§ 175-1. Enumeration of fees. [Amended 4-16-2019, effective 4-16-2019]

The following schedule of fees is hereby established with respect to licenses, permits, the use of the City's web payment system and activities required or regulated under the provisions of various chapters of the Code of the City of Buffalo. Applications for and the issuance of such licenses and permits shall be subject to the provisions of the specific chapter of the Code which is indicated for each type of license or permit. The business, activity or operation for which the license or permit is required shall be subject to all regulations set forth in the chapter to which reference is made. These fees may be adopted or revised by the Common Council from time to time.

Code Chapter Section, Type of Application, Permit or License	Fee
Chapter 1, General Provisions [Added 5-28-1992, effective 7-1-1992; amended 7-25-1995, effective 8-7-1995; 11-16-2004, effective 11-24-2004; 4-1-2025, effective 7-1-2025]	
§ 1-15, general penalty **[Amended 3-31-2026, effective 3-31-2026]**	
Charge for check returned, not sufficient funds	$30.00
Document processing fee	$15.00
§ 1-16, web payment fee **[Amended 4-16-2019, effective 4-16-2019; 2-21-2023, effective 2-21-2023]**	
The per transaction fee for payment for fines, civil penalties, rents, rates, taxes, fees, charges, revenue, financial obligations or other amounts, including penalties, special assessments or interests via the City's internee website or the website of a third-party vendor are as follows:

Code Chapter Section, Type of Application, Permit or License	Fee
Chile	$360.00
Denmark	$360.00
Finland	$324.00
France	$360.00
Germany	$360.00
Hong Kong	$360.00
Ireland	$360.00
Israel	$414.00
Italy	$382.50
Japan	$360.00
Netherlands	$324.00
New Zealand	$450.00
Norway	$324.00
Russia	$360.00
Singapore	$382.50
South Africa	$360.00
South Korea	$315.00
Spain	$342.00
Sweden	$324.00
Switzerland	$360.00
Taiwan	$234.00
United Kingdom	$234.00
Dial-out set up time	$37.50 per quarter hour
Cancellation charge	50% of total connectivity charges with less than 24 hours' notice
Shortfall conferences	100% of time used plus, $37.50 per quarter hour of unused time reserved

Chapter 63, Aircraft [Amended 2-4-1992, effective 2-18-1992]

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Code Chapter Section, Type of Application, Permit or License	Fee
§ 63-4, permit for parachute or skydiving exhibitions	$26.25
Chapter 66, Air Pollution [Amended 2-4-1992, effective 2-18-1992]	
§ 66-11, fuel- or refuse-burning plant, equipment and device permit **[Last amended 9-20-2005, effective 9-30-2005]**	

Fuel devices permit fees are divided into two categories: flat fee or area-calculated fee; find the work description in either the Flat Fee Schedule or the Area-Calculated Fee Schedule, below.

Flat Fee Schedule

Application fee of	$25.00, plus
Permit fee from the following list:	
1. For in-kind replacement of fuel device to 1- or 2-family dwelling, per device	$25.00
2. For in-kind replacement of residential, commercial, or industrial fuel device, per device	$25.00
3. For installation of a fuel device used as part of, or as an addition to, an existing commercial or industrial process, per device	$25.00
4. For installation of a new fuel device in an existing residential, commercial, or industrial building, per device (when no plans are required by the BCNYS)	$25.00
5. For fuel devices site work (e.g., heated paving, permanent radiant or other heaters, etc.)	$75.00

Notes:

1. All heating, ventilating, and air conditioning flat fee work is only work where no drawings or plans are required by the Building Code of New York State. When drawings and/or plans are required, fees will be derived using the area-calculated fee tables, employing the building occupancy/use-class multiplier.
2. All other work which is not subject to no-fee provisions has area-calculated permit fees derived from Area-Calculated Fee Schedule A and Use Multiplier Schedule B, below.

