PREFACE

The Henderson, Nevada Municipal Code, originally published by Book Publishing Company, has been kept current by regular supplementation by Municipal Code Corporation, its successor in interest.

During original codification, the ordinances were compiled, edited and indexed by the editorial staff of Book Publishing Company under the direction of Monte V. Morris, City Attorney.

This 2010 republication includes all amendatory legislation through Ord. No. 2881, adopted November 2, 2010, and was accomplished under the supervision of Beth Tattershall, Editor.

The code is organized by subject matter under an expandable three-factor decimal numbering system which is designed to facilitate supplementation without disturbing the numbering of existing provisions. Each section number designates, in sequence, the numbers of the title, chapter, and section. Thus, Section 2.12.040 is Section .040, located in Chapter 2.12 of Title 2. In most instances, sections are numbered by tens (.010, .020, .030, etc.), leaving nine vacant positions between original sections to accommodate future provisions. Similarly, chapters and titles are numbered to provide for internal expansion.

In parentheses following each section is a legislative history identifying the specific sources for the provisions of that section. This legislative history is complemented by an ordinance disposition table, following the text of the code, listing by number all ordinances, their subjects, and where they appear in the codification.

A subject-matter index, with complete cross-referencing, locates specific code provisions by individual section numbers.

HOW TO USE YOUR CODE

This code is organized to make the laws of the city as accessible as possible to city officials, city employees and private citizens. Please take a moment to familiarize yourself with some of the important elements of this code.

Numbering System

The numbering system is the backbone of a Code of Ordinances; Municipal Code Corporation uses a unique and versatile numbering structure that allows for easy expansion and amendment of this Code. It is based on three tiers, beginning with title, then chapter, and ending with section. Each part is represented in the code section number. For example, Section 2.04.010 is Section .010, in Chapter 2.04 of Title 2.

Title.

A title is a broad category under which ordinances on a related subject are compiled. This code contains about 15 to 20 titles. For example, the first title is Title 1, General Provisions, which may contain ordinances about the general penalty, code adoption and definitions. The titles in this code are separated by tabbed divider pages for quick reference. Some titles are **Reserved** for later use.

Chapter.

Chapters deal with more specific subjects, and are often derived from one ordinance. All of the chapters on a related subject are grouped in one title. The chapters are numbered so that new chapters which should logically be placed near certain existing chapters can be added at a later time without renumbering existing material. For example, Chapter 2.06, City Manager, can be added between 2.04, City Council, and Chapter 2.08, City Attorney.

Section.

Each section of the code contains substantive ordinance material. The sections are numbered by "tens" to allow for expansion of the code without renumbering.

Tables of Contents

There are many tables of contents in this code to assist in locating specific information. At the beginning of the code is the main table of contents listing each title. In addition, each title and chapter has its own table of contents listing the chapters and sections, respectively.

Ordinance History Note

At the end of each code section, you will find an "ordinance history note," which lists the underlying ordinances for that section. The ordinances are listed by number, section (if applicable) and year. (Example: (Ord. 272, § 1, 1992).)

Statutory References

The statutory references direct the code user to those portions of the state statutes that are applicable to the laws of the municipality. As the statutes are revised, these references will be updated.

Cross-Reference Table

When a code is based on an earlier codification, the cross-reference table will help users find older or "prior" code references in the new code. The cross-reference table is located near the end of the code, under the tabbed divider "Tables." This table lists the prior code section in the column labeled "Prior Code Section" and the new code section in the column labeled "Herein."

Ordinance List and Disposition Table

To find a specific ordinance in the code, turn to the section called "Tables" for the Ordinance List and Disposition Table. This very useful table tells you the status of every ordinance reviewed for inclusion in the code. The table is organized by ordinance number and provides a brief description and the disposition of the ordinance. If the ordinance is codified, the chapter (or chapters) will be indicated. (Example: (2.04, 6.12, 9.04).) If the ordinance is of a temporary nature or deals with subjects not normally codified, such as budgets, taxes, annexations or rezones, the disposition will be "(Special)." If the ordinance is for some reason omitted from the code, usually at the direction of the municipality, the disposition will be "(Not codified)." Other dispositions sometimes used are "(Tabled)," "(Pending)," "(Number Not Used)" or "(Missing)."

Index

If you are not certain where to look for a particular subject in this code, start with the index. This is an alphabetical multi-tier subject index which

uses section numbers as the reference, and cross-references where necessary. Look for the main heading of the subject you need, then the appropriate subheadings:

BUSINESS LICENSE

See also BUSINESS TAX
Fee 5.04.030
Required when 5.04.010

The index will be updated as necessary when the code text is amended.

Insertion Guide

Each supplement to the new code will be accompanied by an Insertion Guide. This guide will tell the code user the date of the most recent supplement and the last ordinance contained in that supplement. It will then list the pages that must be pulled from the code and the new pages that must be inserted. Following these instructions carefully will assure that the code is kept accurate and current. Removed pages should be kept for future reference.

Page Numbers

When originally published, this code was numbered with consecutive page numbers. As it is amended, new material may require the insertion of new pages that are numbered with hyphens. (Example: 31, 32, 32-1.) Backs of pages that are blank (in codes that are printed double-sided) are left unnumbered but the number is "reserved" for later use.

Electronic Submission

In the interests of accuracy and speed, we encourage you to submit your ordinances electronically if at all possible. We can accept most any file format, including Word, WordPerfect or text files. If you have a choice, we prefer Word, any version. You can send files to us as an e-mail attachment, by FTP, on a diskette or CD-ROM. Electronic files enable us not only to get you your code more quickly but also ensure that it is error-free. Our e-mail address is: **ords@municode.com**.

SUPPLEMENT HISTORY TABLE

The table below allows users of this Code to quickly and accurately determine what ordinances have been considered for codification in each supplement. Ordinances that are of a general and permanent nature are codified in the Code and are considered "Included." Ordinances that are not of a general and permanent nature are not codified in the Code and are considered "Omitted."

By adding to this table with each supplement, users of this Code of Ordinances will be able to gain a more complete picture of the Code's historical evolution.

2. Any powers expressly granted by this charter are in addition to any powers granted to a city by the general law of this state. All provisions of Nevada Revised Statutes which are applicable generally to cities (not including, unless otherwise expressly mentioned in this charter, chapter 265, 266 or 267 of NRS) which are not in conflict with the provisions of this charter apply to the City of Henderson.

***Editor's note—**Prior to the reenactment of chapter 2.27 by Ord. No. 3190, § 2, adopted July 1, 2014, Ord. No. 3077, § 1, adopted November 5, 2013, repealed the former chapter 2.27, §§ 2.27.010—2.27.070 in its entirety, which pertained to the Henderson emergency medical services advisory board, and derived from Ord. No. 1914, §§ 1—7, adopted in 1999.

A. The rates established pursuant to this chapter shall be adjusted annually on February 1 based upon the percentage of change, rounded to the nearest hundredth of a percent, in the annual average of the CPI-MCS (Consumer Price Index for Medical Care Services) between the most recent 12-month period ending on December 31 as compared with the prior 12-month period ending on December 31; in no case, however, shall the adjustment in rates be greater than ten percent of the then current ambulance service rates unless the city council, in its sole discretion, approves an adjustment.

In any year following a period when the adjustment to rates was based on some other method, rate adjustments shall again be based on changes in the CPI-MCS. A minimum of one annual rate adjustment based on the CPI-MCS method must occur between annual rate adjustments based on methods other than the CPI-MCS method. "Unforeseen economic circumstance" means (i) a percentage change in the CPI- MCS for a given consecutive 12-month period that is greater than ten percent or below zero (a decrease), or (ii) a finding by the city council or other governmental jurisdiction that there have been economic occurrences during that period that have caused specific additional economic costs in ambulance services which are not reflected in changes to the CPI-MCS during that same period.

C. A written record of the rates, as adjusted pursuant to subsection A., shall be maintained on file with the city clerk for public inspection.

2.40.060 Conflicts of interest.

A. A conflict of interest exists when the personal interest of a public servant affects or could affect the public servant's ability to perform public duties in an impartial manner and in the best interests of the city.

B. Conflicts of interest arise when a public servant has the power or duty to take or participate in the taking of any action or make or participate in the making of any decision on a particular matter. Conflicts of interest include, without limitation:

1. The public servant, or a person or entity to whom the public servant has a commitment in a private capacity, has or acquires any economic interest that the public servant knows or has reason to know is likely to be affected, directly or indirectly, by a city action or decision in regard to the particular matter;

2. The public servant, or a person or entity to whom the public servant has a commitment in a private capacity, has or acquires any interest in any business entity representing, advising, or appearing on behalf of any party in regard to the particular matter;

3. The public servant seeks, accepts, or negotiates employment with an outside business entity that is a party to, or has an interest in, the particular matter;

4. A city action or decision that is reasonably related to the nature of any representation or counseling that the public servant provided to a private person or entity for compensation before another government agency within the immediately preceding year;

5. A city action or decision involving and affecting a person or entity from whom a public servant has received one or more gifts or loans with an annual aggregate value in excess of $200.00;

6. A city action or decision regarding the particular matter is likely to affect, directly or indirectly, the economic interests of any person or entity to whom the public servant has a commitment in a private capacity; or

7. Other circumstances that would cause a reasonable person to believe that the public servant may be improperly influenced in performing public duties in regard to the particular matter.

C. Generally, a city employee or a contracted employee who has a conflict of interest in regard to a particular matter shall not take or participate in the taking of any action or make or participate in the making of any decision relating to that matter unless the conflict of interest has first been disclosed to the city attorney and the city manager.

1. If the conflict of interest affects the city employee's or a contracted employee's own pecuniary interests the city employee or a contracted employee shall not be involved in the approval, disapproval, review or action by the city relating to that matter.

2. After the conflict of interest is disclosed by the city employee or a contracted employee, and depending on the nature of the conflict of interest, the city attorney and the city manager may direct the city employee or a contracted employee to not take or participate in the taking of any action or make or participate in the making of any decision relating to that matter.

3. The city employee or a contracted employee may also seek a written advisory opinion from the city attorney as provided in section 2.40.100 of this chapter.

D. Except as provided in subsection 2.40.060(E), an elected official, member of a city board, commission or committee who has a conflict of interest in regard to a particular matter is not prohibited from voting or otherwise acting on the matter if the elected official

discloses the conflict of interest to the chair and other members of the body at the time it is considered. The disclosure shall be sufficient to inform the public of the potential effect of the passage or failure of the matter on the interests of the elected official or the interests of any other person or business entity implicated in the conflict of interest.

1. If an elected official has received a campaign contribution by a person or entity that has a matter before the city council the elected official is not required to make a public disclosure of that contribution if it has been reported, or will be reported by the next reporting deadline, pursuant to NRS Chapter 294.

2. A campaign contribution received by an elected official does not create a conflict of interest under this chapter that would require the elected official to be disqualified from voting or taking action on a matter.

E. An elected official, member of a city board, commission or committee who has a conflict of interest in regard to a particular matter that would materially affect the independence or judgment of a reasonable person in their situation shall recuse and not vote on the matter. The elected official, member of a city board, commission or committee shall disclose the conflict of interest to the chair and other members of the body at the time the matter is being considered. The elected official, member of a city board, commission or committee may not advocate the passage or failure of the matter or otherwise participate in the consideration of the matter after they have recused themselves from the matter.

F. An elected official, member or a city board, commission or committee should not recuse pursuant to 2.40.060(E), if the conflict of interest does not materially affect the independence or judgment of a reasonable person in the public servant's situation where the benefit or detriment to the interests of the public servant's or any other person or business entity implicated in the conflict of interest is no different than that accruing to any other member of the general business, profession, occupation, or group that is affected by the action or decision on the matter.

B. The term "confidential information" shall mean all information that relates to any matter that is or may be the subject of any action or decision by the city and at the time of disclosure is not a part of the public record or public information. The term includes, without

limitation, information relating to litigation, potential litigation, investigations, transactions, administrative determinations, personnel decisions, development agreements, contract negotiations, legal communications from the city attorney's office and records and data that are privileged or confidential by law.

2.50.010 Definition; establishment of boards; interpretation.

A. For the purposes of this chapter, "board" includes any permanent or temporary commission, board, committee, council, or trust created pursuant to state law, city ordinance, or city resolution.

B. The city council may establish permanent or temporary boards to advise and make recommendations to the city council on various programs and issues and to perform duties and exercise authority as authorized by the city council. Permanent boards shall be established by ordinance. Temporary boards are special ad hoc boards and may be established from time to time by resolution of the city council.

C. The provisions of this chapter apply to all permanent boards and temporary boards established by city council unless otherwise provided by ordinance or unless the resolution governing the board specifically exempts the board from the provisions of all or any part of this chapter.

D. Except when otherwise required by applicable law, any question regarding the powers and duties of any board or the interpretation of this chapter shall be determined by the city attorney.

(Ord. No. 3397, § 1, 5-2-2017; Ord. No. 3211, § 1, 9-2-2014)

2.50.015 Applicability of general provisions.

Each of the provisions of sections 2.50.020 through 2.50.130, inclusive, of this chapter applies to all boards unless the provision is in direct conflict with any provision of the Nevada Revised Statutes, the city charter, or a city ordinance or city resolution governing a specific board.

(Ord. No. 3397, § 1, 5-2-2017)

2.50.020 Eligibility requirements.

A. A board member must be a resident of the city of Henderson unless the statute, city ordinance or city resolution providing for the creation of the board to which the member is appointed, or a provision in this chapter, expressly permits a non-resident to be appointed.

B. Permanent board members are only eligible for service on one permanent board at any given time. If appointed to a second permanent board, the member has the option of either (i) resigning from the first board by written notice prior to accepting the new appointment, or (ii) declining the second appointment.

C. The city council may establish temporary boards by resolution from time to time to give special consideration on a pending city issue. The city council shall determine the number of board members needed to perform the duties of the temporary board. Temporary board members shall have the same eligibility requirements and be appointed in the same manner as permanent board members.

D. All board appointees are required to take an oath of office to be administered by the city clerk or her designee, prior to the appointee's first meeting attendance.

In those instances where there are fewer than five seats on a board, all nominations shall be made by the mayor. In those other instances where the number of seats on a board is not a multiple of five, the mayor shall nominate each of the appointees in excess of a multiple of five. All nominations shall be voted on by the city council as a whole.

Should a nominee fail to secure a majority vote of the city council, the nominating councilmember shall make further nominations until a successful nominee is selected.

B. All appointed board members are voting members.

C. The city council shall appoint new members to fill board vacancies as soon as feasible.

C. If the term of a current member of a board expires before a replacement member is appointed, the current member may continue to serve until the city council appoints a replacement.

D. If an appointed board member moves outside of the jurisdictional limits of the city, the member shall notify the board by written notice to the chair and board secretary within 30 days of moving so that a new member may be timely appointed by the city council. A relocated member may continue to serve on the board until his or her successor is appointed. This section D does not apply to a board member that was not required to be a resident of the city of Henderson as a condition of appointment to the board if the member is qualified to serve on the board following the move.

E. A councilmember may, at his or her discretion, nominate a replacement of such councilmember's appointee(s) at any time or move for the removal of any board member appointed by the councilmember. A replacement member assumes the seat of the member he or she is replacing effective upon approval of the replacement member's appointment by city council. A removal is effective upon approval by city council, regardless of whether a successor member has been appointed.

The terms, conditions and policies of other applicable statutes and ordinances applicable to specific businesses as well as all ordinances of the city designed for the protection of the health, safety, morals, and welfare of the public are intended to be applied in conjunc-

A permanent license will be issued provided that the requirements of all appropriate federal, state, county and municipal laws and regulations have been met and that all specific requirements of all departments of the city have been met and properly approved. A temporary business license for a business license type not subject to the provisions of chapter 4.03 may be issued and if issued shall permit the applicant to engage in business at the location designated on the license for a period of up to, but not to exceed, 60 days, within which all inspections and requirements imposed upon the applicant by the various departments or divisions of the city are to be complied with. Upon the recommendation by the various departments or divisions within the city, the division shall have the discretion to extend such temporary business license for a period of an additional 60 days. It shall be the sole responsibility of the applicant to schedule all follow-up inspections necessary to comply with all the requirements and corrections. Should the applicant fail to meet the requirements as set forth by the departments or divisions of the city within the maximum prescribed time limit of 120 days (or 60 days if no extension was granted), the temporary license shall no longer be valid. 4.04.023 False, deceptive or misleading advertising prohibited.

