§ 1429-01. Specific Purposes.

In addition to the general purposes listed in Chapter 1400, General Provisions and Rules of Measurement, the specific purposes of the PD Planned Development District are to:

(a) Establish a procedure for the development of land in order to allow for a more efficient and economic development of property than ordinarily permitted by conventional zoning and subdivision regulations.

(b) Ensure orderly and thorough planning and review procedures that lead to quality design and development.

(c) Encourage creativity in developments by allowing greater flexibility in access, light, open space and amenities.

(d) Encourage common open space and provide for its maintenance.

(e) Encourage the coordinated development of properties that might otherwise be developed individually, which may be a detriment to the surrounding neighborhoods and the developer.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1429-03. Land Use Regulations.

Any use authorized by this Cincinnati Zoning Code may be permitted in any specific PD District and located and conducted in accordance with the applicable regulations adopted pursuant to this Chapter to govern each specific PD District.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1429-05. Basic Requirements.

PD Districts and development within PD Districts must comply with the following:

(a) *Minimum Area.* The minimum area of a PD District is 1.5 contiguous acres. Council may approve a PD District that contains less than the minimum acreage required for an area on an affirmative recommendation of the City Planning Commission, finding that special site characteristics exist and the proposed land uses justify development of the property as a PD.

(b) *Ownership.* Evidence that the applicant has sufficient control over the tract of land to effect the proposed plan, including a list of all ownership and beneficial interests in the tract of land and the proposed development.

(c) *Multiple Buildings on a Lot.* More than one building is permitted on a lot.

(d) *Historic Landmarks and Districts.* Whenever a Planned Development application is filed for a property wholly or partially located within a historic landmark, historic district or involving a historic structure, the Historic Conservation Board shall advise the City Planning Commission relating to approval of the Final Development Plan.

(e) *Hillside Overlay Districts.* Whenever a Planned Development application is filed for a property wholly or partially located within a Hillside Overlay District, the City Planning Commission shall approve the Final Development Plan.

(f) *Urban Design Overlay Districts.* Whenever a Planned Development Urban Design Overlay application is filed for a property wholly or partially located within an Urban Design Overlay District, the City Planning Commission shall approve the Final Development Plan.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; a. Emer. Ord. No. 199-2024, § 2, eff. 7-1-2024)

§ 1429-07. Establishment of Districts.

PD districts may be established, modified or removed from the zoning map and the regulations applicable to any specific PD District may be established, modified or deleted as an amendment to the zoning map. A PD District is identified on the zoning map with the letter coding "PD" followed by a specific reference number identifying each separate district. All use regulations, Planned Development Plans, development schedules and other regulatory provisions adopted pursuant to this chapter that apply to any specific PD District, are part of the Cincinnati Zoning Code as if fully set forth in the Cincinnati Zoning Code and identified by reference to the corresponding designation of each specific PD District on the zoning map.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1429-09. Concept Plan and Development Program Statement.

A petition to rezone property to a PD District must have a concept plan and development program statement included. The purpose of the concept plan and development program statement is to describe the proposed use or uses to be conducted in the PD District, including regulations governing permitted uses, conditional uses, site use and development, off-street parking and loading requirements and other special regulations that may be appropriate to govern development, use and maintenance of the site or sites included within the PD District. Applicants are encouraged to engage in informal consultations with the Department of City Planning staff prior to preparing plans; however, no statement or representation by staff is binding on either the department or the City Planning Commission. The concept plan and development program statement must include a text and diagram or diagrams that specify:

(a) *Plan Elements.* A survey of the tract to be developed, providing a metes and bounds description of the property and the survey of property lines and total acreage. Additionally, the plan should include the location in general terms, of land areas to be developed, including: type and description of proposed land uses, buildings and structures; street rights-of-way and driveways; parcel boundaries and proposed lots, including set back lines; building heights; pedestrian circulation systems and open space or other facilities; and proposed topography, drainage, landscaping and buffer plantings.

(b) *Ownership.* Evidence that the applicant has sufficient control over the tract of land to effect the proposed plan, including a list of all ownership and beneficial interests in the tract of land and the proposed development.

(c) *Schedule.* Time schedule of projected development, if the total site is to be developed in phases or if construction is to extend beyond a two year time period.

(d) *Preliminary Reviews.* A preliminary review of geo-technical, sewage, water, drainage and refuse collection.

(e) *Density and Open Space.* Calculations of density and open space area.

(f) *Other Information.* Any other information requested by the Director of City Planning or the City Planning Commission.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 141-2015, § 37, eff. July 1, 2015)

§ 1429-11. City Planning Commission and Council Action.

The City Planning Commission has the duty to consider an application for reclassification to a PD District as an amendment to the zoning map and to consider at the same time the proposed concept plan and development program statement. A Commission recommendation to reclassify to a PD District must be accompanied by an approval or a conditional approval of a concept plan and a development program statement.

(a) *City Planning Commission Action.* The City Planning Commission may recommend approval or conditional approval, with restrictions on the establishment of a PD District as the Commission deems necessary for the protection of the public interest and to secure compliance with the development program statement, on finding that all of the following circumstances apply:

(1) The PD concept plan and development program statement are consistent with applicable plans and policies and is compatible with surrounding development;

(2) The PD concept plan and development program statement enhance the potential for superior urban design in comparison with the development under the base district regulations that would apply if the plan were not approved;

(3) Deviations from the base district regulations applicable to the property at the time of the PD application are justified by compensating benefits of the PD concept plan and development program statement; and

(4) The PD concept plan and development program statement includes adequate provisions for utility services, refuse collection, open space, landscaping, buffering, pedestrian circulation, traffic circulation, building design and building location.

(b) *Council Action.* Council has the duty to consider the recommendation of the City Planning Commission in the same manner as a proposal to amend the zone map.

(c) *Lapse of Approvals.* Approval of a concept plan and development program statement lapses two years from its effective date unless:

(1) A final development plan has been approved, or

(2) The City Planning Commission has approved an extension of time that may not exceed one year.

If an approval of a concept plan and development program lapses, the PD District designation is to be removed from the zoning map and the zoning of the PD District reverts to the zoning district designation in effect immediately before the PD designation.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1429-12. Amendments to a Planned Development Concept Plan.

Concept Plans may be amended as follows:

(a) *Minor Amendments.* The Director of City Planning may approve minor amendments provided that they do not change building heights by more than ten percent, floor area by more than five percent, decrease parking spaces by more than ten percent or allow buildings or accessory uses closer to the perimeter property lines.

(b) *Major Amendments.* Amendments to any Concept Plan other than a minor amendment must be approved by the City Planning Commission. Amendments that change the uses allowed or change the density of the development by more than ten percent require approval of the City Planning Commission and Council as a zoning map amendment.

(Ordained by Ord. No. 410-2008, § 1, eff. Jan. 4, 2009)

§ 1429-13. Final Development Plan.

Following approval of a PD District with a concept plan and development program statement, a final development plan must be submitted to the City Planning Commission. A final development plan must be filed for any portion of an approved concept plan that the applicant wishes to develop and this plan has to conform substantially to the approved concept plan and Development Program Statement. The final development plan must include in text and map form:

(a) *Survey.* Plan or survey of the parcel to be developed showing existing and proposed physical features, including: topography, drainage, open space areas and landscaping; and streets, easements and utility lines.

(b) *Site Plan*. A site plan showing the location and arrangement of all existing and proposed structures, including building pads, the proposed internal and external traffic circulation pattern, the areas to be developed for parking, the relationship of abutting land uses and zoning districts, proposed lot lines, building setbacks, proposed sidewalks and pedestrian walkways and proposed public or common open space or other public facilities.

(c) *Engineering Plans*. Engineering plans, including: site grading; street improvements; drainage and utility improvements and extensions as necessary.

(d) *Open Space*. A statement of the anticipated open space, gross density and net density.

(e) *Schematic Building Plans*. Plans showing building footprints, schematic floor plans and exterior elevations and types of building materials.

(f) *Landscape Plans*. Landscaping plans showing the placement of trees, shrubs, ground cover and associated structures and improvements, including specifications, species and quantities.

(g) *Phase Schedule*. A schedule for the development of such phases must be submitted when a development is to be constructed in phases.

(h) *Ownership*. Evidence that the applicant has sufficient control over the tract to effect the proposed plan, including a list of all ownership and beneficial interests in the tract of land and the proposed development.

(i) *Statement of Uses*. A statement identifying the principal uses that are to be included in the proposed development.

(j) *Future Ownership and Control*. Statement on the present and future ownership and control of the development delineating responsibilities of maintenance and upkeep of the buildings, streets, drives, parking areas, utilities, common areas and common facilities.

(k) *Restrictive Covenants*. Copies of any restrictive covenants that are to be recorded with respect to property included in the PD District.

(l) *Other Information*. Any other information requested by the Director of City Planning or the City Planning Commission as deemed necessary.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 141-2015, § 38, eff. July 1, 2015)

§ 1429-15. Planning Commission Approval of Final Development Plan.

The City Planning Commission may approve a final development plan for a development in a PD District on consideration of the following:

(a) *Consistency*. The final development plan is consistent with the purpose of the Planned Development District Regulations;

(b) *Adequate Streets*. The existing and proposed internal and external streets are adequate to serve the proposed development and properly interconnect with the surrounding existing road network;

(c) *Adequate Infrastructure*. The proposed infrastructure, utilities and all other proposed facilities are adequate to serve the planned development and properly interconnect with existing public facilities;

(d) *Covenant*. The Department of City Planning must require covenants by the owner of the property in a form acceptable to the City Solicitor to be recorded indicating that the open spaces, parking areas, walks and drives as shown on the plan may not be used for any other purpose. The owner must further covenant that all streets, common areas, common utilities and other common facilities remain in common ownership by all owners of any interest in the land or buildings in the Planned Development other than a leasehold interest of less than five years. (See § 1441-07).

(e) *Release of Covenants*. The City Manager, on receipt of a recommendation from the Director of City Planning, may recommend the covenant be terminated in the

following instances: the particular use requiring a covenant is no longer necessary and the building permits have been terminated, or the condition or conditions requiring such covenant are no longer applicable.

(f) *Compatibility*. The proposed uses, location and arrangement of structures, lots, parking areas, walks, open spaces, landscaping, lighting and appurtenant facilities are compatible with the surrounding land uses;

(g) *Sufficiency of Legal Documents*. Proposed covenants, easements and other provisions meet development standards; and

(h) *Sufficiency of Provisions for Maintenance of Common Areas*. Open space and common areas are identified and provisions have been made for the care and maintenance of such areas.

§ 1429-16. Concurrent Approval of Concept Plan, Development Program Statement and Final Development Plan.

The City Planning Commission may review and approve the Concept Plan, Development Program Statement and the Final Development Plan concurrently, provided that the applicant meets the submission requirements of both the Concept Plan and the Final Development Plan. The Planning Commission's approval of the Final Development Plan is contingent on the applicant obtaining City Council's approval of the Planned Development map amendment without changes.

§ 1429-19. Limitation on Final Plan Implementation.

Final development plans are subject to the following:

(a) *Expiration.* A final development plan is effective on the date approved by the City Planning Commission and expires after two years unless a building permit has been issued and construction diligently pursued. An approved final development plan may specify a development staging program exceeding two years.

(b) *Renewal.* The City Planning Commission may renew a final development plan for one year subject to a reevaluation of conditions of approval as specified in the decision or renewal application, if it finds the renewal consistent with the purposes of this chapter. Application for renewal must be made in writing to the Director of City Planning not less than 30 days nor more than 120 days prior to expiration.

(c) *Reversion to Prior Zoning.* If a building permit has not been issued and construction diligently pursued, or a renewal approved within two years of the effective date of approval by the City Planning Commission, the PD District designation is to be removed from the zoning map and the zoning of the PD District revert to the zoning district designation in effect immediately before the PD designation.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 141-2015, § 40, eff. July 1, 2015)

§ 1429-21. Final Development Plan Amendments.

Final development plans may be amended as follows:

(a) *Minor Amendments.* The City Planning Commission may authorize minor adjustments in the final development plan that become necessary because of field conditions, detailed engineering data, topography or critical design criteria. More specifically, the City Planning Commission may authorize the Director of City Planning to approve these minor adjustments to revise size and location of drainage ways, sewers, roadways, retaining walls or similar features and to substitute landscape materials in light of technical or engineering considerations. The Director of City Planning may also authorize structural dimensional changes provided that they do not increase building heights by more than 15 feet, gross floor area by more than five percent, decrease the number of parking spaces by more than ten percent or allow buildings closer to perimeter property lines.

(b) *Major Amendments.* Amendments to any final development plan other than a minor amendment may be approved only by the City Planning Commission, provided, however, that the City Planning Commission determines that such adjustments do not substantially alter the concept or intent of the approved final development plan. Amendments that change the uses allowed or materially change the density of the development require approval of Council as a zoning map amendment.

§ 1429-23. Delegation of Duties.

The Director of City Planning may designate a person to perform the duties imposed on the director by this chapter if the director would have a conflict of interest or appearance thereof or if such appointment is necessary for the efficient operation of the department.

§ 1431-01. Purpose.
§ 1431-03. Applicability and Zoning Map Designator.
§ 1431-05. Establishment of IDC Overlay Districts.
§ 1431-07. IDC Application Review Guidelines.
§ 1431-09. Three-Month IDC Overlay Districts.
§ 1431-11. One-Year IDC Overlay Districts.
§ 1431-13. Extension of IDC Overlay Districts.
§ 1431-15. Applications Subject to Review.
§ 1431-17. Standards for Review.
§ 1431-19. Review of Permit Applications.
§ 1431-21. Appeals.

§ 1431-01. Purpose.

The purpose of the Interim Development Control (IDC) Overlay District is to temporarily regulate the establishment of uses, construction of new buildings and demolition or alteration of existing structures in areas where potential development could be detrimental or have adverse impacts on the implementation of approved amendments to the Cincinnati Zoning Code, approved or adopted plans, or current planning, land use or zoning studies.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 218-2012, § 1, eff. June 20, 2012)

§ 1431-03. Applicability and Zoning Map Designator.

An IDC Overlay District may be applied to any district. It is adopted as an amendment to the Zoning Map. This Overlay District is shown on the zoning map by an IDC designator applied to the base district designation. Where inconsistencies exist between the IDC Overlay District regulations and other provisions of the Cincinnati Zoning Code and the Municipal Code, the IDC Overlay District regulations apply.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1431-05. Establishment of IDC Overlay Districts.

After receiving an affirmative recommendation from the City Planning Commission, Council may establish an IDC Overlay District on finding that:

(a) *Proposed Amendments.* Amendments to the Cincinnati Zoning Code have been approved or are under consideration through the following actions:

(1) The City Planning Commission has approved amendments to the Cincinnati Zoning Code; or

(2) The City Planning Commission has approved or adopted a comprehensive plan, community plan, urban design, urban renewal plan or other planning document which contains recommendations to amend the Cincinnati Zoning Code; or

(3) The City Planning Commission, City Council or the City Manager has directed city administration to study planning, land use or zoning issues in the proposed IDC Overlay District boundary.

(b) *Study and Review.* The proposed amendments may substantially affect permitted uses in the area of consideration and will require the study and review by the City Planning Commission, city administration and Council prior to adoption; and

(c) *Public Interest.* The protection of the public interest requires that interim development controls be imposed during the period of study and review by the City Planning Commission.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 218-2012, § 1, eff. June 20, 2012)

§ 1431-07. IDC Application Review Guidelines.

The ordinance to adopt an IDC Overlay District must:

(a) *Applications Subject to Review.* Specify which of the following permit applications are to be reviewed by the City Planning Commission. The applications may include:

(1) Building permits for new construction, demolition of existing structures, exterior or interior alterations or additions to existing structures and changes in use.

(2) Building permits for signs.

(3) Building permits for site improvements.

(4) Permits for the construction or reconstruction of streets or sidewalks.

(5) Subdivision improvement plans.

(6) Excavation and fill permits.

(7) Certificate of Compliance.

(b) *Application Review Guidelines.* Adopt application review guidelines for each application subject to review specified in § 1431-15 for the purposes of providing the City Planning Commission with criteria for the exercise of its authority, as granted in this chapter.

[(c)] *Administrative Review.* Designate the city department, division, or official responsible for conducting the administrative review of these applications.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1431-09. Three-Month IDC Overlay Districts.

Council may establish IDC Overlay Districts to remain in effect for three months without prior notice, advertisement or public hearing. The Director of City Planning has the duty to give notice of the establishment of the district and the time and place of a public hearing on the extension of the district for an additional nine-month period within ten business days of the establishment of an IDC Overlay District, by placing an advertisement in a newspaper of general circulation and, if less than 100 parcels of property are within the district, by sending the notice to all owners of record.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 141-2015, § 43, eff. July 1, 2015)

§ 1431-11. One-Year IDC Overlay Districts.

Council may establish IDC Overlay Districts to remain in effect for one year, or extend IDC Overlay Districts established pursuant to § 1431-09 for nine additional months if notice has been given and a public hearing held in accordance with § 111-1, Hearings on Zoning Amendments, of the Municipal Code and on finding that:

(a) *Ongoing Study.* The City Planning Commission is studying proposed Cincinnati Zoning Code or map amendments that would affect the area within the IDC District;

(b) *Study Completion.* The study is not yet completed, but may reasonably be expected to be completed and Cincinnati Zoning Code amendments enacted within the year; and

(c) *Inconsistent Uses.* There is a prospect of changes in use, construction of new structures or alteration or demolition of existing structures that would be inconsistent with preliminary objectives or findings for the area approved by the City Planning Commission.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1431-13. Extension of IDC Overlay Districts.

Council may extend the duration of an IDC Overlay District by an additional six months, provided that an IDC Overlay District may not remain in effect for more than two years from the date it was first established. Notice is to be given and a public hearing held in accordance with § 111-1, Hearings on Zoning Amendments, of the Municipal Code prior to the adoption of

any IDC Overlay District extension. Council may only adopt an IDC Overlay District extension after receiving an affirmative recommendation from the City Planning Commission and finding that:

(a) *Complex Study.* The study of the proposed amendment to the Cincinnati Zoning Code or map that would affect the allowable land uses within the IDC Overlay District has proven to be extraordinarily complex by reason of unusual geographic, physical or social conditions in the district;

(b) *Study Incomplete.* The City Planning Commission has not yet completed the consideration of the proposed Cincinnati Zoning Code map amendments that would affect the allowable land uses within the IDC Overlay District; and

(c) *Inconsistent Uses.* There is a prospect of change in use, construction of new structures or alteration or demolition of existing structures that would be inconsistent with preliminary objectives or findings for the area approved by the City Planning Commission.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1431-15. Applications Subject to Review.

The City Planning Commission has the duty to review applications in an established IDC Overlay District as specified in the ordinance that enacted the IDC Overlay District.

A permit made subject to review pursuant to the ordinance establishing the IDC District may not be issued unless approved by the City Planning Commission.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1431-17. Standards for Review.

The administrative reviewer appointed pursuant to subparagraph 1431-7(c) has the duty to prepare an advisory report that evaluates whether the proposed work is in compliance with the application review guidelines adopted. The administrative reviewer has the duty to file the report with the City Planning Commission within 30 business days of the date of application.

The City Planning Commission may approve applications in an established IDC Overlay District if the proposed work is in compliance with the application review guidelines adopted pursuant to subparagraph 1431-7(b), on finding that:

(a) *Proposed Work Permitted by Current and Proposed Zoning.* The proposed work is permitted or conditionally permitted in the base district, conforms to all standards and performance criteria of the Cincinnati Zoning Code and does not conflict with any proposed amendment to the Cincinnati Zoning Code then under consideration by the City Planning Commission or Council.

(b) *Proposed Work Compatibility.* The proposed work is compatible with the predominant or prevailing land use, building and structure patterns in the surrounding neighborhood and community.

(c) *No Detrimental Effect to the Public.* The proposed work is not detrimental to the public peace, health, safety or general welfare.

(d) *No Adverse Effect on Adjoining Properties.* The proposed work has no adverse effect on the access to the property for fire and police protection and adequate public facilities and

services, access to light and air from adjoining properties, traffic conditions, transportation requirements and facilities or development and use of adjacent land, structures and buildings.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; a. Ord. No. 253-2005, eff. July 21, 2005)

§ 1431-19. Review of Permit Applications.

After receiving an advisory report from the administrative reviewer, the City Planning Commission has the duty to consider applications for permits as follows:

(a) *Public Hearing.* The City Planning Commission has the duty to hold a public hearing on the application at a regularly scheduled Commission meeting within 30 days of acceptance of the advisory report prepared pursuant to § 1431-17. Notice of the hearing must be sent to the applicant, owners of record of adjoining properties and any person requesting notice. Notice must be published in the City Bulletin in advance of the hearing. Testimony at the hearing will be taken under oath and recorded and the reviewer responsible for preparing the advisory report must appear. The applicant is permitted to be heard in person or through an attorney and may present evidence and cross-examine opposing witnesses.

(b) *Exceptions From Underlying Zone District Regulations.* The City Planning Commission may grant exceptions from the underlying zone district regulations other than those relating to use, maximum number of dwelling units and maximum floor area ratio, when the exceptions are consistent with the application review guidelines adopted pursuant to § 1431-07 and the standards for review set forth in § 1431-17.

(c) *Decision of The City Planning Commission.* The City Planning Commission has the duty to make a decision on the application within 14 days of the close of the public hearing. The application may be approved, subject to conditions necessary to ensure that the development plan is lawful and in the public interest. If the application is disapproved, the reasons must be stated in writing as findings of fact and conclusions of law. The failure of the proposed work to conform with any single factor is not necessarily a sufficient basis for denial. The City Planning Commission has the duty to approve an application that maximizes both the public interest and private benefits generally. The City Planning Commission has the duty to send its conclusions to the applicant, appropriate city officials and others who request a copy.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; a. Ord. No. 253-2005, eff. July 21, 2005)

§ 1431-21. Appeals.

Any adversely affected person may appeal a decision of the City Planning Commission made pursuant to this chapter to Council pursuant to the provisions of § 111-3, Appeals to Council, of the Municipal Code. The notice of appeal must be filed with the Clerk of Council within 30 days of the mailing of the City Planning Commission's decision to the applicant. Those "adversely affected" include the applicant or any other person, organization or association, who appeared before the City Planning Commission personally, by representative or in writing and expressed a position contrary to the decision of the City Planning Commission.

§ 1433-21. Approval.
§ 1433-23. Hillside Development Standards.
§ 1433-25. Appeal.

§ 1433-01. Specific Purposes.

The purpose of the Hillside Overlay District regulations is to establish standards to assist in the development of land and structures in existing hillside areas and procedures for the review of proposed development, so that development will be compatible with the natural environment and respect the quality of the urban environment in those locations where the hillsides are of significant public value. These regulations are intended to prevent damage to the City's hillsides by minimizing:

(a) Blighting influences caused by the application of conventional land use regulations to lots in areas having sensitive environmental qualities.

(b) Unstable land.

(c) Significant damage to or destruction of hillsides or valleys.

(d) Significant damage to the economic value and efficiency of operation of existing properties or new developments due to the interdependence of their visual and functional relationships.

(e) Soil erosion and stream siltation.

(f) Destruction of mature trees and existing vegetation.

In hillside areas, the existence of a 20 percent slope, in combination with the KOPE geologic formation, is evidence of a condition of natural critical stability and development under conventional regulations may precipitate landslides or excessive soil erosion. The additional regulations embodied in the Hillside District are needed to respect the contours and views of the hills for all equally, not for the sole benefit of a few individuals.

§ 1433-03. Definitions.

For purposes of this chapter, words and phrases defined below have the meanings ascribed to them; additional definitions are in Chapter 1401, Definitions.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-B. Brow.

"Brow" means a brow of the hill that is the separator between the hilltop that is level or gently sloping and the hillside that is steeply sloped.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-C. Cincinnati Hillside Development Guidelines.

"Cincinnati Hillside Development Guidelines" means the guidelines prepared in 1975 by the Cincinnati Institute for the City Planning Commission which are adopted as an appendix to this chapter. These guidelines are for the evaluation of proposed projects within adopted Hillside Overlay Districts.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-C2. Colluvium.