   Area-calculated building permit fees consist of four charges: a charge associated with application (which is nonrefundable), a charge associated with plan review (which is nonrefundable), a charge associated with inspections, and a charge associated with closeout. The first two charges are collected at application, and together make up the application fee. The second two charges are collected at permit issuance, and together make up the permit fee.

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Notes:

Area-calculated fuel devices fees are derived as follows:

A. For work limited to buildings and structures:

Step 1: Identify each use or occupancy on each floor, story, or mezzanine of the building or structure and calculate each use's area in square footage. In mixed-use buildings and structures also identify and calculate the square footage of common areas. Common areas are deemed to have the same use as that of the principal use on the floor, story, or mezzanine.

Step 2: Total the sum of all similar uses and common area to arrive at use square footages. Apply the amounts or multipliers shown in the following Area-Calculated Fee Table, Schedule A, Buildings and Structure Section, in each of the three listed categories (Application, Plan Review, Inspection and Certificate) to those use square footages, to get a base dollar use value for each use.

Step 3: Total all the base dollar use values of same uses.

Step 4: Apply the area-calculated use multiplier from Schedule B to each use total to calculate fees for each use, including the common areas.

Step 5: Total all use multiplier products to finalize the total fuel devices permit cost for buildings and structures.

B. For work limited to sites:

Step 1: Apply the fuel devices site work flat fee amount from the flat fee schedule, above.

C. For work on both buildings and structures and sites:

Step 1: Add the total fuel devices permit cost for buildings and structures and the fuel devices permit cost for site work to arrive at the total fuel devices permit cost for the project.

Area-Calculated Fee Table - Schedule A

For buildings and structures:

Permits	Fuel devices
Application fee (nonrefundable)	$25.00
	Plus:
Plan review (nonrefundable)	$25.00 or $0.0025 x SF, whichever is greater Plus
Permit and inspection	$50.00 or $0.02 x SF, whichever is greater

Area-Calculated Use Multiplier - Schedule B

Occupancy/Use Class	Occupancy/Use	Multiplier
A-1, A-2, A-3, A-4, and A-5	Assembly	1.5
B	Business	1

Demolitions (fees determined by unit)	
Demolition of a one- or two-family dwelling	$300
Demolition of a detached accessory structure over 144 square feet	$75
Use permit fee	
With use change	$25
Add or remove incidental home occupation	$25
Commercial construction fees: All buildings except detached one- and two-family dwellings	

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Type	Fee
Permits are required for all work that is not listed as "permit not required" in § 103-2.3 of the Buffalo City Code.	
Commercial construction permit fees are found using the mean construction cost from the Calculating Mean Commercial Construction Cost form; the Building Construction Values table on this form is based on the current Building Valuation Data table from the International Code Council, which adjusts semiannually to the current Consumer Price Index.	
Use the mean construction cost for the permit fee section only.	
Application fee	$50
Plan review fee (if work requires plans)	$0.75 per $1,000 of construction cost or portion thereof; $75 minimum
Permit fee	
New construction, additions, change of use, alterations*	
Construction cost up to $500,000	$8 per $1,000 of cost; $100 minimum
Construction cost from $500,001 to $5,000,000	$8 per $1,000 of cost, plus $1,000
Construction cost $5,000,001 and over	$8 per $1,000 of cost, plus $6,000
Flat fees: Flat fees are for specific small types of work; fees for each type of work done are added.	
Awnings (without signage)	$75
Flat wall signs	$50
Projecting wall signs and awning signs	$75
Freestanding signs under six feet in height	$50
Sign face replacement, existing signs (except L.E.D. faces)	$25
Tank installation or removal	$300
Communication antennas and dishes, co-location	$100
Fence requiring a permit (overheight etc.)	$50
Temporary trailer (over 10 days, up to one year)	$200
Sheds and garages 600 square feet and under	$100
Demolitions	

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Type	Fee
Demolition of a commercial structure	$0.12 per square foot; $500 minimum
Any demolition that takes place without a proper permit shall be assessed a penalty in the amount of $1,500.	
Use permit fee	
With occupancy/use class change	$50

NOTES:

* Fees for new construction, additions, and alterations or change of use involving over 50% of the building.

