin-operated dispensing machines, food and food products for human consumption, not including beverages other than coffee, milk, milk products and substitutes therefor, there is levied a tax equal to four and one-half percent of the cost of the food, food products, and beverages sold through the machines, which cost for the purpose of this subsection shall be the gross proceeds of sales of the business.

(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 13-968A, §§ 1—3, 12-19-2013)

Sec. 15-109. Disposition of sales and use taxes.

The council directs that sales and use tax revenue of the city, as determined pursuant to generally accepted accounting principles be disposed of as follows:

(1) For sales and use tax revenue earned based on tax rates in effect prior to March 1, 2014:

a. The revenue will be reported in the general fund of the city.

b. For fiscal years 2011 and 2012, 23.1 percent of the revenue, and for fiscal year 2013 and each year thereafter, 18.0 percent of the revenue will be appropriated from the general fund to the capital improvement fund of the city each fiscal year, and shall be expended in the capital improvement fund consistent with the city's ten-year capital improvement plan.

c. For fiscal years 2011 and each year thereafter, designates that 14.7 percent of sales and use tax revenue be appropriated from the general fund to the city board of education each fiscal year, and further directs that such appropriation be paid directly to the city board of education on a monthly basis.

(2) For the additional one percent sales and use tax rate effective March 1, 2014:

a. The revenue will be reported in the 2014 capital improvement fund of the city.

b. Revenue shall first be used to establish and maintain a reasonable contingency and debt service reserve, as prescribed in the city's budget.

c. Should the city issue debt obligations to finance any costs described herein, remaining revenue shall be appropriated to pay the principal, interest and other debt-related costs on such obligations.

d. For fiscal year 2014 and thereafter, the lesser of $25,000,000.00 per year or remaining revenue, but not to exceed $125,000,000.00 in total, shall be appropriated to fulfill the city's commitment for the cost of infrastructure projects identified in the State of Alabama/City of Huntsville 5-Year Joint Projects Funding Agreement released December 2, 2013.

e. Remaining revenue shall first be appropriated for the construction of public roads, including but not limited to, right-of-way acquisition, engineering, testing, construction costs of the roads and all infrastructure related thereto, and shall be at least $25,000,000.00 per year, inclusive of any amounts appropriated pursuant to subsection (2)d above.

f. Any remaining revenue, over and above the amounts appropriated pursuant to subsections (2)d and e above, shall be expended for the cost of new, long-lived city capital assets, or long-lived improvements to city capital assets, consistent with the city's ten-year 2015 capital improvement plan, or economic development incentives.

g. The unexpended appropriations of any fiscal year described herein shall be re-appropriated in the subsequent fiscal year until fully expended.

(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 13-959A, § 1, 12-19-2013)

Sec. 15-110. Provisions of corresponding state sales tax applicable to city sales tax.

All provisions of the corresponding state sales tax law, including those for collection and enforcement, that are made applicable in section 15-92 to the city sales taxes levied or assessed in this division are incorporated herein by reference and made a part hereof as if fully set forth herein. Without limiting the generality of the foregoing, the following are violations of this division:

(1) *Penalty for failure to make reports or keep records.* Any person subject to the provisions of this division who shall fail to make the reports or any of them, as required, or who shall fail to keep the records as required, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than $25.00 nor more than $500.00 for each offense. Each month of such failure shall constitute a separate offense. (See Code of Ala. 1975, § 40-23-11)

(2) *Penalty for willful refusal to make reports or permit examination of records.* Any person subject to the provisions of this division willfully refusing to make the reports required, or who shall refuse to permit the examination of his records by the finance department, or its duly authorized agents, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than $50.00 nor more than $500.00 for each offense, and in addition may be imprisoned in the city jail for a period not to exceed six months. Each month of failure to make such reports shall constitute a separate offense, and each refusal of a written demand of the department to examine, inspect or audit such records shall constitute a separate offense. (See Code of Ala. 1975, § 40-23-12)

(3) *Tax to be added to purchase price; refund unlawful; tax a direct tax on retail consumer.*

a. Every person, firm, corporation, association or copartnership engaged in or continuing within this city in the business for which a license or privilege tax is required by this division shall add to the sales price

and collect from the purchaser on all sales upon the gross receipts or gross proceeds of which there is levied by this division a sales tax at the rate set forth in section 15-108 of this division.

b. It shall be unlawful for any person, firm, corporation, association or copartnership described in this section to fail or refuse to add to the sales price and collect from the purchaser the amount required by this section to be so added to the sales price and collected from the purchaser; and it shall likewise be unlawful to refund or offer to refund all or any part of the amount collected, or to absorb or advertise directly or indirectly the absorption or refund of the amount required to be added to the sales price and collected from the purchaser, or any portion of such amount. Any person, firm, corporation, association or copartnership violating any of the provisions of this section shall be guilty of a misdemeanor, and upon conviction shall be fined in a sum of not less than $50.00 nor more than $100.00, or may be imprisoned in the city jail for not more than six months, or may be punished by both such fine and imprisonment, and each act in violation of the provisions of this division shall constitute a separate offense. The provisions of this section that there shall be added to the sale price and collected from the purchaser the amounts provided herein shall in no way relieve the person, firm, corporation, association or copartnership described in this section of the tax levied by this division; nor shall the inability, impracticability, refusal or failure to add to the sales price and collect from the purchaser the amounts provided herein relieve such person, firm, corporation, association or copartnership from the tax levied by this division.

c. All taxes paid in pursuance to this division or any other statute enacted in this connection shall conclusively be presumed to be a direct tax on the retail consumer, precollected for the purpose of convenience and facility only.

d. In the event that any sum is collected from a consumer that purports to be collected because of this section, whether or not the amount is actually provided for hereunder, then any such sum, except such as is collected solely because of rounding the correct amount of tax upward to the nearest cent, shall be paid to the city for the purposes provided in section 15-106 of this division. (See Code of Ala. 1975, § 40-23-26)

(Ord. No. 25-388, § 11, 5-22-2025)

Secs. 15-111—15-115. Reserved.

DIVISION 3. USE TAX

Sec. 15-116. Property taxed; persons liable.

(a) An excise tax is hereby imposed on the storage, use or other consumption in the city of tangible personal property, not including, however, materials and supplies bought for use in fulfilling a contract for the painting, repairing, or reconditioning of vessels, barges, ships, and other watercraft and commercial fishing vessels of over five tons load displacement as registered with the U.S. Coast Guard and licensed by the State of Alabama Department of Conservation and Natural Resources, purchased at retail on or after the effective date of this ordinance for storage, use or other consumption in the city, except as provided in subsections (b), (c) and (f), at the rate of four and one-half percent of the sales price of such property within the corporate limits of the city.

(b) An excise tax is hereby imposed on the storage, use or other consumption in the city of any machines used in mining, quarrying, compounding, processing, and manufacturing of tangible personal property purchased at retail on or after the effective date of this ordinance at the rate of zero percent of the sales price of any such machine; provided, that the term "machine" as herein used, shall include machinery which is used for mining, quarrying, compounding, processing, or manufacturing tangible personal property, and the parts of such machines, attachments and replacements therefor, which are made or manufactured for use on or in the operation of such machines and which are necessary to the operation of such machines and are customarily so used.

(c) An excise tax is hereby imposed on the storage, use or other consumption in the city on any automotive vehicle or truck trailer, semitrailer, house trailer, and mobile home set-up materials and supplies including but not limited to steps, blocks, anchoring, cable pipes and any other materials pertaining thereto purchased at retail on or after the effective date of this ordinance for storage, use or other consumption in the city at the rate of one and three-fourths percent of the sales price of such automotive vehicle, truck trailer, semitrailer or house trailer, and mobile home set-up materials and supplies within the corporate limits of the city. Where any used automotive vehicle or truck trailer, semitrailer or house trailer is taken in trade, or in a series of trades, as a credit or part payment on the sale of a new or used vehicle, the tax levied herein shall be paid on the net difference, that is, the price of the new or used vehicle sold less the credit for the used vehicle taken in trade.

(d) Every person storing, using or otherwise consuming in the city tangible personal property purchased at retail shall be liable for the tax imposed by this article, and the liability shall not be extinguished until the tax has been paid to the city; provided, that a receipt from a retailer maintaining a place of business in the city or a retailer authorized by the city, under such rules and regulations as it may prescribe, to collect the tax imposed hereby and who shall for the purpose of this article be regarded as a retailer maintaining a place of business in the city, given to the purchaser in accordance with the provisions of Code of Ala. 1975 § 40-23-67, shall be sufficient to relieve the purchaser from further liability for tax to which such receipt may refer.

(e) An excise tax is hereby imposed on the classes of tangible personal property, and at the rates imposed on such classes, specified in subsections (a), (b) and (c) of this section, on the storage, use, or other consumption in the performance of a contract in the city of any such tangible personal property, new or used, the tax to be measured by the sales price or the fair and reasonable market value of such tangible personal property when put into use in the city, whichever is less; provided, that the tax imposed by this subsection shall not apply where the taxes imposed by subsection (a), (b) or (c) of this section apply.

(f) An excise tax is hereby levied and imposed on the storage, use or other consumption in the city of any machine, machinery or equipment which is used in planting, cultivating and harvesting farm products, or used in connection with the production of agricultural produce or products, livestock or poultry on farms, and the parts of such machines, machinery or equipment, attachments and replacements therefor which are made or manufactured for use on or in the operation of such machine, machinery or equipment, and which are necessary to and customarily used in the operation of such machine, machinery or equipment, which is purchased at retail after the effective date of this ordinance, for the storage, use or other consumption in the city at the rate of zero percent of the sales price of such property within the corporate limits of said City of Huntsville, Alabama, regardless of whether the retailer is or is not engaged in the business in the city. Provided, however, the zero percent rate herein prescribed with respect to parts, attachments, and replacements shall not apply to any automotive vehicle or trailer designed primarily for public highway use, except farm trailers used primarily in the production and harvesting of agricultural commodities.

(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 13-969A, § 1, 12-19-2013)

Sec. 15-117. Disposition of funds derived from tax.

Proceeds derived from the use taxes described in this article shall be disposed of in accordance with the requirements of section 15-109.
(Ord. No. 12-365, § 3, 5-24-2012)

Sec. 15-118. Provisions of corresponding state use tax applicable to city use tax.

All provisions of the corresponding state use tax law, including those for collection and enforcement, that are made applicable in section 15-92 of this chapter to the city use taxes levied or assessed in this division are incorporated herein by reference and made a part hereof as if fully set forth herein. Without limiting the generality of the foregoing, the following are violations of this division:

(1) *Seller to collect tax; seller not to assume or absorb tax.* Every such seller, as "such seller" is specified in Code of Ala. 1975, § 40-23-66, making sales of tangible personal property for storage, use or other consumption in this city, not exempted under the provisions of Code of Ala. 1975, § 40-23-62, shall at the time of making such sales or, if the storage, use or other consumption of the tangible personal property is not then taxable hereunder, at the time such storage, use or other consumption becomes taxable hereunder, collect the tax imposed by this division from the purchaser, and give to the purchaser a receipt therefor in the manner and form prescribed by the finance department. The tax required to be collected by the seller from the purchaser shall be displayed separately from the list, advertised in the premises, marked or other price on the sales check or other proof of sales. It shall be unlawful for any such seller to advertise or hold out or state to the public or to any customer, directly or indirectly, that the tax or any part thereof imposed by this division will be assumed or absorbed by the seller or that it will not be added to the selling price of the property sold, or if added that it or any part thereof will be refunded. Any person violating any of the provisions of this section shall be guilty of a misdemeanor. The tax herein required to be collected by the seller shall constitute a debt owed by the seller to this city. (See Code of Ala. 1975, § 40-23-67)

(2) *Failure to file a return; false return.* Any seller or other person failing or refusing to furnish any return required to be made, or failing or refusing to furnish a supplemental return or other data required by the finance department, or rendering a false or fraudulent return, shall be guilty of a misdemeanor and subject to a fine of not exceeding $500.00 for each such offense. (See Code of Ala. 1975, § 40-23-88)

(3) *False or fraudulent return.* Any person required to make, render, sign or verify any report as aforesaid who makes any false or fraudulent return, with intent to defeat or evade the determination of an amount due required by law to be made shall be guilty of a misdemeanor, and shall for each such offense be fined not less than $50.00 and not more than $500.00, or be imprisoned in the city jail not exceeding six months or be subject to both said fine and imprisonment in the discretion of the court. (See Code of Ala. 1975, § 40-23-88)

(Ord. No. 25-388, § 12, 5-22-2025)

Secs. 15-119—15-123. Reserved.

DIVISION 4. RENTAL TAX

Sec. 15-124. License required.

If any person shall engage in or continue in any business for which a privilege tax is imposed by section 15-125 as a condition precedent to engaging or continuing in such business, he shall apply for and obtain from the city finance department a license to engage in and to conduct such business for the current tax year upon the condition that he shall pay the license fees

accruing to the city under the provisions of this article; however, no license shall be issued under the provisions of this article to any person who has not complied with the provisions of this article, and no provision of this article shall be construed as relieving any person from the payment of any license or privilege fee imposed by law.
(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 25-388, § 13, 5-22-2025)

Sec. 15-125. Levy and amount of fee.

(a) In addition to all other taxes imposed by law, there is levied and shall be collected as provided in this article a privilege or license tax on each person engaging or continuing within the city in the business of leasing or renting tangible personal property at the rate of three percent of the gross proceeds derived by the lessor from the lease or rental of tangible personal property; provided, that the said privilege or license tax on each person engaging or continuing within this city in the business of leasing or renting any automotive vehicle or truck trailer, semitrailer or house trailer shall be at the rate of one and one-half percent of the gross proceeds derived by the lessor from the lease or rental of such automotive vehicle or truck trailer, semitrailer or house trailer; provided further, that the fee levied in this section shall not apply to any leasing or rental, as lessor, by the state or any municipality or county in the state, or any public corporation organized under the laws of the state, including without limiting the generality of the foregoing, any corporation organized under the provisions of Code of Ala. 1975, §§ 11-54-80 through 11-54-101; provided further, that the privilege or license tax on each person or firm engaging or continuing within the city in the business of the leasing and rental of linens and garments shall be at the rate of three percent of the gross proceeds by the lessor from the lease or rental of such linens and garments.

(b) Notwithstanding the above, nothing shall prohibit a lessor subject to a state or local privilege or license tax from passing such amounts on to a lessee by adding such taxes to the leasing price or otherwise, provided, however, that all such amounts passed on to the lessee shall be includable in the gross proceeds derived from the lease of tangible personal property which shall be subject to the privilege or license tax owed by the lessor.

Provided, however, the authority to pass on such amounts of the privilege or license tax granted in this subsection shall not apply to the leasing or renting of tangible personal property to the State of Alabama, a municipality, or county in the state, unless the flat amount collected by the lessor includes both the tax and the leasing fee.
(Ord. No. 12-365, § 3, 5-24-2012)

Sec. 15-126. Proceeds of fees deposited in general fund.

The proceeds derived from the fees levied in this article shall be placed in the general fund of the city, subject to appropriation by the city council for any lawful purpose of the city.
(Ord. No. 12-365, § 3, 5-24-2012)

Sec. 15-127. Provisions of corresponding state rental tax applicable to city rental tax.

All provisions of the corresponding state rental tax law, including those for collection and enforcement, that are made applicable in section 15-92 of this chapter to the city rental taxes levied or assessed in this division are incorporated herein by reference and made a part hereof as if fully set forth herein. Without limiting the generality of the foregoing, the following are violations of this division:

(1) *Penalty for failure to make reports or keep records.* Any person subject to the provisions of this division who shall fail to make the reports or any of them, as required, or who shall fail to keep the records as required, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than $25.00 nor more than $500.00 for each offense. Each month of such failure shall constitute a separate offense. (See Code of Ala. 1975, § 40-23-11, made applicable under Code of Ala. 1975, § 40-12-224)

(2) *Penalty for willful refusal to make reports or permit examination of records.* Any person subject to the provisions of this division willfully refusing to make the reports required, or who shall refuse to permit the examination of his records by the finance department, or its duly authorized agents, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than $50.00 nor more than $500.00 for each offense, and in addition may be imprisoned in the city jail for a period not to exceed six months. Each month of failure to make such reports shall constitute a separate offense, and each refusal of a written demand of the department to examine, inspect or audit such records shall constitute a separate offense. (Code of Ala. 1975, § 40-23-12 made applicable under Code of Ala. 1975, § 40-12-224)

(Ord. No. 25-388, § 14, 5-22-2025)

Secs. 15-128—15-130. Reserved.

DIVISION 5. LODGING TAX

Sec. 15-131. Levy of license fee.

(a) There is levied and imposed, in addition to all other fees of every kind now imposed by law, a privilege or license tax upon every person engaging in the city in the following:

(1) The business of renting or furnishing any room or rooms, lodging, or accommodations to transients in any hotel, motel, inn, tourist camp, tourist cabin, or any other place in which rooms, lodging, or accommodations are regularly furnished to transients for a consideration. The tax shall be in an amount equal to nine percent of the charge for such room, rooms, lodgings, or accommodations, including the charge for use or rental of personal property and services furnished in such room; plus $2.00 per room or lodging for each day, or portion of a day, such room or lodging is rented or furnished to a transient for a consideration; or

(2) The business of renting or furnishing space for accommodation of trailers for consideration. The license fee shall be in an amount equal to nine percent of the charge for such trailer space; provided, that charges made by persons in the business of renting trailer space for use of washing machines, electric power, garbage collection, water supply, and other such charges shall not be included in the measure of the privilege license tax; only the charge for trailer space proper shall be included; plus $2.00 per trailer space for each day, or portion of a day, such space is rented or furnished for a consideration for the accommodation of a trailer.

(b) As generally provided for in section 15-92 of this article, the exemptions for the lodging tax levied by this division shall be parallel to exemptions of the corresponding state lodging tax, which include exemptions for rooms, lodgings, or accommodations supplied: (i) for a period of 180 continuous days or more in any place; (ii) by camps, conference centers, or similar facilities operated by nonprofit organizations primarily for the benefit of, and in connection with, recreational or educational programs for children, students, or members or guests of other nonprofit organizations during any calendar year; (iii) by privately operated camps, conference centers, or similar facilities that provide lodging and recreational or educational programs exclusively for the benefit of children, students, or members or guests of nonprofit organizations during any calendar year; or (iv) in connection with the production of a qualified film duly certified for exemption by the state film office in accordance with the corresponding state tax laws.

(c) For purposes of subsection (b), "children" means individuals under age 21; "student" is defined in accordance with 26 U.S.C. § 151(c)(4), as in effect from time to time or by any successor law; "nonprofit organization" is an organization exempt from federal income tax under 26 U.S.C. § 501(c)(3), as in effect from time to time or any successor law; and "privately operated" refers to

any camp, conference center, or similar facility other than those operated by a nonprofit organization as herein defined.
(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 13-355, § 1, 5-23-2013; Ord. No. 13-433, § 1, 6-27-2013; Ord. No. 17-456, § 1, 6-13-2017)

Sec. 15-132. Certain municipal privilege license taxes excluded in computation of tax.

Municipal privilege license taxes which are levied and collected by the application of a flat percentage rate on gross sales or gross receipts from sales, and which are passed on directly by the licensee-seller to the purchaser-consumer or user shall be excluded from gross sales or gross receipts, as the case may be, in the computation of the city lodgings tax levied and imposed by this division.
(Ord. No. 12-365, § 3, 5-24-2012)

Sec. 15-133. Accounting for license fees.

The nine percent privilege license fee ("percentage fee") and the $2.00-per-day (per room and per space) privilege license fee ("per-day fee") levied in subsections 15-131(a)(1) and (a)(2) shall be used as follows:

(1) Five percentage points of the percentage fee shall be used for the planning, operation, maintenance, and expansion of a visitor's bureau, a civic center, and a sports commission.

(2) One percentage point of the percentage fee shall be used for the construction, maintenance, repair, or replacement of recreational facilities and structures.

(3) One percentage point of the percentage fee shall be used for the promotion of tourism, including, but not limited to, "bid proposal fees" for convention and meeting events, and related tourism promotional fee requirements. Allocation of these funds shall be administered in accordance with Resolution No. 13-915, adopted November 7, 2013, as such resolution may be amended from time to time.

(4) a. Subject to subsection b. below, two percentage points of the percentage fee and $1.00 of the per-day fee shall be used for capital projects involving the expansion, renovation, or repair of a civic center and/or amphitheater.

b. Effective October 1, 2020, and for each subsequent fiscal year until retired, 20 percent of this fee, that is, the two percentage points of the percentage fee and $1.00 of the per-day fee, shall be allocated to payment of debt associated with the original construction of the amphitheater.

(5) One dollar of the per-day license fee shall be used for the promotion of tourism through funding of annual operation and maintenance of the various tourism supporting facilities and activities within the city.

(Ord. No. 12-365, § 3, 5-24-2012; Ord. No. 13-355, § 2, 5-23-2013; Ord. No. 13-433, § 2, 6-27-2013; Ord. No. 17-456, § 2, 6-13-2017; Ord. No. 20-486, § 1, 6-25-2020)

Sec. 15-134. Provisions of corresponding state lodging tax applicable to city lodging tax.

All provisions of the corresponding state lodging tax law, including those for collection and enforcement, that are made applicable in section 15-92 of this chapter to the city lodging taxes levied or assessed in this division are incorporated herein by reference and made a part hereof as if fully set forth herein. Without limiting the generality of the foregoing, the following are violations of this division:

(1) *Failure to make reports and keep records.* Any person, firm or corporation subject to the provisions of this division who fails to make the reports or any of them as herein required, or who fails to keep the records as herein required, shall be guilty of a misdemeanor and upon conviction shall be fined not less than $25.00 nor more than $500.00 for each offense. Each

month of such failure shall constitute a separate offense. (See Code of Ala. 1975, § 40-26-8)

(2) *Willful refusal to make reports or permit examination of records.* Any person, firm or corporation subject to the provisions of this division willfully refusing to make the reports herein required, or who shall refuse to permit the examination of his or its records by the finance department, or its duly authorized agents, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than $50.00 nor more than $500.00 for each offense, and in addition may be imprisoned in the city jail for a period not to exceed six months. Each month of failure to make such report shall constitute a separate offense and each refusal of a written demand of the department to examine, inspect or audit such records shall constitute a separate offense. (See Code of Ala. 1975, § 40-26-9)

(3) *Failure to add tax to price of service; refund or absorption of tax prohibited.*

It shall be unlawful for any person, firm or corporation engaged in or continuing within this city in any business for which a license or privilege tax is required by this division to fail or refuse to add to the price of the service rendered the amount due by the taxpayer on account of the tax levied by this division. Nor shall any person refund or offer to refund all or any part of the amount collected as tax under this division or to absorb such tax or to advertise directly or indirectly the absorption or refund of such tax or any portion of the same. Any person, firm or corporation violating any of the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined in a sum not less than $50.00 nor more than $100.00, or may be imprisoned in the city jail for not more than six months, or by both such fine and imprisonment, and each act or violation of the provisions of this division shall constitute a separate offense. (See Code of Ala. 1975, § 40-26-16)
(Ord. No. 25-388, § 15, 5-22-2025)

Secs. 15-135—15-140. Reserved.

ARTICLE IV. LIQUOR PRIVILEGE LICENSE*

Sec. 15-141. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Gross receipts or *gross sales* means the total amount charged or received as consideration by a licensee in connection with the sale of liquor or alcoholic drinks containing liquor (including all ingredients which are made a part of such drinks).

Liquor means any alcoholic, spirituous, vinous, fermented, or other alcoholic beverage, or combination of liquors and mixed liquor, a part of which is spirituous, fermented, vinous or otherwise alcoholic, and all drinks or drinkable liquids, preparations or mixtures intended for beverage purposes, which contain one-half of one percent or more of alcohol by volume, except beer and table wine, as those terms are defined by applicable state law.
(Ord. No. 93-21, § 1, 1-28-1993; Ord. No. 02-364, § 1, 5-9-2002; Ord. No. 12-365, § 4, 5-24-2012; Ord. No. 19-524, § 1, 7-11-2019)

Cross reference—Definitions generally, § 1-2.

Sec. 15-142. License fee imposed.

There is levied, in addition to all other taxes of every kind and nature imposed by law, and shall be collected as provided in this article, a privilege or license fee upon every person, including private clubs, engaged or continuing within the corporate limits of the city in the business of selling liquor or alcoholic drinks containing liquor (including all ingredients which are made a part of such drinks) in an amount equal to 12 percent of the gross receipts or gross sales from that part of the business described in this article. The provisions of this section shall not apply to any privately owned retail liquor store or any liquor store operated by the state alcoholic beverage control board, or to the retail sales of a duly licensed

*Cross reference—Alcoholic beverages, ch. 3.

manufacturer of liquor for off-premises consumption made in accordance with applicable state law.
(Ord. No. 93-21, § 2, 1-28-1993; Ord. No. 93-534, § 1, 8-26-1993; Ord. No. 13-355, § 3, 5-23-2013; Ord. No. 19-524, § 2, 7-11-2019; Ord. No. 20-1003, § 1, 11-5-2020)

State law reference—Privilege licenses on alcohol authorized, Code of Ala. 1975, § 28-3A-21(c).

Sec. 15-143. License required; general license provisions not affected.

(a) If any person shall engage in or continue in any business for which a privilege fee is imposed by this article as a condition precedent by engaging or continuing in such business, he shall apply for and obtain from the city finance department a license to engage in and to conduct such business for the current tax year upon the condition that he shall pay the privilege fees accruing to the city finance department under the provisions of this article.

(b) The amount of privilege license fees provided for in this article shall be additional to and cumulative of all amounts required to be paid under article II of this chapter and to all other licenses and taxes levied by law as a condition precedent to engaging in any business taxable under this article, except as in this article otherwise specifically provided.

(c) No provision of this article shall be construed as relieving any person from the payment of any license or privilege fee imposed by law.

(d) No license shall be issued under the provisions of this article to any person who has not complied with the provisions of this article.
(Ord. No. 93-21, § 3, 1-28-1993; Ord. No. 25-388, § 16, 5-22-2025)

State law reference—Privilege license authorized, Code of Ala. 1975, § 11-51-90(a)(1).

Sec. 15-144. License fees due monthly; filing of reports; estimated payment authorized; extension of time for making returns.

The license fees levied under the provisions of this article, except as otherwise provided, shall be due and payable in monthly installments on or before the 20th day of the month next succeeding the month in which the license fee accrues. On or before the 20th of each month, every person on whom the license fees levied by this article is imposed shall render to the city, on a form prescribed by the city, a true and correct statement showing the gross sales, the gross proceeds of sales, or gross receipts of his business, as the case may be, for the next preceding month; the amount of gross proceeds or gross receipts which are not subject to the license fee, or are not to be used as a measurement of the fees due by such person, and their nature, together with such other information as the city may demand and require. At the time of making such monthly report such persons shall compute the license fees due and shall pay to the city finance department the amount of license fees shown to be due.
(Ord. No. 93-21, § 4, 1-28-1993; Ord. No. 25-388, § 16, 5-22-2025)

Sec. 15-145. Cash sales and credit collections to be reported.

Any person taxable under this article, having cash and credit sales, may report such cash sales; and the taxpayer shall thereafter include in each monthly report all credit collections made during the month preceding and shall pay the license fees due at the time of filing such report; but in no event shall the gross proceeds of credit sales be included in the measure of the license fee to be paid until collections of such credit sales shall have been made.
(Ord. No. 93-21, § 5, 1-28-1993)

Sec. 15-146. Records to be kept.

It shall be the duty of every person engaging or continuing in this city in any business for which a privilege license fee is imposed by this article, to keep and preserve suitable records of the gross sales, gross proceeds of sales, and gross receipts or gross receipts of sales of such business and such other books or accounts as may be necessary to determine the amount of privilege license fee for which he is liable under the provisions of this article. And it shall be the duty of every person to keep and preserve all invoices

of goods for resale or otherwise; and all such books, invoices and other records shall be open for examination by the city. All sales shall be subject to the license fee in the absence of such records.
(Ord. No. 93-21, § 6, 1-28-1993)

Sec. 15-147. Reports under oath.

The monthly reports required in this article to be made are not required to be made on oath; but wherever in this article any report is required to be sworn to, it shall be sworn to by the taxpayer or his agent before some officer authorized to administer oaths.
(Ord. No. 93-21, § 7, 1-28-1993)

State law reference—Perjury and related offenses, Code of Ala. 1975, § 13A-10-100 et seq.

Sec. 15-148. Penalty for failing to make reports or keep records.

Any person subject to the provisions of this article who shall fail to make the reports or any of them as required in this article or who shall fail to keep the records as required in this article shall be guilty of a misdemeanor and upon conviction shall be fined not less than $25.00 nor more than $500.00 for each offense. Each month of such failure shall constitute a separate offense.
(Ord. No. 93-21, § 8, 1-28-1993)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 15-149. Willful failure to file return, supply information, or pay privilege license fee.

Any person required under this article to pay the privilege or license fee levied hereunder, or required by this article to make a return, keep any records, or supply any information, who willfully fails to pay such fee, make such return, keep such records, or supply such information, at the time or times required by law, shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, shall be fined not less than $50.00 nor more than $500.00, for each offense, and in addition may be imprisoned in the city jail for a period not to exceed six months, together with the cost of court. Each month of such failure shall constitute a separate offense.
(Ord. No. 93-21, § 9, 1-28-1993; Ord. No. 21-703, § 3, 8-26-2021)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 15-150. Person selling out or quitting business to file return, part of purchase money to be withheld.

Any person subject to the provisions of this article who shall sell out his business or stock of goods, or shall quit business, shall be required to make out the return provided for under section 15-144 within 30 days after the date he sold out his business or stock of goods, or quit business; and his successor in business shall be required to withhold sufficient of the purchase money to cover the amount of license fees due and unpaid until such time as the former owner shall produce a receipt from the city showing that the license fees have been paid, or a certificate that no license fees are due. If the purchaser of a business or stock of goods shall fail to withhold purchase money, the license fees shall be due and unpaid after the 30-day period allowed and he shall be personally liable for the payment of the license fees accrued and unpaid on account of the operation of the business by the former owner. If in such cases the city deems it necessary in order to collect the license fees due the city, it may make a jeopardy assessment.
(Ord. No. 93-21, § 10, 1-28-1993)

Sec. 15-151. Violator may be restrained from continuing in business.

Any taxpayer who shall violate any of the provisions of this article may be restrained from continuing in business, and the proper prosecution shall be instituted in the name of the city by its attorney until such person shall have complied with the provisions of this article.
(Ord. No. 93-21, § 11, 1-28-1993)

Sec. 15-152. Enforcement; appointment of agents.

The enforcement of any of the provisions of this article shall be under the jurisdiction and

supervision of the city finance department, and the city finance department may require the assistance of and act through the city attorney.
(Ord. No. 93-21, § 12, 1-28-1993; Ord. No. 25-388, § 16, 5-22-2025)

Sec. 15-153. Reserved.

Editor's note—Section 5 of Ord. No. 12-365, adopted May 24, 2012, repealed § 15-153 which pertained to mayor to make rules and regulations, and derived from Ord. No. 93-21, § 13, adopted Jan. 28, 1993.

Sec. 15-154. Accounting for license fees.

The proceeds derived from the privilege license fees levied in this article shall be accounted for within a special account of the general fund. The proceeds derived from the privilege license fees levied shall be used for the promotion of tourism and the planning, construction and operation of a civic center and auditorium for the city.
(Ord. No. 93-21, § 14, 1-28-1993; Ord. No. 03-556, § 1, 7-10-2003)

Sec. 15-155. Uniform procedures.

The provisions of section 15-75 of this chapter shall govern the administrative review and appeal rights available under this article.
(Ord. No. 93-21, § 15, 1-28-1993; Ord. No. 12-365, § 6, 5-24-2012)

Secs. 15-156—15-190. Reserved.

ARTICLE V. SALE OF LIQUID FUEL PRIVILEGE LICENSE

Sec. 15-191. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Distributor or *seller* includes every person who shall engage in selling or delivering gasoline or motor fuel, or both, within the corporate limits of the city.

Gasoline means gasoline, naphtha and all other liquid fuels commonly used in internal combustion engines. However, the term shall not include those products known commercially as kerosene oil, fuel oil or crude oil commonly used for heating, lighting, or industrial purposes; nor shall the term include any fuel sold and delivered for use in the operation of an airplane, helicopter, or other vehicle used for private or commercial aviation.

Motor fuel includes diesel fuel, tractor fuel, gas oil, distillate, or liquefied gas when sold and delivered for use in the operation of any motor vehicle upon public highways in the city.
(Ord. No. 93-23, § 1, 1-28-1993; Ord. No. 02-366, § 1, 5-9-2002; Ord. No. 12-365, § 7, 5-24-2012)

Cross reference—Definitions generally, § 1-2.

Sec. 15-192. License fee imposed.

Every distributor or seller shall pay a license fee to the city. A license fee is fixed and levied and shall be an amount equal to $0.01 for each gallon of gasoline or motor fuel sold or delivered within the corporate limits of the city by such distributor or seller.
(Ord. No. 93-23, § 2, 1-28-1993)

State law reference—Privilege license fee authorized, Code of Ala. 1975, § 11-51-90(a)(2).

Sec. 15-193. License required; general license provisions not affected.

(a) If any person shall engage in or continue in any business for which a privilege fee is imposed by this article, as a condition precedent by engaging or continuing in such business, he shall apply for and obtain from the city finance department a license to engage in and to conduct such business for the current tax year upon the condition that he shall pay the privilege fees accruing to the city finance department under the provisions of this article.

(b) It shall be unlawful for any distributor or seller having no place of business within the corporate limits of the city to make any sales or deliveries of gasoline in the city without first having obtained a permit from the city finance department. Such distributor or seller shall be liable for and pay the same license fee as that fixed and levied in section 15-192. Any seller or

distributor who shall violate any provisions of this article shall be punished as provided by the city.

(c) The amount of privilege license fees provided for in this article shall be additional to and cumulative of all amounts required to be paid under article II of this chapter and to all other license fees and taxes levied by law as a condition precedent to engaging in any business taxable under this article, except as in this article otherwise specifically provided.

(d) No provision of this article shall be construed as relieving any person from the payment of any license or privilege fee imposed by law.

(e) No license shall be issued under the provisions of this article to any person who has not complied with the provisions of this article.
(Ord. No. 93-23, § 3, 1-28-1993; Ord. No. 25-388, § 17, 5-22-2025)

State law reference—Privilege license authorized, Code of Ala. 1975, § 11-51-90(a)(1).

Sec. 15-194. Exemption on purchases from other distributors or sellers.

Any person engaged as a distributor or seller in selling or distributing gasoline or motor fuel purchased from other distributors or sellers who have paid the license fee imposed in this article with respect to the sale or delivery of motor fuel shall not be required to pay any license fee with respect to the sale or delivery of such gasoline or motor fuel so purchased; provided, that in order to obtain the exemption in this section, such distributor or seller must on or before February 20, 1957, and on or before the 20th of every month thereafter file with the city a sworn, written statement showing each and every purchase by such person of gasoline and motor fuel during the calendar month next preceding, as well as the name of the person from whom, the amount and the date on which purchased.
(Ord. No. 93-23, § 4, 1-28-1993)

Sec. 15-195. Sales in interstate commerce excluded.

The provisions of this article shall not apply to any sales or deliveries which constitute interstate commerce.
(Ord. No. 93-23, § 5, 1-28-1993)

Sec. 15-196. Pumps must be metered.

It shall be the duty of every person selling or distributing gasoline within the corporate limits of the city to have a meter in good working order on each and every pump from which gasoline is dispensed and to keep an accurate record of the readings of the meter.
(Ord. No. 93-23, § 6, 1-28-1993)

Sec. 15-197. Written statement of sales must be filed.

Each distributor and seller, except such as are exempt from license fees under the provisions of section 15-194, shall on or before February 20, 1957, and on or before the 20th day of each month thereafter, file with the city a sworn, written statement. Such sworn, written statement shall be a full, true, accurate and correct statement of the following:

(1) The amount and quantity of all gasoline and of all motor fuel sold or delivered by such distributor or seller within the corporate limits of the city; and

(2) The amount and quantity of all gasoline sold and delivered to any other distributor within the corporate limits of the city.

(Ord. No. 93-23, § 7, 1-28-1993)

Sec. 15-198. Records to be kept.

It shall be the duty of every person engaging or continuing in this city in any business for which a privilege license fee is imposed by this article to keep and preserve suitable records of the gross sales and gross receipts or gross receipts of sales of such business and such other books or accounts as may be necessary to determine the amount of privilege license fee for which he is liable under the provisions of this article. It shall be the duty of every person to keep and preserve all invoices of goods for resale or otherwise; and

all such books, invoices and other records shall be open for examination by the city. All sales shall be subject to the license fee in absence of such records.
(Ord. No. 93-23, § 8, 1-28-1993)

Sec. 15-199. Reports under oath.

The monthly reports required in this article to be made are not required to be made on oath; but wherever in this article any report is required to be sworn to, it shall be sworn to by the taxpayer or his agent before some officer authorized to administer oaths.
(Ord. No. 93-23, § 9, 1-28-1993)

State law reference—Perjury and related offenses, Code of Ala. 1975, § 13A-10-100 et seq.

Sec. 15-200. Penalty for failure to make reports or keep records.

Any person subject to the provisions of this article who shall fail to make the reports or any of them, as required in this article or who shall fail to keep the records as required in this article shall be guilty of a misdemeanor and upon conviction shall be fined not less than $25.00 nor more than $500.00 for each offense. Each month of such failure shall constitute a separate offense.
(Ord. No. 93-23, § 10, 1-28-1993)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 15-201. Willful failure to file return, supply information, or pay license fee.

Any person required under this article to pay the license fee levied hereunder, or required by this article to make a return, keep any records, or supply any information, who willfully fails to pay such fee, make such return, keep such records, or supply such information, at the time or times required by law, shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, shall be fined not less than $50.00 nor more than $500.00, for each offense, and in addition may be imprisoned in the city jail for a period not to exceed six months, together with the cost of court. Each month of such failure shall constitute a separate offense.
(Ord. No. 93-23, § 11, 1-28-1993; Ord. No. 21-703, 8-26-2021)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 15-202. Person selling out or quitting business to file return; part of purchase money to be withheld.

Any person subject to the provisions of this article who shall sell out his business or stock of goods, or shall quit business, shall be required to make out the return provided for under section 15-197 within 30 days after the date he sold out his business or stock of goods, or quit business; and his successor in business shall be required to withhold sufficient of the purchase money to cover the amount of the license fees due and unpaid until such time as the former owner shall produce a receipt from the city showing that the license fees have been paid, or a certificate that no license fees are due. If the purchaser of a business or stock of goods shall fail to withhold purchase money, the license fees shall be due and unpaid after the 30-day period allowed and he shall be personally liable for the payment of the license fees accrued and unpaid on account of the operation of the business by the former owner. If in such cases the city deems it necessary in order to collect the license fees due the city, it may make a jeopardy assessment.
(Ord. No. 93-23, § 12, 1-28-1993)

Sec. 15-203. Violator may be restrained from continuing in business.

Any taxpayer who shall violate any of the provisions of this article may be restrained from continuing in business, and the proper prosecution shall be instituted in the name of the city by its attorney until such person shall have complied with the provisions of this article.
(Ord. No. 93-23, § 13, 1-28-1993)

Sec. 15-204. Enforcement; appointment of agents.

The enforcement of any of the provisions of this article in any of the courts of the state shall

be under the jurisdiction and supervision of the city finance department, and the city finance department may require the assistance of and act through the city attorney.
(Ord. No. 93-23, § 14, 1-28-1993; Ord. No. 25-388, § 17, 5-22-2025)

Sec. 15-205. Reserved.

Editor's note—Section 8 of Ord. No. 12-365, adopted May 24, 2012, repealed § 15-205 which pertained to mayor to make rules and regulations, and derived from Ord. No. 93-21, § 15, adopted Jan. 28, 1993.

Sec. 15-206. Proceeds of tax deposited in general fund.

The proceeds derived from the taxes levied in this article shall be placed in the general fund of the city subject to appropriation by the city council for any lawful purpose of the city.
(Ord. No. 93-23, § 16, 1-28-1993)

Sec. 15-207. Uniform procedures.

The provisions of section 15-75 of this chapter shall govern the administrative review and appeal rights available under this article.
(Ord. No. 93-23, § 17, 1-28-1993; Ord. No. 12-365, § 9, 5-24-2012)

Secs. 15-208—15-240. Reserved.

ARTICLE VI. RESERVED*

Secs. 15-241—15-299. Reserved.

*__Editor's note—__Section 10 of Ord. No. 12-365, adopted May 24, 2012, repealed art. VI, §§ 15-241—15-255. Former art. VI pertained to renting and leasing privilege license, and derived from Ord. No. 93-20, §§ 1—15, adopted Jan. 28, 1993; and Ord. No. 02-363, § 1, adopted May 9, 2002. See art. I and art. III of this chapter.

ARTICLE VII. TOBACCO PRIVILEGE LICENSE FEE†

Sec. 15-300. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Chewing tobacco means tobacco prepared in such a manner as to be suitable for chewing only and not suitable for smoking.

Cigar means a compact roll of tobacco leaves prepared for smoking and shall include cigars, of all description containing any quantity of tobacco such as, but not limited to, cheroots and stogies.

Cigarette means a roll of finely cut tobacco or any substitute therefor, which is enclosed in paper and prepared for smoking by individuals.

Cigarillo means a small cigar or cigarette wrapped in tobacco instead of paper and sold in packages rather than by individual cigar.

Dealer means any wholesale or retail dealer as defined in this section.

Person or *company, used interchangeably,* means any individual, firm, company, partnership, association, corporation, receiver or trustee, or any other group or combination acting as a unit, and the plural as well as the singular number, unless the intention to give a more limited meaning is disclosed by the context.

Retail dealer means any person, other than a wholesale dealer, who sells or delivers tobacco products within the city, and any person operating under a merchant, retail dealer's license.

Retail sale means any sale by retail dealer of tangible personal property to users or consumers for personal use and not for resale.

Smoking tobacco means prepared in such a manner as to be suitable for smoking in a pipe or

†__Editor's note—__Ord. No. 03-914, §§ 1—16, adopted Nov. 20, 2003, added a new art. VII, §§ 15-300—15-314, to ch. 9 entitled "Tobacco Privilege License." Ord. No. 04-68, §§ 1—18, adopted Jan. 22, 2004, changed the title of art. VII to "Tobacco Privilege License Fee" and amended art. VII in its entirety to read as herein set out.

cigarette which shall include granulated, plug cut, crimp cut, ready rubbed and other kinds and forms of tobacco.

Snuff and other tobacco products used in a similar manner means a preparation of finely pulverized tobacco that can be drawn up into the nostrils by inhaling and other tobacco products used in a similar manner, not smoked or chewed.

Tobacco product means cigars, cheroots, stogies, cigarettes, cigarillos, smoking tobacco, chewing tobacco, snuff, tobacco in any form or condition or any substitute therefor.

Wholesale dealer means a person engaged in wholesale sales.

Wholesale sale means a sale of tangible personal property by wholesalers to licensed retail merchants, jobbers, dealers or other wholesalers for resale, and does not include a sale by wholesalers to users or consumers, not for resale; and as further defined under state law.
(Ord. No. 04-68, § 2, 1-22-2004; Ord. No. 12-365, § 11, 5-24-2012)

Sec. 15-301. License fee imposed.

There is levied, in addition to all other taxes of every kind and nature imposed by law, and shall be collected as provided in this article, a privilege or license fee upon every person engaged within the corporate limits of the city in the sale, storage or delivery of all tobacco products. Each person making such a sale of any tobacco product shall remit said license fee which shall be paid one time only per individual package of tobacco product sold, unless otherwise provided for. The fee shall be as follows:

(a) *Cigarettes:* Upon all cigarettes which contain any quantity of tobacco or any substitute, a fee of $0.10 for each individual package;

(b) *Cigarillos:* Upon all cigarillos which contain any quantity of tobacco or any substitute, a fee of $0.10 for each individual package;

(c) *Cigars:* Upon cigars of all description containing any quantity of tobacco or any substitute, a fee of $0.03 for each cigar sold individually and not as part of a package;

(d) *All other tobacco products:* Upon all other tobacco products of any type including but not limited to chewing tobacco, smoking tobacco, cigars sold as a part of a package, and snuff, a fee of $0.10 for each individual package sold.

(Ord. No. 04-68, § 3, 1-22-2004; Ord. No. 12-365, § 12, 5-24-2012)

Sec. 15-302. License required; general license provisions not affected.

(a) If any person shall engage in or continue in any business for which a privilege fee is imposed by article II of this chapter as a condition precedent to engaging or continuing in such business, he shall apply for and obtain from the city finance department a license to engage in and to conduct such business for the current tax year upon the condition that he shall pay the privilege license fee accruing to the city finance department under the provisions of this article.

(b) The amount of privilege license fees provided for in this article shall be additional to and cumulative of all amounts required to be paid under article II of this chapter and to all other licenses and taxes levied by law as a condition precedent to engaging in any business taxable under this article, except as in this article otherwise specifically provided.

(c) No provision of this article shall be construed as relieving any person from the payment of any license or privilege fee imposed by law.

(d) No license shall be issued under the provisions of the article to any person who has not complied with the provisions of this article.
(Ord. No. 04-68, § 4, 1-22-2004; Ord. No. 25-388, § 18, 5-22-2025)

Sec. 15-303. License fees due monthly; filing of reports; estimated payment authorized; extension of time for making returns.

The license fees levied under the provisions of this article, except as otherwise provided, shall

be due and payable in monthly installments on or before the 20th day of the month next succeeding the month in which the license fee accrues. On or before the 20th of each month, the person responsible for remitting the license fee to the city shall report such license fee on forms and in a manner prescribed by the city. At the time of making such monthly report such persons shall compute the license fees due and shall pay to the city finance department the amount of license fees shown to be due.
(Ord. No. 04-68, § 5, 1-22-2004; Ord. No. 25-388, § 18, 5-22-2025)

Sec. 15-304. Purchase and use of stamps for cigarettes only.

(a) *Stamps to be affixed.* The license fee imposed by this article shall be paid by affixing stamps in the manner and at the time herein set forth.

(1) The city finance director shall keep on hand for sale an adequate quantity of stamps to be affixed to each individual package of cigarettes sold, stored or delivered in denominations as required under this article. The city finance director shall be the sole distributor of the stamps. The stamps may be sold at a discounted price to licensed wholesale dealers at a price equal to 90 percent of the full amount thereof, the remaining ten percent of such full amount shall represent compensation to the wholesale dealer for the labor of affixing such stamps to the packages in which the cigarettes are contained. All other persons, except licensed wholesale dealers, must pay the full face amount of the stamps, but no person shall be entitled to purchase any such number of stamps as shall cause the purchase price to include a fraction of a cent.

(2) Before any cigarettes shall be sold, stored or delivered within the corporate limits of the city by any dealer, such dealer shall affix to each package a stamp or stamps obtained from the city finance director in the amounts set out in this article in payment of the license fees imposed by this article. Every dealer shall, within six hours after receipt of any cigarettes within the city, unless sooner offered for sale, cause stamps equal to the required amount of the license fee to be affixed as herein provided and shall cause the same to be canceled by writing or stamping with waterproof ink a registered number, which shall be furnished to such dealer by the city finance director, across the face of each stamp. After such stamping has been begun, it shall be continued with reasonable diligence by such person until all unstamped cigarettes shall have been stamped and the stamps canceled as herein provided. No stamp required to be affixed to any package of cigarettes shall, after the same has been affixed as herein provided, be again used in payment of any part of the license fee levied under this article. The stamps shall be affixed in such a manner that the removal of the stamp will require continued application of water or steam. The required stamp shall be affixed to each individual package in such a way that the stamp shall be torn in two or mutilated when such package is opened.

(b) *When requirements not applicable.*

(1) The requirements of subsection (a) of this section do not apply to the sale or delivery of cigarettes by a wholesale dealer in the following cases:

a. To a retail dealer that is located outside the corporate limits of the city; or

b. To a wholesale dealer to the extent the wholesale dealer sells or delivers to retail dealers to which the immediately preceding subsection (1) applies;

(2) A wholesale dealer shall establish reasonable business rules and practices that establish when a retail dealer is located

outside the corporate limits of the city and, failing therein, the requirements of subsection (a) shall apply.

(Ord. No. 04-68, § 6, 1-22-2004; Ord. No. 12-365, § 13, 5-24-2012; Ord. No. 25-388, § 18, 5-22-2025)

Sec. 15-305. Cash sales and credit collections to be reported.

Any person required to remit license fees under this article, having cash and credit sales, may report such cash sales; and the taxpayer shall thereafter include in each monthly report all credit collections made during the month preceding and shall pay the license fees due at the time of filing such report; but in no event shall the proceeds of credit sales be included in the measure of the license fee to be paid until collections of such credit sales shall have been made.

(Ord. No. 04-68, § 7, 1-22-2004)

Sec. 15-306. Records to be kept.

Every wholesale dealer shall, at the time of selling or delivering tobacco products into the city, make a true duplicate of the invoice of the sale or delivery, which shall show full and complete details of the sale or delivery of such tobacco products and the prices thereof. Every wholesale dealer and every retail dealer shall keep a record of the purchase, sale, exchange or receipt of all tobacco products. All such invoices, records, all canceled checks and other memoranda pertaining to any such purchase, sale, exchange or receipt shall be retained for a period of three years, and shall be subject to inspection of the city finance director or his duly authorized deputy, who shall have the power and authority to enter upon the premises of any dealer at all reasonable times for the purpose of examining such invoices, records, canceled checks and other memoranda.

(Ord. No. 04-68, § 8, 1-22-2004; Ord. No. 25-388, § 18, 5-22-2025)

Sec. 15-307. Illegal acts.

(a) It shall be unlawful for any person who is required by this article to affix stamps to cigarettes to fail to affix such stamps or to fail to cancel such stamps in the manner or within the time required by this article.

(b) It shall be unlawful for any person to sell, offer for sale, store or deliver within the city any cigarettes which have not been affixed with stamps and which have not been cancelled, or other tobacco products on which sales have not been reported and taxes have not been paid as provided in this article.

(c) It shall be unlawful for any person to have in his possession or under his control, any cigarettes that have not been affixed with a stamp as required by this article for more than six hours after receipt of such cigarettes on the premises of such person. The possession of each package of a tobacco product which lacks the required number of stamps shall be deemed a separate offense.

(d) It shall be unlawful for any person to effectuate or to attempt to manufacture, buy, sell, offer for sale or possess any reproduction or counterfeit of the stamps provided for in this article or to possess tools, implements, instruments or materials of any kind necessary or appropriate to reproduce or counterfeit such stamps, or to alter or cause to be altered any stamps as herein provided.

(e) It shall be unlawful for any person to remove from a package or otherwise prepare any stamp with intent to use or cause the same to be used, after it has already been used, or to buy, sell, offer for sale or give away any washed, removed, altered or restored stamp to any person, or to have in possession any such washed, removed, restored or altered stamp, or, for the purpose of indicating payment of any license fee under this article, to reuse any stamp which previously has been used for the payment of any license fee provided in this article or for any person other than the city finance director to sell any stamp provided for herein.

(f) It shall be unlawful for any person to reuse or refill with cigarettes any stamped package from which cigarettes have been removed and the required license fee has previously been paid.

(g) It shall be unlawful for any person, who is required under this article to keep records, to fail or omit to keep the those records in the manner

herein provided, or to refuse to permit the city finance director or his duly authorized deputy to inspect the same at any reasonable hour, or to interfere with or obstruct the city finance director or his duly authorized deputy in the making of any such inspection.

(h) It shall be unlawful for any person who is required by this article to file statements with the city finance director to fail or omit to make or file any statement herein provided within the time herein specified, or to make any false statement therein, and such offense shall be a continuing offense against the city and each day during which such person shall sell, store, or deliver cigarettes or other tobacco products in the city during such default shall constitute a separate offense.

(i) It shall be unlawful for any person who is required to pay the license fee provided for in this article to fail or omit to pay the same within the time herein specified, and such offense shall be a continuing offense against the city and each day during which such person shall sell, store or deliver tobacco products in the city during such default shall constitute a separate offense.

Any person who violates any provision of this section shall be guilty of a misdemeanor and upon conviction shall be fined not less than $25.00 nor more than $500.00 for each offense, and in addition may be imprisoned in the city jail for a period not to exceed six months. Each violation shall constitute a separate offense.
(Ord. No. 04-68, § 9, 1-22-2004; Ord. No. 25-388, § 18, 5-22-2025)

Sec. 15-308. Reports under oath.

The monthly reports required in this article to be made are not required to be made on oath; but wherever in this article any report is required to be sworn to, it shall be sworn to by the person responsible for remitting the license fee or his agent before some officer authorized to administer oaths.
(Ord. No. 04-68, § 10, 1-22-2004)

Sec. 15-309. Penalty for failing to make payments, to make reports or to keep records.

Any person subject to the provisions of this article who shall fail to make the payments herein required, fail to make the reports herein required or who shall fail to keep the records as herein required, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than $25.00 nor more than $500.00 for each offense. Each occurrence of such failure shall constitute a separate offense.
(Ord. No. 04-68, § 11, 1-22-2004)

Sec. 15-310. Penalty for willful refusal to make reports or permit examination of records.

Any person subject to the provisions of this article willfully refusing to make the reports required in this article or who shall refuse to permit the examination of this records by the city shall be guilty of a misdemeanor and upon conviction shall be fined not less than $25.00 nor more than $500.00 for each offense, and in addition may be imprisoned in the city jail for a period not to exceed six months. Each month of failure to make such reports shall constitute a separate offense; and each refusal of a written demand of the city to examine, inspect or audit such records shall constitute a separate offense.
(Ord. No. 04-68, § 12, 1-22-2004)

Sec. 15-311. Person selling out or quitting business to file return, part of purchase money to be withheld.

Any person subject to the provisions of this article who shall sell out his business or stock of goods, or shall quit business, shall be required to make out the return provided for under section 15-303 within 30 days after the date he sold out his business or stock of goods, or quit business; and his successor in business shall be required to withhold sufficient of the purchase money to cover the amount of license fees due and unpaid until such time as the former owner shall produce a receipt from the city showing that the license fees have been paid, or a certificate that no license fees are due. If the purchaser of a business or stock of goods shall fail to withhold purchase money, the license fees shall be due and unpaid after the 30-day period allowed and he shall be personally liable for the payment of the license fees accrued and unpaid on account of

the operation of the business by the former owner. If in such cases the city deems it necessary in order to collect the license fees due the city, it may make a jeopardy assessment.
(Ord. No. 04-68, § 13, 1-22-2004)

Sec. 15-312. Violator may be restrained from continuing in business.

Any person who shall violate any of the provisions of this article may be restrained from continuing in business, and the proper prosecution shall be instituted in the name of the city by its attorney until such person shall have complied with the provisions of this article.
(Ord. No. 04-68, § 14, 1-22-2004)

Sec. 15-313. Enforcement; appointment of agents.

The enforcement of any of the provisions of this article shall be under the jurisdiction and supervision of the city finance department, and the city finance department may require the assistance of and act through the city attorney.
(Ord. No. 04-68, § 15, 1-22-2004; Ord. No. 25-388, § 18, 5-22-2025)

Sec. 15-314. Reserved.

Editor's note—Section 14 of Ord. No. 12-365, adopted May 24, 2012, repealed § 15-314 which pertained to mayor to make rules and regulations, and derived from Ord. No. 04-68, § 16, adopted Jan. 22, 2004.

Sec. 15-315. Distribution of license fee proceeds.

The proceeds derived from the privilege license fees levied in this article shall be placed in the general fund.
(Ord. No. 04-68, § 17, 1-22-2004)

Sec. 15-316. Uniform procedures.

The provision of section 15-75 of this chapter shall govern the administrative review and appeal rights available under this article.
(Ord. No. 04-68, § 18, 1-22-2004; Ord. No. 12-365, § 15, 5-24-2012)

Secs. 15-317—15-400. Reserved.

ARTICLE VIII. AD VALOREM TAXES

Sec. 15-401. Ordinances not affected by Code.

Nothing in this Code or the ordinance adopting this Code shall affect Ord. No. 73-132-A or any other ordinance levying or imposing ad valorem taxes. All such ordinances are hereby recognized as continuing in full force and effect to the same extent as if set out at length in this Code.
(Ord. No. 12-365, § 16, 5-24-2012)

State law references—Municipal courts, Code of Ala. 1975, § 12-14-1 et seq.; establishment of municipal court, Code of Ala. 1975, § 12-14-1.

ARTICLE I. IN GENERAL

Sec. 16-1. Presiding judges.

(a) It shall be the obligation of the presiding judge to see that the court docket is kept as current as is reasonably possible; and to such end the presiding judge shall establish a court calendar of cases and shall have the authority to set dockets and assign cases for trial and disposition before such municipal judges as shall be appointed. The presiding judge shall also prescribe and publish reasonable rules and regulations for the dispatch of the business of the court.

(b) The presiding judge, in order to maintain a current docket, shall have the authority to hold, or direct to be held, such sessions of court as shall be necessary. All sessions of court shall be presided over by the presiding judge or by a judge assigned by the presiding judge. This subsection will be construed in pari materia with section 16-6(d).

(c) The presiding municipal judge shall designate any other municipal officers who shall be authorized to approve appearance and appeal bonds.

(Ord. No. 94-413, §§ 15-2(g), (h), 15-7(a), 6-23-1994)

Sec. 16-2. Benefits for judges.

(a) Each full-time municipal judge shall be entitled to employee benefits on the same basis as from time to time is provided for other employees of the city.

(b) Each part-time municipal judge who is an employee of the city shall be entitled to two weeks' leave (four sessions for night court) annually in lieu of all other leave benefits and shall also be subject to any health insurance program of the city provided for other part-time employees of the city.

(Ord. No. 94-413, § 15-3(c), (d), 6-23-1994)

State law references—Designation of presiding judge required, Code of Ala. 1975, § 12-14-30(c); powers of judges, Code of Ala. 1975, § 12-14-31 et seq.

Sec. 16-3. Probation.

(a) The grant of probation by the municipal court will consist of one of three aspects: unsupervised probation, supervised or monitored probation, or intensive supervised probation.

(b) Unsupervised probation will be probation granted by the municipal court wherein the probationer will not have to adhere to a reporting schedule. A probation officer will follow up on specified reports of violations or possible violations of probation conditions.

(c) Supervised or monitored probation will be granted by the municipal court wherein the probationer will have a reporting schedule and will require continuous contact and followup by a probation officer or other designated officer of the court. Any person who is placed on supervised probation by the municipal court and who has an income shall be required to contribute between a maximum of $20.00 and a minimum of one hour gross wage, at the discretion of the court, per scheduled contact visit with their assigned probation officer toward the cost of his supervision and rehabilitation beginning 30 days from the date he has an income. The responsibility of assuring such contribution is that of the probationer. Exemptions from payment required by this section may be granted for undue hardship on a case-by-case basis by the sentencing court. In the event of over two months' arrearage or delinquency in making such contribution, such arrearage or delinquency shall constitute sufficient ground for revocation of the probation of the person in arrears. Payment shall be deposited in a timely manner with the clerk of municipal court and maintained in a separate account with the city clerk-treasurer's office and used only to defray the cost of the service performed.

(d) Intensive supervised or monitored probation will be granted by the municipal court wherein all the specifications of supervised probation are applicable and will be enhanced by the use of remote electronic monitoring. This particular program will be utilized only upon the convicted misdemeanant's voluntary participation and the affirmative discretion of the court. Any convicted misdemeanant participating in the remote electronic monitoring system who receives a wage

from gainful employment shall be required to pay one hour of the gross wage, per day of utilization, for maintenance of the system, to be deposited with the clerk of municipal court and maintained in a separate account with the city clerk-treasurer's office and used only to defray the cost of the service performed.

(e) The sentencing court shall, at the time probation is granted, make specification as to unsupervised probation, supervised or monitored probation or intensive supervised probation and in the specification of the latter two alternatives will order the frequency of the interview, counseling and contact visits along with the specified contribution per contact visit required by the probationer.
(Ord. No. 94-413, § 15-4(f)(5), 6-23-1994)

State law reference—Probation, Code of Ala. 1975, § 12-14-13.

Sec. 16-4. Court costs.

(a) Upon each conviction in the municipal court for violation of any provision of this Code or other ordinance of the city, there shall be taxed against the defendant as court costs the sum of $10.00. In each case where the defendant has posted cash bond and such bond is forfeited, there shall be taxed against the defendant as court costs the sum of $10.00. These costs shall be in addition to other costs provided by law. In all cases which are nolle prosequi, the court may, at the discretion of the judge, tax costs to the defendant or to the complainant.

(b) In addition to the court costs assessed in accordance with the provisions of subsection (a) of this section, there shall be assessed and collected on each case filed in the municipal court, and accounted for within a special account of the general fund, additional court costs and fees up to an amount not to exceed the court costs and fees in the district court of the county for a similar case. These funds are to be used exclusively for the operation and maintenance of a municipal correctional facility, other correctional facilities, any juvenile detention center, or any court complex. The court cost shall not be waived by any court unless all other costs, fees, assessments, fines or charges associated with the case are waived.

(c) No part of the court costs shall be taxed against or paid by the city.

(d) Whenever a person is tried on the complaint of another and acquitted, the municipal judge may, in his discretion, tax the party making the complaint with all or any of the costs.

(e) Court costs will not apply to parking violation adjudications.
(Ord. No. 94-413, § 15-6, 6-23-1994; Ord. No. 95-268, § 1, 4-11-1995; Ord. No. 95-592, 9-14-1995; Ord. No. 03-558, § 1, 7-10-2003)

State law reference—Court costs, Code of Ala. 1975, § 12-14-14.

Sec. 16-5. Costs for copies and certification of court records.

(a) A fee of $0.25 per page shall be charged for copies of court records made by the clerk; however, at the discretion of the clerk, copies of court records may be made at no charge for governmental agencies whether federal, state, county or municipal. A fee of $1.00 shall be charged by the clerk for each certification made to copies of court records. These costs are to defray the expense of the service performed. Such fees collected shall be distributed by the clerk to the city clerk-treasurer's office.

(b) Fees collected by the clerk for copies of court records shall be disbursed to the city general fund.

(c) As used in this section, the term "copies" shall mean any reproduction of a document of file in the office of the clerk, whether produced by photograph or photostat machine, by computer, by microfilm equipment, or by any other means.

(d) No case file shall be removed from the control of the clerk except by order of the court and only upon good cause shown.

(e) The provisions of this section shall not alter the provision that court files shall be open to inspection free of charge.
(Ord. No. 94-413, § 15-9, 6-23-1994)

Sec. 16-6. Municipal court administrative agency.

(a) The municipal court shall have under its supervision a municipal court administrative agency empowered to provide expeditious service in connection with administrative adjudication of ordinance violations; the handling of uniform traffic tickets and complaints; the issuance and accounting of arrest warrants; the issuance and accounting of search warrants issued by nonfull-time magistrates authorized to practice law in the state and whose remuneration shall be on a contract basis with payment for services verified and authenticated by the chief of police prior to disbursement of moneys; the acceptance of guilty pleas in accordance with the fine schedule as established in rule 20 of the state rules of judicial administration, including the supreme court's extended schedule of fines appearing as appendix B to rule 20, as now existing or hereafter amended by the state supreme court, and the fine schedule included under subsection (g) of this section; the summary disposition of parking offenses and the administrative adjudication of parking offenses wherein a dispute arises with appeals lying to the circuit court for a trial de novo; and other powers and duties provided by law.

(b) There is created the office of clerk of the municipal court. The clerk of the municipal court shall be appointed by the presiding judge of the municipal court, subject to approval by the council in the same manner as provided by law for the appointment of department heads in Act No. 738 of the 1971 legislature. The clerk of the municipal court shall hold office for the term of the mayor of the city, and may be removed or demoted for cause by the presiding judge of the municipal court, subject to review by the city council as provided for department heads in Act No. 738 of the 1971 legislature. The clerk of the municipal court shall serve as the chief administrative officer of the municipal court administrative agency and shall answer to the presiding judge of the municipal court. The clerk of the municipal court shall assist the presiding judge in connection with his duties as the administrative head of the municipal court, which shall include the presiding judge's responsibility to ensure that the business of the court is attended with proper dispatch, the court dockets are not permitted to become congested, and trials of cases are not unreasonably delayed. The clerk of the municipal court, or in his absence, the assistant municipal court clerk, or other such person as directed by the presiding judge, shall be responsible for the general custody and control of the records of the municipal court, and shall perform all duties of the court clerk as defined by the laws and supreme court rules of the state, and by the ordinances of the city; provided, however, that before performing the duties of magistrate, any such person must be duly appointed as a municipal court magistrate. In connection with the administration of justice within the municipal court, the clerk of the municipal court shall coordinate the functions and duties of administrative personnel and court-support persons and agencies, including magistrates, probation officers, court referral officers, victim advocates, and research personnel, so that the overall administration of justice may function with efficiency and cooperation. The clerk of the municipal court shall disburse funds collected by the court to the proper agencies, with such disbursements to be made not less than monthly, as provided by state law for municipal court clerks. The clerk of the municipal court shall be under the supervision of the presiding judge, and shall represent the municipal court on administrative matters before the mayor and council and at other times as deemed appropriate. The clerk of the municipal court shall perform such other duties as may be prescribed by the presiding judge. The clerk of the municipal court shall not be considered to be a department head or division manager and shall not be eligible for appointed employee pay as set forth in Ordinance No. 97-90.

(c) All officials, officers and employees of the municipal court, excluding the clerk of the municipal court, shall be classified employees within the city's then current salary classification plan, and shall be appointed by the clerk of the municipal court, subject to the approval of the presiding judge, and shall be subject to the provisions of the city's Personnel Policies and

Procedures Manual, except to the extent that this ordinance is in conflict with the provisions of such provisions.

(d) The presiding judge shall request the appointment of employees, subject to authorization by the city council, or the filling of vacancies (in accordance with the then current policy for filling vacancies) as needed for the efficient conduct of the business of the municipal court. Personnel action requests made by the municipal court shall be submitted by the presiding judge to the mayor and the city council. The presiding judge is authorized to direct the expenditure of funds budgeted for and appropriated to the municipal court. On behalf of the municipal court, the presiding judge, with the assistance of the clerk of the municipal court, shall report once every six months to the mayor on the state of the court. This report shall include, at a minimum, activities of the court that have fostered the maintenance or improvement in the five performance areas established by the trial court performance standards:

(1) Access to justice;

(2) Expedition and timeliness;

(3) Equality, fairness and integrity;

(4) Independence and accountability; and

(5) Public trust and confidence.

This report shall also include the court's compliance with the time standards for case management established by the American Bar Association, as the same may have been modified by the presiding judge of the municipal court.

(e) All magistrates of the municipal court shall maintain in the office of the court clerk a log showing the names of each person applying to the magistrate for a search or arrest warrant, together with a notation as to whether or not a warrant was issued as a result of such application.

(f) Municipal court shall be open for the transaction of court business. Any full-time judge, part-time judge, or substitute judge may hold regular sessions of court and special settings at such times as may be set by ordinance, by court rule, or by the presiding judge. A full-time judge or part-time judge shall be available to issue search warrants required by the police department, except for search warrants required during regular sessions of court. The presiding judge shall designate one or more of the full-time or part-time judge to be available to issue search warrants required by the police department, except for search warrants required during regular sessions of court.

(g) Municipal court magistrates, in addition to those powers and duties specified in subsection (a) of this section, may accept a plea of guilty and impose the stated fine for any of the following offenses:

Driving on Barricaded/Closed Road	$ 20.00
Failure To Signal	20.00
Improper Seating	20.00
Improper Towing	20.00
Wrong Way on One-Way Street	30.00
Disobeying Traffic Control Device	20.00
Improper Lane Change	25.00
Off Truck Route	25.00
Improper Lane Usage	30.00
Cutting Corner To Avoid Intersection	20.00
Headlights Required During Wiper Use	20.00
No Helmet/Shoes on Motorcycle	10.00
Operating Steel Disc on Highway	20.00
Highway Littering (on extended schedule)	100.00
Motorcycle Handlebar Violation	10.00
Motorcycle—Improper Riding	30.00
Pedestrian—Improper Crossing	10.00
No Horn/Improper Horn	20.00
Failure To Restrain or Confine Dog or Cat	20.00
Failure To Register/Obtain License/Permit for Animal	15.00

Failure To Confine a Female Dog or Cat in Estrus (Season/Heat)	25.00
Failure To Attach Current License Tag to Animal	15.00
Failure To Attach Current Rabies Tag to Animal	15.00
Confining Animal or Animals in Pen Less Than Minimum Area or Improper Distance from Occupied Dwelling	15.00
Allowing an Animal Other Than a Dog or Cat To Run At Large	25.00
Misuse of Animal Trap	25.00
Violation of chapter 12, article V (noise control ordinance)	50.00
Violation of section 8-3 (Vehicles displayed or offered for sale)	200.00
Violation of section 25-7 (Private property impoundment and repossession notification)	50.00

Any person convicted of two or more traffic violations in the past 12 months must appear in court. Failure to appear is not a traffic violation. Any person convicted of one or more violations of section 8-3 listed in this subsection must appear in court. Any person convicted of two or more violations of chapter 5 or section 25-7 listed in his subsection must appear in court. The fines listed above are in addition to all applicable court costs.

(Ord. No. 94-413, § 15-10, 6-23-1994; Ord. No. 95-268, § 2, 4-11-1995; Ord. No. 96-566, 7-11-1996; Ord. No. 96-659, § 1, 9-12-1996; Ord. No. 00-190, § 1, 2-24-2000; Ord. No. 00-444, § 1, 6-6-2000; Ord. No. 01-902, 11-8-2001; Ord. No. 22-36, § 1, 1-27-2022)

State law reference—Municipal court administrative agency, Code of Ala. 1975, § 12-14-50 et seq.

Sec. 16-7. Time and manner of beginning prosecutions.

Prosecutions for violations of the provisions of this Code and other city ordinances must be commenced within 12 months after the commission of the act or offense complained of, and may be begun by summons, by warrant of arrest, or by arrest without warrant.

(Ord. No. 94-413, § 15-12, 6-23-1994)

Sec. 16-8. Person arrested to be brought before municipal judge unless bailed.

(a) When any person is arrested, with or without a warrant, for the violation of any ordinance of the city, it shall be the duty of the officer making the arrest to bring such person before the municipal judge, or to detain him in custody until he can be brought before the judge, unless such person shall give bond, in the sum of not more than $1,000.00, as the court shall prescribe, conditioned for his appearance before the judge on the day named, not more than three days after the arrest, to answer the charge preferred against him. Upon giving such bond, such person shall be discharged from custody.

(b) In case of an arrest without a warrant, the arresting officer shall have the probation officer's written statement provided under Code of Ala. 1975, § 12-14-13(i).

(Ord. No. 94-413, §§ 15-4(f)(4), 15-13, 6-23-1994)

Sec. 16-9. Subpoenas for witnesses.

Subpoenas for witnesses for the city or the defendant may be issued by the municipal judge or the municipal court clerk. It is the duty of the chief of police or any police officer, to whom they are delivered, to execute and return them to the court clerk.

(Ord. No. 94-413, § 15-21, 6-23-1994)

State law reference—Execution of process, Code of Ala. 1975, § 12-14-4.

Sec. 16-10. Judgment nisi on failure of witness to appear; notice and judgment final.

(a) If witnesses, after being summoned, fail to appear and testify, a conditional judgment may be rendered against them and in favor of the summoning party; and in such cases, the proceedings, in all material respects as to notice, final

judgment and other matters may be made to conform to those provided in the case of forfeited bail bonds.

(b) The penalty for the nonattendance of witnesses shall be $100.00; and the judgment nisi must be entered for that amount, to be made absolute for the whole or any part, as the municipal judge shall determine.
(Ord. No. 94-413, § 15-22, 6-23-1994)

Sec. 16-11. Statement of offense contents.

No statement of the offense need be made other than that contained in the summons or complaint and warrant of arrest. It shall be a sufficient statement of the offense in the complaint, warrant or entry on the court docket to designate the offense or act by name, or by some other phrase which in common parlance designates it. It shall be no objection to the proceedings that they are imperfect or inaccurate, and all amendable errors shall be regarded as amended, so as to present only the substantial inquiry of the guilt or innocence of the defendant in accordance with all applicable federal, state and local laws.
(Ord. No. 94-413, § 15-23, 6-23-1994)

Sec. 16-12. Establishment of comprehensive traffic safety programs.

(a) There is established an alcohol abuse educational program to be known as the highway intoxication seminar, which shall be under the supervision of the clerk of municipal court. Each person attending the seminar shall be charged no more than $300.00 for evaluation and/or registration. Such fees are to be assessed by the judge of municipal court as appropriate unless waived by the municipal judge or by the clerk of municipal court in such cases where the individual is being referred by an outside agency.

(b) There is established a traffic safety educational program which shall be under the supervision of the clerk of municipal court. Each person attending the seminar shall be charged no more than $150.00 for registration. Such fees are to be assessed by the judge of municipal court as appropriate unless waived by the municipal judge or by the clerk of municipal court in such cases where the individual is being referred by an outside agency.

(c) There is established an advisory committee consisting of the presiding municipal judge or his designee, the chief of police or his designee, and the city attorney or his designee.

(d) The clerk of municipal court shall be responsible for scheduling of classes, instructors and facilitators and setting reasonable fees for the payment of the instructors and facilitators. The clerk of municipal court shall adopt rules and regulations for the operation of the established educational programs, criteria for acceptance and completion and established fees for the appropriate program. These rules and regulations, policy and procedures, and fee list shall be readily available for public inspection.

(e) All moneys collected as a result of this article in the form of registration fees, evaluation fees and/or tuition fees shall be maintained in a separate account with the city clerk-treasurer's office to be used only to defray the cost of services provided by the previously mentioned educational programs and for the purpose of providing various other traffic safety education and awareness programs to the city through the highway safety office of municipal court. The collection and use of these moneys shall be under the supervision of the clerk of municipal court.
(Ord. No. 94-413, § 15-24, 6-23-1994)

Sec. 16-13. Work release programs.

(a) There is established a work release program to be under the supervision of the presiding judge of the municipal court. The judges of the municipal court shall have the authority to sentence defendants, upon petition to the court by the defendant or upon application through a duly appointed officer of the court, to any one of the established programs.

(b) Municipal court work release will consist of three distinct types of programs applicable at the discretion of the court.

(1) Private industry work furlough involves the qualifying individual's being allowed

to go to his jobsite during working hours on the judge's authorization. The individual must return to confinement at the end of his specified workday and can go nowhere else without the approval of the court. An inmate who is released from custody under this program is required to pay costs incident to confinement equal to one hour gross wage for each day of work release as a minimum and no more than 20 percent of the gross wage per day of work release as a maximum, as ordered by the court. These costs will be deposited with the clerk of municipal court and maintained in a separate account with the city clerk-treasurer's office and used

only for the purposes as are established by the presiding judge and available for public inspection.

(2) Inmate community service involves the qualifying individual's being assigned to supervised work crews which are detailed to different city departments for community service projects. This program does not involve furlough and is based on supervised/custody work within the community. Appropriate rules, regulations and policies will be established by the presiding judge and available for public inspection.

(3) Alternative service involves the qualifying individual's being assigned community service work as opposed to incarceration. The program is based on intensive supervision and requires the court's authorization for placement. The individual must report to the court for community service work each day at a specified time unless otherwise authorized by the court. Appropriate rules, regulations and policies will be established by the presiding judge and available for public inspection.

(c) Municipal court work release programs may utilize extended limits of confinement to facilitate its purpose and is authorized to adopt rules, regulations and policies with specification and definition as to those extended limits of confinement.

(d) Municipal court work release programs designated as private industry work furlough and alternative service may utilize remote electronic monitoring with the convicted misdemeanant's voluntary participation and the affirmative discretion of the court. Any convicted misdemeanant participating in the remote electronic monitoring system who receives a wage from gainful employment shall be required to pay one hour of the gross wage, per day of utilization, for maintenance of the system, to be deposited with the clerk of municipal court and maintained in a separate account with the city clerk-treasurer's office and used only to defray the cost of the service performed.

(e) Indigent convicted misdemeanants will be subject to and governed by all laws presently in effect and hereinafter enacted.

(f) Convicted misdemeanants that are involved in municipal court work release programs will be responsible for their own medical costs pursuant to law.

(g) The municipal court shall adopt pertinent, reasonable and across-the-board rules, regulations, policies, procedures and guidelines, available for public inspection, regarding the availability, implementation, evaluation, utilization and maintenance of work release programs under the direction of the municipal court.
(Ord. No. 94-413, § 15-25, 6-23-1994)

Sec. 16-14. Indigent defense system.

(a) *Purpose.* The purpose of this section is to:

(1) Establish the indigent defense system to be used in the municipal court;

(2) Provide for the collection, accounting and disbursement of moneys used in the indigent defense system; and

(3) Provide legal counsel for any person found to be indigent by the court.

(b) *Definitions.* The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Appointed counsel means any attorney licensed to practice law in the state who is appointed by the court to represent one or more indigent defendants.

Indigent defendant means any person charged in a criminal proceeding in the municipal court for which proceeding representation by counsel is constitutionally required and who under oath or affirmation states that he is unable to pay for his defense and who is found by the court to be financially unable to pay for the defense.

Indigent defense system means any method or mixture of methods for providing legal representa-

tion to indigent defendants, including use of appointed counsel or any alternative method meeting constitutional requirements.

(c) *Provision of indigent defense services.*

(1) Pursuant to the provisions of Code of Ala. 1975 tit. 15, ch. 12 (Code of Ala. 1975, § 15-12-1 et seq.), §§ 12-14-9, 12-19-250, 12-19-250.1, and 12-19-251.1, the municipal court (clerk) administrator shall collect the appropriate fair trial tax on all applicable cases and deposit the moneys in the general fund of the city. Upon using and expending so much of the moneys as is necessary to defray the costs of providing representation for indigent defendants in the municipal court and after payment of such costs, the city shall pay into the state treasury any funds not used for that purpose with an accounting of the moneys expended. Attorney's fees to be paid by the city from this fund must be claimed on the proper fee declaration form duly authenticated and authorized by the signature of the municipal judge.

(2) The municipal court (clerk) administrator shall maintain a roster of six attorneys licensed to practice law in the state. One such attorney will attend each session of municipal court, as necessary, and shall be appointed by the court to assist indigent defendants at initial appearances, plea negotiations, guilty pleas and sentence impositions from previous appearances.

(3) The municipal court (clerk) administrator shall maintain a roster of all interested attorneys licensed to practice law in the state. Any rostered attorney may be appointed at any time to represent an indigent defendant as private counsel for trial arrangements, trials, appeals or any other circumstance when the appointed attorney as provided in subsection (c)(3) of this section cannot provide prompt and adequate representation or when a conflict of interest is evident.

(Ord. No. 94-212, §§ 1—3, 4-14-1994)

State law reference—Indigent defense, Code of Ala. 1975, § 12-14-9.

Sec. 16-15. Establishing a pretrial diversion program.

(a) Pursuant to authority granted by the state legislature, a pretrial diversion program is hereby established whereby certain offenses may be dismissed upon a defendant's successful completion of the program requirements including, but not limited to, payment of applicable fees and costs, treatment, and community service work. Eligibility for the program shall be determined by the municipal court and shall be subject to the City of Huntsville Pretrial Diversion Guidelines and Procedures as approved by the city's governing body. Eligibility further requires an admission of guilt and a waiver of the right to appeal by defendants entering the program. Any defendant who fails to comply with the requirements of the pretrial diversion program may face sanctions (including incarceration, extension of time of supervision, or further orders of the court), or termination from the program.

(b) The presiding municipal court judge, acting in consultation with the municipal prosecutor(s) of the office of the city attorney, is hereby authorized to establish guidelines regarding eligibility for participation in the pretrial diversion program pursuant to enabling legislation enacted by the Legislature of the State of Alabama and as approved by the city's governing body. The presiding municipal court judge's guidelines are attached hereto and the presiding municipal court judge, after consultation with the municipal prosecutor(s) shall have the authority to modify the guidelines as needed.

(c) The following application fees assessed for admittance and evaluation for the pretrial diversion program shall be based on the underlying criminal offense charged and shall be charged as follows:

(1) DUI: $507.00;

(2) Theft of property in the third degree: $307.00;

(3) Domestic violence offenses (excludes offense involving a minor child as victim): $507.00;

(4) Other misdemeanor offenses: $307.00; and

(5) Other violations: $307.00.

The application fee shall be nonrefundable upon approval for participation in the pretrial diversion program. The application fee shall be collected by the city municipal court clerk and allocated to the city's general fund, except that a minimum of 25 percent shall be directed to the City of Huntsville's Advanced Technical Data Fund and a minimum of 25 percent shall be directed to the City of Huntsville Indigent Treatment Fund as established by the city.

(d) The following monitoring, supervision and testing fees for participation in the pretrial diversion program shall be assessed as follows:

(1) Compliance monitoring fee: $30.00, per appointment;

(2) Drug/alcohol testing fee: $25.00, per test; and

(3) Rescheduling fee: $15.00, per reschedule.

Each offender shall also be responsible for payment of the cost of any treatment program made a part the offender's pretrial diversion program. Such programs may include: drug and alcohol treatment programs, other addiction treatment programs, behavior modification treatment programs or other therapy programs as may be required on a case by case basis.

In addition to all fees required for participation in the pretrial diversion program, an offender shall also be liable for all court costs and fees, restitution, victims' compensation fund assessment, and any and all other fees and assessments, in the same manner as if the offender had not applied for entry into the program and has been found guilty of the offense or offenses involved. No costs, fees, restitution, or assessments shall be waived or remitted, absent an express agreement to that effect between the city judge and the offender, without a finding by the city judge that the offender does not have the reasonable ability to pay the same within the reasonably foreseeable future.

With the exception of the evaluation fee, as previously provided, all other pretrial diversion program fees, assessments and treatment program costs, as well as, all court costs, court fees and court assessments shall be collected by the city municipal court clerk and shall be distributed as provided by state law. The municipal court clerk shall also collect fees as required by Code of Ala. 1975, § 12-17-226.17, as that section may be amended.

(e) The City of Huntsville Office of Probation shall be charged with reporting information to the office of prosecution services as required by Code of Ala. 1975, § 12-17-226.17, as that section may be amended.
(Ord. No. 13-845, § 1, 11-7-2013; Ord. No. 18-670, § 1, 9-13-2018)

Secs. 16-16—16-50. Reserved.

ARTICLE II. BAIL BONDS*

Sec. 16-51. Cash bail bonds.

(a) The clerk of municipal court, or designee as provided by law, shall be authorized to accept cash bonds on criminal charges for violation of any section of this Code or other ordinance of the city within the city. Such bond shall be approved by the municipal judge or magistrate.

(b) The municipal judge of the city may forfeit such cash bonds placed with the clerk of municipal court, or designee as provided by law, by persons arrested for violation of any provision of this Code or other ordinance of the city for their appearance in the municipal court upon the failure of the person arrested to appear in accordance with the terms of such bail.

(c) All cash bonds heretofore accepted by the clerk of municipal court, or designee as provided by law, and heretofore forfeited by the person charged with violation of any provision of this Code or other city ordinance by their failure to appear in the municipal court and upon which the municipal judge has entered a forfeiture shall be and are forfeited to the city.

*__State law reference—__Bail, Code of Ala. 1975, § 12-14-5.

(d) All such cash bonds forfeited to the city shall be transferred in a timely manner, by the clerk of municipal court, to the city clerk-treasurer.
(Ord. No. 94-413, § 15-14, 6-23-1994)

Sec. 16-52. Liability on bail bond.

The bail bond provided for in this article binds all and each of the obligors for the appearance of the defendant on the day named, and on each subsequent day to which the case may be adjourned or continued, until discharged by law.
(Ord. No. 94-413, § 15-15, 6-23-1994)

Sec. 16-53. Judgment nisi on default of appearance.

If the defendant fails to appear, as required by his bail bond, the municipal judge shall enter up a conditional judgment against him and his sureties.
(Ord. No. 94-413, § 15-16, 6-23-1994)

Sec. 16-54. Notice of judgment nisi.

(a) If the defendant fails to appear, the municipal court clerk shall issue a notice to each defendant of the rendition of judgment nisi.

(b) The notice provided for in this section may be executed by the chief of police or any police officer and must be returned by the officer executing it, with the proper return, on or before the day appointed for the parties to show cause.
(Ord. No. 94-413, §§ 15-17, 15-18, 6-23-1994)

Sec. 16-55. Alias notice.

If the notice mentioned in section 16-54 is not served on any of the parties, such other notices as are necessary may, from time to time, be issued, or the court may proceed against the parties on whom notice has been served.
(Ord. No. 94-413, § 15-19, 6-23-1994)

Sec. 16-56. When judgment set aside, reduced or made absolute.

If the defendants appear and show sufficient cause for the default, the conditional judgment shall be set aside without costs; but if they fail to appear, or appearing fail to show sufficient excuse for the default, the judgment must be made absolute for the entire penalty of the bond, or any part of the bond, according to circumstances, as the municipal judge shall deem proper.
(Ord. No. 94-413, § 15-20, 6-23-1994)

Chapter 17

OFFENSES AND MISCELLANEOUS PROVISIONS*

Article I. In General

Sec. 17-1. State misdemeanors, violations and offenses.
Sec. 17-2. Posting bills, similar materials.
Sec. 17-3. Swimming in drainage system facilities.
Sec. 17-4. Fishing in drainage system facilities.
Sec. 17-5. Unattended receptacles.
Sec. 17-6. Graffiti.
Sec. 17-7. Global positioning system monuments.
Sec. 17-8. Discontinuance of CATV service.
Secs. 17-9—17-40. Reserved.

Article II. Offenses Against Property Rights

Sec. 17-41. Failure to return library books.
Secs. 17-42—17-70. Reserved.

Article III. Offenses Against Public Safety

Sec. 17-71. Emergency calls; interference.
Sec. 17-72. Discharging firearms.
Sec. 17-73. Discharging air rifles, airguns, air pistols, BB guns, paintball guns.
Secs. 17-74—17-100. Reserved.

Article IV. Offenses Against Public Peace and Order

Division 1. Generally

Sec. 17-101. Sleeping in parked vehicles, public places or on private lot of another.
Sec. 17-102. Disturbing the peace.
Sec. 17-103. Trespassing, prowling, loitering, etc. on private property.
Sec. 17-104. Police department firing range.
Sec. 17-105. Police department evidence and impound storage lot and/or facility.
Secs. 17-106—17-120. Reserved.

Division 2. Unlawful Assemblies

Sec. 17-121. Definitions.
Sec. 17-122. Authority to prohibit use of public places when disorder threatened.
Sec. 17-123. Delegation of authority in absence of chief of police.
Sec. 17-124. Authority to prohibit persons near jails.
Sec. 17-125. Demonstrations in public buildings.
Secs. 17-126—17-150. Reserved.

Division 3. Mobs, Riots and Tumults

Sec. 17-151. Prohibiting sale of firearms, alcoholic beverages.
Sec. 17-152. Curfew authorized.

*__Cross reference—__Traffic and vehicles, ch. 25.

Secs. 17-153—17-180. Reserved.

Article V. Offenses Against Public Morals

Division 1. Generally

Sec. 17-181. Possession or use of glue and other intoxicating chemical substances.
Sec. 17-182. Betting with a minor.
Sec. 17-183. Animal fighting.
Secs. 17-184—17-200. Reserved.

Division 2. Obscenity

Sec. 17-201. Definitions.
Sec. 17-202. Exceptions.
Sec. 17-203. Distribution, possession with intent to distribute obscene material prohibited.
Sec. 17-204. Dissemination of obscene material.
Sec. 17-205. Material harmful to minors; distribution, possession with intent to distribute, display for sale prohibited; affirmative defenses.
Sec. 17-206. Employment of minor to violate provisions.
Sec. 17-207. Promotion of sales of material.
Sec. 17-208. Compelling the receipt of material.
Secs. 17-209—17-230. Reserved.

Division 3. Prostitution

Sec. 17-231. Definitions.
Sec. 17-232. Penalties.
Sec. 17-233. Declared unlawful.
Sec. 17-234. Soliciting, inviting or enticing person for the purpose of prostitution; loitering for such purposes.
Sec. 17-235. Agreeing to engage in sexual conduct for value.
Sec. 17-236. Causing or allowing member of family to prostitute themselves.
Sec. 17-237. Transportation of persons for immoral purposes.
Sec. 17-238. Aiding, abetting, procuring, receiving profit from prostitution.
Sec. 17-239. Servants of lodging places aiding or abetting prostitution.
Secs. 17-240—17-270. Reserved.

Article VI. Offenses Against Administration of Government

Sec. 17-271. Alteration or forgery of licenses, permits or other certificates.
Secs. 17-272—17-300. Reserved.

Article VII. Security Systems

Sec. 17-301. Definitions.
Sec. 17-302. Fines and penalties.
Sec. 17-303. Violations.
Sec. 17-304. Purpose.
Sec. 17-305. Appeals.
Sec. 17-306. Alarm business.
Sec. 17-307. Alarm permit required; application; fee; transferability; false statements.
Sec. 17-308. Multi-unit alarm systems.
Sec. 17-309. Proper alarm system operation and maintenance.
Sec. 17-310. Prohibited alarm equipment.
Sec. 17-311. Records.

Sec. 17-312. Public safety office.
Sec. 17-313. Security camera program.
Sec. 17-314. Reserved.
Sec. 17-315. Reserved.

ARTICLE I. IN GENERAL

Sec. 17-1. State misdemeanors, violations and offenses.

(a) Any person committing an offense within the corporate limits of the city that is declared by a law of the state to be a misdemeanor shall be guilty of an offense against the city.

(b) Any person committing an offense within the corporate limits of the city, or that is declared by a law of the state to be a violation shall be guilty of an offense against the city.

(c) Any person committing within the corporate limits of the city an offense as defined by section 13A-1-2 of the Alabama Criminal Code, which offense is not declared by a law of the state to be a felony, misdemeanor or violation shall be guilty of an offense against the city.

(d) Except as described below, a person convicted of a violation of this section shall be punished by a fine not exceeding $500.00 or by imprisonment in the city jail or hard labor for a period not exceeding six months, or by any combination thereof:

(1) In the enforcement of a Class A misdemeanor, including a domestic violence offense, the fine may not exceed $5,000.00 and the sentence of imprisonment may not exceed one year;

(2) In the enforcement of penalties prescribed in Code of Ala. 1975, § 32-5A-191, the fine shall not exceed $5,000.00 and the sentence of imprisonment or hard labor shall not exceed one year;

(3) The maximum fine for a person either convicted for violating any of the misdemeanor offenses described in Code of Ala. 1975, § 11-45-9(d) or adjudicated as a youthful offender thereof shall be $1,000.00;

(4) When a provision of this Code provides a particular penalty expressly applicable to certain violations, the express penalty shall be the penalty imposed upon the conviction for those certain violations;

(5) The penalty imposed upon a corporation shall consist of the fine only, plus costs of court.

(e) Except as otherwise provided by law or ordinance, with respect to violations of this Code that are continuous with respect to time, each day that the violation continues is a separate offense.

(Code 1982, § 18-4; Ord. No. 83-448, § 1, 10-13-1983; Ord. No. 96-290, 4-11-1996; Ord. No. 18-249, 4-26-2018)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 17-2. Posting bills, similar materials.

It shall be unlawful for any person to post any bill or advertisement, sign or notice by attaching it to or placing it around or against any telegraph, telephone or electric light pole or street lighting post in the city. It shall be unlawful for any person to post any bill or advertisement by attaching it to or placing it around or against any tree within the right-of-way of a dedicated street or highway within the city.

(Code 1982, § 18-26)

Sec. 17-3. Swimming in drainage system facilities.

It shall be unlawful for any person to swim in any creek, stream, ditch, pipe or similar facility maintained by the city as part of its public drainage system.

(Code 1982, § 18-19)

Sec. 17-4. Fishing in drainage system facilities.

It shall be unlawful for any person to fish in any creek, stream, ditch or similar facility maintained by the city as part of the city's drainage system without the permission of the owner, the owner's agent or person in possession of the property upon which the easement or right-of-way for the maintenance of the facility is located.

(Code 1982, § 18-20)

Sec. 17-5. Unattended receptacles.

(a) *Generally.* It shall be unlawful for any person to cause or allow to be placed, left or kept upon any lot or parcel of land within the corporate limits of the city any remote and unattended receptacle, bin, box, container, portable building or structure for the purpose of collecting, holding or storing discarded clothing, furniture, household hardware, appliances, household items or any other tangible items.

(b) *Exceptions.* Excepted from the requirements of this section are:

(1) Any accessory structure, portable building or other secondary structure which is located on the same property on which a primary structure is located and which is incidental to the occupation and use of any residential or commercial structure provided the structure is maintained and located in accordance with the ordinances and regulations of the city.

(2) Any dumpster, trash receptacle or other container for the collection and storage of trash, garbage or debris provided the dumpster, trash receptacle or container is maintained and located in accordance with the laws of the city.

(3) Any receptacle, box, bin, container, portable building or structure that is located on the premises where the daily business operations of a charitable organization are conducted provided such receptacle, box, container, portable building or structure is maintained in accordance with the zoning ordinance and other ordinances of the city.

(c) *Enforcement.* The manager of community development or his authorized representative shall be responsible for and possess the authority to enforce the provisions of this section. If any person shall fail or refuse to comply with the requirements of this section, the manager of community development or any code enforcement officer of community development may cause to be served upon such person, in person or by first class mail, a written official notice apprising the person of the violation of this section and requiring such person to comply with this section within a time stated in the notice, which shall be a period of not less than 15 calendar days. If a person fails to comply with the notice which has been served upon him in accordance with this section the manager of community development or any code enforcement officer working under his supervision may appear before the municipal court magistrate and make oath as to the facts constituting a violation of this section and apply for a summons or warrant with respect to any alleged offense. Any person found guilty of a violation of this section shall be subject to the same penalties as provided for violations of city ordinances in section 1-7.

(d) *Removal.* In addition to or in lieu of the enforcement procedures outlined in this section, the manager of community development or his authorized representative may cause the receptacle, bin, box, container, portable building or structure and its contents which are in violation of this section to be removed from its location and impounded at a depository designated by the manager of community development for such purpose. The receptacle, bin, box, container, portable building or structure and its contents shall be held at the depository for a period of 30 days, during which time it may be retrieved by the owner provided the owner reimburses the city for the reasonable costs of transportation to and storage in the depository. In no event shall the owner be required to reimburse the city more than $100.00. After 30 days, the receptacle, bin, box, container, portable building or structure and its contents if any shall be disposed of in the most suitable manner as determined by the manager of community development.

(Ord. No. 95-469, §§ 1, 2, 7-13-1995)

State law reference—Citations, Code of Ala. 1975, § 11-45-9.1.

Sec. 17-6. Graffiti.

(a) *Intent.* Graffiti on private or public property is a blighting factor which deteriorates property and depreciates the value of the property and of adjacent and surrounding properties. The city council finds that graffiti or related inscribed material is a public nuisance and recognizes that

it is done without the permission of the property owner and constitutes an act of vandalism, and is criminal activity under state law. It is the city council's further intent to provide for the prohibition of the placement of graffiti on public or private property as set forth in this section. Graffiti is inconsistent with the city's aesthetic standards and is injurious to the comfort, welfare and safety of the community. The existence of graffiti tends to breed community discontent and further criminal activity. The prompt removal of graffiti is necessary to prevent its proliferation, and failure to promptly remove or obscure graffiti increases the likelihood and probability that more graffiti will occur on the same site and on other nearby property. While a property and its owner or possessor are usually victims of the graffiti, it is always the duty of the owner or possessor of the property to remove graffiti immediately. To assist in preventing and controlling the spread of graffiti, the city council authorizes the use of city funds to remove graffiti on public and private property as set forth in this section. The council does not intend for this section to conflict with any existing state law.

(b) *Definitions.* The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Code officer means an officer or employee of the code enforcement section of the community development division of the city.

Community development means the community development division of the city.

Graffiti means any writing, drawing, inscription, figure, letter, number, symbol, word, marking, or combination, or other defacement with paint, ink, chalk, dye or other similar substances, or which are etched on public or private buildings, structures or places which are not authorized in advance by the property owner, or which are not permitted under the city's codes and ordinances, or despite authorization by the property owner or responsible party, is otherwise deemed a public nuisance by the city. Graffiti includes but is not limited to any form of writing, drawing, doodling, inscription, figure, letter, number, word, symbol, marking or etching, initials, slogans, aphorisms, threats or insults, expressions of profanity, or that which is deemed obscene, vulgar or otherwise offensive, or other defacements, regardless of the content or nature of the materials used in the commission of the act.

Graffiti nuisance means any graffiti that has not been immediately removed or otherwise abated by the owner or responsible party of the property.

Manager means the manager of the community development division of the city or his designee or representative.

Owner means the recorded legal titleholder, or any person, group, firm, company, association or corporation having a legal or equitable interest in real or personal property, including but not limited to the interest of a lessee, tenant or occupant, or possessor of property.

Property means any real or personal property, including but not limited to any building, structure, wall, sign or fence, or that which is affixed, incidental or appurtenant to real property.

Public nuisance means any public nuisance known at common law, or that which may be detrimental to the health, safety or welfare of the public. Property defaced by graffiti is declared a public nuisance.

Responsible party means an owner, lessee, tenant, occupant or person acting as an agent or manager for an owner, a lessee, tenant, occupant or any person having possession, charge or control of a property. Regardless of any arrangement or agreement to the contrary with any other party, each owner shall be a responsible party for the purposes of this section. There may be more than one responsible party for a property.

(c) *Graffiti prohibited.*

(1) *Application of graffiti.* It shall be unlawful for any person to write, paint, scratch, inscribe, scrawl, spray, place, draw or otherwise apply graffiti to any public or private building, structure or any other property within the city. Any person convicted of an offense under this subsection (c)(1) shall be fined not less than $200.00 and shall be ordered to perform a minimum of ten hours of community service for each offense.

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

(2) *Duty of owner and responsible party.* It shall be the duty of the owner or responsible party of a property to maintain that property free from graffiti. It shall be unlawful for an owner or responsible party to allow graffiti to remain on his property or to fail, neglect or refuse to immediately remove or abate any graffiti from his property. Any owner or responsible party whose property is vandalized by the application of graffiti is encouraged to notify community development. Upon notification by an owner or responsible party, community development shall notify the gang task force, or other appropriate contact, within the criminal investigation division of the police department, which shall record all reports of graffiti for investigation and reference purposes. If the owner or responsible party notifies com-

munity development as provided in this subsection, such owner or responsible party shall be allowed 14 days from the date of such notification to abate the graffiti nuisance, using whatever resources may be available for graffiti abatement through community development. Should the owner or responsible party fail, neglect or refuse to remove or abate the graffiti from the property within the 14 days provided in this subsection, the owner or responsible party shall be issued a notice from community development to abate the graffiti as provided in subsection (d)(2) of this section.

(d) *Enforcement.*

(1) *Inspections.* The community development manager or any code officer is authorized to make inspections of properties within the city to enforce the provisions of this section.

(2) *Notice.* If the owner or responsible party of any real property within the corporate limits of the city shall fail, neglect or refuse to comply with the provisions of this section, the community development manager or any code officer may cause to be served upon the owner or responsible party, in person or by first class mail, a written notice apprising the owner or responsible party of the violation of this section and requiring such owner or responsible party to comply with this section by removing or abating graffiti within 14 days of the date the notice is issued. This notice shall contain the street address or location of the property, a statement that the property is a graffiti nuisance, a concise description of the conditions that render the property a graffiti nuisance, and a statement that the graffiti nuisance must be abated by removal within a time as specified in the notice. The notice shall advise the owner or responsible party that if the graffiti nuisance is not abated within the allowed time, the city may enter the property and abate the graffiti nuisance and assess the costs of abatement to the property owner or responsible party and cause a citation to the municipal court to be issued for a violation of this section. The notice shall also advise that the owner or responsible party may request an appeal hearing as set forth in subsection (d)(3) of this section, and shall name the date, time and place for the hearing.

(3) *Appeal hearing.* An owner or responsible party receiving a notice may request an administrative hearing before the community development manager, or other hearing officer as designated by the community development manager, to determine whether the owner or responsible party is in violation of this section. The community development manager and the owner or responsible party shall have the right to compel attendance of witnesses on their behalf at such hearing. If after the hearing the community development manager determines that this section has been violated, the owner or responsible party shall have five days from the date of notification of the determination to comply with this section. If the owner or responsible party fails, neglects or refuses to comply after such notification, the community development manager may institute the following enforcement procedures:

a. The community development manager may cause the abatement of the graffiti nuisance by removing or obscuring the graffiti. An account of the costs of the abatement shall be kept by the community development manager. Costs may include but are not limited to costs incurred in inspecting the property, in documenting the nuisance, in preparation of notices, work orders, and abatement contracts, and in inspection of the abatement work, in legal expenses, and other expenses. A billing notice of the expenses incurred by the city for the graffiti abatement may be served upon the owner or responsible party by certified mail or by

personal delivery. The billing notice shall include the street address or location of the property where the abatement occurred and a statement of the expenses incurred by the city for abating the nuisance on the subject property and requiring that the expenses be paid to the city within 30 days from the date of the billing notice, or an assessment may be placed against the subject property. If the expenses are not paid within the allotted time, the community development manager may render an itemized report in writing to the city council setting forth the costs for abating the graffiti nuisance and requesting that an assessment be placed against the subject property. The community development manager shall notify the owner or responsible party at least five days in advance of the time fixed for the council to receive the report, and the owner or responsible party may appear at that time and present any objections to the report. At the time fixed for receiving and considering the report, the council shall hear the report, along with any objections which may be raised by the owner or responsible party whose property is liable to be assessed for the abatement. The council may make such modifications to the report as they deem necessary, after which by motion or resolution the report shall be confirmed. The amounts set forth in the report shall constitute special assessments against the subject property and shall constitute a lien on the property for the amount of the assessments. After confirmation of the report, a copy shall be given to the city clerk-treasurer, who is charged with the collection of assessments, whereupon it shall be the duty of the city clerk-treasurer to charge the assessments against the respective property; and thereafter the amounts shall be collected at the same time and in the same manner as ordinary municipal assessments are collected and shall be subject to the same penalties and the same procedures under foreclosure and sale in case of delinquency as provided for ordinary municipal assessments.

b. The community development manager, or any code officer, may cause a citation to be issued to any owner or responsible party who, after written notice has been issued, fails, neglects or refuses to comply with the provisions of this section. Such citation shall name the party charged, the address or location of the property where the graffiti nuisance is located, and the nature of the offense or violation. It shall also apprise the responsible party of the date, time and place at which to appear for court. Such citation shall be returnable to the municipal court.

c. The community development manager may institute both enforcement procedures set forth in subsections (d)(3)a. and b. of this section.

(e) *Emergency removal.* If the community development manager or any code officer determines that any graffiti is an immediate danger to the health, safety or welfare of the public, then 48 hours after the notice is posted on a conspicuous place on the property, the city may remove or cause the graffiti to be removed.

(f) *Right of entry.* The community development manager, or any code officer, is authorized to enter upon any property within the city for the purpose of enforcing this section, or for the purpose of abating a graffiti nuisance.

(g) *Materials.* In no case shall the city be required to paint or repair any more extensive an area than that where graffiti is located, or is necessary to remove or abate the graffiti, as determined by community development. The city shall not be required to restore the property to its original condition with regards to color, texture or type material used for abatement.

(h) *Penalty.* Any owner or responsible party of a graffiti nuisance property who violates this section by allowing graffiti to remain upon the property shall upon conviction be punished by a fine of not less than $100.00 upon conviction in the municipal court.
(Ord. No. 96-918, §§ 1—8, 11-25-1996)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 17-7. Global positioning system monuments.

The city, to aid in more accurate surveying, has placed global positioning system (GPS) monuments at various locations. Global positioning system monuments are concrete cylinders four feet in length, eight inches in diameter with numeric characters engraved on a three-inch diameter brass disc implanted in the cylinder and placed in the ground with the brass disc exposed or just below grade. The alteration, removal, disfiguration or destruction of a global positioning system monument without the specific permission of the public works services department is an act of destruction of city property and is unlawful.
(Ord. No. 87-244, 6-23-1987)

Sec. 17-8. Discontinuance of CATV service.

(a) No franchised cable TV provider of the city shall disconnect or discontinue basic subscriber service to any subscriber, solely on the basis that the subscriber has refused the provider entry into the living area of the residential subscriber; however, such service may be discontinued after notification by the franchise holder to both the subscriber and to the city clerk-treasurer and after a hearing by the city council if the provider shows that there is reasonable grounds for such entry and that entry has been denied.

(b) Reasonable grounds shall include but are not limited to:

(1) Reasonable suspicion that the operation of a subscriber's equipment and attached to the franchise holder's cable is causing interference which places the franchise holder in potential violation of FCC regulations.

(2) Reasonable grounds to believe that illegal or unauthorized connections or attachments are attached to the franchise holder's cable.

This provision shall not apply where there is an immediate danger to public safety because of the connection.
(Ord. No. 83-444, 12-8-1983)

Secs. 17-9—17-40. Reserved.

ARTICLE II. OFFENSES AGAINST PROPERTY RIGHTS*

Sec. 17-41. Failure to return library books.

(a) It shall be unlawful for any person who has been issued a membership card by the Huntsville Public Library, the government and supervision of which is vested in the library board, after receiving written notice as provided in this section, to fail or refuse to return or cause to be returned any book, periodical, recording or other material borrowed or withdrawn from the library or any branch or bookmobile of the library on such card to the public library, together with all overdue assessments or late charges, in compliance with the rules of the board.

(b) The failure of any person borrowing or withdrawing any book, periodical, recording or other material from the library or any branch or bookmobile on any membership card issued by the library to return the material within the time required by the rules of the board shall be prima facie evidence of intent not to return the book, periodical, recording or other material to the library by the holder of the membership card to which the material is charged.

(c) Any person who is shown to be the holder of a membership card upon the records of the library shall be chargeable with all loans or withdrawals made upon such membership card unless such person shall have prior to such loan or withdrawal surrendered his card to the library or given written notification to the library of the loss or theft of the card.

*__State law reference—__Offenses against property rights, Code of Ala. 1975, §§ 13A-7-1 et seq., 13A-8-1 et seq.

(d) Before any holder of a membership card of the public library shall be charged with any violation of this section, such holder shall first be given not less than ten days' written notice that borrowed or withdrawn library material is overdue. Such notice shall be conclusively presumed to have been given when the notice is deposited with the United States Postal Service and addressed to such holder at the address shown upon the membership records of the library.

(e) This section shall apply only to offenses where the borrowing or withdrawal of the book, periodical, recording or other material actually occurred entirely within the city, it not being within the authority of the city council to create an offense for an act occurring entirely outside the city.

(f) Any person violating any provision of this section shall upon conviction be punished by a fine not in excess of $100.00, or may be sentenced to the city jail for a term not exceeding 30 days, either or both, at the discretion of the municipal judge.

(Ord. No. 82-367, §§ 1—6, 9-23-1982)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Secs. 17-42—17-70. Reserved.

ARTICLE III. OFFENSES AGAINST PUBLIC SAFETY*

Sec. 17-71. Emergency calls; interference.

(a) For purposes of this section, the following terms will be defined, as follows:

(1) *Emergency response officer* means any city employee, including but not limited to police and fire personnel, and other emergency response personnel, whether employed by the city or otherwise. The term shall not include the public information officer of the police department or the fire and rescue department.

(2) *Emergency call* means any call for assistance, whether emergency or otherwise, which is being or recently has been transmitted over city, police, fire or emergency radio systems.

(b) It shall be unlawful for any person, after hearing or receiving information regarding an emergency call, to contact emergency response officers, including those at the police department, fire and rescue department, or any participating emergency response agency, including the E 911 center, in an attempt to obtain information about an emergency call. It shall also be unlawful for any person to interfere in any way with an emergency response officer in answering an emergency call.

(c) The provisions of subsection (b) of this section shall not preclude a person from contacting emergency response officers at the scene of an emergency so long as such conduct does not interfere with an emergency response officer in responding to the emergency call or otherwise in performing his duties.

Sec. 17-72. Discharging firearms.

(a) It shall be unlawful for any person to shoot or fire a gun or other firearm within the city except as follows:

(1) In the execution of the law.

(2) At a military parade by order of a proper officer.

(3) If the person holds a license, which license may be issued by the chief of police upon the application of an individual or organized gun or skeet club to discharge shotguns only upon specifically described premises within the city. Each application for such authority shall be submitted to the chief of police at least five days in advance of any requested shooting date and must be accompanied by a map or plat showing all roads and development within 300 yards of the property upon which the shooting is to be allowed. Any license issued by the chief of police to any individual or club under this subsection shall be limited as to the premises and shall be limited to such times as the chief of police may determine, not exceeding

*__State law reference—__Offenses involving public order and safety, Code of Ala. 1975, § 13A-11-1 et seq.

one year. The chief of police shall take into consideration, in granting or refusing such permits, the proximity of such premises to inhabited dwellings, businesses, streets or highways, and also the likelihood that persons or domestic animals will be endangered by such shooting.

(4) At a range, shooting gallery, or test site, for the discharge of specific types of firearms and ammunition, approved by the inspection division as meeting the design, operational and other requirements set forth as follows:

a. *Location.* Location shall be as set forth in the zoning ordinances for the city.

b. *Codes.* Building and construction shall comply with the following codes as adopted and amended by the city:

1. Standard Building Code.
2. National Electrical Code.
3. Standard Plumbing Code.
4. Standard Gas and Mechanical Codes.
5. Other ordinances as they may apply.

c. *Miscellaneous building requirements.* Notwithstanding all other provisions of this section:

1. Other uses within an indoor firing range building shall be separated from the firing range as required by the Standard Building Code.
2. Buildings classified as type V or VI construction by the Standard Building Code shall not be considered for use as an indoor firing range.
3. Walls, floors and ceilings of the firing range itself must be bulletproof for the type of firearms, bullet weight, velocity and bullet construction to be permitted. Bulletproof means the ability of the wall, floor and ceiling material to contain three maximum power projectiles fired into any point from behind the firing line, and as certified by an architect or engineer registered under the laws of the state.
4. Ricochet control within the firing range shall be by absorption and/or deflection and shall be explained by plans and specifications.

d. *Plans and specifications.* The permittee shall submit to the inspection division the following:

1. A complete set of building plans and specifications and other engineering reports as may be required as sealed by an architect or engineer legally registered under the laws of the state, the plan to include plat, building specifications, parking availability, landscaping, outdoor advertisement signs, and types of firearms, bullet weight, velocity and bullet construction to be allowed.
2. A standard operating procedures manual, for file purposes only, which shall include, but not be limited to, the following:
   i. Posting of warning or precautionary signs.
   ii. Availability of hearing and eye protection.
   iii. Firing range cleaning procedures and methods of disposing of waste.
   iv. Procedures for removing lead from bullet trap.
   v. Disposal of lead recovered from bullet trap.
   vi. Disposal procedures for spent bullet trap material.
   vii. Ventilation system testing procedures and schedules.

viii. Specifications of and maintenance schedules for air cleaning system (recirculation type only).

3. Proof of a public liability insurance policy with a minimum limit amount of $500,000.00 for the purpose of payment of all damages to persons or property which may arise from or be caused by the conduct of any act on the property, authorized by the city, upon which any legal judgment results.

e. *Environmental.*

1. *Noise.* All noises emanating from the property shall comply with chapter 12, article V, except that the sound of firearm discharge and the sound of bullet impact shall not exceed 65 percent of the levels established in those sections; and where a firing range property adjoins residentially zoned property, the sound of firearm discharge and the sound of bullet impact shall not be audible at or beyond the property line. Compliance with noise requirements shall be determined by personnel of the natural resources and environmental management divisions and reported to the manager of the inspection division for appropriate action. These noise restrictions apply only to adjoining property lines exterior to any building which houses a firing range.

2. *Ventilation system.*

i. *Fresh air system.* The exhaust system shall be so designed that the air entering the range is from above and behind the firing line, is evenly distributed across all firing stations, and will result in an air velocity of between 65 and 85 feet per minute (fpm) past the firing line. At least 75 percent of the air volume shall be exhausted at the target/backstop area. The velocity shall be tested and certified every six months and results reported to the inspection division. Prior approval of the methodology for testing and certification must be given by the inspection division.

ii. *Recirculation system.* If a recirculation type ventilation system is utilized, the requirements stated in subsection (a)(4)e.2.i. of this section shall apply, and in addition, an air cleaning system (with pressure drop indicator) which will remove 99.97 percent of all particles greater than or equal to 0.3 micron in diameter must be installed and operated.

3. *Wastewater.* If the range area is to be cleaned by flushing with water, the floor drain shall be equipped with a grit trap and other control devices as required and approved by the natural resources and environmental management division.

4. *Inspection.* The range shall be subject to periodic inspection by the natural resources and environmental management division to determine compliance with noise and ventilation requirements. Results of such inspections shall be reported to the inspection division for appropriate action.

5. *Testing.* Before a certificate of occupancy is issued, the range

shall be tested for the requirements contained within this section. This testing shall be accomplished by an agency approved by the inspection division. All costs associated with such testing shall be paid by the owner. Results of a test completed within the previous six months to validate compliance of the bulletproof and ventilation requirements shall accompany the application for an annual business license.

(b) Nothing contained in this section shall exempt compliance with all other applicable laws, ordinances or regulations.

(Code 1982, § 18-49; Ord. No. 84-835, 12-13-1984; Ord. No. 88-208, 5-26-1988; Ord. No. 89-109, 3-9-1989)

State law references—Firearms and weapons, Code of Ala. 1975, § 13A-11-50 et seq.; preemption of handgun ordinances, Code of Ala. 1975, § 11-45-1.1.

Sec. 17-73. Discharging air rifles, airguns, air pistols, BB guns, paintball guns.

(a) It shall be unlawful for any person to shoot or discharge an air rifle, airgun, air pistol or BB gun within the city except as provided in subsection (b) of this section.

(b) The chief of police may upon application permit an individual or organization to discharge BB guns within an indoor facility approved for such use by the chief of police subject to the provisions of the city's zoning ordinance and the following provisions:

(1) Each application for a permit shall be submitted to the chief of police at least 14 calendar days in advance of any requested shooting event date.

(2) Permits, if approved, shall be issued on an event basis only.

(3) In reviewing applications for BB gun permits, the chief of police shall take into consideration the:

a. Suitability of the indoor facility for such use;

b. Safety procedures to be implemented by the individual or organization responsible for such use;

c. The proximity of the indoor facility to inhabited dwellings, businesses, streets or highways; and

d. Likelihood that persons will be endangered by such use.

The chief of police is authorized to deny or revoke any permit if in his opinion use of the facility as proposed by the individual or organization presents a danger to persons or damage to property.

(c) Notwithstanding anything contained in this section 17-73 to the contrary, it shall be lawful to shoot or discharge a paintball gun within the city limits at a site which has been granted a special exception by the board of zoning adjustment of the city, in accordance with the city's zoning ordinance.

(Code 1982, § 18-50; Ord. No. 97-171, § 18-50, 3-13-1997; Ord. No. 05-310, § 1, 5-12-2005)

Secs. 17-74—17-100. Reserved.

ARTICLE IV. OFFENSES AGAINST PUBLIC PEACE AND ORDER*

DIVISION 1. GENERALLY

Sec. 17-101. Sleeping in parked vehicles, public places or on private lot of another.

(a) It shall be unlawful for any person to sleep in, or use for sleeping quarters, any automobile, truck or any other vehicle, while the vehicle is parked on any street or other public roadway or public land, except this provision shall not prohibit sleeping in recreational vehicles on public land officially established as a trailer camp, tent camp or tourist camp and designed for overnight sleeping.

*__State law reference—__Offenses against public order and decency, Code of Ala. 1975, § 13A-11-1 et seq.

(b) It shall be unlawful for any person to sleep in, or use as sleeping quarters, any public place, public house, building or structure within the city unless such building or structure is one which has been provided with beds or sleeping quarters.

(c) It shall be unlawful for any person to sleep in or upon, or use as sleeping quarters, any private lot or ground, whether such sleeping, or use for sleeping, is had or done in an automobile, truck or other vehicle located upon such private lot or land without the written consent of the person owning such private lot or land; except that nothing in this subsection shall be construed as prohibiting the right of any person to sleep in or upon, or use for sleeping quarters, any such private lot or land which is owned by the person so using the vehicle for such sleeping purpose; nor shall the vehicle be construed as prohibiting the use for sleeping or sleeping quarters of the area embraced in any regularly licensed trailer camp, tent camp or tourist camp.
(Code 1982, § 18-23)

Cross references—Streets, sidewalks and other public places, ch. 23; traffic and vehicles, ch. 25.

Sec. 17-102. Disturbing the peace.

It shall be unlawful for any person willfully to disturb the peace of others by violence, offensive, boisterous or tumultuous conduct or carriage or by language calculated to provoke a breach of the peace, or to create or aid in a rout or riot within the city.
(Code 1982, § 18-48)

State law reference—Disorderly conduct, Code of Ala. 1975, § 13A-11-7.

Sec. 17-103. Trespassing, prowling, loitering, etc. on private property.

It shall be unlawful for any person to enter, remain, loiter, prowl or wander about, whether in a motor vehicle or on foot, upon or around any private premises, or in any enclosed lot, or in and around any dwelling, without the permission, consent or knowledge of the owner or lessee of the premises, lot or dwelling.
(Code 1982, § 18-17; Ord. No. 05-1033, § 1, 11-22-2005)

Sec. 17-104. Police department firing range.

It shall be unlawful and shall constitute a trespass for any person, not authorized by the chief of police or his designee, to enter, remain, loiter or prowl about any section or part of the police department firing range, located on or about 325 Wall-Triana Highway S.W. in the city.
(Ord. No. 17-337, § 1, 5-25-2017)

Sec. 17-105. Police department evidence and impound storage lot and/or facility.

It shall be unlawful and shall constitute a trespass for any person, not authorized by the chief of police or his designee, to enter, remain, loiter or prowl about any section or part of any police department evidence and impound storage lot and/or facility owned by the city.
(Ord. No. 17-337, § 1, 5-25-2017)

Secs. 17-106—17-120. Reserved.

DIVISION 2. UNLAWFUL ASSEMBLIES*

Sec. 17-121. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Missile means a weapon or object thrown or projected or intended to be projected.

Police officer means any member of the police department or any member of the fire department engaged in assisting police officers in police work, or any other person who, at the request of an officer of the city or of police officers, is engaged in assisting police officers in police work.

Public place means any public park, public building or other public place of the city.

Street means any public street, public avenue, public road or public alley or sidewalk of the city.

*__State law reference—__Unlawful assembly, Code of Ala. 1975, § 13A-11-5.

Unlawful assembly means an assembly which is unlawful according to Code of Ala. 1975, § 13A-11-5, or any other state act or statute.
(Code 1982, § 18-69)

Cross reference—Definitions generally, § 1-2.

Sec. 17-122. Authority to prohibit use of public places when disorder threatened.

(a) Whenever the chief of police has good reason to believe that an unlawful assembly on a street or in a public place within the city is in progress or is planned to be held, the chief of police, if he has good reason to believe that it is necessary to prevent a breach of the peace, a disorder or a riot, may prohibit, for the time being, persons from occupying or passing on any street or public place where such breach of the peace, disorder or riot is threatened or is believed by the chief of police likely to occur, and to otherwise regulate passage or occupancy upon such street and place.

(b) The chief of police or, in his absence, the officer mentioned in section 17-123, may deputize any member of the police department to impose the prohibitions or regulations upon occupying or passing on streets or public places provided for in this section.
(Code 1982, § 18-70)

Sec. 17-123. Delegation of authority in absence of chief of police.

In the absence of the chief of police from the police headquarters in the city hall, the officer in command of headquarters in the absence of the chief of police shall have all authority conferred by any section of this division on the chief of police. In order to be absent within the meaning of this section, it shall not be necessary that the chief of police be absent from the city or that he be off duty. If he is not physically present in police headquarters, then that officer in command of police headquarters while the chief of police is not present shall have all authority conferred by this article on the chief of police.
(Code 1982, § 18-71)

Sec. 17-124. Authority to prohibit persons near jails.

The chief of police may, if he deems it advisable, prescribe a reasonable distance in the vicinity of any jail or other place where prisoners are held within which persons shall not come without the permission of the officer in charge of such jail or place. No person shall knowingly and willfully, without lawful excuse, come within such limits without permission, or refuse to retire after being ordered to do so by a police officer.
(Code 1982, § 18-72)

Sec. 17-125. Demonstrations in public buildings.

It shall be unlawful for any person to take part in or otherwise participate in any demonstration within any public building.
(Code 1982, § 18-73)

Secs. 17-126—17-150. Reserved.

DIVISION 3. MOBS, RIOTS AND TUMULTS*

Sec. 17-151. Prohibiting sale of firearms, alcoholic beverages.

(a) It shall be unlawful for any person with knowledge of a proclamation under Code of Ala. 1975, § 11-43-82 or after having been informed by a police officer, firefighter or other employee of the city or any peace or military officer of the state or the United States to violate such proclamation.

(b) Whenever any mob, riot or tumult has occurred in the city or there is reasonable cause to apprehend such an occurrence, the mayor may in his judgment issue his proclamation ordering the closing of all places where alcoholic or malt brewed beverages are sold within the area of the city affected by such an occurrence or that will be affected by an occurrence which the mayor has reasonable cause to apprehend; and when in the judgment of the mayor such closing should be extended to all such places in the city, he may by

*__State law reference—__Riot, Code of Ala. 1975, § 13A-11-3.

proclamation do so. Such places shall remain closed until such times as in the judgment of the mayor the opening of such places may be effected without danger to the public peace and safety. It shall be unlawful for any person with knowledge of such proclamation or after having been informed by a police officer, firefighter or other employee of the city or any peace or military officer of the state or the United States to violate the proclamation.
(Code 1982, § 18-91)

Sec. 17-152. Curfew authorized.

(a) Whenever any tumult, riot or mob has occurred or is progressing, or there is reasonable cause to apprehend an occurrence in the city the mayor shall have power to issue his proclamation ordering a curfew for the city or any area of the city whenever, in his judgment, such would be an aid in suppressing or preventing such an occurrence. The mayor in his proclamation shall specify the hours of day of such curfew and the areas of the city affected, and such curfew shall continue in force and effect in accordance with such proclamation or any modification until terminated by the mayor. A copy of such proclamation shall be delivered or made available to the press, radio and television stations.

(b) It shall be unlawful for any person to be or remain on any street, avenue, alley, park or other public place in the city in violation of a proclamation of curfew issued by the mayor where such person has knowledge of the curfew. It shall be unlawful for any person to remain on any street, avenue, alley, park or other public place in violation of such a curfew after having been informed by a police officer, a firefighter or other employee of the city or any peace or military officer of the state or the United States.

(c) The mayor may provide for exemptions from the application of his proclamation of curfew for any person individually or as a class, who, in the judgment of the mayor, have a legitimate excuse to be in or go into the area affected by such

curfew during the hours of curfew when, in his judgment, to do so will not adversely affect the maintenance of law and order.
(Code 1982, § 18-92)

Secs. 17-153—17-180. Reserved.

ARTICLE V. OFFENSES AGAINST PUBLIC MORALS*

DIVISION 1. GENERALLY

Sec. 17-181. Possession or use of glue and other intoxicating chemical substances.

(a) *Definitions.* The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Inhale means the act of inhaling by nose or mouth.

Intoxication means the disturbance of mental or physical capacities by the introduction through inhalation into the body of any toxicating substances.

Substance means the essential nature of any gaseous, liquid or solid matter, and any modification of that essential nature, to include the basic part and the whole, which when introduced into the body, disturb the physical, mental or behavioral aspects of the person that inhaled stated substance. Substances, the inhalation of which is prohibited by this section, include but are not limited to paint, paint thinner, toluene, glue, aerosol sprays, rubbing alcohol, cough syrup, gas, gasoline, kerosene, natural gas, enamel, nail polish, nail polish remover, varnish, insecticides, paint remover and solvents, but do not include intoxicating beverages, the sale and use of which is otherwise regulated.

Toxic means any substance capable of producing toxication or poisoning.

(b) *Unlawful to inhale.* It shall be unlawful for any person, absent medical direction or supervision, or other lawful cause, to intentionally inhale, for the purpose of inducing a state of intoxication, or by which a state of intoxication is induced, or for the purpose of having an intoxicating effect, any substance which in any manner distorts, disturbs or alters the nervous system, audio, visual or mental processes of the body.

(c) *Unlawful possession.* It shall be unlawful for any person to intentionally possess any substance for the purpose of using the same in the manners prohibited in subsection (b) of this section.
(Code 1982, §§ 12-4—12-6; Ord. No. 87-289, 7-9-1987)

Sec. 17-182. Betting with a minor.

It shall be unlawful for any person who is of full age to bet or hazard any money or other thing of value with a minor, or to allow any minor to bet or hazard any money or other thing of value at any tenpin alley, billiard table, any gaming table or any game of keno kept, exhibited or conducted by him or in which he is interested or concerned, whether such table, alley or game is regularly licensed or not, or to allow any minor to play at such table, game or alley without the written consent or in the actual presence of the parent or guardian of such minor.
(Code 1982, § 18-122)

State law reference—Gambling, Code of Ala. 1975, § 13A-12-20 et seq.

Sec. 17-183. Animal fighting.

It shall be unlawful for any person to fight any chickens, dogs or other fowl or animals or to cause them to be fought in the city or for any person to be concerned or engaged in such fight or to bet or hazard any money or thing of value on the result of such fight.
(Code 1982, § 18-125)

Cross reference—Animals, ch. 5.

State law reference—Keeping cockpit, cockfighting, Code of Ala. 1975, § 13A-12-4.

Secs. 17-184—17-200. Reserved.

*__State law reference—__Offenses against public health and morals, Code of Ala. 1975, § 13A-12-1 et seq.

DIVISION 2. OBSCENITY*

Sec. 17-201. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Disseminate publicly means to expose, place, perform, exhibit, show or in any fashion display, in any location, public or private, any material in such a manner that the material can either be readily seen and its content or character distinguished by normal unaided vision or be physically examined, by viewing or examining the material from any public place or any place to which members of the general public are invited.

Distribute means to import, export, sell, rent, lend, transfer possession of or title to, display, exhibit, show, present, provide, broadcast, transmit, retransmit, communicate by telephone, play, orally communicate or perform.

Export means to send or cause to be sent outside of the city.

Import means to bring or cause to be brought into the city.

Knowingly means knowingly doing an act involving a material when the person knows the nature of the material.

Knows the nature of the material means a person knows the nature of the material when any one of the following exists:

(1) The person knows the nature of the material;

(2) The person has reason to know the nature of the material; or

(3) The person has a belief or reasonable ground for belief as to the nature of the material which warrants further inspection or inquiry of the character and content of the material.

Material means any book, magazine, newspaper, printed or written matter, writing, description, picture, drawing, animation, photograph, motion picture, film, videotape, pictorial representation, depiction, image, electrical or electronic reproduction, broadcast, transmission, telephone communication, live performance or dance.

Minor means any unmarried person under the age of 18 years.

Nudity means the showing of the human male or female genitals, pubic area or buttocks with less than a fully opaque covering, or the showing of the post-pubertal female breast with less than a fully opaque covering of any portion below the top of the areola, or the depiction of covered male genitals in a discernibly turgid state.

Obscene means that:

(1) The average person, applying contemporary community standards, would find that the material, taken as a whole, appeals to the prurient interest;

(2) The material depicts or describes, in a patently offensive way, sexual conduct, actual or simulated, normal or perverted; and

(3) A reasonable person would find that the material, taken as a whole, lacks serious literary, artistic, political or scientific value.

Recklessly means recklessly doing an act involving a material when the person knows the nature of the material. A person acts recklessly with respect to a result or to a circumstance when he is aware of and consciously disregards a substantial and unjustifiable risk that the result will occur or that the circumstance exists.

Sadomasochistic abuse means:

(1) Flagellation or torture, in an act of sexual stimulation, by or upon a person who is nude or clad in undergarments or in a revealing or bizarre costume; or

(2) The binding or physical restraining of a person who is nude or clad in undergarments or in a revealing or bizarre costume in an act of sexual stimulation.

*__State law reference—__Obscenity, Code of Ala. 1975, § 13A-12-130 et seq.

Sexual conduct means:

(1) Any act of sexual intercourse, masturbation, urination, defecation, lewd exhibition of the genitals, sadomasochistic abuse, bestiality, or the fondling of the sex organs of animals; or

(2) Any other physical contact with a person's clothed or unclothed genitals, pubic area, buttocks, or the breast or breasts of a female, whether alone or between members of the same or opposite sex or between a human and an animal, in an act of sexual stimulation, gratification or perversion.

Sexual intercourse means intercourse, whether genital-genital, oral-genital, anal-genital, or oral-anal, and whether between persons of the same or opposite sex or between a human and an animal.
(Ord. No. 90-274, § 18-242, 6-11-1990)

Cross reference—Definitions generally, § 1-2.

Sec. 17-202. Exceptions.

The possession or exhibition forbidden by this division shall not apply to a possession or exhibition by a police officer, sheriff, deputy sheriff or other peace officer, or any person under his supervision and control, or any judge, jury or attache of a court, or any attorney, or any member of a legislative body, municipal, state or federal, when such possession or exhibition is connected with the prosecution or investigation of a violation or possible violation of this division or other law or the consideration of legislation or proposed legislation designed to eliminate or reduce obscenity in any form nor to any possession or exhibition by any person where such possession or exhibition is for a bona fide scientific or educational purpose.
(Ord. No. 90-274, § 18-243, 6-11-1990)

Sec. 17-203. Distribution, possession with intent to distribute obscene material prohibited.

(a) It shall be unlawful for any person to knowingly distribute, possess with intent to distribute, or offer or agree to distribute any obscene material.

(b) It shall be unlawful for any person, being a wholesaler, to knowingly distribute, possess with intent to distribute, or offer or agree to distribute, for the purpose of resale or commercial distribution at retail, any obscene material.
(Ord. No. 90-274, § 18-244, 6-11-1990)

Sec. 17-204. Dissemination of obscene material.

It shall be unlawful for any person to knowingly disseminate publicly any obscene material.
(Ord. No. 90-274, § 18-245, 6-11-1990)

State law reference—Distribution of obscenity, Code of Ala. 1975, § 13A-12-200.2.

Sec. 17-205. Material harmful to minors; distribution, possession with intent to distribute, display for sale prohibited; affirmative defenses.

(a) It shall be unlawful for any person to knowingly or recklessly distribute to a minor, possess with intent to distribute to a minor, or offer or agree to distribute to a minor any material which is harmful to minors.

(b) It shall be unlawful for any person to openly and knowingly display for sale at any business establishment frequented by minors, or any other place where minors are or may be invited as part of the general public, any material which is harmful to minors; however, a person shall not be deemed to have violated the provisions of this subsection, relating to display for sale, by displaying material harmful to minors in sealed wrappers or behind opaque covers commonly known as "blinder racks" so that in either event the lower two-thirds of the material are concealed from view and the content of such material is not available for inspection by minors.

(c) The following shall be affirmative defenses to a charge of violating this section as it may relate to a particular minor:

(1) The minor exhibited to the defendant, his agent or employee, a draft card, driver's license, birth certificate, marriage license or other governmental document purporting to show that such minor was not an unmarried person under the age of 18

years and that the person to whom the document was exhibited did not otherwise have reasonable cause to believe that such minor was an unmarried person under the age of 18 years.

(2) A parent or legal guardian accompanied the minor or consented to the act charged.

(3) The defendant is the parent or legal guardian of the minor.

(4) The act charged was done for a bona fide medical, scientific, educational, legislative, judicial or law enforcement purpose.

(Ord. No. 90-274, § 18-246, 6-11-1990)

State law reference—Dissemination of material harmful to minors, Code of Ala. 1975, § 13A-12-200.5.

Sec. 17-206. Employment of minor to violate provisions.

It shall be unlawful for any person knowingly or recklessly to hire, employ or use such minor to do or assist in the doing of any act described in sections 17-203, 17-204 and 17-205.

(Ord. No. 90-274, § 18-247, 6-11-1990)

Sec. 17-207. Promotion of sales of material.

It shall be unlawful for any person to write or create advertising for or otherwise promote the sale or distribution of material represented or held out by him to be obscene.

(Ord. No. 90-274, § 18-248, 6-11-1990)

Sec. 17-208. Compelling the receipt of material.

It shall be unlawful for any person to knowingly, as a condition to a sale, allocation, consignment or delivery for resale of any paper, magazine, book, periodical, publication or other merchandise, require that the purchaser or consignee receive any material reasonably believed by such purchaser or consignee to be obscene; or deny or threaten to deny a franchise; or revoke or threaten to revoke or impose any penalty, financial or otherwise, by reason of the failure of any such purchaser or consignee to accept such material by reason of the return of such material.

(Ord. No. 90-274, § 18-249, 6-11-1990)

Secs. 17-209—17-230. Reserved.

DIVISION 3. PROSTITUTION*

Sec. 17-231. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Prostitution means the commission by a person of any natural or unnatural sexual act for a monetary consideration or other thing of value.

(Ord. No. 89-700, § 18-276, 1-11-1990)

Cross reference—Definitions generally, § 1-2.

Sec. 17-232. Penalties.

Upon first conviction, a person found to have violated any provision of this division shall be punished by a fine of not less than $200.00 nor more than $500.00 and by imprisonment in jail for a period not to exceed six months. This sentence shall include a mandatory sentence of not less than seven days in jail, which shall not be subject to suspension or probation. Upon a second conviction, a person found to have violated any provision of this division shall be punished by a fine of not less than $500.00, and by imprisonment in jail for a period not to exceed six months. This sentence shall include a mandatory sentence of not less than 30 days in jail which shall not be subject to suspension or probation. Upon a third or subsequent conviction, a person found to have violated any provision of this division shall be punished by a fine of not less than $500.00, and by imprisonment in jail for a period not to exceed six months. This sentence shall include a mandatory sentence of not less than 60 days in jail, which shall not be subject to suspension or probation.

(Ord. No. 89-700, § 18-284, 1-11-1990; Ord. No. 93-398, 7-8-1993)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 17-233. Declared unlawful.

No person shall commit an act of prostitution.

(Ord. No. 89-700, § 18-277, 1-11-1990)

*__State law reference—__Prostitution, Code of Ala. 1975, § 13A-12-110 et seq.

Sec. 17-234. Soliciting, inviting or enticing person for the purpose of prostitution; loitering for such purposes.

(a) No person shall solicit, invite or entice any person to have sexual intercourse or participate in any natural or unnatural sexual act for a monetary consideration or other thing of value.

(b) No person shall loiter, lurk, remain or wander about in a public place, or in a place within view of the public, or in a place open to the public, for the purpose of prostitution, or of patronizing a prostitute, or of soliciting for prostitution, and thence conduct himself in a manner or under circumstances manifesting the purpose of inducing, enticing, soliciting or procuring another to commit an act of prostitution. Among the circumstances which may be considered in determining whether such a purpose is manifested are that:

(1) Such person is a known prostitute or panderer, having been convicted within the past year under the terms of this division, the fact of such conviction being known to the arresting officer at the time of arrest;

(2) Such person repeatedly beckons to, stops, attempts to stop, or interferes with the free passage of other persons, or repeatedly attempts to engage passersby in conversation; or

(3) Such person repeatedly stops or attempts to stop motor vehicle operators by hailing, waving of arms or other bodily gestures.

No conviction shall be had under the terms of this subsection based on proof merely of a single instance of conduct described in this subsection or only one similar fact, nor upon proof of only one such instance in conjunction with proof of a prior conviction of an offense prescribed within this division.
(Ord. No. 89-700, § 18-278, 1-11-1990)

Sec. 17-235. Agreeing to engage in sexual conduct for value.

No person shall agree to engage in sexual intercourse with another or participate in any natural or unnatural sexual act for a monetary consideration or other thing of value and give or accept such monetary consideration or other thing of value in furtherance of such agreement.
(Ord. No. 89-700, § 18-279, 1-11-1990)

Sec. 17-236. Causing or allowing member of family to prostitute themselves.

No person shall cause his spouse or other member of his family to solicit, invite or entice any person to have sexual intercourse or participate in any natural or unnatural sexual acts for a monetary consideration or other thing of value.
(Ord. No. 89-700, § 18-280, 1-11-1990)

Sec. 17-237. Transportation of persons for immoral purposes.

It shall be unlawful for any common carrier or for the driver or person in charge of any taxicab or other public service vehicle to knowingly transport or aid or abet in the transportation of any person to or from any place in the city for the purpose of prostitution.
(Ord. No. 89-700, § 18-281, 1-11-1990)

Sec. 17-238. Aiding, abetting, procuring, receiving profit from prostitution.

No person shall knowingly:

(1) Cause or aid a person to commit or engage in prostitution;

(2) Procure or solicit patrons for prostitution;

(3) Provide persons or premises for prostitution purposes;

(4) Receive or accept money or other thing of value pursuant to a prior agreement with any person whereby he participates or is to participate in the proceeds of any prostitution activity; or

(5) Operate or assist in the operation of a house of prostitution or a prostitution enterprise.

(Ord. No. 89-700, § 18-282, 1-11-1990)

Sec. 17-239. Servants of lodging places aiding or abetting prostitution.

(a) It shall be unlawful for any bellhop, elevator operator, desk clerk, servant or employee of a hotel, motel, inn, boardinghouse, apartment house or any lodging place of like kind for the purpose of or in furtherance of unlawful sexual misconduct or prostitution to:

(1) Conduct any person to the room of any guest or occupant of such place; or

(2) Carry any note or message to or from a person to or from any guest or occupant of such place.

(b) It shall be unlawful for the owner or manager of any hotel, motel, inn, boardinghouse, apartment house or any lodging place or like kind to employ in such place any person who has been convicted of aiding or abetting prostitution.
(Ord. No. 89-700, § 18-283, 1-11-1990)

Secs. 17-240—17-270. Reserved.

ARTICLE VI. OFFENSES AGAINST ADMINISTRATION OF GOVERNMENT*

Sec. 17-271. Alteration or forgery of licenses, permits or other certificates.

It shall be unlawful for any person, falsely and with intent to defraud, to alter, forge, change or falsify any license, permit or other certificate which is subject to issuance or has been issued by any city official or city employee in his official capacity.
(Code 1982, § 18-37)

Secs. 17-272—17-300. Reserved.

*__State law reference—__Offenses against public administration, Code of Ala. 1975, § 13A-10-1 et seq.

ARTICLE VII. SECURITY SYSTEMS†

Sec. 17-301. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Alarm business means the business, by an individual, partnership, corporation, company or other entity licensed by the city, of installing, maintaining, servicing, repairing, altering, replacing, moving, or monitoring an alarm system at an alarm site. This does not include individuals performing work without compensation.

Alarm notification or dispatch request means a notification intended to summon the police either manually or automatically to a particular alarm site. At the discretion of the PSO, multiple false alarm notifications in a 24-hour period of time may be counted as one false alarm.

Alarm site means a single fixed premises or location served by an alarm system. Multi-unit buildings or complexes with multiple physical addresses, are considered separate alarm sites, even if served by only one alarm system:

(1) Small commercial includes a non-residential business with the largest building being less than 10,000 square feet.

(2) Large commercial includes a non-residential business with the largest building being 10,000 square feet or more.

(3) Residential site means any single-family premises having a separate street address.

Alarm system means a device or series of devices, including, but not limited to, hard-wired and wireless systems, and systems interconnected with cellular or private radio signals, that emit, transmit or relay a local audible, visual or electronic signal intended to indicate an alarm condition and summon a police emergency response, or that would reasonably be expected

†__Editor's note—__Ord. No. 21-984, § 1, adopted Oct. 14, 2021, amended the title of Art. VII to read as herein set out. The former Art. VII title pertained to alarm systems.

to summon police services, including but not limited to self-monitoring alarms. Alarm system does not include:

(1) An alarm installed on a vehicle or boat unless the vehicle is permanently located at an alarm site;

(2) An environmental alarm designed to alert only the inhabitants of a location that does not have an external local alarm or contact the owner or service personnel of a location;

(3) A personal medical alert device unless it communicates directly through an alarm system;

(4) An alarm that is portable or a temporary self-contained unit, is not permanently affixed or electrically connected to the property, does not have a sound or sight signal that can be heard or seen from the exterior, and is designed only to alert the inhabitants within; or

(5) An alarm designed and classified as a department of defense system, provided each system has been excluded, in writing, by the PSO.

Alarm user means any person who uses an alarm system to protect his premises or has responsibility for the primary control of an alarm site.

ANSI/SIA Control Panel Standard CP-01 means the American National Standard Institute (ANSI) approved Security Industry Association — SIA CP-01 Control Panel Standard, as may be updated from time to time, that details recommended design features for alarm system control panels and their associated arming and disarming devices to reduce the incidence of false alarms. Control panels built and tested to this standard by Underwriters Laboratories (UL), or other nationally recognized testing organizations, shall be marked to state: "Design evaluated in accordance with SIA CP-01 Control Panel Standard Features for False Alarm Reduction".

Automatic voice dialer means any electrical, electronic, mechanical, or other device capable of being programmed to send a prerecorded voice message, when activated, over a telephone line, radio or other communication system, to a public safety or emergency services agency requesting dispatch.

Cancellation means the process where an alarm dispatch request is terminated by the monitoring company for an alarm site prior to police arrival at the alarm site.

False alarm means an alarm notification or dispatch request summoning the police department to the location of the alarm activation where the responding officer finds no evidence of any criminal offense, or attempted criminal offense, after having completed an inspection of the interior or exterior of the alarm site. False alarm specifically excludes the following:

(1) Alarm activation signal caused by extreme weather conditions which cause damage to the premises or alarm system. Such damage must be clearly established and must be verified by the PSO;

(2) Cancellation of an alarm dispatch request by an alarm business performing the monitoring service prior to the dispatch of police;

(3) Alarms caused by failure of the alarm equipment, provided that written proof of repair of the alarm equipment is provided to the PSO; or

(4) Other reasonable, extenuating circumstances as determined by the PSO.

Holdup alarm means an alarm signal generated by the manual activation of a device intended to signal a crime in progress.

Inactive status means a permit has been placed in an inactive status after the alarm site exceeded six false alarms within a 12-month period. Alarm permits designated inactive are subject to increased administrative fees, fines and other penalties.

Keypad means a device that allows control of an alarm system by the manual manipulation of pushbuttons, locks, knobs, etc. A keypad may also be designated as an arming station or a command station.

Keyholder means an individual capable of reaching and accessing the alarm site, possessing the code to the alarm system, and/or the authority to approve repairs to the alarm system.

Monitoring means the process by which an alarm business receives signals from alarm systems and relays alarm notification to a public safety dispatcher for the purpose of summoning police response to the alarm site.

One plus duress alarm means a manual activation of a silent alarm signal by entering a code at an arming station that adds one to the last digit of the normal arm/disarm code (e.g. normal code = 1234, one plus duress code 1235).

Panic alarm means an audible and/or visible alarm system signal generated by the manual activation of a device intended to signal a life threatening or emergency situation requiring emergency response.

Public safety alarm office (PSO) means a person or persons designated by the chief of police to issue alarm permits, review false alarm notifications, assist with registration of security cameras, and/or otherwise administer this ordinance.

Public safety dispatcher means police department dispatcher.

Security camera system means a security video camera system located in the city with either public-facing cameras or cameras located on the outside of a home, business or governmental agency.

Security camera system user means the owner, manager or operator of a security camera system.

Unregistered alarm site means a site that has not complied with registration requirements set forth in this article.

Verify means an attempt by the alarm business or its representative to determine the validity of an alarm signal by contacting the alarm site or alarm user by at least two different designated telephone numbers or other electronic means before requesting a police dispatch, whether or not actual contact with a person is made, in an attempt to avoid an unnecessary alarm dispatch.

Zones means the capability of an alarm system to separate and report incidents or alarms by area at the alarm site (Example: Zone 1—Front Door Contact; Zone 2—Front Entry Motion Detector).

(Ord. No. 98-701, § 2, 9-10-1998; Ord. No. 21-984, § 2, 10-14-2021)

Cross reference—Definitions generally, § 1-2.

Sec. 17-302. Fines and penalties.

(a) An alarm user shall be subject to warnings, fines, and other penalties depending on the number of false alarm notifications (FAN) emitted from an alarm system within a 12-month period based upon the following schedule:

(1) First and second FAN for registered active sites, no fine, warning only.

(2) Third and fourth FAN, $50.00 fine.

(3) Fifth FAN, $75.00 fine.

(4) Sixth or more FAN, $100.00 fine per occurrence, and the alarm permit shall be placed in inactive status.

(b) Any alarm user or person operating a nonpermitted or unregistered alarm system shall be subject to a citation and assessment of a $100.00 fine, in addition to the penalty for the designated FAN occurrence as set forth in subsection (a) of this section.

(c) Any alarm user of a registered site placed in inactive status shall be subject to penalties as set forth in subsection (a) of this section, plus an additional penalty of $50.00 for each FAN occurrence.

(d) A false alarm awareness class may be offered by the PSO. Upon successful completion of the class, an alarm user's first fine may be waived.

(e) After four unexcused FANS, as evidenced by written or electronic notification from the PSO, an alarm user, apartment owner or property manager (or his representative) must respond to any subsequent alarm notification and make

contact with the responding police officer at the alarm site. Failure to comply with the provisions of this subsection shall constitute a violation of this article.

(f) An alarm business, or any person performing services on behalf of an alarm business, may be subject to a fine of $50.00 for any FAN caused by such alarm business or person performing services on behalf of the alarm business.

(g) Failure to renew the alarm permit within 30 days of the anniversary date of the initial registration shall subject the alarm user to a fine, in addition to any administrative fee, in an amount equivalent to the initial registration fee.

(h) Commercial alarm users and alarm businesses with unpaid fines and penalties are subject to being reported to the city clerk-treasurer's office for business license suspension.
(Ord. No. 98-701, § 14, 9-10-1998; Ord. No. 21-984, § 3, 10-14-2021)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 17-303. Violations.

(a) An alarm user, owner of an alarm business and/or person commits an offense if he violates by commission or omission any provision of this article that imposes upon him a duty or responsibility, and is subject to the general penalty provisions of section 1-7 of this Code. Unless otherwise provided, the minimum fine for any violation of this article shall be $50.00.

(b) In addition to the provisions of subsection (a) of this section, a person commits an offense if he operates an alarm business within the corporate limits of the city without having first obtained required city and state licenses.

(c) In addition to the provisions of subsection (a) of this section, a person commits an offense if he fails to pay any fines or other penalties assessed by the PSO within 30 days of written or electronic notification.
(Ord. No. 98-701, § 15, 9-10-1998; Ord. No. 21-984, § 4, 10-14-2021)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 17-304. Purpose.

(a) The purpose of this article is to encourage security camera system users, security alarm users and alarm businesses to register alarm systems and security camera systems with the city, maintain operational reliability of alarms and security cameras, and limit unnecessary police emergency responses to false alarms.

(b) This article governs burglary, robbery, panic and holdup alarm systems, and security camera systems; requires permits; establishes fees; provides for penalties and violations; establishes a system of administration; and encourages their proper use.

(c) Alarm and/or security camera registration is not intended to, nor shall it, create a contract, duty or obligation, either expressed or implied, of response. Any liability and consequential damage resulting from the failure to respond to a notification is hereby disclaimed and governmental immunity as provided by law is retained. By applying for an alarm registration and/or security camera registration, the alarm user acknowledges that public safety response may be limited by uncontrollable factors including, but not limited to, the availability of police, priority of calls, weather, traffic, or other emergency conditions.
(Ord. No. 98-701, § 1, 9-10-1998; Ord. No. 21-984, § 5, 10-14-2021)

Sec. 17-305. Appeals.

(a) If the PSO assesses a fine or denies the issuance, renewal, or reinstatement of an alarm permit, the PSO shall send written notice of the action and a statement of the right to appeal to the affected party.

(b) The user, keyholder, or installation, servicing, and/or alarm business may appeal an assessment of a fine or the activation to inactive status of an alarm registration to the PSO by submitting, in writing, the reasons for the appeal within five business days of the date of the notice.
(Ord. No. 98-701, § 13, 9-10-1998; Ord. No. 21-984, § 6, 10-14-2021)

Sec. 17-306. Alarm business.

(a) An alarm business shall maintain all licenses as required by city, state and federal law.

(b) An alarm business shall not install, service or monitor automatic voice dialers; program alarm systems to send one plus duress alarm; or install a device to activate a holdup or panic alarm with a single action, non-recessed button.

(c) Upon request, an alarm business shall provide the PSO with a customer list in a format acceptable to the PSO.

(d) An alarm business shall notify the PSO prior to any routinely scheduled maintenance or testing of an alarm system. The PSO should be notified of any urgent situations resulting in maintenance or testing as soon as possible.

(e) Alarm installation or servicing companies shall also:

(1) Install alarm system detectors to report detailed zone and detector information to the monitoring company and prevent the occurrence of false alarms;

(2) Provide written and oral instructions to alarm user on proper use and operation of alarm system;

(3) Provide a summary of this ordinance to alarm user if completing initial registration for alarm user;

(4) Provide PSO a completed alarm registration for each new installation site if completing initial registration for alarm user; and

(5) Use only ANSI/SIA CP-01 listed alarm control panels on all new installations and panel replacements or upgrades.

(f) Monitoring companies shall also:

(1) Communicate dispatch requests to the public safety dispatcher in a manner and form determined by the PSO. Said dispatch request shall include alarm site address and permit number; nature of alarm (i.e. burglary, robbery, holdup, panic, audible, silent etc.); specific location of alarm at alarm site (i.e. interior or perimeter, north, south, front, back, etc.); name and estimated time of arrival of alarm user or keyholder; monitoring company operator name, I.D. number, and call-back phone number;

(2) Verify alarm activation before requesting police response, except a panic or holdup alarm activation, or where a crime-in progress has been verified by real-time audio/video surveillance of an alarm site by the monitoring company;

(3) Communicate cancellations to the public safety dispatcher in a manner and method determined by PSO; and

(4) Maintain, and make available to PSO upon request, for a period of at least 24 months following a request for police dispatch to an alarm site, records relating to the dispatch. Records must include the name, address and phone number of the alarm user, the activated alarm system zones or locations, and the time of the request for police dispatch. Failure to provide requested records within 30 days shall be deemed a violation of this article.

(Ord. No. 98-701, § 3, 9-10-1998; Ord. No. 21-984, § 7, 10-14-2021)

Sec. 17-307. Alarm permit required; application; fee; transferability; false statements.

(a) A person commits a violation of this article if he operates or causes to be operated an alarm system without a valid alarm registration and permit issued by the city for each alarm site. The permit required by this article is in addition to any permit which may be required by city for the installation of an alarm system.

(b) The non-refundable, non-transferable registration or renewal fee for a permit is $25.00 a year for a residential alarm site; $35.00 a year for a small commercial alarm site; and $50.00 a year for a large commercial alarm site. The permit fee shall be submitted to the PSO by the alarm user or the alarm company within 30 days of the alarm installation, activation, possession or anniversary date for annual renewal.

(c) An alarm permit decal will be issued to the alarm user, which shall be posted in a conspicuous place at the front entrance of the site and which is visible from the exterior of the alarm site. The alarm permit decal shall remain the property of the city.

(d) Each permit application must include the following information:

(1) The name of the person who will be the permit holder and be responsible for the proper maintenance and operation of the alarm system and payment of fees assessed under this article;

(2) The classification of the alarm site as residential, small commercial or large commercial; and

(3) All other information required by the PSO.

(e) Any false statement of a material matter made by an applicant or alarm business for the purpose of obtaining an alarm permit shall be sufficient cause for refusal to issue a permit and shall constitute a violation of this article.

(f) An alarm permit shall not be transferred to another person or location.

(g) An alarm user shall inform the PSO of any change that alters any information listed on the permit application within a reasonable amount of time as determined by the PSO.

(h) All fees owed by an applicant must be paid before a permit may be issued.
(Ord. No. 98-701, § 4, 9-10-1998; Ord. No. 21-984, § 8, 10-14-2021)

Sec. 17-308. Multi-unit alarm systems.

(a) If an alarm system is the responsibility of the individual tenant in a multi-unit complex, the tenant is the alarm user and shall be responsible for permit registration and renewal, and the payment of any fines, fees and other penalties associated therewith.

(b) If the alarm system in a unit is provided by the multi-unit complex (i.e. an amenity), the complex owner or property manager is the alarm user and shall be responsible for permit registration and renewal, and the payment of any fines, fees and other penalties associated therewith, regardless as to whether the unit is occupied or not.

(c) The name of the multi-unit complex, building number, and unit number must be provided to register, renew and/or modify the status of alarm permits.

(d) The owner or property manager of a multi-unit complex shall obtain a separate commercial alarm permit for any alarm system operated in a non-residential area of the multi-unit complex, including but not limited to common tenant buildings and areas, offices, and storage and equipment areas and buildings.

(e) At the discretion of the PSO, a single alarm registration and permit may be allowed for a commercial non-residential multi-unit building or complex if all units or buildings are served by one alarm system and located at the same physical address.

(f) If commercial multi-unit buildings or complexes have separate physical addresses or are served by separate alarm systems, a permit shall be required for each alarm site.
(Ord. No. 98-701, § 5, 9-10-1998; Ord. No. 21-984, § 9, 10-14-2021)

Sec. 17-309. Proper alarm system operation and maintenance.

(a) An alarm user shall:

(1) Maintain the premises and the alarm system in good working order and in a manner that will minimize or eliminate false alarm notifications;

(2) Pay all administrative fees and penalties associated with the operation and maintenance of the alarm system;

(3) Respond or cause the keyholder to appear at the system's location within one hour, when notified by the city, to deactivate a malfunctioning alarm system, to provide access to the premises, and/or to provide alternative security for the premises;

(4) Not activate an alarm for any reason other than an occurrence of an event that the alarm system was intended to report;

(5) Provide the alarm installation and/or monitoring company with the alarm system permit number; and

(6) Notify the PSO within 30 days if the alarm system is disconnected or terminated; the permitted alarm user or business moves; or the alarm site is sold.

(b) An alarm user shall adjust the mechanism or cause the mechanism to be adjusted so that an alarm audible or visible on the exterior of an alarm site will be actuated for no longer than ten minutes after being activated.

(c) An alarm user shall not contract to retain an alarm business that does not comply with the requirements of this article or is not licensed by the city or state.

(d) This section applies to all alarm sites, including alarm systems that are self-installed, self-monitored or proprietary.
(Ord. No. 98-701, § 6, 9-10-1998; Ord. No. 21-984, § 10, 10-14-2021)

Sec. 17-310. Prohibited alarm equipment.

(a) It shall be unlawful for any person to use a device for activating a holdup alarm (i.e., "panic" button) which is easily accessible by the public.

(b) Automatic devices dialing into the police department or the E 911 center are prohibited. It is unlawful for any person to program an automatic dialing device to summon police assistance or to select any telephone line into the police department.
(Ord. No. 98-701, § 7, 9-10-1998; Ord. No. 21-984, § 11, 10-14-2021)

Sec. 17-311. Records.

In the interest of public safety, all information submitted through the alarm registration process, records relating to alarm dispatch requests, applications for appeals, and all security camera video recordings and photographs shall be designated confidential, proprietary and safety sensitive and shall be maintained by the police department and not disseminated unless otherwise required by state or federal law.
(Ord. No. 98-701, § 8, 9-10-1998; Ord. No. 21-984, § 12, 10-14-2021)

Sec. 17-312. Public safety office.

(a) If there is a reason to believe that an alarm system is not being used or maintained in a manner that ensures proper operation and suppresses false alarms, the PSO may require a conference with an alarm user, keyholder and/or the alarm business responsible for maintenance, repair or monitoring of the alarm system to review the circumstances of each false alarm. Failure to attend the required conference shall constitute a violation of this article.

(b) Upon receipt of registration form and applicable registration fee, the PSO shall register the applicant unless assessed fines or administrative fees have not been paid; or an alarm site permit has been marked inactive and the violation causing such has not been corrected.

(c) The PSO shall notify the alarm user electronically or in writing of the date and time of the false alarm; the amount of the assessed fine; and the number of false alarms at the site to date.

(d) The PSO may require an alarm user to modify his alarm system or change how dispatches are requested to conform with this ordinance. Failure to make required modifications shall constitute a violation of this article.
(Ord. No. 98-701, § 9, 9-10-1998; Ord. No. 21-984, § 13, 10-14-2021)

Sec. 17-313. Security camera program.

(a) To deter criminal activity and assist with public safety efforts, owners, managers or operators of security camera systems may voluntarily participate in the police security camera share program by registering their security camera systems with the police department and sharing public facing video recordings or video recordings from cameras located on the outside of homes or businesses with law enforcement.

(b) The minimal requirements for the registered security camera system include capabilities of recording and retrieving video images and downloading saved images to an external device when needed for review by law enforcement.

(c) Commercial or governmental security camera systems seeking to provide real-time video access or other additional network access to the police department to assist with crime prevention or address an active community safety issue may require additional specifications as determined by the police department.

(d) Registered systems shall be issued a decal to be posted in a highly visible, conspicuous place at the front entrance of the physical site or location of the security camera system. The permit decal shall remain the property of the city.

(Ord. No. 98-701, § 10, 9-10-1998; Ord. No. 21-984, § 14, 10-14-2021)

Sec. 17-314. Reserved.

Editor's note—Ord. No. 21-984, § 15, adopted Oct. 14, 2021, repealed § 17-314, which pertained to alarm dispatch requirements and derived from Ord. No. 98-701, § 11, adopted Sept. 10, 1998.

Sec. 17-315. Reserved.

Editor's note—Ord. No. 21-984, § 15, adopted Oct. 14, 2021, repealed § 17-315, which pertained to system performance reviews and derived from Ord. No. 98-701, § 12, adopted Sept. 10, 1998.

ARTICLE I. RESIDENTIAL SOLICITATION

DIVISION 1. IN GENERAL

Sec. 18-1. Purpose; scope; handbilling.

(a) *Purpose.* The city council finds that its citizens have the right to be secure from unwanted intrusion into their privacy and from criminal or fraudulent conduct or activity. The city council further finds that solicitation at a residence directly implicates the security of citizens of this city and city officials have received and are aware of citizen complaints about certain practices or conduct associated with solicitation in this city including fraud. The city council is also aware of criminal activity occurring in this city as well as other cities as a result of solicitors gaining access to residences under the guise of soliciting. The city council recognizes that there are constitutional guarantees associated with the practice of soliciting which are to be respected and safeguarded. Therefore, the purpose of this article is to adopt police power regulations which are designed to protect the security of citizens in their lives, their homes, and their property, and which do not offend constitutional guarantees.

(b) *Scope.* This article shall have full force and effect throughout the corporate limits of the city and is intended to regulate all forms of solicitation that physically occur at a residence, whether commonly known as soliciting, peddling, hawking, canvassing, or other similar terms.

(c) *Placing of handbills.* Section 22-39 of this Code applies to commercial and noncommercial handbilling and solicitors employing the practice of handbilling while soliciting shall abide by section 22-39. Notwithstanding any contrary provisions of section 22-39, where the occupant of a residence has posted a notice in accordance with section 18-3 of this article prohibiting solicitation, then no solicitor shall leave any literature concerning the solicitation at the residence.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-2. Definitions.

(a) The following words, terms, and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Commercial solicitor means:

(1) A person who engages or attempts to engage in residential selling; or

(2) A person who engages or attempts to engage in solicitation on behalf of another person in exchange for taxable compensation whether as an employee, agent, independent contractor, or otherwise, except that a bona fide officer or employee of an organization for which residential advocacy or residential fundraising is being conducted shall not be included in the definition of a commercial solicitor.

Competent individual means a person claiming or reasonably appearing to be at least 19 years of age, or who claims to be an emancipated minor, and who reasonably appears to be of sufficiently sound mind and body to be able to engage in rational thought, conversation, and conduct, or to otherwise have the capacity to contract.

Disqualifying factors means:

(1) A person has been criminally convicted of (which includes any disposition of a criminal case resulting in the imposition of a fine, probation, incarceration, or other adverse sentence of a punitive nature, whether or not the person has been formally adjudicated guilty, unless the conviction has been set aside on appeal or pursuant to a writ of habeas corpus) or has criminal charges currently pending against them for:

   a. Homicide or manslaughter of any type, class, or degree;

   b. Physically abusing, sexually abusing, or exploiting a minor;

   c. The sale or distribution of controlled substances;

   d. Sexual assault of any type, class, or degree; or

e. Theft, robbery, burglary, or assault, of any type class, or degree.

(2) A person has been criminally convicted (which includes any disposition of a criminal case resulting in the imposition of a fine, probation, incarceration, or other adverse sentence of a punitive nature, whether or not the person has been formally adjudicated guilty, unless the conviction has been set aside on appeal or pursuant to a writ of habeas corpus) for a felony in the last ten years.

(3) A person has been confined or imprisoned in a federal or state prison within the last ten years.

(4) A person has been criminally convicted (which includes any disposition of a criminal case resulting in the imposition of a fine, probation, incarceration, or other adverse sentence of a punitive nature, whether or not the person has been formally adjudicated guilty, unless the conviction has been set aside on appeal or pursuant to a writ of habeas corpus) of a misdemeanor within the past five years involving a crime of moral turpitude according to the laws of this state, or violent or aggravated conduct involving persons or property.

(5) A person has a final, nonappealable civil judgment entered against them within the last five years involving fraud or intentional misrepresentation;

(6) A person is currently on parole or probation to any court, penal institution, or governmental entity, which include being under house arrest or subject to a tracking device;

(7) A person has an outstanding warrant from any jurisdiction; or

(8) A person is currently subject to a protective order, based on physical or sexual abuse, issued by a court of competent jurisdiction.

Goods means tangible items of any kind, which include merchandise, wares, foodstuffs, perishables, publications, subscriptions, supplies, materials, and manufactured or compounded products.

Manager means a person that manages, supervises, or oversees a commercial solicitor, whether or not the manager actually solicits.

Master permit means the master permit issued in accordance with division 2 of this article.

Master solicitor means a person that employs, hires, engages, or otherwise uses a commercial solicitor for soliciting. A master solicitor who is an individual must be at least 19 years of age.

Non-commercial solicitor means a person that engages in residential advocacy or residential fundraising who is not a commercial solicitor.

Residence means and includes every separate living unit occupied for residential purposes by one or more persons, which includes those contained within any type of building or structure.

Residential advocacy means, while upon residential premises, engaging or attempting to engage an occupant of the residence in conversation, without that person's prior invitation or consent, for the purpose of promoting or facilitating the receipt of information regarding a cause, practice, or belief, which includes charitable, political, religious, eleemosynary, social, philanthropic, benevolent, humanitarian, environmental, health-related, patriotic, civic, or educational causes, practices, or beliefs.

Residential fundraising means, while upon residential premises, obtaining or attempting to obtain from an occupant of the residence, without that persons prior invitation or consent, any form of gift, donation, or contribution of money, clothing, or any other thing of value, for the sole benefit of an educational, charitable, civic, religious, or other nonprofit organization, purpose, or project. The providing of something of value, whether tangible or intangible, in exchange for the gift, donation, or contribution shall not constitute residential selling unless a business license is required under chapter 15 of this Code in connection with the exchange.

Residential premises mean the residence, its accessory structures, and the lot on which the residence is located and which lot is under the

control of the owner, tenant, or occupant of the residence. The term does not include common areas or public areas adjacent to the residential premises.

Residential selling means, while upon residential premises, obtaining or attempting to obtain from an occupant of the residence, without that person's prior invitation or consent, a prospective customer or a sale of or order for goods or services, regardless of the timing or method of payment, remuneration, or consideration, and regardless of the time of delivery of the goods or performance of the service.

Services mean intangible items or benefits of any kind, which include construction, maintenance, repairs, improvements, professional services, insurance coverage, housekeeping, landscaping or yard care, real estate products or services, investment opportunities, technical services, computer services, and communications services.

Soliciting or *solicit* or *solicitation* means residential advocacy, residential fundraising, or residential selling.

Solicitor means any person engaged in soliciting.

Solicitor's permit means the solicitor's permit and accompanying photo identification tag issued in accordance with division 2 of this article.

(b) Where not otherwise defined in subsection (a) of this section, the words, terms, and phrases, when used in this article, shall have the meanings and rules of construction ascribed to them in section 1- 2 of this Code, except where the context clearly indicates a different meaning.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-3. Notice regulating residential soliciting.

(a) *Form of notice.* Any occupant of a residence may give notice of a desire to refuse soliciting by posting a reasonably visible and legible sign upon or near the main entrance door or main entrance gate to the residence, or on or near the property line adjacent to the sidewalk leading to the residence. Where the notice states "No Solicitation" or "No Trespassing," or words of similar import, then all forms of solicitation are prohibited at such residence.

(b) *Effect of notice.* Any such sign so exhibited shall constitute sufficient notice to any solicitor of the determination by the occupant of the residence regarding soliciting at such residence.

(c) *Duty to abide by notice.* It shall be the duty of every solicitor upon going onto any residential premises in the city to first examine for the notice provided for in this section and, if one is found to exist, it shall be a violation of this article to fail to abide by the notice by immediately and peacefully departing from the premises without making any effort to conduct or engage in solicitation, which includes, in any manner, attempting to attract the attention of or secure an audience with the occupant of the residence in an effort to solicit.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-4. Duty of solicitors.

(a) In no event will any solicitor enter inside or follow a person into a residence without the express invitation or permission of the occupant who must be a competent individual. Any solicitor who has gained entrance into any residence, whether invited or not, shall immediately and peacefully depart from the premises when requested to do so by the occupant.

(b) It is a violation for any solicitor through ruse, deception, or fraudulent concealment of a purpose, to solicit or to take action calculated to secure an audience with an occupant of a residence.

(c) A solicitor while soliciting shall not intentionally or recklessly make any physical contact with, or touch another person without the person's consent.

(d) A solicitor shall not continue repeated soliciting and shall immediately and peacefully leave the premises after the occupant of the residence has expressly declined the solicitation.

(e) A solicitor shall not engage in abusive, threatening, harassing, intimidating, or coercive conduct toward the occupant of a residence.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-5. Time limit on soliciting.

It is unlawful for any person, whether or not issued a solicitor's permit, to go upon any residential premises and ring the doorbell upon or near any door of a residence located thereon, or rap or knock upon any door or create any sound in any other manner calculated to attract the attention of the occupant of such residence, for the purpose of securing an audience with the occupant thereof and engage in, or attempt to engage in, soliciting on any day prior to 8:00 a.m. or after 8:00 p.m., unless the solicitor has the express invitation or permission of the occupant who is a competent individual.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-6. Age limitations for commercial solicitors.

Any person under the age of 16 who is engaged as a commercial solicitor shall be under the direct supervision of a person at least 19 years of age. Direct supervision means the supervising person shall at all time have the minor in sight and shall in no event be more than 100 feet away from the minor.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-7. Restrictions on methods of solicitation.

(a) A solicitor shall not falsely represent, directly or by implication, that the solicitor is acting on behalf of a governmental organization, a charitable organization, or any person other than the person for whom the solicitor is actually acting.

(b) A solicitor shall not intentionally make any materially false or fraudulent statement in the course of soliciting.

(c) A solicitor shall use their real name and shall not use a fictitious name, an alias, or any name other than their correct name.
(Ord. No. 12-60, § 1, 3-22-2012)

DIVISION 2. SOLICITATION PERMITTING

Sec. 18-8. Permit required; exemption.

(a) *Solicitor's permit.* A commercial solicitor shall be required to obtain a solicitor's permit prior to soliciting and failure to do so shall constitute a violation of this article. At all times while soliciting, the solicitor shall be required to carry and present the permit, which shall include a copy of the city business license, upon the request of the person being solicited or a law enforcement officer or license official of the city, and to conspicuously display the photo identification tag hereinafter provided for.

(b) *Master permit.* A master solicitor may make application for a solicitor's permit for each of the commercial solicitors that will be soliciting on the master solicitor's behalf by applying for a master permit as hereinafter provided.

(c) *Exemption.* A solicitor's permit shall not be required for a noncommercial solicitor.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-9. Permit application; notice.

(a) *Form, etc.* Applications for permitting under this division shall be made on forms provided by the city clerk-treasurer for such purpose and shall be signed and verified by oath or affirmation by the applicant if a natural person or, in the case of an association, partnership, or limited liability company, by a member or partner, or in the case of a corporation by an executive officer, or any person specifically authorized by the corporation to sign the application to which shall be attached written evidence of his authority. Prior to or after the issuance of a permit, applications shall be immediately updated should there be a change in any of the information provided, or additional information to be added. It shall be the duty of the master solicitor to update its application for a master permit, which includes adding or removing its commercial solicitors, as appropriate.

(b) *Master permit application.* A master solicitor may make application for a master permit to include solicitor's permits for each of the commercial solicitors who will be conducting soliciting on the master solicitor's behalf. Each solicitor's permit issued under a master permit shall be conditioned upon the continued validity of the master permit and subject to all actions taken against the master permit. In addition to the information

required under subsection (c) of this section, the master solicitor shall furnish each of the following:

(1) The master solicitor's true and correct name (which includes any former names or aliases used during the last ten years) and complete then-current contact information which includes a telephone number and permanent and, if applicable, local business address (not a post office box);

(2) Proof of the master solicitor's tax exemption status, if applicable;

(3) The master solicitor's social security number or federal identification number;

(4) Proof of possession of any license or permit which is required by the city in order to conduct the proposed solicitation;

(5) The nature of the business relationship of the solicitor to the master solicitor, which includes an employee, agent, or independent contractor; and

(6) The certification required in subsection (e) of this section.

(c) *Solicitor's permit application.* The application for a solicitor's permit shall contain the following information for each person who will be conducting solicitation activities as a commercial solicitor:

(1) The proposed solicitor's true and correct name (which includes any former names or aliases used during the last ten years), date of birth, social security number, and then-current contact information which includes a telephone number and permanent home and, if applicable, local address (not a post office box);

(2) The proposed solicitor's valid state driver's license, a state-approved identification card with a photograph, or other form of government issued photo identification acceptable to the city clerk-treasurer (The city clerk-treasurer will make a photocopy and attach to the application);

(3) If a vehicle is used, a description of the same, together with the state where licensed, license number, and the vehicle identification number;

(4) Two photographs suitable for reproduction, measuring at least 1.5 inch x 1.5 inch and showing the head and shoulders of the proposed solicitor in a clear and distinguishing manner, which shall have been taken within the preceding 60 days before filing the application;

(5) Proof of possession of any license or permit which is required by the city in order to conduct the proposed solicitation;

(6) If the proposed solicitor is soliciting on behalf of a master solicitor, the solicitor shall furnish the information concerning its master solicitor that is required in subsection (b) of this section together with appropriate written credentials that authorize the solicitor to solicit on the master solicitor's behalf;

(7) The nature of solicitation activity;

(8) The approximate time period when the soliciting will be conducted, this includes the projected start date and completion date, and the proposed days of the week and times of day of solicitation;

(9) In the case of residential selling, the method of payment for the goods or services;

(10) The certification required in subsection (e) of this section; and

(11) If the proposed solicitor has a manager that is or will be present in the city during all or any portion of the solicitation, the applicant shall provide the name, permanent and, if applicable, local business address (not a post office box), and complete contact information of the manager.

(d) *Notice.* Each applicant shall provide an address where all notices required to be issued under this article are to be sent and if there is a local address, then such address shall be that address. Where the city clerk-treasurer is required to provide written notice under this divi-

sion to an applicant or permit holder or appellant such notice shall be accomplished by personal delivery or by first class or certified mail to the address on the application. Notice shall be deemed to have been received upon delivery or, if mailed, then three days after mailing.

(e) *Certification; investigation.*

(1) *Certification.* Each master solicitor shall be required to provide a written certification, on forms provided by the city clerk-treasurer, that no disqualifying factors exist for each solicitor soliciting on its behalf or for the master solicitor itself which, in the case of an entity, includes its controlling officers, directors, partners, or members, as the case may be. Such certification shall be signed and verified by oath or affirmation in the same manner as the application. Where the solicitation will not be conducted on behalf of a master solicitor, then the applicant for a solicitor's permit shall be required to provide written certification that he has no disqualifying factor.

(2) *Investigation.* The chief of police and city clerk-treasurer, or their respective designees, are hereby authorized to conduct an investigation they deem appropriate into the matters contained in the application. The applicant's submission of the application authorizes the city to verify information submitted with the application.

(f) *Solicitation by minors.* A minor who conducts commercial solicitation shall operate under the authority of a master solicitor who will be responsible for controlling the conduct of the minor.

(g) *Application fee.* At the time of submission of an application, each applicant shall pay a non-refundable fee, in an amount to be determined by the city clerk-treasurer, which is sufficient to defray the costs incurred by the city for processing the application and issuing the photo identification tag.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-10. Permit issuance.

(a) Upon receipt of a completed application and completion of any investigation, then the city clerk-treasurer shall issue a solicitor's permit or master permit, as appropriate, unless he finds any one of the following reasons for denial exists:

(1) The application for permitting is not complete;

(2) False or misleading statements are found to be included in the application for a permit;

(3) The applicant or the applicant's master solicitor has a disqualifying factor or does not otherwise meet the requirements of this article;

(4) Within the 12 months preceding the date of the application, the applicant or the applicant's master solicitor has had a prior permit issued pursuant to this article revoked or denied;

(5) Within the 12 months preceding the date of the application, the applicant or applicant's master solicitor has been convicted of or has charges pending for a violation of this article;

(6) The applicant has failed to pay the application fee; or

(7) The applicant or applicant's master solicitor has not obtained proper business licensing or the business license has been denied, revoked, suspended, or not renewed.

(b) If an application is denied, the city clerk-treasurer shall provide the applicant with written notice of the denial along with the reason for the denial.

(c) Each solicitor's permit shall be issued accompanied by the photo identification tag which shall be worn constantly by the permittee in a conspicuous place on his or her person while conducting solicitation activities in the city. A person commits an offense if the person wears or displays a photo identification tag issued to another person or alters a photo identification issued hereunder. Any solicitor who by affidavit

notifies the city clerk-treasurer that his or her tag has been lost or stolen shall be issued a replacement tag upon payment of the fee for the tag.

(d) Permits are hereby expressly issued upon the condition that the holder thereof shall abide by the provisions of this article, and operate in conformance with the statements or representations contained in the permit application, which includes the nature of the solicitation activity and the timing of solicitation. All permits issued pursuant to this article are not transferrable.

(e) In no event shall the holder of a permit issued under this article represent or imply that the issuance of the permit or display of the photo identification tag means that the city in any way endorses the purpose or method of the solicitation.

(f) Unless revoked sooner, permits issued pursuant to this division shall be valid for the dates and times specified on the application, provided, however, no permit issued hereunder shall be valid for more than a consecutive 12-month period of time. Upon expiration of a permit or where not renewed, it shall be unlawful to continue to solicit or to display the expired permit or photo identification tag for the purpose of soliciting.

(g) Permits may be renewed in the same manner as the original issuance.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-11. Revocation or suspension of permit.

(a) A master permit or solicitor's permit may be revoked or suspended by the city clerk-treasurer for any of the following reasons:

(1) The city clerk-treasurer finds that any fact or event which would constitute a basis for denial of the permit is true or has become true since the application was completed; or

(2) The solicitor conducts solicitation activities in violation of any provision of this article.

(b) Action against master.

(1) Should more than one complaint be received that solicitors for any one master solicitor have violated any of the provisions of this article, the city clerk-treasurer may suspend or revoke all solicitor permits for such master solicitor and notify the permit holders of such action.

(2) Should more than one complaint be received that solicitors who are soliciting under a master permit have violated any of the provisions of this article, the city clerk-treasurer may suspend or revoke the master permit and notify the master solicitor, which shall have the effect of revoking all the solicitor's permits issued under the master permit without the need of further action by the city or notification of each solicitor.

(3) Upon any action being taken to suspend or revoke a master permit, all solicitor's permits issued under the master permit shall be included in such action and the right to appeal the action shall be solely that of the master solicitor.

(c) Upon revocation or suspension, the city clerk-treasurer shall immediately provide written notice to the permit holder stating the action and the reasons supporting such action. Where permits are issued under a master permit, the notice to the holder of the master permit shall constitute sufficient notice to all solicitors working under the master permit.

(d) The city clerk treasurer shall have the authority to seize any and all permits and photo identification tags possessed by persons conducting business as a solicitor while the official notification process and any appeals process is underway if the basis for the action is the existence or occurrence of a disqualifying factor or if the chief of police finds that there is an immediate threat to the public health or safety if the soliciting is allowed to continue. Upon seizure of the permit and tag all solicitation activities conducted under the authority of that permit shall cease.
(Ord. No. 12-60, § 1, 3-22-2012)

Sec. 18-12. Appeals.

(a) A person who is denied a solicitor's permit or master permit, or whose permit is revoked or suspended by the city clerk-treasurer, may appeal

the decision to the appeals officer designated by the mayor by filing a written notice of appeal with the city clerk-treasurer, stating the action appealed from and grounds for the appeal, within 15 days after receiving notice of the action appealed from.

(b) Within ten days of the receipt of the notice of appeal, the appeals officer shall set a time and place for a hearing on the appeal which shall be not later than 30 days from the date of receipt of the notice of appeal.

(c) At least ten days' advance written notice of the time and place of the hearing shall be provided to the appellant.

(d) The decision of the appeals officer on the appeal is final. No other administrative procedures are provided by the city.
(Ord. No. 12-60, § 1, 3-22-2012)

Secs. 18-13—18-30. Reserved.

ARTICLE II. CENTRAL CITY AREA

Sec. 18-31. Delineated.

The provisions of this division shall apply in the more congested and intensely developed area of the city, which for the purpose of this division is designated as the central business district of the city, more specifically described as follows:

Beginning at the intersection of Church Street and the Norfolk Southern Railroad; thence South on the centerline of Church Street to the intersection with Monroe Street; thence Southwest on Monroe Street to the intersection with Holmes Avenue; thence West along the centerline of Holmes Avenue to the intersection with Highway 231/431 (Memorial Parkway); thence South along the centerline of Memorial Parkway to the intersection with Governor's Drive; thence east along the centerline of Governor's Drive to the intersection with Franklin Street; thence Northwest along the centerline of Franklin Street to the intersection with Eustis Avenue; thence northeast along the centerline of Eustis Avenue to the intersection with Greene Street; thence Northwest along the centerline of Greene Street to the intersection with Monroe Street and Meridian Street; thence North along the centerline of Meridian Street to the intersection with Pratt Avenue; thence West along the centerline of Pratt Avenue to the intersection with I-565; thence Southwest along the centerline of I-565 to the intersection with Church Street; thence Southeast along the centerline of Church Street to the intersection with the Norfolk Southern Railroad and the point of beginning.
(Code 1982, § 18-381; Ord. No. 10-430, § 1, 6-10-2010)

Sec. 18-32. Purpose.

The purpose of this division is to promote the health, safety and welfare of the citizens of the city; to lessen and reduce congestion in the streets, sidewalks and other public places in the more congested and intensely developed central business district of the city, and to regulate the use of the streets, other public areas and private yards and parking areas open and accessible to the public within the area.
(Code 1982, § 18-382)

Sec. 18-33. Private yards and parking lots open to public access.

It shall be unlawful for any person to peddle, hawk, sell or offer for sale any goods, wares or merchandise upon any private yard, lot or parking area of any private premises or business within the central city area of the city and open to public access, without at the time having in his possession a written permit or written permission from the owner, person in possession or from the duly authorized agent of the owner or person in possession. This section shall not apply to the employees or agents of the owner or person in possession of such premises.
(Code 1982, § 18-383)

Sec. 18-34. Public buildings, other public areas.

It shall be unlawful for any person to peddle, hawk, sell or offer for sale any goods, wares or merchandise upon the premises of the city municipal building, city utility building, senior citizens center, Von Braun Center, public library, Big

Spring International Park, any city off-street parking structure or lot or any other public building of the city, all located within the central city area of the city, without first having secured a written permit or written permission from the director, manager or other agent or written permission from the director, manager or other responsible agent or employee of the city.
(Code 1982, § 18-384)

Sec. 18-35. Streets, sidewalks, parks.

Except as provided in section 18-36, it shall be unlawful for any person to peddle, hawk, sell or offer for sale any goods, wares or merchandise upon the dedicated right-of-way of any public street or sidewalk located within the central city area of the city.
(Code 1982, § 18-385; Ord. No. 94-546, 8-11-1994; Ord. No. 95-508, § 1, 7-27-1995; Ord. No. 97-173, § 1, 3-25-1997)

Cross reference—Streets, sidewalks and other public places, ch. 23.

Sec. 18-36. Sidewalk cafes, vendors, and mobile food vendors.

(a) *Definitions*. For purposes of this section 18-36, the following words, terms, and phrases shall have the meanings ascribed to them in this subsection (a), unless the context clearly indicates a different meaning:

Central city area means the area described in section 18-31.

Central city core area means the following described area located within the central city area:

Beginning at the intersection of Church Street and the Norfolk Southern Railroad; thence Southeast along the centerline of Church Street to the intersection with Monroe Street; thence Southwest along the centerline of Monroe Street to the intersection with Holmes Avenue; thence East along the centerline of Holmes Avenue to the intersection with Church Street; thence Southeast along the centerline of Church Street to the intersection with Williams Avenue; thence Northeast along the centerline of Williams Avenue to the intersection with Franklin Street; thence Northwest along the centerline of Franklin Street and to the intersection with Eustis Avenue; thence Northeast along the centerline of Eustis Avenue to the intersection with Greene Street; thence Northwest along the centerline of Greene Street to the intersection with Monroe Street and Meridian Street; thence North along the centerline of Meridian Street to the intersection with Pratt Avenue; thence West along the centerline of Pratt Avenue to the intersection with I-565; thence Southwest along the centerline of I-565 to the intersection with Church Street; thence Southeast along the centerline of Church Street to the intersection with the Norfolk Southern Railroad and the point of beginning.

Central city review committee or *committee* means a committee comprised of the police chief, the city-clerk treasurer, and the manager of planning administration, or their respective designees.

Business license shall have the same meaning ascribed to it in section 15-31 of this Code.

Permit means a sidewalk cafe permit, a vendor's permit, or a mobile food vendor's permit issued under the authority of this section.

Permitted activity means the sidewalks cafes, vendors, or mobile food vendors permitted under this section.

Permitted premises means that portion of the public streets, sidewalks, or parks that is allowed by the permit to be occupied for the permitted activity.

Public works activity means any public works project; public building project; infrastructure construction, maintenance, or repair; or other public improvement activity of the state or city.

(b) *General conditions*. Each of the following conditions shall apply to the activity or persons permitted or regulated under this section:

(1) The permit shall be in addition to the required business license and the permit holder shall obtain and maintain a business license from the city and, failing to so obtain or maintain the business license, the permit issued under this section shall

be automatically revoked without the need for any action from the city or any right of appeal by the permit holder.

(2) The permit holder shall comply with all applicable laws, rules, and regulations that pertain to the permitted activity and use of the permitted premises, including city and state health laws and the obtaining of the required health department permitting.

(3) The free passage of pedestrians along the sidewalk shall not be prevented or substantially impaired and there shall be at least a minimum sidewalk width of five feet of unencumbered sidewalk that is open for pedestrian use maintained adjacent to the permitted premises.

(4) No signs shall be allowed to be placed on any portion of the public sidewalks, streets, or parks, including the permitted premises, except that a mobile food vendor may affix signage to its mobile food vending unit and a vendor may affix signage to its cart or other equipment.

(5) Access to adjacent buildings or uses shall not be impeded.

(6) At any time and from time to time the city clerk-treasurer may, in the case of a vendor's permit or mobile food vendor's permit, re-assign a permit holder's assigned space to another appropriate location and, in the case of a sidewalk cafe permit or a mobile food vendor's permit, temporarily suspend the permit, in order to accommodate:

a. A special event, including lease events and sponsor events, permitted under chapter 23, article VI of this Code;

b. Another permitted activity authorized under this section; or

c. A state or city project, activity, or event, including a public works activity.

(7) A permit holder shall keep the permitted premises and adjacent public property clean and free from all trash, litter, debris, or waste generated from the operation of its business. The permit holder's installations, equipment, carts, and other items shall be maintained and kept in good and presentable condition and repair and free from graffiti.

(8) The permit holder shall not erect or construct any permanent structure or modify or affix anything to any existing structure or any public property or otherwise damage or deface public property.

(9) A vendor or mobile food vendor must use its permitted premises for its permitted activity on a routine basis during the appropriate seasons for outdoor use, unless prevented from doing so by circumstances beyond the permit holder's control.

(10) The city clerk-treasurer may, at any time and from time to time, attach additional conditions to the use of the permitted premises in order to protect the public health, safety, or general welfare.

(11) Upon the termination, whether by revocation or otherwise, of the permit, the permit holder shall restore the permitted premises to the satisfaction of the city clerk-treasurer.

(c) *Permits.*

(1) *Permit requirement*.

a. Every person who shall desire to use public space in the central city core area or, where allowed under this section, the central city area, to conduct an activity authorized under this section shall make application with the city clerk-treasurer on forms provided by the city, which application shall include the applicants complete name and address and, where applicable, its trade name, the address of any location used for storage of carts, supplies, equipment, or inventory, installation plans, indemnification of the city, and proof of insurance.

b. Permits required by this section shall be renewed annually by filing, at business license renewal time, a permit renewal application with the city clerk-treasurer on forms provided by the city. Permits are not transferrable.

c. Permit holders shall notify the city clerk-treasurer within ten days of a change in the permit holder's address.

d. The city-clerk treasurer is hereby authorized to administer the provisions of this section and to issue a permit authorized under this section in accordance with this section.

(2) *Use fee*. At the time of the filing its application or renewal application, as the case may be, the applicant for a permit shall pay to the city a non-refundable, annual use fee for the right to use the permitted premises as follows:

a. The applicant for a vendor's permit shall pay $100.00.

b. The applicant for a sidewalk cafe permit shall pay $100.00.

c. The applicant for a mobile vendor's permit shall pay $100.00 per mobile food vending unit located on public vending space.

(3) *Revocation, suspension, or non-renewal of permit; no vested right*.

a. The city clerk-treasurer is authorized to revoke or suspend or not renew a permit for a violation of this section; provided that the permit holder shall first be given a reasonable period of time, not to exceed 20 days, to cure the violation, unless the clerk-treasurer determines that the violation is not reasonably capable of being cured, the permit holder refuses to cure the violation, or the permit holder has on multiple occasions within a given calendar year committed the same violation.

b. The permit holder may appeal the action taken against the permit to the two remaining members of the central city review committee by filing, within 20 days of the date of the action taken, a written request with the city clerk-treasurer. The hearing on the appeal shall be held by the two remaining members of the committee within a reasonable period of time and the permit holder shall be provided advance written notice of the date and time of the hearing of the appeal and shall have the opportunity to be heard at the hearing. The decision of the city clerk-treasurer shall be upheld unless the two remaining members of the committee determine that a reversal is justified under the circumstances.

c. Notwithstanding anything to the contrary in this subsection (3), while an appeal is pending the permit holder may continue to operate under the permit unless the city clerk-treasurer determines that the permit should be suspended pending the outcome of the appeal in order to protect the public's health or safety or prevent damage to or destruction of public property.

d. Action taken against a permit shall not constitute action being taken against the business license.

e. Notwithstanding anything to the contrary in this section: (i) a permit holder shall acquire no vested right to a permit or use of the permitted premises and the provisions of this section and any rights granted hereunder, in whole or part, are subject to repeal or amendment, at any time or from time to time; and (ii) there is no right of appeal from a temporary suspension of a permit under subsection (b)(6) of this section.

f. Nothing in this subsection (3) shall be construed to prevent the enforce-

ment, by arrest or citation, of applicable laws, including a violation of this section.

(d) *Sidewalk cafes*.

(1) *Sidewalk cafe permit*. Subject to the provisions of this section, any person engaged in the business of operating a restaurant, cafe, cafeteria, or other public place where meals, food, or refreshments are prepared and furnished upon premises licensed for such use that are within the central city core area may apply for a sidewalk cafe permit from the city in order to use the public sidewalk adjacent to such premises as a sidewalk cafe for its patrons.

(2) *General conditions*. Sidewalk cafes shall be subject to each of the following conditions:

a. No alcoholic beverages are to be served or consumed upon the permitted premises unless the provisions of subsection (3) of this subsection (d) are met.

b. The city may require that the permitted premises be delineated by a railing or other method of delineation that is not affixed to any portion of the sidewalk or other public property.

c. During hours when the establishment is closed for business chairs shall either be removed from the sidewalk or otherwise secured so as to prevent their use while the business is closed; provided that, notwithstanding the foregoing, the city clerk-treasurer may, at any time and from time to time, require that all or any portion of the installations on the permitted premises be removed when the establishment is closed for business for public safety or convenience. At all times the permitted premises and the installations thereon shall be maintained in a neat and presentable manner, without clutter, and chairs shall be neatly stacked or placed when not in use.

d. All proposed installations upon or over the permitted premises, including location, materials used, appearance, style, extent, and method of installation, shall be subject to review and approval of the central city review committee. Detailed plans and specifications of the installation suitable in form and content to the committee shall be submitted to the office of the city clerk-treasurer together with any other information that may be required by the committee in order to approve the installation. Such installations may include customer tables and seating, railings or other methods of delineating the space, awnings to be installed over the permitted premises, table umbrellas, and containers of plants. At any time and from time to time the committee may require installations to be modified or removed for the public health, safety, or general welfare. All installations shall be installed at the sole costs and expense of the permit holder and under proper building and other technical code permitting as may be required.

e. A permit holder shall make its indoor bathroom facilities available to its sidewalk cafe customers, and in no event shall the permit holder be allowed to install any outdoor bathroom facilities.

f. Should the committee determine that lighting is required for the public safety and convenience, then the permit holder shall, at its sole expense and cost, provide such required lighting; provided said lighting shall not be affixed so as to damage or deface public property, and further provided, the permit holder shall obtain and maintain any applicable per-

mits for installation and operation of the lighting, including but not limited to electrical permits.

g. There shall be no outside live music or entertainment. Music may be played outside over a public address system, provided that it shall cease at 10:00 p.m.

(3) *Sidewalk cafes serving alcoholic beverages*. Alcoholic beverages may be served to patrons seated at tables and chairs on the permitted premises, subject to each of the following conditions:

a. The permit holder shall be duly licensed by the state and city to sell alcoholic beverages for on-premises consumption and such licensing shall include as a portion of the licensed premises the permitted premises.

b. The permit holder shall not be an establishment that provides live entertainment or dancing inside its licensed premises unless it qualifies as a restaurant (as defined by the zoning laws of the city).

c. The establishment shall comply with applicable state and city alcoholic beverage laws, which includes the regulations of the Alabama Alcoholic Beverage Control Board governing the display of alcoholic beverages and their service on patios adjacent to the licensed premises.

d. The permit holder shall be responsible for the provision of security within the permitted premises during the period of the permit; provided, however, nothing herein shall prevent any law enforcement officer or other official from entering upon the permitted premises to perform any law enforcement function or otherwise administer or enforce any federal, state, or local law.

e. The permit holder shall obtain and maintain throughout the permitted period bodily injury and property damage liability insurance, on an occurrence basis, naming the city, its officials, officers, employees, and agents as an additional insureds, covering the permitted premises in a minimum amount of $100,000.00 for the injury to or death of any one person and $300,000.00 for the injury to or death of any number of persons in one occurrence, and property damage liability insurance in the amount of $100,000.00. Such insurance shall specifically insure the permit holder against all liability assumed by the permit holder hereunder as well as liability imposed by law, and shall insure both the city and permit holder, but shall be so endorsed as to create the same liability on the part of the insurer as though a separate policy had been written for the city and permit holder. Such policy of insurance shall be issued by a company authorized to engage in the insurance business in the State of Alabama, maintaining a Best rating of not less than "A," and shall be approved by the city attorney or his designee prior to the issuance of a permit. The city clerk-treasurer may, at any time and from time to time, require the permit holder to provide a certificate of insurance or other proof of insurance.

f. The applicant for a permit shall, at the time of making application for a permit and on forms provided by the city, agree to indemnify and hold harmless the city, its officials, officers, employees, agents, contractors, and volunteers performing authorized city functions, from and against any and all claims, costs, losses, expenses through appeal (including reasonable attorneys' fees, and costs or expenses incidental to the investigation of claims and lawsuits), demands, payments, suits, actions, recoveries, penalties, fines, liabilities, and judgments, of any nature and description, resulting from or aris-

ing out of the acts or omissions of the permit holder, its officers, servants, agents, contractors, employees, or customers, in connection with the conduct of the permitted activity or the use of the permitted premises. This provision shall survive the termination, whether by revocation or otherwise, of the permit.

(e) *Vendor's permit*.

(1) *Definitions*. For purposes of this subsection (e), the following words, terms, and phrases shall have the meanings ascribed to them in this subsection (1), unless the context clearly indicates a different meaning:

Public vendor space means the public sidewalks and parks located in the central city core area, and the routes of public parades which are located within the central city area, but only during the hours of such parades.

Vendor activity means:

a. Demonstration or sale of the following products:

1. Sandwiches, hot dogs, hot tamales, hamburgers, pizzas and drinks (other than alcoholic beverages);

2. Candies, nuts, popcorn and confections;

3. Ice cream, ice cream bars and related confections;

4. Fruits and vegetables;

5. Novelties and homemade artifacts which are handmade by the permit holder or his employees, and specifically excluding finished or unfinished products bought for resale; and

6. Fresh cut and dried flowers.

b. To take and sell photographs where the parties photographed willingly pose for the pictures and the picture is developed on the spot where taken and there delivered to the parties photographed.

c. Painting, sketching, drawing; exhibiting original paintings, sketches or drawings of the permit holder; or the sale of the permit holder's original (including prints or other reproductions) paintings, sketches, or drawings.

d. The sale of new or used books.

e. Exhibitions or performances by a single performer, educational or otherwise, when admission or fee is charged. The term shall not include exhibitions or performances that are a part of the conduct of an organized event regulated by chapter 23, article VI of this Code.

(2) *Vendor's permit*. Subject to the provisions of this section, any person engaged in the business of operating a vendor activity may apply for a vendor's permit from the city in order to use public vendor space to conduct its vendor activity.

(3) *Assignment of space*. Each vendor's permit shall designate that portion of the public vendor space assigned to the permit holder by the city clerk-treasurer. Assignments shall be made by the city clerk-treasurer based on the preference of the applicant, the availability of the space, and any other factor deemed appropriate by the city clerk-treasurer based on the public's health, safety, and general welfare. Where more than one applicant for a permit expresses a preference for the same location, the space shall be assigned to the applicant first filing a completed application for the space; provided, that, where a permit is being renewed from the prior year, then the renewal applicant may be given preference.

(4) *Sponsor's events*. Where there are multiple vendors of vendor activities organized under a single sponsor, the sponsor shall make application for a special event permit under chapter 23, article VI of this

Code, and shall be regulated by that article. A vendor operating under a sponsor's special event permit shall not be required to obtain a vendor's permit under this subsection (e).

(5) *Condition*. No permit holder shall operate or locate in any residential district or adjacent to any building used exclusively for residential use.

(f) *Mobile food vendors*.

(1) *Definitions*. For purposes of this subsection (f), the following words, terms, and phrases shall have the meanings ascribed to them in this subsection (1), unless the context clearly indicates a different meaning:

Mobile food vending unit means a trailer or motorized vehicle designed to be portable and not permanently attached to the ground from which only prepared food or beverages, excluding alcoholic beverages, are peddled, vended, sold, displayed, offered for sale, or given away.

Public mobile food vendor space means space on public property located within the central city core area, which is approved for a mobile food vending unit by the city's manager of planning administration.

(2) *Mobile food vendor's permit*. Subject to the provisions of this section, any person engaged in the business of operating a mobile food vending unit may apply for a mobile food vendor's permit from the city in order to use public mobile food vendor space to operate its mobile food vending unit.

(3) *Assignment of space; number of units*.

a. Each permit shall designate that portion of the public mobile food vendor space assigned to the permit holder by the city clerk-treasurer. Assignments shall be made by the city clerk-treasurer based on the preference of the applicant, the availability of the space, and any other factor deemed appropriate by the city clerk-treasurer based on the public's health, safety, and general welfare. Where more than one applicant for a permit expresses a preference for the same location, the public mobile food vendor space shall be assigned to the applicant first filing a completed application for the space; provided, that, where a permit is being renewed from the prior year, then the renewal applicant may be given preference.

b. A mobile food vendor may apply for more than one public mobile food vendor space. However, in order to accommodate other mobile food vendors, the city clerk-treasurer may limit or equitably apportion the number of public mobile food vendor spaces used by a mobile food vendor or a person associated with the vendor, such as a relative, family member, or, in the case of a vendor that is an entity, its officers, members, managers, or partners.

(4) *Conditions*.

a. For mobile vending units that are located on or adjacent to a street, food service shall be solely from that side of the unit that opens away from the street.

b. Hours of operation for mobile food vending units, not including set-up or take-down, shall be from 9:00 p.m. Wednesday, Thursday, Friday, and Saturday until 2:00 a.m. Friday, Saturday, and Sunday; and from 6:00 a.m. until 11:00 a.m. Saturdays and holidays recognized by the city. Vendors may set-up one hour before opening and take-down 30 minutes after closing. Mobile food vending units shall be removed from public property at times other than the hours of operation and the set-up and take-down periods.

c. Mobile vending units shall not be placed or operated so as to impede vehicular traffic's use of the streets.

d. No outdoor loudspeaker, public address system, music, or other form of entertainment shall be audible from mobile food vending units.

State law reference—Municipal parks, playgrounds and other recreational and athletic areas and facilities, Code of Ala. 1975, § 11-47-210.

ARTICLE I. IN GENERAL

Sec. 19-1. Wheeled recreational vehicles.

(a) *Definitions.* The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Wheeled recreational vehicle means any vehicle used for recreational purposes, whether motorized or nonmotorized, which has one or more wheels affixed to the vehicle, and which shall include but is not limited to motorcycles, scooters, skateboards, in-line skates, and roller blades. Specifically excluded from this definition are baby strollers, wheeled vehicles required to assist the disabled, and nonmotorized bicycles and tricycles.

(b) *Use in park prohibited.* It shall be unlawful for any person to use, operate or allow to be used or operated within any public park in the city limits any wheeled recreational vehicle unless otherwise posted.
(Ord. No. 95-568, §§ 1, 2, 8-24-1995; Ord. No. 05-711, § 1, 9-8-2005)

Cross reference—Traffic and vehicles, ch. 25.

Sec. 19-2. Vehicles in parks to be driven on roadways.

No person shall ride or drive any vehicle in any public park within the city limits unless it is upon a road or driveway set apart for such use.
(Code 1982, § 19-1)

Cross reference—Traffic and vehicles, ch. 25.

Sec. 19-3. Persons in parks at night.

(a) It shall be unlawful for any person to be upon the grounds of any public park under the supervision of the director of parks and recreation, except Big Spring Park, during the period from one-half hour after sunset to one-half hour before sunrise unless such person is at the time a participant or spectator of an activity officially scheduled by the parks and recreation department.

(b) This section shall be effective as to each such park from and after such time as appropriate signs are erected in such park informing the public of the provisions of this section.
(Code 1982, § 19-2)

Sec. 19-4. Bathing in public springs, streams.

It shall be unlawful for any person to bathe in the Big Spring Branch between its head and Lehmans Ferry Road. It shall also be unlawful for any person to bathe or wash in an indecent manner in any of the streams within the corporate limits of the city.
(Code 1982, § 19-4)

State law references—Indecent exposure, Code of Ala. 1975, § 13A-6-68; public lewdness, Code of Ala. 1975, § 13A-12-130.

Sec. 19-5. Fishing in Big Spring and Big Spring Lake.

It shall be unlawful for any person to catch or take or attempt to catch or take fish, minnows or bait from or out of Big Spring from its head through and including Big Spring Park Lake; however, the director of recreation and landscape management, upon application or by his own initiative, may permit the removal of fish or minnows for relocation purposes, upon such terms and conditions as he may impose, taking into consideration the biological results in granting or refusing such permit.
(Code 1982, § 19-5)

Sec. 19-6. Trespassing upon Big Spring Park dam.

It shall be unlawful for any person to trespass upon the dam at Big Spring Park or climb upon or in any manner interfere with the chains stretched across the branch below the dam.
(Code 1982, § 19-6)

Sec. 19-7. Trespassing upon public parks and athletic fields which are closed for repair.

It shall be unlawful for any person to trespass upon any public park or city operated or main-

tained athletic field when signs have been posted by the city which shall give notice that the park or athletic field has been closed for repair.

Any such trespass shall constitute a misdemeanor. Upon conviction of a violation under this section, the guilty party shall be subject to a fine of not less than $250.00 nor more than $500.00.
(Ord. No. 05-252, § 1, 4-28-2005)

Secs. 19-8—19-40. Reserved.

ARTICLE II. SWIMMING POOLS

Sec. 19-41. Supervision and regulation.

A swimming activities coordinator shall supervise city-owned swimming pools subject to the overall supervision of the director of recreation and landscape management and shall have the power and authority to promulgate and enforce reasonable rules and regulations for the efficient operation, use and management of the aquatic facilities; and when posted in a conspicuous place at city-owned swimming pools such rules and regulations shall be effective. Failure to adhere to such rules and regulations may result in a loss of facility use.
(Code 1982, § 19-22)

Sec. 19-42. Accounting of funds.

Swimming activities coordinators shall make an accounting daily to the city clerk-treasurer of all moneys received by them belonging to the city, and shall pay over such money daily to the city clerk-treasurer.
(Code 1982, § 19-23)

Sec. 19-43. Fees.

The following schedule of fees is hereby set and established for all city-owned and -operated swimming pools:

(1) Brahan Spring Park Natatorium (located at Brahan Spring Park), James A. Williams Aquatic Center (located on Monroe Street), and Dr. Richard Showers, Sr. Pool (located on Blue Spring Road).

a. Nonrestricted public swimming (during nonscheduled hours).

1. The sum of $2.00 per person for all ages, in advance, for general admission to swim during public hours. On October 1, 2008, this rate will change to $3.00. On October 1, 2010, this rate will change to $4.00.
2. The sum of $50.00 for tickets issued to swimmers 19 years of age and over for swimming any day during public hours for any three-month period. On October 1, 2008, this rate will change to $60.00. On October 2, 2010, this rate will change to $70.00.
3. The sum of $100.00 for tickets issued to families for swimming any day during public hours for any three-month period. On October 1, 2008, this rate will change to $120.00. On October 1, 2010, this rate will change to $140.00.
4. Persons who are eligible to receive food stamps under the federal food stamp program operated pursuant to the provisions of 7 USC 2011 et seq., are eligible for a special rate of $1.00 per person, in advance, for general admission to swim during public hours. Proof of eligibility, together with a valid driver's license or other identification containing a photograph of the applicant, shall be furnished when a special rate under this subsection is claimed. Application for the special rate shall be made upon a form prescribed by the city. The city may designate the manager of recreation services or any other person to determine eligibility

for the special rate. The decision of such person designated by the city shall be final. Any person who qualifies for the special rate shall be required to reapply for the special rate on an annual basis. The form for reapplication shall be the same as for initial application. The reapplication period shall be between October 1 and December 1 of each calendar year.

5. The sum of $90.00 for a 30-visit, nonrefundable, punch card which is valid for a period of one year from the date of purchase.

b. Restricted public swimming (scheduled by pool manager).

1. The sum of $75.00 per person in advance per course for all basic swimming and aquatic safety programs, except that those persons who meet the eligibility requirements of paragraph (1)a.4. of this section shall pay the sum of $20.00 per person in advance for such programs.

2. The sum of $75.00 per person in advance per course for any advanced Red Cross program (lifeguarding, lifeguard instructor, and water safety instructor). On October 1, 2010, this rate will change to $100.00.

3. Refunds will be issued according to departmental policy.

4. The sum of $10.00 per person per month for all ages participating with a year-round competitive swim group. On October 1, 2008, this rate will change to $15.00. On October 2, 2010, this rate will change to $20.00.

5. The sum of $10.00 per person per month for all ages participating with a year-round competitive dive group. On October 2, 2008, this rate will change to $15.00. On October 1, 2010, this rate will change to $20.00.

c. Group rates.

1. Nonoperating hours.

i. Organized group(s) i.e. scuba, kayaking, etc, wishing to use any facility after normal operating hours shall be a minimum rate of $75.00 per hour, or $3.00 per person per hour, whichever is greater. On October 1, 2010, this rate will change to $100.00 per hour, or $4.00 per person per hour, whichever is greater. In addition to facility charges these organized groups shall pay any overtime wage accrued by supervisory personnel during the scheduled activity.

(2) Swim meets.

The following schedule of fees is hereby set and established for swim and dive meets to be held at the Brahan Spring Park Natatorium and Dr. Richard Showers, Sr. Pool:

a. Swimming pool rental.

1. The sum of $300.00 per day during the months of September through April. On October 2, 2010, this rate will change to $400.00.

2. The sum of $400.00 per day during the months of May through August. On October 1, 2010, this rate will change to $500.00.

b. Timing system rental and operation.

1. The sum of $200.00 per system per day for use of the timing system(s).

2. In addition to the usage charge for the timing system(s), the swimming organization shall be

charged in order to compensate for any overtime accrued by any city employee(s) while operating the timing system during a swim meet.

3. There will be an additional charge of $50.00 for setup on a one-day meet. This fee is waived if the event runs for more than one day. On October 1, 2010, this rate will change to $75.00.

(3) Special account.

The proceeds collected from subsections (2)a. and b. of this section, pertaining to swimming and diving meet fees shall be placed in special numbered account, 01-0000-2268-0000, of the city and shall be used only for the purpose of repairing, replacing or upgrading equipment used by the swimming and diving organizations, or the costs which may result from hosting a championship meet, subject to the approval of the recreation services manager.

(Ord. No. 96-308, § 1, 5-9-1996; Ord. No. 96-783, §§ 1, 2, 9-26-1996; Ord. No. 08-129, § 1, 2-28-2008; Ord. No. 11-258, §§ 1, 2, 5-12-2011)

Secs. 19-44—19-70. Reserved.

ARTICLE III. HUNTSVILLE TENNIS CENTER

Sec. 19-71. Accounting of funds.

The tennis activities supervisor shall make an accounting daily to the city clerk-treasurer of all moneys received by him belonging to the city, and shall pay over such money daily to the city clerk-treasurer.

Sec. 19-72. Supervision and regulation.

A tennis activities supervisor shall supervise the Huntsville Tennis Center, subject to the overall supervision of the director of recreation and landscape management and shall have the power and authority to promulgate and enforce reasonable rules and regulations for the efficient operation, use and management of the facility; and when posted in a conspicuous place at the Huntsville Tennis Center, such rules and regulations shall be effective. Failure to adhere to such rules and regulations may result in a loss of facility use.

Sec. 19-73. Fees.

(a) The following schedules of fees are set and established for the Huntsville Tennis Center (located in Brahan Spring Park) for play when courts are available:

(1) The sum of $2.00 per person in advance for two hours; play on hard courts only. (Courts 11—16.)

(2) The sum of $2.50 per person in advance for two hours; play on soft courts only. (Courts 1—10.)

(3) The sum of $175.00 annually for seasonal tickets issued to a family of three, plus $25.00 for each additional family member.

(4) The sum of $60.00 annually for season tickets issued to persons 65 years of age and over. This pass is restricted to Monday through Friday only and shall not be valid on weekends and holidays.

(5) The sum of $100.00 annually for season tickets issued to persons under 65 years of age.

(6) Persons playing in tennis tournaments at the Huntsville Tennis Center shall be required to pay a fee of $8.00 per tournament. This fee may be paid as part of a tournament entry fee or directly to the tennis center personnel (in addition to the regular tournament entry fee).

(7) The superintendent of special facilities shall have the authority, subject to the approval of the director of parks and recreation, to negotiate and set fees for special events that may be held at the Huntsville Tennis Center.

(b) All fees must be paid prior to obtaining a court. Seasonal tickets, unless otherwise indicated, shall mean a 12-month period from the time of purchase.

(Ord. No. 88-635, 12-8-1988)

ARTICLE I. IN GENERAL

Secs. 20-1—20-30. Reserved.

ARTICLE II. GARAGE SALES

Sec. 20-31. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Garage sale means the display and offer for sale of any goods, wares or merchandise, on the premises of any residential lot within the city limits of the city, which goods, wares or merchandise are household furnishings or personal possessions of persons residing in the household upon which they are displayed and offered for sale, under circumstances where many such items are displayed upon the premises at the same time, and persons are invited to come upon the premises to view such items for the purpose of sale.
(Code 1982, § 18-333)

Cross reference—Definitions generally, § 1-2.

Sec. 20-32. General restrictions.

It shall be unlawful for any person to hold a garage sale upon any residential premises at which items are not the household furnishings or personal possessions of persons residing in the household upon which they are displayed. The offer for sale by means of a garage sale of property which has been specifically acquired for resale, or the consignment of which has been accepted for display and offered for sale at a garage sale, is specifically prohibited.
(Code 1982, § 18-334)

Sec. 20-33. Place, duration.

It shall be unlawful for any person to hold a garage sale except upon premises to which he has the right to possession and of which he is a member of the household. It shall be unlawful to hold a garage sale of longer duration than three consecutive days.
(Code 1982, § 18-335)

Sec. 20-34. Frequency.

It shall be unlawful for any person to hold any garage sale at any time within 60 days subsequent to the holding of any such previous sale by him or any member of his household upon the same premises.
(Code 1982, § 18-336)

Division 3. Use of Public Sewers

Sec. 21-91. Requirement of sewer use.
Sec. 21-92. Sewer connections.
Sec. 21-93. When connections made by city.
Sec. 21-94. Statement of cost of work done by city to be filed with county probate judge.
Sec. 21-95. Service of notice required by section 21-91.
Sec. 21-96. Discharge to municipal separate storm sewer system or natural outlet.
Sec. 21-97. Unsanitary methods of discharge.
Sec. 21-98. Septic tanks.
Sec. 21-99. Reporting of illicit discharge.
Secs. 21-100—21-120. Reserved.

*__Cross references—__Buildings and building regulations, ch. 7; stormwater management, § 12-331 et seq.; utilities, ch. 26; disposal-storage district regulations, app. A, art. 61.

Division 4. Building Sewers and Connections

Sec. 21-121. Duties of owner generally.
Sec. 21-122. Fee when connection was at no cost to the owner.
Sec. 21-123. Connections outside city.
Sec. 21-124. Prohibited connections.
Sec. 21-125. Method of connection.
Sec. 21-126. Elevation of connection.
Sec. 21-127. Engineering standards.
Sec. 21-128. Separate connections.
Sec. 21-129. Public hazard.
Sec. 21-130. Grease and solid removal.
Sec. 21-131. Preliminary treatment devices.
Sec. 21-132. Control manhole.
Sec. 21-133. Cross connections.
Secs. 21-134—21-150. Reserved.

Division 5. Permits

Sec. 21-151. Connection to sewer mains generally.
Sec. 21-152. Industrial permits.
Sec. 21-153. Permit where no pretreatment required.
Sec. 21-154. Chemical analysis required.
Sec. 21-155. Approval of discharge.
Sec. 21-156. Acid or alkaline range.
Sec. 21-157. Connection charge determination.
Sec. 21-158. Effect of approvals.
Sec. 21-159. Property rights.
Sec. 21-160. Ownership changes.
Sec. 21-161. Due date; amount of fees.
Sec. 21-162. Permit cancellation.
Sec. 21-163. Conflicts with state and federal laws.
Sec. 21-164. Monthly reports.
Sec. 21-165. Confidential information.
Sec. 21-166. Treatment credits.
Sec. 21-167. FDF variances.
Secs. 21-168—21-190. Reserved.

Division 6. Industrial Surcharges

Sec. 21-191. Definition; amount of charges.
Sec. 21-192. Computation of pounds.
Sec. 21-193. High concentrations of pollutants.
Secs. 21-194—21-210. Reserved.