"Colluvium" means soil material, rock fragments or both, moved by creep, slide or local wash deposited on or at the base of hillside slopes.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-H. Hillside Study.

"Hillside Study" means the report prepared by the City Planning Commission in 1969 for general public distribution; this study identified the 23 critical hillsides within the City of Cincinnati, their natural characteristics and general suitability for development.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-I. 1980 Inventory of Hamilton County Soils.

"1980 Inventory of Hamilton County Soils" means the report prepared by the Ohio Department of Natural Resources Division of Lands and Soil in conjunction with the Soil Conservation Service of the U.S. Department of Agriculture. This study may be used to evaluate the impact and feasibility of development.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-K. KOPE Formation.

"KOPE formation" means the shale bedrock that is overlaid by colluvium soils. (See § 1433-03-C2). The colluvium forms a deposit that is thin on the steeper, higher slopes and gradually becomes thicker near the bottom of the hill. Landslides may occur in the colluvium, because the colluvium is derived from the weathering of bedrock.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-L. Landslide Indicia.

"Landslide Indicia" means geographical contour information included in the Cincinnati Area Geographic Information System (CAGIS) that illustrates both the degree of slope (See § 1433-03-S) as well as irregularities, the presence of which indicate existing or potential landslides. Primary examples of irregularities include:

(a) A significant variation in the degree of slope within a given hillside, and

(b) Very closely spaced contours, particularly near the bottom of a slope.

Either of these characteristics may indicate existing or dormant landslides. These characteristics, when combined with the soil type provide a basis for identifying hillsides where site-specific geotechnical investigations are needed.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-L1. Landslide Susceptible Soils.

"Landslide Susceptible Soils" means a soil of any of the following types when found on slopes of 20 percent or steeper. (See 1980 Inventory of Hamilton County Soils and Landslide Susceptibility Study and Map).

(a) Bonnell Silt Loam

(b) Casco Loam

(c) Eden Silty Clay Loam

(d) Hennepin Silt Loam

(e) Markland Silty Clay Loam

(f) Miamian-Hennepen Silt Loam

(g) Pate Silty Clay Loam

(h) Switzerland Silt Loam

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-L2. Landslide Susceptibility Study and Map.

"Landslide Susceptibility Study and Map" means the study and map prepared in 1980 by the consulting firm of Sowers and Dalrymple for the Department of Transportation and Engineering. This map, which divides the City of Cincinnati into four categories of landslide susceptibility, is also used to determine the need for further geotechnical investigation. Low, moderate, moderately high and high landslide susceptibility categories are used in the determination of HS overlay district boundaries.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-03-S. Slope.

Slope means the inclination of the land surface from the horizontal. Percentage of slope is the vertical distance divided by horizontal distance, then multiplied by 100. Thus, a slope of 20 percent is a rise of 20 feet in 100 feet of horizontal distance.

$$\text{Slope(s)} = \frac{\text{difference between contour elevation (rise)}}{} \times 100$$

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-05. HS Zoning Map Designator.

A Hillside Overlay District is shown on the zoning map by a HS designator applied to the base district designation. This designation is based upon a moderately high or high landslide susceptibility pursuant to the landslide susceptibility study and map: Any real property either whole or in part within said moderately high or high susceptibility areas should be classified as being within a HS District.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-07. Applicability.

Except as otherwise provided in this chapter, all regulations of the underlying zone districts and other applicable overlay districts apply to and control property in an HS District; provided, however, that in the case of conflict between the provisions of an underlying zoning district and the HS District, the provisions of the HS District govern.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-09. Criteria for Establishment of an HS District.

Council may establish HS Districts to include at least 50 percent of its area within one or more of the 23 hillside areas listed in the Hillside Study. The area with a HS overlay district must contain four of the following seven characteristics:

(a) Slopes of 20 percent or greater;

(b) Existence of KOPE geologic formations;

(c) A minimum of one acre of contiguous land area;

(d) Prominent hillsides that are readily visible from a public thoroughfare located in a valley below a hillside;

(e) Hillsides that provide views of a major stream or valley;

(f) Hillsides functioning as community separators or community boundaries as identified in a community plan accepted and approved by the City Planning Commission; and

(g) Hillsides that support a substantial natural wooded cover.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-11. Exempt Permits.

The following are exempt from the provisions of this chapter:

(a) Permits for roof, gutter and chimney repair or replacement, plumbing, heating, air conditioning, elevators, fire alarms and extinguishing equipment and all other mechanical and electrical equipment.

(b) Permits necessary for compliance with retroactive provisions of the Cincinnati Building Code.

(c) Permits necessary for compliance with a lawful order of the Director of Buildings and Inspections, including deficiencies listed in Certificates of Inspection.

(d) Permits necessary to ensure the immediate public health or safety.

(e) Building permits for interior alterations and repairs, demolition or wrecking, driveways, fences and signs.

(f) Permits for construction of public utilities in the public right-of-way.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-13. Applications Subject to Review.

The Zoning Administrator has the duty to review the following permits in an established HS District for compliance with the base requirements of this district.

(a) *New Buildings.* Permits for construction of new primary buildings and accessory structures larger than 600 square feet in area or 15 feet in height.

(b) *Alterations to Residential Buildings.* Permits for alterations, additions and repairs to the exterior of residential buildings that result in an increase of dwelling units or exceeds the maximum building envelope.

(c) *Alterations to Non-Residential Buildings.* Permits for alterations, additions and repairs to the exterior of all non-residential buildings in which the estimated improvement costs exceed $5,000;

(d) *Excavation and Fill Permits.* Permits for excavation and fill.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 141-2015, § 44, eff. July 1, 2015)

§ 1433-15. Application Requirements.

In addition to the requirements for applications established in Chapter 1441, Application Procedures, Fees, Permits and Certificates, applications for development in the HS District that are not exempt under § 1433-11 must include:

(a) A development plan, accompanied by a property survey, showing existing vegetation and proposed development, and where applicable, streets, drives, parking areas, walkways, heights of structure(s), location of structures, elevation and setback of proposed buildings, drainage, existing contours and proposed grading and new landscaping plans, proposed uses and square footage of uses and recreational facilities;

(b) A preliminary geotechnical evaluation;

(c) A determination of the maximum building envelope;

(d) Average slope/grade of the property; and

(e) Graphic illustrations demonstrating that the proposed improvement or new structure has not exceeded the maximum building envelope.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1433-17. Determination of Maximum Building Envelope.

Each applicant must establish a maximum building volume area to determine the size of a structure that can be built on the site by calculating the following in accordance with the rules of measurement set forth in Chapter 1400:

(a) *HS Rear Yard Setback.* Average rear yard setback of abutting structures on both sides; or the required rear yard setback of the underlying district if no abutting structure(s) exists.

(b) *HS Side Yard Setback.* Average side yard setback of abutting structures on both sides; or the required least width side yard setback of the underlying district if no abutting structure(s) exists.

(c) *HS Front Yard Setback.* Average front yard setback of abutting structures on both sides; or the required front yard setback of the underlying district if no abutting structure(s) exists.

(d) *HS Height of Front.* Maximum height of the front of the structure; either the maximum height of the underlying zoning district or the average height of the front of abutting structures having the same street frontage as measured from the finished grade of the front of each abutting structure, whichever is greater.

(e) *HS Height of Rear.* Maximum height of the rear of the structure; either the maximum height of the underlying zoning district or the average height of the rear of abutting structures having the same street frontage as measured from the average grade, whichever is greater.

The maximum building envelope is the solid defined by vertical planes constructed at the HS rear, side and front yard setbacks and the plane between the HS height of front and the HS height of rear.

§ 1433-19. Base Development Requirements.

An application subject to review must comply with the following requirements:

(a) *Maximum Building Envelope.* A new building or a building alteration, addition or repair must be contained within the maximum building envelope.

(b) *Height Versus Width.* Buildings proposed on top of the hillside must be taller than wider to accentuate the vertical dimension.

(c) *Stepping.* Buildings proposed below or above the brow of the hill must be staggered or stepped in depth and width to match topography and slope.

(d) *Maximum Retaining Wall Height.* Retaining walls may not exceed eight feet in height.

(e) *Rooftop Utilities.* Rooftop utilities and mechanical equipment should be avoided. If rooftop utilities and mechanical equipment are necessary, screening and sound control must be provided to integrate them into the rooftop.

(f) *Landscaping of Pervious Surfaces.* All pervious surfaces remaining after completion of construction must be landscaped in trees, shrubs, grass or other ground covers to promote hillside stability and reduce excessive water runoff.

(g) Excavation and fills should not exceed eight feet in cumulative height. Excavation and/or fill of any height or cumulative amount that is not tied to a specific development is expressly prohibited. Regardless of height, documentation must be provided to show the excavation and/or fill is necessary to support a specific development and a staff review is required to determine conformance with all requirements of this chapter.

(h) The preliminary geotechnical evaluation should address relative hillside stability.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; a. Ord. No. 412-2008, § 1, eff. Jan. 4, 2009)

§ 1433-21. Approval.

(a) If the Zoning Administrator determines the application conforms to the requirements of § 1433-19 and the requirements of this chapter and all other requirements of the Cincinnati Zoning Code, the Zoning Administrator has the duty to approve a building permit for the proposed work. The Zoning Administrator has the duty to notify all owners of property abutting the subject property and the community organization recognized by the Council as representing the area that includes the subject property.

In addition to the Base Development Requirements of § 1433-19, the Zoning Hearing Examiner must consider the following standards to ensure harmonious relationships with adjacent buildings and the hillside environment:

(e) Maintain a clear sense of the hillside brow by locating buildings back from the brow of the hill.

(f) Site buildings so as to respect views from public viewing places within the HS District identified in a community plan or other documentation approved by the City Planning Commission.

In such cases, the provisions of Chapter 1445, where not inconsistent with the provisions of this chapter, apply to the exercise of the authority prescribed therein.

The Historic Conservation Board may grant such conditional use or special exception or variance from the regulations when it finds such relief from the literal implication of the Zoning Code will not be materially detrimental to the public health, safety, and welfare or injurious to property in the district or vicinity where the property is located and either:

(a) Is necessary and appropriate in the interest of historic conservation so as not to adversely affect the historic architectural or aesthetic integrity of the Historic District or Historic Asset; or

(b) Is necessary where the denial thereof would result in a deprivation of all economically viable use of the property as viewed in its entirety. In making such determination, the Historic Conservation Board may consider the factors set forth in Section 1435-09-2(aa)—(ff) below.

(C) A cemetery that derives its primary significance from graves of persons of transcendent importance, from age, from distinctive design features, or from association with historic events; or

(D) A reconstructed structure when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan and when no other structure with the same association has survived; or

No Historic Structure or Historic Site may be demolished or excavated during the pendency of a designation application, which commences upon the filing of a complete designation application.

(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012)

§ 1435-07-2-B. Report, Public Hearing and Decision.

The procedure for the consideration of an application for the designation of a Historic Landmark, Historic District or Historic Site is as follows:

(a) *Report.* Within sixty (60) days of the receipt of a completed designation application, the Urban Conservator has the duty to prepare and send to the Historic Conservation Board a report and proposed conservation guidelines for the Historic Landmark, Historic District or Historic Site and a proposed boundary map for any Historic District. For a proposed Historic District, the Urban Conservator shall prepare and send to the Historic Conservation Board a list of all structures within the proposed Historic District that the Urban Conservator considers to be Non-Contributing Structures. Not later than thirty (30) days after receipt of the Urban Conservator's report and proposed conservation guidelines, the Historic Conservation Board shall schedule a public hearing on the proposed designation.

(b) *Historic Conservation Board.* After a public hearing on the proposed designation, the Historic Conservation Board has the duty to decide whether to recommend designation of the proposed Historic Landmark, Historic District or Historic Site and forward its decision, whether favorable or not, along with the proposed conservation guidelines to the City Planning Commission.

(c) *City Planning Commission.* Within thirty (30) days of the transmittal of the decision and recommendation of the Historic Conservation Board, the City Planning Commis-

sion shall hold a public hearing to determine whether to follow the recommendation of the Historic Conservation Board. In making such determination, the City Planning Commission shall consider all of the following factors:

(1) The relationship of the proposed designation to the comprehensive plans of the city and of the community in which the proposed Historic Landmark, Historic District or Historic Site is located; and

(2) The effect of the proposed designation on the surrounding areas and economic development plans of the city; and

(3) Such other planning and historic preservation considerations as may be relevant to the proposed designation.

After a public hearing on the proposed designation and conservation guidelines, the City Planning Commission has the duty to decide whether to approve or disapprove the designation and forward its decision, whether favorable or not, along with the conservation guidelines to Council.

(d) *Council.* Upon receipt of the decision of the City Planning Commission, Council shall vote to ordain or overrule the City Planning Commission's decision. A simple majority of the members elected to Council is required to ordain a designation; provided, however, if the City Planning Commission disapproves the designation, a two-thirds majority vote of Council is required to overrule the City Planning Commission's decision.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012)

§ 1435-07-2-C. Adoption of Conservation Guidelines.

At the time of designation of a Historic Landmark, Historic District or Historic Site, Council has the duty to adopt conservation guidelines for each Historic Landmark, Historic District or Historic Site. Conservation guidelines shall promote the conservation, development and use of the Historic Landmark, Historic District or Historic Site and its special historic, architectural, community or aesthetic interest or value. Insofar as practicable, conservation guidelines shall promote redevelopment and revitalization of Historic Structures and compatible new development within the Historic District. The guidelines shall not limit new construction within a Historic District to a single period or architectural style but may seek to preserve the integrity of existing Historic Structures. Conservation guidelines shall take into account the impact of the designation of a Historic Landmark, Historic District or Historic Site on the residents of the affected area, the effect of the designation on the economic and social characteristics of the affected area, the projected impact of the designation on the budget of the city, as well as all of the factors listed in paragraph 1435-07-2-B(c) above. Conservation guidelines shall address Non-Contributing Structures. Approved conservation guidelines shall be published on the City's website and be made available for public inspection in the office of the Urban Conservator.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012; Emer. Ord. No. 141-2015, § 48, eff. July 1, 2015)

§ 1435-07-2-D. Notice.

Upon enactment of a designation, the Clerk of Council has the duty to promptly notify the Historic Conservation Board, the City Planning Commission, the Director of City Planning,

and the City Solicitor. The Urban Conservator has the duty to provide notice of such designation in the City Bulletin. Once designated, a Historic Landmark, Historic District or Historic Site shall be shown on the city's official zone map by the designation "HL," "HD" or "HS" appended to the underlying zone designation. A Historic Landmark, Historic District or Historic Site may be designated as an overlay on any other zoning district or combined with any other overlay district.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012; Emer. Ord. No. 141-2015, § 49, eff. July 1, 2015)

§ 1435-07-3. Repeal of Designation.

A designation may be repealed if the property owner petitions the Historic Conservation Board in writing setting forth clear and convincing evidence that the qualities which caused the Historic Landmark, Historic District or Historic Site to be originally designated have been lost or destroyed. Upon petition, the process for the repeal of a designation is the same as prescribed for designation as set forth in Sections 1435-07 above. The Historic Conservation Board shall consider the repeal of the designation of a Historic Landmark, Historic District or Historic Site that is lawfully demolished or destroyed at its next regularly scheduled meeting and shall act at that meeting to make a recommendation to the City Planning Commission, which shall consider the matter at its next regularly scheduled meeting. City Council shall then vote on the repeal of the designation at its next regularly scheduled meeting. Upon repeal of the designation, the associated conservation guidelines shall be null and void and of no further force or effect as to said Historic Landmark, Historic District or Historic Site. Upon the repeal of any designation, the city's official zone map shall be amended to remove the designation.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012)

§ 1435-07-4. Amendment of Conservation Guidelines.

The conservation guidelines for Historic Landmark or Historic Site may be amended if the property owner petitions the Historic Conservation Board in writing setting forth the justifications for the amendment and the proposed changes to the conservation guidelines. Amendment of the conservation guidelines for a Historic District may be initiated by the Historic Conservation Board. Once initiated, the process for the amendment of conservation guidelines is the same as prescribed for the adoption of conservation guidelines as set forth in Section 1435-07-02-B(b), (c) and (d) above.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012)

§ 1435-09. Alterations and Demolitions; Certificates of Appropriateness; Minimum Maintenance.

No one shall make an alteration or undertake a demolition, or receive any permit to do so, without first obtaining a Certificate of Appropriateness in accordance with this Section 1435-09. Pursuant to Section 1435-01-A1 above, alterations requiring a certificate of appropriateness shall include infill development in a Historic District.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012)

Each application shall be stamped with the time and date of its original receipt. Not later than ten (10) business days after receipt of an application, the applicant shall be notified by e-mail, if an e-mail address is provided, and if not, by regular mail, of any deficiencies in the application. An application shall be deemed perfected when all information required by the application form has been submitted and all fees are paid in full. Additional information may be requested from the applicant at any time prior to a hearing before the Historic Conservation Board. The effective date of the application, for all purposes, shall be the date that the application is perfected, and such date shall be clearly noted on the first page of the application. The applicant's address set forth on the application shall be the address used by the City for all purposes herein unless updated in writing to the Historic Conservation Board by the applicant. If the applicant fails to perfect an application after all applicable notice and cure periods have run, the application shall be deemed rejected.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012; Emer. Ord. No. 141-2015, § 50, eff. July 1, 2015)

§ 1435-09-1-B. Historic Conservation Board Review and Determination.

The Historic Conservation Board has the duty to make a final appealable determination on a perfected application for Certificate of Appropriateness within a reasonable amount of time after the application is perfected, but in no event more than sixty (60) days thereof unless the applicant agrees to an extension of time or unless the Board requests additional information from the applicant and tables or continues the matter. A continued matter must be heard at the next regularly scheduled meeting of the Board. A tabled matter must be taken off the table and finally determined within thirty (30) days after the matter was tabled. The Board may approve, approve with conditions, or deny an application for Certificate of Appropriateness. The Board's determination on an application for Certificate of Appropriateness shall be made in writing on the Certificate of Appropriateness indicating the Board's approval, conditional approval, or denial of the application, and shall contain findings of fact and conclusions of law and shall be issued to the applicant by certified mail not later than ten (10) business days after the date of the Board's final appealable determination, and that writing shall constitute the final appealable order of the Board. Any denial of an application shall also include a statement of the reasons why the application failed to comply with the applicable guidelines. Failure to issue a Certificate of Appropriateness within such time period shall not invalidate the Board's determination, but shall extend the time for which the applicant has to appeal the Board's determination by one (1) day for each day the Certificate of Appropriateness is late.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012; Emer. Ord. No. 141-2015, § 51, eff. July 1, 2015)

§ 1435-09-1-C. Urban Conservator Review and Determination.

The Historic Conservation Board may delegate to the Urban Conservator the authority to grant Certificates of Appropriateness within thirty (30) days of the filing of a perfected application without referral to the Historic Conservation Board and without a public hearing in the case of minor alterations of the type and scope that the Historic Conservation Board may from time to time specify in writing to the Urban Conservator. Notwithstanding anything to the contrary contained herein, the term "minor alterations" shall not include structural alterations or demolition. The Urban Conservator's determination shall be made in writing on the Certificate of Appropriateness indicating the Urban Conservator's approval, conditional approval, or denial of the application, and shall be issued by the Urban Conservator within the above 30-day period, and that writing shall constitute a final appealable order of the Board. If the Urban Conservator fails to issue the Certificate of Appropriateness by the last day of the prescribed time period, then the application shall be deemed approved as submitted. Notwithstanding the delegation of authority to the Urban Conservator described in this paragraph (c) the applicant may make written request that the Board consider the application notwithstanding the delegation of authority to the Urban Conservator.

The notice may include a time, date and place for a prehearing conference to be held by the Urban Conservator, to which the applicant, the property owner, and all interested city departments, and the aforementioned community council shall be invited. At such prehearing conference, the comments and recommendations of all interested city departments concerning their respective authority over the proposed improvements and their advice as to the appropriateness of the proposed improvements may be received and discussed with the applicant. No member of the Historic Conservation Board shall be present at any prehearing conference. All interested departments and civic organizations may promptly advise the Board in writing of their respective recommendations for approval, conditional approval, disapproval or modifications of the proposed improvements.

Such notice shall be by regular mail and electronic mail, if addresses have been provided or are otherwise readily available, sent to the applicant, all

owners of abutting properties, all owners of properties located within two hundred feet (200') of all of the boundaries of the subject property, the community council in which the subject property is situated, and to any other person who have made written requests to be notified of applications. § 1435-09-2. Certificates of Appropriateness; Standards for Review.

In accordance with Section 1435-09-1 above, the Historic Conservation Board has the duty to review and make a determination on all Certificates of Appropriateness in the manner prescribed herein for the purpose of furthering the conservation and integrity of the Historic Asset or Historic District affected. The Board may approve or approve with conditions an application for a Certificate of Appropriateness when it finds either:

(a) That the property owner has demonstrated by credible evidence that the proposal substantially conforms to the applicable conservation guidelines; or

(b) That the property owner has demonstrated by credible evidence that the property owner will suffer economic hardship if the certificate of appropriateness is not approved.

In determining whether the property owner has demonstrated an economic hardship for purposes of (b) above, the Historic Conservation Board shall consider all of the following factors:

(i) Will all economically viable use of the property be deprived without approval of a Certificate of Appropriateness;

(ii) Will the reasonable investment-backed expectations of the property owner be maintained without approval of a Certificate of Appropriateness; and

(iii) Whether the economic hardship was created or exacerbated by the property owner.

In evaluating the above factors for economic hardship, the Historic Conservation Board may consider any or all of the following:

(aa) A property's current level of economic return;

(bb) Any listing of property for sale or rent, price asked, and offers received, if any, within the previous two years, including testimony and relevant documents;

(cc) The feasibility of alternative uses for the property that could earn a reasonable economic return;

(dd) Any evidence of self-created hardship through deliberate neglect or inadequate maintenance of the property;

(ee) Knowledge of landmark designation or potential designation at time of acquisition; and/or

(ff) Economic incentives and/or funding available to the applicant through federal, state, city, or private programs.

Whenever a Certificate of Appropriateness is required pursuant to the provisions of this chapter, the Director of Buildings and Inspections may not issue a building permit until a Certificate of Appropriateness has been approved or approved with conditions. In the event that the standards in this Section 1435-09-2 conflict with any standards set forth in any conservation guidelines, the standards set forth herein shall govern and control.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012; Emer. Ord. No. 141-2015, § 53, eff. July 1, 2015)

§ 1435-09-3. Demolition Delay.

In addition to the provisions of Sections 1435-09-1 and 1435-09-2 above, if an application for a Certificate of Appropriateness seeks approval of demolition, the Historic Conservation Board may delay determination of the application for a period of 180 days on a finding that alternatives to Demolition may be feasible and should be actively pursued by both the applicant and the Historic Conservation Board. In the event that action on an application is delayed as provided herein, the Historic Conservation Board may take such steps as it deems necessary to preserve the Historic Asset concerned, in accordance with the purposes of this chapter and in accordance with Cincinnati Municipal Code Chapter 1101. Such steps may include but may not be limited to consultation with civic groups, public agencies and interested citizens, recommendations for acquisition of property by public or private bodies or agencies, and exploration of the possibility of moving one or more structures or other features. No demolition shall take place until permitted pursuant to the provisions of this chapter and the Cincinnati Building Code. Any unlawful demolition of a Historic Asset shall be punishable by the criminal and civil penalties set forth in Chapter 1451 below and the Cincinnati Municipal Code.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012)

§ 1435-09-4. Minimum Maintenance Requirement; Demolition by Neglect.

The owner of a Historic Asset has the duty to provide sufficient maintenance and upkeep for such structure to ensure its perpetuation and to prevent its destruction by deterioration. The provisions of this Section 1435-09-4 shall be in accordance with Section 1451-11 below and Cincinnati Municipal Code Chapter 1101. Any failure to comply with this Section 1435-09-4 or Section 1451-11 below shall be an unlawful demolition which shall be punishable by the criminal and civil penalties set forth in the Cincinnati Municipal Code and Sections 1451-13 and 1451-15 below. The Urban Conservator shall maintain a list of Historic Assets that are deemed to be neglected and shall publish that list on the City's website annually.
(Ordained by Ord. No. 217-2012, § 1, eff. July 20, 2012; Emer. Ord. No. 141-2015, § 54, eff. July 1, 2015)

§ 1435-09-5. Exceptions from Requirement to obtain Certificate of Appropriateness.