A. It is unlawful for any licensee, or any independent contractor, agent or employee thereof, to publish, disseminate, display, or cause to be displayed by any advertising medium, any statement that would suggest to a reasonably prudent person that any service other than that specified on the business license and defined in this chapter is available to the public. Such an act is grounds for revocation of the license.

B. It is unlawful for a person to offer directly or indirectly by any advertising medium, device or declaration, or by any other manner or means any unlicensed or unpermitted activity when such license or permit is required and has not been issued or granted.
(Ord. No. 3290, § 1, 10-6-2015)

A temporary business license may be issued to an applicant to engage in the specific business activity described in the application, at the location identified in the application, for a period not to exceed 120 days or until a final decision has been made by the director granting or denying a business license, whichever comes first. During the temporary business license period, an applicant, principal, licensee, and their employees and other persons acting on their behalf, shall comply with all of the requirements or conditions imposed upon the license by this Code or by agencies of the state or county, as the case may be, or resulting from inspections by departments of the city.

C. Prior to the expiration of the temporary license period under subsection 4.04.025(B), the temporary license may be extended by the city council for an additional period not to exceed 120 days. When granting an extension on a temporary license, the council may impose any special conditions and restrictions on the applicant it deems appropriate.

D. During any period in which a temporary license is in effect or extended, the director will suspend a temporary license if it is discovered that there is reasonable cause to believe one or more of the grounds for denial identified in subsection 4.04.150(A), including a determination of a lack of suitability for the license, is found to exist. The director may issue a stop work order to stop the continued operation of the business.

E. In the event the director suspends a temporary license, the applicant may appeal the director's decision to the chief financial officer of the city as provided under section 4.04.210 of this chapter.

No license will be issued until appropriate fees are paid.

C. 4.04.090 Businesses paying license fee on the basis of semiannual gross revenues—Penalty for underreporting—Violation of provisions of this title to underreport—Audits.

A. When first securing a license to commence operations of a business required to pay the license fee on the basis of semiannual revenues, the applicant shall be required to declare a true estimate of the anticipated, or the actual amount of the semiannual gross revenues, upon which the license fee shall be paid. In no event shall the license fee be less than the minimum prescribed by Code. In the event the business gross revenues for the first period exceeds the amount of gross revenues for the payment of the declared fee, the balance due shall be added to the fee for the second semiannual period. With respect to calculating the fee for the second semiannual period only, the fee shall be based on the gross revenues for the first five full months plus any gross revenues recognized between the date of issuance and the first date of the following month in accordance with section 4.04.080. For each subsequent period the fee shall be based on the gross revenues for the full six-month period ending on the last day of the month preceding the month of renewal. In any case, each licensee shall declare under oath report and attest to the accuracy of the amount of gross revenues during the last preceding period which shall be used as the basis of payment for the next licensing period.

If an audit during the first period of operation or the nature of the business indicates that the gross revenues of the business will substantially exceed the amount required for the payment of the minimum fee, the division may require the immediate payment of the balance of the fee for such period.

B. It shall be a violation of the provisions of this title for any licensee required to pay a license fee on the basis of gross revenues to make a material and intentional underdeclaration of the licensee's gross revenues for any licensing period. In determining materiality, the fact that the underdeclaration places the licensee in a lower fee bracket shall be considered. It may be grounds for nonrenewal, suspension, limitation or revocation of a license, for any licensee to make a material and intentional underdeclaration of the licensee's gross revenues for any licensing period.

C. The director, the auditor, or the director's designee shall be provided access to the books and business premises of such business for the purpose of performing an audit to verify the accuracy of the calculation of business license fees paid and for assurance of compliance with other sections of this title. It shall be a violation of the provisions of this title for a licensee to fail to keep adequate records of gross revenues. It shall also be a violation for a licensee to fail to produce adequate records for the review of the director, the auditor or the director's designee within 96 hours after receipt of written notice of the demand or such other reasonable period as agreed upon by the director or his designee. Said notice shall be by certified mail, return receipt requested, to the last address properly filed with the division. Adequate records shall include but not be limited to the following: original copies of all sales invoices and credit card slips for a period of one year preceding the date of the audit and all cash receipts journals, income and sales tax returns, financial statements, ledgers, copies of business license renewal forms and related supporting documentation for calculations thereon and any other documentation kept in the ordinary course of business for a period of three years preceding the date of the audit. The information received from the licensee under this section shall be confidential and available only to those city officials concerned with such matters.

D. The director shall have the authority to secure additional consulting or third-party auditing services necessary to perform the auditing process. In the event the audit findings reveal that any business failed to accurately declare or pay gross revenue to the city by ten percent or more, the audited business shall be required to reimburse the city for all expenses incurred for the audit, including, without limitation, consultants and other third-parties hired by the city to assist in the audit process.

E. If, as a result of an audit, it is determined that there has been an underdeclaration of the gross revenues for the period being audited, a penalty of ten percent and interest on the amount of underpayment of one percent per month or fraction thereof, in addition to the amount due, shall be assessed.

F. If it is discovered that a business has been in operation without first obtaining a business license, the business shall pay all license fees due from date of commencement of operations to the current license period plus a ten percent penalty of each fee due and interest on the licensee fee at the rate of one percent per month or fraction thereof.
(Ord. No. 3290, § 1, 10-6-2015)

4.04.100 Renewal of licenses.

A. A licensee shall not be required to complete an application to renew a license, but is required to pay the appropriate license fee and submit the renewal either online, in person or via mail to the city with the payment. Renewal of the license certifies by the licensee current compliance with provisions of the title and agreement for continue compliance.

B. A renewal notice will be prepared for all businesses licensed under this title before the due date of the next licensing period; provided, however, that the failure to notify any licensed business of the approaching license expiration shall not be held to waive the payment of the license fee, and, that the actual receipt of such notice is in no case required. The due date shall be the last day of the month of a licensing period.
(Ord. No. 3290, § 1, 10-6-2015)

4.04.110 Delinquent license—Expired license.

4.04.115 Penalties—Revocation—Reinstatement.

Any quarterly license fee which is not received by the division on or before the quarterly due date shall be assessed a delinquent penalty in an amount equal to ten percent of the amount of the unpaid license fee. If the quarterly license fee and penalties are not received by the division within one month immediately following the due date, the license shall be automatically revoked on the first day of the second month.

B. Any semiannual license fee which is not received by the division on or before the semiannual due date shall be assessed a delinquent penalty in an amount equal to ten percent of the amount of the unpaid license fee. If the semiannual license fee and penalties are not received by the division within four months immediately following the due date, the license shall be automatically revoked on the first day of the fifth month.

C. Reinstatement:

1. A license which has been automatically revoked because a licensee has not complied with the semiannual license fee provisions of this section may be reinstated by the director if, not later than 60 calendar days immediately following the date the license was automatically revoked, the licensee pays to the city:

a. The delinquent and un-paid quarterly or semiannual license fee;

b. All penalties pursuant to subsection A or B of the section; and

c. A license reinstatement fee of $250.00 for any privileged license as set forth in this title and $25.00 for any other license within this title.

2. A license which has been revoked as a result of violation(s) of this title shall not be reinstated unless the licensee pays to the city a reinstatement fee of $250.00 for any privileged license and $25.00 for any other license. Payment of such fee shall be in addition to any requirements of reinstatement made by the division or city council.

3. A license may not be reinstated if the business is no longer in compliance with the provisions of this title.

The application to change location must be filed and approved prior to the commencement of business at the new location. Commercial premises will be subject to inspection prior to approval of the change of location.

B. All persons licensed to do business under this title shall report to the division, on a form to be provided by the division, any change in business name from that designated in the original business license application within 30 calendar days after such change occurs and pay a $10.00 administrative fee per license for such change.

7. Lack of suitability of the applicant to engage in the particular occupation or business. For the purpose of this section, lack of suitability shall be defined as that quality or character of the license applicant which tends to establish that the applicant will not perform the services to be provided under his license or permit in a reasonable manner to the public. Particular factors to be taken into consideration by the division or by the council in determining whether the applicant is not suitable, are whether the applicant has a bad moral character has a bad reputation for truth, honesty or integrity, or has a prior criminal conviction and/or a prior license denial, suspension, limitation or revocation, either locally or in another state or community, to the extent that it is possible that the acts which formed the basis of that conviction, denial, suspension, limitation or revocation may be committed by the applicant under the license or permit being applied for. In the event the applicant is a company, partnership, association, corporation, or other business entity, the division or the council may consider the suitability of each of the applicant's owners, partners or directors;

8. False, fraudulent or misleading statements made to the city council;

9. For any other cause deemed by the city through its division or council to be a just or equitable reason.

Without limiting the foregoing, and without being subject to the administrative hearing process set forth in chapter 4.06, the council may suspend a license if the licensee or its agents or employees, violate any subdivision of subsection A or B of this section. A. As used in section 4.05.020, the following words have the following meanings:

Broadband infrastructure access has the meaning given to the term in Chapter 709 of the Nevada Revised Statutes.

Broadband provider has the meaning given to the term in Chapter 709 of the Nevada Revised Statutes.

Broadband service has the meaning given to the term in Chapter 709 of the Nevada Revised Statutes. In the case of a broadband provider, "gross revenue" means the revenue derived from providing broadband service, broadband infrastructure access, or both within the jurisdiction of the city.

Cellular phone service means a commercial mobile radio service as that term is defined in 47 CFR § 20.3 on the effective date of the ordinance codified in this section, or as may be amended. It is one type of telecommunications service.

Customer does not include any customer of a provider of a telecommunication service other than a retail customer.

Fee means a charge imposed upon a public utility for a business license, a franchise or a right-of-way over streets or other public areas, except any paid pursuant to the provisions of NRS 709.110, 709.230 or 709.270.

Public utility means a business that provides:

For purposes of calculating revenue received within the city, the customer's billing address shall be determinative. In the case of electric or natural gas service, all revenue received from customers located within the city for electric or natural gas services. Revenue includes proceeds from the sale of natural gas to retail customers located within the city, but does not include any proceeds from the sale of natural gas to a provider of electric energy which holds a certificate of public convenience and necessity issued by the Public Utilities Commission of Nevada.

"Revenue, total operating revenues" or "gross revenue" as used in section 4.05.020 does not include revenues earned from sales to the following:

1. Governmental agencies of the United States;

2. Agencies and subdivisions of the state of Nevada;

3. City inter-utility sales; or

4. Sales made to industrial plants to the extent exempted under section 4.05.025.

Video service has the same meaning as that term is defined in NRS 711.141, as may be amended or renumbered.

***Editor's note—**Prior to the reenactment of chapter 4.07 by Ord. No. 3303, § 1, adopted October 20, 2015, Ord. No. 3132, § 1, adopted April 1, 2014, repealed the former chapter 4.07, §§ 4.07.010—4.07.030 in its entirety, which pertained to business impact consideration, and derived from Ord. No. 1978, § 1, adopted in 2000.

B. No error concerning, or omission of, any of the above-described information is grounds for the dismissal of a proceeding relating to a notice of violation unless the person requesting the dismissal demonstrates substantial prejudice from the error and/or omission.

C. Where the notice of violation data is entered into and stored in a computer or similar device, any printout or other output readable by sight that accurately reflects such data is an original notice of violation for purposes of a proceeding under this chapter. Any such data entry that is moved or copied into another computer or similar device is intended to constitute an additional or replacement of the record of the data by the issuing officer or employee and is also an original notice of violation for purposes of a proceeding under this chapter.

D. Any notice of violation issued pursuant to this chapter shall constitute a declaration which is subject to the penalty of perjury.
(Ord. No. 3303, § 1, 10-20-2015)

4.07.030 Notice of violation—Issuance.

The notice of violation may be issued by any peace officer or by any authorized officer or employee of the division.
(Ord. No. 3303, § 1, 10-20-2015)

4.07.040 Notice of violation—Filing.

An original notice of violation, or a facsimile thereof, must be filed with and retained by the business operations division. A notice of violation is prima facie evidence of the facts which are alleged therein. The notice of violation must be served on the person responsible for the violation or, in the case of an entity, an officer, key employee, manager in charge, or registered agent of that entity. A notice of violation may be served on the person responsible for the violation either personally or by registered or certified mail, return receipt requested, at the address on file with the division.
(Ord. No. 3303, § 1, 10-20-2015)

4.07.050 Notice of violation—Response—Hearings.

A. The individual or licensee, referred to herein as the "person" per section 4.04.010, cited must respond to a notice of violation within the time prescribed by section 4.07.060 of this chapter in one of the following ways:

1. Admit responsibility for the commission of the violation and liability by paying the amount of the civil penalty; or

2. Appeal the notice of violation, or civil penalty by submitting a written request for an administrative hearing to the division. The request for hearing must contain the following information:

a. The name of the person on the notice of violation;

b. The current address and contact telephone number of the person;

c. The notice(s) of violation(s) which the person wishes to dispute at the hearing;

d. The basis or facts supporting the appeal; and

e. The requested relief.

B. After receipt of a person's written request for a hearing, the division shall set a hearing date and provide notice of the hearing to the person requesting it at least 14 days before the date of the hearing, unless a shorter time period is agreed to in writing by the division and the individual. The notice shall state the date, time, and location of the hearing, and shall include a short explanation of the hearing process.

C. The business operations manager of the department, or authorized designee (the "presiding officer"), shall preside over hearings conducted pursuant to this chapter except under the following circumstances:

1. If the city attorney initiates a disciplinary action for suspension or revocation of a business license, an appeal hearing under this chapter may be held in conjunction with the disciplinary action hearing, presided over by a hearing officer appointed pursuant to chapter 4.06;

2. If the business operations manager determines that the circumstances so warrant, the business operations manager may refer an appeal under this chapter to the city manager's office. Upon receiving a referral, the city manager may appoint an assistant city manager or the director (or designee) of another city department as the presiding officer for the referred appeal hearing.

D. The presiding officer shall conduct the hearing, direct the order of the proceedings, and hear all evidence presented relevant to the subject notice of violation and appeal. The hearing shall be conducted informally and shall not be constrained by evidentiary or procedural rules applicable to public hearings or judicial proceedings. The hearing shall provide an opportunity for the parties to present witness statements or testimony and other evidence regarding the subject notice of violation for the purpose of dispensing a fair and speedy resolution. The presiding officer may question witnesses, allow rebuttal testimony, limit the time of the hearing to a reasonable length, limit the presentation of immaterial or unduly repetitious evidence, and record the hearing.

E. If the person requesting a hearing fails to appear at the hearing without having first sought and obtained a continuance of the hearing, the presiding officer may enter a decision upholding the violation and the full amount of the civil penalty scheduled to be reviewed. The burden of proving any defense shall be upon the person raising such defense.

F. Upon the conclusion of the hearing, the presiding officer shall consider all evidence presented and shall issue a decision to uphold, reverse, or modify the disputed violation and/or citation. Written notice of the decision shall be issued no later than 30 days following the conclusion of the hearing. The decision shall clearly state one of the following:

1. That the notice of violation is upheld, including a short statement of findings explaining the basis for the decision, and providing a deadline and any conditions for the payment of any civil penalty;

2. That the notice of violation is reversed, including a short statement of findings explaining the basis for the decision; or

3. That the notice of violation and/or penalties are modified, including a short statement of findings explaining the basis for the decision, and providing a deadline and any conditions for any modified compliance obligations and payments of any civil penalty.

G. Any decision by the presiding officer pursuant to this chapter shall be a final determination.

H. The city attorney may file a petition in a court of competent jurisdiction, including the Henderson municipal court for the entry of a civil judgment against the person in an amount equal to that stated in the written decision if the city attorney determines this action to be necessary to enforce the decision. Service of such petition on the defendant must be made by certified mail, return receipt requested, restricted delivery, addressed to the defendant at the defendant's last known address, or in any other manner which is authorized by law. An affidavit or declaration of mailing, a signed, returned receipt, or other evidence of service of the civil judgment shall be filed upon such service of the petition.
(Ord. No. 3936, § 1, 1-3-2022; Ord. No. 3303, § 1, 10-20-2015)

4.07.060 Notice of violation—Response period.

A. A response to a notice of violation, as provided in section 4.07.050, must be made within 30 calendar days after the date on which the notice of violation is served. If no response is received during such 30-day period, an additional civil penalty which is equal to the amount of the original civil fine may be assessed.

B. If a person does not respond to a notice of violation within the 30-day response period, the director, or an authorized designee, shall send a notice of delinquency by mail to the person responsible for the violation or, in the case of an entity, an officer, key employee, manager in charge, or registered agent of that entity at the address on file with the division.