Division 7. Prohibited Discharges

Sec. 21-211. Generally.
Sec. 21-212. Substances prohibited in public sewers.
Sec. 21-213. Concentrations.
Sec. 21-214. Dilution.
Sec. 21-215. Suspended solids.
Sec. 21-216. Chemical oxygen demand (COD).
Sec. 21-217. Biochemical oxygen demand (BOD) limit.
Sec. 21-218. Action by director.
Sec. 21-219. Approval of facilities.
Sec. 21-220. Manifest requirements.
Sec. 21-221. Discharge to storm sewers.
Secs. 21-222—21-240. Reserved.

Division 8. Water Quality and Quantity Determinations

Sec. 21-241. Rate of delivery of effluent and waste.
Sec. 21-242. Prohibitions.
Sec. 21-243. Requirements as to permits.
Sec. 21-244. Acceptance of waste.
Sec. 21-245. Quality determination.
Sec. 21-246. Testing wastes.
Sec. 21-247. Effluent sampling.
Sec. 21-248. Quality changes.
Sec. 21-249. Quantity determination.
Secs. 21-250—21-270. Reserved.

Division 9. Rates

Sec. 21-271. Definitions.
Sec. 21-272. Determination of quantity of discharge/consumption.
Sec. 21-273. Sewer service charges.
Sec. 21-274. Grease and septic tank charges.
Sec. 21-275. Interim charges.
Sec. 21-276. Billing.
Sec. 21-277. Effect of failure to receive bill.
Sec. 21-278. Payment of bill with bad check.
Sec. 21-279. When service discontinued for failure to pay bill; reconnection charge.
Sec. 21-280. When service restored where water has been cut off for failure to pay bill.
Sec. 21-281. Service not to be restored while delinquent customer to reside on premises.
Sec. 21-282. Sewer access fees.
Secs. 21-283—21-310. Reserved.

Article III. Storm Sewers

Division 1. Generally

Sec. 21-311. Drainage of stormwater.
Secs. 21-312—21-330. Reserved.

Division 2. NPDES Compliance

Subdivision I. In General

Sec. 21-331. Definitions.
Sec. 21-332. Intent.
Sec. 21-333. Penalties.
Sec. 21-334. Exemption.
Sec. 21-335. Existing authorities.
Sec. 21-336. Discharge prohibitions.
Sec. 21-337. Exceptions to prohibition.
Sec. 21-338. Inspection and monitoring of discharges.
Sec. 21-339. Best management practices.
Sec. 21-340. Good housekeeping practices required.
Sec. 21-341. Providing false information and tampering prohibited.
Sec. 21-342. Method of enforcement.
Secs. 21-343—21-350. Reserved.

Subdivision II. Best Management Practices (BMP) Approval

Sec. 21-351. Application.

Sec. 21-352. Granting and denial of BMP plan approval.
Sec. 21-353. Term of BMP plan approval.
Sec. 21-354. BMP plan approvals nonassignable.
Sec. 21-355. Modifications to BMP plan approvals.
Sec. 21-356. Grounds for revocation of a BMP plan approval.
Sec. 21-357. Emergency suspension of BMP plan approval.
Sec. 21-358. Appeal of denial, revocation or suspension of BMP plan approvals.
Sec. 21-359. Noncompliance with terms or conditions of a BMP plan approval prohibited.

ARTICLE I. IN GENERAL

Sec. 21-1. System standards.

(a) No sewage collection, treatment and disposal system shall be permitted within the city unless the system shall be:

(1) Connected to the public sewer system of the city; or

(2) Permitted according to the terms and procedures set forth in this section.

This section specifically excludes septic tanks installed according to state health department standards and permits.

(b) As used in this section, the following words and terms shall have the following meanings:

Developer means any person, individual, corporation, firm, company or other legal entity. The term "developer" may be used synonymously with the term "person."

Private package wastewater treatment plant (PWTP) means any system, excluding septic tanks, for collecting, piping, conveying, storing, treating or disposing of sewage where the system is not connected to a public sewer system, together with all appurtenances. The term "PWTP" includes all mains, laterals, disposal and treatment plants and all property used in connection with the system.

Sewage means the human, animal or vegetable waste from residences, buildings, institutions, food service and industrial establishments, and other facilities.

Subdivision means the division of a lot, tract or parcel of land into two or more lots, plats, sites or other divisions of land for the purpose, whether immediate or future, of sale or building development.

(c) The engineering division is authorized and directed to develop standards and criteria for the design and construction of PWTPs covered under this section, and to promulgate and enforce the standards and criteria as set forth in this section, all as the public health, safety and general welfare shall require.

(d) Before the construction or operation of a PWTP for the disposition of sewage, the developer of the PWTP shall obtain a permit from the engineering division as follows:

(1) a. The developer shall submit a preliminary site application to the director and obtain a certificate of preliminary site approval before any further application shall be accepted.

b. The preliminary site application must show the wastewater treatment facility in relation to other elements of the PWTP. Sufficient topographical features must also be included to indicate the PWTP's location with relation to streams, existing and proposed wells, and the effluent disposal system.

c. The preliminary site approval shall be granted only if:

1. No public sewer system of the city is available;

2. The design and capacity of the proposed private sewer treatment facility is compatible with any master sewer plan adopted for the proposed site by the appropriate public authority; and

3. The developer has been previously granted an NPDES discharge permit by the state department of environmental management.

(2) After receipt of a certificate of preliminary site approval, the developer shall submit to the engineering division an application for a package wastewater treatment plant, on the form provided by the engineering division. The engineering division shall review the application, the plans and specifications submitted with the application, and any other pertinent information brought to his attention affecting the proposed PWTP and determine whether the proposed system meets

the design and construction criteria for PWTPs adopted and promulgated by the engineering division.

(3) If the proposed system meets the design and construction criteria, then prior to construction and final approval by the engineering division, the developer and the city shall enter into a private wastewater treatment plant (PWTP) agreement, which agreement shall contain the following provisions:

For PWTPs located within the corporate limits of the city or serving property located within the corporate limits of the city.

a. The developer will agree to pay for the costs of construction and to construct the PWTP in accordance with the approved plans and the standards and criteria promulgated by the engineering division.

b. Upon completion of the construction of the PWTP, the developer shall dedicate and transfer full title and ownership of the PWTP to the city, free and clear of liens, without cost to the city.

c. The city shall assume ownership, operation and maintenance of the PWTP only after the final consummation of the transaction set forth in subsection (d)(3)b of this section.

d. The city shall assess and collect any sewer fees assessed for users of the PWTP.

e. The city shall control all connections to the PWTP after its acquisition by the city provided in this section.

(e) As a part of its approval of any PWTP, the engineering division may require the proposed PWTP to be constructed with a capacity in excess of that capacity required to serve the developer's project. In such event, the city and the developer will agree that the city will share with the developer the expense of the construction, maintenance and operation of the PWTP on a pro rata share basis.

(f) The engineering division shall cause to be conducted regular and periodic inspections of the proposed PWTP system during its construction. The developer shall construct and install the PWTP according to all plans, specifications and regulations promulgated by the department.

(g) Upon completion of construction of the PWTP according to engineering division standards and criteria, the engineering division shall issue a final approval of the PWTP. The PWTP will then be dedicated to the city.

(h) The developer shall, at the time of the transfer of ownership of any PWTP to the city, dedicate to the city such easements for egress and ingress as are necessary for the maintenance and operation of the PWTP.
(Ord. No. 87-354, §§ I—VIII, 8-27-1987)

Secs. 21-2—21-30. Reserved.

ARTICLE II. SEWERS AND SEWAGE DISPOSAL*

DIVISION 1. GENERALLY

Sec. 21-31. Definitions.

The following words, terms and phrases, wherever used in this article, shall have the meanings respectively ascribed to them in this section unless the context plainly indicates otherwise or that a more restricted or extended meaning is intended:

Authority means the city.

AWIC means the Alabama Water Improvement Commission.

BOD (denoting biochemical oxygen demand) means the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five days at 20

*__Cross reference—__Requirements for improvements and design of sanitary sewer facilities in subdivisions, app. B, § 4.

__State law references—__Exercise of police jurisdiction over sanitary or stormwater sewers, Code of Ala. 1975, § 11-47-22; municipal sewers and sewer systems generally, Code of Ala. 1975, § 11-50-50 et seq.

degrees Celsius, expressed in parts per million by weight. BOD shall be determined by Standard Methods.

Building (house) sewer means the extension from the building drain to the sewer lateral at the property line or other lawful place of disposal.

COD (denoting chemical oxygen demand) means the quantity of dissolved oxygen required for the chemical oxidation of decomposable matter under aerobic conditions.

Composite sample means a sample consisting of several effluent portions collected during a 24-hour period in which the portions of sample are taken at even intervals and combined to form a representative sample.

Consistent removal means the reduction in the amount or alteration of the nature of a pollutant by the POTW to a less toxic or harmless state in the effluent which is achieved by the system in 95 percent of the samples taken when measured according to the procedures set forth in 40 CFR 403.7(c) "General Pretreatment Regulations for Existing and New Sources of Pollution."

Constituents means the combination of particles, chemicals or conditions which exist in the industrial wastes.

Control manhole means an appropriately located manhole from which a given user's effluent can be effectively sampled by the city.

Cooling water means the water discharged from any use to which the only pollutant added is heat.

Director means the director of water pollution control or his duly authorized deputy, agency or representative.

Effluent means the discharge of flow of a treatment facility.

Flammable means existing fire regulations covering the city.

Grab sample means a sample taken on a one-time basis which is not a function of flow or time.

Grease trap means a fixture through which all of the discharge of a connection flows and which provides a minimum detention period of ten minutes between influent and effluent baffles with 20 percent of the total volume as allowance for a sludge pocket.

Grit chamber means a device to remove sand and gritty material from sewage.

Illicit discharge means any discharge to the municipal separate storm sewer that is not composed entirely of stormwater, except discharges pursuant to a National Pollutant Discharge Elimination System (NPDES) permit (other than the NPDES permit for discharges from the municipal separate storm sewer) and discharges resulting from firefighting activities.

Industrial plant means any plant producing liquid waste, with or without bearing suspended solids, required to be discharged either with or without pretreatment, into the city sanitary sewer system.

Industrial plant site means a parcel of land occupied by a facility which discharges industrial wastes. Each separate industrial plant connected to a city sewer will be considered and assessed for each connection individually even though an owner may operate one or more industrial plants on the same site. A single- or multi-building industrial plant with more than one connection located on a single site shall not arbitrarily combine waste qualities by computations for the purpose of obtaining a dilution benefits.

Industrial user or contributor means an industry which discharges wastewaters having the characteristics of industrial wastes, as distinct from commercial wastes or domestic wastes and having a BOD of 250 ppm or greater and/or total suspended solids of 250 ppm or greater or other chemical constituents above or different from normal domestic and/or commercial waste.

Industrial waste surcharge means the additional service charge assessed against industries in the city service area of which waste characteristics exceed those of normal wastewater.

Influent means the wastewater arriving at the wastewater treatment plant for treatment and those structures associated with its initial treatment.

Metered water means the amount of water consumed by the sewer customer as measured by the city water meter.

Mg/l (milligrams per liter) means ratio by weight, to volume, interchanged with ppm.

Municipal separate storm sewer means a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catchbasins, curbs, gutters, ditches, manmade channels, or storm drains):

(1) Owned by the city having jurisdiction over disposal of sewage, industrial wastes, stormwater or other wastes;

(2) Designed or used for collecting or conveying stormwater;

(3) Which is not a combined sewer; and

(4) Which is not part of a publicly owned treatment works (POTW).

Natural outlet means any outlet into a watercourse, pond, ditch, lake or other body of surface water or groundwater.

Normal means those values taken as standards in the measurement of this article; these limits are defined in context.

Owner means any individual, firm, company, association, society, corporation or group.

pH means the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution; pH shall be determined by Standard Methods.

POTW means publicly owned treatment works, i.e., the city's wastewater treatment facilities.

ppm (parts per million) means ratio by weight.

Pretreatment means that biological, physical or chemical treatment given to waste or those processes utilized for this purpose before discharge into the sanitary sewer system.

Public sewer means a sewer in which all owners of abutting properties have certain rights and includes all fixtures and appurtenances connected and used in the wastewater collection system, and is controlled by public authority.

Receiving waters means those waters into which wastes are discharged.

Residential or domestic user means premises or a person that discharges wastewaters to the city sewers, which closely match normal wastewater as to their volume and strength, and further, for billing purposes, is defined as a dwelling place or place of residence.

Sampling means the collection of a sample of two effluent discharges by a given connection to the system.

Sanitary sewer means a sewer which carries wastewater and to which stormwaters, surface waters and groundwaters are excluded.

Septic tank waste means that waste which results from the emptying of domestic septic tanks.

Sewer means a pipe or conduit for carrying wastewater.

SIC means Standard Industrial Classification, pursuant to the manual issued by the Executive Office of the President, Office of Management and Budget 1972, as amended.

Significant industrial user means a user who has a discharge flow of 25,000 gallons or more per average workday, or a flow greater than five percent of the POTW, or has in its discharge toxic pollutants, or is found to have a significant impact, either singly or in combination with other industrial users on the POTW system.

Standard Methods means those procedures or methods established by the latest edition of the "Standard Methods for the Examination of Water and Wastewater," 20th edition, as prepared, approved and published jointly by the American Public Health Association, the American Water Works Association and the Water Environment Federation.

Standard strength means wastes of any origin having a content of 250 mg/l or less of five-day, 20 degrees Celsius BOD and/or containing 200 mg/l or less of suspended solids, and having no prohibited qualities for sanitary sewer system admission.

Storm sewer and *storm drain* mean a sewer which carries stormwaters and surface waters and drainage, but excludes wastewater and polluted industrial wastes.

Stormwater means stormwater runoff, snow melt runoff, and surface runoff and drainage.

Suspended solids means solids that either float on the surface of or are in suspension in water, wastewater or liquid and which are removable by laboratory filtering.

Total solids means total weight ppm of all solids, dissolved, undissolved, organic or inorganic.

Toxic means constituents of wastes which adversely affect the organism involved in wastewater treatment or aquatic life in receiving statements.

Wastewater and *wastes* mean a combination of the water-carried wastes from residences, business buildings, institutions and industrial establishments; treatable wastes.

Wastewater treatment plant means any arrangement of devices and structures used for treating wastewater.

Watercourse means a channel in which an open flow of water occurs either continuously or intermittently.
(Code 1982, § 20-101; Ord. No. 82-192, 6-15-1981; Ord. No. 87-167, § 1, 5-14-1987; Ord. No. 93-270, § 1, 5-13-1993; Ord. No. 00-129, § 1, 3-9-2000)
Cross reference—Definitions generally, § 1-2.

Sec. 21-32. Application of article.

The rules and regulations incorporated in this article shall govern the installation, alteration and maintenance of all storm and sanitary drainage within the city.
(Code 1982, § 20-102)

Sec. 21-33. Compliance with article.

It shall be unlawful for any person to do or cause to be done any of the acts prohibited by this article or to fail, refuse or neglect to do any of the acts required to be done or performed by this article.
(Code 1982, § 20-104)

Sec. 21-34. Sewer mains under exclusive control of city.

(a) All sewer mains established in or under the streets, avenues, easements or public ways of the city are now declared to be under the exclusive control of the city, to be maintained and kept in repair by the city, without interference by any person.

(b) It shall be unlawful for any person to undertake to exercise control over such sewer mains, or to aid in or grant the right to make connections without obtaining a permit from the city.

(c) The provisions of this section shall not apply to the service lines established and connected with such sewer mains. Such service (building sewer) lines are to be maintained and kept in repair by the person owning or controlling the property serviced by such service lines except that repair and maintenance of service lines used in connection with individual sewer systems requiring grinder pumps shall be made by employees or agents of the city or other qualified factory trained servicemen with the cost for all labor and materials to be paid by the property owner.
(Code 1982, § 20-105; Ord. No. 87-167, § 1, 5-14-1987)

Sec. 21-35. Right of entry of inspectors.

(a) The director and other duly authorized employees of the city are authorized to receive and investigate complaints of violations of this article, including but not limited to investigation of possible illicit discharges to the municipal separate storm sewer system and possible violations of the city's National Pollutant Discharge Elimination System (NPDES) permit.

(b) The director and other duly authorized employees of the city bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling and testing in connection with enforcement of the provisions of this article. The director or such duly authorized representative shall have no authority to inquire into any processes, including metallurgical, chemical, oil, refining, ceramic, paper or other industries,

beyond that point having direct bearing on the kind and source of discharge to the sewers, facilities for waste treatment, or the municipal separate storm sewer system.

(c) While performing the necessary work on private properties referred to in subsection (b) of this section, the director or duly authorized employees of the city shall observe all safety rules applicable to the premises established by the company. The company shall be held harmless for injury or death to the city's employees caused by the negligence of the city's employees; and the city shall indemnify the company against loss or damage to its property by the city's employees and against liability claims and demands for personal injury or property damage asserted against the company and growing out of the negligence of any city employee in the measurement, sampling and testing operation, except as such may be caused by the negligence of the company or its officers, agents or employees or failure of the company to maintain safe conditions.
(Code 1982, § 20-106; Ord. No. 87-167, § 1, 5-14-1987; Ord. No. 93-270, § 2, 5-13-1993)

Sec. 21-36. Indemnification.

In any and all instances where the city has reasonable cause to believe that any of the rules, regulations or provisions set forth in this article or that have otherwise been adopted by the city have been, may be or are being violated by any person discharging waste into the sanitary sewer system, the city may require such person to give bond or enter into an indemnity agreement in a form acceptable to the city with sufficient surety to be approved by the approving authority to protect, indemnify and hold harmless the city from any loss, damage or expense that may suffer or incur as a result of such noncompliance or violation by such person; and, in the event of the failure to do so after ten days' notice by registered U.S. mail that the bond will be required, the use of the sanitary sewer system by such person shall be denied or discontinued.
(Code 1982, § 20-107)

Sec. 21-37. Special agreements.

No statement contained in this article shall be construed as preventing any special agreement or arrangement between the city and any industrial concern by the city for treatment, subject to payment, by the industrial concern.
(Code 1982, § 20-108)

Sec. 21-38. Appeals procedure.

Any person aggrieved by a decision of the director or by any determination of the sewer rules and regulations shall have the right to appeal to the council or to a committee which may be established by the council for the purpose of hearing such appeals. The appellant must file with the city clerk-treasurer a request in writing for such a hearing and also cite the sections of the rules and regulations that he is aggrieved by. Upon receipt of such request, it shall be the duty of the city clerk-treasurer to present the request to the council at the next regular scheduled meeting. The council may elect to hear the appeal or may refer the request to a committee the council will establish. The appellant will be given the time, date and place of the hearing and may present the objection in his behalf at the hearing.
(Code 1982, § 20-109)

Sec. 21-39. Discontinuance of connections discharging injurious substances into sewers.

The director shall have power to prevent or discontinue any connection with the public sewer which discharges any substance liable to injure the sewers or obstruct the flow of the sewerage.
(Code 1982, § 20-110)

Sec. 21-40. New sewer lines.

(a) No person shall construct or lay sewer lines in any subdivision of the city, or in any easements or public rights-of-way of the city, where public sewers are not existing or located, without first presenting plans and specifications for the laying of such sewers to the city council or its duly designated agent and obtaining the consent for the laying of such sewer lines. A copy of such plans and specifications shall be left on file with the engineering division.

(b) The engineering division is designated the lawful agent of the city to receive and approve such plans and specifications.

(c) Physical location for grinder pumps shall be forward of the rear wall of the main building but shall in no case be obstructed by shrubbery, fences or any other object which would prevent clear access or visibility from the public street.

(d) The installation and use of individual sewer systems requiring grinder pumps shall be permitted provided that all provisions set forth in this article are complied with.

(e) The developer or person in control of any subdivision of the city who is permitted to install any sewer system utilizing grinder pumps shall be required to provide at no cost to the city, and before the actual installation begins, an inventory of replacement parts in an amount equal to ten percent of the total number of grinder pump units to be installed and shall consist of the following: complete simplex grinder pumps, pump O-rings, pump seals, pump gaskets, grinder pump impellers, pump shredding rings, complete float assemblies, float brackets, complete junction boxes, complete simplex control panels, control panel circuit breakers, control panel overloads, control panel run caps, control panel start relay, control panel start caps, control panel contractors, control panel run lights, and any other parts as recommended by the equipment manufacturer.
(Code 1982, § 20-111; Ord. No. 87-167, § 1, 5-14-1987)

Sec. 21-41. Shows and carnivals to be provided with approved toilets, sanitary and water connections.

(a) It shall be unlawful for any person within the city to conduct and operate a show or carnival on any lands upon which there is located no good and sufficient toilets, sanitary and water connections, the sufficiency of which is to be approved by the health officer.

(b) It shall be unlawful for any person owning or controlling lands within the city to rent, lease or permit the occupancy of such lands by any person for the purpose of conducting a show or carnival unless such lands are provided with a toilet, sanitary and water connections which have been or are approved by the health officer.
(Code 1982, § 20-112)

Sec. 21-42. Design and acceptance manual for sanitary sewers.

The Design and Acceptance Manual for Sanitary Sewers, 2005 Edition, city engineering department, is adopted.
(Ord. No. 00-862, § 1, 11-9-00; Ord. No. 05-1016, § 1, 12-15-05)

Sec. 21-43. Design and acceptance manual for wastewater pump stations.

The Design and Acceptance manual for wastewater pump stations, dated October 2000, city engineering department, is adopted.
(Ord. No. 00-864, § 1, 11-9-2000)

Secs. 21-44—21-60. Reserved.

DIVISION 2. ENFORCEMENT

Sec. 21-61. Criminal enforcement.

(a) Any person who shall violate any provision of this article or fails to comply with any of its requirements or who shall fail to comply with any order made under the provision of this article shall, upon conviction, be punished as provided in section 1-7. Each person shall be deemed guilty of a separate offense for each and every day or portion during which any violation of any of the provisions of this article is committed or continued.

(b) It shall be unlawful for any person to falsely tamper with or knowingly render inaccurate any monitoring device or method required to be maintained under this article.
(Code 1982, § 20-121; Ord. No. 81-192, 6-25-1981)

State law reference—False statements, Code of Ala. 1975, § 13A-10-109.

Sec. 21-62. Termination of service.

The city may terminate water and wastewater disposal service and disconnect an industrial customer from the system when:

(1) A government agency informs the city that the effluent from the wastewater treatment plant is no longer of quality permitted for discharge to a watercourse, and it is found that the customer is deliv-

ering wastewater to the city s system that cannot be sufficiently treated or requires treatment that is not provided by the city as normal domestic treatment.

(2) The industrial customer:

a. Discharges industrial waste or wastewater that is in violation of the permit issued by the city.

b. Discharges waters or wastes having a deleterious effect upon the city s sewer system.

c. Discharges wastewater at an uncontrolled, variable rate in sufficient quantity to cause an imbalance in the wastewater treatment system.

d. Fails to pay monthly bills for water and sanitary sewer services when due.

e. Repeats a discharge of prohibited wastes to a public sewer.

(Code 1982, § 20-122)

Sec. 21-63. Disconnection.

If service is disconnected pursuant to this division, the city shall:

(1) Disconnect the customer.

(2) Supply the customer with the governmental agency s report and provide the customer with all pertinent information.

(3) Continue disconnection until such time as the industrial customer provides additional pretreatment or other facilities designed to remove the objectionable characteristics from its industrial wastes.

(Code 1982, § 20-123)

Sec. 21-64. Other legal sanctions.

In addition to sanctions provided for by this article, the city is entitled to exercise sanctions provided for by the other ordinances of the city for failure to pay the bill for water and sanitary sewer service when due.
(Code 1982, § 20-125)

Secs. 21-65—21-90. Reserved.

DIVISION 3. USE OF PUBLIC SEWERS

Sec. 21-91. Requirement of sewer use.

(a) The owner of all houses, buildings or properties used for human occupancy, employment, recreation or other purposes, situated within the service area located or may in the future be located, a public sanitary sewer of the city, is hereby required at his expense to install suitable toilet facilities therein, and to connect such facilities directly with the proper public sewer in accordance with the provisions of this article within 360 days after the date of official notice to do so, provided that said public sewer is within 300 feet of the property line.

(b) The disposal of wastewater by means other than the use of the available sanitary wastewater system shall be in accordance with local county and state law. The disposal of wastewater by private disposal systems shall be as specified in sections 21-241—21-244.
(Code 1982, § 20-136; Ord. No. 02-333, 4-25-2002)

State law references—Authority of city to require premises to be connected to sewer system, Code of Ala. 1975, §§ 11-50-53, 11-50-54; regulation of septic tanks, Code of Ala. 1975, § 11-50-55.

Sec. 21-92. Sewer connections.

No permit shall be issued where a connection to the sanitary sewer is required unless the building contractor or plumber involved has located by actual excavation the sewer which will serve his building, and has so planned the flow elevation and building sewer elevation to provide a proper slope in the sewer connection to the sanitary sewer.
(Code 1982, § 7-145)

Sec. 21-93. When connections made by city.

If any owner shall fail to have a sewer connection made as provided by section 21-91(a), without sufficient legal excuse for such failure, the engineering division shall cause such sewer connection to be made or the property ditched or drained or water closets put in and connected with the city sewer system, as the case may be, at the cost and expense of the property owner. The engineering division shall report to the city council the costs and expenses of such work and

materials, or either, which report shall be entered upon the minutes of the city council; and such costs shall constitute and be a lien on such property prior to all other liens, except for taxes, which lien may be enforced by sale of the property, in all respects as in cases of assessments for street improvements and also in the courts of the state in equity.
(Code 1982, § 20-137)

State law references—Similar provisions, Code of Ala. 1975, § 11-50-54; authority of city to require property owners to ditch and drain premises, Code of Ala. 1975, § 11-50-53.

Sec. 21-94. Statement of cost of work done by city to be filed with county probate judge.

Whenever any water closet is installed or connections made by the city under the provisions of this division, the mayor shall prepare a statement in writing setting forth the name of the owner and a description of the property on which such improvements have been made together with the costs of such sanitary connections and installing of closets, or either, which must be signed by the mayor in his official capacity and filed with the probate judge of the county for record in the mortgage records of the county. The filing of such statement shall operate as notice of the existence of such lien from the date of its filing.
(Code 1982, § 20-138)

Sec. 21-95. Service of notice required by section 21-91.

The notice required by section 21-91, where the property owner is a resident of the city, shall be given either by personal delivery to him or by mail addressed to him with postage fully prepaid. Where such property owner is a nonresident of the city, such notice may be given to his agent, if any, in the city who has charge of such property or its rental. If the owner has no resident agent, such notice must be given by advertisement once a week for three successive weeks in some newspaper published in the city.
(Code 1982, § 20-139)

State law reference—Similar provisions, Code of Ala. 1975, § 11-50-56.

Sec. 21-96. Discharge to municipal separate storm sewer system or natural outlet.

(a) It shall be unlawful for any person to place, discharge or cause to be placed or discharged any illicit discharge into the municipal separate storm sewer system or any natural outlet.

(b) It shall be unlawful for any person to discharge any sanitary sewage or wastewater into the municipal separate storm sewer system or any natural outlet.
(Code 1982, § 20-140; Ord. No. 93-270, § 3, 5-13-1993)

Sec. 21-97. Unsanitary methods of discharge.

It shall be unlawful for any person to place, or permit to be deposited in any unsanitary manner on public or private property within the service area, or in any area under the jurisdiction of the city, any human or animal excrement, garbage or other objectionable waste.
(Code 1982, § 20-141)

Sec. 21-98. Septic tanks.

Septic tanks will be prohibited except as provided in this article and the Standard Plumbing Code (chapter 7, article IV, division 6) as adopted and amended by the city.
(Code 1982, § 20-142)

Sec. 21-99. Reporting of illicit discharge.

(a) Any person who places, discharges or causes to be placed or discharged any illicit discharge into the municipal separate storm sewer system or any lake, stream or other body of water located within the corporate limits shall report all information relevant to the discharge, including but not limited to the date, location, nature and volume or quantity discharged, if known, to the division of natural resources and environmental management within 24 hours of such discharge.

(b) Failure to report an illicit discharge as provided in this section shall constitute a misdemeanor. Each day any violation of this section shall continue shall constitute a separate offense.
(Ord. No. 93-270, § 3, 5-13-1993)

Secs. 21-100—21-120. Reserved.

DIVISION 4. BUILDING SEWERS AND CONNECTIONS*

Sec. 21-121. Duties of owner generally.

(a) All costs and expenses incident to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the city from any loss or damage that may directly or indirectly be occasioned by the installation, maintenance or mechanical failure of the building sewer.

(b) All industries, commercial organizations or other producers of liquid waste of any form, including domestic waste, as at apartments, hotels, motels, hospitals, universities, schools or homes served by the city sewer system, must obtain a permit from the director prior to making a connection to the city sanitary sewer system.

(c) Service charge for repair and maintenance of grinder pumps during normal working hours shall be $15.00 per hour for technician and $7.50 per hour for laborer/helper. Service charge for after-hours call-out shall be computed on the greater of:

(1) Four times the hourly rate of this subsection; or

(2) Actual number of hours worked times the overtime rate (time and one-half).

Property owner shall be responsible for invoice cost (replacement parts, including freight, factory service, etc.) plus ten percent, and billing shall be in accordance with section 21-276. Rates will be reviewed on an annual basis and changed as necessary by the engineering division.
(Code 1982, § 20-151; Ord. No. 87-167, § 1, 5-14-1987)

Sec. 21-122. Fee when connection was at no cost to the owner.

In all cases where the sewer main to which the connection is to be made has been installed at no cost to the property involved, the applicant shall, before obtaining a permit from the inspection division, pay to the city clerk-treasurer the sum of $1,000.00. This provision shall not apply to a connection made to serve approved subdivisions where the sewer mains in the subdivision have been installed at the expense of the property served in the subdivision and a connection made to a developed lot served, at the time of the connection, by a septic tank system of wastewater removal.
(Code 1982, § 20-152; Ord. No. 94-809, § 1, 12-20-1994)

Sec. 21-123. Connections outside city.

It shall be unlawful for any person to connect with or maintain a connection with the city sewer system any premises located outside the corporate limits of the city; however, this section shall not prevent any person from maintaining any connection heretofore made with such system, or from connecting and maintaining any premises to such system in accordance with approval of the city council heretofore rendered; and the owners of any tract in close proximity to the existing corporate boundaries who are not legally entitled to become annexed to the city because of lack of contiguity may, with the approval of the council, be specifically authorized to connect specifically described premises to the city sewer system under the following conditions:

(1) The applicant must file an application with the council describing the premises to be served and listing the proposed use of the facilities and the type and volume of effluent to be discharged.

(2) The applicant must agree to pay all connection and service fees.

(3) The applicant must irrevocably agree to annexation into the city limits at the discretion of the city council at such time as contiguity with the present city boundary and compliance with applicable law can be met.

(4) The applicant must agree, prior to annexation, to make an annual payment in lieu of city ad valorem taxes, such payment to be based upon the city tax rate applied against the value as assessed for state

*__Cross reference—__Buildings and building regulations, ch. 7.

and county ad valorem taxes, the first such payment to be due for the tax year beginning next after such connection is actually made and terminating with the tax year ending prior to the year such property is annexed, or if such property is disconnected from the system, terminating with the year ending prior to the year of termination.

(5) The applicant must file such agreement in the office of the judge of probate of the county. Such agreement must, by its terms, bind the successors in interest to the property.

(Code 1982, § 20-153(b); Ord. No. 94-297, 5-12-1994; Ord. No. 95-511, 8-10-1995)

State law reference—Authority of city to make sewer improvements outside corporate limits, Code of Ala. 1975, § 11-48-80 et seq.

Sec. 21-124. Prohibited connections.

No person shall make connection of roof downspouts, exterior foundation drains, areaway drains or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.
(Code 1982, § 20-154)

Sec. 21-125. Method of connection.

The size, slope, alignment, materials of construction of a building sewer and the methods to be used in excavating, placing of the pipe, jointing, testing and backfilling the trench shall all conform to the requirements of the building and plumbing code or other applicable rules and regulations of the city.
(Code 1982, § 20-155)

Sec. 21-126. Elevation of connection.

Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to be the public sewer, sanitary wastewater carried by such building drain shall be lifted by an approved means and discharged to the building sewer.
(Code 1982, § 20-156)

Sec. 21-127. Engineering standards.

The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing codes or other applicable rules and regulations of the city, or the procedures set forth in appropriate specifications of the ASTM (American Society for Testing Materials) and the WPCF (Water Pollution Control Federation) Manual of Practice No. 9. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the director before installation.
(Code 1982, § 20-157)

Sec. 21-128. Separate connections.

Every building in which plumbing fixtures are installed shall have a connection to a public or private sewer, except where a public sewer is not available, an individual sewage disposal system shall be of a type that is acceptable and approved by the director or other governing authority having jurisdiction.
(Code 1982, § 20-158)

Sec. 21-129. Public hazard.

All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the city.
(Code 1982, § 20-159)

Sec. 21-130. Grease and solid removal.

Grease, oil and sand interceptors shall be provided when, in the opinion of the director, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts or any flammable wastes, sand or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the engineering division and shall be located as to be readily and easily accessible for cleaning and inspection.
(Code 1982, § 20-160)

Sec. 21-131. Preliminary treatment devices.

Where preliminary treatment of flow-equalizing facilities is provided for any waters or wastes, it shall be maintained continuously in satisfactory and effective operation by the owner at his expense.
(Code 1982, § 20-161)

Sec. 21-132. Control manhole.

The owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located and shall be constructed in accordance with plans approved by the director. The manhole shall be installed by the owner at his expense and shall be maintained by him so as to be safe and accessible at all times. The manhole must be located on the industrial waste service connection with all sanitary wastes excluded.
(Code 1982, § 20-162)

Sec. 21-133. Cross connections.

Any cross connection between potable water supply and sanitary sewer shall be prohibited, except as specified by the Standard Plumbing Code (chapter 7, article IV, division 6) as adopted and amended by the city.
(Code 1982, § 20-163)

Secs. 21-134—21-150. Reserved.

DIVISION 5. PERMITS

Sec. 21-151. Connection to sewer mains generally.

It shall be unlawful for any person to connect with or maintain a connection with any sewer main within the corporate limits of the city without first having secured a permit for such connection from the engineering division.
(Code 1982, § 20-171)

Sec. 21-152. Industrial permits.

(a) Any person owning or operating an industrial plant producing a liquid industrial waste of any quantity or strength or other qualities requiring special consideration, as relevant conditions are defined in this division, or who desires to make connection for the industrial waste-producing facilities of any such establishment, to the sanitary sewer system of the city, shall make application on the supplied forms to the engineering division for a permit authorizing such connection. A sample of the required form is attached. (See subsection (c) of this section.)

(b) The engineering division shall not issue a plumbing permit for any industrial plant until the applicant presents a completed and approved industrial sewer connection application.

(c) Application for a permit under this section shall be in essentially the following form:

APPLICATION FOR PERMIT
TO
DISCHARGE INDUSTRIAL WASTE

TO: Engineering Division
City of Huntsville
Post Office Box 308
Huntsville, Alabama 25804

DATE:

NAME OF FIRM: _____

ADDRESS: _____

_____

TELEPHONE: _____

Application is hereby made for a permit to discharge industrial waste into the sanitary sewer system of the City of Huntsville, Alabama.

It is understood in making this application that should a change in ownership of the firm be made, a new application will be required.

If the industrial waste is being pretreated prior to discharge into the sanitary sewer system, the method of treatment is indicated:

_____

_____

_____

The City of Huntsville is given permission to enter onto the plant premises and observe any process creating the waste, and to measure and/or secure samples for analysis.

The applicant agrees to abide by all the laws of the State of Alabama, and the ordinances of the City of Huntsville, concerning the pretreatment and discharge of such waste now in force, or as they may be from time to time amended. The applicant further agrees to report to the engineering division immediately in writing any change in the process which causes any measurable change in composition of waste discharge and any change in volumetric discharge of more than ten percent in GPD.

It is understood that the permit, if issued, will authorize only the discharge of waste listed in this application, and none other, and that a new application will be made and permit requested if the composition of waste discharge and/or volume, or both, listed in this application are exceeded.

A complete chemical analysis of the effluent discharged, or to be discharged, is reported below. The BOD content, the quantity of suspended solids, and the total volumetric discharge in gpd is indicated:

	ppm
Aluminum	_____
Arsenic	_____
Barium	_____
Boron	_____
Cadmium	_____
Chlorides	_____
Chromium (Total)	_____
Chromium (Hexavalent)	_____
Copper	_____
Cyanide	_____

BOD Content (ppm by Weight)	_____
Suspended Solids (ppm by Weight)	_____
Industrial Waste Discharge (gpd) (See note below)	_____

The City of Huntsville reserves the right to request a periodic chemical analysis report should conditions so warrant.

The applicant further agrees to abide by the terms of the permit when issued.

FIRM: _____

BY: _____

(Authorized Representative)

_____

(Title)

Note: The discharge of industrial waste only will be reported. This may be arrived

at by metering or by agreement between a representative of the engineering division and the firm concerned. If the total water supply for the firm is furnished by the City of Huntsville, water used for purposes other than for treatment of industrial waste will not be reported under the industrial waste discharge. If the source of water supply for processing industrial waste is obtained from a source other than from the city water department, this volumetric discharge will be considered as a supplement to water furnished by the city, will be metered, and will be reported in industrial waste discharge.

(Code 1982, § 20-172)

Sec. 21-153. Permit where no pretreatment required.

For those applicants for which no pretreatment is required for the waste to be discharged into the city sewer from the premises desiring service, if the engineering division determines that the capacity of the available existing city mains and treatment plant facilities are sufficient to accommodate the applicant's waste, upon the applicant's providing a proper connection from his plant or premises to the city sewer, the engineering division will issue the applicant a permit to discharge waste connection and permit the applicant to discharge waste from such premises into the city sewer at the rate and in the quantities stated. Upon receipt of such permit, the applicant will thereafter be charged by the city at the rates established by ordinance for the taking and disposing of such waste.

(Code 1982, § 20-173)

Sec. 21-154. Chemical analysis required.

Any person now discharging or desiring to discharge industrial waste into the sanitary sewer system shall submit with his application to the approving authority a complete chemical analysis of the waste being discharged or proposed to be discharged, including concentrations of BOD and suspended solids contained in such discharges. Such person shall also submit pertinent flow data, including rates and duration, and description of his operation. Should the waste from such person's operations be deemed to be inadmissible into the sanitary sewer system because of objectionable character as defined by this division, because of concentrations of elements or substances in excess of the limits established by the approving authority, or because of flow characteristics incompatible with the best use of the receiving sewer, the approving authority will not approve the discharge of such waste into the sanitary sewer system until such person has employed, at his own expense, methods and processes for pretreatment as will render the waste admissible to the sanitary sewer system in accordance with this division.

(Code 1982, § 20-174; Ord. No. 81-192, 6-25-1981)

Sec. 21-155. Approval of discharge.

The approving authority will not specify, suggest or recommend equipment, structures or arrangements comprising the pretreatment processes. Approval of discharge of industrial waste by any person will be given only on the basis of performance of pretreatment processes, if pretreatment should be required. Approval given to any person for discharge of industrial waste, whether pretreated or not, into the sanitary sewer system shall in no way relieve such person of the responsibility for full compliance with this division at all times.

(Code 1982, § 20-175; Ord. No. 81-192, 6-25-1981)

Sec. 21-156. Acid or alkaline range.

No wastewater which for any sustained period shows an acid or alkaline reaction outside of the recommended pH range (i.e., less than six or more than nine) shall be placed in the sanitary sewer system. Wastewater outside of these limits may be chemically adjusted, and the process used shall be at the option of the producer. It shall also be the responsibility of the producer to design, operate and maintain the pretreatment plant and demonstrate its effective use to the satisfaction of the engineering division. The continuous operation and maintenance of the plant with consistent results will be the responsibility of the producer, even though the pretreatment plans have been approved by the director. Dilution, in no way, will be accepted as a form of pretreatment except and

only then when duly authorized by the engineering division, AWIC and/or the Environmental Protection Agency (EPA).
(Code 1982, § 20-176; Ord. No. 81-192, 6-25-1981)

Sec. 21-157. Connection charge determination.

After issuance of the required permit under this division, the industrial waste disposal connection charge will be made as provided for completion connection charge and billing with water service.
(Ord. No. 81-192, 6-25-1981)

Sec. 21-158. Effect of approvals.

Any approval by the engineering division of a type, kind or capacity of an installation shall not relieve a person of the responsibility of revamping, enlarging or otherwise modifying such installation to accomplish an intended purpose; nor shall any fixed or oral agreement as to limits of constituents or volumes of waters or wastes be considered as final approval for continuing operation. These limits will be subject to constant study and change as considered necessary to serve their intended purpose.
(Code 1982, § 20-177)

Sec. 21-159. Property rights.

The issuance of a permit by the engineering division does not convey any property rights in either real or personal property, or any exclusive privileges, nor does it authorize any injury to private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations.
(Code 1982, § 20-178)

Sec. 21-160. Ownership changes.

If a property or plant authorized to make a connection to the city sewer for industrial waste disposal under the provisions of this article is sold, leased or its operation is assumed or taken over by a person other than that named in the permit, a new application or permit will be made by the new owner, lessee or operator. No permit issued under the provisions of this division shall be assignable to any other persons to exercise the privileges and receive the benefits of such permit, and a violation of the provisions of this article shall be grounds for summary cancellation of such permit by the director.
(Code 1982, § 20-179)

Sec. 21-161. Due date; amount of fees.

(a) Industrial waste permits shall be due on January 1 in three-year intervals and shall be delinquent on the following February 1.

(b) Applicants shall pay a fee of $15.00 for the first permit issued and a renewal fee of $15.00. If the permit fee becomes delinquent, there shall be added a penalty of $15.00. If a permit is canceled for cause under the provisions of this division by the engineering division, a fee of $45.00 shall be payable for a subsequent initial permit issued to such applicant on completion by the applicant of forms provided and their approval.
(Code 1982, § 20-180; Ord. No. 81-192, 6-25-1981)

Sec. 21-162. Permit cancellation.

The engineering division is authorized to cancel any permit issued under the provisions of this division and terminate such service at any time that an applicant violates any of the provisions of this article or other ordinances of the city pertaining to wastewater disposal into city sewers by such plant; or should the applicant fail or refuse to pay, when due, charges made by the city for such sewer service; or should the applicant discharge waste at a rate, or in a quantity or strength or other quality in excess of that provided for by the permit or of a quality violating the permit or prohibited by this article or other related city ordinance. Such cancellation shall be subject to review as provided for.
(Code 1982, § 20-181)

Sec. 21-163. Conflicts with state and federal laws.

(a) Where conflicts exist between city and state or federal regulations, the more stringent requirement shall apply. In all cases where limits have not been specifically determined in this article, the more stringent of state or federal regulations shall apply.

(b) Within nine months of the promulgation of a National Categorical Pretreatment Standard, the industrial waste permit of users subject to such standards shall be revised to require compliance with such standard within the timeframe prescribed by the standard, except when the state and/or city pretreatment standards are more stringent than the National Categorical Pretreatment Standard.
(Ord. No. 81-192, § 9, 6-25-1981)

Sec. 21-164. Monthly reports.

Any user subject to pretreatment standards and requirements shall submit to the engineering division a monthly report indicating the nature and concentration of all pollutants in the discharge from the regulated wastestream and the average daily flow rate of the discharge. This monthly self-monitoring report shall be signed by an authorized representative of the industrial user.
(Ord. No. 81-192, § 10, 6-25-1981)

Sec. 21-165. Confidential information.

Information and data on a user obtained from reports, questionnaires, permit applications and monitoring shall be available to the public or governmental agency without restriction unless the user requests and is able to demonstrate to the satisfaction of the engineering division that the release would divulge processes or methods entitled to protection as trade secrets of the user.
(Ord. No. 81-192, § 11, 6-25-1981)

Sec. 21-166. Treatment credits.

Where the POTW achieves consistent removal of pollutants limited by federal pretreatment standards, the city or an industrial user may apply to the AWIC for modification of specific limits in the standards. After sufficient analytical proof of consistent removal is obtained (the cost of which can, at the option of the city, be borne by the industrial user), the city may then modify that pollutant discharge limits if the requirements contained in 40 CFR 403.7 are fulfilled and with prior AWIC approval obtained.
(Ord. No. 81-192, § 12, 6-25-1981)

Sec. 21-167. FDF variances.

FDF (fundamentally different factors) variances, referred to in section 307(b) of the Clean Water Act of 1977, are allowances in which an industrial user can present information and data to the EPA and the AWIC which verify that the user's particular process is different, fundamentally, from others in his pretreatment category and thus different from those factors which were used to develop the categorical pretreatment standards for that group. These are case-by-case adjustments which can make the standards more or less stringent and approval for such requests is reserved for the EPA. The written submission, however, is handled by the AWIC and should have certain content and be in acceptable form. This information as well as essential qualifications for approval and other aspects of the FDF variance are available from the AWIC upon request. The city reserves the right to comment on FDF variance applications submitted by its industrial users.
(Ord. No. 81-192, § 13, 6-25-1981)

Secs. 21-168—21-190. Reserved.

DIVISION 6. INDUSTRIAL SURCHARGES

Sec. 21-191. Definition; amount of charges.

Industrial waste is considered any effluent with pollutant loadings in excess of the following maxima during a 24-hour average for a billing period. Industrial surcharges shall apply as follows:

(1) BOD^5—In excess of 250 ppm, $0.17 per pound.

(2) SS—In excess of 250 ppm, $0.12 per pound.
(Code 1982, § 20-191; Ord. No. 00-129, § 2, 3-9-2000)

Sec. 21-192. Computation of pounds.

(a) Pounds shall be computed by 8.34 (the weight of one gallon of water), times the volume of the wastewater in million gallons, times the parts per million in excess of normal strength. (P = 8.34 × MGD × PPM)

(b) Alternatively, pounds shall be computed by 0.00624 pound, the conversion factor to determine the weight in pounds of one mg/l for a volume in hundreds of cubic feet, times the volume of wastewater in hundreds of cubic feet, times the parts per million in excess of normal strength.
(Code 1982, § 20-192)

Sec. 21-193. High concentrations of pollutants.

At the discretion of the director, on a case-by-case basis, high concentrations of specific pollutants will warrant a surcharge based upon the higher cost of treatment of the discharge.
(Code 1982, § 20-193)

Secs. 21-194—21-210. Reserved.

DIVISION 7. PROHIBITED DISCHARGES

Sec. 21-211. Generally.

(a) No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.

(b) In no case shall a slug load have a flow rate concentration or qualities of pollutants that exceed for any time period longer than 15 minutes or more than five times the average 24-hour concentration, quantities or flow during normal operation that will interfere with the operation of the POTW.
(Code 1982, § 20-201; Ord. No. 81-192, 6-25-1981)

Sec. 21-212. Substances prohibited in public sewers.

(a) Except as otherwise provided in this section, no person shall discharge or cause to be discharged any of the following waters or wastes into any public sewers:

(1) Any liquid or vapor having a temperature higher than 150 degrees Fahrenheit.

(2) a. Any water or waste which may contain more than 100 ppm, by weight, of fats, oil or grease, or any water or waste containing oil, grease, or other substance that will solidify or become viscous at temperatures between 32 and 90 degrees Fahrenheit.

b. As set forth in sections 21-154—21-156, minimal pretreatment of wastes containing concentrations of grease (i.e., animal and vegetable fats and oils) in excess of 75 ppm is required.

c. Such minimal pretreatment requires passage through a grease trap meeting the city's engineering standards and providing a minimum retention time of ten minutes between influent and effluent battles with 20 percent of the total volume as allowance for a sludge pocket. This sludge pocket should be kept reasonably free of inorganic solids, and all grease and other floating materials shall be skimmed from the tank at sufficiently frequent intervals to avoid reduction of efficiency of the trap.

d. Upon written notification by the director that a grease trap is required for a given discharge, the user will have a period of 90 days for compliance. Such compliance consists of the complete installation and operability of a grease trap approved by the director. Failure to comply will result in the implementation of the enforcement procedures of division 2 of this article. Grease traps shall be available for inspection by the director or his staff at all reasonable times.

(3) Any gasoline, benzene, naphtha, fuel oil, mineral spirits, commercial solvent, motor oil or other flammable or explosive liquid, or any other petroleum derivative.

(4) Any waters or wastes that contain more than ten ppm by weight of hydrogen sulfide, sulfur dioxide or nitrous oxide.

(5) Any ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, offal, plastics, wood, whole blood, paunch manure, hair and fleshings, entrails, lime

residues, beer or distillery slops, chemical residues, fiberglass, paint or ink residues, cannery waste, bulk solids or any other solid or viscous substance capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the wastewater works without proper pretreatment and written approval of the director.

(6) Any waters or wastes having a pH lower than six or higher than nine at any time, or having any other corrosive property capable of causing damage or hazard to structures, equipment or personnel of the wastewater works, or the treatment process.

(7) a. Any waters or wastes containing toxic or poisonous substances in such concentration as to constitute a hazard to humans or animals, or to interfere with any wastewater treatment process, or to create any hazard in the receiving waters of the wastewater treatment plant without proper pretreatment and written approval of the director.

b. These limits may be used as a guide in design and plant control, but may be altered by the director as required or authorized by state or federal law in the event of a cumulative overload on a particular drainage basin or wastewater treatment plant.

(8) Any waters containing suspended solids of such character and quantity that unusual provision, attention or expense is required to handle such materials at the wastewater treatment plant.

(9) Any noxious or malodorous gas or substance, capable of creating a public nuisance or hazard to life or preventing entry into sewers for their maintenance, inspection and repair.

(10) Any waters containing quantities of radium, naturally occurring, or artificially produced radioisotopes in excess of presently existing or subsequently accepted limits for drinking water as established by the National Committee on Radiation Protection and Measuring.

(11) Any concentrated dye wastes, spent tanning solutions or other wastes which are highly colored, or wastes which are of unusual volume, concentration of solids or composition that may create obstruction to the flow in sewers or other interference with the proper operation and treatment of influent of the wastewater works without proper pretreatment and written approval of the director.

(12) Any waters or wastes containing substances which are not amenable to treatment or reduction by the wastewater treatment processes employed, or are amenable to treatment to only such degree that the wastewater treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

(13) Any water or waste containing more than 2,000 ppm total solids.

(14) Any wastes at a flow rate and/or pollutant discharge rate which is excessive over a short period of time so that there is a treatment process overload and subsequent loss of treatment efficiency.

(15) Any wastewater containing phenols or other taste-producing substances in such concentrations as to produce odor in the effluent as to affect the taste or odor of the receiving water. Quantities of such substances will be determined by the director on a case-by-case basis.

(b) No person may discharge into grinder pumps or operate grinder pumps in any manner which is not recommended by the equipment manufacturer.

(Code 1982, § 20-202; Ord. No. 87-167, § 1, 5-14-1987)

Sec. 21-213. Concentrations.

Fixed upper limits for constituents (ppm, by weight) are as follows:

	Maximum Concentration (ppm) Composite Sample 24-Hour Flow Proportionate	*Maximum Concentration Instantaneous (ppm) Grab Sample*
Aluminum	5.00	10.00
Arsenic	0.40	0.40
Barium	2.00*[1]	4.00
Boron	*	*
Cadmium	0.10	0.20
Chlorides	*	*
Chromium (Total)	0.50	1.00
Chromium (Hexavalent)	0.10	0.20
Copper	0.50	1.00
Cyanide	0.10	0.20
Detergents ABS (Hard)	5.00	10.00
Detergents LAD (Soft)	5.00	10.00
Detergents (Biodegradable)	*	*
Fluorides	5.00*[1]	10.00
Iron	3.00	6.00
Lead	0.40*	0.40
Lithium	*	*
Mercury	0.0004*[1]	0.008
Magnesium	5.00	10.00
Nickel	0.50	1.00
Phosphate (Total)	10.00	20.00
Selenium	0.02*[1]	0.04
Silver	0.10	0.20
Manganese	–1.00	2.00
Tin	0.10	0.20
Total Kjeldahl Nitrogen (TKN)	60.0	90.0
Oil and Grease:		
Hexane or petroleum soluble	100.00	150.00
Total Dissolved Solids	5000.00	7500.00
Organic Toxicants	NDA	NDA
Radioactivity Gross Beta	50 pc/1*[2]	50 pc/1
Ra^{226}	5 pc/1*[2]	5 pc/1
Sr^{90}	2 pc/1*[2]	2 pc/1
H^3	1000 pc/1*[2]	1000 pc/1
pH	6—9	6—9
Zinc	0.80	1.60

*To be established by the director.

*[1]Two times the current drinking water standards.

*[2]Current drinking water standards (in Pico Curies/L).

(Code 1982, § 20-203)

Sec. 21-214. Dilution.

The admission into the public sewers of any waters or wastes in volumes, or with constituents, such that existing dilution conditions in the sewers or at the treatment plant would be affected to the detriment of the city, shall be subject to review and approval of the director. Where necessary, in the opinion of the director, pretreatment or equalizing units may be required to bring constituents or volume of flow within the limits previously prescribed or to an otherwise acceptable level, and to hold or equalize flows such that no peak flow conditions may hamper the operation of any unit of the sewer system. This equalization or holding unit shall have a capacity suitable to serve its intended purpose, and be equipped with acceptable outlet control facilities to provide flexibility in operation and accommodate changing conditions in the waste flow.
(Code 1982, § 20-204)

Sec. 21-215. Suspended solids.

The admission into the public sewers of any waters or wastes having a suspended solids content in excess of 500 ppm, by weight, on a 24-hour composite basis or having a suspended solids content for any grab sample greater than five times the average influent value recorded at the affected wastewater treatment plant during the previous calendar year, will be subject to review by the director. Where necessary, in the opinion of the director, pretreatment may be required as stated in this division.
(Code 1982, § 20-205)

Sec. 21-216. Chemical oxygen demand (COD).

The admission into the public sewers of any water or waste having a chemical oxygen demand (COD) in excess of 850 ppm, by weight, on a 24-hour composite basis or for any grab sample having a five-day biochemical oxygen demand in excess of five times the average influent value for the affected wastewater treatment plant during the previous calendar year, will be subject to review by the director. Where necessary, in the opinion of the director, pretreatment may be required as stated in this division.
(Code 1982, § 20-206)

Sec. 21-217. Biochemical oxygen demand (BOD) limit.

The admission into the public sewers of any waters or wastes having a five-day biochemical oxygen demand in excess of 500 ppm, by weight, on a 24-hour composite basis, or for any grab sample having a five-day biochemical oxygen demand in excess of five times the average influent value for the affected wastewater treatment plant during the previous calendar year, will be subject to review by the director. Where necessary, in the opinion of the director, the owner shall provide and operate, at his own expense, such pretreatment as may be required to reduce the biochemical oxygen demand to meet these requirements.
(Code 1982, § 20-207)

Sec. 21-218. Action by director.

If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters or wastes contain the substances or possess the characteristics enumerated in this article and which in the judgment of the director, and/or the local, state and federal agencies having jurisdiction, may have a deleterious effect upon the wastewater works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the director may:

(1) Reject the wastes;

(2) Require pretreatment to an acceptable condition for discharge to the public sewers;

(3) Require control over the quantities and rates of discharge; and/or

(4) Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges. Such payments shall be as specified in this article.

(Code 1982, § 20-208; Ord. No. 81-192, 6-25-1981)

Sec. 21-219. Approval of facilities.

(a) If the director permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the director and

the local, state and federal agencies having jurisdiction and subject to the requirements of all applicable codes, resolutions and laws.

(b) Facilities to prevent accidental discharge of prohibitive material shall be provided and maintained at the owner's cost and expense. Detailed plans showing facilities and operating procedures to provide this protection shall be submitted to the director for review and shall be approved by the director before construction of the facility.

(c) In the event of an accidental spill of unavoidable loss to the sanitary sewer system of any deleterious materials, the owner concerned shall promptly notify the director of the nature of the spill, the quantity, and the time of occurrence. Within five working days following an accidental discharge, the user will submit a written report describing the cause and measures to be taken to prevent any further occurrence.
(Code 1982, § 20-209; Ord. No. 81-192, 6-25-1981)

Sec. 21-220. Manifest requirements.

A manifest is required of all users having a hazardous waste that is not acceptable at the POTW and requiring disposal at an approved hazardous materials disposal facility. The user shall submit to the director a quarterly report denoting the materials hauler, date, time, quantity and place of disposal (reference PL 94-540 subtitle C).
(Ord. No. 81-192, § 9, 6-25-1981)

Sec. 21-221. Discharge to storm sewers.

Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as storm sewers, or to a natural outlet approved by the local, state and federal agencies having jurisdiction. Industrial cooling water or unpolluted process waters may be discharged on approval of the local, state and federal agencies having jurisdiction.
(Code 1982, § 20-210)

Secs. 21-222—21-240. Reserved.

DIVISION 8. WATER QUALITY AND QUANTITY DETERMINATIONS

Sec. 21-241. Rate of delivery of effluent and waste.

The delivery of all effluent and waste from a producer to the city's sanitary sewer shall be at a reasonable uniform rate, as produced without storage by the producer, except that storage which is necessary in the pretreatment plant of the producer.
(Code 1982, § 20-218)

Sec. 21-242. Prohibitions.

(a) No person who is engaged in the process of collecting, storing or holding wastewaters, oils, grease, portable toilet waste, grease trap contents or sand trap contents shall deposit any of these wastes, oils or greases into the wastewater collection system of the city.

(b) It shall be unlawful for any person to dump or place any semiliquid waste material whatsoever, including but not limited to waste cleaned from septic tanks and portable sources into the city sanitary sewer system except through a duly authorized permanent connection, or if dumped from a portable source then in conformity with the following:

(1) No such material will be placed or dumped into the system except under the immediate supervision of employees designated for that purpose on duty at the city sewer treatment plant No. 1.

(2) Each person dumping or placing waste in the city sanitary sewer system from portable sources shall pay to the city a service fee of $10.00 per month for each month during which any such material is dumped or placed, plus an additional amount of $23.00 per each 1,000 gallons of waste dumped into the sanitary sewer system.

(Code 1982, § 20-219; Ord. No. 00-129, § 3, 3-9-2000)

Sec. 21-243. Requirements as to permits.

(a) No permit for the disposal of industrial waste will be approved by the director which will permit the acceptance of waste which will damage either the sewers, plants or appurtenances of the sewer system or produce results detrimental to the treatment process, including sludge disposal, or producing plant effluent contrary to the rules and standards set out by the local, state and federal agencies having jurisdiction.

(b) No waste shall be placed in the sanitary sewer system and no permit will be approved for acceptance of any waste which will produce damage or stoppage to the sewers of the city system. No waste shall be placed in the sanitary sewer system except by appropriate permit from the director, and no industrial waste shall be placed in any city sewer system or sanitary sewer system without an industrial waste disposal permit issued by the director.
(Code 1982, § 20-220)

Sec. 21-244. Acceptance of waste.

(a) Wastes will be accepted which have been placed in satisfactory conditions or quality after pretreatment by the producer in a plant or by a process which has been approved by the director, and which is continuously maintained and operated by the producer at no cost to the city and which is continuously subject to inspection by the director or his designated representative. The construction plans for such pretreatment plants shall, after their approval, be placed on file in permanent reproducible form with the director without cost to the city.

(b) Septic tank waste will be received by the city only at the disposal site located at treatment plant No. 1, on Vermont Road.
(Code 1982, § 20-221)

Sec. 21-245. Quality determination.

(a) Determination of the average concentration or strength of the waste delivered shall be the obligation of the city. Tests made on representative average samples collected by the city shall be made at intervals as the city may desire so long as at least annual samples are taken.

(b) Samples may be taken and tests made at the city's option without notice to the owner and test results made and approved by the city shall be final in fixing the applicable rate. However, the owner may request in writing that parallel sampling and tests at all times be made by the owner and the city, in which case consideration may be given to using the average of comparable values obtained by the owner and the city.
(Code 1982, § 20-222)

Sec. 21-246. Testing wastes.

It is specifically agreed by the producer that the city may at any time test any of the waste being discharged by the company for quality or quantity, and a duly authorized city representative may enter a plant at any time by appropriate application at the plant office during business or operational hours for this purpose or for checking company operation to estimate the quantity and quality of waste.
(Code 1982, § 20-223)

Sec. 21-247. Effluent sampling.

(a) All measurements, tests and analyses of the characteristics of waters and wastes to which reference is made in this article shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater," 20th edition, published by the American Public Health Association, the American Water Works Association, and the Water Environment Federation, and/or "Methods for Chemical Analysis of Water and Wastes," U.S. Environmental Protection Agency, Washington, D.C. 20460, which publications shall be on file in the office of the city clerk-treasurer and be available for use and examination by the public in that office at all reasonable times; and all such measurements, tests and analyses shall be determined at the control manhole provided, or upon suitable samples taken at the control manhole. If no special manhole has been installed, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constitu-

ents upon the wastewater works and to determine the existence of hazards of life, limb and property.

(b) The particular analyses involved will determine whether a 24-hour composite of all outfalls of the premises is appropriate or whether a grab sample should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pHs are determined from periodic grab samples.

(c) The increased charge or surcharge, as specified in division 6 of this article for sewer and industrial waste which exceeds the standard quality set out in this division, is used to provide for the increased costs, which costs vary with both quality and quantity when waste is treated. The variations in cost with strengths are admittedly difficult to exactly determine, and the method is to be effective without reference to other possible methods of computation. This provision shall not alter any of the terms and provisions of this article.
(Code 1982, § 20-224)

Sec. 21-248. Quality changes.

The director shall have made from time to time tests to determine the quality of waste being discharged into the city sewer from users or connectors, including the premises or industrial waste disposal permit holders under the provisions of this article. If at any time such waste becomes or the industrial process changes to a quality that requires pretreatment according to the city standards, the director shall have the authority to require that proper permits be obtained and proper pretreatment facilities be installed by the permit holder. Should any user or connector, or a permit holder, fail or refuse to install such facilities or initiate the installation to the satisfaction and approval of the director within 30 days after receipt of written notice from the director, the director (subject to review as provided in this article) shall have the authority to revoke such permit and to terminate sewer service to such premises until such time as there has been compliance with the requirements of this division.
(Code 1982, § 20-225)

Sec. 21-249. Quantity determination.

(a) Unless otherwise provided, the quantity of waste delivered to city sewers will be used as the same as the water delivered to the producer by the city water system; if well water is to be used, it must be known to the city and metered at the user's expense, using a metering device which meets the city's engineering standards. The user shall pay the city the cost incurred in meter reading and billing. Such metering devices will be accessible to authorized city representatives at all reasonable times.

(b) Should the producer evaporate or dispose of water delivered by the city water system, it shall be the obligation of the producer to install such meters or other devices to determine the portion of quantity delivered to the sewer system.

(c) The director will consider establishing a constant ratio, factor or percentage to be applied to the metered water quantity delivered by the city in order to determine the waste delivered by the industry. Determination of this factor will be the responsibility of the waste producer as also will be the demonstration to obtain the director's approval of the factor. The value of this factor will be periodically reviewed for accuracy.
(Code 1982, § 20-226)

Secs. 21-250—21-270. Reserved.

DIVISION 9. RATES

Sec. 21-271. Definitions.

The following words, terms, and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Bill means water and sewer charges.

Billing period means the period intervening between monthly readings of meters forming a part of the water system or installed pursuant to the provisions of this article.

Establishment means any premises used for residential, commercial, or industrial, religious, charitable or any other purposes of whatsoever kind or character.

Major industrial means users discharging 100,000,000 gallons or more of effluent per year.

Other means hotels, motels, multifamily, general commercial, retail, some industrial users, and, for the purpose of establishing sewer service charges under section 21-275, any single-family residence served by more than a single water meter.

Sanitary sewer system means the sanitary sewer system of the city.

Single-family residence means the space provided for the occupancy of a single-family, i.e., including separate living quarters and kitchen, and which is served by a single water meter. For purposes of establishing sewer service charges under section 21-278, this definition shall not include a premise served by more than a single water meter.

(Code 1982, § 20-236; Ord. No. 05-50, § 1, 2-24-2005; Ord. No. 25-426, § 1, 6-26-2025)

Cross reference—Definitions generally, § 1-2.

Sec. 21-272. Determination of quantity of discharge/consumption.

In the case of each establishment that obtains from the water system all water that is discharged into the sanitary sewer system by or from such establishment, the quantity of water consumed during a billing period shall be deemed to be the quantity shown by the water bill rendered on the same statement. In the case of any establishment that discharges into the sanitary sewer system water obtained from any source other than the water system, the occupant of such establishment shall install a meter of a type approved by the city at the occupant's expense for the purpose of measuring the quantity of water consumed or discharged at such establishment.

(Code 1982, § 20-237; Ord. No. 94-809, § 2, 12-20-1994)

Sec. 21-273. Sewer service charges.

There are hereby established monthly charges for sanitary sewer service to each establishment which is served by a water meter which discharges into the sanitary sewer system of the city, said charges being based upon the monthly consumption of water by each establishment, or where discharge is made into said system from a source other than the city water system, then the combination of the two, subject to the charges hereinafter established, as follows:

Effective Date	*Usage Per Gallons*	*Single Family*	*Other*	*Major Industrial*
9-1-2025	1,000	$5.83	$6.86	$5.69
9-1-2026	1,000	$6.08	$7.15	$5.93
9-1-2027	1,000	$6.33	$7.45	$6.18
9-1-2028	1,000	$6.58	$7.74	$6.42
9-1-2029	1,000	$6.83	$8.04	$6.67
9-1-2030	1,000	$7.03	$8.27	$6.86
9-1-2031	1,000	$7.23	$8.51	$7.06
9-1-2032	1,000	$7.43	$8.74	$7.25
9-1-2033	1,000	$7.63	$8.98	$7.45
9-1-2034	1,000	$7.83	$9.21	$7.64

(Ord. No. 81-387, § 1, 11-24-1981; Code 1982, § 20-238; Ord. No. 84-676, § 1, 10-25-1984; Ord. No. 94-809, § 3, 12-20-1994; Ord. No. 97-54, 2-13-1997; Ord. No. 05-50, § 2, 2-24-2005; Ord. No. 25-426, § 2, 6-26-2025)

State law reference—Charges for services of sewer systems, Code of Ala. 1975, § 11-50-120 et seq.

Sec. 21-274. Grease and septic tank charges.

There are hereby established the following charges for the treatment of grease or septage delivered or deposited by grease or septic haulers at the appropriate designated wastewater treatment facility, as designated by the director of the water pollution control department of the city:

For grease or septage delivered or deposited from locations within the corporate limits of the City of Huntsville: $250.00 per 1,000 gallons.

For grease or septage delivered or deposited from locations within the unincorporated areas of Madison County: $350.00 per 1,000 gallons.

No grease or septage will be accepted from locations outside of the corporate limits of the City of Huntsville or the unincorporated areas of Madison County. No leachate or other landfill discharge waste shall be accepted.
(Ord. No. 05-50, § 3, 2-24-2005; Ord. No. 25-426, § 3, 6-26-2025)

Sec. 21-275. Interim charges.

If any establishment is initially connected with the sanitary sewer system during a billing period, the charge for sanitary sewer service to such establishment during the period intervening between the date of the connection and the first day of the then next succeeding billing period applicable to such establishment shall be an amount equal to the minimum monthly charge applicable to such establishment multiplied by a fraction, the denominator of which shall be 30 and the numerator of which shall be the number of days intervening between the date of the initial connection to the sanitary sewer system and the first day of the then next succeeding billing applicable to such establishment.
(Code 1982, § 20-239)

Sec. 21-276. Billing.

All bills for water and sanitary sewer service shall be rendered monthly on the same bill. The rates set forth in the sewer service charges set forth in this division are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.
(Code 1982, § 20-240; Ord. No. 15-910, 12-17-2015)

Sec. 21-277. Effect of failure to receive bill.

Failure to receive a bill shall not entitle any person to the net rate nor shall it prevent the city from discontinuing service or cutting off the water in accordance with this article.
(Code 1982, § 20-241)

Sec. 21-278. Payment of bill with bad check.

When any check or order is delivered to the city in payment of any bill and is accepted and such check or order, upon due presentation to the bank or trust company upon which it is drawn, is not paid, the city shall charge the amount of such check or order back to the bill of such person. Such bill shall be considered a delinquent account, and the city shall be authorized to discontinue water and sewer service as if the check or order had not been given.
(Code 1982, § 20-242)

Sec. 21-279. When service discontinued for failure to pay bill; reconnection charge.

If any consumer or owner of a house, building or property shall refuse or neglect to pay his water bill or charge on or before the penalty date as shown on the statement, the water may be turned off and shall not be turned on again until the bill or charge shall be paid in full, plus a reasonable charge for turning on and off the water.
(Code 1982, § 20-243)

Sec. 21-280. When service restored where water has been cut off for failure to pay bill.

When the water is cut off by the city for nonpayment of a bill, it shall not be the duty of

the city to turn the water back on until the consumer shall have paid the bill due in full, plus a reconnection fee for turning on and off the water.
(Code 1982, § 20-244)

Sec. 21-281. Service not to be restored while delinquent customer to reside on premises.

No member of the consumer's family, or anyone else living in the same house, building or on the property with the consumer where the water is cut off, shall have the right to make or offer to make a deposit for water or to demand that the city turn on the water at that place so long as the delinquent customer lives there and the bill due, plus a reconnection fee for turning on and off the water, is unpaid.
(Code 1982, § 20-245)

Sec. 21-282. Sewer access fees.

(a) Purpose. Heretofore, extensions and improvements to the city sanitary sewer system necessary to accommodate the collection and transportation of new and expanded sanitary sewage discharges, or flows, to city sanitary sewage treatment facilities have been made from the sanitary sewer system extension fund, created from payments made by all system rate payers, or as a result of agreements and negotiations by the city with private sources benefited by such extensions and improvements. It is the purpose of this section to create a policy whereby some portion, not exceeding the actual costs of such extensions and improvements, is collected as new and additional discharges, or flows, are established. In a general way, this section begins to create a policy whereby, through the adjustment of the rates herein established, new development or growth creating new flows into the sanitary sewer system will bear a substantial portion of the costs to the city of improvements and extensions made necessary by new development and growth. It is anticipated that from time to time the city council will review and adjust this policy to achieve the purpose herein stated.

(b) There is hereby established with respect to the sanitary sewer system of the city, a schedule of charges for new or expanded discharges, or flows, into the system, to be known as new discharge access fees. The amount of such fees shall be based upon the new or added water meter size, as follows:

SEWER ACCESS FEES

New or Additional Water Meter Size	*Fee*
¾"	$1,000.00
1"	1,500.00
1½"	2,000.00
2"	3,000.00
3"	4,000.00
4" or above	6,000.00

(c) There is hereby created an account to be known as the sanitary sewer system access fund. The proceeds collected by the city inspection department from the charges herein required shall be paid into the sanitary sewer system access fund account, to be appropriated and used solely to pay city costs for improvements and extensions to the system made necessary to accommodate the collection and transportation of new and expanded discharges, or flows, into the system.

(d) No entitlement created. This section is not intended to change any existing policy, or create any entitlement. The city will continue to, and reserves the right to, evaluate sanitary sewer collection extensions and improvements based upon economic feasibility, and to negotiate agreements with persons benefited on a case by case basis.
(Ord. No. 05-51, § 1, 2-24-2005; Ord. No. 06-926, § 1, 10-12-2006)

Secs. 21-283—21-310. Reserved.

ARTICLE III. STORM SEWERS*

DIVISION 1. GENERALLY

Sec. 21-311. Drainage of stormwater.

(a) *Definitions.*

(1) For purposes on this section, the following words, terms, and phrases shall have the following meanings:

Accumulations mean dirt, trash, debris, gravel, yard waste, grass clippings, grass, weeds, and other matter or materials that when they are deposited, grow, or are allowed to remain in or upon road-side facilities prevent or are likely to prevent the facilities from properly collecting and diverting stormwater runoff.

Director of engineering means the city's director of engineering or his/her designee or subordinate.

Director of public works means the city's director of public works or his/her designee or subordinate.

Drainage berm means any elevated portion of ground or grade so constructed for the purpose of collecting, diverting, routing, or changing the direction of flow of stormwater, or increasing the capacity of an existing drainage swale or channel by increasing the depth of the swale or channel by placement fill dirt/material along the top of the swale or channel.

Drainage channel means not only well-defined channels, such as ditches, but also shall include any swales, however broad, through which stormwater moves at a depth.

Drainage facilities mean structures or facilities, whether natural or man-made, that are designed or intended to control and/or transport stormwater, including, but not limited to, drainage pipes, drainage structures, road-side facilities, drainage channels, drainage berms, swales, ponds, lakes, and other installations which are intended to carry stormwater.

Enforcement officer means the person or persons designated by the director of engineering or the director of public works to administer or enforce all or a portion of this section.

Road-side facilities mean drainage facilities that are within or immediately adjacent to a public road, including, but not limited to, curbs, gutters, swales, and/or ditches.

(b) *Encumbering drainage facilities.* No building, structure, fencing, fill, or other material shall be placed, installed, maintained, or constructed across, within, or over a public drainage facility so as to impede the proper functioning of the facility, access to the facility, or maintenance of the facility for functionality; except, in the case of a drainage channel, a pipe or ditch of sufficient size may be installed, subject to approval by the director of engineering, to permit the continued passage of the water that would otherwise flow through the drainage channel.

(c) *Maintenance.* The owner or person otherwise in control or possession of private premises shall maintain private drainage facilities located on the premises so that such drainage facilities will not become a hazard to or interfere with the use, function, or physical integrity of nearby public streets or public drainage improvements.

(d) *Road-side facilities.*

(1) *Findings.* Road-side facilities are drainage facilities that are designed to collect stormwater runoff and divert it into a storm drain or channel. A gutter, or similar facility, serves to prevent the ponding of water on the roadway for both pedestrian and vehicle convenience and safety, and for protection of the physical condition of the roadway. Poor or inadequate yard maintenance practices, on residential premises adjacent to a roadway that is improved with a road-

*__Cross reference—__Requirements for improvements and design of drainage and storm sewers in subdivisions, app. B, § 4.

side facility, allow or cause accumulations to occur which interfere with the proper functioning of such facilities.

(2) *Requirements.* The owner or person otherwise in possession or control of residential premises which are located adjacent to a roadway with a speed limit of 25 mile per hour or less that is improved with a road-side facility shall not allow or cause accumulations to occur in the facility upon or adjacent to their premises which accumulations interfere or are likely to interfere with the proper functioning of the road-side facility.

(e) *Enforcement and administration.*

(1) The enforcement officer may cause a written notice to be issued, as set forth in subsection (e)(3) hereof, to the owner or person otherwise in possession or control of the premises indicating the existence of a violation of this section and directing that there be compliance. Such notice shall:

a. Provide that compliance must be made within 15 days of such notice;

b. State the name and contact information (address, facsimile, e-mail address) of the enforcement officer to whom all requests allowed under this section shall be directed; and

c. Indicate that failure to comply with the notice may result in prosecution for a municipal ordinance violation.

(2) Failure to comply with a notice issued pursuant to subsection (1) hereof within the specified time shall constitute a violation of this section and is therefore unlawful, and each day thereafter that the property continues to fail to comply can constitute a separate offense.

(3) *Service of notice.* Service of the notice provided for in subsection (1) hereof shall be made by (i) personal delivery to the owner or person in possession or control of the premises or by posting such notice on a conspicuous place on such premises (service deemed complete as of the moment of delivery or posting), or (ii) by certified mail, return receipt requested to the owner of record in the tax assessor's office (service deemed complete upon receipt).

(4) *Waiver or extension of time.*

a. An individual who receives a notice of a violation of subsection (d)(2) of this section concerning accumulations in road-side facilities may request a hardship waiver from the requirements of subsection (d)(2) where the individual is able to establish to the satisfaction of the director that, due to a hardship beyond his or her control, whether financial or physical, they are unable to remedy the violation.

b. An individual who receives a notice of a violation of this section may request one extension of the time for compliance for good cause shown.

c. A written request for a waiver or extension, stating the basis for the request, must be received by the enforcement officer before the expiration of the 15-day period for compliance and shall be delivered either by hand, mail, email, or facsimile to the contact information stated on the notice.

(Code 1982, § 7-143; Ord. No. 19-519, § 1, 7-11-2019)

Secs. 21-312—21-330. Reserved.

DIVISION 2. NPDES COMPLIANCE

Subdivision I. In General

Sec. 21-331. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

ADEM means the Alabama Department of Environmental Management.

BMPs and *best management practices* mean schedules of activities, prohibitions of practices, maintenance procedures and other management practices to prevent or reduce the discharge of pollutants to the municipal separate storm sewer system. BMPs also include treatment requirements, operating procedures and practices to control facility site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw materials storage.

Clean Water Act means the Federal Clean Water Act, 33 USC 1251 et seq., and regulations promulgated under that act.

Commercial area means any facility associated with commercial activity which is not subject to its own NPDES permit or an ADEM general stormwater permit.

Director means the manager of the division of natural resources and environmental management of the city or his designated representative.

Discharge and *discharge of a pollutant* mean any addition of any pollutant to the municipal separate storm sewer system. This term does not include an addition of pollutants by any indirect discharger or from any source specifically excluded from the definition of point source.

Discharge monitoring report and *DMR* mean the EPA or ADEM uniform form for the reporting of self-monitoring results by NPDES permittees.

EPA means the Federal Environmental Protection Agency.

High-risk facility means municipal landfills; other treatment, storage or disposal facilities for

municipal waste (e.g., transfer stations, incinerators, etc.); and hazardous waste treatment, storage, disposal and recovery facilities.

Holder means a person to whom a BMP plan approval has been issued.

Illicit discharge means any discharge to the municipal separate storm sewer system that is not composed entirely of stormwater except discharges pursuant to an NPDES permit (other than the NPDES permit for discharges from the municipal separate storm sewer system) and discharges from firefighting and emergency management activities.

Indirect discharger means a nondomestic discharger introducing pollutants to a publicly owned treatment works.

Industrial facility means any facility associated with industrial activity.

Municipal separate storm sewer system means a conveyance or system of conveyances (including roads with drainage systems, streets, catchbasins, curbs, gutters, ditches, manmade channels, or storm drains), which is owned or operated by the city, designed or used for collecting or conveying stormwater, and is neither a POTW nor a combined sewer.

NPDES and *National Pollutant Discharge Elimination System* mean the national permitting program implemented under the Clean Water Act.

Person responsible and *responsible person* mean a person who has or represents having:

(1) An ownership interest in or financial or operational control of a source or potential source of a discharge or a discharge regulated by this article;

(2) Possession or control of a source or potential source of a discharge regulated by this article who directly or indirectly allowed, either by act or omission, a discharge regulated by this article; or

(3) Benefited from a source or potential source of a discharge or a discharge regulated by this article.

There may be one or more persons responsible or responsible persons.

Point source means any discernible, confined and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, landfill leachate collection system, vessel or other floating craft from which pollutants are discharged. This term does not include return flows from irrigated agriculture or agricultural stormwater runoff.

Pollutant means dredged spoil, solid waste, incinerator residue, filter backwash, sewage, garbage, sewage sludge, munitions, chemical waste, biological materials, radioactive materials (except those regulated under the Atomic Energy Act of 1954 (42 USC 2011 et seq.), as amended), heat, wrecked or discarded equipment, rock, sand, cellar dirt, and industrial, domestic and agricultural waste discharged into water.

Publicly owned treatment works and *POTW* mean any device or system used in the treatment of municipal sewage or industrial wastes of a liquid nature which is owned by the city. This definition includes sewers, pipes or other conveyances only if they convey wastewater to a POTW providing treatment.

Significant materials includes, but is not limited to the following:

(1) Raw materials;

(2) Fuels;

(3) Materials such as solvents, detergents and plastic pellets;

(4) Finished materials such as metallic products;

(5) Raw materials used in food processing or production;

(6) Hazardous substances designated under section 101(14) of the Comprehensive Environmental Response Compensation and Liability Act of 1980 (CERCLA), 42 USC 9601 et seq.;

(7) Any chemical the facility is required to report pursuant to section 313 of title III

of the Superfund Amendments and Reauthorization Act of 1986 (SARA), 42 USC 11023(b);

(8) Fertilizers;

(9) Pesticides; and

(10) Waste products such as ashes, slag and sludge that have the potential to be released with stormwater discharges.

Stormwater means stormwater runoff, snow melt runoff, and surface runoff and drainage.

Stormwater discharge associated with industrial activity means the same as in the Clean Water Act and regulations promulgated under that act.

Stormwater discharge from sites of industrial activity means stormwater discharges from industrial facilities that are subject to section 313 of title III of SARA or that have significant materials, raw materials, material handling equipment or activities, intermediate products or industrial machinery exposed to stormwater, except for those industrial facilities which possess their own NPDES permit or are subject to an ADEM general stormwater permit. In addition, this definition also shall include industrial facilities that the director determines are contributing a substantial pollutant loading to the municipal separate storm sewer system.

To the extent practicable, when used in reference to terms and conditions of NPDES permits (other than the NPDES permit issued to the city) and procedures and methods established by federal regulation, means that the director shall defer to these terms, conditions, procedures and methods so long as the city's compliance with its own NPDES permit, or federal or state law is not jeopardized in any manner.

Water Pollution Control Act means the Alabama Water Pollution Control Act of 1972, Code of Ala. 1975, § 22-22-1 et seq., and regulations promulgated under that act.
(Ord. No. 98-3, § 2, 2-12-1998)

Cross reference—Definitions generally, § 1-2.

Sec. 21-332. Intent.

This division is enacted to preserve, protect and promote the health, safety and welfare of the citizens of the city through the reduction, control and prevention of the discharge of pollutants to the city municipal separate storm sewer system. It is the expressed intent of the city council in enacting this division to provide for and promote compliance by the city with federal and state laws governing the discharge of pollutants from the municipal separate storm sewer system and to provide for and promote compliance with an NPDES permit issued to the city for such discharge. The city does not intend for this division to conflict with any existing federal or state law.
(Ord. No. 98-3, § 1, 2-12-1998)

Sec. 21-333. Penalties.

Any person who violates any provision of this division or any provision of a BMP plan approval issued under this division shall be guilty of a violation and, upon conviction, shall be punished as provided by law, including those penalties set forth in Code of Ala. 1975, § 11-45-9.
(Ord. No. 98-3, § 20, 2-12-1998)

Sec. 21-334. Exemption.

The provisions of section 21-340 and subdivision II of this division shall not apply to a discharge or activity specifically authorized by an NPDES permit.
(Ord. No. 98-3, § 16, 2-12-1998)

Sec. 21-335. Existing authorities.

(a) Nothing in this division shall be construed to limit the existing authority of the city to enforce rules and regulations regarding:

(1) Charges, limits and restrictions on the discharge of waste into the sanitary sewer system;

(2) Requirements of the stormwater management manual of the city;

(3) Health or sanitation ordinances of the city enforced by the county health department; or

(4) Ordinances governing the sanitation of premises where animals are kept.

(b) This division shall be cumulative to and in furtherance of any statutory common law, or other legal right, duty, power or authority possessed by the city. Compliance with this division or a BMP plan approval issued under this division shall not excuse any person from compliance with any other federal, state or local law, ordinance, regulation, rule or order.
(Ord. No. 98-3, § 21, 2-12-1998)

Sec. 21-336. Discharge prohibitions.

(a) The illicit discharge of pollutants to the municipal separate storm sewer system by any person is prohibited.

(b) The discharge of pollutants to the municipal separate storm sewer system from sites of industrial activity and high-risk facilities is prohibited except as authorized by a BMP plan approval issued by the director pursuant to section 21-351. The discharge of pollutants to the municipal separate storm sewer system by discharging stormwater associated with industrial activity is prohibited except as authorized by an NPDES permit. Compliance with all terms and conditions of a valid NPDES permit authorizing the discharge of stormwater associated with industrial activity, to the extent practicable, shall be deemed in compliance with the provisions of this division which relate to such discharge.

(c) The spilling, dumping or disposal of materials other than stormwater to the municipal separate storm sewer system is prohibited. The spilling, dumping or disposal of materials other than stormwater in such a manner as to cause the discharge of pollutants to the municipal separate storm sewer system is also prohibited.
(Ord. No. 98-3, § 3, 2-12-1998)

Sec. 21-337. Exceptions to prohibition.

The following discharges are specifically excluded from the prohibitions included in section 21-336:

(1) Water line flushing (including fire hydrant testing).

(2) Landscape irrigation.

(3) Diverted streamflows.

(4) Rising groundwaters.

(5) Uncontaminated groundwater infiltration.

(6) Discharges from potable water sources.

(7) Foundation drains.

(8) Air conditioning condensation.

(9) Irrigation water.

(10) Springs.

(11) Water from crawl space pumps.

(12) Footing drains.

(13) Lawn watering.

(14) Individual residential car washing.

(15) Flows from riparian habitats and wetlands.

(16) Dechlorinated swimming pool discharges.

(17) Street wash water.
(Ord. No. 98-3, § 4, 2-12-1998)

Sec. 21-338. Inspection and monitoring of discharges.

(a) The director may enter and inspect any private property or premises, including but not limited to any private property or premises which is or may be the source of a stormwater discharge associated with industrial activity, or the source of a discharge from a site of industrial activity, or the source of a discharge from a high-risk facility, or the source of an illicit discharge, upon reasonable notice to the person owning the property or premises and the person in possession and during normal business hours, for the purpose of performing investigations regarding the existence and source of contamination and determining from the person responsible for such property or premises or other appropriate individual the methods which are being or will be employed to stop, neutralize, remove or otherwise remedy the contamination, and, as needed, to determine compliance or noncompliance with this division or with the conditions of a BMP plan approval issued pursuant to section 21-351. No person shall refuse entry or access to the director or his authorized representative when he requests entry for the purpose of inspection and presents appropriate

credentials. If requested, the person responsible for such property or premises shall receive a report from the director setting forth the findings of the inspection with respect to compliance status.

(b) The director may require the person responsible for any private property or premises, including but not limited to any private property or premises which is or may be the source of a stormwater discharge associated with industrial activity, or the source of a discharge from a site of industrial activity, or the source of a discharge from a high-risk facility, or the source of an illicit discharge, at that person's expense, to establish and maintain such records, make such reports, install, use and maintain such monitoring equipment or methods, sample such discharge in accordance with such methods, at such locations, and intervals as the director shall prescribe, and provide periodic reports relating to the discharge. To the extent practicable, the director shall recognize and approve the sampling procedures and test methods established by 40 CFR 136.
(Ord. No. 98-3, § 5, 2-12-1998)

Sec. 21-339. Best management practices.

All industrial facilities and high-risk facilities are required to implement, at their own expense, structural and nonstructural BMPs, as appropriate, to prevent the discharge of pollutants to the municipal separate storm sewer system. Further, the director may require any person responsible for property or premises which is or may be the source of a discharge from a site of industrial activity, or the source of a discharge from a high-risk facility, or the source of an illicit discharge, to implement, at that person's expense, additional structural and nonstructural BMPs, as provided in sections 21-351—21-358, to prevent the discharge of pollutants to the municipal separate storm sewer system. To the extent practicable, the director shall recognize and approve the use of appropriate BMPs described or referenced in one or more of the NPDES general permits issued by the ADEM authorizing the discharge of stormwater associated with industrial activity. To the extent practicable, the director shall recognize that storage and handling of significant materials, material handling equipment or activities, intermediate products or industrial machinery in such a manner that they are not exposed to stormwater is an effective BMP. Compliance with all terms and conditions of a valid NPDES permit authorizing the discharge of stormwater associated with industrial activity, to the extent practicable, shall be deemed in compliance with the provisions of this section.
(Ord. No. 98-3, § 6, 2-12-1998)

Sec. 21-340. Good housekeeping practices required.

Commercial areas and industrial facilities shall employ good housekeeping practices to prevent debris such as cigarette butts, paper, bottles, cans, plastic, etc., from entering the municipal separate storm sewer system from areas such as parking lots, loading zones, sidewalks, trash cans and dumpster sites. It shall be unlawful for any person to discharge chemicals, waste products or any pollutant to the parking lot or grounds of a commercial area or an industrial facility.
(Ord. No. 98-3, § 7, 2-12-1998)

Sec. 21-341. Providing false information and tampering prohibited.

(a) It shall be unlawful for any person to provide false information to the director or anyone working under the director's supervision when such person knows or has reason to know that the information provided is false, whether such information is required by this division, any BMP plan approval granted under this division, or any inspection, recordkeeping or monitoring requirement carried out or imposed under this division.

(b) It shall be unlawful for any person to falsify, tamper with or knowingly render inaccurate any monitoring device or method required under this division or a BMP plan approval issued under this division.
(Ord. No. 98-3, § 18, 2-12-1998)

Sec. 21-342. Method of enforcement.

The director, any person acting under his supervision, and sworn law enforcement officers of the city are authorized to issue citations to appear in municipal court to answer charges of violation of any of the provisions of this division. In no

event shall any enforcement action under this division be taken for an alleged violation of this division if any of the following conditions exist:

(1) The ADEM has issued a notice of violation with respect to the same violation and is proceeding with enforcement action;

(2) The ADEM has issued an administrative order with respect to the same alleged violation and is proceeding with enforcement action; or

(3) The ADEM has commenced and is proceeding with enforcement action or has completed any other type of administrative or civil action with respect to the same alleged violation;

however, enforcement action under this division may be pursued for continued or continuing violations, and each day that a violation of this division continues shall be considered a separate violation.
(Ord. No. 98-3, § 19, 2-12-1998)

Secs. 21-343—21-350. Reserved.

Subdivision II. Best Management Practices (BMP) Approval

Sec. 21-351. Application.

(a) Whenever stormwater will be discharged into the municipal separate storm sewer system from a site of industrial activity or a high-risk facility, the person responsible for such site of industrial activity, high-risk facility or discharge, except as such site, high-risk facility or discharge may be expressly excepted from coverage of this division, shall submit an application for BMP plan approval to the director. The application shall be submitted to the director within 60 days of this division's effective date for discharges from sites of industrial activity or high-risk facilities existing or commencing within 60 days of this division's effective date and thereafter at least 30 days prior to the date of any discharge from a site of industrial activity or high-risk facility unless an extension is authorized by the director. The application shall be submitted on forms provided by the director and include any information requested by the director which may be required to describe the discharge or determine the propriety and sufficiency of BMPs to be employed. An application fee of $25.00 shall be paid to the city for each application at the time the application is submitted and shall be nonrefundable.

(b) Upon receipt, and after investigation, of information that pollutants are or may be being discharged to the municipal separate storm sewer system from a site of industrial activity, a high-risk facility or a commercial area, the director shall request, in writing, that the person responsible for such site of industrial activity, high-risk facility, or commercial area which is, or could be, the source of discharge submit an application and the person shall submit the application on forms provided by the director. Such application shall include any information requested by the director which may be required to describe the discharge or determine the propriety and sufficiency of BMPs to be employed. Such application shall be submitted to the director not more than 30 days from receipt of the written request unless an extension is authorized by the director. An application fee of $25.00 shall be paid to the city for each application at the time the application is submitted and shall be nonrefundable.
(Ord. No. 98-3, § 8, 2-12-1998)

Sec. 21-352. Granting and denial of BMP plan approval.

(a) Upon receipt of an application, the director shall issue a notice of BMP plan approval, setting forth the terms and conditions under which the discharge of pollutants to the municipal separate storm sewer system can occur, unless one or more of the following circumstances is found to exist:

(1) The application is incomplete in a material respect;

(2) The application contains false information;

(3) The application relates to an area or subject matter not covered by this division;

(4) The applicant has failed to submit the requisite application fee;

(5) The applicant has a substantial record of noncompliance with this division or a BMP

plan approval issued under this division and has made no reasonable effort to rectify the circumstances or conditions which resulted in the record of noncompliance;

(6) No terms or conditions, including BMPs or other precautions, or combination, required under a BMP plan approval will satisfactorily control the quality of stormwater discharged by the applicant into the municipal separate storm sewer system;

(7) A BMP plan approval previously issued to the applicant was revoked on grounds of substantial noncompliance with this division or a BMP plan approval issued under this division; or

(8) For any other reason if, in the judgment of the director, the issuance of a BMP plan approval is not consistent with the purposes of this division.

(b) Terms and conditions imposed by a BMP plan approval issued under subsection (a) of this section may include, at the holder's expense, the following:

(1) Institution and installation of site-specific monitoring, recordkeeping, and reporting requirements and BMPs;

(2) Submission to inspection requirements, compliance schedules, applicable requirements under federal, state or local laws, regulations, orders or standards;

(3) Limitations on the character or amount of certain pollutants or the characteristics of stormwater discharged into the municipal separate storm sewer system; or

(4) Other terms and conditions as deemed appropriate by the director to ensure compliance with this division or the city's NPDES permit.

(c) If an application is denied, the director shall provide written notice of denial of a BMP plan approval, including the reasons for denial and a statement of the appeal procedure in section 21-358 to the applicant within ten days of the denial. The notice of denial shall be delivered by certified mail/return receipt requested at the address of the responsible person set forth in the application. Denial of a BMP plan approval may be appealed in accordance with the provisions of section 21-358.
(Ord. No. 98-3, § 9, 2-12-1998)

Sec. 21-353. Term of BMP plan approval.

A BMP plan approval issued under this division shall be for a term of three years. Any holder wishing to continue to discharge to the municipal separate storm sewer system beyond the term of a BMP plan approval shall submit an application for renewal of BMP plan approval, on forms provided by the director, at least 60 days prior to the expiration of the BMP plan approval. If the director does not issue a notice of renewal of BMP plan approval prior to the expiration date due to circumstances beyond the control of the holder, the standards and requirements set forth in the expiring BMP plan approval shall remain in full force and effect until such notice of renewal is issued by the director. An expiring BMP plan approval shall not be renewed unless its terms and conditions continue to adequately address the concerns set forth in this division.
(Ord. No. 98-3, § 10, 2-12-1998)

Sec. 21-354. BMP plan approvals nonassignable.

BMP plan approvals are granted to a specific holder for a specific site of industrial activity, high-risk facility or commercial area. The BMP plan approvals do not constitute a property interest and shall not be assigned, conveyed, transferred or sold. A BMP plan approval granted under this division shall be null and void upon attempted assignment, conveyance, transfer or sale.
(Ord. No. 98-3, § 11, 2-12-1998)

Sec. 21-355. Modifications to BMP plan approvals.

A BMP plan approval issued under this division may be modified in order to comply with any federal, state or local law, regulation, order or standard, or when, in the opinion of the director, a modification is necessary to accurately control

changes in the character or amount of pollutants or the characteristics of stormwater discharged into the municipal separate storm sewer system, or any other applicable condition. A holder shall be given a 30-day notice of the impending modification. Deadlines for compliance with the modified requirements shall be determined on a case-specific basis.
(Ord. No. 98-3, § 12, 2-12-1998)

Sec. 21-356. Grounds for revocation of a BMP plan approval.

(a) The director may revoke a BMP plan approval issued under section 21-352 if he determines that one or more of the following conditions exist:

(1) The holder provided false information in obtaining BMP plan approval;

(2) The holder provided false information with respect to any monitoring, record-keeping or reporting requirements or BMPs imposed under this division or a BMP plan approval;

(3) The holder is convicted of violating the provisions of this division;

(4) Any term or condition imposed under a BMP plan approval was not satisfied within the timeframe specified in the BMP plan approval;

(5) Any federal, state or municipal statute, law, ordinance, regulation, order or standard is being violated by the holder;

(6) The holder has refused entry to the director for purposes of inspection or monitoring; or

(7) For any other reason if, in the judgment of the director, the continuance of a BMP plan approval is not consistent with the purposes of this division.

(b) Whenever the director determines that grounds exist for revocation of a BMP plan approval, the director shall serve upon the holder a written notice of proposed revocation, stating the facts or conduct which warrant revocation of the BMP plan approval, and providing the holder with an opportunity to demonstrate or achieve compliance with all lawful requirements by submitting to the director, within ten days of the date of the notice of proposed revocation, written or demonstrative evidence of satisfactory compliance or a written plan for achieving satisfactory compliance.

(c) If the holder fails to respond to a notice of proposed revocation or fails to provide adequate evidence of satisfactory compliance or an adequate written plan for achieving satisfactory compliance, the director shall order the holder to show cause at a hearing why the proposed revocation should not occur. The director shall deliver to the holder a notice of show cause hearing, specifying the time and place of the hearing to be held before the director, the purpose of the hearing, the reasons for the proposed revocation, and directing the holder to show cause why the proposed revocation action should not occur. The notice of show cause hearing shall be delivered to the holder by certified mail/return receipt requested at least ten days before the hearing.

(d) If after the hearing the director determines that the BMP plan approval is due to be revoked, the director shall deliver, by certified mail/return receipt requested, a written notice of revocation to the holder. The notice of revocation shall be effective immediately and shall include a statement of the reasons for revocation and the appeal procedure set forth in section 21-358.
(Ord. No. 98-3, § 13, 2-12-1998)

Sec. 21-357. Emergency suspension of BMP plan approval.

(a) Notwithstanding any other provision of this division, the director may, without notice or hearing, suspend a BMP plan approval issued under this division by delivery to the holder, by hand delivery, certified mail/return receipt requested, or the posting in at least three conspicuous places at the site subject to the BMP plan approval, of a notice of emergency suspension of BMP plan approval. A BMP plan will be suspended under this section only when such suspension is necessary, in the opinion of the director, to stop an actual or threatened discharge which presents or may present an imminent or substantial endangerment to the health or welfare

of persons or to the environment, or causes interference with the municipal separate storm sewer system or causes the city to violate any condition of its NPDES permit. The notice of emergency suspension of BMP plan approval shall state the grounds for suspension, the corrective action necessary for reinstatement of the BMP plan approval, and a statement of the appeal procedure in section 21-358.

(b) Any holder notified of suspension of a BMP plan approval under this section shall immediately stop activity conducted pursuant to the BMP plan approval. The director shall reinstate the BMP plan approval upon proof of the elimination of the endangering discharge or circumstances.

(c) Emergency suspension of a BMP plan approval may be appealed in accordance with the provisions of section 21-358.
(Ord. No. 98-3, § 14, 2-12-1998)

Sec. 21-358. Appeal of denial, revocation or suspension of BMP plan approvals.

(a) The director of urban development ("urban development director"), or such other city official as the mayor may designate, (hereinafter referred to as "hearing officer") is authorized to hear and decide appeals from a person denied a BMP plan approval required by this division or a holder whose BMP plan approval under this division is revoked or suspended. The appellant may commence the appeal by filing a written notice of appeal, specifying the grounds for the appeal, with the director and the hearing officer within 15 days following receipt of the director's notice of denial, notice of revocation, or notice of suspension.

(b) The hearing officer shall hear and decide such appeal within a reasonable time following his/her receipt of the notice of appeal. The director and appellant shall be notified, in writing of the date and time of such hearing at least five days prior to the scheduled date of the hearing.

(c) At the hearing, the director shall state his grounds for denying, revoking or suspending the BMP plan approval and shall provide any evidence supporting such denial, revocation or suspension. The appellant may appear in person or be represented by an authorized representative. Failure of the appellant to appear in person or through an authorized representative shall be deemed to be a withdrawal of the appeal. Evidence on the appellant's behalf may be presented at such hearing. The hearing officer shall affirm the director's decision if any reason for his denial, revocation or suspension is a valid ground, as set forth in section 21-352, 21-356 or 21-357, respectively, and the existence of such ground is supported by a preponderance of the evidence. The decision of the hearing officer shall either sustain the decision of the director or reverse or vary the decision of the director, specifying the manner in which any variations shall be made, the conditions upon which they are to be made and the reasons. The director and the appellant shall be notified in writing of the hearing officer's decision within five days of the close of the hearing. Every decision of the hearing officer shall be final, subject, however, to such remedy as any aggrieved party may have at law or in equity. Every decision shall be filed in the office of the director.
(Ord. No. 98-3, § 15, 2-12-1998; Ord. No. 20-1062, § 2, 12-17-2020)

Sec. 21-359. Noncompliance with terms or conditions of a BMP plan approval prohibited.

It shall be unlawful to refuse or fail to comply with the terms or conditions of a BMP plan approval issued under this division.
(Ord. No. 98-3, § 17, 2-12-1998)

Sec. 22-187. Penalty for nonpayment.

ARTICLE I. IN GENERAL

Sec. 22-1. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Acceptable waste means that portion of solid waste characteristic of that collected or disposed of as part of normal municipal solid waste, including without limitation garbage, market refuse, rubbish, ashes, bulky waste, street refuse, construction and demolition waste, and industrial refuse, not including, however, any of the foregoing or other solid waste that constitutes unacceptable waste or hazardous waste; however, if any governmental agency or unit having appropriate jurisdiction shall at any time determine that any substances that were not theretofore acceptable waste because they were considered harmful, toxic or dangerous, are not harmful, toxic or dangerous, then such substances shall thereafter be considered acceptable waste unless they constitute unacceptable waste or hazardous waste; and any substances that were theretofore acceptable waste are harmful, toxic or dangerous, then such substances shall thereafter not be considered acceptable waste. Materials or substances which are discarded or rejected as spent, useless or worthless to the owners, and which have a positive market value for reuse may be excluded from acceptable waste by the owner of the premises when such material is sold and delivered for such reuse, provided that removal and processing shall be in accordance with all applicable laws and regulations and in a manner so as not to create any nuisance upon the premises.

Act means Code of Ala. 1975, tit. 11, ch. 89A (Code of Ala. 1975, § 11-89A-1 et seq.); Act No. 80-278 1980 regular session of the legislature and all amendatory or supplemental acts of the legislature.

Actual acceptance date means the date on which the plant begins accepting for disposal or processing acceptable waste from the public generally, which such date shall be deemed to have occurred only if prior to such date there has been published in a newspaper published and having general circulation in the city a notice specifying such date with particularity.

Agreement means the solid waste and sewage sludge delivery agreement between the authority and the city, the proposed text of which is set out in Ordinance No. 88-418, a signed copy of which is on file and available for public inspection in the office of the director of public works services and in the office of the clerk-treasurer at the city administration building.

Approved receptacle means the collection container provided by the city and where the container is not so provided, shall mean a durable, easily cleanable container with tightfitting lids, doors or covers, so as to be leak-proof, rodent-proof and insect-proof and in the case of containers or receptacles provided for industrial and commercial premises, including, but not limited to, premises designed for or intended for multiple occupancy, who contract with licensed private haulers, no container or receptacle shall be considered approved unless it is serviced and collected with sufficient frequency so as to prevent overflow, spillage and the emanation of offensive odors.

Ashes means residue from fires used for cooking and for heating buildings, and cinders.

Authority means the solid waste disposal authority of the city, a public corporation and instrumentality under the laws of the state.

Authorized disposal facility means any of the following:

(1) The plant;

(2) The existing landfill; and

(3) Any other facility that constitutes an authorized disposal facility within the meaning of the agreement.

Authorized receiving facility means any of the following:

(1) The plant;

(2) The existing landfill; and

(3) Any other facility that constitutes an authorized receiving facility within the meaning of the agreement.

Bonds means the original bonds and the other indenture-secured bonds.

Bulk waste means large auto parts; tires; furniture; large crates; large piles of tree limbs, tree parts or yard waste; or any waste not capable of being containerized. Also known as trash.

Bundle means a packaged bunch or accumulation of waste, bound with string or cord, and placed out by the customer for collection by the city. Bundles must not exceed 48 inches in any dimension or weigh more than 50 pounds.

Business day means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a holiday.

City means the City of Huntsville, Alabama, a municipal corporation under the laws of the State of Alabama, its successors and assigns and, when used with reference to a geographic area, means the area within the corporate limits of the city as they exist at the time and does not include any area outside such corporate limits.

Construction and demolition waste means lumber, roofing and sheathing scraps, dirt, stones, bricks, ceramics, rubble, broken concrete, plaster, conduit, pipe, wire, insulation, carpet or carpet padding, gutters, sheet rock, siding, HVAC, etc.

Containerized collection service means the collection of waste from a premises by the sanitation division by emptying of an approved, specially designed container furnished and distributed by the sanitation division.

Existing landfill means that certain landfill that is located in the city at or near the south end of Leeman Ferry Road and that is now being utilized for the disposal of acceptable waste.

Facilities means the entire solid waste disposal and resource recovery system and facilities of the authority as they may at any time exist, including, without limitation:

(1) The plant;

(2) The existing landfill;

(3) Any other landfills and similar facilities for the storage and disposal of acceptable waste or sewage sludge;

(4) Steam and condensate lines for transmitting to others steam generated by the plant and for returning condensate to the plant;

(5) Facilities for extracting landfill gas from the existing landfill and for pumping and transporting such gas to the plant;

(6) Facilities for the management of sewage sludge from the city's wastewater or sanitary sewage collection and treatment system;

(7) Transfer stations and other similar facilities for the temporary storage of acceptable waste pending transfer to other facilities for disposal or recycling; and

(8) All other facilities, machinery, equipment, properties and interests in properties (real, personal or mixed) owned, leased or otherwise available for use by the authority in the collection, storage, utilization, processing or disposition of acceptable waste and sewage sludge, and all additions, renewals, replacements, enlargements, improvements and extensions.

Garbage means putrescible animal and vegetable waste resulting from the handling, storage, preparation, cooking, serving and consumption of food.

Hazardous waste means:

(1) Any material that by reason of its composition or characteristics constitutes toxic or hazardous waste as defined in either the Solid Waste Disposal Act, as amended (42 USC 6901 et seq.), and the regulations under that act or the Hazardous Waste Management and Minimization Act, as amended (Code of Ala. 1975, § 22-30-1 et seq.), and any regulations under that act;

(2) Special nuclear or byproduct materials within the meaning of the Atomic Energy Act of 1954, as amended;

(3) Polychlorinated biphenyls, as described in section 6(e) of the Toxic Substance Control Act (15 USC 2605(c)); or

(4) Any other material that may present a substantial danger to health or safety or has a reasonable possibility of adversely affecting the operation of the facilities;

However, if any governmental agency or unit having appropriate jurisdiction shall at any time determine that substances that were not theretofore considered harmful, toxic or dangerous are harmful, toxic or dangerous, then such substances shall thereafter be considered hazardous waste.

Holiday means New Year's Day, Martin Luther King Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving, Christmas and not exceeding two other days during each calendar year as shall from time to time be designated by the authority, with the consent of the city, as holidays.

Indenture means the trust indenture between the authority and a trustee and under which the bonds are authorized to be issued.

Industrial refuse means solid or semisolid waste resulting from industrial processes and manufacturing operations, such as food processing wastes, boiler and house cinders, wood, plastic, metal scraps and shavings, byproducts accumulated as a result of treatment of liquid waste, etc.

Litter means all solid waste that can be or is subject to being blown or carried from place to place by the elements.

Market refuse means putrescible animal and vegetable waste from the handling, storage and sale of produce and meats.

Original bonds means the authority's solid waste disposal and resource recovery revenue bonds, series 1988, authorized to be issued under the indenture in one or more series to finance the facilities.

Other indentured-secured bonds means any of the following (if and to the extent that they are issued under and secured by the indenture):

(1) Any bonds, and any notes or other securities or obligations, that may, subsequent to the issuance of the original bonds, be issued by the authority to complete, improve, extend or replace any of the facilities, or to acquire, construct, complete, improve, extend or replace any other facilities (including transfer stations and landfills) for the storage, processing or other disposal of acceptable waste; and

(2) Any bonds, notes or other securities or obligations that may, subsequent to the issuance of the original bonds, be issued by the authority for the purpose of refunding any of the original bonds or any of the bonds, notes or other securities or obligations referred to in subsection (1) of this definition or for the combined purpose of refunding any such original bonds, or other bonds, notes or other securities or obligations and of acquiring, constructing, completing, improving, extending or replacing any of the facilities or any other facilities (including transfer stations and landfills) for the storage, processing or other disposal of garbage, refuse or other waste.

Plant means that certain plant or facility that is to be located on a 20-acre site approximately 1¾ miles south of Drake Avenue and bounded on the east by Triana Boulevard and on the south by the bed of the dismantled L & N Railroad and that is to be used for receiving, separating and sorting garbage, refuse and other waste and for producing steam by incinerating such garbage, refuse and other waste, as well as sewage sludge, landfill gas, oil, or other fossil fuels.

Premises designed or intended for multiple occupancy means any building or portion of a building, which is occupied as the home or residence of one or more families living independently of each other and doing their own cooking in the building, and shall include but is not limited to apartment complexes. For purposes

of this definition, the term "family" means one or more persons living together, whether related by birth, marriage or adoption, and having common housekeeping facilities.

Receiving time means the period from 7:00 a.m. until 3:30 p.m. on each business day; the period from 7:00 a.m. until 12:00 noon on each Saturday that is not a holiday; and any additional or substitute period that may at the time have been established by the authority, with the consent of the city, as a time when any particular authorized receiving facility or authorized disposal facility shall be open for the dumping, deposit or disposal of acceptable waste from the public generally.

Rubbish means paper, cardboard, cartons, wood, boxes, excelsior, plastics, rags, cloth, bedding, leather, rubber, metals, tin cans, metal foils, crockery, glass bottles and other mineral refuse.

Sanitation division means the sanitation division of the department of public works of the city.

Solid waste means all nonliquid materials or substances that are generally discarded or rejected as being spent, useless or worthless to the owners at the time of such discard or rejection, including (without limitation) garbage, trash, refuse, industrial and commercial waste, rubbish, ashes, contained gaseous materials, incinerator residue, and construction and demolition waste.

Street refuse means street sweepings, dirt, leaves, catch basin dirt and contents of litter receptacles.

System means the "Huntsville, Alabama, Solid Waste Collection and Disposal System" created in section 22-3.

Unacceptable waste means any solid waste or portion of solid waste that is not acceptable waste or hazardous waste, including (without limitation) sewage sludge other than from the city's wastewater or sanitary sewer system, herbicides or pesticides, gaseous products and their containers (except household types), scrap motor vehicles, scrap boats, utility trailers, pharmaceutical products (other than those for normal household use) and pathological wastes.

White goods means refrigerators, stoves, dishwashers, clothes washers, clothes dryers, other large appliances, etc.

Yard waste means grass, leaves, yard trimmings, shrubbery clippings, trees, branches, palm fronds, and all other miscellaneous vegetation.
(Ord. No. 94-236, § 1, 4-21-1994; Ord. No. 97-817, § 1, 12-11-1997; Ord. No. 99-88, § 1, 1-28-1999; Ord. No. 15-416, § 1, 6-25-2015; Ord. No. 24-784, § 1, 10-24-2024)

Cross reference—Definitions generally, § 1-2.

Sec. 22-2. Findings.

The city council has ascertained and does find, determine and declare as follows:

(1) That the removal, storage, transportation, utilization and disposal of solid waste are matters of serious public concern affecting the public health and welfare;

(2) That the health, safety and welfare of the people of the city require efficient waste removal and disposal service and also efficient utilization of acceptable waste, with such removal, disposal and utilization being under controlled conditions;

(3) That as a result of the growth of the city, the density of its population, environmental considerations and other factors, it has become increasingly difficult to find suitable areas within reasonable proximity to the city for the location of landfills or other similar facilities for the storage and disposal of solid waste;

(4) That there exists a need to develop alternative sources of energy in order to reduce dependence on petroleum products, natural gas, nuclear and hydroelectric power;

(5) That solid waste represents a potential source of fuel that can be converted into energy and that there exists technology to produce usable energy from solid waste;

(6) That solid waste disposal authorities organized under the provisions of the act are vested with power to acquire, construct, equip, finance and operate

facilities for the collection, storage, processing and disposal of solid waste and for the production of usable energy from solid waste;

(7) That the city council did, in its Resolution No. 85-81 adopted on February 14, 1985, find and determine that it was wise, expedient and necessary that the authority be formed and authorize the authority to be incorporated in accordance with the act;

(8) That the authority has been organized and incorporated and the city council has appointed persons to serve on its board of directors;

(9) That the authority is now exercising the powers vested in it by the act;

(10) That the authority has acquired and is operating the existing landfill and has acquired, constructed, and equipped and is operating the plant and certain appurtenant and related facilities, all primarily for the processing and/or disposal of all acceptable waste generated by residents of and generated by all businesses and institutions located in the city and for the production of salable steam from such waste;

(11) That in order to finance the costs of acquiring, constructing and equipping the plant and certain appurtenant and related facilities, the authority has issued the original bonds, which are revenue bonds payable solely from authority revenues that are derived primarily from the sale of steam and from tipping fees and other user charges for the disposal of waste at authority facilities;

(12) That the acceptable waste that the city anticipates collecting with its own forces and equipment through the operation of its solid waste collection system, referred to in section 22-3(1), is not expected to be sufficient to provide for the most efficient and economical operation of the plant;

(13) That a substantial amount of acceptable waste generated by businesses and institutions located in the city is now collected by so-called private collectors or haulers through the operation of that part of the system referred to in section 22-3(2);

(14) That to provide an efficient system for the removal of waste from premises within the city, and to assure and enhance the marketability of the original bonds, and any other indenture-secured bonds that the authority may issue, it is necessary that the authority have available at all times an adequate supply of waste from which salable steam may be generated at the plant;

(15) That to accomplish the ends referred to in subsection (14) of this definition, the city council has, in Ordinance No. 88-418, authorized the execution and delivery (on the part of the city) of the agreement, which obligates the city, subject to certain exceptions and conditions, to deliver to the authority for disposal and processing at the plant or for disposal at the existing landfill or other authorized disposal facility all acceptable waste collected through the operation of the city's solid waste collection system referred to in section 22-3(1) and to cause all acceptable waste that is generated, occurs or accumulated in the city and that is collected through the operation of that part of the system operated by so-called private collectors or haulers, referred to in section 22-3(2), also to be so delivered to the authority, for disposal or processing;

(16) That the city has the power under existing law (including, without limitation, Code of Ala. 1975, tit. 22, ch. 27 (Code of Ala. 1975, § 22-27-1 et seq.)) to regulate the storage, removal, collection, transportation and disposal of solid waste as provided in this chapter; and

(17) That in order to secure an adequate supply of acceptable waste to operate the plant, to promote the efficient and economical operation of the facilities, to

assure timely payment of debt service on the bonds, to provide a substantially uniform and compulsory system for the removal, transportation and disposal of solid waste and thereby protect the public health, safety and welfare of the people of the city and its environs, to prevent obstructions in the streets, to promote the economic welfare of the city by maintaining a healthy and aesthetically pleasing environment, and to assure that the public streets, avenues, alleys and other public ways of the city are used by any licensed private haulers for the purpose of removal or transporting solid waste in a manner consistent with these objectives, it is necessary generally to provide comprehensively for the storage, removal, transportation, disposal and regulation of solid waste generated, occurring or accumulating within the city and specifically to require all acceptable waste that occurs or accumulates or is generated in the city and that is collected by such licensed private haulers to be delivered to the authority for disposal or processing.

(Ord. No. 94-236, § 2(20-255), 4-21-1994)

State law reference—Authority to provide for solid waste collection and disposal, Code of Ala. 1975, §§ 11-47-135, 22-27-3.

Sec. 22-3. System created.

There is created for the city a system to provide for the storage, removal, transportation, disposal and regulation of solid waste generated or occurring within the city, such system to be known as the Huntsville, Alabama, Solid Waste Collection and Disposal System. The system shall be composed of the following components:

(1) The solid waste removal and collection system operated by the sanitation division, for the collection and transportation of acceptable waste from the premises of single-family and multiple-family residences, apartments, commercial and industrial premises and other public and private premises. The sanitation division primarily provides waste collection and disposal for single-family residential properties within the city limits. Premises designed or intended for multiple residential occupancy and all other commercial properties are intended to be served by private collection and hauling services. At the discretion of the director of public works, on a very limited basis, multi-occupancy residential or commercial premises may be served by the sanitation division.

(2) Those vehicles and other facilities and properties operated, for the removal and transportation of solid waste from certain apartment, commercial and industrial premises, by so-called private collectors or haulers licensed or franchised by the city pursuant to law, this chapter, or any pertinent ordinance of the city (it being understood that such private collectors or haulers are not, and shall not be, agents of the city in any respect but are and shall be subject to regulation by the city as provided in this chapter and in any ordinance of the city at the time in force and effect); and

(3) The facilities of the authority for the disposal of acceptable waste, including, without limitation, any authorized disposal or receiving facility owned, controlled or used by the authority for the purpose of disposing of acceptable waste by incineration, landfilling, recycling or otherwise, and any other facilities as defined in this chapter.

(Ord. No. 94-236, § 3(20-257), 4-21-1994; Ord. No. 24-784, § 2, 10-24-2024)

Secs. 22-4—22-30. Reserved.

ARTICLE II. LITTER AND RELATED ISSUES*

Sec. 22-31. Penalties.

Any person who violates or fails or refuses to obey or comply with any provision of this article

*__State law reference—__Criminal littering, Code of Ala. 1975, § 13A-7-29.

shall, upon conviction, be punished, in addition to such other punishment, including a term of community service, as may be provided by the court, by minimum fines and penalties as follows:

(1) For a first conviction of $100.00 or by imprisonment for not more than ten days;

(2) For conviction of a second offense committed within one year after the date of the first offense, by a fine of $200.00 or by imprisonment for not more than 30 days or by both such fine and imprisonment;

(3) For conviction of a third or subsequent offense committed within one year after the date of the first offense, by a fine of $500.00 or by imprisonment for not more than three months or by both such fine and imprisonment.

(Ord. No. 97-817, § 7, 12-11-1997)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 22-32. Presumption.

If an article of solid waste bearing a person's name is discovered on any public property not designated for the throwing, dumping or depositing of solid waste, including public streets, sidewalks, gutters, alleys, bodies of water, drainage ditches, storm sewers, sanitary sewers, or other property over or with respect to which the city has an easement, or on private property of another without such person's permission, a rebuttable, prima facie presumption shall arise that the person whose name appears on the article threw, dumped, attached, placed, deposited or otherwise caused the article to be thrown, dumped, attached, placed or deposited at the place where it was found; however, this presumption, if unrebutted at trial, shall not serve as a basis for a conviction for violation of any provision of this chapter in the absence of other evidence of such nature and degree as required by law.

(Ord. No. 97-817, § 8, 12-11-1997)

Sec. 22-33. Maintenance of premises.

It shall be unlawful for the owner or person in control of any private property within the city to fail to maintain the premises free of any solid waste that would tend to attract children and endanger their lives and health, spread disease, invite plundering, attract vagrants, and create fire hazards or other safety or health hazards.

(Ord. No. 94-236, § 4(20-259), 4-21-1994)

Sec. 22-34. Unlawful accumulations in residential sections.

(a) It shall be unlawful for an owner of property in any residential section within the city to allow to remain on such premises any unsightly and dangerous walls, any abandoned construction of any kind or nature, any stacks or piles of building materials not presently being used on such premises in construction, any motor vehicles not in usable condition, or any parts or pieces of motor vehicles when any of such items are exposed to the view of the general public.

(b) Any construction shall be presumed to have been abandoned if work has been discontinued for a period of at least 90 days, irrespective of whether a valid permit is then in existence for such construction.

(Ord. No. 94-236, § 4(20-260), 4-21-1994)

Sec. 22-35. Refrigerators, similar containers.

It shall be unlawful for any person to place for removal or collection, or to leave in any place accessible to children, any icebox, refrigerator or other container of any kind (including, without limitation, garbage or trash containers) that is large enough to enclose a human being and that has a snaplock or other similar device without first removing such snaplock, other device or doors from such icebox, refrigerator or container or providing a device that will allow the door to be operated from inside such icebox, refrigerator or container.

(Ord. No. 94-236, § 4(20-261), 4-21-1994)

Sec. 22-36. Litter and dumping.

(a) It shall be unlawful for any person to throw, dump, place, leave or deposit litter, refuse, paper, rubbish, debris, brush, tree removal debris,

boxes, tools, scrap iron, machinery, construction or demolition waste, scrap or waste material, or other trash or debris on public property, including, but not limited to, a city right-of-way, road or other public thoroughfare, or on private property within the city, irrespective of whether such private property is owned by such person; however, the owner or person in control of such private property may utilize authorized private containers in such a manner that such material will be prevented from being carried or deposited by the elements onto any street, sidewalk or other public place or private property; however, such material shall be permitted on such public or private property when it is properly placed for collection, as provided by this chapter.

(b) It shall be unlawful for the owner or person in control of any private property within the city to fail to maintain the premises free of litter, scrap or waste material.

(c) It shall be the duty of all persons owning or occupying a building or lot within any business district of the city to sweep or clean the sidewalks and alleys adjacent to such building or lot so as to remove all solid waste or filth and to maintain the cleanliness of the premises.

(d) It shall be unlawful for any person to throw, dump, place, leave, deposit or dispose of solid waste at any site other than at a facility permitted by ADEM to accept the type of waste being offered for disposal or to store, collect, transport, process, dispose of, sell or offer for sale solid waste or salvage materials so as to create a nuisance or unless properly licensed to perform this type of work.
(Ord. No. 94-236, § 2, 12-11-1994; Ord. No. 97-817, § 2, 12-11-1997)

Sec. 22-37. Depositing solid waste in streets or gutters.

It shall be unlawful for any person to sweep or deposit into the public streets, sidewalks, gutters or alleys in the city, or other property in the city over or with respect to which the city or the public has an easement, any solid waste or any other material or article that would tend to impede the flow of water in such gutters or along such streets, sidewalks, alleys or other property; to clog the storm drainage system; or to be an obstruction to traffic or pedestrians.
(Ord. No. 94-236, § 4(20-263), 4-21-1994)

Cross reference—Streets, sidewalks and other public places, ch. 23.

Sec. 22-38. Depositing solid waste in ditches or sewers.

It shall be unlawful for any person to throw, sweep, dump or otherwise deposit in or around the public drainage ditches, storm sewers or sanitary sewers of the city any solid waste or any other article or material that would tend to impede the flow of water or that would tend to clog such ditches, storm sewers or sanitary sewers.
(Ord. No. 94-236, § 4(20-264), 4-21-1994)

Sec. 22-39. Depositing of handbills.

(a) *Definitions*. The following words, terms, and phrases, when used in this section, shall have the following meanings ascribed to them, except where the context clearly indicates a different meaning:

Deposit means to deposit, drop, throw, distribute, deliver, or place in or upon real or personal property.

Handbill means any form of printed or written matter, including commercial or non-commercial handbills, handouts, fact sheets, advertisements, circulars, leaflets, folders, pamphlets, pictures, newspapers, magazines, or literature. The term does not include mail from the United States Postal Service or legal notices that are required by law to be posted on property.

Person in control means an owner, occupant, tenant, or person otherwise in possession or control of private premises, or those authorized to act on their behalf, including as agents, trustees, or guardians.

Private premises means occupied or unoccupied private land, any buildings, structures, or improvements thereto, and that portion of the public right-of-way adjacent to the property that the person in control of the property maintains

Vehicle means a motorized or non-motorized vehicle.

(b) *Depositing handbills on vehicles*. It shall be unlawful for any person to deposit any handbill upon a vehicle that is not their own or in their possession and that is parked or otherwise located upon any private property or public street, highway, sidewalk, road, alley, park, or other public property within the city; however, such matter may be transmitted directly to the owner, occupant, or other person then present that is willing to accept the handbill.

(c) *Depositing handbills on private premises*.

(1) It shall be unlawful for any person to deposit any handbill in or upon any private premises within the city; however, subject to subsections (d) and (e) below, such handbill may be transmitted directly to the person in control of the private premises or other person then present in or upon such private premises that is willing to accept it or may be deposited in a box, container, or manner to prevent such handbill from being scattered, blown, carried, or otherwise subjected to the elements.

(2) Notwithstanding anything to the contrary in this section, it shall be unlawful for any person to knowingly deposit an unsolicited handbill in or upon private premises that are vacant or unoccupied where it is apparent that such property is unoccupied or where it is apparent that handbills deposited on previous days have not been removed.

(d) *Refusal to accept unsolicited handbills by posting private residential premises*.

(1) *Posting of notice*. The person in control of private residential premises within the city may refuse to accept unsolicited handbills in advance by posting on said premises, in a conspicuous, readily visible location, a sign of sufficient size bearing the words "No Handbills," "No Trespassing," "No Solicitation," or words of similar import.

(2) *Effect of notice*. Any such sign so exhibited shall constitute sufficient notice to any person that the person in control of the posted private residential premises is unwilling to accept unsolicited handbills.

(3) *Duty to abide by notice*. It shall be the duty of every person that intends to deposit unsolicited printed materials on private residential premises in the city to first examine for the notice provided for in this subsection (d) and, if one is found to exist, it shall be unlawful to deposit unsolicited handbills in or upon such premises.

(e) *Refusal to accept unsolicited handbills on private residential premises by advance notice*.

(1) In addition to or in lieu of posting the premises in accordance with subsection (d) above, a person in control of private residential premises may provide advance written notice, as prescribed in subsection (2) below, to the responsible person that they are unwilling to accept unsolicited handbills on their premises.

(2) Written notice shall: (i) be sent by certified mail, return receipt requested, to the responsible person, (ii) state the name and contact information of the person providing the notice, (iii) state the purpose of the notice, and (iv) give the street address of the private residential premises. The notice shall become effective 14 days after receipt of the request and shall, unless renewed in December of each year for the next calendar year, expire at the end of each calendar year.

(3) After the notice becomes effective, it shall be unlawful for the responsible person to deposit or allow or cause to be deposited unsolicited handbills in or upon the private residential premises identified in the notice.

(4) The person in control of the private residential premises that sent the notice provided for in this subsection shall be responsible for initiating the enforcement of a violation of this subsection (e).

(f) It shall also be unlawful for any person to attach or affix in any manner or cause the attachment of any handbill to any property, real or personal, public or private, without the consent of the owner, except as may be otherwise permitted by this section or this Code.
(Ord. No. 94-236, § 4, 4-21-1994; Ord. No. 97-817, § 3, 12-11-1997; Ord. No. 15-416, § 2, 6-25-2015)

Sec. 22-40. Segregation of garbage from other waste.

(a) It shall be the responsibility of the customer to segregate uncollectible material from garbage, yard waste and other permitted household and commercial refuse. It shall be unlawful for any person to deposit or knowingly permit to be deposited waste unacceptable for collection in any approved container provided or intended for garbage or yard waste.

(b) It shall be the responsibility of the customer to segregate yard waste from garbage and other permitted household and commercial refuse. It shall be unlawful for any person to combine yard waste and garbage in any approved container provided or intended for garbage or yard waste collection.
(Ord. No. 94-236, § 4(20-266), 4-21-1994)

Sec. 22-41. Litter in bodies of water.

(a) It shall be unlawful for any person to throw, sweep, dump or otherwise deposit in or around any public lake, stream or body of water of

or is required to maintain, including sidewalks, alleys, and yards. The term includes private residential premises.

Private residential premises means private premises improved with a residential dwelling, whether occupied or unoccupied, including accessory structures and improvements, the driveway or walkway leading to the dwelling, and that portion of the public right-of-way that the person in control of the property maintains or is required to maintain, including the sidewalk and yard.

Responsible person means the person for whom the unsolicited handbills are being deposited, including the publisher, advertiser, promoter, fundraiser, candidate, advocate, or seller.

Unsolicited handbills mean handbills deposited or intended to be deposited on private premises without the consent of the person in control of the premises.

Vehicle means a motorized or non-motorized vehicle.

(b) *Depositing handbills on vehicles*. It shall be unlawful for any person to deposit any handbill upon a vehicle that is not their own or in their possession and that is parked or otherwise located upon any private property or public street, highway, sidewalk, road, alley, park, or other public property within the city; however, such matter may be transmitted directly to the owner, occupant, or other person then present that is willing to accept the handbill.

(c) *Depositing handbills on private premises*.

(1) It shall be unlawful for any person to deposit any handbill in or upon any private premises within the city; however, subject to subsections (d) and (e) below, such handbill may be transmitted directly to the person in control of the private premises or other person then present in or upon such private premises that is willing to accept it or may be deposited in a box, container, or manner to prevent such handbill from being scattered, blown, carried, or otherwise subjected to the elements.

(2) Notwithstanding anything to the contrary in this section, it shall be unlawful for any person to knowingly deposit an unsolicited handbill in or upon private premises that are vacant or unoccupied where it is apparent that such property is unoccupied or where it is apparent that handbills deposited on previous days have not been removed.

(d) *Refusal to accept unsolicited handbills by posting private residential premises*.

(1) *Posting of notice*. The person in control of private residential premises within the city may refuse to accept unsolicited handbills in advance by posting on said premises, in a conspicuous, readily visible location, a sign of sufficient size bearing the words "No Handbills," "No Trespassing," "No Solicitation," or words of similar import.

(2) *Effect of notice*. Any such sign so exhibited shall constitute sufficient notice to any person that the person in control of the posted private residential premises is unwilling to accept unsolicited handbills.

(3) *Duty to abide by notice*. It shall be the duty of every person that intends to deposit unsolicited printed materials on private residential premises in the city to first examine for the notice provided for in this subsection (d) and, if one is found to exist, it shall be unlawful to deposit unsolicited handbills in or upon such premises.

(e) *Refusal to accept unsolicited handbills on private residential premises by advance notice*.

(1) In addition to or in lieu of posting the premises in accordance with subsection (d) above, a person in control of private residential premises may provide advance written notice, as prescribed in subsection (2) below, to the responsible person that they are unwilling to accept unsolicited handbills on their premises.

(2) Written notice shall: (i) be sent by certified mail, return receipt requested, to the responsible person, (ii) state the name

and contact information of the person providing the notice, (iii) state the purpose of the notice, and (iv) give the street address of the private residential premises. The notice shall become effective 14 days after receipt of the request and shall, unless renewed in December of each year for the next calendar year, expire at the end of each calendar year.

(3) After the notice becomes effective, it shall be unlawful for the responsible person to deposit or allow or cause to be deposited unsolicited handbills in or upon the private residential premises identified in the notice.

(4) The person in control of the private residential premises that sent the notice provided for in this subsection shall be responsible for initiating the enforcement of a violation of this subsection (e).

(f) It shall also be unlawful for any person to attach or affix in any manner or cause the attachment of any handbill to any property, real or personal, public or private, without the consent of the owner, except as may be otherwise permitted by this section or this Code.
(Ord. No. 94-236, § 4, 4-21-1994; Ord. No. 97-817, § 3, 12-11-1997; Ord. No. 15-416, § 2, 6-25-2015)

Sec. 22-40. Segregation of garbage from other waste.

(a) It shall be the responsibility of the customer to segregate uncollectible material from garbage, yard waste and other permitted household and commercial refuse. It shall be unlawful for any person to deposit or knowingly permit to be deposited waste unacceptable for collection in any approved container provided or intended for garbage or yard waste.

(b) It shall be the responsibility of the customer to segregate yard waste from garbage and other permitted household and commercial refuse. It shall be unlawful for any person to combine yard waste and garbage in any approved container provided or intended for garbage or yard waste collection.
(Ord. No. 94-236, § 4(20-266), 4-21-1994)

Sec. 22-41. Litter in bodies of water.

(a) It shall be unlawful for any person to throw, sweep, dump or otherwise deposit in or around any public lake, stream or body of water of the city any solid waste or any other article or material that would tend either to impede the flow of water or clog such bodies of water or otherwise detract from the environmental quality or aesthetics of the area.

(b) It shall be unlawful for any person to throw, drop, dump or deposit litter or any foreign material in any fountain, pond, lake, stream, bay or any other body of water in or adjacent to a public park or elsewhere within the city.
(Ord. No. 97-817, § 4, 12-11-1997)

Sec. 22-42. Demolition and construction waste.

(a) It shall be unlawful for any construction or demolition contractor to fail to provide on-site containers for loose debris, paper, building material waste, scrap building material, and other trash produced by those working on the site. The manager of inspection or his designee shall have the authority to determine the number of containers necessary to provide proper containerization.

(b) Dirt, mud, demolition and construction waste, and other debris, whether located upon public or private property, shall be removed on a continuing basis as produced on the premises or in relation to a demolition or construction project; and in no case shall such waste remain on or near the premises or in relation to a demolition or construction project for a period longer than 30 days. Construction sites, and demolition and construction materials and wastes on such sites, shall be kept in a clean, litterfree and orderly condition at all times. The occupant of each premises or the contractor of a construction or demolition project shall collect and remove or arrange for the collection and removal of all demolition and construction waste produced on such premises or in relation to a demolition or construction project. In cases where the occupant or contractor arranges for collection and removal of demolition and construction work, such collection and removal must be conducted by a solid waste collector using a solid waste collection

vehicle licensed by the city for such collection. Such demolition and construction waste shall be disposed of at a facility permitted by ADEM to accept the type of waste being offered for disposal, whether such facility is operated by the city or privately. Any solid waste collector licensed for the purpose of offering collection service for demolition and construction waste may offer such services in accordance with the schedule of charges such collector determines to be appropriate.

(c) No person shall transfer responsibility or financial liability for disposal of demolition or construction waste by depositing the waste upon any public street, other public place or private parcel, lot premises, litter receptacle or refuse receptacle, except as otherwise authorized by sections 22-71 and 22-80. Any permit granted for construction/demolition may be subject to a stop work order at any time for failure to comply with the requirements of this subsection. No certificate of occupancy shall be issued for multifamily, commercial or industrial development until these materials are removed by the owner or contractor.

(Ord. No. 97-817, § 5, 12-11-1997)

Cross reference—Buildings and building regulations, ch. 7.

Sec. 22-43. Home composting.

It shall be unlawful for any person to engage in home composting operations in such a manner so as to create a nuisance or danger to public health, sanitation or welfare.

(Ord. No. 97-817, § 6, 12-11-1997)

Secs. 22-44—22-70. Reserved.

ARTICLE III. STORAGE AND COLLECTION*

Sec. 22-71. Containers.

(a) *Required.*

(1) Every person in possession, charge or control of any premises within the city where any solid waste is created or accumulated which is collected and disposed of by the sanitation division, shall cause all such material to be placed in the container provided by the city, except as required for leaves, grass clippings, yard waste and other bulk waste as provided in section 22-75, section 22-82 of this article and section 22-182 and section 22-183 of article VI. The sanitation division shall not collect waste placed in any container other than that provided by the city.

(2) Persons disposing of their own solid waste pursuant to Code of Ala. 1975, § 22-27-3(g) shall cause all such materials to be placed in approved receptacles during collection, transportation and disposal at approved solid waste collection facilities.

(3) Every person, owner, tenant and/or property management company (or their agent) in possession, charge or control of any premises within the city where any solid waste is created or accumulated, and which contracts or permits contracting with licensed private haulers shall cause all such material to be placed in approved receptacles.

(b) *Containerized collection service.*

(1) Customers served by the city's sanitation division shall use a specified collection container for the collection and removal of solid waste, such container to be distributed by the city at no cost to the customer. The container shall remain the property of the city and shall not be removed from the property when a customer changes residences or tenants vacate the premises as the container is assigned to the property address by an identifying number.

(2) If a container is lost by theft, or damaged beyond use by any means other than by the customer's own neglect or misuse, a container shall be replaced by the city at no cost to the customer. If a container is lost by theft, the customer must file a report with the police department before

*__State law reference—__Authority to provide for solid waste collection, Code of Ala. 1975, §§ 11-47-135, 22-27-3.

the city will replace the container. If the container is lost or damaged beyond use as a result of the customer's neglect or misuse, a designated fee will be charged by the city for a replacement container.

(3) The customer shall promptly notify the city sanitation division in the event of the need for repair to or replacement of a container.

(4) On scheduled collection days, collection containers shall be placed within three feet of the street curb or edge of the road, or in a location designated by the sanitation division. All containers must be placed so as to face in the proper direction and so as not to obstruct the collection vehicle. Container lid must be kept closed at all times to prevent any accumulation of water. Bags, boxes or other items shall not be placed on top of the closed container lid.

(5) Solid waste placed in the container must be containerized in either plastic or paper bags to prevent the contents from being displaced by the elements when the container is being emptied.

(6) It shall be unlawful to overload containers in a manner which is likely to cause damage to the collection vehicle or the container, create a litter condition, or impede collection.

(7) The city sanitation division shall not collect solid waste on or around containers except as specifically provided in this subsection. If additional refuse is generated on the premises that cannot be accommodated by regularly scheduled service in the city-provided containers, the customer may request and use additional containers up to a maximum of four containers per household or premises. Waiver of the four-container limitation shall be at the sole discretion of the director of public works.

(c) *Use by other customers.* It shall be unlawful for any person to place or deposit any solid waste generated elsewhere in or around a refuse container owned or provided for the use of another customer.

(d) *Spilling or scattering contents.* It shall be unlawful for any person to interfere with the contents of any container set out for removal by the city or any private collection agency in such a manner that the contents of the container are left spilled out or scattered on public or private property.

(e) *Damage to or destruction of.* It shall be unlawful for any person to damage or destroy any container placed at the curbside for collection.

(f) *Violation of section; penalties.* Any person who violates or fails or refuses to obey or comply with any subsection of this section shall upon conviction be punished, in addition to such other punishment, including a term of community service, as may be provided by the court, by minimum fines and penalties:

(1) For a first conviction of $100.00 or by imprisonment for not more than ten days;

(2) For conviction of a second offense committed within one year after the date of the first offense, by a fine of $200.00 or by imprisonment for not more than 30 days or by both such fine and imprisonment;

(3) For conviction of a third or subsequent offense committed within one year after the date of the first offense, by a fine of $500.00 or by imprisonment for not more than three months or by both such fine and imprisonment.

(Ord. No. 94-236, § 5(20-271), 4-21-1994; Ord. No. 97-817, §§ 9—11, 12-11-1997; Ord. No. 99-88, § 2, 1-28-1999; Ord. No. 24-784, § 3, 10-24-2024)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 22-72. Commercial and industrial bulk rubbish collection.

It shall be the duty of every person in possession, charge or control of any commercial or industrial place of business where the volume of combustible rubbish makes the use of curbside collection impracticable to utilize approved receptacles designed for the storage and collection of such rubbish.

(Ord. No. 94-236, § 5(20-272), 4-21-1994)

Sec. 22-73. Reserved.

Editor's note—Ord. No. 24-784, § 4, adopted Oct. 24, 2024, repealed § 22-73, which pertained to bailers and compactors and derived from Ord. No. 94-236, § 5(20-273), Apr. 21, 1994.

Sec. 22-74. Wastes from businesses not placed in city containers.

It shall be unlawful for any person operating a place of business, or any employee of such person, to place or deposit, in any waste container that is furnished and maintained upon a public street or sidewalk by the city for the convenience of the walking public, garbage, rubbish or other waste material accumulated at such place of business except in such cases where the city provides a container for specific use by a particular business.
(Ord. No. 94-236, § 5(20-274), 4-21-1994)

Sec. 22-75. Bulk waste, white goods and yard waste.

(a) All bulk waste, white goods or loose yard waste to be removed by the sanitation division from private residences shall be placed either between the sidewalk and curb or in an accessible place approved by the sanitation division. Tree limbs shall be cut in lengths not exceeding five feet in length, with protruding branches trimmed. All such waste shall be placed in an orderly, neat manner adjacent to that portion of the street right-of-way normally used by vehicles so as not to obstruct sidewalks or the flow of traffic or water. All bulk waste, white goods and loose yard waste shall be collected weekly. All such waste not removed by the city must be delivered by the owner to an authorized receiving facility.

(b) It shall be unlawful for any tree removal contractor, licensed or otherwise, to leave or deposit tree or limb removal debris at curbside for the city to remove. All contractors doing business in the city shall collect and remove or arrange for the collection and removal of tree or limb removal debris to a facility permitted by ADEM to accept this type of waste, whether such facility is operated by the city or privately.

(c) It shall be unlawful to place for removal bulk waste, white goods or loose yard waste between utility poles and utility pole support cables, under trees, under low utility wires; around, adjacent to, or on top of fire hydrants; or adjacent to fences or building.

(d) Leaves and grass clippings shall be containerized (bagged) and placed for pickup on the designated collection day for that property. Leaves shall be placed in tied, closed, or sealed bags, and placed adjacent to that portion of the street right-of-way normally used by vehicles and in a location and manner so as to not obstruct the flow of storm drainage runoff in gutters and ditches. Each bag shall not exceed 50 pounds in weight.

(e) Shrubbery clippings and other small miscellaneous vegetation, including garden vegetation, if tied in bundles, shall not exceed 50 pounds in weight or 48 inches in any dimensions, and, if containerized (bagged), shall not exceed 50 pounds in weight.

(f) If customers choose to place waste out for collection in bundles, the bundles must not have any dimension greater than 48 linear inches or weigh more than 50 pounds.

(g) Cardboard or pasteboard boxes or other similar containers may be placed out for noncontainerized collection if because of their size or quantity they would be impractical to contain. Cardboard or pasteboard boxes or other similar containers shall be prepared in a manner so as not to create a litter problem, stacked in a manner that permits convenient removal, and placed in a location designated by the sanitation division for collection on the day determined by the manager of the sanitation division.

(h) Small quantities of yard waste, small enough to fit in the city provided container used for disposal of household waste, shall be placed in the container for collection and disposal by the sanitation division.
(Ord. No. 94-236, § 5(20-275), 4-21-1994; Ord. No. 10-675, § 1, 9-23-2010; Ord. No. 19-20, § 1, 1-24-2019; Ord. No. 24-784, § 5, 10-24-2024)

Sec. 22-76. Reserved.

Editor's note—Ord. No. 24-784, § 6, adopted Oct. 24, 2024, repealed § 22-76, which pertained to shrubbery clippings and derived from Ord. No. 94-236, § 5(20-276), Apr. 21, 1994.

Sec. 22-77. Reserved.

Editor's note—Ord. No. 24-784, § 7, adopted Oct. 24, 2024, repealed § 22-77, which pertained to cardboard or pasteboard boxes and derived from Ord. No. 94-236, § 5(20-277), Apr. 21, 1994; and 97-817, § 12, Dec. 11, 1997.

Sec. 22-78. Ashes.

Ashes must be containerized and not contain live coals and must be wetted sufficiently to prevent dust from forming during collection. The sanitation division will not remove ashes from apartment complexes utilizing licensed haulers or from commercial or industrial places of business. Instead the owners of such premises shall remove all such material to an authorized receiving facility.
(Ord. No. 94-236, § 5(20-278), 4-21-1994)

Sec. 22-79. Reserved.

Editor's note—Ord. No. 24-784, § 8, adopted Oct. 24, 2024, repealed § 22-79, which pertained to bulky waste, white goods and loose yard waste; and derived from Ord. No. 94-236, § 5(20-279), Apr. 21, 1994; 97-817, § 13, Dec. 11, 1997; and 17-601, § 1, Aug. 24, 2017.

Sec. 22-80. Service not provided by city.

(a) The city does not provide service for the removal or collection, from any premises, of:

(1) Construction and demolition waste or materials resulting from the construction, demolition or renovation of buildings or structures which is not containerized as provided in section 22-71(1);

(2) Materials resulting from commercial-related activities, work performed by a contractor, or work requiring a building permit;

(3) Tree limbs and trimmings resulting from land clearing or from tree service contractors or other commercial workers;

(4) Loose rubbish;

(5) Rocks, mulch, dirt, including topsoil and potting soil, and other debris resulting from a residential or commercial landscaping or construction effort;

(6) Hazardous wastes or other wastes that are determined by law or by the sanitation division to be hazardous to the health or safety of collection personnel; or

(7) Animal or fowl excrement, dead animals or fowl or their parts;

(8) Bulky waste, yard waste or rubbish from apartment complexes, or commercial or industrial places of business that use private hauler collection agencies; and

(9) Motor vehicle tires from a business engaged in the manufacture, sale, exchange, repair, replacement or changing of tires or in a related tire business.

(b) It shall be the duty of the person in possession, charge or control of the premises to provide for the removal of solid waste, and in those instances specified above, and to deliver such waste to an authorized receiving facility.
(Ord. No. 94-236, § 5(20-280), 4-21-1994; Ord. No. 97-817, § 14, 12-11-1997; Ord. No. 17-601, § 2, 8-24-2017)

Sec. 22-81. Accidents, collisions, wrecks.

It shall be the duty of any person engaged in the business of moving wrecked or damaged motor vehicles from the public streets or other public property in the city to:

(1) Put out, immediately upon arrival at the scene of such wrecked or damaged vehicle, any necessary or absorbent material to absorb any petroleum product, radiator fluid or any other fluid released onto such street or property as a result of the wreck or damage, and to properly recover and dispose of such material so as to prevent, to the extent possible, such petroleum product, radiator fluid or other pollutant from entering the municipal separate storm sewer system; and

(2) Remove from the public street or other public property, at and about the scene of

such damaged or wrecked motor vehicle, all glass, metal, debris, oil spills or other hazards that may have been cast upon the public street or other public property as a result of such motor vehicle's being wrecked or damaged.

(Ord. No. 94-236, § 5(20-281), 4-21-1994)

Sec. 22-82. Residential collection practices.

(a) Garbage removal from occupied single-family residential units shall be made exclusively by the sanitation division on a once-per-week schedule approved by the mayor or his designee. Participation in the city's removal or collection system by single-family residential customers is mandatory for all residents of the city. Single-family residential customers may choose their level of service by choosing the number of containers they will use as provided in section 22-71(b)(7) of this article. Customers will be allowed to adjust their level of service one time during the year following the service start date. Otherwise, customers will be allowed to change service levels only on or about the anniversary of their service start date.

(b) Yard and bulk waste collection shall be made by the sanitation division on weekly schedules approved by the mayor or his designee. Participation in the city's removal or collection system by single-family residential customers is mandatory for all residents of the city. Yard and bulk waste shall be placed for collection as required by section 22-75 of this article.

(Ord. No. 94-236, § 5(20-282), 4-21-1994; Ord. No. 05-659, § 1, 9-29-2005; Ord. No. 24-784, § 9, 10-24-2024)

Sec. 22-83. Commercial collection practice.

Commercial garbage collection may, at the discretion of the director of public works services, be provided by the sanitation division, as requested, for commercial establishments within the city on a once-per-week basis. All such services by the sanitation division shall be by means of approved cans, bags or city provided automated containers. The owners and persons in possession, charge or control of each commercial establishment, and in the case of premises designed or intended for multiple occupancy, the owners and property management company (including the agents) are responsible for removal of all acceptable waste from such premises, and for its delivery to an authorized receiving facility. Private containerized collected shall be provided by licensed haulers in accordance with health and safety standards. If the director of public works services determines in his or her sole discretion that resources may need to be reallocated to serve residential accounts, then the director shall have authority to terminate collection of garbage collection for any commercial account.

(Ord. No. 94-236, § 5(20-283), 4-21-1994; Ord. No. 97-817, § 15, 12-11-1997; Ord. No. 99-88, § 3, 1-28-1999; Ord. No. 05-659, § 2, 9-29-2005; Ord. No. 23-74, 2-9-2023)

Sec. 22-84. Placement location.

It shall be unlawful to place garbage cans or containers for collection of garbage, refuse or other waste at any place other than immediately adjacent to the curb (or the edge of the roadway on noncurb streets) in front of the premises where such waste was accumulated unless prior ap-

proval is, upon a showing of need, obtained from the sanitation division for placement at some other location. Where collections are authorized to be made from private alleys and accessways, approaches shall be maintained in such a manner as not to be a hazard to sanitation division collection personnel or equipment (it being understood that tree limbs, parked cars and holes in such alleys or accessways shall, without limiting the generality of the foregoing, be considered as hazards to such personnel). Failure to comply with these provisions after notification by the sanitation division will cause service to be discontinued until correction has been made. At no time will collection personnel enter houses, buildings or fences for the purpose of the collection of garbage, refuse or other waste; however, the director of public works services of the city shall promulgate rules pertaining to special off-street service for persons with disabilities who are without assistance and cannot place containers at the curb, but no outbuilding or fence shall be entered without permission.
(Ord. No. 94-236, § 5(20-284), 4-21-1994; Ord. No. 97-817, § 16, 12-11-1997)

Sec. 22-85. Placement time.

It shall be unlawful to place or permit the placement of garbage cans or containers immediately adjacent to the curb (or the edge of the roadway on noncurb streets) before sundown on the day preceding the days designated by the sanitation division for collection, or to leave such cans or containers on the placement site after the days designated for collection. Containers must be properly placed for collection prior to the beginning of the scheduled work day for sanitation personnel.
(Ord. No. 94-236, § 5(20-285), 4-21-1994)

Sec. 22-86. Medical supplies and laboratory waste disposal.

It shall be the duty of any person disposing of needles, glass, vials, plaster casts and laboratory wastes or other medical supplies to package disposed-of items in such a manner as not to be a hazard to collection and disposal personnel. If a hazard is determined to exist by the sanitation division, collection service will be discontinued until correction has been made.
(Ord. No. 94-236, § 5(20-286), 4-21-1994)

Sec. 22-87. Dumpsters and commercial containers.

(a) *Definitions.* The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection (a), except where the context clearly indicates a different meaning:

Adjacent property means public or private property adjacent to the private premises utilizing a dumpster.

Dumpster means a dumpster or commercial container used for the collection of garbage, trash or other debris.

Dumpster owner means the owner of the company providing the dumpster or any person working on its behalf.

Person in charge of the premises means the owner or person in possession, charge or control of any private property utilizing a dumpster.

Premises means any lot, yard, plot, tract, parcel or other piece of land or property located within the city.

Public property means any real property which is owned, maintained or controlled by the city or any other county, state, or federal governmental entity, and shall include any street, sidewalk, avenue, road, drive, lane, boulevard, alley, highway, park or other property owned, operated or controlled by the city, or any other public governmental entity for the use, benefit or enjoyment of the general public.

(b) *City rights-of-way or easements.*

(1) a. It shall be unlawful for the dumpster owner and the person in charge of the premises to place or locate a dumpster, except for dumpsters placed by the city or a contractor acting on the city's behalf, on any right-of-way or easement of the city.

b. Dumpsters found to be in violation of the foregoing subsection regarding placement on the city right-of-way or easement, shall be relocated from said right-of-way or easement by the dumpster owner. In cases where no other location is available, then the dumpster owner must remove the dumpster permanently and the person in charge of the premises must arrange for another satisfactory means of waste disposal for the location in question.

(2) Access ways to dumpsters which cross or intersect any city right-of-way must be paved and constructed so as to withstand the maximum gross vehicle weight of the collection vehicle. Compliance with this provision shall be the responsibility of the person in charge of the premises.

(c) *Placement; access; and identification.*

(1) a. The person in charge of the premises shall provide a concrete or asphalt surface of sufficient dimension for the location and placement of the dumpster. It shall be the responsibility of the dumpster owner to see that the dumpster is placed and maintained on said surface and said dumpster owner shall not place or locate any dumpster on premises that do not provide the required surface.

b. In cases of hardship which are not merely financial in nature and which are beyond the control of the person in charge of the premises, the director of public works may, upon the written request of the person in charge, agree to waive or modify the surfacing requirement and may prescribe appropriate conditions or safeguards thereto.

(2) The person in charge of the premises shall maintain the surface and access ways thereto in good repair and condition.

(3) The dumpster owner shall maintain a log, which the dumpster owner shall make available to the city upon request, identifying:

a. The name of the person in charge of the premises and his or her contact information including address (if other than the address where the dumpster is located) and telephone number(s);

b. The address where the dumpster is located; and

c. The type of dumpster.

(d) *Condition.*

(1) a. Dumpster owners shall provide dumpsters in good repair and condition with tight fitting lids, doors, or covers.

b. The dumpster owner shall ensure that upon collection the closures or access points for the dumpster are closed and secured.

(2) The person in charge of the premises shall see that the dumpster lids, doors, covers, and access doors remain closed when not in actual use.

(3) Dumpster owners shall ensure that drain plugs with respect to dumpsters designed with drains shall be in place at all times except during cleaning.

(4) All dumpsters shall be kept in good condition, clean, free of loose debris and litter and disinfected. Any dumpsters producing or causing noxious, foul or offensive odors shall be immediately removed or cleaned to eliminate the odor. Compliance with this provision shall be the responsibility of the dumpster owner and person in charge of the premises.

(e) *Placement of garbage.*

(1) It shall be unlawful for the person in charge of the premises to have or allow the placement of garbage, trash or other solid waste outside the dumpster.

(2) Removal of debris shall be accomplished by either placing said debris in the dumpster or transporting it to the solid waste disposal authority. In the event the debris is removed to the solid waste disposal authority, said person in charge of the premises shall provide, upon request of a city agency, proof of disposal at the solid waste disposal authority.

(3) In general, for a violation of this subsection (e), the penalty provisions of section 1-7 of this Code shall apply, including, but not limited to, subsection (e) thereof; provided, however, the following penalty shall be imposed for violation of this subsection (e):

a. Over a 12-month period, upon first conviction regarding the premises in question or the person in charge of the premises, a fine of not less than $200.00 or more than $500.00, or imprisonment for not more than ten days.

b. Upon a second conviction regarding the premises in question or the person in charge of the premises, a fine of not less than $300.00 or more than $500.00, or imprisonment for not more than 30 days, or both such fine and imprisonment.

c. Upon a third or subsequent conviction regarding the premises in question or the person in charge of the premises, a fine of not less than $500.00 and imprisonment in jail for a period of not to exceed six months. Such sentence shall include a mandatory sentence of not less than two days in jail, which shall not be subject to suspension or probation.

(f) *Waste removal.* It shall be unlawful for the person in charge of the premises to fail to maintain the premises, including the dumpster, free of solid waste that would tend to:

(1) Attract children and endanger their lives and health;

(2) Spread disease;

(3) Invite plundering;

(4) Attract vagrants; or

(5) Create fire hazards or other safety or health hazards.

(g) *Screening.*

(1) It shall be unlawful for the person in charge of the premises to maintain a dumpster that is not screened so as not to be visible from the ground level of adjacent property. Such screening may be accomplished by any one of the following:

a. By locating the dumpster on a portion of the premises where it is not visible from adjacent property;

b. By providing a visual screen consisting of (i) a fully enclosed structure; (ii) a solid or otherwise non-transparent vertical wall or fence of a minimum height of at least six inches above the top of the dumpster at any point which is maintained in good condition and repair; (iii) natural objects, plantings, structures or other appropriate means which are at a minimum height of at least six inches above the top of the dumpster at any point which are neat and well maintained; or (iv) any combination of the foregoing;

c. In cases of hardship which are not merely financial in nature and which are beyond the control of the person in charge of the premises, the director of public works may, upon the written request of said person in charge, agree to waive or modify the screening requirement provided that he may prescribe appropriate conditions which mitigate the visual impact to adjacent property.

(2) The dumpster owner shall not place a dumpster on premises without the proper screening or a waiver thereof, or outside the screened area.

(h) *Enforcement.* The provisions of section 22-87 may be enforced by either a sworn officer of the Huntsville Police Department or by an employee of the Code Enforcement Section of the Community Development Division of the City of Huntsville.
(Ord. No. 94-236, § 5(20-287), 4-21-1994; Ord. No. 97-817, § 17, 12-11-1997; Ord. No. 99-88, § 4, 1-28-1999; Ord. No. 02-312, 5-9-2002; Ord. No. 03-506, § 1, 6-26-2003; Ord. No. 03-818, § 1, 10-9-2003; Ord. No. 05-774, § 1, 9-22-2005; Ord. No. 08-651, § 1, 7-31-2009; Ord. No. 10-66, § 1, 2-11-2010; Ord. No. 11-514, §§ 1, 2, 8-11-2011)

Sec. 22-88. Change in commercial service.

Changes to or from city service requested by commercial customers shall be requested in writing and shall be approved by the sanitation division. The sanitation division reserves the right to decline service to any commercial business, including premises designed or intended for multiple occupancy.
(Ord. No. 94-236, § 5(20-288), 4-21-1994; Ord. No. 99-88, § 5, 1-28-1999)

Sec. 22-89. Special collections.

Waste that has not been containerized, bundled or stored and is authorized for collection in accordance with the provisions of this article may be collected by the sanitation division by making arrangements for a special collection or other means of disposal. Residents disposing of building or construction debris (which is not the result of commercial related activity and which does not result from the work of a general contractor) that is determined by the sanitation division to be impractical to contain may arrange for a special collection. In cases where no arrangements for special collection have been made with respect to waste that has not been containerized, bundled or stored and is authorized for collection in accordance with the provisions of this article, such waste may be collected by the sanitation division and shall be considered a special collection. Fees for these special collections are in addition to the customer's normal monthly rate for containerized service and are determined as provided in section 22-182. Materials resulting from the repair or replacement of driveways or concrete slabs are excluded from special collections.
(Ord. No. 97-817, § 18, 12-11-1997)

Secs. 22-90—22-120. Reserved.

ARTICLE IV. LICENSED HAULERS AND RELATED ISSUES*

Sec. 22-121. Removal by city collectors and licensed haulers only; exceptions.

(a) No person, except duly authorized collectors of the city or private collectors or haulers licensed by the city pursuant to law, shall collect or remove any solid waste generated, occurring or accumulating within the city or use any of the streets, avenues, alleys or public places and ways of the city for the purpose of collecting or transporting solid waste. All licenses granted by the city to private collectors or haulers and all contracts or other forms of authorization of duly authorized private collectors or haulers shall, until such time as all the bonds have been fully paid and retired, require that all acceptable waste

*__Cross reference—__Licenses, ch. 15.

collected and transported under authority of such license, contract or authorization be delivered as follows:

(1) Until the actual acceptance date, such acceptable waste shall be delivered to the authority at the existing landfill for disposal at the existing landfill;

(2) From and after the actual acceptance date, such acceptable waste shall be delivered to the authority at the plant, for disposal and processing there or for subsequent transportation by such private haulers or collectors to the existing landfill and disposal there;

however, if the authority cannot accept acceptable waste at the existing landfill or the plant (or at another authorized receiving facility to which acceptable waste is at the time required by the provisions of this article to be delivered), such acceptable waste shall be delivered to the authority at such authorized receiving facility as shall have been specified in a notice published in a newspaper having general circulation and published in the city (which such notice shall also specify the location or locations of such authorized receiving facility). Further, no person shall use any of the streets, avenues, alleys or public places or ways of the city for the purpose of collecting or transporting any solid waste generated, occurring or accumulating within the city, or shall be granted a franchise so to use any of the streets, avenues, alleys or public places or ways of the city (irrespective of whether such person is licensed, and irrespective of whether such person is required to be licensed, by the city), unless all acceptable waste so collected and transported by such person shall be delivered to the authority to the same extent as provided in this subsection.

(b) All the provisions of subsection (a) of this section are subject, however, to the following exceptions:

(1) The owner or person in possession of any household, business, industry or other property in the city may store, haul and dispose of acceptable waste generated, occurring or accumulated upon the premises of such person (not including, however, any acceptable waste previously collected by any such person from the premises of others, notwithstanding that title to such waste may have been transferred to such person) on his own land or otherwise, if such storage, haulage or disposal is accomplished pursuant to a certificate of exception obtained under the provisions of Code of Ala. 1975, § 22-27-3(e);

(2) Any person owning or being in charge or possession of any private residence, commercial business or industry may remove and transport acceptable waste generated or occurring upon the premises of such person provided such acceptable waste is delivered to the authority for disposal as and to the same extent required and provided in this section with respect to private collectors or haulers collecting and removing acceptable waste under licenses granted by the city; and

(3) Any acceptable waste that is appropriately delivered or tendered to the authority as provided in this section and that the authority does not accept, process or otherwise dispose of, may thereafter be delivered and disposed of in any lawful manner deemed desirable by the licensed private collector or hauler or other person collecting or transporting the waste, it being understood and agreed that, for purposes of the preceding portions of this subsection (b)(3), the authority shall be considered not to have accepted, processed or otherwise disposed of any such acceptable waste only if such acceptable waste shall have been duly and appropriately tendered to the authority, in accordance with its rules and regulations, at an authorized receiving facility and the authority shall have rejected or otherwise failed to accept it, or the authority shall have published in a newspaper having general circulation and published in the city a notice to the effect that it cannot accept any acceptable waste and shall not have revoked or otherwise withdrawn (by notice published in like manner) such notice.

(c) Any solid waste that is not acceptable waste shall be disposed of, in a manner authorized or permitted by law, by the person responsible for generating the waste.

(d) The city council expressly readopts by reference, as a basis for this section (and other ancillary provisions of this chapter), the findings contained in section 22-2, including particularly (but without limitation) those contained in subsections 22-2(3) through (15).
(Ord. No. 87-65, § 1(20-291), 5-27-1987)

Sec. 22-122. Issuance and revocation of licenses.

Licenses for private haulers shall be issued by the city clerk-treasurer of the city based upon applications provided for that purpose. Licenses shall be issued on a calendar year basis—i.e., for a period beginning on January 1 of a calendar year and ending on December 31 of the same calendar year; and each license shall be renewable upon application, provided the applicant demonstrates compliance with:

(1) This chapter;

(2) The laws and regulations of the state;

(3) The rules and regulations of the state and county health departments;

(4) The pertinent ordinances of the city; and

(5) Insofar as authority property and the use of such property are concerned, with the applicable rules and regulations of the authority.

Licenses may, however, be revoked by the city council after notice and hearing. Prior to issuance of any such license the city clerk-treasurer shall collect the privilege tax required by the privilege license code of the city. Licensees shall at all times collect, transport and dispose of solid waste in accordance with this chapter and, insofar as authority property and its use are concerned, in accordance with the applicable rules and regulations of the authority.
(Ord. No. 87-65, § 1(20-292), 5-27-1987)

Secs. 22-123—22-150. Reserved.

ARTICLE V. DISPOSAL FACILITIES*

Sec. 22-151. Authorized areas for disposal of acceptable waste.

It shall be unlawful for any person to dispose of, at any place within the city other than at an authorized receiving facility or authorized disposal facility, any acceptable waste that is generated, occurs or accumulates within the city, subject, however, to the provisions of section 22-121.
(Ord. No. 87-65, § 1, 5-27-1987)

Sec. 22-152. Limitations on use of authorized receiving and disposal facilities.

The authority shall not permit any person to dump, deposit or dispose of, at any authorized receiving facility or authorized disposal facility, acceptable waste other than acceptable waste generated, occurring or accumulating within the city or within the county; however, the authority may, pursuant to a contract with the authority, permit the dumping, deposit or disposal, at an authorized receiving facility or authorized disposal facility, of acceptable waste generated, occurring or accumulating outside the city and outside the county, but if and only to the extent that, after adequately providing for the proper disposal of all acceptable waste generated, occurring or accumulating from within the city and from areas outside the city but within the county, the available facilities of the authority are at the time adequate also to provide for the proper disposal of such acceptable waste generated, occurring or accumulating outside the city and outside the county.
(Ord. No. 87-65, § 1, 5-27-1987)

Sec. 22-153. Authority rules, regulations and tipping fees; certain unlawful activities.

The authority shall, prior to March 1, 1988, establish rules and regulations respecting:

(1) The use of any authorized receiving facilities and any authorized disposal facilities at the time owned or operated by the authority;

***State law reference—**Authority to provide for solid waste disposal, Code of Ala. 1975, §§ 11-47-135, 22-27-3.

(2) The storage or disposal of acceptable waste at any authorized receiving facilities and any authorized disposal facilities at the time owned or operated by the authority;

(3) The conduct of persons engaging in the dumping of acceptable waste and related activities at any authorized receiving facilities and any authorized disposal facilities at the time owned or operated by the authority;

and may at any time and from time to time thereafter modify, revise, amend, alter or rescind any such rules and regulations so established. The city recognizes that, under the provisions of existing law (including, without limitation, the act), the authority may fix and establish tipping fees and other charges for the disposal of acceptable waste at any authorized receiving facility and any authorized disposal facility and may at any time and from time thereafter modify, amend, alter or rescind any such tipping fees and other charges so established. It shall be unlawful for any person to dispose of acceptable waste at any authorized receiving facility and any authorized disposal facility without paying (or providing, in a manner satisfactory to the authority, for the payment of) any then prescribed tipping fees or other applicable charges; and it shall be unlawful for any person who is delinquent in the payment of any charges that are due the authority for the disposal of acceptable waste and who has refused to pay cash, after being requested to do so by the authority, to enter the boundaries of any authorized disposal facility or authorized receiving facility for the purpose of dumping, depositing or disposing of acceptable waste, until all outstanding charges then due to the authority by such person have been paid or otherwise satisfied in full. Further, it shall be unlawful for any person to dispose of, at other than an authorized receiving facility or an authorized disposal facility, any acceptable waste that is required by this article or by the terms of a license issued by the city to be delivered to the authority and to deposit any hazardous waste or unacceptable waste at any authorized receiving facility or authorized disposal facility.

(Ord. No. 87-65, § 1(20-303), 5-27-1987; Ord. No. 87-545, § 1, 11-24-1987)

Sec. 22-154. Unlawful activities generally.

(a) It shall be unlawful for any person to deposit, for collection and transportation by the sanitation division, any acceptable waste generated, occurring or accumulated from a commercial or industrial establishment under the pretense that such waste was generated, occurred or accumulated from a noncommercial or nonindustrial establishment.

(b) It shall be unlawful for any person to dump, deposit or dispose of any acceptable waste at any authorized disposal facility or authorized receiving facility other than during the receiving time unless authorized by the authority; and it shall be unlawful for any person to dump, deposit or dispose of, at any authorized receiving facility or authorized disposal facility, any acceptable waste not generated, occurring or accumulating from within the city or the county, except pursuant to a contract with the authority as and to the extent provided in section 22-152.

(c) It shall be unlawful for a person not authorized or actively employed and performing assigned duties at an authorized disposal facility or authorized receiving facility, not having acceptable waste to deposit at an authorized disposal facility or an authorized receiving facility, or not a so-called "business invitee," to enter the boundaries of such a facility.

(d) It shall be unlawful for any person, while disposing of acceptable waste at an authorized disposal facility or an authorized receiving facility, or at any other time, to scavenge or remove any item from any such facility. If a person dumps or disposes of, at an authorized disposal facility or an authorized receiving facility, any item or items by mistake, then that and only that person will be permitted to remove such item from such facility and then only with the permission of the authority. If any item that is disposed of by mistake has been covered at a landfill by the landfill crew, the permission from the authority must be obtained before the item may be removed from such landfill. In no event shall anyone be allowed to remove items from the pit at the plant.

(e) It shall be unlawful for any person to be upon any authorized disposal facility or authorized receiving facility except during the receiving time unless authorized by the authority.

(f) It shall be unlawful for any person to operate, within the boundaries of an authorized disposal facility or an authorized receiving facility, any vehicle for the purpose of depositing or delivering solid waste without first having presented such vehicle at the weigh-in station for the purpose of having it weighed, or to leave such a facility without first presenting such vehicle such weigh-in station for the purpose of having it inspected and weighed.
(Ord. No. 87-65, § 1, 5-27-1987)

Secs. 22-155—22-180. Reserved.

ARTICLE VI. RATES AND CHARGES*

Sec. 22-181. Generally.

There are established, for the collection, hauling and disposal of acceptable waste by the city, the fees and charges prescribed in this article.
(Ord. No. 94-236, § 8 (20-320), 4-21-1994)

Sec. 22-182. Residential.

(a) *Garbage, yard waste and other acceptable waste.*

(1) For each occupied single-family dwelling unit, there shall be a mandatory minimum charge in accordance with the following rate schedule:

a. For standard service of garbage and yard waste, $16.50 per month (through December 31, 2024).

Effective January 1, 2025, $21.50 per month.

Effective January 1, 2027, $24.50 per month.

Effective January 1, 2029, $27.50 per month.

b. Additional 96-gallon containers may be requested and will carry an additional charge of $3.00 per container per month, respectively (through December 31, 2024).

Effective January 1, 2025, $9.00 per container per month.

Effective January 1, 2027, $12.00 per container per month.

Effective January 1, 2029, $15.00 per container per month.

c. For less than a full month's service, the charge shall be prorated.

(2) Special residential rate program.

a. Persons who are eligible to receive food stamps under the Federal Food Stamp Program operated pursuant to the provisions of 7 USC 2011, et seq., are eligible for a special rate for any residential dwelling unit occupied by such persons. Proof of eligibility, together with a valid driver's license or other identification containing a photograph of the applicant, shall be furnished when a special rate under this subsection is claimed.

b. Application for the special rate shall be made upon a form prescribed by the city. The mayor may designate the director of community development or any other person to determine eligibility for the special rate. The decision of such person designated by the mayor shall be final. Any person who qualified for the special rate shall be required to reapply for the special rate on an annual basis. The form for reapplication shall be the same as for initial application. The reapplication period shall be between October 1 and December 1 of each calendar year.

c. Persons who, as of January 1, 1999, have qualified for the special rate under the eligibility criteria set forth in prior versions of this article shall

*__State law reference—__Fees authorized, Code of Ala. 1975, §§ 11-47-135, 22-27-5.

continue to be eligible for the special rate, and shall not have to reapply for the special rate on an annual basis.

d. The special rate schedule for standard residential waste collection service shall remain $10.00 per month.

e. Additional 96-gallon containers may be requested and will carry an additional charge of $3.00 per container per month, respectively (through December 31, 2024).

Effective January 1, 2025, $6.00 per month, respectively.

Effective January 1, 2027, $9.00 per month, respectively.

Effective January 1, 2029, $11.00 per month, respectively.

f. For less than a full month's service, the charge shall be prorated.

(b) *Collection of yard and bulk waste.*

(1) Fees for the collection of yard and bulk waste shall be set in accordance with the following rate schedule:

a. Up to ten cubic yards per collection per week is included in standard residential service at no additional charge.

b. Each additional five cubic yards, $45.00 per collection (through December 31, 2024).

Effective January 1, 2025, $55.00 per collection.

Effective January 1, 2027, $60.00 per collection.

Effective January 1, 2029, $65.00 per collection.

(2) Fees due for special collection of yard or bulk waste shall be billed in the same manner as regular service and shall be due and payable under the same conditions as regular service. Waiver of the fees for excessive or special collection of yard waste resulting from natural disaster impacts is at the sole discretion of the director of public works.

(c) Special collections. A minimum charge of $45.00 shall be charged for each special collection (through December 31, 2024). The special collection charge for materials, including but not limited to rocks, bricks, cinder blocks, sand, ceramic tile, sheet rock, dirt, sod or any other like material, shall be the greater of the minimum charge or the city's actual disposal cost. The special collection charge for all other materials shall be the greater of the minimum charge or a charge of $45.00 per five cubic yards (through December 31, 2024).

Effective January 1, 2025, $55.00 per collection.

Effective January 1, 2027, $60.00 per collection.

Effective January 1, 2029, $65.00 per collection. (Ord. No. 94-236, § 8(20-321), 4-21-1994; Ord. No. 97-817, § 19, 12-11-1997; Ord. No. 98-956, § 1, 1-14-1999; Ord. No. 10-675, §§ 1, 2, 9-23-2010; Ord. No. 24-784, § 10, 10-24-2024)

Sec. 22-183. Commercial and industrial; garbage and other acceptable waste.

(a) The sanitation division may provide waste collection service to commercial or industrial premises at the sole discretion of the director of public works.

(b) Single occupant premises best served by city-provided 96-gallon containers, as determined at the sole discretion of the director of public works, shall be served in accordance with the processes and procedures for single-family residential premises as provided in section 22-71(b), section 22-82 of article III and section 22-182 of this article, billed at the following rates:

1. For standard service of a commercial/industrial premises, $29.00 per month (through December 31, 2024).

Effective January 1, 2025, $37.00 per month.

Effective January 1, 2027, $41.00 per month.

Effective January 1, 2029, $45.00 per month.

2. Additional 96-gallon containers may be requested and will carry an additional charge of $21.90 per container per month, respectively (through December 31, 2024).

   Effective January 1, 2025, $27.00 per month, respectively.

   Effective January 1, 2027, $31.00 per month, respectively.

   Effective January 1, 2029, $35.00 per month, respectively.

(c) Any person using city garbage collection service and operating an approved business (other than a customary home occupation) at a residence, including short term rental, shall pay a garbage charge at the commercial rate provided in this article, but shall not be required to pay any residential charge.

(d) For a commercial complex comprised of multiple commercial establishments where all the refuse and garbage is collected by the city from a central point, the charge shall be made on a volume basis for total volume generated by all such establishments depositing waste at the central point of collection; and the city will bill the owner, manager or agent of such commercial complex for the collection, hauling and disposal of refuse and garbage from such central point consistent with the pricing structure provided for containerized collection service in section 22-183(b).
(Ord. No. 94-236, § 8(20-322), 4-21-1994; Ord. No. 97-817, § 20, 12-11-1997; Ord. No. 98-956, § 2, 1-14-1999; Ord. No. 24-784, § 11, 10-24-2024)

Sec. 22-184. Premises designed or intended for multiple long-term residential occupancy.

(a) Premises designed or intended for multiple occupancy, including apartment buildings and complexes, are intended to be served by private haulers but may be served by the sanitation division at the sole discretion of the director of public works. If served by the sanitation division, these premises shall be charged for service using the residential rates set forth in section 22-182 at the full rate per residential unit. In all other respects, premises designed or intended for multiple occupancy, including apartment buildings and complexes, will be treated as commercial establishments.

(b) Fees for service rendered with respect to premises designed or intended for multiple occupancy, including apartment buildings and complexes, which have master utility accounts, may be charged to the person or entity whose name is listed on the master utility account applicable to such property. Such accounts shall be charged at the full residential rates set forth in section 22-182 per residential unit.

(c) Residents of a unit within a premise designed or intended for multiple occupancy, including apartment buildings and complexes, if individually responsible for waste collection fees as provided in this article and eligible for the special rate as provided in section 22-182(a)(2) shall be charged at the special rate.
(Ord. No. 99-961, § 1, 11-23-1999; Ord. No. 24-784, § 12, 10-24-2024)

Sec. 22-185. Errors in charges; discontinuance of service.

(a) It shall be the responsibility of the person in charge of a commercial, industrial or residential establishment to report to the sanitation division any error on the garbage charge. No adjustment of any such charge as a result of a determination by the city that an incorrect charge has been made shall be made with respect to any period more than three months prior to the month during which such determination is made. Request for billing correction shall be made in writing to the sanitation division and/or the agent for the sanitation division.

(b) It shall be the responsibility of the person in charge of a commercial, industrial or residential establishment to request in writing any desired discontinuance of garbage service. Charges shall continue to accrue until such a written request is received by the sanitation division of the city.

(c) Residential customers may request a suspension of garbage services for a minimum period of three months in cases where residents are out of town or rental property is vacant. Requests for suspension of garbage service shall be made in writing to the sanitation division at least five working days prior to the affected period. No requests for suspension of garbage service will be accepted in arrears. In cases of rental property, proof of ownership may be requested.
(Ord. No. 94-236, § 8 (20-323), 4-21-1994)

Sec. 22-186. Reserved.

Editor's note—Ord. No. 24-784, § 13, adopted Oct. 24, 2024, repealed § 22-186, which pertained to rooming houses or boardinghouses and derived from Ord. No. 94-236, § 8 (20-324), Apr. 21, 1994.

Sec. 22-187. Penalty for nonpayment.

(a) All the charges and rates set forth or provided for in this article are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(b) If the fees, charges or rates for the services furnished by the city or a licensee of the city shall not be paid within 30 days after they become due and payable, the city may, at the expiration of such 30-day period, suspend services or, pursuant to resolution, proceed to recover the amount of any delinquency with interest in a civil action, or both.
(Ord. No. 94-236, § 8 (20-325), 4-21-1994; Ord. No. 98-652, § 1, 8-27-1998; Ord. No. 15-911, 12-17-2015)

Chapter 23

STREETS, SIDEWALKS AND OTHER PUBLIC PLACES*

Article I. In General

Sec. 23-1. Encumbering streets and sidewalks.
Sec. 23-2. Consent for erection or maintenance of obstruction in streets.
Sec. 23-3. Obstructing sidewalk or street at night; placing red lights.
Sec. 23-4. Removal of obstructions.
Sec. 23-5. Maintenance and repair of railroad tracks.
Sec. 23-6. Removal of abandoned railroad tracks.
Sec. 23-7. Driveways.
Sec. 23-8. Municipally maintained dikes.
Sec. 23-9. Closing of streets; barriers and barricades; precautions.
Sec. 23-10. Driving upon streets being repaired.
Sec. 23-11. Removal, relocation of signs; when done by city; cost to be lien.
Sec. 23-12. Playing ball.
Sec. 23-13. Cellar doors on sidewalks; permission of city council.
Sec. 23-14. Cellar doors level with sidewalk.
Sec. 23-15. Leaving cellar doors on sidewalks open.
Sec. 23-16. Keeping cellar doors on sidewalks secure.
Sec. 23-17. Assessment of curb and gutter improvements.
Sec. 23-18. Unauthorized motor vehicles on public property.
Secs. 23-19—23-50. Reserved.

Article II. Technical Codes

Sec. 23-51. Construction code adopted.
Sec. 23-52. Engineering standards adopted.
Sec. 23-53. Scope.
Sec. 23-54. Accommodating utilities on highways.
Secs. 23-55—23-80. Reserved.

Article III. Sidewalks

Sec. 23-81. Authorization for laying sidewalk.
Sec. 23-82. Notification of construction; grades.
Sec. 23-83. Establishment of grades; supervision of construction; specifications.
Sec. 23-84. Specifications of director of public works services; acceptance.
Sec. 23-85. Material for sidewalks.
Sec. 23-86. Maintenance by property owners.
Sec. 23-87. Erecting steps on sidewalks.
Sec. 23-88. Poles not in use to be removed.

***Cross references—**Any ordinance providing for local improvements or levying or imposing any special assessment saved from repeal, § 1-11(a)(14); any ordinance dedicating, establishing, naming, locating, relocating, opening, paving, widening, repairing or vacating any street saved from repeal, § 1-11(a)(15); any ordinance establishing the grade of any street or sidewalks saved from repeal, § 1-11(a)(16); horses not to stand in streets unless hitched or attended, § 5-109; aviation, ch. 6; buildings and building regulations, ch. 7; cemeteries, ch. 9; environmental management, ch. 12; sleeping in parked vehicles, public places or on private lot of another, § 17-101 et seq.; peddlers and solicitors, ch. 18; peddlers and solicitors in central city area streets, sidewalks and parks, § 18-35; peddlers and solicitors in central city area streets, sidewalks and parks, exceptions, § 18-36; recreation services, ch. 19; depositing solid waste in streets or gutters, § 22-37; traffic and vehicles, ch. 25; unlawful materials on streets, § 25-6; tracking debris onto public streets or other public ways prohibited, § 25-392; riding bicycles on sidewalks, § 25-425; utilities, ch. 26; vegetation, ch. 27; protection of trees on public lands or public rights-of-way, utility easements, or land on which another public interest has been granted, § 27-53; zoning, app. A; subdivision regulations, app. B; requirements for improvements and design of sidewalks in subdivisions, app. B, § 4.6.

Article IV. Excavations

Sec. 23-121. Compliance.
Sec. 23-122. Permits.
Sec. 23-123. Responsibility for damage to sewers and streets.
Sec. 23-124. Leaving excavation open.
Sec. 23-125. Fences required around excavations abutting sidewalks or streets.
Sec. 23-126. Excavating or removing earth, similar material, from streets.
Sec. 23-127. Inspection; permission to fill.
Sec. 23-128. Approvals for utility service; persons authorized to make street openings; repairs.
Secs. 23-129—23-160. Reserved.

Article V. Building Numbering and Street Addresses

Sec. 23-161. Violations; notice.
Sec. 23-162. Numbering system established.
Sec. 23-163. Base lines; quarter sections, rectifying lines.
Sec. 23-164. Numbering to begin at base line; assignment of block numbers.
Sec. 23-165. Building numbers to be assigned; specifications; cost; posting.
Sec. 23-166. New buildings.
Sec. 23-167. Numbers not to be transferred.
Sec. 23-168. Duty of city engineer.
Sec. 23-169. Private streets, drives, other ways.
Secs. 23-170—23-200. Reserved.

Article VI. Organized Events

Division 1. Generally

Sec. 23-201. Purpose; definitions.
Sec. 23-202. Property and activities not covered.
Sec. 23-203. General conditions.
Sec. 23-204. Public conduct.
Sec. 23-205. Revocation or termination of an event; opportunity to cure.
Secs. 23-206—23-230. Reserved.

Division 2. Permit Requirements

Sec. 23-231. Requirement; event cancellation; lease events; sound events; extended events.
Sec. 23-232. Minor events.
Sec. 23-233. Application.
Sec. 23-234. Insurance and indemnification.
Sec. 23-235. Services criteria, fees, and costs.
Sec. 23-236. Recommendations.
Sec. 23-237. Processing application; grounds for denial.
Sec. 23-238. Appeal of denial.
Sec. 23-239. Permit amendment.
Sec. 23-240. Contents.
Secs. 23-241—23-300. Reserved.

Article VII. Communications Providers

Division 1. General

Sec. 23-301. Automatic conformity to federal and state law; construction of article.
Secs. 23-302—23-350. Reserved.

Division 2. Construction of Communications Facilities

Sec. 23-351. Coverage; definitions.
Sec. 23-352. Construction standards.
Sec. 23-353. Above-ground facilities installation and placement; undergrounding.
Sec. 23-354. Construction approval; as-builts.
Sec. 23-355. Restoration of property.
Sec. 23-356. Relocation of facilities.
Sec. 23-357. Conditions of use.
Sec. 23-358. Temporary movement of facilities.
Sec. 23-359. Trees.
Sec. 23-360. Joint trench coordination; planned infrastructure.
Sec. 23-361. Advertising, signs, or extraneous markings.
Sec. 23-362. Abandonment of construction or facilities; removal.
Sec. 23-363. Technical point of contact; authority of city engineer; stop work order; penalties.
Sec. 23-364. Enforcement.
Secs. 23-365—23-420. Reserved.

Division 3. Small Cell Wireless Facilities

Sec. 23-421. Purpose; scope; no city warranties; zoning.
Sec. 23-422. Definitions.
Sec. 23-423. Grant of authority; license.
Sec. 23-424. Notice of transfer, sale or assignment.
Sec. 23-425. Siting permits required; pre-application review.
Sec. 23-426. Fees.
Sec. 23-427. Prohibitions.
Sec. 23-428. Requirements for minimum spacing, minimal physical installation, and ability to restore rights-of-way.
Sec. 23-429. Technical considerations.
Sec. 23-430. Factors.
Sec. 23-431. Application review; decisions; timeframes.
Sec. 23-432. Application requirements and process.
Sec. 23-433. City-owned poles and structures.
Sec. 23-434. Construction.
Sec. 23-435. Conditional use of public right-of-way.
Sec. 23-436. Effect of siting permit.
Sec. 23-437. Insurance and security.
Sec. 23-438. Damages and defense.
Sec. 23-439. Limitation of liability; immunity.
Sec. 23-440. Compliance with laws.
Sec. 23-441. Applicability.
Sec. 23-442. Enforcement.

ARTICLE I. IN GENERAL

Sec. 23-1. Encumbering streets and sidewalks.

It shall be unlawful for any person to encumber a street or sidewalk with goods or merchandise, lumber or fuel or any article or obstruction whatever, except under a building permit from the city.
(Code 1982, § 20-22)

Sec. 23-2. Consent for erection or maintenance of obstruction in streets.

It shall be unlawful for any person to erect or maintain on any of the streets, public alleys or public grounds any obstruction or building without first obtaining the consent of the city council.
(Code 1982, § 20-23)

Sec. 23-3. Obstructing sidewalk or street at night; placing red lights.

It shall be unlawful for any person to place or leave any material or obstruction of any kind on or to stretch a rope across any street or sidewalk of the city during the night, without placing a sufficient number of red lights to warn all persons before reaching such obstruction that there is danger and that the street or sidewalk is obstructed.
(Code 1982, § 20-24)

Sec. 23-4. Removal of obstructions.

The chief of police and the director of public works services are authorized to remove all obstructions on city streets, avenues, alleys or sidewalks, regardless of the kind of obstructions, that may be a hazard to pedestrians or traffic.
(Code 1982, § 20-26)

Sec. 23-5. Maintenance and repair of railroad tracks.

(a) All persons subject to the requirements of Code of Ala. 1975, § 11-49-3 shall use, for the maintenance and repair of any street, materials suitable for maintaining the traveled surface of the roadway in a manner conforming to the grade of the street in which the subject railroad tracks are laid, all in a condition safe for use by the public.

(b) The materials used for the maintenance and repair of the streets required in this section shall be of an equal or better grade than the material used in surfacing the street over which the tracks pass. The director of public works services or other designated official of the city shall have the authority to prescribe and/or approve the materials to be used for the construction of any new placement or crossing of any such tracks; and it shall be unlawful for any street or other railway company to construct any new tracks at grade within or crossing any public street of the city except upon approval by the council and according to plans approved by the director of public works services or other designated official.
(Ord. No. 83-359, § 1, 8-30-1983)

Sec. 23-6. Removal of abandoned railroad tracks.

At any time any street or other railroad company abandons any portion of its track within the city and removes the rails and other rail facilities and appurtenances from the right-of-way of the railroad company within the city, it shall be the duty of the street or other railroad company to remove, within a reasonable time after the abandonment, all tracks and other appurtenances in connection with the railway from the streets of the city in accordance with plans approved by the director of public works services, and to restore the street to a condition consistent with the maintenance of the street without the burden of the tracks, and so that the street, without the burden of the tracks, is made safe for public travel. Any such removal with respect to any railway-street crossing shall include not only the rails, ties and other appurtenances, but shall also include the restoration of all approaches to the crossing which are necessary to make the crossing consistent with the grade of the street within the vicinity of such crossing.
(Ord. No. 83-359, § 2, 8-30-1983)

Sec. 23-7. Driveways.

No driveways shall be constructed to residences or buildings from a street with curbs and

gutters unless they are constructed in accordance with Drawing No. 610503, as published by the director of public works services.
(Code 1982, § 7-142)

Sec. 23-8. Municipally maintained dikes.

(a) It shall be unlawful for any person to build any building nearer than 30 feet to any municipally maintained dike without first obtaining the written approval of the city council.

(b) The manager of inspection shall issue no building permits for the erection of any buildings in violation of subsection (a) of this section until it has been presented to the city council and received its approval.
(Code 1982, § 7-141)

Sec. 23-9. Closing of streets; barriers and barricades; precautions.

When any street or street intersection is in the process of construction or repair, or in the event of any emergency requiring that a street, alley or portion of a street be closed to the public, or when any public work is being done which renders it necessary to fence off any portion of a street, alley or public place within the city, the city engineer or department of public works services shall cause proper barriers or barricades to be constructed or erected, closing such street or such portion of a street, which barriers or barricades shall have placed on or in close proximity a sufficient number of red or yellow lights or flares to warn all persons before reaching such barrier or barricade that there is danger and that the street is obstructed or closed to the public, which red or yellow lights or flares shall be illuminated from one-half hour after sunset to one-half hour before sunrise, and which barriers or barricades shall have displayed suitable markers or signs, so that the public may know that such street or such portion of a street is closed to use by the public.
(Code 1982, § 20-27)

Sec. 23-10. Driving upon streets being repaired.

When any street or sidewalk in the city is being repaired or built and closed or barred to traffic by the city engineer or department of public works services, or other persons doing or in charge of such work, any person going upon, riding or driving any vehicle, automobile, truck or animal upon such closed street or sidewalk shall be guilty of a misdemeanor.
(Code 1982, § 20-28)

Sec. 23-11. Removal, relocation of signs; when done by city; cost to be lien.

(a) Every person erecting, maintaining or interested in a sign lawfully erected upon or over the streets or sidewalks of the city under the official building code of the city may be required by the manager of inspection to readjust, relocate or remove the streets and sidewalks if, in the opinion of the manager of inspection, the space covered by the sign is necessary for the extension of public utility lines, sewage lines, traffic lights or other improvements necessary for the public convenience.

(b) If in the opinion of the manager of inspection it becomes necessary to readjust, relocate or remove such sign, he shall give 30 days' written notice to the person who owns or who is interested in such sign, to remove, readjust or relocate the sign, and upon his failure to do so, may remove the sign. The cost shall be a charge against the property upon which the sign is located, and the cost shall be a lien on the sign and collected the same as taxes are collected.

(c) All sign permits shall include a provision to such effect, giving notice to the applicant of the conditions of removal, readjustment or relocation.
(Code 1982, § 20-32)

Sec. 23-12. Playing ball.

It shall be unlawful for any person to engage in any kind of ball playing on the streets, alleys or sidewalks of the city.
(Code 1982, § 20-33)

Sec. 23-13. Cellar doors on sidewalks; permission of city council.

Steps, stairs, cellar doors or other impediments to free passage that are above the grade of the pavement shall not be permitted upon any side-

walk or pavement without the express permission of the city council recorded upon its minutes. This permission may be rescinded at any time.
(Code 1982, § 20-36)

State law reference—Authority of city to prohibit openings on sidewalks for cellar entrances, Code of Ala. 1975, § 11-49-2.

Sec. 23-14. Cellar doors level with sidewalk.

All cellar doors, trap doors or cellar chutes shall be placed or built upon a level with the grade of the sidewalk at that point. Such cellar or trap doors shall be constructed of iron grating to be approved by the director of public works services or other designated person. It shall be unlawful for any person to violate the provisions of this section or to refuse or fail to comply with its provisions after ten days' notice to do so.
(Code 1982, § 20-37)

Sec. 23-15. Leaving cellar doors on sidewalks open.

It shall be unlawful for any person to leave a cellar door or grating in the public square or on a street open at night, except when it is in actual use.
(Code 1982, § 20-38)

Sec. 23-16. Keeping cellar doors on sidewalks secure.

It shall be unlawful for any person to have or keep a cellar door on the public square or any street so insecure as to render the walking upon or over it unsafe or dangerous.
(Code 1982, § 20-39)

Sec. 23-17. Assessment of curb and gutter improvements.

In addition to all other provisions of pertinent law, there is adopted a policy and procedure for assessment of curb and gutter improvements on public streets within the city having no existing curbs and gutters. Improvements the cost of which is to be assessed, would include all necessary structures to provide proper drainage. The procedure to be followed by interested residents is described in the following text and will be coordinated with the department of public works services. The cost of such improvements are to be assessed against the abutting property served and benefited by the improvement. Special circumstances will affect assessments and are described in detail in subsection (1) of this section. Locations eligible for consideration will be restricted to city limits boundaries. Detailed procedures for curb and gutter improvements are as follows:

(1) *Technical considerations.*

a. Project costs shall include all clearing, grubbing, curb and gutter, base, asphalt, inlets, storm drain, and any other appurtenances required due to the installation of the curb and gutter along the street, except such work that may be deemed extra work as defined in subsection (1)b of this section.

b. If the curb and gutter plans require extra work, the assessment cost will not include the cost for extra work. Extra work is defined as the extension of sanitary sewer lines, the replacement of dilapidated utility lines, and all off-site work outside of the boundaries defined in subsection (1)c of this section.

c. Assessment boundaries will be limited to the lots or tracts of land abutting the streets improved, and which benefit from the improvement. All assessments will be apportioned along the abutting property based upon frontage but no assessment will be more than the increased value of the assessed property due to the improvement. Increased value will be determined prior to project approval, and the project shall not be commenced except upon approval of 51 percent of the owners as to the increased value.

d. All projects shall be designed and constructed by the department of public works services or by contract entered into between the city and the lowest bidder.

(2) *Prioritization procedure.*

a. In order to be considered for curb and gutter improvements, a written request must be submitted to the department of public works services. This request must contain the limits of desired improvements, statement of intent to waive all objections to assessment costs, and a petition signed by all affected property owners within the improvement limits.

b. All projects to be considered shall terminate at street intersections.

c. All requests shall be rated by the department of public works services prior to October 1 of each fiscal year in order to be considered for the following fiscal year.

d. The city council will determine, after required legal advertising and hearings, whether or not to proceed with the assessment. Funds for improvements may be advanced by the city from municipal funds, or may be provided by long-term borrowing. Assessments shall be payable annually over a period of ten years or less at the legal rate chargeable by the city for public improvement assessments.

(Ord. No. 90-357, 7-12-1990)

State law reference—The Municipal Public Improvement Act, Code of Ala. 1975, § 11-48-1 et seq.

Sec. 23-18. Unauthorized motor vehicles on public property.

(a) It shall be unlawful for any person to drive, operate, tow, push or park any vehicle, piece of equipment or structure of any kind upon any public property not designated for vehicular use without requesting and receiving prior authorization from the city. This section shall not apply to any person or entity while in the performance of a contract with the city or the state for the construction, repair or improvement of any public way or any utility located within the public property specified in such contract.

(b) A person convicted of a violation of this section shall be guilty of a misdemeanor.
(Ord. No. 03-751, § 1, 8-28-2003)

Secs. 23-19—23-50. Reserved.

ARTICLE II. TECHNICAL CODES*

Sec. 23-51. Construction code adopted.

The city Standard Specifications for Construction, 1991 edition, as amended through the adoption date of this Code, are adopted.
(Ord. No. 91-376, § 1, 6-13-1991; Ord. No. 91-435, 9-26-1991; Ord. No. 93-269, 5-13-1993)

Sec. 23-52. Engineering standards adopted.

The city Engineering Standards for Construction of Public Improvements, 1991 edition, as amended through the adoption date of this Code, are adopted.
(Ord. No. 91-374, § 1, 6-13-1991; Ord. No. 91-431, 9-26-1991; Ord. No. 93-268, 5-13-1993)

Sec. 23-53. Scope.

All newly constructed streets within the corporate boundaries of the city, both those constructed by and on behalf of the city, and those constructed by private developers, to be eligible for acceptance for maintenance as public streets of the city, shall be constructed in accordance with Engineering Standards for Construction of Public Improvements (1991 edition), adopted by Ordinance No. 91-374, as amended, or Standard Specifications for Construction (1991 edition), adopted by Ordinance No. 91-376, as amended, as applicable, which standards are administered by the city engineer. Curbs, gutters and attendant drainage improvements are required with respect to such streets and must be in place prior to such acceptance.
(Ord. No. 86-779, § 1, 12-23-1986)

*__Cross reference—__Buildings and building regulations, ch. 7.

Sec. 23-54. Accommodating utilities on highways.

The city council formally adopts the state highway department standards for accommodating utilities on highway rights-of-way as standards (as written and future amendments) for use by the city for accommodating utilities on roads and streets under the jurisdiction of the city on those roads and streets which have or will involve the expenditure of state or federal highway funds. (Code 1982, § 20-20)

Cross reference—Utilities, ch. 26.

State law reference—Consent of city as to use of streets for construction or operation of public utility, Code of Ala. 1975, § 11-49-1.

Secs. 23-55—23-80. Reserved.

ARTICLE III. SIDEWALKS

Sec. 23-81. Authorization for laying sidewalk.

It shall be unlawful for any person to lay a sidewalk within city right-of-ways without first having obtained authorization from the city engineer.
(Code 1982, § 20-81)

Sec. 23-82. Notification of construction; grades.

(a) When property owners plan to build, alter or repair the sidewalk in front of their property, they shall notify the city engineer for approval; and all sidewalks shall be built to the grade so established.

(b) All owners of property abutting on streets that have been paved shall bring their sidewalks to the grade established by the curbing of the street pavement and this shall be done whether or not the sidewalks on the present grade are in good condition. All pavements of the city shall be so constructed as to correspond with the grade of the streets and be free from any abrupt descents, by steps or otherwise and shall incline to the street at the rate of one-quarter inch in each foot of its width.
(Code 1982, § 20-82)

Sec. 23-83. Establishment of grades; supervision of construction; specifications.

It shall be unlawful for any person to lay a sidewalk in the city until a grade for such walk has been established by the city engineer. Construction shall be under the supervision of the city engineer and shall be in accordance with specifications on file in the office of the city clerk-treasurer.
(Code 1982, § 20-83)

Sec. 23-84. Specifications of director of public works services; acceptance.

Property owners repairing or building sidewalks shall make them conform to the plans and specifications set forth in the Engineering Standards for Construction of Public Improvements (1991 edition), and such sidewalks when finished shall be approved by the city engineer.
(Code 1982, § 20-84)

Sec. 23-85. Material for sidewalks.

No sidewalk shall be built of brick or of any material other than that prescribed by the Engineering Standards for Construction of Public Improvements (1991 edition) unless authorized by the city engineer.
(Code 1982, § 20-85)

Sec. 23-86. Maintenance by property owners.

All property owners abutting on the streets shall put their sidewalks in proper condition and keep them in such condition at all times.
(Code 1982, § 20-86)

State law reference—Authority of city to require owners of abutting property to keep sidewalks in repair, Code of Ala. 1975, § 11-49-2.

Sec. 23-87. Erecting steps on sidewalks.

It shall be unlawful for any person, unless authorized by the city engineer, to erect steps on a sidewalk.
(Code 1982, § 20-87)

State law reference—Authority of city to remove stairways on sidewalks, Code of Ala. 1975, § 11-49-2.

Sec. 23-88. Poles not in use to be removed.

It shall be unlawful for any telephone or electric lighting pole or part of such pole that is not actually in use, or any telephone or electric lighting wire not actually in use, to remain in or upon the streets or stretched or hung along or across any of the streets of the city. The resident managers of the various telephone and electric lighting companies shall be charged with the enforcement of the provisions of this section. It shall be unlawful for any such managers to fail or refuse to remove or have removed any such poles or wires within five days after being notified by the city or its officers to do so.
(Code 1982, § 20-89)

Secs. 23-89—23-120. Reserved.

ARTICLE IV. EXCAVATIONS

Sec. 23-121. Compliance.

It shall be unlawful for any person, except employees of the city, and Huntsville Utilities to make any excavations in or under the streets of the city, without first complying with the terms of this article.
(Code 1982, § 20-61)

Sec. 23-122. Permits.

(a) Any person who shall desire to make any excavation in or under the streets or sidewalks of the city shall be required before commencing such excavation to file a written application and obtain a written permit from the engineering division.

(b) Any person performing any land disturbing activity shall request and obtain a permit in coordination with the Stormwater Management Manual, section 2.2.2, grading permits.
(Code 1982, § 20-62)

Sec. 23-123. Responsibility for damage to sewers and streets.

(a) Any person who makes any excavation in or under the streets or sidewalks of the city shall be held responsible for any damage he may do to the sewer, street or sidewalk. He shall restore the street and sidewalk to as good condition as it was at the beginning of his work.

(b) Should any person fail to make such repairs to the streets and sidewalks as are necessary to restore them to as good condition as they were at the beginning of his work, the street superintendent shall make such repairs; and for such work, there shall be made by the city a reasonable charge against such person. Where such work is on a paved street or sidewalk the minimum charge shall be $3.00 for each square yard or any part of a yard. Nothing in this section shall be construed to release from liability any person who may dig into or out any street or sidewalk and leave it in an unsafe condition. Any person who fails or refuses to pay any such charges made against him by the city within five working days after notice by the director of public works services of such charges against him shall then and there forfeit the license for any occupation which requires excavating in or under the streets and sidewalks of the city.
(Code 1982, § 20-64)

Sec. 23-124. Leaving excavation open.

If any person making any excavation in or near a street or sidewalk shall leave such excavation open, so as to endanger persons in passing along the street or sidewalk, he shall be guilty of a misdemeanor.
(Code 1982, § 20-65)

Sec. 23-125. Fences required around excavations abutting sidewalks or streets.

(a) Any person who makes any excavation for the purpose of improving property or for any other purpose or any other excavation dangerous to the public, or who has already made any excavation for the purpose of improving property or for any other purpose, alongside or abutting any sidewalk or public street in the city shall be required, for the purpose of protecting pedestrians, to provide the following means of safety: He shall erect and establish, where such excavation abuts a sidewalk or public street, a substantial fence, either of posts and woven wire or posts and boards or planks, such fence to be at least four feet in height from the grade line of such sidewalk or public street and if built of planks or boards, to be constructed of planks or boards of at least one-half inch in thickness and three inches in width, to be not more than 12 inches apart, and whether built of boards, planks or woven wire, to be fastened to and supported by good and substantial posts, securely set in the ground, not more than eight feet apart.

(b) Any person who shall make or cause to be made any excavation for the purpose of improving property or for any other purpose, or who has already made such excavation for the improvement of property or for any other purpose, alongside any sidewalk or public street in the city and who permits it to remain open and unprovided

with means of protection to pedestrians, for a period of 24 hours, shall be guilty of a misdemeanor.
(Code 1982, § 20-66)

Sec. 23-126. Excavating or removing earth, similar material, from streets.

Any person who shall dig or make any excavation in any street, sidewalk, alley or other public grounds of the city, or remove any earth, brick, stone or gravel, unless permitted by the engineering division, shall be guilty of a misdemeanor.
(Code 1982, § 20-67)

Sec. 23-127. Inspection; permission to fill.

When an excavation is made in or under any street, avenue, sidewalk or alley of the city, no person shall cause or allow it to be closed until the pipe laid or repaired in such excavation has been inspected by the city engineer.
(Code 1982, § 20-69)

Sec. 23-128. Approvals for utility service; persons authorized to make street openings; repairs.

(a) The approval to construct or reconstruct any utility service in the highway or street or to request permits for same, must be approved by the engineer of public works and the contractor shall not be entitled to any utility damages either for the excavation of the street or for any delay occasioned thereby.

(b) When a person is authorized through a duly executed permit from the department having jurisdiction, the contractor shall allow parties bearing such permits, and only those parties, to make openings in the road, street, or highway. The contractor shall make in an acceptable manner all necessary repairs due to such openings and such necessary work will be paid for as provided in these specifications, and will be subject to the same conditions as original work performed.
(Code 1982, § 20-70)

Secs. 23-129—23-160. Reserved.

ARTICLE V. BUILDING NUMBERING AND STREET ADDRESSES*

Sec. 23-161. Violations; notice.

If the owner of any building required to be numbered by this article shall neglect for the period of 20 days to duly attach and maintain the proper number of such building, the city engineer shall serve upon him a notice requiring such owner to properly number the building; and if he neglects to do so for ten days after the service of such notice, he shall be deemed to have violated this article.
(Code 1982, § 14-346)

Sec. 23-162. Numbering system established.

There is established a uniform system for numbering buildings fronting on all streets, avenues and public ways in the city; and all houses and other buildings shall be numbered in accordance with the provisions of this article.
(Code 1982, § 14-347)

Sec. 23-163. Base lines; quarter sections, rectifying lines.

(a) Governor's Drive, West Clinton Avenue, East Clinton Avenue, Tollgate Road and Bankhead Parkway shall constitute the base line which will divide the city into northern and southern parts. Meridian Street, Jefferson Street, Madison Street and Whitesburg Drive shall be considered the base line which divides the city into east and west parts. The city will be divided into quarter sections: Northeast, southeast, northwest and southwest. Streets running predominantly north and south will be known as streets, and streets running predominantly east and west will be known as avenues. The suffix "northeast," "southeast," "northwest" or "southwest" will become a part of the street name.

(b) Each building north of West Clinton Avenue, East Clinton Avenue, Toll Gate Road and Bankhead Parkway, and facing a street running

*Cross reference—Buildings and building regulations, ch. 7.

in a northerly direction, shall carry a number and address indicating its location north of the base line.

(c) Each building south of the north-south base line and facing a street running in a southerly direction shall carry a number and address indicating its location south of the base line.

(d) Each building east of Meridian Street, Jefferson Street, Madison Street and Whitesburg Drive, and facing a street running in an easterly direction, shall carry a number and address indicating its location east of the base line.

(e) Each building west of Meridian Street, Jefferson Street, Madison Street and Whitesburg Drive, and facing a street running in a westerly direction, shall carry a number and address indicating its location west of the base line.

(f) All buildings on diagonal streets shall be numbered the same as buildings on northerly and southerly streets if the diagonal runs more from the north to the south, and the same rule shall apply on easterly and westerly streets if the diagonal runs more from the east to the west.

(g) To ensure uniform numbering to the outlying sections of the city, there are established what are known as rectifying lines. Rectifying lines are auxiliary base lines and correct or rectify nonconformity of block numbers causes by unequal lengths of blocks on different streets. All streets running south of Governor's Drive will commence with 2,000 block; all streets running west of Memorial Parkway will commence with 2,000 block; all streets running north of Oakwood Avenue will commence with 2,000 block; all streets running east of Andrew Jackson and California Street will commence with 1,000 block. These streets constitute the rectifying lines.
(Code 1982, § 14-348; Ord. No. 84-166, § 1, 4-12-1984)

Sec. 23-164. Numbering to begin at base line; assignment of block numbers.

(a) The numbering for each street shall begin at the base line. The numbers within the first block shall be from 1 to 100, and the numbers in each succeeding block shall increase from the base line in units of 100, namely, the first block shall be 1 to 100; the second block shall be 200 to 299; the third block, 300 to 399, etc. There shall be assigned 100 numbers to each block, square or space that would be one block or square if streets each way were so extended as to intersect each other, and one number shall be assigned to each 15 feet of frontage. In blocks or equivalent space longer than 750 feet which is not intersected by a street, if extended the total length of space divided by 50 shall be used to determine the feet of frontage assigned to each number.

(b) Where blocks of different lengths occur on opposite sides of a street, the numbers on both sides shall be assigned on the basis of the shorter blocks unless the city engineer determines otherwise.

(c) All lots and houses on the right side proceeding from the base line shall be even numbers; all lots and houses on the left side proceeding from the base line shall be odd numbers, each commencing with the hundred assigned to that block, and shall increase from the base line number for each 15 feet of frontage, except as provided in this section. Where any building has more than one door serving separate occupants, a separate number shall be assigned to each door serving a separate occupant, providing the building is 15 feet or more in width. If the building is not 15 feet or more in width and the entrances are not that far apart, the next consecutive number shall be marked fractional. Buildings fronting on two or more streets shall have a number assigned only to the main entrance unless other entrances serve different occupants.

(d) A multiple-family dwelling having only one main entrance shall be assigned only one number; and separate apartments in the building will carry a letter designation such as "A," "B" and "C" in addition to the number assigned to the main entrance.

(e) All buildings facing streets not extending through to base line shall be assigned the same relative number as if the street had extended to the base line.
(Code 1982, § 14-349)

Sec. 23-165. Building numbers to be assigned; specifications; cost; posting.

(a) There shall be assigned to each house and building located on any street, avenue, alley or highway in the city its respective number under the uniform system provided for in this article. When each house and building has been assigned its respective number, the owner shall place or cause to be placed upon each house or building and/or both sides of a curb-mounted mailbox controlled by him the number assigned under the uniform system provided for in this article.

(b) Such numbers shall be placed or if missing, replaced, within 20 days after the assigning of the proper number. The cost of the numbers shall be paid for by the property owner.

(c) The standard minimum height of numbers for all houses and buildings is three inches. Single-family and duplex dwellings built and approved for occupancy before May 1, 1984, may continue to use numbers 2½ inches in height.

(d) The numbers shall be conspicuously placed so that they can be seen plainly and be read from the street. Further:

(1) With single-family duplex dwellings, the numbers shall be placed immediately above, on or at the side of the door or alongside the pathway to the door, and/or both sides of a curb-mounted mailbox.

(2) With multiple-family dwellings, the numbers shall be placed on the building face most visible from the parking area or street.

(3) With commercial buildings whose public entrance is visible from the street, the numbers shall be placed above, on or at the side of the door of each individual business. If no public entrance is visible from the street, the building will be numbered on the side most visible from the street.

(4) Whenever any building is situated more than 50 feet from the sidewalk line, the number of such building shall be conspicuously displayed on the owner's property at the sidewalk line, near the walk, driveway or common entrance to such building and upon the gatepost, fence, post, both sides of a curb-mounted mailbox, or other appropriate place so as to be easily describable from the sidewalk or street.

(e) All numbers shall be of a durable material with numbers in contrast to background color.
(Code 1982, § 14-350; Ord. No. 84-166, § 2, 4-12-1984)

Sec. 23-166. New buildings.

Whenever any house, building or structure shall be erected or located in the city after the establishment of this uniform system of house and building numbering, in order to preserve the continuity and uniformity of numbers of the houses, buildings and structures, it shall be the duty of the owner or builder to get the proper number assigned by the city engineer. Once the number has been assigned, it is the responsibility of the owner or builder to procure the correct number, of a three-inch minimum size, and to immediately fasten the number so assigned upon the building as provided by this article. No building permit shall be issued for any house, building or structure until the owner has been assigned an official number by the city engineer for the premises. Final approval of any structure erected, repaired, altered or modified after May 1, 1984, shall be withheld by the manager of inspection until permanent and proper numbers have been affixed to the structure.
(Code 1982, § 14-351; Ord. No. 84-166, § 3, 4-12-1984)

Sec. 23-167. Numbers not to be transferred.

Numbers shall not be moved from one house to another and shall remain on the structure or location to which assigned unless changed by authority of the city engineer.
(Code 1982, § 14-352)

Sec. 23-168. Duty of city engineer.

It shall be the duty of the city engineer to inform any party applying of the number belonging to or embraced within the limits of any lot or property as provided in this article. In case of

conflict as to the proper number to be assigned to any building, the city engineer shall determine the number of such building.
(Code 1982, § 14-353)

Sec. 23-169. Private streets, drives, other ways.

The provisions of this article shall apply to private streets and drives, and other private ways providing access to more than one dwelling unit; however, street name signs of a distinctively different design or color, as determined by the city engineer, shall be posted or arrangements for posting satisfactory to the city engineer shall be made before assignment of any numbers are made; further, all traffic control signs and traffic markings located on private streets, drives or other private ways must be installed and maintained by the private developers or owners having access rights over such ways. All traffic control signs, markings and other devices installed at the intersection of a private street, drive or other private way shall meet the same standards applicable to public ways and shall be installed and maintained at the expense of the private developer or owners having access rights.
(Ord. No. 83-550, § 14-354, 12-8-1983)

Secs. 23-170—23-200. Reserved.

ARTICLE VI. ORGANIZED EVENTS*

DIVISION 1. GENERALLY

Sec. 23-201. Purpose; definitions.

(a) *Purpose*. In order to preserve and protect the rights guaranteed under the First Amendment of the United States and Alabama Constitutions and to provide for the safe and orderly use of public property, for both First Amendment activity and activity that is not protected by the First Amendment, this article is intended to establish reasonable time, place, and manner regulations for the use of public property characterized as traditional public forums. The regulations are designed to be content-neutral, narrowly tailored to serve significant governmental interests, and to leave open ample alternative channels for communications of information. The regulations are also intended to coordinate multiple uses of limited space; assure preservation of public facilities and improvements; prevent dangerous, unlawful, or impermissible uses of public property; protect the public safety; ensure that city resources are deployed efficiently and effectively; provide for fees and cost recovery; address secondary harms; and authorize and establish objective standards in the administration of this article.

(b) *Definitions*. The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Assembly means a gathering of individuals organized by an event organizer for a common purpose, which is intended to remain in the same general location.

Basic event means an organized event which:

(1) Does not require or include for the conduct of the event the use of an enhancement;

(2) Does not require approval, licensing, or permitting pursuant to other city laws, including the city's alcoholic beverage laws, technical and fire codes, and business license code, and laws administered by the health department;

(3) Does not require city event services in excess of the standard complement; and

(4) Is not expected to have more than 500 participants at any one time during the event.

Business day means a day on which the city administrative offices are open for regularly conducted business and does not include Saturdays, Sundays, official city holidays, or a day on which weather or other conditions have made the city's administrative offices inaccessible.

*__Editor's note__—Ord. No. 13-189, § 1, adopted May 9, 2013, amended Art. VI in its entirety to read as herein set out. Former Art. VI, §§ 23-201—23-241, pertained to special events, and derived from Ord. No. 97-611, § 1, 10-23-1997.

Capacity limit means the capacity limit for the public space upon which an assembly is to be conducted, as follows:

(1) The stated capacity of a given public space established by policy or practice;

(2) If there is no stated capacity, then the capacity of the public space based on a formula of nine square feet per participant, which is arrived at by taking the square footage of the public area generally available for occupancy by participants and dividing the number by nine; or

(3) An adjusted increase or decrease in the capacity limit established by the event administrator at the time of permitting or during the event conduct, should the administrator determine that such adjustment is warranted taking into account the public safety and event conduct.

Clear zone means the areas described in chapter 25, article IX of this Code that are to remain unobstructed, which, in the case of an organized event means unobstructed by objects or an assembly of participants.

City event services are city services provided or required by the event administrator as a result of event conduct.

City event services standard complement or *standard complement* means those city event services normally available to be assigned or provided to an organized event by the event administrator in accordance with standard policy or procedure.

City services mean generally available services of the city, including labor and materials, which are provided by the city for an organized event, including public safety services such as safety, traffic and crowd control, public works services, and the use of public structures, instrumentalities, or equipment. The term does not include services provided under a contract with the city or an employee of the city on an extra-duty or off-duty status, including traffic control or security.