Nothing in this chapter is to be construed to prevent or regulate:

(a) Ordinary and routine maintenance or repair to a Historic Asset if it entails no alteration.

(b) Emergency repairs to public property.

(c) Emergency demolition, when the Chief Building Official and the Fire Chief certify in writing that demolition is required for the immediate preservation of public safety because of an unsafe or dangerous condition that constitutes an emergency. Such determination shall be made in accordance with Cincinnati Municipal Code Chapter 1101. In making a determination about whether to issue an emergency demolition permit, the Chief Building Official shall do all of the following: (i) consult with the Urban Conservator; (ii) review all permit applications for the property filed within a period of two (2) calendar years prior to the emergency; (iii) review City records to account for all City orders which have been placed upon the property during the period of ownership by the current owner; and (iv) review City records to determine whether a vacated building maintenance license has been applied for or issued for the property.

(d) A Public Infrastructure improvement that Council has expressly approved or that is required to be installed or maintained by law.

For purposes of this Section 1435-09-5, the term "Public Infrastructure" shall mean any public utility line, street, roadway, or transit improvement or facility, signalization, directional or safety signage, streetscape, sidewalk or other public safety improvement, and shall not be deemed to include public buildings, parks, paver alleys, granite curbs, plazas or skywalks.

In any such case the authority of the Zoning Hearing Examiner specified in Chapter 1437 is transferred to the Historic Conservation Board and all references to the examiner therein interpreted as references to the Historic Conservation Board. In such cases, the provisions of Chapter 1437, where not inconsistent with the provisions of this chapter, apply to the exercise of the authority prescribed therein.

§ 1435-011-2. Relationship to Planned Development (PD) Districts.

Whenever a planned development district is located within or overlaps a Historic District or contains a Historic Landmark or Historic Site, the provisions of this Chapter 1435 and any applicable conservation guidelines shall apply and shall be fully incorporated in the final development plan for the planned development district. More specifically, the process for reviewing and issuing a certificate of appropriateness in a planned development district is as follows:

(a) *Concept Plan Approval Stage:* The Urban Conservator shall review all concept plans submitted for the creation of new planned development districts located within or overlapping a Historic District or containing a Historic Landmark or Historic Site. Prior to the City Planning Commission's review of a concept plan, the Urban Conservator shall identify any and all necessary certificates of appropriateness in writing to the City Planning Commission. If no certificates of appropriateness are identifiable on the concept plan, then the Urban Conservator shall indicate as such in writing to the City Planning Commission. The City Planning Commission's approval of any such concept plan shall be expressly conditioned upon the approval of the certificates of appropriateness identified by the Urban Conservator as part of the final development plan.

(b) *Final Development Plan Approval Stage:* The Historic Conservation Board shall review all final development plans submitted for the creation of a new planned development district located within or overlapping a Historic District or containing a Historic Landmark or Historic Site. Prior to the City Planning Commission's review of a final development plan, the Historic Conservation Board shall make written findings to the City Planning Commission about its approval, conditional approval, or denial of any certificates of appropriateness identified in (a) above, and for any additional certificates of appropriateness that it may identify that were not readily apparent from the concept plan. In reviewing a final development plan, the City Planning Commission may overrule the Historic Conservation Board's written findings by a two-thirds (2/3) majority vote of the City Planning Commission; which shall constitute a final order of the City Planning Commission appealable to the Zoning Board of Appeals pursuant to Section 1429-17 above.

(c) *Post Final Development Plan Approval:* All certificates of appropriateness which may be required by this Chapter 1435 after the approval of a final development plan shall be reviewed and determined in accordance with Section 1435-09 above.

A building, structure, land or any part thereof, may not be constructed until a building permit has been issued by the Director of Buildings and Inspections. The lot or parcel and the location of the building or buildings must be fixed by survey before construction is started.

(c) *Time Limits for Zoning Approvals.* Issuance of a building permit vests the applicant the right to construct the work for which the permit was issued in accordance with the provisions of the Cincinnati Zoning Code in effect at the time of application. That right expires with the expiration of the building permit as provided in the Cincinnati Building Code, Title XI of the Cincinnati Municipal Code.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 141-2015, § 67, eff. July 1, 2015)

§ 1441-17. Effect of Administrative Interpretations.

The Zoning Administrator may make administrative interpretations finding a particular use to be permitted as-of-right or as a conditional use. Such an interpretation does not authorize the establishment of such use nor the development, construction, reconstruction, alteration or moving of any building or structure. It merely authorizes the preparation, filing and processing of applications for any approvals and permits that may be required by this Code.

An administrative interpretation by the Zoning Administrator finding proposed work to be permitted as-of-right or permitted as a conditional use in a particular district only authorizes

the proposed work for which the interpretation is issued. Such interpretation does not authorize any other work for which a separate use interpretation has not been issued, even if the other work is similar in character to the work for which the interpretation was issued. The examiner may also forward an application to any other city department for review and request a staff report from any other city department. The failure to receive a staff report prior to the public hearing does not prohibit the examiner from proceeding with a scheduled hearing or deciding to approve, conditionally approve or deny an application.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 141-2015, § 70, eff. July 1, 2015)

§ 1443-05. Public Hearing Schedule and Notice.

The Zoning Hearing Examiner has the duty to hold the required public hearing on an application within 30 days of receipt of the complete application. The examiner has the duty to send notice of the public hearing to the applicant, all owners of property located within a 100 foot radius of the subject property, a 250 foot radius of the subject property in the SF-20 and SF-10 zoning districts or the property owners of abutting properties not under the applicant's ownership, and appropriate community organizations known to the examiner to be concerned with the application of zoning regulations to properties in the vicinity of the subject property at least 14 days in advance of the public hearing. The examiner has the duty to advertise notice of the public hearing in the City Bulletin or other newspaper of general circulation at least seven days prior to the hearing.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; a. Ord. No. 256-2005, eff. July 21, 2005; a. Ord. No. 413-2008, § 1, eff. Jan. 4, 2009; Emer. Ord. No. 141-2015, § 71, eff. July 1, 2015)

§ 1443-07. Public Hearing Procedure.

The applicant may be represented by counsel or agent at any public hearing of the case before the Zoning Hearing Examiner. The applicant's side of the case is heard first and those in objection follow. To maintain orderly procedure, each side proceeds without interruption by the other. Every person before the examiner has the duty to abide by the order and direction of the examiner presiding over the hearing.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1443-09. Zoning Hearing Examiner Decisions.

The Zoning Hearing Examiner has the duty to issue a written decision on an application within ten working days of the close of the public hearing on the application, or within 14 days of receipt of an application for which a public hearing has been waived, unless the applicant agrees to an extension of the time for issuance of a decision.

The following conditions will apply to all approvals granted by the examiner. These conditions are in addition to any other conditions set by the Examiner or required by the Cincinnati Zoning Code:

(a) *Permit Expiration and Extension.* A permit for construction or the use of land or buildings for which an approval has been granted must be obtained within two years from the date of the decision of the examiner, unless the decision specifically provides a different time frame for commencement of work. Prior to the ending of the two year period, the applicant may submit a written request for an extension of the decision to the Zoning Administrator. If the Zoning Administrator determines that the approval is still in compliance with all applicable codes, the decision may be extended for an additional six months. Any further extension requires the approval of the examiner; a public hearing is not needed for such approval.

(b) *Compliance.* The Director of Buildings and Inspections has the authority to inspect all properties for compliance with conditions of approval as often as necessary to assure continued compliance.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 141-2015, § 72, eff. July 1, 2015)

§ 1443-11. Appeal.

Any party with standing may appeal any decision of the Zoning Hearing Examiner to the Zoning Board of Appeals within 30 days of issuance of the decision. For purposes of the Cincinnati Zoning Code a party with standing will include:

(a) *The Applicant.* Any applicant or owner of property that is the subject of a final decision of the examiner.

(b) *Person Affected.* Any person affected by a final decision on an application made following a public hearing and who expressed in writing a position prior to the hearing, or testified at the hearing, including any owner or occupant of the subject property, any owner or occupant of property abutting or otherwise substantially affected by the decision, any community or neighborhood association or organization whose boundaries include or abut the subject property.

(c) *Community Organization.* A community organization recognized by the Council as representing the area that includes the subject property and that has prepared a community plan accepted by the council, regardless of whether the organization expressed an opinion in writing prior to the hearing or having testified through a representative at the hearing.

§ 1445-31. Appeals.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 0429-2007, § 1, eff. Nov. 28, 2007; a. Ord. No. 459-2010, § 1, eff. Jan. 23, 2011; Emer. Ord. No. 244-2015, § 2, eff. July 1, 2015)

§ 1445-03. Purpose of Special Exceptions.

Special exceptions are permitted as exceptions to the performance standards of this Code and require a careful review of such factors as location, design, configuration and relation to adjacent uses to determine the desirability of authorizing the exception on any given site. Special exceptions may or may not be appropriate in a particular location depending on the impacts on adjacent uses and how adverse impacts may be minimized through building design, building siting, location of driveway and parking and screening.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1445-05. Purpose of Conditional Uses.

A conditional use is a use that has potential adverse impacts on the immediate neighborhood. Such impacts may interfere with the use and enjoyment of adjacent property and uses. The process for review of conditional use applications is designed to address such adverse impacts and minimize them where possible. A conditional use requires a careful review of its location, design, configuration and special impact to determine, against specific standards, the desirability of permitting its establishment on a particular site.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1445-07. Authority to Grant Variances, Special Exceptions and Conditional Uses.

The Zoning Hearing Examiner may grant variances, special exceptions and conditional uses, in accordance with the procedures and standards enumerated in this Chapter.

(a) *Variances.* The examiner may not grant a variance that is greater than the minimum necessary relief demonstrated by the applicant or authorizes a change in use that would permit a use contrary to the use regulations of the applicable zoning district.

(b) *Special Exceptions.* The examiner may consider applications only for those special exceptions specifically listed in Schedule 1445-07, List of Allowable Special Exceptions.

(c) *Conditional Uses.* The examiner may, in accord with regulations applicable to the district in which the subject property is located, approve uses listed as conditional uses in the schedule of use regulations for a district or for a category of zoning districts. Conditional uses are also subject to the special provisions of the district use regulations in those districts where such conditional uses are authorized.

§ 1445-11. Procedures for Application for Variances, Special Exceptions and Conditional Uses.

The procedures for the application and application review for variances, special exceptions and conditional uses are as follows:

(a) Application Form and Materials. An application for a variance, special exception or conditional use must be filed in accordance with the provisions of Chapter 1441, Application Procedures, Permits and Certificates.

(b) Application Procedures. The following procedures apply to the review of applications for a variance, special exception or conditional use:

(1) The Director of City Planning has the duty to prepare a staff report on the application and transmit the staff report to the Zoning Hearing Examiner prior to the public hearing.

(2) The examiner has the duty to schedule and hold a public hearing on the completed application in accord with the procedures for conduct of the public hearing set forth in § 1443-05 and § 1443-07.

(3) Staff reports received by the examiner are to be considered at a public hearing. Following the conclusion of the public hearing and within ten working days, the examiner has the duty to take one of the following actions:

(A) Approve the application.

(B) Approve the application subject to specific conditions.

(C) Postpone a decision pending consideration of additional information.

(D) Deny the application.

(c) Coordinated Review and Approval of Applications. Whenever, in addition to a variance, special exception or conditional use pursuant to this chapter, the applicant also requires another decision by the examiner, the applicant must simultaneously file all other required applications. All required notices must include reference to the request for all required examiner approvals.

(d) Public Hearing Waiver.

(1) Property Owner or Authorized Agent. The examiner may waive the public hearing requirement on applications for a variance from side and rear yard and open space requirements and on all other applications for which public hearing waivers are specifically provided in this Code. Applicants requesting a public hearing waiver must submit a site plan of the proposed project, signed by every concerned community organization identified by the Director of City Planning and the owners of every parcel of abutting real property.

(2) City Agency or Department. The examiner may waive the public hearing requirement on applications for a variance or special exception when a City agency or department makes the request where the strict application of the zoning code or the Land Development Code would be detrimental to the public health or safety in writing to the Director of Buildings and Inspections prior to zoning approval being issued. The examiner has the duty to provide notice of the decision to property owners within a 100-foot radius of the subject property and the community organization recognized by Council as representing the area that includes the subject property. This notification shall include the deadline date to file an appeal of the examiner's decision.

§ 1445-13. General Standards; Public Interest.

The Zoning Hearing Examiner may grant variances, special exceptions and conditional uses, in accordance with the procedures and standards enumerated in this chapter. The examiner may approve an application for a variance, special exception or conditional use if the proposal conforms with all applicable laws, ordinances and regulations and is in the public interest. In determining whether the work is in the public interest, the examiner has the duty to consider those factors listed below that are relevant to the work and apply them in light of his or her

professional training and experience. The failure of the proposed work to conform to any single factor or guideline is not necessarily a sufficient basis for denial. The examiner has the duty to approve work that maximizes both the public interest and private benefits.

(a) *Zoning.* The proposed work conforms to the underlying zone district regulations and is in harmony with the general purposes and intent of the Cincinnati Zoning Code or the Land Development Code, as applicable.

(b) *Guidelines.* The proposed work conforms to any guidelines adopted or approved by Council for the district in which the proposed work is located.

(c) *Plans.* The proposed work conforms to a comprehensive plan, any applicable urban design or other plan officially adopted by Council, and any applicable community plan approved by the City Planning Commission.

(d) *Traffic.* Streets or other means of access to the proposed development are suitable and adequate to carry anticipated traffic and will not overload the adjacent streets and the internal circulation system is properly designed.

(e) *Buffering.* Appropriate buffering is provided to protect adjacent uses or properties from light, noise and visual impacts.

(f) *Landscaping.* Landscaping meets the requirements of Chapter 1423, Landscaping and Buffer Yards.

(g) *Hours of Operation.* Operating hours are compatible with adjacent land uses.

(h) *Neighborhood Compatibility.* The proposed work is compatible with the predominant or prevailing land use, building and structure patterns of the neighborhood surrounding the proposed development and will not have a material net cumulative adverse impact on the neighborhood.

(i) *Proposed Zoning Amendments.* The proposed work is consistent with any proposed amendment to the zoning code or the Land Development Code then under consideration by the City Planning Commission or Council.

(j) *Adverse Effects.* Any adverse effect on the access to the property by fire, police, or other public services; access to light and air from adjoining properties; traffic conditions; or the development, usefulness or value of neighboring land and buildings.

(k) *Blight.* The elimination or avoidance of blight.

(l) *Economic Benefits.* The promotion of the Cincinnati economy.

(m) *Job Creation.* The creation of jobs both permanently and during construction.

(n) *Tax Valuation.* Any increase in the real property tax duplicate.

(o) *Private Benefits.* The economic and other private benefits to the owner or applicant. (p) *Public Benefits.* The public peace, health, safety or general welfare.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 244-2015, § 5, eff. July 1, 2015)

§ 1445-15. Standards for Variances.

Subject to the other provisions of this Chapter, the Zoning Hearing Examiner may grant a variance from the requirements of the Cincinnati Zoning Code or the Land Development Code, provided the condition giving rise to the request for the variance was not created by the owner or any predecessor in title. In order to grant approval, the examiner has to find that requested variance is not contrary to the intent and purpose of this Code or the Land Development Code, as applicable, and the zone district nor detrimental or injurious to the public health, safety and general welfare based on either of the following:

(a) Owing to special circumstances or conditions pertaining to a specific piece of property, the strict application of the provisions or requirements of this Code or the Land Development Code, as applicable, are unreasonable and would result in practical difficulties.

(b) The variance is necessary for the preservation and enjoyment of a substantial property right of the applicant possessed by owners of other properties in the same district or vicinity.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 244-2015, § 6, eff. July 1, 2015)

§ 1445-16. Use Variance Standards.

No variance shall be granted to allow a use not permissible under the terms of the Zoning Code or the Land Development Code in the zoning district in which the property is located, unless the Zoning Hearing Examiner finds that the applicant for the use variance has demonstrated that the applicant will suffer unnecessary hardship if strict compliance with the terms of the Code or the Land Development Code is required and such hardship must be demonstrated by clear and convincing evidence as to the following criteria:

(a) The property cannot be put to any economically viable use under any of the permitted uses in the zoning district;

(b) The variance requested stems from a condition that is unique to the property at issue and not ordinarily found in the same zone or district;

(c) The hardship condition is not created by actions of the applicant;

(d) The granting of the variance will not adversely affect the rights of adjacent property owners or residents;

(e) The granting of the variance will not adversely affect the community character, public health, safety or general welfare;

(f) The variance will be consistent with the general spirit and intent of the Zoning Code or the Land Development Code, as applicable; and

(g) The variance sought is the minimum that will afford relief to the applicant.

(Ordained by Ord. No. 360-2010, § 1, eff. Nov. 13, 2010; Emer. Ord. No. 244-2015, § 7, eff. July 1, 2015)

§ 1445-17. Standards for Variances to Accommodate Persons with Disabilities.

The Zoning Hearing Examiner may authorize a variance from provisions of the Cincinnati Zoning Code and the Land Development Code that limit the number of persons who may live together as a single-housekeeping unit in a dwelling unit on finding that all of the following circumstances apply:

(a) The variance is necessary as a reasonable accommodation of persons with disabilities;

(b) The denial of the variance would result in the denial of the equal opportunity of persons with disabilities to use and enjoy occupancy of a dwelling;

(c) The variance is not materially detrimental to the public welfare or injurious to property in the district or vicinity in which the property is located; and

(d) In a residential district, the maximum number persons that the Zoning Hearing Examiner may authorize to live together as a single-housekeeping unit is eight.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 141-2015, § 74, eff. July 1, 2015; Emer. Ord. No. 244-2015, § 8, eff. July 1, 2015)

§ 1445-19. Standards for Special Exceptions.

An application for a special exception may not be approved unless the Zoning Hearing Examiner determines that the proposed special exception is appropriate in the location proposed based on the following standards and, where applicable, the special standards for specific special exceptions. A special exception may be granted only if the examiner makes all of the following findings:

(a) *Compliance With Code and District Purposes.* The proposed development will be consistent with the purposes of this Code or the Land Development Code, as applicable, and the district where the use is located.

(b) *No Substantial Impairment of Property Value.* The proposed development will not substantially diminish or impair the value of property within the neighborhood in which it is located.

(c) *No Undue Adverse Impact.* The proposed development will not have an adverse effect on the character of the area or the public health, safety and general welfare. The proposed special exception will be constructed, arranged and operated so as to be compatible with the use and development of neighboring property in accord with applicable district regulations.

(d) *Compliance With Other Standards.* The proposed development complies with all other standards imposed on it by this Code or the Land Development Code, as applicable.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 244-2015, § 9, eff. July 1, 2015)

§ 1445-21. Standards for Conditional Uses.

The Zoning Hearing Examiner may approve a conditional use if and only if the conditional use is specifically listed in the applicable zoning district use regulations.

(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1445-23. Conditions of Approval.

In authorizing a variance, special exception or conditional use, the Zoning Hearing Examiner may impose such conditions that are determined to be in the public interest and necessary to mitigate any harmful effects of the variance, special exception or conditional use. The examiner may require a bond or other acceptable form of surety to insure compliance with the conditions imposed. These conditions must be expressly set forth in the examiner's decision granting the variance, special exception or conditional use.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1445-25. Effect of Grant of Variance, Special Exception or Conditional Use.

The grant of a variance, special exception or conditional use does not authorize the establishment or extension of any use nor the development, construction, reconstruction, alteration or moving of any building or structure but may merely authorize the preparation, filing and processing of applications for any permits and approval that may be required.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1445-27. Limitations on Variances, Special Exceptions and Conditional Uses.

Subject to an extension of time granted under Chapter 1443, Zoning Hearing Examiner Procedures, a variance, special exception or conditional use expires two years after issuance in accordance with § 1443-09.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004)

§ 1445-29. Revocation of Variances, Special Exceptions and Conditional Uses.

Violation of any condition or limitation on the grant of a variance, special exception or conditional use is a violation of this Code or the Land Development Code, as applicable, and constitutes grounds for revocation of the variance, special exception or conditional use pursuant to Chapter 1451, Enforcement.
(Ordained by Ord. No. 15-2004, eff. Feb. 13, 2004; Emer. Ord. No. 244-2015, § 10, eff. July 1, 2015)

§ 1445-30. *De Minimis* Variance.

Where a minor or *de minimis* variance could be achieved only at unreasonable expense or inconvenience to an applicant, the Zoning Administrator may grant a *de minimis* variance without a public hearing or written decision upon determining that the *de minimis* variance is in harmony with the general purposes and intent of the Cincinnati Zoning Code, is in the public interest, and would not enlarge a previously granted variance. A *de minimis* variance is defined as the lesser of (a) a ten percent (10%) or (b) a ten foot (10') deviation from the prescribed dimensional requirement or standard. This Section 1445-30 shall operate to permit the Zoning Administrator to grant a *de minimis* variance exclusively from the general site standards set forth in Chapter 1421, the development regulations set forth in Cincinnati Zoning Code Sections 1403-07, 1405-07, 1407-07, 1409-09, 1410-07, 1411-07, 1413-07, 1415-09, 1416-07, 1417-07, and the dimensional and height requirements set forth in Cincinnati Zoning Code Sections 1427-23, 1427-25, 1427-26, 1427-27, 1427-29, 1427-33, 1427-35, 1427-37, and 1427-39, and from no other section of the Cincinnati Zoning Code. The Zoning Administrator shall not be

permitted to grant a *de minimis* variance on any lot or for any structure located in a Hillside Overlay District, Historic Overlay District, or Urban Design Overlay District, or for a floor area ratio or averaged setback. Nothing contained herein shall be construed to in any way affect the authority of the Zoning Administrator to grant a minor amendment to a Concept Plan or a Final Development Plan as provided for in Sections 1429-12 and 1429-21. An applicant for a *de minimis* variance shall apply directly to the Zoning Administrator on forms that are provided and shall pay a fee in connection with such application, the amount of which shall be determined by the Zoning Administrator from time to time. Each applicant shall be required to provide notice by certified mail to each abutting and adjacent property owner within three (3) business days after the date of the filing of the *de minimis* variance application. Such owners shall be identified according to the records on file with the Hamilton County Auditor. An applicant shall only need to provide proof of such mailing for notice to be deemed sufficient. Notwithstanding anything to the contrary contained in Section 1441-03, the Zoning Administrator shall provide written notice to the applicant of his or her decision to grant or deny a *de minimis* variance not later than twenty (20) days of the date of the filing of the application. Such written notice need not include findings of fact or conclusions of law. The Zoning Administrator shall publish notice of the grant of a *de minimis* variance in the next available issue of the "City Bulletin." Any party with standing may appeal the Zoning Administrator's decision regarding an application for a *de minimis* variance to the Zoning Board of Appeals pursuant to Cincinnati Zoning Code Section 1449-09(a).
(Ordained by Ord. No. 364-2010, § 1, eff. Nov. 13, 2010; Emer. Ord. No. 141-2015, § 75, eff. July 1, 2015)

§ 1445-31. Appeals.

Any party with standing may appeal to the Zoning Board of Appeals pursuant to Chapter 1449, Zoning Board of Appeals, within 30 days of the decision of the Zoning Hearing Examiner.

A nonconforming structure may not be moved, expanded or altered, except in the manner provided in this section or unless required by law.

(a) *Repair, Maintenance, and Alterations.* A nonconforming structure may be repaired, maintained, or altered; provided, however, that no such repair, maintenance, or alteration shall either create any new nonconformity or increase the degree of the existing nonconformity of all or any part of such structure without having first obtained a variance pursuant to Chapter 1445.

