2. Zoning Map

The map entitled "Official Zoning Map, Fairfax County, Virginia" indicates the location and boundaries of the zoning districts established by this Ordinance. These locations and boundaries derive from the authoritative data source as maintained by the Department of Information Technology. A copy of the official Zoning Map is on file in the Office of the Zoning Administrator, and it may be kept in either hardcopy or digital form. This Ordinance incorporates the official Zoning Map.

3. Zoning of Entire Jurisdictional Area

A. It is the intent of this Ordinance that the entire unincorporated area of the County of Fairfax, including all land, water areas, and waterways, be included in the districts established by this Ordinance. Any

area on the Official Zoning Map that is not shown in a specific zoning district is zoned to the R-C District.

B. Unless otherwise specifically designated, all water areas, waterways, alleys, roads, streets, highways, railroads, and other rights-of-way are deemed to be in the same zoning district as the immediately abutting property. Unless specifically designated, where the center line of any water areas, waterways, or rights-of-way serves as a zoning district boundary, the zoning of each area is deemed to be the same as that of the abutting property up to the center line.

4. Zoning District Boundaries

If uncertainties exist with respect to the intended boundaries of a zoning district as shown on the Official Zoning Map, the following rules apply:

A. Where a zoning district boundary is indicated as approximately following the center line of a street, alley, railroad, or waterway, the center line is the zoning district boundary, and where a zoning district boundary is indicated as approximately following the line of a lot or other parcel of record, the lot or parcel line is the zoning district boundary.

B. Any zoning district boundary shown extended to or into any body of water bounding the County is deemed to extend straight to the County boundary.

C. Where uncertainties continue to exist or where further interpretation is required beyond that presented above, the Zoning Administrator will make a determination in accordance with Section 1108. Any person aggrieved by the Zoning Administrator's decision may appeal that decision as described in subsection 8100.10.A(1).