Conditional application means an application for a special event permit that is complete in all respects except for required approval, licensing, or permitting pursuant to other city laws or laws administered by the health department, or except for required leasing of the public space.

Enhancements include facilities, structures, equipment, instrumentalities, or animals used in the conduct of an event that require permitting under the city's technical or fire codes or are reasonably likely to create a secondary harm, such as stages, fencing, generators, barricades, pyrotechnics, inflatables, motorized vehicles, utility poles, floats, booths, canopies, and tents. The term does not include small objects that can be accommodated within the public space used for the event without implicating the foregoing requirement or concern, such as coolers, signage, folding chairs or tables, small tents or canopies, accommodation for the handicap, or small portable equipment that does not require electricity.

Enhanced event means an organized event which:

(1) Requires or includes the use of an enhancement;

(2) Requires approval, licensing, or permitting pursuant to other city laws, including the city's alcoholic beverage laws, technical and fire codes, and business license code, and laws administered by the health department;

(3) Requires city event services in excess of the standard complement; or

(4) Is expected to have more than 500 participants at any one time during the event.

Event administrator means the chief of police, or his designee.

Event conduct or *conduct of the event* means the time, place, or manner in which an event is conducted by or for participants, including event set-up and take-down, and which has nothing to do with the content of protected forms of speech, or the conduct of non-participants including counter-protesters or hecklers.

Event organizer or *organizer* means a person organizing, sponsoring, initiating, coordinating, promoting, or holding an organized event. The term does not include a person who provides only

incidental funds or support for an organized event and who does not otherwise have responsibility for the event.

Extended event means an organized event that occurs, with or without interruption, for more than 20 dates over a consecutive six-month period. An extended event shall be deemed to include the same organized event or an event organized by the same event organizer.

For-profit event means an organized event which is primarily intended as a profit-making or revenue raising enterprise for any person that is not a non-profit organization. The term also means an organized event that is conducted primarily for the sale, demonstration, advertisement, or promotion of products, goods, or services.

Include or *including* does not limit a term to a specified example.

Major arterial means a street or highway of great continuity designed to accommodate the highest traffic volumes and longest trip desires. Major arterials are defined and designated in the city's major street plan.

Minor event means an organized event which:

(1) Will be conducted at a time and place and in a manner that complies with applicable laws, including section 23-232 of this article;

(2) Does not require or include for the conduct of the event the use of an enhancement;

(3) Does not require approval, licensing, or permitting pursuant to other city laws, including the city's alcoholic beverage laws, technical and fire codes, and business license code, and laws administered by the health department;

(4) Does not require city event services including the standard complement;

(5) In the case of an organized event conducted on a street, does not have more than 25 vehicles at any one time during the conduct of the event;

(6) In the case of an organized event conducted in a park, does not have more than 300 participants at any one time during the conduct of the event, subject to applicable capacity limits for the public space;

(7) In the case of an organized event conducted on a sidewalk, does not have participants at any one time during the conduct of the event whose number exceeds 50 participants in the case of an assembly and 100 participants in the case of a procession, subject to applicable capacity limits for the public space;

(8) Is not a sound event; and

(9) Is not a for-profit event.

Notice means the sending of any notice or notification required under this article to the appropriate address, by personal delivery, facsimile, electronic mail, first class mail, or certified mail return receipt requested; and the receipt thereof within the time specified in this article, which receipt shall be deemed to occur as follows: upon delivery in the case of personal delivery, upon confirmation of delivery in the case of facsimile and electronic mail, three days after mailing in the case of first class mail, and as indicated in the return receipt in the case of certified mail.

Organized event means an assembly or procession, or a combination thereof.

Park means public park grounds under the control of the city and shall include the sidewalks within but not immediately adjacent to the park, unless expressly permitted otherwise.

Park amenities mean features of a park such as picnic tables, small shelters, and gazebos, which are generally available for public use in accordance with park regulations on a first-come-first-serve basis with or without the need for a reservation or a permit.

Park facilities mean those park grounds or those buildings, structures, facilities, or improvements within a park, which are dedicated, designed, or intended for specific uses, including recreation centers, senior citizen centers, park buildings, nature preserves, nature centers, sports facilities, model airplane fields, tot lots, lakes, and picnic shelters.

Park regulations mean city laws or stated departmental policy or practice of general application, which govern the use of or conduct within parks.

Participants mean only those persons actually taking part in the event, including those organizing the event, those invited to attend, those paying to attend, or those for whom the event is organized including the general public.

Procession means a gathering of individuals organized by an event organizer for a common purpose, which is not intended to remain in the same general location, but to proceed along a route without unreasonable delay.

Prior use means a use of public property which takes precedence over a proposed organized event because the prior use is:

(1) Another organized event that is first in time;

(2) The subject of an already-pending or executed lease or license; or

(3) A scheduled state or city project, activity, or event.

Public facilities mean those municipal buildings, structures, facilities, or improvements dedicated, designed, or intended for specific uses which are not considered to be traditional public forums, including civic centers, sports facilities, park facilities, cemeteries, public garages, parking lots, museums, or other such municipal buildings, structures, facilities, or improvements.

Public place, public space, or *public area* means public property of the city that is generally available for organized events including public streets, sidewalks, and parks.

Public safety means the health, security, and safety of the public, including the general public, event participants, and public employees.

Restoration reimbursement costs mean those losses, damages, costs, or expenses that are incurred or suffered by the city as a result of event conduct for which the city is due to be reimbursed or compensated. In no event shall "restoration reimbursement costs" mean or refer to those losses, damages, costs, or expenses that are incurred or suffered by the city as a result of the conduct of nonparticipants.

Secondary harm refers to the danger, damage, injury, or unreasonable inconvenience, interference, demand, or annoyance, to or on adjacent or nearby uses, the general public, public property, the use of public space, other organized events, city resources, or public safety, resulting or likely to result from event conduct.

Sidewalk means that portion of a public right-of-way under the control of the city that is generally between the curb line or lateral line of the street and the adjacent property line, or public easements located on private property, which portion is dedicated or intended for use by pedestrians.

Sound event means an organized event the event conduct of which would violate the city's noise ordinance found in chapter 12, article V of this Code.

Special event means an organized event that is required to obtain a permit under this article.

Special event permit or *event permit* means a permit issued pursuant to this article.

Sports facilities mean public property designed, used, or maintained primarily for the purpose of athletic events, competitions, or exhibitions, including ball fields, skateboard parks, equestrian facilities, ice skating rinks, concession stands, swimming pools and pool houses, bocci courts, hockey courts, volleyball courts, tennis courts, basketball courts, and multi-purpose courts.

Street means any public road, thoroughfare, avenue, boulevard, parkway, drive, or other public way dedicated or used primarily for purposes of vehicular traffic that is under the control of the city.

(Ord. No. 13-189, § 1, 5-9-2013; Ord. No. 21-449, § 1, 5-27-2021)

Sec. 23-202. Property and activities not covered.

(a) *Property not covered.*

(1) Unless the organized event requires for its successful execution the provision of

city event services in accordance with subsection (d) of this section, this article is not intended to regulate organized events that are not conducted on public property or property which is not otherwise under the control or jurisdiction of the city, including the following:

a. Private property;

b. Property which is under the control or jurisdiction of the federal government or any agency or instrumentality of the federal government;

c. Property which is under the control or jurisdiction of the state or any agency or instrumentality of the state unless the state has specifically authorized the city to control the use of such property for organized events; or

d. Property which is under the control or jurisdiction of municipal boards or agencies.

(2) *Public facilities*. Unless the organized event requires for its successful execution the provision of city event services in accordance with subsection (d) of this section, this article is not intended to regulate organized events which are conducted upon or within public facilities; provided, however, such facilities may be designated by city policy as available for organized events regulated pursuant to this article, but only to the extent such designation does not interfere with the dedicated, designed, or intended use of such facilities, or is not contrary to any applicable limitations on the property. Nothing in this subsection (a) shall be construed to prevent the city from charging rent or a use fee for the use of public facilities, including those facilities made available for organized events regulated by this article.

(b) *Activities not covered*.

(1) This article shall not apply to funeral processions, programmed activities provided or managed by the city such as recreational programs, military or other official convoys or motorcades, or other activities upon public property which are regulated or permitted by other provisions of this Code.

(2) This article is not intended to regulate or allow the use of public property solely for the conduct of a commercial enterprise including the sale, demonstration, advertisement, or promotion of products, goods, or services. Such uses of public property shall be regulated by applicable laws including zoning and franchising laws and laws governing sales in the central city area. Notwithstanding the immediately foregoing provision, sponsor events in the central city area, which involve multiple vendors of permitted activities, which activities are those set forth in section 18-36(e) of this Code, operating under a sponsor shall be governed by this article.

(c) Exclusion from the terms of this article pursuant to this section does not relieve the person responsible for an event from the responsibility of obtaining permission or authorization from the appropriate person for the use of property or conduct of activities that are not covered by this article.

(d) *City event services*. Where an organized event otherwise excluded from the requirements of this article in accordance with subsection (a) of this section requires for its successful execution the provision of city event services, the event organizer must make application for a special event permit in accordance with this article. The event organizer may be required to pay for the city event services costs, including the standard complement, provided for the event. (Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-203. General conditions.

(a) *Organized events*. All organized events, including special events, regulated by this article shall be subject to the following conditions:

(1) Organized events shall be conducted in a safe and sanitary manner.

(2) Immediately following the termination of an organized event, the event organizer

shall be responsible for restoring the public area used for the event and public property damaged by the event to its condition prior to the commencement of the event, or where public property is damaged beyond repair replacing it; where such restoration or replacement is necessitated by event conduct.

(3) At any time prior to or during the event, the event administrator shall have the authority to condition, limit, or prohibit an organized event in the construction or use of enhancements in order to address a secondary harm.

(4) Participants in an organized event shall comply with this article and conditions imposed pursuant to this article, and shall otherwise comply with applicable law.

(5) The issuance of a special event permit or the right to use public space for an organized event pursuant to this article shall not entitle the participants to use public property not regulated by this article, including public facilities.

(6) The use of the parks for an organized event shall be subject to applicable park regulations, unless specifically waived in the special event permit, including regulations concerning park closure, use of park amenities and charges for their use, and conduct in the park.

(7) The conduct of an event, including that of its participants, shall not prevent access to uses adjacent to the site of the event, including public facilities, unless permission has first been obtained from the owner or person in control thereof.

(8) An organized event shall not protest or picket before the residence or dwelling of any individual who is the target of the protest or picket.

(9) Organized events shall be conducted during daylight hours, except in areas possessing sufficient artificial light which provides enough illumination throughout the event area to protect public safety.

(10) Event conduct, including that of its participants, shall not obstruct or impede vehicular access to and from properties adjacent to the event, unless the event administrator determines that to do so would not be likely to cause a hazard to public safety, an unreasonable inconvenience to the traveling public, or an unreasonable hardship to adjacent uses.

(11) Event conduct, including that of its participants, shall not assemble or place an object in the clear zone, unless specifically relieved of this condition by the event administrator in the event permit.

(12) No organized event shall be conducted upon a major arterial unless a special event permit has been issued allowing the event to be conducted on the major arterial because the magnitude of the event requires it and such an event cannot reasonably be accommodated elsewhere. This subsection (12) shall not apply to an organized event that is a procession that merely crosses a major arterial and that is not otherwise prohibited according to the terms of this article.

(13) Handicap access installed on the public space shall be preserved or an acceptable alternative provided.

(14) In the case of a procession, the event shall move from its point of origin to the point of termination without unreasonable delays en route.

(15) Event participants shall not wear gas masks or use other devices that are designed, used, or intended to be used to interfere with the ability of the police to control or manage crowds.

(16) The number of participants in an organized event shall not exceed applicable capacity limits for the public space and shall not exceed the number of participants established for the type of event being conducted.

(17) Participants of an organized event shall not encamp on public space.

(18) An organized event shall be subject to the city's alcoholic beverage regulations found in chapter 3 of this Code.

(19) Where there is more than one organized event conducted upon a sidewalk in the same general area, the events shall be conducted generally at least ten feet apart, unless the special event permit allows otherwise.

(b) *Special events*. In addition to the conditions of subsection (a), special events regulated by this article shall be subject to the following conditions:

(1) A special event shall be conducted within the area or route designated in the permit for the event during the conduct of the event.

(2) At least one organizer of the special event shall carry the special event permit upon their person during the conduct of the event.

(c) *Additional conditions*. The event administrator may establish such other reasonable conditions in the conduct of an organized event at the time of permitting or during the conduct of an event which the administrator considers to be reasonably necessary in order to carry out the provisions of this article, consistent with its stated purpose, including addressing secondary harms. A violation of such conditions shall constitute a violation of this article.
(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-204. Public conduct.

(a) No person, including participants in another organized event, shall unreasonably hamper, obstruct, impede, or interfere with an organized event or with any person, vehicle, or animal participating or used in the event.

(b) No driver of a vehicle shall drive between the event's units, participants, or vehicles that are in motion and conspicuously designated as being a part of the event, unless otherwise directed to do so by law enforcement personnel.

(c) The chief of police shall have the authority, when reasonably necessary, to prohibit or restrict the parking of vehicles along a street constituting a part of the route or location of an organized event. When necessary, the chief of police shall see that signs are posted to such effect, and it shall be unlawful for any person to park or leave unattended any vehicle in violation of such signs.
(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-205. Revocation or termination of an event; opportunity to cure.

(a) *Revocation; termination during event*. An organized event may be terminated or special event permit revoked on the day of the event without prior written notice and without a hearing, if the mayor, the chief of police, the fire chief, or the event administrator determines that:

(1) Revocation or termination is in the interest of the immediate public safety because of fire, casualty, act of nature, or a public emergency;

(2) The conduct of the event violates applicable law, including provisions of this article or permit conditions, which has resulted in a secondary harm; or

(3) A breach of the peace is occurring or an activity in the nature of a riot has occurred.

(b) *Cure*. Before revoking an event permit or terminating an organized event under subsection (a)(2) of this section, the event administrator shall, if the administrator believes it reasonable to do so without comprising public safety or public property, endeavor to allow event conduct to be modified in order to cure the violation and address the secondary harm, to the administrator's satisfaction; provided, however, if city event services are required to protect public safety or public property and such services are not available, then the event permit shall be revoked or the event terminated. Where the violation includes a failure to obtain permitting in accordance with this article, the event administrator may immediately issue a permit, provided that the secondary harm caused by event conduct has been addressed to the satisfaction of the event administrator. Nothing in this subsection (b) shall be construed to prevent the enforcement, by arrest or citation, of applicable laws.

(c) *Requirements upon termination or revocation*. Upon receipt of the notification that the permit to use the public area has been revoked or the organized event terminated pursuant to this section, the event participants shall cease the event and may be directed to either disperse immediately or to commence with restoring the site to its condition prior to the event in accordance with section 23-203(a)(2) of this article.

(d) *Revocation prior to event*. The event administrator shall have the authority to revoke a special event permit issued for the use of public space any time before the time the event is scheduled to commence if he determines that, due to new information or a change in circumstances, grounds to deny the application exist, in which case the event organizer may appeal the revocation in accordance with the procedures of section 23-238 of this article; provided, however, no appeal shall be available where the revocation of the event permit is done in the interest of the public safety because of fire, casualty, act of nature, or a public emergency.
(Ord. No. 13-189, § 1, 5-9-2013)

Secs. 23-206—23-230. Reserved.

DIVISION 2. PERMIT REQUIREMENTS

Sec. 23-231. Requirement; event cancellation; lease events; sound events; extended events.

(a) *Permit requirement*. Except for minor events, all organized events conducted on a public area shall be required to obtain a special event permit. No person shall knowingly participate in a special event for which an event permit is required under this article unless an event permit has been issued for the event.

(b) *Event cancellation or delay*. In order to prevent the unnecessary tying up of public space or city event services for a special event that does not occur as scheduled, each of the following shall apply:

(1) *Cancellation or delay of basic events and enhanced events*.

a. *Basic events*. The organizer of a permitted special event that is a basic event shall provide to the event administrator: (i) at least 24 hours' advance notice of a delay of more than one hour in the start time of the event on any given day of the event, and (ii) at least 48 hours' advance notice of a cancellation of the event, which, in the case of a multiple day event, means 48 hours' notice in advance of the day on which the event will not occur, if the event is not entirely cancelled.

b. *Enhanced events*. The organizer of a permitted special event that is an enhanced event shall provide to the event administrator: (i) at least 48 hours of a delay of more than one hour in the start time of the event on any given day of the event, and (ii) at least five business days advance notice of a cancellation of the event, which, in the case of a multiple day event, means five business days notice in advance of the day on which the event will not occur, if the event is not entirely cancelled.

c. *Event canceled*. Unless the organizer has provided the required advance notice in accordance with the immediately foregoing subsections (1)a. and b., where no participants have arrived or event set-up started at the location or starting point of a basic event or enhanced event within two hours after its scheduled starting time for any given day of the event, the event shall be deemed to have been canceled and the permit surrendered for the remainder of the event. In the case of multiple day events whose permit has been deemed surrendered, the event administrator may, upon the request of the event organizer, reinstate the permit provided that the request is made at least 20 hours before the next scheduled start time for the event and further provided that the required city event services, if any, and the public space are available.

d. *Permit denial*. Failure of the same event or event organizer to provide the required advance notice of cancellation of an event three or more times within the same calendar year shall constitute grounds for denying a subsequent event permit application made during the same year for the same event organizer or same event.

e. *Reimbursement for services*. Where city event services have been assigned to a special event that has been canceled by the organizer without the required advance notice, the organizer shall reimburse the city upon invoicing for costs incurred, if any, for city event services in excess of the standard complement.

f. *Weather events, etc*. Notwithstanding anything to the contrary contained in this subsection (1), where the delay or cancellation of an event is necessary because of a potentially hazardous weather event or other situation beyond the organizer's control that is likely to pose a risk to public safety, then the organizer shall be required to provide notice of the delay or cancellation of the event as soon as reasonably practicable under the circumstances.

g. *Delayed events*. Events that are delayed in starting on a given day shall still end at the time stated in the permit, unless the event administrator reasonably determines that the event can end later to make up for the delay in the start time.

(2) *Cancellation of permitted minor events*. With regard to a minor event that has obtained a permit, where no participants have arrived or event set-up started at the location or starting point of the event within two hours after its scheduled starting time, the permit shall be deemed to have been surrendered for that day. The minor event may still be conducted on that day, but the event will have lost its prior use status under the permit for that day.

(c) *Lease events*.

(1) As a condition of event permitting, organizers for alcoholic beverage licensed events or for-profit events may be required to obtain a lease or license from the city for the use of the public space.

(2) In addition, the city may require a lease or license for:

a. Those organized events which involve the use of enhancements that pose an enhanced risk to public safety or damage to public property, including events that involve dangerous instrumentalities such as pyrotechnics;

b. Organized events that are anticipated to have in excess of 10,000 participants over the duration of the event; or

c. Multiple-day events that will not remove from the public area the event facilities or equipment.

(3) An event organizer that desires to have exclusive control or possession of public space upon which the event will be held may request a lease or license from the city, which the city is not obligated to grant.

(4) A lease or license event shall be subject to the provisions of this article including applicable permitting and, in addition, the city may impose additional requirements in the lease or license including insurance, the posting of security, and indemnification requirements.

(5) Leases or licenses for for-profit events may include use fees to be paid to the city by the event organizer for the use of the public space based on either a flat fee or percentage of gross event proceeds.

(6) Notwithstanding anything to the contrary contained in this article, leases or licenses for for-profit events or alcoholic

beverage licensed events may include provisions for cost recovery to be paid to the city for city event services.

(7) The issuance of a lease or license shall not convert the space from a traditional public forum.

(d) *Sound events*.

(1) Sound events are subject to the approval of the city's department of natural resources and event organizers shall be required to complete an application on forms provided by the city. The application will be processed by the department of natural resources in conjunction with the processing of the special permit application by the event administrator.

(2) In approving sound events the department of natural resources may consider, among other relevant considerations, the proposed time, location, and duration of the event; secondary harms; whether there is a more suitable alternative location or time for the event; the affect the sound levels would have on the ability of the city to conduct crowd control; the likely hardship on the successful conduct of the event if the sound event is not approved; the history of citizens' noise complaints for the same or substantially similar events or locations; and the decibel level likely to be generated by the event.

(3) In approving a sound event the department of natural resources may attach reasonable conditions which address the impact of the sound event, such as limiting the duration or time of the event, moving the event to a more suitable location or time, setting acceptable decibel levels for the event, and dictating the positioning and direction of the amplification equipment.

(e) *Private events*.

(1) For purposes of this subsection (e), the term *private event* means an organized event which is intended to be limited to an invited or select group of individuals including:

a. Parties, reunions, ceremonies, fundraisers, and other social gatherings where guests are there by invitation only;

b. Gatherings of friends or family;

c. Gatherings of members or guests of an organization;

d. Gatherings for religious observances;

e. Location shoots or tapings of films, photographs, commercials, or other similar audio or videotaped events;

f. Events requiring paid admission or tickets; or

g. Events involving an official who has a security detail that requires the event to be private in order to assure security.

(2) Nothing in this article shall be construed to prevent private events from limiting access or admission to the event to those for whom the private event is organized.

(3) The status of an organized event as a private event under this subsection (e) shall not convert the public space into a private premises for purposes of the city's prohibition against drinking in a public place found in chapter 3 of this Code.

(f) *Extended events*. Where an extended event is using the same or substantially similar public space that is a preferred location for another organized event and multiple events cannot reasonably be accommodated, the event administrator may apportion the time or public space between or among the organized events on an equitable basis, provided reasonable accommodation is made for the other event in reasonably close proximity to the preferred location.
(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-232. Minor events.

(a) *Permitting not required for minor events*. Subject to the provisions of this section, for public spaces regulated by this article, minor events

shall not be required to obtain a special event permit; provided, however, the event organizer may elect to obtain permitting in accordance with this article upon following the application procedures for a special event permit and the event shall, upon the issuance of an event permit, be considered to be a special event.

(b) *Conditions for minor events*.

(1) In the conduct of minor events, the event shall be subject to applicable provisions of this article that apply to organized events including section 23-203, general conditions, and section 23-205, revocation or termination of an event.

(2) The use of public space by a minor event shall:

a. Be on a first-come-first-serve basis and shall be subordinate to prior uses of the same or a substantially similar public space and multiple uses cannot reasonably be accommodated; and

b. Not be conducted upon or in unreasonably close proximity to public property which is unavailable due to fire, casualty, acts of nature, scheduled construction or maintenance, or public emergency.

(3) In the case of minor events conducted on the sidewalk, as required of all organized event conducted on a sidewalk, minor events on a sidewalk shall be conducted generally at least ten feet apart from other organized events; provided, however, this separation requirement shall not prevent participants of other organized events when not actually participating in their own event from simply walking along that portion of the sidewalk left unencumbered by the minor sidewalk event.

(4) Participants in a minor event conducted on the streets or sidewalks shall proceed in an orderly fashion, observe all traffic signals when crossing a street, and otherwise obey the rules of the road, including, where applicable, Code of Ala. 1975, section 32-5A-215.

(5) Minor events conducted on the streets shall not have more than 25 vehicles at any one time during the conduct of the event.

(6) For minor events on the sidewalk, such events shall be conducted in a manner that does not substantially inhibit the flow of pedestrian traffic upon the sidewalks.

(7) Participants in a minor event shall use only the amount of public space reasonably necessary for the conduct of the event so that other minor events that want to hold an event in the same general area can be accommodated. The event administrator may require a reasonable adjustment in event conduct to accommodate multiple uses, including other organized events, of the public space.

(8) Signage accessory to the event is allowed; provided, however, such signage shall not be affixed to or installed on public property, shall not be within the clear zone, and shall not be constructed or used so as to endanger public safety or interfere with others in their use of public property.

(9) Minor events shall be conducted in a manner that is consistent with the dedicated or intended use the public space occupied by the event and in a manner which does not interfere with or detract from the use of the public space by other persons or organized events, or pose an unreasonable risk to the public safety.

(c) If the conduct of an organized event that does not require permitting under this section creates a secondary harm or violates a condition applicable to a minor event, the event administrator shall have the right to require the elimination or modification of the condition creating the harm or the violation, or to otherwise proceed in accordance with section 23-205.
(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-233. Application.

(a) *Application*. A person seeking issuance of a special event permit shall file an application during regular business hours with the event administrator on forms provided by the city.

(b) *Application timing*.

(1) *Application deadlines*. Subject to subsection (b)(4) concerning extended events, in order to facilitate advance planning for a special event, organizers may submit completed or conditional applications for a special event permit starting one year prior to the date of the event. In order to ensure that applications for a special event can be processed prior to the special event, the following event permit application deadlines for completed applications shall apply:

a. In the case of a minor event that is not required to be permitted but where the event organizer wants to obtain an event permit, the application deadline is no later than ten days before the date of the proposed event.

b. In the case of basic events, the application deadline is no later than 20 days before the date of the proposed event.

c. In the case of enhanced events or lease events, the application deadline is no later than 30 days before the date of the proposed event.

(2) *Late applications*. Late applications received after the application deadlines noted above shall be accepted and processed by the event administrator prior to the date of the event if reasonably practicable under the circumstances given the proposed conduct of the event.

(3) *Conditional applications*. Conditional applications may be submitted in order to meet the application deadline, subject to the obtaining of the required approval, license, permit, or lease at least five business days prior to the start date of the event.

(4) *Extended events*. A completed or conditional application for an extended event may be submitted no earlier than 180 days prior to the first day of the event. Where multiple applications have been submitted for an extended event, the applications shall be treated as one application.

(c) *Applications processed in order of receipt*. Completed or conditional applications will be processed in order of receipt. An application shall not be considered complete until all required information is provided. Where the event administrator cannot reasonably determine order of receipt, the administrator may conduct a random drawing to determine priority of use.

(d) *Application information*. The application for a special event permit shall include information consistent with the purpose of this article and in sufficient detail to allow for its administration, including, where appropriate, the following:

(1) The name and contact information of the event organizer and the person who will be in charge of the conduct of the event;

(2) If the special event is proposed to be conducted on behalf of an organization, a letter from that organization shall be required authorizing the event to be conducted on its behalf;

(3) A detailed description of the event;

(4) Logistical requirements of and specific plans for the event;

(5) Information demonstrating compliance with requirements or conditions for permit issuance;

(6) The expected source of event proceeds, including cash receipts, licensing, sponsorships, television, advertising, and other revenues or concessions, and the expected disbursement of those proceeds;

(7) A notarized statement that indicates permission has been obtained for the event's use of private property or property under the control or jurisdiction of any board, agency, or other governmental entity;

(8) A statement of any special circumstances which are material to the permit requested; and

(9) Such other relevant information as the event administrator may reasonably require in the administration of this article.

(e) *Report*. Within four weeks after the conclusion of the event, the event organizer shall provide an itemized report containing receipts and disbursements from the event, which report is subject to verification for accuracy by the city upon written request within 60 days after receipt of the report.
(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-234. Insurance and indemnification.

(a) *Insurance*. In the case of enhanced events which are not required to obtain a lease but which the event administrator determines are reasonably likely to pose a risk to persons or property because of the conduct of the event, the event administrator may require the organizer, as a condition to permitting, to provide, at the time of the filing of a permit application, proof of bodily injury and property damage liability insurance written on an occurrence basis and naming the city, its officials, officers, employees, agents, contractors, and volunteers performing authorized city functions, as additional insureds, and covering the entire public area of the event for the duration of the event in a minimum amount of $100,000.00 for the injury to or death of any one individual and $300,000.00 for the injury to or death of any number of individuals in one occurrence, and property damage liability insurance in the amount of $100,000.00. Such policy shall insure both the city and the organizer but shall be so endorsed as to create the same liability on the part of the insurer as though a separate policy had been written for the city and the organizer. Such policy shall be issued by a company authorized to engage in the insurance business in the state and maintaining a Best rating of not less than "A."

(b) *Indemnification*. The organizer of a special event shall, at the time of making application for a special event permit and on forms provided by the city, agree to indemnify and hold harmless the city, its officials, officers, employees, agents, contractors, and volunteers performing authorized city functions, from and against any and all claims, costs, losses, expenses through appeal (including reasonable attorneys' fees, and costs or expenses incidental to the investigation of claims and lawsuits), demands, payments, suits, actions, recoveries, penalties, fines, liabilities, and judgments, of any nature and description, resulting from or arising out of the acts or omissions of the event organizer, its officers, servants, agents, contractors, or employees, or event participants, in connection with the conduct of the event.
(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-235. Services criteria, fees, and costs.

(a) *Park fees*. An event organizer shall pay at the time of the filing of an application for a special event permit any fees required for the use of any park amenities in accordance with the schedule of fees established by the city's recreation and landscape management department.

(b) *City event services costs*.

(1) *City event services criteria*. City event services, including the standard complement, will be assigned to or required for an organized event based on pre-established objective criteria related to event conduct that the event administrator determines as being reasonably necessary in order to address secondary harms and accommodate the logistical requirements of and specific plans for the event conduct. Organizers of special events shall work in good faith with the event administrator to try and achieve the least expensive alternative available consistent with the purpose of the proposed special event.

(2) *Exclusion from provisioning of city services.* The city shall not provide as a part of the provisioning of city event services for an organized event under this article services for over-night security of an event site, gate security, security for monies or valuables, carting or hauling of waste, and other services which are typically available on a private contractual basis. This subsection (b)(2) shall not be con-

strued to prevent an event organizer from hiring city personnel on an off-duty or extra duty basis to provide such services.

(3) *Provisioning of city event services subject to availability*. Notwithstanding anything in this article to the contrary, the provisioning of city event services, including the standard complement, shall be subject to the availability of such services for an event, including unavailability due to prior assignment, public emergency, equipment damage or repair, or scheduled maintenance. Where city event services, including the standard complement, are necessary for the conduct of the event but are unavailable, then the organizer of the special event may elect to modify the conduct of the event to eliminate the need for city event services, cancel the event, provide its own services subject to the approval of the police chief for public safety services, or reschedule the event to a time when city event services are available.

(4) *Reimbursement for city event services*. Subject to section 23-231(c)(6):

a. *Standard complement for special events*. The city event services standard complement shall, subject to availability and as needed, be provided by the city without charge for special events, except for for-profit events.

b. *City event services in excess of standard complement for enhanced events*. Subject to the following subsection c., an organizer of an enhanced event shall be required to reimburse the city for the actual costs for city event services that are incurred by or on behalf of the city that are in excess of the standard complement. Prior to the commencement of the event, the event administrator will provide the organizer with an estimate of such costs; however, the city will not be bound by the estimate should it differ from the actual costs incurred by the city. In no case shall an event organizer be required to reimburse the city for the costs associated with providing city services based on the actual or anticipated conduct of non-participants.

c. *Early application for enhanced events*. Except for for-profit events, an organizer of an enhanced event will not be required to reimburse the city for city event services in excess of the standard complement if the organizer has filed a completed or conditional application at least 120 days prior to the date the proposed event is scheduled to commence.

(5) Where an event organizer desires city events services in excess of those suggested or required by the city based on the criteria set forth above in subsection (b)(1) of this section, the organizer shall be required to either, at the election of the event administrator, pre-pay the estimated costs of such services, which shall be adjusted as necessary once the actual costs have been determined, or reimburse the city for the actual costs of such services.

(c) *Restoration reimbursement costs*.

(1) Notwithstanding anything to the contrary contained in this section, if the event organizer fails to perform the organizer's restoration responsibilities in accordance section 23-203(a)(2), the city may perform or have performed the restoration work and invoice the event organizer for the restoration reimbursement costs. Within ten business days after the date of receipt of an invoice, an event organizer who has been invoiced by the city for the restoration reimbursement costs that disagrees with the reimbursement requirement or its amount may file a written objection with the event administrator stating the basis for the objection.

(2) The event administrator shall consider the objection and provide a new invoice

sustaining the original amount, or modifying or eliminating the charge based on the objection.

(d) *Deposit*. At the time of permitting and as a condition to permit issuance the organizer of a special event may be required by the event administrator to post a refundable security deposit of no more than $100.00 for a minor event or basic event and no more than $500.00 for an enhanced event to cover any restoration reimbursement costs that might be incurred by the city. Such deposit, if required, must be required of all organizers of permitted events, or of only those event organizers which, in the past, have failed to perform their restoration responsibilities or have failed to pay restoration reimbursement costs to the city.

(e) *Non-event costs*. In no case shall an organizer be required to reimburse the city for the costs associated with providing city services that are assigned by the event administrator based on the anticipated or actual conduct of nonparticipants in the event.

(f) *Invoicing*. The city shall provide an itemized invoice for any reimbursements owed to the city under this article, which shall be paid by the responsible person by the date stated in the invoice.
(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-236. Recommendations.

The event administrator may obtain the recommendation of any city department that will be affected by the proposed special event. The event administrator will provide the date by which the recommendation is to be made and any recommendations not received by the due date will be deemed to have been favorable.
(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-237. Processing application; grounds for denial.

(a) The event administrator shall make a decision on a completed application consistent with this article and as expeditiously as possible given the scope of the conduct of the event. The event administrator shall provide the organizer with notice of his decision and, if the event administrator must deny the application, he shall state in the notice the basis for denial.

(b) The application for a permit for the special event shall be granted unless one or more of the following conditions are found to exist:

(1) *Application requirements*. The application:

a. Is incomplete in a material respect;

b. Has been fraudulently completed;

c. Is for an organized event that is not regulated by this article; or

d. Is for a special event the proposed conduct of which does not comply with applicable law, including this article or other city laws.

(2) *Prior conduct of organizer or organized event*. The application is for an event organizer or organized event that:

a. Is in violation of the cancellation policies of section 23-231(b)(1);

b. Has on a prior occasion made a material misrepresentation in an application for a special event that has resulted in a significant secondary harm; or

c. Has on prior occasions failed to restore the public space or restore or replace damaged public property, or pay to the city the restoration reimbursement costs or other costs or fees due the city under this article.

(3) *Location limitations*. The proposed public space, or a portion of the space, cannot reasonably accommodate the proposed event due to:

a. Insufficient space or capacity;

b. A prior use of some or all of the same public space or a public space in reasonably close proximity to the space; or

c. Unavailability because of fire, casualty, acts of nature, or public emergency.

(4) *Non-curable secondary harms*. The proposed conduct of the event would have secondary harms that cannot reasonably be cured, including unreasonable hardship to adjacent or nearby uses due to repeated or prolonged street closure; unreasonable interference with the use of the public space by other persons or organized events; or unreasonable demands on the city's resources because of unusual, extraordinary, or burdensome costs or expenses.

(5) *Use of parks*. The likely detrimental impact of the proposed event on the use and physical integrity of the park and its facilities or amenities taking into account such factors as:

a. The ability of the park to accommodate the conduct of the event;

b. The physical condition of the park;

c. The existence of reasonably available alternatives;

d. Conflicting uses of the park;

e. Secondary harms; or

f. The number of prior uses already scheduled for the park and the ability of the park to accommodate repeated uses without suffering material damage.

(6) *Public safety*. The proposed conduct of the event will be likely to have an impermissible impact upon public safety because it will:

a. Substantially interrupt the safe and orderly movement of traffic in the area of its route or location and there are insufficient public safety services available at the time to mitigate the disruption;

b. Require the diversion of so great a number of police officers of the city to properly police the area or route that will be occupied by the special event and contiguous areas so as to prevent normal police protection to the city;

c. Require the diversion of so great a number of ambulances and fire rescue units as to prevent normal ambulance and rescue service to portions of the city other than those areas or routes that will be occupied by the special event and contiguous areas;

d. Involve the concentration of persons, animals, floats, or vehicles at the assembly points of the event that will unduly interfere with proper fire and police protection of or ambulance service to areas contiguous to such assembly areas;

e. Interfere with the movement of firefighting equipment en route to a fire;

f. Fail to provide proper sanitation services; or

g. Otherwise pose an unreasonable risk to the public safety.

(7) *Major arterials*. The location requested is for a street that is a major arterial within the city limits, unless the magnitude of the event requires it and such an event cannot reasonably be accommodated elsewhere. This subsection (7) shall not apply to processions that merely cross a major arterial and that are not otherwise prohibited according to the terms of this article.

(c) *Alternative to denial*. Should the event administrator have to deny a permit pursuant to this section and there are reasonable alternatives to the conduct of the event that are available and that would eliminate the basis for denial, the administrator shall propose the alternatives to the organizer who must accept those alternatives by providing a notice of its acceptance by the next business day following the organizer's receipt of the administrator's decision notice, otherwise the denial shall stand.

(d) *Conditional approval*.

(1) In the case of completed or conditional applications that have been filed more than 30 days in advance of the event, the

event administrator may issue conditional approval for the event if the event is due to be approved except for one or more of the following pending items:

a. Action being taken with regard to required approval, licensing, or permitting pursuant to other city laws or laws administered by the health department, or except for required leasing of the public space;

b. Confirmation of the availability of city event services; or

c. Confirmation that the public area requested for the event has not been scheduled for a state or city public building or works project, including improvement or infrastructure maintenance, repair, or construction.

(2) Issuance of a conditional approval shall mean that, except for the pending items, there are no conditions that are known to exist that would constitute a ground for denying the permit. Nothing in this subsection (d) shall prevent the revocation of a permit in accordance with section 23-205.

(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-238. Appeal of denial.

(a) *Right of appeal*. An organizer denied a special event permit may ask for a review of the decision by filing a written notice of appeal, stating the reason the denial should be overturned, with the event administrator within five business days following receipt of the event administrator's decision notice denying the permit. The appeal shall be heard and decided by the mayor's designee who shall schedule a hearing on the request within five business days following receipt of the notice of appeal. Should the time scheduled for the hearing cause a delay of the proposed event, an alternate date will be made available upon request and, should the public area requested be available and uncommitted, it will be reserved for the event, pending the outcome of the appeal. The organizer shall be given at least 24 hours' advanced notice of the hearing.

(b) *Conduct of hearing*. The organizer, or someone designated by the organizer to act on the organizer's behalf, shall appear at the hearing in person, and may be represented by counsel. Failure of the organizer, or the organizer's designee, to appear at the hearing shall be deemed to be a withdrawal of the appeal. The event administrator shall attend the hearing. The event administrator and the organizer, or the organizer's designee, shall have the right to be heard on the matter and present evidence in support of their respective positions. The mayor's designee shall uphold the decision of the event administrator if a ground for denial exists and, where appropriate, offer an alternative to denial in accordance with section 23-237(c). The decision may be made at the conclusion of the hearing stating orally the reasons for the decision, or, by written notice by the close of the next business day following the close of the hearing and shall state the reasons for the decision. Failure of the mayor's designee to render a decision by the close of the next business day following the close of the hearing shall operate as an automatic upholding the event administrator's decision.

(c) *When review not available*. In no event will a review lie under the provisions of this section for the denial of any permitting or licensing that is not issued under the authority of this article, including alcoholic beverage licensing, business licensing, technical and fire code permitting, and fireworks permitting.

(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-239. Permit amendment.

(a) A special event organizer who wishes to materially modify the conduct of the event as authorized by the special event permit shall file a permit amendment application with the event administrator on a form provided by the city within the applicable time prescribed in section 23-233(b). The permit amendment application shall describe the proposed change in the conduct of the event with the same detail required by section 23-233(d) for the initial permit application and shall otherwise comply with the provisions of this article. The event administrator shall take action on the special event permit amendment application in accordance with the terms of this

article. The notice of decision and hearing provisions set forth in this article also shall apply to applications for permit amendments.

(b) A non-material change to the event conduct of permitted special event that complies with this article may be made at any time prior to the start of the event by notifying the event administrator of the proposed change.
(Ord. No. 13-189, § 1, 5-9-2013)

Sec. 23-240. Contents.

Each permit issued under this article shall specify the restrictions, conditions, or limitations on event conduct as the event administrator may deem necessary for the administration of this article.
(Ord. No. 13-189, § 1, 5-9-2013)

Secs. 23-241—23-300. Reserved.

ARTICLE VII. COMMUNICATIONS PROVIDERS

DIVISION 1. GENERAL

Sec. 23-301. Automatic conformity to federal and state law; construction of article.

(a) To the extent any provision of this article may conflict with any valid superseding federal or state law, it shall automatically conform to such federal or state law. The city franchise manager or the city engineer, as appropriate, is authorized to administer this article in accordance with such automatic conformity. Nothing in this subsection (a) shall be construed to prevent the city council from amending any provision of this article that does not comply with any valid superseding federal or state law.

(b) This article shall be construed in a manner consistent with applicable laws.
(Ord. No. 20-270, § 1, 4-9-2020)

Secs. 23-302—23-350. Reserved.

DIVISION 2. CONSTRUCTION OF COMMUNICATIONS FACILITIES

Sec. 23-351. Coverage; definitions.

(a) *Coverage*.

(1) This division is an exercise of the city's police powers and generally governs and applies to construction and construction-related activity of providers that hold a franchise for the use and occupancy of the rights-of-way or are otherwise authorized to use and occupy the rights-of-way. In the case of an irreconcilable conflict between a provision of this division and a provision of a franchise granted to the provider by the city, the franchise, including siting permits issued pursuant thereto, shall govern.

(2) Except as otherwise explicitly provided in division 3 of this article, this division shall apply to "wireless providers" and the installation and maintenance of "small cell facilities" and "support structures" as those terms are defined in division 3 of this article.

(3) Nothing in this division shall be construed to affect any private property rights or the rights of third parties. A provider shall be responsible for compliance with applicable law relative to private property or the rights of third parties.

(b) *Definitions*. The following words, terms, and phrases, when used in this division, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning.

City engineer means the city's director of engineering, or his/her designees or subordinates.

Construct, including its derivations, means to construct, re-construct, excavate for, repair, rehabilitate, place, replace, erect, maintain, install, relocate, or remove all or any portion of the facilities.

Cure period means a specific cure period provided under this division or, where there is no

specific cure period, a cure period of at least 30 days, except where the provisions of this division state that no cure period is allowed.

Facilities mean all or any portion of a provider's tangible personal property constructed in the rights-of-way.

Franchise means lawful authorization granted by a governmental authority to a provider to use and occupy the rights-of-way for the construction and operation of its facilities, including a franchise, lease, license, or use agreement entered into between the provider and the city. The term does not include a business license issued by the city in order to conduct business in the city.

Franchise manager means the city's ITS director, or his/her designees or subordinates.

Provider means the provider of communications services.

Rights-of-way means the surface of and the space on, above, and below any public street, public road, public highway, public freeway, public lane, public way, public alley, public sidewalk, public boulevard, public parkway, public drive, public right-of-way, or public utility easement (to the extent of the city's interest or authority), now or hereafter held by the city which shall, within its proper use and meaning, entitle the holder of the franchise to the use thereof for the purpose of installing and operating its facilities and providing its services. This term shall not include any state or federal rights-of-way or any property owned or controlled by any person other than the city, except as provided by applicable law or pursuant to an agreement between the city and any such governmental entity or person. The term shall also not include property, such as city parks, city buildings, city property, public works facilities, or public utility facilities owned or leased by the city that is not used or is not typically used as rights-of-way for vehicular or pedestrian transport or the installation of utility distribution facilities.

Siting permit means a permit issued by the franchise manager in accordance with an existing franchise with the city, including a franchise for small cell wireless facilities in accordance with division 3 of this article.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-352. Construction standards.

(a) Construction of a provider's facilities shall be in accordance with applicable law, industry standards, the requirements of other lawful authority, as such may be amended or superseded from time to time, including applicable sections of the Occupational Safety and Health Act of 1970, as amended. A provider shall, at its sole cost, expense, and risk, be responsible for ensuring that the construction of its network in the right-of-way is, at all times, in compliance with the Americans with Disabilities Act of 1990, as amended or as may be amended from time to time.

(b) All of a provider's facilities shall be located, constructed, and functioning in accordance with good engineering practices and so as to avoid unreasonable interference with or causing damage to public infrastructure or improvements or the facilities of others in the rights-of-way and in a manner that will not unreasonably interfere with the usual and customary uses in the rights-of-way, including pedestrian and vehicular traffic, utilities, and traffic control systems. All such work must be performed by qualified maintenance and construction personnel.

(c) All installation of electronic service equipment shall be done in accordance with the applicable provisions of the National Electrical Safety Code of the National Bureau of Standards and National Electrical Code of the National Board of Fire Underwriters.

(d) A provider shall at all times employ ordinary care and shall install, maintain, and use commonly accepted methods and devices for preventing accidents which are likely to cause damage or injury to the public, and, where applicable, shall comply with the latest edition of the Manual on Uniform Traffic Control Devices.

(e) *Least disruptive technology*. A provider is encouraged to perform construction of its facilities in a manner resulting in the least amount of

damage and disruption of the rights-of-way including other facilities therein and improvements thereto. A provider may be required to use trenchless technology for projects, within roadway limits, which encompasses the roadway and its shoulder, in arterial and other high-volume streets and in roadways constructed or resurfaced within the last five years. The city engineer may require trenchless technology in other locations, where extreme circumstances prevent or make open cut methods impractical. A provider may use either the open cut method or trenchless technology for projects outside roadway limits, except as otherwise provided for in this subsection (e).
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-353. Above-ground facilities installation and placement; undergrounding.

The city desires to promote the undergrounding of facilities in the rights-of-way, their judicious siting, and the use of the least obtrusive facilities in order to reduce or eliminate their impact or potential impact to the public health, safety, and general welfare or otherwise for rights-of-way management purposes. To this end each of the following shall apply relative to a provider's facilities:

(1) A provider shall install its facilities underground without cost to the city: (i) in accordance with the subdivision regulations of the city, (ii) where substantially all of the facilities of the city d.b.a. Huntsville Utilities or other utilities or service providers in a given area are underground, or (iii) where the city adopts an underground plan and substantially all utility facilities or other facilities are placed underground. Except in the case of an emergency, a provider is not authorized to place above ground any of its facilities that have previously been underground without prior approval from the city engineer and subject to the applicable provisions of this division, its franchise with the city, or applicable law. Nothing herein shall be construed to prevent the above-grounding of those types of facilities which, due to technical limitations must be placed above ground, including small cell facilities and support structures, as such terms are defined in division 3, that have been issued a siting permit by the city or that use support structures that the city has permitted to remain above ground after its adoption of an underground plan contemplated by this subsection.

(2) In the construction or upgrading of its facilities, a provider shall use the smallest, reasonably available equipment then in use by the provider or any of its affiliates.

(3) A provider shall select locations for its above-ground facilities, both outside and in the rights-of-way, which comply with the city's visibility obstruction regulations; which are not within the paved or traveled portions of existing or platted rights-of-way, including the sidewalks, or which do not otherwise block or impede vehicle or pedestrian traffic; which do not block or impede existing public drainage facilities or channels or are otherwise in a designated floodway; or which otherwise raise a reasonable public health, safety, or welfare concern.

(4) A provider shall, subject to approval of the city engineer, which shall not be unreasonably withheld, select locations and methods of installation and screening for its above-ground facilities which eliminate or reduce the impact to residential uses including those immediately adjacent to or on the same lot as the proposed facilities.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-354. Construction approval; as-builts.

(a) *Construction approval.*

(1) Subject to subsection (2), at its own expense and cost and concurrent with submission of permit requests for construction of its facilities or prior to the commencement of construction, including reconstruction, of its facilities, a

provider shall submit to the city engineer for his/her approval construction schedule, plans, and drawings suitable in form and content to the city engineer. The submittal shall include a schedule and location of work, plans and drawings for construction and restoration acceptable to the city engineer.

(2) The city engineer's prior approval shall not be required for accessing existing facilities in such a manner so as to: (i) not interfere with the use of, or other facilities in, the rights-of-way, (ii) not have the likelihood of creating a threat to the public health or safety, or (iii) require restoration or repair of the rights-of-way. Provided the foregoing conditions are met, such accessing includes accessing existing subsurface facilities through existing manholes or handholes; routine repair and maintenance of existing facilities; running aerial or underground service lines or drops outside the roadway limits, which encompasses the roadway and its shoulder, to individual customers; running overhead lines on existing poles; replacement of existing facilities that does not appreciably alter their location, or enlarge or expand their occupancy of the rights-of-way; or installing lines of wire, cable, or fiber through existing conduits.

(3) Nothing in this subsection (3) shall be construed to relieve a provider from obtaining and abiding by a siting permit.

(b) *As-builts*.

(1) As a provider undertakes construction of its facilities, a provider shall, at its own cost and expense, provide updated "as-built" maps to the city engineer showing the location of the provider's installed facilities in the rights-of-way. A provider's "as-built" maps shall be provided in the format set forth in subsection (2) below. In order to protect a provider's confidential business information and the security of a provider's facilities, the level of detail in maps provided by the provider shall be limited to that which is needed for the city's administration and enforcement of this division. A provider shall have an ongoing duty to provide to the city engineer current up-to-date "digital as-builts" of its facilities in a form acceptable to the city.

(2) Unless allowed otherwise by the city engineer, submittals shall be prepared in a Microstation V7, 2D, .dgn or compatible format, or ESRI compatible format, with working master units in feet, and 1,000 positional units, geo-referenced to the Alabama State Plane Coordinate System, NAD 1983, Alabama East Zone as described in the Code of Ala. 1975, § 35-2-1, and NGVD 1988 and showing a tie to the public land survey.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-355. Restoration of property.

(a) For purposes of this section, the following terms shall have the following meanings:

Construction waste means debris, litter and other waste related to the construction activity of a provider.

Covered property means the rights-of-way and all public and private property located therein or adjacent thereto, including public improvements and infrastructure.

Damage, including its derivations, means damage to or destruction of all or any portion of the covered property.

Restore, including its derivations, means to repair, restore, or replace the covered property, and to remove construction waste from the covered property.

(b) In the performance of any construction activity relative to a provider's facilities, a provider, and those performing on its behalf, shall use its (their) reasonable efforts to protect the covered property from damage and to keep the covered property free from construction waste.

(c) A provider shall restore covered property which may be damaged as a result of the construction of the provider's facilities and shall also

remove construction waste from the covered property. A provider shall perform such restoration promptly, but in no event later than the restoration period, if any, set by the city engineer. Subject to subsection (d) below, any such restoration shall be performed at the provider's sole cost and expense and to the reasonable satisfaction of the city engineer.

(d) It shall be presumed that prior to the construction activity the covered property was in good condition, order and repair and without defect and that any damage of all or any portion of the covered property was caused by the provider's construction activity, unless the provider provides dated photographs of the covered property immediately prior to the commencement of the construction activity.

(e) The city engineer may require replacement of covered property which he/she reasonably determines cannot be repaired.

(f) A provider shall not be afforded a cure period under this section. If the provider fails to perform the restoration of the covered property within the required period of time, then the city engineer may perform or have performed such work and invoice the provider for all costs and expenses, including labor and materials, associated with the work. A provider shall pay the invoiced amount within 30 days from the date of the invoice. The city engineer may withhold the issuance of permitting under this division until the invoice is paid.

(g) Notwithstanding anything to the contrary in this division, the city engineer shall have the right, but not the obligation, to require a provider to restore public property, including the rights-of-way and public infrastructure, improvements, or facilities, to be in accordance with construction standards for public infrastructure and improvements adopted by the city or standards required by the city engineer, which may include, but not necessarily be limited to, restoration to the roadway, including sidewalks and curbing, that minimizes deterioration.

(h) A provider shall be responsible for coordinating with affected private property owners when crossing driveways and other private infrastructure. Notification to property owners will be the responsibility of the provider. A provider shall notify the city engineer at least 72 hours in advance of any road closures so that appropriate notices and press releases may be issued by the city in a timely manner.

(i) Prior to beginning work on a site, a provider shall be responsible for complying with applicable local, state, and federal utility facility locate laws.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-356. Relocation of facilities.

(a) For purposes of this section the term "relocate", including its derivations, means to protect, support, disconnect, relocate in, or remove from the rights-of-way, all or any portion of a provider's facilities when required by the city pursuant to this section.

(b) The city, through the city engineer, may, upon reasonable notice applicable to the conditions warranting such relocation and as then reasonably determined by the city engineer, require a provider to, either temporarily or permanently, promptly relocate its facilities for any lawful purpose, which includes the city's exercise of its police powers for the public health, safety, convenience, necessity, or general welfare, and wholly or partially city-funded public works, building, or improvement projects. The city will use its reasonable efforts to coordinate the timing and scope of such activity with a provider upon the request of a provider, including discussions of the least disruptive process. Subject to section 23-353, nothing in this section shall be construed to change the applicable law, terms of a franchise with the city, or city policy or practice as to who is responsible, as between the city and a provider, to bear the relocation costs.

(c) In the event the city relocates the rights-of-way where a portion of a provider's facilities is located, it will be the responsibility of the provider to find an alternative location for its facilities, provided, however, that the city will use its reasonable efforts to provide the provider with a reasonable alternative location for the affected portion of the provider's facilities to be relocated

from the relocated rights-of-way, subject to applicable requirements for a siting or right-of-way permit.

(d) Nothing in this division shall be construed to hinder the right or authority of the city to perform or carry on any public works project, public improvement project, or public building project.

(e) Written notice of the requirement to relocate shall be given by the city engineer to a provider and shall contain the basis for the relocation, the required commencement and completion dates, and a description of the relocation to be performed. The time allowed for the provider's performance shall be as reasonably determined by the city engineer and shall take into account, among other things, the nature and scope of the request, any relevant information or limitations provided to the city engineer by the provider, whether any emergency exists, and the requirements of the lawful purpose necessitating the relocation. The provider may request, and the city engineer may grant, reasonable extensions of the provider's performance period based on then-current relevant factors.

(f) The city retains the right and privilege to relocate any of a provider's facilities located in the rights-of-way as the city may determine to be necessary, appropriate, or useful in response to any life-threatening emergency. The city will use its reasonable efforts to notify and consult with the provider's technical point of contact if there is a potential that the provider's facilities will be impacted and if there is an opportunity to do so. Nothing herein shall be construed to create any duties or obligations on the city to so notify a provider nor shall the city, its officials, agents, employees, or volunteers be in any way liable to a provider for any failure to notify the provider.

(g) In the event that after notice from the city, and absent any extensions granted by the city pursuant to this division, a provider fails to perform the relocation within the specified time, the provider shall have 30 days to cure the noncompliance, except in the case of an emergency. Thereafter, if the provider fails to so perform, the city may, at the sole cost, expense, and risk of the provider, perform or have performed the relocation, without assuming or having any liability to the provider, and invoice the provider therefor. In addition to or in the alternative, the city may invoice the provider, for any costs or expenses, including construction delays, suffered by the city that are attributable to said failure. Invoiced amounts shall be paid by the provider within 45 days from notice of same. The city engineer may withhold the issuance of permitting under this division until the invoice is paid.

(h) Notwithstanding anything in this division to the contrary, the provider shall not be afforded a cure period in the case of an emergency condition that, in the city's opinion, poses a likelihood of: (1) endangering life or health, (2) causing a significant loss of property or services, or (3) causing significant damage to or destruction of the rights-of-way.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-357. Conditions of use.

(a) A provider shall, at its own cost and expense, maintain its facilities in good working order, condition, and repair and free from graffiti. A provider, including its contractors and agents, shall remove its construction debris from the rights-of-way and shall not bring onto the rights-of-way anything of a dangerous, noxious, or offensive nature or which would create a hazard or undue interference to the use of the rights-of-way.

(b) Facilities, both outside of and in the rights-of-way, shall not be installed across or within public sewer or stormwater drainage facilities including ditches, pipes, or channels, or otherwise in such a manner so as to obstruct the flow of sewage or stormwater run-off.

(c) A provider shall control its agents, contractors, and employees in such a manner so as to not create any nuisance and to otherwise comply with the requirements of this section.

(d) The city shall have no obligation to insure or safeguard a provider's facilities against unauthorized access.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-358. Temporary movement of facilities.

Upon the request of the city engineer a provider shall temporarily move its facilities to permit the moving of large objects, vehicles, buildings, or other structures. Except where requested by the city for a city purpose, the expense of such temporary moves shall be paid to the provider by the person requesting the same, and the provider may require such payment in advance. In no event shall the city pay such expense. Nothing herein shall be construed to abrogate the provisions for moving facilities contained in any pole attachment agreement the provider has with another person, including the city d.b.a. Huntsville Utilities.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-359. Trees.

A provider shall comply with all applicable laws with respect to the removal, trimming and cutting of trees and keeping its facilities clear of trees in the rights-of-way, including the tree regulations, as such laws may be amended or superseded. Within 14 days' notice from the city engineer or immediately in the case of an emergency, a provider will cooperate in the removal of any tree or branch which has fallen onto its aerial facilities. Except in emergency situations and except for routine trimming and then subject to the tree regulations, in installing, maintaining, and removing its facilities, a provider shall not remove, cut, or damage any trees in the rights-of-way that are greater than four inches in diameter, as measured at 12 inches above the ground, except with the prior consent of the city forester or his designee.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-360. Joint trench coordination; planned infrastructure.

(a) *Joint trenching*. Whenever it is possible and reasonably practicable to joint trench or share bores or cuts or joint share conduit, a provider shall work with the city and other rights-of-way users, so as to reduce, as far as possible, the number of street cuts within the city.

(b) *Planned infrastructure*. If required of other users of the rights-of-way, when a provider installs any new trench or conduit as part of its facilities, the provider may, at the request of the city engineer, install, at the expense of the city, sufficient additional space or additional conduits or other related facilities. The cost to the city shall be the costs of material and labor attributable or proportional to said installation. The city shall have the option to lay its own conduit or place other public improvements, such as wiring for traffic signals and street lights, that do not cause significant cost, delay or redesign, in a provider's open trenches during the initial construction and during any future rebuilds or repairs. A provider shall provide written notice of the proposed construction to the city engineer, and the city engineer will then have five business days after receipt to respond in writing to the provider. Nothing in this subsection (b) shall be construed to require the provider to share space within conduits occupied by its facilities or the facilities of others.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-361. Advertising, signs, or extraneous markings.

Unless otherwise authorized by applicable law, a provider shall not place or cause to be placed any sort of signs, advertisements, or other extraneous markings, whether relating to the provider or any other person or entity in the rights-of-way including facilities therein, except such necessary minimal markings as approved by the city engineer as are reasonably necessary to identify the system for service, repair, maintenance, or emergency purposes, or as may be otherwise required or permitted by the city engineer or by the state or federal government to be affixed by applicable law or regulation for such purposes.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-362. Abandonment of construction or facilities; removal.

(a) Upon abandonment, whether voluntary or involuntary, of construction or of all or any portion of the facilities, or where a provider's franchise is no longer in effect for whatever

reason, the city engineer, at his/her sole discretion, may require a provider, upon the city engineer's written request and within a reasonable time as determined by the city engineer, to remove from the rights-of-way, at the provider's own cost and expense, all or any portion of its abandoned facilities; provided, however, the removal requirement shall not apply to buried facilities which the city engineer reasonably determines should not be removed or when the city engineer otherwise gives written consent to a provider's written request to allow such facilities to remain in place. If the city engineer determines that the buried facilities can or should be abandoned in place, the ownership of such facilities in the rights-of-way shall automatically transfer to the city, and the provider shall have no further obligation therefor. Notwithstanding a provider's request that any such facilities remain in place, the city engineer may require the provider, at its sole cost and expense, to remove the facilities from the street area or modify the facilities in order to protect the public health and safety or otherwise serve the public interest.

(b) In removing the facilities, a provider shall, at its own cost and expense, refill and compact any or all excavation that shall be made by it and restore the rights-of-way and other property to the reasonable satisfaction of the city engineer to substantially the same condition as existed immediately prior to the facilities being removed or as otherwise provided for in subsection 23-355(g). If a provider fails to comply with the said removal or modification order pursuant to this section, the city may, or may contract to, do so at the provider's cost, expense, and risk, without assuming or having any liability to the provider, and invoice the provider therefor; which invoiced amount shall be paid by the provider within 30 days from notice of same. The city engineer may withhold the issuance of permitting under this division until the invoice is paid.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-363. Technical point of contact; authority of city engineer; stop work order; penalties.

(a) *Point of contact.* A provider shall designate a responsible technical contact individual or individuals including a telephone number available seven days a week, 24 hours a day, with whom representatives of the city can communicate with on all matters relating to the construction of the facilities and management of the rights-of-way, and in the case of an emergency.

(b) *Authority of city engineer*. The city engineer is hereby authorized to enforce and administer this division on behalf of the city and may act through subordinates or designees.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-364. Enforcement.

In addition to other legal or equitable remedies available to the city, including under this division, under an existing franchise with the city, and other provisions of this Code, the city may, individually or in combination, enforce this division as follows:

(1) *Stop work order*. The city engineer may, at any time and from time to time, issue a stop work order for construction of all or any portion of the facilities when the city engineer determines, in his/her sole discretion: (1) that the activity is being performed contrary to the provisions of this division, including construction or other standards required by the city engineer; or (2) that the activity has caused, or is likely to cause, a situation to exist that poses or would pose a clear and immediate danger: (i) to life or health, (ii) of a significant loss of property or services, or (iii) of significant damage to or destruction of the rights-of-way. The order may be issued, at the city engineer's option, on the construction site or to the provider's technical contact person. The city engineer will lift any such stop work order as soon as possible after he/she determines that the situation giving rise thereto no longer exists. It shall be a

violation of this division for a provider, or those persons working on its behalf, to disobey a stop work order.

(2) *Revocation or suspension of permitting*. The city engineer may suspend or revoke a permit issued under this division, subject to applicable cure periods, for a violation of the provisions of this division, including any permit conditions. It shall be a violation of this division for a provider, or those persons working on its behalf, to continue any construction activity authorized under a suspended or revoked permit.

(3) *Penalties*. The general penalty provisions of section 1-7 of this Code shall apply and a citation may be issued in accordance with section 2-1 of this Code. Each day that the violation continues constitutes a separate offense.

(Ord. No. 20-270, § 1, 4-9-2020)

Secs. 23-365—23-420. Reserved.

DIVISION 3. SMALL CELL WIRELESS FACILITIES

Sec. 23-421. Purpose; scope; no city warranties; zoning.

(a) The purpose of this division is to exercise the city's rights and authority over the rights-of-way and city-owned poles and structures located therein, and to otherwise manage the installation, operation, collocation, modification, replacement and removal of small cell facilities in the city's rights-of-way and on small cell support structures and to protect other important city interests, including the public health, safety and welfare, aesthetics and local property values, while recognizing the benefits of wireless communications. It is the intent of this division to promote the health, safety and general welfare of the citizens of the city by establishing an orderly process for managing the siting of small cell facilities in the rights-of-way.

(b) It is not the purpose or intent of this division to: prohibit or have the effect of prohibiting wireless communication services; unreasonably discriminate among providers of functionally equivalent wireless communication services; regulate the placement, construction or modification of small cell facilities on the basis of the environmental effects of radio frequency emissions where it is demonstrated that the wireless communications facility does or will comply with applicable FCC regulations; or prohibit or effectively prohibit collocations or modification that the city must approve under state or federal law.

(c) *No warranty*. The city makes no express or implied representation or warranty regarding its right to authorize or permit the installation of small cell facilities or support structures on any particular segment of the rights-of-way or the location or dimensions of any particular segment of the rights-of-way, nor does the city make any express or implied representation or warranty regarding its right to authorize the construction or placement of any small cell facilities or support structure in any public utility easement. The burden and responsibility for making all such determinations in advance of installation shall be entirely upon the grantee.

(d) Nothing in this division shall be construed to relieve the grantee from complying with the city's then-current zoning laws to the extent that such laws are applicable to the small cell facilities or support structures on separate property, as defined in section 23-422.

(e) When reference is made to this division, the term shall mean and include each license and siting permit issued hereunder and the terms and conditions thereof.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-422. Definitions.

The following words, terms, and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning.

Abandon, including its derivations, means that, following the placement of small cell facilities or support structures in the city pursuant to a siting permit issued to a grantee, any of the following has occurred: (1) for any reason the

small cell facilities or support structure ceases to be used to transmit signals, data or messages or otherwise be used for their intended purposes for a period of 180 days without the grantee otherwise notifying the city and obtaining city approval; (2) the city revokes the siting permit for placement and use of those facilities or the support structure due to nonpayment of applicable fees, the failure of the grantee to comply with conditions in the siting permit or the requirements of this division or other city law, or other valid reason; or (3) the grantee fails to perform any of its responsibilities, obligations and requirements in this division, any franchise, use agreement, license, or siting permit that relates to the installation, construction, maintenance, use or operation of the small cell facilities or support structures, and that breach remains uncured for the applicable cure period.

Accessory equipment or *equipment* means any equipment, other than an antenna, that is used in conjunction with a small cell facility. This equipment must be attached to or in the immediate vicinity of a small cell support structure, and includes cabinets, optical converters, power amplifiers, radios, DWDM and CWDM multiplexers, radio units, fiber optic and coaxial cables, wires, meters, pedestals, power switches, and related equipment.

Affiliate or *affiliated person* means any person, directly or indirectly, controlling, controlled by, or under common control with a grantee or applicant; provided, however, that affiliate shall not include any limited partner or shareholder holding an interest of less than 15 percent of grantee or applicant, or any creditor of a grantee or applicant solely by virtue of its status as a creditor and which is not otherwise an affiliate by reason of owning a controlling interest in, being owned by, or being under common ownership, common management, or common control with, a grantee or applicant.

Annual license fee means the annual fee described in subsection 23-426(b) of this division.

Antenna means communications equipment that transmits or receives electromagnetic radio signals, electromagnetic waves, radio or other wireless signals used in the provision of wireless communication services, is attached to a small cell support structure and is used to communicate wireless service. The use of the term 'antenna' shall also refer to the antenna concealment enclosure when such concealment enclosure is required by this division or the applicable design standards. A concealment element otherwise will not count against the volumetric cap for an antenna when determining if a facility qualifies as a "small cell facility" under this division.

Applicable codes mean the duly adopted technical codes of the city, including the building, fire, electrical, plumbing, or mechanical codes, which are adopted by reference from the codes of a national code organization, including any local amendments made thereto at any time and from time to time, or codes that are otherwise applicable in the city. The term includes the regulations of the FCC and the Occupational Safety and Health Administration, as well as any local standards or regulations governing the use of rights-of-way, including division 2 of this article.

Applicable law means any or all federal, state, or city statutes, ordinances, rules, regulations, standards, and other laws, that are now existing or hereafter adopted, as such laws are amended or as they may be from time to time amended or superseded, which apply to an applicant's or grantee's communications services, its facilities, or the matters covered by this division, including city laws. Where reference is made to a specified law, including a specified city law, the United States Code, and the Code of Federal Regulations, it shall mean and include such laws as amended or as may be from time to time amended or superseded.

Applicant means a wireless provider that has applied for a license or siting permit pursuant to this division, and upon issuance of the license or siting permit, the term shall include those wireless providers that have been issued same.

Application means an application for a license or siting permit issued under this division.

Application fee means a siting permit application fee assessed pursuant to subsection 23-426(a) of this division for the city's review of a small cell site application.

City means the City of Huntsville, Alabama, and where necessary for the purposes of the administration and enforcement of this division shall include the city's delegated authorities or representatives authorized to perform as contemplated.

City attorney means the city attorney for the city or designee.

City clerk-treasurer means the city clerk-treasurer for the city or designee.

City engineer means the director of engineering for the city or designee.

City laws mean the duly adopted laws and legislation of the city including the Code of Ordinances of the City and any codes, regulations, standards, or specifications adopted by reference; and shall also include the subdivision regulations and any other such rules or regulations that departments, agencies, commissions, boards, or bureaus of the city are authorized to establish; all of which are as amended or as may from time to time be amended or superseded.

City-owned pole means (i) a pole owned by the city in the right-of-way that provides street lighting functions, including light poles, (ii) traffic signal poles and stanchions owned by the city, and (iii) a pole or similar structure owned or operated by the city in the right-of-way that supports only wireless facilities. Notwithstanding the foregoing, the term does not include the utility facilities, including utility poles and light poles, of the city d.b.a. Huntsville Utilities. Applicants and grantees must obtain access to Huntsville Utilities facilities through separate agreement with Huntsville Utilities.

City-owned structure means any facility, structure or infrastructure located in the rights-of-way to which the city holds title, including city-owned poles, towers, and communications infrastructure. Notwithstanding the foregoing, the term does not include the utility facilities, including utility poles and light poles, of the city d.b.a. Huntsville Utilities. Applicants and grantees must obtain access to Huntsville Utilities facilities through separate agreement with Huntsville Utilities.

City-owned support structure means a city-owned pole or city-owned structure that is available or approved for collocation or attachment of a small cell facility in accordance with section 23-433.

Collocate, or its derivations*,* means to place or install a small cell facility on an existing support structure that is owned, controlled, or leased by a utility, the city, or other person or entity, including applicant; or the modification or replacement of such a structure for the purpose of such placement or installation.

Contingent license fee means the rental amount and annual rate described in subsection 23-426(b)(2) of this division.

Distributed antenna system or *DAS* means a network or facility that distributes radio frequency signals to provide wireless services and consisting of: (1) remote antenna nodes deployed throughout a desired coverage area; (2) a high-capacity signal transport medium connected to a central hub site; and, (3) equipment located at the hub site to process or control the radio frequency signals through the antennas and meets the height and size characteristics of a small cell facility.

Emergency means a condition that (1) constitutes an immediate danger to the health, welfare, or safety of the public, or (2) has caused or is likely to cause substantial damage to the right-of-way or to facilities in the right-of-way, or adjacent thereto.

FCC means the Federal Communications Commission of the United States or any successor agency.

Franchise manager means the person authorized, assigned, or delegated the responsibility to administer and enforce this division on behalf of the city, and that person's designee.

Grantee means an applicant that is granted a license under this division.

Include, or its derivations, does not limit a term to its specified example.

Install, or its derivations, means to install, construct, place, locate, collocate, relocate, replace, or modify a small cell facility or support structure in the rights-of-way.

License means the authorization granted by the city to an applicant pursuant to this division allowing applicant to install and operate small cell facilities or support structures in the rights-of way. The term does not include a business license issued by the city to conduct business in the city.

Make-ready work means work that an authority reasonably determines to be required to accommodate a wireless provider's installation on a city-owned support structure under this division and to comply with all applicable standards. The work may include repair, rearrangement, replacement and construction of poles; inspections; engineering work and certification; permitting work; tree trimming (other than tree trimming performed for normal maintenance purposes); site preparation; and electrical power configuration. The term does not include a wireless provider's routine maintenance.

Micro wireless facility or *micro facility* means a small wireless facility that (a) is not larger in dimension than 24 inches in length, 15 inches in width, and 12 inches in height; and (b) has an exterior antenna no longer than 11 inches.

Point of demarcation means the point of where the transmission media of small cell equipment terminates and interconnects with broadband backhaul transmission facilities, which is the point that the small cell connects into fiber or other wired mediums to transmit or assist in the transmission of data, whether provided by landline or wireless communications infrastructure.

Private property means real property located in the city that does not lie within the right-of-way, including such appurtenances or easements attached to or associated with such property, and that is not owned by the city, state, or other public body.

Replacement means installing a new small cell support structure of comparable or smaller proportions and of comparable or shorter height to a preexisting small cell support structure in order to accommodate collocation of small cell facilities, and the associated removal of the preexisting small cell facilities or support structure. To qualify as a replacement, the replacement support structure must be installed no more than five feet of the location of the existing support structure that it will replace.

Rights-of-way means the surface of and the space on, above, and below any public street, public road, public highway, public freeway, public lane, public way, public alley, public sidewalk, public boulevard, public parkway, public drive, public right-of-way, or public utility easement immediately adjacent to and parallel with any such street, road, highway, lane, alley, or sidewalk (to the extent of the city's interest or authority), now or hereafter held by the city which shall, within its proper use and meaning, entitle grantee to the use thereof for the purpose of installing and operating its facilities and providing its wireless communications services. This term shall not include any state or federal rights-of-way or any property owned or controlled by any person other than the city, except as provided by applicable law or pursuant to an agreement between the city and any such governmental entity or person. The term shall also not include property, such as city parks, city buildings, city property, public works facilities, or public utility facilities owned or leased by the city that is not used or is not typically used as rights-of-way for vehicular or pedestrian transport or the installation of utility distribution facilities.

Separate property means real property, whether private property or property publicly owned or controlled, that does not lie in the rights-of-way.

Siting permit means an authorization issued by the franchise manager to a grantee in accordance with this division.

Small cell facilities or *facilities* mean the following types of wireless facilities: antenna and associated accessory equipment, which meet the following requirements: (1) each antenna associated with the deployment, excluding associ-

ated accessory equipment, is no more than three cubic feet in volume; (2) all other accessory equipment associated with the structure, including the wireless equipment associated with the antenna and any pre-existing associated equipment on the structure, is no more than 28 cubic feet in volume; (3) the facilities are mounted on structures 50 feet or less in height including their antennas, or are mounted on structures no more than ten percent taller than other adjacent structures located within 100 feet and on the same portion of the right-of-way, or do not extend existing structures on which they are located to a height of more than 50 feet or by more than ten percent, whichever is greater; (4) the facilities do not require antenna structure registration under the FCC's rules; and (5) the facilities do not result in human exposure to radio frequency emissions in excess of the standard specified in applicable FCC rules, as these rules may be hereafter amended. The term includes micro wireless facilities, DAS and other wireless technologies that fall within the above specifications and may be referred to as a "node(s)" when referencing the numbers of small cell facilities per application or elsewhere in this chapter. Where reference is made in this division to small cell facilities or facilities, it shall mean the antenna or associated accessory equipment, or both.

Small cell support structure or *support structure* means a freestanding structure designed or used to support, or capable of supporting, small cell facilities. The term includes utility poles, street light poles, and similar structures, which are located solely in the rights-of-way. The term does not include the city-owned poles or city-owned structures that are not available or approved for collocation or attachment of a small cell facility in accordance with section 23-433.

Stealth technology or *stealth* means a method of concealing or minimizing the visual impact of a small cell facility and support structure by incorporating features or design elements which either totally or partially conceal such small cell facilities. All wiring associated with the small cell facilities shall be shrouded or concealed in shrouding on the facility. The use of these design elements is intended to produce the result of having such facilities blend into the surrounding environment or disguise, shield, hide or create the appearance that the small cell facilities are an architectural component of the support structure.

Transmission media refers to the point within a small cell facility or its support structure at which radio waves are guided along a physical path; examples of guided media include twisted pair cables, coaxial cables, and optical fibers, all of which shall be shrouded or concealed within the facility or support structure.

Utility pole means a pole or similar structure located in the right-of-way that is used in whole or in part to provide landline telecommunications services or for electric distribution or a similar utility function. The term does not include such a pole or similar structure 15 feet in height or less unless the city has granted a waiver to permit its use for small cell facilities.

Wireless communications services or *wireless services* mean communications services made available to subscribers through wireless facilities, including any FCC licensed or unlicensed radio communications services, whether used for transmission or reception of voice, video, or data, including, wireless fidelity ("WiFi") and personal wireless services as defined by the Communications Act, which includes FCC licensed commercial wireless telecommunications services, including cellular, personal communication services (PCS), specialized mobile radio (SMR), enhanced specialized mobile radio (ESMR), paging and similar services that currently exist or that may in the future be developed. The term does not include broadcast radio or television services. The term does not include broadcast television or radio services, private business radio services, or amateur radio services.

Wireless facilities mean equipment at fixed location which enables wireless communications between user equipment and a communications network, including radio transceivers, antennas, DAS, wires, coaxial or fiber-optic cable or other cables, regular and backup power supplies, and comparable equipment, regardless of technological configuration, and equipment associated with wireless communications. The term does not

include: (1) the structure or improvements on, under, within, or adjacent to the structure on which the equipment is collocated; (2) wireline backhaul facilities; or (3) coaxial or fiber-optic cable that is between wireless structures or utility poles or that is otherwise not immediately adjacent to or directly associated with a particular antenna.

Wireless infrastructure provider means any person, including a person authorized to provide telecommunications service in the state, that builds or installs small cell facilities or support structures, but that is not a wireless services provider.

Wireless provider means a wireless infrastructure provider or a wireless service provider.

Wireless service provider means a person that provides personal wireless communication services to the public or citizens of the city on a commercial basis and is authorized by the FCC to provide those services.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-423. Grant of authority; license.

(a) (1) *Grant*. Upon application by a wireless provider on forms provided by the city, the city may, where the city has the right and authority to do so, grant to such provider a non-exclusive license to construct, maintain, and operate small cell facilities or support structures in the rights-of-way in accordance with and subject to the provisions of this division, applicable law, and any acceptable additional terms as negotiated by the city or permitted by applicable law. Approval of installation of facilities at specific locations or on specific support structures will be administered through the siting permit process set forth in this division.

(2) Each license shall contain the following certifications by the grantee:

a. Grantee is a _____, duly organized, validly existing, and in good standing under the laws of the State of _____, is qualified to do business under the laws of the State of Alabama, and has the power and authority to own its properties, to carry on its business as now being conducted, to execute and deliver the acceptance of this license, to carry out the transactions contemplated hereby, and to perform and carry out all obligations on its part to be performed under and pursuant to this license.

b. Grantee, as of the date of the grant of the license, has adequate financial resources to install the small cell facilities or support structures in accordance with the provisions of chapter 23, article VII, division 3 of the City Code, and knows of no technical or legal impediment which would prevent it from performing as contemplated in said division.

c. Grantee is not prohibited by any agreement or applicable law from executing and accepting a license.

d. All corporate actions and consents required on grantee's part to execute and deliver the acceptance of the license have been completed.

The foregoing certifications are material to the grant of the license. A breach of any of the certifications in subsections a. through c. above shall constitute a non-curable default under the license, and shall entitle the city to immediately revoke the license for cause. A breach of the certification contained in subsection d. shall constitute a curable default under the license, wherein following written notice, grantee will have reasonable time to cure such default.

(3) *Nonexclusive*. Grantee's use of the rights-of-way pursuant to this division shall be nonexclusive. The city specifically reserves the right to grant, at any time and from time to time, such additional franchises, licenses, use agreements or other rights to use the rights-of-way for any purpose

as determined by the city, and to any other person, including itself, as it deems appropriate, subject to applicable law.

(4) *No title*. The grant of a license shall not convey title, equitable or legal, in the rights-of-way, and the rights granted by the license do not excuse the grantee from obtaining appropriate access or attachment agreements before locating its facilities on another person's support structures in the rights-of-ray, including the city d.b.a. Huntsville Utilities.

(b) *Term of license*.

(1) *Term.* Subject to termination or revocation in accordance with this division, the license granted pursuant to subsection (a) shall be valid for a period of five years from its effective date and shall be subject to renewal as provided in this subsection. Upon a grantee's written certification to the franchise manager within 30 days of the expiration of the license that grantee remains in compliance with the provisions of this division, including its license and each siting permit, then the license will be automatically renewed for an additional five year term without further action required by the city.

(2) *Operation after termination; holding over.* Notwithstanding anything to the contrary contained in this division, in the event a grantee, at the sufferance of the city, holds over beyond the term of its license and continues to operate all or any part of its small cell facilities, provide all or any of its wireless communications services, or otherwise exercise all or any of the rights granted under the license, after the term of the license, then grantee shall continue to comply with and be subject to all applicable provisions of this division, including all fee and other payment provisions, throughout the period of such holding over, provided that any such holding over shall in no way be construed as a renewal or other extension of the license. In the event the term of a license has expired and the parties are in the process of re-negotiating, applying for, or processing an application for a renewal of the license or a new license, or as they may otherwise agree, the license shall continue on a month-to-month basis, unless either party gives 30-days' advance written notice to the other that they desire to terminate the lease.

(c) *Franchise or use agreements for other uses of rights-of-way*.

(1) The license granted pursuant to this division only relates to, and only grants a grantee authority with respect to, the placement of small cell facilities on or in the immediate vicinity of support structures, including fiber optic cable for up to 25 feet on either side of the support structure, that are located or proposed to be located in the rights-of-way. No provision in this division is intended to permit, regulate or authorize the placement by a grantee or applicant of wire or fiber optic lines, coaxial cable, switches, pedestals or networking equipment of any type that is used to transport communication signals, data or messages between support structures or between any other points in the rights-of-way. In the event a grantee or applicant desires to place communications equipment or other facilities along the rights-of-way of a kind not authorized by the license, it will need to obtain a separate franchise or similar authorization from the city that would authorize, govern and apply to the construction of other kinds of facilities or use of other locations on or along the rights-of-way.

(2) If a grantee or applicant desires to use any of its small cell facilities for the purpose of providing any services other than the provision of telecommunications or information service, such as cable service, other subscription multichannel video programming services, utility, or other non-utility services to existing or potential subscribers or resellers, or by providing any other use of small cell facilities to existing or potential consum-

ers, an applicant shall seek such additional and separate franchise, use agreement or authorization from the city and other authority as may be required by applicable law.

(d) *Only small cell facilities allowed*. No wireless facilities, other than small cell facilities or small cell support structures, shall be allowed or permitted in the rights-of-way.

(e) *Compliance with law.* A grantee shall at all times comply with and abide by all applicable laws.

(f) *Records and reports*. Grantee shall cooperate with the city with respect to the administration of this division and to this end, shall furnish or make available to the city upon request, at no cost to the city, such records, reports, and other information reasonably necessary, as determined by the city, for the administration and enforcement of this division and in such form and manner as prescribed by the city.

(g) *Revocation*. The city may revoke a license in accordance with subsection 23-442(b) of this division.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-424. Notice of transfer, sale or assignment.

(a) *Notice of transfer.* A grantee shall not sell, transfer, lease, assign, sublet, or dispose of, in whole or in part, either directly or indirectly, either voluntarily or by force or involuntary sale, or ordinary sale, consolidation, transfer of control of the grantee or any of its affiliates through merger or equity sale, or otherwise (except for a transfer in trust, mortgage, or other instrument of hypothecation, in whole or in part, to secure an indebtedness, or for a transfer to or merger with an affiliated person), its facilities in the rights-of-way without providing the city with prior written notice: (1) identifying the person (hereinafter referred to in this section as "successor in interest") that will acquire control of the grantee, or that will acquire the facilities; (2) a summary of the proposed transaction; and (3) a statement from a person with authority to bind the successor in interest certifying under penalty of perjury that the successor in interest agrees to and accepts, and is able to meet the terms and conditions of, this division.

(b) *Notice of consummation.* Within 45 days after the closing of the transaction, or such additional time as the franchise manager may allow, grantee's successor in interest shall submit to the city: (i) a written certification, executed by an authorized senior officer or executive of the successor in interest, certifying under penalty of perjury that (1) the successor in interest accepts and agrees to be bound by, and to assume all liabilities and obligations of its predecessor under this division, and (2) all required licenses, consents, certificates of public convenience and necessity, or other governmental authorizations issued by the FCC, the Alabama Public Service Commission or any other agency with jurisdiction over the successor in interest's acquisition of an interest in the grantee's facilities have been obtained; (ii) proof of insurance and the posting of any required security in accordance with section 23-437 of this division; (iii) the names and addresses of those persons to whom notice should be sent in accordance with this division; and (iv) the name and contact information of the technical point of contact in accordance with division 2 to this article. In the event the applicant/licensee has outstanding compensation, other payments or other liabilities due to the city under this division that have not been paid or satisfied prior to close of the transaction, both the grantee and its successor in interest shall be jointly and severally liable to the city for same. The post-transaction notice requirements of this subsection (b) shall also apply to transfers or mergers with an affiliated person.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-425. Siting permits required; pre-application review.

(a) *Requirement.*

(1) Before a grantee who holds a valid license issued under this division can install a small cell facility or support structure in the right-of-way the grantee shall apply with the franchise manager for a siting permit for each proposed location, pay the required fees, and obtain a siting

permit, except as otherwise provided in this division. The franchise manager will review and administratively process an application in accordance with this division to determine if the application is complete and consistent with this division, the license issued under this division, and applicable codes and whether a siting permit for the small cell facilities or support structure should be issued for the location in the manner requested by the applicant, consistent with this division and applicable laws. The permitting process will be administrative and not require the approval of the city council, unless otherwise provided in this division.

(2) A siting permit application must be submitted for each small cell facility or new support structure on a form, paper or electronic, provided by the city. If the applicant has a good faith belief that any information submitted is proprietary or confidential, then the applicant must mark each page accordingly. An application packet will be maintained by the franchise manager.

(3) The burden of proof shall at all times be on the applicant or grantee to establish compliance with requirements under this division and applicable law.

(b) *When siting permit not required*. Subject to section 23-354 of division 2 concerning construction approval of the city engineer and to applicable code requirements, a siting permit and the one-time application fee shall not be required for small cell facilities and support structures that have already received a siting permit in the following instances:

(1) For routine maintenance or repairs.

(2) For modifications that do not appreciably change position, characteristic, size, or appearance of the existing facility, unless such change would violate a provision of this division, the license, or the siting permit.

(c) *Emergency.* Where a facility has been installed without a siting permit due to an emergency, a siting permit shall be required after-the-fact within ten days if a siting permit would have originally been required to perform the work undertaken in the right-of-way in connection with the emergency. Once the emergency is abated, the small cell facilities in question must be removed unless siting permitted without the emergency as a basis for the siting permit.

(d) *Inspection*. In addition to any inspections that may be required in connection with building and electrical permitting, the city reserves the right to inspect all small cell facility or support structure work to ensure compliance with this division, including applicable siting permits. Upon completion of a facility or support structure installation, the applicant or grantee shall provide a written notice and certification of compliance, as required by the franchise manager, that the facilities or support structure were constructed in accordance with the approved specifications. No operation at the facility shall occur unless the franchise manager, should he elect to do so, has conducted a final inspection and issued a certificate of completion, provided that if the franchise manager elects not to inspect the site, the certificate of completion will be deemed issued within 14 days of the applicant's submission of its notice and certification of compliance, or upon any required final inspections and approvals required under applicable building and electrical permitting, whichever is later.

(e) *Pre-application review.* Prior to the submission of an application, the applicant is encouraged to have a voluntary pre-application meeting with the franchise manager to review preliminary documents and graphic exhibits of the proposed facilities or support structure and discuss the application, location, and design requirements for the proposed facilities. The primary purposes of the review are to streamline application processing and reduce site plan and design revisions, as well as the multiple reviews associated therewith. Any applicant desiring a pre-application review will agree in writing that the applicable timeline

for application review, as set forth in section 23-431, will be tolled during such review period. (Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-426. Fees.

(a) *One-time application fees.* Unless otherwise provided by law, all applications for siting permits pursuant to this division shall be accompanied by a nonrefundable fee for actual, direct, and reasonable costs incurred by the city to process and review the application, in the following amounts:

(1) $500.00 for an application seeking up to five small cell facilities attached to existing support structures, with an additional $100.00 for each attached small cell facility in excess of five; or

(2) For an application to install a new support structure (i.e., not a collocation), a one-time fee of $1,000.00.

(b) *Annual license fee*.

(1) As compensation for the installation of its facilities and support structures in the rights-of-way, a grantee shall pay in advance an annual license fee as follows:

a. For facilities that are collocated on an existing support structure or on a support structure, the annual license fee is $200.00 per facility (with each of grantee's installations on or about a single support structure counting as a single facility).

b. For each new pole or other support structure that grantee has erected or installed in the rights-of-way, the annual license fee is $900.00 per support structure.

(2) *Alternative license fee during pending litigation*. During the pendency of all appeals of the FCC's Declaratory Ruling and Third Reported Order in Accelerating Wireless Broadband Deployment and Removing Barriers to Infrastructure Investment, WC Docket No. 17-79, WC Docket No. 17-84, FCC 18-33, 83 Fed. Reg. 51867 (Oct. 15, 2018) ("FCC small cell order"), grantee may, in lieu of the annual license fee amounts set forth in subsection (1) above, pay the city a contingent annual license fee ("contingent license fee") of $270.00 per facility (including any support structure), less the recurring amount of any pole attachment fee charged by Huntsville Utilities for attachment of the facility subject to the license fee to a Huntsville Utilities utility pole. Upon a final decision in the appeals of the FCC small cell order, no longer subject to further review, the following shall occur with respect to the annual license fee:

a. If the portions of the FCC small cell order addressing recurring fees are upheld, then grantee shall pay the contingent license fee amount set forth in this subsection (2) unless, by separate ordinance, the city sets a different annual license fee that is (i) a reasonable approximation of the city's objectively reasonable costs associated with or allocable to applicant's use and occupancy of the rights-of-way, and (ii) no higher than the fees charged to similarly situated competitors for their installation of similar communications facilities in the rights-of-way.

b. If the portions of the FCC small cell order addressing recurring fees are reversed, vacated, or otherwise overturned by the court or are otherwise modified or repealed by applicable federal law, then applicant shall, commencing with the first payment due date after the court's decision or the effective date of that decision or change in applicable federal law, pay the license fee amounts set forth in subsection (1) above for all future license fee payments. If such fee amounts are inconsistent with applicable law, the city will revise such fees to be consistent with applicable law.

(3) *License fee computation and payment; report*.

a. The license fee (or contingent license fee, as applicable) shall be prorated

based upon the date of issuance of a siting permit for each facility and support structure. To illustrate, for a siting permit issued for a facility on June 1, applicant shall pay as the annual license fee for that facility for that year an amount equal to 7/12 of the annual amount of the license fee for that facility. After the year of siting permit issuance, there shall be no proration of the license fee for that facility.

b. The prorated license fee (or contingent license fee, as applicable) for a facility shall be due and paid at the time a siting permit is issued for that facility, and the license fee shall be due and paid annually thereafter no later than January 30 for each succeeding year. Each annual license fee payment shall be accompanied by a report, certified as true and accurate by an officer of applicant, setting forth the basis for the computation of that year's annual license fee and listing the location of each of applicant's facilities and support structures in the rights-of-way during the preceding calendar year.

(4) *Inspection and audit; verification*.

a. Subject to subsection (4)b. below, the city shall have the right to inspect and audit, upon reasonable written notice and no more frequently than every year, at grantee's offices where such records are located, all business records relevant to calculating the license fee in the form and manner as reasonably prescribed by the city to verify compliance with the license fee or other payment requirements of this division.

b. Should grantee's business records be located in another city or state, applicant shall, upon the written request of the city, make such records or information available to the city at a convenient location in the city within a time agreed to by the city and the grantee. The city and grantee shall each pay its own costs and expenses incurred in connection with any such audit, except in the event there is an underpayment of five percent or more of the amount that was due and payable to the city, in which case, in addition to making full payment of the relevant obligation, grantee will promptly pay to the city the actual costs and expenses incurred by the city associated with the audit, including attorneys' fees and the professional services of the auditor to perform the audit; provided, however, grantee's obligations to pay such costs and expenses shall be capped at $15,000.00 for any one audit. The city may not retain any person or entity to perform the audit whose compensation for performing the audit is dependent in any manner upon the outcome of any such audit, including the audit findings, the recovery of fees, or the recovery of any other payments.

c. Any additional amount due to the city as a result of the audit, including any applicable interest, shall be paid by grantee within 30 days after grantee receives a written notice from the city accompanied by a copy of the audit report and any other supporting document necessary to determine the alleged amount due is correct.

(5) *Final payment*. In the event grantee quits its operations or facilities within the city, whether by transfer or otherwise, it shall make a final payment of any amounts owed to the city within 90 calendar days thereof, and shall provide a report for the calendar year through the date of cessation of the operations or facilities, which report shall contain the information and certification required.

(6) *Evasion of license fee prohibited*. Any transactions which have the effect of circumventing grantee's payment of the license fee, including evasion of payment of the license fee by non-reporting of facilities, or grantee constructed or owned support structures, or by granting title to the facilities or support structures to any entity other than grantee, or any other means which evade the city's collection of license fee revenues, are prohibited. For a violation of this section, the city may, in addition to other remedies it may have under this division or applicable law, require the grantee to remove, at its sole expense and risk, any non-reported facility or support structure and pay a penalty of three times the annual license fee that would be due, without any proration. The removal of the non-reported facility or support structure shall be subject to the removal, repair and restoration requirements contained in this division, including division 3 which is incorporated herein by reference.

(7) *Affiliate facilities*. Facilities or support structures owned by any affiliate of grantee shall be included in the calculation of the license fee unless a fee is paid to the city by such affiliate for the use contemplated by this division.

(c) *No waiver of city rights*. No acceptance of any payment by the city shall be construed as an accord that the amount paid is in fact the correct amount, nor shall such acceptance of payment be construed as a release of any claim the city may have for further or additional sums payable under the provisions of this division. All amounts paid shall be subject to audit and re-computation by the city in compliance with this division.

(d) *Application of interest*. In the event any payment is not made on the due date, interest on the amount due shall accrue from such date at the annual rate comparable to the then-current rate used by city for late payment of delinquent taxes.

(e) *City office for payment*. Unless the city permits electronic payments or provides another payment method, all remittances for the monies due according to the terms of this division are to be made payable to the city clerk-treasurer and mailed or delivered to:

City of Huntsville, Alabama

Office of City Clerk-Treasurer

ATTN: City Clerk-Treasurer

308 Fountain Circle

Huntsville, AL 35801

Such remittances shall clearly identify or reference the applicant and its license.

(f) *Removal fee may be applicable.* A fee for removal of small cell facilities or grantee's support structure may be applicable and is hereby authorized as necessary unless the removal does not hinder vehicular or pedestrian traffic or an ongoing city project or improvement, and the city incurs no additional cost to ensure safe removal.

(g) *Additional cost for make-ready work for attachment.* Grantee may be required to bear additional costs for any necessary make-ready work estimate or construction for attachment to city-owned support structures as provided in subsection 23-433(d).

(h) *Escalation of fees.* Notwithstanding anything to the contrary contained in this section, the fees required under subsections (a) and (b) of this section may be adjusted (1) to recover a reasonable approximation of the city's actual and reasonable costs in administering and overseeing the small cell facilities and support structures installed pursuant to this division, or (2) as otherwise permitted, or not prohibited, by applicable laws.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-427. Prohibitions.

In no event shall a siting permit be approved for a small cell facility or new small cell support structure that does, or that has a reasonable likelihood of, any of the following:

(1) Interfering with the safe operation of traffic control equipment, public safety communications equipment, street or traffic control lights, or utility facilities;

(2) Interfering with sight lines or clear zones for vehicular transportation, pedestrians, or public safety purposes;

(3) Interfering with compliance with the Americans with Disabilities Act or similar federal or state standards regarding pedestrian access or movement;

(4) Interfering with vehicular traffic, passage of pedestrians, or other use of the right-of-way by the public;

(5) Interfering or failing to comply with the Alabama Department of Transportation Utility Manual, as it may be applicable and as amended;

(6) Failing to comply with applicable law, including applicable codes and standards, regarding public health and safety;

(7) Is proposed to be located closer than five feet from the street curb or edge of pavement if no curb is present, unless otherwise approved by the franchise manager;

(8) In the case of small cell facilities, being placed on any arms or any horizontal structure used to support or mount traffic control signals or other traffic control devices;

(9) In the case of small cell facilities, interfering with electrical lines, cable lines, or their associated equipment, in that small cell facilities must be placed at least ten feet away from energized electrical distribution lines, unless otherwise approved by the electric utility;

(10) In the case of small cell facilities, being hung from energized electrical lines; or

(11) In the case of small cell facilities, being mounted on abandoned poles or poles to be removed in conjunction with the undergrounding of electrical utilities in a particular area.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-428. Requirements for minimum spacing, minimal physical installation, and ability to restore rights-of-way.

(a) *Spacing*. Small cell facilities and small cell support structures shall comply with the following spacing requirements:

(1) Minimum spacing between proposed new (non-replacement) and existing privately-owned support structures that are not city-owned structures shall be as follows: the minimum horizontal distance between a new (non-replacement) support structure and associated small cell facilities and any other existing, or permitted but unconstructed, support structures and small cell facilities on the same side of the right-of-way at the time a complete application is filed with the city, irrespective of the owners/operators, shall not be less than 300 linear feet as measured parallel to the right-of-way. The franchise manager may grant any waivers of this requirement as needed based on demonstrated need or other circumstances.

(2) Spacing between proposed new (non-replacement) support structures and existing city-owned structures shall be as follows: new support structures shall be located midway between the immediately adjacent existing publicly-owned support structures on either side of the proposed support, unless a waiver is granted by the franchise manager based upon demonstrated need or other circumstances.

(3) Multiple requests for installations at the same location shall be as follows: if multiple requests are received and are pending at the same time to install small cell support structures that would violate the applicable spacing requirements, or to collocate two or more small cell facilities on the same support structure, the city may resolve conflicting requests in a reasonable and nondiscriminatory manner. The franchise manager may

grant any waivers as needed based upon demonstrated need or other circumstances.

(b) *Physical installation*. An application shall demonstrate that the placement of the proposed small cell facilities or support structure in the right-of-way is the minimal physical intrusion and burden on the rights-of-way that will achieve the goal of enhancing the provision of personal wireless services when considering all pertinent factors contained in sections 23-429 and 23-430.

(c) *Ability to restore*. If the proposed installation will disturb conditions in the right-of-way, the applicant may be required by the franchise manager to demonstrate its ability and financial resources to restore the subject area in accordance with the restoration requirements set forth in division 2.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-429. Technical considerations.

(a) If allowed, small cell facilities collocated on the same utility pole as a street light shall be on the same disconnect as the street light, where practicable.

(b) Small cell facilities shall be grounded and otherwise comply fully with all applicable codes.

(c) Whenever a conduit of small cell facilities crosses telephone or electric power wires, wires shall cross and be maintained in accordance with the National Electrical Code, the National Electrical Safety Code, and all applicable ordinances, codes and regulations of the city and all other applicable codes.

(d) Small cell facilities and support structures shall comply with the applicable structural requirements with respect to wind loading.

(e) The proposed facility or support structure shall comply with ANSI/TIA 222-G-2 structural safety requirements.

(f) The proposed facility shall comply with FCC RF safety rules.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-430. Factors.

(a) In addition to other siting permit prohibitions, technical considerations, limitations and requirements provided for in this division, the franchise manager or subsequently, upon appeal, the city council, may consider the factors, requirements, and guidelines in this section, and will apply them when determining whether to issue a siting permit for placement of new support structures or small cell facilities in the right-of-way.

(b) *Effect of prohibiting*. Consideration may be given to whether denial of a siting permit to place the proposed structures at the requested location would prohibit or have the effect of prohibiting the provision of telecommunications or personal wireless service.

(c) *General factors*. Each of the following general factors may be considered for each proposed installation regardless as to whether the installation otherwise meets the requirements, terms or conditions of this division:

(1) The ability and specifications of the structures upon which the small cell facilities are placed to safely support those facilities.

(2) The visual impact of placing the support structures or small cell facilities in the subject area, including the already existing above-ground utilities and other equipment already burdening the proposed site.

(3) The character of the area in which the facilities or structures are requested, including surrounding buildings, properties and uses.

(4) Whether the appearance and placement of the requested facilities or structures are consistent with the uniform design guidelines as may be provided in subsection (f) of this section.

(5) Whether the facilities or structures would be consistent with the historic nature and characteristics (if any) of the surrounding area; with the residential nature and characteristics of the surrounding

area; with the enhanced nature and characteristics of areas such as research parks, industrial parks, medical campuses and other similar parks and campuses; and with city and other public improvement projects, plans, and revitalization efforts in the surrounding area.

(d) *Factors related to the installation*. The following factors related to an installation may be considered regardless as to whether the installation otherwise meets the requirements, terms or conditions of this division:

(1) With regard to each antenna associated with a small cell facility:

a. When mounted at the top of a support structure, whether or not enclosed, (i) an initial installation will not exceed six feet above the top of the support structure, and (ii) a collocated installation will be no taller than necessary to house the collocation but in no event more than ten percent taller than the greater of six feet, or the original height of the support structure before the effective date of this division, or as the support structure was originally installed, whichever is later;

b. When mounted at the top of a support structure, a pole-top extension shall be no taller than necessary for separation from other attachments;

c. When mounted on a lateral standoff bracket on a support structure, the antenna shall protrude no more than necessary to meet clearances;

d. When mounted on or within an existing or replacement decorative support structure, shall conform to the design aesthetics of the original support structure, including the design, style and color; and

e. The installation shall not otherwise impair the function of the support structure.

(2) With regard to accessory equipment:

a. When mounted on a support structure other than at the top, the equipment shall be flush-mounted or as near to flush as possible;

b. When mounted on a support structure other than at the top, the equipment shall provide a minimum of ten feet of clearance above streets, driveways and sidewalks; and

c. When located in a ground-mounted cabinet, the equipment shall meet design, style, color and material requirements as may be required by the franchise manager in accordance with this division.

(3) With regard to replacement support structures:

a. Shall be installed within five feet of the location for the original support structure; and

b. Shall be of a material and dimensions that matches as closely as feasible existing adjacent support structures, or consistent with any published local standards for utility pole placements.

(4) With regard to new (non-replacement) support structures:

a. Shall be aligned with the predominant pattern of existing adjacent structures; and

b. Shall not be located directly in front of primary walkways or primary egress points to buildings, unless the franchise manager grants a waiver.

(5) All cables and wires associated with a small cell facility shall:

a. Be installed within the support structure; or

b. Flush-mounted to the support structure where internal installation is not feasible; and shrouded or

encased in a cover or conduit when flush-mounted to the support structure.

(6) An electric meter, if required, will be support structure-mounted where feasible to the extent authorized by the support structure owner and electric utility.

(7) If a facility is attached to a pre-existing utility pole or other support structure in the right-of-way, no antenna or other part of the facility shall extend more than ten feet above the height of that structure; provided that, in the event that the applicant demonstrates that National Electric Safety Code, National Electric Council, or International Code regulations (as maintained and adopted by the city) or other factors create an undue hardship in complying with this height requirement, the city franchise manager may permit a facility to extend up to 15 feet above the height of such support structure, unless it creates a public safety issue, subject to other limitations set out in this division.

(8) The accessory equipment shall, if reasonably possible, be placed at least ten feet above the ground.

(9) The color of antenna and accessory equipment shall be compatible with that of the support structure in the franchise manager's discretion.

(10) The facility (including the accessory equipment) shall not be illuminated unless required by federal regulations.

(e) *Collocation; new structures*.

(1) Subject to the provisions of this subsection (e), all small cell facilities that are placed in the rights-of-way shall be attached to a pre-existing support structure, unless the applicant demonstrates that (i) no reasonable collocation opportunities exist in the area where the small cell facility is proposed to be placed, or (ii) attachment to a new structure will provide a more visually appealing design, demonstrably more effective service coverage, or some other public benefit that would not be achieved by collocation, the applicant may request that a new pole or other support structure be installed in that area for purposes of installing the small cell facilities.

(2) Before any new support structure is permitted the applicant must have provided the city written evidence supporting a claim under subsection (e)(1)(i) or (ii) above. In the case of (1)(i), this evidence shall include, but not be limited to, affidavits, correspondence, or other written information that demonstrates that the applicant has taken all commercially reasonable actions to achieve collocation in the requested location that the applicant has pursued but has received no response or has been denied access to all potential collocation sites in the subject area (and the reasons for any such denial(s)), and otherwise show that the applicant is unable to co-locate on an existing support structure. In the case of (1)(ii), the evidence required by the city may include affidavits, correspondence, engineering report or other written information depicting the claimed more visually appealing design, demonstrating the claimed more effective service coverage, or demonstrating the claimed public benefit.

(3) If small cell facilities are to be collocated on or attached to a support structure, other than to a city-owned support structure, the applicant shall provide to the franchise manager a lease, license, permit, certificate of authority, express waiver, or other similar documentation (which documentation may be redacted as to business terms including rent or other fee or payment information), evidencing proper authorization to do so from the owner or that the owner agrees in principle to authorize that attachment. If a siting permit is issued by the franchise manager before the requisite documentation is provided, the siting permit is hereby declared to be conditional

and the documentation shall be provided to the franchise manager before the commencement of the installation, otherwise the siting permit is void without further action required by the city.

(4) To the extent consistent with applicable federal law, the franchise manager may request an applicant for a new support structure in the right-of-way to demonstrate that there are no available, technically and commercially reasonable alternative sites on separate property in the vicinity of the proposed site.

(f) *Design guidelines and considerations*.

(1) *Similar character and style of area required*. The applicant shall use its best efforts to provide a reasonable location, context, color, stealth and concealment necessary to maintain the character and style of the surrounding areas so as to minimize the visibility and environmental impact.

(2) *Design guidelines*. The franchise manager is authorized to develop a set of uniform design guidelines addressing aesthetic requirements of an installation that is consistent with this division and is applied objectively. The design guidelines may take into account standard designs generally used by wireless providers. In addition, the franchise manager may work with a grantee to establish a pre-approved set of designs for its installations that meet the provisions of this division. Any uniform set of design guidelines shall be posted on the city's website or be otherwise made available to an applicant or grantee.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-431. Application review; decisions; timeframes.

(a) *Standards for review.* Review of applications shall be in light of its conformity with applicable provisions of this division and the licenses issued hereunder, and shall be issued on a nondiscriminatory basis.

(b) *Review for completeness; notice of deficiency.* In the case of a small cell facility application, the franchise manager will, within ten days after receiving the application, determine and notify the applicant by electronic mail to the email address provided in the application whether the application is complete. An application shall not be deemed complete until the applicant has submitted all documents, information, forms and fees specifically enumerated in this division that pertain to the location, construction, or configuration of the small cell facilities or support structures at the requested location(s). If an application is deemed materially incomplete, the city must specifically identify (i) the missing documents or information, and (ii) the specific rule, regulation or code provision creating the underlying obligation to provide same. If the applicant makes a supplemental submission to address or provide the missing information or documents identified by the city within 60 days of the notice sent by the city, the city shall have ten days from receipt of such supplemental submission to verify that the application is complete and, if not, notify the applicant in writing that the supplemental submission was not sufficient to render the application complete and specifically identify the missing documents or information that still need to be submitted pursuant to the city's original notice. The additional documents or information provided in the supplemental submission shall be limited to the deficiencies cited in the original notice from the city and no material changes shall be made to the original application other than those necessary to cure any identified deficiencies. If a supplemental submission includes material changes to the proposed small cell facilities identified in the original application, proposes or requests a small cell facility not identified in the original application, or otherwise includes or makes a material change to the original application other than as necessary to cure the deficiencies identified by the city, such supplemental submission shall be deemed a new application. If an applicant fails to submit sufficient documents or information to render the application complete within 60 days of the notice sent by the city, the original notice sent by the city shall serve as written notice of the denial of the application, and the application shall be deemed denied.

(c) *Timeline for action on applications.* Unless otherwise agreed to by the applicant and the franchise manager, the franchise manager will approve or deny an application for a siting permit within the applicable time period set forth in this subsection, plus any tolling period(s) pursuant to subsection (c)(2) below.

(1) *General time period for action on application*. Subject to the tolling provisions set forth below, the city, by and through the franchise manager, will make its final decision to approve or deny the application(s) within the following time periods, unless the franchise manager and the applicant agree to toll the applicable deadline:

a. For an application(s) to collocate a small cell facility on an existing structure, within 60 days of receipt of such application(s); or

b. For an application(s) to deploy a small cell facility on a new structure, within 90 days of receipt of such application(s); or

c. For multiple applications or a single, consolidated application for a small cell facility network project which seeks approval of a mix of collocated small cell facilities and new structures (i.e., one or more of the applications is for a new structure), within 90 days of receipt of such applications.

(2) *Tolling period*. Unless otherwise agreed to in writing by the applicant and the city, the tolling period for an application, if any, shall be as follows:

a. If within ten days of receipt of an application for a siting permit to install a small cell facility in the right-of-way, the franchise manager notifies the applicant that an application is materially incomplete and specifically identifies (i) the missing documents or information and (ii) the specific rule, regulation or code provision creating the obligation to submit same to the city, the time period for action on an application shall reset and not begin until the applicant submits all of the documents and information identified by the franchise manager to render the application complete (i.e., the date the applicant submits all of the documents and information identified by the city in the deficiency notice is day zero).

b. For resubmitted applications (or supplemental submissions) following a notice of deficiency from the city pursuant to subsection (c)(2) of this section, the tolling period shall be the number of days from:

(i) The day after the date the city sends written notice to the applicant that the applicant's supplemental submission is not sufficient to render the application complete and specifically identifies the missing documents or information that need to be submitted based on the city's original notice under subsection (c)(2)b. of this section, until

(ii) The date the applicant submits all the documents and information identified by the city to render the application complete, provided that such notice regarding the insufficiency of the supplemental submission is sent by the city to the applicant within ten days following the city's receipt of the supplemental submission in response to the city's original notice under subsection (c)(2)b. of this section.

(3) *Final decision*. The franchise manager will inform the applicant in writing of his/her final decision and, if such final decision is to deny the application, provide the basis for such denial, including identifying the city code, rule, regula-

tion, or application form provision, or other applicable law on which the denial was based.

(4) *Effect of timelines*. The city's failure to issue a final decision within the processing timelines set forth shall not constitute, or be construed to constitute, a grant of an applicant's application(s). Upon expiration of these timelines, applicant may pursue whatever remedies are available to it under applicable law.

(d) *Consolidated applications.* An applicant may file a consolidated application and receive a single siting permit for approval of up to five small cell facilities, provided that the proposed facilities are in reasonably close proximity to one another. If the application includes multiple facilities, then the city may separately address each facility for which incomplete information has been received or for which the application is denied.

(e) *Appeal of decision by franchise manager.* Upon denial of its application by the franchise manager, the applicant may, at its option, either seek review in a court of competent jurisdiction or file a written appeal to the city clerk within 15 days for reconsideration by the city council and placement on the next regularly scheduled agenda of the city council. If the applicant appeals to the city council, it may seek review of an adverse council decision in a court of competent jurisdiction.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-432. Application requirements and process.

(a) *Approval required.* Except as otherwise provided, a siting permit to construct or install small cell facilities shall not be granted under this division except upon approval by the franchise manager, city council in the case of an appeal, or as otherwise designated by resolution or ordinance to consider application under this division, in which applicant must sufficiently describe the manner, form, design, placement, its effect and impact, and other pertinent information with regard to placement and maintenance of small cell facilities or new support structures in the right-of-way.

(b) *Application.* An application must be submitted for every small cell facility or support structure.

(c) *Application requirements.* At a minimum every application should include, as follows:

(1) The applicant's name, address, telephone number, and e-mail address; and the names, addresses, telephone numbers, and e-mail addresses of all consultants, if any, acting on behalf of the applicant with respect to the filing of the application;

(2) A general description of the proposed work and the purposes and intent of the small cell facility. The scope and detail of such description shall be appropriate to the nature and character of the work to be performed, with special emphasis on those matters likely to be affected or impacted by the work proposed;

(3) Site plan and engineering design and specifications, including engineering drawings to scale, of the proposed small cell facilities and related structures, including the location of radios, antenna facilities, transmitters, equipment shelters, cables, conduit, point of demarcation, backhaul solution, electrical distribution panel, electric meter, and electrical conduit and cabling, and support structure(s); the engineering drawing shall include the seal of an engineer licensed to perform services in the State of Alabama;

(4) Design documents should include photos of the existing support structure, and a photo simulation of the support structure with attached equipment. Where applicable, the design documents should include specifications on stealth design, support structure modification, and ADA compliance;

(5) Maps designating with specificity the locations of the requested facilities;

(6) The geographic coordinates (GIS) of all antenna and other proposed facilities;

(7) For city traffic light signal, written verification from the city that the pole is eligible for attachment;

(8) A load bearing study that determines whether the support structure requires re-enforcement or replacement in order to accommodate attachment of small cell facilities or equipment. If support structure re-enforcement or replacement is warranted, the design documents should include the proposed support structure modification certified by an engineer licensed to perform services in the State of Alabama;

(9) Copy of the manufacturer's detailed specifications for small cell equipment and antennas, including photographs or illustrations and a complete description of all pertinent physical and electrical characteristics;

(10) Supporting information if stealth modifications are required in order to comply with the design standards (i.e., to blend with the character and style of the surrounding area) or criteria for installations;

(11) Supporting information if the application seeks approval of a new support structure, including design and specification drawings for the new support structure, and a statement regarding the reasons for and what other alternatives, if any, were identified but not utilized, and why;

(12) Applicable design and specification drawings if the proposed installation will require reinforcement or replacement of an existing support structure;

(13) The number, size, type and proximity to the small cell facilities of all communications conduit(s) and cables to be installed;

(14) Description of the utility services required to support the small cell facilities to be installed;

(15) If the small cell facilities will be located on a support structure on the right-of-way that is owned by any entity other than the city or the applicant, the authorization documentation required in subsection 23-430(e);

(16) All permits and letters of authorization;

(17) Valid FCC license, where applicable or other appropriate certificates or permits as required;

(18) A certification from a licensed engineer that the small wireless facility and any associated new or replacement support structure shall comply with all applicable codes and FCC rules and regulations, including federal standards for RF emissions; and

(19) A declaration signed by an authorized representative of the applicant stating that the information in the application is true and accurate and that the small wireless facility and (if applicable) associated support structure will be built in conformance with the specifications set forth in the application.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-433. City-owned poles and structures.

(a) *Limitations*. City-owned poles or structures for attachment or collocation, which includes the city's decorative and architecturally significant street light poles, and traffic signal poles or stanchions, may not be available for collocation or attachment where the city engineer determines, in his/her sole discretion, that such poles are inappropriate for use as a support structure, or their use would be otherwise detrimental to public safety or welfare, and replacement or make ready use for these poles or structures may be limited or declined, unless otherwise agreed to in writing by the city engineer. All such decisions will be final.

(b) Availability of city-owned poles or structures that are allowed to be used as a support structure will be on a first-come, first-served basis, and if the city engineer, in his/her sole discretion,

determines collocation on such city-owned poles or structures has reached its maximum, is unsafe or should otherwise not be permitted, the city engineer may propose alternative collocations to the applicant.

(c) Should the city allow the use of city-owned structures or poles as a support structure, in addition to the applicable provisions of this division, the city, through its city engineer, may establish additional requirements related to the installation that are designed to address engineering, technical, safety, and other similar standards, specifications or requirements, and to otherwise protect the proper functioning, operation, maintenance, repair, and replacement of such poles or structures, and to otherwise protect the public safety and welfare. Any such additional requirements will be posted at the city's website.

(d) *Make-ready work for collocation.*

(1) For a city-owned support structure that does not support an aerial facility used to provide electric service, the applicant seeking to collocate a small cell facility shall provide a make-ready estimate of the costs, at the applicant's expense, for the work necessary to support the facility, including support structure replacement, and the applicant shall perform the make-ready work. If support structure replacement is required, the scope of the make-ready estimate is limited to the design, fabrication, and installation of a support structure that is substantially similar in color and composition to the pre-existing support structure. Applicant's make-ready work shall be subject to the right-of-way construction and restoration standards set forth herein including division 2 of this article. The replaced or altered city-owned support structure shall remain the property of the city.

(2) The city shall not require more make-ready work than is required to meet applicable codes or industry standards, the city's design guidelines, or where applicable, the city's decorative support structure requirements.

(3) If the city performs the make-ready work, the fees it charges the applicant for make-ready work shall not include costs related to pre-existing damage to the support structure or the support structure's pre-existing noncompliance with applicable codes. Such fees for make-ready work, including any support structure replacement, shall not exceed actual costs or the amount charged to communication service providers other than wireless providers for similar work.

(4) The applicant must pay the city's fees for make-ready work performed by the city, even if those fees exceed the applicant's make-ready estimate, before the wireless facilities may be operational, unless the city and the applicant otherwise agree.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-434. Construction.

(a) *Incorporation of division 2*. Unless expressly provided for otherwise in this division, the provisions of division 2 of this article, which are incorporated into this division by reference and which shall be included when reference is made to this division, shall apply to small cell facilities and support structures, including their construction, removal, abandonment, maintenance and relocation. In the case of an irreconcilable conflict between this division and division 2, this division shall apply.

(b) *Contractors*. Before any installation or other work in the right-of-way or on structures in the right-of-way commences pursuant to a siting permit, grantee must provide the franchise manager with a list of the contractors and subcontractors, and their contact information, authorized to work on the project, all of which must have a valid city business license at the time they perform any work in the city.

(c) *Coordination of work*. Upon request of the city, an applicant may be required to coordinate placement or maintenance activities under a siting permit with any work, construction, installation or repairs that may be occurring or scheduled to occur within a reasonable time frame in the subject rights-of-way, and applicant

may be required to reasonably alter its placement or maintenance schedule as necessary to minimize disruptions.

(d) *Undergrounding*. Where undergrounding is required in accordance with section 23-353 of division 2, those portions of a small cell facility that cannot be technically placed underground will be subject to stealth requirements.

(e) *Restoration*. Applicant shall be subject to the restoration provisions at section 23-355 of division 2.

(f) *Scheduling*. In the interest of the public's health, safety and welfare, upon request of the city, through the franchise manager or city engineer, an applicant shall coordinate placement or maintenance activities under a siting permit with any other work, construction, installation or repairs that may be occurring or scheduled to occur within a reasonable timeframe in the subject rights-of-way. The city may require an applicant to alter reasonably its placement or maintenance schedule for permitted work as necessary so as to minimize disruptions and disturbance in the rights-of-way. The city may provide a more definite time frame based on specific city construction or maintenance schedules.

(g) *As-builts*. An application for a siting permit, including an application to replace an existing small cell facility in the right-of-way, shall include plans showing the location of the proposed installation of facilities or structures in the rights-of-way. If the plans so provided require revision based upon actual installation, the applicant shall promptly provide revised plans. Further, the applicant shall provide "as-builts" upon completion of any installation or construction. The plans shall be in a digitized format showing the two-dimensional location of the facilities as provided in subsection 23-354(b) of division 2. The applicant shall provide such plans at no cost to the city.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-435. Conditional use of public right-of-way.

(a) The city shall retain the right, without limitation, to alter, change, or cause to be changed, the grading, installation, relocation or width of the rights-of-way within the limits of the city. Neither the issuance of a permit nor any provision set forth in this division shall affect the city's authority to add, modify, vacate or abandon rights-of-way.

(b) A grantee or an applicant, or any person that leases or otherwise uses the small cell facilities of an applicant, which has been issued a siting permit or that has otherwise been authorized to place a small cell facility or support structure in the rights-of-way shall not take any action against the city that will impede the lawful exercise of the city's rights, including the city's right to require the removal or relocation of such facilities or support structure from the rights-of-way of the city, notwithstanding the effect of same on applicant's ability to place or maintain small cell facilities in rights-of-way of the city.

(c) *All rights of city reserved*. Notwithstanding any provision of this division or the city's issuance of a license, siting permit or other authorization to place a small cell facility or support structure in the right-of-way, the city may place and maintain, grant utility easements for, or otherwise permit the placement and maintenance of other facilities in the rights-of-way, including, water, sewer, electric, gas, storm drainage, telecommunications, communications, traffic, and other types of facilities, cables or conduit, including underground and overhead installations, in rights-of-way occupied by a grantee or applicant. The city further reserves without limitation the right to alter, change, or cause to be changed, the grading, installation, relocation or width of the rights-of-way within the city.

(d) *Applicant's liability and risk*. The city makes no warranties or representations regarding the fitness, suitability or availability of rights-of-way for the small cell facilities or support structure and any performance of work or costs incurred by applicant or provision of services shall be at grantee's or applicant's sole risk. Nothing in this division shall affect the city's authority to add, vacate or abandon rights-of-way, and the city makes no warranties or representations regarding the availability of any

added, vacated or abandoned rights-of-way for small cell facilities or support structure. Notwithstanding any requirements or conditions that the city may impose in order to protect the public from injury and the right-of-way from damage, a grantee or an applicant shall be solely responsible for the adequacy and safety of the engineering of its facilities and the operations authorized by the siting permit. Construction performed to place or maintain a grantee's or an applicant's small cell facilities or support structure shall not interfere, displace, damage or destroy any utility or other facilities in the rights-of-way, including sewers, gas or water mains, storm drains, pipes, cables or conduits of the city or any other person's facilities lawfully occupying the rights-of-way of the city.

(e) *Inspection*. The city shall have the right to make such inspections of small cell facilities or support structures placed or maintained in rights-of-way as it finds necessary to ensure compliance with this division or other applicable laws. In the event the city determines that a violation exists with respect to applicant's placement or maintenance of facilities or support structures in the rights-of-way that is not considered to be an emergency or danger to the public health, safety or welfare, the city will provide notice and an opportunity to cure in accordance with subsection 23-442(a).

(f) *Cooperation*. Applicant shall comply with section 23-358 of the Code with respect to temporary movement of its facilities.

(g) *Signage*. Applicant shall comply with section 23-361 regarding signage. Notwithstanding the foregoing, applicant may install on each facility one small sign measuring no more than one foot by two feet that contains wireless provider information, emergency telephone numbers, and any other information required by local, state, and federal regulations governing small cell facilities. Such signage shall not include commercial advertising and is subject to approval by the city.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-436. Effect of siting permit.

(a) *Authority granted; no property right or other interest created.* A siting permit from the city authorizes an applicant to undertake only certain activities in accordance with this division and creates a license only. A siting permit does not create a property right or grant authority to the applicant to impinge upon the rights of others who may already have an interest in the rights-of-way.

(b) *Duration.*

(1) *For use in general*. No siting permit issued to conduct construction, installation or other activities in the right-of-way shall be valid for a period greater than 180 days.

(2) *Limitations on construction.* When the siting permit application is approved to undertake the activities described in this division, every siting permit issued shall become invalid unless the work on the site authorized by such siting permit is completed within 180 days after its issuance, or if the work authorized on the site by such siting permit is suspended or abandoned for a period of 180 days after the time the work is commenced. The franchise manager is authorized to grant, in writing, one additional extension of time, for periods that collectively do not exceed more than 180 days, provided that any extension shall be requested in writing with justifiable cause demonstrated, and further provided that:

a. If no request for extension is received, then the siting permit will become invalid;

b. If construction has not commenced by the 180th day of siting permit issuance, then the applicant must re-apply and be subject to the same provisions of this division as if the applicant is applying for the first time; and

c. Nothing in this section shall be construed to give an applicant a period for use of the right-of-way greater than 12 months without applying for a new siting permit.

(c) *No warranties.* The city makes no warranties or representations regarding the fitness, suitability, or availability of the city's right-of-way or city-owned support structures. A grantee's or applicant's use of the city's right-of-way or city-owned support structures for installation and operation of small cell facilities or for provision of wireless service is at its sole risk.

(d) *Revocation of siting permits.* Revocation of siting permits shall be governed by subsection 23-442(b) of this division.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-437. Insurance and security.

(a) *Insurance*.

(1) *Commercial general liability*. A grantee or applicant shall, at its sole expense, maintain, throughout the term of its license and any extension or renewal thereof, and such other period of time during which the grantee or applicant operates or is engaged in the removal of its facilities or structures (hereinafter referred to as "coverage period"), commercial general liability insurance using carriers licensed, authorized or permitted to conduct business in the State of Alabama and maintaining a Best rating of not less than "A." Such insurance shall include coverage for premises and operations, underground, collapse and explosion, and products and completed operations, independent contractors, contractual liability and personal and advertising injury, and shall include as additional insureds the city's present and future officers, elected or appointed officials, council, boards, commissions, agents, representatives, volunteers performing authorized city functions, and employees. Such insurance shall be in the amount of $2,000,000.00 per occurrence for bodily injury (including death) and property damage and $3,000,000.00 general aggregate. The grantee or applicant shall insure any contractors and subcontractors providing services in connection with its license or permit maintain appropriate levels of insurance and that the city is included as an additional insured under each policy except workers compensation and employer's liability. Insurance will be written on an occurrence basis.

(2) *Commercial automobile liability*. A grantee or applicant shall, at its sole expense, maintain during the coverage period commercial automobile liability insurance with a limit of $2,000,000.00 combined single limit for any one accident or loss for bodily injury, including death, and property damage covering owned, leased, non-owned, and hired automobiles used in conjunction with its operations under its license or permit. Such insurance shall include the city and the city's present and future officers, elected or appointed officials, council, boards, commissions, agents, representatives, volunteers performing authorized city functions, and employees as additional insureds.

(3) *Workers' compensation and employer's liability*. A grantee or applicant shall, at its sole expense, maintain, during the coverage period, workers' compensation coverage as prescribed by the laws of the State of Alabama and employer's liability coverage in an amount of $1,000,000.00 each accident/disease/policy limit.

(4) *Umbrella or excess liability*. A grantee or applicant shall, at its sole expense, maintain during the coverage period umbrella or excess liability insurance in the amount of $2,000,000.00. Such insurance shall include the city and the city's present and future officers, elected or appointed officials, council, boards, commissions, agents, representatives, volunteers performing authorized city functions, and employees as additional insureds.

(5) *Evidence of insurance; deductibles; approval; reservation*. On grant of a license pursuant to this division and upon each policy renewal thereafter, a grantee or applicant shall, at no cost to the city,

furnish to the city certificates of insurance (or proof of self-insurance) evidencing all of the aforementioned types and limits of insurance to be in effect. The city reserves the right to require proof of self-insurance at any time and from time to time, at no cost to the city. A grantee or applicant has the right to maintain reasonable deductibles and the city reserves the right to review and approve such deductibles, which approval shall not be unreasonably withheld or delayed. The policies obtained by applicant and proof thereof, shall be subject to the city's reasonable approval. The city reserves the right to review these insurance requirements during the coverage period and upon prior written notice to, and review and acceptance by applicant, to adjust insurance coverages and their limits when deemed necessary and prudent by the franchise manager, based upon changes in statutory law, court decisions, or the claims history of the industry, or a grantee or applicant.

(6) *Maintenance of insurance policies; grantee's coverage primary*. The liability insurance policies required under this section, if any, shall be maintained by applicant through the coverage period. Upon receipt of notice from its insurer(s), grantee or applicant shall provide the city with 30 days' prior written notice of cancellation or non-renewal of any required coverage to the city. Grantee or applicant's coverage shall be primary and non-contributory to any other insurance carried by the city, if applicable to a loss, is excess.

(7) *No limit of liability*. The legal liability of grantee or applicant to the city and any person for any of the matters that are the subject of the insurance policy(ies) required by this section, shall not be limited by said insurance policy(ies) or by the recovery of any amounts thereunder.

(8) *Certificate of insurance*. Certificates of insurance, if any, shall include the city and the city's present and future officers, elected or appointed officials, council, boards, commissions, agents, representatives, volunteers performing authorized city functions and employees as additional insureds, in the case of commercial general liability, commercial automobile liability, and umbrella or excess liability insurance. Worker's compensation and employer's liability insurance shall waive rights of subrogation in favor of the city. All subsequent notices or certificates shall be delivered to the franchise manager and the city attorney at 308 Fountain Circle, Huntsville, Alabama 35801. All deductibles under said policy shall be the sole responsibility of the grantee or applicant.

(9) *Self-insurance*. Notwithstanding any other provision of this section to the contrary, a grantee or applicant is given the option, at any time throughout the term of its license, to self-insure any or all of the types or limits of insurance coverage described in this section. If a grantee or applicant elects to self-insure, it shall submit to the city with a statement certifying such self-insurance, and a request for the city to approve such self-insurance, together with sufficient information to show that it has sufficient financial resources to self-insure without posing additional risk to the city. Provided that the grantee or applicant provides adequate information concerning its financial resources, the city will not unreasonably withhold, condition, or delay its approval of grantee's or applicant's request to self-insure.

(b) *Security*.

(1) Subject to the following subsection (2), grantee or applicant shall obtain, maintain, and replenish, at its sole cost and expense, and file with the franchise manager, an irrevocable standby letter of credit in favor of the city or surety bond in the amount of $100,000.00, or in such other amount established by the franchise manager, and suitable in form and content,

including any amendments thereto, to the franchise manager ("letter of credit", "bond", or "security"), both to guarantee the timely completion and faithful performance of all work required in connection with the license including the construction and operation of the facilities and to secure performance of grantee's or applicant's obligations and faithful adherence to all requirements of this division. Throughout the term of its license, and for 120 days thereafter, applicant shall maintain the required letter of credit or bond in the amount specified in accordance with this section. To the extent that the applicant maintains security under any separate franchise or its wireline right-of-way use agreement with the city, such security may, at grantee's or applicant's option, serve to fulfill its obligation under this subsection (b)(1), provided that said security shall refer to and include this division and shall be subject to the terms and conditions applicable to security under this division, including the right to increase the amount of security.

(2) Based on then-current factors, including the construction activity of the grantee or applicant, whether grantee or applicant is engaged in the removal of the facilities, applicant's history of compliance with this division, or such other factors which reasonably necessitate the contemplated action, the franchise manager may, in his sole discretion, modify the obligations of the foregoing subsection (1). Such modifications may include: (i) upon the written request of grantee or applicant, a waiver of the requirement to post security, or a whole or partial release of the security posted; provided that at any time and from time to time the franchise manager may require the posting of any security so waived or released; and (ii) upon the written notice to grantee or applicant, an increase in the amount of security posted. Grantee or applicant shall post the required security within 30 days or such additional time as the franchise manager may allow, without the right of an additional cure period, and the franchise manager may delay any construction activity of applicant until the required security is posted.

(3) The letter of credit may be drawn on directly by the city at any time and from time to time for the payment of the following purposes but not before the expiration of any notice or cure provisions to the extent applicable:

a. To secure the faithful performance by grantee or applicant of all terms, conditions, and obligations of this division and any later enacted regulations and ordinances pertaining to the rights-of-way or their use, including the proper installation, maintenance, operation, and removal of the facilities;

b. To compensate the city for any loss or damage to any city-owned pole or structure or other property of the city, during the course of any construction of the facilities by grantee or applicant, its agents, or employees, or any contractors or subcontractors of applicant;

c. To compensate the city for any expenditure, damage, or loss incurred by the city occasioned by grantee's or applicant's non-compliance with the provisions of this division or default under any later enacted regulations and ordinances pertaining to the rights-of-way or their use, or its failure to comply with all rules, regulations, orders, permits, and other directives of the city, issued pursuant to this division or other present or future ordinances adopted by the city;

d. To secure the payments of premiums for the liability insurance required pursuant to this division; or

e. The payment to the city of any amounts for which applicant is liable that are not paid by grantee's or applicant's insurance.

(4) For the city to recover under this subsection (b) for any failure to properly construct or operate the facilities or any alteration, repair, maintenance, or restoration of city structures or property, in connection with such construction or operation, it is not necessary that the city first perform such work.

(5) The rights reserved to the city with respect to the letter of credit are in addition to all other rights of the city, whether provided for in this division or otherwise authorized by law; and no action, proceeding, or exercise of a right with respect to such letter of credit shall affect any other rights the city may have.

(c) *Right to require replacement of letter of credit or insurance*. If the financial condition of any company issuing a letter of credit pursuant to this section 23-437 materially and adversely changes, the city may, at any time and from time to time, require that any such letter of credit be replaced with such other insurance policy or letter of credit consistent with the requirements set forth in this section.

(d) *Notice*.

(1) Each insurance policy shall contain a covenant or endorsement of the insurer to provide 30 days' advance written notice by certified mail of such insurer's intention to cancel, substantially change, or not to renew such policy to both the franchise manager, city attorney, and grantee or applicant; provided, however, in the event said policy fails to so contain such a notice provision to the franchise manager and city attorney, then grantee or applicant shall be responsible for providing notice to the franchise manager or city attorney. Grantee or applicant shall, in the event of any such notice, obtain, pay premiums for, and file with the franchise manager and city attorney written evidence of the issuance of replacement policies prior to the expiration of any such policy.

(2) In no event shall the letter of credit be canceled without 60 days' advance written notice by certified mail to both the franchise manager and city attorney. Grantee or applicant shall, in the event of any such cancellation, obtain and file with the franchise manager and city attorney written evidence of the issuance of a replacement letter of credit that conforms to the requirements of this section prior to the expiration of any such letter of credit.

(3) Failure to carry or keep such insurance and letter of credit in force throughout the period set forth in this section shall constitute a violation of this division. The city, through its franchise manager, reserves the right to stop any work related to the facilities until proper evidence of insurance and the letter of credit is furnished.

(e) *Commencement of work*. Grantee or applicant shall not commence any work in the rights-of-way, including the work of installing any facilities, until the insurance and letter of credit requirements of this section have been complied with.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-438. Damages and defense.

(a) *Hold harmless and indemnification*.

(1) Grantee by its acceptance of its license agrees to and does thereby indemnify, defend, and hold the city and the city's present and future officers, elected or appointed officials, council, boards, commissions, agents, representatives, volunteers performing authorized city functions, and employees whole and harmless from and against all claims, costs, losses, expenses through appeal (including reasonable attorneys' fees, and costs or expenses incidental to the investigation of claims and lawsuits), demands, payments, suits, actions, recoveries, penalties, fines, liabilities, judgments, and damages, of any nature and description, including any suit or claim for personal injury, property damage, defamation, antitrust, errors and omission, theft, fire,

royalties, license fees, or infringement of copyright or patent rights, resulting from or arising out of or by reason of: (1) grantee's actions pursuant to its license, and each siting permit issued thereunder, and the rights awarded thereunder, or the procedures leading thereto, (2) any act or omission of grantee, its agents, employees, representatives, contractors, or sub-contractors, including in the construction, installation or operation of, or the provision of service over, the small cell facilities or support structure in the city, or any portion thereof, (3) any failure by grantee to comply with any applicable law or the terms and conditions of this division, its license and each siting permit, (4) grantee's performance under its license and each siting permit, (5) the use of portions of grantee's small cell facilities or support structures by other persons, including other communications service providers, or (6) the presence of any hazardous substance or environmental hazard brought into the rights-of-way by grantee or by any person acting on its behalf or under the rights granted under its license and siting permits.

(2) The foregoing obligations of this subsection (a) shall survive the expiration, termination, or revocation of the license.

(b) *Notice*. In order for the city to assert its rights to be indemnified, defended, or held harmless, the city must notify grantee within a reasonable time of any claim or legal proceeding which gives rise to such right.

(c) *Defense*. With respect to grantee's indemnity obligations set forth in this section and in section 23-439, grantee shall provide the defense of any claims brought against the city by selecting counsel of grantee's choice to represent the city and defend the claim, subject to the consent of the city, which shall not be unreasonably withheld. Nothing herein shall be deemed to prevent the city from cooperating with grantee and participating in the defense of any litigation by its own counsel at its own cost and expense. After consultation with the city, grantee shall have the right to defend, settle, or compromise, at its cost and expense, any claim or action arising hereunder, and grantee shall have the authority to decide the appropriateness and the amount of any such settlement, provided, however, that any such settlement shall include, at a minimum, a full and final release of all claims against the city and shall include a provision that the settlement does not constitute an admission of wrongful conduct by the city. In the event that the terms of any such settlement do not include a full and final release of the city, grantee shall not settle the claim or action raised against the city. All of grantee's right to enter a settlement shall entail only payment of monetary amounts by grantee or obligations to be performed fully by grantee, and under no circumstances shall grantee have the power to bind the city to any obligation to pay any monetary amounts, perform any particular action, or refrain from performing any action (although the city may in its discretion independently agree to any such condition).

(d) *Indemnification not limited*. The indemnification obligations hereunder are not limited in any way by limitation of the amount or type of damages or compensation payable by or for grantee under worker's compensation, disability or other employee benefits acts, or the acceptance of insurance certificates required hereunder, or the terms, applicability, or limitations of any insurance held by grantee.

(e) *No waiver of city rights*. The city does not and shall not waive any rights against grantee which it may have by reason of grantee's indemnification, or because of the acceptance by the city of grantee's proof of insurance or deposit with the city of any insurance policies described herein.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-439. Limitation of liability; immunity.

Except to the extent expressly provided for otherwise in this division, the city shall be responsible for its own acts of negligence, or intentional or willful misconduct committed by the city for which the city is legally responsible, subject to defenses, immunities, and limitations

of liability provided by applicable law; provided, however, notwithstanding anything to the contrary contained in this division and in no event shall the city, its present and future officers, elected or appointed officials, council, boards, commissions, agents, representatives, volunteers performing authorized city functions, or employees be liable to grantee, its affiliates, officers, directors, agents, employees, customers, tenants, licensees, contractors, subcontractors, or assigns for any special, indirect, or consequential damages, including any loss, expense, or damage to profits, business, revenue, or income (whether arising out of the damage to or destruction of the small cell facilities or support structures, in whole or in part, transmission interruptions or problems, any interruption or degradation of service or otherwise), arising in any manner, including the city's negligence, and grantee shall indemnify, defend, and save harmless the city and its present and future officers, elected or appointed officials, council, boards, commissions, agents, representatives, volunteers performing authorized city functions, and employees from and against any and all claims, costs, losses, expenses through appeal (including reasonable attorneys' fees, and costs or expenses incidental to the investigation of claims and lawsuits), demands, payments, suits, actions, recoveries, penalties, fines, liabilities, and judgments, of any nature and description, with respect to such special, indirect, or consequential damages. The foregoing obligations of this section shall survive the expiration, termination or revocation of the license.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-440. Compliance with laws.

(a) *Compliance with laws.* All small cell facilities and associated support structures shall be installed, erected, maintained and operated in compliance with all applicable federal, state and local laws and regulations, including, but not limited to, regulations of the FCC.

(b) *Engineer's certification.*

(1) Following the installation of any small cell facilities and associated support structures, and thereafter no more than once annually upon the written request of the franchise manager, the grantee or applicant, shall furnish the franchise manager, a written certification from a licensed professional engineer qualified to practice in the State of Alabama stating that those facilities and structures have been inspected and are being maintained, operated and used in compliance with all applicable laws and regulations, including those of the FCC that pertain to the transmission of wireless communication signals.

(2) In addition, the franchise manager may require that, along with the engineering certification, the report or study upon which the certification is based is provided to the city. The city may, at its sole cost, have the report or study reviewed by an engineer engaged by the city to review the report or study for compliance with applicable law.

(3) If those facilities and support structures should fail at any time to comply with applicable laws and regulations, the grantee or applicant, at its expense, shall (1) cause those facilities and structures to be brought into compliance with such laws and regulations within 15 days of the date of any written notice to them from the franchise manager of noncompliance, or (2) cease all wireless service operations related to those facilities or structures until the grantee or applicant comes into full compliance with laws and regulations.

(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-441. Applicability.

(a) *Amendments.* The city may, at any time and from time to time, amend this article, including this division and division 2, as it shall find necessary in the lawful exercise of its police powers and in the management of the rights-of-way or otherwise in the exercise of its control and authority over the rights-of-way and city property located therein. The provisions hereof shall be applicable to all small cell facilities and support structures placed in the rights-of-way on or after the effective date of the ordinance adopting or amending these provisions, as

applicable. Further, to the full extent permitted by state and federal law, the provisions hereof shall be applicable to all existing small cell facilities and support structures placed in the rights-of-way prior to the effective date of the ordinance adopting or amending these provisions, as applicable, except that any provision of this division regarding the design, size, composition, or location of small cell facilities shall not apply to any facilities lawfully placed within any right-of-way prior to the effective date of the ordinance from which such provision is derived.

(b) *Exemptions and non-applicability.* This division regulates the placement of small cell facilities and support structures located or proposed to be located on the rights-of-way. This division does not apply to the placement of such facilities or structures on city-owned property not located within the right-of-way, which placement will be allowed only through a lease or similar agreement with the city. The placement of an antenna, facilities or equipment related to the following types of wireless communication services are exempt from regulation under this division: facilities owned or controlled, or dedicated to primary use by any federal, state or local government or agency to provide safety or emergency services. Further, the provisions in this division are not intended to alter, affect or modify the provisions of existing franchises, licenses, use agreements or ordinances relating to the franchising of cable systems, cable operators, or any landline telecommunications and related facilities, providers or services. No provision in this section or elsewhere in this division is intended to permit, regulate or authorize the placement by grantee or applicant or other wireless provider of fiber optic lines, coaxial cable, switches, pedestals or networking equipment of any type that is used to transport telecommunication signals, data, messages, or cable services between support structures or between any other points on the right-of-way. In the event any such grantee or applicant or wireless provider desires to place telecommunications or cable system equipment along the right-of-way at points not regulated by this division, it must obtain from the city a separate franchise or similar agreement or authorization that authorizes, governs and applies to such use of other locations on or along the right-of-way.

(c) *Existing agreements.* If a wireless provider has an existing franchise agreement, lease, right-of-way use agreement or other similar agreement with the city that addresses the placement of small cell facilities or support structures that was in effect prior to the enactment of this division, the existing franchise or agreement shall remain in force for its remaining term (but not for any extension or renewal thereof), and its provisions shall control over any conflicting provisions of this division. Thereafter, the wireless provider's small cell facilities or support structures shall be regulated by this division. Notwithstanding the foregoing, any such wireless provider with an existing franchise or agreement related to small cell facilities may, at its sole option, elect to terminate the franchise or agreement and become immediately subject to this division.
(Ord. No. 20-270, § 1, 4-9-2020)

Sec. 23-442. Enforcement.

(a) *Notice of violation; opportunity to cure.*

(1) If the franchise manager is of the opinion that a grantee is in violation of a provision of this division, including a license or a siting permit issued under the authority of this division, he shall provide grantee with a written notice of violation describing the nature of the violation and requirements for correction.

(2) Within ten business days of receiving a notice of apparent violation, grantee shall present facts and arguments in refutation or excuse of the alleged violation, or present a plan for correction of the violation including an estimated schedule for completion of the corrective action. The franchise manager shall thereafter determine whether the violation has been refuted or excused, or may approve the corrective plan in whole or part, or require changes thereto. The cure period for any corrective action shall be reasonably established by the franchise manager, provided that the period shall not be less than 30 days in the case of any fees or other charges due and not less than 60 days in all other cases, except in the case

of an emergency or except as otherwise expressly provided for in this division, the license or a siting permit.

(3) During the cure period any action to prosecute the violation, including revocation of the license or a siting permit, shall be held in abeyance.

(b) *Revocation*.

(1) In addition to all other rights or remedies which the city has pursuant to law or equity or under this division or a license or siting permit issued hereunder, and subject to applicable law, the city may revoke the license and all rights and privileges pertaining thereto including each and every siting permit issued thereunder, or to revoke one or more siting permits, in the event that:

a. Grantee is in violation of any material provision of this division, its license, or a siting permit, and the violation is not capable of being cured or grantee has not, to the city's satisfaction, refuted or excused the failure to comply or has not complied with the cure provisions set forth hereinabove in subsection (a).

b. Grantee has engaged in an evasion or attempt to evade any material provision of this division, its license, or a siting permit, and fails or refuses to cure it.

c. Grantee has perpetrated or attempted to perpetrate any fraud or deceit upon the city.

d. There is any material misrepresentation of fact by grantee in any permit application or report filed pursuant to this division.

(2) The franchise manager shall have the authority to revoke a siting permit, subject to the right of appeal to the city council provided that the grantee files a written notice of appeal with the franchise manager within 30 days of the revocation. The city council shall have the authority to revoke a license, which includes all siting permits issued thereunder. Prior to revoking the license, or in the case of a duly filed appeal of the revocation of a siting permit, the city council shall schedule a hearing on the matter and grantee shall be given at least 30 days' advance notice of the date and time for the hearing and the grounds for revocation of the license. At such hearing, grantee shall have the right to be heard on the matter and may present evidence on its behalf, including proof refuting or excusing the violation.

(3) Within 30 days of the conclusion of the hearing, the city council may, by a majority vote of its members, adopt a resolution revoking the license or upholding the revocation of a siting permit, where it finds that there is a basis to do so and grantee shall, thereafter, be notified in writing of the council's decision.

(c) *Stop work order*.

(1) The franchise manager may, at any time and from time to time, issue a stop work order for construction of all or any portion of the facilities or a support structure when the franchise manager determines, in his/her sole discretion: (1) that, subject to the cure provisions in subsection (a) of this section, the activity is being performed contrary to the provisions of the siting permit issued for the site; or (2) that the activity has caused, or is likely to cause, a situation to exist that poses or would pose a clear and immediate danger: (i) to life or health, (ii) of a significant loss of property or services, or (iii) of significant damage to or destruction of the rights-of-way (there is no opportunity to cure in this instance). The order may be issued, at the franchise manager's option, on site or to the provider's technical contact person. The franchise manager will lift any such stop work order as soon as possible after he/she determines that the situation giving rise thereto no longer exists.

(2) It shall be a violation of this division for a provider, or those persons working on its behalf, to disobey a stop work order. The general penalty provisions of section 1-7 of this Code shall apply and a citation may be issued in accordance with section 2-1 of this Code. Each day that the violation continues constitutes a separate offense.

(d) *Violation by wireless provider*. Subject to the cure provisions set forth in subsection (a) of this section, it shall be a violation of this division for a wireless provider to fail to comply with this division and any terms or conditions of its license or a siting permit. The penalty provisions of section 1-7 of this Code apply and a citation may be issued in accordance with section 2-1 of this Code. Each day that the violation continues, after the applicable cure period, if any, constitutes a separate offense.

(e) *Unauthorized facilities or support structure*.

(1) It shall be a violation of this division for any person, its contractor, servant, agent, or employee, to construct, operate, or maintain, a small cell facility or support structure in the rights-of-way without having obtained a license from the city and a siting permit for the particular location from the franchise manager. The penalty provisions of section 1-7 of this Code apply and a citation may be issued in accordance with section 2-1 of this Code. Each day a violation continues is a separate offense.

(2) In addition to prosecution of the violation in accordance with subsection (1) above, a wireless provider who has failed to obtain a siting permit for a particular location shall pay an additional administrative fee of $500.00 for each such location that does not have a siting permit.

(f) The remedies and penalties set forth herein are nonexclusive and the exercise of one or more of such remedies or penalties shall not preclude the exercise of another.

(g) In addition to the other remedies previously set forth herein, the city may take all necessary civil action to enforce the provisions hereof and may seek appropriate legal or equitable remedies or relief, including injunctive relief. The remedies set forth in this section are in addition to and cumulative of all other remedies provided by law.
(Ord. No. 20-270, § 1, 4-9-2020)

RESERVED*

*__Editor's note—__Section 17 of Ord. No. 12-365, adopted May 24, 2012, repealed former ch. 24, §§ 24-31—24-43, 24-61—24-65, 24-91—24-95, 24-121—24-125, 24-161, 24-201—24-220, 24-251—24-264, which pertained to taxation and derived from Ord. No. 93-19, §§ 1—30, adopted Jan. 28, 1993; Ord. No. 93-24, §§ 1—14, adopted Jan. 28, 1993; Ord. No. 93-25, §§ 1—20, adopted Jan. 28, 1993; Ord. No. 94-248, §§ 2—4, adopted May 5, 1994; Ord. No. 00-1015, adopted Dec. 21, 2000; Ord. No. 02-367, § 1, adopted May 9, 2002; Ord. No. 02-368, § 1, adopted May 9, 2002; Ord. No. 02-956, § 1, adopted Nov. 14, 2002; Ord. No. 02-1069, § 1, adopted Dec. 19, 2002; Ord. No. 03-807, § 2(1), (2), adopted Sept. 11, 2003; Ord. No. 04-245, § 1, adopted March 25, 2004; Ord. No. 04-246, § 1, adopted 3-25-2004; Ord. No. 10-186, §§ 1, 2, adopted March 25, 2010; and Ord. No. 10-678, §§ 1—5, adopted Sept. 9, 2010. See ch. 15, art. III and art. VIII.

Chapter 25

TRAFFIC AND VEHICLES*

Article I. In General

Sec. 25-1. Definitions.
Sec. 25-2. State law and regulations adopted.
Sec. 25-3. Persons riding animals or driving animal-drawn vehicles.
Sec. 25-4. Roadblocks.
Sec. 25-5. Ambulances; when to go to accident scene.
Sec. 25-6. Unlawful materials on streets; damage to public way.
Sec. 25-7. Reserved.
Secs. 25-8—25-40. Reserved.

Article II. Administration and Enforcement

Division 1. Generally

Sec. 25-41. Direction of traffic by police.
Sec. 25-42. Direction of traffic by officers of fire and rescue department.
Sec. 25-43. Enforcement of handicapped parking zones.
Sec. 25-44. Enforcement of unauthorized vehicles parking on private property.
Secs. 25-45—25-70. Reserved.

Division 2. Vehicle Towing and Impoundment

Sec. 25-71. Definitions.
Sec. 25-72. Wreckers declared not to be emergency vehicles.
Sec. 25-73. Business license and vehicle inspection permits required.
Sec. 25-74. Liability.
Sec. 25-75. Vehicle inspection.
Sec. 25-76. Required rear lighting and illumination.
Sec. 25-77. Required reflective wear.
Sec. 25-78. Driver's license and medical card required.
Sec. 25-79. Authority at the scene of an accident.
Sec. 25-80. Release of towed vehicle by wrecker company.
Sec. 25-81. Removal of a vehicle from an accident scene.
Sec. 25-82. Unauthorized presence of a wrecker at an accident scene.
Sec. 25-83. Intercepting police radio wrecker communications.
Sec. 25-84. Impoundments.
Sec. 25-85. Impoundment hearings.
Sec. 25-86. Reports of repossession required.
Sec. 25-87. Reports of towing from private property required.
Sec. 25-88. Information for written reports.
Sec. 25-89. Applications and conditions for participation in city wrecker rotation system.

***Cross references—**Any ordinance providing traffic or parking regulations for specific locations or routing buses in a manner not inconsistent with this Code saved from repeal, § 1-11(a)(19); traffic regulation by airport authority, § 6-61 et seq.; motor vehicle parking at Huntsville International Airport, § 6-81 et seq.; junk, litter and inoperable vehicles, § 12-151 et seq.; inoperable motor vehicles on public property, § 12-202; nonmotorized vehicles on public property, § 12-203; motor vehicles and sound amplification systems on public premises, § 12-291 et seq.; regulations of smoking in municipal buildings and vehicles, § 14-100; offenses and miscellaneous provisions, ch. 17; sleeping in parked vehicles, public places or on private lot of another, § 17-101 et seq.; wheeled recreational vehicles, § 19-1; vehicles in parks to be driven on roadways, § 19-2; streets, sidewalks and other public places, ch. 23.

Article III. Traffic Control Signs, Signals, Devices and Markings

Sec. 25-101. Location ratified.
Sec. 25-102. Required; exception.
Sec. 25-103. Display of unauthorized signs, signals or markings.
Secs. 25-104—25-130. Reserved.

Article IV. General Rules of Vehicle Operation

Division 1. Generally

Sec. 25-131. Driving through business property to avoid traffic control devices.
Sec. 25-132. Truck routes.
Sec. 25-133. Driving on old airport property.
Sec. 25-134. U-turns at intersections.
Sec. 25-135. Vehicles driven through processions.
Sec. 25-136. One-way streets.
Secs. 25-137—25-160. Reserved.

Division 2. Speed

Sec. 25-161. Generally.
Sec. 25-162. Signs.
Sec. 25-163. Street schedule.
Sec. 25-164. Construction or repair zones.
Secs. 25-165—25-179. Reserved.

Division 3. Restricted Use of Wireless Communication Devices While Driving

Sec. 25-180. Definitions.
Sec. 25-181. Restricted use of wireless communication devices while driving.
Sec. 25-182. Exceptions.
Sec. 25-183. Violations.
Sec. 25-184. Penalty.
Secs. 25-185—25-200. Reserved.

Article V. Stopping, Standing and Parking

Division 1. Generally

Sec. 25-201. Fines.
Sec. 25-202. Application of article.
Sec. 25-203. Signs and/or markings required.
Sec. 25-204. Stopping, standing or parking prohibited in specified places.
Sec. 25-205. Violations.
Sec. 25-206. Parking not to obstruct traffic.
Sec. 25-207. Bus stops.

Sec. 25-208. Unauthorized vehicles parking in designated stands.
Sec. 25-209. Spaces for government vehicles.
Sec. 25-210. Parking or standing on railroad tracks.
Sec. 25-211. Obstructing alleyways prohibited.
Sec. 25-212. Parking vehicles more than 20 feet in length.
Sec. 25-213. Parking on service drive or alley in public housing project.
Sec. 25-214. Parking at entrance to hotels, theaters, and bus stations.
Sec. 25-215. Parallel and angle parking; manner of parking.
Sec. 25-216. Parking for certain purposes.
Sec. 25-217. Limited parking.
Sec. 25-218. Stopping or standing prohibited during certain hours on certain streets.
Sec. 25-219. Loading and unloading trucks.
Sec. 25-220. Street cleaning.
Sec. 25-221. Parking for disabled individuals.
Sec. 25-222. Parking in emergency lanes.
Sec. 25-223. Parking on private property.
Secs. 25-224—25-240. Reserved.

Division 2. Public Parking System

Sec. 25-241. Established.
Sec. 25-242. Central business parking district established.
Sec. 25-243. Permits.
Sec. 25-244. Off-street parking facilities enumerated.
Sec. 25-245. Fees and rates for off-street parking facilities.
Sec. 25-246. On-street meter rates.
Sec. 25-247. Convention groups; rate modification; city-owned parking facilities.
Sec. 25-248. Buses.
Sec. 25-249. Control devices in off-street parking facilities; duty of director of parking and public transit.
Sec. 25-250. Compliance.
Sec. 25-251. Use of parking facilities restricted.
Secs. 25-252—25-270. Reserved.

Division 3. Parking Meters

Sec. 25-271. Definitions.
Sec. 25-272. Designation of parking spaces.
Sec. 25-273. Bus stops, taxicab stands.
Sec. 25-274. Designation of loading zones.
Sec. 25-275. Installation of meters.
Sec. 25-276. Arrangement and maintenance of meters.
Sec. 25-277. Operation of meters.
Sec. 25-278. Hours of operation of parking facilities.
Sec. 25-279. Vehicles to be parked in marked spaces.
Sec. 25-280. Collection and disposition of coins.
Sec. 25-281. Overtime parking; deposit of coin to extend time.
Sec. 25-282. Parking adjacent to expired meter.
Sec. 25-283. Occupying vehicle overnight.
Sec. 25-284. Covering meters.
Sec. 25-285. Report of parking violations; general duties.
Sec. 25-286. Parking violations information reported; notice.
Sec. 25-287. Failure to pay fine for violation.
Sec. 25-288. Failure to respond to parking violation notices.
Sec. 25-289. Meter bags for special church events.
Sec. 25-290. Meter bags for contractors.
Secs. 25-291—25-320. Reserved.

Article VI. School Traffic

Sec. 25-321. Traffic study.
Sec. 25-322. School crossings; signs; speed limit.
Sec. 25-323. Signs.
Sec. 25-324. Direction of traffic.
Sec. 25-325. Parking areas; designation.
Sec. 25-326. Obedience to parking area signs.
Sec. 25-327. Driving on school grounds.
Sec. 25-328. Turning movements at exits from school grounds.
Secs. 25-329—25-360. Reserved.

Article VII. Vehicle Equipment and Condition

Division 1. Generally

Sec. 25-361. Condition of brakes.
Sec. 25-362. Mufflers; prevention of noise.
Secs. 25-363—25-380. Reserved.

Division 2. Vehicles Scattering Load

Sec. 25-381. Definitions.
Sec. 25-382. Penalties.
Sec. 25-383. Intent.
Sec. 25-384. Presumption.
Sec. 25-385. Exemptions.
Sec. 25-386. Enforcement.
Sec. 25-387. Spilling vehicle loads prohibited.
Sec. 25-388. Solid sides, tailgate and solid top or tarpaulin or confinement system required with exception for special vehicles.
Sec. 25-389. Covering, securing, or sealing of loads required.
Sec. 25-390. Securing of boat loads required.
Sec. 25-391. Maximum load height imposed.
Sec. 25-392. Tracking debris onto public streets or other public ways prohibited.
Sec. 25-393. Clearing of streets by persons responsible for spills or tracking.
Secs. 25-394—25-420. Reserved.

Article VIII. Bicycles

Sec. 25-421. Definitions.
Sec. 25-422. Rider responsibility.
Sec. 25-423. Condition.
Sec. 25-424. Towing.
Sec. 25-425. Riding on sidewalks.
Sec. 25-426. Trick riding.
Sec. 25-427. Parking.
Sec. 25-428. Warning for safe operation.
Sec. 25-429. Bicycle alterations.
Secs. 25-430—25-460. Reserved.

Article IX. Visual Obstructions

Sec. 25-461. Enforcement.
Sec. 25-462. Street intersections; visibility area delineated.
Sec. 25-463. Driveways; visibility area delineated.
Sec. 25-464. Outside the triangular area.
Sec. 25-465. Exceptions.
Sec. 25-466. Existing obstructions.

ARTICLE I. IN GENERAL

Sec. 25-1. Definitions.

The following words, terms and phrases, when used in this chapter shall, for the purpose of this chapter, have the meanings respectively ascribed to them in this section and in Code of Ala. 1975, § 32-1-1.1, except in those instances where the context clearly indicates a different meaning and except as otherwise provided.

Stop, when required, means complete cessation from movement.
(Code 1982, § 14-1)

Cross reference—Definitions generally, § 1-2.

Sec. 25-2. State law and regulations adopted.

In addition to all other provisions of law relating to the speed and operation of motor vehicles in the city, there are adopted by the city all laws of the state and all rules and regulations of the state highway department pertaining to the control of traffic and motor vehicles on highways that are not felonies under state law. A violation of such laws, rules and regulations shall be unlawful and a violation of this Code.
(Code 1982, § 14-2; Ord. No. 87-217, § 14-2, 5-28-1987)

Sec. 25-3. Persons riding animals or driving animal-drawn vehicles.

Every person riding an animal or driving any animal-drawn vehicle upon a roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle by this chapter except those provisions of this chapter which by their very nature can have no application.
(Code 1982, § 14-26)

State law reference—Similar provisions, Code of Ala. 1975, § 32-5A-5.

Cross reference—Animals, ch. 5.

Sec. 25-4. Roadblocks.

It shall be unlawful for any person, either individually or in concert with others, to operate upon or adjacent to the traveled portion of any public street or highway of the city any roadblock, or to stand in the traveled portion of any public street or highway, or in close proximity thereto, while operating any roadblock, or while soliciting money, making sales of merchandise or handing out any pamphlets or leaflets to the drivers or passengers of vehicles traveling such street. This section shall not apply to any roadblock for a driver's license check or other legitimate law enforcement purpose by authorized officers of the city, county or state.
(Code 1982, § 14-9)

State law reference—Obstructing vehicular or pedestrian traffic, Code of Ala. 1975, § 13A-11-7(a)(5).

Sec. 25-5. Ambulances; when to go to accident scene.

It shall be unlawful for any person to take an ambulance to the scene of any motor vehicle accident within the city unless such ambulance has been called by the owner or operator of a motor vehicle involved in an accident, or the police department.
(Code 1982, § 14-12; Ord. No. 05-654, § 1, 8-23-2005)

Sec. 25-6. Unlawful materials on streets; damage to public way.

(a) It shall be unlawful for any person to drive, operate, tow, push or park any vehicle, piece of equipment or structure of any kind upon any public way open to vehicular traffic when any part of such vehicle, equipment or structure or its cargo making surface contact with such public way is metal, metal alloy, wood, glass, plastic or other hard material. This section is not applicable to any person while in the performance of a contract with the city or the state for the construction, repair or improvement of any public way or of any utility located within the right-of-way. The exception contained in this subsection is limited to work authorized under the contract at the location specified in the contract and does not apply to the transportation of persons, equipment, machinery or materials of any kind to or from the location specified in the contract.

(b) It shall be unlawful for any person to do any damage to any part of any public way open to vehicular traffic or of any structure forming or supporting part of a public way open to vehicular traffic.

(c) Nothing in this section shall be interpreted as prohibiting any person from doing any act specifically authorized by the city council.
(Ord. No. 90-590, §§ 1—3, 11-20-1990)

Cross reference—Streets, sidewalks and other public places, ch. 23.

State law reference—Studs, flanges, etc., on tires, Code of Ala. 1975, § 32-5-210(b).

Sec. 25-7. Reserved.

Editor's note—Ord. No. 05-654, adopted Aug. 23, 2005, enacted new provisions which in effect superseded provisions formerly set out as § 25-7 of the Code. Former § 25-7 pertained to reports by motor vehicle repossessors of repossessing vehicles and reports by towing companies of tows made from private property at request of other than vehicle owner or police department and derived from Ord. No. 00-127, §§ 1—5, adopted Feb. 24, 200; and Ord. No. 00-219, §§ 1—3, adopted March 23, 2000. Provisions similar to those formerly set out as § 25-7 are now located in §§ 25-83 and 25-84 of the Code.

Secs. 25-8—25-40. Reserved.

ARTICLE II. ADMINISTRATION AND ENFORCEMENT*

DIVISION 1. GENERALLY

Sec. 25-41. Direction of traffic by police.

Officers of the police department, or such officers as are assigned by the chief of police, are authorized to direct all traffic by voice, hand or other signal in conformity with traffic laws; provided that, in the event of a fire or other emergency or to expedite traffic or to safeguard pedestrians, officers of the police department may direct traffic as conditions may require notwithstanding the provisions of the traffic laws.
(Code 1982, § 14-27)

State law references—Authority to regulate traffic by means of traffic officers, Code of Ala. 1975, § 32-5-1(d); obedience to police and firefighters, Code of Ala. 1975, § 32-5A-4.

*__Cross reference—__Administration, ch. 2.

Sec. 25-42. Direction of traffic by officers of fire and rescue department.

Officers of the fire and rescue department, when at the scene of a fire, may direct or assist the police in directing traffic at the scene or in the immediate vicinity.
(Code 1982, § 14-28)

State law references—Authority to direct traffic by means of traffic officers, Code of Ala. 1975, § 32-5-1(d); obedience to police and firefighters, Code of Ala. 1975, § 32-5A-4.

Sec. 25-43. Enforcement of handicapped parking zones.

Enforcement for provisions of section 25-220 shall be the responsibility of the director of parking and public transit and the chief of police.
(Ord. No. 84-164, § 1, 4-12-1984)

Sec. 25-44. Enforcement of unauthorized vehicles parking on private property.

Enforcement of section 25-222 shall be the responsibility of the director of parking and public transit and the chief of police. Such enforcement will be performed upon receipt of complaint. A ticket will be issued after the complainant signs an affidavit.
(Ord. No. 84-164, § 2, 4-12-1984)

Secs. 25-45—25-70. Reserved.

DIVISION 2. VEHICLE TOWING AND IMPOUNDMENT†

Sec. 25-71. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings

†__Editor's note—__Ord. No. 25-310, §§ 21—26, adopted April 24, 2025, repealed the former Art. II., Div. 2, §§ 25-71—25-93, and enacted a new Art. II., Div. 2 as set out herein. The former Art. II, Div. 2 pertained to similar subject matter and derived from the 1982 Code, § 14-8; Ord. No. 85-256, §§ 1—4, adopted May 9, 1985; Ord. No. 00-58, §§ 1—4, adopted Feb. 10, 2000; Ord. No. 05-654, §§ 2—20, adopted Aug. 23, 2005; Ord. No. 06-282, § 1, adopted April 11, 2006; Ord. No. 07-606, §§ 1 and 2, adopted 6-28-07; Ord. No. 07-900, § 1, adopted Sept. 13, 2007; Ord. No. 11-116, §§ 1—12, adopted Dec. 15, 2011; Ord. No. 16-964, §§ 1—7, adopted Jan. 12, 2017; and Ord. No. 20-950, §§ 1—18, adopted Nov. 5, 2020.

ascribed to them in this section, except where the context clearly indicates a different meaning:

Applicant means the operator of a wrecker service who, after being advised of the requirements and regulations for participation therein, makes known his/her desire to voluntarily participate in the city's rotation roster by making application for the same.

Chief or *police chief* shall refer to the chief of the city police department or his/her designee.

City means the City of Huntsville.

Contract wrecker shall mean that wrecker company which has contracted with the city to provide wrecker services requested by the City of Huntsville, for public safety reasons, as opposed to wrecker services requested by a private individual.

Department means the city police department.

Disabled vehicle means any vehicle which has lost its ability of self-propulsion or its ability to be transported or drawn on a public street by normal methods other than by a wrecker.

Fire department emergency incident commander means the highest ranking fire department official who is in charge of hazardous material incidents and other emergency situations which may arise while executing the mission of the fire department, duties include but are not limited to the following: management decisions related to personnel, equipment, procedures, etc., at the scene of any emergency incident.

Fire extinguisher shall mean a portable device used for extinguishing fires as defined by the National Board of Fire Underwriters, dry chemical extinguisher with either a 5-B.C. or 10-B.C. rating and underwriters laboratory approval in a quick release carrier which is capable of extinguishing fires.

Large wreckers shall be classified as any of the following types of wreckers: Tandem dual wheel or tandem rear end wreckers, or twin booms with factory rated or tested lifting capacity of 12.5 tons or over per drum and per winch and per winch line, with dual drum capacity, hydraulic or power take-off driven, and shall be equipped with dual rear twin-screw axles, and shall be equipped with quick air couplings for towing vehicles with air brakes, and shall be utilized to tow any vehicle having a gross vehicle weight exceeding 10,000 pounds, or any vehicle having dual rear axles or any tractor-trailer combination. The wrecker company shall provide documentation of lifting capacity from the factory or qualified testing facility.

Motor vehicle shall mean every vehicle which is self-propelled.

Owner means any person who holds a legal title to a motor vehicle or who has the legal right of possession thereof.

Person means any individual, partnership or association, syndicate, company, firm, trust, corporation, department, bureau, agency, business, bank, or any entity recognized by law.

Place of business shall mean the place where the wrecker company conducts business and is licensed pursuant to municipal law.

Police officer means any duly sworn law enforcement officer employed by the city.

Repossession wrecker shall mean any wrecker or large wrecker, as defined herein, used for the sole purpose of repossessing vehicles. Repossession wrecker shall include vehicles commonly referred to as "snatch trucks," as well as any and all motor vehicles used to tow or remove any vehicle from one location to another. Repossession wrecker shall not apply to wreckers used for the dual purpose of performing regular wrecker services and repossession services.

Repossessor shall mean any person in the business of providing repossession services to others or who performs repossession services on its own behalf, and includes, but is not limited to, officers, managers, agents or employees thereof.

Rotation roster means the rotation list of wrecker companies available for request by private individuals as prepared and used as provided in the execution of this chapter.

Street means a thoroughfare including public streets, lanes, alleys, etc., within the city and its police jurisdiction which is reserved for vehicle traffic.

Traffic hazard means any disabled vehicle, other than those resulting from a vehicular accident as defined herein, and which is an obstruction to the normal movement of traffic on any public street.

Vehicle shall mean every device in or by which any person or property is or may be transported or drawn upon a public street, except devices moved only by human power, or used exclusively upon stationary rails or tracks, and shall include trailers and semi-trailers.

Vehicular accident means any incident involving contact between a vehicle and any other object or vehicle which results in disabling damage to any vehicle requiring the services of a wrecker.

Wrecker shall mean any motor vehicle used for the purpose of towing or removing motor vehicles from one location to another location, for any purpose.

Wrecker business shall mean the act of towing or removing motor vehicles from one location to another location, for any reason, where either the beginning or ending location is within the city. This definition shall not include situations whereby a business owns or leases wreckers for the sole purpose of towing other vehicles owned or leased by the business.

Wrecker company shall mean any person engaged in the wrecker business.

Wrecker operator means any person who drives or otherwise uses a wrecker for wrecker business as defined herein.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-72. Wreckers declared not to be emergency vehicles.

It is hereby declared and determined that wreckers and large wreckers are not emergency vehicles and shall comply with all laws and ordinances relating to motor vehicles.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-73. Business license and vehicle inspection permits required.

No person shall engage in the wrecker business or operate wreckers on the streets within the city without first obtaining a license to do business from the city clerk-treasurer, and without first obtaining a vehicle inspection permit for each wrecker to be operated, in accordance with this chapter to be issued by the police department on an annual basis.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-74. Liability.

Each wrecker operator doing business in the city who moves or otherwise makes contact with any vehicle to be towed, assumes liability for injury to persons, property damage, fire, theft or any other acts of negligence stemming from the towing process.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-75. Vehicle inspection.

Each wrecker company doing business in the city shall be inspected by the city police department at least once per year, but more often if complaints arise, to ensure compliance with the following provisions:

(1) *Equipment necessary for all wreckers:*

a. All equipment necessary for the towing vehicle or combination of towing vehicle and towed vehicle, i.e. required lighting, including rear tow lamps or tow bar, must be fully operational, functional and in safe operating condition, and must comply with the applicable requirements of 49 C.F.R. §§ 390—399, of the Federal Motor Carrier Rules and Regulations, as the same currently exist or as they may be amended in the future. Any future amendments of the Federal Motor Carrier Rules and Regulations which result in a conflict with the additional requirements contained in this section shall be resolved in favor of compliance with the Federal Motor Carrier Rules and Regulations.

b. Certification: All wreckers of the wrecker company shall have an annual DOT (department of transportation) compliant inspection, and each wrecker shall display or carry a current and valid inspection decal or inspection certificate signifying that the wrecker is in safe operating condition. The following mechanical functions and systems shall be in proper working order and each wrecker of the wrecker company shall have the following additional equipment in the vehicle:

1. Wheels: bearings, lugs;
2. Tires: front left and right (no recap) minimum tread depth 5/32; rear left, outside, and all drive tires minimum tread depth 4/32;
3. Brakes: master cylinder; fluid level, leaks; wheel cylinder; brake hose and lines; hydrovac and lines; vacuum or air tanks; parking brake; vacuum or air gauge and buzzer or light; brake pedal fade; pedal pads, if factory equipped; adjustment; brakes;
4. Exhaust system: exhaust manifold; exhaust pipe; muffler; tail pipe;
5. Rear end: springs, shackles and clamps; leaks;
6. Clutch and transmission: adjustment, release;
7. Body: seats securely fastened and in good condition; no broken glass in any window, and no broken or cracked glass in any windshield which obstructs the driver's vision; mirrors, left and right, with no broken or cracked glass which obstructs or limits the driver's vision; wipers, windshield washers; horn; fire extinguisher; markings; driver's and passenger seat belts; flags and flares; sun visor for driver;
8. Steering: steering arm; tie rod-ends and drag-link; front springs, shackles and clamps; sector to frame mounting; steering free play; and
9. Most current edition of the Department of Transportation Emergency Response Guide Book.

c. Each wrecker shall be equipped with factory installed one-ton capacity dual wheels. Dummy wheels are prohibited.

d. Each wrecker shall be equipped with a power winch, winch line, and boom with a factory rated lifting capacity, or a tested capacity, of not less than 8,000 pounds single line capability. At the time of application, the wrecker operator shall provide documentation of lifting capacity from the factory or qualified testing facility.

e. Appropriate equipment shall be attached to each wrecker in order to prevent any vehicle being hauled or towed from being further damaged by coasting, rocking, swinging, or slamming into the wrecker or any part thereof.

f. Each wrecker shall have the following standard equipment: tow bar; safety chains; operational, fully charged 5-B.C. rated fire extinguisher mounted in an easily accessible location; wrecking bars, which must be a minimum length of 36 inches; brooms, which must have a minimum handle length of 30 inches; shovel; axe, which must have a minimum handle length of 30 inches; dolly, which is rated for use on the highway; at least three reflective road warning devices; a minimum of 80 pounds of serviceable oil dry; and a minimum of 75

feet of ⅜ inch diameter or larger steel cable for rollbacks, and 100 feet of ⅜ inch diameter or larger steel cable for conventional wreckers.

g. Yellow emergency lights shall be affixed above the top of the cab of the wrecker and must be visible from every angle, 360 degrees, around the wrecker. The warning lights shall be visible from a distance of not less than 1,500 feet under normal atmospheric conditions at night. Sirens are prohibited.

h. The name, address, and telephone number of the wrecker operator, and the wrecker number, i.e. truck #1 or other identifying number specific to that wrecker, shall be permanently affixed to and prominently displayed on both sides of the wrecker, using letters and numerals of a contrasting color than the rest of the vehicle that are clearly visible from a distance of 100 feet. The lettering used for the operator name shall be at least four inches tall and the lettering and numerals used for the address, telephone number and wrecker number shall be at least two inches tall.

i. The wrecker company shall not place or imprint on its vehicles, buildings, equipment, clothing, advertisements, or correspondence anything suggesting or implying any official relationship between the wrecker company and the city. Without limitation, the wrecker company shall not use any colors or paint schemes similar to those used by the police department; decals similar in design to department decals; any logo similar to those employed by the city or any of its departments; or any other language or wording which would cause the general public to believe the wrecker is owned or operated by the city.

j. Each wrecker shall be properly equipped with clearance and marker lights and all other equipment as required by law.

k. Each wrecker shall be equipped with warning devices, as the same are required by law applicable to trucks.

l. Each wrecker shall be equipped with dual rear adjustable floodlights with a minimum of 20,000 candlepower each.

m. Use of a hand-held mobile telephone:

1. No driver shall use a hand-held mobile telephone while driving a wrecker or vehicle.

2. No motor carrier shall allow or require its drivers to use a hand-held mobile telephone while driving a wrecker or vehicle.

3. For the purpose of this section only, driving means operating a vehicle or wrecker on a highway, including while temporarily stationary because of traffic, a traffic control device, or other momentary delays. Driving does not include operating a wrecker or vehicle when the driver has moved the wrecker or vehicle to the side of, or off, a highway and has halted in a location where the wrecker or vehicle can safely remain stationary.

4. Emergency exception: Using a hand-held mobile telephone is permissible by drivers of a CMV when necessary to communicate with law enforcement officials or other emergency services.

n. Each wrecker shall be equipped with disposable bags or other containers to safely contain and properly dispose

of any broken glass, injurious substances, oil spills, and other debris, as required by section 25-90 (14) and section 22-81 of this Code.

o. Each wrecker shall be equipped with tarps and ties adequate and serviceable to properly cover and secure any wrecked or damaged vehicle being hauled or towed to prevent materials or debris from flying or falling off while moving.

p. Each wrecker shall be equipped with one pair of bolt cutters with a minimum one-half inch opening.

q. Any wrecker equipped with tinted windshields or side windows shall have light transmission of at least 70 percent of normal visibility, and comply with applicable requirements of the Federal Motor Carrier Rules and Regulations.

r. The minimum equipment standards referred to throughout this chapter shall be determined solely by the manufacturer's specifications for the capabilities and capacities of the wreckers and all towing equipment.

s. Each wrecker shall be equipped with only those winches and cranes that have been produced and constructed by a manufacturer of such equipment which carries product liability and which regularly produces winches and cranes. A winch or crane will not be prohibited by this section if the wrecker operator submits to the chief a certification from a reputable testing laboratory, regularly engaged in the testing of such equipment or similar equipment, indicating that the capacity of the winch or crane is not less than what is required in this division of this chapter.

(2) *Equipment necessary for large wreckers:* In addition to the requirements contained in subsection (1), large wreckers, as defined herein, are required to be equipped with the following additional items and equipment:

a. Air control valve or an electrical break capability with an electrical break control box for the purpose of providing braking capability for the vehicle or trailer being towed or removed;

b. Two chock blocks to prevent rolling or slippage of the wrecker. These chock blocks should have the capability of being secured firmly to the wrecker and should be of a width equal to that of the dual wheels of the wrecker;

c. A minimum of 200 feet of ⅝ inch steel cable on multiple drums, which shall be measured from the end of the bed of the wrecker;

d. Air brakes constructed to lock the rear wheels automatically upon failure and to supply air to disabled vehicles;

e. A minimum total of two operating, fully charged 10-B.C. rated fire extinguishers mounted in easily accessible locations;

f. External air hookups and hoses;

g. At least six reflective road warning devices;

h. A minimum of 160 pounds of serviceable oil dry.

(3) *Equipment necessary for roll back wreckers:* In addition to the requirements contained in subsection (1), roll back wreckers, as defined herein, are required to be equipped under the following modifications:

a. A one-ton truck with a 19-foot bed, dual wheels, and one power winch with an 8,000 pound capacity;

b. A brake lock device;

c. Two safety tie-down chains at least ten feet in length;

d. The following standard equipment shall be substituted for the requirements of subsection (1)e. above: tow bar; safety chains; operating, fully charged 5-B.C. rated fire extinguisher mounted in an easily accessible location; wrecking bar, which must be a minimum length of 36 inches; brooms, which must have a minimum handle length of 30 inches; shovel; axe, which must have a minimum handle length of 30 inches; at least three reflective road warning devices; a minimum of 80 pounds of serviceable oil dry; and a minimum of 75 feet of ⅜ inch diameter or larger steel cable.

(4) *Equipment necessary for repossession wreckers:* In addition to the requirements contained in subsection (1), repossession wreckers, as defined herein, are required to be equipped under the following modifications:

a. The following standard equipment shall be substituted for the requirements of subsection (1)f. above: tow bar; safety chains; operating, fully charged 5-B.C. rated fire extinguisher mounted in an easily accessible location; wrecking bars, which must be a minimum length of 36 inches; and at least three reflective road warning devices.

b. The following shall be substituted for the requirements of subsection (1)h. above: The initials of the repossessor business name and USDOT number of the repossessor shall be permanently affixed to and prominently displayed on both sides of the wrecker, using letters and numerals of a contrasting color than the rest of the vehicle that are clearly visible from a distance of 100 feet. The lettering used for the repossessor name shall be at least four inches tall and the lettering and numerals used for the USDOT number shall be at least two inches tall. Additionally, all repossession wreckers shall also be clearly marked as a "recovery vehicle" or "repo wrecker" in lettering of equal size to the repossessor name.

c. Repossession wreckers shall comply with all other requirements as stated in the above subsections.

Following inspection by the city police department, each wrecker shall be issued a decal which shall be displayed in the lower left corner of the windshield. Each decal shall indicate the wrecker permit number and the current calendar year. The fee for each annual inspection and issuance of each annual inspection decal shall be $15.00. In the event a wrecker fails the annual inspection, the fee for any subsequent re-inspection shall be $15.00. If a wrecker is not issued an inspection decal following any city police department inspection or if the decal is not properly displayed on the wrecker for which it was issued, that wrecker is not authorized to do business within the city.
(Ord. No. 25-310, §§ 1, 21—26, 4-24-2025)

Sec. 25-76. Required rear lighting and illumination.

Every wrecker towing or pulling a vehicle or a train of vehicles shall display red lighted lamps and illuminating devices, including rear tow lamps and/or tow bar, on the rear end of the last vehicle that are clearly visible at a distance of 500 feet.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-77. Required reflective wear.

While on the scene of any dispatch, all wrecker operators shall wear reflective vests, coats or shirts that meet Class 2 or Class 3 of the American National Standard for High-Visibility Safety Apparel as set forth in ANSI/ISEA 107-2020.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-78. Driver's license and medical card required.

No person shall be a wrecker operator or be allowed to drive any wrecker unless such person

has in his possession a valid state driver's license or a commercial driver's license, if required by law, issued by the state department of public safety, and a current department of transportation (DOT) medical card.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-79. Authority at the scene of an accident.

Either the police officer or the fire department emergency incident commander in charge of the scene shall have the ultimate authority to direct all activities concerning the removal of vehicles and any clean up activities including requesting any additional assistance that is needed, or canceling any unneeded wreckers, vehicles, or other unneeded assistance in the interest of public safety and welfare. No wrecker company shall be allowed to clean up, load, unload or otherwise handle the cargo or contents of any wrecked or disabled vehicle beyond that which is necessary in order to properly tow the vehicle and clean the street or highway of debris as necessary without the expressed consent of the police officer in charge of the scene, the fire department emergency incident commander, the owner of the vehicle and/or the owner of the vehicle's contents and/or his agent.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-80. Release of towed vehicle by wrecker company.

A motor vehicle towed or impounded pursuant to this chapter shall be released by the wrecker company if the person or designee of the owner of the motor vehicle, including any other towing or automobile repair company, redeeming the motor vehicle satisfies in full the cost of removing and impounding the vehicle, plus such reasonable amount as may be charged by the wrecker company for storing the vehicle.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-81. Removal of a vehicle from an accident scene.

Any police officer at the scene of an accident, who in the exercise of his discretion as a police officer suspects that a vehicle involved in an accident may have been used during the commission of a crime, may direct that such vehicle be taken by the driver of the contract wrecker towing the vehicle directly to the location designated by the police officer and there held by the city for any lawful purpose, and the city will be responsible for payment of towing and storage fees.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-82. Unauthorized presence of a wrecker at an accident scene.

No person, agent or employee of a wrecker company shall drive a wrecker or large wrecker to or near the scene of a vehicular accident or disabled vehicle on the streets of the city and park the same unless such wrecker has been authorized to proceed to the scene of the vehicular accident or disabled vehicle by the police department of the city or the owner(s) or operator(s) of the vehicle(s), nor shall any representative, agent or employee of a wrecker company solicit business in any manner for a wrecker company at the scene of a vehicular accident, disabled vehicle, or on the streets of the city. The unauthorized presence of any wrecker or large wrecker parked on any public street or highway in the city at or near the scene of any accident, collision, or disabled vehicle shall be prima facie evidence of a solicitation in violation of this section.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-83. Intercepting police radio wrecker communications.

No person shall intercept any message emanating through the radio frequencies utilized by the city police department or shall divulge or publish the existence, contents, substance, purpose, effect or meaning of such intercepted communication, and use the same or any information therein contained for the purpose of soliciting or aiding another in the solicitation of wrecker business.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-84. Impoundments.

(a) Any unoccupied vehicle parked upon a public street or any public alley in the city at a place, in a manner or for a length of time

prohibited by any ordinance of the city is declared to be an obstruction to traffic and a public nuisance. Any police officer and the director of public works services are authorized to remove such vehicle or to cause the vehicle to be removed and impounded at police headquarters or in a depository provided by the city for such purpose. Such removal may be done by hauling the vehicle by wrecker. Any charge for the removal and/or impoundment of the vehicle unless otherwise provided shall be charged against the owner of the vehicle.

(b) Whenever any police officer shall find within the city limits any vehicle which he has reasonable cause to believe to be lost, stolen or abandoned, or any vehicle which is, or is likely to become, an obstruction on a public way, or to be without proper protection by reason of the person in charge or control thereof having been arrested and incarcerated, such officer shall have authority immediately to remove such vehicle or cause the vehicle to be removed to and impounded at police headquarters or in a depository provided by the city for such purposes.

(c) Whenever the driver of a motor vehicle fails to produce a valid driver's license upon the lawful request of an officer who is acting in his capacity as a law enforcement officer, such officer shall have authority immediately to remove such vehicle or cause the vehicle to be removed to and impounded at police headquarters or in a depository provided by the city for such purposes, regardless of ownership, subject to the following conditions:

(1) The officer shall make a reasonable attempt to verify the license status of a driver who claims to be properly licensed, but who is unable to produce the license on demand. A notation of the officer's attempt to verify that the driver is properly licensed shall be noted on the departmental report. If the officer is unable to verify that the driver is a properly licensed driver, the vehicle shall be impounded and the driver and occupants of the motor vehicle will be transported to a place of safety by the impounding officer.

(2) The officer shall not impound a motor vehicle pursuant to this section if the license of the driver expired within the preceding 60 days and the driver would otherwise have been properly licensed.

(3) The officer shall not impound a motor vehicle pursuant to this section if the owner of the motor vehicle or another family member of the owner is present in the motor vehicle and has a valid license.

(4) The officer may elect not to impound the motor vehicle in the event there is a medical necessity jeopardizing life or limb.

(d) A motor vehicle impounded pursuant to this section shall be released if the person redeeming the motor vehicle satisfies in full the cost of removing and impounding the vehicle, plus such reasonable amount as may be charged by the depository for storing the vehicle, and:

(1) The registered owner appears at the contract wrecker company, and presents a valid driver's license and either the original vehicle title or a copy of both the front and back of the title or a copy of the current vehicle tag receipt in the registered owner's name; or

(2) If the registered owner does not have a valid driver's license, the registered owner must present some form of picture identification along with either the original vehicle title or a copy of both the front and back of the title or a copy of a current vehicle tag receipt in the registered owner's name, and must be accompanied by an individual who has a verified valid driver's license; or

(3) A representative of the owner appears at the contract wrecker company with a valid driver's license along with a written notarized authorization from the registered owner and either the original vehicle title or a copy of both the front and back of the title or a copy of a current vehicle tag receipt in the registered owner's name; or

(4) Upon order of a court of competent jurisdiction.

(e) The contract wrecker company may have a lien upon each impounded vehicle for the amount of the cost of removing and impounding the vehicle, plus such reasonable amount as may be charged by the depository for storing the vehicle.

(f) The chief of police, or his designee, which may include the company contracted by the city to store all impounded vehicles, may advertise and sell all vehicles which have been impounded, taken or seized by the city, and which have not been claimed by the owner after such articles have been held by the chief of police or his designee for a period of 45 days or more in accordance with Ala. Code 1975, § 32-13-1 et seq.
(Ord. No. 25-310, §§ 2—4, 21—26, 4-24-2025)

Sec. 25-85. Impoundment hearings.

(a) The owner or person entitled to possession of any motor vehicle which is removed or towed from the public streets of the city, or from any public parking facility of the city, pursuant to any ordinance or policy of the city, or any of its departments, shall be entitled to an immediate due process hearing, prior to paying any towing or storage fee concerning the motor vehicle. The chief of police or any supervisory officer of the police department of the rank of police sergeant or above, designated by the chief of police, is designated and appointed as a hearing officer for the purpose of carrying out these requirements. Any owner or person entitled to possession of any motor vehicle, unless the right is waived, shall be provided an immediate due process hearing before such officer prior to being required to pay any such towing charge or storage fee. When the hearing officer shall determine at the hearing that the towing of the vehicle was in error, or that neither the owner nor any person lawfully entitled to possession caused the motor vehicle to be subject to towing under any such ordinance or policy, the vehicle shall be ordered immediately released and returned to the owner or the person in possession without the payment of any charges or fees.

(b) Any person aggrieved by any decision of any hearing officer made pursuant to this section shall be entitled to a hearing before a municipal judge by filing notice with the clerk of the municipal court within five days from the date of any such decision.

(c) At any time an arrest or citation for violation of municipal ordinances is made in connection with the towing or impoundment of any motor vehicle by the police department, the municipal judge trying the case may also hear evidence concerning the impoundment, towing and storage of the motor vehicle. If the municipal judge shall determine, after a due process hearing, that neither the owner nor any person lawfully entitled to possession of the motor vehicle was guilty of any act which caused the impoundment, towing or storage, the municipal judge shall order the vehicle immediately released without the payment of any fees or charges, or if the fees or charges have already been paid, shall order the return of the fees to the person paying the fees.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-86. Reports of repossession required.

(a) Every wrecker company or repossessor who repossesses a motor vehicle within the city limits shall notify the Huntsville Police Department records division by providing the information indicated in section 25-88 within one hour after the repossession is completed, and shall also file a written report of repossession or towing, as indicated in section 25-88, with the Huntsville Police Department records division within five days after the repossession is completed.

(b) At the time of repossession, every wrecker company operator or repossessor who repossess a motor vehicle within the city limits shall be required to have official paperwork authorizing the repossession of the vehicle on his/her person. The authorizing paperwork should include, at a minimum: the name of the authorizing entity, the name of the person/entity believed to be in possession of the vehicle, and a description of the vehicle to include tag number and vehicle identification number.
(Ord. No. 25-310, §§ 5, 21—26, 4-24-2025)

Sec. 25-87. Reports of towing from private property required.

Every towing service which tows a motor vehicle from private property within the city limits at the request of any person other than the owner of the vehicle, a person designated by the owner, or the city police department, shall notify the city police department records division by providing the information indicated in section 25-88 within one hour after completion of the towing service, and shall also file a written report of repossession or towing, as indicated in section 25-88, with the city police department records division within five days after completion of the towing service.
(Ord. No. 25-310, §§ 6, 21—26, 4-24-2025)

Sec. 25-88. Information for written reports.

The report of repossession or towing, applicable to notifications and the filing of written reports, shall contain the following information:

(1) Name and address of the person in possession, or believed to be in possession, of the motor vehicle at the time that it was repossessed or towed;

(2) Location where the motor vehicle was found and the repossession or towing was carried out, including street name and block number;

(3) Time that the repossession or towing was carried out;

(4) Date and time that the report was filed;

(5) Name of the repossessor or towing service who carried out the repossession or towing;

(6) Name of person on whose behalf the repossession or towing was carried out, if different from the repossessor or towing service;

(7) Description of the motor vehicle repossessed or towed, including, but not limited to, the year, make, model, style, vehicle identification number, tag number, and color (inside and outside);

(8) Location of the motor vehicle following repossession or towing; and

(9) Signature of the individual who carried out the repossession or towing.

(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-89. Applications and conditions for participation in city wrecker rotation system.

(a) *Written request for participation in the rotation system.* Each applicant desiring to be placed on the rotation roster shall file a written application with the police chief on a form furnished by the police department. A new applicant may file a written application at any time. Once an applicant has been accepted and placed on the rotation roster, applications for renewal shall be submitted in January of each year thereafter, and shall adhere to all of the same terms and conditions as apply to new applicants. An applicant may request to discontinue participation in the rotation roster at any time.

(b) *Equipment certification*. Each applicant shall certify that each wrecker to be utilized in service of the rotation roster meets or exceeds the following requirements at the time application is made:

(1) For each regular haul wrecker, in addition to the criteria established in section 25-75, a conventional wrecker must be equipped with dollies rated for highway use and wheel lift or hydraulic operated tilting bed trucks, with one ton rated chassis or larger and equipped with a broom, which must have a minimum handle length of 30 inches, and shovel, two fully charged 10-B.C. rated fire extinguishers, and agents to remove oil spills from the roadway;

(2) The name of the company must be permanently affixed on each side of the wrecker in four inch high or larger letters and the address and telephone number in two inch high or larger letters;

(3) All safety equipment, horns, lights, flashers, amber lights, brakes, and other similar equipment must be operational.

(c) *Copy of rules and regulations*. The chief will furnish each applicant with a copy of the rules and regulations pertaining to the operation of wreckers within the rotation system.

(d) *Inspection of wreckers and equipment.* Prior to being placed on the rotation roster, the applicant shall present and make available for inspection by the chief all wreckers and equipment that are to be used by the applicant for the provision of wrecker services.

(e) *Business license required.* Prior to being placed on the rotation roster, the applicant must furnish the chief with a copy of a current, valid business license issued by the city in the applicant's name, and prominently display said license in the applicant's principal place of business. To remain on the rotation roster, the wrecker company's city business license must remain current and valid.

(f) *Storage facilities*. Prior to being placed on the rotation roster, the applicant must agree to a preapproval inspection of the premises to ensure adequate outside storage sufficient to accommodate a minimum of ten vehicles, which is well and continuously lighted during the hours of darkness, and, at a minimum, include an area completely enclosed within a six foot high chain link or other equivalent fencing material designed to protect against unauthorized entry. Any inside storage must be within a supervised or locked building. In addition to the provision of a secure storage area, each wrecker company shall employ reasonable safeguards and procedures so that all personal belongings and contents in a stored vehicle remain intact and are returned to the vehicle's owner or agent upon request or upon release of the vehicle.

(g) *Location of storage facilities*. The wrecker company, wrecker(s) utilized, operators(s), and storage facilities must be located within the city limits or within ten miles of the city administration building. A map of those areas falling within ten miles of the administration building shall be kept on file by the city clerk/treasurer.

(h) *Certificate of insurance.* Each wrecker company participating on the rotation roster, from the time he/she moves or otherwise makes contact with any vehicle to be towed, assumes liability for injury to persons, damage to property, fires, or theft resulting from the operator's negligent acts or omissions. Therefore, prior to being placed on the rotation roster, the applicant shall furnish the chief with a certificate of insurance that indicates compliance with the following insurance guidelines:

(1) The certificate of insurance should state that the city is an additional insured. The city, its officers, employees, elected officials, agents, contractors, and specified volunteers shall be named as additional insureds on all general liability, garage keepers liability, garage liability and on-hook liability insurance. Failure of the city to procure the certificate of insurance does not waive any insurance provisions required in this chapter.

(2) The certificate of insurance should contain no special limitations on the scope of protection afforded to the city, its officers, employees, elected officials, agents, contractors, or specified volunteers.

(3) The certificate of insurance should indicate that coverage under the wrecker company's policy shall be written or endorsed to provide primary coverage to any other valid or collectible insurance. Any city coverage is noncontributory.

(4) The certificate of insurance should indicate that the city will be provided with a 30-day notice of any material change, cancellation or non-renewal, with the exception of a 10-day notice for nonpayment of premium.

(5) The certificate of insurance should state that the coverages below are in force:

a. General liability. Commercial general liability insurance, including coverage for bodily injury, property damage, personal injury, death, and products/completed operations, in an amount not less than $1,000,000.00 per occurrence and $2,000,000.00 in the aggregate.

b. Garage liability. Garage liability coverage of at least $1,000,000.00 per occurrence combined single limit for bodily injury and property damage covering owned, non-owned and hired automobiles used in conjunction with its operations under the chapter.

c. On-hook liability. On-hook liability coverage of at least $50,000.00 per occurrence.

d. Garage keepers liability. Comprehensive garage keepers' liability insurance with coverage of $50,000.00 per occurrence.

e. Workers' compensation. Workers' compensation coverage as prescribed by the State of Alabama Department of Labor.

(i) *Waiver of subrogation.* Each wrecker company/operator performing any service pursuant to this chapter waives any and all claims it may have against the city for injury, loss or damage covered under any insurance policy and each such wrecker company/operator shall cause its insurance carriers to waive any right of subrogation with respect thereto and to so notify the city.

(j) *Indemnification; non-liability.* Each wrecker company/ operator performing any service pursuant to this chapter shall indemnify and hold harmless and does hereby agree to indemnify and hold harmless the city, its officials, officers, elected officials, employees, agents, contractors and volunteers performing an authorized city function, (hereinafter referred to as "indemnitees") from and against any and all claims, liability, loss, judgments, suits, penalties, costs, expenses and damages aforesaid, including but not limited to, reasonable attorneys' fees and expenses and court costs and fees. Each wrecker company/operator's duties hereunder shall survive the termination of the wrecker company's participation in the rotation roster.

(k) *No waiver of statutory immunity.* Nothing contained in this chapter shall be construed as a waiver of any immunity of statutory protection of the city, and no third party may expand any recovery against the city due to each wrecker company/operator's duty of indemnification, set forth in subsection (j).

(l) *Decal required.* A department decal will be placed on each participating wrecker in the lower left corner of the windshield to indicate current inspection and eligibility to participate in the rotation system. Each decal shall indicate the rotation roster permit number and the current calendar year. The fee for each wrecker inspection and issuance of each decal shall be $15.00. In the event a wrecker fails the inspection, the fee for any subsequent re-inspection shall be $15.00.

(m) *Valid license plates required.* Each wrecker company shall be required to maintain a current, valid license plate on each wrecker used in responding to rotation roster calls.

(n) *Wrecker company listed only once.* Each wrecker company shall be listed on the rotation roster only once. This listing will use the name the wrecker company submitted during the application process and under which he/she is qualified under this chapter. It is prohibited for a wrecker company conducting business at one location to receive multiple listings by utilizing a different or fictitious name for wreckers operating from the same location or by utilizing wreckers with the same name out of different locations within the city. When two or more businesses or companies are owned by the same individual, partnership or parent corporation, each business or company may have a separate listing only when each business maintains completely separate offices, required documentation, logs, and wreckers labeled with the appropriate business name in accordance with section 25-75(1)h. at the approved locations. A wrecker business will be regarded as having separate locations only when each business or company continuously and regularly occupies separate, different, permanent, nonresidential, non-overlapping structures: each with its own phone number and service; each with its own dispatch number and dispatch operator; each keeping its own towing and recovery books, logs, tax records, and other required records; each prominently displaying

its city and state licenses; and each business open to customers with an employee present and available to assist customers continuously between the hours of 8:00 a.m. until 5:00 p.m., Monday through Friday.

(o) *Authorization, placement on roster.* When the chief is satisfied that the applicant is qualified, he/she will place the applicant on the rotation roster and so notify applicant.

(p) Attempts to circumvent the intent of the rotation system will result in the removal of all wrecker companies and operators associated in any way to the offending wrecker company.
(Ord. No. 25-310, §§ 7, 8, 21—26, 4-24-2025)

Sec. 25-90. Conduct of wrecker companies and operators on the rotation roster.

The following conditions shall govern the conduct of wrecker companies and operators on the rotation roster:

(1) *Obedience to traffic laws; operator safety.* No operator shall speed or violate any other traffic laws or disregard any traffic control devices while answering a call. The provision of wrecker services shall be done in a reasonable and safe manner and no operator shall needlessly congest the scene of a vehicle accident.

(2) *Rotation system participation.* Authorization to participate in the rotation system shall be considered a personal grant of permission to the wrecker company who made application for the same and shall constitute authorization only to that particular legal entity as it operates a bona fide wrecker service. It shall not be subject to assignment, transfer or lease; neither shall the wrecker company sublet the use of the name under which rotation system participation was requested and neither shall the operator permit the exercise by another in any manner of the rights or privileges granted by authorization for participation in the rotation system. Participation on the rotation roster shall not constitute a property interest. Authorization under this article is void if the business address or location of facilities is changed. Further, any change in ownership due to sale, merger, dissolution, death or any other reason shall result in removal of the wrecker company from the rotation roster and shall necessitate a new application being filed.

(3) *Submission of daytime and nighttime telephone numbers.* At the time of application, each wrecker company shall furnish the chief with one telephone number to be used for dispatches during the day and one telephone number to be used for dispatches during the night. Any changes in the aforementioned telephone numbers shall be immediately transmitted to the chief. No pagers or answering machines are permitted as call-out numbers.

(4) *Twenty-four hour service; hours of availability for vehicle access.* Each wrecker company shall maintain and be fully capable of providing wrecker services 24 hours a day, seven days a week. Further, each wrecker company shall, at no additional charge, provide access, immediately upon request, to its storage facilities between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, to individuals legally entitled or otherwise authorized to view, inspect, access, claim or retrieve personal property or vehicles stored therein.

(5) *Availability.* One attempt by phone shall be made to reach the wrecker service appearing next on the appropriate roster. The acceptance of an assignment may be made by any authorized representative of the company who can verify an immediate dispatch of the wrecker. If no contact is made or the company is unable to accept the call, that company shall be passed for that rotation of the roster and the next company in line shall be called. A wrecker operator shall not accept a dispatch for wrecker services from the rotation roster unless the operator has a

wrecker and the necessary equipment immediately available to perform the requested service.

(6) *Use of lights.* No wrecker operator shall use yellow emergency lights when in route to a service or wrecker call. The use of yellow emergency lights is authorized only at the scene of an accident or other call for service and when towing a vehicle from the scene. The use of "wig-wag" headlights is prohibited at all times.

(7) *Response with own wrecker.* The wrecker company shall respond to each dispatch received from the city with its own wrecker and shall not send another wrecker service in response to a rotation roster dispatch. The responding wrecker must display the name of the wrecker company called by the police department. In the event the dispatched wrecker is unable to perform the required services or needs assistance, the police officer has the discretion to cancel that wrecker and/or dispatch another rotation wrecker.

(8) *Response while impaired prohibited.* No wrecker operator shall respond to a dispatch when he or she has consumed alcohol in any amount or has ingested either prescription or non-prescription drugs that may impair motor skills. No wrecker operator shall respond to a dispatch when he or she is under the influence of any controlled substance.

(9) *Restriction for conviction of crimes.* No wrecker operator shall be used or employed by any wrecker company on the rotation roster if he or she has any pending criminal charges, or has been convicted within the last five years, of any felonies, or misdemeanors related to his or her capability to provide wrecker services to the public in a safe and responsible manner, including but not limited to, drug and/or alcohol offenses, assault, theft, sex crimes, murder, burglary and/or homicide.

(10) *Proficiency.* All wrecker operators on the rotation roster shall be proficient and competent in the operation of such wrecker.

(11) *Uniform clothing.* Operators shall wear clothing consistent with his/her employing wrecker company, i.e. uniform, company logo, etc.

(12) *Removal of glass, debris, etc.* Operators shall remove all glass, injurious substances, oil spills, and other debris at or near the scene of the vehicle as required by section 22-81 of this Code. No glass, injurious substances, oil spills, and other debris shall be placed inside of the towed vehicle. Any damaged personal items to be placed inside of the towed vehicle will be placed inside of a disposable bag or other container, inside of the vehicle's trunk or floor board, if possible, to prevent additional damage to towed vehicle.

(13) *Notice of acquisition of wrecker.* Each wrecker company on the rotation roster shall give notice to the chief of any wrecker acquired subsequent to placement on the rotation roster. The police department will inspect the wrecker to determine if it meets all the criteria required by this chapter. No wrecker shall be allowed to perform any rotation roster activity unless properly inspected and decaled in accordance with section 25-89.

(14) *Compliance with laws.* Every wrecker company must comply with all applicable federal, state and local laws.

(Ord. No. 25-310, §§ 9—14, 21—26, 4-24-2025)

Sec. 25-91. Storage procedures for the rotation roster.

(a) All personal property left in a vehicle and which is unclaimed will be handled in accordance with existing laws.

(b) Any person showing proof of identity and showing either proof of ownership or written authorization from the vehicle's registered or legal owner may, without charge, inspect the

vehicle and remove personal belongings therefrom during normal business hours. For purposes of this subsection, personal belongings shall be defined as those items which belong to the owner, driver or other occupant of the vehicle and which are not attached in any permanent or semi-permanent manner to the interior or exterior of the vehicle. For purposes of this subsection, permanent or semi-permanent shall mean that the removal of an attached object would cause physical damage or deformity to the interior or exterior of the vehicle.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-92. Records required for the rotation roster.

(a) Each operator shall maintain accurate records reflecting all wrecker services performed pursuant to his/her participation on the rotation roster. All information printed on the records shall be legible. Each record of wrecker service, and/or tow ticket, shall be sequentially numbered, and include the pre-printed name, address and phone number of the wrecker company, as well as the following information:

(1) The date and time the operator was contacted and requested to perform the service;

(2) The name of the person requesting the service;

(3) The location of the vehicle;

(4) A description of the towed vehicle, including license tag and identification number;

(5) The owner or operator of the vehicle, if known;

(6) Itemized list of all service charges and fees;

(7) The name of the wrecker operator;

(8) The final disposition of the vehicle; and

(9) Any related police accident, incident, arrest, event or miscellaneous identification numbers.

Regardless of the method of payment, each customer shall be given a written receipt containing the above required information, and a copy of same shall be maintained by the wrecker company for all wrecker services provided.

(b) All records required herein must be available immediately upon request so long as the request is made between the hours of 8:00 a.m. until 5:00 p.m., Monday through Friday for inspection by the chief or other city representatives. Advanced notice of an inspection by the chief or other city representative shall not be required.

(c) The operator shall maintain the aforementioned records for the current calendar year and the preceding calendar year.

(d) A record of all abandoned motor vehicles is to be maintained by the wrecker operator and any abandoned motor vehicle sold or disposed of by the operator shall be so sold or disposed of in accordance with Code of Ala. 1975, § 32-13-1 et seq., as may be amended.
(Ord. No. 25-310, §§ 21—26, 4-24-2025)

Sec. 25-93. Rotation roster notification and response.

(a) A wrecker shall be called from the rotation roster when the following circumstances occur: when the owner, driver, or person in charge of a vehicle to be towed has been advised by the officer on the scene that such vehicle must be removed and that he may call or request the wrecker company of his choice. However, only wrecker companies permitted to tow within the city shall be contacted by police. In the event the owner, driver, or person in charge of the vehicle indicates that he has no preference, or the permitted wrecker of his choice fails to respond to the call within a reasonable period of time considering the time of day, the weather conditions and the traffic conditions, the officer shall see that the next wrecker from the appropriate roster shall be called. In no event shall any officer suggest, direct, or otherwise imply that a particular wrecker be called.

(b) A wrecker operator shall promptly respond to a dispatch and arrive on-scene with a fully functional wrecker within 40 minutes under normal driving conditions. If a wrecker operator

is not capable at the time of dispatch to so respond, he/she shall immediately notify the department's communication center of this fact. If the wrecker operator provides immediate notice of the delay and provides a reasonable time of arrival on-scene, the wrecker operator may take up to a total of 50 minutes from the time of dispatch to arrive. If this is not feasible, however, the wrecker operator shall make the same known to the department's communication center and the wrecker company will be passed over for that rotation and the dispatch will go to the next wrecker company on the rotation roster. When determining whether a violation of this provision has occurred, the police department shall consider the time of day, the weather conditions and traffic conditions. Any wrecker company that refuses or fails to respond when contacted by the department's communication center for three consecutive times shall receive a 15-day suspension from the rotation roster.

(c) When a wrecker operator responds to a dispatch, but renders no wrecker services through no fault of his/her own, the wrecker company will not lose position on the rotation roster if the wrecker operator provides prompt notification of the same to the department's communications center.

(d) Two separate rosters are established as follows:

(1) *Regular haul roster:* This roster shall be in effect 24 hours a day, seven days a week for assignment by the police department to tow up to 75 ton vehicles for those persons who have no preference as to the company to use; and

(2) *Large haul roster:* This roster shall be in effect 24 hours a day, seven days a week for assignment by the police department to tow vehicles over 75 ton for those persons who have no preference as to the company to use.

(e) If the wrecker operator does not arrive on-scene within the time requirements established herein or if the public health, safety and welfare necessitate more expeditious action, the police department reserves the right to request the services of the next wrecker company on the rotation roster. Under these circumstances, the wrecker company who received the first call will forfeit his/her position on the rotation roster for that turn. Any wrecker operator who is late in responding to dispatches for wrecker service without justification may be subject to penalties as provided herein.

(f) The chief has the right to inspect any wrecker or equipment of a wrecker company on the city's rotation roster at any time to ascertain if it is being properly maintained and all required equipment is on the wrecker and in proper operating order.

(g) All wrecker companies on the rotation roster shall have wreckers and equipment inspected annually by the police department. A current inspection sticker will be issued by the department and must be properly displayed at all times.

(h) Any operator on said roster shall be an employee of the wrecker company, or listed on the company's payroll.
(Ord. No. 25-310, §§ 16, 17, 21—26, 4-24-2025)

Sec. 25-94. Rates and charges for the rotation roster.

(a) The maximum fees for wrecker services, including any overhead fees, charged by any wrecker service company on the rotation roster in regard to services provided as a result of rotation system dispatch shall not exceed, but may be less than, the following amounts per wrecker, unless otherwise indicated:

(1) Towing of wrecked or disabled vehicle: Two-axle vehicle weighing 10,000 pounds or less—$175.00.

(2) Towing of wrecked or disabled vehicle: Two-axle vehicle weighing 10,001 pounds through 26,000 lbs.—$225.00.

(3) Towing of wrecked or disabled vehicle: Two-axle vehicle weighing 26,001 pounds or more, or any vehicle with more than two axles—$375.00.

(4) Towing of wrecked or disabled vehicle with a trailer or other vehicle attached in tandem: $75.00 per trailer or vehicle attached in tandem.

(5) Towing of wrecked or disabled vehicle with a trailer or other vehicle attached in tandem, when the tandem trailer or other vehicle exceeds 40 feet in length: $75.00 per trailer or vehicle attached in tandem.

(Note: Towing services provided hereunder include cleaning of debris from roadway, pickup and towing of vehicle to any destination within the city limits.)

(6) Oil dry: Included in towing services.

(7) Righting: Two-axle vehicle weighing 26,000 lbs. or less—$200.00 for the first hour and prorated in ten minute increments thereafter based on $200.00 per hour. (For example, if righting a vehicle takes one hour and 38 minutes, the total charge would be $200.00 + $133.33 = $333.33) If a second wrecker is required to attach to the vehicle simultaneously with the first wrecker in order to right the vehicle, the second wrecker may charge $100.00 for the first hour and prorated in ten minute increments thereafter based on $100.00 per hour.

(8) Righting: Two-axle vehicle weighing 26,001 pounds or more, or any vehicle with more than two axles—$450.00 for the first hour and prorated in ten minute increments thereafter based on $450.00 per hour. If a second wrecker is required to attach to the vehicle simultaneously with the first wrecker in order to right the vehicle, the second wrecker may also charge $225.00 for the first hour and prorated in ten minute increments thereafter based on $225.00 per hour.

(9) Winching: Two-axle vehicle weighing 10,000 pounds or less—$75.00 for the first hour and prorated in ten minute increments thereafter based on $75.00 per hour. If a second wrecker is required to attach to the vehicle simultaneously with the first wrecker in order to wench the vehicle, the second wrecker may also charge $75.00 for the first hour and prorated in ten minute increments thereafter based on $75.00 per hour.

(10) Winching: Two-axle vehicle weighing 10,001 pounds through 26,000 pounds—$200.00 for the first hour and prorated in ten minute increments thereafter based on $200.00 per hour. If a second wrecker is required to attach to the vehicle simultaneously with the first wrecker in order to wench the vehicle, the second wrecker may also charge $200.00 for the first hour and prorated in ten minute increments thereafter based on $200.00 per hour.

(11) Winching: Two-axle vehicle weighing 26,001 pounds or more, or any vehicle with more than two axles—$350.00 for the first hour and prorated in ten minute increments thereafter based on $350.00 per hour. If a second wrecker is required to attach to the vehicle simultaneously with the first wrecker in order to wench the vehicle, the second wrecker may also charge $350.00 for the first hour and prorated in ten minute increments thereafter based on $350.00 per hour.

(Note: For the purposes of this section, winching shall be defined as the removal of a vehicle, trailer or other piece of equipment from a location inaccessible to a wrecker to a location where the object of removal may be safely secured and towed by a wrecker. Winching shall not include any incidental or routine winching necessary to load any vehicle onto the wrecker. Second wrecker fees may only be charged when it is necessary that both wreckers are hooked to the vehicle, and pulled in tandem, to right or winch the vehicle safely.)

(12) Righting or lifting vehicle by airbag, per pound lifted: $0.035.

(13) Forklift, backhoe, trackhoe, and any other necessary recovery equipment services shall be at commercial rental rates plus ten percent per hour (not including operator).

(14) No keys to vehicle: Included in towing services.

(15) Passenger vehicle storage rates:

a. First day: $40.00. (The first day ends at midnight on the day that the vehicle was towed.)

b. Each day thereafter: $40.00. (Beginning at midnight on the day after the vehicle was towed.)

(16) Large haul storage rates:

a. $100.00 per day, per piece.

(17) Tows to locations outside the city limits only:

a. Regular haul: The per mile rate shall be $5.00.

b. Large haul: The per mile rate shall be $8.00.

(18) Gate fee, including any fee to bring a vehicle from the storage lot to a vehicle owner, or allowing a vehicle owner to retrieve personal belongings or other items from a vehicle, as set forth in section 25-90(4) of this Code during regular business hours: No charge. After-hours i.e., times other than Monday through Friday, 8:00 a.m. to 5:00 p.m.: $50.00.

(19) No fees incurred by the wrecker company to report or enter vehicle information on the ALDOR unclaimed/abandoned vehicle portal may be charged if the vehicle is redeemed or returned to the owner or his designee within two calendar days. After two calendar days, no more than $75.00 may be charged for fees associated with reporting or entering vehicle information on the ALDOR unclaimed/abandoned vehicle portal.

(20) Credit card payments allowed. Each wrecker company shall be required to allow cash, credit and/or debit card payments for services rendered pursuant to the rotation roster.

(21) No fee may be charged for debit card payments. No more than a three percent transaction fee may be charged for credit card payments.

(b) The rates and charges as established herein do not relate to or regulate consensual wrecker services in which the vehicle's owner or operator expressly requests towing or wrecker services from a specific wrecker operator and chooses not to utilize the rotation roster system.
(Ord. No. 25-310, §§ 18, 21—26, 4-24-2025)

Sec. 25-95. Temporary removal from the rotation roster.

Wrecker companies shall be immediately removed from the roster for the following reasons:

(1) Failure of a wrecker to continue to meet the requirements established in section 25-75;

(2) Failure of a wrecker to continue to meet the requirements established in section 25-89; and/or

(3) Failure to accept a motorcycle tow shall not constitute a refusal, but will be that company's call for that rotation of the roster.

After a wrecker company has corrected the violation for which it was removed, the wrecker company may reapply for inclusion on the rotation roster using the procedures established in section 25-89. Three removals of a wrecker company's name from the rotation roster, or conviction of the owner of the wrecker company of a felony, or any criminal conviction of the owner or any employee of the wrecker company for a criminal violation related to the wrecker business shall be sufficient grounds for the permanent revocation of any and all wrecker rotation roster permits issued to such company by the city.
(Ord. No. 25-310, §§ 19, 21—26, 4-24-2025)

Sec. 25-96. Suspension from the rotation roster.