(b) *Expansion*. A nonconforming structure may be expanded subject to the following standards:

1. The expansion will not create a new nonconformity or increase the degree of an existing nonconformity unless a variance is obtained pursuant to Chapter 1445; or
2. The expansion extends an existing legal non-conforming side yard setback and all of the following conditions are met:
   i. The expansion is a single-story, ground-level addition.
   ii. The expansion complies with rear yard setback requirements.
   iii. The expansion continues along the same plane of the existing wall and does not narrow the existing side yard setback.
   iv. The overall building depth does not exceed 60 feet prior to or after the expansion; and

The Zoning Hearing Examiner may grant a variance for a proposed expansion or enlargement that does not meet the district requirements pursuant to the procedures and criteria of Chapter 1445, Variances, Special Exceptions and Conditional Uses in addition to the standards enumerated in this chapter.

(c) The expansion of the nonconforming uses of land without buildings may not exceed, in all, 50% of the area devoted to the existing nonconforming use of land. All required notices must include reference to the request for all required examiner approvals.

(e) *Conditions*. The Zoning Hearing Examiner may impose such conditions that are determined to be in the public interest and necessary to mitigate any harmful effects of the substitution of the nonconforming use. The examiner may require a bond or other acceptable form of surety to insure compliance with the conditions imposed. These conditions must be expressly set forth in the examiner's decision.

The Zoning Hearing Examiner may approve, approve with conditions or disapprove an application for expansion or substitution of a nonconforming use as limited in § 1447-09 and § 1447-11 based on written findings of fact in consideration of the following standards. The failure of the proposed work to conform with any single factor or standard may not necessarily be a sufficient basis for denial:

(a) *Consistent.* The proposed use is consistent with the general purposes and intent of the Cincinnati Zoning Code;

(b) *Safety and Efficiency.* The proposed use promotes the safe and efficient use of land;

(c) *Compatibility.* The proposed use is compatible with other adjacent land uses and buildings existing in the surrounding area;

(d) *Neighborhood Compatibility.* The proposed use is consistent with the purposes of the zoning district in which the use is located and does not negatively impact the value of surrounding property; and

ownership. The estimated cost of reconstruction is as submitted in a verified affidavit acceptable to the Zoning Administrator as reasonable. The repairs and reconstruction must be completed within two years of the date of the damage.

If the estimated cost of reconstruction exceeds 150 percent of the assessed improvement value, the use of the property and the reconstruction of the building must be in accordance with the provisions of this Zoning Code.

(b) Regardless of its estimated cost of reconstruction, a legal, nonconforming building or structure located in the DD, "Downtown Development," zoning district may be reconstructed based upon its existing floor area ratio or existing floor area ratio regulations, whichever is more permissive, if it meets both of the following criteria:

A majority of Members may reject any request for an additional week.

3.6 Allocation of Office Space.

When any office occupied by a Member becomes vacant for any reason, the vacant office space shall be offered to the other Members in order of seniority based upon total consecutive time served on Council, except that Room 356 shall be provided to the Vice Mayor. If two or more Members with equal seniority are requesting the same office, the space shall be granted to the person who received the highest number of votes in the most recent election. The Clerk of Council shall administer the assignment of vacant office space in accordance with this rule.

All allocation of office space shall be done by the Clerk of Council in writing to the Members elected in the most recent election after certification of the election results by the Hamilton County Board of Elections.

3.7 Ban on Weapons and Items Resembling Weapons.

Weapons and any items that the Presiding Officer determines resemble weapons are strictly banned from Council chambers unless wielded by a member of the Cincinnati Police Department. A Member may request permission to change his or her vote prior to the adjournment of the meeting, as long as it does not change the outcome of the vote. Permission may be given by general consent if no Member objects when the Presiding Officer inquires. If a Member objects, permission shall be granted by a majority vote.

If a Member wishes to explain a vote, a Member may file a statement of intention with the Clerk of Council's office up to two days after a vote is taken, declaring the Member's intention. A copy will be distributed by the Clerk of Council to the Mayor and the other Members and placed on the next council calendar.

If a Member assails, questions, or impugns the integrity, character, or motives of another Member, a Member may make a motion to censure the Member for the character attack. The motion shall pass if three-fourths of the Members present vote in favor of the motion. If the motion to censure passes, the motion shall be published in the City Bulletin.

After the presentations by Members, the business of all regular meetings shall commence at the point where the order of business at the preceding meeting was interrupted by adjournment. At special meetings of Council, the order of business shall be restricted to Roll Call, Prayer and Pledge of Allegiance, discussion and action on the item or items specified in the Notice of Special Meeting.

7.2 Call to Order.

At the time appointed for the Council to meet, the Presiding Officer shall take the chair and immediately call the meeting to order.

7.3 Roll Call.

Before proceeding with the business of the Council, the Clerk of Council shall call the roll, determine the presence of a quorum and enter in the minutes the Members present, absent

and excused. To be recorded as present, a Member of council shall be in the Council chamber at the time of roll call. The Clerk of Council shall publish in the City Bulletin the names of Members present and absent at each meeting.

7.4 Quorum.

A majority of the Members, or appointed to a Committee, as the case may be, shall constitute a quorum and shall be necessary for the transaction of business. If a quorum is not present, those in attendance may adjourn by a majority vote until a later time or date or may recess and direct the Clerk of Council to procure the attendance of absent Members. When a quorum is present, a majority vote of those Members shall be sufficient to transact all business except the enactment of ordinances and as a larger number is required by law or the Rules of Council.

7.5 Filing of the Journal.

At each meeting the journal of the preceding meeting shall be filed as prepared by the Clerk of Council if there is no objection.

7.6 New Business.

No legislative issues may be introduced that are not on the Council calendar. All motions, communications, resolutions, and ordinances must be presented to the Mayor and prior to or at the council meeting to be referred to a Committee for consideration.

Items not appearing on the calendar may be presented by the Mayor at his or her sole discretion in cases of genuine emergency.

A Member may request that an item not appearing on the calendar be immediately considered at the Council meeting. The item must be submitted to the Mayor's office by 1:30 p.m. the day before the meeting to be considered by the Council. The Mayor shall have the authority to place the item on the council agenda for immediate consideration or assign it for normal consideration through the committee process. An affirmative vote of two-thirds of the council shall be required for immediate consideration of an item at the council meeting.

Ceremonial resolutions that celebrate public achievements are restricted to matters of citywide significance as determined by the Mayor. Requests for such must be submitted to the Mayor's office by 11:00 a.m. the day prior to the Council meeting.

7.7 Announcements.

The Mayor and, following the Mayor, each Member upon being recognized by the Mayor, may speak for up to three minutes with regard to any announcements or informational matters.

Time will be on the agenda only for announcements and informational matters.

7.8 Council Calendar.

The Clerk of Council shall prepare a calendar for each meeting. The Clerk of Council shall make copies of the calendar for a regular meeting available in the Clerk of Council's office and

on the City's Website by 4:00 p.m. of the day preceding the meeting. The supplement shall be made available by 11:00 a.m. of the day of the meeting except in the event a committee meeting is held the evening prior or the day of the council meeting.

The supplemental calendar shall contain action agenda items received by the Clerk of Council after the calendar deadline.

Items shall appear on the calendar in substantially the following order:

(a) Reports and communications from the Mayor, Members, the city manager, the city boards and commissions, and department directors.

(b) Second reading of ordinances held from previous meeting.

(c) Third reading of ordinances held from previous meeting.

(d) Other matters received by the Clerk of Council.

(e) Reports of Committees.

Anonymous communications shall not be placed on the agenda or introduced into Council.

7.9 Council Referrals.

Items on the calendar, which have not been previously referred to Committee, shall be referred to the appropriate Committee by the Mayor within two weeks of appearing on the Council calendar. Items shall be referred to the planning commission where required by the Charter or law. Planning commission items shall be initially referred to the commission and to the appropriate Committee. When returned to Council by the planning commission, the items shall be placed on the Committee agenda with the initial referral. Anon-legislative item may be considered immediately without referral to Committee, and then acted upon only upon an affirmative vote of two-thirds of the Members.

7.10 Referrals of State and Federal Joint Proposals.

All proposals for projects which contemplate cooperation with, or financial participation by, the state or federal government, shall be transmitted to Council by the city manager. If a city board or commission desires to propose such a project, the proposal shall be filed with the city manager.

All proposals shall be in approved form and accompanied by proper plans and specifications conforming to the requirements of the respective state or federal government.

The Mayor shall refer all proposals to the appropriate Committee. The Committee shall report its recommendations to Council. If Council approves the proposal, it shall authorize the city manager to make application to the proper authority.

7.11 Referrals to City Manager.

Communications from Members must be directed to the city manager's office for follow-up. Requests for information from Members, other than for the resolution of routine constituent matters, shall go to the city manager instead of directly to the department heads. Basic information that does not involve or require a memorandum or a report may be requested

directly by a Member to the city manager or his or her office. Notwithstanding the above, Committee chairs may have direct contact with department directors or their supervisory staff regarding matters related to the Committee's jurisdiction.

7.12 Assignment of Agenda Items.

The Mayor shall assign all legislative matters to the appropriate Committee for consideration; however, a matter may not be assigned to the Budget and Finance and more than one other committee or a majority of the members may bring the matter back to council with a recommendation for referral by the mayor to a different committee, consistent with Council's approved Committee jurisdictions.

7.13 Deliberative Policymaking.

Council motions calling for administration action, the expenditure of funds or a change in policy direction must be before the public for at least one full week, allowing an opportunity for public comment at no less than one Committee meeting following the Council meeting where the item is publicly introduced except when deemed an emergency by the Mayor, subject to the Rules of Council. This means an item must be presented 1) as a new business item at a Council meeting and then presented in a Committee meeting before advancing to a vote of Council; or 2) presented at a Committee meeting and then held in that Committee for one meeting before advancing to the regular Council meeting.

7.14 Sunset of Prior Legislative Matters.

All remaining legislative matters, including but not limited to resolutions, ordinances and motions, reports and communications pending in Council or Committees at the conclusion of the Term shall lapse. Each new Council shall start with new Council business.

All Council files pending before the City Council, which have failed in Committee, are deemed "received and filed" or "failed." The Clerk of Council is responsible for the administration of this process.

The Clerk of Council administratively closes all received and filed Council files. A letter placed in the file or notice made that the file, and its subject matter, are no longer active. The Council file is deemed closed.

MOTIONS

8.1 Motions; General.
8.2 Motions; New Subject.
8.3 Procedural Motion During Debate.
8.4 Motion to Reconsider.
8.5 Motion to Take Recess.
8.6 Motion to Adjourn.

8.1 Motions; General.

All motions shall require a majority vote of Council for adoption except as otherwise provided in the Charter or the Rules of Council. When a motion is made it shall be stated by the Presiding Officer before debate. The Member introducing the motion may withdraw or amend a motion at any time before passage. All motions are debatable unless specifically stated otherwise.

The Clerk of Council shall prepare and distribute to Members a weekly report of new and existing legislative activities, to include the name of the sponsor, the title, the Committee referral, action taken by Committee, and current status.

A motion, report from the administration, resolution, or ordinance, in its final form, and referred for consideration, shall be introduced and filed with the Clerk of Council's office, which communicates it to the Mayor for referral to Committee.

The Committee shall diligently act on the referred item and shall bring such item to a vote of the Committee within a reasonable time frame.

If approved by a Committee, the item is sent to the Mayor's office to be placed on the Council calendar no later than the second regular meeting of Council after approval by Committee.

8.2 Motions; New Subject.

All motions which bring a new subject before Council shall be in writing and shall be referred by the Mayor to a Committee for report prior to adoption. Such motions may be presented either in the form of a motion or a resolution.

8.3 Procedural Motion During Debate.

When an item is before Council, only the following procedural motions shall be entertained with precedence in the order listed.

(a) *Motion to Refer.* Approval by a majority of Council of a motion to refer sends the pending question to the Mayor to refer to a specific standing committee or to a special committee, the city manager, a board or commission or a department director for investigation, report, and action. The report in response to such referral shall be made to Council or as Council otherwise directs.

(b) *Motion for Vote on Current Item.* Approval by a majority of Council of a motion for vote on the current item shall close debate and Council shall immediately proceed to a vote on the current question. The motion may be made only after each Member has had an opportunity to speak on the matter. The motion is not debatable.

(c) *Motion to Amend.* A motion may only be amended once. An amendment once rejected may not be moved again substantially in the same form.

(d) *Motion to Postpone Indefinitely.* A motion to postpone indefinitely shall be approved only with the affirmative vote of three-fourths of the Members. If a motion to postpone an item carries, the item is considered to have failed without a vote on the merits.

8.4 Motion to Reconsider.

A motion to reconsider a proposal that has been acted upon favorably must be made before adjournment of the meeting of Council or Committee at which the vote was taken. A motion to reconsider any other action taken by Council or Committee may be made at any time at any meeting held within 10 business days after the vote of Council thereon. A motion to reconsider may be made only by a Member who voted with the prevailing side. A majority of Council shall be sufficient for reconsideration of a vote. If a motion to reconsider fails, a further motion for reconsideration shall not be entertained.

8.5 Motion to Take Recess.

Council may move to take a recess to a specified time. The motion is debatable and amendable. At the appointed time the meeting shall be called to order and business will proceed the same as if no recess had been taken.

8.6 Motion to Adjourn.

A motion to adjourn shall be in order at any time, except as follows:

(a) When repeated without intervening business or discussion.

(b) When made as an interruption of a Member while speaking.

(c) When a Motion for vote on the current item has been made.

(d) While a vote is being taken.

A motion to adjourn is debatable only as to the time to which the meeting is adjourned.

ORDINANCES AND RESOLUTIONS

9.1 Ordinances Drafted.
9.2 Reading of Ordinances.
9.3 Suspension of Three Readings.
9.4 Amendments.
9.5 Improper Amendments.
9.6 Adoption of Ordinances.
9.7 Emergency Ordinances.
9.8 Publication of Ordinances.
9.9 Legislative Resolutions.
9.10 Resolutions.
9.11 Adoption of Resolution.

9.1 Ordinances Drafted.

Ordinances shall be drawn by the city solicitor at the request of the Mayor or any other Member, a Committee, the city manager, a board or commission, or a department director.

All legislative matters shall be drafted as ordinances except when required by state law to be in the form of a resolution, in which case all formalities of an ordinance shall be followed in the passage of the resolution. No ordinance shall contain more than one subject which shall be clearly expressed in its title, and no ordinance shall be revived or amended unless the new ordinance contains the entire ordinance revived, or the section or sections amended and the section or sections so amended shall be repealed.

9.2 Reading of Ordinances.

Ordinances must be fully and distinctly read by title on three different days unless three-fourths of the Members dispense with the rule. If the rule has not been suspended, the first reading of the ordinance shall be for information. After the second reading, the ordinance shall be considered to be in final form and not subject to further amendment, except that the form of the ordinance may be reconsidered by a majority vote of Council. The third reading shall be for adoption of the ordinance by a roll call vote.

9.3 Suspension of Three Readings.

Upon motion affirmatively passed by three-fourths of the Members, the rule that an ordinance must be fully and distinctly read on three different days may be suspended at any time after the first reading of the ordinance.

The title of the ordinance shall be read once for information, the motion for suspension of the rule shall be made and, if the motion is acted upon favorably, the ordinance shall be immediately subject to amendment and passage. If the motion does not carry, the ordinance shall be held for a second reading. A motion to suspend the rule may be made after the second reading and, if acted upon favorably, the ordinance shall be immediately subject to passage.

9.4 Amendments.

Any member of Council may propose amendments to ordinances before Council after the first reading. The proposed amendment shall be considered by Council at that meeting. Prior to any vote on a motion to amend, a substantive discussion on the merits of the proposed

amendment has concluded, a vote of Council will be taken on the amendment first before a vote is taken on the matter as a whole. If the amendment passes, Council will then vote on the matter, as amended, before Council.

Amendments to ordinances made on the floor of Council after the first reading shall be indicated by the Clerk of Council on the original ordinance.

When an ordinance is referred to a Committee, it may be reported back with a recommended substitute for the legislation. The Presiding Officer of the appropriate Committee shall state the substitute recommended by the committee.

The Clerk of Council shall note on the document that it is substitute legislation. The original legislation may be placed on the calendar for indefinite postponement.

9.5 Improper Amendments.

An amendment is out of order which is not germane to the question to be amended or is identical to a question previously decided during that Council meeting. No independent new question may be introduced under cover of an amendment. An amendment may not conflict with the spirit of the original legislation and still be in order.

9.6 Adoption of Ordinances.

An ordinance in its final form, after approval by a Committee, shall be immediately transmitted to the Mayor's office to be placed on the Council calendar for a vote no later than the second regular meeting of Council after approval by Committee.

All ordinances shall require for passage the concurrence of no fewer than a majority of the Members.

A vote of six Members is necessary (a) to appropriate property when notice to the owner is only by publication because the owner cannot be found (O.R.C. 719.06), (b) to pass an emergency measure (Art. II, Sec. 3, Charter), (c) to submit to the electorate a proposal to amend the Charter (Art. XVIII, Sec. 9, Constitution of Ohio), or (d) to overrule the failure of the planning commission to approve an amendment of the zoning ordinance or of the zone map or location of a public improvement or other matter on which the Charter requires planning commission advice. An ordinance creating, combining, abolishing or decreasing the powers of any department, division or board, shall require a vote of three-fourths of the Members (Art. II, Sec. 7, Charter).

9.7 Emergency Ordinances.

In order to take immediate effect, an emergency ordinance must receive an affirmative vote of a majority of the Members on the ordinance and an affirmative vote of two-thirds of the Members on the emergency clause. Each vote shall be taken separately by yea and nay vote.

In the event the ordinance receives an affirmative vote of a majority of the Members, but does not receive an affirmative vote of two-thirds of the Members on the emergency clause, the emergency clause shall be stricken and the ordinance shall go into effect as otherwise provided by law.

The journal of the Clerk of Council shall show the yeas and nays of the roll call vote separately on the ordinance and the emergency clause.

9.8 Publication of Ordinances.

Every ordinance shall be published once within fifteen days after its passage in the City Bulletin or another newspaper of general circulation in the city of Cincinnati. In the publication of every ordinance relating to improvements, the advertisement shall contain simply a statement of the title, number and the date of the ordinance and resolution, a concise description of the private property affected, a summary of the nature of the improvements, the rate of any assessment levied or to be levied, and a reference to a copy of the ordinance, which shall be on file in the office of the Clerk of Council. In the publication of all other ordinances the publication shall contain a statement of the title, number and date of the ordinance, the complete text or a brief statement of the nature of the ordinance and a reference to a copy of the ordinance, which shall be on file in the office of the Clerk of Council.

9.9 Legislative Resolutions.

Legislative matters that are required by the constitution or state law to be in resolution form shall be adopted and published in the same manner as ordinances.

9.10 Resolutions.

Resolutions shall be drawn by the city solicitor at the request of the Mayor, any Member, a Committee, the city manager, a board or commission, or a department director.

9.11 Adoption of Resolution.

All resolutions except legislative resolutions shall be adopted by an affirmative vote of a majority of Council. A Member may abstain from voting on non-legislative resolutions upon request of the Member.

Standing Committees will generally meet every two weeks, or less frequently at the discretion of the Committee chair. The Committee meeting schedule shall be staggered so that there are Committee meetings each week.

A Standing Committee shall not interfere with the schedule of another Standing Committee in the same room. If a Standing Committee runs until the beginning of another Standing Committee, the earlier Committee shall adjourn to another Committee room or adjourn to another time. The chair of the later Committee may waive this rule at his or her sole discretion.

Members shall attend the scheduled standing Committee meeting over the standing Committee meeting that is running over its scheduled time. Failure to attend the scheduled standing Committee at its allotted time shall be recorded as an unexcused absence by the Clerk of Council.

If a Committee member fails to attend a Committee meeting without properly informing the Committee Presiding Officer, the absence will be treated as an unexcused absence and recorded as such by the Clerk of Council. The Clerk of Council shall publish the unexcused absence in the City Bulletin.

Committee chairs shall have the authority to schedule meetings and set the agenda for Committee hearings. Once items have been referred to Committee, the chair shall set the agenda for each meeting. Referred items are not to be placed on Committee agenda without the consent of the chair. However, items referred to Committee shall be placed on the Committee agenda within two regularly scheduled meetings of the Committee. Members may not speak on an item unless it is on the Committee agenda, or upon recognition by the Presiding Officer. The Presiding Officer, in his or her sole and absolute discretion, has the authority to direct security personnel to enforce Council rules for purposes of civility and decorum.

Members may not always agree with the view of some or all of the other Members. All views shall be heard respectfully without reproach, admonition, or interruption. In any debate of public issues, differences of opinion are to be expected and civil airing of those differences is encouraged as it helps to test ideas and develop consensus. Debate, however, should never become a personal attack which criticizes the character of the speaker rather than the wisdom of his or her ideas. Once the Presiding Officer gives a Member the floor, that Member

shall speak without interruption by the Presiding Officer or other Members, unless provided by Section 6.8 of the Rules of Council. Any Member with the floor must yield the floor after five minutes.

If a Committee member requests recognition for the purpose of asking a question, upon recognition of the Presiding Officer, the Member shall ask the question through the Presiding Officer, unless the Presiding Officer allows the Member to ask the question directly.

Any Member of a Committee may propose any amendments or modifications to any matter before the Committee. The proposed amendment or modification shall be considered by the Committee at that meeting. Prior to any vote on a motion to amend, a substantive discussion on the merits of the proposed amendment shall be held. After substantive discussion the merits of the proposed amendment has concluded, a vote of the Committee will be taken on the amendment before a vote is taken on the matter as a whole. If the amendment passes, the Committee will then vote on the matter, as amended, pending before the Committee.

Items not appearing on the agenda may be presented through the Committee chair at his or her sole discretion.

A Committee may consider any matter concerning the city which falls within the area of responsibility assigned to that Committee. A Committee may initiate legislation within its area of responsibility for submission to Council and such legislation, when accompanied by a Committee report, may be acted upon immediately and need not be referred to another Committee.

10.5 Secretary to Committees.

The Clerk of Council or the Clerk of Council's designee shall act as secretary and Parliamentarian, with the assistance of the City Solicitor's office, to each Committee, and keep a record of attendance and business transacted at Committee meetings.

10.6 Committee Quorum/Prompt Start of Committee Meetings.

A majority of the Members appointed to any Committee shall constitute a quorum.

If a quorum is not present at a special or regularly scheduled meeting, the chair or other Presiding Officer may permit persons present to speak on agenda issues; however, no referrals or reports to Council may be made or action taken on any matter in the absence of a quorum, but shall be held in Committee until the next meeting. The chair of the Committee shall report to Council that there was no quorum at its regularly scheduled meeting or that a scheduled meeting was not held. Should action be required on any matter referred to the Committee before the Committee's next scheduled meeting, Council may relieve the Committee from further consideration of the matter.

If a Committee chair is not present five minutes after the scheduled starting time of a Committee meeting, the Committee vice-chair shall call the meeting to order. If neither the chair nor the vice-chair is present, a Committee member shall call the meeting to order.

10.7 Reference to Committees.

Each Committee shall investigate and report on all items on the calendar referred to it and may refer such items to the city manager, city board or commission, or a department director for report to the Committee.

10.8 Committee Reports.

A report in its final form, if approved by the Committee which caused the report to be created, action on the report in the form of a resolution or ordinance shall be sent to the Mayor's office to be placed on the council calendar in a timely fashion.

Any item that was reviewed and considered in Committee on which there was a tie vote; no action could be taken; or other failure to pass out of Committee may be referred by any Member of the Committee to the Mayor for consideration by the Mayor as to whether the item should be placed on the agenda of Council. In addition any legislation properly referred will get a vote in the full Council by a request of any, Member of Council or the Mayor.

The Clerk of Council shall transmit to Council in writing the reports of Committees containing the recommended disposition of matters referred to them. Written indication on the calendars as to a Committee recommendation shall satisfy the requirement that reports of Committees be transmitted in writing to Council.

10.9 Timely Reports.

Administration reports required for review or approval at a Committee or Council meeting shall be distributed at least one day prior to the meeting to allow meaningful Council review and deliberation.

10.10 Relieving Committee from Further Consideration.

Council may by an affirmative vote of two-thirds of the Members, relieve a Committee of further consideration of a matter referred to it and either order the matter placed on the calendar for consideration or send the matter to the Mayor to be referred to a new Committee.