C. The notice of delinquency shall contain the original date of the violation, the amount of the civil fine and the amount of any late penalty which is associated therewith. The person responsible for the violation or, in the case of an entity, an officer, key employee, manager in charge, or registered agent of that entity has 15 calendar days after the date of the notice of delinquency in which to respond to the division. If no response is made to the notice of delinquency within such additional 15-day period, an additional civil penalty may be assessed equal to the original civil penalty imposed and the matter may be referred to the city attorney's office to initiate proceedings to suspend and/or revoke the business license or permit.

D. If a person fails to respond to a notice of violation or a notice of delinquency in accordance with this chapter, the city is entitled to collect the amount of any fines and penalties by means of any remedy available under applicable law, including without limitation referring the matter to a collection agency and initiating proceedings to suspend and/or revoke the person's business license or permit.

E. If a person fails to respond to the notice of violation or a notice of delinquency and the violation continues to exist, said action shall be considered a public nuisance as described in section 4.07.080 and the city may seek injunctive relief pursuant to section 1.05.040.
(Ord. No. 3303, § 1, 10-20-2015)

4.07.070 Collection fees.

In addition to the civil penalties assessed pursuant to this chapter, the person responsible for any violation shall be liable for an additional collection fee where the collection of the penalties provided for herein is referred for collection. The amount of such fee shall be 25 percent of the outstanding indebtedness or $250.00, whichever is less. The amount of any such collection fee shall accrue and become due and payable at the time the indebtedness is referred for collection to the collection agency, and that amount may be added by the collection agency to the amount sought to be collected. Any judgment or amended judgment entered under this chapter may include the amount of the collection fee authorized herein.
(Ord. No. 3303, § 1, 10-20-2015)

4.07.080 Public nuisance abatement.

Any continuous violation of title 4 is a threat to the public health, safety, and morals and constitutes a public nuisance to the general public. In addition to any civil penalties provided herein, the city may abate the nuisance or apply for other equitable relief pursuant to HMC 1.05.040.

D. No licensee or permittee, his employee, or the owner, or other person on his behalf, shall act as a by-bidder, or what is commonly known as a "capper" or "booster," or make or accept any false or misleading bid, or falsely pretend to buy or sell any article, or conspire with any person to make a false or fictitious bid; and no licensee or permittee, his employee, or the owner of the articles, or other person acting on his behalf, shall bid or purchase at such sale, unless, at the time such bid is made, the permittee shall announce, in such tone and manner as to be plainly heard and understood in all parts of the room in which the sale is being conducted, that such bid is for the benefit of the permittee, his employee or owner, as the case may be.

E. Each article offered for sale shall be sold as offered, if a bid be made by more than one bona fide bidder, before another article is offered for sale, and without any unreasonable delay. There shall be no reserved price on any article unless, at the time the article is offered for sale, the licensee or permittee shall announce the reserved price in such tone and manner as to be plainly heard and understood in all parts of the room in which the sale is being conducted. Whenever used in this chapter, the words and terms shall have the meaning ascribed to them pursuant to title 4, unless a different meaning clearly appears in the definitions or context:

Activated alarm system means an alarm system which has been set, or turned on; in which condition it will emit a noise, turn on lights, dial a telephone or send a signal to a monitoring station, or any other means of signaling, when the alarm has been activated.

Alarm condition means that a situation exists, determined by an alarm monitoring business, or other means, which is used to summon emergency response personnel.

Alarm system means any mechanism, equipment or device which is designed to detect an unauthorized entry into any building or onto any property, or to direct attention to a crime in progress, or to signal an emergency of any kind, and to signal the above occurrence either by a local or audible alarm or by a silent or remote alarm. Alarm systems shall not include alarms installed in motor vehicles.

Alarm systems business means any person engaging in the business of planning, installing, servicing, maintaining, repairing or replacing, or monitoring alarm systems in the city. "Alarm systems business" shall also mean any person acting as a contractor or subcontractor for or with an alarm systems business as described.

Applicant means any person who has requested, or is about to request, licensing as an alarm systems business, or any person who has requested, or is about to request, a building permit to install an alarm system at a particular location in the city.

Building director means the director of the building department of the city or his designee.

Emergency response personnel means, but is not limited to, the police and fire departments and ambulance services.

Employee means a person who is employed by an alarm systems business and who plans, sells, installs, services, maintains, repairs, monitors or replaces alarm systems in the city. (See [section] 4.18.190.)

False alarm means an actual alarm signal transmitted in the absence of an alarm condition which results in emergency response personnel being dispatched to the location of the alarm.

Local or audible alarm means an alarm, which, when activated, emits a loud noise at or near the protected area without notifying an alarm monitoring station.

Manually activated alarm means an alarm system which is activated manually, and which transmits a signal to an alarm monitoring station indicating an emergency or a crime in progress.

Responder means a private patrol business, licensed in accordance with the provisions of NRS and the city, or the owner of the home, business, structure or facility experiencing an alarm condition.

User means a person, who owns, or is in control of the premises protected or intended to be protected by an alarm system.
(Ord. 1343, § 1 (part), 1992)

4.18.020 Legislative intent.

As the city's population has grown, more residential and commercial property owners are turning to privately monitored security alarm systems to provide additional protection for their properties. Commensurate with the growth in the number of private alarm systems installed within the City of Henderson there has been a corresponding increase in the number of false alarm reports received by the police department. In response to the proliferation of alarm systems and the city council's concern for the public's best interest from a safety standpoint as it relates to the increased incidents of false alarms, it is necessary that rules and regulations be adopted to control the licensing and operation of alarm systems businesses and the establishment of a process whereby the city can recoup the expenses incurred in responding to the ever increasing number of false alarms.
(Ord. 1343, § 1 (part), 1992)

4.18.030 Regulation.

All persons, except an alarm user as defined in this chapter, shall be licensed and subject to regulation, and the license may be suspended, limited, or revoked for violation of the provisions of this chapter, the laws of the State of Nevada, other ordinances of the city, or for any other cause deemed sufficient by the council in the exercise of its sole discretion. In conformity with the policy of this chapter, the following persons are declared not to be qualified to hold a license under the provisions of this chapter:

(1) A person who has been convicted of a crime involving theft, fraud, dishonesty, receiving or possessing stolen property, any narcotics violation whatsoever or any sex offense;

(2) A person whose license, whether issued under the provisions of this chapter, or those ordinances or statutes of any other agency lawfully engaged in the licensing or regulation of alarm systems businesses, has been revoked for cause;

(3) A person who, at the time of renewal of any license issued under this chapter, would not be eligible for such license upon a first application;

(4) A partnership, limited partnership or association, unless all of the members of such partnership, limited partnership or association are qualified to obtain a license;

(5) A corporation, unless it is incorporated in the State of Nevada, or unless it is a foreign corporation which is qualified under Nevada law to transact business in Nevada;

(6) A corporation, if an officer or director thereof would not be eligible to receive a license for any reason which would disqualify an individual applicant.

(Ord. 1343, § 1 (part), 1992)

4.18.040 Unlawful to operate without license.

It is unlawful for any person to conduct any alarm systems business as described in this chapter without first having obtained a license therefor.

B. Every new alarm systems business shall maintain such surety bond in full force and effect during the first year of licensure under this chapter, and upon failure to do so, its license shall be suspended until such bond is renewed; and

A. It is found and declared that the public health, safety, morals and welfare of the inhabitants of the city require the regulation and control of all persons engaged in, associated with, or in control of the profits of the business of gaming. All such persons, as hereafter defined in this chapter, shall be licensed and controlled so as to protect the public health, safety, morals, good order and general welfare of the inhabitants of the city and to assist the gaming industry to foster its stability and growth. The burden of proving qualification to receive or retain any license or finding of suitability is on the applicant.

This power of discretion so granted to the authorized official of the college is not a license, nor does it vest any form of property right to the college or student body. The power is a mere administrative privilege and may be summarily revoked or suspended without notice, without cause, and without hearing, within the absolute discretion of the council by a majority vote of a quorum of the council present when a motion to do so is made.

1. No later than ten Henderson business days after receiving written notification of the sale, the division shall provide written notice to the purchaser of the requirements of this chapter.

B. In the event that all outstanding transient lodging taxes, or any other related fees, interests or penalties have not been paid prior to the closure of the sale, in order to establish the total transient lodging tax obligation, the seller or purchaser of a transient lodging establishment may request that the division provide a written statement of any transient lodging taxes, fees, interest, and penalties due from the seller.

Concurrent with this request, sellers must make available to the division any relevant records supporting their reported combined transient lodging tax liability for at least the past three years (or since the date the establishment was last purchased, if such information is readily available). Failure to provide the required records or providing incomplete records to the division within 15 business days of notification by the division, will result in an estimate of taxes due. Methods to calculate the estimate may include, but are not limited to: average rental revenue from previous documentable periods; room rate analysis; industry standards using similar size and operation of the establishment.

The division shall provide such statement of outstanding transient lodging taxes as set forth herein within 30 business days after receiving the request or within 30 business days after the records of the transient lodging establishment are received by the division, whichever is later. If no records are provided to the division, the written statement will be created by the division, using the best information available at the time. In any event, the division shall issue its written statement no later than 45 business days after it received the request.

C. The purchaser or the purchaser's assignee, at closing, shall withhold, in an escrow account, an amount from the purchase price sufficient to pay the transient lodging taxes due, as well as all related fees, interest, and penalties due unless or until the seller provides written documentation from the division stating that the transient lodging tax has been paid and that no amount is due.

D. In the event the seller fails to pay the amount due to the division within 45 days after sale of the transient lodging establishment, the transient lodging tax and any related fees, interest, and penalties owed by the seller shall be paid from the funds withheld by the purchaser in escrow.

E. The purchaser of a transient lodging establishment who does not withhold from the purchase price an amount sufficient to satisfy the seller's outstanding transient lodging tax obligation, as required in subsection C., shall be liable for any unpaid portion of the seller's outstanding transient lodging tax and all related fees, interest and penalties.

F. The period of limitation during which the division may assess taxes, fees, interest, and penalties against the purchaser under this section is five years from the date the transient lodging establishment is sold or from the date the written statement is issued by the division, whichever event occurs later.

Acceptable methods of maintaining the above required information include guest folios or registration cards, daily transaction reports, general ledgers, cash journals, and similarly accepted books of accounting maintained by a reasonable business person. In addition, operators may be required to provide copies of bank statements, financial statements (audited, if available) prepared by their independent accountant, tax returns and similar documents that can be used to support rental revenue and exemptions.

All massage establishments shall be licensed and regulated so as to protect the public health, safety, morals, good order and general welfare of the inhabitants of the city and to safeguard the public. It is further found and declared that the right to obtain such license is a privilege and that the operation of a massage establishment or business by an independent massage therapist, when authorized by such license, is a privileged business subject to regulations, and that the license may be revoked for violation of the laws or regulations of the state, the conditions of this chapter, and other ordinances of this city.

Upon the sale or transfer of any interest in a massage establishment, other than as described in section 4.84.110, the business license for that massage establishment shall be null and void. A new application pursuant to this chapter shall be made by any person who, by reason of such sale or transfer, desires to own or operate the establishment.

E. In order for the massage establishment to operate pursuant to this section, a massage establishment must have an approved manager in charge on the premises at all times the massage establishment is open for business. Allowing an applicant to continue to operate pending approval of the applicant's license shall in no way guaranty that an applicant will be granted a license if the applicant does not satisfy the license requirements or is otherwise disqualified from being licensed. Any costs or expenses incurred by an applicant prior to issuance of its license are solely at the applicant's risk.

A. The director, agents or officers of the division, code enforcement, the police department, or any state or county regulatory agency shall be entitled to enforce the provisions of this chapter.

B. Such enforcement power shall include, but not be limited to, the power to issue notices of violation of this chapter, impose civil penalties up to $500.00 for each violation for each day or any portion thereof during which the violation occurs or continues, declare nuisances, serve notices of correction, issue red tag/stop work orders, initiate suspension or revocation of licenses pursuant to chapter 4.06, and to perform all other duties relating

to licensing enforcement as provided in this title. In addition, those persons identified in subsection A of this section shall have the authority to prepare, sign and serve misdemeanor citations pursuant to NRS Chapter 171, as may be amended or renumbered, to enforce the provisions of this title.

1. No manager in charge present on the premises during business hours;

2. No massage therapist on the premises;

3. Refusal of the manager in charge, employee or other person to allow agents or officers of the division, code enforcement, the police department, or any state or county regulatory agency onto the premises for inspection to verify compliance with the provisions of this chapter;

Nothing in this chapter shall be construed as requiring the director or agents or officers of the division, code enforcement, the police department, or any state or county regulatory agency to impose any penalty on a massage establishment or massage therapist, if the division, police department, or relevant agency deems the matter giving rise to a notice of violation has been corrected.

H. This section is supplemental to, and not exclusive of, enforcement measures available to other officials regarding this title.

4.110.020 Purpose and intent.

In the development and adoption of the ordinance codified in this chapter, it is recognized that there are some adult business uses that have serious objectionable operational characteristics particularly when located in close proximity to residential neighborhoods, public parks, religious assemblies, governmental offices, schools and other facilities, thereby having a deleterious impact upon property values and that such businesses frequently become places of criminality.

It has been acknowledged by communities across the nation that state and local governmental entities have a special concern in regulating the operation of such businesses under their jurisdiction to ensure those controls and regulations necessary to preserve the integrity and character of residential neighborhoods, the stability of property values, and impose restrictions and regulations upon those activities that would adversely affect property values, increase the incidence of prostitution, drug sales, sexually transmitted diseases, crime and violence, and prevent adverse secondary effects that will contribute to the blighting or downgrading of adjacent neighborhoods. It is the further purpose of this chapter to protect the well-being of the youth of the community from objectionable operational characteristics of these adult uses by regulating and restricting their close proximity to established certain facilities such as, but not limited to, religious assemblies, parks, schools and residential areas.

In recognition of the protections afforded to the citizens under the First and Fourteenth Amendments, it is not the intent of this chapter to inhibit freedom of speech or the press. It is further the belief that just as advertising is designed to stimulate one's appetite for desiring goods or services, an overabundance or preoccupation with sexual displays or materials arouses the appetites of those so preoccupied and encourages violations of the criminal statutes involving sexual offenses and is contrary to the health and safety of the community.

The provisions of this chapter have neither the purpose nor effect of imposing a limitation or restriction on the content of any communicative materials, including sexually oriented materials. Similarly, it is not the intent nor effect of this chapter to restrict or deny access by adults to sexually oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually oriented entertainment to their intended market. This chapter represents a balancing of the legitimate ends of the

community by imposing an incidental, content-neutral place, time and manner regulation of sexually oriented businesses, without limiting alterative avenues of communication, and at the same time, requiring the business to carry its share of financing law enforcement activities. The special regulations deemed necessary to control the undesirable externalities arising from these enterprises are set forth in this chapter.

4.110.200 False, deceptive or misleading advertising prohibited.

It is unlawful for a sexually oriented business licensee, or any independent contractor, agent or employee thereof, to publish, disseminate, display, or cause to be displayed by any advertising medium any statement that would suggest to a reasonably prudent person that any service other than that permitted by the business license is available to the public. Such an act is grounds for revocation of the license.
(Ord. No. 3246, § 1, 1-6-2015)

4.110.210 Actual deception unnecessary to create liability.

In any licensing suspension, limitation or revocation proceedings, the fact that the licensee did not have actual knowledge of the events complained of is no defense, and every licensee hereunder accepts his license subject to said condition. 4.116.020 Purpose and intent.

A. In November 2000, the voters of the state passed an initiative amending Article 4 of the Nevada Constitution to allow the use of marijuana for medical purposes. In 2013, the Nevada State Legislature passed, and the governor signed into law, Senate Bill 374, now codified in NRS Chapter 453A, to allow the establishment of medical marijuana establishments within the state.

B. While the council recognizes that medical marijuana provides treatment for persons suffering from debilitating diseases and ailments, there are many negative secondary effects that have been reported in communities that authorize the use of medical marijuana, such as an increase in violent crimes, theft, traffic, noise, drug and gang activity, and

firearms violations. Therefore, the public health, safety, and welfare of the inhabitants of the city require the regulation of all businesses engaged in the business of medical marijuana sales, cultivation, infusion or testing.