(a) Upon receipt of proof satisfactory to the chief of police, that any wrecker company has violated any of the provisions of this chapter

related to the rotation roster, or any other ordinance of the city or law of the state or the United States, the chief of police may, in his discretion, immediately remove such wrecker company's name from any or all rotation rosters for such length of time as set forth herein regardless of whether the violation has been corrected. Suspension hereunder shall be established pursuant to the following criteria:

(1) First violation: 15-day suspension.

(2) Second violation: 30-day suspension.

(3) Third violation: 60-day suspension.

(b) Three suspensions or removals of a wrecker company's name from the wrecker rotation roster, or conviction of the owner of the wrecker company of a felony, or any criminal conviction of the owner or any employee of the wrecker company for a criminal violation related to the wrecker business shall be sufficient grounds for the permanent revocation of any and all wrecker rotation roster permits issued to such company by the city.

(c) In the event that suspension or revocation of permits is contemplated against any wrecker company, the police department shall have the authority to require the wrecker company to make available to the chief of police or his designee any and all books and records of the wrecker company pursuant to any investigation of violations of this chapter by the police department.
(Ord. No. 25-310, §§ 20—26, 4-24-2025)

Secs. 25-97—25-100. Reserved.

ARTICLE III. TRAFFIC CONTROL SIGNS, SIGNALS, DEVICES AND MARKINGS*

Sec. 25-101. Location ratified.

The location of traffic control signs, signal devices and markings in place on the adoption date of this Code is ratified and confirmed and shall be considered to have been authorized by ordinance.

Sec. 25-102. Required; exception.

No provision of this chapter for which signs are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official sign is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that signs are required, such section shall be effective even though no signs are erected or in place.
(Code 1982, § 14-47(b))

Sec. 25-103. Display of unauthorized signs, signals or markings.

No unauthorized person shall erect or maintain upon any street or highway any warning or direction sign, marker, signal or light in imitation of any official sign, marker, signal or light erected under the provisions of this chapter; and no person shall erect or maintain upon any street or highway any traffic or highway sign or signal bearing any commercial advertising; but nothing in this section shall be construed to prohibit the erection or maintenance of signs, markers or signals bearing the name of an organization authorized to erect the sign, marker or signal by the state highway department or by the proper city authority. Any person violating this section shall be guilty of a misdemeanor.
(Code 1982, § 14-48)

State law reference—Similar provisions, Code of Ala. 1975, § 32-5A-36.

Secs. 25-104—25-130. Reserved.

ARTICLE IV. GENERAL RULES OF VEHICLE OPERATION

DIVISION 1. GENERALLY

Sec. 25-131. Driving through business property to avoid traffic control devices.

It shall be unlawful for any person to operate or drive any vehicle upon the streets or highways

*__State law references—__Authority to regulate traffic by means of semaphores or other signaling devices or traffic control devices, Code of Ala. 1975, §§ 32-5-1(d), 32-5-31; notice of special speed restrictions required, Code of Ala. 1975, § 32-5-1(e); traffic signs, signals and markings, Code of Ala. 1975, § 32-5A-30 et seq.

of the city at any intersection where gasoline filling stations or other business property is located, so as to cause such vehicle to cut the corners of any such intersection by passing over the space used in the operation of such filling station or other business property, and thereby avoid the traffic light or traffic signal at any such intersection, or so as to avoid stopping at any such intersection as is required by the laws of the city, or so as to avoid traveling at any such intersection over the usual lanes of traffic.
(Code 1982, § 14-62)

Sec. 25-132. Truck routes.

(a) This section establishes truck routes to regulate traffic and allow movement of commercial vehicle traffic on certain designated streets within the city limits. These routes shall have signs designating the truck route. These signs shall conform to state and federal standards and shall be posted at intersections and at reasonable intervals so the public will have notice of such designation.

(b) The truck routes established in this section shall include the following state highways:

(1) Interstate 565.

(2) U.S. Highway 431.

(3) U.S. Highway 231.

(4) U.S. Highway 72 East and West.

(5) Alabama Highway 53.

(6) Alabama Highway 20.

(7) Rideout Road.

(c) In addition, the truck routes established in this section shall include the following city streets:

(1) Jordan Lane from I-565 to Redstone Arsenal.

(2) Triana Boulevard south of Bob Wallace Avenue.

(3) Johnson Road from Triana Boulevard to Leeman Ferry Road.

(4) Airport Road from Leeman Ferry Road to Carl T. Jones Road.

(5) Carl T. Jones Road from Airport Road to Bailey Cove Road.

(6) Bailey Cove Road from Carl T. Jones Road to Green Cove Road.

(7) Bob Wallace Avenue from I-565 to Memorial Parkway.

(8) Pulaski Pike from University Drive to city limits.

(9) Sparkman Drive west of Jordan Lane.

(10) Pratt Avenue between Memorial Parkway and Meridian Street.

(11) Meridian Street north of Pratt Avenue.

(12) Oakwood Avenue between Jordan Lane and Andrew Jackson Way.

(13) Moores Mill Road between U.S. Highway 72 East and Winchester Road.

(14) Winchester Road from Pulaski Pike to city limits.

(15) Stringfield Road between Alabama Highway 53 and Pulaski Pike.

(16) Mastin Lake Road between Pulaski Pike and Memorial Parkway.

(17) Old Madison Pike from I-565 to city limits.

(18) Martin Road in its entirety.

(19) Green Cove Road from Memorial Parkway to Bailey Cove Road.

(20) Whitesburg Drive from Airport Road to Memorial Parkway.

(d) It shall be unlawful for any person to operate any commercial vehicle at any time upon any streets or parts of streets other than on the truck routes described in this section, except that such vehicles may be operated on such streets for the purpose of delivering or picking up goods, services or merchandise, or leaving or returning to the firm, corporation, place of business or residence where the driver is employed or where the vehicle is stationed, and then only by entering and leaving such street at the major intersection with a street not designated as a truck route nearest the destination of the vehicle. If a commercial vehicle is lawfully on a street not

designated as a truck route, as provided in this section, such commercial vehicle may proceed on the undesignated street if a truck route street is closer than the next scheduled stop for such commercial vehicle, as verified by a freight ticket, bill of lading or other similar documentation.

(e) Under this section, a commercial vehicle shall include any self-propelled or towed vehicle which alone or in combination possesses dual rear wheels or more than two axles; except that this shall not include any vehicle with dual rear wheels or more than two axles that is used by an individual or group of individuals solely for private and nonbusiness purposes, emergency vehicles, military vehicles and vehicles owned, leased or operated by federal, state, county or city governments or any political subdivision of such governments.

(Code 1982, § 14-5; Ord. No. 84-122, § 1, 3-8-1984; Ord. No. 85-556, 9-12-1985; Ord. No. 96-810, §§ 1—4, 10-24-1996)

State law reference—Authority for above section, Code of Ala. 1975, § 32-1-3.

Sec. 25-133. Driving on old airport property.

It shall be unlawful for any person, at a place which has not been designated by signs for motor vehicle traffic, to operate a motor vehicle upon the property commonly known as the Old Huntsville Airport property and so designated on the map on file in the office of the city clerk-treasurer identified by Ordinance No. 79-101; however, the mayor may, upon application, grant limited permission to operate a motor vehicle upon such property in accordance with the terms, conditions and safeguards which adequately protect persons and property from injury as follows:

(1) Adequate security for the protection of persons and property must be provided.

(2) Liability insurance with minimum limits of $100,000.00/$300,000.00 must be provided.

(3) The property must be left in the same or better condition and free of litter.

(4) The city must be indemnified and held harmless in the use of the property.

(5) Such other and additional conditions as shall be appropriate.

(Code 1982, § 14-13)

Sec. 25-134. U-turns at intersections.

Except as permitted by ordinance, no vehicle shall make a U-turn or complete turn of 360 degrees at any street intersection.

(Code 1982, § 14-70; Ord. No. 90-95, 3-20-1990)

Sec. 25-135. Vehicles driven through processions.

No vehicle shall be driven through a procession except by permission of a police officer. This section shall not apply to authorized emergency vehicles.

(Code 1982, § 14-110)

Sec. 25-136. One-way streets.

(a) The following named public streets or highways are hereby designated for one-way traffic movement only:

(1) Jefferson Street, from its intersection with I-565 to North Side Square for one-way southbound traffic.

(2) West Side Square, from its intersection with North Side Square to South Side Square for one-way southbound traffic.

(3) Franklin Street, from its intersection with Williams Avenue to South Side Square for one-way northbound traffic.

(4) East Side Square, from its intersection with South Side Square to North Side Square for one-way northbound traffic.

(5) Washington Street, from its intersection with North Side Square to I-565 for one-way northbound traffic.

(6) Greene Street, from its intersection with Monroe Street to Williams Avenue for one-way southbound traffic.

(7) Lincoln Street, from its intersection with Williams Avenue to Meridian Street for one-way northbound traffic.

(8) Holmes Avenue, from its intersection with Greene Street to Jefferson Street for one-way westbound traffic.

(9) Clinton Avenue, from its intersection with Church Street to Lincoln Street for one-way eastbound traffic.

(10) Randolph Avenue, from its intersection with Greene Street to East Side Square for one-way westbound traffic.

(11) North Side Square, from its intersection with East Side Square to West Side Square for one-way westbound traffic.

(12) South Side Square, from its intersection with West Side Square to East Side Square for one-way eastbound traffic.

(13) Eustis Avenue, from its intersection with East Side Square to Lincoln Street for one-way eastbound traffic.

(14) Hoover Street, from its intersection with Webster Drive to Hurst Avenue for one-way northbound traffic.

(15) Gale Avenue, from its intersection with Washington Street to Hoover Street for one-way eastbound traffic.

(16) Hurst Avenue, from its intersection with Burbank Street to Washington Street for one-way eastbound traffic.

(17) Burbank Street, from its intersection with Abingdon Avenue to Hurst Avenue for one-way southbound traffic.

(18) Garrison Street, from its intersection with Abington Avenue to Webster Drive for one-way southbound traffic.

(19) Webster Drive, from its intersection with Garrison Street to Abington Avenue for one-way northbound traffic.

(20) Frederick Avenue, from its intersection with Webster Drive to Orchard Street for one-way westbound traffic.

(21) Abington Avenue, from its intersection with Orchard Street to Webster Drive for one-way eastbound traffic.

(b) This section shall be effective at such time as signs are erected along said street or highways, which said signs are so designed and constructed as to inform the traveling public of the provisions of this section.

(Ord. No. 03-913, 11-13-2003; Ord. No. 05-582, §§ 1, 2, 7-14-2005)

Editor's note—Ord. No. 03-913, adopted Nov. 13, 2003, did not specifically amend this Code; hence, inclusion of its provisions as § 25-136 herein was at the discretion of the editor.

Secs. 25-137—25-160. Reserved.

DIVISION 2. SPEED*

Sec. 25-161. Generally.

The speed limit on all streets or highways, or portions of streets and highways, not defined in section 25-163 shall be 25 miles per hour.

(Code 1982, § 14-92; Ord. No. 00-161, 3-23-2000; Ord. No. 00-460, § 1, 5-25-2000)

Sec. 25-162. Signs.

Sections 25-161 and 25-163 shall be effective from and after such time as signs are erected along the streets or highways described in section 25-163, which signs are designated and constructed as to inform the traveling public of the provisions of sections 25-161 and 25-163.

(Code 1982, § 14-94)

*__State law references—__Speed generally, Code of Ala. 1975, §§ 32-5-92 et seq., 32-5A-170 et seq.; alteration of speed limits, Code of Ala. 1975, §§ 11-47-114, 32-5A-173.

Sec. 25-163. Street schedule.

(a) It shall be unlawful for any person to drive or operate any motor vehicle within the city limits at a rate of speed greater than provided by this section on the street or highway, or portions of said street or highway as defined by the terminal points hereinafter set out. The names of said street or highway, the portions thereof as determined by the terminal points hereinafter set out, and the maximum rate of speed allowed in miles per hours over and along each portion or segment of said street or highway are as follows:

NAME OF STREET	TERMINAL POINTS	MAX SPEED
A Cleaner Way	Triana Blvd. to Dead End	35
Advanced Gateway	Redstone Gateway to Rideout Rd.	35
Adventist Blvd.	Sparkman Dr. to Oakwood Rd.	45
Airport Rd.	Memorial Pkwy to Springhouse Rd.	40

Zierdt Rd.	Fox Rd. to Beadle Ln.	40

(b) That the speed limit on all streets or highways, or portions of said streets or highways, not defined in section (a) above shall be 25 miles per hour.

(c) That this section shall be effective from and after such time as signs are erected along said streets or highways described in section (a), which said signs are designated and constructed to inform the traveling public of the provisions of this section.

(d) That this section shall become a part of the Code of Ordinances of the City of Huntsville, Alabama and shall supersede and amend Ordinance No. 12-622 and any and all ordinances in conflict with this section.
(Ord. No. 00-161, 3-23-2000; Ord. No. 00-460, § 1, 5-25-2000; Ord. No. 03-132, 2-13-2003; Ord. No. 06-453, 5-11-2006; Ord. No. 06-1285, 12-21-2006; Ord. No. 08-347, 4-22-2008; Ord. No. 09-473, 6-11-2009; Ord. No. 10-955, 12-16-2010; Ord. No. 12-333, 5-3-2012; Ord. No. 23-388, 5-11-2023; Ord. No. 25-347, 5-8-2025)

Sec. 25-164. Construction or repair zones.

It shall be unlawful to operate or drive any vehicle at a speed in excess of 25 miles per hour between the warning signs placed on the street during construction or repairs, when such signs are placed not more than 500 feet from the place where the construction or repair is in progress.
(Ord. No. 85-268, 5-23-1985)

Secs. 25-165—25-179. Reserved.

DIVISION 3. RESTRICTED USE OF WIRELESS COMMUNICATION DEVICES WHILE DRIVING*

Sec. 25-180. Definitions.

The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning. Except as may be otherwise provided in this division, all words and phrases used in this division which are defined in Code of Ala. 1975, § 32-1-1.1 shall have the meanings ascribed to them in that section.

*__Editor's note—__Ord. No. 10-464, § 1, adopted July 22, 2010, became effective 60 days from and after the date of its adoption. Section 2 of the ordinance provides: "The City of Huntsville shall erect a sign on every major thoroughfare entering the City to notify persons traveling to or through the City that the use of wireless communication devices, other than to make a phone call, while operating a vehicle is prohibited within the City. Such signs shall be erected no later than thirty (30) days of the adoption of this ordinance."

Text-based communication shall include, but is not limited to, a text message, instant message, e-mail, or internet data communicated through a wireless telecommunications device.

Utility services shall include electric, natural gas, water, wastewater, cable, telephone, or telecommunications services or the repair, location, relocation, improvement, or maintenance of utility poles, transmission structures, pipes, wires, fibers, cables, easements, rights-of-way, or associated infrastructures.

Wireless telecommunications device shall include a cellular, analog, wireless or digital device, computer or telephone, capable of accessing the internet or sending, receiving or downloading any electronic or digital data or other wireless communication with another person, including, but not limited to, videos, pictures, text-based communications, or phone calls. Covered devices include, but are not limited to, devices commonly known as smartphones, cell phones, electronic readers, electronic tablets, laptops, netbooks, GPS devices and other similarly equipped wireless devices. Covered devices shall not include voice radios, mobile radios, land mobile radios, commercial mobile radios, two-way radios or their functional equivalent with the capability to transmit and receive voice transmission utilizing a "push to talk" or "press to transmit" function, subscription-based emergency communication devices, prescribed medical devices, amateur or ham radio devices, or in-vehicle security, navigation, or remote diagnostic systems. (Ord. No. 10-464, § 1, 7-22-2010; Ord. No. 23-694, § 1, 10-12-2023)

Sec. 25-181. Restricted use of wireless communication devices while driving.

No person shall operate or drive a vehicle upon any highway, public roadway or street while doing any of the following:

(1) Using a wireless telecommunications device to write, send, read, or otherwise engage in a text-based communication;

(2) Watching, recording, or capturing a photograph or video;

(3) Using a handheld wireless telecommunications device to engage in a voice-based communication; and/or

(4) Physically holding or otherwise supporting with any part of his or her body a wireless telecommunications device.

(Ord. No. 10-464, § 1, 7-22-2010; Ord. No. 23-694, § 2, 10-12-2023)

Sec. 25-182. Exceptions.

The following uses of a wireless telecommunications device are not subject to the restrictions of section 25-181:

(1) An emergency services professional, including a law enforcement officer, emergency medical services personnel, ambulance operator, firefighter, volunteer firefighter, or other similarly employed public safety-first responder, using a wireless telecommunications device during the performance of his or her official duties. Personal use of a wireless communication device shall remain subject to the provisions contained in section 25-181.

(2) An individual using an earpiece, a headphone device, steering wheel controls, speaker phone or any voice-activated technology, or other device worn on the person or mounted onto the dashboard, center console, windshield, or other part of the vehicle to conduct substantially hands-free voice-based wireless communications.

(3) An individual using a wireless telecommunication device to obtain emergency services including, but not limited to, an emergency call to a law enforcement agency, health care provider, fire department, or other emergency services agency or entity.

(4) An individual using a wireless telecommunication device while the motor vehicle is parked on the shoulder of the highway, roadway or street, or the vehicle is stopped due to normal traffic being obstructed.

(5) An individual using a wireless telecommunication device as a global positioning or navigation system to receive driving directions which has been preprogrammed with the desired coordinates. A person programming coordinates while operating a vehicle remains a violation of section 25-181.

(6) An individual using a continuous recording device that operates within or outside the vehicle, including, but not limited to, a dash camera or backup camera.

(7) An individual using a wireless telecommunications device by an employee or contractor of a utility services provider within the scope of his or her employment while responding to a utility emergency or performing other critical utility services.

(8) An individual using an ignition interlock device, as defined in Code of Ala. 1975, § 32-5A-191.4.

(9) An individual using a wireless telecommunications device who is a passenger in a vehicle, and not the driver or operator of the vehicle.

(10) An individual 18 years of age or older, using a wireless telecommunications device in a manner that requires the physical use of the individual's hand while operating or driving a motor vehicle if both of the following occur:

a. The device is mounted to the vehicle, including the windshield, dashboard, or center console of the vehicle, and the device does not create an unsafe obstruction of the person's view of the road.

b. The individual's hand is used to activate or deactivate a feature or function of the device with the motion of one swipe or tap of the individual's finger, and the swipe or tap does not activate the camera, video, or gaming features or functions for viewing, recording, amusement, or other nonnavigational functions, other than functions or features related to the transportation of persons or property for compensation or payment of a fee.

(11) A licensed physician using a wireless telecommunications device while responding to an emergency medical situation.

(Ord. No. 10-464, § 1, 7-22-2010; Ord. No. 23-694, § 3, 10-12-2023)

Sec. 25-183. Violations.

(a) A law enforcement officer enforcing this section may treat a violation as the primary or sole reason for issuing a citation to the operator of a motor vehicle.

(b) A law enforcement officer enforcing this section may not search a motor vehicle or the operator or passenger of the motor vehicle solely because of a violation of this section.

(c) A law enforcement officer may not use a violation of this section to establish probable cause for any other violation of state or local law without articulable suspicion pertaining to the other violation.

(Ord. No. 10-464, § 1, 7-22-2010; Ord. No. 23-694, § 1, 10-12-2023; Ord. No. 24-29, § 1, 1-25-2024)

Sec. 25-184. Penalty.

Any person who violates any provision of this division shall upon conviction be punished, in addition to such other punishment as may be provided by the court, by fines and penalties as follows:

(1) For a first conviction, within a 24-month period of time, by a fine of $50.00.

(2) For a second conviction, within a 24-month period of time, by a fine of $100.00.

(3) For a third or subsequent conviction, within a 24-month period of time, by a fine of $150.00 and/or a term of community service.

(Ord. No. 10-464, § 1, 7-22-2010; Ord. No. 23-694, § 5, 10-12-2023)

Secs. 25-185—25-200. Reserved.

ARTICLE V. STOPPING, STANDING AND PARKING*

DIVISION 1. GENERALLY

Sec. 25-201. Fines.

(a) For the following violations, the parking fines, in addition to court costs, shall be as follows:

(1)	Meter violation	$ 10.00
(2)	Excessive overtime	10.00
(3)	Prohibited parking	15.00
(4)	Improper parking	15.00
(5)	Loading zone violation	15.00
(6)	No permit	15.00
(7)	Handicap space violation, see section 25-221	50.00
	a. Second offense, 40 hours community service	100.00
	b. Third offense, 40 hours community service	500.00
(8)	Facing traffic	15.00
(9)	Parking on sidewalk	15.00
(10)	Parking on private property	30.00
(11)	Abandoned vehicle	100.00
(12)	Emergency lane violation	50.00
	a. Second offense	100.00
	b. Third offense	500.00
(13)	Partial payment parking	50.00
(14)	Other parking violations not listed	15.00

(b) For each parking violation still outstanding seven days past the scheduled court date, a $10.00 penalty charge shall be assessed in addition to the normal fine and applicable court costs.

(Ord. No. 82-486, § 14-224, 12-9-1982; Ord. No. 86-699, 7-8-1987; Ord. No. 87-285, 7-9-1987)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 25-202. Application of article.

The provisions of this article prohibiting the stopping, standing or parking of a vehicle shall apply at all times or at those times specified in this article or as indicated on official signs, except when it is necessary to stop a vehicle to avoid conflict with other traffic or in compliance with the directions of a police officer or official traffic control device. The provisions of this article imposing a time limit on parking shall not relieve any person from the duty to observe other and more restrictive provisions prohibiting or limiting the stopping, standing or parking of vehicles in specified places or at specified times.

(Code 1982, § 14-139)

Sec. 25-203. Signs and/or markings required.

Whenever by a provision of this article parking is prohibited or restored on any street, section of a street or in any municipal off-street parking facility, the mayor shall have the duty and is empowered to cause to be installed appropriate signs and/or markings on such street or part of the street giving notice. Markings are described but not limited to as follows: stop line markings, crosswalk markings, curb markings, or yellow or white pavement markings on areas of pavement that prohibit parking in the absence of curbs. No such regulations shall be effective unless such signs or markings are in place on any street, section of a street, or off-street municipal parking facility at the time of any alleged offense.

(Code 1982, § 14-140; Ord. No. 88-631, 11-22-1988)

*__Cross references—__Off-street parking and loading requirements, app. A, ch. VII, art. 70; off-street parking and vehicular use area (Pva) landscaping requirements, app. A, ch. VII, art. 71.

State law references—Stopping, standing and parking generally, Code of Ala. 1975, §§ 32-5-152 et seq., 32-5A-136 et seq.; authority to regulate parking, Code of Ala. 1975, § 32-5-1(e).

Sec. 25-204. Stopping, standing or parking prohibited in specified places.

(a) Except when necessary to avoid conflict with other traffic, or in compliance with law or the directions of a police officer or official traffic-control device, no person shall:

(1) Stop, stand or park a vehicle:

a. On the roadway side of any vehicle stopped or parked at the edge or curb of a street;

b. On a sidewalk;

c. Within an intersection;

d. On a crosswalk;

e. Between a safety zone and the adjacent curb or within 30 feet of points on the curb immediately opposite the ends of a safety zone, unless a different length is indicated by signs or markings;

f. Alongside or opposite any street excavation or obstruction when stopping, standing or parking would obstruct traffic;

g. Upon any bridge or other elevated structure, upon a highway or within a highway tunnel or beneath a highway viaduct;

h. On any railroad tracks;

i. At any place where official signs prohibit stopping.

(2) Stand or park a vehicle, whether occupied or not, except momentarily to pick up or discharge a passenger or passengers:

a. In front of a public or private driveway;

b. Within 15 feet of a fire hydrant;

c. Within 20 feet of a crosswalk at an intersection;

d. Within 30 feet upon the approach to any flashing signal, stop sign, yield sign or traffic-control signal located at the side of a roadway;

e. Within 20 feet of the driveway entrance to any fire station and on the side of a street opposite the entrance to any fire station within 75 feet of said entrance (when properly signposted);

f. At any place where official signs prohibit stopping, standing or parking.

(3) Park a vehicle, whether occupied or not, except temporarily for the purpose of and while actually engaged in loading or unloading merchandise or passengers:

a. Within 50 feet of the nearest rail or railroad crossing;

b. At any place where official signs prohibit stopping, standing or parking.

(b) No person shall move a vehicle not lawfully under his control into any such prohibited area or away from a curb such a distance as is unlawful.

(c) Penalties for violation of this section shall be as provided in section 25-201 of this Code and as may be further provided in Ala. Code § 32-5-312 (1975), as may be amended.
(Ord. No. 10-607, § 1, 8-26-2010)

Sec. 25-205. Violations.

It shall be unlawful for any person to violate or fail to comply with any of the provisions of this article, or to counsel or aid or abet any such violation or failure to comply.
(Code 1982, § 14-141)

Editor's note—Sections 25-205—25-223 were formerly numbered as §§ 25-204—25-222, and were renumbered by Ord. No. 10-607, § 2, adopted Aug. 26, 2010.

Sec. 25-206. Parking not to obstruct traffic.

No person shall park any vehicle upon a street, other than an alley, in such a manner or under such conditions as to leave available less than ten feet of the width of the roadway for free movement of vehicular traffic.
(Code 1982, § 14-142)

Note—See editor's note, § 25-205.

Sec. 25-207. Bus stops.

The director of parking and public transit shall from time to time designate and establish places or stops for the stopping or parking of buses operating within the city, and such stops shall be plainly marked. It shall be unlawful for any person to park any vehicle within the spaces designated as bus stops.
(Code 1982, § 14-143)
Note—See editor's note, § 25-205.

Sec. 25-208. Unauthorized vehicles parking in designated stands.

It shall be unlawful for the operator of any vehicle other than a bus, taxicab or for-hire automobile to stand or park in an officially designated bus, taxicab or for-hire automobile stand; except that the operator of any passenger vehicle may temporarily stop in any such stop or stand for the purpose of and while actually engaged in the loading or unloading of passengers.
(Code 1982, § 14-145)
Note—See editor's note, § 25-205.

Sec. 25-209. Spaces for government vehicles.

The director of parking and public transit is authorized to designate certain on-street and off-street parking spaces for official government-owned law enforcement vehicles, provided that unmarked law enforcement vehicles shall be subject to citations by meter enforcement personnel.
(Code 1982, § 14-146)
Note—See editor's note, § 25-205.

Sec. 25-210. Parking or standing on railroad tracks.

It shall be unlawful for any person to leave standing or cause to be left standing any vehicle, motor or otherwise, upon or within 50 feet of any railroad track, spur railroad track or side railroad track within the city.
(Code 1982, § 14-147)
Note—See editor's note, § 25-205.

Sec. 25-211. Obstructing alleyways prohibited.

It shall be unlawful for any person to park, place, cause to be placed, or leave unattended any automobile, vehicle, structure or obstacle which would prevent the free passage of emergency vehicles or personnel through any alley or alleyway.
(Code 1982, § 14-148)
Note—See editor's note, § 25-205.

Sec. 25-212. Parking vehicles more than 20 feet in length.

Motor vehicles more than 20 feet in length may be parked only on those streets on which parallel parking is allowed. This section shall not apply to any truck parked not longer than 30 minutes for the purpose of loading or unloading merchandise.
(Code 1982, § 14-149)
Note—See editor's note, § 25-205.

Sec. 25-213. Parking on service drive or alley in public housing project.

It shall be unlawful for any person to park or leave standing any vehicle upon or along any service drive or alleyway in any public housing project within the city.
(Code 1982, § 14-150)
Note—See editor's note, § 25-205.

Sec. 25-214. Parking at entrance to hotels, theaters, and bus stations.

It shall be unlawful to park any automobile, motorcycle or other vehicle within 12½ feet on either side of the center of the entrance of any hotel, picture theater, theater or bus station in the city for more than five minutes.
(Code 1982, § 14-151)
Note—See editor's note, § 25-205.

Sec. 25-215. Parallel and angle parking; manner of parking.

Except as otherwise provided in this section, every vehicle stopped or parked upon a roadway where there are adjacent curbs shall be so stopped or parked with the righthand wheels of

such vehicle parallel to and within 18 inches of the righthand curb, and shall be so parked as to leave a space of at least three feet between such vehicle and any other vehicle parked on such street; except where signs are posted requiring bumper-to-bumper parking, vehicles shall park in such a manner so as to be as close as practical to adjacent vehicles. These provisions shall not apply in the following circumstances:

(1) Upon one-way streets, vehicles may be parked with the lefthand wheels adjacent to and within 18 inches of the lefthand curb.

(2) Upon any street which is officially designated and lined for angle parking, vehicles shall be parked at an angle parallel to the painted parking lines and markings, and at least three feet from any other vehicle parked on such street, and not more than 12 inches from the curb.

(Code 1982, § 14-159)

State law reference—Parallel and angle parking, Code of Ala. 1975, § 32-5A-138.

Note—See editor's note, § 25-205.

Sec. 25-216. Parking for certain purposes.

It shall be unlawful for any person engaged in the business of dealing in, selling or repairing automobiles, trucks, motor vehicles or other kinds of vehicles in his possession or under his control to allow them to be parked upon or along any of the streets or alleys of the city except when in actual use by such person.

(Code 1982, § 14-160)

Note—See editor's note, § 25-205.

Sec. 25-217. Limited parking.

(a) It shall be unlawful for any person to park or leave standing any motor vehicle upon a street whenever such conduct has been proscribed by law or traffic control device.

(b) A motor vehicle shall be permitted to stand in a designated pull-off bay for a maximum of 30 minutes for the purpose of loading or unloading passengers or for unloading and delivery or pickup of articles, materials, or merchandise. This shall be called the 30-minute parking zone.

(c) A commercial motor vehicle having the business or company clearly identified by markings visible on the outside of such vehicle shall be permitted to stop or stand in a designated pull-off bay for a period of time not exceeding 30 minutes for the purpose of unloading and delivery or pickup and loading of articles, materials or merchandise.

(Code 1982, § 14-163; Ord. No. 97-291, § 1, 4-10-1997)

Note—See editor's note, § 25-205.

Sec. 25-218. Stopping or standing prohibited during certain hours on certain streets.

When signs are erected on any street or part of a street in each block giving notice, no person shall stop or stand a vehicle on any such street or part of a street in each block so designated between the hours specified by the signs.

(Code 1982, § 14-164; Ord. No. 97-291, § 2, 4-10-1997)

Note—See editor's note, § 25-205.

Sec. 25-219. Loading and unloading trucks.

It shall be unlawful for any person to park, load or unload any truck having a length greater than 22 feet in meter zone 1, between the hours of 8:00 a.m. and 6:00 p.m. except Saturdays, Sundays and holidays; however, where deliveries must be accepted from trucks longer than 22 feet during the business day, the director of parking and public transit is authorized to issue and place meter bags or traffic cones upon application and payment of fees, wherein two or more adjacent metered spaces may be reserved from 8:00 a.m.—12:00 noon, or 1:00 p.m.—4:00 p.m. at the applicable hourly meter rate per metered space reserved.

(Code 1982, § 14-165)

Note—See editor's note, § 25-205.

Sec. 25-220. Street cleaning.

The director of parking and public transit is authorized to prohibit parking on any street

when proper signs are posted giving notification, between the hours of 12:00 midnight and 6:00 a.m. for street cleaning purposes.
(Code 1982, § 14-166)

Note—See editor's note, § 25-205.

Sec. 25-221. Parking for disabled individuals.

(a) For the purposes of this section, the term "disabled individual" means any person having a physical impairment or permanent mental impairment which limits mobility to the extent that the individual would have difficulty safely walking alone a distance of 50 feet or more.

(b) Beginning with the implementation of the staggered system of motor vehicle license plate registration, any person who submits to the judge of probate, license commission or other issuing authority medical proof satisfactory to the commissioner of revenue that he is a disabled individual shall be issued either a distinctive license plate or a decal and a special identification placard displaying the international system of access, thereby designating the driver of the vehicle or the passenger as being a disabled person. The distinctive license plates, decals and placards shall be prepared by the commissioner of revenue and shall be issued in the same manner as motor vehicle license plates.

State law reference—Similar provisions, Code of Ala. 1975, § 32-6-231.

(c) The disabled individual to whom valid distinctive license plates and/or decals or placards are issued shall be allowed to park for unlimited periods in parking zones designated for disabled persons; however, such disabled persons shall pay parking fees the same as any other person. The provisions of this subsection shall not apply to zones where stopping, standing or parking is prohibited to all vehicles, or zones which are reserved for special types of vehicles; nor will these provisions apply where there is a local ordinance prohibiting parking during heavy traffic periods during morning, afternoon or evening rush hours, or where parking would clearly present a traffic hazard. In designated disabled loading zones, disabled persons shall be limited to one-hour parking, as these loading zones are not intended for unlimited parking usage.

State law reference—Similar provisions, Code of Ala. 1975, § 32-6-232.

(d) It shall be unlawful for any person who is not a disabled individual to willfully and falsely represent himself as a disabled person to obtain the distinctive license plate and/or decal or placard or to misuse or abuse the parking privilege protected by this section, or to own a vehicle bearing distinctive license plate and/or decals when not entitled to do so under the provisions of this section.

State law reference—Similar provisions, Code of Ala. 1975, § 32-6-233.

(e) It shall be unlawful for any person to park or allow to be parked any vehicle in any zone designated for "handicap only" or "disabled only" parking, not bearing the distinctive license plate and/or decal or placard. It shall also be unlawful for any person to park or allow to be parked any vehicle or allow the placement of any material or other equipment which would block an access ramp or curb cut.

State law reference—Similar provisions, Code of Ala. 1975, § 32-6-233.1.

(f) Any automobile unlawfully occupying a parking zone designated for disabled or handicapped persons may be towed away at the owner's expense.
(Ord. No. 94-337, §§ 1—6, 5-12-1994)

Note—See editor's note, § 25-205.

Sec. 25-222. Parking in emergency lanes.

(a) As used in this section, the following words and phrases will have the following meanings unless the context clearly indicates a different meaning:

Emergency lane means a part of a public access area which is designed to provide clear and unobstructed access to emergency vehicles, equipment and personnel to and from all 30,000 square feet and above mercantile occupancies adjacent to or served by such public access area. Emergency lanes shall be a minimum of 60 feet in length and 20 feet in width and shall be located in front of or adjacent to each public entrance to such occupancies and structures.

Public access area means any publicly owned property or any privately owned property provided for the general public for the movement or parking of vehicles in connection with a shopping center or publicly owned structures used for assembly or educational purposes.

(b) No parking shall be permitted at any time on any emergency lane, and no parking shall be permitted at any location which would prevent access to any emergency lane by any emergency response equipment.

(c) No person shall stop, let stand or park a vehicle, whether occupied or not, on any emergency lane at any time; and no owner, manager or tenant of any premises shall permit any customer or visitor to stop, let stand or park any unoccupied vehicle on any part of any emergency lane at any time. Notwithstanding the provisions of the first sentence of this subsection, a person may stop a vehicle temporarily in an emergency lane for the limited purpose of allowing passengers on the vehicle to disembark or allowing persons waiting on the vehicle to board; and a person may stop, let stand or park a commercial vehicle temporarily, but in no event for a period of time exceeding one hour, in an emergency lane for the limited purpose of:

(1) Waiting for passengers to return to the vehicle from the public access area;

(2) Performing commercial pickups or deliveries within the public access area which require only a single trip between the public access area and the subject vehicle, or which, for security or other compelling reasons, cannot be completed using standard parking facilities or loading bays;

so long as the commercial vehicle is occupied by a person properly licensed and authorized to operate and move the vehicle at all times during which the limited purposes identified in this sentence are being accomplished; however, no exception provided in this sentence shall apply within any area or zone identified in subsection (c) of this section or excuse noncompliance with or violation of such subsection.

(d) The property owner of any property subject to the emergency lane requirements of this section shall mark each emergency lane with red painted curbs or where curbs are absent, with a red painted six-inch-wide lane line along the entire length of the emergency lane to warn people against blocking the lane. The owner of the area where an emergency lane is located shall also post appropriate signs, in words and dimensions as indicated on exhibit A attached to Ordinance No. 95-429, indicating that the emergency lane is an emergency lane, and indicating that no parking is permitted on the emergency lane. The owner shall erect one such sign for every 50 feet of distance along the curb adjacent to the emergency lane or, where curbs are absent, adjacent to the red painted lane line. Signs shall be posted so that the bottom edge of the sign is not less than 42 inches from the ground or more than seven feet from the ground. Each sign shall be maintained in a good state of repair by the property owner.

(e) No person shall stop, let stand or park a vehicle, whether occupied or not:

(1) Within 15 feet of a fire hydrant or within an area clearly marked with red painted curbs, spanning 30 feet along the curb of the public parking area by every fire hydrant; or

(2) Within any zone, not less than 30 feet in length, designated by official signs denoting "No parking—standpipe or sprinkler system connections," as indicated on exhibit B attached to Ordinance No. 95-429, and further designated with red painted curbs.

The owner of the area or property where a standpipe or sprinkler system connection is located shall post appropriate signs indicating that no parking is permitted in the zone.
(Ord. No. 95-429, §§ 1—5, 6-22-1995; Ord. No. 98-288, 4-7-1998)

State law reference—Parking within 15 feet of fire hydrant, Code of Ala. 1975, § 32-5A-137(a)(2)b.

Note—See editor's note, § 25-205.

Sec. 25-223. Parking on private property.

(a) It shall be unlawful for any person to park or leave or cause to be parked or left any automobile or other motor vehicle on the premises

of another after having been warned not to do so by word of mouth or sign or otherwise, but this section shall not apply to employees of the city in the discharge of their official duties.

(b) The presence of an unattended automobile or other motor vehicle on the premises of one who is not the owner or in control of such automobile or other motor vehicle shall raise a prima facie presumption that the registered owner of the automobile or other motor vehicle parked or left or caused to be parked or left the automobile or other motor vehicle on such premises, and the burden of proof shall be upon the registered owner to show otherwise.

(c) The police department or any member of the police department or a member of the department of parking and public transit is authorized and directed to issue a citation to any respective automobile or any driver of that automobile, that is otherwise violating this section on request of the owner, operator of the premises where the violation is occurring.

(Ord. No. 83-325, §§ 1, 2, 4, 9-22-1983)

Note—See editor's note, § 25-205.

Secs. 25-224—25-240. Reserved.

DIVISION 2. PUBLIC PARKING SYSTEM

Sec. 25-241. Established.

For the purpose of regulating traffic and reducing congestion in the streets, of enhancing the free flow of traffic in and through the city, of improving access to property for the rapid and effective fighting of fires, of providing for the rapid and effective disposition of the police force, and of promoting the health, safety and welfare of the general public, there is established in the city a public parking system consisting of parking upon the public streets and rights-of-way of the city, and also of convenient off-street parking facilities, at grade and in such structures as may be from time to time established by the council. All of the parking facilities established in this division, or that may be established as part of such system, are declared to be necessary and in furtherance of the purposes stated in this division.
(Code 1982, § 14-176)

State law reference—Authority of city to construct and maintain off-street parking facilities, Code of Ala. 1975, §§ 11-47-240 et seq., 11-61-1 et seq.

Sec. 25-242. Central business parking district established.

(a) There is established a central business district for the purpose of regulating on-street and off-street parking. The director of parking and public transit or his designee shall, after due consideration of the volume and nature of parking demands, classify the types of parking, install appropriate meters where required for use by the public in paying to the city established charges, and regulate parking spaces according to maximum time limitation, as he deems appropriate to best serve public demand for parking.

(b) The central business parking district shall be located within the following boundaries:

(1) North boundary, Pratt Avenue.

(2) South boundary, Longwood Avenue.

(3) East boundary, Lincoln Street.

(4) West boundary, Memorial Parkway.
(Code 1982, § 14-177; Ord. No. 96-124, § 1, 4-11-1996)

Sec. 25-243. Permits.

The parking and public transit department may sell monthly permits for no more than ten-hour parking, which shall entitle the person in possession of the permit to park or leave standing a motor vehicle for no more than ten hours at the same location. Each permit shall entitle the holder to park one motor vehicle in the designated off-street parking facility described in section 25-244 for no more than ten hours each day during the month for which it was issued, provided the permit is upon or within the vehicle in a place directed so as to be easily read by enforcement personnel.
(Ord. No. 96-124, § 2, 4-11-1996)

Sec. 25-244. Off-street parking facilities enumerated.

At such time as site acquisition and necessary improvements are made, the following off-street facilities are established as off-street parking facilities of the city:

Facility No.	*General Description of Off-Street Municipal Parking Facilities*
A	Municipal Hall Parking Garage along Fountain Circle across from Municipal Complex—300 Madison Street
B	On Fountain Circle north of Williams Avenue, south of Gates Avenue—318 Fountain Circle
C	Church Street (South side of Fire Station)
D	On the southeast corner of the intersection of Holmes Avenue N.E. and Green Street N.E.—300 Holmes Avenue
E	On the northwest corner of the intersection of Green Street S.E. and Eustis Avenue S.E.—209 Eustis Street

Facility No.	*General Description of Off-Street Municipal Parking Facilities*
H	On the northwest corner of the intersection of Holmes Avenue N.W. and Jefferson Street N.W.—100 Holmes Avenue
K	620 Clinton Avenue across from Downtown Post Office
M	Along the north edge of Big Spring International Park between Monroe Street and Church Street, known as the VBC Parking Garage—100 Church Street
O	On the south side of Clinton Avenue S.W., between Jefferson Street and Washington Street, known as the Central City Parking Garage—116 Clinton Avenue
P	Municipal Justice Complex (815 Wheeler Avenue)
V	601 Clinton Avenue west of Von Braun Center
Z	On the East Side of Church Street behind the Municipal Complex

(Ord. No. 96-124, § 3, 4-11-1996; Ord. No. 05-55, § 1, 2-10-2005)

Sec. 25-245. Fees and rates for off-street parking facilities.

(a) [The following fees and rates are required for off-street parking facilities:]

Facility	*Maximum First Hour*	*Maximum Each Succeeding Hour*	*Maximum per Vehicle per Day*	*Monthly 6:00 a.m. to 6:00 p.m. Monday—Friday*	*Events*	*After 6:00 p.m. Garage O Only*
A (Metered Portion Only)	$0.50	$0.50	NA	NA	5.00	NA
A (300 Madison Street)	0.50	0.50	4.00	56.00	5.00	NA
B (318 Fountain Circle)	0.50	0.50	4.00	56.00	5.00	NA
C (Church Street (South side of Fire Station))				56.00	5.00	NA
D (300 Holmes Avenue)	0.50	0.50	4.00	56.00	5.00	NA
E (209 Eustis Street)	0.50	0.50	4.00	56.00	5.00	NA
H (100 Holmes Avenue)	0.50	0.50	4.00	56.00	5.00	NA
K (620 Clinton Avenue)	0.50	0.50	4.00	56.00	5.00	NA
M (100 Church Street)	0.50	0.50	4.00	56.00	5.00	NA
O (116 Clinton Avenue)	0.50	0.50	4.00	56.00	5.00	2.00
P (815 Wheeler Avenue)				56.00	5.00	NA
V (601 Clinton Avenue)	NA	NA	NA	56.00	5.00	NA

Facility	*Maximum First Hour*	*Maximum Each Succeeding Hour*	*Maximum per Vehicle per Day*	*Monthly 6:00 a.m. to 6:00 p.m. Monday—Friday*	*Events*	*After 6:00 p.m. Garage O Only*
Z Designated Municipal Officials Only (East side of Church Street behind the Municipal Complex)	NA	NA	NA	56.00	5.00	NA

(b) The director of parking and public transit, or his designee, may charge up to an additional $1.00 per space for event parking when the size and scope of the event requires extensive support services such as special revenue collection or transit activities.

(c) Effective October 1, 2006, monthly parking rates will increase to $48.00 per month per space.

(d) Effective October 1, 2008, monthly parking rates will increase to $52.00 per month per space.

(e) Effective October 1, 2010, monthly parking rates will increase to $56.00 per month per space.

(f) Any new business that locates in the central business district (as defined in section 25-242), or any existing business that relocates to the central business district will be eligible to enroll in the downtown business incentive program during the period from February 9, 2017 through February 8, 2018. Any business located within the central business district as of February 10, 2017 shall not be eligible for the program. Enrollment in the program shall entitle qualified businesses to receive the following special parking rates at city parking facilities listed in section 25-244:

Any business that has between five and ten full-time employees shall be eligible to purchase monthly parking at 50 percent of the monthly rate established by this section 25-245 for a period of one year from its enrollment in the downtown business incentive program.

Any business that has between 11 and 20 full-time employees shall be eligible to purchase monthly parking at 50 percent of the then-existing monthly rate for a period of two years from its enrollment in the downtown business incentive program.

Any business that has 21 or more full-time employees shall be eligible to purchase monthly parking at 50 percent of the then-existing monthly rate for a period of three years from its enrollment in the downtown business incentive program.

The authority to determine eligibility for the program shall rest with the director of parking and public transit, whose decision shall be final. The director shall designate which city parking facilities will be utilized for the program and shall be authorized to discontinue the use of certain facilities or to terminate the enrollment period prior to February 9, 2018 if parking demand exceeds availability.
(Ord. No. 96-124, § 4, 4-11-1996; Ord. No. 97-291, § 4, 4-10-1997; Ord. No. 05-55, § 2, 2-10-2005; Ord. No. 07-354, § 2, 4-26-2007; Ord. No. 10-739, 10-14-2010; Ord. No. 13-654, 9-26-2013; Ord. No. 17-045, 2-9-2017)

Sec. 25-246. On-street meter rates.

(a) Parking meter rates at designated meter space parking facilities shall be established by the director of parking and public transit up to a maximum rate of $0.50 per hour.

(b) All on-street parking shall be free to the public after 5:00 p.m. on each day, except for parking at meters located on the west side of

Church Street between Clinton Avenue and Williams Avenue, which shall be enforced from 8:00 a.m. to 12:00 midnight seven days per week.
(Ord. No. 96-124, § 5, 4-11-1996; Ord. No. 97-291, § 5, 4-10-1997)

Sec. 25-247. Convention groups; rate modification; city-owned parking facilities.

Notwithstanding the fees and rates established for city-owned parking facilities, the Huntsville-Madison County Convention and Visitors Bureau and the Von Braun Center shall be authorized to negotiate with the director of parking and public transit or his designee parking discounts with large convention groups. The director of parking and public transit or his designee will also have the authority to negotiate parking agreements with other agencies that want to use city parking facilities for special events; however, these events must not impact parking for VBC events that are already scheduled.
(Ord. No. 96-124, § 6, 4-11-1996; Ord. No. 97-291, § 6, 4-10-1997)

Sec. 25-248. Buses.

Bus parking shall be provided as required at on-street and off-street parking facilities as determined by the director of parking and public transit, or his designee, at a charge of $10.00 per bus.
(Ord. No. 96-124, § 7, 4-11-1996; Ord. No. 05-55, § 3, 2-10-2005)

Sec. 25-249. Control devices in off-street parking facilities; duty of director of parking and public transit.

The director of parking and public transit shall cause to be installed in each off-street parking facility of the city appropriate control devices, including but not limited to meters, gates, coin or token receptacles and gates actuated by magnetic cards, so that appropriate means will be available at all times whereby members of the public parking in such facilities may pay the established charge for parking in such facility or otherwise verify prior to leaving such facility that the established charge for the parking service has been paid.
(Code 1982, § 14-184; Ord. No. 96-124, § 8, 4-11-1996)

Sec. 25-250. Compliance.

It shall be unlawful for any person to remove a vehicle parked in any off-street parking facility of the city without first paying the established charge, either by paying the charge to the designated attendant, by depositing the proper amount of money in coin or token receptacles, by displaying upon the vehicle an appropriate permit indicating that the charge has been prepaid or by the use of a magnetic card device for which the charge has been prepaid. In all cases where a permit or magnetic card has been acquired as evidence that the permittee has paid the established charge to the city, it shall be unlawful for any person to park any motor vehicle or exit any city parking facility while the permit has expired or is delinquent according to the established rules of the department of parking and public transit for its issuance.
(Ord. No. 96-124, § 9, 4-11-1996)

Sec. 25-251. Use of parking facilities restricted.

(a) It shall be unlawful for the operator of a vehicle to park or leave standing a vehicle upon a city-owned parking facility for a period longer than 24 hours without first making arrangements in advance with the department of parking and public transit.

(b) It shall be unlawful for any person to park or leave standing in any off-street parking facility of the city using gates for revenue control, or within any multilevel parking structure, any vehicle of 80 inches or more in overall width or 78 inches or more in overall height.
(Ord. No. 96-124, § 10, 4-11-1996)

Secs. 25-252—25-270. Reserved.

DIVISION 3. PARKING METERS

Sec. 25-271. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Operator means and includes every individual who shall operate a vehicle as the owner, or as the agent, employee or permittee of the owner, or is in actual physical control of a vehicle.

Park and *parking* mean the standing of a vehicle, whether occupied or not, upon a street or in an off-street parking facility otherwise than in obedience to traffic regulations, signs or signals or

an involuntary stopping of the vehicle by reason of causes beyond the control of the operator of the vehicle.

Parking meter means and includes any mechanical device or meter not inconsistent with this division placed or erected for the regulation of parking by authority of this division. Each parking meter installed shall indicate by proper legend the legal parking time established by the city and when operated shall at all times indicate the balance of legal parking time, and at the expiration of such period shall indicate illegal or overtime parking.

Parking meter space means any space within a parking meter zone or adjacent to a parking meter in an off-street parking facility and which is duly designated for the parking of a single vehicle by lines painted or adjacent to or adjoining the parking meters.
(Code 1982, § 14-201)

Cross reference—Definitions generally, § 1-2.

Sec. 25-272. Designation of parking spaces.

The director of parking and public transit is directed and authorized to mark off individual parking spaces as directed or authorized by ordinance, such parking spaces to be designated by lines painted or by appropriate signs. At each space so marked off, it shall be unlawful to park any vehicle in such a way that such vehicle shall not be entirely within the limits of the space so designated. It shall be unlawful for any person to park any vehicle in a parking space marked and posted for vehicles of certain designated maximum length or width, having an overall length or width in excess of that posted.
(Code 1982, § 14-202)

Sec. 25-273. Bus stops, taxicab stands.

Nothing in this division shall be construed as prohibiting the director of parking and public transit from providing for bus stops, taxicab stands and other matters of similar nature, including the loading and unloading of trucks, vans or other commercial vehicles.
(Code 1982, § 14-203)

Sec. 25-274. Designation of loading zones.

The director of parking and public transit is authorized to mark off loading zones in the parking meter areas as directed by city ordinance, such loading zones to be designated by painted lines or by appropriate signs. Each space so marked shall be used only for the purpose of loading and unloading.
(Code 1982, § 14-204)

Sec. 25-275. Installation of meters.

In parking meter areas, there shall be installed parking meters immediately adjacent to the parking spaces provided for by city ordinance.
(Code 1982, § 14-205)

Sec. 25-276. Arrangement and maintenance of meters.

The director of parking and public transit shall be responsible for the maintenance of parking meters. Each device or parking meter shall be so set and arranged as to display a signal showing legal parking upon the deposit of the appropriate coins, lawful money of the United States of America, for the period of time prescribed by ordinance. Each device or parking meter shall be so arranged that upon the expiration of the lawful time limit, it will indicate by a proper visible signal that the lawful parking period has expired and in such cases the right of such vehicle to occupy such space shall cease and the operator, owner, possessor or manager shall be subject to the penalties provided in section 1-7.
(Code 1982, § 14-206)

Sec. 25-277. Operation of meters.

(a) Except in a period of emergency determined by an officer of the fire department or police department, or in compliance with the directions of a police officer or traffic control sign or signal, when any vehicle shall be parked in any parking space alongside or next to which a parking meter is located, the operator of such vehicle shall, upon entering such parking meter space, immediately deposit or cause to be deposited in such meter such proper coin of the United States as is required for such parking meter and as is designated by proper directions on the meter, and

as required by the directions on the meter. Failure to deposit such proper coin, when so required, shall constitute a violation of this division. Upon the deposit of such coin, the parking space may be lawfully occupied by such vehicle during the period of time which has been prescribed for the part of the street in which such parking space is located.

(b) Any person placing a vehicle in a parking meter space adjacent to a meter which indicates that unused time has been left in the meter by the previous occupant of the space shall not be required to deposit a coin so long as his occupancy of such space does not exceed the indicated unused parking time. If such vehicle shall remain parked in any such parking space beyond the parking time limit set for such parking space, and if the meter shall indicate such illegal parking, such vehicle shall be considered as parking overtime and beyond the period of legal parking time; and such parking shall be deemed a violation of this division.
(Code 1982, § 14-207)

Sec. 25-278. Hours of operation of parking facilities.

The hours of operation and enforcement of parking facilities shall be as follows:

(1) Downtown metered on-street Zone 1—8:00 a.m.—6:00 p.m., except Saturdays, Sundays and holidays.

(2) Huntsville Public Library and City Hall Zone—consisting of Lot C and on-street meters along Fountain Circle—8:00 a.m.—9:00 p.m. except Sundays and holidays.

(3) Von Braun Center on-street meter zone along Monroe Street, Pollard Street and Gallatin Street—8:00 a.m. to 12:00 midnight, seven days a week.

(4) Off-street parking facilities—24 hours daily, seven days a week, unless otherwise posted or marked.
(Code 1982, § 14-208)

Sec. 25-279. Vehicles to be parked in marked spaces.

It shall be unlawful for any person to park any vehicle across any line or marking or a parking meter space or in such position that the vehicle shall not be entirely within the area designated by such lines or markings, provided that trucks longer than 22 feet may park parallel adjacent to two or more meters subject to the provisions of section 25-290.
(Code 1982, § 14-209)

Sec. 25-280. Collection and disposition of coins.

It shall be the duty of the director of parking and public transit to make regular collections of the money deposited in parking meters, and it shall be his duty to remove from the parking meters the coins so deposited in such meters and to deliver such coins to the city clerk-treasurer, who shall deposit such funds as required by law.
(Code 1982, § 14-210)

Sec. 25-281. Overtime parking; deposit of coin to extend time.

It shall be unlawful for any person to cause, allow, permit or suffer any vehicle registered in the name of or operated by such person to be parked overtime, or beyond the period of legal parking time established as described on the parking meter; or for any person, whether or not he is the owner or operator, to deposit in any parking meter any coin for the purpose of parking beyond the maximum legal parking time for the particular parking meter zone.
(Code 1982, § 14-211)

Sec. 25-282. Parking adjacent to expired meter.

It shall be unlawful for any person to permit any vehicle to remain or be placed in any parking space adjacent to any parking meter while such meter is displaying a signal indicating that the vehicle occupying such parking space has already been parked beyond the period prescribed for such parking space.
(Code 1982, § 14-212)

Sec. 25-283. Occupying vehicle overnight.

It shall be unlawful for any person to park overnight and occupy a recreational vehicle, motor home, housecar, travel trailer, pickup camper, van or other motor vehicle having sleeping quarters on the streets of the city or in a city municipal parking facility unless specifically permitted and posted.
(Code 1982, § 14-213)

Sec. 25-284. Covering meters.

It shall be unlawful for any person, other than the director of parking and public transit or his representative, to place or cause to be placed any meter bag or other device with the intent of covering a parking meter or reserving a parking space on the streets of the city.
(Code 1982, § 14-214)

Sec. 25-285. Report of parking violations; general duties.

It shall be the duty of the chief of police and his assistants and the designated enforcement officers of the department of parking and public transit to check the parking spaces and meters and report the violation of this division as provided in sections 25-286—25-288.
(Code 1982, § 14-217)

Sec. 25-286. Parking violations information reported; notice.

The officers designated in section 25-285 shall:

(1) Keep an account of and report the number of each parking meter which indicates that the vehicle occupying the parking space adjacent to such parking meter is or has been parked in violation of any of the provisions of this division, the date and hour of such violation, the make and the state license number of such vehicle, and any other facts a knowledge of which is necessary to a thorough understanding of the circumstances attending such violation.

(2) Attach to such vehicle a notice stating that it has been parked in violation of this division and instructing the owner or operator to report at a certain designated time and place to the municipal court in regard to such violation. Each such owner or operator may, within five days after such notice is attached to such vehicle, pay the sum of $10.00 to the clerk of the municipal court as a penalty for and in full satisfaction of a parking meter violation.

(Code 1982, § 14-218)

Sec. 25-287. Failure to pay fine for violation.

If a violator does not appear in response to the notice affixed to a motor vehicle within a period of five days, the municipal court shall send to the registered owner of the motor vehicle to which the notice was affixed a letter informing him of the violation and warning him that if such letter is disregarded for a period of five days, a complaint will be filed and warrant of arrest issued.
(Code 1982, § 14-219)

Sec. 25-288. Failure to respond to parking violation notices.

If a violator does not appear in response to the notice affixed to a motor vehicle or to a letter sent to the owner of the motor vehicle by the municipal court within ten days after such notice was attached to such vehicle or mailed to him respectively, he shall be guilty of a misdemeanor regardless of the disposition of the case for parking meter violations.
(Code 1982, § 14-220)

Sec. 25-289. Meter bags for special church events.

The director of parking and public transit is authorized to install meter bags at no cost to religious institutions for their abutting metered spaces only, to reserve such spaces for weddings, funerals, revivals and other special major events where quantities of parking spaces are required.
(Code 1982, § 14-221)

Sec. 25-290. Meter bags for contractors.

The director of parking and public transit is authorized to install meter bags permitting con-

tractor vehicles and equipment to park in meter zones 1 and 10 for the construction, renovation or repairs to business or residential establishments. Daily charges for the meter bags shall be the equivalent of eight hours' purchase of meter time.
(Code 1982, § 14-222)

Secs. 25-291—25-320. Reserved.

ARTICLE VI. SCHOOL TRAFFIC

Sec. 25-321. Traffic study.

The city engineer is authorized to make or cause to be made within the city studies of traffic problems within the city, as they pertain to both vehicular and pedestrian traffic within the vicinity of public and private schools. Such study shall include the areas within the city within the immediate vicinity of public and private schools and in addition shall include other areas over and along the public streets of the city where children customarily cross public streets on the way to and from school.
(Code 1982, § 14-327)

Sec. 25-322. School crossings; signs; speed limit.

The city engineer, after having conducted a study of traffic conditions as required in section 25-321, shall cause to be designated and marked off with signs and appropriate markings on the surface of the street certain areas along and upon the public streets of the city which shall be designated and known as school crossings. From and after such time as signs as provided in section 25-323 shall be erected to warn the traveling public, it shall be unlawful to drive a motor vehicle over, along or through a school crossing at a rate of speed greater than 25 miles per hour or such other lesser speed which shall have been determined to be the maximum rate of speed allowable by such a traffic study provided for in section 25-321 after such lesser speed limit as determined by the study shall be approved by the mayor. The city shall designate, by appropriate markings upon the signs, the hours of the day during which the special regulations shall be in effect and the maximum speed limit allowable.
(Code 1982, § 14-328)

Sec. 25-323. Signs.

In carrying out the authority of sections 25-321 and 25-322, the city engineer or other person designated to erect the signs required under these sections shall designate school crossings with traditional signs and markings in common ordinary use for such purpose, or by use of any other sign or device approved by the Manual of Uniform Traffic Control Devices as published by the United States Bureau of Public Roads.
(Code 1982, § 14-329)

Sec. 25-324. Direction of traffic.

(a) *Traffic survey; required purpose.* The city engineer is authorized, empowered and directed to make or cause to be made surveys pertaining to traffic conditions in the vicinity of schools within the city. These surveys shall particularly pertain to the direction of traffic within the vicinity of schools to the end that traffic over and along public streets in the vicinity of schools shall be required to move in a harmonious and safe manner.

(b) *Designation of one-way streets.* The city engineer is empowered to determine as a result of such surveys of traffic over and along the public streets of the city within the vicinity of schools that vehicular traffic shall be required to proceed one way only over and along certain portions of certain streets.

(c) *Signs; required, effect of erection.* In exercising the power granted in this section, the city engineer may provide that traffic movements over and along portions of designated public streets will be required to move one way only during certain hours; however, the city engineer or other designated person shall place or cause to be placed portable or permanent signs at the entrances to such areas to warn the traveling public of such regulations and restrictions upon the movement of traffic.
(Code 1982, § 14-330)

Sec. 25-325. Parking areas; designation.

The board of education is authorized and empowered to determine areas on school property to be used for the parking of automobiles and other motor vehicles and to post appropriate signs and markings to warn the public of such regulation. In exercising this authority, the board of education may designate certain areas on school property where only teachers and employees may park their vehicles, certain areas for students and certain areas for visitors, such regulations to be posted by appropriate signs and markings to warn the public.
(Code 1982, § 14-331)

Sec. 25-326. Obedience to parking area signs.

From and after such time as signs are in place, which signs shall be so designated and worded as to warn the public of parking regulations, it shall be unlawful for any person to park or leave standing an automobile or motor vehicle on school property within the city except in conformity with such regulations.
(Code 1982, § 14-332)

Sec. 25-327. Driving on school grounds.

It shall be unlawful for any person to drive any motor vehicle, including motor-driven cycles, upon the grounds of any public school except in the driveways, access roads or other public places set aside by the board of education for such purpose, except at the express direction or permission of appropriate school authorities.
(Code 1982, § 14-333)

Sec. 25-328. Turning movements at exits from school grounds.

(a) *Regulation.* The director of parking and public transit is authorized and empowered to control turning movements of automobiles and motor vehicles at all exits from public school grounds to the public streets of the city.

(b) *Signs required.* The director of parking and public transit shall place or cause to be placed appropriate signs along the public streets at such exits from public schools as he deems necessary and desirable for the safety of the traveling public, which signs shall warn the traveling public of the restrictions upon turning movements. These signs shall read "No Right Turn," "No Left Turn" or "No Turn" as the director of parking and public transit may from time to time determine.
(Code 1982, § 14-334(a), (b))

Secs. 25-329—25-360. Reserved.

ARTICLE VII. VEHICLE EQUIPMENT AND CONDITION*

DIVISION 1. GENERALLY

Sec. 25-361. Condition of brakes.

The chief of police, or any police officer, is authorized to require an inspection of the brakes of any motor-driven vehicle and to disapprove any brakes which he finds are not adequate. All such brakes shall be maintained in good working order.
(Code 1982, § 14-251(b))

State law reference—Brakes, Code of Ala. 1975, § 32-5-212.

Sec. 25-362. Mufflers; prevention of noise.

Every motor vehicle shall at all times be equipped with a muffler in good working order.
(Code 1982, § 14-255)

State law reference—Mufflers, Code of Ala. 1975, § 32-5-216.

Secs. 25-363—25-380. Reserved.

DIVISION 2. VEHICLES SCATTERING LOAD†

Sec. 25-381. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Construction and demolition materials means lumber, roofing and sheathing, scraps, dirt, stone,

*__State law reference—__*Vehicle equipment, Code of Ala. 1975, § 32-5-210 et seq.

†__State law references—__Vehicles spilling loads, Code of Ala. 1975, § 32-5-76; littering, Code of Ala. 1975, §§ 13A-7-29, 32-5A-60; securing vehicle loads, Code of Ala. 1975, § 32-5-75.

brick, ceramic, rubble, broken concrete, plaster, conduit, pipe, wire, insulation, carpet or carpet padding, gutters, sheetrock, siding, HVAC, or other similar material.

Debris means the remains of any material broken down and tracked onto any highway by any vehicle, including but not limited to dirt, gravel, mud, rocks, brush and any other loose material.

Garbage means putrescible animal and vegetable wastes resulting from the handling, storage, preparation, cooking, serving and consumption of food, including wastes from markets, storage facilities, or the handling and sale of produce and other food products.

Litter means all solid waste that can be or is subject to being blown or carried from place to place by the elements, including but not limited to cigarette butts, rubbish, refuse, waste material, garbage, dead animals or fowl, offal, paper, glass, cans, bottles, trash, scrap metal, debris and any foreign substance of whatever kind and description, and whether or not it is of value.

Load means any material put in, on or drawn by any vehicle for transport, including but not limited to garbage, litter, trash, rubbish, refuse, loose material, debris, process and fill materials, construction and demolition materials, yard waste, and any foreign substance of whatever kind and description, whether putrescible or nonputrescible, and whether or not it is of value. Loads shall not include people.

Loose material means any material that is hauled on, in or by any vehicle that could spill, drop, sift, leak, blow or otherwise escape the vehicle, but not limited to garbage, litter, trash, rubbish, refuse, loose material, debris, process and fill materials, construction and demolition materials, yard waste, and any foreign substance of whatever kind and description, whether putrescible or nonputrescible, and whether or not it is of value.

Process and fill materials means all materials used for fill or that are the result of a specific process. This term includes but is not limited to rock, gravel (any aggregate), sand, dirt, asphalt, pug mix, brick, cinder blocks, cement, concrete, tar, petroleum products, liquid and similar materials.

Refuse means all solid or semisolid waste resulting from industrial processes and manufacturing operations, such as food processing wastes, boiler and house cinders, wood, plastic, metal scraps and shavings, byproducts accumulated as a result of treatment of liquid waste, etc.; putrescible and nonputrescible animal and vegetable waste from the handling, storage and sale of produce and meats; street sweepings, dirt, leaves, catchbasin dirt and contents of litter receptacles. This term includes but is not limited to garbage, rubbish, ashes, street cleanings, dead animals or fowl, offal, abandoned motor vehicles, and solid market or industrial wastes.

Rubbish means nonputrescible solid wastes consisting of both combustible and noncombustible wastes, including but not limited to paper, cardboard, rags, cartons, wood, boxes, excelsior, cloth, furniture, bedding, leather, rubber, plastics, yard trimmings, leaves, glass, crockery, metals, metal cans, metal foils, metal furniture, mineral refuse and similar materials.

Special vehicle means any vehicle specially manufactured to transport or draw a particular type of load which is used solely in strict accordance with the purpose for which the special vehicle was manufactured, and, in order to accomplish this purpose, is designed without solid sides or a tailgate, or so that the load will extend above a point four inches below the top of the sides of the special vehicle, or so that a tarpaulin or confinement system cannot be rigged or the load covered, secured or sealed while still allowing the special vehicle to accomplish its purpose. Exceptions in this article related to special vehicles shall be narrowly construed so that a vehicle qualifying as a special vehicle shall be exempt only from those requirements of this article which are inherent in the design and purpose of the special vehicle, as manufactured, but not from any other requirements of this article which are not inherent in the design and purpose of the special vehicle, as manufactured.

Tarpaulin or confinement system means a solid or semisolid cover or system placed and secured

over open-topped vehicles to secure loads and of sufficient and appropriate size, structure and strength to prevent the dispersal of loads and loose material from the vehicle. A tarpaulin or confinement system may be constructed from any suitable material, including but not limited to canvas, polyethylene, rubberized cloth, netting, ropes, straps, chains, cables, and racks with a restraining or enclosing system.

Trash means any nonputrescible solid wastes, including but not limited to yard clippings, leaves, wood, compost, tree limbs, tree trunks, furniture, bedding, appliances, paper, cardboard, plastics, wrappings, cans, tires and similar materials.

Vehicle means any device in, upon or by which any person or property is or may be transported or drawn upon the highway, except devices moved by human power or used exclusively upon stationary rails or tracks. This term includes but is not limited to trucks, trailers and automobiles. This term includes special vehicles unless specifically denoted otherwise.

Yard waste means grass, leaves, yard trimmings, shrubbery clippings, trees, branches, palm fronds and all other miscellaneous vegetation.
(Ord. No. 97-91, § 2, 2-27-1997)

Cross reference—Definitions generally, § 1-2.

Sec. 25-382. Penalties.

Any person who violates or fails or refuses to obey or comply with any provision of this article shall upon conviction be punished, in addition to such other punishment as may be provided by the court, by minimum fines and penalties, for a first conviction of $100.00 or by imprisonment for not more than ten days; for conviction of a second offense committed within one year after the date of the first offense, by a fine of $200.00 or by imprisonment for not more than 30 days or by both such fine and imprisonment; for conviction of a third or subsequent offense committed within one year after the date of the first offense, by a fine of $500.00 or by imprisonment for not more than three months or by both such fine and imprisonment.
(Ord. No. 97-91, § 12, 2-27-1997)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

Sec. 25-383. Intent.

The spilling of vehicle loads upon the public streets and other public ways of the city is a dangerous and blighting factor which damages, deteriorates and depreciates these public streets and other public ways, as well as adjacent and surrounding property. The city council finds that the spilling of vehicle loads is a public nuisance and recognizes that appropriate measures must be taken to keep public streets, other public ways and adjacent and surrounding property free from debris and other materials spilling from vehicles. Debris and other materials spilling from vehicles pose a danger of physical injury and property damage to motorists, pedestrians and other inhabitants of the city and cause the proliferation of trash, garbage, litter, and other dangerous or unsanitary debris within the city. The prevention of the spilling of vehicle loads and the removal of spillage from streets is necessary to prevent proliferation of this problem. This article is enacted to protect, promote and preserve the safety and welfare of the citizens of the city through the reduction, control and prevention of vehicle spillage within the city. The council does not intend for this article to conflict with any existing state law.
(Ord. No. 97-91, § 1, 2-27-1997)

Sec. 25-384. Presumption.

If an article of litter or loose material bearing a person's name is discovered on any public property not designated for the throwing, dumping or depositing of solid waste, including public streets, sidewalks, gutters, alleys, bodies of water, drainage ditches, storm sewers, sanitary sewers or other property over or with respect to which the city has an easement, or on private property of another without such person's permission, then a rebuttable, prima facie presumption shall arise that the person whose name appears on the article threw, spilled, scattered, dumped, placed, deposited or otherwise caused the article to be thrown, spilled, scattered, blown, dumped, placed or deposited at the place where it was found; however, this presumption, if unrebutted at trial, shall not serve as a basis for a conviction for violation of any provision of chapter 22 in the absence of other evidence of such nature and degree as required by law.
(Ord. No. 97-814, § 1, 11-13-1997)

Sec. 25-385. Exemptions.

The following activities are exempt from the provisions of sections 25-387, 25-389 and 25-392:

(1) The deposit or spreading of sand or other substances, not otherwise expressly prohibited, on the streets of the city for the purpose of street construction, maintenance or repair, or maintenance of utilities or the use of water or other substances in cleaning or maintaining public streets or public ways, when such acts are performed by a city, state or federal governmental entity or a contractor conducting such actions pursuant to a valid contract with a city, state or federal governmental entity. Vehicles carrying loads or loose material covered by this subsection, while in transit to a work site, must satisfy all requirements and prohibitions of this article.

(2) The deposit of sand or other substances, not otherwise expressly prohibited, on the streets of the city for the purpose of increasing traction when such acts are performed by a city, state or federal governmental entity or a contractor conducting such actions pursuant to a valid contract with a city, state or federal governmental entity, or by motorists spreading sand from public receptacles.

(3) Vehicles hauling loads or loose material that have reached their final destination and are preparing to unload. Vehicles carrying loads or loose material covered by this subsection, while in transit to their final destination, must satisfy all requirements and prohibitions of this article.

(Ord. No. 97-91, § 10, 2-27-1997)

Sec. 25-386. Enforcement.

The provisions of this article shall be enforced by the police department. Any sworn officer of the police department is empowered to issue citations to appear in municipal court to answer charges for violation of any provision of this article.
(Ord. No. 97-91, § 11, 2-27-1997)

Sec. 25-387. Spilling vehicle loads prohibited.

It shall be unlawful for any person to drive, operate or permit to be operated any vehicle upon the public streets or other public ways of the city when such vehicle is so constructed, maintained or loaded that the vehicle's load or loose material is permitted to blow, spill, drop, bounce, fall, waste or otherwise escape from such vehicle upon the public streets or other public ways or adjacent or surrounding property.
(Ord. No. 97-91, § 3, 2-27-1997)

State law reference—Vehicles scattering loads, Code of Ala. 1975, § 32-5-76.

Sec. 25-388. Solid sides, tailgate and solid top or tarpaulin or confinement system required with exception for special vehicles.

It shall be unlawful for any person to haul a load or loose material unless the vehicle has solid sides and a tailgate, and is further equipped with a solid top or so rigged that a tarpaulin or confinement system can be spread or secured tightly over the top of such vehicle and is further equipped with a tarpaulin or confinement system. Any one or more of the requirements imposed by this section shall not apply to a special vehicle. Each vehicle shall have signs painted on both doors or, if the vehicle does not have doors, then on both sides of the vehicle indicating the correct name of the hauler and his telephone number.
(Ord. No. 97-91, § 4, 2-27-1997)

Sec. 25-389. Covering, securing, or sealing of loads required.

It shall be unlawful for any person to haul a load or loose material unless the vehicle is covered, secured or sealed to the extent that there will be no loss or spillage during haulage to cause littering of streets or highways or cause a nuisance or hazard to the public health. The requirement imposed by this section shall not apply to a special vehicle.
(Ord. No. 97-91, § 5, 2-27-1997)

Sec. 25-390. Securing of boat loads required.

It shall be unlawful for any person to haul a boat upon the public streets or other public ways

of the city unless all food, coolers, trash, life jackets, vests, skis, ropes, fishing gear, other equipment and loose material are stored and secured to prevent these items from blowing, spilling, dropping, bouncing, falling, wasting or otherwise escaping onto public streets or other public ways or adjacent and surrounding property.
(Ord. No. 97-91, § 6, 2-27-1997)

State law reference—Securing of loads, Code of Ala. 1975, § 32-5-75.

Sec. 25-391. Maximum load height imposed.

It shall be unlawful for any person to haul a load or loose material in a vehicle which does not have a solid top unless the load or loose material remains at least four inches below the top of the sides of such vehicle as measured at the front, back and side walls of the vehicle. The use of a tarpaulin or confining system on a vehicle shall not excuse any person from compliance with the provisions of this section. The requirement imposed by this section shall not apply to a special vehicle.
(Ord. No. 97-91, § 7, 2-27-1997)

Sec. 25-392. Tracking debris onto public streets or other public ways prohibited.

It shall be unlawful for any person to drive, operate or permit to be operated any vehicle upon the public streets or other public ways of the city unless the vehicle is free of debris and trash that could be tracked onto the public streets or other public ways of the city in such a manner as to:

(1) Cause a safety hazard;

(2) Create rough driving conditions;

(3) Impede the flow of water in gutters or along streets or that would tend to clog drains, ditches, or sewers;

(4) Create a nuisance from dust generated by driving over debris and trash which has been tracked onto the highway; or

(5) Create a likelihood of gravel, stone, other debris or trash being thrown into the windshield of other vehicles.

The requirements of this section shall not apply to the tracking of debris onto public streets and other public ways of the city if the public streets and public ways are part of a construction or maintenance work site.
(Ord. No. 97-91, § 8, 2-27-1997)

Sec. 25-393. Clearing of streets by persons responsible for spills or tracking.

Any person operating or permitting to be operated a vehicle or hauling a boat in violation of this article shall immediately cause the public street or other public way or surrounding and adjacent property to be cleared of spilled or tracked material so long as the person does not endanger himself or any other person. If traffic or other conditions are such that it would not be safe to remove the spilled or tracked material, the person responsible for the spilled or tracked material shall immediately notify the police department and request assistance. The person responsible for spilled or tracked material shall bear the costs involved in the containment and removal of the spilled or tracked material.
(Ord. No. 97-91, § 9, 2-27-1997)

Cross reference—Streets, sidewalks and other public places, ch. 23.

Secs. 25-394—25-420. Reserved.

ARTICLE VIII. BICYCLES*

Sec. 25-421. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Bikeway means any facility that explicitly provides for bicycle travel. There are three classes of bikeways:

(1) *Bikepath.* A bikepath is a completely separated right-of-way designated for the exclusive use of bicycles.

*__State law reference—__*Bicycles and play vehicles, Code of Ala. 1975, § 32-5A-260 et seq.

(2) *Bikelane.* A bikelane is a restricted right-of-way designated for the semiexclusive use of bicycles, usually on the street alignment.

(3) *Bikeroute.* A bikeroute is a shared right-of-way designated as a bikeway by signs placed on vertical posts or stencilled on the pavement. Right-of-way may be shared with either or both motor vehicles and pedestrians.

(Code 1982, § 14-291)

Cross reference—Definitions generally, § 1-2.

Sec. 25-422. Rider responsibility.

Every person riding a bicycle upon the streets of this city shall be granted all the rights and shall be subject to all the duties applicable to the driver of a motor vehicle by the laws of this state declaring rules of the road applicable to vehicles or by the traffic ordinances of this city applicable to the driver of a vehicle, except as to special regulations in this article and except as to those provisions of law and ordinances which by their very nature can have no application.

(Code 1982, § 14-300(a))

State law reference—Similar provisions, Code of Ala. 1975, § 32-5A-260.

Sec. 25-423. Condition.

The rider of a bicycle shall be responsible for maintaining his bicycle in a safe mechanical condition.

(Code 1982, § 14-300(b))

Sec. 25-424. Towing.

A bicycle operator shall not tow any vehicle or person except that bicycle trailers properly attached to the bicycle which allow for the firm control and braking may be used.

(Code 1982, § 14-302)

State law reference—Clinging to vehicles, Code of Ala. 1975, § 32-5A-262.

Sec. 25-425. Riding on sidewalks.

Bicycles and tricycles shall not be ridden on the sidewalks of this city unless such sidewalk has been designated as a part of a bikeway.

(Code 1982, § 14-306)

Cross reference—Streets, sidewalks and other public places, ch. 23.

Sec. 25-426. Trick riding.

A person riding a bicycle shall not weave in and out of traffic or ride in an irregular or reckless manner such as zigzagging, stunting or otherwise ride with disregard for his own safety or the safety of others. It shall be unlawful for any person to ride a bicycle without having at least one hand upon the handlebars.

(Code 1982, § 14-308)

Sec. 25-427. Parking.

The operator shall not park his bicycle upon a sidewalk in such a manner as to obstruct pedestrian traffic. Bicycles shall not be parked upon the streets in spaces designated for the use of a motor vehicle.

(Code 1982, § 14-309)

Sec. 25-428. Warning for safe operation.

The operator shall give an audible warning whenever necessary to ensure the safe operation of the bicycle; however, the use of a siren or whistle is prohibited.

(Code 1982, § 14-313)

Sec. 25-429. Bicycle alterations.

No bicycle shall be operated upon a street with handlebars so raised that the hands of the operator are above his shoulders while gripping them. Any alteration to extend the fork of a bicycle except by a commercially manufactured fork is prohibited.

(Code 1982, § 14-314)

Secs. 25-430—25-460. Reserved.

ARTICLE IX. VISUAL OBSTRUCTIONS

Sec. 25-461. Enforcement.

The provisions of this article shall be enforced by the city engineer. When the city engineer shall find that any provision of this article is being violated, he shall issue written notification to the person owning, renting or leasing or otherwise in possession of the real property upon which the violation exists, of such violation, indicating the nature of the violation and the necessary action

required to correct the violation. If the violation is not removed or abated within 14 days from the written notification, the city engineer may issue a citation to the person responsible for the violation, directing him to appear in the municipal court at a time and on a date stated in the citation to answer to charges of violations of this article, which charges shall be stated in the citation. It shall be unlawful and a misdemeanor for any person to fail to appear in municipal court at the time and place stated in a citation issued by the city engineer pursuant to this article.
(Code 1982, § 20-46)

Sec. 25-462. Street intersections; visibility area delineated.

(a) It shall be a misdemeanor for any person owning, renting, leasing or otherwise in possession of real property at intersecting streets to install, set out or maintain or allow the installation, setting out or maintenance of any sign, hedge, fence, shrubbery, natural growth or other obstruction to the view, whether movable or stationary, higher than 30 inches (76.2 centimeters) above the level of the adjacent intersection.

(b) The obstruction shall not be placed in that triangular area between the property line and a diagonal line joining points on the property line, 30 feet (9.1 meters) from the point of their intersection.

(c) In the case of rounded property corners, that triangular area shall be between the property lines extended and a diagonal line joining points on the property lines, 30 feet (9.1 meters) from the point of their intersection.

(d) In both subsections (b) and (c) of this section, such area within the triangle that encroaches within the interior of the setback lines applicable to any lot or parcel of real property by and through the zoning ordinances of this city as fully set forth in this Code shall be exempted from the application of this section and shall not be deemed a part of the visibility area.

(e) Subsections (b), (c) and (d) of this section shall also apply to the intersection of a public street right-of-way and a railroad right-of-way.
(Code 1982, § 20-47)

Sec. 25-463. Driveways; visibility area delineated.

It shall be a misdemeanor for any person owning, renting, leasing or otherwise in possession of real property to install, set out or maintain or allow the installation, setting out or maintenance of any sign, hedge, fence, shrubbery, natural growth or other obstruction to the view, whether movable or stationary, higher than 30 inches (76.2 centimeters) above the level of the adjacent roadway on any lot where a private drive enters a street within the triangular area formed by the street property line, the private drive-edge line and a line connecting them at ten feet (three meters) from their intersection.
(Code 1982, § 20-48)

Sec. 25-464. Outside the triangular area.

It shall be a misdemeanor for any person owning, renting, leasing or otherwise in possession of real property to install, set out or maintain or to allow the installation, setting out or maintenance of any sign, hedge, fence, shrubbery, natural growth or other obstruction to the view, whether movable or stationary, but outside the triangular area as defined in sections 25-462 and 25-463, if the city engineer shall determine, after notice and hearing, that maintenance of such obstruction is, because of the peculiar topography at or near the intersection, an actual hazard, and is being maintained outside the setback lines applicable to the lot or parcel of real property upon which it is situated under the applicable zoning ordinance or regulations.
(Code 1982, § 20-49)

Sec. 25-465. Exceptions.

Sections 25-462 and 25-463 shall not apply to small trees that are not more than 12 inches (30.5 centimeters) in diameter (trimmed to the trunk), that are at least 15 feet above the level of the intersection and that are planted so as to leave a clear and unobstructed crossview. Sections 25-462 and 25-463 also shall not apply to fire hydrants; public utility poles; street markers; traffic control devices; existing permanent buildings; and signs

mounted 15 feet or more above the ground the supports of which do not constitute an obstruction as defined in sections 25-462 and 25-463.
(Code 1982, § 20-50)

Sec. 25-466. Existing obstructions.

Except as provided in this article, no obstruction to cross-visibility shall be excepted from the application of this article because of its being in existence at the time of the adoption of this article.
(Code 1982, § 20-51)

Article IV. Water Service

Division 1. Generally

Sec. 26-501. Consent of consumers to provisions of article.
Sec. 26-502. Expenditures for construction or additions.
Secs. 26-503—26-530. Reserved.

Division 2. Service Rules

Sec. 26-531. Cutting off water in cases of leakage or wastage.
Sec. 26-532. Opening and closing valves on pipes or mains.
Sec. 26-533. Consent of city for use of water.
Sec. 26-534. Application for service.
Sec. 26-535. City to maintain mains and service lines up to water meter.
Sec. 26-536. Customers to maintain water pipes.
Sec. 26-537. Equipment and maintenance of water systems.
Sec. 26-538. Tanks, containers, reservoirs kept in sanitary condition.
Sec. 26-539. Backflow prevention.
Sec. 26-540. Right of entry; refusing entry.
Sec. 26-541. Cutting off water from mains for repairs or extensions.
Sec. 26-542. Discontinuing service to consumers using common line where one branch out of repair.
Secs. 26-543—26-560. Reserved.

Division 3. Connections

Sec. 26-561. Made by city employees.
Sec. 26-562. Permit required; applications; deposit.
Secs. 26-563—26-580. Reserved.

Division 4. Deposits

Sec. 26-581. Generally.
Sec. 26-582. Unlawful to use water until deposit made.
Sec. 26-583. Water not turned on until deposit made.
Secs. 26-584—26-600. Reserved.

Division 5. Meters

Sec. 26-601. Duty of city to supply meters.
Sec. 26-602. Responsibility of waterworks utility board.
Sec. 26-603. Approval; stopcocks required between meters and mains.
Sec. 26-604. Use of water by unauthorized person.
Sec. 26-605. Meters on private property.
Sec. 26-606. Record of meters installed, reading of meters.
Sec. 26-607. Fire protection and fire service lines and systems.
Sec. 26-608. Tests.
Secs. 26-609—26-630. Reserved.

Division 6. Rates and Charges; Billing and Collection Procedures

Subdivision I. In General

Sec. 26-631. Schedule.
Sec. 26-632. Leaks, waste.
Sec. 26-633. When meters fail to register.
Secs. 26-634—26-640. Reserved.

Subdivision II. Billing and Collection Procedures

Sec. 26-641. When consumers billed.
Sec. 26-642. Failure to receive bill.
Sec. 26-643. Dishonored checks.
Sec. 26-644. Penalties.
Sec. 26-645. When service discontinued for failure to pay bill; reconnection charge.
Sec. 26-646. Collection of connection and disconnection charges.
Sec. 26-647. Service not restored while delinquent consumer resides on premises.
Secs. 26-648—26-670. Reserved.

Division 7. Water Conservation Plan

Sec. 26-671. Established.
Sec. 26-672. Declaration of policy.
Sec. 26-673. Authorization.
Sec. 26-674. Application.
Sec. 26-675. Water conservation stages.
Sec. 26-676. Compliance; golf courses and tennis courts.
Sec. 26-677. Mandatory conservation stage implementation.
Sec. 26-678. Area implementation.
Sec. 26-679. Presumption.
Sec. 26-680. Penalty.

ARTICLE I. IN GENERAL

Sec. 26-1. Design and Acceptance Manual for Sanitary Sewers.

(a) The Design and Acceptance Manual for Sanitary Sewers, dated March, 2011, City of Huntsville Engineering Department, is hereby adopted.

(b) A copy of such Code shall be kept on file in the office of the city clerk-treasurer and shall be available for all persons desiring to examine the same.
(Ord. No. 11-375A, §§ 1, 5, 7-14-2011)

Editor's note—Ord. No. 11-375A, did not specify manner of inclusion; hence, codification as § 26-1 was at the discretion of the editor.

Sec. 26-2. Design and Acceptance Manual for Wastewater Pump Stations.

(a) The Design and Acceptance Manual for Wastewater Pump Stations, dated March, 2011, City of Huntsville Engineering Department, is hereby adopted.

(b) A copy of such code shall be kept on file in the office of the city clerk-treasurer and shall be available for all persons desiring to examine the same.
(Ord. No. 11-376A, §§ 1, 5, 7-14-2011)

Editor's note—Ord. No. 11-376A, did not specify manner of inclusion; hence, codification as § 26-2 was at the discretion of the editor.

Secs. 26-3—26-30. Reserved.

Sec. 26-31. Right of ingress, egress.

Where a public utility facility has existed over, under, along or across any property in the city limits for a period of seven years or more, or was so placed with the property owners' knowledge and consent, the public utility shall have a right of ingress and egress to such facility of sufficient length, width and depth to operate and maintain safe and reliable service. A facility built, operated or maintained by a public utility for the sole benefit of the property owner shall not be subject to this section.
(Ord. No. 85-165, 3-28-1985)

Sec. 26-32. Endangering utility facilities.

It shall be unlawful to erect or maintain buildings or other structures or objects or to store materials, either temporarily or permanently, in a manner which might endanger the facilities of a public utility of the city or endanger the general public, or prevent access to or maintenance of these facilities by the city or its agents, employees, equipment or vehicles.
(Ord. No. 85-165, 3-28-1985)

Secs. 26-33—26-60. Reserved.

ARTICLE II. ELECTRIC SERVICE

DIVISION 1. GENERALLY

Sec. 26-61. Expenditures for construction or additions.

Pursuant to Act No. 1304 of the 1971 regular session, no expenditure for new construction, additions or replacements to the municipal electric distribution system or the equipment used by the system shall be made by the municipal electric utility board where the total expense is more than $25,000.00 without the prior consent and approval of the city council.
(Code 1982, § 16-29; Ord. No. 98-865, § 16-29, 11-12-1998)

Secs. 26-62—26-80. Reserved.

DIVISION 2. SERVICE REGULATIONS

Sec. 26-81. Scope.

This division is part of all contracts for receiving electric service from the city, and applies to all service received from the city whether the service is based upon contract, agreement, signed application or otherwise.
(Code 1982, § 16-46)

Sec. 26-82. Underground service lines.

Customers desiring underground service lines from the city's overhead system must bear the

incidental excess cost. Specifications and terms for such construction will be furnished by the city on request.
(Code 1982, § 16-47)

Sec. 26-83. Inspections.

Except as provided in section 7-63, the city shall have the right but shall not be obligated to inspect any installation before electricity is introduced or at any later time and reserves the right to reject any wiring or appliances not in accordance with the city's standards; such inspection or failure to inspect or reject shall not render the city liable or responsible for any loss or damage resulting from defects in the installation, wiring or appliances, or from violation of the city's rules, or from accidents which may occur upon the customer's premises.
(Code 1982, § 16-48)

Sec. 26-84. Standards of customer's wiring.

All wiring of the customer must conform to the city's requirements and accepted modern standards, as exemplified by the requirements of the National Electrical Safety Code, International Building Code and National Electrical Code.
(Code 1982, § 16-49; Ord. No. 15-908, 12-17-2015)

Sec. 26-85. Service charges for temporary service.

Customers requiring electric service on a temporary basis may be required by the city to pay all costs for connection and disconnection incidental to the supplying and removing of service. This rule applies to circuses, carnivals, fairs, temporary construction and the like.
(Code 1982, § 16-50)

Sec. 26-86. Application for service.

Each prospective customer desiring electric service may be required to sign the city's standard form of application for service or contract before service is supplied by the city.
(Code 1982, § 16-51)

Sec. 26-87. Deposit.

A cash deposit or suitable guarantee, as approved by the electric utility board, not exceeding twice the highest bill, may be required of any customer or person before electric service is supplied. The electric utility board may enter into an agreement with the gas utility board and the waterworks utility board to establish a combined utility deposit; to establish a minimum deposit for all types of service and to distribute the proceeds from these deposits. Interest may be accumulated on these deposits from October 1, 1973, at a rate as may from time to time be determined by the boards and will be added to the deposit at the time service is terminated. The deposit, plus accumulated interest, may be applied against any unpaid bills of the customer and if any balance remains after such application is made, such balance shall be refunded to the customer.
(Code 1982, § 16-52; Ord. No. 15-908, 12-17-2015)

Sec. 26-88. Point of delivery.

The point of delivery is the point, as designated by the city, on the customer's premises where current is to be delivered to the building or premises. All wiring and equipment beyond this point of delivery shall be maintained by the customer.
(Code 1982, § 16-53)

Sec. 26-89. Billing.

Bills will be rendered monthly and shall be paid within 15 days from the date of the bill. Failure to receive a bill will not release the customer from payment of the obligation. Should bills not be paid, the city may at any time thereafter, after providing reasonable notice to the customer, discontinue service. Bills not paid in a timely manner will incur a late payment charge. Payments that are due on a weekend or holiday will be due the next business day.
(Code 1982, § 16-54; Ord. No. 15-908, 12-17-2015)

Sec. 26-90. Billing adjusted to standard periods.

The demand charges and the blocks in the energy charges set forth in the rate schedules

are based on billing periods of approximately one month. In the case of the first billing of new accounts, (temporary service, cotton gins and other seasonal customers excepted) and final billings of all accounts (temporary service exempted) where the period covered by the billing involves fractions of a month, the demand charges and the blocks of the energy charge will be adjusted to a basis proportionate with the period of time during which service is extended.
(Code 1982, § 16-55)

Sec. 26-91. Connection and disconnection charges.

A fee for connection, reconnection and disconnection for electric services, and a charge to process returned checks which may or might be dishonored, may be established and collected to cover costs incurred for connecting, reconnecting or disconnecting service. Such charge for such services shall be those charges which shall be made and determined by the electric utility board.
(Code 1982, § 16-56)

Sec. 26-92. Voltage fluctuations caused by customer.

Electric service shall not be used in such a manner as to cause unusual fluctuations or disturbances to the city's system. The city may require the customer, at his own expense, to install suitable apparatus which will reasonably limit such fluctuations.
(Code 1982, § 16-57)

Sec. 26-93. Additional load.

The service connection, transformers, meters and equipment supplied by the city for each customer have definite capacity and no addition to the equipment or load connected to the equipment will be allowed except by consent of the city. Failure to give notice of additions or changes in load, and to obtain the city's consent, shall render the customer liable for any damage to any of the city's lines or equipment caused by the additional or changed installation.
(Code 1982, § 16-58)

Sec. 26-94. Standby and resale service.

All purchased electric service, other than emergency or standby service, used on the premises of any customer shall be supplied exclusively by the city; and the customer shall not directly or indirectly sell, sublet, assign or otherwise dispose of the electric service or any part of such service.
(Code 1982, § 16-59)

Sec. 26-95. Nonstandard service.

The customer shall pay the cost of any special installation necessary to meet his peculiar requirements for service at other than standard voltages or for the supply of closer voltage regulation than required by standard practice.
(Code 1982, § 16-60)

Sec. 26-96. Notice of trouble.

Customers shall notify the city immediately should the service be unsatisfactory for any reason, or should there be any defects, trouble or accidents affecting the supply of electricity.
(Code 1982, § 16-61; Ord. No. 15-908, 12-17-2015)

Sec. 26-97. Interruption of service.

The city shall use reasonable diligence to provide a regular and uninterrupted supply of current; but if the supply of current should be interrupted or disturbed for any cause, the city shall not be liable for resultant damages.
(Code 1982, § 16-62)

Sec. 26-98. Shortage of electricity.

In the event of an emergency or other condition causing a shortage in the amount of electricity for the city to meet the demand on its system, the city may, by an allocation method deemed equitable by the city, fix the amount of electricity to be made available for use by the customer and/or may otherwise restrict the time during which the customer may make use of electricity and the uses which the customer may make of electricity. If such actions become necessary, the customer may request a variance because of unusual circumstances, including matters

adversely affecting the public health, safety and welfare. If the customer fails to comply with such allocation or restriction, the city may take such remedial actions as it deems appropriate under the circumstances, including temporarily disconnecting electric service and charging additional amounts because of the excess use of electricity. The provisions of section 26-97 are applicable to any such allocation or restriction.
(Code 1982, § 16-63)

Sec. 26-99. Meter tests.

The city shall, at its own expense, make periodical tests and inspections of its meters in order to maintain a high standard of accuracy. The city shall make additional tests or inspections of its meter at the request of any customer. If such tests show that the meter is accurate within two percent, slow or fast, no adjustment will be made in the customer's bill and a testing charge as established by the electric utility board of the city shall be collected from the customer to cover the costs incurred. If the test shows the meter to be in excess of two percent, fast or slow, an adjustment shall be made in the customer's bill over a period of not over 30 days prior to the date of such test; and the costs of making such test shall be borne by the city.
(Code 1982, § 16-64)

Sec. 26-100. Extensions and additions to street lighting systems.

The city shall, at the request of a customer for street lighting service, provide additions and extensions to the street lighting system; provided, that if, in any year ending June 30, the customer requests additions or extensions with a total cost in excess of five percent of the investment in street lighting property and equipment, the customer may be required to finance such excess cost.
(Code 1982, § 16-65)

Sec. 26-101. Athletic field lighting.

Athletic field lighting installations not owned or maintained by the city may be served on an off-peak basis in accordance with the provisions of the standard street lighting rate as set out in division 3, subdivision IV of this article. For athletic field lighting an investment charge provided for in the street lighting rate will be based on the city's investment in furnishing and installing the equipment devoted to supplying this service. Energy will be billed in accordance with the street lighting schedule and each installation will be considered a separate customer for billing purposes. Customers' bills rendered in accordance with this provision shall be subject to any surcharge and amortization charge applied by the city. The off-peak period shall be determined by the city, but in no case shall it commence earlier than 7:00 p.m. The customer may be permitted to use up to ten percent (not to exceed ten kilowatts) of the total installed lighting capacity prior to the commencement of the off-peak period, such use to be considered off-peak for billing purposes. If a customer fails to restrict service in accordance with this section, he shall be billed under the appropriate large or small lighting and power rate, as set out in division 3, subdivision III of this article.
(Code 1982, § 16-66)

Sec. 26-102. Right of entry.

The city's identified employees shall have access to the customer's premises at all reasonable times for the purpose of reading meters, testing, inspecting, repairing, removing or exchanging any or all equipment belonging to the city.
(Code 1982, § 16-67; Ord. No. 15-908, 12-17-2015)

Sec. 26-103. Termination of contract by customer.

Customers who have fulfilled their contract terms and wish to discontinue service must give at least one business days' notice to that effect unless the contract specifies otherwise. Notice to discontinue service prior to expiration of contract term will not relieve a customer from any minimum or guaranteed payment under any contract or rate.
(Code 1982, § 16-68; Ord. No. 15-908, 12-17-2015)

Sec. 26-104. Discontinuance of service by city.

The city may refuse to connect or may discontinue service for the violation of any of its rules and regulations, or for violation of any of the provisions of this article or of the application of the customer or contract with the customer. The city may discontinue service to the customer for the theft of current or the appearance of current theft devices on the premises of the customer. The discontinuance of service by the city for any cause as stated in this section does not release the customer from his obligation to the city for payment of minimum bills as specified in the application of the customer or the contract with the customer.
(Code 1982, § 16-69)

Sec. 26-105. Customer's responsibility for city's property.

All meters, service connections and other equipment furnished by the city shall be and remain the property of the city. The customer shall provide a space for and exercise proper care to protect the property of the city on his premises; and in the event of loss or damage to the city's property arising from neglect of the customer to care for the property, the cost of necessary repairs or replacements shall be paid by the customer.
(Code 1982, § 16-70)

Sec. 26-106. Filing and posting.

A copy of this article shall be kept open to inspection at the office of the city electric system and the office of the city clerk-treasurer.
(Code 1982, § 16-71)

Sec. 26-107. Service not restored while delinquent consumer on premises.

(a) No member of the consumer's family, or anyone else living in the same house or building or on such property with the consumer where the electricity is cut off, shall have the right to make or offer to make a deposit for electricity, or to demand that the city turn on the electricity at such place, so long as the delinquent consumer lives in the house or on the property and the electricity bill or charges, plus a reasonable charge for turning on and off the electricity, is unpaid.

(b) Delinquent charges owed by any member of the consumer's family or anyone else living in the same house or building or on such property with the consumer will be charged back to the current active account for electricity service to the consumer.
(Ord. No. 84-677, § 16-72, 10-25-1984; Ord. No. 84-889, 1-10-1985)

Secs. 26-108—26-130. Reserved.

DIVISION 3. RATES, CHARGES AND SERVICE CLASSIFICATIONS*

Subdivision I. In General

Secs. 26-131—26-140. Reserved.

Subdivision II. Residential Rate

Sec. 26-141. Scope.

The provisions of this subdivision apply to the residential rate. In this subdivision the term "rate" means the residential rate.

Sec. 26-142. Availability.

The residential rate shall apply only to electric service to a single-family dwelling and its appurtenances, where the major use of electricity is for domestic purposes such as lighting, household appliances and the personal comfort and convenience of those residing therein. Any such dwelling in which space is occasionally used for the conduct of business by a person residing therein may be served under this rate. Where a portion of a dwelling is used regularly for the conduct of business, the electricity consumed in that portion so used shall be separately metered

*__Editor's note—__The rates and charges in this division are those in effect at the time of preparation of this Code. They are subject to change without council approval to the extent provided in sections 26-171(i), 26-172(i), 26-173(i) and 26-174(i).

and billed under the general power rate; if separate circuits are not provided by the customer, service to the entire premises shall be billed under the general power rate.
(Code 1982, § 16-86)

Sec. 26-143. Character of service.

Voltage supplied shall be at the discretion of the electric department and shall be determined by the voltage available from distribution lines in the vicinity and/or other conditions. Multiphase service shall be supplied in accordance with the electric department's standard policy. Customers requesting additional voltage/services may be required to pay aid to construction costs.
(Code 1982, § 16-87; Ord. No. 15-908, 12-17-2015)

Sec. 26-144. Rate.

(a) The availability charge shall be $6.15 per month less hydro allocation credit of $2.48 ($3.67 per delivery point per month).

(b) The energy charge shall be as follows:

(1) First 2,000 kilowatt-hours per month, $5.400 cents per kilowatt-hour.

(2) Additional kilowatts per month at $5.950 cents per kilowatt-hour.

(c) The customer's bill for each month shall be increased or decreased in accordance with the current adjustment addendum published by the Tennessee Valley Authority (TVA).
(Code 1982, § 16-88)

Sec. 26-145. Minimum monthly bill.

The availability charge constitutes the minimum monthly bill for all customers served under this division except those customers for which a higher minimum monthly bill is required under the electric department's standard policy because of special circumstances affecting the electric department's cost of rendering service.
(Code 1982, § 16-89)

Sec. 26-146. Payment.

The rates fixed in this division are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00.
(Code 1982, § 16-90; Ord. No. 15-908, 12-17-2015)

Sec. 26-147. Single-point delivery.

The charges under this division are based upon the supply of service through a single delivery and metering point, and at a single voltage. If service is supplied to the same customer through more than one point of delivery or at different voltages, the supply of service at each delivery and metering point and at each different voltage shall be separately metered and billed under this division.
(Code 1982, § 16-91)

Sec. 26-148. Rules and regulations.

Service is subject to rules and regulations of the electric department.
(Code 1982, § 16-92)

Secs. 26-149—26-170. Reserved.

Subdivision III. General Power Rate

Sec. 26-171. Schedule GSA.

(a) *Scope and availability.* This section establishes the general power rate—schedule GSA and is applicable to such schedule. This shall apply to the firm power requirements for electric service to commercial, industrial and governmental customers; institutional customers including, without limitation, churches, clubs, fraternities, orphanages, nursing homes, rooming or boarding houses and like customers; and other customers except those to whom service is available under other resale rate schedules.

(b) *Character of service.* Electrical service provided to those commercial, industrial and governmental customers listed in subsection (a) of this section will be alternating current, single or three-phase, 60 hertz. Under subsection (c)(1) of this section power shall be delivered at a voltage available in the vicinity or agreed to by the electric department. Under subsections (c)(2)

and (c)(3) of this section power shall be delivered at a transmission voltage of 161 kv or if such transmission voltage is not available, at the highest voltage available in the vicinity, unless at the customer's request a lower standard voltage is agreed upon.

(c) *Base charges.*

(1) If the higher of the customer's currently effective contract demand, if any, or its highest billing demand during the latest 12-month period is not more than 50 kw and the customer's monthly energy takings for any month during such period do not exceed 15,000 kwh:

a. *Customer charge.* $7.15 per delivery point per month.

b. *Energy charge. $0.05895 per kwh per month.*

(2) If the higher of the customer's currently effective contract demand or its highest billing demand during the latest 12-month period is greater than 50 kw but not more than 1,000 kw or if the customer's billing demand is less than 50 kw and its energy takings for any month during such period exceed 15,000 kwh:

a. *Customer charge.* $7.65 per delivery point per month.

b. *Demand charge.* First 50 kw of billing demand per month, no demand charge. Excess over 50 kw of billing per month, at $7.86 per kw.

c. *Energy charge.* First 15,000 kwh per month at $0.05895 per kwh. Additional kWh per month at $0.03181 per kwh.

(3) If the higher of the customer's currently effective contract demand or its highest billing demand during the latest 12-month period is greater than 1,000 kw:

a. *Customer charge.* $7.65 per delivery point per month.

b. *Demand charge.* First 1,000 kw of billing demand per month, at $8.10 per kw. Excess over 1,000 kw of billing demand per month at $9.12 per kw per month for each kw, if any, of the amount by which the customer's billing demand exceeds the higher of 1,000 kw or its contract demand.

c. *Energy charge.* $0.03147 per kwh per month.

(d) *Facilities rental charge.* This subsection applies only to subsections (c)(2) and (c)(3) of this section. There shall be no facilities rental charge under the general power rate schedule for delivery at bulk transmission voltage levels of 161 kv or higher. For delivery at less than 161 kv, there shall be added to the customer's bill a facilities rental charge. This charge shall be $0.36 per kilowatt per month except for delivery at voltages below 46 kv, in which case the charge shall be $0.93 per kilowatt per month for the first 10,000 kilowatts and $0.73 per kilowatt per month for the excess over 10,000 kilowatts. Such charge shall be applied to the higher of the highest billing demand established during the last 12 consecutive month period or the customer's currently effective contract demand and shall be in addition to all other charges under this subdivision including minimum bill charges.

(e) *Reactive demand charges.* If the reactive demand (in kvar) is lagging during the 30-consecutive-minute period beginning or ending on a clock hour of the month in which the customer's highest metered demand occurs, there shall be added to the customer's bill a reactive charge of $0.78 per kvar of the amount, if any, by which the reactive demand exceeds 33 percent of such metered demand. If the reactive demand (in kvar) is leading during the 30-consecutive-minute period beginning or ending on a clock hour of the month in which the customer's lowest metered demand (excluding any metered demands which are less than 25 percent of the highest metered demand) occurs, there shall be added to the customer's bill a reactive charge of $0.33 per kvar of the amount of reactive demand. Such charges shall be in addition to all other charges under this rate schedule, including minimum bill charges.

(f) *Determination of demand.* The electric department shall meter the demands in kw of all customers served. The metered demand for any month shall be the highest average during any 30-consecutive-minute period beginning or ending on a clock hour of the month of the load metered in kw, and such amount shall be used as the billing demand, except that the billing demand for any month shall in no case be less than the sum of:

(1) Thirty percent of the first 5,000 kw; and

(2) Forty percent of any kw in excess of 5,000 kw of the higher of the currently effective contract demand or the highest billing demand established during the preceding 12 months.

(g) *Minimum bill.* The monthly bill, excluding any facilities rental charges and any reactive charges, shall not be less than the sum of the base customer charge, the base demand charge, as adjusted (but excluding the additional portion thereof applicable to excess of billing demand over contract demand) applied to the customer's billing demand, and the base energy charge, as adjusted, applied to the customer's energy takings. The distributor may require higher minimum bills.

(h) *Seasonal service.*

(1) Customers who contract for service on a seasonal basis shall be limited to 2,500

kw and shall pay the above charges, as adjusted, plus an additional seasonal use charge determined as follows:

a. Under subsection 26-171(c)(1) of the base charges, said charge shall be equal to $0.01 per kwh per month.

b. Under subsection 26-171(c)(2) and (3) of the base charges, said charge shall be equal to $0.01 per kwh per month of the lesser of the amount computed by multiplying 300 hours by the customer's billing demand or the customer's energy takings for the month, except in the case under subsection 26-171(c)(2) where the customer's billing demand is less than 50 kw, in which case said charge shall be equal to $0.01 per kwh for the first 15,000 kwh of the customer energy takings for the month.

(2) Consistent with the distributor's standard policy, the customer may arrange for seasonal testing of equipment during offpeak hours.

(3) For such customers, the exception language under subsection (f) of this section and the minimum bill provided for in subsection (g) of this section shall not apply. The distributor may require additional charges to provide recovery of costs for customer-specific distribution facilities.

(i) *Contract requirement.* The distributor shall require contracts for all service provided under this subdivision. The contract shall be an initial term of at least five years and any renewals or extensions of the initial contract shall be for a term of at least one year; after ten years of service, any such contract for the renewal or extension of service may provide for termination upon not less than four months' notice. The customer shall contract for its maximum requirements, which shall not exceed the amount of power capable of being used by the customer, and the distributor shall not be obligated to supply power in greater amount at any time than the customer's currently effective contract demand. If the customer uses any power other than that supplied by the distributor under this division, the contract may include other special provisions. The rate schedule in any power contract shall be subject to adjustment, modification, change, or replacement from time to time as provided under the power contract between the distributor and TVA.

(j) *Payment.* Bills will be rendered monthly. Any amount of the bill unpaid after the due date specified on the bill may be subject to additional charges under the distributor's standard policy.

(k) *Single-point delivery.* Charges are based upon the supply of service through a single delivery and metering point, and at a single voltage. If service is supplied to the same customer through more than one point of delivery or at different voltages, the supply of service at each delivery and metering point and at each different voltage shall be separately metered and billed.

(l) *Rules and regulations.* Service is subject to rules and regulations of the electric department. (Code 1982, §§ 16-93—16-104)

Sec. 26-172. Schedule GSB.

(a) *Scope and availability.* This section establishes the general power rate—schedule GSB and is applicable to such schedule. This section shall apply to the firm power requirements for electric service to commercial, industrial and governmental customers; institutional customers including, without limitation, churches, clubs, fraternities, orphanages, nursing homes, roominghouses or boardinghouses and like customers; and other customers where a customer's currently effective contract demand is greater than 5,000 kw but not more than 15,000 kw.

(b) *Character of service.* Electrical service provided to those commercial, industrial and governmental customers listed in subsection (a) of this section will be alternating current, single or three phase, 60 hertz. Power shall be delivered at a transmission voltage of 161 kv or if such transmission voltage is not available, at the highest voltage available in the vicinity, unless at the customer's request a lower standard voltage is agreed upon.

(c) *Base rate.*

(1) *Customer charge.* $1,500.00 per delivery point per month.

(2) *Demand charge.* $10.18 per kw of billing demand per month, plus an additional $10.18 per kw per month for each kw, if any, of the amount by which the customer's billing demand exceeds its contract demand.

(3) *Energy charge.* $0.02790 per kwh for up to 620 hours use of metered demand per month. $0.02278 per kwh for all additional kwh per month.

(d) *Facilities rental charge.* There shall be no facilities rental charge under the general power rate schedule for delivery at bulk transmission voltage levels of 161 kv or higher. For delivery at less than 161 kv, there shall be added to the customer's bill a facilities rental charge. This charge shall be $0.36 per kilowatt per month except for delivery at voltages below 46 kv, in which case the charge shall be $0.93 per kilowatt per month for the first 10,000 kilowatts and $0.73 per kilowatt per month for the excess over 10,000 kilowatts. Such charge shall be applied to the higher of the highest billing demand established during the last 12 consecutive month period or the customer's currently effective contract demand and shall be in addition to all other charges under this subdivision including minimum bill charges.

(e) *Reactive demand charges.* If the reactive demand (in kvar) is lagging during the 30-consecutive-minute period beginning or ending on a clock hour of the month in which the customer's highest metered demand occurs, there shall be added to the customer's bill a reactive charge of $0.78 per kvar of the amount, if any, by which the reactive demand exceeds 33 percent of such metered demand. If the reactive demand (in kvar) is leading during the 30-consecutive-minute period beginning or ending on a clock hour of the month in which the customer's lowest metered demand (excluding any metered demands which are less than 25 percent of the highest metered demand) occurs, there shall be added to the customer's bill a reactive charge of $0.33 per kvar of the amount of reactive demand. Such charges shall be in addition to all other charges under this rate schedule, including minimum bill charges.

(f) *Determination of demand.* The electric department shall meter the demands in kw of all customers served. The metered demand for any month shall be the highest average during any 30-consecutive-minute period beginning or ending on a clock hour of the month of the load metered in kw, and such amount shall be used as the billing demand, except that the billing demand for any month shall in no case be less than the sum of:

(1) 30 percent of the first 5,000 kw; and

(2) 40 percent of any kw in excess of 5,000 kw of the higher of the currently effective contract demand or the highest billing demand established during the preceding 12 months.

(g) *Minimum bill.* The monthly bill, excluding any facilities rental charges and any reactive charges, shall not be less than the sum of the base customer charge; the base demand charge, as adjusted (but excluding the additional portion thereof applicable to excess of billing demand over contract demand) applied to the customer's billing demand; and the base energy charge, as adjusted, applied to the customer's energy takings. The distributor may require higher minimum bills.

(h) *Seasonal service.*

(1) Customers who contract for service on a seasonal basis shall be limited to 2,500 kw and shall pay the above charges, as adjusted, plus an additional seasonal use charge determined as follows:

a. Under subsection 26-171(c)(1) of the base charges, the charge shall be equal to $0.01 per kwh per month.

b. Under subsection 267-171(c)(2) and (3) of the base charges, said charge shall be equal to $0.01 per kwh per month of the lesser of the amount computed by multiplying 300 hours by the customer's billing demand or the customer's energy takings for the month, except in the case under subsection 26-171(c)(2) where the

customer's billing demand is less than 50 kw, in which case said charge shall be equal to $0.01 per kwh for the first 15,000 kwh of the customer energy takings for the month.

(2) Consistent with the distributor's standard policy, the customer may arrange for seasonal testing of equipment during offpeak hours.

(3) For such customers, the exception language under subsection (f) of this section and the minimum bill provided for in subsection (g) of this section shall not apply. The distributor may require additional charges to provide recovery of costs for customer-specific distribution facilities.

(i) *Contract requirement.* The distributor shall require contracts for all service provided under this subdivision. The contract shall be an initial term of at least five years and any renewals or extensions of the initial contract shall be for a term of at least one year; after ten years of service, any such contract for the renewal or extension of service may provide for termination upon not less than four months' notice. The customer shall contract for its maximum requirements, which shall not exceed the amount of power capable of being used by the customer, and the distributor shall not be obligated to supply power in greater amount at any time than the customer's currently effective contract demand. If the customer uses any power other than that supplied by the distributor under this division, the contract may include other special provisions. The rate schedule in any power contract shall be subject to adjustment, modification, change, or replacement from time to time as provided under the power contract between the distributor and TVA.

(j) *Payment.* Bills will be rendered monthly. Any amount of the bill unpaid after the due date specified on the bill may be subject to additional charges under the distributor's standard policy.

(k) *Single-point delivery.* Charges are based upon the supply of service through a single delivery and metering point, and at a single voltage. If service is supplied to the same customer through more than one point of delivery or at different voltages, the supply of service at each delivery and metering point and at each different voltage shall be separately metered and billed.

(l) *Rules and regulations.* Service is subject to rules and regulations of the electric department. (Code 1982, §§ 16-93—16-104)

Sec. 26-173. Schedule GSC.

(a) *Scope and availability.* This section establishes the general power rate—schedule GSC and is applicable only to such schedule. This section shall apply to the firm electric power requirements where a customer's currently effective contract demand is greater than 15,000 kw but not more than 25,000 kw.

(b) *Character of service.* Service is alternating current, single- or three-phase, 60 hertz. Power shall be delivered at a transmission voltage of 161 kV or, if such transmission voltage is not available, at the highest voltage available in the vicinity, unless at the customer's request a lower standard voltage is agreed upon.

(c) *Base charges.*

(1) *Customer charge.* $1,500.00 per delivery point per month.

(2) *Demand charge.* $10.02 per kw of billing demand per month, plus an additional $10.02 per kw per month for each kw, if any, of the amount by which the customer's billing demand exceeds its contract demand.

(3) *Energy charge.* $0.02790 per kwh for up to 620 hours use of metered demand per month. $0.02278 per kwh for all additional kwh per month.

(d) *Adjustment.* The base demand and energy charges shall be increased or decreased in accordance with the current adjustment addendum published by TVA. (In addition, such charges shall be increased or decreased to correspond to increases or decreases determined by TVA in the value of the hydro generation benefit allocated to residential customers.)

(e) *Facilities rental charge.* There shall be no facilities rental charge under this section for delivery at bulk transmission voltage levels of 161 kV or higher. For delivery at less than 161 kV, there shall be added to the customer's bill a facilities rental charge. This charge shall be $0.36 per kw per month except for delivery at voltages below 46 kV, in which case the charge shall be $0.93 per kw per month for the first 10,000 kw and $0.73 per kw per month for the excess over 10,000 kw. Such charge shall be applied to the higher of the highest billing demand established during the latest 12-consecutive-month period or the customer's currently effective contract demand and shall be in addition to all other charges under this subdivision, including minimum bill charges.

(f) *Reactive demand charges.* If the reactive demand (in kvar) is lagging during the 30-consecutive-minute period beginning or ending on a clock hour of the month in which the customer's highest metered demand occurs, there shall be added to the customer's bill a reactive charge of $0.78 per kvar of the amount, if any, by which the reactive demand exceeds 33 percent of such metered demand. If the reactive demand (in kvar) is leading during the 30-consecutive-minute period beginning or ending on a clock hour of the month in which the customer's lowest metered demand (excluding any metered demands which are less than 25 percent of the highest metered demand) occurs, there shall be added to the customer's bill a reactive charge of $0.33 per kvar of the amount of reactive demand. Such charges shall be in addition to all other charges under this rate schedule, including minimum bill charges.

(g) *Determination of demand.* The distributor shall meter the demands in kw of all customers served under this rate schedule. The metered demand for any month shall be the highest average during any 30-consecutive-minute period beginning or ending on a clock hour of the month of the load metered in kw, and such amount shall be used as the billing demand, except that the billing demand for any month shall in no case be less than the sum of 30 percent of the first 5,000 kw, 40 percent of the next 20,000 kw, and 50 percent of any kw in excess of 25,000 kw of the higher of the currently effective contract demand or the highest billing demand established during the preceding 12 months.

(h) *Minimum bill.* The monthly bill under this section, excluding any facilities rental charges and any reactive charges, shall not be less than the sum of the base customer charge, the base demand charge, as adjusted (but excluding the additional portion thereof applicable to excess of billing demand over contract demand) applied to the customer's billing demand, and the base energy charge, as adjusted, applied to the customer's energy takings. The distributor may require higher minimum bills.

(i) *Contract requirement.* The distributor shall require contracts for all service provided under this section. The contract shall be for an initial term of at least five years and any renewals or extensions of the initial contract shall be for a term of at least one year; after ten years of service, any such contract for the renewal or extension of service may provide for termination upon not less than four months' notice. The customer shall contract for its maximum requirements, which shall not exceed the amount of power capable of being used by customer, and distributor shall not be obligated to supply power in greater amount at any time than the customer's currently effective contract demand. If the customer uses any power other than that supplied by distributor under this rate schedule, the contract may include other special provisions. The rate schedule in any power contract shall be subject to adjustment, modification, change, or replacement from time to time as provided under the power contract between the distributor and TVA.

(j) *Payment.* Bills under this section will be rendered monthly. Any amount of the bill unpaid after the due date specified on the bill may be subject to additional charges under the distributor's standard policy.

(k) *Single-point delivery.* The charges under this section are based upon the supply of service through a single delivery and metering point, and at a single voltage. If service is supplied to the same customer through more than one point of delivery or at different voltages, the supply of

service at each delivery and metering point and at each different voltage shall be separately metered and billed.

(l) *Rules and regulations.* Service is subject to rules and regulations of the distributor.

Sec. 26-174. Schedule GSD.

(a) *Scope and availability.* This section establishes the general power rate—schedule GSD and is applicable only to such schedule. This section shall apply to the firm electric power requirements where a customer's currently effective contract demand is greater than 25,000 kw.

(b) *Character of service.* Service is alternating current, single- or three-phase, 60 hertz. Power shall be delivered at a transmission voltage of 161 kv or, if such transmission voltage is not available, at the highest voltage available in the vicinity, unless at the customer's request a lower standard voltage is agreed upon.

(c) *Base charges.*

(1) *Customer charge.* $1,500.00 per delivery point per month.

(2) *Demand charge.* $12.60 per kw of billing demand per month, plus an additional $12.60 per kw per month for each kw, if any, of the amount by which the customer's billing demand exceeds its contract demand.

(3) *Energy charge.* $0.02265 per kwh per month.

(d) *Adjustment.* The base demand and energy charges shall be increased or decreased in accordance with the current adjustment addendum published by TVA. (In addition, such charges shall be increased or decreased to correspond to increases or decreases determined by TVA in the value of the hydro generation benefit allocated to residential customers.)

(e) *Facilities rental charge.* There shall be no facilities rental charge under this section for delivery at bulk transmission voltage levels of 161 kv or higher. For delivery at less than 161 kv, there shall be added to the customer's bill a facilities rental charge. This charge shall be $0.36 per kw per month except for delivery at voltages below 46 kv, in which case the charge shall be $0.93 per kw per month for the first 10,000 kw and $0.73 per kw per month for the excess over 10,000 kw. Such charge shall be applied to the highest billing demand established during the latest 12-consecutive-month period or the customer's currently effective contract demand and shall be in addition to all other charges under this section, including minimum bill charges.

(f) *Reactive demand charges.* If the reactive demand (in kvar) is lagging during the 30-consecutive-minute period beginning or ending on a clock hour of the month in which the customer's highest metered demand occurs, there shall be added to the customer's bill a reactive charge of $0.78 per kvar of the amount, if any, by which the reactive demand exceeds 33 percent of such metered demand. If the reactive demand (in kvar) is leading during the 30-consecutive-minute period beginning or ending on a clock hour of the month in which the customer's lowest metered demand (excluding any metered demands which are less than 25 percent of the highest metered demand) occurs, there shall be added to the customer's bill a reactive charge of $0.33 per kvar of the amount of reactive demand. Such charges shall be in addition to all other charges under this rate schedule, including minimum bill charges.

(g) *Determination of demand.* The distributor shall meter the demands in kw of all customers served under this rate schedule. The metered demand for any month shall be the highest average during any 30-consecutive-minute period beginning or ending on a clock hour of the month of the load metered in kw, and such amount shall be used as the billing demand, except that the billing demand for any month shall in no case be less than the sum of 30 percent of the first 5,000 kw, 40 percent of the next 20,000 kw, 50 percent of the next 25,000 kw, 60 percent of the next 50,000 kw, 70 percent of the next 100,000 kw, 80 percent of the next 150,000 kw, and 85 percent of all kw in excess of 350,000 kw of the higher of the currently effective contract demand or the highest billing demand established during the preceding 12 months.

(h) *Minimum bill.* The monthly bill under this section, excluding any facilities rental charges and any reactive charges, shall not be less than

sum of the base customer charge, the base demand charge, as adjusted (but excluding the additional portion thereof applicable to excess of billing demand over contract demand) applied to the customer's billing demand and the base energy charge, as adjusted, applied to the customer's energy takings. The distributor may require higher minimum bills.

(i) *Contract requirement.* The distributor shall require contracts for all service provided under this section. The contract shall be for an initial term of at least five years and any renewals or extensions of the initial contract shall be for a term of at least five years; after ten years of service, any such contract for the renewal or extension of service may provide for termination upon not less than 16 months' notice. The customer shall contract for the maximum requirements, which shall not exceed the amount of power capable of being used by the customer, and the distributor shall not be obligated to supply power in greater amount at any time than the customer's currently effective contract demand. If the customer uses any power other than that supplied by the distributor under this section, the contract may include other special provisions. The rate schedule in any power contract shall be subject to adjustment, modification, change, or replacement from time to time as provided under the power contract between the distributor and TVA.

(j) *Payment.* Bills under this section will be rendered monthly. Any amount of the bill unpaid after the due date specified on the bill may be subject to additional charges under the distributor's standard policy.

(k) *Single-point delivery.* The charges under this section are based upon the supply of service through a single delivery and metering point, and at a single voltage. If service is supplied to the same customer through more than one point of delivery or at different voltages, the supply of service at each delivery and metering point and at each different voltage shall be separately metered and billed.

(l) *Rules and regulations.* Service is subject to rules and regulations of the distributor.
(Code 1982, § 16-95)

Secs. 26-175—26-190. Reserved.

Subdivision IV. Outdoor Lighting Rate

Sec. 26-191. Scope.

The provisions of this subdivision apply to the outdoor lighting rate. In this subdivision the term "rate" means the outdoor lighting rate.

Sec. 26-192. Availability.

The outdoor lighting rate is available for service to street and park lighting systems, traffic signal systems, athletic field lighting installations (during prescribed use-period) and outdoor lighting for individual customers.
(Code 1982, § 16-105)

Sec. 26-193. Payment.

The rates fixed in this subdivision are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00.
(Code 1982, § 16-106; Ord. No. 15-908, 12-17-2015)

Sec. 26-194. Rules and regulations.

Service under this subdivision is subject to rules and regulations of the electric department.
(Code 1982, § 16-107)

Sec. 26-195. Rates—Generally.

(a) The rates for street and park lighting systems, traffic systems and athletic field lighting installations shall be as follows:

(1) An energy charge of $0.004378 per kilowatt-hour.

(2) The customer's bill for each month shall be increased or decreased in accordance with the current adjustment addendum published by the Tennessee Valley Authority.

(b) In addition, there shall be an investment charge as follows:

(1) The annual investment charge shall be nine percent of the installed cost to the electric department of the facilities devoted to street and park lighting service specified in this section. Such installed cost shall be recomputed on July 1 of each year, or more often if substantial changes in the facilities are made. Each month, 1/12 of the then total annual investment charge shall be billed to the customer. If any part of the facilities has not been provided at the electric system's expense or if the installed cost of any portion thereof is reflected on the books of another municipality or agency or department, the annual investment charge shall be adjusted to reflect properly the remaining cost to be borne by the electric system.

(2) Traffic signal systems and athletic field lighting installations shall be provided, owned and maintained by and at the expense of the customer, except as the electric department may agree otherwise in accordance with the provisions of subsection (b)(3) of this section. The facilities necessary to provide service to such systems and installations shall be provided by and at the expense of the Huntsville Utilities Electric Department, and the annual investment charge provided for in subsection (b)(1) of this section shall apply to the installed cost of such facilities.

(3) When so authorized by policy duly adopted by the electric department's governing board, traffic signal systems and athletic field lighting installations may be provided, owned and maintained by the electric department for the customer's benefit. In such cases the electric department may require reimbursement from the customer for a portion of initial installed cost of any such system or installation and shall require payment by the customer of an investment charge sufficient to cover all of the electric department's costs (except reimbursed costs), including appropriate overheads, or providing, owning and maintaining such system or installation; provided that, for athletic field lighting installations, such investment charge shall in no case be less than 12 percent per year of such costs. Such investment charge shall be in addition to the annual investment charge on the facilities necessary to provide service to such system or installation as provided for in subsection (b)(1) of this section. Replacement of lamps and related glassware for traffic signal systems and athletic field lighting installations provided under this subsection shall be paid for under the provisions of subsection (c)(1) of this section.

(c) The customer shall be billed and shall pay for maintenance and replacements as provided below, which shall be applied to all service for street, park lighting and traffic signal systems installed by the city.

(1) The electric department shall bill the customer monthly for such replacements during each month at the electric department's cost of materials, including appropriate store room expense.

(2) The electric department shall bill the customer monthly for 1/12 of the amount by which the electric department's cost of materials, including appropriate storeroom expense, exceeds the product of three mills multiplied by the number of kilowatt-hours used for street and park lighting during the fiscal year immediately preceding the fiscal year in which such month occurs.

(d) For any billing month or part of such month in which the energy is not metered or for which a meter reading is found to be in error or a meter is found to have failed, the energy for billing purposes for that billing month or part of such month shall be computed from the rated capacity of the lamps (including ballast) plus five percent of such capacity to reflect secondary circuit losses, multiplied by the number of hours of use.

(e) Service to athletic field lighting installations under this rate schedule shall not commence earlier than 7:00 p.m., except that the customer may be permitted to use up to ten percent (not to exceed ten kilowatts) of the total installed lighting capacity prior to commencement of such period. If the customer fails to restrict service in accordance with these requirements, service shall be billed under the general power rate.

(f) The electric department's costs of providing service under this section are subject to review at any time and from time to time to determine if the electric department's revenues from the charges being applied are sufficient to cover such costs. If any such review discloses that revenues are either less or more than sufficient to cover such costs, the electric department shall revise the above investment charges provided for in this section so that revenues will be sufficient to cover such costs. Any such revision of the annual investment charge provided for first above in subsection (b)(1) of this section shall be by agreement between the electric department and the Tennessee Valley Authority.

(g) Replacement of lamps and related glassware will be made in accordance with replacement policies of the electric department without additional charge to the customer.

(h) The rates in this section are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00.

(i) Service is subject to rules and regulations of the utilities electric department.
(Code 1982, § 16-108; Ord. No. 15-908, 12-17-2015)

Sec. 26-196. Same—Individual customers.

(a) The monthly charges for outdoor lighting for individual customers shall be as follows:

		Lamp Size			
(1)	*Type of Fixture*	*(Watts)*	*(Lumens)*	Rated kwh	*Facility Charge*
	Mercury vapor or incandescent	175	7,650	70	$2.71
		250	10,400	98	3.21
		400	19,100	155	4.06
		700	33,600	266	5.48
		1,000	47,500	378	6.98
	High pressure sodium	70	4,860	31	3.85
		100	8,550	42	4.12
		150	14,400	63	4.24
		200	18,900	82	4.61
		250	23,000	105	4.87
		400	45,000	165	5.78
		1,000	126,000	385	9.24
	Low pressure sodium	55	7,650	32	3.87
		90	12,750	53	6.44
		135	22,000	75	8.49
		180	33,000	93	9.64

(2) *Energy charge.* For each lamp size under subsection (1) of this section, $0.04378 kwh per month. The charges in this subsection (2) are limited to service from a photo-electrically controlled standard street lighting fixture installed at a location other than on a pole already in place. The electric department may apply a monthly charge not to exceed $2.00 per pole for additional poles required to serve the fixture from the electric department and may uniformly adjust the above base monthly charges up or down by an amount not to exceed $1.00.

(b) When so authorized by policy duly adopted by the electric department's governing board, special outdoor lighting installations may be provided, owned and maintained by the electric department. In such cases the electric department may require reimbursement from the customer for a portion of the initial installed cost of any such installation and shall require payment by the customer of monthly charges sufficient to cover all of the electric department's costs (except reimbursed costs), including appropriate overheads, of providing, owning and maintaining such installations.
(Code 1982, § 16-108)

Secs. 26-197—26-400. Reserved.

ARTICLE III. NATURAL GAS SERVICE

DIVISION 1. GENERALLY

Sec. 26-401. Expenditures for construction or additions.

Pursuant to Act No. 893 of the 1971 regular session, no expenditure for new construction, additions or replacements to the municipal gas distribution system or the equipment used by the system, shall be made by the municipal gas utility board where the total expense is more than $25,000.00 without the prior consent and approval of the city council.
(Code 1982, § 17-29; Ord. No. 98-866, § 17-29, 11-12-1998)

Secs. 26-402—26-420. Reserved.

DIVISION 2. METERS, BILLS AND COLLECTIONS

Sec. 26-421. Application for service.

Each prospective customer desiring gas service may be required to sign the city's standard form of application for service or contract before service is supplied by the city.
(Code 1982, § 17-46)

Sec. 26-422. Maintenance of equipment.

It shall be the duty of each customer or consumer of gas from the city gas distribution system to keep the gas equipment used by such customer or owner of the house, building or premises where the equipment is located in proper condition; and if the customer or consumer fails to do so, the gas distribution system shall not be liable for cutting off the gas service from such premises because of such failure of the customer or the owner to keep such gas equipment in proper condition.
(Code 1982, § 17-47)

Sec. 26-423. When consumers to be billed.

(a) A statement shall, as soon as practicable after the meter is read, be either mailed or electronically delivered to each customer of gas furnished by the city to the occupant of the house, building or premises where such gas service is furnished, which statement shall show the quantity of gas consumed by such customer or consumer for the next preceding 30 days, and the amount due.

(b) In the case of the first billing of new accounts and final billings of all accounts where the period covered involves fractions of a month, the minimum charges shall be adjusted to a basis proportionate with the period of time during which service was furnished.

(c) Any consumer requiring service shall be required to pay the minimum per-month charge.
(Code 1982, § 17-48; Ord. No. 15-909, 12-17-2015)

Sec. 26-424. Effect of failure to receive bill.

Failure to receive a statement or gas bill shall not entitle any person to the net rates, nor shall it prevent the city from discontinuing service or cutting off the gas in accordance with section 26-428.
(Code 1982, § 17-49)

Sec. 26-425. Payment of bill with bad check.

When any check or order is delivered to the city in payment of any gas account or gas bill and is accepted, and such check or order upon first presentation to the bank or trust company upon which it is drawn is not paid, the city shall charge the amount of such check or order back to the gas bill or gas account of such person; and such gas bill or gas account shall be considered a delinquent account. The city shall be authorized to discontinue service to such consumer in accordance with section 26-428, the same as if the check or order had not been given.
(Code 1982, § 17-50)

Sec. 26-426. Right of entry.

(a) Where a gas meter is located on private property and is connected with the city gas distribution system for service, the city shall at all times have the right and authority by and through its agent, servant, officer or employee to go upon and enter such premises for the purpose of reading the gas meter, or to cut on or off the gas or gas service, or to perform any necessary maintenance to the gas meter and other equipment owned by the city on such premises, as it deems necessary.

(b) Where any property owner or tenant refuses to allow the city, or its properly authorized agent, servant, officer or employee to enter such premises for the purposes set out in this section, the city shall have the right and authority to cut off the gas or gas service from such premises at any other place. Service shall not be restored until the property owner or tenant shall have caused the gas meter to be removed and placed, ready for service, at whatever place the city shall designate. The city shall not be liable for cutting off the gas or gas service upon such premises.
(Code 1982, § 17-51; Ord. No. 15-909, 12-17-2015)

Sec. 26-427. Meters.

(a) *Record; reading.* A record of all gas meters installed shall be kept by the city, and all meters shall be read monthly to ascertain the amount of gas consumed by each customer.

(b) *Failing to register.* When any gas meter fails to register, a daily average shall be obtained from the readings taken from such meter the next preceding month during which the meter was known to be operating correctly and this reading used as a basis of payment for gas consumed through such meter for the period in which the meter is out of order and until repaired.

(c) *Tests.* The city shall, at its own expense, make periodic tests and inspections of its gas meters in order to maintain a high standard of accuracy. The city shall make additional tests or inspections of its meter at the request of any customer. If such tests show that the meter is accurate within two percent, slow or fast, no adjustment will be made in the customer's bill; and a charge may be established and collected to cover costs incurred. The charge for such services shall be determined by the gas utility board of the city. If the test shows the meter to be in excess of two percent, fast or slow, an adjustment shall be made in the customer's bill over a period of not more than 30 days prior to the date of such test; and the cost of making such test shall be borne by the city.
(Code 1982, §§ 17-52—17-54)

Sec. 26-428. Service discontinued for failure to pay bill; reconnection charge.

If any consumer or owner of the house, building or property shall refuse or neglect to pay his gas bill or charge on or before the penalty date as shown on the statement, the gas may be turned

off and shall not be turned on again until the bill or charge shall be paid in full, plus a reasonable charge for turning on and off the gas.
(Code 1982, § 17-55)

Sec. 26-429. Connection and disconnection charges.

A fee for connection, reconnection and disconnection for gas services, and a charge to process returned checks which may or might be dishonored, may be established and collected to cover costs incurred for connecting, reconnecting or disconnecting service. Such charge for such services shall be those charges which shall be made and determined by the gas utility board.
(Code 1982, § 17-56)

Sec. 26-430. Resumption of service.

(a) *Amount of fee required.* Any customer or consumer of the gas system of the city who discontinues the use of the services and facilities of such gas system, and subsequently desires to resume such services and facilities at the same premises shall be charged by the city and shall pay the city the current setup fee for resumption of such services and facilities made and determined by the gas utility board. The current customer service fee schedule is published on the utility website (www.hsvutil.org).

(b) *City employees not to restore services until fee paid.* No employee of the city shall restore gas services or facilities for any customer or consumer as set out in subsection (a) of this section until the charge shall have been paid by each such customer or consumer of natural gas.
(Code 1982, §§ 17-57, 17-58; Ord. No. 15-909, 12-17-2015)

Sec. 26-431. Service not restored while delinquent consumer on premises.

No member of the consumer's family, or anyone else living in the same house, building or on such property with the consumer where the gas is cut off, shall have the right to make or offer to make a deposit for gas, or to demand that the city turn on the gas at such place, so long as the delinquent consumer lives there and the gas bill or charges, plus a reasonable charge for turning on and off the gas is unpaid. Further, delinquent charges owed by any member of the consumer's family living in the same house or delinquent charges of anyone else living in the same house will be charged back to the current active account to the same extent as if those charges were owed by the person who made the application for the account.
(Ord. No. 85-54, § 17-59, 1-24-1985)

Sec. 26-432. Unlawful turning on or use of gas.

Any unauthorized person who shall turn on the city gas after a consumer has been cut off for failure to pay gas service and charges as provided by this division shall be guilty of a misdemeanor.
(Code 1982, § 17-60)

Sec. 26-433. Underground utility damage prevention program.

(a) *Scope.* This section is adopted pursuant to 49 CFR 192.614, Notification of Excavation or Demolition, Chapter 15. Section 37-15-1 to 37-15-11 Code of Alabama 1975 as amended and hereinafter referred to as "Alabama 811 or One Call Notification Systems" is hereby adopted and any terms and conditions of the provisions hereinafter set forth which conflict with the terms and conditions of Code of Alabama 1975, §§ 37-15-1 to 37-15-11, are hereby amended to comply with the provisions of Code of Alabama 1975, §§ 37-15-1 to 37-15-11, as last amended. All operators of buried natural gas pipelines and distributors are required to adopt a written program to prevent damage to natural gas lines due to excavation and to adopt rules and regulations to prevent damage to all underground utilities owned and operated by the city and to provide for a one-call service for the location of all utilities.

(b) *Definitions.* The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Damage means the substantial weakening of structural support of an underground utility, penetration or destruction of any protective coat-

ing, housing or other protective device of an underground utility, and the partial or complete severance of an underground utility.

Demolish or *demolition* means any operation by which a structure or mass of material is wrecked, razed, rendered, moved or removed by means of any tools, equipment, or discharge of explosives.

Excavate or *excavation* means an operation for the purpose of the movement or removal of earth, rock or other materials in or on the ground by use of mechanized equipment or by discharge of explosives, and including augering, backfilling, boring, digging, ditching, drilling, grading, plowing-in, pulling-in, ripping, scraping, trenching and tunneling.

Mechanized equipment means equipment operated by means of mechanical power, including trenchers, bulldozers, power shovels, augers, backhoes, scrapers, drills, cable and pipe plows and other equipment used for plowing-in or pulling-in cable or pipe.

Operator means any person who owns or operates a utility.

Person means any individual, any corporation, partnership, association or any other entity organized under the laws of any state; any subdivision or instrumentality of a state; and any employee, agent or legal representative of a state.

Utility means any line, pipeline, system or facility used for producing, storing, conveying, transmitting or distributing electricity, natural gas, water or other utilities, which facilities are operated by the city.

Working day means every day.

(c) *Excavation and demolition permits.* A permit issued pursuant to law authorizing excavation or demolition operations shall not be deemed to relieve a person from the responsibility for complying with the provisions of this section.

(d) *Purpose.* The purpose of this section is to establish a system to provide timely and expeditious notification to the operators of the city's utilities by excavators of their intent to dig, bore, blast or otherwise disturb the surface of the earth in such a manner that may cause damage to underground facilities or create a hazard or interruption of service to the general public. All persons therefore who need to excavate or work with the earth in such a manner as to contact or cause possible damage to subsurface utilities are encouraged to utilize the notification procedures set forth in subsection (g) of this section.

(e) *Notice of intent to excavate or demolish.*

(1) Before commencing any excavation or demolition operation designated in subsection (d) of this section, each person responsible for such excavation or demolition shall serve telephonic or electronic notice of intent to excavate or demolish prior to the time of excavation or demolition. Notification of excavation for the location of utilities shall be made to Alabama 811.

(2) Prior notice of requirements is not required of persons responsible for emergency excavation or demolition to ameliorate an imminent danger to life, health or property provided such persons give, as soon as practicable, oral notice of the emergency excavation or demolition to Alabama 811 and requests emergency assistance from each operator so identified in locating and providing immediate protection to underground utilities. An imminent danger to life, health or property exists whenever there is a substantial likelihood that loss of life, health or property will result before the procedures under this section can be fully complied with.

(3) The telephonic or electronic notice required by subsection (e)(1) of this section must contain the name, address, and telephone number of the person filing the notice of intent and, if different, the person responsible for the excavation or demolition, the starting date, anticipated duration, and type of excavation or demolition operation to be conducted, the loca-

tion of the proposed excavation or demolition, and whether or not explosives are to be used.

(4) Each excavation request shall be made to and taken by Alabama 811, in accordance with subsection (e)(1), (2) and (3) of this section.

(f) *Temporary marking.*

(1) Utility locate personnel or contractors shall use a bright yellow paint, which is the national standard color for gas, when marking their utility facilities. Other utilities shall use the national standard color in the marking of their facilities. The markings shall be placed directly or as close as possible over the utility facilities. For purposes of this section, the term "as close as possible over the utility facilities" is defined as a strip of land at least three feet wide but not wider than the width of the utility plus 1½ feet on either side of the utility.

(2) Provisions will be made for temporary marking of buried utilities in the area of excavation activity before, as far as practical, the activity begins.

(g) *Inspections.*

(1) Where there is reason to believe utility facilities close to the excavation activity may be damaged, they shall be inspected as frequently as necessary to verify the integrity of the facility.

(2) If blasting occurs, any inspection must include leakage or breakage surveys immediately after and periodically to determine that no damage due to blasting has occurred to the facilities.

(h) *Precautions to avoid damage.* In addition to the notification requirements of subsection (e) of this section, each person responsible for any excavation or demolition operation designated in subsection (d) of this section shall:

(1) Plan the excavation or demolition to avoid damage to or minimize interference with the underground utility in and near the construction area;

(2) Maintain a clearance between the underground utility and the cutting edge or point of any mechanized equipment, taking into account the known limit of control of such cutting edge or point, as may be reasonably necessary to avoid damage to such utility; and

(3) Provide such support for underground utility in and near the construction area, including during backfill operations, as may be reasonably necessary for the protection of such utility.

(i) *Excavation or demolition damage.*

(1) Except as provided by subsection (i)(2) of this section, each person responsible for any excavation or demolition operation designated in subsection (d) of this section, that results in any damage to the underground utility shall, immediately upon discovery of such damage, notify the operator of such utility of the location and nature of the damage and shall allow the operator reasonable time to accomplish necessary repairs before completing the excavation or demolition in the immediate area of such utility.

(2) Each person responsible for any excavation or demolition operations designed in subsection (d) of this section, that results in damage to the underground utility shall, immediately upon discovery of such damage, notify the operator, police and fire departments, and take any other action as may be reasonably necessary, to protect persons and property and to minimize the hazards until arrival of the operator's personnel or police and fire departments. The person responsible for such damage shall pay to the utility all costs associated with the repair and loss of utility for such damage.

(j) *Locations.* This section shall encompass all locations served by all utilities of the city.
(Ord. No. 83-206, § 17-62, 6-9-1983; Ord. No. 15-909, 12-17-2015)

Secs. 26-434—26-450. Reserved.

DIVISION 3. RATES AND CHARGES*

Sec. 26-451. Generally.

Rates or charges for natural gas to consumers served by the gas distribution system of the city shall be as provided in this division.
(Ord. No. 00-315, § 17-76, 4-13-2000)

Sec. 26-452. Allocations, prorations and penalties.

(a) *Allocations, prorations.* Whenever, for any reason, any or all of the suppliers of natural gas to the city curtails, decreases or impairs in any way whatsoever the supply of natural gas which the city secures for the consumers and customers of the city natural gas system or should the supply of natural gas not be available to serve all of the customers and consumers of the city natural gas system, then, in such event, the city shall have the right, for the purposes of allocating the supply to the consumers and customers of the city natural gas system to allocate and prorate the amount of natural gas which any or all of the consumers or customers receive for such periods of time as shall be required by the city. Notice of such allocations shall be given by announcements to media, newspapers and other means of communication.

(b) *Penalty and curtailment*. Should any customer, on any day or for any month, who has been placed on allocation or proration without the city's prior approval take or use a volume of natural gas in excess of the maximum daily or monthly quantity of natural gas which the city has allocated or prorated to any of its customers or consumers, then such volume in excess of such allocation or proration shall constitute unauthorized overrun volume, and for such overrun volume the customer or consumer who incurs such overrun shall pay unto the city any penalty assessed on the city by any pipeline or supplier for the overrun and a penalty of $1.00 for each mcf of natural gas constituting unauthorized overrun volume taken by the customer or consumer up to and including the volume of natural gas which is one percent in excess of the amount which has been allocated or prorated to the customer or consumer, and a penalty of $10.00 for each additional mcf of natural gas in excess of one percent over and above the amount allocated or prorated to the consumer or customer. The penalty shall be paid by the customer or consumer who incurred the unauthorized overrun together with and in addition to the demand and commodity charges payable by the customer or consumer for the month in which said overrun volume was taken. The payment of a penalty for unauthorized overrun shall not under any circumstances be considered giving such customer or consumer the right to take unauthorized overrun nor shall such payment be considered as a substitute for any other remedy available to the city against the offending customer or consumer for failure to respect its obligations to adhere to the provisions of this rate schedule. In addition to the penalties imposed or improvised in this subsection, whenever such unauthorized overrun has or might impair or jeopardize the supply of natural gas which the city has secured for its other customers and consumers, then the city shall have the right to discontinue the natural gas service to such customer or consumer who has incurred such unauthorized overrun.

(c) *Applicability*. The provisions of this section shall be applicable to all customers served by the city natural gas system, including but not being limited to those customers and consumers whose rates and charges are set forth in class 00, class 10, class 11, class 16, class 22, class 35, class 39, class 40 and class 41.
(Ord. No. 00-315, §§ 17-77—17-79, 4-13-2000; Ord. No. 01-970, § 17-92, 11-20-2001; Ord. No. 15-909, 12-17-2015)

Sec. 26-453. Deposit and rate adjustment.

(a) *Deposit*. A cash deposit or suitable guarantee, as approved, by the city gas utility board, not exceeding twice the highest bill may be required of any customer or person before gas or transportation service is supplied. The city electric utility board, the city gas utility board and the city waterworks utility board may enter into an agreement to establish a combined utility

*__Editor's note—__The rates and charges in this division are those in effect at the time of preparation of this Code. They are subject to change without council approval to the extent provided in section 26-453.

deposit; to establish a minimum deposit for all types of service, and to distribute the proceeds from these deposits. Interest may be accumulated on these deposits from October 1, 1973, at a rate as may from time to time be determined by the board and will be added to the deposit at the time service is terminated. The deposit, plus accumulated interest, may be applied against any unpaid bills of the customer and if any balance remains after such application is made, such balance shall be refunded to the customer.

(b) *Gas rate adjustment.* Recognizing that rates charged for natural gas are governed and determined by the cost of natural gas and other gas which is purchased by the city, the rates which are set forth in the rate schedules for charges for natural gas as set forth in sections 26-454—26-464 are to be increased and decreased daily on the basis of the cost of natural gas or other gas purchased by the city from its supplier. To the cost of gas purchased, the city shall add the cost of transportation, manufacturing gas, operational and distribution costs, and six percent of the total cost as charged to the customer. The adjusted rate shall be effective on the same date as such rate is made effective to the city by its supplier or suppliers of natural gas or such other gas as may or might be injected to the city natural gas system.

(c) *Transportation rate adjustment.* Recognizing that rates charged for transportation services are determined by the cost of agreements and contracts with pipeline suppliers, whereby capacity received by the city is to be paid for whether the contracted capacity is fully utilized and such fixed cost is to be factored into the cost of gas delivered to the customers of the city natural gas distribution system, and that the rates charged for natural gas are to be adjusted as set forth in subsection (b) of this section, all of which has been necessitated by the deregulation of natural gas which will cause the rates or charges for natural gas to fluctuate, it is therefore determined that adjustments to the industrial transportation rates and charges as set forth in sections 26-465—26-469 will be necessary and that all adjustments, changes or amendments from time to time as determined necessary will be made by the city gas utility board to assure that cost of transportation service and other costs charged to customers that utilize industrial transportation rate schedule will compensate the city natural gas system for all costs and expenses that it has and will be incurring in having gas pipeline capacity service being made available to the city natural gas system through which industrial transportation service can be made available to industrial customers as set forth in this division. (Ord. No. 00-315, § 17-89, 4-13-2000; Ord. No. 01-970, § 17-93, 11-20-2001; Ord. No. 15-909, 12-17-2015)

Sec. 26-454. Commercial and industrial firm gas rate schedule, class 00.

(a) *Availability*. The schedule of rates in this section is available for gas service to all firm commercial or industrial customers contracting and using not less than 15,000 cubic feet and not more than 50,000 cubic feet of maximum daily demand served from the city's gas distribution system. Gas supplied under this rate schedule is for the exclusive use of the customer and will not be resold or shared with others.

(b) *Applicability*. The rate schedule in this section is applicable to firm commercial and industrial customers, including single-metered apartment houses and multiple unit housing projects, with maximum daily gas consumption not less than 15,000 cubic feet. (1,000 cubic feet = 1 mcf.)

(c) *Rate*.

(1) *Demand charge*. $11.64 per month for each 1,000 feet of maximum daily demand of gas delivered to the customer on any day during the 12-month period ending with the current billing month; plus

(2) *Commodity charge*. For all gas consumed each month at $7.53 per 1,000 cubic feet, per month.

(d) *Availability charge*. The availability charge is $12.00 per month. In addition, there will be a charge equal to the highest demand charge established during the 12-month period ending with the current billing month times the demand charge. The availability charge will apply during

each month of the calendar year whether or not service is continuously used during such year. If the customer discontinues gas service during a portion of the year, the availability charge will apply each month whether service is active or inactive. In addition to the availability charge, the city may charge the customer for the cost of disconnecting and reconnecting the service.

(e) *Payment*. The rates in this section are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(f) *Maximum daily demand.* The maximum daily demand will be defined as the maximum 24-hour use of gas during the 12-month period ending with the close of the current month. The maximum daily demand will be determined at the option of the city according to one of the following methods:

(1) By estimate: 1/20 of the maximum monthly gas consumption during the 12-month period ending with the current month.

(2) By actual test.

(3) By demand meter.

(g) *Single point delivery*. Rates are based upon the supply of service to the customer's premises through a single delivery and metering point, and at a single pressure. A separate supply for the same customer at other points of consumption, or at different pressures, will be separately metered and billed.

(h) *Deposit required*. The city may require a deposit prior to commencing service under this schedule equal to an amount not exceeding twice the highest bill.

(i) *Rules and regulations*. Service under this section will be subject to the rules and regulations of the city's natural gas system.

(j) *Contract terms*. The term of contract under this section will be by agreement of the parties, but in no event, less than one year.
(Ord. No. 00-315, § 17-77, 4-13-2000; Ord. No. 15-909, 12-17-2015)

Sec. 26-455. Reserved.

Editor's note—Ord. No. 15-909, adopted Dec. 17, 2015, repealed § 26-455, which pertained to school and college interruptible rate schedule, class 9, and derived from Ord. No. 00-315, § 17-78, 4-13-2000.

Sec. 26-456. Industrial interruptible rate schedule, class 10.

(a) *Availability*. The schedule of rates in this section is available for gas service to all interruptible industrial customers contracting and using not less than 50,000 and not more than 299,000 cubic feet of maximum daily demand. Gas supplied under this section is for the exclusive use of the customer and will not be resold or shared with others. (1,000 cubic feet = 1 mcf.)

(b) *Applicability*. Gas sold under this section will be termed "interruptible gas" and will be interrupted whenever, in the opinion of the city, the interruption is necessary to prevent an increase in the city's previously established maximum day's use from the city's wholesale gas supplier, or under any circumstances where the supply of natural gas to users of a higher priority is in jeopardy. Customers receiving gas service under this section will at no time take gas during any period of curtailment.

(c) *Monthly rate*. The monthly rate is $6.88 per 1,000 cubic feet of gas consumed per month.

(d) *Availability charge*. The availability charge is $30.00 per month. The availability charge will apply during each month of the calendar year whether or not service is continuously used during such year. If the customer discontinues gas service during the contract term, the availability charge will apply each month whether service is active or inactive. In addition to the availability charge, the city may charge the customer for the cost of disconnecting and reconnecting the service.

(e) *Payment*. The rates in this section are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(f) *Maximum daily demand*. The maximum daily demand will be defined as the maximum 24-hour use of gas during the 12-month period ending with the close of the current month. The maximum daily demand will be determined at the option of the city according to one of the following methods:

(1) By estimate: 1/20 of the maximum monthly gas consumption during the 12-month period ending with the current month.

(2) By actual test.

(3) By demand meter.

(g) *Single point delivery*. The rates in this section are based upon the supply of service to the customer's premises through a single delivery and metering point, and at a single pressure. A separate supply for the same customer at other points of consumption, or at different pressures, will be separately metered and billed.

(h) *Deposit required*. The city may require a deposit prior to commencing service under this schedule equal to an amount not exceeding twice the highest bill.

(i) *Rules and regulations*. Service under this section will be subject to the rules and regulations of the city's natural gas system.

(j) *Contract terms*. The term of contracts under this section will be by agreement of the parties, but in no event less than one year.
(Ord. No. 00-315, § 17-79, 4-13-2000; Ord. No. 15-909, 12-17-2015)

Sec. 26-457. Industrial interruptible rate schedule, class 11.

(a) *Availability*. The schedule in this section is available for gas service to all interruptible industrial customers contracting and using not less than 300,000 cubic feet of maximum daily demand. Gas supplied under this section is for the exclusive use of the customer and will not be resold or shared with others. (1,000 cubic feet = 1 mcf.)

(b) *Applicability*. Gas sold under this section will be termed "interruptible gas" and will be interrupted whenever, in the opinion of the city, the interruption is necessary in order to prevent an increase in the city's previously established maximum day's use from the city's wholesale gas supplier, or under any circumstances where the supply of natural gas to users of a higher priority is in jeopardy. Customers receiving gas service under this section will at no time take gas during any period of curtailment.

(c) *Monthly rate*. The monthly rate is $6.72 per 1,000 cubic feet (mcf) of gas consumed per month.

(d) *Availability charge.* The availability charge is $30.00 per month. The availability charge will apply during each month of the calendar year whether or not service is continuously used during such year. If the customer discontinues gas service during the contract term, the availability charge will apply each month whether service is active or inactive. In addition to the availability charge, the city may charge the customer for the cost of disconnecting and reconnecting the service.

(e) *Payment*. The rates in this section are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(f) *Maximum daily demand*. The maximum daily demand will be defined as the maximum 24-hour use of gas during the 12-month period ending with the close of the current month. The maximum daily demand will be determined at the option of the city according to one of the following methods:

(1) By estimate: 1/20 of the maximum monthly gas consumption during the 12-month period ending with the current month.

(2) By actual test.

(3) By demand meter.

(g) *Single point delivery.* The rates in this section are based upon the supply of service to the customer's premises through a single delivery and metering point, and at a single pressure. A separate supply for the same customer at other points of consumption, or at different pressures, will be separately metered and billed.

(h) *Deposit required.* The city may require a deposit prior to commencing service under this schedule equal to an amount not exceeding twice the highest bill.

(i) *Rules and regulations.* Service under this section will be subject to the rules and regulations of the city's natural gas system.

(j) *Contract terms.* The term of contracts under this section will be by agreement of the parties, but in no event, less than one year.
(Ord. No. 00-315, § 17-80, 4-13-2000; Ord. No. 15-909, 12-17-2015)

Secs. 26-458—26-460. Reserved.

Editor's note—Ord. No. 15-909, adopted Dec. 17, 2015, repealed §§ 26-458—26-460, which pertained to interruptible rate schedule, classes 12—14, and derived from Ord. No. 00-315, § 17-81—17-83; 4-13-2000.

Sec. 26-461. Combination firm and interruptible gas service (Redstone Arsenal), class 15.

(a) *Availability.* The schedule of rates in this section is available for gas service to Redstone Arsenal, Alabama, as served from the city's gas distribution system. Gas supplied under this section is for the exclusive use of the customer.

(b) *Applicability.* This section is applicable to Redstone Arsenal only.

(c) *Rate.*

(1) *Firm gas:*

a. *Demand charge:* $10.80 per month, per mcf of demand;

b. *Commodity charge:* $3.89 per mcf delivered each month.

The term "firm gas" is defined as being 1,000 mcf delivered, or the maximum quantity of gas delivered to the Army Missile Support Command, Redstone Arsenal, at the points of delivery as shown in the service specifications in any 24-hour period ending at 3:00 p.m. on a date which the city natural gas system has directed a curtailment of interruptible gas service, whichever quantity is the greater amount.

(2) *Minimum annual charge:* The sum of monthly demand charges plus a minimum annual commodity payment equal to 50 percent of the contracted demand multiplied by 365 times the applicable commodity charge per mcf.

Interruptible gas: $3.32 per mcf delivered each month.

The term "interruptible gas" is defined as the quantity of gas delivered daily in excess of firm gas. For example, on days of noncurtailment, all gas delivered in excess of 1,000 mcf firm gas will be supplied at the interruptible rate with no limit as to quantity, so long as such quantity is available from the city.

(d) *Heat content adjustment.* The rate in this section is based on natural gas having an average standard heating value of 1,000 BTU per cubic foot. If the average heating value of the gas supplied during any billing month should vary from this standard, the metered quantity of the gas supplied any consumer hereunder may be adjusted upward or downward proportionate to the increase or decrease in such average heating value. For the purpose of determining such average heating value, the city may rely on the accuracy of the reports furnished to it on such heating value by the city's supplier.

(e) *Minimum monthly bill.* The minimum monthly bill will be equal to the highest demand charge established during the 12-month period ending with the last day of the current month. Minimum monthly bills will apply during each month of the calendar year whether or not service is continuously used during such year. If a customer discontinues gas service during a

portion of the year, the minimum monthly bill will apply each month whether service is active or inactive.

(f) *Maximum daily demand.* The maximum daily demand will be defined as the maximum 24-hour use of gas during the 12-month period ending with the close of the current month. The maximum daily demand will be determined by demand meters installed by the city at the point of delivery.
(Ord. No. 00-315, § 17-84, 4-13-2000)

Sec. 26-462. Industrial firm and interruptible schedule, class 16.

(a) *Availability*. The schedule of rates in this section is available for gas service to all interruptible industrial customers contracting and using a minimum of 50,000 cubic feet of maximum daily interruptible demand, plus additional firm demand of natural gas service served and billed through one gas meter by the city. Gas supplied under this section is for the exclusive use of the customer and will not be resold or shared with others. (1,000 cubic feet = 1 mcf.)

(b) *Applicability*. Gas sold under this section will be termed "interruptible gas" and will be interrupted whenever, in the opinion of the city, the interruption is necessary in order to prevent an increase in the city's previously established maximum day's use from the city's wholesale gas supplier, or under any circumstances where the supply of natural gas to users of a higher priority is in jeopardy. Customers receiving gas service under this section will at no time take gas during any period of curtailment. Any interruptible gas consumed during any period of curtailment may be subject to penalty and/or additional charges.

(c) *Monthly rates.*

(1) Firm gas will be billed at the applicable firm rate schedule according to the class qualifications.

   (a) 60 mcf/day at $7.54 per 1,000 cubic feet (mcf) of consumed gas per month.

(2) Remainder of daily consumption will be billed at the applicable industrial interruptible rate schedule according to class qualifications.

   (a) >60 mcf/day at $6.88 per 1,000 cubic feet (mcf) of consumed gas per month (based on IGM-10 class qualifications).

   (b) >60 mcf/day at $6.72 per 1,000 cubic feet (mcf) of consumed gas per month (based on IGM-11 class qualifications).

(d) *Availability charge/minimum bill*. The firm availability charge is $12.00 per month and the interruptible available charge is $30.00 per month. The availability charge/minimum bill will apply during each month of the calendar year whether or not service is continuously used during such year. If the customer discontinues gas service during the contract term, the availability/minimum bill charge will apply each month of the contract term whether service is active or inactive. In addition to the availability charge/minimum bill, the city may charge the customer for the cost of disconnecting and reconnecting the service.

(e) *Payment*. The rates in this section are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(f) *Maximum daily demand*. The maximum daily demand will be defined as the maximum 24-hour use of gas during the 12-month period ending with the close of the current month. The maximum daily demand will be determined at the option of the city according to one of the following methods:

(1) By estimate: 1/20 of the maximum monthly gas consumption during the 12-month period ending with the current month.

(2) By actual test.

(3) By demand meter.

(4) By agreement with customer according to amount of firm connected load as specified.

(g) *Single point delivery*. The rates in this section are based upon the supply of service to the customer's premises through a single delivery and metering point, and at a single pressure. A separate supply for the same customer at other points of consumption, or at different pressures, will be separately metered and billed.

(h) *Deposit required*. The city may require a deposit prior to commencing service under this schedule equal to an amount not exceeding twice the highest bill.

(i) *Rules and regulations.* Service under this section will be subject to the rules and regulations of the city's natural gas system.

(j) *Contract terms.* The term of contracts under this section will be by agreement of the parties, but in no event, less than one year.
(Ord. No. 00-315, § 17-85, 4-13-2000; Ord. No. 15-909, 12-17-2015)

Sec. 26-463. Residential rate schedule, class 22.

(a) *Availability*. The schedule of rates in this section is available for gas service to domestic consumers served from the city's gas distribution system. Gas supplied under this schedule is for the exclusive use of the customer and will not be resold or shared with others.

(b) *Applicability*. This section is applicable to residences containing not in excess of a single dwelling unit. Service to multiple housing units containing in excess of one unit will be considered nonresidential service and will be billed on the appropriate commercial rate.

(c) *Monthly rate*. For all gas consumed per month, the rate shall be $8.01 per 1,000 cubic feet.

(d) *Availability charge.* The availability charge for residential service will be $5.50 per month. The availability charge will apply during each month of the calendar year whether or not service is continuously used during such year. If the customer discontinues gas service during a portion of the year, the availability charge will apply each month whether service is active or inactive. In addition to the availability charge, the city may charge the customer for the cost of disconnecting and reconnecting the service.

(e) *Payment*. The rates in this section are net. If any bill is not paid on or before date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(f) *Single delivery point.* The rates are based upon the supply of service to the customer's premises through a single delivery and metering point, and at a single pressure. A separate supply for the same customer at other points of consumption, or at different pressures, will be separately measured and billed.

(g) *Heating value.* The natural gas distributed under this section contains approximately 1,000 BTU per cubic feet.

(h) *Deposit required.* The city may require a deposit prior to commencing service under this schedule equal to an amount not exceeding twice the highest bill.

(i) *Rules and regulations.* Service under this section is subject to the rules and regulations of the city's natural gas system.

(j) *Contract terms.* The term of this contract under this section will be for not less than one year and from year to year thereafter.
(Ord. No. 00-315, § 17-86, 4-13-2000; Ord. No. 15-909, 12-17-2015)

Sec. 26-464. Small nonresidential rate schedule, class 35.

(a) *Availability*. The schedule of rates in this section is available for firm gas service to all nonresidential customers served from the city's gas distribution system. Gas supplied under this section is for the exclusive use of the customer and will not be resold or shared with others.

(b) *Applicability*. This section is applicable to industrial and commercial customers, including single-metered apartment houses and multiple unit housing projects with maximum daily gas consumption less than 15,000 cubic feet.

(c) *Rate*. The rate for all gas consumed per month shall be $8.51 per 1,000 cubic feet.

(d) *Availability charge.* The availability charge will be $8.50 per month. The availability charge will apply during each month of the calendar year whether or not service is continuously used during such year. If the customer discontinues gas service during a portion of the year, the availability charge will apply each month whether service is active or inactive. In addition to the availability charge, the city may charge the customer for the cost of disconnecting and reconnecting service.

(e) *Payment*. The rates in this section are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(f) *Single point delivery.* The rates in this section are based upon the supply of service to the customer's premises through a single delivery and metering point, and at a single pressure. A separate supply for the same customer at other points of consumption, or at different pressures, will be separately metered and billed.

(g) *Deposit required.* The city may require a deposit prior to commencing service under this schedule equal to an amount not exceeding twice the highest bill.

(h) *Rules and regulations.* Service under this section is subject to the rules and regulations of the city's natural gas system.

(i) *Contract terms.* The term of contract under this section shall be by agreement of the parties, but in no event, less than one year.
(Ord. No. 00-315, § 17-87, 4-13-2000; Ord. No. 15-909, 12-17-2015)

Secs. 26-465, 26-466. Reserved.

Editor's note—Ord. No. 15-909, adopted Dec. 17, 2015, repealed §§ 26-465, 26-466, which pertained to industrial transportation rate schedule, classes 37, 38, and derived from Ord. No. 00-315, § 17-89, 4-13-2000.

Sec. 26-467. Industrial transportation rate schedule, class 39.

(a) *Availability*. This transportation schedule is available to all industrial customers contracting to transport not less than 300,000 cubic feet and not more than 999,000 cubic feet per day of natural gas delivered to and as metered by the city gas system meter. Transportation service as supplied under this rate schedule is for the exclusive use of the customer, and this transportation service and any gas received through this transportation service will not be resold or shared with any other person or entity. Transportation service under this schedule may be interrupted for any cause as determined by the city. (1,000 cubic feet = 1 mcf.) The city will not be liable for damages resulting from any conditions, which cause transportation service to be interrupted.

(b) *Applicability*. The customer will be responsible for gas supply and transportation on all upstream pipeline for delivery of the customer's natural gas to the city gas system's city gate station, together with all associated cost.

(c) *Firm transportation rate.* A service charge of $530.00 per month, plus:

Daily Transportation Volume (Mcf)	*Rate (Mcf)*
300—999	$0.85

(d) *Minimum bill.* The minimum bill will be $3,000.00 for each month service is provided.

(e) *Payment*. The above rates are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(f) *Single point delivery.* The above rates are based upon the supply of service to the customer's premises through a single delivery and metering point, and at a single pressure. Separate supply for the same customer at other points of consumption, or at different pressures, will be separately metered and billed.

(g) *Deposit required.* The city may require a deposit prior to commencing service under this schedule equal to an amount not exceeding twice the highest bill.

(h) *Rules and regulations.* Service under this schedule will be subject to the rules and regulations of the city's natural gas system.

(i) *Contract terms.* The term of contract under this schedule will be by agreement of the parties, and shall be on a month-to-month contract.
(Ord. No. 01-970, § 17-90, 11-20-2001; Ord. No. 15-909, 12-17-2015)

Sec. 26-468. Industrial transportation rate schedule, class 40.

(a) *Availability*. This transportation schedule is available to all industrial customers contracting to transport not less than 100,000 cubic feet and not more than 299,000 cubic feet per day of natural gas delivered to and as metered by the city gas system meter. Transportation service as supplied under this rate schedule is for the exclusive use of the customer, and this transportation service and any gas received through this transportation service will not be resold or shared with any other person or entity. Transportation service under this schedule may be interrupted for any cause as determined by the city. (1,000 cubic feet = 1 mcf.) The city will not be liable for damages resulting from any conditions, which cause transportation service to be interrupted.

(b) *Applicability*. The customer will be responsible for gas supply and transportation on all upstream pipeline for delivery of the customer's natural gas to the city gas system's city gate station, together with all associated cost.

(c) *Firm transportation rate.* A service charge of $530.00 per month, plus:

Daily Transportation Volume (Mcf)	*Rate (Mcf)*
100—299	$0.85

(d) *Minimum bill.* The minimum bill will be $1,500.00 for each month service is provided.

(e) *Payment*. The above rates are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(f) *Single point delivery.* The above rates are based upon the supply of service to the customer's premises through a single delivery and metering point, and at a single pressure. A separate supply for the same customer at other points of consumption, or at different pressures, will be separately metered and billed.

(g) *Deposit required.* The city may require a deposit prior to commencing service under this schedule equal to an amount not exceeding twice the highest bill.

(h) *Rules and regulations.* Service under this schedule will be subject to the rules and regulations of the city natural gas system.

(i) *Contract terms.* The term of contract under this schedule will be by agreement of the parties, and shall be on a month-to-month contract.
(Ord. No. 01-970, § 17-91, 11-20-2001; Ord. No. 15-909, 12-17-2015)

Sec. 26-469. Fueling station transportation rate schedule, class 41.

(a) *Availability*. This transportation schedule is available to all customers contracting to transport not less than 15,000 cubic feet per day of natural gas as metered by the city's gas system that will be sold by the customer for use in fueling motor vehicles and other equipment and vehicles that utilize natural gas as a fuel. The natural gas under this schedule is to be used as and for a fueling station for motor vehicles and other equipment and vehicles that utilize natural gas as a fuel and shall not be used,

resold, or shared with any other person or entity, except as set forth herein. Transportation service under this schedule may be interrupted for any cause as determined by the city. 1,000 cubic feet = 1 Mcf. The city will not be liable for damages resulting from any conditions, which cause transportation service to be interrupted.

(b) *Applicability*. The customer will be responsible for gas supply and transportation on all upstream pipelines for delivery of the customer's natural gas to the city gas system's city gate station, together with all associated costs.

(c) *Transportation rate.* A service charge of $200.00 dollars per month plus:

Daily Transportation Volume (Mcf)	*Rate (Mcf)*
15 Mcf to 99 Mcf	$1.80

(d) *Payment*. The above rates are net. If any bill is not paid on or before the date shown on the bill, there will be added to the bill an amount equal to five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00. Payments that are due on a weekend or holiday will be due the next business day.

(e) *Single point delivery.* The above rates are based upon the supply of service to the customer's premises through a single delivery and metering point, and at a single pressure. A separate supply for the same customer at other points of consumption, or at different pressures, will be separately metered and billed.

(f) *Deposit required*. The city may require a deposit prior to commencing service under this schedule equal to an amount not exceeding twice the highest bill.

(g) *Rules and regulations.* Service under this schedule will be subject to the rules and regulations of the city's natural gas system.

(h) *Contract terms.* The term of the contract under this schedule will be by agreement of the parties.

(i) *Transportation rate adjustment.* Recognizing that rates charged for transportation services are determined by the cost of agreements and contracts with pipeline suppliers, whereby capacity received by the city is to be paid for whether the contract capacity is fully utilized and such fixed cost is to be factored into the cost of gas delivered to the customers of the city's natural gas distribution system, and that the rates charges for transportation service are to be adjusted which has been necessitated by pipeline contracts being revised which will cause the rates or charges for transportation service to fluctuate, it is therefore determined that adjustments to the transportation rates and charges as set forth in this section will be necessary and that all adjustment, changes, or amendments from time to time deemed necessary will be made by the city gas utility board to assure that cost of transportation services and other costs charged to customers that utilize transportation rate schedule will compensate the city's natural gas system for all costs and expenses that it has and will be incurring in having gas pipeline capacity service being made available to the city's natural gas system which transportation service can be made available to customers as set forth in this division.

ARTICLE IV. WATER SERVICE*

DIVISION 1. GENERALLY

Sec. 26-501. Consent of consumers to provisions of article.

All persons who are consumers of city water shall be deemed to have consented to the provi-

*__State law references__—Authority of city to establish, operate and maintain waterworks, Code of Ala. 1975, §§ 11-50-1, 11-50-5; contracts and indebtedness for construction, extension, etc., of waterworks system, Code of Ala. 1975, § 11-47-3.

sions of this article and to all of the rights, powers and authority reserved to the city under the terms of this article.
(Code 1982, § 23-1)

Sec. 26-502. Expenditures for construction or additions.

No expenditures for any new construction, additions or replacements to the waterworks plant and waterworks system of the city, or equipment used by the plant or the system, shall be made by the waterworks utility board where the total expense will be more than $25,000.00 without the consent and approval of the city council.
(Code 1982, § 23-49)

State law reference—Authority for above section, Code of Ala. 1975, § 11-50-442.

Secs. 26-503—26-530. Reserved.

DIVISION 2. SERVICE RULES

Sec. 26-531. Cutting off water in cases of leakage or wastage.

The city shall have the right, power and authority to cut off the water from any house, building or property when the underground service pipe or service line or any part leading from the water meter to the house, building or property shall become defective or out of repair so as to cause a leakage or wastage of water.
(Code 1982, § 23-4)

Sec. 26-532. Opening and closing valves on pipes or mains.

No person, except an employee of the waterworks, shall be permitted to open or close the valves upon the pipes or mains.
(Code 1982, § 23-5)

Sec. 26-533. Consent of city for use of water.

No person having charge or control of any hydrant or water pipe connected with the waterworks of the city shall allow or permit any other person to habitually take, draw or use any water from any such hydrant or water pipe as the other person's primary source of water without first obtaining the permission and consent of the city.
(Code 1982, § 23-10)

Sec. 26-534. Application for service.

Each prospective customer desiring water service may be required to sign the city's standard form of application for service or contract before service is supplied by the city.
(Code 1982, § 23-11)

Sec. 26-535. City to maintain mains and service lines up to water meter.

It shall not be the duty of the city to keep in repair any underground pipe, service pipe or service line except the main pipe, generally known as the city water main and the service pipe or service line from the city's water main to the water meter on the customer's premises; nor shall it be the duty of the city to furnish water to any customer whose water pipe is not in a fit condition to receive the water and prevent its waste.
(Code 1982, § 23-12)

Sec. 26-536. Customers to maintain water pipes.

When a customer owns or uses any water pipe and becomes a customer of water from the city, it shall be the duty of such customer, or the owner of the house, building or property, to keep all water pipes from the point where the customer's line is connected with the city's water meter in fit condition to receive water; and if such customer or owner of the house, building or property fails to do so, the city shall not be liable for cutting off the water upon such premises upon such failure of the customer or owner to keep such water pipe or line in fit condition. If the customer owns or uses any water pipe jointly with any other customer who may have separately contracted with the city to furnish water through such common line into the respective branches, the city shall have the right to cut off the water from such common line when the pipe of either or any of the service lines or any branch have been

permitted to get out of repair or in condition unfit to receive water; and the city shall not be liable for so cutting off water because of the getting out of repair or unfitness of any common line, pipe, service or branch line.
(Code 1982, § 23-13)

Sec. 26-537. Equipment and maintenance of water systems.

Persons taking water from the water system must keep their own water pipes and all fixtures connected with the system in good repair and protected from frost. They must provide a stopcock and waste cock properly located, and have the pipes so arranged that the water can be drawn from them when there is danger of freezing. Water will not be furnished any premises not provided with a stopcock and waste cock.
(Code 1982, § 23-14)

Sec. 26-538. Tanks, containers, reservoirs kept in sanitary condition.

(a) Any tank, container or reservoir not owned, controlled and operated by the city located within the city which is being used or maintained or which in the future may be used or maintained by any person for the storage of city water obtained from any of the city water pipe lines, from which tank, container or reservoir consumers of city water receive or obtain a supply of city water, shall at all times be kept in a sanitary condition, free from and protected from contamination, subject to the examination and approval of the health officer.

(b) Any person who owns or has control of any such tank, container or reservoir and who fails or neglects to maintain it in a sanitary condition free from and protected from contamination shall be guilty of a misdemeanor each day such container, tank or reservoir is permitted to remain in an unsanitary condition, and not free from and protected from contamination.

(c) Whenever it may be found that any such tank, container or reservoir is in an unsanitary condition and not free from and protected from contamination, the city shall have the right to cut off all consumers obtaining water from such supply without liability to the city.
(Code 1982, § 23-15)

Sec. 26-539. Backflow prevention.

(a) *Responsibility*. The city water system shall be responsible for the protection of the public potable water distribution system from contamination or pollutants due to the backflow or back siphonage of contaminants or pollutants through the water service connection. The customer has the primary responsibility of preventing pollutants and contaminants from entering their potable water system or the public water system through the elimination or protection of all cross-connections on their premises. The customer's responsibility starts at the service connections to the public potable water system and includes all of their water system.

(b) *Backflow preventer required*. When any customer or consumer of the city water system is engaged in any type of activity or business, the nature of which may or might result in backflow or backsiphonage which could or might result in pollution or contamination of any portion of the city water system, the city water system shall require such customer or consumer to install, at the expense of the customer or consumer, a backflow preventer of such nature and design, as determined by the city water system to be installed in such places and manner as shall be required by the city water system.

(c) *Inspection and notice*. The city water system shall conduct a survey or inspection of the premises of a customer or consumer to determine whether such customer or consumer is engaged in such activity or business as shall require the installation of a backflow preventer and if the city water system determines that such backflow preventer is necessary to prevent possible pollution or contamination of any portion of the city water system, such customer or consumer shall be given written notice by the city water system that such backflow preventer is necessary, together with the type to be installed and the manner and method to install the preventer. Any customer who cannot or will not allow city water system

personnel on the premises for an inspection of the customer's water and piping shall be required to install the backflow prevention assembly that will provide the maximum protection to the public potable water supply system. Refusal by a customer to allow an inspection or refusal to install the required backflow prevention assembly shall be a reason to discontinue service for noncompliance.

(d) *Installation of backflow preventer*. The customer or consumer, within a time frame prescribed by the city water system which shall not exceed 90 days, after receipt of the written notice as set forth in subsection (c) of this section, at the expense of the customer or consumer, shall install the backflow preventer as specified by the city water system in the manner and method as set forth by the city water system.

(e) *Failure to install backflow preventer*. If the customer or consumer fails or refuses to install a backflow preventer as specified in the manner and method as set forth by the city water system, or fails or refuses to install the specified backflow preventer in a manner and method as set forth by the city water system, within 90 days from the receipt of the written notice from the city water system to the customer or consumer, which written notice is set forth in subsection (c) of this section, the city water system shall terminate the water supply to such customer or consumer until such time as the specified backflow preventer is installed in the manner and method as required by the city water system. For justifiable cause shown, the city water system may grant written extensions of time to install the specified backflow preventer for such periods of time as shall be reasonable.

(f) *Discontinuance of service*. The city water system may deny or discontinue water service to any customer if a required backflow prevention device is not installed, tested or properly maintained, or if a cross-connection exists on the premises and there is inadequate backflow protection at the service connection. Water service shall not be restored to such premises until the deficiencies have been corrected or eliminated.

(g) *Unauthorized consumption*. Any person or persons who fails to install backflow preventer within the time required by the city water system and takes or causes to be taken any water from the city water system or carries away or causes to be carried away water for any purpose or use whatsoever without first obtaining the consent and permission of the city water system shall be guilty of a misdemeanor.
(Code 1982, §§ 23-17—23-20; Ord. No. 15-7, 1-22-2015)

Sec. 26-540. Right of entry; refusing entry.

Where a service line is located on private property and is connected with the city's water system for service, the city shall, at all times, have the right and authority to go upon and enter such premises for the purpose of cutting off the water, reading, repairing, inspecting or testing its water meter or service line or making any repairs the city deems necessary. When any property owner or tenant refuses to allow the city or any of its properly authorized agents, servants, officers or employees to enter the premises for any one of the purposes set out in this section, the city shall have the right and authority to cut off the water from such premises at any other convenient place; and water service shall not be reinstated until the property owner or tenant shall authorize such service line and water meter to be repaired and placed ready for service. The city shall not be liable for cutting off the water on such premises.
(Code 1982, § 23-21)

Sec. 26-541. Cutting off water from mains for repairs or extensions.

The city expressly reserves the right to cut off the water without notice from any or all of its water mains for the purpose of making repairs or extensions.
(Code 1982, § 23-22)

Sec. 26-542. Discontinuing service to consumers using common line where one branch out of repair.

If one of several branches from a common line through which water is distributed individually

and separately to the several consumers from the common line should get out of condition and leak or waste water, although such branch belongs individually to the consumer or owner of the house, building or property, the city shall have the right to cut the water off to the entire common line as mentioned in section 26-536 and thereby deprive other consumers on such common line of water, though their individual branches are in repair, if such cutting off the water is necessary and without fault of the city, to avoid the creation or maintenance of a nuisance to property owners not connected with or interested in the common line, or to any other person or property.
(Code 1982, § 23-23)

Secs. 26-543—26-560. Reserved.

DIVISION 3. CONNECTIONS

Sec. 26-561. Made by city employees.

It shall be unlawful for any person other than the employees of the city waterworks system or its agents to make a connection with or to tap a water main of the city.
(Code 1982, § 23-66)

Sec. 26-562. Permit required; applications; deposit.

All persons desiring to connect with the city water system shall file a written application with the waterworks utility board, which application shall show the point at which the city is requested to furnish water service. At the time the application is filed, the applicant shall pay to the waterworks utility board a sum designated by such board as the reasonable cost to the city of connecting such customer to the city's water system.
(Code 1982, § 23-67)

Secs. 26-563—26-580. Reserved.

DIVISION 4. DEPOSITS

Sec. 26-581. Generally.

A cash deposit or suitable guarantee, as approved by the waterworks utility board, not exceeding twice the highest bill, may be required of any customer or person before water service is supplied. The waterworks utility board may enter into an agreement with the electric utility board and the gas utility board to establish a combined utility deposit; to establish a minimum deposit for all types of service and to distribute the proceeds from these deposits. Interest may be accumulated on these deposits from October 1, 1973, at a rate as may from time to time be determined by the boards and will be added to the deposit at the time service is terminated. The deposit, plus accumulated interest, may be applied against any unpaid bills of the customer; and if any balance remains after such application is made, such balance shall be refunded to the customer.
(Code 1982, § 23-81; Ord. No. 15-912, 12-17-2015)

Sec. 26-582. Unlawful to use water until deposit made.

It shall be unlawful for any person to use water supplied by the city without first having made with the city the deposit required in section 26-581.
(Code 1982, § 23-82)

Sec. 26-583. Water not turned on until deposit made.

No employee of the city shall turn on the water for service at any place until the deposit required in section 26-581 for such place has been made with the city.
(Code 1982, § 23-83)

Secs. 26-584—26-600. Reserved.

DIVISION 5. METERS

Sec. 26-601. Duty of city to supply meters.

It shall be the duty of the city to install a uniform type of water meter for all consumers of city water, at the expense of the city; and where any consumer has already installed another and different type of meter from that designated by the city, the city shall have the right to replace the meter in use or installed by the consumer by

one of the uniform type designated or to be designated by the city; however, in the installation of any meter by the city as provided in this division the expense for the installation of such meter shall only extend to the purchase price of the meter, the retaining box, necessary fixtures to attach the pipe and their installation and shall not extend to the purchase and installation of the necessary pipes required by this article to be furnished by the consumer and installed by the consumer.
(Code 1982, § 23-96)

Sec. 26-602. Responsibility of waterworks utility board.

The waterworks utility board shall see that water meters of a uniform type are installed throughout the city on the connections of all water consumers for the purpose of regulating and measuring the amount of water that may be used by all consumers from the city waterworks.
(Code 1982, § 23-97)

Sec. 26-603. Approval; stopcocks required between meters and mains.

All meters shall be of a kind approved by the waterworks utility board and must be placed to the satisfaction of the waterworks utility board. Between each meter and the main a stopcock shall be placed within one foot of the meter. No meter shall be set within four feet of any sink or privy.
(Code 1982, § 23-98)

Sec. 26-604. Use of water by unauthorized person.

If any person shall permit another, not a guest, employee or boarder in his home or place of business, to use water through his meter, he shall be guilty of a misdemeanor.
(Code 1982, § 23-99)

Sec. 26-605. Meters on private property.

Where the water meter is located on private property and is connected with the water system for service, the city shall at all times have the right and authority, by and through its agent, servant, officer or employee to go upon and enter such premises for the purpose of reading the water meter, or to cut on or cut off the water, or make any such necessary repairs to the water meter as it deems necessary. Where any property owner or tenant refuses to allow the city or its properly authorized agent, officer or employee to enter such premises for the purpose set out in this section, the city shall have the right and authority to cut off the water from such premises at any other convenient place; and the services shall not be reinstated until the property owner or tenant shall have caused such water meter to be removed and placed ready for service, at whatever place the city shall designate. The city shall not be liable for cutting off the water upon such premises.
(Code 1982, § 23-100)

Sec. 26-606. Record of meters installed, reading of meters.

The city shall ascertain and keep a record of all water meters and shall read such meters and ascertain or cause such meters to be read and ascertained as soon as practical after the first day of each month the amount of water consumed by each and every customer, during the next preceding 30 days.
(Code 1982, § 23-101)

Sec. 26-607. Fire protection and fire service lines and systems.

(a) *Establishment.* Fire hydrants, fire sprinkler systems, hose racks and fire prevention systems may be established on private property by its owner at his own cost for pipe, valves, fittings and connections to water mains, etc. The work shall be done under the supervision of the water or fire department and the maintenance of such mains, valves and hydrants shall be at the cost and expense of the owner of the property. The regular, established rate for such connection for such fire hydrants, fire sprinkler systems, hose racks and fire prevention systems shall be paid and, if not, it shall be disconnected.

(b) *Connection to water system.* Any person establishing fire hydrants, fire sprinkler systems, hose racks and fire prevention systems shall have the right to have them connected to the

city's water system provided the owner pays to the water department, prior to installation and connection, the cost of the meter to be installed and prescribed and specified by the city water department. All work necessary for connection of such system and meters to the city water system shall be performed and done by the water department. No water is to be used from the fire hydrants, fire sprinkler systems, hose racks and fire prevention systems at any point on the line, except in case of fire; nor are any fixtures whatsoever to be connected with such fire line.

(c) *Charges.* The owner of all fire hydrants, fire sprinkler systems, hose racks and fire prevention systems installed and connected to the city water system shall pay unto the city a monthly charge based on the current water rate schedule.

(d) *Restrictions on unmetered systems.* The owner of all existing unmetered fire hydrants, fire sprinkler systems, hose racks and fire prevention systems located within the city and without the city, and connected to the city water system, shall keep and maintain such systems in such a manner as not to cause or allow leakage or waste of water; and if the owner of the system allows the fire hydrants, fire sprinkler systems, hose racks or fire prevention systems to consume or use water for any other cause or reason other than fire, the superintendent of the water department shall have the right and authority to disconnect the service and, prior to restoring or reconnecting such service, may cause or require the owner to comply with the provisions of sections 26-607(b) and 26-607(c), and, after restoring or reconnecting the service with a meter, to be subject to the payment of the charges as set forth in section 26-607(c).

(e) *No guarantee by city.* The city guarantees no certain water pressure and shall in no case be in any way liable or responsible to any persons whatsoever in case of fire, for any damage that may result from any alleged insufficiency of such fire protection, either from want of pressure or volume, accessibility or for any other cause.

(Code 1982, §§ 23-102—23-104, 23-106, 23-107; Ord. No. 15-912, 12-17-2015)

Cross reference—Fire prevention and protection, ch. 13.

Sec. 26-608. Tests.

The city shall, at its own expense, make periodic tests and inspections of its water meters in order to maintain a high standard of accuracy. The city shall make additional tests or inspections of its meter at the request of any customer. If such tests show that the meter is accurate based on industry standards, no adjustment will be made in the customer's bill; and a charge may be established and collected to cover costs incurred. The charge for such services shall be determined by the waterworks utility board of the city. An adjustment shall be made to the customer's bill over a period of not more than 30 days prior to the date of any test demonstrating that the meter was inaccurate based on industry standards; and the cost of making such test shall be borne by the city.

(Code 1982, § 23-108; Ord. No. 15-912, 12-17-2015)

Secs. 26-609—26-630. Reserved.

DIVISION 6. RATES AND CHARGES; BILLING AND COLLECTION PROCEDURES

Subdivision I. In General

Sec. 26-631. Schedule.

(a) The rate charges to consumers of water by the city for the monthly consumption beginning with January 2013 billing cycle, increasing on the October 2013 billing cycle, increasing on the October 2014 billing cycle, increasing on the October 2015 billing cycle and increasing on the October 2016 billing cycle and continuing thereafter, shall be as follows:

Consumer Classes	*Effective January 2013*	*Effective October 2013*	*Effective October 2014*	*Effective October 2015*	*Effective October 2016*
Residential—Inside City Limits					

Consumer Classes	*Effective January 2013*	*Effective October 2013*	*Effective October 2014*	*Effective October 2015*	*Effective October 2016*
First 3,000 gallons	$1.28 per 1,000 gallons	$1.29 per 1,000 gallons	$1.30 per 1,000 gallons	$1.32 per 1,000 gallons	$1.33 per 1,000 gallons
Next 3,000 gallons	$1.64 per 1,000 gallons	$1.66 per 1,000 gallons	$1.68 per 1,000 gallons	$1.69 per 1,000 gallons	$1.71 per 1,000 gallons
Next 6,000 gallons	$1.83 per 1,000 gallons	$1.85 per 1,000 gallons	$1.87 per 1,000 gallons	$1.89 per 1,000 gallons	$1.91 per l,000 gallons
Over 12,000 gallons	$2.51 per 1,000 gallons	$2.69 per 1,000 gallons	$2.75 per 1,000 gallons	$2.88 per 1,000 gallons	$3.01 per 1,000 gallons
All Sprinkler	$2.51 per 1,000 gallons	$2.69 per 1,000 gallons	$2.75 per 1,000 gallons	$2.88 per 1,000 gallons	$3.01 per 1,000 gallons
Wholesale/Resale					
Sole Source	$1.89 per 1,000 gallons	$1.91 per 1,000 gallons	$1.92 per 1,000 gallons	$1.94 per 1,000 gallons	$1.96 per 1,000 gallons
Supplemental	$5.96 per 1,000 gallons	$6.08 per 1,000 gallons	$6.20 per 1,000 gallons	$6.32 per 1,000 gallons	$6.45 per 1,000 gallons
Multi-Meter Sole Source					
First 5,000,000 gallons	$1.89 per 1,000 gallons	$1.91 per 1,000 gallons	$1.92 per l,000 gallons	$1.94 per l,000 gallons	$1.96 per l,000 gallons
Over 5,000,000 gallons	$1.55 per 1,000 gallons	$1.56 per 1,000 gallons	$1.58 per 1,000 gallons	$1.59 per 1,000 gallons	$1.61 per 1,000 gallons
Commercial/Industrial					
Up to 1,000,000 gallons	$1.89 per 1,000 gallons	$1.91 per 1,000 gallons	$1.92 per 1,000 gallons	$1.94 per 1,000 gallons	$1.96 per l,000 gallons
Above 1,000,000 gallons	$1.55 per 1,000 gallons	$1.56 per 1,000 gallons	$1.58 per 1,000 gallons	$1.59 per 1,000 gallons	$1.61 per l,000 gallons
All Sprinkler	$2.51 per 1,000 gallons	$2.69 per 1,000 gallons	$2.75 per 1,000 gallons	$2.88 per 1,000 gallons	$3.01 per 1,000 gallons
Metered Fire Line	$2.51 per 1,000 gallons	$2.69 per 1,000 gallons	$2.75 per 1,000 gallons	$2.88 per 1,000 gallons	$3.01 per 1,000 gallons

(b) In addition to the above rates for water consumed, there is an availability charge that is added to the consumption charge, which charge is based on having water available to the customer or consumer for water consumed or used. In the event there is no consumption, the availability charge alone will apply. The availability charge is based on meter size, and is as follows:

Meter Size	*Effective January 2013*	*Effective October 2013*	*Effective October 2014*	*Effective October 2015*	*Effective October 2016*
Each 1" meter or smaller	$6.34	$7.84	$9.34	$10.84	$12.34
Each 1½" meter	$19.53	$24.15	$28.77	$33.40	$38.02
Each 2" meter	$29.64	$36.65	$43.66	$50.67	$57.68
Each 3" meter	$63.02	$77.93	$92.84	$107.75	$122.66
Each 4" meter	$102.25	$126.44	$150.63	$174.82	$199.01
Each 6" meter	$203.18	$251.25	$299.32	$347.39	$395.46
Each 8" meter	$276.37	$341.75	$407.14	$472.53	$537.91
Each 10" meter	$525.30	$649.58	$773.86	$898.14	$1,022.42
Fire line	$5.16 per inch	$6.38 per inch	$7.60 per inch	$8.82 per inch	$10.04 per inch
Fire hydrant charge	$7.24	$7.31	$7.39	$7.46	$7.53

(c) Except for wholesale/resale supplemental and sole-source sale where water is used through a common meter; and

(1) Where more than one house, building, or structure used for living, eating, or sleeping quarters, or in which a business occupation or profession is conducted or carried on;

(2) In apartment houses or buildings;

(3) In houses or buildings occupied by more than one family;

(4) In business houses or buildings where one or more persons or entities are located therein and each person or entity is engaged in a separate business or different business; or

(5) Mobile home parks or facilities where multiple units or spaces each have a water connection, then each separate house, building, or structure, each unit in an apartment house or building, each family in one house, each person or entity engaged in a separate business or different business in one business house or building, each space or unit in a mobile home park or facility shall be subject to the availability charge per month of $6.34 effective January 2013, $7.84 effective October 2013, $9.34 effective October 2014, $10.84 effective October 2015 and $12.34 effective October 2016 in addition to any water consumed. If there is no consumption, the availability charge as set forth in paragraph (b) will apply.

(d) Provided further, that for residences, apartments, mobile home parks, and commercial establishments serving six or more families, apartment units, separate or different businesses through a common master meter, the charge shall be $1.64 per 1,000 gallons effective January 2013, $1.66 per 1,000 gallons effective October 2013, $1.68 per 1,000 gallons effective October 2014, $1.69 per 1,000 gallons effective October 2015, and $1.71 per 1,000 gallons effective October 2016. In addition to the above, there will be an availability charge per month of $6.34 effective January 2013, $7.84 effective October 2013, $9.34 effective October 2014, $10.84 effective October 2015, and $12.34 effective October 2016, per unit.

(e) The City of Huntsville shall pay a monthly maintenance charge of $7.24 effective January 2013, $7.31 effective October 2013, $7.39 effective October 2014, $7.46 effective October 2015, and $7.53 effective October 2016, for each fire hydrant in the water system.

(f) *Rates—Consumers outside the city limits.*

(1) In addition to the rates for water consumed, there is an availability charge that is added to the consumption charge which charge shall be based on having water available to the customer or consumer for water consumed or used. In the event there is no consumption, the availability alone will apply. The availability charge is based on the meter size and is as follows:

Monthly Availability Charge	*Effective January 2013*
Each 1" meter or smaller	$10.00
Each 1½" and 2" meter	$30.00
Each 3" meter	$50.00
Each 4" meter and larger	$100.00

(2) The rate charges to consumers for water outside the city limits for monthly consumption shall be as follows:

Consumer Classes Outside City Limits	*Effective January 2013*
Residential	
First 2,500 gallons	$2.50 per 1,000 gallons
Next 2,500 gallons	$3.75 per 1,000 gallons
Next 5,000 gallons	$3.50 per 1,000 gallons
Next 40,000 gallons	$3.25 per 1,000 gallons
All over 50,000 gallons	$4.51 per 1,000 gallons
Multi-Unit Residential	
First 2,500 gallons	$2.50 per 1,000 gallons

Consumer Classes Outside City Limits	*Effective January 2013*
Next 2,500 gallons	$3.75 per 1,000 gallons
Next 5,000 gallons	$3.50 per 1,000 gallons
Next 40,000 gallons	$3.25 per 1,000 gallons
All over 50,000 gallons	$4.51 per 1,000 gallons
Commercial	
First 2,500 gallons	$2.50 per 1,000 gallons
Next 2,500 gallons	$3.75 per 1,000 gallons
Next 5,000 gallons	$3.50 per 1,000 gallons
Next 40,000 gallons	$3.25 per 1,000 gallons
All over 50,000 gallons	$4.51 per 1,000 gallons
Multi-Unit Commercial	
First 2,500 gallons	$2.50 per 1,000 gallons
Next 2,500 gallons	$3.75 per 1,000 gallons
Next 5,000 gallons	$3.50 per 1,000 gallons
Next 40,000 gallons	$3.25 per 1,000 gallons
All over 50,000 gallons	$4.51 per 1,000 gallons

Additionally, the charge or rate for all over 50,000 gallons is to be increased at the same time the wholesale/resale supplemental rate is increased by Huntsville Utilities as charged to the Madison County Water Department.

(3) Adjustment: The rate charges to consumers outside the city limits shall be increased or decreased when rates charged by the Madison County Water Department to its consumers are increased or decreased.

(4) However, in no event shall a customer outside the city limits pay less than comparable customers inside the city limits plus a $0.15 per 1,000 gallon service premium added to any outside the city limits rate classes.

The rates and charges as set forth in this amendment shall become effective with meter readings on and after December 31, 2012.

(Code 1982, § 23-121; Ord. No. 90-617, 11-20-1990; Ord. No. 95-306, 5-11-1995; Ord. No. 99-314, 4-8-1999; Ord. No. 00-313, § 23-121, 4-13-2000; Ord. No. 02-842, § 23-121, 10-10-2002; Ord. No. 05-550, 8-11-2005; Ord. No. 07-1125, 11-20-2007; Ord. No. 12-1019, 12-20-2012)

Sec. 26-632. Leaks, waste.

If any leak or waste is found to have occurred at any water meter box, due to defective plumbing by the city, a water bill or charge for the current month shall be rendered to the consumer equal to the average bill or charge for the past three preceding months. If any leak or waste is found on private property underground where such leak or waste is not plainly visible, a bill or charge for the then current month shall be rendered to the customer at such place or the owner of the property, equal to the average bill for the past three preceding months, and there shall be added to the average bill, based on the past three preceding months' consumption, a charge at the then current residential-inside city limits-first 3,000 gallons rate schedule as set forth in Ordinance No. 12-1019 adopted on December 20, 2012 used over and above the averaged amount for the past three preceding months; provided, further however, that if such leak or waste shall occur in any water fixture or if it shall be otherwise visible or audible or known to the consumer, a bill or charge for the full amount of water used as shown by the meter reading shall be rendered against such customer and no allowance or credit thereon shall be made. The rates and charges as set forth in this amendment shall become effective on date of adoption of this ordinance.

(Ord. No. 13-249, 4-25-2013)

Editor's note—Ord. No. 13-249, adopted Apr. 25, 2013, repealed former § 26-632, and enacted a new section as set

out herein. The former section pertained to similar subject matter and derived from Code 1982, § 23-122; Ord. No. 84-713, 11-20-1984; Ord. No. 95-305, 5-11-1995.

Sec. 26-633. When meters fail to register.

When any water meter fails to register, an average shall be obtained from the readings taken from such meter from the preceding three months during which the meter was known to be operating correctly; and these readings shall be used as a basis of payment for water consumed through such meter for the period in which the meter is out of order and until repaired or replaced.
(Code 1982, § 23-123)

Secs. 26-634—26-640. Reserved.

Subdivision II. Billing and Collection Procedures

Sec. 26-641. When consumers billed.

The city shall, as soon as practical after the meter is read, cause to be either mailed or electronically delivered to the customer a statement of water consumption furnished by the city or to the owner of the house, building or property where such water service is furnished. Such statement shall show the quantity of water consumed by the consumer for the preceding 30 days and the amount due. In the case of the first billing of new accounts and final billings of all accounts where the period covered involves fractions of a month, the availability charges shall be adjusted to a basis proportionate with the period of time during which service was furnished. Any consumer requiring service for a period not exceeding 30 days shall be required to pay the availability charge for one month, together with the rate for the water consumed.
(Code 1982, § 23-136; Ord. No. 15-912, 12-17-2015)

Sec. 26-642. Failure to receive bill.

Failure to receive a statement or water bill shall not entitle any person to the net rates, nor shall it prevent the city from discontinuing service or cutting off the water in accordance with section 26-645.
(Code 1982, § 23-137)

Sec. 26-643. Dishonored checks.

When any check or order is delivered to the city in payment of any water account or water bill and is accepted and such check, or order, upon due presentation to the bank or trust company upon which it is drawn is not paid, the city shall charge the amount of such check or order back to the water bill or water account of such person. Such water bill or water account shall be considered a delinquent account, and the city shall be authorized to discontinue service in accordance with section 26-645, the same as if the check or order had not been given.
(Code 1982, § 23-138)

Sec. 26-644. Penalties.

A penalty of five percent on the first $250.00 of the bill plus one percent on any portion of the bill exceeding $250.00 shall be charged on all water bills based upon the rates set out in section 26-631 if such bill is not paid in full on or before the date shown on such bill. Payments that are due on a weekend or holiday will be due the next business day.
(Code 1982, § 23-139; Ord. No. 15-912, 12-17-2015)

Sec. 26-645. When service discontinued for failure to pay bill; reconnection charge.

If any consumer or owner of the house, building or property shall refuse or neglect to pay his water bill or charge on or before the penalty date as shown on the statement the water may be turned off and shall not be turned on again until the bill or charge shall be paid in full, plus a reasonable charge for turning on and off the water.
(Code 1982, § 23-140)

Sec. 26-646. Collection of connection and disconnection charges.

A fee for connection, reconnection and disconnection for water services, and a charge to

process returned checks which may or might be dishonored, may be established and collected to cover costs incurred for connecting, reconnecting service or disconnecting service. Such charges for such services shall be those charges which shall be made and determined by the waterworks utility board.
(Code 1982, § 23-141)

Sec. 26-647. Service not restored while delinquent consumer resides on premises.

No member of the consumer's family or anyone else living in the same house or building or on such property with the consumer where the water is cut off shall have the right to make or offer to make a deposit for water, or to demand that the city turn on the water at such place, so long as a delinquent lives there, and the water bill or charges, plus a reasonable charge as required in section 26-645, is unpaid. Further, delinquent charges owed by any member of the consumer's family living in the same house or delinquent charges of anyone else living in the same house will be charged back to the current active account to the same extent as if those charges were owed by the person who made the application for the account.
(Code 1982, § 23-142; Ord. No. 85-53, 1-24-1985)

Secs. 26-648—26-670. Reserved.

DIVISION 7. WATER CONSERVATION PLAN

Sec. 26-671. Established.

There is established a city water conservation plan.
(Ord. No. 87-326, § 1, 8-13-1987)

Sec. 26-672. Declaration of policy.

It is declared that, because of water conditions prevailing and which may prevail in the city, the general welfare requires that the water resources available to the city be put to the maximum beneficial use to the extent to which they are capable, and that the waste or unreasonable use or unreasonable methods of use of water be prevented, and the conservation of such water is to be extended with a view to the reasonable and beneficial use of water in the interests of the people of the city and for the public health and welfare.
(Ord. No. 87-326, § 2, 8-13-1987)

Sec. 26-673. Authorization.

The general manager of the city's utilities, or his designate, is authorized and directed to implement the applicable provisions of this division under his determination that such implementation is necessary to protect the public health and welfare and safety.
(Ord. No. 87-326, § 3, 8-13-1987)

Sec. 26-674. Application.

The provisions of this division shall apply to all persons, customers and property utilizing City of Huntsville dba Huntsville Utilities water wherever situated.
(Ord. No. 87-326, § 4, 8-13-1987)

Sec. 26-675. Water conservation stages.

(a) No customer of or person who uses water from the City of Huntsville dba Huntsville Utilities shall knowingly make, cause, use or permit the use of water received from the city for residential, commercial, industrial, agricultural, governmental or any other purpose in a manner contrary to any provision of this division, or in an amount in excess of that use permitted by the conservation stage in effect pursuant to action taken by the general manager of Huntsville Utilities, or his designate, in accordance with the provisions of this division.

(b) The general manager of Huntsville Utilities, or his designate, shall promulgate guidelines which shall set forth the criteria for determining when a particular conservation stage is to be implemented and terminated. Such guidelines shall be updated when, in the opinion of the general manager of Huntsville Utilities, or his designate, the conditions of the utility system have changed so as to necessitate such update.

(1) *Stage I, voluntary conservation.* Customers of or persons who use the water utility of the City of Huntsville dba Huntsville Utilities are requested to

voluntarily limit the amount of water to the amount absolutely necessary for health, business and outdoor use.

(2) *Stage II, mandatory compliance, water alert.* Upon implementation by the general manager of Huntsville Utilities, or his designate, and publication of notice, the following restrictions shall apply to all customers of or persons who use the water utility of the City of Huntsville dba Huntsville Utilities: Irrigation utilizing individual sprinklers from hoses, or buried sprinkler systems for the purpose of watering lawns, gardens, landscaped areas, trees, shrubs and other plants is prohibited except on designated water use days, which shall be as follows: Odd-numbered street addresses will water on odd days of the month, and even-numbered street addresses will water on even days of the month. This restriction shall not apply to commercial nurseries; however, commercial nurseries should restrict water use to that which is absolutely necessary. There is further exempt from the restriction any hand-held garden hose or small hand-held watering container which may be used on any day to water small areas that might need more frequent watering.

(3) *Stage III, mandatory compliance, water warning.* Upon implementation by the general manager of Huntsville Utilities or his designate and publication of notice, the following restrictions shall apply to all customers of or persons who use the water utility of the City of Huntsville dba Huntsville Utilities: Irrigation utilizing individual sprinklers from hoses, or buried sprinkler systems for the purpose of watering lawns, gardens, landscaped areas, trees, shrubs and other plants is prohibited except on designated water use days, which shall be as follows: Users of water at street addresses containing odd numbers will water on either Saturday or Sunday and Wednesday or Thursday when such date is on an odd calendar month number, and users of water at street addresses containing even numbers will water on either Saturday or Sunday and Wednesday or Thursday when such date is on an even calendar month number, it being the intent to have four designated outdoor watering days per week and to allow each user of water to water two times each week. During Stage III, mandatory compliance, water warning, the following additional restrictions shall apply:

a. On the Saturday/Sunday and Wednesday/Thursday watering days, no watering may be done between the hours of 6:00 p.m. and 9:00 p.m. Hand-held garden hoses or small hand-held watering containers may be used on any day except during the hours of 6:00 p.m. to 9:00 p.m.

b. Washing of private vehicles is prohibited except on the Saturday/Sunday and Wednesday/Thursday odd/even basis. No private vehicles may be washed between the hours of 6:00 p.m. and 9:00 p.m. Commercial car washes and service stations are exempt from this restriction.

c. Swimming pools will be filled only on the Saturday/Sunday and Wednesday/Thursday odd/even basis. There shall be no filling between the hours of 6:00 p.m. and 9:00 p.m.

d. Washing of sidewalks, streets, driveways, parking areas, tennis courts, patios or other paved areas is absolutely prohibited except by the department of public works services and the fire department to alleviate health or fire hazard.

e. Placing sprinklers which spray a significant amount of water in the street is prohibited.

f. Taking water from a fire hydrant is prohibited unless the person taking the water from the fire hydrant has a permit from the water department for an expressed purpose and

date that hydrant may be used, signed by an authorized utility representative. Utility crews, public works services department and fire department are exempt from this condition in order to properly maintain the water system and provide for public health and safety.

The Saturday/Sunday and Wednesday/Thursday restriction does not apply to commercial nurseries. However, commercial nurseries should restrict water use to what is absolutely necessary.

(4) *Stage IV, mandatory compliance, water emergency.* Upon implementation by the general manager or his designate and publication of notice, the following restriction shall apply to all customers of or persons who use the water utility of the City of Huntsville dba Huntsville Utilities: During stage IV, mandatory compliance, water emergency, no outside irrigation utilizing individual sprinklers from hoses or buried sprinkler systems for the purpose of watering lawns, gardens, landscaped areas, trees, shrubs and other plants is permitted. Also prohibited are the following:

a. The washing of private vehicles is prohibited except at commercial car washes or service stations.

b. The use of water from fire hydrants for any reason other than use by utility crews, department of public works, and the fire department to maintain the water system and quality is prohibited.

c. Stage IV, water emergency temporarily voids any standing fire hydrant use permits until the emergency has passed.

d. Washing of sidewalks, streets, driveways, parking areas, tennis courts, patios or other paved areas is absolutely prohibited except by the public works services department and the fire department to alleviate health or fire hazard.

e. The filling of swimming pools is prohibited during the water emergency.

(Ord. No. 87-326, § 5, 8-13-1987)

Sec. 26-676. Compliance; golf courses and tennis courts.

(a) Any golf course, either public or private, that uses City of Huntsville dba Huntsville Utilities water for watering greens and fairways must comply with the watering restrictions imposed by a water alert (stage II) or water warning (stage III). During a water emergency (stage IV), no water from the City of Huntsville dba Huntsville Utilities may be used for watering the fairways.

(b) Tennis courts (public or private) utilizing rubico surfaces are exempt from the restrictions of stage II and stage III and may be exempt from restrictions during a water emergency if conditions allow.

(Ord. No. 87-326, § 6, 8-13-1987)

Sec. 26-677. Mandatory conservation stage implementation.

The water department of the City of Huntsville dba Huntsville Utilities shall monitor its pumping capacity and demand for water by its customers on a daily basis during periods of hot and dry weather and shall determine the extent of conservation required through the implementation or termination of particular conservation stages in order for the City of Huntsville dba Huntsville Utilities Water Department to continue to supply adequate water to its customers. Thereafter, the general manager of Huntsville Utilities or his designate, may order the appropriate stage of water conservation be implemented or terminated in accordance with the applicable provisions of this division. This order shall be made by public announcement on the utility website and/or through social media. The order shall become effective immediately upon such publication and shall continue until such time as all restrictions are removed.

(Ord. No. 87-326, § 7, 8-13-1987; Ord. No. 15-912, 12-17-2015)

Sec. 26-678. Area implementation.

Due to the varied elevations, service areas with varied pumping and storage capacities, certain areas of the city that utilize the city water system may be designated to be in different stages of conservation at various times; and it shall be lawful to designate certain areas of the city to be in a certain stage of conservation.
(Ord. No. 87-326, § 8, 8-13-1987)

Sec. 26-679. Presumption.

For the purpose of this division, it shall be presumed that a person in whose name the water utility of the City of Huntsville dba Huntsville Utilities is or was last billed or who is receiving the economic benefit of the water supply has knowingly made, caused, used or permitted the use of water received from the city for residential, commercial, industrial, agricultural, governmental or any other purpose in a manner contrary to any provisions of this division, or in an amount in excess of the use permitted by the conservation stage in effect, if the water has been used in a manner contrary to any provision of this division, or in an amount in excess of the use permitted by the conservation in effect.
(Ord. No. 87-326, § 9, 8-13-1987)

Sec. 26-680. Penalty.

Any person violating any provision of this division shall be deemed guilty of an offense and upon conviction shall be punished as and for a violation of a misdemeanor. The violation of each provision and each separate violation shall be deemed a separate offense and shall be punished accordingly. Compliance may be further sought through injunctive relief.
(Ord. No. 87-326, § 10, 8-13-1987)

ARTICLE I. IN GENERAL

Secs. 27-1—27-30. Reserved.

ARTICLE II. TREES*

DIVISION 1. GENERALLY

Sec. 27-31. Purpose.

The purpose of this article is:

(1) To establish recognized standards of tree planting and maintenance on public and easement-laden lands in the city;

(2) To protect trees and shrubs on public and easement-laden lands from willful and/or negligent harm; and

(3) To provide for active and continuing programs for public education about, and management of, trees.

(Ord. No. 04-45, § 1, 2-12-2004)

Sec. 27-32. Policy.

The policy of the city is to establish and maintain trees upon and within the rights-of-way of improved public streets and highways maintained by the city for ornamentation and to protect the public health, safety, and welfare. Interest in, and responsibility for, trees on the rights-of-way of improved public streets and highways maintained by the city is shared by the city and the owner of the adjoining land, in the absence of other specific provisions to the contrary. No tree planted by the city for ornamentation or public safety purposes within said rights-of-way shall be removed or intentionally damaged, injured, or destroyed, except by a duly authorized person, company, organization, or agent of the city who has first secured a permit from the city forester. Any tree presently located within such a right-of-way which is maintained by the owner of the adjacent property for ornamentation, shade, screening, or other purposes, may continue to be so maintained so long as that portion of the right-of-way is not improved for travel or utility purposes, and so long as maintenance of said tree is not inconsistent with the health, safety, and welfare. Such trees shall not be removed by the city without notice of the adjoining owner, except when such notice would impede the city's protection of the safe movement of vehicular and pedestrian traffic, or the safe operation and maintenance of the street or highway, or of public utilities or drainage facilities located within said rights-of-way. Removal for any other purpose shall be preceded by reasonable notice to the owner of the adjacent property, and based upon a finding by the city forester that such removal is in accordance with adopted standards.

(Ord. No. 04-45, § 2, 2-12-2004)

Sec. 27-33. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Adopted tree care standards are those standards of tree maintenance, trimming clearances, and methods of protection of trees during construction, as established in the American National Standards Institute (ANSI) Standard A300 (2001), National Standard for Tree Care Operations - Tree, Shrub and Other Woody Plant Maintenance - Part 1 - Standard Pruning Practices, as may be amended; and the American National Standards Institute (ANSI) Standard Z133.1 (2000), Arboricultural Operations - Pruning, Trimming, Repairing, Maintaining, and Removing Trees, and Cutting Brush - Safety Requirements, as may be amended.

Caliper means tree trunk diameter, measured six inches above ground for trees with up to a four-inch caliper, and 12 inches above ground for larger trees.

City means the City of Huntsville and its authorized agents and contractors.

Critical rooting distance means the radius around the base of a tree including both the root plate and the transport roots attached to them, in

*__Editor's note—__Ord. No. 04-45, §§ 1—14, adopted Feb. 12, 2004, amended art. II of this chapter in its entirety to read as herein set out. Prior to amendment, art. II, §§ 27-31, 27-51—27-54, pertained to similar subject matter and derived unamended from the original Code.

which soil disturbance is likely to affect the overall health of the tree, and root damage is likely to introduce disease-causing organisms into the tree. This radius, in feet, is approximately 2.5 times the tree's d.b.h. in inches. (See also, "root plate" and "d.b.h.")

d.b.h. means "diameter breast height." For a single trunk tree, the d.b.h. is derived by measuring the trunk circumference of a tree at a point that is 4½ feet above ground on the uphill side of the tree and then dividing the circumference by 3.14. For a multi-stemmed tree, the d.b.h. is derived by obtaining the sum of the separate circumferences measured at a point 4½ feet above ground, then dividing the sum of the circumferences by 3.14.