10.11 Public Hearings and Special Meetings.

The Committee chair or any two Members of a Committee may schedule a public hearing or a special meeting of the Committee, with the required public notice.

Any Committee may hold a public hearing or special meeting on any matter pending before the Committee or on any matter of importance to the city within the area of responsibility of the Committee.

In the event such a public hearing or special meeting is called, Notice of a Special Meeting shall be published as provided in these Rules of Council.

In all cases, due care should be taken to avoid scheduling conflicts of Members of the Committee or other previously scheduled hearings or meetings of Council and/or its standing Committees.

10.12 Limitation of Debate.

For Committee meetings, no Member shall be allowed to speak more than once on any one subject until every other Member choosing to speak thereon shall have spoken. No Member may speak on any subject more than five minutes at one time. The one primary maker of the motion shall have the right to make a final two-minute summation before the vote. There shall be no remarks on a subject once the matter has been acted upon. The Presiding Officer shall indicate when the speaker is approaching the end of his or her allotted time and when his or her time has ended. The Presiding Officer has the authority to limit debate in his or her reasonable discretion after each Committee Member has been given the opportunity to speak.

10.13 Committee Agendas.

The Clerk of Council shall prepare an agenda for each committee meeting. The Clerk of Council shall make copies of the agenda for a regular standing committee meeting available in the Clerk of Council's office and on the City's Website by 3:00 p.m. on the Friday preceding such meeting.

LEGAL OPINIONS FOR COUNCIL MEMBERS

11.1 Legal Opinions for Council Members.

11.1 Legal Opinions for Council Members.

Members may, individually or jointly, request legal opinions and legal work from the City Solicitor. When appropriate, the Member(s) may specify that such opinions be delivered confidentially under the attorney-client privilege, and be delivered only to the Member(s) who requested the legal opinions.

If the "Rule 11" legal work the Member requests involves an item to which the administration has already established a position or generated a legal analysis, the Member(s) may request an independent opinion conducted by a city attorney not involved in the prior decision making or analysis.

When the Member has requested a confidential/privileged and independent opinion or analysis, only the Member can disclose the legal opinion to others within or outside the administration. Consistent with Ohio rules of legal ethics, the city attorney must conduct his or her analysis independently and provide a neutral and confidential opinion or analysis to the requesting Member(s).

Members who jointly request a confidential legal opinion or analysis must respect their joint attorney-client privilege for legal opinions given to them in confidence by the City Solicitor's Office or other attorneys of the city.

D. Special Meetings. The Chair, in consultation with the Secretary, may, at their discretion, convene a special meeting of the Commission. The Secretary shall deliver notice of the time, place, and purpose of all special meetings by telephone or e-mail to the Commission members at least 24 hours in advance of the special meeting. If a special meeting is open to the public, the Secretary shall post notice of the time, place, and purpose of all special meetings for public viewing at the Department of City Planning and Engagement, the office of the Clerk of Council, on the City's website, and by such other methods as are reasonably calculated to provide notice.

E. Agenda. In consultation with the Chair, the Secretary shall prepare an agenda showing items for consideration at each regularly scheduled meeting (the "Agenda"). Items for consideration shall be presented to the Secretary no less than ten (10) calendar days before the regularly scheduled meeting at which they would be considered. The Commission may only consider items not included on the Agenda following a motion, second, and a majority vote of members present to consider such items by leave. In their sole discretion, the Secretary may petition the Commission to add an item to an Agenda by leave.

1. Agenda Composition. The Agenda shall contain consent items and discussion items. The Secretary shall further identify each item as a legislative, quasi-judicial, or administrative item. The Secretary shall appropriately identify other special items, i.e., special presentations to the Commission.
2. Agenda Publication. The Secretary shall mail or otherwise distribute the

Agenda and all materials pertinent to each item thereon to the Commission at least five business days before the regularly scheduled meeting.

F. Staff Report. The Secretary shall prepare a staff report of all new business items, which shall be delivered or otherwise made available to the members of the Commission with the Agenda.

G. Quorum. A quorum for any meeting or any undertaking of official business of the Commission shall consist of no less than four Commission members.

1. Establishing Quorum. The Secretary shall make a reasonable effort to notify an applicant and/or any other known interested parties of a failure to obtain a quorum before the meeting.

2. Absence of Quorum. Failure to obtain a quorum, or the loss of an established quorum, shall postpone the meeting until the next regularly scheduled Commission meeting unless the Chair, in consultation with the Secretary, selects another date.

H. Attendance. Any Commission member unable to attend a meeting shall notify the Secretary by telephone or e-mail at least one business day before the meeting. Three or more consecutive unexcused absences during any Commission Term will result in the Secretary issuing a letter to the Commission member seeking their resignation from the Commission. The resigning Commission member shall submit a resignation letter to the Mayor.

I. Voting.

1. Voting Rights. All members of the Commission shall be voting members. Any member of the Commission may make a motion or second a motion.

2. Official Commission Action. The Commission shall adopt all official acts by a majority vote of the Commission members present at a meeting unless applicable law or these rules require more votes.

3. Motions. All official acts of the Commission shall first require a motion by a member of the Commission seconded by another member of the Commission. All motions shall be stated clearly and shall list any proposed conditions. If another member does not second a motion, it is not eligible for a vote of the Commission, and the motion shall expire. Upon expiration of a motion, the Chair shall entertain further discussion by the Commission until a member makes another motion and another member seconds such motion.

4. Roll Call Vote. The Chair shall take all votes of the Commission by a roll call vote. However, the Chair may permit a straw poll vote of the Commission at their discretion.

5. Majority Vote. As used in these rules, the phrase "majority vote of the members of the Commission" shall mean an affirmative vote by a simple majority of the Commission members present at a meeting.

6. Abstentions. A Commission member may abstain from voting on an item, but an abstention shall not reduce the votes required to take official Commission action.

7. Tie Vote. If the vote on a motion produces a tie, the motion shall have failed as if the Commission had taken no action on the item. Accordingly, the Commission shall require further action to dispose of the item.

8. Record of Vote. The Secretary shall record each Commission member's vote on every question. Alternatively, the Secretary shall indicate if the member is absent, recused, abstains, or otherwise fails to vote.

9. Conflicts of Interest and Ethics. No Commission member shall vote upon, discuss, review, recommend, inspect, investigate, or take any other action on a matter in violation of Ohio ethics law provisions, including, but not limited to, Ohio Revised Code Sections 102.03, 102.04, 2921.42, and 2921.43.

10. Duty to Disclose Conflicts of Interest and Ethics Concerns. Any Commission member who encounters a possible conflict of interest or ethical concern shall disclose that issue to the Secretary and the City Solicitor as soon as practical before a scheduled meeting.

11. Determination of Conflicts of Interest and Ethics Concerns. Commission members are encouraged to consult the City Solicitor or their representative for legal guidance concerning conflicts of interest and ethics concerns.

12. Duty to Recuse. If a member has a conflict of interest or ethical concern, the affected member shall remove themselves from the meeting room during that portion of the meeting involving the matter from which that member is conflicted. The Chair shall deem a member who recuses themselves from consideration of an item due to a conflict of interest or ethical concern as absent for that item, which absence shall reduce the number of Commission members used to calculate quorum and the number of votes required to take official Commission action.

SECTION 5. MEETING PROCEDURES.

A. General Rules.

The Commission may exclude the testimony of anyone who has failed to sign in at the meeting.

All persons shall submit written narratives, communications, memoranda, arguments, or other materials to the Secretary no later than 48 hours before the meeting date to ensure that the Commission members are fully apprised of the issues, positions, arguments, and contentions concerning an application. If the submission deadline falls on a holiday, then the deadline is 24 hours before the holiday. The Secretary shall

not accept late submissions. The Commission may consider written materials after the filing deadline at the hearing at the sole discretion of the Chair.

4. Applicant's Failure to Appear. If an applicant fails to appear before the Commission on a quasi-judicial item as scheduled and has not requested to postpone or to continue the hearing as provided in Section 3 above, the Commission, at its discretion, may take one of the following actions:

   b. Dismiss. Dismiss the application based on the applicant's failure to prosecute; or

6. Quasi-Judicial Discussion Item Hearing Procedure. The Chair shall conduct the disposition of quasi-judicial discussion items in the following manner:

RULE 04. CLASSIFICATION

Section 1. Classification Plan.

The classes of positions described in the official classification and salary schedules, entitled "Salary Schedule (year), Department of Human Resources" and "Salary Schedule for Civil Service Employees, Cincinnati Public Schools", as published with such modifications as may be made thereto from time to time in accordance with these rules, shall constitute the official classification plan for all positions in the service of the City of

Cincinnati and the Cincinnati Public Schools, respectively (with the exception of teaching, educational, research and library positions). No person shall be employed or regularly assigned to work under any classification not appropriate to the duties to be performed. The official classification and salary schedules as hereby made a part of these rules.

Section 2. Class Specifications.

The Secretary shall maintain in the office a record for each classification established. The record shall contain the classification title, the duties performed, examples of work performed, the knowledge, skills and abilities required and the minimum qualifications required (required education and experience). The official copy of such specifications shall include the date of approval and the signature or initials of the Secretary or any employee authorized by Commission to make such endorsement. Approval of all amendments to the specifications adopted under these rules shall be similarly endorsed. The official class specification shall be open to the public at all times during business hours.

Section 3. Class Specifications Interpreted.

The specifications of classes of positions in the classification plan are hereby declared to have the following force and effect:

A. They are descriptive and explanatory and are not restrictive. The use of a particular expression or illustration as to duties, qualifications, or other attributes shall not exclude others not mentioned if such others are similar in kind or quality, nor to limit the power of appointing authorities to modify or alter the detailed tasks involved in the duties of any position. When a substantial change of duties outside the current classification is made, except for a temporary period or by the addition of duties that are incidental to the main employment, such change shall be reported to the Commission within 60 days with a view to a possible reclassification of the position.

B. In determining the allocation of a given position the specifications shall be considered as a whole. Consideration shall be given to the general duties and responsibilities, the examples of duties cited, the minimum entrance qualifications, and relationships to other classes as affording an inclusive picture of the employment the class is intended to embrace.

Section 4. Distribution of Positions to Classes.

Upon recommendation of the Secretary each position in the civil service (with the exception of teaching, educational, research and library positions) shall be distributed to the appropriate class by the Civil Service Commission. The distribution of any position to its appropriate class shall involve the adoption of the class title for all positions in the class in payroll records, in requests to the Civil Service Commission for the certification of eligibles, and in all similar employment processes and documents.

Section 5. Classification of New Positions.

Whenever a new position is to be established, the appointing authority or principal executive officer shall report such fact to the Civil Service Commission and transmit a comprehensive description of the duties. The Commission shall thereupon investigate the actual or suggested duties and qualification requirements and allocate the position to its appropriate class in accordance with the classification plan.

Section 6. Reclassification of Positions and Incumbents.

Each appointing authority is responsible for maintaining the integrity of the classification plan by assigning employees duties which are appropriate for their class in accordance with these rules and the applicable class specification. No supervisor may knowingly assign substantial higher level duties except for a temporary promotion or temporary transfer situation.

When the duties and responsibilities of existing positions are changed outside of the current classification, the appointing authority or principal executive officer shall report such fact to the Commission within 60 days of such changes, and transmit to the Commission a full statement of the circumstances, a description of the duties and applicable conditions of employment, if any; copies of such notices shall be provided for the affected employee(s). Requests for audits of positions may be initiated by the Commission, the Civil Service Secretary, an appointing authority or principal executive officer, or an employee working in the position.

The Commission staff shall, after investigation and review of job duties, work samples and/or any other appropriate documents or evidence, allocate or reallocate every position to the appropriate class. The appointing authority, principal executive officers and employees concerned shall have the opportunity to comment to Commission on the reclassification study report prior to Commission's approval.

I. When a position is reclassified to a higher or different classification, several resolutions are available:

   A. The agency may request a certified eligible list for the higher classification, and if the incumbent falls within appointing range, the incumbent will be promoted into the higher position. If the position is to be filled through promotion by means other than a promotional list as approved by Commission, and the incumbent is deemed eligible for the promotion, the incumbent will be promoted into the higher position.

   B. If the incumbent is promoted from an existing list, the promotion shall be effective the beginning of the pay period in which the study is approved by Commission. If the incumbent is promoted after a list is created, or by any other method approved by Commission, the promotion shall be effective following normal rules of promotion.

   C. Incumbents holding permanent status in a position reclassified to a different classification with the same top pay step, as approved by the Commission, may be reclassified to the different classification if they meet the qualifications and all rules for transfers are followed.

   D. If the agency determines not to fill the position at the classification approved by Commission, management may remove from the employee the higher level and/or non-conforming duties as identified as a result of the class study and ensure that the employee's assigned duties are within the employee's classification.

   E. If the agency determines to fill the position at the classification approved by Commission and an incumbent is not eligible for the higher level classification, the employee shall be reassigned to a

position in his proper classification. If such a position is not available, see Section C above.

II. When a position is reclassified to a classification having a lower salary range two resolutions are available:

A. Incumbents holding permanent status in a position reclassified to a classification having a lower salary range may be reassigned to a vacant position in their current classification.

B. If the agency determines not to fill the position at the classification approved by Commission, management may add appropriate duties in order to ensure that the employee's assigned duties are within the employee's classification. These new job assignments must be approved by Commission.

Section 7. Amendment of the Classification Plan.

The Commission, and/or the Civil Service Secretary or designee, as deemed necessary and after conference with the appointing authorities and principal executive officers involved, may establish new classes, abolish, merge or divide existing classes and amend the class specifications to meet changing conditions.

Section 8. Dual Classifications (applicable only to the Board of Education).

Where it is determined by the appointing authority, with the approval of the Commission, that it is frequently necessary for an employee to perform duties outside of his classification, such employee may be appointed to a class involving such duties and retain his original classification. Competitive examination shall be the means of selection for dual class if the position is of a higher level than the original classification, except as the Commission shall otherwise determine. Any subsequent full time vacancy in the higher classification shall be filled by the employee holding a dual classification with the highest seniority in that class and in the same employing unit. No employee may be made full time in any higher class unless his last service rating was at least "satisfactory."

Applicants for open competitive examinations and the exceptional appointment process wishing to appeal the rejection of their application for failure to possess the required work experience time may submit their appeal to the Civil Service Commission in writing no later than fourteen calendar days from the date on the rejection notice.

RULE 06. EXAMINATIONS

Section 1. Examinations.

All applicants for positions and places in the classified service shall be subject to examination. Any examination under this section shall be public and be open to all citizens of the United States and those persons who have legally declared their intentions of becoming a United States citizen. Such examinations may include an evaluation of such factors as education, training, capacity, knowledge, manual dexterity and physical or psychological fitness.

Section 2.

There shall be two types of competitive examinations: Open Competitive and Promotional Competitive.

A. Open competitive examinations shall be open to all applicants who meet the minimum requirements listed in the classification specification for the classification being tested.

B. Promotional competitive examinations shall be limited to current City employees who meet the minimum requirements listed in the classification specification for the classification being tested.

Section 3.

There shall be a Noncompetitive examination that includes an evaluation of the applications to determine if the applicants meet the minimum requirements for the classification being examined. Noncompetitive examinations may also consist of other components, such as qualifying tests, to determine if the applicant can perform the duties of the classification. In the absence of qualifying tests, applicants who meet the minimum requirements shall have their names placed on the appropriate Eligible list. Applicants shall be notified in writing whether they passed the qualifying examination and if their name appears on the eligible list for the classification examined.

Section 4. Contents of Examinations.

Examinations held to establish an eligible list for any class may consist of the following parts. The parts listed below may be given a weight in examinations or may be used in excluding from further examination applicants who do not meet the minimum required standards as outlined in the Examination Announcement/Job Posting.

A. *Written Tests:* This part, when required, shall include a written demon-

stration designed to measure the degree to which an applicant possesses the minimum qualifications, or their education, training and experience as it relates to the minimum qualifications established for the class of positions to which they seek appointment. The Secretary may, in his discretion, verify a competitor's statements as to training and experience and govern his rating accordingly.

B. *Structured Oral Interview:* This part, when required, may be used under the supervision of the Civil Service staff in examinations where a written test is unnecessary, impracticable or insufficient.

C. *Performance Tests:* This part, when required, shall include such tests of performance or trade as will determine the ability and manual skill of competitors to perform the work involved.

D. *Physical Ability Tests:* This part, when required, shall consist of tests of physical condition, muscular strength, agility, and physical fitness of competitors.

E. *Medical/Physical Fitness:* This part, when required, shall include an evaluation conducted by a licensed physician authorized by the Civil Service Commission concerning job-related criteria as determined by the Commission.

F. *Behavior/Psychological Assessment Tests:* This part, when required, shall include written, oral, or performance tests which predict the suitability of candidates to perform the work involved in the classification.

Section 5. Identity of the Examinee Concealed.

Whenever feasible the identity of all persons taking a competitive examination shall be concealed from the examiners by use of an identification number which shall be used on all examination papers and the candidate's application when he presents himself for examination. The number shall be used from the beginning of the examination until the papers have all been rated. Any papers bearing the name of the applicant or any other identification mark, or any candidate who reveals his identification number to any member of the Commission or its staff, directly or indirectly, may be disqualified and the candidate so notified. No candidate shall be permitted to take notes, copy or reproduce any portion of the examination questions or other examination material.

Section 6. Method of Grading Examinations.

Each part of the examination for each classification shall be graded separately. Scores for each part shall be continuous (e.g. 1 to 100) or discrete (e.g. pass/fail). Weighting of the various parts of the examination shall be based upon the results of the job analysis. When supported by the results of the job analysis, part(s) of the exam may be used to determine eligibility to compete on a later part(s) of the exam, and such part(s) may either be weighted or not weighted in the computation of the final score. Passing scores will be determined after the examination by the Civil Service examiner together with the Secretary. Determination of the passing score will be based on the results of the job analysis, analysis of examination results, consultation with subject matter experts, or other professional methods. The final grade for each candidate shall be a single score. If two or more candidates receive the same final grade, a candidate with veteran's preference will be ranked above a non-veteran. Ties between veterans and ties between non-veterans will be broken by priority of filing date on applications as indicated by the time stamp. The names of the applicants receiving

a passing score shall be posted in the Commission's offices and entered on the appropriate eligible list. The grade of any applicant failing to qualify shall not be made public.

Section 7. Minimum Grades on Each Section.

The Secretary may, at his discretion, determine a minimum grade for any part or parts of an examination. Any candidate who fails to attain at least this minimum grade shall be considered to have failed the examination, and shall not be examined on any further parts if any are planned.

Section 8. Examination Monitor.

No persons other than authorized members of the Commission's staff, or in the case of the Board of Education, authorized members of the Civil Service Personnel Office Staff, or other persons approved by the Commission or Secretary, shall act as monitors or spectators while an examination is being conducted.

RULE 07. ELIGIBLE LISTS

Section 1. Posting of Lists.

From the results of each examination, the Commission shall prepare and keep open for public inspection an eligible list of persons who achieve the minimum passing score or better on the examination and are otherwise eligible. Such persons shall be notified and take rank upon the eligible list in the order of their relative grades without reference to priority of time of examination. Whenever it becomes necessary to re-administer an examination in order to obtain additional eligibles, the Commission may consolidate existing lists for the same class by rearranging the eligible names therein according to their grades. Each person whose name appears on the existing list which is to be merged with a new list shall have an opportunity to compete in the second examination, provided he meets the qualifications. Standing on the eligible list then shall be determined by the grade on the subsequent examination. Those eligibles who do not take the second examination will remain on the list according to their grade on the earlier exam and will be removed from the list when the expiration date from the first list is reached.

Section 2. Duration of Eligible Lists.

The term of eligibility of each list shall be fixed by the Commission at not less than one year nor more than two years for the City of Cincinnati and for not less than one year nor more than two years, closing after each appointment and reopening with a full certification for the same classification for the Board of Education.

Section 3. Disqualification of Eligibles and Removal from List.

After the creation of an eligible list, if the Commission has reason to believe that any person whose name appears on a list is disqualified for appointment because of reasons which developed subsequent to his examination; such person shall be notified and given an opportunity to be heard. If such person fails to appear for a hearing, or upon being heard fails to satisfy the Commission, his name shall be removed from the appropriate list. The following are cause for disqualification:

A. Inability to perform the duties of the classification;

B. Errors disclosed in computing scores;

C. False statements made on the application;

D. Any personal activity for which a background investigation demonstrates the likelihood of an adverse effect on his

performance in the position to which he seeks appointment, or activity prohibited by the Ohio Revised Code;

E. Failure to report or arrange within three days after receiving notice of certification (Saturdays, Sundays and holidays excepted) for an interview with an appointing authority;

F. Dismissal from City service within the last two years in the case of a City employee who has competed on an open exam;

G. Any other similar reason.

The name may be reinstated on the eligible list only by a written satisfactory explanation of the circumstances submitted to and approved by the Commission.

Section 4. Change of Address.

Each person on an eligible list shall file with the Commission written notice of any change of address.

Section 5. Revocation of List.

An eligible list may be revoked and another examination ordered only when in the judgment of the Commission such action is deemed advisable due to errors, fraud or obviously inappropriate standards prescribed in connection with any examination. All competitors in the first examination shall be given opportunity to compete and a new eligible list shall be established. No eligible list shall be revoked except upon written notice to all persons whose standing may be affected. The Commission must take action on the reasons for such alteration or revocation and an entry of the action must be made in the minutes of the Commission.

Section 6. Eligible Lists Resulting from an Open and Promotional Examination.

An examination may be given both as open and promotional, for example when an insufficient number of eligibles are available for a full certification. The list of competitors passing the promotional examination shall be prepared separately from the list of competitors passing the open examination. The promotional eligible list shall be used first. When there is an insufficient number of competitors on the list to constitute full certification, the Secretary may authorize the certification of competitors from both the promotional and open eligible lists to constitute a full certification.

RULE 08. APPOINTMENT TO THE CLASSIFIED SERVICE

Section 1. Certification and Appointment Process.

Immediately upon receipt of a request for certification, the Commission shall certify to the appointing authority in which a position in the classified service is to be filled, the names, addresses and rank of the top 25% or a minimum of ten names standing highest on the eligible list for the class or grade to which the position belongs; provided that the Commission may certify less than ten names if ten names are not available. When less than six names are certified to an appointing authority, appointment from the list shall not be mandatory, and a new examination may be secured.

A person certified from an eligible list more than four times to the same appointing authority for the same or similar position may be removed from further consideration.

A. *Certification of Municipal Workers for Permanent Positions:* When an employing unit which employs Municipal Worker has a permanent vacancy in a class in which Unskilled Laborers are employed, this permanent vacancy shall be filled from among the three Municipal Workers of that employing

unit with the highest seniority. When an employing unit has a permanent vacancy and does not employ Municipal Workers in the classification, the ten Municipal Workers with the highest seniority from employing units where Municipal Workers are employed will be certified for consideration.

B. *Cancellation of Certification:* If at any time after eligibles have been certified by the Commission, the appointing authority decides not to fill the vacancy or decides to fill the vacancy by other methods approved by the Commission, the certification shall be canceled.

C. *Employment Interview and Result:* Any appointing authority or his authorized representative shall be privileged to examine the application and test(s) scores of applicants prior to the interview, should this be desired in determining the relative fitness of persons under consideration for appointment.

D. *Appointment Date:* The date on which the appointing authority signs the appointment form is the official appointment date regardless of the actual starting date of employment. All applicable benefits and service credit will be counted from the appointment date.

E. *Appointments in Uniformed Fire and Police Service Resulting from Promotion:* Appointments in a promoted rank within the Fire Department shall be made within ten days following certification. Appointments in a promoted rank within the Police Department shall be made within thirty days following certification.

Section 2. Types of Appointment through Examination and Non Examination.

A. *Permanent Appointments:* Positions should be filled by permanent appointment whenever possible. However, conditions may warrant other appointments listed.

B. *Temporary Appointment:* Use of temporary appointments shall be in accordance with Sections 124.30 (A), of the Ohio Revised Code.

Section 3.