Asbestos permit fees are divided into two categories: flat fee or area-calculated fee; find the work description in either the Flat Fee Schedule or the Area-Calculated Fee Schedule, below.

Demolition permit fees are divided into two categories: flat fee or area-calculated fee; find the work description in either the Flat Fee Schedule or the Area-Calculated Fee Schedule, below.

Code Chapter Section, Type of Application, Permit or License	Fee
Flat Fee Schedule	
Application fee of	$25.00, plus
Permit fee from the following list:	
1. Asbestos removal	
(a) For asbestos removal from all buildings and structures by square foot of asbestos removed:	
1 SF - 159 SF	$0.00
160 SF - 10,000 SF	$66.00
10,001 SF - 20,000 SF	$86.50
20,001 SF - 40,000 SF	$173.00
40,001 SF - 80,000 SF	$346.00
80,001 SF - 160,000 SF	$692.00
160,001 SF - 320,000 SF	$1,384.00
And so forth	
(b) For asbestos removal from all buildings and structures by linear foot of asbestos removed:	

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Code Chapter Section, Type of Application, Permit or License		Fee
	Flat Fee Schedule	
	1 LF - 259 LF	$0.00
	260 LF - 10,000 LF	$66.00
	10,001 LF - 20,000 LF	$115.50
	20,001 LF - 40,000 LF	$231.00
	40,001 LF - 80,000 LF	$462.00
	80,001 LF - 160,000 LF	$934.00
	And so forth	
2.	For demolition of up to a 1.5 story 1-, 2- or 3-family dwelling without basement or cellar by owner	$300.00
3.	For demolition of up to a 3 story 1-, 2- or 3-family dwelling by licensed demolition contractor	$300.00
4.	For demolition of structures accessory to all other uses, of not more than 1 story and not more than 1,500 square feet	$50.00
5.	For City emergency demolition of a 1- or 2-family dwelling	$300.00
6.	For demolition of any commercial or industrial building or structure up to 3 stories in height and not more than 5,000 square feet in total area	$500.00
7.	Administrative fee for demolitions performed by or on behalf of the City to benefit a property owner	15% of the demolition cost ($25.00 application fee not required)

Note: All other demolitions which are not subject to no-fee provisions have area-calculated permit fees derived from Fee Schedule A, below.

Area-calculated demolition permit fees consist of four charges: a charge associated with application (which is nonrefundable), a charge associated with plan review (which is nonrefundable), a charge associated with inspections, and a charge associated with closeout. The first two charges are collected at application, and together make up the application fee. The second two charges are collected at permit issuance, and together make up the permit fee.

Area-calculated fees are derived as follows:

A. For demolition work on both buildings and structures and sites:

Step 1: Identify the square foot area of each floor, story, or mezzanine of the building or structure, including basements and cellars, and the square foot area of any site demolition work.

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Step 2: Total all the square foot areas to get the total square foot area for the buildings, structures and site.

Step 3: Apply the amounts or multipliers shown in the following Area-Calculated Fee Table, Schedule A, Buildings and Structures and Sites section, in each of the three listed categories (Application, Plan Review, Inspection and Certificate) to the total square foot area to arrive at the total demolition permit cost for the project.

Code Chapter

Section, Type of Application, Permit or License	**Fee**
Flat Fee Schedule	

Notes:

1. All electrical flat-fee work is only work where no drawings or plans are required by the Building Code of New York State. When drawings and/or plans are required, fees will be derived using the Area-Calculated Fee Table, employing the building occupancy/use-class multiplier.
2. Flat fees are not applicable for new construction projects or where plans are required by the Building Code of New York State, e.g., fire alarm systems.
3. All other installations which are not subject to no-fee provisions have area-calculated permit fees derived from Fee Schedule A and Use Multiplier Schedule B.