Easement-laden land means privately owned land on which an easement has been granted to the city or another entity to allow for public services such as utility distribution, water distribution and drainage, access to maintain the public services, etc. An easement is only a right of use. The grant of an easement does not transfer ownership rights.

Electric power facilities refer to power transmission and distribution lines, transformers, substations, and associated equipment.

Hedgerow means a row of closely-spaced shrubs or bushes used to delineate space, restrict access, provide screening, or achieve a similar function.

Lateral separation means distance, measured horizontally at ground level, such as between an electrical conductor and the center of the trunk of a tree.

Live crown ratio means the fraction or percentage of the overall height of a tree bearing living, healthy branches.

Mulch means any organic material or rock placed over the soil surface of a planting area which serves the same function as leaf-litter in a natural forest environment.

Owner means the possessor of title, his agent or assignee, to the land on which particular trees stand. In the case of a tree on easement-laden land, ownership rights and responsibilities are defined in section 27-51, in the absence of other specific provisions by deed or other binding agreement.

Person means any individual acting on his own behalf, or on behalf of a company, agency, corporation, or other body.

Planting means establishing a tree, shrub, groundcover, vine, or other species of vegetation in a location where it is to remain for an extended period, usually the useful lifespan of the plant in the absence of unforeseen circumstances.

Private land means land belonging to a person or corporate entity, and not the city or other agency of government.

Public land means any land belonging to the city, including platted rights-of-way or streets and alleys. For the purposes of this definition, federal, state and county land is excluded from this category unless the city has specifically assumed responsibility for its maintenance.

Root plate means the area around the base of a tree in which the roots taper rapidly from pedestal roots to small transport roots; these structural roots are constantly subjected to compression and tension during windy conditions, so damage to these roots and subsequent decay commonly leads to catastrophic failure, especially during windy weather. (See also "critical rooting distance.")

Shrub, see the definition of *trees and shrubs* below.

Tree commission means any member of the Huntsville Tree Commission as described in division 8 of article VIII of chapter 2 of this Code, or any individual, including the city forester, assigned or contracted by the tree commission, acting in pursuit of the objectives of this article within its scope and within the bounds of law.

Trees and shrubs mean all woody vegetation, whether naturally occurring or planted; rights, responsibilities, and standards applying to trees shall, from a legal standpoint, apply to shrubs as well.

Utility, private means a commercial service distributed by use of the public streets, alleys, and easements of the city by the use of facilities

and fixtures located therein, but not regulated by the State of Alabama Public Service Commission.

Utility, public means a service distributed by wire, pipe, or airwaves to customers, and either regulated by the State of Alabama Public Service Commission (as in the case of telephone service) or not regulated by the Public Service Commission, but established as a municipal utility (as in the case of water, electric and gas service).
(Ord. No. 04-45, § 3, 2-12-2004)

Sec. 27-34. Offenses.

In relation to any tree or shrub located on public or easement-laden land, it shall be unlawful for any person not authorized to do so:

(1) To break, injure, mutilate, burn, kill, remove, or destroy any tree or shrub without authority to do so as set forth in this article;

(2) To knowingly permit any leak to exist in any gas pipe or main, within the root zone of such tree or shrub;

(3) To permit any toxic chemical, either solid or liquid, to pass, drain, or be emptied on or about any such tree or shrub;

(4) To knowingly permit any wire designed to carry electrical current to be attached to any tree or shrub, except in accordance with adopted standards;

(5) To excavate any tunnel, ditch, or trench, or to lay any driveway, sidewalk, or pavement through or across the root zone of any such tree or shrub, except in accordance with adopted standards;

(6) To attach any wire, rope, cable, poster, sign, nail, or other fastener to such tree or shrub, except in accordance with adopted standards;

(7) To place, deposit, or store any stone, brick, sand, earth, or other material so as to impede the passage of water, air, and fertilizer to the roots of any such tree or shrub, except in accordance with adopted standards;

(8) To move any building or other large object along any street in such a manner as to damage any tree or shrub that is maintained in accordance with adopted standards;

(9) To undertake to build any structure, pavement, utility, or other construction without proper consideration of such trees and shrubs in accordance with adopted standards;

(10) To unreasonably prevent, delay, or interfere with the city tree commission or any of its agents engaging in or about the planting, maintenance, or removal of any tree or shrub on public, easement-laden, or private lands as authorized in this article.

(Ord. No. 04-45, § 4, 2-12-2004)

Sec. 27-35. Enforcement.

When it comes to the attention of a city department or Huntsville Utilities that trees or other vegetation is in violation of these standards, that agency will request the city forester to inspect the problem jointly with a representative of that department. If a violation is believed to exist, the city forester will refer the matter to the property owner for redress, at his or her expense, within 14 calendar days. If the owner has not corrected the problem within that time, the city forester will refer all information to the appropriate enforcement authority.
(Ord. No. 04-45, § 5, 2-12-2004)

Sec. 27-36. Penalties and appeals.

(a) *Penalties.* Any person violating or failing to comply with any of the provisions of this article shall be guilty of a misdemeanor and upon conviction thereof shall be fined a sum sufficient to restore any damage resulting from the violation not to exceed $500.00 per tree or shrub damaged, and may be required to make such restitution in goods and/or labor as may be determined by the proper court of law, or may be sentenced to any combination of these penalties.

(b) *Appeals.* Appeals of arbitration, decisions or other actions by the tree commission may be made first to the city council and further to the proper court of law.
(Ord. No. 04-45, § 6, 2-12-2004)

Secs. 27-37—27-50. Reserved.

DIVISION 2. TREE MAINTENANCE AND PROTECTION

Sec. 27-51. Trees on public land or easement-laden land.

(a) *Maintenance.* Maintenance of trees located on public or easement-laden lands shall be performed under the supervision of the city forester who shall be in consultation with the city department having jurisdiction over the property in question.

(b) *Abatement of hazards.* When it comes to the attention of an officer or agent of the city that any tree maintained on a parcel of property which adjoins any public land or easement-laden land which is, or is likely to become, a threat to the public safety, the appropriate agent of the city, including the city forester, shall take one or more of the following actions:

(1) a. If the tree in question is deemed to be on private property, the officer or agent of the city shall, if possible, give notice to the property owner upon whose land the hazardous condition exists and allow the property owner a fixed period of time to take the necessary action or actions needed to remedy the hazardous condition; or

b. The officer or agent of the city may forthwith abate the hazardous condition by taking the appropriate and necessary action or actions in accordance with adopted standards.

c. If the tree in question is deemed to be wholly located on private property, and the owner of the private property has failed to abate the hazardous condition, the cost of the city's abating the hazard shall be assessed against the property owner.

(2) If the tree in question is deemed to be partially located on private property and partially located on public property, then the cost of abating the hazard shall be borne both by the city and the private property owner. The assessment of costs that shall be attributed to the city and to the property owner shall be assessed and prorated based on the proportion of the stump diameter of the tree located on private and public property.

When it comes to the attention of any owner of a parcel of land which adjoins any public land or easement-laden land that any tree maintained by him is, or is likely to become, a threat to the public safety, it is the duty of said owner to abate said hazard by appropriate action in accordance with the adopted standards.

(c) *Planting of trees on public land.* Any tree hereafter planted on, or in such location that as it matures it will affect the safe use of public land shall be selected, sited, planted, and maintained in accordance with the tree care standards set out in this article. Further, any tree classified by the city forester and the tree commission as unacceptable for planting on city property may be removed through the processes described in this article. A copy of the acceptable and unacceptable species of trees for planting shall be provided upon request by the city forester.

(d) *Removal and replacement of trees on public land.*

(1) *Tree removal permits.* Any public department or public utility removing a tree or shrub from public land shall do so in accordance with the standards adopted in this article. Any person or agency, private or public, needing to remove a tree six inches or more in d.b.h. from public land shall first obtain by telephone a removal permit from the city forester. Such permits may be granted for one tree or for groups of trees, and shall be issued at no cost under guidelines established by the tree commission.

(2) *Replacement of trees removed by permit.* Any person or agency removing trees, by permit, which are six inches or more in d.b.h. shall provide for the planting of new trees in approximately equal numbers and in appropriate locations mutually agreed upon by the city forester and the person obtaining the permit. Failure to obtain a permit when one would be required for removal of a tree shall not relieve responsibility for its replacement.

The city forester shall coordinate planting of trees as needed to replace those removed during construction by any city agency.

(Ord. No. 04-45, § 7, 2-12-2004)

Sec. 27-52. Trees on private land.

(a) Trees located on private land are the property and responsibility of the owner of such land. Yet such trees also have public usefulness, and value in energy conservation; in moderating extremes of temperature and humidity; in reducing noise, glare, and air pollution; in reducing soil erosion; and in improving the city's aesthetic character. To encourage conservation of this resource, the tree commission is empowered to take the following measures:

(1) Provide information and technical referral service to landowners, developers, builders, and other interested parties, including persons and private and public agencies, in protecting trees during planting and construction;

(2) Cooperate with interested public and private parties in conservation efforts such as Arbor Week observance, plant digs, community tree-planting, etc.;

(3) Participate in cooperative community projects as authorized and directed elsewhere in this article.

(b) *Trees on, or affecting, the use of easement-laden lands.* Trees on easement-laden lands are the property and responsibility of the owner of the land on which the easement lies. The city accepts no responsibility for the management of such trees beyond what is necessary to accomplish its lawful activities on such land, or consequent to such activities within applicable statutes of limitations. All removal or maintenance work involving such trees shall be conducted in accordance with the tree care standards adopted herein.

(Ord. No. 04-45, § 8, 2-12-2004)

Sec. 27-53. Tree care standards.

(a) *Tree planting.*

(1) *Planting procedures.* The planting specifications approved by the city forester and the tree commission shall be used for all planting projects executed or coordinated by the city. These procedures are to be adapted for individual planting sites by the city forester. The procedures include proper watering, mulching, staking, guying, etc. Additional information, including a copy of the planting specifications, shall be available from the city forester upon request.

(2) *Minimum size of trees to be planted on city property.*

Mature tree size (A copy of the classification chart is available through the city forester.)	*Minimum size at planting*
Large & medium	1½" caliper (2"—2.5" preferred)
Small	5'—6' height (6'—8' preferred)

(3) *Planting distance from above ground electrical utility lines, as measured horizontally from a line on the ground directly under the nearest charged conductor, generally.*

Mature tree size (A copy of the classification chart is available through the city forester.)	*Minimum lateral separation*
Large	20'
Medium	15'

Mature tree size (A copy of the classification chart is available through the city forester.)	*Minimum lateral separation*
Small	no lateral separation required
In instances where the minimum lateral separation requirement would prevent the planting of a tree, the city department having jurisdiction over the property in question shall work with Huntsville Utilities in order to reach a solution which will allow for the planting of a tree. Should the parties involved be unable to reach an agreement, the matter will be settled by a majority vote of the tree commission only after each of the involved parties have had an opportunity to present argument.	

(4) *Planting distance from sewer lines, sanitary & storm, generally.*

Tree species	*Minimum lateral separation*
Most trees, other than exceptions listed below	5'
Hackberry, pines, and all hedgerows	10'
Species deemed unacceptable by the city forester and the tree commission. Further information is available upon request from the city forester.	May not be planted
In instances where the minimum lateral separation requirement would prevent the planting of a tree, the city department having jurisdiction over the property in question shall work with water pollution control and/or public works in order to reach a solution which will allow for the planting of a tree. Should the parties involved be unable to reach an agreement, the matter will be settled by a majority vote of the tree commission only after each of the involved parties have had an opportunity to present argument.	

(5) *Parking lot landscaping plantings.* All parking lot landscaping must conform to appendix A, zoning, of this Code, as amended or supplemented.

(b) *Greenspace planting agreement.* The city wishes to encourage and promote the planting of shade trees along streets within the city; however right-of-way space is limited and not always adequate for large-growing shade trees. Space on private property adjoining the right-of-way is often adequate for the planting of shade trees by the city, and the use of such space would insure that many streets and neighborhoods that would otherwise be excluded from the city tree planting program would be included. The planting of shade trees by the city on private property adjoining the right-of-way would produce significant public benefits by providing a healthy and attractive tree canopy along city streets, and also serve to encourage property owners to plant suitable shade trees in a similar manner on their property.

For these reasons, the city forester is hereby authorized to contract with property owners within the city using the following contract:

"GREENSPACE PLANTING AGREEMENT

"This Greenspace planting agreement is made by the undersigned property owner(s) and the Huntsville City Forestry Division, under the authority of Section 2-1455 of the Code of Ordinances of the City of Huntsville. The purpose of this agreement is to encourage the planting of desirable trees in locations that will benefit all citizens of the City of Huntsville, to disseminate useful and accurate information on the selection, planting, and care of urban trees, and to stimulate public interest and pride in the ownership of trees.

"THE UNDERSIGNED PARTIES HEREBY AGREE AS FOLLOWS:

"1. The Huntsville City Forestry Division agrees:

"a. to provide one or more trees of mutually acceptable species, under the terms described below;

"b. to select mutually acceptable location(s), as described below, in which the tree(s) will be planted to maximize public and private benefits, and minimize the likelihood of future tree-related problems;

"c. to provide information on the planting and maintenance of trees;

"d. to provide initial horticultural pruning approximately one year after planting.

"2. The undersigned property owner agrees:

"a. to plant the tree(s), unless other arrangements are made, in the location(s) and manner agreed upon as described below;

"b. to use reasonable care in maintaining the tree(s), including periodic watering and mulching, and reasonable efforts to prevent or minimize damage to the tree(s), particularly with mowing equipment;

"c. to notify the Urban Forestry Division of tree problems affecting the use of adjacent rights-of-way.

"3. This agreement in no way limits or restricts the authority of the City of Huntsville to prune branches or otherwise abate conditions constituting a danger or hazard to the public, and in no way limits or restricts the authority of Huntsville Utilities to prune or trim trees under provisions set out in Article II, Trees, of Chapter 27, Vegetation, of the Code of Ordinances of the City of Huntsville, Alabama.

"4. The tree(s) planted under this agreement shall be the property and responsibility of the property owner, except to the extent modified by this agreement.

"5. This is a personal agreement between the parties and does not run with the land. This agreement shall be effective for 10 years from the date signed, unless sooner termination by conveyance of the land, by agreement of the parties, or otherwise.

"6. Specific arrangements:

a. species	common name	type	size	quantity
_____	_____	_____	_____	_____

b. planting location(s): _____

_____

c. cost sharing and other arrangements: __

_____

"7. Sketch planting site here, or attach a separate sheet.

"8. The undersigned property owner expresses a genuine desire to have the tree(s) described above at the site(s) agreed upon, and certifies that this agreement is entered into with full authority and that no other person or entity need be included as property owner with reference to the above described planting location.

"BY:

Property Owner	Property Owner"

(Ord. No. 04-45, § 9, 2-12-2004)

Sec. 27-54. Pruning standards.

The pruning of trees on city property, or pruning conducted by city employees shall be in accordance with:

(1) The American National Standards Institute (ANSI) Standard A300 (2001), as may be amended; and

(2) The American National Standards Institute (ANSI) Standard Z133 (2000), as may be amended.

(Ord. No. 04-45, § 10, 2-12-2004)

Sec. 27-55. Required electric power line clearances.

(a) When pruning is required to maintain the necessary clearance between any existing tree and an electric power line, the pruning shall be conducted in accordance with ANSI Standard A300. Branches or leaders to be cut back shall either be pruned to the next lateral having a

diameter at least one-third of that being cut, or else be pruned just outside the branch-collar at the base of the branch.

(b) Except as provided in subsection (c) below, the following maximum clearances shall be periodically established between electrical conductors at various voltages and adjoining vegetation:

(1) Telephone, TV cable, and other insulated communication lines require no minimum clearance;

(2) Secondary electric lines which carry voltage between 21—750 volts, insulated, shall require a clearance of two feet for areas of existing construction, and a clearance of four feet for areas of new construction;

(3) Distribution and transmission lines which carry voltage between 750—35,000 volts, uninsulated, shall require a clearance of ten feet;

(4) Distribution and transmission lines which carry voltage in excess of 35,000 volts, uninsulated, shall require a clearance of 15 feet.

(c) To lengthen the time between clearance pruning cycles for electric transmission and distribution lines, and to facilitate proper pruning to laterals as described in ANSI Standard A300, as referenced in subsection (a), above, clearances around transmission and distribution lines as set out in subsections (b)(3) and (b)(4), above, may be increased to 15 feet and 20 feet, respectively, at the discretion of Huntsville Utilities, for the following species only:

Hackberry and Sugarberry (*Celtis occidentalis* and *Celtis laevigata*

Boxelder (*Acer negundo*)

Silver maple (*Acer saccharinum*)

Tree of heaven (*Ailanthus altissima*)

Cottonwood (*Populus deltoides*)

Princesstree (*Paulownia tomentosa*)

Siberian elm (*Ulmus pumila*)

Black cherry (*Prunus serotina*)

Loblolly pine (*Pinus taeda*)

(d) *Removal and replacement of street trees near electric power facilities.* When in the judgment of Huntsville Utilities, a tree interferes with the safe and reliable operation of the electric power system along a street right-of-way, and cannot be pruned in accordance with ANSI Standard A300 so as to provide the required clearance as listed in subsection (b) and (c), above, Huntsville Utilities may offer to remove the tree and request replacement planting by the city, with a species and in a location mutually acceptable to the city, to Huntsville Utilities, and to the property owner. Such trees may be planted on public land, or private property, within the limitations and intent of section 27-53(b).
(Ord. No. 04-45, § 11, 2-12-2004; Ord. No. 05-576, 7-14-2005)

Sec. 27-56. Required right-of-way clearances.

The pruning clearances applicable to sidewalks, streets, allies, or any other rights-of-way, traffic control signals or signs, and all street lighting shall be in accordance with the standards adopted in section 25-462 of this Code.
(Ord. No. 04-45, § 12, 2-12-2004)

Sec. 27-57. Protection of trees on public land during construction.

(a) Plans for any construction done by or for the city, on either public land or easement-laden land, shall include a tree management plan, developed by or in cooperation with the city forester, for existing trees on the construction site. This plan shall:

(1) Identify and provide protection instructions for trees whose species, condition and location justify their preservation on the construction site. Protection instructions shall include, at a minimum, measures to:

a. Prevent mechanical damage to the trunks and branches of trees to be preserved;

b. Prevent construction activities of all types in trees' root-plate area;

c. Evaluate planned construction (grade cuts and fills; paving; materials storage; traffic and parking; fires; attach

ment of signs, fences, utility boxes; improper handling and dumping of toxic materials; washing and maintenance of equipment; etc.) in the critical rooting distance of trees to be saved, and provide measures to minimize damage to the trees in such areas;

d. Provide landscaping recommendations for interfaces between construction areas and tree-save zones;

e. Provide elements of an education program for work crew members and their supervisors.

(2) Provide for the removal of trees that cannot or should not be preserved during construction.

(b) The project manager shall consult the city forester for individual tree problems when necessary.

(c) For the disposal or removal of tree-maintenance residues, see article III, storage and collection, of chapter 22, solid waste, of this Code.
(Ord. No. 04-45, § 13, 2-12-2004)

Sec. 27-58. Education of tree care workers.

(a) The city forester will acquire or develop training materials oriented toward field tree-service crews and their supervisors, on the following topics and others as needed:

(1) Company and public policies, ordinances, etc.;

(2) Tree anatomy and growth;

(3) Tree reactions to injury and decay;

(4) Tree maintenance standards (ANSI Standard A-300);

(5) Safety and aerial rescue (ANSI Standard Z-133); and

(6) Utility pruning techniques.

(b) The city forester shall provide appropriate assistance, as requested by city departments, utility companies, commercial tree-service companies, etc., in the training of crews, supervisors, and other personnel, and may contract with instructors available from outside sources, if needed, with costs shared by agencies requesting the training.
(Ord. No. 04-45, § 14, 2-12-2004)

Secs. 27-59—27-90. Reserved.

ARTICLE III. WEEDS AND OVERGROWN GRASS

Sec. 27-91. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Grass and weed nuisance means any abundance of overgrown grass or weeds within the city, which is injurious to the general health, safety and welfare by providing breeding grounds and shelter for rats, mice, snakes, mosquitoes and other vermin, insects and pests; or attaining such heights and dryness so as to constitute a fire threat or hazard; bearing wingy or downy seeds, when mature, that cause the spread of weeds and, when breathed, irritation to the throat, lungs and eyes of the public; or hiding debris, such as broken glass or metal, which could inflict injury on any person going upon the property; or being unsightly, or any growth of grass or weeds, other than ornamental growth, which exceeds a height of eight inches growing upon any lot or parcel of land within any platted, subdivided, or improved residential, commercial or industrial subdivision, and any growth of grass or weeds, other than ornamental growth, which exceeds a height of 12 inches on property adjacent to a platted, subdivided, or improved residential, commercial or industrial subdivision.

Improved subdivision means a division of a tract of land or acreage into tracts or parcels, and the improvement by construction of streets, water lines and, where applicable, sewer lines to serve the subdivided property.

Natural condition means uncultivated and unseated land, still in a state of nature; but any growth on land once it has been cleared or plowed is not a natural condition, even though it has not been planted or cultivated by anyone.

Owner of property means legal titleholder, or lessee, or occupant of property, or agent of legal titleholder or lessee, in charge, possession or control of the property.
(Ord. No. 86-294, 5-8-1986; Ord. No. 04-948, 12-9-2004; Ord. No. 15-922, § 1, 12-17-2015)

Cross reference—Definitions generally, § 1-2.

Sec. 27-92. Exceptions.

Excepted from the requirements of this article are:

(1) Any property which is in its natural condition. Any growth on land once it has

been cleared or plowed is not a natural condition, even though it has not been planted or cultivated by anyone.

(2) Any property which is located outside any improved subdivision and is located more than 200 feet from any boundary of any lot or parcel of real estate upon which any dwelling is located, and more than 200 feet from any commercial enterprise.

(3) Cultivated row crops and garden plants in their respective growing seasons. But this exception applies only to growing crops and garden plants and shall not be construed to permit any crops or gardens to become overgrown with grass and weeds in violation of the remaining terms of this article.

(4) Ornamental shrubbery and ground cover, provided that such uses are part of a landscaping theme and not associated with a general deterioration of the property.

(Ord. No. 86-294, 5-8-1986)

Sec. 27-93. Overgrown condition prohibited.

It shall be unlawful and a nuisance, in violation of this article, for the owner of any real property situated within the corporate limits of the city to allow such real property to become overgrown with tall grass, or with any weed or plant such as jimson, burdock, ragweed, cocklebur or other weed of like kind, or any weed or plant bearing wingy or downy seeds, or any weed or plant that is otherwise noxious, dangerous, harmful or poisonous.

(Ord. No. 86-294, 5-8-1986)

Sec. 27-94. Maintenance of grass, weeds.

(a) It shall be the duty of the owner of any real property located within the city to maintain any grass or weeds growing upon the property in such a manner as not to constitute a nuisance.

(b) The duties and obligations of the owner of any real property located within the city extend to and include any such real property situated within a dedicated right-of-way or easement burdening the property, except to the extent that it may be impracticable to do so because of public facilities located there. Such rights-of-way and easements must be maintained by the owner in a manner consistent with the maintenance of the owner's remaining property and within the requirements set forth in this article, except to the extent it may be impracticable to do because of public facilities located there.

(Ord. No. 86-294, 5-8-1986)

Sec. 27-95. Maintenance practices of City of Huntsville and of public utilities.

The dedication and existence of a right-of-way for a public road and of an easement for drainage or for public utilities represents the grant of only a limited interest in property and does not change the actual ownership of the property upon which the right-of-way or easement is located. The public authority maintains rights-of-way and easements only to the extent necessary to maintain the public facility and to maintain safety. The owner of the burdened property continues to control the property, except to the extent that such control interferes with the public use. The public authority does not cut grass, weeds and other growth upon rights-of-way or easements, except to the extent necessary for operations and safety purposes. All other maintenance is the responsibility of the owner of the property upon which the right-of-way or easement is located.

(Ord. No. 86-294, 5-8-1986)

Cross reference—Utilities, ch. 26.

Sec. 27-96. Enforcement.

If the owner of real property located within the corporate limits of the city shall fail or refuse to comply with the provisions of this article, the manager of the community development division or other code enforcement officer of the community development division may cause to be served upon such owner, in person or by first class mail, notice requiring such owner to comply with this article within a time stated in the notice, or to appear for an administrative hearing before the manager or other code enforce-

ment officer or officers of the community development division as designated by the manager to determine whether the owner is in violation of this article. The notice shall apprise the owner of the facts of the claims against him and shall name a particular date, time and place for such hearing. The manager and the owner shall have the right to compel attendance of witnesses on his own behalf at such hearing. If after the hearing the manager finds that this article has been violated and a nuisance exists, the owner shall have five days from the hearing date, or five days from the date of notice by personal service or by first class mail, of the manager's determination, whichever is the later date, to comply with this article; otherwise, the manager may thereafter institute the following enforcement procedures:

(1) a. The manager of the community development division may cause the cutting of the offending grass or weeds. The manager shall keep an account of the costs of the cutting of the grass or weeds and shall render an itemized report in writing to the city council, setting forth the costs of cutting the grass or weeds. The owner shall be notified by first class mail at least five days in advance of the time fixed by the manager for the council to receive the report; and the owner may appear at that time and present objections, if any there be, to the report.

b. At the time fixed for receiving and considering the report, the council shall hear the report, together with any objections which may be raised by any of the owners whose property is liable to be assessed for the work and thereupon make such modifications in the report as they deem necessary, after which by motion or resolution the report shall be confirmed. The amounts of the cost for cutting and removing the grass or weeds mentioned in the report shall constitute special assessments against the land and as thus made and confirmed shall constitute a lien on the property for the amount of such assessments, which is to be collected by the city treasurer, or his/her designee, as any other debts are collected or liens enforced.

(2) The manager of the community development division or any enforcement officer working under his supervision may issue a citation to the owner of the property, requiring the owner to appear in the municipal court to answer charges for the violation of this article. Such citation shall name the party charged, the address of the property where the alleged violation is located, and the nature of the offense or violation. It shall also apprise the owner of the date, time and place at which to appear for court. Upon a finding of guilty in the municipal court, the owner is subject to the same penalty as provided for violation of city ordinances in section 1-7. Such citation, returnable to the municipal court shall be served on the owner of the property by any enforcement officer for the community development division, who shall forthwith appear and make oath as to the alleged offense before a magistrate of the municipal court. This provision for the issuance of a citation to municipal court shall not prevent any such officer from appearing before a municipal court magistrate and making oath as to the facts and applying for a summons or warrant with respect to any alleged offense, in lieu of issuing a citation.

(3) The manager of the community development division may institute both enforcement procedures set forth in subsections (1) and (2) of this section. The institution of one procedure does not preclude the subsequent or simultaneous institution of the other procedure, provided the criminal procedure is not used to collect any outstanding civil assessments against the subject property.

(Ord. No. 86-294, 5-8-1986; Ord. No. 23-696, § 1, 9-14-2023)

Cross reference—Weed lien and unsafe building demolition assessment, § 14-4.

Sec. 27-97. Satisfaction of liens.

Upon payment of the itemized accounts arising under this article, any liens or assessments filed under this article may be marked "Satisfied" and "Paid in Full" by the city treasurer or his/her designee.

(Ord. No. 86-294, 5-8-1986; Ord. No. 23-696, § 2, 9-14-2023)

11.6. Conditions on uses.

***Editor's note—**Printed in this appendix is Ord. No. 63-93, as adopted on March 21, 1963, as amended. This appendix is derived from a compiled copy of the ordinance furnished by the city that was current through Ord. No. 95-498, adopted August 24, 1995, and ordinances adopted subsequent thereto. Amendments adopted since August 24, 1995, are indicated by parenthetical history notes following amended provisions. The absence of a history note indicates that the provision remains unchanged from the document adopted on March 21, 1963. Obvious misspellings and punctuation errors have been corrected without notation. For stylistic purposes, headings and catchlines have been made uniform and the same system of capitalization, citation to state statutes and session laws, and expression of numbers in text as appears in the Code of Ordinances has been used. Additions made for clarity are indicated by brackets. At the requests of the city, the titles of city officials have been changed so as to be current through December 31, 1999.

Article 93. Severability

Article 94. Repeal of Existing Zoning Ordinances

Article 95. Effective Date

ARTICLE 1. TITLE, APPLICATION AND INTERPRETATION

1.1. Short title.

This ordinance shall be known and may be cited as "The Zoning Ordinance of the City of Huntsville, Alabama."

1.2. Application of regulations.

The regulations set by this ordinance within each district shall be minimum regulations and shall apply uniformly to each class or kind of structure or land and particularly, except hereinafter provided:

1.2.1. No building, structure, or land shall hereafter be used or occupied, and no building or structure or part thereof shall hereafter be erected, constructed, reconstructed, moved or structurally altered unless in conformity with all of the regulations herein specified for the district in which it is located.

1.2.2. No building or other structure shall hereafter be erected or altered:

1. To exceed the height;
2. To accommodate or house a greater number of families;
3. To occupy a greater percentage of lot area;
4. To have narrower or smaller rear yards, front yards, or side yards;

than herein required or in any other manner contrary to the provisions of this ordinance.

1.2.3. No yard or lot existing at the time of passage of this ordinance shall be reduced in dimension or area below the minimum requirements set forth herein. Yards or lots created after the effective date of this ordinance shall meet at least the minimum requirements established by this ordinance.

1.3. Interpretation, purpose, and conflict.

In their interpretation and application, the provisions of this ordinance shall be considered minimum requirements, adopted for the promotion of the public health, safety, morals, convenience, order, prosperity, and general welfare of the City of Huntsville. Wherever the requirements of this ordinance are at variance with the requirements of any other lawfully adopted rules, regulations or ordinances, the most restrictive or that imposing the higher standards shall govern.

ARTICLE 2. DISTRICTS*

2.1. Establishment of districts.

For the purpose of this ordinance, the area of the City of Huntsville, Alabama, is hereby divided into districts as follows:

Residence 1 district

Residence 1-A district

Residence 1-B district

Residence 1-C district

Residence 2 district

Residence 2-A district

Residence 2-B district

Residence 2-C district

Neighborhood business C-1 district

Neighborhood business C-1A district

Neighborhood business C-2 district

General business C-3 district

Highway business C-4 district

Commercial recreation C-5 district

Central business C-B district

Light industry district

Heavy industry district

Planned industrial district

Airport industrial park district

Commercial industrial park district

Heavy manufacturing district

Industrial park district

(Ord. No. 98-260, § 1, 5-14-1998; Ord. No. 99-206, § 1, 4-8-1999; Ord. No. 05-860, § 1, Ord. No. 11-22-2005; Ord. No. 06-732, § 1, 9-28-2006; Ord. No. 06-1201, § 1, 1-25-2007)

State law reference—Districts authorized, Code of Ala. 1975, § 11-52-70)

2.2. Provision for official zoning maps.

The boundaries and designations of the districts provided for herein are hereby established as shown on the maps identified by the title, "City of Huntsville, Alabama, Zoning Maps," which maps shall be further identified by the numbers and effective dates of the adopting and amending ordinances.

The official ordinances defining district boundaries and bearing the signature of the Mayor of the City of Huntsville shall be on file in the office of the city clerk-treasurer. The official zoning maps shall be on file in the planning office.

2.3. District boundaries defined.

Unless otherwise specifically shown on the Official Zoning Maps of the City of Huntsville, the boundaries of districts are lot lines, the centerlines of streets or alleys or such lines extended, railroad rights-of-way, natural boundary lines such as natural or artificial watercourses, the corporate limit lines as existed at the time of enactment or amendment of this ordinance.

Questions concerning the exact location of district boundary lines shall be decided by the board of adjustment constituted as provided in article 92 hereof.

ARTICLE 3. DEFINITIONS

Except where specifically defined herein, all words used in this ordinance shall carry their customary meanings. Words used in the present tense include the future; and the plural number includes the singular, and the singular the plural. The word "shall" is mandatory, the word "may" is permissive. The word "lot" includes the word "plot" or "parcel." The word "person" includes a firm, association, organization, partnership, trust company, or corporation, as well as an individual. The word "building" includes the word "structure"; the term "occupied" or "used" shall be considered as though followed by the words "or intended, arranged, or designed to be used or occupied."

3.1. Interpretation.

For the purpose of this ordinance, certain terms or words shall be interpreted as follows:

Accessory structure. A supplementary structure detached from a principal building on the same lot and customarily incidental and subordinate to the principal building or use, containing no plumbing facilities other than one laundry sink and/or one toilet, and meeting the requirements of section 73.8 with the exception that plumbing facilities may be allowed in an accessory structure that is used as a bathhouse in conjunction with a swimming pool, provided such bathhouse does not exceed 180 square feet in area.

Accessory use. See section 73.1.1 in supplementary regulations hereof.

Alley. A public thoroughfare having a narrow right-of-way and affording a secondary means of access to abutting properties.

Antenna. A device used to transmit and/or receive radio frequency signals.

Apartment. See dwelling, multiple-family.

Area, building. Total building area is the area of the lot covered by all buildings, principal and accessory, but not including the ordinary projections of window sills, belt courses, cornices, eaves, chimneys and other architectural features provided that such features shall not project more than two feet from the building.

Assisted living facility. A system of housing and limited care that is designed for those who need some assistance with daily activities but do not require care in a nursing home.

Basement. A story partly underground, but having at least one-half of its height above the average level of the adjoining ground.

Bearing capacity. The safety factor for bearing capacity applies to all structures that have a foundation. A soilbearing capacity is defined as the amount of load a soil can carry without experiencing a shear failure. A minimum safety factor of 3.0 is commonly recommended for bearing capacity.

Bed and breakfast. A bed and breakfast is a single-family dwelling operated as a transient lodging facility by a resident of the dwelling which provides overnight accommodations and morning meals to overnight guests for compensation.

Boarding house. A boarding house is a building, other than a hotel, motel, or bed and breakfast, where, for compensation, individual rooms and board (meals) are provided by a resident or non-resident landlord/operator for up to ten (10) transient or non-transient, related or unrelated individuals, and in which the boarders share common areas, and where the landlord/operator may supply some services such as laundry and cleaning services.

Broadcast services. The transmission of television and radio programming to reach the general public. For the purposes of this ordinance, towers supporting VHF and UHF television and FM radio transmitting antennas shall be regulated as broadcast towers as shall any other towers that require an elevated site to broadcast programming to the general public. AM radio broadcast towers, which do not require elevated sites, exceptionally tall towers or line of sight transmission, shall be regulated as for mobile and fixed point radio service towers.

Buffer of screen planting. A strip of land not less than 15 feet wide containing plant materials planted and maintained as follows:

One tree per 15 linear feet of length of said strip, no less than 60 percent of which shall be of an evergreen screening tree species, as defined herein, with the remainder of the required trees being deciduous trees, 50 percent of which shall be deciduous screening trees, as defined herein, with no single species constituting more than one-third of the total required trees; as well as, two screening shrubs, as defined herein, per five linear feet of said strip, a minimum of which 60 percent shall be evergreen, however, in no case shall any one species constitute more than one-third of the total number of required shrubs; as well as, grass, permanent mulch beds, or other permanent vegetative ground cover on all parts of each screen planting strip. All required plants shall be arranged in such a manner so as to provide a variety of plant materials, locations, and spacing with the intent of achieving the greatest degree of screening practical. Additional plants may be planted within the strip provided the minimum screening requirements as listed above are met. Existing vegetation may be credited in lieu of the required planting provided the existing vegetation is identified by species, size and condition on an approved landscape plan, and provided that the existing vegetation provides a degree of screening that meets or exceeds that which would be provided by the required planting.

A *screening shrub* shall be a locally adapted species of a type capable of reaching a minimum height of five feet and a minimum spread of

five feet within three years of planting. All such shrubs shall be a minimum 24 inches in height and spread at time of installation.

A *screening tree* shall be any deciduous or evergreen tree whose mature height can be expected to exceed 35 feet, and which has an expected crown spread of 20 feet or more. Deciduous screening trees shall be at least ten feet in height and two inches in diameter measured at one-half foot above grade for newly planted trees at the time of planting, or two inches in diameter measured 4½ feet above grade if existing. Evergreen screening trees shall be at least six feet in height and three feet in crown width at the time of planting, or two inches in diameter measured at 4½ feet above grade if existing. However, in no case shall any tree required herein be of a height of less than six feet, or of a crown width of less than three feet at the time of planting.

In the case where there is an easement on the property in the area where the buffer of screen planting is required and said easement prevents the planting of landscape materials as required in the buffer of screen planting, then the required buffer of screen planting shall be located outside of and alongside the easement and shall meet the full requirements of the buffer of screen planting.

In the case where there are overhead utility lines located within 15 feet of the boundary of the required buffer of screen planting, the required screening trees shall be replaced by tree species with an expected mature height of no less than ten feet, and no greater than 20 feet; however, no less than 60 of the required trees, in such cases, shall be evergreen, and no single species shall constitute more than one-third of the required trees.

A *shade tree* shall be any deciduous or evergreen tree whose mature height of its species can be expected to exceed 35 feet and which has an expected crown spread of 30 feet or more and is considered a shade tree in accordance with American Standards of Nursery Stock, set forth by the American Association of Nurserymen. The shade tree, existing or planted, shall be at least eight feet in height and two inches in diameter measured at one-half foot above grade for new planted trees and measured 4½ feet above grade for existing trees.

Buildable area. The buildable area is the portion of the lot remaining after required yards have been provided. Buildings may be placed in any part of the buildable area, but limitations on total building area as a percent of lot area may require open space within the buildable area.

Building. Any structure having a roof supported by columns or by walls.

Building height. The vertical distance measured from the average elevation of the proposed finished grade at the front of the building to the highest point of the roof for flat roofs, to the deck line of mansard roofs, and the mean height between eaves and ridge for gable, hip and gambrel roofs.

Building line. A line showing the nearest distance to the street property lines that it is permissible to build a structure as permitted by this ordinance.

Child care center. A facility licensed by the Alabama Department of Human Resources that provides for the care of 13 or more children.

Child care home. A child care facility which is a family home, which receives on a regular basis not more than six children for care during part of the 24-hour day, and which is licensed and regulated by the Alabama Department of Human Resources.

Commercial mobile radio services. Encompasses those mobile services that are operated for profit, are connected to a telephone exchange network, and are available to the general public; includes services such as cellular telephone, personal communication services (PCS), specialized mobile radio (SMR), and paging.

Convenience store. A small scale retail store that offers for sale a limited line of groceries and household items and may also sell gasoline.

Court. A court is an uncovered outdoor space enclosed on two or more sides by exterior walls of

buildings on the same lot. Courts need not be based at or near grade level, depending on their function in buildings, but where a court is overlooked by residential occupancies, limitations on occupancy from the surface of the required court upward shall be as provided for in [the term] "yard," below.

Coverage. That percentage of the lot area covered by the building area.

Day care home. See child care home.

DBS. Direct broadcast satellite services; a satellite system with sufficient power to allow small earth stations to be used for reception of compressed video signals.

Dog kennel. A structure used for the harboring of more than three dogs that are more than six months old.

Domicile. A family's true, fixed, sole, and permanent home and place of habitation.

Dwelling. Any building or portion thereof which is principally used solely as a residence for a family.

Dwelling, multiple-family. Three or more dwelling units on a single lot.

Dwelling, single-family. One detached or semi-detached dwelling unit on a single lot.

Dwelling, two family. Two dwelling units on a single lot.

Dwelling unit. A dwelling used as a separate residence for one family with its own permanent facilities for living, sleeping, eating, cooking, and sanitation.

Earth station. A facility that transmits and/or receives radio signals to and/or from a satellite.

Enclosed mall shopping center. A single structure composed of buildings or groups of buildings connected by a covered mall and designed primarily for mercantile use with multiple tenants.

Expected future use. The land use that is anticipated to be appropriate for a site after reclamation has been completed.

Expressway. A multi-lane divided highway for through traffic with full control of access and with grade separations at street intersections.

Extraction activities. All functions, work, and activities in connection with the development or extraction of mineral deposits, and all uses reasonably incidental thereto, including but not limited to the construction of roads and other means of access, pipelines, electric power lines, storage facilities, structures, processing equipment, and recirculating water systems, but not including chemical processing plants. The definition of extraction activities also includes all preextraction activities, which are those activities involving physical alteration of the earth that are necessary before the actual extraction process can begin, and includes clearing and grading, but excludes site surveying, coring, mapping, and other functions necessary solely for proper planning and evaluation of the site.

Extraction site. All that land owned, leased or controlled for the primary purpose of conducting extraction activities to include but not be limited to all surface areas from which minerals are removed or are to be removed in the future, related storage and processing areas, and areas disturbed by extraction activities such as the construction or improvement of roads.

FAA. Federal Aviation Administration.

Family. A family consists of:

(i) An individual living alone as a single housekeeping unit;

(ii) Any number of related individuals who are connected by the following established and verifiable relations: blood within the fourth degree of consanguinity (first cousins), marriage, adoption, foster care, or guardianship, and who are living together as a single housekeeping unit;

(iii) Two unrelated individuals in a domestic relationship who have made a commitment to share their lives and where each party is responsible for the basic material needs of the other, along with their respective relations who are connected by the following established and verifiable relations: blood within the fourth

degree of consanguinity, marriage, adoption, foster care, or guardianship, and who are living together as a single housekeeping unit; or

(iv) Up to four unrelated individuals living together as a single housekeeping unit.

Farmers market. A market conducted outdoors or in an unenclosed shelter where retail sales and demonstration of home-grown products, including produce, ornamental crops, meat, eggs and other agricultural products; homemade value added products, including baked goods, jams and jellies, pickles and relish, dried fruits, syrups and honey; and handmade arts, crafts, and unique local goods are conducted by the vendor engaged in the production of such products. The term does not include the sale or demonstration of mass produced items, used clothing, appliances, and other similar products.

FCC. Federal Communications Commission.

Fixed point radio services. Encompasses nonmobile common carriers and multipoint distribution service operations that require fixed transmitting and receiving facilities, such as fixed point microwave and multipoint multichannel distribution services (MMDS).

Food court. A common space adjacent to food vendors within an enclosed shopping mall designed and furnished for the convenience of diners.

Food kiosk. A non-motorized pushcart or stand designed to be portable and not permanently attached to the ground from which prepared food or beverages are peddled, vended, sold, displayed, offered for sale, or given away.

Garage, private. An accessory structure used for storage purposes only and having a capacity of not more than three automobiles, or not more than two automobiles per family housed in the building to which the garage is accessory, whichever is greater.

Garage, repair. Any garage other than a private garage, available to the public, operated for gain, and which is used for storage, repair, rental, greasing, washing, servicing, adjusting or equipping of automobiles, or other motor vehicles.

Gravel pit. A site from which gravel is removed or excavated for the purpose of disposition away from the immediate premises whether such disposition is immediate or in the future.

Group child care home. A child care facility which is a family home, which receives on a regular basis at least seven but no more than 12 children for care during part of the 24-hour day, which has at least two adults present and supervising the activities, and which is licensed and regulated by the Alabama Department of Human Resources.

Group day care home. See group child care home.

Group nighttime home. See group child care home.

Health officer. Huntsville-Madison County Health Officer or his duly authorized assistant.

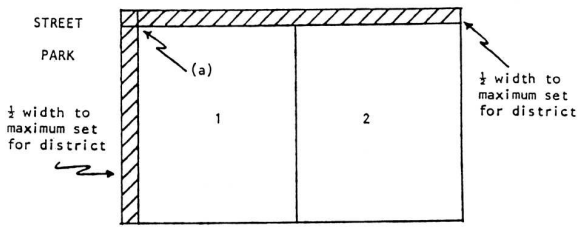
Heliport (commercial). An area, either at ground level or elevated on a structure, that is used for the frequent landing and takeoff of helicopters, whose surface of the heliport be [is] of such material that dust, dirt, or other objectional matter will not be blown onto adjoining property by helicopter operations, which heliport may or may not contain all or part of such auxiliary facilities as waiting rooms, hangers, parking, fueling, and maintenance areas.

Hotel. A building or group of buildings used by transient guests and containing no cooking facilities in the individual units.

House trailer. Any structure intended for or capable of human habitation, mounted upon wheels and capable of being driven, propelled, or towed from place to place without change in structure, or design by whatsoever name it is colloquially or commercially known; and regardless of whether or not its wheels are removed and the structure is fixed to a permanent foundation.

Hydrologic. Dealing with the properties, distribution and circulation of water on the surface of the land, in the soil and underlying rocks, and in the atmosphere.

Kitchenette. A facility designed and intended for storing and preparing food for limited use for transient guests. Such kitchenette shall be limited to six linear feet of counter space containing a stove having not more than three eyes, a sink, and a refrigerator having a volume of not more than 4.5 cubic feet. Overhead cabinets shall not exceed six linear feet in length.



Launderette. A business premises equipped with individual clothes washing machines for the use of retail customers.

Lot. A lot is a parcel of land. For the regulatory purposes of this ordinance a lot may consist of a single lot of record, a portion of a lot of record, combinations of adjacent individual lots and/or portions of lots, or a parcel described by metes and bounds, provided that in no case of division or combination by private action shall any residual lot be created which does not meet the requirements of this ordinance and other applicable regulations.

Lot, area. Lot areas shall be computed as follows:

(1) Net area of a regular lot shall be computed as total area within its boundaries.

(2) Gross area of a regular lot shall be computed as net area plus half of adjoining permanent open space, such as streets, parks, floodplains or slopes on which building is prohibited, or lands dedicated or covenanted to remain in permanent open space, up to a maximum specified for the district. Where such permanent open space adjoins a lot on two or more adjacent sides, the area thus added shall include the area required to complete the gap otherwise left at the intersection, as indicated at (a) below:

Street Park

The gross area of lot 1 is thus the area within its boundaries plus the hatched areas at the top and side, including the small rectangle marked (a).

Major arterial. A street or highway of great continuity designed to accommodate the highest traffic volumes and longest trip desires. Major arterials are defined and designated in the major street plan.

Major collector. A street of reasonable continuity that channels traffic between arterials and from other collector streets to the arterial system. Major collectors are defined and designated in the major street plan.

Major repair work. Any work on a motorized vehicle, including, but not limited to, major mechanical and body work, straightening of body parts, painting, welding, storage of automobiles not in operating condition or other work involving noise, glare, fumes, smoke or vibration.

Major street plan. The latest adopted major street plan of the City of Huntsville as it may be from time to time amended.

Mineral. Any substance, organic or inorganic, found in nature as part of the earth and having sufficient value away from its natural location to be mined, quarried, or dug for its own sake or for its own specific use.

Minor arterial. A street or highway of considerable continuity interconnecting with and augmenting the principal arterial system and providing service to moderate length trips at a somewhat lower level of mobility. Minor arterials are defined and designated in the major street plan.

Minor collector. A street that carries traffic from a number of local streets to the major collector/arterial system, between other collectors, and from activity centers to a street of higher classification. Minor collectors are defined and designated in the major street plan.

MMDS. Multichannel multipoint distribution services (also called wireless cable).

Mobile food vending site. A collection of mobile food vending units clustered together on a single lot or parcel of land under common ownership or control.

Mobile food vending unit. A trailer or motorized vehicle designed to be portable and not permanently attached to the ground from which only prepared food or beverages are peddled, vended, sold, displayed, offered for sale, or given away.

Mobile radio services. A radio communication service that operates between mobile and fixed stations or between mobile stations. Mobile radio includes personal wireless services and private mobile radio services.

Motel. A building or group of buildings used by transient guests.

Nighttime home. See child care home.

Nursery school. A school designed to provide daytime care or instruction for two or more children from two to five years of age inclusive.

Offices. Space or rooms used for professional, administrative, clerical, and other similar uses.

Parking space. An off-street space, enclosed or unenclosed, containing not less than 180 square feet of area exclusive of driveways appurtenant thereto, permanently reserved for the temporary storage of one motor vehicle and connected without obstruction to a street or alley by a driveway.

PCS. Personal communications services.

Performing arts center. A facility for the presentation of the performing arts, including indoor live performances, and indoor and outdoor concert halls.

Permanent building. A building erected with the required footings and supported on a perimeter foundation, piers or slab; connected to all required utilities; and meeting all applicable building codes.

Personal use tower. A tower or must supporting only those antennas used for amateur radio service, non-commercial citizens band, short wave listening, residential TV and/or radio broadcast reception or other personal radio enthusiast or public service purposes, which are used entirely on a non-revenue-producing basis.

Personal wireless services. Includes commercial mobile services, unlicensed wireless services, and common carrier wireless exchange access services as defined by the Federal Communications Commission.

Photovoltaic solar energy production facility. Consists of one or more freestanding ground, pole, or roof mounted solar collector devices, solar related equipment and other accessory structures and buildings including substations, electrical infrastructure, transmission lines and other appurtenant structures and facilities.

Portable storage structure. A transportable storage structure that is designed and used primarily for the storage of household goods, personal items and other materials for use on a limited basis on residential property. Such structures are uniquely designed for their ease of loading to and from a transport vehicle. For the purposes of this ordinance, the trailer portion of a tractor trailer, boxcars and shipping containers shall also be considered portable storage structures when expressly used for the purposes of on-site storage in residential districts.

Portable tower, mobile tower or truck-mounted tower. Towers designed to be portable, whether or not the facility of which they are a part is permanently affixed to the ground, a building, or other permanent structure and utilized to supplement the service of a personal wireless service provider on a temporary basis.

Private accessway. A private vehicular thoroughfare permanently reserved in order to provide a means of access to more than one zoning lot, all having frontage on a public or private street.

Private mobile radio services. Includes mobile radio services such as two-way radio used by public safety, special emergency, land transportation, and industrial radio service users.

Quarry. An extraction operation in which rock, stone or any mineral other than sand, gravel and soil is removed or excavated for the purpose of disposition away from the immediate premises whether such disposition is immediate or in the future.

Radio. Generic term referring to the communication of impulses, sounds and pictures through space by means of electromagnetic waves.

Reclamation. The reconditioning or rehabilitation of land used for an extraction activity to make it suitable for the expected future use.

Residence. A residence is: (1) a domicile; or (2) a family's place of habitation for a period of 180 continuous days or more. This term does not include transient occupancy. Related terms, including, but not limited to, the terms reside, residing, resident, and residential, shall have meanings consistent with the term residence.

Rooming house. A rooming house is a building where, for compensation, individual rooms are provided by a resident or non-resident landlord/operator for up to ten (10) transient or non-transient, related or unrelated individuals, and in which the roomers share common areas, and where the landlord/operator may supply some services such as laundry and cleaning services.

Sand pit. A site from which sand is removed or excavated for the purpose of disposition away from the immediate premises whether such disposition is immediate or in the future.

Seating capacity. Number of seats or occupancy permitted in any area as established by the Huntsville Bureau of Fire Prevention in accordance with relevant safety codes.

Sign. See article 72, sign control regulations.

Single housekeeping unit. A single housekeeping unit is a household consisting of a non-transient individual, or a non-transient interactive group of individuals jointly occupying an abode, including joint access to and use of all common living areas, including living, kitchen, and eating areas within the abode. A single housekeeping unit may also be comprised of domestic servants; one professional caregiver at any one time; and gratuitous, temporary guests of a resident. The term does not include transients, occupants of a boarding house or rooming house, or occupants that act as separate roomers or boarders.

Soil pit. A site where dirt or soil is removed below the grade of surrounding land for any purpose other than that necessary for and incidental to site grading or building construction.

Stability. The safety factor for stability is the sum of the forces which resist downslope movement divided by the sum of the forces which would cause downslope movement. For stability a value of unity (1.0) represents static equilibrium, and any value less than 1.0 represents failure. A minimum safety factor of 1.5 is commonly recommended for stability.

Story. That portion of a building included between the surface of any floor and the surface of the floor next above it, or if there be no floor above it, then the space between any floor and the ceiling next above it.

Story, half. A top floor in which the floor area with eight feet or more of head clearance is less than 50 percent of the floor area of the story next below.

Street. Any public or private way set aside for common travel more than 21 feet in width if such existed at the time of enactment of this ordinance, or such right-of-way 40 feet or more in width if established thereafter.

Street frontage. All the property on one side of a street between two intersecting streets (crossing or terminating), or if the street is dead ended, then all of the property abutting on one side between an intersecting street and the dead end of the street. In no case shall this definition be construed to mean or include any portion of a dead end street which is perpendicular to the centerline of the street. For the purpose of this definition, a cul-de-sac is not considered a dead end street.

Structure. Any combination of materials, including buildings, constructed or erected, the use of which requires location on the ground or attachment to anything having location on the ground, including among other things, signs, billboards, and fences, but not including telephone poles and overhead wires, fences less than three feet high, retaining walls or terraces.

Subdivision regulations. Subdivision Regulations of the City of Huntsville adopted September 29, 1949, or as may be revised or amended from time to time.

Swimming pools, private. Permanent or semipermanent pools accessory to residential uses; this does not include portable plastic wading pools.

Total floor area. The area of all floors of a building including finished attics and basements when considered as a story under the terms of this ordinance.

Tourist home. A dwelling in a residential district in which the permitted area for business use under this ordinance consists of rooms for the accommodations of paying transient guests.

Trailer camp. Any site, lot, field, or tract of land privately or publicly owned or operated, upon which two or more house trailers used for living, eating, or sleeping quarters are located; such establishments being open and designated to the public as places where temporary residential accommodations are available, whether operated for or without compensation, by whatsoever name or title they are colloquially or commercially termed.

Trailer regulations. Madison County Regulations governing the construction, equipment, and operations of trailer camps adopted and approved August 25, 1966, as the same may be amended.

Transient. The term transient means an individual or family who is temporarily boarding, rooming, lodging, or otherwise staying in a place for a period of less than 180 continuous days. Where there is a legal arrangement, including a lease, that purports to have a term of 180 continuous days or more, but which has been negotiated to allow or allows for a shorter term in an attempt to evade the length-of-stay requirement, the individual or family shall nevertheless be treated as being engaged in a transient stay.

Transmitter. Equipment that generates radio signals for transmission via antenna.

TVBS. Television broadcast station.

Use. The purpose for which land, or a building or other structure is designed, arranged, or intended, or for which it is or may be occupied or maintained.

Variance. A variance is a relaxation of the terms of the Zoning Ordinance where such variance will not be contrary to the public interest and where, owing to the conditions peculiar to the property and not the result of the action of the applicant, a literal enforcement of the ordinance would result in unnecessary and undue hardship. As used in this ordinance, a variance is authorized only for height, area, and size of structure, or size of yards and open spaces; establishment or expansion of a use otherwise prohibited shall not be allowed by variance, nor shall a variance be granted because of the presence of non-conformities in the zoning district or adjoining zoning districts. (63-93)

Wireless telecommunications. Any transmission or reception of signs, signals, writing, images, sounds, and/or data of any nature by means of the electromagnetic spectrum. Wireless telecommunications include but are not limited to cellular telephone, personal communication services (PCS), commercial and private mobile radio, paging, public safety, fixed point microwave, amateur radio, radio and television broadcasting, satellite services such as direct broadcast satellite (DBS), and multichannel multipoint distribution services (MMDS).

Wireless telecommunications tower. A structure, such as a self-supporting lattice tower, a guyed tower, or a monopole, designed and constructed primarily for the purpose of supporting one or more antennas, which may include accessory facilities necessary for equipment storage and unmanned operations.

Yard. A yard is an open space other than a court, unoccupied and unobstructed by any structure or portion of a structure from 36 inches above the general ground level of the graded lot upward (except as otherwise provided by these regulations); provided, however, that fences and walls may be permitted in any yard subject to any height limitations established herein, and further provided that poles, posts, and other customary yard accessories, ornaments and furniture shall be permitted in any required yard if they do not constitute substantial impediments to [the] free flow of light and air across the yard to adjoining properties.

Ordinary projections of window sills, belt courses, chimneys, cornices, eaves and similar architectural features, and air conditioners or similar appliances, shall not project more than two feet into any required yard, and no support for a roof shall be based in any required yard.

Yard, front. A yard extending across the front of a lot between the side lot lines. Corner lots have two front yards, as described in section 73.7 hereof. Front yards are measured at the building line.

Yard, rear. A yard extending across the rear of a lot between the side lot lines. The rear yard shall be to the rear of the front yard, as described in section 73.7 hereof.

Yard, side. A yard between the main building and the side lot line and extending from the required front yard to the required rear yard, as described in section 73.7 hereof.
(Ord. No. 96-1008, § 1, 1-23-1997; Ord. No. 97-512, § 1, 8-14-1997; Ord. No. 98-104, § 1, 3-26-1998; Ord. No. 98-689, § 1, 10-1-1998; Ord. No. 99-206, § 2, 4-8-1999; Ord. No. 01-732, § 1, 10-25-2001; Ord. No. 03-593, § 1, 8-14-2003; Ord. No. 05-013, § 1, 2-10-2005; ; Ord. No. 06-730, § 1, 10-12-2006; Ord. No. 06-826, § 1, 10-26-2006; Ord. No. 06-1203, § 1, 1-25-2007; Ord. No. 07-401, § 1, 6-14-2007; Ord. No. 08-529, § 1, 8-14-2008; Ord. No. 11-11, § 3, 2-24-2011; Ord. No. 11-899, § 1, 1-26-2012; Ord. No. 12-466, § 1, 8-23-2012; Ord. No. 13-882, § 1, 12-19-2013; Ord. No. 14-576, § 1, 9-25-2014; Ord. No. 15-406, § 1, 7-23-2015; Ord. No. 21-46, § 2(a), 2-25-2021; Ord. No. 24-289, §§ 1, 2, 5-23-2024; Ord. No. 25-267, §§ 1, 2, 6-12-2025)

CHAPTER I. RESIDENCE DISTRICT REGULATIONS

ARTICLE 10. RESIDENCE 1 DISTRICT REGULATIONS

Within a residence 1 district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

10.1. Uses permitted.

Land and buildings shall be used only for the following uses:

Single-family dwellings.

Agricultural uses, provided no sales are made on the premises; and gardens customary to residential occupancy and buildings incidental thereto, but not including commercial animal or poultry farms or kennels.

Municipal, county, state or federal use, including publicly owned or operated schools, libraries, museums, and art galleries.

Churches and similar places of worship.

Accessory structures.

Accessory uses as defined and regulated by section 73.1.1 hereof.

Church bulletin board that does not exceed 12 square feet in area.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.
(Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 21-46, § 1(Exh. A, § B.1.), 2-25-2021)

10.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in article 73:

10.2.1. Minimum required lot area: 15,000 square feet

10.2.2. Minimum required lot width: 100 feet

10.2.3. Minimum required lot frontage: 20 feet

10.2.4. Minimum required depth of front yard:

From major arterials *(See Section 73.15)*: 50 feet

From other streets: 40 feet

For homes built prior to the adoption of this section, newly constructed front porches may encroach on the front yard setback by a maximum of five feet. For the purposes of Residence 1 District regulations and restrictions, a "front porch" shall mean a roofed one-story open structure projecting from and structurally connected to the front of the residence. The front porch shall not be enclosed by glass, wood, siding, screening or other material.

10.2.5. Minimum required depth of rear yard: 45 feet

10.2.6. Minimum required width of each side yard: 15 feet

10.2.7. Maximum total building area: 35 percent of total lot area

10.2.8. Maximum stories: 2½

10.2.9. Maximum height: 35 feet

(Ord. No. 07-109, § 1, 3-22-2007; Ord. No. 12-583, § 1, 8-23-2012)

10.3. Off-street parking requirements.

Required off-street parking spaces shall be provided as set forth in article 70 hereof.

10.4. Private streets; private subdivisions.

Developments may be approved abutting upon private streets provided the following standards are observed:

10.4.1. Private streets and private subdivisions must be designed and constructed prior to final approval to the same standards required for design and construction of public streets and public subdivisions, and must provide adequate access to the public authority for police and fire protection, public utilities, and other public services.

10.4.2. Density. Dwelling units shall not exceed requirements for development with public streets.

10.4.3. Adequate provision must be made, as shown on the approved plan, for maintenance of private streets, private accessways and common areas to the standard practiced in the city for maintenance of public streets and areas by use of a homeowners association or other agreement approved by the city attorney.

10.4.4. Adequate provision must be made, noted upon the approved plan, and recorded in the office of judge of probate, for the dedication of any private streets which in the determination of the governing body of the city may in the future be required to provide adequate public access for adjacent or other property. Each private subdivision shall exhibit a self-contained street pattern with no more than two ways in or out.

10.4.5. No private street shall be permitted if such street is shown on the major street plan of the City of Huntsville Planning Commission.

10.4.6. No development shall be permitted and no permit shall be issued therefor for development abutting upon a private street or streets except in accordance with a plan approved by the Huntsville Planning Commission and the governing body of the city, the approval by each to be preceded by a public hearing similar in all respects to public hearings required for public subdivisions, and in accordance with such conditions as may be required by the Huntsville Planning Commission and the governing body of the city to ensure that the purpose, intent, and spirit of the city plan is observed.

10.4.7. The above regulations governing development along private streets and in private subdivisions shall be permitted for single-family detached development within

Residence 1, 1-A, 1-B, 1-C, 2, 2-A, 2-B and 2-C districts and for single-family attached developments within Residence 2 and 2-A districts.

(Ord. No. 99-206, § 3, 4-8-1999; Ord. No. 07-460, § 1, 6-28-2007)

10.5. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 99-206, § 3, 4-8-1999; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

10.6. Second kitchens.

10.6.1. A property owner shall be permitted to construct a second kitchen in a single-family detached dwelling, if the property is, and will be, in compliance with the zoning regulations and does not require a variance for installation of the second kitchen.

10.6.2. A second kitchen shall be located within the dwelling and shall share at least one common interior wall with and be directly accessible from the living areas of the dwelling and shall not be separated from the living areas by an exterior connection or by a nonhabitable space, such as a garage or breezeway.

10.6.3. No kitchen shall be permitted in a detached accessory structure on a single-family lot nor in a structure physically attached to the dwelling but separated from it by a garage, breezeway, porch or any other nonhabitable space.

10.6.4. A second kitchen shall not be permitted in a single-family dwelling having roomers or boarders as regulated by section 73.1.1.

10.6.5. Users of the second kitchen must be family members or temporary guests of the property owner, and the property owner must occupy the dwelling as his/her legal residence. A family member in the context of this section shall include only individuals related by blood, marriage or law. A temporary guest is one who maintains a legal residence elsewhere. The property owner shall not receive any rent or other remuneration from temporary guests.

10.6.6. A second kitchen shall be served by the dwelling's utility connections. There shall be no separate meters.

10.6.7. A single-family dwelling having two kitchens shall not be permitted to operate a home occupation that is in any way dependent upon the presence of the second kitchen.

10.6.8. A single-family dwelling having two kitchens shall not give evidence of such by having two mailboxes or two addresses.

10.6.9. A single-family dwelling having two kitchens in a single-family zoning district shall not be used as rental property, and it shall be the responsibility of the owner, when selling such property, to inform any prospective purchaser of this attached condition. If the property is to be used as rental property, then all facilities accommodating the second kitchen shall be removed prior to rental. If a property is found to be operating in violation of this section, then the second kitchen shall be immediately dismantled at the owners' expense.

10.6.10. The zoning administrator shall maintain a record of all single-family dwellings having two kitchens in a single-family zone.

10.6.11. These regulations governing the installation of second kitchens in single-family detached dwellings shall apply in residence 1, 1-A, 1-B and 1-C districts.

(Ord. No. 01-732, § 2, 10-25-2001; Ord. No. 07-460, § 1, 6-28-2007)

10.7. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.

(Ord. No. 08-429, § 1, 6-26-2008; Ord. No. 15-758, § 1, 11-19-2015; Ord. No. 25-157, § 2, 4-24-2025)

ARTICLE 11. RESIDENCE 1-A DISTRICT REGULATIONS

Within a residence 1-A district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

11.1. Uses permitted.

Land and buildings shall be used only for the uses permitted in section 10.1 hereof.

11.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in article 73 hereof:

11.2.1. Minimum required lot area: 12,000 square feet

11.2.2. Minimum required lot width: 75 feet

11.2.3. Minimum required lot frontage: 20 feet

11.2.4. Minimum required depth of front yard:

From major arterials *(See Section 73.15)*: 50 feet

From other streets: 35 feet

For homes built prior to the adoption of this section, newly constructed front porches may encroach on the front yard setback by a maximum of five feet. For the purposes of Residence 1-A District regulations and restrictions, a "front porch" shall mean a roofed one-story open structure projecting from and structurally connected to the front of the residence. The front porch shall not be enclosed by glass, wood, siding, screening or other material.

11.2.5. Minimum required depth of rear yard: 40 feet

11.2.6. Minimum required width of each side yard:

Main building 1 to 1½ stories in height: 10 feet

Main building 2 to 2½ stories in height: 12 feet

11.2.7. Maximum total building area: 35 percent of total lot area

11.2.8. Maximum stories: 2½

11.2.9. Maximum height: 35 feet

(Ord. No. 07-109, § 2, 3-22-2007; Ord. No. 12-583, § 2, 8-23-2012)

11.3. Off-street parking requirements.

Required off-street parking spaces shall be provided as set forth in article 70 hereof.

11.4. Private streets; private subdivisions.

See section 10.4.

11.5. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

11.6. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.

(Ord. No. 08-429, § 2, 6-26-2008; Ord. No. 15-758, § 2, 11-19-2015; Ord. No. 25-157, § 3, 4-24-2025)

ARTICLE 12. RESIDENCE 1-B DISTRICT REGULATIONS

Within a residence 1-B district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

12.1. Uses permitted.

Land and buildings shall be used only for the uses permitted in section 10.1 hereof.

12.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in article 73 hereof:

12.2.1. Minimum required lot area: 7,500 square feet

12.2.2. Minimum required lot width: 60 feet

12.2.3. Minimum required lot frontage: 20 feet

12.2.4. Minimum required depth of front yard:

From major arterials *(See Section 73.15)*: 50 feet

From other streets: 30 feet

For homes built prior to the adoption of this section, newly constructed front porches may encroach on the front yard setback by a maximum of five feet. For the purposes of Residence 1-B District regulations and restrictions, a "front porch" shall mean a roofed one-story open structure projecting from and structurally connected to the front of the residence. The front porch shall not be enclosed by glass, wood, siding, screening or other material.

12.2.5. Minimum required depth of rear yard: 35 feet

12.2.6. Minimum required width of each side yard:

Main building 1 to 1½ stories in height: eight feet

Main building 2 to 2½ stories in height: ten feet

12.2.7. Maximum total building area: 40 percent of total lot area

12.2.8. Maximum stories: 2½

12.2.9. Maximum height: 35 feet

(Ord. No. 07-409, § 3, 3-22-2007; Ord. No. 12-583, § 3, 8-23-2012)

12.3. Off-street parking requirements.

Required off-street parking spaces shall be provided as set forth in article 70 hereof.

12.4. Private streets; private subdivisions.

See section 10.4.

12.5. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

12.6. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.

(Ord. No. 08-429, § 3, 6-26-2008; Ord. No. 15-758, § 3, 11-19-2015; Ord. No. 25-157, § 4, 4-24-2025)

ARTICLE 13. RESIDENCE 2 DISTRICT REGULATIONS

Within a residence 2 district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

13.1. Uses permitted.

Land and buildings shall be used only for the following uses:

Uses permitted in section 10.1 hereof.

Two-family dwellings.

Zero lot line dwellings.

Single-family attached dwellings.

Semi-detached dwellings.

Accessory structures and uses.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

(Ord. No. 01-646, 9-13-2001; Ord. No. 09-1053, § 1, 12-17-2009)

13.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in article 73 hereof:

13.2.1. *For single-family dwellings:*

(1) Minimum required lot area: 6,000 square feet

(2) Minimum required lot width: 50 feet

(3) Minimum required lot frontage: 20 feet

(4) Minimum required depth of front yard:

From major arterials (see section 73.15): 50 feet

From other streets: 20 feet

(5) Minimum required depth of rear yard: 25 feet

(6) Minimum required width of each side yard:

Main building one story in height: five feet

Main building two stories in height: six feet

Least sum of widths of both side yards: 14 feet

(7) Maximum total building area: 40 percent of total lot area

(8) Maximum stories: two

(9) Maximum height: 30 feet

13.2.2. *For two-family dwellings:*

(1) Minimum required lot area: 7,500 square feet

(2) Minimum required lot width: 60 feet

(3) Minimum required lot frontage: 20 feet

(4) Minimum required depth of front yard:

From major arterials (see section 73-15): 50 feet

From other streets: 20 feet

(5) Minimum required depth of rear yard: 25 feet

(6) Minimum required width of each side yard:

Main building one story in height: five feet

Main building two stories in height: six feet

Least sum of widths of both side yards: 14 feet

(7) Maximum total building area: 35 percent of total lot area

(8) Maximum stories: two

(9) Maximum height: 30 feet

13.2.3. *Single-family attached dwellings.* Single-family attached dwellings shall not form long unbroken lines of row housing. The planning commission shall determine that the proposed single-family attached dwellings are designed in such a manner as to be in harmony with good land use planning. Single-family attached dwellings shall constitute groupings making efficient, economical, compatible, and convenient use of land and open space and serving the public purposes of zoning by means alternative to conventional arrangements of yards and building areas. Also, front yard parking is prohibited.

(1) Minimum required lot area: 2,200 square feet

(2) Minimum required lot width: 20 feet

(3) Minimum required depth of front yard for each complex shall be 50 feet from a major arterial and ten feet from other public or private streets.

(4) Minimum required width of each side yard (required only at unattached ends of single-family attached dwelling complex): ten feet

(5) Maximum stories: 2½

(6) Maximum height of building: 35 feet

(7) Not less than four or more than eight single-family attached dwellings shall be contiguous. Also, no two contiguous single-family attached dwellings shall be built with the same front line. The required difference in front line shall be a minimum of three feet.

(8) No portion of a single-family attached dwelling or accessory structure in or related to one single-family attached dwelling complex shall be closer than 20 feet to any portion of a single-family attached dwelling or accessory structure related to another single-family attached dwelling complex, or to any building outside the single-family attached dwelling area.

(9) Each single-family attached dwelling shall be constructed on its own lot.

(10) Each single-family attached dwelling shall provide not less than 600 square feet of yard space exclusive of private accessways and off-street parking. If the yard space is divided, one space shall not contain less than 400 square feet of open yard space, and the remaining 200 square feet shall be secluded at ground level from view from streets or neighboring property. Locating the secluded yard space in the required front yard is prohibited.

(11) Off-street parking shall be provided at a minimum rate of two spaces per each single-family attached dwelling.

(12) Any private accessway must be maintained by an association.

13.2.4. *Zero lot line dwellings.* The purpose of zero lot line dwellings is to permit the construction of detached single-family dwellings on lots with a small side yard requirement on one side of the lot. This concept permits better use of the entire lot by compacting the usual front, rear, and side yards into one or more internal gardens which may be completely walled in or screened.

(1) Minimum required lot area: 6,000 square feet

(2) Minimum required lot width: 50 feet

(3) Minimum required lot frontage: 20 feet

(4) Minimum required depth of front yard: 20 feet

(5) Minimum required depth of rear yard: 15 feet

(6) Minimum required width of each side yard:

One side yard of one inch; opposite side yard of 12 feet.

(7) Maximum total building area: 50 percent of total lot area

(8) Maximum stories: two

(9) Maximum height: 30 feet

(10) Off-street parking shall be provided at a minimum rate of two spaces for each dwelling.

(11) Zero lot line dwellings shall be constructed against the lot line on one side of a lot, with the exception of corner lots, and no windows, doors, or other openings shall be permitted on this side. Where adjacent zero lot line dwellings are not constructed against a common lot line, the developer must provide for a perpetual wall maintenance easement of five feet in width along the adjacent lot and parallel with such wall.

13.2.5. *Semi-detached dwellings.* A single-family dwelling attached to one other single-family dwelling by a common vertical wall, with each dwelling located on a separate lot and having separate utilities. The purpose of the semi-detached dwelling is to permit the construction of duplex type housing where each dwelling can be owned in fee simple. Semi-detached dwellings must be constructed

in multiples of two on two contiguous lots, each of which shall meet the following density controls:

(1) Minimum required lot area per dwelling: 4,500 square feet

(2) Minimum required lot width: 30 feet

(3) Minimum required lot frontage: 20 feet

(4) Minimum required depth of front yard:

From major arterials (see section 73.15): 50 feet

From other streets: 20 feet

(5) Minimum required depth of rear yard: 25 feet

(6) Minimum required width of each side yard:

Unattached side: ten feet

Attached side: none

(7) Maximum total building area: 50 percent of total lot area

(8) Maximum stories: two

(9) Maximum height: 30 feet

(10) Minimum number of off-street parking spaces per dwelling: two

(11) The common party wall must be without openings and extend from the cellar floor to the highest point of the roof along the common lot line.

(12) Where a garage door faces the street, the garage shall be set a minimum of five feet behind the front wall of the dwelling.

(Ord. No. 01-646, § 1, 9-13-2001; Ord. No. 07-462, § 1, 6-28-2007)

13.3. Off-street parking requirements.

Required off-street parking spaces shall be provided as set forth in article 70 hereof.

13.4. Private streets; private subdivisions.

See section 10.4.

13.5. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

13.6. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.

(Ord. No. 08-429, § 4, 6-26-2008; Ord. No. 15-758, § 4, 11-19-2015; Ord. No. 25-157, § 5, 4-24-2025)

ARTICLE 14. RESIDENCE 2-A DISTRICT REGULATIONS

Within a residence 2-A district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

14.1. Uses permitted.

Land and buildings shall be used only for the following uses:

Uses permitted in section 10.1 hereof.

Two-family dwellings.

Multiple-family dwellings.

Accessory structures and uses.

Zero lot line dwellings.

Single-family attached dwellings.

Semi-detached dwellings.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

(Ord. No. 01-646, § 2, 9-13-2001; Ord. No. 09-1053, § 1, 12-17-2009)

14.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in articles 73 and 92:

14.2.1. *For single-family dwellings.* The density controls in section 13.2.1 shall apply.

14.2.2. *For two-family dwellings.* The density controls in section 13.2.2 shall apply.

14.2.3. *For multiple-family dwellings containing only one building:*

(1) Minimum required lot area is 8,000 square feet for the first two families; 3,000 square feet for each additional family dwelling unit.

(2) Minimum required lot width: 70 feet

(3) Minimum required lot frontage: 30 feet

(4) Minimum required depth of front yard:

From major arterials (see section 73.15): 50 feet

From other streets: 30 feet

(5) Minimum required depth of rear yard: 35 feet

(6) Minimum required width of each side yard:

Main building 1 to 1½ stories in height: eight feet

Main building two stories in height: ten feet

(7) Maximum total building area: 35 percent of total lot area

(8) Maximum stories: two

(9) Maximum height: 30 feet

14.2.4. *For multiple-family dwellings containing more than one building:* The density controls in section 73.13 shall apply.

14.2.5. *For single-family attached dwellings:* The density controls in section 13.2.3 shall apply.

14.2.6. *For zero lot line dwellings:* The density controls in section 13.2.4 shall apply.

14.2.7. *For semi-detached dwellings:* The density controls in section 13.2.5 shall apply.
(Ord. No. 01-646, § 2, 9-13-2001)

14.3. Off-street parking requirements.

Required off-street parking spaces shall be provided as set forth in article 70 hereof.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 10-507, § 2, 8-26-2010)

14.4. Private streets; private subdivisions.

See section 10.4.

14.5. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

14.6. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.
(Ord. No. 08-429, § 5, 6-26-2008; Ord. No. 15-758, § 5, 11-19-2015; Ord. No. 25-157, § 5, 4-24-2025)

ARTICLE 15. RESIDENCE 2-B DISTRICT REGULATIONS

Within a residence 2-B district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

15.1. Uses permitted.

Land and buildings shall be used only for the following uses:

Hotels, motels, tourist homes, roominghouses, boardinghouses and office buildings.

Kitchenettes in bona fide motels, located on state or federal highways, not to exceed 20 percent of the total number of units.

Multiple-family dwellings.

Semi-detached dwellings.

Two-family dwellings.

Uses permitted in section 10.1 hereof.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Assisted living facilities.

Single-family attached dwellings.
(Ord. No. 01-646, § 3, 9-13-2001; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 14-316, § 1, 6-26-2014; Ord. No. 14-576, § 2, 9-25-2014; Ord. No. 18-446, § 1, 7-26-2018)

15.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in article 73:

15.2.1. *For single-family dwellings:* The density controls in section 13.2.1 shall apply.

15.2.2. *For two-family dwellings:* The density controls in section 13.2.2 shall apply.

15.2.3. *For multiple-family dwellings containing only one building:*

(1) Minimum required lot area is 6,000 square feet for the first two families; 2,000 square feet for each additional family dwelling unit.

(2) Minimum required lot width: 60 feet

(3) Minimum required lot frontage: 30 feet

(4) Minimum required depth of front yard:

From major arterials (see section 73.15): 50 feet

From other streets: 30 feet

(5) Minimum required depth of rear yard: 25 feet

(6) Minimum required width of each side yard:

Main building one story in height: five feet

Main building two or more stories: seven feet

Least sum of widths of both side yards: 14 feet

(7) Maximum total building area: 50 percent of total lot area

(8) Maximum stories: three

(9) Maximum height: 45 feet

15.2.4. *For multiple-family dwellings containing more than one building:* The density controls in section 73.13 shall apply.

15.2.5. *For hotels, motels and office buildings:*

(1) Minimum required lot area: 6,000 square feet

(2) Minimum required lot width: 40 feet

(3) Minimum required lot frontage: 20 feet

(4) Minimum required depth of front yard:

From major arterials (see section 73.15): 50 feet

From other streets: 30 feet

(5) Minimum required depth of rear yard: 25 feet

(6) Minimum required width of each side yard:

Main building one story in height: five feet

Main building two or more stories: seven feet

Least sum of widths of both side yards: 14 feet

(7) Maximum total building area: 50 percent of total lot area

(8) Maximum stories: three

(9) Maximum height: 45 feet

15.2.6 *For semi-detached dwellings:* The density controls in section 13.2.5 shall apply.

15.2.7 *For single-family attached dwellings:* The density controls in section 13.2.3 shall apply.

(Ord. No. 01-646, § 3, 9-13-2001; Ord. No. 14-316, § 1, 6-26-2014)

15.3. Off-street parking requirements.

Required off-street parking spaces shall be provided as set forth in article 70 hereof.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.

(Ord. No. 10-507, § 2, 8-26-2010)

15.4. Private streets; private subdivisions.

See section 10.4.

(Ord. No. 09-1053, § 2, 12-17-2009)

Editor's note—Sections 15.4—15.6 were formerly numbered as §§ 15.5—15-7, and were renumbered by Ord. No. 09-1053, § 2, 12-17-2009.

15.5. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 09-1053, § 2, 12-17-2009; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

Note—See editor's note, § 15.4.

15.6. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.

(Ord. No. 08-429, § 6, 6-26-2008; Ord. No. 09-1053, § 2, 12-17-2009; Ord. No. 15-758, § 6, 11-19-2015; Ord. No. 25-157, § 6, 4-24-2025)

Note—See editor's note, § 15.4.

ARTICLE 16. RESIDENCE 1-C DISTRICT REGULATIONS

Purpose. The purpose of the residence 1-C district is to provide a single-family zoning district designed to meet the existing small lot dimensions of older neighborhoods. The intent is to minimize nonconformities while encouraging the preservation and continuity of the neighborhood. It is not the intent that these regulations should be applied to new subdivisions.

Within a residence 1-C district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

16.1. Uses permitted.

Land and buildings shall be used only for the following uses:

Uses permitted in section 10.1 hereof.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

(Ord. No. 09-1053, § 1, 12-17-2009)

16.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in article 73 hereof:

(1) Minimum required lot area: 5,500 square feet

(2) Minimum required lot width: 40 feet

(3) Minimum required lot frontage: 20 feet

(4) Minimum required depth of front yard:

From major arterials (see section 73.15): 50 feet

From other streets: 15 feet

From side street on corner lots (see section 73.7.4): five feet

(5) Minimum required depth of rear yard: 25 feet

(6) Minimum required width of each side yard:

Main building one story in height: four feet

Main building two stories in height: five feet

(7) Maximum total building area: 40 percent of total lot area

(8) Maximum stories: two

(9) Maximum height: 30 feet
(Ord. No. 01-644, § 1, 9-13-2001; Ord. No. 09-1051, § 1, 12-17-2009)

16.3. Off-street parking requirements.

Required off-street parking spaces shall be provided as set forth in article 70 hereof.

16.4. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

16.5. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.
(Ord. No. 08-429, § 7, 6-26-2008; Ord. No. 15-758, § 7, 11-19-2015; Ord. No. 25-157, § 7, 4-24-2025)

ARTICLE 17. RESIDENCE 2-C DISTRICT REGULATIONS

Purpose. The purpose of the Residence 2-C District is to provide a zoning district tailored to protect, preserve, and continue the distinctive configuration, scale, and appearance of Huntsville's mill villages as they were constructed during the early decades of the 20th century. The intent is to minimize nonconformities while encouraging the preservation and continuity of these neighborhoods which document a significant phase of Huntsville's history and which provide a scale and type of housing that is vital to the city's future ability to adequately house all its residents. It is not the intent that these regulations should be applied to new subdivisions.

Within a Residence 2-C District as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

17.1. Uses permitted.

Land and buildings shall be used only for the following uses:

Single-family dwellings.

Two-family dwellings.

Multiple-family dwellings on lots currently or previously occupied by multiple-family dwellings.

Agricultural uses, provided no sales are made on the premises; and gardens customary to residential occupancy and buildings incidental thereto, but not including commercial animal or poultry farms or kennels.

Municipal, county, state or federal uses; including publicly owned or operated schools, libraries, museums, and art galleries.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

Accessory structures.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.
(Ord. No. 06-640, § 1, 8-24-2006; Ord. No. 09-1053, § 1, 12-17-2009; (Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

17.2. Density controls in Lincoln Village South of Oakwood.

The following yard, density, and height requirements shall be observed:

17.2.1 For Single-Family and Two-Family Dwellings—except as provided for in Article 73 hereof.

(1) Minimum required lot area shall be as platted in Lincoln Park Second Addition (Plat Book v. 1, Page 299) and the minimum required lot area for newly created lots shall be 4,800 square feet.

(2) Minimum required lot width: 35 feet.

(3) Minimum required lot frontage: 20 feet.

(4) Required depth of front yard shall match the front line setback of the existing structures on the block. If there are no existing dwellings on the block, the front setback shall be no less than ten feet nor more than 20 feet. (See Section 73.7.4)

(5) Minimum required depth of rear yard: Five feet.

(6) A minimum separation of six feet two inches shall be maintained between the side walls of dwellings on adjoining lots.

Minimum required depth of side yard to street: Three feet.

Minimum required depth of side yard to alley: One foot.

(7) Maximum stories: One.

(8) Maximum height: 15 feet.

(9) Maximum width of single-family dwellings: 35 feet.

(10) Maximum width of each unit in a two-family dwelling: 18 feet.

17.2.2. For multiple-family dwellings.

(1) Multiple-family dwellings shall be permitted on Lots 19, 24, 31, 32, 33, 34, 43, 56, 57 & 58 as platted in Lincoln Park Second Addition (Plat Book v. 1, Page 299). Buildings having three or more residential units shall be configured as an unbroken line of housing.

(2) Minimum required lot width: 100 feet.

(3) Minimum required lot frontage: 20 feet

(4) Required depth of front yard shall match the front line setback of the existing structures on the block. If there are no existing dwellings on the block, the front setback shall be no less than ten feet nor more than 20 feet. (See Section 73.7.4)

(5) Minimum required depth of rear yard: Ten feet.

(6) A minimum separation of six feet two inches shall be maintained between the side walls of dwellings on adjoining lots.

Minimum required depth of side yard to street: Five feet.

Minimum required depth of side yard to alley: Three feet.

(7) Maximum stories: One.

(8) Maximum height: 15 feet.

17.2.3. For nonresidential buildings.

(1) Nonresidential buildings shall be permitted only on lots that are occupied, at the time of this amendment, by nonresidential uses permitted in the district; provided, however, no nonresidential buildings shall be permitted on lots previously or currently used for residences.

(2) Minimum required lot width: 100 feet.

(3) Minimum required lot frontage: 20 feet.

(4) Minimum required depth of front yard: 30 feet.

(5) Minimum required depth of rear yard: Ten feet.

(6) Minimum required depth of side yards: 25 feet.

(7) Maximum stories: Two and one-half.

(8) Maximum height: 30 feet.

17.2.4. Parking requirements.

(1) Residential parking shall be permitted only in rear yards and on street. Detached garages are permitted in the rear yard if access is from an alley. No parking, garages, or garage access shall be permitted in any front or side yard.

(2) Nonresidential parking shall not be allowed in any required yard. Five visitor parking spaces may be located in front of a building but not in the required front yard.

17.2.5. Design requirements for dwellings.

(1) In order to maintain the unique building character of the residential structures in Lincoln Park Second Addition and to preserve the identity and sense of place

of this historic mill village, the following design requirements shall apply to existing residential structures:

(a) Where a two-family dwelling is combined to form a single-family dwelling, the original facade of the two-family dwelling shall be maintained as that of a two-family dwelling with the doors, windows and porches remaining in their original configuration.

(b) Where two dwelling units of a multiple-family dwelling are combined to form one dwelling unit, the original facade of the multiple-family dwelling shall be maintained with the doors, windows and porches remaining in their original configuration. The facade of the multiple-family dwelling shall maintain the appearance of having dwelling units with a maximum width of 18 feet per dwelling unit.

(c) All dwellings shall have their primary entrance facing the street and each unit shall have a separate entry porch.

(2) In order to maintain the unique building character of the residential structures in Lincoln Park Second Addition and to preserve the identity and sense of place of this historic mill village, the following design requirements shall apply to newly constructed residential structures:

(a) New construction shall follow the size, style and placement of the doors and windows and maintain the rhythm of the porch orientation of the existing historic residential dwellings.

(b) The exterior of newly constructed multiple-family dwellings shall maintain the appearance of having a maximum width of 18 feet per dwelling unit with the doors, windows and porches having the same configuration and orientation of the existing historic multiple-family dwellings.

(c) All dwellings shall have their primary entrance facing the street and each unit shall have a separate entry porch.

(Ord. No. 06-640, § 1, 8-24-2006)

17.3. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.
(Ord. No. 08-429, § 8, 6-26-2008; Ord. No. 15-758, § 8, 11-19-2015; Ord. No. 25-157, § 8, 4-24-2025)

CHAPTER II. BUSINESS DISTRICT REGULATIONS*

ARTICLE 20. NEIGHBORHOOD BUSINESS C-1 DISTRICT REGULATIONS

Purpose. The neighborhood business C-1 district is primarily intended to serve the day-to-day needs of surrounding residential neighborhoods for retail goods and personal services. It is to be a restricted commercial district offering a limited range of convenience goods and services combined with low-intensity business and professional offices and upper story apartments.

The goal is to encourage the location of small scale businesses and to provide districts conducive to the establishment and growth of locally owned businesses. It is further the intent of these regulations that neighborhood business C-1 district zones [shall] be limited in size in order to best serve their intended purpose; to minimize the impact of noise, light, traffic, trash and other pollutants on nearby residents; and to encourage pedestrian use.

*__Cross reference—__Businesses, ch. 8.

Landscaped buffer yards are required along the perimeters of the district to create a transitional area between residential and commercial uses, to shield nearby residents from the disruptions associated with commercial operations, and to upgrade the appearance of neighborhood shopping areas.

Within a neighborhood business C-1 district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

20.1. Uses permitted.

20.1.1. Land and buildings shall be used only for the following uses:

Accessory structures and uses.

Agricultural uses, excluding firewood sales and outdoor nurseries.

Antique stores and art galleries, excluding flea markets.

Apparel stores.

Assisted living facilities.

Bakeries, where not more than five persons are employed on the premises and where the products made are sold exclusively at retail on the premises.

Banks and credit unions.

Barbershops, beauty parlors, reducing salons and fitness/exercise centers, excluding tattoo and body piercing parlors.

Book, map, card and stationery stores.

Cafes, delicatessens, coffee shops and restaurants without alcohol.

Carwash facilities, provided they are no larger than one bay and are operated as an accessory use to a service station.

Churches and similar places of worship.

Computer and telephone sales and service shops.

Confectionery stores.

Convenience stores.

Dancing and music academies.

Drugstores.

Dry cleaning establishments utilizing only nonflammable dry cleaning fluids.

Florist shops.

Grocery, health, and ethnic foodstores.

Hardware stores, gift shops and variety stores.

Home furnishings stores.

Jewelry stores and watch repair shops.

Launderettes.

Medical, optical and dental offices and clinics for health professionals, excluding overnight care and ambulance services.

Multiple-family dwellings, accessory structures and uses, provided that such multiple-family dwellings conform to the requirements set forth in article 15, residence 2-B district, and section 20.2.1 hereof.

Municipal, county, state or federal uses, excluding off-premises liquor retailers.

Music and video stores.

Newsstands and hobby shops.

Notions and dry goods stores.

Nurseries, kindergartens or day care centers for children.

Office supply stores.

Offices for architects, attorneys and other professionals; consumer service offices, such as real estate and insurance agencies; and administrative offices.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Pet supply stores, excluding the sale of live animals.

Photography studios and photo retail sales.

Pickup stations for laundry or dry cleaning; coin-operated dry cleaning establishments, excluding steam presses of any type.

Quick copy print shops.

Radio, television and appliance stores and repair shops.

Residential dwelling units on the upper stories above commercial or office uses, provided such units are in compliance with all applicable regulations for habitable space. Such residential uses shall have an entrance separate from the non-residential uses unless the entrance to the building opens into a lobby from which access to each use originates.

Shoe stores, shoe repair shops and tailor shops.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

Sporting goods shops.

Upholstering shops employing not more than five persons.

20.1.2. Conditions on uses [shall be as follows:]

(1) No outdoor loudspeaker, public address system, music or other form of entertainment shall be audible at any residential property line.

(2) All businesses shall be conducted within an enclosed building, except for agricultural uses, sidewalk/patio seating at restaurants, gasoline pumps, and playgrounds for child care centers.

(3) No exterior display of goods or merchandise shall be permitted in parking and vehicular use areas, required yards, or landscaped areas.

(4) No exterior storage of any type shall be permitted, unless it is totally contained, the containers are screened from public view, and such storage is located in a rear or side yard.

(5) Trash collection facilities and dumpsters shall be located away from residential districts and shall be concealed by solid wood and/or masonry walls for their full height. Where wood is used as the screening material, it shall be securely attached to an all metal support structure; if the wood is not pressure treated, it shall be cedar, redwood or cypress; and no wood member shall exceed 12 inches in width. The gates shall be of metal, shall be at least 80 percent opaque, and shall be self closing.

(6) No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.

(Ord. No. 96-1008, § 1, 1-23-1997; Ord. No. 02-196, § 1(20.1), 4-25-2002; Ord. No. 03-285, §§ 1, 2, 5-22-2003; Ord. No. 06-730, § 2, 10-12-2006; Ord. No. 08-429, § 9, 6-26-2008; Ord. No. 09-1053, §§ 1, 3, 12-17-2009; Ord. No. 11-11, § 4, 2-24-2011; Ord. No. 14-576, § 3, 9-25-2014; Ord. No. 15-758, § 9, 11-19-2015; Ord. No. 18-718, § 1, 10-25-2018; Ord. No. 19-355, § 1, 6-27-2019; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021; Ord. No. 25-157, § 9, 4-24-2025)

20.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in article 73 hereof:

20.2.1. *Multiple-family dwellings.* The requirements set forth in article 15, residence 2-B district regulations, shall be applicable except that maximum height shall be regulated by section 20.2.2(5); building setbacks from rights-of-way shall be regulated by section 20.2.2(1); setbacks from side lot lines shall be 15 feet and from rear lot lines shall be 20 feet; and internal spacing shall be as required by section 73.13.4(2).

20.2.2. *Business structures and other permitted uses.*

(1) Minimum required depth of front yard:

From major arterials: 50 feet

(See section 73.15)

From other streets: 5 feet

For areas that have frontage along a road indicated by the adopted long range transportation plan (LRTP) and/or the transportation improvement program (TIP) the setback shall be determined by measuring from the centerline of the right-of-way classification dictated by the adopted major street plan of the road plus ten feet.

(2) For corner lots, the front yard requirements of section 20.2.2(1) shall be observed from both streets upon which the land abuts.

(3) Rear yards are not required except where the rear lot line abuts on a residential district; in such cases, there shall be provided a rear yard of not less than 20 feet.

(4) Side yards are not required, except where the side lot line abuts a residential district, then a minimum side yard of 15 feet shall be provided. Where buildings are not contiguous, the space between them shall be at least ten feet and shall be improved for use by pedestrians or vehicles or be landscaped.

(5) Maximum height is 50 feet; however, wherever a C-1 district abuts a residential district (except across a street) the maximum height shall be 30 feet at the required setback line for the C-1 district: height limit shall increase one foot for every four-foot increase in distance from the setback line up to a maximum height of 50 feet.

(Ord. No. 02-196, § 1(20.2), 4-25-2002; Ord. No. 19-355, §§ 2, 3, 6-27-2019)

20.3. Off-street parking and loading requirements.

For single tenant developments, off-street parking and loading requirements shall be provided as set forth in article 70 hereof.

For multi-tenant, mixed use, and multi-family developments, shared parking and loading requirements shall be provided as set forth in the shared parking factor matrix of article 27 hereof.

Parking shall not be permitted in any required side yard nor in the first 15 feet of any required rear yard.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 02-196, § 1(20.3), 4-25-2002; Ord. No. 09-430, § 3, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010; Ord. No. 19-355, § 4, 6-27-2019)

20.4. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71, off-street parking and vehicular use area landscaping requirements, except for multifamily dwellings which must comply only with section 71.6, PVA lighting requirements, when applicable. Where the requirements of article 71 are in conflict with article 20, then the more stringent shall apply.
(Ord. No. 99-1020, § 1, 1-13-2000; Ord. No. 02-196, § 1(20.4), 4-25-2002)

20.5. Landscaping requirements.

20.5.1. *Front yards.*

(1) On local streets contained wholly within a C-1 district, the first five feet of the required front yard shall be landscaped with a minimum of one small type 3 or type 4 tree per each 50 linear feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass.

(2) On local streets that extend into other zoning districts and on collector and arterial streets, the following landscaping is required:

(a) Whenever 80 percent of the length of a building's street facade is located at the minimum building line, then the first five feet (ten feet on major arterials) of the required front yard shall be landscaped with a minimum of one small type 3 or type 4 tree per

each 50 linear feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass.

(b) If more than 20 percent of a building's street facade is set back farther than the minimum building line, then the first 15 feet of the required front yard shall be landscaped with a minimum of one large type 1 or type 2 shade tree per each 50 linear feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass.

20.5.2. *Side and rear yards.* Where side [yards] or rear yards are required adjacent to residential districts, the first 15 feet shall be landscaped with a buffer of screen planting as defined herein. However, if the proposed development is apartments and the adjacent residentially zoned property is already developed with, or has a building permit for, apartments, then that side [yards] or rear yard may be landscaped with a minimum of one large type 1 or type 2 shade tree per each 50 linear feet of yard or portion thereof in place of the buffer of screen planting.

Dumpsters and other structures are not permitted in any required rear [yard] or side yard.

Pedestrian paths are permitted through buffers of screen planting to connect residential areas with neighborhood businesses so long as they do not intrude on or cross any private property without the owner's permission.

20.5.3. *Lots in use without buildings.* In the event that a parcel is put to use without a building, then the first ten feet along all lot lines shall be landscaped with a minimum of one large type 1 or type 2 shade tree and eight shrubs per each 50 linear feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass. If the parcel abuts a residential district, then section 20.5.2 shall apply along the side and/or rear lot lines.

20.5.4. *Installation and maintenance of landscaping.*

(1) Trees and shrubs shall be well-distributed, though not necessarily evenly spaced and shall meet the minimum size standards as set out in table 1 of section 71.5.1(2).

(2) All landscaping shall be installed in accordance with section 71.5.3(1), (2), (3), (4), (7) and (8), installation requirements, and with section 73.19, installation of landscaping.

(3) The owner, lessee, or his agents shall be responsible for providing, maintaining, and protecting all landscaping in a healthy and growing condition and for keeping it free from refuse and debris. All unhealthy and dead materials shall be replaced within one year after notification or during the next appropriate planting period, whichever comes first.

(Ord. No. 02-196, § 1(20.5), 4-25-2002)

20.6. Designation of new C-1 districts.

The designation of a new neighborhood business C-1 district or the enlargement [of] an existing C-1 district after the adoption of this ordinance shall not create a C-1 district that exceeds 200 feet in depth from a local street right-of-way, 400 feet in depth from a collector street right-of-way, or 500 feet in depth from an arterial street right-of-way, except where a preexisting condition would make such limitations unworkable or unreasonable in the opinion of the planning commission. When enforcing these depth limitations, no remainder piece of land shall be created that would be rendered unusable by the regulations of this zoning ordinance.

(Ord. No. 02-196, § 1(20.6), 4-25-2002)

20.7. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.1, and shall be regulated by article 75 - alcoholic beverage establishment regulations.

(Ord. No. 11-11, § 4, 2-24-2011)

ARTICLE 21. RESERVED

Editor's note—Ord. No. 15-585, § 1, adopted Sept. 24, 2015, repealed Art. 21, §§ 21.1—21.8, which pertained to neighborhood business C-1A district regulations. For prior history, see Code Comparative Table.

ARTICLE 22. NEIGHBORHOOD BUSINESS C-2 DISTRICT REGULATIONS

Within a neighborhood business C-2 district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

22.1. Uses permitted.

Land and buildings shall be used only for the following uses:

22.1.1. Any use permitted in a neighborhood business C-1 district provided such uses shall conform to the requirements of said district.

22.1.2. Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

22.1.3. Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

22.1.4. Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.1, and shall be regulated by article 75 - alcoholic beverage establishment regulations.

(Ord. No. 09-1053, § 4, 12-17-2009; Ord. No. 11-11, § 6, 2-24-2011; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

22.2. Density controls.

These regulations shall be identical to section 20.2.

(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

22.3. Off-street parking requirements.

Required off-street parking spaces shall be provided as set forth in article 70 hereof.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.

(Ord. No. 10-507, § 2, 8-26-2010)

22.4. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71, off-street parking and vehicular use area landscaping requirements, except for multifamily dwellings which must comply only with section 71.6, PVA lighting requirements, when applicable.

(Ord. No. 99-1020, § 1, 1-13-2000)

22.5. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.

(Ord. No. 08-429, § 11, 6-26-2008; Ord. No. 15-758, § 10, 11-19-2015; Ord. No. 25-157, § 10, 4-24-2025)

ARTICLE 23. GENERAL BUSINESS C-3 DISTRICT REGULATIONS*

Within a General Business C-3 District as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

23.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or

*__Editor's note—__Ord. No. 06-1203, § 2, adopted January 25, 2007, amended Art. 23, in its entirety, to read as herein set out. Prior to inclusion of said ordinance, Art. 23 pertained to similar subject matter. See also the Code Comparative Table.

maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Antique stores.

Apparel stores.

Art and craft galleries and studios.

Bakeries, where not more than five persons are employed on the premises and where the products made are sold exclusively at retail on the premises.

Banks and credit unions.

Barber shops and beauty parlors.

Book, map, card and stationery stores.

Cafes, delicatessens, coffee shops and restaurants without alcoholic beverages.

Churches and similar places of worship.

Commercial and trade schools.

Commercially operated parking garages having at least two levels of parking.

Computer and telephone sales and service shops.

Computer programming, software design and web design services.

Confectionery stores.

Convenience stores.

Dance and music academies.

Drug stores.

Dry cleaning pick-up stations.

Farmers markets.

Florist shops.

Food kiosks and street vendors.

Grocery, health, and ethnic food stores.

Gymnasiums, reducing salons, fitness and exercise centers, health clubs and spas.

Hardware stores, gift shops, hobby shops and variety stores.

Home furnishings stores.

Hotels, motels and bed and breakfasts.

Jewelry stores and watch repair shops.

Launderettes.

Light manufacturing and assembly—Provided the goods are to be sold on the premises only and provided that not more than ten persons are employed in the process.

Locksmiths.

Medical, optical and dental offices and clinics for health professionals, excluding overnight care and ambulance services.

Mobile food vending sites.

Mobile food vending units.

Multiple-family dwellings, accessory structures and uses.

Municipal, county, state or federal uses and facilities.

Music and video stores.

Newsstands.

Newspaper offices.

Notions and dry goods stores.

Nurseries, kindergartens or day care centers for children.

Office supply stores.

Offices for accountants, architects, attorneys and other professionals; consumer service offices such as real estate agencies, insurance agencies, travel agencies and advertising agencies; and administrative offices.

Performing arts centers.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Pet supply stores, excluding the sale of live animals.

Photography studios and photo retail sales.

Places of amusement and assembly including skating rinks, bowling alleys, billiard or pool parlors, trampoline centers, miniature golf, baseball batting stations, skateboard parks, but not including theatres.

Private schools.

Quick copy or print shops.

Radio and television studios but not including broadcast towers.

Radio, television and appliance stores and repair shops.

Residential dwelling units—provided such residential units occupy upper-story space within new or rehabilitated existing buildings having non-residential uses on the street level and provided that such residential units are in compliance with all applicable regulations for habitable space. All such residential uses shall have an entrance separate from the

non-residential uses on the street level unless the entrance to the building opens into a lobby from which access to each use originates.

Shoe stores, shoe repair shops and tailor shops.

Social, social service, union and civic organizations.

Sound and video recording studios.

Sporting goods shops.

Telephone answering services and telemarketing services.

Upholstering shops employing not more than five persons.

Other uses that are similar to and fit within one of the above categories but not including (1) off-premises liquor retailers, (2) trailer parks, (3) tattoo and body piercing parlors, (4) flea markets and (5) car wash facilities. No use shall be permitted which is not in harmony with the character of the district and with the specifically enumerated uses by reason of noise, odor, dust, dirt, gases, vibration, fire and explosive hazards. It is further stipulated that no exterior storage of wares, goods or materials shall be permitted within this district.

(Ord. No. 06-1203, § 2, 1-25-2007; Ord. No. 07-401, § 2, 6-14-2007; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 11-11, § 7, 2-24-2011; Ord. No. 13-882, § 2, 12-19-2013; Ord. No. 14-576, § 4, 9-25-2014; Ord. No. 15-315, § 1, 6-25-2015; Ord. No. 15-406, § 2, 7-23-2015; Ord. No. 12-356, § 1, 6-28-2012; Ord. No. 19-1040, § 1, 12-19-2019)

23.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in Article 73 hereof:

(1) *Minimum front yard requirements:* None, however the maximum setback shall be 15 feet.

(2) *Minimum rear yard requirements:* None, except that when the rear lot line abuts a residential district, except across a street, a rear yard of 25 feet is required of which the first five feet of the required rear yard shall be landscaped with a minimum of one small Type 3 or Type 4 tree and six shrubs per each linear 50 feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass.

(3) *Minimum side yard requirements:* None, except that when the side lot line abuts a residential district, except across a street, a side yard of ten feet is required.

(4) *Maximum height for new construction is unlimited;* however, where the property abuts a Residence 1, Residence 1-A, Residence 1-B, Residence 1-C, Residence 2, Residence 2-A or Residence 2-C District, except across a street, the maximum number of stories shall be two stories with a maximum height of 35 feet. Where the property abuts a Residence 2-B District, except across a street, the maximum number of stories shall be three stories with a maximum height of 45 feet. The properties that abut residential properties and that fall within these height restrictions shall be designated and referred to as Historic District Buffer Zone A.

Within Historic District Buffer Zone B, the maximum number of stories shall be four stories and with a maximum height of 60 feet.

Within Historic District Buffer Zone C, the maximum number of stories shall be five stories with a maximum height of 75 feet.

Within Historic District Buffer Zone D, the maximum number of stories shall be six stories with a maximum height of 90 feet.

(5) *Maximum total building area* is 100 percent of total lot area, except when the side or rear lot line abuts a residential district.

(6) *Where buildings are not contiguous,* the space between them shall be a minimum

of ten feet and shall be improved for use by pedestrians or vehicles or be landscaped.

(Ord. No. 06-1203, § 2, 1-25-2007; Ord. No. 09-510, § 1, 7-23-2009; Ord. No. 19-1040, § 2, 12-19-2019)

23.3. Installation and maintenance of landscaping.

(1) Trees and shrubs shall be well distributed, though not necessarily evenly spaced and shall meet the minimum size standards as set out in Table 1 of Section 71.5.1(2).

(2) All landscaping shall be installed in accordance with Section 71.5.3—Installation Requirements (1), (2), (3), (4), (7) and (8) and with Section 73.19—Installation of Landscaping.

(3) The owner, lessee, or his agents shall be responsible for providing, maintaining, and protecting all landscaping in a healthy and growing condition and for keeping it free from refuse and debris. All unhealthy and dead materials shall be replaced within one year after notification or during the next appropriate planting period, whichever comes first.

(Ord. No. 06-1203, § 2, 1-25-2007)

23.4. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 06-1203, § 2, 1-25-2007; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

23.5. Off-street parking requirements.

Off-street parking is not required in a General Business C-3 District; however, where off-street parking and vehicular use areas are provided, landscaping and lighting are required in accordance with Article 71—Off-Street Parking and Vehicular Use Area Landscaping Requirements. Off-street loading and vehicle standing space shall be provided as required in Article 70 hereof.

(Ord. No. 06-1203, § 2, 1-25-2007)

23.6. Historic district buffer zone density controls and design guidelines.

Due to the historic nature of this district as a retail, office and residential area, with buildings abutting the sidewalks and sharing party walls, the following density controls and design guidelines shall apply in Historic District Buffer Zone A, Historic District Buffer Zone B, Historic District Buffer Zone C and Historic District Buffer Zone D:

23.6.1. *Front yards.* None permitted, except:

(1) A National Register listed building moved from its original site may retain its existing setback to a maximum of ten feet; or

(2) Where there is located a porte-cochere, plaza, courtyard, or other such public space. In such case, the porte-cochere must be built to the property line along the street frontage.

All open space on a site not covered by building, parking or sidewalks shall be landscaped according to the applicable provisions of section 23.6.7, landscaping requirements.

23.6.2. *Side and rear yards.*

(1) *Minimum rear yard requirements:* None, except that when the rear lot line abuts a residential district, except across a street, a rear yard of 25 feet is required of which the first five feet of the required rear yard shall be landscaped with a minimum of one small Type 3 or Type 4 tree and six shrubs per each linear 50 feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass.

(2) *Minimum side yard requirements:* None, except that when the side lot line abuts a residential district, except across a street, a side yard of ten feet is required.

23.6.3. *Height.*

(1) Where General Business C-3 District properties abut a Residence 1, Residence 1- A, Residence 1-B, Residence 1-C, Residence 2, Residence 2-A or Residence 2-C district, except across a street, the maximum number of stories shall be two

stories with a maximum height of 35 feet. Where the property abuts a Residence 2-B District, except across a street, the maximum number of stories shall be three stories with a maximum height of 45 feet. The properties that abut residential properties and that fall within these height restrictions shall be designated and referred to as Historic District Buffer Zone A.

(2) Within Historic District Buffer Zone B, the maximum number of stories shall be four stories with a maximum height of 60 feet.

Historic District Buffer Zone B is defined as the property that lies within the following boundaries: Begin at the intersection of the centerlines of Clinton Avenue and Monroe Street/Lincoln Street; then in a southerly direction along the centerline of Monroe Street/Lincoln Street to the intersection of the centerlines of Lincoln Street and Randolph Avenue; then West along the centerline of Randolph Avenue to the intersection of the centerlines of Randolph Avenue and Green Street; then South along the centerline of Green Street to the intersection of the centerlines of Green Street and Eustis Avenue; then West along the centerline of Eustis Avenue to the intersection of the centerlines of Eustis Avenue and Franklin Street; then South along Franklin Street to the intersection of the centerlines of Franklin Street and Gates Avenue; then West along the centerline of Gates Avenue to the intersection of the centerlines of Gates Avenue and Madison Street; then South along the centerline of Madison Street to the intersection of the centerlines of Madison Street and Lowe Avenue; then West along Lowe Avenue to a point near the half-block line on the north side of Lowe Avenue between Gallatin Street and Madison Street; then in a northerly direction along the rear lot lines of those properties fronting Madison Street to the centerline of Manning Drive; then West along the centerline of Manning Drive to the intersection of the centerlines of Manning Drive and Fountain Row; then North along the centerline of Fountain Row to the intersection of the centerlines of Fountain Row/Fountain Circle and Williams Avenue; then continue north along the centerline of Fountain Circle to the intersection of the centerlines of Fountain Circle and Gates Avenue; then East along the centerline of Gates Avenue to the intersection of the centerlines of Gates Avenue and Madison Street; then North along the centerline of Madison Street to the intersection of the centerlines of Madison Street and South Side Square; then East along the centerline of South Side Square to the intersection of the centerlines of South Side Square and East Side Square; then North along the centerline of East Side Square to the intersection of the centerlines of East Side Square and Randolph Avenue; then East along the centerline of Randolph Avenue to the intersection of the centerlines of Randolph Avenue and Green Street; then North along the centerline of Green Street to the intersection of the centerlines of Green Street and Clinton Avenue; then East along the centerline of Clinton Avenue to the intersection of the centerlines of Clinton Avenue and Lincoln Street and the point of beginning.

(3) Within Historic District Buffer Zone C, the maximum number of stories shall be five stories with a maximum height of 75 feet.

Historic District Buffer Zone C is defined as the property that lies within the following boundaries: Begin at the intersection of the centerlines of Green Street and Monroe Street/Lincoln Street; then in a southerly direction along the centerline of Monroe Street/Lincoln Street to the intersection of the centerlines of Lincoln Street and Clinton Avenue; then West along the centerline of Clinton Avenue to the intersection of the centerlines of Clinton Avenue and Green Street;

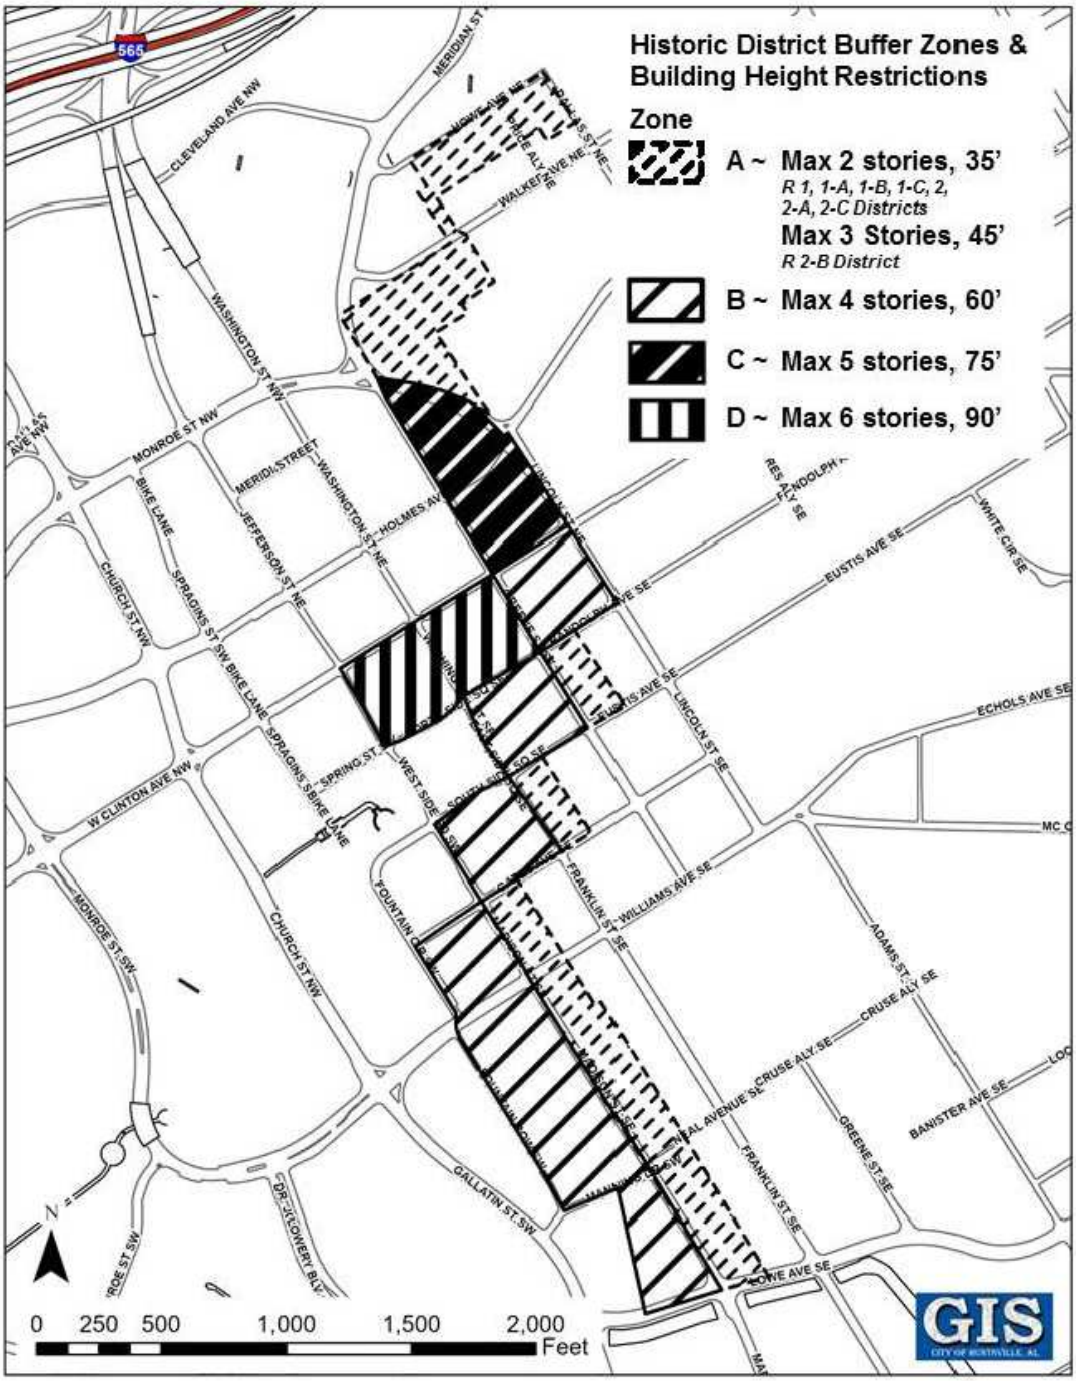
then North along the centerline of Green Street to the intersection of the centerlines of Green Street and Monroe Street/Lincoln Street and the point of beginning.

(4) Within Historic District Buffer Zone D, the maximum number of stories shall be six stories with a maximum height of 90 feet.

Historic District Buffer Zone D is defined as the property that lies within the following boundaries: Begin at the intersection of the centerlines of Clinton Avenue and Green Street; then South along the centerline of Green Street to the intersection of the centerlines of Green Street and Randolph Avenue; then West along the centerline of Randolph Avenue/North Side Square to the intersection of the centerlines of Randolph Avenue/North Side Square and Jefferson Street/West Side Square; then North along the centerline of Jefferson Street to the intersection of the centerlines of Jefferson Street and Clinton Avenue; then East along the centerline of Clinton Avenue to the point of beginning.

(5) In order to create a sense of harmony and compatibility, all buildings within the historic district buffer zones shall be designed to be overlooked by taller buildings within the General Business and Central Business districts as well as be seen from surrounding streets and public places.

Elevator shafts and similar structural elements not intended as places of occupancy or storage; heating, ventilating and air conditioning equipment; solar collectors; communication and transmission devices and similar mechanical fixtures may extend above the roof if they conform to the following requirements:



(a) Such fixtures and structural elements must be completely shielded from view at street level and/or incorporated into the architectural design of the building as a whole; and

(b) Complementary parapets, screens, shades and superstructures are encouraged to create a visually pleasing and architecturally consistent roofscape for the building.

(6) Rooftop gardens, decks and terraces must be completely shielded from view at street level with their railings and screens situated discretely behind parapets so as not to attract attention away from the building cornices. In all historic district buffer zones, roof gardens, decks and terraces are considered to be places of occupancy, and as such, must conform to the height limitations for eye level (defined as six feet above the highest occupied surface). The height limitations for eye level shall be included in calculating the height of the building and shall not be less than six feet below the prescribed maximum height for the building. An example of the height limitations for eye level is presented in the following illustration.

General Business C3 District
Historic District Buffer Zone

23.6.4. *Off-street parking requirements.*

(1) Off-street parking is not required in the General Business C-3 District; however, where off-street parking and vehicular use areas are provided in the Historic District Buffer Zones, lighting is required in accordance with section 71.6, PVA Lighting Requirements. Off-street loading and vehicle standing space shall be provided as required in article 70 hereof. No surface parking or vehicular drive parallel to the street shall be permitted between a building and any street on which it has frontage, except in the case of a porte-cochere. In such case, the porte- cochere must be built to the property line along the street frontage.

(2) Five or more surface parking spaces must be screened from streets, pedestrian areas, and sidewalks according to the provisions of section 23.6.7(a) and section 23.6.7(b).

(3) Surface parking shall utilize alleys for ingress and egress. A curb cut from a public street will be allowed only if alternative access is not available.

(4) No more than 15 percent of a building site or other tract may be utilized for surface parking. If additional spaces are needed, they shall be provided within the building itself or within a parking garage.

(5) All parking surfaces and unpaved driveways shall be curbed along their perimeters.

23.6.5. *Parking garages.* Parking garages erected within the Historic District Buffer Zones shall comply with the following requirements:

(1) All street level garage frontages shall provide commercial space equivalent to 75 percent of the linear frontage of street frontage, exclusive of driveways; such commercial space shall be a minimum of 18 feet deep as measured from the façade of the building.

(2) Vehicular driveways shall be sited and designed so as to create the least hazard to pedestrians, and curb cuts shall not exceed 25 percent of any street frontage greater than 160 feet.

(3) The ground floor façade should be differentiated from the upper levels to further enhance the continuity of the street wall and shall comply with the provisions of section 23.6.6[1], street level walls.

(4) Sloping floor levels shall not be revealed or implied by the exterior design of the garage elevations as seen from any street frontage.

(5) Parked cars shall be screened from public view to a height of three feet and six inches, consistent with the guardrail height as defined by the International Building Code.

(6) Façades should be designed to be compatible with the surrounding buildings in terms of scale, color and texture of materials, form and massing, and design detailing.

23.6.6. *Site development.* The Historic District Buffer Zones are intended to create harmonious transition zones between the urban core and the residential areas. These Historic District Buffer Zones will preserve and enhance the many historic buildings while adding new buildings that will expand and contribute to the low scale, small town, urban environment that makes the downtown attractive for pedestrians. Every effort should be made to preserve and renovate the historic structures and to create new infill construction that is compatible with the old in terms of scale, proportion, materials, design and function without being imitative.

(1) *Street level walls.* The purpose of the street level wall requirement is twofold. The first goal is to promote the establishment of a variety of retail, service and entertainment type businesses for the convenience of the office, residential, and tourist populations in the downtown area. The second aim is to promote pedestrian use and activity and to encourage a higher degree of street life and vitality in the downtown. Retailing is enhanced by

having transparent store fronts abutting the sidewalk and by assembling a critical mass of continuous retail activities along adjoining streets.

(a) The front façade of all new buildings shall be oriented toward a public street as shall the principal entrances.

(b) Doorways shall be recessed into the building interior to a depth sufficient to separate sidewalk traffic from outwardly opening doors, to create focal interest, and to punctuate the street wall.

(c) To maintain consistency with the existing historic streetscapes, new construction shall utilize natural materials for the exterior cladding of all visible wall surfaces. The facades should be designed to be compatible with surrounding buildings in terms of scale, color and texture of materials, form and massing, and design detailing. Acceptable materials include, but are not limited to, brick, stone, concrete stucco, terra cotta, precast concrete, glass, and where appropriate, cast metal for fenestrations, columns and beams. Polished stone and mirrored glass should be avoided as primary materials. Synthetic and imitation materials as well as aluminum, vinyl and plastic materials are not acceptable.

(d) To create an animated streetscape, an unbroken expanse of solid or blank wall shall not exceed 20 linear feet. Devices suitable to break such a wall span include doors, windows, display windows and cases, street art, fountains, plazas, trees and landscaping, pedestrian furniture and the introduction of variety in materials, texture, color and/or pattern of wall materials.

(e) Street level commercial spaces should be configured as units 15 to 50 feet wide in order to stimulate visual interest, establish a predictable rhythm for pedestrians, and encourage the introduction of small retail and service businesses.

(f) Windows located in street level walls, with the exception of stained glass windows, shall be transparent. Windows located in street level walls shall have a maximum sill height of 48 inches as measured from the sidewalk.

(2) *Utilities and mechanical units.*

(a) All power, communication and other wiring shall be located underground.

(b) All exterior mechanical equipment, trash facilities, and loading areas shall be adequately screened as well as practicable so as not to be visible from any street or by pedestrians.

23.6.7. *Landscaping requirements.*

(1) *Landscape buffers for surface parking.* Buffer strips required to separate surface parking spaces from streets and pedestrian uses shall be landscaped in one of the following ways:

(a) A minimum five-foot wide planting bed having a continuous masonry wall between 30 and 42 inches high planted on the street side with at least one nondeciduous vine or shrub for every ten feet of wall length and one small maturing tree for every 30 feet of wall length. Trees, shrubs and vines shall be evenly distributed along the length of the wall. The landscape bed shall be planted with an evergreen ground cover; or

(b) A minimum five-foot wide bed having a hedge of a nondeciduous species, planted and maintained to form a continuous visual screen at least 30 inches high within one year of planting and one small maturing tree for every 30 linear feet of required planting bed. The bed shall be planted with an evergreen ground cover.

(2) *General landscape requirements.*

(a) Plant material used to fulfill these requirements must be provided with an adequate irrigation system which does not rely on drainage from the street, sidewalk, or buildings.

(b) All plant material must conform to the current version of the "American Standard for Nursery Stock" published by the American Association of Nurserymen.

(c) The species of trees used must be consistent with adopted city ordinances concerning urban trees.

(d) Maintenance of landscaping in a healthy, neat and attractive condition is the responsibility of the owner of the property. Specifically, all plant material shall be watered, fertilized, pruned, kept free from weeds and litter, and replaced if diseased, injured or dead in a manner consistent with good horticultural practices.

(e) All landscaping shall be installed in accordance with section 73.19, installation of landscaping.

(Ord. No. 09-510, § 2, 7-23-2009; Ord. No. 19-1040, § 3, 12-19-2019; Ord. No. 21-46, § 1(Exh. A, § B.1.), 2-25-2021)

23.7. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.2, and shall be regulated by article 75 - alcoholic beverage establishment regulations. (Ord. No. 11-11, § 7, 2-24-2011)

ARTICLE 24. HIGHWAY BUSINESS C-4 DISTRICT REGULATIONS

Purpose. The purpose of the highway business C-4 district is to provide for the retailing of goods and the furnishing of major services, selected trade shops, and automotive repairs. Characteristically, this district occupies a larger area than the neighborhood business C-1 district, is intended to serve a considerably greater population, and offers a wider range of specialized services. This district is intended to be utilized primarily by those commercial uses which cater to the traveling public, tourists, trucks, and heavy automobile traffic.

To this extent, this district is usually located on a major arterial highway at or near the intersection with one or more other major arterial highways so that it is accessible from all directions.

It is not the intent of this district to encourage the extension of existing strip commercial areas, since the pattern of present development provides more than ample frontage for this purpose. Future expansion of this district should desirably occur as an increase in district depth rather than as further striplike extension along thoroughfares.

Within a highway business C-4 district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

24.1. Uses permitted.

24.1.1. Land and buildings shall be used only for the following uses:

Accessory structures and uses as permitted herein.

Agricultural uses.

Apparel stores.

Ambulance services.

Animal hospital or veterinary clinic, pet shops.

Assisted living facilities.

Auction gallery, including auto auction.

Automobile sales, new and used, retail and wholesale with attendant facilities, except that any mechanical or body repair must be conducted entirely within an enclosed structure and provided further that all vehicles on a used car sales lot must be in operating condition at all times.

Automobile repair garage, mechanical and body, provided all operations are conducted entirely within an enclosed structure.

Bakery, where not more than five persons are employed on the premises and where the products made are sold exclusively at retail on the premises.

Bank, savings and loan associations.

Barbershop, beauty parlor, reducing salons.

Bookstores.

Building and lumber supply establishments—provided the entire storage area is enclosed within a solid fence at least seven feet in height, or greater, if required to adequately screen such area, and that any machine operations must be conducted entirely within an enclosed structure.

Bus depots.

Cafes, delicatessens, coffee shops and restaurants without alcohol.

Carwash establishments.

Churches and similar places of worship.

Commercial parking garages or lots.

Confectionery store.

Dancing or music academy.

Drugstores and apothecaries.

Dry cleaning establishments utilizing only non-flammable dry cleaning fluids.

Farmers markets.

Florist shops and greenhouses.

Furniture stores.

Gasoline service stations.

Grocery stores.

Gymnasiums, fitness and exercise centers, health clubs and spas.

Hardware store, gift shop and variety store.

Hotels, motels, tourist homes, camping trailer courts.

Jewelry store, watch repair shop.

Laundry operations, launderette, coin-operated dry cleaning establishments.

Light manufacturing and assembly, provided the goods are to be sold on the premises only, and provided not more than ten persons are employed in the process.

Mobile food vending sites.

Mobile food vending units.

Mobile home and trailer parks.

Mortuaries and crematoriums.

Municipal, county, state or federal use.

Multiple-family dwellings.

Music or record shop.

Newsstand, hobby shop.

Notion and dry goods store.

Nursery, kindergarten or day care for children.

Offices, professional buildings.

Office-warehouse, where the structure is used for offices and the storage of goods, wares, or merchandise in conjunction with a business located on the site. No outside storage of goods, wares, or merchandise is permitted on premises.

Parking lots and parking garages.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Photographic studios, photo retail sales.

Places of amusement including skating, bowling, trampolines, golf driving ranges, miniature golf, baseball batting, and similar nonoffensive establishments, but not including theaters or drive-in theaters.

Print shops, newspaper publishing house.

Private hospitals, sanitarium or nursing home.

Radio and television studios but not including broadcast towers.

Radio and television appliance stores and repair shops.

Self-propelled, camping and recreational vehicle sales; trailer and mobile home sales; [and] boat sales.

Shoe store, shoe repair shop, tailor shop.

Upholstering shop, where not more than five persons are employed.

24.1.2 *Variances.* The board of adjustment shall have no authority to grant variances that would reduce required separation distances for establishments selling or serving alcoholic beverages or permit such uses on street classifications other than those specified in section 24.1.1.
(Ord. No. 96-1008, § 2, 1-23-1997; Ord. No. 97-707, § 1, 11-13-1997; Ord. No. 03-593, § 3, 8-14-2003; Ord. No. 03-672, §§ 1—4, 9-11-2003; Ord. No. 07-401, § 3, 6-14-2007; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 11-11, § 5, 2-24-2011; Ord. No. 11-899, § 2, 1-26-2012; Ord. No. 13-882, § 2, 12-19-2013; Ord. No. 14-576, § 5, 9-25-2014; Ord. No. 15-406, § 2, 7-23-2015; Ord. No. 18-03, § 1, 2-22-2018)

24.2. Density controls.

The following yard, density, and height of building requirements shall be observed:

24.2.1. *Multiple-family dwellings.* Plans for multiple-family projects containing two or more buildings which are located on the same parcel of land shall be presented to the planning commission for review. The planning commission shall make certain the proposed development meets the following requirements:

(1) The proposed development shall be compatible with requirements and intent of the subdivision regulations relative to access, drainage, utilities, and major streets.

(2) Sidewalks not less than four feet wide are required in the project area leading from all front and rear doors to streets. Sidewalks are also required along all property of the project abutting streets.

(3) Six thousand square feet of land area for the first two dwelling units; 2,000 square feet of land area for each additional dwelling unit; provided, however, such required land area must be exclusive of vehicular accessways but may include parking spaces.

(4) Closest permitted distance between any two apartment buildings shall be ten feet for one-story buildings; 14 feet for two-story buildings.

(5) Minimum distance from an apartment building to a parking space shall be eight feet.

(6) Minimum distance from front or side of an apartment building shall be 50 feet to a major arterial right-of-way and 30 feet to other public street rights-of-way.

(7) Minimum distance from side of apartment building to side property line shall be seven feet for one-story buildings; eight feet for two-story buildings.

(8) Minimum distance from rear of apartment building to side property line shall be 30 feet.

(9) Minimum distance from either rear or side of apartment building to rear lot line shall be 25 feet.

(10) Minimum distance from front of one apartment building to front of another apartment building shall be 30 feet.

(11) Windows in all apartment buildings shall have not less than a 20-foot view (measured perpendicular from the window) unobstructed by other buildings located on the same parcel of land.

(12) Minimum distance from the parking areas to any street right-of-way shall be 20 feet.

(13) Maximum number of stories shall be ten.

(14) Maximum number of structures shall be limited to four structures per acre.

(15) No front of a multi-family dwelling building shall be in the rear of another building.

24.2.2. *Trailer parks and mobile home parks.*

(1) Minimum parcel of land required shall be not less than five acres for each park.

(2) Minimum size lot required for each trailer space shall be not less than 40 feet wide and 80 feet long.

(3) Minimum side yard setback, ten feet from the side lot or space line.

(4) A buffer strip not less than 20 feet deep shall be provided completely around the trailer park or mobile home park; provided, however, that a minimum front yard depth of 50 feet, of which the first 20 feet shall be landscaped and maintained, shall be required along a major arterial.

(5) Such trailer or mobile home park shall not accept trailers until at least 50 percent of its lots have been completely developed together with facilities as required by other ordinances and regulations.

(6) Such trailer or mobile home park shall be required to also meet regulations required by other local codes and ordinances.

24.2.3. *Camping trailer courts.*

(1) Minimum parcel of land required shall be not less than two acres for each court.

(2) Minimum size lot required for each trailer space shall be not less than 15 feet wide and 40 feet long.

(3) A buffer strip not less than 20 feet deep shall be provided completely around the court; provided, however, that a minimum front yard depth of 50 feet, of which the first 20 feet shall be landscaped and maintained, shall be required along a major arterial.

(4) Such camping trailer court shall not accept trailers until 50 percent of its lots have been completely developed together with facilities as required by these regulations.

(5) [For] side yard setback, trailers shall be set back a minimum of five feet from the side lot or space line.

24.2.4. *Business structures and other permitted uses.*

(1) Minimum required depth of front yard, all structures shall be set back not less than 50 feet from arterial rights-of-way and not less than five feet from all collector and local street rights-of-way.

(2) Minimum required depth of rear yard—none, except where the rear lot line abuts a residential district there shall be provided a rear yard of not less than 20 feet.

(3) Minimum required width of each side yard, none, except where a side lot line abuts a residential district there shall be provided a side yard of not less than 20 feet.

(4) Maximum number of stories shall be ten.

24.2.5 *Multiple family dwelling within opportunity zones.*

Plans for multiple family projects containing two or more buildings which are located on the same parcel of land within an opportunity zone, as defined by the Tax Cuts and Jobs Act of 2017 shall be presented to the planning commission for review. The planning commission shall make certain the proposed development meets the following requirements:

(1) The proposed development shall comply with requirements and intent of the subdivision regulations relative to access, drainage, utilities, and major streets.

(2) Sidewalks not less than four feet wide are required in the project area leading from all front and rear doors to streets. Sidewalks are also required along all property of the project abutting streets.

(3) Closest permitted distance between any two apartment buildings shall be ten feet for one-story buildings; 14 feet for two-story buildings or more.

(4) Minimum distance from an apartment building to a parking space shall be eight feet.

(5) Minimum distance from front or side of an apartment building shall be 50 feet to a major arterial right-of-way and five feet to other public street rights-of-way.

(6) Minimum distance from either rear or side of apartment building to side and rear lot line shall be five feet, except where the rear or side lot line abuts a residential district there shall be provided a distance not less than 25 feet.

(7) Minimum distance from front of one apartment building to front of another apartment building shall be 12 feet, except when the apartment building has a height of 25 feet or above then a 30-feet distance is required.

(8) Windows in all apartment buildings shall have not less than a 12-foot view (measured perpendicular from the window) unobstructed by other buildings located on the same parcel of land. Except, when an apartment building has a height of 25 or above then a 20-foot view is required.

(9) Minimum distance from the parking areas to any street right-of-way shall be 20 feet.

(10) Maximum number of stories shall be ten.

(11) Maximum number of structures shall be limited to four structures per acre.

(12) No front of a multi-family dwelling building shall be in the rear of another building.

(Ord. No. 17-164, § 1, 4-27-2017; Ord. No. 19-665, § 1, 9-26-2019; Ord. No. 22-685, § 1, 10-27-2022; Ord. No. 22-484, § 1, 8-25-2022)

24.3. Required yards.

24.3.1. Off-street parking areas, driveways and vehicular access ways, except as necessary to cross the required front yard, are not permitted in the first 20 feet of the required front yard as measured from the arterial right-of-way or in the first five feet of the required front yard as measured from the collector and local streets right-of-way. Said area shall be landscaped and maintained in a manner as to be neat in appearance when viewed from any street.

24.3.2. Exterior storage of materials shall be in the side and rear yards only and shall be contained by fencing in such a manner as to be neat in appearance when viewed from any street. No exterior storage or display of materials or products, whether for sale or not, is permitted in the required front yard except farm equipment sales, new and used car sales, trailer sales, recreational vehicle sales and mobile home sales and these uses shall not be permitted in the first 20 feet of the required front yard.

24.3.3. A seven-foot-high screen shall be provided along the perimeter at the rear and side yards of the tract to be developed and/or used for commercial purposes when the tract abuts either on the rear or side lot line of a residential district. Such screening shall not extend closer than 50 feet to any street right-of-way. If planting is to be used as a screen, it shall be provided as set forth in section 3.1, buffer of screen planting, hereof. Such plants shall be initially not less than seven feet in height.

(Ord. No. 09-430, § 5, 7-9-2009; Ord. No. 17-164, § 2, 4-27-2017; Ord. No. 18-03, § 2, 2-22-2018)

24.4. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

24.5. Off-street parking and loading requirements.

For single tenant developments, off-street parking and loading requirements shall be provided as set forth in article 70 hereof.

For multi-tenant, mixed use, and multi-family developments, shared parking and loading requirements shall be provided as set forth in the Shared Parking Factor matrix of article 27 hereof.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 09-430, § 6, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010; Ord. No. 17-164, § 3, 4-27-2017)

24.6. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71, off-street parking and vehicular use area landscaping requirements, except for multifamily dwellings which must comply only with section 71.6, PVA lighting requirements, when applicable.
(Ord. No. 99-1020, § 1, 1-13-2000; Ord. No. 09-430, § 8, 7-9-2009)

Editor's note—Ord. No. 09-430, § 7, adopted July 9, 2009, repealed § 24.6, which pertained to off-street loading requirements. Section 8 of said ordinance renumbered § 24.7 as § 24.6. See also the Code Comparative Table.

24.7. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.3, and shall be regulated by article 75 - alcoholic beverage establishment regulations.
(Ord. No. 11-11, § 8, 2-24-2011)

ARTICLE 25. COMMERCIAL RECREATION C-5 DISTRICT REGULATIONS

Purpose. The commercial recreation C-5 district is established to provide areas under unified control in which the principal use of land is devoted to recreation and resort complexes catering to the local or tourist population. The intent is to reserve lands which because of particular location and natural features are adapted for such recreational uses and to encourage the development of these locations in such a manner as to minimize traffic hazards and to foster compatibility with other uses in the vicinity.

25.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Amusement parks and entertainment centers.

Cafes, delicatessens, coffee shops and restaurants without alcohol.

Camping facilities and grounds and tourist oriented trailer parks not for permanent residence.

Convenience foodstores of no more than 4,000 square feet in floor area operated as an accessory use to other principal uses.

Country clubs and golf courses.

Educational institutions, including dormitories, faculty domiciles and related uses.

Farmers markets.

Hotels and motels.

Marinas and related waterfront uses.

Mobile food vending sites.

Mobile food vending units.

Municipal, county, state or federal use, including publicly owned or operated libraries, museums, art galleries and exhibit centers.

Other uses similar in character to those enumerated herein.

Residential uses only in connection with other principal permitted uses.

Souvenir and curio shops, only when operated in conjunction with another principal use enumerated herein.

Buildings, structures, and uses accessory and customarily incidental to any of the above uses.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.
(Ord. No. 97-707, § 1, 11-13-1997; Ord. No. 03-593, § 4, 8-14-2003; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 11-11, § 9, 2-24-2011; Ord. No. 13-882, § 2, 12-19-2013; Ord. No. 15-406, § 2, 7-23-2015)

25.2. Density controls and setbacks.

25.2.1. Minimum lot area shall not be less than five acres for each use or group of uses as originally proposed. Additions of less than five acres to existing uses shall be allowed.

25.2.2. Yards facing an existing or proposed public street other than a controlled access highway shall be considered front yards. Such yards shall have a minimum depth of 50 feet, provided that no building shall project through an imaginary height plane as described in section 25.6.

25.2.3. All other yards shall have a minimum depth of 25 feet, provided that no building shall project through an imaginary height plane as described in section 25.6.

25.2.4. All required yards shall be kept clear of parking, loading areas, accessory uses and buildings; provided, however, a gate or security station may be located in a required yard.

25.3. Street access and frontage.

25.3.1. Each lot shall have a minimum frontage of 100 feet on a public road.

25.3.2. Access to building sites shall be via collector or arterial streets wherever possible. No access roads serving sites shall be permitted which may place heavy traffic on residential streets that are not classified as major collector or arterial streets.

25.4. Off-street parking and loading requirements.

Off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 09-430, § 9, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

25.5. Off-street parking and vehicular use area (PVA) landscaping and lighting requirements.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71, off-street parking and vehicular Use area (PVA) landscaping requirements.
(Ord. No. 09-430, § 10, 7-9-2009)

25.6. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 09-430, § 11, 7-9-2009; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

25.7. Height.

No portion of any building shall project through imaginary height planes leaning inward from yards as defined in section 25.2.2 or 25.2.3 at a slope of 1.0 foot of height for each foot of horizontal distance measured perpendicularly to the property boundary.
(Ord. No. 09-430, § 11, 7-9-2009)

25.8. Development procedure.

25.8.1. Anyone desiring to receive a building permit for the use of land lying in a commercial recreation C-5 district must submit to the manager of planning the following information for the approval of plans:

(1) A site plan showing property boundaries, easements, locations and design of buildings, driveways, driveway intersections with streets, parking and loading areas, grading and landscaping plans, and sidewalks.

(2) Plans for all signs to be erected, including location, design, color and lighting of each sign.

25.8.2. The manager of planning shall review and approve by signature the proposed site plan upon finding that the same complies with these regulations. If the proposed site plan is not approved, the manager of planning shall state in writing on the proposed site plan the cause for such disapproval.
(Ord. No. 09-430, § 11, 7-9-2009)

25.9. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.4, and shall be regulated by article 75 - alcoholic beverage establishment regulations.
(Ord. No. 11-11, § 9, 2-24-2011)

ARTICLE 26. CENTRAL BUSINESS C-B DISTRICT REGULATIONS

Purpose. The Central Business C-B District is intended to serve as a community focal point by recognizing and encouraging those unique characteristics that make Huntsville and its downtown distinctive. For 150 years Huntsville has functioned as a small, rural town although growth during the late 20th century has partially obscured those origins. The downtown and adjoining residential historic preservation districts are the only surviving concentrations of the historic town; two of the districts are listed on the National Register of Historic Places and more than 35 structures and sites in the commercial core are individually listed on the Register.

The purpose of these regulations is to continue the development of the downtown in such a way as to provide a strong sense of continuity with the past by continuing those characteristics that created its identity: a dense concentration of low-scale buildings, a pedestrian rather than car orientation, high-quality materials and design, a diversity of uses including street level retail and services uses, and generous landscaping to soften the streetscape and buffer where needed.

The streets in the downtown area are the networks of public open space that set the tone for the district. Because visual continuity is an important aspect in creating an identity for the downtown, a consistency in streetscape design should extend to redevelopment of the streets, the sidewalk pavement, the landscaping, and street furniture. To further enhance this continuity, a moderate building is specified, the intrusion of surface parking is discouraged, street level retail and commercial service uses are encouraged and identifiable building entrances are required.

The ten-story height limit assures that new construction will be compatible with historic structures; minimizes the wind tunnel effect between buildings; assures the penetration of sunlight to ground level; enhances the pedestrian streetscape; and is conducive to small scale retail and service establishments.

While parking cannot be eliminated, it can be treated so as to diminish its disruptive effects on the streetscape and its unsightly visual qualities. Surface parking is held to a minimum in this district and landscaping is required wherever parking abuts pedestrian use areas. The goal is to eventually replace surface lots with occupied buildings and to have parking provided in multi-level garages or within the buildings themselves.

Within a Central Business C-B District as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

26.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Antique stores.

Apparel stores.

Art and craft galleries and studios.

Bakeries, where not more than five persons are employed on the premises and where the products made are sold exclusively at retail on the premises.

Banks and credit unions.

Barber shops and beauty parlors.

Book, map, card and stationery stores.

Brewpubs and beer breweries.

Cafes, delicatessens, coffee shops and restaurants without alcoholic beverages.

Churches and similar places of worship.

Class 1 and Class 2 restaurants and Class 3 On-Premises Beer or Table Wine Retailers including sidewalk cafes.

Class 1 and Class 2 On-Premises Beer and Table Wine Retailers.

Class 3 Lounges.

Class 4 Lounges—Provided that such use shall be subject to each of the following restrictions:

(1) (a) A Class 4 Lounge shall not be located within 500 feet of a residential district.

(b) Said distance shall be measured from the external boundary of the licensed premises of the Lounge, inclusive of any adjoining parking areas whether such areas are owned, leased or otherwise assigned to the Lounge, to the closest point of the residential district boundary.

(2) (a) A Class 4 Lounge shall not be located within 500 feet of a church, or public or private elementary or secondary school, nursery, kindergarten or day care center, except a Class 4 Lounge may be located within 500 feet of accessory day care centers located in office buildings.

(b) Said distance shall be measured from the external boundary of the licensed premises of the Class 4 Lounge, inclusive of any adjoining parking areas whether such areas are owned, leased or otherwise assigned to the Class 4 Lounge, to any buildings within which such other uses are located.

(c) The aforesaid distance restrictions from churches, schools, nurseries, kindergartens and day care centers shall not apply in the following enumerated cases: (i) where the licensed premises and the church or school, nursery, kindergarten or day care center front on different streets and do not have common exits or driveways providing access or adjoining property lines, or (ii) where the church, school, nursery, kindergarten or day care center was established after the licensed premises began operation and said operation has not been abandoned or discontinued for a period of six months.

Clubs.

Commercial and trade schools.

Commercially operated parking garages having at least two levels of parking.

Computer and telephone sales and service shops.

Computer programming, software design and web design services.

Confectionery stores.

Convenience stores.

Dance and music academies.

Drug stores.

Dry cleaning pick-up stations.

Florist shops.

Food kiosks and street vendors.

Grocery, health, and ethnic food stores.

Gymnasiums, reducing salons, fitness and exercise centers, health clubs and spas.

Hardware stores, gift shops, hobby shops and variety stores.

Home furnishings stores.

Hotels and bed & breakfasts.

Jewelry stores and watch repair shops.

Launderettes.

Locksmiths.

Medical, optical and dental offices and clinics for health professionals, excluding overnight care and ambulance services.

Municipal, county, state or federal uses and facilities.

Music and video stores.

Newsstands.

Newspaper offices.

Notions and dry goods stores.

Nurseries, kindergartens or day care centers for children.

Office supply stores.

Offices for accountants, architects, attorneys and other professionals; consumer service offices such as real estate agencies, insurance agencies, travel agencies and advertising agencies; and administrative offices.

Off-premises beer retailer and off-premises table wine retailer—Provided that such uses shall not be within 500 feet of a residential district as measured from the external boundaries of the property of said uses, nor within 500 feet of any buildings in which there is a church, or public or private elementary or secondary school, nursery, kindergarten or day care center. The aforesaid distance restrictions from churches, schools, nurseries, kindergartens or day care centers shall not apply in the following enumerated cases: (i) where the licensed premises and the church or school, nursery, kindergarten or day care center front on different streets and do not have common exits or driveways providing access or adjoining property lines, or (ii) where the church, school, nursery, kindergarten or day care center was established after the licensed premises began operation and said operation has not been abandoned or discontinued for a period of six months.

Performing arts centers.

Pet supply stores, excluding the sale of live animals.

Photography studios and photo retail sales.

Private schools.

Pub—Provided that such use shall be subject to each of the following restrictions:

(1) (a) A pub shall not be located within 500 feet of a residential district;

(b) Said distance shall be measured from the external boundary of the licensed premises of the Pub, inclusive of any adjoining parking areas whether such areas are owned, leased or otherwise assigned to the Pub, to the closest point of the residential district boundary.

(2) (a) A pub shall not be located within 500 feet of a church, or public or private elementary or secondary school, nursery, kindergarten or day care center, except a pub may be located within 500 feet of a accessory day care centers located in office buildings.

(b) Said distance shall be measured from the external boundary of the licensed premises of the pub, inclusive of any adjoining parking areas whether such areas are owned, leased or otherwise assigned to the pub, to any buildings within which such other uses are located.

(c) The aforesaid distance restrictions from churches, schools, nurseries, kindergartens and day care centers shall not apply in the following enumerated cases: (i) where the licensed premises and the church or school, nursery, kindergarten or day care center front on different streets and do not have common exits or driveways providing access or adjoining property lines, or (ii) where the church, school, nursery, kindergarten or day care center was established after the licensed premises began operation and said operation has not been abandoned or discontinued for a period of six months.

Quick copy or print shops.

Radio and television studios but not including broadcast towers.

Radio, television and appliance stores and repair shops.

Residential dwelling units—Provided such residential units occupy upper-story space within new or rehabilitated existing buildings

having nonresidential uses on the street level and provided that such residential units contain at least 800 square feet and are in compliance with all applicable regulations for habitable space. All such residential uses shall have an entrance separate from the nonresidential uses on the street level unless the entrance to the building opens into a lobby from which access to each use originates.

Shoe stores, shoe repair shops and tailor shops.

Social, social service, union and civic organizations.

Sound and video recording studios.

Sporting goods shops.

Telephone answering services and telemarketing services.

Upholstering shops employing not more than five persons.

Other uses that are similar to and fit within one of the above categories but not including (1) off-premises liquor retailers, (2) new commercially operated surface parking lots, (3) tattoo and body piercing parlors, (4) flea markets, (5) gasoline service stations, (6) car wash facilities or (7) storage facilities. No use shall be permitted which is not in harmony with the character of the district and with the specifically enumerated uses by reason of noise, odor, dust, dirt, gases, vibration, fire and explosive hazards. It is further stipulated that no exterior storage of wares, goods or materials shall be permitted within this district.

(Ord. No. 06-1201, § 1, 1-25-2007 Ord. No. 07-401, § 4, 6-14-2007)

26.2. Density controls.

Due to the historic nature of this district as a retail, office and residential area, with buildings abutting the sidewalks and sharing party walls, the following density requirements shall apply:

26.2.1. Front yards. None required and none permitted, except:

(1) A National Register listed building moved from its original site may retain its existing setback to a maximum of ten feet; or

(2) Parking garages using the landscaped setback option rather than the street level wall requirements.

All open space on a site not covered by building, parking or sidewalks shall be landscaped according to the applicable provisions of Section 26.5—Landscaping Requirements.

26.2.2. Side and rear yards. None required except where a side or rear lot line abuts a residential district. In that case, there shall be provided a side or rear yard equal to twice the height of the tallest portion of the rear building wall, of which the first ten feet along the district boundary shall be planted and maintained as a landscape buffer as specified in section 26.5.2. The remaining setback may be landscaped or used for a driveway or parking.

26.2.3. Height.

(1) Maximum height for new construction is limited to ten stories and 150 feet above the sidewalk on which it fronts; however, where the property abuts a residential zoning district or is across the street from residentially zoned land, then the maximum height shall be two stories and 30 feet.

(2) Elevator shafts and similar structural elements not intended as places of occupancy or storage; heating, ventilating and air conditioning equipment; solar collectors; communication and transmission devices and similar mechanical fixtures may extend above the roof if they conform to the following requirements:

(a) No more than one-third of the roof area may be used for such features;

(b) These fixtures must be set back from the edge of the roof a minimum distance of two feet for every foot by which they extend above the roof surface up to a maximum height of 15 feet; and

(c) All such roof fixtures must be screened by an architectural

structure compatible in material and design with the main body of the building.

(Ord. No. 06-1201, § 1, 1-25-2007)

26.3. Off-street parking requirements.

26.3.1. Off-street parking is not required in the Central Business C-B District; however, where off-street parking and vehicular use areas are provided, lighting is required in accordance with Section 71.6—PVA Lighting Requirements. Off-street loading and vehicle standing space shall be provided as required in Article 70 hereof. No surface parking or vehicular drive parallel to the street shall be permitted between a building and any street on which it has frontage.

26.3.2. Five or more surface parking spaces must be screened from streets, pedestrian areas, and sidewalks according to the provisions of Section 26.5.1 and Section 26.5.2.

26.3.3. Surface parking shall utilize alleys for ingress and egress. A curb cut from a public street will be allowed only if alternative access is not available.

26.3.4. No more than 15 percent of a building site or other tract may be utilized for surface parking. If additional spaces are needed, they shall be provided within the building itself or within a parking garage.

26.3.5. All parking surfaces and unpaved driveways shall be curbed along their perimeters.

26.3.6. Parking garages erected within the district shall comply with the following requirements:

(1) All street level garage frontages shall provide commercial space equivalent to 75 percent of the linear frontage of street frontage, exclusive of driveways; such commercial space shall be a minimum of 18 feet deep as measured from the facade of the building;

or

The garage must have a landscaped setback of ten feet, planted and maintained as required by Section 26.5.2—General Landscape Requirements.

(2) Vehicular driveways shall be sited and designed so as to create the least hazard to pedestrians, and curb cuts shall not exceed 25 percent of any street frontage greater than 160 feet.

(3) The ground floor facade should be differentiated from the upper levels to further enhance the continuity of the street wall and shall comply with the provisions of Section 26.4.1—Street Level Walls.

(4) Sloping floor levels shall not be revealed or implied by the exterior design of the garage elevations.

(5) Parked cars shall be screened from public view.

(6) Facades should be designed to be compatible with the surrounding buildings in terms of scale, color and texture of materials, form and massing, and design detailing.

(Ord. No. 06-1201, § 1, 1-25-2007)

26.4. Site development.

The Central Business C-B District is intended to create a stable urban core that will preserve and enhance the many historic buildings while adding new buildings that will expand and contribute to the low scale, small town, urban environment that makes the downtown attractive for pedestrians. Every effort should be made to preserve and renovate the historic structures and to create new infill construction that is compatible with the old in terms of scale, proportion, materials, design and function without being imitative. The Central Business C-B District is perceived as being a very specialized sector of the city, one that combines private and governmental businesses with entertainment and tourism while encouraging high density residential development as an integral part of the mix. The regulations that follow focus on those aspects of development that are essential to the creation of a center that attracts people, who in turn provide the vitality that makes the downtown successful.

26.4.1. Street level walls. The purpose of the street level wall requirement is twofold. The first goal is to promote the establishment

of a variety of retail, service and entertainment type businesses for the convenience of the office, residential, and tourist populations in the downtown area. The second aim is to promote pedestrian use and activity and to encourage a higher degree of street life and vitality in the downtown. Retailing is enhanced by having transparent store fronts abutting the sidewalk and by assembling a critical mass of continuous retail activities along adjoining streets.

(1) The front facade of all new buildings shall be oriented toward a public street as shall the principle entrances.

(2) Doorways shall be recessed into the building interior to a depth sufficient to separate sidewalk traffic from outwardly opening doors, to create focal interest, and to punctuate the street wall.

(3) To maintain consistency with the existing historic streetscapes, new construction shall utilize natural materials for the exterior cladding of all visible wall surfaces. Acceptable materials include, but are not limited to, brick, stone, concrete stucco, terra cotta, recast concrete and glass. Synthetic and imitation materials as well as metal, aluminum, vinyl and plastic materials are not acceptable.

(4) To create an animated streetscape, at least 50 percent of the street level walls shall be windows and doorways. An unbroken expanse of solid or blank wall shall not exceed 20 linear feet. Devices suitable to break such a wall span include street art, fountains, plazas, trees and landscaping, pedestrian furniture and the introduction of variety in materials, texture, color and/or pattern of wall materials.

(5) Street level commercial spaces should be configured as units 15 to 40 feet wide in order to stimulate visual interest, establish a predictable rhythm for pedestrians, and encourage the introduction of small retail and service businesses.

(6) Windows located in street level walls, with the exception of stained glass windows, shall be transparent.

26.4.2. Utilities and mechanical units.

(1) All power, communication and other wiring shall be located underground.

(2) All exterior mechanical equipment, trash facilities, and loading areas shall be adequately screened as well as practicable so as not to be visible from any street or by pedestrians.

(Ord. No. 06-1201, § 1, 1-25-2007)

26.5. Landscaping requirements.

26.5.1. landscape buffers for surface parking. Buffer strips required to separate surface parking spaces from streets and pedestrian uses shall be landscaped in one of the following ways:

(1) A five-foot wide planting bed having a continuous masonry wall between 30 and 42 inches high planted on the street side with at least one nondeciduous vine or shrub for every ten feet of wall length and one small maturing tree for every 30 feet of wall length. Trees, shrubs and vines shall be evenly distributed along the length of the wall.

(2) A five-foot bed having a hedge of a nondeciduous species, planted and maintained to form a continuous visual screen at least 30 inches high within one year of planting and one small maturing tree for every 30 linear feet of required planting bed. The bed shall be planted with an evergreen ground cover.

26.5.2. General landscape requirements.

(1) Plant material used to fulfill these requirements must be provided with an adequate irrigation system which does not rely on drainage from the street, sidewalk, or buildings.

(2) All plant material must conform to the current version of the "American Standard for Nursery Stock" published by the American Association of Nurserymen.

(3) The owner of any lot that becomes vacant for any reason after the date of adoption of this article shall have 180 days to either secure a building permit and begin construction of a new building or landscape the first 15 feet adjoining the public right-of-way in accordance with Section 26.5.1.

(4) The species of trees used must be consistent with adopted city ordinances concerning urban trees.

(5) Maintenance of landscaping in a healthy, neat and attractive condition is the responsibility of the owner of the property. Specifically, all plant material shall be watered, fertilized, pruned, kept free from weeds and litter, and replaced if diseased, injured or dead in a manner consistent with good horticultural practices.

(6) All landscaping shall be installed in accordance with Section 73.19—Installation of Landscaping.

(Ord. No. 06-1201, § 1, 1-25-2007)

26.6. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 06-1201, § 1, 1-25-2007; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

ARTICLE 27. VILLAGE BUSINESS C-6 DISTRICT REGULATIONS

Purpose.

The Village Business C-6 District is intended to preserve neighborhood character as well as encourage a variety of uses in a more pedestrian oriented setting and sustain a harmonious transition between existing and new structures. This district is intended to encourage innovative redevelopment projects that set standards for landscaping, community design and aesthetics.

Within a Village Business C-6 District as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

(Ord. No. 15-677, § 1, 10-22-2015)

27.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Accessory structures and uses.

Agricultural uses.

Antique stores and art galleries, excluding flea markets.

Bakeries, where not more than five persons are employed on the premises.

Barber shops, beauty parlors, reducing salons and fitness/exercise centers, excluding tattoo and body piercing parlors.

Book, map, card and stationery stores.

Cafes, delicatessens, coffee shops and restaurants without alcoholic beverages.

Churches and similar places of worship.

Computer programming, software design and web design services.

Dance and music academies.

Drug stores.

Florist shops.

Grocery, health, and ethnic food stores.

Gift shops.

Home furnishings stores.

Jewelry stores and watch repair shops.

Multiple family dwellings, accessory structures and uses.

Municipal, county, state or federal uses and facilities.

Music and video stores.

Newsstands and hobby shops.

Notions and dry goods stores.

Office supply stores.

Offices for accountants, architects, attorneys and other professionals; consumer service offices

such as real estate agencies, insurance agencies, travel agencies, advertising agencies; and administrative offices.

Performing arts centers.

Photography studios and photo retail sales.

Quick copy print shops.

Radio and television studios but not including broadcast towers.

Residential dwelling units—provided such residential units occupy upper-story space within new or rehabilitated existing buildings having non-residential uses on the street level and provided that such residential units are in compliance with all applicable regulations for habitable space. All such residential uses shall have an entrance separate from the non-residential uses on the street level unless the entrance to the building opens into a lobby from which access to each use originates.

Shoe stores, shoe repair shops and tailor shops.

Sound and video recording studios.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.2 hereof.

(Ord. No. 15-677, § 1, 10-22-2015)

27.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in Article 73 hereof:

(1) Minimum front yard requirements: None.

(2) Minimum rear yard requirements: None, except that when the rear lot line abuts a residential district, except across an alley or street, a rear yard of 25 feet is required of which the first five feet of the required rear yard shall be landscaped with a minimum of one small Type 3 or Type 4 tree and six shrubs per each linear 50 feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass.

(3) Minimum side yard requirements: None, except that when the side lot line abuts a residential district, except across a street, a side yard of ten feet is required.

(4) Maximum height is 35 feet.

(Ord. No. 15-677, § 1, 10-22-2015; Ord. No. 16-648, § 1, 10-27-2016)

27.3. Site development.

In order to promote the purpose of the district the following standards shall be applied:

(Ord. No. 15-677, § 1, 10-22-2015)

27.3.1. Building size, architecture, and walkability.

(1) For purposes of this section: (a) buildings sharing a common wall or having walls touching at or above grade shall be considered as one building; (b) the term "retail trade" means an establishment engaged primarily in selling goods, including groceries, or merchandise to the general public at retail.

(2) An individual retail trade, including tenants, shall not occupy more than 25,000 square feet of gross floor area in a building, including all interior floor space, roof top parking, and outdoor retail and storage areas.

(3) A group of retail trades separately owned or operated, including tenants, shall not occupy more than 50,000 square feet of floor area in a building, including all interior floor space, roof top parking, and outdoor retail and storage areas.

(4) New buildings shall not have, nor shall existing buildings be altered to have, a distinct architectural style commonly employed by retail franchises to enhance or promote brand identity through visual recognition.

(5) Where buildings are not contiguous, the space between them shall be a minimum of ten feet and shall be improved for use by cyclists, pedestrians, or vehicles, or be landscaped.

(Ord. No. 15-677, § 1, 10-22-2015)

27.3.2. Street level walls. The purpose of the street level wall requirement is to promote pedestrian use and activity and to encourage a higher degree of street life and vitality in the village district. Retailing is enhanced by having transparent store fronts abutting the sidewalk and by assembling a critical mass of continuous retail activities along adjoining streets.

(1) Doorways that front on a public sidewalk shall be recessed into the building interior to a depth sufficient to separate sidewalk traffic from outwardly opening doors, to create focal interest, and to punctuate the street wall.

(2) New construction, including substantial remodeling, shall utilize natural materials for the exterior cladding of all visible wall surfaces. The facades should be designed to be compatible with the purpose of the district in terms of scale, color and texture of materials, form and massing, and design detailing. Acceptable materials include, but are not limited to, brick, stone, concrete stucco, terra cotta, precast concrete, glass, and where appropriate, cast metal for fenestrations, columns and beams. Reflective materials, including mirrored glass should be avoided as primary materials. Synthetic and imitation materials as well as aluminum, steel or other metal siding or cladding, vinyl and plastic materials are not allowed, except as a special exception in accordance with section 92.5.3(37). Where a new or remodeled non-residential building abuts a lot containing an existing single or two-family dwelling unit or a residential district, its facades should be designed to be compatible with the residential use in terms of scale, color and texture of materials, form and massing, and design detailing.

(3) To create an animated streetscape, an unbroken expanse of solid or blank wall shall not exceed 20 linear feet. Devices suitable to break such a wall span include doors, windows, display windows and cases, street art, fountains, plazas, trees and landscaping, pedestrian furniture and the introduction of variety in materials, texture, color and/or pattern of wall materials.

(4) Street level commercial spaces should be configured as units in order to stimulate visual interest, establish a predictable rhythm for pedestrians, and encourage the introduction of small retail and service businesses.

(5) Windows located in street level walls, with the exception of stained glass windows, shall be transparent.

(Ord. No. 15-677, § 1, 10-22-2015; Ord. No. 25-157, § 11, 4-24-2025)

27.3.3. Utilities and mechanical units.

(1) All electrical, communication and other wiring shall be located underground within the alleys where practicable.

(2) All exterior mechanical equipment and loading areas shall be adequately screened as well as practicable so as not to be visible from any street or by pedestrians.

(3) Trash collection facilities and dumpsters shall be concealed by solid wood and/or masonry walls for their full height. Where wood is used as the screening material, it shall be securely attached to an all metal support structure; if the wood is not pressure treated, it shall be cedar, redwood or cypress; and no wood member shall exceed 12 inches in width. The gates shall be of metal, shall be at least 80 percent opaque, and shall be self-closing.

(Ord. No. 15-677, § 1, 10-22-2015)

27.3.4. Landscaping requirements.

(1) *Landscape buffers for surface parking.* Buffer strips required to separate surface parking spaces from streets and pedestrian uses shall be landscaped in one of the following ways:

(a) A minimum five-foot wide planting bed having a continuous masonry wall between 30 and 42 inches high planted on the street side with at least one nondeciduous vine or shrub for every ten feet of wall length and

one small maturing tree for every 30 feet of wall length. Trees, shrubs and vines shall be evenly distributed along the length of the wall. The landscape bed shall be planted with an evergreen ground cover; or

(b) A minimum five-foot wide bed having a hedge of a nondeciduous species, planted and maintained to form a continuous visual screen at least 30 inches high within one year of planting and one small maturing tree for every 30 linear feet of required planting bed. The bed shall be planted with an evergreen ground cover.

(2) *General landscape requirements.*

(a) Plant material used to fulfill these requirements must be provided with an adequate irrigation system which does not rely on drainage from the street, sidewalk, or buildings.

(b) All plant material must conform to the current version of the "American Standard for Nursery Stock" published by the American Association of Nurserymen.

(c) The species of trees used must be consistent with adopted city ordinances concerning urban trees.

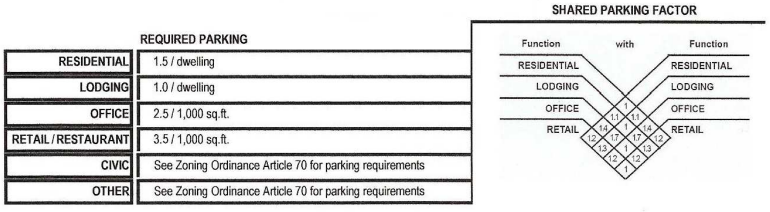
(d) Maintenance of landscaping in a healthy, neat and attractive condition is the responsibility of the owner of the property. Specifically, all plant material shall be watered, fertilized, pruned, kept free from weeds and litter, and replaced if diseased, injured or dead in a manner consistent with good horticultural practices.

(e) All landscaping shall be installed in accordance with Section 73.19—Installation of Landscaping.

(Ord. No. 15-677, § 1, 10-22-2015)

27.3.5. Exterior storage. No exterior storage of any type shall be permitted, unless it is totally contained, the containers are screened from public view, and such storage is located in a rear or side yard.

(Ord. No. 15-677, § 1, 10-22-2015)



27.4. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign Control Regulations.

(Ord. No. 15-677, § 1, 10-22-2015; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

27.5. Off-street parking and loading requirements.

For all single tenant, individual retail trade and multi-tenant retail trades, mixed use, and multi-family developments, shared parking is strongly encouraged. Off-street parking and loading requirement shall be provided as set forth on the following chart.

Sharing factor—The sharing factor may be used to calculate the required parking for any shared parking agreement or mixed use development (defined as two dissimilar functions occurring within the same development or property, as determined by the planning department). The actual parking required is calculated by adding the total number of spaces required by each

separate function and dividing the total by the appropriate factor from the Sharing Factor Table. When three or more uses share parking, the highest factor shall be used to calculate the required number of spaces.

(Example: A residential component with 50 units requires 75 spaces while a retail component, comprised of 14,000 square feet, requires 49 spaces. Independently they would require a total of 124 spaces, but when divided by the sharing factor of 1.2, they would require only 103 spaces. Buildings may be designed to a functional density corresponding to 124 parking spaces.)

Any available on-street and public parking, which correlates with the applicable site or development, shall be counted towards the overall parking and loading requirements. These parking spaces must be provided within 1,200 feet of the intended site or development.

Parking shall not be permitted in any required side yard nor in the first five feet of any required rear yard.

Required bicycle parking spaces and facilities shall be provided as set forth in Article 76 hereof.
(Ord. No. 15-677, § 1, 10-22-2015; Ord. No. 16-493, § 1, 8-25-2016)

27.6. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping of the interior of parking lots and lighting of off-street parking and vehicular use areas is required in accordance with the provisions of Article 71—Off-Street Parking and Vehicular Use Area Landscaping Requirements.
(Ord. No. 15-677, § 1, 10-22-2015)

27.7. Reserved.

27.8. Performance standards.

The performance standards listed in section 50.2 (Research Park District) hereof shall be required for all uses located in a Village Business C-6 District.
(Ord. No. 15-677, § 1, 10-22-2015)

27.9. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with Section 75.3—Permitted Establishments by Districts, subsection 75.3.7, and shall be regulated by Article 75—Alcoholic Beverage Establishment Regulations.
(Ord. No. 15-677, § 1, 10-22-2015)

CHAPTER III. PLANNED DEVELOPMENT PD DISTRICT REGULATIONS*

ARTICLE 30. PLANNED DEVELOPMENT PD DISTRICT REGULATIONS

Purpose. Within districts now existing or hereafter created, it is intended to permit establishment of new PD, planned development districts for specialized purposes where tracts suitable in location, area and character for the uses and structures proposed are to be planned and developed on a unified basis.

Suitability of tracts for the development proposed shall be determined primarily by reference to any applicable officially adopted plans, of the city, but due consideration shall be given to existing and prospective character of development of surrounding property.

PD districts shall be so related to the general development pattern and the objectives of applicable officially developed plans as to provide for comfort and convenience of occupants, facilitate protection of the character of surrounding neighborhoods, and provide facilities appropriate to the needs of the city. Within PD districts, regulations adapted to such unified planning and development are intended to accomplish the purposes of zoning and other applicable regulations to an equivalent or higher degree than where such regulations are designed to control unscheduled development on individual lots, and to promote economical and efficient land use, an improved level of amenities, appropriate and harmonious variety, creative design, conservation of resources, and a better environment.

*__Cross reference—__Businesses, ch. 8.

In view of the substantial public advantages of planned development, it is the intent of these regulations to promote and encourage development in this form where appropriate in location, character and timing.

30.1. Planned development, defined.

For the purposes of these regulations, a planned development is:

30.1.1. Land under unified control, to be planned and developed as a whole;

30.1.2. In a single development operation or a definitely programmed series of development operations, including all access, lands and buildings;

30.1.3. For principal and accessory structures and uses substantially related to the character and purposes of the district;

30.1.4. According to plans that include not only sewers, drainage, streets, utilities, lots and/or building sites and the like, but also typical floor plans and elevations for all buildings as intended to be located, constructed, used and related to each other, and detailed plans for other uses and improvements on the land as related to the buildings; and

30.1.5. With a program for provision, operation, and maintenance of such areas, improvements, facilities, and services as will be for common use by some or all of the occupants of, or visitors to, the district, but will not be provided, operated, or maintained at general public expense.

30.2. Relation of PD regulations to general zoning, subdivision or other regulations; variations on equal satisfaction of public purposes.

The planned development regulations that follow shall apply generally to the initiation and regulation of all planned development districts. Where there are conflicts between the special PD regulations herein and general zoning, subdivision or other regulations or requirements, these regulations shall apply in PD districts unless the city council shall find, in the particular case, that provisions herein do not serve public purposes to a degree at least equivalent to such general zoning, subdivision, or other regulations or requirements.

Where actions, designs, or solutions proposed by the applicant are not literally in accord with applicable PD or general regulations, but the city council makes a finding that in the particular case public purposes are satisfied to an equivalent or greater degree, council may make specific modification of the regulations in the particular case, provided that where floor area and similar ratios (other than off-street parking requirements) have been established by PD regulations, council shall not act in a particular case to modify such ratios.

Except as indicated above, notwithstanding procedures and requirements generally in effect, procedures and requirements set forth herein, and in guides and standards officially adopted as part of regulations for particular classes of PD districts, shall apply in PD districts, to any amendments creating such districts, and to issuance of all required permits therein.

30.3. Planned development PD districts, where permitted; how established and designated.

Planned development PD districts may hereafter be established by amendment to the official

zoning maps and related amendatory action where tracts suitable in location and character for the uses and structures proposed are to be planned and developed on a unified basis, according to the requirements and procedures set forth herein.

PD districts shall be appropriately located with respect to intended function, to the pattern and timing of development existing or proposed in officially adopted plans, and to public or private facilities existing or clearly to be available at the time the development reaches the stage where they will be needed. All requirements specified in article 90, amendments, shall be met, as well as the following specific requirements:

30.3.1. *Access.* PD districts shall be directly accessible from major or collector streets, and shall be so designed as to provide direct access, without creating an additional amount of traffic on local streets in adjoining residential neighborhoods that would exceed the amount of traffic created if developed under existing zoning. Local streets may be connected only when it can be certified that by doing so this will not create an unnecessary hardship within the PD district or surrounding residential areas. A traffic demand analysis must be submitted before local streets can be connected.

30.3.2. *Relation to public utilities, facilities and services; private provision or contribution.* PD districts shall be located in the proximity of adequate existing or planned sanitary sewers, water lines, storm and surface drainage systems, and other utility systems and installations.

30.3.3. *Physical character of the site; relation to surrounding property.* The site shall be suitable for development in the manner proposed, without hazards to persons or property, on or off the tract, from probability of flooding, erosion, subsidence or slipping of the soil, or other dangers, annoyances, or inconvenience. Condition of soil, ground water level, drainage, and topography shall be appropriate to both kind and pattern of such intended development.

If appropriate to the form of planned development, lands to be included in PD districts may be divided by streets, rights-of-way or easements, waterways or other separation, but shall be so located, dimensioned, and arranged as to permit unified planning and development and to meet all requirements in connection therewith, as well as to provide necessary protection against adverse relationships between uses in the district and uses in surrounding areas.

30.4. PD additions to PD districts.

Where planned development additions are proposed to an existing PD district, and where the land and proposed plan of development is appropriately related to the existing PD district and provides necessary safeguards in relation to the surrounding area, PD amendments allowing such additions may be made without regard to the minimum area requirements set forth herein. Such additions may be of the same classification as the PD district being added to, or may be of another classification if the planning commission recommends and the city council approves such other classification and plans proposed therefor as complementary to the original PD district.

30.5. Procedures on PD amendments.

Applications for amendment shall be submitted as for other amendments, and the following additional procedures shall be followed and requirements met:

30.5.1. *Preapplication conference.* Before submitting an application for PD amendment, a prospective applicant may confer with the manager of planning or his delegated representative to obtain information and guidance before entering into binding commitments or incurring substantial expense in the preparation of plans, surveys, reports, and other data. In arranging such meetings, the manager of planning may request the attendance of such officials or agency representatives as may be appropriate in the circumstances of the case. No statement made or information given during such preapplication conferences shall be binding on the city or the applicant, but a record shall be kept of recommendations made, and a copy of such record shall be provided to the applicant.

30.5.2. *Applications for PD amendments; materials to be submitted with applications; materi-*

als to be submitted on subsequent request. Applications for PD amendments shall be submitted as for other amendments. Materials required with the application, or on subsequent request, shall include all plans, maps, studies or reports reasonably necessary to the city for the purpose of making required determinations generally, or in the particular case, with copies as necessary for referrals and recording.

At the time of application, all of the following shall be filed:

(1) A location map on a scale of 1″ = 800′.

(2) A boundary and topographic survey of 1″ = 200′ with 5′ intervals and extending 500′, beyond the district boundaries. Existing features or conditions to be shown are public and private roads, pedestrian ways, utilities, and easements.

(3) A description of physical features establishing limitations on location or kind of development or access, including but not necessarily limited to:

(a) Slopes;

(b) Soils (erosion characteristics, construction limitations);

(c) Flood hazards (floodplains, major flash flood channels);

(d) Sinkholes, springholes, caves;

(e) Areas subject to slippage, sedimentation or rockfalls from above;

(f) Areas requiring special limitation or treatment to avoid hazards to property below from slippage, sedimentation, runoff, rockfalls; and

(g) Existing streams, creeks, lakes and natural drainage features.

(4) A description of natural or cultural features to be considered in relation to preservation which may establish further limitations on location or kind of development or access, including but not necessarily limited to:

(a) Significant tree stands, understory vegetation or other ground cover;

(b) Buildings or sites of substantial historic or cultural significance;

(c) Major trails and other established pedestrian ways; and

(d) Cemeteries.

(5) A report identifying all property owners within the area of the proposed PD district, and giving evidence of unified control of its entire area. The report shall state agreement of all present property owners and/or their prospective successors in title:

(a) To proceed with the proposed development according to the regulations in effect when the map amendment creating the district is passed, with such modifications as are set by the city council in the course of such action;

(b) To provide bonds, dedications, guarantees, agreements, contracts, and deed restrictions acceptable to city council for completion of such development according to approved plans; and for continuing operation and maintenance of such areas, facilities, and services as are not to be provided, operated, or maintained at general public expense; and such dedications, contributions, or guarantees as are required for provision of needed public facilities and services;

(c) To bind further successors in title to any commitments made under [subsections] (a) and (b) above.

(6) A preliminary development concept plan shall be submitted in addition to, or as part of, the report described above, together with proposals in accord with [subsections] (a) and (b) above, as a basis for specific agreements concerning plans, programs, and instruments, or specific modifications of details of applicable regulations where it is alleged by the applicant that such modification serves public purposes to an equivalent or higher degree than would strict conformity with such regulations.

In addition to identification of the proposed planned development, the developers and the persons or firm preparing the plan, scale, date, and similar details, this plan shall indicate:

(a) Use and approximate location, orientation, height, and floor area of proposed structures and portions of structures; similar data on existing structures, if any;

(b) Points of access for principal pedestrian and vehicular ways, plan for access from external ways, circulation pattern within the district;

(c) Location of water, sewerage and drainage facilities, lines, and easements of other utilities, within the district and as extended to connect outside the district;

(d) Location, character and scale of vehicular parking and service facilities;

(e) Relation to adjoining land uses and zoning districts, including, where view protection or provision is an objective, location of principal public viewpoints within, into, or through the proposed PD district;

(f) Existing lot and blocks, if any, and general pattern of proposed lot and blocks, if any; and

(g) Where development is to be in stages, nature and timing of each stage shall be indicated.

30.5.3. *Preliminary review of application as submitted; requirement for special studies, investigations or reports.* On receipt of the application and preliminary concept plan and proposals as indicated above, the manager of planning and such other agencies or officials as he may deem appropriate in the circumstances of the particular case shall study the proposal to determine conformity with any officially adopted plans of the city, and with the stated intent and substance of zoning and other applicable regulations.

In the course of such review, written findings shall be made as to the necessity for any special studies, investigations or reports needed to make determinations called for in the particular case, where existing information available to the planning division or cooperating agencies or officials is inadequate.

30.5.4. *Preliminary conferences with applicants.* Following such review, unless complete conformity is found and no special studies are required, the applicant shall be notified in writing of any discrepancies, and of the willingness of the manager of planning and other appropriate officials or agencies to confer for the purposes of assisting the applicant in bringing the material submitted as nearly as possible into conformity with requirements and/or to define specific modifications of regulations or officially adopted plans that seem justified in view of equivalent services of public purposes by the proposal.

The applicant shall also be informed of the need for any special studies, investigations or reports, and of the reasons such material is required in the circumstances of the particular case. Where the need for such special studies, investigations or reports arises as a result of a proposal for a PD district, applicants shall pay

all costs incidental thereto, and the studies shall be made by the city, agencies cooperating with the city, or experts acceptable to the city.

If the applicant does not desire to participate in such conferences, or to provide or pay the costs of any special studies, investigations or reports requested, the manager of planning shall base his report to the planning commission and city council on the application as received.

If the applicant joins in such conferences, changes may be made in the original proposal, further conferences may be held, and additional material requested on finding of need as above.

In the course of such preliminary conferences, any recommendations for changes shall be recorded in writing, with reasons therefor, and shall become part of the record in the case. Applicants shall indicate, in writing, their agreement to such recommendations, or their disagreement and reasons therefor; and such response by applicants shall also be included in the record.

30.5.5. *Planning division recommendations.* At such time as further conferences appear unnecessary, or at any time on request of the applicant, the planning division shall prepare a report to the planning commission and city council containing findings:

(1) As to the suitability of the tract for the general type of PD zoning proposed, physical characteristics of the land, and relation of the proposed development to surrounding areas and existing and probable future development;

(2) As to relation to, and access from, major or collector roads, and to utilities and other facilities and services;

(3) As to adequacy of evidence on unified control and suitability of any proposed agreements, contracts, deed restrictions, sureties, dedications, contributions, guarantees, or other instruments, or the need for such instruments, or for amendments in those proposed (with findings as to such matters based on opinions of the city attorney);

(4) As to the suitability of plans proposed, or the desirability of changes, with reasons therefor; and

(5) As to the desirable specific modifications in generally applicable regulations or officially adopted plans, as applicable in the particular case, based on determinations that such modifications are necessary or justified in the particular case by demonstration that the public purposes of PD or other regulations would be met to at least an equivalent degree by proposals of the applicant.

Based on such findings, the planning division shall recommend to the planning commission approval of the PD amendment as proposed, approval conditioned on specific stated modifications, or disapproval, with recorded reasons therefor.

30.5.6. *Actions by planning commission, city council.* Following receipt of the planning division report, the planning commission shall recommend to the city council approval of the PD amendment as proposed, approval conditioned on specific stated modifications, or disapproval with recorded reasons therefor. Where the PD development concept plan involves a subdivision of land, the planning commission may hold a public hearing on such subdivision as required by Alabama law before submitting a recommendation regarding the PD zoning proposal to city council.

Actions by the city council shall be as for zoning amendments generally. Council may grant the application in accord with PD and other regulations applicable, may include specific modifications of PD or other applicable regulations as provided at section 30.5.5(5), or may deny the application, with written reasons for the denial.

If amendment is granted, the city council shall in its amending action approve the preliminary development concept plan as it may have been changed during earlier procedures, or indicate

required modifications, if any, which shall be binding in determinations concerning final development plans. If modifications are required, the city council shall officially state its reasons therefor in the record.

If amendment is granted, the development shall be required to be in accord with final development plans meeting the requirements of these and other regulations, as supplemented or modified by the city council in the particular case as part of the amending action, and shall conform to any time or priority limitations established by council on beginning and completion of the development as a whole, or in specified stages.

At the time of amendment, the city council shall pass upon the adequacy in form and substance of any agreements, contracts, deed restrictions, sureties, or other instruments involved; and before development may proceed, such instruments shall be approved by appropriate officers and agencies.

30.5.7. *Planning commission action on approval of final plans.* Not more than 90 days after the city council approves the PD rezoning, the final plan must be submitted to the planning commission or, if the planned development is to be developed in stages, then the final plan for the first stage must be submitted within 90 days after council approval. The planning commission must approve the staging of development and the following provisions must be complied with:

(1) In a PD, the ratio of gross floor area as initially approved or amended shall not be exceeded at any given stage of construction.

(2) Each stage shall be so planned and so related to existing surroundings and available facilities and services that failure to proceed to the subsequent stages will not have an adverse impact on the PD district or its surroundings at any stage of the development.

(3) The commencement of actual construction of any stage of the PD district shall be governed by the provisions of section 30.6.

If the planning commission does not receive the final plan or the final plan of an approved stage within 90 days of the PD rezoning by the city council, it may take action as described in section 30.6.

After a PD district has been established, no building permit shall be issued therein, and no grading, clearing, excavations or filling shall take place, until the planning commission has approved final plans and reports. Such approval shall be based on substantial compliance with the preliminary development concept plan, including any modifications required by the city council in its amending action, and on compliance with regulations applying at the time of rezoning, including any modification in application established by the city council. Where applicable regulations are amended following the rezoning action, applicants or their successors in interest may elect to conform to such amended regulations, subject to the same modifications if they affect such amended regulations in the same way.

Form and content of such final plans and reports shall be as prescribed in zoning, subdivision or other lawful regulations, generally or for particular PD districts, and in rules of the planning commission and other affected agencies.

Upon approval of final plans and reports, building permits or other required permits shall be issued in the same manner as applies generally, provided that any requirements or limitations concerning the order and location in which such permits are to be issued in the particular PD district shall be observed.

Except as provided below, final plans and reports approved shall be binding on the applicants and any successors in title so long as PD zoning applies to the land. Final plan approval does not require formal public notice or hearing.

30.5.8. *Changes in approved final plans.* Minor changes in the location, siting, and height of buildings and structures, lot and block configuration and street geometrics may be authorized by the planning commission without additional public hearings if required by engineering or other circumstances not foreseen at the time the final plan was approved. Where minor changes involve changes in an approved subdivision plat, the form and content of such changes shall meet the requirements of the subdivision regulations. No change authorized by this subsection may cause any of the following:

(1) A change in the primary use or character of the development;

(2) An increase in the intensity of use;

(3) An increase in the problems of traffic circulation and public utilities;

(4) A reduction in approved open spaces; or

(5) A reduction of off-street parking and loading space or required pavement widths.

All changes other than minor changes shall be subject to review and recommendation by the planning commission, another public hearing, and further amendatory action by the city council as required for original approval.

30.6. Expiration of time limits in relation to PD amendments; failure to meet other requirements.

Where time limits are set for beginning or completion of development or stages of development, or where other requirements are established in connection with a PD amendment, and where such time limits or other requirements are not met, the manager of planning shall promptly call the matter to the attention of the planning commission with a full written account of the circumstances, and the findings and recommendations of the planning division. The planning commission shall then review the case and make recommendations to the city council:

30.6.1. That PD zoning for the entire district be continued with revised time limits; or

30.6.2. That PD zoning be continued for part of the district, with or without revised time limits, that appropriate steps be taken to correct any deficiencies in area or open space requirements in designated portions of the district which have not been developed, and that remaining portions of the district be rezoned to an appropriate category; or

30.6.3. That the entire district be rezoned from PD to an appropriate category; and/or

30.6.4. That such other steps be taken as seem equitable in the circumstances of the case and will appropriately protect the public interest.

Such recommendations shall include proposals for appropriate action concerning any legal instruments in the case.

ARTICLE 31. PD-H, PLANNED DEVELOPMENT-HOUSING DISTRICT REGULATIONS

The following regulations and requirements apply to PD-H, planned development-housing districts, defined for the purposes of these regulations as planned development districts primarily for dwellings and related uses and facilities.

31.1. PD-H districts, where permitted; intensity of use.

PD-H districts may hereafter be established in accordance with the general procedures and requirements set forth in article 30. Intensity (or density) of residential use in any PD-H district hereafter created shall be established at the time of amendment creating the district.

31.2. Permitted principal and accessory uses and structures.

31.2.1. *Principal uses and structures permitted generally.* The following principal uses and structures shall be permitted generally:

(1) Dwellings, detached, semi-detached and attached, including multifamily; residence hotels, apartment hotels, and other facilities including lodgings other than for transients, except as permitted as accessory uses;

(2) Public schools through the secondary level, and private schools with similar academic curriculums, except that no school shall conduct training in the industrial arts in such a manner that there is external evidence of the conduct of such activity;

(3) Day nurseries, kindergartens, day care centers for children or for the elderly;

(4) Noncommercial social, recreational and cultural facilities, such as neighborhood or community centers, game rooms, libraries, golf courses, swimming pools, and the like;

(5) Places of worship; and

(6) Structures and uses required for operation of a public utility, performance of a governmental function, or performance of any function found reasonably necessary for the operation and maintenance of the planned development and otherwise permitted under these or general regulations, subject to the requirements thereof.

31.2.2. *Accessory uses and structures permitted generally.* Customary accessory uses and structures clearly incidental to permitted principal uses and structures shall be permitted in this district, subject to the limitations of section 73.1, with home occupations limited to 25 percent of residential floor area. In addition, agricultural uses accessory to principal uses in the district may be permitted other than on the lots or adjacent to the building sites of such principal uses, where it is found that satisfactory arrangements have been made for continuing management and maintenance. In connection with such agricultural uses, there shall be no sales on the premises and no commercial animal or poultry operations or kennels.

31.2.3. *Additional principal or accessory structures and uses.* Where the scale, character and/or location of particular planned developments justify additional principal or accessory structures and uses, they may be specifically authorized by city council at the time of rezoning to PD-H status, or subsequent to rezoning by the board of adjustment as special exceptions. Examples of such additional principal or accessory uses and structures include convalescent or rest homes in large planned developments primarily for the elderly, convenience or other commercial facilities in large planned developments, or in developments where such facilities are not conveniently available in the vicinity, personal service establishments, or medical or dental offices. The following requirements and limitations shall apply:

(1) No evidence of any such additional facilities shall be apparent from outside the planned development;

(2) Such uses and structures shall be designed and intended primarily to serve occupants of the development and their guests, and not to attract other visitors or customers;

(3) Scale of such facilities shall be in keeping with scale of residential development to the period at which such facilities are installed or provided, except that in the case of staged development, facilities may be scaled to serve residential occupancy anticipated within one year;

(4) Commercial, service or office floor area authorized for such additional principal or accessory structures and uses shall not exceed ten percent of an amount equal to residential floor area developed, or staged for completion within one year;

(5) Such facilities shall be so located, and access and parking so designed, as to maximize convenience for occupants of the development, and minimize hazards or annoyances;

(6) Off-street parking required for such nonresidential uses shall, where reasonably feasible, be combined with other nonresidential parking at neighborhood or community centers, and when so combined shall not be required to exceed one-half the amount required generally at section 70.1;

(7) No such facilities shall be permitted if their construction would reduce open space, or increase coverage by buildings or im-

permeable surface, or increase residential floor area beyond limits established for the district; and

(8) No outside storage shall be permitted with any accessory use.

31.3. Land use intensity (LUI) ratings and related requirements.

The following requirements and limitations apply to dwelling and lodging uses within PD-H districts hereafter created from or within other districts. Application of these requirements and limitations, and definitions and rules of interpretation of the terms involved, appear at section 73.16.

PD-H District Created From or Within District

	R-1	*R-1A*	*R-1B*	*R-2*	*Research Park R-2A*	*R-2B and Other Districts*
Gross area minimum for district	5 acres	5 acres	5 acres	5 acres	5 acres	5 acres
LUI rating	35	37	40	45	50	56
Residential floor area ratio (FAR)	0.141	0.162	0.200	0.283	0.400	0.606
Open space ratio (OSR)	0.78	0.77	0.76	0.74	0.72	0.70
Livability space ratio (LSR)	0.54	0.53	0.52	0.48	0.44	0.40
Recreation space ratio (RSR)	0.030	0.032	0.036	0.042	0.052	0.065
Off-street parking/spaces per dwelling unit (D.U.)	2.0	2.0	1.5	1.5	1.25	1.25

Gross land area × FAR = Maximum permitted residential floor area.

Gross land area × OSR = Minimum required open space.

Gross land area × LSR = Minimum livability (nonvehicular open space, a part of total open space).

Gross land area × RSR = Minimum recreation space, a part of livability space.

31.4. Site planning, external relationships.

Site planning within the district shall provide protection of the development from potentially adverse surrounding influences, and protection of surrounding areas from potentially adverse influences within the development including prevention of excessive storm drainage in runoff peaks. In particular:

31.4.1. *Principal vehicular access points.* Principal vehicular access points shall be designed to encourage smooth traffic flow with controlled turning movements and minimum hazards to vehicular or pedestrian traffic. Merging and turnout lanes and/or traffic dividers shall be required where existing or anticipated heavy flows indicate need. Minor streets shall not be directly connected with streets outside the district in such a way as to encourage use of such minor streets by substantial amounts of through traffic.

31.4.2. *Access for pedestrians and bicycles.* Access for pedestrians and cyclists entering or leaving the district shall be by safe and convenient routes. Such access need not be adjacent to, or limited to the vicinity of, access points for

automotive vehicles. Where there are crossings of pedestrian ways and vehicular routes at edges of planned developments, such crossings shall be safely located, marked, and controlled; and where such ways are exposed to substantial automotive traffic at edges of districts, safeguards including fencing may be required to prevent crossings except at designated points. Bicycle and/or bridle paths, if provided, shall be so related to the pedestrian system that street crossings are combined.

31.4.3. *Protection of visibility; automotive traffic, cyclists, and pedestrians.* Protection of visibility for automotive traffic, cyclists, and pedestrians shall be as generally provided at section 73.10, corner visibility. In addition, where there is pedestrian, bicycle, or equestrian access from within the development to a street at its edges by paths across yards or other open space without a barrier to access to the street, no material impediment to visibility, as defined therein, shall be created or maintained within areas appropriate to the circumstances of the case, but in any event within a visibility triangle equivalent to that required in section 73.10.

31.4.4. *Uses adjacent to single-family residence districts.* If a PD-H district adjoins a single-family residence district, then either:

(1) The portion of the perimeter of the PD-H district so adjoining shall be planned and developed only for uses permitted in the adjoining residential district and in accordance with all other requirements for such district; or

(2) Common open space for the PD-H district to a depth of 100 feet from the district boundary shall be provided. No intensive recreational use or off-street parking shall be permitted within 75 feet of the district boundary in such cases.

31.4.5. *Yards, fences, walls, or vegetative screening at edges of PD-H districts.* Yards, fences, walls, or vegetative screening shall be provided at edges of PD-H districts where needed to protect residents from undesirable views, lighting, noise, or other off-site influences, or to protect residential occupants of other districts from similar adverse influences within the PD-H district. In particular, extensive off-street parking areas, service areas for loading and unloading vehicles other than passenger, and areas for storage and collection of refuse and garbage shall be screened.

31.4.6. *Height limitations at edges of PD-H districts.* Except along boundaries where adjoining districts permit greater heights within similar areas, no portion of any building in such district shall project through imaginary planes leaning inward from district boundaries at an angle representing an increase in height for each foot of horizontal distance perpendicular to the boundary as follows: Adjacent to Residence 1, 1-A, 1-B, 1-C, 2 and 2-C districts, 0.5 foot; adjacent to other districts, 1.0 foot.

31.4.7. *Signs permitted.* Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 07-460, § 2, 6-28-2007; Ord. No. 21-46, § 1(Exh. A. § B.2.), 2-25-2021)

31.5. Site planning, internal relationships.

The site plan shall provide for safe, efficient, convenient and harmonious groupings of structures, uses, and facilities, for appropriate relation of space inside and outside buildings to intended uses and structural features, and for preservation of desirable natural or historic features and minimum disturbance of natural topography. In particular:

31.5.1. *Streets, drives, parking and service areas.* Streets, drives, parking and service areas shall provide safe and convenient access to dwelling units and general facilities, and for service and emergency vehicles. Streets shall not be so laid out as to encourage outside traffic to traverse the development on local streets, nor occupy more land than is required to provide access as indicated, nor create unnecessary fragmentation of the development into small blocks. In general, block size

shall be the maximum consistent with use and shape of the site and the convenience and safety of occupants.

31.5.2. *Vehicular access to streets.* Vehicular access to streets shall be limited and controlled as follows:

(1) *Streets or portions of streets serving 50 or fewer dwelling units.* If the street or portion thereof serves 50 or fewer dwelling or lodging units, vehicular access from off-street parking and service areas may be directly to the street from the sites of individual dwelling or lodging units. Determination of number of units served shall be based on normal routes of traffic anticipated in the development.

(2) *Vehicular access to other streets or portions of streets.* Vehicular access to other streets or portions of streets from off-street parking and service areas shall be so combined, limited, located, designed, and controlled as to channel traffic from and to such areas conveniently, safely, and in a manner that minimizes marginal traffic friction and promotes free flow of traffic on streets without excessive interruption.

31.5.3. *Ways for pedestrians and cyclists; use by emergency or service vehicles.* Walkways shall form a logical, safe and convenient system for pedestrian access to all dwelling units, appropriate project facilities, and principal off-site pedestrian destinations. Maximum walking distance in the open between dwelling units and parking areas, delivery areas, and refuse and garbage storage areas shall not exceed 150 feet.

Walkways to be used by substantial numbers of children as play areas or as routes to school or other destinations shall be so located and safeguarded as to minimize contact with normal automotive traffic. If substantial bicycle traffic is anticipated, bicycle paths shall be coordinated with the walkway system. Street crossings shall be held to a minimum on walkways, bicycle paths, and/or bridle trails and shall be located and designed to promote safety and appropriately marked and otherwise safeguarded.

Pedestrian ways and bicycle paths, appropriately located, designed, and constructed, may be combined with other easements and used by emergency and service vehicles, but shall not be used by other automotive traffic, including motorbikes and motorcycles.

31.5.4. *Protection of visibility; automotive traffic, cyclists, and pedestrians.* Protection of visibility for automotive traffic, cyclists, and pedestrians shall be as provided at section 31.4.3.

31.6. Open space and spacing of buildings or portions of buildings containing dwelling or lodging units.

Definitions, rules for interpretation, and requirements and limitations concerning open space and spacing of buildings or portions of buildings containing dwelling or lodging units shall be as provided at section 73.16.

Editor's note—Ord. No. 16-491, § 1, adopted Aug. 25, 2016, repealed Art. 33, which pertained to PD-HC, Planned Development—Highway Commercial District Regulations. For prior history, see Code Comparative Table.

CHAPTER IV. INDUSTRIAL DISTRICT REGULATIONS*

ARTICLE 40. LIGHT INDUSTRY DISTRICT REGULATIONS

Within a light industry district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

40.1. Uses permitted.

Land or buildings shall be used only for the following uses:

Accessory structures and uses.

Agricultural uses, including sales on premises.

Any lawful retail sales and services except off-premises liquor retailers, theatres or drive-in theatres, indoor firing ranges, and the sale of alcoholic beverages by any restaurant or food vendor located in or adjacent to a food court.

Apartment house containing not less than three dwelling units, provided the requirements of article 15, residence 2-B district, are met.

Assisted living facilities.

Boarding houses and rooming houses.

Correctional facilities.

Farmers markets.

Gymnasiums, fitness and exercise centers, health clubs and spas.

Mobile food vending sites.

Mobile food vending units.

Mortuaries, funeral homes and crematoriums.

Municipal, county, state or federal use.

Parking lots and parking garages.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Places of amusement including skating, bowling, trampolines, golf driving ranges, miniature golf, baseball batting, and similar establishments, but not including theatres.

Private hospitals, sanitarium or nursing home.

Single-family and two-family residence only when constructed on lots recorded prior to March 21, 1963, provided the rules and regulations of article 13, residence 2 district, are met.

Small animal farms, pet shops, kennels, veterinarian operations.

Trailer parks - provided that such trailer parks conform to the requirements set forth in section 24.2.2 hereof.

Uses permitted by section 23.1 hereof, provided:

(1) There is no limit on the number of employees of any establishment;

(2) Retail and/or wholesale activities are permitted in conjunction with industries;

(3) Dry cleaning and laundry operations are permitted;

(4) Signs shall be permitted in accordance with the provisions of article 72—Sign Control Regulations.

Wholesale operations, storage, trucking terminals.

(Ord. No. 96-259, § 3, 5-23-1996; Ord. No. 97-707, § 1, 11-13-1997; Ord. No. 09-815, § 2, 12-17-2009; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 10-182, § 1, 4-22-2010; Ord. No. 11-11, § 10, 2-24-2011; Ord. No. 11-899, § 2, 1-26-2012; Ord. No. 13-882, § 2, 12-19-2013; Ord. No. 14-576, § 6, 9-25-2014; Ord. No. 15-406, § 2, 7-23-2015; Ord. No. 19-778, § 1, 10-24-2019; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

40.2. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in article 73 hereof:

40.2.1. Permitted residential uses shall conform to the regulations of article 15, residence 2-B district.

40.2.2. Minimum required depth of front yard:

From major arterials (see section 73.15): 50 feet

*__Cross reference—__Businesses, ch. 8.

From other streets: 30 feet

40.2.3. Minimum rear yard: None, except that when rear of lot abuts a residential district, a rear yard of 25 feet is required.

40.2.4. Minimum side yard: None, except that when the side lot line abuts a residential district, a side yard of 25 feet is required.

40.3. Off-street parking.

Required off-street parking spaces and loading requirements shall be provided as set forth in article 70 hereof.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 10-507, § 2, 8-26-2010)

40.4. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71, off-street parking and vehicular use area landscaping requirements, except for multifamily dwellings which must comply only with section 71.6, PVA lighting requirements, when applicable.
(Ord. No. 99-1020, § 1, 1-13-2000)

40.5. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.5, and shall be regulated by article 75 - alcoholic beverage establishment regulations.
(Ord. No. 11-11, § 10, 2-24-2011)

ARTICLE 41. HEAVY INDUSTRY DISTRICT REGULATIONS

Within a heavy industry district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

41.1. Uses permitted.

Land or buildings shall be used only for the following uses:

Any use permitted under section 40.1 and under the conditions therein enumerated except private hospitals, sanitarium or nursing home.

Assisted living facilities.

Commercial heliports and/or helipads.

Correctional facilities.

Industries listed in section 41.2 hereof.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.
(Ord. No. 09-815, § 3, 12-17-2009; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 11-11, § 11, 2-24-2011; Ord. No. 14-576, § 7, 9-25-2014)

41.2. Uses normally prohibited.

The intent of this section is to permit those industries that would not be obnoxious or offensive to other uses permitted in and adjacent to the district by reason of noise, smoke, dirt, dust, odor, fire, or explosion hazard, and other objectionable features.

The following uses are specifically prohibited except, however, that such industries may be permitted in this district as special exceptions, authorized by the board of adjustment as hereinafter provided:

Abattoir, stockyards.

Asphalt manufacture, limestone drying.

Auto wrecking, or storage of wrecked autos for purpose of used parts sales.

Bag cleaning.

Blast furnaces, boiler and tank works.

Cement, lime, gypsum or plaster of Paris manufacture.

Central mixing plant for cement mortar or paving materials.

Gasoline and L.P. gas bulk storage plants.

Junk, scrap metal, rags, paper, cotton waste, storage, or baling.

Manufacture of acetylene gas, acid, ammonia, or chlorine, bleaching chemicals, powder, alcoholic beverages.

Manufacture of paint, turpentine, varnish, soap and tar products, disinfectants and dyestuff.

Ore reduction.

Paper and paper pulp manufacture.

Processing, incineration or storage of dead animal materials, including curing, tanning and storage of hides, distillation of bones, coal, fat rendering, candle making, fertilizer manufacture, glue size, and gelatine manufacture.

Salvage yards.

Wool pulling or scouring.

41.3. Density controls.

The following yard, density, and height of building requirements shall be observed except as provided in article 73 hereof:

41.3.1. Permitted residential uses shall conform to the regulations of article 15, residence 2-B district.

41.3.2. Minimum required depth of front yard:

From major arterials (see section 73.15): 50 feet

From other streets: 30 feet

41.3.3. Minimum rear yard: None, except that when the rear lot line abuts a residential district, a rear yard of 25 feet is required.

41.3.4. Minimum side yard: None, except that when the side lot line abuts a residential district, a side yard of 25 feet is required.

41.4. Off-street parking.

Required off-street parking spaces and loading requirements shall be provided as set forth in article 70 hereof.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 10-507, § 2, 8-26-2010)

41.5. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71, off-street parking and vehicular use area landscaping requirements, except for multifamily dwellings which must comply only with section 71.6, PVA lighting requirements, when applicable.
(Ord. No. 99-1020, § 1, 1-13-2000)

41.6. Bicycle parking requirements.

Bicycle parking requirements shall be provided as set forth in Article 76 hereof.
(Ord. No. 10-507, 8-26-2010)

41.7. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.6, and shall be regulated by article 75 - alcoholic beverage establishment regulations.
(Ord. No. 11-11, § 11, 2-24-2011)

ARTICLE 42. PLANNED INDUSTRIAL DISTRICT REGULATIONS

Purpose. The purpose and intent of the planned industrial district regulations are to provide for a comprehensively planned district for the orderly growth and development of certain industrial uses which are, by virtue of controls, mutually harmonious with other industries permitted in said planned industrial district and also harmonious with residential, commercial, and other uses permitted in nearby districts. The planned industrial district caters to basic industries requiring large tracts of land; it is intended to be protected from encroachment by commercial, residential, and other land uses adverse to the location and expansion of industrial development. The planned industrial district regulations are intended to promote the health, safety, morals, welfare, comfort, and convenience of the inhabitants of this district and the surrounding lands. Within a planned industrial district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

42.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be

erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Agricultural operations on tracts of ten acres or greater, provided no sales are made on the premises, but not including commercial animal or poultry farms or kennels.

Commercial heliports and/or helipads.

Computer and data processing services.

Educational, scientific, and research organizations.

Engineering, architectural, and design services.

Federal, state, county, city or public utilities owned or operated buildings and uses.

Manufacturing, processing, fabrication or assembly of the following:

(1) Apparel.

(2) Automotive and implements.

(3) Chemicals and chemical products.

(4) Electrical and electronic machinery, equipment and supplies.

(5) Food and kindred products intended for human consumption.

(6) Lumber and wood products.

(7) Machinery other than electrical.

(8) Metal and metal products.

(9) Ordnance and accessories.

(10) Plastics, glass and rubber products.

(11) Printing and publishing.

(12) Professional, scientific, and controlling instruments.

(13) Research and development operations.

(14) Textile mill products.

(15) Transportation equipment.

Medical and dental laboratories.

Office buildings for general office purposes.

Research, experimental and testing laboratories.

Trucking terminals.

Warehousing, interior storage, and distribution in conjunction with manufacturing, assembly and office use.

Exterior storage in conjunction with the above mentioned uses, completely screened from adjacent property lines and streets.

Accessory structures and uses to those permitted herein.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

(Ord. No. 09-815, § 4, 12-17-2009; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 18-1001, § 1, 12-20-2018; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

42.2. Performance standards.

The performance standards set forth in section 50.2 hereof shall be required for all uses located in the planned industrial district.

42.3. Required yards.

42.3.1. Yards facing an existing or proposed street other than a controlled access highway shall be considered front yards. Such yards shall have a minimum depth of 100 feet.

42.3.2. All other yards shall have a minimum depth of 50 feet, except as provided for in section 42.3.4.

42.3.3. All required yards shall be kept clear of parking areas, driveways and vehicular access ways except as provided for in sections 42.6.4 and 42.6.5, and shall be kept clear of loading areas, exterior storage areas, and accessory uses and buildings, provided however, a gate or security station may be located in a required yard.

42.3.4. Railroad setback: Where a tract of land abuts a railroad right-of-way, the rear or side yard setback requirements for principal or accessory structures may be reduced to 25 feet from the railroad right-of-way.

42.3.5. Easements: There shall be provided an easement of not less than 25 feet along each side and rear lot line for utilities, drainage, and railroad purposes.
(Ord. No. 09-430, § 12, 7-9-2009)

42.4. Density controls.

42.4.1. Buildings shall not cover an area greater than 70 percent of the total area of the tract.

42.4.2. Minimum lot area shall not be less than four acres for each tract.

42.4.3. Minimum lot width of each tract shall not be less than 200 feet as measured at the building line.

42.4.4. Maximum number of stories and maximum height are unlimited except as provided for in article 63, airport obstruction and noise exposure district regulations.
(Ord. No. 18-232, § 1, 5-24-2018)

42.5. Street access and frontage.

42.5.1. Each lot shall have a minimum frontage of 100 feet on a public road.

42.5.2. Access to building sites shall be via collector or arterial streets, wherever possible. No access roads serving plants shall be permitted which may place heavy traffic on residential streets that are not classified as major collector or arterial streets.

42.6. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

42.6.1. All parking areas shall be paved and properly drained. No parking shall be permitted any place other than in paved parking areas.

42.6.2. Loading areas shall not be placed within any front yard or in any required yard and shall be located and properly screened, as well as practicable, so as to not be visible from any existing or proposed street.

42.6.3. Parking and loading areas shall be landscaped in accordance with section 42.7, landscaping requirements.

42.6.4. Off-street parking for visitors, executives and handicapped persons may be permitted in the required front yard not to exceed three spaces per 100 feet of frontage on a public street and shall not encroach within 70 feet of an existing or proposed street.

42.6.5. Off-street parking areas and accessways in required rear and side yards are not permitted within 30 feet of any side or rear property line.

42.6.6. Driveways and vehicular access ways in required rear and side yards, except as necessary to cross a required rear or side yard, are not permitted within 30 feet of any rear or side property line. Driveways and vehicular access ways shall be paved and properly drained.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 09-430, § 13, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

42.7. Landscaping requirements.

Every building site on which a building shall be placed shall be landscaped in the following manner. All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

42.7.1. All yards required under this ordinance shall be landscaped and maintained. A minimum of one tree per 20 linear feet of distance for each boundary line shall be planted in the required yards.

42.7.2. All off-street parking, loading and unloading areas shall be screened, as well as practicable, from view from streets by the use of earth berms or landscaping materials.

42.7.3. Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71, off-street parking and vehicular use area landscaping requirements.

42.7.4. Each side and rear yard shall have not less than a 30-foot wide strip of land adjacent to the property line planted and maintained, except as provided for in [section] 42.3.4; however, if any yard faces an existing or proposed street, then it shall have not less than a 70-foot wide strip of land planted and maintained except for main access drives into the site.

(Ord. No. 99-1020, § 5, 1-13-2000)

42.8. Industrial district plan.

42.8.1. Any landowner of property lying in a planned industrial district desiring to dedicate any street, road, or right-of-way to the public must submit to the planning commission a plan of the proposed street, road, or right-of-way for approval.

42.8.2. Anyone desiring to secure a building permit for the use of land lying in a planned industrial district must submit to the manager of planning (city planning division) a generalized plot plan of the tract to be developed for approval. Such generalized plot plan shall have shown thereon the following information:

(1) Location map showing the boundaries of the tract to be developed.

(2) The location of all buildings proposed to be constructed.

(3) The general location of parking areas, loading docks, proposed railroad spurs, and public and/or private accessways.

(4) Site grading and storm drainage plan.

(5) Proposed utilities services.

(6) Required screening.

(7) Required and adequate easements.

The manager of planning (city planning division) shall review and approve by signature the proposed plot plan upon finding that the same complies with these regulations.

If the proposed plot plan is not approved, the manager of planning (city planning division) shall state in writing on the proposed plot plan the cause for such disapproval.

ARTICLE 43. AIRPORT INDUSTRIAL PARK DISTRICT REGULATIONS*

Purpose. The purpose of the airport industrial park district is to provide a protective district for the orderly and harmonious development of the lands of the Huntsville-Madison County Airport Authority.

These regulations shall apply to all the lands of the Huntsville-Madison County Airport Authority located in Huntsville, Madison County, Alabama, consisting of some 3,000 acres, more or less.

The nature and type of uses permitted in this district shall be governed by their performance standards relative to smoke, dust, dirt, and other particulate matter; toxic or noxious matter; odorous matter, vibration; noise; fire and explosive hazard; heat; glare; radioactive materials; electromagnetic interference; and stream pollution.

The minimum standards heretofore referred to set forth the minimum control necessary in each of the several areas to prevent adverse effect of land use permitted in the airport industrial park district, on the operation and maintenance of the Huntsville-Madison County Airport, and on nearby property.

These airport industrial park district regulations are intended to promote the physical and mental health, safety, morals, welfare, comfort, and convenience of the inhabitants of the district and its environs.

Within an airport industrial park district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

43.1. Uses permitted.

No building, structure or land shall be used and no building or structure shall hereafter be

*__Cross reference—__Aviation, ch. 6.

erected, structurally altered, enlarged, or maintained, except for one or more of the following uses:

Dwellings only in connection with bona fide agricultural operations, or as living quarters for bona fide caretakers and/or watchmen and their families.

Farming and other agricultural uses.

Federal, state, county or city owned or operated buildings and uses.

Office buildings for general office purposes.

Off-street parking for motor vehicles in connection with uses within the district.

Research, experimental and testing laboratories.

Industrial uses, manufacturing and processing, provided all such uses are in accordance with performance standards as stated in section 43.7 hereof.

Structures accessory to uses permitted by [this] section 43.1 hereof, including but not limited to, warehouses, storage buildings, and pump houses.

Accessory uses to uses permitted in the airport industrial park district such as recreational facilities and dining facilities in connection with the operation of an establishment and primarily for employees.

Heliports and radio and television studios but not including broadcast towers, provided such uses are in accordance with section 43.7 hereof.

Retail sales and consumer service establishments (not including warehouse sales) accessory to any permitted use, other than agricultural or residential uses.

Bulk fuel storage.

Hotel, motel, and related dining facilities.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

(Ord. No. 96-1008, § 2, 1-23-1997; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

43.2. Uses specifically prohibited.

The intent of this section is to prohibit those industries which could be obnoxious or offensive to other uses permitted in and adjacent to the district by reason of noise, smoke, dirt, dust, odor, fire or explosive hazard, and other objectionable features.

The following uses are specifically prohibited:

Abattoir, stockyards.

Asphalt manufacture.

Auto wrecking or storage of wrecked autos for the purpose of used parts sales.

Processing, incineration or storage of dead animal materials including curing, tanning, and storage of hides, distillation of bones, and fat rendering.

Salvage yards or junkyards.

Paper pulp manufacture.

Coal, coke, or wood storage yard.

Dead animal or offal reduction.

Grease, lard, or tallow manufacture from animal fats.

Poultry killing or dressing.

Veterinary hospital.

Trailer parks.

43.3. Required yards and landscaped areas for industrial buildings.

43.3.1. No principal or accessory structure shall be located less than 50 feet from any side or rear lot line.

43.3.2. No principal or accessory structure shall be located less than 100 feet from any existing or proposed major street as adopted by the Huntsville Planning Commission.

43.3.3. The required front and side yards set forth above shall be landscaped and the provisions of section 3.1, buffer of screen planting, of this ordinance shall be observed where appropriate.

43.3.4. Exterior storage of materials shall be contained by fencing in such a manner as to be neat in appearance when viewed from any street.

43.3.5. All building heights shall conform to the airport obstruction ordinance (article 63) and amendments thereto.

43.4. Density regulations.

43.4.1. Buildings shall not cover an area greater than 30 percent of the total area of the tract upon which the buildings are located.

43.4.2. Minimum lot width of each tract shall be not less than 200 feet as measured at the building line, except lots for permitted residential uses.

43.5. Street access and frontage.

Each lot shall have a minimum frontage of 150 feet on a public road; provided, however, the planning commission may approve a lesser frontage to a minimum of 50 feet for lots located on culs-de-sac or on street curves, or having other extraordinary characteristics.

43.6. Off-street parking and loading requirements for industrial uses.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

43.6.1. Off-street parking and loading spaces are not permitted in the required front yard except for visitors and/or administrative parking.

43.6.2. Visitor parking shall be provided on a basis of at least one parking space for each ten employee spaces.

43.6.3. Parking shall not be permitted in more than 25 percent of the required front yard or in the first ten feet.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof. (Ord. No. 09-430, § 14, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

43.7. Performance standards.

43.7.1. *General.* No part of the airport industrial park district and no improvement thereon shall be used or allowed to be used at any time for the manufacture, storage, distribution, or sale of any product or the furnishing of any service, in a manner which is unreasonably noxious or offensive, or an unreasonable annoyance or a nuisance to other tenants on the airport because of odors, heat, fumes, smoke, noise, glare, vibration, soot, or dust. No activity shall be carried on which may be or may become dangerous to public health and safety; which shall increase the fire insurance rating for adjoining or adjacent property, or which shall be illegal.