Under special circumstances the following appointments may be made:

A. *Exceptional Appointments:* In case of a vacancy in a position in the classified service where peculiar and exceptional qualifications of a scientific, managerial, professional or educational character are required, and upon satisfactory evidence that for specified reasons competition in such special case is impracticable and that the position can be best filled by a selection of some designated person of high and recognized attainments in such qualities, the Commission may suspend the provisions of the statute requiring competition, but no suspension shall be general in application, and all such cases of suspension shall be recorded in the minutes of the Commission with the reason stated.

B. *Temporary Appointments:* Use of temporary appointments shall be in accordance with Sections 124.30 of the Ohio Revised Code.

Temporary Appointments may be made when there is urgent need to fill a position and Civil Service is unable to certify a list of eligible persons. Temporary appointments may not continue longer than 120 days; except if the temporary appointment is due to sick-

ness, disability, or other approved leave of absence of a regular employee, the temporary appointment may continue as long as the leave. Temporary appointments shall not be made successively. An employee who serves in a temporary appointment for a period of six months of continuous service and who demonstrates merit and fitness for the position shall become a permanent appointee in the classified service at the end of the six months.

Section 4.

Any permanent employee who was separated in good standing may be:

A. Reinstated within one year from the date of such separation to a vacancy in the same or similar classification in the same department, with the approval of the Commission, provided there is no existing promotional eligible list and there are no employees who have been laid off and whose names appear on a layoff list for the class. This section is applicable unless superseded by a collective bargaining agreement. If such separation was due to injury or physical disability, such person shall be reinstated to the same or similar classification he held at the time of his separation, within thirty days after written application for reinstatement and after passing a physical examination made by the City Physician or his designee, showing that he has recovered from such disability or is able to perform the essential duties of the classification with or without accommodation, provided further that such application for reinstatement be filed within two years from the date of separation, and further provided that such application shall not be filed after the date of service eligibility retirement. In the case of requested reinstatements of sworn employees of the Police and Fire Divisions, a copy of the reinstatement request shall be furnished to the appropriate department head or to the Fire Chief or Police Chief as appropriate. (Sworn employees of the Police and Fire Divisions may not be reinstated above the rank of Police Officer and Fire Fighter, and must pass a physical examination disclosing that the person is physically fit to perform the duties of the office of Police Officer or Fire Fighter (ORC 125.50); or

B. Restored to an appropriate eligible list with the approval of the Commission within a period of one year from the date of separation. The employee will be placed on the eligible list in accordance with the grade he received if the list from which he was appointed is still in effect. In the case that the eligible list from which he was appointed has expired, or if an employee requesting to be restored to an eligible list for a classification in which they previously served did not take an examination, the employee will be placed at the bottom of the appropriate eligible list.

Section 5. Transfer of Unclassified Employees.

Whenever, by reason of reorganization of one or more departments, divisions or bureaus of the city service, an employee in the unclassified service is not needed or his position is abolished in such unclassified service, the employee, with the approval of the City Manager or other chief appointing authority and the Civil Service Commission, may be transferred to a vacant position with similar duties in the classified service in the same or other departments, divisions or bureaus. Only

employees who have occupied such unclassified service positions for two or more years may be transferred to the classified service. No such transfer shall be made to a position occupied by a regular appointed employee in the classified service or to a position for which an employee is on a Recall list by reason of layoff.

Section 6. Reassignment within a Given Class.

Nothing herein shall be construed to interfere with the right of the City Manager or other appointing authorities to assign or reassign employees within a given class among the various departments under their control as deemed in the best interest of the service.

Section 7. Coursework, License, Certificate and Registration Validation.

For any classification requiring coursework, license, certificate and/or registration, verification of such must be submitted to the Civil Service Commission prior to any personnel action being taken (i.e. hire, promotion, transfer) This includes new hires, promotions, transfers, voluntary demotions, and reassignments. Individual agencies must verify annually that employees within the agency hold the proper and current license, certificate and/or registration.

RULE 09. PROBATION

Section 1. Probationary Period.

All classified appointments, including temporary appointments, shall be for a probationary period, fixed by the Commission in accordance with Chapter 124 of the Ohio Revised Code. Length of probationary periods for City of Cincinnati classifications is contained in the official classification and salary schedule entitled "Salary Schedule (year), Department of Human Resources," which is hereby made part of these rules. No final appointment or promotion shall be deemed made until the appointee has satisfactorily served his probationary period. In determining the probationary period of a Board of Education seasonal or school year employee, only periods when such employee is on work status shall be counted.

If a probationary employee is absent because of military duty or illness for a substantial portion of his probationary period, the Commission may extend his probationary period by the number of working days not exceeding the length of time he was absent.

Section 2. Probationary Period for Temporary.

Service performed as a temporary shall be included in the probationary period.

Section 3. Removal of Employee.

(Except Fire Fighter - see Ohio Revised Code Section 124.49) A probationary employee may be removed for cause without right to appeal to the Commission at anytime during probation.

Section 4. Probationary Report.

A performance report must be completed by the department not later than ten days prior to the end of the probationary period. The report shall indicate whether the performance of the employee is satisfactory. If a probationary employee is to be separated from employment prior to completion of his probationary period a performance report must be made and included in the separation papers. The performance report shall state the reason for such separation.

Section 5. Ineligibility Due to Probationary Failure.

An employee failing to qualify in his probationary period shall be ineligible for any

civil service examination for a period of one year, unless, in the judgment of the Civil Service Secretary, the cause of his removal will not affect his usefulness in some other type of employment.

Section 6. Demotion to a Former Classification Resulting from Failure of Probation.

A. An employee promoted from the same employing unit who fails to qualify on his probationary period shall be reinstated to the same or similar classification from which he was promoted in the same employing unit.

B. An employee promoted to a position in a different employing unit who fails to qualify on his probationary period may, with the consent of the Commission and the department head of the previous employing unit, be reinstated to the same or similar classification from which he was promoted in the originating employing unit. An employee not so reinstated may be placed on a Recall list for the same or similar classification from which he was promoted, with the consent of the Commission, for a period of one year. An employee on such a list shall have preferential reemployment status in the classification from which the employee was originally promoted or in any lesser-paying classification deemed appropriate by the Commission. Reemployment in a lesser classification shall not be cause to remove the employee from the Recall list for the classification from which the employee was originally promoted.

C. An employee who fails probation while serving in a temporary appointment shall be restored to a position in the classification from which he was temporarily appointed.

RULE 10. PROMOTIONS

Section 1. Commission to Rule on Promotional Examinations.

The term "Promotional Examination" signifies a test to determine the relative standing of applicants for positions in a specified class and is open only to employees in the classified permanent service who, at the time of the examination, are serving actively in other specified classes for such a period as may be prescribed by the Commission, or otherwise meet the qualifications established by the Commission. Vacancies above the lowest grade of any classification series shall be filled whenever practical by the promotion of employees in the classified permanent service. In the event there are no qualified applicants or an insufficient number of qualified applicants to take a promotional examination, or if a promotional examination is given and an insufficient number of applicants pass the examination to satisfy the certification requirements, then an open-to-the-public examination may be announced. The Commission shall determine whether a promotional examination for employees whose experience would be preparation for the higher position shall be held or whether an open-to-the-public examination shall be scheduled. (See Rule 07, Section 6 regarding Eligible Lists Resulting from an Open and promotional examination.)

Promotions in every case shall involve definite permanent changes in duties and an increase in responsibilities and shall not be made merely to increase compensation.

Section 2. Qualifications for Promotional Examinations.

All classified permanent employees who meet the qualifications as established by the Civil Service Commission shall be eligible to take promotional examinations for a higher classification, for an equivalent (but not the same) classification, or for a classification in a lower grade within a different classification series, except:

A. Employees for whom the last annual performance evaluation was less than satisfactory for Police, 7.5 rating points or 6.5 promotion points;

B. Employees for whom two of the last three annual performance evaluations was a "does not meets expectations" (OAC 123:1-23-03);

C. Employees who have been demoted to a lower classification as a result of a disciplinary action in the twelve month period preceding the examination;

D. Employees who fail their probationary period in the twelve month period preceding the examination, unless, in the judgment of the Civil Service Secretary, the failure will not affect their usefulness in some other type of employment.

The Secretary, subject to appeal to the Commission, may reject any application from an employee who had failed or withdrawn from an examination for the same or similar classification within the preceding six months. Temporary transfer and/or temporary promotion time will not be counted for examination eligibility purposes. The Civil Service Commission will consider requests for waiving the time in grade eligibility requirement only from those individuals who are within fifteen days of meeting such requirement. At least one-half of the required work experience must have taken place within the five years immediately preceding the examination, unless specified otherwise on the announcement. Time in grade requirements for examination eligibility shall be established by the Civil Service Commission and shall be those requirements as stated on the official classification specification. Furthermore, the specification for each classification shall be considered as an addendum to these Rules.

Applicants wishing to appeal the rejection of their application to the Commission must submit their appeal in writing no later than fourteen calendar days from the date on the rejection notice.

Section 3. Announcement of Examination and Application for Promotional Examination.

Whenever a promotional examination is ordered, notice of such examination shall be published by the Commission in electronic format and distributed to all departments for distribution to employees. It shall be the duty of the department head or division head to see that employees are notified of the examination. Transmittal of notice may be by electronic or hard copy.

Each applicant must be responsible for the completion of his own application form. All applications shall be filed electronically as specified in the examination announcement (job posting) not later than the date specified in the announcement of examination.

Section 4. Selection of Promotional Examination Date for Police and Fire.

Whenever a vacancy occurs in a promoted rank and no eligible list for such rank exists, the appointing authority shall certify the fact to the Commission, and the Commission shall within sixty days of such vacancy conduct a competitive promotional examination.

In order to compete for promotion in the Police or Fire Divisions, applicants must meet the time-in-grade eligibility requirements at the time of the examination.

Section 5. Contents and Grading of Examinations.

Each promotional examination shall relate directly to the minimum qualifications and duties of the class of positions for which the examination is being held. The names of applicants receiving a passing score on a promotional examination shall be entered on the appropriate eligible list. Official eligible lists will be maintained by the Civil Service Secretary, and will be made available to the

public; provided however that names and scores of competitors who fail to qualify shall not be made public.

A. Examinations held to establish an eligible list for any class may consist of the following components in any combination. Each of these components may be weighted OR may be used in progression such that candidates must pass one component before advancing to the next.

- Written Tests: Uses a written tool to measure the applicant's qualifications for the class of positions being sought.
- Education, Training and Experience Tests: measures the applicant's qualifications for the class of positions using a quantitative evaluation of his documentation of training and experience.
- Oral Interview: Uses a structured oral interview tool to evaluate an applicant's qualifications for a class of positions, where a written test is unnecessary, impracticable or insufficient.
- Practical Tests: includes such tests of performance or trade as will determine the ability and manual skill of competitors to perform the work involved.
- Physical Ability Tests: consists of tests of physical condition, muscular strength, agility, and physical fitness of competitors.
- Medical/Physical Fitness: includes an evaluation conducted by a licensed physician authorized by the Civil Service Commission concerning job-related criteria as determined by the Commission.
- Behavior Assessment Tests: includes written, oral, or performance tests which predict the suitability of candidates to perform the work involved in the classification.
- Background Check/Polygraph Tests.

Each part of the examination for each classification shall be graded separately. Scores for each part shall be continuous (e.g. 1 to 100) or discrete (e.g. pass/fail). Weighting of the various parts of the examination shall be based upon the results of the job analysis. When supported by the results of the job analysis, parts of the exam may be used to determine eligibility to compete on later parts of the exam, and such parts may either be weighted or not weighted in the computation of the final score. Passing scores will be determined after the examination by the Civil Service examiner together with the Secretary. Determination of the passing score will be based on the results of the job analysis, analysis of examination results, consultation with subject matter experts, or other professional methods. The final grade for each candidate shall be a single score. If two or more candidates receive the same final grade, a candidate with veteran's preference will be ranked above a non-veteran. Ties between veterans and ties between non-veterans will be broken by priority of filing date on applications as indicated by the time stamp. The names of the applicants receiving a passing score shall be posted in the Commission's offices and entered on the appropriate eligible list. The grade of any applicant failing to qualify shall not be made public.

The Secretary may designate various subject matter experts as special examiners to assist in preparing and/or grading examinations. Such special examiners are required to maintain strict confidentiality and security with regard to all examination matters.

The identity of all persons taking promotional examinations shall be concealed from the examiners by use of an identification number which shall, whenever feasible, be used on all examination papers and the candidate's application when he presents himself for examination. The number shall be used from the beginning of the examination until the papers have all been rated. Any papers bearing the name of the applicant or any other identification mark, or any candidate who reveals his identification number to any member of the Commission or its staff, directly or indirectly, may be disqualified and the candidate so notified.

All forms of cheating are strictly prohibited. Cheating will result in disqualification from competition.

In promotional examinations, credit for seniority in service shall be added to the examination grade, but no credit for seniority or any other reason shall be added to an examination grade unless the applicant achieves a passing score on the examination without counting such extra credit.

B. Credit for Seniority. For those making a passing score on the examination, additional credit for seniority will be awarded.

1. Seniority credit on promotional examinations consists of credit awarded for continuous service which has not been broken by dismissal, layoff or resignation without reinstatement in the classified service of the City of Cincinnati, Board of Education and the University of Cincinnati (which includes University Hospital), except that credit for service with the University of Cincinnati shall be limited to City of Cincinnati and Board of Education employees in service as of July 1, 1977, and to University of Cincinnati service prior to July 1, 1977 when the University went under state control.

2. Seniority credit is given for service in a provisional, temporary or seasonal appointment, if such service led directly into permanent employment without a break in service. Seniority credit is also given for service in a seasonal appointment if the employee receives a permanent appointment within a year of the most recent layoff. An employee whose city service is interrupted only by military service shall receive credit for seniority on the basis of his combined city and military service.

3. A non-uniformed employee whose city service is interrupted only by a resignation under Rule 8, Section 4a, shall receive credit for his service prior to resignation. However, uniformed police and fire personnel are not entitled to seniority credit for service prior to a resignation. Additionally, in promoted fire ranks, credit is given only for service in the Fire Division. Seniority credit is not given for service as an unclassified, student, temporary, emergency, unclassified casual or federally funded (e.g., Emergency Employment Act, Public Service Employee, Comprehensive Employment Training Act, Model Cities, Pilot Cities, etc.) employee.

4. For non-uniformed employees and uniformed police personnel, credit for seniority shall equal, for the first four years of creditable service, one percent of the total grade

attainable in the promotional examination and for each of the fifth through fourteenth years of creditable service, six-tenths percent of the total grade attainable.

5. For uniformed fire personnel, credit for seniority shall equal, for the first four years of creditable service, one percent of the total grade attainable in the promotional examination and for each of the fifth through tenth years of creditable service six-tenths percent of the total grade attainable. In computing the seniority credit for uniformed fire personnel, half of the credit set forth above will be given for each half year of service.

6. If two or more candidates receive the same final grade on a promotional examination, including any additional credit, the candidate with the greatest seniority will be ranked highest. If two competitors were appointed on the same day, ties will be broken by priority of the filing date on current applications as indicated by time stamp.

Section 6. Inspection of Examination Papers.

A. The Civil Service Secretary shall set forth reasonable regulations to govern the administration of the review period including the setting of dates, times, and location for review. Examination material shall be available for inspection only after the Commission has determined its availability will not threaten the security or reuse of the examination. Inspection shall not be permitted of standardized tests prepared by experts outside the city service, where such inspection is specifically prohibited by the preparer or where such inspection would tend to reduce the validity of the test results.

After the grading of such examination papers, any participant in the examination who deems his examination papers have been erroneously graded shall have the right to appeal to the Commission.

B. Inspection of examination papers for uniformed fire positions are subject to the rules listed above in Section 6(A). However, in the case that the Commission finds an error in the rating key or answer, it shall publish a revised rating key or answer. The revised rating key or answer shall then be available to participants subsequent to such determination of error or errors. In addition, review of promotional examination materials for uniformed fire and police positions is restricted to one visit per day. Each visit is limited to a maximum of two hours. The number of visits during the entire review period shall not exceed a total of two.

Section 7. Duration of Promotional Eligible Lists.

The term of eligibility of each list shall be fixed by the Commission at not less than one year nor more than two years for the City of Cincinnati and for not less than one year nor more than two years, closing after each appointment and reopening with a full certification for the same classification for the Board of Education.

Section 8. Certification of Promotions.

A. *Uniformed Services:* Whenever a vacancy occurs in a promoted rank in the Police or Fire services, except for the rank of Police Chief and Assistant Police Chief or Fire Chief and Assistant Fire Chief, only the person having the highest rating on the appropriate eligible list shall be certified.

B. *Non-Uniformed Services:* Whenever a vacancy occurs and a promotional eligible list exists for the classification in employing units of the city service, the one person (AFSCME), three persons (Non-Represented) or ten persons (CODE) having the highest rating on the eligible list shall be certified. A single eligible list of all passers will be established when city-wide promotional examinations are given. Employing Unit lists will be used unless superseded by a collective bargaining agreement.

Section 9. Promotion Without Examination.

The Commission recognizes the following situations in which it may authorize promotion of an eligible employee without competition:

A. If a vacancy exists in a classification requiring peculiar and exceptional qualifications of a scientific, managerial, professional or educational nature, and the appointing authority establishes in writing to the satisfaction of the Commission that only one employee of the department has such qualifications, promotion may be approved.

B. If a classification has been established with advance approval of the Commission for the purpose of training an employee for promotion to a higher classification, and the selection of the employee has been made with due regard for the requirements of the higher classification, the Commission may, upon recommendation of the appointing authority, approve the promotion without examination upon completion of suitable job training and satisfactory job performance as prescribed in the class specification for the higher classification. With advance approval of the Commission, a classification may be established for the purpose of training an employee for promotion to a higher classification upon completion of suitable job training and satisfactory job performance as prescribe in the class specification for the higher classification. When these qualifications have been met, and upon the recommendation of the agency head, the Commission may approve promotion without examination.

C. If a vacancy exists in a classification other than sworn police and fire classifications in a given employing unit where there is no eligibility list from which a certified appointment may be made, and there is one qualified and interested employee for AFSCME, three or fewer qualified and interested employees for Non Represented or ten or fewer qualified and interested for CODE, the appointing authority may request and the Commission may approve a promotion without examination.

Section 10. Temporary Promotions.

The Civil Service Commission may approve an interim or temporary promotion to a higher classification when requested by a department head. Temporary promotions may be made due to sickness, disability or other absence of a regular employee, or due to a position vacancy pending filling of the position permanently. The employee recommended for temporary promotion must meet the qualification and eligibility requirements of the higher classification. All such temporary promotions shall be recorded in the minutes of the Commission. Temporary promotions may be made for a period not to exceed three pay periods (six weeks), after which the promotion must be rotated among all other interested and qualified eligibles in the employing

unit. The Commission will consider requests for exception to the rotation requirement where it can be shown that a serious operational problem and/or serious inequity would result from the rotation. Requests for temporary promotion shall include:

A. The name of the vacant classification and number of vacancies;

B. Number of qualified and eligible employees for the promotion;

C. The plan for rotation, including designation of pay periods each nominee will serve, or plan against rotation; and

D. Reasons for the plan.

Section 11. Alternative Examination Dates and Special Arrangements.

Whenever, because of illness, injury or religious belief, an applicant for promotional examination is unable to sit for the exam on the scheduled date, time and/or location, he may request from the Commission an alternative schedule or special arrangement. Approval for an alternative schedule or special arrangement shall only be given if the security and/or integrity of the examination can be maintained, and it does not add substantial cost or time to be incurred in the judgment of the Commission.

Section 12. Examination Monitor.

No persons other than authorized members of the Commission's staff or, in the case of the Board of Education, authorized members of the Civil Service Personnel Office staff, or other persons approved by the Commission or Secretary, shall act as monitors or spectators while an examination is being conducted.

Section 13. Twelve Month Rule.

Employees who accept a non-represented position due to promotion or demotion cannot voluntarily or otherwise leave the position for at least twelve months from the first day in the new position.

RULE 11. TRANSFERS

Section 1. Interdepartmental Transfers.

An employee in the classified service who has served the required probationary period in his current classification may be transferred from a position in one department to a position in the same or similar class and same pay (based on top salary steps) for which they are qualified, in another department, with the consent of the employee to be transferred and the director of the department to which the employee is to be transferred, with the approval of the Civil Service Commission. An additional probationary period is not given in such interdepartmental transfers.

Employees of the Board of Education may not transfer to a City position, nor may City employees transfer to a Board position; employees of the City and the Board of Education may apply for open to the public entry-level positions in either jurisdiction for which they are qualified.

Nothing stated here regarding transfers shall be construed to interfere with the right of the city Manager or other appointing authorities to assign or reassign employees within a given class among the various departments under their control as deemed in the best interest of the service (Rule 8, section 6).

Section 2. Assignment to Other Work.

An employee in the classified service may be assigned to work other than that described in the specifications of his classification but of the same general level of respon-

sibility for a period of thirty calendar days without notice to the Commission. Such an assignment shall involve no change in compensation. No person shall be assigned for more than thirty calendar days on other duties than those implied by his class title unless he has qualified through competitive examination and is appointed in accordance with these rules.

Section 3. Transfer of Unclassified Employees.

Whenever, by reason of reorganization of one or more departments, divisions or bureaus of the city service, an employee in the unclassified service is not needed or his position is abolished in such unclassified service, the employee, with the approval of the City Manager or other chief appointing authority and the Civil Service Commission, may be transferred to a vacant position with similar duties in the classified service in the same or other departments, divisions or bureaus. Only employees who have occupied such unclassified service positions for two or more years may be transferred to the classified service. No such transfer shall be made to a position occupied by a regularly appointed employee in the classified service or to a position for which an employee is on an eligible list by reason of layoff or reclassification.

Section 4.

Employees who accept a non-represented position due to transfer cannot voluntarily or otherwise leave the position for at least twelve months from the first day in the new position.

RULE 12. LAYOFF AND RECALL PROCEDURES

The following are the layoff and recall procedures unless superseded by a collective bargaining agreement:

Section 1. Procedure for Layoff in Non-Uniformed Classifications.

Employees may be laid off as a result of lack of funds within an agency. The appointing authority shall determine whether a lack of funds exists. Employees may be laid off as a result of lack of work within an agency. The appointing authority shall determine whether a lack of work exists. Employees may be laid off as a result of abolishment of positions within an agency. The appointing authority shall determine whether any positions should be abolished. Lack of funds, lack of work and abolishment are used here as defined by ORC 124.321. If there is a reduction of the work force, the appointing authority shall follow the procedures for laying off employees within each employing unit, unless otherwise stated, subject to the following modifications:

A. The employee whose position has been abolished shall have the right to fill an available vacancy within the employee's classification;

B. If the employee whose position has been abolished has more retention points than any other employee serving in the same classification, then the employee with the fewest retention points shall be displaced;

C. If the employee whose position has been abolished has the fewest retention points in the classification, the employee shall have the right to fill an available vacancy in a lower classification in the classification series;

D. If the employee whose position has been abolished has the fewest retention points in the classification, the employee shall displace the employee with the fewest retention points in the next or successively lower classification in the classification series;

E. In the event of the four actions described not occurring, the employee shall be laid off.

Section 2. Appointment Categories and Priorities.

Employees shall be laid off in the order set forth in this section within the primary ap-

pointment categories of part time probationary, part time permanent, full time probationary, full time permanent. Whenever a reduction in force is necessary within each of the primary appointment categories, temporary, then permanent employees within the employing unit within the classification series shall be laid off in the following order:

A. Temporary appointed employees;

B. Permanent appointed employees still on probation;

C. Permanent appointed employees who have successfully completed probation;

Within each of the above categories, part time employees (i.e. less than 75 percent work time) must be laid off before full time employees within the employing unit within the classification series.

Section 3. Displacement Procedures.