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Code Chapter

Section, Type of Application, Permit or License **Fee**

Flat Fee Schedule

Area-calculated building permit fees consist of four charges: a charge associated with application (which is nonrefundable), a charge associated with plan review (which is nonrefundable), a charge associated with inspections, and a charge associated with closeout. The first two charges are collected at application, and together make up the application fee. The second two charges are collected at permit issuance, and together make up the permit fee.

Area-calculated fees are derived as follows:

A. For work limited to buildings and structures:

Step 1: Identify each use or occupancy on each floor, story, or mezzanine of the building or structure and calculate each use's area in square footage. In mixed-use buildings and structures also identify and calculate the square footage of common areas. Common areas are deemed to have the same use as that of the principal use on the floor, story, or mezzanine.

Step 2: Total the sum of all similar uses and common area to arrive at use square footages. Apply the amounts or multipliers shown in the following Area-Calculated Fee Table, Schedule A, Buildings and Structure section, in each of the three listed categories (Application, Plan Review, Inspection and Certificate) to those use square footages, to get a base dollar use value for each use.

Step 3: Total all the base dollar use values of same uses.

Step 4: Apply the area-calculated use multiplier from Schedule B to each use total to calculate fees for each use, including the common areas.

Step 5: Total all use multiplier products to finalize the total electrical permit cost for buildings and structures.

B. For work limited to sites:

Step 1: Apply the electrical site work flat-fee amount from the Flat Fee Schedule, above.

C. For work on both buildings and structures and sites:

Step 1: Add the total electrical permit cost for buildings and structures and the electrical permit cost for site work to arrive at the total electrical permit cost for the project.

§ 307-8, towing, cleanup and storage	

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Code Chapter

Section, Type of Application, Permit or License	Fee
For towing all 2-axle vehicles, motorcycles, boats, small trailers or mobile homes under 25 feet in length and up to 6,500 pounds to impound area	$150
For each 1/2 hour of debris cleanup	$30
For each day of storage or fraction thereof after the first 24 hours for vehicles under 25 feet in length	$50
For each day of storage or fraction thereof after the first 24 hours for vehicles 25 feet in length or longer	$75
For vehicles greater than 6,500 pounds, the fee will be determined by the type of truck required to perform the necessary service and includes driver labor rate. There is a 2-hour minimum for towing vehicles over 6,500 pounds. Thereafter, the hourly rates referenced below are to be charged in 1/2-hour increments:	
Light-medium duty (6,501 to 10,000 pounds)	$75 per hour
Medium duty (10,001 to 17,999 pounds)	$150 per hour
Heavy duty (18,000 pounds or greater)	$200 per hour
Fifty-ton plus hydraulic wrecker	$250 per hour
Forty-ton plus heavy rotator	$300 per hour
Removing any vehicle from any body of water, gully, ditch or underpass	$150 per hour
For mini-tow (tow 500 feet or less), plus a fine for violation of parking or standing prohibition pursuant to § 307-11 of Chapter 307	$60
For towing motor vehicle parked without authorization in space reserved for the disabled or for towing motor vehicle parked alongside or obstructing a curb area which has been cut down, lowered or constructed so as to provide accessibility to the sidewalk	$150
Transfer of notice liability fee	$30.00
Driver responsibility fee	$45.00
§ 307-12, transcript of hearing	$3 per page
§ 307-14, appeal fee	$10
§ 307-15.1, scofflaw release fee	$10
Boot removal fee	$60

Plumbing permit fees are divided into two categories: flat fee or area-calculated fee; find the work description in either the flat fee schedule or the area-calculated fee schedule, below. **[Last amended 9-20-2005, effective 9-30-2005]**	
Flat Fee Schedule	
Application fee of	$25.00, plus
Permit fee from the following list:	
1. For all new plumbing work (except hot water tanks and sewer) not requiring plans to a 1- or 2-family	$30.00