C. Federal law makes it unlawful to cultivate, possess, distribute, or dispense marijuana. However, on August 29, 2013, the United States Department of Justice ("DOJ") issued a memorandum advising that the DOJ would allow enforcement of state laws that authorize marijuana production, distribution, and possession to be handled primarily by state and local law enforcement regulatory bodies as long as the state and local governments enact laws that implement "strong and effective regulatory enforcement systems" to address the federal government's identified enforcement priorities. The following enforcement priorities were specified by the DOJ as being particularly important to the federal government:

1. Preventing the distribution of marijuana to minors;

2. Preventing revenue from the sale of marijuana from going to criminal enterprises, gangs, and cartels;

3. Preventing the diversion of marijuana from states where it is legal under state law in some form to other states;

4. Preventing state-authorized marijuana activity from being used as a cover or pretext for the trafficking of other illegal drugs or other illegal activity;

5. Preventing violence and the use of firearms in the cultivation and distribution of marijuana;

6. Preventing drugged driving and the exacerbation of other adverse public health consequences associated with marijuana use;

7. Preventing the growing of marijuana on public lands and the attendant public safety and environmental dangers posed by marijuana production on public lands; and

8. Preventing marijuana possession or use on federal property.

D. Accordingly, in addition to protecting the public health, safety, morals, good order and general welfare of the inhabitants of the city and to safeguard the public, this chapter is intended to adequately address these enforcement priorities.
(Ord. No. 3432, § 1, 9-5-2017)

4.116.030 License required—Privileged license—Issuance prohibited to designated persons.

All medical marijuana establishments as defined in this chapter shall be licensed and controlled so as to protect the public health, safety, morals, good order and general welfare of the inhabitants of the city and to safeguard the public.

A. The right to obtain and maintain a license under this chapter is a privilege and the operation of such medical marijuana dispensing, cultivation, infusion or testing facilities is a privileged business subject to regulations. The license may be revoked for violation of the conditions of this chapter, including those conditions set forth in section 4.116.240; the laws of the state; other ordinances of the city; the DOJ enforcement priorities cited in subsection 4.116.020(C); or for any other cause deemed sufficient by the council in the exercise of its sole discretion.

B. In conformity with the policy of this chapter, the following persons are declared unqualified to hold a medical marijuana establishment license under the provisions of this chapter:

1. A person whose state registration certificate or license issued under the provisions of this chapter or those ordinances or statutes of any other agency lawfully engaged in the licensing or regulation of medical marijuana dispensing, cultivation, infusion or laboratory services, has been suspended or revoked for cause;

2. A person, who at the time of renewal of any license issued under this chapter, would not be eligible for such license upon a first application;

3. Any applicant that fails to obtain a finding of suitability from the director for each appropriate person or principal as required under the provisions of chapter 4.03 and in accordance with section 4.116.035;

4. A person who does not beneficially own the premises for which a license is sought or does not have a lease thereon for the full period for which the license is to be used;

C. For the purposes of this chapter, only medical marijuana establishments that will cultivate, dispense, infuse/produce edible medical marijuana products or provide laboratory testing at an approved location pursuant to title 19 may be licensed as a medical marijuana establishment.

D. A medical marijuana establishment license will not be issued to an applicant that has not had the appropriate individuals, set forth in this chapter, undergo an background investigation and finding of suitability pursuant to sections 4.03.020

and 4.116.035. In his or her discretion, the director may accept an equivalent background investigation conducted by the Nevada Department of Taxation or another government entity or agency.

E. No medical marijuana establishment license shall be issued to an applicant unless its ownership, irrespective of corporate or business structure can ultimately be traced to ownership or control by a natural person or persons.

(Ord. No. 3562, § 1, 2-5-2019; Ord. No. 3432, § 1, 9-5-2017)

4.116.035 Finding of suitability.

In addition to the requirements of chapter 4.03, an individual applicant or each principal of an applicant must be found suitable by the director and meet the following requirements:

A. Such individuals must be 21 years or older;

B. Such individuals shall not have been convicted of a felony or any crime of moral turpitude as may be further defined in chapter 4.04 and must provide an identity history summary check provided by the Federal Bureau of Investigation or similar background check document deemed sufficient by the director at the cost of the applicant; and

C. Such individuals shall not have had a license, issued or renewed under the provisions of this chapter or those ordinances or statutes of any other agency lawfully engaged in the licensing or regulation of marijuana sales, cultivation, infusion or laboratory services, that has been suspended or revoked for cause.

(Ord. No. 3562, § 1, 2-5-2019; Ord. No. 3432, § 1, 9-5-2017)

4.116.040 Unlawful to operate without medical marijuana establishment license.

It shall be unlawful for any person to operate, conduct or carry on any medical marijuana establishment as described in this chapter within the city without first obtaining and thereafter maintaining a medical marijuana establishment license as herein required and paying the fee(s) as set forth in chapter 4.05.

Notwithstanding this provision, marijuana is currently classified as a Schedule I drug under the Controlled Substances Act ("CSA") 21 U.S.C. Section 841(a)(1), and federal law makes it unlawful to manufacture, distribute, dispense or possess any controlled substance.

(Ord. No. 3562, § 1, 2-5-2019; Ord. No. 3432, § 1, 9-5-2017)

4.116.050 Medical marijuana establishment types.

All medical marijuana establishments may have vertically integrated ownership and may have multiple establishment types at one location. Medical marijuana establishments shall be determined to be one of six classes or an independent testing laboratory:

Class I—A cultivation facility and medical marijuana dispensary at the same location. A Class I medical marijuana establishment must cultivate at a minimum 70 percent of marijuana products sold at the onsite dispensary.

Class II—A cultivation facility, medical marijuana dispensary and facility for production of edible marijuana products or marijuana-infused products at the same location. A Class II medical marijuana establishment must cultivate at a minimum 70 percent of marijuana products, including edible marijuana products or marijuana-infused products, sold at the onsite dispensary.

4.118.020 Purpose and intent.

A. In November 2016, the voters of the state passed an initiative amending Article 4 of the Nevada Constitution to allow for the regulation of retail sales of marijuana in a manner similar to alcohol. In 2017, the Nevada State Legislature passed, and the governor signed

into law, Senate Bills 487, 344 and Assembly Bill 422, which further defined and clarified local government's role in the regulation of retail sales of marijuana, cultivation of marijuana, manufacturing of marijuana products and marijuana distributors in the state.

B. While the council recognizes that the retail sale of marijuana has been approved by the voters of this state; there are many negative secondary effects that have been reported in communities that authorize the retail sale of marijuana, such as an increase in violent crimes, theft, traffic, noise, drug and gang activity, and firearms violations. Therefore, the public health, safety, and welfare of the inhabitants of the city require the regulation of all businesses engaged in the business of marijuana sales, cultivation, infusion or testing.

C. Federal law makes it unlawful to cultivate, possess, distribute, or dispense marijuana. However, on August 29, 2013, the United States Department of Justice ("DOJ") issued a memorandum advising that the DOJ would allow enforcement of state laws that authorize marijuana production, distribution, and possession to be handled primarily by state and local law enforcement regulatory bodies as long as the state and local governments enact laws that implement "strong and effective regulatory enforcement systems" to address the federal government's identified enforcement priorities. The following enforcement priorities were specified by the DOJ as being particularly important to the federal government:

1. Preventing the distribution of marijuana to minors;

2. Preventing revenue from the sale of marijuana from going to criminal enterprises, gangs, and cartels;

3. Preventing the diversion of marijuana from states where it is legal under state law in some form to other states;

4. Preventing state-authorized marijuana activity from being used as a cover or pretext for the trafficking of other illegal drugs or other illegal activity;

5. Preventing violence and the use of firearms in the cultivation and distribution of marijuana;

6. Preventing drugged driving and the exacerbation of other adverse public health consequences associated with marijuana use;

7. Preventing the growing of marijuana on public lands and the attendant public safety and environmental dangers posed by marijuana production on public lands; and

8. Preventing marijuana possession or use on federal property.

D. Accordingly, in addition to protecting the public health, safety, morals, good order and general welfare of the inhabitants of the city and to safeguard the public, this chapter is intended to adequately address these enforcement priorities.
(Ord. No. 3563, § 1, 2-5-2019; Ord. No. 3433, § 1, 9-5-2017)

D. A marijuana establishment license will not be issued to an applicant that has not had the appropriate individuals, set forth in this chapter, undergo a background investigation and finding of suitability pursuant to sections 4.03.020 and 4.118.035. In his

or her discretion, the director may accept an equivalent background investigation conducted by the Nevada Department of Taxation or another government entity or agency.

Any applicant or employee who requires an accommodation in order to perform the essential functions of the job they hold or desire to hold should contact human resources and request such an accommodation in accordance with the city's policies and procedures. Once an accommodation has been requested, the city will investigate these barriers or limitations and then identify what possible accommodations, if any, will help to eliminate the barrier(s) or limitation(s). If the requested accommodation is reasonable and will not impose an undue hardship or a direct threat, the city will make the accommodation in accordance with applicable law. The city may propose an alternative to the requested accommodation or substitute one reasonable accommodation for another, but the city retains the ultimate discretion to choose between reasonable accommodations.

The accommodation process is interactive, and it may take multiple conversations between the city and the requesting individual before an accommodation is reached. Employees are expected to fully cooperate in the accommodation process, including making every effort to provide management with current medical information. Employees who do not meaningfully cooperate in the accommodation process waive the right to accommodation. For additional information, please refer to the City of Henderson's policies and procedures that relate to accommodation requests.

The request may be based on the disclosures of a civil service board member, if any, or other facts relating to the particular civil service board member. If the employee or the city is relying on evidence from a third party, the evidence shall be presented in an affidavit.

6.04.030 Application materials review and assessment process.
6.04.040 Eligibility lists.
6.04.050 Selection, offers, and appointment of employment.

6.04.010 Job postings.

A. Vacancies may be filled from an existing eligibility list. If there is no eligibility list or the list is expired, the vacancy may be posted to create an eligibility list.

B. The director of human resources (or designee) may elect to post internally/departmentally, city-wide, or as permitted in subsection 6.04.070(B) or externally, based upon the business needs of the city. The vacancy shall be posted for a minimum of seven calendar days or limited by a predetermined number of applications. Application materials must be completed in their entirety and submitted by the posted closing date and time.

D. Probationary employees shall be eligible to apply for vacancies for which they are qualified. However, a new probationary period will apply if selected to fill the vacancy.

E. The director of human resources (or designee) may choose to consider applicants who have applied to job postings for classifications within the same job series or job family (as determined by human resources), or for classifications in which the qualifications are sufficiently similar to conclude that the applicant on the eligibility list are likely to be competent for the vacancy in question. These classifications must be within the same or lower pay level as the posted position. The candidate must meet the minimum qualifications of that classification and may be required to pass any applicable assessments. Eligibility for consideration extends up to one year from the date of application or the date the eligibility list expires (whichever is later).

F. Upon approval, a temporary and part-time employee who has worked at least 988 continuous hours (with no separation of employment) in that classification, meets the minimum qualifications of the position, and was hired through a competitive process into that temporary or part-time classification may have their position converted to a full-time position or may be placed into a vacant full-time position in the same classification, without the requirement to post the position. These transactions require approval from the director of human resources (or designee). If the change affects the staff complement (i.e., position conversions), additional approvals may be required.

1. The candidate does not have a legal right to work in the United States;
2. The application materials are incomplete;
3. The application materials are not submitted by the job posting deadline;
4. The application materials do not demonstrate that the candidate meets minimum qualifications;

6. The candidate previously applied and was denied the position because they failed the background review process (the city shall consider the circumstances pertaining to the background failure, the time that has passed, and city policy before making a hiring decision).

(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

A. Application materials will be reviewed for completeness, timeliness, and to determine if the candidate meets the minimum qualifications for the classification for which they applied.

B. Assessment processes will be conducted and administered at the discretion of the city. The city reserves the right to modify the selection and assessment process in accordance with accepted legal, ethical and professional standards.

C. The purpose of the assessment process is to evaluate candidates in order to identify those who are best qualified to continue in the recruitment process. Candidates will be evaluated on the information supplied in their application materials and may be given any combination of written, oral, physical agility or performance skills assessments in accordance with applicable federal and state laws and standards. Only the best-qualified candidates will be invited to move forward.

D. The human resources department shall have full responsibility for the design, development, and administration of the assessment process to include contracting with a third party as required by statute or normal course of business.

E. Candidates with disabilities who require accommodation in the assessment process shall contact the human resources department to request assistance prior to the closing date of the recruitment. Requests may be submitted in writing, by phone, or through another accessible method.

B. Candidates who pass either process shall be placed on an eligibility list, which may be ranked or unranked. Candidates who have successfully completed a scored assessment process shall be ranked in descending order based upon their overall performance. A hiring authority may elect to interview any candidate on the eligibility list(s).

C. Eligibility lists shall be certified by the director of human resources (or designee). The director of human resources (or designee) may abolish an eligibility list for legitimate business purposes, such as but not limited to: an insufficient number of qualified candidates, and/or the job description, salary, and/or assessment for the position has significantly changed since the position was posted.

D. The city may elect to consider candidates from an eligibility list for a period of 12 months from the date they were placed on the list.

E. Eligibility lists may be extended upon approval of the director of human resources (or designee).

F. Any person may be removed from an eligibility list for reasons listed below, or under extenuating circumstances as determined by the director of human resources:

1. At the candidate's request;

2. Separation from the city;

3. Failure to respond to inquiries or notices from the city;

4. Failing the background review process;

5. If an offer has been rescinded;

7. If the city is aware of any factual information that indicates a person is unable or incapable of performing the functions of the job for which the person is applying (e.g., not attaining a certification as required by the minimum qualifications for the position).

(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

6.04.050 Selection, offers, and appointment of employment.

A. Employment with the city is at the sole discretion of the city.

B. Employment offers, whether to an internal or external candidate, shall be contingent upon the successful and timely completion of a background review process, which, depending on the position may include, but is not limited to, completion of employer forms

and documents, a criminal background check, DMV records review, education and experience verifications, reference checks, credit check, drug screening, and physical and/or psychological examination.

C. Candidates who fail to respond to the city's offer of employment within three business days shall be deemed to have declined the offer of employment; at which time it may be rescinded.

D. Any person whose job offer has been rescinded by the city per this section shall be removed from an eligibility list, unless the candidate presents an explanation to the director of human resources (or designee) deemed to be satisfactory.

E. Any person who declines a formal offer of employment per this section may request to remain on the eligibility list.

F. A conditional offer may be rescinded if a candidate fails to fully cooperate with or fails any part of the background review process.

G. If an individual who was previously employed with the city has an interest in being rehired to a previously held position, similar position of equal or lower pay, or lower-level position within the same job series, they may submit a request in writing to the director of human resources (or designee) within one year of their date of separation from the city. Rehires may be considered if there is a current vacancy, and if approved by the department director and the director of human resources. Rehired employees must meet the minimum qualifications of the position and may be required to take assessments. Rehires may be required to submit to background screenings prior to reemployment and a probationary/qualifying period may be required and/or adjusted based on prior time in service.
(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

Editor's note—Ord. No. 4142, § 1, adopted January 6, 2026, changed the title of section 6.04.050 from "Selection and appointment of employment" to "Selection, offers, and appointment of employment." The historical notation has been preserved for reference purposes.

6.04.060 External candidates subject to a probationary period.

A. Upon initial hire or rehire, an employee will be subject to a six-month probationary period. Probationary periods may be extended up to a period of six additional months upon the recommendation of a department director and approval of the director of human resources (or designee). If an employee is on any type of leave during their probationary period (exceeding four workdays) or is temporarily assigned to a light-duty position (exceeding four workdays, whether consecutive or inconsecutive), the city may also extend the probationary period.

B. During the probationary period, a department director may recommend termination. The director of human resources (or designee) shall have the authority to approve or deny all recommended terminations. An employee who is terminated during the probationary period does not have appeal rights under these civil service rules.

C. If an employee is transferred to or selected for a different city position while serving a probationary period, then the employee must start a new probationary period (the full six months, subject to extension) for the new position. The employee's original date of hire will remain their city seniority date.
(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

6.04.070 Internal classification changes, promotions and the qualifying period.

A. Insofar as practicable and consistent with the best interest of the city, vacancies in a classified position may be filled by internal candidates from within the city.

B. The city manager, in conjunction with the director of human resources, may authorize alternative internal recruitment and/or selection processes (e.g., assigning or appointing employees to a classified position, for which they are qualified) to facilitate modifications to the organizational structure, to enhance operational efficiencies, or to address any other legitimate operational concerns.

C. With approval from the director of human resources (or designee), the city may elect to establish and utilize a transfer list to fill vacancies.