A laid-off employee has the right to displace the employee with the fewest retention points in the classification from which the employee was laid off or in a lower or equivalent classification, in the following order:

A. Within the classification from which the employee was laid off;

B. Within the classification series from which the employee was laid off.

An employee laid off in the classified service shall displace the employee within the same employing unit in the following manner:

A. Each laid off employee possessing more retention points shall displace the employee with the fewest retention points in the next lower classification or successively lower classification in the same classification series; except that a laid-off provisional employee shall not have the right to displace a certified employee;

B. Any employee displaced by an employee possessing more retention points shall displace the employee with the fewest retention points in the next lower classification or successively lower classification in the same classification series; except that a displaced provisional employee shall not displace a certified employee. This process shall continue, if necessary, until the employee with the fewest retention points in the lowest classification of the classification series of the same layoff jurisdiction or appointing authority has been reached and if necessary, laid off.

The Commission shall presume that any laid off employee will exercise their displacement rights. Employees not wishing to exercise their displacement rights shall notify the principal appointive officer of their department or appointing authority, in writing, of their intention within five working days after receiving notice of layoff. Employees not wishing to exercise their displacement rights will be laid off.

No employee shall displace an employee for whose position or classification there exists special minimum qualifications, as established by a position description, classification specifications, or by bona fide occupation qualification, unless the employee desiring to displace another employee possesses the requisite minimum qualifications for the position or classification.

Section 4. Retention Points.

Retention points need to be calculated for permanent employees only. An employee's total retention points shall be the sum of the base retention points plus the retention points assigned for continuous service and for relative efficiency in service.

A. *Credit for Continuous Service:* Credit for a complete month of service will be

given for any calendar month in which an employee is employed in the layoff jurisdiction as established under these rules. Each employee is to receive 2.175 retention points for each completed month of continuous service in the layoff jurisdiction. Authorized military leave or Family Medical Leave Act (FMLA) shall not be considered as an interruption of continuous service. Retention points will not be given for service in the fire or police forces, nor for service as a student, temporary or emergency employee, nor for service as an Emergency Employment Act or Public Service Employee or other similar type of employee. Service shall be considered to be noncontinuous when an employee:

1. Quits or resigns; however, if resignation is followed by reinstatement within one year, credit for continuous service prior to resignation will be given but no credit will be given for the time between resignation and reinstatement;
2. Is discharged for just cause;
3. Is laid off for a period of more than twelve (12) consecutive months (Non Represented), thirty-six (36) consecutive months (AFSCME) or forty-eight (48) consecutive months (CODE). If an employee is laid off and recalled, credit for continuous service prior to the layoff will be given but no credit will be given for the time the employee was actually laid off;
4. Transfers to the unclassified service and returns to the classified service. Credit for continuous service prior to the transfer to the unclassified service and following return to the classified service will be given but no credit will be given for the time served in the unclassified service.

B. *Base Retention Points:* Two hundred (200) additional points are added to those earned in section A to yield the employee's total seniority points.

C. *Credit for Efficiency:*

Section 5. Recall Procedure for Non-Uniformed Employees (unless superseded by a collective bargaining agreement).

A. Employees who have been laid off or have, by virtue of exercising their displacement rights, been displaced to a lower classification in their classification series, shall be placed on appropriate layoff lists. Those employees with the most retention points shall be placed at the top of the layoff list to be followed by employees ranked in descending total retention order. Laid-off employees shall be placed on layoff lists for each classification in the classification series equal to or lower than the classification in which the employee was employed at the time of layoff.

B. An employee who is laid off retains reinstatement rights in the appointing authority from which he was laid off. Reinstate-

ment rights continue for one year (Non Represented), thirty-six months (AFSCME) and forty-eight months (CODE) from the date of layoff. During this one-year period, thirty-six month period or forty-eight month period, in any layoff jurisdiction in which an appointing authority has an employee on a layoff list, the appointing authority shall not hire or promote anyone into a vacancy in that classification until all laid-off persons on a layoff list for that classification are reinstated or decline the position when it is offered.

C. Each laid off or displaced employee, in addition to reinstatement rights within the employee's appointing authority, shall have the right of service reemployment with other appointing authorities within the layoff jurisdiction but only in the same classification from which the employee was initially laid off or displaced. Layoff lists for each appointing authority must be exhausted before jurisdictional reemployment layoff lists are used.

D. Any employee accepting or declining reinstatement to the same classification and same appointment type from which the employee was laid off or displaced shall be removed from the appointing authority's layoff list.

E. Any employee accepting or declining reemployment to the same classification and the same appointment type from which the employee was laid off or displaced shall be removed from the jurisdictional layoff list.

F. An employee who does not exercise his option to displace under Section 3 of this rule shall only be entitled to reinstatement or reemployment in the classification from which the employee was displaced or laid off.

G. An employee who declines reinstatement to a classification lower in the classification series than the classification from which the employee was laid off or displaced, shall thereafter only be entitled to reinstatement to a classification higher, up to and including the classification from which the employee was laid off or displaced, in the classification series than the classification that was declined.

H. Any employee reinstated or reemployed under this section shall not serve a period upon reinstatement or employment except than an employee laid off during an original or promotional probationary period shall begin a new probationary period.

Section 6. Layoff and Displacement Procedures for Uniformed Police and Fire Personnel.

Shall be in accordance with ORC 124.37 unless otherwise modified by applicable collective bargaining agreements.

Section 7. Appeals.

An employee may appeal a layoff, or displacement which is the result of a layoff, to the Civil Service Commission. The appeal shall be filed or postmarked no later than ten days after receipt of the notice of layoff or after the date the employee is displaced. In cases involving the laying off of classified employees the affected employee may appeal the decision of the Civil Service Commission to the common pleas court within the time allowed by law.

RULE 13. PERFORMANCE RECORDS

Classified employees shall be rated or evaluated with respect to performance once during each calendar year. Each employee shall be evaluated by his immediate supervisor. If an employee receives approximately equal supervision from two persons, both supervisors shall cooperate in and sign the evaluation. All forms and methods for evaluating performance shall be approved by the Civil Service Commission. Each employee shall be informed of his performance rating.

Section 1. Probationary Performance Reports.

A performance evaluation shall be completed ten days prior to the conclusion of the probationary period, unless the employee fails probation, in which case the final evaluation will be made at the time of removal. The final probationary evaluation shall state whether the employee is to be retained or removed.

RULE 14. REDUCTION OR DEMOTION

Section 1. Voluntary Demotion.

An employee may, with the agreement of the department head and the approval of the Civil Service Commission, be reclassified and transferred to a vacant position, which he is qualified to fill, in a class having lower compensation.

Section 2. Involuntary Demotion Resulting from Disability.

When an employee becomes disabled and cannot perform the duties of his classification, he may, upon request of the department head or upon his own request, be reclassified and transferred to a vacant position, which he is able to fill, in a class having lower compensation. He first shall be served with a written notice of such demotion and have a fair chance to file an explanation. Complete facts regarding such a change in classification shall be reported to the Commission in the manner set forth in appeals from dismissals (see Rule 17). The reclassification shall not become effective until approved by the Commission.

An employee demoted as a result of a disability may, or the department head may, at any time after the effective date of a demotion request the Civil Service Commission to reconsider the reclassification of the demoted employee to the classification from which the employee was previously demoted, provided that such appeal shall not be filed after the date of service eligibility retirement. The demoted employee must pass an examination administered by the City Physician, or by a licensed physician designated by the City physician, showing that the employee has recovered from the disability.

Section 3.

Any permanent employee who has been voluntarily demoted and is in good standing may be:

A. Reinstated to a vacancy in his former classification with the agreement of the department head and the approval of the Commission, within a year from the date of the voluntary demotion, provided there is no existing promotional eligible list for the classification and there are no employees who have been laid off and whose names appear on a layoff list for the classification.

B. Restored to the appropriate eligible list with the approval of the Commission within a period of one year from the date of the voluntary demotion. The employee will be placed on the eligible list in accordance with the grade he received if the list from which he was appointed is still in effect. In the case that the eligible list from which he was appointed has expired, or if the employee requesting to be restored to the eligible list for a classification from which they previously served but did not take an examination, the employee will be placed at the bottom of the appropriate eligible list.

RULE 15. SENSITIVE CLASSIFICATIONS/POSITIONS

Section 1. Criteria for Determining that a Classification or Position is Sensitive.

Certain classifications or positions shall be considered sensitive in nature if the duties involve any of the following factors:

1. Access to a private home;
2. Handling of money and/or negotiable instruments;
3. Inspections for granting licenses, approval of work being done, etc.;
4. Contact with children;
5. Access to chemicals, drugs and/or medications;
6. Exposure to possibility of bribery or extortion;
7. Opportunity for pilferage;
8. Concerned with community security (e.g., police and fire protection, water supply, computer programs);
9. Access to sensitive information;
10. Possession of weapons, e.g. firearm, chemical irritant, batons, etc.
11. Any other factor which is determined by the Commission to be a job- related concern sufficient to consider the classification as sensitive.

Section 2. Background Investigations.

The Commission shall maintain a list of sensitive job classifications or positions for which background investigations shall comprise a portion of the selection process. Applicants competing on entrance or promotional examinations for a classification or position which is considered sensitive must submit to a background investigation, after a department has determined that the applicant is qualified and has made a contingent offer of employment. Such rejection or removal shall be accomplished by a written notice from the Secretary, and the applicant shall have the right to appeal such removal or rejection to the Civil Service Commission.

All background investigations for sensitive classifications or positions shall be initiated by the Human Resources Department. The Human Resources Department shall notify the appropriate investigative agency of the need to conduct background investigations for certain applicants. The results of the background investigations shall be transmitted in confidence by the investigative agency to the Human Resources Department. The Secretary may notify the principal appointive officer of the results of such an investigation for the purpose of removing the applicant from the selection process, or if the background investigation results in information which adversely affects the applicants' performance in the classification or position in which he is currently serving.

RULE 16. DISCIPLINARY ACTION

Section 1. Reduction, Suspension and Dismissal.

The tenure of every employee shall be during good behavior and efficient service and no such employee shall be reduced in pay or classification, suspended, or dismissed except for incompetency, inefficiency, dishonesty, substance abuse, immoral conduct, insubordination, discourteous treatment of the public, neglect of duty, violation of any policy or work rule of the officer's or employee's appointing authority, violation of the rules of the Commission, or any other failure of good behavior. In any case of reduction, suspension of more than three working days, or dismissal, the appointing authority shall furnish the employee with a copy of the order of reduction, suspension or dismissal, which order shall state the reasons therefore. Such order shall be filed with the Commission. Copies of memoranda and written reprimands which demonstrate the reason(s) for disciplinary action must be maintained. Disciplinary action for inefficiency, failure of good behavior, and/or any other item(s) listed above can result in the following:

A. Reduction - an appointing authority may demote an employee from his classification to a lower related classification for purposes of discipline. An appointing authority may also reduce an employee's pay within the classification he is presently serving for purposes of discipline.

B. Suspension - an appointing authority may terminate an employee's employment and compensation for a fixed period of time for the purpose of discipline.

C. Dismissal - an appointing authority may terminate an employee's employment. Employees may be dismissed as a result of an accumulation of acts of lesser consequences.

Additional grounds for dismissal are:

1. Absence from duty without permission; or
2. Absence from duty by an employee for three consecutive days without any explanation within that period, or his failure to return from leave of absence after the leave has expired or been revoked.

The appropriate department shall immediately notify the employee of the dismissal by certified mail. Notice of such dismissal is sufficient if mailed to the employee's last known address as specified by Personnel Policies and Procedures Policy No. 2.5. The explanation referred to above must be made to the employee's crew leader, supervisor, or other official as specified by the department or division regulations. If within ten days after the last day of actual work prior to the unexplained absence the employee should furnish to the appointing authority a satisfactory explanation of his absence, an entry of dismissal may be set aside by the recommendation of the appointing authority with the approval of the Commission. Furthermore, an employee may request a hearing by his agency, during that same ten day period, to consider the charges against him and allow an opportunity to satisfactorily explain his absence.

The dismissal of an employee will not become effective until the appointing authority has held a hearing at the department/division level to permit the employee to present matters in his defense and has sent written notice of dismissal to the employee. The written notice must contain one or more of the statutory reasons or grounds for dismissal together with specifications and facts

as will enable the employee to be placed fairly upon his defense. A copy of the notice of dismissal, including specifications must be filed with the Commission. Exception to the requirement for such a hearing are dismissals resulting from failure of probation and for reasons outlined in C (2) above.

Section 2. Appeal.

Within ten calendar days following the filing of such order resulting in reduction, suspension of more than three working days, or dismissal, the employee may file an appeal, in writing, with the Commission. In the event such an appeal is filed, the Commission shall forthwith notify the appointing authority and shall hear, or appoint a trial board to hear, such appeal within thirty days from and after its filing with the Commission, or within such reasonable additional time as determined by the Commission and it may affirm, disaffirm, or modify the judgment of the appointing authority.

In cases of dismissal or reduction in pay for disciplinary reasons, either the appointing authority or the officer or the employee may appeal from the decision of the Commission to the court of common pleas of Hamilton County.

In the case of the suspension for any period of time, or demotion, or dismissal of a chief of police or fire chief or any sworn, uniformed member of the Police or Fire Division, the appointing authority shall furnish such chief or member of a division with a copy of the order of suspension, demotion or dismissal, which order shall state the reasons for such action. Such order shall be filed with the Commission. Within ten days following the filing of such order such chief or member of a division may file an appeal, in writing, with the Commission. In the event such appeal is filed, the Commission shall forthwith notify the appointing authority and shall hear, or appoint a trial board to hear, such appeal within thirty days or within such reasonable additional time as determined by the Commission from and after its filing with the Commission, and it may affirm, disaffirm or modify the judgment of the appointing authority. An appeal on questions of law and fact may be had from the decision of the Commission to the court of common pleas for Hamilton County. Such appeal shall be taken within thirty days from the finding of the Commission.

The Commission may appoint a Trial Board, consisting of one, two or three members, providing that at least one of the members shall be a member of the Commission who shall act as Chairperson. The Trial Board may hear appeals of any matter within the jurisdiction of the Commission, and shall recommend its disposition to the Commission. Determination of an appeal is not final until reviewed and acted upon by the full Commission. The Commission may alter, amend, affirm or reverse the recommendation of the Trial Board, or may order a rehearing of the appeal.

Section 3. Felony Conviction.

An employee of the City of Cincinnati convicted of a felony immediately forfeits their status as a classified employee in public employment on and after the date of the conviction for the felony. If an officer or employee is removed under this section as a result of being convicted of a felony or is subsequently convicted of a felony that involves the same conduct that was the basis for removal, the officer or employee is barred from receiving any compensation after the removal notwithstanding any modifications or disaffirmance of the removal, unless the conviction for the felony is subsequently reversed or annulled. Any person removed for conviction of a felony is entitled to a cash

payment for any accrued but unused personal, compensatory time and vacation leave as authorized by law.

As used in the section, "felony" means any of the following: (1) a felony that is an offense of violence as defined by Section 2901.01 of the Ohio Revised Code (ORC); (2) a felony that is a felony drug abuse offense as defined by Section 2925.01 of the ORC; (3) a felony under the laws of this state or the United States that is a crime of moral turpitude; (4) a felony involving dishonest, fraud or theft; or (5) a felony that is a violation of Section 2921.05, 2921.32, 2921.42 of the ORC.

RULE 17. APPEAL TO THE COMMISSION, HEARINGS AND COMMISSION ACTION

Section 1. Appeals to the Commission of Disciplinary Action, Layoff and Displacements, Criminal Background Check, and Minimum Qualifications.

An employee may appeal an order of dismissal, separation, demotion, suspension in excess of three working days, displacements, layoffs, results of a criminal background check or failure to meet the minimum qualifications for an Open Competitive, Non Competitive or Promotional examination by filing a notice of appeal with the Commission.

A. The notice of appeal must be in writing and filed no later than ten calendar days after the order of dismissal, demotion, suspension, displacement, layoff, failure to hire based on the criminal back ground check or failure to meet the minimum qualifications for a classification has been filed by the appointing authority with the Civil Service Commission.

B. Contents of Appeals: All appeals to the Commission shall be written. Notices of appeals should include the following information:

1. The appellant's name, address and telephone number.
2. The name of the appointing authority and/or department/division.
3. A description or summary of the action which is being appealed.

Failure to supply the information listed above may result in dismissal of the appeal. Prior to dismissing the appeal, the Commission shall attempt to obtain the required information from the appellant. Appellants shall notify the Commission, in writing of any change of address during the pendency of the appeal.

C. Upon receipt of such an appeal, the Commission shall forthwith notify the appointing authority and shall hear, or appoint a trial board to hear such appeal within thirty calendar days after the time stamped date of receipt of the written appeal or within such a reasonable additional time as determined by the Commission. Written notice shall be given to the appellant and to the appointing authority of the time and place of hearing of the appeal. The Commission may affirm, disaffirm or modify the judgment of the appointing authority.

D. Notice of Hearing: Parties (the appellant and the department) will be notified by the Commission in writing of the scheduled hearing at least ten working days prior to such hearing. Parties wishing to reschedule a hearing must do so in writing at least five working days prior to the scheduled hearing.

E. Hearing Proceedings: Hearings shall be open to the public; however, no person may take photographs (still or otherwise) during the appeal proceedings. The proceedings shall be as informal as is compatible with the requirements of justice. The Secretary shall furnish to the Commission, as official documents comprising the record of appeal, the Notice of Appeal, a copy of the Notice of Disciplinary Action, Separation or Layoff (Form 32) pertaining to the appellant, and a copy of the appellant's Civil Service employment record, including past disciplinary actions, if any. The Commission shall hear evidence upon the charges and specifications as filed by the appointing authority.

1. Order of Proof - Disciplinary Appeals shall be as follows:

   The appointing authority shall present his evidence in support of the charges. The appellant shall then produce such evidence as he may wish to offer in his defense. The parties in interest may then offer rebuttal evidence. The Commission in its discretion may hear arguments.

2. Order of Proof - All other Appeals shall be the reverse of 1 above.

3. Evidence and Counsel - The admission of the evidence shall be governed by the decision of the Civil Service Commission or trial hearing board. The Commission shall have the power to subpoena and require the attendance of witnesses; to subpoena the production of pertinent documents; and to administer oaths. The appointing authority may be represented by the City Solicitor, assistant city solicitors or other counsel designated by the City Solicitor. The appellant may also be represented by legal counsel.

4. Failure of Parties to Appear - If the employee shall fail to appear at the time fixed for the hearing, the Commission shall hear the evidence and render judgment thereon. If the appointing authority shall fail to appear at the time fixed for the hearing, and if no evidence is offered in support of his charge or charges, the Commission may render judgment as by default or may hear evidence offered by the employee and render judgment thereon. The Commission shall forthwith notify the appointing authority and the employee of its judgment.

5. Decision Rendered - The Commission shall, after due consideration, render its judgment affirming, disaffirming or modifying the action of the appointing authority as appropriate under the facts of the case. The decision rendered shall be officially recorded in the minutes and copies shall be forwarded to the appellant and to the appointing authority.

F. Resignation Before Decision: The acceptance by an appointing authority of the resignation of a person dismissed before final action on the part of the Commission will be considered a withdrawal of the charges, and the separation of the employee concerned shall be recorded as a resignation not in good standing and the proceedings shall be dismissed without judgment.

G. Disqualification for Promotional Examination or for Reappointment: An employee who is demoted for disciplinary reasons is ineligible for a promo-

tional examination within one year of the effective date of his demotion. An employee who is dismissed for misconduct or who resigns while not in good standing shall be disqualified from taking any civil service examination for two years thereafter, and his name shall be removed from all eligible lists, unless, in the judgment of the Commission, the cause of his dismissal or resignation under charges will not affect the possibility of his usefulness in some other type of employment.

Section 2. Appeals to the Commission for All Other Actions.

An employee may appeal the results of a classification study, rejection of application, or the grading of an examination by filing a notice of appeal with the Civil Service Commission. The notice of appeal must be in writing and filed with the Commission not later than fourteen calendar days from the date of notice.

A. *Contents of Appeals:* All appeals to the Commission shall be written. Notices of appeal should include the following information:

1. The appellant's name, address and telephone number;
2. The name of the appointing authority and/or department/division;
3. A description or summary of the action which is being appealed.

Failure to supply the information listed above may result in dismissal of the appeal. Prior to dismissing the appeal, the Commission shall attempt to obtain the required information from the appellant. Appellants shall notify the Commission, in writing, of any change of address during the pendency of the appeal.

B. *Procedure in Classification Appeals:* The parties in appeals of classification studies are the employee who is incumbent in the position, his principal appointive officer, and the authority which conduct the classification study.

The Commission shall conduct a fact-finding hearing to determine the duties which are performed by the incumbent in the affected position. The witnesses shall be limited to the affected employee, his immediate supervisor, a representative of the appointing authority and the designee of the authority who conducted the classification study unless there is substantial disparity in their testimony or other reason to believe their testimony is inaccurate, to be determined by the Commission. Examination of the witnesses shall be conducted by the Commission, subject to further limited examination by the parties.

The Commission shall compare the duties performed by the incumbent employee to the appropriate class specifications and determine the classification which most appropriately describes the duties performed in the affected position.

RULE 18. VIOLATION OF THE CIVIL SERVICE COMMISSION RULES AND PENALTY

Section 1. Violations.

After a rule has been duly established and published by the Civil Service Commission, no person shall make an appointment to an office or select a person from employment contrary to such rule, or willfully refuse or neglect to comply with or conform to such rules, or willfully violate any of such rules unless superseded by provisions of Ohio Revised Code Section 4117 or court orders.

Section 2. Penalty.

These penalties will be enforced by the appropriate governmental agencies pursuant to state law.

RULE 19. AMENDMENTS TO RULES

A copy of each proposed rule, rescission or amendment to such Rules shall be filed with the Commission at least thirty calendar days prior to any public hearing on the proposed rule. Rules & Regulations:

R9-A2 Assessment.

(a) Amended return is potential response to an assessment. The issuance of an assessment does not prevent a taxpayer from filing an amended return.

(1) For example, a taxpayer is allowed to make a correction or modification to the original return based the information conveyed in an assessment.

(2) If that modification is not sufficient, or the amended return is insufficient for some other reason, the Tax Commissioner may issue a new assessment.

(3) At that point, the taxpayer could agree with the assessment and pay, provide any information required, appeal that Assessment to the Board of Review, or file an amended return.

(4) The only prohibited action with regard to an amended return after an assessment would be for a taxpayer to submit the same return as originally submitted, without actually making substantive changes based on the assessment, and simply label it as an

*These Rules & Regulations are adopted under the authority of Cincinnati Municipal Code §311-103. They are intended to supplement Cincinnati Municipal Code Chapter 311, "City of Cincinnati Income Tax." In the event of any conflict between the rules and regulations and Chapter 311, the language of Chapter 311 controls.

amended return. The ability to make an amended return cannot be used as a delay tactic.

(b) Refund request with return does not require assessment. Under CMC §§ 311-A2 and 311-71(c)(ii), when a taxpayer claims a refund request with his/her originally filed annual income tax return, the Tax Commissioner is not required to issue an assessment.

(1) The taxpayer who receives a denial of a refund request may then request an assessment to enable the taxpayer to appeal the decision to the Board of Review.

(2) But, the Tax Commissioner's initial response to a refund request does not need to be an assessment and need not be sent via certified mail as required for assessments under CMC § 311-95.

(c) Refund request sent separately from original return. When a taxpayer submits a refund request separately from the taxpayer's originally filed annual income tax return, the Tax Commissioner must issue an assessment.

(1) In that case, the initial denial of the refund request is an assessment under CMC §311-9-A2, and it must be labeled as such and sent by certified mail.

(2) The taxpayer can immediately appeal the decision to the Board of Review, if the taxpayer so chooses.

R9-I1 Income.

(a) Income from partnerships. A partner's distributive share of any item or class of items of income, gain, loss, deduction, or credit of the partnership shall be determined by the partnership agreement.

(1) If the partnership agreement does not provide for a proper allocation of income, gain, loss, deduction, or credit (or item thereof) to a partner as defined in IRC §704, the partner's distributive share shall be determined in accordance with such partner's interest in the partnership.

(2) Generally, a partner's interest in a partnership is determined by the profit sharing percentage reported on the Federal Schedule K-1. Taxpayer must include copies of the K-1 when filing the City's individual tax return.

(3) The Tax Commissioner has authority to determine whether a partnership agreement sufficiently explains a partner's distributive share.