43.7.2. *Noise.* Except for the operation of motor vehicles, aircraft and other transportation facilities to, from, and on a building site or incidental to the use thereof, and on the public airport areas of the airport, the sound pressure level generated on a building site shall not at any point on the property line exceed the decibel level in the designated octave bands shown below:

Octave Band Cycle/Second	*Maximum Permitted Sound Level in Decibels Re 0.0002 Dynes/cm2*
3 — 300	75
300 — 1,200	55
1,200 — 4,800	45
4,800 and above	40

Testing of aircraft engines and other engines shall be conducted in noise-suppressing test cells so that sound levels do not exceed the levels specified above.

43.7.3. *Vibration.* Maximum permitted vibration from any cause shall not exceed the following when measured at the property line:

Frequency (Cycles/Second)	*Displacement (Inches)*
10 and below	0.0008
10—20	0.0005
20—30	0.0003
30—40	0.0002
40—50	0.0001
50 and above	0.0001

43.7.4. *Air pollution.* Except for the operation of motor vehicles and aircraft to, from, and on the building site or incidental to the use thereof, the following requirements shall apply:

(1) Any use producing smoke, dust, odor, fumes, gas, aerosols, particulates, products or combustion, or any other atmospheric pollutant, shall be conducted within a completely enclosed building.

(2) No use shall emit smoke for more than three minutes in any one hour which is darker than Number One in the Ringelmann Chart as published and revised by the U.S. Bureau of Mines.

(3) No operation shall discharge toxic or noxious matter into the atmosphere.

(4) The emission of noxious or objectionable odors which are detectable without instruments at or beyond the property line will not be permitted.

(5) Particulate matter shall be defined as any material discharged into or suspended in the atmosphere in finely divided form. Calculation of the total net rate of emission of particulate matter within the boundaries of any lot shall be made in the following manner:

(a) Determine maximum emission in pounds per hour from each source of emission and divide this figure by the acres in the lot area, thereby obtaining the gross hourly rate of emission in pounds per acre.

(b) For each gross hourly rate of emission, deduct the height of emission correction factor from the following table, interpolating as necessary for heights not given:

Allowances for Height of Emission

Height of Emission Above Grade (Feet)	*Correction Pounds/Hour/Acre*
50	0.01
100	0.06

The result is the net hourly rate of emission in pounds per acre from each source of emission.

(c) Adding together individual net rates of emission gives the total net rates of emission from all sources of emission within the boundaries of the lot.

The total net rate of emission from all sources within the boundaries of a lot in the airport industrial park district shall not exceed one pound per acre of lot area during any one hour. The emission from all sources within any lot area of particulate matter containing more than ten percent by weight of particles having a diameter larger than 44 microns is prohibited. The emission of particles in the form of fly ash from any flue or smokestack shall not exceed 0.2 grains per cubic foot of flue gas at a stack temperature of 500 degrees Fahrenheit.

43.7.5. *Stream pollutants.* No effluent shall be discharged in any stream, nor any discharge in the Huntsville sewerage system shall be permitted, except as approved by the City of Huntsville City Engineer and the State of Alabama Water Improvement Commission.

43.7.6. *Heat or glare.* Any operation producing intense glare or heat shall be performed within an enclosed or screened area in such a manner that the glare or heat emitted will not be perceptible without instruments at any property line of a building site.

43.7.7. *Fire and explosive hazard.* All activities and all storage of flammable and explosive materi-

als shall be in accordance with the National Board of Fire Underwriters' publications and local ordinances.

43.7.8. *Industrial waste materials.* All disposal of industrial waste shall be in accordance with the State of Alabama Water Improvement Commission regulations therefor.

43.7.9. *Radioactive materials.* The handling of radioactive materials, the discharge of such materials into the air or water, and the disposal of radioactive wastes shall be in conformance with the regulations of the Atomic Energy Commission as set forth in Title 10, Chapter 1, Part 20, "Standards for Protection Against Radiation," as amended.

43.7.10. *Electromagnetic interference.* Industries shall emit only that amount of unshielded spurious electromagnetic radiation as is necessary for the conduct of their operations. Federal Communications Commission requirements shall govern maximum radiation which tends to interfere with meaningful signals.

43.8. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71, off-street parking and vehicular use area landscaping requirements.
(Ord. No. 99-1020, § 2, 1-13-2000)

ARTICLE 44. COMMERCIAL INDUSTRIAL PARK DISTRICT REGULATIONS

Purpose. The purpose of the commercial industrial park district is to provide for the retailing of goods and services, the light manufacture and assembly of products, and the warehousing and distribution of such products within the controlled environment of an attractive, park-like setting. Minimum lot sizes are defined, front, side and rear yards are required, signage is restricted, and landscaping and natural buffers are specified.

Within a commercial industrial park district as shown on the official Zoning Maps for the City of Huntsville, Alabama, the following regulations shall apply:

44.1. Uses permitted.

Accessory structures and uses to those permitted herein.

Agricultural uses including sales on premises.

Any lawful retail sales and services except indoor firing ranges, and theatres or drive-in theatres.

Farmers markets.

Federal, state, county, city or public utility owned or operated buildings and uses.

Gymnasiums, fitness and exercise centers, health clubs and spas.

Light manufacturing and assembly, provided all such uses are in accordance with the performance standards referenced in section 44.10 hereof.

Mobile food vending sites.

Mobile food vending units.

Mortuaries, funeral homes and crematoriums.

Office buildings.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Recreational facilities intended primarily for use by employees and tenants of the commercial industrial park development.

Warehousing, wholesaling, interior storage, distribution, and logistics.
(Ord. No. 96-259, § 4, 5-23-1996; Ord. No. 97-707, § 1, 11-13-1997; Ord. No. 09-815, § 5, 12-17-2009; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 11-11, § 12, 2-24-2011; Ord. No. 11-899, § 2, 1-26-2012; Ord. No. 13-882, § 2, 12-19-2013; Ord. No. 15-406, § 2, 7-23-2015; Ord. No. 16-259, § 1, 5-26-2016; Ord. No. 18-904, § 1, 11-15-2018; Ord. No. 18-1001, § 1, 12-20-2018; Ord. No. 21-693, § 1, 9-23-2021)

44.2. Density controls.

44.2.1. Minimum lot size shall not be less than one acre for each tract.

44.2.2. Minimum lot width of each tract shall not be less than 100 feet as measured at the minimum building line.

44.3. Required yards.

44.3.1. All required yards shall be kept clear of driveways and vehicular access ways, except as necessary to cross a required yard, and shall be kept clear of parking areas, loading areas, accessory uses and buildings, provided however, that a gate or security station or a detached ground identification sign meeting the requirements of section 72.4.5 may be located in a required yard.

44.3.2. Yards facing an existing or proposed public street shall be considered front yards. Such yards shall have a minimum depth of 50 feet from a major arterial and 40 feet from other public streets. On corner lots having two front yards, the required front yard shall be maintained on the street that the building front faces; the required front yard on the remaining street may be reduced to a minimum depth of 30 feet, provided said street is not a major arterial.

44.3.3. Minimum required depth of rear yard shall be 20 feet with a berm and planting screen or 35 feet without a berm and planting screen.

44.3.4. Minimum required width of each side yard shall be ten feet except where a side lot line abuts a residential district, then there shall be provided a side yard of not less than 30 feet with a berm and planting screen.
(Ord. No. 09-430, § 15, 7-9-2009)

44.4. Street access and frontage.

Each lot shall have a minimum frontage of 100 feet on a public road; provided, however, the manager of planning may approve a lesser frontage to a minimum of 50 feet for lots located on culs-de-sac or street curves.

Access to lots and building sites shall be via collector or arterial streets, wherever possible.

44.5. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

44.5.1. Driveways and vehicular access ways, except as necessary to cross a required yard, and parking areas are not permitted in any required yard.

44.5.2. All driveways, vehicular access ways and parking areas shall be paved and properly drained. No parking shall be permitted any place other than in paved parking areas.

44.5.3. Loading areas shall not be placed within any front yard or any required side or rear yard and shall be located and properly screened, as well as practicable, so as to not be visible from any existing or proposed street.

44.5.4. Parking and loading areas shall be landscaped in accordance with section 44.8, landscaping requirements, and parking areas shall be lighted in accordance with section 71.6, PVA lighting requirements.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 99-1020, § 6, 1-13-2000; Ord. No. 09-430, § 16, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

44.6. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

44.7. Height requirements.

Maximum number of stories shall be ten.

44.8. Landscaping requirements.

Every building site on which a building shall be placed shall be landscaped in the following

manner. All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

44.8.1. All yards required under the ordinance from which this section was derived shall be planted with grass or an evergreen ground cover and shall be maintained so as to present an attractive and healthy appearance. Yard tree requirements shall be as follows:

(1) Front yards: A minimum of one tree per 30 linear feet of distance for each lot line fronting a public street shall be planted in the required front yard(s).

(2) Side and rear yards shall be planted with a minimum of one tree per 40 linear feet for each side and rear lot line unless such yard abuts a residential or office district, in which case the first 15 feet of the required yard shall be landscaped with a buffer of screen planting as defined herein.

Existing vegetation shall substitute for the required landscaping if the type, size and density of the existing vegetation creates a year round visual screen separating the industrial park from adjacent districts.

44.8.2. Required yard trees, unless elsewhere specified, shall be a mix of deciduous shade trees and evergreens; loblolly pines shall not account for more than 25 percent of the required number of trees; other conifers shall be those varieties that retain their branches at ground level.

44.8.3. All off-street parking areas, to include drives within the parking areas, greater than either 20 automobile spaces or 6,000 square feet shall have at least five percent of the interior of the parking area landscaped in planting islands or peninsulas. Width of islands or peninsulas shall be a minimum width of at least five feet between backs of curbs and at least one tree per 20 parking spaces shall be planted within the planting islands or peninsulas in addition to other landscaping materials and plants.

44.8.4. All parking areas shall be screened from view of public streets as well as is practicable by the use of berms, fencing or buffers of plant materials.

44.8.5. All mechanical and utility equipment, incinerators and trash containers, and accessory structures necessary for the conduct of a permitted use shall be adequately screened, as well as is practicable, by fencing or landscaping so as to not be visible from any existing or proposed street or from the ground floor of adjacent buildings.

(Ord. No. 09-1053, § 5, 12-17-2009)

44.9. Underground wiring requirement.

All power, communication, and other wiring hereafter installed in a commercial industrial park district shall be placed underground.

44.10. Performance standards.

The performance standards listed in section 50.2 (research park district) hereof shall be required for all uses located in a commercial industrial park district.

44.11. Development procedure for tracts or parcels.

44.11.1. Any landowner of property lying within a commercial industrial park district desiring to dedicate any street, road, or right-of-way to the public must submit to the planning commission for approval a plan of the proposed street, road, or right-of-way.

44.11.2. Anyone desiring to secure a building permit for the use of land lying within a commercial industrial park district must submit to the manager of planning the following information, as appropriate for approval of plans:

(1) A site plan for traffic engineering analysis, showing location and design of buildings, driveways, driveway intersections with streets, parking areas, loading areas, maneuvering areas and sidewalks;

(2) A planting plan, including screen walls and fences, for analysis of adequacy of visual screening and landscape architectural design;

(3) Plans for all signs to be erected, including location and lighting of each sign.

The manager of planning shall review and approve by signature the proposed plot plan upon finding that the same complies with these regulations. If the proposed plot plan is not approved, the manager of planning shall state in writing on the proposed plot plan the cause for such disapproval.

44.12. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.4, and shall be regulated by article 75 - alcoholic beverage establishment regulations. (Ord. No. 11-11, § 12, 2-24-2011)

ARTICLE 45. HEAVY MANUFACTURING DISTRICT REGULATIONS

Purpose. The purpose of the heavy manufacturing district is to provide sites suitable for the operation of those industries engaged in the mechanical or chemical transformation of materials or substances into new products. These operations frequently require large tracts of land suitable for the external storage of both raw materials or components and finished products, and their physical plants may incorporate various towers, tanks and other external mechanical devices. It is the intent of this article to protect appropriate lands from the intrusion of incompatible uses while establishing regulations that would permit manufacturing companies to function in near proximity to dissimilar uses. To achieve this goal, these regulations require a minimum ten-acre lot size, generous yard setbacks based on the compatibility of adjacent uses, landscape screening of outdoor storage and operations, and performance standards.

The heavy manufacturing district regulations are intended to promote the health, safety, welfare, comfort and convenience of the users of this district as well as of the inhabitants of the surrounding districts.

Within a heavy manufacturing district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

45.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Agricultural operations on tracts of ten acres or greater, provided no sales are made on the premises, but not including commercial animal or poultry farms or kennels.

Federal, state, county, city or public utilities owned or operated buildings and uses.

Manufacturing, processing, fabrication or assembly of the following major groups as identified by the Standard Industrial Classification Manual (1987). The SIC major group number appears in parentheses at the end of each entry.

Food and kindred products intended for human consumption (20)

Textile mill products (22)

Apparel and other finished products made from fabrics (23)

Lumber and wood products (24)

Furniture and fixtures (25)

Printing and publishing (27)

Chemicals and chemical products (28)

Rubber and plastic products (30)

Leather and leather products (31)

Stone, clay, glass and concrete products operating without a mine or quarry (32)

Fabricated metal products (34)

Industrial and commercial machinery and computer equipment (35)

Electronic and other electrical equipment and components (36)

Transportation equipment (37)

Measuring, analyzing and controlling instruments; photograph, medical and optical goods; watches and clocks (38)

Miscellaneous manufacturing industries (39)

Offices, laboratories, and showrooms when operated as accessory uses to any permitted use.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

Warehousing, interior storage, and distribution in conjunction with manufacturing and assembly uses.

Exterior storage in conjunction with the abovementioned uses.

Accessory structures and uses to those permitted herein.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

(Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

45.2. Density controls.

45.2.1. Minimum lot area shall not be less than ten acres.

45.2.2. No portion of any building or structure shall project through an imaginary height plane leaning inward from any yard at a slope of 0.4 foot of height for each foot of horizontal distance measured perpendicularly to the property boundary.

45.3. Street access and frontage.

45.3.1. Each lot shall have at least 200 feet of frontage on a public street.

45.3.2. Access to building sites shall be via collector or arterial streets. No access roads serving plants shall be permitted which may place heavy traffic on residential streets which are not classified as major collector or arterial streets.

45.4. Required yards.

45.4.1. Yards facing an existing or proposed street other than a controlled access highway shall be considered front yards.

45.4.2. Required yard setbacks shall be determined by the type of permitted heavy manufacturing use and by the use immediately adjacent to the heavy manufacturing tract according to the following table:

If the permitted HM use is...	*And the adjacent use* is...*		
	Residential Recreational Street ROW Then the required yard setback is...	Commercial Retail Office Research PK Medical	Industrial (Light & Heavy Ind. and Heavy Mfg.)
Office, showroom, visitors parking lot	100`	100`	50`
Fully enclosed manufacturing operations, warehouses, employees parking lot	200`	150`	50`
Exterior storage	300`	200`	50`

If the permitted HM use is...	*And the adjacent use* is...*		
Exterior manufacturing operations	400`	250`	100`

*Adjacent use shall be determined by its zoning district designation unless the actual use clearly falls within another category (e.g., a residential subdivision in a light industry zone would be treated as residential.)

45.4.3. There shall be required a minimum setback of 50 feet from all property lines unless otherwise specified in this article.

45.4.4. No loading areas, exterior storage areas, or accessory uses and buildings shall be located in any required yard; provided, however, a gate or security station may be placed in such yards.

45.4.5. Railroad setback. Where a tract of land abuts a railroad right-of-way, the rear or side yard setback requirements for principal or accessory structures may be reduced to 50 feet from the railroad right-of-way.

45.4.6. Easements. There shall be provided an easement of not less than 25 feet along each side and rear lot line for utilities, drainage, and railroad purposes.

45.5. Performance standards.

All permitted operations shall comply with applicable federal, state and local regulations concerning air pollution, odor, vibration, noise, fire and explosive hazards, glare, radiation, radioactive materials, electromagnetic interference, water pollution, and waste disposal.

45.6. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

45.6.1. Parking areas provided for executives and visitors shall be paved and properly drained.

45.6.2. Parking areas in required rear and side yards are not permitted within 50 feet of any rear or side property line.

45.6.3. Driveways and vehicular access ways in required rear and side yards, except as necessary to cross a required rear or side yard, are not permitted within 50 feet of any rear or side property line.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof. (Ord. No. 99-1020, § 7, 1-13-2000; Ord. No. 09-430, § 17, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

45.7. Landscaping requirements.

Every site on which a building shall be placed shall be landscaped in the following manner. All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

45.7.1. Visitors' parking lots shall be screened from view of all public streets and adjacent residential and recreational uses by a perimeter landscaping strip at least five feet in width planted with an average of one tree and six shrubs per 50 linear feet or fraction thereof of perimeter. Where a berm at least three feet in height is used, the shrubs are optional but the trees will still be required. Such berms shall be planted with a vegetative ground cover.

45.7.2. All yards required under this article shall be landscaped and maintained. A minimum of one tree per 40 linear feet of distance for each boundary line adjacent to a nonindustrial use (i.e., other than light or heavy industry or heavy manufacturing or railroad right-of-way) or street right-of-way shall be planted in the required yards. Existing vegetation may substitute for part or all of this requirement if it forms a broken screen composed of intermittent visual obstructions

from the ground to a height of at least 20 feet and provides screening equivalent to having one tree every 40 feet. The majority of the trees used should be of nondeciduous species in order to ensure a visual screen in all seasons and should be of a variety that maintains its foliage to the ground.

45.8. Heavy manufacturing district plan.

45.8.1. Any landowner of property lying in a heavy manufacturing district desiring to dedicate any street, road, or right-of-way to the public must submit to the planning commission a plan of the proposed street, road, or right-of-way for approval.

45.8.2. Anyone desiring to secure a building permit for the use of land lying in a heavy manufacturing district must submit to the manager of planning (city planning division) a generalized plot plan of the tract to be developed for approval. Such generalized plot plan shall have shown thereon the following information:

(1) Location map showing the boundaries of the tract to be developed.

(2) The location of all buildings and structures proposed to be constructed.

(3) The general location of parking areas, loading docks, exterior storage areas, proposed railroad spurs, and public and/or private accessways.

(4) Site grading and storm drainage plan.

(5) Proposed utilities services.

(6) All required screening and landscaping.

(7) Required and adequate easements.

The manager of planning (city planning division) shall review and approve by signature the proposed plot plan upon finding that the same complies with these regulations.

If the proposed plot plan is not approved, the manager of planning (city planning division) shall state in writing on the proposed plot plan the cause for such disapproval.

ARTICLE 46. INDUSTRIAL PARK DISTRICT REGULATIONS

Purpose. The purpose of the industrial park district is to provide sites for manufacturing, recycling, warehousing and industrial operations within the city that possess a moderate level of site amenities through perimeter landscaping, street setbacks, restrictions on outdoor operations, and screening of storage. Because industrial uses can produce excessive noise, activity, and heavy traffic, provisions have been included to protect adjacent residential and office districts through the inclusion of increased setbacks and an enhanced level of landscaping along their common boundaries. Building heights are permitted to increase in direct proportion to the building's distance from property lines. Adherence to adopted performance standards is required to prevent all types of environmental pollution. These regulations are intended to permit incompatible uses to function in close proximity; to encourage the establishment of attractive industrial districts responsive to the demands of modern industrial operations; and to promote the health, safety, welfare, comfort and convenience of the users of this district as well as of the inhabitants of the surrounding districts.

Within an industrial park district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

46.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Agricultural operations on tracts of ten acres or greater, provided no sales are made on the premises, but not including commercial animal or poultry farms or kennels.

Federal, state, county, or city owned or operated buildings and uses.

Light and heavy manufacturing operations subject to compliance with section 46.3 hereof.

Warehousing and wholesale operations.

Trucking terminals.

Recycling operations.

Commercial heliports and/or helipads.

Medical and dental laboratories.

Research and experimental and testing laboratories.

Gasoline and L.P. bulk fuel storage facilities.

Office buildings.

Retail sales and exterior storage only as accessory uses to permitted uses and subject to the provisions of section 46.2.

Structures and other uses accessory to those permitted herein.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

(Ord. No. 09-815, § 6, 12-17-2009; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 10-178, § 1, 4-22-2010; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

46.2. Use standards.

46.2.1. All permitted uses, with the exception of agricultural operations, truck and heavy equipment parking, container storage, bulk fuel storage, and heliports, shall be conducted within completely enclosed buildings.

46.2.2. Exterior storage shall be permitted only within rear yards, and the stored products or materials shall be in an enclosed building or enclosed by a masonry wall, fence or evergreen hedge of sufficient opacity and size to completely screen the stored materials from view from adjacent properties and streets.

46.2.3. Parking or storage of company vehicles, trucks, containers, and heavy equipment used in connection with a permitted business shall be in the rear yard only and shall be screened by vegetation or a berm not less than four feet high.

46.2.4. Retail sales shall not occupy more than 20 percent of the total floor area of all buildings on any lot or group of contiguous lots in common ownership or control.

46.2.5. Bulk fuel storage facilities shall meet all setbacks as required for principal buildings in this district.

46.2.6. Recycling operations shall not include the collection, processing, storage or disposal of hazardous wastes as defined by federal and state regulations, but may include the collection and storage of household batteries. Recycling operations may include the collection, temporary holding, and transfer of medical wastes, but shall not include their storage or disposal.

46.2.7. Any lot in an industrial park district that is used for any purpose other than agriculture, whether or not it contains a structure, shall meet all setback, landscaping, and parking regulations of this article.

(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

46.3. Performance standards.

All operations shall comply with applicable federal, state and local regulations concerning air pollution, odor, vibration, noise, fire and explosive hazards, glare, radiation, radioactive materials, electromagnetic interference, water pollution, and waste disposal, including the performance standards set forth in section 50.2 hereof.

46.4. Required yards.

46.4.1. Front yards. Yards facing an existing or proposed street other than a controlled access highway shall have a minimum depth of 40 feet. On a corner lot, the street frontage that the building faces may be designated as the front yard, in which case, the yard opposite the designated front yard shall be considered the rear yard.

46.4.2. Interior side and rear yards are those yards that abut land zoned industrial park district. Interior rear yards shall have a minimum depth of 25 feet; interior side yards shall have a minimum depth of 20 feet.

46.4.3. Exterior side and rear yards are those yards that abut land in a zoning district other than industrial park. They shall have a minimum depth of 40 feet.

46.4.4. All required yards shall be kept clear of driveways and vehicular access ways, except as necessary to cross a required yard, and shall be kept clear of parking areas, loading areas, exterior storage areas, trash and waste storage containers, and accessory uses and buildings, provided however, a gate or security station may be located in a required yard.

46.4.5. Security fences shall not be placed in any required front yard.

46.4.6. There shall be provided an easement of not less than 20 feet along each side and rear lot line for utilities, drainage, and railroad purposes. (Ord. No. 09-430, § 18, 7-9-2009)

46.5. Density controls.

46.5.1. Minimum lot area shall not be less than two acres.

46.5.2. Minimum lot width shall not be less than 100 feet as measured at the building line.

46.5.3. No portion of any building shall project through imaginary height planes leaning inward from any yard as defined in section 46.4 at a slope of 0.6 foot of height for each foot of horizontal distance measured perpendicularly to the property boundary; provided, however, that the maximum height shall not exceed 120 feet.

46.5.4. Buildings shall not cover an area greater than 60 percent of the total area of the lot.

46.6. Street access and frontage.

46.6.1. Each lot shall have a minimum frontage of 75 feet on a public street.

46.6.2. Access to building sites shall be via collector or arterial streets, wherever possible. No access streets serving plants shall be permitted which may place heavy traffic on residential streets that are not classified as major collector or arterial streets.

46.7. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

46.7.1. All driveways, vehicular access ways and parking areas shall be paved and properly drained. No parking shall be permitted any place other than in paved parking areas.

46.7.2. Loading areas shall not be placed within any front yard or in any required yard and shall be located and sufficiently screened so as to not be visible from any existing or proposed street.

46.7.3. Lighting of off-street parking and vehicular use areas is required in accordance with section 71.6, PVA lighting requirements. All regulations of article 71 concerning perimeter landscaping for parking areas must be met for parking areas located in any portion of a front yard.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof. (Ord. No. 99-1020, § 8, 1-13-2000; Ord. No. 09-430, § 19, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

46.8. Landscaping requirements.

Every building site on which a building shall be placed shall be landscaped in the following manner. All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

46.8.1. All yards required under this ordinance shall be planted with grass or an evergreen ground cover and shall be maintained so as to present an attractive and healthy appearance. Yard tree requirements shall be as follows:

(1) *Front yards.* A minimum of one tree per 30 linear feet of distance for each lot line fronting a public street shall be planted in the required front yard(s).

(2) *Side and rear yards.* [Side and rear yards] shall be planted with a minimum of one tree per 40 linear

feet for each side and rear lot line unless such yard abuts a residential or office district, in which case such yard shall be planted with a minimum of three large deciduous shade trees, five large evergreen trees and seven understory trees for each 100 linear feet of yard.

Existing vegetation shall substitute for the required landscaping if the type, size and density of the existing vegetation creates a yearround visual screen separating the industrial park from adjacent districts.

46.8.2. Required yard trees, unless elsewhere specified, shall be a mix of deciduous shade trees and evergreens; loblolly pines shall not account for more than 25 percent of the required number of trees; other conifers shall be those varieties that retain their branches at ground level.

46.8.3. All off-street parking, loading and unloading areas, and outdoor trash and waste storage containers shall be screened, as well as practicable, from view from streets by the use of walls, earth berms and/or vegetation.

46.9. Industrial park plan.

46.9.1. Any landowner of property lying in an industrial park district desiring to dedicate any street, road, or right-of-way to the public must submit to the planning commission a plan of the proposed street, road, or right-of-way for approval.

46.9.2. Anyone desiring to secure a building permit for the use of land lying in an industrial park district must submit to the manager of planning a generalized plot plan of the lot to be developed for approval. Such generalized plot plan shall have shown thereon the following information:

(1) Location map showing the boundaries of the tract to be developed and all adjacent uses.

(2) The location of all buildings and structures proposed to be constructed.

(3) The location of parking areas, loading docks, storage areas, proposed railroad spurs, and public and/or private accessways.

(4) Site grading and storm drainage plan.

(5) Proposed utilities services.

(6) Required and adequate easements.

(7) Proposed landscaping plans including the numbers, types and placement of trees and other vegetation.

(8) Details of all required screening including materials, locations, and extent.

(9) Proposed signage including size and location.

The manager of planning (or his designee) shall review and approve by signature the proposed plot plan upon finding that the same complies with these regulations.

If the proposed plot plan is not approved, the manager of planning (or his designee) shall state in writing on the proposed plot plan the cause for such disapproval.

CHAPTER V. RESEARCH PARK DISTRICT REGULATIONS

ARTICLE 50. RESEARCH PARK DISTRICT REGULATIONS

Purpose. The purpose and intent of the research park district regulations are to provide a protective district with a park-like development for the orderly growth and development of certain industries and uses which are, by virtue of control, mutually harmonious with other industries and uses permitted, as well as with residential, commercial, and other uses permitted in nearby districts. The research park district caters to industries requiring the benefits that accompany this zoning classification and protects these industries from encroachment by commercial, residential, and other land uses adverse to the location and expansion of such development.

These research park district regulations are intended to promote the physical and mental health, safety, morals, welfare, comfort, and convenience of the inhabitants of this district and its environs.

Within the research park district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

50.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained, except for one or more of the following uses:

Accessory uses permitted in the research park district such as recreational facilities and dining facilities in connection with the operation of an establishment and primarily for employees, students, or faculty.

Agricultural uses, provided no sales are made on the premises, but not including commercial animal or poultry farms or kennels.

Banks and credit unions.

Dwellings only in connection with bona fide agricultural operations, or as living quarters for bona fide caretakers and/or watchmen and their families; provided, however, that residential subdivisions recorded prior to April 12, 1962, may be developed for single-family use.

Educational, scientific and research organizations.

Federal, state, county, city or public utility owned or operated buildings and uses.

Heliports and radio and television studios but not including broadcast towers, provided such uses are in accordance with section 50.2 hereof.

Limited, temporary sleeping quarters for scientists, laboratory technicians, custodians and caretakers that are demonstrated to be necessary to carry out a permitted use in this district.

Mobile food vending sites.

Mobile food vending units.

Office buildings for general office purposes.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Research and development and limited manufacturing and processing where at least 30 percent of the building area is devoted to nonmanufacturing activities to include offices, laboratories, technical support, etc. The remaining 70 percent may be used for manufacturing, assembly, storage and related uses.

Research, experimental and testing laboratories.

Retail sales and consumer service establishments (not including wholesale sales), accessory to any permitted uses other than agricultural or residential uses, and dealing primarily with employees, students, or faculty of establishments permitted as principal uses, provided that such commercial uses shall not occupy more than five percent of the total floor area of all buildings on any lot or group of contiguous lots in common ownership or control.

Structures accessory to uses permitted by section 50.1 hereof including, but not limited to, warehouses, storage buildings, and pump houses provided such accessory uses shall not exceed 20 percent of the total building area of the primary use.

(Ord. No. 96-1008, § 2, 1-23-1997; Ord. No. 05-547, § 1, 8-23-2005; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 15-479, § 1, 8-27-2015; Ord. No. 17-883, § 1, 12-21-2017)

50.2. Performance standards.

The following performance standards shall be required for all uses located in the research park district:

50.2.1. *Air pollution.* Every use shall be so operated as to comply with the emission limitations specified in Chapter 12, Article III, section 12-31, Code of Ordinances, City of Huntsville, Alabama, April 2003, as the same may be amended or revised, except that in the case of visible emission restrictions no visible emissions will be allowable.

50.2.2. *Odor.* No odors shall be emitted that are detectable without instruments at or beyond any property line.

50.2.3. *Vibration.* Maximum permitted vibration from any cause shall not exceed the following, when measured at the lot line:

Frequency (Cycles per Second)	*Displacement (Inches)*
10 and below	0.0008
10—20	0.0005
20—30	0.0003
30—40	0.0002
40—50	0.0001
50 and above	0.0001

50.2.4. *Noise.* Every use shall be so operated as to comply with the noise limitations specified in Chapter 12, Article V, Noise, Code of Ordinances, City of Huntsville, Alabama, April 2003, as the same may be amended or revised.

50.2.5. *Fire and explosion hazard.* All activities and all storage of flammable and explosive materials shall be in accordance with the National Board of Fire Underwriters, publications and other local ordinances.

50.2.6. *Glare.* No direct or reflected glare shall be produced so as to be visible at or beyond any lot line.

50.2.7. *Radiation.* Research operations shall cause no dangerous radiation at any property line as specified by the regulations of the Alabama Department of Public Health, Bureau of Radiological Health.

50.2.8. *Radioactive materials.* The handling of radioactive materials, the discharge of such materials into air or water, and the disposal of radioactive wastes, shall be in conformance with the regulations of the Alabama Department of Public Health, Bureau of Radiological Health.

50.2.9. *Electromagnetic interference.* Industries shall emit only that amount of unshielded spurious electromagnetic radiation as is necessary for the conduct of their operations. Federal Communications Commission requirements shall govern maximum radiation which tends to interfere with meaningful signals.

50.2.10. *Water pollution.* No effluent shall be discharged in any stream. Discharge into the Huntsville sewerage system shall be as approved by the City of Huntsville City Engineer.

50.2.11. *Waste.* All industrial wastes shall be treated and disposed of in such a manner as to comply with all federal, local, and state standards.

50.3. Required yards.

50.3.1. Yards facing an existing or proposed street other than a controlled access highway shall be considered front yards. Such yards shall have a minimum depth of 100 feet, provided that no building shall project through an imaginary height plane as described in section 51.8.1.

50.3.2. All other yards shall have a minimum depth of 50 feet, provided that no building shall project through an imaginary height plane as described in section 51.8.2.

50.3.3, 50.3.4. Reserved.
(Ord. No. 17-883, § 2, 12-21-2017)

50.4. Density regulations.

50.4.1. Buildings shall not cover an area greater than 85 percent of the total area of the tract upon which the buildings are located. (17-)

50.4.2. Minimum required depth of front yard: 100 feet, but shall conform to the building setback lines established by the approved subdivision plat. (17-)

50.4.3. No principal or accessory structure shall be located less than ten feet from any side or rear lot line, except that when the side or rear of lot abuts a residential district, a minimum of 30 feet is required. (17-)

50.4.4. Exterior storage of materials shall not be placed in any required yard and shall be contained by fencing in such a manner as to be neat in appearance when viewed from any street. (84-70)
(Ord. No. 17-883, § 3, 12-21-2017)

50.5. Street access and frontage.

50.5.1. Each lot shall have a minimum frontage of 150 feet on a public road; provided however, the director of planning may approve a lesser frontage to a minimum of 100 feet for lots located on cul-de-sacs or on street curves, or having other extraordinary characteristics.

50.5.2. Access to building sites shall be via collector or arterial streets. No access roads serving plants shall be permitted which may place heavy traffic on residential streets which are not classified as major collector or arterial streets.
(Ord. No. 17-883, § 4, 12-21-2017)

50.6. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

50.6.1. Driveways and vehicular access ways in required front yards, except as necessary to cross the required front yards, are not permitted within 75 feet of any existing or proposed street.

50.6.2. Parking areas in required front yards are not permitted within 75 feet of any existing or proposed street.

50.6.3. Parking areas shall be paved and properly drained. No parking shall be permitted any place other than paved parking areas.

50.6.4. Loading areas for supplies and service shall be sufficient to meet the requirements of each use. Loading areas shall not be placed within any front yard and shall be located and properly screened so as to be not visible from any existing or proposed street.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 05-547, § 2, 8-23-2005; Ord. No. 09-430, § 20, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010; Ord. No. 17-883, § 5, 12-21-2017)

50.7. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

50.8. Height requirements.

Minimum height: Unlimited, except where the property abuts a residential district; in such cases, no portion of any building shall project through imaginary height planes leaning inward from any yard other than a front yard, as defined in section 51.3.2, at a slope of .6 foot of height for each foot of horizontal distance measured perpendicularly to the property boundary, except as provided for in section 73.9.1.
(Ord. No. 17-883, § 6, 12-21-2017)

50.9. Landscaping requirements.

Every building site on which a building shall be placed shall be landscaped in the following manner. All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

50.9.1. All side and rear yards shall have not less than a ten-foot wide strip of land adjacent to the property lines planted and maintained, except that where a rear or side yard abuts a residential district, then a 30-foot wide strip of land shall be provided. Within the 30-foot strip there shall be a 15-foot wide planting screen as provided for in section 3.1—Buffer of Screen Planting. (84-70, 92-4, 17-)
(Ord. No. 17-883, § 7, 12-21-2017)

50.10. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71, off-street parking and vehicular use area landscaping requirements.
(Ord. No. 99-1020, § 2, 1-13-2000)

50.11. Development procedure for tracts or parcels.

50.11.1. Any landowner of property lying in a research park district desiring to dedicate any

street, road, or right-of-way to the public must submit to the planning commission a plan of the proposed street, road, or right-of-way for approval.

50.11.2. Anyone desiring to secure a building permit for the use of land lying in a research park district must submit to the director of planning a generalized plot plan of the tract to be developed for approval. Such generalized plot plan shall have shown thereon the following information:

(1) Location map showing the boundaries of the tract to be developed.

(2) The general location of main buildings proposed to be constructed.

(3) The general location of parking areas, loading docks, and public and/or private access ways.

(4) Site grading and storm drainage plan.

(5) Proposed utilities services.

(6) Required screening.

(7) Required and adequate easements.

(8) Landscaping provisions.

The director of planning shall review and approve by signature the proposed plot plan upon finding that the same complies with these regulations. If the proposed plot plan is not approved, the director of planning shall state in writing on the proposed plot plan the cause for such disapproval. (84-70)
(Ord. No. 17-883, § 8, 12-21-2017)

ARTICLE 51. RESEARCH PARK WEST DISTRICT REGULATIONS

Purpose. The purpose and intent of the research park west district regulations are to provide a controlled and protected environment for the orderly growth and development of high technology industries within a park-like setting.

Within the research park west district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

51.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

A single-family dwelling, only in connection with bona fide agricultural operations, as defined in [this] section 51.1.

Agricultural operations on tracts of ten acres or greater, provided no sales are made on the premises, but not including commercial animal or poultry farms or kennels.

Commercial heliports and/or helipads.

Computer programming and other software services.

Educational, scientific and research organizations.

Engineering, architectural, and design services.

Federal, state, county, city or public utility owned or operated buildings and uses.

Limited, temporary sleeping quarters for scientists, laboratory technicians, custodians and caretakers that are demonstrated to be necessary to carry out a permitted use in this district.

Mobile food vending sites.

Mobile food vending units.

Office buildings for general office purposes, but only in connection with on-site research, development testing and related manufacturing or in connection with such uses offsite (example: the general administrative offices of a research and development firm are permitted though no onsite research and development occurs.)

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Production facilities and operations with a high degree of scientific input and activity where at least 30 percent of the building area is devoted to nonmanufacturing activities to include offices, laboratories, technical support, etc. The remaining 70 percent may be used for manufacturing, assembly and related uses.

Research, experimental and testing laboratories.

Retail sales, consumer service establishments and other accessory uses (not including wholesale sales) are allowed in connection with any permitted use. Such uses will be primarily for the convenience of employees, students, or faculty of establishments permitted as principal uses; provided, however, that commercial uses shall not occupy more than five percent of the total floor area of all buildings on any lot or group of contiguous lots in common ownership or control.

Structures accessory to uses permitted herein including, but not limited to, warehouses, storage buildings, and pump houses provided such accessory uses shall not exceed 30 percent of the total building area of the primary use.

Telecommunications businesses, excluding radio and television studios.

(Ord. No. 96-1008, § 2, 1-23-1997; Ord. No. 05-547, § 3, 8-23-2005; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 15-479, § 1, 8-27-2015; Ord. No. 12-581, § 1, 8-23-2012)

51.2. Performance standards.

The performance standards listed in section 50.2, research park district hereof, shall be required of all uses located in the research park west district.

51.3. Required yards.

51.3.1. Yards facing an existing or proposed street other than a controlled access highway shall be considered front yards. Such yards shall have a minimum depth of 100 feet.

51.3.2. All other yards shall have a minimum depth of 50 feet, provided that no building shall project through an imaginary height plane as described in section 51.8.1.

51.3.3. All required yards shall be kept clear of driveways and vehicular access ways, except as necessary to cross a required yard, and shall be kept clear of parking areas, loading areas, accessory uses and buildings, provided however, a gate or security station may be located in a required yard.

(Ord. No. 09-430, § 21, 7-9-2009; Ord. No. 17-885, § 1, 12-21-2017; Ord. No. 18-536, § 1, 8-23-2018)

51.4. Density regulations.

51.4.1. Buildings shall not cover an area greater than 40 percent of the total area of the tract upon which the buildings are located.

51.4.2. Buildings and all paved areas shall not cover an area greater than 60 percent of the total area of the tract.

51.4.3. Minimum lot area shall be not less than four acres for each tract.

51.4.4. Minimum lot width of each tract shall be not less than 300 feet measured at the minimum building line.

(Ord. No. 17-885, § 2, 12-21-2017; Ord. No. 18-232, §§ 2, 3, 5-24-2018)

51.5. Street access and frontage.

51.5.1. Each lot shall have a minimum frontage of 100 feet on a public road.

51.5.2. Access to building sites shall be via collector or arterial streets, wherever possible. No access roads serving plants shall be permitted which may place heavy traffic on residential streets that are not classified as major collector or arterial streets.

51.6. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

51.6.1. Driveways and vehicular access ways, except as necessary to cross a required yard, are not permitted in any required yard. Driveways and vehicular access ways shall be paved and properly drained.

51.6.2. Parking areas shall not be placed in any required yard and shall be paved and properly drained. No parking shall be permitted any place other than paved parking areas.

51.6.3. Loading areas shall not be placed within any front yard or any required side or rear yard and shall be located and properly screened so as not to be visible from any existing or proposed street.

51.6.4. Parking and loading areas shall be landscaped in accordance with section 51.9, landscaping requirements.

51.6.5. Lighting of off-street parking and vehicular use areas is required in accordance with section 71.6, PVA lighting requirements.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 99-1020, § 9, 1-13-2000; Ord. No. 05-547, § 4, 8-23-2005; Ord. No. 09-430, § 22, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

51.7. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

51.8. Height requirements.

51.8.1. Unlimited, except when abutting residential districts; when abutting residential districts, the following regulations shall be applicable: no portion of any building shall project through imaginary height planes leaning inward from any yard other than a front yard, as defined in section 51.3.2, at a slope of .6 foot of height for each foot of horizontal distance measured perpendicularly to the property boundary, except as provided for in section 73.9.1.

51.8.2. Reserved.
(Ord. No. 05-547, § 5, 8-23-2005; Ord. No. 18-536, §§ 2, 3, 8-23-2018)

51.9. Landscaping requirements.

Every building site on which a building shall be placed shall be landscaped in the following manner. All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

51.9.1. All yards required under this ordinance shall be landscaped and maintained. A minimum of one tree per 20 linear feet of distance for each boundary line shall be planted in the required yards.

51.9.2. All off-street parking areas shall be screened, as well as practicable, from view from streets by the use of earth berms or landscaping materials.

51.9.3. All off-street parking areas, to include drives within the parking areas, greater than either 20 automobile spaces or 6,000 square feet shall have at least five percent of the interior of the parking area landscaped in planting islands or peninsulas. Width of islands or peninsulas shall be a minimum width of at least five feet between backs of curbs and at least one tree per 20 parking spaces shall be planted within the planting islands or peninsulas in addition to other landscaping materials and plants.

51.10. Development procedure for tracts or parcels.

51.10.1. Any landowner of property lying in a research park west district desiring to dedicate any street, road, or right-of-way to the public must submit to the planning commission a plan of the proposed street, road, or right-of-way for approval.

51.10.2. Anyone desiring to secure a building permit for the use of land lying in a research park district must submit to the director of planning a generalized plot plan of the tract to be developed for approval. Such generalized plot plan shall have shown thereon the following information:

(1) Location map showing the boundaries of the tract to be developed.

(2) The general location of main buildings proposed to be constructed.

(3) The general location of parking areas, loading docks, and public and/or private access ways.

(4) Site grading and storm drainage plan.

(5) Proposed utilities services.

(6) Required screening.

(7) Required and adequate easements.

(8) Landscaping provisions.

The director of planning shall review and approve by signature the proposed plot plan upon finding that the same complies with these regulations. If the proposed plot plan is not approved, the director of planning shall state in writing on the proposed plot plan the cause for such disapproval. (84-70)

(Ord. No. 17-885, § 3, 12-21-2017)

ARTICLE 52. RESEARCH PARK APPLICATIONS DISTRICT REGULATIONS

Purpose. The purpose and intent of the research park applications district regulations are to provide a controlled environment designed specifically for those manufacturing and assembly plants and processing, warehousing, wholesale, and distribution operations that support and complement the existing research park district.

Within the research park applications district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

52.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

A single-family dwelling only in connection with bona fide agricultural operations, as defined in [this] section 52.1 hereof.

Accessory structures and uses to those permitted herein.

Agricultural operations on tracts of ten acres or greater, provided no sales are made on the premises, but not including commercial animal or poultry farms or kennels.

Commercial heliports and/or helipads.

Communication services, not elsewhere classified.

Computer and data processing services.

Educational, scientific, and research organizations.

Engineering, architectural, and design services.

Exterior storage in conjunction with the abovementioned uses, completely screened from adjacent property lines and streets.

Federal, state, county, city or public utility owned or operated buildings and uses.

Limited, temporary sleeping quarters for scientists, laboratory technicians, custodians and caretakers that are demonstrated to be necessary to carry out a permitted use in this district.

Manufacturing, processing, fabrication, or assembly of the following:

(1) Printing and publishing.

(2) Electrical and electronic machinery, equipment and supplies.

(3) Professional, scientific, and controlling instruments.

(4) Plastics, glass and rubber products.

(5) Machinery other than electrical.

(6) Transportation equipment.

(7) Metal and metal products.

(8) Chemicals and chemical products.

(9) Ordnance and accessories, except ammunition.

Medical and dental laboratories.

Mobile food vending sites.

Mobile food vending units.

Office buildings for general office purposes.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Radio and television studios but not including broadcast towers.

Research, experimental and testing laboratories.

Telecommunications.

Warehousing, interior storage, and distribution in conjunction with manufacturing, assembly and office use.

(Ord. No. 96-1008, § 2, 1-23-1997; Ord. No. 05-547, § 6, 8-23-2005; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 15-479, § 1, 8-27-2015; Ord. No. 12-581, § 2, 8-23-2012)

52.2. Performance standards.

The performance standards listed in section 50.2, research park district, shall be required for all uses located in the research park applications district.

52.3. Required yards.

52.3.1. Yards facing an existing or proposed street other than a controlled access highway shall be considered front yards. Such yards shall have a minimum depth of 100 feet, provided that no building shall project through an imaginary height plane as described in section 52.8.1.

52.3.2. All other yards shall have a minimum depth of 50 feet, provided that no building shall project through an imaginary height plane as described in section 52.8.2.

52.3.3. All required yards shall be kept clear of driveways, vehicular access ways and parking areas, except as provided for in sections 52.6.1 and 52.6.2, and shall be kept clear of loading areas, exterior storage areas, accessory uses and buildings, provided however, a gate or security station may be located in a required yard.

(Ord. No. 97-676, § 1, 10-23-1997; Ord. No. 09-430, § 23, 7-9-2009)

52.4. Density regulations.

52.4.1. Buildings shall not cover an area greater than 30 percent of the total area of the tract upon which the buildings are located.

52.4.2. Buildings and all paved areas shall not cover an area greater than 70 percent of the total area of the tract.

52.4.3. Minimum lot area shall not be less than four acres for each tract.

52.4.4. Minimum lot width of each tract shall not be less than 200 feet measured at the minimum building line.

52.5. Street access and frontage.

52.5.1. Each lot shall have a minimum frontage of 100 feet on a public road.

52.5.2. Access to building sites shall be via collector or arterial streets, wherever possible. No access roads serving plants shall be permitted which may place heavy traffic on residential streets that are not classified as major collector or arterial streets.

52.6. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

52.6.1. Driveways and vehicular access ways, except as necessary to cross a required yard, are not permitted in any required rear or side yard, nor within 100 feet of the property line in any required front yard. Driveways and vehicular access ways shall be paved and properly drained.

52.6.2. Parking areas shall not be placed in any required side or rear yard, or within 100 feet of the property line in any required front yard. All parking areas shall be paved and properly drained. No parking shall be permitted any place other than paved parking areas.

52.6.3. Loading areas shall not be placed within any front yard or any required side or rear yard and shall be located and properly screened so as not to be visible from any existing or proposed street.

52.6.4. Parking and loading areas shall be landscaped in accordance with section 52.9, landscaping requirements.

52.6.5. Lighting of off-street parking and vehicular use areas is required in accordance with section 71.6, PVA lighting requirements.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof. (Ord. No. 99-1020, § 10, 1-13-2000; Ord. No. 05-547, § 7, 8-23-2005; Ord. No. 09-430, § 24, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

52.7. Signs permitted.

Signs shall be permitted in accordance with section 72.4.2 and shall be regulated in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

52.8. Height requirements.

52.8.1. No portion of any building shall project through imaginary height planes leaning inward from a front yard, as defined in section 52.3.1, at a slope of 0.3 foot of height for each foot of horizontal distance measured perpendicularly to the property boundary.

52.8.2. No portion of any building shall project through imaginary height planes leaning inward from any yard other than a front yard, as defined in section 52.3.2, at a slope of 0.6 foot of height for each foot of horizontal distance measured perpendicularly to the property boundary.
(Ord. No. 97-676, § 1, 10-23-1997)

52.9. Landscaping requirements.

Every building site on which a building shall be placed shall be landscaped in the following manner. All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

52.9.1. All yards required under this ordinance shall be landscaped and maintained. A minimum of one tree per 20 linear feet of distance for each boundary line shall be planted in the required yards.

52.9.2. All off-street parking areas shall be screened, as well as practicable, from view from streets by the use of earth berms or landscaping materials.

52.9.3. All off-street parking areas, to include drives within the parking areas, greater than either 20 automobile spaces or 6,000 square feet, shall have at least five percent of the interior of the parking area landscaped in planting islands or peninsulas. Width of islands or peninsulas shall be a minimum width of at least five feet between backs of curbs and at least one tree per 20 parking spaces shall be planted within the planting islands or peninsulas in addition to other landscaping materials and plants.

52.10. Development procedure for tracts or parcels.

52.10.1. Any landowner of property lying in a research park applications district desiring to dedicate any street, road, or right-of-way to the public must submit to the planning commission a plan of the proposed street, road, or right-of-way for approval.

52.10.2. Anyone desiring to secure a building permit for the use of land lying in a research park applications district must submit to the manager of planning the following information, as appropriate for approval of plans:

(1) A site plan for traffic engineering analysis, showing location and design of buildings, driveways, driveway intersections with streets, parking areas, loading areas, maneuvering areas and sidewalks;

(2) The percent of coverage of the total site in buildings, parking areas, accessory structures and drives;

(3) A grading plan and a planting plan, including screen walls and fences, for analysis of adequacy of visual screening and landscape architectural design;

(4) A site plan showing utilities and utility easements, including any waste disposal facilities; and

(5) Plans for all signs to be erected, including location, design, color and lighting of each sign.

The manager of planning shall review and approve by signature the proposed plot plan upon finding

that the same complies with these regulations. If the proposed plot plan is not approved, the manager of planning shall state in writing on the proposed plot plan the cause for such disapproval.

ARTICLE 53. RESEARCH PARK COMMERCIAL DISTRICT REGULATIONS

Within a research park commercial district as shown on the official zoning maps of the City of Huntsville, Alabama, the following regulations shall apply:
(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005)

53.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Ambulatory health care facilities, including dental care.

Accessory structures only when essential for the operation of the permitted use.

Apparel stores.

Bakeries, where the products made are sold exclusively at retail on the premises.

Banks and credit unions.

Barber shops, beauty parlors, reducing salons.

Book stores and newsstands.

Bowling alleys.

Cafes, delicatessens, coffee shops and restaurants without alcohol.

Confectionery stores.

Conference/convention centers.

Drug stores and apothecaries.

Dry cleaning establishments utilizing only non-flammable dry cleaning fluids.

Emergency health care clinics.

Florist shops.

Gift shops.

Grocery stores, provided no gasoline is offered for sale.

Hardware stores and variety stores, provided that no such business shall occupy more than 30,000 square feet of gross floor area.

Health clubs or gyms.

Hobby shops.

Home furnishings stores.

Hotels and motels.

Jewelry stores.

Medical or dental centers.

Municipal, county, state or federal uses.

Music, record, and video sales and rental stores.

Nurseries, kindergartens or day care centers for children.

Office buildings.

Office supply and computer supply stores.

Other uses that are similar to those enumerated and that would support and complement uses permitted within the adjoining research park district, but not including the display, storage, or sales of merchandise in any parking and vehicular use area.

Performing arts center.

Permitted Uses as Special Exceptions as defined and regulated by Subsection 92.5.3 hereof.

Photo finishing shops and photography studios.

Print shops and copying services.

Radio station studios and offices including required transmission equipment, but not including broadcast towers.

Residential dwelling units on the upper floors of hotels, mixed use, commercial or office buildings, provided such units contain a minimum of 600 square feet and are in compliance with all applicable regulations for habitable space.

Restaurants, delicatessens, and cafes.

Shoe stores, shoe repair shops, and tailor shops.

Spa or wellness centers.

Sporting goods stores.

Teleconferencing centers.

Teleport.

Travel agencies.

Warehouse retail, provided that no such business shall occupy more than 50,000 square feet of gross floor area.

(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005; Ord. No. 06-826, § 2, 10-26-2006 Ord. No. 07-401, § 5, 6-14-2007; Ord. No. 11-11, § 13, 2-24-2011; Ord. No. 19-936, §§ 1, 2, 11-21-2019)

53.2. Density regulations.

53.2.1. Minimum lot area shall be not less than one-half acre.

53.2.2. Minimum lot width of each tract shall be not less than 100 feet measured at the minimum building line.

(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005)

53.3. Street access and frontage.

53.3.1. Each lot shall have a minimum frontage of 50 feet on a public road.

53.3.2. Access into a research park commercial district shall be from a collector or arterial street and shall be in accordance with the adopted master plan, if any, for the adjoining research park district. No access roads serving the commercial district shall be permitted which may place heavy traffic on residential streets that are not classified as collector or arterial streets.

53.3.3. All establishments shall be accessed from streets or drives internal to the research park commercial district; curb cuts across the boundaries of the commercial district to provide access for individual establishments shall not be permitted.

(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005)

53.4. Required yards.

The following minimum yards shall be required:

53.4.1. Yards abutting an existing or proposed street shall be considered front yards. No principal structure, accessory structure, exterior storage or merchandise shall be located less than 50 feet from any existing or proposed collector or arterial street right-of-way, except as provided for in section 53.5.2.

53.4.2. All yards abutting collector or arterial streets shall be kept clear of parking, loading areas, vehicular access ways, except as necessary to cross a required yard and except as provided for in section 53.5.2, parking and loading areas. All yards described herein shall be landscaped in accordance with section 53.8.1, landscaping requirements.

53.4.3. Side and rear yards that abut the boundaries of the research park commercial district and have no street frontage shall have a minimum depth of 50 feet in which no principal structure, accessory structure, or exterior storage or merchandise shall be located.

53.4.4. All required side and rear yards that abut the boundaries of the research park commercial district shall be kept clear of parking, loading areas, and vehicular access ways, except as necessary to cross a required yard, and except as provided for in section 53.5.2, parking and loading areas. All yards described herein shall be landscaped in accordance with section 53.8.1, landscaping requirements.

53.4.5. Yards having frontage on local streets shall have a minimum depth of 20 feet of which the first 15 feet adjacent to the street shall be landscaped in accordance with section 53.8.3, landscaping requirements.

53.4.6. Internal side and rear yards that abut other side or rear yards within the commercial district shall have a minimum depth of ten feet and shall be landscaped.

(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005)

53.5. Parking and loading areas.

53.5.1. The minimum number of off-street parking spaces shall be provided and maintained as follows:

(1) *Day care and nurseries:* One space for each staff member plus one space for each ten children permitted plus a passenger loading space situated so that children will not have to cross a parking area or lanes of traffic.

(2) *Hotels and motels:* One space for each room or unit offered for rent.

(3) *Lounges:* One space per 100 square feet of gross floor area plus one space per employee on the largest shift.

(4) *Medical clinics and medical offices:* One space for each 200 square feet of gross floor area.

(5) *Office buildings:* One space for each 250 square feet of gross floor area.

(6) *Restaurants:* One space per 100 square feet of gross floor area plus one space per employee on the largest shift.

(7) *Retail sales and service establishments:* One space for each 300 square feet of gross floor area.

(8) Required off street parking may be located within the research park commercial district boundary without respect to the use said parking is to serve, so long as the total provided off street parking is not less than the cumulative total required by all permitted uses within the district boundary.

53.5.2. Off street parking, including parking structures, loading areas and vehicular access ways, except as necessary to cross a required yard, shall not be permitted within 20 feet of any boundary of the research park commercial district.

53.5.3. Parking shall be paved and properly drained and have curbs and gutters. No parking shall be permitted any place other than paved parking areas.

53.5.4 Loading areas shall be sufficient to meet the requirements of each use. Loading areas shall not be placed within any front yard and shall be screened from view from public rights-of-way by the use of a six-foot high wall or by a combination of live plant materials that is opaque from the ground to a height of at least six feet during all seasons of the year.

53.5.5. Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005; Ord. No. 10-507, § 2, 8-26-2010; Ord. No. 15-481, § 1, 8-27-2015)

53.6. Permitted signs.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

53.7. Height limitations.

53.7.1. Maximum number of stories for motels, hotels and office buildings shall be 12 stories.

53.7.2. Maximum number of stories for structures other than hotels, motels, and office buildings shall be five.
(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005)

53.8. Landscaping requirements.

53.8.1. Yards having frontage on arterial or collector streets shall be landscaped with a minimum of one type 1 shade tree per 20 linear feet of distance for each boundary line of such yards. Said trees shall be planted in a manner so as to distribute the required trees throughout the required yards. Each yard shall be planted with turf grass or other permanent evergreen ground cover.

53.8.2. Yards abutting a boundary of the district that does not have frontage on a right-of-way shall be landscaped with a minimum of one type 1 shade tree and one type 4 coniferous evergreen tree per 30 linear feet of distance for each boundary line of such yards, planted in a manner so as to distribute the required trees throughout

the required yards. Grass or other permanent evergreen ground cover shall be maintained on the remainder of the required yard

53.8.3. Yards having frontage on a local street shall be planted with one type 1 shade tree per 20 linear feet of required yard, planted in a manner so as to distribute the required trees throughout the required yards. Grass or other permanent evergreen ground cover shall be maintained on the remainder of the required yard.

53.8.4. Parking areas shall be landscaped as follows:

(1) All off-street parking areas, shall be screened, as well as practicable, from view from public rights-of-way by the use of earth berms planted with a living evergreen ground cover or by evergreen shrubbery or by a combination of both to create a screen at least four feet high along the perimeter of the parking and vehicular use areas.

(2) All off-street parking areas, excluding any below grade level area within a parking structures, to include drives within the parking areas, greater than either 20 automobile spaces or 6,000 square feet shall have at least five percent of the interior of the parking area landscaped in planting islands or peninsulas. No island shall contribute more than 500 square feet of area to the required total. Width of islands or peninsulas shall be a minimum width of at least eight feet between backs of curbs. Landscaped islands and peninsulas shall be located so that no parking space shall be located farther than ten spaces from a landscaped island or peninsula each of which shall contain at least one type 1 shade tree. Grass or other permanent evergreen ground cover shall cover the remainder of each such landscaped island or peninsula.

53.8.5. All landscaping must be installed in accordance with the provisions of section 71.5, plant materials and installation requirements and section 73.19, installation of landscaping.

53.8.6. All landscape requirements are cumulative and may be distributed on the site in coordination with an overall landscape master plan as submitted and approved by the City of Huntsville Planning Department.
(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005)

53.9. Lighting.

Lighting of off-street parking and vehicular use areas shall be in accordance with section 71.6, PVA lighting requirements.
(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 99-1020, § 11, 1-13-2000; Ord. No. 05-013, § 2, 2-10-2005)

53.10. District requirements.

For land to be designated as a research park commercial district it must satisfy the following conditions:

53.10.1. The land must be located within or contiguous to a research park, research park west, or research park applications district.

53.10.2. The research park commercial district must be directly accessible from collector or arterial streets when developed.
(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005)

53.11. Development procedure.

53.11.1. Any landowner of property lying in a research park commercial district desiring to dedicate any street, road, or right-of-way to the public must submit to the planning commission a plan of the proposed street, road, or right-of-way for approval.

53.11.2. Anyone desiring to secure a building permit, except for interior tenant improvements, for the use of land lying in a research park commercial district must submit to the director of the city planning department the following information, as appropriate for approval of plans:

(1) A site plan showing location and design of buildings, driveways, driveway intersections with streets, parking areas, loading areas, maneuvering areas, sidewalks, utilities and utility easements, and waste disposal facilities, and

(2) The percent of coverage of the total site in buildings, parking areas, accessory structures and drives.

(3) A grading and drainage plan showing all existing and proposed contours, spot elevations, drainage facilities, all required drainage calculations, and all required erosion and sedimentation control measures.

(4) A landscape plan showing all required landscaping, all calculations for required landscape areas and plants, all screen walls and fences, plant schedules of types and sizes, and appropriate installation details.

(5) Building plans including floor plans and elevations showing finish materials, colors and accessories.

(6) Criteria for all signs to be erected, including location, dimensions, design, colors, material and lighting for each.

The director of the city planning department shall review and approve by signature the proposed plot plan upon finding that the same complies with these regulations within 30 business days from a complete submittal. If the proposed plot plan is not approved, the director of the city planning department shall state in writing on the proposed plot plan the cause for such disapproval within 30 business days from a complete submittal.
(Ord. No. 98-52, § 1, 2-26-1998; Ord. No. 05-013, § 2, 2-10-2005)

53.12. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.5, and shall be regulated by article 75 - alcoholic beverage establishment regulations.
(Ord. No. 11-11, § 13, 2-24-2011)

ARTICLE 54. RESEARCH PARK APPLICATIONS 2 DISTRICT REGULATIONS

Purpose. The purpose and intent of the Research Park Applications 2 District Regulations are to provide a controlled environment designed specifically for those manufacturing and assembly plants and processing, warehousing, wholesale, and distribution operations that support and complement the existing Research Park Districts.

Within the Research Park Applications 2 District as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

54.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Accessory structures and uses to those permitted herein.

Agricultural operations on tracts of ten acres or greater—provided no sales are made on the premises, but not including commercial animal or poultry farms or kennels.

Commercial heliports and/or helipads.

Communication services, not elsewhere classified.

Computer and data processing services.

Educational, scientific, and research organizations.

Engineering, architectural, and design services.

Exterior storage in conjunction with the above mentioned uses, completely screened from adjacent property lines and streets.

Federal, state, county, city or public utility owned or operated buildings and uses.

Manufacturing, processing, fabrication, or assembly of the following:

(1) Printing and publishing.

(2) Electrical and electronic machinery, equipment and supplies.

(3) Professional, scientific, and controlling instruments.

(4) Plastics, glass and rubber products.

(5) Machinery other than electrical.

(6) Transportation equipment.

(7) Metal and metal products.

(8) Chemicals and chemical products.

(9) Ordnance and accessories, except ammunition.

(10) Automotive and implements.

(11) Food and kindred products intended for human consumption.

(12) Research and development operations.

(13) Medical and dental instruments, apparatus and prosthetics.

Medical and dental laboratories.

Mobile food vending sites.

Mobile food vending units.

Office buildings for general office purposes.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.2 hereof.

Radio and television studios but not including broadcast towers.

Research, experimental and testing laboratories.

Telecommunications.

Warehousing, interior storage, and distribution in conjunction with the above mentioned manufacturing, assembly and office uses.

(Ord. No. 09-813, § 1, 10-22-2009; Ord. No. 15-479, § 1, 8-27-2015)

54.2. Performance standards.

All operations shall comply with applicable federal, state and local regulations concerning air pollution, odor, vibration, noise, fire and explosive hazards, glare, radiation, radioactive materials, electromagnetic interference, water pollution, and waste disposal, including the performance standards set forth in section 50.2—Research Park District hereof.

(Ord. No. 09-813, § 1, 10-22-2009)

54.3. Use standards.

54.3.1. All permitted uses, with the exception of agricultural operations, truck and heavy equipment parking, container storage, and heliports, shall be conducted within completely enclosed buildings.

54.3.2. Exterior storage shall be permitted only within rear yards, and the stored products or materials shall be in an enclosed building or enclosed by a masonry wall, fence or evergreen hedge, of sufficient opacity and size to completely screen the stored materials from view from adjacent properties and streets.

54.3.3. Parking or storage of company vehicles, trucks, containers, and heavy equipment used in connection with a permitted business shall be in the rear yard only and shall be screened by vegetation or an earthen berm not less than four feet high.

54.3.4. Any lot in a Research Park Applications 2 District that is used for any purpose other than agricultural, whether or not it contains a structure, shall meet all setback, landscaping and parking regulations of this article.

(Ord. No. 09-813, § 1, 10-22-2009; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

54.4. Required yards.

54.4.1. *Front yards.* Yards facing an existing or proposed street other than a controlled access highway shall have a minimum depth of 40 feet. On a corner lot, the street frontage that the building faces may be designated as the front yard, in which case, the yard opposite the designated front yard shall be considered the rear yard.

54.4.2. Interior side and rear yards are those yards that abut land zoned Research Park Applications 2; interior side yards shall have minimum depth of 20 feet; interior rear yards shall have a minimum depth of 25 feet.

54.4.3. Exterior side and rear yards are those yards that abut land in a zoning district other than Research Park Applications 2; they shall have a minimum depth of 40 feet.

54.4.4. All required yards shall be kept clear of driveways and vehicular access ways, except as necessary to cross a required yard, and shall be kept clear of parking areas, loading areas, exterior storage areas, trash and waste storage containers, and accessory uses and buildings, provided however, a gate or security station may be located in a required yard.

54.4.5. Security fences shall not be placed in any required front yard.

54.4.6. There shall be provided an easement of not less than 20 feet along each side and rear lot line for utilities and drainage.

(Ord. No. 09-813, § 1, 10-22-2009)

54.5. Density regulations.

54.5.1. Minimum lot area shall not be less than two acres.

54.5.2. Minimum lot width shall not be less than 100 feet as measured at the minimum building line.

54.5.3. No portion of any building shall project through imaginary height planes leaning inward from a front yard, as defined in section 54.4.1, at a slope of .6 foot of height for each foot of horizontal distance measured perpendicularly to the property boundary; provided however, that the maximum height shall not exceed 120 feet.

54.5.4. Buildings shall not cover an area greater than 60 percent of the total area of the lot.

(Ord. No. 09-813, § 1, 10-22-2009)

54.6. Street access and frontage.

54.6.1. Each lot shall have a minimum frontage of 75 feet on a public road.

54.6.2. Access to building sites shall be via collector or arterial streets wherever possible. No access roads serving plants shall be permitted which may place heavy traffic on residential streets that are not classified as major collector or arterial streets.

(Ord. No. 09-813, § 1, 10-22-2009)

54.7. Off-street parking and loading requirements.

54.7.1. Driveways and vehicular access ways, except as necessary to cross a required yard, are not permitted in any required side or rear yard, nor within 40 feet of the property line in any required front yard. Driveways and vehicular access ways shall be paved and properly drained.

54.7.2. Parking areas shall not be placed in any required side or rear yard, nor within 40 feet of the property line in any required front yard. All parking areas shall be paved and properly drained. No parking shall be permitted any place other than paved parking areas.

54.7.3. Loading areas shall not be placed within any front yard or any required side or rear yard and shall be located and properly screened so as not to be visible from any existing or proposed street.

54.7.4. Parking and loading areas shall be landscaped in accordance with section 54.9—Loading Requirements.

54.7.5. Lighting of off-street parking and vehicular use areas is required in accordance with section 71.6—PVA Lighting Requirements.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.

(Ord. No. 09-813, § 1, 10-22-2009; Ord. No. 10-507, § 2, 8-26-2010)

54.8. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 09-813, § 1, 10-22-2009; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

54.9. Landscaping requirements.

Every building site on which a building shall be placed shall be landscaped in the following

manner. All landscaping must be installed in accordance with the provisions of section 73.19—Installation of Landscaping.

54.9.1. All yards required under the ordinance from which this article was derived shall be planted with grass or evergreen ground cover and shall be maintained so as to present an attractive and healthy appearance. Yard tree requirements shall be as follows:

(1) *Front yards.* A minimum of one tree per 30 linear feet of distance for each lot line fronting a public street shall be planted in the required front yard(s).

(2) *Side and rear yards* shall be planted with a minimum of one tree per 40 linear feet for each side and rear lot line unless such yard abuts a residential district or office district, in which case such yard shall be planted with a minimum of three large deciduous shade trees, five large evergreen trees and seven understory trees for each 100 linear feet of yard.

Existing vegetation shall substitute for the required landscaping if the type, size and density of the existing vegetation creates a year round visual screen separating the Research Park Applications 2 District from adjacent districts.

54.9.2. Required yard trees, unless elsewhere specified, shall be a mix of deciduous shade trees and evergreens; loblolly pines shall not account for more than 25 percent of the required number of trees; other conifers shall be those varieties that retain their branches at ground level.

54.9.3. All off-street parking, loading and unloading areas, and outdoor trash and waste storage containers shall be screened, as well as practicable, from view from streets by the use of walls, earth berms and/or vegetation.

(Ord. No. 09-813, § 1, 10-22-2009)

54.10. Development procedure for tracts or parcels.

54.10.1. Any landowner of property lying in a Research Park Applications 2 District desiring to dedicate any street, road or right-of-way to the public must submit to the planning commission a plan of the proposed street, road or right-of-way for approval.

54.10.2. Anyone desiring to secure a building permit for the use of land lying in a Research Park Applications 2 District must submit to the director of the city planning department the following information, as appropriate for approval of plans:

(1) A site plan for traffic engineering analysis, showing location and design of buildings, driveways, driveway intersections with streets, parking areas, loading areas, maneuvering areas and sidewalks;

(2) The percent of coverage of the total site in buildings, parking areas, accessory structures and drives;

(3) A grading plan and a planting plan, including screen walls and fences, for analysis of adequacy of visual screening and landscape architectural design;

(4) A site plan showing utilities and utility easements, including any waste disposal facilities; and

(5) Plans for all signs to be erected, including location, design, color and lighting of each sign.

The director of the city planning department shall review and approve by signature the proposed plot plan upon finding that the same complies with these regulations. If the proposed plot plan is not approved, the director of the city planning department shall state in writing on the proposed plot plan the cause for such disapproval.

(Ord. No. 09-813, § 1, 10-22-2009)

ARTICLE 55. RESEARCH PARK 2 DISTRICT REGULATIONS

Purpose. The purpose and intent of the Research Park 2 District Regulations are to

provide a protective district with a balance of mixed-use and live-work developments for the orderly growth and development of research-based industries and uses which are, by virtue of control, mutually harmonious with other industries and uses permitted, as well as with residential, commercial, and other uses permitted in nearby districts.

These Research Park 2 District regulations are intended to promote the physical and mental health, safety, morals, welfare, comfort, and convenience of the inhabitants of this district and its environs.

Within the Research Park 2 District as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

55.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained, except for the uses listed below. The following uses must be contained within a mixed-use development, having no less than two stories with two or more uses.

Agricultural uses, provided no sales are made on the premises, but not including commercial animal or poultry farms or kennels.

Banks and credit unions.

Barber shops, beauty parlors, reducing salons and fitness/exercise centers.

Educational, scientific and research organizations.

Federal, state, county, city or public utility owned or operated buildings and uses.

Limited, temporary sleeping quarters for scientists, laboratory technicians, custodians and caretakers that are demonstrated to be necessary to carry out a permitted use in this district.

Mobile food vending sites.

Mobile food vending units.

Office buildings for general office purposes.

Pickup stations for laundry or dry cleaning; no cleaning permitted on-site.

Research, experimental and testing laboratories.

Research and development and limited manufacturing and processing where at least 30 percent of the building area is devoted to non-manufacturing activities to include offices, laboratories, technical support, etc. The remaining 70 percent may be used for manufacturing, assembly, storage and related uses.

Residential dwelling units—provided such residential units occupy upper-story space within new or rehabilitated existing buildings having non-residential uses on the street level and provided that such residential units are in compliance with all applicable regulations for habitable space.

Retail sales, cafes, delicatessens, coffee shops and restaurants without alcoholic beverages—provided that such uses shall be limited to the ground floor of mixed-use developments only. Prohibited uses include tattoo and body piercing parlors and tobacco and vapor shops.

Structures accessory to uses permitted by section 50.1 hereof including, but not limited to, warehouses, storage buildings, and pump houses provided such accessory uses shall not exceed 20 percent of the total building area of the primary use.

Accessory uses to uses permitted in the Research Park 2 District such as recreational facilities and dining facilities in connection with the operation of an establishment and primarily for employees, students, or faculty.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.
(Ord. No. 18-230, § 1, 5-24-2018)

55.2. Performance standards.

The performance standards listed below shall be required for all uses located in the Research Park 2 District.

55.2.1. *Air pollution.* Every use shall be so operated as to comply with the emission limita-

tions specified in chapter 12, article II, section 12-31, Code of Ordinances, City of Huntsville, Alabama, April 2003, as the same may be amended or revised, except that in the case of visible emission restrictions no visible emissions will be allowable.

55.2.2. *Odor*. No odors shall be emitted that are detectable without instruments at or beyond any property line, excluding food preparation establishments.

55.2.3. *Vibration*. Maximum permitted vibration from any cause shall not exceed the following, when measured at the lot line:

Frequency (Cycles per Second)	*Displacement (Inches)*
10 and below	.0008
10—20	.0005
20—30	.0003
30—40	.0002
40—50	.0001
50 and above	.0001

55.2.4. *Noise*. Every use shall be so operated as to comply with the noise limitations specified in chapter 12, article V, Noise, Code of Ordinances, City of Huntsville, Alabama, April 2003, as the same may be amended or revised.

55.2.5. *Fire and explosion hazard*. All activities and all storage of flammable and explosive materials shall be in accordance with the National Board of Fire Underwriters' publications and other local ordinances.

55.2.6. *Glare*. No direct or reflected glare shall be produced so as to be visible at or beyond any lot line.

55.2.7. *Radiation*. Research operations shall cause no dangerous radiation at any property line as specified by the regulations of the Alabama Department of Public Health, Bureau of Radiological Health.

55.2.8. *Radioactive materials*. The handling of radioactive materials, the discharge of such materials into air or water, and the disposal of radioactive wastes, shall be in conformance with the regulations of the Alabama Department of Public Health, Bureau of Radiological Health.

55.2.9. *Electromagnetic interference*. Industries shall emit only that amount of unshielded spurious electromagnetic radiation as is necessary for the conduct of their operations. Federal Communications Commission requirements shall govern maximum radiation which tends to interfere with meaningful signals.

55.2.10. *Water pollution*. No effluent shall be discharged in any stream. Discharge into the Huntsville sewerage system shall be as approved by the City of Huntsville Engineer of Public Works.

55.2.11. *Waste*. All industrial wastes shall be treated and disposed of in such a manner as to comply with all federal, local, and state standards.
(Ord. No. 18-230, § 1, 5-24-2018)

55.3. Density regulations.

The following yard, density, and height of building requirements shall be observed:

55.3.1. Minimum required depth of front yard: None, but shall conform to the building setback lines established by the approved subdivision plat.

55.3.2. No principal or accessory structure shall be located less than ten feet from any side lot line, except that when the side of the lot abuts a residential district, a minimum of 30 feet is required.

55.3.3. No principal or accessory structure shall be located less than 25 feet from any rear lot line, except that when the rear of the lot abuts a residential district, a minimum of 30 feet is required.

55.3.4. Exterior storage of materials shall not be placed in any required yard and shall be contained by fencing in such a manner as to be neat in appearance when viewed from any street.

55.3.5. Buildings shall not cover an area greater than 85 percent of the total area of the tract upon which the buildings are located.

55.3.6. Maximum height: Unlimited.
(Ord. No. 18-230, § 1, 5-24-2018)

55.4. Street access and frontage.

55.4.1. Each lot shall have a minimum frontage of 150 feet on a public road; provided however, the director of planning may approve a lesser frontage to a minimum of 100 feet for lots located on cul-de-sacs or on street curves, or having other extraordinary characteristics.

55.4.2. Access to building sites shall be via collector or arterial streets. No access roads serving plants shall be permitted which may place heavy traffic on residential streets which are not classified as major collector or arterial streets.
(Ord. No. 18-230, § 1, 5-24-2018)

55.5. Off-street parking and loading requirements.

For multi-tenant, mixed-use, and residential dwelling units, shared parking and loading requirements shall be provided as set forth in the shared parking factor matrix of article 27 hereof.

55.5.1. Parking areas shall be paved and properly drained. No parking shall be permitted any place other than paved parking areas.

55.5.2. Loading areas shall be located and properly screened so as to be not visible from any existing or proposed street.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 18-230, § 1, 5-24-2018)

55.6. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 18-230, § 1, 5-24-2018; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

55.7. Landscaping requirements.

Every building site on which a building shall be placed shall be landscaped in the following manner. All landscaping must be installed in accordance with the provisions of section 73.19—Installation of Landscaping.

55.7.1. All side and rear yards shall have not less than a ten-foot wide strip of land adjacent to the property lines planted and maintained, except that where a rear or side yard abuts a residential district, then a 30-foot wide strip of land shall be provided. Within the 30-foot strip there shall be a 15-foot wide planting screen as provided for in section 3.1—Buffer of Screen Planting.
(Ord. No. 18-230, § 1, 5-24-2018)

55.8. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with article 71—Off-Street Parking and Vehicular Use Area Landscaping Requirements.
(Ord. No. 18-230, § 1, 5-24-2018)

55.9. District requirements.

For land to be designated as a Research Park 2 District it must satisfy the following conditions:

55.9.1. The land must be located within or contiguous to the Research Park district only.

55.9.2. The Research Park 2 District must be directly accessible from collector or arterial streets when developed.
(Ord. No. 18-230, § 1, 5-24-2018)

55.10. Development procedure for tracts or parcels.

55.10.1. Any landowner of property lying in a Research Park 2 District desiring to dedicate any street, road, or right-of-way to the public must submit to the planning commission a plan of the proposed street, road, or right-of-way for approval.

55.10.2. Anyone desiring to secure a building permit for the use of land lying in a Research Park 2 District must submit to the director of planning a generalized plot plan of the tract to be developed for approval. Such generalized plot plan shall have shown thereon the following information:

(1) Location map showing the boundaries of the tract to be developed.

(2) The general location of main buildings proposed to be constructed.

(3) The general location of parking areas, loading docks, and public and/or private access ways.

(4) Site grading and storm drainage plan.

(5) Proposed utilities services.

(6) Required screening.

(7) Required and adequate easements.

(8) Landscaping provisions.

The director of planning shall review and approve by signature the proposed plot plan upon finding that the same complies with these regulations. If the proposed plot plan is not approved, the director of planning shall state in writing on the proposed plot plan the cause for such disapproval.
(Ord. No. 18-230, § 1, 5-24-2018)

55.11. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3—Permitted Establishments by Districts, subsection 75.3.1, and shall be regulated by article 75—Alcoholic Beverage Establishment Regulations.
(Ord. No. 18-230, § 1, 5-24-2018)

CHAPTER VI. SPECIAL DISTRICT REGULATIONS*

ARTICLE 60. MEDICAL DISTRICT REGULATIONS

Purpose. The purpose of this medical district is to provide a protective district for the harmonious development of medical facilities and related educational institutions. The medical district is intended to be protected from encroachment by land uses adverse to the location, operation, and expansion of medical use development.

These medical district regulations are intended to promote the health, safety, morals, welfare, comfort, and convenience of the inhabitants of this district and its environs.

*__Cross reference—__Businesses, ch. 8.

Within a medical district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

60.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, or enlarged except for one or more of the uses herein cited and subject to the conditions stated herein:

Accessory structures and uses to those permitted herein.

Ambulance services.

Apothecaries, drugstores.

Artificial limb and brace, therapeutic establishments.

Book shops.

Doctors' and nurses' quarters.

Farmers markets.

Farming and other agricultural uses.

Federal, state, county, or city owned or operated buildings and uses.

Florist shops.

General and private hospitals.

General office uses and office buildings.

Gift shops.

Medical educational institutions, including dormitories.

Medical or dental clinics.

Medical research, experimental and testing laboratories.

Medical, surgical and dental supply houses.

Nursing homes, rest homes, and convalescent homes.

Optical firms.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Retail sales and consumer service establishments accessory to any permitted use, provided

that such commercial use shall not occupy more than 15 percent of the total floor area of the building in which such use is located.
(Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 15-406, § 2, 7-23-2015)

60.2. Density controls.

The following yard and density requirements shall be observed:

60.2.1. Minimum lot area: 10,000 sq. ft.

60.2.2. Minimum required depth of front yard:

From major arterials (see section 73.15): Ten feet

From other streets: None

60.2.3. Minimum side yard: None, except that buildings not developed to the side lot line shall have a side yard of not less than ten feet on any side.

60.2.4. Minimum rear yard: None

60.2.5. Street access and frontage: Each lot shall have a minimum frontage of 50 feet on a public road; provided, however, the planning commission may approve a lesser frontage to a minimum of 20 feet for lots located on culs-de-sac or on street curves or having other extraordinary characteristics if the lot width at the building line measures at least 50 feet.
(Ord. No. 18-900, §§ 1, 2, 11-15-2018)

60.3. Required yards and landscaped areas.

60.3.1. The required front yard of all developed parcels shall be landscaped and maintained in a manner as to be neat in appearance when viewed from any street.

60.3.2. Exterior storage of materials shall be contained by fencing in such a manner as to be neat in appearance when viewed from any street. No exterior storage or display of materials, whether for sale or not, is permitted in the required front yard.

60.4. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

60.5. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided as set forth in article 70 hereof.

60.5.1. Parking areas are not permitted in the required front yard.

60.5.2. Driveways and vehicular access ways, except as necessary to cross a required front yard, are not permitted in a required front yard.

60.5.3. Lighting of off-street parking and vehicular use areas is required in accordance with section 71.6, PVA lighting requirements.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 99-1020, § 12, 1-13-2000; Ord. No. 09-430, § 25, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

60.6. Sidewalk requirement.

Six-foot wide sidewalks shall be required along the streets of parcels to be developed. Sidewalks shall be so designed as to tie to existing sidewalks within the area.

60.7. Underground wiring requirement.

All power, communication, and other wiring hereafter installed in a medical district shall be placed underground.

60.8. Medical district plan.

60.8.1. Prior to the issuance of any building permit, any property owner desiring to subdivide or develop land within a medical district, as shown on the official Zoning Maps of the City of Huntsville, Alabama, must submit to the manager of planning for approval a development plan for

each parcel or tract of land proposed to be developed. Such development plan shall have shown thereon the following information:

(1) The specific location of the tract to be developed or subdivided within said district and all land and development lying within 500 feet of the tract or parcel of land to be developed.

(2) Names and addresses of all landowners whose property adjoins said parcel or tract, as shown in the tax assessor's records of Madison County, Alabama.

(3) The location of all buildings proposed to be constructed within the tract.

(4) Existing and proposed accessways and roads, public and private.

(5) A generalized drainage plan showing existing and proposed drainage.

(6) Location of all existing and proposed public utilities as the same relates to the development of the property.

(7) Location of all off-street parking spaces and loading facilities.

(8) Location of proposed screen planting, walls, and garbage storage facilities.

(9) Location of all existing and proposed easements.

(10) Location of all sidewalks.

60.8.2. The manager of planning shall approve said development plan for a specified medical district improvement, upon finding that the same complies with these regulations. All subsequent development on said tract or parcel shall be approved without resubmission in all cases where the proposed improvements substantially conform to the approved development plan.

ARTICLE 61. DISPOSAL-STORAGE DISTRICT REGULATIONS*

Purpose. The purpose of this disposal-storage district is to provide a special type of use district for those industries who, by their nature and operation, could have an adverse effect on residential, commercial, or other industrial uses.

The disposal-storage district is established for the protection of these types of uses from the encroachment of residential and other commercial or industrial uses which would be adverse to the operation and expansion of these types of uses and at the same time to reduce to a minimum the influence of these types of uses on surrounding residential or commercial uses.

It is the intent of this district to be composed primarily of lands deep within the industrial areas of the city away from residential and commercial areas. These regulations are the minimum required for the mutual protection of the industrial users, and to that end, the district should not be adjacent to any residential or business districts, if such abutment can possibly be avoided.

Within a disposal-storage district as shown on the official Zoning Maps of the City of Huntsville, the following regulations shall apply:

61.1. Definitions.

Notwithstanding other definitions within this ordinance, the following definitions shall apply to these regulations for the disposal-storage district:

Automobile wrecking yard. Any place where two or more motor vehicles not in running condition, or parts thereof, are stored in the open and are not being restored to operation; or any land, building or structure used for wrecking or storing of such motor vehicles or farm machinery, or parts thereof, stored in the open and not being restored to operating condition.

Junk[yard] or salvage yard. Any land or building or other structure where junk, waste, discarded or salvaged materials are bought, sold, exchanged, stored, baled, packed, disassembled or handled, including automobile wrecking yards, house wrecking, and structural steel materials and equipment, but not including the purchase or storage of used furniture and household equipment, used cars in operable condition, or used or salvaged materials as part of manufacturing operations.

*__Cross reference—__Sewers, sewage disposal and other wastewater disposal, ch. 21.

61.2. Uses permitted.

No building, structure, land, or any combination of such shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained, except for one or more of the following uses:

Automobile wrecking yards

Asphalt manufacture

Central mixing plant for cement, mortar, or paving materials

Gasoline and L.P. gas bulk storage plants

Junk[yard] and/or salvage yards

Limestone drying and stockpiling

Quarrying

Federal, state, county, or city owned or operated uses

Wholesale operations

Warehousing and outdoor storage

Accessory structures and uses to permitted uses

Privately owned and operated landfills

Repair garages

Incinerators

Automobile storage yard

Scrap metal processing yard

Automobile graveyard

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof

(Ord. No. 09-1053, § 1, 12-17-2009)

61.3. Required yards.

61.3.1. No building or structure shall be located less than 50 feet from the front property line.

61.3.2. No building or structure shall be located less than 25 feet from any side or rear property line.

61.3.3. Outdoor storage is permitted in the required front, side, and rear yards.

61.4. Fencing and screening.

61.4.1. A seven-foot-high chainlink fence, or equal, is required completely around the tract on which an automobile storage yard, scrap metal processing yard, or automobile graveyard is located, except gates will be provided at points of ingress and egress.

61.4.2. Each use shall be screen planted completely around the perimeter of the tract on which it is located, except at points of ingress and egress. This screen shall be planted and maintained as provided in section 3.1, buffer of screen planting hereof.

61.5. Outdoor storage and waste disposal.

61.5.1. No materials or wastes shall be deposited upon a tract in such form or manner that they may likely be transferred off the tract by the elements.

61.5.2. All materials or wastes which might cause fumes or dust or which constitute a fire hazard or which may be edible by or otherwise attractive to rodents or insects shall be stored outdoors only in accordance with the fire and sanitation ordinances of the city.

61.6. Off-street parking and loading.

Each use shall provide adequate off-street parking and loading for its employees, visitors, and customers. Lighting of off-street parking and vehicular use areas is required in accordance with section 71.6, PVA lighting requirements.

On-street parking or loading shall not be permitted.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 99-1020, § 13, 1-13-2000; Ord. No. 10-507, § 2, 8-26-2010)

61.7. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

ARTICLE 62. FLOOD HAZARD DISTRICT REGULATIONS

Purpose. The flood hazard areas of the City of Huntsville, Alabama, are subject to periodic inundation which results in the loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood relief and protection, and impairment of the tax base, all of which adversely affect the public health, safety, and general welfare. These flood losses are caused by the occupancy in flood hazard areas of uses vulnerable to floods, which are inadequately elevated, floodproofed or otherwise unprotected from flood damages, and by the cumulative effect of obstructions in floodplains causing increases in flood heights and velocities. It is the purpose of this article to promote the public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

(1) Restrict or prohibit uses which are dangerous to health, safety and property due to water or erosion hazards or which increase flood heights, velocities or erosion;

(2) Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;

(3) Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of floodwaters;

(4) Control filling, grading, dredging and other development which may increase erosion or flood damage; and

(5) Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.

(Ord. No. 98-189, § 1, 4-7-1998)

62.1. General provisions.

62.1.1. This article shall apply to all areas of the flood hazard district within the jurisdiction of Huntsville, Alabama. The flood hazard district is composed of the floodway district and the floodway fringe district.

62.1.2. A floodplain development permit shall be required in conformance with the provisions of this article and of the City of Huntsville Stormwater Management Manual prior to the commencement of any land disturbance activities or any development or building activities, including filling, dumping, grading, or excavation within the flood hazard district. (See section 62.8.)

62.1.3. No structure or land within the flood hazard district shall hereafter be located, extended, converted or altered without full compliance with the terms of this ordinance and other applicable regulations.

62.1.4. The boundaries and designations of the floodway district and floodway fringe district provided for herein are hereby established as shown on the maps identified by the titles "National Flood Insurance Program, FIRM Flood Insurance Rate Map, Madison County, Alabama, and Incorporated Areas" (Community-Panel Number 010153, City of Huntsville, Alabama) composed of panels 0144, 0158, 0159, 0163, 0164, 0166, 0167, 0168, 0169, 0175, 0178, 0179, 0183, 0186, 0187, 0188, 0189, 0193, 0194, 0195, 0211, 0215, 0269, 0290, 0291, 0292, 0293, 0294, 0302, 0304, 0306, 0307, 0308, 0309, 0311, 0315, 0320, 0326, 0327, 0328, 0329, 0331, 0333, 0335, 0340, 0341, 0343, 0354, 0355, 0360, 0362, 0365, 0370, 0407, 0425, 0450, 0455, 0456, 0458, 0460, 0467, 0475, and 0478 issued by the Federal Emergency Management Agency, Federal Insurance Administration, bearing an effective date of April 20, 1998, and any revisions thereto.

62.1.5. For those land areas acquired by the city through annexation, the current effective flood insurance study, data, and flood insurance rate map for Madison, Limestone, and Morgan Counties are hereby adopted by reference.

62.1.6. These maps as identified, all explanatory matter thereof, and the flood insurance study, Madison County, Alabama, and incorporated areas, dated April 25, 1995, and any revisions thereto are hereby adopted and made a part of

this ordinance. Such maps and explanatory matter shall be filed in the office of the City Engineer of the City of Huntsville, Alabama.

62.1.7. The Legislature of the State of Alabama has in Title 11, Chapter 19, Sections 1—24 Chapter 45, Sections 1—11, Chapter 52, Sections 1—84, and Title 41, Chapter 9, Section 166 of the Code of Alabama, 1975, authorized local government units to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry.
(Ord. No. 98-189, § 1(62.1), 4-7-1998; Ord. No. 99-206, § 4, 4-8-1999; Ord. No. 18-716, §§ 1, 2, 10-25-2018)

62.2. Definitions.

Addition (to an existing building). Any walled and roofed expansion to the perimeter of a building in which the addition is connected by a common loadbearing wall other than a firewall. Any walled and roofed addition which is connected by a firewall or is separated by independent perimeter loadbearing walls is new construction.

Area of shallow flooding. A designated AO or AH zone on a community's flood insurance rate map (FIRM) with base flood depths from one to three feet, and/or where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate, and where velocity flow may be evident.

Area of special flood hazard. The land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. It is composed of the floodway, and the floodway fringe.

Base flood. The flood having a one percent chance of being equaled or exceeded in any given year.

Base flood elevation. The computed elevation to which floodwater is anticipated to rise during the base flood. It is also the elevation of surface water resulting from a flood that has a one percent chance of equaling or exceeding that level in any given year. Base flood elevations are shown in the FIS and on the flood insurance rate map (FIRM) for zones AE, AH, A1-A30, AR, AR/A, AR/AE, AR/A1-A30, AR/AH, AR/AO, V1-V30 and VE.

Basement. Any portion of a building having its floor sub grade (below ground level) on all sides.

Breakaway wall. A wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces without causing damage to the elevated portion of the building or the supporting foundation system.

Building (also see "structure"). (1) A structure with two or more outside rigid walls and a fully secured roof, that is affixed to a permanent site; or (2) a manufactured home (a "manufactured home," also known as a mobile home, is a structure built on a permanent chassis, transported to its site in one or more sections, and affixed to a permanent foundation); or (3) a travel trailer without wheels, built on a chassis and affixed to a permanent foundation, that is regulated under the community's floodplain management and building ordinances or laws.

Development. Any man-made change to improved or unimproved real estate including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavating, drilling operations, and storage of equipment or materials.

Effective date of this article. September 13, 1979.

Elevated building. A nonbasement building built to have the lowest floor of the lowest enclosed area elevated above the ground level by means of fill, solid foundation perimeter walls, pilings, columns, piers, or shear walls adequately anchored so as not to impair the structural integrity of the building during a base flood.

Existing construction. Any structure for which the "start of construction" commenced before September 13, 1979 or before January 1, 1975, for FIRMs effective before that date. Existing construction may also be referred to as existing structures.

Existing manufactured home park or subdivision. A manufactured home park or subdivision

for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum the installation of utilities, the construction of streets, and final site grading or the pouring of concrete pads) is completed before September 13, 1979.

Expansion to an existing manufactured home park or subdivision. The preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed, including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads.

Flood or flooding. A general and temporary condition of partial or complete inundation of normally dry land areas from:

(1) The overflow of inland waters; or

(2) The unusual and rapid accumulation or runoff of surface waters from any source.

Flood insurance rate map (FIRM). An official map of a community, issued by the Federal Insurance Administration, delineating the areas of special flood hazard and the risk premium zones applicable to the community.

Flood insurance study (FIS). The official report by the Federal Insurance Administration evaluating flood hazards and containing flood profiles and water surface elevations of the base flood.

Floodplain. Any land area susceptible to being inundated by water from any source.

Floodproofing. Any combination of structural and nonstructural additions, changes or adjustments to structures, which reduce or eliminate risk of flood damage to real estate or improved real property, water and sanitation facilities or structures with their contents.

Floodway (regulatory floodway). The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

Floodway fringe. The area lying between the floodway and the boundaries of the 100-year floodplain.

Floor. The top surface of an enclosed area in a building including basement and/or garage, i.e., top of slab in concrete slab construction or top of wood flooring in wood frame construction.

Functionally dependent facility. A facility which cannot be used for its intended purpose unless it is located or carried out in close proximity to water, such as a docking or port facility necessary for the loading and unloading of cargo or passengers, shipbuilding, ship repair, or seafood processing facilities. The term may include long-term storage, sales, or service facilities in connection with a marine facility only with the approval of the board of adjustment.

Highest adjacent grade. The highest natural elevation of the ground surface, prior to construction, next to the proposed walls of a structure.

Historic structure. Any structure that is:

(1) Listed individually on the National Register of Historic Places or preliminarily determined by the secretary of the interior as meeting the requirements for individual listing on the national register;

(2) Certified or preliminarily determined by the secretary of the interior as contributing to the historical significance of a national register historic district or a district preliminarily determined by the secretary to qualify as a national register historic district; or

(3) Determined as eligible for listing on the national register by the state historic preservation officer.

Lowest floor. The lowest floor of the lowest enclosed area of a building (including basement). An unfinished or flood resistant enclosure, used solely for parking of vehicle[s], building access, or storage, in an area other than a basement, is not considered a building's lowest floor, provided that such enclosure is not built so as to render the structure in violation of other provision[s] of this Code.

Manufactured home. A building, transportable in one or more sections, which is built on a permanent chassis and designed to be used with or without a permanent foundation when con-

nected to the required utilities. The term also includes park trailers, travel trailers, and similar transportable structures placed on a site for 180 consecutive days or longer and intended to be improved property.

Manufactured home park or subdivision. A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

Mean sea level. The average height of the sea for all stages of the tide. It is used as a reference for establishing various elevations within the floodplain. For the purpose of this ordinance, the term is synonymous with National Geodetic Vertical Datum (NGVD) of 1929 or other datum.

National geodetic vertical datum (NGVD). As corrected in 1929, NGVD is a vertical control used as a reference for establishing varying elevations within the floodplain.

New construction. Any structure and any subsequent improvements to the structure for which the start of construction commenced on or after March 8, 1974.

New manufactured home park or subdivision. A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after September 13, 1979.

Recreational vehicle. A vehicle which is built on a single chassis, has 400 square feet or less when measured at the largest horizontal projection, is designed to be self-propelled or permanently towable by a light-duty truck, and is designed as temporary living quarters for recreational, camping, travel or seasonal use.

Remedy a violation. To bring the structure or other development into compliance with state or local floodplain management regulations, or, if this is not possible, to reduce the impacts of its noncompliance. Ways that impacts may be reduced include protecting the structure or other affected development from flood damages, implementing the enforcement provisions of the ordinance or otherwise deterring future similar violations, or reducing federal financial exposure with regard to the structure or other development.

Repetitive loss. Flood related damages sustained by a structure on two separate occasions during a ten-year period for which the cost of repairs at the time of each such flood event, on the average, equals or exceeds 25 percent of the market value of the structure before the damages occurred.

Section 1316. No new flood insurance policy or federal disaster assistance shall be provided for any property which the administrator finds has been declared by a duly constituted state or local zoning authority or other authorized public body, to be in violation of state or local laws, regulations or ordinances which are intended to discourage or otherwise restrict land development or occupancy in floodprone areas. If the structure is made compliant with the applicable community's floodplain management ordinance, then the Section 1316 declaration can be rescinded by the community and flood insurance and disaster assistance eligibility restored.

Special flood hazard area (SFHA). That portion of the floodplain subject to inundation by the base flood and/or flood-related erosion hazards as shown on a FHBM or FIRM as zones A, AE, AH, AO, AR, AR/AE, AR/AO, AR/AH, AR/A, A99, or VE.

Start of construction. The date the building permit was issued, provided the actual start of construction, repair reconstruction or improvement was within 180 days of the permit date. The actual start means the first placement of permanent construction of a structure (including a manufactured home) on a site, such as the pouring of slabs or footings, installation of piles, construction of columns, or any work beyond the stage of excavation, or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings,

such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Structure. A walled and roofed building, including a liquid or gas storage tank that is principally above ground, as well as a manufactured home.

Substantial damage. Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred. Substantial damage also means flood related damages sustained by a structure on two separate occasions during a ten-year period for which the cost of repairs at the time of each such flood event, on the average, equals or exceeds 25 percent of the market value of the structure before the damages occurred.

Substantial improvement. Any reconstruction, rehabilitation, addition or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of structure before the start of construction of the improvement. This term includes structures which have incurred repetitive loss or substantial damage, regardless of the actual amount of repair work performed. The market value of the building should be either:

(1) The appraised value of the structure prior to the start of the initial repair, or improvement; or

(2) In the case of damage, the value of the structure prior to the damage occurring.

For the purpose of this definition, substantial improvement is considered to occur when the first alteration of any wall, ceiling, floor or other structural part of the building commences, whether or not that alteration affects the external dimensions of the building. The term does not include either:

(1) Any project for improvement of a structure to correct existing violations of state or local health, sanitary or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to ensure safe living conditions; or

(2) Any alteration of a historic structure, provided that the alteration will not preclude the structure's continued designation as a historic structure.

Substantially improved existing manufactured home parks or subdivisions. When the repair, reconstruction, rehabilitation or improvement of the streets, utilities and pads of parks or subdivisions equals or exceeds 50 percent of the value of the streets, utilities and pads before the repair, reconstruction or improvement commenced.

Variance. A grant of relief from the requirements of this ordinance which permits construction in a manner otherwise prohibited by this ordinance.

Violation. The failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in the Code of Federal Regulations (CFR) §44, Sec. 60.3(b)(5), (c)(4), (c)(10), (d)(3), (e)(2), (e)(4), or (e)(5) and corresponding parts of this ordinance is presumed to be in violation until such time as that documentation is provided.
(Ord. No. 98-189, § 1(62.2), 4-7-1998; Ord. No. 18-716, §§ 3, 4, 10-25-2018)

62.3. Provisions for all areas in the flood hazard districts.

The provisions of this section shall apply to all areas in the flood hazard district.

62.3.1. All new construction and substantial improvements to existing structures shall be anchored to prevent flotation, collapse or lateral movement of the structure.

62.3.2. All new construction and substantial improvements to existing structures shall be constructed with materials and utility equipment resistant to flood damage.

62.3.3. All new construction and substantial improvements to existing structures shall be constructed by methods and practices that minimize flood damage.

62.3.4. All new and replacement water supply systems shall be constructed to minimize or eliminate infiltration of floodwaters into the system.

62.3.5. New and replacement sanitary sewer systems shall be constructed to minimize or eliminate infiltration of floodwaters into the systems and exfiltration from the systems into floodwaters.

62.3.6. On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.

62.3.7. Any alteration, repair, reconstruction, or improvement to a structure on which the start of construction was begun after the effective date of this article shall meet the requirements of new construction as contained in this article.

62.3.8. Electrical, heating, ventilation, plumbing, and air conditioning equipment, and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

62.3.9. Manufactured homes shall be anchored to prevent flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame

ties to ground anchors. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces.

62.3.10. Any alteration, repair, reconstruction or improvement to a structure that is not compliant with the provisions of this ordinance shall be undertaken only if the nonconformity is not furthered, extended or replaced.

(Ord. No. 98-189, § 1(62.3), 4-7-1998)

62.4. Interpretation of floodway district and floodway fringe district.

The floodway district and floodway fringe district are those land areas as specified on the FIRM maps identified in section 62.1 hereof. Any interpretation necessary shall be made by the City Engineer of the City of Huntsville, Alabama.
(Ord. No. 98-189, § 1(62.4), 4-7-1998)

62.5. Application of the flood hazard district.

To enable the district to operate in harmony with the Zoning Ordinance of the City of Huntsville, Alabama, the flood hazard district is created as a special district to be superimposed on other existing zoning districts contained in the Zoning Ordinance of the City of Huntsville, Alabama. Except where in conflict with the specific requirements of the flood hazard district, permitted uses, accessory uses, signs, minimum lot requirements, minimum yard requirements, maximum height, and requirements for off-street parking and loading shall be determined by the requirements of the basic district regulations contained elsewhere in this ordinance.
(Ord. No. 98-189, § 1(62.5), 4-7-1998)

62.6. Uses specifically prohibited in floodway districts.

62.6.1. Structures of any type that would obstruct or impede the flow of floodwater or cause any increase in the base flood level are hereby specifically prohibited.

62.6.2. Fill of any type in the floodway including dumping or temporary storage or stockpiling of any material.

62.6.3. Substantial improvement to an existing structure within the floodway district.

62.6.4. Manufactured homes (mobile homes) except on existing improved lots in existing manufactured home (mobile home) parks or subdivisions licensed as of the effective date of this article, and then only if such mobile homes are anchored to resist flotation, collapse, or lateral movement by use of over-the-top or frame ties to ground anchors and if the elevation standards as provided for in section 62.7.1 are met. A replacement manufactured home may be placed on a lot in an existing manufactured home park or subdivision provided the elevation standards as set forth in section 62.7.1 are met and provided the replacement is anchored to resist flotation, collapse, or lateral movement by use of over-the-top or frame ties to ground anchors. These standards shall be in addition to and consistent with applicable state requirements for resisting wind forces.
(Ord. No. 98-189, § 1(62.6), 4-7-1998)

62.7. Standards for the floodway fringe district.

In all areas of the floodway fringe district designated as zone AE or AH, the following provisions are required:

62.7.1. *Residential construction.* New construction or substantial improvement of any residential structure shall have the lowest floor, including basement and garage, elevated to at least one foot above the base flood elevation. When solid foundation perimeter walls are used to elevate a structure, openings sufficient to facilitate the unimpeded movement of floodwater shall be provided in accordance with the standards of section 62.7.3 and must be certified as such to the manager of inspection by a registered engineer or architect.

62.7.2. *Nonresidential construction.* New construction or substantial improvement of any commercial, industrial or other nonresidential structure shall either have the lowest floor, including basement and garage, elevated to at least one foot above the base flood elevation or, together with attendant utility and sanitary facilities, be floodproofed to one foot above the base flood elevation so that the structure is

watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered engineer or architect shall certify that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions above and shall provide such certification to the manager of inspection that the standards of this subsection and section 62.13.6 are satisfied.

62.7.3. *Elevated buildings.* New construction of or substantial improvements to elevated buildings that include any fully enclosed area located below the lowest floor formed by foundation and other exterior walls below the base flood elevation shall be designed to preclude finished living space and to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls.

(1) Designs for complying with this requirement must either be certified by a registered engineer or architect or meet the following minimum criteria:

(a) Provide a minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding;

(b) The bottom of all such openings shall be no higher than one foot above grade; and

(c) Such openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions;

(2) Access to the enclosed area shall be the minimum necessary to allow for parking of vehicles (garage door) or limited storage of maintenance equipment used in connection with the premises (standard exterior door) or entry to the living area (stairways or elevator); and

(3) The interior portion of such enclosed area shall not be partitioned or finished into separate rooms.

62.7.4. For new manufactured home parks and subdivisions for expansions to existing manufactured home parks and subdivisions; for existing manufactured home parks and subdivisions where the repair, reconstruction or improvement of the streets, utilities and pads equals or exceeds 50 percent of value of the streets, utilities and pads before the repair, reconstruction, or improvement commenced; for a manufactured home placed on a site in an existing manufactured home park or subdivision where a manufactured home has incurred substantial damage as a result of a flood; and for manufactured homes not placed in a manufactured park or subdivision, but which are permitted by the board of zoning adjustment, the following are required:

(1) Stands or lots elevated on compacted fill so that the lowest floor of the manufactured home will be one foot above the base flood elevation.

(2) Manufactured homes placed or substantially improved in an existing manufactured home park or subdivision may be elevated so that either:

(a) The lowest floor of the manufactured home is elevated no lower than one foot above the level of the base flood elevation; or

(b) The manufactured home chassis is elevated and supported by reinforced piers (or other foundation elements of at least an equivalent strength) of no less than 36 inches in height above grade.

(3) Each stand or lot shall have proper surface drainage and shall be accessible to the manufactured home and prime mover or hauler.

(4) All manufactured homes must be securely anchored to an adequately

anchored foundation system to resist flotation, collapse and lateral movement.

62.7.5. All recreational vehicles placed on sites must either:

(1) Be on the site for fewer than 180 consecutive days, be fully licensed and ready for highway use, be on its wheels or jacking system, be attached to the site only by quick disconnect type utilities and security devices, and have no permanently attached structures or additions; or

(2) Meet all the requirements for new construction including the anchoring and elevation requirements of section 62.7.4(1) and (4) above.

62.7.6. A registered land surveyor shall submit data to the manager of inspection certifying that the elevation of the lowest floor of a structure in a floodway fringe district is in compliance with this article. This certification shall be submitted prior to the floor being placed.

(Ord. No. 98-189, § 1(62.7), 4-7-1998)

62.8. Floodplain development permits and other required permits.

62.8.1. It shall be unlawful for any person, firm or corporation to carry out any mining, filling, grading, paving, excavation, or drilling operations in areas designated as floodway district or floodway fringe district without having first obtained a permit for such activity from the city engineer. The city engineer shall maintain the official file copy of the flood insurance rate maps (FIRM) in his office and shall review applications for permits for any mining, filling, grading, paving, excavation, or drilling operations. Any person, firm or corporation failing to comply with the provisions of this section of this ordinance shall be guilty of a misdemeanor and upon conviction shall be fined according to section 91.6, penalties.

Where any violation is discovered, the city engineer shall direct the responsible person, firm, or corporation to restore the land to its prior state before said violation or require the responsible party to immediately obtain an approved floodplain development permit from the city engineer. The city engineer shall take whatever steps necessary to enforce this section of this ordinance.

62.8.2. No building, grading, or floodplain development permit will be issued where any part of the property lies within the flood hazard district until plans for such improvements have been reviewed and approved by the city engineer.

62.8.3. Floodplain development permit. Prior to any development activity, application for a floodplain development permit shall be made to the city engineer on forms furnished by the inspection and engineering divisions of the City of Huntsville.

62.8.4. For all new construction and substantial improvements, the permit holder shall provide to the city engineer an as-built certification of the regulatory floor elevation or floodproofing level using FEMA certificates immediately after the lowest floor or floodproofing is completed.

(Ord. No. 98-189, § 1(62.8), 4-7-1998)

62.9. Standards for areas of shallow flooding (AO zones).

Located within the flood hazard district established in section 62.1 are areas designated as shallow flooding areas. These areas have special flood hazards associated with base flood depths of one to three feet where a clearly defined channel does not exist and where the path of flooding is unpredictable and indeterminate. The following provisions apply in these areas:

62.9.1. All new construction of and substantial improvements to residential structures shall have the lowest floor, including basement and garage, elevated to the flood depth number (in feet) specified on the flood insurance rate map above the highest adjacent grade. If no flood depth number is specified, the lowest floor, including basement and garage, shall be elevated at least three feet above the highest adjacent grade. Openings sufficient to facilitate

the unimpeded movements of floodwaters shall he provided in accordance with the standards of section 62.7.3 (elevated buildings).

62.9.2. All new construction of and substantial improvements to nonresidential structures shall comply with the following:

(1) The lowest floor, including basement and garage, shall be elevated to the depth number (in feet) specified on the flood insurance rate map above the highest adjacent grade. If no depth number is specified, the lowest floor, including basement and garage, shall be elevated at least three feet above the highest adjacent grade. Openings sufficient to facilitate the unimpeded movements of floodwater shall be provided in accordance with the standards identified in section 62.7.3 (elevated buildings); and

(2) The manager of inspection shall obtain a copy of the FEMA elevation certificate completed by a registered land surveyor verifying the actual elevations in relation to mean sea level (or highest adjacent grade) of the regulatory floor elevation including basement and garage; and

(3) New construction of or the substantial improvement to a nonresidential structure may be floodproofed in lieu of elevating. The structure, together with attendant utility and sanitary facilities, shall be completely floodproofed to or above that level determined in subsection (1) above so that any space below that level is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and

(4) A registered engineer or architect shall complete and submit to the manager of inspection a copy of the FEMA floodproofing certificate, and a registered land surveyor shall verify the actual elevations in relation to mean sea level (or highest adjacent grade) of the level in which floodproofing has been accomplished. The engineer or architect also shall certify to the manager of inspection that the design and methods of construction are in accordance with accepted standards of practice and with the provisions of this article; and

(5) Drainage paths shall be provided, and shown on the permit drawings, to direct floodwaters around and away from any proposed structures.

(Ord. No. 98-189, § 1(62.9), 4-7-1998)

62.10. Standards for streams without FIA established base flood elevations and/or floodways (A zones).

Within the flood hazard district where streams exist but no base flood data have been provided or where base flood data have been provided but a floodway has not been delineated, the following provisions shall apply:

62.10.1. The following provisions shall apply when streams exist but where base flood data and floodway data are not available:

(1) A registered engineer shall submit sufficient engineering data to the city engineer showing base flood discharges, base flood elevations, and floodway data along the stream channel. The city engineer shall request as much information as deemed necessary to determine and set base flood elevations, floodway widths and regulatory minimum finish floor elevations along the stream channel.

(2) Minimum finished floor requirements. New construction of or substantial improvements to structures shall be elevated or floodproofed to meet the requirements of

section 62.7 based on the established regulatory flood elevations set by the city engineer as determined in section 62.10.1(1) above.

(3) Floodway district. Section 62.6 shall apply to the established floodway set by the city engineer as described in section 62.10.1(1).

62.10.2. When sufficient engineering data is currently available to the city engineer to establish regulatory flood elevations and floodway data along the stream channel, the following provisions shall apply:

(1) The city engineer shall provide the required minimum finished floor elevations and/or the location and width of the floodway district from information and data from his records and files.

(2) Minimum finished floor requirements. New construction of or substantial improvements to existing structures shall be elevated or floodproofed to meet the requirements of section 62.7 based on the established regulatory flood elevations set by the city engineer as determined in section 62.10.2(1).

(3) Floodway district. Section 62.6 shall apply to the established floodway set by the city engineer as described in section 62.10.2(1).

62.10.3. When base flood elevation data or floodway data have not been provided in accordance with section 62.1, 62.10.1, or 62.10.2, then the city engineer shall obtain, review and reasonably utilize any scientific or historic base flood elevation and floodway data available (including eyewitness accounts of flood elevations along a waterway) from federal, state or other sources in order to administer the provisions of this ordinance. Only if data are not available from these sources, then the following provisions shall apply:

(1) No encroachments, including structures or fill material, shall be located within an area equal to the top width of the stream or 25 feet, whichever is greater, measured from top of stream bank, unless certification by a registered engineer is provided demonstrating that such encroachment shall not result in an increase in the flood levels during the occurrence of the base flood discharge.

(2) In special flood hazard areas without base flood elevation data, new construction of and substantial improvements to existing structures shall have the lowest floor of the lowest enclosed area, including basement and garage, elevated to no less than three feet above the highest adjacent grade at the building site. Openings sufficient to facilitate the unimpeded movement of floodwaters shall be provided in accordance with section 62.7.3 (elevated buildings).

(Ord. No. 98-189, § 1(62.10), 4-7-1998)

62.11. Standards for subdivision proposals.

62.11.1. All subdivision proposals shall be consistent with the need to minimize flood damage.

62.11.2. All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize flood damage.

62.11.3. All subdivision proposals shall have adequate drainage provided to reduce exposure to flood hazards.

62.11.4. Base flood elevation data shall be provided for subdivision proposals and other proposed developments to include manufactured home parks and subdivisions. The subdivision final plat shall prescribe the minimum building floor elevations for structures located within any floodway fringe district.

62.11.5. The boundaries of floodway and floodway fringe districts shall be shown and identified on all subdivision plans for land lying partially or wholly within the flood hazard district.

(Ord. No. 98-189, § 1(62.11), 4-7-1998)

Cross reference—Subdivision regulations, app. B.

62.12. Variances.

62.12.1. The city engineer shall review petitions for variances and report his findings to the board of zoning adjustment.

62.12.2. Variances shall not be granted within any designated floodway district if any increase in flood levels during the base flood discharge would

result or if hazardous streamflow velocities would result, except under the conditions enumerated in section 62.12.3.

62.12.3. Conditions for variances. Variances shall only be issued:

(1) Upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief. The provisions of this article are minimum standards for flood loss reduction; therefore, any deviation from the standards must be weighed carefully.

(2) Upon a showing of good and sufficient cause.

(3) Upon a determination that failure to grant the variance would result in unnecessary hardship unique and different from that shared or suffered by adjacent and similar property also in the designated floodway.

(4) Upon a determination based on hydrologic and hydraulic analyses performed by a registered engineer that the granting of a variance will not result in increased flood levels, floodway widths or hazardous streamflow velocities during a base flood discharge. Neither will the variance create additional threats to public safety, extraordinary public expense or nuisances, cause fraud or victimization of the public, nor conflict with existing local laws or ordinances with respect to the use to which the property is to be put.

(5) For any building or structure in existence prior to the effective date of this article that is hereafter destroyed or substantially damaged to 50 percent or more of its replacement cost at the time of destruction by any means if the reconstruction does not exceed the volume and external dimensions of the original structure and does not offer any greater obstruction to the flow of floodwater than did the original structure.

(6) For the repair, rehabilitation or restoration of historic structures upon a determination that the proposed repair, rehabilitation, or restoration will not result in the structure losing its historical designation and the variance is the minimum to preserve the historic character and design of the structure.

(7) For new construction on an isolated lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level in residential subdivisions recorded prior to the effective date of this ordinance.

(8) For the conduct of a functionally dependent use, provided the criteria of this article are met, no reasonable alternative exists, and the development is protected by methods that minimize flood damage during the base flood.

62.12.4. Standards for evaluating variance applications by the board of adjustment. In passing upon such applications, the board of adjustment shall consider all technical evaluations, all relevant factors, all standards specified in other sections of this ordinance, and:

(1) The danger that materials may be swept onto other lands to the injury of others;

(2) The danger to life and property due to flooding or erosion damage;

(3) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

(4) The importance of the services provided by the proposed facility to the community;

(5) The necessity of the facility to a waterfront location in the case of a functionally dependent facility;

(6) The availability of alternative locations not subject to flooding or erosion damage for the proposed use;

(7) The compatibility of the proposed use with existing and anticipated development;

(8) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;

(9) The safety of access to the property in times of flood for ordinary and emergency vehicles;

(10) The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site; and

(11) The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical and water systems, and streets and bridges.

62.12.5. Upon consideration of the factors listed above and the purposes of this ordinance, the board of zoning adjustment may attach such conditions to the granting of variances as it deems necessary to further the purposes of this ordinance.

62.12.6. Any applicant to whom a variance is granted shall be given written notice specifying the difference between the base flood elevation and the elevation to which the structure is to be built and stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

62.12.7. The zoning administrator shall maintain the records of all appeal actions and report any variances to the Federal Emergency Management Agency upon request.
(Ord. No. 98-189, § 1(62.12), 4-7-1998; Ord. No. 07-460, § 3, 6-28-2007)

62.13. Duties and responsibilities of the city engineer.

Duties of the city engineer shall include, but shall not be limited to, the following:

62.13.1. Review all floodplain development plans and permit applications to ensure that the requirements of this article have been satisfied on the plans and permit application form;

62.13.2. Review floodplain development to ensure that construction is being accomplished in conformance with the permit requirements and the requirements of this article;

62.13.3. Review proposed development within the flood hazard district to ensure that all necessary permits have been received from government agencies for which approval is required by federal or state law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 USC 1344. Require that copies of such permits be provided and maintained on file with the floodplain development permit;

62.13.4. Obtain a copy of the FEMA flood elevation certificate in order to verify and record the actual elevation in relation to mean sea level (or highest adjacent grade) of the regulatory floor level, including basement and garage, of all new construction or substantially improved structures in accordance with section 62.8.4;

62.13.5. Obtain a copy of the FEMA floodproofing certificate in order to verify and record the actual elevation in relation to mean sea level to which any new or substantially improved structures have been floodproofed in accordance with sections 62.8.4 and 62.9.2;

62.13.6. When floodproofing is utilized for a structure, the city engineer and manager of inspection shall obtain certification of the design criteria from a registered engineer or architect in accordance with sections 62.7.2 and 62.9.2;

62.13.7. Notify adjacent communities and the Alabama Department of Natural Resources prior to any alteration or relocation of a watercourse and submit evidence of such notification to the Federal Emergency Management Agency and the Alabama Emergency Management Agency (AEMA);

62.13.8. For any altered or relocated watercourse, submit engineering data/analysis within six months to FEMA and AEMA to ensure accuracy of community flood maps through the

letter of map revision process. Ensure that the flood-carrying capacity of any altered or relocated watercourse is maintained;

62.13.9. Ensure that maintenance is provided within the altered or relocated portion of said watercourse so that the flood-carrying capacity is not diminished;

62.13.10. Where interpretation is needed as to the exact location of the boundaries of the areas of special flood hazard (for example, where there appears to be a conflict between a mapped boundary and actual field conditions), the city engineer shall make the necessary interpretation. Any person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this article;

62.13.11. When base flood elevation data or floodway data have not been provided in accordance with section 62.1, then the city engineer shall obtain, review and reasonably utilize any base flood elevation and floodway data available from a federal, state or other source in order to administer the provisions of section 62.10;

62.13.12. All permits and records specified in sections 62.8 and 62.13 shall be maintained in the office of the city engineer and shall be open for public inspection.

(Ord. No. 98-189, § 1(62.13), 4-7-1998)

62.14. Duties and responsibilities of the manager of inspection.

62.14.1. Obtain certification from a registered engineer or architect in accordance with section 62.7.2 or 62.9.2 when floodproofing is utilized for a particular structure.

62.14.2. Maintain building permits pertaining to the provisions of this article in the office of the manager of inspection.

62.14.3. Require a registered land surveyor to verify the actual elevation (in relation to mean sea level) of the lowest floor, including basement and garage, of all new or substantially improved structures and to complete and furnish a copy of the FEMA elevation certificate.

62.14.4. Require a registered land surveyor to verify the actual elevation (in relation to mean sea level) to which new or substantially improved structures have been floodproofed and to complete and furnish a copy of the FEMA floodproofing certificate.

(Ord. No. 98-189, § 1(62.14), 4-7-1998; Ord. No. 07-460, § 3, 6-28-2007)

62.15. Duties and responsibilities of the city planner.

62.15.1. Submit reports to the Federal Insurance Administration regarding the Federal Flood Insurance Program as requested.

62.15.2. The zoning administrator shall review all development plans and permit applications to determine if the development lies within a designated floodway or floodway fringe district and assure that any development within a designated floodway or floodway fringe district meets all requirements of this Appendix. If the zoning administrator cannot make a determination of the floodway and floodway fringe districts, then the city engineer will make the determination.

62.15.3. The zoning administrator shall inform any person wishing to develop within a flood hazard district about the district regulations and permit application forms, and provide a copy of the regulations and other pertinent information that may assist the developer.

(Ord. No. 98-189, § 1(62.15), 4-7-1998; Ord. No. 07-460, § 3, 6-28-2007)

62.16. Warning and disclaimer of liability.

The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur. Flood heights may be increased by manmade or natural causes. This article does not imply that land outside the areas of special flood hazard or uses permitted within such areas will be free from flooding or flood damages. This article shall not create liability on the part of the City of Huntsville, Alabama, or by any officer or employee thereof, for any flood damages that

result from reliance on this ordinance or any administrative decision lawfully made thereunder.
(Ord. No. 98-189, § 1(62.16), 4-7-1998)

ARTICLE 63. AIRPORT OBSTRUCTION AND NOISE EXPOSURE DISTRICT REGULATIONS*

Purpose. The purpose and intent of the airport obstruction and noise exposure district regulations are to regulate the height of manmade structures and natural objects within the airport hazard area as herein defined; and to regulate the use of lands within the airport noise exposure zone herein defined to ensure such use to be compatible with the noise environment at that location. These regulations apply to those portions of the airport hazard area and airport noise exposure zone which lie within the jurisdiction of the City of Huntsville, Alabama.

63.1. Establishment of airport hazard area.

The boundaries and designations of the airport hazard area are hereby established and approved as defined herein and as shown and designated on the "Airport Obstruction and Land Use Map" filed herewith and made a part hereof by reference. Said map is further identified by the signature of the Mayor of the City of Huntsville, Alabama, and attested by the city clerk-treasurer. Certified copy of the said map is of public record in the Office of the City Clerk-Treasurer of the City of Huntsville, Alabama.

63.2. Establishment of airport noise exposure zone.

The boundaries and designations of the airport noise exposure zone are hereby established and approved as described herein and as shown and designated on the "Airport Obstruction and Land Use Map" hereinabove adopted, in conformance with the Airport Noise Exposure Map, dated 1990, prepared and published by the Secretary of Transportation of the United States of America pursuant to section 105, Aviation Safety and Noise Abatement Act of 1979, as amended, which said Airport Noise Exposure Map, dated 1990, is filed herewith and made a part hereof by reference. Said map is further identified by the approval of the Secretary of the Department of Transportation of the United States of America. A copy of the said map, certified as a part of this regulation, is of public record in the Office of the City Clerk-Treasurer of the City of Huntsville, Alabama.

63.3. Application.

The airport hazard area and the airport noise exposure zone are created under this article as special zoning classifications. Where these special zones overlap other zoning districts created under the Zoning Ordinance of the City of Huntsville, Alabama, the requirements of these special zones are to be superimposed on and enforced in addition to all other zoning regulations applicable to those districts. If the requirements of these special zoning classifications require the alteration or elimination of uses, structures, or other objects which would be permitted under the other applicable zoning regulations of the City of Huntsville, Alabama, then the more stringent requirements of this article shall be followed.

63.4. Definitions.

The following definitions shall apply to this article unless the context otherwise requires:

Airport. The Huntsville-Madison County Airport, Huntsville, Alabama.

Airport elevation. Six hundred twenty-eight feet above mean sea level.

Airport hazard. Any structure, tree or use of land which obstructs the airspace required for the safe and efficient operation of the airport, or is otherwise hazardous to the flight of aircraft in landing or taking off at the airport, or is otherwise incompatible with airport operations.

Airport hazard area. An area of land and water lying within a horizontal distance of 20,000 feet from the nearest point of the nearest runway of the airport, and the area within the limits of the airport boundary, the instrument approach departure zones, transition surface zones, horizontal

*__Cross reference—__Aviation, ch. 6.

__State law reference—__Airport Zoning Act, Code of Ala. 1975, § 4-6-1 et seq.

surface zones, conical surface zones and airport noise exposure zones, all as shown by the airport obstruction zone map adopted as a part of this regulation in section 63.2, supra.

Airport noise compatibility program. Program reflected in documents (and revised documents) developed in accordance with the guidelines established by the Department of Transportation Federal Aviation Administration.

Airport reference point. The point established as the geographical center of the airport landing area. The reference point of the Huntsville-Madison County Airport is as follows: latitude 34 degrees, 28 minutes, 35 seconds; longitude 86 degrees, 46 minutes, 20 seconds.

Aviagation easement. An easement and right-of-way appurtenant to Huntsville-Madison County Airport for the unobstructed passage of aircraft in the airspace above the grantors' property above designated altitudes, together with the right to cause in all airspace above the surface of grantors' property such noise, vibrations, fumes, dust, fuel particles and all other effects that may be caused by the operation of the said airport, including the taking off and landing of aircraft at the airport.

Compatible land use. The use of land that is normally compatible with the outdoor noise environment (or an adequately attenuated noise level reduction for any indoor activities involved) at the location because the yearly day-night average sound level is at or below that identified for that or similar use under 14 CFR 150, appendix A, table 2, Federal Aviation Regulations.

Day-night average sound level. The 24-hour average sound level, in decibels, for the period from 12:00 midnight to 12:00 midnight, obtained after the addition of ten decibels to sound levels for the periods between 12:00 midnight and 7:00 a.m. and between 10:00 p.m. and 12:00 midnight, local time. (See yearly day-night average sound level (Ldn).

Height limitation. The maximum elevation for the highest point that a structure may be altered, erected, or a tree allowed to grow.

Instrument runway. A runway equipped or to be equipped with electronic or visual air navigation aids adequate to permit the landing of aircraft under restricted visibility conditions.

Landing strip. The area of the airport used for the landing, the taking-off, or taxiing of aircraft.

Noise level reduction (NLR). The amount of noise level reduction achieved through incorporation of noise attenuation (between outdoor and indoor levels) in the design and construction of a structure.

Person. Any individual, firm, partnership, corporation, company, association, joint stock association or body politic, and includes any trustee, receiver assignee, or other representative thereof.

Political subdivision. City of Huntsville, Alabama.

Primary surfaces. These surfaces are symmetrically located with respect to the centerline of the landing strip. The transverse profile of primary surfaces are horizontal; whereas, longitudinal profiles may vary throughout its length. The elevation of any point on a primary surface is the same as the elevation of the nearest point on the runway centerline. The primary surfaces for this ordinance are hereby established as follows:

(1) *Primary surface runway 18R-36L.* This surface is 1,000 feet wide and 10,400 feet in length and begins 200 feet outward from each end of said runway.

(2) *Primary surface runway 18L-36R.* This surface is 1,000 feet wide and 8,400 feet in length and begins 200 feet outward from each end of said runway.

Runway. The paved surface of airport landing strip.

Sound attenuation. Measures which must be incorporated into the design and construction of a structure to achieve noise level reduction to compatible Ldn.

Sound exposure level. The level, in decibels, of the time integral of squared A-weighted sound pressure during a specified period or event, with

reference to the square of the standard reference sound pressure of 20 micropascals and a duration of one second.

Structure. Any object constructed or installed by man including, but without limitation, buildings, towers, antennae, smokestacks, and overhead transmission wires.

Tree. Any object of natural growth.

Yearly day-night average sound level (Ldn). The 365-day average, in decibels, day-night average sound level.

63.5. Zones.

The airport hazard area is hereby divided into separate zones, the limits of which are established as shown on the Airport Obstruction Map of the Huntsville-Madison County Airport, which is made a part of this ordinance as it may be supplemented and amended. The various zones are hereby established, defined and adopted as follows:

63.5.1. *Instrument approach-departure zones.* These zones are established at each end of the runways for instrument landings and takeoffs. The instrument approach-departure zone shall have a width of 1,000 feet at a distance of 200 feet beyond each end of the runway, widening thereafter uniformly to a width of 16,000 feet at a distance of 50,200 feet beyond each end of each runway and thereafter remaining at a width of 16,000 feet to the terminal end of the zone, its centerline being the continuation of the centerline of the runway.

63.5.2. *Transitional zones.* These zones extend outward from both sides of the primary surface and the approach-departure zones to an intersection with the inner horizontal, conical and outer horizontal zones or other transitional zones.

63.5.3. *Inner horizontal zone.* This zone is established as the area commencing at the periphery of the transitional zones of the airport and extending outwardly and horizontally to a perimeter of which is constructed by swinging arcs of 10,000 feet from the center of each end of the primary surface of each runway of the airport and connecting the adjacent arcs by lines tangent to those arcs. This zone does not include the instrument approach-departure zones and transitional zones.

63.5.4. *Conical zone.* This zone is established commencing at the periphery of the inner horizontal zone of the airport and extending outward and upward for a horizontal distance of 4,000 feet. This zone does not include the instrument approach-departure zones and the transitional zones.

63.5.5. *Outer horizontal zone.* This zone is established as the area commencing at the periphery of the conical zones of the airport and extending outwardly and horizontally to the periphery of the airport hazard area. This zone does not include the instrument approach-departure zones and transitional zones.

63.5.6. *Airport noise exposure zones.* These zones are land use areas lying within 3,000 feet outward and perpendicular to each side of each runway centerline and its extension and 25,000 feet outward from the end of runway 18R; 25,350 feet outward from the end of runway 36L; 25,350 feet outward from runway 18L; and 25,000 feet outward from the end of runway 36R.

63.6. Criteria to govern height limitations.

Except as otherwise permitted in this article, no structure or tree shall hereafter be erected, altered, allowed to grow, or maintained (in any zone created by this article) to a height in excess of the height limit herein established for such zone. Such height limitations are computed from imaginary surfaces referenced to the airport elevation. The imaginary surface established for each of the zones in question is as follows:

63.6.1. *Instrument approach-departure surface runway 18R.* This surface slopes one foot in height for each 100 feet in horizontal distance beginning at an elevation of 628 feet above mean sea level and a distance of 1,000 feet outward and 200 feet from the end of the runway. This surface slopes outward and upward from its beginning, symmetrically about the extended centerline of the runway until the

width reaches 16,000 feet, continuing at this width to 133,200 feet beyond the end of the runway, which is the Alabama-Tennessee line.

63.6.2. *Instrument approach-departure surface runway 36L.* This surface slopes one foot in height for each 100 feet in horizontal distance beginning at an elevation of 614 feet above mean sea level and a distance of 1,000 feet outward and 200 feet from the end of the runway. This surface slopes outward and upward from its beginning, symmetrically about the extended centerline of the runway until the width reaches 16,000 feet, continuing at this width to 115,550 feet beyond the end of the runway, which is the Morgan-Cullman County line.

63.6.3. *Instrument approach-departure surface runway 18L.* This surface slopes one foot in height for each 100 feet in horizontal distance beginning at an elevation of 606 feet above mean sea level and a distance of 1,000 feet outward and 200 feet from the end of the runway. This surface slopes outward and upward from its beginning, symmetrically about the extended centerline of the runway until the width reaches 16,000 feet, continuing at this width to 133,550 feet beyond the end of the runway, which is the Alabama-Tennessee line.

63.6.4. *Instrument approach-departure surface runway 36R.* This surface slopes one foot in height for each 100 feet in horizontal distance beginning at an elevation of 591 feet above mean sea level and a distance of 1,000 feet outward and 200 feet from the end of the runway. This surface slopes outward and upward from its beginning, symmetrically about the extended centerline of the runway until the width reaches 16,000 feet, continuing at this width to 117,200 feet beyond the end of the runway, which is the Morgan-Cullman County line.

63.6.5. *Transitional surface.* These surfaces extend outward and upward at right angles to the runway centerline and the runway centerline extended at a slope of one foot in height for each seven feet in horizontal distance from the sides of the primary surfaces and from the sides of the instrument approach-departure surfaces. The maximum elevation for structures or trees located thereunder shall be the elevation of the adjacent point on the primary surface or the instrument approach-departure surface plus one seventh of the distance which separates the structure or tree from the slope of the primary or instrument approach-departure surface. The distance shall be measured in feet along the perpendicular to the landing strip or its extended centerline. Transitional surfaces for those portions of the instrument approach-departure zone surfaces which project through and beyond the limits of the conical surface, extend a distance of 5,000 feet measured horizontally from the edge of the approach-departure surface and at right angles to the runway centerline.

63.6.6. *Inner horizontal surface.* This surface is at a height of 150 feet above the established airport elevation. The maximum elevation of structures or trees located thereunder shall be 778 feet above mean sea level.

63.6.7. *Conical surface.* This surface extends outward and upward at a slope of one foot in height for each 20 feet in horizontal distance. The maximum elevation of structures or trees located thereunder shall be 778 feet plus 1/20 of the distance which separates the structure or tree from the periphery of the inner horizontal surface. The distance shall be measured in feet along a radial from the nearest point on the periphery of the inner horizontal zone.

63.6.8. *Outer horizontal surface.* This surface is at a height of 500 feet above the established airport elevation. The maximum elevation of structures or trees located thereunder shall be 978 feet above mean sea level.

63.7. Criteria to govern compatible land use in airport noise exposure zone.

The airport noise compatibility program, as reflected by the airport noise exposure map previously made part of this regulation, establishes the "Yearly Day-Night Average Sound Level (Ldn)" in decibels, in contours around the airport. Land uses around the airport must be compatible with the standards and procedures as set forth in 14 CFR 150, appendix A, Federal Aviation Regula-

tions, published January, 1981, as amended. No use shall hereafter be permitted within the boundaries of the airport noise exposure zone unless the said use shall be otherwise permitted in the applicable area under this ordinance and shall be compatible with the Ldn in the applicable area. Compatibility of the use with the Ldn shall be determined by the standards set forth in 14 CFR 150, appendix A, table 2, Federal Aviation Regulations, as amended. Said part 150, Federal Aviation Regulations, as amended, and specifically table 2 of appendix A thereto is incorporated herein and made a part hereof by reference. A copy of part 150 is on public record in the Office of the City Clerk-Treasurer for the City of Huntsville, Alabama.

If varying uses of a site with different sensitivity to noise are applied for, compatibility of the uses with the Ldn shall be determined based on the use most adversely affected by noise, without regard to which of the proposed uses is the major use of the site. When appropriate, noise level reduction through incorporation of sound attenuation into the design and construction of a structure may be permitted to achieve a level of compatibility as provided in part 150, supra, and incorporated herein by reference.

All applications for compatible land uses within the airport noise exposure zone shall be accompanied by an aviagation easement, in substantially the form and letter as set forth in exhibit A to this regulation, which said exhibit A is incorporated herein by reference, duly executed by all the owners of the land for which application is being made.

63.8. Use restrictions.

Notwithstanding any other provision of this ordinance, no use may be made of land within any zone established by this article in such a manner as to create electrical interference with a radio communication between the airport and aircraft, make it difficult for flyers to distinguish between airport lights and others, result in glare in the eyes of flyers using the airport, impair visibility in the vicinity of the airport or otherwise endanger the landing, taking-off, maneuvering of aircraft, or impair approach and departure procedures.

63.9. Nonconforming uses.

The regulations prescribed by this article shall not be construed to require the removal, lowering or other changes or alteration of any structure or tree not conforming to the regulations as of the effective date of this article or otherwise interfere with the continuance of any nonconforming use. Nothing herein contained shall require any change in the structure, alteration, or intended use of any structure, the construction or alteration of which was begun prior to the effective date of this article and is diligently executed.

63.10. Permits.

63.10.1. *Future uses.* No material change shall be made in the use of land and no structure shall be erected, altered or otherwise established in any zone hereby created unless a permit therefor shall have been obtained from the director of the inspection department of the City of Huntsville, Alabama (building inspector). Each application for a permit shall be submitted to the zoning administrator and shall state clearly the purpose for which the permit is requested, with sufficient particularity to permit the determination of whether the resulting use or structure would conform to the following:

(1) All regulations herein prescribed and all other applicable provisions of the Zoning Ordinance of the City of Huntsville, Alabama;

(2) Subpart B: Notice of Construction or Alteration, Part 77, Objects Affecting Navigable Airspace, Federal Aviation Regulations, as or may be amended, copy of which is maintained on file and available to the public for examination at the Office of the City Clerk-Treasurer for the City of Huntsville, Alabama; and

(3) Part 150, Noise Compatibility, Federal Aviation Regulations, as or may be amended, copy of which is maintained on file and available to the public for examination at the office of the city clerk-treasurer for the City of Huntsville, Alabama. Specifically, the application must contain certification from a duly qualified professional registered engineer or archi-

tect that the proposed use is compatible with the "Yearly Day-Night Average Sound Level" (Ldn) as prescribed in Table 2, Appendix A, Part 150, Federal Aviation Regulations.

If the zoning administrator determines the proposed use or structure or object is in conformance with each of the foregoing provisions (except as any provisions thereof may be mutually exclusive), then the application will be forwarded to the building inspector for issuance of the permit.

63.10.2. *Existing uses.* No permit shall be granted that would allow the establishment or creation of an aircraft hazard or permit a nonconforming use, structure, or tree to be made or become higher, or become a greater hazard to air navigation, than it was on the effective date of this article or any amendment thereto or than it is when the application for a permit is made.

63.10.3. *Abandonment or destruction of nonconforming uses, structures or objects.* Whenever the zoning administrator shall determine that a non-conforming use has been abandoned or discontinued for a period of six months or more; or that more than 50 percent of a non-conforming structure or tree has been destroyed, torn down, physically deteriorated or decayed; then the application with the written determination of the zoning administrator is forwarded to the building inspector and no permit shall be granted to allow such use to be continued, and no permit shall be granted to allow the continuation of the nonconforming structure or tree in non-compliance with this regulation or ordinance.

63.10.4. *Variances.* Any person desiring to use property within any zone created hereunder in violation of the regulations herein adopted or otherwise contained in this ordinance, or to erect or maintain a structure or to permit the growth of any tree in violation thereof, may, upon denial of a permit of the manager of inspection, apply to the Board of Zoning Adjustment of the City of Huntsville, Alabama, for a variance from the zoning regulation or regulations in question. Such variances shall be allowed where a literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but do substantial justice and be in accordance with the spirit of the regulations and this chapter; provided that any variance may be allowed subject to any reasonable conditions that the board of adjustment may deem necessary to effectuate the purposes of this chapter.

The board of adjustment shall have all the powers and duties under this article as conferred upon it by article 92 of this ordinance, to the extent authorized, required or permitted by Code of Ala. 1975, § 4-6-10.

63.10.5. *Hazard marking and lighting.* In granting any permit or variance under this section, the manager of inspection or the board of zoning adjustment, as the case may be, may, if such action is deemed advisable to effectuate the purposes of this article and be reasonable in the circumstances, so condition such permit or variance as to require the owner of the structure or tree in question to permit the political subdivision, at its own expense, to install, operate and maintain thereon such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard, upon payment to the owner for all damage resulting to his property by such maintenance.

(Ord. No. 07-460, § 4, 6-28-2007)

State law reference—Permits, Code of Ala. 1975, § 4-6-8.

63.11. Enforcement.

The regulations adopted under this article shall be administered and enforced by the zoning administrator for the City of Huntsville, Alabama. Applications for permits under this article shall be made to the zoning administrator, who shall forward the application to the building inspector. Applications for variances under this article shall be filed with the zoning administrator who shall set the same down for hearing before the board of zoning adjustment.

Any person aggrieved by any decision of the board of zoning adjustment made in its administration of regulations adopted under this article or any governing body of a political subdivision which is of the opinion that a decision of such board is an improper application of airport zoning

regulations of concern to such governing body or board may appeal to the circuit court of the county where such airport is located for a trial de novo.

All appeals taken under this section must be taken within ten days by filing with the board from which the appeal is taken a notice of appeal specifying the grounds thereof. The board from which the appeal is taken shall forthwith transmit to the court all the papers constituting the record upon which the action appealed was taken.

An appeal shall stay all proceedings in furtherance of the action appealed from, unless the board from which the appeal is taken certifies to the court, after the notice of appeal has been filed with it, that by reason of the facts stated in the certificate a stay would, in its opinion, cause imminent peril to life or property and file bond to indemnify the owner for damages as may be fixed by the court. In such cases, proceedings may be stayed upon the filing by the appellant of a supersedeas bond in an amount to be set by the circuit court of the county in which the subject matter of such decision lies on application by the appellant or the board from which the appeal is taken.

The court may, in conformity with the provisions of this article, reverse, affirm wholly or partly, or modify the order, requirement, decision or determination appealed from and make such order, requirement, decision or determination as ought to be made and to that end shall have all the powers of the board from which the appeal is taken.
(Ord. No. 07-460, § 4, 6-28-2007)

63.12. [Repealed.]
(Ord. No. 99-206, § 5, 4-8-1999)

63.13. Remedies.

In case any building or structure is erected, constructed, reconstructed, altered, repaired, converted or maintained, or any building, structure or land is used in violation of this article or of any ordinance or other regulation made under authority conferred hereby, the proper local authorities of the municipality, in addition to other remedies, may institute any appropriate action or proceedings to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance or use, to restrain, correct or abate such violation, to prevent the occupancy of such building, structure or land or to prevent any illegal act, conduct, business or use in or about such premises. Any person creating an airport hazard may be compelled, at his own expense, to discontinue, lower, remove, reconstruct, or equip such an object as may be necessary to conform to this article, or if the owner shall neglect or refuse to comply with such order for ten days after notice thereof, the City of Huntsville, Alabama, may proceed to have the airport hazard conformed to the requirements of the article, and recover the cost and expense thereof from the owner.

State law reference—Similar provisions, Code of Ala. 1975, § 4-6-12.

63.14. Conflict.

In the event of conflict between this article and any other regulation, whether the conflict be with respect to the height of structures or trees, the use of land, or any other matter, and whether such regulations were adopted before or after this article, or by some other political subdivision, the more stringent limitation or requirement shall govern and prevail.

63.15. Severability.

If any section, clause, provision, or portion of this article shall be held to be invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect any other section, cause, provision or portion of this article which is not and of itself invalid or unconstitutional.

63.16. Effective Date.

This article shall take effect and be in force from and after the date of this adoption.

ARTICLE 64. AIRPORT COMMERCIAL DISTRICT REGULATIONS*

Purpose. The purpose of the airport commercial district is to provide for the retailing of goods and services, the light manufacture and assembly of

*__Cross reference—__Aviation, ch. 6.

products, and the warehousing and distribution of such products in an area affected by the Huntsville-Madison County Airport. Minimum lot sizes are defined, front, side and rear yards are required, signage is restricted, and landscaping is specified.

These regulations shall apply to those commercial areas so designated which are within the confines of the airport obstruction zoning ordinance for the Huntsville-Madison County Airport. Within an airport commercial district as shown on the Official Zoning Maps for the City of Huntsville, Alabama, the following regulations shall apply:

64.1. Uses permitted.

Land and buildings shall be used only for the following:

Agricultural uses.

Ambulance services.

Animal hospital or veterinary clinic, pet shops.

Apparel stores.

Auction gallery, including auto auction.

Automobile repair garage, mechanical and body, provided all operations are conducted entirely within an enclosed structure.

Automobile sales, new and used, retail and wholesale with attendant facilities, except that any mechanical or body repair must be conducted entirely within an enclosed structure and provided further that all vehicles on a used car sales lot must be in operating condition at all times.

Bakery, where not more than five persons are employed on the premises and where the products made are sold exclusively at retail on the premises.

Banks, savings and loan associations.

Barbershops, beauty parlors, reducing salons.

Building and lumber supply establishments, provided the entire storage area is enclosed within a solid fence at least seven feet in height, or greater, if required to adequately screen such area, and that any machine operations must be conducted entirely within an enclosed structure.

Bus depots.

Cafes, delicatessens, coffee shops and restaurants without alcohol.

Carwash establishments.

Commercial parking garages or lots.

Confectionery stores.

Drugstores and apothecaries.

Dry cleaning establishments utilizing only nonflammable dry cleaning fluids.

Farmers markets.

Florist shops and greenhouses.

Furniture stores.

Gasoline service stations.

Grocery stores.

Gymnasiums, fitness and exercise centers, health clubs and spas.

Hardware stores, gift shops and variety stores.

Hotels and motels are permitted as special exceptions when they are located in areas of 65 Ldn or less as defined on the airport noise exposure map, dated 1990, as adopted by and as the same may be amended by the City of Huntsville.

Jewelry stores, watch repair shops.

Laundry operations, launderette, coin-operated dry cleaning establishments.

Light manufacturing and assembly, provided all such uses are in accordance with the performance standards referenced in section 64.10 hereof.

Mortuaries and crematoriums.

Municipal, county, state or federal uses.

Music or record shops.

Newsstands, hobby shops.

Notions and dry goods stores.

Offices, professional buildings.

Photographic studios, photo retail sales.

Places of amusement, golf driving ranges, miniature golf, baseball batting, and similar non-offensive establishments, but not including theatres or drive-in theatres.

Print shops, newspaper publishing houses.

Radio and television appliance stores and repair shops.

Self-propelled camping and recreational vehicle sales; trailer and mobile home sales; boat sales.

Shoe stores, shoe repair shops.

Tailor shops.

Upholstering shop, where not more than five persons are employed.

Warehousing, wholesaling, interior storage, and distribution in conjunction with manufacturing, assembly and office use.

Accessory structures and uses to those permitted herein.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.
(Ord. No. 97-707, § 1, 11-13-1997; Ord. No. 03-593, § 5, 8-14-2003; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 11-11, § 14, 2-24-2011; Ord. No. 11-899, § 2, 1-26-2012; Ord. No. 15-406, § 2, 7-23-2015)

64.2. Density controls.

64.2.1. All structures shall be set back not less than 40 feet from all existing or proposed public streets.

64.2.2. Minimum lot size shall not be less than one acre for each tract.

64.2.3. Minimum lot width of each tract shall be not less than 100 feet as measured at the minimum building line.

64.3. Required yards.

64.3.1. All required yards shall be kept clear of driveways, vehicular access ways, parking areas, loading areas, accessory uses and buildings, provided however, that a gate or security station or a detached ground identification sign meeting the requirements of section 72.4.5(3) may be located in a required yard.

64.3.2. Yards facing an existing or proposed public street shall be considered front yards. Such yards shall have a minimum depth of 40 feet. On corner lots having two front yards, a 40-foot required front yard shall be maintained on the street that the building front faces; the required front yard on the remaining street may be reduced to a minimum depth of 30 feet.

64.3.3. Minimum required depth of rear yard shall be 15 feet.

64.3.4. Minimum required width of each side yard shall be ten feet.
(Ord. No. 09-430, § 26, 7-9-2009)

64.4. Street access and frontage.

Each lot shall have a minimum frontage of 100 feet on a public road, provided, however, the manager of planning may approve a lesser frontage to a minimum of 50 feet for lots located on culs-de-sac or street curves.

64.5. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

64.5.1. Driveways and vehicular access ways, except as necessary to cross a required yard, are not permitted in any required yard. Driveways and vehicular access ways shall be paved and properly drained.

64.5.2. Parking areas shall not be placed in any required yard. All parking areas shall be paved and properly drained. No parking shall be permitted any place other than in paved parking areas.

64.5.3. Loading areas shall not be placed within any front yard or in any required yard and shall be located and properly screened, as well as practicable, so as to not be visible from any existing or proposed street.

64.5.4. Parking and loading areas shall be landscaped in accordance with section 64.8, landscaping requirements.

64.5.5. Lighting of off-street parking and vehicular use areas is required in accordance with section 71.6, PVA lighting requirements.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 99-1020, § 14, 1-13-2000; Ord. No. 09-430, § 27, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

64.6. Signs.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

64.7. Height requirements.

Maximum number of stories: three

Maximum height of building: 45 feet

64.8. Landscaping requirements.

Every building site on which a building shall be placed shall be landscaped in the following manner. All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

64.8.1. All yards required under this ordinance shall be landscaped and maintained. A minimum of one tree per 20 linear feet of distance for each boundary line shall be planted in the required yards.

64.8.2. All off-street parking areas, to include drives within the parking areas, greater than either 15 automobile spaces or 5,000 square feet shall have at least five percent of the interior of the parking area landscaped in planting islands or peninsulas. Width of islands or peninsulas shall be a minimum width of at least five feet between backs of curbs, and at least one tree per 20 parking spaces shall be planted within the planting islands or peninsulas in addition to other landscaping materials and plants.

64.8.3. All mechanical and utility equipment, incinerators and trash containers, and accessory structures necessary for the conduct of a permitted use shall be adequately screened, as well as is practicable, by fencing or landscaping so as to not be visible from any existing or proposed street or from the ground floor of adjacent buildings.
(Ord. No. 02-43, § 1, 2-28-2002)

64.9. Underground wiring requirements.

All power, communication, and other wiring hereafter installed in an airport commercial district shall be placed underground.

64.10. Performance standards.

The performance standards listed in article 50, section 50.2 (research park district) hereof shall be required for all uses located in an airport commercial district.

64.11. Development procedure.

64.11.1. Any landowner of property lying within an airport commercial district desiring to dedicate any street, road, or right-of-way to the public must submit to the planning commission for approval a plan of the proposed street, road, or right-of-way.

64.11.2. Anyone desiring to secure a building permit for the use of land lying within an airport commercial district must submit to the manager of planning the following information, as appropriate, for approval of plans:

(1) A site plan for traffic engineering analysis, showing location and design of buildings, driveways, driveway intersections with streets, parking areas, loading areas, maneuvering areas and sidewalks;

(2) A planting plan, including screen walls and fences, for analysis of adequacy of visual screening and landscape architectural design;

(3) Plans for all signs to be erected, including location and lighting of each sign.

The manager of planning shall review and approve by signature the proposed plot plan upon finding

that the same complies with these regulations. If the proposed plot plan is not approved, the manager of planning shall state in writing on the proposed plot plan the cause for such disapproval.

64.12. Alcoholic beverage establishment regulations.

Alcoholic beverage establishments shall be permitted in accordance with section 75.3 - permitted establishments by districts, subsection 75.3.5, and shall be regulated by article 75 - alcoholic beverage establishment regulations.
(Ord. No. 11-11, § 14, 2-24-2011)

ARTICLE 65. SLOPE DEVELOPMENT DISTRICT REGULATIONS*

Purpose. The purpose and intent of this ordinance is to protect the health, safety and general welfare of the public by creating the slope development zoning district and establishing the boundaries of such district; by providing for the kind, character and use of structures and improvements that may be made or erected within the slope development district herein created; by providing for regulation and restriction of the erection, construction, reconstruction, alteration, repair or use of buildings, structures, improvements or land within such district; by providing for safety standards in the construction of improvements, both public and private, within the said district, based on the character of the district and its peculiar suitability for development; by providing standards to minimize the degradation of the district's special ecological character by adapting development to the natural terrain; by providing for the concentration of allowable density within the district in less hazardous construction zones, and to allocate areas not suited for development, due to geotechnical factors, to the use of open space; by providing protection for existing natural and man-made environmentally sensitive areas within the district and by providing protection from existing natural and man-made hazards therein; by requiring buildings and improvements to be designed and constructed in a manner as to be inconspicuous from viewpoints on the valley floor and adjacent slopes, and preventing indiscriminate, unnecessary grading or stripping of vegetation, for aesthetic protection and for stormwater runoff and erosion protection; by providing limits to impervious ground cover; and by generally regulating density, use and construction standards within the district to minimize the risks associated with development on slopes and unstable geological conditions.
(Ord. No. 96-159, 4-25-1996)

65.1. Establishment of the slope development district.

The boundaries and designations of the slope development district are hereby established and approved as defined herein and as shown and designated on the official zoning maps of the City of Huntsville, Alabama.

65.1.1. The slope development district boundary has been established at the elevation contour immediately above or below which a 25-foot vertical span of mountainside has a slope of 15 percent or greater and the district is to include those contiguous parts of mountains or hills that exhibit at least 100 feet of relief as measured from the lowest elevation contour that bounds the 15 percent or greater slope to the highest contour of the district as defined herein. In addition, the upper boundary shall be extended 50 feet (horizontal distance) beyond the elevation contour immediately below which a 25-foot vertical span exhibits a slope of 15 percent or greater.

65.1.2. When a lot is divided by the Slope Development District boundary line, the lot shall be considered as lying wholly within the district unless it satisfies the following conditions:

(1) That portion of the lot lying within the slope development district shall remain undisturbed and shall have

*__Editor's note—__Ord. No. 96-159, adopted April 25, 1996, deleted former ch. VI, art. 65, of the zoning ordinance and added new provisions as ch. VI, art. 65, as herein set out. Former ch. VI, art. 65, pertained to mountainside development district regulations and derived unamended from the original zoning ordinance.

a restriction placed on the final plat requiring that it be retained in its natural state except for hiking trails, and

(2) That portion of the lot lying outside the slope development district shall be of sufficient size and shape to meet all the minimum yard setback, lot area, and lot width requirements of the underlying zoning district.

If the option is taken to remove a divided lot from the authority of the slope development district regulations, then no part of the divided lot shall be included in the impervious cover calculations for the subdivision of which it is a part.

65.1.3. The slope development district boundary is shown and designated on a 1:4800 scale map (one inch equals 400 feet) having contour intervals of five feet. Slope percentage is calculated perpendicular to contours over a 25-foot vertical span. The boundary is delineated perpendicular to slope on the five-foot contour lines and parallel to slope between contour lines. Local variations in slope that continue for horizontal distances of less than 200 feet parallel to contour lines are not shown by adjustments in the district boundary.

65.1.4. In the event of a discrepancy between the mapped district boundary and the surveyed district boundary, the surveyed boundary line shall prevail, provided the following certification is made part of the slope map submitted for development approval:

I, _____, do hereby certify that I am a licensed land surveyor in Huntsville, Alabama, that I have surveyed the lands embraced within (development name), that the contours shown hereon accurately describe the natural, undisturbed topography of the site existing prior to the development, and that the boundaries of the slope development district as shown hereon have been established in conformance with the provisions of section 65.1.1 of the Huntsville Zoning Ordinance.

_____ _____
Date Land Surveyor

(Ord. No. 96-159, 4-25-1996)

65.2. Application.

The slope development district is created as a special zoning classification to be superimposed on other existing zoning districts contained in the zoning ordinance of the City of Huntsville. Except where in conflict with the specific requirements of the slope development district, the permitted and accessory uses and all other requirements shall be as determined by the regulations of the basic underlying district contained elsewhere. All requirements for the slope development district, where superimposed on other existing zoning districts otherwise contained in the zoning ordinance of the City of Huntsville, shall be uniform for each class or kind of building, structure or improvement throughout the slope development district.
(Ord. No. 96-159, 4-25-1996)

65.3. Zones of the slope development district.

The slope development district is hereby divided into two slope zones based on the increasing risk of instability and the decreasing safety factor associated with increasing slope as established by

the Slope Development Study, Huntsville, Alabama, prepared by Ground Engineering and Testing Service, Inc., 1989. The zones are defined as follows:

65.3.1. *Lower slope zone.* This zone shall include all areas of land within the boundaries of the slope development district that are not part of the upper slope zone.

65.3.2. *Upper slope zone.* This zone shall include all areas of land within the boundaries of the slope development district beginning at the elevation contour defining the start of the 20 percent slope and encompassing all contiguous slopes of 20 percent or greater. The upper slope zone boundary shall be computed according to the procedure described in section 65.1.3 herein, where a 25-foot vertical span of mountainside has a slope of 20 percent or greater. The upper slope zone may begin at the lower district boundary, may extend to the upper district boundary if present, or may create one or more enclosed areas delineated by a continuous extension of the upper slope zone boundary.

65.3.3. If a lot is cut by the boundary contour separating the lower and upper slope zones, then the lot shall be considered to be a part of that slope zone in which the majority of its area is located.

65.3.4. *Hazard zone.* This zone shall include all areas of land within the boundaries of the Slope Development District that exhibit any or all of the following geologic or man-made hazards:

(1) Pennington, shaley Upper Bangor, or Pride Mountain geologic formations;

(2) Colluvial deposits having a depth of five feet or greater or being contiguous to an off-site colluvial deposit that exceeds five feet in depth; and

(3) Evidence of mining operations (mine or quarry tailings, or similar geologic conditions).

65.3.5. For colluvial deposits present on a site to be removed from the hazard zone provisions, the following certification must be made a part of the site assessment map:

I, _____, the geotechnical engineer of record, having caused investigations to be performed and based on the findings of said investigations, do hereby certify that the colluvial deposits identified by location and extent on this map are less than five feet in depth and are not contiguous to any off-site colluvial deposit that exceeds five feet in depth.

_____ _____

Date Geotechnical Engineer of Record

65.3.6. No buildings, structures or improvements shall be constructed, erected or placed on any land having a hazard zone designation, except where:

(1) Such site has undergone additional geotechnical analysis and testing both upslope to where a potential landslide would begin and downslope to where a potential landslide would end, and

(2) The engineer of record places the following signed certification on the final subdivision plat or, in the case of a multifamily development, on the site plan:

I, _____ the engineer of record, certify that the proposed development shown hereon is designed in accordance with sound engineering standards and practices, and in accordance with all applicable development regulations. I further certify that I have caused prudent investigation, testing and inspections to be performed on all lands within the proposed development identified as hazard zone, as defined by the zoning ordinance of the City of Huntsville, Alabama, including geotechnical analysis and testing on all hazard zone lands and on lands upslope and downslope of the proposed development, and I have instructed the land surveyor as to those areas within the proposed development that fall within the hazard zone for inclusion in the development plats. Based upon the

investigation, testing and inspections performed, as defined and discussed in the geotechnical analysis and report dated _____ and submitted in connection herewith, and further based upon any remedial measures taken in connection with the hazards defined therein, I certify that, within acceptable geotechnical standards, development of the property as shown on the plat will not diminish the stability of the slope or otherwise increase the likelihood of landslide or other slope failure and that the buildable areas designated hereon can meet a minimum safety factor of 1.5 for stability.

_____ _____
Date Engineer of Record

(3) The owner of the property places the following signed certification on the final subdivision plat or, in the case of a multifamily development, on the site plan:

I, _____, owner/owners of the lands embraced hereon, hereby certify that I have caused investigation in accordance with sound engineering standards and practice to be made of hazard zone lands, as defined by the zoning ordinance of the City of Huntsville, Alabama, within the development as shown hereon. I further understand the potential and inherent danger of said lands and that landslides have originated in conditions that regularly exist on said hazard zone lands. With this knowledge, I hereby certify that I have caused all prudent measures to be taken in the design of the development as shown hereon, including an analysis of all lands upslope and downslope of the hazard zone lands, to assure that the site is safe for the proposed development, and within acceptable geotechnical standards the proposed development will not diminish the stability of the slope or otherwise increase the likelihood of landslide or other slope failure.

_____ _____
Date Owner

65.3.7. Where a subdivision or multifamily site contains unbuildable hazard zone land, then such land may be included in lots if:

(1) The specific hazard zone condition is identified and its extent is designated on the final plat or site plan;

(2) The area of the hazard zone land is restricted to remain undisturbed and be retained in its natural state;

(3) The area of the hazard zone land is so located that the lot or site can be developed without disruption to it; and

(4) A restricted use buffer extends a minimum of 25 feet beyond the edge of the hazard zone land.

(Ord. No. 96-159, 4-25-1996)

65.4. Density controls.

Within the boundaries of the slope development district, the following density requirements shall apply:

65.4.1.

Density Controls	*Lower Slope Zone*	*Upper Slope Zone*
Minimum required lot size	25,000 square feet	40,000 square feet
Maximum impervious cover per lot	15% of lot area	10% of lot area

Density Controls	*Lower Slope Zone*	*Upper Slope Zone*
Maximum impervious cover per subdivision	25% of subdivision area	25% of subdivision area
Maximum total building area	10% of lot area	8% of lot area
Maximum disturbed area per lot*	30% of lot area	20% of lot area
Minimum lot frontage	20 feet	
Minimum lot width	60 feet	
Minimum depth of front and rear yards	50 feet from major arterials 15 feet from other streets or lots	
Minimum width of each side yard	10 feet	

* See section 65.5.3.

65.4.2. *Application of impervious cover.* Impervious cover is the sum of the areas within the boundary of a site that is covered with a surface material or treatment that substantially prohibits or impedes the infiltration of water into the ground. Maximum impervious cover for a lot or subdivision shall not exceed the number of square feet derived by multiplying the land area of such lot or subdivision by the appropriate impervious cover percentage. In addition to other impervious cover, all driveways and prepared parking areas shall be counted as impervious cover as shall all area lying below the roof of any structure. Impervious cover is not transferrable from one lot to another.

65.4.3. *Nonresidential uses.* Where a nonresidential use adjoins a residential use, a buffer at least 30 feet wide must be maintained in a natural state along such residential boundary.

65.4.4. *Height limitations.* The maximum number of stories for single-family residential buildings is 2½ and building height shall not exceed 45 feet at any point as measured vertically from the natural grade prior to development to the highest point of the roof.

Building height for multifamily and nonresidential buildings shall not exceed 35 feet as measured vertically from the natural grade prior to development to the highest point of the roof. If roof-mounted mechanical or other equipment is present, such equipment shall be located or screened so as to not be visible from adjacent streets and properties; any such screening shall meet the applicable height limitation.

Chimneys and antennae shall be excluded from the above height limitations.

65.4.5. *Buildable area.* Where there is any proposed multifamily construction or any subdivision of land within the slope development district, a building site plan or final plat is required. The final plat or building site plan shall include:

(1) A clear delineation of the buildable area for each lot or building site. The buildable area shall satisfy all density requirements of the zoning ordinance as well as those regulations requiring setbacks from cultural and environmental features and from identified hazards.

(2) The buildable area shall be large enough to permit the use of the allotted amount of building area for the lot and be free of slopes in excess of 35 percent and of all hazard zone conditions unless accompanied by certifications as specified in section 65.3.6. If the buildable area contains slopes between 25 percent and 35 percent, the plat must state that foundation restrictions apply.

(3) A clear designation of the maximum amount of impervious cover in square feet allotted to each lot.

(4) A clear designation of the maximum amount of building area in square feet allotted to each buildable area.

(5) A clear designation of the minimum area of each lot, expressed in square feet, that must be retained in its natural state.

65.4.6. *Off-street parking requirements.* Two off-street parking spaces shall be provided for each residential unit.

Nonresidential parking spaces shall be as required by section 70.1, off-street parking.

65.4.7. *Permanent reservation of land.* Development within the slope development district is eligible for modified density controls when the following conditions are satisfied:

(1) At least 15 percent of the total area of the subdivision tract lying within the slope development district is permanently set aside prior to development to be held in its natural, undisturbed state except for hiking trails; and

(2) The land so restricted is the steepest, or the most hazardous, or the most environmentally sensitive portion of the tract, so that the land remaining for development is that most suitable and safest for development.

The unreserved portion of the tract lying within the lower slope zone may be developed according to the following density controls:

Optional Density Controls	*15% to 29.9% of Land Reserved*	*30% and Greater of Land Reserved*
Minimum required lot size	21,000 square feet	17,250 square feet
Maximum impervious cover per lot	18% of lot area	22% of lot area
Maximum impervious cover per subdivision	25% of subdivision area	25% of subdivision area
Maximum total building area	13% of lot area	16% of lot area
Maximum disturbed area per lot	34% of lot area	39% of lot area
Minimum lot frontage	20 feet	
Minimum lot width	50 feet	
Minimum depth of front and rear yards	50 feet from major arterials 15 feet from other streets or lots	
Minimum width of each side yard	9 feet	8 feet

(Ord. No. 96-159, 4-25-1996)

65.5. Development standards.

65.5.1. *Grading.*

(1) Natural slopes in excess of 35 percent shall not be graded except as needed to provide for utility service to developable areas of less than 35 percent slope and/or other officially adopted public facilities except that in no case shall any building or structure be allowed.

(2) Grading on natural slopes of 25 percent or greater shall only be permitted for the construction and installation of roads, utilities, and other limited foundation grading, which can be shown to be sensitive to the existing terrain. Proposed structures

on slopes of 25 percent to 35 percent shall be designed to conform to the terrain and shall utilize pier and beam, step, or other such foundations that require only limited excavation and filling. Areas of cut visible from any public right-of-way shall be screened by landscaping except in those cases where visible cuts in stable rock are impractical to screen.

(3) No cut and no fill shall be allowed on any lot except for:

(a) The construction of a primary use structure when the cut or fill is required for the construction of the building foundation, in which case the total area of such cut or fill, as measured from the exterior faces of the walls of the structure to the outer limits of the cut or fill, must be subtracted from the allotted amount of landscaped yard area as defined in section 65.5.3;

(b) The construction of a driveway or parking area to access the primary use structure, in which case the total area of such cut or fill, as measured from the outer edges of the driveway or parking area to the outer limits of the cut or fill, must be subtracted from the allotted amount of landscaped yard area as defined in section 65.5.3;

(c) The construction of utilities, provided all said areas of cut are restored to natural grade and revegetated to conform to the character of the surrounding natural terrain. In order to reduce grading disturbance during utility installation, all utilities shall be incorporated in common trenches, where practical, utilizing duct banks designed and constructed to current standards of Huntsville Utilities as the same may from time to time be amended; or

(d) The testing of land, as required by the regulations of the City of Huntsville, or other bona fide geotechnical or geological testing provided that a testing plan consistent with the provisions of the subdivision regulations of the City of Huntsville is submitted to and approved by the zoning administrator prior to any cut or fill operation.

(4) Mass grading of hilltops, ridges, and ravines shall be prohibited.

(5) All slopes to be stabilized shall conform to the surrounding natural terrain and shall be revegetated so as to conform to the natural character of the surrounding area.

65.5.2. *Environmental features.*

(1) Road alignment shall follow natural terrain wherever possible and no unnecessary cuts or fills shall be allowed for the sole purpose of creating additional lots or building sites.

(2) A restricted use area shall extend a minimum of 50 feet from the following features:

(a) Landslides. Setback measured from mapped boundary of landslide.

(b) Perennial streams and major drainageways including, but not limited to, all streams and drainageways delineated by the U.S. Geological Survey and Tennessee Valley Authority on the 7.5 minute quadrangle topographic map series. Drainageways that have been modified by man or by natural processes so that they are different from those delineated on the 7.5 minute quadrangle maps shall be set back from as de-

fined herein. In addition, some man-made drainageways as designated by the city engineer shall be set back from as defined herein.

The 50-foot setbacks shall extend landward from the banks or normal high water points of the drainageways.

(c) Bluffs of greater than 20 feet of relief. Setbacks shall extend from a line defining the top and bottom of said bluff.

(3) A restricted use area shall extend a minimum of 25 feet from the following features:

(a) Cave entrances. Setback measured from edge of cave entrance.

(b) Sinkholes. Setback measured from edge of those sinkholes that exhibit three feet or greater depth of closed depression.

(c) Perennial springs. Setback measured from perimeter of spring.

(d) Abandoned quarries. Setbacks shall extend from the top and bottom of quarry face.

(e) Historical and archeological sites. Setbacks shall extend from the boundaries of significant historical or archeological sites as determined by the Alabama Historical Commission.

(f) Wetlands. Setbacks shall extend from the boundary of the wetland.

(4) Areas within the above minimum setbacks shall be retained in their existing state and be restricted from all development except for hiking trails, provided such trails neither create nor increase a public hazard, and except for certain minimal grading within said setback, provided the following conditions are met:

(a) Minimal grading is required to construct public utility service and/or roadways to adjacent properties; and

(b) No technically feasible alternative route or construction method exists.

(5) The site shall be suitable for development in the manner proposed, without hazards to persons or property on or off the tract, from probability of flooding, erosions, subsidence or slipping of the soil, or other geologic dangers. Condition of soil, ground water level, drainage, and topography shall be appropriate to both kind and pattern of such intended development.

(6) The natural terrain shall not be disturbed, cut, filled, graded or rearranged by either the developer or subsequent property owners beyond that necessary for the construction of buildings and infrastructure to the extent herein permitted.

65.5.3. *Landscaping.* It is desirable that yards be maintained in a condition close to their natural state in order to reduce the potential negative impacts of stormwater runoff, erosion and sedimentation, chemical fertilizer pollution, and irrigation that are commonly associated with the establishment of lawns and other plantings not native to the mountain slopes; however, a landscaped yard may be created provided the following conditions are met:

(1) In the lower slope zone, 70 percent of the lot shall be retained in its natural state.

(2) In the upper slope zone, 80 percent of the lot shall be retained in its natural state unless the lot lies on a slope of 25 percent or greater, in which case the entire lot beyond the allotment for impervious cover shall be retained in its natural state.

(3) Land lying within utility and drainage easements that is disrupted by installation or maintenance of public improvements shall not be counted as disturbed lot area for the purpose of section 65.5.3.

(4) Natural state shall mean the original condition of the land prior to any development or other human disturbance. No grading, excavating, or filling and no construction of roads, driveways, parking areas or structures shall be allowed. No tree cutting shall be allowed except for sick or damaged trees or trees that create a health or safety hazard. Unpaved hiking trails may be permitted as may additional plantings of native trees, shrubs and wildflowers that would be compatible with and enhance the natural environment.

(5) The allotted area of landscaped yard must be decreased by the amount of any areas of cut or fill utilized in construction of the primary use structure and/or driveway/parking areas that have not been finished with impervious cover or returned to their natural state through revegetation that conforms to the character of the surrounding natural terrain.

(6) The majority of the landscaped area should be located on that portion of the lot which is upslope from the primary use structure in order to minimize the harmful effects of increased pollution, runoff and erosion on downslope properties.

(7) Fill material that is imported to provide a base for landscape plantings shall be limited to the minimum amount necessary and no colluvial soil shall be used for fill.

(8) Turf grass and other imported ground covers shall not be planted on colluvial soil.

(9) Trees may be removed:

(a) Within rights-of-way to allow road construction;

(b) Along easements if necessary for construction of said utility;

(c) As necessary to conduct geotechnical testing after approval of the testing plan by the zoning administrator.

(d) Within the areas of cut or fill required for construction of primary use structures, driveways and parking areas;

(e) On that portion of a lot not required to be maintained in its natural state; and

(f) To eliminate sick or damaged trees or trees that create a health or safety hazard.

(10) Tree topping and clear cutting are prohibited within the slope development district.

(Ord. No. 96-159, 4-25-1996; Ord. No. 07-460, § 5, 6-28-2007)

65.6. Lots of record and existing structures.

65.6.1. *Lots of record.* Where a lot, as defined in section 3.1, exists wholly within the slope development district or its buildable area is cut by the slope development district boundary and it was recorded in the office of the probate judge in the county where said lot is situated prior to the time of adoption of this article, then such lot is excluded from the regulations of this article, except for:

(1) Building heights for all single-family residential lots of record shall not exceed more than 45 feet at any point as measured vertically from the natural grade prior to development to the highest point of the roof. The number of stories permitted shall not exceed 2½ stories.

Building heights for all multifamily and nonresidential lots of record shall not exceed 35 feet (35') at any point as measured vertically from the natural grade prior to development to the highest point of the roof.

(2) Certification to the manager of inspection prior to the issuance of a building permit that the proposed building site and structure can meet a minimum safety factor of 1.5 for stability;

(3) Certification to the manager of inspection prior to the issuance of a building permit that the proposed site can meet a minimum safety factor of 3.0 for bearing capacity of the underlying soil; and

(4) Certification to the manager of inspection prior to the issuance of a certificate of occupancy that the completed building or structure meets a minimum safety factor of 1.5.

65.6.2. *Existing structures.* Where a lawful structure exists within the slope development district or has been issued a building permit by the manager of inspection prior to the date of adoption of this article, then such structure is excluded from the regulations of this article except when an addition is undertaken that would enlarge the footprint of the existing structure. In such case, the manager of inspection may require certifications as defined in section 65.6.1 above.

(Ord. No. 96-159, 4-25-1996)

65.7. Variances and special exceptions.

Applications for variances and special exceptions from the requirements of this article shall be submitted to the city zoning administrator, who shall forward such application to the city engineer, who shall review the application and report his findings to the zoning administrator for a decision. An appeal of the zoning administrator's decision may be filed with the board of zoning adjustment as provided in article 92 of the zoning ordinance of the City of Huntsville. Variances shall only be issued upon a determination that an unnecessary hardship exists on the subject property, unique or different from that shared or suffered by adjacent or similarly situated property within the slope development district, or as otherwise permitted by section 92.5.4 of this article and by Code of Ala. 1975, § 11-52-80. Special exceptions shall be granted only as provided by section 92.5.2 and section 92.5.3 of this article.

(Ord. No. 96-159, 4-25-1996; Ord. No. 07-460, § 5, 6-28-2007)

65.8. Severability.

If any section, clause, provision, or portion of this article shall be held to be invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect any other section, cause, provision or portion of this article which remains.

(Ord. No. 96-159, 4-25-1996)

ARTICLE 66. MEDICAL 2 DISTRICT REGULATIONS

Purpose. The purpose of this medical 2 district is to provide a protective district for the harmonious development of medical facilities. The medical 2 district is intended to be protected from encroachment by land uses adverse to the location, operation, and expansion of medical use development and surrounding residential development.

These medical 2 district regulations are intended to promote the health, safety, morals, welfare, comfort, and convenience of the inhabitants of this district and its environs.

Within the medical 2 district as shown on the official zoning maps of the city, the following regulations shall apply:

66.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Accessory structures and uses to those permitted herein.

Artificial limb and brace, therapeutic establishments.

Farmers markets.

Farming and other agricultural uses.

Federal, state, county, or city owned or operated buildings and uses.

General and private hospitals.

General office uses and office buildings.

Medical, dental, optical and audiology clinics.

Medical research, experimental and testing laboratories.

Medical, surgical and dental supply houses.

Nursing homes, rest homes, and convalescent homes, skilled nursing care facilities, assisted living centers and acute long-term care facilities.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

Rehabilitation services.

Retail sales and consumer service establishments accessory to any permitted use—provided that such commercial use shall not occupy more than 15 percent of the total floor area of the building in which such use is located.

Surgery centers.

(Ord. No. 005-860, § 1, 11-22-05; Ord. No. 09-1053, § 1, 12-17-2009; Ord. No. 15-406, § 2, 7-23-2015)

66.2. Density regulations.

The following yard and density requirements shall be observed:

66.2.1. Minimum lot area: 25,000 sq. ft.

66.2.2. Minimum required depth of front yard:

From major arterials (see section 73.15): 50 feet.

From other streets: 30 feet.

66.2.3. Minimum side yard: All buildings shall have a side yard of not less than ten feet on any side. When the side lot line abuts a residential district, a side yard of 100 feet is required. Off-street parking spaces are not permitted in the first 50 feet of the required side yard as measured from a residential district.

66.2.4. Minimum rear yard: None, except that when the rear of the lot abuts a residential district, a rear yard of 100 feet is required. Off-street parking spaces are not permitted in the first 50 feet of the required rear yard as measured from a residential district.

66.2.5. Buildings shall not cover an area greater than 60 percent of the total tract upon which the buildings are located.

66.2.6. Maximum height: Maximum number of stories is five and maximum height is 75 feet.

66.2.7. Street access and frontage: Each lot shall have a minimum frontage of 50 feet on a public road; provided however, the Planning Commission may approve a lesser frontage to a minimum of 20 feet for lots located on cul-de-sacs or on street curves or having other extraordinary characteristics if the lot width at the building line measures at least 50 feet.

(Ord. No. 005-860, § 1, 11-22-05)

66.3. Required yards and landscaped areas.

66.3.1. The required front yards of all developed parcels shall be landscaped with trees, shrubs and vegetative ground covers and shall be maintained in a manner as to be neat in appearance when viewed from any street or adjacent property. A minimum of one tree per thirty-five feet of boundary, or part thereof, shall be planted and be well distributed throughout the required front yard. Required trees shall be of locally adapted species, 50 percent of which shall be of a type expected to reach 35 feet in height under normal growing conditions.

66.3.2. All off-street parking areas shall be screened to a minimum height of 36 inches, where practically feasible, from view from streets and adjacent properties by the use of earth berms and/or landscape materials. Landscape materials used for screening shall be of locally adapted species and shall be a minimum of 24 inches in height and spread at the time of installation.

66.3.3. Where required side or rear yards are adjacent to a residential district, the first 15 feet as measured from the residential district shall be landscaped with a buffer of screen planting as defined herein.

66.3.4. Exterior storage of materials shall be contained by solid or opaque fencing of a height sufficient to conceal items being stored. Fencing shall be of a material similar to and compatible with the exterior materials of the primary buildings. All exterior storage and

fencing shall be maintained in such a manner as to be neat in appearance when viewed from any street. No exterior storage or display of materials is permitted in the required front yard. Exterior storage is not permitted within 50 feet of a residential district. Exterior storage of materials is not permitted within 200 feet of a residential district unless enclosed in a solid or opaque fence of at least eight feet in height.
(Ord. No. 005-860, § 1, 11-22-05)

66.4. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.
(Ord. No. 005-860, § 1, 11-22-05; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

66.5. Off-street parking and loading requirements.

Except as provided for herein all off-street parking and loading requirements shall be provided for as set forth in article 70 hereof.

66.5.1. Driveways and vehicular access ways, except as necessary to cross a required front yard, are not permitted in a required front yard.

66.5.2. Parking areas are not permitted in a required front yard.

66.5.3. Required parking for a complex of buildings under common ownership on a common lot shall be calculated based upon designated parking for each building shown on the plans and permit application.

66.5.4. Lighting of off-street parking and vehicular use areas is required in accordance with section 71.6, PVA lighting requirements.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.
(Ord. No. 005-860, § 1, 11-22-05; Ord. No. 09-430, § 28, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

66.6. Sidewalk requirement.

Six-foot-wide sidewalks shall be required along the streets of parcels to be developed. Sidewalks shall be so designed as to tie to existing sidewalks within the area.
(Ord. No. 005-860, § 1, 11-22-05)

66.7. Underground wiring requirement.

All power, communication, and other wiring hereafter installed in a medical 2 district shall be placed underground.
(Ord. No. 005-860, § 1, 11-22-05)

66.8 Medical 2 district plan.

66.8.1 Prior to issuance of any building permit, any property owner desiring to subdivide or develop land within a medical 2 district, as shown on the official zoning maps of the city, must submit to the city planner for approval a development plan for each parcel or tract of land proposed to be developed. Such development plan shall have shown thereon the following information:

(1) The specific location of the tract to be developed or subdivided within said district and all land and development lying within 500 feet of the tract or parcel of land to be developed.

(2) Names and addresses of all land owners whose property adjoins said parcel or tract, as shown in the tax assessor's records of Madison County and/or Limestone County, Alabama.

(3) The location of all buildings proposed to be constructed within the tract.

(4) Existing and proposed accessways and roads, public and private.

(5) A generalized drainage plan showing existing and proposed drainage.

(6) Location of all existing and proposed public utilities as the same relates to the development of the property.

(7) Location of all off-street parking spaces and loading facilities.

(8) Location of proposed screen planting, walls, and garbage storage facilities.

(9) Location of all existing and proposed easements.

(10) Location of all sidewalks.

66.8.2 The planning director shall approve said development plan for a specified medical 2 district improvement, upon finding that the same complies with these regulations. Notwithstanding other provisions of this article, all subsequent development on said tract or parcel shall be approved without resubmission in all cases where the proposed improvements substantially conform to the approved development plan.

(Ord. No. 005-860, § 1, 11-22-05)

CHAPTER VII. ADDITIONAL REGULATIONS

ARTICLE 70. OFF-STREET PARKING AND LOADING REQUIREMENTS*

Required parking and loading spaces as set forth below shall be located entirely off of street rights-of-way; shall be properly drained and shall be surfaced for all-weather use equivalent to at least four inches of crushed limestone unless the zoning district contains paving requirements specific to that district; and shall have an unobstructed maneuvering space and access lanes of adequate width leading to a street or alley. No parking shall be permitted other than in prepared parking areas. Parking spaces shall contain not less than 180 square feet.

(Ord. No. 09-430, § 1, 7-9-2009)

*__Editor's note—__Ord. No. 09-430, § 1, adopted July 9, 2009, repealed Art. 70, §§ 70.1, 70.2 and enacted provisions designated as a new Art. 70, §§ 70.1, 70.2 to read as herein set out. See also the Code Comparative Table.

__Cross reference—__Stopping, standing and parking, § 25-201 et seq.

70.1. Off-street parking.

70.1.1. The following off-street parking spaces shall be provided and maintained on land owned by the owner or owners of the property for each building or use they are intended to serve. In the case of mixed or joint uses, the parking spaces required shall equal the sum of the requirements of the various uses computed separately.

70.1.2. Where the required number of parking spaces equals 15 or more spaces or contains at least 5,000 square feet, then article 71, off-street parking and vehicular use area landscaping requirements shall apply unless the zoning district contains specific landscaping requirements for parking areas; in that case, only section 71.6, PVA lighting requirements shall apply. Apartment developments having 15 or more spaces or at least 5,000 square feet of PVA shall be subject to the provisions of section 71.6.

70.1.3. *Minimum parking space requirements.*

Single-family residence:	
In Residence 1 and Residence 1-A districts:	Two spaces for each dwelling unit
In other districts:	One space for each dwelling unit
Two-Family Residence:	One space for each dwelling unit
Apartments and Independent Living Facilities:	One and one-half spaces for each dwelling unit
Assisted Living Facilities:	One space for each two dwelling units
Residential Dwelling Units above commercial and office spaces for each dwelling uses:	One and one-half unit
Ambulance services:	At least two spaces for each ambulance vehicle controlled
Animal boarding facility:	At least one space for each 600 square feet of building floor area
Animal grooming salon:	At least one space for each 400 square feet of building floor area
Animal hospital:	At least one space for each 400 square feet of building floor area

Animal shelter:	At least one space for each 600 square feet of building floor area
Animal training facility:	At least one space for each 1,500 square feet
Automobile, boat, motorcycle and machinery sales and rentals:	At least one space for each 400 square feet of enclosed floor area for the first 25,000 square feet and one space for each 600 square feet of enclosed floor area in excess of 25,000 square feet
Automobile service and repair:	At least one space for each employee, plus three spaces for each auto service bay
Banks, credit unions and financial institutions:	At least one space for each 400 square feet of floor area
Barber/Beauty Salons and Spas:	At least three spaces per station
Bowling alley:	At least five spaces for each alley
Business, industrial or trade school:	At least one space for each 50 square feet of classroom area
Churches or other similar places of worship:	At least one space for each four seats based on design capacity
Commercial heliports and/or helipads:	At least three spaces for each helicopter owned, rented, or under control
Convenience store:	At least one space for each 300 square feet of floor area
Dance academy or music studio:	At least one space for each 100 square feet of floor area
Data storage facility:	One space for each 750 square feet of floor area for employee facilities and one space for each 4,000 square feet of floor area for data halls
Daycare, kindergarten or nursery school:	At least one space for each five children plus one space for each 500 square feet of floor area plus a passenger loading space situated so that children will not have to cross a parking area or lanes of traffic
Fraternities, sororities:	At least one space for each five beds
Funeral home:	At least one space for each 50 square feet of public area, plus one space for each funeral vehicle, plus one space for each employee
Golf course:	At least five spaces per golf hole
Golf driving range:	At least one space per golf tee
Health and athletic clubs:	At least one space for each 350 square feet of floor area
Hospital:	At least one space for each bed and at least one space for each unit of doctor's and nurse's quarters
Hotel:	At least one space for each room
Hotel with restaurant, bar or meeting rooms:	Same as hotel without these facilities plus one space for each 125 square feet of customer service area in restaurant, bar, and meeting rooms
Laundromat:	At least one space for each two machines
Libraries, art galleries and museums:	At least one space for each 500 square feet of floor area

Managed care facilities, nursing homes, rest homes, convalescent homes, skilled nursing care facilities and acute and long-term care facilities:	At least one space for each four beds
Manufacturing or other industrial use:	At least one space for each one employee on the largest shift or, where the number of employees is not known, at least one space for each 500 square feet of the first 20,000 square feet of gross floor area; and at least one space for each 1,000 square feet for over 20,000 square feet of gross floor area but less than 120,000 square feet of gross floor area; and at least one space for each 2,000 square feet for over 120,000 square feet of gross floor area.
Medical or dental clinic; doctor or dentist's office:	At least one space for each 200 square feet of floor area
Medical laboratories and medical, surgical and dental supply houses:	At least one space for each 300 square feet of floor area
Miniature golf course:	At least two spaces per hole
Motel, tourist court or home, boarding house, rooming house:	At least one space for each room or unit offered for rent
Motel with restaurant, bar or meeting rooms:	Same as motel without these facilities plus one space for each 125 square feet of customer service area in restaurant, bar, and meeting rooms
Neighborhood clubhouse:	At least one space for each 500 square feet of floor area plus additional parking as required
Nursery or greenhouse:	At least one space for each 1,000 square feet of total sales area
Offices and office buildings:	One space for each 500 square feet of gross floor area
Post office:	At least one space for each 400 square feet of floor area
Private club, bar, tavern, lounge, pub, brewpub or nightclub:	Parking spaces equal in number to at least 60 percent of the maximum occupancy rating
Rehabilitation services and surgery centers:	At least one space for each 300 square feet of floor area
Restaurants, delicatessens, coffee shops and cafés:	Parking spaces equal in number to at least 50 percent of the seating capacity
Retail sales and services (unless otherwise specified):	At least one space for each 300 square feet of floor area
Self-service storage facility:	At least three spaces, plus one space for each 75 storage units
School, elementary through middle school:	At least one space for each 50 students based on design capacity plus one space for each three classrooms
School, high school through college:	At least one space for each three students based on design capacity plus one space for each three classrooms
Skating rink:	At least one space for each 200 square feet of floor area

Swim and tennis clubs:	At least one space for each 75 square feet of swimming pool water surface area and two spaces for each tennis court
Theatre, auditorium, stadium, arena, concert hall, performing arts center, coliseum, cinema or other place designed to draw an assembly of persons at a scheduled time:	At least one space for each four seats or one space for each 50 square feet of gross floor area of performance and seating area when there is no fixed seating
Trailer parks, mobile home parks, camping trailer courts:	At least one parking space for each trailer or mobile home space
Warehousing, storage or handling of bulk goods:	At least one space for each 1,000 square feet of the first 20,000 square feet of gross floor area; and at least one space for each 2,000 square feet of over 20,000 square feet of gross floor area but less than 120,000 square feet of gross floor area; and at least one space for each 4,000 square feet of over 120,000 square feet of gross floor area.

(Ord. No. 09-430, § 1, 7-9-2009; Ord. No. 16-491, § 3, 8-25-2016; Ord. No. 17-953, § 1, 1-25-2018; Ord. No. 18-339, § 1, 6-28-2018)

70.2. Off-sreet loading requirements.

All commercial and industrial buildings and uses are required to have adequate off-street loading facilities, as needed, and to have sufficient off-street parking spaces for all vehicles owned, leased, rented and controlled by such establishment and to have sufficient off-street parking spaces for all employees, visitors and customers of such establishment.
(Ord. No. 09-430, § 1, 7-9-2009)

70.3. Electric vehicle readiness requirements.

Where the required number of parking spaces equals 100 or more spaces then two electric vehicle capable spaces shall be identified, and one additional space shall be identified per 50 thereafter. The following standards are applicable:

70.3.1. These locations shall be installed with electrical panel space and load capacity to support a branch circuit and necessary raceways, both underground and/or surface mounted to support electric vehicle supply equipment (EVSE), which shall meet the electrical and conduit regulations and specifications as established by the governing electrical utility provider ; and

70.3.2. Electric vehicle capable spaces shall be located at a minimum distance of 50 feet from any structure.

The above regulations do not require the installation of an electric charging station; however, it provides for a natural progression and location of appropriate infrastructure as technology advances.
(Ord. No. 24-287, § 1, 5-23-2024)

ARTICLE 71. OFF-STREET PARKING AND VEHICULAR USE AREA (PVA) LANDSCAPING REQUIREMENTS*

71.1. Purpose.

The purpose of this chapter [article] is to:

(1) Require planting and preservation of trees and other landscape elements to improve the appearance of paved and unpaved off-street parking and vehicular use areas (PVAs);

(2) Establish criteria for off-street parking areas in order to protect and preserve the appearance, character, and value of surrounding properties, and thereby promote the general welfare, safety, and aesthetic quality of the City of Huntsville;

*__Cross references—__Stopping, standing and parking, § 25-201 et seq.; vegetation, ch. 27.

(3) Partition large PVAs with planting islands and peninsulas;

(4) Insulate public rights-of-way and adjoining properties from noise, glare, and other distractions originating from off-street PVAs;

(5) Provide safer vehicle and pedestrian circulation within off-street PVAs and along public rights-of-way;

(6) Protect streams and watercourses from excessive runoff and erosion, and to replenish underground water reservoirs by using natural drainage and infiltration systems.

(7) Establish lighting levels designed to promote visual surveillance, reduce the potential for criminal activity, and increase security.

(Ord. No. 99-1020, § 16, 1-13-2000)

71.2. Scope of application.

71.2.1. *General requirements and landscape plans.* Any off-street PVA (or system of PVAs) totaling 15 or more parking spaces or containing 5,000 square feet or more, on a single parcel of land, must be constructed in accordance with landscape and lighting plans complying with this article. Perimeter landscaping and lighting are required for all such PVAs; in addition, interior landscaping is required for PVAs having 40 or more parking spaces, or 12,000 or more square feet in area.

71.2.2. *Existing paved or unpaved PVAs.* When a lawful paved or unpaved off-street PVA already exists at the effective date of this article, such area may continue until it is expanded by more than five percent of its existing parking capacity as calculated pursuant to this article; or until the structure on the property is enlarged, relocated, or demolished for a new structure; or until a new or additional structure is constructed on the property; or until redevelopment begins on property that has been vacant for at least six months; at which time the entire PVA must be brought into conformity with requirements for new construction.

71.2.3. *Parking garages and underground PVAs.* Only perimeter landscaping is required for parking garages; landscaping requirements for adjoining PVAs at or near the grade of surrounding land will be calculated separately. Wholly underground PVAs are exempt from the landscaping requirements of this article but subject to the lighting requirements of section 71.6.

71.2.4. *Minimum compliance.* The requirements of this article are minimum standards.

(Ord. No. 99-1020, § 16, 1-13-2000; Ord. No. 01-746, § 1, 10-25-2001)

71.3. Definitions.

Accessway. One or more driving lanes intended for use by vehicles entering or leaving a PVA.

Approving authority (for landscape plans). The Manager of Inspection of the City of Huntsville.

Berm. A planted or landscaped elevated ground area between two other areas, generally designed to restrict view and to deflect or absorb noise. Berms with ground cover that necessitates mowing shall have a slope not greater than one foot of rise per three feet of run.

Caliper. Trunk diameter of a tree used in landscaping, measured six inches above ground for trees up to four-inch caliper, and 12 inches above ground for larger trees.

Crown. The branches and leaves of a tree or shrub with the associated upper trunk.

Deciduous plants. Those that shed their leaves during their dormant season and produce new leaves the following growing season.

Evergreen plants. Those that retain their leaves during their dormant season.

Footcandle. A measure of light striking a surface one square foot in area on which one unit of light (lumen) is uniformly distributed.

Ground cover. Plants, mulch, gravel, and other landscape elements used to prevent soil erosion, compaction, etc.

Interior landscaping. Treatment of grade, ground cover, vegetation, and ornamentation within a PVA.

Island. An interior landscaping feature surrounded on all sides by driving and/or parking surfaces.

Landscape element. A plant material (living or nonliving) or an ornamental material (river rock, brick, tile, statuary, etc.) differentiated from surrounding PVA surfacing materials.

Luminaire. A complete lighting unit that consists of one or more lamps and ballast, if needed, together with other parts designed to distribute light, position and protect lamps, and connect lamps to the power source.

Mulch. A material (pinestraw, bark chips, wood chips, etc.) placed on the ground to stabilize soil, protect roots, limit weed growth, and otherwise promote tree and shrub growth by simulating the role of natural forest leaf-litter.

Mulch bed. An area, generally bordered by a retaining device, with a covering of mulch over the soil.

Off-street parking and vehicular use area (PVA). An area, other than on public right-of-way, designated for the parking and movement of vehicles.

Parking garage. A structure used for parking of vehicles and having one or more parking levels above the grade of surrounding land.

Parking space. An area marked for the parking of one vehicle.

Peninsula. An interior landscaping feature attached on only one side to perimeter landscaping, buildings, etc., and surrounded on all other sides by PVA.

Perimeter landscaping. Treatment of grade, ground cover, vegetation, and ornamentation between a PVA and adjoining properties and/or rights-of-way, but excluding landscaping between a PVA and buildings on the same property.

PVA. See off-street parking and vehicular use area.

Shrub. A woody plant, generally multi-stemmed, of smaller stature than a tree.

Stem. See trunk.

Tree. A woody plant, generally with no more than one or two principal stems.

Trunk. A principal upright supporting structure of a tree or shrub.

Underground PVA. A parking area completely covered by a structure or by grass or other landscaping elements.

Visibility triangle. An area of critical visibility defined by chapter 25, article IX, visual obstructions, in which landscaping is restricted in the interest of vehicular traffic safety.
(Ord. No. 99-1020, § 16, 1-13-2000)

71.4. General PVA landscaping requirements.

Landscaping of PVAs when required shall be of two types as described below: Perimeter landscaping and interior landscaping, and shall conform to landscape plans submitted and approved in accordance with the requirements of this article.

71.4.1. *Landscape plan requirements.* A detailed landscape plan indicating the number of parking spaces, the overall amount of PVA area, the amount of interior landscaping area, and the extent of perimeter landscaping shall be submitted and approved prior to issuance of a building permit. Landscape plans submitted under this article shall include information as listed below:

(1) General information, including date, north arrow, and scale of one inch to no more than 50 feet; all property lines, locations of all existing and proposed easements and rights-of-way; existing and proposed topography, drawn at a maximum contour interval of five feet and indicating drainage channels; the zoning designations of the site itself and all adjacent properties; the names, addresses, and telephone numbers of developers, architects,

and owners of the property for which the plan is designed; and the name and business affiliation of the person preparing the landscape plans.

(2) Construction information, including the locations of buildings, parking spaces and vehicular use areas; utility fixtures, including lightpoles, power and service poles, aboveground pedestals (low-voltage) and pad-mounted (high-voltage) fixtures, underground electrical, communications, and television cables and conduits; hose bibs, sprinkler systems, meters, control boxes, etc.; and the amount (square feet) of PVA and intended surface treatments; and the total amount (square feet) of interior landscaping in peninsulas and islands.

(3) Landscaping details, including the locations, caliper, species (common name), and intended treatment (move, remove, or save) of existing trees eight inches or larger in caliper; locations, dimensions and treatments of all perimeter and interior landscaping areas (islands and peninsulas).

(4) A schedule of all new and existing plants proposed for landscaping, including size (caliper and height, container size, etc.), condition (bare-

root, balled-and-burlapped, container-grown, or preexisting), common names and botanical names (genus, species, and variety) of trees, shrubs, and ground cover, and the type and amount of turf grasses.

71.4.2. *Perimeter landscaping requirements.* For any PVA of 15 or more parking spaces or totaling 5,000 square feet or more, perimeter landscaping according to these standards must be provided within the property lines between the PVA and adjoining properties and public rights-of-way. Planting areas existing in the public right-of-way or on adjoining property shall not count toward the required perimeter landscaping area.

(1) Perimeter landscaping areas shall be at least five continuous feet in depth, excluding walkways, measured perpendicularly from the adjacent property line or right-of-way to the back of curb or pavement edge.

(2) Accessways through perimeter landscaped areas, between PVAs and public rights-of-way and between adjacent PVAs, shall conform to the following standards:

	Type of Accessway	
	One-way	*Two-way*
Maximum width*	30 feet	40 feet
Maximum number of accessways** per full 100 feet of right-of-way frontage or common PVA boundary	2	1

*The width of accessways may be subtracted from the perimeter dimension used in determining the number of trees required.

**Accessways for sites must have specific approval from the city public works services department, department of parking and public transit, and, if fronted on a state highway, the State of Alabama Highway Department.

(3) Perimeter landscaping shall include at least an average of one tree and six shrubs per full 50 linear feet of perimeter requiring perimeter plantings (less accessways); shrubs are optional in areas where a berm at least three feet in height is used. Trees and shrubs shall be well-distributed, though not necessarily evenly spaced.

(4) Landscaping at driveways and street intersections shall conform to chapter 25, article IX, visual obstructions, and section 73.10, corner visibility, hereof.

71.4.3. *Interior landscaping requirements.* Planting islands and/or peninsulas shall be provided for any PVA of 40 or more parking spaces or 12,000 or more square feet (not including the area of perimeter landscaping and not including the area of any plantings between the parking lot and buildings), with dimensions and arrangements as given below:

(1) The minimum area of required interior landscaping shall be determined by the following formula:

$$\text{Min Interior Landscape Area} = \text{Total PVA Area (sq. ft.)} \times \frac{[1.826 + (0.00435 \times \text{total number of parking spaces planned})]}{100}$$

... up to a maximum requirement of four percent of PVA area for PVAs containing 500 or more parking spaces. No interior landscaping is required for PVAs containing fewer than 40 parking spaces or less than 12,000 square feet.

(2) Each island or peninsula, to count toward the total interior landscape requirement, shall be at least 100 square feet in area; however, the maximum contribution of any individual island or peninsula to the total interior landscaping requirement shall be 1,000 square feet.

(3) Islands and peninsulas must be at least five feet in their least dimension, measured from back of curb to back of curb.

(4) In the case where the loading, storage or vehicular access requirements of a particular use make the interior landscaping impracticable, then the requirements for interior islands and peninsulas may be waived provided that an equivalent area is added to the landscaping elsewhere and is in addition to the landscaping otherwise required on the site.

(5) The interior landscaped area shall contain at least an average of one tree and four shrubs per 200 square feet of landscaped area. Each island or peninsula shall contain at least one tree.

71.4.4. *Credit for existing plant materials.* Each existing tree meeting the following criteria may count, at the option of the owner, for two of the trees in its class (interior or perimeter) required in this section if other landscaping requirements are met, and if it:

(1) Has a minimum caliper of three inches;

(2) Is not one of the following species hereby determined to be unacceptable for parking lot landscaping:

Large Trees

Boxelder
Silver maple
Tree-of-Heaven
Catalpa
Sycamore
Cottonwood
true poplars
Native elms (American, winged, cedar, slipper, and September)
Colorado blue spruce
Red spruce
Live oak
Laurel oak

Medium Trees

Camphor
Cutleaf European birch
Silktree (mimosa)
Chinaberry
Yellowwood
Princesstree (Paulownia)
Slash pine
Eastern white pine
Willows
Sassafras

Large Trees

Mulberry
Siberian elm

Small trees

Sumacs

(3) Is at least two feet from the nearest planned curb or standard protective wheel stop and is within a planned planting of at least 100 square feet;

(4) Has a live crown at least 30 percent of the total tree height and is free from serious root, trunk, and crown injury;

(5) Is indicated on the landscaping plan as a tree "to be saved"; and

(6) Is situated so that it can be incorporated into a planned perimeter landscaping area, island, or peninsula with minimal grade cut or fill; and is protected during all prelandscaping phases of construction by a durable physical barrier excluding all vehicles, equipment, materials, and activities from the area that is to become a part of this landscaped area.

71.4.5. *Inspection checklist.* A checklist generally reflecting the requirements shall be devised by the planning department and shall be kept up to date, used in reviewing landscape plans, and made available to interested parties as a supplement to administration of this article.

(Ord. No. 99-1020, § 16, 1-13-2000; Ord. No. 07-460, § 6, 6-28-2007; Ord. No. 09-430, § 2, 7-9-2009)

71.5. Plant materials and installation requirements.

71.5.1. *Trees and shrubs.* All trees and shrubs planted (in addition to any existing trees allowed under "existing plant materials") in required perimeter and interior landscaped areas shall:

(1) (For trees) Be of species other than those determined by this section as unacceptable for parking lot landscaping.

(2) (For trees and shrubs) Conform to the minimum size standards in Table 1, based

on the American Standard for Nursery Stock, ANSI Z60.1-1980, published by the American Association of Nurserymen and approved by the American National Standards Institute on October 27, 1980, as follows:

TABLE 1. MINIMUM SIZE STANDARDS FOR PLANTING STOCK

Shade and Flowering Trees	*Min. Size Requirements*
Type 1, Shade trees (e.g., Red maple, tulip poplar)	2.5″ caliper, 12 ft. height range, with 16 ft. max. height
Type 2, Shade trees (e.g., Goldenrain tree, Southern Magnolia	1.5″ caliper, 6′8″ to 8′0″ height range, with 9′4″ max. height
Type 3, Small upright trees (e.g., Redbud, Crabapple)	1″ caliper, 6 to 7 ft. height range
Type 4, Small spreading trees (e.g., Flowering Dogwood, Star Magnolia)	5 to 6 ft. height range
Coniferous Evergreens	
Type 4, Pyramidal (e.g., Deodar Cedar, Pine species)	5 to 6 ft. height range
Shrubs	
All classes	Perimeter landscaping: 24″ min. height
Interior landscaping: 15″ min. height or 15″ min. spread	

(3) (For trees and shrubs) Be planted within a bed of mulch or ground cover other than turfgrass, or be protected by some barrier to damage from vehicles and maintenance equipment.

(4) (For trees) Be spaced no closer than ten feet to count toward the required ratio between perimeter and number of trees; such trees need not be evenly spaced along perimeter landscaping areas, and trees in excess of the minimum requirement may be closer than ten feet apart.

71.5.2. *Grass or other permanent ground cover.* [Grass and other permanent ground cover] shall be installed and maintained on all parts of each landscaped area.

Effective measures shall be taken to control erosion and stormwater runoff through the use of mulches, ground cover plants, erosion-control netting, etc.

Ground cover may include shrubs and low-growing plants such as Liriope, English ivy (Hedera helix), periwinkle (Vinca minor), and similar materials. Ground cover may also include nonliving organic materials such as bark or pinestraw, and inorganic materials such as pebbles, crushed rock, brick, tile, and decorative blocks; however, inorganic materials shall not make up more than ten percent of the landscaped area.

71.5.3. *Installation requirements.*

(1) Required landscaped areas adjacent to parking areas shall be protected by fixed curbing or other permanent wheel stops along all sides exposed to parked or moving vehicles.

(2) When possible, trees should be located on extensions of parking stall lines to minimize bumper, exhaust, and engine heat damage to trees.

(3) The maximum recommended distance from any part of a required landscaped area to the nearest hose bib or other irrigation water supply fixture shall be 150 feet, except where built-in irrigation systems are provided.

(4) Synthetic or artificial material in imitation of trees, shrubs, turf, ground covers, vines, or other plants shall not be used in lieu of plant requirements in this ordinance.

(5) Hedges, walls, and berms, though not required, are encouraged to help minimize the visual impact of PVAs. Berms with ground cover that necessitates mowing shall have a slope not greater than one foot of rise per three feet of run.

(6) The use of permanent broad-area mulch beds is encouraged to increase absorption of surface water, retard erosion, runoff, and stream siltation, protect tree roots and stems, and foster tree health.

(7) Planting dates recommended by the City of Huntsville are shown in Table 2.

TABLE 2. RECOMMENDED PLANTING DATES

Type of Plant Materials	*Normal Planting Dates*
Non-container grown, deciduous	October 1 to April 1
Non-container grown, other	October 1 to May 1
Container-grown, all	Yearround, if suitable precautions are taken to protect the planting stock from extremes of moisture and temperature; if there is a doubt, obtain a variance or a performance bond.

(8) Landscaping must be designed to be compatible with existing and planned overhead and underground electrical, communications, and television cables and conduits, public water supply lines, and storm and sanitary sewer lines.

71.5.4. *Maintenance.* The owner, lessee, or his agents shall be responsible for providing, maintaining, and protecting all landscaping in a healthy and growing condition, and for keeping it free from refuse and debris. All unhealthy and dead materials shall be replaced within one year after notification, or during the next appropriate planting period, whichever comes first.

71.6. PVA lighting requirements.

A detailed lighting plan for all PVAs having 15 or more parking spaces or containing at least 5,000 square feet of PVA must be submitted with the construction and landscape plans.

71.6.1. The lighting plan shall be drawn on the border of the submitting professional and shall clearly define the property lines and the zoning classifications for all adjacent properties. The lighting plan shall provide the following information:

(1) The type of lamp to be used in each fixture, including the manufacturer's name and part number, lamp wattage, lumen output, and a copy of the manufacturer's lamp specifications;

(2) Pole heights and locations;

(3) The type of fixtures, including the manufacturer's name and model number, wattage and light loss factor meeting the standards in section 71.6.3(2), a picture of the fixture, and the IES file name;

(4) Point-to-point photometric calculations at intervals of not more than ten feet at ground level demonstrating that the plan will provide a uniform intensity of lighting on vehicular surfaces in conformance with the requirements of section 71.6.3 below;

(5) The area of each photometric calculation, including an extra calculation to identify

the light level produced at the property line, and all data used in each calculation; and

(6) The stamp of the qualified registered Alabama professional.

71.6.2. All exterior lighting fixtures shall be:

(1) Protected by a weather and vandal resistant covering;

(2) Located and fitted with appropriate cutoffs, if necessary, to prevent the light level on any adjoining roadway or residential property line from exceeding one footcandle;

(3) Aimed so that they do not exceed an angle of 45 degrees out from the base of the pole when using floodlights;

(4) Installed on poles 30 feet or less in height, unless the PVA exceeds 25,000 square feet; in such cases, poles exceeding 30 feet, as measured from the finished grade to the bottom of the fixture, may be used if it is demonstrated that all the requirements of this section can be met; and

(5) Shielded so as to prevent glare on adjacent properties and rights-of-way.

71.6.3. PVA lighting shall be designed and installed in compliance with the following standards:

---

(1) Illumination requirements for PVAs as measured at ground level:

TYPE OF PVA	*REQUIRED MINIMUM LIGHT LEVEL*	*MAXIMUM/MINIMUM UNIFORMITY RATIO**
Nonresidential and Residential Surface PVAs	1 footcandle	10:1
Parking Garages and Underground Parking	5 footcandles	4:1
Parking Garages and Underground Parking using LED source	3 footcandles	4:1
Garage Stairwells	10 footcandles	NA
Garage Rooftop Surfaces	1 footcandle	10:1
Nonresidential and Residential Surface PVAs using LED source	0.4 footcandles	8:1

* The highest horizontal illuminance area, divided by the lowest horizontal illuminance point or area should not be greater than the ratio shown. The maximum/minimum ratio must be calculated only for the area within the PVA; maximum light level at the right of way and at property lines shall also be shown.

(2) Standards for Light Loss Factors:

	METAL HALIDE	*HIGH PRESSURE SODIUM*	*MERCURY VAPOR*	*LED**
Light Loss Factor	0.6 to 0.8	0.8 to 0.9	0.7 to 0.8	1.00 to 0.96

* Light loss factor of 1.00 can only be substantiated when luminaires are designed with "fail-up" technology when a single lighting element fails the luminaire responds by auto increasing the output of the remaining LEDs or when luminaires have inter-changeable light engines making circuit boards replaceable or interchangeable upon group failure.

71.6.4. All required lighting shall be installed and approved prior to issuance of a certificate of occupancy. The registered professional who stamped the plans shall certify by letter that the installation complies with the approved plans. The letter shall specify fixtures, wattages, pole heights, and any special requirements, such as rotation, angle, shielding or positioning of critical poles at property lines. For PVAs smaller than 6,000 square feet, a certification letter must be submitted only if requested by the city.

71.6.5. PVA lighting meeting the standards of [this] section 71.6. shall be utilized during all hours of operation between dusk and dawn.

(Ord. No. 99-206, § 6, 4-8-1999; Ord. No. 99-1020, § 16, 1-13-2000; Ord. No. 01-746, § 2, 10-25-2001; Ord. No. 11-897, § 1, 1-26-2012; Ord. No. 15-756, § 1, 11-19-2015)

71.7. Notice of installation.

Upon the beginning of installation of plant materials required by this article, the property owner or developer shall notify the zoning administrator. The zoning administrator will require correction of conditions contrary to the requirements of this article and replacement of plant materials that are dead, diseased, damaged, or planted so as to kill or injure the plants.
(Ord. No. 07-460, § 6, 6-28-2007)

71.8. Bonding for landscaping.

No certificate of occupancy shall be issued until the provisions of this article concerning landscaping have been met or a performance bond, letter of credit or certified check has been posted. When circumstances preclude immediate planting, a certificate of occupancy may be granted after (1) the owner or developer has completed all curbing, irrigation systems, and other construction preliminary to planting, and (2) the property owner or developer posts a corporate surety bond, letter of credit, or cashier's check with the city clerk in an amount equal to 100 percent of the cost of the total required planting, including labor. Such bond shall be made payable to the City of Huntsville. Landscaping must be completed and approved within six months (180 calendar days) after a certificate of occupancy is issued in order to redeem the bond.
(Ord. No. 99-1020, § 16, 1-13-2000)

71.9. Inspection.

The zoning administrator shall make inspections as necessary pursuant to this article and shall initiate appropriate action to bring about compliance with it. Upon becoming aware of any violation of the provisions of this article, the zoning administrator shall serve written notice of such violation upon the person(s) responsible for compliance. No penalty shall be assessed until the expiration of the bond, if one has been posted, or otherwise until 60 days after notification of violation(s).
(Ord. No. 07-460, § 6, 6-28-2007)

ARTICLE 72. SIGN CONTROL REGULATIONS*

72.1. Findings and purpose.

72.1.1 Signs are an important visual communication tool that benefits our community and its citizens, and the messages they contain are a protected constitutional right under the First Amendment.

72.1.2 In the interest of furthering the purpose of this zoning ordinance, these sign regulations are herein established to provide for the use, location, and size of signs in a manner that ensures that signs are in harmony with the character of the associated use and surrounding area. More specifically, the purposes of these regulations are to:

(1) Promote and maintain attractive, high value residential, commercial and industrial areas;

*__Editor's note—__Ord. No. 21-46, § 1(Exh. A, § A), February 25,2021, repealed the former article 72, §§ 72.1—72.13, and enacted a new article 72 as set out herein. The former article 72 pertained to similar subject matter. See Code Comparative Table for complete derivation.

(2) Control the size, location, and general design so that signs will be aesthetically harmonious and in context with the area in which they are located;

(3) Eliminate any conflict that would be hazardous between signs and traffic control signs and traffic control devices; and

(4) Ensure that signs are located and designed to maintain a safe and orderly pedestrian and vehicular environment.

72.1.3 In establishing these purposes, the city has determined that signs may be unduly distracting to motorists and pedestrians, and thereby create a traffic hazard and reduce the effectiveness of signs needed to direct the public and therefore regulations are necessary.

72.1.4 The provisions of this article are intended to be an exercise of the city's police powers to promote and protect the public health, safety, morals, convenience, order, prosperity, and general welfare (collectively "public welfare"), within the framework of constitutional freedoms of speech and expression, as protected by the First Amendment to the United States Constitution and Section 4 of the Alabama Constitution (Ala. Const. Art. I, § 4). All regulations in this article are to be construed, whenever possible, in favor of vigorous political debate and accommodation of the rights of persons to speak freely.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.2. Definitions.

72.2.1 For the purpose of this article, certain words and phrases shall have the meanings respectively ascribed to them within this section. Additional terms within this article that are utilized throughout the zoning ordinance may also be defined in article 3 of the zoning ordinance. See also the definitions and rules of construction set forth in section 1-2 of the Code of Ordinances of the City of Huntsville, which generally apply to all ordinances of the city.

72.2.2 Where terms are related to measurements and calculations set out in this article (e.g., sign height, setbacks, sign area, etc.), such terms are defined in section 72.3.

Alter (or its derivations). Any change in a sign, or related structure, that changes its exterior dimensions or otherwise changes the sign's size, height, structure type, or illumination.

Apartment building. For the purposes of this article, a single building housing multiple dwelling units, including leaseholds or condominiums, and that is not a part of an apartment complex.

Apartment complex. A series of buildings housing a complex of multi-family dwelling units, including leaseholds or condominiums, on a single lot.

Attached sign. Any sign that is directly attached to a building or that is attached to a non-structural element, such as an awning or canopy, which non-structural element is affixed to the building.

Awning. A shelter projecting from and supported by the exterior wall of a building constructed of non-rigid materials on a supporting framework.

Examples of traditional awnings

Awning sign. A permanent, attached sign that is painted on, applied to, or otherwise is a part of a fabric or other non-

structural awning which awning is affixed to the building. An awning sign is considered an "attached sign".

Building. Where the term "building" is used in reference to the location of a sign it means a primary building on a lot and does not include accessory buildings or accessory structures. In those districts that do not have side yard setback requirements and buildings share a common wall, then a change from one building to another shall occur when there is a firewall separating the buildings.

Building unit. A stand-alone building or a building divided into separate units or spaces that are individually owned or leased by different enterprises, businesses, firms, or other nonresidential occupants, and which meets the following conditions:

- Where a building is divided into individual spaces, each space with its own exterior entry or access point directly into the space shall be consider a building unit.
- Where a building contains individual spaces that are all accessed from the interior through a joint entry, such building shall be considered one building unit.
- Where a lot contains multiple principal buildings, each building shall be considered a building unit.