1. Full-time non-probationary employees who are interested in transferring to the same classification in a different department who meet the requirements of the new position may elect to place themselves on the transfer list.
2. Employees who are no longer eligible for transfer will be removed from the eligibility list.

D. Employees who meet the minimum qualifications and want to compete in the recruitment process must submit completed application materials within the established timeframe.

E. The application materials review and/or assessment process set forth in section 6.04.030 shall be used to determine which employees are eligible for selection, unless the vacancy is filled as a result of an alternative internal selection process as permitted by subsection 6.04.010(E), 6.04.010(F), or 6.04.070(B).

F. Upon promotion, voluntary or involuntary demotion or transfer, employees will serve a six-month qualifying period. The qualifying period may be extended for up to six additional months upon the recommendation of the department director and approval of the director

of human resources (or designee). If an employee is on any type of leave during their qualifying period (exceeding four workdays, whether consecutive or inconsecutive) or is temporarily assigned to a light-duty position (exceeding four workdays, whether consecutive or inconsecutive), the city may extend the qualifying period.

G. An employee who has been promoted, voluntarily or involuntarily demoted, or laterally transferred shall be subject to the applicable performance standards of the new position. Failure to meet performance standards during the qualifying period may result in disciplinary action, up to and including suspension, a return to their former classification (if such a position is available), a demotion or transfer, or termination.

H. An employee who is suspended or terminated for failure to meet performance standards during the qualifying period shall have the appeal rights afforded by these Rules and set forth in chapter 6.08. However, an employee who is offered the opportunity to return to their former classification or a similar classification (i.e., demoted), as a result of being issued disciplinary action for failure to meet the performance standards during a qualifying period, does not have any appeal rights under these rules.

I. An employee who transfers from a classified position to an unclassified position or to a position covered under a collective bargaining agreement does not retain any rights or privileges under the civil service rules.

(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

Editor's note—Ord. No. 4018, § 1, adopted April 2, 2024, changed the title of section 6.04.070 from "Internal transfers, promotions and the qualifying period" to "Internal classification changes, promotions and the qualifying period." The historical notation has been preserved for reference purposes.

6.04.080 Recruitment concerns/complaints regarding violations of this chapter.

A. If a candidate covered under the civil service rules believes that the city violated chapter 6.04 of these rules, they may report such violations to the director of human resources, in writing, within seven calendar days from the date the candidate is notified of the hiring decision. The candidate's complaint must specifically identify the civil service rule allegedly violated and explain the reason why the candidate believes the rule was violated. Upon timely receipt of the complaint to the director of human resources, the director of human resources (or designee) will investigate the complaint. A decision by the director of human resources (or designee) shall be made within 14 calendar days of receipt of the complaint. If the investigation requires additional time, the candidate must be notified within 14 calendar days of receipt of the complaint that the complaint has been received but that the investigation will require additional time to conduct.

B. If a candidate is submitting a complaint regarding the selection for a position within the human resources department, the complaint may be submitted directly to the city manager (or designee). The procedures for submitting a complaint to the city manager (or designee) are the same as for submitting a complaint directly to the director of human resources.

C. The decision of the director of human resources (or designee) or the city manager (or designee) shall be final.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

Chapter 6.05 EMPLOYMENT ACTIONS

Sections:

6.05.010 Job abandonment.
6.05.020 Resignation or retirement.
6.05.030 Reduction-in-force procedures.
6.05.040 Displacement rights.
6.05.050 Lay-offs.
6.05.060 Reinstatement list.

6.05.010 Job abandonment.

A. An employee shall have abandoned their job if the employee fails to directly notify their supervisor of an absence from work for three consecutive workdays. Job abandonment shall also occur when an employee fails to return to work for three consecutive workdays after the employee's approved leave has expired without directly notifying their supervisor of the continuing absences and without satisfactory explanation.

B. Before the city makes a determination that the employee has abandoned their job, the city shall attempt to contact the employee on two separate days using either the employee's last known home telephone number, cell phone number or email address provided to the city by the employee. If the attempts to reach the employee are unsuccessful, the city can conclude that the employee has abandoned their job, and the employee shall be immediately terminated.

C. Employees who are terminated for job abandonment do not have appeal rights under these rules.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

6.05.020 Resignation or retirement.

A. An employee's notice of resignation or retirement shall be in writing and shall be submitted to their supervisor and/or department director. The notice shall indicate the effective date of resignation or retirement. The notice should be submitted at least two weeks prior to the effective date of the resignation or retirement.

B. The notice of resignation or retirement shall be deemed accepted by the city upon receipt by the employee's supervisor and/or department director. The supervisor and/or department director will forward an employee's notice of resignation or retirement to the human resources department. Once a notice is received by the employee's supervisor and/or department director, the notice may not be withdrawn without the written approval of the director of human resources or designee.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

6.05.030 Reduction-in-force procedures.

A. A department director may make recommendations to the city manager regarding a reduction-in-force if the department director believes layoffs are necessary by reason of shortage of work or funds, the elimination of a position, organizational changes, or for any other legitimate business or operational purposes.

B. The city manager must approve all reductions-in-force.

C. The city council must approve a reduction-in-force involving layoffs of five or more non-vacant positions.

D. After a reduction-in-force has been approved by the city manager, the city manager (or designee) must inform the director of human resources as to the number of employees to be laid-off within each of the affected departments and classifications, and identify the reason (e.g., shortage of work, lack of funds, position elimination, organizational changes or any other legitimate business reason) for the lay-offs. Once this information is provided to the director of human resources, the human resources department shall administer the reduction-in-force according to city seniority within the following limitations:

1. All probationary employees in the affected classification(s) shall be laid-off before employees covered under the civil service rules may be impacted by the reduction-in-force. Probationary employees shall not have displacement rights under these civil service rules.
2. Once all probationary employees have been laid-off in the impacted classification(s) and department(s), then employees shall be selected for inclusion in the reduction-in-force in the inverse order of their city seniority within the affected classification(s) and department(s), with the last employee hired being the first selected for the reduction-in-force. An employee loses their city seniority status for the purposes of a reduction-in-force if they have received active discipline (as defined in HMC 6.07.050) in the form of a demotion, suspension, performance improvement plan and/or return-to-work/last chance agreement.
3. Employees, other than employees serving their probationary period, selected for inclusion in the reduction-in-force shall have displacement rights.

(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

6.05.040 Displacement rights.

A non-probationary employee selected for inclusion in a reduction-in-force is considered a displaced employee and shall have displacement rights. The displacement procedure shall be administered as follows:

A. A displaced employee may displace an employee with the least city seniority within the same classification. Under no circumstances is a displaced employee entitled to displace an employee with greater city seniority than the displaced employee.

B. If the displaced employee's classification does not exist outside of their department, or if the displaced employee does not have more seniority than a person in that classification in a different department, then the displaced employee may displace the least senior employee holding the same previously held classification that the displaced employee held within the prior ten years, as long as the displaced employee is still qualified to perform the previously held classification and the position is covered under the Civil Service Rules. If the displaced employee has held multiple previously held classifications during the prior ten years, they will displace the employee with the least city seniority status (as long as the displaced employee is still qualified to perform the previously held classification), in order of the most recently held job covered under the Civil Service Rules.

C. A non-probationary employee holding a classified position who is displaced pursuant to this procedure, has the same displacement rights as a displaced employee.

(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

6.05.050 Lay-offs.

A. If a displaced employee does not have a previously held classification with the city, or has the least city seniority in the previously held classification, or is no longer qualified or eligible to hold the previously held classification, or the classification no longer exists, the displaced employee shall be laid-off and placed on a reinstatement list.

B. The director of human resources (or designee) will advise the affected employees, within at least 30 calendar days (or the appropriate period of time required by law) of the employees' effective lay-off date. If the city is unable to provide timely notice, then the city shall pay the affected employees one month's wages (two pay periods) based upon the employee's base rate of pay for their regular work schedule earned in the prior two pay periods.

(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

6.05.060 Reinstatement list.

A laid-off employee shall be placed on a reinstatement list for the classification they held at the time of lay-off. The laid-off employee shall remain on a reinstatement list for the applicable classification for a period of 24 months or a period equal to the laid-off employee's length of employment, whichever is less.

A. Laid-off employees on a reinstatement list will be ranked in order by their city seniority date for the classification they held at the time of being laid-off. Vacancies will then be offered to individuals on the reinstatement list for a particular classifi-

cation in descending order of city seniority. A person must still be qualified to perform the essential functions of the job with or without an accommodation to be eligible for the position.

B. A reinstatement list will have precedence over all other eligibility lists.

C. An employee who is placed in a previously held classification as a result of being selected from the reinstatement list must meet the minimum qualifications as listed on the job description and successfully complete the background review process prior to beginning the previously held classification. Once the employee starts working with the city again, they may be required to serve a qualifying period of six months.

D. Laid-off employees on a reinstatement list will be considered eligible for internal recruitments, for classified positions for which they are qualified, for a period of 24 months or a period equal to the employee's length of employment, whichever is less. Employees selected for a classified position as a result of the internal recruitment process, must successfully complete the background review process prior to beginning the new classified position. Once the employee starts working with the city again, they must serve a qualifying period of six months.

E. Laid-off employees placed on a reinstatement list waive their reinstatement privileges if they fail to respond to a re-employment offer within 15 calendar days after the notice is mailed to the last known address. It is the laid-off employee's responsibility to update the city, in writing, of any changes to their contact information.

F. Once a laid-off employee is removed from the reinstatement list, the laid-off employee no longer has rights under the civil service rules.

(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

A. Employees are required to adhere to the rules and procedures set forth in the civil service rules, as well as to applicable regulations or policies set forth in the City Charter, administrative policies and procedures, ethics rules, employee agreements, department rules and any other official city rules.

B. Employee responsibilities include, but are not limited to, the following:

11. Participating and cooperating in investigations conducted by the city.

C. In addition to the above, employees in supervisory positions are responsible for:

1. Providing instruction and guidance to employees in the performance of job functions;

2. Monitoring employee performance and timely completing performance evaluations;

3. Maintaining an open-door policy with employees, which includes being accessible to their employees' concerns and questions;

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

6.06.020 Performance evaluations.

A. Performance evaluations are meant to be beneficial to both the employer and the employee. In addition to regular work related discussions and/or informal coaching and feedback, supervisors shall conduct formal performance evaluations for each employee under their supervision. All formal performance evaluations shall be completed in a timely manner, and in a manner approved by the director of human resources (or designee). The purpose of the performance evaluation is to review the employee's work performance, achievements, challenges, development goals, and/or define and set clear performance expectations where support is needed. Additionally, the performance evaluation will explain how the employee's job duties aligns with strategic and operational goals and initiatives for both the department and the organization. The performance evaluation also provides an opportunity for the employee to communicate any support they need from their supervisor and ask specific questions to help clarify their role or work.

1. Supervisors should ensure newly hired employees understand the duties and performance expectations for the position and provide regular feedback during a new hire's probationary period or qualifying period. For employees who are not on a probationary period or qualifying period, supervisors shall conduct performance evaluations on an annual basis.

2. Performance evaluations should recognize all aspects of an individual's job performance, including exceptional, acceptable and substandard performance. Supervisors should provide regular coaching and feedback to employees throughout the year and refer to such discussions in the formal performance evaluation.

3. Employees subject to a performance improvement plan may require additional performance evaluations. Employees subject to a performance improvement plan will have clear actions and accountabilities detailed in the plan, which must be satisfied during the stated time period to avoid potential disciplinary action.

4. Annual pay adjustment increases, general increases, and lump sum performance bonuses are not tied to the employees' yearly performance evaluations. An employee is not eligible for an annual pay adjustment increase, general increase or lump-sum performance bonus if they have received active discipline (as defined in subsection 6.07.050) in the form of a demotion, suspension, performance improvement plan and/or return-to-work/last chance agreement.

(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

6.06.030 Recognition of exceptional performance.

A. If an employee is performing above and beyond their supervisor's expectations, the department director (or designee) may recognize such performance in writing.

B. Documentation of an employee's exceptional performance shall be kept in the employee's personnel file.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

6.06.040 Coaching and feedback.

Supervisors are encouraged to provide employees regular coaching and feedback to assist employees in successfully performing their jobs. Coaching and feedback should be provided both with respect to positive and negative aspects of an employee's performance and/or conduct. The act of providing coaching and feedback to employees is not considered disciplinary action. Notes and/or other documentation relevant to any coaching and counseling may be recorded in a manner (or method) approved by the director of human resources (or designee), and are subject to standard retention/destruction schedules. If employees fail to act on their supervisors' coaching and feedback, the supervisor may take disciplinary action as set forth in chapter 6.07. This section shall not be construed to require coaching and feedback prior to disciplinary action being taken.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

Chapter 6.07 DISCIPLINARY ACTIONS

Q. Discriminatory conduct, sexual harassment or harassment based on race, color, religion, national origin, gender, age, sexual orientation, covered veteran status, pregnancy, gender identity or expression, marital status, mental or physical disability, genetic information or any other basis made unlawful by any applicable law, ordinance or regulation (disciplinary action based on this provision may not be appealed to the civil service board);

S. Provoking or instigating a physical fight or fighting at any time while on duty or at any city facility or worksite;

(Ord. No. 4142, § 1, 1-6-2026; Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

6.07.020 Suspension pending investigation.

A. In conjunction with human resources, the department head (or their designee) may suspend an employee and/or place the employee on leave, with or without pay, pending an investigation of an alleged conduct violation. Suspensions pending investigations are appropriate where the presence of the employee is reasonably likely to:

1. Be injurious to the employee, a fellow employee or the general public;

2. Result in damage to property;

3. Substantially impair management's ability to maintain decorum and discipline; and/or

4. Hinder the investigatory process.

B. If an employee has been suspended and/or placed on leave pending investigation, they may not return to work or any city facility until they have received permission from their department director (or designee). The employee may not perform any work for the city.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

6.07.030 Types of disciplinary actions.

A. Disciplinary actions. Employees may be subject to the following disciplinary actions if they violate these rules or any other city or departmental policy and procedure:

1. Documented verbal warning;

2. Written reprimand;

3. Suspension and/or a demotion (if appropriate and available), and/or subjected to a performance improvement plan (discussed in subsection 6.07.030(B) or a return-to-work/last chance agreement (discussed in subsection 6.07.030(C); and/or

4. Termination.

The foregoing enumeration of the types of discipline shall not be meant to set forth any necessary sequence of progressive discipline. The type of discipline issued depends upon the facts and circumstances of the incident. All suspensions, demotions, return-to-work/last chance agreements, performance improvement plans and terminations must be approved by the department director (or designee), and the director of human resources (or designee). Transferring positions or accepting a voluntary demotion will not prevent the employee from being disciplined for conduct that occurred prior to the transfer or voluntary demotion.

B. Performance improvement plans. A Performance Improvement Plan ("PIP") will typically be used after the employee fails to improve their performance or after a failure to correct their behavior after receipt of documented verbal warning or written reprimand. A PIP is not considered to be a disciplinary action; however it may be utilized before or after disciplinary action has been taken. A performance improvement plan is not appropriate in all cases. A performance improvement plan may be appropriate if a supervisor believes that an employee's performance will significantly improve such that the employee will be able to successfully satisfy their job responsibilities at the conclusion of a performance improvement plan. It is the employee's responsibility to fully understand the provisions and requirements within the performance improvement plan. While it is anticipated that the employee will be successful in changing and correcting their substandard job performance, failure to remedy these deficiencies will lead to further disciplinary action, up to and including termination.

A performance improvement plan shall include the following provisions:

1. Description of unacceptable performance. The supervisor should identify the job functions and/or behaviors that the employee is failing to satisfactorily perform and provide specific examples of the deficiencies.

2. Timeframe. The plan should identify the specific period of time the employee is being given an opportunity to improve and demonstrate satisfactory performance. Performance improvement plans should last for a minimum period of three months. For extenuating circumstances, a supervisor may extend the timeframe of the plan.

3. Description of acceptable level of performance. Identify the improvements that are required of the employee and provide suggestions as to how the employee can improve their performance.

4. Consequences for failing to satisfy the terms and conditions. Clearly indicate that if the employee fails to improve their performance as outlined in the performance improvement plan, then the employee may be subject to termination.
5. Signatures and date. Both the employee and supervisor should acknowledge the performance improvement plan.
6. Follow-up. The supervisor should regularly (at least once a week) follow-up with the employee regarding their progress in carrying out the tasks identified in the performance improvement plan. The performance improvement plan may be updated or amended based on the follow-up meetings between the supervisor and the employee.

C. Return-to-work/last chance agreements. If an employee comes forward to their supervisor and/or human resources business partner and discloses that they are struggling with addiction issues and rehabilitation is appropriate, the city, on a case-by-case basis and in its sole discretion, may require the employee to agree to the terms of a return-to-work/last chance agreement. The return-to-work/last chance agreement shall include a date certain for its start and completion dates. Failure to comply with the terms of a return-to-work/last chance agreement shall result in termination without any right of appeal under the civil service rules.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

6.07.040 Pre-disciplinary procedures (suspensions without pay, demotions, and terminations).

A. Investigation. A human resources business partner, or a supervisor in conjunction with the human resources business partner, may investigate employee misconduct if the circumstances necessitate an investigation. At the conclusion of the investigation, the supervisor will determine whether disciplinary action is warranted. If disciplinary action is warranted in the form of an unpaid suspension, demotion or termination, then notice of disciplinary action must be provided to the employee before any final disciplinary action is issued.

B. Notice of disciplinary action. Before an employee may be suspended (without pay), demoted, or terminated, the employee's supervisor shall provide the employee with notice of the disciplinary action. Human resources in conjunction with the supervisor shall prepare a notice of the disciplinary action, which shall include the basis for the recommended suspension (without pay), demotion, or termination.

C. Employee response. The employee shall have two business days from the date of receipt the notice of disciplinary action to provide a written response to the human resources business partner (or designee). In emergency circumstances, this time period

may be extended at the sole discretion of the director of human resources (or designee). If the employee fails to timely provide their response, the city will presume that the employee has accepted the disciplinary action and the director of human resources (or designee) shall approve the recommended disciplinary action, unless such recommendation is clearly erroneous.

D. Final approval. If an employee response is provided, the human resources business partner (or designee) shall prepare a package for the department director and director of human resources to review. The package shall include a copy of the notice of disciplinary action, any relevant supporting documentation provided to the employee, and the employee's response. The department director, in conjunction with the director of human resources, within four business days, shall determine whether (1) disciplinary action is warranted, and the recommended discipline should be issued by the supervisor, (2) further investigation is required, or (3) different disciplinary action is warranted, in which case the department director may recommend another action. If further investigation is required, then the employee may be placed on suspension pending investigation (with or without pay). Notice of the final disciplinary decision shall be provided to the employee via electronic communication, certified mail or hand delivery. If further investigation is required or additional time is needed, human resources will provide the employee with a status update within the initial four business day timeline.

E. Exceptions to providing notice of disciplinary action. Notice of disciplinary action is not required for documented verbal warnings or written disciplinary actions. Notice of disciplinary action is also not required where the employee's conduct raises a serious safety concern to the public and/or co-workers or if the employee abandons their job. Where there are safety concerns or where an employee abandons their job, an employee may be immediately terminated by the director of human resources (or designee) without an opportunity to provide a response.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

6.07.050 Active discipline.

A. Disciplinary action is considered active discipline if the disciplinary action was issued in the previous 12 months. The date the disciplinary action was presented to the employee is the relevant date for which the 12-month period begins. For the purposes of performance improvement plans and return-to-work agreements, the 12-month period begins on the date that the performance improvement plan or the return-to-work agreement becomes effective (the start date). If 12 months or more have elapsed since the disciplinary action was issued or since the performance improvement plan or the return-to-work agreement began, the disciplinary action/performance improvement plan/return-to-work agreement is considered expired and may not thereafter be used as a basis for or in support of any

subsequent disciplinary action, unless the terms of the employee's return-to-work agreement or performance improvement plan state otherwise. Active discipline will remain active for the relevant 12-month period even if an employee is demoted or transferred to another classified position during that time.

B. If an employee is suspended (without pay), involuntarily demoted or terminated for disciplinary reasons, then the employee has a right to appeal as set forth in chapter 6.08, unless the employee is suspended, involuntarily demoted or terminated for disciplinary reasons related to discriminatory or harassing behavior, or terminated for failing to comply with the terms of a return-to-work/last chance agreement.

C. Disciplinary actions are placed in the employees' personnel files. Within five business days of receiving disciplinary action, an employee may request to include in their personnel file a written statement of reasonable length in response to any disciplinary action.

D. Once a disciplinary action has expired (i.e., is no longer active discipline), an employee may request the human resources department to visibly mark the disciplinary action in the personnel file as "inactive." Whether or not the employee requests this, the disciplinary action will be considered expired if 12 months have passed (unless the terms of a performance improvement plan or return-to-work/last chance agreement state otherwise). However, the disciplinary action shall remain in the employee's personnel file.

E. If the civil service board reverses a disciplinary action (suspension without pay, demotion or termination) on appeal, then the disciplinary action will be removed and/or revised in accordance with the civil service board's decision.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

Chapter 6.08 APPEALS TO THE CIVIL SERVICE BOARD

Sections:

6.08.010 Appeal rights to the civil service board.
6.08.020 Hearing—Prerequisites.
6.08.030 Procedures for hearing appeals.
6.08.040 Civil service board's final decision making authority.

6.08.010 Appeal rights to the civil service board.

A. The civil service board has the authority to hear employee appeals on the following issues, which shall be considered receivable appeals:

1. Discipline that consists of suspension (without pay), involuntary demotion or termination, with the following exceptions:

a. The civil service board will not hear appeals if an employee is appealing the city's decision to either suspend, involuntarily demote or terminate them as a result of finding that the employee engaged in discriminatory or harassing behavior in violation of the city's anti-discrimination and/or workplace harassment policies.

b. The civil service board will not hear an appeal based on the city's decision to terminate an employee for job abandonment.

c. The civil service board will not hear an appeal based on the city's decision to terminate an employee as a result of the employee's failure to comply with a return-to-work/last chance agreement.

d. The civil service board will not hear appeals on claims that the city engaged in discriminatory or harassing conduct in violation of state or federal laws (including, but not limited to N.R.S. 613.330, Title VII of the Civil Rights Act of 1964, the Americans with Disability Act, the Age Discrimination in Employment Act and the Family Medical Leave Act). All complaints of unlawful discrimination and harassment should be made in accordance with the city's anti-discrimination and/or workplace harassment policies.

e. The civil service board will not hear appeals where an employee is offered the opportunity to return to their former classification or a similar classification (i.e., demoted), as a result of being issued disciplinary action for failure to meet the performance standards during a qualifying period.

2. If an employee was laid-off as a result of a reduction-in-force, the employee may appeal if the basis of the appeal is that the city did not follow the procedures for implementing reduction-in-force in accordance with section 6.05.030. However, the civil service board will not hear appeals regarding the basis for the city's decision to

undertake a reduction-in-force. The appeal is limited to allegations that the city incorrectly followed the process set forth in these rules for implementing a reduction-in-force.

B. The following provisions shall govern the conditions of an appeal:

1. No employee shall bring an appeal before the civil service board until an action complained of has become final. An action is considered to be final on the date of the effective lay-off, suspension (for disciplinary reasons and unpaid), involuntary demotion (for disciplinary reasons) or termination (for disciplinary reasons).

2. An employee must file a notice of appeal with the secretary of the civil service board (the director of human resources) within ten calendar days of the date the action became final. The notice of appeal must contain a statement specifying the action against which the appeal is made, the subsection or sections of the civil service rules under which the appeal is filed and a detailed statement justifying the appeal submission. Failure to submit a notice of appeal pursuant to this section will be grounds to deny the appeal.

3. Unless the employee and the City agree in writing to waive the initial hearing, the secretary of the civil service board must schedule an initial meeting with the civil service board members (at least three members must attend) to take place within 14 calendar days from receipt of an employee's appeal to determine whether the issue complained of is a receivable appeal under these rules. If an employee's character, alleged misconduct, professional competence, or physical or mental health will be considered at the initial meeting, then the initial meeting will be conducted in a closed meeting unless the appellant waives the closure of the meeting. The employee must attend the initial meeting, and may bring their council at their own expense.

4. If the issue complained of is not appealable under the civil service rules, then the secretary of the civil service board shall notify the appellant in writing via electronic communication or certified mail to the last known address of the appellant within seven calendar days of the initial meeting that their request for an appeal is denied because the rules do not allow for an appeal.

5. If the issue complained of is a receivable appeal under these civil service rules, then an appeal hearing shall be set within 40 calendar days of the initial meeting. The parties may mutually agree to extend the hearing date for good cause. Notice shall be sent by electronic communication or certified mail to the last known address of the appellant at least 21 calendar days prior to the scheduled date of the appeal hearing. A notice to the appellant must include the time, place, scope of the hearing, a list of the administrative policy provisions or other rules that the appellant allegedly

violated and the possible disciplinary or other adverse administrative actions that may be taken at the meeting. The hearing may be continued on a showing of good cause by either the appellant or the city.

(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3412, § 1, 5-16-2017; Ord. No. 3267, § 2, 5-19-2015)

6.08.020 Hearing—Prerequisites.

A. The city shall be represented by the city attorney (or designee). The appellant may choose to represent themselves or may be represented by counsel, at their own expense.

B. The city, in its discretion, may choose to hire independent counsel to act as the presiding officer at the appeal hearing or may permit a member of the civil service board to act as the presiding officer at the appeal hearing. Any retained independent counsel, however, will not be a voting member of the civil service board.

C. No later than ten calendar days prior to the appeal hearing, the parties shall exchange their list of witnesses (which shall include a brief summary of the witnesses' testimony) and an exhibit list (which shall list and attach copies of all documents and other tangible items that each party intends to use at the hearing).

The parties shall provide the witness list and exhibit list (with referenced documents and tangible items attached) to the secretary of the board no later than ten calendar days prior to the appeal hearing, who will then distribute the witness list and the exhibit list to the members of the civil service board. The parties' witness list and exhibit list may be sent by electronic communication or certified mail to the secretary of the civil service board. Absent good cause, a party's failure to timely disclose a witness or timely exchange a document or other tangible item may result in the civil service board prohibiting the testimony of a witness or the use of the document or tangible item at the hearing. The parties may submit objections on the record to the civil service board as to any evidence or witnesses on the day of the hearing, and the civil service board members may decide how much weight to give to the objected evidence/witness when taking action.

D. No later than eight calendar days prior to the appeal hearing, the parties shall exchange and submit written statements to the secretary of the civil service board if they desire to provide a written statement to the civil service board in advance of the meeting. The secretary of the board will distribute the materials to each member of the civil service board. The written statements should include a summary of the arguments that the party intends to present to the civil service board. 6.08.030 Procedures for hearing appeals.

A. An appeal hearing must be held before no fewer than three members of the civil service board.

B. The appellant must be present for the appeal hearing.

C. Any hearing before the civil service board shall be conducted in accordance with NRS 241, Open Meeting Law.

D. Appeal hearings that involve an employee's character, alleged misconduct, professional competence, or physical or mental health, shall be held as closed meetings unless an appellant waives the closure of the appeal hearing and requests that the meeting be open to the public. However, no action may be taken in a closed meeting. When the board is ready to take final action on the matter before it, the meeting must be in open session.

E. Appeal hearings shall be recorded on a recording instrument. The cost of transcribing such testimony from the recording instrument shall be paid by the appellant if the appellant requests a transcript. All recordings shall be kept for a minimum period of two years, unless there is a litigation hold in place that requires the recordings to be held for a longer period of time.

F. No material amendment of, or addition to, the appellant's request for an appeal will be considered by the civil service board.

G. The civil service board may hear evidence specific to the issue being appealed as described in the individual's request for an appeal. The technical rules of evidence shall not apply, except to the extent provided herein. The proceeding shall be as informal as is compatible with justice. The civil service board members may choose to disregard irrelevant, immaterial and unduly repetitious evidence.

H. The civil service board is responsible for determining the truth of the matter, and providing adequate safeguards for the rights of the parties. The civil service board shall be entitled to consider all relevant information, including hearsay evidence.

I. The city shall have the initial obligation to present substantial evidence in support of the action(s) being appealed. The appellant shall thereafter be responsible for supporting their challenge to the adverse recommendation or action by a preponderance of the evidence that the action lacks any substantial factual basis or that the adverse action is arbitrary, unreasonable, and/or capricious.

J. The parties shall have the opportunity to respond and present evidence and argument on the matters at issue. Each party may provide an opening statement, call and examine witnesses, introduce exhibits and cross-examine opposing witnesses, and provide a closing statement on any matter relevant to the issues presented. The civil service board may direct questions toward any of the parties and/or witnesses at any point during

the appeal hearing. The civil service board has the discretion to conclude the appeal hearing when it determines that it has heard sufficient testimony from each of the parties to make a decision on the appeal.

K. If the parties make evidentiary objections (whether written or oral), then the presiding officer of the civil service board may decide whether to accept or decline the objection. (Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

6.08.040 Civil service board's final decision making authority.

A. After the civil service board has heard from both parties, the civil service board may discuss the case further in closed session, but once they are ready to take action the meeting cannot be in closed session. The parties to the appeal cannot be forced to be dismissed from the closed session while the civil service board is deliberating.

B. In making a final decision, the civil service board may, by majority vote, make a finding:

1. That the city's action(s) were without justification or in violation of the rules:

a. For civil service rule violations related to a reduction-in-force, the civil service board may require the city to comply with the rules, which may result in restoring the appellant back to their original position, or if the position is no longer available, to another available vacant position for which they are qualified (i.e., reverse the decision to lay-off an employee).

b. For disciplinary actions, the civil service board may reverse the city's disciplinary action and take the position that no disciplinary action was warranted, which may result in restoring the appellant back to their original position (i.e., reverse the decision to suspend, demote or terminate an employee).

c. The civil service board does not have the authority to determine whether an employee is owed any form of compensation, such as but not limited to, back-pay and/or fringe benefits.

2. That the city's action(s) were justified and complied with the Rules and should be confirmed; or

3. That both parties' arguments have merit. The city was justified in issuing disciplinary action, but the employee's conduct did not warrant the type of disciplinary action issued.

a. Each party shall receive an opportunity to present alternative forms of appropriate disciplinary action that should be issued and the civil service board shall make the final decision about the type of disciplinary action that should be issued.

b. The civil service board does not have the authority to determine whether an employee is owed any form of compensation, such as but not limited to, back-pay and/or fringe benefits.

C. The decision of the civil service board shall be final and the decision shall be binding on the city and the appellant.

D. Inadvertent deviations which may occur in the foregoing appeal hearing and final decision procedures shall not invalidate the decision of the civil service board.
(Ord. No. 4018, § 1, 4-2-2024; Ord. No. 3267, § 2, 5-19-2015)

Chapter 6.09 GLOSSARY

Sections:

6.09.010 Glossary.

6.09.010 Glossary.

Active discipline. An employee is considered to have active discipline if disciplinary action (documented verbal warning, written reprimand, suspension, involuntary demotion, return-to-work/last chance agreement, and/or performance improvement plan) has been issued to that employee within the past 12 months. The date the disciplinary action was presented is the relevant date for which the 12-month period begins. For the purposes of performance improvement plans and return-to-work/last chance agreements, the 12-month period begins on the date that the performance improvement plan or the return-to-work/last chance agreement becomes effective (the start date). If 12 months or more have elapsed since the last disciplinary action was issued or since the performance improvement plan or the return-to-work/last chance agreement began, the disciplinary action/performance improvement plan/return-to-work/last chance agreement is considered expired and may not thereafter be used as a basis for or in support of any subsequent disciplinary action, unless the terms of the employee's return-to-work/last chance agreement or performance improvement plan state otherwise. Active discipline will remain active even if an employee is demoted or transferred to another position.

Appeal hearing means a hearing before the civil service board in which evidence is presented by both parties in order to allow for the civil service board to make a final decision on the issue(s) before it pursuant to Rule 6.08.

Application materials mean the documentation the city requires an applicant to submit to apply for a position including, but not limited to, an employment application, supplemental questionnaire, resume, cover letter, evidence of certifications/licenses, and/or other required documentation as stated on the job posting.

Assessment process means the process for measuring a candidate's knowledge and ability to perform the skills required for a particular job when applying for classified positions.

Business day(s) means Monday through Thursday, excluding holidays, 7:30 a.m. to 5:30 p.m.

Calendar day(s) means every day of the week, including Fridays, Saturdays, Sundays, and legal holidays.

City seniority means an employee's length of continuous service in years, months and days from their most recent full-time/regular date of hire with the city.

Civil service board means a group of five duly appointed individuals responsible for fulfilling the duties outlined in the civil service rules.

Classification means any position which has been defined by a job description.