(4) The Tax Commissioner also has discretion to determine that a partnership agreement does not fairly represent a partner's distributive share and to decide instead to use the partner's interest in the partnership to determine the partner's distributive share.

(5) In addition to using the Federal Schedule K-1 as the default to determine a partner's interest in a partnership, the Tax Commissioner may refer to the alternatives for determining "distributive share" discussed in the IRC, 26 U.S.C. §704.

(b) Other compensation. Generally, all income received in the form of money, property or services are considered to be taxable income unless specifically excluded in 311-15.

(1) All income earned through the taxpayer's business, as an independent contractor or from informal side jobs is self-employment income, which is fully taxable and reportable on Schedule C.

(2) Independent contractors must report all income as taxable, even if it is less than $600. Even if the taxpayer-contractor does not receive a Form 1099-MISC, the income, whatever the amount, is still reportable by the taxpayer.

(3) Fees received for babysitting, housecleaning and lawn cutting are all examples of taxable income that are reportable on Schedule C.

R15 Exception to the Tax; Exempt Income.

(a) Restricted stock awards. For purposes of CMC §311-15(s), restricted stock awards that vest over a period of time are not considered stock options and are taxable at their fair market value at the time they become vested and included in Medicare wages, as shown on the employee's IRS Form W-2.

R17 Net Profit; Income Subject to Net Profit Tax; Alternative Apportionment.

(a) Approval of alternative apportionment. When a taxpayer requests an alternative apportionment method, the taxpayer may use the apportionment method unless the Tax Commissioner disapproves the alternative method.

(b) Time limit for decision. The Tax Commissioner has a period of three years after the tax was due or after the return was filed (whichever is later) to decide to deny the requested alternative apportionment method.

(1) This time period is that established in §311-99(a), which is the time limit for this action established in §311-17(b)(ii)(2).

(2) The Tax Commissioner is not required to affirmatively approve a requested alternative apportionment method.

(3) The Tax Commissioner's failure to affirmatively approve does not equate to approval, until after the period (at least three years) established in §311-99 have passed.

(c) Ability to submit request directly to Commissioner. To avoid uncertainty, a taxpayer can request to use an alternative apportionment method by submitting the return requesting an alternative apportionment method or a change in the apportionment method directly to the Tax Commissioner.

(1) Despite the clear right of a taxpayer under 311-17(b)(ii)(2) to request an alternative apportionment method by simply accompanying the request with the tax return, if the request is instead sent directly to the Tax Commissioner as a request for an assessment, the taxpayer can expect an answer within 60 days.

(2) When submitting such a request, the taxpayer should use registered mail.

(d) Pre-2016 apportionment methods. For taxpayers who were approved to use an alternative apportionment arrangement prior to 2016, they may continue to use the same method.

(1) The taxpayer or the Tax Commissioner may request a change in accordance with §311-17 of the new Chapter 311 that came into effect January 1, 2016.

(2) However, every taxpayer already using an approved apportionment method is not required to seek re-approval of that alternative apportionment only because the new Chapter 311 has come into effect.

(e) Rental of real estate. Real estate shall include commercial property, residential property, farm property, and any other types of real property.

(1) Residents of Cincinnati are subject to taxation upon the net profits from rentals regardless of the location of the property.

(2) In accordance with CMC §311-47, residents may claim a credit for taxes paid to another municipality on rental income from property located in that other municipality.

(3) Nonresidents of the City are subject to such taxation only if the real property is situated within the City and the rental activity is deemed a business as defined in CMC §311-9-B2.

(4) Businesses owning or managing real estate are taxable only on that portion of the real estate property located in Cincinnati.

i. Taxpayer business must use separate accounting for the purpose of calculating net profit situsedto the City for property located within the City.

ii. If a taxpayer wishes to assert that using separate accounting for real estate located in the City will be unduly burdensome, the taxpayer should submit a request to the Tax Commissioner to use another method. Other methods may include the normal three-step, average ratio apportionment method established in CMC §311-17(a).

(f) Profit threshold. The net profit from rental activity is reportable provided the gross rents from all rental activities exceed $500 per month.

(1) During periods of vacancies the taxpayer must show that the properties could have been rented for more than $500 per month.

(2) In the case of commercial property, when the gross rents are based on a percentage of gross sales or net sales, the $500 requirement is disregarded and the owner is considered to be engaged in a business activity.

(3) In the case of farm rentals, when the owner shares in the crops or the gross rents are based on the receipts derived from the farm, the $500 requirement is disregarded and the owner is considered to be engaged in a business activity.

(4) Rooming houses of five or more rooms are considered businesses activities whether or not the gross rents exceed $500 per month.

R21 Net Operating Loss (NOL).

(a) Basic rule for pre-2017 NOL. A net operating loss ("NOL") sustained in any taxable year that is apportioned to the City may be applied against the net profit of succeeding tax years that is apportioned to the City.

(b) Basic rule for post-2016 NOL. A NOL sustained in any taxable year starting after January 1, 2016 is determined before apportionment of net profit and any deduction of NOL carry-forward from prior years and may be applied against the net profit of succeeding tax years before apportionment.

(c) Additional rules for utilizing the NOL carry-forward:

(1) The NOL from any taxable year may continue to be used in subsequent years until exhausted, but in no event for more than the five taxable years immediately following the year in which the loss occurred.

(2) No portion of a NOL shall be carried back against net profits of any prior year, and no portion of a NOL may offset qualifying wages.

(3) A pre-2017 NOL sustained shall be apportioned to the City in the same manner as provided under §311-17 for apportioning net profits to the City.

(4) Taxpayers cannot start utilizing post-2016 NOL until they have first utilized all pre-2017 NOL.

(d) 50% limitation for tax years 2018 to 2022.For tax years 2018 to 2022, the deduction is limited. Taxpayers are delayed from full utilization of net operating loss until taxable year 2023. This limitation is described in CMC §311-21(h) and required under ORC §718.01(E)(8)(c)(i).

(1) Taxpayers may not deduct more than 50% of the amount of the deduction "otherwise allowed" under the subsection or subdivision that establishes the amount which taxpayers will be able to deduct after 2022. The amount otherwise allowed is described as the amount of NOL necessary to reduce MTI to zero.

(2) Therefore, the City's interpretation is that the deduction is limited to the lesser amount of: 50% of the NOL carry-forward available for that tax year or 50% of the MTI computed after the Post 2016 NOL deduction.

(3) The 50% limitation is on the amount deductible in years 2018 to 2022, not on the amount of NOL that can be carried forward in those tax years.

(4) Pre-2017 NOL is not subject to the 50% limitation. NOL for tax years after 2016 will be calculated and applied on a pre-apportionment basis.

(5) With regard to what taxpayers should declare on their returns for 2018 to 2022, taxpayers will declare 100% of their NOL on their returns. They are not expected to declare only 50% of their NOL.

R23 Collection at Source; Withholding from Qualifying Wages.

(a) All employers within or doing business within the City are required to make the collections and deductions specified in CMC §311-23 for residents of the City whose services were performed outside the City.

(b) Employers who do not maintain a permanent office or place of business in the City, but who are subject to tax on net profits attributable to the City under the business apportionment percentage formula, are considered to be employers within the City and subject to the requirements of withholding specified in CMC §311-23.

(c) Wage continuation plans paid by the employer or third party agent on behalf of the employer for purpose of health, rest, recuperation, or other reward are deemed to have the same tax situs as the primary job assignment or job location of the employee.

(d) Such payments are taxable at the same ratio as the normal earnings of such employee for his primary job assignment.

(e) Severance pay is considered such a payment and is taxable.

(1) To calculate apportionment of severance pay, the Income Tax Division will use the average of the last three years' allocation percentages to determine the percentage of severance pay to be allocated to the City.

(2) This default method of calculating apportionment of severance pay may be inequitable or incorrect in the case of a given taxpayer, for example if the taxpayer spent twenty-seven years

outside of the City and then worked in the City only for the last three years of the career.

(3) Any taxpayer may therefore present to the Tax Commissioner an alternative method of calculating percentage of severance to be apportioned to the City, along with reasons using for that alternative percentage.

R25 Qualifying Wages Withholding Return; List of Employees.

(a) Employers required to file electronic W-2's will submit the file utilizing the format posted on the City's website. The City will generally update the file format by January 15th of the year the W-3 filing is due.

(b) Employers required to file electronic 1099s will submit the file utilizing the format posted on the City's website. The City will generally update the file format by January 15th of the year the W-3 filing is due.

(c) The specifications for file format conform to the Social Security Administration Publication No. 42-007, *Specifications for Filing Forms W2 Electronically (EFW2)*, with some minor changes.

R31 Withholding From Casino, Lottery, and Sports Gaming Winnings.

(a) For purposes of the withholding requirements set forth in Section 311-31, as required by Ohio Revised Code 718.031 and section 6041 of the Internal Revenue Code, as amended, if a person's winnings at a casino facility or sports gaming facility are $600 or more and if the proceeds are at least 300 times as large as the amount wagered, a casino operator, sports gaming proprietor, or video lottery terminal sales agent conducting lottery sports gaming offered in a video lottery terminal facility shall deduct, withhold, and remit municipal income tax from the person's winnings at the tax rate set forth in Section 311-3 and Article VIII Section 6c of the City Charter. The payer, at its option, may reduce the amount of the winnings by the amount of the wager.

R47 Credit for Tax Paid to Another Municipality/Joint Economic Development District.

(a) A taxpayer who claims a credit against tax paid to another municipality is required under CMC §311-47(c) to claim the credit in a timely manner in a form acceptable to the Tax Commissioner.

(b) The form required may be:

(1) A copy of the return which the taxpayer submits to the other municipality, proof that the return was submitted to that municipality such as a certified mail receipt or a certification of electronic filing, and a copy of the method of payment; or

(2) A record of the tax withheld by the municipality during the relevant calendar year.

R51 Returns Must Be Filed; Time of Filing; Payment with Return.

(a) Normal filing deadline. The filing deadline is generally the 15th day of April each year, or the 15th day of the fourth month after the end of the taxable year or period, if not the calendar year. This is the default deadline, absent an extension, under ORC §5747.08(G), CMC §§ 311-41, 311-51, and 311-63.

(b) When April 15th is on a holiday or a weekend. There are some years in which the federal filing deadline is not April 15th, because April 15th falls on a weekend or holiday. For taxpayers who file on a calendar year basis, CMC §311-41(a) states that the deadline is the federal filing deadline, rather than specifying April 15th. For all taxpayers for whom the filing deadline is in April, the

Income Tax Division may choose to allow filing on the same date as the federal filing deadline, in those years in which April 15th falls on a weekend or holiday.

R53 Exception to Filing Requirement; Affidavit.

(a) §311-53(c) requires taxpayers to submit an affidavit if they no longer live or work in the City and do not need to file a tax return or pay municipal taxes to the City.

(b) The taxpayer should also submit his or her last tax return filed with the City, to make clear to the Income Tax Division what is the final return from the taxpayer and the final year in which the taxpayer had any tax liability to the City.

(c) In lieu of filing an affidavit, a taxpayer may indicate on the annual return that the return is a "Final Return" and state the reason that filing obligation will no longer exist. The Income Tax Division will provide appropriate fields on its official return.

R55 Extension of Time for Filing.

(a) The request for an extension does not extend the time to pay the tax due; the request only extends the time to file the final return. A legally filed extension request will result in no late filing penalty being assessed if the final return is filed before the extended due date. All delinquent tax payments are subject to the interest and penalty charges based on the original due date of the return as described in CMC §§ 311-73 and 311-75, regardless of the status of an extension request.

(b) However, if any requirements are not fulfilled within the extension time period, then the taxpayer will have to pay late fees in addition to interest and penalties.

(c) Interest will accrue from the original payment due date, not from the end of the extension deadline.

R59 Consolidated Return.

(a) Taxpayers filing consolidated returns under the pre-2016 method, using separate schedules X and Y, may continue to use that method without requesting permission from the Tax Commissioner to use an alternative method for filing consolidated returns.

(b) For tax years starting with 2016, once a taxpayer elects to file a consolidated return utilizing the method identified in CMC §311-59(b)(ii), they will continue filing using the same method for at least five years.

(1) In order to request a change, the taxpayer must submit the request in writing to the Tax Commissioner before the due date of the return.

(2) The change from a consolidated return is not approved until the taxpayer receives permission in writing from the Tax Commissioner

(c) Upon review of the facts and circumstances, the Tax Commissioner may require the taxpayer to change their method of filing a consolidated return in accordance with CMC 311-59(d)(ii) or disallow any consolidated return method.

R61 Determination of Timely Filing and Payment.

(a) When any municipal income tax payment remitted electronically, such a payment was previously considered to have been made on the date the payment is credited to an account designated by the tax administrator to receive such payments.

(b) Instead, CMC §311-61 now provides that such a payment is considered to have been made on the date of the timestamp

assigned by the first electronic system receiving the payment, also in accordance with ORC 718.05(I)(2).

R63 Forms for Filing; Documents Required.

(a) Net profit tax returns - individuals. To ensure that their returns are considered a complete return, individuals must submit the following documents or copies thereof:

(1) The first page of the applicable federal return, e.g. IRS Form 1040 or 1040A. The fact that any taxpayer is not required to file a federal income tax return does not relieve him or her from filing a municipal return.

(2) A complete copy of Form W-2 or other acceptable wage statement issued by the individual's employer(s) that shows the amount of qualifying wages earned or received by the taxpayer during the tax year.

(3) Copies of IRS Forms 1099 and federal schedules C, E, F, and K-1 to support other income.

(4) Other schedules such as Form 2106, Schedule A and detailed listings are required to support expense items deducted on the federal return.

(b) Net profit tax returns - businesses. To ensure that their returns are considered a complete return, businesses must include the following documents or copies thereof:

(1) Complete copies of federal income tax returns or information returns.

(2) All pertinent schedules, forms and statements required to be submitted to the IRS.

(3) A reconciliation of municipal taxable income with the federal income tax return (Schedule X).

(4) A business apportionment formula (Schedule Y) including a reconciliation of the wages apportioned on the municipal income tax return as earned in Cincinnati with the municipal annual wage reconciliation Form W-3.

(c) All taxpayers must submit statements to certify both of the following:

(1) That the figures used in the municipal income tax return are the figures used in the return for federal income tax, adjusted to set forth only such income as is taxable under the provisions of this chapter.

(2) That the taxpayer has examined the return, including accompanying schedules and statements, and that to the best of the taxpayer's knowledge and belief, it is true, correct, and complete.

R69 Amended Returns; Effect of Federal or State Tax Determination.

(a) Under CMC §311-69(a)(iii), if a taxpayer wishes to file an amended consolidated tax return, or if the taxpayer intends to file a consolidated return after utilizing a change in method used in the prior tax year, the taxpayer must notify the Tax Commissioner in writing and mail the notice to the Tax Commissioner at the address provided on the City Website.

R71 Overpayments; Refunds.

(a) Necessary documentation. A taxpayer claiming an overpayment and requesting a refund must file a complete return providing all documentation to substantiate the claim for a refund.

(1) Such documentation includes schedules, other municipal income tax returns, and any other supporting documentation necessary to verify credits, income, or losses.

(2) If there is documentation to support any other pertinent factors on the return, it must be included as well.

(3) The return requesting refund must be accompanied by appropriate documentation whether it is filed electronically or in paper format.

(b) Interest. Under CMC §311-71(d), interest is due any time the City pays a taxpayer back for the overpayment later than 90 days after the date the taxpayer filed a complete return. If the City repays the taxpayer the overpaid amount within 90 days of receiving the complete return, no interest is due.

R75 Interest, Fees, Charges and Civil Penalties for Tax Years Beginning on or After January 1, 2016.

(a) Unpaid income tax interest rate and penalty. Under CMC §311-75(c)(i), the annual interest rate for any unpaid income tax, estimate income tax, or withholding tax is the federal short-term rate (rounded to nearest whole number) plus 5%, to be imposed and assessed each month.

(1) That short-term rate is established by the federal government in July of each year; the rate established in July of one year will be used for the interest rate for unpaid municipal income tax for the following calendar year (plus 5%).

(2) §311-75 (c)(ii) creates a penalty of 15% of the amount unpaid for income tax and estimated income tax.

(3) For withholding tax, the penalty is 50% of the amount unpaid.

(4) §311-75(c)(v) establishes a penalty of $25 per month for each failure to timely file a return, with a maximum penalty of $150.

(5) ORC 718.27(C)(3) does not allow that penalty to be applied to failure to file estimated income tax returns.

(b) Estimated tax interest rate and penalty. For the purposes of determining the interest and penalty assessed for late payment of *estimated tax due*, all overpayments from prior years will have the receive date of the date the return claiming the overpayment was due unless the return is received after the extended due date. In those cases, the overpayment will have the same receive date as the date the return claiming the overpayment was received. Withholding taxes will be considered to be paid evenly throughout the year. Estimated Tax Payments will be applied to the estimated tax due for the quarter in which they were received. Any unused payment will be applied to the oldest quarterly tax due to reduce the amount of interest assessed. The late payment penalty will be assessed for each quarter the estimated tax due was not paid in full by the quarterly due date.

Example: 2016 Estimated Tax Due = $400 per quarter for a total of $1,600. There is a 2015 overpayment of $500 and a $1,100 estimated payment made October 15, 2016.

	Est. Tax Due	*Est. Tax Paid*	*Date Due*	*Date Paid*	*Interest & Penalty*
Q-1	400	400 (OP)	4/15	4/15/ 2016	0
Q-2	400	100 (OP)	6/15	4/15/ 2016	Penalty = $300*.15 Int. = $300*Monthly rate*4 mos. late
Q-3	400	0	9/15		Penalty = $400*.15 Int. = $400*Monthly rate*1 mo. late
Q-4	400	1100	12/15	10/15/ 2016	0

R79 Audit.

(a) In order to conduct an audit, the Tax Commissioner, or any person acting in his capacity, is authorized to examine any person under oath concerning any taxable income or concerning any transaction tending to affect such income.

(b) The Commissioner is also specifically authorized to order the appearance of the local manager or representative of any taxpayer.

(c) The Tax Commissioner's powers under CMC §311-79 constitute a subpoena power.

(1) The Commissioner may subpoena the production of books, papers, and records.

(2) The Commissioner may subpoena the attendance of all persons before him when he believes such persons have knowledge of the facts concerning any supposed income or supposed transaction of the taxpayer.

(3) Reference CMC §311-999(a)(5) and (a)(6), which penalize refusal to permit the Tax Commissioner to examine books, records, etc., and refusal to appear before the Tax Commissioner if requested to produce records in response to a subpoena.

R83 Compromise of Claim and Payment Over Time.

(a) Payment plan procedures. Installment agreements are offered to taxpayers who have an outstanding balance of taxes, interest, or penalties and have expressed their inability to pay the balance in full. This agreement can only be provided to taxpayers that are current with all filings, including the current year's Declaration of Estimated Tax.

(b) Generally, taxpayers must appear in the offices of the Income Tax Division during regular business hours, review the case with an examiner, sign the plan, and make an initial payment of 10% of the tax due. A taxpayer is normally provided ten months to complete the installment plan and pay off the tax due.

(c) A husband or wife cannot sign for a spouse's liability. If a husband and wife are both on the account, and both had income that resulted in the liability, then both must sign the agreement.

(d) The taxpayer also must agree to remain in compliance with the filing requirements set forth in the Cincinnati Municipal Code for the length of the installment plan agreement. The failure of the taxpayer to timely file all required returns and/or to make required payments by the due dates may result in the entire remaining balance of the installment plan becoming due.

R97 Local Board of Review; Appeal.

(a) Two members appointed by City Council. Regarding the two members of the Board of Review who are appointed by City Council, CMC §311-97(a)(ii) states that they "may not be employees, elected officials, or contractors with the City at any time during their term or in the five (5) years immediately preceding the date of appointment."

(1) The City interprets the phrase "or contractors" to prohibit any member of an accounting or law firm from serving on the Board of Review, if his or her firm has had any contract with the City in the preceding five years.

(2) Although strict in the context of, for example, a firm with 200 or more attorneys, this interpretation is the safest one, in light of the language of §311-97 and the Ohio law which it mirrors.

(b) Member appointed by City Manager. The one member of the Board of Review who is appointed by the City Manager may have been a contractor with the City in the previous five years, or currently, or may be a City employee.

(1) The only explicit prohibition is that the member may not be Finance Direc-

tor, Tax Commissioner, or directly involved in the City's tax work, or a subordinate of one of those employees.

(2) An attorney or accountant from a firm with a contract related directly to tax also would be prohibited based on general conflict of interest principles, but the members of a firm with an unrelated City contract could potentially be appointed to the Board of Review.

Section 4. Meetings.

A. *Open to Public.* All Board meetings shall be open to the public, except as provided by Ohio law. All votes taken by the Board must be taken in open session, recorded by the Staff Attorney, and included in the Board's written decision.

B. *Notice of Public Meeting*. The Staff Attorney shall provide notice of all regularly scheduled and special meetings pursuant to the Cincinnati Municipal Code.

C. *Regular Meetings*. The Board shall conduct regularly scheduled meetings on the third Thursday of each calendar month, unless that Thursday is a City-recognized holiday. In cases of a City-recognized holiday, the meeting shall take place on the Thursday following the holiday. The Board is not required to hold a regularly scheduled meeting if no official matter is scheduled before the Board.

D. *Special Meetings.* The Chair may, at his or her discretion, convene a special Board meeting. Notice of the time, place, and purpose of all special Board meetings shall be provided to all Board members by telephone or e-mail at least 24 hours before the special meeting. Special Board meetings shall be open to the public unless otherwise permitted by law. If a special meeting is open to the public, the Staff Attorney shall post notice of the time, place, and purpose of the special meeting for public viewing at the Department of Buildings and Inspections, the office of the Clerk of Council, and on the City's website.

E. *Agenda*. The Staff Attorney shall prepare an agenda for each regularly scheduled Board meeting, providing a list of appeals to be heard and business to be discussed ("Agenda"). The Agenda must be published in the City Bulletin at least ten calendar days before the regular meeting date. The Staff Attorney must distribute the Agenda to the Board and make all associated case materials available to the Board at least seven calendar days before the regularly scheduled meeting. Items not listed on the Agenda shall not be considered by the Board, unless a majority of the Board members present vote to consider the item by leave.

F. *Quorum*. A quorum for any meeting, or to undertake any official business, is four Board members. The Staff Attorney shall make a reasonable effort to notify all persons who were entitled to notice of an appeal of the failure to obtain a quorum before the hearing date. Failure to obtain a quorum shall have the effect of postponing a hearing until the next regularly scheduled meeting of the Board, unless the Chair otherwise convenes a special meeting.

G. *Attendance*. Any Board member who is unable to attend a meeting shall notify the Staff Attorney at least 24 hours before the meeting. The Staff Attorney shall make a reasonable effort to fill the temporary vacancy with an alternate Board member of the same appointment. Administrative Code Article XXX, Section 2, governs Board member attendance.

H. *Voting.*

5. *Abstentions.* A Board member may abstain from voting on an item. For the purposes of these rules, an abstaining member counts toward satisfying quorum, but is not considered to have participated in the vote.

6. *Tie Vote.* In the event of a tie vote on a motion, the motion shall be deemed to have failed.

7. *Record of Vote.* The Staff Attorney shall record each Board member's vote on every motion.

8. *Conflicts of Interest and Ethics Concerns.* No Board member shall vote, or take any official action, in violation of Ohio ethics law provisions including, but not limited to, Ohio Revised Code Sections 102.03, 102.04, 2921.42 and 2921.43.

9. *Duty to Disclose Conflicts of Interest and Ethics Concerns.* Any Board member who suspects his or her consideration of an item presents a possible conflict of interest or ethics concern shall disclose that issue to the City Solicitor, or his or her representative, for legal guidance as soon as practical in advance of a scheduled meeting.

10. *Recusals.* In the event of a conflict of interest or ethics concern, the affected Board member shall recuse himself or herself from consideration of the matter giving rise to the conflict and shall remove himself or herself from the meeting room during that portion of the meeting involving the item. A Board member who recuses himself or herself from consideration of an item due to a conflict of interest does not count toward satisfying quorum.