"Building unit" shall not be used to define an apartment building or similar residential-only building that is divided into individual dwelling units. For a mixed-use building, as defined in this article, the number of building units on any given lot shall be determined by the number of nonresidential enterprises, businesses, firms, or other nonresidential occupants.

Campus. A complex of buildings and grounds that belong to a given institution, either academic or non-academic.

Canopy. A permanent structure made of cloth, metal, or other material attached or unattached to a building for the purpose of providing shelter to patrons or automobiles, or as a decorative feature on a building wall. A canopy is not a completely enclosed structure but typically is supported by features other than the building façade (e.g., structural legs, building extensions, etc.).

Example of a canopy and related sign

Canopy sign. A permanent sign that is a part of or attached to a canopy and is considered an "attached sign".

Changeable copy sign. A sign designed so that the characters, letters, or illustrations can be changed or rearranged manually or electronically without altering the sign display surface. May also be known as readerboards. See also the definition of "electronic display sign."

Commercial use sign. A sign, regardless of the message it contains, for which the person that owns, leases, or otherwise controls the sign structure or the premises on which the sign is located, receives consideration, whether monetary or another form of value, for the use of the sign structure or the premises for a sign, or otherwise holds out the sign as being available in exchange for consideration.

Complex. One or more lots used as an integrated development or project with a common identity or common ownership.

Detached sign. Any sign affixed to or supported upon the ground by a monument, pedestal, pole, bracing, or other permanent structural element and not attached to any building.

Driveway signs. A small permanent sign located near driveway access points or at the intersection of internal access drives.

Electronic display sign. A sign designed so that the characters, letters, or illustrations can be changed or rearranged automatically on a lamp bank or through mechanical means (e.g., electronic or digital signs).

Façade. The exterior wall on the front, side, or rear elevation of the building regardless of whether the building side faces a street.

Feather sign A temporary sign that is constructed of cloth, canvas, plastic fabric or similar lightweight, non-rigid material and that is supported by a single vertical pole mounted into the ground or on a portable structure. Such sign may take the shape of a feather, tear drop, or any other shape.

Ground sign. A permanent, detached sign other than a pylon or monument sign, which is affixed to the ground by no more than two poles, columns, or uprights permanently imbedded in the ground.

Hanging sign. A permanent, attached sign suspended from, and located entirely under a covered porch, covered walkway, canopy, or an awning, which are attached to a building. A hanging sign shall be considered an "attached sign".

Illuminated sign. A sign with an artificial light source incorporated internal to the sign or projected externally onto the sign for the purpose of illuminating the sign, which includes signs made from neon or other gas tube(s) that are bent to form letters, symbols, or other shapes. An illuminated sign excludes electronic display signs, which are addressed separately.

Legible. A sign shall be considered legible from a stated location if a person who is between five and six feet tall can read and decipher the sign.

Lot. A lot is a parcel of land. For the regulatory purposes of this ordinance a lot may consist of a single lot of record, a portion of a lot of record, combinations of adjacent individual lots or portions of lots, or a parcel described by metes and bounds, provided that in no case of division or combination by private action shall any residual lot be created which does not meet the requirements of this ordinance and other applicable regulations.

Mixed-use building. A single building that blends residential uses with nonresidential uses, where those functions are physically and functionally integrated. See also the definition of "building unit" for use as part of a mixed-use building.

Mobile sign. A sign painted on or affixed to motor vehicles, or to open or enclosed trailers, designed and licensed for transportation of cargo on the public streets.

Monument sign. A permanent detached sign, other than a pylon or ground sign, not attached to a building, which is placed upon or supported by the ground independently of any other structure, typically on a monument or pedestal structure.

Non-conforming sign. Any sign that was erected legally prior to the adoption of this ordinance, or amendment thereto, but which does not comply with subsequently enacted sign restrictions and regulations or a sign which does not conform to the regulations of this article.

Park. An area or district with multiple buildings and/or building units within a controlled environment designed around an attractive, park-like setting, or enhanced landscaping, that is intended

to promote a particular field of endeavor, such as a research park, business park, or an industrial park.

Pedestrian gateway sign. A permanent, detached sign that is intended to be placed in locations only visible by pedestrians including, trails, sidewalks, and similar pathways in large-scale complexes.

Permanent sign. A sign permitted by this ordinance to be located on the premises and designed to be permanently attached to a structure or the ground. Such sign is constructed of rigid, non-flexible materials.

Permitted use building. A building that houses one or more uses that are allowed as a matter of right in the applicable zoning district or allowed by special exception. The term does not include a building that houses only a variant use or non-conforming use. This term may also be qualified as follows:

- A "permitted nonresidential use building" shall mean where the principal building contains a permitted use, that is not a residential use, in the applicable district. Permitted mixed use buildings shall be considered a permitted nonresidential use building for the purposes of this article, regardless of presence of residential dwelling units.
- A "permitted residential use building" shall mean where the principal building contains a permitted principal residential use in the applicable district, including any permitted accessory uses (e.g., customary home occupations).

Portable sign. Any sign not attached to a building or the ground that is designed to be transported, including signs designed to be transported by means of wheels. This definition shall not include "sidewalk sign" or other defined temporary sign types.

Projecting sign. A sign that is affixed perpendicular to a building or wall and extends more than eight inches beyond the face of such building or wall and the lowest point of which sign is not less than 12 feet above the sidewalk or ground level. A projecting sign shall be considered an "attached sign".

Pylon sign. A permanent, detached sign other than a monument or ground sign, that is supported by no more than two, 24-inch structural elements which are architecturally similar to the design of the sign.

Repair. The replacement of any part of a sign with equivalent material for the purpose of maintenance that does not affect its design, size, structural framework, exterior dimensions, or its structural members and uprights.

Required yard. The area (front, side, and rear yard) that lies between a property line and the required setback line for primary structures according to the provisions of this zoning ordinance.

Residential. The use of a building, or portion thereof, as a residence (dwelling unit), or a vacant lot in a residential district. The term does not include a dormitory or other housing associated with a campus.

Residential district. Those districts that are identified in chapter 1 and chapter 8, article 80 of this zoning ordinance.

Residential subdivision. A multi-lot residential subdivision or development consisting of at least six lots, which is developed as an integrated development or project with a common identity

Right-of-way. A strip or area of land dedicated for use as a public roadway, railroad, or dedicated for other public uses. For streets, the right-of-way typically includes the paved roadway, curbs,

lawn strips, sidewalks, lighting, drainage facilities and utilities and may include special features (required by the topography or treatment) such as grade separation, landscaped areas, viaducts, and bridges.

Roof sign. A sign which is affixed to and which extends above the roof of any building. A roof sign shall be considered an "attached sign".

Sidewalk sign. A temporary sign that may be placed on a public sidewalk or on a private sidewalk/walkway, during business hours in accordance with this article and which may include an "A-frame sign" or a "T-frame sign" as defined below:

- A-Frame sign means a detached temporary sign that is ordinarily in the shape of an "A" or some variation thereof, which is readily moveable, and is not permanently attached to the ground or any structure.
- T-Frame sign means a detached temporary sign that is ordinarily in the shape of an upside down "T" or some variation thereof, which is readily moveable, and is not permanently attached to the ground or any structure.

Sign. A structure, device, or surface that contains, supports, or displays sign copy.

Sign area. The total area of a sign face as measured pursuant to section 72.3.3.

Sign copy. Letters, numerals, figures, symbols, logos, pictorial, or graphic elements comprising the content or message of a sign.

Sign face. The surface of the sign upon, against, or through which the message of the sign is exhibited.

Street frontage. The distance for which a lot line adjoins a public street, from the lot line intersecting said street to the furthest distant lot line intersecting the same street. Alternatively, where the number of signs is based on the number of street frontages, a street frontage means a continuous border between the subject property and a public street or road.

Temporary sign. A non-permanent sign that is neither permanently anchored to the ground, nor permanently affixed to a structure, nor mounted on a chassis.

Temporary yard sign. Any temporary detached sign that is not defined as a "sidewalk sign."

V-Mounted sign. An attached, permanent sign with two attached sides in which the faces of said sign are not parallel and the smallest angle of said sign is not greater than 30 degrees. A v-mounted sign shall be considered an "attached sign".

Wall sign. A permanent sign attached directly to an exterior wall of a building and which does not extend more than a certain distance from the façade, as established in this article, nor above the roof line or beyond the limits of the outside wall. The exposed face of the sign in a plane parallel to the building wall. A wall sign shall be considered an "attached sign".

Zoning administrator. The chief enforcement officer of the zoning ordinance as designated by the director of planning, or any of their authorized designees, assistants, or inspectors.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.3. Calculations and measurements.

For the purpose of this article, the following shall be the method for determining and interpreting any form of calculation or measurement.

72.3.1 *Sign setback*. All required setbacks for signs shall be measured as the distance in feet from the applicable lot line, or other stated point of measurement, to the closest point on the sign structure.

72.3.2 *Sign height*.

(1) The height of a sign shall be computed as the distance from the base of the sign at normal grade (average grade at the base of the sign) to the top of the highest

attached component of the sign. Normal grade shall be construed to be the newly established grade after construction, exclusive of any filling, berming, mounding, or excavating undertaken for the purpose of locating or increasing the height of sign.

(2) The filling of a pre-existing hole or depression to create an average grade at the same level as that surrounding the hole or depression is permitted, provided such filling is allowed by other ordinances.

(3) In cases where the normal grade is below grade at street level, sign height shall be computed on the assumption that the elevation of the normal grade at the base of the sign is equal to the elevation of the nearest point of the crown of a public or private street. See figure A.

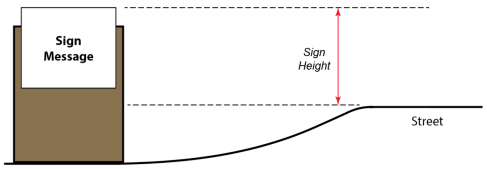

Figure A: Illustration of the measurement of sign height when the grade at the bottom of the sign is below the grade of the adjacent street.

(4) Any material whose major function is providing structural support for a sign shall be considered part of the sign for purposes of determining sign height.

(5) Where a distance is established for the clearance of a sign, such measurements shall be made from the normal grade of the ground, directly under the applicable sign or structure supporting the sign, and the bottom most point of the sign or the structure supporting the sign, whichever is closest.

72.3.3 *Sign area.* The surface of a sign to be included when computing maximum allowable square footage of sign area shall be calculated as follows:

(1) For sign copy mounted or painted on a background panel, cabinet, or surface distinctively painted, textured, lighted, or constructed to serve as the background for the sign copy, the sign area shall be computed by means of the smallest square, circle, rectangle, triangle, or combination thereof that encompasses the extreme limits of the background panel, cabinet, or surface. See figure B and figure C.

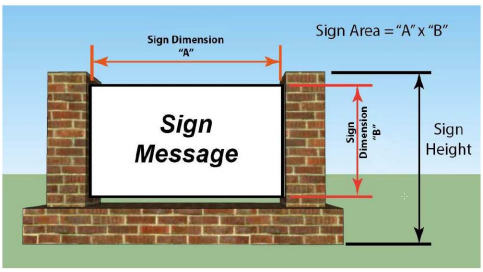

Figure B: Illustration of sign area calculation for a monument sign with copy on a distinct cabinet.

Figure C: Illustration of computing the sign area for wall signs with a background panel or cabinet.

(2) For sign copy where individual letters or elements are mounted on a building façade where there is no background panel, cabinet, or surface distinctively painted, textured, lighted, or constructed to serve as the background for the sign copy, the sign area shall be computed by means of the combination of the smallest square, circle, rectangle, triangle, or combination

thereof that encloses all the letters or elements associated with the sign. See figure D.

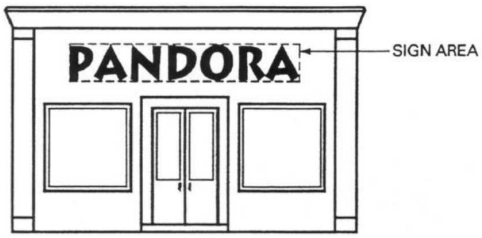

Figure D: Illustration of sign area calculation for two differently shaped wall signs with individual letters.

(3) In cases where there are multiple sign elements on the same surface, the zoning administrator shall have the authority to determine the outermost boundaries of individual sign elements based on the shape of the sign and the distance separating various elements of sign copy. Decorative edging or other window treatments that are not an integral part of the sign copy shall not be considered a part of the sign for the purposes of this article.

(4) The calculation of sign area shall not include any supporting framework, bracing, or decorative fence or wall unless such structural support is determined to constitute an integral part of the sign design by means of any form of sign copy, as determined by the zoning administrator. See figure A.

(5) In the case of a three-dimensional sign where the sign faces are not mounted back-to-back, the sign area shall be calculated by the smallest square, circle, rectangle, triangle, or combination thereof that encompasses the profile of the sign message, multiplied by two. The profile used shall be the largest area of the sign face visible from any one point.

(6) Except for three-dimensional signs, the sign area for a sign with more than one face (multi-faced signs) shall be computed by adding together the area of all sign faces unless two sign faces are mounted back-to-back.

(7) When two flat sign faces are placed back-to-back and when such sign faces are part of the same sign structure and are not more than 12 inches apart, the sign area shall be computed by the measurement of one of the faces. If the two faces are unequal, the sign area shall be calculated based on the larger of the two faces.

72.3.4 *Determining width of building facades.*

(1) For the purposes of this article, the length of the building wall that faces a public street shall be considered the building facade unless otherwise stated.

(2) The calculation of the width or lineal measurement of any façade shall be the measurement of the façade between two side facades. The calculation shall be based on viewing the façade from a 90-degree angle (i.e., straight on), regardless of façade insets, offsets, or angles. See figure E.

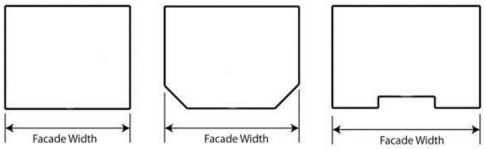

Figure E: Illustration of façade width measurement on varied façade shapes.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.4. Compliance with article; coverage; variant and non-conforming uses; exclusions from article.

72.4.1 *Compliance with article.* No premises within the corporate limits of the City of Huntsville shall be used to construct, erect, or maintain a sign that does not meet the requirements of this article, and it shall be unlawful for any person to use premises in the corporate

limit of the city to construct, erect, or maintain a sign that is not in conformity with the requirements of this article.

72.4.2 This article shall only apply to any sign, in any zoning district, that is outdoors and displaying sign copy that is visible from a public right-of-way or otherwise visible to the general public. This article is not intended to, and does not, regulate signs inside of homes or other buildings.

72.4.3 Any sign legally established prior to the effective date of this article, or amendments thereto, and which sign is rendered non-conforming by the provisions herein, shall be subject to the non-conforming sign regulations of section 72.9.

72.4.4 *Coverage*.

(1) Nothing in this article shall be construed to affect the franchise authority of the city.

(2) Nothing in this article shall be construed to allow or give permission to any person to install a sign on private property without the consent of the owner of the property or the person otherwise in possession or control of the property. Where a sign has been placed on premises without proper consent, the sign shall constitute a trespass.

(3) Nothing in this article shall be construed to exempt from or except the application of the building and other technical codes of the city to the installation of signs.

72.4.5 *Variant and non-conforming uses.*

(1) Notwithstanding anything to the contrary contained in this article, where nonresidential uses are allowed by variance, the permanent signs allowed, if any, shall be as approved in connection with the variance.

(2) Notwithstanding anything to the contrary contained in this article, where nonresidential uses are classified as a non-conforming use under the provisions of article 74, unless a variance has been granted for permanent signage associated with the non-conforming use or the permanent signage itself is grandfathered in accordance with the provisions of this article, then the non- conforming use is not allowed a permanent sign for the premises. Temporary signs shall only be permitted in accordance with the applicable zoning district

72.4.6 *Exclusions from article*

(1) *Excluded by law*. In some cases, federal and state law preempt or otherwise limit or prohibit the city's regulatory authority over signs, which may include, signs required by state or federal law including signs ordered in the case of bankruptcies and government-function signs. It is not the intent of this ordinance to challenge or create conflicts with or act contrary to such law and thus this article shall not apply in such cases.

(2) Exclusion from this article does not relieve a person from complying with other applicable laws, including the building and electrical codes of the city.

(3) *Maintenance*. Unless otherwise preempted by applicable law, exclusion from this article, including exclusions under this section and definitional exceptions to the term "sign", shall not be construed to exclude or exempt the sign from being maintained in good condition, order, and repair in accordance with section 72.13 of this article; and references to the term sign or permitted sign in section 72.13 shall include such exclusions or exceptions.

72.4.7 *Reclassification of signage.* If the type of any sign that legally existed prior to the effective date of this amendment is reclassified by this amendment, such sign shall be classified as the sign type defined in this article and shall be subject to the applicable standards for such sign type from the effective date of this amendment. Such reclassification shall be regardless of any variances that were approved prior to the effective date of this amendment.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.5. Residential subdivision, apartment building, or apartment complex signs.

Permanent signs may be permitted within a residential subdivision, an apartment building, or for an apartment complex in accordance with the following:

72.5.1 The placement and allocation of the permanent sign may be reviewed and decided upon during the subdivision platting process or as part of a site plan review, whichever is applicable or comes first where both are required. However, a sign permit will be required for the installation or any changes to the signs in accordance with this article.

72.5.2 *Residential subdivisions.* Residential subdivisions that have six or more lots are permitted the following signs:

(1) No more than two monument signs shall be permitted at each major entrance, the location of which shall be determined by the zoning administrator.

(2) The signs shall be located within 150 feet of the established major entrance.

(3) The monument signs must be located the greater of either ten feet from the existing or proposed public right-of-way or 15 feet from the back of curb or edge of pavement if there is no curb; and 15 feet from the curb entrance of any drive or accessway.

(4) The maximum sign area for any single monument sign shall be 40 square feet. The maximum height shall be five feet, excluding a base with a maximum one foot of height.

(5) The placement of such signage shall be determined during the layout approval process and shall be based on the entire subdivision and not on individual phases.

72.5.3 *Apartment complexes*. Apartment complexes that have 50 or more dwelling units are permitted the following signs:

(1) Where an apartment complex is located in a residential zoning district, the complex shall be permitted to have the same monument signs as is allowed for residential subdivisions in section 72.5.2 above.

(2) Where an apartment complex is located in a nonresidential zoning district, the complex shall be permitted to have the same type of detached sign as a lot with a single building unit in the applicable zoning district. Such sign shall not include an electronic display sign. Additionally, any building in the apartment complex used for office space shall be permitted to have the same amount of attached signs as permitted in the applicable zoning district.

72.5.4 *Apartment buildings.* Apartment buildings that have 25 or more dwelling units are permitted the following signs:

(1) One projecting sign not to exceed 40 square feet in sign area is allowed per street frontage.

(2) The sign may project over the public sidewalk to the same extent as other similar sign structures in the same district.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.6. Temporary signs.

72.6.1 *Standards applicable to all temporary signs*. Unless provided for otherwise, each of the following conditions shall apply to all temporary signs:

(1) Temporary signs shall not be mounted, attached, affixed, installed, or otherwise secured in a manner that will make the sign a permanent sign.

(2) Temporary signs shall not be illuminated.

(3) No temporary sign shall be installed that requires a foundation, support, wiring, fittings, or elements that would traditionally require a building permit or electrical permit.

(4) Temporary signs shall not contain any changeable copy.

(5) All temporary signs shall be secured in such a manner as to prevent swinging or

other significantly noticeable movement resulting from the wind that could pose a danger to people, vehicles, or structures.

(6) Mobile signs on wheels, runners, casters, parked trailers, parked vehicles, or other temporary or movable signs shall not be permitted unless otherwise specifically stated in this article.

(7) Temporary signs shall be constructed of durable fabric, plastic, paper, or other light pliable material. Because of the nature of materials typically used to construct temporary signs and to avoid the unsightliness of deteriorating signs and all safety concerns which accompany such a condition, temporary signs shall be removed or replaced when such sign is a deteriorated sign.

(8) Temporary signs shall be located outside the public right-of-way, which shall be presumed if the sign is located at least ten feet from the back of curb or the edge of pavement if there is no curb.

(9) No part of any temporary sign shall be erected closer than ten feet to any overhead electric, cable, telephone or other transmission line nor closer than five feet to any property line.

(10) Temporary signs may be located in a required yard provided that they do not create a visibility obstruction or violate the visibility obstruction regulations established in this article.

(11) Temporary signs shall not be placed on utility poles, light poles, or other similar structures.

(12) Commercial use signs are prohibited.

(13) The general sign standards set forth in section 72.8 of this article shall apply to temporary signs, unless this section provides otherwise.

72.6.2 *Temporary sign removal.* A temporary sign shall be removed when the sign has deteriorated, as determined by the Zoning Administrator.

72.6.3 *Temporary signs on residential premises.*

(1) The total combined sign area of all temporary signs on any lot with a permitted residential use building or on any vacant lot in a residential zoning district shall not exceed 40 square feet. No individual temporary sign shall exceed 20 square feet in sign area.

(2) On vacant lots that are five acres or larger, the total combined sign area may be increased to a total of 40 square feet of temporary sign area along each street frontage and no individual temporary sign shall exceed 40 square feet.

(3) The maximum height of any sign shall be four feet.

72.6.4 *Temporary signs on nonresidential premises.* The following temporary signs are permitted on any lot where there is a permitted nonresidential use building or on any vacant lot in a nonresidential zoning district.

(1) *Attached signs.* Except in research park district and research park west districts (See subsection 72.6.4(2)(c).), the following attached signs shall be allowed for any permitted nonresidential use building:

(a) Where the use of the lot is allowed by a variance or as a permitted, non-conforming use, the lot shall be allowed to have one attached, temporary sign, except for premises located in residential districts under chapter 1 and chapter 8 of this zoning ordinance.

(b) For each building unit, the total combined sign area of temporary attached signs shall not exceed 32 square feet. Up to four attached signs are permitted at any one time. Such attached signs shall require a sign permit.

(2) *Detached signs.* The following detached, temporary signs are allowed on any lot

where there is a permitted nonresidential use building or on any vacant lot in a nonresidential zoning district.

(a) *Residential districts, except for residence 2-B district:*

(i) The total combined sign area of all detached temporary signs shall not exceed 20 square feet.

(ii) The maximum height of any sign shall be four feet.

(b) *All nonresidential districts, except for research park and research park west districts:*

(i) The total combined sign area of all detached temporary signs on any lot with a permitted nonresidential use building shall not exceed 20 square feet. No individual temporary sign shall exceed 20 square feet in sign area.

(ii) On vacant lots, the total combined sign area may be increased to a total of 40 square feet of temporary sign area along each street frontage and no individual temporary sign shall exceed 40 square feet.

(iii) The maximum height of any sign shall be six feet.

(c) *Research park district and research park west districts.* Such signs are allowed provided the following conditions are met:

(i) No more than one such sign per street frontage is allowed per lot, and the maximum sign area shall be 20 square feet on an improved lot and 40 square feet of a lot not improved with a building.

(ii) Signs shall be of post and panel construction. The panel portion of the sign shall not exceed four feet in height and four feet in width for a total of 16 square feet of sign area. The overall height of the sign shall not exceed six feet. A one-foot by four-foot rider shall be allowed along the bottom of the sign.

(iii) Sign posts shall be made of PVC or equal material and shall be white in color.

(iv) Signs must be placed outside of and perpendicular to an existing public right-of-way and shall be set back a minimum of 20 feet from the back of curb of said public right-of-way.

(v) When applicable, it is required to use the ground sign in place of an additional sign.

(3) *Sidewalk signs.*

(a) There shall be no time limit for sidewalk signs with the exception that the sign shall only be placed outside during the hours of the establishment's operation.

(b) A sign permit shall be required for the initial use of a sidewalk sign when it will be placed on a public sidewalk. No additional permit shall be required unless a new occupant or tenant wishes to utilize a new sign. A permit shall not be required for the placement on a private sidewalk or walkway but such sign shall still be subject to all other applicable requirements for sidewalk signs.

(c) There shall be a maximum number of sidewalk signs permitted in association with any single lot or building equal to the number of building units on the ground floor.

(d) Only one sidewalk sign is allowed for any one business establishment (building unit) at one time and shall be located within ten feet of such business establishment provided that:

(i) In the case of RPC, it shall be placed adjacent to the sidewalk.

In all other districts, it shall not be placed closer than two feet to any public street as measured from the curb line;

(ii) It shall not reduce any sidewalk width, as measured perpendicular to the curb, to less than five feet to allow for continuous unobstructed pedestrian traffic; and

(iii) It shall not be placed in a location that will obstruct the view of a motorist or a pedestrian leaving or passing the business or shopping center.

(e) Such signs shall not exceed three feet in height or two feet in width.

(f) The sign may be located on a public or private sidewalk or walkway provided it is placed on pavement and not in any landscaped areas or on pavement used for vehicles (e.g., driveways and parking lots).

(g) The sign must be free-standing and shall not be affixed, chained, anchored, or otherwise secured to the ground or to any pole, parking meter, tree, tree grate, fire hydrant, railing, or other structure.

(h) The sign must not obstruct access to parking meters, bicycle racks and other features legally in the right-of-way.

(i) The sign must not interfere with the opening of car doors in legal spaces, or with the operation of wheelchair lifts and ramps, cab stands, loading zones or bus stops.

(j) The sign shall be internally weighted so that it is stable and windproof.

(k) Where a sidewalk sign is to be placed upon a public sidewalk, each of the following shall apply:

(i) The City of Huntsville shall be held harmless from any liability resulting from accident or injury caused by the placement or maintenance of such sign; and

(ii) The right to place a sign upon the public sidewalk may be revoked or suspended by the zoning administrator if the sign is being maintained contrary to the provisions of this section, or if the sign becomes a hazard to the public safety.

(l) If the provisions of this section are amended or repealed, the signs allowed hereunder shall be removed or altered to conform to said action.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021; Ord. No. 22-809, § 1, 11-17-2022)

72.7. Permanent sign on nonresidential premises by district.

Permanent signs shall be allowed on lots with permitted nonresidential use building in the zoning district as hereinafter provided:

72.7.1 *Sign clearance*. Unless provided otherwise, signs allowed under this section 72.7 shall meet each of the following conditions:

(1) No part of any such sign shall be located in or protrude into any existing or proposed public-right-of-way or public utility and drainage easement, except as otherwise expressly stated in this article.

(2) Unless other provided in this article, all monument signs must be located either ten feet from the existing or proposed public right-of-way or 15 feet from the back of curb or edge of pavement if there is no curb; and 15 feet from the curb entrance of any drive or accessway.

(3) Unless otherwise provided in this article, no pylon sign shall be erected within any required yard unless the lowest point of the sign display is mounted at a height of at least eight feet above the ground and no more than two poles or structural elements are used, neither of which shall exceed 24 inches in diameter.

(4) Notwithstanding or anything to the contrary no part of any sign shall be erected closer than ten feet to any overhead electric, cable, telephone or other transmission line nor closer than five feet to any side property line unless otherwise provided herein.

72.7.2 *Permanent signs in the residence 1, residence 1-A, residence 1-B, residence 1-C, residence 2, residence 2-A, and residence 2-C districts*

(1) Either one monument sign or one ground sign is permitted, per street frontage, on any lot used for a permitted nonresidential use building in accordance with the applicable provisions of this article and the following:

(a) Monument signs shall not exceed five feet in height, excluding a base that does not exceed one foot in height.

(b) Ground signs shall not exceed 20 feet in height.

(c) The maximum sign area of any monument or ground sign shall be 40 square feet.

(d) Such signs may incorporate an electronic display sign when the sign is located on a street frontage along a major or minor arterial and complies with section 72.8.21.

(2) Wall signs are permitted on all permitted nonresidential use buildings provided they do not exceed 100 square feet of total sign area per street frontage.

72.7.3 *Permanent signs in the residence office 1 and residence office 2 districts*. For lots occupied by a permitted nonresidential use building, either one wall sign is permitted or alternatively, one monument sign is permitted, in accordance with the provisions of this article and the following:

(1) The wall sign shall not exceed six square feet in sign area and shall be mounted on the first story of the façade. Such sign shall not cover or obscure any windows, doors, or other architectural features.

(2) A monument sign may be used instead of an attached sign provided that such sign shall not exceed 20 square feet in sign area with a maximum height of five feet, excluding a base that does not exceed one foot in height.

(3) On a corner lot, one additional wall sign is permitted on the façade facing the side street. Such sign shall not exceed two square feet in sign area and shall not cover or obscure any windows, doors, or other architectural features.

72.7.4 *Permanent signs in the research park, research park applications, office, residence 2-B, neighborhood business C-1, neighborhood business C-2, planned industrial, and disposal storage districts.*

(1) Attached signs are permitted on lots used for permitted nonresidential use buildings in accordance with the following:

(a) In the office, residence 2-B, neighborhood business C-1, and neighborhood business C-2 districts, attached signs are permitted with a maximum sign area of 100 square feet allowed for each building unit, per street frontage.

(b) In the research park district, research park applications, planned industrial, and disposal storage districts, a maximum of one attached sign is permitted with a maximum sign area of 100 square feet, per street frontage. Each building unit on a campus or park shall be permitted to have one attached sign with a maximum sign area of 100 square feet per street frontage.

(2) Detached signs are permitted on lots used for permitted nonresidential use buildings in accordance with the following:

(a) *In the neighborhood business C-1, neighborhood business C-2, office, and residence 2-B districts:*

(i) Where a lot has two or more building units, one monument

sign or ground is permitted for each 250 feet of street frontage, or fraction thereof. Each sign shall have a maximum sign area of 100 square feet. Where more than one sign is permitted due to a street frontage in excess of 250 feet, the signs shall be separated by 150 feet.

(ii) A monument sign shall have a maximum height of ten feet, excluding a base that does not exceed one foot in height. A ground sign shall not exceed 35 feet in height.

(b) *In neighborhood business C-1 and neighborhood business C-2 districts only*.

(i) Where a lot has one building unit, one monument sign or ground is permitted for each 250 feet of street frontage, or fraction thereof. Each sign shall have a maximum sign area of 35 square feet. Where more than one sign is permitted due to a street frontage in excess of 250 feet, the signs shall be separated by 100 feet.

(ii) A monument sign shall have a maximum height of five feet, excluding a base that does not exceed one foot in height. A ground sign shall not exceed 35 feet in height.

(c) *In office and residence 2-B districts only.*

(i) Where a lot has one building unit, one monument sign is permitted for each 250 feet of street frontage, or fraction thereof. Each sign shall have a maximum sign area of 35 square feet. Where more than one sign is permitted due to a street frontage in excess of 250 feet, the signs shall be separated by 100 feet.

(ii) A monument sign shall have a maximum height of five feet, excluding a base that does not exceed one foot in height.

(d) *In research park district, research park applications, planned industrial, and disposal storage districts only.*

(i) One monument sign is permitted, per building (regardless of the number of building units in the building), per street frontage to be located at the entrance from the street. The maximum sign area shall be 100 square feet with a maximum height of ten feet, excluding a base that does not exceed one foot in height. Such sign shall be set back a minimum of 15 feet from an existing or proposed street right-of-way.

(ii) Where a monument signs is to be located in a PI district, the sign setback shall be increased to 25 feet from an existing or proposed street right-of-way.

(iii) Two monument signs are allowed at major entrances into a campus or park in the research park district, research park applications, and planned industrial districts, the location of which shall be determined by the zoning administrator. Such signs shall have a maximum sign area of 150 square feet per sign. Such signs shall have a maximum height of 35 feet, excluding a base that does not exceed one foot in height.

72.7.5 *Permanent signs in the general business C-3, central business C-B, research park 2, and village business C-6 districts.*

(1) Attached signs are permitted in the general business C-3, central business C-B, research park 2, and village business C-6 districts in accordance with the following:

(a) No V-mounted signs shall project more than four feet from a basic line measured perpendicular to the face of the building;

(b) No wall sign shall project more than eight inches from the face of the building; and

(c) No projecting signs shall project more than four feet from the face of the building, and must have a clearance of at least 12 feet, and shall not extend above the roof line of the building.

(d) No projecting or awning sign, inclusive of any supporting structures or brackets, may be located on or over the public right-of-way unless attached to a structural element of the building.

(e) For lots that contain one building unit, the following shall be allowed:

(i) One attached sign is permitted on each street frontage provided the sign area shall not exceed one square foot per linear foot of building façade width on the applicable street frontage, with a maximum sign area of 100 square feet.

(ii) Buildings with a height of five stories and above are permitted to have an additional 100 square feet per street frontage, located at or above the top story of the building, but not above the roof line, provided the maximum sign area for any one sign shall be no more than 200 square feet.

(iii) Illumination shall only be internal to the sign.

(f) For lots that contain two or more building units with permitted nonresidential use buildings, the following shall be allowed:

(i) One attached sign is permitted with a maximum sign area of 100 square feet per street frontage, located at or above the top story of the building, but not above the roof line; buildings with a height of five stories and above are permitted to have an additional 100 square feet per street frontage provided the maximum sign area for any one sign shall be no more than 200 square feet and;

(ii) One attached sign is permitted for each building unit on each street frontage provided the total cumulative sign area does not exceed two square feet of sign area per each linear foot of building façade width, per street frontage. No one building unit shall have a sign with a sign area that exceeds 40 square feet. Wall signs shall be mounted in such a way so that they do not extend above the top of the second-floor windows. Projecting signs may be mounted on area of the sign subject to any applicable height standards in this article.

(iii) Illumination shall only be internal to the sign.

(g) For lots that contain a mixed-use building that includes both residential dwelling units and nonresidential building units, the following signs are allowed:

(i) One attached sign is permitted with a maximum sign area of 100 square feet per street frontage, located at or above the top

story of the building, but not above the roof line; buildings with a height of five stories and above are permitted to have an additional 100 square feet per street frontage provided the maximum sign area for any one sign shall be no more than 200 square feet and;

(ii) One wall sign is permitted for each ground-floor nonresidential building unit, per street frontage, provided that the total sign area shall not exceed one square foot per linear foot of building façade width of the applicable frontage, and no one building unit shall have a sign with a sign area that exceeds 40 square feet.

(iii) One projecting sign is permitted to be attached to any residential component in accordance with section 72.5.4.

(iv) Illumination shall only be internal to the sign.

(2) In addition to the attached signage allowed above, one monument sign may be located on a lot with a permitted nonresidential use building containing two or more building units provided:

(a) Such sign shall not be placed within the right-of-way;

(b) The maximum sign area shall be 100 square feet; and

(c) The maximum height of the sign shall be eight feet, excluding a base that does not exceed one-foot in height.

72.7.6 *Permanent signs in the light industry, heavy industry, commercial industrial park, and highway business C-4 districts.*

(1) Attached signs are permitted on permitted nonresidential use buildings provided that the sign area for each building unit shall not exceed 150 square feet, per street frontage, plus three additional square feet for each foot of linear façade width in excess of 50 feet. The maximum sign area for any building units shall be 350 square feet.

(2) Where a lot has one building unit, one ground sign is permitted for each 250 feet of street frontage, or fraction thereof. Each sign shall have a maximum sign area of 150 square feet. Where more than one sign is permitted due to a street frontage in excess of 250 feet, the signs shall be separated by 100 feet. The maximum height of the sign shall be 35 feet.

(3) Where a lot has two or more building units, one ground sign is permitted for each 250 feet of street frontage, or fraction thereof. Each sign shall have a maximum sign area of 150 square feet. Where more than one sign is permitted due to a street frontage in excess of 250 feet, the signs shall be separated by 200 feet. The maximum height of the sign shall be 35 feet.

72.7.7 *Permanent signs in the industrial park, airport commercial, heavy manufacturing, and research park applications 2 districts.*

(1) Attached signs are permitted on permitted nonresidential use buildings provided that the maximum sign area shall be 100 square feet per building unit, per street frontage.

(2) One monument sign is permitted on each lot that contains a permitted nonresidential use building, on each street frontage, provided the maximum sign area shall be 100 square feet per sign and the maximum height shall be ten feet, excluding a base that does not exceed one foot in height. Such signs shall be placed in the front yard and set back a minimum of ten feet from an existing or proposed street right-of-way.

(3) In all districts except the research park applications 2 district, one monument sign is allowed at major entrances into a

campus or park, the location of which shall be determined by the zoning administrator. The maximum sign area shall be 100 square feet and the maximum height shall be 35 feet.

(4) In the research park applications 2 district, two monument signs are allowed at major entrances into a campus, or park, the location of which shall be determined by the zoning administrator. Each sign shall have a maximum sign area of 144 square feet per sign and a maximum height of 35 feet.

72.7.8 *Permanent signs in the medical and medical 2 districts.*

(1) One, four-sided, multi-panel monument sign is allowed at each major entrance into the district or campus, the location of which shall be determined by the zoning administrator. Such sign shall be in accordance with the following:

(a) The sign may be located in the required front yard setback, upon approval by the city traffic engineer.

(b) The monument sign shall not exceed a total sign area of 240 square feet, with each sign face having a maximum of 60 square feet of sign area. The maximum height shall be 35 feet, excluding a base that does not exceed one foot in height.

(2) Where buildings are located on a campus, each building shall be permitted to have one monument sign, to be located in front of the applicable building in accordance with the following:

(a) Each monument sign shall not exceed five feet in height, excluding a base that does not exceed one foot in height.

(b) Each sign shall not exceed 30 square feet in sign area.

(c) The sign must be set back a minimum of 25 feet from the curb of any public street and 15 feet from the curb of any entrance drive or access way.

(3) *Monument signs for buildings not on a campus.* Monument signs are permitted on lots that are not part of a campus in accordance with the following:

(a) For lots that have one building unit, one monument sign is permitted for each 250 feet of street frontage, or fraction thereof. Each sign shall have a maximum sign area of 35 square feet. The maximum height shall be five feet, excluding a base that does not exceed one foot in height. Where more than one sign is permitted due to a street frontage in excess of 250 feet, the signs shall be separated by 100 feet.

(b) For lots that have two or more building units, one monument sign is permitted for each 250 feet of street frontage, or fraction thereof. Each sign shall have a maximum sign area of 100 square feet. The maximum height shall be five feet, excluding a base that does not exceed one foot in height. Where more than one sign is permitted due to a street frontage in excess of 250 feet, the signs shall be separated by 150 feet.

(4) Attached signs are allowed in accordance with the following:

(a) Each building unit is permitted to have wall signs on any façade with a street frontage provided the signs do not project more than eight inches from the building surface.

(b) No sign shall project above the roof line of the building on which it is mounted, notwithstanding any other provision of this zoning ordinance.

(c) The total sign area of all wall signs for any building unit, on any one facade shall not exceed one square foot per linear foot of building façade established for the applicable building unit with a maximum total sign area of 300 square feet.

72.7.9 *Permanent signs in the planned development and planned development—Housing district.* Signage in a PD district shall be approved as part of the PD review process provided however, no signs visible from outside the PDH district shall be erected within the PDH District other than what is allowed in Section 72.5.

72.7.10 *Permanent signs in the commercial recreation C-5 district.*

(1) One detached sign is allowed at each major entrance into the district, the location of which shall be determined by the zoning administrator. Such sign shall not exceed 250 square feet in sign area or 35 feet in height. If the sign is a monument sign, the height shall exclude a base that does not exceed one foot in height.

(2) One attached sign is permitted on each side of a building that faces a street frontage provided that the maximum sign area of the attached sign does not exceed 100 square feet.

72.7.11 *Permanent signs in the research park west district.* The research park west district signage is intended to be uniform in appearance in order to promote and advance the use of the district as a premiere research park. To that end, signs within the district shall follow the standards set forth in this section.

(1) *Detached signs*. One monument sign is permitted on each lot at the entrance onto a lot that contains a permitted nonresidential use building, in accordance with the following:

(a) The sign shall have the following dimensions: a height of eight feet and one inch; a width of eight feet; and a depth of 12 to 18 inches. The sign may be mounted on a base that does not exceed one foot in height.

(b) All sign copy shall be located on only one sign face.

(c) The primary information on the upper half of the sign should be positioned so as to leave a minimum clear margin of eight inches along the top and each side and four inches along the bottom.

(d) The color, typography, logo, copy, or combination used on the upper half of the sign may be selected by the applicant or owner of the building unit, but the background must be one continuous color.

(e) Only the upper half of the sign may be internally illuminated.

(f) The lower half of the sign shall have a dark bronze background and white typography in Helvetica regular. Any secondary information, such as an address and traffic safety information shall be positioned in the upper left corner with margins and spacing as shown in figure F.

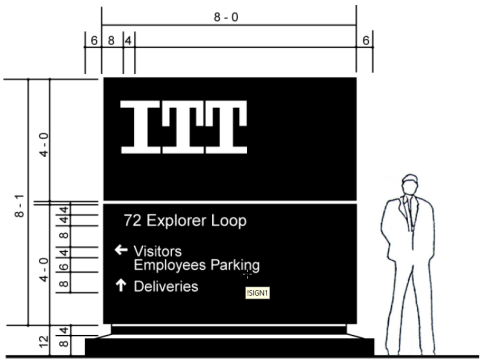

Figure F: Illustrative example of a detached monument sign in the Research Park West District

(g) Only one detached sign per access road to the lot is allowed.

(h) The sign shall be placed parallel to an existing public road, either within or outside the public street right-of-way and must be located a minimum of 20 feet from the curb of said public road and 15 feet from the curb of the site access road.

(2) *Driveway ground signs.* Driveway ground signs are permitted in the research park west district in accordance with the following:

(a) The signs shall be of post and panel construction and shall not exceed six feet in height and four feet in panel width. Dimension details are presented in figure G.

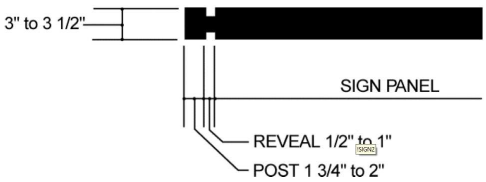

Figure G: Illustration of the dimensions for allowed driveway ground signs

(b) The posts and panel background color shall be dark bronze; the typography shall be white in Helvetica regular and positioned in the upper left corner with margins and spacing as presented in figure H.

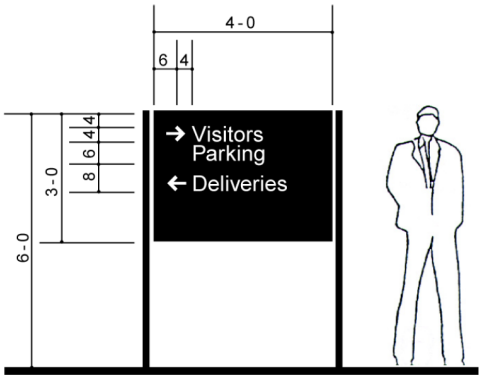

Figure H: Illustrative example of driveway ground signs

(c) Such signs shall not be located closer than 50 feet to an existing or proposed public street right-of-way and shall be a minimum of ten feet from an existing or proposed curb of any entrance drive or access way.

(3) *Attached signs.* Attached signs are permitted in accordance with the following:

(a) Attached signs shall be part of, or mounted directly on, the building wall and shall not project more than 12 inches from the building surface.

(b) Roof mounted signs are prohibited.

(c) Illumination of such attached signs is optional.

(d) For lots that contain one building unit, one attached sign is permitted, per street frontage. Such sign shall not exceed a sign area equal to ten percent of the gross area of the face of the main building façade fronting the street.

(e) For lots that contain two or more building units, one attached sign is allowed per street frontage and the sign area for that sign shall not exceed ten percent of the gross area of the building facade fronting the street. In addition, where the facility has no more than four building units, each building unit may have one attached sign provided that the combined sign area shall not exceed 20 percent of the gross area of the building façade fronting a street. All such individual building unit attached signs shall be visually equal in size and positioned according to a consistent format.

72.7.12 *Permanent signs in the airport industrial park district.*

(1) Attached signs are permitted provided that the sign area for each building unit shall not exceed 150 square feet, per street frontage, plus three additional square feet for each foot of linear façade width in excess of 50 feet. The maximum sign area for any building units shall be 350 square feet.

(2) One monument sign is permitted per lot, on each street frontage, provided the maximum sign area shall be 100 square feet per sign and the maximum height

shall be ten feet, excluding a base that does not exceed one foot in height. Such signs shall be placed in the front yard and set back a minimum of 25 feet from an existing or proposed street right-of-way.

(3) Two monument signs are allowed at major entrances into the AIP district, the location of which shall be determined by the zoning administrator. Each sign shall have a maximum sign area of 150 square feet per sign and a maximum height of 35 feet, excluding a base that does not exceed one foot in height.

72.7.13 *Permanent signs in the research park commercial district.*

(1) *Large-scale complexes.* Large-scale, complexes with a minimum area of 50 acres that contains multiple building units are allowed the following signs:

(a) *Monument signs.*

(i) One monument sign is permitted to be located in a front yard facing an arterial street that is located a minimum of 200 feet from the district boundary. The maximum sign area shall be 150 square feet with a maximum height of 35 feet, excluding a base that does not exceed one foot in height.

(ii) Up to two monument signs are permitted to be located in a required front yard setback at each collector or arterial street entrance into the complex, upon approval by the city traffic engineer. Each sign shall not exceed a maximum sign area of 130 square feet with a maximum height of 35 feet, excluding a base that does not exceed one foot in height.

(b) *Monument signs for building units.* Each stand-alone building unit that has direct access onto a public street may have one monument sign not to exceed 35 square feet in sign area with a maximum height of five feet, excluding a base that does not exceed one foot in height. Such sign shall be located outside the public right-of-way a minimum of 20 feet from the curb of the public street and 15 feet from the curb of the access drive into the site.

(c) *Attached signs.*

(i) For lots that contain one building unit, one attached sign is permitted, per façade, per street frontage. Such sign shall not exceed a sign area equal to ten percent of the gross area of the face of the main building façade fronting the street. The building unit is also permitted one projecting sign of up to six square feet. The total cumulative sign area for any façade shall not exceed 150 square feet of sign area per facade.

(ii) For lots that contain two or more building units, one attached sign is allowed per façade for each building unit, per street frontage. The maximum sign area for each building unit shall not exceed ten percent of the gross area of the building façade for the individual unit, fronting the street with a maximum sign area of 100 square feet for each building unit. The building unit is also permitted one projecting sign of up to six square feet. The total cumulative sign area for any façade of an individual building unit shall not exceed 100 square feet of sign area per facade.

(d) *Pedestrian area gateway signs.* Each RPC district complex shall be allowed up to a total of four monument signs to be located at the pedestrian entrances from the parking lots or other pedestrian areas when such

areas are located at least 250 feet from any public street. Each such sign is limited to a maximum of ten feet in height, excluding a base that does not exceed one foot in height and to a maximum of 100 square feet of sign area.

(2) *Allowed permanent signs outside of large-scale complexes.* The following signs are allowed on lots with permitted nonresidential use buildings that are not within a large-scale complex:

(a) *Monument signs.*

(i) For lots that have one building unit, one monument sign is permitted for each 250 feet of street frontage, or fraction thereof. Each sign shall have a maximum sign area of 35 square feet. Each sign shall not exceed five feet in height, excluding a base that does not exceed one foot in height. Where more than one sign is permitted due to a street frontage in excess of 250 feet, the signs shall be separated by 100 feet.

(ii) For lots that have two or more building units, one monument sign is permitted for each 250 feet of street frontage, or fraction thereof. Each sign shall have a maximum sign area of 100 square feet. Each sign shall not exceed five feet in height, excluding a base that does not exceed one foot in height. Where more than one sign is permitted due to a street frontage in excess of 250 feet, the signs shall be separated by 150 feet.

(b) *Attached signs.*

(i) Each building unit is permitted to have one wall sign.

(ii) Such sign shall not project more than eight inches from the building surface.

(iii) No sign shall project above the roof line of the building on which it is mounted, notwithstanding any other provision of this zoning ordinance.

(iv) The total sign area of all such attached signs for any building unit shall not exceed one square foot per linear foot of building facade with a maximum total sign area of 300 square feet.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021; Ord. No. 22-809, § 2, 11-17-2022)

72.8. General sign standards.

All signs maintained or hereafter erected in the City of Huntsville shall comply with the standards set forth in this section.

72.8.1 Commercial use signs are commercial uses of land and as such shall not be allowed in residential districts, or on residential lots that are not a part of a mixed-use building that is otherwise allowed to have a commercial use of the premises. Commercial use signs are also prohibited on any attached sign and on any permanent sign permitted to be located at major entrances as established in this article.

72.8.2 Unless otherwise specifically allowed, wall signs shall not extend more than eight inches outside the wall surface. Such signs shall not extend beyond the ends of the wall surface on which they are placed and not more than 18 inches above the top of such wall.

72.8.3 Signs painted or pasted directly on the structures are expressly prohibited.

72.8.4 Feather signs are expressly prohibited.

72.8.5 Signs incorporating any noisy mechanical device are expressly prohibited.

72.8.6 No sign shall be projected onto the side of a building, wall, or ground.

72.8.7 Illuminated signs and outside lighting devices, including beacons and spotlights, shall emit only light of constant intensity, and no sign shall be illuminated by or contain flashing, blinking, intermittent, rotating or moving light or lights, except electronic display signs that comply with the applicable provisions of this article. In no event shall an illuminated sign or lighting device be so placed or directed as to permit focused light to be directed or beamed upon a public street, highway, sidewalk, or adjacent premises so as to cause glare or reflection that constitutes a traffic hazard or nuisance.

72.8.8 No projecting sign, excluding any supporting structures or brackets up to a maximum of 18 inches, shall be erected or maintained to extend more than four feet in width from the front or face building, unless otherwise provided. Additionally, a projecting sign shall not be placed closer than two feet horizontal from the curb line of any street and shall maintain a minimum overhead clearance of 12 feet from the sidewalk.

72.8.9 No roof sign shall be erected or maintained which extends for a height greater than 12 feet above the roof of the building on which it is affixed.

72.8.10 No sign, or portion thereof, shall be placed in any dedicated street or highway right-of-way, or in any utility and drainage easement, except as otherwise specifically stated in this article, and no projecting sign or awning, inclusive of any supporting structure or bracket, may be located on or over the public right-of-way unless attached to a structural element of the building and complies with projection and clearance requirements of this article.

72.8.11 Awnings, inclusive of any supporting structures or brackets, shall project no further than eight feet from the vertical face of the building to which they are attached; however, in no case shall an awning be allowed to extend into an area six feet measured from the back of the curb abutting the building to which the awning is attached. Awnings shall have a minimum height of eight feet above the sidewalk as measured from the bottom edge of the awning.

72.8.12 Unless otherwise specified, ground signs shall not exceed 35 feet in height.

72.8.13 No part of any sign shall be so placed or constructed as to obstruct or interfere with any door, window, fire escape or other means of egress, light or ventilation.

72.8.14 No sign shall be located in such a position that the same obscures the view of pedestrian or vehicular traffic in such a manner as to endanger the safe movement thereof, or otherwise violates the visual obstruction regulations. All signs shall be subject to the provisions of chapter 25, article IX of the city code governing visual obstructions.

72.8.15 Signs shall not be applied to trees, bus shelters, utility poles, benches, trash receptacles, utility cabinets, rocks or natural features, or any other unapproved supporting structure, or otherwise placed in the public right-of-way unless expressly allowed by this article.

72.8.16 Any sign that copies or imitates traffic control signs or devices in a manner likely to confuse motorists or pedestrians, or that obstructs such signs or devices, thereby creating danger to the public, shall be prohibited.

72.8.17 All signs shall be maintained in compliance with applicable sign standards of currently adopted codes including building, electrical, and other technical codes as adopted by the City of Huntsville or as may be legally applied to signs in the City of Huntsville.

72.8.18 Signs attached to and projecting from the exterior wall of a permanent structure shall not extend more than ten feet above said structure.

72.8.19 A vehicle, which includes a motor vehicle, boat, trailer or similar equipment, shall not be used as a support structure for a sign.

72.8.20 Pennants, ribbons, streamers, and spinners are prohibited in all zoning districts, except highway business C-4, light industry, and heavy industry.

72.8.21 *Electronic display signs:*

(1) Electronic display signs shall be permitted as part of any ground, monument, or pylon sign, in all districts except the research park district, research park applications, research park applications 2, research park west, planned industrial, and disposal storage districts.

(2) Electronic display signs shall not be permitted on any sign that is allowed at major entrances into any campus, park, or complex where allowed in this article. Additionally, such signs shall not be permitted on any signs authorized in section 72.5.

(3) Electronic display signs are allowed on canopy signs in the neighborhood business C-1 and village business C-6 districts.

(4) Such signs shall count as part of the ground sign, monument, pylon, or attached canopy, as applicable, and shall not exceed the sign area of such sign, as may be allowed by this ordinance.

(5) Electronic display signs shall be subject to each of the following:

(a) Electronic display signs shall include an automatic dimming light detector/photocell that causes the sign's brightness to dim to levels which the zoning administrator, or their designee, determines meets current ambient light conditions; provided, the zoning administrator, or their designee, may adopt such standards he deems necessary to administer this provision.

(b) No scrolling, flashing, blinking, rotating, pulsating, moving, intermittent, or animated displays are allowed.

(c) The sign shall not display any illumination that moves, appears to move, or changes in intensity during the static display period.

(d) Electronic display signs shall be static and shall not change more than once in any 15-minute period if the sign has frontage on a minor arterial or collector street or no more than once in any one-minute period if the sign has frontage on a major arterial street.

(e) The transition time between the changing of the static image shall be achieved within a one-second period.

(f) Electronic display signs shall contain a default design that will freeze the device in one position if a malfunction occurs.

(g) Electronic display signs shall be turned on no earlier than 7:00 a.m. and turned off no later than 10:00 p.m. in all residentially districts.

(h) An electronic display sign shall not exceed 75 percent of the total allowed sign face area.

(i) Electronic display signs shall be constructed as an integral part of a permanent sign constructed on site. Integral shall be considered to be incorporated into the framework and architectural design of the permanent sign.

(j) Such signs shall be required to have a 20-millimeter pixel pitch or smaller.

(k) Electronic display signs may be permitted as part of any monument sign in a residential zoning district with the additional requirements:

(i) The sign shall only be permitted on street frontage along a major or minor arterial;

(ii) The sign shall not be a commercial use sign; and

(iii) The sign shall be located and oriented in such a manner as

to create the least impact from illumination on adjacent residential uses, as may be determined by the Zoning Administrator.

(l) No variances shall be allowed for any of the foregoing conditions.

72.8.22 Canopy signs shall be allowed on lots used for permitted nonresidential buildings provided:

(1) Canopy signs shall be calculated in the total square footage of the applicable property's attached signage, including the use as an electronic display sign.

(2) In the neighborhood business C-1 and village business C-6 districts only: Canopy signs may include electronic display signs, of not more than 32 square feet in area, provided that there are no other electronic display signs located on the premise.

(3) Canopy signs shall not project above or below the canopy or roofline.

(4) Under-canopy or hanging signs at their lowest point shall be at least eight feet above finished grade.

72.8.23 Unless otherwise stated, all attached signs that project off the face or corner of a building shall have a minimum clearance above finished grade of 12 feet, or the required clearance set forth in the city's building code, whichever is greater.

72.8.24 *Driveway signs.* Driveway signs, as regulated below, are permitted on all lots with permitted nonresidential use buildings, in all zoning districts, except in the research park, research park west, residential office 1, and residential office 2 districts. Such signs shall include small permanent signs located near driveway entrances to a street and at intersections of internal drives under the following provisions:

(1) Driveway signs shall comply with the vision obstruction standards, as required by this article.

(2) In no case, shall a driveway sign be set back more than 50 feet from the driveway entrance or intersection of internal drives. Such signs shall not be located in a right-of-way.

(3) Up to two driveway signs may be permitted per individual driveway or internal intersection.

(4) Driveway signs may not exceed three square feet in area and 30 inches in height.

(5) Driveway signs may be internally or externally illuminated, unless otherwise stated.

(6) Driveway signs shall not contain electronic display signs.

(7) Driveway signs may be mounted on a pole provided the entire structure does not exceed the maximum sign height established above.

72.8.25 Signs that constitute a hazard to safety or health by reason of inadequate or inappropriate design, construction, repair or maintenance, as determined by the zoning administrator, shall be prohibited.

72.8.26 Windblown devices and signs that are not securely affixed to the ground or otherwise affixed in a permanent manner to an approved supporting structure unless specifically permitted as a temporary sign, shall be prohibited.

72.8.27 Signs that employ any parts or elements which revolve, rotate, whirl, spin or otherwise make use of motion to attract attention. This shall not include changeable copy signs as allowed in this article, shall be prohibited.

72.8.28 Portable signs shall be prohibited with the exception of sidewalk signs permitted in subsection 72.6.4(3).

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021; Ord. No. 22-809, § 3, 11-17-2022)

72.9. Non-conforming signs.

72.9.1 Any sign that was lawfully in existence at the time of the effective date of this ordinance, or amendment thereto, that does not conform to the provisions herein, shall be

deemed lawfully non-conforming and may remain on a lot, or shall be removed, in accordance with this section.

72.9.2 Non-conforming signs are declared to be incompatible with allowed uses in the districts affected thereby. The intent of this article is that non-conformities shall not be enlarged upon, expanded or extended, nor be used as grounds for other uses prohibited in the same districts except as provided for below.

72.9.3 No lawful non-conforming sign shall be enlarged, extended, structurally altered, or reconstructed in any manner, except to bring it into full compliance with these regulations, except that these regulations shall not prohibit maintenance, minor repairs, or the replacement of the content of a sign provided there is no structural modification of its size, location or configuration except that any lawful non-conforming sign may be replaced with an electronic display sign provided the following:

(1) Electronic display signs are permitted in the applicable zoning district;

(2) The electronic display sign shall not exceed the size and shape of the original non-conforming sign;

(3) All supporting structures, including posts or pylons, remain in place; and

(4) The electronic display sign shall comply with the standards of section 72.8.21.

72.9.4 A sign shall lose its lawful non-conforming status if any of the following occurs:

(1) If such sign is damaged to an amount exceeding 50 percent of the sign's replacement value, as determined by at least two sign companies requested to provide a quote by the city;

(2) The structure of the sign is altered in any form except as allowed by section 72.9.3;

(3) The sign is relocated; or

(4) The non-conforming sign and its structure (including support and frame and panel) are determined by the zoning administrator, to be unsafe or in violation of this code or building code, and are declared a nuisance.

72.9.5 Any sign that loses its legal non-conforming status must be brought into compliance with the provisions of this article and any other city laws or ordinances by an application for, and issuance of, a sign permit or by complete removal.

72.9.6 Failure to bring a sign into compliance after loss of a legal non-conformity status shall be considered a violation of this zoning ordinance and may be subject to removal as a public nuisance.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.10. Business license.

Nothing in this article shall be construed to affect the requirements for a business license from the city.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.11. Permits required.

72.11.1 Unless otherwise specifically exempted from this article, It shall be unlawful for any person, either directly, indirectly, or by an agent, to erect or re-erect any sign or to alter or repair in the City of Huntsville any sign exceeding 50 percent of value unless an application for a permit shall have been made to the zoning administrator and a permit shall have been issued therefor. Every permit shall be considered cancelled if active work is not commenced within a period of 90 days from the date of its issuance. Each applicant is allowed one 90-day renewal for each sign permit provided that the request for a renewal shall be filed in writing with the zoning administrator before the expiration of the initial permit. The 90-day renewal period shall start to run upon the issuance of the renewal permit regardless as to whether the initial 90- day period has run.

72.11.2 *Permit review.*

(1) An application for a permit shall be submitted to the zoning administrator on

the form supplied by the zoning administrator and shall be accompanied by each of the following:

(a) The written consent of the property owner or lessee desiring any sign to be erected, and, when required by the zoning administrator, a copy of the deed or lease of the premises upon which the sign is to be located;

(b) Plans and specifications setting forth the character of the sign in all its structural parts, and, except in the case of attached signs, by an accurate engineering survey of the property designating the location of all existing signs on the property and the proposed location of the desired sign; and

(c) Such other information as may be reasonably required by the zoning administrator in his administration and enforcement of this article.

(2) An application for a sign permit shall include drawings and text sufficient to:

(a) Show the location on the premises of the proposed sign(s);

(b) Show the dimensions of the proposed sign(s) and related support structures;

(c) For signs for which the dimensions of the lettering or message are specified in this ordinance, show such dimensions;

(d) Show proposed lighting of the proposed sign;

(e) For a sign including electronic elements, sufficient information to demonstrate that the sign will conform with the performance and other requirements established in this article; and

(f) For a sign requiring electricity, information sufficient to apply for an electrical permit; and

(g) The applicable fee.

(h) If the zoning administrator determines that the proposed sign conforms with the requirements of this article, the zoning administrator shall issue the permit(s) required for the erection or installation of such sign.

(i) If the zoning administrator determines that the proposed sign fails to conform with any requirement of this article, the zoning administrator may:

(i) If the ways in which the failures to conform involve dimensions, approve the application subject to the condition that it be amended to conform fully with this article; or

(ii) Deny the application in writing, specifying the ways in which the proposed sign fails to conform with this article.

(j) If the application is not approved or denied, in writing, by the zoning administrator within 30 business days of the date of application, it shall be deemed automatically denied unless an extension of time is agreed upon, in writing, by the applicant and zoning administrator.

72.11.3 *Permit exceptions.* The following signs are allowed by this article but do not require a sign permit or fee. Additionally, any sign area for these signs do not count toward the sign area allowances specified in this article for all other permitted signs. Permit-exempt signs may still be subject to building code or other applicable code requirements.

(a) Signs or notices issued by any court, officer, or other person in performance of a public duty, or required by other laws or ordinances. Any such sign shall be removed no later than seven days after the last day it is required to be displayed;

(b) Any public safety sign that is installed by the City of Huntsville or other governmental agency having jurisdiction that are intended to protect the health

and safety of the public that includes traffic control, street name, directional signs, and other signs that may or may not be located in the right-of-way;

(c) Signs that are located within a stadium, open-air theater, park, arena or other similar outdoor use that can only be viewed by persons within such stadium, open-air theater, park, arena or other similar outdoor use provided that any structure on which the sign is attached is permitted, as may be required by the city;

(d) Signs that are an integral part of the original construction of vending or similar machines, drive-through facilities, automated teller machines, or similar devices that are not of a size or design as to be legible from a street or by any person other than those using the machine or device;

(e) Sign face changes where the sign structure is designed with interchangeable panels and one of the panels is replaced without changing the structure, including any changes to the total sign face area, height or alteration of the sign cabinet;

(f) Changes of copy on signs with changeable copy, including electronic message signs and electronic display signs;

(g) Certain temporary signs as established in section 72.6;

(h) One wall sign, mounted flush to the façade of an individual residential dwelling unit, that is not illuminated and does not exceed two square feet in area;

(i) The posting of an address for a house or building is a public safety issue regulated under chapter 23, article V of the city code, and not this article;

(j) Signs that are an integral part of the historic character of a structure that has been designated an official landmark or historic structure by any agency or body of the governments of the United States, State of Alabama, Madison or Limestone Counties, or the City of Huntsville, or that otherwise forms an original part of the structure and has only historic significance;

(k) Any signs located on umbrellas, seating, or similar patio furniture;

(l) Any warning signs or traffic safety signs required by public utility or infrastructure providers;

(m) Hand-held signs not set on or affixed to the ground;

(n) General maintenance, painting, repainting, cleaning and other normal maintenance and repair of a sign or any sign structure unless a structural change is made.

72.11.4 *Permit fees.*

(a) The zoning administrator shall collect a minimum of $25.00 for each permit issued at the time an initial or renewal application is made. For signs with an estimated total install cost of over $1,000.00, the permit fee shall be $25.00 plus one-half percent of the estimated installed cost exceeding $1,000.00.

(b) A permit fee of $25.00 shall be collected for each pair of driveway signs at the entrance from a public street.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.12. Inspections.

All signs in the City of Huntsville for which permits are required under this ordinance may be subject to an annual inspection by the zoning administrator. Such inspection may take place beginning immediately after the adoption of this ordinance and thereafter may be conducted annually.

(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.13. Maintenance.

(1) All signs shall be maintained in safe condition, free from damage or the results of excessive weathering.

(2) At any time the zoning administrator shall find that any allowed sign is in a bad state of repair, or is in danger of falling, or presents a

hazard from electrical shock or fire, or at any time an allowed sign is found to be in such bad state of repair or maintenance as to adversely affect the property values in the surrounding neighborhood, then said zoning administrator shall make and enter an order directed to the owner or person in charge of said sign commanding its removal or its repair or maintenance as therein stated.

(3) Any orders issued under this section shall be subject to an appeal to the board of zoning adjustment in the same manner as other appeals are taken to said board. The board of adjustment is hereby empowered to hear said appeal and to make and enter an order directing the repair or maintenance of said sign upon a finding by said board that the condition of the sign, due to lack of maintenance, or disrepair, is a nuisance and adversely affects the property values in the surrounding neighborhood.

(4) Appeals from the board of zoning adjustment shall lie to the circuit court in the same manner as all other appeals.
(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

72.14. Severability.

Should any section or provision of this ordinance be held void or invalid, it shall not affect the validity of any other section or provision thereof which is not of itself void or invalid, it being the purpose and intention of the city council to enact each separate section and/or subsection separately.
(Ord. No. 21-46, § 1(Exh. A, § A), 2-25-2021)

ARTICLE 73. SUPPLEMENTARY REGULATIONS AND MODIFICATIONS

The provisions of this zoning ordinance shall be subject to such exceptions, additions, or modifications as herein provided by the following supplementary regulations:

73.1. Uses; accessory and temporary.

73.1.1. *Accessory uses.*

(1) *Definitions; examples.*

(a) An accessory use is defined as a use on the same lot with, and of a nature customarily incidental and subordinate to, the principal use permitted on such lot.

(b) This definition includes, but shall not be limited to, such customary home occupations as the offices of a doctor, lawyer, architect, notary, artist, and dressmaker.

(c) In the case of a dwelling unit occupied by no more than two adult residents, the definition also includes the taking in by a resident, for compensation, of not more than three (3) non-transient boarders (meals included) or three (3) non-transient roomers; provided, however, that the term does not include individuals who occupy the space as an incident of employment therein.

(2) Accessory uses permitted in residential districts must adhere to the following requirements:

(a) Except in the case of the taking in of boarders or roomers, accessory uses shall be engaged in the main building only and shall be conducted only by one person resident in said building.

(b) In the case of the taking in of boarders or roomers, the accessory use shall be engaged in the main building only, shall be conducted only by an individual actually residing in the dwelling unit, and shall only be allowed where the dwelling unit does not have a second kitchen (see section 10.6 of this Zoning Ordinance concerning second kitchens).

(c) The floor area designed or used for such accessory use shall not exceed the following percentages of total floor area of the dwelling unit:

Twenty percent for residence 1 and 1-A districts. In the case of roomers and boarders, only their private rooms shall be counted toward the maximum percentage.

Twenty-five percent for residence 1-B district. In the case of roomers and boarders, only their private rooms shall be counted toward the maximum percentage.

Thirty percent for residence 2 and 2-A districts. In the case of roomers and boarders, only their private rooms shall be counted toward the maximum percentage.

Thirty-five percent for residence 2-B district. In the case of roomers and boarders, only their private rooms shall be counted toward the maximum percentage.

(d) There shall be no external evidence of such accessory use or customary home occupation except one sign, not larger than two square feet in area, may be displayed provided such sign must be directly attached to the residence and must not be illuminated.

(3) Private swimming pools constructed in a residential district shall be located in the rear yard and shall be at least five feet from any other structure and a minimum of five feet from all property lines.

(4) Child care and group child care homes. A child care home shall be permitted in all zoning districts permitting residences, and a group child care home shall be permitted in residence 2-B districts, provided that:

(a) The dwelling and lot conform to all applicable regulations for the zoning district;

(b) The child care activity does not utilize an accessory structure;

(c) An off-street drop-off/pick-up area is provided if the facility is located on a major street;

(d) The facility displays only one sign, not larger than two square feet in area, attached directly to the residence and not illuminated; and

(e) A copy of the license issued by the department of human resources is filed with the zoning administrator.

(5) *Photovoltaic solar energy system, on-site.* A photovoltaic solar energy system ("solar energy system") is permitted in all zoning districts as an accessory use to a principal use except in the case of a non-residential use in a residential zoning district. A solar energy system as an accessory use to a non-residential use in a residential zoning district requires a special exception. A solar energy system is considered an accessory use when the power generated from the solar energy system is equal to or less than the expected power usage of the principal use and any other accessory use on the property based on Huntsville Utilities Electric Department estimates. The installation and construction of a solar energy system shall be subject to the following development and design standards:

(a) A solar energy system shall provide no more electricity than is needed for the principal use and/or accessory use of the lot on which the solar energy system is located and shall not be used for the generation of energy for the sale of energy to users other than the homeowner's primary supplier of electricity.

(b) The owner of a solar energy system connected to the utility grid shall provide written authorization from the local utility company acknowledging and approving such connection.

(c) A solar energy system may be roof mounted, pole mounted or ground mounted.

(d) A roof mounted system may be mounted on a principal building or accessory building. A roof mounted system, whether mounted on the principal building or accessory building, may not exceed the maximum principal building height or acces-

sory building height, as the case may be, that is specified for the building type in the applicable zoning district. In no instance shall any part of the solar energy system extend beyond the edge of the roof. For purposes of the height measurement, solar energy systems other than building integrated systems shall be considered to be mechanical devices and are restricted consistent with other building mounted mechanical devices.

(e) A ground mounted or pole mounted system, measured when oriented at maximum design tilt, shall not exceed the maximum building height for accessory buildings in the applicable zoning district.

(f) Ground mounted and pole mounted solar energy systems shall be located so that any glare is directed away from an adjoining property.

(g) In residential zoning districts, no portion of a solar energy system shall be located within or above any front yard.

(h) In a non-residential zoning district, no portion of a solar energy system shall be located within or above any required front yard.

(i) In all zoning districts, the minimum solar energy system setback distance from the side and rear property lines, measured when the system is oriented at minimum design tilt, shall be equivalent to the accessory building setback requirement of the applicable zoning district.

(j) All electrical lines/utility lines shall be buried underground.

(k) For ground mounted and pole mounted solar energy systems, screening, capable of providing year round screening, shall be provided along the non-reflective sides of the solar energy system or collection of systems.

(l) The installation of a solar energy system shall not cause to apply the requirements of Article 70—Off-Street Parking and Loading Requirements or of Article 71—Off-Street Parking and Vehicular Use Area (PVA) Landscaping Requirements.

(m) Any solar energy system that has not been in use for its original purpose for a period of 180 days shall be deemed to be abandoned. The solar energy system owner and/or the property owner shall have an additional 90 days to remove the abandoned solar energy system and any appurtenant structures or to reactivate the solar energy system.

(Ord. No. 25-267, § 3, 6-12-2025)

73.1.2. *Temporary uses.*

(1) Temporary structures, including portable storage structures, incidental to construction of buildings or structures with an active building permit are allowed provided such structures shall be removed following completion or abandonment of such construction.

(2) A temporary real estate sales office is permitted in a subdivision during the development of such subdivision provided its use relates only to the subdivision in which it is located and provided it shall be removed after the subdivision is developed. (63-93)

(3) One portable storage structure may be placed on a residential lot without an active building permit subject to the following conditions and limitations:

(a) Prior to placement of the portable storage structure on the lot, the property owner shall apply for and obtain a portable storage structure permit from zoning administration; and

(b) Multi-family dwellings are allowed one portable storage structure per dwelling unit and the portable stor-

age structures shall not be placed in required parking spaces or in required landscaped areas; and

(c) The permits for the portable storage structures shall be conditional permits and each residential lot is limited to a maximum of three 30-day permits within any 12-month period; and

(d) The portable storage structure shall not exceed 160 square feet in area and ten feet in height; and

(e) The portable storage structure shall be set back a minimum of ten feet from the front property line and a minimum of five feet from the side and rear property lines and a minimum of five feet from all other structures on the property and if placed in a front yard shall comply with the safe sight distance triangle regulations which are defined by the adopted standards of the American Association of State Highway and Transportation Officials (AASHTO); and

(f) The portable storage structure shall not encroach on public property or public rights-of-way; and

(g) No mechanical, plumbing or electrical installations or connections are to be made to the portable storage structure; and

(h) The portable storage structure shall have clearly posted on the exterior of the unit a copy of the current permit issued for the portable storage structure, and the date the portable storage structure was placed at the site; and

(i) The conditional permit approval for the portable storage structure may be revoked by the zoning administrator at any time should the property owner's utilization of such portable storage structure result in unsafe or unsanitary conditions on the site or upon violation of any of the conditions or limitations stated herein.

(Ord. No. 07-460, § 8, 6-28-2007; Ord. No. 08-529, § 2, 8-14-2008; Ord. No. 12-466, § 2, 8-23-2012)

73.2. Fallout shelters.

73.2.1. Fallout shelters for unlimited occupancy are permitted as a principal or accessory structure in any business or industrial district.

73.2.2. Fallout shelters operated by a local, state or federal governmental agency may be located in any district.

73.2.3. Aboveground shelters intended for occupancy by not more than two families are permitted in any district as an "accessory structure" subject to the requirements of section 73.8 hereof.

73.2.4. Underground shelters intended for occupancy by not more than two families are permitted at any location in any yard notwithstanding other provisions of this ordinance, provided the structure or its overburden does not exceed 30 inches above the natural grade of the yard.

73.2.5. Fallout shelters intended for occupancy by more than two families may be permitted as special exceptions in accordance with section 92.5.2 hereof, in cases where such use would not be damaging or injurious to surrounding land uses.

73.2.6. Nothing in this ordinance shall be construed to prohibit the multiple use of a fallout shelter with other permitted uses of the district in which it is located.

73.3. Trailers.

73.3.1. All trailers except as hereinafter provided shall be located in approved trailer parks regardless of whether or not such trailer is occupied.

73.3.2. Vacant.

73.3.3. Trailers may be temporarily parked and used as a bona fide construction office and the quarters of a lone night watchman at the construc-

tion site provided a construction office trailer permit is secured from the manager of inspection.

73.3.4. Office trailers are permitted in industrial districts only as bona fide sales or rental offices for only the following uses: trailer sales, new and used car sales and trailer park rental.

73.4. Future street lines.

Any lot intercepted by a future street line as indicated on the duly adopted major street plan, or as the same may be hereafter amended, shall protect and preserve such future street line by considering the same to be the lot line for the purposes of establishing minimum required yards, minimum required lot area, minimum required lot width, and maximum building area of such lot. If such major street plan established a greater front yard requirement than contained in this ordinance, then such greater front yard requirement shall be required.

73.5. Rear dwelling prohibited.

No dwelling shall be erected on a lot which does not abut on at least one street for at least 20 feet.

No building in the rear of a main building on the same lot may be used for residential purposes.

73.6. Dual occupancy or uses.

No building or structure may be used for residential purposes when said building or structure's primary purpose is used for office or other non-residential uses, except in a neighborhood business C-1 district when in compliance with section 20.1.1 (residential dwelling units); an office district; a planned development-housing district; a central business C-B district; or in a general business C-3 district.
(Ord. No. 02-196, § 2(73.6), 4-25-2002; Ord. No. 06-1201, § 3, 1-25-2007; Ord. No. 11-899, § 3, 1-26-2012)

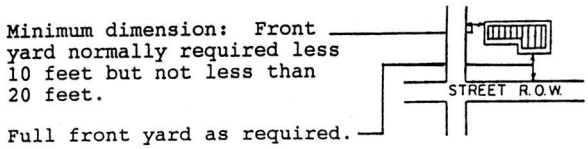
73.7. Yards.

73.7.1. Projecting architectural features. The space in any required yard shall be open and unobstructed except for the ordinary projections of window sills, belt courses, cornices, eaves, chimneys and other architectural features provided that such features shall not project more than two feet into any required yard.

73.7.2. Porches. Any porch or carport having a roof shall be considered a part of the building for the determination of the size of yard or lot coverage.

73.7.3. Terraces. A paved terrace shall not be considered in the determination of yard sizes or lot coverage provided that such terrace is unroofed and without walls or parapets or other forms of enclosure. Such terrace, however, may have an open guard railing not over three feet high and shall not project into any yard to a point closer than two feet from any lot line.

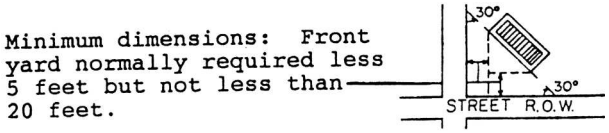
73.7.4. Front yards. Where the developed lots within 100 feet on the same side of the street of any undeveloped lot have a greater or lesser front yard than required herein, the front yard of such undeveloped lot shall be within five feet of the average front yard; provided no front yard shall be less than 20 feet except in a residence 1-C district, and further provided this section shall not apply to secondary front yards, or lots fronting on arterials and major collectors as established by the major street plan.



73.7.5. Front yards required in business districts may contain pump islands of service stations provided such pump islands are a minimum of 15 feet from all front property lines, except that covers for such pump islands, whether attached or unattached to the main building, may extend five feet from the center of the said pump island.

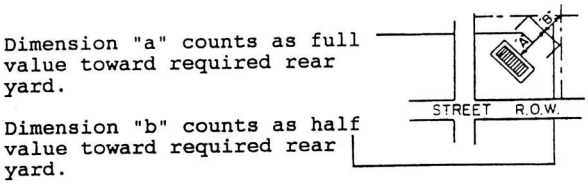
73.7.6. Rear yards may contain accessory buildings provided such buildings must comply with section 73.8 hereof.

73.7.7. Corner lots in residential districts have two front yards.



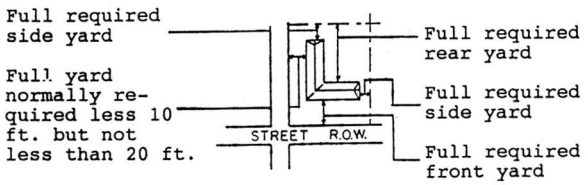
(1) Houses whose fronts are oriented parallel to a street shall maintain required front yard on such street. The front yard on the remaining street may be ten feet

less than the normal front yard required provided it is not less than 20 feet to the nearest point on the street line.



Street R.O.W. 1

(2) Corner lots having houses oriented at an angle of 30 degrees or more to abutting streets may have five feet less than the normally required front yard on each street provided the house shall not be situated closer than 20 feet to the nearest point of any street line.



Street R.O.W. 2

(3) Triangular portions of rear yards may count as one-half foot for each foot of its altitude; the base of such triangle being parallel to the house and intercepting a lot line.

Street R.O.W. 3

(4) "L" shaped houses oriented on corner lots as shown in the following diagram shall have the minimum required yards as illustrated.

Street R.O.W. 4

73.7.8. Office buildings of not more than two stories located on corner lots in residence 2-B districts, neighborhood business C-1 and C-2 districts, and light and heavy industry districts shall be required to have the following yards:

(1) One front yard of required depth;

(2) One front yard ten feet less than the required front yard but not less than 15 feet;

(3) One rear yard of required depth; and

(4) One side yard of required depth.

Placement of the required front yard does not necessarily determine the placement of the front door. This regulation shall not be construed as voiding corner restrictions for other districts or corner visibility requirements.
(Ord. No. 01-644, § 2, 9-13-2001; Ord. No. 19-780, § 1, 10-24-2019; Ord. No. 22-898, § 1, 12-15-2022)

73.8. Location of accessory structures on residential lots.

Accessory structures in residential districts and on any lot used primarily for residential purposes shall conform to the following regulations:

73.8.1. No accessory structure shall be erected in any front yard or any required side yard except underground fallout shelters provided for under section 73.2 hereof. Accessory structures shall not exceed two stories in height and shall not cover more than 30

percent of any required rear yard and shall be at least five feet from all lot lines and ten feet from any other structure on the same lot.

73.8.2. On corner lots, detached residence accessory structures (except underground fallout shelters) shall not be located closer to a street than the minimum building line.

(Ord. No. 09-1053, § 6, 12-17-2009; Ord. No. 11-899, § 3, 1-26-2012)

73.9. Height modifications.

73.9.1. Except as provided in sections 73.9.2 and 73.20 hereof, the height limitations of this ordinance shall not apply to church spires, barns, silos, monuments, missiles, flag poles, antennas, penthouses and domes not used for human occupancy, nor to chimneys, water tanks, and necessary mechanical appurtenances usually carried above the roof level. Such features, however, shall be erected only to such height as is necessary to accomplish the purpose they are to serve and shall not exceed in cross sectional area 20 percent of the ground floor area of the building.

73.9.2. Airport obstruction zoning. Where the height provisions of this ordinance are less restrictive than the height provisions of the airport obstruction zoning ordinance, as herein defined, the provisions of the airport obstruction zoning ordinance shall apply.

73.9.3. Obstruction marking and lighting. All obstructions as defined by the Civil Aeronautics Board publication "Obstruction Marking and Lighting" shall be marked and lighted as specified by said publication at the owner's expense.

(Ord. No. 96-1008, § 3, 1-23-1997)

73.10. Corner visibility.

On a corner lot in any district except the general business C-3 district, no fence, wall, hedge, structure, or planting, or other obstruction to vision between the heights of 2½ feet and 15 feet above street level shall be erected, placed, or maintained within the triangular area formed by the intersection of street lines with a straight line joining said street lines at points which are 30 feet distant from the point of intersection measured along said street lines.

73.11. Curb cuts; driveways.

All curb cuts or driveway entrances to major streets shall be constructed only after the city traffic engineer and the city engineer have ascertained that the proposed construction would not create a traffic hazard, would not create a drainage problem, and would not be detrimental to proposed improvements to said major street. Notwithstanding, any curb cut or driveway entrance shall meet all city engineering specifications.

73.12. Access.

No structure shall be erected on a lot that does not abut on and have legal access to at least one street for the minimum frontage distance required by the zoning district; if no street frontage is specified, then the minimum street frontage shall be 20 feet. Notwithstanding other provisions of this ordinance, the planning commission shall have the discretion and authority to require that each use to which land is put in the City of Huntsville have sufficient means of access to serve the particular needs of the land affected prior to the approval by the planning commission or prior to the issuance of a building permit.

(Ord. No. 96-259, § 1, 5-23-1996)

73.13. Multiple-family dwellings (apartment buildings).

Plans for proposed multiple-family dwellings containing two or more buildings which are located on a parcel of land not subdivided into the customary streets and lots, or which contain a building not oriented so the main entrance(s) directly faces a street, shall be presented to the planning commission for review. The commission shall make certain the proposed development meets the following requirements:

73.13.1. The proposed development shall be compatible with requirements and intent of the subdivision regulations relative to access, drainage, utilities, and major streets.

73.13.2. Sidewalks not less than four feet wide are required in the project area leading from all front and rear doors to streets. Sidewalks are also required along all property of the project abutting streets.

73.13.3. Off-street parking spaces shall be provided as follows:

(1) *Residence 2-A district.* One and one-half spaces for each dwelling unit.

(2) *Other districts.* One and one-quarter spaces for each dwelling unit.

73.13.4. The following density controls are required:

(1) Residence 2-A district:

(a) Eight thousand square feet of land area for the first two dwelling units; 3,000 square feet for each additional dwelling unit; provided, however, such required land area must be exclusive of public or private vehicular access ways but may include parking space.

(b) Closest permitted distance between any two buildings shall be 14 feet for one-story buildings; 16 feet for two-story buildings.

(c) Minimum distance from an apartment building to a parking space shall be ten feet.

(d) Minimum distance from the front of an apartment building shall be 50 feet to a major arterial and 30 feet to other public streets.

(e) On corner lots, the minimum distance from the side of an apartment building shall be 50 feet to a major arterial and 25 feet to other public streets.

(f) Minimum distance from side of apartment building to side property line shall be eight feet for one-story buildings; ten feet for two-story buildings.

(g) Minimum distance from rear of apartment building to side property line shall be 32 feet without a buffer; 27 feet if a buffer is provided.

(h) Minimum distance from either rear or side of apartment building to rear lot line shall be 35 feet.

(i) Minimum distance from front of apartment building to front of another apartment building shall be 40 feet.

(j) Windows in all apartment buildings shall have not less than a 30-foot view (measured perpendicularly from the window) unobstructed by other buildings located on the same parcel of land.

(k) Maximum number of structures shall be limited to four structures per acre.

(l) No front of a multi-family dwelling building shall be in the rear of another building.

(2) Other districts permitting multiple-family dwellings:

(a) Six thousand square feet of land area for the first two dwelling units; 2,000 square feet for each additional dwelling unit; provided, however, such required land area must be exclusive of vehicular accessways but may include parking space.

(b) Closest permitted distance between any two apartment buildings shall be ten feet for one-story buildings; 14 feet for two-story buildings.

(c) Minimum distance from an apartment building to a parking space shall be eight feet.

(d) Minimum distance from the front or side of an apartment building shall be 50 feet to a major arterial and 20 feet to other public streets.

(e) Minimum distance from side of apartment building to side

property line shall be seven feet for one-story buildings; eight feet for two-story buildings.

(f) Minimum distance from rear of apartment building to side property line shall be 30 feet without a buffer; 25 feet with a buffer.

(g) Minimum distance from either rear or side of apartment building to rear lot line shall be 25 feet.

(h) Minimum distance from front of one apartment building to front of another apartment building shall be 30 feet.

(i) Windows in all apartment buildings shall have not less than a 20-foot view (measured perpendicularly from the window) unobstructed by other buildings located on the same parcel of land.

(j) Maximum number of structures shall be limited to four structures per acre.

(k) No front of a multi-family dwelling building shall be in the rear of another building.

(Ord. No. 22-685, § 2, 10-27-2022; Ord. No. 22-484, § 2, 8-25-2022)

73.14. Residential parking modifications.

For the purpose of this section, parking means the keeping on a residential lot of a vehicle regularly used or owned by a member of the residential household. A motorized vehicle that does not have a current license registration or tag is deemed to be stored only and shall not be parked in a residential yard. The following provisions of this section shall not apply to passenger automobiles or passenger vans or pickup trucks:

73.14.1. The parking of a truck, bus, or commercial vehicle greater than three-quarter ton or 9,000 pounds gross vehicle weight rating (GVWR) shall not be permitted on any residential lot, except that a truck, bus, or commercial vehicle not greater than 1½ tons or 16,000 pounds GVWR may be parked in a fully enclosed accessory structure on a residential lot. This provision includes bus conversions.

73.14.2. Refrigeration units and generators attached to vehicles shall not be operated while such vehicles are parked on a residential lot.

73.14.3. All motorized vehicles shall be parked off-street, not within nor overhanging any right-of-way, and shall not obstruct vision with respect to traffic entering or exiting any adjoining or nearby driveway or street, nor obstruct any pedestrian walkway.

73.14.4. The occupancy of any motor home, camping trailer, or similar vehicle designed or intended for occupancy is prohibited while such vehicle is parked on a residential lot.

73.14.5. All vehicles that fail to comply with section 73.14.1 shall be removed by the owner or person responsible for same within 90 days after the effective date of this ordinance, and thereafter it shall be unlawful to maintain such vehicles on a residential lot except in conformity with this ordinance.

73.14.6. No variances from section 73.14 shall be permitted.

(Ord. No. 02-1005, § 1, 1-23-2003)

73.15. Front yards along major arterials.

73.15.1. With the exception of the article 60, medical district regulations, minimum setback of 50 feet, of which the first ten feet for all non-residential uses shall be landscaped and maintained, shall be required along all major arterials, as defined in the major street plan, unless the applicable zoning regulations require a greater setback; provided however, that residential uses that do not derive their access from the major arterial shall be excluded from this provision.

73.15.2. Exterior storage of materials shall be in the side and rear yards only and shall be contained and screened by fencing or landscaping in such a manner as to be neat in appear-

ance when viewed from any street. No exterior display of products or merchandise is permitted in the required front yard except for sales of farm equipment, new and used cars, trailers, recreational vehicles, and mobile homes, and these uses shall not be permitted in the first ten feet of the required front yard.

73.15.3. Off-street parking spaces are not permitted in the first ten feet of the required front yard as measured from the arterial right-of-way. Areas used for parking of motor vehicles shall be paved or surfaced with at least four inches of limestone.

73.15.4. All businesses offering merchandise of any description for sale or rent shall have a permanent sales building on the lot except as provided in section 73.15.4.

73.15.5. The temporary, seasonal sale of perishable farm products is permitted so long as all evidence of such operations is removed from the premises each night and such operations are not conducted in any part of the required front yard.

73.15.6. The first ten feet of the required front yard shall be landscaped with at least an average of one tree and five shrubs per each 50 linear feet of frontage or portion thereof and the area shall be planted with a permanent evergreen ground cover. Shrubs are optional in areas where a berm at least three feet in height is used and the berm is planted with a permanent evergreen ground cover. Trees and shrubs shall be well distributed, though not necessarily evenly spaced.

(1) All landscaping shall be installed in accordance with section 73.19, installation of landscaping.

(2) All required landscaping shall be maintained in a neat, healthy and growing condition; all unhealthy or dead plants shall be replaced by the next growing season with plants that conform to these regulations.

73.15.7. Where these regulations conflict with other applicable zoning provisions, the more stringent shall apply.

(Ord. No. 98-104, § 2, 3-26-1998; Ord. No. 18-900, § 3, 11-15-2018)

73.16. The land use intensity (LUI) system; standards, definitions, methods of measurement, general requirements and limitations.

In certain districts, and for specified uses in other districts, special forms of regulation based on the land use intensity (LUI) system and related controls apply. Standards relating to this system, definitions, methods of measurement, and general requirements and limitations are as follows:

73.16.1. *Definitions and methods of measurement relating to standard LUI ratios; requirements and limitations.* The following definitions and methods of measurement shall be used in the districts and for the uses regulated under the LUI system. Except where application to other uses is specifically indicated, floor area, open space, livability space, and recreation space ratios shall be applied only to such land area, floor area, open space, and related elements as are allocated for residential uses and accessory uses incidental to and compatible with residential uses.

(1) *Gross land area for PD districts.* Gross land area of PD districts shall be computed as all land (except that to be devoted to nonresidential purposes) within district boundaries, plus one-half of adjoining permanent open space such as streets, parks, lakes, cemeteries, streams, and the like; provided width of adjoining open space credited shall not exceed in number of feet the numerical LUI rating for the district unless otherwise specified. Computations involving such open space shall be as provided for in section 3.1, lot, area for gross area of lots.

Gross land area of PD districts shall not be construed to include lands not beneficial to residential use due to location or character, or areas used predominantly for commercial or other nonresidential purposes.

As a further guide, where floor area of a building is predominantly in residential use, the building site shall be included in residential land area (as, for example, in the case of a multifamily structure with ten percent of its floor area in accessory commercial and service uses).

(2) *Residential floor area defined; inclusions and exclusions; maximum limitation.* Residential floor area is the sum of areas for residential use on all floors of buildings, measured from the outside faces of the exterior walls, including interior halls, lobbies, stairways, elevator shafts, enclosed porches and private balconies, and belowgrade floor areas used for habitation and residential access.

Not countable as residential floor area are:

Open terraces, patios, atriums, or balconies; carports, garages, breezeways, tool sheds; exterior accessways serving more than one unit; special purpose areas for common use of occupants, such as recreation rooms or social halls; staff space for therapy or examination in care housing;

basement space not used for living accommodations; or any commercial or other nonresidential space.

Maximum residential floor area shall not exceed the number of square feet derived by multiplying gross land area by the floor area ratio (FAR) applying.

(3) *Open space defined; inclusions and exclusions; minimum requirements.* Open space is the total horizontal area of uncovered open space plus half the total horizontal area of covered open space subject to limitations set forth below:

Uncovered open space is total gross land area not covered by buildings, plus open exterior balconies and roof area improved as recreation space.

Covered open space is open space closed to the sky, suitable and designed for use as open space and/or livability or recreation space. Such space shall have not less than 20 percent of its perimeter open or partially open. "Partially open" is to be construed as having at least 50 percent open and unimpeded by visually opaque material. Examples of covered open space are covered balconies, covered portions of roof area, or spaces under buildings supported by posts, columns, or cantilevers. The square feet countable as covered open space shall not exceed the square footage of the open or partially open sides.

Minimum open space required shall be not less than the number of square feet derived by multiplying gross land area by the open space ratio (OSR) applying.

(4) *Livability space defined; inclusions and exclusions; minimum requirements.* Livability space is space including lawns and other landscaped areas, walkways, paved terraces and sitting areas, outdoor recreation areas, and landscaped or sidewalk portions of street rights-of-way, appropriately improved and located for outdoor use by occupants and visitors, for safety and convenience, and for aesthetic appeal. Such space shall not be used by vehicles except for emergency actions.

Minimum livability space required shall not be less than the number of square feet derived by multiplying gross land area by the livability space ratio (LSR) applying to the land use intensity.

(5) *Recreation space defined; inclusions and exclusions; minimum requirements.* Recreation space, part of total and livability open space, is exterior area appropriately improved for common recreational use.

Active recreation space (swimming pools, shuffleboard courts, tennis courts, tot lots, and the like) for common use shall be a minimum of 40 feet from any residential window at the same level, and this distance may be increased as required in particular circumstances. Both active and passive recreation space (with the latter consisting of walkways, sitting areas, and the like) for common use shall be so located, designed, screened, and buffered as to minimize potential adverse effects on privacy or tranquility of nearby residential units. In the case of active recreation space, character, hours of use, and lighting shall be considered in establishing any special conditions and safeguards.

Recreation space may be located at ground level, or on suitably improved roof, terrace or balcony levels.

Minimum recreation space required shall be not less than the number of square feet derived by multiplying gross land area by the recreation space ratio (RSR) applying.

(6) *Car space defined; requirements.* Occupant car space is garage, carport, or other off-street parking space, together with appropriate access and maneuvering ways, available to residents without time limits.

Total car space is occupant car space plus other parking space available for unlimited or seldom limited time periods, primarily for guests. Where curb parking on streets is permissible, and likely to remain so, part or all of such other parking space requirements may be met by such curb parking.

The occupant car ratio (OCR) and total car ratio (TCR) for the applicable land use intensity times the number of dwelling or lodging units equals the number of occupant and total parking spaces required, except in districts where lodging unit requirements are otherwise specified.

73.16.2. *Open space and building spacing.* Yards, courts and other open spaces required herein in relation to structures or portions of structures are intended to perform a variety of functions. Among these (as appropriate to and required by the uses involved and their location) are ensuring adequate privacy; desirable outlook; natural light and ventilation; access to and around buildings; off-street parking and loading spaces and service areas; space for landscaping; spacing between buildings and portions of buildings for reducing potential adverse effects of noise, odor, glare, or hazards from fire; and recreational space near buildings.

These regulations, supplementing others set forth elsewhere in this ordinance, shall apply to yards, courts, other open spaces and building spacing in particular districts, or in relation to particular uses, as specified in regulations relating to such districts or uses.

73.16.3. *Rules concerning location and use of open space:*

(1) Except in the case of fixed yards required adjacent to streets or lot lines, or as otherwise specified in regulations for particular districts, required yards and courts relating to residential uses controlled by these regulations need not be at ground level if, and to the extent that, in other locations their functions, nature, orientation, areas, access, and improvements are appropriate to uses within the buildings and adjoining buildings, and particularly to adjacent uses at the same level of the building and overviewing uses in the same or nearby buildings.

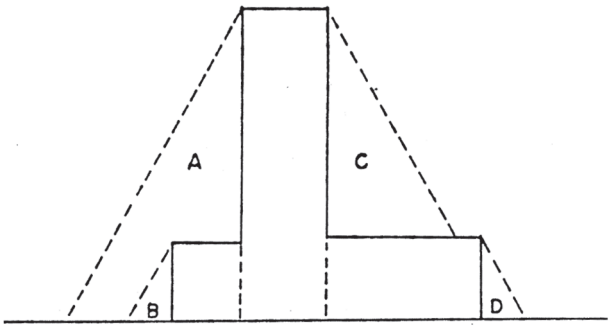
(2) Where lots or building sites adjoin permanent open space in parks, common open space, or other open space, excluding streets or drives, intended to remain so for perpetuity, half of the width of such open space shall be included in meeting building spacing requirements subject to the following limitations and exceptions:

(a) Where walls containing primary or secondary windows at or below the third story level face parking areas for ten or more cars, the full dimension of the required yard shall be provided and no such dimension shall include any portion of the parking area. Where such walls rise from decks of buildings, the third story level shall be construed to be the third story level above such decks.

(b) Where walls containing primary or secondary windows at or below the third story level face other permanent off-site open space which is likely to be of a nature adversely affecting privacy or tranquility of residential occupancy, then the full dimension of the required yard or open space shall be provided and no such dimension shall include any portion of such off-site open space. Where such

walls rise from decks of buildings, the third story level shall be construed to be the third story above such decks.

(3) Where lots or building sites are located adjacent to public or private streets or private drives, then the full dimension of the required yard shall be provided from the back of the curb or pavement edge of a street, except for lots or buildings adjacent to a designated collector or major street in which case a minimum of 30 feet shall be required.



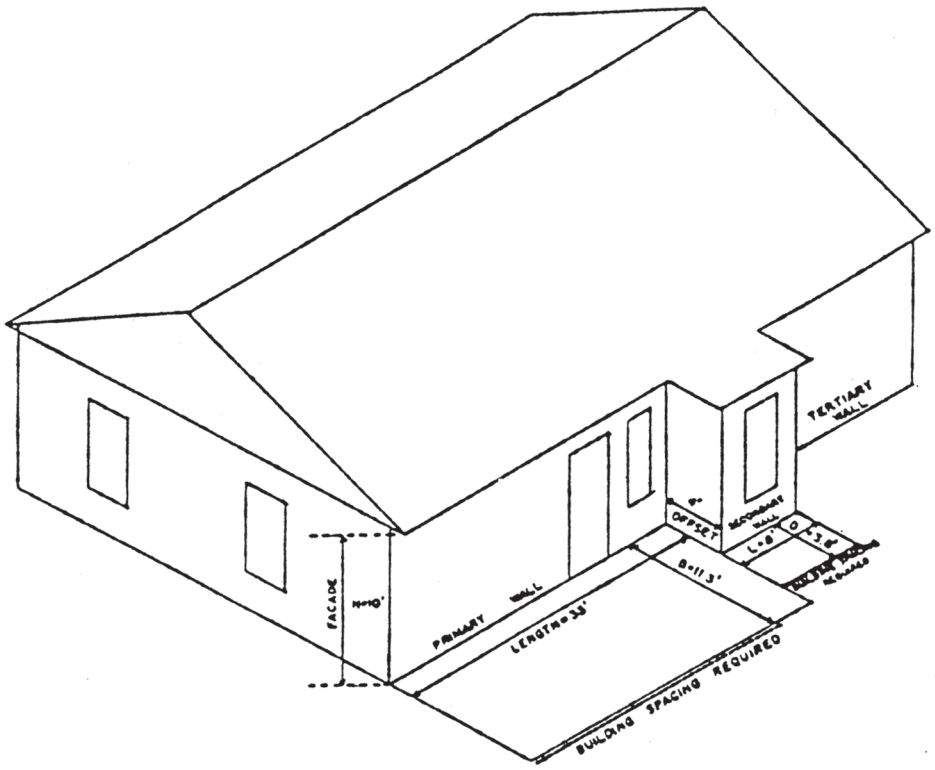
(4) Where two or more buildings containing living quarters are to be located on a single lot or tract, building sites pertaining to each shall be identified for determinations concerning compliance with spacing requirements. Open space shall be provided adjacent to lines of the building site as though they were lot lines.

(5) Spacing requirements for buildings or portions of buildings containing living quarters shall be based on horizontal length, number of stories, type of windows in walls involved, and orientation of main entrances to living quarters. Distance between walls shall be at least the sum of the depths of the open spaces required for each.

(a) Where portions of buildings contain different numbers of stories, required clearance from lot or building site lines shall be as established for the portion nearest to the lot line, except where spacing required for portions farther from the line is of greater depth, in which case the depth so established is the required clearance from the lot or site line (as projected vertically when space is provided other than at ground level). Lower portions of buildings may extend into clearance distances required for upper portions if roof areas are appropriately improved in relation to views from the same or higher levels by visual amenities such as landscaping, but such lower portions shall provide clearance to meet their own requirements.

The drawing which follows illustrates these relationships. At the left of the building, the lot or building site line would be required to be at or beyond the point at which the diagonal at A reaches the ground, since the portion of the building to which it relates requires greater spacing than does B. To the right of the building, D requires greater spacing than does C, and would therefore determine the requirement.

Permitted Overlap of Yards (vertical relationship)



(82-122)

(b) Length of walls shall be measured as the horizontal distance from corner to corner. Where walls in continuous general frontage area offset by setbacks equalling 30 percent or more of the height of the facade, the length of each segment so set off shall be measured separately in establishing

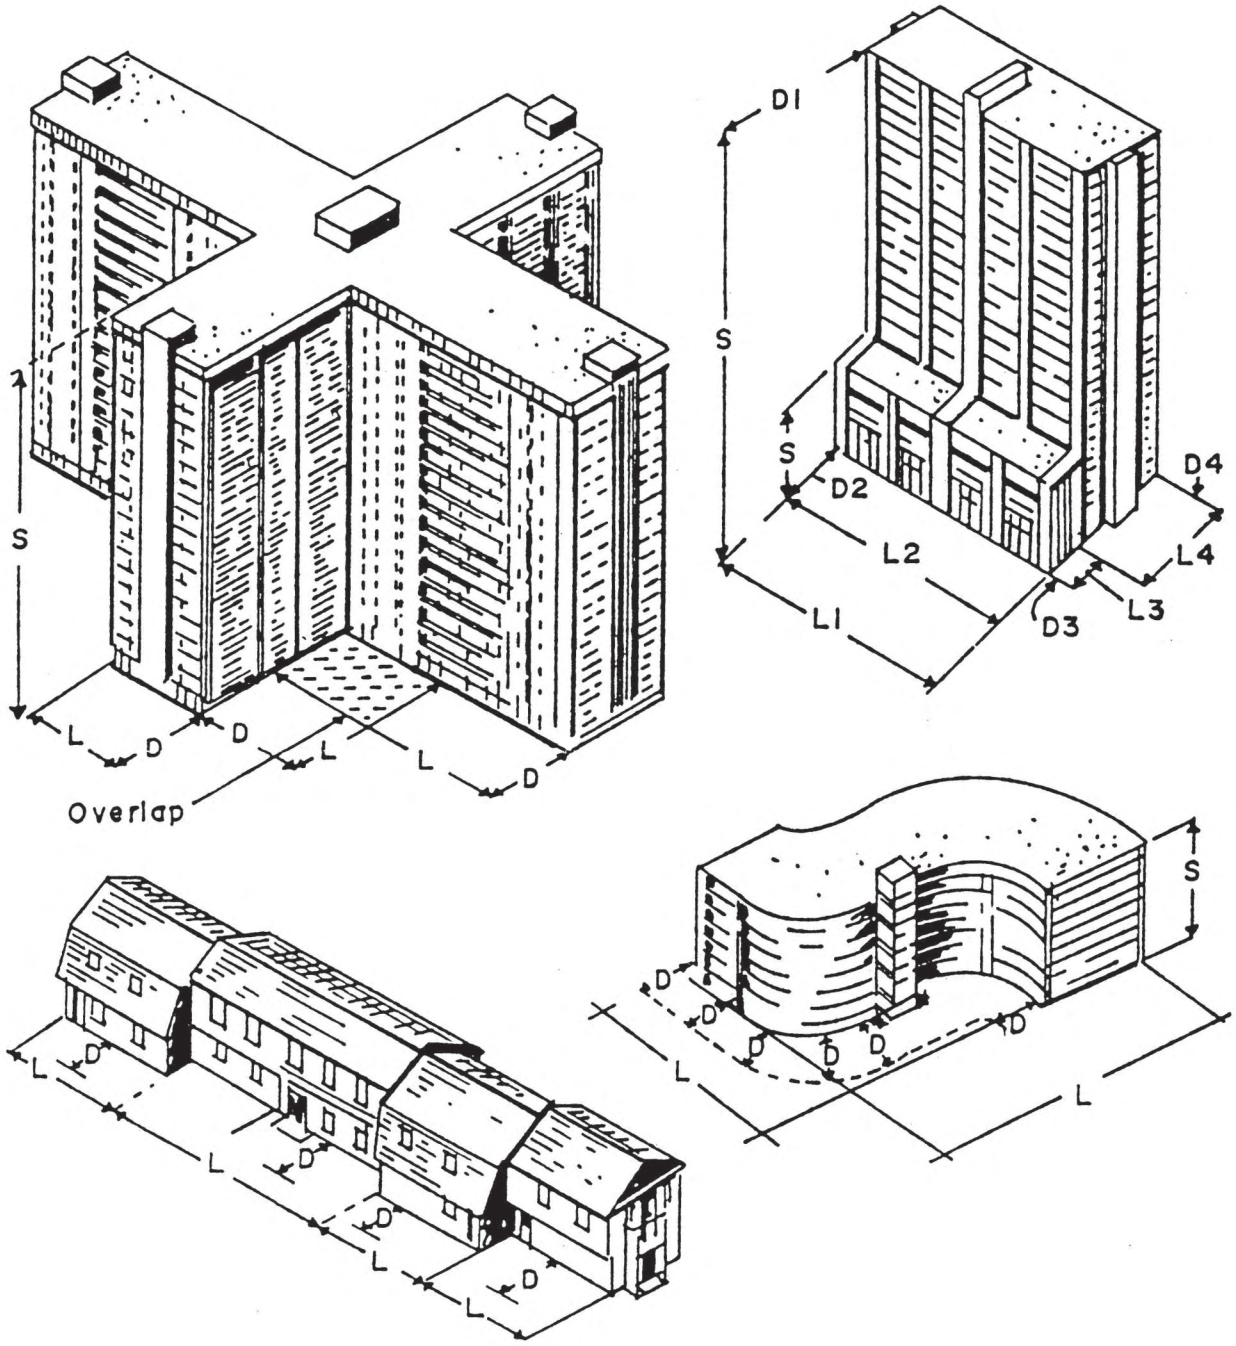
pertinent yard or open space depth, provided that where open, partially open, or enclosed structures devoted to entrances, stair wells, and/or elevator shafts project from the general alignment of a wall, such structures shall not be construed as constituting a breakpoint in lengths involving building spacing determinations.

Where walls in continuous general frontage enclose portions of buildings varying one story or more in height (as in the illustration above) length of each segment so varying shall be measured separately in computing pertinent yard depth. Length of a curved or irregularly shaped wall shall be construed as the shortest distance between the wall's end corners. Length of the wall of a circular building shall be construed as the diameter of the building.

The drawing which follows illustrates the setbacks required when there is an offset in a wall equalling 30 percent or more of the height of the facade.

Building Spacing Required

(c) Height in stories shall be computed as actual number of stories in the wall above ground level, with the following exceptions. Where the wall is along a slope, number of stories shall be construed as the arithmetic mean number, with half a story



or more considered as a full story, and less than half a story ignored in computations. When height per story exceeds an average of 11 feet, calculations involved in yard or spacing determinations shall be based on an assumed number of stories derived by dividing building height by ten feet.

Penthouses, roof shelters, and housing for mechanical equipment shall be ignored in computations involving number of stories except where they are visible from the ground level within 200 feet of the lot, are ten feet or more in height, and occupy 50 percent or more of the length of the wall at their bases, in which case an additional story shall be included in computations. On sloped sites, visibility shall be determined from the downhill side or from the sides at the same elevation only.

(d) Yard or other open space depth, between exterior building walls and adjacent lot or building site lines (projected vertically where appropriate), shall be measured horizontally in relation to the ground, and perpendicularly to straight walls or radially to curved walls. Distance at all points shall be at least equal to minimum requirements set forth herein, except as provided in section 3.1, court, and 3.1, yard, with regard to architectural and other projections.

Yard space for two walls may overlap where it does not affect the distance between two buildings.

The drawings which follow provide graphic explanation of permissible overlap and methods for measuring length of walls and depth of yards for a variety of building forms.

YARD DEPTH, BUILDING LENGTH ILLUSTRATIONS

(e) For purposes of establishing open space requirements adjacent to walls enclosing living quarters, the following definitions and classifications shall govern:

Habitable rooms are rooms designed and used for living, sleeping, eating, or cooking or combinations thereof. Bathrooms, toilet compartments, closets, halls, storage rooms, laundry and utility spaces, basement recreation rooms, and similar areas are not considered habitable rooms.

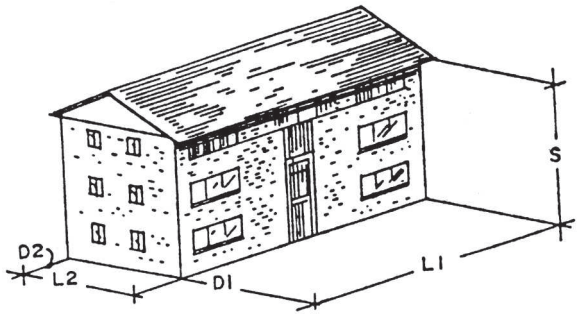
Primary windows are principal windows in habitable rooms except bedrooms and kitchens.

Primary walls are walls containing primary windows and/or main exterior entrances to individual living quarters when directly facing the primary wall of other living quarters.

Secondary windows are windows of habitable rooms other than primary windows, as defined above.

Secondary walls are walls containing only secondary or secondary and tertiary windows.

Tertiary windows are windows other than for habitable rooms.



Tertiary walls are windowless walls, or walls containing only tertiary windows.

Minimum distance from walls to lot lines or building site lines for buildings or portions of buildings containing living quarters shall be computed as follows, where D = depth in feet, L = length in feet, and S = height in stories:

(i) Primary walls: $D = 6 + 2S + \frac{L}{10}$

(ii) Secondary walls: $D = 2 + S + \frac{L}{10}$

An example of building spacing requirements is shown in the following illustration:

D1 equals 18 feet for a primary window wall

— Six feet plus two feet for each floor of a three-story building plus

— One foot for each ten feet of length (60 feet)

— 6 + 6 + 6 = 18 ft.

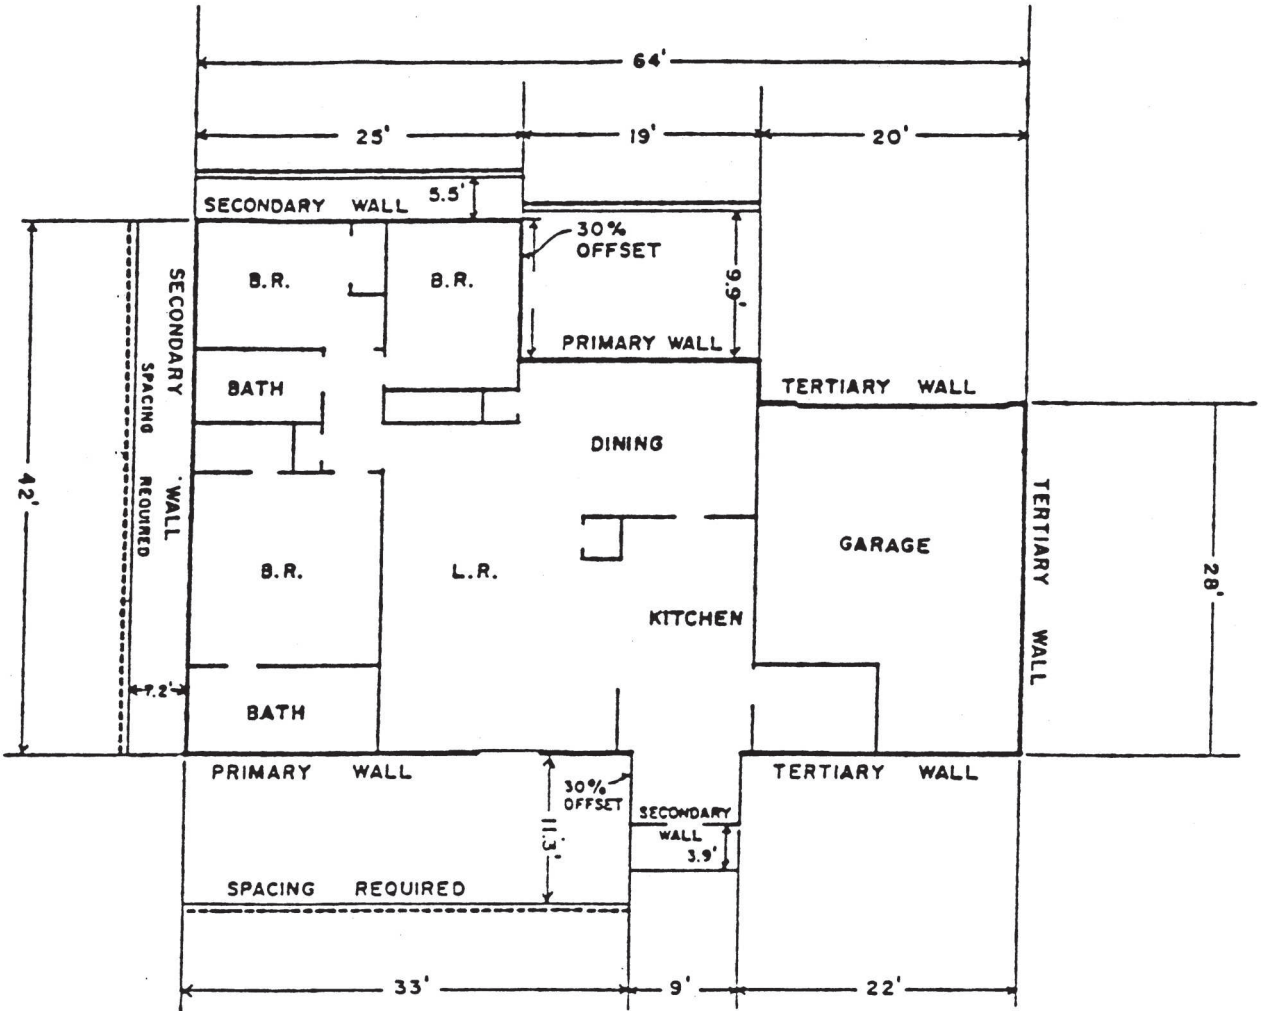
D2 equals 7.6 ft. for a secondary window wall

— Two feet plus one foot for each floor of a three-story building plus

— One foot for each ten feet of length (26 feet)

— 2 + 3 + 2.6 = 7.6 ft.

An illustration of building spacing requirements is shown in the following example, where



Primary walls: $D = 6 + 2S + \frac{L}{10}$

Secondary walls: $D = 2 + S + \frac{L}{10}$

Tertiary walls: No setback required

S = Number of Stories

L = Length of Wall

(f) Special requirements and modifications concerning courts.

(i) *Inner courts.*

1. Inner courts are open outdoor spaces enclosed on all sides by building walls or potential building walls, [and] shall have a minimum dimension equal to the sum of the required yards but not less than ten feet. Their areas shall not be less than 100 square feet for one story or 150 square feet for two stories or more.

2. Unobstructed passageway. Except in the case of an inner court, atrium, or enclosed patio for a single dwelling unit, a passageway shall be provided at the lowest level of each inner court, as provided by the building code.

Such passageway shall be continuous from the inner court to unobstructed open space adjacent to the building, and shall be so aligned as to facilitate passage of nonvehicular fire fighting and emergency equipment, including ladders.

3. Inner court design shall be such as to permit use of fire fighting equipment.

(ii) *Outer courts.*

1. Outer courts are open outdoor spaces enclosed on at least three sides by building walls or potential walls, with one side open to a street, driveway, alley, yard or other open space.

2. Width of outer courts bounded on three sides by building walls or potential building walls shall be not less than the sum of the required open space distances measured from opposing building walls.

3. Width reduction for shallow courts. Where outer court depth is less than half of width, maximum required width may be reduced by up to 25 percent.

4. Depth of outer courts shall not be greater than one and one-half times width.

5. Where walls are not parallel to property or site lines, the nearest portion of a building to such lines shall be at least the required distance therefrom.

(g) For structures or portions of structures not containing dwelling units and not otherwise controlled by these regulations, yards, courts, open space and building spacing shall be appropriate to the use of such structures or portions, as related to anticipated amounts and timing of vehicular and pedestrian traffic and exposure of nearby living quarters to such use, and with due regard for location of primary or secondary window walls, separation of residential open space from other open space on the site by walls, fences, or vegetative screening where desirable, location of proposed parking areas, drives and service areas, and similar considerations.

73.17. Extraction permits.

No new extraction operation shall begin and no existing extraction operation shall expand until an extraction permit has been issued by the natural resources and environmental management division. The following information shall be submitted to the manager of natural resources and environmental management when making application for an extraction permit. The manager may require other pertinent data if necessary to determine that the proposed extraction operation will satisfy the provisions of all applicable local laws and regulations. After all data has been submitted to the manager as required herein, the manager shall have 60 days within which to approve or deny the application. If the

manager has taken no action on the completed application within the stated time period, the application shall be deemed denied.

73.17.1. Legal description of the extraction site, including the total acreage.

73.17.2. Copies of all instruments (deeds, leases, etc.) conveying to the applicant mineral rights in and to the real property within the boundaries of the site. Provided, however, that the applicant has the option of attaching, in lieu of a copy of any lease, a memorandum of lease satisfying the execution, acknowledgment, and content requirements of Code of Ala. 1975, §§ 35-4-6, 35-4-51.1.

73.17.3. Vicinity map drawn on an official Huntsville Zoning Map at a scale of one inch to 400 feet, on which is identified the following data for both the proposed extraction site and the area one-half mile beyond the site:

(1) Boundaries of the extraction site;

(2) Public routes to be used by vehicles and equipment entering and leaving the site;

(3) Locations of streams and bodies of water, public roads, railroads, utilities, residences, and structures or areas of cultural or historic significance; and

(4) Locations and descriptions of any environmentally sensitive areas including, but not limited to, wetlands and lands harboring endangered plant and animal species.

73.17.4. Site plan drawn on a topographic map at a scale of one inch to 200 feet, on which is identified the following data:

(1) Boundaries of the extraction site;

(2) Locations and descriptions of all proposed buffers, setbacks and visual screens;

(3) Topography of the site and the lands within one-half mile thereof at five-foot intervals; and

(4) Locations and acreages of areas planned for extraction; for storage of overburden, byproducts and excavated materials; for processing facilities; and for those lands to be left undisturbed.

73.17.5. Operational plan, with maps drawn at a scale of one inch to 200 feet or less, to include the following:

(1) A description of the method of operation, including the disposition of topsoil, overburden and byproducts.

(2) A general description of the equipment to be used in the extraction process.

(3) Measures to be taken to control noise, dust, litter, and vibrations from the operation.

(4) Measures to be taken to screen visibility of the operation, including section drawings of the site clearly indicating the effectiveness of all existing and proposed measures to be used to screen the operation from view of surrounding lands.

(5) Measures to be taken to prevent the tracking of material onto public roadways.

(6) Plan view drawing showing how the applicant plans to proceed with the extraction operation including, but not limited to, the extent of the mining area, sediment and/or wash ponds, sediment basins, stockpiles, structures, roads, railroads, utilities and other permanent or temporary structures.

(7) Measures to be taken to control surface water runoff and soil erosion.

(8) General description of the geologic character of the site.

(9) General description of the products to be produced at the site, their end use, and general market area.

(10) Copies of applications to federal, state and local regulatory agencies for environmental permits including, but not limited to, control of air and water quality.

73.17.6. Reclamation plan, with maps drawn at a scale of one inch to 200 feet or less, to include the following:

(1) Approximate expected topography of site when extraction activity has been completed, at intervals no greater than five feet.

(2) Approximate expected topography of site when reclamation activity has been completed, at intervals no greater than five feet, to include methods to be employed for backfilling and grading.

(3) The location and identification of all lakes, ponds, streams, rivers, or other waterways planned to exist when reclamation activity has been completed.

(4) A description of the methods and procedures to be used and a proposed timetable for the various reclamation phases.

(5) An estimate of the cost per acre of reclamation with supporting calculations for the estimate.

(6) A plan for revegetation of the site.

(7) A description of the expected future use following reclamation of the site and the relationship of the expected future use to existing surrounding land uses.

An extraction permit shall be valid for a maximum period of five years unless renewed by the manager of natural resources and environmental management as follows: If the permitted extraction operation and reclamation program are not completed within five years, then a review of the extraction permit shall be conducted by the manager of natural resources and environmental management based on the submittal of an updated extraction application. The updated extraction application shall reflect any additions, changes, or other modifications to the information provided in the original application. At each review, the manager shall establish a new bond or adjusted cash escrow amount, which bond or cash escrow shall be posted before the extraction permit is renewed. The renewal process shall occur at five-year intervals until such time as the reclamation plan has been completed.

73.18. Performance bond for extractive operations.

73.18.1. The applicant shall post a bond in an amount equal to the estimated costs of reclamation as indicated by the approved reclamation plan; however, in no case shall said amount be less than $3,000.00 per acre (rounded to the nearest full acre of land) to secure to the City of Huntsville satisfactory compliance with all regulations contained or referenced herein. Such bond shall be approved as to form by the legal department and shall be secured by an insurance company licensed by the State of Alabama, or be a cash escrow, or be an irrevocable letter of credit from an approved lending institution.

73.18.2. Such performance bond shall comply with all statutory requirements and shall be satisfactory to the City of Huntsville as to form, sufficiency, and manner of execution. A signature bond will not be accepted by the City of Huntsville.

73.18.3. The performance bond shall contain a legal description of the extraction site. The bond shall remain in force and effect until it has been released in writing by the manager of natural resources and environmental management and shall bear a termination date of one-full year beyond the expiration date of the extraction permit.

73.18.4. Before abandoning a permit area or seeking bond release, the operator shall ensure that all temporary structures are removed and that all permanent sedimentation ponds, diversions, impoundments, and treatment facilities meet the requirements of the approved reclamation plan.

73.18.5. Upon request by the permit holder for bond release, the manager of natural resources and environmental management shall promptly inspect the site. When the manager has determined that all applicable requirements have been satisfied, he shall notify the city clerk-treasurer in writing to release the bond or escrow to the applicant.

73.18.6. If a renewal of an extraction permit is approved by the manager of natural resources and environmental management, the applicant shall be required to post a new bond. If the existing bond is a cash escrow, then the applicant shall be required to post the difference between the existing escrow and the new escrow.

73.18.7. If the extraction permit expires and the provisions of the approved reclamation plan have not been completely satisfied, the manager of the department of natural resources and environmental management shall be authorized to invoke the bond (by notifying the city clerk-treasurer in writing of the details of the default) to have the reclamation plan completed.

73.18.8. If an extraction activity ceases or remains dormant for a period of 12 consecutive months, the permit holder must begin reclamation of the site in accordance with the reclamation plan.

If the permit holder does not commence reclamation in accordance with the reclamation plan, then the manager of natural resources and environmental management shall invoke the bond and begin reclamation of the site as provided in section 73.18.7.

73.18.9. At such time as the reclamation plan is completed, the permit holder may post with the City of Huntsville a maintenance bond in order to secure the two-year maintenance period required by the reclamation standards. The manager of natural resources and environmental management shall set the amount of the maintenance bond and shall direct the city clerk-treasurer to release the performance bond when the maintenance bond has been posted.

73.18.10. It shall be the duty of the manager of natural resources and environmental management to enforce the regulations pertaining to the extraction permit and the extraction bond procedure.

The manager of natural resources and environmental management shall notify the permit holder in writing whenever he is made aware of or determines that any existing land condition or exposed surface created or caused by means of extraction or reclamation activity has (1) become a hazard to life and limb; (2) endangered property; (3) adversely affected the safety, use or stability of a public way or drainage channel; (4) caused erosion; or (5) otherwise failed to comply with any applicable requirements. The permit holder shall rectify or eliminate the stated condition within 60 days of notification by the manager of natural resources and environmental management. Failure to do so within the stated time period shall be grounds for revocation of the extraction permit.

73.18.11. The requirements of the extraction permit and bonding procedure are intended to be minimum and shall not abrogate, repeal, or otherwise affect the requirements of other applicable federal, state, or local laws and regulations.

73.19. Installation of landscaping.

No certification of occupancy shall be issued until the required landscaping has been completed and approved by the zoning administrator or a performance bond, letter of credit or certified check has been posted. When circumstances preclude immediate planting, a certificate of occupancy may be granted after (1) the owner has completed all necessary construction preliminary to planting, and (2) the property owner posts a corporate surety bond, letter or credit, or cashier's check with the city clerk in an amount equal to 100 percent of the cost of the total required planting, including labor. Such bond shall be made payable to the City of Huntsville. Landscaping must be completed and approved within six months (180 calendar days) after a certificate of occupancy is issued in order to redeem the bond. (Ord. No. 07-460, § 8, 6-28-2007)

73.20. Wireless telecommunications towers.

The regulations of this section are intended to provide for the growing need for telecommunications towers and antennas while minimizing any adverse environmental, aesthetic and visual impacts through careful design, siting, and landscape screening; to promote and encourage shared use (collocation) of existing and new towers and sites; to avoid potential damage to adjacent properties from tower failure or falling ice; to protect the health, safety and welfare of the general

public; and to preserve the character of residential districts through judicious permitting of towers within such districts.

73.20.1. *Applicability; towers.* Wireless telecommunications towers shall be permitted according to their function and location as provided herein:

(1) *Towers in nonresidential districts.* AM radio broadcast towers, a tower erected primarily for the use of mobile or fixed point radio service antennas, or any other telecommunications tower not otherwise covered by section 73.20.1 that will accommodate multiple users shall be permitted in nonresidential zoning districts subject to these regulations and any other applicable codes and regulations.

(2) *Single user towers.* A special exception shall be required to construct AM radio broadcast towers, a tower erected primarily for the use of mobile or fixed point radio service antennas, or any other telecommunications tower not otherwise covered by section 73.20.1 in any nonresidential district if it will not be designed, constructed, and available to accommodate multiple users.

Tower applicants, except those for AM radio broadcast towers, must demonstrate an inability to locate on existing towers or other structures accompanied by supporting documentation as specified in section 73.20.16, collocation. (See section 92.5.3(20) hereof.)

(3) *Towers in residential districts.* A special exception shall be required to locate or construct a tower erected for the support of personal wireless service antennas in any residential district. (See section 92.5.3(9) hereof.)

(4) *Broadcast towers.* A special exception shall be required to construct a broadcast tower in any district if it will support one or more UHF or VHF television or FM radio transmitting antennas or other broadcast antennas having similar elevation and height requirements. (See section 92.5.3(21) hereof.)

(5) *Existing towers.* All telecommunications towers existing on the effective date of this ordinance [January 23, 1997,] that have been lawfully erected shall be allowed to continue as nonconforming uses, provided they continue to meet or exceed current federal standards and regulations, as amended, and the provisions of section 73.20.8, structural design of towers, hereof. Such towers shall be permitted to accommodate additional antennas and any necessary new construction if such antennas and new construction do not increase the tower height beyond that allowed by the FCC or the FAA or by sections 92.5.3(9)(e) or 73.20.7, tower height, or beyond the existing height if already in excess of the allowable height. Any new construction that would increase tower height or alter the structural strength or configuration of the tower will require the tower to be brought into compliance with the provisions of this ordinance except for section 73.20.3, setbacks.

(6) *Personal use towers.* Personal use towers are exempt from all provisions of this ordinance if all of the following criteria are met:

(a) Tower is located on property which owned by a natural person or non-profit service organization.

(b) Tower is used exclusively for non revenue producing activity.

(c) Tower and all guy wires must be contained on the property, and may not be located within five feet of the property boundaries.

(d) Tower is located to the rear or side of building.

(e) Tower is outside National Register historic district, or if within such district, proposed tower has been approved by the Huntsville Historic Preservation Commission.

(f) Tower does not support any sign.

(g) Tower and antennas shall not exceed 100 feet in height. A building permit must be issued prior to installation of a personal use tower in excess of 75 feet.

(7) *Portable or mobile towers.* Portable or mobile towers may be utilized only for special, short term events attracting large numbers of people or for emergency situations; the provider must be issued a temporary use permit by the zoning administrator prior to siting of the portable facility, and the permit must specify the permitted location and the permitted dates of operation not to exceed ten days. The zoning administrator shall collect a $100.00 application fee each time a portable tower is permitted for a period not to exceed ten days. Personal use towers are specifically exempt from the requirements of this section.

(8) *Accessory towers.* A tower that is accessory to a business or other nonresidential entity on the same lot in a nonresidential district and that is for the exclusive use of the principal entity, its branches and its employees shall:

(a) Not exceed 100 feet in height;

(b) Not be permitted to carry other transmitting antennas;

(c) Have all guy anchors located at least ten feet inside the lot lines; and

(d) Have been issued a building permit prior to installation.

73.20.2. *Applicability; antennas.* Except for replacements of preexisting antennas that neither alter height, configuration or structural integrity of the support structure nor increase radio frequency emissions, all telecommunications antennas installed following adoption of this ordinance [January 23, 1997,] shall comply with one of the following provisions:

(1) Tower-supported antennas that will be attached to existing, lawfully erected towers shall be issued building and other required permits prior to installation subject to compliance with subsections 73.20.8(2) and 73.20.17(9) hereof.

(2) Building or ground mounted antennas shall comply with the provisions of section 73.20.12, antennas, hereof.

73.20.3. *Setbacks.*

(1) The minimum setback for a tower shall be 25 percent of the tower height unless a greater setback is required by the regulations for the district in which the tower is located; however, no tower shall be located closer than 200 feet to any residential district or closer than a distance equal to the height of the tower to any residential structure.

(2) Towers located on the leased portion of a larger lot shall not be constructed in any required yard of the lot; towers shall not be located on the same lot with a residential structure.

(3) Tower setbacks from the property lines of the lot on which the tower is located shall be measured from the perimeter of the tower base.

(4) Guyed towers shall have their guy anchors located on the tower site at least ten feet from any lot line, and guy wires shall not cross any adjoining property, rights-of-way or public easements without prior approval of the owner of the public easement.

(5) Setbacks shall in all cases be sufficient to contain on site all ice-fall unless adequate provisions have been incorporated to prevent the buildup of ice.

(6) Minimum setbacks for accessory structures constructed in conjunction with a tower shall be as established by the zoning district for principal buildings or be at least 25 feet if no setback is required by the district.

73.20.4. *Lighting.*

(1) Towers shall not be artificially illuminated except as required by the Federal Aviation Administration or the Federal Communications Commission. Any required lighting shall be the minimum necessary to comply with federal regulations.

(2) All security lighting must be contained within the fenced area and must not illuminate higher than ten feet.

73.20.5. *Tower color.* Towers shall have a galvanized finish or be painted a silver, pale blue or gray; any regulation of the FAA or FCC that contradicts this requirement shall govern.

73.20.6. *Site security.* The facility shall be fully secured. A chainlink fence or a wall not less than eight feet in height from finished grade shall be provided around each tower and all accessary structures. Access to the tower shall be through a locked gate. Where guy anchors are not contained within the security fence, a separate fence at least eight feet in height shall be provided around each anchor. Towers without accessory structures may utilize anticlimb devices in place of a fence.

73.20.7. *Tower height.*

(1) Towers in C-1 through C-3 districts shall not exceed 120 feet in height; towers in other nonresidential districts shall not exceed 180 feet in height.

(2) Measurement of tower height shall include antennas, base pad, and other appurtenances and shall be measured from the natural grade of the site.

73.20.8. *Structural design of towers.*

(1) Towers shall meet or exceed the structural requirements as set out in EIA/TIA-222-E "Structural Standards for Steel Antenna Towers and Antenna Supporting Structures," as amended, published by the Electronic Industries Association and all applicable City of Huntsville building codes.

(2) Any improvements and/or additions (antennas, dishes, etc.), excluding the repair and replacement of parts or components that do not increase tower height or alter the structural strength or configuration of the tower, to existing towers shall require that a notarized verification of compliance with the EIA/TIA-222-E Standards in effect at the time of the improvement or addition be submitted to the manager of inspection by the owner and a registered professional engineer.

(3) Commercial towers 180 feet in height or less, except for accessory towers as described in section 73.20.1(9), shall be monopoles unless the applicant can demonstrate that the specific conditions require another tower type.

(4) Tower diameter at the base shall not be greater than required for the permitted tower height.

73.20.9. *Signs.* No signs shall be allowed on any tower or antenna.

73.20.10. *Access.*

(1) Where the lot on which a tower is to be erected does not meet the minimum lot area requirement for the zoning district or does not have frontage on the public road from which it derives access, then building permits shall not be issued for any structures other than telecommunica-

tions towers and the unmanned accessory facilities required for equipment storage and tower operation. This use restriction must be made a part of any plat or deed describing this lot until such time as the lot comes into compliance with the zoning regulations.

(2) Whenever a tower site does not have frontage on the public street from which it derives access, a permanent, 20-foot wide access easement shall be required.

73.20.11. *Landscaping.* A landscape buffer shall be required in all districts and shall effectively screen the view of the tower facility from public ways and adjacent properties.

(1) The buffer shall be installed on the outside of the security fence.

(2) The buffer shall consist of a minimum ten-foot wide landscaped strip planted with an attractive combination of trees, shrubs, vines and/or ground covers.

(3) Minimum required plantings include:

(a) A row of evergreen trees a minimum of eight feet tall when planted placed a maximum of ten feet apart;

(b) A continuous hedge of evergreen shrubs at least 30 inches high at planting placed in front of the tree line; and

(c) All plant materials shall be xeriscape tolerant.

(4) Where towers are located on wooded sites:

(a) Tree cutting shall be limited to the area to be fenced and a five-foot buffer along the outside of the fence. If the accessway must be cleared of trees, then tree cutting shall be limited to the minimum width necessary to provide vehicular access to the tower facility but shall not exceed 15 feet in width.

(b) Preservation of the natural vegetation surrounding the fenced area shall be substituted for the landscape buffer if it screens the compound from view from adjacent development and rights-of-way.

(5) All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

(6) The owner of the tower shall be responsible for providing and maintaining all landscaping in a healthy and growing condition and replacing unhealthy or dead plants by the next growing season with plants that conform to the original intent of these regulations for as long as the tower stands.

73.20.12. *Antennas.*

(1) Nonresidential districts. An antenna that is not attached to a tower shall be permitted on nonresidential structures or be ground mounted provided:

(a) The antenna and its supporting structure, when attached to a nonresidential structure, do not exceed 20 feet in height;

(b) The antenna complies with all applicable FCC and FAA regulations;

(c) The antenna does not extend into the air space above any public right-of-way nor extend any closer than ten feet to the boundary of the lot on which the structure is located;

(d) The support structure for the antenna and any facilities or equipment necessary for its operation comply with all applicable building codes and have received appropriate permits;

(e) The antenna will be, and will remain, in compliance with current FCC standards concerning radio frequency emissions;

(f) The antenna site is not within the boundaries of a national register historic district; and

(g) Satellite earth station antennas having a diameter greater than two meters, and DBS and MMDS antennas having a diameter greater than one meter:

(i) If attached to a building are placed to minimize their visibility from adjacent streets; or

(ii) If ground mounted meet required yard setbacks or have a setback of ten feet from lot lines if no setbacks are specified for the district; and

(iii) Are not located in front yards unless visually screened from public rights-of-way.

(2) Residential districts. An antenna that is not attached to a tower shall be permitted under the following conditions:

(a) Personal wireless service antennas shall be permitted on principal, nonresidential structures provided the antenna is in compliance with conditions (a) through (f) of section 73.20.12(1) above.

(b) Satellite dishes, DBS, and MMDS receiving antennas having a diameter greater than one meter shall:

(i) Be regulated as accessory structures;

(ii) Be approved by the Huntsville Historic Preservation Commission if located in a national register historic district at a site visible from a public place; and

(iii) Be issued a building permit prior to installation.

(3) Masts greater than 12 feet in height used to support satellite dishes, television receiving antennas, or other antennas in nonresidential districts shall require a building permit to insure safety of installation and shall not exceed 20 feet in height.

Masts used to support satellite dishes in residential districts shall not exceed 12 feet in height.

Masts in residential districts, used to support other receive-only antennas used for radio/television broadcast reception shall not exceed either 30 feet in height, or ten feet above the roofline, whichever is greater.

(4) Microwave dishes shall be of mesh or open grid construction whenever technically feasible and be colored to minimize their visibility.

(5) Signs shall not be allowed on any antenna.

(6) Receive-only antennas intended solely for the use of the occupants of the building or residence to which they are accessory shall be permitted when in compliance with the applicable provisions of this ordinance.

73.20.13. *Nonconforming towers.* A telecommunications tower legally erected prior to adoption of these regulations that is damaged or destroyed to an extent of 50 percent or more of its replacement cost at the time of destruction may be reconstructed on its original site in conformity with the provisions of this ordinance. A building permit to reconstruct the facility shall comply with the then applicable standards, codes, and regulations, and shall be obtained within 180 days from the date the facility is damaged or destroyed. If no permit is obtained or if the permit expires, the telecommunications facility shall be deemed to be abandoned.

73.20.14. *Abandonment.*

(1) Any tower that has not been in use for its original telecommunications purpose for a period of 180 days shall be deemed to be abandoned. The tower owner shall have an additional 90 days to remove an abandoned tower and any accessory structures or to reactivate the tower or to transfer the tower to another owner/operator who reactivates it. Removal of abandoned towers and accessory structures shall be at the owner's expense.

(2) Each January every tower owner, with the exception of amateur radio operators, shall provide the zoning administrator with a list of all towers owned during the previous 12 months indicating the date of cessation of operation for any inactive towers, the date of dismantling for removed towers, the date of transfer of towers to other owners, and a certification that each standing tower is in compliance with section 73.20.8, Structural Design of Towers, accompanied by a copy of the annual maintenance inspection report.

73.20.15. *Publicly owned property.*

(1) A tower to be located on land owned by any governmental entity or public agency shall comply with these regulations unless the tower and all antennas thereon are for the exclusive use of the public entity occupying or controlling the property.

(2) Towers to be located on property owned by the City of Huntsville, other than rights-of-way, shall be subject to all applicable requirements of the zoning ordinance and other city codes.

(3) Neither towers nor antennas shall be placed in city rights-of-way without the approval of the Huntsville City Council.

73.20.16. *Collocation.* To minimize the adverse visual, aesthetic and environmental impacts associated with the proliferation of towers, collocation of antennas by more than one user on existing or permitted towers shall take precedence over the construction of new towers. Towers shall be designed to maximize shared use to the extent possible for the type of tower proposed without creating structural instability or electromagnetic interference with other antennas on the tower.

(1) Subject to section 73.20.16(2), no new tower shall be permitted unless the applicant demonstrates by sufficient documentary evidence that at least one of the following conditions is applicable:

(a) No existing towers or suitable structures are located within the geographic area required to meet applicant's engineering requirements, and no such towers are under consideration for building permits.

(b) Existing towers or other structures are not of sufficient height and cannot be reasonably altered to meet applicant's engineering requirements.

(c) Existing towers or other structures do not have sufficient structural strength and cannot be reasonably altered to support applicant's proposed antenna and related equipment.

(d) The proposed antenna would cause electromagnetic interference with existing antenna(s) on the tower or structure, or the existing antenna(s) would cause interference with the proposed antenna and the interference cannot be prevented at a reasonable cost.

(e) The applicant demonstrates that there are other limiting factors that render existing towers and structures unsuitable.

(f) Collocation would have a more detrimental environmental, aesthetic, or visual impact on the surrounding area than would construction of a new tower.

(2) Even if an applicant is able to demonstrate the existence of one of the foregoing conditions, a new tower may not be permitted if it is determined that the proposed location of the tower is not essential to the applicant to provide service in a given geographical area, and the tower would:

(a) Interfere with or endanger the use of other telecommunications facilities; or

(b) Endanger persons or property; or

(c) Not be compatible with existing or proposed adjacent development; or

(d) Have an impermissible environmental, visual, or aesthetic impact on the surrounding area.

(3) Written requests by certified mail to collocate on an existing or proposed tower shall be answered by the tower owner within 30 days of receipt of the request. Denial of a request without substantial documentary evidence as required herein demonstrating why collocation would not be possible or failure to respond to a request shall be a violation of the zoning ordinance.

73.20.17. *Building permits for towers.* Each application for a building permit for a tower, other than an amateur or accessory radio service tower, or for a structure accessory to such a tower shall contain the following information as appropriate:

(1) A site plan drawn to scale and identifying the tower lot boundary and the tower site boundary, if different, and all required setbacks; location, type and height of tower(s); guy anchors; location, use and dimensions of existing and proposed structures; vehicular parking and access; existing vegetation to be retained; topography of the site; fences; [and] adjacent land uses and current zoning.

(2) A copy of the subdivision plat, deed, and/or memorandum of lease for the tower site; provided, however, the manager of inspection may require a copy of the lease agreement, if necessary, to verify compliance with this ordinance.

(3) A plan drawn to scale showing proposed landscaping, if required, including species type, size, and spacing.

(4) A report from a registered professional engineer indicating tower height and design, structure, installation, and total number and types of antennas that could be accommodated.

(5) A notarized letter signed by both the owner and a registered professional engineer stating that the tower complies with all EIA/TIA-222-E Standards, as amended.

(6) A signed affidavit from the applicant verifying the inability to locate the proposed antennas on existing towers or other structures accompanied by supporting documentation as specified in section 73.20.16, collocation.

(7) A letter of intent stating whether the applicant intends to lease space on the tower to other potential users at reasonable rates and on reasonable terms. The letter shall commit the tower owner and successors in interest to:

(a) Negotiate in good faith for shared use by third parties.

(b) Allow shared use if an applicant agrees in writing to pay reasonable rental charges or other consideration.

(c) Make no more than a reasonable charge for shared use based on generally accepted industry standards and impose no terms or conditions that would render collocation impractical.

(8) Documentation demonstrating that the proposed site is required to serve the company's planned network or coverage in the city.

(9) A notarized statement signed by the applicant that the tower facility will conform with applicable FCC standards for radio frequency emissions and copies of any federally required studies or measurements of radio frequency emissions.

(10) If federal regulations require an environmental assessment, then a copy of the EA shall be submitted as part of the application.

(11) Documentation demonstrating the amount of liability insurance to be carried by the owner on the proposed tower.

(12) The FCC assigned frequency for the licensed service, and a copy of all permits, approvals, or licenses issued by the FCC or the FAA in connection with the proposed tower.

(13) An application fee of $1,000.00 for each tower.

The zoning administrator shall act upon any application for authorization to place, construct or modify any personal wireless service facility within a reasonable period of time after the application and all required supporting documentation is duly filed, taking into account the nature and scope of such application.

A decision by the zoning administrator to grant or deny an application to place, construct, or modify any personal wireless service facility shall be in writing and supported by substantial evidence contained in the record.

(Ord. No. 96-1008, § 4, 1-23-1997; Ord. No. 98-689, § 2, 10-1-1998; Ord. No. 00-620, § 1, 8-23-2000; Ord. No. 07-460, § 8, 6-28-2007)

73.21. Vehicle repair in residential districts or on residential lots.

(1) Vehicle repair for purposes of this section 73.21 shall mean and include the repair and/or body work of any motorized or non-motorized vehicle.

(2) Vehicle repair performed in a residential district or on a residential lot shall be allowed subject to each of the following conditions:

(a) Vehicle repair shall be incidental to a primary permitted residential use and shall be on the same lot as the primary residential structure;

(b) Vehicle repair, including without limitation vehicles in the process of or awaiting repair, shall be performed on vehicles which are registered in the name of or titled to a member of the household of the primary residential structure, and proof of title may be requested by any official charged with the enforcement of this ordinance;

(c) Vehicle repairs shall not be performed after 10:00 p.m. and before 7:00 a.m.

(3) Nothing herein shall be construed to relieve any person or entity from complying with any other applicable provision of this zoning ordinance, or any other laws of this city including without limitation ordinances regulating inoperable vehicles.

(Ord. No. 05-139, § 1, 4-14-2005)

73.22. Correctional facilities.

73.22.1. *Definitions; subclassifications.* Correctional facilities are publicly or privately owned or operated uses which include monitoring and control of the offender population, including juveniles, persons on pretrial status, on prere-

lease status, probationers, parolees or persons incarcerated to serve a sentence, and is divided into the following two subclassifications:

(1) *Custodial facility* is a community based correctional facility which provides transitional housing or housing in a custodial residential setting, assistance with employment, counseling and other services to offenders who are placed in the custodial facility under terms of probation, parole, or pretrial status, or offenders sentenced to such a facility in lieu of prison or placed in such a facility as part of a prerelease program. Offenders assigned to a custodial facility are generally allowed to leave the facility for off-site employment, job training, or other purposes as permitted by the operators of the facility and may be monitored in their activities by staff. A facility in this subclass may be but is not necessarily designed to be a secure facility.

(2) *Jail or prison* is a correctional facility which provides for the incarceration or detention of offenders serving a sentence as required under the city, county, state or federal criminal justice system. A jail or prison is a secure place or building designed for the incarceration of offenders who are sentenced to a period of time under confinement. These facilities may employ one or more of the following measures to ensure accountability of offenders: fences, walls, outside patrols and/or towers with armed staff, inside recreation yards, and secure control centers.

73.22.2. *Classification based on capacity.*

(1) A class 1 correctional facility has a maximum capacity, excluding staff, of no more than 30 persons at any given time.

(2) A class 2 correctional facility has a maximum capacity, excluding staff, of no more than 100 persons at any given time. A custodial facility shall not exceed the class 2 capacity limit.

(3) A class 3 jail or prison has a maximum capacity, excluding staff, of no more than 1,500 persons at any given time.

A class 2 custodial facility and a class 3 jail or prison may apply for a conditional use permit to exceed the maximums established hereinabove in accordance with subsection 73.22.7.

73.22.3. *Minimum setbacks.* Minimum setbacks, which setbacks are measured to the property line and are required for any structure, including a fenced enclosure, are as follows:

(1) A class 1 custodial facility shall have a minimum side and rear yard setback from the property lines of 25 feet and a minimum front yard setback from the street right-of-way of 50 feet.

(2) A class 2 custodial facility or a class 1 jail or prison shall have a minimum side and rear yard setback from the property lines of 40 feet and a minimum front yard setback from the street right-of-way of 60 feet.

(3) A class 2 jail or prison shall have a minimum side and rear yard setback from the property lines of 50 feet and a minimum front yard setback from the street right-of-way of 75 feet.

(4) A class 3 jail or prison shall have a minimum side and rear yard setback from the property lines of 100 feet and a minimum front yard setback from the street right-of-way of 150 feet.

Where the minimum setback provisions of this section are less restrictive than the minimum setback provisions of the particular zoning district in which the correctional facility is located, then the minimum setback provisions of the particular zoning district shall apply.

73.22.4. *Separation*. Correctional facilities shall have minimum separation requirements as provided for in this section. Measurements shall be made from the exterior property line of the correctional use site to the exterior property line of the hereinafter specified uses.

(1) A class 1 custodial facility shall be separated by a minimum of 500 feet from each of the following uses:
   (a) Other correctional facilities;
   (b) Residential zoning districts;
   (c) A residential dwelling;
   (d) Places of worship;
   (e) Public or private schools, daycares, nurseries or kindergartens; and
   (f) Lounges and off-premises liquor retailers.

(2) A class 2 custodial facility or any class of jail or prison shall be separated by a minimum of 1,000 feet from each of the following uses:
   (a) Other correctional facilities;
   (b) Residential zoning districts;
   (c) A residential dwelling;
   (d) Places of worship;
   (e) Public or private schools, daycares, nurseries or kindergartens; and
   (f) Lounges and off-premises liquor retailers.

(3) Separation requirements shall not apply in each of the following cases:
   (a) Where the above stated uses were established after the correctional facility was issued a building permit or, if no building permit was required, was duly licensed as such correctional facility; provided, however, if the building permit has expired without commencement of significant site work, the correctional facility is abandoned or discontinued for a period of six months, or the correctional facility has not renewed its licensing for a period of six months, the separation requirements shall then apply; and
   (b) Where, except in the case of a residential dwelling or residential zoning district, said correctional facility is separated from the above stated uses by an interstate highway.
   (c) Lots housing lawfully existing correctional facilities at the time of the adoption of this ordinance shall not be subject to the separation requirements or the minimum setback requirements of this section 73.22 except in the case of abandonment or discontinuance of the use of such lots for correctional facilities.

73.22.5. *Building height.* Correctional facilities shall have the same height limitation as the general height limitation in the particular zoning district in which they are located.

73.22.6. *Performance standards.* Correctional facilities shall conform to each of the following standards:

(1) Lighting, access and security devices shall be located and screened to avoid negative effects on, and achieve compatibility with, surrounding and adjacent uses and property;

(2) All outdoor activity shall be located inside the perimeter security fencing;

(3) Neither the perimeter security fencing nor the property boundary fencing shall employ barbed wire, razor wire, electrical fencing, or similar materials where abutting and visible from a public street;

(4) A seven-foot high screen shall be provided along the perimeter at the rear and sides of the property. Such screening shall not extend closer than the minimum setbacks established

in subsection 72.22.3 above. If planting is to be used as a screen, it shall be provided as set forth in section 3.1—Buffer of Screen Planting, hereof. Such plants shall be initially not less than seven feet in height; and

(5) Required plantings shall be in a location which maximizes their effectiveness while not compromising the security of the correctional facility.

73.22.7. *Conditional use permits.* Requests for conditional uses are permitted only after review by the planning commission and approval of the city council. The following review procedure shall be adhered to:

(1) The applicant shall submit a complete conditional use application to the planning division, at least 21 days prior to the planning commission meeting at which the conditional use is to be considered, containing as a minimum, the information required in the application along with a one-hundred-dollar fee to defray the cost of processing the application.

(2) A minimum of 14 days prior to the planning commission meeting at which the conditional use request is to be considered, the planning division shall mail notification to all adjacent property owners. The notice shall state:

(a) The location of the conditional use request.

(b) The nature of the request.

(c) The time, date and location of the planning commission meeting at which the request will be considered.

(3) The planning commission shall schedule a hearing on the application at the first regularly scheduled meeting after compliance with notice provisions as set forth herein. An application shall not be continued more than three times at the request of the applicant.

(4) Upon receipt of a favorable recommendation from the planning commission, the city clerk treasurer shall schedule and advertise the proposed conditional use request for a public hearing before the city council. A proposed conditional use request shall not be continued more than three times at the request of the applicant.

(5) Upon receipt of a negative recommendation from the planning commission, the city council review process will be initiated at the request of the applicant.

(6) Conditional use permits may be subject to such conditions and safeguards as are appropriate under the circumstances.

(7) When the planning commission gives an unfavorable recommendation to a request and the applicant does not initiate the city council review process or when the city council denies a conditional use request, the planning commission shall not reconsider the same request for a period of 18 months. Each time the city considers a conditional use request, the $100.00 administrative fee must be paid.

73.23. Mobile food vending.

73.23.1. *Mobile food vending*. Mobile food vending in General Business C-3, Highway Business C-4, Commercial Recreation C-5, Light Industry, Heavy Industry, Commercial Industrial Park, Research Park, Research Park West, Research Park Applications, Research Park Applications 2, and Research Park 2 districts shall conform to the following regulations:

(1) Mobile food vending units located in applicable districts shall have a minimum buffer of 100 feet as

measured from the primary entrance of existing restaurants, cafes, and other food related establishments.

(2) Mobile food vending units are permitted to operate between the hours of 6:00 a.m.—10:00 p.m. Sunday through Wednesday and 6:00 a.m.—2:00 a.m. Thursday through Sunday in General Business C-3, Highway Business C-4, Commercial Recreation C-5, Light Industry, Heavy Industry, and Commercial Industrial Park districts.

(3) Mobile food vending units are permitted to operate between the hours of 10:00 a.m.—2:00 p.m. Monday through Friday in Research Park, Research Park West, Research Park Applications, Research Park Applications 2 and Research Park 2 districts.

(4) Food preparation will be regulated by the Madison County Health Department. The business license application must be accompanied by a food permit issued by the Madison County Health Department and written consent from the property owner (if applicable).

(5) For any location where the mobile food vending unit is proposed to stay for two or more hours, vendors shall provide toilet facilities for persons operating the unit, including employees, in accordance with the requirements of the Madison County Health Department.

(6) Mobile food vending sites shall have fixed public toilet facilities including one male and one female restroom available for operators, including employees, and patrons, which meet the requirements of the Madison County Health Department for food establishment toilet rooms.

(7) Mobile food vending units shall be removed from the premises each night and such operations are not permitted to operate in the required front yard on major arterials.

(8) Mobile food vending units are not permitted to operate in loading zones, public rights-of-way, or obstruct or impede the flow of traffic for neighboring businesses.

(9) All mobile food vending units must meet the zoning district setbacks.

(10) All signage must be attached to the mobile food vending unit.

(11) Mobile food vending units must provide sufficient artificial lighting during non-daylight hours.

(12) Mobile food vending units shall not be allowed to consume otherwise necessary parking spaces.

(13) No outdoor loudspeaker, public address system, music, or other form of entertainment shall be audible from mobile food vending units.

(14) Any on-site preparation of food shall be performed inside the primary vending unit only. There shall be no grills or other cooking facilities allowed outside the primary vending unit.

(15) Notwithstanding anything to the contrary contained in this section, mobile food vending units regulated under section 18-36 of the City Code shall not be subject to the regulation of this section.

(Ord. No. 09-815, § 1, 12-17-2009; Ord. No. 10-178, §§ 2, 3, 4-22-2010; Ord. No. 13-882, § 3, 12-19-2013; Ord. No. 15-479, § 2, 8-27-2015; Ord. No. 18-230, § 3, 5-24-2018)

ARTICLE 74. NONCONFORMING LOTS; NONCONFORMING USES OF LAND; NONCONFORMING STRUCTURES; AND NONCONFORMING USES OF STRUCTURES AND PREMISES

Intent. Within the districts established by this ordinance or amendments that may later be

adopted, there exist lots, structures and uses of land and structures which were lawful before this ordinance was passed or amended, but which would be prohibited, regulated, or restricted under the terms of this ordinance or future amendment.

It is the intent of this ordinance to permit these nonconformities to continue until they are removed, but not to encourage their survival. Such uses are declared by this ordinance to be incompatible with permitted uses in the districts involved. It is further the intent of this ordinance that nonconformities shall not be enlarged upon, expanded or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

A nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of a structure and land shall not be extended or enlarged after passage of this ordinance by attachment on a building or premises of additional signs or by the addition of other uses of a nature which would be prohibited in the district involved.

74.1. Nonconforming lots of record and unified lots.

74.1.1 *Definitions*. For the purposes of this section, the following words, terms, or phrases shall have the following meanings:

Affiliate means a person who controls, is controlled by, or is under common control with another person. An affiliate of an individual may include, but is not necessarily limited to, that person's spouse or relative, or an individual having the same home as the individual; or an entity of which the individual is a person serving as part of the governing or controlling authority of the entity.

Common ownership means owned by the same person or his affiliate.

Contiguous lot means one or more lots which share a common boundary line.

Lot shall have the same meaning ascribed to it in section 3.1 of this ordinance.

Nonconforming lot of record means a full platted lot that was platted and recorded prior to March 21, 1963, in the real estate records of the office of the probate judge in the county in which the lot is situated, and which lot does not conform to the minimum lot area or lot width requirements for the district in which it is located.

Unified lot means two or more contiguous lots that are so integrated, through common or dependent structures or reliance on the other to meet setback requirements, as to form a unified whole.

74.1.2 *Nonconforming lots of record.* Subject to section 74.1.3, a nonconforming lot of record may be used for a permitted use, except apartments and duplexes, nonetheless provided:

(1) The lot has a minimum width of 40 feet and a minimum area of 4,000 square feet, except as permitted in a Residence 2-C District;

(2) The lot abuts an all-weather street and has not less than 20 feet frontage;

(3) The proposed building conforms to all yard requirements for the district; and

(4) The water supply and sewage disposal meet all health requirements.

Where two or more contiguous lots under common ownership are sufficient to create one lot of dimensions conforming to the requirements for the district in which the lots are located but the lots are not sufficient for the creation of two or more fully conforming lots, then all of the said lots shall be deemed merged into one lot.

74.1.3 *Unified lots.* Unified lots under common ownership are deemed to be merged.

(Ord. No. 14-318, § 1, 10-23-2014)

Editor's note—Ord. No. 14-318, § 1, adopted Oct. 23, 2014, repealed former § 74.1 and enacted a new § 74.1 as set out herein. The former section pertained to similar subject matter.

74.2. Nonconforming uses of land.

Where, at the effective date of adoption or amendment of this ordinance, lawful use of land

exists that is made no longer permissible under the terms of this ordinance as enacted or amended, such use may be continued, so long as it remains otherwise lawful, subject to the following provisions:

74.2.1. No such nonconforming use shall be enlarged, increased or expanded to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this ordinance.

74.2.2. No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel occupied by such use at the effective date of adoption or amendment of this ordinance.

74.2.3. If any such nonconforming use of land ceases for any reason for a period of more than six months, any subsequent use of land shall conform to the regulations specified by this ordinance for the district in which such land is located and continuance of said use after said period is specifically prohibited.

74.3. Nonconforming structures.

Where a lawful structure exists at the effective date of adoption or amendment of this ordinance that could not be built under the terms of this ordinance by reason of restriction on area, lot coverage, height, yards, or other characteristics of the structure or its location on the lot, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

74.3.1. No such structure may be enlarged or altered in a way which increases its nonconformity.

74.3.2. Should such structure be destroyed by any means to an extent of 50 percent or more of its replacement cost at the time of destruction, it shall not be reconstructed except in conformity with the provisions of this ordinance.

74.3.3. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

74.4. Nonconforming uses of structures.

If a lawful use of a structure, or of structure and premises in combination, exists at the effective date of adoption or amendment of this ordinance, that would not be allowed in the district under the terms of this ordinance, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

74.4.1. No existing structure devoted to a use not permitted by this ordinance in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.

74.4.2. If no structural alterations are made, any nonconforming use of a structure, or structure and premises, may be changed to another nonconforming use provided the board of adjustment, either by general rule or by making findings in the specific case, shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the board of adjustment may require appropriate conditions and safeguards in accord with the provisions of this ordinance.

74.4.3. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district in which such structure is located, and the nonconforming use may not thereafter be resumed.

74.4.4. When a nonconforming use of a structure, or structure and premises in combination, is discontinued or abandoned for six months, the structure, or structure and premises in combination, shall not thereafter be used except in conformance with the regulations of the district in which it is located.

74.4.5. Where nonconforming use status applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land.

74.5. Repairs and maintenance.

Nothing in this ordinance shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof.

74.6. Uses under exception provisions not nonconforming uses.

Any use for which a special exception is permitted as provided in this ordinance shall not be deemed a nonconforming use in such district.

74.7. Documentation of existing extraction activities.

Extraction activities that are functioning at the time of adoption of this amendment shall submit the following information to the manager of natural resources and environmental management within three months of the date of adoption of said amendment:

An area is deemed to have been in use for extraction if overburden in such area has been removed during the previous 12 months in preparation for extraction or if the land has been cleared and grubbed in preparation for extraction.

74.7.1. Legal description of the extraction site, including the total acreage.

74.7.2. Copies of all instruments as required by section 73.17.2.

74.7.3. Vicinity map as defined by section 73.17.3.

74.8. Telecommunications towers inventory.

The owner of each telecommunications tower erected within the Huntsville, Alabama, corporate limits prior to adoption of this amendment to the zoning ordinance shall submit the following information to the City of Huntsville zoning administrator within six months of the date of adoption of this amendment. Failure to comply with this inventory shall be a violation of the zoning ordinance.

74.8.1. Name, address and telephone number of tower owner.

74.8.2. Location of the tower by street address and legal description.

74.8.3. Date of construction of tower.

74.8.4. Height of tower from natural grade to the highest point whether of the tower or of an antenna, and the elevation of each existing antenna or array of antennas.

74.8.5. Names of all users having collocated antennas on the tower.

74.8.6. Copies of all federal approvals, permits and licenses for the tower.

74.8.7. Approval dates for any variances or special exceptions granted for the tower or its accessory structure.

(Ord. No. 96-1008, § 5, 1-23-1997; Ord. No. 07-460, § 9, 6-28-2007)

ARTICLE 75. ALCOHOLIC BEVERAGE ESTABLISHMENT REGULATIONS

The provisions of this article shall be subject to such exceptions, additions, or modifications as herein provided by the following supplementary regulations.

75.1. Definitions.

For the purpose of this article the following definitions, terms, and their application shall be used and applied.

Alcoholic beverages are as defined by the state alcoholic beverage control laws.

Brewery means any premises licensed by the city to engage in the distillation, production, fermenting, brewing, rectifying or otherwise in the manufacture of only beer, or malt or brewed alcoholic beverages as well as engaging in the receiving, storage, or warehousing only of beer, or malt or brewed beverages within the city for transshipment inside and outside the state.

Brewpub means an establishment licensed as and meeting the qualifications of a brewpub under the state alcoholic beverage control laws, including Code of Ala. 1975, Title 28, Chapter 4A, as such may be amended or superseded from time to time.

Brewpub areas means suitable locations that meet the qualifications of the location of a brewpub under the state alcoholic beverage control laws, including Code of Ala. 1975, Title 28, Chapter 4A, as such may be amended or superseded from time to time, and that fall within the appropriate zoning districts. The physical boundaries of the brewpub areas are as delineated in section 75.6 herein.

Church means a tax-exempt place of worship set apart primarily for religious purposes and in which religious services are routinely and customarily held and with which a clergyman is associated.

Class I club liquor retailer means an establishment licensed as and meeting the qualifications of a club liquor retail class I licensee under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-12 which qualifications include but are not necessarily limited to the requirements that there be at least 150 paid-up members and that the club provide special space and accommodations where, in consideration of payment, food with or without lodging is habitually served.

Class II club liquor retailer means an establishment licensed as and meeting the qualifications of a club liquor retail class II licensee under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-12, which qualifications include but are not necessarily limited to the requirement that there be at least 100 paid-up members.

Class I lounge liquor retailer means an establishment licensed as and meeting the qualifications of a lounge retail liquor class I licensee under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-11, and section 20-X-5-.04 of the regulations of the Alabama Alcoholic Beverage Control Board, as such may be amended or superseded from time to time.

Class II lounge liquor retailer means an establishment licensed as and meeting the qualifications of a lounge retail liquor class II licensee under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-11, and section 20-X-5-.04 of the regulations of the Alabama Alcoholic Beverage Control Board, as such may be amended or superseded from time to time.

Child care center means a facility licensed by the Alabama Department of Human Resources that provides for the care of 13 or more children.

Convenience store means a small scale retail store that offers for sale a limited line of groceries and household items and may also sell gasoline.

Dinner theater means a restaurant with live theatrical performances.

Entertainment means live entertainment or dancing including cabarets, concerts, live bands, ballrooms, dance halls, comedy clubs, karaoke, theaters, disc jockeys, or other similar live performance venues.

Expressway means a multi-lane divided highway for through traffic with full control of access and with grade separations at street intersections.

Food court means a common space adjacent to food vendors within an enclosed shopping mall designed and furnished for the convenience of diners.

Food service shall mean the same as a restaurant.

Hotel means a building or buildings held out to the public for housing accommodations of travelers or transients, and shall include motel and bed and breakfast, but shall not include a rooming house or boarding house.

Importer means an establishment licensed as and meeting the qualifications of an importer of alcoholic beverages under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-7.

Manufacturer means an establishment licensed as and meeting the qualifications of a manufacturer of alcoholic beverages under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-6.

Maximum occupancy means the establishment's occupancy rating set in accordance with the applicable provisions of the city's fire code.

Meal means a diversified selection of food some of which is not susceptible of being consumed in the absence of at least some articles of tableware and which cannot be conveniently consumed while one is standing or walking about.

Nursery school means a school designed to provide daytime care or instruction for two or more children from two to five years of age.

On/off-premises beer retailer means an establishment licensed as and meeting the qualifications of a retail beer licensee for on-premises and off-premises consumption under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-16; provided, however, where the off-premises sales of beer are more than 25 percent of the total combined on and off-premises sales of beer, then the establishment shall be regulated for purposes of this article as an off-premises beer retailer.

On/off-premises beer/table wine retailer means an establishment licensed as and meeting the qualifications of a on/off-premises beer or an on/off-premises table wine retailer, or both; provided, however, where the off-premises sales of beer and/or table wine are more than 25 percent of the total combined on and off-premises sales of beer and/or table wine, then the establishment shall be regulated for purposes of this article as an off-premises beer/table wine retailer.

On/off-premises table wine retailer means an establishment licensed as and meeting the qualifications of a retail table wine licensee for on-premises and off-premises consumption under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-14; provided, however, where the off-premises sales of table wine are more than 25 percent of the total combined on and off-premises sales of table wine, then the establishment shall be regulated for purposes of this article as an off-premises table wine retailer.

Off-premises beer retailer means an establishment licensed as and meeting the qualifications of a retail beer licensee for off-premises consumption under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-17. Entertainment shall not be allowed or included in such retailer.

Off-premises beer/table wine retailer means an establishment licensed as and meeting the qualifications of an off-premises beer retailer or an off-premises table wine retailer, or both. The term does not include establishments licensed to sell liquor, as that term is defined by the state alcoholic beverage control laws, for on or off-premises consumption. Entertainment shall not be allowed or included in such retailer.

Off-premises table wine retailer means an establishment licensed as and meeting the qualifications of a retail table wine licensee for off-premises consumption under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-15. Entertainment shall not be allowed or included in such retailer.

Package sales means the off-premises sale of liquor, as liquor is defined by the alcoholic beverage control laws of the state.

Package sales establishment means an establishment licensed to sell liquor, as liquor is defined by the state alcoholic beverage control laws, at retail for off-premises consumption, whether or not the establishment is also licensed to sell liquor at retail for on-premises consumption, including a class I club liquor retailer, a class II club liquor retailer, a class I lounge liquor retailer, and a class II lounge liquor retailer, and which establishment actually sells, intends to sell, or holds itself out as selling liquor for off-premises consumption. The term shall also mean and include state stores of the Alabama Alcoholic Beverage Control Board.

Protected uses include and are limited to churches, schools, nursery schools, and child care centers, provided such uses were established prior to the establishment of the licensed retailer and such protected uses have not been abandoned or discontinued for a period of six months or more and further provided that the protected use is not separated from the retailer by an expressway or an interstate highway.

Restaurant means an establishment that meets the definition and qualifications of the state alcoholic beverage control laws, including the Code of Ala. 1975, § 28-3-1, and section 20-X-5-.05 of the Regulations of the Alabama Alcoholic Beverage Control Board, as such may be amended or superseded from time to time, including the requirement that the establishment be habitually and principally used for the purpose of preparing and serving meals for the public to consume on the premises. In addition, the licensee shall maintain gross retail sales of meals prepared and served on the licensed premises in excess of 50 percent of its total gross sales.

Restaurant liquor retailer means an establishment, including restaurants, hotels, dinner theaters, and civic center authorities, licensed as and meeting the qualifications of a restaurant retail liquor licensee under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-13, and section 20-X-5-.05 of the Alabama Alcoholic Beverage Control Board, as such may be amended or superseded from time to time.

Retailer means an establishment licensed to sell alcoholic beverages at retail.

Retailer's premises means the licensed premises and any adjoining parking areas used or available for parking whether such areas are owned, leased, or otherwise assigned to the retailer.

School means places used for the imparting of instruction to children in grades K-12, when provided by a public, private, denominational, and parochial school. The term does not include proprietary trade or occupational schools.

Special events retailer means an event licensed as and meeting the qualifications of a special events retail licensee under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-20.

Special retailer means an organization licensed as and meeting the qualifications of a special retail licensee under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-19.

Specialty store means a store, including a grocery store, convenience store, gift shop, drug store, and general merchandise store, specializing primarily in the sale of goods, including groceries, gasoline, sundries, household items, notions and

dry goods. The specialty store may include the off-premises sale of beer and table wine by an off-premises beer/table wine retailer; provided, however, at least 50 percent of the store's gross retail sales must be derived from the sale of goods other than alcoholic beverages in order to qualify as a specialty store.

State alcoholic beverage control laws mean the alcoholic beverage control laws of state and the regulations promulgated thereunder by the Alabama Alcoholic Beverage Control Board, as such laws may be amended or superseded from time to time.

Warehouse means an establishment licensed as and meeting the qualifications of a warehouse under the state alcoholic beverage control laws, including the Code of Ala. 1975, § 28-3A-10.

Wholesaler means an establishment licensed as and meeting the qualifications of a wholesaler of alcoholic beverages under the state alcoholic beverage control laws, including the Code of Ala. 1975, §§ 28-3-1 and 28-3A-8 (liquor wholesalers) and 28-3A-9 (beer and table wine wholesalers).
(Ord. No. 11-11, § 1, 2-24-2011; Ord. No. 13-247, § 1, 5-23-2013)

75.2. Measurements.

Where this article establishes separations between the retailer's premises and protected uses, residential districts, or other retailer's premises, the distance shall be measured from the external boundary of the retailer's premises to the external boundary of the protected use, the residential district, or the other retailer's premises, as the case may be, except in the case of off-premises-only retailers, including package sales establishments, in which case the distance shall be measured from the public entrance(s) of such retailers.
(Ord. No. 11-11, § 1, 2-24-2011; Ord. No. 18-892, § 1, 11-15-2018)

75.3. Permitted establishments by districts.

The following establishments, engaged in the sale and service of alcoholic beverages, and no other, shall be permitted in the districts hereinafter set forth:

75.3.1. Neighborhood Business C-1, Neighborhood Business C-2, Village Business C-6 and Research Park 2 Districts.

Restaurant liquor retailers, excluding hotels and civic center authorities licensed as a restaurant liquor retailer, and on/off-premises beer/table wine retailers with food service (all without entertainment) — provided that such uses shall be subject to each of the following restrictions:

1) No alcoholic beverages shall be served, offered, dispensed, sold, or consumed between the hours of midnight and 2:00 a.m. unless a special exception has been granted in accordance with section 92.5—Powers and Duties, and further provided, the provisions of section 74.4—Non-Conforming Uses of Structures shall not operate to allow existing establishments to function contrary to this provision;

2) There shall be no private sidewalk or patio seating unless a special exception has been granted in accordance with section 92.5—Powers and Duties; and

3) No alcoholic beverages shall be sold by any restaurant or food vendor located in or adjacent to a food court.

Off-premises beer/table wine retailers operating as a specialty store provided that such retailers are not located within 500 feet of any protected use, unless a special exception has been granted in the case of churches in accordance with section 92.5—Powers and Duties.

Permitted uses as special exceptions as defined and regulated by section 92.5—Powers and Duties hereof.
(Ord. No. 15-760, § 2, 11-19-2015; Ord. No. 16-89, § 1, 3-24-2016; Ord. No. 18-230, § 2, 5-24-2018)

75.3.2. General business C-3 district.

Banquet halls.

Restaurant liquor retailers, class I club liquor retailers without package sales, and on/off-premises beer/table wine retailers with food service (all with or without entertainment).

Class I lounge liquor retailers without package sales, class II club liquor retailers without package sales, and on/off-premises beer/table wine retailers (all without entertainment).

Class I lounge liquor retailers without package sales, class II club liquor retailers without package sales, and on/off-premises beer/table wine retailers (all with entertainment) - provided that such uses shall be subject to each of the following restrictions:

(1) Such retailer's premises shall not be located within 500 feet of a residential district except where the retailer's premises is separated from said residential district by an expressway or an interstate highway; and

(2) Such retailer's premises shall not be located within 500 feet of a protected use, except such retailer's premises may be located within 500 feet of accessory child care centers located in office buildings; and

(3) The aforesaid distance restrictions shall not apply where the retailer's premises and the protected use front on different streets and do not have common exits or driveways providing access or adjoining property lines; and

(4) The aforesaid distance restriction relative to protected uses shall not apply where said retailer's premises is located in an enclosed mall shopping center with a minimum of 100,000 square feet of floor area.

Off-premises beer/table wine retailers - provided such uses shall be subject to each of the following restrictions:

(1) Such retailer's premises shall not be located within 500 feet of a residential district, provided, however, the aforesaid distance restriction shall not apply in the case of specialty stores; and

(2) Such retailer's premises shall not be located within 500 feet of a protected use unless a special exception has been granted in the case of churches in accordance with section 92.5 - powers and duties, except such retailer's premises may be located within 500 feet of accessory child care centers located in office buildings; and

(3) The aforesaid distance restriction relative to protected uses shall not apply where said retailer's premises is located in an enclosed mall shopping center with a minimum of 100,000 square feet of floor area.

Permitted uses as special exceptions as defined and regulated by section 92.5 - powers and duties hereof.

75.3.3. Highway business C-4 district.

Banquet halls.

Restaurant liquor retailers, class I club liquor retailers without package sales, and on/off-premises beer/table wine Retailers with food service (all with or without entertainment) - provided that no alcoholic beverages shall be sold by any restaurant or food vendor located in or adjacent to a food court.

(Ord. No. 11-11, § 1, 2-24-2011; Ord. No. 11-895, § 1, 1-26-2012; Ord. No. 13-247, § 2, 5-23-2013; Ord. No. 15-315, § 2, 6-25-2015; Ord. No. 16-89, § 1, 3-24-2016; Ord. No. 15-677, § 2, 10-22-2015; Ord. No. 22-237, § 1, 5-26-2022)

75.4. Accessory uses.

75.4.1. Tastings: Wine tastings and beer tastings shall be allowed as accessory uses to those primary permitted retailers that are authorized by state alcoholic beverage control laws to conduct such tastings, provided that said retailers shall at all times comply with state laws regulating wine and beer tastings.

75.4.2. Special retailers:

(1) For the purposes of this section the following words, terms, and phrases shall have the following meanings:

Banquet hall means an organization whose primary use of its premises is not the sale of alcoholic beverages but is to provide facilities, which may include services and staffing, for private-only gatherings or events; provided that no person connected with the banquet hall, which includes its owner, officer, director, member, landlord, manager, servant, agent, or employee, or those that otherwise have a controlling or pecuniary interest in the premises or the establishment, shall sponsor, conduct, organize, or host gatherings or events at the banquet hall.

Cultural venue means an organization whose primary use of its premises is not for the sale of alcoholic beverages but is to hold or sponsor: (1) live performances of serious artistic merit, such as theatrical plays, dramatic readings, operas, concerts, dances, ballets, or dramatic performances; or (2) showings of representational or visual works of serious artistic merit, such as paintings, sculptures, and photographs; or other activities of serious artistic, literary, or cultural merit.

(2) Special retailers shall be allowed only as accessory uses to those primary permitted uses that include state parks, racing commissions, fair authorities, airport authorities, civic center authorities, museums, and other such organizations created by state or local governments; and shall include the franchises or concessionaires thereof.

(3) Special retailers shall be allowed only by special exception as accessory uses to banquet halls or cultural venues.

(Ord. No. 11-11, § 1, 2-24-2011; Ord. No. 11-895, § 1, 1-26-2012)

75.5. Special events retailers.

Special events retailers shall be permitted as a special exception in all residential districts provided that, in addition to any appropriate conditions and safeguards that may be imposed in the granting of the special exception in accordance with Section 92.5—Powers and Duties:

(1) The applicant for licensure is a tax-exempt, non- profit organization; and

(2) The applicant has not applied for or sponsored, either solely or jointly, more than four special events in a given calendar year; and

(3) The applicant certifies under oath that substantially all of the net proceeds will be used for non-profit purposes; and

(4) No other retailer shall sponsor or otherwise receive any form of remuneration from the event.

Special events retailers shall be allowed as a permitted use in all non-residential districts.
(Ord. No. 11-11, § 1, 2-24-2011)

75.6. Brewpub areas.

The following description represents the established boundary of the brewpub areas:

All that part of Sections 13, 23, 24, 25, 26, 28, 33, 34, 35 and 36, Township 03 South, Range 01 West and all that part of Sections 01, 02, 03, 11, 12, 13 and 14, Township 04 South, Range 01 West of the Huntsville Meridian in the City of Huntsville, Madison County, Alabama; more particularly described as beginning at a point located at the Southwest Corner of Section 13, Township 03 South, Range 01 West of the Huntsville Meridian; thence from the Point of Beginning, North along the West Boundary of said Section 13, a distance of 12 feet to the centerline of Mastin Lake Road; thence East along the centerline of Mastin Lake Road, a distance of 1698 feet; thence Due South, a distance of 148 feet; thence South 86 Degrees East, a distance of 111 feet; thence South 35 Degrees East, a distance of 403 feet; thence South 25 Degrees 30 Minutes West, a distance of 824 feet; thence South 23 Degrees West, a distance of 565 feet, thence South 17 Degrees 35 Minutes West, a distance of 595 feet; thence South 87 Degrees East, a distance of 115 feet to the centerline of Normal Branch; thence in a Southerly direction along the centerline of Normal Branch, a distance of 1120 feet to a point located in the centerline of US 72 East Highway; thence West along the centerline of US 72 East Highway, a distance of 410 feet; thence South 01 Degree West, a distance of 389 feet; thence South 87 Degrees East, a distance of 53 feet; thence South 16 Degrees 45 Minutes West, a distance of 1499 feet to the centerline of Normal Branch; thence Southwesterly along the centerline of Normal Branch, a distance of 251 feet; thence South 88 Degrees West, a distance of 420 feet to a point located on the West Boundary of Section 25, Township 03 South, Range 01 West of the Huntsville Meridian; thence North 88 Degrees 35 Minutes West, a distance of 683 feet; thence South 30 Degrees 40 Minutes West, a distance of 1356 feet to the centerline of a tributary; thence Southeasterly along the centerline of said tributary, a distance of 1560 feet to a point on the North right-of-way of Oakwood Avenue; thence South 44 Degrees East, a distance of 36 feet to the centerline of Oakwood Avenue; thence East along the centerline of Oakwood Avenue, a distance of 477 feet to the centerline of Pinhook Creek; thence in a Southerly direction along the centerline of Pinhook Creek, a distance of 138 feet; thence South 88 Degrees 30 Minutes East, a distance of 792 feet; thence Due South, a distance of 115 feet; thence South 89 Degrees East, a distance of 944 feet to the centerline of Kildare Street; thence North along the centerline of Kildare Street, a distance of 246 feet to the centerline of Oakwood Avenue; thence East along the centerline of Oakwood Avenue, a distance of 1486 feet to the centerline of the Norfolk Southern Railroad; thence South along the centerline of the Norfolk Southern Railroad, a distance of 40 feet; thence North 88 Degrees West, a distance of 27 feet; thence South 24 Degrees West, a distance of 1056 feet; thence North 66 Degrees 30 Minutes West, a distance of 828 feet to the centerline of Meridian Street; thence South along the centerline of Meridian Street, a distance of 1932 feet to the centerline of Dallas Branch; thence West along the centerline of Dallas Branch, a distance of 559 feet; thence North 11 Degrees East, a distance of 834 feet; thence North 87 Degrees West, a distance of 293 feet; thence North 07 Degrees East, a distance of 11 feet; thence North 88 Degrees 30 Minutes West, a distance of 959 feet to the centerline of Pinhook Creek; thence North along the centerline of Pinhook Creek, a distance of 416 feet; thence North 89 Degrees West, a distance of 574 feet; thence South 16 Degrees 20 Minutes West, a distance of 1401 feet; thence South 15 Degrees 15 Minutes East, a distance of 446 feet; thence South 88 Degrees East, a distance of 136 feet; thence South 02 Degrees West, a distance of 34 feet; thence South 89 Degrees 20 Minutes

East, a distance of 622 feet to a point located on the East Boundary of Section 35, Township 03 South, Range 01 West; thence South along said Eastern Section Boundary, a distance of 356 feet to the centerline of Pratt Avenue; thence East along the centerline of Pratt Avenue, a distance of 1858 feet to the intersection of Pratt Avenue and Meridian Street; thence Southerly along the centerline of Meridian Street, a distance of 1019 feet; thence North 56 Degrees 50 Minutes East, a distance of 874 feet to the intersection of Howe Avenue and Dallas Street; thence Southeasterly along the centerline of Dallas Street, a distance of 239 feet; thence South 58 Degrees West, a distance of 126 feet; thence North 33 Degrees West, a distance of 54 feet; thence South 58 Degrees West, a distance of 105 feet; thence North 33 Degrees West, a distance of 62 feet; thence South 59 Degrees West, a distance of 104 feet; thence South 36 Degrees East, a distance of 21 feet; thence South 55 Degrees West, a distance of 282 feet; thence South 32 Degrees 15 Minutes East, a distance of 449 feet; thence South 55 Degrees 40 Minutes West, a distance of 159 feet; thence South 33 Degrees East, a distance of 42 feet; thence South 58 Degrees 20 Minutes West, a distance of 150 feet; thence South 33 Degrees 40 Minutes East, a distance of 504 feet; thence North 34 Degrees East, a distance of 20 feet to the centerline of Lincoln Street; thence Southeast along the centerline of Lincoln Street, a distance of 808 feet to the intersection of Lincoln Street and Randolph Avenue; thence Southwesterly along the centerline of Randolph Avenue, a distance of 203 feet; thence South 33 Degrees 20 Minutes East, a distance of 366 feet to the centerline of Eustis Avenue; thence Southwesterly along the centerline of Eustis Avenue, a distance of 389 feet; thence South 33 Degrees East, a distance of 365 feet to the centerline of Gates Avenue; thence Southwesterly along the centerline of Gates Avenue, a distance of 350 feet; thence South 31 Degrees 50 Minutes East, a distance of 594 feet; thence North 59 Degrees East, a distance of 26 feet; thence South 31 Degrees 20 Minutes East, a distance of 1364 feet to the centerline of Fagan Creek; thence Westerly along the centerline of Fagan Creek, a distance of 761 feet to the intersection of Fagan Creek and the centerline of Gallatin Street; thence Southeasterly along the centerline of Gallatin Street, a distance of 738 feet to the intersection of Gallatin Street and Saint Clair Avenue; thence Westerly along the centerline of Saint Clair Avenue, a distance of 1079 feet; thence Due North, a distance of 113 feet; thence Due East, a distance of 24 feet; thence Due North, a distance of 96 feet; thence South 89 Degrees East, a distance of 5 feet; thence Due North, a distance of 246 feet; thence South 88 Degrees West, a distance of 95 feet; thence North 01 Degree 50 Minutes West, a distance of 326 feet to the centerline of Fagan Creek; thence Northwesterly along the centerline of Fagan Creek, a distance of 792 feet; thence North 53 Degrees West, a distance of 340 feet; thence South 06 Degrees West, a distance of 111 feet; thence South 29 Degrees West, a distance of 231 feet; thence South 33 Degrees West, a distance of 248 feet; thence North 44 Degrees West, a distance of 25 feet; thence South 23 Degrees 30 Minutes West, a distance of 302 feet to the centerline of a railroad; thence along the centerline of said railroad, South 14 Degrees 50 Minutes East, a distance of 1120 feet to the centerline of Governors Drive; thence West along the centerline of Governors Drive, a distance of 534 feet; thence South 01 Degree West, a distance of 891 feet; thence South 35 Degrees East, a distance of 645 feet; thence North 87 Degrees East, a distance of 561 feet to the centerline of a railroad; thence along the centerline of said railroad, South 15 Degrees East, a distance of 1721 feet; thence South 68 Degrees West, a distance of 62 feet; thence South 15 Degrees East, a distance of 939 feet; thence North 86 Degrees East, a distance of 55 feet to the centerline of a railroad; thence along the centerline of said railroad, South 15 Degrees East, a distance of 6940 feet to the centerline of Airport Road; thence Westerly along the centerline of Airport Road/Johnson Road, a distance of 5316 feet; thence North 01 Degree West 695 feet; thence Due East, a distance of 63 feet to the centerline of Huntsville Spring Branch; thence Northerly along the centerline of Huntsville

Spring Branch, a distance of 10443 feet to the centerline of Governors Drive; thence East along the centerline of Governors Drive, a distance of 552 feet; thence North 20 Degrees East, a distance of 359 feet to the centerline of Memorial Parkway; thence Northwesterly along the centerline of Memorial Parkway, a distance of 1518 feet; thence South 57 Degrees West, a distance of 928 feet to the intersection of Vernon Avenue and Seminole Drive; thence Northwesterly along the centerline of Seminole Drive, a distance of 582 feet to the intersection of Seminole Drive and Clinton Avenue; thence Southwesterly along the centerline of Clinton Avenue, a distance of 2976 feet to the centerline of Governors Drive; thence West along the centerline of Governors Drive, a distance of 363 feet; thence North 40 Degrees East, a distance of 31 feet; thence North 02 Degrees 45 Minutes West, a distance of 2005 feet to the centerline of the Norfolk Southern Railroad; thence along the centerline of Norfolk Southern Railroad, South 81 Degrees West, a distance of 93 feet to the intersection of the centerline of said railroad and the centerline of Triana Boulevard; thence Northerly along the centerline of Triana Boulevard, a distance of 865 feet; thence North 80 Degrees East, a distance of 789 feet; thence South 40 Degrees East, a distance of 600 feet; thence South 45 Degrees East, a distance of 53 feet; thence South 57 Degrees East, a distance of 42 feet; thence South 70 Degrees East, a distance of 60 feet; thence South 59 Degrees East, a distance of 57 feet; thence South 46 Degrees East, a distance of 59 feet to the centerline of the Norfolk Southern Railroad; thence Northeasterly along the centerline of the Norfolk Southern Railroad, a distance of 486 feet; thence North 02 Degrees 45 Minutes East, a distance of 811 feet; thence North 87 Degrees 30 Minutes East, a distance of 888 feet; thence North 02 Degrees East, a distance of 149 feet; thence South 88 Degrees West, a distance of 23 feet; thence North 01 Degree 30 Minutes East, a distance of 796 feet; thence North 81 Degrees 30 Minutes East, a distance of 796 feet; thence North 66 Degrees East, a distance of 162 feet; thence North 24 Degrees 30 Minutes West, a distance of 632 feet; thence North 25 Degrees East, a distance of 274 feet; thence South 69 Degrees West, a distance of 178 feet; thence North 24 Degrees West, a distance of 173 feet; thence North 73 Degrees East, a distance of 40 feet; thence North 35 Degrees West, a distance of 694 feet; thence North 24 Degrees 50 Minutes West, a distance of 321 feet; thence South 64 Degrees West, a distance of 114 feet; thence North 30 Degrees West, a distance of 376 feet to the centerline of Cox Avenue; thence Southwesterly along the centerline of Cox Avenue, a distance of 170 feet to the intersection of Cox Avenue and Pulaski Pike; thence Northwesterly along the centerline of Pulaski Pike, a distance of 47 feet; thence South 61 Degrees 50 Minutes West, a distance of 2094 feet; thence South 01 Degree West, a distance of 156 feet; thence North 89 Degrees 30 Minutes West, a distance of 1379 feet; thence North 30 Degrees West, a distance of 116 feet to the centerline of University Drive; thence Westerly along the centerline of University Drive, a distance of 1119 feet; thence Due South, a distance of 42 feet; thence North 89 Degrees West, a distance of 3079 feet to a point located at the intersection of University Drive and Jordan Lane; thence Northerly along the centerline of Jordan Lane, a distance of 2404 feet; thence North 34 Degrees 40 Minutes West, a distance of 1229 feet; thence North 29 Degrees 30 Minutes West, a distance of 1648 feet; thence North 59 Degrees East, a distance of 43 feet; thence North 31 Degrees 40 Minutes West, a distance of 311 feet; thence South 89 Degrees 30 Minutes East, a distance of 859 feet; thence South 02 Degrees West, a distance of 348 feet; thence South 88 Degrees East, a distance of 226 feet; thence South 00 Degrees West, a distance of 498 feet; thence South 89 Degrees East, a distance of 230 feet; thence South 03 Degrees 20 Minutes West, a distance of 335 feet; thence South 89 Degrees West, a distance of 220 feet; thence South 00 Degrees West, a distance of 200 feet; thence South 89 Degrees East, a distance of 264 feet; thence South 00 Degrees 30 Minutes West, a distance of 488 feet; thence North 89 Degrees East, a distance of 150 feet; thence South 01 Degree East, a distance of 215 feet; thence South 67 Degrees East, a distance of 272 feet; thence

South 01 Degree West, a distance of 240 feet; thence South 89 Degrees 30 Minutes East, a distance of 658 feet; thence South 02 Degrees West, a distance of 1465 feet; thence South 89 Degrees 35 Minutes East, a distance of 2686 feet; thence North 83 Degrees East, a distance of 178 feet; thence South 34 Degrees East, a distance of 632 feet; thence South 36 Degrees East, a distance of 105 feet; thence South 46 Degrees East, a distance of 237 feet; thence South 48 Degrees East, a distance of 116 feet; thence South 55 Degrees East, a distance of 152 feet; thence South 51 Degrees East, a distance of 147 feet; thence South 35 Degrees East, a distance of 158 feet to the centerline of University Drive; thence Northeasterly along the centerline of University Drive, a distance of 3403 feet to the intersection of University Drive and Pulaski Pike; thence Northwesterly along the centerline of Pulaski Pike, a distance of 1785 feet; thence North 52 Degrees East, a distance of 244 feet; thence South 38 Degrees 10 Minutes East, a distance of 101 feet; thence Due East, a distance of 258 feet; thence North 01 Degree 35 Minutes East, a distance of 568 feet to the centerline of Country Club Avenue; the East along the centerline of County Club Avenue, a distance of 100 feet; thence North 01 Degree East, a distance of 175 feet; thence North 32 Degrees West, a distance of 70 feet; thence North 02 Degrees 20 Minutes East, a distance of 518 feet; thence North 40 Degrees East, a distance of 30 feet; thence North 00 Degrees 30 Minutes East, a distance of 329 feet; thence South 89 Degrees East, a distance of 668 feet; thence North 00 Degrees 30 Minutes East, a distance of 547 feet to the centerline of Oakwood Avenue; thence East along the centerline of Oakwood Avenue, 264 feet; thence North 00 Degrees 50 Minutes East, a distance of 630 feet; thence South 89 Degrees East, a distance of 525 feet to the centerline of Old Blue Spring Road; thence North along the centerline of Old Blue Spring Road, a distance of 284 feet; thence South 89 Degrees East, a distance of 201 feet; thence North 01 Degree 20 Minutes East, a distance of 1529 feet; thence North 88 Degrees West, a distance of 231 feet to the centerline of Blue Spring Road; thence North along the centerline of Blue Spring Road, a distance of 776 feet to the centerline of Max Luther Drive; thence East along the centerline of Max Luther Drive, a distance of 202 feet; thence North 01 Degree East, a distance of 2210 feet; thence South 88 Degrees East, a distance of 810 feet; thence North 02 Degrees 20 Minutes East, a distance of 629 feet; thence South 87 Degrees 50 Minutes East, a distance of 422 feet; thence North 02 Degrees East, a distance of 20 feet; thence South 89 Degrees 10 Minutes East, a distance of 864 feet; thence North 18 Degrees 40 Minutes East, a distance of 1004 feet; thence North 01 Degree 35 Minutes East, a distance of 885 feet back to the Point of Beginning.

LESS AND EXCEPT THE FOLLOWING TWO TRACTS OF LAND FROM THE ABOVE DESCRIPTION:

All that part of Sections 35 and 36, Township 03 South, Range 01 West of the Huntsville Meridian in the City of Huntsville, Madison County, Alabama; more particularly described as beginning at the intersection of the centerlines of Monroe Street and Holmes Avenue; thence from the Point of Beginning, Southwesterly along the centerline of Holmes Avenue, a distance of 681 feet to a point located at the intersection of Holmes Avenue and Dallas Avenue; thence in a Northeasterly direction and along the centerline of Dallas Avenue, a distance of 320 feet; thence South 77 Degrees 50 Minutes West, a distance of 558 feet; thence in a Northwesterly direction, a distance of 116 feet to a point located in the centerline of the Norfolk Southern Railroad; thence in a Northeasterly direction along said centerline of the Norfolk Southern Railroad, a distance of 1829 feet to the intersection of the Norfolk Southern Railroad and Church Street; thence in a Southeasterly direction along the centerline of Church Street, a distance of 567 feet to the intersection of Church Street and Monroe Street; thence in a Southwesterly direction along the centerline of Monroe Street, a distance of 1040 feet back to the Point of Beginning and containing 23.40 acres, more or less.

ALSO,

All that part of Section 12, Township 04 South, Range 01 West of the Huntsville Meridian, Madison County, Alabama; more particularly described as beginning at the intersection of the South right-of-way of Bob Wallace Avenue and the East right-of-way of Memorial Parkway; thence in a Northeasterly direction and along the South right-of-way of Bob Wallace Avenue, a distance of 484 feet; thence South 09 Degrees East, a distance of 495 feet; thence South 80 Degrees 50 Minutes West, a distance of 490 feet to a point located on the East right-of-way of Memorial Parkway; thence in a Northerly direction and along the East right-of-way of Memorial Parkway, a distance of 484 feet back to the Point of Beginning and containing 5.47 acres, more or less.

CONTAINING IN THE AGGREGATE 2672.67 ACRES, MORE OR LESS.
(Ord. No. 13-247, § 4, 5-23-2013; Ord. No. 22-237, § 2, 5-26-2022)

75.7. Severability.

Should any section or provision of this article be held void or invalid, it shall not affect the validity of any other section or provision thereof which is not of itself void or invalid, it being the purpose and intention of the city council to enact each separate section and/or subsection separately.
(Ord. No. 11-11, § 1, 2-24-2011; Ord. No. 13-247, § 3, 5-23-2013)

Editor's note—Ord. No. 13-247, § 3, adopted May 23, 2013, renumbered former § 75.6 as 75.7. Section 4 of the ordinance added a new § 75.6.

ARTICLE 76. BICYCLE PARKING REQUIREMENTS

The requirements for bicycle parking are established for the purpose of ensuring provision of adequate and safe facilities to accommodate bicycle parking and to encourage use of bicycles for travel as an alternative to use of motorized vehicles.

76.1. Minimum parking space requirements.

Bicycle parking facilities shall be provided for every new automobile parking lot or garage where 20 or more automobile parking spaces are required. Bicycle parking facilities shall also be provided for during the expansion of an existing automobile parking lot or garage where 20 or more automobile parking spaces are required when such expansion increases the required automobile parking by five percent or more.

Unless otherwise expressly stated, bicycle parking spaces shall be provided for at a rate of one bicycle space for each 20 automobile parking spaces as automobile parking spaces are required under section 70.1 herein, with a minimum requirement of two bicycle parking spaces. Unless otherwise expressly stated, no automobile parking lot or garage shall be required to provide more than 30 bicycle parking spaces.

No bicycle parking shall be required for residential uses other than multi-family residential developments. For multi-family residential uses, the bicycle parking requirement shall be one bicycle parking space for each five dwelling units and there is no maximum number of bicycle parking spaces.

The total number of required automobile parking spaces shall be reduced at the ratio of one automobile parking space for each six bicycle spaces provided. The total number of required automobile parking spaces shall not be reduced by more than five percent for any automobile parking lot or garage.

When the number of required automobile parking spaces for a new or expanded use is reduced by means of a zoning variance, the number of required bicycle spaces shall be calculated on the basis of the number of required automobile parking spaces, unless a variance is granted to reduce the number of required bicycle parking spaces.
(Ord. No. 10-507, § 1, 8-26-2010)

76.2. Parking facility access and location requirements.

Required bicycle parking spaces must have a minimum dimension of two feet in width by six

feet in length with an access aisle of at least five feet and a vertical clearance of at least seven feet. A hard surfaced parking area is required for the bicycle racks. Bicycle racks must be securely anchored to the ground or the building structure to prevent the racks from being removed from the location.

Bicycle racks must be installed with adequate space beside the parked bicycle so that a bicyclist will be able to reach and operate the locking mechanism. There must be a minimum of 24 inches beside each parked bicycle for access. This access may be shared by adjacent bicycles. However, each bicycle parking space must be accessible without moving another bicycle.

Bicycle racks should be located so that parked bicycles do not block or impede the pedestrian path, handicapped access or vehicular circulation. Bicycle parking facilities located on sidewalks or other pedestrian accessways must leave clear pedestrian access of a minimum width of five feet. Bicycle parking facilities within automobile parking areas shall be separated by a physical barrier, such as a curb, wheel stop, pole, bollard or other similar feature, to protect bicycles from damage by automobiles.

Areas set aside for bicycle parking shall have signs clearly posted and the bicycle parking spaces shall be reserved for bicycle parking only.

Required bicycle parking spaces shall be located at least as close to the entrance of the building, facility or multi-family dwelling unit as the nearest nonhandicapped automobile parking space associated with said building, facility or multifamily dwelling unit. Where there are shopping centers or multi-tenant buildings with multiple entrances, the bicycle parking spaces must be well distributed and located as close to the entrances as the nearest non-handicapped automobile parking spaces.

Where automobile parking is provided in an enclosed area, bicycle parking shall be provided within the enclosure or in such a way as to provide comparable protection from the elements. For any use where bicycle parking is required, if the automobile parking is covered or partly covered, the bicycle parking shall be covered at the same ratio. Bicycle parking facilities shall be located in highly visible and well-lighted areas to increase safety and to minimize theft and vandalism.
(Ord. No. 10-507, § 1, 8-26-2010)

76.3. Bicycle rack and parking facility requirements.

Bicycle racks shall meet the following requirements:

(a) The bicycle rack must support the bicycle frame in two places and enable the frame and one or both wheels of the bicycle to be secured. The bicycle must be able to be securely held with its frame supported in an upright position so that the bicycle cannot be pushed or fall in manner that will damage the wheels or components of the bicycle. Bicycle racks that support the bicycle by the wheel only are not permitted.

(b) The bicycle rack must be able to accommodate high-security U-shaped bicycle locks.

(c) The bicycle rack shall have a durable finish that will protect the rack and the bicycle.

(Ord. No. 10-507, § 1, 8-26-2010)

ARTICLE 77. MEDICAL CANNABIS FACILITIES REGULATIONS

Findings and Purpose.

(1) The Darren Wesley 'Ato' Hall Compassion Act, 2021 Alabama Laws Act 2021-450, (the "Act") was enacted by the Alabama Legislature and codified in Code of Ala. 1975, Title 20, Chapter 2A, "to create within Alabama a wholly intrastate system for the cultivation, processing, and distribution of medical cannabis in the interest of protecting its own residents from the danger that recreational cannabis poses" (Code of Ala. 1975 § 20-2A-2).

(2) The Act legalizes and establishes a comprehensive regulatory framework for

medical cannabis, including the licensing and strict regulation of the cultivation, processing, transporting, testing, and dispensing of medical cannabis.

(3) The Act specifically finds as follows: "Establishing a program providing for the administration of cannabis derivatives for medical use in this state will not only benefit patients by providing relief for pain and other debilitating symptoms, but also provide opportunities for patients with these debilitating conditions to function and have a better quality of life and provide employment and business opportunities for farmers and other residents of this state and revenue to state and local governments." (Code of Ala. 1975 § 20-2A-2).

(4) The Act, and the rules promulgated thereunder, preserve the zoning authority of municipalities in this state. Medical cannabis facilities could be or are incompatible with certain other uses within the corporate limits of the city and due consideration should be given to the appropriate location for medical cannabis facilities within the community in order to preserve and promote the public health, safety and general welfare.

(5) The purpose of this article is to accommodate the medical needs of patients in this community, provide local employment opportunities, and generate revenue, while protecting the public health, safety and general welfare, by establishing appropriate locations for the siting of duly licensed medical cannabis facilities, subject to applicable conditions as set forth in this article.

77.1. Definitions.

For the purpose of this article, the following words, terms and phrases shall have the meanings respectively ascribed to them within this section. Additional terms within this article that are utilized throughout the zoning ordinance may also be defined in article 3 of the zoning ordinance. See also the definitions and rules of construction set forth in section 1-2 of the Code of Ordinances of the City of Huntsville, which generally apply to all ordinances of the city.

Ancillary dispensing site facilities means facilities that are ancillary to the operation of a dispensing site that is owned or leased and operated by a dispensary or an integrated facility, such as a business office and warehouse, where no medical cannabis products are offered for sale at such facilities. The term does not include those aspects of an integrated facility related to its activities as a cultivator, processor, or secure transporter.

Commission means the Alabama Medical Cannabis Commission created pursuant to Code of Ala. 1975 § 20-2A-20.

Cultivator means an entity licensed by the commission (or as applicable, the department of agriculture and industries) under Code of Ala. 1975 § 20-2A-62 authorized to grow cannabis pursuant to Code of Ala. 1975, Title 20, Chapter 2A, Article 4.

Dispensary means an entity licensed by the commission under Code of Ala. 1975 § 20-2A-64 authorized to dispense and sell medical cannabis at dispensing sites to registered qualified patients and registered caregivers pursuant to Code of Ala. 1975, Title 20, Chapter 2A, Article 4.

Dispensing site means a site operated by a dispensary licensee or an integrated facility licensee pursuant to Code of Ala. 1975, Title 20, Chapter 2A, Article 4; provided, however, the term does not include ancillary dispensing site facilities.

Integrated facility means an entity licensed under Code of Ala. 1975 § 20-2A-67 authorized to perform the functions of a cultivator, processor, secure transporter, and dispensary pursuant to Code of Ala. 1975, Title 20, Chapter 2A, Article 4.

Medical cannabis facility or *facility* means any facility, or land associated with a facility, of a cultivator, processor, secure transporter, state testing laboratory, dispensary, or integrated facility licensed by the commission under Code of Ala. 1975, Title 20, Chapter 2A, Article 4.

Premises means a structure, whether standalone or within a multi-use structure, strip mall or other such retail facility, housing a medical cannabis facility, all portions of the real property where a medical cannabis facility operates, including but not limited to the parking lot and any peripheral space outside the structure housing the facility.

Processor means an entity licensed by the commission under Code of Ala. 1975 § 20-2A-63 authorized to purchase cannabis from a cultivator and extract derivatives from the cannabis to produce a medical cannabis product or products for sale and transfer in packaged and labeled form to a dispensing site pursuant to Code of Ala. 1975, Title 20, Chapter 2A, Article 4.

Protected property means the real property on which a public or private school for students in any grade K-12 (not including a residence in which school-age children are being homeschooled) has actively operated within the last six months, or the real property on which a licensed daycare or childcare facility has actively operated within the last six months.

Secure transporter means an entity licensed by the commission under Code of Ala. 1975 § 20-2A-65 authorized to transport cannabis or medical cannabis from one licensed facility or site to another licensed facility or site.

State testing laboratory means an entity licensed under Code of Ala. 1975 § 20-2A-66 authorized to test cannabis and medical cannabis to ensure the product meets safety qualifications required under Code of Ala. 1975, Title 20, Chapter 2A.
(Ord. No. 22-900, § 1, 12-15-2022)

77.2. Measurements.

(a) Where this article provides that a medical cannabis facility shall be at least a certain stated distance from a protected property or a residential zoning district, the distance shall be measured in a straight line from the property line of the medical cannabis facility premises to the property line of the protected property, or to the district line of the residential zoning district; which measurement shall be measured at the nearest possible point between the two.

(b) Where this article provides that the main entry of a dispensary or integrated facility (dispensing site only) shall be at least a certain stated distance from the main entry of another dispensary or integrated facility (dispensing site only), the distance between main entries shall be measured in a straight line at the nearest possible point between the two. If a main entry is unclear, the final determination of what constitutes a main entry shall be as determined by the zoning administrator.

(Ord. No. 22-900, § 1, 12-15-2022)

77.3. Permitted medical cannabis facilities by districts.

Subject to applicable provisions of this zoning ordinance, including applicable district regulations, medical cannabis facilities shall be permitted only in the following zoning districts, as hereinafter conditioned:

77.3.1 *Medical District.*

Subject to section 77.6 below, dispensary and integrated facility operating a dispensing site only — provided that such uses shall be subject to each of the following conditions:

(1) The location of a dispensary or integrated facility (dispensing site only) must be at least 1,000 feet from any protected property.

(2) The location of a dispensary or integrated facility (dispensing site only) shall not abut a residential zoning district.

(3) The main entry of a dispensary or integrated facility (dispensing site only) must be at least 300 feet from the main entry of another dispensary or integrated facility (dispensing site only), and may not occupy space in the same multi-use structure, strip mall or other such retail facility as another dispensary or integrated facility (dispensing site only). Priority (first-in-time) as to a location under this section shall be based on

which facility is first to have recorded in the office of the judge of probate of the county in which the land is located an instrument, meeting the prerequisites of state law for such instruments, evidencing a current leasehold estate, fee estate, option to purchase, or real estate sales contract in the premises.

77.3.2. *Heavy Industry District.*

Cultivator, integrated facility (with no dispensing site), processor, and secure transporter—provided that such uses shall be subject to each of the following conditions:

(1) The location of such facilities must be at least 1,000 feet from any protected property.

(2) The location of such facilities must be at least 1,000 feet from any residential zoning district except where the premises are separated from said residential zoning district by an expressway or an interstate highway.

(3) The emission of noxious or objectionable odors which are detectable without instruments at or beyond the property line are prohibited.

(4) Except in the case of an integrated facility, the minimum lot size for a facility shall be not less than one acre.

(5) For an integrated facility, the minimum lot size for such facility shall not be less than two acres, and the integrated facility shall not include a dispensing site.

(6) Where a facility's premises abuts a residential use there shall be a buffer of screen planting.

State testing laboratory—provided that such use shall be subject to each of the following conditions:

(1) The location of such facility must be at least 1,000 feet from any protected property.

(2) The location of such facility must be at least 500 feet from any residential zoning district except where the premises are separated from said residential zoning district by an expressway or an interstate highway.

77.3.3. *Research Park West and Commercial Industrial Park Districts.*

State testing laboratory—provided that such use shall be subject to each of the following conditions:

(1) The location of such facility must be at least 1,000 feet from any protected property.

(2) The location of such facility must be at least 500 feet from any residential zoning district except where the premises are separated from said residential zoning district by an expressway or an interstate highway.

(Ord. No. 22-900, § 1, 12-15-2022)

77.4. Ancillary dispensing site facilities.

Ancillary dispensing site facilities shall be allowed in the zoning districts where the particular type of use is generally allowed. For example, if the ancillary dispensing site facility is a warehouse, then the warehouse shall be allowed in the zoning district where warehouses are generally allowed, subject to applicable regulations.

(Ord. No. 22-900, § 1, 12-15-2022)

77.5. State law.

Nothing in this article shall be construed to allow what the Act and the rules and regulations promulgated thereunder prohibit.

(Ord. No. 22-900, § 1, 12-15-2022)

77.6. Authorization for dispensing sites.

The Act prohibits the operation of dispensing sites by dispensaries or integrated facilities in municipalities in this state whose governing body has not adopted an ordinance authorizing the operation of dispensing sites within the corporate limits of the municipality. Nothing in this article shall be construed to constitute such an ordinance authorizing dispensing sites in the corporate limits of the city, and unless and until the city council adopts a separate ordinance

authorizing the operation of dispensing sites in the city limits, then dispensaries or integrated facilities operating dispensing sites shall not be allowed under this article. Upon the passage of a separate ordinance of the city council authorizing the operation of dispensing sites in the city limits by dispensaries or integrated facilities, then such uses shall be allowed in accordance with and subject to the provisions of this article. (Ord. No. 22-900, § 1, 12-15-2022)

77.7. Severability.

Should any section or provision of this article be held void or invalid, it shall not affect the validity of any other section or provision thereof which is not of itself void or invalid, it being the purpose and intention of the city council to enact each separate section and/or sub-section separately.
(Ord. No. 22-900, § 1, 12-15-2022)

ARTICLE 78. COMMUNITY HOMES

78.1. Definitions; purpose.

78.1.1. *Definitions.* The following words, terms, and phrases, when used in this Article, shall have the following meanings:

ADA. ADA means Title II of the Americans with Disabilities Act (42 U.S.C. Section 12131, et seq., as amended).

Community Home. A community home is a living arrangement for unrelated individuals with disabilities who are in need of the mutual support furnished by each other as well as the support services, if any, provided by the staff of the community home, and that is subject to each of the following conditions:

(1) The inhabitants may be self-governing or supervised by a sponsoring entity or its staff, which provides habilitative or rehabilitative services, related to the inhabitants' disabilities;

(2) A community home seeks to emulate a biological family and integrate them into the surrounding community, with its primary purpose is to provide shelter in a family-like environment for individuals with disabilities; treatment is incidental as in any home;

(3) Supportive inter-relationships between inhabitants are an essential component;

(4) Like a family, the home must operate as a single housekeeping unit, except that only in the case of a transitional community home can the occupancy be transient; and

(5) A community home is a detached building located on a single lot that is designed as a separate abode, and may include an accessory structure.

There are three types of community homes: An essential community home, a group community home, and a transitional community home. The term does not include congregate housing for unrelated individuals who are not disabled, correctional facilities (see section 73.22 of this Zoning Ordinance), housing for sex offenders, or housing for individuals who pose a direct threat as defined by the FHA or ADA.

Disability. The term disability shall have the meaning ascribed to it in the FHA or ADA. The term shall not encompass current use of illegal drugs, current drug or alcohol addiction, or the current abuse of legal drugs or alcohol.

Essential Community Home. An essential community home is a type of community home that is a non-transient living arrangement for a relatively small number (see Section 78.3(a)(2)) of unrelated individuals with disabilities as inhabitants, with no cap on how long a person may live in the home. The length of the stay shall be at least 180 continuous days.

FHA. FHA means the Fair Housing Act (42 U.S.C. 3601, et seq., as amended).

Group Community Home. A group community home is a type of community home that is a non-transient living arrangement for a moder-

ate number (see section 78.3(b)(2)) of unrelated individuals with disabilities as inhabitants, with no cap on how long an individual may live in the home. The length of the stay shall be at least continuous 180 days.

Transitional community home. A transitional community home is a type of community home that is a transient living arrangement for no more than fourteen (14) unrelated individuals with disabilities with a cap on the length of stay that is less than 180 continuous days.

78.1.2. *Purpose.*

(a) In order to preserve the integrity and character of residential communities the City has found it necessary to limit to four (4) the number of unrelated individuals that constitute a family. In recognition of the therapeutic need of unrelated individuals with disabilities, who cannot reasonably meet the definition of a family, to live together in a family-like setting, this Article is intended, in part, to accommodate that need by establishing three (3) types of community homes.

(b) This Article is designed to allow these community homes to locate in a residential neighborhood without impeding their goal to integrate into the community and without altering the residential character of the neighborhood which is so essential to the goal of community homes.

(c) In preparing this Article consideration has been given to a variety of resources, including Daniel Lauber, Reforming State and Local Zoning for Community Residences for People With Disabilities and for Recovery Communities. (River Forest, IL: Planning/Communications, July 2024.)

(Ord. No. 25-267, § 4, 6-12-2025)

78.2. Spacing.

A community home shall not be within a 1,000-foot radius of another community home, as measured between lot lines.

(Ord. No. 25-267, § 4, 6-12-2025)

78.3. Districts allowed; conditions.

(a) *Essential community home.* An essential community home is allowed as a permitted use in any zoning district which allows single-family dwellings, subject to each of the following conditions:

(1) An essential community home shall be located in a detached home on a single lot, and the same density and other controls that apply to single-family detached dwellings shall apply to an essential community home, provided that where the home has staffing of more than one individual at any one time, at least one additional off-street parking space shall be required;

(2) The number of unrelated individuals with disabilities that live in the home shall not be greater than six (6); and

(3) Notwithstanding anything to the contrary in this Subsection (a), an essential community home shall not be allowed in a Planned Development Housing PD-H District that existed prior to the adoption of this Article, a Research Park District, a Research Park West District, and a Research Park Applications District.

(b) Group community home. A group community home is allowed only in any zoning district which allows multiple-family dwellings, subject to each of the following conditions:

(1) A group community home shall be located in a detached home on a single lot, and the same density and other controls that apply to a single family detached dwelling shall apply, provided that where the home has staffing of more than one individual at any one time at least one additional off-street parking space shall be required;

(2) In the case of a Residence 2-A and a Residence 2-B, the number of unrelated individuals with disabilities that live in the home shall not be greater than ten (10), and in all other zoning districts in which the use is allowed the number of

unrelated individuals with disabilities that live in the home shall not be greater than twelve (12); and

(3) Notwithstanding anything to the contrary in this Subsection (b), a group community home shall not be allowed in a Planned Development Housing PD-H District that existed prior to the adoption of this Article, a Residence 2-C District, or a Research Park Commercial District.

(c) Transitional community home. A transitional community home is allowed in any zoning district which allows boarding houses or rooming houses, subject to each of the following conditions:

(1) A transitional community home shall be located in a detached home on a single lot, and the same density and other controls that apply to a single family detached dwelling shall apply, except that the minimum number of off-street parking spaces shall be at least four (4);

(2) In the case of a Residence 2-B District, the number of unrelated individuals with disabilities that live in the home shall not be greater than ten (10), and in all other zoning districts where the use is allowed the number of unrelated individuals with disabilities that live in the home shall not be greater than fourteen (14); and

(3) Notwithstanding anything to the contrary in this Subsection (c), a transitional community home shall not be allowed in a Planned Development Housing PD-H District that existed prior to the adoption of this Article.

(Ord. No. 25-267, § 4, 6-12-2025)

78.4. Approvals.

A community home must first make application, on forms provided by the City, for approval from the Zoning Administration Office for the use before it is commenced. Approval will be given if the proposed use meets the provisions of this Zoning Ordinance.
(Ord. No. 25-267, § 4, 6-12-2025)

78.5. Existing nonconforming uses.

The provisions of Article 74 of this Zoning Ordinance governing nonconformities shall apply to the nonconformities created by this Article. Persons claiming non-conforming status shall have the burden of proving same.
(Ord. No. 25-267, § 4, 6-12-2025)

78.6. Reasonable accommodation.

78.6.1. Reasonable accommodation procedure.

(a) *Purpose.* The purpose of this Section is to implement a procedure for processing requests for reasonable accommodation for persons with disabilities as provided by the federal FHA and ADA. For purposes of this section, a "disabled" person is an individual that qualifies as disabled or handicapped under the FHA or ADA. Any person who is disabled (or qualifying entities) may request a reasonable accommodation, pursuant to the procedures set out in this section.

(b) *Application.* A request for reasonable accommodation under this section shall be upon a written reasonable accommodation request form maintained by the Zoning Administration Office and submitted to the Zoning Administration Office. The reasonable accommodation request form shall contain such questions and requests for information as are necessary for processing the reasonable accommodation request. The applicant shall sign the form and provide contact information and background regarding the proposed use, including a specific request detailing exactly what deviations are being requested from any applicable zoning rule; in the case of an applicant who is not the legal owner of the premises, the legal owner must also sign and acknowledge the form and join in the application. The reasonable accommodation request form shall be substantially in the form set forth in Subsection (f) below.

(1) *Confidential information.* Should the information provided by the disabled

individual to the City include medical information or records, including records indicating the medical condition, diagnosis or medical history of the disabled individual, such individual may, at the time of submitting such medical information, request in writing that the City, to the extent allowed by law, treat such medical information as confidential information of the disabled individual ("Protected Information"). The City shall thereafter endeavor to provide written notice to the disabled individual, or their representative, of any request received by the City for disclosure of the "Protected Information". The City will cooperate with the disabled individual, to the extent allowed by law, in actions initiated by such individual to oppose the disclosure of such Protected Information, but the City shall have no obligation to initiate, prosecute or pursue any such action, or to incur any legal or other expenses (whether by retention of outside counsel or allocation of internal resources) in connection therewith, and may comply with any judicial order without prior notice to the disabled individual. Nothing herein, shall be construed to prevent the City from disclosing the Protected Information in the administration and enforcement of this Article.

(2) *Fee.* There shall be no fee imposed by the City in connection with a request for reasonable accommodation under this section, and the City shall have no obligation to pay a requesting party's attorney's fees or costs in connection with the request.

(3) *City assistance.* The City shall provide such assistance and accommodation as is required pursuant to FHA and ADA in connection with a disabled person's request for reasonable accommodation, including, without limitation, assistance with reading application questions, responding to questions, completing the form, and appearing at a hearing, etc., to ensure the process is accessible.

(c) *Findings for reasonable accommodation.* In determining whether the reasonable accommodation request shall be granted or denied, the requesting party shall be required to establish that he/she or the occupants of the housing for which this request is made are protected under the FHA or ADA by demonstrating that he/she or the occupants of the proposed housing are people with disabilities. In addition, the requesting party shall demonstrate that the proposed reasonable accommodations sought are reasonable and necessary to afford the subject individual(s) with disabilities an equal opportunity to use and enjoy the housing that is the subject of the request. The following factors shall be considered, among other relevant factors including judicial interpretation of disability law:

(1) The requesting party shall prove why the accommodation is needed and why any available alternatives are insufficient or inapplicable under the circumstances.

(2) If a request for reasonable accommodation is submitted by an operator of a community home that provides housing to disabled individuals, the operator shall be required to establish that the operator is qualified to provide such housing to disabled individuals and the legal owner of the premises shall be required to agree to the use and nature of the use requested.

(3) The requesting party shall demonstrate that the requested accommodation is both reasonable and necessary (as interpreted by the courts) to afford the disabled individuals served by the housing

an equal opportunity to use and enjoy the housing, including that the proposed accommodation is therapeutically necessary and actually alleviates the effects of a handicap or disability, with a site-specific assessment in regard to the particular property in that regard.

(4) The requesting party shall demonstrate that the proposed accommodation does not constitute a fundamental alteration of the City's zoning scheme or other City program or policies, that it does not impose an undue financial or administrative burden on the City, and that it does not pose a direct threat as defined by the ADA and FHA.

(d) *Zoning Administrator's Decision.*

(1) The Zoning Administrator's decision shall be based on the information provided by the applicant and such other information that he deems relevant to the determination, and, as to the specific accommodation provided, shall be as determined by the Zoning Administrator. In making a decision, the Zoning Administrator shall not be bound to evaluate only the specific accommodation requested but shall have the right to identify viable alternative accommodations that may satisfy the applicant's goals and federal law. In making a decision, the Zoning Administrator shall comply with federal law and shall be bound to ensure that the accommodation requested is reasonable, does not pose an undue financial or administrative burden, does not present a direct threat as outlined in the ADA and FHA, and does not work a fundamental alteration of the City's zoning scheme or other City programs and policies.

(2) The Zoning Administrator shall issue a written determination within thirty (30) calendar days of the date of receipt of a completed application and may, in accordance with federal law, (1) grant the accommodation request, (2) grant a portion of the request and deny a portion of the request, or impose conditions upon the grant of the request, or (3) deny the request, in accordance with federal law. Any such denials shall be in writing and shall state the grounds therefor.

(3) The notice of determination shall be sent to the requesting party (i.e. the disabled individual or his/her representative) by certified mail, return receipt requested or hand delivery, receipt signed by the recipient.

(e) *Administrative review not available.* The Zoning Administrator in the reasonable accommodation determination is not enforcing or interpreting the Zoning Ordinance, but is complying with independent federal law that requires reasonable accommodations be made. Accordingly, an administrative review of his decision by the Board of Zoning Adjustment is not available.

(f) *Request form for reasonable accommodation.*

(1) Contents of reasonable accommodation request form:

a. Name and contact information, including mailing address, of the applicant, and name and contact information, including mailing address, of the legal owner of the property at issue;

b. Information regarding property at which reasonable accommodation is requested, including the address and legal description of such location as well as ownership of the subject property;

c. Describe the accommodation and the specific regulation(s) or procedure(s) from which accommodation is sought;

d. Reasons the accommodation may be necessary for the requesting party or the individuals with disabilities seeking the specific accommodation, and if relating to housing, why the requested reasonable accommodation is necessary to use and enjoy the housing;

e. Describe qualifying disability or handicap;

f. Other relevant information pertaining to the disability or property that may be needed by the City in order for it to be able to evaluate the request for reasonable accommodation;

g. Proof of satisfactory, fire, safety, and health inspections as may be required by applicable state and city laws;

h. Signature of requesting party and, if different from the legal owner, the legal owner's signature as well;

i. If there will be an on-site supervisor or manager, provide the name and contact information (phone and email) for each;

j. Date of request;

k. Owner's consent for application;

l. The rules and practices governing how the home is operated; and

m. Such other information as may be reasonably required by the Zoning Administrator.

(2) In the case of an incomplete application, the Zoning Administrator shall identify the items lacking and the applicant shall have 20 days thereafter to provide the information. Failing therein, the application shall be deemed to be withdrawn by the applicant without further action being required by the City.

(g) *Expiration of approvals.* Approvals of requests for reasonable accommodation shall expire within six (6) months if not implemented.

(h) Any accommodation granted under this Section shall be considered personal and shall not run with the land.

(i) *Renewal.* All reasonable accommodation requests that have been approved (including approval with conditions) and implemented by the requesting party, are valid for no more than one (1) year and shall require annual renewal each year on or before April 1st to determine if the basis for the approval (including approval with conditions) continues to be met. The renewal process shall be the same as for an initial application and the City shall have the right to pose additional questions to determine whether an accommodation is needed and the nature and scope of the accommodation needed.

(Ord. No. 25-267, § 4, 6-12-2025)

CHAPTER VIII. OFFICE DISTRICTS

ARTICLE 80. RESIDENTIAL OFFICE DISTRICT REGULATIONS

Purpose. The purpose of the residential office district is to provide for the conversion of existing blocks of dwellings to small offices as a means to stabilize the adjacent residential areas and prevent the intrusion of commercial uses. This district is intended to function as a transitional zone between existing residential and commercial by preserving the residential scale and intensity of use. The district allows the conversion of existing residences to office use and the development of vacant parcels with new office buildings designed to be compatible with

existing adjacent residential dwellings. This district is intended for use in older developed areas.

In order to preserve the residential scale, the district contains two density levels to ensure that residential-to-office conversions and new development closely approximate the scale of adjacent residential neighborhoods. Furthermore, this district is restricted to those locations that will not increase traffic through residential neighborhoods, and it imposes performance standards designed to prevent noise, lighting, parking and signs from intruding on or otherwise disrupting adjacent residential districts.

The intent of this district is to provide space for small clerical offices that attract a limited clientele, usually on an appointment basis; if these operations later need to expand, it is intended that they should relocate rather than enlarge their operations beyond the limits set for this district.

Within a residential office district as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply: (Ord. No. 98-260, § 1,5-14-1998)

80.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Medical, optical, and dental offices and clinics for health professionals, excluding overnight care, ambulance services, and retail sales.

Professional offices for lawyers, accountants, engineers and surveyors, architects, landscape architects, consultants, and similar professionals whose clientele normally visit on an appointment basis.

Offices for consumer services such as real estate and insurance agencies and tax services.

Administrative or general offices provided there are no retail or wholesale sales, no storage of products, no display of merchandise, and no storage of company vehicles or equipment.

Child care homes and group child care homes in compliance with section 73.1.1(4), accessory uses, hereof.

Single-family dwelling, provided that the requirements of section 11.2 (residence 1-A district) are met in a residential office 1 district and the requirements of section 13.2.1 (residence 2 district) are met in a residential office 2 district.

Churches and similar places of worship.

Agricultural uses as permitted in section 10.1 (residence 1 district).

Accessory structures and uses only when necessary to the operation of the permitted use but not including retail sales.

Government buildings and uses appropriate to the character of the district or requiring location within the district.

Wireless telecommunications towers and antennas in compliance with the regulations required for location in residential districts.

Prohibited principal and accessory activities include drive-in facilities, outdoor ATM or other vending machines, financial institutions, beauty[shops] and barbershops, and parking for off-site uses.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

(Ord. No. 98-260, § 1, 5-14-1998; Ord. No. 09-1053, § 1, 12-17-2009)

80.2. District access and location.

Any area to be rezoned residential office district shall:

80.2.1. Have its frontage on and access from an arterial or collector street; or

80.2.2. Have frontage on and access from a local street only if the local street connects directly to an arterial or collector street and

there is no residential zoning along the local street between the major street and the proposed residential office district; or

80.2.3. Be zoned residence 2-B district at the time of the request to rezone to residential office district.

80.2.4. In addition to meeting at least one of the three preceding conditions, a proposed residential office district must also abut a residential district and at least one district that permits commercial or industrial activities.

(Ord. No. 98-260, § 1, 5-14-1998)

80.3. Density controls for nonresidential uses.

Because the intent of this district is to continue the size, scale and pattern of existing residential development, the density controls are designed to provide standards that will closely approximate the existing residential development. For this reason, two levels of density controls are provided based on the previous zoning district. For both levels, previous zoning district in the following table refers to the district designation prior to rezoning to residential office, or if not zoned residentially, then to the predominant adjoining residential district.

DENSITY CONTROLS FOR NONRESIDENTIAL LOTS

	RESIDENTIAL OFFICE 1	*RESIDENTIAL OFFICE 2*
Previous Zoning District	R1 & R1-A	R1-B, R1-C, R2, R2-A, & R2-B
Minimum Lot Area	12,000 sq. ft.	6,000 sq. ft.
Maximum Lot Area	22,500 sq. ft.*	11,250 sq. ft.*
Maximum Total Building Coverage	25 percent up to a maximum of 5,000 sq. ft.	30 percent up to a maximum of 3,400 sq. ft.
Maximum Height	20 feet	20 feet
Minimum Lot width	65 feet	40 feet
Minimum Required Front Yard	35 feet	20 feet
	50 feet along major arterial streets	
Minimum Required Rear Yard	25 feet	15 feet
Minimum Required Side Yards	10 feet	5 feet

*Lots and buildings in excess of these standards at the time of rezoning will be grandfathered but may not increase their nonconformity.

(Ord. No. 98-260, § 1, 5-14-1998)

80.4. Required yards for nonresidential uses.

80.4.1. All required yards shall be kept clear of parking, trash and garbage containers, and accessory uses and buildings.

80.4.2. Driveways crossing required front yards shall not exceed a total width of 30 feet in residential office 1 districts and 20 feet in residential office 2 districts.

(Ord. No. 98-260, § 1, 5-14-1998)

80.5. Off-street parking for nonresidential uses.

All parking shall be off-street, located to the rear of the structure and shall be provided as set forth in article 70 hereof; provided however, that a sufficient number of parking spaces shall be available to accommodate the number of employees and visitors normally present.

No parking shall be permitted in any required yard.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof.

(Ord. No. 98-260, § 1, 5-14-1998; Ord. No. 10-507, § 2, 8-26-2010; Ord. No. 18-234, § 1, 5-24-2018)

80.6. Landscaping requirements.

Every lot on which there is a permitted nonresidential use shall be landscaped in the

following manner. All landscaping must be installed in accordance with the provisions of section 73.19, installation of landscaping.

80.6.1. A landscaping screen as defined in Buffer of Screen Planting (Section 3.1—Definitions) shall be planted and maintained along all side and rear lot lines that abut residential districts. Privacy fencing shall be installed along the rear lot lines that abut residential districts, in conjunction with the landscaping screen.

80.6.2. All required front yards shall be planted with turf grass or an evergreen ground cover and shall be maintained so as to present an attractive, neat and healthy appearance. At least one shade tree and three shrubs for each 50 feet of street frontage or fraction thereof shall be planted and maintained in the required front yard.

80.6.3. Every effort shall be made to retain and protect existing mature trees that are healthy and not hazardous to persons or property. Each such tree preserved shall count as two trees for the purposes of section 80.6.1 or 80.6.2.

(Ord. No. 98-260, § 1, 5-14-1998; Ord. No. 18-234, § 2, 5-24-2018)

80.7. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

80.8. Performance standards.

80.8.1. Exterior lighting must be shielded and so placed that residential lots are not illuminated.

80.8.2. Noise shall not exceed ambient background levels at ground level at the property lines. Exterior loudspeakers are prohibited.

80.8.3. Outdoor storage of goods or materials is not permitted and no company vehicles, machinery or equipment may be stored on the property or parked so as to create a portable sign.

80.8.4. Trash and garbage containers must be screened from view and not located in any required yard nor in any front yard. Permanent dumpsters are not permitted.

(Ord. No. 98-260, § 1, 5-14-1998)

80.9. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.

(Ord. No. 08-429, § 12, 6-26-2008; Ord. No. 15-758, § 11, 11-19-2015; Ord. No. 25-157, § 12, 4-24-2025)

ARTICLE 81. OFFICE DISTRICT REGULATIONS

Purpose. The Office District is primarily intended to promote and permit traditional office (administrative, professional and business) uses in close relationship with each other outside of other business districts. This district can serve as a transitional district between residential districts and more intensive business districts.

The goal is to encourage and provide for the appropriate and convenient location of a broad range of office uses, personal and professional services, and similar ancillary uses. The district will also provide for multi-story buildings permitting residential uses on the upper floors.

Within an Office District as shown on the official Zoning Maps of the City of Huntsville, Alabama, the following regulations shall apply:

81.1. Uses permitted.

No building, structure, or land shall be used and no building or structure shall hereafter be erected, structurally altered, enlarged, or maintained except for one or more of the uses herein cited and subject to the conditions stated herein:

Office uses where administrative, clerical, one-on-one consultations and sales services are

rendered, provided that, except in the case of medical, optical and dental offices, no commodity or tangible property, either by way of inventory or sample, shall be stored, kept or exhibited in any office or on the premises wherein the office is located. Permitted office uses shall be limited to the following:

Architects, attorneys and other professionals; consumer service offices such as real estate and insurance agencies; and administrative and clerical offices.

Medical, optical and dental offices and clinics for health professionals, excluding overnight care and ambulance services.

Banks and credit unions (provided there are no drive through services or outdoor automated teller machines).

Computer programming, software design and web design services.

Telephone answering services and telemarketing services.

Residential dwelling units located above the ground floor excluding hotels, motels, tourist homes, rooming houses, boarding houses and other such transient uses.

Retail sales and consumer service establishments for the convenience of the office workers and residents of the building or complex - provided that such commercial uses are located on the ground floor and that the aggregate floor area of such uses shall not occupy more than 15 percent of the total ground floor area of the building in which such use is located.

Municipal, county, state or federal uses, excluding off-premises liquor retailers.

Permitted uses as special exceptions as defined and regulated by subsection 92.5.3 hereof.

(Ord. No. 06-732, § 2, 9-28-2006; Ord. No. 09-1053, § 1, 12-17-2009)

81.2. Density regulations.

The following yard, density and height of building requirements shall be observed except as provided in Article 73 hereof:

81.2.1 *Minimum required lot area:* 15,000 square feet.

81.2.2 *Minimum required lot width:* 100 feet.

81.2.3 *Minimum required lot frontage:* 50 feet.

81.2.4 *Minimum required depth of front yard:* From major arterials (see Section 73.15): 50 feet.

From other streets: 20 feet.

81.2.5 *Minimum required depth of rear yard:* None, except when the rear lot line abuts a residential district a rear yard of not less than 20 feet is required.

81.2.6 *Minimum required depth of side yards:*

Abutting a residential district: A distance equal to the height of the building, but not less than 15 feet.

Other side yards: Two feet for each ten feet of building height but not less than five feet.

(Setback = 2` × height/10)

81.2.7 *Maximum impervious cover:* 70 percent of total lot area.

81.2.8 *Maximum height:* 30 feet when lot abuts a residential district 40 feet with all surface parking 55 feet if at least 40 percent of the required parking spaces are in the office building or an attached garage

(Ord. No. 06-732, § 2, 9-28-2006)

81.3. Off-street parking requirements.

Except as provided for herein all off-street parking requirements shall be provided for as set forth in article 70 hereof.

Parking shall not be permitted in any required side yard nor in the first 15 feet of any required rear yard as measured from the property line.

Required bicycle parking spaces and facilities shall be provided as set forth in article 76 hereof. (Ord. No. 06-732, § 2, 9-28-2006; Ord. No. 09-430, § 29, 7-9-2009; Ord. No. 10-507, § 2, 8-26-2010)

81.4. Off-street parking and vehicular use area (PVA) landscaping and lighting.

Landscaping and lighting of off-street parking and vehicular use areas are required in accordance with Article 71, Off-Street Parking and Vehicular

Use Area Landscaping Requirements. Where the requirements of Article 71 are in conflict with Article 81, then the more stringent shall apply.
(Ord. No. 06-732, § 2, 9-28-2006)

81.5. Landscaping requirements.

81.5.1. *Front yards:*

(1) On local streets contained wholly within a district the first five feet of the required front yard shall be landscaped with a minimum of one small Type 3 or Type 4 tree per each 50 linear feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass.

(2) On local streets that extend into other zoning districts and on collector and arterial streets the following landscaping is required:

(a) Whenever 80 percent of the length of a building's street facade is located at the minimum building line, then the first five feet (ten feet on major arterials) of the required front yard shall be landscaped with a minimum of one small Type 3 or Type 4 tree per each 50 linear feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass.

(b) If more than 20 percent of a building's street facade is set back farther than the minimum building line, then the first 15 feet of the required front yard shall be landscaped with a minimum of one large Type 1 or Type 2 shade tree per each 50 linear feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass.

81.5.2. *Side and rear yards:* Where side or rear yards are required adjacent to residential districts, the first 15 feet shall be landscaped with a Buffer of Screen Planting as defined herein.

Trash collection facilities, dumpsters and other structures are not permitted in any required rear or side yard.

Trash collection facilities and dumpsters shall be concealed by solid wood and/or masonry walls for their full height. Where wood is used as the screening material, it shall be securely attached to an all metal support structure; if the wood is not pressure treated, it shall be cedar, redwood or cypress; and no wood member shall exceed 12 inches in width. The gates shall be of metal, shall be at least 80 percent opaque, and shall be self closing.

Pedestrian paths are permitted through buffers of screen planting to connect residential areas with the office district so long as they do not intrude on nor cross any private property without the owner's permission.

81.5.3. *Lots in use without buildings:* In the event that a parcel is put to use without a building, then the first ten feet along all lot lines shall be landscaped with a minimum of one large Type 1 or Type 2 shade tree and eight shrubs per each 50 linear feet of yard or portion thereof, and the area shall be planted with a permanent evergreen ground cover or turf grass. If the parcel abuts a residential district, then Section 81.5.2 shall apply along the side and/or rear lot lines.

81.5.4. *Installation and maintenance of landscaping:*

(1) Trees and shrubs shall be well distributed, though not necessarily evenly spaced and shall meet the minimum size standards as set out in Table 1 of Section 71.5.1(2).

(2) All landscaping shall be installed in accordance with Section 71.5.3, Installation Requirements (1), (2), (3), (4), (7) and (8) and with Section 73.19, Installation of Landscaping.

(3) The owner, lessee, or his agents shall be responsible for providing, maintaining, and protecting all landscaping in a healthy and growing condition and for keeping it free from refuse and debris. All unhealthy and dead materials shall be replaced within one year after notification or during the next appropriate planting period, whichever comes first.

(Ord. No. 06-732, § 2, 9-28-2006)

81.6. Signs permitted.

Signs shall be permitted in accordance with the provisions of article 72—Sign control regulations.

(Ord. No. 06-732, § 2, 9-28-2006; Ord. No. 21-46, § 1(Exh. A, § B.2.), 2-25-2021)

81.7. Conditions on uses.

No primary or accessory non-residential building or structure with a footprint in excess of one thousand (1,000) square feet shall be allowed to use aluminum, steel, or other metal siding or cladding as an exterior finish, except as a special exception in accordance with section 92.5.3(37). This requirement shall not include window framework, doors, roofs and walkway covers.

(Ord. No. 08-429, § 13, 6-26-2008; Ord. No. 15-758, § 12, 11-19-2015; Ord. No. 25-157, § 13, 4-24-2025)

CHAPTER IX. AMENDMENTS, PERMITS AND VARIANCES

ARTICLE 90. AMENDMENTS*

90.1. Procedure.

The regulations and the number, area, and boundaries of districts and all or any portion of this ordinance may be amended, supplemented, changed, modified, or repealed by the City Council of the City of Huntsville, after a public hearing has been held on the proposed ordinance amending the zoning ordinance; provided that such amending ordinance shall be published in a newspaper of general circulation within Huntsville at least once a week for two consecutive weeks in advance of its passage and further provided that both publications thereof shall be at least 15 days in advance of its passage, or otherwise advertised in a manner as provided for by state law.

(Ord. No. 98-102, § 1, 3-26-1998)

90.2. Official zoning map changes.

Any amendment to the zoning ordinance requiring a change in the district boundaries shall be shown on the zoning maps one day after the publication of such amendment. The number and effective date of the amending ordinance shall be printed on the map. The amending ordinance bearing the signature of the Mayor of the City of Huntsville shall be on file in the office of the city clerk-treasurer. The official zoning maps shall be on file in the planning office.

ARTICLE 91. ADMINISTRATION AND ENFORCEMENT†

91.1. Enforcement.

The provisions of this ordinance shall be administered and enforced by the administrative official designated by the director of planning ("zoning administrator"). The zoning administrator may be provided with the assistance of such other persons as the director of planning may direct. Employees of other city departments including the engineering and inspection departments as well as license inspectors with the clerk-treasurer's office and members of the police and fire departments may also assist in the enforcement of this ordinance by reporting to the zoning administrator new construction, reconstruction or new land uses and apparent violations of this ordinance. In addition, police

*__State law reference—__Zoning amendments, Code of Ala. 1975, § 11-52-78.

†__Editor's note—__Ord. No. 07-460, § 10, adopted June 28, 2007, repealed the former Art. 91, §§ 91.1—91.5, and enacted a new Art. 91, §§ 91.1—91.6 as set out herein. For a more detailed analysis, see also the Code Comparative Table.

__Cross reference—__Administration, ch. 2.

officers shall have the power to enforce this ordinance in accordance with section 2-2 of the Code of Ordinances.

The zoning administrator and those designated to assist said administrator shall, in accordance with any applicable law, have the right to enter upon any premises at any reasonable time for the purpose of making inspection of buildings or premises necessary to carry out their duties in the enforcement of this ordinance. In those instances where the zoning administrator and those designated to assist said administrator are performing responsibilities relative to the review and approval of permitting, certification and licensure, as hereinafter set forth, tacit permission to enter upon any premises at any reasonable time for said purpose(s) shall accompany the application for such permitting, certification or licensure.

If the zoning administrator shall find that any of the provisions of this ordinance are being violated, he shall take any action authorized by this ordinance to insure compliance with or to prevent violation of its provisions, including issuance by him or any inspector under his supervision of a citation to appear in municipal court in accordance with ordinances of the city authorizing same, or he may make affidavit under oath before a duly authorized magistrate seeking a warrant for the arrest of the violator.

In addition to any other duties ascribed to him by this ordinance, the zoning administrator shall have the duty to maintain files and records relative to the administration of this ordinance, act as clerk to the board of adjustment, make examination as necessary to determine compliance with the provisions of this ordinance, investigate complaints of zoning violations, and initiate enforcement action against persons committing violations. The zoning administrator shall administer this ordinance in accordance with its literal terms, and shall not have the power to permit any construction or use or any change of use which does not conform to this ordinance.

Issuance, or the approval of issuance, of permitting, certification or licensure, as hereinafter set forth, shall in no case be construed as waiving any provision of this ordinance, unless otherwise waived according to Article 92 hereof.
(Ord. No. 07-460, § 10, 6-28-2007)

91.2. Building permit approval required.

A building permit shall not be issued until such time as the zoning administrator has determined that the proposed activity for which a building permit is required conforms to the provisions of this ordinance. To this end, the zoning administrator is authorized to require that every application for a building permit for excavation, construction, use of land, moving, alteration, or such other regulated activity be accompanied by a plan or plat drawn to scale and showing the following in sufficient detail to enable the zoning administrator to ascertain whether or not the proposed excavation, construction, use of land, moving, alteration, or such other regulated activity is in conformance with this ordinance:

(1) The actual shape, proportion, and dimensions of the lot to be built upon.

(2) The shape, size, and locations of all buildings or other structures to be erected, altered, or moved and of any buildings or other structures already on the lot.

(3) The existing and intended use of all such buildings or other structures.

(4) The setback and side lines of buildings on adjoining lots and such other information concerning the lot or adjoining lots as may be essential for determining whether or not the provisions of this ordinance are being observed.

If the proposed excavation, construction, use of land, moving, alteration, or such other regulated activity as set forth in the application is in conformity with the provisions of this ordinance, the zoning administrator shall give his approval for the issuance of a building permit accordingly. If the zoning administrator does not approve the issuance of a building permit, he shall state in writing the cause for such disapproval.

It shall be a violation of this ordinance to conduct any activity for which a building permit is required unless and until the Zoning Administrator has given his approval therefor.
(Ord. No. 07-460, § 10, 6-28-2007)

91.3. Certificate of occupancy approval required.

A certificate of occupancy shall not be issued until such time as the zoning administrator has determined that the proposed activity for which a certificate of occupancy is required conforms to the provisions of this ordinance. To this end, the zoning administrator is authorized to require any information he deems relevant for such determination and to make inspection as necessary.

Within three days after an owner or his agent has notified the zoning administrator that a building or premises or part thereof is ready for occupancy or use, it shall be the duty of the zoning administrator to make a final inspection thereof or to otherwise determine compliance with this ordinance, and to approve the issuance of a certificate of occupancy if the building and premises are found to conform with the provisions of this ordinance; or, if such certificate is refused, to state the refusal in writing with the cause.

It shall be a violation of this ordinance to conduct any activity for which a certificate of occupancy is required unless and until the zoning administrator has given his approval therefor.
(Ord. No. 07-460, § 10, 6-28-2007)

91.4. Privilege licensure approval required.

No privilege license shall be issued or transferred until such time as the zoning administrator shall have confirmed to the city clerk-treasurer that the proposed trade, business, occupation, vocation or profession at the location or place of business is in conformance with this ordinance. The zoning administrator may conduct an investigation into the proposed activity and to that end may require an applicant for a privilege license to provide information the zoning administrator deems relevant to his determination.

If the proposed activity is found to be in conformance with this ordinance, the zoning administrator shall approve the issuance of a privilege license accordingly; or, in the case of disapproval, the zoning administrator shall state the refusal in writing with the cause.

It shall be a violation of this ordinance to conduct any trade, business, occupation, vocation or profession activity for which the issuance or transfer of a privilege license is required unless and until the zoning administrator has given his approval therefor.
(Ord. No. 07-460, § 10, 6-28-2007)

91.5. Other covered activity or conduct.

Any activity or conduct regulated by this ordinance which does not otherwise require the approval of the issuance of a building permit, certificate of occupancy or privilege license, as the case may be, shall nevertheless be subject to the provisions of this ordinance and the enforcement thereof.

Sign permits shall be regulated in accordance with article 72 of this chapter.
(Ord. No. 07-460, § 10, 6-28-2007)

91.6. Penalties.

Any person, firm, or corporation violating any of the provisions of this ordinance shall, upon conviction, be fined not more than $500.00 plus costs of court, for each offense to which may be added, in the discretion of the judge of the court trying the case, confinement in the city jail for a period not exceeding six months. Each day such violation continues shall constitute a separate offense.
(Ord. No. 07-460, § 10, 6-28-2007)

State law reference—Penalties for ordinance violations, Code of Ala. 1975, § 11-45-9.

ARTICLE 92. BOARD OF ADJUSTMENT*

92.1. Creation and membership.

A board of adjustment is hereby established which shall consist of five members, each to be appointed for a term of three years by the mayor and approved by the city council. Vacancies shall be filled for the unexpired term of any member whose term becomes vacant. Members of the board may be removed for cause by the city council upon written charges and after a public hearing, provided, however, that the duly appointed members of said board, as established and appointed pursuant to prior enacted zoning ordinances, shall continue to serve as members of said board under the terms of this ordinance.

92.2. Proceedings.

The board shall adopt rules necessary to conduct its affairs and in keeping with the provisions of this ordinance. Meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. Such chairman, or, in his absence, the acting chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public.

The board shall keep minutes of its proceedings, showing the vote, indicating such fact, and shall keep records of its examinations and of other official actions; all of which shall be immediately filed in the offices of the planning department and shall be a public record.
(Ord. No. 07-460, § 11, 6-28-2007)

92.3. Hearings; appeals; notice.

Appeals to the board may be taken by any person aggrieved or by any officer, department, or board of the city affected by any decision of the zoning administrator. Such appeal shall be taken within a reasonable time, as provided by the rules of the board, by filing with the zoning administrator and with the board of adjustment a notice of appeal specifying the grounds thereof. The zoning administrator shall transmit forthwith to the board all papers constituting the record upon which the action appealed was taken.

A reasonable application fee, to be established by the adopted by-laws of the board of adjustment, must accompany the application for appeal, except that the application fee shall be $500.00 for a special exception or a variance for a wireless telecommunication tower other than a personal use or accessory tower as defined in section 73.20.1 hereof.

The board of adjustment shall fix a reasonable time for the hearing of the appeal, give public notice thereof, as well as due notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing, any party may appear in person or by agent or by attorney.
(Ord. No. 00-620, § 2, 8-23-2000; Ord. No. 07-460, § 11, 6-28-2007)

92.4. Stay of proceedings.

An appeal stays all proceedings in furtherance of the action appealed from, unless the zoning administrator certifies to the board of adjustment after the notice of appeal shall have been filed with him that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. Such proceedings shall not be stayed otherwise than by a restraining order which may be granted by the board of adjustment or by a court of competent jurisdiction or notice to the zoning administrator and on due cause shown.
(Ord. No. 07-460, § 11, 6-28-2007)

92.5. Powers and duties.

The board of adjustment shall have the following powers and duties:

92.5.1. *Administrative review.* To hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by the manager of inspection in the enforcement of this ordinance.

92.5.2. *Special exceptions.* To hear and decide only such special exceptions as the board of adjustment is specifically authorized to pass on by the terms of this ordinance; to decide

*__Cross reference—__Boards, commissions, committee and authorities, § 2-1291 et seq.

__State law reference—__Board of adjustment, Code of Ala. 1975, § 11-52-80 et seq.

such questions as are involved in determining whether special exceptions should be granted; and to grant special exceptions with such conditions and safeguards as are appropriate under this ordinance; or to deny special exceptions when not in harmony with the purpose and intent of this ordinance.

A special exception shall not be granted by the board of adjustment unless and until:

(1) A written application for a special exception is submitted indicating the section of this ordinance under which the special exception is sought and stating the grounds on which it is requested;

(2) Notice shall be given at least seven days in advance of public hearing by at least one advertisement in a newspaper of general circulation;

The owner of the property for which special exception is sought or his attorney shall be notified by mail;

(3) The public hearing shall have been held. Any party may appear in person, or by agent, or by attorney;

(4) The board of adjustment shall make a finding that it is empowered under the section of this ordinance described in the application to grant the special exception, and that the granting of the special exception will not adversely affect the public interest.

92.5.3. *Permitted Uses as Special Exceptions.* The Board of Adjustment may permit, as a special exception, the following uses in the specified district:

(1) Semi-public, non-profit, recreational facilities in any residence district (except miniature golf courses).

(2) Off-Premises Beer/Table Wine Retailers in Neighborhood Business C-1, Neighborhood Business C-2, General Business C-3, Highway Business C-4, Commercial Recreation C-5, Village Business C-6, Commercial Industrial Park, Light Industry, Research Park Commercial, Research Park 2, Airport Commercial and Heavy Industry districts within five hundred (500) feet of a church.

In addition to any other required notice, an applicant for a special exception to locate within five hundred (500) feet of a church must notify such church via mail.

(3) Private off-street parking area in Residence 2-B District provided such area is adjacent to a business or industrial district.

(4) Quarries, sand pits and gravel pits in Heavy Industry and Planned Industrial districts provided that the following conditions are met in addition to any other conditions imposed by the Board of Adjustment, to wit:

(a) *Setbacks.* No area of extraction or storage of earth products or overburden material, except for the construction of site barriers as required by paragraph (b) below and shown on the approved site plan, and no parking shall be permitted within two hundred feet (200') of the extraction site boundaries, either above or below grade, or of any public right-of-way. The operation of stationary machinery such as sorters, crushers, or other processing devices shall not be permitted within five hundred feet (500') of the extraction site boundaries or of any public right-of-way unless the extraction site abuts a residential district, in which case the setback shall be one thousand feet (1,000'). Utility facilities (except service lines), administrative buildings, scale houses, and similar non-process facilities shall have a minimum setback of two hundred feet (200') from extraction site boundaries and public rights-of-ways. The setbacks described above, however, do not apply to boundaries shared with contiguous lawful extraction operations.

(b) *Screening.* No grading, removal or disturbance of vegetation, except at points of ingress and egress, shall be permitted within two hundred feet (200') of the extraction site boundaries or any public right-of-way; provided, however, existing conditions may be modified to enhance screening of the extraction operation from view; and all areas of operation shall be effectively screened from view of surrounding uses to the extent practical by trees and shrubs, fences, walls or earth berms or a combination of same.

(c) *Street Access and Frontage.* Any proposed extraction operation shall have at least 200 feet of frontage on an arterial or major collector street as designated on the Major Street Plan for the City of Huntsville, and no access shall be through any residential district except on an arterial or major collector street.

(d) *Performance Standards.* Extraction activities shall be operated and maintained subject to the following minimum requirements.

(i) *Safety Measures.* Appropriate safety measures shall be taken to control access to the subject property including, but not necessarily limited to, notices posted at intervals no greater than one hundred feet (100') along the extraction site boundaries and along any public rights-of-ways that shall warn against trespassing and shall contain a statement of the use of explosives, if applicable. The perimeter of all active extractive operations shall be enclosed by a fence not less than four feet (4') in height.

(ii) *Hydrologic Standards.* Excavation activities shall be planned such that they minimize changes to the prevailing hydrologic conditions in both the extraction site and off-site areas. Changes in water quality and quantity, in the depth to ground water, and in the location of surface water drainage channels shall be minimized so that the future use of the area is not adversely affected.

(e) *Reclamation Standards.* The reclamation of an extraction site shall be required and shall result in conditions appropriate for the expected future use of the site.

(i) Full reclamation of the site as provided herein must commence immediately upon completion or termination of the extraction operation or following a dormant period of twelve (12) consecutive months as required by section 73.18.8.

(ii) In all cases the final grades shall be appropriate for the expected future use.

(iii) All final site drainage shall be designed, sloped, revegetated, or treated by other measures so that erosion and siltation shall be held to a minimum.

(iv) All reclamation materials used in the grading of the site shall be non-perishable, non-hazardous materials, free from refuse or toxic contaminants and shall be compacted in a manner suitable for the expected future use. Final soil depths and types shall be appropriate for the expected future use.

(v) Revegetation of the site to control dust and erosion and to restore organic vitality is required. The applicant must develop, through tree planting and seeding or sodding, complete vegetative cover suf-

ficient to restore the site to the condition shown on the reclamation plan and to retain the soils, except on ponds and other surfaces not appropriate for vegetation.

(vi) The site shall be maintained for a period of two years following completion of reclamation to ensure that vegetation is alive and well, that dead vegetation is replaced, that drainage is working properly, and that soil erosion is held to a minimum.

(f) *Accessory Uses.* Permitted uses in Heavy Industry and Planned Industrial districts shall not be allowed within the boundaries of the special exception extraction site unless such use is specifically cited in the special exception approval.

(g) *Extraction Permit.* The applicant shall demonstrate to the Board of Zoning Adjustment that an extraction permit application, based on compliance with the provisions of section 73.17, has been approved by the Director of the Department of Natural Resources and Environmental Management.

(h) *Performance Bond.* The applicant shall post a bond or deposit a cash escrow with the City of Huntsville in accordance with the provisions of section 73.18 before approval by the Board of Zoning Adjustment shall become effective and before an extraction permit shall be issued.

(i) *Termination of Special Exception.* The special exception and any variances granted within the extraction site subsequent to the approval of the special exception shall terminate at such time as the Director of Natural Resources and Environmental Management notifies the Zoning Administrator that a valid extraction permit for the site is not in effect and that the reclamation plan has been completed.

(5) Private airport in any industrial district.

(6) Cemetery in any district.

(7) Multiple family dwellings, accessory structures, and uses in Research Park Commercial District provided that such dwellings conform to the following requirements and conditions in addition to any other conditions imposed by the Board of Adjustment, to wit:

(a) Sidewalks not less than four (4) feet wide are required in the project area leading from all front and rear doors to streets. Sidewalks are also required along all property of the project abutting streets.

(b) Closest permitted distance between any two apartment buildings shall be ten (10) feet for one-story buildings; fourteen (14) feet for two-story buildings or more.

(c) Minimum distance from an apartment building to a parking space shall be eight (8) feet.

(d) Minimum distance from front or side of an apartment building shall be fifty (50) feet to a major arterial right-of-way and twenty-five (25) feet to other public street rights-of-way.

(e) Minimum distance from either rear or side of apartment building to side and rear lot line shall be twenty-five (25) feet.

(f) Minimum distance from front of one apartment building to front of another apartment building shall be twelve (12) feet, except when the apartment building has a height of twenty-five (25) feet or above then a thirty (30) feet distance is required.

(g) Windows in all apartment buildings shall have not less than a twenty-foot view (measured perpendicularly

from the window) unobstructed by other buildings located on the same parcel of land.

(h) All yards abutting any street right-of-way shall be kept clear of off street parking, including parking structures, loading areas and vehicular access ways, except as necessary to cross a required yard, shall not be permitted within twenty (20) feet of any boundary of the Research Park Commercial District.

(i) Lighting of off-street parking and vehicular use areas shall be in accordance with section 71.6 - PVA Lighting Requirements.

(j) The landscape requirements shall be in accordance with section 53.8.

(k) Maximum number of stories shall be in accordance with section 53.7.2 hereof.

(l) The proposed development shall comply with requirements set forth in section 53.11.

(8) Go-cart tracks and operation, model airplane flying, or other outdoor recreational facility creating loud noise, including fairs, carnivals and circuses, in General Business C-3, Highway Business C-4, Commercial Recreation C-5, Light Industry, Heavy Industry, Planned Industrial, Airport Industrial Park, Commercial Industrial Park, Heavy Manufacturing and Industrial Park districts.

(9) Towers intended to support personal wireless service antennas in any residential district; approval shall be subject to the conditions contained in sections 73.20.4 - Lighting, 73.20.5 - Tower Color, 73.20.6 - Site Security, 73.20.8 - Structural Design of Towers, 73.20.9 - Signs, 73.20.10 - Access, 73.20.11 - Landscaping, 73.20.16 - Co-Location, and 73.20.17 - Building Permits for Towers of this ordinance, and to the following conditions:

(a) Towers must be monopoles and must be designed to implode under stress; antennas used must be of the least visually obtrusive design available at the time of application.

(b) A signed affidavit from the applicant verifying the inability to locate the proposed antennas on existing towers or other structures accompanied by supporting documentation as specified in Section 73.20.16 - Co-Location, and including substantial evidence that the tower cannot, by technical necessity, feasibly be located in a non-residential district.

(c) Any new tower permitted must be designed to accommodate personal wireless service antennas for at least one additional user for a reasonable fee if technically feasible.

(d) Accessory facilities shall be fully automated and shall not include offices, vehicle storage, outdoor storage, or broadcast studios.

(e) Tower heights shall not exceed one hundred (100) feet.

(f) Setbacks for towers shall be at least fifty feet (50') from all lot lines, and setbacks for accessory structures shall be a minimum of twenty (20) feet from all lot lines or as required for primary structures in the district if greater.

(g) Towers shall not be permitted within the boundaries of any historic district listed on the National Register nor shall towers be located on the same lot with a residential structure.

(h) Accessory buildings and security fences or walls shall be constructed so as to be compatible with the surrounding residential neighborhood by virtue of their design, materials, textures, and colors.

(i) New towers permitted on mountain tops or slopes should be clustered with existing towers, if any, to the extent that such location is techni-

cally feasible and safe as well as aesthetically, environmentally and visually compatible.

(j) The Board of Adjustment shall act upon any application for authorization to place, construct or modify any personal wireless service facility, whether for a special exception or a variance, within a reasonable period of time after the application and all required supporting documentation is duly filed, taking into account the nature and scope of such application.

Any decision by the Board of Adjustment to grant or deny an application to place, construct, or modify any personal wireless service facility, whether for a special exception or a variance, shall be in writing and supported by substantial evidence contained in the record.

(10) Fallout shelters for more than two families in any residence district.

(11) Laundry or dry cleaning operation in a neighborhood business district, provided no flammable fluids are used, no open discharge of steam, and not more than five (5) people are employed.

(12) Private schools, nurseries, kindergartens and child care centers in any residential district when operated as an accessory use to any permitted use other than a family dwelling, provided that the Zoning Administrator concurs and that all property owners within 500 (five hundred) feet have been notified of the public hearing.

Group child care homes in all residential districts, except Residence 2-B districts, provided that the restrictions listed in section 73.1.1.(4) have been met, that all property owners within 500 (five hundred) feet have been notified of the public hearing, and that such special exception shall be granted only to the applicant, shall not be transferable to any other person, firm or corporation, and shall terminate at such time as the group child care home ceases operation.

(13) Two-family house in a Light Industry District.

(14) Theatres, not including drive-in theatres, in Neighborhood Business C-1, C-2, General Business C-3, Central Business C-B, Highway Business C-4, Commercial Industrial Park, Research Park Commercial and Light and Heavy Industry districts.

(15) Drive-in theatres only in Light and Heavy Industry Districts.

(16) Commercial heliports and/or helipads in the following districts: General Business C-3, Highway Business C-4, Medical, and Light Industry districts.

(17) Private sidewalk or patio seating for on-premises alcoholic beverage retailers in Neighborhood Business C-1, Neighborhood Business C-2, Village Business C-6 and Research Park 2 districts, when it can be determined that such use will not be a nuisance to nearby residences.

(18) Expanded hours for on-premises retail sale, service, dispensing, or consumption of alcoholic beverages in a Neighborhood Business C-1, Neighborhood Business C-2, or Research Park 2 districts between midnight and 2 a.m. provided all of the following conditions are met in addition to any other conditions that may be imposed by the Board of Adjustment:

(a) Approval shall be for the licensee only and for no more than three (3) years.

(b) Each time a licensee applies for a Board of Adjustment approval, the licensee shall notify all residents within five hundred (500) feet by mail of the request at least ten (10) days prior to the date of the Board of Adjustment meeting.

(c) Licensed establishments shall be at least 250 feet from a single family

residential zoning district and shall not be located on a local street; provided, however, where the portion of the residential district falling within the required separation distance has been put to a non-residential use or the land is unusable for residential purposes, then the separation requirement shall not apply.

(d) Separation distances shall be measured from the edge of the parking lot or the exterior wall of the licensed establishment, whichever is closer to the residential district.

(e) The Board of Adjustment shall have no authority to grant variances to preceding conditions (a) through (d) or to extend hours of service beyond what is provided for herein.

(19) Indoor firing ranges, as a primary use, in Light Industry, Heavy Industry and Disposal Storage districts only, and as an accessory use to a permitted use in Planned Industrial, Research Park, Research Park West, Research Park Applications and Airport Industrial Park districts, provided that in either case of primary use or accessory use, the following conditions are met in addition to any other conditions imposed by the Board of Adjustment, to wit:

(a) Where the indoor firing range is a primary use, as opposed to an accessory use as hereinabove provided, there shall be no fewer than three (3) off-street parking spaces per firing lane or stall for patrons of the range.

(b) All Building Code requirements and all standards promulgated by the Inspection Director of the City of Huntsville, Alabama, with regard to the construction and performance of indoor firing ranges shall be met.

(c) Where the property on which the use is situated is contiguous to a residential zoning district, the structure housing the use shall not be situated nearer than fifty (50) feet to the residentially zoned property.

(d) The sale or consumption or possession of alcoholic beverages on the premises shall be prohibited.

(20) AM radio broadcast towers, towers for mobile or fixed point radio antennas, and any other telecommunications towers not otherwise covered by section 73.20.1 - Applicability that will not be designed, constructed, and available to accommodate multiple users for a proposed location in any non-residential district. Approval shall be subject to:

(a) Submittal of scaled site plans and other supporting drawings and documents sufficient to demonstrate compliance with the provisions of section 73.20 hereof.

(b) Written documentation by the applicant demonstrating why installation of a single user tower would better serve the goals of the Zoning Ordinance than would a tower designed to accommodate multiple users.

(c) The Board of Adjustment shall act upon any application for authorization to place, construct or modify any personal wireless service facility, whether for a special exception or a variance, within a reasonable period of time after the application and all required supporting documentation is duly filed, taking into account the nature and scope of such application.

Any decision by the Board of Adjustment to grant or deny an application to place, construct, or modify any personal wireless service facility, whether for a special exception or a variance, shall be in writing and supported by substantial evidence contained in the record.

(21) Broadcast towers supporting one or more UHF or VHF television or FM radio broadcast or other similar broadcast antenna in any district; approval shall be subject to the provisions of sections 73.20.6 - Security, 73.20.8 - Structural Design, 73.20.9 - Signs, 73.20.10 - Access, 73.20.11 - Landscaping, 73.20.16 - Co-Location, and 73.20.17 - Building Permits of this ordinance and to the following conditions:

(a) Because it is the intent of this ordinance to minimize the number of towers and their visual impact on the city, any new television tower that is permitted shall be capable of supporting at a minimum two UHF antennas and one FM antenna in addition to other radio service antennas and microwave dishes.

(b) If a new tower is approved for a currently operating television licensee, then the existing tower must be removed and any antennas on the existing tower transferred to the newly permitted tower or to other existing towers. There should never be more television towers in the city than there are television licensees, and it is the intent of this ordinance that the number of television towers should decrease over time as licensees co-locate on new towers.

(c) Setbacks for broadcast towers shall be the greater of 25% of tower height (including antennas) or the longest distance between the perimeter of the tower base and a guy anchor plus a fifteen-foot (15') setback from any lot line for each guy anchor.

(d) Broadcast towers must be located so that in the event of tower or structure failure, the tower cannot strike another tower or tower support structure.

(e) Applications to locate broadcast towers in residential districts must contain written documentation demonstrating why it is essential for the tower to be so located accompanied by evidence that the tower cannot be located in a non-residential district.

(f) Tower lighting shall be the minimum required to comply with federal regulations, and tower height shall be the minimum necessary to serve the licensed area.

(22) Indoor facilities for the discharge of BB guns in Highway Business C-4, Commercial Recreation C-5, Light Industry, Heavy Industry, and Disposal Storage districts subject to prior approval of the application by the Chief of Police and compliance with the provisions of Ordinance No. 97-171 as the same may be amended. Special exception approval by the Board of Adjustment shall be granted only on a specific event basis and approval shall specify the time period during which the special exception is valid. In addition, the following conditions shall apply:

(a) All building code requirements and all standards promulgated by the Building Inspector of the City of Huntsville with regard to the construction and performance of indoor firing ranges for BB guns shall be met;

(b) The structure housing such use shall not be situated nearer than fifty feet to residentially zoned property; and

(c) The sale or consumption or possession of alcoholic beverages on the premises shall be prohibited.

(23) Indoor facilities for the discharge of paintball guns in Light Industry, Heavy Industry, Disposal Storage, and Commercial Recreation C-5 districts. In addition to any other conditions imposed by the Board of Adjustment, the following conditions shall apply:

(a) The structure housing such use shall not be situated nearer than fifty (50) feet to residentially zoned property.

(b) Off-street parking spaces shall be provided in accordance with Article 71 - Off-Street Parking and Vehicular Use Area Landscaping Requirements. The number of parking spaces provided shall be at least one parking space for each 300 square feet of floor area.

(c) All noises emanating from the facility shall comply with the City of Huntsville Noise Control Regulations, as the same may be amended, and further, that where an indoor facility for the discharge of paintball guns adjoins residentially zoned property, the sound of firearm discharge and the sound of projectile impact shall not be audible at or beyond the property line.

(d) Guns used for paintball shall be discharged only within the indoor paintball structure.

(e) The sale, consumption or possession of alcoholic beverages on the premises shall be prohibited.

(24) Outdoor paintball playing fields in Heavy Industry and Disposal Storage districts, provided the following conditions are met in addition to any other conditions imposed by the Board of Adjustment:

(a) Applicant must demonstrate evidence of legal control of the proposed paintball site.

(b) The external boundaries of the paintball site must be at least 500 feet from any residential use, residentially zoned district or recorded residential subdivision, place of worship, school or daycare facility, provided, however, the separation distance restriction may be waived where the residential district or residential areas cannot be developed within 500 feet of the paintball site due to the existence of a floodway. The distance established herein shall be measured from the property line of the outdoor paintball range to the property line of the affected use.

(c) A buffer strip 200 feet deep along the perimeter of the site, along all rights-of-ways, and adjacent to structures must be maintained, and no play shall be permitted within this buffer; provided, however, this buffer may be waived or modified by the Board of Adjustment if in the opinion of the Board of Adjustment such waiver or modification will not be disruptive or detrimental to the surrounding area.

(d) A 20 foot high, nylon mesh screen shall be installed around each area of play, each tune-up area, and each other such area where guns may be discharged. This screen shall be anchored at the bottom and secured by a non-stretchable cable at the top and bottom. Two such screens shall be installed a minimum of five feet apart to separate the spectator area from the areas set forth above in this subsection 24(d).

(e) Off-street parking spaces shall be provided in accordance with Article 71 - Off-Street Parking and Vehicular Use Area Landscaping Requirements. The number of parking spaces provided shall be equal to one parking space for each 300 square feet of area of play.

(f) Standards of operation must be submitted as part of the Board of Adjustment application and shall become part of any approval. Standards shall include all pertinent information including a description of the equipment to be used, the hours of operation, the buffer strip, nylon mesh screen, and procedures needed to minimize any noise, litter, lighting, traffic, or other forms of pollution created by the proposed operation that may have an adverse

impact on the proposed paintball range, as well as surrounding properties.

(g) A site plan (1" = 200') showing the buffer strip; the nylon mesh screen; location of any permanent structures on the site; designated areas of play, staging, tune-up and spectators; adjacent rights-of-ways; vehicular and pedestrian circulation, including points of access to the site, loading and unloading areas, and areas for employee and customer parking; restroom facilities; landscaping; and any other proposed facilities, and a copy of the official zoning map on which are shown the exact boundaries of the paintball site shall be submitted with the Board of Adjustment application.

(h) No outdoor lighting shall be allowed other than for building access, parking area and signs. Nighttime use of a paintball range may be permitted if in the opinion of the Board of Adjustment such use will not be disruptive to the surrounding area. In these cases, playing, staging, tune-up and spectator areas will be required to be lighted.

(i) Hours of operation shall be from 7:00 a.m. to 12 midnight, provided, however, in no case shall hours of operation continue after dark unless the field is artificially lighted in accordance with 24(h) above.

(j) Guns used for paintball shall be discharged only on the paintball field within the approved designated areas of play.

(k) The sale, consumption or possession of alcoholic beverages on the premises shall be prohibited.

(l) No outdoor storage shall be allowed.

(25) Hotels, motels, and bed & breakfasts in Neighborhood Business C-1, C-2, and Village Business C-6 districts.

(26) Parking lots as a primary use in Neighborhood Business C- 1, Neighborhood Business C-2 and Village Business C-6 districts.

(27) Radio and television studios but not broadcast towers in Neighborhood Business C-1 and C-2 districts when located on a major arterial.

(28) Hotels and motels in Research Park Application, Research Park Applications 2, and Research Park 2 districts.

(29) Special event retailers in all residential districts.

(30) In Heavy Industry districts only: abattoir, stockyards; manufacture of acetylene gas, acid, ammonia, or chlorine, bleaching chemicals, powder, alcoholic beverages; asphalt manufacturing, limestone drying; auto wrecking, or storage of wrecked autos for purpose of used parts sales; blast furnaces, boiler and tank works; bag cleaning; central mixing plant for cement mortar or paving materials; processing, incineration or storage of dead animal materials, including curing, tanning and storage of hides, distillation of bones, coal, fat rendering, candle making, fertilizer manufacture, glue size, and gelatin manufacture; manufacture of paint, turpentine, varnish, soap and tar products, disinfectants and dyestuff; wool pulling or scouring; cement, lime, gypsum or plaster of Paris manufacture; salvage yards; paper and pulp manufacture; ore reduction; junk, scrap metal, rags, paper, cotton waste, storage or baling; gasoline and L.P. Gas bulk storage plants.

(31) Special Retailers as an accessory use to banquet halls or cultural venues where such uses are permitted in Neighborhood Business C-1, Neighborhood Business C-2, General Business C-3, Highway Business C-4, Commercial Recreation C-5, Light Industry, Heavy Industry, Commercial Industrial Park, Research Park Commercial and Research Park 2 districts provided all of the following conditions

are met in addition to any other conditions that may be imposed by the Board of Adjustment:

(a) The Special Retail license is available only to organizations.

(b) Approval shall be for the licensee only and for no more than three (3) years.

(c) Each time a licensee applies for a Board of Adjustment approval, the licensee shall notify all residents within five hundred (500) feet by mail of the request at least ten (10) days prior to the date of the Board of Adjustment meeting.

(d) The Special Retail license is only for scheduled events and shall not constitute the primary use of the property.

(e) In Neighborhood Business C-1 and Neighborhood Business C-2 Districts only: there shall be no outdoor entertainment.

(f) The Special Retail license, along with a listing of all conditions prescribed by the Board of Adjustment, must be clearly posted in a conspicuous location.

(g) The Board of Adjustment shall have no authority to grant variances to the preceding conditions (a) through (f).

(32) Photovoltaic Solar Energy System, On-Site, as an accessory use to a non-residential use in a residential zoning district, provided the conditions in section 73.1.1(5) for on-site solar energy systems in residential districts are met in addition to any other conditions that may be imposed by the Board of Adjustment.

(33) Photovoltaic Solar Energy Production Facility, as a primary use in all non-residential zoning districts except for Residential Office and Office districts, provided all of the following conditions are met in addition to any other conditions that may be imposed by the Board of Adjustment:

(a) Area of use may not exceed five (5) acres onsite with no aggregation of solar collection panels on adjacent properties which exceeds five (5) acres.

(b) Solar energy production facilities shall adhere to the setback and height requirements of the district in which they are located.

(c) Abutting residential properties shall be visually screened from the project through any one or combination of the following: plantings, existing vegetation or fencing (not to exceed eight [8] feet in height). The screening, capable of providing year round screening, shall be provided along the non-reflective sides of the solar energy production facility or collection of facilities.

(d) The manufacturers' or installers' identification, the facility owners' name and contact information, and the appropriate warning signage shall be posted on or near the panels in a clearly visible manner.

(e) All electrical interconnection and distribution lines within the project boundary, except for power lines that leave the project or are within the substation, shall be underground, unless determined otherwise by the Zoning Board of Adjustment because of severe environmental constraints.

(f) Lighting of the solar energy production facility and accessory structures shall be limited to the minimum necessary.

(g) Drawings that clearly illustrate the design of the solar energy production facility shall be submitted as part of the Special Exception application package. The Board of Adjustment may apply aesthetic

consideration when approving the design of the solar energy production facility.

(h) The installation of a solar energy production facility shall not cause to apply the requirements of Article 70 — Off-Street Parking and Loading Requirements or of Article 71 — Off-Street Parking and Vehicular Use Area (PVA) Landscaping Requirements.

(i) Any solar energy production facility that has not been in use for its original purpose for a period of one hundred and eighty (180) days shall be deemed to be abandoned. The solar energy production facility owner and/or the property owner shall have an additional ninety (90) days to remove the abandoned solar energy system and any appurtenant structures or to reactivate the solar energy system.

(34) Entertainment, as entertainment is defined herein, in restaurants, as restaurants are defined herein, located in Neighborhood Business C-1 and C-2 districts provided all of the following conditions are met in addition to any other conditions that may be imposed by the Board of Adjustment:

(a) Approval shall be for the licensee only and for no more than three (3) years.

(b) Each time a licensee applies for a Board of Adjustment approval, the licensee shall notify all residents within five hundred (500) feet by mail of the request at least ten (10) days prior to the date of the Board of Adjustment meeting.

(c) The entertainment shall not be audible outside the interior of the licensed premises.

(d) No entertainment shall be permitted and no entertainment shall be audible in the areas of any private sidewalk, courtyard or patio seating.

(e) No entertainment shall be permitted after 11:00 p.m.

(f) The Board of Adjustment shall have no authority to grant variances to preceding conditions (a) through (e).

(35) Alcoholic Beverage Manufacturers that conduct tastings or samplings on the licensed premises (with or without entertainment) shall be permitted as a Special Exception in General Business C-3, Highway Business C-4, Village Business C-6, Light Industry, Heavy Industry, Commercial Industrial Park, Airport Commercial, Research Commercial and Research Park 2 districts.

(36) Farmers markets located in Residence 1, Residence 1-A, Residence 1-B, Residence 1-C, Residence 2, Residence 2-A, Residence 2-B, Residence 2-C, Neighborhood Business C-1, Neighborhood Business C-2, Village Business C-6, Research Park and Research Park 2 districts.

(37) Metal siding as an exterior building finish provided the following conditions are met in addition to any other conditions that may be imposed by the Board of Adjustment:

(a) Exterior building finish must be constructed with an architectural composite metal panel or similar architectural composite panel.

(b) Pre-finished metal siding, steel siding, ribbed or corrugated metal siding materials are not permitted exterior building finishes.

(c) Exposed fasteners are not permitted.

(38) Temporary, seasonal outdoor agricultural retail sales, such as Christmas tree and pumpkin patch retail sales, located in Neighborhood Business C-1, Neighborhood Business C-2, General Business C-3, Village Business C-6, Research Park West, Research Park Commercial and

Research Park 2 districts. Uses shall be in accordance with front yard provisions listed under subsections 73.15.3 and 73.15.4, if applicable. Farmers markets do not pertain to this provision and shall be in accordance with subsection 92.5.3(36).

(39) Brewpubs (within brewpub areas), (with or without entertainment) shall be permitted as a Special Exception in General Business C-3, Highway Business C-4, Commercial Recreation C-5, Light Industry, and Heavy Industry districts.

In granting any special exception, the Board of Adjustment may prescribe appropriate conditions and safeguards in conformity with this ordinance in order to mitigate the impact of the use to surrounding uses and to otherwise protect the public health, safety and general welfare. Violation of such conditions and safeguards, when made a part of the terms under which the special exception is granted, shall be deemed a violation of this ordinance and punishable under Section 91.5 - Penalties of this ordinance.
(Ord. No. 25-157, § 1, 4-24-2025)

92.5.4. *Variances*. To authorize upon appeal in specific cases such variance from the terms of this ordinance as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of this ordinance will result in unnecessary hardship, and so that the spirit of this ordinance shall be observed and substantial justice done.

(1) A variance from the terms of this ordinance shall not be granted by the board of adjustment unless and until:

(a) A written application for a variance is submitted that includes the basis for the request.

(b) Notice of public hearing shall have been given as in section 92.5.2(2) above.

(2) Applicable state statutory and common law shall apply to a variance request.

(3) The board may make appropriate findings consistent with applicable law.

(4) The board shall have no authority to grant variances that would amend the duly adopted final plat or the attached conditions, if any, for a planned development district. Amendments or alterations to approved planned development districts shall be as provided for in section 30.5.8 (PD, changes in approved final plans).

(5) A violation of the terms of a variance shall be deemed a violation of this ordinance and punishable under Section 91.6, Penalties, hereof.

92.5.5. *Abatement of Nuisances.* The board of adjustment may require the conduct of any use, conforming or nonconforming, which results in unreasonable noise, smoke, gas, vibration, fumes, dust, fire, or explosion hazard or nuisance to surrounding property to be modified or changed to abate such hazard to health, comfort, and convenience. The board of adjustment may direct the zoning administrator to issue an abatement order, but such order may be directed only after a public hearing by the said board, notice of which shall be sent by registered mail to the owners and/or operators of the property on which the use is conducted in addition to due notice by advertisement in a newspaper of general circulation; such notification shall be mailed at least seven days prior to the date of such public hearing. A hearing to consider issuance of an abatement order shall be held by the board of adjustment either upon petition signed by any person affected by the hazard or nuisance or upon the initiative of the board. An abatement order shall be directed by the board of adjustment only upon reasonable evidence of hazard or nuisance and such order shall specify the date by which the hazard or nuisance shall be abated.

(Ord. No. 96-259, § 2, 5-23-1996; Ord. No. 96-1008, § 6, 1-23-1997; Ord. No. 97-336, § 1, 6-12-1997; Ord. No. 00-620, § 3, 8-23-2000; Ord. No. 01-269, § 1, 5-24-2001; Ord. No. 02-196, §§ 3, 4, 4-25-2002; Ord. No. 03-285, § 3, 5-22-2003; Ord. No. 05-013, § 4, 2-10-2005; Ord. No. 05-141, § 1, 4-14-2005; Ord. No. 06-1201, § 4, 1-25-2007; Ord. No. 07-460, § 11, 6-28-2007; Ord. No.

07-1194, § 2, 2-28-2008; Ord. No. 09-1053, § 7, 12-17-2009; Ord. No. 10-180, § 1, 4-22-2010; Ord. No. 11-11, § 15, 2-24-2011; Ord. No. 11-895, § 2, 1-26-2012; Ord. No. 12-466, § 3, 8-23-2012; Ord. No. 13-482, § 1, 7-11-2013; Ord. No. 15-315, § 3, 6-25-2015; Ord. No. 15-406, § 3, 7-23-2015; Ord. No. 15-677, §§ 3, 4, 10-22-2015; Ord. No. 15-758, § 13, 11-19-2015; Ord. No. 15-760, § 3, 11-19-2015; Ord. No. 15-907, § 1, 1-28-2016; Ord. No. 16-89, §§ 2, 3, 3-24-2016; Ord. No. 16-91, §§ 1—4, 3-24-2016; Ord. No. 16-795, § 1, 11-17-2016; Ord. No. 16-781, § 1, 11-17-2016; Ord. No. 17-585, § 1, 2, 9-28-2017; Ord. No. 18-65, § 1, 3-22-2018; Ord. No. 18-230, § 4, 5-24-2018; Ord. No. 18-446, § 2, 7-26-2018; Ord. No. 18-720, § 1, 10-25-2018; Ord. No. 19-936, § 3, 11-21-2019; Ord. No. 21-46, § 2(b), 2-25-2021; Ord. No. 22-237, § 3, 5-26-2022)

92.6. Decisions of the board of adjustment.

In exercising the above mentioned powers, the board may, in conformity with the provisions of this ordinance, reverse or affirm wholly or partly, or may modify the order, requirement, decision or determination appealed from and may make such order, requirement, decision or determination as ought to be made, and to that end shall have all the powers of the zoning administrator.

The concurring vote of four members of the board shall be necessary to reverse any order, requirement, decision or determination of any manager of inspection, or to decide in favor of the applicant on any matter upon which it is required to pass under this ordinance, or to effect any variation in this ordinance.
(Ord. No. 07-460, § 11, 6-28-2007)

92.7. Appeals from the board of adjustment.

Any person or persons aggrieved by any decision of the board of adjustment may seek review by a court of competent jurisdiction in the manner provided by the laws of the State of Alabama.

ARTICLE 93. SEVERABILITY

Should any section or provision of this ordinance be held void or invalid, it shall not affect the validity of any other section or provision thereof which is not of itself void or invalid, it being the purpose and intention of the city council to enact each separate section and/or subsection separately.

ARTICLE 94. REPEAL OF EXISTING ZONING ORDINANCES

All zoning ordinances heretofore adopted are hereby repealed, with the exception of those ordinances relating to fire districts and airport obstruction zoning.

ARTICLE 95. EFFECTIVE DATE

This ordinance shall take effect and be in force from and after the date of its adoption.

***Editor's note—**Printed herein is the planning commission's subdivision regulations, as adopted by planning commission Resolution No. 22-90 on December 11, 1990, and effective on July 1, 1991 with amendments to December 1998. Such amendments are accounted for in the tables prepared by the planning commission in the appendix to the subdivision regulations. It is anticipated that future amendments to the planning commission's subdivision regulations will be indicated by parenthetical history notes following amended provisions. The absence of a history note indicates that the provision remains unchanged from the original resolution as amended to December 1998. Obvious misspellings and punctuation errors have been corrected without notation. For stylistic purposes, headings and catchlines have been made uniform and the same system of capitalization, citation to state statutes, and expression of numbers in text as appears in the Code of Ordinances has been used. Additions made for clarity are indicated by brackets.

Article 7. Requirements for Land Conveyance Among Immediate Family Members

7.1. Definitions.
7.2. General requirements.

ARTICLE 1. GENERAL PROVISIONS

1.1. Title.

These regulations shall hereafter be known, cited and referred to as the "Subdivision Regulations of the Huntsville, Alabama, Planning Commission."

1.2. Purposes.

These regulations are adopted for the following purposes:

(1) To protect and provide for the public health, safety, and general welfare of the municipality.

(2) To guide the future growth and development of the municipality in accordance with the master plan.

(3) To provide for adequate light, air, and privacy, to secure safety from fire, flood, and other danger, and to prevent overcrowding of the land and undue congestion of population.

(4) To protect and conserve the value of land and the natural environment throughout the municipality and the value of buildings and improvements upon the land, and to minimize the conflicts among the uses of land, buildings, and the natural environment.

(5) To provide the most beneficial relationship between the uses of land and buildings and circulation of traffic throughout the municipality, having particular regard to the avoidance of congestion on the streets and highways and the pedestrian traffic movements appropriate to the various uses of land and buildings, and to provide for the proper location and width of streets.

(6) To establish reasonable standards of design and procedures for subdivision(s), in order to further the orderly layout and use of land; to protect life and property from damage caused by flooding, unstable slopes, slope deterioration and other natural and man-made hazards; to preserve the natural character of the land; and to insure proper legal descriptions and monumenting of subdivided land.

(7) To insure that public facilities are available and will have a sufficient capacity to serve the proposed subdivision.

(8) To insure that roads and utilities are constructed in an efficient manner so as to minimize public service and public maintenance costs.

(9) To prevent the pollution of air, streams, and ponds; to insure the adequacy of drainage facilities; to safeguard the water tables; and to encourage the wise use and management of natural resources throughout the municipality in order to preserve the integrity, stability, and beauty of the community and the value of land.

(10) To preserve the natural beauty and topography of the municipality and to insure appropriate development with regard to these features.

1.3. Authority.

These regulations are adopted pursuant to the authority, granted by Title 11, Chapter 52, Article 2 of the Code of Alabama, 1975 (Code of Ala. 1975, § 11-52-30 et seq.), which provisions are hereby made a part of these regulations.

1.4. Jurisdiction and application.

(1) These subdivision regulations and all design standards, geometric design and construction standards of the City of Huntsville shall uniformly apply to all subdivisions of land, as defined herein, located within the corporate limits of the City of Huntsville.

(2) Any owner of land within the limits of said subdivision jurisdiction wishing to subdivide land, with the exception of land conveyances among immediate family members, shall submit to the planning commission a plat of the subdivision which shall conform at least to the minimum requirements set forth in these regulations. No plat of a subdivision lying within such territory, or part thereof, shall be filed or recorded in the

office of the probate judge, and no subdivider shall proceed with improvements of lots in a subdivision until such plat shall have been approved by the planning commission.

(3) Any land conveyance among immediate family members shall conform to all the requirements of article 7 as set forth in these regulations.

1.5. Amendments.

The planning commission may from time to time amend the provisions imposed by these subdivision regulations. Public hearings on all proposed amendments shall be held by the planning commission in the manner prescribed by law.

1.6. Resubdivision.

For any change in a map of an approved or recorded subdivision plat, if such change affects any street layout shown on such map, or area reserved thereon for public use, or any lot line, such parcel shall be approved by the planning commission by the same procedure, rules, and regulations as for a subdivision.

1.7. Variances.

(1) *General.* Where the planning commission finds that extraordinary hardships or practical difficulties may result from strict compliance with these regulations and/or the purposes of these regulations may be served to a greater extent by an alternative proposal, it may approve variances to these subdivision regulations so that substantial justice may be done and the public interest secured, provided that such variance shall not have the effect of nullifying the intent and purpose of these regulations; and further provided the planning commission shall not approve variances unless it shall make findings based upon the evidence presented to it in each specific case that:

A. The granting of the variance will not be detrimental to the public safety, health, or welfare or injurious to other property near to the subdivision in question;

B. The conditions upon which the request for a variance is based are unique to the property for which the variance is sought and are not applicable generally to other property;

C. Because of the particular physical surroundings, shape or topographical conditions of the specific property involved, a particular hardship to the owner would result, as distinguished from a mere inconvenience, if the strict letter of these regulations is carried out;

D. The variance will not have the effect of nullifying the intent or purpose of the subdivision regulations, zoning ordinance, major street plan, or the elements of the master plan;

E. This section shall not apply to those sections of this ordinance that have their own provisions for waiver or modification of standards.

(2) *Conditions.* In approving variances, the planning commission may require such conditions as will, in its judgment, secure substantially the objectives of the standards or requirements of these regulations.

(3) *Procedures.* A petition for any such variance shall be submitted in writing by the subdivider at the time the preliminary plat is filed for the consideration of the planning commission. The petition shall state fully the grounds for the application and all of the facts relied upon by the petitioner.

1.8. Reserved.

Editor's note—Ord. No. 22-226, § 2, adopted March 24, 2022, repealed § 1-8, which pertained to common area maintenance agreement and derived from Ord. No. 04-875, adopted Nov. 19, 2004; and Ord. No. 05-712, adopted Sep. 8, 2005.

ARTICLE 2. DEFINITIONS

2.1. Usage.

(1) For the purpose of these regulations, certain words, terms, and phrases shall be used, interpreted and defined as set forth in these

regulations. Definitions not expressly prescribed herein are to be construed in accordance with customary usage in municipal planning and engineering practice.

(2) Unless the context clearly indicates to the contrary, words used in the present tense include the future tense; words used in the plural number include the singular; "shall" and "will" are always mandatory and "may" is permissive.

2.2. Words and terms defined.

AASHTO. American Association of State Highway and Transportation Officials.

Alley. A public or private way having a narrow right-of-way and affording a secondary means of access to abutting properties.

Applicant. The owner of land proposed to be subdivided or developed or his representative. Consent shall be required from the legal owner of the premises.

Base flood. The flood having a one percent chance of being equalled or exceeded in any given year.

Block. A tract of land bounded by streets, or by a combination of streets and public parks, cemeteries, railroad rights-of-way, shorelines of water or other physical barriers.

Bluff. An abrupt vertical change in topography of more than ten feet with an average slope steeper than two feet of rise for one foot of horizontal travel.

Buffer planting. A strip of land not less than 15 feet wide containing plant materials planted and maintained as follows:

One tree per 15 linear feet of length of said strip spaced a minimum of 15 feet on center but no more than 35 feet on center, a minimum of 50 percent of which shall be evergreen with the remainder being deciduous shade trees; one large shrub per 7½ linear feet of length of said strip spaced no less than five feet on center and no greater than ten feet on center, located a minimum of three feet from the boundary of the strip; grass, permanent mulch beds, or other permanent vegetative ground cover on all parts of each such buffer planting strip. All required plants shall be arranged in such a manner as to provide a variety of plant materials and spacings so that straight single-species rows are minimized. Additional plants are encouraged and may be planted provided the minimum requirements for said buffer plantings as listed above are met.

Existing vegetation may be credited in lieu of required plantings so long as it can be proven that the existing vegetation provides a degree of buffering equal to or greater than that provided by the required planting.

Building. Any structure built for the support, shelter or enclosure of persons, animals, chattels, or movable property of any kind.

Building line. The line within a property which defines a minimum horizontal distance to be provided between a building and the adjacent property line.

Cave. Any natural subterranean cavity that is at least 50 feet in length and/or depth, or that contains obligatory cavernicolous fauna (animals obliged to live underground). The word "cave" includes, but is not limited to, cavern, pit, pothole, well (natural), sinkhole, and/or grotto.

Certificate of occupancy. The instrument issued by the building inspection division of the city when a building has been inspected and found to meet city codes and ordinances relating to construction. Such certificate authorizes occupancy of said building.

City. The City of Huntsville, Alabama.

City clerk-treasurer. The duly designated Clerk-Treasurer of the City of Huntsville, Alabama.

City council. The City Council of the City of Huntsville, Alabama.

City engineer. The duly designated engineer for the City of Huntsville, Alabama.

City plan. See *Master plan.*

Civil engineer. An engineer whose training or occupation is in the practice of civil engineering and who is a Registered Professional Engineer in the State of Alabama.

Civil engineering. The application of the knowledge of the forces of nature, principles of mechanics and the properties of materials to the evaluation, design and construction of civil works for the beneficial use of mankind.

Colluvium. Any soil, residuum, unconsolidated deposit, rock and debris, or combination thereof, that is affected by the force of gravity such that

through time it moves down slope until it reaches a permanent state of equilibrium between gravitational stress and material strength.

Construction specifications. The specifications of the City of Huntsville as adopted by the governing body or promulgated by the City Engineer of the City of Huntsville, Alabama.

County. The county in which the subdivision is located.

County commission. The county commission of the county in which the subdivision is located.

Cul-de-sac. A local street with only one outlet and having an appropriate terminal for the convenient reversal of traffic movement.

Cut. Any artificial or mechanical act by which earth, sand, rock or any other similar material is dug into, excavated, quarried, uncovered, removed, displaced, relocated or bulldozed and shall include the conditions resulting therefrom.

Developer. The owner of land proposed to be subdivided or his representative. Consent shall be required from the legal owner of the premises.

Dump site. Any waste disposal location that includes either hazardous or non-hazardous wastes and that may include human-made or natural waste and debris.

Easement. Authorization by a property owner for the use by another, and for a specified purpose, of any designated part of his property.

Engineer of record. The civil engineer registered and in good standing with the State Board of Registration for Professional Engineers and Land Surveyors of Alabama and permitted to practice in the city and county, and who is originally responsible for coordinating and certifying as to the completeness and correctness of all information collected (by his/her efforts or those of his/her agents and/or subcontractors) and submitted for approval on behalf of the owner. In the event that the original engineer of record should change, all subsequent engineers of record shall be required to recertify all previously submitted documents and thereby accept responsibility for completeness and correctness of same. Should any subsequent engineer of record refuse to accept said responsibility, all applicable documents shall be deemed null and void and shall be required to be resubmitted with proper certification as outlined in these Subdivision Regulations of the City of Huntsville, Alabama.

Erosion. The wearing away of the ground surface as a result of the movement of wind, water and/or ice.

Excavation. Any artificial or mechanical act by which earth, sand, rock or any other similar material is dug into, cut, quarried, uncovered, removed, displaced, relocated or bulldozed and shall include the conditions resulting therefrom.

Fault. A fracture surface or fracture zone along which one side has been offset relative to the other.

Fill. Any artificial or mechanical act by which earth, sand, gravel, rock or any other material is placed, pushed, dumped, pulled, transported or moved to a new location above the natural surface of the ground or on top of the stripped surface and shall include the conditions resulting therefrom. The difference in elevation between a point on the original ground and a designated point of higher elevation of the final grade. The material used to make a fill.

Final plat. A plat of a tract of land which meets the requirements of these regulations and is in form for recording in the office of the probate judge of the county in which the subdivision is located.

Floodway. The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

Floodway fringe. The area of the floodplain lying outside the floodway but still subject to inundation by waters of the base flood.

Fracture. A surface along which material has lost cohesion. Fractures may become solutionally enlarged and permit infiltration of surface water to underground cavities or channels.

Frontage road. A street parallel and adjacent to an arterial or major collector which provides access to abutting properties.

Geometric design standards. The standards and specifications adopted by the American Association of State Highway and Transportation Officials (AASHTO) and as amended.

Geotechnical engineer. A civil engineer whose primary experience and knowledge is in the practice of geotechnical engineering.

Geotechnical engineering. The application of the knowledge of soil and rock mechanics, the forces of nature and the properties of materials to the evaluation, design and construction of civil works for the beneficial uses of mankind.

Governing body. Depending upon jurisdiction, either the City Council of the City of Huntsville, Alabama, or the county commission of the county in which the subdivision is located.

Ground water recharge point. Any cave, sinkhole, fault, fracture, joint or other specific natural feature which may be demonstrated to transmit or has the potential to transmit surface water into the subsurface strata.

Health department. Depending on jurisdiction, either the Huntsville-Madison County Health Department or the health department for the county in which the subdivision is located.

Historical and archeological features. Any location of local historical or archeological significance including, but not limited to old home sites, old structures, old wagon trails, civil war embankments, Indian mounds, Indian burial grounds, Indian village sites, or any location with an unusual concentration of archeological or historical artifacts.

Huntsville utilities. The Huntsville Water, Gas, and Electric Distribution System.

Intermittent stream. A stream that flows at the land surface discontinuously along its length as a result of subterranean passages that locally allow the surface water to move through the subsurface.

Joints. Fractures or breaks in rocks along which no movement has occurred. Most rocks are jointed and exhibit parallel joint orientations called joint sets.

Landslide. Any of various types of slope movement (mud flow, debris flow, debris avalanche, soil creep, slump, slide, rock fall, etc.) that involves the gravitational movement of unstable slope material (colluvium, soil, rock, etc.) from a higher elevation to a lower elevation. Rates of slope movements or landslides may range from very fast (rock fall) to very slow (soil creep - may be measured in inches or fractions thereof, per year).

Landslide, active. Any landslide that is currently active or that can be demonstrated to have had slope movement within the last year.

Landslide, inactive. Any landslide (including both historic and prehistoric landslides) that can be demonstrated to have no evidence of currently active movement or movement within the last year.

Lineaments. Straight features on the land surface identified from aerial photography, remote sensing, and/or topographic maps which are reflected by topographic or vegetative differences which in turn may be related to fracturing in the bedrock.

Local government. Depending on jurisdiction, either the City of Huntsville, Alabama, or the county government of the county in which the subdivision is located.

Local street. A street not classified in a higher system primarily providing access to abutting land and access to higher systems. Such street offers the lowest level of mobility, and service to through traffic is deliberately discouraged.

Lot. A tract, plot, or portion of a subdivision or other parcel of land intended as a unit for the purpose, whether immediate or future, of transfer of ownership or for building development.

Lot, double frontage. A lot fronting on two streets but not including a corner lot.

Major arterial. A street or highway of great continuity designed to accommodate the highest

traffic volumes and longest trip desires. Service to abutting land uses is subordinate to provision of travel service to major traffic movements. Major arterials carry the major portion of trips entering, leaving, or bypassing the urban area.

Major collector. A street of reasonable continuity that channels traffic between arterials, and from other collector streets to the arterial system. Such a street may sustain retail or other commercial establishments along its route and may carry relatively high traffic volumes.

Major street plan. The major street plan as adopted by the planning commission as an element of the city master plan.

Master plan. Any legally adopted part or element of the Master Plan of the City of Huntsville or its environs. This may include, but is not limited to: zoning ordinance, airport obstruction zoning ordinance, subdivision regulations, community facilities plan, major street plan, capital expenditures plan, and land use plan.

Minor arterials. Streets and highways of considerable continuity interconnecting with and augmenting the principal arterial system and providing service to moderate length trips at a somewhat lower level of mobility. The system places more emphasis on land access and distributes traffic to smaller geographic levels than those identified with the higher system. Minor arterials include all arterials not classified as major.

Minor collector. A street which carries traffic from a number of local streets to the major collector/arterial system, between other collectors, and from activity centers to a street of higher classification. Minor collectors generally have lower traffic volumes, shorter trip lengths and fewer through trips than major collectors. Minor collectors include all collectors not classified as major.

Nonresidential subdivision. A subdivision whose intended use is other than residential, such as commercial or industrial. Such subdivision shall comply with the applicable provisions of these regulations.

Off-street pedestrian walkway. A strip of land dedicated for public use which is reserved across a block for the purpose of providing pedestrian access to adjacent areas.

Owner's land surveyor. The land surveyor licensed and in good standing with the State Board of Registration for Professional Engineers and Land Surveyors of Alabama and permitted to practice in the city and county, who is an agent of the owner of the land that is proposed to be subdivided or that is in the process of being subdivided.

Parkway. A roadway that is officially classified as a major street and that has been designated as a parkway by the planning commission. A parkway is intended to be used primarily by passenger vehicles and to present a parklike character. Parkway designation is especially appropriate for roadways that traverse scenic or environmentally diverse areas.

Perennial streams. Streams that flow year round.

Planning commission. The Planning Commission for the City of Huntsville, Alabama.

Preliminary plat. A tentative plan of a proposed subdivision submitted to the planning commission for its consideration.

Probate judge. The judge of probate for the county in which the subdivision is located.

Rear service road. See alley.

Regolith. Unconsolidated material above bedrock. Composed of rock and mineral fragments, organic matter, water and air, and may include soil, residuum, colluvium and alluvium.

Right-of-way. A strip of land occupied or intended to be occupied by a street, off-street pedestrian walkway, railroad, road, electric transmission line, oil or gas pipeline, water main, sanitary or storm sewer main, or for another special use. The usage of the term "right-of-way" for land platting purposes shall mean that every right-of-way hereafter established and shown on a final plat is to be separate and distinct from the lots or parcels adjoining such right-of-way and not included within the dimensions or areas of such lots or parcels. Rights-of-way intended for streets,

crosswalks, water mains, sanitary sewers, storm drains, or any other use involving maintenance by a public agency shall be dedicated to public use by the maker of the plat on which such right-of-way is established.

Screen planting. A strip of land not less than 15 feet wide containing plant materials planted and maintained as follows:

One tree per 15 linear feet of said strip spaced a minimum of 15 feet on center but no more than 35 feet on center located a minimum of five feet from the exterior boundary of the strip a minimum of 50 percent of said trees shall be evergreen with the remainder being deciduous shade type trees and shall be arranged in such a manner as to provide the greatest degree of screening practical; one screening shrub per 7½ linear feet of said strip alternately spaced no closer than five feet on center and no greater than ten feet on center located a minimum of three feet from the interior boundary of the strip; grass, permanent mulch beds, or other permanent vegetative ground cover on all parts of each screen planting strip. All required plants shall be arranged in such a manner as to provide a variety of plant materials and spacings so that straight single-species rows are minimized. Additional plants are encouraged and may be planted provided the minimum requirements for screen plantings as listed above are met. Existing vegetation may be credited in lieu of required planting provided the existing vegetation provides a degree of screening that meets or exceeds that provided by the required planting.

Screening fences and walls. Any wall or fence used for screening that is a minimum of six feet in height and a minimum of 85 percent opaque and of the same or compatible, in terms of texture and quality, as the materials and color of the principle building. All screening fences and walls shall be provided with additional planting material so that no more than two-thirds of the surface area of the fence or wall is visible from the street within three years of erection of the structure. A maximum of 40 percent of this plant material may be deciduous.

Screening shrubs. Shall be a locally adapted species expected to reach a minimum mature height of five feet and a minimum mature spread of five feet within three years of planting. All said shrubs shall be a minimum 24 inches in height and spread at time of installation.

Seep. A small spring or an area where water slowly percolates out of the ground.

Sensitive environmental feature. Any natural feature, natural condition, habitat, plant species, or animal species that may either (1) be negatively impacted or seriously threatened by man's activities, or (2) be in a position to negatively impact man's safety and welfare. Sensitive environmental features may include, but are not limited to the following: geologic formations, soils, colluvium, rock outcrops, bluffs, sinkholes, caves, solution features, landslides, lineaments, springs, seeps, streams, wetlands, groundwater recharge points, vegetative communities, endangered or threatened plant and animal species.

Shade tree. Any deciduous or evergreen tree whose mature height of its species can be expected to exceed 35 feet and which has an expected crown spread of 30 feet or more and is considered a shade tree in accordance with American Standards of Nursery Stock, set forth by the American Association of Nurserymen. The shade tree, existing or planted, shall be at least eight feet in height and two inches in diameter measured at one-half foot above grade for new planted trees and measured 4½ feet above grade for existing trees.

Sinkhole. Depression formed in soluble rock by the action of subterranean water and is a potential point of significant groundwater recharge.

Site. Any lot or parcel of land or contiguous combination thereof, under the same ownership, including joint ownership, where clearing and/or earthwork is proposed, performed or permitted.

Solution feature. Any cave, sinkhole, or solutionally enlarged fracture, joint, fault, bedding contact, or other specific natural feature that was produced from solution of soluble rocks.

Spoil areas. Areas where refuse rock, earth, etc. has been deposited as a result of excavations in mining, dredging or excavating.

Springs. Locations on the land surface where the water table is exposed as on a valley side. The position of the water table changes seasonally, thus some springs flow only during wet weather or the wet season. Perennial springs flow year round.

Subdivider. The person(s), firm(s), or corporation(s) owning land in the process of creating a subdivision or having completed a subdivision of said land. Includes any agent of the subdivider.

Subdivision. The division of a lot, tract or parcel of land into two or more lots, plats, sites or other divisions of land for the purpose, whether immediate or future, of sale or of building development or if a new street is involved. The term "subdivision" includes resubdivision and, when appropriate to the context, relates to the process of subdividing or to the land or territory subdivided.

Vegetative communities. A systematic classification of vegetation for a given area by floral associations, location and age.

Wet weather streams. Streams that only flow during or after wet weather or wet seasons.

Wetlands. Those areas that are inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adopted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs and similar areas. (Current definition used by U.S. Army Corps of Engineers for administering Section 404 of the Clean Water Act.)

Zoning ordinance. The Zoning Ordinance of the City of Huntsville, Alabama.

ARTICLE 3. SUBDIVISION APPLICATION PROCEDURE AND PLAT REQUIREMENTS*

3.1. Procedural requirements.

Whenever any subdivision of land is proposed, and before any permit for the erection of a structure in such proposed subdivision shall be granted, the subdividing owner, or his authorized agent, shall apply for and secure approval of such proposed subdivision in accordance with the following procedure.

3.2. Layout.

(1) *Discussion of requirements.* Before preparing the layout for a subdivision, the applicant should discuss with the manager of planning or his designated representative, the procedure and requirements for adoption of a subdivision plat and the requirements as to general layout of streets and for reservations of land, street improvements, drainage, sewerage, fire protection, and similar matters, as well as the availability of existing services. The manager shall also advise the applicant, where appropriate, to discuss the proposed subdivision with those officials who must eventually approve these aspects of the subdivision plat coming within their jurisdiction.

(2) *Application procedure.* Prior to subdividing land, an owner of land or his representative shall file an application for approval of a layout; provided that in the case of resubdivision where an approved layout already exists and has not been significantly altered by the resubdivision, the applicant shall not be required to submit another application for layout approval. Where required the application for approval of a layout shall:

A. Be made on forms available at the office of the manager of planning.

B. Be accompanied by a minimum of three copies of the required layout documents as described in these regulations and complying in all respects with these regulations.

***Cross reference—**Common area maintenance agreement as an express condition precedent to final approval of any subdivision plat, app. B, § 1.8.

C. Be accompanied by a vicinity map. For subdivisions within the city, the vicinity map shall show generally the proposed streets, proposed subdivision boundaries, and surrounding area of the land to be subdivided, and shall be drawn on the City of Huntsville Planning Division zoning maps scaled 400 feet to the inch. For subdivisions outside the city, the vicinity map shall show generally the proposed subdivision boundaries and surrounding

area of the land to be subdivided, and shall be drawn on a map scaled not greater than 2,000 feet to the inch.

D. Be presented to the manager of planning sufficiently in advance of the meeting of the subdivision committee of the planning commission to allow time for his review.

E. Be accompanied by one copy of the sketch plat that has been reviewed and signed by the city engineer, or his authorized representative in words substantially as follows:

The within subdivision plat has been reviewed by the City Engineer for the City of Huntsville, Alabama.

_____	_____
Date	Traffic Engineer City of Huntsville, Alabama

(3) *Layout requirements.* The following documents shall be submitted with the layout application. All maps shall be drawn to a convenient scale of not more than 100 feet to an inch, on maximum sheet size of 24″ × 36″. Each map shall be a separate document unless otherwise specified and shall contain the information as outlined below:

A. *Sketch plat.*

(i) Boundary lines of the subdivision.

(ii) Topography at five-foot contour intervals or less for subdivisions within the city.

(iii) Location of existing and proposed improvements within 200 feet of the boundary of the proposed subdivision.

(iv) Approximate locations and widths of all existing and proposed rights-of-way.

(v) Approximate locations and dimensions of all proposed lots.

(vi) Approximate locations of all parcels of land to be set aside for parks or other use by property owners in the proposed subdivision.

(vii) Name of the proposed subdivision and of any adjoining subdivisions.

(viii) Approximate location of adjoining property lines or subdivision boundaries, and names of adjoining property owners or subdivisions.

(ix) Approximate tie points to an accepted corner based on the U.S. Government Public Lands Survey System which shall show the relationship to the Huntsville Meridian (include reference to deed book and page or applicable plat book and page).

B. *Slope map.* When the slope of the property of the proposed subdivision falls entirely within the 0—10 percent slope category, the slope may be noted on the site assessment map.

(i) To be at the same scale and contain the same information as the sketch plat.

(ii) Delineation of existing slope categories of 0—10 percent, 10—15 percent, 15—25 percent, 25—35 percent, and 35 percent and greater.

(iii) Approximate location of all proposed areas of excavation and fill for proposed roads in excess of ten feet in depth. Road profiles may be required by the traffic engineer or the city engineer when it is determined by the traffic engineer or city engineer that there may be cut and fill in excess of ten feet.

C. *Site assessment map.*

(i) To be at the same size and scale and contain the same information as the sketch plat.

(ii) Approximate location, and indication of size and condition, of all natural hazards and sensitive environmental features found within the boundaries of the study area including but not limited to:

a. Geologic formations

b. Soil classification

c. Colluvium
d. Bluffs
e. Sinkholes
f. Caves
g. Solution features
h. Landslides (inactive and active)
i. Lineaments
j. Springs
k. Seeps
l. Streams (perennial, intermittent and wet weather)
m. Wetlands
n. Ground water recharge points
o. Vegetative communities (including the five most abundant tree or floral species for each community, in order of abundance and the approximate age of each community)
p. Endangered or threatened species habitats as determined by the planning division based on U.S. Fish and Wildlife Service documents.

(iii) Approximate location, and indication of size and condition, of man-made hazards and features found within the boundaries of the study area including but not limited to:

a. Evidence of recent or ancient mining or quarry operations (above ground and under ground)
b. Spoils areas
c. Dump sites
d. Existing fill and excavation
e. Existing drainage retention or detention areas
f. Wells
g. Storage tanks (above ground and underground)
h. Historical and archeological features (as recorded with the Alabama Historical Commission and/or Alabama Museum of Natural History).

D. *Site assessment report.* The site assessment report shall include but not be limited to a written text and illustrations clearly describing:

(i) Names and qualifications of all site assessment investigators.

(ii) Methods used in site assessment.

(iii) Findings for all features noted on the site assessment map or otherwise required for site assessment, including where appropriate, itemized descriptive lists of features identified on map, illustrations and photographs.

(iv) Professional conclusions as to how the findings will impact the proposed improvements.

(v) Recommendations for mitigating all located and described on-site hazards and sensitive environmental features.

(vi) The following certification:

I, _____, the engineer of record do hereby certify that the information shown hereon is complete and correct and in compliance with all applicable regulations of the City of Huntsville, Alabama to the best of my knowledge.

_____l;Date_____
Engineer of Record

E. *Geotechnical investigation and testing plan.* Where construction is proposed on lands or portions of land where colluvium, evidence of mine operations, Pennington, Pride or shaley Upper Bangor formations, dump sites or existing fill and excavation is present as indicated on the site assessment map or when in the professional opinion of the geotechnical engineer of record, geotechnical testing should be per-

formed, a "Geotechnical Investigation and Testing Plan" shall be submitted containing the following:

(i) To be at the same size and scale and contain the same information as the sketch plat.

(ii) Approximate location and description of all applicable subsurface explorations and tests including the location and description of any additional subsurface explorations and tests deemed necessary by the engineer of record (see 4.15 "Standards for Geotechnical Investigations and Tests").

(iii) Approximate location and dimensions of all proposed access routes to be used in performing subsurface explorations (see 4.15 "Standards for Geotechnical Investigations and Tests") including a clear description of all proposed clearing and grading necessary to accommodate said access. In no case shall clearing limits for testing access routes exceed 15 feet in width.

(iv) Location and description of all proposed erosion and sedimentation control measures to be installed prior to and maintained throughout the investigation and testing performance.

(v) Location and description of all proposed measures to be taken to repair all areas disturbed during investigation and testing performance.

(vi) The following certification:

I, _____, the engineer of record, do hereby certify that the information shown hereon is complete and correct and in compliance with all applicable regulations of the City of Huntsville, Alabama to the best of my knowledge.

_____ _____

Date Traffic Engineer
City of Huntsville, Alabama

(4) *Study of layout.* The subdivision committee shall consider the layout and render a report to the next regular meeting of the planning commission concerning the layout.

(5) *Public hearing.* The planning commission may hold a public hearing on the layout. However, without regard to a public hearing at layout, a public hearing as required for plats under Alabama Law shall be held prior to the planning commission granting preliminary approval.

(6) *Review and approval of layout.* The planning commission shall study the layout, public comments, and the report of the subdivision committee, taking into consideration the requirements of the subdivision regulations. After reviewing and discussing the layout, public comments, and report of the subdivision committee and other reports, as submitted by invited agencies and officials, the planning commission will advise the applicant of the specific changes and additions, if any, it will require. The planning commission may require additional changes as a result of further study of the subdivision in preliminary or final form.

(7) *Effective period of geotechnical investigation and testing approval.* Approval of the layout requirements by the planning commission shall authorize the developer to perform the required geotechnical investigations and tests as proposed in an approved geotechnical investigation and testing plan. The authorization to perform said investigations and tests shall be effective for a period of one year. For any required geotechnical investigations and/or tests not completed within the period of time set forth herein, the developer shall be required to resubmit the "Geotechnical Investigation and Testing Plan" for reapproval subject to all new zoning restrictions and subdivision regulations.

(8) *Note:* It shall be the responsibility of the engineer of record on all subdivisions within the slope development district as defined by the City of Huntsville Zoning Ordinance, to contact repre-

sentatives of the serving utility companies for electricity, water, natural gas, cable television, and telephone for design and layout of required common trenching prior to preliminary plat submittal. Also if sanitary sewer is to be located within the common trench, the engineer of record should contact the city engineer for design and layout requirements for common trenching prior to preliminary plat submittal.

3.3. Preliminary plat.

(1) *Application procedure.* Based upon the planning commission's approval of the layout, the owner or his representative shall file an application for approval of a preliminary plat. Where required, the application for approval of a preliminary plat shall:

A. Be made on forms available at the office of the manager of planning.

B. Include payment of an application fee of $100.00 plus $5.00 per proposed lot.

C. Be accompanied by a minimum of three copies of the preliminary plat as described in these regulations and complying in all respects with these regulations.

D. Be accompanied by one set of all certified construction plans to include the preliminary plat as described in these regulations and complying in all respects with these regulations.

E. Be accompanied by a minimum of three copies of the geotechnical investigation and testing report as described in these regulations and complying in all respects with these regulations.

F. Be presented to the manager of planning sufficiently in advance of the meeting of the subdivision committee of the planning commission to allow time for his review.

G. Be accompanied by digital submittal of the preliminary plat and construction plans to Geographic Information and Mapping Services (G.I.M.S.), in compliance with all preliminary plat requirements, along with electronic notification to the following divisions: planning, engineering, Huntsville utilities, and Geographic Information and Mapping Services (G.I.M.S.).

(2) *Public hearing.* The planning commission shall hold a public hearing on the preliminary plat prior to approval of said preliminary plat as required for plats under Alabama Law.

(3) *Preliminary plat requirements.* Unless otherwise specified, all plans and reports submitted as part of the application shall be submitted as separate documents and shall be drawn to a convenient scale of not more than 100 feet to an inch, on sheet size not larger than 24″ × 36″. The preliminary plat shall include the following information:

A. Names and addresses of the owner of the land to be subdivided, the subdivider (if other than the owner), the engineer and surveyor.

B. Geodetic control and references which shall include the following:

(i) Tie points to a minimum of two accepted GPS monuments or one GPS tie point plus an astronomic observation to determine grid north.

(ii) Tie points to an accepted corner based on the U.S. Government Public Lands Survey System which shall show the relationship to the Huntsville Meridian.

(iii) All existing monuments, proposed monuments, corners and points required under article [subsection] 4.4 shall be noted and shown on the plat.

(iv) State plane coordinates on all monuments specified in article [subsection] 4.4(2) based on NAD 1983 [North American Horizontal Datum], and Alabama East Zone as described in the Code of Ala. 1975, § 35-2-1.

(v) North arrows indicating grid north.

C. Exact boundary lines of the tract indicated by a heavy line giving distances to the nearest hundredth of a foot and bearings to the nearest second of arc. Field

data for all monuments shall achieve a ratio of precision (closure) of 1:10,000 or better.

D. Lot lines with distances to the nearest hundredth of a foot, bearings and angles sufficient to reproduce the survey and chords and radii of rounded corners.

E. Street centerlines and geometrics showing angles of deflection or bearing, angles of intersection, curve radii, length of tangents and centerline stationing.

F. Widths of existing and proposed right-of-way, including dimension from centerline of all existing right-of-way to the subdivision boundary and a clear indication of location and width of right-of-way of any street adopted as a part of the major street plan.

G. Location and description of all required sidewalks and off-street pedestrian walkways.

H. The date of the map, scale and title of the subdivision.

I. Name of all the streets.

J. Building setback line, locations and depths.

K. Lot and block numbers. Blocks shall be consecutively numbered or lettered in alphabetical order. Lots within each block shall be consecutively numbered.

L. Easements, buffer strips and public service utility rights-of-way lines giving widths, locations, and purposes.

M. Accurate outlines and descriptions of any areas to be dedicated or reserved for public use or acquisition with the purpose indicated thereon; and of any areas to be reserved by deed covenant for common use of all property owners.

N. Acreage and number of lots within the subdivision.

O. A lot data box as shown below:

LOT DATA		
BLOCK NUMBER	LOT NUMBER	AREA IN SQUARE FEET

P. Floodway and floodway fringe boundaries within the subdivision. If within the 100 year flood plain the lowest allowable finished floor elevation for each lot, based on officially adopted floodway regulations of the City of Huntsville.

Q. Key map where more than one sheet is required to present map.

R. All surveys and plats must be done in accordance with the current "Minimum Technical Standards for Land Surveying in Alabama," as adopted by the Alabama Society of Professional Land Surveyors.

S. Digital Formats-CADD/CAM files shall be submitted in a DGN, DXF, or DWG file format. Electronic notification letters shall consist of a list of files being submitted, a description of the data in each file, a level/layer schematic of each design file, and a statement conveying rights to the City of Huntsville for the data to be used for G.I.M.S. purposes. DGN design files shall have working units as follows: master units in feet, no subunits, and 1,000 positional units. All data submitted shall use NAD 1983 Alabama East Zone coordinates as described in The Code of Ala. 1975, § 35-2-1 and NGVD 1929 [National Geodetic Vertical Datum]. Digital files must display, by text, said state plan coordinates for all points specified in article [subsection] 4.4(2). Digital submission - Digital files shall be submitted to Geographic Information and Mapping Services (G.I.M.S.) by 4¾″ CD ROM, 100 MB zip drive, 3½ inch floppy disk, or to the City of Huntsville F.T.P. site.

(4) *Construction plans.* For all subdivisions proposing improvements requiring construction approval, the following shall be submitted. Each plan and any map required with report shall include the base information listed below:

A. *Base information:*

(i) The date of the map, a reference meridian (designated on the plat either true or magnetic north), scale, title of the subdivision.

(ii) Exact boundary lines of the tract indicated by a heavy line, or other acceptable control traverse, giving distances to the nearest hundredth of a foot and bearings to the nearest second of arc.

(iii) Lot lines without distances to the nearest hundredth of a foot, bearings and angles and chords and radii of rounded corners.

(iv) Lot and block numbers.

(v) Building setback line, locations and depths.

(vi) Street centerlines and rights-of-way including centerline stationing.

(vii) Easements, buffer strips and public service utility rights-of-way lines giving widths, locations, and purposes.

(viii) Accurate outlines and descriptions of any other areas to be dedicated or reserved for public use or acquisition with the purpose indicated thereon; and of any areas to be reserved by deed covenant for common use of all property owners.

B. *Geotechnical investigation and testing report.* Where construction is proposed on lands or portions of land where colluvium, evidence of mine operations, Pennington, Pride or shaley Upper Bangor formations, dump sites or existing fill and excavation is present as indicated on the site assessment map or when in the professional opinion of the geotechnical engineer of record, geotechnical testing should be performed, a "Geotechnical Investigation and Testing Report" shall be submitted containing the following:

(i) Names and qualifications of all investigators involved with the geotechnical investigation.

(ii) Methods used in the performance of all site investigations and tests as described in the geotechnical investigation and testing plan.

(iii) Findings of all performed site investigations and tests keyed to a map to be at the same size and scale as the preliminary plat including clear indication of all hazard zone lands as defined by the Zoning Ordinance of the City of Huntsville, Alabama.

(iv) Conclusions as to how the findings will impact the proposed improvements.

(v) Recommendations for mitigating all located and described on-site hazards and sensitive environmental features.

(vi) The following certifications:

I, _____, the engineer of record, do hereby certify that the information shown hereon is complete and correct and in compliance with all applicable regulations of the City of Huntsville, Alabama, to the best of my knowledge.

_____	_____
Date	Engineer of Record

Due to the documented evidence of potential geologic/man-made hazards existing on or near the lots shown hereon, I, _____, the geotechnical engineer of record, having caused investigations and tests to be performed and based on the findings of said investigations and tests do hereby certify that all lots shown hereon exhibit no apparent geologic or geotechnical constraints

which would render said lots unfit for development.

Date	Geotechnical Engineer of Record

For development where construction is proposed on lands or portions of lands which are designated as hazard zone as defined by the Zoning Ordinance of the City of Huntsville, Alabama, the following certifications:

ENGINEER OF RECORD

I, _____, the engineer of record, certify that the proposed development shown hereon is designed in accordance with sound engineering standards and practices, and in accordance with all applicable development regulations. I further certify that I have caused prudent investigation, testing and inspections to be performed on all lands within the proposed development identified as hazard zone, as defined by the Zoning Ordinance of the City of Huntsville, Alabama, including geotechnical analysis and testing on all hazard zone lands and on lands upslope and downslope of the proposed development, and I have instructed the land surveyor as to those areas within the proposed development that fall within the hazard zone for inclusion in the development plats. Based upon the investigation, testing and inspections performed, as defined and discussed in the geotechnical analysis and report dated _____ and submitted in connection herewith, and further based upon any remedial measures taken in connection with the hazards defined therein, I certify that, within acceptable geotechnical standards, development of the property as shown on the plat will not diminish the stability of the slope or otherwise increase the likelihood of landslide or other slope failure and that the buildable areas designated hereon can meet a minimum safety factor of 1.5 for stability.

Date	Engineer of Record

OWNER

I, _____, owner/owners of the lands embraced hereon, hereby certify that I have caused investigation in accordance with sound engineering standards and practice to be made of hazard zone lands, as defined by the Zoning Ordinance of the City of Huntsville, Alabama, within the development as shown hereon. I further understand the potential and inherent danger of said lands and that landslides have originated in conditions that regularly exist on said hazard zone lands.

With this knowledge, I hereby certify that I have caused all prudent measures to be taken in the design of the development as shown hereon, including an analysis of all lands upslope and downslope of the hazard zone lands, to assure that the site is safe for the proposed development, and within acceptable geotechnical standards the proposed development will not diminish the stability of the slope or otherwise increase the likelihood of landslide or other slope failure.

Date	Owner

C. *Vegetation plan.* When a buffer planting and/or screen planting is required, the following information shall be submitted:

(i) Location and description of all proposed plants.

(ii) Plant schedule indicating botanical name, common name, quantity, size and condition of all proposed plants.

(iii) Typical planting details including typical plan and cross section.

D. *Grading and erosion and sedimentation control plan.* The grading and erosion and sedimentation control plan shall be in compliance with the "City of Huntsville Stormwater Management Manual" and all other applicable regulations of the City of Huntsville and shall include:

(i) All information shown shall be drawn at same sheet size and scale as the preliminary plat.

(ii) All existing and proposed improvements within 200 feet of the proposed subdivision, including but not limited to streets, drainage structures, ditches, manholes, utility lines, etc.

(iii) All existing contours indicated by broken (dashed) lines and all proposed contours indicated by solid lines at a minimum interval of two feet except where slopes exceed 15 percent in which case a minimum interval of five feet shall be shown.

(iv) The elevation of all known high water marks or flood lines as well as the elevation of all proposed structures, including finished floor elevations of all buildings.

(v) Bench mark, including elevation, relative to national geodetic vertical datum.

(vi) The slope of all proposed excavation and fill embankments.

(vii) Approximate location, description and details of all proposed retaining structures for excavation and fill slopes in excess of two feet horizontal to one foot vertical.

(viii) Location, description and details of all temporary and permanent erosion and sedimentation control measures to be utilized including, but not limited to, silt fences, silt dikes, hay bale dikes, construction entrances, siltation ponds, permanent ground cover types and application rates.

(ix) Implementation schedule of all erosion and sedimentation control measures for construction of temporary and permanent control measures and final stabilization.

(x) The following certifications:

I, _____, the engineer of record, do hereby certify that the information shown hereon is complete and correct and in compliance with all applicable regulations of the City of Huntsville, Alabama, and that proposed grading as shown hereon complies with good engineering practice and further do certify that all erosion and sedimentation control measures as indicated hereon are designed to minimize the effects of erosion and sedimentation on site.

_____	_____
Date	Engineer of Record

I, _____, City Engineer for the City of Huntsville, Alabama, approve of the design and the construction plans for grading and erosion and sedimentation control as shown in these plans.

_____	_____
Date	City Engineer City of Huntsville, Alabama

E. *The street plan.* The street plan shall be in compliance with the "City of Huntsville Stormwater Management Manual" and all other applicable regulations of the City of Huntsville. The street plan shall be comprised of plan views and profiles of all proposed streets, cross sections of all proposed streets, and a typical cross section detail.

(i) The plan view and profile map(s) shall be drawn at a horizontal scale

not to exceed 50 feet to the inch and a vertical scale not to exceed ten feet to the inch and shall include:

a. Location of existing or proposed streets adjacent to the subdivision, including all curb cuts, driveways, or intersections along both sides of boundary streets adjacent to the subdivision.

b. Widths of existing and proposed rights-of-way.

c. Street names to be approved by the planning commission.

d. Locations and specifications of all required traffic control devices and street name signs.

e. Topography at two-foot intervals unless a closer contour interval is required by the city engineer. In cases where slopes exceed 15 percent, a minimum contour interval of five feet may be shown.

f. Location and description of all required sidewalks and off-street pedestrian walkways.

g. Horizontal curve data from the centerline of each street: delta, angle, tangent and radius.

h. Vertical curve data including grades, elevations, point of vertical curvature, point of vertical intersection and tangents.

i. A table relative to sight distance affixed to the construction drawings following the format below:

Location	Direction	Sight Distance
Controlling Element	Design Speed	AASHTO Guidelines

j. Certificates executed as shown below:

"STREET SYSTEM"

To be certified by the engineer of record that the sight distance at any new street intersection meets the minimum AASHTO standards.

I, (Engineer of Record), Registered Engineer, certify that the intersection sight distance of any roadway constructed in conjunction with this subdivision meets or exceeds specifications as set forth in the prevailing AASHTO Standards to the best of my knowledge and belief.

_____ _____

Date Engineer of Record Registration Number

I, _____, the engineer of record, certify that the street system shown on this drawing meets the construction standards of the City of Huntsville and conforms to the design standards of the Huntsville Subdivision Regulations and applicable AASHTO geometric design policy. It is certified that the information shown hereon is true and correct to the best of my knowledge.

_____ _____

Date Engineer of Record Registration Number

I, _____, the City Engineer for the City of Huntsville, Alabama, approve of the design and the construction plans of the street system as shown in these plans.

_____ _____

Date City Engineer City of Huntsville, Alabama

I, _____, the Traffic Engineer for the City of Huntsville, Alabama, concur in the geometric design of the street system and the use of the street name(s) as shown in this drawing.

_____	_____
Date	Traffic Engineer City of Huntsville, Alabama

(ii) The cross sections of all streets shall be shown at a minimum interval of 50 feet. The horizontal scale shall not exceed ten feet to the inch and the vertical scale shall not exceed ten feet to the inch.

(iii) Typical cross section details of all proposed streets shall be shown (may be shown on detail sheet).

F. *The stormwater drainage and sanitary sewer plan.* The drainage and sanitary sewer plan shall be in compliance with the "City of Huntsville Stormwater Management Manual" and all other applicable regulations of the City of Huntsville and shall be accompanied by drainage area contour maps of not more than 400 feet to an inch showing the entire tributary area and separate drainage areas for each proposed drainage facility as well as a signed and sealed copy of all engineering calculations and notes used in the design of the storm drainage system. Drainage concentrations shall be indicated on the drainage area contour maps. The detailed storm drainage and sanitary sewer plan shall be prepared from an actual engineering survey and be drawn to a scale of not more than 50 feet to an inch. The detailed storm drainage and sanitary sewer plan shall show:

(i) All existing improvements within and bordering the proposed subdivision, including flood hazard districts, the location and size of all existing and proposed sanitary sewers in the subdivision, clear indication of sanitary sewer tie points of the subdivision and station location of all sewer laterals.

(ii) The proposed street plan and associated drainage system.

(iii) Designation of each drainage area and design flow for each storm drainage pipe or drainage facility.

(iv) Typical cross sections of each drainage way.

(v) Lengths of pipes of drainage facilities, slopes, facility sizes, materials, locations of inlets, manholes, junction boxes, and all information relative to the comprehensive drainage system including as much as is practical of the offsite drainage systems affected by the proposed subdivision.

(vi) Where fill is to be placed within flood fringe areas, a grading plan showing final elevations.

(vii) Profiles of the storm drainage and sanitary sewerage system drawn on cross-section or plan/profile paper at a scale not greater than 1″ = 50′ horizontal and 1″ = 10′ vertical showing slopes, facility sizes, materials, sanitary sewer crossings, and all other information pertinent to the storm drainage system and sanitary sewer system (may be included with street profiles on street plan/profile map).

(viii) Type, size and slope of sanitary sewer and storm drainage pipe, bedding details, direction of flow of each sewer and storm drainage line, and specifications for excavation, backfill, compaction and testing.

(ix) Location of each manhole and other sewerage system appurtenances including lift stations, oxidation ponds, treatment plants, etc.

(x) Engineering details of drainage structures and each sanitary sewer manhole and other sewerage system appurtenances including lift stations,

oxidation ponds, treatment plants, etc. (may be placed on detail sheets).

(xi) Proposed on-site sanitary sewer treatment facilities, whether privately owned or publicly dedicated, must meet all the design and performance standards as established for such facilities by the City Engineer of the City of Huntsville, Alabama.

(xii) Certificates executed as shown below:

"STORM DRAINAGE AND SANITARY SEWER SYSTEM"

I, _____, the engineer of record, certify that the storm drainage and sanitary sewerage systems shown on this drawing is designed in accordance with the specifications of the City Engineer of the City of Huntsville, Alabama, and the Huntsville subdivision regulations. It is certified that the information shown hereon is true and correct to the best of my knowledge. It is further certified that adequate storm drainage easements are provided, where necessary.

_____	_____
Date	(Engineer of Record) Registration Number

I, _____, the City Engineer for the City of Huntsville, Alabama, approve of the design and the construction plans of the storm drainage and sanitary sewerage systems as shown in these plans.

_____	_____
Date	City Engineer City of Huntsville, Alabama

"FLOOD HAZARD CERTIFICATE"

I, _____, the engineer of record, certify that the subdivision shown hereon lies within flood hazard area as shown on the Federal Insurance Administration's Flood Insurance Rate Maps for

_____	_____
(County/City)	(State)

Firm Panel # _____

Dated _____

Based on the current designation of floodway and flood fringe as established and adopted by the City of Huntsville the minimum finished floor elevation shall be _____.

G. *The septic tank plan* (if applicable). Where no sanitary sewer system is available, a septic tank plan shall be prepared showing:

(i) Location and capacity of all septic tanks proposed within the subdivision.

(ii) Soil type according to county soil survey.

(iii) Depth of soil if less than six feet.

(iv) Location of percolation test holes and results of percolation tests.

(v) Location of tile field and minimum length of tile runs.

(vi) Certificates executed as shown below:

"SEPTIC TANKS"

I, _____, the engineer of record or licensed land surveyor, certify that the percolation tests made above meet Health Department procedures and standards. I further certify that the above information is true and correct to the best of my knowledge.

_____ _____
Date (Engineer of Record) Registration Number

From the septic tank information submitted to the _____ County Health Department for lots _____ of _____ Subdivision, the following recommendations are made:

a) Lots _____ meet _____ County Health Department requirements and should operate satisfactorily;

b) Lots _____ require further engineering and/or alternative septic system installation;

c) Lots were not tested.

Each lot or tract shall be investigated further and approved or disapproved on its own merits.

_____ _____
Date Health Officer

_____
County, Alabama

H. *Utilities, except natural gas.* Each proposed subdivision shall receive a construction certification as described below for each of the following utility services requested:

County Water Authority

Huntsville Utilities Water Department

Huntsville Utilities Electric Department

Local Telephone Company

Local Cable TV Company

For each service requested, the engineer of record will provide the utility with a print and a reproducible copy of the proposed subdivision. The print will show: 1) elevations, 2) sanitary sewer, 3) storm drains, 4) sidewalks, 5) lot lines and measurements, 6) rights-of-way (with street names shown), 7) easements, 8) curbs and gutters, 9) lot and block numbers and 10) location of common trenches as required for subdivisions located within the slope development district as defined by the City of Huntsville Zoning Ordinance. The reproducible copy will show: 1) lot lines and measurements, 2) rights-of-way (with street names shown), 3) easements, and 4) lot and block numbers. For subdivisions requiring a geotechnical test, Huntsville Utilities will be provided with a copy of the Geotechnical Investigation and Testing Plan. Each utility from which service is requested shall provide the following certification on a copy of the preliminary plat or a set of related construction plans:

"(Name of Utility) SERVICE"

The _____ has reviewed the required submission material for the proposed subdivision in sufficient detail to determine that service can be made available. When improvements are completed, "as built" construction plans will be submitted to (the Huntsville Engineering Department).

_____ _____
Date Name and Title
Name of Utility

Additionally, for subdivisions in the slope development district as defined by the City of Huntsville Zoning Ordinance, each utility from which service is requested shall provide the following certificate on a copy of the preliminary plat or a set of related construction plans: The (utility service) approves of the location or the common trenches and the design and construction plans of the common trenches as shown in these plans.

_____ _____
Date Name and Title
Name of Utility

I. *Natural gas.* For proposed subdivisions not requesting natural gas service, the engineer of record will provide the natural gas department with prints and documents described in [subsection] 3.3(4)(H).

After review of the prints, the natural gas department shall provide the following statement on a copy of the preliminary plat or a related set of construction plans:

"NATURAL GAS SERVICE"

The Natural Gas Department of Huntsville has reviewed the required submission material for the proposed subdivision in sufficient detail to determine that service (can or cannot) be made available. The applicant, at the present time, does not request natural gas service for this subdivision. The Natural Gas Department reserves the right to consider gas service for this subdivision in the future.

_____ _____
Date Manager

J. *Wells.* For subdivisions not served by city or county water systems but where wells are proposed, a certificate as shown below shall be attached to a copy of the plat or a related set of construction plans showing the well locations.

"WELLS"

The location of wells as shown on this plat meets the requirements of the _____ County Health Department.

_____ _____
Date Health Officer

_____
County, Alabama

(5) *Recertification of changed plans.* Any changes in the construction plans, other than changes in the field approved by the city engineer, will require certification as for original approval.

(6) *Study of preliminary plat.* The subdivision committee shall consider the preliminary plat and construction plans and render a report to the next meeting of the planning commission concerning the preliminary plat.

(7) *Preliminary plat approval.* After the planning commission has reviewed the preliminary plat and construction plans, the report of the subdivision committee, public comments, and recommendations of involved agencies and officials, it shall approve or disapprove the preliminary plat.

(8) *Effective period of preliminary approval.* The approval of a preliminary plat shall be effective for a period of one year at the end of which time final approval on the subdivision must have been obtained from the planning commission, although the plat need not yet be signed and filed with the county judge of probate. Any plat not receiving final approval within the period of time set forth herein shall be null and void, and the developer shall be required to resubmit a new plat for preliminary approval subject to all new zoning restrictions and subdivision regulations.

3.4. Final plat.

(1) *Application procedure.* Following the approval of the preliminary plat, the owner of land or his representative shall file an application for approval of a final plat.

The application shall:

A. Be made on forms available at the office of the manager of planning.

B. Be accompanied by a minimum of three copies of the final plat as described in these regulations and complying in all respects with these regulations.

C. Be accompanied by the actual closure computations for the boundary traverse. Such boundary traverse shall close to a minimum accuracy of one part in 5,000.

D. Be presented to the manager of planning sufficiently in advance of the meeting of the planning commission to allow time for his review.

E. Be accompanied by a performance bond, if required, in a form satisfactory to the city attorney and in an amount established by the city engineer based upon cost estimates of the engineer of record.

F. Be accompanied by a digital submittal as described in [subsection] article 3.3(3)S., in compliance with all final plat requirements to the Geographic Information and Mapping Services (G.I.M.S.) department,

with electronic notification to the planning division, engineering division and Huntsville Utilities.

(2) *Final plat requirements.* The final subdivision plat shall be presented in india ink on tracing cloth or reproducible mylar. The final plat shall contain the same information shown on the preliminary plat, as well as the following:

A. The names and deed book and page of all adjoining property owners of record, or the names of adjoining developments; the names of adjoining streets.

B. Notation of any proposed streets and rights-of-way adjacent to the subdivision.

C. Notation of any restrictions by plats.

(i) Restricted use areas shall be shown giving dimensions and locations, and shall be labeled "Restricted Use Area".

(ii) A geotechnical investigation and testing report has been prepared for (name of development) as shown hereon and is recorded with the Office of the Probate Judge in Deed Book _____ page _____.

Due to the documented evidence of natural or man-made hazards and/or sensitive environmental features existing on or near lots _____, all required construction plans submitted for a building permit on any of the said lots shall be certified to by a geotechnical engineer as being adequate to meet the minimum required standards and practices for stability and bearing capacity as established by the regulations of the City of Huntsville, Alabama.

Prior to issuance of a certificate of occupancy on lots _____, all site construction and building construction shall be certified to by a geotechnical engineer as having been completed in compliance with the required standards and practices for stability and bearing capacity as established by the regulations of the City of Huntsville, Alabama, and as set forth in the aforementioned certified construction plans.

(iii) All hazard zone lands as defined by the Zoning Ordinance of the City of Huntsville, Alabama, shall be shown giving locations and dimension, and shall be labeled hazard zone.

D. Subdivisions shall have the lot size for each lot on the final plat.

E. All existing monuments and all monuments to be installed are to include the material of which the monuments, corners or other points are made and shall be noted at the representation thereof or by legend.

F. Endorsements and certificates as follows:

(i) A certificate of accuracy by a surveyor licensed to practice in the State of Alabama and licensed with the City of Huntsville, Alabama.

STATE OF ALABAMA

_____ COUNTY

I, (owner's land surveyor), do hereby certify that I am a licensed land surveyor and licensed in Huntsville, Alabama, and that I have surveyed the lands embraced in the within plat or map designated as (subdivision name) all lying within _____ County, Alabama. It is further certified that said plat or map is a true plat or map of lands embraced therein, giving the length and bearings of the boundaries of each block and lot and block number; showing the streets, alleys and public grounds; giving the bearings, length, width and name of each street; showing the relation of the lands to the government survey; (or, in the case of a resubdivision, "showing the relation of the land to the survey of _____ as recorded in the Probate Office of _____ County in Plat Book _____, Page

_____"); and that monuments shown hereon shall be installed at all lot corners and curve points prior to final inspection by the city engineer of the City of Huntsville, Alabama.

(ii) A certificate of title showing ownership of land.* I, (land owner) the owner of the lands embraced in said plat, hereby join in this certificate as required by law for the purpose of giving full force and effect to the platting of said lands embraced in said plat as contemplated and required by law. In witness whereof, said (owner's land surveyor), surveyor, and (land owner), owner, have caused these presents to be duly executed and hereunto set our hand and affix our seals this the _____ day of _____, 20_____.

*A written "Title Opinion" certified to by a licensed attorney that all names shown on the plat include all owners as of the date of signing and that the owners of the property are one and the same as those signing the plat.

(iii) A notary's acknowledgment of the certificates referred to in (i) and (ii) above.

STATE OF ALABAMA

_____ COUNTY

I, (name of notary public), a notary public in and for said county of said state, hereby certify that (owner's land surveyor) whose name is signed to the foregoing certificate and who is known to me, acknowledged before me on this day, that being informed of the contents of said certificate he has executed the same voluntarily on the day the same bears date.

(For Non-Corporate Ownership)

And I further certify that (land owner/owners, whose name/names are signed to the foregoing certificate who are known to me, acknowledged before me on this day that being informed of the contents of the foregoing certificate, they, as such land owners executed the same voluntarily.

In witness whereof, I hereunto set my hand and seal, this the _____ day of _____, 20_____.

(For Corporate Ownership)

And I further certify that (land owner), (title), (corporation) and (land owner), (title), (corporation) whose name(s) are signed to the foregoing certificate who are known to me, acknowledged before me on this day that being informed of the contents of the foregoing certificate, they, as such officers and with full authority executed the same voluntarily for and as the act of said corporation. In witness whereof, I hereunto set my hand and seal, this the _____ day of _____, 20_____.

_____
Notary Public

(iv) A certificate by the geotechnical engineer of record, for subdivisions requiring geotechnical investigation and testing:

Due to the documented evidence of potential geologic hazards existing on or near the lots shown hereon, I, _____, the geotechnical engineer of record having caused investigations and tests to be performed and based on the findings of said investigations and tests do hereby certify that all lots shown hereon exhibit no apparent geologic or geotechnical constraints which would render said lots unfit for development.

_____	_____
Date	Geotechnical Engineer of Record

(v) For developments where construction is proposed on lands or portions of lands which are designated as hazard zone as defined by the Zoning Ordinance of the City of Huntsville, Alabama, the following certifications:

ENGINEER OF RECORD

I, _____, the engineer of record, certify that the proposed development shown hereon is designed in accordance with sound engineering standards and practices, and in accordance with all applicable development regulations. I further certify that I have caused prudent investigation testing and inspections to be performed on all lands within the proposed development identified as hazard zone, as defined by the Zoning Ordinance of the City of Huntsville, Alabama, including geotechnical analysis and testing on all hazard zone lands and on lands upslope and downslope of the proposed development, and I have instructed the land surveyor as to those areas within the proposed development that fall within the hazard zone for inclusion in the development plats. Based upon the investigation, testing and inspections performed, as defined and discussed in the geotechnical analysis and report dated _____ and submitted in connection herewith, and further based upon any remedial measures taken in connection with the hazards defined therein, I certify that, within acceptable geotechnical standards, development of the property as shown on the plat will not diminish the stability of the slope or otherwise increase the likelihood of landslide or other slope failure and that the buildable areas designated hereon can meet a minimum safety factor of 1.5 for stability.

_____ _____

Date Engineer of Record

OWNER

I, _____, owner/owners of the lands embraced hereon, hereby certify that I have caused investigation in accordance with sound engineering standards and practice to be made of Hazard Zone lands, as defined by the Zoning Ordinance of the City of Huntsville, Alabama, within the development as shown hereon. I further understand the potential and inherent danger of said lands and that landslides have originated in conditions that regularly exist on said Hazard Zone lands. With this knowledge, I hereby certify that I have caused all prudent measures to be taken in the design of the development as shown hereon, including an analysis of all lands upslope and downslope of the Hazard Zone lands, to assure that the site is safe for the proposed development, and within acceptable geotechnical standards the proposed development will not diminish the stability of the slope or otherwise increase the likelihood of landslide or other slope failure.

_____ _____

Date Owner

(vi) A certificate for approval of City Engineer, City of Huntsville.

The undersigned, as City Engineer of the City of Huntsville, Alabama, hereby approved the within plat for the recording of same in the Probate Office of _____ County, Alabama, this the _____ day of _____, 20_____.

_____
City Engineer
City of Huntsville, Alabama

(vii) A certificate for approval of Huntsville Utilities. The undersigned, a duly authorized representative of Huntsville Utilities of the City of Huntsville, Alabama, hereby approves the within plat for the recording of same in the Probate Office of _____ County, Alabama, this the _____ day of _____, 20_____.

_____
Name and Title

(viii) A certificate for approval by the county health department for subdivisions not served by a sanitary sewer system.

From the septic tank information submitted to the _____ County Health Department for lots _____ of _____ Subdivision, the following recommendations are made:

a) Lots _____ meet _____ County Health Department requirements and should operate satisfactorily;

b) Lots _____ require further engineering and/or alternative septic system installation;

c) Lots _____ were not tested.

Each lot or tract shall be investigated further and approved or disapproved on its own merits.

The undersigned, a duly authorized representative of the _____ County Health Department, hereby approves the within plat for the recording of same in the Probate Office of _____ County, Alabama, this the _____ day of _____, 20____.

_____
Name and Title

(ix) A certificate for approval by the planning commission.

The within plat of (name of subdivision), _____ County, Alabama, is hereby approved by the Planning Commission for the City of Huntsville, Alabama, for recording of same in the Probate Office of _____ County, Alabama, this the _____ day of _____, 20_____. The recording must be accomplished by the day of _____, 20_____.

If the plat is not recorded by this date, the approval of the plat by the planning commission shall be deemed to have expired.

Planning Commission for the City of Huntsville, Alabama

By _____

Title _____

(x) A certificate for recording by the probate judge.

STATE OF ALABAMA

COUNTY PROBATE JUDGE

I, _____, Judge of Probate of the county and state aforesaid, certify that the within and foregoing instrument of writing was filed for record in this office on the _____ day of _____, 20 _____ at _____ o'clock and duly recorded in Plat Book _____, Page _____.

_____
Judge of Probate

(xi) A flood hazard certification as shown on the preliminary plat.

(xii) A certificate indicating that either all required improvements have been installed or that sufficient bond exists to cover the cost of improvements.

OPTION 1 - IMPROVEMENTS INSTALLED

I hereby certify that I have inspected the water system improvements for the subdivision shown hereon and that the installation is in accordance with the approved construction plans and plat for this subdivision and meets the construction specifications of the Water Department.

_____
Manager or Authorized Representative City of Huntsville Water Department, County Water System, or Local County Water System

I hereby certify that I have inspected the following improvements for the subdivision shown hereon: streets, sidewalks, storm drainage, sanitary sewer, traffic control devices, street markers, monuments. I find that these improvements have been installed in accordance with the approved construction plans and plat for this subdivision and meet the construction specifications of the City of Huntsville, Alabama.

_____
Engineer of Record

I hereby concur with and approve of the engineer's certification above.

_____
City Engineer
City of Huntsville, Alabama

OPTION 2 - POST BOND FOR IMPROVEMENTS

I recommend bond for assurance of installation of streets, storm drainage, sanitary sewers, sidewalks, traffic control devices and monuments as required in the approved construction plans and plat for the subdivision shown hereon shall be in the amount of $ _____.

_____
City Engineer
City of Huntsville, Alabama

I recommend bond for assurance of installation of water improvements as required in the approved construction plans and plat for the subdivision shown hereon shall be in the amount of $ _____.

_____
Manager or Authorized Representative City of Huntsville Water Department, County Water System, or Local County Water System

I hereby approve bond for assurance of improvements described above as required by the Huntsville Subdivision Regulations for the subdivision shown hereon in the amount of $ _____.

_____
City Attorney

I hereby received and placed on file with the City of Huntsville bond as initialed by the City Attorney in the amount of $ _____ for the subdivision shown hereon.

_____
City Clerk-Treasurer

(xiii) For planned developments and private subdivisions, additional certificates as necessary to insure adequate access for public protection and utilities as well as conformance to applicable plans and ordinance requirements.

(3) *Planning commission review and approval.* After review of final subdivision plat, the planning commission shall approve the plat for recording or shall disapprove the plat and state the reasons for disapproval. At the time of final plat approval, the planning commission may stipulate the time period when the required improvements shall be installed, but in no event shall the period of time for completion of required improvements exceed two years from the date of final approval.

(4) *Copy of final plat to all certifying agencies.* Following the planning commission approval of the final plat, one reproducible copy of the final plat as approved shall be presented by the owner or his representative to the Vice President of Operations of Huntsville Utilities. Any other agencies certifying the final plat shall be presented a print of the final plat as approved.

(5) *Recording of plat.* If the final plat as approved by the planning commission is not recorded within six months of the date of final approval, the approval of the plat shall be deemed to have expired.

ARTICLE 4. REQUIREMENTS FOR IMPROVEMENTS AND DESIGN

4.1. General requirements.

(1) *Conformance to applicable plans, rules and regulations.* In addition to the requirements established herein, all subdivision plats shall comply with the following plans, rules and regulations:

A. All applicable statutory provisions.

B. All elements of the Master Plan for the City of Huntsville, including all streets, drainage systems, and parks shown on the master plan, or individual elements thereof, as adopted.

C. The city zoning ordinance and building and housing codes, if applicable.

D. The requirements of the county and state health departments.

E. The rules of the Alabama Highway Department if the subdivision abuts a state highway.

F. The design and construction standards adopted by the City Engineer for the City of Huntsville, Alabama.

G. The geometric standards adopted by the City of Huntsville, Alabama.

H. All elements of the Huntsville Area Transportation Study adopted by the Metropolitan Planning Organization (MPO), if applicable.

(2) *Subdivision and street names.* The proposed names of subdivisions and streets shall not duplicate, or too closely approximate phonetically, the name of any street or subdivision covered by these regulations. The planning commission shall have final authority to designate street and subdivision names where conflicts exist with other established streets and subdivisions.

4.2. Blocks.

(1) The lengths, widths and shapes of blocks shall be determined with due regard to:

A. Provisions of adequate building sites suitable to the special needs of the type of use contemplated;

B. Zoning ordinance and/or health department requirements as to lot sizes and dimensions;

C. Needs for convenient access, circulation, control and safety of street traffic; and

D. Limitations and opportunities of topography.

(2) Blocks shall have sufficient width to provide for two tiers of lots of appropriate depths. Exceptions to this prescribed block width may be permitted in blocks adjacent to major streets, railroads, waterways, or in order to overcome specific disadvantages of topography and orientation.

(3) Block lengths in residential areas shall not exceed 2,200 feet. Wherever practicable, blocks along all arterial and major collector streets shall not be less than 1,000 feet in length.

(4) Pedestrian walkways not less than five feet wide, all of which shall be constructed with concrete, shall be required across blocks where deemed

essential to provide circulation or access to schools, playgrounds, shopping centers, transportation, and other community facilities. Such walkways, along with sufficient right-of-way for maintenance purposes, shall be dedicated to the city for public use.

4.3. Lots.

(1) The lot size, width, depth, shape and orientation, and minimum building lines shall be appropriate for the location of the subdivision and for the type of development and use contemplated.

(2) Lot dimensions shall conform to the requirements of the zoning ordinance and the requirements of the health department. In such cases where requirements may conflict, the larger requirements shall govern. In cases where no zoning requirements apply, all lots shall have no less than 25 feet of street frontage and no less than 50 feet of lot width at the required minimum building line.

(3) Depth and width of properties reserved or laid out for commercial and industrial purposes shall be adequate to provide for off-street parking and loading facilities required for the use contemplated.

(4) Corner lots for residential use shall have extra width to permit appropriate building setback from and orientation to both streets.

(5) Each lot shall be provided with adequate access to a public street. Lots shall not, in general, derive access exclusively from any street designated as an arterial or major collector street on the major street plan. Additionally, if access must be obtained from an arterial or major collector street, single family residential driveways shall be designed and arranged to avoid requiring vehicles to back into traffic. Multiple family residential driveways and drives serving all nonresidential land uses shall be designed and arranged to avoid requiring vehicles to back into traffic on all streets.

(6) Double frontage and reverse frontage lots shall be avoided except where essential to provide separation of residential development from arterials and major collectors or so as to overcome specific disadvantages of topography and orientation. The subdivider shall provide a minimum 15-foot wide nonaccess reservation with screening berms and screen plantings to include trees, shrubs and ground covers along the line of lots abutting such traffic collectors and arterials or other disadvantageous feature.

(7) In general, side lot lines shall be at right angles to street lines (or radial to curving street lines) unless a variation from this rule will give a better street or lot plan, as determined by the planning commission, and in no case shall a side lot line have more than one directional bearing, except for physical features requiring more than one directional bearing.

4.4. Monuments.

The applicant shall place permanent reference monuments in the subdivision as required herein and as approved by a registered land surveyor.

(1) Monuments shall be located on street right-of-way lines, at street intersections, angle points of curve and block corners. They shall be spaced so as to be within sight of each other, the sight lines being contained wholly within the street limits.

(2) The external boundaries of a subdivision shall be monumented in the field by monuments of concrete, not less than 30 inches in length, not less than four inches square or four inches in diameter, and marked on top with a cross, brass plug, iron rod, or other durable material securely embedded. In the event the surveyor finds an existing corner it will be at the surveyor's option whether it should or should not be replaced with a concrete monument; also, in the event that conditions exist that make concrete monuments impractical to install (such as solid rock), or impractical to witness, a survey marker with a chiseled cross, chiseled X, or chiseled point shall be securely embedded. These monuments shall be placed not more than 1,400 feet apart in any straight line and at all corners, at each end of all curves, at the point where a curve changes its radius, at all angle points in any line, and at all

angle points along the meander line, said points to be not less than 20 feet back from the bank of any river, stream, or major drainageway; except that when such corners or points fall within a street, or proposed future street, the monuments shall be placed in the side line of the street. Location of such monuments shall be shown on the final plat.

(3) A minimum of two concrete monuments as described in the preceding paragraph shall be placed in each separate block of the subdivision to be placed at lot corners within sight of each other for the purpose of horizontal control within the interior of the subdivision. Concrete monuments placed on the boundary of the subdivision falling within the limits of a block will serve to satisfy the above requirement.

(4) All internal boundaries and those corners and points not referred to in the preceding paragraph shall be monumented in the field by iron pipes and rods at least 18 inches long and one-half inch in diameter. These monuments shall be placed at all block corners and at each end of all angle points in any line.

(5) The lines of lots that extend to rivers, streams or major drainageways shall be monumented in the field by iron pipes at least 18 inches long and one-half inch in diameter or by round iron bars at least 18 inches long. These intersections shall be monumented by a witness corner established not less than 20 feet back from the bank of the river, stream, or major drainageway.

4.5. Roads.

(1) *Grading and improvement plan.* Roads shall be graded and improved and conform to the construction standards of the City of Huntsville and shall be approved as to design standards by the city engineer, in accordance with the construction plans required to be submitted prior to final plat approval. In no case shall cut or fill embankments, except in the case of stable rock cuts, exceed a maximum slope of two feet horizontal to one foot vertical unless retained by a structural wall or other approved retaining method.

(2) *Topography and arrangement.*

A. All streets shall be properly integrated with the existing and proposed system of thoroughfares and dedicated rights-of-way as established by the major street plan.

B. All thoroughfares shall be properly related to special traffic generators such as industries, business districts, schools, churches, and shopping centers; to population densities; and to the pattern of existing and proposed land uses.

C. Local streets shall be laid out to conform as much as possible to the topography, to discourage use by through traffic, to permit efficient drainage and utility systems, and to require the minimum number of streets necessary to provide convenient and safe access to property. A grid system of street layout is discouraged.

D. Subdivisions which abut or have included within the proposed area to be subdivided any major collector or arterial street shall provide:

(i) A marginal access street with a minimum 15 feet wide nonaccess reservation adjacent thereto with screening berms and screen plantings which shall include trees, shrubs and ground covers between the marginal access street and major collector or arterial, or

(ii) Reverse frontage with a minimum 15 feet wide nonaccess reservation with screening berms and screen plantings which shall include trees, shrubs and ground covers along the rear property line, or

(iii) Deep lots with rear service drives, and a minimum 15 feet wide screen planting reservation along the front property line which shall include

screening berms and screen plantings consisting of trees, shrubs and ground covers, or

(iv) Other treatment including screening fences or walls as may be necessary for adequate protection of residential properties and to afford separation of through and local traffic.

E. In business and industrial developments, the streets and other accessways shall be planned in connection with the grouping of buildings, location of rail facilities, and the provision of truck loading and maneuvering areas, and walks and parking areas so as to minimize conflict of movement between the various types of traffic, including pedestrian.

(3) *Reserve strips.* Unusable reserve strips controlling access to streets shall be prohibited. Land shall not be subdivided in a manner which omits part of the original tract to avoid drainage improvements.

(4) *Dead end roads.*

A. The arrangement of streets shall provide for the continuation of streets between adjacent properties when such continuation is necessary for convenient movement of traffic, coordinating the layout of the subdivision with the existing layout or most advantageous future development of adjacent tracts, effective access for emergency services including police, fire and ambulances, efficient provision of utilities, or where such continuation is in accordance with the major street plan. If the adjacent property is undeveloped and the street must be a dead end street temporarily, the street and right-of-way shall be extended to the property line.

B. Where a road does not extend to the boundary of the subdivision and its continuation is not required by the planning commission for access to adjoining property, its terminus shall normally not be nearer to such boundary than 50 feet. However, the planning commission may require the reservation of an appropriate easement to accommodate drainage facilities, pedestrian traffic or utilities. A cul-de-sac turnaround shall be provided at the end of a permanent dead-end street. For greater convenience to traffic and more effective police and fire protection, and emergency medical services, permanent dead-end streets shall, in general, be limited in length in accordance with the design standards of these regulations.

(5) *Design standards.*

A. *General design standards.* In order to provide for roads of suitable location, width, and improvement, to accommodate prospective traffic and afford satisfactory access to police, firefighting, sanitation, and road-maintenance equipment, and to coordinate roads so as to compose a convenient system and avoid undue hardships to adjoining properties, the following design standards for roads are hereby required. Road classification shall be as indicated on the major street plan or as determined by the planning commission.

TABLE 1
MINIMUM RIGHT-OF-WAY WIDTHS FOR MAJOR STREETS (in feet)*

IMPROVEMENT	*RESIDENTIAL*	*NONRESIDENTIAL*
Major Arterial	120	120
Minor Arterial	120	120
Major Collector	80	80
Minor Collector	60	60

*Minimum right-of-way may be reduced when:

1. The road adjacent to the development is classified as a major collector or an arterial, and
2. The road has been constructed to its planned number of lanes, with necessary pedestrian and traffic facilities, and
3. No improvements are scheduled for the road in the long range transportation plan (20-year plan).

In no event shall required right-of-way for an arterial or major collector be reduced to less than 60 feet.

TABLE 2
MINIMUM LANE WIDTHS FOR MAJOR STREETS (in feet)*

IMPROVEMENT	*RESIDENTIAL*	*NONRESIDENTIAL*
Major Arterial	12	12
Minor Arterial	11	12
Major Collector	11	12
Minor Collector	11	12

*Minimum lane width may be reduced to ten feet when in the judgement of the planning commission the road project and adjacent lands are best served by such a reduction without a loss to the road's utility or safety. Consideration shall be given to the following issues, but is not limited to these issues:

1. Existing natural features and terrain in and adjacent to the proposed right-of-way;
2. Existing structures located in and adjacent to the proposed right-of-way;
3. Functional classification of the road;
4. Design speed of the road; and
5. Utilization of the road by truck traffic.

No reduction in lane width may be granted without written justification from the city engineer and/or the traffic engineer stating the necessity of any requested reduction.

TABLE 3
MINIMUM RIGHT-OF-WAY AND PAVEMENT WIDTHS FOR OTHER STREETS (in feet)

IMPROVEMENT	*RIGHT-OF-WAY*	*PAVEMENT WIDTH*
Local	50	26*
Local in Slope Development District***	40	22**
Marginal Access Street	40	22
Rear Service Road	30	20

*The planning commission may require an additional three feet of pavement width upon recommendation by the traffic engineer pertaining to those local streets that either connect with collector or arterial streets, or for local streets which will connect with other (as yet to be developed) property(ies).

**No on-street parking shall be permitted on streets having a pavement width less than 26 feet.

***Cul-de-sacs exceeding 800 feet in length shall have a minimum right-of-way of 50 feet and minimum pavement width of 26 feet.

TABLE 4
MAXIMUM GRADES FOR ROADS (percent)

IMPROVEMENT	*RESIDENTIAL*	*NONRESIDENTIAL*
Major Arterial	5	5
Minor Arterial	5	5
Major Collector	6	6
Minor Collector	12	12
Local	12	12
Marginal Access Street	12	12
Rear Service Road	12	12

Minimum stopping sight distance; minimum curve radius; and minimum sight distance. Those geometrics dealing with vehicular safety shall be developed in accordance with the current edition of AASHTO (American Association of State Highway and Transportation Officials) geometric design policy for streets and highways which will include radius of curvature, length of vertical curve, and all applicable sight distances. Exceptions to AASHTO 25 m.p.h. design criteria requirements may be granted for cul-de-sacs and loop roadways serving 50 dwelling units or fewer (in mountainous terrain).

Minimum length of tangents between reverse curves shall be 100 feet. For collector streets and arterial streets, minimum length of tangents will be increased according to AASHTO geometric design policy.

Maximum length of cul-de-sac. (for residential and nonresidential). Eight hundred feet.

TABLE 5
MINIMUM RADIUS OF CUL-DE-SAC TURN-AROUND (in feet)

LOCAL	*RESIDENTIAL*	*NONRESIDEN-TIAL*
At right-of-way	50	50*
At pavement	37.5	37.5*

*Unless other design dimensions are required by the traffic engineer based on AASHTO geometric design policy.

B. *Parkway design standards.*

(i) In order to be designated as a parkway by the planning commission, a roadway must conform with all applicable regulations of these subdivision regulations except the requirement for curbs and gutters and must meet the following additional requirements:

a. Minimum required right-of-way* (in feet)

	Two lanes	*Four lanes*
Minor Collector	100	180
Major Collector	100	180
Minor Arterial	110	200
Major Arterial	110	200

*Right-of-way for four lanes may be required by the planning commission for parkways with initial two-lane construction if four lanes are to be required in the future based on projected traffic volume at full capacity.

b. Minimum required median width for four-lane parkways.

No less than a 20-foot-wide strip, exclusive of clear zones, shall be planted and maintained as described in (iii) landscaping requirements (below), provided however that all such plantings shall comply with adequate sight distance requirements.

c. Minimum shoulder width (in feet).

Minor Collector	8
Major Collector	8
Minor Arterial	10
Major Arterial	10

d. Access shall be limited to intersections with arterial and collector roadways with a minimum separation of one-quarter mile (1,320 feet) from centerline to centerline.

(ii) Minimum storm drainage requirements including:

a. The side slope requirement on man-made earth lined ditches shall be no greater than four feet horizontal to one-foot vertical.

b. Minimum grade along flow line of any constructed roadside drainage ditch shall be not less than one percent. Drainage ditches that cannot meet this criteria shall be piped or concrete flumed.

c. The engineer of record shall prepare an erosion control plan to indicate how erosion of bare ditches and drainage swales will be prevented. The entire drainage section shall be covered with an acceptable stand of grass and/or erosion control material approved by the city engineer to prevent erosion and sedimentation during and after construction.

d. The city engineer will require supporting data and calculations to determine that the drainage design conforms to the City of Huntsville regulations and requirements.

(iii) *Landscaping requirements.* Landscaped strips at least 20 feet deep and located on either side of the roadway at the periphery of the right-of-way shall be planted and maintained as follows:

Each planting strip shall contain the equivalent of one tree per 35 linear

feet of length of said strip spaced no more than 100 feet on center and no less than 15 feet on center, a minimum of 60 percent of which shall be locally adapted large type deciduous shade trees. In addition, each planting strip shall contain grass, permanent mulch beds, or other permanent vegetative ground cover on all parts of each said strip except where physically impracticable. All required plants shall be arranged in such a manner as to provide a variety of plant materials and spacings so that straight single species rows are minimized and vistas, view corridors, and spacial diversity are maximized. Additional plant materials are encouraged and may be planted, provided the minimum requirements for said plantings as listed above are met.

Existing vegetation may be credited in lieu of the required plantings so long as it can be proven that the existing vegetation is sound, in good health and meets or exceeds the landscaping intent of the minimum required plantings listed above.

Note: The term "maintained" shall mean the adequate performance of fertilizing, pruning, watering, and all other applicable actions including replacement, necessary to assure the health, soundness, vitality and good appearance of the required plantings for a minimum period of two years.

(iv) *Pedestrian facility requirements.* Pedestrian facilities separated from vehicular traffic shall be provided. The facilities shall be constructed of an all weather surface material and shall conform to the topography of the roadway and cause minimal disturbance to the natural environment. The placement and type of facility shall be approved by the planning commission upon recommendation of the traffic engineer.

C. *Mini-farm residential subdivision standards.* A mini-farm subdivision must conform with all applicable regulations of these subdivision regulations except the requirement for curbs, gutters and sidewalks and must meet the following additional requirements:

(i) *Density.* Each lot must contain a minimum of five acres.

(ii) *Lot widths.* Each lot must have a minimum width of 200 feet measured at a point 40 feet back from the street right-ofway.

(iii) *Roads:*

a. Minimum required right-of-way (in feet).

Minor Collector	100
Local	80

b. Minimum improved shoulder width (both sides, in feet).

Minor Collector	6
Local	4

c. Minimum lane width is 12 feet.

(iv) *Minimum storm drainage requirements:*

a. The city engineer will require supporting data and calculations to determine that the drainage design conforms to the City of Huntsville regulations and requirements.

b. Ditches shall be designed to carry the ten-year storm without flooding beyond the top of the ditch bank.

c. Existing drainage courses including channels, streams, creeks and other waterways determined by the city engineer to be important for stormwater management in the City of Huntsville must be included

within a utility and drainage easement. The width of the utility and drainage easement shall be specified by the city engineer, but in no case shall the easement be less than the width of the drainage course from top of bank to top of bank plus 20 feet.

d. The maximum difference between the centerline of roadway and ditch flowline shall be three feet. On roadways with a design speed of 30 mph or less, roadside ditches shall have a minimum four feet horizontal to one-foot vertical front slope and back slope. Roadways with a design speed of greater than 30 mph shall have a minimum front slope of six feet horizontal to one-foot vertical and a minimum back slope of four feet horizontal to one-foot vertical.

e. Minimum grade along flowline of any constructed roadside drainage ditch shall be not less than one percent. Drainage ditches that cannot meet this criteria shall be piped or concrete flumed.

f. Driveway pipes shall be sized considering inlet control and outlet control to insure proper sizing. Minimum size of driveway pipes shall be 15 inches. City of Huntsville standard pipe headwalls shall be installed on all pipes according to city specifications. Safety ends or slope paved headwalls will be required.

g. The engineer of record shall prepare an erosion control plan to indicate how erosion of bare ditches and drainage swales will be prevented. The entire drainage sections shall be covered with an acceptable stand of grass and or erosion control material approved by the city engineer to prevent erosion and sedimentation during and after construction.

(v) *Plat restrictions:*

a. If a subdivision receives final approval as a mini-farm residential subdivision, plat restrictions shall be placed on the final plat to prohibit the further subdivision of such land into lots smaller than five acres or having a lot width of less than 200 feet.

b. No resubdivision of an approved mini-farm residential subdivision will be approved by the City of Huntsville Planning Commission which would create any lot less than five acres in size or having a lot width less than 200 feet at the required minimum building line, unless the approved mini-farm residential subdivision streets are redesigned and constructed to the road design standards as stated in article [subsection] 4.5 of these regulations and the sidewalk standards as stated in article [subsection] 4.6 of these regulations.

(6) *Modification of minimum design standards.*

A. Minimum design standards may be modified on a case-by-case basis for hardship or unique situation, provided that any modifications shall be consistent with vehicular speed and traffic expected on the subject street and that special conditions, such as special materials or signs and signals, may be prescribed in conjunction with modification of the standards.

B. In no event shall minimum standards be modified to allow rights-of-way less than 40 feet or pavement widths of less than 21 feet. Pavement width can be reduced to 21

feet only in locations where additional off-street parking is provided for common use equivalent to the number of parking spaces that would have been accommodated at the curb on a street of full roadway width. Such common parking shall be of approved all-weather surfacing.

C. In no event shall minimum standards be modified to allow any cul-de-sac to exceed 1,200 feet in length unless the number of dwelling units gaining access from said cul-de-sac would be 25 or fewer.

D. In no event shall minimum standards be modified to allow street grades greater than those listed below. The length of grade shall be the maximum distance allowed for the given grade and shall be based on AASHTO geometric design policy. Length of grade shall be measured along a constant slope from the end point of the first vertical curve to the beginning point of the next adjacent vertical curve.

Improvement	*Grade (in percent)*
Major arterial	11
Minor arterial	11
Major collector	15
Minor collector	15
Local	16
Marginal access street	16
Rear service roads	16
Cul-de-sac	18

(7) *Road dedication and reservations.*

A. The amount of right-of-way deemed reasonable to be required by dedication shall not exceed 120 feet in width. Along both sides of proposed arterial streets and major collector streets, it is also deemed reasonable to require an increased setback of up to 20 feet more than that required by the zoning ordinance.

B. Street systems in new subdivisions shall be laid out so as to eliminate or avoid new perimeter half streets. Where an existing half street is adjacent to a new subdivision, the other half of the street shall be improved and dedicated by the subdivider. The planning commission may authorize a new perimeter street where the subdivider improves and dedicates the entire required street right-of-way width within his own subdivision boundaries.

(8) *Road surfacing and improvements.*

A. The applicant shall construct roadways in accordance with the standards prescribed in these regulations; provided, however, that the applicant shall not be required to pay the full cost of any arterial or collector street, but shall participate in the cost of these improvements in the amount that a local street would cost if situated where such arterial or collector street is located. Adequate provision shall be made for culverts, drains, and bridges.

B. All road pavement, drainage improvements and structures, curbs, turnarounds, and sidewalks shall conform to all construction, design and geometric standards as adopted by the Planning Commission, Traffic Engineer, the City Engineer of the City of Huntsville, or the City of Huntsville and shall be incorporated into the construction plans required to be submitted by the applicant for plat approval.

C. All roads shall have standard "L" type curbs and gutters with appropriate underground drainage facilities placed on both sides of streets in accordance with the City of Huntsville specifications.

D. When a proposed subdivision abuts an existing noncurb and gutter road that is classified as an arterial or collector street on the major street plan of the City of Huntsville and no access to individual lots is permitted, curb and gutter for said road may not be required providing the following standards are met:

(i) Minimum right-of-way width (in feet):

Major arterial	140′
Minor arterial	140′
Major collector	100′
Minor collector	80′

(ii) Sidewalks shall be constructed as required by these subdivision regulations and shall be located on the lot side of drainage ditches.

(iii) All storm drainage facilities and systems shall be designed and constructed in conformance with the Stormwater Management Manual and the Standard Specifications for Construction of Public Improvements, and the following:

a. The side slope requirement on manmade earth lined ditches shall be no greater than four feet horizontal to one foot vertical.

b. The minimum grade along the flowline of any constructed roadside drainage ditch shall not be less than one percent. Drainage ditches that cannot meet this criteria shall be piped or concrete flumed.

c. The engineer of record shall prepare an erosion control plan to indicate how erosion of bare ditches and drainage swales will be prevented. The entire drainage section shall be covered with an acceptable stand of grass and/or erosion control material approved by the city engineer to prevent erosion and sedimentation during and after construction.

d. The city engineer will require supporting engineering data and calculations to determine that the drainage design conforms to the City of Huntsville regulations and requirements.

(9) *Intersections.*

A. Streets shall be laid out so as to intersect as nearly as possible at right angles. A proposed intersection of two new streets at an angle of less than 75 degrees shall not be acceptable. Not more than two streets shall intersect at any one point unless specifically approved by the planning commission.

B. Minimum radii of intersections of property lines at arterial and major street intersections shall be rounded with a radius of 35 feet. An increased radius may be required by the traffic engineer based on AASHTO geometric design policy, when the angle of intersection is less than 90 degrees or when the intersection involves an arterial or major street.

C. Proposed new intersections along one side of an existing street shall not be closer than 250 feet from centerline to centerline and, wherever practicable, shall coincide with any existing intersections on the opposite side of such street. Street jogs with centerline offsets of less than 125 feet shall not be permitted, except where the intersected street is a divided highway without median breaks at either intersection.

D. Intersections shall be designed to meet current AASHTO geometric design policy.

E. Where any street intersection will involve earth banks or existing vegetation inside any lot corner that would create a traffic hazard by limiting intersection sight distance, the developer shall cut such ground and/or vegetation (including trees) in connection with the grading of the public right-of-way to the extent deemed necessary to provide a sight distance consistent with design speed as specified by AASHTO geometric design policy.

(10) *Traffic control devices and street name signs.*

A. *Traffic control devices general.* All traffic control devices installed on public streets or public rights-of-way shall conform to the Alabama Manual of Uniform Traffic Control Devices. All materials used in the construction of these devices shall meet the State of Alabama Highway Department Standard Specifications for Highway Construction, The State of Alabama

Highway Department Special and Standard Highway Drawings, and current city standards.

B. *Traffic control device costs and associated easements.* For developments within the City of Huntsville, a licensed contractor shall be employed by the developer to install the traffic control devices and street name signs as required in the approved construction plans.

All medians and traffic islands, reserved as common space and not considered right-of-way, must be noted on the final plat as a permanent traffic control easement. Such easements must be reviewed by and approved by the city engineer.

At proposed signalized intersections, the first 50 feet of a private drive or street approach must be dedicated as a permanent easement to the city as measured from the flowline of the cross public street to provide for traffic signal loop detector placement.

Modification or relocation costs of existing traffic control devices, approved by the city engineer, will be the responsibility of the developer.

C. *Striping plans.* In order to facilitate striping of new streets or restriping of existing streets necessitated by development, striping plans, prepared by a registered professional engineer, must be submitted as part of the construction plans for the public improvements for approval by the city. If these plans require the addition, relocation and removal of pavement markings, the cost of these items will be borne by the developer.

D. *Street name signs.* Street names must be no greater than 12 characters in length, including spaces, and not phonetically or grammatically similar to any street name within Madison County or the City of Huntsville. Street names greater than 12 characters may be approved by the planning commission upon recommendation of the traffic engineer.

Developers are required to provide and to have installed street name signs on public and private streets in their development conforming to City of Huntsville specifications.

(11) *Street lights.* Installation of street lights shall be required in accordance with design and specification standards approved by the Huntsville Utilities and City Engineer.

4.6. Sidewalks.

(1) *Required improvements.*

A. Within the city limits sidewalks shall be included within the dedicated right-of-way of all roads as shown in table 2. Exceptions to this requirement may be permitted upon recommendation by the traffic engineer.

B. Sidewalks shall be improved in accordance with the construction standards of the City of Huntsville Engineering Division. A median strip of grassed or landscaped area at least 3½ feet wide shall separate all sidewalks from adjacent curbs; provided however, this distance may be reduced to two feet upon recommendation by the city engineer in order to overcome specific problems with topography or engineering design.

C. Sidewalks abutting all streets shall be constructed with curb ramps at intersections, and at other locations where curb cuts are made that would otherwise restrict access by wheelchair users.

(2) *Pedestrian accesses.* The planning commission may require, in order to facilitate pedestrian access from roads to schools, parks, playgrounds, or other nearby roads, perpetual unobstructed easements at least ten feet in width. Easements shall be indicated on the plat.

TABLE 2
SIDEWALKS REQUIRED

Type of Road	*Type of Development*		
	Residential	*Commercial*	*Wholesale / Industrial*
Arterial	Both sides 5 ft. wide	Both sides 5 ft. wide	*Optional
Major collector	Both sides 5 ft. wide	Both sides 5 ft. wide	*Optional
Minor collector	Both sides 4 ft. wide	Both sides 4 ft. wide	*Optional
Local**	Both sides 4 ft. wide	Both sides 4 ft. wide	*Optional
Marginal access street	One side 4 ft. wide	One side 4 ft. wide	*Optional

*Optional, except where pedestrian traffic is existing or anticipated from present developments or planned future developments, but where provided must conform to requirements of commercial development.

**For local streets located within the slope development district, sidewalks shall only be required on one side of the street and may only change sides of the street at intersections as recommended by the traffic engineer and approved by the planning commission.

Cross reference—Streets, sidewalks and other public places, ch. 23.

4.7. Drainage and storm sewers.

(1) *General requirements.*

A. The planning commission shall not approve any plat of a subdivision which does not make adequate provision for drainage of storm or flood water in accordance with a plan approved by the city engineer.

B. Storm sewers and drainage facilities shall be designed according to the City of Huntsville specifications by a professional engineer registered in the State of Alabama in accordance with an acceptable method of design using good engineering practices as approved by the city engineer. The design of the stormwater drainage systems shall insure the adequate handling of stormwater runoff and the adequate control of erosion and sedimentation through the use of properly sized and positioned drainage structures and facilities.

C. Lakes, ponds and similar facilities may be used to retain stormwater runoff to prevent or help drainage problems provided such facilities are in compliance with the stormwater management regulations promulgated by the city engineer and provided adequate provisions are made to control siltation and pollution. Lakes, ponds and similar areas may be accepted by the local government for maintenance as determined by the city engineer, if sufficient land is dedicated as a necessary part of the drainage control system.

D. Drainage improvements and installations shall be constructed within dedicated rights-of-way and utility and drainage easements shown on the subdivision plat as approved by the city engineer.

E. A licensed contractor shall be employed by the developer to install the drainage systems and facilities as shown in the approved subdivision. The work shall be accomplished according to the latest edition of the construction specifications and as directed by the city engineer.

(2) *Design considerations.*

A. The drainage plan shall consider the ultimate development of the drainage areas as determined by the current zoning on plats within the city or projected development patterns for plats outside the city limits.

B. Large drainage concentrations requiring large facilities or open ditches shall be avoided within the subdivision boundary if at all possible. Where existing natural concentrations containing significant drainage areas cross the proposed subdivision, the developer's engineer shall utilize the natural condition and dedicate sufficient easements through the subdivision to contain natural drainage courses.

C. All drainage structures shall be sized in every case to accommodate the specified design runoff from the entire upstream drainage area, whether the area lies inside or outside the subdivision. The city engineer shall evaluate the drainage facilities before approval to insure all drainage systems and facilities are sized correctly and comply with the construction specifications.

D. Off-site drainage improvements to handle the increased runoff from the proposed subdivision into existing drainage facilities and off-site drainage easements may be required before approval by the city engineer. New drainage facilities shall be planned as much as practical to discharge into existing adequate systems downstream. The city engineer shall study the effect of each subdivision on existing downstream drainage facilities outside the boundaries of the planned subdivision. In the case where the planned subdivision or development will overload existing facilities and/or increase existing drainage problems, the city engineer may withhold approval of the drainage plan until provisions have been made to correct the drainage problems.

(3) *Flood prone areas.* All local government rules and regulations pertaining to flood prone areas shall be observed when designing subdivisions. Particularly:

A. Subdivisions lying in whole or in part within recognized flood hazard areas shall be subject to the provisions of the City of Huntsville Zoning Ordinance Floodway-Floodway Fringe Regulations or the applicable county flood damage prevention ordinance or other applicable regulations adopted by the city engineer.

B. The boundaries of flood districts and hazard areas shall be as defined in the above-referenced ordinances. Any interpretation necessary shall be made by the city engineer.

C. Lands within a floodway shall not be subdivided or developed except that certain minimal grading and construction may be allowed to provide for public utility service and/or roadways to cross said floodway.

D. The city engineer shall prescribe on the plat minimum building floor elevations for structures located within flood districts where development is allowed.

E. In other areas determined to have poor drainage that is subject to periodic or possible flooding, the city engineer may require the developer to fill to heights which will be above the elevation of the maximum design flood as determined by the engineer of record or the city engineer.

Cross reference—Storm sewers, § 21-311 et seq.

4.8. Sanitary sewer facilities.

(1) *General requirements.* Adequate sanitary sewer facilities shall be provided for all subdivisions in a manner prescribed by applicable construction standards and specifications. All plans shall be designed in accordance with the rules, regulations, and standards of the city engineer, health department, and other appropriate agencies.

(2) *Public sanitary sewer facilities.* Where available, sanitary sewer facilities shall connect with public sanitary sewer facilities.

A. Sewers shall be installed to serve each lot and service connection laterals shall be installed to the future right-of-way line or easement line.

B. Sanitary sewer plans shall be made by a professional engineer registered in the State of Alabama in accordance with an acceptable method of design using good engineering practices as approved by the city engineer. All sanitary sewer lines shall be designed to handle the fully developed ultimate tributary population.

C. Installation of sanitary sewer facilities to be maintained by the local government shall be constructed within dedicated rights-of-way and utility and drainage easements shown on the subdivision plat as approved by the city engineer.

D. A licensed contractor shall be employed by the developer to install the sanitary sewer facilities as shown on the approved set of subdivision plans. The work shall be accomplished under the direction of and according to the construction specifications' latest edition and as directed by a qualified representative from the office of the city engineer. All work shall comply with the grades, lines, and data shown on the approved set of subdivision plans. Stubout locations shall be staked.

Cross reference—Sewers and sewage disposal, § 21-31 et seq.

4.9. Water facilities.

(1) Where a public water system is accessible the subdivider shall install adequate water facilities (including fire hydrants) subject to the specifications of the local authorities.

(2) In low-density developments, if a public water system is not available, drilling individual wells must be approved by the health department and Huntsville Utilities Water Department Manager.

(3) Fire hydrants shall be required for all subdivisions on public water systems. Fire hydrants shall be located no more than 500 feet apart and within 250 feet of any structure.

4.10. Utilities.

(1) All utility facilities including gas, electric power, telephone and CATV cables shall be planned and installed in accordance with the specifications of the local government and governing utility boards or authorities.

(2) All power and communication circuits within and installed directly to serve a development shall be placed underground and the developer shall make arrangements with the utility authorities for facilities to be placed underground as a condition to the approval of the subdivision plat or apartment site plan; provided, however, that underground wiring shall not be required if the planning commission finds that:

A. Installation underground would cause a public safety hazard;

B. All relevant factors, when taken together, indicate that the plight of the property is unique in that it cannot be put reasonably to the requirement of underground wiring.

(3) Proposed subdivisions located within the slope development district as defined by the City of Huntsville Zoning Ordinance shall locate all electric power, water utilities and natural gas if provided, and telephone and CATV cables in common trenches in accordance with the City of Huntsville Zoning Ordinance. Sanitary sewer may be located in the common trench upon approval by the city engineer. The location, design and specifications of common trenches shall be shown on the preliminary plat or related construction documents and approved by the local government and governing utility boards and authorities.

Cross reference—Utilities, ch. 26.

4.11. Easements.

(1) Easements shall be dedicated to the local government for the purpose of maintaining utility and drainage facilities and courses and containing the various systems which lie outside of

dedicated rights-of-way, including any easements necessary outside the boundaries of the proposed subdivision.

(2) Easements shall be provided along front, side, and rear lot lines as necessary for the provision and maintenance of drainage and utility systems. Unless otherwise approved by the City Engineer and the General Manager of Huntsville Utilities, minimum easement widths shall be as follows:

Side lot lines	10 feet total or 5 feet per lot
Rear lot lines	10 feet total or 5 feet per lot
Front lot lines	5 feet total

(3) Where a subdivision is traversed by a watercourse, drainageway, channel, or stream, or if such a proposed drainageway is needed for future drainage plans, there shall be provided a drainage easement or right-of-way conforming substantially with the lines of such existing or planned drainageway. The width of such drainage easement or right-of-way shall be sufficient to contain the ultimate channel and maintenance way sized for the entire tributary area upstream.

(4) Lots and easements shall be arranged in such a manner as to eliminate unnecessary easement jogs or off-sets and to facilitate the use of easements for drainage and other utility systems.

(5) For subdivisions abutting any sensitive lands, as designated by the planning commission, a minimum 15-foot wide nonaccess reservation containing natural tree cover and a buffer planting as defined herein shall be provided along said boundary. In areas where sufficient natural vegetative screening exists within said reservation, screen plantings may be reduced.

4.12. Nonresidential subdivisions.

In addition to the principles and standards in these regulations, which are appropriate to the planning of all subdivisions, the applicant for a nonresidential subdivision shall demonstrate to the satisfaction of the planning commission that the street, parcel, and block pattern proposed is specifically adapted to the uses permitted and takes into account other uses in the vicinity. The following principles and standards shall be observed:

(1) Proposed industrial parcels shall be suitable in area and dimensions to the types of industrial development permitted, unless the plat restricts the uses, in which case the parcels shall be suitable to the uses as restricted.

(2) Street rights-of-way and pavement shall be adequate to accommodate the type and volume of traffic anticipated to be generated thereupon.

(3) Special requirements may be imposed by the local government with respect to street, curb, gutter, and sidewalk design and construction.

(4) Special requirements may be imposed by the local government with respect to the installation of public utilities, including water, sewer, and stormwater drainage.

(5) Every effort shall be made to protect adjacent residential areas from potential nuisance from a proposed commercial or industrial subdivision, including the provision of extra depth in parcels backing on existing or potential residential development and the provision of a screen planting as defined herein along said boundaries.

(6) Streets carrying nonresidential traffic, especially truck traffic, shall not normally be extended to the boundaries of adjacent existing or potential residential areas.

4.13. Planned development.

Whenever the city council authorizes a planned development which entails the subdivision of land, a plat must be approved according to the procedures set forth herein. Requirements for improvements and design of such planned development shall conform to the provisions of the zoning ordinance and concept plan under which it was approved.

4.14. Building restrictions.

(1) If the subdivision does not lie within the force and effect of an existing zoning ordinance, the planning commission may require provision for minimum front, side, and rear yards, based upon the standards of the Huntsville Zoning Ordinance and Health Department regulations.

(2) A restricted use area shall extend a minimum of 50 feet from the following features:

A. *Landslides*. Setback measured from mapped boundary of landslide.

B. *Bluffs of greater than 20 feet of vertical relief*. Setbacks shall extend from a line defining the top and bottom of said bluff.

(3) A restricted use area shall extend a minimum of 25 feet from the following features:

A. *Cave entrances*. Setback measured from edge of cave entrance.

B. *Sinkholes*. Setback measured from edge of those sinkholes that exhibit three feet or greater depth of closed depression.

C. *Perennial springs*. Setback measured from perimeter of spring.

D. *Abandoned quarries*. Setbacks shall extend from the top and bottom of quarry face.

E. *Historical and archeological sites*. Setbacks shall extend from the boundaries of significant historical or archeological sites as determined by the Alabama Historical Commission.

Areas within the above minimum setbacks shall be retained in their existing state and be restricted from all development except for hiking trails, provided such trails neither create nor increase a public hazard, and except for certain minimal grading within said setback, provided the following conditions are met:

A. Minimal grading is required to construct public utility service and/or roadways to adjacent and/or additional properties;

B. No technically feasible alternative route or construction method exists.

4.15. Standards for geotechnical investigations and tests.

(1) *Subsurface exploration.*

A. For all proposed structures other than roadways, acceptable subsurface explorations shall be performed at a minimum rate of two per structure or four per study if only one structure is proposed.

B. For each proposed lot acceptable subsurface explorations shall be performed at a minimum rate of two per buildable area of each lot. Said subsurface explorations shall be adequately spaced to provide for a clear indication of the stability of the entire buildable area of each proposed lot.

C. For roadway construction, acceptable subsurface explorations shall be performed along the centerline of the proposed roadway at a maximum space of 500 linear feet throughout the length of the roadway. In cases where the proposed roadway is less than 2,000 linear feet in length, a minimum of four subsurface explorations shall be performed and spaced adequately to cover the length of the roadway.

D. Acceptable subsurface exploration methods include:

(i) Test pit excavations down to unweathered bedrock.

(ii) Soil (regolith) borings to unweathered bedrock.

(iii) Rock corings.

E. If unweathered bedrock is located at the surface of the buildable area of any proposed lot or any proposed area to be covered by a structure, as shown on the proposed plan, and no significant hazards have been documented or identified to exist within said area(s), the planning commission may waive the required subsurface explorations to be performed within those given buildable areas.

F. Rock corings shall include a minimum of five feet of rock coring per boring.

G. Soil (regolith) and rock classification for each subsurface exploration shall be per-

formed according to American Society for Testing and Materials (ASTM) procedures.

H. Each subsurface exploration shall be measured for ground water. Where necessary or required, piezometers shall be placed in the borings and measured periodically for high/low ground water tables.

I. Subsurface explorations shall be sufficient to reasonably determine thickness and type of all soils (regolith).

(2) *Soil properties.* Minimum soil properties tests shall be performed for each different soil or regolith type from each subsurface exploration having more than two feet of soil above bedrock and shall include:

A. Standard classification tests (ASTM).

B. Consolidation tests.

C. Shrink/swell potential.

D. Triaxial shear tests.

E. Atterberg liquid limit (measured for soil fraction smaller than the no. 40 sieve-fine sand and smaller).

F. Approximate mobility index (ratio of saturated water content of in-place or undisturbed soil to its Atterberg liquid limit).

G. A separate sample for each soil sample analyzed shall be held by the geotechnical engineer for a minimum of 90 days or until all roadway construction is complete (whichever is longer) and shall be analyzed for additional tests if required or shall be made available for tests by an independent agency. Each soil sample shall be placed in a separate waterproof container to retain moisture and prevent contamination.

(3) *Slope stability and structural analyses (multiple analyses).* Multiple analyses shall be performed on all fill slopes and all cut slopes of greater than four feet vertical relief in soil and should be performed on the best, worst, and average soil and embankment conditions as determined on site by the geotechnical engineer.

A. Sliding wedge and slip circle analyses shall be performed on the uphill side of excavation embankments.

B. Slip circle analyses shall be performed on all fill embankments.

C. Based on the analyses, the lowest safety factors shall be reported for each method along with all of the design conditions.

D. Structural performance should be analyzed with respect to bearing capacity and settlement.

4.16. Design standards.

A. A minimum safety factor for stability of 1.5 must be documented with adequate data, including triaxial shear tests, multiple analyses (sliding wedge, infinite slope and slip circle analyses) and confident ground water (piezometer) measurements and control.

B. A minimum safety factor of 3.0 shall be required for bearing capacity.

ARTICLE 5. ASSURANCE FOR COMPLETION AND MAINTENANCE OF IMPROVEMENTS

5.1. Improvements and performance bond.

(1) *Completion of improvements.* Before the plat is signed by the chairman of the planning commission, all applicants shall be required to complete, in accordance with the planning commission's decision and to the specifications of the city engineer, all the street, sanitary, and other improvements including lot improvements on the individual lots of the subdivision as required in these regulations, specified in the preliminary and final subdivision plats, and as approved by the planning commission.

(2) *Bonds to insure performance.*

A. The planning commission in its discretion may waive the requirement that the applicant complete all improvements prior

to the signing of the subdivision plat, and provide that, as an alternative, the applicant post a bond secured by an insurance company licensed by the State of Alabama, or a cash bond, or an irrevocable letter of credit from an approved lending institution, as approved by the legal department, at the time of application for final subdivision approval in an amount estimated by a registered professional engineer and approved by the city engineer, traffic engineer, and by the local utilities as sufficient to secure to the local government the satisfactory construction and installation of the uncompleted portion of required improvements. The bond or letter of credit shall also secure all lot improvements on the individual lots of the subdivision as required in these regulations.

B. Such bond or letter of credit shall comply with all statutory requirements and shall be satisfactory to the local government as to form, sufficiency, and manner of execution as set forth in these regulations. A bare signature bond will not be accepted by the local government. The period within which required improvements must be completed shall be specified by the planning commission in the resolution approving the final subdivision plat and shall be incorporated in the bond or letter of credit and shall not, in any event, be less than six months or more than two years from the date of final approval excepting sidewalk improvements which shall not be more than three years from the date of final approval.

If the improvements are not completed within the period specified by the planning commission, the approval may be deemed to have expired, or, with the consent of the city council, the bond or the letter of credit shall be forfeited or invoked, as the case may be, to complete the improvements as provided by the final subdivision plat.

C. Sidewalk improvements may be secured by a bond or letter of credit for a period of one year after the initial three year bond or letter of credit has elapsed. Any such one year extension may only be made upon a finding by the City of Huntsville Inspection Division that no more than 75 percent of the total lots as shown on the recorded subdivision plat have been issued certificates of occupancy and a finding by the City of Huntsville Traffic Engineer that the delay in the completion of sidewalk improvements will not be detrimental to the public safety. Requests to the planning commission for further one year extensions of bonds or letters of credit insuring the completion of sidewalk improvements may be made, however each request must be accompanied by the abovementioned findings from the Inspection Division and City of Huntsville Traffic Engineer.

D. Existing subdivisions that have received final plat approval of the planning commission prior to June 20, 1989 but have not yet had their public improvements accepted for dedication by the local government may offer such improvements for dedication when all required public improvements, with the exception of sidewalks, have been completed and constructed in accordance with the standards and specifications as stated in the subdivision regulations. In such cases, the public improvements may be accepted for public dedication on the condition that the applicant post a bond or letter of credit that complies with all statutory requirements and is satisfactory to the local government as to form, sufficiency and manner of execution as set forth in this regulation and is in an amount sufficient to cover the cost of constructing the unbuilt portions of sidewalks. The maximum duration of said bond or letter of credit shall be two years from the effective date of said bond or letter of credit. An additional one year bond or letter of credit may be posted to secure sidewalk improvements after the initial two year bond or letter of credit has elapsed upon a finding by the city inspection division that no

more than 50 percent of the total lots, as shown on the recorded subdivision plat, have been issued certificates of occupancy and a finding by the City of Huntsville Traffic Engineer that the delay in the completion of the sidewalk improvements will not be detrimental to public safety. Requests for further one year extension of bonds or letters of credit insuring the completing of sidewalk improvements may be requested, however, each request must be accompanied by the above-mentioned findings from the City Inspection Division and City of Huntsville Traffic Engineer.

(3) *Cost of improvements.* Unless otherwise specified, all required improvements shall be made by the applicant, at his expense, without reimbursement by the local government or any improvement district herein.

(4) *Acceptance of dedication offers.* Acceptance of formal offers of dedication of streets, public areas, easements, and parks shall be in accordance with the procedure established by the local government. The approval by the planning commission of a subdivision plat shall not be deemed to constitute or imply the acceptance by the local government of any street, easement, or park shown on said plat. The planning commission may require said plat to be endorsed with appropriate notes to this effect.

5.2. Inspection of improvements.

(1) *General procedure.* The city engineer shall provide for inspection of required improvements during construction and insure their satisfactory completion. If the city engineer finds upon inspection that any of the required improvements have not been constructed in accordance with the standards and specifications as outlined in these regulations, the applicant shall be responsible for completing the improvements. Wherever the cost of improvements is covered by a bond or letter of credit, the applicant and the bonding company or institution shall be severally and jointly liable for completing the improvements according to specifications.

(2) *Certificate of satisfactory completion for subdivisions with public improvements.* The applicant shall state in writing to the city engineer that to the best of his knowledge the public improvements have been completed as required. The applicant's engineer and his surveyor shall certify to the city engineer, through the submission of a letter of acceptance and detailed "as-built" engineering drawings of the subdivision, indicating location, dimensions, materials, and other information required by the planning commission or city engineer, that all public improvements have been constructed in accordance with the approved construction plans and with City of Huntsville specifications and that the improvements have been completed, are located within the dedicated and platted easements and/or rights-of-way, and are ready for dedication to the local government. For subdivisions where construction occurred on lands or portions of lands which are designated as hazard zone as defined by the Zoning Ordinance of the City of Huntsville, Alabama, the following certifications shall be affixed to the letter of acceptance and the "as-built" engineering drawings of the subdivision:

ENGINEER OF RECORD

I, _____, the engineer of record, certify that the proposed development shown hereon is designed in accordance with sound engineering standards and practices, and in accordance with all applicable development regulations. I further certify that I have caused prudent investigation, testing and inspections to be performed on lands within the proposed development identified as hazard zone, as defined by the Zoning Ordinance of the City of Huntsville, Alabama, including geotechnical analysis and testing on hazard zone lands and on lands upslope and downslope of the proposed development. Based upon the investigation, testing and inspections performed, as defined and discussed in the geotechnical analysis and report dated _____ and submitted in connection herewith, and further based upon any remedial measures taken in connection with the hazards defined therein, I certify that within acceptable geotechnical standards, development of the property as shown on the plat does not diminish the stability of

the slope or otherwise increase the likelihood of landslide or other slope failure.

_____ _____
Date Engineer of Record

OWNER

I, _____, owner/owners of the lands embraced hereon, am fully aware of the existence of Hazard Zone lands, as defined by the Zoning Ordinance of the City of Huntsville, Alabama, within the development as shown hereon. I further understand the potential and inherent danger of said lands and that landslides have originated in conditions that regularly exist on said Hazard Zone lands. With this knowledge, I hereby certify that I have caused prudent measures to be taken in the design of the development as shown hereon, including an analysis of lands upslope and downslope of the Hazard Zone lands, to assure that the site is safe for the proposed development, and within acceptable geotechnical standards the proposed development does not diminish the stability of the slope or otherwise increase the likelihood of landslide or other slope failure.

_____ _____
Date Owner

Upon such approval and recommendation of the city engineer, the local government may thereafter accept the improvements for dedication in accordance with the established procedure.

However, the local government may accept for dedication a subdivision in which the required sidewalks are incomplete on the condition that the construction and installation of such sidewalks are secured by a bond or letter of credit as defined in section 5.1(2)A. and further provided that such bond or letter of credit guarantees completion of said sidewalks within three years of the date of final plat approval.

(3) *Certificate of satisfactory completion for private subdivisions.* The applicant shall state in writing to the city engineer that to the best of his knowledge the improvements have been completed as required. The applicant's engineer and his surveyor shall certify to the city engineer, through the submission of a letter of completion and detailed "as-built" engineering drawings of the subdivision, indicating location, dimensions, materials, and other information required by the planning commission or city engineer, that all improvements have been constructed in accordance with the approved construction plans and with City of Huntsville specifications and that the improvements have been completed and are located within the platted easements and/or rights-of-way. For subdivisions where construction occurred on lands or portions of lands which are designated as Hazard Zone as defined by the Zoning Ordinance of the City of Huntsville, Alabama, the engineer of record and owner certifications shall be affixed to the letter of completion and the "as-built" engineering drawings of the subdivision as exemplified in section 5.2(2) of these regulations:

The local government may approve a letter of completion for a subdivision in which the required sidewalks are incomplete on the condition that the construction and installation of such sidewalks are secured by a bond or letter of credit as defined in section 5.1(2)A. and further provided that such bond or letter of credit guarantees completion of said sidewalks within three years of the date of final plat approval.

(4) *Certificate of completion for subdivisions with public and private improvements.* For subdivisions with both public and private infrastructure improvements a certificate of satisfactory completion will be required for the public improvements following the procedure as stated in [section] 5.2(2) and a certificate of satisfactory completion will be required for the private improvements following the procedure stated in [section] 5.2(3).

(5) *Reduction or release of bonds.* The bond or letter of credit covering all public improvements may be reduced upon acceptance of all public improvements by the City of Huntsville. The bond or letter of credit covering all private improvements may be reduced upon approval of the letter of satisfactory completion by the City of Huntsville. The city engineer shall set the amount of the bond or letter of credit to be retained by the city

for a period of at least 12 months following the date of acceptance of public improvements and/or approval of letter of satisfactory completion for private improvements. The bond or letter of credit shall be released only upon receipt by the city engineer of a letter from the applicant's registered professional engineer stating that any improvements required by the City of Huntsville since the date of acceptance of public improvements and/or approval of letter of satisfactory completion for private improvements have been constructed in accordance with the approved plans and City of Huntsville specifications and are located within the dedicated and/or platted easements and/or rights-of-way. At such time, the city engineer shall recommend in writing to the city clerk-treasurer that the bond or letter of credit be reduced or released. The city engineer shall recommend the amount of the bond or letter of credit to be held as deemed necessary to insure that the improvements are completed and/or repaired or replaced and made acceptable to the City of Huntsville.

A bond or letter of credit covering sidewalk improvements, if posted, shall be released upon receipt by the city engineer of a letter from the applicant's registered professional engineer and land surveyor stating that the sidewalk improvements have been completed and have been constructed in accordance with the approved plans and City of Huntsville specifications and are located within the dedicated and/or platted easements and/or rights-of-way. At such time, the city engineer shall recommend in writing to the city clerk-treasurer that the bond or letter of credit be released if, in his opinion, the sidewalks have been satisfactorily completed.

(6) *Forfeiture of bonds.* If, during the period when the subdivision improvements are covered by a bond or letter of credit, the construction of said subdivision creates a situation that is harmful, dangerous or an unreasonable nuisance to an adjacent property owner and the applicant does not correct the situation in a timely fashion, or if the applicant responsible for constructing the subdivision improvements goes into receivership or is otherwise financially unable to complete said improvements, or if said applicant abandons or leaves said subdivision improvements uncompleted, then the city council may, at the recommendation of the planning commission, invoke said bond or letter of credit and direct that such work be completed so as to eliminate any dangerous, harmful, or unreasonable nuisance.

5.3. Deferral of required improvements.

The construction of specific required improvements may be deferred if the planning commission finds that:

(1) The improvement is likely to be destroyed while still in a good state of repair due to the planned upgrading or expansion of public facilities or to expected future private development adjacent to the site;

(2) The improvement would be so situated that it would be likely to deteriorate before it was put into service because it could not presently be used for its intended purpose;

(3) The improvement would require additional off-site easements or rights-of-way in order to be constructed to city standards;

(4) The improvement, if constructed concurrently with the subdivision, could create a situation hazardous to the health and/or safety of the public because of the nature of adjoining public or private features; or

(5) The city engineer or traffic engineer recommends that such improvement be deferred due to a unique characteristic or situation that would have the effect of nullifying the intent and purpose of the improvement if it were constructed.

If the planning commission so finds, then the applicant shall pay to the local government prior to the signing of the final subdivision plat a sum of money equal to the cost of constructing the deferred improvement as estimated by a registered professional engineer and approved by the city engineer.

ARTICLE 6. MINOR SUBDIVISION APPLICATION PROCEDURE AND PLAT REQUIREMENTS*

6.1. Definitions.

For the purpose of this article, the following definitions shall apply.

Existing paved public road or street shall mean one that has been accepted or opened as or otherwise has received the legal status of a public street or corresponds with a street shown on the official master plan or with a street on a subdivision plat approved by the planning commission or with a street on a street plat made by and adopted by the commission or with a street accepted by city council after submission to the planning commission.

Minor subdivision shall be defined as either:

(1) The division of a tract of land into no more than three lots all fronting on an existing paved public road and not requiring the construction or extension of any new roads or streets, municipal facilities or public improvements except sidewalks or water main extensions; or

(2) The division of a tract of land into lots all fronting on an existing paved public road, each of which shall be ten acres or more in size, for the purpose of selling said lots but not for the development of same, provided such subdivision shall not require the construction or extension of any new roads or streets, municipal facilities or public improvements except sidewalks or water main extensions.

(3) The division of a tract of land for the sole purpose of recording by plat certain conditions offered by the owner of the property and accepted by the planning commission in conjunction with a zoning or rezoning of land by the City Council of the City of Huntsville.

Public hearing officer shall be the Director of the Huntsville Planning Department or his duly authorized representative. The public hearing officer is authorized by the Huntsville Planning Commission to hold public hearings and grant final plat approval to minor subdivisions when the proposed plat has met all the provisions of these regulations and when the applicant requests that the approval procedure be conducted by the public hearing officer.

6.2. Review and approval procedure.

Whenever any minor subdivision of land is proposed, and before any permit for the erection of a structure in such proposed subdivision shall be granted or before the transfer of any lot shall be authorized, the subdividing owner, or his authorized agent, shall apply for and secure approval of such proposed minor subdivision in accordance with the following procedure.

6.3. Layout plat.

(1) *Application procedure.* Prior to minor subdividing of land, an owner of land or his representative shall file an application for approval of a layout. The application for approval of a layout shall:

A. Be made on minor subdivision application forms available at the office of the planning department.

B. Include payment of an application fee of $50.00 plus $1.00 per proposed lot.

C. Be accompanied by a minimum of three copies of the layout as described in these regulations and comply in all respects with these regulations.

D. Be accompanied by a vicinity map. For subdivisions within the city, the vicinity map shall show the existing streets, proposed subdivision boundaries, and surrounding area of the land to be subdivided, and shall be drawn on the City of Huntsville Planning Department zoning maps scaled 400 feet to the inch. For subdivisions outside the city, the vicinity map shall show generally the proposed subdivision boundaries and surrounding

*__Cross reference—__Common area maintenance agreement as an express condition precedent to final approval of any subdivision plat, app. B, § 1.8.

area of the land to be subdivided, and shall be drawn on a map scaled not greater than 2,000 feet to the inch.

E. Be presented to the manager of planning sufficiently in advance of the public hearing date to allow time for his review.

F. Be presented to the traffic engineer sufficiently in advance of the public hearing date to allow time for his review.

(2) *Layout requirements.* Layouts shall be drawn to a convenient scale of not more than 200 feet to an inch and shall show the following information:

A. Boundary lines of the subdivision.

B. Topography at five-foot contour intervals or less for subdivisions.

C. Location of existing streets and water courses.

D. Approximate locations and widths of rights-of-way.

E. Approximate locations and dimensions of all proposed lots.

F. Name of the proposed subdivision and of any adjoining subdivisions.

G. Approximate location of adjoining property lines or subdivision boundaries, and names of adjoining property owners or subdivisions.

H. Location of existing or proposed sidewalks. The requirements for sidewalks shall only apply when the subdivision adjoins the portion of a road that is scheduled to have a sidewalk installed according to the sidewalk improvement plan as adopted by the Planning Commission of the City of Huntsville.

(3) *Study of layout.* The subdivision committee shall consider the layout and render a report to the next regular meeting of the planning commission concerning the layout, unless the applicant has requested approval by the public hearing officer, in which case, the director and staff of the planning division shall review the layout for compliance with these regulations and report their findings to the public hearing officer.

(4) *Public hearing.* If the proposed minor subdivision layout meets all the provisions of these regulations, the applicant may request that the required public hearing be held by the public hearing officer; otherwise, the planning commission shall hold a public hearing prior to granting final approval. In either case, the owners of land immediately adjoining the platted land shall be notified by registered mail at least five days in advance of the public hearing as to the time and place of such public hearing.

(5) *Review and approval of layout.* If the layout is presented to the planning commission, that body shall study the layout, public comments, and the report of the subdivision committee, taking into consideration the requirements of the subdivision regulations. After review and discussion of this data, the planning commission will advise the applicant of the specific changes and additions, if any, it will require. If the layout is presented to the public hearing officer, he shall study the layout, public comments, and reports of officials to ascertain that the layout is in conformance in all respects with the regulations.

6.4. Final plat.

(1) *Application procedure.* Following the approval of the layout plat, the owner of land or his representative shall file an application for approval of a final plat. The application shall:

A. Be made on forms available at the office of the planning division.

B. Be accompanied by a minimum of three copies of the final plat as described in these regulations and comply in all respects with these regulations.

C. Be accompanied by the actual closure computations for the boundary traverse. Such boundary traverse shall close to a minimum accuracy of one part in 5,000.

D. Be presented to the manager of planning sufficiently in advance of the meeting of the planning commission or of the public hearing officer to allow time for his review.

(2) *Final plat requirements.* The final minor subdivision plat shall be presented on reproducible mylar. The final plat shall contain the same information shown on the layout plat, as well as the following:

A. The names and deed book and page of all adjoining property owners of record or the names of adjoining subdivisions; the names of adjoining streets.

B. Notation of any proposed streets and rights-of-way adjacent to the subdivision.

C. Notation of any restrictions by plats.

D. The area in square feet for each lot on the final plat.

E. Names of all streets.

F. Tie points to an accepted corner based on the U.S. Government Public Lands Survey System which shall show the relationship to the Huntsville Meridian; all monuments erected, all existing monuments, and all proposed monuments, corners and other points to be erected. The material of which the monuments, corners, or other points are or will be made shall be noted at the representation thereof or by legend, except that lot corners need not be shown.

G. Exact boundary lines of the tract indicated by a heavy line, or other acceptable control traverse, giving distances to the nearest hundredth of a foot and bearings to the nearest second of arc. Proper field techniques and survey equipment shall be used, along with an acceptable method of balancing the field data, to achieve a positional accuracy of 1/5,000 for all monuments established, corresponding to third order accuracy.

H. Street centerlines showing angles of deflection or bearing, angles of intersection, radii, length of tangents and rights-of-ways from each street centerline.

I. Lot lines with distances to the nearest hundredth of a foot, bearings and angles sufficient to reproduce the survey, and chords and radii of rounded corners.

J. Building setback lines, locations and depths.

K. Lot and block numbers. Blocks shall be consecutively numbered or lettered in alphabetical order. Lots within each block shall be consecutively numbered.

L. Easements, buffer strips and public service utility rights-of-way lines giving widths, locations, and purposes.

M. Accurate outlines and descriptions of any areas to be dedicated or reserved for public use or acquisition with the purpose indicated thereon; and of any areas to be reserved by deed, covenant for common use of all property owners.

N. Acreage and number of lots within the subdivision.

O. Names and addresses of the owner(s) of the land to be subdivided, the subdivider (if other than the owner), the engineer and surveyor.

P. The date of the map, a reference meridian (designated on the plat either true or magnetic north), scale, title of the subdivision.

Q. If within the 100-year flood elevation, the lowest allowable finished floor elevation for each lot.

R. Endorsements and certificates as follows:

(i) A certificate of accuracy by a surveyor licensed to practice in the State of Alabama and licensed with the City of Huntsville, Alabama.

(ii) A certificate of title showing ownership of land.

(iii) A notary's acknowledgment of the certificates referred to in (i) and (ii) above.

(iv) A certificate for approval of City Engineer, City of Huntsville.

(v) A certificate for approval of Huntsville Utilities.

(vi) A certificate for approval of the City of Huntsville Traffic Engineer.

(vii) A certificate for approval by the planning commission.

(viii) A certificate for recording by the probate judge.

(ix) A certificate for approval by the county health officer for subdivisions not served by a sanitary sewer system.

(x) Flood certification stating the flood hazard areas located within the boundaries of the proposed subdivision.

(xi) The endorsements, dedications, and certificates required in (i) through (xi) hereof shall be substantially as exemplified in section 3.4(2)(F.) of the subdivision regulations, except for (vi) and (ix) which shall be substantially as follows:

"The undersigned, as Traffic Engineer of the City of Huntsville or his duly authorized representative, hereby approves the within plat for the recording of same in the Probate Office of _____ County, Alabama, this the _____ day of _____, 20_____."

_____ _____
Traffic Engineer Date

"From the septic tank information submitted to the _____ County Health Department for lots _____ of _____ subdivision, the following recommendations are made:

a) Lots _____ meet _____ County Health Department requirements and should operate satisfactorily;

b) Lots _____ require further engineering and/or alternative septic system installation;

c) Lots _____ were not tested.

Each lot or tract shall be investigated further and approved or disapproved on its own merits.

The undersigned, a duly authorized representative of the _____ County Health Department, hereby approves the within plat for the recording of same in the Probate Office of _____ County, Alabama, this the _____ day of _____, 20____.

_____
Name and Title

(3) *Planning commission review and approval.* After review of final plat, the planning commission or the public hearing officer shall approve the plat for recording or shall disapprove the plat and state the reasons for disapproval. The public hearing officer shall be required to act on the proposed plats at the regularly scheduled meeting or at an announced continuation of said meeting. At the time of final plat approval, the planning commission may stipulate the time period when any required improvements shall be installed, but in no event shall the period of time for completion of required improvements exceed two years from the date of final approval.

(4) *Appeal procedure.* Any decision rendered by the public hearing officer may be appealed to the full planning commission at its next regularly scheduled meeting by the applicant or by any owner of land immediately adjoining the platted land. Such appeal must be filed in written form with the city planning director within one working day of the public hearing officer's decision. A final plat approved by the public hearing officer shall not be recorded until the appeal period has lapsed.

(5) *Copy of final plat to all certifying agencies.* Following the planning commission or public hearing officer approval of the final plat, one reproducible copy of the final plat as approved shall be presented by the owner or his representative to the General Manager of Huntsville Utilities. Any other agencies certifying the final plat shall be presented a print of the final plat as approved.

(6) *Recording of plat.* If the final plat as approved by the planning commission or the public hearing officer and signed by the Chairman of the Huntsville Planning Commission is not recorded

within six months of the date of final approval, the approval of the plat shall be deemed to have expired.

6.5. Requirements for improvements and design of minor subdivisions.

Proposed plats for minor subdivisions must meet all applicable regulations of article 4 of the subdivision regulations.

6.6. Assurance for completion of improvements.

The provisions of article 5 of the subdivision regulations shall be applicable.

ARTICLE 7. REQUIREMENTS FOR LAND CONVEYANCE AMONG IMMEDIATE FAMILY MEMBERS

7.1. Definitions.

For the purposes of this article, the following definitions shall apply.

Immediate family member shall mean spouse, son, daughter, mother, father, grandparent, grandchildren, sister, brother, mother-in-law, father-in-law, sister-in-law, brother-in-law, son-in-law and daughter-in-law.

Public hearing officer shall be the Director of the Huntsville Planning Division or his duly authorized representative. The public hearing officer is authorized by the Huntsville Planning Commission to approve conveyances of land among immediate family members when all the provisions of these regulations are met and when the applicant requests that the approval procedure be conducted by the public hearing officer.

7.2. General requirements.

(1) The public hearing officer may grant applicable conveyances of land among immediate family members, but is not mandated to do so.

(2) Each lot must have frontage on a public paved street or road and conform to all applicable zoning standards for the district in which they are located.

(3) The following documents must be presented to the public hearing officer in order to qualify for consideration as land conveyance among immediate family members.

A. A notarized statement certifying to the family relationship of the parties involved in the land conveyance.

B. A survey of the subject property indicating the boundary of the entire parcel and the lots to be transferred to other family members certified by a land surveyor licensed to practice in the State of Alabama and licensed with the City of Huntsville.

C. A copy of a recorded deed for all necessary rights-of-way and easements as required by the city engineer.

(4) A public hearing on family land conveyance shall be held prior to approval of said land conveyance. If the proposed family land conveyance meets all of the provisions of these regulations, the applicant may request that the required public hearing be held by the public hearing officer; otherwise the planning commission shall hold a public hearing prior to granting approval. In either case, the owners of land immediately adjoining the surveyed land shall be notified by registered mail at least five days in advance of the public hearing as to the time and place of such public hearing.

Apartment Site Plan Submission Requirements

Plans for multiple family housing projects that contain two or more buildings per tract or lot, or that contain only one building with main entrances not oriented to directly face a street, shall be approved by the planning commission as required by the City of Huntsville Zoning Ordinance. The procedure for site plan review and approval by the planning commission shall be as follows:

(1) *Application procedure.* Before obtaining a building permit to construct multiple family housing projects described above, an owner of land or his representative shall file an application for approval of a site plan. The site plan application shall:

A. Be made on forms available at the office of the manager of planning.

B. Include payment of an application fee of $100.00 plus $5.00 per proposed dwelling unit.

C. Be accompanied by a minimum of three copies of the general plan as described in these procedures.

D. Be accompanied by one copy of the certified construction plans as described in these procedures.

E. Be accompanied by a vicinity map as described in these procedures.

F. Be accompanied by three copies of a boundary plat as described in these regulations.

G. Be accompanied by the actual closure calculations for the boundary traverse. Such boundary traverse shall close to a minimum accuracy of one part in 5,000.

H. Be presented to the manager of planning sufficiently in advance of the meeting of the subdivision committee of the planning commission to allow time for his review.

(2) *Vicinity map.* The vicinity map shall:

A. Be drawn on planning department zoning maps scaled 400 feet to the inch.

B. Show approximate boundary lines of the proposed project.

C. Show location of existing streets and watercourses.

D. Show the name of the proposed project.

E. Show the names and locations of adjacent owners or developments.

(3) *General plan.* The general plan shall be drawn to a convenient scale of not more than 50 feet to the inch and shall include the following:

A. The date of the map, a reference meridian (designated on the map as either true or magnetic north), scale, title of the project.

B. Names of the owners of the land to be developed, the developer (if other than the owner), the engineer, architect or landscape architect (if any), and surveyor.

C. Tie point to an accepted corner based on the U.S. Government Public Lands Survey System which shall show the relationship to the Huntsville Meridian, all monuments erected, corners and other points established in the field in their proper places.

D. Exact boundary lines of the tract indicated by a heavy line, or other acceptable control traverse, giving distances to the nearest hundredth of a foot and bearings to the nearest minute or second.

E. Topography at five-foot contour intervals.

F. Names of all public streets (if any) and private drives.

G. Easements, buffer strips and public utility right-of-way lines giving widths, locations, and dimensions.

H. Locations of buildings, giving distances between adjacent buildings, between buildings and adjacent property lines, and between buildings and adjacent drives and parking areas.

I. Location and dimensions of internal circulation pattern and parking areas in order to determine adequacy of parking and accessibility to public services.

J. Detailed geometrics of any intersections with public streets, including details of any required median cuts and locations of any existing intersections adjacent to or across from the site.

K. Location of any internal public facilities, such as central solid waste collection containers or central mail facilities, not including facilities required in construction plans.

L. Location of public recreation and activity areas.

M. Location and dimensions of all proposed sidewalks in order to determine the adequacy of pedestrian circulation and accessibility to all proposed facilities.

N. Location and description of all proposed landscaping.

O. Location of any on-site flood hazard districts (including a flood hazard certification).

P. A density table providing the following information: total square feet in the site, total square feet devoted to internal drives, total number of dwelling units allowed by the current zoning ordinance, total number of dwelling units proposed, total number of parking places required by the current zoning ordinance and total number of parking places proposed.

(4) *Construction plans.* The following shall be submitted:

A. A street plan if any public street is proposed as part of the development. The plan shall conform to the requirements of street plans required for subdivision approval and shall be accompanied by a deed dedicating the proposed right-of-way to the public.

B. A grading and erosion and sedimentation control plan. The plan shall conform to the requirements of the grading and erosion and sedimentation control plan required for subdivision approval and shall show existing and finished elevations, including finished floor elevations for all buildings.

C. Plans and certifications for drainage, sanitary sewer, water, electricity, gas and telephone systems conforming to requirements for preliminary plat approval for subdivisions.

D. Other plans including slope map, site assessment map and report, geotechnical investigation and testing plan and report and vegetation plan as required by applicable regulations of articles 3 and 4 of the subdivision regulations.

(5) *Boundary plat.* The boundary plat shall be drawn to a convenient scale of not more than 100 feet to the inch and shall include the following:

A. The names and deed book and page of all adjoining property owners of record or the names of adjoining subdivisions; the names of adjoining streets.

B. Notation of any restrictions by plats, including the density table as described in [sub]section (3)P of this chapter.

C. Names of all internal and adjacent streets.

D. Tie points to an accepted corner based on the U.S. Government Public Lands Survey System which shall show the relationship to the Huntsville Meridian; all monuments erected, all existing monuments, and all proposed monuments, corners and other points to be erected. The material of which the monuments, corners, or other points are or will be made shall be noted at the representation thereof or by legend.

E. Exact boundary lines of the tract indicated by a heavy line, or other acceptable control traverse, giving distances to the nearest hundredth of a foot and bearings to the nearest second of arc. Proper field techniques and survey equipment shall be used, along with an acceptable method of balancing the field data, to achieve a positional accuracy of 1/5,000 for all monuments established, corresponding to third order accuracy.

F. Street centerlines for all internal and adjacent public streets, showing angles of deflection or bearing, angles of intersection, radii, length of tangents and rights-of-ways from each street centerline.

G. Easements, buffer strips and public service utility rights-of-way lines (if any) giving widths, locations, and purposes.

H. Names and addresses of the owner(s) of the land included within the apartment site plan, the developer (if other than the owner), the engineer and surveyor.

I. The date of the map, a reference meridian (designated on the plat either true or magnetic north), scale, title of the development.

J. Endorsements and certificates as follows:

(i) A certificate of accuracy by a surveyor licensed to practice in the State of Alabama and licensed with the City of Huntsville, Alabama.

(ii) A certificate of title showing ownership of land and a written "Title Opinion" certified to by a licensed attorney that all names shown on the survey include all owners as of the date of signing and that the owners of the property are one and the same as those signing the plat.

(iii) A notary's acknowledgment of the certificates referred to in (i) and (ii) above.

(iv) A certificate for approval of City Engineer, City of Huntsville.

(v) A certificate for approval of Huntsville Utilities.

(vi) A certificate for approval of the City of Huntsville Traffic Engineer.

(vii) A certificate for approval by the planning commission.

(viii) A certificate for recording by the probate judge.

(ix) A certificate for approval by the county health officer for developments not served by a sanitary sewer system.

(x) Flood certification as exemplified in article [subsection] 3.4(4)F(xi), "Flood Hazard Certification".

(xi) The endorsements, dedications, and certificates required in (i) through (xi) hereof shall be substantially as exemplified in section 3.4(2)(F.) of the subdivision regulations, except for (vi) and (ix) which shall be substantially as follows:

"The undersigned, as Traffic Engineer of the City of Huntsville or his duly authorized representative, hereby approves the within plat for the recording of same in the Probate Office of _____ County, Alabama, this the _____ day of _____, 20_____.

_____
Name and Title

"From the septic tank information submitted to the _____ County Health Department for lots _____ of _____ subdivision, the following recommendations are made:

a) Lots _____ meet _____ County Health Department requirements and should operate satisfactorily;

b) Lots _____ require further engineering and/or alternative septic system installation;

c) Lots _____ were not tested.

Each lot or tract shall be investigated further and approved or disapproved on its own merits.

The undersigned, a duly authorized representative of the _____ County Health Department, hereby approves the within plat for the recording of same in the Probate Office of _____ County, Alabama, this the _____ day of _____, 20____."

_____
Name and Title

(6) *Review and approval of site plan.* The subdivision committee shall consider the site plan and render a report to the next meeting of the planning commission. After the planning commission has reviewed the site plan, the report of the subdivision committee, and recommendations of involved agencies and officials, it shall approve or disapprove the site plan. Reasons for disapproval of any site plan shall be noted on the plan and returned to the applicant.

(7) *Copy of site plan to certifying agencies.* After the planning commission has approved the site plan, one copy of the approved site plan shall be presented by the applicant or his representative to each of the agencies certifying the construction plans.

(8) *Deeds for rights-of-way and easements.* Prior to approval of the site plan by the planning commission, the owner shall submit the necessary properly executed deeds for all rights-of-way and utility and drainage easements requiring dedication.

(9) *Effective period of apartment site plan approval.* The approval of an apartment site plan shall be effective for a period of three years.

(10) *Recording of boundary plat.* If the boundary plat as approved by the planning commission and signed by the Chairman of the Huntsville Planning Commission is not recorded within six months of the date of approval, the approval shall be deemed to have expired. No building permit shall be issued until the recording of the boundary plat with the judge of probate.

APPENDIX

Adopted amendments to subdivision regulations since July 1991:

Resolution No.	*Date*	*Subject*
10-91	September 24,1991	Amendment to Article 5.1(2)B., Bonds to Insure Performance Duration of bonds
11-91	October 29, 1991	Amendment to Article 5.1(2)C. and D., Bonds to Insure Performance Extension of bonds insuring completion of sidewalks
17-91	January 8, 1992	Amendment to Article 6.1, Definitions - Minor Subdivision Definition of a minor subdivision
3-92	January 28, 1992	Amendment to Article 6.1, Definitions - Minor Subdivision by adding (3) Definition of a minor subdivision
13-92	June 23, 1992	Amendment to Article 4.10 - Utilities Underground wiring
14-92	July 28, 1992	Amendment to Article 3 and Apartment Site Plan Reorganization and compilation of required construction plans
19-92	July 28, 1992	Amendment to Article 3.2 - Layout, 3.3(4)H. Construction Plans, Utilities, Except Natural Gas. 4.10 - Utilities Common trenching within the Slope Development District
15-92	September 22, 1992	Delete references to the planning jurisdiction and county engineer
17-92	December 22, 1992	Amendment to Article 7 - Requirements for Land Conveyance Among Immediate Family Members Requirement that a public hearing be held prior to a Family Land Conveyance
2-93	February 23, 1993	Amendment to Article 4.5 - Roads (5) General Design Standards Reduction in minimum right-of-way requirements
19-93	November 23, 1993	Amendment to Article 4.5 - (5) General Design Standards

Resolution No.	*Date*	*Subject*
		Reorganization of Table 1 and substitution of "lane widths" for "pavement widths" for major streets
20-93	November 23, 1993	Amendment to Article 4.5(10) Traffic Control Devices and Street Name Signs Adding standards for said devices and signs
22-93	December 21, 1993	Amendment to Article 4.5(8) Road Surfacing and Improvements Requirement for curbs and gutters on existing non-curb and gutter streets
23-93	December 21, 1993	Amendment to Article 2.2 Words and Terms Defined and Article 4.5(5) Design Standards Definition and Standards for a Parkway
24-93	December 21, 1993	Amendment to Article 3.3(3) Preliminary Plats Requirements Requirements for geodetic control and references
4-94	August 23, 1994	Amendment to Article 5.1(2)B., Bonds to Insure Performance Allowing the initial posting of bonds for sidewalk improvements to be for a three-year period
5-94	August 23, 1994	Amendment to Article 6.3(2)H. Layout Requirements Deletion of sidewalk improvements in minor subdivisions unless the subdivision adjoins the portion of a road that is scheduled to have a sidewalk installed according to the Sidewalk Improvement Plan
8-94	December 20, 1994	Amendment to Article 3.3(4)B.(vi), 3.3(4)D.(x), 3.3(4)E.(i)j., 3.4(2)F.(v), 5.2(2) Certifications for Engineer of Record and Owner Delete references to Huntsville Department of Transportation and Director of Department of Transportation and change to Traffic Engineer

Resolution No.	*Date*	*Subject*
8-96	April 23, 1996	Amendment to Article 4.5(5) Table 3 Requiring cul-de-sac exceeding 800′ in length in Slope Development District to have 50′ right-of-way and 26′ pavement width
8-96	April 23, 1996	Amendments to Article 4.5(6)B, C and D. Modification of Minimum Design Standards Allowing cul-de-sac length in excess of 1200′ if 25 dwelling units or less gain access from said cul-de-sac
9-96	April 23, 1996	Amendment to Article 4.14(2) and (3) Building Restrictions Reducing minimum restricted use area setbacks to 25′ on certain features
9-96	April 23, 1996	Amendment to Articles 3, 4 and 5 Delete references to Mountainside Development District and "Level K" and change to Slope Development District and Hazard Zone
13-96	November 26, 1996	Amendment to Articles 3.3(4)G, 3.4(2)F and 6.4(2)R Certifications for County Health Departments
3-97	January 28, 1997	Amendment to Article 5.1(2)C Extension of sidewalk bonds allowable until over 75 percent of lots receive certificates
9-97	October 28, 1997	Amendment to Article 3.3(4)G, 3.4(2)F and 6.4(2)R Certifications for County Health Dept.
9-97	October 28, 1997	Amendment to Article 3.4(2)F(iii) Notary acknowledgment of non-corporate ownership certificate
9-97	October 28, 1997	Amendment to Article 5.2(2) Certificate of satisfactory completion concerning three-year sidewalk bonds
2-98	April 28, 1998	Amendment to Article 4.5(5) Add standards and requirements for mini-farm residential subdivisions
4-98	May 26, 1998	Amendment to Article 3.3(1), 3.3(3), 3.4(1)

Resolution No.	*Date*	*Subject*
		Requiring digital submittals of subdivision plans
8-98	July 28, 1998	Amendment to Apartment Site Plan Submittal
		Requiring boundary plat submittal
10-98	November 24, 1998	Amendment to Article 5
		Add certificate of satisfactory completion requirements for private subdivisions

CODE COMPARATIVE TABLE

1982 CODE

This table gives the location within this Code of those sections of the 1982 Code, which was current through February 12, 1981, that are included herein. Sections of the 1982 Code, not listed herein have been omitted as repealed, superseded, obsolete or not of a general and permanent nature. For the location of ordinances adopted subsequent thereto, see the table immediately following this table.

CODE COMPARATIVE TABLE

ORDINANCES

This table gives the location within this Code of those ordinances adopted since the 1982 Code, which was current through February 12, 1981, that which are included herein. Ordinances adopted prior to such date were incorporated into the 1982 Code. This table contains some ordinances which precede February 12, 1881, but which were never included in the 1982 Code, as supplemented, for various reasons. Ordinances adopted since February 12, 1981, and not listed herein have been omitted as repealed, superseded or not of a general and permanent nature.