Classified positions means all positions now existing or hereafter created by the City of Henderson that are not represented by a union and/or not specifically exempted by the Henderson City Charter, which have been determined to be covered under the civil service rules.

Compensation plan means a compensation structure that sets forth the salary range for each classification.

Displaced employee means an employee who is included in a reduction-in-force. Such employee will be provided with displacement rights as set forth in the civil service rules.

Division head means a position responsible for managing multiple sections within a department, or is designated as a key member of a division or functional area that significantly impacts department and/or city operations.

Eligibility list means a list of candidates who have successfully completed the application materials review and/or the assessment process for a specific position. The list will have a defined commencement and expiration date, and will be utilized to select the candidate(s) who are the best fit for the available opening(s).

Initial meeting means the first meeting of the civil service board to occur after an employee has filed a notice of appeal. The sole purpose of the initial meeting is to determine whether the notice of appeal is a receivable appeal under the civil service Rule 6.08.01.

Probationary period (or probationary employee) means the time period a new full-time employee must serve during which time the employee will be evaluated for the purposes of determining if the employee's performance meets the expectations of the position. A probationary period is not less than six months from the full-time date of hire and may be extended by an additional six months at the city's discretion, and the probationary employee will begin a new six-month probationary period if they accept another full-time position in the city during their initial probationary period. A probationary employee may be terminated at the discretion of the city, and such termination may not be appealed to the civil service board as probationary employees are not yet members of the classified service.

Performance improvement plan. A performance improvement plan is meant to assist an employee with improving their performance; it is a written plan that identifies specific areas that need improvement in order to satisfactorily perform their job. An employee's failure to remedy their deficiencies will lead to further disciplinary action, up to and including termination.

Qualifying period means the time period for which an employee who has been promoted, voluntarily or involuntarily demoted or transferred must serve to allow the city to evaluate the employee's performance and determine if employee meets the expectations of the position. A qualifying period is not less than six months and may be extended by an additional six months at the city's discretion.

Reinstatement list means a list of previously employed persons who were laid-off as a result of a reduction-in-force.

Return-to-work/last chance agreement. If an employee is struggling with addiction issues and rehabilitation is appropriate, the city, on a case-by-case basis and in its sole discretion, may require the employee to agree to the terms of a return-to-work/last chance agreement. Failure to comply with the terms of a return-to-work/last chance agreement shall result in termination without any right of appeal under the civil service rules.

Unclassified positions mean positions that are excluded from the civil service rules by the City Charter or positions covered by a collective bargaining agreement between the city and a recognized bargaining unit.

Workdays mean the days which an employee is scheduled to work, and/or expected to be available to work.

2. Administrative fees. Expenses incurred by the city in investigating, inspecting and re-inspecting property that is the subject of a violation, as well as any other processing costs related to enforcement of this Code may be recovered through the issuance of administrative fees pursuant to the administrative fee schedule established by the city council and set forth in section 7.90.040. Administrative fees may be imposed in conjunction with abatement expenses or the issuance of administrative citations. In addition to any other lawful means of collection, administrative fees may be collected in the same manner and at the same time as administrative fines and any costs incurred by the city in performing abatements.

3. Administrative citations and fines. Administrative citations and fines may be imposed for violations of any of the provisions of this Code and may be issued following a failure to comply with a notice of violation and order to correct by the stated deadline.

a. Procedure for issuance of citation and fine.

(1) Administrative fines shall be assessed by means of an administrative citation issued by the animal protection official and shall be payable directly to the city.

(2) An administrative citation shall contain:

(f) A statement that the owner or responsible party may appeal the fine and request a hearing within ten calendar days of the date the administrative citation is served; and

(g) An address and telephone number of an animal protection official with whom contact regarding the violation can be made.

Each day that a violation continues shall constitute a separate violation. The amount of fines assessed for each administrative citation issued for the same violations shall be specified in the fee resolution adopted by the city council as set forth in section 7.90.040. Payment of the fine shall not excuse the failure to correct the violations nor shall it bar further enforcement action by the city.

c. Appeal of an administrative citation, fines, and permit revocation. Appeal of an administrative citation, fines, and fees shall be made in accordance with the procedures of section 7.90.020.

d. Failure to pay administrative fines and fees.

(1) If not appealed, administrative fines and fees are immediately due and payable. Failure to issue payment shall constitute a violation of this Code. The city may take any lawful collection action deemed necessary and appropriate to recover the administrative fine amounts owed, including but not limited to the city attorney filing a petition in a court of competent jurisdiction for the entry of a civil judgment against the property owner in an amount equal to the unpaid fine and/or fee amounts owed, or referral of the unpaid amounts to a collection agency for recovery.

(2) In addition to the fines assessed pursuant to this chapter, the person responsible for any violation shall be liable for an additional collection fee where the collection of the fines provided for herein is referred for collection. The amount of such fee shall be 25 percent of the outstanding indebtedness or $250.00, whichever is less. The amount of any such collection fee shall accrue and become due and payable at the time the

indebtedness is referred for collection to the collection agency, and that amount may be added by the collection agency to the amount sought to be collected. Any judgment or amended judgment entered under this chapter may include the amount of the collection fee authorized herein.

4. Revocation of animal related permit. Animal protection services may initiate revocation of any animal related permit issued in accordance with HMC 7.04, 7.60, 7.65, 7.70, 7.75, or 7.80.

(3) The director or designee shall set a hearing and shall issue notice of the hearing date no later than ten days prior to the date set for the hearing, unless a shorter time period is agreed to in writing by the appellant. The notice shall state the date, time, and location of the hearing, and shall include a short explanation of the hearing process.

B. Hearing procedures.

(1) The director or designee shall conduct and preside over the hearing. At the hearing, that person, referred to herein as the "presiding officer," shall direct the order of the proceedings and shall hear all evidence presented relevant to the subject violation(s), fines and/or fees.

(2) The hearing shall be informal in nature. The presiding officer is not bound by evidentiary or procedural rules applicable to public hearings or judicial proceedings. The presiding officer shall have discretion to record the hearing.

(3) The city will have an opportunity to present facts, statements, witness testimony, and other evidence to support its position. Affidavits or declarations of witnesses made under penalty of perjury may be presented by the city at the hearing if provided to the appellant no later than five days prior to the hearing.

(4) The appellant will have an opportunity to present facts, statements, witness testimony, and other evidence to support his or her position. Affidavits or declarations of witnesses made under penalty of perjury may be presented at the hearing if provided to the city no later than five days prior to the hearing.

(5) During the appeal hearing, the presiding officer may gather any relevant information regarding the subject enforcement action to assist in making a final decision. The presiding officer shall have the discretion to question witnesses, to allow rebuttal testimony, and to limit the presentation of immaterial or unduly repetitious evidence.

(6) After the conclusion of the hearing, the presiding officer shall consider all evidence presented relevant to the subject enforcement action and shall issue a decision regarding the disputed enforcement action. In his or her decision, the presiding officer is not authorized to grant exceptions or make modifications to the requirements of this Code. The decision shall be in writing and shall be issued no later than 30 days following the conclusion of the hearing and served on the appellant. The decision shall clearly state one of the following:

(a) That the notice, order, citation, fine and/or fee is upheld, including a short statement of findings explaining the basis for the decision, and providing a deadline for curing the subject violation and payment of any fines and fees, with a notification that fines will resume accruing daily thereafter until the subject violation is corrected, if applicable;

(b) That the notice, order, citation, fine and/or fee is reversed, including a short statement of findings explaining the basis for the decision; or

(c) That the notice, order, citation, fine and/or fee is modified, including a short statement of findings explaining the basis for the decision, and providing a deadline for any modified compliance obligations and payment of fines and/or fees, with a notification that fines will resume accruing daily until the subject violation(s) is corrected, if applicable.

(7) Any appellant who fails to appear at the hearing on the designated date and time is deemed to have waived the right to a hearing and to object to any of the proceedings at the hearing, provided that the hearing was properly noticed and no continuances were granted.

C. Post-hearing procedures.

(1) The decision of the presiding officer is the final administrative action on the appeal.

(2) In the event the decision or appeal requires abatement of a nuisance or correction of any violation under this Code, the owner or other responsible party must abate the nuisance or correct the violation within ten days after the date of the decision or within such other period as the decision may direct.

Affidavits or declarations of witnesses made under penalty of perjury may be presented at the hearing if they are provided to the other party no later than five days prior to the hearing date.

C. The hearing shall be conducted informally, shall not be constrained by evidentiary or procedural rules applicable to public hearings or judicial proceedings and shall provide a fair opportunity for the City and the permit holder to present evidence regarding the basis for revoking the permit. The presiding officer shall have the discretion to question witnesses, to allow rebuttal testimony, to limit the time of the hearing to a reasonable length, to limit the presentation of immaterial or unduly repetitious evidence, and to record the hearing.

D. After the conclusion of the hearing, the presiding officer shall consider all evidence presented and shall issue a decision to 1) uphold the revocation of the permit, 2) reinstate the permit, or 3) allow the permit to be reinstated upon the completion of certain conditions. The decision shall be made in writing, shall clearly state the basis

for the decision and any applicable deadlines for compliance with the decision, and shall be served no later than 30 days following the conclusion of the hearing. If the decision results in the permit revocation, it shall provide an effective date of revocation and include an order to cease operation of permit activities as of the effective date.

8.11.010 Definitions.

As used in this chapter:

Likely to interfere or *likely interfere* for purposes of the definitions of "parade" and "public assembly" is an objective standard that applies when a reasonable person viewing the situation in advance would anticipate significant interference with the ordinary flow of traffic. Whether an event meets the "likely to interfere" standard will turn on the reasonable expectations of the organizers of the event, given the size of the group, the precise plans for the event, whether the intention is to block traffic or avoid doing so, and the predictable conditions at the location and time the organizers have chosen.

Parade means any march, procession or motorcade upon the streets, highways, alleys, sidewalks, or other public rights-of-way with the intent of attracting public attention that interferes or will likely interfere with the normal flow or regulation of traffic, or, if in a public park or other public space, consists of 150 or more persons, including participants and spectators.

Person means any person, firm, partnership, association, corporation, company or organization of any kind.

Public assembly means any meeting, demonstration, picket line, rally or gathering of persons for a common purpose as a result of prior planning that interferes or will likely interfere with the normal flow or regulation of pedestrian or vehicular traffic, or, if in a public park or other public space, consists of 150 or more persons, including participants and spectators.

Spectator is a person who looks on; an observer. Spectators are not participants in parades or public assemblies.

Unit is a single thing or person or group that is a constituent of a whole.
(Ord. 2780, § 1, 2008; Ord. 2733, § 1, 2008; Ord. 2020, § 3 (part), 2000)

A. No person shall engage in or conduct any parade or public assembly unless a permit is issued by the chief of the Henderson police department or his designee, and shall not conduct, manage or participate in any parade or public assembly in violation of, or in any manner contrary to, the provisions of such permit. The parade or public assembly permit is in addition to any other permits required by the Uniform Fire Code adopted in chapter 15.32, or any other required permits.

B. A violation of any provision of this section shall be a misdemeanor.
(Ord. No. 3012, § 1, 5-21-2013; Ord. 2020, § 3 (part), 2000)

8.11.030 Exceptions.

This chapter shall not apply to the following:

A. Funeral processions;

B. Students going to and from school classes or participating in educational activities, provided that such conduct is under the immediate direction and supervision of the proper school authorities; and

6. The approximate number of persons who, and animals and vehicles which, will constitute such parade or public assembly and the type of animals and description of the vehicles;

7. The hours when such parade or public assembly will start and terminate;

8. A statement as to whether the parade or public assembly will occupy all or only a portion of the width of the streets proposed to be traversed;

For news or affairs coming into public knowledge within 72 hours of the parade or public assembly the two business day requirement shall be shortened to one business day. If the permit cannot be timely granted, the permittee may conduct a parade or public assembly on the grounds of the Henderson Civic Plaza, if not otherwise being used by or with the permission of the city for another event. The police chief or his designee may impose reasonable time, place and manner restrictions on a spontaneous event. If and only if the Henderson Civic Plaza is not available, a parade or public assembly may take place in a park or on a public sidewalk. If in a public park, the total group must not consist of more than 500 people at any given time, and each participant must not unreasonably interfere with any recreational use taking place and obey all park regulations. If on a public sidewalk, the total group must not consist of more than 150 people at any given time, must assemble or parade in smaller groups of no more than 25 with no more than two persons side by side, and each of these smaller groups must keep a distance from the other of at least 50 feet. D. The obstruction of flood channels, washes, and spreading grounds creates a hazardous condition to the public health and safety by interfering with the flow of stormwater drainage, which may cause death or serious bodily injury during unexpected flash floods. (Ord. No. 3967, § 1, 6-6-2023)

8.85.010 Graffiti—Legislative findings.

The Henderson city council finds that:

A. Incidents of the defacement of public and private property through the application of graffiti upon walls, signs, streets, sidewalks, trees, rocks, bridges, buildings, fences, gates, other structures, and other real and personal property within the City of Henderson constitute a blight on the community, and are inimical to the health, safety and general welfare of the community.

B. Such defacement of property is most often committed by persons under the age of 18 years using aerosol containers of spray paint, broad tipped indelible markers or paint sticks.

C. When any such person has a legitimate need for aerosol containers, markers or paint sticks the same may be furnished by a parent or guardian.

D. Aerosol containers, markers or paint sticks are frequently stolen from retail stores by such persons.

E. The sale of aerosol containers, markers or paint sticks to such persons should therefore be prohibited, and persons who are engaged in the retail sale of aerosol containers, markers or paint sticks should be required to take reasonable steps to prevent the theft of such items.

F. The placement of graffiti is often done in connection with gang activities.

G. When appropriate, the courts should require those who commit acts of defacement of public or private property through the application of graffiti, to restore the property so defaced, damaged or destroyed.

H. Obtaining convictions for the application of graffiti is difficult due to the fact that the offense can be committed quickly and secretively that witnesses to the act are frequently nonexistent.

I. To eliminate graffiti in the City of Henderson, the public should be encouraged, through the promise of a reward, to cooperate with law enforcement authorities by reporting any observed incidents of the application of graffiti.

(Ord. No. 3320, § 1, 12-15-2015; Ord. 1533, § 1, 1994; Ord. 1423, § 1 (part), 1993)

Pedestrians facing a steady yellow signal, unless otherwise directed by a pedestrian-control signal as provided in section 10.20.100, are thereby advised that there is sufficient time to cross the roadway before a red indication is shown and no pedestrian shall then start to cross the roadway.
(Ord. 360, § 4-5(b), 12-20-1965)

10.20.090 Steady red indication.

Vehicular traffic facing a steady red signal alone shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until a green indication is shown.

The driver of a vehicle which is stopped as close as practicable to the right hand curb or edge of the roadway and as close as practicable to the crosswalk on the near side of the intersection or, if none, to the intersection in obedience to a red signal may make a right turn except where prohibited by sign, but shall yield the right-of-way to pedestrians and other traffic proceeding as directed by the signal at such intersection before making such turn.

Unless otherwise directed by a pedestrian-control signal as provided in section 10.20.100, pedestrians facing a steady red signal shall not enter the roadway.

In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of sections 10.20.060—10.20.090 shall be applicable

except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.
(Ord. 360, § 4-5(c, d), 12-20-1965)

10.20.100 Pedestrian-control signals.

Whenever special pedestrian-control signals exhibiting the words "Walk" or "Don't Walk" are in place such signals shall indicate as follows:

A. *Walk.* Pedestrians facing such signals may proceed across the roadway in the direction of such signal and shall be given the right-of-way by the drivers of all vehicles.

B. *Don't Walk.* No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the "Walk" signal shall proceed to a sidewalk or safety island while the "Don't Walk" signal is showing.
(Ord. 360, § 4-6, 12-20-1965)

10.20.110 Flashing signals.

Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal it shall require obedience by vehicular traffic as follows:

A. *Flashing red (stop signal).* When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

B. *Flashing yellow (caution signal).* When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules as set forth in section 10.36.090 of this title.
(Ord. 360, § 4-7, 12-20-1965)

10.20.120 Lane direction control signals.

When lane direction control signals are placed over the individual lanes of a street or highway, vehicular traffic may travel in any lane over which a green signal is shown, but shall not enter or travel in any lane over which a red signal is shown.
(Ord. 360, § 4-7.1, 12-20-1965)

10.20.130 Display of unauthorized signs, signals or markings.

No person shall place, maintain or display upon or in view of any highway an unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic control device or any railroad sign or signal. This paragraph shall not apply in cases of emergency when temporary warnings signs, flares or barricades are necessary to avoid a hazard which constitutes an immediate and impending danger to traffic providing that the police department is immediately notified of such hazard and of the placing of any temporary warning signs, flares or barricades.

No person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal bearing thereon any commercial advertising.

This section shall not be deemed to prohibit the erection upon private property adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs.

Every such prohibited sign, signal or marking is declared to be a public nuisance and the authority having jurisdiction over the highway is empowered to remove the same or cause it to be removed without notice.
(Ord. 360, § 4-8, 12-20-1965)

10.20.140 Interference.

No person shall, without lawful authority, attempt to or in fact alter, deface, injure, knock down or remove any official traffic control device or any railroad sign or signal or any inscription, shield or insignia thereon, or any other part thereof.
(Ord. 360, § 4-9, 12-20-1965)

10.20.150 Authority to establish play streets.

The city traffic engineer shall have authority for good and sufficient reason to declare any street or part thereof a play street and to place appropriate signs or devices in the roadway indicating and helping to protect the same.
(Ord. 360, § 4-10, 12-20-1965)

10.20.160 Play streets.

Whenever authorized signs are erected indicating any street or part thereof as a play street, no person shall drive a vehicle upon any such street or portion thereof except drivers of vehicles having business or whose residence are within such closed area, and then any said driver shall exercise the greatest care in driving upon any such street or portion thereof.
(Ord. 360, § 4-11, 12-20-1965)

10.20.170 Designation and establishment of crosswalks and safety zones.

The city traffic engineer is authorized:

To designate and maintain, by appropriate devices, marks, or lines upon the surface of the roadway, crosswalks at intersections where in his opinion there is particular danger to pedestrians crossing the roadway, and at such other places as he may deem necessary;

To establish safety zones of such kind and character and at such places as he may deem necessary for the protection of pedestrians.
(Ord. 360, § 4-12, 12-20-1965)

10.20.175 Curb markings.

The city may, in its discretion, mark curbs with the following colors which shall have the following meanings:

A. Red—No parking;

B. Yellow—Freight loading zone;

C. White—Passenger loading zone;

D. Green—Parking for no more than 12 minutes.

The absence on any curb of any of the above-listed painted colors does not signify that parking is otherwise allowed. The painting of curbs is intended to assist operators of motor vehicles in identifying areas where parking is prohibited or restricted, not to identify all places where parking is prohibited or restricted.
(Ord. 1663, § 6, 1996)

10.20.180 Traffic lanes.

The city traffic engineer is authorized to mark traffic lanes upon the roadway of any street or highway where a regular alignment of traffic is necessary.

Where such traffic lanes have been marked, it shall be unlawful for the operator of any vehicle to fail or refuse to keep such vehicle within the boundaries of any such lane except when lawfully passing another vehicle or preparatory to making a lawful turning movement.
(Ord. 360, § 4-13, 12-20-1965)

10.20.190 Avoiding traffic signals.

It is unlawful for any person to ride, drive or propel any vehicle over, across or through any public or private property to avoid having to obey traffic control signals or any other official traffic control device or signs, unless directed to do so by a police officer or other authorized person.
(Ord. 360, § 4-14, 12-20-1965)

10.23.010 Open containers unlawful in motor vehicles.

A. It is unlawful for a person to have in his or her possession, or on his or her person, while in a motor vehicle upon a highway, any bottle, can, or other receptacle containing any alcoholic liquor which has been opened, or a seal broken, or the contents of which have been partially removed.

B. It is unlawful for any occupant of any motor vehicle to actually or constructively possess, while in a motor vehicle, when the motor vehicle is upon any highway, any bottle, can, or other receptacle containing any alcoholic liquor which has been partially removed, unless the container is kept in the trunk of the vehicle or kept in some other area of the vehicle not normally occupied by the driver or passengers if the vehicle is not equipped with a trunk. A utility compartment or glove compartment shall be deemed to be within the area occupied by the driver and passengers.

C. Subsections A and B of this section do not apply to the passengers of a motor vehicle operated by a common carrier, taxicab, limousine, bus or other motor vehicle used to carry passengers for furtherance of commercial transportation enterprise, or the living quarters of a motorhome, housecar or camper.

(Ord. No. 4113, § 1, 10-21-2025)

Editor's note—Prior to the reenactment of section 10.24.020 by Ord. No. 4113, § 1, adopted October 21, 2025, Ord. No. 3968, § 3, adopted June 6, 2023, repealed the former section 10.24.020 in its entirety, which pertained to maximum limits, and derived from Ord. 10.24.030 Determination of speed limits.

Whenever the city traffic engineer determines, upon the basis of an engineering and traffic investigation, that the safe and orderly movement of traffic upon any highway, street, alley and thoroughfare whether public or private, will be facilitated by the establishment of a different speed limit, the city traffic engineer may determine and declare a reasonable and safe maximum speed limit. The city traffic engineer may set conditions associated with the declared speed limit including but not limited to day, time, type of vehicles, weather conditions and any other factors bearing on safe speeds. The maximum speed limit shall be declared to be in effect upon the appropriate signs being erected.
(Ord. No. 3137, § 1, 4-1-2014; Ord. 360, § 5-3, 12-20-1965)

Editor's note—Ord. No. 3137, § 1, adopted April 1, 2014, changed the title of section 10.24.030 from "Establishment of speed zones" to "Determination of speed limits." The historical notation has been preserved for reference purposes.

10.24.040 Reserved.

Editor's note—Ord. No. 3968, § 3, adopted June 6, 2023, repealed the former section 10.24.040 in its entirety, which pertained to minimum speed regulations, and derived from Ord. 360, § 5-4, adopted December 20, 1965.

10.24.050 Drag race or drag racing.

The term "drag race" or "drag racing" is defined as the operation of two or more vehicles from a point side by side at accelerating speeds in a competitive attempt to outdistance each other or the operation of one or more vehicles over a common selected course, from the same point to the same point, wherein timing is made of the participating vehicles involving competitive accelerations or speeds.

No person shall participate in a drag race within the city unless authorized in an area approved by the chief of police and the city traffic engineer, subject to such rules and regulations as may be required by the chief of police.

Persons rendering assistance in any manner to such competitive use of vehicles shall be equally charged as a participant.

The operation of two or more vehicles side by side at speeds in excess of maximum lawful speeds or the operation of one or more vehicles rapidly accelerating from a common starting point to a speed in excess of the maximum lawful speed, shall be prima facie evidence of drag racing.
(Ord. 360, § 5-5, 12-20-1965)

10.24.060 Exhibition of speed.

No person shall engage in any motor vehicle exhibition of power or speed on a highway, street, alley or other thoroughfare open to the public or while exiting from an intersection, stop sign or stop light. For purposes of this section any unnecessary or avoidable spinning of wheels shall be deemed prima facia evidence of an exhibition of power or speed.
(Ord. No. 3137, § 1, 4-1-2014)

Editor's note—Ord. No. 3137, § 1, adopted April 1, 2014, amended section 10.24.060 in its entirety to read as herein set out. Formerly, section 10.24.060 pertained to maximum speed limit, and derived from Ord. No. 360, § 5-6, adopted December 20, 1965.

10.24.070 Determination of speed.

Any relevant evidence of speed is admissible including without limiting the following:

A. Estimation by visual observation of a moving vehicle;

B. The speedometer reading of a following vehicle at a speed not greater than the speed of the vehicle being followed;

C. Readings from radar equipment designed for such purposes when the equipment has been tested with a tuning fork after being set up at the location where the reading was taken;

D. Computations from skid marks as follows:

1. The speed nomograph produced herein or a facsimile thereof may be used for the purpose of determining either skidding distance, speed, or skid resistance when two of the factors are known, by the use of a straight line, two points of which shall be the points of intersection on the two scales at the reading of the known factors and the third point of which is the point of intersection with the scale for the factor to be determined by the reading at the point of intersection,

2. Skidding distance may be determined by total of the measurements of the skid marks from each wheel of a vehicle divided by the number of wheels,

3. Speed may be determined by a speedometer in the vehicle,

4. Skid resistance may be determined by making three test stops with any vehicle traveling at a known speed when brakes are applied and utilizing subsections (D)(2) and (3) above with the speed nomograph. The lowest of the three results shall be considered the skid resistance;

E. Evidence introduced pursuant to subsections A, B or C in the first paragraph of this section shall be prima facie evidence of the minimum speed of a vehicle.

Chapter 10.24 SPEED REGULATIONS

Sections:

10.24.010 Basic rules.
10.24.020 Maximum limits.
10.24.030 Establishment of speed zones.
10.24.040 Minimum speed regulations.
10.24.050 Drag race or drag racing.
10.24.060 Maximum speed limit.
10.24.070 Determination of speed.

10.24.010 Basic rules.

A. No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions and having regard to the actual and potential hazards then existing. In every event speed shall be so controlled as may be necessary to avoid colliding with any person, vehicle or other conveyance on or entering the highway in compliance with legal requirements and the duty of all persons to use due care.

B. Except when a special hazard exists that requires lower speed for compliance with subsection A of this section, the limits specified in this section or established as hereinafter authorized shall be maximum lawful speeds, and no person shall drive a vehicle on a highway at a speed in excess of such maximum limits.

C. The driver of every vehicle shall, consistent with the requirements of subsection A of this section, drive at an appropriate reduced speed when approaching and crossing an intersection or railway grade crossing, when approaching and going around a curve, when approaching a hill crest, when traveling upon any narrow or winding roadway, or when special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions.
(Ord. 360, § 5-1, 12-20-1965)

10.24.020 Maximum limits.

The maximum speed limit shall be 15 miles per hour when passing a school building or the ground thereof, contiguous to the street or highway on the days when school is in session from 8:00 a.m. until 5:00 p.m. Such prima facie limit also shall apply when passing any school grounds which are not separated from the street or highway by a fence, gate or any other physical barrier, while such grounds are in use by children. The maximum speed limit shall be 25 miles per hour on all streets and highways unless a different speed limit is posted pursuant to the provisions set forth in this Code. All speed zones established for

which signs have been posted for a rate of speed other than 25 miles per hour as of the effective date of this title are hereby ratified and approved subject to change pursuant to section 10.24.030.
(Ord. 360, § 5-2, 12-20-1965)

10.24.030 Establishment of speed zones.

Whenever the city traffic engineer shall determine upon the basis of an engineering and traffic investigation that any maximum speed hereinbefore set forth is greater or less than is reasonable or upon any highway, street, alley or other thoroughfare open to the public, the city traffic engineer may determine and declare a reasonable and safe maximum limit thereat, which shall be effective when appropriate signs giving notice thereof are erected. Such a maximum speed limit may be declared to be effective at all times or at such times as are indicated upon the signs; and differing limits may be established for different times of day, different types of vehicles, varying weather conditions, and other factors bearing on safe speeds, which shall be effective when posted upon appropriate fixed or variable signs.
(Ord. 360, § 5-3, 12-20-1965)

10.24.040 Minimum speed regulations.

No person shall drive a motor vehicle at such a slow speed as to impede the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

Whenever the city traffic engineer determines on the basis of an engineering and traffic investigation that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the city traffic engineer may determine and declare a minimum speed limit below which no person shall drive a vehicle except when necessary for safe operation or in compliance with law.
(Ord. 360, § 5-4, 12-20-1965)

10.24.050 Drag race or drag racing.

The term "drag race" or "drag racing" is defined as the operation of two or more vehicles from a point side by side at accelerating speeds in a competitive attempt to outdistance each other or the operation of one or more vehicles over a common selected course, from the same point to the same point, wherein timing is made of the participating vehicles involving competitive accelerations or speeds.

No person shall participate in a drag race within the city unless authorized in an area approved by the chief of police and the city traffic engineer, subject to such rules and regulations as may be required by the chief of police.

Persons rendering assistance in any manner to such competitive use of vehicles shall be equally charged as a participant.

The operation of two or more vehicles side by side at speeds in excess of maximum lawful speeds or the operation of one or more vehicles rapidly accelerating from a common starting point to a speed in excess of the maximum lawful speed, shall be prima facie evidence of drag racing.
(Ord. 360, § 5-5, 12-20-1965)

10.24.060 Maximum speed limit.

The speed of any vehicle in excess of any of the limits specified herein or established as authorized in this code is unlawful.
(Ord. 360, § 5-6, 12-20-1965)

10.24.070 Determination of speed.

Any relevant evidence of speed is admissible including without limiting the following:

A. Estimation by visual observation of a moving vehicle;

B. The speedometer reading of a following vehicle at a speed not greater than the speed of the vehicle being followed;

C. Readings from radar equipment designed for such purposes when the equipment has been tested with a tuning fork after being set up at the location where the reading was taken;

10.32.120 Restricted access.
10.32.130 Driving in parking lanes.

10.32.010 Drive on right side of roadway—Exceptions.

A. Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

1. When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

2. When an obstruction exists making it necessary to drive to the left of the center of the street, provided, any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the street within such distance as to constitute an immediate hazard;

3. Upon a street divided into three marked lanes for traffic under the rules applicable thereon; or

4. Upon a roadway designated and signposted for one-way traffic.

B. Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge or the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

C. Upon any street having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the centerline of the roadway, except when authorized by official traffic control devices designating certain lanes to the left side of the center of the street for use by traffic not otherwise permitted to use such lanes, or except as permitted under subsection (A)(2) of this section.
(Ord. 360, § 7-1, 12-20-1965)

10.32.020 Passing vehicles proceeding in opposite directions.

Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction each driver shall give to the other at least one-half of the main traveled portion of the roadway as nearly as possible.
(Ord. 360, § 7-2, 12-20-1965)

10.32.030 Overtaking a vehicle on the left.

The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions and special rules hereinafter stated.

A. The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

B. Except when overtaking and passing on the right is permitted the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.
(Ord. 360, § 7-3, 12-20-1965)

10.32.040 Overtaking on the right—When permitted.

The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) When the vehicle overtaken is making or about to make a left turn;

(b) Upon a street or highway with unobstructed pavement not occupied by parked vehicles of sufficient width for two or more lines of moving vehicles in each direction;

(c) Upon a one-way street, or upon any roadway on which traffic is restricted to one direction of movement, where the roadway is free from obstructions and of sufficient width for two or more lines of moving vehicles.

The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main traveled portion of the roadway.
(Ord. 360, § 7-4, 12-20-1965)

10.32.050 Limitations on overtaking on the left.

No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this article and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within 200 feet of any approaching vehicle.
(Ord. 360, § 7-5, 12-20-1965)

10.32.060 Further limitations on driving to left of center of roadway.

No vehicle shall at any time be driven to the left side of the roadway under the following conditions:

(a) When approaching the crest of a grade or upon a curve in the highway where the driver's view is obstructed within such distance as to create hazard in the event another vehicle might approach from the opposite direction;

(b) When approaching within 100 feet of or traversing any intersection or railroad grade crossing;

(c) When the view is obstructed upon approaching within 100 feet of any bridge, viaduct or tunnel.

The foregoing limitations shall not apply upon a one-way roadway.
(Ord. 360, § 7-6, 12-20-1965)

10.32.070 No-passing zones.

The city traffic engineer is hereby authorized to determine those portions of any street where overtaking and passing or driving to the left of the roadway would be especially hazardous and may be appropriate signs or markings on the roadway indicate the beginning and end of such zones and when such signs or markings are in place and clearly visible to an ordinarily observant person every driver of a vehicle shall obey the directions thereof.

Where signs or markings are in place to define a no-passing zone as set forth in the preceding paragraph no driver shall at any time drive on the left side of the roadway within such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

A double yellow line shall constitute the paving striping designed to make a "no-passing" zone.
(Ord. 360, § 7-7, 12-20-1965)

10.32.080 One-way roadways and rotary traffic islands.

The city traffic engineer may designate any street or any separate roadway under its jurisdiction for one-way traffic and shall erect appropriate signs giving notice thereof.

Upon a roadway designated and signposted for one-way traffic a vehicle shall be driven only in the direction designated.
(Ord. 360, § 7-8, 12-20-1965)

10.32.090 Driving on roadways laned for traffic.

Whenever any roadway has been divided into two or more clearly marked lanes for traffic the following rules in addition to all other consistent herewith shall apply.

(a) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into three lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction when such center lane is clear of traffic within a safe distance, or in preparation for making a left turn or where such center lane is at the time allocated exclusively to traffic moving in the same direction that the vehicle is proceeding and such allocation is designated by official traffic control devices.

(d) An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.

No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed. (Ord. 360, § 8-9, 12-20-1965)