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Code Chapter Section, Type of Application, Permit or License		Fee
2.	For all new sewer work not requiring plans to a 1- or 2-family	$35.00
3.	For all sewer repairs not requiring plans to all residential, commercial, and industrial	$35.00
4.	For all work not requiring plans to all non 1- or buildings and uses	$35.00
5.	For all plumbing work to an R occupancy (except 1- and 2-family), per dwelling unit	$30.00
6.	For hot water tanks to 1- or 2-family	$5.00
7.	For hot water tanks to all non 1- or 2-family buildings and uses	$10.00

Notes:

1. All plumbing flat-fee work is only work where no plans are required by the Building Code of New York State. When drawings and/or plans are required, fees are derived using the area-calculated fee tables, employing the building occupancy/use class multiplier.
2. All other installations which are not subject to no-fee provision have area-calculated permit fees derived from Fee Schedule A and Use Multiplier Schedule B.

Area-calculated building permit fees consist of four charges: a charge associated with application (which is nonrefundable), a charge associated plan review (which is nonrefundable), a charge associated with inspections, and a charge associated with closeout. The first two charges are collected at application, and together make up the application fee. The second two charges are collected at permit issuance, and together make up the permit fee.

Area-calculated fees are derived as follows:

A. For work limited to buildings and structures:

Step 1: Identify each use or occupancy on each floor, story, or mezzanine of the building or structure and calculate each use's area in square footage. In mixed-use buildings and structures also identify and calculate the square footage of common areas. Common areas are deemed to have the same use as that of the principal use on the floor, story, or mezzanine.

Step 2: Total the sum of all similar uses and common areas to arrive at Use Square Footages. Apply the amounts or multipliers shown in the following Area-Calculated Fee Table, Schedule A, Buildings and Structures Section, in each of the three listed categories (Application, Plan Review, Inspection and Certificate) to those use square footages, to get a base dollar use value for each use.

Step 3: Total all the base dollar use values of same uses.

Downloaded from https://ecode360.com/BU1237 on 2026-10-17

Notes:

Step 4: Apply the area-calculated use multiplier from Schedule B to each use total to calculate fees for each use, including the common areas.

Step 5: Total all use multiplier products to finalize the total plumbing permit cost for buildings and structures.

B. For work limited to sites:

Step 1: Identify and calculate the square footage of the exterior area(s) serviced by the plumbing storm drainage work (i.e., the size of the parking lot to be drained).

Step 2: Total the sum of all similar exterior areas to be serviced by the plumbing storm drainage work. Apply the amounts or multipliers shown in the following Area-Calculated Fee Table, Schedule A, Site Work Section, in each of the three listed categories (Application, Plan Review, Inspection and Certificate) to those totals to get a total base serviced area value. This is the permit cost for plumbing storm drainage site work.

C. For work on both buildings and structures and sites:

Step 1: Add the total building permit cost for buildings and structures and the total building permit cost for site work to arrive at the total building permit cost for the project.

Area-Calculated Fee Table - Schedule A [Amended 4-1-2025, effective 7-1-2025]

For buildings and structures:

Permits	Plumbing
Application fee (nonrefundable)	$50.00
	Plus:
Plan review (nonrefundable)	$100.00
	Plus:
Permit and inspection, residential (single and 2-family dwellings)	$12.00 each
Permit and inspection, commercial	$50.00 first fixtures; $20.00 each additional fixture

For site work (if applicable):

Permit	Plumbing storm drainage
Application fee (nonrefundable)	$25.00
	Plus:
Plan review (nonrefundable) Up to 10,000 SF	$25.00 or $0.005 x SF, whichever is greater
More than 10,001 SF and up	$0.002 x SF
	Plus:
